Nature of Organization
Webkey is a a web application company that has created a unique, hosted CMS that allows our customers to create and manage their dynamic website and collaborate online. Our system allows for customization and the addition of modules as a project requires.
Duties and Responsibilities
A majority of the customer work is for small to mid-sized businesses and organizations (industries: non-profit, travel, building, environmental, etc.). Most of these companies need customized solutions tailored to their unique business needs and this is what we deliver. This position will focus on front end development (HTML, CSS, Javascript) with an understanding of back end (PHP, MySQL) and a desire to grow. Work as a part-time (10-15 hrs/wk) web developer. You will begin working within the existing development framework. Initially, the focus will be on delivery of promised installations to clients. Basically, you will be helping us maintain the CMS and build dynamic websites. There is great potential for continuous work.
Minimum Qualifications

Skilled in PHP, MySQL and Javascript
Proficient in HTML, CSS
Experience with jQuery (preferred)
Excellent verbal and written communication skills
Able to write clear, cross-browser and standards-compliant XHTML/CSS
Able to work with minimal supervision, produce clear results and collaborate often
Able to work remotely and meet at our office in the U-District periodically
Completed/in progress BS degree in computer science or equivalent combination of education & experience
A good sense of humor

Educational Benefits

We offer:
Flexible working environment and schedule
Competitive pay

We are a small team of talented web developers and designers who thrive in a creative environment where independence, flexibility, and professionalism are encouraged. The passion to create great dynamic websites is balanced by our other creative pursuits. The best candidate would subscribe to a similar philosophy. Come join us.
