

Business Services & Veterans' Affairs

UW Standard of Excellence

The Business Services and Veterans' Affairs Office assists both students and staff, with service at the heart of our work.

We are proud to provide our military veterans returning to school with clear, concise and accurate Veterans Administration benefit assistance, ensuring they receive the financial awards they have earned. We are also proud to be a part of the tuition waiver program offered by the UW and the state of Washington to this select group of women and men.

We help students manage their health care needs through administration of the student health insurance plan.

Business Services also provides support to the entire Division of Student Life through services such as fiscal management, human resource consulting and space planning. By providing administrative and operational services to our partners within Student Life we enable them to more effectively serve students and attain their goals for the highest quality student services.

Academic Community

Students come to the University to develop knowledge and leadership skills. We contribute to student success by ensuring that veterans receive their funding and all students have access to health insurance. We support their academic success directly by working with

students and indirectly by working with the greater UW community in navigating these details and complexities of student life.

World Leaders in Research

Our support of students, through administering student insurance and veterans' benefits, allows our students to concentrate on their academic endeavors and develop into the researchers and world leaders of tomorrow.

Our administrative support of units within Student Life allows those units to focus on recruiting and developing a strong and innovative student population.

Our military veterans bring valuable life experiences to the campus community, and we eagerly support their contributions to all facets of UW excellence.

Celebrating Place

With our expertise we are able to serve each veteran as a unique individual, conveying the gratitude of Washington citizens for the special role that veterans have played on our behalf, and celebrating their return to life in Washington.

Spirit of Innovation

We are always learning by being reflective about our work.

We are creating new ways to serve units in Student Life and look forward to innovations and new ideas. We wish to share our fiscal expertise and human resource skills with other units in Student

Life, creating new ways to approach teamwork and exploring the gains to be made from working together and sharing knowledge.

We practice continuous learning by being reflective about our work. We actively seek creative ways of supporting units within Student Life, providing resources and efficiencies that allow student service units to maximize their available resources.

World Citizens

Our student insurance plan is utilized by students who are taking advantage of international learning experiences and by international students coming to our campus. We help all students with the intricacies of health care insurance so they and their families can be reassured that health care is available even when they are far from home.

Our veterans bring multiple international experiences to the University. We support their contributions to learning, and to the diversity of knowledge and understanding within our community.

Being Public

We acknowledge that we are responsible to the University, the state of Washington and Veterans Administration for ensuring that we are in compliance with all University, state and federal regulations that govern the programs we administer.
