

Arctic Snow Goggles

A great winter activity!

Arctic Snow goggles!

Tim's Snow goggles!

Supplies: String, popsicle sticks, paper, crayons or markers, scissors, hole punch.

Step 1: Cut out snow goggle pattern with scissors.

Step 2: Cut small slits along the dotted lines.

Step 3: Glue popsicle sticks to the back of the pattern, above and below the eye openings.

Step 4: Punch holes in the side of the pattern and attach string.

Step 5: Decorate and design.

Step 6: Put on your goggles!

Now you are ready to go hunting on the ice without being blinded by the sun.

Before materials like plastic and elastic were available, snow goggles were carved from wood, bone, ivory, or antler.
