VII. STANDING COMMITTEES

F–11

B. Finance, Audit and Facilities Committee

UW Seattle Parking and U-PASS Rate Revisions

RECOMMENDED ACTION:

It is the recommendation of the administration and the Finance, Audit and Facilities Committee that the Board of Regents take the following actions:

- 1. adopt the attached "Tax and Fee Inclusive Seattle Campus Parking and U-PASS Fee Schedule" and
- 2. establish a new Transportation Demand Management Fee (surcharge) on all Seattle Campus parking transactions in the amount of 63.17%, as embedded in the attached "Tax and Fee Inclusive Seattle Campus Parking and U-PASS Fee Schedule",

effective June 20, 2011 for summer quarter products and effective July 1, 2011 for daily, monthly and annual products.

BACKGROUND

Commuter Services is a self-sustaining unit of the Transportation Services department. In early 2010, Commuter Services developed a new Business Plan which, following approval by the President and Provost, was presented in summary form to the UW Board of Regents in June 2010. Stepwise implementation of the Business Plan has put Commuter Services on a path toward financial stability. The recommended actions above represent both the success of the plan to date and the next steps required for plan implementation.

At the highest level, the plan includes three key strategies:

- Mitigation of Tax Burdens
- Reduction in Transit Costs
- Decreasing U-PASS Prices by Broadening Participation

Significant progress has been made in each of these areas.

Mitigation of Tax Burdens

The Business Plan highlighted that increasing tax burdens, tied largely to the City of Seattle's Commercial Parking Tax, were stripping the ability of the parking system to generate net revenues that, in turn, subsidize the U-PASS. The plan proposed establishment of a Transportation Demand Management Fee that would exclude approximately \$6.8M from taxation and generate savings of \$1.3M by

F–11/206-11 6/9/11

B. Finance, Audit and Facilities Committee

UW Seattle Parking and U-PASS Rate Revisions (continued p. 2)

charging a discrete fee to support U-PASS in conjunction with the parking transaction rather than the current practice of transferring post-tax parking proceeds to subsidize the U-PASS. *Implementation of the Transportation Demand Management Fee will be cost-neutral for UW parking customers and will be offset by reduction in the base parking fee.*

Over the last year, we have completed the regulatory filings required to implement the Transportation Demand Management fee and determined the fee rate that would allow the parking system to remain solvent while maximizing subsidies for U-PASS.

In additional work with the Seattle City Council, we limited increases in the commercial parking tax to less than 25% of the anticipated level and secured a commitment to establish a grant program that has the potential to further mitigate the impact of the tax on the new, reduced base parking fees. We also provided research into more equitable tax structures that has since been used in the introduction of marker legislation at the state level and has the potential to provide the City of Seattle with a way to provide additional relief without sacrificing revenue.

Reduction in Transit Costs

Our negotiations with transit agencies yielded significant savings through the demographic credit outlined in our Business Plan and a rebate clause negotiated earlier in FY10. Additional progress is required but is highly likely as transit agencies are placing a high priority on ensuring the long-term financial stability of the Universal Student U-PASS. Pricing negotiations are currently underway for the 2012 and 2013 academic years.

Decreasing U-PASS Prices by Broadening Participation

Successful negotiations with students around the terms for a Universal Student U-PASS have achieved this goal. Short-term intervention for the Faculty/Staff U-PASS has proven unnecessary as price sensitivity remains modest and the Universal Student U-PASS has eliminated the risk of unplanned crosssubsidization of students by faculty and staff. Discussion of Business Plan proposals for mitigating Faculty/Staff U-PASS prices in the long-term will be resumed following transit pricing negotiations and implementation of Activity Based Budgeting.

Summary

The success of the Commuter Services Business Plan to date and the implementation of the Transportation Demand Management Fee included in the

B. Finance, Audit and Facilities Committee

UW Seattle Parking and U-PASS Rate Revisions (continued p. 3)

recommended actions results in extraordinarily modest changes to the Tax and Fee Inclusive Seattle Campus Parking and U-PASS Fee Schedule. The gross rates (inclusive of taxes, fees and surcharges) will increase for select east campus events; those changes were developed collaboratively with the Department of Intercollegiate Athletics. Increases are also included for retiree parking products, although those have been paired with planned discounts so that no change will take effect until negotiations with Planning and Budgeting and the University's liaison to the Retiree Association have been completed. No increases are proposed to the gross rates (inclusive of taxes, fees and surcharges) for other Faculty/Staff, Student and public parking products. No increases are proposed for Faculty/Staff U-PASS rates. The rate reduction for the Student U-PASS in conjunction with the implementation of the Student Universal U-PASS was authorized by the Regents at the May 2011 meeting.

REVIEW AND APPROVAL

University Transportation Committee (consisting of representatives from Associated Students of the University of Washington, Graduate and Professional Student Senate, Faculty Senate, Professional Staff Organization, Washington Federation of State Employees, Service Employees International Union 925, Washington State Nurses Association, UW Police, Intercollegiate Athletics, Student Life, South Lake Union CTR Site, Real Estate Office, UW Medical Center, Planning and Budgeting, Disabilities Service Office, Facilities Services, Labor Relations, Commuter Services and Transportation Services); Associate Vice President, Facilities Services; and Senior Vice President.

SVP V'Ella Warren Finance and Facilities Box 354988

May 19, 2011

Dear SVP Warren:

In accordance with your delegation, I served as the University Hearing Officer on the proposed revision to the Parking and U-PASS Fee Schedule. This hearing was held pursuant to WAC 478-116-163 which provides in pertinent part:

Fees for parking and the effective date thereof shall be submitted to the Board of Regents for approval by motion. Prior to the approval by the Board of Regents the University shall, after notice, hold a hearing on the proposed schedule. The hearing shall be open to the public and shall be presided over by a presiding officer who shall prepare a memorandum for consideration by the University, summarizing the contents of the presentations made at the hearing.

The hearing was held on May 13, 2011 in room 231 of the Mary Gates Hall on the Seattle campus of the University of Washington. Official notice of the hearing was previously published on the University of Washington online events calendar.

The Commuter Services provided advance copies of the proposed Parking and U-PASS Fee Schedule to campus constituencies via their University Transportation Committee representatives and to individuals attending the hearing. Opportunity was provided for oral and written testimony and electronic submissions of comments were accepted via e-mail through Wednesday May 18.

Revision to the Transportation Fee Schedule

As the hearing officer, I presented a summary of the proposed revision to the Parking and U-PASS Fee Schedule. The proposal presents minimal changes concentrated on east campus (athletic event and facility rental parking) rates that have been developed in collaboration with the department of Intercollegiate Athletics. At the request of the University Transportation Committee retiree parking rates are also increased with the understanding that Transportation Services will discount those rates to current levels while negotiations are underway with stakeholders, including the UW liaison to the Retiree Association and Planning and Budgeting.

The implementation of a new Transportation Demand Management fee was also described in detail. This fee will be act as a surcharge on all parking transactions and will be paired with reductions in the underlying base parking rate. The University presents its parking fees to the public as inclusive of taxes and applicable University fees or surcharges. Consequently, this

Serving today... preserving tomorrow www.washington.edu/admin/facserv

ATTACHMENT 2

change will be largely invisible in published rate schedules and will have no impact on the total (tax and fee inclusive) cost of parking on campus.

Summary of Public Comment

Two people attended the public hearing. No formal comment was offered during the hearing or the subsequent period for electronic testimony. Unofficial comments included appreciation for the fact that pricing for core faculty and staff parking products was not changing.

Several themes can be distilled from the comments. The following list highlights the general area about which comments were formulated:

Recommendation

I recommend the adoption of the Commuter Services proposal for Seattle Campus Parking and U-PASS fees without reservation.

The digital recording of the public hearing has been deposited with the Secretary of the Board of Regents and a transcript thereof has been provided to the Secretary of the Board of Regents. These materials are available for your inspection and the inspection of the members of the Board of Regents.

Respectfully submitted,

avan

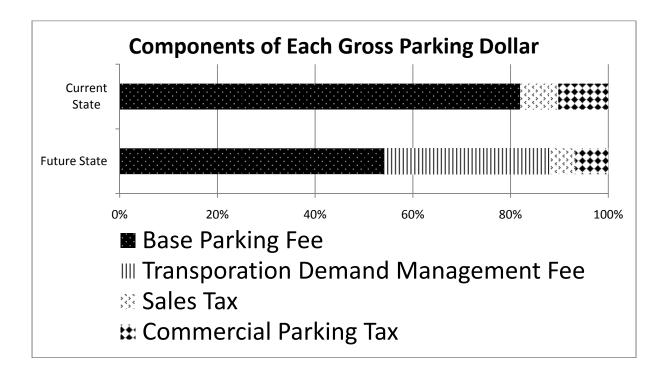

Josh Kavanagh Director of Transportation Services

TRANSPORTATION DEMAND MANAGEMENT FEE IMPACT

When implementing the Transportation Demand Management Fee, the University will reduce the base parking fee and apply an additional new fee (the Transportation Demand Management Fee) in parallel to sales and commercial parking taxes. *There will be no change to the gross (tax and fee inclusive) cost to individuals parking on campus as a result of the Transportation Demand Management Fee.* This relationship is illustrated in the chart below.

Following implementation, monies received as parking fees will no longer be transferred to fund the U-PASS program. Instead, Transportation Demand Management Fee proceeds collected by Commuter Services will be directed to the U-PASS program.

In addition to generating tax savings for Commuter Services, the Transportation Demand Management Fee aids other University departments that collect parking fees independently under a delegation of authority from Transportation Services. Transportation Demand Management fees collected by UW Medical Center will be directed to existing shuttle programs that reduce SOV travel among medical facilities resulting in a tax savings of \$80k and Transportation Demand Management fees associated with Football Parking will be dedicated to game day transit or park and ride service resulting in a tax savings of \$31k.

COMMUTER SERVICES (PARKING & U-PASS) FINANCIAL SUMMARY

The attached financials include the following assumptions:

- No increases to parking or faculty/staff U-PASS fees during the 11-13 biennium
- No additional increases to parking or sales taxes during the 11-13 biennium
- Modest increases in general expenses, wages, and benefit expenses as detailed in note 3a.
- Deferred maintenance, software/hardware investments, and construction of the Mercer garage are treated as operating expenses against fund balance rather than utilizing debt financing.
- Modest fare increases from all transit agencies as detailed in notes 3b and 3c.
- Implementation of the Transportation Demand Management fee, a tax minimizing measure that partitions the fee collected during parking transactions. This will have no impact on gross (tax and fee inclusive) prices for customers but will reduce taxable income by \$6.78M.
- Limits on the number of trips per individual for which the University will be billed by King County Metro (9/week for students and 14/week for faculty and staff) OR equivalent contract savings
- Reallocation of parking fine revenue, \$800k annually, to active transportation programs.

*Items pending negotiation are marked with an asterisk in the attached financials.

Bicycle operations			32,654	34,287
Total Revenue	32,701,247	33,224,226	35,151,671	35,134,955

Notes

- 1 The City of Seattle Commercial Parking Tax was introduced for FY08 at 5%, growing to 7.5% for FY09, 10% for FY10, and 12.5% effective 1/1/11.
- 3a Beyond FY12, general expenses have been forecasted to increase at 3% annually. Beyond FY11 benefits are scaled at 5% and beyond FY13 wages at 3%.
- **3b** Faculty/staff baseline transit cost projections assume use of the 2010 survey data, 3% per year fare increases for Metro and 4% per year fare increases for all other agencies
- 3c Faculty/staff baseline transit cost projections assume use of the 2010 survey data, 3% per year fare increases for Metro and 4% per year fare increases for all other agencies, and a full recovery over the forecast horizon to pre-feeincrease non-carpool U-PASS sales rates. In addition, ST trips are projected to increase by 2% per year and CT trips are projected to increase by 1% per year. All other trip growth is due to the recovery in U-PASS participation. Beyond FY12, general expenses have been forecasted to increase at 3% annually. Beyond FY11 benefits are scaled at 5% and beyond FY13 wages at 3%.
- 4 WCG Expansion
- 6 WCG Expansion, 4545 Purchase, 4545 Seismic, Tower Garage Purchase, Tower Garage Seismic, WCG TI
- 7 Overhead is only applied to Parking revenues, not U-PASS. Beginning in FY10 Parking dollars transferred to U-PASS were also exempt.
- 8 Prior to the transfer of Parking Enforcement from UWPD to Transportation Services, TS transferred funding to UWPD each year to support the enforcement function.
- 9 Timing of a major software upgrade is uncertain and will be funded with debt or fund balance to avoid an adverse impact on rates.
- 11 The TDM (Transportation Demand Management) fee is a tax minimizing measure that partitions the fee collected during parking transactions. The TDM fee goes directly to U-PASS and would not be subject to taxation. Out of pocket costs for parkers would not increase.
- 13 Beginning in FY11, we began receiving a discount on our blended trip rate with Metro to account for the proportion of the U-PASS population that is eligible for youth, senior, and disabled rider fares.
- 14a Net impact of Universal Student U-PASS with basic trips per pass cap assumption for Metro: This projection is based on the 2008 U-PASS survey data and includes all trips made by students (regardless of whether the trip makers were U-PASS members or not). The pass cap assumption is that we will not be charged for trips in excess of any of the following: 10 per work week, 2 per Saturday, and 2 per Sunday.
- 14b Net impact of Universal Student U-PASS with aggressive trips per pass cap assumption for Metro: This projection is based on the 2008 U-PASS survey data and includes all trips made by students (regardless of whether the trip makers were U-PASS members or not). The pass cap assumption is that we will not be charged for trips in excess of 9 trips per week.
- 14c Implementation of the basic trips per pass cap for employee U-PASSes with Metro retains the assumptions from the baseline transit projections but assumes that we will not be charged for trips in excess of any of the following: 10 per work week, 2 per Saturday, and 2 per Sunday.
- 15 Net impact of Universal Student U-PASS assuming an increase in student participation to 100% of students and a per pass cost reduction to \$76 per quarter.
- 17 Reflects addition of active transportation (bike/ped) analyst in addition to more accurate allocation of costs for front office staff on parking budget.
- 18 Artificially reduce due to transfer of staff from Transportation Administration to Commuter Services (Parking) budget.
- 19 Active Transportation will benefit from a significant transfer of parking fines that is recorded as non-operating income and consequently not reflected in the Revenue Summary. See Budget Summary by Service Line for details.
- 21 Fine growth projected based on reallocation of labor hours from gatehouses to enforcement functions.
- 22 Credit for trips projected but not taken due to reduced program participation since FY09 survey for ridership model.
- 26 Parking fines are presently transferred to Shuttles to fund Health Sciences share to HSE costs. UWMC & Harborview each pay their own way.
- 27 Reflects \$2.2 million in special capital expenses.
- 28 Reflects \$5 million in special capital expenses.
