

# An eProcurement solution offered by CDW·G for the University of Washington.

CDW·G is proud to offer the University of Washington an easy-to-use IT purchasing solution directly from the UW eProcurement system.

## CDW·G provides the University of Washington with:

- **A dedicated CDW·G account team** that leads the industry in public-sector customer service and product knowledge. Jason Schwartz and Paul Somers are your dedicated, inside account managers that are accessible by phone, e-mail, and the web
- **A pre-negotiated University of Washington contract** (contract # 012209) to give you the best price on hardware, software and services — without having to obtain bids
- **A wide breadth of products** from over 1,000 leading brand-name manufacturers. There are over 100,000 products available on contract from manufacturers like HP, Adobe, Microsoft, APC, and Xerox
- **Priority consulting** from over 800 pre-sales engineers covering all technology disciplines (network security, data storage/disaster recovery, wireless, power and cooling, and more). Engineering resources can be tailored to your specific project and needs
- **Free ground shipping** on all orders. CDW·G ships 95% of in-stock orders the same day received. All orders will ship from CDW·G's distribution center located in Las Vegas, NV and on average, will arrive within 2-3 business days of placing the order
- **Deep relationships and resources** with many of the top manufacturer partners including APC, HP, Cisco, Symantec, Microsoft, IBM and more. This enables CDW·G to provide the best guidance and pricing on the technology solutions that you need
- **A full featured website** that is fully integrated within UW eProcurement. This custom site is easy to navigate, provides substantial information on the contract and offerings, and will support the ability to convert quotes to orders.

## With CDW·G's eProcurement integration, you can:

- Search and shop directly from CDW·G's e-commerce system for all your IT solutions
- Access the UW account team via phone e-mail and the web
- Distribute orders directly to CDW·G electronically
- Convert CDW·G generated quotes to orders directly within UW eProcurement for order placement
