Fiscal Officers/Grant Officers
The AHA research pages were recently updated. Bookmark these helpful sites:
- Archived AHA Program Descriptions for budget or other purposes
- Policies Governing All AHA Research Awards
- Grant Officers are responsible for submitting applications to the AHA after they are in “Submitted to GO” status in Grants@Heart. For instructions, see Help Documents for Grants Officers

Awardees
Financial report forms will be available for your fiscal officer to complete 90 days prior to the report due date. Your fiscal officer will complete the report and will submit it to you. Awardees should review fiscal reports and then click “submit”.

TO HELP US SERVE YOU BETTER: Please include your AHA application number with ALL email, calls and correspondence

Western States Affiliate Undergraduate and Medical Student Fellowship Sponsors
In California, Nevada, Utah, Alaska, Arizona, Hawaii, Idaho, Montana, Oregon or Washington are to schedule an August date, time and location for student roundtables by June 15. A change to this program means that Sponsors must now organize the roundtables. Contact Elizabeth.cooper@heart.org with questions or to announce roundtable dates.

Become an AHA Peer Reviewer
AHA is recruiting reviewers for October 2011 sessions. If you would like to become a reviewer, please read the AHA Peer Reviewer Job Description. If you are eligible, please contact Sue Hageman at susan.hageman@heart.org

Emerging Science Series Online Presentation
Join us for a presentation of the selected Emerging Science submission in a live, moderated online event. To be featured in a live, moderated online event. Click here to register

Scientific Sessions Celebrates AHA Research Registration for Scientific Sessions, November 12-16 in Orlando, is now open for FAHAs and will open in early December for nonmembers. If you are a current or past awardee be sure to “Celebrate AHA Research” by picking up your “AHA Awardee” ribbon at registration.

AHA Call for Abstract Submissions
AHA encourages awardees to submit the results of their work for presentation at our professional meetings:
- International Stroke Conference and State-of-the-Art Stroke Nursing Symposium

AHA Summer Application Deadlines
Below are the next deadline dates to apply for AHA funding. Note that our western affiliates have reorganized.
- July 6 - SouthWest Affiliate (AR, CO, NM, OK, TX, WY)
- July 8 - National Center
- July 15 - Great Rivers Affiliate (DE, KY, OH, PA, WV)
- July 22 - Midwest Affiliate (IA,IL,IN,KS,MI,MN,MO,ND,NE,SD,WI)
- July 26 - Founders Affiliate (CT, ME, MA, NH, NJ, NY, RI, VT)
- July 28 - Western States Affiliate (AK,AZ,CA,HID,MT,NV,OR,UT,WA)

August 11- Reference Letter Report Deadline
Sept 29 - Greater Southeast Health Sciences Fellowship & Great Rivers Student Undergraduate Research Fellowship

Need Help with your Application?

- Submit your question to apply@heart.org

Call for Clinical Applications
AHA supports research broadly related to cardiovascular function and disease and stroke. In addition to basic science, we fund translational, clinical, and population studies.

While all programs are open to clinical investigators, the Clinical Research Program is specifically designed to encourage early career investigators to engage in high quality introductory and pilot clinical studies. The goals are to develop strategies for reducing cardiovascular disease and stroke while fostering new research in clinical and translational science, and encouraging community- and population-based activities. Clinical Research Program proposals must include an appropriate and supportive mentoring relationship.

Be sure to review eligibility criteria and restrictions listed in the program descriptions at: Summer 2011 Program Descriptions

Research Funding Partnerships
The AHA/ASA employs a number of strategies to maximize its support of research. One strategy is partnerships with other organizations interested in funding particular areas of CVD or stroke. Both the AHA/ASA and the partner organization contribute funds to support awards which focus on a particular aspect of CVD or stroke. Two examples are Postdoctoral Fellowships being offered for Summer 2011 deadlines. The AHA/ASA is joining with the American Academy of Neurology Foundation to fund one fellowship and with the Myocarditis Foundation to fund another. Mentorious applications from the pool of investigator-initiated applications submitted to the AHA/ASA will be considered for these co-sponsored awards.

AHA/ASA/American Academy of Neurology Foundation Lawrence M. Brass, M.D., Stroke Research Postdoctoral Fellowship Award supports an individual interested in embarking on an academic career in vascular neurology or stroke.

The AHA/Myocarditis Foundation Postdoctoral Fellowship Award supports an investigator proposing innovative basic, clinical or translational research projects relevant to the etiology, pathophysiology, diagnosis, treatment epidemiology and/or prevention of myocarditis.
