Work Study Job Description

Job Title	student system administrator
Department Name	Electrical Engineering
Job Location	EEB-206
Pay Rate	$11 - $15
Employment Period	Summer, Academic Year
Hours Per Week	19 hrs/wk
Contact Supervisor	Lee Damon
Phone Number	206-221-5618
Email Address	nomad@ee.washington.edu
Website	http://ssli.ee.washington.edu
Box Number	352500

Nature of Organization
Computing support for 4 research labs in the Electrical Engineering Dept. 99% Linux with some Solaris and FreeBSD for variety.
Duties and Responsibilities
Maintain daily backups system (make sure it is working, update tapes, perform regular offsite backups). Create accounts, assign home directory & project space as appropriate. Assist users with computing problems from logging in, printing to compiling and installing software. Assist with quarterly patching of all systems in all labs. Other project work as assigned.
Minimum Qualifications
To qualify you must have experience with Unix or Unix-like (Linux, Solaris, etc) operating systems. Excellent candidates will be willing to learn (a lot) quickly, and have a helpful attitude. Experience with IP networking a plus. Programming experience also a plus. Applicant must be qualified for at least 2 years of student employment.

Educational Benefits
System administration skills (including diagnostic techniques) will be provided with expectation of quick grasp of concepts and a willingness to be challenged. Training in configuration management, AFS, and High Throughput Computing among other technologies.
How to Apply
Submit resume (in text, postscript, or PDF only) to studentsa@ssli.ee.washington.edu.
