

Selected Collections Available for Research at the Burke Museum

The Burke Museum has many collections available for research. The following list is just a sample of collections at the museum that you may find useful in researching the region's archaeology. If you are looking for a particular site number or type of site, or want more information on accessing collections, please contact Laura Phillips, Archaeology Collections Manager.

Site Number	Site Name	Controlling Agency (other than Burke)	Excavation Date	Principal Investigator	Contents	Volume (Cubic Feet)	State of Collection
45-CL-29			1972	Schalk	Level bags - lithics, bone, charcoal	21	Original field containers; no electronic catalog.
45-GR-2			1950	Swanson	Botanical, cordage, wood, lithics, bone	7	Original field containers; no electronic catalog.
45-JE-14	Quilcene Site		1975	Rufus & Larsen	Level bags - lithics, charcoal, sediment	7	Original field containers; no electronic catalog.
45-KI-23	Duwamish No. 1	Port of Seattle	1976/78 1986	Campbell BOAS/URS	Level bags - historic, bone, lithics, sediment, charcoal, botanical, shell	149	1976/78 collection rehoused in 1980s; no electronic catalog.
