1	Row 16 Column 4	Screen Entry	The number entered, 678, has an expected range of between 816 and 1152. Please explain this difference.	Explanation	Yes
Reason:	The number reported here is correct. This survey was previously completed by another office on campus. Previous programming mistakes have now been corrected. The variable used in previous years to differentiate full-time from part-time employees was not robust; this problem has been corrected. The result is that our current report indicates more part-time and fewer full-time employees than in past reports.
