

Prioritizing Goals

- How might the budget crisis affect units differently (e.g. depending on size, funding sources, and structure)?

Assume your unit will have to absorb a significant budget cut:

- What will be the biggest effect of that cut?
- What process will you follow to prioritize unit goals?
- What is the most important activity/initiative to continue to support in your unit?
- What can your unit do more efficiently?
- When money comes back, to what will you allocate?
