

## **Mentor Application**

**DO-IT**

**Shape the future...**

**be a *DO-IT Mentor*.**

The DO-IT (Disabilities, Opportunities, Internetworking, and Technology) electronic mentoring community provides an opportunity for students with disabilities to communicate via electronic mail and during program activities with *Mentors* and other students with disabilities. Your role as a *DO-IT Mentor* is a mix of friend and teacher. Your goal is to inspire and facilitate personal, academic, and career achievements in the DO-IT participants for whom you mentor. These protégés are college-capable students with disabilities pursuing challenging academic and career fields.

### **Do you have what it takes to be a *DO-IT Mentor*?**

The relationships you develop with your protégés become channels for the passage of information, advice, challenges, opportunities, and support. *DO-IT Mentors* offer protégés:

- **Information**  
*Mentors* share their knowledge, experiences, and wisdom.
- **Contacts**  
*Mentors* provide valuable opportunities by facilitating academic, career, and personal contacts.
- **Challenges**  
*Mentors* stimulate curiosity and build confidence by presenting new ideas, opportunities, and challenges.
- **Support**  
*Mentors* encourage growth and achievement by providing an open and supportive environment.
- **Goal Setting**  
*Mentors* help protégés discover talents and interests and define and attain their goals.
- **Advice**  
*Mentors* guide protégés in reaching academic, career, and personal goals.
- **Role Models**  
By sharing stories of achievement with protégés, *Mentors* can become role models.

### **Who are *DO-IT Mentors*?**

*DO-IT Mentors* are college students, postsecondary faculty, and professionals in a variety of challenging academic and career fields. Many of the *Mentors* have disabilities themselves. The *Mentors* support high school and college students with disabilities as they transition to college and careers.

### How do *DO-IT* Mentors and protégés communicate?

*Mentors* and protégés communicate primarily through the use of electronic mail. Email eliminates the challenges imposed by time, distance, and disability that are characteristic of in-person mentoring. Frequent email communication combined with personal contact at *DO-IT* sponsored events, facilitates personal, academic, and career achievement.

*DO-IT Mentors* are subscribed to several electronic discussion lists. These lists include the following:

- *doitsem*—A public forum to discuss STEM issues pertaining to individuals with disabilities.
- *doitchat*—A forum where *DO-IT* protégés and *Mentors* interact.
- *mentors*—A discussion list for *Mentors*.
- disability-specific lists—Where *Mentors* and protégés each participate in one of five special interest groups to discuss issues related to a specific disability area.

For more information about *DO-IT*'s mentoring community, consult *Opening Doors: Mentoring on the Internet* at <http://www.washington.edu/doit/Brochures/Technology/doors.html>.

### AccessSTEM Mentoring Teams

As part of a special project, *DO-IT* is inviting *Mentors* with academic or professional backgrounds in science, technology, engineering, and mathematics (STEM) fields to participate in *AccessSTEM* mentoring teams. This effort is part of *DO-IT*'s *Alliance for Students with Disabilities in Science, Technology, Engineering, and Mathematics*, which is funded by the National Science Foundation (award #HRD-0227995 and #HRD-0833504). Each mentoring team links students together with *Mentors* who are studying, teaching, and working in a STEM area similar to those the protégé is interested in pursuing. Ideally, each *AccessSTEM* mentoring team is composed of at least one high school student, one college student, and one STEM professional. These *Mentors* participate on the *AccessSTEM*, *mentors*, and *doitsem* discussion lists; they have the option of joining *doitchat* and disability-specific lists.

### Applying to become a *Mentor*

As a *DO-IT Mentor*, you must have access to email and the Internet. To apply to be a *DO-IT Mentor*, complete the attached application.

Because safety is of particular concern for young people using the Internet, this position requires completion of a criminal history background check. All *Mentor* candidates are asked to complete and return the University of Washington Conviction Criminal History Information form. This form will be mailed to you once we receive your completed application.
