

VII. STANDING COMMITTEES**A. Finance, Audit and Facilities Committee**

in Joint Session with

B. Academic and Student Affairs Committee**University of Washington Fiscal Year 2009 Operating and Capital Budgets****RECOMMENDED ACTION**

It is the recommendation of the administration, the Finance, Audit, and Facilities Committee and the Academic and Student Affairs Committee that the Board of Regents, pursuant to its authority under RCW 28B.20.130, the Bylaws of the Board of Regents, and Board of Regents Standing Order No. 1, approve the Fiscal Year 2009 operating and capital budgets for the University of Washington that are presented in the following text and tables. In this action item, the Board of Regents, in its sole and independent discretion:

- Adopts the Fiscal Year 2009 operating budget, including funds to provide faculty salary increases;
- Establishes tuition rates for all tuition categories for the 2008-09 academic year; and,
- Adopts the Fiscal Year 2009 capital budget.

Financial Context for the Proposed FY 2009 Operating and Capital Budgets

The FY 2009 budget proposal that is being presented to the Board of Regents is divided into four areas:

- The three parts of the Operating Budget:
 - the Core Education Budget;
 - the Restricted Programs Budget;
 - the Academic Enhancement/Support Budget; and
- The Capital Budget.

The FY 2009 proposed operating budget is summarized in Table 1; the FY 2009 proposed capital budget is presented in Table 5. The financial context for FY 2009 is different for the Core Education, Restricted Programs, Academic Enhancement/Support, and Capital Budgets.

Core Education Budget Financial Context. The context for the FY 2009 Core Education budget is primarily set by two factors: actions affecting FY 2009 that were taken by the state legislature in the 2007-09 biennial and supplemental budgets, and tuition setting decisions for the 2008-09 academic year for all tuition categories that will be made by the Board of Regents as part of their adoption of the FY 2009 budget.

In the 2007-09 biennial budget, state funding was provided for a 2.0 percent salary increase for faculty, professional staff and librarians for FY 2009. Note that for faculty, professional staff and librarians, the university can use local funds to supplement the salary increases funded by the state. Teaching and research assistants will receive a 2.5 percent increase in accordance with their labor contract. Represented classified staff was provided different increases, depending on their bargaining units. These increases were either a 3 percent COLA, or a 2 percent COLA plus the addition of a new top step that employees at the top step in their classification would be eligible for based on the bargaining unit contract.

The state provided new funds for general undergraduate and graduate enrollments at all three campuses as well as new funds for enrollments in math, science and engineering.

The legislature provided the university the authority to raise undergraduate resident tuition by up to 7 percent for FY 2009. In the 2003 legislative session, the Board of Regents was given local authority to set tuition for all tuition categories except undergraduate resident. This authority was granted for six years and the 2008-09 academic year will be the sixth year in which undergraduate non-resident, graduate and professional tuition levels are established using this authority. Tuition setting authority will need to be renegotiated in the 2009-11 state budgeting process.

Restricted Operating Budget Financial Context. The outlook for the FY 2009 Restricted Programs Budget projects a small increase in direct costs for grant and contract activity. This forecast reflects a flattening out of sponsored research activity at the University due to the leveling off of growth in federal research budgets. Indirect costs are expected to increase due both to slightly higher direct expenditures on grants and to the transition of old grants to new and higher indirect cost rates. Spending from gift and endowment accounts is predicted to increase as a result of continued positive returns for the Consolidated Endowment Fund and continued success in obtaining gifts to the University. State Restricted Funds will increase slightly based on legislative actions.

Academic Enhancement/Support Budget Financial Context. The University's Academic Enhancement/Support functions have a stable outlook for FY 2009. The University's large auxiliary business enterprises (UW Medical Center, Educational Outreach, Housing and Food Services, Intercollegiate Athletics, and Parking and Transportation Services) are all financially stable and continued growth is expected in FY 2009.

Capital Budget Financial Context. The proposed UW Capital Budget for FY 2009 reflects actions taken by the legislature in the adoption of both the original 2007-09 and 2008 supplemental state capital budgets, as well as local funds from enterprise units, donors, indirect cost recovery and local bonds.

Approach to FY 2009 Budget Decisions

The FY 2009 annual budget development process was guided by the university's vision statement and core values below:

The University of Washington educates a diverse student body to become responsible global citizens and future leaders through a challenging learning environment informed by cutting-edge scholarship.

Discovery is at the heart of our university.

We discover timely solutions to the world's most complex problems and enrich the lives of people throughout our community, the state of Washington, the nation, and the world.

The core values are:

Integrity ~ Diversity ~ Excellence ~ Collaboration ~ Innovation ~ Respect

In keeping with the vision and values, the FY 2009 budget is based on three overriding themes:

- maintaining the UW standard of excellence;
- being world leaders in research; and
- being a public university.

The more specific budget goals addressed in the proposed FY 2009 budget include:

- attracting and retaining an outstanding and diverse faculty and staff;
- attracting a diverse and excellent student body and providing a rich learning experience;
- investing in new leadership of both academic and administrative units;
- expanding the reach of the UW across the globe;
- strengthening interdisciplinary research and scholarship to tackle “grand challenge” problems that will benefit society and stimulate economic development; and
- insuring the highest level of integrity, compliance and stewardship.

FY 2009 Core Education Budget Discussion

The proposed FY 2009 Core Education Budget is presented in Table 2; proposed temporary investments from fund balance are shown in Table 3. Proposed tuition increases for the 2008-09 academic year are presented in Appendix 4.

Changes in Revenues

The changes in revenues supporting the FY 2009 Core Education Budget are summarized below:

<u>Revenue Source</u>	<u>FY 2008 Adopted</u>	<u>FY 2009 Proposed</u>	<u>Change</u>
State General Fund	390,664,000	401,707,000	11,043,000
Tuition Operating Fee	272,000,000	295,500,000	23,500,000
<u>Designated Operating Fund</u>	<u>53,095,000</u>	<u>57,215,000</u>	<u>4,120,000</u>
Subtotal: Ongoing Core Ed Revenues	715,759,000	754,422,000	38,663,000
<u>Use of Fund Balance for Temp Exp</u>	<u>1,000,000</u>	<u>3,000,000</u>	<u>2,000,000</u>
TOTAL REVENUES	716,759,000	757,422,000	40,663,000

Comments on Changes in Revenues

Budgeted ongoing revenues in the proposed FY 2009 Core Education Budget are 5 percent higher than budgeted revenues that supported this budget in FY 2008. State General Fund revenues (which in this presentation also includes the Education Legacy Trust Account) increase by \$11,043,000. This includes a temporary \$16,701,000 reduction in the state portion of employee health benefits in FY 2009, due to a one-time savings. This funding will be restored in the state 2009-11 biennial budget.

The overall increase in state funding from FY 2008 to FY 2009 is 2.8 percent. Tuition operating fee revenues increase by \$23,500,000 and Designated Operating Fund revenues increase by \$4,120,000. Use of Fund Balance increases from \$1,000,000 in FY 2008 to \$3,000,000 in FY 2009. These proposed changes in revenues for FY 2009 are discussed below.

State General Fund. State General Fund revenue for FY 2009 reflects actions taken by the state legislature in both the 2007-09 and 2008 supplemental budgets. The increased funding available in FY 2009 is dedicated to specific purposes – salary increases, new general undergraduate and graduate enrollments, new enrollments in math, science and engineering, and a number of specific program allocations.

Tuition Operating Fee. The proposed FY 2009 Core Education Budget assumes that the proposed tuition increases for the 2008-09 academic year shown in Appendix 4 are adopted. Appendix 4 shows the proposed tuition charge for all tuition categories for the 2008-09 academic year; for informational purposes, both the percentage increase and the dollar increase

recommended for each tuition category are shown. Appendix 4 also shows how the proposed tuition and fees for the university would compare to the projected 2008-09 academic year tuition and fee rates for the Higher Education Coordinating Board 24 Comparison Group.

During the 2007 session, the Legislature passed 2SSB 5806 which implements the major higher education recommendations from the Governor's Washington Learns Initiative. The bill imposes a cap on tuition increases for resident undergraduates of no more than 7 percent per year through academic year 2016-17 and directs that annual increases will be set in the operating budget bill. The legislature established a 7 percent maximum tuition increase for undergraduate resident tuition at research institutions in the 2007-09 biennial operating budget bill. Under a bill passed by the state legislature in May 2003, the Board of Regents has authority to set tuition for all tuition categories except for undergraduate resident tuition through the 2008-09 academic year.

For the 2008-09 academic year, the administration is recommending that:

Undergraduate Resident tuition be increased by 7 percent;

Undergraduate Non-Resident tuition be increased by 5 percent;

Graduate Tier 1 Resident tuition be increased by 7 percent;

Graduate Tier 1 Non-Resident tuition be increased by 5 percent;

The tuition differential between Graduate Tier II and Graduate Tier I remain at \$500 (for both the resident and non-resident categories);

The tuition differential between Graduate Tier III and Graduate Tier II remain at \$500 (for both the resident and non-resident categories);

Both resident and non-resident tuition for Pharm.D. Law, Medicine, Dentistry be increased by 10 percent;

A new cohort-based tuition category be created for Public Affairs Masters Degrees; resident tuition for the incoming cohort be \$11,000 for resident and \$22,500 for non-resident; and students already in the program continue at Tier III;

Nursing Masters/DNP Degrees tuition be increased by 10 percent for both resident and non-resident students at UW/Seattle and by 7 percent for resident and 5 percent for non-resident students at UW/Bothell and UW/Tacoma (the Masters in Nursing tuition at UW/Bothell and UW/Tacoma has been set at the same rate as Graduate Tier 2 tuition for a number of years);

Business Masters Degree tuition be increased by 10 percent for both resident and non-resident students for the incoming cohort of students at UW/Seattle, by 5 percent for

resident students at UW/Bothell for the incoming cohort of students, and by 9 percent for both resident and non-resident students at UW/Tacoma; and

Tuition charges for post-baccalaureate and non-matriculated students be adjusted consistent with the policy that has been used for tuition for these students since these tuition categories were established. Under this policy, post-baccalaureate and non-matriculated students taking undergraduate courses pay at the resident or non-resident undergraduate tuition rate established for that academic year; post-baccalaureate and non-matriculated students taking one or more graduate courses pay at the resident or non-resident Graduate Tier III tuition rate established for that academic year.

For Business Masters programs, starting with the FY 2007 academic year students at both UW/Seattle and UW/Bothell have cohort-based pricing and pay the same tuition rate for both years of the program. As a result, there is no tuition increase for continuing Business Masters students at either UW/Seattle or UW/Bothell in FY 2009.

Designated Operating Fund. The Designated Operating Fund revenues that support the Core Education Budget are shown in the table below:

<u>Revenue Source</u>	<u>FY 2008 Adopted</u>	<u>FY 2009 Proposed</u>	<u>Change</u>
Summer Quarter Tuition	26,150,000	27,270,000	1,120,000
Investment Income	18,000,000	20,000,000	2,000,000
Miscellaneous Fees	4,300,000	4,800,000	500,000
UWB & UWT Admin Overhead	3,990,000	4,490,000	500,000
Administrative Allowances	655,000	655,000	0
TOTAL REVENUES	53,095,000	57,215,000	4,120,000

Summer Quarter tuition revenue is projected to increase by \$1,120,000 for FY 2009 due to increased tuition rates. The investment income revenue estimate for FY 2009 is increased by \$2,000,000 over the FY 2008 level. The “miscellaneous fees” category is projected to increase by \$500,000 due to moderate increases in fee revenue. Overhead revenue from the UW/Bothell and UW/Tacoma campuses is projected to increase by \$500,000 due to growth in the UW/Bothell and UW/Tacoma budgets resulting from state enrollment and salary allocations and increased tuition revenue. The expected revenue from administrative allowances related to certain financial aid programs are not anticipated to increase for FY 2009.

Use of Fund Balance. The proposed FY 2009 budget uses \$1,000,000 in fund balance to support year four of a five-year commitment to establish the Chief Investment Office pilot and \$2,000,000 for startup funds for selected new faculty.

FY 2009 Core Education Budget Allocations

The new allocations in the FY 2009 Core Education Budget are summarized below:

<u>Core Education Budget</u>	<u>FY 09 Allocations</u>
<u>Workplace of Choice - Competitive Compensation</u>	
Salaries	23,568,000
Benefits	3,056,000
Subtotal	26,624,000
<u>Expand Access to UW</u>	
UW Seattle	9,435,000
UW Bothell	4,302,000
UW Tacoma	5,225,000
Subtotal	18,962,000
<u>Attract a Diverse and Excellent Student Body</u>	
Attract/Retain Diverse Students	1,509,000
Subtotal	1,509,000
<u>Academic Program Excellence</u>	
Academic Program Support	1,980,000
Strengthening Interdisciplinary Programs	1,650,000
Subtotal	3,630,000
<u>Integrity/Compliance/Stewardship Investments</u>	
General Administrative Support	1,902,000
Administrative Computing System Investments	3,000,000
Subtotal	4,902,000
<u>Other Adjustments</u>	
Required Cost Increases/Adjustments	1,194,000
Miscellaneous Legislative Actions	498,000
	1,692,000
<u>Use of Fund Balance</u>	3,000,000

Comments on FY 2009 Core Education Budget Allocations

The incremental FY 2009 Core Education Budget allocations are listed in the table above and are discussed in more detail below.

Workplace of Choice – Competitive Compensation. A high priority goal of the administration is to bring faculty and staff salaries closer to those of our peer institutions. The administration is proposing to commit significant local resources in addition to the 2.0 percent salary increases funded by the state for faculty, professional staff, and librarians. Appendix 1 presents details regarding the salary and benefits allocations that are included in the proposed FY 2009 budget. For salaries, this proposal assumes:

For faculty: a 2.0 percent regular merit increase effective September 1, 2008; a 2.0 percent additional merit/compression/equity increase effective September 1, 2008; a 0.5 percent increase to each unit to address retention issues; \$650,000 to fund promotional increases; a \$1,783,000 pool for unit adjustments (requires a 1:1 match from college/school funds) for selected colleges or departments whose salaries are most significantly behind those at comparable institutions; and adjustments to faculty positions below the minimum salary level.

For teaching and research assistants: a 2.5 percent increase effective July 1, 2008.

For professional staff and librarians: a 4.0 percent increase, based on merit, effective September 1, 2008; 0.5 percent to address retention issues; and a small amount for adjustments to staff positions below market minimum salary levels.

For represented classified staff: either a 3.0 percent cost of living increase or a 2.0 percent cost of living increase plus the addition of a new top step that employees at the top step in their classification would be eligible for.

For non-represented classified staff: a 2.0 percent cost of living increase effective September 1, 2008.

Taken together, the salary and benefits allocations in the proposed FY 2009 Core Education Budget total \$26,624,000.

Expand Access to UW.

The proposed FY 2009 Core Education Budget expands enrollment at all three University of Washington campuses:

105 graduate FTE and 240 undergraduate math, science and engineering student FTE are added at the UW/Seattle campus;

220 general undergraduate FTE; 30 graduate FTE; and 5 undergraduate math, science and engineering student FTE are added at the UW/Bothell campus; and

240 general undergraduate FTE; 30 graduate FTE; and 5 undergraduate math, science and engineering student FTE are added at the UW/Tacoma campus.

At the UW/Seattle campus, new enrollment investments are proposed in the College of Architecture and Urban Planning's construction management program, the College of Arts & Sciences math and science programs, and the College of Engineering programs. The state budget provides \$1,640,000 in additional funding for expansion of Medicine's WWAMI program and Dentistry's RIDE program at the Spokane site and \$500,000 to expand the Global Health Department's teaching and research programs.

Program support is provided for a number of colleges and schools, including \$2,524,000 for Arts and Sciences, \$1,000,000 for Engineering, \$1,000,000 for Nursing, \$672,000 for Pharmacy, \$40,000 for Public Health's undergraduate courses, \$90,000 for Dentistry's implementation of an upgraded clinic management system, and \$40,000 for Education's early childhood program.

Revenue from tuition increases for the academic year plus summer quarter for UW/Bothell and UW/Tacoma total \$5,865,000, and investments will be made at each of those campuses in their budgeting processes.

Attract a Diverse and Excellent Student Body.

A number of investments related to attracting and retaining diverse students are included in this proposed budget. These investments are listed in Appendix 2 and include: \$112,000 for Student Counseling Office staffing; \$100,000 for Admissions Office staffing; \$100,000 for Financial Aid Office scholarship awards staffing; \$670,000 in permanent funds to convert a temporary commitment to provide teaching assistants in Arts & Science's introductory or bottleneck courses; \$375,000 approved in the state budget for international learning opportunities; \$60,000 to Undergraduate Academic Affairs for the honors program and to expand experiential learning opportunities; \$62,000 to the Office of Minority Affairs for operations support for various programs; and \$30,000 to the Office of Minority Affairs' Instructional Center for additional tutoring support to increase access to high demand majors. These proposed investments total \$1,509,000 in allocations related to attracting and retaining diverse students.

The level of financial aid that the university can offer to students is an important component of its ability to attract a diverse and excellent student body. The proposed FY 2009 Core Education Budget increases financial aid allocations for both undergraduate and graduate/professional students by providing both additional financial aid grants and additional tuition waivers. The total amount of financial aid provided from these two sources and the incremental increase in the FY 2009 budget are shown in the table below:

Increases in Financial Aid Allocations for FY 2009
 (Based on the Application of Current Financial Aid Policy
 and the Tuition Increases in the Proposed FY 2009 Budget)

	FY 2008 Adopted	FY 2009 Proposed	Difference
Undergraduate Merit/Need Waivers	6,850,000	7,473,000	623,000
Undergraduate Financial Aid Grants	6,788,000	7,352,000	564,000
Subtotal: Undergraduate Merit/Need Waivers & Grants	13,638,000	14,825,000	1,187,000
Graduate Merit/Need Waivers	4,198,000	4,580,000	382,000
Graduate Financial Aid Grants	4,160,000	4,506,000	346,000
Subtotal: Graduate Professional Merit/Need Waivers & Grants	8,358,000	9,086,000	728,000
TA/RA Tuition Waivers	47,496,000	49,760,000	2,264,000
Other Tuition Waivers	11,528,000	12,414,000	886,000
Subtotal: Teaching/Research & other Tuition Waivers	59,024,000	62,174,000	3,150,000
Total All Sources:	81,020,000	86,085,000	5,065,000

The UW's current financial aid policy of utilizing 3.5 percent of tuition operating fee collections for financial aid grants and providing merit/need tuition waivers equal to 4 percent of tuition costs will provide \$1,187,000 in additional financial aid resources to needy undergraduate resident students in the 2008-09 academic year.

The 7 percent increase in the undergraduate resident tuition for the 2008-09 academic year will generate \$210,000 in additional unfunded need for undergraduate students in the 2008-09 academic year. The Regents have adopted a policy of meeting 55 percent of this additional need through financial aid grants and tuition waivers. To meet this policy goal next year given a 7 percent increase in undergraduate resident tuition, \$116,000 in additional grant and tuition waiver financial aid has to be made available to undergraduate resident students next year. The increase of \$1,187,000 in financial aid grants and tuition waivers available for undergraduate students in FY 2009 exceeds the commitment made by the Regents by \$1,071,000.

Given the proposed tuition levels for the 2008-09 academic year, graduate appointees qualifying for the non-resident tuition differential waiver and for the operating fee tuition waiver will have \$2,264,000 in additional tuition waiver benefits in FY 2009. In addition, the UW's current financial aid policy of utilizing 3.5 percent of tuition operating fee collections for financial aid grants and providing merit/need tuition waivers equal to 4 percent of tuition will make \$728,000 of additional financial aid available to graduate and professional students in the 2008-09 academic year.

Academic Program Excellence. As shown in Table 2, the proposed FY 2009 core Education Budget allocates \$3,630,000 toward academic program excellence. The detailed allocations

appear in Appendix 2. The state provided \$1,000,000 to create an e-Science Institute. Funding is provided to the UW Libraries and the Law Library to help cover inflationary cost increases for the purchase of library materials, totaling \$780,000. A significant investment of \$1,650,000 is proposed to strengthen interdisciplinary programs. An allocation of \$50,000 is made to Global Affairs for international scholarship programs, and \$200,000 in matching funds is provided for Title VI grant-funded outreach centers.

Integrity/Compliance/Stewardship Investments. A number of investments are proposed in three specific areas: \$1,192,000 for research administration support, which will be funded out of the Restricted Budget, \$1,815,000 for general administrative support and \$3,000,000 for administrative computing system investments. Details appear in Appendix 2.

Investments in general administrative support investments include: \$450,000 to support operations costs related to the 685-SAFE hotline; \$80,000 for Academic Human Resources Office staffing; \$186,000 to increase staffing in Human Resources, and \$200,000 to increase staffing in the Internal Audit Office. The Office of Information Management will receive \$289,000 for staffing increases plus \$100,000 to cover ongoing maintenance costs of system modifications related to civil service reform and benefits management. The Office of External Affairs will receive \$130,000 for a public records imaging system. Funds are proposed to increase staffing for the Office of Planning and Budgeting upon arrival of the new Vice Provost and \$300,000 in temporary consulting funds to conduct an activity-based budgeting analysis for the UW.

The proposed budget includes \$3,000,000 to implement technology investment recommendations made by the Information Management Advisory Committee (IMAC).

Required Cost Increases/Adjustments. The proposed FY 2009 Core Education Budget includes \$1,194,000 for required cost increases and adjustments – specific allocations are listed in Appendix 3. Significant reductions in natural gas and risk management costs provided \$3,500,000 in savings. The largest increase is in operations and maintenance for the UW Tower; the state provided \$1,337,000 and the UW is providing an additional \$1,500,000. A number of other “institutional” budgets that pay for contractual or other required activities have either upward or downward annual adjustments.

Miscellaneous Legislative Actions. The proposed FY 2009 Core Education Budget includes a total investment of \$498,000 for miscellaneous legislative actions that were not included in the university’s original state budget request. The detail is listed in Appendix 2.

FY 2009 Restricted Operating Budget Discussion

The proposed FY 2009 Restricted Programs Budget is presented in Table 4.

Changes in Revenues

The changes in revenues supporting the FY 2009 Restricted Programs Budget are summarized below:

Revenue Source	FY 2008 Proposed	FY 2009 Proposed	Change
Grant and Contract Direct Costs	816,080,000	832,402,000	16,322,000
Grant and Contract Indirect Costs	196,000,000	203,000,000	7,000,000
Gifts	125,466,000	130,485,000	5,019,000
State Restricted Funds	6,627,000	6,742,000	115,000
TOTAL REVENUES	1,144,173,000	1,172,629,000	28,456,000

Comments on Changes in Revenues

Budgeted revenues in the proposed FY 2009 Restricted Programs Budget increase by \$28,456,000 over the FY 2008 budgeted level: grant and contract direct cost increases by \$16,322,000; grant and contract indirect cost increases by \$7,000,000; gift and endowment revenue is projected to increase by \$6,019,000; and State Restricted Funds increase by \$115,000. These proposed changes in revenues are discussed below.

Grant and Contract Direct Cost. Direct costs for grants and contracts are projected to increase by a modest 2 percent in FY 2009 – an increase of \$16,322,000 over the current fiscal year.

Grant and Contract Indirect Cost. As direct costs for grants and contracts are projected to be slightly higher in FY 2009 than in FY 2008, and as new indirect cost rates are phasing in, grant and contract indirect cost recovery is expected to increase by \$7,000,000 - an increase of 3.6 percent over the budgeted level for FY 2008.

Gifts. Revenues to gift and endowment spending accounts are projected to increase by \$5,019,000 in FY 2009. This increase reflects both continued fund raising success and strong returns for the Consolidated Endowment Fund for the past few years.

State Restricted Funds. The School of Public Health and Community Medicine receives a small amount of appropriated state funding from the Accident Account and the Medical Aid Account for specific activities performed by the Department of Environmental Health. Changes in revenues for FY 2009 (an increase of \$115,000 over FY 2008) for these State Restricted Funds simply reflect changes in state appropriations.

FY 2009 Restricted Programs Budget Allocations

The discussion in this section is limited to how the administration proposes to allocate additional indirect cost recovery resources that are anticipated in FY 2009. Expenditures for grant and contract direct cost, almost all gifts, and state restricted funds budgets can only be used for the purposes specified by the granting agency, donor or legislature. Thus, annual expenditures for these areas are assumed to be equal to budgeted levels. The university does have discretion over how indirect cost recovery revenues are allocated.

The new allocations in FY 2009 supported by indirect cost recovery resources are summarized below.

<u>Restricted Budget - Indirect Cost Recovery</u>	FY 2009 Allocations
<u>Workplace of Choice - Competitive Compensation</u>	
Salaries	2,443,000
Benefits	200,000
<hr/> Subtotal	<hr/> 2,643,000
<u>Investments in Research Excellence</u>	
Research Cost Recovery Allocation Change	550,000
Dedicated Indirect Cost Recovery Changes	2,278,000
Library Materials Inflation	250,000
<hr/> Subtotal	<hr/> 3,078,000
<u>Integrity/Compliance/Stewardship Investments</u>	
Research Administration Support	1,192,000
General Administrative Support	43,000
<hr/> Subtotal	<hr/> 1,235,000
<u>Required Cost Increases/Adjustments</u>	2,152,000

Comments on FY 2009 Indirect Cost Recovery Budget Allocations

Workplace of Choice – Competitive Compensation. The indirect cost recovery budget picks up the calculated share of the salary and benefit costs of employees who are funded from indirect cost recovery resources, totaling \$2,643,000. There will be a \$2,108,000 temporary decrease in benefits costs due to a one-time savings in health care costs. This decrease will be restored in FY 2010.

Investments in Research Excellence. A number of investments are made to support the university’s research enterprise. By policy, the university allocates the portion of indirect cost recovery revenues that is associated with college/school grant administration back to the colleges/schools based on their actual grant activity in the prior fiscal year. This allocation is

called the “research cost recovery” allocation and it is expected to increase by \$550,000 in FY 2009. This amount is calculated based on a formula and the increase in the allocation for FY 2009 is a function of both anticipated research spending in the current year and a revision in the calculation formula so that the formula is based on the university’s most recent indirect cost study.

Annual adjustments to certain indirect cost recovery budgets that are dedicated to specific purposes, such as paying for the operations and maintenance costs of particular buildings (Harborview Research and Training, other Harborview research space, etc.), are also included in this category and are shown in Appendix 3. An allocation of \$1,000,000 is projected to cover an increase in O&M for the Brotman Building, and another \$1,000,000 to cover O&M on the South Lake Union 2 building that will be completed and occupied early in FY 2009. An allocation of \$250,000 is also proposed to provide a portion of the funds to cover library materials inflation.

Integrity/Compliance/Stewardship Investments

Five investments are proposed in research administration support (and are listed in Appendix 2): \$115,000 to increase staffing in Environment Health and Safety for compliance monitoring, \$30,000 to support the ongoing faculty grants management training program, \$400,000 to increase staffing in Grant & Contract Accounting, \$300,000 in temporary funds to Management Accounting and Analysis for ICR cost study preparation costs; and \$347,000 to increase staffing in the Office of Sponsored Programs and the Human Subjects Office to support internal review board activities. Finally, a portion of the total funds allocated to increase staffing in the Internal Audit Office will come from the restricted budget.

Required Cost Increases.

The indirect cost recovery budget picks up a share of estimated cost increases for utilities, risk management and for other critical institutional investments approved by the President and Provost – these allocations are shown in Appendix 3. The budget for the institutional budgets decreased overall by \$309,000, due to large reductions in natural gas and risk management costs and relatively small increases in other items. The largest increase is associated with an extensive upgrade planned for animal facilities in the Health Sciences Center to address issues raised in the AALAC accreditation review. An allocation of \$1,375,000 is proposed to cover the debt service on the bonds to finance these upgrades, and an additional allocation of \$826,000 is needed for debt service associated with the construction of the part of the UW Tower Data Center that will support research activities. Debt service for the Benjamin Hall and Foege buildings increases by \$260,000 because variable rate debt has been replaced with fixed rate debt.

FY 2009 Academic Enhancement/Support Budget Discussion

There are four areas included in the Academic Enhancement/Support Budget: UW Medical Center; auxiliary enterprises; auxiliary educational activities; and institutional overhead activities that support the other functions. Auxiliary enterprises include: Housing and Food Services; Intercollegiate Athletics; Parking; internal service units (Stores, Motor Pool, Publication Services, etc.); Student Government; Recreational Sports; and miscellaneous other activities. Auxiliary educational activities include: continuing education, conferences, the medical resident program, the WWAMI Program in the School of Medicine, and miscellaneous activities. The University charges institutional overhead to all of these activities to recover the cost of central services utilized by these academic enhancement/support activities.

The projected changes in revenue for academic enhancement/support activity are shown in the table below:

Revenue Source	FY 2008 Proposed	FY 2009 Proposed	Change
UW Medical Center	613,267,000	637,798,000	24,531,000
Auxiliary Enterprises	304,915,000	317,112,000	12,197,000
Auxiliary Educational Activities	182,847,000	190,161,000	7,314,000
Institutional Overhead	14,750,000	15,268,000	518,000
TOTAL REVENUES	1,115,779,000	1,160,339,000	44,560,000

Based on financial results over the last few years, inflationary increases in revenues have been projected for FY 2009 for UW Medical Center, auxiliary enterprise, and auxiliary educational activities. The projected increase in institutional overhead revenue is based on both actual collections in the current fiscal year and projected revenue increases for those units that pay institutional overhead.

With the exception of institutional overhead resources, the Academic Enhancement/Support Budget resources can only be spent for specified purposes and annual expenditures are assumed to be equal to budgeted levels.

Fiscal Year 2009 Capital Budget Discussion

The proposed FY 2009 Capital Budget is presented in Table 5 and includes approval of \$16,212,500 in state capital funding appropriated in the 2007-09 legislative session and 2008 supplemental legislative session. The FY 2009 Capital Budget also includes \$333,923,623 in non-state funds from donors, indirect cost recovery, enterprise unit funds, transfers from unrestricted operating funds, UW local bonds, and Sound Transit mitigation funds, for a total of \$350,136,123 in capital funds for FY 2009 from both state and non-state sources.

Restore the Core

\$1,338,000 in UW local funds for unanticipated cost escalation in the Playhouse Theater project is included in the FY 2009 capital budget.

Capacity Expansion, New Program and Infrastructure Investments

Building 25, the former headquarters building at the Sand Point property, will be renovated to serve as office and clinic space for revenue-based pediatric dentistry programs. In a joint venture between Children's Hospital and UW Pediatric Dentistry, the 28,000 square foot building will be modernized using a combination of \$6,000,000 in funds from Children's Hospital and \$11,300,000 in UW revenue bond funds.

Funding of \$26,124,000 is included for the improvements to animal care facilities. The fund sources include \$25,000,000 in UW revenue bond funds, and \$1,124,000 in UW local funds.

Construction funding in the amount of \$166,000,000 for the proposed expansion of the UW Medical Center is included in the FY 2009 budget.

The FY 2009 Capital Budget provides a total of \$95,000,000 for construction of PACCAR Hall. Funding sources include \$75,000,000 in donor funds, and \$20,000,000 in UW revenue bond funds.

West Campus Garage Construction funding of \$17,900,000 for West Campus Garage is also included in the FY 2009 Capital Budget. The funding sources include \$10,000,000 in Sound Transit mitigation funds; \$5,100,000 in UW revenue bond funds approved in 2004; and \$2,800,000 in new UW revenue bond funds.

Supplemental 08 Appropriations

The FY 2009 Capital Budget includes \$ 2,000,000 in state funding for UW Tacoma Land Acquisition, and \$1,000,000 for Tacoma soils remediation. \$300,000 in state funds is also provided for predesign for the Burke Museum.

Minor Works

In addition to the major projects described above, non-appropriated local funds will provide almost \$13,900,000 in FY 2009 for facilities modernization, facilities preservation, and safety and utilities improvements.

Table 9: Autumn Quarter 2008 Applications from High School Students in Washington State

Table 10: Autumn Quarter 2008 Applications from Nonresident High School Students

This information item was prepared in response to questions about undergraduate resident tuition levels that were raised at the May 2008 Board of Regents discussion of the proposed Fiscal Year 2009 budget. Brief comments on the information presented in the tables in this document are provided below.

Comments on the Information in Table 1

Information on undergraduate resident tuition and fees at the UW compared to the Higher Education Coordinating Board 24 group of comparison institutions for the 2007-08 academic year is presented in Table 1. Seventeen of the twenty-four HEC Board 24 comparison institutions have higher undergraduate resident tuition and fees than the UW. Undergraduate resident tuition and fees at the UW for the 2007-08 academic year are \$1,708 below the average undergraduate resident tuition and fees at the HEC Board 24 comparison institutions; nine of the HEC Board 24 comparison institutions have undergraduate resident tuition and fees that are more than \$2,000 higher than the UW.

Comments on the Information in Table 2

Table 2 presents a graph of the information shown in Table 1.

Comments on the Information in Table 3

Information on undergraduate resident tuition and fees at the UW compared to the Global Challenge States group of comparison institutions for the 2007-08 academic year is presented in Table 3. All ten of the Global Challenge State comparison institutions have higher undergraduate resident tuition and fees than the UW. Undergraduate resident tuition and fees at the UW for the 2007-08 academic year are \$1,914 below the average undergraduate resident tuition and fees at the Global Challenge State comparison institutions.

Comments on the Information in Table 4

Information on the percentage and dollar increases in undergraduate resident tuition at the UW since Fiscal Year 2004 is presented in Table 4. Table 4 also shows how the gap between undergraduate resident tuition and fees at the UW compared to the HEC Board 24 comparison institutions has changed since Fiscal Year 2004.

Undergraduate resident tuition at the UW has increased by 7% every year since Fiscal Year 2004. The cumulative dollar increase in undergraduate resident tuition for Fiscal Years 2004-2009 (assuming the proposed 7% increase for FY 2009 is implemented) is \$2,083; so over this six year time period, undergraduate resident tuition increases have averaged just under \$350/year.

In Fiscal Year 2004, undergraduate resident tuition and fees at the UW were \$969 lower than undergraduate resident tuition and fees at the HEC Board 24 comparison institutions. This gap with the HEC Board 24 comparison institutions has increased every year since Fiscal Year 2004 and the gap is projected to be \$1,927 for Fiscal Year 2009 – twice the gap in undergraduate resident tuition and fees in Fiscal Year 2004.

Comments on the Information in Table 5

The Board of Regents requested information on how much of the estimated cost of their education undergraduate resident students pay for with their tuition. Each year, the Higher Education Coordinating Board calculates such a figure based on the results of the detailed cost study that they conduct every four years – and update for legislative budget actions in the years between cost studies.

Information on the estimated average cost for an undergraduate student at the UW for the 2007-08 academic year and the percentage of that cost that is paid for by student tuition is presented in Table 5. For the 2007-08 academic year, the HEC Board estimates that the average cost per student FTE for an undergraduate student at the UW is \$10,383 per FTE. The operating fee portion of student tuition for the 2007-08 academic year (which is the figure that the HEC Board uses in this calculation) is \$5,549. Thus for the 2007-08 academic year, student tuition pays for 53.4% of the estimated cost of an undergraduate education at the UW; the estimated average cost of an undergraduate education that is paid for by the state is \$4,834 per FTE which is 46.6% of the estimated cost.

Comments on the Information in Table 6

Information on the number and percentage of undergraduate Pell Grant recipients at the UW by campus for the last eight years is presented in Table 6. For all three campuses combined, the percentage of undergraduate students who are Pell Grant recipients has fluctuated within a relatively small range for the last eight years – from a low of 17.9% in Fiscal Year 2001 to a high of 21.1% in Fiscal Year 2005. Some of the changes in the figures relate to changes in the eligibility criteria for Pell Grants; in particular, changes in Pell Grant eligibility criteria that were implemented in Fiscal Year 2006 resulted in a reduction in the number of students eligible for Pell Grants.

Comments on the Information in Table 7

Information on the estimated cost of attendance at the UW for a “traditional” undergraduate resident student for the 2007-08 and 2008-09 academic years are presented in Table 7. A “traditional” student is defined as follows: all single undergraduate students (without dependent children) who are living away from parent’s home; or undergraduate married students without children whose spouses are also students. The estimated total cost for nine-month attendance at the UW for a “traditional”

undergraduate resident student for the 2007-08 academic year was \$18,391; the elements of this total cost figure were: \$1,008 for books; \$8,337 for room/board; \$2,265 for personal expenses; \$396 for transportation; and \$6,385 for tuition and fees. For the 2008-09 academic year, the estimated total cost for nine-month attendance is \$19,030; the elements of this total cost figure are: \$1,035 for books; \$12,474 for room/board; \$2,265 for personal expenses; \$396 for transportation; and \$6,795 for tuition and fees.

Comments on the Information in Table 8

A few sample comparisons of financial aid awards for incoming undergraduate resident freshman for the 2007-08 and 2008-09 academic years are shown in Table 8. The examples are for students from households with a family income of \$20,000, \$40,000, \$50,000 and \$60,000. Projected tuition and fees for an undergraduate resident student were \$6,385 for 2007-08 and are \$6,793 for the 2008-09 academic years.

Comments on the Information in Tables 9 and 10

Information for the UW Seattle campus on the number of applications, offers and acceptances for freshman admission for Autumn Quarter 2008 for in-state students (by ethnicity) applying from high school is presented in Table 9. The summary represents the status as of June 1, 2008. Overall, offers were made to 64.9% of the in-state students applying to the UW from high school.

Information for the UW Seattle campus on the number of applications, offers and acceptances for freshman admission for Autumn Quarter 2008 for non-resident students (by ethnicity) applying from high school is presented in Table 10. The summary represents the status as of June 1, 2008. Overall, offers were made to 56.0% of the non-resident students applying from high school.

From now until autumn quarter begins, the resident and non-resident numbers in the freshman data will shift. Some students currently classified as 'non-resident' will shift to the 'resident' classification. More significantly, the 'melt' rate (the percentage of students now confirmed who do not enroll in the autumn) for non-resident students is relatively high. Depending on the year, the 'melt' rate for U.S. non-resident students is between 9%-12%. For international non-resident students, the 'melt' rate is between 11%-18%. The 'melt' rate for resident students, by comparison, is only around 3%. Therefore, the proportion of resident and non-resident students in the entering freshman class will change significantly between now and the 10th day census for autumn quarter.

Table 1

University of Washington
 UW - HECB 24 Universities
Undergraduate Resident Tuition and Fees

Academic Year 2007-08

	2007-08 Tuition and Fees
Cornell University-Contract Colleges	19,291

¹ Mandatory fees include Technology Fee, Services & Activities Fee, and IMA Bond Fee

Table 5

**Fiscal Year 2008 -- Estimated Average Cost for an Undergraduate Student at UW
and the Portion of that Cost Paid for by the Student**

Estimated Average Cost/FTE for Undergraduate Education at the at the University of Washington for Academic Year 2007-08*:	10,383	
Portion of cost paid by an undergraduate resident student through the operating fee portion of tuition**	5,549	53.4% of estimated cost paid by the student
Portion of cost paid by the state through the State General Fund appropriation to the UW:	4,834	46.6% of estimated cost paid by funding from the state

*Figure calculated by the Higher Education Coordinating Board. The calculation is based on 2006-06 Higher Education Coordinating Board Cost Study data with adjustments to reflect legislative actions in the FY 2007 and FY 2008 state budgets.

**Student tuition is separated into two components: an operating fee that provides part of the support for the Core Education Budget and a building fee that provides part of the support for the capital budget. For the 2007-08 academic year, undergraduate resident tuition is \$5,842 - of which \$5,549 is the operating fee portion of tuition and \$293 is the building fee portion of tuition. For calculating what portion of the estimated cost of education is paid by the student, the Higher Education Coordinating Board only uses the operating fee portion of tuition.

Table 6

University of Washington
Undergraduate Pell Grant Awards

Fiscal Year	Seattle		Bothell		Tacoma		All Campuses	
	Number of Recipients	Percentage of Recipients	Number of Recipients	Percentage of Recipients	Number of Recipients	Percentage of Recipients	Number of Recipients	Percentage of Recipients
2007	5,523	19.5%	294	16.7%	581	27.4%	6,398	19.9%
2006	5,471	19.7%	261	16.0%	546	27.3%	6,278	20.0%
2005	5,850	20.8%	271	16.1%	567	29.6%	6,688	21.1%
2004	5,823	20.6%	278	16.4%	569	30.8%	6,670	21.0%
2003	5,653	19.8%	318	18.8%	596	30.3%	6,567	20.4%
2002	5,273	18.4%	292	16.7%	547	28.3%	6,112	18.9%
2001	4,892	17.6%	252	15.5%	433	26.1%	5,577	17.9%
2000	5,316	19.0%	218	14.9%	358	24.5%	5,892	19.1%

The expected family contribution used in calculating Pell Grant eligibility was increased for fiscal year 2006; this change resulted in a reduction in the number of students eligible for Pell Grants.

Table 7

**2007-08 and 2008-09 Undergraduate Resident Student Budget
Traditional Undergraduate*
(Nine Month Living Expenses)**

Table 8

**Sample Financial Aid Award
For an Incoming Resident Freshman for the 2007-08 and 2008-09 Academic Years**

Example 1:

Student from family with income of \$20,000.
 Calculated Family contribution: 0
 Student Need: 2007-08 is \$18,623, 2008-09 is \$19,130
 Student Budget (Nine-Month Living Expenses): 2007-08 is \$18,623, 2008-09 is \$19,130

Type of Aid	2007-08 Amount	2008-09 Amount
Pell Grant	4,310	4,731
State Need Grant	5,564	6,000
Supplemental Grant	368	747
Work Study	3,300	3,300
Perkins Loan	4,000	3,000
Stafford Loan	1,081	1,352
Total Aid:	18,623	19,130

Example 2:

Student from family with income of \$40,000.
 Calculated Family contribution: 2007-08 is \$2,585, 2008-09 is \$2,400
 Student Need: 2007-08 is \$16,038, 2008-09 is \$16,730
 Student Budget (Nine-Month Living Expenses): 2007-08 is \$16,038, 2008-09 is \$16,730

Type of Aid	2007-08 Amount	2008-09 Amount
Pell Grant	1,760	2,381
State Need Grant	4,173	4,500
Supplemental Grant	100	100
Tuition Waiver	3,669	4,497
Stafford Loan	3,500	3,500
Parent Loan	2,836	1,752
Total Aid:	16,038	16,730

The above awards represent a simplified look at the federal family contribution formulas to isolate family income ranges. The full federal family contribution formulas consider assets, size of household, number in college, and a host of other factors in determining exact contribution figures. These are broad stroke samples only as no income cut-off exists to calculate family contribution figures. Although the family contribution calculations are broad stroke samples, the award amounts are the actual amounts offered to students with these family contributions.

Table 8 (continued)

**Sample Financial Aid Award
For an Incoming Resident Freshman for the 2007-08 and 2008-09 Academic Years**

Example 3:

Student from family with income of \$50,000.
 Calculated Family contribution: 2007-08 is \$4,548, 2008-09 is \$4,245
 Student Need: 2007-08 is \$14,075, 2008-09 is \$14,885
 Student Budget (Nine-Month Living Expenses): 2007-08 is \$14,075, 2008-09 is \$14,885

Type of Aid	2007-08 Amount	2008-09 Amount
State Need Grant	2,782	3,000
Tuition Waiver	6,338	6,794
Stafford Loan	3,500	3,500
Unsubsidized Stafford	0	1,591
Parent Loan	1,455	0
Total Aid:	14,075	14,885

Example 4:

Student from family with income of \$60,000.
 Calculated Family contribution: 2007-08 is \$7,302, 2008-09 is \$7,006
 Student Need: 2007-08 is \$11,321, 2008-09 is \$12,124
 Student Budget (Nine-Month Living Expenses): 2007-08 is \$11,321, 2008-09 is \$12,124

Type of Aid	2007-08 Amount	2008-09 Amount
Stafford Loan	3,500	3,500
Unsubsidized Stafford	0	2,000
Parent Loan	7,821	6,624
Total Aid:	11,321	12,124

The above awards represent a simplified look at the federal family contribution formulas to isolate family income ranges. The full federal family contribution formulas consider assets, size of household, number in college, and a host of other factors in determining exact contribution figures. These are broad stroke samples only as no income cut-off exists to calculate family contribution figures. Although the family contribution calculations are broad stroke samples, the award amounts are the actual amounts offered to students with these family contributions.
