MINUTES

BOARD OF REGENTS University of Washington

November 19, 2009

The Board of Regents held its regular meeting on Thursday, November 19, 2009, beginning at 3:15 p.m. in the UW Tower Board Room. The notice of the meeting was appropriately provided to the public and the media.

CALL TO ORDER

ROLL CALL

Assistant Secretary Keith called the roll: Present were Regents Simon (presiding), Barer, Blake, Brotman, Cole, Gates, Golden, Harrell, Jewell, Kiga; Dr. Emmert, Ms. Warren, Ms. Goldblatt; ex-officio representatives Mr. Mensing, Mr. Faleschini.

Absent: ex-officio representatives Professor Balick and Mr. Pasatiempo.

CONFIRM AGENDA

The agenda was confirmed as presented.

REPORT OF THE CHAIR OF THE BOARD OF REGENTS: Regent Simon

Regent Simon welcomed Joanne Harrell to her first meeting of the Board of Regents. Regent Harrell was appointed to the Board by Governor Gregoire, effective October 16, 2009, replacing Connie Proctor. Regent Harrell was invited to tell the Board about her background and experience.

Regent Simon noted the standing committee appointments for 2009-10 have been revised. Regents have a copy of these in their packets.

STANDING COMMITTEE APPOINTMENTS

ACADEMIC AND STUDENT AFFAIRS COMMITTEE:

Stanley H. Barer, Chair
Sally Jewell, Vice Chair
William H. Gates
Ben Golden

Joanne Harrell

FINANCE, AUDIT AND FACILITIES COMMITTEE:

Kristianne Blake, Chair
Frederick C. Kiga, Vice Chair
Jeffrey H. Brotman

Sally Jewell

Resolution Regarding Schedule of Regular Board Meetings in 2010 (Agenda no. BP-1) (Action)

MOTION: Upon the recommendation of the Chair of the Board, and the motion made by Regent Barer, seconded by Regent Jewell, the Board voted to approve the Resolution Regarding Schedule of Regular Board meetings in 2010.

See Attachment BP-1.

Resolution of Appreciation to Constance L. Proctor (Agenda no. BP-2) (Action)

Regent Simon read the Resolution of Appreciation to Connie Proctor.

MOTION: Upon the recommendation of the Chair of the Board, and the motion made by Regent Cole, seconded by Regent Blake, the Board voted to approve the Resolution of Appreciation to Constance L. Proctor.

See Attachment BP-2.

REPORT OF THE UNIVERSITY PRESIDENT: Dr. Emmert

President Emmert commented on Washington State's budget deficit and its potential impact on the state and the University of Washington. He said the University conducts exemplary faculty research. President Emmert told the Regents he attended the exit interview for the School of Dentistry's accreditation visit. The accreditation team is tasked with finding areas needing improvement and the team found the School exemplary in every area. Following the Board meeting, the President will attend the annual reception for new members of National Academies. He said the University of Washington's faculty members hold around 75 memberships to national academies and the UW has new members appointed every year.

The President said the UW needs to maintain its level of excellence and quality, although the state of Washington is no longer willing to publicly subsidize higher education at the same level of quality it used to.

Dr. Emmert said there is a huge demand from applicants who want to attend the University of Washington. Last fall, the University had 22,000 applicants, half of whom were non-residents, for 5,000 slots. The UW continues to be second in the nation in the level of research funding it receives. Dr. Emmert explained another measure of

November 19, 2009

excellence is the number of citations faculty research receives. When other scientists cite published faculty research as important work, these citations are counted and considered a measure of accomplishment. UW science has been cited more than any other public university in the United States and is cited fourth behind Harvard, MIT, and Stanford, for public and private universities, demonstrating the extraordinary demand for UW's research.

The President concluded by saying he feels that the upcoming legislative session will be challenging for the state and the university.

CONSENT AGENDA

Regent Simon noted there were seven items for approval on the consent agenda and called for a motion.

MOTION: Upon the recommendation of the Chair of the Board and the motion made by Regent Gates, seconded by Regent Kiga, the Board voted to approve the seven items on the consent agenda as shown below:

Minutes for the meeting of October 15, 2009

Establishment of the Graduate Certificate in Public Scholarship (Agenda no. A-2)

It is the recommendation of the administration and the Academic and Student Affairs Committee that the Board of Regents grant authority to the graduate faculty of the Interdisciplinary Committee on Public Scholarship in the Graduate School to offer the Graduate Certificate in Public Scholarship, effective Autumn Quarter 2010. The certificate program will have provisional status with a review to be scheduled in the 2015-2016 academic year. At such time that continuing status is granted, a ten-year review cycle would begin.

See Attachment A-2.

University of Washington Medicine Board Appointment (Agenda no. A-5)

It is the recommendation of the University President and the Academic and Student Affairs Committee that the Board of Regents make the following new appointments to the UW Medicine Board:

James K. Anderson	January 1, 2010 – December 31, 2012
William J. Rex	January 1, 2010 – December 31, 2012

See Attachment A-5.

Grant and Contract Awards Summary – September, 2009 (Agenda no. F-1)

November 19, 2009

It was the recommendation of the administration and the Finance, Audit and Facilities Committee the Board of Regents accept Grant and Contract Awards for the month of September, 2009, in the total amount of \$194,939,200.

See Attachment F-1.

Amendment to University of Washington Advisory Committee on Real Estate Statement of Principles (Agenda no. F-2)

It is the recommendation of the Finance, Audit and Facilities Committee that the Board of Regents adopt an amendment to the Statement of Principles for the UW Advisory Committee on Real Estate, providing for up to eight members to be appointed by the Board of Regents and providing that the Chair of the Board of Regents and the University President are to serve ex officio.

See Attachment F-2.

Purchase of Alumni House Building (Agenda no. F-8)

It is the recommendation of the administration and the Finance, Audit and Facilities Committee that the Board of Regents:

1. Approve the purchase of the Alumni House property for \$1.8 million;
2. Delegate to the president or his designee the authority to execute all documents related to this transaction.

See Attachment F-8.

Smart Grid Project – Review Project Concept and Select Energy Services Contractor (Agenda no. F-11)

It is the recommendation of the administration and the Finance, Audit and Facilities Committee that the Board of Regents approve the use of McKinstry Essention as an Energy Services Contractor (ESCO) for the project.

See Attachment F-11.

STANDING COMMITTEES

ACADEMIC AND STUDENT AFFAIRS COMMITTEE: Regent Barer, Chair

Academic and Administrative Appointments (Agenda no. A-1)

MOTION: Upon the recommendation of the administration and the motion made by Regent Gates, seconded by Regent Jewell, the Board voted to approve the personnel appointments. Regent Golden abstained from the discussion and vote.

See Attachment A-1.

Challenges and Innovations in Large Class Teaching and Learning (Agenda no. A-3) (Information only)

Regent Barer said the Regents received presentation about teaching to large size classes at the UW. Regents learned there is a lack of suitable large size classrooms. Budget cuts have resulted in a reduction in the number of teaching assistants in many areas, often resulting in larger classes.

See Attachment F-6.

UW Medicine Board Annual Financial Report (Agenda no. F-7) (Information only)

Regent Blake reported the Regents received the annual financial report from the UW Medicine Board, and learned things are generally going well at UW Medicine. The operating margin has improved and is projected to continue in a positive direction. The first three months of this fiscal year show a positive direction, without degradation in revenues or significant changes in the payer mix. UW Medicine will need to continue to

assess the impacts of changes resulting from health care legislation, which could affect revenue.

See Attachment F-7

Housing & Food Services (HFS) Master Plan Phase II and III Update (Agenda no. F-12) (Information only)

Regents received an update on the long-range plan for building additional student housing. The plan was reorganized to phase in the renovation of Terry Lander sooner than originally planned. This plan will allow the construction and renovation of additional housing units to be spread out more evenly and avoid a year with a significant decrease in the number of on-campus student housing units. A gradual increase will also be easier to manage. The plans continue to have “off ramps” to review decisions if the demand for student housing decreases.

See Attachment F-12.

Internal Lending Program Quarterly Report (Agenda no. F-13) (Information only)

The University recently issued \$77 million of “Build America” bonds. The issue rate was the lowest rate for long-term debt by the University. The bonds had 26 year terms with interest only payments and a 3.63 net rate after discount. The rate is subsidized 35% by funding from the federal stimulus package.

See Attachment F-13.

UW Capital Plan Overview (Agenda no. F-14) (Information only)

The Regents received a presentation which included data on all potential capital projects on campus. The next step will be to develop methodologies to review and prioritize projects within the university’s dynamic debt capacity. In the future, the Regents will use this methodology to evaluate projects and create a priority list. The goal is to develop parameters for deciding which projects to pursue. Regent Blake said this presentation was a good first step.

See Attachment F-14.

Advancement Return on Investment (Agenda no. F-15) (Information only)

Regents heard a discussion on the costs of fundraising, including how different academic units have differential costs relative to the amount of money they raise.

See Attachment F-15.

Annual Investment Program Review (Agenda no. F-16) (Information only)

November 19, 2009

Max Senter, the University's financial investment advisor, provided the Regents with information on the investment program. Last year's returns were not as good as hoped. Long term returns are in line with benchmarks and on par with peers. The asset allocation strategy has been beneficial in the long term.

REPORTS FROM EX OFFICIO REPRESENTATIVES TO THE BOARD OF REGENTS

Faculty Senate Chair: Professor Bruce Balick

Due to his participation on a review team for the Hubble telescope, Professor Balick did not attend the meeting. Regent Simon invited Professor J. W. Harrington, the Vice Chair of the Faculty Senate, to provide a report.

Professor Harrington introduced himself, and told the Regents he holds a masters degree and PhD from the University of Washington. Originally from South Carolina, he received his bachelor's degree from Harvard. Dr. Harrington is a Professor in the Department of Geography, specializing in economic geography.

As a former faculty legislative representative Dr. Harrington said he agrees with the need for effective, external help in conveying the University's message. The message will be more effective if it is presented by people from outside the university, including students, alumni, and friends, specifically those who aren't paid to advocate for the UW.

Professor Harrington explained the role of the Senate Committee on Planning and Budgeting (SCPB) as the only place where central administrators, faculty from across the university, and student leaders sit together weekly to provide advice on budget matters. He noted that faculty members are trying to develop criteria to assess budget decisions and outcomes.

November 19, 2009

Professor Harrington discussed the issue of salary policy and faculty advancement, with a focus on positive principles.

He said in 1999, the Regents supported a landmark set of rules that formed the basis for faculty assessment and advancement. The current salary policy was a key component in a hard-negotiated system of responsibilities and rewards, which included annual post-tenure reviews and peer consultation regarding counter-offers.

Dr. Harrington said he believes the University is professionally managed and said that managing human resources through the implementation of career ladders and salary progression are key to professional development of any organization. The University can do this with faculty, as it does with classified and professional staff, and recognize salary progression as a fundamental expense.

He said the alternative to the present policy, since there are no step increases or cost-of-living adjustments for faculty, would be for the faculty to stay at the same salary level for years, unless they individually pursue external, competitive offers.

Dr. Harrington concluded that he feels the University can accomplish this, because a major portion of a basic salary progression can be paid internally by the replacement of retiring and departing faculty by junior faculty – as long as retiring and departing faculty have higher salaries than junior faculty, that is, as long as there is some career progression.

In the short run, the remainder of the current biennium, Senate leadership is working to interpret Sec. 24-70 (UW faculty salary policy) in a way that is consistent with Executive Order 29 (which called for no salary increases this biennium), and in light of the statewide ban on salary increases which expires in February, 2010.

According to the Faculty Code, the Senate Executive Committee provides official interpretation of the Code. On Monday, November, 16, the Chair of the SCPB asked the Executive Committee to request the Advisory Committee on Faculty Code and Regulation to advise the Senate Executive Committee, to issue a flexible interpretation.

Professor Harrington said the University's faculty salary policy is an example of how the Regents and the Faculty Senate can work together in a collaborative manner and benefit from closer communication as they work together.

Questions and discussion followed.

ASUW President: Mr. Tim Mensing

Mr. Mensing said he would talk about advocacy and the Husky Pride Scholarship Fund.

Mr. Mensing invited Regents to attend ASUW's tri-campus legislative reception on Wednesday, December 9, at 6:30 p.m.

November 19, 2009

Mr. Mensing reported that ASUW has created an office of governmental relations political action network. The goal is to have 1% of the student body send an email to five key legislators. Mr. Mensing said he encourages students to take ownership of advocacy and he feels the success of the university is students' responsibility.

The Husky Pride Scholarship fund is run by students, for students, and provides support to assist students affected by personal or family crises, helps students engage in community, and provides scholarships to graduate and undergraduate students. Mr. Mensing said students will be involved in fundraising, and their goal is to increase the fund balance from \$20,000 to \$50,000 by the end of the year. Mr. Mensing described the fund as a symbol of the student body's investment in one another.

Regent Jewell shared a personal story about how, many years ago, the University assisted Lloyd Anderson, co-founder of REI. As a UW engineering student, he was faced with a financial emergency when his slide rule was stolen. He received assistance from the emergency fund for students in need, which enabled him to complete his education.

GPSS President: Mr. Jake Faleschini

Mr. Faleschini said 25 cents from the sale of each "UW Edition of the Not for Tourist Guide to Seattle" is donated to the Husky Pride Fund.

Mr. Faleschini reported the GPSS Summit was held on October 30. State Senator Lisa Brown delivered the keynote address. Faleschini thanked Regents Golden and Gates for spending the day at the conference, and he thanked Regent Gates for providing opening remarks and welcoming Senator Brown. He then thanked the Regents for their financial contribution to the project.

The same weekend GPSS hosted the second annual conference of Student Advocates for Graduate Education (SAGE). SAGE is a national lobbying organization for ten public universities in the United States, representing over 300,000 graduate students. Efforts by SAGE assured that the national health care agenda did not inadvertently exclude provisions for student health care options. Mr. Faleschini reported a successful weekend of collaboration.

With Regent Simon's approval, Mr. Mensing and Mr. Faleschini invited ASUW Bothell President, Xheni Diko, and ASUW Tacoma President, Cruz Credle, to update the Regents on activities on their campuses.

ASUW Bothell President, Xheni Diko, praised UW Bothell for offering for small classes. The Bothell campus is in the process of expanding food options for students. Ms. Diko reported the campus has a "new buzz" and a good sense of community, evidenced by the recent sold out homecoming dance. The students joined the campus in celebrating 116% enrollment. Ms. Diko praised the high level of student involvement exemplified by the receipt of 27 applicants for six appointments to the Student Activity Fee Committee, in response to only two email announcements.

November 19, 2009

ASUW Tacoma President, Cruz Credle, said students are reviewing proposals from vendors to provide health services on the UW Tacoma campus. He said students are formulating plans for a student union facility on the Tacoma campus. ASUW Tacoma student leaders hosted a successful higher education and economic summit on November 3. Mr. Credle said, given the current economic challenges, the summit focused on employment after graduation. Mr. Credle praised the level of communication and collaborative efforts between the three campuses.

Alumni Association President: Mr. Eddie Pasatiempo

Mr. Pasatiempo did not attend the meeting. In his absence, Regent Simon invited Mr. Mike Egan, the UWAA Board Secretary, to provide a report.

Mr. Egan said the UWAA leadership has been active with a new strategic direction. He said the health of the state and region is tied to the health of the University of Washington. UWAA is embarking on a concerted effort to focus on civic engagement and the education of UWAA members and the extended university family. They plan to encourage alumni to educate themselves on issues related to the University.

Mr. Egan said it is critical to use connections with university friends to educate and engage them. UWAA will conduct a broad-based communications campaign, focused on communities and neighborhoods, to convey that all are impacted by the work being done at the University of Washington. UWAA leadership will be traveling through the state sharing this message.

DATE FOR NEXT MEETING

Regent Simon announced the December 10 meeting of the Board is canceled.

The next regular meeting of the Board of Regents will be held on Thursday, January 21, 2010, at the UW Tower. Regents will meet for dinner at Hill-Crest on Wednesday, January 20.

There will be a special joint meeting of the Washington State University and University of Washington Boards of Regents on Saturday, November 28, at 11:30 a.m. Governor Gregoire is planning to attend. Regents will receive further details by email from the Board office.

ADJOURNMENT

The regular meeting was adjourned at 4:15 p.m.

Joan Goldblatt
Secretary of the Board of Regents

Approved at the meeting of the Board of Regents on January 21, 2010.

IV. REPORT OF THE CHAIR OF THE BOARD OF REGENTS

Resolution Regarding Schedule of Regular Board Meetings in 2010

RECOMMENDED ACTION:

It is the recommendation of the Chair of the Board of Regents that the Board approve the following resolution regarding its schedule of regular meetings for 2010:

RESOLUTION

WHEREAS, the Bylaws of the Board of Regents and WAC 478-04-030 call for regular monthly meetings, and

WHEREAS, the schedule of meetings is to be established yearly by resolution of this Board,

NOW, THEREFORE, BE IT RESOLVED that the regular meetings of the Board of Regents be held on the following dates in 2010, subject to change, providing that due notice is given by the Secretary of the Board in accordance with the Bylaws of the Board of Regents:

(Any changes in the above schedule will be announced at least 24 hours before the time of the scheduled regular meeting with due notice to press and public in accordance with RCW Chapter 42.30.)

To request disability accommodations, contact the Office of the ADA Coordinator, at least ten days in advance of the event. 206-543-6450 (voice); 206-543-6452 (TDD); 206-685-3885 (fax); access@uw.edu (e-mail).

IV. REPORT OF THE CHAIR OF THE BOARD OF REGENTS

**University of Washington
Board of Regents
Resolution of Appreciation to
Constance L. Proctor**

WHEREAS, Constance L. Proctor has completed two terms as a member of the University of Washington Board of Regents, contributing twelve years of exemplary service to the Board, the University of Washington, and the citizens of the state; and

WHEREAS, after graduating from the University of Washington School of Law, she built a distinguished career in real estate law as a partner in several prestigious Seattle law firms; and

WHEREAS, she provided outstanding leadership and served the Board in numerous capacities during her terms of service, including election as Board Chair in 2000-2001, Board Vice Chair in 1999-2000, and several terms chairing the Academic and Student Affairs Committee and the Capital Assets Committee; and

WHEREAS, her service to the Board and the University extended nationally with her appointment as the University of Washington Regent representative to the Association of Governing Boards, the national organization of Boards of Regents and Trustees; and

WHEREAS, her deep commitment to education and opportunity was manifest in everything she did as a Regent, in particular her openness and accessibility as a Regent and her unparalleled participation and engagement in every aspect of University life, from visiting classes and student-sponsored events to lectures, community forums, and Husky athletics; and

WHEREAS, her championing the values of diversity and eloquently articulating the Regents' long-standing commitment to ensuring that students from all walks of life and all economic backgrounds have an equal opportunity to succeed at the University of Washington; and

WHEREAS, her keen mind, wise judgment, and complete dedication and diligence in carrying out her Regental responsibilities have contributed in innumerable ways to the work of the Board and to the betterment of the University; and

WHEREAS, her passion for the educational enterprise in all its facets, her warmth, humor, and engaging personality contributed time and again to the Board's collegial deliberations;

NOW, THEREFORE, BE IT RESOLVED: That the members of the Board express to Connie Proctor their gratitude on behalf of the entire University community and their own personal thanks for her exemplary service, her friendship and collegiality, and her exceptional contributions to the work of the Board, that we wish her continued success and happiness in all her endeavors, and that this resolution be spread upon the minutes of the Board as a permanent record of the Board's sincere appreciation.

Establishment of the Graduate Certificate in Public Scholarship

RECOMMENDED ACTION

It is the recommendation of the administration and the Academic and Student Affairs Committee that the Board of Regents grant authority to the graduate faculty of the Interdisciplinary Committee on Public Scholarship in the Graduate School to offer the Graduate Certificate in Public Scholarship, effective Autumn Quarter 2010. The certificate program will have provisional status with a review to be scheduled in the 2015-2016 academic year. At such time that continuing status is granted, a ten-year review cycle would begin.

BACKGROUND

In June 2009, the Graduate School Dean received a request from the Graduate Faculty of the Interdisciplinary Committee on Public Scholarship to establish a Graduate Certificate in Public Scholarship. This certificate would be administratively housed in the Graduate School, with day-to-day administration occurring in the Simpson Center for the Humanities (College of Arts & Sciences). Students would enroll in the certificate program beginning Autumn Quarter 2010, with 6-12 students anticipated the first year.

Public scholarship encompasses scholarly activities that contribute to the public good and yield products of public and intellectual value for diverse communities. This certificate would advance and formally structure work done by graduate students on public forms of scholarship across the arts and sciences, including professional programs, that engages with and through the medium of culture. Students in the program would take courses on the historical, political, and intellectual foundations of public scholarship and would develop a portfolio of research, teaching, and/or engagement practices designed to complement their scholarly work in their home departments. Students would also collaborate with a cross disciplinary cohort of graduate students trained in diverse forms of applied cultural scholarship. The total certificate requirements encompass 15 credits of coursework.

The Graduate School Council met on October 8, 2009, to discuss the Graduate Certificate in Public Scholarship proposal. The Council unanimously recommended that the proposal be forwarded to the Board of Regents for review and approval.

The Vice Provost and Dean of the Graduate School and the Provost have reviewed and approved the recommendation for program implementation.

A. Academic and Student Affairs Committee

University of Washington Medicine Board AppointmentRECOMMENDED ACTION:

It is the recommendation of the University President and the Academic and Student Affairs Committee that the Board of Regents make the following new appointments to the UW Medicine Board:

New Appointment

James K. Anderson

January 1, 2010 – December 31, 2012

William J. Rex

January 1, 2010 – December 31, 2012

BACKGROUND

Article 1, Section 1 of the UW Medicine Board Bylaws states, “The UW Medicine Board (the “Board”) shall consist of sixteen (16) members, including the President of the University and the CEO/EVPMA/Dean, who shall serve as *ex officio* members of the Board with full voice and vote. The Board members shall be appointed by the Board of Regents. The Chair of the Board of Regents shall appoint the Chairperson of the UW Medicine Board. At least one Board member shall be a member of the Board of Regents. One Board member shall be a member of the faculty of the University nominated by the President of the University. The remaining twelve (12) Board members shall be nominated by the President of the University from among people who have broad public perspectives and do not represent any special interest group.”

The affiliation agreement with Northwest Hospital provides that the UW will appoint two (2) UW Medicine/Northwest Trustees designated by the UW Medicine/Northwest Board (the “UW Medicine/Northwest Designated Board Members”) to serve as members of the UW Medicine Board. The individuals listed on Schedule 3.5(c) to this Agreement are the initial UW Medicine/Northwest Designated Board Members. Separate written approval by the UW of the nominees is a condition precedent to the parties’ obligations to close this transaction. Effective at Closing, the individuals listed on Schedule 3.5(c) to this Agreement (Mr. Anderson and Mr. Rex) shall be and hereby are appointed to serve as members of the UW Medicine Board. The UW Medicine/Northwest Designated Board Members shall in all respects, including but not limited to qualifications, rights (including voting rights), privileges, and term of office, be undifferentiated from the other UW Medicine Board Members.

Mr. Anderson has served on the Health Resources Northwest/Northwest Hospital & Medical Center board since 2000 and is currently Chairman. He also serves as the chair of the Executive and IS committees and sits on the Audit,

Compensation, Foundation, Governance, Insurance and Strategic Planning committees. Mr. Anderson is president and CEO of Adaptis Inc., a healthcare business process outsourcing company. Prior to Adaptis, Mr. Anderson was President, CEO and Chairman of Pacific First Financial Corporation and Pacific First Bank and Group Senior Vice President of California Federal Savings and Loan.

Mr. Rex has served on the Health Resources Northwest/Northwest Hospital & Medical Center board since 1990, and chairs the Governance Committee as well as sitting on the Building, Compensation, Finance, Investment and Strategic Planning committees. He recently retired as Managing Director of Prudential Securities Inc. and currently serves in an advisory role at Wachovia Securities Inc. Prior to Prudential Securities, Mr. Rex was President of Picnic Point Development Company, Ltd. Concurrently, he was Executive Vice President at Shearson Lehman Brothers and President of Foster & Marshall Realty and Mortgage Company, where he had previously held the title of Senior Executive Vice President.

It is recommended that Mr. Anderson and Mr. Rex be appointed to the UW Medicine Board for three year terms ending December 31, 2012, subject to the successful closing of the affiliation agreement by and among Health Resources Northwest, Northwest Hospital & Medical Center, and the University of Washington.

Under the Bylaws of the UW Medicine Board it states that “the term of office of each appointed Board member shall be three years. No appointed Board member may serve more than three successive three-year terms....”

VII. STANDING COMMITTEES**B. Finance, Audit & Facilities Committee**Amendment to University of Washington Advisory Committee on Real Estate Statement of PrinciplesRECOMMENDED ACTION:

It is the recommendation of the Finance, Audit and Facilities Committee that the Board of Regents adopt an amendment to the Statement of Principles for the UW Advisory Committee on Real Estate, providing for up to eight members to be appointed by the Board of Regents and providing that the Chair of the Board of Regents and the University President are to serve ex officio.

BACKGROUND:

The University of Washington Advisory Committee on Real Estate (“ACRE”) was established in September 2009 as an advisory committee to the Board of Regents (and/or its appropriate committee) and the President (and/or his designee) on matters relating to the management of the University’s commercial income producing properties and other significant real estate investments. A set of guidelines was established to address the administrative functioning of the Committee, called the Statement of Principles (Attachment 1).

The Statement of Principles is amended to provide that ACRE shall be comprised of up to eight members appointed by the Board of Regents plus the Chair of the Board of Regents and President of the University, both of whom are to serve ex officio.

Attachment 1

University of Washington Advisory Committee on Real Estate Statement of Principles

Approved by Board of Regents September 17, 2009

Amended November 19, 2009

The Board of Regents of the University of Washington is vested by statute with responsibility for the management of the real properties of the University, including its Metropolitan Tract located in downtown Seattle. The Board approved the establishment of an Advisory Committee on Real Estate at its meeting on September 17, 2009, and adopted the following Statement of Principles:

1. **Membership and Terms:** The UW Advisory Committee on Real Estate ("ACRE") shall consist of no more than eight (8) members to be appointed by the Board of Regents, plus the President of the University and the Chair of the Board of Regents, both of whom shall serve *ex officio*. These appointments shall be based on recommendations submitted by the Chair of the Board of Regents after consultation with the Chair of ACRE, the President of the University and his or her designee(s).

One or two of the appointed members shall be selected from the Board of Regents. ~~The President of the University shall also be a member of ACRE.~~ The remaining appointed members shall be experienced professionals of varying backgrounds.

There shall be a three year term limitation for Regent and non-Regent members of ACRE, renewable by the Board of Regents. Members will be asked to make a minimum commitment of three consecutive years, and shall serve at the pleasure of the Board of Regents.

2. **Functions:** ACRE shall advise the Board of Regents (and/or its appropriate committee) and the President (and/or his designee) on matters relating to the management of the University's commercial income producing properties and other significant real estate investments.
3. **Meetings:** ACRE shall establish a regular meeting schedule. Other meetings may be called by the Chair at any time. The Chair of ACRE may invite experts who are not members of the ACRE to attend specific meetings to provide additional guidance, advice and information.
4. **Indemnification and Compensation:** The University shall indemnify members of ACRE to the fullest extent permitted by law and the standing orders of the Board of Regents. ACRE members will not be paid for service on the committee.

5. **Conflict of Interest:** Regental members of ACRE are governed by conflict of interest rules applicable to Regents. Non-Regent members shall comply with the following conflict of interest provisions:
 - A. When a member of ACRE knows that the University is considering a transaction in which he or she has or may have a beneficial interest, the member shall (1) alert the Senior Vice President (“SVP”) (or successor official) of the University of his or her potential beneficial interest and (2) not participate in the formulation or rendering of advice with respect to the transaction.
 - B. Committee members shall not participate in the formulation or rendering of advice by ACRE where their participation could be influenced by financial or other considerations that would conflict or could reasonably appear to conflict with their obligations to only consider the best interest of the University. Where a member is uncertain about the application of this rule to particular circumstances, he/she should consult the Chair of ACRE and the SVP, who may seek the advice of the Attorney General’s Office as appropriate.
 - C. Committee members may engage in transactions with the University if the Chair of ACRE and the SVP (who may consult with the Attorney General’s Office as she/he deems appropriate) determine that the member has not participated in the formulation or rendering of advice by ACRE to the University regarding the transaction.
6. **Chair and Vice Chair; Administrative Support:** The Chair of ACRE shall be designated by the Chair of the Board of Regents. The Chair of ACRE shall designate a Vice Chair from the committee membership. During the absence of the Chair or while he/she is unable to act, the Vice Chair shall perform the duties and exercise the powers of the Chair. The SVP shall ensure that ACRE has appropriate administrative support services, including secretarial assistance and record keeping.
7. **Communication:** The Chair of ACRE shall provide quarterly reports to the Board of Regents (and/or its designated committee).
8. **Amendments:** This Statement of Principles shall be reviewed annually and updated as needed. Amendments, additions, deletions or replacements may be recommended by ACRE. Such changes shall be subject to the approval of the President of the University and the Board of Regents.

A white letter 'W' on a purple square background, located in the top right corner of the page.A photograph of a university campus scene. In the foreground, two people are walking away from the camera on a paved path. The path is lined with large, leafy green trees. In the background, there are several large, multi-story brick buildings with Gothic-style architecture, including a prominent tower with a spire. The sky is clear and blue. The overall scene is bright and sunny.

MONTHLY HIGHLIGHTS

The UW received \$14.43M in total private voluntary support (\$3.53M in gifts and \$10.90M in grants) in the current month.

Areas including Arts and Sciences, Education, Engineering, Graduate School, Minority Affairs, Ocean and Fishery Sciences, Pharmacy, Public Health, Social Work, Student Affairs, Undergraduate Academic Affairs, UW Bothell and UW Tacoma are ahead of last year's year-to-date totals.

¹ Donors are defined as those entities who have a credit amount of greater than \$0.00.

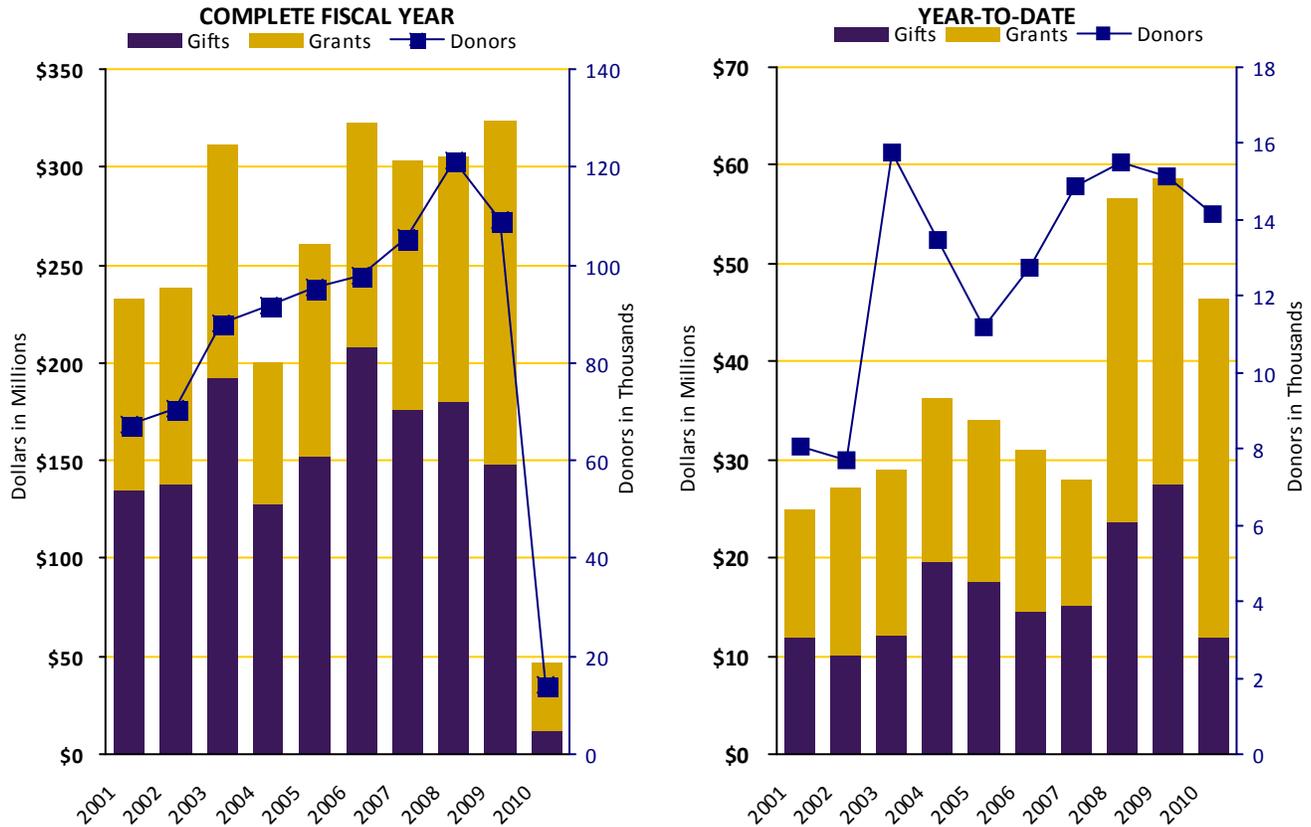

The donor total at the bottom of the chart is not a cumulative total of the rows above. The donor total is the number of unique donors who have been credited with a gift to the UW during the given time period.

The University of Washington Alumni Association is the broad-based engagement vehicle for University Advancement and the University of Washington. Through its strategically designed programs, the UW Alumni Association invites alumni, donors and friends to engage in the life of the UW. Research indicates that engaged alumni and friends are more inclined to support the University and its students. The UW Alumni Association is proud to develop a solid base of support for the University of Washington.

The logo is a white, stylized letter 'W' set against a dark purple square background, located in the top right corner of the page.The background image shows a wide, paved walkway on a hillside at the University of Washington. The path is lined with large, mature green trees. In the distance, several people are walking, including a man in a white shirt and blue jeans with a red backpack, and another man in a dark jacket. The sky is clear and blue. In the upper right, a portion of a large, historic stone building with Gothic-style architecture is visible.

MONTHLY HIGHLIGHTS

The UW received \$24.91M in total private voluntary support (\$14.77M in gifts and \$10.14M in grants) in the current month.

Areas including UW Medicine, Dentistry, Engineering, Graduate School, Intercollegiate Athletics, Minority Affairs, Nursing, Ocean and Fishery Sciences, Pharmacy, Public Health, Social Work, Student Affairs and UW Bothell are ahead of last year's year-to-date totals.

¹ Donors are defined as those entities who have a credit amount of greater than \$0.00.

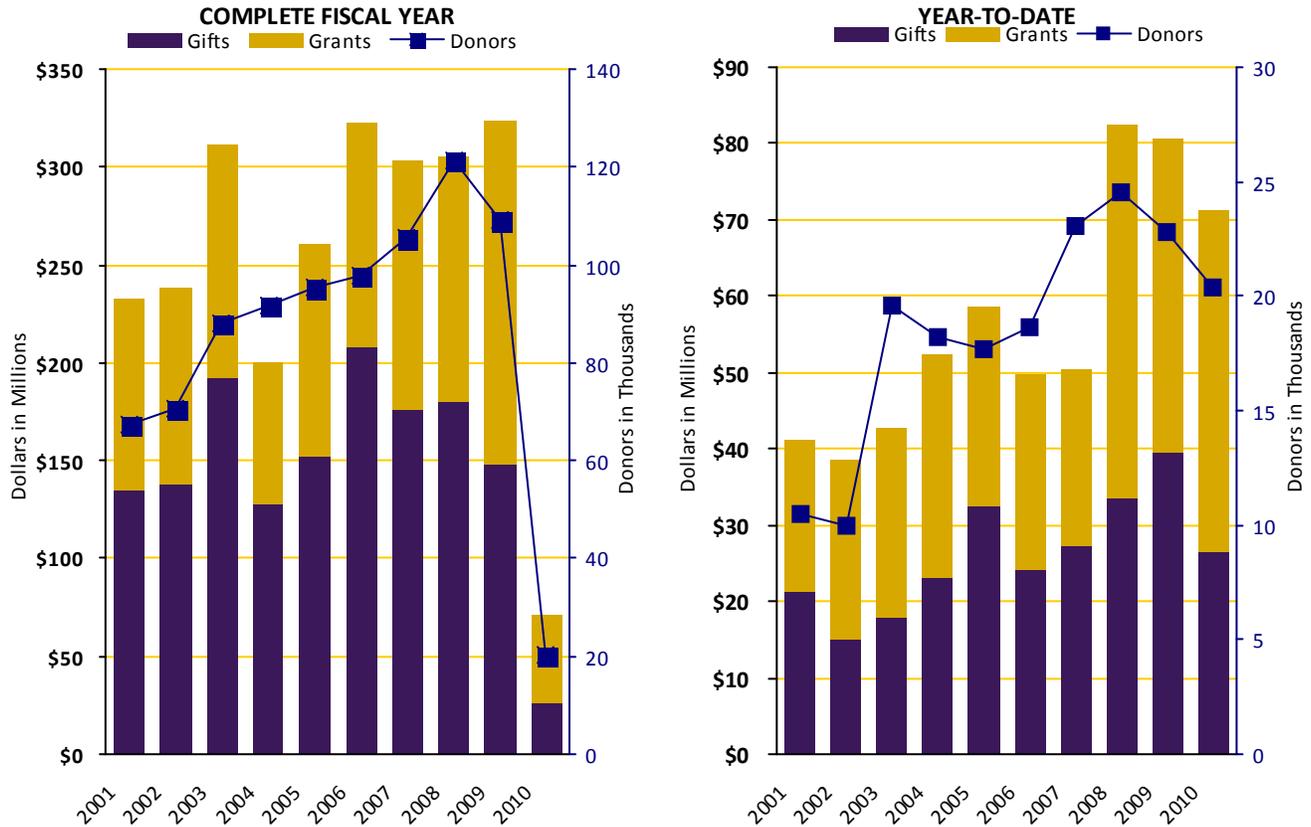

The donor total at the bottom of the chart is not a cumulative total of the rows above. The donor total is the number of unique donors who have been credited with a gift to the UW during the given time period.

REPORT OF CONTRIBUTIONS, UNIVERSITY OF WASHINGTON September 2009

All Areas

The University of Washington Alumni Association is the broad-based engagement vehicle for University Advancement and the University of Washington. Through its strategically designed programs, the UW Alumni Association invites alumni, donors and friends to engage in the life of the UW. Research indicates that engaged alumni and friends are more inclined to support the University and its students. The UW Alumni Association is proud to develop a solid base of support for the University of Washington.

Actions Taken Under Delegated Authority

Pursuant to the Standing Orders of the Board of Regents, Delegation of Authority, and to the delegation of authority from the President of the University to the Senior Vice President in Administrative Order No. 1, to take action for projects or contracts that exceed \$1,000,000 in value or cost but are less than \$5,000,000, the Administration may approve and execute all instruments.

REPORT OF ACTIONS TAKEN UNDER GENERAL DELEGATED AUTHORITY – CAPITAL PROJECT BUDGETS1. None to ReportREPORT OF ACTIONS TAKEN UNDER GENERAL DELEGATED AUTHORITY – ACQUISITION OF GOODS AND SERVICES1. Harborview Medical Center
Action Reported: Purchase of a “Gamma Knife”

Requisition number 877812 has been awarded for the purchase of an upgraded model of the Gamma Knife. The total value for this transaction will not exceed \$3,900,000 plus sales tax.

Harborview Medical Center has undertaken a project to improve its intracranial stereotactic radiosurgery for malignant and non-malignant brain tumors. Harborview has used the Elekta Gamma Knife® since April 2000, with an upgrade in 2005, as the sole method of Magnetic Resonance Imaging (MRI) capabilities. Harborview’s existing MRI is currently operating 24 hours a day seven days a week without a back-up unit. Its utilization rate is above standard use levels for comparable hospitals, and reflects the growing demand for greater access by our patients. Harborview is proposing to upgrade to the Elekta “Perfexion” Gamma Knife® model to continue treating intracranial tumors as well as extending to include those just beyond the skull base. This model enhances customer comfort, safety and reduces time for procedures. It also allows for extending the treatment area into the upper neck while maintaining the high degree of accuracy that has been the hallmark of all versions of the Gamma Knife®.

This transaction is being processed as a single-source transaction. All existing equipment, computers and software integrate flawlessly with the Elekta Perfexion model. The infrastructure and facility components fully support continued use of

the upgraded Elekta model. The physicians are fully trained on Elekta Gamma Knife® procedures, software, diagnostic and planning programs. Changing vendors to a different modality and different product at this time would cause major disruption of the program.

This amount will be divided between Harborview's FY2010 Capital Budget (60%) and FY2011 Capital Budget (40%). The purchase has been approved by the Harborview Executive Director, the Clinical Operating Officer and Vice President for Medical Affairs, and the Harborview Board of Trustees.

VII. STANDING COMMITTEES**B. Finance, Audit and Facilities Committee**Portage Bay Insurance Annual Report

On June 30, 2009, the University's captive insurance company, Portage Bay Insurance (PBI), completed its seventh year of operation. It is providing all coverage and services envisioned in its 2002 business plan.

GOVERNANCE AND MANAGEMENT

The PBI Board of Directors includes two outside directors and five University employees having significant responsibilities for risk management, liability management and asset management. PBI contracts with the University for claim and risk management services from the Office of Risk Management and for investment services from Treasury. It contracts with Strategic Risk Solutions, a captive management company located in Phoenix, Arizona, to manage and account for its activities.

FY09 ASSET/LIABILITY GROWTH

PBI provides professional, general, automobile and employment practices liability insurance coverage for the University, its employees and students. Annual premiums are established through an independent actuarial study and are paid by the central administration and self-sustaining units. FY09 resulted in total retained premiums of \$11.6 million (down 1.6% from FY08) while claims incurred were \$9.2 million (down 24.3% from FY08). FY09 ended with total assets of \$69.8 million (down 5.9% from FY08) while total liabilities were \$31.2 million (down 7.7% from FY08). 134 claims were closed in the fiscal year, 42% without any payment to the claimant. Funds are invested in the University's Invested Funds portfolio which had a total return for the year of -5%. Milliman, the University's independent actuary, has opined that PBI is adequately funded to meet its liabilities.

REINSURANCE

PBI reinsures against catastrophic losses with London, Bermuda, Swiss and American reinsurers having A.M. Best ratings of A- or better. On July 1, 2009, coverage with limits of \$100 million was renewed for a \$2.5 million premium, a reduction of 2.97% from the prior year.

VII. STANDING COMMITTEES

B. Finance, Audit and Facilities Committee

Portage Bay Insurance Annual Report (continued p. 2)

REGULATORY AND AUDIT

KPMG Honolulu has completed the PBI annual audit with no findings or issues. Final issuance of its report is pending completion of the Seattle team's audit of the University's investment portfolio. In 2007, a full regulatory review found PBI in compliance with all requirements of Hawaii, its state of domicile. The IRS has ruled that PBI qualifies as a 501c3 tax-exempt corporation and that it is not required to file 990 forms.

PROGRAM ACCOMPLISHMENTS

A PBI-funded "Patient Safety Innovation Program" was introduced in UW-Medicine. Its first grant of \$50,000 was awarded for the development of a program to train health care practitioners in appropriate methods for disclosure of errors in care to patients. Five or six more grants for research into new patient safety techniques will be awarded in the coming year. It is anticipated that promising outcomes may result in external grant funding and that all successful new loss prevention techniques will be implemented in UW facilities with the objectives of reducing patient injuries and controlling ultimate liability costs.

FY10 Goals

The Board of Directors will be adopting several financial management policies this year, including a confidence level policy and premium/reserve discounting policies.

UW MEDICINE BOARD

ANNUAL FINANCIAL REPORT TO THE UW BOARD OF REGENTS

NOVEMBER 19, 2009

EXECUTIVE SUMMARY

UW Medicine financial performance overall in FY 2009 was positive compared to budget. Total revenue for UW Medicine was \$2.5 billion in FY 2009, representing a 6% increase compared to FY 2008. The clinical programs recorded continued growth and positive financial performance. Research grant funding in UW Medicine increased by 10%. Support from the state of Washington, however, was reduced as a result of the general reduction to the University and the reductions in health care programs. The impact of the reduced funding for health care programs began in FY 2009, but will have more adverse effects in FY 2010 with an estimated reduction of \$20 million per year at Harborview and UW Medical Center. The School of Medicine (SOM) state funds were reduced by 9.5%, and SOM budgets were also impacted by the reduction in endowment payouts.

Key financial highlights for FY 2009 include:

- The balance sheet for UW Medicine's clinical programs remains stable. Cash increased, but remains below the Moody's "A" rated level. Debt ratios, however, remain exceptionally strong due to the relatively low level of debt at the medical centers. Net income from operations for the UW Medicine health system (excluding revenue in the School of Medicine) was \$57.5 million (3.3%), including post-closing adjustments.
- FY 2009 was a very challenging year for health care with the emergence of the global financial crisis and economic downturn which resulted in job losses in the Seattle King County market and a rise in the uninsured population. The UW Medicine health system was able to weather the economic crisis by focusing on rapid process improvements across the system to reduce costs, eliminate redundant services, and improve overall efficiency of services. Effective strategic planning and rapid implementation of approved initiatives increased key patient volumes and revenues. Consolidation of services reduced costs and improved efficiencies of care.

- Planned construction of new buildings based on the year 2000 Voter Approved Bond Project for seismic upgrades and bed expansion at Harborview Medical Center (HMC) was brought to completion, and the new facilities came into operation during FY 2009. The new Maleng Inpatient Building added 50 beds and 8 new operating rooms and the 14 story Ninth and Jefferson Building (NJB) was constructed and brought into operation. This new construction increased depreciation and lease costs and increased staffing and orientation costs during the initial phases of opening the Maleng Building. By the end of the fiscal year, orientation was completed, staffing levels were reduced, and patient volumes increased as a result of the added capacity. Operating expenses were managed to reduce costs. This resulted in an operating margin of \$5.4 million (0.7%) and a total income of \$12.3 million (1.7%), including post-closing adjustments, which was better than budgeted performance. The positive financial performance was achieved in the setting of a record amount of charity care (over \$150 million) in FY 2009. This represented an increase of \$30 million from FY 2008. The emergency department statistics for Harborview, presented in the following section, reflect management’s efforts to dedicate the hospital resources to prioritize services to meet the needs of the most critical advanced life-support patients while working with the community to serve the needs of basic patient transports that can be cared for in any emergency department.
- UW Medical Center (UWMC) outperformed budget to a great extent in FY 2009. Revenue exceeded budget by a wide margin due to strong volumes in key service lines such as oncology and improved documentation and coding which resulted in higher case mix index and improved reimbursement for care. UWMC administration also closely managed operating expenses. The actual operating margin was \$58.4 million (7.8%), exceeding budget by \$31 million, and the total income was \$63.0 million. The level of charity care remained similar to FY 2008 at \$16 million.
- Patient Financial Services (PFS), the shared billing office for both medical centers, recorded significant reductions in days outstanding in accounts receivable, reflecting improvements in revenue cycle management. PFS and the hospital finance departments have completed a series of revenue cycle improvements to prepare for the March 2010 go-live of the new EPIC billing system for HMC, UWMC, and the Seattle Cancer Care Alliance (SCCA).
- University of Washington Physicians (UWP) cash receipts exceeded budget by \$3.7 million (2%) and were up by \$9 million over FY 2008. Cash per unit of output (relative value units or RVU’s) increased. UWP reserves declined, primarily reflecting investment losses. Children’s University Medical Group (CUMG) cash receipts exceeded budget by \$6.4 million (6.5%), and were up by \$5.6 million over FY 2008.
- Seattle Cancer Care Alliance (SCCA) had a very strong year financially, with total net income of \$17 million. This performance exceeded budget by \$6.2 million. The majority of the positive variance from budget is attributable to the inpatient program, where the SCCA maintained 82% occupancy of the 20 beds at UW Medical Center that are under the SCCA’s license. UW Medical Center recognizes SCCA financial results using the equity method, recording one-third of the total net income as “other revenue.”

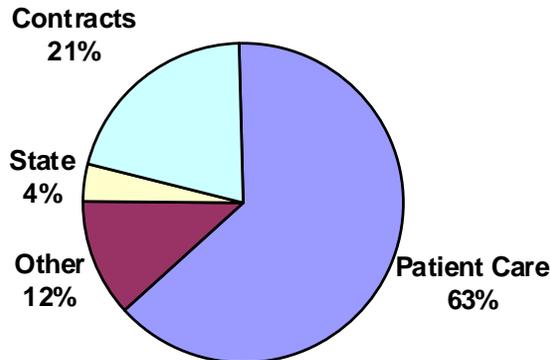

- The UW Physicians Network (UWPN) recorded an operating loss of \$6.3 million in FY 2009, \$1.8 million in excess of the budgeted loss. Part of this loss was due to mid-year unbudgeted expenses related to addition of OB/GYN physicians at the Shoreline Clinic and nursing staff at all clinics. The addition of the OB/GYN physicians was consistent with UW Medicine's strategic goal of expanding the number of routine deliveries. Total UWPN visit numbers were lower than expected, and physician recruitment costs were higher than anticipated due to a rapid recruitment plan to fill 17 FTE's in physician vacancies that occurred in FY 2008. Turnover of primary care physicians has been a recurring issue in UWPN, and we are addressing this issue by increasing the nursing support staff at each clinic and through process changes designed to improve physician satisfaction. All 17 positions were successfully filled by the end of FY 2009. We are now seeing the impact of the recruitments with increased visit numbers. Nurturing and growing our primary care programs is an important component of our overall health system strategy.
- Airlift Northwest (ALNW) had a significant positive turnaround in FY 2009. ALNW recorded a positive bottom line of \$880,000; this was substantially better than the FY 2008 loss of \$1.5 million. The positive performance was accomplished through elimination of outside contract services, implementation of process improvements, closure of a base, and control of operating expenses. These changes have not only improved the financial performance of ALNW, but also improved the morale of the staff and operational safety.
- UW Medicine research grants grew by \$50 million (10%) for UW-based research in FY 2009 compared to FY 2008.
- Total private support for UW Medicine in FY2009 was \$156.2 million, exceeding the previous year's total by \$22 million and comprising nearly half of the University's total private support for the year.
- Approximately \$450 million of total revenues are transferred between various UW Medicine entities to support the teaching, research, and patient care activities. In FY 2009, this included \$204 million from the physician practice plans (UWP and CUMG) to support School of Medicine faculty salaries, clinical department operations, and the Dean's office, \$99 million from the medical centers to SOM clinical departments to provide faculty salary and program support, \$35 million from the medical centers to the SOM to support graduate medical education, and \$23 million from the medical centers, practice plans, and SOM to support the central administrative and service functions of UW Medicine.

The consolidated financial report for UW Medicine is included as an appendix to this report.

KEY STATISTICS & RESULTS

UW Medicine revenues were \$2.5 billion in FY 2009. This represents an increase of approximately 6% compared to FY 2008. The following charts summarize the sources of financial support for UW Medicine. Over the last five years (FY 2004-2009), total UW Medicine revenue has increased at an average rate of 8% per year. These increases have occurred in the setting of a flat NIH budget and a very competitive local health care market.

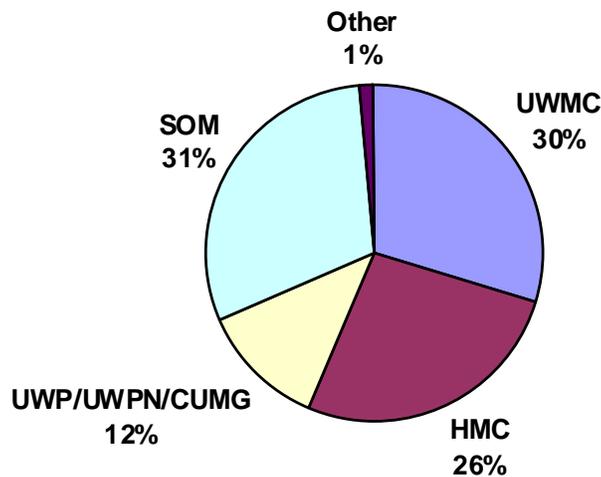

Fiscal Year 2009 – Revenue by source

Total Revenue: \$2.5 billion

(Other includes support from Wyoming, Alaska, Montana, and Idaho, revenue from endowments and gifts, and cost centers.)

Fiscal Year 2009 – Revenue by entity

Total Revenue: \$ 2.5 billion

(Other includes Airlift Northwest and the Consolidated Laundry.)

UW Medicine financial support comes predominantly from patient care revenues (63%) and research grants and contracts (21%). The following sections highlight the performance in each of these areas.

PATIENT CARE

The following table summarizes operating revenue received by UW Medicine medical centers, faculty physicians, and Airlift Northwest in FY 2008 and FY 2009. This table does not include research grants and other funds received by the School of Medicine and does not include revenue from the Seattle Cancer Care Alliance outpatient services.

UW Medicine Health System	Operating Revenue (000's)	
	2009 (unaudited)	2008 (audited)
Harborview Medical Center	\$678.5	\$634.2
UW Medical Center*	\$752.5	\$687.2
UW Physicians	\$191.1	\$182.1
UW Physicians Network	\$ 22.2	\$ 22.7
Children's University Medical Group	\$ 99.7	\$ 94.1
Airlift Northwest	\$ 31.0	\$ 29.4
Total	\$1,775.0	\$1,649.7

*Inpatient revenues for the SCCA 20 bed unit are included in the UWMC total.

Net income from UW Medicine operations for FY 2009, after adjusting for revenues counted in more than one entity (e.g., UWP billings for physicians working in UWPN), was \$57.5 million or 3.3% of operating revenue. UWMC generated \$58.4 million of net operating income, including post-closing adjustments. Harborview generated \$5.4 million of net operating income after including post-closing adjustments, and ALNW generated \$880,000 of net operating income. Operating losses occurred at UW Physicians Network (\$6.3 million). UWPN losses for primary care are consistent with experiences at other academic medical centers. UWPN has successfully built commercial payer mix this past year to 74%. The secondary and tertiary care generated by UWPN results in significant revenue at UWMC and HMC. The Harborview performance during the first seven months of the fiscal year was off budget due primarily to increased costs of training new staff (orientation time) for the opening of the Maleng Inpatient Building. Performance in the second half of the fiscal year allowed Harborview to recover from this period of high expenditures. All of the net income generated by UWP and CUMG is distributed to the School of Medicine departments, Dean's office, and Seattle Children's Hospital (for a portion of CUMG revenue).

The following tables provide benchmark comparisons for the medical centers.

Ratio/Indicator	Moody's "A"	UW Medical Center	Harborview Medical Center
Operating margin	2.2%	7.8%	0.7%
Debt to capitalization	38.1%	15.9%	1.2%
Days cash on hand	157.2	115.5	92.0
Days in A/R (net)	49.0	50.8	62.0

These comparisons reflect five important points:

- Operating margins at Harborview are affected by the high percentage of uninsured and under-insured patients served;
- Harborview provided over \$150 million of charity care in FY 2009 as measured by foregone charges – an increase of \$30 million over FY 2008;
- The Harborview debt to capitalization number reflects the capital support provided by King County through voter-approved general obligation bonds;
- Days cash on hand is below benchmark at both medical centers, again reflecting the high percentage of uninsured and under-insured patients; and
- Days in accounts receivable are being reduced as we prepare for the conversion of the hospital billing system scheduled for March 2010.

5-YEAR PERFORMANCE COMPARISON

The patient care activity of the UW Medicine health system remains strong and stable, with the exception of UWPN where physician turnover and strategic closure of one clinic in FY 08 resulted in volume declines. Growth has been limited by very high occupancy levels at both medical centers. The following tables summarize the clinical activity for the owned and managed components of UW Medicine and the SCCA.

RESEARCH PROGRAMS

UW Medicine research continues to grow. UW School of Medicine grant and contract awards through the University of Washington totaled \$567 million in FY 09. This was a \$50 million (10%) increase over FY 2008. We have seen a shift in the ratio of federal to non-federal grants over the past two years. Non-federal grants represented 35% of the total SOM grants in FY 2009 compared to 28% in FY 2008 and 23% in FY 2007 and FY 2006. The following table summarizes the UW-based SOM research awards over the past four years.

	FY 2006	FY 2007	FY 2008	FY 2009	Average annual change
Federal	\$354.4	\$375.5	\$371.1	\$364.6	1%
Non-federal	\$110.1	\$118.1	\$146.2	\$203.0	23%
Total	\$464.5	\$493.7	\$517.3	\$567.5	7%

NIH awards represent the largest single source of awards received by UW Medicine faculty. The following chart tracks the growth of NIH awards to UW Medicine faculty over the past 14 federal fiscal years ending in federal fiscal year 2008. (NIH funding is on a federal fiscal year basis and comparative information is not available until several months after the close of the fiscal year on September 30.)

**NIH Grant Awards to UW Medicine
(\$ in millions)**

Note: Average annual growth rate: 8% for Total Faculty; 6.2% for UW-based faculty.

There were, in federal fiscal year 2008, 751 separate NIH awards to 510 UW-based SOM Principal Investigators. There are an estimated 734 regular and research faculty working on NIH research grants made to UW-based SOM faculty. In addition to NIH awards managed by the UW, School of Medicine faculty receive NIH awards that are managed by affiliated institutions (e.g., Fred Hutchinson Cancer Research Center and Seattle Children’s Hospital). Total NIH awards to UW Medicine faculty in federal fiscal year 2008 were \$566.1 million, a decrease of \$13.6 million (2%) over federal fiscal year 2007. UW Medicine faculty were second in the country among all medical schools, and first among public medical schools, in NIH research funding based on FY 2008 awards. The growth in NIH funding to UW School of Medicine faculty over the past seven years has exceeded the comparable growth of the majority of our peer institutions.

UW Medicine’s comparative success recently in NIH funding is due to a number of factors, including the interdisciplinary breadth of our research programs, the addition of new laboratory space at South Lake Union, and the increased emphasis on 21st century science such as genomics, proteomics, regenerative medicine, and global health research.

LOOKING FORWARD – FY 2010

Several key external and internal factors will influence UW Medicine’s financial performance in FY 2010. The external factors include the pace of recovery from the economic recession and the provisions of health reform legislation at the federal and state level. The internal factors include our success in implementing rapid and system wide process improvements to mitigate the impact of the state health care program budget reductions, the conversion to the new hospital billing system, and continued attainment of process improvements in our hospitals and clinics. The following paragraphs highlight several of the key activities that will mark FY 2010.

Strategic planning. UW Medicine’s strategic planning effort has moved into the implementation phase. We have identified a number of immediate or “just do it” steps that we are taking to improve performance, implement new programs, and consolidate specific existing programs to reduce costs and increase efficiency, and we are developing business plans around the larger strategic initiatives. The UW Medicine Board has been involved at each step of the strategic planning process and will monitor performance over the coming year.

Northwest Hospital & Medical Center. We anticipate that Northwest Hospital will join UW Medicine in January 2010. At that time, we will begin development of a long-range strategic plan for the Northwest campus as part of our UW Medicine Strategic Planning process. This plan will explore the enhancement of cardiac, oncology, and obstetrical programs on the Northwest campus as well as the increased use of Northwest to meet the secondary care needs of UW Medicine patients. Opportunities for increased efficiency through integration of infrastructure and administrative programs will also be explored.

Harborview expansion. The “Ninth and Jefferson” building (NJB) opened at the end of FY 2009, providing a substantial increase in outpatient clinics, administrative, teaching, and research space. NJB houses several innovative programs including the new UW Medicine Eye Institute, UW Medicine Brain and Neuroscience Institute, and programs for the Department of Global Health.

UWMC expansion. UWMC broke ground on Phase I of the inpatient expansion building in August 2009. The building will house a new and expanded Neonatal Intensive Care Unit and a new oncology inpatient unit. There will also be shelled-in space for radiology and operating rooms.

South Lake Union Phase III. The University must make a decision regarding whether to exercise its option on Phase III by March 2010. The development of new research space at South Lake Union is a key step in ensuring the continued growth of UW Medicine’s research programs.

Definitions:

State funds: State appropriated funds are allocated to the School of Medicine by the University. Revenue is recognized to the extent of expenditures.

Off-campus facilities ICR/RCR funds: Indirect cost recovery of off-campus facilities costs (ICR) and research cost recovery (RCR). These funds are assigned to the School of Medicine by UW Provost Office, then allocated to School of Medicine departments (including the Dean's Office). These funds may be carried forward from year to year. Revenue is recognized to the extent of expenditures.

Endowment income is earnings on endowments available for spending (i.e. not re-invested in the endowment). Gifts are funds received from donors. Endowment income and gifts are used to fund School of Medicine operations, subject to donor restrictions.

Self-sustaining programs provide goods or services to other entities, either within or outside of the UW. The responsible department establishes the rates for goods and services. The rates are adjusted annually to account for over-under recoveries in the previous period. Balances at period end are primarily operating reserves and excess recoveries that will be resolved during the subsequent year rate calculation. Self-sustaining programs include resident training, WWAMI, Lab Medicine, Comparative Medicine and other department programs. Revenue is recognized when received.

Clearing/other: Clearing accounts are mainly used for transfers of funds from the practice plans to the SOM departments (e.g., fund transfers for physician salaries). The funds are credited first to the clearing account, and then an entry is processed to distribute the funds to the departments. Any balance in clearing accounts relates to timing. Agency accounts represent funds received and expended on an activity approved by the University, but the University does not provide the funds (e.g., when a faculty member is editor of a publication and incurs expenditures and reimbursement related to that activity).

Research and Training funds are funds held on account in the UW accounting system (Dean's Office as well as department accounts). The source of funds is practice plan or affiliated entity transfers to the School of Medicine. The transfers are made for expense reimbursement, or to fund School of Medicine operations.

Grant and contract revenue is recognized to the extent of current period expenditures. Grant revenues are typically expended by the end of the grant period (not necessarily the University's fiscal period). Grant revenues are credited in a method that may not match the actual spending pattern on the grant.

Endowments are the principal balance (at cost) of endowments held in the UW Central Endowment Fund (CEF), including contributions and re-invested earnings.

Notes to revenue detail for the year ended 6/30/08 and 6/30/09:

Revenue for the year ended 6/30/09 increased \$50M (5%) over the prior year. The largest increases were Research and Training \$20M and Grants & Contracts \$18M. Restricted gifts decreased \$5M.

Note 1: State funds: Includes general operating funds (GOF) and designated operating funds (DOF). FY09 increased \$4M (6%) from FY08 to FY09. This is due to the timing of expenditures. State appropriation revenue is assigned at the beginning of each biennium. Spending may vary from the 1st to the 2nd year of the biennium, but total spending does not exceed the biennial appropriation. Revenues are recognized to the extent of expenditures. In general, state appropriations are spent to zero by end of biennium. University policy allows some carry-forward of unspent balances from biennium to biennium on a limited basis. In FY09, there was a .75% permanent reduction in State funds, and unspent funds will be allowed to carry forward to FY10.

Note 2: Off-campus facilities ICR/RCR: FY09 revenues increased \$1M (4%) over FY08. This is due to SLUII coming on-line in FY09. Facilities-ICR and RCR revenues are recognized to the extent of expenditures for each reporting period. University policy allows carry-forward of unspent funds to the next year. Unspent funds are rolled forward as 'available to spend' in current year, and revenue will be recognized as expenditures are made.

Note 3: Gift and Endowment Interest revenue: FY09 restricted gift revenue decreased \$5M (14%) and FY09 unrestricted gift revenue decreased \$.6M (5%) from FY08. The UW revised the endowment spending policy in FY09 which will reduce endowment earnings by 25% in FY09 from FY08 levels and an additional 25% for FY10 through FY13. This will reduce overall endowment earnings available to UWSOM for FY09 and future years.

Note 4: Self-sustaining revenue increased \$8M (7%) from FY08 to FY09 due mainly to timing of receipts. The Resident Program accounts for the majority of activity in this category. The UW accounting system is cash basis and revenue is recognized when received.

Note 5: Research & Training revenue increased \$20M (23%) from FY08 to FY09 due mainly to timing of support payments and the VPMA expense reimbursement from affiliated entities. R&T revenue includes transfers from UWP and CUMG Clinical Medicine funds and hospital support to fund spending at the UW. UW accounting system is cash basis; revenue is recognized when received.

Note 6: Grants and contract revenue increased \$18M (4%) from FY08 to FY09. Global Health and GCRC are increasing as the programs ramp up. Grant revenue is recognized to the extent of expenditures.

Cost transfers (Note 4)	(24,267)	(29,201)
Total Expenditures (Note 5)	<u><u>937,849</u></u>	<u><u>970,285</u></u>

Notes:

FY09 expenditures increased \$32M (4%) over FY08.

Note 1. FY09 salary/benefits increase of \$28M (5%) included recruitment, retention and equity increases as well as benefit rate increases. Anesthesiology, Global Health and GCRC programs showed growth.

Note2: Supplies and other expense increased \$6M (2%) from year to year.

Note 3: Indirect cost: Grant revenues include a direct and indirect component. The indirect component is a percentage of direct costs (the rate varies among sponsors). Individual grants are charged indirect cost, and the expense is offset by indirect cost revenue.

Note 4: Cost transfers are mainly resident program reimbursements from affiliated entities.

Note 5: Some School of Medicine expenditures are recorded in hospital or practice plan income statements. Examples include hospital-based operations for the Department of Laboratory Medicine and resident salaries.

Notes to ending fund balance as of 6/30/08 and 6/30/09:

Note 1: State appropriation revenue is assigned at the beginning of each biennium. Spending may vary from the 1st to the 2nd year of the biennium, but total spending does not exceed the biennial appropriation. In general, state appropriations are spent to zero by end of biennium. University policy allows some carry-forward of unspent balances from biennium to biennium on a limited basis. Revenues are recognized to the extent of expenditures for each reporting period.

Note 2: ICR/RCR revenues are recognized to the extent of expenditures for each reporting period. University policy allows carry-forward of unspent funds to the next year. Unspent funds are rolled forward as 'available to spend' in current year, and revenue will be recognized as expenditures are made.

Note 3: Restricted and unrestricted funds are comprised of unspent gifts, endowment operating accounts and/or loan funds.

Note 4: Main self-sustaining programs are Laboratory Medicine, Comparative Medicine, MEDEX, WWAMI, and the Resident Program. Change in ending fund balance from period to period due to timing of revenues and expenses on a cash basis, accruals are not included.

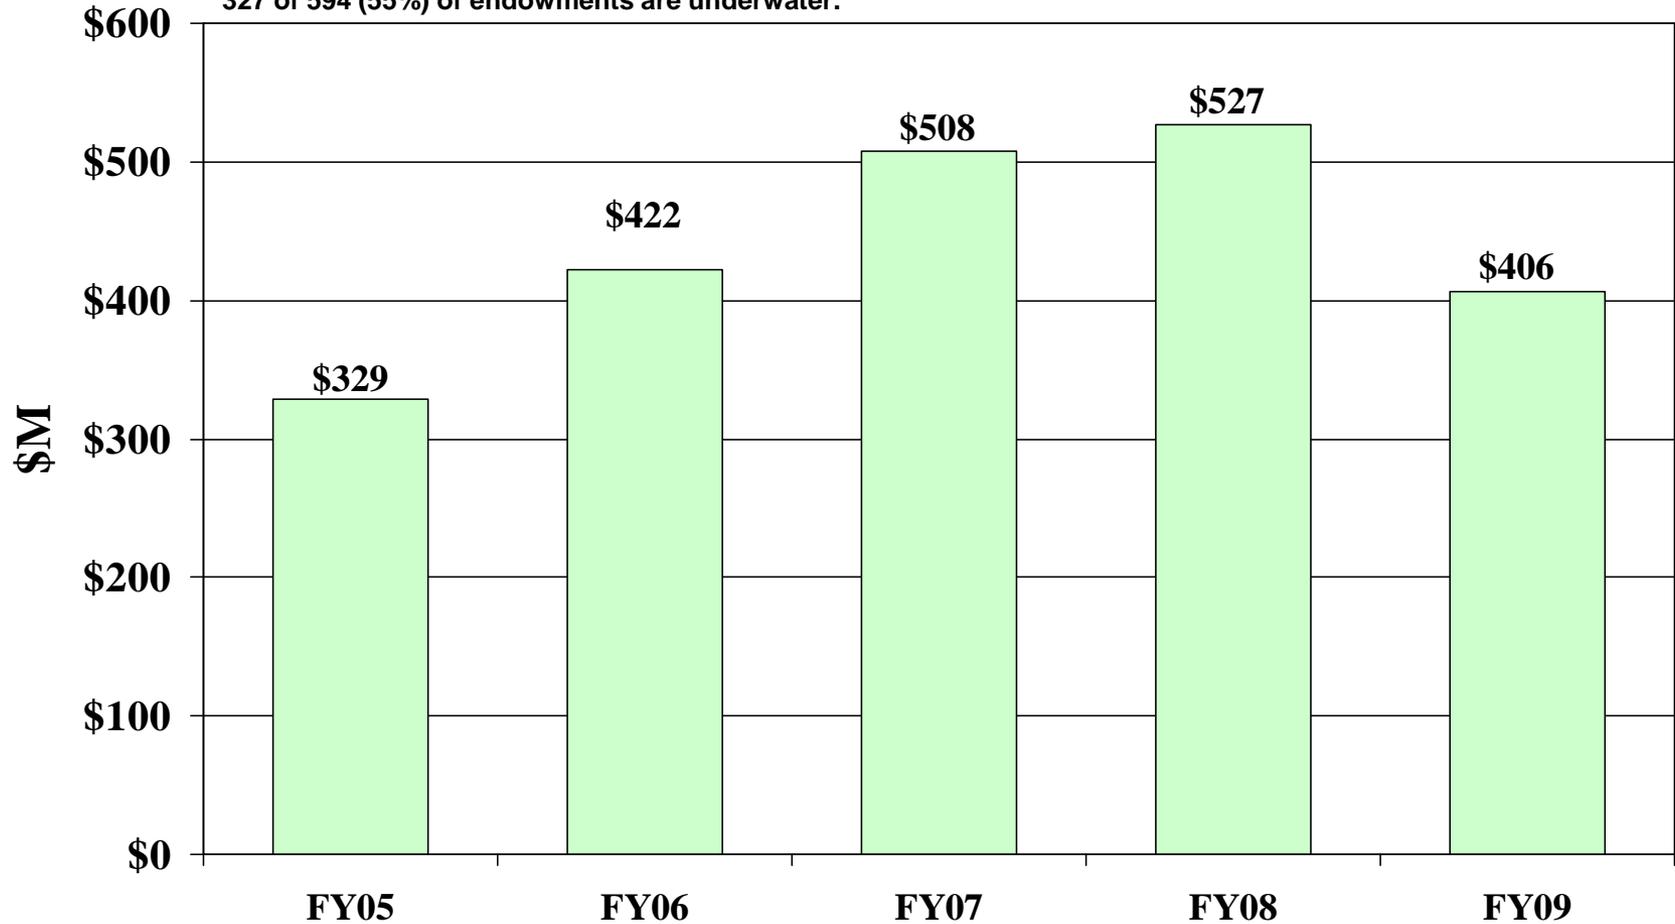

Note 5: Research and Training funds are funds held at the UW for the Dean's Office as well as department accounts. The source of funds is practice plan or affiliated entity transfers to the School of Medicine. The transfers are made for expense reimbursement or to fund School of Medicine operations. The majority of R&T funds are held at the practice plans (recorded as a liability by the practice plans) and are not included in this fund balance. The ending fund balance reflects revenues on a cash basis and does not include receivables due from the hospitals under department funding agreements. The decrease from FY08 to FY09 is a result of planned re-allocation of Dean's Office fund balance between the UW and the CMF reserve held at UWP.

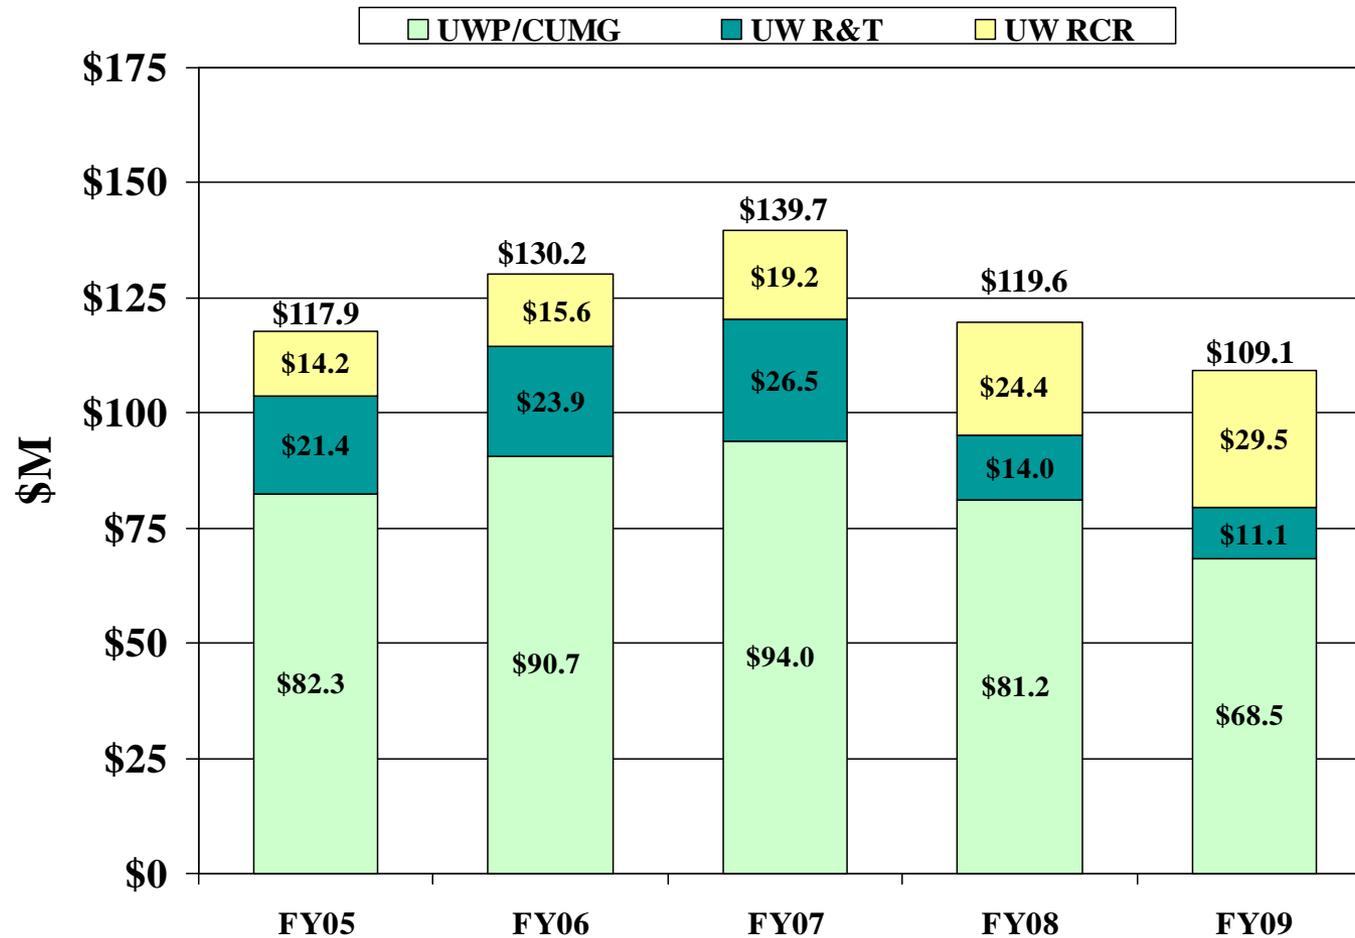

Note 6: Grant revenue is recognized to the extent of expenditures for each reporting period. As a result the ending fund balance is \$0. Unexpended grant and contract revenue is \$373M at 6/30/08 and \$427M at 6/30/09. The Global Health Department accounted for \$32M of the \$56M increase in unexpended grant and contract revenue from FY08 to FY09

Cumulative Average Growth Rate FY05-FY09 is 5.4%

Market value: \$156M of \$406M (38.5%) are under water.

327 of 594 (55%) of endowments are underwater.

See notes on following page

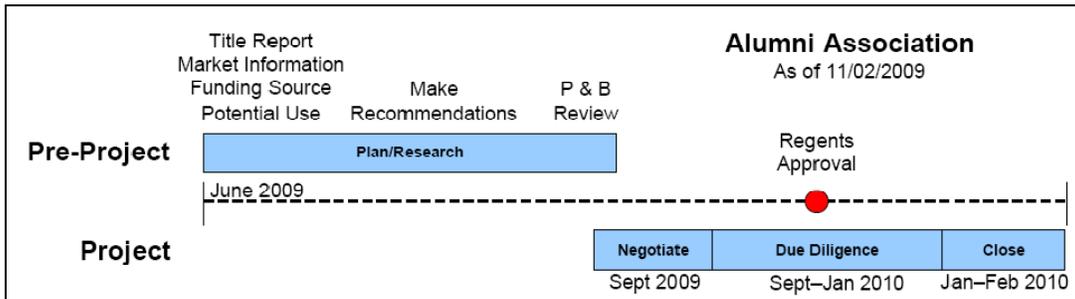

Notes to R&T/RCR Reserve Balances slide:

1. UWP and CUMG reserve balances: Includes Dean's Office reserve balances, Department reserve balances and Lab Medicine payable. Excludes Hall Health payable.
2. Investment earnings/(loss) on UWP reserves were \$11.8M in FY07, (\$4.2M) in FY08 and (\$11.7M) in FY09.
3. UW R&T fund balance is mainly unspent transfers from practice plan reserves and hospital support. Includes Dean's Office and SOM Departments, excludes Hall Health R&T. Transfers from the practice plan reserves to the UW R&T accounts are made on a regular basis to fund research, training and operational activities. Balances can be carried forward from year to year, and spending can fluctuate depending on other available fund sources during the year. The decrease from FY07 to FY08 is a result of investment losses, increase in hospital A/R balances, and increase in new recruits, retention and incentives, and investment in research programs. The decrease from FY08 to FY09 is mainly investment earnings/(loss) on UWP reserves. UW accounting system is cash basis, A/R from hospitals is not recorded until received.
4. UW RCR: Prior period fund balances may change due to the biennial nature of the UW accounting system (the changes are not material). The full fiscal year allocation is posted in Q1 each year, when it is available to spend. The RCR balance declines each quarter as spending occurs. The FY09 allocation is \$37M.

Purchase of Alumni House Building

RECOMMENDED ACTION:

It is the recommendation of the administration and the Finance, Audit and Facilities Committee that the Board of Regents:

1. Approve the purchase of the Alumni House property for \$1.8 million;
2. Delegate to the president or his designee the authority to execute all documents related to this transaction.

BACKGROUND:

Property Description:

The Alumni House property, located at 1415 NE 45th Street, at the corner of NE 45th Street and 15th Avenue NE, was constructed in 1962 and consists of approximately 17,600 GSF on a site that is 7,688 SF. The building consists of 13,200 square feet of office space and 18 underground parking stalls. Current zoning is NC3-65 (Neighborhood Commercial with maximum height limit of 65 feet). The property was originally built as a faith-based student center and is currently owned by the University of Washington Alumni Association.

Purpose and Benefit:

Purchase of the Alumni House would provide additional office space at a location in close proximity to the Seattle campus. The short term use would be for occupancy by University programs, with the long term use being potential development opportunity. This property is located across the street from the campus and the 4545 building, which is currently occupied by UW Technology.

Purchase of Alumni House Building (continued p. 2)

Purchase of Real Estate:

The Purchase and Sale Agreement for the Alumni House contains the following essential business terms:

- Seller: University of Washington Alumni Association
- Purchase Price: \$1,800,000
- Closing Date: No later than February 28, 2010
- Contingencies:
 - UW approval of property condition
 - UW approval of title report
 - Board of Regents and HEC Board approval

Property Condition:

A building condition assessment has been completed and the purchase price reflects items noted in that assessment. Phase 1 environmental assessment has been completed and only minor issues were noted. Phase 2 environmental assessment may be undertaken; if so, results will be used to determine waiver of contingency on property condition. The building is not on local, state or federal historic registers.

Financing Plan:

There will be no financing on this transaction. The purchase price will be paid with UW funds at closing. Typical closing costs are expected.

Interim Management Plan:

The University is currently evaluating potential occupants for this building and the Real Estate Office will manage the occupancy. The University's Facilities Services Office will handle the maintenance and operation of the building, and those costs will be factored into the occupancy costs for the tenants.

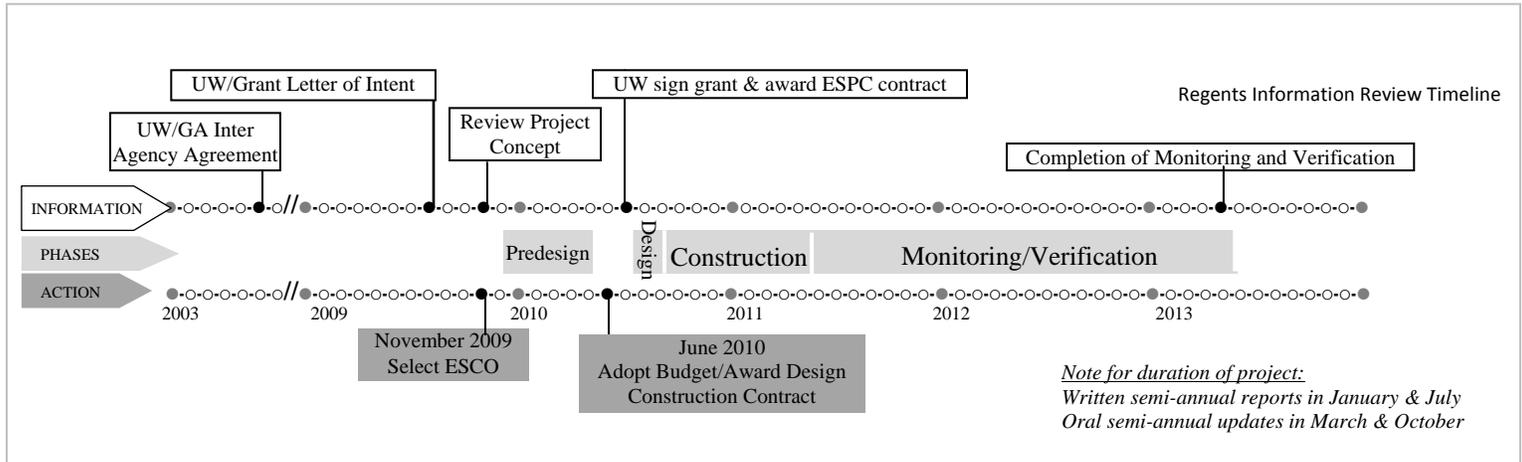

REVIEW & APPROVAL:

Purchase of the Alumni House Building has been reviewed and recommended for approval by the Senior Vice President, the Vice Provost, Planning & Budgeting, the Associate Vice President, Treasury, and the Director of Real Estate.

Smart Grid Project – Review Project Concept and Select Energy Services Contractor

RECOMMENDED ACTION:

The purpose of this presentation is to provide background information about the UW’s role in the Pacific Northwest Smart Grid Demonstration Project and to request approval of the use of McKinstry Essention as an Energy Services Contractor (ESCO) for the project. We will return in June 2010 at the completion of the Directed Engineering Study (DES) to present project final project scope, budget and funding plan and request approval to proceed with the project.

BACKGROUND:

This project supports a federal American Recovery and Reinvestment Act grant application to the Department of Energy (DOE) known as the "Pacific Northwest Smart Grid Demonstration Project". The Battelle Memorial Institute is the lead applicant submitting for this grant. If the grant is awarded in December 2009, the UW will be a sub-award grantee to the application and will participate as one of 13 regional “Demonstration Test Sites”.

PROJECT OBJECTIVES AND SCOPE:

The Pacific Northwest Smart Grid Demonstration Project objective for the UW Smart Grid project is to create a smart micro grid for a non-utility owned electricity grid. The smart micro grid will:

VII. STANDING COMMITTEES

B. Finance, Audit and Facilities Committee

Smart Grid Project – Review Project Concept and Select Energy Services Contractor (continued p. 2)

- 1) Install meters and equipment to accumulate energy consumption from two dorms totaling at least 500 rooms and two academic or research buildings to enable active management at end uses and investigate demand response opportunities.
- 2) Standardize and modernize campus building energy management infrastructure. Upgrade existing electrical building meters to smart meters on up to 200 Seattle campus building. Tie building electric meters, 33 building management systems and 12 building lighting systems together on a common communications platform and facility manager-user interface.
- 3) Install software to demonstrate the feasibility of integrating the campus central boilers, central chillers, and electrical generators into the campus wide smart grid metering network.
- 4) Install smart grid metering technology into two UW owned 26kV substations that feed the Seattle campus.
- 5) Scope items 1 through 4 provide an integrated smart metering test site to address two critical concepts potentially limiting smart grid technology
 - a) the interface to the end users
 - b) system security, especially micro grid security.

CONTRACTING STRATEGY:

We are requesting approval to award a DES contract to McKinstry. If the DOE grant is awarded and the DES identifies a cost effective scope of work, then we will return with a request to sign a contract with McKinstry to design and construct the UW grant scope of work.

RCW Section 39.35C authorizes the UW either on its' own or through the Department of General Administration (GA) to use Energy Savings Performance Contracting (ESPC) as the preferred method to implement energy saving projects in the State.

In June 2003, the UW established an Inter-Agency Agreement with GA to utilize the ESPC program for state facilities. The GA ESPC program provides a means to install energy conservation measures in publically owned facilities with capital outlay provided through a loan secured by future energy savings. The GA maintains a register of ESCO contractors and provides assistance to state agencies in procuring ESPC services. In September, 2003 the GA advertised for an ESCO to provide ESPC services on the UW campus. McKinstry was selected for the UW ESCO contract.

Smart Grid Project – Review Project Concept and Select Energy Services Contractor (continued p. 3)

McKinstry, established in Seattle in 1960, is a full-service mechanical and electrical design and contracting firm with over 1,600 employees. McKinstry has the expertise and capability to deliver consulting, construction, and energy management services. McKinstry has successfully completed a number of projects at the UW, Seattle campus, including the Chemistry Building ESCO and UW Tower Lighting ESCO.

PROJECT SCHEDULE:

June 2003	UW and GA sign Inter Agency Agreement to perform ESPC contracts
Aug 2009	UW signs letter of intent with Battelle Memorial Institute to participate in Pacific Northwest Smart Grid Demonstration Project
Nov 2009	UW initiates DES
Dec 2009	Notification of award of Pacific Northwest Smart Grid Demonstration Project grant to Battelle Memorial Institute
May 2010	Complete DES
Jun 2010	Regent Approval of UW participation in Pacific Northwest Smart Grid Demonstration Project
Jul 2010	UW commits to participate in Pacific Northwest Smart Grid Demonstration Project
Jul 2010	UW signs ESPC contract for design and construction
Sep 2010	Construction Start
May 2011	Construction Completion
May 2013	Completion of Monitoring and Verification

PROJECT BUDGET & FUNDING:

Project funding will come from a variety of sources. The total cost of the project is projected to be \$8.945 million. While not yet finalized, funding for the project will be supplied from the following sources. The federal grant will fund \$4,472,500. SCL will contribute \$700,000 in utility rebates and in-kind services. Spirea (software vendor) will contribute \$647,000 in-kind services, McKinstry will contribute \$560,000 in in-kind services. The UW will contribute \$831,000 in in-kind services and will finance \$1,734,500 through the State Treasury Lease Purchase Program. Repayment will be provided by ESCO savings.

PROJECT RISKS:

Dominant risks for the Smart Grid project at the grant application stage are in the formation of relationships with grant partners and partner performance after a deal is struck.

The UW quickly identified and applied for this grant in order to meet DOE deadlines. While the concept of the project is outlined in the grant application, a number of detailed grant partner relationships have to be negotiated in order to proceed if the grant is successful.

It is the University's intention to use its existing ESCO relationship with McKinstry which was set up through the GA ESPC program, to design and build the majority of the project. The UW is currently investigating whether the GA ESPC contract meets federal purchasing requirements. If the GA ESPC program does not meet the requirements, the UW is only committed to pay for the DES which is a cost of \$117,000.

The DES has not yet been conducted. The DES will specify expected energy savings and total cost of the project. The UW is counting on finding sufficient energy savings through the audit to pay the financing of the project through the State Treasury Lease Purchase Program. The energy rebates anticipated from SCL are also dependent upon the energy savings achieved after the project is installed. The UW carries the risk that the SCL program will remain the same during the design and construction period and that rebates will ultimately be funded.

After a grant award, performance of other partners to supply in-kind services may affect the total liability of the UW.

VII. STANDING COMMITTEES

B. Finance, Audit and Facilities Committee

Smart Grid Project – Review Project Concept and Select Energy Services Contractor (continued p. 5)

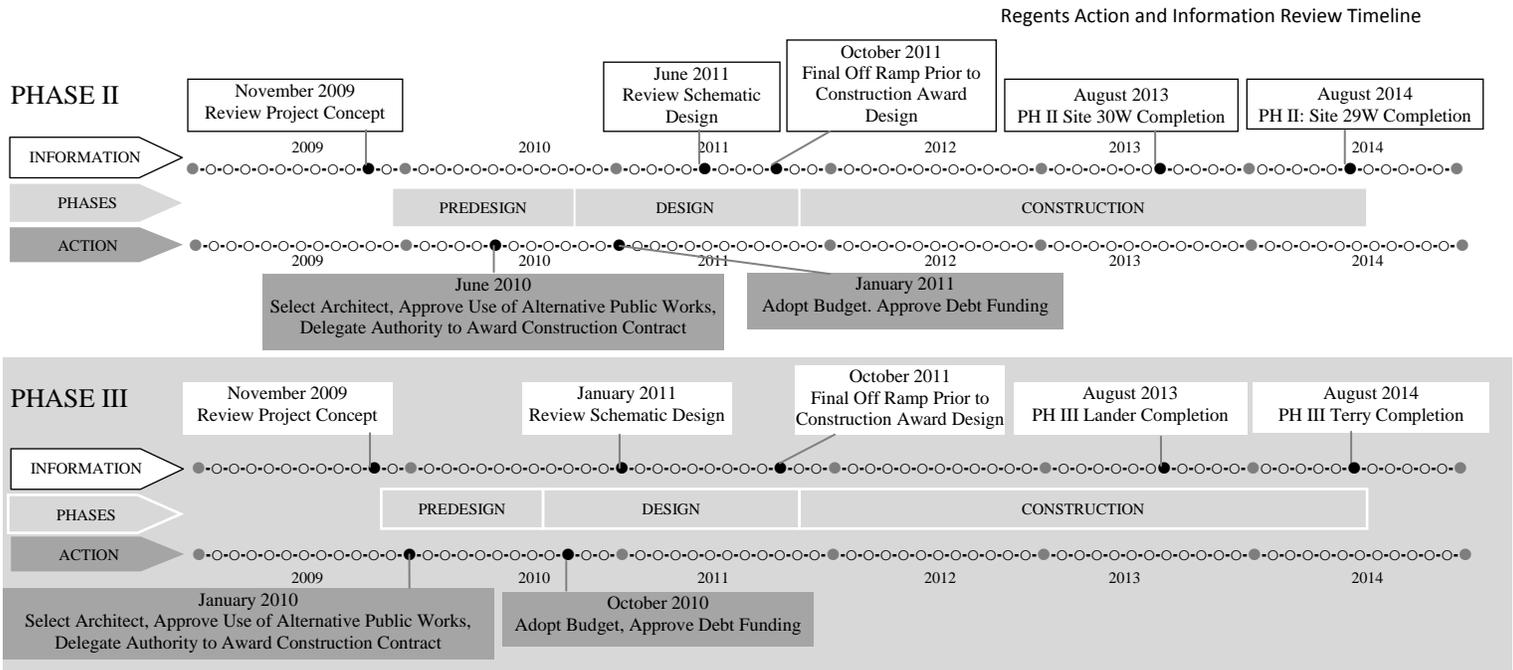

A more detailed risk analysis will be performed during the DES and the above mentioned risks will be fully identified and addressed before the project requests full Regent approval in June 2010.

In the event that Battelle Memorial Institute is not awarded the Pacific Northwest Smart Grid Demonstration Project, the UW has included study of a much smaller project in the scope. This smaller scope would be limited to installation of electric meters, communications system and low cost energy savings measures that will be adequate to fund the DES and smaller project through a State Treasury Lease Purchase Program. If the ESCO cannot identify a smaller project that can be paid through the State Treasury Lease Program, then there will be no charge for the DES to the UW.

Housing & Food Services (HFS) Master Plan Phase II and III Update

Note for duration of project: written semi-annual reports in January & July, oral semi-annual updates in March & October

INFORMATION:

Housing and Food Services (HFS) plans to optimize the implementation of the Housing Master Plan (HMP) by accelerating the renovation schedule for existing residence halls by one year and adjusting the order in which buildings are removed from service for renovation. The revised implementation plan levels the change in the number of bed spaces from one year to the next and does not change the overall number of beds.

The differences in the revised implementation plan are shown in Attachment A, which compares the revised plan with the version incorporated in the April 2009 Phase I credit report in a timeline perspective (calendar year basis). Attachments B and C compare the revised plan with the version presented to the Board in May 2009 in a bed-count perspective (fiscal year basis).

The revised plan will not incur debt above the level outlined in the Housing Master Plan and is expected to ease financial risk by reducing the dramatic shifts in overall on-campus bed count associated with the earlier implementation plan.

Housing & Food Services (HFS) Master Plan Phase II and III Update (continued p. 2)

As with Phase I of the Housing Master Plan, HFS will work with the Treasury Office in conducting a detailed financial analysis of the revised implementation plan and incorporating project off-ramps at appropriate points in the implementation schedule for risk management purposes. Project construction will continue to be phased in and Board approval will be secured for each construction phase. HFS will also work closely with the University's Capital and Space Planning Office to ensure alignment with comprehensive institutional capital planning priorities.

Though the revised plan compresses implementation by up to two years, it does not preclude HFS from exercising existing project scheduling flexibility in response to situational adversity. In the short term, new apartment construction on sites 29 and 30 (scheduled for construction in the 2013-2014 timeframe) could be postponed, resulting in an extension of the entire Housing Master Plan for an additional one year. In the longer term, Phase IV (adding a total of 1,000 apartment-style beds beginning in 2015) could be postponed indefinitely, since these beds are not needed to support the renovation of existing residence halls. In any event, construction on Phases II and IV will be guided by demand and financial feasibility in order to avoid excess capacity in the student housing system.

FUTURE BOARD OF REGENTS ACTION

The revised implementation plan requires Board approval of architect selection, use of alternative public works (GC/CM), and delegation of authority to award the construction contract for Lander and Terry residence halls in January 2010. Renovation of Lander Hall is expected to begin in mid-2012; renovation of Terry Hall is expected to begin a year later. HFS plans to employ the services of a single architect for both projects in order to capture full financial benefit in this development activity. HFS will use existing reserves to fund the initial design phase, which is estimated to cost approximately \$1.5 million.

Project budget approval for Terry-Lander, along with a project financing plan, is currently expected to be brought before the Board in October 2010, following the completion of a detailed credit analysis to be performed jointly with the Treasury Office. The financing plan for Terry-Lander will include the identification of off-ramps for both projects and will coincide with the October 2010 reporting date for the second set of off-ramps for the Housing Master Plan's Phase I that was approved by the Board in May 2009.

Housing & Food Services (HFS) Master Plan Phase II and III Update (continued p. 3)

HFS expects to seek Board approval of architect selection, use of alternative public works (GC/CM), and delegation of authority to award the construction contract for Phase II in June 2010. Project budget approval for Phase II, along with a project financing plan, is currently expected to be brought before the Board in January 2011, again following the completion of a detailed credit analysis to be performed jointly with the Treasury Office.

Debt Capacity

- What is it?
 - The amount of additional debt that the balance sheet can support at a given rating level
 - Dynamic by nature, ebbs and flows as organizations and investor perceptions change
 - Implies the ability to service the additional debt
 - Determined in part by national rating agencies based on their evaluation of comparative strengths and weaknesses of borrowers.
- UW's rating today
 - Moody's Aa1, Stable / S&P AA+, Stable
 - Due to excellent market position, nation prominent research enterprise, diversified funding sources, good financial flexibility, balanced operating performance over last three years
- What is our debt capacity today?
 - Estimated \$500m to \$1bil in addition to \$1.5bil in outstanding and approved future debt assuming current AA rating.
- What could impact debt capacity and cost of debt
 - Substantial increase in debt without corresponding increase in revenues
 - Significant additional cuts in state funding without offsetting increases in tuition or expense cuts
 - Reduction in other funding sources and/or liquidity
 - Exposure to health care (patient revenues 30% to 40% of total revenues)

notes

1. 5-year averages have not been calculated for units for which cost per dollar data are not applicable or previous data do not exist. Environment, Minority Affairs, Student Life and Undergraduate Academic Affairs were all new units in FY 08-09. Previous data for the Graduate school prior to FY 08-09 are not directly comparable because data for the Graduate School and University Press were combined starting in FY 08-09. Fundraising data for the UW Alumni Association were not separated from Central Services prior to FY 08-09. "Other Constituencies" is a new grouping for FY 08-09 (see note 2).
2. "Other Constituencies" is a new grouping for FY 08-09. This category includes the Report of Contributions categories: Broadcast Services (KUOW Radio and KEXP Radio), President's Funds, and Other University Support (including UWTV (Provost's Office)).
3. Starting in FY 08-09, gift and grant money raised by the UW Alumni Association, along with the associated fundraising costs, have been itemized in the constituency unit total. Other support to the UWAA from Central UA is included in UA Central Services.
4. UA Central Services includes: UA Vice President's Office, Constituency Programs Corporate & Foundation Relations, Individual Giving Programs, Advancement Services, UW Marketing (UA central funding only), Finance & Administration (including rent), UW Alumni Association (those costs not included in Constituency units subtotals, see note 3) and UW Foundation Support.
5. FY 08-09 unit cost total includes FY 07-08 values where FY 08-09 cost data were unavailable.

Executive Summary

Executive Summary

Objective: Generate strong investment performance

- Outperform the CEF policy benchmark by 125 basis points per annum over rolling 3 year periods.
- Add \$15 million per annum above policy benchmark or \$90 million over 5 years after compounding.
- Achieve performance that consistently ranks within the second quartile relative to the 50 largest college and university endowments.

University of Washington Investment Committee (UWINCO)¹

Role: Advisory committee established by the Board of Regents in 2001

Purpose: To advise the Board of Regents and the President on matters relating to the management of the University's investment program. This includes but is not limited to overall asset allocation, performance goals, new investment strategies, strategy implementation, manager identification, due diligence and valuation policy.

Membership: No more than ten (10) members of which one or two shall be selected from the Board of Regents.

Appointment: Individual members appointed by the Board of Regents.

Term: Minimum three (3) consecutive years, renewable.

Criteria for Membership: Investment expertise in specialized markets (private equity, hedge funds, real assets, international markets); access to desirable managers/funds; strategic focus; commitment to the University of Washington.

UWINCO Chair: Designated by the Chair of the Board of Regents.

Meeting Frequency: Quarterly

Regent Members: Jeff Brotman (Chair), Fred Kiga

Non-Regent Members: David Bonderman, Bryan White, Michael Larson, Mary Pugh

¹ *The Board of Regents adopted the UWINCO "Statement of Principles" in September 2009 which addresses the administrative functions of the Committee.*

Endowment Management

Endowment Objectives

An endowment is a permanent fund established through private gift funds to support the program specified by the donor. The Consolidated Endowment Fund consists of over 3,000 individual endowments which are commingled for investment purposes. A portion of the return generated each year is used to support current year programs with distributions made quarterly.

Primary Objective

To preserve the purchasing power of each endowed gift over time.

This objective drives the discussion on spending policy, return requirements, long-term asset allocation and risk tolerance.

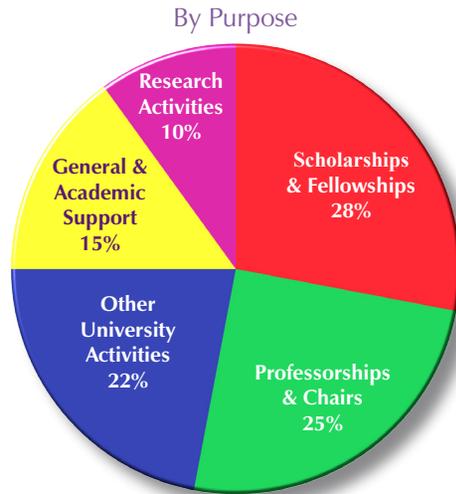

Secondary Objective

To provide a steady stream of income to support individual programs.

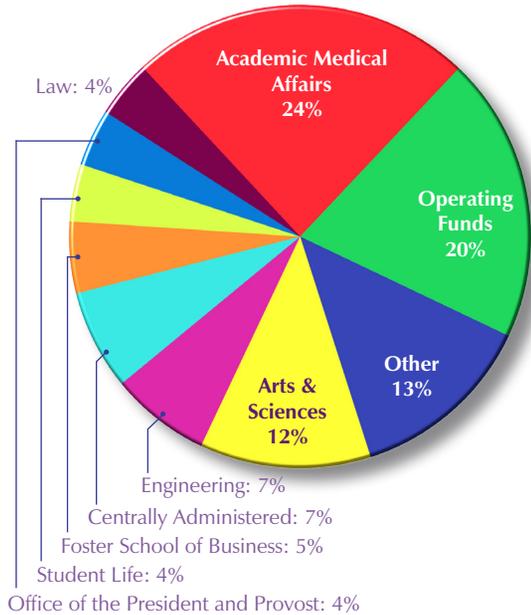

This objective influences the spending formula used in calculating the income distribution.

Program Support

2007	\$3,666	\$81	2.2%
2008	\$3,447	\$94	2.7%
2009	NA	\$75	NA

Spending Policy

Spending Policy: Set by the Board of Regents.

Interim Spending Rate: **Per unit distributions to endowed programs will be decreased by 25% annually in FY '09 and FY '10 after which per unit distributions will be held constant at the FY '10 level. This interim policy went into effect in March 2009 and will be revisited by the Board of Regents no later than June 30, 2013 to determine the appropriate next steps.**

Long Term Spending Rate: Spend 5% of the average market value of the CEF for the previous three years.

Frequency: Distributions are administered on a quarterly basis.

Policy Changes: Changes to the spending policy require approval of the Board of Regents.

Administrative Fees: A 1.0% annual administrative fee is charged against the endowment: 0.8% to the Advancement Office and 0.2% to the Treasury Office.

Diversification among and within strategies is a powerful form of risk management

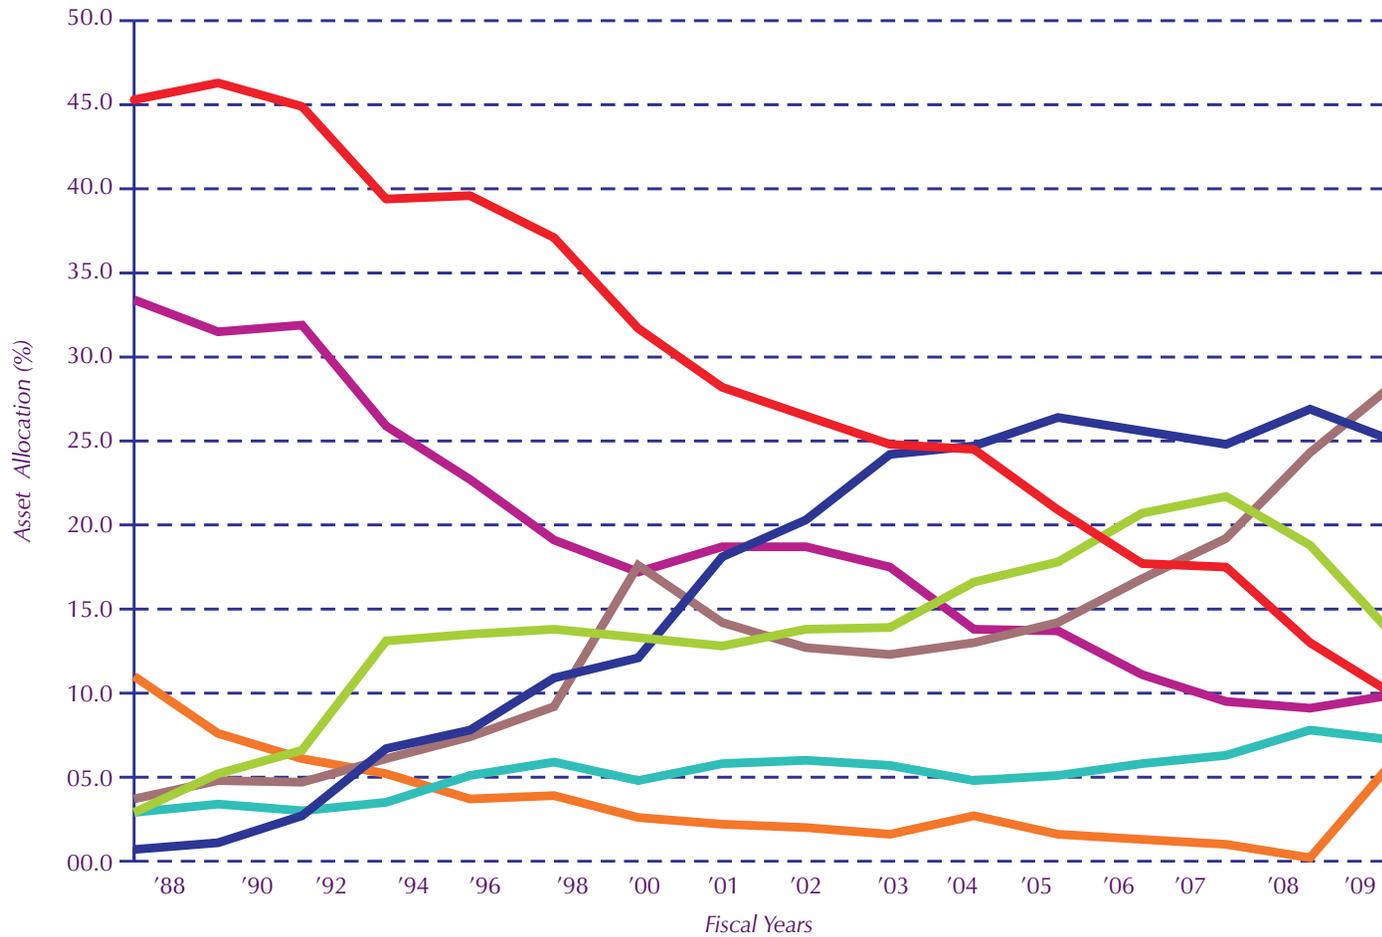

Policy Asset Allocation 1990–2010

- The trend over the past 20 years was towards greater diversification and a higher allocation to equities. Risk adjusted returns, as measured by the Sharpe ratio, improve as portfolios become more diversified.

	Policy Benchmark Sharpe Ratio	-0.1	0.4	0.2	0.6

The devastating impact of the 4th quarter of 2008 is reflected in the absolute loss and relative underperformance of the CEF in the one year returns. Five and ten year returns dropped to low single digits. Only the fifteen year results reflect a return level sufficient to meet the long term spending requirements of the CEF.

¹ The weighted policy benchmark is a representative blend of market indices which reflect the strategic asset allocation of the CEF.

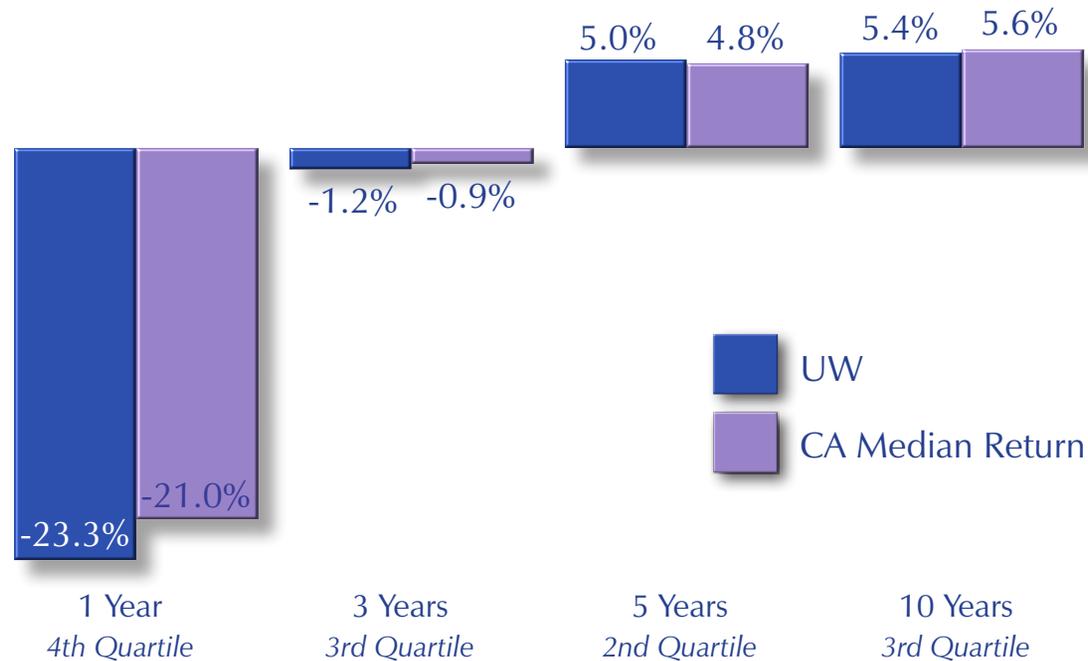

² The higher the Sharpe ratio, the better the fund's historical risk-adjusted performance. The Sharpe ratio is calculated using standard deviation and excess return over the risk-free rate to determine reward per unit of risk.

Emerging Markets	5%–35%
International Equity	5%–35%
Domestic Equity	5%–35%
Real Assets	5%–25%
Absolute Return	5%–25%

Liquidity Constraint

$$\text{ABS} + \text{RAS} + \text{NAS} < 60\%$$

Rationale for Constraints

1. Ability to implement
2. Sufficient liquidity for spending
3. Forecasting error

Efficient Frontier

Between 2005 and 2008, changes to the policy portfolio improved the expected long term return at a comparable level of risk. Coming out of the market crisis, the current CEF portfolio is structured at lower risk and return levels relative to the policy benchmark.

Liability-Linked Risk Indicators

	2005 CEF Policy	2008 CEF Policy	2009 CEF Actual
Portfolio Returns	7.8%	7.9%	7.9%
Volatility	12.0%	12.0%	11.7%

5% Spending

Spending Risk ¹	39%	38%	38%
Impairment Risk ²	38%	34%	35%

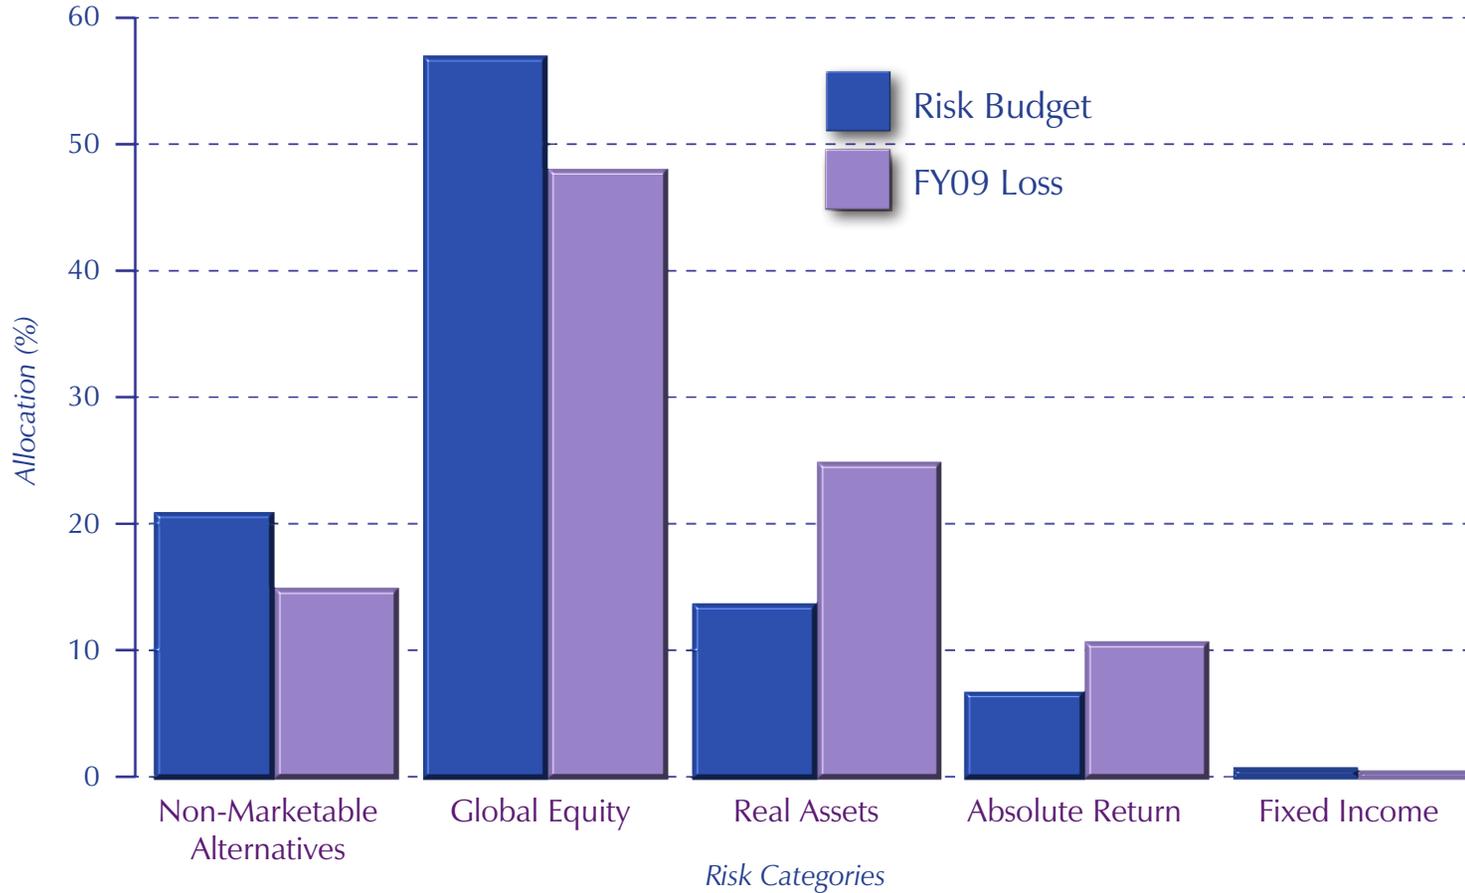

4% Spending

Spending Risk ¹	31%	30%	31%
Impairment Risk ²	17%	14%	15%

¹ **Spending Risk:** Spending disruption risk is the likelihood of a real spending reduction of 10% over any 5-year period.

² **Impairment Risk:** Purchasing power impairment risk is the likelihood of losing half of the purchasing power of the endowment through capital depreciation over a 50-year time horizon.

Risk Budgeting vs. Actual Loss

The -56% plunge in the S&P500 between October 2007 and March 2009 is the worst decline in value since the 1930's. The UW's risk model suggests the CEF will experience this magnitude of loss once in 90 years. The UW's asset allocation models are conservative and take into account extreme downside market events.

Financial Support to Campus

2000–2009 Invested Funds Distributions

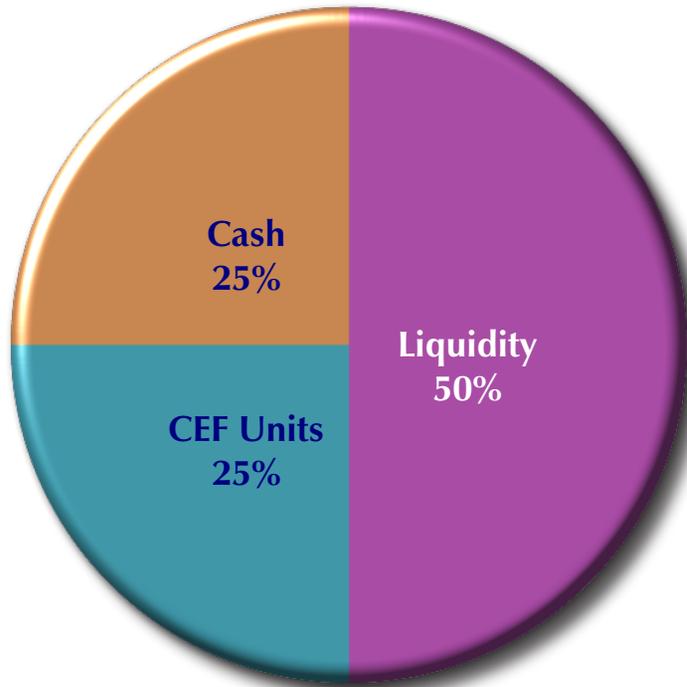

Income distributions from the Invested Funds provide an important source of financial support to the campus community. Over the past ten fiscal years (FY '00–FY '09), \$477 million net of fees was distributed. Approximately half of this distribution was issued directly to campus depositors and the other half allocated centrally through the budget process. Distributions are made annually at the end of each fiscal year.
