

CAMPUSPOINT INTERNATIONAL PROGRAM

THE PROGRAM:

The CampusPoint International Program (CIP) is an opportunity to live and work abroad for a year. The CIP is open to all majors and requires no specific experience!

THE POSITION (AND THE PERKS):

CIP participants will work as Conversational English Teachers in a public school setting.

- A standard fulltime working schedule of about 40 hours per week, Monday - Friday
- Tax free compensation sufficient to live comfortably abroad while also saving money
- Free single apartment provided with no roommates
- Airfare to and from overseas destination included
- About 3 weeks paid vacation
- Health insurance benefits
- Training and orientation provided

CAMPUSPOINT ADVANTAGES:

The opportunity to live and work abroad isn't new - but CampusPoint's approach is completely new.

We've got "Something in Common!"

- Virtually all CIP participants are recent college graduates from Washington and Oregon - and CIP is committed to making sure our participants have access to one another both before and after they arrive overseas.

Make New Friends at the Going Away Party - Plus More!

- CampusPoint sponsors a FREE Going Away Party about one month prior to every CIP group departure. Once abroad, the CIP provides easy web-based access to contact information for all CIP participants - even those you didn't meet at the party!

Work in the Same Geographic Area as Other CIP Participants!

- What good would it be to meet other CIP participants if you don't work in the same geographic area? Thus, the CIP makes an effort to "cluster" CIP participants in similar geographic regions.

Public Schools Instead of Private Schools!

- Virtually all CIP positions are located in public schools. This means CIP participants receive training and orientation, are guaranteed daytime work hours with weekends off, and best of all, will be partnered with a professional "co-teacher" for the duration of their employment. Above all else, public schools offer a stable, consistent, and predictable work environment.

Face to Face Recruiting Process!

- Call us old fashioned, but all CIP candidates actually meet the CampusPoint staff members responsible for helping them live and work successfully overseas. They'll also meet former overseas program participants and are able to ask questions.

In Country Support Available - if Needed!

- Through an innovative partnership, CIP actually has on-the-ground, in-country support available if needed.

There are other ways to find jobs like those offered by the CIP but you won't find all of the CIP advantages anywhere else.

THE REQUIREMENTS:

In order to participate in the CIP, we require:

- A bachelor's degree in any major from an accredited college or university.
- No criminal history whatsoever including DUIs
- Excellent health
- Be a native English speaker (English is your first and primary language)
- The ability to get a passport from one of the following countries: United States, United Kingdom, Canada, New Zealand, South Africa or Australia

ON THE WEB:

Join www.CampusPoint.com to learn much more about the CIP! Online you'll find:

- Graphical explanation of the application process
- A highly in-depth FAQ covering every aspect of the program
- Slideshows showing life overseas
- Detailed job descriptions
- Much more!
- Best of all - you can apply!
