Department of Pediatrics Newsletter
January 2016

Items to be covered in this edition:
I. Important Dates
II. Funding Opportunities
III. Welcome to New Faculty/Changes to Current Faculty
IV. Chief Residents 2017-2018
V. Faculty News
VI. Faculty Publications and Presentations

I. IMPORTANT DATES

Monday, January 25: Promotion Preparation Meeting. The Department of Pediatrics Promotions Committee expects that faculty members who will be submitting promotion packages in the spring of 2016 for consideration for promotion in July 2017 attend one of two required promotion preparation meetings. Additionally, if being considered in 2016, your Division Head and your Division Head’s assistant MUST attend one of these meetings, even if you attended one last year (you do not all need to attend on the same date). Please RSVP to diane.wade@seattlechildrens.org or 206-987-1713.

Wednesday, January 27: Bioethics Seminar. 3-4PM in RC.3.905 at Seattle Children's Hospital. “Addressing Social Context When Making Decisions for Advanced Technologic Supports” presented by Dr. Renee Boss, Associate Professor of Pediatrics, Division of Neonatology, Johns Hopkins School of Medicine; Johns Hopkins Berman Institute of Bioethics. Email bioethics@seattlechildrens.org for more information.

Thursday, January 28: Department of Pediatrics Clinical Finance, Faculty recruitment, appointments/promotion and Staff HR/Payroll Teams Move to Springbrook. On Thursday, January 28, the Human Resource/Payroll team currently based in the RR wing of the Health Science Building will move to Springbrook (Suite 100). The Department staff currently located in Mariner Moose: Clinical Finance, Faculty Recruitment, and Faculty Appointments/Promotions will also move to Springbrook on the same day. These teams include: Kateri Schlessman, Diana Smith, Tim Appel, Travis Ewing, Anne Alexander, Julie Hanon, Diane Wade, Amanda Steele, Heather Bliss, Marie Pasquale and Brandi Okano. Phone numbers and e-mails for staff at SCH will not change. Staff moving from UW will be given SCH phone numbers and e-mails. However, UW phone numbers will be forwarded as part of the transition plan and UW e-mails will be maintained. All staff contact information will be updated in CHILD after the move day.

Thursday, January 28: Sconyers/Godfrey Ethics Grand Rounds. 8-9AM in Wright Auditorium at Seattle Children’s Hospital. “Do Physicians Exert Undue Influence When Recruiting for Clinical Trials in the NICU?” presented by Dr. Renee Boss, Associate Professor of Pediatrics, Division of Neonatology, Johns Hopkins School of Medicine; Johns Hopkins Berman Institute of Bioethics. Email bioethics@seattlechildrens.org for more information.

Monday, February 1: 2016 Pediatric Faculty Meeting. 5:15-7:30PM (5:15-5:45PM social gathering; 5:45-7:30 PM program) in Wright Auditorium at Seattle Children's Hospital. Attendance at faculty meetings is an expected faculty responsibility when one does not have unavoidable conflicts. Childcare will be available from 5:00-8:00 PM. Children must be between the ages of 4-10 years of age. Please let Diane know if you will use this service. Questions? Contact diane.wade@seattlechildrens.org. Next faculty meetings: Wednesday, June 1 & Wednesday, October 5.

Wednesday, February 3: Patient Safety Conference. 12-1PM in Wright Auditorium at Seattle Children’s Hospital. “Preoccupation with Failure: Keeping Patients Safe When The Computers Go Down” presented by Dr. Brianna Enriquez, Associate Professor of Pediatrics, UW; Division of Emergency Medicine, Seattle Children’s Hospital, Medical Director of Emergency Management, Kate Lindsey, RN, MN, Director of Safety systems and Emergency Management, and Dale Landis, BSN, Safety Systems Clinical Consultant. Light lunch will be served at 11:45AM.
Wednesday, February 3: Oral & Maxillofacial Surgery Grand Rounds. 6-7PM in Turner Auditorium (D-209), UW Health Sciences Building. “Arising MRI (Magnetic Resonance Imaging) Techniques in Head and Neck Pathology” presented by Dr. Jalal Andre, Assistant Professor of Radiology, UW; Director of Neurological MRI and MRI Safety Officer, Harborview Medical Center. Please RSVP. Light meal served at 5:30PM. Link

Thursday, February 11: 4th Annual Women Faculty Day. 8AM-5PM at the Center for Urban Horticulture, NHS Hall (3501 NE 41st St). Fine-tune your leadership skills and negotiation strategies. The morning session features Dr. Nina Mayr sharing lessons from women leaders, a panel of UW Medicine female leadership, and Dr. Joyce Wipf presenting negotiation strategies. The afternoon session includes a mindfulness moment led by Dr. Claudia Finkelstein and small-group discussions on topics ranging from career and mentoring to work-life balance. Register by February 7, 9PM.

Monday, March 7: Enhancing Faculty Wellness: Conquering Clutter & Procrastination Workshop. 8:30AM-12PM at UW Health Sciences South Campus Center (NE San Juan Rd). This workshop will help explain why you procrastinate and hold on to things. Participants will learn techniques for letting go, managing time better, making good decisions and creating effective systems to fit their personal needs. Register by March 1, 12PM.

Wednesday, March 16: Annual Faculty Development Day. 8AM-5PM at the Center for Urban Horticulture, NHS Hall (3501 NE 41st St). The morning session will provide tools on leadership skills and working with others. Lunch provided. The afternoon session provides an interactive conflict resolution workshop where you can learn and practice skills for recognizing conflict in the workplace, as well as preparing and engaging in conversations addressing conflict with colleagues. Register by March 10, 12PM.

Tuesday, March 22: New Faculty Orientation: Welcome & Meet Paul Ramsey. 8:30AM-12PM at UW Health Sciences Building, Turner Conference Room (E-202). This optional program will help orient you to a few more things you may still be interested in learning to improve the quality of your experience here, including additional resources and tips for academic success. Register by March 15, 12PM.

Please see our Department Calendar for a complete list of upcoming events and more information.

II. FUNDING OPPORTUNITIES

January 29: SOM internal deadline for the Macy Foundation Faculty Scholars Program 2016

February 1: Deadline for the Sarcoma Foundation of America

February 1: Deadline for the Albert and Mary Lasker Foundation research awards

February 4: OR internal deadline for the Telehealth Resource Center Grant Program

February 4: OR internal deadline for the High-End Instrumentation (HEI) Grant Program (S10)

February 4: OR internal deadline for the Shared Instrumentation Grant (SIG) Program (S10)

February 15: Deadline for the International Anesthesia Research Society Mentored Research Awards

March 1: Deadline for applications for the K12 Patient-Centered Outcomes Research Program

March 7: Proposals due for the Spring 2016 round of the Royalty Research Fund (RRF) – please see attached for more information

March 16: Deadline for the Citizens United for Research in Epilepsy Pediatric Epilepsies Award

March 16: Deadline for the Citizens United for Research in Epilepsy Taking Flight Award

March 31: OR internal deadline for the St. Baldrick’s Foundation Infrastructure Grants

Please visit Seattle Children’s Research Funding Watch List or UW Office of Research for more information on funding opportunities.

IV. CHIEF RESIDENTS 2017-2018

We are delighted to announce that **Drs. Tim Savage, Suzanne Sundermann and Tavis Dickerson-Young** have agreed to be pediatric chief residents for 2017-18! Please take a moment to congratulate them on their upcoming leadership role in our residency program.

V. FACULTY NEWS

**Dr. Leslie Walker** and the Adolescent Substance Abuse Program were awarded a WA Department of Health Youth Marijuana Prevention and Education Program (YMPEP) grant in partnership with Public Health Seattle-King County and King County Department of Community and Human Services. The $489,685 grant will fund youth marijuana and tobacco prevention programs and activities in the King County region.

Congratulations to our Chairman, **Dr. Bruder Stapleton** on receiving an Employer of Choice award from UW Medicine as an outstanding leader to the Department of Pediatrics.

VI. FACULTY PUBLICATIONS AND PRESENTATIONS

**Dr. David Estroff** (Volunteer Faculty) gave a lecture titled "Assessment, Prevention and Treatment of Child and Adolescent Overweight and Obesity - 2015" to the Department of Pediatrics of the Medical College of the National Cheng Kung University in Tainan, Taiwan on November 30, 2015.

**Dr. Ron Louie** (Volunteer Faculty): Appoint an Alzheimer’s czar, and treat it like AIDS or cancer. *Seattle Times*. 2015 Dec. [Link](#)

**Dr. Megan Moreno**:  
Dr. Jodi Smith:

Dr. Hans Ochs:

Dr. Ben Wilfond:
4. Is it ethical to enroll cognitively impaired adults in research that is more than minimal risk with no prospect of benefit? Taylor H, Kuwana E, Wilfond B. American Journal of Bioethics. 2015 Oct; 15(10): 64-5. Link

Drs. Ellen Selkie (Adolescent Medicine fellow) and Megan Moreno: Cyberbullying prevalence among US middle and high school-aged adolescents: A systematic review and quality assessment. Selkie EM, Fales JL, Moreno MA. Journal of Adolescent Health. 2015

Drs. Ian Macumber (Nephrology fellow) and Joseph Flynn: Ambulatory blood pressure monitoring in children and adolescents. 2016; 227-52. Link

Please let us know of your latest publications, awards, and honors by emailing *pedsnews@seattlechildrens.org* Past newsletters are published to the UW Pediatrics website: [http://www.washington.edu/medicine/pediatrics/about/news](http://www.washington.edu/medicine/pediatrics/about/news)
RE: Royalty Research Fund and Royalty Research Fund Scholar Applications

This is to announce the Spring 2016 round of the Royalty Research Fund (RRF). Proposals are due Monday, March 7, by 5:00 PM. Awards will be announced by June 15, 2016.

Unlike agency-funded grants, RRF grants are not awarded to supplement or continue existing successful research programs. The purpose of the Royalty Research Fund (RRF) is to advance new directions in research, particularly:

1. in disciplines for which external funding opportunities are minimal, and/or
2. for faculty who are junior in rank, and/or
3. in cases where funding may provide unique opportunities to increase applicants’ competitiveness for subsequent funding.

Proposals must demonstrate a high probability of generating important new creative activities or scholarly understandings, new scholarly materials or resources, significant data or information, or essential instrumentation resources that are likely to significantly advance the reputation of the university, lead to external funding, or lead to developing a new technology. Proposals should include well-justified budgets of less than $40,000.

We also continue to seek proposals for the Royalty Research Fund Scholar program to support faculty release time for one quarter in conjunction with support of a meritorious research proposal. RRF Scholar applicants must teach four or more "regular and substantial courses per year." Independent study and dissertation supervision are not included in these courses, as the intent is to release the faculty from the responsibility of classroom preparation time and in-class hours to concentrate on scholarly activities. While we expect most RRF Scholar proposals to come from the arts, humanities and social sciences, all qualifying faculty are eligible to apply. RRF Scholar proposals include funds for a teaching replacement, and may also include a modest budget for other project expenses.

All proposals will be peer reviewed through one of the three Royalty Research Fund Review Committees. The evaluators are faculty colleagues and therefore will not necessarily be specialists in the applicant’s subfield. Thought should be given, therefore, to crafting the proposal so that a wider audience may understand it. Although technical field-specific information will be expected, the major features of the proposal should also be accessible to non-specialists. The Royalty Research Fund is made possible by income generated from royalties and licensing fees derived from intellectual property created by University faculty. No funds recovered through indirect costs are used for the RRF. Proposals are due the last Monday in September and the first Monday in March. Please inform your faculty about this opportunity. Proposals from all disciplines are welcome.

The RRF proposal submission and review process is electronic - all proposals must be submitted using SAGE (System to Administer Grants Electronically). Briefly, the RRF application consists of an eGC1 (electronic Grant and Contracts Form 1, created online in SAGE), the proposal documents, and the suggested reviewers memo. The proposal documents are gathered into a single PDF file and attached electronically to the eGC1. The completed application is then routed electronically to all of the individuals that need to approve the proposal (Chairs, Directors and Deans). It is then automatically routed to RRF staff who review the proposal for adherence to instructions/program rules. The suggested reviewers memo is submitted separately to a special email account; this completes the submission process.

In our ongoing efforts to improve service, the RRF program continues to evolve and there are changes to the rules and/or application instructions each round. Therefore, please advise your faculty and staff that it is essential that applicants thoroughly read and carefully follow all instructions each round. Proposals that do not adhere to the guidelines will be returned for immediate correction and resubmission if time permits; otherwise, they will not be considered eligible for funding. Additionally, it is the applicants’ responsibility to find out how much lead time is required by each unit which needs to approve their proposal, through the Dean’s level. We strongly encourage all applicants to monitor the progress of their application throughout the approval process. Applications not fully approved by the RRF deadline will not be accepted – NO EXCEPTIONS.

The RRF application instructions, including specific directions for completing the eGC1, are currently available at the Office of Research web site located at: http://www.washington.edu/research/?page=rrf

Please don’t hesitate to contact the RRF administrative staff if you have questions about the program; new applicants should contact Peter Wilsnack, doogieh@uw.edu, (685-9316) and existing awardees should contact Barbara Thompson, bthompos@uw.edu, (616-9089). Questions about SAGE and the eGC1 should be directed to the SAGE help desk, sagehelp@uw.edu, (685-8335).
