

Don't waste another drop.

Taking good care of your vehicle can add up to big savings at the gas pump.

How we can help.

Free inspections with your oil change

- Replacing a clogged air filter can improve your vehicle's gas mileage by as much as 10%.
- Properly inflated tires are safer and last longer. A full set of tires underinflated by only 5 lbs. of pressure would reduce your fuel economy by roughly 2%.

Use the correct grade of oil

Using the manufacturer's recommended grade of motor oil for your vehicle can help save 1 to 2% at the pump. We have the latest manufacturer's recommendations for your car or truck.

Maintain your fuel system

- Our **Fuel System Cleaning Service** cleans and lubricates the injectors, removes carbon deposits and varnish in the combustion chamber, reduces exhaust emissions, restores lost gas mileage and improves engine performance.
- Replace your fuel filter as recommended by your vehicle manufacturer. A restricted fuel filter could lead to poor acceleration and reduced engine performance as well as other engine performance issues.

\$25.99 Oil Change

COUPON REQUIRED

NO APPOINTMENT NECESSARY.

Regular price varies by location. Most vehicles, plus tax. Coupon not valid with any other offer or discount. Additional charge for synthetic blend or full synthetic oil. **Coupon expires 4/30/2009.** Code DAWG-O
