Mechanisms of corrosion, thermodynamics, kinetics of corrosion. Passivity; Pourbaix diagrams; corrosion rate testing and measurements; forms of corrosion; effects of alloy and environmental variables; corrosion testing. Wear mechanisms: adhesive, abrasive, erosive. Fretting; surface roughness, wear testing. Coatings for corrosion and wear protection. Offered: S.

MSE 471 Introduction to Polymer Science and Engineering (3)

Introduction of preparative methods of polymers; physical chemistry of polymeric molecules in solution, liquid and solid phase; thermodynamics of polymers; methods of characterization; mechanical properties; fabrication techniques; properties of commercial polymers. Recommended: one quarter of physical chemistry and one quarter of organic chemistry. Offered: A.

MSE 473 Noncrystalline State (4)

Chemistry and physics of inorganic glass and amorphous semiconductors; structure, properties, and processing of vitreous materials. Prerequisite: MSE 170; MSE 321; MSE 331. Offered: S.

MSE 475 Introduction to Composite Materials (4)

Microstructural design and processing of composite materials; polymeric, metallic, and ceramic matrices; fibers and fiber-reinforced composites, thermal, mechanical, and electrical properties. Recommended: basic background in materials science and engineering (level of MSE 170), mechanics of materials (level of CEE 220), and linear algebra and familiarity with matrix operations (level of MATH 308 or 318). Offered: A.

MSE 477 High Temperature Materials (4)

Chemical and mineralogical composition; processing methods; thermal, physical, and chemical properties and tests; application in high-temperature processes. Prerequisite: MSE 310, MSE 321.

MSE 481 Science and Technology of Nanostructures (3)

Comprehensive introduction to the developing field of nanoscience and nanotechnology. Includes materials properties as a function of length-scale and dimensionality, applications in medicine/biology, electronics, magnetism, and electro-mechanical systems. Cooperative learning approaches involving student participation with team assignments, class activities, lectures, and laboratory visits. Offered: W.

MSE 484 Materials Chemistry (3) NW

Overview of basic principles, techniques, and applications associated with solid materials. Topics include description of crystals, examples of crystal structures, structural analysis, band structures of solid materials, preparation of materials, materials for microelectronics, and materials for information technology. Prerequisite: CHEM 453 or CHEM 455. Offered: jointly with CHEM 484; Sp.

MSE 485 Introduction to Electronic Packaging and Materials (3)

The governing equations of transport phenomena: mechanical, thermal, and electromagnetic behavior, thermomechanical and electromagnetic properties of packaging materials, electromagnetic characteristics of circuit and transmission lines, thermal management and reliability analysis of packaging, interconnect and material processing technology. Prerequisite: MSE 170. Offered: jointly with M E 485; A.

MSE 486 Fundamentals of Integrated Circuit Technology (3)

Processing physics, chemistry and technology, including evaporation, sputtering, epitaxial growth, diffusion, ion implantation, laser annealing, oxidation, chemical vapor deposition, photoresists. Design considerations for bipolar and MOS devices, materials and process characterization. Future trends. Prerequisite: either E E 482 or MSE 351. Offered: jointly with E E 486; W.

MSE 487 Laboratory in Electronic Packaging and Materials (1)

Laboratory course to accompany M E 485 Experiments related to design, processing and reliability of electronic packaging used in consumer electronics. Corequisite: MSE 485. Offered: jointly with M E 487; A.

MSE 489 Integrated Circuit Laboratory (1)

Hands-on experience in the building of a PMOS device, complete with oxidation, diffusion, photolithography, etching, metallization, and testing. Prerequisite: E E 486/MSE 486, which may be taken concurrently. Offered: jointly with E E 489; W.

MSE 491 Materials Design and Failure (1)

Develop understanding of mechanical design of all engineering materials (metals, ceramics, polymers, glasses, elastomers, composites); classes of engineering materials; materials, process selection, optimization for engineering applications; statistical quality control principles; common mechanical failure mechanisms; lab experiments and term projects involving design, hands-on processing, failure analysis. Offered: W.

MSE 492 Design in Materials Engineering II (3)

Materials engineering design criteria including: materials selection, process design, and manufacturability issues; statistical methods and quality control concepts for engineering design; engineering economics for safety. Primary focus is on the completion of the two-quarter team design project on materials engineering. Prerequisite: MSE 491. Offered: Sp.

MSE 497 Undergraduate Research (1-5, max. 12)

Research in materials under faculty supervision other than the MSE senior project. Cannot be used toward the technical elective requirements in the MSE major. Credit/no credit only.

MSE 498 Special Topics (1-5, max. 8)

Special topics in materials science and engineering offered as a course with lectures, conferences, or laboratory. Offered: AWSpS.

MSE 499 Special Project (*, max. 5)

Materials science and engineering field or laboratory investigations in group or individual setting. Written report required. Offered: AWSpS.

MSE 501 Advanced Processing of Inorganic Materials (3)

Discusses advanced processes of inorganic materials including metals, ceramics and electronic materials, such as high temperature processing, sintering, solidification, single crystal growth from liquid, and vapor phase deposition. Emphasizes both the fundamentals and practical approaches of these processing techniques. Offered: even years; A.

MSE 502 Sol-Gel Processing (3)

Fundamentals of colloid science and the physics and chemistry of the sol-gel process. Emphasizes the synthesis and applications of various materials, such as multi-component oxides, nano-composites, meso- and microporous materials, organic/inorganic hybrids, and biomaterials that have important applications in both leading technologies and modern industries. Offered: odd years; A.

MSE 504 Introduction to Microelectro Mechanical Systems (4)

Theoretical and practical aspects in design, analysis, and fabrication of MEMS devices. Fabrication processes, including bulk and surface micromachining. MEMS design and layout. MEMS CAD tools. Mechanical and electrical design. Applications such as micro sensors and actuators, or chemical and thermal transducers, recent advances. Offered: jointly with E E 502/M E 504; A.

MSE 510 Bonding, Crystallography, and Symmetry-Related Properties of Materials (3)

Rigorous introduction to the fundamentals of bonding, symmetry, crystallography, and related properties. Quantum mechanical foundation of cohesion and properties of solids. Geometric approach to understanding symmetry elements in 2-D and 3-D, including point groups, space groups, stereographic projections, and bravais

lattices. Tensor properties of crystals related to crystallography and symmetry. Offered: A.

MSE 512 Experimental Transmission Electron Microscopy (3) Fundamentals of electron optics as applied to microscopy; applications of contrast theories and electron diffraction with emphasis on defects and multiphase structures in crystalline solids. Prerequisite: MSE 510. Offered: W.

MSE 513 Transmission Electron Microscopy Laboratory (2) One four-hour laboratory and one two-hour discussion/demonstration per week; metallic, ceramic, electronic biological sample preparation techniques; diffraction, imaging, and spectroscopy techniques in electron microscopy. Prerequisite: MSE 512 which may be taken concurrently. Offered: W.

MSE 515 Advanced Transmission Electron Microscopy (3) Principles of image formation in crystalline and amorphous materials at the atomic resolution level; high spatial resolution electron diffraction with emphasis on convergent beam electron diffraction; quantitative elemental compositional and chemical analysis with energy dispersive x-ray spectroscopy and electron energy loss spectroscopy; high voltage electron microscopy. Prerequisite: MSE 512 and MSE 513. Offered: odd years; Sp.

MSE 518 Advanced Mineralogy (3) Crystal symmetry: point groups, space groups. Mathematical description of crystal structures; group theory and irreducible representations; tensor description of physical properties; stress, strain, piezoelectricity, elasticity; structural and magnetic phase transition, Landau theory, deformation and creep in crystals; elasto-viscous properties of Earth's mantle, crystal chemistry and solid state reactions. Offered: jointly with ESS 537; Sp.

MSE 520 Seminar (1, max. 6) Review of research problems in recent literature. Registration required for all graduate students. Credit/no credit only. Offered: AWWSp.

MSE 524 Applied Rate Phenomena (3) Introduction to rate theory and transport processes. The principal thrust is on applications in ceramics and metallurgy. Prerequisite: basic course in transport phenomena or permission of instructor. Offered: W.

MSE 525 Kinetics and Phase Transformations (3) Thermodynamic basis for kinetic processes, including diffusion and phase transformation kinetics. Diffusion problems and solution methodologies, statistical treatment of diffusion, solid-liquid and solid-solid transformations, ordering transitions. Special topics related to grain growth, sintering, martensitic transformations. Prerequisite: MSE 322 and MSE 421 or equivalent. Offered: Sp.

MSE 528 Physics and Modeling of VLSI Fabrication (4) Physics of VLSI fabrication, emphasizing processing modeling and simulation. CMOS process, sequences, point defects and diffusion, ion implantation and annealing, film growth kinetics, deposition and etching, advanced photolithography. Process interactions and process integration. Extensive use of process simulation software. Prerequisite: either E E 486/MSE 467, E E 520/M E 504/MSE 504, or E E 527. Offered: jointly with E E 528.

MSE 530 Fundamentals and Applications of Metal Finishing (3) Fundamentals and applications of corrosion to the finishing and

processing of metals. Corrosion, electrochemical fundamentals, materials cleaning processes, electrodeposition, surface treatments, finishing processes. Offered: odd years; A.

MSE 541 Defects in Materials (3) Detailed study of the general properties and effects of point, line, and planar defects in crystalline solids. Prerequisite: MSE 331 or equivalent. Offered: W.

MSE 544 Mechanical Behavior of Materials (3) Mechanical properties of metals, ceramics, and polymers. Elasticity and viscoelasticity. Macroscopic and microscopic aspects of deformation and fracture. Continuum plasticity and microscopic hardening mechanisms. High temperature deformation. Fracture mechanics, brittle and ductile fracture. Deformation and fracture mechanisms maps. Prerequisite: MSE 510 and MSE 541 or permission of instructor.

MSE 550 Magnetism, Magnetic Materials, and Related Technologies (3) A comprehensive introduction to magnetism, magnetic materials, and related applications. Discusses intrinsic and phenomenological concepts of magnetism, ordered magnetic materials (emphasizing their structure-sensitive properties), magnetic phenomena, small particles/thin films, and applications (magnetic recording, permanent magnets, quantitative imaging of magnetic domains, surface and interface magnetism, giant magneto-resistance). Offered: Sp.

MSE 553 Vacuum Science and Technology (3) Fundamental theory and gas kinetics and treatment of gas flow, working principles of vacuum pumps and gauges, characteristics required of the vacuum components, material selection, fundamentals essential to vacuum system design. Covers both fundamental and practical aspects of modern vacuum science and technology.

MSE 555 Biomimetics: Bioinspired Design and Processing of Materials (4) How biological organisms produce materials with controlled structure, chemistry and hierarchy to attain physical properties far superior to traditional engineering materials. Fundamental biological building materials, their synthesis, and their self-assembly with emphasis on examples of soft and hard tissues.

MSE 559 Thin Film Science, Engineering, and Technology (3) The physics, chemistry, and engineering aspects of thin film deposition and technology. Vapor phase deposition emphasized. Topics include reactor types, vapor phase transport and hydrodynamics, surface and mass transport limited kinetics, nucleation and growth, homoepitaxy, heteroepitaxy, and thin film characterization. Prerequisite: permission of instructor. Offered: jointly with CHEM E 559.

MSE 560 Organic Electronic and Photonic Materials/Polymers (3) Physical and material concepts determining properties of organic electronic and photonic materials. Discusses electronic structure, physico-chemical characterization, and device application. Includes introduction of electronic band structure of polymers, electrically conducting polymers; organic nonlinear optical electroluminescent materials; polymer optical fibers; two-photon absorption materials for 3-D microfabrication. Offered: jointly with CHEM 564.

MSE 562 Introduction to Electronic Composites (3) Fundamentals of microstructure-macro-

property relation of electronic composites. This course covers applications (computers, laser packages, medical devices, MEMS, avionics), functions (mechanical, thermal, electromagnetic and optical), microstructure-macro-property relations, processing issues, and modeling of electronic composites. Recommended: 475 or M E 450. Offered: jointly with M E 562; odd years; Sp.

MSE 563 Advanced Composites: Design and Manufacturing (3) Manufacturing and processing techniques of metal-, polymer-, and ceramic-matrix composites; design considerations related to manufacturing techniques; non-destructive testing of composite structures. Fiber-matrix interfacial features and interactions. Interfacial thermodynamics applied to selection of fiber-matrix combinations. Prerequisite: MSE 475 or M E 450 or equivalent by permission of instructor. Offered: jointly with M E 563; Sp.

MSE 565 Electron Theory of Materials (3) Solid-state concepts of materials. Atomic bonding, statistical mechanics, Brillouin zone theory. Applications to conduction, optical, and magnetic properties of metals, semiconductors, and insulators. Prerequisite: MSE 466 or equivalent. Offered: W.

MSE 590 Advanced Seminar in Materials Science and Engineering (2) Advanced topics in material science, led by faculty with specific expertise in the area of interest. Topics to be chosen and announced quarterly.

MSE 598 Engineering Materials Problems (4) Involves a concentrated project which may include the design of a system or process, or analysis of a set of data related to the materials engineering area. Requires a professional quality report and an oral presentation of the results.

MSE 599 Special Topics in Materials Science (1-5, max. 5) Studies of special advanced topics in materials science. Prerequisite: permission of instructor. Offered: AWWSpS.

MSE 600 Independent Study or Research (*) Offered: AWWSpS.

MSE 700 Master's Thesis (*) Offered: AWWSpS.

MSE 800 Doctoral Dissertation (*) Offered: AWWSpS.

Mechanical Engineering

M E 123 Introduction to Visualization and Computer-Aided Design (4) NW/VLPA Adee Methods of depicting three-dimensional objects and communicating design information. Development of three-dimensional skills through freehand sketching and computer-aided design using parametric solid modeling. Offered: AWWSpS.

M E 124 Visualization and Computer-Aided Design Laboratory (2) NW/VLPA Adee Methods of depicting three-dimensional objects and communicating design information. Development of three-dimensional visualization skills through computer-aided design using parametric solid modeling. Offered: AWWSpS.

M E 230 Kinematics and Dynamics (4) NW Fabien Kinematics of particles, systems of particles, and rigid bodies; moving reference frames; kinetics of particles, systems of particles, and rigid bodies; equilibrium, energy, linear

momentum, angular momentum. Prerequisite: A A 210.

M E 295 Product Dissection (3) Kumar
Examination of the way products and machines work, their physical operation, the manner in which they are constructed, and the interaction between design, materials, and manufacture. Laboratories involve dissection and assembly of several common industrial and consumer products by student teams. Offered: jointly with IND E 295.

M E 323 Engineering Thermodynamics (5) Kramlich Engineering thermodynamics, including thermodynamic concepts and properties, the first and second laws of thermodynamics, energy conversion, refrigeration, humidification, and combustion. Engineering design applications. Prerequisite: CHEM 142; MATH 126; PHYS 121.

M E 331 Introduction to Heat Transfer (4) Forster Study of heat transfer by conduction, radiation, and convection; elementary heat-exchanger design. Prerequisite: either M E 333 or CEE 342.

M E 341 Energy and Environment (3) NW Malte Energy use. Fossil energy conversion. Oil, gas, coal resources. Air impacts. Nuclear energy principles, reactors, fuel cycle. Prerequisite: either MATH 112, MATH 124, or Q SCI 291; either CHEM 120, CHEM 142, PHYS 114, or PHYS 121. Offered: jointly with ENVIR 341/ CHEM E 341; A.

M E 354 Mechanics of Materials Laboratory (5) Tuttle Properties and behavior of engineering materials including stress-strain relations, strength, deformation mechanisms, strength, deformation, fracture, creep, and cyclic fatigue. Introduces experimental techniques common to structural engineering, interpretation of experimental data, comparison of measurements to numerical/analytical predictions, and formal, engineering report writing. Lecture and laboratory. Prerequisite: MSE 170, CEE 220.

M E 355 Introduction to Manufacturing Processes (4) Ramulu Study of manufacturing processes, including interrelationships between the properties of the material, the manufacturing process and the design of components. Interpretation of experimental data, comparison of measurements to numerical/analytical predictions, and formal, engineering report writing. Prerequisite: M E 354.

M E 356 Machine Design Analysis (4) Kumar Analysis, design, and selection of mechanical and electromechanical subsystems and elements, such as gears, linkages, cams, motors, and bearings. Lecture and laboratory. Prerequisite: M E 354.

M E 373 Introduction to System Dynamics (5) Garbini Mathematical modeling, analysis, and design of physical dynamic systems involving energy storage and transfer by lumped-parameter linear elements. Time-domain response by analytical methods and numeric simulation. Laboratory experiments. Prerequisite: either AMATH 351 or MATH 307; either AMATH 352 or MATH 308; E E 215; M E 230.

M E 374 Systems Dynamic Analysis and Design (5) Garbini Extension of M E 373. Frequency response analysis, generalized impedance concepts and applications, Fourier series analysis and Laplace transform techniques. Modeling and analysis of electromechanical actuators and rotating machinery.

Laboratory experiments and design projects. Prerequisite: M E 373.

M E 392 Concurrent Engineering (3) Focus on the need for and the tools of concurrent engineering in all engineering disciplines. Functional and cross-function organizations, new product development, market-need identification and design for manufacturing are explored. Offered: jointly with IND E 392.

M E 403 Material-Removal Processes (3) Ramulu Cutting and noncutting processes for material removal in the shaping of manufactured products. Study of forces and of power consumption and relative costs in the various processes. Prerequisite: M E 355 which may be taken concurrently.

M E 406 Corrosion and Surface Treatment of Materials (3) Sandwith Corrosion fundamentals and forms (galvanic, crevice, pitting, stress corrosion, erosion, hydrogen and leaching). Principles of design, materials selection, cathodic protection and surface treatments (coatings, carburizing, nitriding and plating) applied to reduce corrosion. Failure analysis applied to case studies.

M E 409 Introduction to Numerical Control and Computer-Aided Manufacturing (3) Ramulu Control system fundamentals, numerical control (NC) machine control systems, and the design aspect of NC machine tools, programming methods of NC machines, computer-aided manufacturing, CNC, DNC, and process optimization. Prerequisite: M E 355 which may be taken concurrently.

M E 415 Sustainability and Design for Environment (3) Cooper Analysis and design of technology systems within the context of the environment, economy, and society. Applies the concepts of resource conservation, pollution prevention, life cycle assessment, and extended product responsibility. Examines the practice, opportunities, and role of engineering, management, and public policy. Offered: jointly with ENVIR 415/CEE 495.

M E 424 Combustion Systems and Pollutant Formation (4) Malte Combustion theory, including chemical thermodynamics, chemical kinetics, mixing and diffusion, and flame structure. Combustion chamber design concepts and performance. Pollutant formation and combustion methods for minimizing pollutant formation. Prerequisite: M E 323; recommended: M E 331; M E 333.

M E 425 HVAC Engineering (4) Emery Heating, ventilating, and air conditioning of built environment. Human comfort, psychometric processes, load computations, fluid distribution, and controls. Design analysis of HVAC system is taught in the lectures and applied in the class project. Prerequisite: M E 323; M E 331.

M E 426 Sustainable Energy Design (4) Malte Energy systems with renewable (solar) energy and efficient use of energy. Project-based learning: analysis, systems engineering, design, component characteristics, and environmental impacts. Prerequisite: CHEM E/ENVIR/M E/ PHYS 342 or M E 430; recommended: M E 331.

M E 430 Advanced Energy Conversion Systems (4) Kramlich Advanced and renewable energy conversion systems and technologies are treated. Included are high efficiency combined cycles; renewable energy conversion involving

solar, wind, and biomass; direct energy conversion and fuel cells; and nuclear energy. Environmental consequences of energy conversion and environmental control are discussed. Prerequisite: M E 323.

M E 431 Advanced Fluid Mechanics (4) Forster Advanced topics in fluid mechanics, including kinematics, potential theory and vortex dynamics, viscous flow, turbulence, experimental and numerical methods, and design. Prerequisite: M E 333.

M E 432 Gas Dynamics (3) Dynamic and thermodynamic relationships for the flow of a gas. Application of thermodynamic processes involving nozzles, diffusers, compressors, and turbines. Prerequisite: either M E 333 or CEE 342. Offered: by request only.

M E 433 Turbomachinery (4) Thermodynamics, gas dynamics, and fluid mechanics of axial and centrifugal compressors, pumps, and turbines. Selection of components for engineering applications. Design problems and/or laboratory experiments to illustrate operating characteristics of turbomachines.

M E 436 Friction and Wear of Materials (3) Wilson Study of principles of friction and wear behavior of materials and of those material properties that affect such behavior. Principles of lubrication. Applications to design of surfaces for wear resistance. Prerequisite: M E 333; M E 356.

M E 440 Advanced Mechanics of Materials and Solids (3) Labossiere Study of mechanics of deformable bodies, including three-dimensional stress and strain tensors and their transformations. Equations of compatibility, continuity and equilibrium. Elastic constants. Failure criteria including fracture, yield and instability. Deflection relations for complex loading and shapes. Indeterminate problems. Design applications and numerical methods. Prerequisite: M E 354.

M E 442 Renewable Energy (4) NW Malte Introduction to renewable energy. Principles and practices: solar, wind, water, and biomass energy conversion. Prerequisite: either MATH 112, MATH 124, or Q SCI 291; either CHEM 120, CHEM 142, PHYS 115, or PHYS 122. Offered: jointly with CHEM E 442/ENVIR 442; W.

M E 445 Introduction to Biomechanics (4) Sanders Presents the mechanical behavior of tissues in the body and the application to design of prostheses. Tissues studies include bone, skin, fascia, ligaments, tendons, heart valves, and blood vessels. Discussion of the structure of these tissues and their mechanical response to different loading configurations. An important part of the class is a final project. Offered: jointly with BIOEN 440.

M E 450 Introduction to Composite Materials and Design (3) Tuttle Stress and strain analysis of continuous fiber composite materials. Orthotropic elasticity, lamination theory, failure criterion, and design philosophies, as applied to structural polymeric composites. recommended: MSE 475.

M E 459 Introduction to Fracture Mechanics (3) Ramulu Deformation processes leading to fracture, and linear elastic fracture mechanics. Fatigue crack propagation. Fracture control and failure analysis. Prerequisite: M E 354; M E 356.

M E 460 Kinematics and Linkage Design (3) Gantner Synthesis of linkage-type mechanisms using graphical and computer methods.

M E 468 Air-Pollution Control Equipment Design (3) *Pilat* Designs to control air pollutants from stationary sources. Procedures for calculating design and operating parameters. Fundamental mechanisms and processes of gaseous and particulate control equipment for absorption and adsorption of gaseous pollutants; electrostatic precipitation and filtration of particular pollutants. Actual case studies. Offered: jointly with CHEM E 468/CEE 494.

M E 469 Applications of Dynamics in Engineering (4) *Storti* Application of the principles of dynamics to selected engineering problems, such as suspension systems, gyroscopes, electromechanical devices. Includes introduction to energy methods, Hamilton's principle and Lagrange equations and the design of dynamic system. Prerequisite: M E 374.

M E 470 Mechanical Vibrations (3) *Reinhall* Single-degree-of-freedom linear systems techniques. Matrix techniques for multi-degree-of-freedom linear systems. Applications in vibration isolation, transmission, and absorption problems and instrumentation. Prerequisite: M E 373.

M E 471 Automatic Control (4) *Berg* Dynamic system modeling; control system stability and performance analysis; compensator design by Bode and root-locus methods. Prerequisite: M E 374.

M E 473 Instrumentation (4) *Garbini* Principles and practice of industrial and laboratory measurement. Dynamics of instrument response; generalized performance analysis of sensor systems; theory of transducers for motion, force, pressure, flow, and other measurements. Lecture and laboratory. Prerequisite: M E 374.

M E 474 Systems Modeling and Simulation (3) *Fabien* Unified approach to modeling of systems, and computer simulation of systems behavior. Selecting system variables; writing state, loop, and node equations; modal response and state transition response; system functions and convolution; analogs. Applications to control, vibrations, and other problems. Prerequisite: M E 374.

M E 477 Embedded Computing in Mechanical Systems (4) *Garbini* Analysis of electromechanical systems employing microcomputers for control or data acquisition. Microcomputer architecture, memory organization, assembly language programming, interfaces, and communications. Particular emphasis on design of hardware and software interfaces for real-time interaction with mechanical systems. Weekly laboratory. Prerequisite: M E 374.

M E 478 Finite Element Analysis (4) *Labossiere, Reinhall* Development of theory and concepts of finite element analysis. Applications in all areas of mechanical engineering, including mechanics of solids, heat transfer, and design of dynamical systems. Weekly computer exercises. Prerequisite: M E 123; M E 374; either MATH 308 or AMATH 352.

M E 480 Introduction to Computer-Aided Technology (4) Principles of computer-aided technology. Computer-aided design, engineering, drafting, and manufacturing; computer-aided design systems, geometry, computer graphics, hardware, computer-aided vehicle/system design synthesis. System demonstrations, laboratories, and site visits. Prerequisite: M E 123; CSE 142.

M E 481 Combustion Engines and Alternatives (4) *Kramlich, Malte* Thermodynamics, fuels, performance, combustion, and exhaust emissions control for spark ignition and compression ignition piston engines. New technologies, including hybrid combustion-electric fuel cell engines. Principles and practice. Prerequisite: M E 323. Recommended: M E 333.

M E 485 Introduction to Electronic Packaging and Materials (3) *Taya* The governing equations of transport phenomena: mechanical, thermal, and electromagnetic behavior, thermomechanical and electromagnetic properties of packaging materials, electromagnetic characteristics of circuit and transmission lines, thermal management and reliability analysis of packaging, interconnect and material processing technology. Prerequisite: MSE 170. Offered: jointly with MSE 485.

M E 487 Laboratory in Electronic Packaging and Materials (1) *Taya, Stoebe* Laboratory course to accompany M E 485 Experiments related to design, processing and reliability of electronic packaging used in consumer electronics. Corequisite: M E 485. Offered: jointly with MSE 487.

M E 490 Naval Architecture (3) *Adee* Theory of naval architecture; ship's lines, hydrostatic curves, intact and damaged stability, launching.

M E 491 Naval Architecture (3) *Adee* Theory of naval architecture; strength, ABS rules, water waves, ship and platform motions.

M E 492 Naval Architecture (3) *Adee* Theory of naval architecture; dimensional analysis, resistance, model testing, propellers, steering.

M E 495 Mechanical Engineering Design (4) Design laboratory involving the identification and synthesis of engineering factors to plan and achieve specific project goals. Current literature and prerequisite texts are used as reference sources. Lecture and laboratory. Prerequisite: M E 395.

M E 496 Technology-Based Entrepreneurship (3) Concentrates on hands-on aspects of innovation and entrepreneurial enterprise development. Examines relationships between innovation, iterative prototyping, and marketing testing. Students identify market opportunities, create new technology-based products and services to satisfy customer needs, and construct and test prototypes. Prerequisite: IND E 250. Offered: jointly with IND E 496.

M E 498 Special Topics in Mechanical Engineering (1-5, max. 6) Lecture and/or laboratory. Maximum of 6 credits may be applied toward an undergraduate degree.

M E 499 Special Projects (2-5, max. 6) Written report required.

M E 501 Modern Manufacturing Processes (3) *Ramulu* General survey and introduction to modern manufacturing engineering processes. Fundamental principles and practices of modern manufacturing processes. Case studies and exercises relating the course material directly to modern industrial practice. Offered: A.

M E 502 Plasticity and Metal Forming (3) *Wilson* Stress-strain and stress-strain-rate relations in metal forming; plastic instability. Work of deformation. The slip-line field, load bounding,

applications to frames, drawing, forging, and extrusion. Offered: odd years; Sp.

M E 504 Introduction to Microelectro Mechanical Systems (4) Theoretical and practical aspects in design, analysis, and fabrication of MEMS devices. Fabrication processes, including bulk and surface micromachining. MEMS design and layout. MEMS CAD tools. Mechanical and electrical design. Applications such as micro sensors and actuators, or chemical and thermal transducers, recent advances. Offered: jointly with E E 502/ MSE 504.

M E 505 Computer Integrated Manufacturing (3) *Wilson* Design and analysis of advanced manufacturing systems from a strategic as well as technological perspective. Focus on information generation, management, and coordination aspects of complex manufacturing organizations. Examination of system integration alternatives and consequences for relationships with customers and suppliers. Offered: jointly with IND E 531; W.

M E 507 Computational Methods in Design and Manufacturing (3) *Wu* Sampling size and accuracy: uniform, random, and Hammersley. Approximation of curves and surfaces. Optimization: minima and maxima. Search and gradient techniques. Line integral for geodesic and optimal path. Offered: jointly with IND E 533; W.

M E 508 Theory and Design for Mechanical Measurements (3) Fundamental concepts of mechanical measurements, principles of sensors and transducers, signal conditioning and data acquisition, advanced experiment planning and analysis, and applications in mechanical engineering. Offered: .W.

M E 510 Mathematical Foundations of Systems Theory (4) *Damborg* Mathematical foundations for system theory presented from an engineering viewpoint. Includes set theory; functions, inverse functions; metric spaces; finite dimensional linear spaces; linear operators on finite dimensional spaces; projections on Hilbert spaces. Applications to engineering systems stressed. Prerequisite: graduate standing or permission of instructor. Offered: jointly with A A 546/CHEM E 510/E 510; A.

M E 518 Seminars on Advances in Manufacturing and Management (1) *Ramulu* Current topics and advances made in manufacturing and management. Topics presented by invited speakers from academia and industry. Emphasis on the multidisciplinary nature of manufacturing and management Offered: jointly with IND E 518; AWSp.

M E 519 Seminar (0-) Credit/no credit only. Offered: AWSp.

M E 520 Seminar (-1, max. 6) Credit/no credit only. Offered: AWSp.

M E 521 Thermodynamics (3) *Kramlich* Fundamental concepts of temperature, thermodynamic properties, and systems. The first, second, and combined laws. Development of the relations of classical thermodynamics. Introduction to statistical thermodynamics. Prerequisite: M E 323 and graduate standing in mechanical engineering or permission of instructor. Offered: A.

M E 522 Thermodynamics (3) *Malte* Topics from statistical thermodynamics, including the

Boltzmann, Bose-Einstein, and Fermi-Dirac statistics. Solutions of the Schrodinger wave equation and evaluation of the partition function for translation, rotation, and vibration. Prerequisite: M E 521 or permission of instructor. Offered: by request only.

M E 523 Energy and Environment Seminar (1) *Malte* Student discussions of topics in combustion science and technology, alternative fuels, renewable energy, environmental consequences of energy conversion, and design for environment. Also, presentations by outside experts. May be repeated for credit. Credit/no credit only. Offered: AWSp.

M E 524 Combustion (3) *Kramlich* Chemical and physical processes of combustion with applications to design of combustors, fuel selection, and consideration of environmental effects. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Offered: odd years; Sp.

M E 525 Acoustics in Engineering I (3) *Forster* Acoustic wave transmission, reflection, refraction, and diffraction. Review of continuum mechanics and examples from electromechanical systems. Prerequisite: graduate standing in mechanical or electrical engineering, or permission of instructor. Offered: W.

M E 526 Acoustics in Engineering II (3) *Forster* Continuation of 525. Material differs each year, covering such topics as scattering, moving media, ultrasonics, acoustic holography, optoacoustics, transducer design, propagation in an isotropic medium. Prerequisite: M E 525 or permission of instructor. Offered: Sp.

M E 528 Acoustics of Environmental Noise (4) Offered: jointly with CEE 554.

M E 530 Heat Conduction and Radiation (3) *Mescher* Heat conduction advanced fundamentals, emphasizing microscale applications. Radiative transfer for transparent and for absorbing and scattering media, emphasizing combustion, biomedical, and atmospheric/oceanic environmental applications. Forward and inverse problems for both conduction and radiation. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Offered: W.

M E 531 Conductive Heat Transfer (3) Analysis of steady-state and transient heat conduction in single- and multidimensional systems by mathematical, graphical, numerical, and analogical methods. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Offered: by request only.

M E 532 Convective Heat Transfer (3) *Kramlich* Introduction to fluid flow and boundary-layer theory as applicable to forced- and natural-convection heat transfer. Condensation and boiling heat transfer. Prerequisite: graduate standing or permission of instructor. Offered: Sp.

M E 533 Fluid Mechanics I (3) *Riley* Basic conservation laws and kinematics of fluid flow constitutive relationships, Newtonian fluids, dimensional analysis, vorticity dynamics, inviscid flows, applications. Offered: A.

M E 534 Fluid Mechanics II (3) *Riley* Review of basic principles, some exact solutions and their interpretation, waves (water waves, sound waves, shock waves), boundary layers, jets and wakes, flow stability, turbulence, applications.

Prerequisite: M E 533 or permission of instructor. Offered: W.

M E 535 Computational Techniques in Mechanical Engineering (3) *Emery* Advanced heat transfer studies of interest to mechanical engineers. Subject coverage varies from year to year. Prerequisite: permission of instructor. Offered: Sp.

M E 537 Topics in Fluid Mechanics (3) Selected fluid mechanics relevant to current advances in research and application. Topics selected vary with faculty and student interest, but have included flow stability, special topics in turbulence, and turbulent reacting flows. Offered: by request only.

M E 538 Turbulent Boundary Layer Theory (3) Characteristic features of turbulent boundary layers; development of the turbulent boundary layer equations; equilibrium boundary layers; integral methods of solution based on power law and wall-wake velocity profiles; methods of solution based on higher order constitutive equations; application to diffuser flows and free shear flows; new developments and physical models. Offered: odd years; A.

M E 541 Fatigue of Materials (3) *Ramulu* Macro and micro aspects of fatigue of metals and fatigue mechanisms. Analytical methods for fatigue and life assessment in advanced materials. Offered: W.

M E 543 Fluid Turbulence (3) Methods of characterizing fluid turbulence; probability concepts; spatial and temporal velocity correlations; spectral energy transfer; turbulent diffusion; isotropic turbulence and Kolmogoroff's hypothesis; Taylor's hypothesis; hot-wire measurement techniques. Prerequisite: 3 credits of graduate level fluid mechanics or permission of instructor. Offered: even years; W.

M E 544 Advanced Turbulence Modeling Techniques (3) *Riley* The Reynolds stress transport equations; plane homogeneous shear flow; modeling the pressure-strain, diffusion, and dissipation rate correlation tensors; one and two-equation turbulence models; near-wall turbulence and wall functions; limitations of length scale and eddy viscosity modeling. Prerequisite: 3 credits of turbulence related course work. Offered: even years by request only; Sp.

M E 547 Linear Systems Theory (4) Linearity, linearization, finite dimensionality, time-varying vs. time-invariant linear systems, interconnection of linear systems, functional/structural descriptions of linear systems, system zeros and invertibility, linear system stability, system norms, state transition, matrix exponentials, controllability and observability, realization theory. Prerequisite: either A A 447, E E 447 or M E 447. Offered: jointly with E E 547/A A 547; A.

M E 548 Linear Multivariable Control (3) Introduction to MIMO systems, successive single loop design comparison, Lyapunov stability theorem, full state feedback controller design, observer design, LQR problem statement, design, stability analysis, and tracking design. LQG design, separation principle, stability robustness. Prerequisite: A A 547/E E 547/M E 547. Offered: jointly with A A 548/E E 548.

M E 549 Estimation and System Identification (3) Fundamentals of state estimation for linear and nonlinear systems. Discrete and continuous systems. Probability and stochastic systems

theory. Models with noise. Kalman-Bucy filters, extended Kalman filters, recursive estimation. Numerical issues in filter design and implementation. Prerequisite: E E 505 or AMATH 506 or STAT 506; recommended: 548 or A A 548. Offered: jointly with A A 549/E E 549.

M E 550 Nonlinear Optimal Control (3) Calculus of variations for dynamical systems, definition of the dynamic optimization problem, constraints and Lagrange multipliers, the Pontryagin Maximum Principle, necessary conditions for optimality, the Hamilton-Jacobi-Bellman equation, singular arc problems, computational techniques for solution of the necessary conditions. Prerequisite: graduate standing; recommended: A A 548 or E E 548. Offered: jointly with A A 550/E E 550; odd years.

M E 551 Elasticity I: Elastostatics (3) *Taya* Elastostatics, including general formulations of 2D and 3D elastostatic problems (stress function method, complex variable method, displacement potential method). Eshelby's method is emphasized and used to solve 2D and 3D problems with special application to composite materials. Offered: W.

M E 552 Elasticity II: Viscoelasticity and Elastodynamics (3) *Taya* Elastodynamics includes wave propagation in linear elastic and linear viscoelastic solids where solids are monolithic materials, composite materials. Viscoelasticity part includes the stress-strain equations in terms of convolution integral, Fourier transform and Laplace transform modes. Simple and fundamental problems are solved by several techniques as demonstration. Offered: even years; Sp.

M E 553 Adhesion Mechanics (3) *Tuttle* Introduction to adhesive systems and test/evaluation techniques. Stress/strain analysis methods used with adhesive joints. Examples of practical applications. Prerequisite: graduate student status or permission of instructor. Offered: even years; Sp.

M E 555 Thermoelasticity (3) *Emery* Basic equations of thermoelasticity for isotropic elastic solids. Analysis of disks, cylinders, spheres, beams, and plates under steady temperature and sudden and slow heating and cooling. Introduction to thermoelastic stability. Prerequisite: M E 551 or permission of instructor. Offered: by request only.

M E 556 Experimental Stress Analysis I (3) *Tuttle* Theory and practice of experimental techniques including strain gages and strain gage-based devices, thermocouples, LVDTs, and transducer design. Lecture and laboratory. Prerequisite: graduate standing or permission of instructor. Offered: A.

M E 557 Experimental Stress Analysis II (3) *Tuttle* Theory and practice of optical mechanics, including interferometric techniques (moiré and holographic), geometric moiré methods, and photoelasticity. Lecture and laboratory. Prerequisite: graduate standing or permission of instructor. Offered: even years; W.

M E 559 Introduction to Fracture Mechanics (3) *Ramulu* Applications of linear fracture mechanics to failure analysis and fracture control based on actual case studies. Fracture toughness and fatigue testing techniques, crack initiation and propagation fatigue life prediction of mechanical components subjected to environmental effects. Offered: W.

M E 560 Advanced Theory of Fracture (3) *Ramulu* Theories of linear fracture mechanics, fracture dynamics, ductile fracture, stable crack growth and mixed mode fracture. Discussion of advanced topics from recent literature. Prerequisite: M E 559 or permission of instructor. Offered: even years; Sp.

M E 562 Introduction to Electronic Composites (3) *Taya* Fundamentals of microstructure-macro-property relation of electronic composites. This course covers applications (computers, laser packages, medical devices, MEMS, avionics), functions (mechanical, thermal, electromagnetic and optical), microstructure-macro-property relations, processing issues, and modeling of electronic composites. Recommended: 450 or MSE 423. Offered: jointly with MSE 562; Sp.

M E 563 Advanced Composites: Design and Manufacturing (3) Manufacturing and processing techniques of metal-, polymer-, and ceramic-matrix composites; design considerations related to manufacturing techniques; non-destructive testing of composite structures. Fiber-matrix interfacial features and interactions. Interfacial thermodynamics applied to selection of fiber-matrix combinations. Prerequisite: M E 450 or MSE 423 or equivalent by permission of instructor. Offered: jointly with MSE 563; Sp.

M E 564 Mechanical Engineering Analysis (3) *Storti* Application of mathematical methods to the description and analysis of systems in mechanical engineering. Analogies in heat transfer, fluid flow, stress distribution, dynamics, and feedback control. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Offered: A.

M E 565 Mechanical Engineering Analysis (3) *Storti* Applications of vectors, matrices, and partial differential equations to mechanical engineering systems, including computational techniques and analogies. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Offered: W.

M E 566 Introduction to Random Processes (3) *Kosaly* Probability and random variables. Ensemble averaging, probability density function, auto- and cross-correlation functions. Brownian motion, Poisson process. Ergodicity. Frequency domain analysis, auto- and cross-spectrum, transfer function. Fundamentals of digital spectral analysis. Applications in fluid mechanics, acoustics and vibrations. Offered: by request only; even years; A.

M E 572 Methodologies for Engineering Design: Conceptual Design (3) *Kumar* Methodologies particularly useful in the conceptual or preliminary phase of a design. The design process. Impact of formulating independent functional requirements. Physical and functional coupling in design. Case studies in conceptual design of products and processes. Prerequisite: graduate standing or permission of instructor. Offered: even years; W.

M E 573 Methodologies for Engineering Design: Probabilistic Mechanical Design (3) *Ramulu* Study, implementation of probabilistic methods to design. Loading, geometry, stress, strain/deflection described as random variables, compared to material properties/behavior in terms of random variables. Design, analysis, reliability, risk analyses conducted on common structures with results compared to conventional deterministic approaches. Projects using

probabilistic methods to optimize selected component designs. Offered: even years; Sp.

M E 578 Optimization in System Sciences (3) *Mesbahi* Covers convex sets, separation theorems, theorem of alternatives and their applications, convex analysis, convex functions, conjugation, subgradients, convex optimization, duality and applications, linear and semi-definite programming. Linear matrix inequalities, optimization algorithms, applications in system theory and control, bilinear, rank minimization, optimization software. Recommended: A A/M E/E E 547. Offered: jointly with A A/E E 578; W.

M E 579 Fluid Power Systems (3) Design, analysis, and control of fluid power systems. Steady-state analysis of valves, actuators, and transmissions. Dynamic modeling, response, stability, and control analysis via linear element representation and computer simulation. Prerequisite: graduate standing in mechanical engineering or permission of instructor. Offered: Sp.

M E 581 Digital Control (3) *Chizeck* Sampled-data systems, and z-transform. Frequency domain properties. Sampling D/A and A/D conversion. Controller design via discrete-time equivalents, direct methods, state feedback and observers. Quantization effects. LQR control and introduction to LQG optimal control. Prerequisite: either E E/A A or M E 548. Offered: jointly with A A/E E 581; W.

M E 582 Introduction to Discrete Event Systems (3) *Berg* Modeling DES with automata and Petri nets. Languages. State estimation and diagnostics. Control specifications. Feedback control. Dealing with uncontrollability and unobservability. Dealing with blocking. Timed automata and Petri nets. Prerequisite: A A 447/E E 447/ M E 471. Offered: jointly with A A 582/E E 582; even years; Sp.

M E 583 Nonlinear Control Systems (3) Analysis of nonlinear systems and nonlinear control system design. Phase plane analysis. Lyapunov stability analysis. Describing functions. Feedback linearization. Introduction to variable structure control. Prerequisite: A A/E E 447/M E 471. Offered: jointly with E E/A A 583; odd years: Sp.

M E 584 Combustion in Airbreathing Propulsion (3) Fundamentals of gasdynamics, mixing, and thermodynamics applies to the analysis and design of gas turbine, ramjet and scramjet engine combustors, with treatment of computer simulation. Offered: by request only.

M E 585 System Identification and Adaptive Control (3) Theory and methods of system identification and adaptive control. Identification of linear-in-parameter systems, using recursive LS and extended LS methods; model order selection. Indirect and direct adaptive control. Controller synthesis, transient and stability properties. Prerequisite: either E E 505 or AMATH 506 or STAT 506; E E 548/A A 548/M E 548. Offered: jointly with M E 585/E E 585.

M E 588 Dynamics and Vibrations (3) *Shen* Variational techniques, Hamilton's principle, Lagrange's equations applied to dynamics of particles and rigid bodies. Vibration analysis of multi-degree-of-freedom and continuous systems. Prerequisite: graduate standing in engineering or permission of instructor. Offered: A.

M E 589 Vibrations (3) *Storti* Study of systems with nonlinear damping and restoring forces excited by deterministic or random inputs. Applications in measurement, testing, and design of mechanical systems. Nonlinear systems are emphasized. Prerequisite: M E 588 or permission of instructor. Offered: even years; W.

M E 590 Vibrations (3) *Reinhall* Study of systems with nonlinear damping and restoring forces excited by deterministic or random inputs. Applications in measurement, testing, and design of mechanical systems. Random inputs are emphasized. Prerequisite: M E 588 or permission of instructor. Offered: even years; Sp.

M E 591 Robotics and Control Systems Colloquium (1, max. 3) *Berg* Colloquium on current topics in robotics and control systems analysis and design. Topics presented by invited speakers as well as on-campus speakers. Emphasis on the cross-disciplinary nature of robotics and control systems. Credit/no credit only. Offered: jointly with A A/CHEM E/E E 591; A/WSp.

M E 593 Feedforward Control (3) *Devasia* Design feedforward controllers for precision output tracking; inversion-based control of non-minimum-phase systems; effect of plant uncertainty on feedforward control; design of feedforward controllers for applications such as vertical take off and landing aircraft, flexible structures and piezo-actuators. Prerequisite: A A 547/E E 547/M E 547. Offered: jointly with A A/ E E 593.

M E 594 Robust Control (3) Basic foundations of linear analysis and control theory, model realization and reduction, balanced realization and truncation, stabilization problem, coprime factorizations, Youla parameterization, matrix inequalities, H-infinity and H2 control, KYP lemma, uncertain systems, robust H2, integral quadratic constraints, linear parameter varying synthesis, applications of robust control. Offered: jointly with A A 594/E E 594; odd years; Sp.

M E 598 Topics in Research (1) Doctoral seminar. Credit/no credit only. Offered: A/WSp.

M E 599 Special Projects (1-5, max. 9) Written report required. Prerequisite: permission of department Chairperson. Offered: A/WSpS.

M E 600 Independent Study or Research (*) Written report required. Offered: A/WSpS.

M E 700 Master's Thesis (*) Offered: A/WSpS.

M E 800 Doctoral Dissertation (*) Offered: A/WSpS.

Technical Communication

T C 100 Introduction to Technical Communication (5) Topics may include: virtual communities, human-computer interaction, web design, usability testing, visual design, and others. Explores course content through individual and group hands-on projects. Offered: A.

T C 231 Introduction to Technical Writing (3) Principles of organizing, developing, and writing technical information. Report forms and rhetorical patterns common to scientific and technical disciplines. Technical writing conventions such as headings, illustrations, style, and tone. Numerous written assignments required. Required for all engineering majors. Prerequisite: either C LIT 240, both ENGL 104 and ENGL 105, ENGL 111,

ENGL 121, ENGL 131, ENGL 182, ENGL 197, ENGL 198, ENGL 199, or ENGL 281. Offered: AWPSP.

T C 310 Introduction to Communication Design (5) *Turns* Functions of, and relationships among, major software tools in the context of common technical communication design problems. Students practice explaining and justifying design solutions in terms of key features and user characteristics. Offered: ASp.

T C 317 Survey of Usability Research Techniques(5) Introduces usability research methods used in the product-development process; contextual inquiry, surveys and interviews, focus groups, user profiling, usability testing, cognitive walkthroughs, heuristics, and others. Offered: Sp.

T C 318 Survey of User Experience Design (5) Provides a project-based introduction to the user interface design process and is oriented toward practical methods for approaching a design problem. Focuses on developing conceptual designs based on user need. Offered: Sp.

T C 319 Survey of Concepts in Human-Computer Interaction (5) Studies the social, cognitive, behavioral and contextual aspects of information systems and informational dimensions of the human-computer interface, and other user-centered design concepts. Surveys research literature of human information behavior, as well as ethical standards. Offered: Sp.

T C 333 Advanced Technical Writing and Oral Presentation (4) Emphasis on the presentation of technical information to various audiences. Style of writing required for proposals, reports, and journal articles. Oral presentation principles, including use of visuals, as well as organizing and presenting an effective talk. For engineering majors. Prerequisite: T C 231. Offered: AWPSP.

T C 400 Scientific and Technical Communication (5) *Kasonic, Kolko* Principles and practices of writing to communicate scientific and technical information to a variety of readers, including the expert, general scientific and technical reader, manager, and general public. Examines research and issues in the TC field including social contexts and environments (legal, ethical, cultural). Required of technical communication majors. Prerequisite: T C 231. Offered: ASp.

T C 401 Style in Scientific and Technical Writing (5) *Coney, Spyridakis* Grammatical structures and stylistic strategies within specific professional contexts. Achieving clarity and conciseness through word choice and placement, using a variety of sentence structures for appropriate emphasis, handling details, establishing effective tone. Required of technical communication majors. Prerequisite: T C 231. Offered: ASp.

T C 402 Scientific and Technical Editing (5) *Farkas, Kolko* Editorial responsibilities and practice in the communication of scientific and technical information; the editor's role both as editor and as supervisor of publication groups. Addresses managing collaborative teams and basic SML concepts and metadata. Required of technical communication majors. Prerequisite: T C 400 with a minimum grade of 3.0; T C 401 with a minimum grade of 3.0. Offered: W.

T C 403 Publication Project Management (3) *Plumb* Responsibilities and practice in managing

publication projects in scientific and technical organizations. Project design, coordination, production, and evaluation, including planning, organizing, staffing, and directing. Required of technical communication majors. Offered: WSp.

T C 407 Software User Assistance (5) *Farkas* Concepts and skills for preparing manuals, online help systems, performance-support systems, and other forms of locally stored and Web-based software user assistance. Includes principles of human-computer interaction, usability evaluation, and the software-development process. Students create both end-user and developer documentation. Prerequisite: T C 310. Offered: W.

T C 408 Public Documents: Proposals, EISs, Assessments (3) *Bereano* Analyzing special documents of public character: proposals, EISs, questionnaires, technology assessments. Understanding socio-political milieu in which they are planned, organized, written; the specialized audiences (e.g., agencies with their missions, guidelines, constituencies; citizen groups; commercial interests) they serve. Documents, the decision-making process. Offered: odd years; Sp.

T C 409 Writing for Publication (3) *Coney* Writing for professional and trade periodicals in science, engineering, and technology; examination of the publication process, including the roles of author, editor, and reviewer; selecting the appropriate periodical; organizing and writing the article. Prerequisite: T C 400; T C 401. Offered: W.

T C 411 Visual Media in Technical Communication (5) *I&S/VLPA Williams* Use of visuals in print and electronic communication. Topics include vision, perception, comparison of text and visual media principles for the selection and use of visual media, information graphics icons, page and screen design typography, and color. Offered: ASp.

T C 412 Print Production (5) *Sauer, Williams* Introduction to print production for technical communicators. Topics include digital pre-press, printing, binding, and finishing. Prerequisite: T C 411. Offered: W.

T C 415 Production Editing (4) *Williams* The editorial role in the preparation of text and visual materials for production. The editor's responsibilities and prerogatives as they relate to those of other professionals in the production phase of the publications field.

T C 420 Introduction to Technology as a Social and Political Phenomenon (5) *I&S Bereano* Introductory survey presenting some of the issues pertaining to technology and social change, technology and values. Emphasis on the social, political, and economic aspects of current problems that have important technological components. Prior technical background not required; readings from diverse sources. Offered: A.

T C 422 Style in Technical Writing (3) Grammatical structures and stylistic strategies. Achieving clarity and conciseness through word choice and placement, using a variety of sentence structures for appropriate emphasis, handling details, establishing effective tone.

T C 425 Technology Assessment (5) *I&S Bereano* In-depth analysis of the concept, practice, and methods of technology assessment (policy analysis that concentrates on social

consequences of technological development); social, political, economic, and environmental impacts of new technologies; options for channeling these developments; and relevant decision-making institutions and processes. Offered: W.

T C 428 Policy Dimensions of Genetic Engineering (3) *I&S Bereano* Explores technological discourse in public policy formation and decision-making regarding genetic engineering, analyzing a variety of media and formats to explore the contending ideological paradigms, imagery, and argumentation used by the major policy actors. No prerequisite, although prior work in biology, communication, or policy sciences is useful. Offered: Sp.

T C 435 Introduction to Content Management (3) Principles and practices of building, managing and using content management systems in the technical communication workplace. Examines both the intricacies of collaborative workflow technologies and the organizational contexts that surround them.

T C 436 Design and Authoring of CAI (3) *Winn* Introduction to the design of computer-assisted-instructional programs. Types of learning, characteristics of effective instruction. Students design and produce CAI programs using authoring systems for computers. Offered: jointly with EDC&I 436; A.

T C 437 Web Design and Web Publishing (5) *I&S/VLPA Farkas* Design principles and skills including navigation, functional design, visual design, and content development. Includes the ongoing process of Web publishing. Addresses societal issues pertaining to the Web and Internet. Students build a website and plan for ongoing Web publishing. Prerequisite: T C 310; T C 411. Offered: Sp.

T C 438 Web Technologies (5) Markup languages and styles, JavaScript, Flash, Photoshop, and the fundamentals of digital sound and video. Includes an introduction to server-side technologies. Students expand their existing design skills to encompass the use of these Web technologies. Prerequisite: T C 310; T C 437.

T C 440 Science and Engineering News Writing (5) *Illman* Explores the science news publishing process, from researching topics and interviewing sources to the structure of news articles and production. Writing assignments address the press release, news brief, and news articles. Offered: A.

T C 454 Alternative Technology (3) *I&S Bereano* Exploration of the evolution of technological forms that are small-scaled, decentralized, emphasizing the public policy aspects of these developments. Topics include the relationship between alternative technologies and worker-controlled enterprises, community planning, the politics of technological change, the Third World, and decentralized development. Background in engineering or technical design is not required. Offered: A.

T C 455 User Interface Design (4) *Furness* Design oriented to cover fundamentals of user interface design; models on human computer interaction, software psychology, input devices, usability, cognitive and perceptual aspects of human-computer interaction, advanced interface, and research methodologies are discussed. Offered: jointly with IND E 455; A.

T C 461 Japanese for Technical and Business Professions I (5) VLPA Kato Strengthens knowledge of grammar and vocabulary and applies this to basic technical business communication situations. Covers cultural concepts underlying these situations. Reviews authentic materials on technology-related topics. Teaches skills to analyze sentence structure for accurate interpretation. Lab work required. Placement test before admission. Offered: A.

T C 462 Japanese for Technical and Business Professions II (5) VLPA Kato Covers the functional/situational conversation skills necessary in technical and business communication situations, plus the cultural concepts underlying these situations. Reviews skills (such as prediction) for more effective reading and improves skills for analyzing complex sentence structure. Additional grammar, vocabulary, and kanji are introduced. Lab work required. Prerequisite: T C 461. Offered: W.

T C 463 Japanese for Technical and Business Professions III (5) VLPA Kato Covers the functional/situational conversation skills necessary in technical and business communication situations, plus the cultural concepts underlying these situations. Further improves skills introduced in previous courses and reviews skills for understanding inter-sentence structure. Additional grammar, vocabulary, and kanji introduced. Lab work required. Prerequisite: T C 462. Offered: Sp.

T C 493 Senior Study (5) Integration of knowledge and skills acquired during major program into one paper or project. Offered: AWSpS.

T C 495 Professional Practice (3-10, max. 10) Williams Supervised internship in a publications organization approved by the faculty adviser. A minimum of one internship is required of students majoring in technical communication. Credit/no credit only. Offered: AWSpS.

T C 496 Directed Research in Technical Communication (1-5, max. 10) Students, working in teams under the supervision of individual faculty members, review relevant literature, pose research questions, design and conduct studies, and present the results in papers prepared either for submission to a professional journal or for presentation at a professional conference. Credit/no credit only. Offered: AWSpS.

T C 497 Study Abroad: Technical Communication (3-5, max. 15) Upper-division technical communication courses, for which there are no direct University of Washington equivalents, taken through the Department of Technical Communication's Study Abroad Program. Offered: S.

T C 498 Special Topics (1-5, max. 15) Special topics in technical communication to be offered occasionally by permanent or visiting faculty members.

T C 499 Special Projects (1-5, max. 10) Individual undergraduate projects in technical communication. Offered: AWSpS.

T C 501 Theoretical Dimensions of Technical Communication (4) Coney, Sauer Theories and research drawn from a variety of fields that inform such topics as the historical and social context of technical communication, the aims of technical discourse, readability, invention and

audience, audience analysis, technical style, and graphics. Prerequisite: admission to an engineering master's program or permission of instructor. Offered: A.

T C 502 Empirical Traditions in Technical Communication (4) Williams Introduction to empirical traditions that inform research and practice in field of technical communication. Topics include epistemological assumptions underlying empirical research, empirical methods, and survey of results of empirical research on effects of text and visual media on comprehension, recall, and performance. Prerequisite: graduate standing or permission of instructor. Offered: W.

T C 505 Computer-Assisted Communication (4) Kolko Explores computer-assisted communication from three perspectives: (1) cultural roles of communication technologies; (2) relationships between communication and information including information technologies in the workplace, academe, and other settings; and (3) application to design including models for audience analysis, task analysis, and cognitive systems engineering. Prerequisite: graduate standing or permission of instructor. Offered: A.

T C 509 Writing the Scientific Article (3) Haselkorn, Illman Examination of principles and practice of writing research manuscripts, articles, abstracts, and oral presentations. Detailed examination of scientific publication process includes issues of style, organization, and ethics. Students draft, critique, and revise their own manuscripts and learn to review the manuscripts of others. Offered: Sp.

T C 510 Information Design (4) Farkas Examination of the design principles and procedures underlying the creation of both print and electronic information presentations. Topics include: print vs. electronic media, designing for the page and screen, information topologies, and hypermedia. Seminar includes a design project. Prerequisite: T C 501 or permission of instructor. Offered: Sp.

T C 511 Visual Media in Technical Communication (5) Williams Use of visuals in print and electronic media. Topics include vision, attention and perception, semiotics, depiction, information graphics, icons, typography, and principles of page and screen design.

T C 512 International Technical Communication (4) Spyridakis Examines theory, research, and practice in the internationalization and localization of paper and electronic documents. Topics include cultural models and schemata, contrastive rhetoric, controlled languages, translation, visuals, and usability testing. Prerequisite: graduate standing or permission of instructor. Offered: W.

T C 515 Ecological Information Systems (4) Introduction to cognitive work analysis framework. Prepares for active role in design and evaluation of information systems. Familiarization with basic concepts of cognitive systems engineering and practice in field study, data analysis, and transforming field findings into requirements for the design of an information system. Offered: jointly with LIS 515.

T C 516 Research Theory and Application in Technical Communication (4) Spyridakis Introduction to research methods in technical communication. Students examine the relationship between theory and research,

hypothesis testing, experimental designs, modes of observation, sampling, validity, and data analysis and interpretation. Prerequisite: introductory statistics course. Offered: Sp.

T C 517 Usability Testing (4) Ramey Discusses the human-computer interface (HCI) as the communicative aspect of a computer system. Analyzes usability issues in HCI design, explores design-phase methods of predictability, and introduces evaluative methods of usability testing. Prerequisite: substantial experience with computers and graduate standing, or permission of instructor. Offered: W.

T C 518 User-Centered Design (4) Turns Explores the user-centered design paradigm from a broad perspective, emphasizing how user research and prototype assessment can be integrated into different phases of the design process. Students learn to think like a user-centered designer and carry out activities that are key to user-centered design. Offered: jointly with IND E 545.

T C 520 Technical Communication Systems (4) Haselkorn Emphasizes the role and function of communication as a key to understanding organizational frameworks and managerial practices. Traditional and innovative approaches to viewing and managing technical communication. Roles, responsibilities, impact of technology. Offered: Sp.

T C 521 Seminar: Current Issues in Technical Communication (1-2, max. 3) Presentations on current issues in technical communication. Credit/no credit only. Prerequisite: T C graduate student status or permission of instructor. Offered: AW.

T C 523 Seminar: Issues in TC Scholarship and Professional Activity (1, max. 3) Exploration of advanced issues in technical communication scholarship and practice. Credit/no credit only. Prerequisite: TC PhD student status or permission of instructor. Offered: AWSp.

T C 525 Assessing Communications Technologies (4) Bereano Analysis of development, deployment of new communication technologies; emphasis on public policy issues they present (e.g., videotelephone, mobile telephoning, hypermedia, electronic message transfer, virtual reality). Impacts explored include access, privacy, civil liberties; power of elites; changes in social organization. Prerequisite: T C 425 or other background in policy analysis, technology, and society. Offered: Sp.

T C 535 Content Management (4) Kasonic Principles and practices of building, managing, and analyzing content management systems in the technical communication workplace. Collaborative workflow technologies and the organizational contexts that surround them.

T C 537 User-Centered Web Design (5) Farkas Theory and practice of the user-centered web development process. Principles and processes for documenting and implementing various development stages, including requirements analysis, user needs analysis, information architecture, prototyping, mockups, and production.

T C 540 SciTech Writing Practicum I (4) Illman An advanced experience in science and engineering news writing for graduate students and upper division undergraduates. Participants serve as science writing interns on the staff of

Northwest Science & Technology magazine and develop a portfolio of professional quality science/technology news articles which may be eligible for publication in the magazine. Prerequisite: T C 498 or permission of instructor. Offered: W.

T C 541 SciTech Writing Practicum II (4) *Illman* Advanced science writing, focusing on the narrative feature and other forms of creative non-fiction used to present technical content to general audiences. Participants develop a portfolio of professional quality science/technology news articles which may be eligible for publication in Northwest Science and Technology magazine. Prerequisite: T C 540 or permission of instructor. Offered: Sp.

T C 596 Directed Research in Technical Communication (1-5, max. 10) Students, working in teams under the supervision of

individual faculty members, review relevant literature, pose research questions, design and conduct studies, and present the results in papers prepared either for submission to a professional journal or for presentation at a professional conference. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

T C 597 Approaches to Teaching Technical Communication (1-2, max. 2) *Plumb* Readings in pedagogical theory of technical communication and discussion of practical applications. Credit/no credit only. Prerequisite: concurrent teaching appointment or permission of instructor. Offered: AWSpS.

T C 598 Special Topics (1-5, max. 6) Prerequisite: permission of instructor.

T C 599 Special Projects (1-5, max. 5) Written report required. Prerequisite: permission of graduate adviser or committee chair. Offered: AWSpS.

T C 600 Independent Study or Research (*) Written report required. Prerequisite: permission of committee chair. Offered: AWSpS.

T C 601 Internship (2-10, max. 10) Written report required. Prerequisite: permission of committee chair. Offered: AWSpS.

T C 700 Master's Thesis (*) Prerequisite: permission of thesis adviser. Offered: AWSpS.

T C 800 Doctoral Dissertation (1-10, max. 30) Credit/no credit only. Prerequisite: permission of thesis advisor. Offered: AWSpS.

College of Forest Resources

College of Forest Resources

CFR 500 Graduate Orientation Seminar (1) Introduction to graduate study. Presentations on College resources and services and current research in the College division. Offered: A.

CFR 501 Forest Ecosystems-Community Ecology (5) *Brubaker* Community ecology of forest ecosystems. Quantitative methods of community description. Role of limiting factors, competition and disturbance in determining community composition, structure and stability. Introduction to forest ecosystem productivity. History and application of successional theory. Prerequisite: basic ecology course or permission of instructor. Offered: A.

CFR 502 Data Collection, Analysis, and Presentation (3) *Ewing* Design of scientific experiments, collection of data, and use of computers to store, analyze and present data. Limited by equipment availability to 8 students; Urban Horticulture students have priority. Offered: Sp.

CFR 503 Current Issues in Urban Horticulture (1, max. 10) Critical evaluation and discussion of published research in urban horticulture and restoration. Students and faculty present and discuss research methods and questions from current literature. Offered: AWSp.

CFR 504 Research Processes in Forest Resources (4) *Lee* Comprehensive survey of research processes for entering graduate students. Diagnostic and prescriptive evaluation of student research capabilities. Problem and hypothesis formulation, study design, multi-method strategies for gathering and analyzing data, and interpretation and presentation of results. Prerequisite: graduate standing. Offered: A.

CFR 505 Introduction to Pulp and Paper Technology (3) *Hodgson, McKean, Gustafson* Introduction to pulp and paper technology for PSE graduate students who do not have a prior background in pulp and paper. Broad overview of pulp and paper technology and the pulp and paper industry. Offered: concurrently with PSE 201; A.

CFR 507 Soils and Land Use Problems (4) *Harrison* Environmental concerns of soils; how soil properties control potential and reasonable

possibilities of land use. Includes factors controlling soil stability, hydrology, fertility, and movement of pollutants. Field trip oriented with weekly activity summaries. Students also conduct field trips to soil-use problem sites.

CFR 509 Natural Resource Issues: Unspoken Basics (3) Natural resource issues emerge from interactions between humans and their biophysical world. Understanding resource problems and solutions requires integration of numerous areas of knowledge and methods of discovery. Objectives include exposure to, and development of, fundamental issues and skills essential for natural resource professionals. Offered: A.

CFR 511 Advanced Forest Soil Microbiology (5) *Edmonds* Detailed examination of microbial processes in forest ecosystems; types of organisms, biomass, decomposition and nutrient cycling, microbial transformations of N, impacts of management-clear-cutting, fertilization, pesticide addition. Graduate project required. Prerequisite: general biology, basic soils or permission of instructor. Offered: even years; A.

CFR 512 Biogeochemical Cycling in Soils and Forest Ecosystems (3) *Zabowski* Elemental cycles in forests and soils. Fundamentals of processes involved in cycling are addressed along with alterations resulting from environment, vegetation, and soil types. Consideration of cycles of nutrients, metals, and other elements. Weekly discussion section reviews literature on biogeochemical cycling. Prerequisite: one soils course or permission of instructor. Offered: even years; W.

CFR 513 Advanced Soil Genesis and Classification (5) *Zabowski* Soil formation, morphology, classification, and relationship to the environment. Labs and field trips illustrate properties and processes of forest and grassland soils in Washington. Requires two weekend field trips and a graduate project. Prerequisite: ESC 210 or permission of instructor. Offered: even years; Sp.

CFR 514 Advanced Forest Soil Fertility and Chemistry (4) *Harrison* Chemical properties of soil, nutrient and toxic elements; supply, retention, and loss of nutrients in soils; utilization of geochemical and ecosystem models such as GEOCHEM, MAGIC, TRICLE-DOWN, and ILWAS in developing a quantitative understand-

ing of the chemical function of forest ecosystems. Prerequisite: general chemistry and geology of soils. Offered: even years; Sp.

CFR 515 Advanced Soil and Plant Analysis (3) *Harrison* Plants and animals must acquire nutrient elements from their environment. Quantifying the composition of samples is the first step in understanding the processes in natural and manmade systems. Sampling, handling, preparation, storage, and analysis stressed. Prerequisite: one botany or plant science course, instrumental analysis, soils. Offered: even years; Sp.

CFR 519 Conducting and Publishing an Industry Performance Review (3, max. 12) *Paun* Focuses on the concepts of accounting, finance, and financial statement analysis; techniques for analyzing firm performance; and conducting competitor analyses. Conduct in-depth, comparative performance analyses of U.S. and Canadian paper firms and publish the findings as a peer-reviewed manuscript in a journal. Offered: WSp.

CFR 520 Geographic Information Systems in Forest Resources (5) Applications of GIS technology to forest science and management. Fundamental of GIS systems: data sources, preprocessing, map analysis, output; remote sensing as a source of GIS data, image analysis, and classification. Emphasis on GIS as a source of management and technical information requests. Offered: AW.

CFR 521 Current Topics in Forest Resources (2-5, max. 10) Critical evaluation and discussion of published research in the broad field of forest resources. Topics and requirements vary. Offered: AWSp.

CFR 525 Advanced Wildland Hydrology (4) *Bolton* Advanced treatment of hydrologic cycle and basic hydrologic methods as applied to wildlands. Effects of forest management activities on hydrologic processes. Graduate focus on a detailed field or modeling hydrologic analysis. Offered: W.

CFR 526 Seminar in Advanced Silviculture (3) *Ford* Seminar on current and emerging silvicultural issues and underlying biological principles. Topics include: stand management to enhance wildlife, biodiversity and high productivity in sub-tropical and tropical regions; computer

simulation of stand growth; adaptation to changes in management objectives; soil conditions and productivity during stand rotation; and minimizing effects of catastrophic disruption. Prerequisite: ESRM 428.

CFR 527 Ecosystems Seminar (1) *Sprugel* Discussion by invited speakers on current research related to ecosystems. Credit/no credit only. Offered: A.

CFR 528 International Forestry (3) *Gara, Greulich* Discussion on biological, social, and economic basis linked with forest practices in the world. Focuses on examples of how forests and renewable resources are both exploited and managed, with thoughts on how these resources can be sustainability managed. Emphasizes group presentations and seminar style discussion. Offered: even years; W.

CFR 529 Topics in Streamside Studies (1) Discussion by invited speakers on current research related to streamside studies. Credit/no credit only. Offered: jointly with FISH 529; AWSp.

CFR 535 Fire Ecology (3) *Agee* Fire regime concept as applied to fire ecology. Methodology for fire history research. History and function of forest fire in western United States with emphasis on Pacific Northwest. One weekend field trip. Prerequisite: permission of instructor. Offered: A.

CFR 545 Principles of Forest Entomology (3) *Gara* Historical perspective of the discipline, introduction to general entomology and taxonomy, forest insect ecology, integrated pest management concepts for defoliators, bark beetles, wood borers, and urban forestry pests. Prerequisite: general biology, botany, zoology or permission of instructor.

CFR 547 Stream and River Ecology (5) *Naiman* Characterizations of stream and river ecosystems from a watershed perspective. Emphasis on fundamental processes affecting the structure and dynamics of aquatic communities and the riparian zone. Resource conflicts, new technologies, field trips, and class projects. Recommended: general ecology, forestry-fisheries interactions. Offered: jointly with FISH 547; Sp.

CFR 549 Urban Horticulture Seminar (1, max. 6) Discussion by invited speakers on current topics in urban horticulture. Credit/no credit only. Offered: A.

CFR 550 Graduate Seminar (2-5, max. 10) *Eastin, Paun* Graduate seminar to evaluate and discuss current research topics in forest resources. Topics and requirements vary. Offered: AWSp.

CFR 554 Wildlife Seminar (1-2, max. 10) *Manuwal, West* Discussion of current research and application in wildlife biology and conservation. Prerequisite: permission of instructor. Offered: AWSp.

CFR 561 Public Presentation in Urban Horticulture (2) *Wott* Students learn to make public presentations in scientific, professional, and popular contexts and to interpret technical information for professional and lay audiences. Support materials, such as audiovisuals and graphics are discussed. Offered: W.

CFR 564 Advanced Forest Biometry (3/5) *Turnblom* Classical problems in analysis of forest populations and growth theory, and principles of

parametric analysis and estimation processes in forest biometry. Offered: odd years; A.

CFR 570 Seminar on Environmental Sociology (3) *Lee* Perspectives on environmental sociology, with emphasis on the social construction of environmental problems. European and American schools of thought and their implications for environmental policy. Examination of global and regional issues in the context of risk society. Offered: jointly with SOC 570; A.

CFR 571 Resource Policy and Administration (5) Study based on understanding of the actors, arenas, issues, and policy communities that form the context for policy development and implementation. Exploration of approaches to policy inquiry. Consideration of implications for both policy and management. Students develop a study design for course project. Offered: jointly with PB AF 592.

CFR 573 Forest Environmental Resource Planning (3) *Bradley* Origins and evolution of environmental planning in the forest environment. Discussion of the planning process and methodologies for environmental management and planning; selected case studies of environmental resource plans. Prerequisite: graduate standing. Offered: even years; A.

CFR 574 Problem Analysis in Urban Ecology (5) *Alberti, Bradley, Hill, Marzluff, Ryan, ZumBrunnen* Investigates pressing local issues in urban ecology and develops each into a researchable project proposal. Examines and evaluates how different disciplines study environmental issues, explores criteria for conducting and evaluating quality research, develops skills in problem formulation, and sharpens proposal writing skills. Offered: A.

CFR 575 Applied Theory and Methods in Urban Ecology (5) *Alberti, Bradley, Hill, Marzluff, Ryan, ZumBrunnen* Discusses broad perspectives in urban ecology and how to analyze data relevant to urban ecology problems. Students write objectives and methods for selected urban ecology problem that critiques different methodological approaches and reviews/synthesizes literature. Prerequisite: CFR 574 or permission of instructor. Offered: W.

CFR 576 Research in Urban Ecology (5) *Alberti, Bradley, Hill, Marzluff, Ryan, ZumBrunnen* Teams analyze, present, and begin to interpret data that is relevant to addressing issues in urban ecology. Write and orally present revised Objectives and Methods sections of interdisciplinary project and present a draft Results section. Prerequisite: CFR 574, CFR 575. Offered: Sp.

CFR 577 Global Forest Resource and Environmental Markets (3) *Perez-Garcia* Economic analysis of global forest resource markets. Models of timber supply and international trade. Linkages to environmental resources including carbon, biodiversity, and climate change. Offered: Sp.

CFR 578 Paper Science and Engineering Seminar (1, max. 6) Discussion of current topics in the science and technology of pulp and paper production, including wood and polymer chemistry. Offered: ASp.

CFR 580 Advanced Urban Ecology (5) *Alberti, Bradley, Hill, Marzluff, Paun, ZumBrunnen* Discussion of current and important theoretical

and empirical papers in urban ecology. Students continue to research interdisciplinary urban ecology projects while developing publishable manuscripts and oral presentations. Offered: jointly with GEOG 588, URBPD 548. Offered: AWSp.

CFR 590 Graduate Studies (1-5, max. 5) Study in fields for which there is not sufficient demand to warrant the organization of regular courses. Offered: AWSpS.

CFR 591 Seminar in Resource Policy and Management (1) *Ryan* Introduction and orientation for concurrent degree program between the Evans School of Public Affairs and the College of Forest Resources. Examines research and literature on contemporary issues related to the integration of natural resource science, policy, and management, through discussion among faculty, students, and invited speakers. Offered: jointly with PB AF 591; A.

CFR 592 Environmental Policy Processes (3) *Cullen* Presents background to establish the need for environmental policy. Explores in a comparative manner, examining both successes and failures, various strategies that have been used or proposed to protect the environment. Offered: jointly with PB AF 590.

CFR 595 Graduate Teaching Practicum (1-5, max. 5) Principles of teaching and learning applied to undergraduate instruction in Ecosystem Science and Conservation. Development, delivery, and evaluation of lectures and homework assignments. Graduate teaching experience for ESC students only. Credit/no credit only. Offered: AWSp.

CFR 600 Independent Study or Research (*) Offered: AWSpS.

CFR 601 Graduate Internship in Forest Resources (3-9, max. 9) Graduate internship under the supervision of a college faculty member. Credit/no credit only. Offered: AWSpS.

CFR 700 Master's Thesis (*) Offered: AWSpS.

CFR 800 Doctoral Dissertation (*) Offered: AWSpS.

Environmental Sciences and Resource Management

ESRM 100 Introduction to Environmental Science (5) *I&S/NW Harrison* Covers the importance of the environment in society with particular emphasis on worldwide distribution and uses of resources, the role of natural and man-made environments, and causes of environmental degradation. Introduces ethics of conservation and recycling. Prerequisite: Cannot be taken for credit if ESC 110 already taken. Offered: jointly with ENVIR 110; AWSpS.

ESRM 101 Forests and Society (5) *I&S/NW Gara, Vogt* Survey course covering forest ecosystems of the world, history of forestry and forest conservation, how forest ecosystems function, wildlife in forests, environmental issues in forestry, forest management, economics and products, and new approaches to forest management. Open to majors and nonmajors. Offered: AWSpS.

ESRM 150 Wildlife in the Modern World (5) *I&S/NW Manuwal* Covers major wildlife conservation issues in North America. Some

global issues are also treated. Examples of topics include the conservation of large predators, effects of toxic chemicals on wildlife, old-growth wildlife, conservation of marine wildlife, recovery of the bald eagle, and gray wolf. Offered: A.

ESRM 210 Introductory Soils (4) NW *Zabowski* Physical, chemical, and biological properties that affect distribution and use patterns of this important ecosystem component. Includes soil morphology and genesis, plant nutrition and nutrient cycling, soil water, microbiology, and application of soil properties to environmental concerns. One Saturday field trip. Offered: A.

ESRM 250 Introduction to Geographic Information Systems in Forest Resources (5) NW, QSR Applications of GIS technology to forest science and management. Fundamentals of GIS systems: data sources, preprocessing, map analysis, output; remote sensing as a source of GIS data, image analysis, and classification. Emphasis on GIS as a source of management and technical information requests. Offered: AW.

ESRM 255 Wildlife and Society (5) I&S/NW *Manuwal* Covers ecological processes, wildlife habitats, conservation theory, and historical as well as contemporary issues in wildlife conservation. Offered: W.

ESRM 301 Maintaining Nature in an Urban and Urbanizing World (5) I&S/NW The conservation, restoration, and management of nature in highly human impacted environments present unique challenges. Teams of students work on real Pacific Northwest problems, with stakeholders and experts to understand patterns, processes, and drivers of these systems. Prerequisite: either BIOL 162 or BIOL 200. Offered: W.

ESRM 302 Sustainability in Production Lands (5) I&S/NW Covers the role of farming, forestry, grazing, dams, water extraction, fishing, and their ecological and environmental impacts, and the remediation and restoration of their impacts. Utilizes field trips, studios, and problem-solving exercises to understand, integrate, and generalize processes and issues across diverse production systems. Prerequisite: either BIOL 162 or BIOL 200. Offered: Sp.

ESRM 303 Preserving and Conserving Wildlands (5) I&S/NW The stewardship of pristine terrestrial environments is of great importance and contention. Teams of students work with stakeholders and experts on real Pacific Northwest issues (e.g., pollution, invasive organisms, mining, burning, grazing, logging, hunting, skiing) to understand patterns, structure, processes, and drivers of these environments. Prerequisite: either BIOL 162 or BIOL 200. Offered: A.

ESRM 304 Environmental and Resource Assessment (5) I&S/NW, QSR The processes of measuring, monitoring, and assessment; illustrated in diverse environmental and resource case studies. Explores the scientific method, hypothesis testing, sampling, and experimental designs, the role of questionnaires and polling techniques, remote sensing techniques, and population measurements. Prerequisite: either Q SCI 381 or STAT 311, either of which may be taken concurrently. Offered: A.

ESRM 310 Trees in Our Environment (5) NW *Brubaker* Explores tree form and function from

perspectives of dendrology, ecology, and adaptation in wildland and urban environments. Lectures, projects, and field investigations introduce 50-60 trees of the Pacific Northwest. Acquire skills to increase knowledge of trees. Prerequisite: either BIOL 162 or BIOL 220. Offered: Sp.

ESRM 311 Soils and Land Use (3) NW *Harrison* Intended for students concerned with environmental problems in the Puget Sound basin; also for those who intend to become professionally involved in land-planning decisions. Focus is on the significance of soils in understanding environmental problems and in promoting intelligent land-use decisions. Basic concepts of soil systems are presented, stressing those aspects important in making land-planning decisions. Offered: W.

ESRM 315 Natural Resource Issues: Old-Growth and Forest Management (5) I&S/NW *Franklin* Biological and social elements of current conflicts, especially those associated with old-growth and its disposition. Ecology of Pacific Northwest forests and landscapes, history of forest practices, application of emerging science, proposed alternative practices and policies, including analysis of current proposal and its predecessors and successors. Open to majors and nonmajors. Offered: Sp.

ESRM 320 Marketing and Human Resource Management from an Environmental Perspective (5) I&S/NW *Paun* Introduction to business concepts relating to marketing, human resource management, small businesses and entrepreneurship, and economics in the context of environmental resource management. Offered: A, S.

ESRM 321 Finance and Accounting from An Environmental Perspective (5) I&S/NW *Paun* Introduction to business concepts relating to finance, accounting, and international business in the context of environmental resource management. Offered: WS.

ESRM 323 Silviculture (5) NW Silviculture techniques, including nursery practices, clear-cutting, seed trees, shelterwood, selection cutting, site preparation, regeneration methods, thinning, fertilization, chemicals, and regional silviculture in the Northeast, Southeast, Midwest, Rocky Mountains, California, Pacific Northwest, and Alaska. Multiple-use field trips. Offered: Sp.

ESRM 326 Wildlife Habitat and Silviculture (3) NW *Agee* Principles of wildlife habitat in forest and range ecosystems. Silvicultural principles applicable to wildlife conservation and management. Prerequisite: either ESRM 302 or ESRM 303. Offered: Sp.

ESRM 328 Forestry-Fisheries Interactions (4) NW Characteristics of forestry-fisheries interactions in terrestrial and aquatic landscapes. Effects of changes in landforms on forest and aquatic communities. River basin and watershed features. Forest stand dynamics, forest hydrology, fish and wildlife histories and behavior. Resource conflicts and resolution. Offered: jointly with FISH 328; W.

ESRM 331 Landscape Plant Recognition (3) NW *Reichard* Field recognition of important groups of woody landscape plants, emphasizing diversity at the genus and family levels. Cultivated plant nomenclature. Plant descriptive characters evident in the field with eye and hand lens. Hardiness and landscape applications.

Recommended: either BIOL 117 or BOTANY 113. Offered: jointly with BIOL 331; SpS.

ESRM 350 Wildlife Biology and Conservation (5) NW Wildlife ecology and population biology, and interrelationships between wild animals and humans, including encouragement of wildlife population growth and productivity, control of pest populations, and preservation of endangered species with emphasis on forest environments and forest faunas. Open to nonmajors. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, BIOL 202, BIOL 203, or BIOL 220, any of which may be taken concurrently. Offered: W.

ESRM 351 Wildlife Research Techniques (8) NW *Agee, Manuwal, West* Scientific approaches to the field study of wildlife populations and habitat, including basic considerations in experimental design and development of scientific papers. Emphasis is on direct experience with current field techniques used in the study of vertebrate populations and habitat. Prerequisite: either ESRM 303, ESRM 350, or ESRM 450. Offered: Sp.

ESRM 362 Introduction to Restoration Ecology (5) I&S/NW *Ewing* An introduction to ecological restoration of damaged ecosystems. Examines the philosophical base of restoration as well as the social, biological and political forces that impact the success of any restoration project. Includes lectures, readings, case studies and field trips. Offered: jointly with ENVIR 362; A.

ESRM 368 Natural Resource Measurements (4) NW *Tumblom* Introduction to principles of measurement, basic field measurement skills, measurement of vegetation, including stand examination, timber cruising, size, weight, volume and biomass of trees, and stream flow. Laboratories include field exercises on sampling techniques for trees and lesser vegetation and linear regression modeling to predict quantities from basic measurements. Prerequisite: either IND E 315 or Q SCI 381; recommended ESRM 304. Offered: W.

ESRM 371 Environmental Sociology (5) I&S/NW *Lee* Social processes by which environmental conditions are transformed into environmental problems; scientific claims, popularization of science, issue-framing, problem-amplification, economic opportunism, and institutional sponsorship. Examination of social constructs such as ecosystem, community, and free-market economy. Use of human ecology to assess whether the current framing of environmental problems promotes ecological adaptability. Offered: jointly with SOC 379/ENVIR 379; WS.

ESRM 381 Management of Wildland Recreation and Amenities (3) NW *Lee* Introduction and overview of wildland recreation and amenities management. Agency history and objectives explored along with integration of recreation with other land uses. Water, forestry, wildlife, and wilderness resources for recreational uses discussed along with role of private enterprise in recreation and amenities. Topics of current and local interest. Offered: W.

ESRM 399 Undergraduate Internship (1-5, max. 15) Internship experience with a public agency or private company, supervised and approved by a faculty member. Preparation of professional report reflecting on the experience is required. Credit/no credit only. Offered: AWSpS.

ESRM 400 Natural Resource Conflict Management (3) I&S/NW *Ryan* Introduction to

the causes, dynamics, and consequences of natural resource conflicts as well as the range of procedural interventions used to manage conflict. Specific cases of environmental conflict and alternative dispute resolution procedures are examined. Emphasis on developing skills to effectively analyze, manage, and resolve natural resource conflicts. Offered: W.

ESRM 401 Spring Comes to the Cascades (3) NW Examines the interaction between forests, environment and growth at three locations in the Cascades, from lowlands to alpine. Field trips and associate observations are linked to classroom or group project activities and are used to understand a number of ecological, physiological and meteorological concepts.

ESRM 402 Curation and Education in Public Gardens (3) I&S/NW *Wott* Techniques of curatorial practice relevant to living collections of plants, including documentation, policies, conservation, and display. Aspects of establishing and implementation of a public horticulture program including assessment, program tools and methods, and funding in a public environment. Offered: even years; A.

ESRM 403 Forest and Economic Development in the Developing World (4) NW Examines the relationship between forests and economic development in tropical countries. Topics include the role of population growth, poverty, land tenure, and international trade on forest use as well as theories of economic development. Case examples of forest-based economic development in different countries and regions. Offered: Sp.

ESRM 404 Forest Science Inquiry for Teachers (5) Lee Inquiry-based scientific methods for K-12 instruction; asking how and why questions; stating answerable questions; forming hypothesis to answer questions; testing hypothesis by making observations, making measurements, and conducting experiments; displaying results. Writing curriculum plans to implement district and state requirements. Offered: S.

ESRM 410 Forest Soils and Site Productivity (5) NW *Harrison* Considers unique properties and processes occurring in forest soils throughout the world with emphasis on soils of Pacific Northwest and aspects of forest soils that affect productivity. Two all-day Saturday field trips and one Saturday-Sunday field trip required. Recommended: ESRM 210. Offered: odd years; A.

ESRM 411 Plant Propagation: Principles, and Practice (3) NW *Wott* Science and practice of plant propagation including sexual (seed) and asexual (cutting, layering, grafting) propagation. Includes discussion of physiological effects, methodology and laboratory exercises. Wide variety of plants covered. Intended for majors in urban horticulture and urban forestry and others interested in reproducing landscape plants. Recommended: 10 credits of introductory biology or botany, or equivalent. Offered: Sp.

ESRM 412 Native Plant Production (3) NW *Reichard, Wott* Advanced plant propagation techniques, emphasizing native plants, propagation for restoration projects, and unique problems associated with providing appropriate plant material for restoration or conservation purposes. Emphasizes greenhouse and fieldwork, and includes lectures, field trips, and a class project. Recommended: ESRM 411, which may be taken concurrently.

ESRM 413 Soil Genesis and Classification (5) NW *Zabowski* Soil formation, morphology, classification, and relationship to the environment. Labs and weekend field trips illustrate properties and processes of forest and grassland soils in Washington. Recommended: ESRM 210. Offered: even years; Sp.

ESRM 414 Forest Soil Fertility and Chemistry (3) NW *Harrison* Tree growth depends, in part, on the interaction between chemical and biological activities within a given soil: the biological and chemical parameters that influence the growth; soil solution chemistry and surface reactions; reactions and processes that control essential plant nutrient levels and forms in soil solutions. Recommended: ESRM 210. Offered: even years; Sp.

ESRM 415 Biology, Ecology, and Management of Plant Invasions (5) NW *Reichard* Explores how biological invasions are one of the most serious threats to the preservation of biodiversity worldwide. Explores the vectors which move plants and their pests, the biology and impacts of the invasive species, and management and policy approaches. Prerequisite: one of the following: BIOL 162, BIOL 220, BIOL 333, BIOL 471, BIOL 472, ESRM 401, ESRM 472, or ESRM 473. Offered: A, odd years.

ESRM 416 Field Survey of Wildland Soils (3) NW *Harrison, Zabowski* Study of soils in remote sites about which little information is available. Focus is field trip in Cascade Mountains just north of Glacier Peak with prior study of hiking area, soil and ecosystem changes, and wilderness use. Offered: S.

ESRM 420 Wildland Fire Management (5) NW *Agee* Principles of wildland fire behavior, ecology, and management. Weather, fuels, and topography effects on fire behavior. Forest structure influence on historical and current fire ecology. Principles of firesafe forests. Management issues of fire control and use in wilderness, multiple-use forest, and the wildland-urban interface. Offered: A.

ESRM 422 Marketing of Forest Products (3) I&S/NW *Eastin* Introduction to forest products marketing in North America. Examines products marketing, industry structure, and strategic management issues utilizing marketing concepts. Topics include product management, distribution channels, strategic industry analysis, and marketing research techniques. Case studies used to understand forest products industry decision making. Offered: W.

ESRM 423 International Marketing of Forest Products (3) I&S/NW *Roos* Introduction to international marketing concepts and their application to forest products. Analysis of forest products trade patterns, resource base changes, policy, industrial policies, and environmental concerns. Discussion of market distorting practices including log export bans and tariff and non-tariff barriers. Offered: Sp.

ESRM 425 Ecosystem Management (5) NW *Franklin* Scientific and social basis for ecological forestry. Forest practices to achieve integrated environmental and economic goals based upon material models of disturbance and stand development including alternative harvesting methods; adaptive management and monitoring; certification and global issues. Offered: A.

ESRM 426 Wildland Hydrology (4) NW *Bolton* Introduction to the hydrologic cycle and basic

hydrologic methods as applied to wildlands. Effects of forest management activities on hydrologic processes. Offered: W.

ESRM 428 Principles of Silviculture and Their Application (5) NW *Ford* Focuses on the biology of major tree species in the PNW and their use in silviculture, stand development in plantation forest systems and its relationship to forest yield, the advantages and limitations of plantation silviculture relating to specific biotic, abiotic and economic conditions and management for objectives other than time yield. Prerequisite: ESRM 323.

ESRM 429 Seminar in Streamside Studies (1, max. 6) NW *Steinemann* Discussion by invited speakers on current research and issues related to streamside studies. Speakers are a mix of on-campus and off-campus experts. Credit/no credit only. Offered: jointly with FISH 429; AWSp.

ESRM 430 Aerial Photos/Remote Sensing Natural Resources (3) NW *Schreuder* Principles of photogrammetry, interpretation, and remote sensing; and their application to management of natural resources and wildlands. Uses for watersheds, forest resources, wildlife, point and nonpoint pollution, land-use planning, and outdoor recreation. Offered: Sp.

ESRM 435 Forest Entomology (3) NW *Gara* Introduction to general entomology, characteristics, life histories, ecological relations, prevention, and control of forest insects. Offered: A.

ESRM 436 Laboratory in Forest Entomology (2) NW *Gara* Introduction to the insect orders; identification of forest insects and their damage. One field trip to study insect problems required. Offered: A.

ESRM 441 Landscape Ecology (5) NW *Franklin* Basic landscape ecology concepts, including patches, corridors, networks, spatial dynamics; island biogeographic principles; landscape analysis methods; landscape models. Applications of landscape ecology in resources management (e.g., cumulative effects, cutting, patterns, anadromous fisheries, management of wildlife populations, and open-space planning). Recommended: ESRM 326. Offered: W.

ESRM 444 Forest Ecosystems Protection: Insects and Diseases (5) Edmonds, Gara Examines the effects of insects and diseases on wildland and managed forest ecosystems: defoliators, bark beetles, wood boring insects, abiotic and biotic diseases, insects and diseases in intensively managed forests, principles of insect and disease management. Prerequisite: either ESRM 301, 302 or 303 (can be taken concurrently). Offered: odd years: Sp.

ESRM 450 Wildlife Ecology and Conservation (5) NW *Marzluff* Covers advanced principles of wildlife ecology such as habitat selection, population viability, and landscape ecology, and illustrates how they apply to wildlife conservation problems with terrestrial, aquatic, and marine wildlife. Students must share costs of field trips. Prerequisite: either ESC 350 or ESRM 350; either CFR 250 or ESRM 250; recommended: introductory statistics. Offered: W.

ESRM 451 Urban Plant Protection (5) NW *Gara* Working knowledge on insects and diseases of plants growing in the urban environment. Emphasis placed on pest and damage recognition, control methods, and integrated pest management systems. Offered: even years; Sp.

ESRM 452 Field Ornithology (3) NW *Manuwal* Students learn field identification skills and are introduced to field methodologies through required indoor labs, field trips, and field exercises. Exercises include study of survey techniques, feeding ecology, and behavior. Students are required to share field trip costs. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, BIOL 202, BIOL 203, or BIOL 220, any of which may be taken concurrently. Offered: odd years; A.

ESRM 453 Biology and Conservation of Mammals (3) NW *West* Introduction to mammals of the world: mammalian evolution, taxonomy, morphology, reproduction, population biology, ecology, and conservation. Prerequisite: ESC 350; recommended: concurrent registration in ESC 454. Offered: irregularly.

ESRM 454 Biology and Conservation of Mammals Laboratory (3) NW *West* Identification and natural history of mammals of the Pacific Northwest. Laboratory work on morphology, taxonomy, and natural history; fieldwork on natural history and sampling methods. Two weekend field trips required; students share travel costs. Prerequisite: ESC 350; recommended: concurrent registration in ESC 453. Offered: irregularly.

ESRM 455 Wildlife Seminar (1, max. 4) NW *Manuwal, West* Discussion of current research and application in wildlife biology and conservation. Credit/no credit only. Offered: A/WSp.

ESRM 456 Biology and Conservation of Birds (3) NW *Manuwal* Major principles of natural history, avian reproductive biology, population ecology, and national and international conservation strategies for both hunted and unhunted birds. Emphasis on western United States. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, BIOL 202, BIOL 203, or BIOL 220, any of which may be taken concurrently. Offered: odd years; A.

ESRM 457 Fish and Wildlife Toxicology (3/5) NW Overview of fish/wildlife toxicology: history of the field; regulations; methods used to assess risks contaminants pose to fish/wildlife; classes of contaminants and their direct, sublethal and indirect effects; and contemporary threats of contaminants to fish/wildlife, their habitats and prey. Includes laboratory. Offered: jointly with FISH 455; W.

ESRM 458 Management of Endangered, Threatened, and Sensitive Species (5) NW *Marzluff* Biological underpinnings and political realities of endangered species management, including: legal issues, recovery teams, citizen rights, extinction, rarity, proactive management, captive propagation, reintroduction, species endangered in the Pacific Northwest. Students revise endangered species recovery plans. Offered: A.

ESRM 459 Wildlife Conservation in Northwest Ecosystems (3) NW *Agee, Manuwal, West* Extended field course offers Wildlife Science students personal interactions with wildlife managers and wildlife populations in strategic public and private lands in the northwestern United States and southern Canada. Students will share costs of trip. Offered when there is sufficient student demand. Prerequisite: ESRM 350; may not be repeated. Offered: Sp.

ESRM 460 Institutionalizing Sustainable Ecological Practices. (5) I&S/NW *Lee* Introduction to how sustainability and conserva-

tion are possible. Case studies of successful institutionalization of sustainable ecological functions, including curbside and biosolids recycling, ecological restoration, bioremediation, sustainable wood production, and product certification. Emphasis on individual student projects. Offered: jointly with ENVIR 460; Sp.

ESRM 461 Forest Management and Economics II (4) I&S/NW *Greulich* Basic concepts of timber harvest scheduling, sustained-yield models, contemporary analytical techniques, timber supply, and forest product markets. Offered: W.

ESRM 462 Restoration Ecology Capstone: Introduction (2) NW First of a three-course capstone sequence in restoration ecology. Students review and assess project plans and installations. Class meets with members of previous capstone classes to review their projects. Offered: jointly with ENVIR/TESC/BES 462. Offered: A.

ESRM 463 Restoration Ecology Capstone: Proposal and Plan (3) NW Student teams prepare proposals in response to requests for proposals (RFPs) from actual clients. Clients may be governments, non-profit organizations, and others. Upon acceptance of the proposal, teams prepare restoration plans. Prerequisite: ESRM 462. Offered: jointly with ENVIR/TESC/BES 463. Offered: W.

ESRM 464 Restoration Ecology Capstone: Field Site Restoration (5) NW Teams take a restoration plan developed in ESRM 463 and complete the installation. Team participation may include supervision of volunteers. Teams prepare management guidelines for the client and conduct a training class for their use. Prerequisite: ESRM 463. Offered: jointly with ENVIR/TESC/BES 464. Offered: Sp.

ESRM 465 Economics of Conservation (3) I&S/NW *Perez-Garcia* Economic principles and their use in the analysis of contemporary conservation problems. Particular emphasis directed toward the conservation of forest resources in the Pacific Northwest and related policy issues. Offered: Sp.

ESRM 470 Natural Resource Policy and Planning (5) I&S/NW *Bradley, Ryan* Introduction to and analysis of environmental policy-making processes, with a focus on forest and land policy and law. Use of policy models to examine the interaction of agencies, interest groups, Congress, and the courts in the legislative process. Policy implementation, evaluation, and change are also addressed. Offered: A.

ESRM 471 Urban Forest Landscapes (5) NW *Bradley* Comprehensive view of urban forest and urban forest landscapes. Includes close examination of factors that differentiate urban forest landscapes along the urban to wildland gradient. Compare legal, social, political, administrative, physical, and biological variations. Offered: Sp.

ESRM 472 Wetland Ecology and Management (5) NW *Ewing* Wetland types and functions, global and North American distribution, wetland plant types, soil chemistry. The influence of stresses on wetland composition and form. Autecology of wetland plants; response to and detection of stresses. Impacts of urbanization; management techniques. Recommended: either BIOL 471, BIOL 472, BOTANY 354, or BOTANY 371. Offered: A.

ESRM 473 Principles of Ecological Restoration (5) NW *Ewing* Philosophy of restoration, structural components of ecosystem degradation, analysis of restoration projects and methods, and an ecosystem by ecosystem review of how systems are restored. An ecology courses that emphasizes applied scientific knowledge of ecosystems. Recommended: plant ecology, plant identification, horticulture, landscape ecology coursework. Offered: W.

ESRM 474 Problem Analysis in Urban Ecology (5) I&S/NW *Alberti, Bradley, Hill, Marzluff, Paun, Ryan, ZumBrunnen* Investigates pressing local issues in urban ecology and develops each into a researchable project proposal. Examines and evaluates how different disciplines study environmental issues, explores criteria for conducting and evaluating quality research, develops skills in problem formulation, and sharpens proposal writing skills. Offered: jointly with ENVIR 486/GEOG 486/URBDP 443; A.

ESRM 475 Applied Theory and Methods in Urban Ecology (5) I&S/NW *Alberti, Bradley, Hill, Marzluff, Paun, Ryan, ZumBrunnen* Discusses broad perspectives in urban ecology and how to analyze data relevant to urban ecology problems. Students write objectives and methods for a selected urban ecology problem that critiques different methodological approaches and reviews/synthesizes literature. Prerequisite: CFR 474/ENVIR 496/GEOG 486. Offered: jointly with ENVIR 487/GEOG 487. Offered: W.

ESRM 476 Research in Urban Ecology (5) I&S/NW *Alberti, Bradley, Hill, Marzluff, Paun, Ryan, ZumBrunnen* Teams analyze, present, and begin to interpret data that is relevant to addressing issues in urban ecology. Write and orally present revised objectives and methods sections of interdisciplinary project and present results section. Prerequisite: CFR 475/GEOG 487/ENVIR 487. Offered: jointly with GEOG 488/ENVIR 488; Sp.

ESRM 477 Wetland Restoration (5) NW *Ewing* A Web-delivered, self-paced course covering wetland science, restoration ecology, freshwater restoration, coastal restoration, monitoring/maintenance, and case histories. Completion of extensive readings, assignment and test required for each module. Prerequisite: either BIOL 102, BIOL 180, or BIOL 203; recommended: either ESRM 473, ESRM 472, BOTANY 354, BOTANY 456, BIOL 471, or BIOL 472. Offered: irregularly.

ESRM 480 Selection and Management of Landscape Plant (5) NW Principles of plant selection and management in urban and modified environments. Site analysis and preparation; physiological basis for plant selection; techniques for successful plant installation and aftercare; plant performance evaluation; long-term management and plant health care. Group and individual projects. Prerequisite: either ESRM 210 or ESRM 311; recommended: either BIOL 116 or BIOL 117. Offered: A.

ESRM 481 Field Practicum in Plant Selection and Management (2) NW Practical application of plant selection and management in urban and modified environments. Site analysis and preparation; evaluation of nurseries; techniques for successful plant installation and aftercare; plant performance evaluation; plant health care assessment. Group project. Prerequisite: ESRM 480, which may be taken concurrently. Offered: A.

ESRM 489 Foreign Study (1-5, max. 15) Individual foreign study of topics for which there

is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

ESRM 490 Special Topics (1-5, max. 15)

Individual tutorial study of topics for which there is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

ESRM 494 Senior Thesis Proposal (5)

Selection of a thesis topic, literature review, and preparation of a formal senior thesis proposal. Students select a faculty advisor to assist them in the proposal writing process. Regular or Honors credit. Offered: AWSpS.

ESRM 495 Senior Project (5) Individual study of an environmental science and resource management problem under direction of a faculty member. Requires a written project report. Generally taken in last year of residence. Offered: AWSpS.

ESRM 496 Senior Thesis (5) Statistical analysis and presentation of research results and discussion of results in a thesis paper. Students work with faculty advisors to complete field or laboratory research and then prepare the senior thesis. Offered: AWSpS.

ESRM 499 Undergraduate Research (1-5, max. 15) Individual research supervised by a faculty member. For advanced students desiring to extend their educational experience. Credit/no credit only. Offered: AWSpS.

Paper Science and Engineering

PSE 102 Paper, Society, and the Environment (5) I&S/NW *Gustafson* Types of products and patterns of use. Overview of manufacturing processes in terms of raw material, costs, world trade and consumer requirements. Environmental implications of manufacturing, recycling, and disposal of paper and its byproducts. Societal and environmental costs of substituting petroleum-based or nonwood raw materials in paper products. Offered: A.

PSE 104 Products and Energy from Renewable Resources (5) I&S/NW Introduction to the structure, composition, and availability of renewable resources. Conversion of these materials into solid products, energy, and useful chemicals. Particular attention to the production of fiber (paper/board), fuels (ethanol/aromatics), and specialty chemicals (biopolymers, medicines, etc.). Includes weekly laboratory session. Offered: Sp.

PSE 201 Introduction to Pulp and Paper Technology (3) NW *Gustafson, Hodgson, McKean* Broad overview of the science and technology of producing pulp and paper. Introduction of the PSE major course sequence and various career options. Examination of Pacific Northwest pulp and paper production facilities. Offered: A.

PSE 202 Pulp and Paper Lab and Field Studies (1) NW *Gustafson, Hodgson, McKean* Laboratory and field trip studies in pulp and paper technology. Visits to local forest product manufacturing facilities. Required for PSE majors. Credit/no credit only. Offered: A.

PSE 211 Creativity and Society (5) VLPA, I&S *Allan* Explores the nature of creativity and innovation in U.S. and other societies. Investigates the processes of thinking and techniques of idea generation in fields such as

art, music, science, engineering and medicine. Offered: A.

PSE 248 Paper Properties (4) NW *Johnson*

Acquaints students with raw material characteristics, physical and mechanical concepts, nomenclature, and procedures related to evaluating paper and paperboard product properties. Emphasizes structural, optical, mechanical, and moisture related properties. Prerequisite: PSE 201. Offered: W.

PSE 309 Creativity and Innovation (2) VLPA

Allan Understanding creativity and creative thinking; its challenges and dynamics through knowledge, judgment, planning, and observation. Techniques of creative thinking. Design and development of creative games. Computer-aided creative thinking. Creation, protection, and exploitation of a useful idea, including bargaining and negotiations. Offered: jointly with CHEM E 309; Sp.

PSE 399 Undergraduate Internship (1-5, max. 15)

Internship experience with a public agency or private company, supervised and approved by a faculty member. Preparation of professional report reflecting on the experience is required. Credit/no credit only. Offered: AWSpS.

PSE 402 Paper Physics (3) NW *Johnson*

Exploration of paper product behavior from a materials science perspective. Fundamental laws of physics, both deterministic and statistical, will be used to explain experimental results. Discusses and analyzes theoretical models to explain paper behavior. Prerequisite: PSE 248; PHYS 121, 122, 123. Offered: A.

PSE 404 Raw Materials for Papermaking (3)

NW McKean, Hodgson Key fiber properties for producing various paper and paperboard products. General effects of fiber length and morphology on sheet properties. Characteristics, processing and use of secondary fiber in paper products. Nonwood pulping and fiber properties. Product characteristics of various paper grades. Prerequisite: PSE 201; PSE 202; PSE 248. Offered: Sp.

PSE 406 Wood Chemistry I (3) NW

Chemistry of cellulose, hemicellulose, and lignin. Pulping and bleaching chemistry of wood. Prerequisite: either CHEM 237 or CHEM 335.

PSE 409 Wood Extractives Chemistry (2) NW

Northey Nature, origin, and occurrence of the extraneous components of wood, their influence on pulp and paper preparation, and their utilization. Prerequisite: either CHEM 237 or CHEM 335.

PSE 450 Paper Science and Engineering

Seminar (1, max. 4) Discussion of current topics in the science and technology of pulp and paper production. Emphasis on employer expectations of students in the paper science industry. Credit/no credit only. Offered: Sp.

PSE 476 Pulping and Bleaching Processes (3)

Gustafson Conversion of wood to mechanical and chemical pulps. Kraft, sulfite, and semi-chemical pulping processes. Chemical recovery systems. Bleaching of mechanical and chemical pulps. Offered: jointly with CHEM E 471; W.

PSE 477 Papermaking Processes (3) McKean

Fiber sources and properties. Secondary fibers. Stock preparation, sheet forming, water removal, finishing. Coating, lamination, and printing. Paper products. Offered: jointly with CHEM E 472; A.

PSE 478 Pulp and Paper Laboratory (2)

Laboratory experiments in chemical and semi-chemical pulping of wood. Bleaching of chemical and high-yield pulps. Physical and chemical characteristics of pulp fibers. Prerequisite: PSE 476. Offered: jointly with CHEM E 473; Sp.

PSE 479 Pulp and Paper Laboratory II (3)

McKean Paper testing, paper additives, flocculation, drainage, retention, heat transfer, and fluid dynamics in papermaking from virgin and recycled raw materials. Prerequisite: PSE 402; PSE 477. Offered: W.

PSE 480 Pulp and Paper Process Control (3)

Gustafson Control of pulp and paper processes. Sensors, actuators, interface equipment, and computer control strategies common to this industry. Prerequisite: PSE 476; PSE 477. Offered: W.

PSE 481 Pulp and Paper Unit Operation (3)

Unit operations of particular interest in the pulp and paper industry in addition to those covered in CHEM E 330 and 340. Prerequisite: CHEM E 340. Offered: W.

PSE 482 Paper Science and Engineering

Design I (3) I&S/NW *Briggs, Gustafson* Basic engineering economics applied to design of pulp and paper facilities. Analysis of engineering alternatives based on use cost analysis and accounting tools. Introduction to process and mill design. Prerequisite: 2.0 in PSE 406; 2.0 in PSE 476; 2.0 in PSE 477. Offered: Sp.

PSE 487 Paper Science and Engineering

Design II (5) Comprehensive design of pulp and paper processes, including: economic feasibility studies; process equipment design, optimization, and control; and overall process integration and layout. Safety and ethics in the design process. Prerequisite: PSE 482, which may be taken concurrently. Offered: Sp.

PSE 488 Polymer Chemistry (3) Allan

Fundamental review of synthetic and natural polymers, including kinetics of formation, molecular weight distributions, and solid-state and solution properties. Prerequisite: either CHEM 237 or CHEM 335. Offered: W.

PSE 489 Foreign Study (1-5, max. 15)

Individual foreign study of topics for which there is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

PSE 490 Special Topics (1-5, max. 15)

Individual tutorial study of topics for which there is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

PSE 491 Undergraduate Studies (1-5, max. 5)

Individual tutorial study of topics for which there is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

PSE 492 Undergraduate Studies (1-5, max. 5)

Individual tutorial study of topics for which there is not sufficient demand to warrant the organization of regular classes. Offered: AWSpS.

PSE 494 Senior Thesis Proposal (5)

Selection of a thesis topic, literature review, and preparation of a formal senior thesis proposal. Students select a faculty advisor to assist them in the proposal writing process. Regular or Honors credit.

PSE 495 Senior Project (5) Individual study of an environmental science and resource

management problem under direction of a faculty member. Requires a written project report. Generally taken in last year of residence. Offered: AWSpS.

PSE 496 Senior Thesis (5) Statistical analysis and presentation of research results and discussion of results in a thesis paper. Students work with faculty advisors to complete field or

laboratory research and then prepare the senior thesis. Offered: AWSpS.

PSE 497 Pulp and Paper Internship (1-2, max. 3) Technical and economic analysis of commercial pulp and paper installations. Structured visits to industrial operations to observe technical aspects of pulp and paper curriculum in practice. Preparation of visitation

reports and analysis in seminar setting. Offered: AWSpS.

PSE 499 Undergraduate Research (1-5, max. 15) Individual research supervised by a faculty member. For advanced students desiring to extend their educational experience. Credit/no credit only. Offered: AWSpS.

The Information School

Informatics

INFO 100 Fluency in Information Technology

(5) QSR Introduces skills, concepts, and capabilities necessary to effectively use information technology. Includes logical reasoning, managing complexity, operation of computers and networks, and contemporary applications such as effective Web searching and database manipulation, ethical aspects, and social impacts of information technology. Not available for credit to students who have completed CSE 142 or ENGR 142. Offered: jointly with CSE 100.

INFO 198 Introductory Seminars in Informatics

(1-5, max. 13) Selected introductory topics in informatics oriented toward freshman and non-major undergraduates and presented in a seminar format. Topics and content vary to represent the interests of the Information School faculty. Credits do not automatically apply to major/minor requirements.

INFO 220 Information Research Strategies (3/5) I&S

Use information technology for research and information problem-solving. Create web sites or other presentations, as well as find, manage, and evaluate information, and learn the ethical and legal constraints on information use. AWSp.

INFO 221 Information Research Strategies in History (3) I&S

Information research and problem solving in the context of history. Focuses on identifying information, need, information seeking, evaluation and presentation, and selection of the appropriate sources. Offered: jointly with HIST 221.

INFO 222 Understanding Photographs as Historic Documents (3) I&S/NW

Introduction to understanding how to view and interpret information contained in photographs. Examines the photograph as artifact, intent of the photographer, photographic codes and meanings; how such information is used, misused, and manipulated for various purposes and how to navigate archival institutions in search of photographs. Offered: jointly with INFO 222.

INFO 299 Study Abroad - Informatics (1-5, max. 15)

For participants in study abroad program. Specific course content varies. Credits do not automatically apply to major requirements.

INFO 300 Intellectual Foundations of Informatics (5)

Information as an object of study, including theories, concepts, and principles of information, information seeking, cognitive processing, knowledge representation and restructuring, and their relationships to physical and intellectual access to information. Development of information systems for storage, organization, and retrieval. Experience in the application of theories, concepts, and principles.

INFO 310 Individual Perspectives on Information Systems (5) I&S

Social, cognitive,

behavioral, and contextual aspects of information systems, including human information behavior, interpersonal interaction, and social responses to information technology. Emphasis on well-being and information exchanges as a communicative event. Exposure to experimental and naturalistic methodologies through laboratory assignments and field work.

INFO 311 Organizational, Societal, and Global Perspectives on Information Systems (5) I&S

Social, ethical, economic, political, and cross-cultural implications of current and future information systems. Information transfer and use within groups, organizations, and cultures. Focus on organizations as information processors, the new knowledge economy, and national and international information policy, intellectual property, privacy, censorship, and freedom of information.

INFO 320 Information Needs, Searching, and Presentation (5)

Introduction to information needs, database and information organization and structure, Web and database searching and browsing, and information presentation. Examination of underlying principles in knowledge representation, indexing, record structures, online search process, search strategies and tactics, assessment of user needs, reference interviewing, post-processing, organization and presentation of information.

INFO 340 Database Management and Information Retrieval (5) NW

Theories and models in system-centered approaches to information retrieval and database management. Information retrieval and database management systems include text and multimedia databases, web search engines and digital libraries. Issues in system design, development and evaluation, and tools for searching, retrieval, user interfaces, and usability. Prerequisite: CSE 373.

INFO 341 Computer Networks and Distributed Applications (5) NW

Basic concepts of local and wide area computer networking including an overview of services provided by networks, network topologies and hardware, packet switching, client/server architectures, network protocols, and network servers and applications. Also addresses management, security, authentication, and policy issues associated with distributed systems. Prerequisite: CSE 143.

INFO 344 Web Tools and Development (5)

Introduction to fundamental web technologies with an emphasis on scripting and programming. Includes both client and server technologies. Examines effective information architecture for Web sites, information presentation on Web pages, privacy policies, and Web security. Prerequisite: CSE 142.

INFO 380 Information Systems Analysis and Management (5)

Examines the evolution of how information is defined and managed in order to add value to organizations. Views information management and the CIO as key facilitators in

creating or improving relationships, processes, competitiveness, products, and services.

INFO 414 Information Behavior (5) Advanced study of information behavior. Focus on the user-centered approach and the research literature of human information behavior. Introduces methods for evaluating and translating the results of user behavior studies into the design of information services and systems. Prerequisite: INFO 310.

INFO 419 Special Topics in Social Aspects of Information (1-5, max. 10) Various topics in the social aspects of information. Offered by visitors or resident faculty.

INFO 424 Information Visualization and Aesthetics (5) VLP

Examines the visualization of information: the effects of human perception, the aesthetics of information design, the mechanics of visual display, and the semiotics of iconography. Examples may include census, epidemiological, crime, earth satellite, and medical data in the contexts of special computer applications, user populations, and cultures. Prerequisite: CSE 143.

INFO 430 Knowledge Organization and Representation (5)

Advanced study of knowledge organization using classificatory structures and creation of metadata element sets for representation. Conceptual and practical foundations for creating systems for information organization and representation. The creation, application, and use of a variety of systems and techniques for information organization and representation. Prerequisite: INFO 300; INFO 320.

INFO 440 Design Methods for Interaction and Systems (5) NW

Theoretical and practical examination of the information systems design process. Techniques for assessing the need for technology, specifying the system design, and involving users in the design process are explored. Design methods include social impact statements, future scenarios, mock-ups, rapid prototyping, field-testing, heuristic evaluation. Prerequisite: CSE 373.

INFO 444 Value-Sensitive Design (5)

Introduction to value-sensitive design (VSD), information system design that accounts for human values in a principled and comprehensive manner. Examination of existing systems from a VSD perspective. Explores VSD research methods including conceptual, technical, empirical investigations. Key values include accountability, autonomy, consent, privacy, property, trust, sustainability. Prerequisite: CSE 373.

INFO 445 Advanced Database Design, Management, and Maintenance (5)

Advanced perspectives on DBMS theory, architecture, and implementation. Conceptual, logical, physical modeling. Index structures, query optimization and performance tuning, relational algebra, transaction processing, and concurrency control.

Operational databases, decision support systems, and data warehousing. Projects in database implementation and integration. Social implications of large distributed database systems. Prerequisite: INFO 340; CSE 373.

INFO 446 Advanced Search Engine Systems (5) Focus on design, development and evaluation of search engines. Theories and models in information retrieval for text and multimedia databases, Web search engines, recommendation systems, and digital libraries. Topics include language issues, data-mining, machine learning, user-profiling, visualization, user interfaces, usability. Coursework involves analytical comparisons of search engines. Prerequisite: INFO 340.

INFO 447 Computer Supported Cooperative Work (5) Focuses on design and use of collaboration technologies to communicate, share information, and coordinate activity. Emphasis on behavioral and social aspects of adopting and using these technologies. Topics include the history of work in this and related fields, collaboration support for teams, organizations, and communities. Prerequisite: INFO 310.

INFO 449 Special Topics in Information Technology (1-5, max. 10) Various topics in information technology. Offered by visitors or resident faculty.

INFO 454 Information Policy: Domestic and Global (5) National and international information policy: public and private sector policy in terms of privacy, access, and exploitation; technology infrastructures and policies supporting the information industries; digital convergence and the emerging mega-industries. Prerequisite: INFO 311.

INFO 458 Reading Seminar in Social Aspects of Information Systems (2, max. 12) Addresses foundational issues in social aspects of information systems. Introduction to the intellectual traditions that underlie fields such as computer ethics, social informatics, and value sensitive design. Format entails in-depth discussions based on careful reading of primary source texts selected by seminar participants.

INFO 459 Special Topics in Information Policy (1-5, max. 10) Various topics in information policy. Offered by visitors or resident faculty.

INFO 470 Research Methods in Informatics (5) Introduction to the research process investigating information needs, creation, organization, flow, retrieval, and use. Stages include: research definition, questions, objectives, data collection and management, data analysis, and data interpretation. Techniques include: observation, interviews, questionnaires, and transaction-log analysis. Prerequisite: STAT 220 or STAT 311.

INFO 484 Information Entrepreneurship (5) Investigates the development of innovative human-centered informatics products, with emphasis on the unique challenges and opportunities in high-value information products. Includes competition, strategic planning, tactical marketing, informatics product launches, and applied infopreneurship. Teamwork to create and present plans for innovative informatics products/services. Prerequisite: either INFO 300, INFO 310, or INFO 311.

INFO 489 Special Topics in Information Management (1-5, max. 10) Various topics in

information management, offered by visitors or resident faculty.

INFO 490 Design and Development of Interactive Systems (4-8, max. 8) Design and formative evaluation of an interactive information system to solve a real problem. Student-organized team projects are encouraged. Must be taken for a minimum of 5 credits. Prerequisite: INFO 340; INFO 341; INFO 380; INFO 440.

INFO 491 Research in Informatics (4-8, max. 8) Provides hands-on experience conducting a research project related to information behavior and technology. This project may be carried out in a natural setting or in the laboratory by preparing students to carry out similar research projects in their professional work. Prerequisite: INFO 310; INFO 380; INFO 440; INFO 470.

INFO 495 Internship in Informatics (1-5, max. 12) Internship in the private or public sector, as approved by faculty member. Work jointly supervised by faculty member (or approved academic sponsor) and an on-site work supervisor.

INFO 498 Special Topics in Informatics (1-5, max. 15) Various topics in informatics. Offered by visitors or resident faculty. Topics vary.

INFO 499 Independent Study (1-5, max. 15) Readings, design projects, or research under faculty supervision.

Information Management and Technology

IMT 440 Technology Foundations for Information Professionals (1-5, max. 5) Introduction to selected topics in information technology including computer architecture, computer network communication, discrete mathematics, algorithms and data structures, imperative programming, markup languages, and end-user programming tools.

IMT 480 Management Foundations for Information Professionals (1-5, max. 5) Introduction to selected topics in information management including organizational theory, learning, change, planning, organizing, leading, and controlling. Covers communication skill building topics as well, including presentation, written communication, and collaboration.

IMT 500 The Information Management Framework (1) Overview of the major concepts in the MSIM curriculum. Includes an introduction to the concept of information as well as its relation to organizational management, technology, and design and culture.

IMT 510 Human Aspects of Information Systems (4) Social, organizational, cognitive, behavioral and contextual aspects of information, including basic concepts in human information behavior, conceptual and practical frameworks used to study human-information interaction, and social responses to information technology. User-based and work-based evaluation and design of information systems. Exposure to experimental and interview methodologies.

IMT 520 Information Services and Resources (4) Concepts, processes, and skills of information involving creation, production, distribution, selection, collection, and services to facilitate access. Analysis of the information mediation process, including determining information

needs; searching for, evaluation and presentation of appropriate results; and modalities for delivery of services.

IMT 530 Organization of Information Resources (4) Introduction to issues in organization of information and information objects including analysis of intellectual and physical characteristics of information objects; use of metadata and metadata standards for information systems; theory of classification, including semantic relationships and facet analysis; creation of controlled vocabularies; and display and arrangement.

IMT 540 Design methods for Interaction and Systems (4) Introduction to the theory and practice of user-centered design. Examines design methods for identifying and describing user needs, specifying and prototyping new systems, and evaluating the usability of systems. Examines design methodologies such as contextual design and value-sensitive design, giving specific emphasis to human-information interaction. Prerequisite: permission of instructor.

IMT 541 Principles of Database and Semi-Structured Data Systems (5) Introduction of database management systems for the storage and access of structured and semi-structured information. Examines the relational model, Structured Query Language (SQL), Entity-Relationship modeling, database design methodology (conceptual, logical, and physical design), and Extensible Markup Language (XML) for storage, retrieval, and interchange. Prerequisite: IMT 540.

IMT 542 Principles of Information Retrieval Systems (3) Introduction to information systems for the storage and retrieval of unstructured information. Examines information retrieval architectures, processes, retrieval models, query languages, and methods of system evaluation. Gives emphasis to Internet-based services for storing and accessing information to be used in integrated application development. Prerequisite: IMT 540.

IMT 546 Data Communications and Networking (4) Local and wide area computer networking including network topologies and hardware, packet switching, client/server architectures, network protocols, and network servers and applications. Addresses server operating systems, management, security, authentication, and policy issues associated with distributed networks. Prerequisite: IMT 510.

IMT 548 Information System Design (5) Theoretical and practical examination of information systems analysis and design processes as they apply in the workplace. Explores techniques for assessing the need for technology, defining specifications, and involving users in the design process. Design methods include social impact statements, future scenarios, mock-ups, rapid prototyping, and field-testing. Prerequisite: IMT 540.

IMT 550 Policy, Law, and Ethics in Information Management (3) Select concepts, processes, and issues related to the organizational contexts within which information professionals practice. Topics include information as public/private good, intellectual property, privacy, confidentiality, information liability, and information policy. Focus on contemporary issues affecting the role of the information manager.

IMT 580 Management of Information Organizations (4) Survey of leadership

competencies in business information, social process, human factors, and Information Technology (IT) contexts. Examines manager and director level leadership activities in conveying the relevance of IT, managing critical relationships, and implementing IT-based solutions, in an effort to ensure information resource initiatives are aligned with organizational objectives.

IMT 581 Information and the Management of Change (3) Practical application of the critical roles and aspects of information and information processes in the management of organizational change. Topics include organization learning, knowledge management as a process, business process change, change project management, business/competitive intelligence, benchmarking, and best practices. Prerequisite: IMT 580.

IMT 582 Strategic Information Initiatives (4) Studies and applies strategic information initiatives within an organization, including: readiness assessment, organizational mandates, information inventories, content management, information audits, and information architecture initiatives. Focuses on building business cases for and leading information initiatives in organizations. Prerequisite: IMT 581.

IMT 583 Finance and Accounting Foundations for Information Professionals (3) Introduction to financial accounting, including the principles of double-entry accounting, balance sheets, income, and cash flow statements. Covers key financial ratios and their use for various analytical purposes, along with the elements of a financial plan or budget. Prerequisite: IMT 510; IMT 580.

IMT 584 Marketing Foundations for Information Professionals (3) Introduction to the principles of marketing. Looks at how to assess an environment from a marketing perspective, consumer and business behavior, market segmentation, product/service strategies, new product development processes, pricing, channels, retail/wholesale, marketing communication, and direct selling. Prerequisite: IMT 510; IMT 580.

IMT 585 Human Resource Management Foundations for Information Professionals (3) Introduction to human resource management for information professionals. Covers the principles of job analysis, employee selection, interviewing, training, and appraisal. Prerequisite: IMT 510; IMT 580.

IMT 586 Information Dynamics I (4) Introduction to the concepts and methods of information feedback, systems thinking, soft systems methodology (SSM), and "soft operations research," as well as the quantitative modeling of complex dynamic systems by means of differential and integral equations (system dynamics).

IMT 587 Information Dynamics II (4) Advanced concepts and methods of information feedback, systems thinking, soft systems methodology (SSM), and "soft operations research," as well as the quantitative modeling of complex dynamic systems by means of differential and integral equations (system dynamics), including model building, testing, and validating. Prerequisite: IMT 586.

IMT 589 Special Topics in Information Management (1-4, max. 12) Special study and research in topics of current concern to faculty and students.

IMT 595 Stakeholders, Information, and Technology (3-5, max. 5) Capstone experience. Addresses system integration and the increasing demand to apply a broad range of technologies to the information needs of diverse user groups during the implementation of comprehensive information systems across an organization. Encourages student-organized individual/team projects. Prerequisite: completion of IMT core courses 510 through 582.

IMT 598 Emerging Trends in Information Management and Technology (3) Focus on emerging trends in information management and information technology. Attention given to their impact on the functions of the chief information officer and others managing the acquisition, retention, use and disposition of information and the enabling technologies. Exploration of methods and resources for trend discovery and tracking. Prerequisite: IMT 510.

IMT 590 Fieldwork in Information Management (1-4, max. 12) Supervised fieldwork. May be taken in as many as six consecutive quarters. Prerequisite: enrollment in the MSIM program.

IMT 600 Independent Study or Research in Information Management (1-4, max. 12) Supervised independent study or research. May be taken in as many as six consecutive quarters. Prerequisite: enrollment in the MSIM program.

Information Science

INSC 500 Faculty Seminar(2) Presentations by faculty concerning research projects in which they are involved.

INSC 501 Theoretical Foundations for Information Science (3) In-depth exploration of the philosophical, theoretical, methodological, and historical foundation of information science and the study of information.

INSC 510 Theoretical Foundations of Human Information Behavior (4) Study of constructs, concepts, models, and theories information scientists use in studying human information behavior. Socio-cognitive aspects of individuals needing, seeking, giving, and using information. Models of information behavior, conceptual frameworks, assumptions, analytical tools, and the factors that differentiate groupings of information users and predict or influence information behavior.

INSC 530 Knowledge Representation (2/4) In-depth survey of the various approaches to knowledge representations in areas such as taxonomy, library classification, anthropology, cognitive psychology, linguistics, and artificial intelligence.

INSC 540 User-Centered Information System Design (4) Seminar in theories and methods for user-centered and system-centered approaches to information system design. Research and issues in the design process, development, and evaluation of information systems. Technical context typically includes one or more of the following: information retrieval, human-computer interaction, or computer-supported cooperative work. Prerequisite: permission of instructor.

INSC 550 Information Policy (4) Doctoral seminar in the foundations of information policy including intellectual freedom s public/private good, intellectual property, privacy, and digital convergence, and the reshaping of information

practices and information industries. Prerequisite: Permission of instructor.

INSC 565 Teaching Practicum I (3) Doctoral student participation in teaching in a faculty-taught course. Credit/no credit only.

INSC 566 Teaching Practicum II (3) Doctoral student takes primary teaching responsibility for a course under supervision of a faculty liaison. Credit/no credit only. Prerequisite: INSC 565.

INSC 570 Research Design (4) Introduction to empirical research, basics of theory construction and research design, types of research, ethical issues, instruments and techniques for descriptive research, measures of association. Employs an integrated (qualitative and quantitative) and focused approach.

INSC 571 Quantitative Methods in Information Science (5) Describes uses, characteristics, and theoretical bases of research methods and data analysis techniques used in quantitative research, emphasizing uses in information and library science. Topics include experimental design, descriptive and inferential statistics, the normal distribution, elementary probability, nonparametric statistics, and exploratory data analysis techniques. Prerequisite: INSC 570.

INSC 572 Qualitative Methods in Information Science (5) Principles and approaches to conducting qualitative research in information science, including how to design a qualitative study, role of context, methods of data collection and analysis, increasing the trustworthiness of data, minimizing observer effect, how to incorporate and build theory. Exposure to field research and data analysis. Prerequisite: INSC 570.

INSC 575 Research Practicum I (3) Students work with a researcher from the Information School as an active member of a research team. Credit/no credit only.

INSC 576 Research Practicum II (3) Students will work with an approved researcher as an active member of a research team. Credit/no credit only. Prerequisite: INSC 575 or permission of instructor.

INSC 598 Special Topics in Information Science (3, max. 12) .

INSC 599 Independent Study in Information Science (1-5, max. 15) Readings, design projects, or research under faculty supervision. Prerequisite: permission of instructor and Ph.D. program chair.

INSC 600 Independent Study or Research (*) Credit/no credit only.

INSC 800 Doctoral Dissertation (*) Credit/no credit only.

Information Technology Applications

ITA 340 Introduction to Web Publishing (3) Introduction to markup languages and publishing web content. Students gain understanding of HTML coding and extensions, image manipulation, information architecture, and web site publishing. Other topics include: the Web Accessibility Initiative, survey of Graphical User Interface (GUI) HTML editors, online privacy and security, and eXtensible Markup Language (XML).

ITA 341 Client-side Scripting and Design (3) Introduction to web browser design environment, scripting languages, JavaScript, Document Object Model (DOM), and creation of dynamic HTML web pages (DHTML) in combination with Cascading Style Sheets (CSS). Other topics include: client-server architecture and web design principles in the contexts of technical feasibility, usability, and accessibility. Prerequisite: ITA 340.

ITA 342 Introduction to SQL and Data Storage Technologies (3) Fundamentals of database design in a client-server architecture useful for web applications. Subsequent topics build upon foundation by introducing the Structured Query Language (SQL), open source tools MySQL and PHP for database processing, security issues in database applications, and XML as an alternate database storage technology. Prerequisite: ITA 341.

ITA 343 Server-Side Programming and Web-data Integration (3) Provides framework to integrate server-side programming concepts and techniques, database technologies, and client-side scripting to design and implement dynamic web applications. Examines techniques using PHP, design and implementation of database (MySQL) connections, web application security, and XML data publication. Prerequisite: ITA 342.

Library and Information Science

LIS 462 Skills Approach to Information, Communications, and Technology (ICT) Literacy (3) Introduction to the *Big6™* Skills approach to information, communications, and technology (ICT) literacy for personal, school, district, or higher education settings. Includes technology within the Big6 framework, connection to standards, instructional design, assessment, curriculum mapping, peer collaboration, the parent connection, program planning, and implementation.

LIS 498 Special Topics (1-5, max. 15) Library service and information science subject matter in seminars, workshops, or other appropriate formats. Topics vary and may be repeated for credit.

LIS 500 The Life Cycle of Information (2) Overview of the major concepts, processes and systems, actors, and operations in the life cycle of information. Introduction to the creation, publishing and distribution, evaluation and selection, organization, access, retrieval, and use of information. Exploration of the social context in which these processes and their stakeholders interact. Credit/no credit only.

LIS 505 Archival and Manuscript Services (3) Selection, organization, and uses of archival and manuscript collections. Emphasis on the principles and techniques; some attention to the administration of state archival and historical institutions' collections. Lecture, demonstration, and laboratory.

LIS 507 Preservation and Conservation of Library Materials (3) Consideration of the many factors contributing to the physical vulnerability of library materials of all kinds and an overview of resources and strategies for those who determine preservation policy or manage the application of such policy. No technical background necessary.

LIS 508 History of Recorded Information (4) Exploration of the history and ongoing

transformation of recorded information within three broad spheres of human life: public communication, administrative and commercial operation, and personal communication.

LIS 510 Information Behavior (4) Introduction to the user-centered approach to information behavior. Theoretical foundations of various information behaviors such as information need, utilizing, gathering, seeking, and evaluating. Synthesis of user studies, construction of user profiles, performance of gap analysis, and application of the results of user studies to improve services and system design. Prerequisite: LIS 500.

LIS 511 Systems Analysis (4) Introduction to the systems approach including basic concepts in the approach, dimensions of systems and steps in systems design. Emphasis is on the analysis, evaluation and design of information systems and services. Prerequisite: LIS 500.

LIS 512 Community Analysis (4) Key concepts of community in its broadest sense, methodological approaches for analyzing information needs and available resources, how to design information services in response to identified needs, and service evaluation. Facilitating the information behavior of all groups within a community and identifying how their needs interconnect. Prerequisite: LIS 510.

LIS 515 Ecological Information Systems (4) Introduction to cognitive work analysis framework. Prepares for active role in design and evaluation of information systems. Familiarization with basic concepts of cognitive systems engineering and practice in field study, data analysis, and transforming field findings into requirements for the design of an information system. Offered: jointly with T C 515.

LIS 519 Special Topics in Information Behavior (1-4, max. 18) Introduction to innovative and specialized topics in information behavior. Course may be offered irregularly and may be repeated for credit. Prerequisite: LIS 510; others as determined by the specific topics covered.

LIS 520 Information Resources, Services, and Collections (4) Concepts, processes, and skills related to parts of the life cycle of knowledge involving creation, production, distribution, selection, collection, and services to facilitate access. Specific discussion topics include characteristics of recorded knowledge; organizations and services devoted to managing access to recorded knowledge; principles associated with development of recorded knowledge and collections. Prerequisite: LIS 500.

LIS 521 Principles of Information Services (4) Analysis of the information mediation process, including determination and analysis of information needs; searching for, evaluation, and presentation of appropriate results; modalities for delivery of services; and current and future techniques. Prerequisite: LIS 520.

LIS 522 Collection Development (3) Access to materials as context for development and management of library collections in academic, public, school libraries. Community analysis, library mission; collection development policies, criteria, levels, responsibilities; aids to selection; collection evaluation, use studies; controversial materials.

LIS 523 Advanced Information Services (4) Investigation of the development, administration, and evaluation of information services for supporting the research process both within and across organizations. Prerequisite: LIS 521 or permission of instructor.

LIS 526 Government Publications (3) Introduction to government publications of the United States and their acquisition, organization, and use. Other topics covered include the public's right to know, the Federal Depository Library Program, government influences in our daily lives, and future directions in government information. Credit/no credit only.

LIS 527 Business Information Resources (3) Survey of the extent and nature of business information and its sources, and of business information producers and consumers. Study and use of both print and on-line sources.

LIS 528 Health Sciences Information Needs, Resources, and Environment (3) Characteristics of users of health sciences information; health professionals, researchers, consumers and patients; environments (academic health sciences centers, hospitals, clinics, and public libraries); evaluation of information resources in health care; types and uses of health information management systems; policy issues, professional standards, education, and certification. Offered: jointly with MEDED 570.

LIS 529 Special Topics in Information Resources, Services and Collections (1-5, max. 18) Introduction to innovation and specialized topics in information resources, services and collections. Prerequisite: LIS 500, LIS 520; others as determined by the specific topic covered.

LIS 530 Organization of Information and Resources (4) Introduction to issues in organization of information and documents including: analysis of intellectual and physical characteristics of documents; principles and practice in surrogate creation, including standards and selection of metadata elements; theory of classification, including semantic relationships and facet analysis; creation of controlled vocabularies; and display and arrangement. Prerequisite: LIS 500, which may be taken concurrently.

LIS 531 Catalogs, Cataloging, and Classification (4) Develops an understanding of library catalogs as information retrieval systems. Introduces library cataloging and classification. Focus on principles and standards in the creation of catalogs and cataloging records. Includes practice in descriptive and subject cataloging and classification. User perspective emphasized throughout. Prerequisite: LIS 500, LIS 530.

LIS 533 Advanced Cataloging and Classification (4) In-depth theory and practice in library cataloging and classification. Includes introduction to cataloging materials in a variety of formats. Prerequisite: LIS 500, LIS 530, and LIS 531.

LIS 535 Classification Theory (3) Survey of classificatory principles from bibliographic, philosophical, socio-cognitive, and linguistic perspectives. Overview of history of bibliographic classification and exploration of some existing bibliographic classification systems. Ramification of theoretical approach for classification practice. Prerequisite: LIS 530.

LIS 536 Indexing and Abstracting (3)

Exploration of issues in subject representation. Survey of different approaches, techniques, and methods for representing the subject matter of documents, including an evaluation of the role of users and context in subject representation. Formulation of policies for indexing and abstracting services. Prerequisite: LIS 530.

LIS 537 Construction of Indexing Languages (4)

Exploration of the design, construction, evaluation, and maintenance of controlled indexing languages, including studies of how users are integrated into the design process. Through completion of thesaurus construction project, prepares students to design index languages, plan and implement a design project, and evaluate indexing languages. Credit/no credit only. Prerequisite: LIS 530.

LIS 538 Metadata: Evolving Principles and Practices (3)

Principles, skills and practices in the conceptualization and implementation of metadata and metadata systems with a focus on semantic interoperability in distributed environments. Topics include metadata development for attribute and value spaces, metadata registry roles and services, organizational mechanisms, Web Services and advanced search engines. Prerequisite: LIS 530, LIS 540 or equivalent.

LIS 539 Special Topics in Organization of Information and Resources (1-4, max. 18)

Introduction to innovative and specialized topics in the organization of information and resources. Prerequisite: LIS 500, LIS 530; others as determined by the specific topic covered.

LIS 540 Information Systems, Architectures and Retrieval (5)

Introduction and overview of information systems, system architectures, and retrieval models. Emphasis given to the role of users in the design, development, and evaluation of information retrieval and database management systems. Prerequisite: LIS 500, which may be taken concurrently.

LIS 541 Internet Technologies and Applications (3)

Overview of Internet technologies including networking hardware, the TCP/IP protocol suite, addressing, packets and routing, the client/server model. End-user applications for communication and collaboration such as telnet, FTP, email, conferencing, and streaming media. Web site creation, development, and management. Credit/no credit only.

LIS 542 Conceptual Database Design (5)

Introduction to relational database theory and technology from an information science perspective. Focuses on traditional transactional database theory, architecture and implementation in a user-centered systems context. Introduces set and graph theory, relational algebra, and data warehouses. Credit/no credit only. Prerequisite: LIS 511 or LIS 540.

LIS 543 Design of Information Systems (3)

Discusses how theories of conceptual data modeling affect design of database and information systems, examines relationships between modeling and implementation, and bridges gaps between theoretical understanding of database design and implementation issues. Implements conceptual schemata development in 542.

LIS 544 Information Retrieval System (3)

Covers theories and models in information retrieval (IR) and reviews user-centered and system-centered approaches. Issues involved in

the design, development and evaluation of IR systems are examined including: methods and tools for document analysis, retrieval techniques, search engines, interfaces, usability, evaluation.

LIS 545 Programming for Information Systems (5)

Introduction to structured object-oriented programming for information systems. Focus on fundamental principles of programming with attention to elementary algorithms and data structures, interface design, user testing, and knowledge representation. Prerequisite: LIS 540 or permission of instructor.

LIS 546 Network System Administration (4)

Introduction to local area network hardware, topologies, operating systems, and applications. Covers aspects of network setup and management including network and application protocols, system configuration, security and Internet connectivity. Hands-on experience with network applications and operating systems. Prerequisite: LIS 500.

LIS 549 Special Topics in Information Systems, Architectures, and Retrieval (1-4, max. 18)

Introduction to innovative and specialized topics in information systems, architectures, and retrieval. Prerequisite: LIS 540, plus others as determined by topic.

LIS 550 Information in Social Context (4)

Concepts, processes, and issues related to the larger social context within which the life cycle of knowledge is played out. Discussion topics include intellectual freedom, information as public/private good, intellectual property, privacy, confidentiality, information liability, information and telecommunications policy, the economics of information, and other professional values. Prerequisite: LIS 500, which may be taken concurrently.

LIS 551 Intellectual Freedom in Libraries (3)

Analysis of issues related to intellectual freedom, particularly to implications for libraries and librarians. Consideration of current legal climate, conformity versus freedom in modern world, librarian as censor, social responsibility and individual freedom, intellectual freedom of children, prospects for future. Credit/no credit only.

LIS 554 Information Policy: Domestic and Global (5)

National and international information policy: public and private sector policy in terms of privacy, access, and exploitation; technology infrastructures and policies supporting the information industries; digital convergence and the emerging mega-industries. Prerequisite: LIS 550 or permission of instructor.

LIS 558 Reading Seminar in Social Aspects of Information Systems (2)

Addresses foundational issues in social aspects of information systems. Introduces students to the intellectual traditions that underlie fields such as computer ethics, social informatics, and value sensitive design. Format entails in-depth discussions based on careful reading of primary source texts selected by seminar participants. Prerequisite: permission of instructor.

LIS 559 Special Topics in the Social Context of information (1-4, max. 18)

Introduction to innovative and specialized topics in the social context of information. Course may be offered irregularly and may be repeated for credit. Prerequisite: LIS 550 and others as determined by the specific topic covered.

LIS 560 Instructional and Training Strategies for Information Professionals (3)

Develops knowledge and skills in instruction and training functions for library and information settings. Issues and strategies for learning and teaching. Design, development, and evaluation of information and technology literacy programs. Addresses the needs of users when designing and delivering instruction. Prerequisite: LIS 500, which may be taken concurrently.

LIS 561 Storytelling: Art and Techniques (3)

Storytelling, past and present, noting its development as an art form. Analyzing storytellers materials (folk literature and literary forms) throughout historical periods. Essential techniques necessary to this artistic skill. Planning storytelling programs for various ages, interest groups, and situations, utilizing folk, classic, and contemporary literature.

LIS 565 Children's Materials: Evaluation and Use (4)

Library materials for children from infancy through elementary grades. Focus on resources in all media that serve informational, educational, cultural, and recreational needs of the young. Focuses on standard bibliographies and other resources designed to meet informational needs of adults serving children. Prerequisite: LIS 500, LIS 510, LIS 520, or permission of instructor.

LIS 566 Young Adult Materials: Evaluation and Use (4)

An overview of materials reflecting adolescents' interest in media and addressing their educational, cultural, and recreational needs. Students evaluate print literature, electronic and other non-print media for young adults. Content also designed to assist adult caregivers of adolescents. Prerequisite: LIS 500, LIS 510, and LIS 520 or permission of instructor.

LIS 567 Public Library Services for Youth (3)

Administration of youth departments in public libraries; planning and promoting programs and services; evaluation of library collections; community and professional roles of the youth librarian. Prerequisite: LIS 500 or permission of instructor.

LIS 568 Information Literacy for Teaching and Learning (5)

Theories, process, and practical applications of information literacy. Development of information literacy programs for libraries, community agencies, business, education or other information settings. Intrinsic themes include the integral relationship between technology and information literacy, and continual evaluation.

LIS 569 Special Topics in Instructional and Training Strategies for Information Professionals (1-5, max. 18)

Introduction to innovative and specialized topics in instructional and training strategies for information professionals. Prerequisite: LIS 560 and others as determined by the specific topic covered.

LIS 570 Research Methods (4)

Research as a process from problem definition and formulation of questions to design, data collection, analysis, and reporting. Students recognize research opportunities, translate them into researchable frameworks, design research projects, and implement results in libraries and other information agencies. Prerequisite: LIS 500, which may be taken concurrently.

LIS 579 Special Topics in Research Methods (1-4, max. 18)

Introduction to innovative and specialized topics in research methods.

Prerequisite: LIS 500, LIS 570; others as determined by specific topic covered.

LIS 580 Management for Information Organizations (4) Introduction to internal and external management issues and practices in information organizations. Internal issues include organizational behavior, organizational theory, personnel, budgeting, planning. External issues include organizational environments, politics, marketing, strategic planning, funding sources. Prerequisite: LIS 500, which may be taken concurrently.

LIS 581 Marketing and Planning for Libraries (3) Approaches to planning and marketing library products/services. Examines partnerships that can be forged between elements of marketing and appropriate futures strategies for libraries. Discusses marketing and planning as integrated processes with attention to short- and long-term goals and objectives. No particular library institutional setting is assumed. Prerequisite: LIS 500, which may be taken concurrently.

LIS 582 Strategic Planning and Management of Information Technology (3) Exploration of methods of strategic planning for managing information resources and technology to support online information services and the role of the systems librarian and CIO. Topics include mission and goals, strategic planning, the information technology function within organizations, and the desirable abilities of managers and leaders. Prerequisite: LIS 580.

LIS 583 Staffing Information and Information Technology Positions (3) Staffing and human resources related to information organizations and the information technology unit. Examination of demand for and supply of information and information technology workers, recruitment, training, and retention. Prerequisite: LIS 580.

LIS 584 Knowledge Management (3) Introduction to contemporary topics in management of knowledge creation and use in organizations. Discussion topics include knowledge generation, knowledge taxonomy, knowledge transfer, organizational knowledge management practice, and knowledge management systems. Prerequisite: LIS 500; LIS 580, or permission of instructor.

LIS 585 Administration of the School Library Media Program (3) Develops competency in

administering materials, equipment, and services of library media program as integral part of educational process of school. Focuses on developing skills in acquiring, organizing, and managing full range of learning resources for access and use, and communicating the program to users. Required for school library media specialists. Prerequisite: LIS 580.

LIS 586 Public Libraries and Advocacy (3) Examines the purpose and role of public libraries in an information society. Includes governance, services, and planning with special emphasis on advocacy for the library and community.

LIS 587 Library Technology Systems (4) Developing criteria for selection and design of information technology systems for libraries and information centers. Applying criteria in evaluation of hardware and software. Examining related management challenges, such as vendor relations, financing options, personnel requirements, and design of auxiliary activities. Prerequisite: LIS 540, LIS 580, or permission of instructor.

LIS 588 Special Librarianship (3) Seminar in the practice of special librarianship in business and industrial firms, government agencies, and the free-lance sector. User services and information resources. Credit/no credit only. Prerequisite: LIS 580.

LIS 589 Special Topics in Management of Information Organization (1-4, max. 18) Introduction to innovative and specialized topics in management of information organizations. Prerequisite: LIS 500, LIS 580; others as determined by the specific topic covered.

LIS 590 Directed Fieldwork (2-4, max. 8) Minimum of 100 hours, maximum of 200 hours of professional, supervised fieldwork in a library or professional information setting. Fieldwork is a one-quarter experience; however, this may be repeated in a different setting with a different set of learning objectives for a subsequent quarter. Library and Information Science majors only. Credit/no credit only. Prerequisite: 30 credits in Library and Information Science program.

LIS 591 Legal Research I (3) Introduction to legal bibliography and law librarianship. Basic primary and secondary legal bibliographic tools.

Integration of manual and computer resources for effective legal research. Emphasis on state materials. Offered: jointly with LAW A 598.

LIS 592 Legal Research II (3/4) Legal tools that answer more complex legal research problems, such as federal legislative histories, sources of administrative law, specialized subject research. Federal emphasis. Builds on skills and techniques taught in LIS 591/LAW A 598. Extensive work with online resources. Prerequisite: LIS 591 or permission of instructor. Offered: jointly with LAW A 599.

LIS 593 Selection and Processing of Law Library Materials (3) Study of tools for collection development and collection development plans in law libraries. All law library technical processes, including acquisitions, budgeting, cataloging, and serials. Prerequisite: LIS 591 or permission of instructor.

LIS 594 Law Library Administration (4) Administration in law libraries, including organization, personnel, and management issues (e.g., interviewing, hiring, firing), communications, library planning, and bookkeeping. Credit/no credit only. Prerequisite: LIS 591 or permission of instructor.

LIS 595 Current Issues in Law Librarianship (4-, max. 4) From a list of current topics in law librarianship, students select a topic, research it fully, write a major paper, and present their paper. Topics may include citation reform, ethics, and publisher practices. Credit/no credit only. Prerequisite: Law Librarianship majors or permission of instructor.

LIS 598 Special Topics in Information and Library Science (1-6, max. 18) Seminar dealing with various topics in information and library science. Offered by visitors or resident faculty. Topics are changed from quarter to quarter. May not be offered every quarter. Prerequisite: determined by specific course.

LIS 600 Independent Study or Research (*) Credit/no credit only.

LIS 700 Master's Thesis (*) Credit/no credit only.

Interdisciplinary Graduate Programs

Biomolecular Structure and Design

BMSD 520 Research Seminar (0.5, max. 9) Group conferences on graduate student research. Prerequisite: BMSD graduate student or permission of instructor. Offered: AWSp.

BMSD 540 Literature Review (2) Emphasizes critical evaluation of original articles in literature from all fields relevant to Biomolecular Structure and Design. Scientific writing and oral presentations emphasized. Concurrent registration in BIOC 530 required. Prerequisite: first-year BMSD student or permission of instructor. Offered: A.

BMSD 541 Literature Review in Biomolecular Structure and Design (2) Emphasizes critical evaluation of original articles in literature from all fields relevant to Biomolecular Structure and Design. Scientific writing and oral presentations emphasized. Prerequisite: first-year BMSD student or permission of instructor. Offered: W.

BMSD 542 Literature Review in Biomolecular Structure and Design (2) Emphasizes critical evaluation of original articles in literature from all fields relevant to Biomolecular Structure and Design. Scientific writing and oral presentations emphasized. Prerequisite: first-year BMSD student or permission of instructor. Offered: Sp.

BMSD 599 Introduction to Research in Biomolecular Structure and Design (3-6, max. 24) Student works with one of the research groups within the Biomolecular Structure and Design Program for one quarter and then rotates to another laboratory for one additional quarter. Minimum two quarters, maximum four. Prerequisite: BMSD student or permission of instructor. Offered: AWSpS.

Global Trade, Transportation, and Logistics

GTTL 501 Global Logistics Management (4) Provides an overview of the concepts and substance of trade, transportation, and logistics. Deals with management of physical, documentation, and information flows within supply chains, including purchasing, distribution, intermodal transportation, ERP e-commerce and e-fulfillment, financial transactions, and regulations. Prerequisite: permission of instructor. Offered: jointly with OPMGT 535; AW.

GTTL 502 Seminar in Global Trade, Transportation, and Logistics (4) Interdisciplinary seminar that brings together students with academics and practitioners at the forefront of trade, transportation, and logistics in discussions of selected topics. Additionally, students research issues of special interest. Prerequisite: OPMGT 535, GTTL 501, or permission of instructor. Offered: jointly with OPMGT 536; Sp.

GTTL 598 Global Aviation Management (3) Integrates aviation-related engineering, marketing, logistics, global trade, transport geography, and finance disciplines. Introduction to airplane, airport, and air traffic technology; aircraft/air traffic control/airline terminology; and aviation practices.

GTTL 599 Special Topics in Global Trade, Transportation, and Logistics Studies (1-5, max. 15) Selected topics with special emphasis on issues of pressing importance to the world trading community. Topics vary with departmental discretion. Prerequisite: Graduate students or permission of instructor.

GTTL 600 Independent GTTL Studies(*, max. 30) Opportunity to pursue GTTL-related issues that may not be explored in established UW courses. May involve projects undertaken in conjunction with entities beyond the University, subject to instructor approval.

GTTL 601 Internship in GTTL Studies(3-5, max. 9) Opportunity to pursue relevant research or to gain practicum experience in the employment of a department-approved public or private entity.

Graduate School

GRDSCH 610 Teaching Mentorship (3, max. 6) Individualized project, under the direction of a faculty member, focused on issues of teaching and learning at the college/university level and designed to enhance the student's ability to make innovative contributions in teaching. Credit/no credit only. Prerequisite: permission of graduate program coordinator and the Associate Dean of the Graduate School.

GRDSCH 615 Teaching Assistant Preparation (1-6, max. 6) Department or University-wide training for teaching and research assistants. Credit/no credit only.

GRDSCH 616 Research Assistant Preparation (1-6, max. 6) Department or University-wide training for research assistants. Credit/no credit only.

GRDSCH 620 Teaching Mentorship Seminar (2) Interdisciplinary seminar. Individual mentorship projects are presented and discussed, as are more general topics related to the teaching mentorship experience. Credit/no credit only. Prerequisite: GRDSCH 610 which may be taken concurrently or permission of the Associate Dean of the Graduate School.

GRDSCH 630 Special Topics in College/University Teaching (2, max. 6) Interdisciplinary discussion of a variety of topics related to college/university teaching with an emphasis on innovation in teaching. Topics of broad campus interest complement similar offerings in individual disciplines. Credit/no credit only.

Individual Ph.D.

IPHD 600 Independent Study (*)

IPHD 800 Independent Study (*)

Molecular and Cellular Biology

MCB 511 Cell Cycle Control (3) *Breeden, Roberts, Edgar* Studies recent advances in understanding cell-cycle control, arising from genetics and biochemical studies of fission and budding yeast, marine invertebrates, *Drosophila*,

amphibians, and cultured cells. Addresses the biochemical processes and molecular interactions and the rate-limiting events in the cell cycle, and the coupling of those events to physiological signals. Offered: A.

MCB 513 Development Journal Seminar (1, max. 12) *Moens, Soriano, Swalla* Examines current literature about specific topics in developmental biology. The seminar chooses current monthly topics and the group meets weekly to discuss published research papers. Topics may include: germ cell specification; cell migration and morphogenesis; axis formation; somitogenesis and stem cells. Offered: AWSp.

MCB 514 Molecular and Cellular Biology Literature Review (2) *Roelink* Emphasizes critical evaluation of the original literature orally and in writing. Open only to first-year students in the Molecular and Cellular Biology Program.

MCB 515 Molecular and Cellular Biology Literature Review (2) *Stoddard* Emphasizes critical evaluation of the original literature orally and in writing. Open only to first-year students in the Molecular and Cellular Biology Program. Offered: W.

MCB 516 Molecular and Cellular Biology Literature Review (2) *Stoddard* Emphasizes critical evaluation of the original literature orally and in writing. Open only to first-year students in the Molecular and Cellular Biology Program. Offered: S.

MCB 517 Topics in Molecular and Cellular Biology (1-5, max. 12) Advanced in-depth coverage of specific areas of molecular and cellular biology of current interest. Lectures by University of Washington faculty and invited speakers involved in research in this area. A basic knowledge of principles of molecular and cellular biology assumed.

MCB 519 Topics in Cancer (1, max. 6) Examination of ways to integrate basic, clinical, and public health sciences to increase understanding of human biology and disease. Seminars in introduction to cancer research as viewed by basic, clinical, and public health sciences, origins of cancer, cancer prevention, cancer progression, and therapies for cancer. Credit/no credit only.

MCB 520 Tutorial in Molecular and Cellular Biology (1-2, max. 2) *Stoddard* Special topics reading and discussion. Offered: A.

MCB 521 Embryos, Genes and Development (4) *Parkhurst, Priess, Soriano* Introduction to vertebrate and invertebrate development emphasizing cellular, genetic, and molecular mechanisms. Focuses on development of fruit flies, nematodes, and mice. Emphasizes embryological processes including induction, determination, pattern formation. Relationship between development and evolution. Technologies include transgenic animals, genetics, mosaic analysis, homologous recombination, somatic cell genetics, embryonic manipulations. Offered: W.

MCB 532 Human Pathogenic Viruses (3) *Galloway, Linail* Replication, regulation, and pathogenesis of several groups of human viruses, including human immunodeficiency virus and papillomaviruses. Emphasis on the unique

aspects of the viral-like cycles as they relate to effects on infected cells and organisms. Guest lecturers focus on viral immunology, measles, herpes simplex virus and HHV-8. Offered: W.

MCB 542 Nucleic Acids and Enzymes (2)
Stoddard Covers the biology, evolution, mechanisms, and structure/function relationships of enzymes that act on DNA and RNA. Focuses both on various molecular systems, and also on important techniques used for their study, including high resolution structure determination, single molecule methods, kinetics and thermodynamic binding analyses, and protein engineering. Offered: Sp.

MCB 560 Biotechnology Externship (2-12, max. 12) *Moon* Supervised research in a biotechnology company. Prerequisite: permission of instructor and doctoral candidacy. Offered: AWSpS.

MCB 562 Cell Signaling and Oncogenesis (3)
Cooper, Tappscott Discusses the roles of cell architecture, signal transduction, and the nucleus in homeostasis of normal tissues and in cancer. Regulation of cell proliferation and differentiation in normal tissues. Protooncogenes and oncogenes. Tumor suppressor genes. Cell-cell and cell-matrix interactions. The development, vascularization, metastasis of tumors. Offered: Sp.

MCB 580 Teaching Practicum in Molecular and Cellular Biology (3, max. 6) Supervised training in the teaching of molecular and cellular biology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MCB 599 Introduction to Research in Molecular and Cellular Biology (*, max. 20)
The student rotates through one research laboratory involved in the Molecular and Cellular Biology Program per quarter. Open only to first-year students in the Molecular and Cellular Biology Program. Credit/no credit only. Offered: AWSpS.

MCB 600 Independent Study or Research (*) .

MCB 700 Master's Thesis (*) Offered: AWSpS.

MCB 800 Doctoral Dissertation (*) .

Museology

MUSEUM 480 Introduction to Museology (3)
I&S Museum history, philosophy, and basic operations, including organization, income, collection management, conservation, exhibition, security, education, research, and ethics. Offered: jointly with ANTH 480.

MUSEUM 488 Special Topics in Museology (3-5) In-depth examination of selected current issues within the field of museology.

MUSEUM 600 Independent Study or Research (1-10, max. 10) .

MUSEUM 700 Master's Thesis (1-10, max. 10).

MUSEUM 710 Master's Project (1-10, max. 10)
Credit/no credit only.

Near and Middle Eastern Studies

N&MES 800 Doctoral Dissertation (*).

Neurobiology and Behavior

NEUBEH 501 Introduction to Neurobiology (3)
Survey of all aspects of neuroscience, including molecular and cellular neurobiology. Lecture and laboratory discussion of original literature, observation of demonstrations, and examination of macroscopic and microscopic neural tissue. Offered: A.

NEUBEH 502 Introduction to Neurobiology (4)
Survey of all aspects of neuroscience, including an introduction to neuroanatomy and modules on sensory and motor systems. Lecture and laboratory discussion of original literature, observation of demonstrations, and examination of macroscopic and microscopic neural tissue. Offered: W.

NEUBEH 503 Cognitive and Integrative Neurobiology (4) Survey of all aspects of neuroscience, including a discussion of higher neural processes like learning, memory, and neuroendocrinology. Lecture and laboratory discussion of original literature, observation of demonstrations, and examination of macroscopic and microscopic neural tissue. Offered: Sp.

NEUBEH 510 Seminar in Neurobiology and Behavior (0.5) Biweekly seminar on current topics. Required for students in the Graduate Program in Neurobiology and Behavior and for students supported on Graduate Neuroscience Program Training Grant. Credit/no credit only. Offered: AWSp.

NEUBEH 515 Teaching Practicum in Neurobiology and Behavior (3-6, max. 15)
Supervised training in the teaching of neuroscience and related scientific topics. Prerequisite: graduate standing in the Neurobiology and Behavior graduate program and permission of the instructor. Offered: AWSpS.

NEUBEH 526 Introduction to Laboratory Research in Neurobiology (4) Students become familiar with, and assist in, the performance of research on ongoing projects in designated laboratories. Emphasis on employed methodology and techniques. Credit/no credit only. Prerequisite: first-year graduate students in neurobiology. Offered: AWSpS.

NEUBEH 527 Current Topics in Neurobiology and Behavior (1) Presentation and discussion of current research provides exposure to diverse areas of neurobiology and behavior research. Credit/no credit only. Prerequisite: graduate student in neurobiology and behavior program or permission of instructor. Offered: AWSp.

NEUBEH 528 Computational Neuroscience (3)
Introduction to computational methods for understanding nervous systems and the principles governing their operation. Topics include representation of information by spiking neurons, information processing in neural circuits, and algorithms for adaptation and learning. Prerequisite: elementary calculus, linear algebra, and statistics, or by permission of instructor. Offered: jointly with CSE 528.

NEUBEH 532 Discussion in Cell Signaling and Molecular Physiology (2) Discusses fundamental issues in cell excitability and molecular and cellular physiology. Focuses on problem solving and reading from original literature. Emphasizes student participation. Prerequisite: first-year graduate students in neurobiology or physiology and biophysics. Offered: jointly with P BIO 532; A.

NEUBEH 541 Neuroendocrinology (3) *Steiner* Emphasizes the cellular and molecular aspects of several topics in neuroendocrinology, including neuropeptide genes, reproduction, steroid hormone regulation of gene expression, mechanisms of hormone action, endocrine rhythms, and neural oscillations. Prerequisite: either BIOL 201, BIOL 202, and BIOL 203, or BIOL 180, BIOL 200, and BIOL 220; BIOC 440, BIOC 441, BIOC 442 or permission of instructor. Offered: jointly with P BIO 509; W, odd years only.

NEUBEH 545 Quantitative Methods in Neuroscience (3) *Rieke, Shadlen* Discusses quantitative methods applicable to the study of the nervous system. Revolves around computer exercises/discussion of journal papers. May include linear systems theory, Fourier analysis, ordinary differential equations, stochastic processes, signal detection and information theory. Prerequisite: NEUBEH 501, 502, 503, or by permission of instructor. Offered: jointly with P BIO 545; W.

NEUBEH 549 Molecular Basis of Neurodegenerative Disease (2) *La Spada, Muchowski, Pallanck* Introduces a broad range of neurodegenerative diseases, focusing upon the approaches that have led to recent discoveries and emphasizing the elucidation of mechanisms and pathways of disease pathogenesis. Offered: jointly with GENOME 549/PHCOL 549; W.

NEUBEH 550 Biophysics of Calcium Signaling (1) *Hille, Santana* Introduction to cellular calcium signaling including theoretical and technical issues of calcium signal detection and biological conclusions. Prerequisite: CONJ 531 Offered: jointly with P BIO 550; odd years; Sp.

NEUBEH 551 Mouse Models (1) Illustrates the use of transgenic and targeted-gene disruption technologies for developing mouse models of the disease. Introduces the methodology of producing transgenic and knock out mice. Discusses several examples of disease models using the most recent primary literature as a source. Offered: jointly with P BIO 551.

NEUBEH 552 Synaptic Integration (1) *Binder, Powers* Discussion of recent papers on how neurons in the central nervous system integrate concurrent synaptic inputs. Includes: effects of driving force on synaptic currents, effects of conductances on dendritic properties, transfer of currents from dendrites to soma, and transformation of currents into spike train outputs. Offered: jointly with P BIO 552.

NEUBEH 553 Learning and Memory: Synapses and Systems (2) *Jagadeesh, Sullivan* Five-week mini-course evaluates the current state of knowledge on the mechanisms that allow people to learn and remember. After introductory overviews of the cellular and molecular mechanisms underlying long-term synaptic plasticity and the multiple systems existing for learning and memory, students choose specific topics for discussion. Offered: jointly with P BIO 553.

NEUBEH 554 Motor Learning: Cellular and Network Mechanisms (1) *Fetz, Perlmutter* Five-week mini-course reviews the current state of research on cellular and network mechanisms of motor learning. After an introductory overview of behavioral and physiological examples of motor learning in various species and systems, students choose specific topics for discussion, using the primary literature as a source. Offered: jointly with P BIO 554.

NEUBEH 555 Sensory Receptors (1) *Detwiler, Rieke* Five-lecture mini-course examines how different kinds of sensory receptors detect and respond to different modalities of sensory stimuli. Discussion focuses on the cellular and molecular mechanisms of the underlying transduction processes and the experimental evidence that they are based on. Offered: jointly with P BIO 555.

NEUBEH 556 Axon Pathfinding Mechanisms (1) *Bothwell* Examines mechanisms governing axon growth cone behavior during embryonic development and during regeneration in the injured adult. Discusses approaches employing both invertebrate and vertebrate model systems. Offered: jointly with P BIO 556.

NEUBEH 557 Ion Channel Gating (1) *Gordon, Zagotta* Compares and contrasts mechanisms of gating in ligand-gated and voltage-gated ion channels. Covers basics of ligand gating and voltage gating, kinetic schemes, inactivation and desensitization, gating currents and partial agonists, and ion channel structure. Offered: jointly with P BIO 557.

NEUBEH 600 Independent Study or Research (*, max. 10) Credit/no credit only. Offered: AWPpS.

NEUBEH 700 Master's Thesis (*, max. 10) Offered: AWPpS.

NEUBEH 800 Doctoral Dissertation (*, max. 10) Offered: AWPpS.

Nutritional Science

NUTR 300 Nutrition for Today (3) *NW Bruemmer* Science of nutrition as it relates to individual food choices, health behaviors, public health. Health topics include wellness, obesity, eating disorders, sports nutrition, prevention of chronic disease. Nutrients and nutritional needs across the lifespan. Issues facing society including food safety, biotechnology, use of supplements and botanicals. Offered: A.

NUTR 405 Phys Activity in Health and Disease (3) *Duncan* Impact of physical activity on individual and public health. Overview of physiological adaptations to activity, exercise prescription, exercise epidemiology, and prevention of chronic diseases. Public health recommendations for activity in the U.S. population, and the effects of the build environment on activity. Prerequisite: BIOL 118. Offered: jointly with EPI 405; Sp.

NUTR 441 Chemistry of Foods (3) *Peck* Principles of food science integrated with laboratory sessions that observe the effects of various parameters of food composition, and applied sensory evaluation. Explores current trends in the culinary sciences to promote pleasurable eating. Recommended: general and organic chemistry. Offered: even years; S.

NUTR 445 Food Safety and Production Laboratory (2) *Peck* Examination of food safety systems including HACCP methodology. Experiential study of food production, receiving systems, inventory control, menu planning, budget consideration, and cost control. Offered: W.

NUTR 462 Medical Nutrition Therapy I (2) *Peck* Intervention strategies, counseling skills, and diet modifications that pertain to chronic disease prevention and management. Corequisite: NUTR 562. Offered: Sp.

NUTR 463 Medical Nutrition Therapy II (2) *Peck* Didactic training in nutrition support theories and skill development for interpretation of laboratory values. Management of fluids and electrolytes, and nutrition interventions in acute care. Prerequisite: .NUTR 462; corequisite: 563. Offered: S.

NUTR 465 Nutritional Anthropology (3) *I&S/NW Shell-Duncan* Concerns interrelationships between biomedical, sociocultural, and ecological factors, and their influence on the ability of humans to respond to variability in nutritional resources. Topics covered include diet and human evolution, nutrition-related biobehavioral influences on human growth, development, and disease resistance. Prerequisite: BIO A 201. Offered: jointly with BIO A 465.

NUTR 499 Undergraduate Research (1-5, max. 10) Independent study and research supervised by a faculty member with appropriate academic interest. Offered: AWPpS.

NUTR 500 Graduate Seminar: Current Issues in Nutrition (1, max. 4) A review of current topics in nutritional science and public health nutrition. Provides a forum for student and faculty presentation, and review of current research efforts. Prerequisite: graduate student in nutrition. Offered: AWPpS.

NUTR 505 Phys Activity in Health and Disease (3) *Duncan* Impact of physical activity on individual and public health. Overview of physiological adaptations to activity, exercise prescription, exercise epidemiology, and prevention of chronic diseases. Public health recommendations for activity in the U.S. population, and the effects of the build environment on activity. Prerequisite: BIOL 118. Offered: jointly with EPI 502; Sp.

NUTR 526 Maternal and Infant Nutrition (3) *Johnson* Influence of maternal and infant nutrition on the health of populations. Nutrition-related physiological, psychological, and social factors in pregnancy, lactation, and infancy. Application of evidence-based approaches to maternal and infant nutrition recommendations and interventions for populations and high-risk individuals. Prerequisite: human nutrition and human physiology. Offered: A.

NUTR 527 Nutrition: Childhood Through Adolescence (3) *Rees, Trahms* Interactions of nourishment with behavior, growth, and development of children, from infancy through adolescence. Critical evaluation of normative data and special problems, as well as strategies for individual and public health interventions. Prerequisite: graduate student in nutritional sciences or permission of instructor. Offered: even years; Sp.

NUTR 528 Nutrition in Aging (3) *Drewnowski* Physiological, psychological, social, cultural, and economic factors affecting health nutrition and status in the middle and later years. Prerequisite: human nutrition and human physiology. Offered: odd years; Sp.

NUTR 529 Nutrition Research Design (3) *Duncan* Critical review of selected nutrition literature. Evaluation of experimental design, research protocols, data analyses, and data presentations. Prerequisite: BIOST 511. Offered: odd years; W.

NUTR 530 Nutrition for Children with Special Health Care Needs (3) *Lucas* Principles of nutrition screening and assessment, clinical nutritional care, family-centered care, and health services as applied to meeting nutritional needs of children with special health care needs. Both population-based and individual care concepts are explored for children with a variety of chronic conditions. Offered: odd years; Sp.

NUTR 531 Public Health Nutrition (4) *Johnson* Explores the functions and essential services of public health as they apply to assuring access to a safe and nutritious food supply. Examines the practice of public health nutrition: nutrition environment, program planning, implementation, and evaluation; policy development, implementation and evaluation, and links between basic science and public health nutrition practice. Prerequisite: introductory nutrition. Offered: Sp.

NUTR 532 Fieldwork in Public Health Nutrition (1-12, max. 12) *Peck* Experience and service learning in organizations that plan, deliver, and promote population-based nutrition education and nutrition services. Prerequisite: Nutritional Sciences graduate student and permission of instructor. Offered: AWPpS.

NUTR 537 Laboratory Rotation (1-4, max. 6) Exposure to research being conducted in the laboratories of the graduate nutrition faculty. Provides hands-on experience in laboratory research. Introduces the student to on-going research for preparation of dissertation topics. Prerequisite: permission of instructor. Offered: AWPpS.

NUTR 538 Nutritional Epidemiology (3) *Beresford, Drewnowski* Application of epidemiological methods to current studies of diet, nutrition, and chronic disease. A discussion of current issues and controversies enable students to plan studies in nutritional epidemiology and disease prevention. Prerequisite: EPI 511 or EPI 512 and BIOST 511 or permission of instructors. Offered: jointly with EPI 538; A.

NUTR 539 Nutrition Journal Club (1-3, max. 9) *Duncan* Critical evaluation of research on selected topics in the field of nutrition. Credit/no credit only. Prerequisite: graduate student in nutrition. Offered: AWPpS.

NUTR 545 Food Safety and Health (3) *Bruemmer* Presentation of emerging issues in food safety, sustainable agriculture and biotechnology. Examines both domestic and global pressures on the food supply. Examines international policies that promote regional solutions for a safe food supply and access to nutritious foods. Recommended: course in microbiology. Offered: W.

NUTR 551 Nutrition and Gene Expression (3) *Rosenfeld* Lectures, student presentations, and discussions of current research on nutrient:gene

interactions. Focus on how dietary factors act both directly as transcriptional regulators or indirectly as inducers of signal transduction cascades leading to alterations in expression of proteins associated with cellular nutrient metabolism. Prerequisite: NUTR 520, NUTR 521, NUTR 522, or permission of instructor. Offered: W.

NUTR 555 Nutrition in Developing Countries (3) *Bruemmer, Gorstein* Introduces issues of nutrition in developing countries, with an emphasis on the control and prevention of under nutrition and micronutrient deficiencies. Offered: jointly with HSERV 540; Sp.

NUTR 561 Dietetics Internship (6-10, max. 30) *Peck* Focuses on the competencies for entry-level practice in dietetics. Autumn and winter quarters include core experiences in wellness, public health, food service, ambulatory care, home health, and clinical services. Spring quarter activities are devoted to either nutrition therapy or public health, depending on student's career goals. Prerequisite: clinical students only. Offered: AWSp.

NUTR 562 Nutrition and Chronic Disease (4) *Bruemmer, Drewnowski* Epidemiology/pathophysiology of chronic disease related to nutrition (e.g., obesity, cardiovascular disease, osteoporosis, hypertension, diabetes). Examines nutritional risk/protective factors in relation to public health, individual nutrition, and clinical intervention. Prerequisite: physiology, biochemistry. Offered: Sp.

NUTR 563 Nutrition in Acute Care (4) *Bruemmer, Peck* Assessment of the nutritional demands and hypermetabolic response of trauma, surgery, organ failure, burns, AIDS, and neoplastic disease. Examines specialized nutritional support and substrate requirements in the acute care setting. Prerequisite: NUTR 562, or permission of instructor. Offered: S.

NUTR 564 Management of Nutrition Services (4) *Bruemmer* Policy and administrative issues that impact delivery of nutrition services in health care environments. Topics include organization behavior, productivity, financial environments, clinical management, and human resources. Offered: odd years; S.

NUTR 581 Strategies of Health Promotion (4) *Bowen* Assessment of health promotion planning, implementation, and evaluation strategies for their strengths, weaknesses, and effectiveness. Students critique strategies to modify behavioral factors that influence lifestyles of individuals, including decisions influencing their reciprocal relationship with environmental factors affecting the health of individuals, organizations, and communities. Offered: jointly with HSERV 581. Prerequisite: HSERV 511. Offered: Sp.

NUTR 595 Nutritional Sciences Master's Practicum (1-12, max. 12) *Peck* Supervised practice experience providing students an opportunity to learn how nutritional sciences are applied to public health settings and in the formulation and application of public health policy. Credit/no credit only. Prerequisite: HSERV 511; NUTR 531; EPI 511; NUTR 520; 521; 522. Offered: AWSpS.

NUTR 600 Independent Study or Research (*) Offered: AWSpS.

NUTR 700 Master's Thesis (*) Offered: AWSpS.

NUTR 800 Doctoral Dissertation (*) Credit/no credit only. Offered: AWSpS.

Quantitative Ecology and Resource Management

QERM 502 Statistical Consulting for the Life Sciences (1-4) *Conquest* Consulting experience in data analysis, applied statistics, experimental design, parameter estimation, and sampling. Student provides consultation services to students and faculty. Students spend one classroom hour per week under faculty supervision discussing problems encountered. Prerequisite: QERM 482, QERM 483, STAT 421, STAT 423, or BIOST 514, BIOST 515, or equivalents, and permission of instructor. Offered: W.

QERM 514 Analysis of Ecological and Environmental Data I (4) *Conquest* Overview of generalized linear models (GLMs), their use in forestry, fisheries, wildlife ecology, and environmental monitoring. Analysis of the statistical tests that fall under GLMs: chi-square tests on contingency tables, t-tests, analysis of variances, etc. Statistical software S+/R used throughout. Offered: Sp.

QERM 521 Scientific Method in Resource Management (4) *Ford* Describes process of scientific discovery and strategies used for problems in ecology and natural resources management. Relationships between growth and use of objective knowledge in natural resources management is explored through case studies.

QERM 550 Ecological Modeling and Spatial Analysis (5) *Ford* Describes the principles of ecological modeling, and theoretical and methodological issues involved in their design and implementation. Emphasizes the analysis of spatial processes and how such analyses are used in developing ecological models. Students make and analyze a spatial process and/or construct a model of their own choice. Offered: W.

QERM 551 Modeling Organism Dynamics (3) *Anderson* Application of techniques of stochastic differential equations, time series analysis, and

simulating dynamic processes to plant and animal growth.

QERM 597 Seminar in Quantitative Ecology (2) Current topics in quantitative ecology and resource management. Fisheries, forestry, and marine resources. Offered: ASP.

QERM 598 Special Topics in Quantitative Resource Management (1-3, max. 12) Population and community ecology, systems ecology, and physical processes in ecosystems. Prerequisite: permission of instructor.

QERM 599 Research in Quantitative Resource Management and Ecology (*, max. 12) Topics can be theoretical in nature or combined theory and experiment. Research might be a prelude to thesis or dissertation research. Credit/no credit only.

QERM 600 Independent Study or Research (*).

QERM 700 Master's Thesis (*).

QERM 800 Doctoral Dissertation (*).

Quaternary Sciences

QUAT 417 Environmental Change in the Glacial Ages (3) *NW Porter* Physical, biological evidence of climatic change during Quaternary Period; emphasizing stratigraphy, chronology. Impact of alternating glacial/interglacial cycles on earth's terrestrial, marine environments. Theories on causes of climatic variation. Offered: jointly with ESS 433.

QUAT 501 Seminar/Conference in Quaternary Environments (1, max. 6) Interdisciplinary seminar or conference in the changing natural environments of the Quaternary Period, with emphasis on climatic changes and their effects. Speakers from the University and elsewhere present lectures on their specialties, followed by discussion. Credit/no credit only.

QUAT 502 Interdisciplinary Quaternary Investigations (2, max. 6) Research course for interdisciplinary investigation of Quaternary problems. Student attends sessions of QUAT 501 and pursues a problem-oriented case study concurrently under faculty direction. Required paper on case study. Credit/no credit only. Prerequisite: graduate standing.

QUAT 504 Special Topics in Quaternary Sciences (1-3, max. 3) Environments and climate changes of past two million years (Quaternary Period) in context of modern surface processes, including historical changes, prehistorical environments of postglacial period, and Ice Age events. Provides scientific perspective on scale of modern and man-made environmental changes, including those of climate, in context of recent earth history. Credit/no credit only. Prerequisite: background courses in earth sciences and ecology.

Interschool or Intercollege Programs

Bioengineering

BIOEN 201 Bioengineering Laboratory (2)

Caster Introduction to bioengineering; laboratory safety, acquisition and analysis, presentation tools for biomedical applications. Prerequisite: MATH 124; PHYS 121. Offered: W.

BIOEN 299 Introduction to Bioengineering (1)

Verdugo Lectures on the various aspects of bioengineering; orientation in bioengineering studies and practice. Credit/no credit only. Offered: ASp.

BIOEN 301 Bioengineering Systems Analysis

(4) *Spelman* Investigates static and dynamic problems that are found in medicine and biology. Exposes students to real biomedical applications of first- and second-order differential equations. Students analyze current bioengineering and biomedical problems and make measurements of the systems that present those problems. Weekly laboratories. Prerequisite: BIOL 200 or BIOL 202; E E 215. Offered: Sp.

BIOEN 302 Introduction to Biomedical Instrumentation (4) *Folch* Introduces students to the theory of measurement and the practicalities of measurement of biological variables. Basic amplifier theory, discussion of noise in physical systems and its reduction. Some actuators used to test biomedical systems. Prerequisite: BIOEN 301; CSE 142. Offered: A.

BIOEN 303 Bioengineering Signal Processing

(4) *Li, Vicini* Introduction of signal processing techniques necessary to record and analyze medical and biological data. Students use transform calculus to analyze differential equations and develop approximations to functions. Introduces sampling and applies it to biological data. Prerequisite: BIOEN 302. Offered: W.

BIOEN 304 Introduction to the Bioengineering Analysis of Physiology I (4)

Pollack Introduction of engineering analysis of physiological systems. Course covers cellular function through its control by the central nervous system. Prerequisite: BIOEN 301; CSE 142. Offered: A.

BIOEN 305 Introduction to the Bioengineering Analysis of Physiology II (4)

Martyn Introduction to the cardiovascular system. Explores the cardiovascular system as an engineering system in which the heart is a pump, and the load and distribution of blood to organs on the heart depend on the demands of the system. Introduces principles of fluid transport. Prerequisite: BIOEN 302; BIOEN 304. Offered: W.

BIOEN 357 Introduction to Molecular Bioengineering (4)

Vogel Introduces molecular bioengineering. Molecules as building blocks to engineer surfaces. Molecular therapeutics, drug delivery, diagnosis and biomaterials. Examines design principles for biomedical materials and devices. Prerequisite: either BIOL 200 or BIOL 202; PHYS 122; either CHEM 223, CHEM 237, or CHEM 335. Offered: W.

BIOEN 420 Medical Imaging (4)

Kim, Yuan Various medical imaging modalities (x-rays, CT, MRI, ultrasound, PET, SPECT, etc.) and their applications in medicine and biology. Extends basic concepts of signal processing (BIOEN 303)

to the two and three dimensions relevant to imaging physics, image reconstruction, image processing, and visualization. Prerequisite: BIOEN 303; MATH 308; CSE 143. Offered: A.

BIOEN 436 Medical Instrumentation (4)

Introduction to the application of instrumentation to medicine. Topics include transducers, signal-conditioning amplifiers, electrodes and electrochemistry, ultrasound systems, electrical safety, and the design of clinical electronics. Laboratory included. For juniors, seniors, and first-year graduate students who are preparing for careers in bioengineering, both research and industrial. Offered: jointly with E E 436; Sp.

BIOEN 440 Introduction to Biomechanics (4)

Sanders Presents the mechanical behavior of tissues in the body and the application to design of prostheses. Tissues studies include bone, skin, fascia, ligaments, tendons, heart valves, and blood vessels. Discussion of the structure of these tissues and their mechanical response to different loading configurations. An important part of the class is a final project. Offered: jointly with M E 445; Sp.

BIOEN 455 BioMEMS (4)

Folch Introduction to BioMEMS. State-of-the-art techniques in patterning biomolecules, machining three-dimensional microstructures and building microfluidic devices. Various biomedical problems that can be addressed with microfabrication technology and the engineering challenges associated with it. Biweekly labs. Prerequisite: BIOEN 303. Offered: Sp.

BIOEN 457 Advanced Molecular Bioengineering (4)

Stayton Fundamentals of molecular recognition: thermodynamics, forces, kinetics. Manipulation of recognition processes for current molecular bioengineering research and development. Fundamental physical chemistry of molecular recognition in the context of biomedicine. Therapeutics based on cells. Prerequisite: BIOEN 357; BIOC 405. Offered: Sp.

BIOEN 467 Biochemical Engineering (3)

Baneyx Application of basic chemical engineering principles to biochemical and biological process industries such as fermentation, enzyme technology, and biological waste treatment. Rapid overview of relevant microbiology, biochemistry, and molecular genetics. Design and analysis of biological reactors and product recovery operations. Prerequisite: either CHEM 223 with CHEM E 340 or either CHEM 237 or CHEM 335; recommended: CHEM E 465. Offered: jointly with CHEM E 467; W.

BIOEN 470 Systems Engineering and Electronic Medicine (4)

Kim Provides students with understanding and hands-on experience in systems engineering, healthcare information systems, and core technologies for electronic medicine; including how large-scale engineering systems are defined, architected, built, and tested. Focus is on current and future medical systems. Prerequisite: BIOEN 303; MATH 308. Offered: W.

BIOEN 481 Research and Design Fundamentals (4)

Engineering design, planning and managing an open-ended project, bioengineering and society. Prerequisite: BIOEN 303; BIOEN 305. Offered: AWSPS.

BIOEN 482 Bioengineering Senior Capstone Research/Design ([2-6]-, max. 8)

Independent capstone design/research project; final paper. Prerequisite: BIOEN 303; BIOEN 305. Offered: AWSPS.

BIOEN 485 Computational Bioengineering (4)

Vicini Introduction to computational, mathematical and statistical approaches to the analysis of biological systems, including systems and control theory, molecular models and bioinformatics. Lectures and laboratory sessions emphasize practical problems in kinetics, metabolism and genomics. Prerequisite: CSE 143; BIOEN 305; MATH 308. Offered: W.

BIOEN 490 Engineering Materials for Biomedical Applications (3)

Bonadio, Horbett Combined application of principles of physical chemistry and biochemistry, materials engineering, to biomedical problems and products. Applications include implants and medical devices, drug delivery systems, cell culture processes, diagnostics, and bioseparations. Offered: jointly with CHEM E 490; Sp.

BIOEN 491 Controlled-Release Systems: Principles and Applications (3)

Hoffman Mechanisms for controlled release of active agents and the development of useful drug delivery systems for this purpose. Release mechanisms considered include diffusive, convective, and erosive driving forces. Delivery routes include topical, oral and in vivo. Some special case studies covered in detail. Offered: jointly with CHEM E 491; even years; W.

BIOEN 492 Surface Analysis (3)

Ratner Understanding of solid surfaces for research and development in microelectronics, catalysis, adhesion, biomaterials, science wear, and corrosion science. Newer methods available to study surfaces of materials. Electron emission spectroscopies (ESCA, Auger): ion scattering, ion spectroscopic, photon spectroscopic, and thermodynamic methods. Offered: jointly with CHEM E 458; W.

BIOEN 497 Bioengineering Education Outreach (1-2, max. 6)

Work with K-12 schools or community organizations. Current science education research and instructional techniques. May involve presentations or instruction in hands-on activities. Offered: ASp.

BIOEN 499 Special Projects (2-6, max. 6)

Individual undergraduate bioengineering projects under the supervision of an instructor. In addition, classes on selected topics of current interests as announced. Offered: AWSPS.

BIOEN 508 Physical Aspects of Medical Imaging (4)

Stewart Quantitative physical principles of medical imaging are presented for electromagnetic and sonic radiation. Methods of image formation and analysis are discussed for conventional film radiography, CT, DSA, PET, B-mode ultrasound and Doppler ultrasound. Offered: jointly with RADGY 508/ENV H 528; W.

BIOEN 510 Bioengineering Seminars (1)

Introductory seminar for new graduate students; review of departmental research.

BIOEN 511 Biomaterials Seminar (1)

Hoffman, Horbett, Ratner Presentation of student research results. Credit/no credit only. Prerequisite: permission of instructor. Offered: jointly with CHEM E 511; AWSPS.

BIOEN 520 Orthopedic Biomechanics (4) *Ching* Mechanical engineering applied to musculoskeletal system with emphasis on techniques in orthopedic surgery. Measurement of mechanical properties of tissues. mechanics of bone, soft tissue, and muscle, mechanics of upper extremity, spine, and lower extremity. Engineering in surgery, gait analysis, joint replacement, fracture fixation. Prerequisite: BIOEN 440. Offered: odd years; W.

BIOEN 540 Biosystem Identification (4) *Vicini* Fundamentals of mathematical modeling in medicine and biology. Introduction to compartmental models: a priori, a priori identifiability. Data measurement error, parameter estimation. Maximum likelihood, least squares. Introduction to tracer-tracee models, pharmacokinetics, pharmacodynamics. Models to test hypotheses. Hands-on computer experience. Prerequisite: ordinary differential equations, introductory statistics, or permission of instructor. Offered: even years; A.

BIOEN 542 Computer Simulation in Biology (3) *Bassingthwaighte, Graham* Introduction to mathematical modeling of biological phenomena. Tutorial text explains how to derive equations for simple models and apply them to generate simulation data. Application topics include kinetics of biomolecular reactions and enzyme saturation, membrane transport, organismal predation, competition and growth, compartmental and spatially distributed models, physiological control systems, probabilistic models. Prerequisite: P BIO 405 and P BIO 406 or equivalent or permission of instructor. Offered: even years; A.

BIOEN 545 Fractals in Biology and Medicine (3) *Bassingthwaighte* Introduction to fractal and chaos. Conceptual approaches to using fractals for characterizing structures and growth processes, describing heterogeneities, and evaluating properties of tissues. The behavior of non-linear systems, often chaotic, describes physiological homeodynamics, regulation without set points in feedback control. .

BIOEN 550 Mass Transport and Exchange in Biological Systems (3) *Bassingthwaighte* Review of basic mechanisms of transport; transport through vascular system and blood-tissue exchange processes in organs; integrated system analysis of closed systems and applications to physiological regulation, medical imaging, and pharmacokinetics. Prerequisite: calculus, introduction to differential equations; cardiovascular physiology; E E network analysis or systems analysis, chemical engineering transport. Offered: Sp.

BIOEN 555 Introduction to Biomechanics (3) *Pollack* Mechanical properties of biological tissues, with emphasis on the underlying histological bases. Bones, joints, cartilage, blood vessels, connective tissue, muscle, heart. Many laboratory sessions. Offered: odd years; W.

BIOEN 560 Ultrasound in Bioengineering (4) *Vaezy* Fundamentals of ultrasonic generation, formation, reception, and treatment of absorption, scattering, and transmission. Conventional and new methodology. (A, B, T-M mode, imaging, Doppler, tissue characterization, and nonlinear effects.) Prerequisite: E E/M E 525 for nonbioengineering students or permission of instructor. Offered: odd years; Sp.

BIOEN 561 Biomedical Optics (4) Advanced theories of optical and spectroscopic measurement with emphasis on biomedical laser

applications. Laser principles, instrumentation, and current practice in various biomedical uses, covering such areas as medicine, surgery, and biology. Prerequisite: BIOEN 302 or equivalent, or permission of instructor. Offered: even years; Sp.

BIOEN 565 Nuclear Magnetic Resonance in Biomedicine (2) Basic physics of nuclear magnetic resonance (NMR) imaging and spectroscopy are presented. Research applications of NMR in physiology and biochemistry are reviewed with emphasis on the brain. Grade based on written tests and small research paper. Prerequisite: permission of instructor. Offered: jointly with RADGY 550; odd years; W.

BIOEN 568 Image-Processing Computer Systems (4) *Kim* Components of digital processing computer systems. Two-dimensional filtering and optimal filter design as well as basic image-processing operations. Selected advanced image-processing topics introduced. Individual student project. Prerequisite: permission of instructor. Offered: jointly with E E 568; Sp.

BIOEN 571 Polymeric Materials (3) *Ratner* Relationships between configuration, conformation, molecular order, microstructure, properties of polymeric materials. Concepts relevant to tailoring polymer molecules and microstructures for specific applications. Interactions between polymers and their in-service environment. Characterization and processing techniques relevant to polymeric materials. Prerequisite: one semester or two quarters of organic chemistry. Offered: jointly with MSE 571.

BIOEN 573 Biosensors and Biomedical Sensing (3) *Yager* In-depth overview of the principal types of biosensors. Topics include: how biological molecules are used in sensing, how the sensors operate, how different sensors compare, under what circumstances sensors can be useful, and the applicability of sensors to biomedical sensing. Prerequisite: BIOEN 436 or permission of instructor. Offered: odd years; A.

BIOEN 575 Molecular Modeling Methods (4) *Beard* Introduction to theory and practice of computer simulation studies of molecules with emphasis on applications to biological molecules and complexes. Discussion of background theory, implementation details, capabilities and practical limitations of these methods. Prerequisite: previous coursework in biochemistry and physical chemistry and/or permission of instructor. Offered: jointly with CHEM 575; A.

BIOEN 576 Laboratory Techniques in Protein Engineering (4) *Stayton* Practical introduction to fundamentals of recombinant DNA technology and protein engineering. Gene design, bacterial molecular biology, genetic engineering strategy. Laboratory project focused on making site-directed protein mutations. Techniques include the Polymerase Chain Reaction, DNA sequencing, DNA cutting/splicing, protein expression. Prerequisite: background in biochemistry or molecular biology or consent of instructor. Offered: W.

BIOEN 577 Cell and Protein Reaction with Foreign Materials (3) *Horbett* Study of ways in which cell and protein interactions with foreign materials affect the biocompatibility of biomaterials. Description of the phenomenology and mechanisms of protein adsorption, mammalian cell adhesion, and cell receptor

biology and of methods used to study these phenomena. Surface properties of materials discussed in context of the course. Prerequisite: permission of instructor. Offered: even years; A.

BIOEN 578 Biomembranes (3) *Yager* Develops an understanding of the molecular principles that underlie the self-assembly of surfactants into natural and model membranes; in particular, on the relationship between the chemical structure of lipid molecules and the three-dimensional aggregates that they form in water Offered: A.

BIOEN 579 Host Response to Biomaterials (3) *Giachelli* Basic cell and molecular biology of the pathologies associated with biomaterial implantation that limit bioprosthetic use, including hemostasis, infection, acute and chronic inflammation, wound healing and fibrosis, and structural alterations. Major methods for histological analysis of retrieved implants. Prerequisite: general biology, BIOEN 490 (may be taken concurrently) or permission of instructor. Offered: odd years; W.

BIOEN 584 Computational and Integrative Bioengineering (4) *Vicini* Advanced computational, mathematical, and statistical approaches to the analysis of biological systems, including molecular models, time series, fractal systems, population kinetic analysis, and stochastic simulation. Lectures and laboratory sessions emphasize practical problems in kinetic analysis, metabolism, and genomics. Final project, written and oral reports. Prerequisite: BIOEN 485. Offered: odd years; Sp.

BIOEN 588 Bioengineering Principles of Physiology (4) *Bonadio, Kushmerick* Muscle exemplifies: protein-protein interactions; molecular recognition; proteins as machines; functional scaling; computing and signaling with metabolic machines; metabolic processes as chemical networks; membrane separation into functions; channels as communication machines; neural control and function. Prerequisite: BIOL 200 or equivalent or permission of instructor; recommended: BIOEN 304, P BIO 405. Offered: A.

BIOEN 589 Integrative Physiological Systems Analysis (4) *Bassingthwaighte* Physiological systems, emphasizing cardiovascular, pulmonary and to a lesser extent, renal, hepatic, and endocrine systems, described in quantitative terms, using model representation for examples and problems. Laboratories. Prerequisite: BIOEN 588, calculus and ordinary differential equations. Offered: W.

BIOEN 590 Advanced Topics in Biomaterials (3) *Bonadio* Major, controversial issues in application of synthetic materials to medical problems. Blood compatibility, bioadhesion, intraocular lenses, contact lenses, polyurethanes, biodegradation, protein adsorption, corrosion, bone fixation, new materials, artificial heart, medical device regulation. Prerequisite: BIOEN 490 or CHEM E 490. Offered: jointly with CHEM E 590; odd years; Sp.

BIOEN 592 Surface Analysis (3) *Ratner* Understanding of solid surfaces for research and development in microelectronics, catalysis, adhesion, biomaterials science, wear and corrosion science. Newer methods available to study surfaces of materials. Electron emission spectroscopies (ESCA, Auger); ion scattering, ion spectroscopic, photon spectroscopic, and thermodynamic methods. Offered: jointly with CHEM E 558; W.

BIOEN 599 Special Topics in Bioengineering (1-6, max. 15) Offered at a graduate level periodically by faculty members within the Department of Bioengineering; concerns areas of research activities with current and topical interest to bioengineers. Prerequisite: undergraduate or graduate courses (or equivalent) determined individually for each special topic. Offered: AWPpS.

BIOEN 600 Independent Study or Research (*) Credit/no credit only. Offered: AWPpS.

BIOEN 700 Master's Thesis (*) Credit/no credit only. Offered: AWPpS.

BIOEN 800 Doctoral Dissertation (*) Credit/no credit only. Offered: AWPpS.

Quantitative Science

Q SCI 110 Introduction to Environmental Modeling (5) NW, QSR *Greulich, Bare, Francis* Introduction to the development and use of system models for studying the dynamics of natural and managed systems. Examines modeling process using natural resource management, environmental science, and biological examples. Uses STELLA software to illustrate systems concepts and to design, build, and explore model behavior.

Q SCI 291 Analysis for Biologists I (5) NW, QSR *Briggs, Greulich, Johnson* Introduction to differential calculus, emphasizing development of basic skills. Examples promote understanding of mathematics and applications to modeling and solving biological problems. Topics include optimization and curve analysis. Prerequisite: either MATH 120, a minimum score of 2 on advanced placement test, or a minimum score of 67% on MATHPC placement test. Offered: AWS.

Q SCI 292 Analysis for Biologists II (5) NW, QSR *Gallucci, Greulich, Johnson* Introduction to integral calculus, emphasizing development of basic skills. Examples promote understanding of mathematics and applications to modeling and solving biological problems. Topics include areas under curves, volumes, and differential equations. Prerequisite: Q SCI 291. Offered: WSpS.

Q SCI 293 Analysis for Biologists III (5) NW, QSR *Gallucci, Johnson* Additional topics in calculus and matrix algebra. Examples promote understanding of mathematics and applications to modeling and solving biological problems. Topics include infinite series, differential equations, vectors, functions of several variables, partial derivatives, and use of computer software. Prerequisite: Q SCI 292.

Q SCI 381 Introduction to Probability and Statistics (5) NW, QSR Applications to biological and natural resource problems stressing the formulation and interpretation of statistical tests. Random variables, expectations, variances, binomial, hypergeometric, Poisson, normal, chi-square, "t" and "F" distributions. Prerequisite: either MATH 120, 124, 125, 126, 144, or QSci 291 and QSci 291, a minimum score of 2 on advanced placement test, or a minimum score of 67% on MATHPC placement test. Offered: AWPpS.

Q SCI 392 Techniques of Applied Mathematics in Biology I (3) NW Ordinary differential equations-linear and nonlinear; systems of differential equations; approximation techniques,

numerical solution techniques; applications to biological processes. Prerequisite: Q SCI 292.

Q SCI 393 Techniques of Applied Mathematics in Biology II (3) NW Applications of advanced ordinary differential equations, special functions, and partial differential equations to descriptions of biological phenomena. Particular emphasis on transport in biological systems, including diffusion and fluid flow. Prerequisite: Q SCI 392.

Q SCI 456 Introduction to Quantitative Fishery Science (5) NW Conveys fundamental concepts of fish population dynamics and fishery management within context of real-world fisheries problems. Lectures discuss notation, terminology, mathematical models, fisheries principles, and case studies. Laboratory time devoted to practical applications, problems. Recommended: either MATH 125, MATH 135, or Q SCI 292; Q SCI 381. Offered: jointly with FISH 456; A.

Q SCI 458 Fisheries Stock Assessment (4) NW *Francis* Emphasizes quantitative analysis of fisheries data to determine how the fishery would respond to alternative management actions. Major topics include production models, stocks and recruitment, catch at age analysis, and formulation of harvest strategies. Recommended: either Q SCI 456 or FISH 456. Offered: jointly with FISH 458; Sp.

Q SCI 477 Quantitative Wildlife Assessment (5) NW *Skalski* Focuses on wildlife sampling techniques for estimating animal abundance, home range, and survival rates in terrestrial populations. The design of wildlife investigations for the purposes of impact assessment, research, and resource management is integrated with estimation schemes and demographic models in a quantitative framework. Prerequisite: Q SCI 292; Q SCI 482.

Q SCI 480 Sampling Theory for Biologists (3) NW *Gallucci, Rustagi* Theory and applications of sampling finite populations including: simple random sampling, stratified random sampling, ratio estimates, regression estimates, systematic sampling, cluster sampling, sample size determinations, applications in fisheries and forestry. Other topics include sampling plant and animal populations, sampling distributions, estimation of parameters and statistical treatment of data. Prerequisite: Q SCI 482; recommended: Q SCI 483. Offered: jointly with STAT 480; even years.

Q SCI 482 Statistical Inference in Applied Research (5) NW Analysis of variance and covariance; chi square tests; nonparametric procedures multiple and curvilinear regression; experimental design and power of tests. Application to biological problems. Use of computer programs in standard statistical problems. Prerequisite: either STAT 311 or Q SCI 381. Offered: AWS.

Q SCI 483 Statistical Inference in Applied Research (5) NW Analysis of variance and covariance; chi square tests; nonparametric procedures multiple and curvilinear regression; experimental design and power of tests. Application to biological problems. Use of computer programs in standard statistical problems. Prerequisite: either Q SCI 381 or Q SCI 482. Offered: W.

Q SCI 486 Experimental Design (3) NW Topics in analysis of variance and experimental designs: choice of designs, comparison of efficiency,

power, sample size, pseudoreplication, factor structure. Prerequisite: Q SCI 482; recommended: Q SCI 483. Offered: jointly with STAT 486.

Q SCI 497 Special Topics in Quantitative Science (1-15, max. 15) NW Topics not normally offered in regular curriculum. Format ranges from seminar/discussion, formal lectures, laboratory or modeling work. Offered: AWPpS.

Q SCI 498 Internship (1-15, max. 15) Internship experience with a public agency or private company, supervised and approved by a faculty member. Preparation of professional report reflecting on the experience is required. Credit/no credit only. Offered: AWPpS.

University Conjoint

UCONJ 100 Introduction to Health Professions (1) *Garcia* Opportunities in health professions. Information on educational requirements, professional/patient interaction, licensing, registering for practice in profession, salaries, and career opportunities.

UCONJ 290 Diversity Issues in the Health Care Environment (1-2, max. 2) I&S Introduction to the complexity of the issues surrounding culture and health, the interrelatedness of ethnic and cultural characteristics and health care access, health and health care concerns of specific communities, traditional and alternative health care practices, and community-based promotion and disease prevention programs.

UCONJ 410 Health in the Context of Italian Culture (5) While in Italy, participants study relationship between current health issues, contemporary Italian history, socio-cultural environment, and European Union; health status of vulnerable populations; characteristics of culture and health care system that promote healthy outcomes; differences between health behaviors and outcomes in Italy and US. Offered: A.

UCONJ 411 Psychology of Aging (3) *Kiyak* Focuses on developing the skills necessary for critically evaluating current psychological theories of aging, research findings in this area, and the implications of findings on the aging person. Special consideration given to the effects of socioeconomic, sex, and ethnic differences in the psychology of aging. Open to upper-division undergraduates and beginning graduate students interested in the field of gerontology.

UCONJ 412 The Family in Later Life (3) Focuses on issues affecting older persons and their families. Addresses demographic influences on families; roles, rules for and function of family members; inter-generational relationships; economics, political, and social policy affecting family life; and cultural variations and supportive resources for older persons and their families.

UCONJ 413 Current Issues in Aging (3) Describes the population trends at work in the United States and other developed nations with significant societal implications for care and management of elders. Evaluates selected public policies related to aging. Gives students proficiency in using resources related to aging on the Internet. Evaluates alternative long-term care models.

UCONJ 420 Biological Safety Practices (1) *Kenny* General introduction to appropriate

laboratory procedures used for handling potentially hazardous biological agents. Particular focus on laboratory safety and appropriate protocols that should be employed by those engaged in infectious disease and recombinant DNA research. Credit/no credit only.

UCONJ 422 Sexually Transmitted Diseases: An Overview (2) *Gardner* Clinically oriented course designed to provide a knowledge base for upper division health science students to participate effectively in community outreach programs for the prevention of sexually-transmitted diseases. Offered cooperatively by the departments of Pharmacy and Medicine.

UCONJ 440 Biological Aspects of Aging (3) Introductory course on aspects of the biology of human aging and of functional changes associated with normal aging and with those illnesses that may be present in the elderly. Focus on the relationship between changes in physical function, environment, and quality of life. Includes theoretical perspective on aging as well as the aging process in specific physiological systems. Designed for upper-level undergraduate students with an interest in aging.

UCONJ 442 Social and Cultural Aspects of Aging (3) Involves faculty members from the various social science fields examining the range and variation of relationships among age-linked attitudes and cultural values related to aging; the social and economic factors that influence the elderly in contemporary society; the effects of ethnic and sex differences in sociocultural aging. Open to upper-division undergraduates and beginning graduate students interested in gerontology.

UCONJ 443 Interdisciplinary Seminar on Aging (1-6, max. 15) *Borgatta* Interdisciplinary examination of the contemporary theoretical literature on gerontology and long-term care. For upper-level undergraduate and graduate students with an interest in aging. Quarterly offerings available from the Institute on Aging.

UCONJ 444 Interdisciplinary Collaborative Teams in Health Care (1-5, max. 10) Course open to students in UW Health Sciences schools. Students function as an interdisciplinary learning group within a problem based learning framework. The primary goal of the course is to promote the development of interdisciplinary practice in the care of urban and rural underserved patient populations. Credit/no credit only.

UCONJ 445 Bioterrorism Awareness for Health Professionals (1) Provides content in bioterrorism awareness for students in the health professions. First in a two-course interdisciplinary sequence focusing on awareness level training designed to enhance recognition of an injury of illness potentially arising as a result of exposure to select chemical and biological agents. Credit/no credit.

UCONJ 446 Bioterrorism Preparedness and Response for Health Professionals (2, max. 6) Focuses on bioterrorism preparedness and response for health professionals. Includes planning, system, and policy issues with an emphasis on clinical relevance. Content compliments UCONJ 445 (not a prerequisite).

UCONJ 450 Health Care in the Underserved Community (1) Recommended for students who are working with underserved communities. Students learn about the underserved population

served by the community health projects on campus with a focus on inter-professional patient care.

UCONJ 490 Social Sensitivity in Health Care (3) I&S Multidisciplinary course for health professions students. Health professionals' roles in dealing with social, cultural, and physical barriers to health care of low-income groups and ethnic people of color. Personal involvement through field experiences and faculty drawn from affected communities as well as health sciences, social work schools. Credit/no credit only.

UCONJ 497 Health Care in a Rural Community (3) Critical analysis built upon concepts relative to interdisciplinary health-care delivery in a rural community. Students develop an organizational model for rural health care and study innovative ways of mobilizing community resources and support for a comprehensive rural health-care system. Pharmacy students, nurses, and other health professionals study application of theory in an appropriate clinical setting within the conceptual framework of each student's professional field.

UCONJ 500 Seminar in Interprofessional Collaboration ([1-3]-, max. 7) Interdisciplinary teams composed of students and community members placed in diverse urban settings to address an identified community need by developing and implementing collaborative, community-based projects. Seminars emphasize interprofessional collaborative practice, intrapersonal understanding, interpersonal group process skills, organizational savvy, community awareness, and sociocultural sensitivity. Graduate School of Public Affairs. Offered: AWSp.

UCONJ 501 International Health (1) *Wade* Weekly seminar introduces students to issues and opportunities of participating in health care systems in other countries. Guest speakers bring many perspectives of international health care experiences. Class discussions help prepare students for international placements.

UCONJ 502 International Health (1) *Wade* Weekly seminar introduces students to issues and opportunities of participating in health care systems in other countries. Guest speakers bring many perspectives of international health care experiences. Class discussions help prepare students for international placements.

UCONJ 503 International Health (1) *Wade* Weekly seminar introduces students to issues and opportunities of participating in health care systems in other countries. Guest speakers bring many perspectives of international health care experiences. Class discussions help prepare students for international placements.

UCONJ 505 Professional Interpersonal Styles of Communication with Families to Enhance Health Outcomes (3) Complex communication processes evaluated and applied to the family as unit of interaction within interdisciplinary context. Empirical based communication practices analyzed considering family variables adherence, satisfaction, health outcomes, and cost effectiveness. Engagement in experiential learning through challenging clinical scenarios. Emphasizes cultural competencies. Prerequisite: professional student or permission of instructor.

UNCONJ 510 Integrating Arts in the Classroom (4) Prepares prospective elementary education teachers to understand and acquire

arts literacy through a comprehensive approach to learning and teaching in and through the arts. Course is school and arts-site based, inclusive of multiple art forms. Based on comprehensive art principles, and project oriented. Credit/no credit only. Offered: Sp.

UCONJ 511 Issues in Home Health Care Delivery (3) Service delivery issues relevant to provision of health care services across the life span in the home setting. Home health care as an important component in health care system. Individual and multidisciplinary practice of health care disciplines. Emphasis on research literature. Prerequisite: graduate student standing, upper division with permission of instructor.

UCONJ 513 Dynamics of Patient Management: Diabetes Mellitus (2) Analysis of advanced knowledge related to interdisciplinary management of diabetes. Commonalities and differences in provider approaches, recent research and its effect on management practices, collaborative communication, knowledge application. Brief interactive presentations, decision-making opportunities, discussion. Credit/no credit only. Prerequisite: graduate standing in pharmacy, dietetics, nursing; third- or fourth-year medical student; or permission of instructor.

UCONJ 515 Promoting Health Behavior for Individuals and Families (2/4, max. 4) *Brandt, Jordan, Kieckhefer, Lewis, Solchany, Spieker* Practice-focused, evidence-based, theory-driven intervention strategies to promote healing and health behavior at selected points from birth to death. Relevant for clinicians from diverse health settings. Emphasis on clinical skill development including decision-making and outcome management applicable for individuals and families. Prerequisite: permission of instructor. Offered: Sp.

UCONJ 520 Molecular Biophysics Research Seminar (1) *Parson* A series of research seminars for faculty and students involved with the molecular biophysics program. Credit/no credit only.

UCONJ 524 Developmental Neurobiology (3) *Raible, Reh, Roelink, Rubel* Survey of contemporary issues in developmental neurobiology, including neurogenesis and differentiation; electrophysiological, morphological, and neurochemical regulation of cellular phenotype; neuronal pathways and synaptic contacts; cellular and synaptic plasticity; and behavior. Examination of molecular biological, morphological, electrophysiological, and behavioral approaches. Prerequisite: background in neurophysiology, neuroanatomy, molecular neurobiology. Offered: Sp.

UCONJ 525 Overview of Faculty Research in Neurobiology (1) Reviews research topics currently being studied in neurobiology. Student preparation consists of reading pertinent articles published on each topic. Credit/no credit only. Prerequisite: first-year graduate student in neurobiology.

UCONJ 530 Issues in Indian Health (3) Survey of historical and contemporary issues in Indian Health. Covers Indian contributions to health, traditional Indian Medicine, current disease epidemiology, development of Federal Indian Health policy, the Indian Health Service, tribal health programs, and consequences of major legislation on Indian Health. Prerequisite: current health science student or permission of instructor.

UCONJ 532 Introduction to Mind Body Medicine-An Experiential Elective (2) Sessions contain a didactic component followed by an experiential component and cover a variety of self-care techniques including meditation, exercise, and nutrition. The goals are to promote personal well being, a healthy lifestyle, reduce burnout, and reduce academic difficulties. Credit/no credit only.

UCONJ 540 Environmental Change and Human Health: The Role of the Health Professional (1/2, max. 2) *Oberle, Rosenblatt* Explores the effect of environmental deterioration on human health, and presents tools to address the problem. Offered: Sp.

UCONJ 548 Current Issues in First Nations Behavioral Health: Mental Health and

Substance Abuse (3) Historical and intergenerational antecedents of tribal psychiatric and substance abuse disorders. Oppression, economic circumstances, and family functioning as shaping mechanisms for attachment. Implications of insufficient attachment for neuro-development and developmental psychopathology. Traditional vs. mental health and substance abuse assessment and treatment. Self as provider to tribal clients, communities, systems.

CONJ 553 Clinical Management of HIV and STIs (3) Develops skills related to providing HIV/SDB healthcare through a Web-based curriculum and weekly seminar. Prerequisite: familiarity with principles of clinical care and the ability to perform a routine history and physical examination.

UCONJ 555 Principles of STD/HIV Research (3) Provides MD and PhD fellows and graduate students with a comprehensive overview of the current state of knowledge in specific areas of STD/HIV research, including study design, laboratory methods, production of instruments for data collection, and methods for data analysis. Credit/no credit only.

UCONJ 584 Plant Tumors (1, max. 9) *Gordon* Discussion of the literature of plant tumors and current research work being carried on in this area at the University. Offered cooperatively by the departments of Biochemistry, Botany, and Microbiology and Immunology. Credit/no credit only. Prerequisite: offered only to persons actively pursuing work in this area.

School of Law

Law

LAW 300 Introduction to Law (3-6, max. 5) I&S Understanding the legal system, its functions in the social-economic order, legal reasoning, and the world of legal education and the legal profession. Open to nonlaw students only.

LAW 410 Problems in Professional Responsibility (4) I&S .

LAW 415 Criminal Justice (3) I&S Examines pre-trial rights of persons suspected or accused of crime, primarily those rights covered by the Fourth, Fifth, Sixth, and Fourteenth Amendments of the U.S. Constitution.

LAW 416 International Contracting: Negotiation and Drafting (3) I&S Skills course designed to introduce process and problems of negotiating and drafting international agreements. Client interviewing and counseling and negotiation and drafting of a contract between parties in the United States and Japan. Credit/no credit only. Open to nonlaw students only.

LAW 422 Copyright (3) I&S .

LAW 429 Public Land Law (3) I&S .

LAW 440 Legal Issues of Internet Law (3) I&S Introduces the basic legal issues raised by networked digital technologies, such as the Internet. Covers jurisdiction, speech, privacy/access, propriety rights (copyrights, domain names), emerging law, leading policy debates, as well as fundamental Internet technical skills. Offered: S.

LAW 442 Land Law and the Urban Environment (3) I&S Examination of the major legal tools available to shape the urban environment by controlling the use of land. Considers zoning, subdivision controls, urban renewal, private land-use restrictions, and the rules of nuisance law. Credit/no credit only. Open to law and nonlaw students.

LAW 443 The Legal Process I (3/5) I&S The system of law and its functions rather than substantive law pertaining to any particular subject or discipline. Open only to nonlaw students. Credit/no credit only.

LAW 444 Constitution and American Public Education (3-6, max. 6) I&S Examines the relationships between the Constitution of the United States and the American system of public

education, excluding higher education, in areas of constitutional freedom and legal controls, racial desegregation, and equal educational opportunity, including equal financing of the public schools. Credit/no credit only. Offered: jointly with EDLPS 444.

LAW 445 Major Issues in American Constitutional Law (3) I&S Significant themes in American constitutional law. Doctrine of judicial review, application of the Bill of Rights to the states, Supreme Court's recognition of fundamental rights, the Equal Protection clause, the Religion clauses, freedom of speech, and Presidential powers. Open to law and nonlaw students.

LAW 447 Critical Perspectives in Law (3) I&S Examination of modern critical legal thought and critics views regarding proposed alternative forms of social ordering.

LAW 467 American Law and the American Indian (3) I&S Relationship between Indians and the United States from 1789 to the present. Significant constitutional, legislative, and judicial actions. Legal events explored within their political, military, social, and cultural contexts. Comparisons with other minority-group experiences. Offered: jointly with HSTAA 416.

LAW 476 International Economic Relations and Trade Policy (3) I&S Consideration of international control of national trade policies and permissible transnational reach of national trade or other regulation The General Agreement on Tariffs and Trade (GATT) and the international monetary system examined from legal and economic perspective. Examination and comparison of prescriptive jurisdiction to public international law.

LAW 477 Law Literature and Film (2-4, max. 4) I&S/VLPA An examination of literary and cinematic portrayals of and issues important to law, lawyers, and the legal system. Considers both portrayals purporting to depict the legal system as well as works envisioning lawyers and the legal system in a "better world."

LAW 481 Land, American Culture and the Law: Perspectives on the Use and Ownership of the Natural Environment (1-6, max. 6) I&S .

LAW 489 Law and Aging (3) I&S Survey of principal areas of law of special concern to aging population, considering health care and health care decision-making, public and private income

maintenance programs, taxation, guardianships, conservatorships and other methods of protecting the property of the elderly, counseling, and professional responsibility.

Emphasis on the historical development and traditional roles of law, the reception of Western law, and cultural and structural factors that influence the function of law and legal institutions.

LAW B 543 Intellectual Property Law in East Asia (3) .

LAW B 544 Transnational Litigation: United States-Japan ([2-4]-, max. 4) .

LAW B 545 Survey of American Law and Practice (6) Provides an integrated introduction to the U. S. legal system, legal analysis, legal research, and legal writing. Introduces tools and techniques for basic legal research in U. S. materials. Credit/no credit only.

LAW B 546 United States-Japanese Corporate Relations ([2-4]-, max. 4) .

LAW B 549 Government Regulation of Business in Japan (3) Offered: jointly with SISEA 549.

LAW B 550 Legal Analysis and Research for Students Not Trained in the Common-Law System ([1-4]-, max. 4) .

LAW B 551 Comparative Law Seminar ([2-6]-, max. 6) .

LAW B 552 Tutorial in Comparative Law ([1-4]-, max. 4) .

LAW B 553 Chinese Legal Tradition (3)
Offered: jointly with SISEA 553.

LAW B 555 Roman Law (3) .

LAW B 556 Islamic Law (3) Selected topics in Islamic law that highlight major aspects of Islamic civilization. Offered: jointly with NEAR E 524.

LAW B 557 Southeast Asian Law (2-4, max. 4)
Two or three countries in Southeast Asia are selected as case studies. Examines their legal and political histories; legal institutions and legal professions; commercial and investment laws; and compliance questions relating to labor standards, corruption, and human rights.

LAW B 558 Doctoral Thesis Seminar (2)
Students draft thesis abstracts, tables of contents, preliminary chapters, and presents arguments orally to identify core theories and applied studies to incorporate in their work. Read a selection of published work and indicative articles drawn from the list of relevant sources for individual thesis-in-development.

LAW B 559 Comparative Law: Europe, Latin America, and East Asia (4) .

LAW B 560 Criminal Justice Externship (1-15, max. 15) Credit/no credit only.

LAW B 561 International Law of the Sea (3)
Offered: jointly with SMA 506.

LAW B 562 Quantitative Methods (4) .

LAW B 563 Ocean Policy and Resources Seminar (3-) Study and research in selected legal problems relating to ocean and coastal law, marine trade and transportation, marine resources, and protection of the marine environment. Students prepare and present a research paper and critique papers prepared by other students. Prerequisite: LAW B 561, LAW B 565.

LAW B 565 U.S. Coastal and Ocean Law (4) *Allen* Study of the legal framework in the United States controlling allocation and use of coastal and marine resources. Topics include coastal zone management, fisheries management, protection of marine mammals and endangered species, marine pollution, offshore oil and gas development, and marine transportation. Offered: jointly with SMA 515.

LAW B 567 General Externship Perspectives Seminar (2) Credit/no credit only.

LAW B 573 Supreme Court Decision Making (2-4, max. 4) Examines Supreme Court decision making from both a theoretical and practical perspective. Surveys representative cases on the Court's current docket. Extensive preparation required of participants, who play the roles of lawyers, justices, and commentators. Emphasis on developing appellate advocacy skills.

LAW B 577 Law, Literature and Film ([2-4]-, max. 4) An examination of literary and cinematic portrayals of, and issues important to law, lawyers, and the legal system. Considers both portrayals purporting to depict the legal system as well as works envisioning lawyers and the legal system in a "better world."

LAW B 578 Seminar on Legal Problems of Economic Development ([1-6]-, max. 6) .

LAW B 580 Externship Tutorial (2) Credit/no credit only.

LAW B 581 Land, American Culture, and the Law: Perspectives on the Use and Ownership of the Natural Environment ([1-6]-, max. 6) .

LAW B 584 Indian Law Seminar ([2-6]-, max. 6) .

LAW B 589 Intellectual Property Law Seminar ([1-4]-, max. 4) .

LAW B 590 The United States Constitution: Past, Present, and Future (2) .

LAW B 593 Natural Resources Commons Property (3) A review of the different forms of natural resources and an exploration of the desirability of managing certain resources as commons or private property. Covers a review of the successes and failures by various groups in setting policy in this area.

LAW B 596 International Protection of Human Rights ([2-4]-, max. 6) *Stilt* .

LAW B 597 History of the Formation of the United States Constitution Seminar ([2-6]-, max. 6) .

LAW B 599 Special Topics (1-12, max. 12).

Law E

LAW E 500 Advanced Writing Project (1-3, max. 3) Independent research and writing project supervised by a faculty member. Projects are structured to develop skills in research, analysis, and writing. Offered: AWSpS.

LAW E 502 White Collar Crime (4) .

LAW E 503 Analytic Writing (3) .

LAW E 504 Emerging Issues in Urban Government Seminar (6) Focuses on currently emerging issues in local government, such as municipal regulation of land use, the initiative process, technology and privacy, governmental responses to urban social problems and regional challenges. Production of publishable paper by student satisfies the advanced writing project requirement.

LAW E 505 Frontiers of Tort Law (3) .

LAW E 506 Asian Contract Law and Practice

(3) Examines how economic deregulation, financial restructuring and technological change affect contracts in Asia. Topics include licensing, franchise and e-commerce contract in Japan, China, and Taiwan; contract law and practice in Vietnam and Indonesia; cultural norms in contracting; convergence toward "global standards;" and the role of lawyers and other agents.

LAW E 507 Access to Justice Seminar (2)
Explores the legal, ethical, and financial issues involved in providing legal services to moderate income persons. Uses a combination of lectures and interactive discussion. Credit/no credit only.

LAW E 509 European Union Law (3) Survey of the legal origins of the European Union and the synthesis of the major European legal traditions achieved. Focus on the process of harmonizing national laws of the member states and economic integration in the area of competition law and free movement of goods and services.

LAW E 512 Law, Globalization, and Multinational Corporations (3) An interdisciplinary workshop that examines the role of multinational corporations in a global society. Topics include the legal construct of the multinational corporation, the multinational and the state, the multinational and human rights, and the multinational in the international arena. Offered: jointly with SIS 562.

LAW E 514 The Law of Nonprofit Organizations (2-4, max. 4) Examines laws generally applicable to nonprofit corporations and legal issue relating to cooperatives, credit unions, and thrift/mutual associations. Attention given to the Washington Nonprofit Corporations Act with comparable statutes and model legislation.

LAW E 515 Criminal Justice (3) .

LAW E 516 Advanced Criminal Procedure (5)
Covers the formal charging, trial, and appellate stages of criminal proceedings, including grand jury proceedings, prosecutorial discretion in charging, pretrial release and detention, charging and venue joinder and severance, double jeopardy assistance of counsel, discovery, and disclosure, criminal trials appeals, and collateral post conviction remedies. Prerequisite: LAW A 505; LAW B 515.

LAW E 517 Foreign Trade and Investment Law of the People's Republic of China (1-4, max. 4) Introduction to the regulatory regime governing foreign trade and investment in China and in-depth coverage of key aspects of the regime, with focus on issues faced by U.S. businesses. Covers specific regulations, their implementation in practice, as well as the political and economic background. Offered: jointly with SISEA 517.

LAW E 519 Philosophy of Law (4) Explores jurisprudence as "the jurist's quest for a systematic vision that will order and illuminate the realities of the law" and legal philosophy as "the philosopher's effort to understand the legal order and its role in human life." Examines various texts, emphasizing works of one or more proponents and critics of liberalism.

LAW E 521 Advanced Trial Advocacy (3) .

LAW E 522 Sexual Orientation, Gender Identity, and the Law Seminar (1-4, max. 4)
Nicolas Examines questions regarding sexual orientation and gender identity as they relate to

the areas of criminal, constitutional, employment, tort, and family law. Topics include equal protection, freedom of association, public and private employment discrimination, same-sex marriage and non-marital alternative to marriage, parenting, hate crimes legislation, sodomy laws, and the legal profession. Offered: S.

LAW E 523 Intellectual Property Law Clinic (3)
Clinical training in intellectual property law. Prerequisite: LAW A 526, LAW E 547, or LAW A 546. Offered: S.

LAW E 524 Child Advocacy Clinic ([4-12]-, max. 12) Credit/no credit only.

LAW E 525 Poverty Law (4) Overview of legal issues affecting poor people, including relevant background readings on poverty and access to justice, and selection problems such as housing and homelessness, education, employment issues of low-wage workers, income support and welfare reform, consumer law, family law, and child care.

LAW E 526 Law Reform in Transition Economies Seminar (2-, max. 6) *Clarke, Ramasastry, Taylor* Using interdisciplinary perspectives and case studies, this seminar probes the assumptions, methods and outcomes of commercial law reform in transition economies. Also highlights and critiques the role of international lawyers in this important, emerging area of practice.

LAW E 527 Automobile Impoundment Defense Clinic (3/4) Clinical training protecting rights of low-income people who stand to lose their vehicles under Seattle's Driving While License Suspended (DWLS) car impoundment law (akin to a forfeiture program) without having been convicted of DWLS. Counsel walk-up clients at Seattle Municipal Court, conduct legal research on possible challenges to vehicle seizure.

LAW E 528 Appellate Advocacy Clinic (2-, max. 4) Clinical training in appellate litigation with both seminar and practical components dealing with appellate procedure, strategy, and applicable substantive law. Students represent clients in state appellate court, writing at least one appellate brief and participating in oral argument.

LAW E 529 Tribal Court Criminal Defense Clinic (4-, max. 12) Offers clinical training in substantive areas of law implicated in representation of Native American defendants in tribal court criminal proceedings. Open to third year students in the JD program. Recommended: American Indian Law, Evidence, Criminal Procedure, Trial Advocacy. Offered: AWSp.

LAW E 531 Basic Income Tax Concepts (3)
Basic federal income tax principles, how the tax law impacts a wide variety of business and personal transactions and decisions, and what a reformed tax law might look like.

LAW E 532 Sports Law (3/4) Analyzes sports cases and materials that cover multiple disciplines, including contracts, torts, constitutional, antitrust, labor and employment, intellectual property, and criminal law. Participation in problem solving exercises and drafting and negotiations sessions, which explore areas like player and coaching contracts, investigation of NCAA rules infractions, and possible sanctions against universities.

LAW E 536 Practical and Professional

Responsibility Issues in the Small or Solo Law Practice (3-4, max. 4) Credit/no credit only.

LAW E 537 Refugee Law (2) Examines the processes in the United States for the admission of refugees and for the adjudication of asylum claims. Explores international refugee policy and evolving legal norms concerning asylum, temporary protection, repatriation, resettlement and internal displacement.

LAW E 538 International Civil Litigation in U.S. Courts (4) Examines the special procedural and substantive law governing both private as well as semi-public disputes in U.S. Courts and arising out of transnational transactions. Explores international arbitration and considers comparative aspects.

LAW E 539 Workshop on E.U., U.K. and U.S. Regulation of E-Commerce and Information Society (2/3) Compares the different attitudes to regulation of e-commerce and the information society in the U.S. and the European Union. Topics may include: an introduction to European Union institutions, regulatory, cultural themes in the Internet; e-society and e-commerce in Europe; regulation of illegal, harmful content, and Internet Service Provider liability, etc.

LAW E 540 Legal Issues of Internet Law (3)
Introduces the basic legal issues raised by networked digital technologies, such as the Internet. Covers jurisdiction, speech, privacy/access, propriety rights (copyrights, domain names), emerging law, leading policy debates, as well as fundamental Internet technical skills. Offered: S.

LAW E 541 Electronic Commerce and Information Technology (3) Introduction to legal and policy issues raised by electronic commerce and other emerging information technologies. Topics vary and may include intellectual property and contract issues raised by establishing an online commercial presence, rights and obligations of users of network services including constitutional rights, information privacy, electronic contracts, electronic payments, etc.

LAW E 543 Crime, Privacy, and Accountability on the Internet (2) An exploration of criminal activity on the Internet and issues that arise in investigating it. Examines the tension between privacy rights and the need for accountability. Includes substantive criminal statutes, constitutional rights and procedural laws that implement privacy and protections, and the practicalities of Internet crime investigations.

LAW E 544 Privacy Law (2) Examines the legal doctrines of privacy and confidentiality used to protect personal information. Aims to understand how courts and legislatures seek to protect information as new technologies and institutional practices emerge. Studies scope and implications of federal statutes that attempt to establish fair information practices with respect to electronic personal information.

LAW E 547 Legal Protection for Computer Software (3) .

LAW E 548 Litigation Strategies in Technology Protection (3) Deals with procedural and substantive legal issues in enforcement of patents. Proceeds through a litigation in the order that parties normally would. Substantive legal issues will be taught in conjunction with procedural and strategic considerations. Prerequisite: LAW A 546.

LAW E 550 Patent Prosecution (4) Addresses fundamentals of patent application drafting, through a combination of lectures and assignments. Addresses all aspects of proceedings before the U.S. Patent and Trademark Office, including preparing new applications, and examiner interviews. Recommended: engineering or science background. Prerequisite: LAW A 546.

LAW E 551 Representing Start-ups (4) Planning-oriented course uses the problem method to explore the corporate tax, and securities law, general business and financial considerations related to small business formation and financing. Prerequisite: LAW A 515; LAW A 530.

LAW E 552 Strategic Technology Licensing (3) Comprehensive coverage of issues related to exploitation of intellectual property rights as a business asset for new companies, or as a source of income for existing businesses.

LAW E 553 Technology Law and Public Policy (2) Survey of the domains of public policies that have been affected by the information revolution. Examines issues from Internet taxation, to personal data privacy, information warfare. Discusses the implications of the new public policies and whether it is feasible for states to enact different information policies.

LAW E 554 Technology Law and Public Policy Clinic ([2-4]-, max. 10) Clinical training in legislative and public policy advocacy under supervision of law school faculty. Examines legislative process, drafting, commentary and advocacy, appellate advocacy, and professional responsibility concerns. Supervised practice experience representing public interest with respect to law and technology. Credit/no credit only. Prerequisite: LAW E 553, which may be taken concurrently.

LAW E 555 Advising Privately-Owned Businesses (3) The role of lawyers as advisors to privately-owned businesses. Uses case studies to examine a broad range of structural planning issues, with emphasis on tax and business considerations, tax traps, and creative planning strategies. Analyzes, compares, and contrasts different business types. Prerequisite: LAW A 530.

LAW E 558 Law of Democracy: Voting Rights and Election Law (3) Examines the Law that governs the American system of democracy and considers the legality and desirability of competing models for structural reform. Considers various methods of voting and representation, the right to vote, and the Voting Rights Act.

LAW E 566 Innocence Project Northwest Clinic (3-4, max. 10) Offers students clinical training investigating and litigating claims of actual innocence on behalf of prisoners serving lengthy sentences for serious crimes. Open to second- and third-year students in the JD program.

LAW E 567 Survey of Intellectual Property (2-4, max. 4) O'Connor Intended for both law students who are only interested in a general overview of intellectual property and non-law students who are seeding a certificate in intellectual property law and policy. Designed as an alternative to Patents, Trademark and Unfair Competition Law, and Copyrights. Offered: W.

LAW E 568 Indian Law Clinic (4, max. 12) Supervised practice component on Indian law practice and procedure and advocacy skills. Provide legal advice, brief services and representation to low income Indian clients under the direct supervision of a practicing attorney. Client counseling research, negotiation, and community education. Offered: AWSp.

LAW E 569 Advanced Mediation Practicum (3) Ewalt Advanced clinical practicum in mediation under the supervision of the faculty and experienced mediators. Students convene and mediate cases referred to the Mediation Clinic from government agencies and other sources. Only for students who have successfully completed the Mediation Clinic LAW B 526, or have other comparable experience. Offered: A.

LAW E 575 Telecommunications Law and Policy (2) Survey basic policy principles underlying our nation's telecommunications laws. Focus on administrative and statutory law, paying special attention to the design and implementation of the Telecommunications Act of 1996. Addresses the role played by antitrust, economic regulation and constitutional law (particularly the First Amendment) in shaping our nation's telecommunications landscape.

LAW E 577 Drafting Technology Contracts (3) An advanced course in drafting and negotiating representative technology business agreements. Surveys such documents as a technology development agreement, a technology license agreement, an employee agreement, a web site development, a web commerce agreement, a source code agreement, and a technology evaluation agreement.

LAW E 579 International and Foreign Law Research (2) Overview of international law materials. Examine primary materials in the vernacular and in translations: constitutions, charters, codes, administrative rules, cases, treaties and other international agreements. Focuses on practice tools such as directories, guides, digests, and proceedings. Prerequisite: LAW A 506 or permission of instructor.

LAW E 582 Information Policy: Domestic and Global (5) National and international information policy: public and private sector policy in terms of privacy, access, and exploitation; technology infrastructures and policies supporting the information industries. Coverage includes freedom of information privacy, copyright, telecommunications, and emerging technologies.

LAW E 588 Trademark and Unfair Competition Law (3) Hoffmann Provides a comprehensive review of issues relating to protection of trademarks and other trade identity symbols under the common law and the Federal Lanham Act. Offered: A.

LAW E 589 IP Innovations in Science and Technology (2-, max. 6) Takenaka Covers controversial intellectual property law and policy questions arising from evolving science, technology and e-commerce, and addresses cutting edge issues from a multidisciplinary perspective. Examines the current legal regimes and research environment and explores innovative methods for maximizing the exploitation of advanced science and technology. Offered: AWSp.

LAW E 592 Federal Appellate Advocacy (1-6, max. 6) Representation of an otherwise pro se litigant in an appeal in the Ninth Circuit.

Preparation of the opening and reply brief and conduct the oral argument. Requires substantial research, multiple drafts, and painstaking familiarity with the record. Prerequisite: permission of the instructor. Credit/no credit only.

LAW E 593 Environmental Law Litigation and Practice (4-, max. 12) Survey of environmental litigation and practice regarding various environmental issues. Examines information-gathering (Freedom of Information Act), formal discovery, case selection, document control, and presentation in complex litigation, representation of groups, professional responsibility issues, working with scientists/presenting scientific evidence, and trial techniques. Prerequisite: LAW A 527, which may be taken concurrently.

LAW E 594 Environmental Law Clinic (4-, max. 12) Examines applicable environmental law and procedure, skills training, and professional responsibility concerns. Participation in a carefully supervised practice experience representing clients in cases involving environmental issues. Students must be Rule 9 qualified. Credit/no credit only. Prerequisite: LAW A 527; LAW E 593, which may be taken concurrently.

Health Law

LAW H 501 Fundamentals of Health Law (4) .

LAW H 502 Medical Malpractice (3/4) .

LAW H 503 Medical Ethics and Jurisprudence (3-) .

LAW H 504 Legal, Ethical, and Social Issues in Public Health Genetics (3) Kuszler, Mastroianni Equips the student to anticipate and assess potential legal, ethical, and social barriers complicating the incursion of new genetic advances, information, and technologies into public and private health care delivery efforts. Prerequisite: GENET 371 or equivalent. Offered: jointly with PHG 512/MHE 514.

LAW H 507 Law, Medicine, and Ethics in the Context of Pain Management (2) Reviews the problem of physicians failing to relieve pain of the patients in the dying process and the legal and ethical issues they face as well as the cultural sources of the problem.

LAW H 508 Beginning of Life: Rights and Choices (2) Addresses the controversial legal issues engendered by our increasing control over the beginning of life. Focuses on the law, regulation, and policy implications of contraception; new reproductive and genetic technologies, including surrogate parenthood, sperm and egg donation, in-vitro fertilization, and other methods of conquering infertility; and abortion.

LAW H 510 Topics in Law and Medicine ([1-4]-, max. 4) .

LAW H 520 Genetics and the Law (2) Kuszler Considers the legal issues arising from new genetic technologies and information. Statutes, regulations, and cases used to demonstrate the constitutional, contract, and tort law complications resulting from dissemination of these technological advances. Prerequisite: LAW E 562/MHE 514/PHG 512 or permission of instructor. Offered: jointly with PHG 523.

LAW H 524 Forensic Evidence (3) Examines the application of the rules of evidence in cases that involve forensic evidence. Examines paradigmatic cases involving homicide and

physical or sexual assault, although the principles examined are applicable generally in civil and criminal cases.

LAW H 525 Criminal Law and Procedure (3)

Provides an understanding of U.S. criminal law and criminal procedure. Explores basic principles of liability, defenses, and basic constitutional principles governing interactions between police and suspects. Open to forensic nursing students and graduate law students, but not JD students.

LAW H 530 Disability Law (3) Considers the definition of disability as defined by statute (ADA, FRA), case law, and social perception. Focuses on education law and entitlements, assess to and discrimination in employment, housing, public transportation, and health care.

LAW H 531 Disability Clinic (4-, max. 12)

Clinical training in disability law issues, including access to Medicaid and other public benefits, assistive technology issues, transit accessibility, and low-wage worker accommodation issues, among other possible issues. Students represent clients at Columbia Legal Services under supervision of CLS attorneys. Prerequisite: LAW A 567.

LAW H 534 Mental Health and the Law (3)

Covers medical and legal definitional issues as well as major civil and criminal law issues, including standards and procedures for involuntary commitment; consent for, and informed refusal of, treatment; de-institutionalization/community-based treatment; the insanity defense; competency to stand trial; and punishment of the mentally ill convict.

LAW H 536 Research Ethics and Regulation

(3) Mastroianni Explores the ethical principles and concepts and U.S. laws related to (1) research conducted with animals, (2) research on humans, and (3) the responsible conduct of research Required for graduate students in the Department of Medical History and Ethics, School of Medicine. Offered: jointly with MHE 536. W.

LAW H 540 Health and Human Rights (3)

Examines the basic concepts in the fields of human rights law and public health, and uses those concepts to examine the interdependence and tensions between the two fields. Introduction to the fields of public health and human rights law, examining the impact of health policies and programs on human rights.

LAW H 570 Biotechnology and the Law (3) .

LAW H 580 Advanced Health Law (3)

Considers the impact of antitrust law, fraud, and abuse prohibitions, the corporate practice of medicine doctrine, tax law and other state and federal laws upon emerging health care entities. Focuses on integrated health care delivery systems. Prerequisite: LAW A 597.

Intellectual Property Law

LAW P 501 Intellectual Property Law Core (8)

Intensive study of intellectual property law core subjects: patents, copyrights, trade secrets, and trademarks. Examines fundamental principles their underlying policies, and how the laws inter-relate. Open to J.D. students with permission of instructor. Not open to students who have taken LAW A 522, Law A 546, or Law E 588.

LAW P 504 Economic Analysis of Intellectual Property (2-3) Explores the intersection between

intellectual property law and economics from both a macro and micro economic perspective; economic justification of intellectual property law; and portfolio management tools that can evaluate intellectual property protection as an investment. Prerequisite: either LAW P 501 or LAW E 567. Recommended: economics. Offered: W.

LAW P 509 Intellectual Property and Unfair Competition (2-3 Bangasser Examines in-depth application of competition law and policy to the creation and exploration of the Intellectual property. Offered: Sp.

LAW P 528 LL.M. Intellectual Property Law

Practicum (1-4, max. 6) Experience with an approved non-profit organization, judicial or legislative body, or governmental agency on issues related to intellectual property law and policy. Students work under the guidance of experienced practitioners; both student and field supervisor provide the supervising law faculty member with a final written evaluation. Credit/no credit only.

LAW P 545 Advanced Patent Law Seminar (3)

Taylor Study of public policy and practice considerations relating to patenting research results in high technology. Examines the most up-to-date issues in legal protection of technology from the comparative law perspective. Students write and present a research paper on a topic related to patent law and policy. Prerequisite: LAW A 546. Offered: W.

LAW P 590 Graduate Intellectual Property Law

Tutorial (1-4, max. 4) Focuses on a specialized area of intellectual property law. Limited to students in the Graduate Program in Intellectual Property Law and Policy. Tutorial must be approved by the program director.

Taxation Law

LAW T 502 Federal Tax Controversies and Procedures (3) .

LAW T 503 Problems of Timing (2-3, max. 3) .

LAW T 504 Property Dispositions and Transactions (3) .

LAW T 505 Introduction to Income Taxation (2) Addresses a number of fundamental income tax concepts, including the computation of individual tax liability, statutory exclusions, deductions, and gains. Also deals with issues related to character and timing.

LAW T 506 Tax Practice and Skills (1)

Orientation to core concepts of tax practice, including administrative structure and nature of tax law, nuances of statutory interpretation, and the relative authority of statutory, administrative, and judicial sources. Includes overview of print and online tools for federal tax research.

LAW T 507 Federal Tax Policy Seminar (2-, max. 4) Examines the theoretical and policy considerations applied in assessing existing and proposed federal tax regimes. Topics include: the nature of the income tax as a tax on saving and consumption; consumption taxes as alternatives to taxes on income; tax policy and charitable giving; taxes and the poor; and more.

LAW T 510 Estate and Gift Taxation (3) .

LAW T 511 Taxation of Partners and Partnerships ([1-4]-, max. 4) .

LAW T 512 Exempt Organizations ([2-4]-, max. 4) .

LAW T 513 Estate Planning (3) .

LAW T 515 International Taxation I (3) .

LAW T 516 International Taxation II (3) .

LAW T 517 Estate and Gift Taxation II (2) .

LAW T 518 Taxation of S Corporations (2) .

LAW T 519 Canadian-United States Tax Issues

(2) Ko Overview to various cross-border issues, including the Canadian income tax (and its GST tax), residency for Canadian tax purposes, principles relating to operation of Canadian business in the United States and profit repatriation and U.S. investment in Canada and similar repatriation issues.

LAW T 520 Tax Ethics (2) Considers the role of ethics in tax practice and its application to specific problems faced by tax professionals. Explores substantive rules governing tax. Addresses ethical problems of tax professionals in connection with structuring transactions, resolving tax controversies with and presenting cases to the IRS, and representing litigants in tax controversies.

LAW T 521 Compensation and Benefits I (3) .

LAW T 522 Compensation and Benefits II (2) .

LAW T 523 International Estate Planning (2) .

LAW T 524 Transfer Pricing Seminar (2)

Andrade Reviews section 482 of U.S. Internal Revenue Code and the Treasury regulations thereunder with a focus on multinational corporations (MNCs) and their related party transactions that are subject to the arm's length standard. Application of U.S. transfer pricing regulations to related party transactions involving MNCs.

LAW T 525 Advising Privately-Owned

Businesses (3) Explores the role of the lawyer as an advisor through case studies examining a range of structural planning issues and the practical and analytical challenges of the planning process. Emphasizes tax and business considerations, and creative planning strategies. Prerequisite: LAW A 530; LAW A 515, which may be taken concurrently.

LAW T 526 Low-Income Tax Payer Clinic (2/3-, max. 9) Clinical training in federal tax litigation under the supervision of members of the law school faculty.

LAW T 528 Graduate Tax Practicum (2) Field-based experience in a department-approved public or private entity, of eight hours per week minimum under the guidance of experienced practitioners. The student and practitioner produce a final report summarizing the practicum experience to the supervising faculty member, who decides whether to award academic credit. Credit/no credit only.

LAW T 530 Corporate Reorganizations and Acquisitions (3) Examines the federal income taxation of business entities and their owners. Limited to coverage of the fundamental concepts of corporate and partnership taxation.

LAW T 531 Advanced Corporate Tax Problems (2) Examination (through case studies) of

consolidated tax returns, limits on the use of tax benefits, carryover of tax attributes, classifications of debt versus equity, and corporate penalty taxes.

LAW T 532 Taxation of Estates, Trusts, and Beneficiaries (2-3, max. 3) .

LAW T 533 Tax Crimes: Investigations, Prosecutions, and Penalties (2) *Chiconie* Focuses on elements of tax and related crimes with a view of the governmental investigative tools and powers, including IRS summonses, search warrants, and Grand Jury investigations. Covers taxpayer's rights and defenses in a criminal case; the IRS voluntary disclosure program; and the elements of civil penalties. Offered: AWPSP.

LAW T 534 State and Local Taxation (4) .

LAW T 536 Taxation of Trans-Pacific Transactions (2/3) .

LAW T 537 Business Planning ([2-6]-, max. 6) .

LAW T 538 Estate Planning for Business Interests (2-3) Business succession and estate planning issues for the owners of closely held business, including shareholder agreements, recapitalizations, family limited partnerships and limited liability companies, taxable acquisitions, split dollar agreements, redemptions to pay death taxes, electing small business trusts and more. Prerequisite: LAW T 510.

LAW T 539 Matrimonial Tax (2) Covers tax aspects of married relationships and the tax impact of the dissolution of a marriage. Includes joint returns, the marriage tax penalty, innocent spouse relief from joint return liability, pre-nuptial agreements, transfer tax effects of inter-spousal transfers, alimony, child support, and marital property transfers incident to divorce.

LAW T 541 Limited Liability Companies (2) .

LAW T 543 Advanced Partnership Tax (2) Builds on the material covered in the basic course, Taxation of Partners and Partnership. It covers more sophisticated aspects of partnership allocations; transactions between partners and partnerships; and sale or exchange of partnership interests. Prerequisite: LAW T 511.

LAW T 544 Tax Aspects of Charitable Giving (20) Examines income, gift and estate tax consequences of charitable gifts of cash and property. Includes: theoretical and policy bases of charitable deduction; technical requirements; effect of receipt of benefits; percentage limitations based on donee and type of property; application of carryover rules; effect of partial cash or cash equivalent consideration.

LAW T 545 International Taxation of Intellectual Property (2) *Smith* Overview of the tax consequences of various types of common commercial arrangements that involve the

development, ownership, and use of intangible property within multinational groups. Explores tax efficient arrangements such as contract research and licensing arrangement, cost-sharing arrangement, and the use of intangible holding companies.

LAW T 546 Taxation of Real Estate Interests (2) An in-depth study and analysis of the tax consequences of acquiring, developing, operating, and disposing of interests in real property. Focuses on practical approaches to structuring sale-leaseback transactions, syndications, installment sales, and like-kind exchanges. Considers the application of the passive activity loss rules in real estate.

LAW T 547 International Taxation of Electronic Commerce (2-, max. 4) Electronic commerce is defined as the exchange of digital information in connection with the purchases and sale of goods and services. Seminar and discussion format. Explores the potential methods and approaches for the taxation of earnings associated with electronic commerce..

LAW T 548 Tax Writing (2) Designed to improve writing skills as they relate to practice of tax law. Students draft many types of tax documents. Also considers professional responsibility aspects of tax practice. Recommended: LAW T 506.

School of Medicine

Anesthesiology

ANEST 498 Undergraduate Thesis (*) *Sivarajan* By special arrangement. Time and credit to be arranged. Offered: AWPSP.

ANEST 499 Undergraduate Research (*) *Sivarajan* Specific research problems relating to pulmonary, cardiovascular, renal, obstetric, and central nervous system functions, and their alteration by anesthetic techniques and agents. (Six weeks, full-time. Limit: two students.) Offered: AWPSP.

ANEST 501 P-Preceptorship in Anesthesiology (1) *Sivarajan* An opportunity for first- and second-year medical students to gain experience with medical practice situations by observing clinical faculty members in their offices. Prerequisite: permission of instructor. Offered: AWPSP.

ANEST 680 P-Basic Anesthesia Clerkship (4) *Sivarajan* Introduction to the principles of airway management, ventilatory support, use of local anesthetics, techniques of patient monitoring and fluid therapy. Skills taught include airway management, venipuncture, lumbar puncture and endotracheal intubation. Prerequisite: third- or fourth-year student. (Two weeks, full-time. Limit: three to five students each two-week period.) Affiliated hospitals. Offered: AWPSP.

ANEST 681 P-Advanced Clerkship in Anesthesiology (8) *Sivarajan* Clerkship for students desiring greater exposure to anesthesiology as a specialty. Individual programs can be arranged in the following areas: surgical anesthesia, obstetrical anesthesia, and pain clinic. Prerequisite: Third- or fourth-year student. (Four weeks, full-time. Limit: two students per period.) Affiliated hospitals. Offered: AWPSP.

ANEST 697 P-Anesthesiology Special Electives (*, max. 24) *Sivarajan* Special clerkships, externships, or research opportunities can at times be made available at institutions other than the University of Washington. Students wishing to elect this course should obtain a special assignment form from the Dean's office at least one month before advance registration. Prerequisite: permission of instructor. (Four to twelve weeks, full-time.) Offered: AWPSP.

ANEST 699 P-WWAMI Anesthesiology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Biochemistry

BIOC 396 Research in Chemistry and the Chemical Sciences (1) NW Presentations by researchers in academia and industry describing the opportunities for research chemistry and biochemistry. Credit does not count toward chemistry major requirements. Credit/no credit only. Prerequisite: CHEM 337. Offered: jointly with CHEM 396; A.

BIOC 405 Introduction to Biochemistry (3) NW *Daum, Teller, Wiseman* Survey of basic principles of biochemistry and molecular biology, emphasizing broad understanding of chemical events in living systems in terms of metabolism and structure-function relationships of biologically important molecules. Suitable for pre-majors, for students interested in careers in medicine, dentistry, pharmacy, medical technology. Prerequisite: either BIOL 200, BIOL 201, or both

BIOL 101 and GENET 371; either CHEM 223, CHEM 237, or CHEM 335. Offered: A.

BIOC 406 Introduction to Biochemistry (3) NW *Hurley, Petra* Survey of basic principles of biochemistry and molecular biology, emphasizing broad understanding of chemical events in living systems in terms of metabolism and structure-function relationships of biologically important molecules. Suitable for pre-majors, for students interested in careers in medicine, dentistry, pharmacy, medical technology. Prerequisite: BIOC 405. Offered: W.

BIOC 426 Basic Techniques in Biochemistry (4) NW *Chung, Petra* Introduction to basic biochemistry experiments. Acquaints students (largely Biochemistry majors) with basic biochemical laboratory techniques. Prerequisite: BIOC 440, which may be taken concurrently. Offered: ASP.

BIOC 440 Biochemistry (4) NW *Davis, Klevit* Biochemistry and molecular biology (with quiz sections) for undergraduate students in molecular and cellular biology, for biochemistry majors, and graduate students in other science departments. Prerequisite: 2.5 in either BIOL 201 or BIOL 200; 2.5 in either CHEM 224, CHEM 239, or CHEM 337; 2.0 in either MATH 124 or MATH 134. Offered: A.

BIOC 441 Biochemistry (4) NW *Young* Biochemistry and molecular biology (with quiz sections) for undergraduate students in molecular and cellular biology, for biochemistry majors, and graduate students in other science departments. Prerequisite: 2.0 in BIOC 440. Offered: W.

BIOC 442 Biochemistry (4) NW *Kimelman, Palmiter* Biochemistry and molecular biology

(with quiz sections) for undergraduate students in molecular and cellular biology, for biochemistry majors, and graduate students in other science departments. Prerequisite: either 1.7 in BIOC 406 or 2.0 in BIOC 441. Offered: Sp.

BIOC 496 Research Seminar for Undergraduates (1, max. 2) NW formal presentations of student research. One credit applies to research component of a relevant major. Credit/no credit only. Offered: jointly with CHEM 496; Sp.

BIOC 498 Undergraduate Thesis (*) For senior medical students. Offered: AWSpS.

BIOC 499 Undergraduate Research (*) Investigative work on enzymes, proteins, lipids, molecular biology, developmental biology, intermediary metabolism, physical biochemistry, and related fields. Credit/no credit only. Offered: AWSpS.

BIOC 515-519 (For description, see listing for "Current Literature Conferences" at the end of this section.).

BIOC 520 Seminar (1) Seminar dealing with timely topics in the field of biochemistry. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BIOC 525-529 (For description, see listing for "Current Literature Conferences" at the end of this section.).

BIOC 530 Advanced Biochemistry (3) Baker, Gelb, Hol, Klevit, Stenkamp, Stoddard Graduate-level discussion of the structure, function, and chemistry of proteins, control of enzymatic reactions. Prerequisite: a comprehensive course in biochemistry and permission. Offered: A.

BIOC 533 Topics In Biochemistry (1, max. 30) Daum, Davie, Fischer Provides in-depth examination of current topics in biochemistry, molecular biology, and structural biology. Designed to help participants in basic science departments become acquainted with latest ideas on selected topics. Emphasis on analysis of key concepts in the field with reference to classical papers and recent literature. Prerequisite: permission of instructor. Offered: AWSp.

BIOC 534 Topics In Molecular Biophysics (1.5) Parson Emphasis on methods used to study macromolecular structure and dynamics, including x-ray crystallography, NMR, optical spectroscopy, computer modeling, protein folding and ligand binding. Two topics covered each quarter; students may register for one or both. Prerequisite: permission of instructor. Offered: AWSp.

BIOC 535-539 (For description, see listing for "Current Literature Conferences" at the end of this section.).

BIOC 540 Literature Review (2) Parson Emphasizes critical evaluation of original articles in the literature. For first-year graduate students in biochemistry and students of other science departments, with permission. Offered: jointly with BM5D 540 A.

BIOC 541 Literature Review (2) Palmiter Emphasizes critical evaluation of original articles in the literature. For first-year graduate students in biochemistry and students of other science departments, with permission. Offered: W.

BIOC 542 Literature Review (2) Morris

Emphasizes critical evaluation of original articles in the literature. For first-year graduate students in biochemistry and students of other science departments, with permission. Offered: Sp.

BIOC 546-548 (For description, see listing for "Current Literature Conferences" at the end of this section.).

BIOC 555-559 (For description, see listing for "Current Research Conferences" at the end of this section.).

BIOC 565-569 (For description, see listing for "Current Research Conferences" at the end of this section.).

BIOC 575-579 (For description, see listing for "Current Research Conferences" at the end of this section.).

BIOC 581 Introduction to Biochemical Research (4, max. 16) Student works with one of the research groups within the department for one quarter and then rotates to other laboratories for second and third quarters. Credit/no credit only. Prerequisite: graduate standing in biochemistry or permission of instructor. Offered: AWSpS.

BIOC 586-588 (For description, see listing for "Current Research Conferences" at the end of this section.).

BIOC 600 Independent Study or Research (*) Offered: AWSpS.

BIOC 700 Master's Thesis (*) Offered: AWSpS.

BIOC 800 Doctoral Dissertation (*) Offered: AWSpS.

Current Literature Conferences

BIOC 515- 519, 525- 529, 535- 539, 546- 548 **Current Literature Conference in Biochemistry** Weekly literature reviews of topics pertinent to ongoing research in biochemistry. Students may register for more than one conference each quarter. Credit/no credit only. Prerequisite: permission of instructor. (Only 25 credits may be counted toward degree.).

BIOC 515 Matrix Macromolecules in Morphogenesis and Development (1, max. 30) Bornstein Offered: AWSp.

BIOC 516 Molecular Mechanisms of Blood Clotting (1, max. 30) Davie Offered: AWSp.

BIOC 517 Protein Structure (1, max. 30) Baker Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

BIOC 518 Signaling in Development (1, max. 30) Ruohola-Baker Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

BIOC 525 Phytoremediation (1, max. 4) Literature survey of phytoremediation topics. Discussion of latest techniques for the use of plants to concentrate heavy metals in the soil and of plants and plant-bacteria combinations to detoxify various organic contaminants. Credit/no credit only. Offered: AWSpS.

BIOC 526 Control of Growth and Differentiation During Development (1, max. 30) Hauschka Credit/no credit only. Offered: AWSpS.

BIOC 528 Signal Transduction (1, max. 30) Hurley Credit/no credit only. Offered: AWSp.

BIOC 529 Molecular Biology of Early Development (1, max. 30) Kimelman Offered: AWSpS.

BIOC 535 Macromolecular Structure (1, max. 30) Klevit Offered: AWSp.

BIOC 536 Control of Cell Growth (1, max. 30) Morris Offered: AWSp.

BIOC 537 Regulation of Gene Expression (1, max. 30) Palmiter Offered: AWSpS.

Current Research Conferences

BIOC 555- 559, 565-569, 575-579, 586- 588 **Current Research Conferences in Biochemistry** Weekly group conferences concerning ongoing graduate student and postdoctoral research in biochemistry. Students may register for more than one conference each quarter. Credit/no credit only. Prerequisite: permission of instructor. (Only 25 credits may be counted toward degree.).

BIOC 555 Cell and Molecular Biology of Connective Tissue Proteins (1, max. 30) Bornstein Offered: AWSpS.

BIOC 556 Enzymatic and Genetic Aspects of Blood Clotting (1, max. 30) Davie Offered: AWSp.

BIOC 557 Growth Regulation by Calcium Binding Proteins (1, max. 30) Davis Offered: AWSpS.

BIOC 559 Membrane Biochemistry and Cell Growth (1, max. 30) Glomset Offered: AWSpS.

BIOC 560 Protein Folding (1, max. 30) Baker Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

BIOC 561 Origin of Polarity (1, max. 30) Ruohola-Baker Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

BIOC 565 Plant Molecular Genetics (1, max. 30) Offered: AWSpS.

BIOC 566 Growth and Differentiation of Skeletal and Cardiac Muscle (1, max. 30) Hauschka Offered: AWSpS.

BIOC 568 Molecular and Genetic Aspects of Protein Signal Transduction (1, max. 30) Hurley Offered: AWSpS.

BIOC 569 Inductive Events in Early Development (1, max. 30) Kimelman Offered: AWSpS.

BIOC 575 NMR Analysis of Proteins and Nucleic Acids (1, max. 30) Klevit Offered: AWSp.

BIOC 576 Sequential Analysis of Growth Regulation (1, max. 30) Morris Offered: AWSpS.

BIOC 577 Gene Regulation in Transgenic Mice (1, max. 30) Palmiter Offered: AWSpS.

BIOC 578 Electron Transport in Photosynthesis (1, max. 30) Parson Offered: AWSp.

BIOC 588 Molecular Biology of Yeast Gene Regulation (1, max. 30) Young Offered: AWSpS.

Biological Structure

B STR 301 General Anatomy (4) NW *Pittack* Survey of systemic human anatomy, including human skeletal system, muscular system, respiratory system, circulatory system, nervous system, digestive system, endocrine system, urinary system, and reproductive system. For second-, third-, and fourth-year undergraduates. Offered: Sp.

CONJ 401, 402, 403 Human Anatomy and Physiology (4, 4, 4) See Conjoint Courses.

B STR 431 Introduction to Neuroanatomy (4) NW *Broderon, Mulligan, Westrum* Survey of the anatomy and functional organization of the human central nervous system, with clinical applications. Prerequisite: admission to the School of Dentistry. Offered: W.

CONJ 480 Neuroscience and Rehabilitation Professionals (5) See Conjoint Courses.

B STR 498 Undergraduate Thesis (*) Individual research projects under the supervision of an instructor. For senior medical students. Offered: AWSpS.

B STR 499 Undergraduate Research (*) Individual research projects in cellular and developmental biology, experimental immunology, reproductive biology, neurobiology, molecular structure, morphometrics, computer modeling, and related fields under the supervision of an instructor. Offered: AWSpS.

B STR 502 Gross Anatomy (1-5, max. 5) *Graney* Lecture and laboratory dissection course in regional anatomy: upper and lower extremities. Prerequisite: permission of instructor. Offered: W.

B STR 503 Gross Anatomy (1-5, max. 5) *Graney* Lecture and laboratory dissection course in regional human anatomy; head and neck. Prerequisite: permission of instructor. Offered: Sp.

B STR 510 Seminar in Anatomy (1) *Graney* Scientific and historical basis of selected studies in biological structure, anatomy, and human development. Original literature used as basis for textbook descriptions is reviewed. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

B STR 512 Human Microanatomy (4) Lectures and laboratory treating the specialized tissues and organs of the body from the microscopic and ultramicroscopic points of view. Prerequisite: permission of instructor. Offered: A.

B STR 515 Biological X-Ray Structure Analysis (3) *Stenkamp* Theory of x-ray diffraction, with emphasis on applications to biological systems. Prerequisite: permission of instructor. Offered: W.

B STR 517 Embryology/Developmental Biology Seminar (1) *Farr* Embryology of a region or organ. Topics vary. Emphasis on original literature and developmental principles. Prerequisite: permission of instructor. Offered: AWSp.

B STR 519 Current Problems in Macromolecular Structure (2, max. 10) *Hol* A discussion of macromolecular structures related to specific areas of biological research. Emphasis on discussion of relevant research papers and use

of computer graphics to visualize the molecular structures. Offered: AWSpS.

CONJ 520 Anatomy and Autopsy (1/2, max. 2) *Fligner* See Conjoint Courses.

B STR 520 Structure Based Design of Drugs (3) *Hol, Verlinde* Lecture and discussion on research papers illustrating protein structure based design of new drugs. Review of methods and extensive discussion of all known mechanisms of drug resistance. Offered: even years; W.

B STR 521 Advanced Biomacromolecular Crystallography (3) *Hol, Merritt, Stenkamp* Aspects of protein crystallography ranging from crystal growth, phase determination methods, density averaging to refinement, fiber diffraction of DNA and proteins. Offered: odd years; Sp.

CONJ 524 Structural Basis of Neural Transduction (1.5) See Conjoint Courses.

UCONJ 524 Developmental Neurobiology (3) *Raible, Reh, Roelink, Rubel* See University Conjoint Courses.

B STR 530 P-Gross Anatomy and Embryology for Dental Students (8/13, max. 13) *Broderon, Clark* Normal anatomy of the thorax, abdomen, pelvis, and perineum are discussed and dissected employing cadavers. The development of the organ systems is presented and related to definitive adult structure. Developmental anomalies and diagnostic anatomy are also discussed. Prerequisite: admission to School of Dentistry. Offered: A.

B STR 531 Human Embryology and Developmental Biology (2) Classical embryology, embryonic induction, gastrulation, neural induction and patterning, organ formation, limb induction and patterning, development of head and neck. Comparative development and evolution and the implications of conserved signaling mechanism. Critical signaling pathways and their role in development.

B STR 540 Special Problems in Anatomy (1-6, max. 6) Special projects in anatomy under sponsorship of faculty member. Prerequisite: graduate, medical, or dental student standing and permission of instructor. Offered: AWSpS.

B STR 541 P-Microscopic Anatomy for Dental Students (4) Lecture and laboratory work in microscopic anatomy. For dental students taking HUBIO 510; others by permission of instructor. Offered: A.

CONJ 542 Development (1.5) See Conjoint Courses.

CONJ 545 Molecular Interactions and Medicine (1.5) See Conjoint Courses.

B STR 550 P-Head and Neck Anatomy for Dental Students (4) *Broderon, Clark, Graney* Normal anatomy of the head is discussed and dissected, employing human cadavers. The fundamentals of diagnostic anatomy are also discussed. Restricted to first-year dental students. Prerequisite: B STR 530. Offered: Sp.

B STR 555 Laboratory Rotation in Biological Structure (*, max. 5) Introduction to experimental design, research methods, and scientific thought in laboratories of faculty members. Provides hands-on experience, an entrance into the literature of the field, and opportunities for

discussion with all members of the laboratory. First-year dental students only. Prerequisite: permission of instructor. Offered: AWSpS.

B STR 556 Topics in Developmental and Systemic Cell Biology (1-3, max. 3) Recent advances in molecular and developmental aspects of cell biology. Emphasis on specific organ systems. Differentiation of lymphocytes, germ cells, muscle, epidermis; cell biology of lens, vessel wall, visual cortex; computer modeling; cell-cell and cell-matrix interactions. Prerequisite: undergraduate biochemistry and/or molecular biology and general cell biology or permission of instructor. Offered: AWSpS.

B STR 557 Biomolecular Structure Seminar (1) *Hol* Literature review of key research in Biomolecular Structure in the form of short presentations by participants followed by discussion. Critical evaluation of methods and results regarding properties and protein structure determination. Credit/no credit only. Prerequisite: graduate standing in biological structure or biochemistry and permission of instructor. Offered: AWSp.

B STR 559 Developing Research Proposals (2) Developing research proposals in cellular, molecular, and developmental biology; neurobiology; morphometrics and computer modeling; experimental immunology and hemopoiesis; reproductive biology; molecular structure. Weekly seminars by faculty and written proposals by students to include background and significance of projects' specific hypotheses and aims, methodology, analyses of possible outcomes. Prerequisite: permission of instructor. Offered: even years; Sp.

B STR 580 P-Anatomy Teaching Practicum (*, max. 8) *Dacey, Graney, Mulligan* Opportunity for medical student (or other professional student) to gain teaching experience in biological structure and human biology courses, including gross anatomy, histology, and neuroanatomy. May include lecture, laboratory, conference, depending on student interest, experience. Credit based on course credit in which student is assisting. Prerequisite: permission of course chairperson. Offered: AWSp.

B STR 584 Seminar in Neurogenesis (1) *Reh* Discussion of current research on process by which neurons are generated in the nervous system. Offered: AWSpS.

CONJ 585 Surgical Anatomy (1-3, max. 12) *Graney* See Conjoint Courses.

B STR 591 X-Ray and NMR Analysis of Macromolecular Structure (1, max. 9) *Hol* Weekly discussion of current topics in research on molecular structure, usually emphasizing techniques of x-ray crystallography. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

B STR 595 Skin Biology Seminar (1, max. 5) *Smith* Presentation, discussion of ongoing multidisciplinary research in basic and clinical problems of adult and fetal skin biology. Genetic diseases of epidermis and dermis, percutaneous absorption in adult and fetal skin, wound healing, cutaneous blood flow, development and prenatal diagnosis of inherited disorders, pigment cell biology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

B STR 597 Topics in Neurobiology (1, max. 5) *Harris* Presentations by participants of topics in

neuroanatomy, neurophysiology, neurochemistry, and other areas relating to the nervous system. Problems of current research interest. Credit/no credit only. Prerequisite: permission of instructor. Offered: A.

B STR 598 Reading in Biological Structure (2) Critical evaluation of research in biological structure, including current problems, methods and future directions by reading and discussing research and review papers. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

B STR 600 Independent Study or Research (*) Offered: AWSpS.

B STR 700 Master's Thesis (*) Offered: AWSpS.

B STR 800 Doctoral Dissertation (*) Offered: AWSpS.

Comparative Medicine

C MED 407 Principles of Animal Experimentation: The Mouse (3) *Brabb, Grossmann, Treuting* Focus on biology and care of mice used in medical research, and the experimental design and ethics of animal research. Includes lectures and problem-based learning. For graduate and advanced undergraduate students. Prerequisite: permission of instructor. Offered: AWSpS.

C MED 499 Undergraduate Laboratory Research (1-6, max. 6) *Ladiges, Price* Specific problems in comparative medicine. Credit/no credit only. Offered: AWSpS.

C MED 512 Introduction to the Anatomical Analysis of Animal Disease (2) *Brabb, Iritani, Treuting* Use of animals in experimental study of disease; techniques of animal necropsy, characterization, interpretation of gross and microscopic lesions, correlation of lesions with altered physiological processes, differentiation between naturally occurring and experimentally induced lesions. Prerequisite: PATH 444, PATH 445, or equivalent, and permission of instructor. Enrollment limited: two students per quarter. Offered: AWSpS.

C MED 514 Comparative Pathology Conference (1, max. 6) *Liggit, Treuting* Focus on histopathology of naturally occurring and experimentally induced lesions of primates, laboratory and domestic animals, fish, wildlife, and birds. Participants discuss the lesions and the basic pathogenetic mechanisms that underlie them. Prerequisite: PATH 500 or equivalent and permission of instructor. Credit/no credit only. Offered: AWSpS.

C MED 516 Current Literature in Laboratory Animal Medicine (1, max. 12) *Liggett* Critical evaluation of recent articles on laboratory animal medicine and science. Emphasis on literature dealing with spontaneous diseases of laboratory animals, biology and husbandry, zoonotic diseases, and animal models of human disease. Experimental design, use of animals in research, and methods of reviewing manuscripts. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

C MED 518 Clinical Conference Seminar (1, max. 12) *Price* Clinical reports of cases of spontaneous and induced diseases, animal models of human disease, and zoonotic diseases discussed. Disease prevalence and preventive

medicine measures. Diagnostic exercises. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

C MED 520 Biology of Laboratory Animals (1) *Brabb, Iritani, Treuting* Fundamentals of the morphological, functional, and applied aspects of anatomy, physiology, pharmacology, biochemistry, and immunology of the commonly used laboratory animal species. Similarities and differences within, and between, species, including man. Husbandry, genetics, behavior, and nutrition. Prerequisite: permission of instructor. Offered: A.

C MED 521 Biology of Laboratory Animals (1) *Brabb, Iritani, Treuting* Fundamentals of the morphological, functional, and applied aspects of anatomy, physiology, pharmacology, biochemistry, and immunology of the commonly used laboratory animal species. Similarities and differences within, and between, species, including man. Husbandry, genetics, behavior, and nutrition. Prerequisite: permission of instructor. Offered: W.

C MED 526 Epidemiology of Diseases Communicable from Nature (3) *DiGiacomo, Rausch, Weigler* Explores the public health aspects of zoonotic diseases, their epidemiology and approaches to control. Focuses on the major viral, rickettsial, bacterial, protozoal, helminthic, and fungal diseases transmitted from wild and domesticated animals to humans. Prerequisite: C MED 511, C MED 512, or C MED 520 or permission of instructor. Offered: jointly with EPI 526; Sp.

C MED 530 Diseases of Laboratory Animals (1) *Brabb, Iritani, Treuting* Analysis of etiology, pathogenesis, pathology, and disease processes in rodents, lagomorphs, carnivores, and nonhuman primates. Prerequisite: permission of instructor. Offered: A.

C MED 531 Diseases of Laboratory Animals (1) *Brabb, Iritani, Treuting* Analysis of etiology, pathogenesis, pathology, and disease processes in rodents, lagomorphs, carnivores, and nonhuman primates. Prerequisite: permission of instructor. Offered: W.

C MED 540 Animal Models (1) *Brabb, Iritani, Treuting* Naturally occurring and experimentally induced analogs of human diseases in animals with emphasis on diseases in search of animal models, and approaches to identifying new models. Animal models of categorical disease (e.g., cancer, atherosclerosis, gerontology) discussed. Prerequisite: permission of instructor. Offered: Sp.

C MED 590 Selected Topics in Animal Medicine (2-5, max. 10) *Brabb, Iritani, Treuting* Radiation biology, genetics, anesthesiology and experimental surgery, preventive medicine, and ethical aspects of use of animals in biomedical teaching and research. Specific topics vary from year to year, depending on the expertise of the annual visiting professor. Prerequisite: permission of instructor. Offered: AWSpS.

C MED 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSpS.

C MED 601 Internship Rotation — Laboratory Animal Medicine (1-) Credit/no credit only. Prerequisite: DVM degree. Offered: AWSpS.

C MED 700 Master's Thesis (*) Credit/no credit only. Offered: AWSpS.

Conjoint Courses

CONJ 401 Human Anatomy and Physiology (4) *Linder, Melby* An integrated course on the structure and function of the human body with laboratory work in gross anatomy, histology, and physiology. Primarily for pharmacy doctoral students. Others by special permission of instructors. Prerequisite: either BIOL 201, BIOL 202, and BIOL 203, or BIOL 220; either CHEM 155, CHEM 160, or CHEM 162. Offered: A.

CONJ 402 Human Anatomy and Physiology (4) *Linder, Melby* An integrated course on the structure and function of the human body with laboratory work in gross anatomy, histology, and physiology. Primarily for pharmacy doctoral students. Others by special permission of instructors. Prerequisite: CONJ 401. Offered: W.

CONJ 403 Human Anatomy and Physiology (4) *Linder, Melby* An integrated course on the structure and function of the human body with laboratory work in gross anatomy, histology, and physiology. Primarily for pharmacy doctoral students. Others by special permission of instructors. Prerequisite: CONJ 402. Offered: Sp.

CONJ 475 Alcoholism: A Course for Medical Students and Students in the Allied Health Sciences (2) *Kivlahan, Samson* A lecture course for medical students in the allied health sciences in any year that will cover an introduction to the epidemiology, diagnostic strategies, natural history, physiologic effects, and treatment of alcohol-related disorders. Offered: Sp.

CONJ 480 Neuroscience for Rehabilitation Professionals (5) *Anderson, Mulligan, Slimp* Survey of the structure and function of the central nervous system, emphasizing sensorimotor systems and higher integrative functions, coupled with clinical correlations. Required for occupational therapy, physical therapy, and prosthetic/orthotic students. Others by permission.

CONJ 505 P-Pain Clinic Preceptorship (1) One morning a week for a total of 30 hours per quarter spent observing patient care in either inpatient or outpatient settings at University of Washington Medical Center; associated readings. Prerequisite: first- or second-year medical student standing. Coordinator: Pain Center.

CONJ 514 Molecular Medicine (3) *Rosen* Graduate-level introduction to the interplay of basic science and clinical medicine. Covers inflammation, vascular disease, metabolic disorders, cancer biology, and molecular-, gene-, and cell-based therapies. Each topic introduced with a patient history. Offered: jointly with PATH 514; W.

CONJ 515 Interdisciplinary Health and Human Services Delivery in Rural Communities (1) *House* Provides opportunities for students in health and human services to explore current trends and issues of service delivery in rural communities. Demographics, economics, community structure, culture, and professional/personal issues are addressed. Prerequisite: major standing in a health or human services profession. Credit/no credit only. Offered: W.

CONJ 516 What Every Physician Should Know About Oral Health (1) *Lewis, Mouradian, Slayton* Didactic elective for students interested in understanding oral health and its relationship

to systemic health. Special interest to students planning careers in primary care, public health, or who are likely to practice in rural or underserved communities. Includes weekly seminars and clinical demonstrations. Credit/no credit only. Offered: Sp.

CONJ 520 Anatomy and Autopsy (1/2, max. 2) *Fligner* Students attend autopsies at UWMC affiliated hospitals for demonstration of normal anatomic relationships and gross pathological changes in various diseases. Offered as elective concurrent with HUBIO 520P. Prerequisite: HUBIO 510P or equivalent, permission of instructor, and orientation. Offered: WSp.

CONJ 524 Structural Basis of Signal Transduction (1.5) *Xu* Focuses on the structure-function relationship of key enzymes in signal transduction (protein/lipid kinases; phosphatases etc.) and the structural consequences of protein phosphorylation. Teaches students to look into critical structural details using PC or Mac. Prerequisite: undergraduate course in biochemistry and basic cell biology, or permission of instructor. Offered: W.

CONJ 531 Signaling Mechanisms in Excitable Cells (1.5) *Hille* Membrane electricity. Structure and roles of voltage-gated and ligand-gated ion channels in electrical signaling. Calcium as a second messenger. Exocytosis and its regulation. Phototransduction in photoreceptors. Prerequisite: comprehensive undergraduate course in general biochemistry and molecular biology, or permission of instructor. Offered: A.

CONJ 532 Signal Transduction from the Cell Membrane to the Nucleus (1.5) *Beavo, Moon, Storm* Intracellular signaling pathways leading from cell membrane receptors to nucleus. Pathways activated by seven transmembrane receptors and G-proteins, insulin/PI3 kinase, nitric oxide and WNTs and mechanisms of signal termination. Cytokine/Jak/Stat signaling and role of subcellular localization in signal transduction. Prerequisite: basic knowledge of biochemistry. Offered: A.

CONJ 533 The Dynamic Chromosome (1.5) *Henikoff, Roth* The chromosome viewed as the ultimate organelle. How chromosomes are maintained and propagated. Epigenetic regulation of genes. Genetic, biochemical, and cytologic methods for understanding chromosome functions. Prerequisite: cell biology, biochemistry, and genetics. Offered: A.

CONJ 534 Selected Problems in Nervous System Development (1.5) Introduces students to current issues in developmental neurobiology. Topics include regionalization of the neuroectoderm, mechanisms of neurogenesis, axon patterning and plasticity, and cell death. Not intended to be comprehensive; examines the experimental basis for current views in the field of a few topical issues.

CONJ 535 RNA Structure and Biological Function (1.5) *Ferre-D'Amare, Stoddard* Survey of the diversity of cell-biological roles played by RNA with emphasis on structural principles and structure-function relationships. Readings from the current literature to cover both, methods for the study of RNA, and examples of the function of this nucleic acid as part of the machinery for gene expression. Offered: W.

CONJ 536 Experimental Design in Cell Biology (1.5) *Wakimoto, Wright, Hille, Cooper* Focuses on experimental design in cell biology. A topic of current research interest is covered in depth in order to follow a line of investigation and

critically evaluate the strengths and limitations of various experimental strategies. Offered: jointly with BIOL 546; W.

CONJ 537 Mechanism of Transcriptional Regulations (1.5) *Tsukiyama* Focuses on biochemical mechanisms of gene transcription covering a broad range of transcriptional regulation, including mechanisms of transcriptional initiation, elongation and termination. Discusses regulation of transcription by chromatin. Includes a special lecture regarding regulation of transcription in cell growth and differentiation. Offered: A.

CONJ 538 Genetic Instability and Cancer (1/1.5) *Maizels, Monnat* Seminar focusing on molecular pathways that maintain genomic stability in all cells and that carry out programmed changes in genomic structure in the immune system. Special attention devoted to understanding how failure in these pathways leads to genomic instability and malignancy. Prerequisite: permission of instructor.

CONJ 539 Biological Basis of Neoplasia (1.5) *Kemp, Zarbl* Lecture/discussion on cellular and molecular mechanisms underlying phenotypes associated with cancer, including genetic predisposition, injury, and instability; alteration in control of cell division and cell death; failure of differentiation; tumor angiogenesis and metastasis. Molecular biology of tractable model systems is emphasized. Prerequisite: introductory biochemistry and cell biology. Offered: S.

CONJ 541 Molecular Biology of Cellular Processes (1.5) *Bornstein* Translational control; cytoskeleton and molecular motors; protein targeting, sorting and secretion; apoptosis; regulation of cell function by extracellular matrix. Prerequisite: comprehensive undergraduate course in biochemistry and molecular biology or permission of instructor. Offered: Sp.

CONJ 542 Development (1.5) *Raible, Roelink* Molecular mechanisms of development; molecules and pathways used for the patterning of developing organisms. Similarities and differences in the making of plants, invertebrates, and vertebrates. Prerequisite: Comprehensive undergraduate courses in Biology, Molecular Biology, or permission of instructor. Offered: W.

CONJ 544 Protein Structure, Modification and Regulation (1.5) *Stoddard, Strong* Overview of general principles of protein structure, including forces that contribute to folding and stabilization, followed by an extended coverage of the means by which protein structure and function are modified and regulated. Examples from recent developments in protein folding, processing, and allosteric regulation. Prerequisite: introductory biochemistry and cell biology.

CONJ 545 Molecular Interactions and Medicine (1.5) *Verlinde* Forces governing molecular interactions in biology; with a focus on medicine. Principles of computer modeling techniques in use for predicting the molecular behavior of proteins, ligands and their complexes. In computer ligand discovery; drug design, and the understanding at the atomic level of some genetic diseases. Two computer lab sessions. Offered: Sp.

CONJ 546 Survey of Technologies for Molecular Biology (1.5) *Bumgarner* Provides a broad overview of modern technologies used in molecular biology with particular emphasis on DNA sequencing and gene expression. In

addition to methods and applications for the technologies, examines the theoretical basis and underlying instrumentation through which these technologies are implemented. Offered: A.

CONJ 547 Molecular Evolution of Viral-Host Interactions (1.5) *Katze* Focuses on the interactions between viruses and the cells they infect, with special emphasis on evolutionary battle that occurs between the invading virus and its host. Examines new technologies being used to molecularly dissect virus-host interactions. Offered: Sp.

CONJ 548 Modeling Proteins and Proteomes (1.5) *Samudrala* Provides hands-on experience for modeling protein structures, using the models to predict function, and applying the prediction methods to all proteins encoded by an organismal genome. Provides an overview of protein structure, how it mediates function, and its importance for understanding protein interaction networks. Offered: W.

CONJ 549 Microbial Population Biology (1.5) *Mittler* Principles of ecology and evolution as they apply to microorganisms. Prerequisite: advanced undergraduates with permission of instructor. Offered: even years; Sp.

CONJ 550 P-Clinical Infectious Diseases (3) *Spach* Lecture series by faculty members from various departments, authorities in the field of clinically important infectious diseases. Lectures, reading assignments, and handouts emphasize epidemiology, clinical manifestations, laboratory findings, diagnosis, treatment, and prevention. Oriented for second-year medical students. Credit/no credit only. Offered: W.

CONJ 551 Immunity (1.5) *Strong* Provides an understanding of the central cellular and molecular players in the mammalian immune system at a level appropriate for the non-specializing graduate student. Selected topics include the molecular basis of B and T cell activation and effector functions and the mechanisms of innate immunity. Offered: Sp.

CONJ 552 Metabolic Flexibility in Biology (1.5) Focuses on small molecules and the ways that chemistry of these molecules facilitates life under changing conditions. Includes systems from microbiology to human physiology to understand aspects of cancer, aging, and animation. Explores topics including bioenergetics/metabolic flux, adaptation, and allometric scaling. Prerequisite: undergraduate organic chemistry and biochemistry.

CONJ 585 Surgical Anatomy (1-3, max. 12) *Graney* Guided dissection of selected regions, supplemented by conferences. Offered conjointly by the departments of Biological Structure and Surgery. Prerequisite: permission of department. Coordinator: Department of Biological Structure.

CONJ 677 P-Clinical Allergy and Immunology (*, max. 12) *Callanan (Boise Veterans Affairs Hospital), Henderson (University of Washington Medical Center)* Clinic and office experience in diagnosing and managing allergic disease. Clinical conferences, hospital rounds on clinical immunology and allergy. Student may elect a flexible program, emphasizing adult or pediatric allergy. Prerequisite: MED 665 or basic clerkships in Departments of Family Medicine or Pediatrics. (Four weeks, full-time.) Offered: AWSpS.

CONJ 678 P-Pain Clinic Clerkship (8) Full-time,

four-week clerkship emphasizing comprehensive care of patients with chronic pain from benign diseases and cancer. Faculty members from multiple departments provide student with didactic and bedside experiences; student member of treatment team. Involves both inpatient and outpatient activities. Prerequisite: completion of human biology series, MED 665.

CONJ 680 P-Detoxification and Rehabilitation Program for Alcoholism and Drug Abuse (*, max. 16) *Reoux* Supervised introduction to alcoholic detoxification and rehabilitation and drug abuse. Supervised clinical experience in a variety of alcoholism and drug abuse treatment programs; accompanied by a core series of lectures and discussions. For medical students only. Prerequisite: PBSCI 664, PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668.

CONJ 690 P-Clerkship in Chronic Care (8) Exposure to four areas: Rehab Medicine, Geriatrics, Pain, and Palliative Care. While students choose one focus area; weekly group didactic sessions expose students to all areas through lectures, group discussions, standardized patients, and case scenarios. Offered: AWPSP.

CONJ 696 P-WRITE Clinical Electives (*, max. 24) Clinical electives for WRITE program. Offered: AWPSP.

CONJ 697 International Exchange Clerkship (12) *Hunt* Participation in health care delivery systems in developing countries; observation of relationship of host country's traditional medicine with Western medicine. Students live in cross-cultural setting to better understand their own assumptions about health care and life styles. Offered: Sp.

CONJ 698 P-Foreign Medical Student Clerkship (*, max. 24) A limited number of students from foreign medical schools are accepted for individually designed clinical clerkships at available sites after all UWMC students are accommodated. Prerequisite: permission of Associate Dean for Academic Affairs, School of Medicine.

CONJ 699 P-Clinical Clerkships (*, max. 32) .

Family Medicine

FAMED 499 Undergraduate Research (*) Research activities arranged with University-based or community physicians in diversified areas relating to family medicine. Prerequisite: permission of course coordinator. Offered: AWPSP.

FAMED 501 P-Introduction to Family Medicine: Preceptorship (2.5) Students spend one morning per week for one or more quarters working with a practicing community family physician. Prerequisite: first- and second-year medical students, permission of course coordinator. Offered: AWPSP.

FAMED 505 P-Rural/Urban Preceptorship (*, max. 12) Opportunity to work in a variety of underserved medical settings in rural and urban areas of Washington, Wyoming, Alaska, Idaho, and Montana. Prerequisite: permission of course coordinator. Offered: AWPSP.

FAMED 545 Preclinical Geriatric Elective (2) Covers disease and disability prevention, health promotion, and positive attitudes that can

contribute to successful aging. Emphasis on optimum aging, site visits, and extensive contact with diverse older people.

FAMED 546 Preclinical Hospice Volunteer Training Elective (3) Using lectures, small groups, role play, and readings, covers the basic knowledge, skills and attitudes that need to be mastered as a hospice volunteer. Students participate as hospice volunteers as part of their field experience. Offered: jointly with MHE 517.

FAMED 547 Spirituality in Medicine (2) Examination of the beliefs, values, meaning, and spirituality of health professionals for the well-being of their patients as well as for themselves. Offered: jointly with MHE 518.

FAMED 555 P-Wilderness Medicine (1/2) Elective provides didactic and field experience for third-year medical students in types of medical emergencies and clinical problems unique to rural and wilderness communities, including trauma, survival hypothermia, altitude, frostbite, heat illness, lightning, and river rescue. Credit/no credit only. Prerequisite: permission of course coordinator.

FAMED 556 Spanish for Health Professionals (1) Instruction in interviewing Spanish-speaking patient. Credit/no credit only. Prerequisite: health professions student.

FAMED 560 P-Indian Health Problem-Based Learning Cases (1) For second-year medical students. Presents common Indian health problems via problem-based learning cases over two to three days per case. Offered: A.

FAMED 630 P-WRITE Family Medicine Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITE Program. .

FAMED 640 P-Clinical Clerkship in Family Medicine — Boise (12) Stresses ambulatory primary care with emphasis on comprehensive, integrated care to patients of both genders and all ages. Student functions as clerk in community/residency site. Participates in care of assigned patients, using office, hospital, home, community resources. Prerequisite: third- or fourth-year medical students. Offered: AWPSP.

FAMED 641 P-Clinical Clerkship in Family Medicine — Spokane (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 642 P-Clinical Clerkship in Family Medicine — Madigan (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 643 P-Clinical Clerkship in Family Medicine — Tacoma (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 644 P-Clinical Clerkship in Family Medicine — University of Washington Medical Center (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 645 P-Clinical Clerkship in Family Medicine — Group Health (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 646 P-Clinical Clerkship in Family Medicine — Swedish (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 647 P-Clinical Clerkship in Family Medicine — Providence (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 648 P-Clinical Clerkship in Family Medicine — Renton Valley (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 649 P-Clinical Clerkship in Family Medicine — Olympia (12) For description and prerequisites, see 640. Offered: AWPSP.

FAMED 650 P-Clinical Clerkship in Family Medicine — Anacortes (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 651 P-Clinical Clerkship in Family Medicine — Omak (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 652 P-Clinical Clerkship in Family Medicine — Spokane Valley (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 653 P-Clinical Clerkship in Family Medicine — Anchorage (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 655 P-Clinical Clerkship in Family Medicine — Havre (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 656 P-Clinical Clerkship in Family Medicine — Whitefish (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 657 P-Clinical Clerkship in Family Medicine — Pocatello (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 658 P-Clinical Clerkship in Family Medicine — Sea Mar Clinic (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 659 P-Clinical Clerkship in Family Medicine — Country Doctor (12) For description and prerequisite, see 640. Offered: AWPSP.

FAMED 660 P-Clinical Clerkship in Family Medicine — Yakima (12) For description and prerequisites, see 640. Offered: AWPSP.

FAMED 661 P-Clinical Clerkship in Family Medicine — Bremerton (12) For description and prerequisites, see 640. Offered: AWPSP.

FAMED 670 P-Advanced Preceptorship in Underserved WWAMI Area (*, max. 24) Students gain experience, knowledge, and skills needed to care for rural, specific ethnic or underserved populations in Washington, Wyoming, Alaska, Montana, and Idaho. Prerequisite: third- or fourth-year medical students, permission of course coordinator. Offered: AWPSP.

FAMED 671 P-Advanced Preceptorship in United States (*, max. 24) Supplemental experience in rural/urban practice or a family medicine department in a setting not already established through the family medicine curriculum. Prerequisite: third- or fourth-year medical students, permission of course coordinator. Offered: AWPSP.

FAMED 672 P-Advanced Preceptorship International (*, max. 24) For medical students desiring primary care experience abroad. Special project deals with influences of social, cultural, educational, and economic forces on health care delivery. Prerequisite: third- or fourth-year medical students, permission of course coordinator. Offered: AWPSP.

FAMED 673 P-Advanced Preceptorship at WWAMI Clinical Centers (*, max. 12)

Supplemental experience in Family Medicine for late junior or senior medical students at selected WWAMI clinical centers. Prerequisite: completion of basic 6-week clerkship in Family Medicine. Offered: AWSpS.

FAMED 674 Advanced Interviewing in Primary Care (8)

Emphasizes the learning of patient-centered interviewing and counseling skills necessary for effective practice of primary care medicine. Prerequisite: permission of course coordinator.

FAMED 675 P-Clinical Elective in Complementary and Alternative Medicine (8)

Clinical elective for students interested in a better understanding of CAM. Includes four different weekly clinical placements with selected CAM providers in the community: naturopathic physician, chiropractor, acupuncturist, and massage therapist. Also includes a weekly two-hour seminar discussing the evidence supporting the use of alternative treatments.

FAMED 680 P-Traditional Indian Medicine Clerkship in Primary Care Setting (*, max. 16)

Students learn how Western physicians collaborate with traditional Indian healers in the provision of health care to an urban Indian population. Prerequisite: completion of required third-year clerkship, UCONJ 530 or permission of instructor. Offered: AWSpS.

FAMED 681 P-Indian Health Care Clerkship (*, max. 16)

Individually designed learning experience allows student to choose training opportunities, including Indian IHS Clinics, Tribal 638 Health Programs, IHS Public Health Program, Urban Indian Health programs, Tribal Council Health activities, and Tribal/IHS Alcoholism Treatment programs. Prerequisite: completion of required third-year clerkships, UCONJ 530, and permission of instructor. Offered: AWSpS.

FAMED 688 P-Family Medicine Subinternship (8)

Students serve as interns for Family Medicine services associated with residency programs under the supervision of family medicine residents and attending physicians. Schedules mix inpatient and ambulatory experiences as determined by the site and the student has the same call as R-1 on service.

FAMED 698 P-Clinical Clerkship in Family Medicine, Away (12)

For description and prerequisites, see 640. Offered: AWSpS.

FAMED 699 P-WWAMI Family Medicine Special Electives (*, max. 24)

By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of course coordinator. Offered: AWSpS.

Genome Sciences

GENOME 261 Genomes and Society (4) NW

Schivel Explores current technological advances in genome research and how these advances are impacting society. Topics include sequencing of the human genome, stem cell research, cloning, genetically modified foods, immunizations/public health, and genetic therapy. Appropriate for non-science majors. Offered: W.

GENOME 351 Human Genetics: The Individual and Society (4) NW

Principles of Mendelian inheritance as illustrated by human traits and diseases; chromosomes and sex determination; distribution of genes in populations; natural selection and evolution; counseling and genetic engineering; ethical issues. Appropriate for non-science majors. Offered: W.

GENOME 371 Introductory Genetics (5) NW

Covers gene transmission, including chromosome mapping, genetic pathways; mutational analysis biological processes emphasizing mutations affecting chromosome transmission. Introduction to genomics—cloning and sequence analysis of whole genomes. Emphasizes formal genetic mechanisms, molecular techniques. For biological sciences majors. Prerequisite: minimum grade of 1.5 in BIOL 180; minimum grade of 1.5 in either BIOL 200 or BIOL 201; may not be repeated. Offered: AWSpS.

GENOME 372 Gene Structure and Function (5) NW

Explores the structure of genes and genomes, the mechanism and control of transcription and translation, the molecular mechanisms of mutation, transposition and cancer, and the identification of human disease genes. Prerequisite: GENOME 371. Offered: W.

GENOME 373 Genomic Informatics (4) NW

Focuses on methods for analyzing large genetic data sets and their application to biological problems, including sequence alignment and search methods, gene prediction, phylogenetic trees, and microarray analysis. Requires basic programming skills.

GENOME 411 Gene Action (5) NW

Molecular genetics: description of fundamental genetics processes such as mutation, repair, genetic exchange, recombination, and gene expression. Use of genetic strategies to analyze complex biological processes. Focus is on prokaryotic organisms. Prerequisite: BIOL 201; either CHEM 223, CHEM 237, or CHEM 335. Offered: jointly with MICROM 411; W.

GENOME 414 Molecular Evolution (5) NW

Survey of empirical approaches to the study of molecular evolution and ecology, drawing on examples from a variety of taxa and the recent literature. Topics include DNA sequencing and systematics, fingerprinting approaches in behavioral ecology, and adaptive evolution at the molecular level. Prerequisite: BIOL 354. Offered: jointly with BIOL 414.

GENOME 453 Genetics of the Evolutionary Process (3) NW

Contributions of genetics to the understanding of evolution. Processes of mutation, selection, and random genetic events as they affect the genetic architecture of natural populations and the process of speciation. Emphasis on experimental data and observation, rather than mathematical theory. Prerequisite: either GENOME 371 or GENOME 372.

GENOME 454 The Origins of Genetics (4) NW

Discovery and eventual triumph of Mendelism in the early twentieth century. Concepts of heredity from ancient times to the nineteenth century. Mendel's work and its rediscovery. Evidence contributing to cornerstone of classical genetics—the chromosome theory of heredity. Prerequisite: either GENOME 351, GENOME 371, or GENOME 372. Offered: A.

GENOME 465 Advanced Human Genetics (4) NW

King, Olson Explores genetic analysis of naturally occurring variation in humans; origins

and consequences of mutation, as mediated by selection, migration, population structure and drift; approaches to finding human disease genes and characterizing them at the molecular level; relevance of to other species to analysis of human genes. Prerequisite: GENOME 371; either GENOME 372 or BIOC 440. Offered: W.

GENOME 466 Cancer Genetics (3) NW

Focuses on three types of cancer-related genetics. DNA repair, mitotic recombination, chromosome loss and imbalance, and other aspects of genomic instability. Metastatic cancer as an example of natural selection and evolution. Yeast and nematodes as models for the study of cancer genetics. Prerequisite: either GENOME 371 or GENOME 372. Offered: odd years.

GENOME 475 Debates in Genetics(3)

Utilizes the original scientific literature as the basis for discussion of a range of genetic issues that impact society. Discussions are student-led; evaluations are based both on participation in class and on a research paper. Prerequisite: BIOL 200; either GENET 371 or GENOME 371.

GENOME 490 Undergraduate Seminar (2, max. 6) NW

Seminar for advanced undergraduate students engaged in individual research projects or those who wish to gain an understanding of genetic research by analysis of the primary literature. Assignments emphasize the rationale for research projects and the presentation and interpretation of research findings. Offered: AWSp.

GENOME 496 Peer Teaching Assistants in Genome Sciences (1-5, max. 5)

Direct experience in the classroom teaching a discussion section for non-majors in genome sciences courses. Peer teaching assistants attend lectures and weekly preparation meetings and gain in-depth background on the subject material. In addition, peer TAs are given training in teaching techniques and course preparation. Credit/no credit only. Prerequisite: GENOME 371.

GENOME 499 Undergraduate Research (*, max. 30) Credit/no credit only.

Offered: AWSpS.

GENOME 501 Introduction to Research Materials (1-10) The student undertakes a research project in one of the research groups within the department for a quarter at a time. Credit/no credit only. Prerequisite: graduate standing in the Department of Genome Sciences or permission of graduate program coordinator. Offered: AWSpS.

GENOME 503 An Inquiry Approach to Teaching Genetics at the Introductory High School Level (2, max. 6)

Provides advanced science content on topics in genetics and bioethics that are taught in secondary biology classrooms, as well as pedagogical strategies for conveying concepts to pre-college students. Workshop participation required.

GENOME 504 StarNet: Research Experiences for Students and Teachers (3, max. 9)

Explores the scientific knowledge, technical skills, and pedagogical strategies related to teaching DNA sequencing and bioethics in a high school classroom. Workshop participation required.

GENOME 505 StarNet: Teacher Research Experience (9)

Participating teachers carry out an independent research project in a University of Washington laboratory. Teachers, scientists,

and StarNet staff meet weekly for an informal research talk.

GENOME 506 The Science Education Partnership (5, max. 15) Provides secondary school teachers training in molecular biology, genetics and biotechnology, as well as resources and ongoing support designed to enhance biology instruction. Workshop participation required.

GENOME 520 Seminar (1, max. 15) Credit/no credit only. Prerequisite: graduate standing in the Department of Genome Sciences or permission of graduate program coordinator. Offered: AWSp.

GENOME 525 Current Literature in Human Genetics (1) Topics from current literature in human genetics. Students and faculty each present one topic per quarter. Credit/no credit only. Prerequisite: graduate or postdoctoral status. Offered: AWSp.

GENOME 540 Introduction to Computational Molecular Biology: Genome and Protein Sequence Analysis (4) Algorithmic and probabilistic methods for analysis of DNA and protein analysis. Students must be able to write computer programs for data analysis. Prior coursework in biology and probability highly desirable. Prerequisite: permission of instructor. Offered: W.

GENOME 541 Introduction to Computational Molecular Biology: Molecular Evolution (4) Computational methods for studying molecular evolution. Students must be able to write computer programs for data analysis. Prior coursework in biology and probability highly desirable. Prerequisite: MBT/GENOME 540 or permission of instructor. Offered: Sp.

GENOME 547 Scientific Writing (1.5) For graduate students principally in their second and third year. Focuses on the preparation of research manuscripts for publication. Also considers other scientific writing such as thesis proposals and fellowship and grant applications.

GENOME 549 Molecular Basis of Neurodegenerative Disease (2) *La Spada, Muchowski, Pallanck* Introduces a broad range of neurodegenerative diseases, focusing on the approaches that have led to recent discoveries and emphasizing the elucidation of mechanisms and pathways of disease pathogenesis. Offered: jointly with NEUBEH 549/PHCOL 549; W.

GENOME 550 Methods and Logic in Genetics (3) Critical reading and detailed discussion of genetics-related scientific research papers. Material emphasizes methodological and logical themes of importance in modern genetics, for example: origin of mutants, genetic epistasis, pulse labeling, and in vivo gene function. Prerequisite: first-year genetics graduate students only. Offered: A.

GENOME 551 Mechanisms of Gene Regulation in Prokaryotes and Eukaryotes (1.5) I&S A detailed examination of the mechanisms of transcription and translation in prokaryotes and eukaryotes as determined by experimental genetics, molecular biology and biochemistry.

GENOME 552 Technologies for Genome Analysis (1.5) Discussion of current and newly-emerging technologies in genome analysis with regard to applications in biology and medicine and to potential advantages and limitations. Prerequisite: permission of instructor. Offered: A.

GENOME 553 Advanced Genetic Analysis (1.5) Classical genetic analysis is a powerful approach to dissect complex biological processes. Selective removal, addition, or alteration of specific proteins to identify and order genes in a pathway, define protein function, determine tissue and temporal requirements for gene function, and distinguish among competing hypotheses to explain biological phenomena.

GENOME 554 Genomic Informatics (1.5) Many complete genome sequences are known. Each of these encodes the instructions for making an entire organism, but how can we hope to decipher the code? Focuses on methods for analyzing genome sequences, ranging from large-scale organizational pattern to gene prediction and detailed local alignment methods.

GENOME 555 Protein Technology (1.5) Focuses on current and emerging technologies and approaches in protein analysis, and considers applications of these technologies in biology, biotechnology and medicine. Prerequisite: BIOC 440; GENOME 551; GENOME 552; GENOME 553; GENOME 554.

GENOME 556 Developmental Genetics (1.5) Genetic control of early development in a range of organisms, emphasizing systems in which cellular, genetic, and molecular approaches have combined to make significant contributions to understanding. Prerequisite: permission of instructor. Offered: W.

GENOME 557 Meiosis (1.5) A comprehensive consideration of meiotic mechanisms emerging from genetic and molecular analysis of model organisms focuses on the molecular basis of chromosomal synapsis, homologous recombination, and meiotic disjunction. The relationship of these mechanisms to the structure of the human genome and the analysis of complex traits are also considered.

GENOME 559 Introduction to Statistical and Computational Genomics (1.5) Rudiments of statistical and computational genomics. Emphasis on basic probability and statistics, introduction to computer programming, and relevant Web databases.

GENOME 561 Molecular Population Genetics and Evolution (1.5) Surveys recent literature to gain an understanding of the basic principles of molecular population genetics and evolution as applied to analysis of genome data. Requires some computer analysis of genome data.

GENOME 562 Population Genetics (4) *Felsenstein* Mathematical and experimental approaches to the genetics of natural populations, especially as they relate to evolution. Emphasis on theoretical population genetics. Prerequisite: permission of instructor. Offered: Sp.

GENOME 570 Phylogenetic Inference (3) *Felsenstein* Methods for inferring phylogenies (evolutionary trees) — biological assumptions, statistical foundations, and computational methods. A comprehensive introduction for graduate students in the biological sciences to phylogenetic methods using data from molecular sequences, continuous and discrete characters, and gene frequencies. Prerequisite: introductory courses in evolution and in statistics. Offered: alternate years; Sp.

GENOME 576 Genetic and Genomic Analysis of Bacteria (1.5) In-depth coverage of genetic and genomic strategies used to analyze complex

biological processes in bacteria. Focuses on general approaches, with examples drawn from studies of pathogenic organisms where possible. A combination of lectures and seminar-style discussions of primary literature.

GENOME 580 Ethics in Biomedical Research and Teaching (1) Explores ethical issues in research and teaching and discusses avenues of responsible conduct.

GENOME 581 Seminar in Drosophila Genetics (1) *Berg* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of Drosophila development. Credit/no credit only. Offered: AWSp.

GENOME 582 Seminar in Mouse Genetics (1) *Braun* Discussion of contemporary research in and novel methods for genetic, cell biological, and molecular analysis of mammalian development, with utilization of transgenic techniques. Credit/no credit only. Offered: AWSp.

GENOME 583 Seminar in Molecular Cytology (1) *Byers* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of spindle behavior in the mitotic cell cycle of budding yeast. Credit/no credit only. Offered: AWSp.

GENOME 584 Seminar in DNA Replication (1) *Brewer, Fangman* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of budding yeast, with emphasis on the mechanisms and control of DNA replication. Credit/no credit only. Offered: AWSp.

GENOME 585 Seminar in Bacterial Genetics (1) *Manoil* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of bacterial assembly mechanisms, with emphasis on the topogenesis of membrane proteins. Credit/no credit only. Offered: AWSp.

GENOME 586 Seminar in Mammalian Genetics (1) *Sibley* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of mammalian genetics, with emphasis on lymphoblast development. Credit/no credit only. Offered: AWSp.

GENOME 587 Seminar in Nematode Genetics (1) *Thomas* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of nematode development, with emphasis on neurogenesis and other developmental processes. Credit/no credit only. Offered: AWSp.

GENOME 590 Population Genetics Seminar (1) *Felsenstein* Weekly presentation by participants of current literature and ongoing research in evolution, molecular evolution, evolutionary genetics of natural populations, human population genetics, and quantitative genetics applied to animal and plant breeding. Credit/no credit only. Prerequisite: GENOME 562 or permission of instructor.

GENOME 599 Special Topics in Molecular Biotechnology (*, max. 12) Prerequisite: permission of instructor. Offered: AWSp.

GENOME 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSpS.

GENOME 700 Master's Thesis (*) Offered: AWSpS.

GENOME 800 Doctoral Dissertation (*)
Offered: AWSpS.

Human Biology

HUBIO 500 P-Medical Practice Preceptorship at WWAMI Sites (1, max. 3) Personal experience with, and insight into, medical practice situations. Student is stationed with carefully selected clinical faculty members in their offices in accordance with the student's preference of discipline at the WWAMI sites. Registration limited to first-year medical students at WWAMI sites. Offered: AWSpS.

HUBIO 501 P-Human Biology Special Projects (*) *MacLaren* Designed for medical students electing a special study project related to the Introduction to Clinical Medicine or other human biology courses, which are offered during the first and second years in the School of Medicine. Primarily intended for students in remedial or extended programs. Prerequisite: permission of assistant dean for curriculum. Offered: AWSpS.

HUBIO 505 P-WWAMI Preceptorship (1) Opportunity for first-year medical students at WWAMI sites to gain personal experience with medical practice situations by being assigned to selected clinical faculty members in their offices. Offered: ASP.

HUBIO 510 P-Microscopic Anatomy: Histology (6) *Farr* Lectures and laboratories in microscopic anatomy designed to provide the principles and concepts of histology, to define the morphological characteristics of the cells, tissues, and organs of the human body, and to relate this information to functional processes studied in concurrent and subsequent courses. Offered: A.

HUBIO 511 P-Gross Anatomy and Embryology (8/13, max. 13) *Clark* Structural organization of human body at the macroscopic level to provide a foundation for physical examination and functional assessment of the human organism. Integrates embryological development with study of the cadaver and examination of the normal living body. Concentrates on exploration of the body cavities and the viscera they contain. Offered: A.

HUBIO 512 P-Mechanisms in Cell Physiology (5) *Detwiler* Physiology of the cell membrane, including ionic and electrical potential gradients; active transport, excitability, and action potentials; biophysics of sensory receptors; neuromuscular transmission; muscle energetics and contractility; spinal reflexes and central synaptic transmission; autonomic nervous system; energy metabolism and temperature regulation; epithelial transport; gastrointestinal motility and secretions. Offered: A.

HUBIO 513 P-Introduction to Clinical Medicine (3-) *Goldstein* Instruction in communication skills and interview techniques to form the basis for the doctor-patient relationship and for the skills of communicating with patients. The patient profile is obtained. Attention to developing comfort in the physician role. Offered: A.

HUBIO 514 P-Biochemistry I-A (4-) *Maizels* Classical molecular and cellular biochemistry, cellular physiology and molecular genetics. Metabolic interrelationships as they occur in the individual stressed and related to disturbances in disease states. Offered: A.

HUBIO 516 P-Systems of Human Behavior I-A (3-) *Murray, Walker* Effects of behavioral factors in major management problems faced in medical practice relating to cultural background, social role, sexual identity, and belief systems. Acquisition of skills in analyzing behavior, defining objectives, and designing precise treatment strategies. Offered: A.

HUBIO 520 P-Molecular and Cellular Basis of Disease (6) *Norwood* Patterns of cell and tissue response to injury. Mechanisms of cell injury, the inflammatory process, immunology, immunopathology, thrombosis, normal and abnormal growth, neoplasia, clinicopathological correlation. Offered: W.

HUBIO 522 P-Introduction to Clinical Medicine (-4-) *Goldstein* Medical history is introduced and instruction in data collection is begun. Experience in conducting medical interviews with patients to obtain the medical history and patient profile. Special problems related to interviewing are addressed. Offered: W.

HUBIO 523 P-Introduction to Immunology (2) *Wilson* Basic concepts such as antigens; antibodies; complement; B- and T-lymphocyte function, including interactions with each other and with accessory cells; immunological tolerance; major histocompatibility complex; and role of these basic concepts in immunopathology (immunodeficiencies, hypersensitivities, autoimmunity, blood transfusion, and transplantation). Offered: W.

HUBIO 524 P-Biochemistry I-B (-4) *Maizels* Classical molecular and cellular biochemistry, cellular physiology and molecular genetics. Metabolic interrelationships as they occur in the individual stressed and related to disturbances in disease states. Offered: W.

HUBIO 526 P-Systems of Human Behavior I-B (-2) *Johnston, Walker* Effects of behavioral factors in major management problems faced in medical practice relating to cultural background, social role, sexual identity, and belief systems. Acquisition of skills in analyzing behavior, defining objectives, and designing precise treatment strategies. Offered: W.

HUBIO 530 P-Clinical Epidemiology and Evidence-Based Medicine (2) *Kestenbaum* Community health and disease, including assessment of disease risk and mechanisms of epidemic detection, spread, and control; interpretation of research design, data analysis, bias source; and clinical epidemiology, including evaluation and application of diagnostic tests, natural history of disease, and quantitative aids for clinical decision making. Offered: W.

HUBIO 531 P-Head, Neck, Ear, Nose, and Throat (5) .

HUBIO 532 P-Nervous System (8) *Dacey, Mulligan* An integrated approach to the normal structure and function of the nervous system, including the eye. Presents neuropathological examples as well as clinical manifestations of neurological disease.

HUBIO 534 P-Microbiology and Infectious Disease (9) *Moseley* An introduction to medical microbiology and infectious diseases. Emphasizes the biology of microbial pathogens and the mechanisms of pathogenesis. Covers clinical manifestations, epidemiology, general principles

of diagnosis, therapy, and prevention of infectious disease. Offered: Sp.

HUBIO 535 P-Introduction to Clinical Medicine (-4) *Goldstein* Adult screening physical examination is taught through the use of lecture, audiovisual aids, and small-group tutorial, where students in supervised setting practice the physical examination on one other. Further practice in the performance and recording of the patient profile and medical history. Offered: Sp.

HUBIO 540 P-Cardiovascular System (6) *Feigl* Interdisciplinary approach to cardiovascular medicine, including anatomy, physiology, radiology, pathology, medicine, and surgery. Function of the cardiovascular system in health and disease. Offered: A.

HUBIO 541 P-Respiratory System (4) *Culver* Interdisciplinary approach to the respiratory system, including anatomy of thorax and lungs, ventilation mechanics, blood-gas transport, gas exchange, acid-base balance, and the physiology and pathology of obstructive, restrictive, and pulmonary-vascular diseases. Offered: A.

HUBIO 542 P-Introduction to Clinical Medicine (4-) *Goldstein* Advanced instruction in interview technique, history taking, and physical examination, with emphasis on detection of abnormalities. Offered: A.

HUBIO 543 P-Principles of Pharmacology I (5) *Vincenzi* Includes general principles of pharmacology and the specific pharmacology of major drugs acting on the autonomic and cardiovascular systems. Offered: A.

HUBIO 544 P-Endocrine System (3) *Anawalt* Normal, gross, and microscopic anatomy and physiology of the endocrine system. Illustrations examining the clinical relevance of homeostasis, feedback, and other controlling mechanisms previously learned. Endocrine integration of metabolism. Clinically important endocrine pathophysiology. Offered: A.

HUBIO 546 P-Systemic Pathology (4) *Schmidt* Multidisciplinary approach to some diseases that affect more than one organ system (nervous, cardiovascular, respiratory) and that are caused by different mechanisms (congenital, inflammatory, vascular, traumatic, metabolic, neoplastic). Offered: Sp.

HUBIO 550 P-Introduction to Clinical Medicine (-4-) *Goldstein* Advanced instruction in interview technique, history taking, and physical examination, with emphasis on identification of problems and correlation of findings with pathophysiological mechanisms. Offered: W.

HUBIO 551 P-Gastro-Intestinal System (4) *Saunders* Anatomy of the gastrointestinal system; physiology and pathology of digestion and hepatic function; and physical and laboratory examination. Offered: W.

HUBIO 552 P-Hematology (3) *Becker* Familiarizes students with the basic pathophysiologic mechanisms leading to disturbances of red cell, white cell, and platelet production, as well as abnormalities of hemostasis presenting clinical problems. Pathophysiology, rather than minute details of individual disease, is stressed. Offered: W.

HUBIO 553 P-Musculoskeletal System (4) *Schmale* Gross, surface, applied, and radiographic anatomy. Clinical manifestations in the

musculoskeletal system and pathophysiology of trauma, aging, infection, and inflammation, as well as congenital and metabolic disorders. Dissections, physical examinations, and problem based learning. Offered: W.

HUBIO 554 P-Genetics (2) *Horwitz* Review of basic genetic principles and their applications in clinical medicine. Includes human chromosomal disorders; patterns of inheritance, genetic counseling, amniocentesis; pathogenesis of hereditary diseases, monogenic and multifactorial; role of genetics in common diseases; behavioral genetics; drug-gene interactions; and prevention and treatment of genetic diseases, including prenatal diagnosis and population screening. Offered: A.

HUBIO 555 P-Medicine, Health, and Society (3) *Harris* Interdisciplinary introduction to health services designed for future health care practitioners. Examines the history, organization, and effectiveness of the U.S. health care system. Stresses the student's ability to adopt a broad perspective across health care disciplines and traditional boundaries. Offered: W.

HUBIO 559 P-Problem Based Learning (3) *Teitz* Teaches students to methodically solve medical problems by gathering, sorting, and interpreting data. Students learn life-long self-education and self-evaluation skills. Provides practice working as a health care team by including medical, nursing, and physician assistant students in each group. Offered: W.

HUBIO 560 P-Introduction to Clinical Medicine (-5) *Goldstein* Introduction to clinical and laboratory diagnosis. Offered: Sp.

HUBIO 562 P-Urinary System (4) *Ryan* Anatomy, physiology, and pathology of the kidney, ureter, bladder, and prostate; pathophysiology and treatment of common fluid and electrolyte problems; renal pharmacology; major clinical urinary system syndromes, with current diagnostic approaches and therapy. Offered: Sp.

HUBIO 563 P-Brain and Behavior (3) *Pascualy* Major psychiatric disorders are defined and described, and a systematic approach to differential diagnosis is presented. Conceptual development, pathogenesis, epidemiology, nomenclature, and the terminology used in psychiatry are discussed. Offered: Sp.

HUBIO 564 P-Principles of Pharmacology II (3) *Chavkin* Lectures and conferences on drugs that act on the central nervous system. Emphasis on physiological and biochemical mechanisms, with consideration of therapeutic and adverse effects. Offered: Sp.

HUBIO 565 P-Reproduction (4) *Steiner* Normal development of the human reproductive system. Sexual differentiation, puberty, endocrine control of testicular and ovarian function, gamete biology, fertilization, implantation, immunology and endocrinology of pregnancy, labor and delivery, pathology of the male and female reproductive organs, contraception, prolactin and lactation, aging and infertility. Offered: Sp.

HUBIO 567 P-Skin System (2) *Colven* Gross and microscopic anatomy. Physiology, protection, temperature control, pigmentation, and photosensitivity. Pathology and genetics of skin abnormalities, including tumors. Introduction to clinical evaluation, including physical examination and illustrating examples of inflammatory, vascular, immunological (including drug

hypersensitivity), and neoplastic diseases. Offered: A.

HUBIO 568 Clinical Nutrition (1) *Lipkin* Principles and practice of clinical nutrition, including role of nutrients in normal growth and development, pathogenesis of chronic disease, and nutrition in the management of certain disease states. Offered: Sp.

HUBIO 590 P-Introduction to Critical Reading and Evaluation of the Medical Literature (1) *Wolf* An introduction to methods for identifying and retrieving Web-based high quality, relevant evidence, and to methods for describing and applying rigorous criteria when reading primary research studies or reviews of primary studies that report on the effectiveness of therapeutic or preventive interventions. Prerequisite: first-year medical student standing. Offered: W.

HUBIO 596 P-WWAMI Non-Clinical Selectives II (*) .

HUBIO 597 P-Independent investigative Inquiry (8) Independent research with faculty sponsor and completion of paper in fulfillment of the independent investigative inquiry graduation requirement. Offered: Sp.

HUBIO 598 P-WWAMI Non-Clinical Selectives (*) Courses offered at WWAMI university sites designed to satisfy the non-clinical selective graduation requirement for medical students. Offered: AWSp.

HUBIO 599 P-Independent Study in Medical Science (6) *Marshall* Independent research with faculty sponsor and completion of paper as partial fulfillment of non-clinical selective graduation requirement. Offered: Sp.

HUBIO 600 PA-Capstone Course: Preparation for Residency (2, max. 4) *Norris* A combination of large group lectures and small group discussions and workshops reviewing clinical skills in history-taking and physical examinations, imaging studies, common and emergency drugs, ACLS, infectious disease control, common clinical problems, and other topics that are encountered in residency training. Offered: Sp.

Immunology

IMMUN 441 Introduction to Immunology (4) *NW* General properties of immune responses; cells and tissues of immune system; lymphocyte activation and specificity; effector mechanisms; immunity to microbes; immunodeficiency and AIDS; autoimmune diseases; transplantation. Prerequisite: either BIOL 220 or BIOL 202; may not be repeated; recommended: GENET 371, GENET 372, BIOC 405, or BIOC 440. Offered: jointly with MICROM 441; A.

IMMUN 499 Undergraduate Research (*, max. 24) Investigative work on a variety of topics, including mechanisms of antigen recognition, T-cell development and differentiation, immunogenetics, lymphocyte activation, MHC gene structure and function, retrovirology, and the pathogenesis of autoimmune diseases, among others. Prerequisite: permission of instructor. Offered: AWSpS.

IMMUN 532 Advanced Immunology (4) Examines the molecular and cellular basis of immune function. Students must have completed a baccalaureate degree in a biological specialty and be conversant with molecular genetics.

Topics include: hematopoiesis, antigen receptor structure, lymphocyte development, antigen presentation, and cytokines. Offered: W.

IMMUN 533 Host Defense to Cancer (2) *Clark, Mccune* Addresses the mechanisms of cellular homeostasis, balancing cells of immune system, programmed cell death, immune surveillance, cancer immunotherapy. Companion course with IMMUN 535. Prerequisite: graduate standing in immunology; other graduate students with permission of instructor. Offered: odd years, Sp, weeks 1-5.

IMMUN 534 Central Issues in Immunology (2, max. 4) Presentations by participants of topics relating to the broad study of immunology. Prerequisite: graduate standing in Immunology. Offered: Sp.

IMMUN 535 Host Defense to Infection (2) *Clark, Mccune* Addresses the mechanisms protecting against pathogens that infect patients with cancers; immune regulation; new developments in vaccines. Companion course with IMMUN 533. Prerequisite: graduate standing in Immunology; other graduate students with permission of instructor. Offered: even years, Sp, weeks 1-5.

<t>Current Research Conferences Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter.

IMMUN 550 Selected Topics in Immunology (1, max. 30) Formal seminar-discussion course for advanced students focused on recent developments in the field and consisting of literature research and intensive in-depth study of important and timely topics. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

IMMUN 551 Regulation of T Cell-Dependent B Cell Maturation (1, max. 30) *Clark* Credit/no credit only . Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 552 Immunogenetics and Autoimmunity (1, max. 30) *Concannon* Credit/no credit only . Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 553 Recombination and Repair in B Cell Development (1, max. 30) *Maizels* Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

IMMUN 554 Immunogenetic Aspects of Human Autoimmunity (1, max. 30) *Nepom* Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 555 Model of Autoimmune Disease and Their Regulation (1, max. 30) *Goverman* Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 556 Research in Conference in Regulation of Autoimmunity and Allergic Inflammation (1, max. 30) *Ziegler* Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter. Credit/no credit only.

Prerequisite: immunology graduate students only; permission of instructor. Offered: AWSPS.

IMMUN 557 Thymic Environment (1, max. 30)
Farr Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 558 Research Conference in Apoptosis and Autoimmunity (1, max. 30)
Elkon Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter Credit/no credit only. Prerequisite: immunology graduate students only; permission of instructor. Offered: AWSPS.

IMMUN 559 Cytokine Gene Regulation (1, max. 30)
Bix Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 560 Progress in T Cell Research (1, max. 30)
Bevan, Fink, Rudensky Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 561 Mechanisms of Peripheral Tolerance (1, max. 30)
Fink Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 562 Developmental Regulation of T Cell Function (1, max. 30)
Wilson Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 563 Macrophage Biology: Signaling and Phagocytosis (1, max. 30)
Aderem Credit/no credit only. Prerequisite: graduate standing in Immunology.

IMMUN 564 Cellular/Molecular Regulation of T Cell Responses (1, max. 30)
Greenberg Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 565 Signaling and Costimulatory Regulation of T Cell Function (1, max. 30)
Dong Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Students may register for more than one conference each quarter. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

IMMUN 566 Role of Innate Mechanisms in Generation and Maintenance of Protective Immune Memory (1, max. 30)
Kaja Weekly group conferences concerning ongoing graduate students and postdoctoral research in immunology. Credit/no credit only. Offered: AWSpS.

IMMUN 567 Antigen Processing and Presentation (1, max. 30)
Rudensky Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 568 Antibody Structure and Function (1, max. 30)
Foote Credit/no credit only. Prerequisite: graduate standing in Immunology.

IMMUN 569 Genetics of Diabetes (1, max. 30)
Lernmark Credit/no credit only. Prerequisite: graduate standing in Immunology.

IMMUN 570 Cytokine Signaling in Lymphocytes (1, max. 30)
Nelson Credit/no credit only. Prerequisite: graduate standing in Immunology.

IMMUN 571 Research Conference in Development and Activation of B Cells (1,

max. 30) *Rawlings* Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter Credit/no credit only. Prerequisite: immunology graduate students only; permission of instructor. Offered: AWSPS.

IMMUN 572 Research Conference in Signal Transduction in B-Cells (1 max. 30)
Scharenberg Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter Credit/no credit only. Prerequisite: immunology graduate students only; permission of instructor. Offered: AWSPS.

IMMUN 573 Immunology Seminar Series (1, max. 30) Weekly discussion in which original research results are presented and discussed. Emphasis is on new and original contributions to field of immunology and related areas; occasional seminars are concerned with review of important topics. Credit/no credit only. Prerequisite: firm background in immunology, permission of instructor. Offered: AWSp.

IMMUN 574 Research Conference in Kaposi's Sarcoma-Associated Herpesvirus: Interactions with B-Cells and Endothelial Cells (1, max. 30)
Lagunoff Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter Credit/no credit only. Prerequisite: immunology graduate students only; permission of instructor. Offered: AWSPS.

IMMUN 575 Research Conference in Infection and Immunity (1, max. 30)
Bevan Weekly group conferences concerning ongoing graduate student and postdoctoral research in immunology. Students may register for more than one conference each quarter Credit/no credit only. Prerequisite: immunology graduate students only; permission of instructor. Offered: AWSPS.

IMMUN 576 Transcriptional Regulation in the Immune System (1, max. 30)
Weinmann Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 577 Lymphocyte Homing and Function (1, max. 30)
Campbell Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 578 Immunology and the Pathogenesis of Tuberculosis (1, max. 30)
Ramakrishnan Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 579 Costimulation and Autoimmune Disease (1, max. 30)
Latchman Credit/no credit only. Prerequisite: graduate standing in Immunology. Offered: AWSpS.

IMMUN 599 Introduction to Immunology Research (1-7, max. 7) Current problems in immunological research. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

IMMUN 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSpS.

IMMUN 700 Master's Thesis (*) Credit/no credit only. Offered: AWSpS.

IMMUN 800 Doctoral Dissertation (*) Credit/no credit only. Offered: AWSpS.

Laboratory Medicine

LAB M 321 Medical Technology: Introductory Clinical Hematology (6) *McDonnell* Lecture and laboratory coverage of theoretical and practical aspects important in the evaluation of blood cells, to include their production, morphology, function, and associated pathology. Instrumentation used in testing included, as well as quality control and quality assurance issues. Offered: W.

LAB M 322 Medical Technology: Introductory Clinical Chemistry (5) *Chen-Levy* Lecture and laboratory covering the theoretical and practical concepts associated with testing procedures performed in clinical chemistry. Offered: A.

LAB M 418 Topics in Clinical Chemistry (5) *Chen-Levy* Continuation of LAB M 322. Lecture and laboratory exercises covering fundamentals of instrumentation and methodology in the clinical chemistry laboratory. Offered: Sp.

LAB M 419 Clinical Coagulation (4) *McDonnell* Lecture and laboratory coverage of the theory of the hemostatic system, to include tests used in the diagnosis/monitoring of patients with abnormal bleeding and/or thrombosis. Instrumentation as appropriate for testing included. Quality control and quality assurance discussed. Offered: S.

LAB M 420 Laboratory Analysis of Urine and Body Fluids (3) *Wilcock* Lecture and laboratory covering urinalysis testing procedures and associated disease entities. Analysis of other body fluids. Methods of microscopic examination by use of bright-field, phase, and polarizing microscopy. Offered: S.

LAB M 421 Medical Microbiology (1/6, max. 6) *Goodyear* Lecture and laboratory coverage of human infections and diagnostic procedures used for isolation, identification, and antimicrobial susceptibility testing of the microorganisms associated with disease. Offered: S.

LAB M 423 Clinical Chemistry (*-, max. 24) *Wilcock* Clinical testing using automated and manual methods. Measurement of pancreatic function and intestinal absorption, renal and liver function, enzymes, electrolytes, blood gases, lipids, toxicology, urinalysis, endocrinology, and immunology. Offered: AWSp.

LAB M 424 Clinical Microbiology (*-, max. 24) *Goodyear* Techniques used in the diagnostic microbiology laboratory, including quality control, specimen evaluation, identification of pathogenic microorganisms, and antimicrobial susceptibility testing. Offered: AWSp.

LAB M 425 Clinical Hematology (*-, max. 24) *McDonnell* Clinical study of techniques used in the diagnostic evaluation of blood cells, including production, proliferation, survival, morphologic, and functional features. Assessment of proteins and cells important in hemostasis included. Quality control and quality assurance issues considered. Biomolecular techniques appropriate for evaluation of the hematologic and hemostatic systems discussed. Offered: AWSp.

LAB M 426 Clinical Immunohematology (1-7, max. 7) *Nestor* Lecture and laboratory covering theory of transfusion medicine and serological procedures used in the evaluation of cellular

antigen systems. Principles of immunology and genetics included as appropriate for the techniques performed; screening of donor units to provide a safe product discussed. Quality control and quality assurance issues considered. Offered: W.

LAB M 427 Selected Studies in Laboratory Medicine (*, max. 24) *Lampe* Selected clinical study in the major scientific disciplines of laboratory medicine, to include molecular diagnostics, or pursuance of a clinical research study. Credit/no credit only. Offered: AWSpS.

LAB M 499 Undergraduate Research (*) Specific project in clinical laboratory investigation. Offered: AWSpS.

LAB M 502 Laboratory Medicine Grand Rounds (1, max. 6) *Fine* Grand rounds are concerned with current topics in the field of laboratory medicine. Credit/no credit only. Offered: AWSp.

LAB M 510 Laboratory Medicine Research Conference (1, max. 6) *Tait* Presentation and discussion of ongoing research and development projects by faculty, residents, fellows, and graduate students. Open to graduate students in laboratory medicine and other medical sciences. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

LAB M 520 Seminar in Organization and Management in Laboratory Medicine (3) *Chandler* Core course for the Master of Science degree in laboratory medicine. Prerequisite: graduate student standing in laboratory medicine or permission of instructor. Offered: odd years; Sp.

LAB M 521 Advanced Laboratory Hematology (1, max. 6) *Sabath* Lectures on diagnostic clinical hematology with emphasis on clinico-pathological correlation. For laboratory medicine graduate students with special interest in diagnostic clinical hematology. Prerequisite: graduate standing and permission of instructor. Offered: AWSp.

LAB M 522 Hematopathology Seminar (2) *Wood* Identification of normal lymphocyte and bone marrow subpopulations, diagnosis of leukemias, lymphomas, and benign conditions that resemble them. Emphasis on histopathology, cytochemical, immunological, and molecular markers. Clinicopathologic correlation. Offered: jointly with PATH 522; even years; W.

LAB M 590 P-Research Projects in Laboratory Medicine (*) *Tait* Opportunity for laboratory experience on a research problem related to laboratory medicine. Students investigate areas of potential clinical importance. Projects selected from areas such as chemistry, coagulation, hematology, immunology, microbiology, virology, molecular diagnostics, and computer applications. Research goals established by instructor in discussion with student. Prerequisite: permission of instructor. Offered: AWSpS.

LAB M 601 Internship (3-9, max. 9) Credit/no credit only. Prerequisite: graduate standing in laboratory medicine. Offered: AWSpS.

LAB M 680 P-Clinical Laboratory Testing: Methods and Interpretation (*) *Wener* Provides the third- and fourth-year medical student with the opportunity to evaluate clinical laboratory data in the clinical laboratory setting. One-on-one teaching using case material and actual clinical samples. Offered: AWSpS.

LAB M 685 P-Laboratory Case Studies for Clinical Diagnosis (4) *Astion* Clinical case presentations and discussions aimed at test selection, disease-induced alterations, efficient algorithms, factors confounding interpretation, testing economics. Prerequisite: completion of required clerkships. (Four weeks half-time) Offered: A.

LAB M 699 P-WWAMI Laboratory Medicine Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

LAB M 700 Master's Thesis (*) Credit/no credit only. Offered: AWSpS.

MEDEX Northwest

MEDEX 450 Basic Science in Clinical Medicine for PAs (6) *Evans, Stoll* Intensive review course on important basic science concepts relevant to clinical medicine at the physician assistant level. Topics covered include cell biology, microbiology, genetics and immunity. Prerequisite: admission to the MEDEX Program. Offered: S.

MEDEX 451 Anatomy and Physiology for the MEDEX Practitioner (6) *Cauldwell, Landel* Anatomy and physiology of the following organ systems: HEENT, respiratory, cardiovascular, gastrointestinal, reproductive, renal, musculoskeletal, and neurologic. Required for entering students to the MEDEX program who have not satisfied program prerequisites in anatomy and physiology. Offered: S.

MEDEX 453 Basic Clinical Skills for the MEDEX Practitioner (5) *Cupp* Provides the student with mastery of a screening history and physical examination and thoroughness in data-collection skills. Branching examinations of major organ systems and medical record-keeping and verbal presentation skills by the problem-oriented method are taught. Offered: A.

MEDEX 454 Adult Medicine I (7) *Cupp, Evans* Problem-oriented approach to the diagnosis and management of common primary care conditions. Introduction to relevant laboratory and radiological procedures. Organ system approach. Offered: W.

MEDEX 456 Maternal and Child Health for the MEDEX Practitioner I (3) *Dale* Designed to acquaint students with principles of prenatal care and primary-care pediatrics. Offered: W.

MEDEX 457 Behavioral Medicine I (2) *Lurie* Process skills and interpersonal skills needed for primary-care practice, assessment skills needed for the diagnosis of emotional problems, and management skills used in primary-care practice to deal with these problems. Offered: A.

MEDEX 458 Behavioral Medicine II (2) *Lurie* In-depth coverage of common emotional problems seen in primary care. Offered: W.

MEDEX 459 Behavioral Medicine III (2) *Lurie* Continuation of MEDEX 458. In-depth approaches to assessment and management of specific primary-care problems. Advanced interviewing skills with videotaped feedback included. Offered: Sp.

MEDEX 460 Principles of Patient Management

for the MEDEX Practitioner I (3) *Stoll* Systematic approach to patient management applicable to a primary-care setting. Majority of course is devoted to drug therapy and its administration. The other half includes health maintenance, risk factor identification, and nonpharmacological models of therapy. Offered: W.

MEDEX 461 Principles of Patient Management for the MEDEX Practitioner II (3) *Stoll* Continuation of 460. Offered: Sp.

MEDEX 462 Maternal and Child Health for the MEDEX Practitioner II (3) *Dale* Continuation of 456. Emphasis on diagnosis and treatment of common pediatric problems. Offered: Sp.

MEDEX 463 Clinical Clerkships for the MEDEX Practitioner I (19) *Scott* Full-time clinical clerkship spent in institution-based or specialty practice settings, such as occupational health, surgery, emergency medicine, psychiatry, or geriatrics. Credit/no credit only. Offered: AWSpS.

MEDEX 465 Clinical Clerkships for the MEDEX Practitioner II (19) *Plummer* Continuation of clinical clerkships spent in institution-based or specialty practice settings, with emphasis on inpatient medicine. Credit/no credit only. Offered: AWSpS.

MEDEX 466 Family Practice Clerkship for the MEDEX Practitioner I (19) *Ballweg* Family practice under the supervision of physicians throughout the Pacific Northwest. Common primary-care problems. Students and preceptors are educated in the utilization and management of the physician assistant in practice. Students keep computerized records of patient encounters and complete a variety of written assignments. Credit/no credit only. Offered: AWSpS.

MEDEX 467 Family Practice Clerkship for the MEDEX Practitioner II (19) *Flynn* Further experience in primary-care practice with emphasis on independent patient management by the student supervised by family practitioners. Credit/no credit only. Offered: AWSpS.

MEDEX 468 Emergency Medicine I for the MEDEX Practitioner (2) *Landel* Approach to the diagnosis and management of common emergency conditions for primary care physician assistants. Organ system approach. Offered: W.

MEDEX 469 Emergency Medicine II for the MEDEX Practitioner (2) *Landel* Continuation of MEDEX 468. Approach to diagnosis and management of common emergency conditions for primary care physician assistant. Organ system approach. Offered: Sp.

MEDEX 470 PA Role Course I (1) *Ballweg* Introduction to the history, current status and future development of the PA profession. Description and discussion of state medical practice acts and reimbursement status. Other course topics are the roles of physicians and nurse practitioners. Offered: A.

MEDEX 471 PA Role Course II (1) *Ballweg* Continuation of MEDEX 470. Health access issues, health care politics and managed care issues. Offered: W.

MEDEX 472 PA Role Course III (1) *Ballweg* Continuation of MEDEX 471. Focuses on health care issues for specific underserved populations. Cross-cultural simulations introduced course

concepts. Students work in small groups and present their findings to fellow students. Offered: Sp.

MEDEX 473 Technical Skills I (1) *Coerver* Introduces clinical skills and procedures through hands-on experiences to physician assistant students Offered: A.

MEDEX 474 Technical Skills II (1) *Coerver* Introduces clinical skills and procedures through hands-on experiences to physician assistant students. Continuation of Technical Skills I. Offered: W.

MEDEX 475 Technical Skills III (1) *Coerver* Introduces clinical skills and procedures through hands-on experiences to physician assistant students. Continuation of Technical Skills II. Offered: Sp.

MEDEX 499 Special Field Projects/Independent Study (1-12, max. 12) Clinical clerkships and independent study activities for students enrolled in the MEDEX Northwest Physician Assistant Program. Credit/no credit only. Offered: AWWSpS.

Medical Education and Biomedical Informatics

MEBI 499 Undergraduate Research (*, max. 12) Investigative research or directed readings in medical education and in biomedical and health informatics. Prerequisite: permission of instructor.

MEBI 510 Topics in Medical Education Research (1/3, max. 12) Selected research topics in medical education. Development of skills in critical analysis and production of original research. Optional: 1 additional credit for seminar focusing on application of issues in education practice. Credit/no credit only. Offered: AWWSp.

MEBI 511 Current Issues in Medical Education (2) *Dohner, Robins, Scott, Wolf* Addresses current issues in medical education in the context of historic and contemporary developments. Topics include curriculum development, teaching, and learning, clinical knowledge and reasoning, assessment, professional development, program evaluation, and certification. Offered: A.

MEBI 512 Leadership in Academic Medicine (1) *Dohner, Robins, Scott, Wolf* Explores the theoretical and practical aspects of leadership in academic medicine. Topics include qualities of effective leadership, leadership styles, and impact of institutional organization and culture on leadership. Prerequisite: permission of instructor. Offered: S.

MEBI 520 Teaching Methods in Medical Education (2) *Ambrozny* Empirical and theoretical merits of different teaching methods as applied to medical education. Structuring and leading group discussions, using questions, organizing and delivering lectures, identifying styles of clinical supervision, providing constructive feedback, and presenting effective clinical demonstrations. Offered: W.

MEBI 521 Evaluation of Learning in the Health Sciences (3) *Carlino* Basic issues and methods for evaluation of learning: cognitive performance, psychomotor skills, and reasoning abilities in classroom, laboratory, and clinical settings. Practical applications of instruments such as

multiple-choice questions, essays, oral examinations, checklists, rating scales, simulations, and patient management problems. Recommended: 520. Offered: Sp.

MEBI 522 Research in Medical Education (2) *Scott* Individualized, problem-based overviews of research methods and research design pertinent to research and scholarship in medical education. Development and sequencing of research projects from conceptualization through literature review, including proposal development, project implementation, data management, analysis, and write-up. Assessment and critical reading of related literature stressed. Offered: A.

MEBI 530 Medical Informatics (3) *Masuda* Overview of biomedical and health informatics concepts, theories, and applications, including the historical evolution and the current and future research directions within the context of information flow in health care settings. Offered: A.

MEBI 532 Computing Concepts for Medical Informatics II (3) *Kalet* Continuation of topics begun in MEBI 531: multiprogramming and operating system principles, client-server, network programming with sockets, macros, higher level languages, software engineering. Prerequisite: MEBI 531 or equivalent. Offered: W.

MEBI 534 Biology and Informaticists (3) *Brinkley* A computing and information oriented treatment of the core concepts of human biology, addressing structure and function at three levels or organization: organism, cell, and gene. Each level includes examples of key anatomic and physiologic concepts, presented from a computational perspective and with the use of electronic resources. Offered: A.

MEBI 535 Clinical Topics for Informaticists (3) *Karras* Builds on Biology for Informaticists and introduces the student to a variety of clinical disciplines, representative clinical problems from these disciplines, and informatics issues and applications within these disciplines. Lecturers include faculty from the Schools of Medicine, Nursing, Pharmacy, and Dentistry. Prerequisite: MEBI 530, MEBI 531, MEBI 534. Offered: W.

MEBI 536 Bioinformatics and Gene Sequence Analysis (3) *Rose* Nature and relevance of molecular sequence information, computer-based protein, and DNA sequence analysis, molecular sequence and genomic databases, and methods for database accession and interrogation. Prerequisite: background in molecular biology and permission of instructor. Offered: jointly with PABIO 536; W.

MEBI 537 Informatics Research and Evaluation Methods (4) *Carlino, Brock* Introduces the many facets of evaluation and research for Biomedical and Health Informatics projects. Focuses on formal studies of the application of information technology in medicine, conducted while an information resource is under development and after the resource is in routine service. Offered: W.

MEBI 540 Critically Appraising and Applying Evidence in Health Care (3) *Wolf* Literature appraisal skills for various articles (therapy effectiveness, diagnostic tests, literature reviews, clinical measurement, prognosis, quality of care, decision analysis, causation/etiology, guidelines, and economic evaluation). Appraisal of clinical information from literature, strengths/weaknesses

of data, analyses, study design/applicability to a current patient's problem. Prerequisite: permission of instructor. Offered: jointly with HSERV 528; W.

MEBI 541 Introduction to Systematic Reviews and Meta-analysis of Evidence (2) *Wolf* Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: introductory level courses in statistics, epidemiology or biostatistics. Prerequisite: permission of instructor. Offered: jointly with HSERV 529; Sp.

MEBI 550 Knowledge Representation and Applications (3) A readings class in knowledge representation, as described in the primary artificial intelligence and biomedical informatics literature. Topics may include: frame-based systems, description logics, theorem proving, complexity vs. tractability, ontologies, rule-based systems, and biomedical domain applications. Prerequisite: any artificial intelligence course (e.g., CSE 415 or better), or permission of instructor.

MEBI 552 Clinical Decision Support (3) *Doctor* Provides foundation in clinical decision making and support (including decision analysis, Bayesian analysis, belief networks, artificial intelligence, neural networks) presented in the context of local and national decision support systems and the movement to decrease errors in healthcare. Prerequisite: MED 530, MED 531, MED 535, MED 537, CSE 415 or permission of instructor. Offered: A.

MEBI 570 Health Sciences Information Needs, Resources, and Environment (3) Characteristics of users of health sciences information; health professionals, researchers, consumers and patients; environments (academic health sciences centers, hospitals, clinics, and public libraries); evaluation of information resources in health care; types and uses of health information management systems; policy issues, professional standards, education, and certification. Offered: jointly with LIS 528.

MEBI 580 Computing Fundamentals for Health Providers (3) Enables health professionals to solve work/practice challenges using existing features of desktop computers. Emphasizes productivity concepts. Introduces extended features of common software packages, as well as basic concepts/methods of small system management and support. Prerequisite: admission to Health Informatics Certificate Program or by instructor permission. Offered: jointly with NURS 521;W.

MEBI 590 Selected Topics in Health Informatics (1-3, max. 12) Computers and information technology are improving and changing healthcare education, research, and clinical practice. Informatics faculty and researchers from the UW and affiliated institutions present their research findings as well as discuss their views of national developments in their respective disciplines. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWWSp.

MEBI 591 Biomedical Health Informatics Research Colloquium (1) Provides forum for extensive interactive research discussions. Format is round table with short presentations and long facilitated discussion amongst students

and core BHI faculty. Both students and faculty present. Topics primarily research focused (ongoing and proposed research.), but also journal articles, current topics of debate, and other. Credit/no credit only.

MEBI 598 Special Topics in Biomedical and Health Informatics (1-4, max. 12) Readings, lectures, and discussions pertaining to a significant biomedical and health informatics problem or an emerging issue. Topics vary. Offered: AWPpS.

MEBI 599 Independent Study or Research (*, max. 12) .

MEBI 600 Independent Study/Research (1-10, max. 10) Individual readings or study, including independent study in preparation for doctoral examinations, research, etc. Prerequisite: permission of instructor.

MEBI 700 Master's Thesis (1-15, max. 15) Prerequisite: permission of instructor. Offered: AWPpS.

MEBI 800 Doctoral Dissertation (1-10, max. 10).

Medical History and Ethics

MHE 401 History of Modern Medicine (3) I&S *Whorton* Survey of evolution of medical theory, practice, and institutions in European and American society from the late 18th century present. Medical background not required. Recommended: prior courses in sciences and/or history.

MHE 402 Ethical Theory (5) I&S *Jecker* Reviews the principal theories for normative ethical discourse, such as utilitarianism and deontology, and major metaethical commentary on those theories. Illustrated by classical and modern authors. Recommended: one basic course in ethics.

MHE 404 Metaethical Theory (5) I&S *Jecker* Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition. Recommended: one introductory philosophy course.

MHE 411 Introduction to Bioethics (3) I&S Basic concepts, principles, and methods of analysis, with application to some major issues in the field of bioethics. Case studies utilized to illustrate nature of questions arising in bioethics and to provide students with opportunity to develop skills in ethical analysis.

MHE 413 History of Alternative Healing (3) I&S *Whorton* Analysis of historical development of alternative healing in American society over last two centuries. Emphasis on evolution of theory, practice, and professional institutions for major alternative systems and interactions of alternative modalities with conventional medicine. Medical background not required.

MHE 417 Disease in History (3) I&S *Whorton* Study of Western civilization's experience with epidemic disease, the growth of understanding of the causes of disease, the formation of a philosophy of prevention, and the development of programs to protect the public health. Emphasis on the last two centuries. Medical background not required.

MHE 440 Philosophy of Medicine (5) I&S *Jecker* Familiarizes students with central issues

in the philosophy of medicine. Focuses on the nature of medical knowledge, the connection between theory and observation, the meaning of medical concepts, and the relationship between theories and the world. Recommended: prior courses in philosophy, history of science, or history of medicine. Offered: jointly with PHIL 459.

MHE 474 Justice in Health Care (5) I&S/VLPA *Jecker* Examination of the ethical problem of allocating scarce medical resources. Emphasis on fundamental principles of justice that support alternative health policies. Recommended: prior courses in philosophy or medical ethics. Offered: jointly with PHIL 411.

MHE 481 The Pursuit of Health in American Society (3) I&S *Berryman, Whorton* Examination of the development of concern for personal health over the past two centuries, and of the evolution of philosophies and practices of health promotion. Emphasis on the influence of both medicine and popular culture on shaping of attitudes toward diet, exercise, dress, sex, and other health behavior.

MHE 483 The Rise and Development of Sports Medicine (3) I&S *Berryman* Evolution of medical thought related to exercise for good health, training for sport participation, and treatment of sport-related injuries. Begins with ancient period, concludes with present. Development of specialization in sports medicine, sport team physicians, preventive medicine, concepts of fitness and wellness as related to exercise prescription, and sports medicine clinics.

MHE 485 Concepts of the Body in Nineteenth- and Twentieth-Century America (3) I&S *Berryman* Investigation of ideas relating to corporeal self in nineteenth- and twentieth-century America. Evolution of physical ideals of manliness/femininity, how ideals related to surrounding culture, how different bodily activities developed to realize ideals. Athleticism, physiognomy, beauty contests, body building, decorations, cosmetics, anthropometry, artificial parts.

MHE 497 Medical History and Ethics Special Electives (*-) .

MHE 498 Undergraduate Thesis (*) .

MHE 499 Undergraduate Research (*, max. 5) Investigative work in biomedical ethics or history of the biomedical sciences.

MHE 501 Alternative Approaches to Healing (2) *Whorton* Philosophies and practices of the major alternative approaches to healing. Historical characterization of alternative medicine accompanied by presentations by practitioners of chiropractic, naturopathic, homeopathic, and traditional Chinese medicine. Credit/no credit only.

MHE 503 The Historical Background of Modern Medicine (1) *Whorton* Major elements of thought, practice, and values that have directed the evolution of medicine in Western civilization. Medical culture examined as both an expression and modifier of the culture of its ambient society. Limited to: medical students and others in health professional schools. Credit/no credit only.

MHE 505 Professional Seminar I (3) Methods for identifying a bioethics research question and developing a systematic approach to investigat-

ing it, including utilization of bibliographic sources in bioethics, philosophy, history. Prerequisite: permission of instructor.

MHE 506 Professional Seminar II (2) Capstone course for M.A. in Bioethics. Includes conducting research in ethics, writing, giving oral presentations, facilitating seminars, developing curriculum vitae, and career planning.

MHE 511 P-Medical Ethics (2) Ethics course designed especially for first- and second-year medical students. Study of ethical problems arising in clinical setting of medicine, introducing students to philosophical analysis and argument in practical contexts. Seminar-discussion format with readings from contemporary authors. Credit/no credit only.

MHE 512 P-The Human Face of Medicine (2) Foundation of human values undergirding medical practice. Images of physician — motivations for medicine, empathy *versus* detachment in doctor-patient relationship, health for the health-professional — the art of coping, limits of power — when medicine fails to cure, uses/abuses of technology, physician's role in public health issues, the healing process.

MHE 513 P-Ethical Responsibilities of Medical Practice (2) Provides intensive and practical guidance about management of principal ethical and legal problems that arise in clinical practice: informed consent, confidentiality, decisions regarding life-support, advance directives and surrogate decision-makers, duty to care for indigent and risky patients. Offered: one-week intensive; S.

MHE 514 Legal, Ethical, and Social Issues in Public Health Genetics (3) *Kuszler, Mastroianni* Equips the student to anticipate and assess potential legal, ethical, and social barriers complicating the incursion of new genetic advances, information, and technologies into public and private health care delivery efforts. Prerequisite: GENET 371 or equivalent. Offered: jointly with LAW H 504/PHG 512.

MHE 515 Public Commentary on Ethical Issues in Health Genetics (3) Explores issues in public health genetics through academic commentary, personal narratives, science fiction, and film using ethical frameworks from narrative ethics, feminist ethics, and principlism. Includes cloning, assisted reproduction, prenatal genetic testing presymptomatic genetic testing, gene therapies, scientific responsibility, and GMOs. Graduate students only. Offered: jointly with PHG 525.

MHE 516 Ethical Frameworks for Public Health Genetics (2) *Mastroianni* Case-based application of ethical principles in genetic medicine to range of problems arising in genetics practice, policy, research. Examination of traditional problems including eugenics and testing/screening for genetic disease, as well as emerging problems in population and environmental genetics. Prerequisite: MHE 514/PHG 512. Offered: jointly with PHG 522.

MHE 517 Preclinical Hospice Volunteer Training Elective (3) *Farber, McCormick* Using lectures, small groups, role play, and readings, covers the basic knowledge, skills and attitudes that need to be mastered as a hospice volunteer. Students participate as hospice volunteers as part of their field experience. Offered: jointly with FAMED 546; WSp.

MHE 518 Spirituality in Medicine (2) *Farber, McCormick* Examination of the beliefs, values, meaning, and spirituality of health professionals for the well-being of their patients as well as for themselves. Offered: jointly with FAMED 547.

MHE 520 Seminar in the History and Philosophy of Medicine (3) Origins and philosophical foundations of medical sciences. Critical analysis of processes of evaluation and explanation in biomedical sciences. Consideration of evolution and nature of modern biomedical investigation; concepts of life/death, health/disease; philosophical dimensions of clinical medicine. Open to majors, medical students, arts and sciences graduate students, and others.

MHE 521 The Ethical Challenges of Modern Medicine (3) *McCormick* Case-study approach to contemporary ethical issues in medicine, utilizing techniques of ethical analysis and argument in examining actual cases arising in our pluralistic culture, where values are often in conflict. Open to graduate and professional students and others with appropriate background.

MHE 522 Ethical Problems Surrounding Death (3) *McCormick* Issues arising in care and treatment of dying patients and their families, including truthful disclosure, use of life-supports, "euthanasia," coping with death and grief. Intersection of patient and professional values related to care in terminal phase of illness. Open to graduate and professional students and others with appropriate background.

MHE 523 Biomedical Ethics (3) *McCormick* Selected topics in medical ethics emphasizing methods of ethical reasoning about moral dilemmas and contributions of philosophical theories and principles to practical problems of medicine. Students provided with opportunities to test their value assumptions and analytical skills. Open to graduate and professional students and others with appropriate background.

MHE 530 Genetic Discovery in Medicine and Public Health (3) *Burke* Addresses the clinical and societal implications of genetic knowledge, with an emphasis on the ethical and policy issues surrounding the use of genetic technology in medicine and public health from 1900 to the present. Offered: jointly with PHG 542; W.

MHE 535 Medical Ethics and Jurisprudence (3) *Jonsen* Relationship between bioethics and law. Review of basic concepts of both disciplines; their theoretical and practical connections. Analysis of principal legal cases and statutes illustrating such issues as informed consent to treatment, foregoing life support, research with human subjects, confidentiality, allocation of health care resources. For graduate and professional students.

MHE 536 Research Ethics and Regulation (3) *Mastroianni* Explores the ethical principles and concepts and U.S. laws related to (1) research conducted with animals, (2) research on humans, and (3) the responsible conduct of research. Required for graduate students in the Department of Medical History and Ethics, School of Medicine. Offered: jointly with LAW H 536; W.

MHE 540 Seminar in the History of Health and Physical Exercise (3) Selected topics in the development of medical thought as it relates to exercise, sport, and overall well-being. Open to majors and graduate students in medicine, the

arts and sciences, and others with appropriate background and interest. Prerequisite: permission of instructor.

MHE 541 Exercise in Modern Medicine (1) *Berryman* Survey of role and place of exercise in modern medicine. Historical and contemporary analysis of physical activity and sports medicine in the American health system. Presentations by clinicians about their experiences in: orthopaedics, exercise physiology, sports nutrition, sports psychology, pediatric sports medicine, special issues of female athletes, environmental medicine.

MHE 542 Legal and Ethical Issues in Advanced Practice Nursing (3) *Shannon* Reviews selected ethical issues in health care and legal guidelines relevant to health care decision-making. Explores bioethics as a type of applied ethics. Focuses on preparing students for ethical challenges in advanced nursing roles. Offered: jointly with NURS 522; Sp.

MHE 548 Introduction to Clinical Ethics (5) *Burke* Introduction to history, practice, and research methods in clinical ethics. Case-based examination of methods including principlism, casuistry, narrative methods, virtue ethics. Prerequisite: permission of instructor.

MHE 549 Current Topics in Clinical Ethics I (3) *Dudzinski* Analysis of complex ethical cases from UWSOM clinical departments, literature, and media. Case discussion focuses on implications for delivery of medical care. Prerequisite: MHE 548 or permission of instructor.

MHE 550 Current Topics in Clinical Ethics II (3) *Fryer-Edwards* Analysis of complex ethical cases from UWSOM clinical departments, literature, and media. Case discussion focuses on public policy implications. Prerequisite: MHE 548 or permission of instructor.

MHE 595 Ethics Practicum (1-6, max. 6) Students participate in clinical ethics rounds, case discussions, review of research protocols, or other professional activities related to bioethics. Credit/no credit only. Prerequisite: by permission of instructor.

MHE 596 Masters Research Project ([1-12], max. 12) Research project culminating in a scholarly paper suitable for publication in a peer-reviewed journal. Credit/no credit only. Majors only.

MHE 597 Special Topics in Medical Ethics (1-, max 15) Various special topics in medical ethics. Offered: AWPSpS.

MHE 600 Independent Study or Research (*).

Medicine

MED 498 Undergraduate Thesis (*) *Paauw* Offered: AWPSpS.

MED 499 Undergraduate Research (*) *Paauw* Case studies, with laboratory research. Available to undergraduates and medical students. Offered: AWPSpS.

MED 505 P-Preceptorship in Medicine (1) *Paauw* To provide opportunity for first- and second-year medical students to gain personal experience with medical practice situations by being stationed with carefully selected clinical faculty members in their offices. Credit/no credit

only. Prerequisite: permission of department. Offered: AWPSpS.

MED 510 Health Issues of Sexual Minorities (1) *Greenberg* Introduction to the special health care issues and barriers confronting persons identified as bisexual, gay, lesbian, or transgendered. Includes lectures, panels, and case presentations by faculty and community experts. Offered: Sp.

MED 530 AIDS: A Multidisciplinary Approach (2) *Hawes* Comprehensive overview of the public health, clinical, and laboratory aspects of human immunodeficiency virus (HIV) infection and disease. Topics include the pathogenesis, natural history, and management of (HIV) infections. The impact of HIV/AIDS on community and global health care and prospects for prevention and control. Credit/no credit only. Offered: jointly with EPI 530; A.

MED 531 P-Human Genetics (*) *Stamatoyannopoulos* Weekly seminar dealing with a variety of topics in medical genetics given by faculty of the Division of Medical Genetics and related departments and divisions. Open to medical students with a good foundation in genetics. Offered: AWPSp.

MED 532 Statistical Methods in Medical Genetics (2) *Wijsman* Theory and application of statistical techniques used in medical genetics. In-depth discussion of linkage and segregation analysis and ascertainment problems. Applications stressed with reference to assumptions and limitations. Data sets analyzed with current computer programs. Prerequisite: knowledge of genetics or permission of instructor. Offered: jointly with BIOST/PHG 532; Sp.

MED 533 P-Clinical Endocrinology (2) *Cummings* Emphasis on the most major and dependable symptoms, signs, laboratory tests, and therapy for clinical endocrinopathies. Patient illustrated. Limited to second-year medical students. Offered: W.

MED 546 Clinical Applications of Gene Therapy (2) *Lieber* Overview of the current status of gene therapy. Discusses its role in the future practice of medicine. Lecture and literature reviews. Offered: S.

MED 547 Quantitative Methods in Medical Genetics (2) Computational methods of use for medical genetics. Review of problem sets. Topics range from basic probability to linkage analysis. Prerequisite: genetics and permission of instructor.

MED 549 Clinical Medical Genetics (1) Review of current clinical advances in medical genetics. Includes lectures and discussion of cases from medical genetics clinic. Prerequisite: genetics or human genetics and permission of instructor. Offered: AWPSp.

MED 550 P-An Introduction to Emergency Medicine (1) *Mengert* Presentation of common medical and surgical emergencies and their urgent management, especially within the framework of rapid patient assessment and stabilization. Lecture topics include chest pain and myocardial infarction, basic arrhythmia management, and burn and wound care. Offered: Sp.

CONJ 550 P-Clinical Infectious Diseases (3) *Spach* See Conjoint Courses.

MED 555 P-Mind, Body, and Pen: Writing and the Art of Becoming a Physician (1) Provides forum for medical students to write about issues in medicine and medical education. Focuses on writing as a process for giving voice to the conflicting demands and dilemmas of becoming a physician. Explores personal narratives, dreams and disappointments, chronic illness and death, empathy and revulsion, authenticity and power. Offered: W.

UCONJ 555 Principles of STD/HIV Research (3) *Lukehart* See University Conjoint Courses.

MED 560 P-Advanced Global Health (2) *Kimball* Prepares health profession students for work in developing countries. Includes health care delivery systems, political, social, and economic determinants of health, major global health issues, and personal well-being while abroad. Lecture and seminar format with guest speakers, student presentations, and discussion. Offered: Sp.

MED 561 Tropical Medicine (1) Intended for professional health science students interested in learning the pathophysiology, epidemiology, and clinical presentation of disease conditions that are more commonly seen in less-developed countries, resource-limited settings, or tropical climates, and how to diagnose, treat, and follow the resolution of these diseases with commonly limited resources. Credit/no credit only.

MED 565 P-The Healer's Art: Awakening the Heart of Medicine (1) *Wicks* Encourages cultivation of human dimensions in practice of medicine while strengthening personal commitment to medicine as a life's work. Facilitates student recognition of commonality of personal concerns among peers and student response to the dimension of mystery in the experience of illness as well as development the capacity for awe. Offered: W.

MED 599 P-Transfusion Machine (3) *Reiner* Group discussions and didactic sessions cover broad category of transfusion medicine. Hands-on laboratory experience in red cell serology/compatibility, coagulation, and histocompatibility with emphasis on diagnosis and management of clinical problems. Based at Puget Sound Blood Center. Prerequisite: fourth-year medical student standing; third-year student standing with permission of instructor.

MED 604 P-Clinical Preceptorship in Internal Medicine (8) *Shima (Forks)* Working closely with primary-care physicians, the student is exposed to the private practice of internal medicine in a small community. Operating on a one-to-one basis with an internist, the student evaluates and manages inpatients and outpatients on a primary care, consultative, and emergency basis. Prerequisite: MED 665. (Four weeks, full-time.) Offered: AWSpS.

MED 630 P-WRITE Medicine Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: completion of basic curriculum; third- and fourth-year students; acceptance in the WRITE program.

MED 640 P-Dermatology Clinic (*, max. 5) *Olerud* Students attend dermatology clinic on Monday mornings and Thursday afternoons for twelve weeks. Two half-days per week. Prerequisite: MED 665. Offered: AWSpS.

MED 642 P-Clinical Oncology (8) *Stewart (Fred Hutchinson Cancer Research Center)* Students functioning as primary physicians are responsible for the workups and daily care of patients receiving marrow transplants, high-dose chemotherapy or immunotherapy on an intensive-care research ward. Emphasis is on the management and supportive care of patients with pancytopenia and immunosuppression, transplantation biology, cancer chemotherapy, and infectious disease problems. Prerequisite: MED 665. (Four weeks.) Offered: AWSpS.

MED 644 P-Management of Sexually Transmitted Diseases (2) *Golden, Handsfield* Instruction and clinical experience in diagnosis, treatment, management, and patient counseling of sexually transmitted diseases. Instruction in genitourinary physical examination skills; relevant laboratory techniques and management of patients with STDs. Prior to the elective, each student must review a packet of didactic materials. Prerequisite: MED 665, SURG 665, and OB GYN 665. Offered: AWSpS.

MED 650 P-Advanced Medical Genetics (*, max. 5) *Jarvik, Horwitz, Stamatoyanopoulos* Summer course intended for third-year students who would like to increase their background in specific areas of medical genetics. Involves seeing patients with the instructor, reviewing the literature, analyzing clinical information, and writing a review on a selected topic. Prerequisite: HUBIO 554. Offered: S.

MED 655 P-Clinical HIV Care (8) *Harrington* Full-time outpatient and inpatient elective in HIV care for senior medical students. Students see patients for routine care and acute medical problems that do not require hospitalization, as well as provide inpatient consults. Prerequisite: MED 665.

MED 656 P-Clinical Nutrition (8) *Bruemmer, Purnell, Weigle* Instruction in nutritional assessment and care of both inpatients and outpatients. Students work with preceptors at a variety of hospital and clinic teaching sites, attend nutrition-related seminars, and practice interview skills on standardized patients. Prerequisite: HUBIO 568; MED 665.

MED 665 P-Clinical Clerkship (*, max. 24) *Paauw* Third-year medical students assume increasing responsibility for care of hospitalized patients in a teaching-hospital setting and participate in a four-week outpatient experience emphasizing continuity of care. Daily rounds with resident and attending physicians, with lectures and conferences. Progress evaluated by supervising physicians and a written examination. (Twelve weeks, full-time.) Offered: AWSpS.

MED 666 P-Advanced Clinical Clerkship in Internal Medicine-WWAMI (12) *Paauw* Advanced clinical clerkship in internal medicine in three small urban communities. Supervised, structured experience in dealing with situations commonly encountered by the practicing internist. Continuity of care and the relationship between care given in the ambulatory setting and in the hospital, as well as by other community health services, is emphasized. Prerequisite: MED 665. (Six weeks, full time. Limit: six students.) Offered: AWSpS.

CONJ 677 P-Clinical Allergy and Immunology (*, max. 12) *Henderson* See Conjoint Courses.

MED 678 P-Clinical Dermatology (8) *Olerud* Participation in dermatology clinics and inpatient

consultations at University of Washington Medical Center; Harborview Medical Center; Children's Hospital Medical Center; Seattle V.A. Hospital; Meridian, Idaho; Casper, Wyoming; and Bellingham, Washington. Journal club and clinical conferences each week with entire staff. A continuing series of teaching seminars and weekly dermatopathology conferences. Prerequisite: MED 665. (Four weeks.) Offered: AWSpS.

MED 679 P-Clinical Gastroenterology (8) *Lee, Novan (Sacred Heart Spokane)* Participation in consulting ward rounds, procedures, conferences, and selected clinics with full-time divisional staff at University and Veterans Administration hospitals, and at Pacific and Harborview medical centers, plus directed tutorial work. Prerequisite: MED 665. (Four weeks, full-time.) Offered: AWSpS.

MED 680 P-Rheumatology (8) *Elkon* Full-time inpatient-outpatient clerkship in rheumatology. Clinical experience provided in diagnosis and treatment of rheumatic diseases, utilizing outpatient clinics and hospitalized patients at the University of Washington Medical Center, Harborview Medical Center, or VAMC. Emphasis on concepts in pathophysiology, diagnosis, and treatment of these diseases. In addition to patient contact, reading, seminars, and preceptorial sessions are the methods of instruction. Prerequisite: MED 665. Offered: AWSpS.

MED 681 P- Dermatologic Surgery (8) Dermatologic surgery elective for senior medical students. Instruction in Mohs surgery, conventional skin surgery, cosmetic procedures, wound healing and closure, and intraoperative and postoperative patient management. Prerequisite: MED 665.

MED 682 P-Clinical Cardiology and Electrocardiography (8) *Caldwell (Seattle V.A. Hospital), Corson (Harborview Medical Center), Herzog (Anchorage Veterans Administration Hospital), Mascette (Madigan Hospital Medical Center), Novan (Sacred Heart, Spokane), Otto (University of Washington Medical Center)* Clerkship in clinical cardiology-combined inpatient-outpatient assignments, ECG interpretation. Prerequisite: MED 665. (Four weeks.) Offered: AWSpS.

MED 683 P-Clinical Respiratory Disease and Critical Care Medicine (8) *Lakshminarayanan (Seattle V.A. Hospital), Pierson (Harborview Medical Center), Roth (Madigan) Thompson (Boise Veterans Administration Medical Center), Tonelli (University of Washington Medical Center)* Training in respiratory disease diagnosis and pulmonary therapy, with special emphasis on cardiopulmonary function testing and interpretation. Inpatient and outpatient teaching rounds, conferences, and basic science integration. Prerequisite: MED 665. (Four weeks.) Offered: AWSpS.

MED 684 P-Clinical Hematology/Oncology (8) *Abkowitz (University of Washington Medical Center), Broudy (Harborview Medical Center), Collins (Boise Veterans Administration Medical Center), Roth (Seattle V.A. Hospital), Zuckerman (Boise Veterans Administration Medical Center)* Outpatient and inpatient experience with hematologic/oncologic disorders. The elective includes teaching rounds, conferences, and evaluation of laboratory work. Prerequisite: MED 665. (Four weeks.) Offered: AWSpS.

MED 685 P-Clinical Genetics (*, max. 24) *Bird, Byers, Motulsky, Stamatoyanopoulos* Full-time clinical clerkship in medical genetics. Provides extensive exposure to variety of genetic diseases and genetic counseling. Students work in three clinics (Monday, Tuesday, Thursday), response to in-house consultation requests, attend rounds at Children's Hospital and Medical Center and University of Washington Medical Center and seminars at University of Washington Medical Center (Wednesday, Friday). Prerequisite: MED 665. Offered: AWPpS.

MED 686 Medical Consultation (8) *Hamlin* Full-time outpatient and inpatient elective in peri-operative medical consultation for senior medical students. Students see patients in the medical consultation clinic, then follow them daily when they come in for surgery. Prerequisite: MED 665. Offered: AWPpS.

MED 688 P-Ward Medicine Subinternship (*, max. 24) *Harvey (Anchorage), R. Jones (Madigan Hospital Medical Center), McGee (Veterans Administration Medical Center), Paauw (University of Washington Medical Center), Schoene (Providence), Sheffield (Harborview Medical Center)* Students act in the capacity of interns on the medical wards under supervision of house staff and visiting physicians. They attend all regular medicine rounds and conferences as their schedules permit. Prerequisite: MED 665. (Four or six weeks.) Offered: AWPpS.

MED 689 P-Clinical Infectious Diseases (8) *Stamm (University of Washington Medical Center)* Students participate in the consulting service throughout the hospital, attend daily plate rounds, conferences, and seminars. (Four weeks.) *Corey (Fred Hutchinson Cancer Research Center), Holmes (Harborview Medical Center), Miller (Seattle V.A. Hospital), Morris (Madigan Army Medical Center), Novan (Spokane), Stevens (Boise Veterans Administration Hospital).* Participate in consulting service throughout hospital to learn microbiological aspects of infectious diseases through the clinical laboratories. Prerequisite: MED 665. (Four weeks.) Offered: AWPpS.

MED 690 P-Cardiology Subinternship (8) *Otto (University of Washington Medical Center)* Students act in the capacity of interns on the cardiology service under the supervision of house officer. Prerequisite: MED 665. (Four weeks.) Offered: AWPpS.

MED 691 P-Primary Care (8/12) *Paauw* Six-week, full-time ambulatory care block in primary care internal medicine. Students participate in several clinics at University of Washington Medical Center following a panel of patients in medicine, rheumatology, and virology clinics. Prerequisite: MED 665 and permission of instructor. Offered: AWPpS.

MED 692 P-Clinical Endocrinology and Metabolism (*, max. 12) *Weigle (Seattle-based program); Bunner (Madigan)* Clerkship in clinical endocrinology and metabolism combined inpatient and outpatient assignments at selected hospitals. Prerequisite: MED 665. Offered: AWPpS.

MED 693 P-Nephrology and Fluid Balance (8) *Couser (University of Washington Medical Center), Narasimhan (Boise Veterans Administration Hospital), Novan (Spokane Sacred Heart), Sherrard (Seattle V.A. Hospital), Zager*

(Harborview Medical Center) Students see clinical nephrologic problems under close supervision, participate in nephrology and transplant rounds, see consults with renal fellow and attending, and work up patients in renal clinics, participate in seminars with clerks from all three hospitals. Prerequisite: MED 665. (Four weeks.) Offered: AWPpS.

MED 694 P-Harborview Evening Clinic (2) *Assefi* A longitudinal elective for senior medical students who assume primary responsibility for a panel of medical patients in an outpatient clinic. Direct care of patients is supplemented by didactic sessions dealing with issues in ambulatory care. Students are strongly encouraged to participate for four quarters. Prerequisite: MED 665 and permission of instructor. Offered: AWPpS.

MED 695 P-Clinical Aspects of Aging (8) *Abrass, Hazzard (Harborview Long Term Care Service, Harborview Medical Center, and Seattle V.A. Medical Center), Cusak (Boise V.A. Medical Center)* Work with elderly patients as subintern with Senior Care Program. Inpatient and ambulatory setting in nursing homes and patients' homes. Interdisciplinary approach. Prerequisite: MED 665. Offered: AWPpS.

MED 697 P-Medicine Special Electives (*, max. 24) *Paauw* Special clerkship, externship, or research opportunities that can at times be made available at institutions other than University of Washington. Faculty can advise students of opportunities. Students wishing to elect this course should obtain from Dean's office a special assignment form at least three months before preregistration. Prerequisite: permission of department. (Two, four, six, or twelve weeks.) Offered: AWPpS.

MED 699 P-WWAMI Medicine Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Microbiology

MICROM 101 Microbes and Us (5) NW *Anderson, Brill* Intended for liberal arts majors and students not majoring in the biological sciences. Focuses on activities of bacteria, viruses, and other microorganisms, and their influence on humans. Microbe-related topics include disease, bioterrorism, food, biotechnology, and ecology. Examines the nature of scientific inquiry, along with major biological concepts. Offered: W.

MICROM 301 General Microbiology (3) NW *Anderson, Lara, Nester* Acquaints students with microorganisms and their activities. Topics include microbial cell structure and function, metabolism, microbial genetics, and the role of microorganisms in disease, immunity, and other selected applied areas. Prerequisite: either CHEM 120, CHEM 140, CHEM 142, or CHEM 145; recommended: biology; organic chemistry. Offered: ASpS.

MICROM 302 General Microbiology Laboratory (2) NW *Anderson, Chandler, Gray* Laboratory course primarily for students taking 301. Covers a variety of microbiological techniques, with experiments designed to

illustrate major concepts of bacteriology, virology, and immunology. No auditors. Recommended: MICROM 301 which may be taken concurrently. Offered: ASpS.

MICROM 322 Applied Clinical Microbiology (5) NW *Cookson*, Practical experience in a clinical or public health laboratory; fifteen hours per week. For students majoring in medical microbiology. Three quarters advance sign-up in G315 Health Sciences recommended. Applicants are selected by interview. Credit/no credit only. Prerequisite: MICROM 443.

MICROM 402 Fundamentals of General Microbiology Laboratory (3) NW *Fulton, Gray* Isolation of a broad range of nonpathogenic bacteria from natural sources, using selective and enrichment techniques, with microscopic, biochemical, and molecular identification. Related exercises include genetics, physiology, quantitation, and growth energetics. Prerequisite: either BIOL 200 or BIOL 201; recommended: MICROM 410 which may be taken concurrently. Offered: ASp.

MICROM 410 Fundamentals of General Microbiology I (3) NW *Lara, Traxler* Survey of the microbial world, metabolism, biosynthesis, regulation, growth, structure, and function. Required for students majoring in microbiology; recommended for students majoring in biology. Prerequisite: either BIOL 200 or BIOL 201; either CHEM 223, CHEM 237, or CHEM 335. Offered: A.

MICROM 411 Gene Action (5) NW *Gray, Libby, Manoil* Molecular genetics: description of fundamental genetic processes such as mutation, repair, genetic exchange, recombination, and gene expression. Use of genetic strategies to analyze complex biological processes. Focuses on prokaryotic organisms. Prerequisite: either BIOL 200 or BIOL 201; either CHEM 223, CHEM 237, or CHEM 335. Offered: jointly with GENOME 411; W.

MICROM 412 Fundamentals of General Microbiology III (3) NW *Leigh* Structure, biochemical properties, and genetics of the major groups of prokaryotes. Prerequisite: either BIOL 200, BIOL 201, or BIOL 203; recommended: either CHEM 223, CHEM 237, or CHEM 335; MICROM 410. Offered: Sp.

MICROM 431 Prokaryotic Recombinant DNA Techniques (3) NW *Anderson, Chandler* Laboratory course emphasizing concepts and techniques/methodologies in recombinant DNA research employing bacteria and their viruses. Topics and experiments/demonstrations include genomic and plasmid DNA isolation, restriction mapping, cloning, transposon mutagenesis, sequencing, and Western and Southern blotting. No auditors. Prerequisite: either BIOL 200, BIOL 201, or MICROM 301. Offered: W.

MICROM 435 Microbial Ecology (3) NW *Staley* Consideration of the various roles that microorganisms, particularly bacteria and cyanobacteria, play in environmental processes. The interrelationships among microorganisms and the effects of the physical, chemical, and biological properties of their environment are discussed and assessed. Prerequisite: either BIOL 180, BIOL 201, or BIOL 203. Offered: even years; Sp.

MICROM 440 Introductory Bacteriology for

Medical Technologists (1) NW Anderson

Limited introduction to basic microbiology, with focus on structure, metabolism, and genetics of medically important organisms. Open only to medical technology students. Credit/no credit only. Offered: A.

MICROM 441 Introduction to Immunology (4)

NW General properties of immune responses; cells and tissues of immune system; lymphocyte activation and specificity; effector mechanisms; immunity to microbes; immunodeficiency and AIDS; autoimmune diseases; transplantation. Prerequisite: either BIOL 220 or BIOL 202; recommended: either GENET 371, GENET 372, BIOC 405, or BIOC 440. Offered: jointly with IMMUN 441; A.

MICROM 442 Medical Bacteriology (3) NW

Cookson, Fulton Medically important bacterial pathogens are discussed in terms of the clinical, therapeutic, and epidemiological aspects of diseases caused by them, molecular mechanisms of pathogenesis and their identification in the clinical laboratory. Laboratory course 443 coordinates. Prerequisite: either BIOL 200 or BIOL 201; recommended: MICROM 410; MICROM 441. Offered: W.

MICROM 443 Medical Microbiology Laboratory (3) NW Anderson, Chandler, Fulton

Required for medical technology students, microbiology majors; elective for medical students. Procedures for isolation and identification of pathogenic bacteria, testing their susceptibility to antibiotics. No auditors. Prerequisite: either BIOL 200 or BIOL 201; recommended: MICROM 410. Offered: AW.

MICROM 444 Medical Mycology and Parasitology (4) NW Anderson, Fulton, Schmer, White

Consideration of medically important fungi and parasites, with emphasis on their biology in relation to disease and its laboratory diagnosis. For medical technology students, microbiology majors, and medical students as an elective. Prerequisite: either BIOL 200 or BIOL 201; recommended: immunology. Offered: Sp.

MICROM 445 Medical Virology (2) NW

Languoff An introductory course emphasizing basic understanding of medical virology and viral pathogenesis. The biochemical, replication, host-parasite relationships and pathogenesis of animal viruses are examined. Prerequisite: either BIOL 180, BIOL 200, or BIOL 201; Sp.

MICROM 447 Immunity, Disease and Society (2) Clark

Impact and controversies associated with breakthroughs in immunology and infectious diseases. Topics include vaccines, complementary medicine (herbal boosts of the immune system), the mind and the immune system, allergies (asthma), cancer immuno-therapy, genetic screening and autoimmune disease and natural history of infectious disease. Prerequisite: MICROM 441. Offered: jointly with IMMUN 447.

MICROM 450 Molecular Biology of Viruses (3) NW

Champoux Introduction to the molecular biology of viruses and virus-host relationships. Designed for advanced undergraduates and graduate students in the biological sciences. Coverage includes bacterial and animal viruses, with an emphasis on the molecular mechanisms of viral gene expression and regulation. Prerequisite: either BIOL 200 or BIOL 201; recommended: MICROM 410, MICROM 411, GENET 371, or GENET 372. Offered: W.

MICROM 482 Peer Teaching Assistants in Microbiology (1-5, max. 10)

Direct experience in teaching a microbiology laboratory class. Peer TA's attend concurrent accompanying lecture course, meet weekly to coordinate, give introductory lab remarks, supervise the execution of lab exercises, and assist in preparing/grading of quizzes/exams. Training in teaching techniques, approaches. Student evaluation provided. CR/NC only. Prerequisite: MICROM 402 and MICROM 410. Offered: AWSpS.

MICROM 490 Aquatic Microbiology (3/5) NW

Herwig Basic principles of aquatic microbiology and aquatic microbial ecology: role and identity of aquatic microorganisms; introduction to modern methodologies for research. Laboratory work with local freshwater and marine samples for those enrolled in the five-credit section. Recommended: 15 credits of biological science, 10 credits of chemistry. Offered: jointly with FISH 490; Sp, odd years.

MICROM 495 Honors Undergraduate Research (*-) Leigh

Specific problems in microbiology or immunology. Offered: AWSpS.

MICROM 496 Undergraduate Library Research (2)

An introduction to library research techniques and to microbiological literature. Staff assign a topic and supervise the project. Offered: AWSpS.

MICROM 499 Undergraduate Laboratory Research (*-) Leigh

Specific problems in microbiology or immunology. Credit/no credit only. Offered: AWSpS.

MICROM 500 Introduction to Research (*, max. 20)

Introduction to research areas of the faculty and the techniques employed in their investigations. Credit/no credit only. Prerequisite: graduate standing in microbiology or permission of instructor. Offered: AWSpS.

MICROM 510 Physiology of Bacteria (3)

Traxler Topics of current interest concerning the molecular biology and physiology of bacteria. Prerequisite: MICROM 410 and BIOC 440, 441, and 442, or permission of instructor. Offered: odd years; W.

MICROM 518 Bioremediation of Environmental Pollutants (3) Herwig, Strand

Detailed survey of current understanding of biological pathways for transformation and degradation of toxic organic compounds, pesticides, oil, and metals. Microbial and plant transformations of pollutants and requirements for bioremediation. Requires basic understanding of metabolism and organic chemistry. Prerequisite: biological science course. Offered: jointly with CEE 542/ESC 518; W.

MICROM 520 Seminar (1) Leigh

Credit/no credit only. Offered: AWSp.

MICROM 522 Current Research in Microbiology (1) Champoux

Weekly student and faculty seminar presentations based on the current literature. Credit/no credit only. Prerequisite: graduate standing in microbiology. Offered: AWSp.

MICROM 525 Cell Surface Membrane in Cell Sociology and Immunology (2) Carter, Hakomori

Structure and function of cell surface membranes in relation to development of various diseases, particularly infection, cancer, and inflammation. Examines how specific cell surface molecules are targets of recognition by microbes, tumor cells, and recruited inflammatory cells. Prerequisite: BIOC 440, BIOC 441, BIOC 442,

and permission of instructor. Offered: jointly with PABIO 525.

MICROM 526 Research of Cell Surface Problems (1) Traxler

Weekly research seminar and discussion of scientific literature pertaining to the process of membrane protein biogenesis. Credit/no credit only. Prerequisite: permission of instructor.

MICROM 527 Genetic Approach to Complex Biological Processes (1)

Current research as it applies to genetic approaches to complex biological processes in the area of microbiology.

MICROM 528 Salmonella Genetics (1)

Review current literature in the area of gene regulation in *Salmonella typhimurium* and related studies in *Escherichia coli*. Prerequisite: graduate student standing; advanced undergraduates by permission of instructor.

MICROM 529 Mechanisms of Bacterial Pathogenesis (1) Fang

Student and faculty seminar presentations based on current research pertaining to mechanisms of bacterial pathogenesis at the molecular and cellular levels. Credit/no credit only. Prerequisite: graduate standing in microbiology. Offered: AWSp.

MICROM 530 Evolution of Prokaryotic Diversity (3) Leigh

Evolution, diversity, and genomics of prokaryotic microorganisms. Lectures, discussions, and reading of current literature. Open to graduate students in the biological sciences and advanced undergraduates with permission of instructor. Offered: even years; W.

MICROM 531 Prokaryotic Diversity and Evolution Laboratory (2) Leigh

Enrichment, isolation, and molecular phylogenetic characterization of selected prokaryotic organisms. Prerequisite: permission of instructor. Offered: even years; W.

MICROM 532 Seminar in General Microbiology (1, max. 15) Leigh

Weekly seminar concerning research topics in the genetics and biochemistry of selected bacteria. Credit/no credit only. Prerequisite: MICROM 410, permission of instructor. Offered: AWSpS.

MICROM 533 Herpesvirus Research Meeting (1) Lagunoff

Weekly research seminar and discussion of scientific literature pertaining to the study of molecular virology of Kaposi's Sarcoma-associated herpesvirus. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MICROM 534 Research Seminar in Salmonella Pathogenesis (1) Fang

Provides a formal group setting for discussion and evaluation of a student's research progress. Credit/no credit only. Offered: AWSpS.

MICROM 540 Virology (3) Katze

Lecture-seminar course concerning host-viral interactions. Prerequisite: permission of instructor. Offered: even years; W.

MICROM 553 Molecular Mechanisms of Bacterial Pathogenesis (3) Collins

Mechanisms of bacterial pathogenesis explored at the molecular, genetic, and cellular levels through selected models as presented in the current scientific literature. Prerequisite: MICROM 411 or equivalent. Offered: odd years; A.

MICROM 554 Seminar in Molecular and Medical Microbiology (1, max. 15) Collins,

Cookson Weekly one-hour seminar in which recent advances in molecular biology of microbial pathogenesis or the current research of the participants is presented and discussed critically. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWPp.

MICROM 555 Advanced Clinical Microbiology (2.5) *Limaye* Attendance at daily plate rounds of the Division of Clinical Microbiology. Designed to increase understanding of clinical microbiological work and its application to the care of the patient. Credit/no credit only. Prerequisite: MICROM 443 and permission of instructor. Offered: AWPp.

MICROM 556 Clinical Microbiology Training and Research (*, max. 12) Training in clinical microbiology and applied research. Attendance at daily laboratory rounds in addition to bench-side training and research. For medical students and microbiology graduate students only. Credit/no credit only. Prerequisite: MICROM 443 and permission of instructor.

MICROM 560 Research and Journal Club in Retrovirology (1) *Linial* Weekly research seminar and discussion of literature in areas of retroviral replication and transformation. Prerequisite: graduate or permission of instructor. Offered: AWPp.

MICROM 562 Oncogene and Retrovirus Research Seminar (1) *Linial, Overbaugh* Weekly discussions of ongoing research related to retroviral replication, retroviral oncogeneses and pathology. Prerequisite: graduate standing or permission of instructor. Offered: AWPp.

MICROM 563 Research Seminar in Mycobacterial Pathogenesis (1) *Ramakrishnan*. Discussion of research topics in the study of the pathogenesis of tuberculosis and the microbial and host factors contributing to this complex infection. Credit/no credit only. Offered: AWPp.

MICROM 585 Research in Cell and Molecular Biology (1, max. 15) *Champoux* Weekly research seminar. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWPp.

MICROM 588 Research in Applied Microbiology (1) *Lidstrom* Weekly research seminar and discussion of scientific literature pertaining to applied microbiology. Credit/no credit only. Prerequisite: permission of instructor. Offered: jointly with CHEM E 588; AWPp.

MICROM 599 Research Presentations (2) Current research review. Credit/no credit only.

MICROM 600 Independent Study or Research (*) Credit/no credit only. Offered: AWPp.

MICROM 700 Master's Thesis (*) Credit/no credit only.

MICROM 800 Doctoral Dissertation (*) Credit/no credit only. Offered: AWPp.

Neurological Surgery

NEUR S 498 Undergraduate Thesis (*) *Avellino, Bobola, D'Ambrosio, Ellenbogen, Horner, Moroud, Morrison, Rostomily, Silber* Offered: AWPp.

NEUR S 499 Undergraduate Research (*) *Avellino, Bobola, D'Ambrosio, Ellenbogen, Horner, Moroud, Morrison, Rostomily, Silber* Investigation of special problems as an intimate

member of the research team in the neurological surgery laboratories. Research to lead to a thesis, if desired. List of projects available on request. Prerequisite: permission of instructor. Offered: AWPp.

NEUR S 505 P-Preceptorship in Academic Neurosurgery (1) *Avellino, Britz, Ellenbogen, Goodkin, Klot, J. Ojemann, Rostomily, Sekar, Silbergeld* Opportunity for first- and second-year medical students to observe the research, teaching, and patient-care activities of academic neurosurgery. Prerequisite: permission of instructor. Offered: AWPp.

NEUR S 542 Clinical and Basic Research Correlates of Epilepsy (2) *Avellino, G. Ojemann, J. Ojemann, Silbergeld* Clinical symptoms and treatment of epilepsy; related basic research in neuroanatomy, neurophysiology, neuropsychology, and neuropharmacology of epilepsy. Prerequisite: HUBIO 532 for medical students; permission of instructor for others.

NEUR S 680 P-Neurological Surgery Clerkship (*, max. 8) *Avellino, Ellenbogen* Student serves clinical clerkship as an intimate member of the staff, participating in inpatient and outpatient care, both preoperative and postoperative, involving neurological surgery patients. University of Washington Medical Center or a University-affiliated hospital may be selected, subject to approval of the department. Prerequisite: HUBIO 563. (Four weeks.) Offered: AWPp.

NEUR S 697 P-Neurological Surgery Special Electives (*, max. 24) *Avellino, Ellenbogen* By specific arrangement, for qualified students, special clerkship, externship, or research opportunities can be made available at institutions other than the University of Washington. Students wishing to elect this course should obtain from the Dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of instructor. Offered: AWPp.

NEUR S 699 P-WWAMI Neurological Surgery Special Electives (*, max. 24) *Avellino, Ellenbogen* By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Neurology

NEURL 495 Community Rehabilitation of the Neurologically Impaired: Internship (*, max. 5) *Fraser, Clemmons* Supervised work with a neurologically disabled vocational rehabilitation population within a multidisciplinary vocational rehabilitation unit. Offered: AWPp.

NEURL 499 Undergraduate Research (*, max. 25) Provides an opportunity to gain research experience and direct participation in clinical or basic science investigation in neurological topics. Offered: AWPp.

NEURL 505 P-Preceptorship in Neurology (1) *Kraus* Provides an opportunity for first and second-year medical students to gain personal experience with neurology practice situations by being stationed with carefully selected clinical faculty members in their offices. Prerequisite: permission of instructor. Offered: Sp.

NEURL 536 Topics in Clinical Neurology (1) *Spain* Lectures on epilepsy, stroke, coma, drug overdose, dementia, headache, myelopathies, infectious disease. Offered: S.

NEURL 555 Frontiers in Neuroimmunology (1) *Moeller* Current concepts and developments in neuroimmunology. Credit/no credit only. Prerequisite: either NBIO 301 or IMMUN 441. Offered: AWPp.

NEURL 646 P-Clinical Electroencephalography (*, max. 12) *Farrell, Holmes* For third- and fourth-year medical students. Clinical applications of electroencephalography long-term EEG-video-audio monitoring, computer-averaged evoked potentials. Prerequisite: completion of Human Biology series. Offered: AWPp.

NEURL 665 P-Introduction to Neurology (8) *Kraus* Provides the medical student with a general understanding of basic clinical neurology, at sites in Seattle and the WWAMI region. For fourth-year students. Prerequisite: medicine, or family medicine, or surgery, or pediatrics for third-year students. Offered: AWPp.

NEURL 681 P-Seizure Clinic Clerkship (2.5) *A. Wilensky* Evaluation and follow-up of patients with seizure disorders. Limited contact with inpatients. Prerequisite: MED 665 and permission of instructor. Offered: AWPp.

NEURL 686 P-Clinical Neurology (8) *Swanson* Clerkship including both inpatient and outpatient experiences and didactic sessions on neurological subjects. Student assigned to one of the affiliated hospitals and supervised by neurology residents and full-time staff. Offered: AWPp.

NEURL 687 P-Advanced Clinical Clerkship in Child Neurology (*, max. 8) *Gospe* Advanced course in neurology dealing with neurological disease in children. Supervision by child neurology residents and attending. Prerequisite: NEURL 665, third- and fourth-year medical students. (Limit: one student.) Offered: AWPp.

NEURL 697 P-Neurology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions outside the WWAMI region. Students should obtain special assignment form from the Dean's Office at least one month prior to preregistration. Prerequisite: permission of department advisor. Offered: AWPp.

NEURL 699 P-WWAMI Neurology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of advisor. Offered: AWPp.

Obstetrics and Gynecology

OB GYN 498 Undergraduate Thesis (*) *Vontver* By arrangement.

OB GYN 499 Undergraduate Research (*) *Vontver*.

OB GYN 550 P-Voluntary Pregnancy Termination: An Overview of Medical and Social Issues (2) *Easterling, Miller* A flexible curriculum which allows the medical student to

observe in an abortion clinic, read articles and a textbook on abortion. Can be used by medical student as elective credit.

OB GYN 551 Perinatal Care Elective (1)

Provide an introduction and overview of perinatal care for first- or second-year medical students with emphasis on late third trimester, labor and delivery, and postpartum. Opportunity to observe the patient-provider relationship. Optional labor and delivery observation. Offered: AWSp.

OB GYN 579 P-Obstetric and Gynecologic Investigation (*)

Vontver The investigation may cover any one of the following fields: normal and complicated pregnancy, hormone assays in obstetrics and endocrinology, obstetric and gynecologic oncology, genetics. By arrangement.

OBYN 590 HIV and STIs in Women and Children (3)

Examines the emerging global public health crisis and the plight of women and children with HIV/STIs. Reviews targeted approaches pertaining to women and children and their vulnerability to HIV/STIs. Prerequisite: EPI 511 or EPI 512-513. Offered: jointly with EPI 507; Sp.

OB GYN 665 P-Introduction to Obstetrics and Gynecology, UH-HMC (*, max. 12)

Vontver Introductory clerkship providing comprehensive medical care and counseling to female patients. Includes management and delivery of obstetrical patients, diagnosis and management of gynecologic diseases, hospital rounds, outpatient clinics, seminars, tutorial, and community health-care agencies for women. Rotations occur at UWMC and Harborview Medical Center. Prerequisite: HUBIO 565. (Six weeks. Limit: six students.).

OB GYN 666 P-Introduction to Obstetrics and Gynecology, Boise (*, max. 12)

Vontver Clerkship equivalent to 665 offered at Boise, Idaho (WWAMI). Includes experience in several private physician offices. Prerequisite: HUBIO 565. (Six weeks. Limit: two students. Not offered summer quarter.).

OB GYN 667 P-Introduction to Obstetrics and Gynecology, Madigan (*, max. 12)

Vontver Clerkship equivalent to 665 offered at Madigan Army Medical Center, Tacoma. Prerequisite: HUBIO 565. (Six weeks. Limit: three students.).

OB GYN 668 P-Introduction to Obstetrics and Gynecology, Spokane (12)

Vontver Clerkship equivalent to 665 offered at Spokane (WWAMI). Includes experience in several private physicians' offices. Prerequisite: HUBIO 565. (Six weeks. Limit: three students.).

OB GYN 669 P-Introduction to Obstetrics and Gynecology, Swedish (12)

Vontver Clerkship equivalent to 665 offered at Swedish Hospital Medical Center. Prerequisite: HUBIO 565. (Six weeks. Limit: two students.) Not offered summer quarter.

OB GYN 670 P-Introduction to Obstetrics and Gynecology, GH-Central (12)

Vontver Clerkship equivalent to 665 offered at the Central facility of Group Health Cooperative of Puget Sound in Seattle. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. Prerequisite: HUBIO 565. (Six weeks. Limit: two students.).

OB GYN 671 P-Introduction to Obstetrics and Gynecology, Anchorage (12)

Vontver Clerkship equivalent to 665 offered at Anchorage, Alaska (WWAMI). Includes experience in several private

physicians' offices as well as Providence Hospital. Prerequisite: HUBIO 565. (Six weeks. Limit: three students.).

OB GYN 672 P-Introduction to Obstetrics and Gynecology, GH-East (12)

Vontver Clerkship equivalent to 665 offered at the Eastside facility of Group Health Cooperative of Puget Sound in Redmond. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. Prerequisite: HUBIO 565. (Six weeks. Limit: one student.).

OB GYN 673 P-Introduction to Obstetrics and Gynecology, Military, Madigan (12)

Vontver Clerkship equivalent to 665 offered at Madigan Army Medical Center. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. Prerequisite: HUBIO 565. (Six weeks. Limit: two students.).

OB GYN 675 P-Introduction to Obstetrics and Gynecology, Highline (12)

Clerkship equivalent to 665 offered at Highline Community Hospital. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. Prerequisite: HUBIO 565. (Six weeks. Limit: one student.).

OB GYN 676 P-Introduction to Obstetrics and Gynecology, Missoula (12)

Clerkship equivalent to 665 offered in Missoula, Montana. Students spend time in delivery room, surgery, and clinic, and have a specific preceptor assigned. Prerequisite: HUBIO 565. (Six weeks. Limit: one student.).

OB GYN 677 P-Introduction to Obstetrics and Gynecology, Rock Springs (12)

Equivalent of OB GYN 665, offered in Rock Springs, Wyoming. Student rotates among outpatient clinic, labor and delivery, operating suites, and medical/surgical inpatient areas. (Limit: two students.) Offered: AWSpS.

OB GYN 681 P-Gynecological Oncology Subspecialty (8)

Vontver Experience in reproductive tract malignancy, chemotherapy, and radiation therapy. Student follows selected patients through primary surgery, recovery, and initial adjuvant treatment, as well as continuing treatment in both clinic and inpatient settings. Prerequisite: basic OB GYN Clerkship. (Limit: two students each four weeks.).

OB GYN 682 P-Antenatal High-Risk Obstetrics (8)

Vontver Four weeks on high-risk antenatal obstetrics ward and clinic. Students responsible for initial workups, daily laboratory evaluations, continuing care of high-risk antepartum patients. Weekly conference with obstetrics attending; presentation of one or more topics per rotation. Excellent coordination with resident and attending staff required to maintain patient-care continuity. (Limit: two students each four weeks.).

OB GYN 684 P-Endocrinology of Reproduction (*, max. 12)

Vontver The biochemistry of steroids. Steroid metabolism as related to clinical problems. Diagnosis and treatment of endocrine disorders. Case studies with special emphasis on modern methods of investigation and assisted reproductive technology. (Limit: one student each four weeks.).

OB GYN 685 P-Obstetrics and Gynecology Elective (*, max. 8)

Close working relationship with a physician or physicians in the practice of obstetrics and gynecology. May include clinics, hospital rounds, surgery, deliveries, and business aspects of practice.

OB GYN 697 P-Obstetrics and Gynecology

Special Electives (*, max. 24) *Vontver* By arrangement, for qualified students, special clerkship or research opportunities can sometimes be made available at other institutions. Students wishing this course should obtain special assignment form one month before preregistration. Department evaluates student performance. Prerequisite: permission of instructor.

OB GYN 698 P-Introduction to Obstetrics and Gynecology, Away (*, max. 12)

Vontver Clerkship equivalent to 665 at sites being evaluated as permanent WWAMI sites (currently includes Silverdale, Evergreen, Fairbanks, Sandpoint, Cheyenne, and Billings). By arrangement. Subject to Dean's Office approval. Department evaluates student performance. Prerequisite: HUBIO 565; permission of instructor.

OB GYN 699 P-WWAMI Obstetrics and Gynecology Special Electives (*, max. 24)

By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located outside the WWAMI region. A special assignment form must be obtained one month in advance of preregistration. Prerequisite: permission of department.

Ophthalmology

OPHTH 498 Undergraduate Thesis (*)

Kinyoun (University of Washington Medical Center) Thesis-based research in vision and ophthalmology. Elective. Offered: AWSpS.

OPHTH 499 Undergraduate Research (*)

Kinyoun (University of Washington Medical Center) Laboratory or clinical research in morphology, biochemistry, immunology, experimental pathology, or clinical studies of the eye and visual system. Offered: AWSpS.

OPHTH 501 P-Ophthalmology Preceptorship (1)

Kinyoun Individualized experiences with one or more of the full-time faculty members of the department covering research, teaching, and patient care. Student observes activities in the clinic, hospital ward, operating room, and research laboratories. Prerequisite: first- and second-year medical student standing and permission of instructor. Offered: AWSpS.

OPHTH 681 P-Ophthalmology Clerkship (4)

Sires (Harborview Medical Center) Students gain experience in the diagnosis and treatment of common ocular disorders. Basic examination techniques, including tonometry, ophthalmoscopy, and biomicroscopy. Prerequisite: completion of human biology series. (Limit: one student.) Offered: AWSpS.

OPHTH 683 P-Pediatric Ophthalmology Clerkship (4)

Weiss (Children's Hospital and Regional Medical Center) Student examines and observes treatment of children with ocular diseases and learns to differentiate trivial from potentially blinding disorders. Programmed text in general ophthalmology furnished. Prerequisite: University of Washington student and completion of human biology series. (Two weeks, full-time. Limit: one student.) Offered: WS.

OPHTH 685 P-Ophthalmology Clerkship (4)

Orcutt (VA. Puget Sound Health Care System) Participation in diagnosis and treatment of medical and surgical ocular disease. Outpatient

examinations, inpatient surgery, as well as neuro-ophthalmologic, retinal, and glaucoma consultations. Basic techniques involved in tonometry, ophthalmoscopy, and biomicroscopy of eye. Prerequisite: completion of human biology series. (Limit: one student.) Offered: AWSpS.

OPHTH 686 P-Ophthalmology Clerkship (4) *Gorman (Group Health Central)* Diagnosis and treatment of ocular diseases in outpatients. Weekly assignment to Group Health ophthalmologist responsible for the care of walk-in and urgent patients, which may demonstrate findings pertinent to the future practice of primary-care physicians. Examination techniques, including tonometry, ophthalmoscopy, and biomicroscopy. Prerequisite: completion of human biology series. (Limit: one student.) Offered: AWSpS.

OPHTH 687 P-Ophthalmology Clerkship (4) *Kinyoun (University of Washington Medical Center)* Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, neuro-ophthalmology, glaucoma, contact lenses, and strabismus. Student attends regularly scheduled conferences in ophthalmic basic and clinical science. Prerequisite: completion of human biology series. (Limit: one student.) Offered: AWSpS.

OPHTH 688 P-Ophthalmology Clerkship (8) *Kinyoun, Werner* Four-week externship at Alaska Native Medical Center in Anchorage. Opportunity to learn and practice common eye examination techniques, including slit-lamp biomicroscopy, tonometry, and funduscopy. Patients seen three days a week; two days spent in the operating room. Prerequisite: completion of human biology series, MED 665, and SURG 665; fourth-year medical students only. Offered: AWSpS.

OPHTH 697 P-Ophthalmology Special Electives (*, max. 24) *Kinyoun* By specific arrangement, for qualified students, special clerkship, externship, or research opportunities can at times be made available at institutions or clinics other than the UW. Students wishing to elect this course should obtain from the Dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of instructor. Offered: AWSpS.

OPHTH 699 P-WWAMI Ophthalmology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department. Offered: AWSpS.

Orthopaedics

ORTHP 498 Undergraduate Thesis (*) *Eyre* Student works directly with a preceptor in selecting a suitable area for laboratory or clinical research in the area of orthopaedics, and develops a thesis for recognition. Offered: AWSpS.

ORTHP 499 Undergraduate Research (*) *Eyre* Investigation of pertinent musculoskeletal problems in the orthopaedic laboratories as part of the research group. Offered: AWSpS.

ORTHP 505 P-Preceptorship in Orthopaedic Surgery (1) Opportunity for first- and second-year medical students to gain experience with clinical faculty members in the community. Students observe general aspects of private practice from a longitudinal perspective.

Prerequisite: permission of department. Offered: AWSpS.

ORTHP 585 P-Sports Medicine (2) *O'Kane* Lectures, patient problem presentations, and seminar discussions to explore impact of exercise and sport participation on various body systems. Includes nutritional concerns, biomechanics of certain sports injuries and cardiovascular, pulmonary, and musculoskeletal concerns. Prerequisite: second-year medical student standing. Offered: Sp.

ORTHP 675 P-Preceptorship in Orthopaedics (*, max. 4) *Simonian* Student spends full time with the preceptor during all his or her working day in order to gain a better understanding of the diagnosis and the management of problems of the musculoskeletal system as seen in the private orthopaedic practice. Prerequisite: SURG 665 or HUBIO 553 and permission of department. (Two weeks, full-time.) Offered: AWSpS.

ORTHP 676 P-Pediatric Orthopaedics (*, max. 8) *Diab, Mosca, Song* Acquaints students with all aspects of musculoskeletal problems in childhood. Didactic conferences and seminars, and opportunities for active participation in both inpatient and outpatient care at Children's Hospital and Medical Center, and correlative anatomy and pathology. Prerequisite: SURG 665 or HUBIO 553. (Four weeks, full-time.) Offered: AWSpS.

ORTHP 677 P-Musculoskeletal Trauma (*, max. 8) *Benirschke, Chapman, Hanel, Hansen, Henley, Mills, Mirza, Nork, Routt, Sangeorzan, Smith* Harborview Medical Center. Emergency room, wards, operating room, and outpatient clinics. Instruction in general and special clinics, including hand, hip, foot, and fracture, with emphasis placed on physical examination of the patient. Students take correlative anatomy and pathology. Prerequisite: SURG 665, HUBIO 553. (Four weeks, full-time.) Offered: AWSpS.

ORTHP 678 P-Musculoskeletal Oncology (8/12) *Conrad* In-depth experience on musculoskeletal oncology service with primary involvement in initial evaluation, staging, treatment, and postoperative follow-up of patients with various musculoskeletal malignancies. Elective involves experience in physical, oncologic, radiologic, and pathologic principles of managing sarcomas. Prerequisite: basic orthopaedic elective or permission of instructor. Offered: AWSpS.

ORTHP 680 P-General Orthopaedic Clerkship (*, max. 8) *Chansky* Veteran's Administration Hospital: structured to provide a basic education in the fundamentals of the musculoskeletal system. Heavy emphasis is placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Enrollment limited to three. Offered: AWSpS.

ORTHP 681 P-Sports Medicine Orthopaedic Clerkship (8) *Allan, Bigos, Bruckner, Clark, Conrad, Larson, Matsen, Mirza, Simonian, Smith, Teitz, Trumble* Orthopaedic subspecialty clerkship at University of Washington Medical Center. Preceptor-based outpatient, inpatient, emergency, or operative orthopaedic care. Students work primarily in one subspecialty area and in one general orthopaedic clinic. For students who plan careers in orthopaedic surgery. Prerequisite: completion of HUBIO series, third- and fourth-year medical students. Offered: AWSpS.

ORTHP 682 P-Outpatient Orthopaedics (8) Outpatient orthopaedic experience at University of Washington Medical Center. Emphasis on physical exam, diagnosis, radiographic evaluation, and non-operative treatment. Rotation through general orthopaedics as well as all subspecialty areas. For students who plan careers in primary care. Prerequisite: completion of HUBIO series. Offered: AWSpS.

ORTHP 684 JP-Adult Reconstructive Spine Surgery for Orthopaedics Clerkship (8) *Chapman* Preceptor-based outpatient, inpatient, emergency, and operative orthopaedic care. Work with faculty specializing in adult reconstructive spine surgery, with a goal to maintain the highest standards of care in the evaluation and management of all patients with spinal disorders. Opportunities to participate in each aspect of this mission. Offered: AWSpS.

ORTHP 685 P-Adult Reconstruction: Total Joint Service (8) *Clark* Preceptor-based outpatient, inpatient, emergency, and operative orthopaedic care. Students work with faculty in the Total Joint Service which specializes in lower extremity adult reconstructive surgery, including: complex primary hip/knee arthroplasty; less invasive approaches to hip/knee arthroplasty; revision hip/knee arthroplasty; periacetabular and proximal femoral osteotomy; osteotomy about the knee; and hip arthroscope. Offered: AWSpS.

ORTHP 687 P-Shoulder and Elbow (8) *Matsen, K. Smith* Preceptor-based outpatient, inpatient, emergency, and operative orthopaedic care. Work with the faculty in the Shoulder and Elbow Service, which provides comprehensive evaluation and management for a wide range of shoulder and elbow problems, including: arthritis, dislocation or instability, fractures, rotator cuff/tendon tears, joint stiffness, and unsuccessful previous surgery. Offered: AWSpS.

ORTHP 697 P-Orthopaedic External Elective (*, max. 12) *Simonian* Special arrangements can be made for students desiring to take orthopaedic electives at other institutions. Programs generally approved include orthopaedic clerkships at other universities or at large orthopaedic institutes. Prerequisite: HUBIO 553 and permission of department. Offered: AWSpS.

ORTHP 699 P-WWAMI Orthopedics Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Otolaryngology—Head and Neck Surgery

OTOHN 498 Undergraduate Thesis (*) *Rubel, Weymuller* Student works directly with department faculty in selecting a suitable area for laboratory or clinical research in the area of otolaryngology, and develops a thesis for recognition. Offered: AWSpS.

OTOHN 499 Undergraduate Research (*) *Rubel, Weymuller* Research opportunities offered under direction in the area of otolaryngology. (Twelve weeks.) Offered: AWSpS.

OTOHN 501 P-Preceptorship in Otolaryngology — Head and Neck Surgery (1) *Hillel* One morning a week for a total of 30 hours per quarter spent observing patient care in either

inpatient or outpatient settings at the University of Washington Medical Center; associated readings. Prerequisite: first- or second-year medical student standing. Coordinator: OTOHNS office. Offered: AWSpS.

OTOHN 680 Otolaryngology — Head and Neck Surgery Clerkship UW (4/8, max. 24) *Hillel, Makielski, Manning, Weymuller* Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have opportunity to go to operating room. Rotations at UWMC, VAH, HMC, CHMC, Swedish. Prerequisite: human biology series; recommended: MED 665 or SURG 665. Offered: AWSpS.

OTOHN 683 P-Otolaryngology — Head and Neck Surgery Clerkship Madigan (*, max. 8) *(Madigan Army Medical Center)* Individual externship training at outpatient clinic, where visits average twelve hundred per month, supplemented by inpatient assignments. Students may reside at the hospital during externship, using facilities of bachelor officer quarters and hospital mess. Prerequisite: completion of human biology series. (Two or four weeks, full-time.); recommended: MED or SURG 665. Offered: AWSpS.

OTOHN 686 P-Otolaryngology — Head and Neck Surgery Clerkship Greater Seattle Private Practice (*, max. 4) *Weymuller* Clinical in-depth study for the student whose interest lies in pathology of the head and neck. Reasonable flexibility to arrange course content that provides exposure to all aspects of patient care. Prerequisite: permission of chairman; recommended: MED 665 or SURG 665. Offered: AWSpS.

OTOHN 697 P-Otolaryngology — Head and Neck Surgery Away Externship (8) *Weymuller* By specific arrangement. Special clerkship, externship, or research opportunities can at times be made available at institutions other than the University of Washington. Students wishing to elect this course should obtain from the Dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of chairman. Offered: AWSpS.

OTOHN 699 P-Otolaryngology — Head and Neck Surgery Clerkship WWAMI (4/8, max. 8) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Pathology

PATH 410 Introduction to Pathology (3) *Narayanan* Basic pathologic processes, including cell and tissue involvement in degenerative processes, cell death, inflammation and repair, immunopathologies, cell cycle events, carcinogenesis, and responses to alterations in hormone and growth factor levels. Illustrative disease conditions are reviewed. Required for physical therapy students. Others with suitable biology background by permission of instructor. Offered: A.

PATH 444 General and Systemic Pathology ([2-3]-, max. 5) *Narayanan* Basic pathologic processes that underlie disease, including cell alterations, genetic and developmental pathology, environmental pathology, neoplasia,

immunopathology, inflammation, infection, and systemic diseases. Correlates gross, functional, and biochemical alterations. For first-year dental students and graduate students. Requires reasonable grounding in biological and chemical sciences. Prerequisite for nondental students: permission of instructor.

PATH 450 Cell Biology of Aging (3) *Martin, Rabinovitch, Wolf* Pathophysiology of aging at cell and tissue levels (cell replication limits, telomere shortening, accrual of oxidative damage, caloric restriction effects, loss of postreplicative cells, longevity assurance genes). Proseminar based on student participation. Undergraduate honors students, graduate students with biology, zoology, genetics or medical sciences back grounds. Prerequisite: permission of instructor. Offered: W.

PATH 498 Undergraduate Thesis (*) Elective.

PATH 499 Undergraduate Research (*) Elective.

PATH 500 Molecular Basis of Disease (3) *Parks* Designed for first and second-year graduate students to introduce the concepts of general pathology at the cellular and molecular levels.

PATH 501 Pathology Proseminars (1) Small group discussions and presentations by students based on critical reading of original papers, or on concurrent seminars, in many areas of experimental pathology and medicine. Topic varies by quarter. Prerequisite: permission of instructor. Offered: AWSpS.

PATH 502 Inflammation and Repair (2) Lecture-seminar; a seminar course dealing with an in-depth examination of the processes involved in inflammation and repair. Credit/no credit only. Prerequisite: permission of instructor. Offered: even years.

PATH 507 Introduction to Pathology Research (2) *Bornfeldt, Swisshelm* Current developments and approaches to investigation of the molecular and cellular basis of disease. Members of the Pathology faculty present and discuss their own research projects. Credit/no credit only. Prerequisite: permission of instructor. Offered: A.

PATH 510 Introduction to Pathology Methods (3) *Bowen-Pope* Laboratory course designed to introduce graduate students to the fundamentals of image analysis, histology, histopathology, post mortem evaluation, surgical pathology, and other methods used to investigate disease etiology, progression, and manifestation in humans and in animal models. Prerequisite: permission of instructor. Offered: Sp.

PATH 511 Topics in Experimental Pathology (1-2, max. 10) *Bornfeldt* Focus on areas of research relevant to experimental pathology. Prerequisite: permission of instructor. Offered: AWSpS.

C MED 512 Introduction to the Anatomical Analysis of Animal Disease (5, max. 10) See Comparative Medicine courses.

PATH 512 Molecular Basis of Disease: Death and Repair (1.5) First in a series designed to introduce students to medically important diseases and physiologic processes and experimental approaches to elucidating the cellular processes underlying these diseases.

Covers basic cell/tissue processes that underlie normal homeostasis and most disease and, including apoptosis, necrosis, stem cells, inflammation, granulation tissue, tissue regeneration, repair and fibrosis.

PATH 513 Mechanisms of Neurodegeneration (1.5) Introduction to the cellular and molecular mechanisms that underlie neurodegenerative diseases, including introduction to the normal development and anatomy of the central nervous system, a review of epidemiologic, genetic, and clinical research tools used in the investigation of these diseases, and a systematic review of the major neurodegenerative diseases.

C MED 514 Comparative Pathology Conference (1, max. 6) See Comparative Medicine courses.

PATH 514 Molecular Medicine (3) *Rosen* Graduate-level introduction to the interplay of basic science and clinical medicine. Covers inflammation, vascular disease, metabolic disorders, cancer biology, and molecular-, gene-, and cell-based therapies. Each topic introduced with a patient history. Offered: jointly with CONJ 514; W.

PATH 515 Molecular Basis of Disease: Atherosclerosis and Myocardial Infarction (1.5) *Bornfeldt, Bowen-Pope, Clowes, Dichek, Murry, Raines, Schwartz, Wight* Introduces medically important diseases and experimental approaches to understanding the basis for diseases and their treatments. Covers atherosclerosis, including lipids, extracellular matrix, cell signaling, inflammation, and downstream complications such as myocardial infarction and arrhythmias. Offered: Sp.

PATH 516 Molecular Basis of Human Genetic Disease (3) Introduces the underlying mechanisms in human genetic disorders, ranging from the single nucleotide, through genomic instability, and chromosomal rearrangements. Includes tissue and organ specific examples of the manner in which these disorders provide insights into human biology. Offered: Sp.

PATH 520 Experimental Pathology Seminar (1) Review of current research in various areas of experimental pathology by members of the department and visiting scientists. Credit/no credit only.

CONJ 520 Anatomy and Autopsy (1/2) *Fligner* See Conjoint Courses.

PATH 522 Hematopathology Seminar (2) *Sabath* Identification of normal lymphocyte and bone marrow subpopulations, diagnosis of leukemias, lymphomas, and benign conditions that resemble them. Emphasis on histopathology, cytochemical, immunological, and molecular markers. Clinicopathologic correlation. Offered: jointly with LAB M 522; even years.

PATH 530 Human Cytogenetics (*, max. 4) *Disteche* Sources and methods of preparation and identification of human chromosomes. Molecular structure and mapping of chromosomes. Human cytogenetic pathology: karyotype-phenotype interactions, chromosome breakage, and cancer cytogenetics. Prerequisite: permission of instructor. Offered: even years.

PATH 535 Fundamentals of Human Disease (*, max. 20) Students study human pathology through participation in the autopsy service under direct supervision of a faculty member. They

analyze the histologic, cellular, and biochemical aspects of selected cases, and present their observations in weekly seminars. Prerequisite: PATH 444 or PATH 555 and permission of course director: graduate students only.

PATH 551 Experimental and Molecular Pathology (2-5, max. 20) Introduction to experimental pathology. A tutorial course designed to introduce a graduate student (medical, dental) or senior undergraduate to selected methods and problems through literature surveys and/or laboratory experience. Exploration of causes at the cellular and molecular levels in the study of disease is emphasized. Prerequisite: permission of instructor.

PATH 552 Contemporary Anatomic Pathology (2-5, max. 30) *Schwartz* Study of recent developments in anatomic pathology. Subject includes areas of basic science and review of systemic pathology. Recent developments and interpretation of these findings are stressed. For pathology residents, fellows, and trainees. Credit/no credit only. Prerequisite: permission of instructor.

PATH 555 Environmental Pathology (3) *Monnat, Rhim* Modern morphologic, cell biological, and molecular approaches to environmental disease associated with exposure/predisposition. Lectures, seminar discussion, and student presentations. Prerequisite: PATH 410 or PATH 444 or HUBIO 520; recommended: ENV H 514 and ENV H 515. Offered: alternate years.

CONJ 560, 561 Tumor Biology (3, 2) See Conjoint Courses.

PATH 560 Molecular Analysis of Human Disease (*, max. 10) Review and discussion of contemporary research on molecular basis of human disease. Focus on mutational mechanisms, genetic instability, AIDS, and cancer. Students participate in weekly group discussion and work with faculty to select, develop, and present discussion topic. Prerequisite: medical, graduate, or professional standing and permission of instructor. Offered: AWSp.

PATH 562 P-Cardiovascular Pathology Conference (*) *Reichenbach* Course consists of two parts: a laboratory review of gross and microscopic cardiovascular pathology of selected autopsied cases followed by a combined clinical (medical and/or surgical) and pathology conference discussing these cases. Prerequisite: HUBIO 540 and permission of instructor.

PATH 563 Neuropathology (*) *Alvord, Shaw, Sumi* Course consists of ten parts. Conferences on gross neuropathology (brain cutting and clinicopathologic correlations) held at six hospitals. Weekly neurology or surgical neuropathology conferences, neuropathology slide show, and neuropathology laboratory case studies. Prerequisite: permission of instructor.

PATH 564 Neuropathology Brain Modeling (4) *Alvord* Designed along clinically important, functional, neuroanatomic lines, generally based first on the embryologic development of the most primitive segmental elements (sensory, motor and association cells, and simple reflexes), followed by the more elaborate suprasegmental elements (cerebellum, colliculi, and forebrain).

PATH 571 Neuroanatomic Pathology (*) *Alvord, Shaw, Sumi* The particular diseases occurring in specific parts of the nervous system are

considered in terms of the segmental, intersegmental, and suprasegmental components. Clinicopathologic correlations are emphasized. Prerequisite: permission of instructor; recommended as concurrent course: 563.

PATH 572 Neuropathologic Reactions (*) *Alvord, Shaw, Sumi* The reactions of the nervous system, considered in terms of congenital malformations, inflammations, vascular, traumatic, metabolic-toxic, degenerative, and neoplastic diseases peculiar to the nervous system as a whole. Clinicopathologic correlations are emphasized. Prerequisite: permission of instructor; recommended as concurrent course: PATH 563.

PATH 576 Systemic Pathology II (3) Case examples of gastrointestinal, hematopoietic, lymphoreticular, musculoskeletal, urinary, skin systems, and forensic pathology discussed by students. Relevant laboratory interpretations. Student presentations. Prerequisite: HUBIO 520 or equivalent general pathology course, and permission of instructor.

PATH 584 Neuropathology Brain Modeling Laboratory (4) *Alvord* Clinically important, functional neuroanatomic study based on embryologic motor, sensory, and association cells and simple reflexes, followed by the more elaborate suprasegmental elements (cerebellum, colliculi, forebrain). Three-dimensional neuroanatomical relationships, critical for understanding neuropathology, can best be obtained in constructing a brain model. Prerequisite: PATH 564, which may be taken concurrently.

PATH 600 Independent Study or Research (*) Credit/no credit only.

PATH 665 P-Surgical Pathology (*) Study of fresh current gross surgical specimens and autopsy specimens and their correlation to a patient's clinical course through observation of pathologists working in a large hospital setting. Prerequisite: permission of instructor.

PATH 666 P-Renal Pathology Conference (1) Conference-seminar on the histopathologic aspects of renal disease. May be taken concurrently with MED 693. For third- and fourth-year students. Prerequisite: permission of instructor.

PATH 667 P-Renal Pathology Laboratory (*, max. 6) Laboratory elective for third- and fourth-year medical students. Read current literature, review various renal biopsies and urine sediments, and read standard texts prior to a weekly topic-oriented conference. All students earn 1 credit for one-hour seminar per week. May be taken concurrently with MED 693. Prerequisite: permission of instructor.

PATH 668 P-Skin Pathology (*) Histopathological aspects of skin diseases are presented and discussed in a group-conference type of seminar. Current dermatologic cases also are discussed. Prerequisite: dermatology elective and permission of instructor.

PATH 673 P-Cardiovascular Pathology (*) *Reichenbach* Spectrum of cardiovascular pathology covered in depth by case studies and gross and microscopic material. Case analysis for presentation, including clinical and gross and microscopic material, prepared outside of class time. Clinicopathologic correlation is emphasized. Prerequisite: HUBIO 540 and permission

of instructor and second-year medical student standing.

PATH 679 P-Pathology Summer Clerkship (*, max. 24) Dissection, writeup, and literature review of autopsy. Emphasis on etiology and pathogenesis of disease as a biological process. Designed for students who have not completed organ systems as covered in Human Biology courses. Prerequisite: HUBIO 520 and completion of first year of medical school.

PATH 680 P-Diagnostic Pathology Clerkship — University of Washington Medical Center (*, max. 24) *Swanson* Medical student participation in dissection and study of autopsy and surgical pathology cases. Cases worked up under senior staff, including dissection, microscopic examination, and literature review. Attendance at pathology conferences and seminars expected. Prerequisite: third- or fourth-year student standing.

PATH 681 P-Diagnostic Pathology Clerkship — Harborview Medical Center (*, max. 24) *Deubner*.

PATH 682 P-Diagnostic Pathology Clerkship — Veterans Administration Hospital (*, max. 24) *Thorning*.

PATH 683 P-Diagnostic Pathology Clerkship — Medical Examiner's Office (*, max. 24) *Raven*.

PATH 685 P-Diagnostic Pathology Clerkship — Sacred Heart Hospital, Spokane (*, max. 24) *Williamson*.

PATH 686 P-Diagnostic Pathology Clerkship — Overlake Medical Center (*, max. 24).

PATH 687 P-Diagnostic Pathology Clerkship — Children's Hospital and Medical Center (*, max. 24) *Patterson*.

PATH 688 P-Diagnostic Pathology Clerkship — Madigan Army Medical Center (*, max. 24).

PATH 689 P-Diagnostic Pathology Clerkship — Valley Medical Center (*, max. 24).

PATH 690 P-Diagnostic Pathology Clerkship — Northwest Medical Center (*, max. 24) *Patton*.

PATH 691 P-Diagnostic Pathology Clerkship — General Hospital of Everett (*, max. 24).

PATH 692 P-Diagnostic Pathology Clerkship — Group Health Cooperative (*, max. 24).

PATH 697 P-Pathology Special Electives (*, max. 24) By specific arrangement, students can have clerkships, externships, or research opportunities at institutions other than the University of Washington. Students who wish to elect this course should obtain Special Assignment forms from the Dean's office at least one month before advance registration. Prerequisite: permission of instructor.

PATH 699 P-WWAMI Pathology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

PATH 700 Master's Thesis (*).

PATH 800 Doctoral Dissertation (*).

Pediatrics

PEDS 498 Undergraduate Thesis (*) *Bennett*
For medical students. Offered: AWSpS.

PEDS 499 Undergraduate Research (*) *Bennett*
Participation in various clinical or basic research programs in progress, specifically: child development, developmental biology, human embryology and teratology, medical genetics, infectious diseases, neonatology, neuroembryology, cardiology, endocrinology and metabolism, immunology, respiratory disease. Offered: AWSpS.

PEDS 505 P-Preceptorship in Pediatrics (1) *Bennett*
To provide opportunity for first- and second-year medical students to gain personal experience with medical practice situations for pediatricians by being stationed with carefully selected clinical faculty members in their offices. Prerequisite: permission of instructor. Enrollment limited. Coordinator: Department of Pediatrics. Credit/no credit only. Offered: AWSpS.

PEDS 530 P- Homeless Youth and Their Medical Care (1) *Deisher, Smith*
Clinic-based setting for seminar and interview practice with adolescents; students learn how to deal with special health problems and other related problems of "street kids" through interviews and observations. Credit/no credit only. Offered: W.

PEDS 611 City Doc FREE-TEEN Clinic (*, max. 24) *Breuner, Giesel*
Participation in a free clinic for out-of-home youth, either Monday or Tuesday evenings. Clinical services include general medical care, with a focus on reproductive health, STD evaluations/treatment, and the impact of a homeless lifestyle on general health. Offered: AWSpS.

PEDS 630 P-WRITE Pediatrics Clinical Clerkship (*, max. 24)
Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: completion of basic curriculum; third- and fourth-year students; acceptance in the WRITE program.

PEDS 661 P-Pediatric General Clerkship, Anchorage (*, max. 24) *Lyon*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 662 P-Pediatric General Clerkship (*, max. 24) *Newman*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Location preferences are considered. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 663 P-Pediatric General Clerkship (*, max. 24) *Schweich*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Location preferences are considered. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 664 P-Pediatric General Clerkship (*, max. 24) *Bradford*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 665 P-Pediatric General Clerkship (*, max. 24) *Bennett*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 666 P-Pediatric General Clerkship (*, max. 24) *Marron*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 667 P-Pediatric General Clerkship (*, max. 24) *Newman*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 668 P-Pediatric General Clerkship (*, max. 24) *Stucky*
General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. Prerequisite: HUBIO 563. (Six weeks, full time. Limit: twenty-four students.) Offered: AWSpS.

PEDS 669 P-Neonatal Pediatrics-Clerkship (*, max. 24) *Gleason*
Participation in the activities in the newborn and premature divisions; ward rounds, seminars, conferences, and familiarization with certain laboratory techniques, particularly those relating to acid-base balance. Prerequisite: PEDS 665. (Limit: two students.) Offered: AWSpS.

PEDS 670 P-Pediatric Infectious Diseases (*, max. 24) *Rubens*
Students see and work up clinic consultations and present in detail to attending physician. Daily rounds include problem-solving discussions and didactic presentations in broad category of infectious diseases. Opportunity for experience in clinical research and laboratory techniques. Prerequisite: PEDS 665 or permission; third- or fourth-year medical student standing. (Limit: one student.) Offered: AWSpS.

PEDS 671 Pediatric Endocrinology (*, max. 24)
Focuses on the evaluation of the normal progression of hormone mediated processes in children and the recognition, diagnosis and management of a variety of endocrine problems. Includes participation in clinics, inpatient endocrine rounds and a variety of conferences at Children's Hospital and Regional Medical Center.

PEDS 673 P-Office Practice (*, max. 12) *Bennett*
Opportunity to observe and function in the private office settings of a number of clinical pediatric faculty and to accompany pediatricians as they pursue their daily activities in the community. Prerequisite: PEDS 665. Offered: AWSpS.

<t>CONJ 677 P-Clinical Allergy and Immunology (*, max. 12) See Conjoint Courses.

PEDS 679 P-Clinical Problems in Developmental Disabilities (*, max. 12) *Bennett*
Experience in multidisciplinary evaluation and management of the handicapped child. Student performs pediatric evaluations, obtains appropriate consultations, observes additional professional assessments (e.g., psychological testing), and plans rehabilitation program. Opportunity to provide parent counseling. Prerequisite: PEDS 665. (Limit: one students.) Offered: AWSpS.

PEDS 680 P-Pediatric Clinics (*, max. 24) *Bennett*
One to ten half-day sessions may be elected each week for four weeks in the following areas: general pediatrics, endocrinology, neurology, immunology, arthritis, cardiology, congenital defects and retardation, well-child, teratology, adolescent medicine, allergy, cystic fibrosis, hematology, prematurity, neonatology, and poison control. Enrollment limited. Prerequisite: PEDS 665.

PEDS 681 P-Pediatric Genetics (*, max. 24) *Pagon*
Clinical focus on evaluation and management of children with genetic disorders. Exposure to genetic counseling, the evaluation of children with hereditary structural defects, and diagnosis and management of children with inborn errors of metabolism. Emphasis on genetic mechanisms that cause human disease. Prerequisite: PEDS 665. (Two, four, six, or twelve weeks. Limit: one student.) Offered: AWSpS.

PEDS 682 P-Congenital Defects-Clinical Experience (*, max. 24) *Chance, Davis*
Advanced course in pediatrics providing experience in the clinical diagnosis and management of structural and metabolic congenital defects. Prerequisite: permission of instructor. (Limit: one student.) Offered: AWSpS.

PEDS 683 P-Pediatric Nephrology (8) *Eddy*
Four-week elective clerkship at Children's Hospital and Medical Center. Students participate in nephrology and transplant rounds, consult with renal fellows and attendings, and work up patients in renal clinics. Participation in seminars; special course in fluid balance. Prerequisite: third- or fourth-year medical student, PEDS 665, and MED 665 or equivalent. (Limit: two students.) Offered: AWSpS.

PEDS 684 P-Pediatric Pulmonary Medicine (8) *Redding*
Respiratory disorders, diagnostic techniques and treatments unique to children in the inpatient, intensive care, and outpatient settings. Application of principles of pulmonary physiology to clinical problems. Students conduct consultations under the supervision of the attending and present a topic of choice. Inpatient rounds and clinics. Prerequisite: PEDS 665, fourth-year medical student standing. (Limit: one student.) Offered: AWSpS.

PEDS 685 P-Pediatric Hematology and Oncology (*, max. 24) *Bernstein*
One-on-one teaching plus four weekly didactic sessions. Specific training in techniques and interpretation of bone marrow aspirations, intravenous chemotherapy, transfusions, and laboratory techniques of hematologic evaluation. Self-learning programs available. Prerequisite: PEDS 665. (Two, four, six, or twelve weeks, full-time.) (Limit: one student.) Offered: AWSpS.

PEDS 686 P-Pediatric Cardiology (*, max. 24) *Guntheroth, Kawabori*
Emphasis on physical diagnosis and electrocardiography and on clinical

knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. Prerequisite: PEDS 665. (Limit: one student.) Offered: AWPpS.

PEDS 691 P-Advanced Pediatric Clerkship (*, max. 24) *Bennett* Inpatient and/or outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care. Available at any one, or combination, of affiliated hospitals, including WWAMI units in Alaska, Idaho, Montana, or Washington. Students interested in this option should make arrangements well in advance of registration. Prerequisite: PEDS 665. (Limit: two students.) Offered: AWPpS.

PEDS 697 P-Pediatric Special Electives (*, max. 24) *Benent* By specific arrangement, for qualified students, special clerkship externship or research opportunities at institutions other than University of Washington. The faculty can advise of possible opportunities. Obtain special assignment form from Dean's office at least one month before preregistration. Prerequisite: permission of instructor at away site. Offered: AWPpS.

PEDS 699 P-WWAMI Pediatrics Special Electives (*, max. 24) *Bennett* By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department at away site.

Pharmacology

PHCOL 401 General Pharmacology I (2-4, max. 4) *Wang* Principles governing drug-receptor interactions, dose-response relationships, desensitization, and tolerance. Drug toxicity, allergy, mutagenesis, and carcinogenesis. Pharmacogenomics and DNA/RNA therapies. General pharmacology of drugs acting on the endocrine and vascular systems. For pharmacy students and other undergraduates. Offered: A.

PHCOL 402 General Pharmacology II (3/4) *Storm* General pharmacology of drugs acting on the autonomic, cardiovascular, and central nervous systems. For Pharmacy students and other undergraduates. Prerequisite: PHCOL 401. Offered: W.

PHCOL 434 General Pharmacology (2) *Halpern, Watson* Lectures concerning the action of drugs on physiological and pathological processes with special emphasis on agents of special importance in the practice of dentistry. For dental students. Offered: A.

PHCOL 435 General Pharmacology (2) *Halpern, Watson* Lectures concerning the action of drugs on physiological and pathological processes with special emphasis on agents of special importance in the practice of dentistry. For dental students. Offered: W.

PHCOL 498 Undergraduate Thesis (*) Offered: A.

PHCOL 499 Undergraduate Research (*) Participation in departmental research projects. Offered: AWPpS.

PHCOL 507 Pharmacology Seminar (1) Presentation of comprehensive reports on recent medical and scientific literature in fields of current importance. Research progress reports, and reports on results of completed research. Prerequisite: permission of instructor. Offered: AWPpS.

PHCOL 510 Drug Discovery and Emerging Therapeutics (2) *Zheng* Consideration of the general principles and current approaches involved in modern drug discovery and development, with an emphasis on basic concepts in drug action, delivery, and metabolism. Discussion of novel drug discovery techniques and emerging non-standard therapeutics. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Offered: W.

PHCOL 511 General Pharmacology I (2) *Nathanson* Consideration of the pharmacology of the cardiovascular and autonomic nervous systems. Emphasizes the mechanisms of neurotransmitter, hormone, drug action at autonomic synapses, and the molecular basis for physiology and pathophysiology of the cardiovascular system. Lectures, group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, introductory anatomy, and physiology. Offered: W.

PHCOL 512 General Pharmacology II (1-5, max. 5) *Bajjalieh* Consideration of the neurobiological basis of drug action on the central nervous system, including mechanism of action and therapeutic use in psychiatric disorders; neurodegeneration/neuroinflammation; control of neuronal excitability and pain; and drug abuse and addiction. Lecture, group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, introductory anatomy, and physiology. Offered: Sp.

PHCOL 513 Endocrine Pharmacology and Chemotherapeutics (2) *McKnight* Consideration of the pharmacology of endocrine systems including the hypothalamic/pituitary regulatory peptides, glycoprotein hormones/growth factors, peptide and steroid hormones. Basic principles of chemotherapy of endocrine and other cancers, as well as viral and microbial diseases. Lecture, group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, introductory anatomy, and physiology. Offered: Sp.

PHCOL 514 Current Topics in Pharmacology (1) *McKnight* Current research related to the mechanisms of drug action presented in a seminar format. Presentations include relevant background material as well as detailed experimental results taken from current research articles. Prerequisite: permission of instructor. Offered: AWPpS.

PHCOL 515 General Pharmacology Laboratory (*, max. 9) Laboratory course for professional and graduate students who wish to do independent laboratory research under the direction of a specific faculty member. Prerequisite: permission of instructor. Offered: AWPpS.

PHCOL 519 Introduction to Laboratory Research in Pharmacology (4) *Storm* On a rotation basis students carry out individual research projects in the laboratories of different faculty members. At the end of each quarter students make formal presentations of their work.

For first-year graduate students in pharmacology. Offered: AWPpS.

PHCOL 527 Drug Metabolism (4) *Rettie* Considerations of the biochemical mechanisms for the biotransformation of drugs and foreign compounds. Open to medical and graduate students. Prerequisite: one year graduate, medical, or dental biochemistry, or permission of instructor. Offered: jointly with MEDCH 527; odd years; W.

PHCOL 529 Ion Channel Pharmacology (2) *Catterall, Tempel* Current topics in ion channel structure, function, genetics, and pharmacology, including consideration of role in electrical signaling in cell membranes and information transfer and processing in nervous system, inherited diseases of ion channels, and sites and mechanisms of action of drugs and toxins. Prerequisite: CONJ 532 and CONJ 536 or permission of instructor. Offered: odd years; A.

PHCOL 530 Neuronal Signaling Pathways (2) *Beavo, Pham, Storm, Xia* Advanced consideration of the molecular events between drug or hormone binding to receptors and the resulting responses. Emphasizes roles played by signal transduction pathways in regulation of synaptic plasticity, memory formation, neuronal apoptosis and developmental neurobiology. Prerequisite: UCONJ 532 or permission of instructor. Offered: even years; W.

PHCOL 531 Genetic Analysis of Signaling Systems (3) *McKnight, Moon* Current topics involving signal transduction are discussed with an emphasis on genetic analysis of multicellular systems and creative experimental design. Prerequisite: 9 credits of graduate-level courses in molecular and cellular biology, biochemistry, or genetics, or permission of instructor. Offered: odd years; Sp.

PHCOL 534 Molecular Basis of Addictive Drug Action (2) *Chavkin, Mackie, Stella* Advanced consideration and discussion of current literature addressing the basis of opiate, psychostimulant, and cannabinoid effects on signal transduction events, electrical activity of neurons, and drug-motivated behaviors in animal models of human drug abuse. Prerequisite: PHCOL 512 or permission of instructor. Offered: even years; A.

PHCOL 535 Transcriptional Control in Human Disease (3) *Bomsztyk, Wang* Advanced consideration and discussion of the mechanisms regulating transcription/gene expression and of aberrant transcription factors which disrupt this process found in cancer and other human diseases. Prerequisite: PHCOL 512 or permission of instructor. Offered: even years; Sp.

PHCOL 536 Free Radicals in Health and Disease: A Pharmacological Perspective (2) *Hinds, Vincenzi* Exploration of chemistry and properties of free radicals and related reactive-oxygen and nitrogen species. Review of biological effects of free radicals and reactive oxygen and nitrogen species with a view toward pharmacological intervention. Analysis of literature implicating free radicals in disease processes. Prerequisite: permission of instructor. Offered: odd years; Sp.

PHCOL 549 Molecular Basis of Neurodegenerative Disease (2) *La Spada, Muchowski, Pallanck* Introduces a broad range of neurodegenerative diseases, focusing upon the approaches that have led to recent discoveries and emphasizing the elucidation of mechanisms

and pathways of disease pathogenesis. Offered: jointly with GENOME 549/NEUBEH 549.

PHCOL 550 An Overview of Faculty Research

(1) Wang Reviews research topics currently being studied in pharmacology. Student reads articles published on each topic. Credit/no credit only. Prerequisite: first-year student standing in pharmacology. Offered: A.

PHCOL 560 Regulation of Cell Function by Cyclic Nucleotide Phosphodiesterases (1)

Beavo Discussion of research strategies, methodologies, and literature relating to regulation of cyclic nucleotide levels in the cell. Emphasis on practical problem solving, data analysis, and presentation of methods important to understanding published data and designing new experiments in this area of research. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 561 Molecular Properties of Ion Channels (1)

Catterall Discussion of research strategies, methodologies, and literature concerning the structure, function, and regulation of sodium and calcium channels and the mechanism of action of drugs on them. Emphasis on experimental problem solving, data analysis, and presentation. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 562 Regulation of Synaptic Physiology (1)

Chavkin Discussion of research strategies and methodologies involved in the regulation of signal transduction and synaptic physiology. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 563 Signal Transduction Mechanisms in Neuroplasticity and Neuron Growth (1)

Storm Discussion of research strategies, methodologies, and literature relating to signal transduction mechanisms important for neuroplasticity and regulation of neuron growth in the central nervous system. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 564 Cellular Regulation by Protein Kinases (1)

McKnight Analysis of research problems, techniques, and emerging concepts in the study of the function of protein kinases. Emphasis on critical evaluation of research and development of presentation skills. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 565 Intercellular Signaling in Development (1)

Moon Molecular genetic approaches to dissecting the roles and mechanisms of intracellular signaling during development. Emphasis on vertebrate genes related to *Drosophila* segment polarity genes. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 566 Molecular Pharmacology of Neurotransmitter and Neurokinin Receptors (1)

Nathanson Discussion of research strategies and methodologies in the areas of molecular neurobiology and signal transduction of muscarinic receptors, G-proteins, and neurokinin receptors. Emphasis on practical problem solving, data analysis, and presentation methods

important to modern scientific work. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 567 Mechanisms of Carcinogenesis (2)

Xia Lectures/presentations of biochemical and molecular basis of carcinogenesis induced by environmental agents, including approaches to identification of carcinogens. Role of cell proliferation and cell death (apoptosis) in cancer formation and cancer treatment. Molecular mechanisms that regulate proliferation and apoptosis. Prerequisite: ENV H 516, ENV H 405, or permission of instructor. Offered: jointly with ENV H 567; A.

PHCOL 568 Pharmacology of Free Radicals (1)

Vincenzi Advanced considerations of current literature and experimental design, implementation and interpretation of research dealing with the effects of reactive oxygen species and free radicals on cell membranes and cells. Discussion of the relationships of such phenomena to human disease and the effects of drugs thereon. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 569 Molecular Genetics of Potassium Channel Function (1)

Tempel Discussion of research strategies, methodologies, and literature concerning the structure, function, and regulation of potassium channel genes and their role in behavior as studied in mutant mice. Emphasis on experimental problem solving, data analysis, and presentation. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 571 Molecular Mechanisms of Neurosecretion (1)

Bajjalieh Discussion of research strategies, methodologies, and literature relating to regulation of cyclic nucleotide levels in the cell. Emphasis on experimental problem solving, data analysis, and presentation. Credit/no credit only. Prerequisite: permission of instructor.

PHCOL 572 Transcriptional Regulation of Growth Control Genes (1)

Wang Discussion of research strategies, methodologies, and literature relating to proliferative growth control, cellular differentiation, and gene expression. Emphasis on practical problem solving, data analysis, and presentation. Credit/no credit only. Prerequisite: permission of instructor.

PHCOL 573 Signaling Systems Linked to Neuroinflammation (1)

Stella Discussion of research strategies, methodologies and literature related to neuroinflammation, microglial cell activation, and the cannabinoid signaling pathway. Emphasis on solving practical problem, data analysis, and presentation. Prerequisite: permission of instructor. Offered: A, W, Sp, S.

PHCOL 574 Molecular and Cellular Basis of Chaperone Function and Protein Misfolding Diseases (1)

Muchowski Analysis of research problems, techniques and emerging concepts in the study of the molecular chaperones and protein misfolding diseases. Emphasizes experimental problem solving, data analysis, and development of presentation skills. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 575 Structural Biology of Ubiquitination (1)

Zheng Discussion of research strategies, methodologies and literature concerning the structure, function, and regulation of ubiquitin-protein ligases and the mechanism

underlying ubiquitination and ubiquitin-dependent proteolysis. Emphasis on experimental problem solving, data analysis, and presentation. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

PHCOL 600 Independent Study or Research (*)

Pharmacology graduate students only. Offered: AWSpS.

PHCOL 700 Master's Thesis (*)

Pharmacology graduate students only. Offered: AWSpS.

Physiology and Biophysics

CONJ 401, 402, 403 Human Anatomy and Physiology (4, 4, 4)

Linder, Melby See Conjoint Courses.

P BIO 405 Human Physiology (4-) Wordeman

Intensive coverage of physiology through lectures, conference. Autumn Quarter: excitable tissue, skeletal muscle; spinal reflex; cardiovascular, respiratory physiology; acid base balance; autonomic nervous system; temperature regulation. Winter Quarter: renal, body fluids; neuroendocrinology; reproductive, gastrointestinal, neurophysiology. Required for dental, graduate nursing, and bioengineering students. Also offered for graduate students. Offered: A.

P BIO 406 Human Physiology (-4) Hlastala

Intensive coverage of physiology through lectures, conference. Autumn Quarter: excitable tissue, skeletal muscle; spinal reflex; cardiovascular, respiratory physiology; acid base balance; autonomic nervous system; temperature regulation. Winter Quarter: renal, body fluids; neuroendocrinology; reproductive, gastrointestinal, neurophysiology. Required for dental, graduate nursing, and bioengineering students. Also offered for graduate students. Offered: W.

P BIO 424 Vision and Its Physiological Basis (5) NW

Teller Behavioral neurobiology of human vision: color vision, acuity and spatial vision, light and dark adaptation, visual development. Correlation of visual functioning with known optical, biochemical, physiological, and anatomical substrates. Prerequisite: 2.0 in either PSYCH 333, NBIO 302, or PHIL 160. Offered: jointly with PSYCH 424; W.

P BIO 498 Undergraduate Thesis (*)

Offered: AWSpS.

P BIO 499 Undergraduate Research (*)

Offered: AWSpS.

P BIO 505 Topics in Physiology (0.5)

Topics include excitation-contraction coupling, muscle structure, and molecular basis of contraction, regulation of contraction, muscle mechanisms, energetics, and adaptation. Emphasis on skeletal muscle with some discussion of cardiac and smooth muscle. Series of six lecture discussions. Prerequisite: first-year P BIO graduate student. Offered: A.

P BIO 507 Cardiovascular and Respiratory Physiology (3)

Cardiovascular physiology: the heart, microcirculation, hemodynamics, regional circulation, and reflex integration. Respiratory physiology: the lung, pulmonary circulation, alveolar ventilation, gas exchange, control of

breathing, acid-base regulation, exercise. Offered: W.

P BIO 508 Introduction to Laboratory Research in Physiology (2-5) Students participate in the performance of ongoing projects in designated research laboratories. Emphasis is on experimental design, methodology and techniques. For first- and second-year graduate students in physiology and biophysics to provide a basis for future independent research. Offered: AWSpS.

P BIO 509 Neuroendocrinology (3) *Steiner* Emphasizes the cellular and molecular aspects of several topics in neuroendocrinology, including neuropeptide genes, reproduction, steroid hormone regulation of gene expression, mechanisms of hormone action, endocrine rhythms, and neural oscillations. Prerequisite: either BIOL 201, BIOL 202, and BIOL 203, or BIOL 180, BIOL 200, and BIOL 220; BIOC 440, BIOC 441, BIOC 442 or permission of instructor. Offered: jointly with NEUBEH 541; W, odd years only.

P BIO 510 Physiology Survey (2) Reading and discussion of the research literature in cellular, molecular, and systems physiology. Students write a critical evaluation of each paper in the manner of a peer review. All three quarters are required for second-year P BIO students. Prerequisite: completion of one year of P BIO graduate study. Offered: A.

P BIO 511 Physiology Survey (2) Reading and discussion of the research literature in cellular, molecular, and systems physiology. Students write a critical evaluation of each paper in the manner of a peer review. All three quarters are required for second-year P BIO students. Prerequisite: completion of one year of P BIO graduate study. Offered: W.

P BIO 512 Physiology Survey (2) Reading and discussion of the research literature in cellular, molecular, and systems physiology. Students write a critical evaluation of each paper in the manner of a peer review. All three quarters are required for second-year P BIO students. Prerequisite: completion of one year of P BIO graduate study. Offered: Sp.

P BIO 513 Practicum in Teaching Physiology and Biophysics (4) Students undertake instructional material development, presentation of materials and develop problem-solving techniques. Credit/no credit only. Offered: AW.

P BIO 516 Physiological Proseminar (7) *Hlastala* Guided survey of the experimental literature in cardiovascular and respiratory physiology. Course conducted as seminar with oral analysis of assigned papers and topics. Prerequisite: permission of instructor. Offered: A.

P BIO 518 Research Topics in Cardiovascular Physiology (1) *Feigl* Graduate students and faculty members present and discuss current literature and research. Prerequisite: permission of instructor.

P BIO 519 Membrane and Muscle Biophysics Seminar (1) *Hille* Lectures on current research topics in cell membrane function and muscle contraction. Credit/no credit only. Prerequisite: permission of instructor. Offered: Sp.

P BIO 520 Physiology Seminar (*) Selected topics in physiology. Prerequisite: permission of instructor.

P BIO 521 Biophysics Seminar (*) Selected topics in biophysics. Prerequisite: permission of instructor.

P BIO 522 Selected Topics in Respiratory Physiology (1-3, max. 3) *Hildebrandt* Advanced seminar on selected topics, including pulmonary mechanics, gas exchange, lung fluid balance, regulation of breathing, pulmonary circulation, respiration in the neonate, liquid breathing, airway dynamics, lung structure and development, cardiopulmonary interactions, exercise physiology. Prerequisite: permission of instructor. Offered: AWSpS.

P BIO 523 Heat Transfer and Temperature Regulation (2-5, max. 5) *Brengelmann* Thermal exchange between the body surface and the environment. Heat production and distribution within the body. Properties of cutaneous and deep temperature receptors. Neural integration and homeothermy. Prerequisite: permission of instructor.

P BIO 525 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: A.

P BIO 526 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: W.

P BIO 527 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: SpS.

CONJ 531 Signaling Mechanisms in Excitable Cells (1.5) See Conjoint Courses.

P BIO 532 Discussion in Cell Signaling and Molecular Physiology (2) Discusses fundamental issues in cell excitability and molecular and cellular physiology. Focuses on problem solving and reading from original literature. Emphasizes student participation. Prerequisite: first-year graduate students in neurobiology or physiology and biophysics. Offered: jointly with NEUBEH 532; A.

P BIO 541 Motor Systems I: Peripheral, Spinal, and Cortical Mechanisms (3) *Binder, Fetz* Discussion of research papers on the physiology of the motor unit and the spinal and cortical neurons that control motor unit activity. Prerequisite: NEUBEH 501-503 or permission of instructor.

P BIO 542 Motor Systems II: Brainstem Mechanisms (3) *Anderson, Fuchs* Critical discussion of research papers and resulting concepts regarding the roles of various brainstem systems in controlling somatic and ocular movements. Each student is responsible for leading the discussion of one topic.

Prerequisite: NEUBEH 502 and NEUBEH 503 or equivalent and permission of instructor.

P BIO 544 Properties of Neurons (3) Critical reading and discussion of papers on passive, active, and integrative properties of single invertebrate and mammalian neurons. Provides understanding of how a variety of cellular mechanisms contribute to neuronal discharge patterns. Prerequisite: CONJ 501, CONJ 502, CONJ 503 and NEUBEH 501, NEUBEH 502, NEUBEH 503 or equivalent and permission of instructor. Offered: even years; A.

P BIO 545 Quantitative Methods in Neuroscience (3) *Rieke, Shadlen* Discusses quantitative methods applicable to the study of the nervous system. Revolves around computer exercises/discussion of journal papers. May include linear systems theory, Fourier analysis, ordinary differential equations, stochastic processes, signal detection and information theory. Prerequisite: NEUBEH 501, 502, 503, or by permission of instructor. Offered: jointly with NEUBEH 545; W.

P BIO 547 Readings in Cell Physiology (2/3, max. 15) *Hille* Reading and discussion of research literature on excitable cells. Emphasis on membrane excitability, transport, contractility, growth factors, and extracellular matrix. Topics vary. Prerequisite: CONJ 501 or equivalent. Offered: W.

P BIO 549 Plasticity in the Vertebrate Nervous System (2) Emphasis on mammalian CNS. Examples of anatomical, pharmacological plasticity chosen from literature. Structure changes during development and in adult (hippocampus, spinal cord, nerve-muscle) studied and as correlates of learning. Students responsible for leading class discussion of one topic. Credit/no credit only. Prerequisite: graduate-level courses in neurophysiology and neuroanatomy; understanding of basic neuronal mechanisms. Offered: even years; Sp.

P BIO 550 Biophysics of Calcium Signaling (1) *Hille, Santana* Introduction to cellular calcium signaling including theoretical and technical issues of calcium signal detection and biological conclusions. Prerequisite: CONJ 531 Offered: jointly with NEUBEH 550; odd years; Sp.

P BIO 551 Mouse Models (1) Illustrates the use of transgenic and targeted-gene disruption technologies for developing mouse models of the disease. Introduces the methodology of producing transgenic and knock out mice. Discusses several examples of disease models using the most recent primary literature as a source. Offered: jointly with NEUBEH 551.

P BIO 552 Synaptic Integration (1) *Binder, Powers* Discussion of recent papers on how neurons in the central nervous system integrate concurrent synaptic inputs. Includes: effects of driving force on synaptic currents, effects of conductances on dendritic properties, transfer of currents from dendrites to soma, and transformation of currents into spike train outputs. Offered: jointly with NEUBEH 552.

P BIO 553 Learning and Memory: Synapses and Systems (2) *Jagadeesh, Sullivan* Five-week mini-course evaluates the current state of knowledge on the mechanisms that allow people to learn and remember. After introductory overviews of the cellular and molecular mechanisms underlying long-term synaptic plasticity and the multiple systems existing for

learning and memory, students choose specific topics for discussion. Offered: jointly with NEUBEH 553.

P BIO 554 Motor Learning: Cellular and Network Mechanisms (1) *Fetz, Perlmutter* Five-week mini-course reviews the current state of research on cellular and network mechanisms of motor learning. After an introductory overview of behavioral and physiological examples of motor learning in various species and systems, students choose specific topics for discussion, using the primary literature as a source. Offered: jointly with NEUBEH 554.

P BIO 555 Sensory Receptors (1) *Detwiler, Rieke* Five-lecture mini-course examines how different kinds of sensory receptors detect and respond to different modalities of sensory stimuli. Discussion focuses on the cellular and molecular mechanisms of the underlying transduction processes and the experimental evidence that they are based on. Offered: jointly with NEUBEH 555.

P BIO 556 Axon Pathfinding Mechanisms (1) *Bothwell* Examines mechanisms governing axon growth cone behavior during embryonic development and during regeneration in the injured adult. Discusses approaches employing both invertebrate and vertebrate model systems. Offered: jointly with NEUBEH 556.

P BIO 557 Ion Channel Gating (1) *Gordon, Zagotta* Compares and contrasts mechanisms of gating in ligand-gated and voltage-gated ion channels. Covers basics of ligand gating and voltage gating, kinetic schemes, inactivation and desensitization, gating currents and partial agonists, and ion channel structure. Offered: jointly with NEUBEH 557.

P BIO 560 Muscle and Cell Motility (*) Selected topics in muscle contraction and cell motility. Reading of original papers. Presentations by students and faculty. Topics vary. Prerequisite: permission of instructor.

P BIO 594 Neurological Study Unit (0.5) Faculty and student discussion of neurological topics illustrated with clinical cases or demonstrations include the following: physiology, neuroanatomy, neurology, neuropathology, neurosurgery, and psychiatry. Credit/no credit only. Prerequisite for medical students: HUBIO 532. Offered: AW.

P BIO 600 Independent Study or Research (*) Offered: AWWSp.

P BIO 700 Master's Thesis (*) Offered: AWWSpS.

P BIO 800 Doctoral Dissertation (*) Offered: AWWSpS.

Psychiatry and Behavioral Sciences

CONJ 475 Alcoholism: A Course for Medical Students in the Allied Health Sciences (2) See Conjoint Courses.

PBSCI 498 Undergraduate Thesis (*) Opportunity to complete work on psychiatric research projects or to pursue a specific psychiatric topic in depth, for instance, through library research.

PBSCI 499 Undergraduate Research (*, max. 15) Opportunities are available for participation in

a wide variety of ongoing research in the behavioral sciences and clinical psychiatry, or for the development of an individual investigative project under the supervision of a faculty sponsor.

PBSCI 525 P-Psychiatry and the Law (3) *Goldenberg* Concentration on major issues in psychiatry and law. Outside speakers from legal, judicial, and psychiatric communities. Lectures on assessment in forensic settings, competence to stand trial, and criminal responsibility. Discussions on personality disorders and correctional environments. For psychiatric residents and graduate psychology, psychosocial nursing, social work, and law students.

PBSCI 530 P-Developmental Psychoanalytic Psychotherapy (2) *Schimmelbusch* Examines how failures of psychological development lead to disorders of regulation of affects and cognition, and how psychoanalytic treatment reinstitutes normal development. Treatment process viewed from a psychoanalytic and psychobiological perspective. Clinical case discussion integrates theoretical concepts.

PBSCI 535 Modern Concepts of Psychoanalysis (2) *Schimmelbusch* Examines childhood developmental stages in light of inborn and environmental determinants. Correlates developmental phases with adult personality functioning. Views emotional development from a psychoanalytic and psychobiological point of view. Clinical case discussion integrates theoretical concepts.

PBSCI 546 Psychosocial Epidemiology (3) *Vander Stoep* Application of epidemiological methods to the study of mental illnesses. Topics include occurrence and distribution of mental illness, classification of psychiatric disorders; treatment-based vs. community-based studies; epidemiology of depression and schizophrenia; familial transmission; developmental epidemiology; mental illness and violence. Prerequisite: one course in epidemiology or permission of instructor. Offered: jointly with EPI 546; Sp.

PBSCI 548 P-Aging and Adult Development (1-3, max. 3) Aging in Western technologically advanced societies frequently involves losses in status, stamina, and economic and social supports. Consideration given to losses among the aged. Students select projects in the area of aging and work at their own levels of expertise and sophistication. Seminar format with guided reading.

PBSCI 560 P-Psychological Interventions for Primary Care Physicians (1) *Kent* Focuses on the integration of primary care and mental health issues. Reading, lectures, videos, and role plays are utilized to review evidenced-based psychological interventions which can be employed in an outpatient primary care setting. Emphasizes issues of somatization, depression, anxiety, and health behavior change.

PBSCI 591 P-Seminars and Conferences in Psychiatry: Seminar in Clinical Neuropsychology (*) Introduction to neuropsychological studies of brain-behavior relationships. Exposure to neuropsychological assessment procedures and manifestation of neurocognitive deficits in selected mental and medical disorders, e.g., epilepsy, AIDS, sleep disorders, trauma, toxin exposure, vascular disorders, psychiatric disorders. Develop knowledge of neuropsychological assessment procedures and applications

to diverse medical conditions. Prerequisite: psychological assessment experience.

PBSCI 600 Research in Psychiatry (1-15, max. 15) *GE* Independent laboratory research under the guidance and supervision of research scientists in the Psychiatry Department. Faculty permission required. Offered: .

PBSCI 630 P-WRITE Psychiatry Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: completion of basic curriculum; third- and fourth-year students; acceptance in the WRITE program.

PBSCI 665 P-Basic Clinical Clerkship (12) *Dagadakis, McCreery, Mehta* Inpatient clerkship in psychiatry. Students have primary responsibility under the direction of attending psychiatrists and residents for diagnosis and care of patients at University of Washington Medical Center, Harborview Medical Center, or Veterans Administration Hospital. Emergency room, crisis intervention, consultation to patients with psychiatric dysfunction. Familiarity with psychopharmacology and short-term hospitalization emphasized. (Six weeks, full-time.).

PBSCI 666 P-WWAMI Psychiatry and Behavioral Sciences Clerkship (12) *Kletti* Rotation aims to increase student's skills in basic psychiatry, social psychiatry, transcultural psychiatry, and community psychiatry. Orientation is around the diagnosis, treatment, and clinical management of White, Aleut, Indian, and Eskimo children and adults in outpatient, inpatient, and community settings. Third-, fourth-year medical students. Prerequisite: HUBIO 563. (Limit: three students.).

PBSCI 667 P-Basic Psychiatry Clerkship, Boise (12) *Hines* Basic psychiatry clerkship at Veterans Administration Medical Center in Boise, Idaho. Fulfills graduation requirement for clerkship in Psychiatry.

PBSCI 668 P-Psychiatry Clerkship, Spokane (12) *Bakker* Students work on adult, geriatric, and adolescent inpatient psychiatric units of Sacred Heart Medical Center, following patients after transfer to partial hospitalization or outpatient clinic. Didactics include basic psychiatric diagnosis, treatment, and pharmacotherapy. Prerequisite: completion of HUBIO series; third and fourth-year medical students.

PBSCI 669 Basic Psychiatry Clerkship, Wyoming (12) Students work in the Wyoming Behavioral Institute with adult, adolescent, and child inpatients. Students have some outpatient experience and emergent care assessment experience at the Wyoming Medical Center. Didactics and discussion include topics such as psychopharmacology, emergent care and assessment, diagnosis, and substance abuse issues.

PBSCI 670 P-Clerkship in Consultation/Liaison Psychiatry UWMC (*, max. 24) *Walker* Assessment of patients with major psychosocial problems associated with physical disease, including: problems stemming from the way the illness is perceived and experienced, liaison with other clinical disciplines on complex diagnosis and treatment of problems. (Limit: one student; four weeks.) Prerequisite: HUBIO 563; either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668.

PBSCI 671 P-Clerkship in Consultation/Liaison Psychiatry HMC (*, max. 24) *Elliott*
Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668. (Limit: two students.).

PBSCI 672 P-Selective Clerkship in Primary Care Psychiatry at Boise VAMC (8/12) *Blackburn, Leone, Marsh* Assessment and treatment of patients with acute psychiatric problems in a primary care/rural setting. Consultation work on general medicine and surgery; assessment and dealing with outpatient psychiatric problems as they initially present. Evaluations, crisis intervention strategies, and brief therapies stressed. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668. (Four to six weeks; UW students only.).

PBSCI 673 P-Outpatient Psychiatry Elective (*, max. 24) *Foster* Offered at Harborview Outpatient Center. Students function as subinterns, conducting diagnostic interviews, initiating and managing pharmacotherapeutic treatment regimens, and providing crisis intervention, under the supervision of the full-time attending at Psychopharmacology Clinic. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668. (Four to six weeks, full-time.).

PBSCI 676 P-Inpatient Clerkship in Psychiatry at American Lake VA (8/12) *Chandran* For medical students with a defined interest in psychiatry who wish to develop their knowledge and skills in the evaluation, management, and treatment of a wide range of acute and chronic psychiatric conditions requiring inpatient hospital treatment. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668. (Four to six weeks, full-time.).

PBSCI 677 P-Alcohol and Drug Treatment Clerkship at American Lake VA (8/12) *Lim*
Student assists in every phase of the substance-abuse treatment, including admission interviews, patient evaluation, problem identification, group and individual psychotherapy, assertiveness training, anger control, human sexuality, medical evaluation and treatment, couples therapy, discharge and aftercare planning. Experience primarily clinical. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668. (Four to six weeks, full-time.).

PBSCI 678 P-Clerkship in Psychiatric Long-Term Care and Rehabilitation (*, max. 12) *Chandran* Two- to six-week clerkship provides learning experiences in rehabilitation of long-term psychiatric patients with medical illness. Multidisciplinary team approach, working with homeless mentally ill. Diagnostic skills emphasized. Spectrum of diseases (cardiovascular, Huntington's, organic brain syndrome) is such that physical rehabilitation is not an emphasis. Prerequisite: HUBIO 563; either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668.

PBSCI 680 P-Clerkship in Emergency Psychiatry (*, max. 24) *Gardiner* Emphasis on clinical evaluation, acute management, and treatment planning for individual patients. Experience in coordinating these activities with other emergency room personnel, and various hospital and community resources. Emphasis on skills useful to physicians in any specialty. Third- and fourth-year medical students only. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668. (Four or six weeks, full-time.).

PBSCI 685 P-Geriatric Psychiatry Clerkship (*, max. 12) *Pascualy* Two- to six-week elective (four weeks highly recommended). Participation in the evaluation and care of older persons with psychopathology, such as intellectual impairment and depression, in a variety of settings. Emphasis on improving clinical skills regarding diagnosis and treatment of common behavioral problems in the elderly. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668.

PBSCI 688 P-Subinternship in General Psychiatry (*, max. 16) Students function as interns under the supervision of house staff and attending psychiatrists. Further development of their diagnostic and therapeutic skills emphasized. Special areas of interest, such as family intervention, substance abuse, psychoses, neuropsychiatry, community psychiatry, administration, research pursued. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668; permission of instructor. (Four or six weeks, full-time.).

PBSCI 696 P-Advanced Clerkship in Child Psychiatry (*, max. 24) *Varley* Provides students an opportunity to participate in evaluation and treatment. Experiences in specialized clinics are also available. It is suggested that the student contact the instructor prior to enrollment. Prerequisite: either PBSCI 665, PBSCI 666, PBSCI 667, or PBSCI 668. (Four or six weeks, full-time. Limit: two students.).

PBSCI 697 P-Psychiatry Special Electives (*, max. 24) By special arrangement, clerkships, externships, and research opportunities can be made available at the University and other institutions. Students obtain permission from Dr. Hunt before obtaining a special assignment form from the Dean's office one month before advance registration. Students contact affiliating institutions. Does not fulfill the requirement for a basic clerkship in psychiatry.

PBSCI 699 P-WWAMI Psychiatry and Behavioral Sciences Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Radiation Oncology

R ONC 499 Undergraduate Research (*, max. 24) *Austin-Seymour, Cho, Douglas, Einck, Kalet, Koh, Laramore, Lindsley, Ling, Phillips, Rasey, Russell, Schwartz, Stelzer, Wilbur, Yas* Opportunities in clinical or laboratory investigation in radiation oncology, radiation physics, or computer-related research. Student participation in ongoing or new projects. Open to students in the biological or physical sciences.

R ONC 695 P-Clinical Cancer Management (*, max. 8) *Koh* Participation in the clinical management of patients with cancer, emphasizing a multi-modality approach. Includes clinical assessment, planning of radiation treatment, and follow-up evaluation of patients. Special procedures include three-dimensional treatment planning, implant brachytherapy and intraoperative radiation. Daily teaching conferences with faculty and residents. Prerequisite: MED 665 or permission of instructor.

R ONC 697 P-Radiation Oncology Special

Elective (*, max. 24) *Koh* By specific arrangement for qualified students, special clerkship, externship or research opportunities can be made at institutions other than the University of Washington. Students should obtain a "Special Assignment" form from the Dean's Office at least one month before advance registration. Prerequisite: permission of instructor.

R ONC 699 P-WWAMI Radiation Oncology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Radiology

RADGY 498 Undergraduate Thesis(*)
Supervised clinical and/or laboratory research in the broad field of medical imaging, culminating in a thesis. Offered: AWSpS.

RADGY 499 Undergraduate Research (*)
Opportunity to gain research experience and direct participation in either clinical or basic sciences investigation in diagnostic and/or nuclear medicine. Offered: AWSpS.

RADGY 505 P-Preceptorship in Nuclear Medicine (1, max. 24) *Eary (University of Washington Medical Center)* Opportunity for first- and second-year medical students to gain experience with faculty in clinical and academic environments. Students observe general aspects of the Nuclear Medicine Division, including clinical problems, the different relationships in the clinic between physician and patient, and several research aspects of the division. Prerequisite: permission of instructor. Offered: AWSpS.

RADGY 508 Physical Aspects of Medical Imaging (4) *Stewart* Quantitative physical principles of medical imaging are presented for electromagnetic and sonic radiation. Methods of image formation and analysis are discussed for conventional film radiography, CT, DSA, PET, B-mode ultrasound and Doppler ultrasound. Offered: jointly with BIOEN 508/ENV H 528.

RADGY 550 Nuclear Magnetic Resonance in Biomedicine (2) *Hayes, Kushmerick, Richards, Yuan* Basic physics of nuclear magnetic resonance (NMR) imaging and spectroscopy are presented. Research applications of NMR in physiology and biochemistry are reviewed with emphasis on the brain. Grade based on written tests and small research paper. Prerequisite: permission of instructor. Offered: jointly with BIOEN 565; odd years; Sp.

RADGY 580 P-Nuclear Medicine Technique, Physics, and Instrumentation (2.5) *Lewellen* Provides familiarization with basic nuclear phenomena and with the instrumentation used in the practice of nuclear medicine. There are discussions and laboratory exercises. Practical experience in instrument operation and sample counting are provided. Prerequisite: permission of instructor. Offered: S.

RADGY 693 P-Introduction to Diagnostic Radiology (4) *Schulte* Half-time clerkship in the field of medical imaging. Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of

commonly encountered studies. Offered: AWSpS.

RADGY 694 P-Advanced Clinical Clerkship (8)

Schulte Full-time clerkship provides a more in depth experience in diagnostic radiology and nuclear medicine. Required rotations in the subspecialty areas of radiology augment the basic lecture series and case discussions of Radiology 693. For those with a special interest in diagnostic radiology. Prerequisite: permission of instructor and departmental education coordinator. Offered: AWSpS.

RADGY 695 P-Radiology Sub-specialty

Elective (*, max. 8) *Schulte* Clinical rotation in one of the sub-specialty areas of radiology at the University of Washington and affiliated hospitals. Requires special arrangements and permission from a preceptor and the education coordinator in Radiology. Two or four weeks. Offered: AWSpS.

RADGY 696 P-Nuclear Medicine Clerkship (*, max. 12)

Eary Daily participation at University of Washington Medical Center nuclear medicine clinic emphasizing technical performance, diagnostic interpretation, and clinical relevance of nuclear imaging. Daily clinical teaching conferences of the division. Four- and six-week clerkships can be preplanned in areas such as pulmonary, cardiovascular, renal, bone, computer analysis. Prerequisite: permission of instructor. Offered: AWSpS.

RADGY 697 P-Radiology Special Electives (*, max. 24)

Schulte Radiologic training in a nonaffiliated institution. Permission and arrangements must be made at the time of registration through direct communication between the student and the education coordinator in Radiology. A written outline from a preceptor at the intended site required. Prerequisite: permission of radiology education coordinator. Offered: AWSpS.

RADGY 699 P-WWAMI Radiology Special

Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Rehabilitation Medicine

REHAB 300 Introduction to Occupational

Therapy (1) Introduction to occupational therapy profession. Provides historical perspectives, theoretical foundations, and clinical case studies in various practice arenas. Credit/no credit only. Offered: ASP.

REHAB 340 Spinal Orthotics (5)

Yamane Instruction and review of anatomy and biomechanics of the spine, patient evaluation, and prescription considerations as related to spinal orthotics. Lectures provide background knowledge of orthotic treatment principles for spinal pathologies. Laboratory experience includes patient evaluation, impression and measurement techniques, fabrication methods, and fitting criteria. Required for prosthetics and orthotics majors.

REHAB 341 Upper Extremity Prosthetics I (4)

Okumura Principles of upper extremity prosthetic management and prescription considerations: functional evaluation, preprosthetic care, use of prosthetic components and materials, fabrication,

harnessing, prosthetic training, documentation, and billing. Incorporates anatomy, biomechanics, and pathomechanics with clinical experience as they pertain to upper extremity prosthetics. Required for prosthetics and orthotics majors.

REHAB 342 Upper Extremity Prosthetics II (4)

Okumura Principles of upper extremity prosthetic management and prescription considerations: functional evaluation, preprosthetic care, use of prosthetic components and materials, fabrication, harnessing, prosthetic training, documentation, and billing. Incorporates anatomy, biomechanics, and pathomechanics as they pertain to upper extremity prosthetics. Required for prosthetics and orthotics majors. Prerequisite: REHAB 341.

REHAB 343 Upper Extremity Orthotics (2-4, max. 4)

Yamane Lecture and laboratory instruction in patient evaluation, prescription considerations, componentry, and fabrication procedures for upper extremity orthoses. Required for prosthetics and orthotics majors.

REHAB 400 Medical Science (4)

Greenberg, Jirlikowic Lectures in fields related to: general surgery, obstetrics and gynecology, internal medicine, neurology, rehabilitation medicine, orthopaedics, psychiatry and behavioral sciences, rheumatology, and pediatrics. Required for occupational therapy, prosthetics and orthotics, and physical therapy students. Credit/no credit only.

REHAB 401 Medical Science (4)

Abrahamson, Greenberg Lectures in fields related to: general surgery, obstetrics and gynecology, internal medicine, neurology, rehabilitation medicine, orthopaedics, psychiatry and behavioral sciences, rheumatology, and pediatrics. Required for occupational therapy, prosthetics and orthotics, and physical therapy students. Credit/no credit only.

REHAB 402 Medical Science Laboratory (1, max. 2)

To introduce students to the role of allied health professionals in the treatment of pathologies presented in 400, 401 lectures. Credit/no credit only.

REHAB 403 Exercise Physiology for

Rehabilitation Professionals (2) *Anderson, Slimp* Normal and pathological physiology of the cardiovascular, respiratory, and musculoskeletal systems as a basis for evaluation and intervention in occupational therapy, physical therapy, and prosthetics/orthotics. Required for majors.

REHAB 413 Special Studies in Physical

Therapy (1-15, max. 24) Theory and practice in specialized areas of physical therapy. Credit/no credit only.

REHAB 414 Psychological Aspects of

Rehabilitation (2) *I&S Patterson* Psychological processes underlying adjustment to disability; application of behavioral/analysis systems in patient therapy management; effects of cognitive or personality deficits on patient performance and treatment strategies. Credit/no credit only.

REHAB 416 Principles of Physical Therapy

Administration (2, max. 4) *Guthrie* The nature of administration, economic trends, operational policy, aspects of supervision, ethical and legal influences applicable to a physical therapy department. Required for physical therapy students. Credit/no credit only.

REHAB 420 Lower Extremity Prosthetics I (8)

Abrahamson Instruction in patient evaluation,

casting, cast modification, socket fabrication, static and dynamic alignment, alignment duplication, suspension systems, and documentation for transtibial amputation. Required for prosthetics and orthotics majors; others by permission of instructor.

REHAB 421 Lower Extremity Prosthetics II

(11) *Abrahamson* Instruction in transfemoral patient evaluation, casting, cast modification, socket fabrication, static and dynamic alignment, alignment duplication, suspension systems, and documentation. Methods of fitting through knee and hip disarticulation levels demonstrated. Required for prosthetics and orthotics majors; others by permission of instructor.

REHAB 423 Lower Extremity Orthotics I (6)

Yamane Patient evaluation and prescription considerations for orthotic management of the lower extremity. Lectures provide instruction in the biomechanics of the lower extremity during ambulation, clinical indications and fitting criteria for a variety of orthotic devices. Laboratory sessions provide experience in fabrication principles, and impression and measurement techniques. Required for prosthetics and orthotics majors.

REHAB 424 Lower Extremity Orthotics II (8)

Yamane Orthotic treatment of pathological conditions that affect the knee and hip addressed. Focus is placed on development of prescription recommendation, fabrication, fitting, and follow-up of orthoses that support, assist, or stabilize the knee and hip. Required for prosthetics and orthotics majors; others by permission of instructor.

REHAB 427 Prosthetics and Orthotics

I (1-, max. 4) *Hafner* Presentation and discussion of current clinical practice using research and journal articles and case presentations. Required for prosthetics and orthotics majors; others by permission of instructor. Credit/no credit only.

REHAB 428 Applied Prosthetics and Orthotics

II (1-4, max. 13) Experience in patient management under the preceptorship of certified practitioners at clinical affiliation sites. Required for prosthetics and orthotics majors.

REHAB 429 Immediate Post-Operative and

Early Fitting (2) *Hafner* Lecture and laboratory designed to introduce the student to the principles of immediate postsurgical prosthetic fitting, including patient management.

REHAB 430 Engineering Concepts (2) @

Okumura Principles of mechanics and strength of materials, force analysis, and hydraulic control in relationship to orthotics and prosthetics design. Required for prosthetics and orthotics majors.

REHAB 442 Applied Kinesiology (4)

Guthrie, Shumway-Cook Study of joint motion and muscle function in relation to both the normal and abnormal state, emphasizing gait. Specific techniques employed in the field of rehabilitation medicine are analyzed. Required for Department of Rehabilitation Medicine students; others by permission.

REHAB 444 Functional Musculoskeletal

Anatomy (4-) *Guthrie* Functions of musculoskeletal system as applied to patterns of motion. Anatomy of peripheral-vascular and peripheral-nervous system. Required for occupational therapy students, prosthetics and orthotics students, and physical therapy students; others by permission of instructor.

REHAB 445 Functional Musculoskeletal Anatomy (-4) *Guthrie* Functions of musculoskeletal system as applied to patterns of motion. Anatomy of peripheral-vascular and peripheral-nervous system. Required for occupational therapy students, prosthetics and orthotics students, and physical therapy students; others by permission of instructor.

REHAB 448 Applied Kinesiology Laboratory (1) *Abrahamson, Guthrie, Okumura, Powell, Robinson, Rollinger* Instruction and laboratory focus on practical experience and clinical problem solving in kinesiology. Potential topics include muscle and joint motion testing, sensory/perceptual assessment, prosthetic and orthotic devices, wheelchair use, gait training.

REHAB 451 Functional Anatomy Laboratory (1) *Bennett, Rollinger* Study of musculoskeletal, peripheral-vascular, and peripheral-nervous systems from prosected material. Required for physical therapy, occupational therapy, and prosthetic/orthotic students.

REHAB 452 Functional Anatomy Laboratory (1) *Bennett, Rollinger* Study of musculoskeletal, peripheral-vascular, and peripheral-nervous systems from prosected material. Required for physical therapy, occupational therapy, and prosthetic/orthotic students.

REHAB 458 Augmentative and Alternative Communication: Implementation Strategies (2-3) *NW* Communication needs of nonspeaking individuals. Interdisciplinary approaches to the evaluation, selection, and implementation of aided and unaided communication augmentation systems. Recommended: basic course work in either SPHSC, OT, PT, or ENGR. Offered: jointly with SPHSC 453.

REHAB 459 Augmentative and Alternative Communication: Access for Technology (3) *NW* Communication technology and motor evaluation of augmentative and alternative users. Issues related to hardware, software, switch placement and access, with opportunities for clinical trials. Recommended: SPHSC 453 or REHAB 458. Offered: jointly with SPHSC 454.

REHAB 476 Prosthetic and Orthotic Evaluation and Use (2) *Okumura* Instruction in mechanical component substitution for functional losses. Emphasis is on biomechanical principles, prosthetic-orthotic components, and alignment and fitting techniques. Credit/no credit only. Required for physical therapy students.

REHAB 496 Special Topics in Rehabilitation (1-9, max. 14) Guided opportunity for in-depth study in specific areas of rehabilitation. Topics vary.

REHAB 498 Undergraduate Thesis (*) .

REHAB 499 Undergraduate Research (*) Opportunity to design, perform, and analyze research investigation in problem areas in rehabilitation medicine. These include clinical and basic research problems in, for example, head and spinal injury, chronic disease, pain neurophysiology, electrodiagnosis, communication, and bioengineering.

REHAB 502 Lifespan II: Pediatrics (2-3, Max. 5) *Kartin, Mullens, Washington* Provides an overview of pediatric physical therapy practices for children with atypical development. Assessment, development of physical therapy plans of care for children with various disabilities

will be presented within the frameworks of family-centered-care and disablement models. .

REHAB 503 Lifespan III: Geriatric Physical Therapy (3) *Shumway-Cook* Theory and principles of exercise procedures used when treating the geriatric patient. Includes a discussion of age related changes in the systems essential to movement control; factors contributing to physical disability and frailty with aging; adaptation of assessment and treatment procedures to the geriatric patient. Lectures and laboratories.

REHAB 505 Introduction to Pharmacology (2) *Guthrie* Pharmacological survey of drugs commonly prescribed for clients seen in a physical therapy practice setting. Presentations on basic principles. Additional data search and group reports. Overview of medical emergencies. Credit/no credit only.

REHAB 506 Physical Therapy Procedures II: Assessment (2) *Robinson* Development of clinical competence in patient assessment techniques from a neuromusculoskeletal perspective. Discussion of normal and pathological findings. Special emphasis on lower quadrant anatomy, posture evaluation, and medical record documentation skills. Lecture and laboratory format.

REHAB 507 Physical Therapy Procedures III: Modalities (3-4) *McGough* Principles and practice of physical therapy clinical treatment procedures utilizing therapeutic modalities. Lecture and laboratory format.

REHAB 510 Rehabilitation Psychology (2) *Jensen* Processes and management methods for assimilation of disability, enhancing patient participation in rehabilitation process, and for helping in maintenance of performance; behavioral management and case conference strategies; rehearsal of contingency management techniques. Required for residents; others by permission of instructor.

REHAB 511 Musculoskeletal IV: Clinical Management (5) Physical therapy clinical evaluation and management of patients with musculoskeletal dysfunction. Special emphasis on upper quadrant anatomy. Lecture and laboratory format.

REHAB 512 Musculoskeletal V: Clinical Management (4) Physical therapy clinical evaluation and management of patients with musculoskeletal dysfunction. Special emphasis on lower quadrant anatomy. Lecture and laboratory format.

REHAB 513 Special Studies in Physical Therapy (1-5, max. 15) Theory and practice in specialized areas of physical therapy. Includes organization and administration of specialized programs, advanced evaluation and treatment techniques, role of the consultant. Credit/no credit only.

REHAB 516 Medical Information for Rehabilitation Counselors (3) *Johnson* Lectures in medical science field regarding the etiology, prognosis, and physical restoration of common disabling conditions. Case studies are used extensively, and major emphasis is placed on vocational implications of physical disability. Prerequisite: permission of instructor.

REHAB 517 Physical Therapy Seminar (2-3, max. 21) *Kartin* Group seminar format focused

on physical therapy topics pertaining to transcurricular and professional practice issues. Credit/no credit only.

REHAB 518 Infants and Young Children: Current Research (3) *Deitz, Swanson* Introduces students to recent research relating to assessment and intervention with infants and young children who are "at risk" or who are disabled. Critical evaluation of the current research emphasized. Prerequisite: clinical experience or coursework related to infants and young children with disabilities and permission of instructors.

REHAB 519 P-Preceptorship in Rehab Medicine (1) Explores the field of physical medicine and rehabilitation. Students observe a physiatrist one half day each week, and gain understanding of the management of acute injuries, chronic disease, and disabilities. Offered: AWPSP.

REHAB 520 Seminar (1-5, max. 5) Conferences, seminars, discussions of advanced physical medicine and rehabilitation topics for graduate students, residents and postdoctoral fellows in rehabilitation medicine. Lectures, discussion, and laboratory work in selected aspects appropriate to elected area of study for applicants for master-level degree.

REHAB 522 Neurophysiological Topics in Rehabilitation Medicine (2) *Anderson* Review of traditional neurophysiological concepts and an exposition of recent advances in neurophysiological research related to the practice of rehabilitation medicine. Prerequisite: resident standing in rehabilitation medicine or permission of instructor.

REHAB 523 Neuroscience III: Applied Neurology (4) *Shumway-Cook* Theory and principles of advanced exercise procedures used when treating patients with neurologic pathology. Includes the application of principles of motor learning and control; facilitation and inhibition of variables affecting functional motor performance; adaptation of assessment and treatment procedures to patients with different types of neurologic impairments. Lectures and laboratories.

REHAB 527 Neuroscience IV: Physical Rehabilitation of Adult Neurological Disorders (2) *Kelly* Critical analysis and application of physical therapy assessment and treatment techniques to problems related to specific adult neurological disorders. Neurological disorders to be covered include stroke, spinal cord injury, traumatic brain injury, and multiple sclerosis.

REHAB 528 International Clinical Clerkship (2) Short-term clinical education experience outside the United States. Participants work in a mentored relationship as part of a multidisciplinary rehabilitation team providing direct clinical services and consultation to patients and their care-givers. Sponsored sites selected and screened by Clinical Coordinator. Students may choose area of clinical focus. Credit/no credit only.

REHAB 529 Professional and Practice Issues in Physical Therapy (2) *Guthrie* Augments the student's understanding of the profession and current issues in healthcare. Includes healthcare delivery, scope of practice, professional organization, political activism, specialist certification, licensure, collaboration, therapeutic relationships, disclosure, privacy, and informed consent. Credit/no credit only.

REHAB 530 Medical Aspects of Vocational Counseling (2-3) *Johnson* Introduction to vocational implications of physical and emotional disabilities. Methods, counseling techniques, therapeutic modalities, community resources used in producing vocational assistance for persons with disabilities. Prerequisite: resident standing in rehabilitation medicine or permission of instructor.

REHAB 532 Clinical Affiliation for Rehabilitation Counselors (5-6) *Johnson* Under preceptorship of rehabilitation counseling staff, students counsel and evaluate patients with severe physical, emotional, or social problems; administer vocational testing; obtain placement on job stations; work with community resources for vocational/educational placement; and develop activity-oriented schedules. Prerequisite: permission of instructor.

REHAB 536 Patient Evaluation and Clinical Decision Making (1-2, max 8) *McGough, Robinson* General principles and practice of physical therapy patient evaluation and use of the clinical decision-making models. The application of patient management principles through examination techniques and documentation strategies. Lecture and laboratory format.

REHAB 537 Functional Mobility Skills (2) *McGough, Robinson* Principles and practice of physical therapy interventions related to functional mobility skills, including transfer training, wheelchair fitting, wheelchair mobility, gait training, and caregiver training.. Lecture and laboratory format.

REHAB 538 Integumentary, Edema Management, and Circulatory Screening for PT (2) *McGough, Robinson* Principles and practice of physical therapy evaluation and interventions related to wound care, burn care, edema management, circulatory screening, and splinting applications. Lecture and laboratory format.

REHAB 539 Communication Disorders in Rehabilitation Medicine (1) *Yorkston* Overview of communication disorders secondary to central and peripheral nervous system impairment. Emphasis on facilitating identification of speech/language disorders with discussion of implications for rehabilitation. .

REHAB 540 Acute Care Practice in Physical Therapy (2) *Robinson* Principles and practice of physical therapy evaluation and interventions related to individuals with diagnoses in the recent onset (or acute) stage of development.

REHAB 544 Functional Anatomy for Physiatrists (2-) *Goldstein* Lectures and demonstrations to illustrate functional anatomy as applied by physicians in the practice of clinical rehabilitation. Intended to enhance functional assessments and to improve neuro/musculo/skeletal diagnosis and treatment through greater understanding of the underlying anatomy. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor.

REHAB 545 Functional Anatomy for Physiatrists (-2) *Goldstein* Lectures and demonstrations to illustrate functional anatomy as applied by physicians in the practice of clinical rehabilitation. Intended to enhance functional assessments and to improve neuro/musculo/skeletal diagnosis and treatment through greater understanding of the underlying anatomy. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor.

REHAB 546 Teaching Practicum in Occupational and Physical Therapy (1-3, max. 3) Integration of knowledge and skills in teaching through teaching in the classroom or presentation of a minicourse, workshop, or in-service training series. Prerequisite: MEDED 520 and permission of instructor.

REHAB 550 Neuropsychology in Rehabilitation (2) *Bobardier, Ehde* Examination and management of patients with brain lesions, as well as an understanding of the consequences of such conditions. Prerequisite: graduate standing in rehabilitation medicine.

REHAB 555 P-Neuromuscular Electrodiagnosis (2.5) *Kraft* Demonstration of fundamentals of electromyography and peripheral nerve stimulation followed by participation in clinical electrodiagnosis examinations. Develops awareness of knowing when such procedures are indicated for patients and interpreting results rather than developing proficiency in performing these examinations. Prerequisite: HUBIO 560 and permission of instructor.

REHAB 565 Assistive Technology in Rehabilitation and School System Practice (3) Introduction to the use of assistive technology in rehabilitation and special education. Content includes set-up and use of alternative input systems on microcomputers and applications of technology to neuromuscular retraining, augmentative communication, and facilitation of learning in the classroom. Prerequisite: familiarity with basic computer operations and permission of instructor.

REHAB 566 Special Topics in Rehabilitation (1-9, max. 14) Philosophy and concepts in the interdisciplinary rehabilitation of persons with major disabilities, including advanced content in the rehabilitation theory and process of selected categories.

REHAB 567 Practicum in Rehabilitation (1-12, max. 24) Specialized practicum experience in environment providing rehabilitation services. Practicum arrangements and permission by instructor.

REHAB 568 Biophysics as Applied to Physical Medicine (2) *Esselman* Propagation and absorption characteristics of physical forms of energy used for treatment in physical medicine. Physiologic effects basic to prescription of the physical therapy modalities. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor.

REHAB 570 Foundations of Occupational Therapy (5) *Powell* An overview of the practice of occupational therapy, emphasizing the role of occupational performance in context, frames of reference, clinical reasoning, and purposeful activity. Introduces the diversity of occupational therapy practice environments through didactic and clinical experiences. Offered: A.

REHAB 571 Occupational Performance through the Life Span (4) Overview of human development as it relates to occupational performance and functional adaptation in the ages and stages of life from infancy through old-old age. Emphasis will be placed on environmental influences, activity, and occupational roles, tasks, and component behaviors as they relate to individuals in different ages and stages. Offered: W.

REHAB 572 Occupational Therapy Theory and Practice in Psychosocial Dysfunction I (5) *Engel-Knowles* An overview of bodies of knowledge in psychosocial practice as related to occupational performance. Learning topics include major frames of reference, effects of psychosocial disorders on occupational performance (life activities), and occupational therapy evaluation and intervention skills. Lectures, reading, class discussions, role-playing, problem-based learning, and fieldwork comprise the learning experiences. Offered: S.

REHAB 573 Occupational Therapy in Community Practice (4) *Engel-Knowles* Bodies of knowledge in occupational performance as they relate to the emerging area of community-based practice. Includes traditional and evidence based practice in the realms of health promotion, prevention, evaluation, and intervention. Lectures, assigned readings, class discussions, role playing, site visits, films, laboratory exercises, and problem-based learning tutorials. Offered: Sp.

REHAB 574 Occupational Therapy Theory and Practice in Physical Disabilities I (6) *Dudgeon* Provides theoretical bases and clinical practice skills used in evaluation and intervention of occupational performance (life activities). Focus is on individuals with sensorimotor (physical) and/or cognitive impairments. Practical applications of theory occur through lecture, laboratory, and problem-based learning approaches. Offered: A.

REHAB 575 Occupational Therapy Theory and Practice in Physical Disabilities II (5) *Powell* Provides theoretical bases and clinical practice skills used in evaluation and intervention of occupational performance (life activities). Focus is on individuals with sensorimotor (physical) and/or cognitive impairments. Practical applications of theory occur through lecture, laboratory, and problem-based learning approaches. Offered: W.

REHAB 576 Occupational Therapy Theory and Practice in Pediatrics (1-7, max. 7) *Dietz* Provides knowledge and skills necessary for providing occupational therapy evaluation, intervention, and transition services focused on occupational performance (life activities) for children and teens with disabilities and their families. Offered: W.

REHAB 577 Occupational Therapy Theory and Practice in Geriatrics (5) *Powell* Occupational therapy evaluation and intervention with older adults. Covers psychology, physiology, and socio-demographics of aging. Emphasis on interaction skills with the elderly and occupational performance (life activities). Laboratory experiences and fieldwork in the practice setting enhance didactic coursework. Offered: Sp.

REHAB 578 Occupational Performance Analysis (3) *Dudgeon* Skills in the analysis, adaptation, and sequencing of therapeutic and functional activities as they apply to occupational performance. Analysis focuses on performance components (sensorimotor, cognitive, psychosocial, psychosocial, psychological), temporal aspects (chronological, developmental), and environmental aspects (physical, social, cultural). Offered: S.

REHAB 579 Therapeutic Communication (3) *Kanny* Introduces basic principles and skills of effective interpersonal communication in dyadic interactions and in groups. Emphasis on effective

listening, interviewing, and principles and concepts of occupational therapy groups. Lectures, readings, class discussions, role playing, and in-class exercises comprise the learning experiences. Offered: Sp.

REHAB 580 Introduction to Research in Rehabilitation (3) *Deitz* Evaluation of rehabilitation research literature and design of research studies relevant to rehabilitation. Offered: S.

REHAB 581 Application of Measurement Systems (3) *Deitz* Provides basis for critically evaluating and using tests and measurements in occupational therapy evaluation. Focus on reliability, validity, norms, test development process, statistics relevant to tests and measurement, and ethical implications of testing. Critical evaluation of selected standardized test used in occupational therapy. Offered: A.

REHAB 582 Assistive Technology in Rehabilitation (3) *Dudgeon* Overview of the field of assistive technology as it impacts occupational performance in self-care, work, and leisure activities. Covers interface devices, computer applications, environmental controls, augmentative communications, power mobility, seating and positioning systems, and sensory enhancements. Offered: W.

REHAB 584 Health-Care Trends and Issues (3) *Kanny* Overview of the health services system in the United States and current trends and issues facing occupational therapists within this system. Content includes: health service providers, reimbursement of health care services, regulation, personnel and role delineation, and health policy and advocacy. Offered: A.

REHAB 585 Leadership: Administration and Management (4) *Kanny* Provides student with knowledge and skills needed for leadership positions in occupational therapy practice. Focuses on administration and management functions including strategic planning, program planning, marketing, fiscal management, program evaluation, and personnel management. Offered: W.

REHAB 587 Industrial Rehabilitation (3) *Dudgeon* Provides knowledge and skills related to vocational assessment and industrial rehabilitation for individuals with medical or psychosocial problems. Emphasizes worker characteristics, job analysis, and accommodation in business and industrial settings. Clinical simulation components provide applications to specific diagnostic, impairment, or disability conditions. Offered: Sp.

REHAB 591 Master's Project (1-4, max. 7) Graduate project focused on research, administration, education, practice, policy, or other scholarly or creative work. Required of graduate, entry-level occupational therapy and physical therapy students. Offered: AWSpS.

REHAB 592 Principles of Orthotic Use in Rehabilitation (2) *Chang* General principles and clinical applications of orthoses in patient management, with exposure to research issues in orthotic design.

REHAB 593 Principles of Prosthetic Use in Rehabilitation (1) *Czerwiecki* General principles of prevention of amputation, prosthetic design, biomechanics, and clinical applications of upper and lower extremity prostheses.

REHAB 594 Clinical Fieldwork in Occupa-

tional Therapy (10, max. 20) *Rollinger* Six months of supervised fieldwork education. Experience in delivering occupational therapy services to clients focusing on application of purposeful and meaningful occupation. Exposure to a variety of clients across the lifespan and in a variety of settings reflective of current practice in the profession. Credit/no credit only. Offered: AWSpS.

REHAB 595 Clinical Affiliation in Physical Therapy ([2-10]-, max. 30) *Robinson* Clinical practice of physical therapy techniques under supervision in community-based clinics. Credit/no credit only.

REHAB 596 Electromyography and Clinical Neurophysiology (4) *Kraft* Didactic course covering electromyography and clinical neurophysiology. First part covers basic neurophysiology and second covers electromyography, nerve conduction studies, somatosensory-evoked potentials, residual- and auditory-evoked potentials, single fiber EMG, late response, quantitative analysis, and macro EMG. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor.

REHAB 597 Electromyography and Electrodiagnosis Laboratory (1-) *Kraft* Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor.

REHAB 598 Electromyography and Electrodiagnosis Laboratory (-1-) *Kraft* Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor.

REHAB 599 Electromyography and Electrodiagnosis Laboratory (-1) *Kraft* Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor.

REHAB 600 Independent Study or Research (*) Credit/no credit only.

REHAB 685 P-Chronic Disease and Disability (4) *Cox, Hays* Meets chronic-care requirement for medical students. Structured clinical experience on rehabilitation medicine services. Differences between acute and chronic medicine, identification of disability problems, and therapeutic techniques for removing disability. Hospitals are within University system, local area, and WWAMI area. Prerequisite: third-year medical student standing.

REHAB 686 P-Rehabilitation Medicine Clerkship — Pediatrics (8/12) *Hays, Jaffe, Massagli* Meets chronic-care requirement for medical students. Incorporates material of 685 and expands into disabling pediatric disease. School planning, family counseling, community support services included. Four- or six-week package permits inpatient, outpatient, and consultation experience. Recommended for students contemplating pediatrics. Prerequisite: third-year medical student standing.

REHAB 687 P-Rehabilitation Medicine Clerkship (8/12) *Hays* Meets chronic-care requirement for medical students. Incorporates material of 685 and expands into disability problems. Four- or six-week package permits inpatient, outpatient, and consultation experi-

ence. Recommended for careers in family medicine, internal medicine, rheumatology, cardiology, neurology, geriatrics, orthopedic surgery, neurosurgery, and cardiovascular surgery. Prerequisite: third-year medical student standing.

REHAB 689 P-Spinal Cord Injury (8/12) *Little* Introduction to diagnosis, management, rehabilitation of patients with spinal-cord injuries. Interaction with rehabilitation team, psychiatrists, and subspecialists in urology, neurosurgery, and plastic surgery. Performance at subintern level expected. Veterans Administration Medical Center only. Prerequisite: MED 665, SURG 665.

REHAB 695 P-Rural Rehabilitation Medicine Clerkship (8) *Hays* Structured clinical experience in identification and treatment of disability problems in rural (nonmajor urban) communities. Satisfies chronic care/rehabilitation medical graduation requirements. Prerequisite: completion of at least six months of clinical clerkships, permission of instructor.

REHAB 697 P-Rehabilitation Medicine Special Elective (*, max. 24) Equivalent to 686, 687, or 688. Satisfies requirements in rehabilitation medicine/chronic care. Student arranges with another university, using the "Special Assignment Form." Students can qualify after review, similar experience at another university. Prerequisite: permission of instructor.

REHAB 699 P-WWAMI Rehabilitation Medicine Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

REHAB 700 Master's Thesis (*) Credit/no credit only.

Surgery

SURG 498 Undergraduate Thesis (*) *Langdale* Offered to those students who have engaged in undergraduate research in general surgery. (Full- or part-time.).

SURG 499 Undergraduate Research (*) *Langdale* Provides an opportunity to participate in ongoing research projects or carry out an independent research project under supervision of Department of Surgery faculty. Practical experience in experimental design and execution is provided under direct supervision of selected faculty members. (Full- or part-time.).

SURG 505 P-Preceptorship in Surgery (1) *Langdale* Opportunity for first- and second-year medical students to gain personal experience with clinical faculty members in the community. Students observe general aspects of private practice, including clinical problems seen; practice limitation; doctor-doctor, doctor-patient, and doctor-nurse relationships in the office and hospital. Prerequisite: permission of department.

SURG 600 Independent Study or Research (*) *Langdale*.

SURG 630 P-WRITE Surgery Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: completion of basic curriculum; third- and fourth-year students; acceptance in the WRITE program.

SURG 665 P-Clinical Clerkship (*, max. 12) *Langdale (Harborview Medical Center, Providence Medical Center, University of Washington Medical Center, Veterans Affairs Medical Center, Virginia Mason Medical Center)* Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Prerequisite: HUBIO 563. (Six weeks. Limit: twenty students.).

SURG 666 P-Clinical Clerkship Boise (12) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for Surgery. Prerequisite: completion of HUBIO series. (Six weeks. Limit: two students.).

SURG 667 P-Clinical Clerkship Spokane (12) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision-making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for Surgery. Prerequisite: completion of HUBIO series.

SURG 680 Emergency Medicine Elective (8) Basics of emergency medicine, including the primary survey, secondary survey, and approach to the critically ill patient. Students supervised by emergency boarded staff physicians at Madigan Army Medical Center Emergency Department. Prerequisite: basic clerkship in medicine, surgery, obstetrics, or pediatrics.

SURG 681 P-Peripheral Vascular Disease (4/8, max. 8) *Clowes (Veterans Affairs Medical Center)* Peripheral arterial and venous problems, including methods of clinical evaluation; new diagnostic procedures; and the available methods of treatment. Patient workup, performance of diagnostic studies, and presentation of case material to the staff. Prerequisite: SURG 665, HUBIO 563. (Two or four weeks. Limit: one student.).

SURG 682 P-Clinical Burn Care (*, max. 12) *Heimbach (Harborview Medical Center)* Offered on the burn unit of Harborview Medical Center. Exposure to the care of patients with thermal injury, including management of severe metabolic and septic problems and opportunity to participate in surgical procedures. Exposure to plastic and reconstructive surgery. Prerequisite: SURG 665. (Four or six weeks. Limit: two students.).

SURG 683 P-Pediatric Surgery Externship (8/12) *Tapner (Children's Hospital and Regional Medical Center)* Surgical conditions peculiar to the particular age group with a preponderance of congenital and neoplastic conditions that are amenable to surgical treatment. A reasonable background of knowledge in human embryology and genetics is recommended. Prerequisite: SURG 665. (Four or six weeks. Limit: two students.).

SURG 685 P-Cardiothoracic Surgery Externship (*, max. 12) *Verrier (University of Washington Medical Center)* Serve as subintern, participate in patient care while learning

cardiopulmonary hemodynamics of cardiac and thoracic surgery. Observe a wide variety of both cardiac and thoracic disease entities. Participate in the open-heart procedures in the operating room. Opportunity to gain additional understanding of physiology of cardiopulmonary bypass. (Four or six weeks. Limit: two students.).

SURG 686 P-Plastic Surgery Clerkship and Preceptorship (*, max. 12) *Vedder (University of Washington affiliated hospitals)* Introduces fundamental techniques and enhances knowledge of plastic surgery, wounds, trauma, burns, cancers, and pediatric and adult cosmetic and reconstructive surgery. Participate in all surgery-related activities. Prerequisite: SURG 665; MED 665. MS III only, two weeks, 4 credits, limit 2; MS III/MS IV four/six weeks (recommended), 8/12 credits, limit 4.

SURG 687 P-Transplantation Surgery Clerkship (8) *Perkins (University of Washington Medical Center)* Clerkship is in the University regional multi-organ transplantation center. Student participates fully in the care of all transplant patients, on twice daily multidisciplinary rounds, in pre-operative conference, and in the operating room and on the donor harvest team. Weekly didactic teaching sessions. Prerequisite: SURG 665 and MED 665. (Four weeks. Limit: two students.).

SURG 688 P-Subinternship in General Surgery (*, max. 16) *Langdale (Veterans Affairs Medical Center, Harborview Medical Center, Providence Medical Center, University of Washington Medical Center)* Offered on the general surgery wards of the University-affiliated hospitals. Diagnosis, preoperative care, and postoperative care; management of surgical emergencies, the ICU patient, and outpatient follow-up of discharged patients. Students function at the intern level under close supervision of the staff and house staff. Prerequisite: SURG 665. (Four or six weeks. Limit: six students.).

SURG 689 P-Community Surgery Clerkship (8) *Langdale* Designed to supplement basics learned in 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a group practice in a smaller city. Recommended for students entering primary care. Prerequisite: SURG 665 and permission of department. (Four weeks. Longview. Limit: one student. Coeur d'Alene. Limit: one student.).

SURG 690 P-Alaska Native Medical Center Surgery Sub-Internship (8/12) *Langdale* Designed to supplement basics learned in 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a specialized population of patients. Recommended for students entering primary care. Prerequisite: SURG 665 and permission of department. (Four or six weeks. Alaska Native Medical Center, Anchorage. Limit: one student.).

SURG 691 P-Surgical Intensive Care Unit Sub-Internship (8) *Langdale* Designed to augment experience gained in 665. Excellent opportunity to participate in the management of critically ill patients under the close supervision of the staff/house staff. Recommended for students entering surgery or primary care. Prerequisite: SURG 665. (Harborview Medical Center. Limit: two students. Veterans' Affairs Medical Center. Limit: one student.).

SURG 692 P-Ambulatory Surgery Clerkship (4) *Waldhausen* Rotation focuses on increasing

the student's ability as a primary care physician to recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

SURG 697 P-Surgery Special Electives (*, max. 24) *Langdale* Special clerkship, externship, or research opportunities can at times be made available at institutions other than the University of Washington. Students wishing to elect this course should obtain from the Dean's office a special assignment form at least one month before preregistration. Prerequisite: SURG 665 and departmental permission. (Four, six, or twelve weeks.).

SURG 698 P-Clinical Clerkship Away (*, max. 24) Clerkship equivalent to SURG 665, at sites outside the Seattle metropolitan area.

SURG 699 P-WWAMI Surgery Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

Urology

UROL 498 Undergraduate Thesis (*) Provides an opportunity for medical students to write in the area of urology.

UROL 499 Undergraduate Research (*) The student participates in current urologic research projects under supervision of full-time staff. Certain specific problems may be elected by the student. Elective for medical students.

UROL 501 P-Urology Preceptorship (1) Individual experiences with one or more of the full-time department faculty members covering research, teaching, and patient care. Students observe activities in the clinic, hospital ward, operating room, and research laboratories. Prerequisite: first- or second-year medical student standing; permission of instructor.

UROL 675 P-Urology Preceptorship (*, max. 8) Student follows a private practice preceptor in all of his or her work. Becomes acquainted with the office management of urological problems. Prerequisite: UROL 680, HUBIO 562. (Two or four weeks.).

UROL 680 P-Urology Clerkship (*, max. 8) *Berger, Ellis, Grady, Krieger, Lange, Mayo, J. Miller, L. Miller, Mitchell, Penson, Porter, Takayama, Wessells* Full activities of clinical service. Basic principles of urology emphasized. Prerequisite: HUBIO 562. (Two or four weeks.).

UROL 681 P-Female Urology (4) *J. Miller, L. Miller* Observation of cases of lower urinary tract disorders specific to women, emphasizing behavioral management and multidisciplinary care. Ninety-five percent of cases observed are women. Not intended as the only exposure to urology for students considering urology as career choice. Prerequisite: third- or fourth-year standing and permission of instructor.

UROL 685 P-Urology Subinternship (*, max. 12) *Berger, Ellis, Grady, Krieger, Lange, Mayo, J. Miller, L. Miller, Mitchell, Penson, Porter, Takayama, Wessells* Subintern is responsible for patient workups and for preoperative and postoperative care and participates in the operating room. Prerequisite: MED 665 or

pediatrics basic clerkship, or permission of instructor.

UROL 690 P-Urology Specialties (*, max. 8)

For those who wish further exposure to a specific aspect of urology. Students can spend time with one attending at University of Washington Medical Center, Harborview Medical Center, Children's Hospital and Medical Center, or Veterans Administration Hospital studying oncology, infections, infertility, stone disease,

impotence, or other aspects of urology. Prerequisite: UROL 680 and permission of instructor.

UROL 697 P-Urology Special Electives (*, max. 24) Special clerkship, externship, or research opportunities can at times be made available at institutions other than the University of Washington. Students wishing to elect this course should obtain from the Dean's office a special assignment form at least one month

before preregistration. Prerequisite: permission of instructor. (Six or twelve weeks.).

UROL 699 P-WWAMI Urology Special

Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

School of Nursing

Nursing

NURS 200 Critical Approach to Women's Health (3)

Interdisciplinary examination of women's health from a critical social-political approach. Discusses issues of gender, race, class, heterosexism, etc. in relation to women's health policies.

NURS 201 Growth and Development Through the Life Span (5) I&S

Focuses on processes of human growth and development from prenatal life to old age. Emphasizes influence of growth and development on achievement of health, and how awareness of growth and development theory and research helps guide health promotional efforts directed toward persons of various ages and life styles. Open to nonmajors.

NURS 202 Difference and Identity on University Campus (5)

Allen Novels, autobiographies, films, and music are used to explore how American who are seen as white are characterized by people who are seen as non-white. Since many freshmen find campus life more socially diverse than their home communities, the focus is on young adults and college environments.

NURS 301 Clinical Applications of Anatomy and Physiology (3) Application of anatomic and physiologic concepts to selected clinical phenomena. Focuses on integrated responses and functional health patterns. Exemplars of developmental and lifespan factors are identified. Includes experiential activities to enhance integration of content. Offered: AS.

NURS 303 Foundations of Professional Nursing (2-3)

Exploration of the profession of nursing, including past and present work of nurses, the experience of being ill and seeking health care, and the U.S. health care system. Offered: Sp.

NURS 304 Human Responses I (3)

Examines normal and pathophysiological responses to states of health and illness. Examines internal and external defense systems, balance and regulation of body systems, and integration of these concepts in the assessment and management of patient problems. Offered: A.

NURS 308 Human Responses II (3)

Examines normal and pathophysiological responses to states of health and illness. Examines internal and external defense systems, balance and regulation of body systems, and integration of these concepts in the assessment and management of patient problems. Offered: W.

NURS 309 Pharmacotherapeutics in Nursing Practice I (2-)

Emphasizes the principles of pharmacology, drug therapy, pharmacologic-therapeutic classes of drugs, clinically important prototype drugs, and drug information resources.

Nursing issues related to drug administration are also discussed. First of a 2-quarter sequence. Offered: A.

NURS 313 Introduction to Nursing Informatics (1)

Combines understanding of computers, information literacy, and nursing science into a field that assists health care professionals to provide quality care. Provides an introductory overview. Emphasizes development of computer skills and impact of informatics on the clinical arena. Credit/no credit only. Offered: WS.

NURS 404 Gerontological Nursing (2)

Focuses on theoretical and practical information about basic and complex concepts and issues relevant to the nursing care of older people across the continuum of care.

NURS 405 Care in Illness II (5)

Continuation of 401, further examining selected psychopathologic and pathophysiologic alterations in health of individuals in context of families across life span. Emphasizes assessing functioning in psychosocial, cultural, person-environment relationships, and health care resources to plan nursing strategies for acutely/chronically ill individuals of all ages.

NURS 407 Cultural Variation and Nursing Practice (3)

Analyzes the impact of cultural, social, and global factors on the health of multicultural and diverse groups at the individual, population, and systems levels. Students gain knowledge and skills to effectively respond to the health care needs of multicultural societies through non-discriminatory and culturally appropriate nursing care practice. Offered: Sp.

NURS 408 Nursing Care with Families in the Community (3)

Application of biopsychosocial and social environmental theories and assessments to diagnose alterations in health/mental health of families, small groups in community settings. Emphasizes interpersonal and clinical therapies; coordination of community resources, evaluating effectiveness of changes; characteristics of nursing care in home visiting.

NURS 410 Legal and Ethical Issues in Clinical Practice (3)

Identification of ethical and legal issues and the ensuing dilemmas relevant to the profession of nursing and nurses as health professionals and citizens. Selected problems and dilemmas affecting nurses, nursing, and the delivery of health care analyzed using specific moral-ethical perspectives. Offered: AW.

NURS 412 Health Care Systems (3)

Introduction to analysis of health care systems with emphasis on political economy of health, access and utilization, disparities in health, public and private health insurance and reimbursement issues. Comparison of U.S. and other national health care systems. Offered: Sp.

NURS 415 Nursing of Families: Childbearing and Childrearing (5)

Applies family concepts to nursing of childbearing and childrearing families. Focuses on family as context for care of individuals. Emphasizes use of physiological, psychological, developmental, cultural, and environmental theories for health promotion, disease prevention, and nursing therapeutics. Offered: AW.

NURS 417 Psychosocial Nursing in Health and Illness (3)

Examines psychosocial disorders/issues of life transitions from integrated perspective of biological, social sciences, nursing, and humanities. Emphasizes utilizing psychosocial nursing and interpersonal therapeutics for assessment, intervention, health promotion with individuals/families/groups at risk for experiencing psychosocial disorders. Prerequisite: NCLIN 418, which may be taken concurrently. Offered: AW.

NURS 430 Interpersonal Relationships in Nursing (3)

Theory, current research, and practice in communication to develop and maintain interpersonal relationships with clients and health care colleagues. Lecture/discussion and laboratory learning opportunities include concepts of relationship development and disorder, interpersonal and group therapeutic communication processes, health care interviewing, and social support.

NURS 445 Topics in Nursing (1-10, max. 10)

Guided survey and discussion of current literature on major topics in physiological nursing. Seminar/lecture with analysis and discussion of selected topics and readings. May have clinical component. Implications for nursing practice and health care emphasized.

NURS 450 Study Abroad Preparation: International Nursing in Context (1-max 4)

Carr, Kennedy, Lindenberg, Muecke Introduction to the language (if other than English), history and culture of the host country, and examination of international health issues pertinent to the country. Required course for students taking a Study Abroad quarter. Course may be taken as distance learning. Offered: AWSpS.

NURS 466 Continuing Education in Nursing (3)

Planning, developing, and evaluating continuing education programs in various institutions and agencies. Includes the application of adult learning principles to a variety of situations, such as workshops, in-service and staff development programs.

NURS 488 Youth at High Risk for Drug Abuse, Suicide Behaviors, Aggression, and Depression (3)

Study of adolescent problem behaviors: causes, connections, and contexts. Two central themes are understanding vulnerability to drug abuse, suicide behaviors, and other related behaviors within social network

contexts and exploring implications for prevention and early intervention programming.

NURS 489 Alcohol Problems in Family and Society (3) Analysis of family problems associated with alcoholism. Emphasis on psychological, cultural, and social implications; examination of various counseling practices employed and theories of prevention.

NURS 492 Anthropology of Refugees (3) I&S
The refugee phenomenon, its emergence in postcolonial world, and structure of life history of refugees. Ethnic change, involuntary deculturation, and acculturation as they occur in refugee life histories. Prerequisite: one 200-level ANTH course or LING 203. Offered: jointly with ANTH 492.

NURS 495 Child Rearing, Culture, and Health (3) I&S Cross-cultural study of the child-rearing practices, cultural norms, and health behavior of children and adolescents in different societies. Comparative approaches, diverse theoretical postures, and empirical research findings are used. Offered: jointly with ANTH 440.

NURS 499 Special Electives (1-4, max. 15)
Seminars on selected nursing issues of clinical problems, with independent study option, under supervision of nursing faculty. Offered: AWPpS.

NURS 500 Children and Adolescents with Special Health Needs, Their Families and Communities (3/4, max. 4) Advanced practice with infants, children, and adolescents at risk for or with chronic physical, neurobiological, developmental, or psychosocial problems. Focus on assessment and referral with select management strategies relevant for primary and specialty health care. Includes care coordination, multidisciplinary, culturally competent, and family centered approaches. Prerequisite: permission of instructor. Offered: A.

NURS 501 Advanced Mental Health Interventions with Children (3) Developmentally based assessment and therapeutic approaches relevant for children with psychosocial health problems. Consideration to matching therapeutic approaches with specific nature of symptomatology and other child, family, cultural, and environmental characteristics, including social and educational systems. Individual and group evaluation research emphasized. Prerequisite: NURS 500.

NURS 502 Human Responses in Health and Illness I (3) Survey of selected human responses to environmental demands in health and illness as expressed at physiologic, pathophysiologic, experiential, and behavioral levels. Such concepts as host defenses, ventilation, circulation, elimination, and nutrition are discussed. Prerequisite: graduate standing.

NURS 503 Human Responses in Health and Illness II (3) Survey of selected human responses to environmental demands in health and illness at physiologic, pathophysiologic, experiential, and behavioral levels. Such concepts as immune response, stress response, circadian rhythms, pain, sleep, cognition, and consciousness. Prerequisite: graduate standing.

NURS 504 Clinical Nursing Therapeutics (1-6, max. 6) Critical analysis of therapeutic modalities to assist patients with a variety of responses to health problems. Includes selected therapies such as suction/drainage, positioning to address responses in critical, life threatening, and chronic/continuing health states. Varying credits

assigned for modules covering particular therapies. Prerequisite: NURS 502, NURS 503, or permission of instructor.

NURS 505 Selected Topics in Psychosocial and Community Health Nursing (2-10, max. 10) In-depth exploration of the major theoretical issues in psychosocial nursing. Seminar with analysis and discussion of selected topics and readings and implications for research and health care.

NURS 506 Role and Context of Advanced Practice Psychiatric Mental Health Nursing (3)
Introduction to advanced practice roles in Psychiatric Mental Health Nursing. Diverse populations, practice settings, health care systems, standards of practice, certification, and licensing criteria relevant to the advanced practice role examined within the context of a broad range of ethical, clinical, and educational issues. Examines future directions. Credit/no credit only.

NURS 507 Mental Health of Older Adults (3)
Examines the dynamics of mental health research and practice in normal, optimal and pathological aging. Focuses on psychosocial and environmental influences on mental health of older adults. Topics include: models of aging, cognitive impairment, depression, severe mental illness, and successful strategies to enhance mental health in older adults.

NURS 508 Seminar in Group Treatment (2)
Seminar on the theoretical basis for working with various treatment groups. Analysis of selected approaches to group treatment. Analysis of leader responsibilities and functions in the development of therapeutic group experiences.

NURS 509 Issues in Violence and Aggression for Health Professionals (3) Focuses on research and theory of violent/aggressive behavior. Perspectives of victim, offender, family, community, society examined. Focus is recognition of violence against women. Course is designed to challenge students to clarify beliefs, values related to topics such as rape, homicide, domestic violence. Prerequisite: graduate nursing student or permission of instructor.

NURS 510 Primary Care Foundations: Diagnosis and Management of Common Health Concerns (1-3, max. 9) Focus on diagnosis and management of common primary care problems of adolescents and adults, including older adults, within advanced nursing practice. Emphasizes individual and family responses and nursing strategies including differential diagnosis, treatment, patient education, and follow-up. Content focus changes each quarter. Prerequisite: permission of instructor; recommended: concurrent field work.

NURS 511 Seminar in Neonatal Nursing (3)
Neonatal neurobehavioral and physiologic adaptation within context of physical and social environment. Neonatal responses to alterations in growth and illness. Assessment modalities and therapeutic strategies used during the neonatal period. Prerequisite: NURS 514 or permission of instructor.

NURS 512 Critical and Interdisciplinary Approaches to Women's Health (3) Critical examination of the historical, socio-political, and scientific influences on women's health. Issues of sexism, racism, and heterosexism discussed from the perspective of different disciplines. Offered: jointly with WOMEN 512.

NURS 513 Seminar in Contemporary Women's Health Issues (1-5, max. 12) Critical analysis of contemporary and historical literature relevant to health care for women across the life span. Synthesis of a holistic view of women's health to guide research and practice. Offered: jointly with WOMEN 513.

NURS 514 Physiologic Adaptations in Women and Children: Physiologic Adaptations During Pregnancy and Postpartum (1-6, max. 6)
Blackburn Analysis of developmental physiologic adaptations in four units: women/reproductive processes, pregnancy/postpartum, fetus/neonate and infancy through adolescence. Emphasis on implications for nursing practice. Examination of research basis for selected intervention strategies.

NURS 515 Common Adolescent Health Problems (3) Focuses on assessment, clinical decision making, and management of common adolescent problems. Concepts and theories of health promotion, adolescent development, and intervention strategies are explored to provide a broad framework for caring for adolescents in primary settings. Offered: jointly with EPI 549.

NURS 516 Pediatric Pulmonary Anatomy and Physiology: Clinical Applications (2) Lung development, anatomy, and physiology; clinical application when caring for children with acute and chronic lung disease. Prerequisite: permission of instructor.

NURS 517 Pediatric Pulmonary Pathophysiology: Clinical Applications (2) Applies knowledge of pediatric anatomy and physiology to assessment and treatment of pulmonary pathophysiology in children. Nursing issues in caring for children and families with acute and chronic lung disease. Prerequisite: permission of instructor.

NURS 518 Advanced Practice Pediatric Primary Care Management (3) Focuses on use of clinical decision making framework to develop theoretically and empirically sound individualized comprehensive management plans for the young child who presents with common physical and behavioral symptoms in the primary care setting. Prerequisite: permission of instructor.

NURS 519 Curriculum Development in Nursing Education (3) Theoretical rationale for curriculum development, study of curricular problems in nursing in relation to the elements of the curriculum as described in a curricular design. Prerequisite: graduate standing.

NURS 520 Evaluation of Clinical Performance in Nursing (3) For graduate students preparing for faculty or staff development positions in nursing. Theory and principles of evaluation. Instruments to appraise clinical nursing performance developed as part of course requirements. Prerequisite: graduate standing or permission of instructor.

NURS 521 Computing Fundamentals for Health Providers (3) Enables health professionals to solve work/practice challenges using existing features of desktop computers. Emphasizes productivity concepts. Introduces extended features of common software packages, as well as basic concepts/methods of small system management and support. Prerequisite: admission to Health Informatics Certificate Program or by instructor permission. Offered: jointly with MEDED 580;W.

NURS 522 Legal and Ethical Issues in Advanced Practice Nursing (3) *Shannon*
Reviews selected ethical issues in health care and legal guidelines relevant to health care decision-making. Explores bioethics as a type of applied ethics. Focuses on preparing students for ethical challenges in advanced nursing roles. Offered: jointly with MHE 542; Sp.

NURS 523 Communities, Populations, and Systems: Theoretical Foundations (3)
Focus on construction and analysis of research-based philosophies and theories related to nursing practice at the community, population, and systems levels. Synthesize and apply knowledge about social and environmental justice, determinants of health, and human health responses to populations and communities. Examine and evaluate leadership roles for nurses in community settings.

NURS 524 Conceptual Foundations for Care Systems Management (3)
Critical analysis of nature and theoretical bases of care systems management practice. Concepts of nursing and organization science foundations to person-provider transaction management and leadership in context of economic, political, and social environments and health outcomes. Prerequisite: graduate standing.

NURS 525 Managing Clinical Effectiveness Within Care Systems (3)
Optimizing person-provider clinical therapeutic transactions at multiple levels of care systems complexity and population aggregation. Emphasis on designing, managing and evaluating clinical effectiveness and efficiency within care systems. Prerequisite: NURS 524 or permission of instructor.

NURS 526 Managing Organizational Effectiveness Within Care Systems (3)
Analysis of management strategies for attaining effective and efficient organizational structures and processes within health care systems. Prerequisite: NURS 524 or permission of instructor.

NURS 527 Managing Effective Access and Utilization Within Care Systems (3-4)
In-depth inquiry into health care access and resource utilization patterns among diverse populations, with emphasis on management strategies for establishing effective population-system fit. Additional credit for exploring access and utilization patterns within specific populations.

NURS 528 Implications of Human Embryology and Genetics for Clinical Practice (3)
Normal development of the human embryo and fetus and principles of human genetics. Alterations in development leading to common anomalies and implications for clinical practice. Prerequisite: graduate standing or permission of instructor.

NURS 529 Childhood Common Developmental and Behavior Issues (2)
Focus on common developmental and behavioral issues presented by children and their families in primary care setting. Emphasis on the developmental, family, and cultural aspects of assessment and management of the common issues.

NURS 530 Conceptual Frameworks for Parent-Child Nursing (3)
Designed to assist graduate students in exploration, criticism, and analysis of selected concepts, frameworks, and models relevant to parent-child nursing practice. Group seminar work focuses on the discussion of issues influencing the roles and practice of clinical nurse specialists in parent-child nursing.

Skills necessary for developing a conceptual framework for practice.

NURS 531 Selected Topics in Family and Child Nursing (1-6, max. 12)
In-depth examination of the literature pertinent to major theoretical issues in parent and child nursing. Seminar with analysis and discussion of selected topics and readings. Implications for research, prevention, and health care stressed. Prerequisite: permission of instructor.

NURS 532 Professional Issues in Advanced Parent and Child Nursing (2-5, max. 5)
History and current issues in advanced parent and child nursing practice and interface with health care systems. Advanced practice roles in provision, implementation, and evaluation of health care services for women, children, and families. Opportunity for application to specific advanced practice roles. Prerequisite: permission of instructor.

NURS 533 Healthcare of Cancer Survivors (2)
Focuses on teaching the health science graduate students about cancer survivorship issues. Discusses the health concerns of those who have been cured of their initial malignancy but are still at risk of long-term effects of chemotherapy, radiation, and surgery. Prerequisite: PHARM 560 (PHARM D students only). Offered: jointly with PHARM 568.

NURS 534 Seminar in Nursing in Gerontology (3)
Gerontological research findings applied to complex nursing problems in maintenance of health and maximum functioning in the aged.

NURS 535 Seminar in Neuroscience Nursing (3)
Guided survey of clinical and experimental literatures regarding selected concepts of human functioning mediated by the nervous system: consciousness, mentation, movement, sensation, integrated regulation, coping with disability. Clinical and research measurement, current research and implications for further research, clinical applications.

NURS 536 Biological Aspects of Cancer: Implications for Care (3)
Survey of major concepts from tumor biology and implications for advanced oncology nursing practice. Areas covered include carcinogenesis, cancer epidemiology, pathology, metastasis, treatments (chemotherapy, radiation, surgery, immunotherapy), and cancer detection and prevention. Discussion of role of advance nurse clinician and complex patient responses are incorporated into discussion of basic biological concepts.

NURS 537 Symptom Management in Cancer Care and Serious Illness (3) *Berry, Nguyen*
Focuses on assessment, integration of research findings into clinical decision-making, diagnostic reasoning, and management of common symptoms experienced by adult patients with cancer and/or serious illness. Explores individual and family responses to serious illness and malignant processes. Emphasizes concepts of prevention, tailored patient/family education, management and evaluation strategies. Offered: Sp.

NURS 538 Management of Adults with Respiratory Dysfunction (3)
In-depth examination of problems such as abnormal secretions and shortness of breath associated with respiratory dysfunction due to pulmonary diseases and other pathophysiological states.

NURS 539 Seminar in Critical-Care Nursing (3, max. 9)
Systematic inquiry into pathophysiology, initial nursing management, and systems of care for the critically ill adult or child.

NURS 540 Special Topics in Biobehavioral Nursing and Health Systems (3-6, max. 9)
Guided survey of the experimental literature of major topics in physiological nursing, including cardiopulmonary, biology of aging, neuromuscular, cancer, and endocrine. Course conducted as a seminar with analysis and discussion of selected topics and readings. Implications for future research and health care are emphasized.

NURS 541 Care of Well Women (4)
Examines components the components of advanced nursing/midwifery care of well women. Emphasis on assessment, diagnosis, and management of common health issues and problems of women across the life span. Prerequisite: permission of instructor.

NURS 542 Care During Childbearing I (4)
Advanced nursing/midwifery care and management of the low-risk childbearing woman and fetus through preconception, prenatal, intrapartum, and postpartum periods. Prerequisite: NURS 541.

NURS 543 Advanced Practice Childbearing and Women's Health Care (1-4, max. 4)
Assessment and management related to advanced nursing/midwifery perinatal care and women's health care problems. Topics covered are ambulatory antepartum and postpartum care, intrapartum care, and advanced women's health care and adolescents at risk. Module(s) selected depends on program requirements or student elective. Offered: W.

NURS 544 Psychosocial Adaptations of Individuals and Families during the Perinatal Period (3)
Adaptation of individuals and families during the perinatal period, with emphasis on psychosocial adaptation, consumer education, transition to parenthood, parent-infant interaction and community based support. Prerequisite: permission of instructor.

NURS 545 Care of the Neonate and Infant (2-3, max. 3)
Adaptation of neonate to the extrauterine environment and continuum of care to promote the health of infants within the context of family, community, and other environments. Prerequisite: NURS 514, NURS 528, or permission of instructor.

NURS 546 Interpersonal Aspects of Behavior (3)
Selected theories in relation to psychosocial development and adaptation across life span for individuals, families, and small groups and as explanatory models of major psychosocial disabilities. General and psychosocial nursing models evaluated for heuristic value for research and practice. Prerequisite: graduate standing or permission of instructor.

NURS 547 Biologic Aspects of Psychosocial Disabilities (3)
Analysis of biological processes influencing psychosocial behavior in response to internal and external stimuli. Research and theory of neuroendocrine mechanisms in psychosocial disabilities. Analysis of nursing management and evaluation of biopsychosocial modalities used in modification of behavior. Prerequisite: graduate standing in nursing or permission of instructor.

NURS 549 Assessment in Psychosocial Nursing (3)
Conceptual and clinical approaches

to advanced-level data collection and diagnostic reasoning in psychiatric/psychosocial disorders. Synthesizes knowledge from psychosocial nursing and multiple allied fields to enhance learners' cognizance of principles for establishing accurate and comprehensive data bases and sound multifaceted diagnostic formulations. Emphasizes DSM diagnostic scheme.

NURS 550 White Privilege and Racism in Health and Human Services (3) Explores relationships among the psychosocial health of people of color, American cultural patterns of intersecting forms of oppression (e.g., gender, race, and class) and the role of health professionals in defining, ameliorating and/or aggravating psychosocial distress. Credit/no credit only.

NURS 551 Theoretical Foundations of Primary Care (1-3, max. 3) Presentation and interpretation of theoretical basis of advanced nursing practice in primary care. Provides students with conceptual foundation upon which to base their development as nurse practitioners. Prerequisite: graduate standing; permission of instructor.

NURS 552 Health Promotion (2-3) Emphasis on health promotion, screening, and disease prevention in primary care. Examination of individual and family wellness, models of risk assessment and behavior change, health promotion strategies, and barriers to achieving health. Opportunity to explore age-related health risks. Prerequisite: graduate standing and permission of instructor; recommended: nurse practitioner students take fieldwork concurrently.

NURS 553 The Mentally Ill Offender in Correctional and Community Settings (3) Survey of social, political, economic, legal, and moral problems posed by individuals with mental disorders who commit crimes. Covers historical antecedents and current responses of correctional and mental health systems to mentally ill offenders, prevalence and correlates of incarceration, and roles of professionals in correctional mental health field. Credit/no credit only. Offered: W.

NURS 554 Psychosocial Interventions in Nursing (3) Course focuses on conceptual foundations and interpersonal skills for therapeutic interventions to promote personal change and effective adaptation. Emphasizes forming and maintaining a therapeutic alliance and utilizing a client-centered approach to define problems and select appropriate therapeutic interventions. Examines traditional, non-traditional, and multicultural therapeutic perspectives.

NURS 555 Psychopathology, Assessment, and Diagnostics of Children 3 and Under (2-, max. 4) Psychopathology, mental health assessment, and diagnostics in children aged 3 and under, framed by the Diagnostic Classification for Developmental and Mental Health Disorders (DC:0-3). Develops skills and techniques necessary in infant mental health. Prerequisite: acceptance into Infant Mental Health Certificate program or permission of instructor. Offered: WSp.

NURS 557 Health, Culture, and Community (3) A theory and skills class concerning development of personal and organizational cultural competence in community-based participatory research. Core concepts of cultural competence are considered as they are practiced in community settings. Fieldwork required. Offered: jointly with HSERV 576.

NURS 559 Theories of Psychiatric Disabilities (3) Theories from psychosocial nursing, psychiatry, and behavioral sciences explanatory of psychiatric disabilities provide basis for identifying psychosocial problems. Structure and functions of mental health organizations and social networks analyzed. Prerequisite: NURS 547 or permission of instructor.

NURS 560 Dynamics of Community Health Practice (3/5) Examination of and experience with principles of clinical practice in community settings. Included are family as community constituent, populations at risk, community assessment, and community development. Prerequisite: graduate standing or permission. Offered: jointly with HSERV 508.

NURS 561 Selected Topics in Comparative Nursing Care Systems (2-3, max. 10) In-depth examination of the literature pertinent to major theoretical issues in cross-cultural nursing and health-care systems. Seminar with analysis and discussion of selected topics and readings. Implications for research and health care stressed.

NURS 562 Clinically Applied Anthropology (3) Anthropology as it relates to interdisciplinary delivery of culturally relevant health care. Cultural variation in illness beliefs and behavior, types of healing practices, illness prevention, social support networks. Prerequisite: graduate standing, permission of instructor. Offered: jointly with ANTH 562.

NURS 563 Advanced Community Health Nursing (3) Systematic inquiry into the nature and foundations of community health nursing. Analytic and theoretical perspectives on health risk assessment and nursing interventions in the community. Implications for community health nursing services. Prerequisite: permission of instructor and graduate standing.

NURS 564 Biopharmacological Management in Psychosocial Nursing (3) Biological and pharmacological interventions pertinent to practice of psychosocial nursing, including psychopharmacology, electroconvulsive therapy, and phototherapy. Emphasis on empirical neuroendocrine bases and then nursing management issues pertaining to these interventions. Legal and ethical issues pertaining to advanced practice and putative neurological mechanism are examined. Prerequisite: NURS 547 or permission of instructor.

NURS 565 Self-Management Strategies and Techniques in Patient Care (3) Theories underlying cognitive/behavioral self-management strategies and techniques in patient care. Evaluation of the clinical appropriateness and utility for nursing. Application to such clinical problems as abstinence in the recovering alcoholic, depression, and eating disorders. Prerequisite: graduate standing or permission of faculty.

NURS 566 Occupational Stress and Stress Management (3) Relationships between occupational stressors and worker's health, well-being, productivity. Analyzes models of occupational stress. Investigates similarities, differences between job-related stressors and stress responses in various occupations. Explores elements of worksite stress management programs. Prerequisite: graduate standing in nursing or allied health discipline; advanced undergraduates with permission of instructor. Offered: jointly with ENVH 565.

NURS 567 Theoretical Basis of Management of Stress Response (3) Theories of physiologic responses linked to theories of cognitive/affective and behavioral responses to stressors. Conceptual basis of self-management techniques. Research findings relevant to these theories and techniques examined and analyzed. Prerequisite: course in human physiology or physiologic psychology, permission of instructor.

NURS 568 Health Politics and Policy (3) Analyzes the formal and informal political context of health care delivery, professionals, and institutions in the United States. Addresses medical coverage and public persuasion, as well as policy analysis. Special attention is paid to women's political resources and participation. Credit/no credit only.

NURS 569 Observation and Assessment of Relationships (3) *Speiker* Recognizing patterns of behavior in interactions between young children and their caregivers. Assessment of relationships in the early years. Students learn to incorporate an attachment theory approach and observation tools from research into the work of their own discipline or field. Offered: Sp.

NURS 570 Family Concepts: Health and Illness (3) Emphasizes the family as unit of care across the life span. Predominant themes: factors influencing family health promotion, including resilience, vulnerability, risk reduction, and health policy; continuity, change and transition; and promotion of family health during acute and chronic illness episodes.

NURS 571 Advanced Interpersonal Therapeutics with Families (3) Models and research on therapeutic relationships and interpersonal processes evaluated and applied to group interactions among family members, among professionals, and between the family, professionals, and macrosystems. Partnership building emphasized. Individual and group characteristics examined across the life span in social, cultural, and health contexts. Prerequisite: permission of instructor.

NURS 573 Professional Issues for Nurse Practitioners (2) Presentation and analysis of current health care trends and key professional issues influencing nurse practitioner practice. The NP's leadership role, role in influencing health policy, accountability to the profession/public, marketability, and legal dimensions of practice are stressed. Prerequisite: NP student nearing program completion or permission.

NURS 574 Family Interpretation and Management of Disordered Behavior across Cultures (3) Examines interpretation and management of disordered behavior from the perspective of families — intergenerational and across cultures. Critically reviews selected theoretical frameworks for understanding families. Emphasizes theory, cultural perspective, and family assessment skills to plan relevant family interventions to assist families in managing disordered behaviors of family members.

NURS 575 Grief and Loss in Clinical Practice (2-4, max. 4) Analysis and study of social, cultural, and psychological conditions that influence human loss, grief, and death in modern society. Research findings, selected readings, and direct experience provide direction for examination of philosophic, theoretical, and pragmatic issues underlying choices and decisions in clinical practice. Open to graduate students with permission of instructor. (Limit: sixteen students.)

NURS 576 Assessment and Collaboration with Communities and Systems (3) Examine, critique and apply theory and practice in assessing and collaborating with communities, populations and systems cross-culturally. Develop techniques for working with communities and systems, including using multiple data sources, performance indicators, community mobilization, capacity building, and coalition development. Graduate level. BSN senior with permission.

NURS 577 Seminar in Infant Mental Health Intervention Models, Consultation, and Leadership (1-, max. 3) Capstone course in Infant Mental Health Certificate Program. Explores intervention models, role of consultation and leadership in the field. Field work in Infant Mental Health Program serves as context for exploring consultation and leadership roles. Synthesis and reflection of personal preparation and role encouraged. Offered: AWS.

NURS 578 Social Determinants of Health (3) Analyze the distribution and causes of health disparities in populations and communities, including but not limited to social, psychological, biological and environmental factors, to assess social determinants of health problems and their remedies. BSN senior with permission of instructor.

NURS 579 Transcultural Nursing Practices (3) Seminars examine four decades of nursing practice literature and other disciplines related to appropriate and competent care of diverse and multicultural populations. Concepts and methods from anthropology and other behavior sciences are considered in relationship with current health practice guidelines. Graduate standing or instructor permission.

NURS 580 Current Issues in Occupational and Environmental Medicine (2, max. 12) *Kaufman* Interdisciplinary seminar on current and emerging topics in the practice of environmental and occupational health. Faculty- and student-led presentations with an interdisciplinary focus, including occupational hygiene, nursing, and medical issues. Prerequisite: environmental health graduate student, occupational health nursing student, or permission of instructor. Offered: jointly with ENV H 596; AWSp.

NURS 581 Study of International Health (2-3) *Hegyvary* International health based on the concept of health ecology. Assigned readings, discussions, and analyses include different perspectives, strategies, systems, and the wide range of conditions and forces that affect global and local health and illness. Emphasizes roles of health care providers. Credit/no credit only.

NURS 582 Socio-Cultural Perspectives of Public Health Genetics (3) Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with ANTH 574/PHG 521.

NURS 583 Emotions and Mental Health: From Adversity to Adaptation (3) *Betrus, Elmore* Provides an understanding of nature and function of emotions as well as relationship of emotion to mental health/illness. Emphasizes adversity arising from individual and community sources and its impact on emotional health. Addresses implications for interpersonal and social policy interventions.

NURS 584 Critical and Interdisciplinary Approach to Health Policy (3) Advanced seminar to critically analyze various public health policies from a social justice framework.

NURS 585 Introduction to Forensic Nursing and Health Care (3) *Baker* Examination of the practice, roles, functions, and evolution of the forensic nurse specialty; its relationship to other disciplines and professions; its roles working with victims of crime, violence and abuse, along with offender populations. Introduction to ethical issues in forensic health services.

NURS 586 Forensic Nursing and Health Care for Vulnerable Populations (3) *Baker* Focuses on the roles of forensic nurses and other working with populations at risk for violence, assault, and abuse; emphasizing issues related to age, race/ethnicity and gender. Examines concepts of vulnerability, dependence, and victimization; interactions with criminal justice and health care systems.

NURS 587 Role Transition Seminar (2) Emphasis on transition to doctoral study and eventual post-graduate roles. Includes information to clarify expectations and skills to facilitate success: various forms of scholarly and interpersonal communication, principles of scholarly collaboration, giving and receiving critiques, and other topics developed by participants. Credit/no credit only.

NURS 588 Philosophical Basis of Nursing Inquiry (3) Overview and critical analysis of historical and contemporary views of knowledge development and of science, with particular emphasis on the ways these views influence approaches to nursing inquiry. Emphasis on analyzing the underlying epistemological and ontological assumptions and implications of diverse approaches to knowledge generation in nursing.

NURS 589 Theoretical Perspectives in Nursing (3) Critical analysis of theory development, including evaluation of relationships among theories, evidence, and explanation. Diverse approaches used to appraise historical and contemporary milestones in the development and evaluation of nursing knowledge. Emphasis on process and implications of theory development for nursing research, practice, education, and systems. Prerequisite: NURS 588. Offered: W.

NURS 590 Ecology of Human Health (5) Focus on the pluralistic constructions of health as related to different environments. Personal and biological characteristics vary, interact with, and transform the person and the environment. Emphasis on nursing as a social construction which is interactive with the human's experience of health and healing.

NURS 591 Advanced Seminar in Nursing Science (3, max. 15) In-depth analysis and evaluation of literature in focused areas of research. Synthesis of literature related to selected fields of nursing science. Oral analysis of assigned papers and topics. Prerequisite: graduate standing or permission of instructor.

NURS 592 The Science of Nursing Therapeutics (4) Addresses the state of the science of nursing therapeutics. Students examine the practices of nursing to promote, maintain, and restore human health from an ecological perspective. Therapeutics considered from the perspectives of the individual, family, and community systems.

NURS 593 Preventive Therapeutics (3) Examines literature in the field of health promotion and illness prevention with the purpose of students developing their individual model of health promotion and illness prevention in their own foci of interest considering the social and political forces prevailing.

NURS 594 Advanced Seminar on Healing (3) Advanced seminar to critically analyze current thinking and practice applications that fall under the heading of "healing."

NURS 595 Synthesis of Nursing Science (3) Provides a forum for critical analysis, integration, and synthesis of core content provided during the initial year of the Ph.D. in Nurse Scientist Program and further planning of program of study. Prerequisite: completion of first year required courses of doctoral program. Credit/no credit only.

NURS 596 Colloquium, Scientific Conduct, and Dissertation Seminar (2, max. 12) Focuses on group discussion of issues pertinent to research conduct. Scientific conduct issues include guidelines relevant to designing, conducting, and disseminating research; risk management in reference to scientific misconduct and negligence; and collaborative and peer-review skills relevant to intra- and interdisciplinary research.

NURS 599 Selected Readings in Nursing Science (1-3, max. 18) Analysis of synthesis of selected readings with faculty mentor. Credit/no credit only. Prerequisite: permission of instructor.

Nursing

NSG 501 Teacher Practice Essentials-Models of Teaching & Learning (3) Integrative approach to understanding teaching learning that explores how various educational models and principles frame the processes of teaching and learning. Focus toward advanced practice nurses interested in teaching. Prerequisite: permission of instructor and graduate student status.

NSG 502 Advanced Teacher Practice Essentials-Expertise in Teaching (3) Critical analysis of how educational models and principles frame teaching to promote expertise in practice. Aimed toward advance practice nurses interested in teaching. Builds and expands content of NSG 501. Prerequisite: NSG 501 and graduate student status.

NSG 503 Advanced Teacher Practice Essentials-Diverse Learners (3) Focus on relevance and inclusiveness of addressing diversity of learners within teaching and learning activities. Aimed toward advance practice nurses interested in teaching. Further expands content of NSG 501 and NSG 502. Prerequisite: NURS 501 and graduate student status.

NSG 504 Advanced Teacher Practice-Challenges in Teaching (3) Focus on challenges facing educator during teaching encounters. Addresses influence of belief structures on learner's motivation for change. For advance practice nurses interested in teaching. Prerequisite: NSG 501 and graduate student status.

NSG 505 Applied Occupational Health and Safety (3) *Camp, Johnson* Application of occupational safety and health principles. Student teams perform evaluations, assess production methods/processes and exposures,

health and safety procedures and programs, and develop engineering and administrative controls. Students perform on a consulting project with a local company including budgeting, project reporting, and presentation. Offered jointly with ENVH 559 and IND E 567. Offered: Sp.

NSG 506 Organizing and Administering Industrial Safety and Health Programs (4)

Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates philosophic issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Contains numerous case problems and student involvement opportunities. Offered: jointly with ENV H 560; A.

NSG 507 Technical Aspects of Safety and Health (3)

Explores specific hazards associated with major industries, as well as hazards common to all industries. Covers machine guarding, electrical safety, systems safety analysis, materials handling, and working at heights. Offered: jointly with ENV H 562; W.

NSG 508 Introduction to Ergonomics (3) Basic principles of ergonomics in work environment applied to problems of worker and management. Topics include measurement of physical work capacity, problems of fatigue and heat stress, applied biomechanics, worker-machine interactions and communication, design of displays and controls. Prerequisite: basic human physiology or permission of instructor. Offered: jointly with ENV H 566/IND E 566; W.

NSG 509 Pathophysiology for Advanced Practice Nursing (1) Synchronous Web pathophysiology class addresses immune and inflammatory responses with related content on infections and atherosclerosis. Focus on understanding the physiologic/pathophysiologic basis for disease processes and the relationship of various treatment modalities to these concepts. Prerequisite: Recent (within 5 yrs.) upper division anatomy/physiology course or permission of instructor.

NSG 510 Assessment and Management of Neonatal Problems (5) Focus on pathophysiology of disease processes, assessment, diagnosis, and management of common health problems experienced by term and preterm neonates in neonatal intensive care settings. Includes foundations for clinical decision making for neonatal nurse practitioners and examination of interdisciplinary roles. Prerequisite: NURS 514.

NSG 511 Prevention Issues in Community Health (3) An interdisciplinary overview of community health prevention approaches focusing on the social determinants of health and health disparity reduction among vulnerable populations. Analysis of community and population preventive strategies across the life course. Roles of advanced community health nurses as prevention leaders and consumers of prevention information are emphasized. Offered: Sp.

NSG 512 Prevention Critique in Community Health (3) Critical examination of community health prevention programs that build community health capacity and show promise in facilitating long-term health equity among vulnerable populations. Focuses on the leading health disparities among USA racial and ethnic people of color, and how to be a critical program consumer, adopter and adapter. Offered: A.

Nursing Clinical

NCLIN 302 Practicum: Health Assessment (1-5, max. 5) Lecture and lab emphasize nursing skills in communication, interviewing, functional and physical health assessment. Includes: basic communication skills, beginning physical and psychosocial assessment of the individual across the lifespan, and family assessment. Credit/no credit only. Offered: AS.

NCLIN 306 Practicum: Basic Skills of Nursing Practice (4) Practicum in communication, interviewing, health assessment, identification of threats to health in clinical settings. Explores risk, vulnerability identification, communication, physical/psychosocial assessment of individuals across lifespan, nursing care planning, documentation, psychomotor skills development. Credit/no credit only. Prerequisite: NCLIN 302, which may be taken concurrently.

NCLIN 402 Practicum: Care in Illness I (4) Provides supervised nursing care to individuals/families with acute/ chronic illness across the lifespan. Emphasizes beginning skills in systematic assessment, including person/ environment fit, developing competency in selected nursing therapies, and developing role as care agent for persons of all ages. Credit/no credit only. Prerequisite: NCLIN 401, which may be taken concurrently.

NCLIN 406 Practicum: Care in Illness II (1-10, max. 10) Provides supervised nursing care to individuals and families with acute and chronic illness. Emphasis on increasing skill in systematic assessment, developing competency in selected nursing therapies, and developing role as caring agent for persons of all ages. Credit/no credit only.

NCLIN 409 Partnerships in Community Health (6) Analysis, application, and evaluation of community partnership process for health. Analysis of nursing role in community/public health, including community building, collaboration, policy. Development and formulation of community interventions to maintain/promote biopsychosocial health/promotion of health/prevention of injury and disease.

NCLIN 416 Practicum: Nursing of Families: Childbearing and Childrearing (4) Provides the opportunity for supervised nursing of childbearing and childrearing families and individuals. Emphasizes expanding nursing process skills, especially health promotion, with individuals and families during childbearing and childrearing. Credit/no credit only. Prerequisite: NURS 415, which may be taken concurrently. Offered: AW.

NCLIN 418 Practicum: Psychosocial Nursing (4) Provides supervised psychosocial nursing care to individuals/families/groups/communities with threats to or alterations in psychosocial health. Emphasizes increasing skill in systematic assessment, developing competency in selected psychosocial nursing interventions, and evaluation of treatment outcomes. Credit/no credit only. Prerequisite: NURS 417, which may be taken concurrently. Offered: AW.

NCLIN 490 Special Laboratory Elective (1-4, max. 4) Altman Provides supervised laboratory experience to enhance and document clinical skills and decision making.

NCLIN 500 Comprehensive Health Assessment (3) Provides framework for systematic collection, interpretation, and communication of

data to determine health status of individuals. Develops beginning advanced practice competence in history-taking and screening physical examination of adolescents and adults. Analysis of multiple health indicators to determine health status. Credit/no credit only. Prerequisite: permission of instructor.

NCLIN 501 Diagnostic Health Assessment (1-5, max. 5) Provides framework for learning symptom analysis, selection/performance of examination techniques, and selection/ interpretation of common diagnostic procedures. Develops beginning competence in focused history-taking and directed physical exam to evaluate common health problems in adolescents and adults. Credit/no credit only. Prerequisite: NCLIN 500, which may be taken concurrently.

NCLIN 502 Pediatric Health Assessment and Promotion (1-5, max. 5) Gives experience in obtaining a health history and performing a physical assessment of infants, children, and adolescents. Interviewing techniques, problem-oriented charting, and a systems approach to the physical examination. Emphasis on screening principles, health promotion, and wellness care for children/families. Credit/no credit only. Prerequisite: permission of instructor.

NCLIN 503 Advanced Fieldwork Community Health Nursing (2-6, max. 12) Guided experience in delineating nursing roles in community settings. Development of a philosophy of community health nursing. Application of core concepts pertaining to health, ethics, care, and community. A minimum of four hours of guided experience weekly. Prerequisite: graduate standing and permission of instructor.

NCLIN 505 Diagnostic Testing and Monitoring in Serious Illness (2) Lecture, discussion, and laboratory sessions to develop students' assessment, diagnostic, and monitoring expertise in the care of acutely ill individuals. Students refine clinical decision-making skills, apply specialized assessments, gain insight into clinical experts' critical thinking, and refine assessment knowledge for a specific patient population. Prerequisite: NCLIN 501 or equivalent.

NCLIN 508 Seminar in Group Treatment (1) Seminar on the theoretical basis for working with various treatment groups. Analysis of selected approaches to group treatment. Analysis of leader responsibilities and functions in the development of therapeutic group experiences.

NCLIN 509 Teaching Methods and Practicum in Nursing Education (2-10, max. 10) Guided experience in selected teaching-learning situations in nursing, in both classroom and clinical situations. Identification, analysis, and solution of teaching-learning problems in clinical nursing. Minimum of seven hours of guided experience weekly.

NCLIN 510 Group Work with High-Risk Youth (3-6, max. 6) Theory and application course in group counseling for high-risk youth. Central theme is group leader effectiveness in helping young people increase school performance, decrease drug involvement, and increase emotional well-being. Open to graduate students in nursing, education, and related human services professions.

NCLIN 512 Advanced Practicum in Parent and Child Nursing I (2-12, max. 25) Clinical seminar and practicum provide opportunities to develop

advanced nursing practice competencies in the care of women, parents, children, and/or adolescents. Application of theory and principles to direct care, consultation, education and/or care coordinator roles with individuals and/or groups.

NCLIN 514 Seminar in Home Care for Chronic Illness (3) Home-care services as component of community health nursing. Understanding effects of direct nursing functions on care of chronically ill persons and their families. Selected field study experiences in community health settings. Prerequisite: NURS 563, graduate standing, and permission of instructor.

NCLIN 525 Managing Clinical Effectiveness Within Care Systems (1) Optimizing person-provider clinical therapeutic transactions at multiple levels of care systems complexity and population aggregation. Emphasis on designing, managing and evaluating clinical effectiveness and efficiency within care systems. Prerequisite: NURS 524 or permission of instructor.

NCLIN 526 Managing Organizational Effectiveness Within Care Systems (1) Analysis of management strategies for attaining effective and efficient organizational structures and processes within health care systems. Prerequisite: NURS 524 or permission of instructor.

NCLIN 531 Nursing Process in Parent-Child Nursing (4) Includes lecture, seminar, and laboratory instruction designed to assist the student with knowledge and skill acquisition related to nursing care of individuals and families with regard to childbearing and childrearing. Prerequisite: NURS 530.

NCLIN 540 Relationship Development and Intervention (3-, max. 15) Clinical work with infant and toddlers and their parents in relation to infant disorders of affect, self-regulation, attachment trauma, and stress disorders. Reflective supervision in groups and individually required. Restricted to candidates in the Infant Mental Health Certificate Program. Credit/no credit only. Offered: AWPSS.

NCLIN 541 Advanced Practice Specialist Clinical Practicum (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Emphasis is on specialization and role development. Prerequisite: Related sciences (CNS, NE, APGN, ID-CNS, IC-APN), or NURS 509 and NURS 585; or permission of instructor.

NCLIN 542 Advanced Practice Specialist Clinical Practicum II (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Fieldwork emphasizes greater depth/complexity/independence in specialization and role development. Seminars emphasize critical analysis of role-related issues. Capstone experience for clinical practicum. Credit/no credit only. Prerequisite: NCLIN 541.

NCLIN 543 Advanced Practice Specialist Clinical Practicum III (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Role development within specialty context. Emphasis is on critical analysis of leadership-related issues. For students in final clinical,

serves as capstone. Credit/no credit only. Prerequisite: NCLIN 542.

NCLIN 544 Advanced Practice Specialist Clinical Practicum IV (1-10, max. 20) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Fieldwork serves as capstone experience. Seminar emphasis is on consultation and collaboration. Credit/no credit only. Prerequisite: NCLIN 543.

NCLIN 546 Management of Acute and Chronic Wounds (2-3) Evaluation and treatment of acute and chronic wounds. Includes wound healing physiology, pathophysiology, patient evaluation, evaluation of environmental and systemic factors related to risk of impaired healing, methods for assessing wound progress, and evidenced based treatment options. Optional one credit clinical and lab experience. Prerequisite: graduate standing or permission of instructor.

NCLIN 549 Nurse Practitioner Clinical Practicum I: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced nursing practice with individual/groups. Students practice under clinical preceptor supervision. Focuses on data collection/critical thinking related to health status and threats to health, incorporating knowledge from the biological, behavioral, and social sciences. Credit/no credit only. Prerequisite: permission of instructor, or NCLIN 501 or equivalent.

NCLIN 550 Nurse Practitioner Clinical Practicum II: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced practice nursing. Builds on NCLIN 549, emphasizing critical thinking related to the differential diagnosis/management of health problems and human responses. Students practice under clinical preceptor supervision. Addresses selected role issues in advanced practice nursing. Credit/no credit only. Prerequisite: NCLIN 549 or permission of instructor.

NCLIN 551 Advanced Practice Nursing Clinical Practicum III: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced practice nursing. Builds on NCLIN 550, emphasizing the integration and application of previous learning in the care of people with multiple health problems. Students practice under preceptor supervision. Addresses selected role issues in advanced practice nursing. Credit/no credit only. Prerequisite: NCLIN 550 or permission of instructor.

NCLIN 552 Nurse Practitioner Clinical Practicum IV: Adults/Older Adults (1-10, max. 10) Intensive clinical experience in which students integrate previous learning to assume responsibility for care of older adults and/or adults with multiple health problems. Students practice as an advanced practice nurse supervised by a preceptor, assuming increasing responsibility for planning/implementing therapies and for documenting/evaluating outcomes. Credit/no credit only. Prerequisite: NCLIN 551.

NCLIN 553 Seminar in Primary Care I: Health Promotion (2) Weekly seminars with supervised field study within selected primary-care and wellness settings. Emphasis on health assessment and strategies related to improving health in people of all ages. Analysis of, and counseling on, life-styles, nutrition, physical fitness, stress management, self-care, and

prevention. Credit/no credit only. Prerequisite: graduate standing, permission of instructor.

NCLIN 554 Occupational Health Nursing: Practice Issues (2-6, max. 6) In-depth overview of occupational health and safety. Includes discussion of American workforce, work environments, regulations, and political issues; identifies trends which affect practice; introduces prevalent health disorders which result from occupational exposure; examines and applies nursing theory to the prevention and control of occupational injuries and illnesses.

NCLIN 556 Seminar in Primary Care II: Management of Common Health Concerns (3) Focus on research questions, patient presentations, and group discussions drawn from field study. Supervised clinical field study within selected primary health-care settings and weekly seminar discussions related to theory presented in NURS 510. Credit/no credit only. Prerequisite: graduate standing and permission of instructor.

NCLIN 557 Seminar in Primary Care III: Management of Common Health Concerns (3) Focus on research questions, patient presentations, and group discussions drawn from field study. Supervised clinical field study within selected primary health-care settings and weekly seminar discussions related to theory presented in NURS 510. Credit/no credit only. Prerequisite: graduate standing and permission of instructor.

NCLIN 558 Occupational Health Nursing: Program Development (2-6, max. 6) In-depth examination of occupational health and safety programs including organizational analyses, budgeting, marketing, case management, and workers' compensation; also political, economic, legal, and ethical issues. Focuses on development, implementation, and evaluation of programs including health promotion, EAP, and health surveillance. Applies public health and nursing sciences to selected work-related problems.

NCLIN 559 Seminar in Primary Care IV: Management of Common Health Concerns (3-5) Focus on research questions, patient presentations, and group discussions drawn from field study. Supervised clinical field study within selected primary care settings and weekly seminar discussions related to theory presented in NURS 510. Credit/no credit only. Prerequisite: permission of instructor; nurse practitioner students register for NURS 510 concurrently.

NCLIN 560 Seminar in Primary Care V: Complex Clinical Decision Making ([1-11]-, max. 11) Seminar with associated field study. Synthesis of advanced knowledge base and clinical family nurse practitioner skills with effective management of complex clinical problems. No grade given until 11 total credits completed. Credit/no credit only. Prerequisite: graduate standing and permission of instructor.

NCLIN 566 Advanced Clinical Practicum in Psychosocial Nursing (1-9, max. 20) Seminar and practicum focus on development of advanced clinical and role-function skills. Practicum in settings with select populations under supervision of expert clinicians. Seminars use evidenced-based practice criteria to integrate cases into discussion. Credit/no credit only. Prerequisite: NURS 570, NURS 564, one theory course, or permission of instructor.

NCLIN 570 Practicum in Adult Psychosocial Assessment (2) Under supervision of faculty/

preceptors from clinical agencies, students use evidence-based practice criteria to assess individuals, groups, and families. Students gain skills in psychosocial interviewing, mental status examinations, and assessing psychosocial variables by standardized instruments and clinical interview. Credit/no credit only. Prerequisite: NURS 549 or permission of instructor.

NCLIN 572 Practicum in Physical Assessment

(2) Physical health assessment in practicum with the opportunity to refine skills in taking a complete health history and in performing physical examinations in a clinical setting. Credit/no credit only. Prerequisite: either NURS 510 modules ABC, or NURS 510 modules HI; NCLIN 500; 501, or permission of instructor.

NCLIN 573 Advanced Field Study in Family Nursing (2-9, max. 9)

Advanced practice development in direct care, consultation, and/or care coordination with individual families or groups of families across the life span. Opportunities provided to strengthen interpersonal therapeutic process skills, family nursing approaches relevant to family health promotion, problematic family health patterns. Prerequisite: concurrent registration in NURS 572, NCLIN 574; recommended: NURS 571.

NCLIN 599 Independent Study Clinical Practicum (1-12, max. 25)

Clinical practicum to develop advanced-practice nursing skills in care of individuals, groups, communities, or care systems. Individually arranged with faculty member for application of theory and principles to direct care, consultation, education or care coordinator roles. Prerequisite: matriculated MN student or post-masters student, and permission of academic adviser and instructor. Offered: AWSpS.

Nursing Methods

NMETH 403 Introduction to Research in Nursing (3)

Organization of the structure of nursing knowledge through research. Concepts and processes of research utilized in the investigation of nursing science.

NMETH 499 Undergraduate Research (1-5, max. 12) Supervised individual scholarly inquiry on a specific nursing problem.

NMETH 515 Sociobehavioral and Prevention Research Methods for HIV and STI (3)

Kurth Focuses on prevention methods for controlling HIV/STI epidemics, identifying a range of alternatives along the prevention continuum as most appropriate and feasible for settings and populations, and solutions to increase HIV/STI prevention agenda in public health and clinical policy and practice. Offered: jointly with EPI 549; Sp.

NMETH 521 Methods of Research in Nursing

(2) Continuation of 520, with emphasis on methods of research applied to the solution of problems in all fields of nursing.

NMETH 522 Data Management for Research Professionals (4)

Surveys industrial strength data management, using techniques applicable to multi-center, longitudinal research trials with survey instruments. Involves challenges research professionals face as they graduate from a student project to a study with hundreds of cases, variables, multiple survey instruments and a staggered, repeated sampling protocol. Credit/no credit only.

NMETH 526 Patient-Centered Interactive Health Communication Technologies(3)

Overview of current and emerging consumer-centric eHealth tools and technologies. Researchers and practitioners from multiple disciplines present theories, concepts, and principles from health, information, cognition, and human-factors sciences as they relate to development and use of these tools and technologies.

NMETH 527 Introduction to Health Informatics and Systems Thinking (3)

Masuda, Oyler Examines how informatics aids in the transformation of healthcare delivery and how to most effectively use the theories and best practices in informatics toward building and deploying informatics solutions. Offered: jointly with MEBI 581. Offered: A.

NMETH 528 Computing Concepts: From Theory to Application (3)

Johnson Survey of conceptual and applied computing concepts. Conceptual topics include a global survey of hard/software, networking, information systems analysis/design, and programming. The applied component emphasizes desktop system management skills and the creative use of spreadsheets to enhance personal productivity. Offered: jointly with MEBI 580. Offered: W.

NMETH 529 Database Concepts and Applications in Clinical Informatics (3)

Oyler Introduction to relational database theory and technology from a health informatics perspective. Focuses on transactional database theory, architecture and implementation in a socio-technical context. Analyses database applications used in clinical environments. Introduces knowledge bases and data warehouses. Offered: jointly with MEBI 582. Prerequisite: NMETH 528. Offered: Sp.

NMETH 530 Scholarly Proposal Development

(2) *Jarret, Killien, Schepp, Simpson* Focuses on the application of methods of inquiry to develop a scholarly proposal through faculty-guided small group discussion and individual composition. Prerequisite: NMETH 520. Offered: AWSpS.

NMETH 570 Seminar in Clinical Research in Nursing (3)

Philosophy, problems of design; use of criterion measures in terms of patient care.

NMETH 575 Methodological Issues in Family Research (3)

Emphasizes research with the family as unit of analysis. Examines patterns of family functioning in relation to responses to health situations. Reviews family units from generational and intergenerational perspectives. Critiques methods assessing dyadic and triadic relationships and therapeutic interventions on family outcomes. Prerequisite: permission of instructor.

NMETH 580 Methodological Perspectives in Nursing Inquiry (5)

Allows students to translate philosophical and theoretical perspectives into research methodologies. Foci will include: the relationship of theoretical perspectives to methodologies; the methodological issues among and between varying schools of thought (including contemporary empiricist, interpretive, and critical/postmodern); and how the methodologies influence choices of research design and methods.

NMETH 581 Observational Research Methods

(2-6, max. 6) Examines observational methods for conducting verbal and nonverbal behavioral research. Emphasizes critical analysis and rigor in research question formulation, measurement

decisions, coding scheme development, data collection, and analysis and interpretation of data. In-depth application of observational method optional. Prerequisite: graduate standing and basic research methods course or permission of instructor. Offered: W.

NMETH 582 Interpretative Methods in Nursing Research (4-)

Seminar and field practicum for interpretative research methods. Study on health-related issues using a selected tradition in interpretative methods. Prerequisite: permission of Instructor.

NMETH 583 Interpretative Methods in Nursing Research (-4)

Seminar and field practicum for interpretative research methods. Study on health-related issues using a selected tradition in interpretative methods. Prerequisite: permission of Instructor.

NMETH 584 Methods: Physiologic Measures

(4) Exploration of the measurement of physiologic functioning in human and animal models. Examples include biochemical and biophysical measure. Students develop beginning skills with one physiologic measure. Prerequisite: physiology and chemistry and permission of instructor.

NMETH 585 Meta-Analysis (4)

Meta-analysis examined as a method to synthesize research. Overview of meta-analytic methods; description of the collection, analysis, synthesis, and reporting of studies; explanation of statistical calculations; and discussion of reliability and validity measures incorporated into meta-analytic design. Prerequisite: permission of instructor.

NMETH 586 Instrument Development and Testing (4)

Includes measurement theory, reliability, validity, level of measurement, and the process of scale development, modification, or translation. Students learn to evaluate, develop, modify, translate, and test instruments for use in research. Prerequisite: student in health science discipline and permission of instructor.

NMETH 587 Methods of Theory Testing:

Causal Modeling with Path Analysis and Structural Equation Modeling (4) Includes causal inferencing and theory testing through causal modeling with path analysis and structural equations modeling. Students learn to evaluate theory models and to apply the content by developing and testing models. Prerequisite: student in health science discipline and permission of instructor.

NMETH 590 Special Topics in Nursing Research (2-3, max. 9)

Examination of a specific research method, with evaluation of appropriateness, efficiency, rigor of measurement, and potential for inference for nursing research. Prerequisite: minimum of 5 credits of basic nursing research methodology at graduate level and permission of instructor.

NMETH 591 Clinical Outcome Research I (4)

Examination of philosophical, analytical, and methodological decisions and processes in evaluating the effectiveness of interventions and programs designed to enhance health outcomes. Alternative designs are addressed in consideration of underlying assumptions about prevention/causation research; clinical human phenomena; design sensitivity; and threats to validity. Theory development emphasized. Prerequisite: permission of instructor.

NMETH 592 Clinical Outcome Research II (2-

4, max. 4) Application and evaluation of philosophical, methodological, and analytical concepts and issues examined in 591. Two modules are offered: a) case study and small-n studies and b) large-n studies. Students demonstrate application of decision-making process involved in development of clinical outcome study. Prerequisite: permission of instructor.

NMETH 593 Time Series and Sequential Analysis (4) Basic introduction to terminology and methods of time series and sequential analysis as applicable to nursing-relevant processes in the form of samples of interval and categorical data collected over time; autocorrelation, autoregression, spectrum, socinor, Markovian, lag sequential, and log-linear analyses. Development of practical analysis skills on real data sets. Prerequisite: permission of instructor. Credit/no credit only.

NMETH 600 Independent Study or Research (*) Credit/no credit only.

NMETH 700 Master's Thesis (*) Credit/no credit only.

NMETH 800 Doctoral Dissertation (*) Credit/no credit only. Prerequisite: permission of Supervisory Committee chairperson or graduate program adviser.

College of Ocean and Fishery Sciences

Aquatic and Fishery Sciences

FISH 101 The Living Aquatic World (5) I&S/NW Freshwater and marine biodiversity, population, biology, ecosystem structure and function, evolution, conservation genetics, physiology, aquaculture, environmental effects of human activities, role of law, government, and human communities in resource conflicts management. Three case studies. Suitable for non-majors. Offered: jointly with ENVIR 101.

FISH 210 Methods in Fisheries and Aquatic Sciences: Theory and Applications (5) NW Comprehensive survey of the theory and techniques of field research in aquatic sciences. Topics emphasize sampling design, data collection, and interpretation across a broad suite of topics and approaches. Field trips and laboratory sections are mandatory. Recommended: 10 credits in biology.

FISH 250 Marine Biology (3/5) I&S, NW Lecture-laboratory course in Marine Biology focusing on physical, biological, and social aspects of the marine environment. Topics include oceanography, ecology, physiology, behavior, conservation, fisheries, exploration, and activism. Evening marine biology movies and weekend field trip. Honors section research project. Offered: jointly with BIOL/OCEAN 250.

FISH 296 Study Abroad: Aquatic and Fishery Sciences (0) NW For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit not does not apply to major requirements without approval.

FISH 297 Special Topics in Fisheries (1-5, max. 5) NW Selected topics in aquatic science and fisheries.

FISH 310 Biology of Shellfishes (5) NW Commercially important mollusks, crustaceans, and other harvested invertebrates highlighted with respect to systematics, anatomy, reproductive strategies, feeding, and growth. Examples of species that demonstrate variability in recruitment and complex life cycles. Laboratories, field trips. Recommended: 10 credits biological science.

FISH 311 Biology of Fishes (3/5) NW Lecture and laboratory, of the morphological, physiological, behavioral, and ecological diversity of fishes of the world; designed to provide a basic foundation for advanced courses in all areas of finfish fisheries. 3-credit option does not include laboratory. Recommended: 10 credits biological science. Offered: jointly with BIOL 311; W.

FISH 312 Fisheries Ecology (3/5) NW Ecological characteristics of fishes and shellfishes in the important freshwater and

marine habitats of North America. Relationship between physical aspects of the habitats and community structure. Impacts of human activities on diversity and abundance. Prerequisite: either BIOL 162 or 220; recommended: FISH 210; FISH 311. Offered: Sp.

FISH 323 Conservation and Management of Aquatic Resources (5) NW Topics include population growth rates, extinction risk, dynamics of populations at low densities, meta-populations, marine reserves, endangered species classification, sustainable harvesting and management institutions. Examines case studies such as salmon, albatross and whales as representative of conservation issues in aquatic sciences. Sampling, experimental design, computer skills and research writing.

FISH 324 Aquatic Animal Physiology and Reproduction (3/5) NW Adaptations of aquatic animals to environmental challenges. Energy pathways from feeding and digestion through maintenance (metabolism, movement, repair), homeostasis (respiration, osmoregulation, thermoregulation), growth and reproduction (sex determination, manipulation, sex change). Roles of sensory, nervous, and endocrine systems in mediating environmental information. Hands-on laboratory. Prerequisite: either BIOL 161 or BIOL 220.

FISH 328 Forestry-Fisheries Interactions (4) NW Characteristics of forestry-fisheries interactions in terrestrial and aquatic landscapes. Effects of changes in landforms on forest and aquatic communities. River basin and watershed features. Forest stand dynamics, forest hydrology, fish and wildlife histories and behavior. Resource conflicts and resolution. Offered: jointly with ESRM 328; W.

FISH 340 Genetics and Molecular Ecology (5) NW Application of molecular markers to ecology, evolution, and the management of living resources. Emphasis on understanding the strengths and weaknesses of the approach based on case studies. Offered: jointly with BIOL 340. Prerequisite: either BIOL 102 or BIOL 200.

FISH 350 Marine Ecology of Coastal Systems (3) Explores the ecological relationships of marine organisms in coastal systems, including kelp forests and coral reefs, the physical forces that shape these systems, and the impacts of environmental change. Recommended: BIOL 250/FISH 250/OCEAN 250. Offered: jointly with SMA 350; W.

FISH 351 Field Investigations in Marine Biology (5) Evaluates the relationships between man and marine systems in a field-oriented class. Case studies directly investigate marine biology. Studies include human activities and our effects on marine species and communities. Multiple field trips, lectures, and labs. Prerequisite:

site: FISH 350/OCEAN 350. Offered: jointly with OCEAN 351; Sp.

FISH 401 Systematics, Zoogeography, and Evolution of Fishes (5) NW Advanced course in ichthyology with emphasis on living bony fishes of the world; past and present biodiversity, evolutionary history, classification, comparative morphology, geographic distribution, and historical zoogeography. Recommended: 10 credits biological science.

FISH 404 Diseases of Aquatic Animals (5) NW Overview of communicable and noncommunicable diseases that affect fish and shellfish. Major pathogens of free-ranging as well as captive animals discussed. Students learn to recognize, prevent, and control economically and ecologically important disease syndromes. Recommended: 10 credits biological science.

FISH 405 Molluscan Aquaculture and Fisheries (5) NW Biology, ecology, management, and economic importance of oysters, clams, scallops, mussels, abalones, cephalopods, and other mollusks. Emphasis on techniques for production through aquaculture as well as harvest strategies for wild stocks. Field trips. Recommended: 10 credits biological science.

FISH 406 Crustacean Fisheries and Aquaculture (4) NW Biology, ecology, management, and economic importance of shellfish, emphasizing crustaceans. Wild populations and aquaculture production of important phyla discussed. Field trips. Recommended: 10 credits biological science.

FISH 415 Fish Physiology (5) NW Examines physiological principles and adaptations of fish for growth, metabolism, salt and water balance, digestion, locomotion, special senses, stress, reproduction, and neural and endocrine control mechanisms. Emphasis on environmental physiology and evolution. A nine-week laboratory component involves original experiments with juvenile salmon in hatchery on campus.

FISH 420 Ecology of Marine Fishes (4) NW Focuses on the unique ecological challenges facing marine fishes, including individual, population, community, and ecosystem-scale processes. Prerequisite: either FISH 311 or FISH 312.

FISH 424 Biology and Culture of Aquatic Organisms (5) Explores the concept of sustainability and the interrelationship between environment, aquatic species, and culture of aquatic animal and plant species globally. Current practices, animal biology and health, near-shore ecosystem conservation, water quality, and strategies to improve the sustainability of aquaculture for food production and species conservation. Lecture and lab.

FISH 428 Restoration of Fish Communities and Habitats in River Ecosystems (5) NW

Examines opportunities to encourage recovery through natural developmental processes that enhance the complexity of habitats and connectivity between habitats in the river basin. Class discussion and participation on field trips focuses on current restoration concepts for ecosystems, designs of projects, and case studies. Recommended: fish ecology and hydrology courses. Offered: odd years; Sp.

FISH 429 Seminar in Streamside Studies (1, max. 6) Discussion by invited speakers on current research and issues related to streamside studies. Speakers are a mix of on-campus and off-campus experts. Credit/no credit only. Offered: jointly with CFR 429; A/WSp.

FISH 430 Biological Problems in Water Pollution (3/5) NW Ecological risk assessment of toxic chemicals and problems associated with electrical power production. Considers safety and toxicity and effects on individuals, populations, and communities. Laboratory covers simulation models of chemical exposure and community effects. Recommended: senior or graduate standing in fisheries, engineering, or related field. Offered: jointly with CEE 461.

FISH 438 Biological Monitoring and Assessment (5) NW Explores the technical questions (conceptual, sampling, and analytical), the rationale, policy relevance, and legal basis for tools — existing and needed — to assess ecological health. Prepares students to see the biological components of ecological systems in diverse ways. Offered: jointly with BIOL 438.

FISH 439 Attaining a Sustainable Society (1/3, max. 3) I&S/NW *Karr* Discusses diverse environmental issues, the importance of all areas of scholarship to evaluating environmental challenges, and the connections between the past and the future, to reveal integrative approaches to protect the long-term interests of human society. Offered: jointly with ENVIR 439.

FISH 444 Conservation Genetics (5) NW Advanced genetic concepts and methods related to aquatic species' conservation and management. Includes genetic diversity, small populations and fragmentation, genetic viability, management of wild and captive populations (including aquaculture), reintroductions, hatchery-wild interactions and forensics. Labs include molecular techniques. Recommended: GENET 371.

FISH 447 Watershed Ecology and Management (3) NW Explores fundamental ecological processes at the watershed scale, identifies human-induced changes to ecological systems, and discusses approaches to improve watershed management. Includes lectures, field trips, and discussions with organizations and agencies about how they are addressing ways to improve watershed management. Offered: W.

FISH 450 Salmonid Behavior and Life History (3/5) NW Marine distribution, homing migration, and spawning behavior of adult salmon: incubation, emergence, migration, and residence of fry; fingerling distribution and residence with reference to species interaction and population evolution. Recommended: FISH 311. Offered: A.

FISH 451 Reproduction and Early Development of Fishes (4) NW Reproductive development, sexual maturation, spawning and incubation in selected fish species; embryology

and developmental traits of different salmonid and non-salmonid species; practical experience in artificial spawning techniques, egg handling and care, incubation techniques and the handling of newly-hatched alevins. Recommended: FISH 310; FISH 311.

FISH 452 Aquatic Animal Nutrition (5) NW Nutritional requirements, nutrient interactions of aquatic animals in the wild or raised in captivity for purposes such as stock enhancement, food production, the aquarium/ornamental fish industry. Nutritional needs of marine mammals. Feed ingredients, formulation techniques, environmental impacts. Experimental design, completion of laboratory nutritional study. Recommended: 10 credits biological science.

FISH 453 Spatial Information Technologies in Ecosystem Sciences (3) NW *Logsdon* Introduction to the use of GPS, GIS, and Remote Sensing in the ecosystem sciences. Integrates these technologies in an applied research setting. Two overnight weekend field trips required. Offered: jointly with OCEAN 452.

FISH 454 Ecological Modeling (4) Key concepts in ecological modeling and quantitative methods, focusing on the rational, interpretation, and motivation for modeling in ecological sciences. Individual-based, population matrix, and ecosystem models. Excel and Matlab-based computer exercises, simple model building, readings.

FISH 455 Fish and Wildlife Toxicology (3/5) NW Overview of fish/wildlife toxicology: history of the field; regulations; methods used to assess risks contaminants pose to fish/wildlife; classes of contaminants and their direct, sublethal and indirect effects; and contemporary threats of contaminants to fish/wildlife, their habitats and prey. Includes laboratory. Offered: jointly with ESC 457; W.

FISH 456 Introduction to Quantitative Fishery Science (5) NW Conveys fundamental concepts of fish population dynamics and fishery management within context of real-world fisheries problems. Lectures discuss notation, terminology, mathematical models, fisheries principles, and case studies. Laboratory time devoted to practical applications, problems. Recommended: either MATH 125, MATH 135, or Q SCI 292; Q SCI 381. Offered: jointly with Q SCI 456; A.

FISH 457 Design and Evaluation of Marine Protected Areas (4) NW Ecological basis for designing and implementing Marine Protected Areas (MPA) as part of a conservation or management program, and techniques used to evaluate effectiveness of MPA networks. Metapopulation and community structure, landscape ecology, spatial analysis, geographic information systems (GIS), sampling design, mapping, and monitoring methods. Recommended: Q SCI 381.

FISH 458 Fisheries Stock Assessment (4) NW *Francis* Emphasizes quantitative analysis of fisheries data to determine how the fishery would respond to alternative management actions. Major topics include production models, stock and recruitment, catch at age analysis, and formulation of harvest strategies. Recommended: either Q SCI 456 or FISH 456. Offered: jointly with Q SCI 458; Sp.

FISH 473 Limnology (3) NW Ecology, conservation, and management of inland aquatic

ecosystems. Explores interactions among biological, chemical, and physical features of lakes and other aquatic habitats. Prerequisite: either BIOL 102, BIOL 162, BIOL 18 0, or BIOL 203. Offered: jointly with BIOL 473.

FISH 474 Limnology Laboratory (2) NW Examination of biota of fresh waters, survey of limnological methods, analysis of data, and writing of scientific papers. Prerequisite: BIOL/FISH 473, which may be taken concurrently. Offered: jointly with BIOL 474; A.

FISH 475 Marine Mammalogy (3/5) NW Evolution, taxonomy, physiology, life history, and behavior of marine mammals; the techniques of studying and the management and conservation of them. Recommended: 15 credits of biological science, vertebrate anatomy, and physiology, for laboratory sections.

FISH 478 Topics in Sustainable Fisheries (3, max. 9) *Parrish* Seminar series featuring local, national and internationally known speakers in fisheries management and conservation. Case studies. Conservation/restoration in practice. Pre-seminar discussion section focusing on select readings. Final paper. Topics may include harvest management, whaling, by-catch, salmon, marine protected areas, introduced species, citizen action, co-management, and marine ethics. Offered: jointly with BIOL/ENVIR 478.

FISH 480 Marine Resource Conservation and Management (3) I&S/NW *Gallucci, Miller* Techniques and philosophy for conservation, management and development of harvested marine populations. Emphasis on integration of ecological, sociological, and economic dimensions of institutional decision making for policy formation in uncertain environments. Offered: jointly with ENVIR 480/SMA 480.

FISH 490 Aquatic Microbiology (3/5) NW Basic principles of aquatic microbiology and aquatic microbial ecology: role and identity of aquatic microorganisms; introduction to modern methodologies for research. Laboratory work with local freshwater and marine samples for those enrolled in 5-credit section. Offered: jointly with MICROM 490; Sp, odd years. Recommended 15 credits of biological science, 10 credits of chemistry.

FISH 491 Aquatic Ecological Research in Alaska (12) NW Intensive, full-time research training experience where a team of students works on focused research problems guided by a group of faculty, postdoctoral, and graduate student mentors. Examines behavioral ecology, limnology, and population dynamics. Students also choose specific research questions for their own exploration. Course location: Alaska. Offered: S.

FISH 492 Friday Harbor Labs Apprenticeship (9/15) NW Intensive, full-time research training experience where teams of students work on focused research problems guided by a group of faculty, postdoctoral and graduate student mentors. Research questions vary. Course location: Friday Harbor Laboratories.

FISH 494 Capstone Project I (3-12, max. 24) Self-directed research or project under direction of a faculty member. Typically includes defining research question, determining methodology, data collection and analysis, writing a paper, and presenting findings. Course is first of two-quarter requirement for graduation for majors. May be taken concurrently with FISH 495, if approved. .

FISH 495 Capstone Project II (3) Self-directed research project under direction of a faculty member. Typically includes defining a research question, determining methodology, data collection and analysis, writing a paper, and presenting findings. May be taken concurrently with FISH 494 with permission of instructor. .

FISH 496 Study Abroad: Aquatic and Fishery Sciences (1-15, max. 30) NW For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit not does not apply to major requirements without approval.

FISH 497 Special Topics in Aquatic and Fishery Sciences (1-15, max. 15) NW One-time offerings of topics in fisheries by resident or visiting faculty.

FISH 498 Internship/Experiential Learning (1-15, max. 15) Structured, practical training in the fishing industry, government agencies and other areas utilizing fisheries, food science, or quantitative science expertise. Experiences are supervised and evaluated. Written reports required. Credit/no credit only. Offered: AWSpS.

FISH 499 Undergraduate Research (1-15, max. 15) Individual research within the School of Aquatic and Fishery Sciences. Each project supervised by an individual faculty member. Written reports required.

FISH 504 Fish and Shellfish Pathology (5) Pathological effects of infectious and non-infectious diseases in fish and shellfish. Emphasis on immunological responses, contemporary diagnostic methods, control strategies, and environmental factors that influence disease transmission.

FISH 507 Special Topics in Fisheries (1-15, max. 15) Recommended: permission of instructor.

FISH 510 Current Topics in Genetics and Physiology (2, max. 8) Contemporary problems and issues in genetics and physiology as they relate to fisheries and aquatic sciences. Topics vary. Credit/no credit only.

FISH 511 Current Topics in Evolution, Ecology, and Behavior (2, max. 8) Contemporary problems and issues in evolution, ecology and behavior as they relate to fisheries and aquatic sciences. Topics vary. Credit/no credit only.

FISH 512 Current Topics in Quantitative Science (2, max. 8) Contemporary problems and issues in quantitative science as they relate to fisheries and aquatic sciences. Topics vary. Credit/no credit only.

FISH 513 Current Topics in Management, Conservation, and Restoration (2, max. 8) Contemporary problems and issues in management, conservation, and restoration as they relate to fisheries and aquatic sciences. Topics vary. Credit/no credit only.

FISH 514 Current Topics Aquaculture, Utilization, and Pathology (2, max. 8) Contemporary problems and issues in aquaculture, utilization, and pathology as they relate to fisheries and aquatic sciences. Topic varies. Credit/no credit only.

FISH 521 Research Proposal Writing for Graduate Students (4) Practice in reading,

writing, critiquing, and evaluating research grant and contract proposals. Lecture and discussion of funding resources, structure of proposals, proposal review, evaluation criteria, and agency feedback. Examples of successful and unsuccessful grant applications. Preparing proposals and critiquing other's efforts.

FISH 522 Classical Literature of Fisheries Science and Aquaculture (2) Discussion of the classic literature of aquatic and fishery sciences. Both oral and writing communication skills stressed. Credit/no credit only. Offered: A.

FISH 525 Ecology and Behavior of Fishes (3) Basic principles of ecology and behavior (e.g., habitat associations, competition and predation, migrations and movements, reproductive patterns) as applied to fishes. Critical evaluation of current literature and fieldwork required. Recommended: 311 or equivalent or permission of instructor.

FISH 526 Advanced Fisheries Ecology II: Populations, Communities, and Ecosystems (5) Recent advances in the study of aquatic communities and ecosystems in relation to a number of contemporary issues in fisheries science and management. Focus on case histories drawn from freshwater, estuarine, and marine ecosystems. Emphasis on relationships between science and public policy in attempting to resolve these issues.

FISH 527 Aquatic Community Responses to Chemical Stress (3) Aquatic ecotoxicology; bridging the gap between physiological and ecosystem responses to toxic chemicals. Detecting effects against natural variability; altered species abundances and dominance, counter-intuitive responses. Case histories, controversies on data interpretation. Recommended: at least one course in ecology, limnology, oceanography or permission of instructor.

FISH 529 Topics in Streamside Studies (1) Discussion by invited speakers on current research related to streamside studies. Offered: jointly with CFR 529; AWSp.

FISH 530 Application of Bioenergetics Models to Aquatic Food Webs (4) Modeling framework quantifying bioenergetics, including consumption, growth, nutrient recycling and contaminant bioaccumulation; links physiology and behavior of individual organisms to ecological processes within populations and aquatic food webs. Common applications include estimating predation, carrying capacity, or growth potential in different habitats. Recommended: regression course.

FISH 535 Aquatic Toxicology (3) Principles of toxicology applied to aquatic organisms. Recognition of physiological and biochemical responses of organisms to toxins and practical application of toxicity testing methods to identification of pollution and toxins in aquatic environment. Toxicity test design, interpretation, and data analysis. Recommended: organic or biochemistry and physiology or equivalent or permission of instructor.

FISH 539 Forestry-Fisheries Interactions: Case Studies (3) Case studies of streamside management situation at the watershed and basin level. Topics include resource conflict resolution, current and future management alternatives, landscape dynamics, role of disturbance, and policy options. Prerequisite:

graduate standing in forestry, fisheries, or related field; undergraduates by permission of instructor. Offered: jointly with ESC 539.

FISH 542 Principles and Applications of Molecular Methods (3) Applications of molecular techniques to questions in ecology, evolution, and natural resource management, with emphasis on advanced genome-enabled technologies and the analysis and interpretation of genetic data. Includes weekly discussion of empirical papers, and preparation/peer-review of a proposal Prerequisite: permission of instructor. Offered: jointly with OCEAN 574; A.

FISH 543 Molecular Techniques (4) Laboratory on DNA methods. Experiments analyzing genetic variation at the intra- and interspecific level, including one experiment of student's own design. Techniques include DNA extraction and quantitation, PCR, DNA sequencing, RFLP analysis and cloning. Prerequisite: FISH 542 or OCEAN 574 or permission of instructor. Offered: jointly with OCEAN 575.

FISH 547 Stream and River Ecology (5) Characterizations of stream and river ecosystems from a watershed perspective. Emphasis on fundamental processes affecting the structure and dynamics of aquatic communities and the riparian zone. Resource conflicts, new technologies, field trips, and class projects. Offered: jointly with CFR 547; Sp.

FISH 548 Special Topics in Streamside Studies (2, max. 6) Contemporary problems and issues in forestry, fisheries, and wildlife management in watersheds. Topics vary, yet focus on interactions of land and water resources in the forests of the Pacific Northwest. Recommended: permission of instructor. Offered: jointly with ESC 548.

FISH 552 Current Topics in Aquatic Animal Nutrition (5) Nutrient requirements of finfish, shellfish, ornamental fish, and marine mammals for growth, development, and reproduction. Fish feed formulation techniques. Critical review of historical papers and current literature in aquatic animal nutrition. Offered: Sp.

FISH 556 Mathematical Analysis in Fisheries Stock Assessment (3) Analytic approaches to stock assessment and population management applications of parent-progeny models and logistic models; biological and economic yields of natural populations; analysis of population data on computers. Recommended: Q SCI 292, 392, 456, and 483 or permission of instructor.

FISH 557 Estimation of Population Parameters (4) Statistical analysis of population data; design and analysis of mark-recapture experiments on natural populations; laboratory work on computers. Recommended: probability theory and Q SCI 292 and 483.

FISH 558 Advanced Analysis in Fisheries Stock Assessment (3) Deterministic and stochastic representations of age-dependent and size-dependent models for stock assessment; analysis of multi-species models; risk analysis and uncertainty in fisheries management strategies; analysis of population data on computers. Recommended: 456, 458, 557, or permission of instructor.

FISH 565 Marine Fish Biology (9) Taxonomy, ecology, and life history of the fishes of the San Juan Islands and northeast Pacific Ocean. Prerequisite: permission of instructor. Offered: Friday Harbor Laboratories.

FISH 578 Graduate Topics in Sustainable Fisheries (2, max. 6) *Parrish* Seminar series featuring local, national and internationally known speakers in fisheries management and conservation. Case studies. Conservation/restoration in practice. Post-seminar discussion section led by speaker on topics covered in lecture. Topics may include harvest management, whaling, by-catch, salmon, marine protected areas, introduced species, citizen action, co-management, and marine ethics.

FISH 581 Fishery Management: Case Studies (3) Examination of historical case studies chosen to illustrate specific fishery management problem areas. Faculty presentations occupy first half of quarter, student presentations the second half. Prerequisite: FISH 580. Offered: jointly with SMA 581.

FISH 582 Fishery Management: Contemporary Issues (5) Focuses on multi-disciplinary, in-depth analysis of specific problems, including biological and economic assessments, evaluation of alternative management systems, and formulation of specific research, data collection, and management recommendations. Prerequisite: FISH 581. Offered: jointly with SMA 582.

FISH 600 Independent Study or Research (*) Credit/no credit only.

FISH 700 Master's Thesis (*) Credit/no credit only.

FISH 800 Doctoral Dissertation (*) Credit/no credit only.

School of Marine Affairs

SMA 103 Society and the Oceans (5) I&S/NW Explores the social and policy dimensions of the ocean environment and ocean management policy. Attention to how human values, institutions, culture, and history shape environmental issues and policy responses. Examines case studies and influential frameworks, such as the ocean as "tragedy of the commons". Offered: jointly with ENVIR/SIS 103.

SMA 433 Environmental Degradation in the Tropics (5) I&S/NW Considers theories and controversies of environmental degradation in the tropics, ecological and social case studies of Central American rain forests and Southeast Asian coral reefs, and implications of environmental management techniques. Offered: jointly with SIS 433/SMA 433.

SMA 455 Marine Business Environment in Russia and Eastern Europe (3) I&S *Kaczynski* International marine business environment of Russia and the maritime nations of East Europe; their transition process from communist to free market economic systems. Covers aspects of doing business in marine-related fields such as shipping, fisheries, shipbuilding, ports, and land infrastructures, marine tourism, and water sports. Offered: jointly with SISRE 455.

SMA 476 Introduction to Environmental Law and Process (3) I&S *Bryant, Hershman* Use and application of key statutes in marine living resources management. Overview of administrative law and process. Basic legal research, reading, and briefing selected judicial opinions. Participatory case study component. Designed for non-law graduate and advanced undergraduate students. Offered: jointly with ENVIR 476; A.

SMA 480 Marine Resource Conservation and Management (3) I&S/NW *Gallucci, Miller* Techniques and philosophy for conservation, management and development of harvested marine populations. Emphasis on integration of ecological, sociological, and economic dimensions of institutional decision making for policy formation in uncertain environments. Offered: jointly with FISH 480/ENVIR 480.

SMA 485 Pacific Recreation and Tourism Issues (3) I&S/NW *Miller* Examines how marine tourism links people to one another and to the environment. Utilizes concepts from cultural anthropology, sociology, political science, geography, ecology, conservation biology, and planning. Topics include: ecotourism, ethnic tourism, marine parks and protected area, fisheries, sustainable development, tourism ethics, and marine environmental education.

SMA 499 Undergraduate Research (1-15, max. 15) Research on assigned topics under the supervision of faculty members. Prerequisite: permission of instructor.

SMA 501 Integrated Marine Affairs Practice (3) Introduction to the practice of integrated assessment in marine affairs through the use of case studies and group analysis projects. Prerequisite: SMA 500 plus two of the following: SMA 519, SMA 536, SMA 591, or permission of instructor. Offered: A.

SMA 506 International Law of the Sea (3) Offered: jointly with LAW B 561.

SMA 507 International Organizations and Ocean Management (3) Miles Survey of the manner in which international regimes and organizations attempt to manage and regulate the uses of the ocean. Primary emphasis is on the analysis of the effectiveness of regimes and of processes that support or constrain these organizations. Prerequisite: SMA 500 or permission of instructor. Offered: jointly with PB AF 538.

SMA 508 National Marine Policy Processes (3) Miles Comparative institutional dimensions of marine policy processes. Marine policy context at the national level and the dynamics that drive policy formulation and policy implementation.

SMA 509 Integrated Coastal Management (3) Christie, Hershman Managing multiple uses of coastal waters and the adjacent land; conflicts arising from competition for space and resources; organization, scientific, and economic problems associated with coastal management; planning and management experience in the United States and Southeast Asia. Prerequisite: SMA 500 or permission of instructor.

SMA 510 Topics in Marine Ecology (3) Klinger Study of ecological principles as they apply to marine species, populations, and ecosystems, using current examples from the primary literature, including contemporary issues such as species declines, species additions, pollution, and global change. Offered: W.

SMA 512 Interviewing Methods and Environmental Topics (3) Miller Focuses on qualitative techniques employed by social scientists and other researchers (e.g., sociologists, cultural anthropologists, political scientists, journalists, reporters) in interview situations. Students conduct interviews and limited participant observation with people in public, private, and activist sectors. Relevant to students with

interests in marine affairs, forestry, fisheries, and environmental studies.

SMA 514 Marine Pollution Management Issues (3) Leschine Management and policy aspects of marine environmental protection, emphasizing the two-way interaction between environmental managers and environmental and policy scientists which shapes policy.

SMA 515 U.S. Coastal and Ocean Law (4) Hershman Study of the legal framework in the United States controlling allocation and use of coastal and marine resources. Topics include coastal zone management, fisheries management, protection of marine mammals and endangered species, marine pollution, offshore oil and gas development, and marine transportation. Offered: jointly with LAW B 565.

SMA 516 Seaport Management (3) Role of port and harbor agencies in management of marine uses: cargo and trade, economic development, tourism and recreation, fisheries, environmental protection. Management functions of planning, marketing, finance, engineering, environmental assessment. Examples and guest speakers from Port of Seattle and other Puget Sound ports. Prerequisite: SMA 500 or permission of instructor.

SMA 517 Marine Uses: Transportation and Commerce (3) Hershman Role of the oceans in the transportation of people and materials, character and trends in vessel design and terminal facilities, pattern and nature of industry organization, regulations, economics of the shipping industry, management of fleets and vessels, individuals at sea and ashore, national policies affecting the merchant marine and port facilities. Prerequisite: SMA 500 or permission of instructor.

SMA 519 Marine Policy Analysis (3) Leschine Goal is appreciation for and basic working knowledge of techniques used in policy analysis. Techniques are explored in both quasi-realistic settings and in application to real world problems of marine policy.

SMA 521 Governmental Responses to Global Climate Change (3) Miles Exploration of major scientific, policy and legal issues pertaining to problems of global climate change including regime design, use of climate models, impact on hydrology water resources, and forests.

SMA 523 International Science and Technology Policy (3) Miles Analyzes the relationships between research and development policy, capabilities, and national technological strategies for advanced industrial and less-developed countries. Deals with international implications as countries make policies in regional and global organizations. Examples chosen from space telecommunication, weather and climate modification, airline transportation, nuclear energy, and seabed exploration.

SMA 525 Marine Protected Area Management and Science (3) Fluharty, Klinger Examines management and scientific issues involved with the design, establishment, operation, and maintenance of MPAs. Offered: Sp.

SMA 536 Applied Microeconomics for Marine Affairs (3) Huppert Acquaints students with microeconomic tools commonly employed in policy analysis. Emphasis is placed on mastery of basic concepts, definitions, and models useful to marine policy, including determinants of price

and outputs in competitive markets, effects of other market structures, market failure, and applied welfare economics.

SMA 537 Economic Aspects of Marine Policy (3) *Huppert* Development of pertinent economic concepts and their application to selected topics in marine policy decision making, including maritime policy, OCS oil and gas development, and wetlands management. Prerequisite: SMA 500 or permission of instructor. Offered: jointly with ECON 537; W.

SMA 538 Economics of Living Marine Resources (3) *Huppert* Develops pertinent economic concepts and applications for conservation, regulation, and restoration of fisheries and other living resources. Gives special attention to fishery management, including harvest regulation and enforcement, recreational fisheries evaluation, property rights regimes, contemporary issues, and marine protected area management. Offered: jointly with ECON 538; Sp.

SMA 540 International Strategic Planning for Marine Resources (3) *Kaczynski* Marine economies are affected by shrinking resources, population pressure, expanding economic globalization. Case studies from the third world and economies in transition illustrate strategic economic planning. Students research selected topics. Prerequisite: SMA 500 or permission of instructor. Offered: A.

SMA 550 Special Topics in Marine Studies (1-3, max. 18) Examination of various aspects of marine studies. Content varies, depending upon the interests of the faculty and students. Intended for the joint participation by the faculty and advanced students in the investigation of selected topics. One or more groups are organized each quarter.

SMA 555 Comparative Marine Business in the North Pacific (3) Strategies of Russian, Canadian, Japanese, and American enterprises and governments in promotion of marine business in the North Pacific. Socio-economic characteristics of the four powers; role of public and private sectors in foreign trade and investment; Russia's transition to free-market economic system; and business practices in the region. Offered: jointly with SISRE 555.

SMA 570 Thesis Presentation (1) *Fluhart* Completion of the thesis requirement for SMA. Prepare a professional presentation to a peer audience. Offered: AWSpS.

SMA 581 Fishery Management: Case Studies (3) *Huppert* Examination of historical case studies chosen to illustrate specific fishery management problem areas. Faculty presentations occupy first half of quarter, student presentations the second half. Prerequisite: SMA 580 or permission of instructor. Offered: jointly with FISH 581.

SMA 585 Climate Impacts on the Pacific Northwest (4) *Mantua, Snover* Knowledge of past/future patterns of climate to improve Pacific Northwest resource management. Topics include the predictability of natural/human-caused climate changes; past societal reactions to climate impacts on water, fish, forest, and coastal resources; how climate and public policies interact to affect ecosystems and society. Offered: jointly with ATM S/ESS/ENVIR 585; Sp.

SMA 591 Marine Science in the Coastal Zone

(3) *Klinger* Presentation and analysis of the marine science of estuarine, coastal, and open ocean systems, including evaluation and interpretation of scientific information necessary for management. Lectures, discussions, and readings emphasize the relevance of natural processes to marine environmental management and decision-making. Offered: jointly with OCEAN 591; A.

SMA 600 Independent Study or Research (*).

SMA 700 Master's Thesis (*).

Oceanography

OCEAN 101 Survey of Oceanography (5) *NW* Strickland Holistic view of fundamental principles of ocean science; the geography and geology of ocean basins; chemistry of sea water; physical dynamics of currents, waves, and tides; coastal processes; and the biology of diverse ecosystems such as deep sea vents, coral reefs, and estuaries. Intended for nonmajors. Offered: A.

OCEAN 102 The Changing Oceans (5) *I&S/NW* Historical case studies of research on the ancient oceans, deep-sea exploration, climate change and the oceans, and human impacts on marine life. Students consider societal factors affecting progress in marine science, changing popular attitudes toward the oceans, and key current policy implications of marine science. Intended for nonmajors. Offered: W.

OCEAN 115 Astrobiology: Life in the Universe (5) *NW* Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with ASTBIO/ASTR/ESS 115/BIOL 114.

OCEAN 200 Introduction to Oceanography (3) *NW* Armbrust Description of the oceans. Emphasis on relations of biology, chemistry, geology, and physics in marine environments. Examination of relationships and interactions at macro-, meso-, and microscales in the ocean. Intended for science majors. Offered: Sp.

OCEAN 210 Ocean Circulation (3) *NW* The large-scale circulation of the ocean. Topics include temperature-salinity analysis; water mass identification; water, salt, and heat budgets; chemical tracer distributions; advection and diffusion. Prerequisite: either Ocean 101 or Ocean 200; either PHYS 114 or PHYS 121. Offered: A.

OCEAN 220 Introduction to Field Oceanography (3/5) *NW* Design and conduct a field study in oceanography. Field trip required (usually during Spring break). Focus on active learning, deployment of instruments, data collection, interpretation, and presentation. Honors section incorporates additional field experimentation and study in marine biology. Writing class. Prerequisite: either OCEAN 210 or OCEAN/FISH 250, BIOL 250. Offered: Sp.

OCEAN 230 Rivers and Beaches (3/5) *NW* *Montgomery, Nittrouer* Introduction to Earth surface environments, the processes that shape them, how humans affect them and are affected by them. Weekend field trips examine mountains, rivers, deltas/estuaries, beaches, and environments beyond. Focus on linkages between these environments to illustrate coupling between

landscapes and seascapes. Offered: jointly with ESS 230.

OCEAN 250 Marine Biology (3/5) *I&S, NW* Lecture-laboratory course in Marine Biology focusing on physical, biological, and social aspects of the marine environment. Topics include oceanography, ecology, physiology, behavior, conservation, fisheries, exploration, and activism. Evening marine biology movies and weekend field trip. Honors section research project. Offered: jointly with BIOL/FISH 250.

OCEAN 260 The Puget Sound Ecosystem (3/5) *I&S/NW* Examines historical human impacts on the land/water ecosystem of the Puget Sound, roles of regional governance and citizen action, and prospects for ecological restoration. Computer labs and field trips for additional credit. Offered: jointly with ENVIR 260.

OCEAN 300 Study Abroad Marine Sciences (1-12, max. 12) *Robigou* For participants of Marine Language Exchange Scholarship Program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements without approval. Offered: AWSpS.

OCEAN 310 The Puget Sound Nearshore: Processes and Problems (3) *I&S/NW* An introduction to the geology, ecology, and politics of Puget Sound beaches. Content focuses on beach formation and sediment dynamics, with application to nearshore ecology and shoreline management. Three field trips to local beaches complement topics discussed in class.

OCEAN 351 Field Investigations in Marine Biology (5) Evaluates the relationships between man and marine systems in a field-oriented class. Case studies directly investigate marine biology. Studies include human activities and our effects on marine species and communities. Multiple field trips, lectures, and labs. Prerequisite: FISH 350/OCEAN 350. Offered: jointly with FISH 351; Sp.

OCEAN 360 Marine Field Research (10) *NW,QSR* *Scott Veirs, Val Veirs* Intensive off-campus marine research experience. Includes 5 weeks designing a field experiment and a 5-week cruise aboard a sailing research vessel to implement it. Offered: jointly with OCEAN 365; ASp.

OCEAN 365 Practicing Sustainability Science (8) *I&S/NW* *Scott Veirs, Val Veirs* Intensive off-campus experience. Studies sustainability science, marine policy, and "clean" technologies. Includes interaction with community stakeholders for 5 weeks and experimentation with sustainable technologies and practices in the marine environment during a 5-week cruise aboard an energy-efficient sailing catamaran. Offered: jointly with OCEAN 360; ASp.

OCEAN 400 Chemical Oceanography (4) *NW* Physical and chemical properties of seawater and marine products; processes determining the chemical makeup of the oceans. Prerequisite: either CHEM 150, CHEM 152, or CHEM 155; either OCEAN 202 or OCEAN 210. Offered: W.

OCEAN 401 Special Topics in Chemical Oceanography (3) *NW*.

OCEAN 410 Marine Geology and Geophysics (4) *NW* Sedimentological and petrologic processes that determine the geologic record. Prerequisite: either ESS 101 or ESS 210. Offered: A, jointly listed with ESS 410.

OCEAN 411 Special Topics in Marine Geology and Geophysics (3) NW

OCEAN 420 Physical Processes in the Ocean (4) NW Physical properties and processes of the ocean: methods of describing ocean currents, waves, tides and mixing and their effect on movement of water parcels. Prerequisite: either PHYS 116 or PHYS 123; either MATH 126, MATH 129, MATH 146, or Q SCI 293; either OCEAN 202 or OCEAN 210. Offered: W.

OCEAN 421 Special Topics in Physical Oceanography (3) NW

OCEAN 422 Ocean Dynamics (3) NW Equations of motion governing flow of sea water. Conservation of mass, tracers, heat and momentum. Energy and vorticity balance. Buoyancy and rotational effects. Scale analysis. Applications to upper ocean dynamics, surface and internal waves, and wind-driven currents in the ocean. Prerequisite: MATH 126; PHYS 123; OCEAN 420. .

OCEAN 423 Ocean Circulation and Climate (3) NW Quantitative treatment of ocean basin to global scale ocean circulation systems and their interaction with climate variability. Prerequisite: PHYS 123; either MATH 126 or MATH 129; OCEAN 401.

OCEAN 430 Biological Oceanography (4) NW Marine organisms, their quantitative distribution in time and space and their interactions with the ocean. Prerequisite: either BIOL 102, BIOL 203, or BIOL 220; either OCEAN 202 or OCEAN 210. Offered: A.

OCEAN 431 Special Topics in Biological Oceanography (3) NW

OCEAN 442 Oceanography of the Puget Sound (3) NW Explores the role of oceanography in regional issues. Field opportunities and active investigation of applied oceanographic problems. Lectures, research trip, student co-teaching, discussion. Prerequisite: either CHEM 221, BIOL 203, BIOL 220, ESS 210, or GEOL 205; either OCEAN 430 or OCEAN 433. Offered: A.

OCEAN 443 Design of Oceanographic Field Experiments (3) NW Case histories, presentations, and class exercises used to teach methods of formulating a research problem and proposal writing. Methods of data analysis, presentation, error estimation, library resource and data base use; web page implementation and design. Principles of cruise planning. Prerequisite: OCEAN 400; OCEAN 410; OCEAN 420; OCEAN 430; OCEAN 442. Offered: W.

OCEAN 444 Advanced Field Oceanography (5) NW Conduct field experiment (designed in OCEAN 443) during a week-long cruise aboard a research vessel. Analyze samples data and present results in a series of drafts and a final term paper. Results are presented at a two-day-long public research symposium and on the students' individual Web sites. Prerequisite: OCEAN 443. Offered: Sp.

OCEAN 450 Climatic Extremes (4) NW Course examines earth history for extreme climatic conditions to predict future climate changes. Numerical climate models use PC-based computer programs to identify processes and feedbacks that control climate. Prerequisite: MATH 125, MATH 145, or Q SCI 292; and PHYS 115 or PHYS 122.

OCEAN 451 Fluid Dynamics Laboratory (4) NW Individual projects in experimental fluid dynamics with applications to practical problems. Experimental design, visualization, and measurement techniques applied to a problem selected by each student. Prerequisite: PHYS 123.

OCEAN 452 Spatial information Technologies in Ecosystem Sciences (3) NW *Logsdon* Introduction to the use of GPS, GIS, and Remote Sensing in the ecosystem sciences. Integrates these technologies in an applied research setting. Two overnight weekend field trips required. Offered: jointly with FISH 453; A.

OCEAN 454 Hydrothermal Systems: An Interdisciplinary View (3) NW *Lilley* Provides a general, interdisciplinary overview of seafloor hydrothermal systems including important geological, chemical and biological processes. Topics include tectonic and volcanic controls on hydrothermal systems, water/rock reactions, phase separation, temporal variability, fluxes to the deep sea, micro- and macro biology. Offered: Sp.

OCEAN 499 Undergraduate Research (1-15, max. 24) Research on assigned topics that may involve laboratory work, fieldwork, or literature surveys. Offered: AWSpS.

OCEAN 500 Current Problems in Oceanography (1) Discussion of research topics that are currently being investigated within the school. Credit/no credit only. Prerequisite: permission of instructor. Offered: AW.

OCEAN 501 Estuarine Circulation and Mixing (3) Observed patterns of currents, mixing, and stratification from deep fjords to shallow coastal plain estuaries. Physical understanding of basic processes, such as tides, wind stress, topographic effects on turbulence, sill hydraulics, and exchange flow. Vertical mixing and residence times important to biological and pollution studies. Prerequisite: permission of instructor.

OCEAN 506 Interdisciplinary Seminar in Oceanography (1-3, max. 12) Lectures, discussions, and work on selected problems of an interdisciplinary nature. Prerequisite: permission of instructor.

OCEAN 509 Seminar (1) Introduction to current research topics for beginning graduate students. Credit/no credit only. Offered: AWSp.

OCEAN 510 Physics of Ocean Circulation (3) Structure of ocean basins; physical properties of seawater and the equation of state; heat, salt, fresh water budgets; tidal potential; Coriolis effect and geostrophic balance; major current systems and water masses; mixing, stirring in the ocean; simple waves; modern experimental methods in physical oceanography. Prerequisite: permission of instructor. Offered: A.

OCEAN 511 Introduction to Fluid Dynamics (4) Eulerian equations for mass-motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress-strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high-low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisite: AMATH 403 or permission of instructor. Offered: jointly with AMATH/ATM S 505; A.

OCEAN 512 Geophysical Fluid Dynamics I (4) Dynamics of rotating stratified fluid flow in the

atmosphere/ocean and laboratory analogues. Equations of state, compressibility, Boussinesq approximation. Geostrophic balance, Rossby number. Poincare, Kelvin, Rossby waves, geostrophic adjustment. Ekman layers. Continuously stratified dynamics: Inertia-gravity waves, potential vorticity, quasigeostrophy. Prerequisite: OCEAN 511 or ATM S/AMATH 505. Offered: jointly with ATM S 509; W.

OCEAN 513 Geophysical Fluid Dynamics II (3) Theories, models of large-scale dynamics of oceans, atmospheres. Potential vorticity, Q principles; Rossby waves, ray tracing, Green's function, setup of general circulation; atmospheric "channels" versus ocean "basins"; wave-mean flow interaction, mountain drag, internal momentum flux; "Lagrangian" motion of particles, tracers; cascades, eddy flux of heat, moisture, Q. Prerequisite: OCEAN 512. Offered: Sp.

OCEAN 514 Waves (3) Application of marine hydrodynamics principles to wave motion in oceans. Offered: W.

OCEAN 515 Ocean Circulation: Observations (3) Modern large- and mesoscale ocean observations, interpreted in terms of contemporary circulation theories. Spectrum of temporal variability; eddies and eddy fluxes; ventilation; advection and diffusion in the abyss; transports of heat and salt; climatic scale of variability; modern methods for determining circulation. Prerequisite: OCEAN 510 or permission of instructor. Offered: Sp.

OCEAN 516 Ocean Circulation: Theories (3) Hydrodynamic theories concerning origin and characteristics of major ocean currents. Prerequisite: OCEAN 512 or permission of instructor.

OCEAN 517 Methods and Measurements in Physical Oceanography (2) Principal instruments and experimental methods of physical oceanography. Devices and systems that measure pressure, temperature, electrical conductivity, sea state, and velocity. Prerequisite: permission of instructor. Offered: alternate years.

OCEAN 519 Seminar in Physical Oceanography (1, max. 9) Discussion of selected problems of current interest in physical oceanography. Prerequisite: OCEAN 510 or permission of instructor.

OCEAN 520 Marine Chemistry (3) Processes controlling the chemical composition of seawater. Chemical distributions in the ocean, marine physical chemistry, chemical equilibrium, and concepts of mass balance. Mechanisms and models used to explain distributions of stable and radioactive isotopes, gases, trace metals, and biochemicals in the world's oceans. Offered: A.

OCEAN 521 Aquatic Chemistry (3) Application of physical chemistry and thermodynamics to processes that control chemical composition of natural waters. Equilibrium approach. Acid/base chemistry, the carbonate system, dissolution and precipitation, metal ions in solution, oxidation-reduction chemistry, silicate mineral reactions. Prerequisite: OCEAN 520 or permission of instructor. Offered: A.

OCEAN 522 Marine Organic Geochemistry (3) Sources, reactions, and fates of organic molecules in the marine environment along with the stable isotope geochemistry of marine organic substances. Prerequisite: CHEM 237 and CHEM 239 or permission of instructor.

OCEAN 523 Geochemical Cycles (4)

Descriptive, quantitative aspects of earth as biogeochemical system. Study of equilibria, transport processes, chemical kinetics, biological processes; their application to carbon, sulfur, nitrogen, phosphorus, other elemental cycles. Stability of biogeochemical systems; nature of human perturbations of their dynamics. Prerequisite: permission of instructor. Offered: jointly with CHEM 523 and ATM S 508.

OCEAN 524 Environmental Chemical

Modeling (3) *Benjamin, Murray* Physical/chemical principles controlling the fate and distribution of environmental pollutants, and use of models to apply those principles. Includes modeling of physical transport in conjunction with chemical equilibrium and reaction kinetics. Applications include acid mine drainage, acid deposition, and groundwater and lake water contamination. Offered: jointly with CEE 550.

OCEAN 529 Seminar on Chemical Oceanogra-

phy (*, max. 9) Lectures, discussions, and readings on selected problems of current interest. Prerequisite: permission of instructor. Offered: AWSp.

OCEAN 530 Biological Oceanography:

Bacteria and Protozoa (3) Bacteria in the marine environment; fate of organic carbon in the ocean and the interrelationship of the carbon cycle with other biogeochemical cycles. Prerequisite: permission of instructor. Offered: W.

OCEAN 531 Biological Oceanography:

Phytoplankton (3) Phytoplankton in the marine environment: ecology, primary productivity, and physiology. Phytoplankton growth and photosynthetic patterns; spatial and temporal distributions of phytoplankton; methods for determining distributions and rates of production and growth. Prerequisite: permission of instructor. Offered: W.

OCEAN 532 Biological Oceanography:

Zooplankton (3) Distribution and abundance of pelagic animals in space and time; analysis of their interactions. Small-scale distributions and behavior, population dynamics and energetics, trophic structure and dynamics, pelagic community structure, models of populations and food chains, secondary production and biogeography. Prerequisite: permission of instructor. Offered: Sp.

OCEAN 533 Biological Oceanography:

Benthos (3) Analysis of marine benthic communities; new research questions and method; ecologically important physics of benthic boundary layer; theories, mechanics, and observations of deposit feeding; succession as consequence of physical processes and biological interactions. Environments include deep-sea, continental shelves, estuaries, and intertidal, focusing on soft substrata. Prerequisite: permission of instructor. Offered: Sp.

OCEAN 534 Methods and Measurements in

Biological Oceanography (2) Methods for bacteria, phytoplankton, and zooplankton population assessment. Rate measurements of phytoplankton, zooplankton, and bacterial production. Benthos measurements, including deep-sea environments. Prerequisite: permission of instructor.

OCEAN 535 Biological Oceanography: An

Overview (3) Principles and practice of biological oceanography for students with strong background in physical sciences but little recent exposure to biology. Ecological principles at

individual, population, and community levels; overview of discipline of biological oceanography; case studies of interdisciplinary problems shared with the physical sciences. Offered: W.

OCEAN 536 Seminar in Geostatistics (1-3,

max. 3) Lectures and discussions on selected problems in the applications of statistics in earth science.

OCEAN 539 Seminar in Biological Oceanogra-

phy (*, max. 9) Lectures, discussions, and work on selected problems of current interest. Prerequisite: permission of instructor. Offered: AWSp.

OCEAN 540 Marine Geological Processes (3)

McDuff, Russ Principles of thermodynamics, heat and mass transfer, fluid mechanics, continuum mechanics, and time-series analysis applied to marine geological and geophysical data with special applications to thermal balance of the oceanic lithosphere. Offered: W.

OCEAN 541 Marine Sedimentary Processes

(3) Investigates fundamental process of marine sedimentation, including equations characterizing boundary-shear flows, initiation of grain motion, bedload and suspended-load transport, and sediment accumulation. Applies concepts to sediment dispersal in rivers, deltas, estuaries, beaches, continental shelves, slopes, and rises, with emphasis on the relationships between active processes and resulting deposits.

OCEAN 542 Sediment Dynamics and

Boundary-Layer Physics (4) *Parsons* Theoretical descriptions of sediment transport processes constrained by laboratory demonstrations. The physics of boundary layers, initiation of motion, suspended load, bedload, bedforms, and continua transport (turbidity currents, debris flows, and suspensions) and its application to the geological record. Offered: jointly with ESS 526; W.

OCEAN 545 Physics of the Oceanic Lithos-

phere (3) Basic principles of elasticity, fluid flow, and heat transport with specific applications to the formation and evolution of the oceanic lithosphere. Includes deformation of the earth, flow in porous media, heat transport, and marine seismological and potential field techniques. Prerequisite: OCEAN 540. Offered: jointly with ESS 568.

OCEAN 546 Continental-Margin Sedimenta-

tion (3) Detailed evaluation of recent studies into processes forming strata on continental margins, including the diverse time scales ranging from sediment transport to sequence stratigraphy. Highlights the linkages with physical oceanographic processes, the fates of geochemical components, and the relationship to biological communities. Offered: jointly with ESS 527.

OCEAN 549 Seminar in Geological and

Geophysical Oceanography (*, max. 9) Lectures, discussions, and field and laboratory work on selected problems of current interest. Prerequisite: permission of instructor. Offered: AWSp.

OCEAN 550 Geochemistry and Geophysics of

Melt Generation (3) Mantle flow beneath mid-ocean ridges and hotspots, major element systematics, constraints from trace elements and isotopes on melting and mantle reservoirs, melt extraction, and crustal thickness and axial topography. Prerequisite: OCEAN 544 or permission of instructor. Offered: alternate years.

OCEAN 551 Marine Seismology (3) Practical application of seismic techniques to the study of the ocean basins. Analysis of refraction data, multichannel reflection profiling, surface wave studies, and earthquake analysis. Prerequisite: GPHYS 502 or permission of instructor. Offered: jointly with GPHYS 551.

OCEAN 552 Seminar in Geophysics and

Geological Data Analysis (1) Practical geophysical data analysis, map projections, gridding multibeam bathymetry processing, gravity and magnetic anomalies, downward continuation, magnetic inversion, seismic refraction and reflection, and microearthquake locations. Prerequisite: permission of instructor.

OCEAN 559 Advanced Seminar on Mid-Ocean

Ridge Processes (*, max. 9) Lectures, discussions, and practical work on selected topics of current interest in mid-ocean ridge research. Prerequisite: permission of instructor.

OCEAN 560 Atmosphere/Ocean Interactions

(3) Observations and theory of phenomena of the coupled atmosphere-ocean system. El Nino/Southern Oscillation; decadal tropical variability; atmospheric teleconnections; midlatitude atmosphere-ocean variability. Overview of essential ocean and atmospheric dynamics, where appropriate. Credit/no credit only. Prerequisite: ATM S 509 or OCEAN 512. Offered: jointly with ATM S 560; alternate years; Sp.

OCEAN 569 Topics in Physical Oceanography

(1-4, max. 9) Lecture series on topics of major importance in physical oceanography. Offered: AWSp.

OCEAN 570 Marine Microbial Interactions (1-

3, max. 9) Structure, function, and dynamics of natural mixed-species populations of marine bacteria and their interactions with higher organisms; mixed-species culture methods; synecological field methods; species assemblages in specialized environments; mutualisms; sites and patterns of genetic exchange. Prerequisite: OCEAN 530 or permission of instructor. Offered: alternate years.

OCEAN 571 Marine Primary Productivity (1-3,

max. 9) Patterns and mechanisms of marine phytoplankton primary production. Small-to-global-scale patterns of production; environmental regulation of production; absorption of electromagnetic radiation; fluorescence; carbon fixation; trophic interactions; remote sensing and other optical methods. Prerequisite: OCEAN 531 or permission of instructor. Offered: alternate years.

OCEAN 572 Zooplankton Ecology (1-3, max.

9) Life history strategies, dynamics and production of populations, vertical migration, interspecific interactions and community structure, models of complex assemblages of zooplankton, sampling methods and analysis, spatial heterogeneity. Prerequisite: OCEAN 532 or permission of instructor. Offered: alternate years.

OCEAN 573 Benthic Biological Processes (1-

3, max. 9) Processes characteristic of soft-bottom benthic environments; areas and methods of rapid current progress; open research questions; deposit feeding; passive larval recruitment; physical, chemical, geological, and biological feedbacks in ecological succession; scaling of laboratory systems. Prerequisite: OCEAN 533 or permission of instructor. Offered: alternate years.

OCEAN 574 Principles and Applications of Molecular Methods (3) Applications of molecular techniques to questions in ecology, evolution, and natural resource management, with emphasis on advanced genome-enabled technologies and the analysis and interpretation of genetic data. Includes weekly discussion of empirical papers, and preparation/peer-review of a proposal. Prerequisite: permission of instructor. Offered: jointly with FISH 542; A.

OCEAN 575 Molecular Techniques (4) Laboratory on DNA methods. Experiments analyzing genetic variation at the intra- and interspecific level, including one experiment of student's own design. Techniques include DNA extraction and quantitation, PCR, DNA sequencing, RFLP analysis and cloning. Prerequisite: FISH 542 or OCEAN 574 or permission of instructor. Offered: jointly with FISH 543; W.

OCEAN 578 Advanced Topics in Biological Oceanography (*, max. 18) Specialized research areas. Topic varies each year. Offered at Friday Harbor Laboratories. Prerequisite: permission of director of Friday Harbor Laboratories. Offered: S.

OCEAN 580 Aquatic Kinetics (3) Reaction rates and mass transport in water. Theories of chemical kinetics; experimental results from: CO₂ hydrolysis, Fe, Mn, and H₂S oxidation, stable isotope fractionation, mineral dissolution; homogeneous, heterogeneous, microbial catalysis; reaction and transport at air-water, sediment-water, and O₂/H₂S interfaces. Prerequisite: permission of instructor.

OCEAN 581 Geochemical Modeling (3) Background to modeling concepts frequently encountered in chemical oceanography: box models, advection-diffusion problems, sediment diagenesis equations, and boundary layer (air-water and sediment-water interface) models. Problems requiring application of the models to chemical distributions in the ocean. Prerequisite: permission of instructor.

OCEAN 582 River Basin Biogeochemistry (3) The function of rivers and river basins in transporting materials to the oceans and their

importance in biogeochemical cycles. Origin of water and water routing within drainage basins, sources and modification of dissolved and particulate materials in transport, ecological theory, and estuarine mixing zone transformations. Prerequisite: permission of instructor.

OCEAN 583 Isotope Biogeochemistry (3) The use of stable isotopes to study biogeochemical cycles in the oceans and atmosphere; specifically carbon, nitrogen, and sulfur cycles. Isotopic effects during photosynthesis, respiration, organic matter degradation. CaCO₃ dissolution, methanogenesis, nitrification/denitrification, and sulfate reduction. Prerequisite: permission of instructor.

OCEAN 584 Ocean Tracers and Mixing (3) The applications of tracers to studies of ocean circulation and ventilation. Processes within the ocean for which tracers have provided important information include gas exchange, mixed layer dynamics, thermocline ventilation, deep water formation and spreading, and mixing. Knowledge of partial differential equations suggested.

OCEAN 585 Paleooceanography (3) History of environmental changes on earth over the past 100 million years as reconstructed from records in deep-sea sediments, ice sheets, and other ocean/terrestrial substrates. Examination of isotopic, geochemical, micropaleontological, and dating techniques. Role of the ocean in climate change. Prerequisite: permission of instructor.

OCEAN 586 Current Research in Climate Change (2, max. 20) Weekly lectures focusing on a particular aspect of climate (topic to change each year) from invited speakers (both UW and outside), plus one or two keynote speakers, followed by class discussion. Offered: jointly with ATM S 586/ESS 586.

OCEAN 587 Climate Dynamics (3) *Hartman, Thompson* Examines Earth's climate system; distribution of temperature, precipitation, wind, ice, salinity, and ocean currents; fundamental processes determining Earth's climate; energy and constituent transport mechanisms; climate sensitivity; natural climate variability on interannual to decadal time scales; global climate models; predicting future climate. Offered: jointly

with ATM S 587/ESS 587. Offered: A.

OCEAN 588 The Global Carbon Cycle and Climate (3) *Quay* Oceanic and terrestrial biogeochemical processes controlling atmospheric CO₂ and other greenhouse gases. Records of past changes in the earth's carbon cycle from geological, oceanographic and terrestrial archives. Anthropogenic perturbations to cycles. Develop simple box models, discuss results of complex models. Offered: jointly with ATM S 588/ESS 588. Offered: W.

OCEAN 589 Paleoclimatology: Data, Modeling and Theory (3) *Battisti, Emerson, Steig* Evidence for past changes in land and sea surface temperature, in precipitation and atmospheric dynamics, and in ocean circulation: both long and interannual timescales. Paleoclimate modeling and theory. Time series analysis and climate noise. Rapid climate change. Statistical reconstruction of interannual variability. Offered: jointly with ATM S 589/ESS 589. Offered: Sp.

OCEAN 590 Advanced Topics in Oceanography (9-18, max. 18) Advanced topics examining specialized and interdisciplinary areas of oceanographic research. Offered at Friday Harbor Laboratories. Prerequisite: permission of Director of Friday Harbor Laboratories. Offered: S.

OCEAN 591 Marine Science in the Coastal Zone (3) *Klinger* Presentation and analysis of the marine science of estuarine, coastal, and open ocean systems, including evaluation and interpretation of scientific information necessary for management. Lectures, discussions, and readings emphasize the relevance of natural processes to marine environmental management and decision-making. Offered: jointly with SMA 591; A.

OCEAN 600 Independent Study or Research (*) Offered: AWSpS.

OCEAN 700 Master's Thesis (*) Offered: AWSpS.

OCEAN 800 Doctoral Dissertation (*) Offered: AWSpS.

School of Pharmacy

Medicinal Chemistry

MEDCH 400 Fundamental Concepts in Medicinal Chemistry (3) *W. Nelson* Principles of physical organic chemistry; chemical bonding, stereochemistry, acids/bases, and reaction mechanisms relevant to processes such as drug distribution, specificity, and metabolism. Prerequisite: either CHEM 239 or CHEM 337. Offered: A.

MEDCH 401 Immunizing and Antimicrobial Agents (4) *Daggett, Elmer* Chemical and biologic properties of agents used to prevent or treat infectious diseases, including diagnostic, prophylactic, and therapeutic uses of immunizing biologicals and spectrum, action mechanisms, resistance patterns, toxicity, and therapeutic applications of antibiotics, antifungals, and antivirals. Prerequisite: MICROM 301, MICROM 302, MEDCH 450, or equivalent, PharmD major, or permission of instructor. Offered: Sp.

MEDCH 402 Medicinal Chemistry (3) *S. Nelson* Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Offered: A.

MEDCH 403 Medicinal Chemistry (3) *W. Nelson, Rettie* Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Offered: W.

MEDCH 404 Medicinal Chemistry (3) *Atkins, W. Nelson* Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Offered: Sp.

MEDCH 420 Alternative and Complementary Medicines (2) *Elmer* Study of popular alternative and complementary medicines used in the United States. Focus on herbal products with some coverage of homeopathic and other non-nutritional dietary supplements. Demonstration of resources for current objective information on these controversial medicines. Credit/no credit only. Offered: A.

MEDCH 435 Diagnostic Medicinal Chemistry (3) *S. Nelson* Examination of clinical diagnostic tests with regard to the chemical or biochemical rationale of the testing method, interpretation of test results, and major factors influencing test values with special emphasis on the effects of medications. Clinical laboratory data from patients considered in light of these factors. Prerequisite: MEDCH 451 or BIOC 406 or equivalent, or permission of instructor. Offered: W.

MEDCH 450 Medicinal Biochemistry I (3) *Campbell, Kunze* Introduction to biochemistry for

Pharm.D. students with an emphasis on those aspects of biochemistry which are particularly relevant to understanding human disease and therapeutic intervention strategies. Offered: W.

MEDCH 451 Medicinal Biochemistry II (3) *Campbell, Kunze* Continuation of discussions of those aspects of biochemistry which are particularly relevant to understanding human disease and therapeutic intervention strategies. Offered: Sp.

MEDCH 495 Special Studies in Medicinal Chemistry (*, max. 6) Opportunity to expand the breadth and depth of understanding in specific areas. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 499 Independent Study/Research (*, max. 24) Research problems in medicinal chemistry. Prerequisite: cumulative GPA of 2.50 and permission of instructor. Offered: AWSpS.

MEDCH 501 Advanced Medicinal Chemistry (4) *S. Nelson* Advanced study of the various classes of medicinal compounds, with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 502 Advanced Medicinal Chemistry (4) *W. Nelson, Rettie* Advanced study of the various classes of medicinal compounds, with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 503 Advanced Medicinal Chemistry (4) *Atkins, W. Nelson* Advanced study of the various classes of medicinal compounds, with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 520 Seminar (1, max. 15) Graduate students attend seminars and make one formal presentation per year while in residence; maximum of three presentations. Credit/no credit only. Offered: jointly with PCEUT 520; AWSpS.

MEDCH 521 Advanced Medicinal Chemistry (3) *Atkins, W. Nelson* Application of integrated data from the physical and biological sciences to problems of chemotherapy, including transport of drugs to site of action, biotransformation of drugs, interaction of drugs with enzyme systems, and recent advances in drug design. Prerequisite: CHEM 457, CHEM 531, and BIOC 442, or permission of instructor. Offered: Sp.

MEDCH 527 Drug Metabolism (4) *Rettie, Thummel* Considerations of the biochemical mechanisms for the biotransformation of drugs and foreign compounds. Includes reaction mechanisms, ultrastructural considerations, induction mechanisms, methodology, kinetics of inhibition and activation, steroid and amine metabolism. Offered: jointly with PHCOL 527; odd years; W.

MEDCH 528 Proteins in Therapy and Disease (2) *Atkins, Daggett* Examination of enzyme catalysis and of protein structure and dynamics. Principles applied to topics of therapeutic relevance including: peptides and proteins as drugs, structure-based drug design, drug metabolism, protein engineering, and role of mutant or incorrectly folded proteins in disease states. Prerequisite: comprehensive course in biochemistry or consent of instructor. Offered: even years; W.

MEDCH 530 Mass Spectrometry of Drugs, Toxicants, and Metabolites (3) *Howald* Current approaches to the combination of liquid chromatography with mass spectrometry for small molecules. Mass spectrometry of drugs, toxicants, metabolites. Emphasis on interpretation skills, with problem sets each week. Introduction to LC/MS instrumentation. Ionization methods appropriate for small molecules. Capillary LC/MS and capillary electrophoresis. Offered: odd years; Sp.

MEDCH 541 Mass Spectrometry Based Proteomics (3) Covers basics of sample preparation, data generation, instrumentation, ionization, and data interpretation of peptide tandem mass spectra manually. Uses database search engines and bioinformatics in systems biology related proteomics. Prerequisite: MEDCH 530 or permission of instructor. Offered: odd years; Sp.

MEDCH 550 Mechanistic Studies in Medicinal Chemistry (1) *S. Nelson* Discussion of research strategies and methods used to carry out studies of mechanisms of drug action, metabolism, and toxicities. Emphasis is on problem solving through theoretical and experimental approaches and on data analysis and interpretation. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 551 Flavin and Heme-Containing Monooxygenases (1) *Rettie* Discussion of research strategies and methodologies concerning the structure, function, and polymorphic expression of human monooxygenases, especially the cytochrome P450s and flavin-containing monooxygenases. Emphasis placed on experimental problem solving, data analysis, and presentation. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 552 Medicinal Chemistry Aspects of Drug Action and Drug Metabolism (1) *W. Nelson* Discussion of research strategies, methodologies, and literature concerning the mechanisms of drug action and drug metabolism, particularly as these apply to opiate drugs and beta blockers. Emphases placed on problem solving, data analysis, and presentation. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 553 Structure and Function of Macromolecular Protein Assemblies (1) *Atkins* Discussion of research strategies, methods, and current literature concerning macromolecular self-assembly processes and protein-protein interactions as they relate to biological specificity. Emphasis on experimental approaches used in current literature. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 554 The Mechanism of Action and Pharmacokinetics of Biotherapeutic Agents and Other Natural Products (1) *Elmer* Discussion of the literature, research possibilities, and questions that need to be addressed in the area of the application of microorganisms and other natural products for therapeutic purposes. Emphases on problem solving, research strategies, literature evaluation, and data analysis. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 555 Current Topics in Biological Mass Spectrometry (1) *Goodlett* Emphasis on applications in the area of protein toxins, bioactive peptides, and microbial diseases and on current developments in the use of small scale separations with mass spectrometry. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 556 Mechanistic Aspects of Drug Metabolism (1) Discussion of research strategies methodologies and new approaches with regard to elucidating the chemical mechanisms and enzymology of metabolic reactions catalyzed by cytochrome P-450. Emphasis on trying to develop in vitro techniques which are predictive of in vivo drug behavior. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 557 Molecular Modeling Studies of Medicinal Chemistry (1) *Daggett* Discussion of research strategies, simulation methodologies, and literature concerning protein and peptide structure, function, dynamics, and folding. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

MEDCH 558 Human Cytochrome P-450 Biochemistry (1) *Kunze* Presentation and discussion of research strategies and methodologies related to current problems in human drug metabolism by cytochrome P-450 enzymes. Emphasis on hypothesis testing and experimental problem solving in the areas of enzyme kinetics and mechanism. Credit/no credit only. Prerequisite: permission of instructor. Offered: even years; AWSpS.

MEDCH 559 Protein NMR Spectroscopy (1) *Campbell* Combines a comprehensive theoretical treatment of high resolution NMR spectroscopy with a practical description of the experimental techniques applicable to proteins and other biological macromolecules. Offered: AWSpS.

MEDCH 582 Topics in Medicinal Chemistry (1, max. 10) Discussion of pertinent articles from current literature. Offered: AWSp.

MEDCH 590 Doctor of Pharmacy Thesis (1) Writing intensive course in which students develop a high quality scientific paper that demonstrates grammatical and organizational excellence and the ability to critically evaluate biomedical literature. Credit/no credit only.

MEDCH 599 Cumulative Exams for Medicinal Chemistry (1) Quarterly cumulative examinations for graduate students. Credit/no credit only. Offered: AWSpS.

MEDCH 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSpS.

MEDCH 700 Master's Thesis (*) Credit/no credit only. Offered: AWSpS.

MEDCH 800 Doctoral Dissertation (*) Credit/no credit only. Offered: AWSpS.

Pharmaceutics

PCEUT 331 Pharmaceutical Formulation: Principles and Dosage Forms (4) *Bloedow, Lee, Mao, Unadkat, Wang* Physiochemical principles involved in formulating stable dosage forms suitable for human administration. Hands-on laboratory experience with formulating extemporaneous preparations routinely encountered in community and hospital pharmacies. Offered: A.

PCEUT 405 Clinical Pharmacokinetics (5) *Anderson, Levy* Basic principles of pharmacokinetics and their application to the clinical setting, including: single-dose intravenous and oral kinetics, multiple dosing, nonlinear pharmacokinetics, metabolite kinetics, pharmacogenetics, and the role of disease in drug clearance and dose requirements, and kinetics of drug-drug interactions. Prerequisite: PCEUT 331. Offered: W.

PCEUT 406 Biopharmaceutics and Drug Delivery (3) *Ho, Levy, Shen, Thummel* Basic principles of biopharmaceutics and drug delivery, and their application to therapeutics including oral and non-oral route of drug administration for traditional and biotechnology drugs. Fundamental principles related to assessment of bioavailability and bioequivalence, drug-drug and food-drug interactions for orally administered drugs. Prerequisite: PCEUT 405. Offered: Sp.

PCEUT 495 Special Studies in Pharmaceutics (*, max. 6) Opportunity to expand the breadth and depth of understanding in specific areas. Credit/no credit only. Prerequisite: Permission of instructor. Offered: AWSpS.

PCEUT 499 Undergraduate Research (1-6, max. 12) Research problems in drug disposition, drug targeting, and drug development. Prerequisite: Cumulative GPA of 2.5 and permission of the instructor. Offered: AWSpS.

PCEUT 501 Advanced Pharmacokinetics I (5) *Ho, Shen, Unadkat* Drug absorption, distribution, excretion, metabolism, and effects in mammalian systems. Compartmental model and model-independent approaches examined. Drug disposition studied in a physiologically realistic context taking nonlinear events into account. Aimed at development of innovative methods for data analysis and evaluation in biological systems. Prerequisite: PCEUT 405 or PCEUT 506, or permission of instructor. Offered: Sp.

PCEUT 502 Pharmacokinetics of Drug Metabolism (4) *Kunze, Levy, Thummel* Advanced study of drug metabolism pharmacokinetics. Topics emphasize linear and nonlinear metabolic clearance kinetics, metabolite kinetics, in vitro-in vivo predictions, and drug-drug interaction kinetics. Prerequisite: PCEUT 506. Offered: odd years; A.

PCEUT 503 Drug Transport and Delivery (4) *Ho, Hu, Mao, Shen, Unadkat, Wang* Provides advance knowledge of the physico-chemical and biological concepts underlying in vivo transport and delivery of drugs. Prerequisite: PCEUT 506. Offered: odd years; Sp.

PCEUT 506 Pharmacokinetic Principles (2) *Thummel* Advanced study of pharmacokinetic concepts. Topics emphasize the physiological basis for mathematical models of drug distribution, clearance, and effect. Material

presented in a didactic format with additional interactive discussions. Offered: W.

PCEUT 508 Drug Discovery and Development (2) *Gardner, W. Nelson, Shen* Overview of steps that lead to the introduction of new pharmacologic agents for the treatment of disease. Included are the scientific underpinnings of drug discovery, preclinical evaluation, clinical trials, regulatory considerations, and outcomes research. Credit/no credit only. Prerequisite: Pharm D. student, graduate student, or permission of instructor.

PCEUT 510 Pharmacokinetics of Drug Interactions (3) *Levy, Shen, Thummel, Unadkat* Common pharmacokinetic mechanisms underlying the clinically important interactions between drugs. Interactions involving gastrointestinal absorption, serum drug protein binding, excretory and metabolic clearance processes are discussed. Prerequisite: PCEUT 405 or equivalent. Offered: A.

PCEUT 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) *Eaton, Thummel* Addresses current DNA sequencing and genotyping approaches, and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Prerequisite: GENET 372 or equivalent. Offered: jointly with ENV H 513/PHG 513; A.

PCEUT 520 Seminar (1, max. 15) *Wang* Graduate students attend seminars and make one formal presentation per year while in residence; maximum of three presentations. Credit/no credit only. Offered: jointly with MEDCH 520; AWSpS.

PCEUT 534 Pharmaceutical Analysis (3) *Kalhorn* Methods of drug and metabolite analysis from biologic matrices. Emphasis on practical aspects of assay design, optimization, and validation. Approaches to troubleshooting both assay methodology and instrumentation problems are also covered. Credit/no credit only. Offered: W.

PCEUT 583 Topics in Pharmaceutics (1, max. 15) *Ho* Discussion of pertinent articles from current literature and recent laboratory results. Credit/no credit only. Offered: AWSp.

PCEUT 584 Pharmacokinetic Discussion Group (2) Student initiated discussions of pharmaceutics concepts in relation to current literature. Preparatory to departmental cumulative examinations. Credit/no credit only. Offered: S.

PCEUT 586 Pharmaceutical Biotechnology (2/3, max. 3) *Ho, Hu, Thummel* Current topics in pharmaceuticals and biotechnology focusing on transforming small molecules, proteins, and genes into therapeutic products. Includes new drug therapies, drug design, pharmacogenomics, molecular modeling, high throughput screen, production and stability considerations, and delivery systems of protein and gene therapeutics in relation to pharmacokinetic and therapeutic responses. Offered: Sp.

PCEUT 590 Doctor of Pharmacy Thesis (1) Writing intensive course in which students develop a high quality scientific paper that

demonstrates grammatical and organizational excellence and the ability to critically evaluate biomedical literature. Credit/no credit only.

PCEUT 598 Independent Research (*, max. 24)
Basic and clinical research problems in drug disposition and effect. Prerequisite: 2.5 GPA and permission of instructor. Offered: AWSpS.

PCEUT 599 Cumulative Exams for Pharmaceutics (1) Quarterly cumulative examinations for graduate students. Credit/no credit only. Offered: AWSpS.

PCEUT 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSpS.

PCEUT 700 Master's Thesis (*) Credit/no credit only. Offered: AWSpS.

PCEUT 800 Doctoral Dissertation (*) Credit/no credit only. Offered: AWSpS.

Pharmacy

PHARM 301 Self-Care Products and Practices (2) *Dawson, Murphy* Addresses a broad range of health concerns including how to identify common conditions amenable to self-care, select appropriate treatment options ranging from non-prescription to non-drug therapies, prevent adverse effects from the use of medications, adopt strategies encouraging healthier lifestyle habits, and learn the rationale behind conventional and alternative/complementary therapies.

PHARM 304 Profession of Pharmacy (3) *Pelham* Overview of the profession of pharmacy emphasizing practice opportunities and specialization. Introduction to clinical and ethics case evaluation techniques using the Pharmacist's Workup of Drug Therapy format. Off-site pharmacy visitation required. Credit/no credit only. Prerequisite: PHARM 309.

PHARM 305 Introductory Pharmacy Practicum (3) *O'Sullivan* Preparation and dispensing of prescriptions at Rubenstein Memorial Pharmacy in Hall Health Center or other selected community pharmacies. Designed for Pharm.D. students with little or no experience in pharmacy. Under direct supervision of clinical faculty and other licensed pharmacy preceptors. Credit/no credit only.

PHARM 309 Quantitative Methods I (3) *O'Sullivan* Instruction in methods essential for conducting pharmacy calculations, interpreting and evaluating data and literature related to pharmacy, and responding to drug information inquiries from health professionals and patients. Introduction to statistical concepts necessary for pharmacy course work.

PHARM 334 Pharmacy Practice (3) *Hammer* Introduces students to principles of contemporary pharmacy practice and pharmaceutical care. Lecture topics include pharmacy practice issues and general knowledge of common medications. Laboratory activities include prescription processing and problem solving, patient education, sterile products preparation, physical assessment, and other patient care activities. Prerequisite: PHARM 309, PCEUT 331.

PHARM 335 Dispensing Practicum (4) *O'Sullivan* Under preceptor supervision, students master competencies necessary for distributional responsibilities in the institutional and ambulatory care pharmacy practice settings. Credit/no credit only.

PHARM 402 Drug Therapy and the Media (2)
Review of media to provide a perspective on disease and drug therapy. Elements include drug discovery and development, clinical trials, the pharmaceutical industry, regulatory agencies, and socioeconomic consideration. Preparation of written and oral summaries of media reports. Offered: jointly with PCEUT 402.

PHARM 403 Chemical Dependency Concepts (2) *Kedzierski* Genesis of addiction: harm reduction strategies, legal and ethical considerations, medication management in the substance-abusing population, impaired pharmacist rehabilitation, community resources. Course offered to Pharm.D. professional students. Credit/no credit only.

PHARM 405 The Nature of Scientific Truth (2) *Hansten* Drawing on the wisdom of scientists and philosophers, discussion of the nature and limitations of scientific truth, using examples from the practice of pharmacy whenever possible. Emphasizes reasoning errors that are common in science, particularly those that involve the application of scientific information to clinical practice. Credit/no credit only.

PHARM 408 Managed Care Pharmacy: Principles and Practice (3) *Fullerton, Penna* Surveys the activities, tactics, and strategies used by managed care to deliver pharmacy services to their members. Includes: formulary development, clinical improvement programs, quality improvement measures, regulatory activities, contracting with pharmaceutical manufacturers, network management, financial issues, sales and market, and provider relations. Open to 2nd-, 3rd-, and 4th-year Pharm D students.

PHARM 409 Applied Pharmacokinetics (2) *Anderson, Bauer* Pharmacokinetics of specific drugs. Influence of age, weight, sex, and disease states on patient-specific dosage regimens emphasized. Advanced kinetic concepts are discussed and put into applied context. Prerequisite: PCEUT 405.

PHARM 410 Pharmacy and Women's Health (2) *Anderson, Gardner* Participants gain an overview of the specific up-to-date knowledge of gender-based medicine; an understanding of the implications of gender-based biology and the opportunity to evaluate new research that has implications for the prevention and management of diseases and conditions in women. Credit/no credit only.

PHARM 411 Medical Devices for Home Health Care (3) *Downing* Study of medical devices commonly provided by pharmacists to their patients, including their selection and adaptation for specific patient needs. Lectures include display and demonstration of actual devices.

PHARM 412 Nonprescription Drug Therapeutics (3) *Ellsworth* Overview of common classes of nonprescription drug therapeutics with an emphasis on case examples, patient assessment, non-drug adjunct therapy, product selection, and patient advice. Oral presentation required. Computer (internet) case discussion mandatory. Enrollment restricted to 2nd, 3rd, and 4th year Pharm.D. students.

PHARM 421 Foundations and Principles of Pharmacy Education (2) *Dawson, Hammer* Teaches principles of education that student educators and pharmacists can use in a multitude of educational environments. Focuses

on pharmacy education in general as well as instructional methods and teaching principles. Open to 2nd-4th-year PharmD students. Offered: A.

PHARM 431 Advanced Compounding Skills (1) *Hammer, Needham* Prepares the student to create unique, patient-specific pharmaceutical dosage forms used in contemporary pharmacy practice. Includes pre-readings and assignments, a didactic session and a laboratory session, and is offered over a weekend. Credit/no credit only. Prerequisite: PCEUT 331.

PHARM 436 Pharmacoeconomics, Genetics, and Healthcare (2) *Ramsey, Veenstra* Provides an introduction to outcomes research and economic evaluation related to pharmaceuticals and genetic technologies. Covers cost-effectiveness analysis and quality of life evaluation. Discusses the use of economic evaluation in healthcare to affect policy decisions.

PHARM 437 Chemical Dependency Issues in Practice (3) *Kedzierski* Emphasis on drug classes, pharmacologic management of abstinence and withdrawal, drug testing, drug use in pregnancy, treatment options and recovery, codependency and legal and ethical considerations. Credit/no credit only. Prerequisite: PHARM 403.

PHARM 438 Gerontological Communication Skills Seminar (2) *Dawson* Addresses special communication needs of the elderly, ranging from individualized patient counseling to patient advocacy through development and provision of pharmacy services. Communication techniques applicable to teaching, developing innovative services, supervising, motivating, conflict resolution, and interdisciplinary interactions are explored in lecture and laboratory. Credit/no credit only.

PHARM 439 Community Outreach Service (2) *Dawson* Work in assigned community services setting for a minimum of two hours per week to explore root causes of disability, cultural differences, professional values, community resources, and quality of life issues. Weekly seminars assist students in applying observations and experiences to pharmaceutical care.

PHARM 440 Human Behavior and Communication in Pharmacy (3) *Dawson* Focuses on how human behavior and communication influence the pharmacist's activities in designing, delivering, and managing patient-focused pharmaceutical care. Writing, listening, interviewing, teaching, and critical thinking as applied to pharmacy practice are emphasized.

PHARM 443 Pharmacy Teaching Practicum (2) *Dawson, Hammer* Allows students opportunity to apply learning about education in a mentored experiences. Students serve as assistant instructors in existing pharmacy courses or engage in other approved educational experiences. Prerequisite: PHARM 421. Offered: AWSpS.

PHARM 445 Pharmacy-Based Immunization Programs (1) *Hagel* Practical training in cholesterol, hypertension, bone density, and wellness assessment techniques, vaccine administration and management, and implementation of community-based public health programs. Following didactic and laboratory sessions students conduct screening and administer vaccines at community locations.

Offered following the first professional year.
Credit/no credit only. Prerequisite: MEDCH 401.

PHARM 447 Overview of Contraceptive Management (2) *Gardner* Didactic overview of contraceptive methods, fertility interventions, and medical abortions. Establishes forum for interactive discussion. Includes patient screening criteria and selection and monitoring outcomes of currently available barrier and hormonal methods of contraception and medical abortions. Open to all PharmD students, as well as other health science professional students.

PHARM 452 Contemporary Problems (1)
Discussion of current trends affecting the role of pharmacy in health-care delivery. Credit/no credit only.

PHARM 459 Pharmacy Ownership and Entrepreneurship (2) *Hammer* Discusses barriers to and benefits of independent pharmacy ownership. Describes the role, responsibilities and different management styles of the pharmacy owner. Evaluates differences with regard to purchasing an existing practice vs. starting a new practice. Explains legal considerations of ownership. Discusses how to create and the importance of a business plan. Offered: A.

PHARM 460 Principles of Professional Practice Management (2) *Downing* Emphasizes the major issues and barriers of providing pharmaceutical care in institutional and community pharmacies. Topics include evaluating workflow and facility design, complying with legal and safety standards, managing drug distribution services, payment for pharmacist services, human resource management and marketing pharmaceutical care services.

PHARM 463 Pharmacy Business Plan Development (1) *Downing, Gardner* Develops a business plan for purchasing an independent pharmacy. Prerequisite: PHARM 459. CR/NC only. Offered: WSp.

PHARM 468 Case Studies in Pharmaceutical Care (3, max. 9) *Dawson* Small groups of students work with an instructor to review cases illustrating various aspects of specific diseases: pathophysiology, clinical features, psychosocial factors, therapeutic interventions with emphasis on drug therapies, and community resources. Analytic reasoning, self-study skills, and knowledge are emphasized.

PHARM 478 Experiential Learning (1-6, max. 6) *O'Sullivan* Under faculty supervision, pharmacy students gain experience working on advanced practice projects, in a pharmacy practice setting, prior to the final year of the pharmacy program. Credit/no credit only. Prerequisite: satisfactory completion of the first quarter of pharmacy school.

PHARM 479 Quantitative Methods II (4) *Blough* Introduction to basic biostatistical concepts in the field of pharmacy. Prerequisite: PHARM 309.

PHARM 483 Institutional and Healthcare Systems Pharmacy Practice (2) *Somani* Presentation of topics regarding current contemporary institutions pharmacy practice. Discussion of new systems technology, home care programs, managed care, computer applications, budgeting, formulary systems, drug information services, intravenous admixture programs, quality assurance process, and patient oriented services.

PHARM 488 Elective Advanced Practicum (1-16, max. 40) *Plein* Advanced-level geriatric clinical pharmacy experience in institutional (hospital, nursing home, long-term-care facility) and ambulatory patient-care facilities under direct supervision of a clinical preceptor.

PHARM 490 Fluid and Electrolytes and Parenteral Nutrition (2) *Edwards* Principles of fluid and electrolyte therapy, including saline, water, and acid-base balance, carbohydrate, protein, lipid, vitamin, and mineral requirements in parenteral nutrition. Nutritional assessment, complications of parenteral nutrition, stability and compatibility of intravenous solutions, modifications of parenteral nutrition in pediatrics and specific disease states are also covered.

PHARM 491 Cancer Pharmacotherapeutics (2) *Kwok* Pharmacotherapy of cancer, covering supportive care (antibiotics, antiemetics, analgesics, nutrition) to the antineoplastic agents themselves. Specialists in each area serve as guest lecturers.

PHARM 492 Pharmaceutical Services for Long-Term Care (2) *Lam* Scope of pharmaceutical services for long-term care (LTC) and systems for services. Responsibilities of the pharmacist for distributive, administrative, and clinical pharmacy services for nursing homes and other long-term-care facilities. Economic considerations in provision of LTC pharmaceutical services, role of the consultant pharmacist for home-health-care organizations. Pharmaceutical services for independently living elderly.

PHARM 495 Special Studies in Pharmacy (*, max. 6) Special studies of professional topics in pharmacy. An opportunity to expand the breadth and depth of understanding in specific areas. Students undertake independent study under the individual direction of a faculty member.

PHARM 497 Drug Therapy for the Elderly (3) *Gray, Christiansen* Clinical application of drug knowledge in the treatment of disease in older adults with multiple comorbidities. Application of age-related changes in pharmacokinetics and pharmacodynamics in the selection and monitoring of drug regimens of older adults. Emphasis on problem solving, using case examples. Prerequisite: nurse practitioner students or permission of instructor.

PHARM 499 Independent Study/Research (*, max. 6) Applied pharmaceutical research problems. Credit/no credit only.

PHARM 502 Neonatal Drug Therapy (3) *Blackburn* Clinical applications of drugs used with acute and chronically ill preterm and term neonates. Review of neonatal pharmacotherapeutics. Examination of selected therapeutic agents in relation to indications, efficacy, therapeutic and adverse effects, monitoring parameters, and dosing principles in the neonate.

PHARM 503 Critical Care Pharmacotherapeutics (2) *Rohrs* Introduction to the application of critical care pharmacotherapy topics to patient care. Covers: hemodynamic principles, vasoactive medications, sedation/analgesia, acute respiratory failure, ACLS, shock, fluid management, acute renal failure, severe infections, ACS/AMI. Prerequisite: 3rd-year PharmD student, or approval by instructor.

PHARM 504 Topics in Drug Safety (1) *Gardner, Hazlet* Introduces current policy issues in the

area of safety of marketed pharmaceutical products and medical devices. Examines contemporary controversies and drug safety problems being addressed by regulatory agencies, pharmaceutical and medical device industries, academicians, policy makers, researchers, health care providers, consumers, and consumer advocates.

PHARM 506 Seminar in Pharmacy Education I (1) *Murphy, Odegard* Discussion of scholarship and teaching in pharmacy education, focusing on the critical evaluation of educational research. Designed in a journal-club format, students participate in small group discussions and write an analysis paper. Prerequisite: PHARM 421 or permission of instructor. Credit/no credit only. Offered: W.

PHARM 507 Seminar in Pharmacy Education II (1) *Hammer, O'Sullivan* Students lead discussion about current issues in pharmacy and higher education as well as critically evaluate educational research. Weekly seminar includes small group discussions and journal-club methods.. Prerequisite: PHARM 506 or permission of instructor. Credit/no credit only. Offered: Sp.

PHARM 509 Medical Literature Evaluation (2) *O'Sullivan* Introduction to the processes involved in the assessment of primary and tertiary medical literature. Students are required to read and critique medical literature. Classes are conducted in a journal club format.

PHARM 510 Contemporary Concepts in Clinical Nutrition Support (1) *Chan* Addresses current topics and concepts in clinical nutrition support. Topics include assessment and management of patients requiring specialized nutrition support, enteral nutrition, and parental nutrition. Prerequisite: biochemistry, anatomy and physiology, or permission of instructor. Offered: A.

PHARM 511 Current Topics in Immunology and Immunotherapeutics (2) *Hebert* Overview of the immune system and pharmacologic agents which modulate the immune response. Credit/no credit only. Prerequisite: second-, third-, or fourth-year Pharm.D. student or permission of instructor.

PHARM 512 Clinical Applications of Drug Interactions (2) *Horn* Discussion of the clinical evaluation and management of drug-drug interactions using patient situations. Focus on patient- and drug-related factors that predispose patients to adverse drug interactions, as well as clinical management of patients found to be at risk. Credit/no credit only. Prerequisite: third- or fourth-year Pharm.D. student.

PHARM 514 Primary Care Pharmacotherapeutics (3-4, max. 4) *Kirkness* Explores clinical applications and therapeutic issues for selected drug categories commonly used in primary care settings and across age groups. Selected drug categories defined by pharmacokinetics, indications for use, efficacy, therapeutic and adverse effects, monitoring parameters, dosing principles, common drug interactions. Patient education, socioeconomic, and behavioral factors emphasized.

PHARM 515 Pharmacotherapeutics for Acute/Critical Illness (3) *Landis* Analysis of issues that impact the assessment, prescription, and evaluation of pharmacotherapeutic regimens for patients who are acutely or critically ill. Current

research, clinical contextual considerations, and pharmacotherapeutic principles are emphasized as the basis for decisions relevant to the management of pharmacotherapy in acute care clinical practice.

PHARM 516 Certificate Program in Biomedical Regulatory Affairs (3) *Hazlet* Comprehensive overview of the knowledge and skills necessary to be an effective regulatory affairs and compliance specialist overseeing the design, development, testing, and production of drugs, biotechnology-derived therapeutics, and medical devices. Credit/no credit only.

PHARM 517 Certificate Program in Biomedical Regulatory Affairs (3) *Hazlet* Comprehensive overview of the knowledge and skills necessary to be an effective regulatory affairs and compliance specialist overseeing the design, development, testing, and production of drugs, biotechnology-derived therapeutics, and medical devices. Credit/no credit only.

PHARM 518 Certificate Program in Biomedical Regulatory Affairs (3) *Hazlet* Comprehensive overview of the knowledge and skills necessary to be an effective regulatory affairs and compliance specialist overseeing the design, development, testing, and production of drugs, biotechnology-derived therapeutics, and medical devices. Credit/no credit only.

PHARM 519 Pharmacotherapeutics for Infectious Disease and Infection (2) *Black* Analysis of pharmacotherapeutics to control infection and manage infectious disease through seminar discussion of cases, critical analysis of a pharmacotherapeutic regimen, and development of references to enhance students' clinical expertise. Emphasis on principles of anti-infective therapy, problem solving clinical cases with complex medication regimens, and identifying judicious pharmacotherapeutic plans.

PHARM 522 Current Topics in Acute Care Pharmacotherapy (1) Increase understanding and stimulate discussion in the current topics related to acute care pharmacotherapy. Students have opportunities to review the management of patients in the acute care setting through current cases presented by the instructors. Emphasizes interactive learning. May be taken alone or concurrently with PHARM 503.

PHARM 523 Survey of Biomedical Regulatory Affairs (3) *Hazlet* Overview of the knowledge, terminology, and skills necessary to be an effective regulatory affairs or compliance specialist in the design, development, testing and production of drugs, biotechnology-derived therapeutics, and medical devices. A class project is required. Offered: even years.

PHARM 532 Methods in Pharmaceutical Policy Analysis (4) *Hazlet*, Introduction to the tools used in and the framework and dominant contexts for pharmaceuticals policy development and analysis. Methods reviewed in a series of sessions presenting a specific method and case analyses involving pharmaceuticals development. Project and in-class presentation required. Prerequisite: graduate standing in pharmacy or permission of instructor.

PHARM 533 Pharmacoepidemiology (3) *Gardner, Heckbert* Overview of pharmacoepidemiology including drug development and approval; application of epidemiologic methods to study drug safety and effectiveness; exploration of the interplay between research and public policy; introduction

to resources for information about drugs; introduction to pharmacology principles pertinent to pharmacoepidemiology. Prerequisite: Graduate student or with permission. Offered: jointly with EPI 533.

PHARM 534 Economic Evaluation in Health and Medicine (3) *Patrick, Sullivan* Methods and techniques for evaluating costs and cost-effectiveness of health, medical, and pharmaceutical interventions. Emphasis on economic evaluation, decision analysis, and modeling techniques for resource allocation and decision making. Applications to technology assessment, health policy, clinical practice, and resource allocation. Prerequisite: permission of instructor. Offered: jointly with HSERV 583.

PHARM 535 Evaluating Cost and Outcomes in Health and Medicine 2 (3) *Patrick, Sullivan* Concepts and methods for evaluating cost and outcomes of health and medical interventions with a focus on cost-effectiveness analysis, pharmacoeconomics, health and quality of life assessment, resource allocation, and medical decision-making. Prerequisite: permission of instructor. Offered: jointly with HSERV 584.

PHARM 536 Principles of Publishing Clinical Evidence (2) *Cummings, Johnson, Olson* Explains advanced methodologic principles for improving the clarity of published clinical evidence. Students prepare and revise a 1000-word research letter for *The Lancet* using their own clinical evidence. Credit/no credit only. Prerequisite: permission of instructor. Offered: jointly with EPI 534.

PHARM 541 Health Care and Society (3) Introduction to health services and pharmacy practice designed for future health-care practitioners. Examines the history, organization, and effectiveness of the U.S. health-care system. Stresses the student's ability to adopt a broad perspective across health-care disciplines and traditional boundaries.

PHARM 543 Pharmacy Laws and Ethics (4) *Hazlet* Study of the laws regulating the practice of pharmacy. Professional liability, warranties, and contracts are discussed. Case studies of ethical considerations of pharmacy practice.

PHARM 544 Survey of Pharmacy Laws (1) *Hazlet* Prepare, discuss, present responses to assigned questions developed by faculty regarding laws governing pharmacy practice in the course of reviewing for the Multistate Pharmacy Jurisprudence Examination. Class meets for two consecutive Saturdays in March. E-mail and web-access required. Non-matriculated students by permission only. Credit / no credit only.

PHARM 549 Pharmacotherapeutics for Older Adults (3) *Gray* Clinical application of drug knowledge in the treatment of disease in older adults with multiple comorbidities. Application of age-related changes in pharmacokinetics and pharmacodynamics in the selection and monitoring of drug regimens of older adults. Emphasis on problem solving, using case examples. Prerequisite: PHARM 560; PHARM 561 or permission of instructor.

PHARM 550 Current Topics in Geriatric Pharmacotherapy (1) *Gray* Review primary medical literature to discuss contemporary issues related to geriatric pharmacotherapy. Credit/no credit only. Prerequisite: PHARM 509 or permission of instructor.

PHARM 560 Therapeutics I (10) *Black, McCune* Clinical application of drug knowledge in the treatment of disease. Emphasis on problem-solving, using case examples.

PHARM 561 Therapeutics II (9) *Bauer, Horn* Clinical application of drug knowledge in the treatment of disease. Emphasis on problem-solving, using case examples.

PHARM 562 Therapeutics III (9) Clinical application of drug knowledge in the treatment of disease. Emphasis on problem-solving, using case examples.

PHARM 568 Healthcare of Cancer Survivors (2) *Barry, McCune* Focuses on teaching the health science students about cancer survivorship issues. Discusses the health concerns of those who have been cured of their initial malignancy but are still at risk of long-term effects of chemotherapy, radiation, and surgery. Prerequisite: PHARM 560. Offered: jointly NURS 533; odd years, Sp.

PHARM 573 Laboratory and Functional Assessment: Geriatrics (1) *Lam* Application of laboratory data and functional assessment in planning care for older adults. Case study/seminar format in which students recommend appropriate tests, interpret test results, and gain experience in performing tests of function. Recommended: MEDCH 435 or permission of instructor. .

PHARM 574 Clinical Introductory Practicum (1) *O'Sullivan* Students spend three days in a patient care setting, under the guidance of preceptors or advanced students, as an introduction to the practicum experience. Credit/no credit only.

PHARM 575 Institutional Clinical Practicum (5, max. 15) *O'Sullivan* Under faculty supervision, fourth-year students provide pharmaceutical care in an inpatient environment. Credit/no credit only.

PHARM 576 Ambulatory Care Clinical Practicum (5, max. 15) *O'Sullivan* Under faculty supervision, fourth-year students provide pharmaceutical care in an outpatient environment. Credit/no credit only.

PHARM 577 Advanced Practicum (5, max. 40) *O'Sullivan* Under faculty supervision, fourth-year students gain experience in practice settings of their choice. Credit/no credit only.

PHARM 578 Advanced Elective Practicum (1-10, max. 20) *O'Sullivan* Faculty-supervised practica either in areas of traditional practice or in innovative practice plans designed by faculty and student. Objectives, activities, schedules, and lengths are site- and preceptor- specific. Credit/no credit only.

PHARM 579 Senior Care Practicum (1-6, max. 12) Under faculty supervision, fourth-year pharmacy students gain experience working with drug therapy regimens in the elderly. Prerequisite: acceptance to the pharmacy school's Geriatric Certificate program. Offered: AWSpS.

PHARM 586 Clinical Case Conference (2) *Bauer, Horn* Weekly pharmacotherapy case conference emphasizing current therapeutics and clinical decision making. Credit/no credit only.

PHARM 590 Doctor of Pharmacy Thesis (1)

Writing intensive course in which students develop a high quality scientific paper that demonstrates grammatical and organizational excellence and the ability to critically evaluate biomedical literature. Credit/no credit only.

PHARM 595 Special Studies in Pharmacy (1-6, max. 24)

Special studies of professional topics in pharmacy. An opportunity to expand the breadth and depth of understanding in specific pharmaceutical areas. Students may undertake independent study under the individual direction of a faculty member. Credit/no credit only.

PHARM 596 Seminars in Pediatric Pharmacotherapy (2) Weber, Sawyer

Overview of drug

disposition and medication utilization as it applies to the pediatric patient. Specific emphasis on neonatology and ambulatory pediatrics. Credit/no credit only. Prerequisite: third-year Pharm.D. student or permission of instructor.

PHARM 597 Graduate Seminar (1) Blough,

Gardner, Hazlet, Sullivan, Veenstra Interactive discussion of topical issues, methods, or analytic techniques. Topics vary. Credit/no credit only. Prerequisite: graduate program student.

PHARM 598 Case Conference: Geriatrics (1)

Plein Students taking geriatric pharmacy clerkships in various clinical settings meet with faculty to present case studies of elderly patients

requiring complex drug therapies. Credit/no credit only. Prerequisite: Pharm.D. fourth-year practicum in geriatrics or general medicine.

PHARM 599 Independent Study/Research (1-6, max. 24)

Applied pharmaceutical research problems. Credit/no credit only.

PHARM 600 Independent Study or Research (*)

Credit/no credit only.

PHARM 700 Master's Thesis (*)

Credit/no credit only.

PHARM 800 Doctoral Dissertation (*)

Credit/no credit only.

Evans School of Public Affairs

Public Affairs

PB AF 499 Topics in Public Policy (3-5, max. 6) I&S

Examines selected issues of importance in all areas of public policy. Focus on in-depth analysis of vital public policy issues and the integration of economic, political, and administrative perspectives on them. Offered: jointly with POL S 404.

PB AF 500 General Seminar (1, max. 9) .

PB AF 501 Legislative Relations (3) Studies role of legislative bodies in American public policy making. Builds on case studies and focuses on tactics, constraints, and options involved in working within a legislative process to achieve public policy goals.

PB AF 502 Political Management of Policy Process (3) Analyzes the issues which public managers address when they seek to make and implement public policy and programs. Pays particular attention to the institutional and political constraints on policy making and the skills needed to address them.

PB AF 503 Administrative and Executive Leadership (3) Nature of executive life in the public sector, the function of leadership in implementing, making, and changing policy. Leadership styles, the relation of leadership to its constituencies and communities.

PB AF 504 Leadership Ethics (3) Addresses the moral challenges facing leaders in the public and nonprofit sectors. Examines the values and virtues important to sustained ethical leadership as well as strategies to build strong institutional cultures and support ethical practices in institutions.

PB AF 505 The Law of Public Administration (3)

Legal framework of public administrative action in the United States, emphasizing constitutional requirements; operation of the administrative process; management of personnel, funds, and contracts; and judicial review of administrative activity.

PB AF 506 Ethics and Public Policy (3)

Teaches students to identify moral issues in public life. Special focus on the integration of moral concerns into public discussion in a manner which contributes to good policy and does not polarize issues. Discusses moral and political theory by focusing on contemporary cases and issues.

PB AF 507 Mediation and Negotiation as

Instruments of Public Management and Policy-Making (3) Possibilities offered by mediation and negotiation methods using a mixture of cases, readings, discussions, lectures, and guest speakers. Use of negotiation and mediation techniques to resolve disputes and disagreements over public-policy issues.

PB AF 508 Management Approaches to

Service Delivery (3) Examines how services can be delivered in a way that is responsive to the needs of those being served and maximizes the effective utilization of resources. Topics addressed include: needs assessment, process analysis, service strategy, sustaining the service organization, case management, and services integration.

PB AF 509 Managing People in Public and

Nonprofit Agencies (3) Emphasizes the role of the program manager rather than that of the personnel officer. Managing people within a variety of programmatic, bureaucratic, and political settings. Case studies form basis of class discussion, assignments.

PB AF 510 Foundations of Public Service in

American Democracy (1) Discusses the role of public service in the United States through examination of historical and institutional foundations of the U.S. political regime. Pays special attention to the structures of government and constitutional values and conflicts at the heart of the political system. Offered: A.

PB AF 513 Public Policy Analysis (3)

Production and use of analysis to support public policy decisions. Defining problems, devising alternative solutions, clarifying stakes in choices, predicting impacts of choices. Skills developed by working on specific policy problems. Assumes familiarity with statistics, microeconomic theory, and institutions and processes of American government. Prerequisite: PB AF 516 or permission of instructor. Offered: a.

PB AF 515 Decision Making for Public

Managers (3) Considers decision making from normative, prescriptive, and descriptive perspectives. Emphasizes individual decision making, with some discussion of organizational decision practice. Focuses on decision analysis; presents tools for structuring decisions; and considers the role of analysis as a basis for negotiation.

PB AF 516 Microeconomic Policy Analysis (3)

Ways in which microeconomic analysis can contribute to the analysis of public sector issues. Supply and demand, consumer and firm

behavior, competitive and monopoly markets, income distribution, market failure, government intervention. Policy applications of theory. Prerequisite: elementary economics. Offered: A.

PB AF 517 Economics of the Public Sector (3)

Methods of analyzing effects of public expenditures and taxes on behavior of individuals and firms, on economic efficiency, and on equity and distribution of income. Theory and practice of intergovernmental fiscal relations. Application of theory to formulation of public policy. Prerequisite: PB AF 516.

PB AF 519 Law and Economics (4)

Offered: jointly with LAW A 561.

PB AF 520 Intergovernmental Relations (3)

Comparative study of the issues involved in implementing government programs across multiple jurisdictions. Issues of accountability, feasibility, politics, and constitutional limits are examined by focusing upon various methods used to implement programs across federal, state, regional, and international jurisdictions.

PB AF 522 Public Budgeting and Financial

Management (3) Budgeting as a management process. Study of formulation and administration of government budgets, including role of budgeting in policy processes, approaches to budget formulation and analysis, development of the PPB approach, and aspects of budget administration, such as revenue estimating, allotment control, cost accounting. Prerequisite: PB AF 516 or permission of instructor. Offered: W.

PB AF 523 Financial Management in the

Public Sector (3) Exploration of the managerial uses of accounting and other processes of financial management in the public sector. Topics covered include: financial planning and control, fund accounting, cost accounting, asset accounting, internal controls, auditing, financial analysis, and financial reporting. Prerequisite: permission of instructor.

PB AF 526 Program Evaluation (3)

Theory, practice, and politics of evaluation, from simple feedback mechanisms to evaluation of large-scale ongoing programs and social experiments. Emphasis on applications of experimental and quasi-experimental evaluation. Case studies illustrate various types of evaluation. Prerequisite: background in quantitative methods.

PB AF 527 Quantitative Analysis I (3)

Two-quarter sequence explores how to formulate research questions, gain experience with conducting research, and learn how to assess

which statistical tools or research methods are appropriate to answer different types of policy or management questions. Covers probability, descriptive statistics, hypothesis testing, and confidence intervals. Prerequisite: graduate status in School of Public Affairs or permission of instructor. Offered: W.

PB AF 528 Quantitative Analysis II (3) Second quarter of a two-quarter sequence aimed at helping students become informed users and critical consumers of research and statistical analysis. Combines material on research design and data collection methods with tools for multivariate analysis. The multivariate analysis methods include correlation and an introduction to multivariate regression. Prerequisite: PB AF 527. Offered: Sp.

PB AF 529 Advanced Multivariate Analysis (3) *Klwitter* Prepares students for advanced work with multivariate methods in program evaluation and policy analysis. Includes a data project what results in a professional quality product; reading examples of professional work and presentations of methods and results Offered: A.

PB AF 530 International Affairs (3) Provides a broad understanding of international issues and United States policy. Students explore U.S. foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, development assistance, and the environment. Offered: jointly with POL S/SIS 534.

PB AF 531 Development Management in the 21st Century (3) Addresses organization, administration and evaluation in governmental and non-governmental agencies involved in development efforts. Students examine development strategies, alternative management approaches, and management skills such as budgeting, finance, human resource development and program evaluation. Other topics include communication, expatriate/local power imbalances, decentralization, community involvement, culture, and personnel issues.

PB AF 532 Managing Policy in a Global Context (3) Examines different policy environments leaders must address to achieve policy in comparative and international settings. Includes strategies, tactics, and frameworks needed to initiate and sustain policy dealing with authoritarian, democratic, liberal, and one-party states. Focuses on pressures from the international system and issues such as globalization.

PB AF 533 Economics of International Development (3) Introduction to sustainable international development and its physical, human, social, and natural capital components. Students examine the new growth theories and evidence, and their relationship to democracy, trade, and other policies and institutions. Topics include income distribution, poverty, and the environment.

PB AF 534 Rural Development: Economics and Policy (3) *Fletschner* Survey of current microeconomic questions related to well-being of rural people in developing countries. Strengthens the ability to design appropriate policy tools for rural development by enhancing understanding of economic theory and its applications to rural households and by reviewing findings. Offered: W.

PB AF 536 Program Evaluation in the Developing World (3) *Gugerty* Provides an overview of issues in the analysis and evaluation

of development projects focusing on the developing world with three themes: understanding and analyzing development programs, understanding and using the logic of impact assessment; identifying practical, field-based tools for monitoring and evaluation in low resource environments. Offered: Sp.

PB AF 537 Topics in International Affairs (3, max. 12) Examines topics of interest and import in foreign policy and international affairs. Focuses on the in-depth analysis of issues and the integration of economic, institutional, and political dimensions.

PB AF 538 International Organizations and Ocean Management (3) Survey of the manner in which international regimes and organizations attempt to manage and regulate the uses of the ocean. Primary emphasis is on the analysis of the effectiveness of regimes and of processes that support or constrain these organizations. Prerequisite: SMA 500 or permission of instructor. Offered: jointly with SMA 507.

PB AF 539 Values in International Development (3) *Fletschner* Examines and clarifies international development values, including underlying theories of justice on which they seem to be built, the ways in which they are justified to stakeholders, the general public, and impacts they have upon people, especially the poorest and most vulnerable. Offered: W.

PB AF 540 Integrated Public Management Sequence (3) Analyzes the institutional and political context of modern public management. Cases, readings, and discussion provide an integrated introduction to the major skills needed to successfully lead and manage government and nonprofit organizations. Offered: A.

PB AF 541 Integrated Public Management Sequence (3) Analyzes the institutional and political context of modern public management. Cases, readings, and discussion provide an integrated introduction to the major skills needed to successfully lead and manage government and nonprofit organizations. Prerequisite: PB AF 540. Offered: W.

PB AF 542 Integrated Public Management Sequence (3) Analyzes the institutional and political context of modern public management. Cases, readings, and discussion provide an integrated introduction to the major skills needed to successfully lead and manage government and nonprofit organizations. Prerequisite: 541. Offered: Sp.

PB AF 543 Public Leadership Seminar (3) Focus on the societal context of managerial life. Credit/no credit only. Prerequisite: permission of instructor. Prerequisite: graduate standing in Public Affairs Evening Degree Program. Offered: A.

PB AF 544 Public Leadership Seminar (1-3, max. 3) Integrated use of analytic and management concepts in the making of policy. Prerequisite: PB AF 543. Offered: W.

PB AF 545 Public Leadership Seminars (3) Provides a forum to reflect on the major dimensions of modern managerial leadership at the end of the program. Includes a team project working with outside clients or organizations. Prerequisite: PB AF 544.

PB AF 550 Management of Not-for-Profit Organizations (3) Focuses upon the roles

played by not-for-profit organizations in meeting the public good. Examines internal management issues such as structure, budget, and operations; and external issues such as board functions, legal status, marketing, media relations, and fund-raising.

PB AF 551 Public Management: Program Planning and Design (3) Policy context of planning and programming, the institutionalization of purpose, the planning process, activity design, work scheduling and measurement, and program evaluation.

PB AF 552 Public Arts Policy and Management (3) Role of government in arts. Range of public support at federal, state, and local levels; reasons for its development and viability. Nature, evolution, functions of public arts agencies in implementing arts policy; relation of such agencies to their constituencies. Seattle, King County, and Washington State serve as case studies.

PB AF 553 Financial Management in the Non-profit Sector (3) *Breitner* Provides an understanding of the financial framework on nonprofit organizations. Focuses on the financial principles of management of nonprofits, with an emphasis on financial reporting, strategic financial planning, managerial decision-making and budgeting. Offered: A.

PB AF 554 Nonprofit Organizations and Public Policy (3) Examines the changing role of nonprofit organizations in American society. Selected policy topics include privatization, for-profit/nonprofit competition, public-private partnerships, tax policy, and new sources of revenues.

PB AF 555 Topics in Nonprofit Management (3, max. 12) Examines various topics of public importance in nonprofit management. Integrates the political, managerial, and economic dimensions of these issues.

PB AF 560 Urban Affairs (3) Explores national/local urban policy concerning the major problems confronting cities and metropolitan regions today. Economic globalization, income inequality, and metropolitan decentralization shape the urban agenda, the context for urban policy, and the analytic focus of the course. A project allows the exploration of strategies for intervention. Offered: jointly with URB DP 560.

PB AF 561 Urban Economics and Public Policy (3) Examines the rationale for and consequences of public intervention in urban land, housing, and transportation markets through land use regulations such as zoning and urban growth boundaries, infrastructure investments, and fiscal policies to manage urban development and traffic. Prerequisite: PB AF 516 or equivalent. Offered: jointly with URB DP 561.

PB AF 562 Introduction to Neighborhood Planning and Community Development (3) Provides introduction to basic practices in neighborhood planning and community development, including theoretical/historical bases; developing neighborhood plans/projects; indicators and evaluation of neighborhood quality; community participation; institutional framework, ethical dilemmas, and professional roles. Addresses current issues, including Seattle's experience, NIMBYism, security, neighborhood character, housing segregation, environmental racism. Offered: jointly with URB DP 562.

PB AF 563 Seminar in Urban Planning and Policy (1) Seminar for students in the MPA/MUP concurrent degree program. Explores topics that intersect urban planning and policy, through exchange with faculty and professionals working in this arena. Focuses on developing thesis topics that explore this intersection. Offered: jointly with URBDP 563.

PB AF 565 Topics in Urban Affairs (3, max. 12) Examines various topics of public importance in urban policy. Integrates the political, managerial, and economic dimensions of these issues.

PB AF 569 Race and Public Policy (3) Analyzes the way in which the persistent problem of race is expressed in the formation and implementation of social and public policy.

PB AF 570 Social Policy Analysis and Management (3) Examines major institutions and programs in the human resources policy area: education, regulation of labor market, health care, income maintenance, social services. Discusses alternative policy instruments, analytic perspectives, intergovernmental issues, and management issues arising across policy areas. Explores challenges of linking services and clients across separate agencies.

PB AF 571 Education, The Workforce, and Public Policy (3, max. 6) Examination of policy issues involving education, training, the economy, and the development of the nation's human resources. Relationship between education, training, and work, underutilized workers, race and gender discrimination issues, and the role of education and training in economic development. Offered: jointly with EDLPS 563.

PB AF 573 Topics in Education and Social Policy (3, max. 12) Examines various issues of public importance in the areas of education and social policy. Focuses on in-depth analysis of relevant issues and the integration of the economic, administrative, and political dimensions of these issues.

PB AF 575 Public Policy Processes (5) Political science frameworks, approaches, and theories concerning development and implementation of public policies within American political systems. Governmental behaviors and processes, including rational, political, and bureaucratic models of governmental decision making; agenda-building processes; and normative perspectives concerning role of governmental entities.

PB AF 581 Information Technology and the Policy-Making Process (3) Demystifies information base for policy making in democracies. Examines theoretical and practical issues associated with information processing in the public sector. Considers role of new technologies in collecting, analyzing, and disseminating information with special attention to the relationship between these technologies and effective government service, public participation, and organizational accountability.

PB AF 582 News Media and Public Policy (3) Explores impacts of news coverage on public policy. Exposure to journalists' approaches to coverage of public affairs, as well as to strategies used by leaders of public/non-profit agencies to attract favorable coverage and minimize damaging coverage. Students learn techniques for assessing impacts of news coverage.

PB AF 585 Topics in Science, Technology, and Public Policy (3) Examines relationship between advancement of technical knowledge and pace of technological change, and public policies to induce or respond to these trends. Generic issues of government research, development, and personnel training programs are addressed. Applications of policy issues involving biomedical, communications, energy, environmental, transportation, and weapons technologies.

PB AF 586 International Science and Technology Policy (3) Seminar is designed: first, to analyze the relationships between research and development policy, capabilities, and national technological strategies for advanced industrial and less-developed countries; second, to deal with the international implications of particular technologies as countries try to make policy for them in regional and global organizations. Examples of specific technologies are chosen from such fields as space telecommunication, weather and climate modification, airline transportation, nuclear energy, and seabed exploitation.

PB AF 589 Risk Assessment for Environmental Health Hazards (3/4) Context, methodologies, types of data, uncertainties and institutional arrangements for risk assessment. Both qualitative and quantitative approaches to the identification, characterization, and control of environmental hazards to health emphasized through didactic and case studies. Offered: jointly with CEE 560/ENV H 577.

PB AF 590 Environmental Policy Processes (3) Presents background to establish the need for environmental policy. Explores in a comparative manner, examining both successes and failures, various strategies that have been used or proposed to protect the environment. Offered: jointly with CFR 592.

PB AF 591 Seminar in Resource Policy and Management (1) Introduction and orientation for concurrent degree program between the Evans School of Public Affairs and the College of Forest Resources. Examines research and literature on contemporary issues related to the integration of natural resource science, policy, and management, through discussion among faculty, students, and invited speakers. Offered: jointly with CFR 591.

PB AF 592 Resource Policy and Administration (5) Study based on understanding of the actors, arenas, issues, and policy communities that form the context for policy development and implementation. Exploration of approaches to policy inquiry. Consideration of implications for both policy and management. Students develop a study design for course project. Offered: jointly with CFR 571.

PB AF 593 United States Energy Policy (3) Energy policy formulation and implementation with emphasis on post-1973 developments. Energy conservation programs; changing roles of oil, coal, gas, nuclear, and solar energy; institutional, environmental and equity considerations; government research and development programs.

PB AF 594 Economic Approaches to Environmental Management (3) *Layton* Examines the economic tools relevant to natural resource and environmental management. Tools are developed in the context of a series of resource problems, with an eye towards building intuition useful for addressing complex policy

problems that do not fit neatly into textbook examples. Offered: W.

PB AF 595 Topics in Environmental Policy and Management (1-3, max. 12) Examines various topics of public importance in environmental policy and management. Integrates the political, managerial, and economic dimensions of these issues.

PB AF 596 Ethics and Values in Environmental and Natural Resource Policy (3) *Zerbe* Explores environmental values and ethics and their relationship to the policy process. Includes content on value foundation of economic efficiency and its relationship to fairness, legal entitlements, duty to other creatures, and incommensurabilities in valuing goods. Current policy controversies are addressed.

PB AF 597 Role of Scientific Information in Environmental Decisions (3) *Cullen, Snover* Examines how science contributes to decisions that involve the natural environment; how science and scientists help frame debates and decisions; how scientific findings are incorporated into decision-making processes; how scientists and non-scientists deal with uncertainty about scientific questions. Offered: Sp.

PB AF 598 Administrative and Policy Skills Workshop (1-3, max. 3) Teaches practical administrative, leadership, and analytic skills commonly required of managers and analysts in the public and non-profit sectors. The workshops emphasize hands-on problem resolution, simulations, and actual practice.

PB AF 599 Special Topics (1-6, max. 6) Study and analysis of special topics in public affairs. Topics vary each quarter depending on curricular needs and interests of students and faculty. Prerequisite: permission of instructor.

PB AF 600 Independent Study or Research (*)

PB AF 605 Degree Project ([1-6]-, max. 6) .

PB AF 606 Public Service Clinic (3-) *Carlson, Madison, Page* Serves to meet the degree project requirement as part of the Evans School curriculum. Students work in a supportive environment facilitated by peer and faculty to connect the research, organizational change, and capacity-building needs of community organizations and public agencies.

PB AF 607 Public Service Clinic (-3) *Carlson, Madison, Page* Serves to meet the degree project requirement as part of the Evans School curriculum. Students work in a supportive environment facilitated by peer and faculty to connect the research, organizational change, and capacity-building needs of community organizations and public agencies.

Public Affairs Executive MPA

PA EX 501 Strategic Leadership (5) Executive MPA foundation course. Introduces key concepts required to lead effectively in the public and nonprofit sectors, including: the authorizing environment, leadership, organizational cultures, strategic decision-making, the use of data in evaluation, strategic and operational planning, and placing the modern organization in regional and global economic context. Workshop participation.

PA EX 502 Partnership and Accountability (3)
Deepens the understanding of collaboration and partnerships in the public and non-profits sectors, including the importance of customer service, the value of teams, developing and managing a functional team, and creating accountability in frameworks for intergovernmental relations and governmental partnerships.

PA EX 503 Negotiation and Conflict Resolution (3)
Theory and practice of negotiation in two-party, multi-party, and multi-issue situations. Structural analysis, interest identification, positions, power and dependence, resolving disputes, finding mutual gains, perceptions of conflict and methods of resolution. Focuses on techniques and nuances of negotiation most useful to a manager working in a complex public service environment.

PA EX 504 Effective Communication (3)
Theory and practice of effective communication, including speech, memoranda, and working with broadcast media. Philosophy and ethics of persuasion in public and non-profit sectors,

psychology of compliance, advocacy and motivational facets of leadership. Continuation of power and dependence, perceptions of conflict and mutual gains from previous modules. Intensive workshop participation.

PA EX 505 Leading with Integrity (3) *Campbell, Macaluso*
Moral and ethical dimensions of leadership. Understanding diversity and developing multi-cultural competence and self-awareness. Expanding leadership capacity in others, including employees. Developing judgment and emotional intelligence, defining and earning public trust, and understanding complexity of leadership in the public sector. Continuation of leadership development, exercises, and assessments.

PA EX 506 The Performance Challenge (5) *Benson, Breitner, Klawitter*
Performance management, including performance measurement, as a framework for defining and achieving value in public and nonprofit organizations. Development and evaluation of policy alternatives. Use and interpretation of data for both

managerial decision making and policy agenda-setting, including decision analysis and interpretation of research results.

PA EX 507 Strategic Financial Management I (3) *GE Breitner, Smith*
Introduction to state and local public finance and nonprofit financial management and analysis. Political context and economic forces causing fundamental shift in sources of revenue and types of financing for public service. Fundamental concepts of financial statements, their nature and use in the public and nonprofit sectors.

PA EX 508 Strategic Financial Management II (3) *Breitner, Smith*
Second of two modules focusing on strategic financial management. Alternative forms of organizational financial structure. Analytic skills and managerial applications of financial accounting and budgeting, techniques of financial analysis, performance budgeting, debt management. Strategic finance linked to contracting, multiple forms of privatization, social enterprise, and managing multiple revenue streams.

School of Public Health and Community Medicine

Biostatistics

BIOST 111 Lectures in Applied Statistics (1)
NW Weekly lectures illustrating the importance of statisticians in a variety of fields, including medicine and the biological, physical, and social sciences. Contact instructor for information on which fields of applications emphasized. Credit/no credit only. Offered: jointly with STAT 111; Sp.

BIOST 290 Introduction to Biomedical Research: Study Design and Interpretation (3)
NW Biostatistical concepts necessary for the interpretation, evaluation, and communication of biomedical research are introduced. Course topics include biomedical study design, randomization, graphical data displays, control of bias, variability, confounding, interaction, and ethics of human experimentation. Students participate in group and individual projects, group discussions, and oral presentations.

BIOST 499 Undergraduate Research (*)
Supervised reading programs; library and field research; special projects. Credit/no credit only.

BIOST 502 Introduction to Statistics in Health Sciences (4)
Description and examples of common concepts in biostatistics. Probability, point and confidence interval estimation, hypothesis testing including two-sample and paired t and chi-square tests, introduction to simple linear regression. Examples in health sciences stressed. Offered: S.

BIOST 503 Application of Statistics to Health Sciences (4)
Standard statistical techniques presented with examples drawn from the health sciences literature. Critical interpretation of research results, and introduction to the computer for data processing and statistical analysis. Prerequisite: BIOST 502 or equivalent. Offered: S.

BIOST 509 Special Emphases in Biostatistics (3-5, max. 5)
Introduction to concepts and methods of descriptive and inferential statistics, with applications in specific disciplines emphasized. Topics include comparison of means and proportions, hypothesis testing, confidence intervals, nonparametric methods,

linear regression and correlation. Different sections target specific student populations.

BIOST 510 Biostatistics in Dentistry (3)
Introduction to concepts and methods of descriptive and inferential statistics with applications in dentistry emphasized. Topics include comparison of means and proportions, hypothesis testing, confidence intervals, non-parametric methods, linear regression, and correlation. Prerequisite: enrollment in School of Dentistry or permission of instructor. Offered: jointly with DPHS 568.

BIOST 511 Medical Biometry I (4)
Presentation of the principles and methods of data description and elementary parametric and nonparametric statistical analysis. Examples are drawn from the biomedical literature, and real data sets are analyzed by the students after a brief introduction to the use of standard statistical computer packages. Statistical techniques covered include description of samples, comparison of two sample means and proportions, simple linear regression and correlation. Offered: AS.

BIOST 512 Medical Biometry II (4)
Multiple regression, analysis of covariance, and an introduction to one-way and two-way analyses of variance: including assumptions, transformations, outlier detection, dummy variables, and variable selection procedures. Examples drawn from the biomedical literature with computer assignments using standard statistical computer packages. Prerequisite: either BIOST 511 or BIOST 517, or equivalent. Offered: W.

BIOST 513 Medical Biometry III (4)
Analysis of categorical data including two sample methods, sets of 2 x 2 tables, R x C tables, and logistic regression. Classification and discrimination techniques. Survival analysis including product limit estimates and the Cox proportional hazards model. Prerequisite: BIOST 512 or permission of instructor. Offered: Sp.

BIOST 514 Biostatistics I (4)
Mathematically sophisticated presentation of principles and methods of data description; graphics; point, confidence interval estimation; hypothesis testing; relative risk; odds ratio; Mantel-Haenszel; chi-square test (matrix algebra required).

Examples drawn from biomedical literature; real data sets analyzed using statistical computer packages. Prerequisite: biostatistics majors or permission of instructor. Offered: A.

BIOST 515 Biostatistics II (4)
Mathematically sophisticated introduction to linear models; multiple regression, correlation; residual analysis; dummy variables; analysis of covariance; one-, two-way analysis of variance; randomized blocks; fixed, random effects (repeated measure, factorial designs); multiple comparisons (matrix algebra required). Real biomedical data sets analyzed. Prerequisite: BIOST 514, biostatistics major, or permission of instructor. Offered: W.

BIOST 516 Statistical Methods in Genetic Epidemiology (3)
Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517, or permission of instructor. Offered: jointly with EPI 516/PHG 519.

BIOST 517 Applied Biostatistics I (4)
Introduction to the analysis of biomedical data. Descriptive and inferential statistical analysis for discrete, continuous, and right censored random variables. Analytic methods based on elementary parametric and non-parametric models for one sample; two sample (independent and paired), stratified sample, and simple regression problems. Offered: A.

BIOST 518 Applied Biostatistics II (4)
Multiple regression for continuous, discrete, and right censored response variables, including dummy variables, transformations, and interactions. Introduction to regression with correlated outcome data. Model and case diagnostics. Computer assignments using real data and standard statistical computer packages. Prerequisite: BIOST 517 or permission of instructor. Offered: W.

BIOST 519 Topics in Epidemiologic Methods (3) *Davis*
Introduces advanced methodologic methods, including recursive partitioning, developing clinical prediction rules, analyses of community-level associations or interventions,

case-crossover and case-only designs, propensity scores, two-stage sampling, and missing data imputation. Prerequisite: EPI 512; EPI 513. Offered: jointly with EPI 515. A.

BIOST 521 Biostatistics for Experimentalists

(4) Statistical aspects of design, data analytic models appropriate to classes of experiments most commonly employed in biomedical sciences. One-, two-way analyses of variance; factorial, crossed, nested, repeated measures designs. Clean, messy real-data sets analyzed using standard statistical computer packages. Prerequisite: either BIOST 511 and BIOST 512, or BIOST 517 and BIOST 518, or equivalent. Offered: alternate years; Sp.

BIOST 524 Design of Medical Studies (3)

Design of medical studies, with emphasis on randomized controlled clinical trials. Bias elimination, controls, treatment assignment and randomization, precision, replication, power and sample size calculations, stratification, and ethics. Suitable for graduate students in biostatistics and for research-oriented graduate students in other scientific fields. Prerequisite: BIOST 511 or equivalent, and one of BIOST 513, BIOST 518, STAT 421, STAT 423, STAT 512, or EPI 512; or permission of instructor. Offered: jointly with STAT 524; Sp.

BIOST 529 Sample Survey Techniques (3)

Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BIOST 511, or BIOST 517, or equivalent or permission of instructor. Offered: jointly with CS&SS 529/STAT 529.

BIOST 533 Classical Theory of Linear Models

(3) Introduction to one-, two-way analysis of variance; randomized blocks; fixed, random effects, multiple comparisons. Statistical distribution theory for quadratic forms of normal variables. Fitting of the general linear model by least squares. Prerequisite: BIOST 515, STAT 421 or STAT 423; and STAT 513; and a course in matrix algebra. Offered: jointly with STAT 533; Sp.

BIOST 534 Statistical Computing (3)

Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with STAT 534; Sp.

BIOST 535 Statistical Computing (3)

Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with STAT 535; A.

BIOST 536 Categorical Data Analysis in

Epidemiology (4) Summary of univariate categorical data analysis; introduction to multivariate analysis of categorical epidemiologic

data using multiplicative models. Experience at interpretation; familiarity with available programs gained by analysis of bona fide data, critiques of analyses appearing in literature. Prerequisite: BIOST 515; EPI 513 and either BIOST 513 or BIOST 518; or permission of instructor. Offered: jointly with EPI 536; A.

BIOST 537 Survival Data Analysis in

Epidemiology (4) Introduction to multivariate analysis of survival data using multiplicative models. Application to epidemiologic studies. Familiarity with interpretation and available computer programs gained by analysis of bona fide sets of data and critiques of analyses appearing in the literature. Prerequisite: BIOST 536 or permission of instructor. Offered: jointly with EPI 537; W.

BIOST 538 Statistical Computing (3)

Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with STAT 538; W.

BIOST 540 Correlated Data Regression (3)

Introduction to regression modeling of longitudinal and clustered data from epidemiology and health sciences. Interpretation and familiarity with available programs gained by analysis of *bona fide* data; critiques of analyses appearing in literature. Prerequisite: Either BIOST 513, BIOST 515, BIOST 518, BIOST 536, or permission of instructor. Offered: Sp.

BIOST 550 Statistical Genetics I: Mendelian

Traits (3) *Thompson* Mendelian genetic traits. Population genetics; Hardy-Weinberg, allelic variation, subdivision. Likelihood inference, information and power; latent variables and EM algorithm. Pedigree relationships and gene identity. Meiosis and recombination. Linkage detection. Multipoint linkage analysis. Prerequisite: STAT 390 and STAT 394, or permission of instructor. Offered: jointly with STAT 550; A.

BIOST 551 Statistical Genetics II: Quantitative

Traits (3) *Monks* Statistical basis for describing variation in quantitative traits. Decomposition of trait variation into components representing genes, environment and gene-environment interaction. Methods of mapping and characterizing quantitative trait loci. Prerequisite: STAT/BIOST 550; STAT 423 or BIOST 515; or permission of instructor. Offered: jointly with STAT 551; W.

BIOST 552 Statistical Genetics III: Design and

Analysis (3) *Wijsman* Overview of probability models, inheritance models, penetrance. Association and linkage. The lod score method. Affected sib method. Fitting complex inheritance models. Design mapping studies; multipoint, disequilibrium, and fine-scale mapping. Ascertainment. Prerequisite: STAT/BIOST 551; GENET 371; or permission of instructor. Offered: jointly with STAT 552; Sp.

BIOST 570 Advanced Applied Statistics and

Linear Models (3) Generalized linear models, REML in mixed models for randomized blocks, split plots, longitudinal data. Generalized estimating equations, empirical model building, cross validation, recursive partitioning, generalized additive models, projection pursuit. Prerequisite: STAT 512, 513; BIOST/STAT 533 or

STAT 421 and STAT 423, and a course in matrix algebra. Offered: jointly with STAT 570.

BIOST 571 Advanced Applied Statistics and Linear Models (3)

Generalized linear models, REML in mixed models for randomized blocks, split plots, longitudinal data. Generalized estimating equations, empirical model building, cross validation, recursive partitioning, generalized additive models, projection pursuit. Prerequisite: BIOST 570. Offered: jointly with STAT 571.

BIOST 572 Advanced Applied Statistics and

Linear Models (3) Generalized linear models, REML in mixed models for randomized blocks, split plots, longitudinal data. Generalized estimating equations, empirical model building, cross validation, recursive partitioning, generalized additive models, projection pursuit. Prerequisite: BIOST 571. Offered: jointly with STAT 572.

BIOST 573 Statistical Methods for Categorical

Data (3) Advanced topics in generalized linear models and the analysis of categorical data: overdispersion, quasilielihood, parameters in link and variance functions, exact conditional inference, random effects, saddlepoint approximations. Credit/no credit only. Prerequisite: BIOST 571 and STAT 582. Offered: jointly with STAT 573; alternate years; Sp.

BIOST 574 Multivariate Statistical Methods (3)

Use of multivariate normal sampling theory, linear transformations of random variables, one- and two-sample tests, profile analysis, partial and multiple correlation, multivariate ANOVA and least squares, discriminant analysis, principal components, factor analysis, robustness, and some special topics. Some computer use included. Prerequisite: BIOST 570 or permission of instructor. Offered: jointly with STAT 574; alternate years.

BIOST 576 Statistical Methods for Survival

Data (3) Statistical methods for censored survival data arising from follow-up studies on human or animal populations. Parametric and nonparametric methods, Kaplan-Meier survival curve estimator, comparison of survival curves, log-rank test, regression models including the Cox proportional hazards model, competing risks. Prerequisite: STAT 581 and either BIOST 515, STAT 473, or equivalent. Offered: jointly with STAT 576.

BIOST 577 Advanced Design and Analysis of

Experiments (3) Concepts important in experimental design: randomization, blocking, confounding. Application and analysis of data from randomized blocks designs, Latin and Graeco-Latin squares, incomplete blocks designs, split-plot and repeated measures, factorial and fractional replicates, response surface experiments. Prerequisite: BIOST 570 or STAT 421 (minimum 3.0) or permission of instructor. Offered: jointly with STAT 577.

BIOST 578 Special Topics in Advanced

Biostatistics (*, max. 3) Advanced-level topics in biostatistics offered by regular and visiting faculty. Prerequisite: permission of instructor. Offered: jointly with STAT 578; AWSpS.

BIOST 579 Data Analysis and Reporting (2)

Analysis of real data to answer scientific questions. Common data-analytic problems. Sensible approaches to complex data. Graphical and tabular presentation of results. Writing reports for scientific journals, research

collaborators, consulting clients. Graduate standing in statistics or biostatistics or permission of instructor. Offered: jointly with STAT 579; AWSp.

BIOST 580 Seminar in Biostatistics (*, max. 9) Presentation and discussion of special topics and research results in biostatistics. Speakers include resident faculty, visiting scientists, and advanced graduate students. Offered: AWSp.

BIOST 586 Martingales: Survival Analysis (3) Theory of counting processes and martingales to provide unified study of survival analysis methods. Focus on survival distribution estimators, censored data rank statistics, regression methods with censored survival data. Development of small samples moments, asymptotic distributions, and efficiencies. Prerequisite: STAT 521 or STAT 583 or permission of instructor; recommended: STAT 576. Offered: jointly with STAT 586; alternate years; W.

BIOST 590 Biostatistical Consulting (*) Training in consulting on the biostatistical aspect of research problems arising in the biomedical field. Students, initially under the close supervision of a faculty member, participate in discussions with investigators leading to the design and/or the analysis of a quantitative investigation of a problem. With experience, independent associations of student and research worker are encouraged, with subsequent review by faculty of resulting design and analysis. Prerequisite: permission of instructor. Offered: AWSpS.

BIOST 593 Cancer Prevention Research Laboratory (3) *White* Research experience for pre- and postdoctoral students working on cancer prevention projects at the Fred Hutchinson Cancer Research Center. Credit/no credit only. Offered: jointly with EPI 593; AWSpS.

BIOST 595 Biostatistics Master's Practicum (1-12, max. 12) Supervised practice experience providing students an opportunity to learn how biostatistics is applied in a public health setting and in the formation of public health policy. Prerequisite: 514; 515; 536; 537.

BIOST 598 Techniques of Statistical Consulting (1) Seminar series covering technical and non-technical aspects of statistical consulting, including skills for effective communication with clients, report writing, statistical tips and rules of thumb, issues in survey sampling, and issues in working as a statistical consultant in academic, industrial, and private-practice settings. Prerequisite: entry code. Offered: jointly with STAT 598; Asp.

BIOST 600 Independent Study or Research (*) Offered: AWSpS.

BIOST 700 Master's Thesis (*) Offered: AWSpS.

BIOST 800 Doctoral Dissertation (*) Offered: AWSpS.

Environmental and Occupational Health Sciences

ENV H 111 Exploring Environment and Health Connections (3) *I&S Camp, Keifer* Introduction to environmental health concepts. Examines

current events to illustrate and better appreciate the relationship between environment and health and to explore whether an environmental condition is or is not an important threat to health. Emphasizes the roles of environmental scientists and related professionals. Offered: A.

ENV H 205 Environmental Health in Film (2) *I&S Fenske, Luchtel* Viewing and discussion of popular films that explore issues in environmental health. After viewing films, a discussion follows focusing on the ethical, legal, social, and scientific issues raised by the films. Intended for UW freshmen and sophomores from all backgrounds who may have an interest in majoring in Environmental Health. Offered: W.

ENV H 311 Introduction to Environmental Health (3) *NW Treser* Relationship of people to their environment, how it affects their physical well-being and what they can do to influence the quality of the environment and to enhance the protection of their health. Emphasis on environmental factors involved in transmission of communicable diseases and hazards due to exposure to chemical and physical materials in our environment. Offered: Asp.

ENV H 405 Toxic Chemicals and Human Health (3) *Gallagher, Kavanagh* Basic principles governing the behavior and effects of toxic chemicals released into the environment; sources, distribution, and fate of toxic chemicals in the environment; chemicals and cancer; chemicals and birth defects; government regulation of chemical hazards. Focus on human health impacts of chemicals found in the workplace and general environment. Prerequisite: 2.0 in BIOL 220; and 2.0 in CHEM 224 or 2.0 in CHEM 239 or 2.0 in CHEM 337. Offered: Sp.

ENV H 417 Non-Ionizing Radiation and Electrical Safety (2) *Yost* Introduction to health hazards from UV, optical laser hazards, infrared radiation, radio-frequency radiation, heat stress, electrical shock, electric and magnetic fields. Application of current standards for these physical agents. Emphasis on occupational hazards with additional discussion of environmental exposures where appropriate. Offered: odd years; W.

ENV H 431 Environmental and Occupational Sampling and Analysis I (3) *NW Fenske, Yost* Laboratory and lecture on sampling. Field and laboratory analysis of chemical and physical agents found in the occupational and ambient environments. Prerequisite: CHEM 162; PHYS 116/119; ENV H 311. Offered: A.

ENV H 432 Environmental and Occupational Sampling and Analysis II (4) *NW Simpson* Laboratory and lecture on sampling. Field and laboratory analysis of chemical and physical agents found in the occupational and ambient environments. Prerequisite: ENV H 431. Offered: W.

ENV H 433 Environmental and Occupational Sampling and Analysis III (4) *NW Butterfield, Meschke* Laboratory and lecture related to the evaluation of water quality. The identification and analysis of microorganisms in water, food, and air. Prerequisite: ENV H 431; MICROM 301. Offered: Sp.

ENV H 440 Water, Wastewater and Health (3) *Butterfield, Meschke* Review of water supply, water quality, and water/wastewater treatment as they relate to human health. Includes water law

and regulations, source water protection, basic treatment technologies for water and waste, chemical and microbial contaminants, and recreational water. Prerequisite: ENV H 311. Offered: A.

ENV H 441 Food Protection (3) *Easterberg* Study of identification and characteristics of chemicals and biological agents implicated in foodborne disease outbreaks and conditions or circumstances by which food contamination occurs. Examination of food protection activities conducted by local and state government at the retail level. Prerequisite: either 2.0 in CHEM 155 or 2.0 in both CHEM 160 and CHEM 161, or 2.0 in CHEM 162; 2.0 in MICROM 302. Offered: W.

ENV H 442 Vector Control (3) *Treser* Study of the impact and control of rodents and arthropod vectors of disease, including consideration of economic poisons used, their regulation, and safety measures. Prerequisite: 2.0 in BIOL 203. Offered: Sp.

ENV H 445 Solid Waste Management (3) *Busch* Examination of the public health, environmental, economic, and materials conservation aspects of solid wastes management; amounts and sources of solid wastes, waste reduction and recycling, methods of storage, transportation and disposal, integrated waste management, identification of present problems and future needs. Prerequisite: 2.0 in CHEM 155, 2.0 in CHEM 160, or 2.0 in CHEM 162; either 2.0 in MATH 124, 2.0 in MATH 127, 2.0 in MATH 134, or 2.0 in MATH 144; recommended: PHYS 115. Offered: Sp.

ENV H 446 Hazardous Waste Management (3) *Kissel* Characterization of hazardous wastes and introduction to pertinent federal and state regulations. Discussion of exposure pathways and description of management options at pre-generation, pre-release, and post-release stages. Emphasis on public health significance. Supplemented with case studies. Prerequisite: either 2.0 in CHEM 155, 2.0 in CHEM 160, 2.0 in CHEM 162; either 2.0 in MATH 112, 2.0 in MATH 124, 2.0 in MATH 127, 2.0 in MATH 234, or 2.0 in MATH 144; recommended: MATH 125, CHEM 224, PHYS 115. Offered: W.

ENV H 449 Health Effects of Air Pollution (2) *Koenig* Structure and function of the respiratory system and the changes that may be produced by specific air pollutants, such as ozone, SO₂ and fine particles. Air quality criteria and the economic costs of disease are discussed. Several classroom demonstrations. Offered: even years; W.

ENV H 451 Ecology of Environmentally Transmitted Microbiological Hazards (3) *Butterfield, Meschke, Shin* Focuses on the transmission of infectious microorganisms by air, food, water, and other environmental media. Provides an introduction to environmentally transmitted pathogens, and discusses factors affecting their environmental fate, transport, and persistence. Offered: A.

ENV H 452 Detection and Control of Environmentally Transmitted Microbiological Hazards (3) *Butterfield, Meschke, Shin* Focuses on the detection and control of infectious microorganisms in air, food, water, and other environmental media. Provides a discussion on sample collection, processing and detection for infectious microorganisms. Provide coverage of engineered controls and disinfection/decontamination processes for infectious microorganisms. Recommended: ENV H 451. Offered: W.

ENV H 453 Industrial Hygiene (3) *Morgan* Introduction to the principles and scientific foundation of industrial hygiene. Examines the anticipation, recognition, evaluation, and control of work place hazards to health and safety. Focuses on the first three functions, but includes some consideration of control methods. Prerequisite: either BIOL 200 or BIOL 202; CHEM 224; either PHYS 116 or PHYS 123. Offered: A.

ENV H 457 Industrial and Environmental Noise (3) *Neitzel, Seixas* Survey of industrial and community noise problems, including sources, effects, measurement, control, and legislation. Prerequisite: 2.0 in PHYS 115. Offered: Even years, Sp.

ENV H 461 Air Pollution Control (4) *Pilat* Fundamental concepts of air pollution. Emission sources, atmospheric dispersion, ambient concentrations, adverse effects, governmental regulations, emission standards, air-quality standards, processes and equipment for controlling emissions. Offered: jointly with CEE 490; A.Sp.

ENV H 470 Environmental Health Practice: Administration and Management (2) *Osaki, Treser* Explores selected aspects of the management of environmental health programs in the community, including organization theory and practice, budgeting, personnel management, program planning and evaluation, and community relations. Prerequisite: ENV H 482. Offered: A.

ENV H 471 Environmental Health Regulation (3) *Treser* Introduction to administrative regulation and process. Authority, jurisdiction, and structure of environmental control programs and agencies; the regulatory process; agency acquisition and retention of information; administrative actions; enforcement of environmental health laws; major statutes and cases affecting programs. Prerequisite: ENV H 482. Offered: W.

ENV H 472 Environmental Risk and Society (3) *Fenske* Examines scientific determinations of environmental risks and explores how such determinations are evaluated by affected communities and society. Employs risk analysis to integrate technical knowledge in hazard identification and exposure assessment to provide a more rational basis for environmental policies. Role of public participation in risk-based decision making discussed. Offered: A.

ENV H 480 Environmental Health Problems (*, max. 6) *Treser* Individual projects involving library, laboratory, or field study of a specific environmental health problem. Offered: AWSpS.

ENV H 482 Environmental Health Internship (2-15, max. 15) *Treser* Assignment to an environmental health or environmental protection agency for supervised observation and experience in environmental health technology, program planning and utilization of community resources. Prerequisite: 2.5 in ENV H 311. Credit/no credit only. Offered: AWSpS.

ENV H 490 Community Air Pollution (3) *NW Liu* Fundamental concepts of ambient and indoor air pollution, focusing on air quality issues affecting public health. Discusses sources of air pollution, building dynamics, microenvironments and activity patterns, biological air contaminants, community air pollution issues, management strategies, and monitoring and modeling skills. Offered: Sp.

ENV H 497 Environmental Health Special Electives (*) Offered: AWSpS.

ENV H 499 Undergraduate Research (*) Individual research on a specific topic in environmental health upon which specific conclusions, judgments, or evaluation can be made or upon which facts can be presented. Offered: AWSpS.

ENV H 511 Environmental and Occupational Health (1-3, max. 3) *Daniell* Effects of exposure to chemical, physical, and biological agents, embracing the community and workplace environments. Current issues, using specific cases from recent literature as basis for classroom discussion and written assignments. Offered: W.

ENV H 512 Waste Management, Recycling, and Pollution Control (3) *De Walle* Survey of selected technological components of environmental health infrastructure via lecture and weekly field trips to full facilities. Sites visited vary year to year, but may include paper and steel plants using reclaimed feedstock, cement kiln using waste as supplemental fuel, municipal wastewater treatment facility, and steam generation plant.

ENV H 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) *Eaton, Thummel* Addresses current DNA sequencing and genotyping approaches, and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Prerequisite: GENET 372 or equivalent. Offered: jointly with ENV H/PCEUT 513.

ENV H 514 Environmental and Occupational Toxicology I (3) *Xia* Major topical areas in human and environmental toxicology, including the biochemical, cellular, and physiological mechanisms by which chemicals produce toxic responses; the toxicology of the major classes of chemicals; principles of toxicity testing; interpretation of toxicological data. Prerequisite: BIOL 212, BIOC 440, or permission of instructor. Offered: A.

ENV H 515 Environmental and Occupational Toxicology II (3) *Luchtel* Major topical areas in human and environmental toxicology, including the biochemical, cellular, and physiological mechanisms by which chemicals produce toxic responses; the toxicology of the major classes of chemicals; principles of toxicity testing; interpretation of toxicological data. Prerequisite: BIOL 212, BIOC 440, or permission of instructor. Offered: W.

ENV H 516 Environmental and Occupational Toxicology III (3) *Costa* Major topical areas in human and environmental toxicology, including the biochemical, cellular, and physiological mechanisms by which chemicals produce toxic responses; the toxicology of the major classes of chemicals; principles of toxicity testing; interpretation of toxicological data. Prerequisite: BIOL 212, BIOC 440, or permission of instructor. Offered: Sp.

ENV H 517 Children's Environmental Health (3) *Burbacher* Discussion of environmental health issues as they pertain to children's health. Includes historical perspective of public health

research and policies directed at protecting children's health and emerging scientific and public health issues such as childhood exposure to mercury and pesticides, childhood asthma, cancer, and environmental justice. Offered: Sp.

ENV H 531 Neurotoxicology (3) *Costa* Advanced discussions of the principles and methodological approaches to neurotoxicology (including behavioral toxicology), classes of neurotoxic agents, types and mechanisms of neurotoxic effects, as well as the role of neurotoxicology in toxicology and public health. Prerequisite: ENV H 514, ENV H 515, ENV H 516 or ENV H 405 or permission of instructor. Offered: even years; W.

ENV H 532 Reproductive and Developmental Toxicology (2) *Faustman* Investigates chemicals that can induce adverse reproductive and developmental outcomes. Discussion topics include identification and characterization of specific classes of toxic agents, mechanisms of action of these agents at the molecular and cellular level, and risk assessment and regulatory issues. Prerequisite: ENV H 514 and ENV H 515 or ENV H 405 or permission of instructor. Offered: even years; S.

ENV H 533 Molecular Toxicology (2) *Gallagher* Advanced discussion of molecular mechanisms whereby chemical, physical, and biological agents produce their harmful effects on biological tissues. Prerequisite: permission of instructor. Offered: jointly with PHCOL 533; odd years; W.

ENV H 535 Inhalation Toxicology (3) *Koenig, Luchtel* Advanced course on the toxicology of air pollutants and the response of the respiratory system to inhaled gaseous and particulate toxicants. Issues and concepts covered include biology of the respiratory system, exposure technology, experimental design and methodological issues, health effects of air pollutants, and regulatory aspects. Prerequisite: ENV H 514-516, or ENV H 405 or permission of instructor. Offered: even years; A.

ENV H 537 Introduction to Manufacturing Systems (3) *Storch* Description of manufacturing systems. Includes discussion of current trends in manufacturing, especially lean principles. Introduces process flow analysis, manufacturing organizations including job-shop, assembly lines, and group technology, manufacturing inventory philosophies (just-in-time, MRP, OPT), work environment, and work simplification. Offered: jointly with IND E 537; A.

ENV H 541 Ecology of Environmentally Transmitted Microbial Hazards (3) Focuses on the transmission of infectious microorganisms by air, food, water, and other environmental media. Provides an introduction to environmentally transmitted pathogens, and discusses factors affecting their environmental fate, transport, and persistence. Offered: A.

ENV H 542 Detection and Control of Environmentally Transmitted Microbial Hazards (3) Focuses on the detection and control of infectious microorganisms in air, food, water, and other environmental media. Provides a discussion on sample collection, processing, and diction for infectious microorganisms. Provides coverage of engineered controls and disinfection/decontamination processes for infectious organisms. Offered: W.

ENV H 543 Quantitative Microbial Risk Assessment (3) Focuses on the principles of

quantitative risk assessment as applied to infectious microorganisms. Covers hazard identification, exposure assessment, health effects assessment, risk characterization, and risk communication. Offered: Sp.

ENV H 545 Water, Wastewater and Health (4) *Butterfield, Meschke* Review of water supply water quality, and water/wastewater treatment as they related to human health. Includes water law and regulations, source water protection, basic treatment technologies for water and waste, chemical and microbial contaminants, and recreational water. Offered: A.

ENV H 546 Pesticides and Public Health (3) *Fenske, Keifer* Examines health risks and benefits associated with pesticide use in the United States and internationally; reviews exposure, toxicity, epidemiology, and regulation of pesticides, focusing on populations such as workers and children; discusses benefits derived from vector control, food production, and food preservation. Offered: odd years; W.

ENV H 550 Microscopy: Image Acquisition and Analysis (2) *Luchtel* Sample preparation methods, principles and practical aspects of light microscopy (bright-field, phase, differential interference, polarizing, and confocal), electron microscopy (transmission, scanning, electron diffraction, and energy dispersive x-ray analysis), photographic and digital imaging, computerized image analysis techniques. Student research project required. Prerequisite: permission of instructor.

ENV H 552 Environmental Chemistry of Pollution (4) *Kalman, Liu* Chemical and physical processes determining distribution and fate of chemical hazards, detection of low levels of hazardous compounds, and environmental evaluation and prediction. Fundamental chemical concepts and measurable properties of individual compounds to interpret and relate measurements. Prerequisite: admission to graduate program or permission of instructor. Offered: W.

ENV H 553 Instrumental Methods for Industrial Hygiene Measurement: Lecture (3) *Morgan* Strategy, methods, instrumentation, and theory of atmospheric sampling and analysis, emphasizing evaluation of potential occupational hazards and exposures to chemical agents. Prerequisite: ENV H 453 or permission of instructor. Offered: W.

ENV H 555 Instrumental Methods for Industrial Hygiene Measurement: Laboratory (3) *Monteith, Simpson, Yost* Utilizes typical instrumental techniques and analytical methods for the evaluation of potential occupational exposures. Prerequisite: ENV H 453 and ENV H 553 or permission of instructor. Offered: Sp.

ENV H 556 Quantitative Occupational Exposure Analysis (3) *Seixas* Exploration of industrial hygiene data to understand nature of airborne exposures in the occupational environment, and their interpretation for human health. Focus on reading and discussion of primary exposure assessment literature and statistical analysis of *real* dataset. Prerequisite: one quarter of statistics or biostatistics and basic industrial hygiene. Offered: W.

ENV H 557 Workplace Exposure Controls (4) *Yost* Principles of engineering controls and protective equipment needed to prevent overexposures to workplace contaminants, including design of industrial ventilation systems,

general building ventilation and indoor air quality, respiratory protection, and protective clothing. Offered: even years, W.

ENV H 559 Applied Occupational Health and Safety (3) *Camp, Johnson* Application of occupational safety and health principles. Student teams perform evaluations, assess production methods/processes and exposures, health and safety procedures and programs, and develop engineering and administrative controls. Students perform on a consulting project with a local company including budgeting, project reporting, and presentation. Offered jointly with IND E 567 and NSG 505. Offered: Sp.

ENV H 560 Organizing and Administering Industrial Safety and Health Programs (4) *Gleason* Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates philosophic issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Contains numerous case problems and student involvement opportunities. Offered: jointly with NSG 506; A.

ENV H 562 Technical Aspects of Safety and Health (3) *Gleason* Explores specific hazards associated with major industries, as well as hazards common to all industries. Covers machine guarding, electrical safety, systems safety analysis, materials handling, and working at heights. Offered: jointly with NSG 507; W.

ENV H 564 Recognition of Health and Safety Problems in Industry (4) *Camp, Seixas* Develops skills in occupational health and safety hazard recognition in a variety of important northwest industries. Focuses on process understanding and hazard recognition skills during walk-through inspections of several local facilities, stressing a multidisciplinary approach. Offered: jointly with IND E 564; A.

ENV H 565 Occupational Stress and Management (3) *Beaton* Relationships between occupational stressors and worker's health, well-being, productivity. Analyzes models of occupational stress. Investigates similarities, differences between job-related stressors and stress responses in various occupations. Explores elements of worksite stress management programs. Prerequisite: graduate standing in nursing or allied health discipline. Offered: jointly with NURS 566; even years; A.

ENV H 566 Introduction to Ergonomics (3) *Johnson, Stewart* Basic principles of ergonomics in work environment applied to problems of worker and management. Topics include measurement of physical work capacity, problems of fatigue and heat stress, applied biomechanics, worker-machine interactions and communication, design of displays and controls. Prerequisite: basic human physiology or permission of instructor. Offered: jointly with IND E 566/NSG 508; W.

ENV H 567 Mechanisms of Carcinogenesis (2) *Xia* Lectures/presentations of biochemical and molecular basis of carcinogenesis induced by environmental agents, including approaches to identification of carcinogens. Role of cell proliferation and cell death (apoptosis) in cancer formation and cancer treatment. Molecular mechanisms that regulate proliferation and apoptosis. Prerequisite: ENV H 516, ENV H 405, or permission of instructor. Offered: jointly with PHCOL 567; even years, A.

ENV H 568 Molecular Epidemiology of Infectious Diseases (2) *r* Application of molecular typing techniques to study of microbial pathogens to increase understanding of epidemiology of infectious diseases. Brief review of molecular biology. Evaluation of methods used in outbreaks and epidemics reported in literature. Prerequisite: ENV H 511 or ENV H 512 or permission of instructor. Offered: jointly with EPI 568/PABIO 568; W.

ENV H 569 Occupational Biomechanics (4) *Johnson* Lectures and laboratories address human occupational biomechanical and physiological limits and measurement, analysis, and modeling techniques that are used by ergonomists for design of safe, healthful, and productive physical work. Prerequisite: ENV H 566 or permission of instructor. Offered: jointly with IND E 569; even years, Sp.

ENV H 570 Occupational and Environmental Epidemiology (3) *Checkoway, Daniell* Research in occupational and environmental determinants of disease. Defining exposed populations, characterizing exposure levels, estimating disease risks relative to exposure. Cohort, case-control, cross-sectional designs for various health outcomes. Applications to exposure standard setting and risk assessment. Prerequisite: EPI 511 or EPI 512, EPI 513 or permission of instructor. Offered: jointly with EPI 570; Sp.

ENV H 571 Neuroepidemiology and Environmental Risk Factors (3) Focus on neurologic diseases and etiology. Presentation of descriptive epidemiology, clinical features, and risk factors, including stroke, Parkinson's disease, Alzheimer's disease, multiple sclerosis, and other disorders. Discussion of NIH grantsmanship. Guest experts present some topics. Recommended: EPI 511 or equivalent. Offered: jointly with EPI 571; odd years; W.

ENV H 572 Clinical Occupational Medicine (2) *Shusterman* For clinicians in training, comprehensive overview of occupational disease principles, occupational history-taking, and the provider's role in workers' compensation. Epidemiologic evidence and pathophysiologic basis for occupational diseases reviewed, emphasizing organ system approach to diagnosis and management. Prerequisite: occupational medicine or preventive medicine residents/fellows, nursing students, or permission of instructor. Offered: S.

ENV H 573 Methods and Issues in Using Biological Measurements in Epidemiologic Research (3) Introduction to use of measurements from biological specimens in epidemiologic studies. Prepares epidemiology and laboratory science students for conduct of interdisciplinary human studies. Evaluation of biomarkers, preliminary studies, methodologic issues, quality control. Brief review of molecular biology. Applications and current literature discussed. Prerequisite: EPI 511 or EPI 512. Offered: jointly with EPI 573; W.

ENV H 574 Quantitative Methods for Environmental Exposure Assessment (3) *Kissel* Examination of probabilistic (in contrast to deterministic) approaches to prediction of human exposure to environmental contaminants including explicit separation of population variability from uncertainty due to ignorance. Discussion of data needs, pitfalls, policy ramifications, and current state of development and regulatory acceptance. Examples from real world. Offered: Sp.

ENV H 577 Risk Assessment for Environmental Health Hazards (3/4) *Faustman* Examines context, methodologies, data, uncertainties, and institutional arrangements for risk assessment. Qualitative and quantitative approaches to identification, characterization, and control of environmental hazards to health emphasized through didactic and case studies. Prerequisite: ENV H 515 and BOST 511 or permission of instructor. Offered: jointly with CEE 560/PB AF 589; A.

ENV H 580 Environmental Health and Occupational Health Sciences Seminar (1, max. 6) Presentation of current environmental and occupational health research and issues. Credit/no credit only. Offered: AWP.

ENV H 581 Environmental Health Reading I (1) Critical reading of selected basic and applied research publications on environmental health problems and programs. Offered: A.

ENV H 582 Environmental Health Reading II (1) Discussion of controversial and current issues facing public health and the environmental health professional.

ENV H 583 Environmental Health Reading III (1) Preparation and presentation of master's thesis proposal. Offered: Sp.

ENV H 584 Occupational Health and Safety: Policy and Politics (3) *Camp, Morris* Designed to provide a better understanding of the historical, political, and policy issues in occupational health and safety through selected readings and discussion with experts in the field. Particular emphasis on the Occupational Safety and Health Act. Students present testimony in a mock congressional hearing on a health and safety issue. Offered: Sp.

ENV H 598 MPH Degree Program Project (*, max. 18) Supervised project work on a topic related to student's concentration in graduate study that results in a paper. Offered: AWP.

ENV H 590 Selected Topics (1-6, max. 6) In-depth study of a current environmental health topic. For more information and permission, consult department program adviser. Offered: AWP.

ENV H 591 Current Topics in Toxicology (1, max. 6) *Kavanagh, Xia* Provides in-depth examination of current topics in environmental and occupational toxicology taken from recently published journal articles. Consists of presentations led by students, postdoctoral fellows, and faculty. Students expected to participate actively in discussion. Assigned weekly readings given according to the schedule of speakers and topics. Credit/no credit only. Offered: AWP.

ENV H 592 Current Topics in Occupational Health Sciences (1/3) Weekly discussion of current research on a broad range of topics relevant to occupational and environmental health including exposure assessment, occupational epidemiology, occupational hygiene, and control of environmental hazards. Presentation and discussion sessions designed to help students organize and prepare a critical analysis of research findings. Credit/no credit only. Offered: A.

ENV H 593 Current Topics in Risk Assessment (1, max. 6) *Faustman* Examines current topics in risk assessment and risk communication with a focus on issues in environmental

health. Consists of presentations led by students, postdoctoral fellows, and faculty. Students expected to participate actively in discussion. Credit/no credit only. Offered: AWP.

ENV H 594 Current Topics in Environmental Health (1, max. 2) Critical review and discussion of current scientific literature of particular relevance to the Environmental Health program. Primary presentations rotate among faculty and students. Credit/no credit only. Offered: W.

ENV H 595 Research Rotation (3, max. 9) Research laboratory rotation for predoctoral graduate students. Students commit to a laboratory research project aimed at introducing the student to current methods in laboratory research, and to familiarize the student with specific faculty research interests. Prerequisite: graduate standing and permission of program director. Offered: AWP.

ENV H 596 Current Issues in Occupational and Environmental Medicine (2, max. 12) *Kaufman* Interdisciplinary seminar on current and emerging topics in the practice of environmental and occupational health. Faculty- and student-led presentations with an interdisciplinary focus, including occupational hygiene, nursing, and medical issues. Prerequisite: environmental health graduate student, occupational health nursing student, or permission of instructor. Offered: jointly with NURS 580; AWP.

ENV H 599 Field Studies (2-6, max. 6) Assignment to an environmental research or service program to develop field research and evaluation skills. Credit/no credit only. Offered: AWP.

ENV H 600 Independent Study or Research (*) Prerequisite: permission of departmental adviser. Offered: AWP.

ENV H 700 Master's Thesis (*) Prerequisite: permission of departmental adviser. Offered: AWP.

ENV H 800 Doctoral Dissertation (*) Credit/no credit only. Prerequisite: permission of departmental adviser. Offered: AWP.

Epidemiology

Epidemiology

EPI 101 Public Health Issues in the Media (5) *I&S DeRoos* Reviews epidemiologic studies and popular media to compare original research results with the message disseminated to the public, and to analyze how and why data from public health research can sometimes be misleading to the public.

EPI 405 Phys Activity in Health and Disease (3) *Duncan* Impact of physical activity on individual and public health. Overview of physiological adaptations to activity, exercise prescription, exercise epidemiology, and prevention of chronic diseases. Public health recommendations for activity in the U.S. population, and the effects of the built environment on activity. Prerequisite: BIOL 118. Offered: jointly with NUTR 405; Sp.

EPI 420 Introduction to Epidemiology (3) NW *Goldberg* For the undergraduate student wishing to devote only one quarter to a course in epidemiologic methods. Description of ways in which variation in disease occurrence is

documented and how that variation is studied to understand causes of disease. Offered: Sp.

EPI 497 Epidemiology Special Electives (*) Off-campus course for medical students. Offered: AWP.

EPI 499 Undergraduate Research (*) Offered: AWP.

EPI 502 Phys Activity in Health and Disease (3) *Duncan* Impact of physical activity on individual and public health. Overview of physiological adaptations to activity, exercise prescription, exercise epidemiology, and prevention of chronic diseases. Public health recommendations for activity in the U.S. population, and the effects of the built environment on activity. Prerequisite: BIOL 118. Offered: jointly with NUTR 505; Sp.

EPI 503 Public Health Informatics and Surveillance (3) Covers collection and use of public health surveillance data in formulating policy and managing programs through lectures and real-world interactive exercises. Discusses surveillance for birth defects, environmental exposures, and hospital-acquired infections, and use of tools such as small area analysis and geographic information systems. Offered: jointly with HSERV 503.

EPI 507 HIV and STIs in Women and Children (3) Examines the emerging global public health crisis and the plight of women and children with HIV/STIs. Reviews targeted approaches pertaining to women and children and their vulnerability to HIV/STIs. Prerequisite: EPI 511 or EPI 512-513. Offered: jointly with OB GYN 590; Sp.

EPI 511 Introduction to Epidemiology (3-4, max. 4) *Kukull* Epidemiologic methods for non-epidemiology majors. Focuses on research designs and methods to describe disease occurrence and risk factor associations; uses quantitative and biomedical information to infer whether causal relationships exist between potential causes and disease in populations. Offered: A.

EPI 512 Epidemiologic Methods I (4) *Koepsell, Weiss* Principles and methods of epidemiology. Covers measures of disease frequency, measures of effect, causal inferences, descriptive epidemiology, study types, misclassification, and effect modification. Designed for students who want to take 513. Prerequisite: prior or concurrent enrollment in BOST 511 or equivalent. Offered: A.

EPI 513 Epidemiologic Methods II (4) *Koepsell, Weiss* Continuation of 512. Considers how designs of epidemiologic studies may be constructed to maximize etiologic inferences. Covers confounding, randomized trials, cohort studies, case-control studies, and selected topics. Prerequisite: EPI 512. Offered: W.

EPI 514 Application of Epidemiologic Methods (4) *Hawes, Mueller, Schiff* Practical experience in analysis of data. Students analyze data sets currently on file using contemporary epidemiologic methods as taught in 512 and 513. Prerequisite: EPI 510 or experience in statistical programming; EPI 512, EPI 513 and epidemiology major. Offered: Sp.

EPI 515 Topics in Epidemiologic Methods (3) Introduces advanced methodologic methods, including recursive partitioning, developing

clinical prediction rules, analyses of community-level associations or interventions, case-crossover and case-only designs, propensity scores, two-stage sampling, and missing data imputation. Prerequisite: EPI 512; EPI 513. Offered: jointly with BOST 519; A; odd years.

EPI 516 Statistical Methods in Genetic Epidemiology (3) *Monks* Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BOST 513 or BOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with BOST 516/PHG 519.

EPI 517 Genetic Epidemiology (3) *Austin* Research methods for evaluating genetic influences on disease and risk factors and genetic-environmental interactions. Study designs and statistical methods include twin studies, family studies, population-based association studies, segregation analysis, and linkage analysis. Prerequisite: EPI 511, BOST 511, and GENET 371, or equivalent. Offered: jointly with PHG 511.

EPI 518 Computer Demonstrations in Genetic Epidemiology (2-4, max. 4) *Edwards* Demonstrations and use of computer programs designed specifically for analysis of genetic epidemiologic data, including heritability, segregation, and sib-pair linkage analysis. Discussions focus on interpretation of results. Laboratory sections apply methods to data provided by instructor. Corequisite: EPI 517/PHG 511 or permission of instructor. Offered: jointly with PHG 518.

EPI 519 Epidemiology of Cardiovascular Disease (3) *Psaty, Sisovick* Principles, methods, and issues in the epidemiology of cardiovascular disease. Focuses on coronary heart disease and its major risk factors; also covers other topics such as stroke and sudden death. The format includes informal lectures and discussions of the current literature. Prerequisite: EPI 511 or EPI 512, EPI 513. Offered: A.

EPI 520 Epidemiology of Infectious Diseases (3) *Manhart* Infectious diseases from a public health perspective. Topics include analytic methods, study design, outbreak investigations, surveillance, vaccine evaluations, global eradication, screening, modeling, and infectious causes of chronic diseases. Homework and discussion based on current examples from the published literature. Prerequisite: EPI 511, EPI 512, or permission of instructor. Offered: W.

EPI 521 Epidemiology of Maternal and Child Health Problems ([3-4], max. 4) *Schiff, Williams* Contributions to understanding and prevention of major maternal and child health problems, including pregnancy outcome, infant and child morbidity and mortality, maternal morbidity and mortality, abnormal child growth and development, and early-life factors in adult health problems. Prerequisite: graduate, medical, or dental school standing and EPI 511 or EPI 512 or permission of instructor. Offered: jointly with HSERV 542; W.

EPI 522 Reproductive Epidemiology (3) *Holt* Focus on conditions and diseases of the female reproductive system, as well as pregnancy outcomes other than birth. Presentation of current epidemiologic knowledge and discussion of issues on topics including contraception; infertility; spontaneous abortion; induced

abortion; breast, uterine, and ovarian disease; and menopause. Prerequisite: EPI 511 or EPI 512-513. Offered: odd years; Sp.

EPI 523 Injury Epidemiology (3) Discussion of research methods which are useful in studying the causes of injury and outcomes after injury. Information regarding the impact of injuries on health and known or suspected risk factors for some injuries. Assigned readings from literature in the field. Prerequisite: EPI 511 or EPI 512 or permission of instructor. Offered: Sp.

EPI 524 Epidemiologic Studies of Cancer Etiology and Prevention (3/4) *Deroos, Li* Current knowledge of the role of environmental factors (e.g., smoking, hormonal, nutrition, viral, radiation) and genetic susceptibility in the etiology of several major cancers. Illustrates principles and conduct of research in cancer etiology and cancer prevention. Prerequisite: EPI 511 or EPI 513. Offered: W.

EPI 526 Epidemiology of Diseases Communicable from Nature (3) *DiGiacomo, Rausch, Weigler* Explores the public health aspects of zoonotic diseases, their epidemiology and approaches to control. Focuses on the major viral, rickettsial, bacterial, protozoal, helminthic, and fungal diseases transmitted from wild and domesticated animals to humans. Prerequisite: EPI 511, EPI 512, or EPI 520 or permission of instructor. Offered: jointly with C MED 526; Sp.

EPI 528 Exposure Measurement in Epidemiology (3) *White* Principles and methods of measuring exposures and covariates in epidemiological studies. Validity and reliability of measures, questionnaire design, effects of measurement error, maximizing response rates, quality-control procedures, measurement of specific exposures. Credit/no credit only. Prerequisite: EPI 513. Offered: Sp.

EPI 529 Emerging Infections of International Public Health Importance (3-, max. 3) *Kimball* Overview of current emerging infections worldwide and contributing factors. Design of a surveillance and prevention strategy required. Offered: jointly with HSERV 536; in residence, even years; online, odd years; W.

EPI 530 AIDS: A Multidisciplinary Approach (2) *Farquhar* Comprehensive overview of the public health, clinical, and laboratory aspects of human immunodeficiency virus (HIV) infection and disease. Topics include the pathogenesis, natural history, and management of HIV infections. The impact of HIV/AIDS on community and global health care and prospects for prevention and control. Credit/no credit only. Offered: jointly with MED 530; A.

EPI 531 Problems in International Health (4) *Gloyd* Explores social, political, economic, environmental determinants of developing countries' health; traces development of societal responses to problems. Includes: origins of primary health care; child survival; traditional systems; population; water; sanitation; international agencies; impact of economic policies. Case study formulating pharmaceutical policy in a developing country. Offered: jointly with HSERV 531; A.

EPI 532 Epidemiology of Infectious Diseases in Resource-Limited Countries (3) *McLelland* A review of major infectious disease problems of the developing world, including AIDS, malaria, tuberculosis, measles, and diarrhea, with an emphasis on public health control strategies.

EPI 533 Pharmacoepidemiology (3) *Heckbert, Johnson* Overview of pharmacoepidemiology including drug development and approval; application of epidemiologic methods to study drug safety and effectiveness; exploration of the interplay between research and public policy; introduction to resources for information about drugs; introduction to pharmacology principles pertinent to pharmacoepidemiology. Prerequisite: health sciences graduate student or with permission. Offered: jointly with PHARM 533; even years; Sp.

EPI 534 Principles of Publishing Clinical Evidence (2) *Johnson, Olson* Explains advanced methodologic principles for improving the clarity of published clinical evidence. Students prepare and revise a 1000-word research letter for *The Lancet* using their own clinical evidence. Credit/no credit only. Prerequisite: permission of instructor. Offered: jointly with PHARM 536; Sp.

EPI 536 Categorical Data Analysis in Epidemiology (4) Summary of univariate categorical data analysis; introduction to multivariate analysis of categorical epidemiologic data using multiplicative models. Experience at interpretation; familiarity with available programs gained by analysis of bona fide data, critiques of analyses appearing in literature. Prerequisite: BOST 515; EPI 513 and either BOST 513 or BOST 518; or permission of instructor. Offered: jointly with BOST 536; A.

EPI 537 Survival Data Analysis in Epidemiology (4) Introduction to the multivariate analysis of survival data using multiplicative models. Application to epidemiologic studies. Familiarity with interpretation and available computer programs gained by analysis of bona fide sets of data and critiques of analyses appearing in the literature. Prerequisite: EPI 536 or permission of instructor. Offered: jointly with BOST 537; W.

EPI 538 Nutritional Epidemiology (3) *Beresford, Drewnowski* Application of epidemiological methods to current studies of diet, nutrition, and chronic disease. A discussion of current issues and controversies enable students to plan studies in nutritional epidemiology and disease prevention. Prerequisite: EPI 511 or EPI 512 or permission of instructor. Offered: jointly with NUTR 538; A.

EPI 539 Research Methods in Developing Countries (3/4) *Gloyd, Mock* Simple, practical methodologies to obtain and validate information regarding health status and health services in developing countries. Usefulness, validity, limitation of vital records, health reports, household (and cluster) surveys, nutritional anthropometry, and qualitative methods discussed. Lectures, computer lab, and student participation in community-based survey. Offered: jointly with HSERV 539; W.

EPI 540 Introduction to Cancer Biology (3) *Ulrich* Provides a general understanding of cancer biology, covering the carcinogenic process and various biological causes of cancer. Integrates knowledge from different fields of cancer research, guiding students through diverse literature on cancer and carcinogenesis. Prerequisite: GENOME 372, or permission of instructor. Offered: even years; Sp.

EPI 542 Clinical Epidemiology (2) *Weiss* Principles and methods involved in studying outcome of illness. Prerequisite: EPI 511, or EPI 512 and EPI 513. Offered: S.

EPI 544 Maternal and Child Health in Developing Countries (3) *Mercer* Emphasizes critical health problems of women and children in developing countries in social, economic, and cultural contexts. Practical approaches to developing MCH programs shared via lecture/discussions, exercises, and small group work. Students acquire skills in baseline assessment, setting objectives, planning and evaluating interventions, and involving communities. Offered: jointly with HSERV 544; Sp.

EPI 546 Psychosocial Epidemiology (3) *Vander Stoep* Application of epidemiological methods to the study of mental illnesses. Topics include occurrence and distribution of mental illness, classification of psychiatric disorders; treatment-based vs. community-based studies; epidemiology of depression and schizophrenia; familial transmission; developmental epidemiology; mental illness and violence. Prerequisite: one course in epidemiology or permission of instructor. Offered: jointly with PBSCI 546; Sp.

EPI 548 Social Determinants of Health Research Methods (3) *Beresford, Smith* Explores study design, measurement and analytic issues applicable to research into the social determinants of health. Semi-weekly graduate-level seminar offered to students with a basic knowledge of epidemiological and biostatistical principles. Prerequisite: either EPI 511 or EPI 512/EPI 513; BIOST 511/BIOST 512 or BIOST 517/BIOST 518. Offered: jointly with HSERV 548; W.

EPI 549 Sociobehavioral and Prevention Research Methods for HIV and STI (3) *Kurth* Focuses on prevention methods for controlling HIV/STI epidemics, identifying a range of alternatives along the prevention continuum as most appropriate and feasible for settings and populations, and solutions to increase HIV/STI prevention agenda in public health and clinical policy and practice. Offered: jointly with NMETH 515; Sp.

EPI 568 Molecular Epidemiology of Infectious Diseases (2) *DiGiacomo, Samadpour, Roberts* Application of molecular typing techniques to study of microbial pathogens to increase understanding of epidemiology of infectious diseases. Brief review of molecular biology. Evaluation of methods used in outbreaks and epidemics reported in literature. Prerequisite: EPI 511 or EPI 512 or permission of instructor. Offered: jointly with ENV H 568/PABIO 568. Offered: W.

EPI 570 Occupational and Environmental Epidemiology (3) *Checkoway* Research methods for studying occupational and environmental determinants of disease. Defining exposed populations, characterizing exposure levels, estimating disease risks relative to exposure. Cohort, case-control, cross-sectional designs for various health outcomes. Applications to exposure standard setting and risk assessment. Prerequisite: EPI 511 or EPI 512, EPI 513 or permission of instructor. Offered: jointly with ENV H 570; Sp.

EPI 571 Neuroepidemiology and Environmental Risk Factors (3) *Kukull* Focus on neurologic diseases and etiology. Presentation of descriptive epidemiology, clinical features, and risk factors, including stroke, Parkinson's disease, Alzheimer's disease, multiple sclerosis, and other disorders. Discussion of NIH grantsmanship. Guest experts present some topics. Recommended: EPI 511 or equivalent. Offered: jointly with ENV H 571; odd years; W.

EPI 573 Methods and Issues in Using Biological Measurements in Epidemiologic Research (3) *Schwartz* Introduction to use of measurements from biological specimens in epidemiologic studies. Prepares epidemiology and laboratory science students for conduct of interdisciplinary human studies. Evaluation of biomarkers, preliminary studies, methodologic issues, quality control. Brief review of molecular biology. Applications and current literature discussed. Prerequisite: EPI 511 or EPI 512. Offered: jointly with ENV H 573.

EPI 583 Epidemiology Seminar (1, max. 3) Presentation of current epidemiologic research and application of epidemiologic research in the practice of public health. Offered: AWSpS.

EPI 585 Principles of Injury Research and Prevention (3) *Shiff* Focuses on broad concepts including a conceptual model, surveillance, research methods, control and prevention of injuries. Topics include unintentional injuries from motor vehicle crashes, falls, drowning, sports injuries and intentional injuries from youth violence, intimate partner violence, homicide and suicide. Recommended: EPI 511. Offered: A.

EPI 588 Preparing and Writing Research Proposals (2) *Kristal, Reiber* Experience in preparing, organizing, and writing research proposals, following NIH and AHRQ guidelines. Includes weekly assignments and didactic exercises, leading to final research proposal. All students participate in mock study section to review and critique proposals. Credit/no credit only. Prerequisite: second-year graduate student (PhD recommended), or PhD or MD in health-related field. Offered: odd years; A.

EPI 589 Epidemiologic Research in Aging Populations (3) *LaCroix* Emphasizes application of epidemiologic methods to the study of older populations. Topics include: compression of morbidity; successful aging; methodological challenges in studying older populations; physical, cognitive and social function as epidemiological endpoints; chronic conditions of the aging (heart disease, cancer, Alzheimer's disease, dementia, osteoporosis, fractures); health promotion strategies. Prerequisite: EPI 511 or EPI 513. Offered: jointly with HSERV 589.

EPI 590 Selected Topics in Epidemiology or International Health (1-6, max. 6) Tutorials are arranged for a small number of students for in-depth examination of an area of epidemiology or international health, usually of current nature. Seminar format. Prerequisite: EPI 511. Also a special summer format presenting introductory material. May be offered with ENV H 590 and/or HSERV 590. For more information and permission, consult the department program adviser. Offered: AWSpS.

EPI 591 Current Literature in Epidemiology (1) Articles pertaining to epidemiology and related subjects selected from the current literature to be distributed and read by all participants. Faculty members and enrolled students alternate being responsible for conducting sessions and choosing articles to read. Credit/no credit only. Prerequisite: EPI 513. Offered: AWSpS.

EPI 592 Program Seminars (1-6, max. 6) Graduate seminars organized to address specific educational needs of students in various specialized programs within the Department of Epidemiology (i.e., Maternal and Child Health). Prerequisite: permission of instructor. Offered: AWSpS.

EPI 593 Cancer Prevention Research Laboratory (3) *White* Research experience for pre- and postdoctoral students working on cancer prevention projects at the Fred Hutchinson Cancer Research Center. Credit/no credit only. Offered: jointly with BIOST 593; AWSpS.

EPI 595 Epidemiology Master's Practicum (1-6, max. 6) Supervised practice experience providing students an opportunity to learn how epidemiology is applied in a public health setting and in the formulation and application of public health policy. Credit/no credit only. Prerequisite: EPI 512 and BIOST 511 or equivalent and permission of instructor. Offered: AWSpS.

EPI 600 Independent Study or Research (*) Credit/no credit only. Prerequisite: permission of departmental adviser and independent study supervisor. Offered: AWSpS.

EPI 700 Master's Thesis (*) Credit/no credit only. Prerequisite: permission of thesis chair. Offered: AWSpS.

EPI 800 Doctoral Dissertation (*) Credit/no credit only. Prerequisite: permission of dissertation chair. Offered: AWSpS.

Public Health Genetics

PHG 509 Multidisciplinary Communication in Public Health Genetics (2) *Watts* Focuses on effective communication in a multi-disciplinary context. Students will read and critique published public health genetics literature, and learn and apply principles of effective written and oral communication to public health genetics topics of their choice. Credit/no credit only. Offered: jointly with HSERV 509.

PHG 510 Genetic Principles for Public Health (3) *Austin, Doyle, Leboeuf* Basic principles of human genetics in a public health context; the molecular components of life, organization of the genome, gene expression, recombinant DNA technology, gene regulation, Mendelian inheritance, quantitative genetics, nutrition and gene expression, mitochondrial inheritance, gene mapping, gene-environment interactions, Human Genome Project, and genetic service in public health.

PHG 511 Genetic Epidemiology (3) *Austin, Edwards* Research methods for evaluating genetic influences on disease and risk factors and genetic-environmental interactions. Study designs and statistical methods include twin studies, family studies, population-based association studies, segregation analysis, and linkage analysis. Prerequisite: EPI 511, BIOST 511, and GENET 371, or equivalent. Offered: jointly with EPI 517.

PHG 512 Legal, Ethical, and Social Issues in Public Health Genetics (3) *Kuszler, Mastroianni* Equips the student to anticipate and assess potential legal, ethical, and social barriers complicating the incursion of new genetic advances, information, and technologies into public and private health care delivery efforts. Prerequisite: GENET 371 or equivalent. Offered: jointly with LAW H 504/MHE 514.

PHG 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) *Eaton, Thummel* Addresses current DNA sequencing and genotyping approaches, and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic

technologies to the understanding of "gene-environment interactions" that cause diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Prerequisite: GENET 372 or equivalent. Offered: jointly with ENV H 513/PCEUT 513.

PHG 518 Computer Demonstrations in Genetic Epidemiology (2-4, max. 4) *Edwards* Demonstrations and use of computer programs designed specifically for analysis of genetic epidemiologic data, including heritability, segregation, and sib-pair linkage analysis. Discussions focus on interpretation of results. Laboratory sections apply methods to data provided by instructor. Corequisite: EPI 517/PHG 511 or permission of instructor. Offered: jointly with EPI 518.

PHG 519 Statistical Methods in Genetic Epidemiology (3) Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with BIOST/EPI 516.

PHG 521 Socio-Cultural Perspectives of Public Health Genetics (3) *McGrath* Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with NURS 582/ANTH 574.

PHG 522 Ethical Frameworks for Public Health Genetics (2) *Mastroianni* Case-based application of ethical principles in genetic medicine to range of problems arising in genetics practice, policy, research. Examination of traditional problems including eugenics and testing/screening for genetic disease, as well as emerging problems in population and environmental genetics. Prerequisite: LAW E 562/MHE 514/PHG 512 or permission of instructor. Offered: jointly with MHE 516.

PHG 523 Genetics and the Law (2) *Kuszler* Considers the legal issues arising from new genetic technologies and information. Statutes, regulations, and cases used to demonstrate the constitutional, contract, and tort law complications resulting from dissemination of these technological advances. Prerequisite: LAW E 562/MHE 514/PHG 512 or permission of instructor. Offered: jointly with LAW H 520.

PHG 525 Public Commentary on Ethical Issues in Health Genetics (3) Explores issues in public health genetics through academic commentary, personal narratives, science fiction, and film using ethical frameworks from narrative ethics, feminist ethics, and principlism. Includes cloning, assisted reproduction, prenatal genetic testing presymptomatic genetic testing, gene therapies, scientific responsibility, and GMOs. Graduate students only. Offered: jointly with MHE 515.

PHG 532 Statistical Methods in Medical Genetics (2) *Wijsman* Theory and application of statistical techniques used in medical genetics. In-depth discussion of linkage and segregation analysis and ascertainment problems. Applications with stressed with reference to assumptions and limitations. Data sets analyzed with current

computer programs. Offered: jointly with BIOST/MED 532.

PHG 537 Pharmacoeconomics, Genetics, and Health Care (2) *Ramsey, Veenstra* Introduction to outcomes research and economic evaluation related to pharmaceuticals and genetic technologies. Covers cost-effective analysis and quality of life evaluation. Discusses the use of economic evaluation in healthcare to affect policy decisions.

PHG 541 Economic and Policy Issues for Genetic Technologies and Services (3) *Ramsey, Watts* Introduction to economic evaluation in healthcare. Students learn and apply economic principles to the political and policy issues surrounding genetic technologies and services. Focus on formulation of facts and policy alternatives in several areas of public controversy with regard to genetic testing and treatment.

PHG 542 Genetic Discovery in Medicine and Public Health (3) *Burke* Addresses the clinical and societal implications of genetic knowledge, with an emphasis on the ethical and policy issues surrounding the use of genetic technology in medicine and public health from 1900 to the present. Offered: jointly with MHE 530; W.

PHG 543 Social and Behavioral Research Methods in Public Health Genetics (3) *Bowen, McGrath* Provides an overview of social and behavioral research and theory used in the study of public health genetics. Examples are from a range of disciplines, using a variety of methodologies. Prerequisite: graduate standing in Public Health Genetics, or permission of instructor.

PHG 580 Interactive Seminar (1, max. 6) *Veenstra* Seminar series on topics related to public health genetics, including current bioethical, legal, medical, biotechnology, and public policy issues.

PHG 581 Introduction to Bioinformatics and Genetics Services in Public Health Genetics (1) *Austin, Doyle, Rose* Introduction to bioinformatics computer skills and genetic services related to public health genetics. Credit/no credit only.

PHG 590 Selected Topics in Public Health Genetics (1-6, max. 6) Tutorials are arranged for a small number of students for in-depth examination of an area of public health genetics, usually of a current nature.

PHG 595 Master's Practicum (1-12, max. 12) Supervised practice experience providing students an opportunity to learn how genetics is applied in a public health setting and in the formulation and application of public health policy. Prerequisite: EPI 517/PHG 511, LAW E 562/MHE 514/PHG 512, ENV H/PABIO/PCEUT/PHG 513, or permission of instructor.

PHG 600 Independent Study or Research (*) Credit/no credit only. .

PHG 700 Master's Thesis (*) Credit/no credit only.

PHG 800 Doctoral Dissertation (*) Credit/no credit only.

Health Services

Health Information Administration

HIA 409 Disease Concepts for Managers (4) Develops a methodology for understanding and communicating dimensions of disease states as all health state that a person might experience. Presents clear, effective ways to describe the diversity of health conditions and focuses on disease from a health information systems perspective. Offered: S.

HIA 410 Introduction to Health Care Systems and Health Data Systems (6) Covers current issues in health care; accreditation, licensure and professional standards; health records analysis, statistics, data linkage, application of professional standards to health records and record management systems; retrieval, tracking and retention systems.

HIA 412 Healthcare Coding, Vocabulary and Revenue Cycle Management (5) Overview of clinical vocabularies and classifications, detailed instruction on International Classification of Diseases, ninth revision, clinical modification (ICD-9-CM) and Current Procedural Terminology (CPT) coding principles, and revenue cycle management. Prerequisite: HIA 409.

HIA 420 Health Care Computer Systems and Electronic Health Records (5) Current health information systems and the role of health informatics; technology infrastructure and health informatics standards, electronic health records, definitions, functions, issues, and barriers; hospitals, ambulatory care, home health and long-term care and computer applications. Prerequisite: HIA 410; HIA 411.

HIA 421 Health Information Systems Analysis (5) Examines lifestyle systems development process, project management, analysis of health information systems, and user requirements. Prerequisite: HIA 420.

HIA 450 Organizational Theory in Health Facilities and Healthcare Delivery (3) Addresses the organization of healthcare services across the spectrum of healthcare delivery systems – both governmental (federal, state, local) and private. Financing of healthcare services and related policy issues are explored.

HIA 460 Management Project I (3) Explores the development of management skills and competencies.

HIA 462 Management Project II (3) Explores applied management using a formal project. Prerequisite: HIA 460.

HIA 470 Legal Concepts for Health Fields (3) Examines principles of law as applied to the health field, with reference to health information management.

HIA 480 Management, Problem-Solving and Decision-Making (4) Provides the tools and experiences useful at a management level for problem-solving and decision-making in health information administration.

HIA 499 Independent Study (2-5) .

Health Services

HSERV 475 Perspectives in Medical Anthropology (5) *Rhodes* Introduction to medical anthropology. Explores the relationship among culture, society, and medicine. Examples from Western medicine as well as from other medical systems, incorporating both interpretive and critical approaches. Offered: jointly with ANTH 475.

HSERV 480 Issues in Public Health (1-3, max. 6) *Bezuchka, Sappington, Wing* Problems and issues in epidemiology, health services delivery and administration, environmental health, pathobiology, biostatistics, and related fields.

HSERV 481 Issues in Public Health (2) *Bekemeier* Introduction to public health taking an in depth look at local public health practice. Focuses on practical solutions for real life problems in local public health settings. Uses modified problem-based learning (PBL) format. Framework is 10 Essential Public Health Services. Student groups prepare for and explore new issues. Offered: W.

HSERV 482 The Health of Populations (2) *Bezuchka* Explores what makes a population health or unhealthy. Examines why the USA is less healthy than all the other rich countries, despite being one of the healthiest fifty years ago. Offered: Sp.

HSERV 490 Undergraduate Special Topics (1-6, max. 12) Collect and analyze literature related to historical and current public health issues, problems and programs; analyze information and develop written summaries to demonstrate increased knowledge and competencies as applied to public health. Prerequisite: HSERV 480.

HSERV 499 Independent Study in Health Services (1-12, max. 12) Individual library or field study project selected in consultation with a faculty adviser.

HSERV 501 Public Health Practice at the Local Level (3) *Thompson* Basic overview of state and local public health practice with leaders in the field and case studies focusing on rural and urban public health challenges. Offers preparation for practice in public health agencies. Prerequisite: HSERV 511 or permission of instructor. Offered: jointly with EPI 501; Sp.

HSERV 503 Public Health Informatics and Surveillance (3) Covers collection and use of public health surveillance data in formulating policy and managing programs through lectures and real-world interactive exercises. Discusses surveillance for birth defects, environmental exposures, and hospital-acquired infections, and use of tools such as small area analysis and geographic information systems. Offered: jointly with EPI 503.

HSERV 504 Health Communication ([1-3]-, max. 3) *Downer* Overview of the theory and practice of designing, producing, and evaluating public health communication campaigns, including the use of mass media. Develops greater capacity for critical judgment about the use of communication strategies for achieving public health goals.

HSERV 505 Topics in Preventive Medicine (2) *Goldbaum* Examines current scientific knowledge and state of the art of preventive medical interventions. Discusses and considers options

for current practice. Recommended for MDs, RNs, and others with a clinical background. Credit/no credit only. Offered: jointly with EPI 525.

HSERV 507 Communication for Health Promotion: Theory and Application (3) *Meischke* Discuss and evaluate health communications theories and applications at the individual level (i.e., persuasion), interpersonal level (i.e. doctor/patient communication), and societal level (i.e., mass media). Investigate intercultural communication cutting across all levels of health communication. Examines the steps involved in the design of a health communication intervention.

HSERV 508 Dynamics of Community Health Practice (3-5, max. 5) *Chrisman* Examination of and experience with basic principles of clinical practice in community settings. Includes family as community constituent, populations at risk, community assessment, and community development. Prerequisite: Graduate standing or permission of course faculty. Offered: jointly with NURS 560.

HSERV 509 Multidisciplinary Communication in Public Health Genetics (2) *Watts* Focuses on effective communication in a multi-disciplinary context. Students will read and critique published public health genetics literature, and learn and apply principles of effective written and oral communication to public health genetics topics of their choice. Credit/no credit only. Offered: jointly with PHG 509.

HSERV 510 Society and Health (3) *Spigner* Analysis of social inequalities in health and service use by class, gender, and the social construction of race. Examines biological, cultural, social, political, and economic determinants which consistently put certain minority groups within Eurocentric societies at higher risk for inequitable health status and provision. Prerequisite: HSERV 511 or equivalent or permission of instructor.

HSERV 511 Introduction to Health Services and Public Health (3-4) *Thompson* History, organization, and effectiveness of United States health care and public health systems. Determinants of health, need, and utilization. Public and private financing. Supply and provision of personal and public health services. Managed care. Government and private sector roles. Prerequisite: graduate standing or permission of instructor.

HSERV 512 U.S. Health and Health Care: Organization, Financing, and Delivery (3) *Dowling, Wickizer* Students review and examine selected topics from literature. Includes: need and access to care; theory and effects of health insurance; private and public insurance programs; managed care; costs/expenditures; availability and organization of health resources; and quality assessment and improvement. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511. Offered: A.

HSERV 513 U.S. Health and Health Care: Population Health, Social Determinants, and Health Disparities (3) *Patrick* Explores the elements and actions of a population health approach, including conceptualizing the determinants of health, synthesizing knowledge about major social determinants, and applying knowledge to improve population health and reduce health disparities. Enrollment priority for Health Services PhD students. Prerequisite:

HSERV 511, and permission of instructor; recommended: HSERV 512. Offered: W.

HSERV 514 U.S. Health and Health Care: Health Policy Research (3) *Lafferty* Extends students' understanding of the nature of health policy and health policy development in the context of a market-based economy. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511, and permission of instructor; recommended: HSERV 512/513. Offered: Sp.

HSERV 516 Introduction to Health Services — Extended Degree(4) *Wickizer* Provides overview of health care system, exposes students to current issues and developments affecting organization and delivery of health services, helps students develop ability to frame and analyze questions and issues related to health services. Prerequisite: registration in Extended Degree program. Offered: A.

HSERV 517 Provision of Health Services — Extended Degree (2) *Baessler* Builds on material covered in 516 and provides students with tools used to evaluate alternative health delivery systems; exposes students to various international health delivery systems; encourages students to decide how to organize such a system. Prerequisite: HSERV 516, registration in Extended M.P.H. Degree program. Offered: W.

HSERV 518 Social and Ethical Issues (2-4, max. 4) *Mastroianni* Presents introduction to ethical issues in public health policy and practice. Additional one credit option focuses on health administration/managed care. Coursework designed to train students in basic skills of ethical analysis and increase competency in recognizing, researching, and analyzing issues arising in public health and health services delivery.

HSERV 520 Methods in Applied Community Research ([1-3]-, max 3) *Astley* Skills/knowledge necessary to conduct orderly investigation of specific problems in preparation for M.P.H. thesis or project. Includes problem identification, posing research questions, literature review, consideration of theoretical/practical context, choosing study design, data collection, protection of human subjects, and recognizing potential errors. Credit/no credit only. Prerequisite: registration in Extended M.P.H. Degree program.

HSERV 522 Health Program Evaluation ([1-4]-, max. 4) *Grembowski* Politics, theory, methods of evaluation, from simple health programs to evaluation of large-scale interventions. Emphasizes experimental and quasi-experimental designs to estimate program impacts, as well as evaluation of program implementation. Case studies drawn from health field illustrate various types of evaluations. Prerequisite: background in introductory statistics.

HSERV 523 Advanced Health Services Research Methods I (4) *Diehr, Maciejewski* Examines how to apply research methods and addresses recurring issues in health services research. Covers statistical theory that motivates the methods and empirical work that demonstrates a method's use. Enrollment priority for Health Services PhD students. Prerequisite: either HSERV 511, BIOST 511/512/513, BIOST 517/518, or EPI 511/512, and permission of instructor. Offered: A.

HSERV 524 Advanced Health Services Research Methods II (4) *Zimmerman*

Emphasizes the application of advanced biostatistical/econometric techniques in applied research. Examines a wide variety of posed research questions and demonstrates how to best obtain answers. Enrollment priority for Health Services PhD students. Prerequisite: either HSERV 511, BIOST 511/512/513, BIOST 517/518, or EPI 511/512, and permission of instructor. Offered: W.

HSERV 525 Advanced Health Services Research Methods III (4) *Sales* Introduction to methods of handling data and conducting basic analyses in the broad and heterogeneous field of health services research. Examine concepts and conduct hands-on research using large, public use data. Enrollment priority for Health Services PhD students. Prerequisite: either HSERV 511, BIOST 511/512/513, BIOST 517/518, or EPI 511/512, and permission of instructor. Offered: Sp.

HSERV 527 Survey Research Methods (4) *Martin* Provides students with skills in questionnaire development and survey methods. Develop a questionnaire and design a survey research proposal on a health-related or social topic. Prerequisite: either HSERV 511-513; BIOST 517-518; or EPI 512-513, which may be taken concurrently or permission of instructor is required, and students should have a survey project in mind. Offered: jointly with CS&SS 527.

HSERV 526 Qualitative Research Methods for Public Health (4) *Bezruchka* Covers a range of qualitative, ethnographic tools for practical applications in public health. Methods covered include direct observation, informant interviews, focus groups, and formal methods. Covers Rapid Assessment Procedures and Participatory Action Research. Student teams investigate research questions using these techniques. Offered: Sp.

HSERV 528 Critically Appraising and Applying Evidence in Health Care (3) *Pinsky, Wolf* Literature appraisal skills for various articles (therapy effectiveness, diagnostic tests, literature reviews, clinical measurement, prognosis, quality of care, decision analysis, causation/etiology, guidelines, and economic evaluation). Appraisal of clinical information from literature, strengths/weaknesses of data, analyses, study design/applicability to a current patient's problem. Prerequisite: permission of instructor. Offered: jointly with MEDED 540; W.

HSERV 529 Introduction to Systematic Reviews and Meta-analysis of Evidence (2) *Wolf* Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: introductory-level courses in statistics, epidemiology, or biostatistics. Offered: jointly with MEDED 541; Sp.

HSERV 531 Problems in International Health (4) *Gloyd* Explores social, political, economic, environmental determinants of developing countries' health; traces development of societal responses to problems. Includes: origins of primary health care; child survival; traditional systems; population; water; sanitation; international agencies; impact of economic policies. Case study formulating pharmaceutical policy in a developing country. Offered: jointly with EPI 531; A.

HSERV 532 International Health-Introduction and Topics (4-, max. 8) Encourages students to demonstrate their facility with concepts and readings by creating short essays on selected topics. Overview emphasizing assessment, assurance, policy development, and the future of global health.

HSERV 533 Population, Health, and Development (2) *Povey* Provides students with an introduction to demographic conditions in Third World countries and an understanding of the consequences of rapid population growth on health and the environment. The context and effectiveness of family planning programs is a major focus.

HSERV 534 Global Population Health and Development (3) *Bezruchka* Looks at determinants of population health in different countries, to learn about the constraints of typical public health and development paradigms. Topics include colonialism, development and underdevelopment, political economy, culture, health behaviors, hierarchy, health care and medical harm. Prerequisite: experience working in a health program.

HSERV 536 Emerging Infections of International Public Health Importance (3-, max. 3) *Kimball* Overview of current emerging infections worldwide and contributing factors. Design of a surveillance and prevention strategy required. Offered: jointly with EPI 529; in residence, odd years; online, even years; W.

HSERV 537 Economic Development and Health (1, max. 3) *Gish* Discusses issues of broad interest in the areas of economics, development, and health. Credit/no credit only. Offered: A/WSp.

HSERV 539 Research Methods in Developing Countries (3/4) *Gloyd, Mock* Simple, practical methodologies to obtain and validate information regarding health status and health services in developing countries. Usefulness, validity, limitation of vital records, health reports, household (and cluster) surveys, nutritional anthropometry, and qualitative methods discussed. Lectures, computer lab, and student participation in community-based survey. Offered: jointly with EPI 539; W.

HSERV 540 Nutrition in Developing Countries (3) *Bruemmer, Gorstein* Introduces issues of nutrition in developing countries, with an emphasis on the control and prevention of under nutrition and micronutrient deficiencies. Offered: jointly with NUTR 555; Sp.

HSERV 541 Topics in Maternal and Child Health I (3-, max. 3) *Bell* Historic, legislative, organizational, and financial basis of health and social services for families and children in United States. Effects of changing family structure and norms; factors affecting health care needs of specific populations, including racially and ethnically diverse groups; impact of policies/programs on health and well-being of families and children.

HSERV 542 Epidemiology of Maternal and Child Health Problems (3-4-, max. 4) *Emanuel, Williams* Contributions to understanding and prevention of major maternal and child health problems, including pregnancy outcome, infant and child morbidity and mortality, maternal morbidity and mortality, abnormal child growth and development, and early-life factors in adult health problems. Prerequisite: graduate, medical,

or dental school standing and 511 or 512 or permission of instructor. Offered: jointly with EPI 521.

HSERV 543 Topics in Maternal and Child Health III (3) *Huebner* Provides an overview of contextually based frameworks for understanding growth and development. Identifies and describes the conceptual basis and theory of change that underlie successful preventive intervention efforts to promote the well being of children and reduce common MCH problems.

HSERV 544 Maternal and Child Health in Developing Countries (3) *Mercer* Emphasizes critical health problems of women and children in developing countries in social, economic, and cultural contexts. Practical approaches to developing MCH programs shared via lecture/discussions, exercises, and small group work. Students acquire skills in baseline assessment, setting objectives, planning and evaluating interventions, and involving communities. Offered: jointly with EPI 544; Sp.

HSERV 548 Social Determinants of Health Research Methods (3) *Beresford, Smith* Explores study design, measurement and analytic issues applicable to research into the social determinants of health. Semi-weekly graduate-level seminar offered to students with a basic knowledge of epidemiological and biostatistical principles. Prerequisite: either EPI 511 or EPI 512/EPI 513; BIOST 511/BIOST 512 or BIOST 517/BIOST 518. Offered: jointly with EPI 548; W.

HSERV 550 Policy and Economics: Fundamentals and Applications (3) *Katz, Watts* Explores how values drive the structure of societies, economic systems, public policies, and ultimately, allocation and distribution of resources. Explores how science and community values intertwine in the development of health policy, and how ideology, culture, and history influence structure and change a nation's health system. Offered: W.

HSERV 551 Health Law (2) Analysis of law, the legal system and current legal problems as they relate to the financing and delivery of health care services. Offered: Sp.

HSERV 552 Health Policy Development (3-, max. 3) *Katz, Watts* Focuses on development of public policy concerning medical care and public health and the relationship between public decisions and the market place. Using contemporary policy issues as case studies, examines the role science, ideology, culture, and history play in influencing the structure of and changes to a nation's health system.

HSERV 553 Politics of Health Care (3) *Hagens* Understanding of health policy making within the context of American politics. Health policy making is examined in light of political leadership, the legislature, the initiative process, rule making, interest groups, and lobbying. Prerequisite: HSERV 551, a basic understanding of the American health care system, or permission of instructor.

HSERV 554 Health Legislation Seminar (1) *Beyer, Seib* Discussion of current state of health policy, topics with legislative staff and others involved with state health policy. In addition to four sessions on campus, course meets once in Olympia during legislative session. Credit/no credit only.

HSERV 560 Adult Learning: Theory and Practice (3) *Downer* Designed to help students apply Popular Education theory and practice to preparation, presentation, and evaluation of health education. Students design, teach, and evaluate four separate teaching sessions (one between each seminar) using theory and principles of Popular Education learned to date. Prerequisite: graduate standing or permission of instructor.

HSERV 561 Introduction to Health Promotion and Planning (3) *Downer* Overview of behavior change theory and comprehensive approach to planning, implementing, and evaluating health promotion interventions. Links theory to practice. Uses PRECEDE/PROCEED planning model by Green and Kreuter as framework. .

HSERV 570 Seminar on Issues in Social Medicine (3) *Rhodes* Qualitative research organized around selected works in sociology, anthropology, and public health. Readings and discussion of literature, individual class presentations. Addresses fellowship programs and student research projects.

HSERV 571 Cultural Competency for Public Health Practice (1-4, max. 4) *Thornton* Application of cultural competency to clinical practice, health care management, and health services research when working with culturally diverse populations. Methodological orientation is qualitative, historical, and ethnographic. Lecture, narratives, discussions, guest presentations, film, video. Interdisciplinary perspective appropriate for graduate students in public health, health administration, nursing, social work, and anthropology. Offered: Sp.

HSERV 572 Community Development for Health (4) *Hagopian, House* Learn the literature, theory, history, and accepted knowledge in the fields of community development, activism, and community organizing within a health systems context. Provides a forum for exploring approaches to community development and organizing. Gain specific skills and master techniques. Offered: W.

HSERV 573 Community Development for Health Seminar (1) Explores the importance of community as a determinant of health, and how public health workers can help strengthen communities. Companion course to HSERV 572. Meets Friday afternoons to hear community organizers and leaders in community development.

HSERV 574 Seminar in Biobehavioral Interventions, Communications, and Cancer Outcomes I (3) An intensive, case-focused review of methods for conducting research in cancer prevention and control, covering areas related to epidemiology, genetic epidemiology, clinical trials, and translational research as it applies to cancer. Includes faculty lectures, discussions of new proposals, and trainee presentations of research ideas.

HSERV 575 Cancer Prevention and Control (3) *Bowen* Provides an overview of research in cancer prevention and control for students training for a career in this field. Students identify major areas of prevention and control research, conduct an analysis of data in cancer prevention and control, and learn to prepare a research project grant. Prerequisite: permission of instructor.

HSERV 576 Health, Culture, and Community (3) A theory and skills class concerning

development of personal and organizational cultural competence in community-based participatory research. Core concepts of cultural competence are considered as they are practiced in community settings. Fieldwork required. Offered: jointly with NURS 557.

HSERV 580 Society, Chronic Illness, and Disability (3) *Hedrick* Definition and assessment of chronic illness, disability, and health status. Analysis of chronic illness and disability using frameworks from social sciences and public health. Dimensions of disablement as they affect provision of health services. Research on effectiveness of services and approaches to improvement. Prerequisite: HSERV 511 or permission of instructor.

HSERV 581 Strategies of Health Promotion (4) *Bowen, Drewnoski* Assessment of health promotion planning, implementation, and evaluation strategies for their strengths, weaknesses, and effectiveness. Students critique strategies to modify behavioral factors that influence lifestyles of individuals, including decisions influencing their reciprocal relationship with environmental factors affecting the health of individuals, organizations, and communities. Offered: jointly with NUTR 581. Prerequisite: HSERV 511.

HSERV 582 Theoretical Perspectives on Health Behavior Change ([3-4, max. 4]-) *Meischke* Overview of the theoretical perspectives in health behavior at the individual, interpersonal, and community level. Focuses on increasing skills in describing, applying, and integrating these frameworks in the design and evaluation of health promotion interventions. Prerequisite: HSERV 511 or permission of instructor.

HSERV 583 Economic Evaluation in Health and Medicine (3) *Sullivan, Veenstra* Methods and techniques for evaluating costs and cost-effectiveness of health, medical, and pharmaceutical interventions. Emphasis on economic evaluation, decision analysis, and modeling techniques for resource allocation and decision making. Applications to technology assessment, health policy, clinical practice, and resource allocation. Prerequisite: permission of instructor. Offered: jointly with PHARM 534; A.

HSERV 584 Evaluating Cost and Outcomes in Health and Medicine 2 (3) *Patrick, Sullivan, Veenstra* Concepts and methods for evaluating cost and outcomes of health and medical interventions with a focus on cost-effectiveness analysis, pharmacoeconomics, health and quality of life assessment, resource allocation, and medical decision-making. Prerequisite: permission of instructor. Offered: jointly with PHARM 535.

HSERV 585 Seminar in Medical Geography (5, max. 10) Intensive research seminar dealing with new and promising research themes in medical geography and public health. Offered: jointly with GEOG 581; A.

HSERV 586 Medical Geography (3) *Mayer* Geography of disease, consideration to health systems planning. Distributions, diffusion models, migration studies. Application of distance, optimal location models to health systems planning; emergency medical services, distribution of health professionals; cultural variations in health behavior. Prerequisite: familiarity with social science research, health-related issues. Offered: jointly with GEOG 580.

HSERV 587 Health Policy Economics (3) *Watts* Applies economic theory to selected topics in health care, including information, risk and insurance, industry organization, government regulation, and public health issues. Emphasizes policy implications of these applications.

HSERV 588 Community Approaches to Health Promotion (3) *Thompson* Provides opportunities to critically examine community-based health promotion interventions and the design, evaluation, and implementation issues they raise. A wide range of disciplinary perspectives is presented. Case studies and class projects are designed to give students the skills needed to critically assess community projects around health promotion.

HSERV 589 Epidemiologic Research in Aging Populations (3) *LaCroix* Emphasizes application of epidemiologic methods to the study of older populations. Topics include: compression of morbidity; successful aging; methodological challenges in studying older populations; physical, cognitive and social function as epidemiological endpoints; chronic conditions of the aging (heart disease, cancer, Alzheimer's disease, dementia, osteoporosis, fractures); health promotion strategies. Prerequisite: EPI 511 or EPI 513. Offered: jointly with EPI 589.

HSERV 590 Selected Topics in Health Services (*-) By individual arrangement, the student and faculty member(s) develop a program of reading and conference appropriate to the topic selected by the student. The topic chosen will be within the special competence of the faculty participating in the course, in the areas of health-care delivery and health-care administration. Also special summer format presenting introductory material may be taken with ENV H 590 and/or EPI 590. For more information and permission, consult department program adviser.

HSERV 591 Community Oriented Public Health Practice (1-6, max. 42) Seven-quarter integrated sequence covers public health aspects of community assessment, biostatistics, epidemiology, health promotion/disease prevention, behavior change, environmental health, community development, policy development and analysis, and program planning and management. It is taught in a problem-based format. Prerequisite: enrollment in the COPHP program.

HSERV 592 Program Seminars (1-6, max. 6) Graduate seminars organized to address specific educational needs of students in various fellowships, residencies, and other specialized programs within the Department of Health Sciences (i.e., maternal and child health, international health, preventive medicine, social and behavioral sciences). Prerequisite: permission of instructor.

HSERV 595 Practicum/Field Work in Community Medicine (1-12-, max. 12) Experience in variable time blocks in community health activities in agencies delivering and planning health services. Sites include neighborhood clinics, health planning bodies, medical practice settings, public health agencies, special problem clinics and facilities, environmental programs and services. Prerequisite: master's student in health services and permission of instructor.

HSERV 598 Extended Degree Program Project Option (*, max. 9) Supervised project work on a

selected topic related to student's concentration in graduate study. Includes survey of literature, development of approach, and written paper on conclusions. Prerequisite: registration in extended MPH degree program and satisfactory completion of the first summer's course work.

HSERV 600 Independent Study or Research (*) Prerequisite: permission of instructor.

HSERV 700 Master's Thesis (*) Prerequisite: permission of instructor.

HSERV 800 Doctoral Dissertation (*).

Health Services Management

HSMGMT 501 Epidemiology/Critical Evidence Appraisal (3-4) *Kopjar* Basic knowledge about methods used in epidemiology and their application to critical appraisal of clinical, epidemiological, and health administration literature for evidence-based management of healthcare organizations, improvement of delivery of health services, and for creating health policies. Offered: W.

HSMGMT 502 Evidence-Based Health Care Planning (3-4) *Kopjar, Richardson* Applies the techniques of statistics, epidemiology, and critical evidence appraisal to the design and evaluation of population-based health care programs. It is the third course in a three-course sequence. Offered: Sp.

HSMGMT 512 Introduction to Management in Health Services (3) *Dowling* Overview of managerial roles, such as supervising and motivating, approaches to organizational and environmental assessment and change, and development of systems analysis skills. For students pursuing careers in research and teaching who are likely to have management responsibilities.

HSMGMT 513 Seminar in Healthcare Finance(4) *Conrad* Focuses on case studies and modern theory in managerial finance relevant to health services. Students prepare group presentations and individual case study analyses of health services finance problems. Builds on accounting and finance principles ACCTG 503 and HSMGMT 571, or the equivalent, are recommended prerequisites, but not required. Offered: Sp.

HSMGMT 514 Health Economics (3/4) *Wickizer* Uses economic concepts and tools to examine range of issues pertaining to health care, delivery of health care services. Includes demand analysis, production of health services, expenditure growth, markets for hospital and physician services, externalities. Emphasis on using economics to examine issues and solve problems. Prior economics courses not required. Offered: W.

HSMGMT 522 Applied Data Analysis (3) *Cheadle, Connell* Practical experience in quantitative research, using a data set of their choosing to formulate a research question, clean and edit the data, and do the analysis. For second-year students in the School of Public Health who plan to do quantitative analysis for the their thesis or project. Credit/no credit only. Offered: W.

HSMGMT 523 Informatics in Health Care Management (3) *Masuda* Medical informatics concerns the representation, organization, and manipulation of biomedical information and

knowledge. Exposes students to a high-level understanding of informatics and its health care applications. Discussion of successes and failures in implementing information technology focuses on gaining leadership and management knowledge that embraces informatics. Offered: W.

HSMGMT 543 Social and Behavioral Strategies for Improving Health (3) *Sloma* Explores social dimensions of health and medical care. Learn to identify key social and cultural principles that guide appropriateness in health care. Introduced to tools used to influence social expectations and personal behavior in relation to illness, health, and demand for medical treatments. Offered: S.

HSMGMT 545 Capstone Integrative Seminar (4) *Scott* Designed to assist students in the transition from theory to practice. Emphasis on sharpening analytical and intuitive leadership practices through the use of interactive case studies and team building exercises and field projects. Prerequisite: second-year MHA students. Offered: Sp.

HSMGMT 546 Long-Term Care (3) *Hawley* Learning experience for graduate students in health services administration, planning, other graduate students to increase their ability to identify and solve problems related to long-term care they confront in their employment. Students are exposed to available knowledge in the field; effective problem-solving attitudes and techniques for organizing information and/or developing strategies, and agencies in the field. Prerequisite: HSERV 511 or permission of instructor.

HSMGMT 560 Management Practice in Health Care and Public Health Organizations (1-3,max. 3) *Richardson, Sappington* Introduction to leadership and management, focusing on effective strategies for creating a productive work environment. Organizational structure and strategy introduced. Case studies and other problem-solving methods, using health services applications are utilized in order to apply theoretical material. Prerequisite: graduate student. Offered: Sp.

HSMGMT 561 Health Planning: The Management of Change (3-4) *Erbsdoeser* Designing realistic implementation strategies at beginning of planning process to optimize impact of planning on real problems. Discussion of ways in which change is brought about and decisions are made and implemented. Includes managing planning process, work plans, stakeholders, negotiation, and working with groups. Prerequisite: HSERV 511 or permission of instructor. Offered: A.

HSMGMT 562 Strategic Management of Health Care Organizations (3-4, max. 4) *Dowling* Management of goals, strategy, and structure in health care organizations. Design of external relationships and internal structures., strategy-formulation, decision-making, and change. Integration of professional, social, and organizational values. Theory, student and practitioner experience, and case studies used to enhance repertoire of management approaches and skills. Prerequisite: HSERV 511 and HSMGMT 560 or equivalent.

HSMGMT 563 Personnel Management for Health Professionals (3) *Kienast* Designed for midcareer health services professionals developing strategies and skills in human

resource management. Focuses on policy and practice issues important to handling day-to-day personnel problems-selection, promotion, performance appraisal, discipline, grievances. Prerequisite: registration in Extended M.P.H. Degree program or permission of instructor; non-business majors.

HSMGMT 565 Quantitative Decision Making for Health Services Management (3) *Pilcher* Applications of various quantitative techniques for problem solving, monitoring, controlling, decision making in health services. Identifying problem area, communications with consultant, evaluation to the quality and applicability of analyst's work. Statistical, mathematical, operations research, industrial engineering techniques. Prerequisite: QMETH 500 or BIOST 509 or permission of instructor.

HSMGMT 566 Decision Support Models for Health Services (3) *Pilcher* Management science and approaches developed as applied to problems in public health. Emphasizes conceptual understanding of processes/application of systematic, and rational approach to managerial problem solving, including cost-benefit, cost effectiveness analysis. Prerequisite: BIOST 502 and 503, or BIOST 511; registration in Extended M.P.H. Degree program; non-business majors.

HSMGMT 571 Health Care Financial Management (4) *Conrad, Stillman* Third course in a three-course sequence dealing with the management of health services institutions and programs. Topics covered are: health services law, hospital and program policy decisions, financial planning, and hospital design and architecture; and the presentation of hospital survey and health services research project reports. Prerequisite: HSERV 511 and ACCTG 500 or ACCTG 501 or permission of instructor.

HSMGMT 572 Financial Management for Health Professionals (3) Intensive review of basic accounting principles/terminology and an introduction to financial management/managerial accounting, including budgeting for managerial control, planning, cost accounting, financing health programs. Managerial accounting, program costing, rate setting, budget preparation. Prerequisite: BIOST 502 and BIOST 503, or BIOST 511; registration in Extended M.P.H. Degree program or permission of instructor; non-business majors.

HSMGMT 573 Seminar in Health-Care Finance (3) *Pinsky, Wolf* Practical applications of corporate finance principles. Applies theoretical framework to health-care financial problems, including capital investment analysis, leasing vs. borrow-to-buy, debt capacity analysis, bond refunding, control of capital, joint venture. Prerequisite: either HSMGMT 514, HSMGMT 587; ECON 400, or ECON 500; ACCTG 503 (or equivalent); HSMGMT 571; or permission of instructor.

HSMGMT 574 Financial Management I (3-4) *Stillman* Prepares clinical professionals for participating intelligently in, and contributing to, financial decisions of health care organizations. Learn the language and fundamental concepts of accounting and finance, and become comfortable with what is required in formal financial analysis. Offered: A.

HSMGMT 575 Financial Management II (4) *Conrad, Stillman* Second in a two part series, the emphasis of this financial management course is

on preparing medical executives for managerial and leadership roles in health care organizations. Focus is on tools and analytic frameworks that health care managers use to make forward-looking decisions, including capital budgeting and risk analysis. Offered: W.

HSMGMT 590 Select Topics (1-6, max. 12) By arrangement, students and faculty members develop a program of reading and conference appropriate to the selected topic. The topic chosen is within the special competence of the faculty member participating in the course in the area of health services management.

HSMGMT 592 Health Management Program Seminar (1-6, max. 6).

Pathobiology

PABIO 201 Newly Emerging Diseases in Public Health (2) *NW Kenny* Newly recognized and emerging disease pose a major problem for public health. AIDS, hantavirus infections, Ebola virus infections, and the role of bacterial infection in the causation of stomach ulcers are examples of problems to be studied. Other timely diseases are presented in this lecture discussion course. Offered: A.

PABIO 301 Prevention of Infectious Diseases (3) *NW Kenny* Consideration of means of prevention of major classes of infectious diseases from the public-health view point. Classes of diseases are defined by site of infection (e.g. respiratory) or common mechanisms of spreading. Respiratory, sexually transmitted, water-borne, and tropical diseases. Prerequisite: either MICROM 301 or BIOL 201. Offered: Sp.

<t>UCONJ 420 Biological Safety Practices (1) *Kenny* See University Conjoint courses.

PABIO 498 Undergraduate Thesis (*) .

PABIO 499 Undergraduate Research (*) .

PABIO 500 Introduction to Pathobiology Research (3-9, max. 9) Rotation through research laboratory. Credit/no credit only.

PABIO 511 Pathobiological Frontiers (2) *Kenny* Molecular and immunological concepts of infectious and noninfectious diseases presented in format suitable for graduate students knowledgeable in health-related areas who are not in biology-oriented programs. Allergy, immune responses, nature of infectious agents, prevention of disease with emphasis on newly defined diseases and disease agents. Prerequisite: permission of instructor.

PABIO 525 Cell Surface Membrane in Cell Sociology and Immunology (2) *Carter, Hakomori* Structure and function of cell surface membranes in relation to development of various diseases, particularly infection, cancer, and

inflammation. Examines how specific cell surface molecules are targets of recognition by microbes, tumor cells, and recruited inflammatory cells. Prerequisite: BIOC 440, BIOC 441, BIOC 442, and permission of instructor. Offered: jointly with MICROM 525.

PABIO 536 Bioinformatics and Gene Sequence Analysis (3) *Rose* Nature and relevance of molecular sequence information, computer-based protein, and DNA sequence analysis, molecular sequence and genomic databases, and methods for database accession and interrogation. Prerequisite: background in molecular biology and permission of instructor. Offered: jointly with MEDED 536; ASp.

PABIO 540 Antibiotic Resistance Mechanisms and Their Impact on Public Health (3) *Roberts* Lectures covering resistance mechanisms against bacterial antibiotics, antiviral, antiparasitic, and cancer drugs. Topics also include the effects that resistant microorganisms have on therapy and cancer treatment and their impact on public health. Prerequisite: permission of instructor.

PABIO 548 Molecular and Cellular Parasitology (3) *Feagin* Molecular and cellular biology of parasites of health-related significance, emphasizing current research topics unique to parasites, particularly well-suited for study in parasites, and especially important to study in host-parasite systems. Prerequisite: familiarity with molecular and cellular biology and permission of instructor. Offered: even years; Sp.

PABIO 550 Diseases of Public Health Importance and Strategies for their Control (3) Public Health perspective of major disease of national and global importance. Discussion of origins, establishment, progression, and pathogenesis of diseases. Importance of immunological, intercellular and external factors, and strategies of disease prevention. Requires a grounding in cellular and molecular biology, microbiology, and immunology. Prerequisite: permission of instructor.

PABIO 551 Biochemistry and Genetics of Pathogens and Their Hosts (4) . Provides a strong foundation in biochemistry, molecular biology, and genetics for students interested in disease. Principles will be illustrated through examples focusing on pathogens, and infectious and non-infectious disease. Prerequisite: undergraduate level course work in molecular biology or biochemistry or permission of instructor.

PABIO 552 Cell Biology of Human Pathogens and Disease (4) Cell biology and immunology explored through diseases of public health importance with examples of pathogen interaction with host cell biology and immune systems, unique aspects of the cell biology of pathogens, perturbations of these systems in non-infectious diseases and design of therapeutics and vaccines to combat diseases of public

health importance. Prerequisite: undergraduate level coursework in biology or molecular biology or permission of instructor.

PABIO 553 Survival Skills for Scientific Research (2) *Lukehart, Parsons* Focuses on skills needed for scientific career: writing abstracts, curriculum vitae, research proposals; preparing for oral presentations; lab management skills; discussion of mentorship/trainee relationships; case-based discussions of various topics in ethics and scientific misconduct. Credit/no credit only. Offered: Sp.

PABIO 568 Molecular Epidemiology of Infectious Diseases (2) Application of molecular typing techniques to study of microbial pathogens to increase understanding of epidemiology of infectious diseases. Brief review of molecular biology. Evaluation of methods used in outbreaks and epidemics reported in literature. Prerequisite: PABIO 511 or PABIO 512 or permission of instructor. Offered: jointly with ENV H 568/EPI 568; W.

PABIO 580 Pathobiology Seminar (1, max. 15) Research from students, faculty members, and invited speakers is presented and discussed. Topics include immunochemistry, viruses, membranes, infectious diseases, immune response and other related topics.

PABIO 581 Current Literature in Pathobiology (1, max. 15) Develops skills in analyzing data and assessing conclusions through an analysis of current literature in Pathobiology. Focuses on breadth and analytical skills. Prerequisite: enrollment in the pathobiology graduate program.

PABIO 582 Critical Thinking and Research Design in Pathobiology (1.5) *Lingappa* Analysis of issues, hypothesis and experimental design and testing. Credit/no credit only. Prerequisite: graduate standing in pathobiology. Offered: W.

PABIO 590 Selected Topics (1-20, max. 20) Individual offerings focusing on topics such as pathogenesis, immunology, virology, disease agents, bioinformatics and grant writing. Small lecture format. Credit/no credit only. Prerequisite: permission of instructor.

PABIO 598 Didactic Pathobiology (*, max. 12) Supervised teaching experience in pathobiology courses for Ph.D. candidates. Prerequisite: permission of instructor.

PABIO 600 Independent Study or Research (*) Credit/no credit only. Prerequisite: permission of graduate program adviser.

PABIO 700 Master's Thesis (*) Credit/no credit only. Prerequisite: permission of graduate program adviser.

PABIO 800 Doctoral Dissertation (*) Credit/no credit only. Prerequisite: permission of graduate program adviser.

Reserve Officers Training Corps Programs

Aerospace Studies

A S 101 Aerospace Studies 100 (1) Focuses on the basic characteristics of air doctrine; US Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: A.

A S 102 Aerospace Studies 100 (1) Focuses on the basic characteristics of air doctrine; US Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: W.

A S 103 Aerospace Studies 100 (1) Focuses on the basic characteristics of air doctrine; US Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: Sp.

A S 211 Aerospace Studies 200 (1) Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: A.

A S 212 Aerospace Studies 200 (1) Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: W.

A S 213 Aerospace Studies 200 (1) Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: Sp.

A S 331 Aerospace Studies 300 (3) Emphasis on leadership and management fundamentals, professional knowledge, leadership ethics, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Offered: A.

A S 332 Aerospace Studies 300 (3) Emphasis on leadership and management fundamentals, professional knowledge, leadership ethics, and communicative skills required of an Air Force

officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Offered: W.

A S 333 Aerospace Studies 300 (3) Emphasis on leadership and management fundamentals, professional knowledge, leadership ethics, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Offered: Sp.

A S 431 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy and policy, methods for managing conflict, alliances and regional security to preserve American interests. Arms control and terrorism. The military as a profession, officership, the military justice system, current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Offered: A.

A S 432 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy and policy, methods for managing conflict, alliances and regional security to preserve American interests. Arms control and terrorism. The military as a profession, officership, the military justice system, current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Offered: W.

A S 433 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy and policy, methods for managing conflict, alliances and regional security to preserve American interests. Arms control and terrorism. The military as a profession, officership, the military justice system, current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Offered: Sp.

Military Science

M SCI 101 Military Science I: Basic (2) History, organization, and mission of the United States Army and the Reserve Officer Training Corps. Relationship to the citizen's military and civilian obligations. Functions and organization of the United States defense establishment. Fundamentals of leadership and management. Leadership laboratories and two field training exercises conducted during the year encompass training in field craft, survival, and small unit tactics. Offered: AWSp.

M SCI 102 Military Science I: Basic (2) History, organization, and mission of the United States Army and the Reserve Officer Training Corps. Relationship to the citizen's military and civilian obligations. Functions and organization of the United States defense establishment. Fundamentals of leadership and management. Leadership laboratories and two field training exercises conducted during the year encompass

training in field craft, survival, and small unit tactics. Offered: AWSp.

M SCI 103 Military Science I: Basic (2) History, organization, and mission of the United States Army and the Reserve Officer Training Corps. Relationship to the citizen's military and civilian obligations. Functions and organization of the United States defense establishment. Fundamentals of leadership and management. Leadership laboratories and two field training exercises conducted during the year encompass training in field craft, survival, and small unit tactics. Offered: AWSp.

M SCI 201 Military Science II: Basic (2) Develops proficiency in oral and written communications. Presents a perspective on the world wide military threat; an evaluation of tactical methodologies of the hostile nations to include conventional weapon systems employment. Control, prevention, and treatment of combat or emergency medical situations. Fundamentals of military map reading, compass and field navigation, are taught and applied. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 202 Military Science II: Basic (2) Develops proficiency in oral and written communications. Presents a perspective on the world wide military threat; an evaluation of tactical methodologies of the hostile nations to include conventional weapon systems employment. Control, prevention, and treatment of combat or emergency medical situations. Fundamentals of military map reading, compass and field navigation, are taught and applied. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 203 Military Science II: Basic (2) Develops proficiency in oral and written communications. Presents a perspective on the world wide military threat; an evaluation of tactical methodologies of the hostile nations to include conventional weapon systems employment. Control, prevention, and treatment of combat or emergency medical situations. Fundamentals of military map reading, compass and field navigation, are taught and applied. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 301 Military Science III: Advanced (3) Small-unit tactics, emphasizing the importance of firepower, movement, and communications. Duties, responsibilities, and methods of employment of basic military units. Leader's role in directing and coordinating individuals and military units from squad to company level. Students are introduced to the planning and conduct of individual and group physical conditioning activities, stressing positive motivation to establish high standards of morale and esprit. Principles and techniques of command, control, military management, and leadership are taught and practiced throughout the academic year. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 302 Military Science III: Advanced (3) Small-unit tactics, emphasizing the importance of firepower, movement, and communications. Duties, responsibilities, and methods of employment of basic military units. Leader's role in directing and coordinating individuals and

military units from squad to company level. Students are introduced to the planning and conduct of individual and group physical conditioning activities, stressing positive motivation to establish high standards of morale and esprit. Principles and techniques of command, control, military management, and leadership are taught and practiced throughout the academic year. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 303 Military Science III: Advanced (3)
Small-unit tactics, emphasizing the importance of firepower, movement, and communications. Duties, responsibilities, and methods of employment of basic military units. Leader's role in directing and coordinating individuals and military units from squad to company level. Students are introduced to the planning and conduct of individual and group physical conditioning activities, stressing positive motivation to establish high standards of morale and esprit. Principles and techniques of command, control, military management, and leadership are taught and practiced throughout the academic year. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 305 Practicum-Techniques of Military Instructions (1-3, max. 3) Analysis, review of techniques used in military training and instructions. Students plan, rehearse, deliver, provide written critique on block of military instruction from the Military Qualification Skills Manual.

M SCI 401 Military Science IV: Advanced (3)
I&S The Army officer's position in contemporary world and impact on problems within the military service. Use of a developmental study to provide awareness of personal responsibilities and official relationships of an Army officer. Organization and functions of command and staff positions. Coordination of administration, logistics, and planning for military operations. Basic concepts of legislative and executive authority for the Uniform Code of Military Justice (to include a study of the officer's authority and responsibility within the military justice system). Problem-solving techniques used by small-unit leaders, emphasizing coordination and planning by the junior officer. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 402 Military Science IV: Advanced (3)
I&S The Army officer's position in contemporary world and impact on problems within the military service. Use of a developmental study to provide awareness of personal responsibilities and official relationships of an Army officer. Organization and functions of command and staff positions. Coordination of administration, logistics, and planning for military operations. Basic concepts of legislative and executive authority for the Uniform Code of Military Justice (to include a study of the officer's authority and responsibility within the military justice system). Problem-solving techniques used by small-unit leaders, emphasizing coordination and planning by the junior officer. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

M SCI 403 Military Science IV: Advanced (3)
I&S The Army officer's position in contemporary world and impact on problems within the military service. Use of a developmental study to provide awareness of personal responsibilities and

official relationships of an Army officer. Organization and functions of command and staff positions. Coordination of administration, logistics, and planning for military operations. Basic concepts of legislative and executive authority for the Uniform Code of Military Justice (to include a study of the officer's authority and responsibility within the military justice system). Problem-solving techniques used by small-unit leaders, emphasizing coordination and planning by the junior officer. Leadership laboratories and two field training exercises during the year. Offered: AWSp.

Naval Science

N SCI 111 The Naval Service (3) *Beznoska*
General introduction to the Navy, its organization, missions, roles, tasks, and operating methods. The relationship to the other services within the Department of Defense is emphasized. Offered: A.

N SCI 112 History of U.S. Sea Power I (2)
Neely A comprehensive study of the role of sea power in the history of the United States, the current status of the various elements of the nation's sea power as they influence the development and implementation of national security policy. Offered: W.

N SCI 113 History of U.S. Sea Power II (2)
Neely A comprehensive study of the role of sea power in the history of the United States, the current status of the various elements of the nation's sea power as they influence the development and implementation of national security policy. Offered: Sp.

N SCI 211 Naval Weapon Systems (3) *Longazel*
Study of fundamental principles of sensor, tracking, weapon delivery subsystems, and current naval weapons. Includes techniques of linear analysis of ballistics and weapons, and dynamics of basic components of weapon-control systems. Offered: A.

N SCI 212 Naval Ship Systems I (3) *Longazel*
Study of fundamental principles of energy transfer and thermodynamics. An introduction to nuclear propulsion, gas turbines, and auxiliary power systems. Offered: Sp.

N SCI 213 Naval Ship Systems II (3) *Longaze*
Study of ship characteristics, ship design, hydrodynamic forces, stability, damage control, and shipboard electrical systems. Includes introduction to engineering documentation, electrical safety, preventative maintenance, and personnel qualifications. Offered: Sp.

N SCI 311 Navigation (3) *NW Partridge* The science and practice of maritime coastal navigation, including visual fixing, dead reckoning, and piloting methods. Computation of tides and currents and nautical rules of the road. Offered: A.

N SCI 312 Navigation II (3) *NW Partridge* Basic theory and practice of celestial and electronic navigation. Relative motion theory and contact coordination practice in a multiple ship environment. Offered: W.

N SCI 313 Naval Operations (3) *Partridge*
Introduction to naval operations, the employment of naval forces, naval tactics, formulation of operations plans and orders, employment of detection equipment, and meteorology. Offered: Sp.

N SCI 321 Evolution of Warfare I (3) *Pochop*
Introduction to the art of war, the evolution of warfare from the earliest recorded battles to the present day. Offered: A.

N SCI 322 Evolution of Warfare II (3) *Pochop*
Introduction to the art of war, the evolution of warfare from the earliest recorded battles to the present day. Prerequisite: N SCI 321. Offered: W.

N SCI 323 USMC Leadership and Administration of Justice I (3) *Pochop* Concepts, objectives, characteristic qualities, and practical techniques of leadership as exercised by the Marine Corps officer. Emphasizes leadership and management role of the junior officer in the Fleet Marine Forces. Intensive physical activities and outdoor projects to test an individual's physical and mental endurance. Offered: Sp.

N SCI 411 Introduction to Naval Leadership (3) *I&S Keith* Introduction of the theory and techniques of naval leadership based on those principles of behavioral science that are pertinent to understanding individual and group behavior of adults. Introduces the management process and the relationship of management functions to leadership. Stresses acceptance of a traditional deep sense of moral responsibility on the part of the aspiring leader. Offered: A.

N SCI 412 Military Leadership and Ethics (3) *I&S Keith* Study of leadership and ethics within a military context using applicable case studies. Examines the Law of Armed Conflict and Code of Conduct; the importance of integrity, moral courage, and ethical behavior to effective leadership; and the interrelationship between authority, responsibility, and accountability. Offered: W.

N SCI 413 Naval Organization and Management (3) *I&S Keith* Study of organization, systems, and techniques employed in the Navy for management of its human, material, and financial resources. Some of the work relates to the administration of discipline in the Navy under the Uniform Code of Military Justice. Emphasis is placed on the leadership and management role of the junior officer in the fleet. Offered: Sp.

N SCI 421 Amphibious Warfare I (3) *Pochop*
Provide basic knowledge of evolution of amphibious warfare from premodern era to present. Strategic and tactical considerations in planning specific operations and amphibious landings. Offered: A.

N SCI 422 Amphibious Warfare II (3) *Pochop*
Provide basic knowledge of evolution of amphibious warfare from premodern era to present. Strategic and tactical considerations in planning specific operations and amphibious landings. Prerequisite: N SCI 421. Offered: W.

N SCI 423 USMC Leadership and Administration of Justice II (3) *Pochop* Concepts, objectives, characteristic qualities, and practical techniques of leadership as exercised by the Marine Corps officer. Emphasizes the leadership and management role of the junior officer in the Fleet Marine Forces. Intensive physical activities and outdoor projects to test an individual's physical and mental endurance. Offered: Sp.

School of Social Work

Social Welfare

SOC WF 101 Social Work in Action: Bridging the Gap From Science to Service (5) I&S

Explores current social work practice and research applied to major societal problems. Lectures and discussions by leading faculty introduce students to the evidence-based perspective underlying program planning and practice innovation. Topics include: juvenile delinquency, child maltreatment, domestic violence, foster care reform, mental health, school violence, substance abuse, and poverty. Offered: A.

SOC WF 200 Introduction to Social Welfare Practice (5) I&S Introduction to the field of social work, including the theoretical concepts and institutional framework that guide practice. Overview of social work profession and social welfare system within which it operates. Lectures supplemented by exercises, films, guest lectures, and class discussions. Offered: A.

SOC WF 310 Social Welfare Practice I (3) *Whittaker* Provides an introduction to the roles, tasks, and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families, and small groups; and an opportunity to develop skills in problem assessment, intervention, termination, and evaluation. Offered: A.

SOC WF 311 Social Welfare Practice II (3) *Whittaker* Provides an introduction to the roles, tasks, and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families, and small groups; and an opportunity to develop skills in problem assessment, intervention, termination, and evaluation. Prerequisite: SOC WF 310. Offered: W.

SOC WF 312 Social Welfare Practice III (3) *Duplica, Whittaker* Focus on macro systems in a diverse society using the generalist perspective. The implications of system resources and configurations for meeting human needs are considered. The role and function of generalist social workers to understand and advocate for system development and change is emphasized. Prerequisite: SOC WF 311. Offered: Sp.

SOC WF 320 Social Welfare Policy (5) I&S *Duplica* Emphasizes policy and program development in social welfare with emphasis on the context, making, and unmaking of social policy. Covers policy formulation as well as current and emerging policies in social welfare. Prerequisite: SOC WF 200. Offered: WSp.

SOC WF 390 Introduction to Social Welfare Research (5) *Balassone, Roffman* Introduction to the logic of the scientific method as applied to social work and social welfare practice, to the design and conduct of a research study, and to data collection and summarization. Skill development in critical consumption of social welfare research. Prerequisite: either STAT 220 or QMETH 201. Offered: A.

SOC WF 402 Human Behavior and Social Environment I (5) I&S First of two-quarter sequence focusing on understanding human development across the lifespan. Integrates biological, psychological, structural, environmen-

tal, political, global, and socio-cultural perspectives. Explores relationship between the person and the environment including families, groups, organizations, communities, and institutions.

SOC WF 403 Human Behavior and Social Environment II (5) I&S Continuation of SOC WF 402. Prerequisite: SOC WF 402.

SOC WF 404 Cultural Diversity and Justice (5) I&S *Duplica, Sohng* History and culture of disadvantaged and oppressed groups served by Social Welfare generalist practitioners. Offered: Sp.

SOC WF 409 Readings in Social Welfare (1-5, max. 15)

SOC WF 419 Adult Development and Aging (3) I&S Introduces the field of adult development. Interdisciplinary perspective stressing the interaction of psychological, social, and physiological factors affecting the aging process. Goals are to help the student understand the processes and diversity in the aging process that can assist one's own aging and help the learner work with older adults. Offered: Sp.

SOC WF 421 Methods of Child Care and Treatment (3) *Whittaker* Focuses on an introduction to the continuum of child welfare services and presents practical approaches to working with children and adolescents in a wide variety of practice settings. Offered: alternate years; A.

SOC WF 430 Child Care Work Practice (3) *Whittaker* Specialized practice with emotionally disturbed and delinquent children in group-care settings with focus on providing child-care staff with specific tools for teaching alternative behavior. Major topics include: etiology and diagnosis, observing and recording children's behavior, special problems of group living, life-space interviewing, token economies, activity programming, group interventions, parental involvement, organizational requisites and community linkages. Offered: alternate years; A.

SOC WF 442 Building Competencies for Intergroup Dialogue Facilitation (3) Focuses on both knowledge and skills development for peer facilitators. Topics include philosophy and principles of dialogic education and dialogic communication; intergroup communication; social identity development; principles of working with conflict; group dynamics, observation, and facilitation; team building among co-facilitators; and creating a support system among instructors and facilitators. Credit/no credit only.

SOC WF 443 Facilitating Intergroup Dialogue (5) Practicum seminar providing instruction, consultation, and supervision of peer group facilitators. Focuses on comparison of facilitation experiences and consultations, trouble-shooting with other facilitators, co-facilitator team building, and planning for dialogues. Exploration of specific, current intergroup issues, such as affirmative action and immigration. Continuation of team-building work begun in 452. Credit/no credit only.

SOC WF 490 Research in Social Welfare (1-3, max. 10) Individual work with faculty member to assist with current research project (s). Students trained and supervised in some or all of the following research tasks: literature review, data

analysis, record-keeping, interviewing, report writing, data entry and coding, data collection, and other tasks commonly found in research problems in social welfare. Credit/no credit only.

SOC WF 495 Special Topics in Generalist Social Welfare (1-5, max. 5) Readings, lectures, and discussions pertaining to significant topics of special and current interest to social workers.

SOC WF 554 Globalization and International and National Social Welfare Issues and Politics (3) Critical examination of globalization and its implications for the historic and contemporary development, formulation, and adoption of policies related to international and national social welfare. Emphasizes the development of conceptual frameworks that further understanding of the complex interplay of international and national issues and social welfare policies.

Social Welfare

SOC WL 552 Analytical Perspectives on Social Welfare Policy (3) Broad overview of the social welfare policy process, including epistemological issues, content on social problem construction and definition, policy agendas and case study methodology. Introduction to analytical tools and concepts needed to take a proactive role in policy development, advocacy, implementation, and policy research. Offered: Sp.

SOC WL 553 Seminar in Contemporary Social Welfare Policy (3) Critical review of contemporary American income maintenance and related social welfare policies, and the economic, political, and social factors that affect their development, implementation, and effectiveness. Evaluation of their effects on poverty, income inequality, and related social outcomes, including international comparisons. Assessment of proposals for reform. Closely linked to 552. Offered: Sp.

SOC WL 558 Integrative Seminar (1-2, max. 2) Topic-driven seminar that targets professional development of the first and second years (scholarship, research, teaching). Active participation expected in discussions and reflective papers. May require preparation for presentation or demonstration. Offered: A.

SOC WL 559 Doctoral Seminar in Teaching Preparation (3) Focus on teaching content and issues integral to being a skillful instructor. Issues and related skills generalized to range of post-graduate positions. Promote understanding of pedagogical issues and development of specific teaching skills. Credit/no credit only. Prerequisite: doctoral student. Offered: A.

SOC WL 578 Seminar in Special Topics for NIMH Prevention Research Trainees (1, max. 9) Interdisciplinary overview of major concepts in promotion of mental health and prevention of mental distress with prevention science as framework. Provides conceptual foundations for advanced study in specialized aspects of mental health prevention research. Prerequisite: enrollment in Social Welfare Predoctoral Training Program in Prevention of Mental Health Problems and Disorders. Credit/no credit only. Offered: AWSp.

SOC WL 579 Interdisciplinary Approaches to Prevention Science: Children and Adolescents (3) Overview of theory, research, and practice in prevention science. Developmental perspective examining factors that promote or inhibit health development at different stages and during transitions (focus on birth through age 21). Designed for interdisciplinary dialogue, and includes guest faculty from around the University who are specialists in course topics. Credit/no credit only. Offered: A.

SOC WL 580 Introduction to Advanced Research Method and Design (3) Introduction to the broad scientific issues and the specific methodological strategies used in formulating and answering research questions within the field of social welfare. Offered: A.

SOC WL 581 Introduction to Advanced Research Method and Design (3) Introduction to the broad scientific issues and the specific methodological strategies used in formulating and answering research questions within the field of social welfare. Offered: W.

SOC WL 582 Research Practicum (3-) Development of specific methodological skills in social welfare research through participation in an ongoing research project. Learning contract used to target specific research competencies. Credit/no credit only. Offered: ASpS.

SOC WL 583 Research Practicum (-3) Development of specific methodological skills in social welfare research through participation in an ongoing research project. Learning contract used to target specific research competencies. Credit/no credit only. Offered: ASpS.

SOC WL 584 Teaching Practicum (3) Supervised teaching of a required course or teaching as a co-instructor with a faculty member. Learning contract used to target specific teaching competencies, e.g., assessing and evaluating student outcomes, identifying class session goals and objectives, tailoring instruction methods to diverse learning styles. Offered: AWSpS.

SOC WL 585 Qualitative Methods in Social Work Research I (3) The first in a two-quarter sequence offering intensive experience in the theory and application of qualitative and ethnographic research methods. Prepares students for conducting qualitative studies and for combining qualitative and quantitative research methods. Focuses on applications especially relevant to social welfare.

SOC WL 586 Qualitative Methods in Social Work Research II (3) The second in a two-quarter sequence offering intensive experience in the theory and application of qualitative and ethnographic research methods. Prepares students for conducting qualitative studies and for combining qualitative and quantitative research methods. Focuses on applications especially relevant to social welfare.

SOC WL 587 Fundamentals of Social Work Statistics I (4) Descriptive and inferential statistics. Underlying logic of statistical inference. Statistical issues of special relevance in social work, including measurement, research design, and ethics in research. Prerequisite: concurrent registration in SOC WL 580. Offered: A.

SOC WL 588 Fundamentals of Social Work Statistics II (4) Issues in the use of descriptive and inferential statistics, especially the statistical

control of extraneous variables. Applications of statistical inference in factorial design, and correlation and regression. Statistical issues of special relevance in social work. Ethics in the use of statistics. Prerequisite: concurrent registration in SOC WL 581. Offered: W.

SOC WL 589 Multivariate Data Analysis for the Social Sciences (3, max. 6) *Eroshova* Provides social scientists with an introduction to multivariate analysis techniques and the knowledge to carry them out. Focuses on statistical methods that explore relationships between observed variables. Topics include principal components, cluster, factor, latent class analysis. Prerequisite: SOC WL 587, 588, or equivalent. Offered: jointly with CS&SS 589; A.

SOC WL 590 Topics in Advanced Research Methods (3) Special topics in social and behavioral research design for advanced graduate students. Topics vary and focus on community-based research methods and measurement construction for culturally diverse populations. Prerequisite: doctoral student in social welfare or related discipline; advanced master's level students by permission of instructor.

SOC WL 598 Research Problems and Priorities in Social Work and Social Welfare (3-) Provides students with foundations in the definitions of theory; the socially constructed nature of theory and definition of social "problems"; conceptual and theoretical perspectives on human society, interaction, and change; and analysis of current conceptual models in social welfare literature. Prerequisite: admission to social welfare Ph.D. program or permission of instructor. Offered: A.

SOC WL 599 Research Problems and Priorities in Social Work and Social Welfare (-3) Assists students in applying theory in building an original conceptual model. Emphasizes critical thinking, including ideological, political, methodological, and ethical contexts/implications of ideas, theories, and models that shape social welfare scholarship and its application to social practice. Prerequisite: admission to social welfare Ph.D. program or permission of instructor. Offered: W.

SOC WL 600 Independent Study or Research (*) Prerequisite: approval of a well-specified plan by the instructor and program director. Includes a written product. Offered: AWSpS.

SOC WL 800 Doctoral Dissertation (*) Offered: AWSpS.

Social Work

SOC W 500 Intellectual and Historical Foundations of Professional Social Work Practice (3) Intellectual, historical, and ethical foundations of the social work profession. Engagement with crucial aspects of the profession's history; contemporary issues, problematics, and directions; and key concepts and theoretical frameworks. Students develop personal, professional, and intellectual foundations for practicing social work built on the central values of plurality and social justice.

SOC W 501 Poverty and Inequality (3) Analysis of poverty and inequality in United States. Analytic and descriptive focus on measurement, processes of production and perpetuation, and public policy responses. Examines causes of poverty, the role of policy, and socioeconomic

dimensions of stratification, including race, ethnicity, class, gender, immigration status, disability, age, sexual orientation, and family structure.

SOC W 503 Social Work for Social Justice: Developing a Personal-Professional Stance I (1-3-, max. 3) Focuses on personal and professional development toward social work practice for social justice. Employs critically self-reflective, experiential, and dialogic learning processes to engage students to explore personal meaning systems and narratives in the context of professional values of social justice, multiculturalism, empowerment, and globalization.

SOC W 504 Social Work for Social Justice: Developing a Personal-Professional Stance II (-1-3, max. 3) Focuses on personal and professional development toward social work practice for social justice. Employs critically self-reflective, experiential, and dialogic learning processes to engage students to explore personal meaning systems and narratives in the context of professional values of social justice, multiculturalism, empowerment, and globalization.

SOC W 505 Foundations of Social Welfare Research (3) *Almgren, Balassone, Erera, Roffman* Overview of research process/methods in social work, with focus on consuming and performing practice-related research and evaluating one's own practice. Emphasis on critical understanding of empirical literature, development of useful and appropriate questions about social work practice, and strategies and techniques for doing research and applying findings to practice. Offered: Sp.

SOC W 506 Social Welfare Research and Evaluation (3) Second of a two-quarter research sequence. Introduces a range of methods for informing evidenced-based social work practice. Emphasizes critical appraisal of the literature, development of research questions, and strategies and techniques for conducting practice-relevant research, including data collection and analysis.

SOC W 510 Practice I: Introduction to Social Work Practice (3) *Kemp, Marcenko, Richey, Roffman* Foundation knowledge and skills for direct practice with individuals, families, and groups. Assists students toward mastery of interviewing and relationship building skills and knowledge of cross-cultural communication and practice issues and of social work values and ethics. Provides opportunity to develop beginning level skills in assessment. Offered: ASp.

SOC W 511 Practice II: Intermediate Direct Service Practice (3) *Kemp, Marcenko, Richey, Roffman* Foundation knowledge and skills for direct practice with individuals, families, and groups. Course assists students toward mastery in assessment, development of treatment plans based on theory and assessment information, goalsetting skills, and selection of appropriate interventions. Offered: AW.

SOC W 512 Practice III: Organizational Practice (3) *Fredriksen, Kruzich, Uehara* Focuses on ways in which management activities contribute to service effectiveness for clients and quality of conditions for staff. Various managerial roles, functions, and skills examined. Impact of agency structure, culture, and mission on staff, clients, and organizational outcomes discussed with emphasis on ways social work managers influence change. Offered: W.

SOC W 513 Practice IV: Community Change Practice (3) *Weatherley* Provides frame of reference and skills for community-based social work practice. Theories of social change are examined with examples drawn from community organizing and policy advocacy. Offered: Sp.

SOC W 514 Foundation Practice Skills (3) Focus on the teaching of practice skills (micro, mezzo, and/or macro) associated with key contemporary themes in social work. Possible topics include social work with American Indian communities, adult interpersonal violence, and assessment and brief intervention in substance abuse and dependence. Offered: SpS.

SOC W 524 Foundation Practicum (1-8, max. 12) *DeLong, Rivara, Roberts* Agency-based practicum with emphasis on development of knowledge, perspectives, and skills needed for

practice with individuals, families, groups, organizations, and communities. Credit/no credit only. Prerequisite: social work major. Offered: AWSpS.

SOC W 585 Advanced Group Work (3) Overview of group work and major theorist in the field. Examines differential applicability of methods across diverse populations. Emphasis on developing powers of observation of group process (as opposed to content) and on ability to intervene at the group level (as opposed to individual level). Prerequisite: Group work experience.

SOC W 596 Statistics in Social Work (1-3max. 3) Introductory foundation in descriptive statistics, probability theory, statistical inference, and bivariate statistics commonly used in evaluations of social program and clinical

practice. Conceptual emphasis on understanding the logic of measurement and statistical inference. Understanding reinforced by hand calculations involving high school algebra. Fulfills SOC W 505 prerequisite.

SOC W 598 Integrative Seminar (1-5, max. 12) Integrates specialized knowledge in social work settings. Offered: AWSp.

SOC W 599 Readings in Social Work (*) Independent Studies. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

SOC W 600 Independent Study or Research (*).

SOC W 700 Master's Thesis (*).

Faculty

The following are listings of all teaching faculty at the University of Washington, listed by primary appointment. Some interdisciplinary programs (such as the Program on the Environment or Comparative History of Ideas) are comprised of adjunct and affiliate appointments. For a list of faculty associated with such programs or for a complete list of all faculty associated with a department or program, please visit the online General Catalog at <http://www.washington.edu/students/gencat/>.

College of Architecture and Urban Planning

Architecture

Professor

BONSTEEL, DAVID; MArch, 1964, UNIVERSITY OF WASHINGTON; design process, computer applications, research.
BOSWORTH, THOMAS L; MA, 1954, OBERLIN COLLEGE; MArch, 1960, YALE UNIVERSITY; design process, history, professional practice
HILDEBRAND, GRANT; MArch, 1964, UNIVERSITY OF MICHIGAN; history, preservation design
JACOBSON, PHILLIP L; MArch, 1969, FINNISH INSTITUTE OF TECHNOLOGY; design, professional practice
JOHNSTON, NORMAN J; PhD, 1964, UNIVERSITY OF PENNSYLVANIA; urban design, history
KIYAK, H ASUMAN; PhD, 1977, WAYNE STATE UNIVERSITY; geriatric dentistry, behavioral aspects of health care
KOLB, KEITH R; MArch, 1950, HARVARD UNIVERSITY; design, professional practice
LOVELAND, JOEL E.; MArch, 1980, UNIVERSITY OF CALIFORNIA (LOS ANGELES); energy conservation, design, research.
LOVETT, WENDELL H; MArch, 1948, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; architecture.
MILLET, MARIETTA; MArch, 1972, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; illumination, environmental controls.
SELIGMANN, CLAUD; Arch (Dipl), 1950, LONDON POLYTECHNIC (UK); design, design process, theory.
SMALL, ROBERT; MArch, 1955, UNIVERSITY OF OREGON; design, community practice, barrier-free design, housing, site planning, design process.
STREISSGUTH, DANIEL M; MArch, 1949, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; design process
THIEL, PHILIP; MS, 1948, UNIVERSITY OF MICHIGAN; visual design, design process, person-environment relations, experiential notation
ZARINA, ASTRA; MArch, 1955, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; design, foreign studies.

Associate Professor

ALBRECHT, ROBERT G; MSCE, 1960, UNIVERSITY OF MASSACHUSETTS; structures.
CURTIS, J WILLIAM; MA, 1969, UNIVERSITY OF WASHINGTON; design process, professional studies.
DONNETTE, JAMES J; MArch, 1969, UNIVERSITY OF WASHINGTON; graphics, design
JONES, SUSAN H.; MArch, 1988, HARVARD UNIVERSITY; architectural design: the conceptual and tectonic ideas of making space
LATOURELLE, ELAINE DAY; MArch, 1964, YALE UNIVERSITY; Architecture, Landscape and Urban Design, Professional Practice
PRAKASH, VIKRAMADITYA; PhD, 1994, CORNELL UNIVERSITY; Non-western, Asian, Indian Architecture; cultural and postcolonial studies; LeCorbusier; modernism
SASANOFF, ROBERT; MCP, 1968, UNIVERSITY OF CALIFORNIA (BERKELEY); design process, person-environment relations.

Assistant Professor

HEERWAGEN, JUDITH; PhD, 1982, UNIVERSITY OF WASHINGTON; behavioral ecology

Lecturer

DEE, JENNIFER; MArch, 1984, UNIVERSITY OF WASHINGTON; theory, design.
NICHOLLS, JAMES KEITH; BArch, 1986, UNIVERSITY OF BRITISH COLUMBIA (CANADA); design, industrial design, construction technology

Construction Management

Associate Professor

SCHAUFELBERGER, JOHN E.; PhD, 1971, UNIVERSITY OF ILLINOIS; construction project management, construction business management, contract procurement
TORRENCE, GERARD R; MS, 1950, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; structures

Assistant Professor

ABDEL AZIZ, AHMED; PhD, 2000, UNIVERSITY OF BRITISH COLUMBIA (CANADA); construction & project management, project controls, methods for building & heavy construction
PACE, CLARK B.; PhD, 1999, UNIVERSITY OF CALIFORNIA (BERKELEY); real estate development, advanced cost analysis, labor projections, construction safety

Landscape Architecture Professor

BUCHANAN, ROBERT T; MLA, 1956, HARVARD UNIVERSITY; design, graphic communications, landscape esthetics, environmental art
HAAG, RICHARD; MLA, 1952, HARVARD UNIVERSITY; theory and perception of landscapes, master planning, urban recreation, recycling landscapes
JOHNSTON, NORMAN J; PhD, 1964, UNIVERSITY OF PENNSYLVANIA; urban design, history
SCHAUMAN, SALLY; MS, 1971, UNIVERSITY OF MICHIGAN; visual resource analysis and evaluation, resource planning and conservation of stressed landscapes

Associate Professor

CHALKER-SCOTT, LINDA; PhD, 1988, OREGON STATE UNIVERSITY; environmental stress physiology of woody plants
HILL, KRISTINA; PhD, 1997, HARVARD UNIVERSITY; human dimensions of landscape change; urban ecology; urban design related to water and biodiversity;
ROBERTSON, IAIN M; MLA, 1975, UNIVERSITY OF PENNSYLVANIA; designing with plants, planning and design of botanical gardens/arboreta

Research Associate Professor

HORNER, RICHARD R.; PhD, 1978, UNIVERSITY OF WASHINGTON; Effects of human activities on water resources in urban areas.
BOOTH, DEREK B; PhD, 1984, UNIVERSITY OF WASHINGTON; Environmental geology, particularly human influences on hillslopes, runoff, and rivers.

WAGNER, FREDRICK W.; PhD, 1974, UNIVERSITY OF WASHINGTON; urban & regional planning, policies & programs that make communities more livable

Assistant Professor

REICHARD, SARAH E.; PhD, 1994, UNIVERSITY OF WASHINGTON; conservation biology of plants, biological invasions

Urban Design and Planning

Professor

AMOSS, HAROLD L.; PhD, 1951, UNIVERSITY OF CALIFORNIA (BERKELEY); planned social change, community organization

BELL, EARL J.; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); application of operations research methods to urban and regional planning problems, mathematical pro

BLANCO, HILDA J.; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); Factors influencing urban sprawl; the implications of cognitive science and evolutionary theory for

DUBROW, GAIL LEE; PhD, 1991, UNIVERSITY OF CALIFORNIA (LOS ANGELES); the social history of the built environment; historic preservation; issues of race, class and gender

GREY, ARTHUR L.; PhD, 1954, UNIVERSITY OF CALIFORNIA (BERKELEY); scope of urban planning, land and development policy, uses of remote sensing in urban planning, econ

HANCOCK, JOHN L.; PhD, 1964, UNIVERSITY OF PENNSYLVANIA; planning history, urban history, planning theory, social analysis and social evaluation methods, com

JOHNSTON, NORMAN J.; PhD, 1964, UNIVERSITY OF PENNSYLVANIA; urban design, history

LUDWIG, RICHARD L.; PhD, 1971, UNIVERSITY OF PITTSBURGH; housing development planning, social factors in development planning

UNTERMANN, RICHARD K.; MLA, 1967, HARVARD UNIVERSITY; urban design and site planning, housing, recreation, nonmotorized circulation

VERNEZ-MOUDON, ANNE; DSc, 1987, ECOLE POLYTECHNIQUE FEDERALE DE LAUSANNE; urban design, city form and neighborhood studies, design research

Research Professor

BOOTH, DEREK B.; PhD, 1984, UNIVERSITY OF WASHINGTON; Environmental geology, particularly human influences on hillslopes, runoff, and rivers.

WAGNER, FREDRICK W.; PhD, 1974, UNIVERSITY OF WASHINGTON; urban & regional planning, policies & programs that make communities more livable

Associate Professor

ALBERTI, MARINA; PhD, 1992, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; Environmental planning, urban ecology, impact assessment, geographic information systems, conflict m

KASPRISIN, RONALD J.; MUP, 1968, UNIVERSITY OF WASHINGTON; community design studios, town planning, planning/design communica-

tions, urban design principles
PURCELL, MARK H.; PhD, 1998, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Nevinsian aspatial holistic geography

RYAN, DENNIS M.; PhD, 1976, UNIVERSITY OF PENNSYLVANIA; Educational democracy, theory and practice of interdisciplinary education; urban design and planning

Assistant Professor

BORN, BRANDEN M.; PhD, 2003, UNIVERSITY OF WISCONSIN; Land use/regional planning, planning process and collaboration, social justice, and food systems

WEEKS, ROBIN J.; PhD, 1988, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); remote sensing, model inversions

College of Arts and Sciences

American Ethnic Studies

Professor

FLORES, LAURO H.; PhD, 1980, UNIVERSITY OF CALIFORNIA (SAN DIEGO); Chicano literature, contemporary Latin American literature (narrative)

Associate Professor

BONUS, ENRIQUE C.; PhD, 1997, UNIVERSITY OF CALIFORNIA (SAN DIEGO); Race and ethnicity; communication, education and culture; Asian American studies.
GAMBOA, ERASMO; PhD, 1984, UNIVERSITY OF WASHINGTON; history, Chicano experience, Pacific Northwest.
SALAS, ELIZABETH; PhD, 1987, UNIVERSITY OF CALIFORNIA (LOS ANGELES); New Mexican history and politics, Chicana, Mexicana and Chicano history, minorities in the military

Lecturer

MAULANA, SEYED M.; MUP, 1988, UNIVERSITY OF WASHINGTON; African and African American studies, Swahili
SO, CONNIE C.; MPA, 1989, PRINCETON UNIVERSITY; Asian Pacific Islander history and culture; American ethnicity, identity, and politics

American Indian Studies

Professor

HART, DANIEL; MFA, 1985, TEMPLE UNIVERSITY; visual anthropology

Assistant Professor

MILLION, DIAN L.; MA, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); American Indian literature and social studies, critical theory, race and ethnicity

Anthropology

Professor

BRANNEN, GEORGE; MD, 1969, NORTHWESTERN UNIVERSITY; general adult urology, third-world medicine
CLOSE, ANGELA E.; PhD, 1976, CAMBRIDGE UNIVERSITY (UK); Archaeology; Lithic Analysis; Prehistory of North Africa; human origins

DUNNELL, ROBERT C.; PhD, 1967, YALE UNIVERSITY; archaeological theory, field method, eastern North America
GRAYSON, DONALD K.; PhD, 1973, UNIVERSITY OF OREGON; North American prehistory, paleoecology, vertebrate faunal analysis, history of archaeology
HARRELL, STEVAN; PhD, 1974, STANFORD UNIVERSITY; family systems, demography, social evolution, religion, China, Taiwan
HUTTERER, KARL L.; PhD, 1973, UNIVERSITY OF HAWAII; prehistory, ethnology of Southeast Asia, East Asia
NASON, JAMES; PhD, 1970, UNIVERSITY OF WASHINGTON; sociocultural anthropology, museology, material culture, cultural heritage, Micronesia, North America
NEWELL, LAURA L.; PhD, 1967, UNIVERSITY OF WASHINGTON; primatology growth and development, human biology, evolutionary aspects of dermatoglyphics
NUTE, PETER E.; PhD, 1969, DUKE UNIVERSITY; genetics and evolution
OTTENBERG, SIMON; PhD, 1957, NORTHWESTERN UNIVERSITY; art, aesthetics, politics, law, ethnicity.
SIVARAMAKRISHNAN, K.; PhD, 1996, YALE UNIVERSITY; Environment, development and the State in south Asian agrarian societies.
SPAIN, DAVID H.; PhD, 1969, NORTHWESTERN UNIVERSITY; psychocultural anthropology, African studies, research methods
SWINDLER, DARIS R.; PhD, 1959, UNIVERSITY OF PENNSYLVANIA; primate dentition, anatomy and growth and development
WATSON, JAMES B.; PhD, 1948, UNIVERSITY OF CHICAGO; social/cultural anthropology, economic anthropology, Oceania, New Guinea, exchange theory
WENKE, ROBERT J.; PhD, 1975, UNIVERSITY OF MICHIGAN; archaeology of Egypt, the Middle East, and quantitative methods
WINANS, EDGAR V.; PhD, 1959, UNIVERSITY OF CALIFORNIA (LOS ANGELES); politics, economics and law, Africa, the developing world

Associate Professor

ECK, GERALD G.; PhD, 1977, UNIVERSITY OF CALIFORNIA (BERKELEY); primate paleontology, especially African Pliocene-Pleistocene monkeys and hominids
FITZHUGH, J.BEN; PhD, 1996, UNIVERSITY OF MICHIGAN; Archaeology, Anthropology, evolutionary ecology, complex hunter-gatherers, social evolution, settlement

HOLMAN, DARRYL J.; PhD, 1996, PENNSYLVANIA STATE UNIVERSITY; Human population biology, anthropological demography, paleodemography and statistical modeling.

Research Associate Professor

KYES, RANDALL C.; PhD, 1989, UNIVERSITY OF GEORGIA; primate behavior and ecology, neural mechanisms of behavior

Assistant Professor

LOWE, CELIA; PhD, 2000, YALE UNIVERSITY; Critical environmental studies, science studies, nationalism, post-colonial theory, identity, gender
TAYLOR, JANELLE S.; PhD, 1999, UNIVERSITY OF CHICAGO; Anthropology of medicine, science and technology, reproduction, gender, and consumption.

Lecturer

BENTZ, MARILYN G.; PhD, 1984, UNIVERSITY OF WASHINGTON; psychological anthropology, social change, education, North American Indians
GREEN, JAMES W.; PhD, 1972, UNIVERSITY OF WASHINGTON; cross cultural, mental health, comparative aging, religion, West Indies, Pakistan, Islam

Applied Mathematics

Professor

ADAMS, LOYCE M.; PhD, 1983, UNIVERSITY OF VIRGINIA; numerical algorithms for parallel computers
BRETHERTON, CHRISTOPHER S.; PhD, 1984, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; convective cloud systems, boundary layer meteorology, numerical modeling, tropical meteorology
KUTZ, JOSE NATHAN; PhD, 1994, NORTHWESTERN UNIVERSITY; nonlinear waves, dynamical systems, asymptotic and perturbation methods, scientific computing
MOOLGAVKAR, SURESH H.; PhD, 1973, JOHNS HOPKINS UNIVERSITY; cancer epidemiology, development of quantitative methodology
MURRAY, JAMES D.; PhD, 1956, OXFORD UNIVERSITY (UK); mathematical biology, biological pattern formation, wound healing, spread of epidemics
NAZARETH, JOHN L.; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); numerical optimization

PEARSON, CARL E; PhD, 1949, BROWN UNIVERSITY; wave propagation, fluid dynamics, numerical analysis, optimization
 SARACHIK, EDWARD; PhD, 1966, BRANDEIS UNIVERSITY; atmospheric dynamics, air-sea interactions, greenhouse warming, equatorial dynamics, climate change
 TUNG, KA KIT; PhD, 1977, HARVARD UNIVERSITY; atmospheric and geophysical fluid dynamics

Associate Professor

QIAN, HONG; PhD, 1989, WASHINGTON UNIVERSITY; mathematical, physical chemistry and biology, statistical physics, stochastic mathematics

Research Assistant Professor

SWANSON, KRISTIN R.; PhD, 1999, UNIVERSITY OF WASHINGTON; mathematical medicine&biology; mathematical modeling of pathological biosystems&imaging; complex sys

Art

Professor

BERGER, PAUL E; MFA, 1973, STATE UNIVERSITY OF NEW YORK (BUFFALO); photography
 BRAVMANN, RENE A.; PhD, 1971, INDIANA UNIVERSITY; African art
 CARRAHER, RONALD G; MA, 1961, SAN JOSE STATE COLLEGE; photography
 CELENTANO, FRANCIS; MA, 1957, NEW YORK UNIVERSITY; painting, drawing
 CHRISTOFIDES, C G; PhD, 1956, UNIVERSITY OF MICHIGAN; medieval, seventeenth century, Romanesque
 DAHN, RICHARD F; MFA, 1959, YALE UNIVERSITY; graphic design
 DAILEY, MICHAEL D; MFA, 1963, UNIVERSITY OF IOWA; painting, drawing
 DU PEN, EVERETT; MFA, 1937, YALE UNIVERSITY; sculpture
 HIXSON, WILLIAM J; MFA, 1950, UNIVERSITY OF OREGON; painting
 HOLM, BILL; MFA, 1951, UNIVERSITY OF WASHINGTON; Northwest Coast Indians
 JONES, ROBERT C; MS, 1959, RHODE ISLAND SCHOOL OF DESIGN; painting, drawing
 KARTSONIS, ANNA D.; PhD, 1982, NEW YORK UNIVERSITY; Byzantine and medieval art
 KEHL, RICHARD L.; MA, 1961, KANSAS CITY ART INSTITUTE; MFA, 1961, KANSAS CITY ART INSTITUTE; painting
 KINGSBURY, MARTHA; PhD, 1969, HARVARD UNIVERSITY; nineteenth and twentieth century art

LUNDIN, NORMAN K; MFA, 1963, UNIVERSITY OF CINCINNATI; painting, drawing, art history, contemporary art, art theory
 MARSHALL, JOHN C; MFA, 1968, SYRACUSE UNIVERSITY; metal design
 MASON, ALDEN; MFA, 1947, UNIVERSITY OF WASHINGTON; painting
 NASON, JAMES; PhD, 1970, UNIVERSITY OF WASHINGTON; sociocultural anthropology, museology, material culture, cultural heritage, Micronesia, North America
 OPPERMAN, HAL N; PhD, 1972, UNIVERSITY OF CHICAGO; seventeenth-and eighteenth-century European art
 OZUBKO, CHRISTOPHER; MFA, 1981, CRANBROOK ACADEMY OF ART; visual communication design
 SMITH, CHARLES W; MFA, 1956, CRANBROOK ACADEMY OF ART; sculpture
 SPAFFORD, MICHAEL C; MA, 1960, HARVARD UNIVERSITY; painting, drawing
 TAYLOR, NORMAN J; MA, 1967, UNIVERSITY OF IOWA; MFA, 1967, UNIVERSITY OF IOWA; sculpture
 WADDEN, DOUGLAS J; MFA, 1970, YALE UNIVERSITY; graphic design, photography
 WALKER, JAMIE; MFA, 1983, RHODE ISLAND SCHOOL OF DESIGN; ceramic arts
 WARASHINA, M PATRICIA; MFA, 1964, UNIVERSITY OF WASHINGTON; ceramics
 WHITEHILL-WARD, JOHN; MS, 1974, ILLINOIS INSTITUTE OF TECHNOLOGY; graphic design
 WRIGHT, ROBIN K; PhD, 1985, UNIVERSITY OF WASHINGTON; Native American art, Native art of the Pacific Northwest Coast, Haida art

Associate Professor

GALE, ANN E; MFA, 1991, YALE UNIVERSITY; studio painting and drawing
 GARVENS, ELLEN J.; MA, 1983, UNIVERSITY OF NEW MEXICO; mixed media photographic works combining flat images with sculptural materials
 GARVENS, ELLEN J.; MFA, 1987, UNIVERSITY OF NEW MEXICO; mixed media photographic works combining flat images with sculptural materials
 JECK, DOUGLAS A.; MFA, 1989, THE SCHOOL OF ART INSTITUTE OF CHICAGO; figurative ceramics
 KOENIG, HAZEL L; MFA, 1950, UNIVERSITY OF WASHINGTON; fiber arts
 LABITZKE, CURT W; MFA, 1984, UNIVERSITY OF NOTRE DAME; printmaking: intaglio and lithography emphasizing hand-drawn techniques
 PRACZUKOWSKI, EDWARD; MFA, 1965, CRANBROOK ACADEMY OF ART; painting, drawing
 PROCTOR, RICHARD M; MA, 1962, MICHIGAN STATE UNIVERSITY; fiber arts

WELMAN, VALENTINE S; MFA, 1954, UNIVERSITY OF COLORADO (BOULDER); painting, drawing

Asian Languages and Literatures

Professor

COX, COLLETT D.; PhD, 1983, COLUMBIA UNIVERSITY; Buddhist studies (East and South Asian), Indian philosophy and religion, comparative religion
 GETHING, THOMAS W.; PhD, 1966, UNIVERSITY OF MICHIGAN; Thai and Lao language and linguistics
 NORMAN, JERRY; PhD, 0, UNIVERSITY OF CALIFORNIA (BERKELEY); Chinese language and linguistics, Altaic linguistics.
 SALOMON, RICHARD G.; PhD, 1975, UNIVERSITY OF PENNSYLVANIA; Sanskrit language and literature, Buddhist studies

Associate Professor

BRANDAUER, FREDERICK P; PhD, 1973, STANFORD UNIVERSITY; traditional Chinese vernacular fiction and modern Chinese literature
 COOKE, JOSEPH R; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); Thai language and literature.
 KANO, TAMAKO-NIWA; PhD, 1956, RADCLIFFE; Japanese language

Lecturer

KIM, SOOHEE; PhD, 1999, UNIVERSITY OF WASHINGTON; Korean language, morphology, phonology-phonetics interface, and historical linguistics
 NGUYEN, KIM O; PhD, 1973, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Vietnamese language and literature
 OHTA, KAORU; PhD, 1994, UNIVERSITY OF CALIFORNIA (LOS ANGELES); syntax, morphology, Japanese linguistics, language acquisition, and Japanese pedagogy
 SINGH, KUNWAR P; PhD, 2000, UNIVERSITY OF WISCONSIN; Hindi language

Astronomy

Professor

ANDERSON, SCOTT; PhD, 1985, UNIVERSITY OF WASHINGTON; quasars and active galaxies, x-ray astronomy
 BALICK, BRUCE; PhD, 1971, CORNELL UNIVERSITY; radio astronomy, ionized nebulae, peculiar galaxies.

BOHM, KARL-HEINZ; PhD, 1954, UNIVERSITY OF KIEL (GERMANY); stellar atmospheres, magnetic stars
 BOHM-VITENSE, ERIKA H; PhD, 1951, UNIVERSITY OF KIEL (GERMANY); stellar atmospheres, magnetic stars.
 BROWNLEE, DONALD E; PhD, 1971, UNIVERSITY OF WASHINGTON; origin of the solar system, comets, interplanetary dust.
 HAWLEY, SUZANNE; PhD, 1989, UNIVERSITY OF TEXAS (AUSTIN); Variable stars, magnetic activity, flares, galactic structure, dwarf galaxies.
 HAXTON, WICK C.; PhD, 1976, STANFORD UNIVERSITY; theoretical physics, nuclear physics
 HOGAN, CRAIG J.; PhD, 1980, CAMBRIDGE UNIVERSITY (UK); astrophysical cosmology, especially the origin of astronomical structures in the expanding universe
 QUINN, THOMAS R.; PhD, 1986, PRINCETON UNIVERSITY; Solar System dynamics and galaxy formation
 SULLIVAN, WOODRUFF T; PhD, 1971, UNIVERSITY OF MARYLAND; radio astronomy, galactic and extragalactic structure, history of astronomy
 SZKODY, PAULA; PhD, 1975, UNIVERSITY OF WASHINGTON; cataclysmic variables, photometry, spectroscopy
 WALLERSTEIN, GEORGE; PhD, 1958, CALIFORNIA INSTITUTE OF TECHNOLOGY; chemical composition of stars, peculiar stars, interstellar matter

Associate Professor

DALCANTON, JULIANNE; PhD, 1995, PRINCETON UNIVERSITY; The evolution and formation of galaxies.

Assistant Professor

AGOL, ERIC; PhD, 1997, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); Black holes, accretion disks, quasars, gravitational lensing, planetary transits, dark matter.

Atmospheric Sciences

Professor

BADGLEY, FRANKLIN; PhD, 1951, NEW YORK UNIVERSITY; turbulence
 BAKER, MARCIA; PhD, 1971, UNIVERSITY OF WASHINGTON; cloud physics, atmospheric geophysics
 BATTISTI, DAVID S; PhD, 1988, UNIVERSITY OF WASHINGTON; large-scale atmosphere-ocean dynamics, climate dynamics, tropical circulation, polar climates
 BREIDENTHAL, ROBERT E; PhD, 1979, CALIFORNIA INSTITUTE OF TECHNOLOGY; turbulence, entrainment, mixing, vorticity

BRETHERTON, CHRISTOPHER S.; PhD, 1984, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; convective cloud systems, boundary layer meteorology, numerical modeling, tropical meteorology
 BUSINGER, JOOST A; PhD, 1954, UNIVERSITY OF UTRECHT (NETHERLANDS); energy transfer.
 CHARLSON, ROBERT J; PhD, 1964, UNIVERSITY OF WASHINGTON; atmospheric chemistry
 DURRAN, DALE R; PhD, 1981, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; atmospheric dynamics and modeling, numerical methods, mountain meteorology, mesoscale meteorology
 FLEAGLE, ROBERT G; PhD, 1949, NEW YORK UNIVERSITY; physical and dynamic meteorology, weather modification and public policy, air-sea interaction process
 GAMMON, RICHARD H; PhD, 1970, HARVARD UNIVERSITY; atmospheric chemistry, chemical oceanography, environmental chemistry; biogeochemical cycles, global
 HARTMANN, DENNIS L; PhD, 1975, PRINCETON UNIVERSITY; climate change, dynamic meteorology, radiation and remote sensing
 HOUZE, ROBERT A.; PhD, 1972, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; mesoscale meteorology, cloud physics and dynamics, tropical and mountain meteorology
 JAFFE, DANIEL A; PhD, 1987, UNIVERSITY OF WASHINGTON; atmospheric chemistry, urban and global air pollution, environmental education
 LACHAPELLE, EDWARD; DSc, 1967, UNIVERSITY OF PUGET SOUND; snow-ice physics
 LEOVY, CONWAY B; PhD, 1964, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; climatic role of clouds, planetary atmospheres, astrobiology, atmospheric circulation and dynamics
 MASS, CLIFFORD F; PhD, 1978, UNIVERSITY OF WASHINGTON; synoptic and mesoscale meteorology.
 OVERLAND, JAMES E; PhD, 1973, NEW YORK UNIVERSITY; Arctic and North Pacific climate variability, sea ice
 PLANT, WILLIAM J.; PhD, 1972, PURDUE UNIVERSITY; microwave remote sensing of the sea surface, atmosphere-ocean interaction
 RADKE, LAWRENCE F.; PhD, 1968, UNIVERSITY OF WASHINGTON; cloud and aerosol physics, wildfire science, remote sensing, airborne instrumentation
 REED, RICHARD J; DSc, 1949, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; weather analysis and prediction, numerical modeling
 ROE, GERARD H; PhD, 1999, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; Interaction/feedback of Earth

System components, Climate Dynamics, Paleoclimate, Surface Processes
 SARACHIK, EDWARD; PhD, 1966, BRANDEIS UNIVERSITY; atmospheric dynamics, air-sea interactions, greenhouse warming, equatorial dynamics, climate change
 TUNG, KA KIT; PhD, 1977, HARVARD UNIVERSITY; atmospheric and geophysical fluid dynamics
 UNTERSTEINER, NORBERT; PhD, 1950, UNIVERSITY OF INNSBRUCK (AUSTRIA); air-sea-ice interaction, polar climatology, sea ice physics
 WALLACE, JOHN M; PhD, 1966, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; atmospheric general circulation, climate variability, global warming

Research Professor

COVERT, DAVID S; PhD, 1974, UNIVERSITY OF WASHINGTON; atmospheric chemistry; aerosol physics, chemistry, optics, and instrumentation
 GRENFELL, THOMAS C; PhD, 1972, UNIVERSITY OF WASHINGTON; atmospheric radiation, radiative transfer, microwave remote sensing, ice and snow optics
 HEGG, DEAN A; PhD, 1979, UNIVERSITY OF WASHINGTON; atmospheric chemistry, cloud physics

Associate Professor

ALEXANDER, M. JOAN; PhD, 1992, UNIVERSITY OF COLORADO (BOULDER); stratospheric data analysis, mesoscale correction modeling, spectral analysis, gravity wave dynamics
 BATES, TIMOTHY S; PhD, 1988, UNIVERSITY OF WASHINGTON; oceanic and atmospheric chemistry, atmosphere-ocean interaction, aerosols and climate
 BOND, NICHOLAS A; PhD, 1986, UNIVERSITY OF WASHINGTON; air-sea interaction, boundary layers, coastal and marine meteorology
 CHEN, SHUYI S; PhD, 1990, PENNSYLVANIA STATE UNIVERSITY; tropical meteorology, air-sea interactions, mesoscale dynamics, numerical modeling
 FU, QIANG; PhD, 1991, UNIVERSITY OF UTAH; atmospheric radiation; cloud/aerosol/radiation/climate interactions; remote sensing
 HAKIM, GREGORY J; PhD, 1997, STATE UNIVERSITY OF NEW YORK (ALBANY); synoptic and mesoscale meteorology; atmospheric dynamics; rotating, stratified turbulence
 HARRISON, HALSTEAD; PhD, 1960, STANFORD UNIVERSITY; atmospheric chemistry, dispersion modeling, radiative transfer
 ROTHROCK, DAVID A; PhD, 1969, CAMBRIDGE UNIVERSITY (UK); physical oceanography, polar oceanography, polar ice remote sensing and modeling

Research Associate Professor

SMULL, BRADLEY F; PhD, 1986, UNIVERSITY OF WASHINGTON; mesoscale and radar meteorology, severe storms, large-scale atmosphere-ocean interactions

Assistant Professor

THORNTON, JOEL A.; PhD, 2002, UNIVERSITY OF CALIFORNIA (BERKELEY); Atmospheric chemistry, air pollution, climate change.
YUTER, SANDRA ELLYN; PhD, 1996, UNIVERSITY OF WASHINGTON; physical meteorology, mesoscale meteorology, radar and remote sensing

Research Assistant Professor

ANDERSON, THEODORE L.; PhD, 1992, UNIVERSITY OF WASHINGTON; atmospheric aerosol particles, measurement methods, and global climate change
WOOD, ROBERT; PhD, 1997, UNIVERSITY OF MANCHESTER (UK); cloud physics, boundary layer meteorology, cloud-climate interactions

Biology

Professor

AMMIRATI, JOSEPH F; PhD, 1972, UNIVERSITY OF MICHIGAN; mycology, taxonomy and ecology of fungi
BLISS, LAWRENCE C; PhD, 1956, DUKE UNIVERSITY; physiological plant ecology and ecosystem development and function, arctic, alpine environments
BOERSMA, P DEE; PhD, 1974, OHIO STATE UNIVERSITY; population, ecology
BRADSHAW, HARVEY D; PhD, 1984, LOUISIANA STATE UNIVERSITY; molecular genetics of adaptive evolution in natural populations of plants and animals
CLELAND, ROBERT E.; PhD, 1957, CALIFORNIA INSTITUTE OF TECHNOLOGY; physiology of plant growth
CLONEY, RICHARD A; PhD, 1959, UNIVERSITY OF WASHINGTON; invertebrate embryology, histology, morphogenic movements, metamorphosis, biology of ascidians
DEL MORAL, ROGER; PhD, 1968, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); ecology, primary succession, gradient analysis, community structure
EDWARDS, JOHN S; PhD, 1960, CAMBRIDGE UNIVERSITY (UK); arthropod neurobiology, insect physiology and development, tundra and alpine biology
EDWARDS, SCOTT V.; PhD, 1992, UNIVERSITY OF CALIFORNIA (BERKELEY); molecular evolution and population genetics; evolutionary history of birds
HALL, BENJAMIN D; PhD, 1959, HARVARD UNIVERSITY; the evolution of nuclear genes in plants and fungi
HALPERIN, WALTER; PhD, 1965, UNIVERSITY OF CONNECTICUT; plant physiology, plant morphology
HASKINS, EDWARD F; PhD, 1965, UNIVERSITY OF MINNESOTA; cell biology and ultrastructure of microorganisms, especially slime molds
HAUSCHKA, STEPHEN D; PhD, 1966, JOHNS HOPKINS UNIVERSITY; regulation of skeletal muscle differentiation, growth factor-receptor signaling mechanisms
HERRING, SUSAN W.; PhD, 1971, UNIVERSITY OF CHICAGO; vertebrate functional morphology, relations between muscular function and skull growth
HILLE, MERRILL B; PhD, 1965, ROCKEFELLER UNIVERSITY; developmental biology, gastrulation in sea urchin embryos, translational regulation during meiosis
KENAGY, GEORGE JAMES; PhD, 1972, UNIVERSITY OF CALIFORNIA (LOS ANGELES); ecophysiology and behavior, reproduction and life history, population biology, evolution, mammalogy
KIMELMAN, DAVID; PhD, 1985, HARVARD UNIVERSITY; molecular biology of early development in the frog, *Xenopus laevis*, and the fish, *Danio rerio*
KOHN, ALAN J; PhD, 1957, YALE UNIVERSITY; invertebrate zoology, ecology and functional morphology of marine invertebrates, especially mollusks
KOZLOFF, EUGENE N; PhD, 1950, UNIVERSITY OF CALIFORNIA (BERKELEY); biology of lower invertebrates, ciliates, orthonectids, turbellarians and kinorhynchans
KRUCKEBERG, ARTHUR R; PhD, 1950, UNIVERSITY OF CALIFORNIA (BERKELEY); evolution, biosystematics, edaphic ecology
LEOPOLD, ESTELLA B; PhD, 1955, YALE UNIVERSITY; paleoecology, pollen and seed analysis, late Cenozoic environments and climate history
MOODY, WILLIAM J; PhD, 1977, STANFORD UNIVERSITY; single cell electrophysiology, development of electrical properties in embryos.
NESTER, EUGENE W; PhD, 1959, CASE WESTERN RESERVE UNIVERSITY; genetics and biochemistry, of bacterial-plant cell interactions
ORIAN, GORDON H; PhD, 1960, UNIVERSITY OF CALIFORNIA (BERKELEY); ecology and ethology, vertebrate social systems, community structure, plant-herbivore interactions.
PAINE, ROBERT T; PhD, 1961, UNIVERSITY OF MICHIGAN; experimental

ecology, organization and structure of marine communities
PALKA, JOHN M; PhD, 1965, UNIVERSITY OF CALIFORNIA (LOS ANGELES); neurophysiology, sensory physiology, developmental neurobiology
ROHWER, SIEVERT A; PhD, 1971, UNIVERSITY OF KANSAS; ecology and evolution of social behavior, deception and evolution of status-signaling systems, avian
STEINER, ROBERT A; PhD, 1975, UNIVERSITY OF OREGON; neuroendocrinology, neuroscience, endocrinology
TSUKADA, MATSUO; PhD, 1961, OSAKA CITY UNIVERSITY (JAPAN); interpretation of Quaternary events from palynological and kindred data
VAN VOLKENBURGH, ELIZABETH; PhD, 1980, UNIVERSITY OF WASHINGTON; leaf growth and development, photobiology and electrophysiology
WAALAND, J ROBERT; PhD, 1969, UNIVERSITY OF CALIFORNIA (BERKELEY); biology of marine algae
WALKER, RICHARD B; PhD, 1948, UNIVERSITY OF CALIFORNIA (BERKELEY); plant physiology, mineral nutrition, water relations
WHISLER, HOWARD C.; PhD, 1960, UNIVERSITY OF CALIFORNIA (BERKELEY); mycology, aquatic fungi, slime-molds and phycomycetes, development
WHITELEY, ARTHUR H; PhD, 1945, PRINCETON UNIVERSITY; comparative development and physiology of invertebrates, genetic control of development, fertilization
YAO, MENG CHAO; PhD, 1975, UNIVERSITY OF ROCHESTER; regulation of gene amplification and chromosome rearrangements in *Tetrahymena*

Research Professor

DETHIER, MEGAN N; PhD, 1981, UNIVERSITY OF WASHINGTON; marine intertidal ecology, shoreline classification systems, plant-herbivore interactions
FOE, VICTORIA; PhD, 1975, UNIVERSITY OF TEXAS (AUSTIN); cell cycle control and morphogenesis in *Drosophila* embryos
GRAUBARD, KATHERINE; PhD, 1973, UNIVERSITY OF WASHINGTON; cellular neurophysiology, neural basis of behavior
WASSER, SAMUEL K.; PhD, 1981, UNIVERSITY OF WASHINGTON; behavioral ecology, endocrinology, conservation genetics and reproductive biology.

Associate Professor

BAKKEN, AIMEE; PhD, 1970, UNIVERSITY OF IOWA; developmental and cell biology, chromosome structure and function in oogenesis and embryogenesis, de

GRIFFITHS, W MARY; PhD, 1953, UNIVERSITY OF CALIFORNIA (BERKELEY); zoology.
 PARKHURST, SUSAN M.; PhD, 1995, JOHNS HOPKINS UNIVERSITY; Developmental, Genetic, and Molecular Analysis of *Drosophila* embryogenesis.
 PRIESS, JAMES R.; PhD, 1983, UNIVERSITY OF COLORADO (BOULDER); reliability models, fault trees
 RAIBLE, DAVID W.; PhD, 1989, UNIVERSITY OF PENNSYLVANIA; zebrafish neural development
 RUESINK, JENNIFER; PhD, 1996, UNIVERSITY OF WASHINGTON; Marine intertidal ecology, especially community dynamics, food webs, introduced species.
 SWALLA, BILLIE J.; PhD, 1988, UNIVERSITY OF IOWA; How developmental and evolutionary processes influence animal body plans.
 TORII, KEIKO; PhD, 1993, UNIVERSITY OF TSUKUBA (JAPAN); Arabidopsis developmental genetics; receptor-mediated signal transduction in higher plants

Research Associate Professor

MANDOLI, DINA F.; PhD, 1982, STANFORD UNIVERSITY; plant development and morphogenesis using genetics, molecular biology, physiology

Assistant Professor

DE LA IGLESIA, HORACIO O.; PhD, 1997, UNIVERSITY OF MASSACHUSETTS; Neural basis of Behavior. Biological clocks & biological rhythms. Stem cells and brain repair.

Lecturer

MARTIN-MORRIS, LINDA E.; PhD, 1991, BRANDEIS UNIVERSITY; genetics, nonmajors biology
 NICOTRI, MARY E; PhD, 1974, UNIVERSITY OF WASHINGTON; marine ecology, evolution and introductory biology
 OCONNOR, EILEEN; MS, 1976, UNIVERSITY OF WASHINGTON; ecology and evolution
 ZEMAN, LESLIE B.; DVM, 1975, MICHIGAN STATE UNIVERSITY; animal physiology

Chemistry

Professor

AEBERSOLD, RUDOLF HANS; MD, 1984, YALE UNIVERSITY; Protein biochemical investigation of signal transduction pathways.
 ANDERSEN, NIELS H; PhD, 1967, NORTHWESTERN UNIVERSITY; bioorganic, biophysical, and medicinal

chemistry, NMR spectroscopy
 CALLIS, JAMES B; PhD, 1970, UNIVERSITY OF WASHINGTON; instrumentation development, process analytical chemistry, non-invasive clinical chemistry
 CAMPBELL, CHARLES T.; PhD, 1979, UNIVERSITY OF TEXAS (AUSTIN); physical chemistry of solid surfaces, chemisorption, catalysis, and surface analysis
 CHRISTIAN, GARY D; PhD, 1964, UNIVERSITY OF MARYLAND; atomic spectroscopy, clinical analysis, electroanalysis, flow injection analysis, optrodes
 DALTON, LARRY R.; PhD, 1971, HARVARD UNIVERSITY; materials chemistry focused on producing next generation opto-electronic materials
 DROBNY, GARY P; PhD, 1981, UNIVERSITY OF CALIFORNIA (BERKELEY); two-dimensional and multiple quantum studies in nuclear magnetic resonance
 FLOSS, HEINZ G.; PhD, 1961, TECHNICAL UNIVERSITY OF MUNICH (GERMANY); bioorganic and natural products chemistry
 GELB, MICHAEL H.; PhD, 1982, YALE UNIVERSITY; mechanistic enzymology, bioorganic and medicinal chemistry
 GOLDBERG, KAREN; PhD, 1988, UNIVERSITY OF CALIFORNIA (BERKELEY); energetics and mechanisms of fundamental organometallic reactions
 GOUTERMAN, MARTIN; PhD, 1958, UNIVERSITY OF CHICAGO; electronic structure, spectra and luminescence of porphyrins, use of porphyrins as sensors
 GREGORY, NORMAN W; PhD, 1943, OHIO STATE UNIVERSITY; structure and thermodynamic properties of inorganic substances, vaporization reactions
 HALSEY, GEORGE D; PhD, 1948, PRINCETON UNIVERSITY; absorption and interaction of rare gases with surfaces, solid solutions of rare gases, catalysis
 HEINEKEY, DENNIS M.; PhD, 1982, UNIVERSITY OF ALBERTA (CANADA); organometallic chemistry of the transition metals
 HOPKINS, PAUL B; PhD, 1982, HARVARD UNIVERSITY; organic synthesis, bioorganic and nucleic acid chemistry
 JONSSON, HANNES; PhD, 1985, UNIVERSITY OF CALIFORNIA (SAN DIEGO); computer simulations and scattering calculation in materials and surface science
 KLEVIT, RACHEL E; DPhil, 1981, OXFORD UNIVERSITY (UK); protein structure and function; molecular recognition; protein NMR
 KOVACS, JULIA A.; PhD, 1986, HARVARD UNIVERSITY; synthesis, structure, and reactivity of biologically relevant transition-metal complexes
 KOWALSKI, BRUCE; PhD, 1969,

UNIVERSITY OF WASHINGTON; analytical chemometrics, computerized instrumentation for process monitoring and control
 KROHN, KENNETH A; PhD, 1971, UNIVERSITY OF CALIFORNIA (DAVIS); chemistry, radiation oncology
 KWIRAM, ALVIN L; PhD, 1963, CALIFORNIA INSTITUTE OF TECHNOLOGY; molecular structure and dynamics in the solid state with emphasis on excited states, magnetic resonance
 MAYER, JAMES M; PhD, 1982, CALIFORNIA INSTITUTE OF TECHNOLOGY; inorganic, organometallic, and bioinorganic transition metal chemistry
 MURRAY, JAMES W; PhD, 1973, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; marine geochemistry, aquatic chemistry
 OLMSTEAD, MARJORIE A; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental condensed-matter physics, surface and interface physics
 PARSON, WILLIAM W; PhD, 1965, CASE WESTERN RESERVE UNIVERSITY; bioenergetics, with particular emphasis on photosynthesis, picosecond spectroscopy
 POCKER, YESHAYAU; PhD, 1953, UNIVERSITY COLLEGE, LONDON (UK); organic reaction mechanisms, chemical and enzymatic catalysis, metalloenzymes, Alzheimer proteins
 RABINOVITCH, B SEYMOUR; PhD, 1942, MCGILL UNIVERSITY (CANADA); chemical dynamics, energy relaxation, properties of silver surfaces
 REID, PHILIP J.; PhD, 1992, UNIVERSITY OF CALIFORNIA (BERKELEY); ultrafast condensed phase chemical reaction dynamics
 REINHARDT, WILLIAM P.; PhD, 1968, HARVARD UNIVERSITY; theoretical and computational chemistry with applications in thermodynamics and atomic physics
 ROBINSON, BRUCE H; PhD, 1975, VANDERBILT UNIVERSITY; magnetic resonance, molecular dynamics, polymer dynamics, nonlinear response theory
 ROSE, NORMAN J; PhD, 1960, UNIVERSITY OF ILLINOIS; design, synthesis, and study of coordination compounds of transition metals, including the lanthanides
 RUZICKA, JAROMIR; PhD, 1963, TECHNICAL UNIVERSITY OF PRAGUE (CZECH); analysis via flow injection for clinical research and industrial applications
 SCHUBERT, WOLFGANG M; PhD, 1947, UNIVERSITY OF MINNESOTA; mechanism and steric course of organic reactions, substituent and solvent effects
 STENKAMP, RONALD E; PhD, 1975, UNIVERSITY OF WASHINGTON; crystallography, metalloproteins, protein engineering, blood clotting proteins

STUVE, ERIC M.; PhD, 1983, STANFORD UNIVERSITY; electrochemical surface science, fuel cell engineering
 SYNOVEC, ROBERT E.; PhD, 1986, IOWA STATE UNIVERSITY; multidimensional chemical separation techniques, chemometric data analysis
 VANDENBOSCH, ROBERT; PhD, 1957, UNIVERSITY OF CALIFORNIA (BERKELEY); nuclear studies, particularly fission and nuclear reaction mechanisms, molecular clusters
 WOODMAN, DARRELL J.; PhD, 1965, HARVARD UNIVERSITY; peptide synthesis, heterocyclic compounds, computers in chemical education
 XIA, YOUNAN; PhD, 1996, HARVARD UNIVERSITY; materials chemistry and nanotechnology
 YAGER, PAUL; PhD, 1980, UNIVERSITY OF OREGON; physical chemistry, applications of biomembranes, biosensors, microfluidics, biomedical diagnostic i

Research Professor

BRODSKY, ANATOL M.; DSc, 1960, INSTITUTE OF CHEMICAL PHYSICS (RUSSIA); solid state physics, radiation chemistry and physics science.

Associate Professor

CRITTENDEN, ALDEN L.; PhD, 1947, UNIVERSITY OF ILLINOIS; mass spectra, solid electrode polarography
 KELLER, SARAH L.; PhD, 1995, PRINCETON UNIVERSITY; biophysics; physical chemistry; soft condensed matter; surfactants; lipids; self-assembly
 MACKLIN, JOHN W.; PhD, 1969, CORNELL UNIVERSITY; spectroscopic studies of materials in condensed phase and in solutions
 PREZHDO, OLEG; PhD, 1997, UNIVERSITY OF TEXAS (AUSTIN); Excitation dynamics of condensed phase chemical systems.
 SASAKI, TOMIKAZU; PhD, 1985, KYOTO UNIVERSITY (JAPAN); design and synthesis of functional proteins and protein mimetics

Assistant Professor

GAMELIN, DANIEL R.; PhD, 1997, STANFORD UNIVERSITY; physical inorganic chemistry; spectroscopy, bio- and materials-related inorganic chemistry
 GINGER JR, DAVID S.; PhD, 2001, UNIVERSITY OF CAMBRIDGE (UK); optical and electronic properties of organic and nanoscale materials, bioinspired materials

Lecturer

NYASULU, FRAZIER W.; PhD, 1985, UNIVERSITY OF SALFORD (UK); chemical education, electroanalytical chemistry, electro depositions

WIEGAND, DEBORAH H.; PhD, 1990, NORTHERN ILLINOIS UNIVERSITY; chemical education, electrochemistry on liquid/liquid interfaces

Classics

Professor

CLAUSS, JAMES J.; PhD, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); Latin poetry and prose, Hellenistic literature, Latin literature of the Empire
 GOWING, ALAIN M.; PhD, 1988, BRYN MAWR COLLEGE; Latin and Greek historiography, Latin literature of the Empire
 HALLERAN, MICHAEL R.; PhD, 1981, HARVARD UNIVERSITY; Greek literature, especially tragedy; Greek intellectual history
 HARMON, DANIEL P.; PhD, 1968, NORTHWESTERN UNIVERSITY; Greek and Roman religion, Latin poetry, Greek tragedy, classical linguistics
 MACKAY, PIERRE A.; PhD, 1964, UNIVERSITY OF CALIFORNIA (BERKELEY); Greek literature, post classical and Byzantine Greek literature, numismatics
 PASCAL, PAUL; PhD, 1953, UNIVERSITY OF NORTH CAROLINA; Latin literature, Roman archaeology, medieval Latin.

Communication

Professor

BALDASTY, GERALD J.; PhD, 1978, UNIVERSITY OF WASHINGTON; communications history and law, government-press relations, First Amendment philosophy and theory
 BOSMAJIAN, HAIG A.; PhD, 1960, STANFORD UNIVERSITY; rhetoric, freedom of speech.
 CARTER, RICHARD FREMONT; PhD, 1957, UNIVERSITY OF WISCONSIN; communications theory, methodology, behavioral analysis
 GIFFARD, CHARLES A.; PhD, 1968, UNIVERSITY OF WASHINGTON; international news systems, news flow, editing and reporting
 LANG, GLADYS ENGEL; PhD, 1954, UNIVERSITY OF CHICAGO; political effects of mass media, sociology of art, political movements and crowd behavior.
 LANG, KURT; PhD, 1953, UNIVERSITY OF CHICAGO; political and social effects of the media on mass communication; arts and society; public opinion
 PEMBER, DON R.; PhD, 1969, UNIVERSITY OF WISCONSIN; contemporary law and mass communication, First Amendment history, regulation of mass communication

PHILIPSEN, GERRY F.; PhD, 1972, NORTHWESTERN UNIVERSITY; ethnography of communication.
 SCHEIDEL, THOMAS; PhD, 1958, UNIVERSITY OF WASHINGTON; communication theory and research, small group processes
 STAMM, KEITH R.; PhD, 1968, UNIVERSITY OF WISCONSIN; communities and newspapers, new media technology, dynamic models of communication behavior.
 WARNICK, BARBARA P.; PhD, 1977, UNIVERSITY OF MICHIGAN; rhetorical theory and criticism.
 YERXA, FENDALL WINSTON; BA, 1936, HAMILTON COLLEGE; journalism

Associate Professor

BOWEN, LAWRENCE; PhD, 1974, UNIVERSITY OF WISCONSIN; advertising, media research, consumer information-seeking and -processing behaviors
 BOWES, JOHN E.; PhD, 1971, MICHIGAN STATE UNIVERSITY; man-machine communication, public opinion, international communication.
 CECCARELLI, LEAH M.; PhD, 1995, NORTHWESTERN UNIVERSITY; rhetoric of science, rhetorical criticism
 CRANSTON, PATRICIA; MA, 1954, UNIVERSITY OF TEXAS (AUSTIN); broadcast journalism, history, writing and production of docudramas
 FEARN-BANKS, KATHLEEN A.; MS, 1965, UNIVERSITY OF CALIFORNIA (LOS ANGELES); crisis communications, history
 JACKSON, KENNETH M.; PhD, 1970, UNIVERSITY OF WASHINGTON; institutional communications, media research, mass media and public policy, cultural communications
 MOY, PATRICIA; PhD, 1998, UNIVERSITY OF WASHINGTON; political communication, public opinion, media effects and research methodology
 PARKS, MALCOLM R.; PhD, 1976, MICHIGAN STATE UNIVERSITY; communication theory, interpersonal communication, social uses of the Internet, social network and o
 POST, ROBERT M.; PhD, 1961, OHIO UNIVERSITY; oral interpretation of literature.
 SAMUELSON, MERRILL; PhD, 1960, STANFORD UNIVERSITY; research methods, processes of reading, patterns in reader selection of new stories.
 SIMPSON, ROGER A.; PhD, 1973, UNIVERSITY OF WASHINGTON; communication history, law of communication, media economics, editorial journalism
 UNDERWOOD, DOUGLAS M.; MA, 1974, OHIO STATE UNIVERSITY; newspaper economics and management, press and politics, literature and journalism

Assistant Professor

THURLOW, CRISPIN SIMON; PhD, 2001, CARDIFF UNIVERSITY, WALES; communication in adolescence; language and new technologies; intercultural communication and tourism

Lecturer

GILL, KATHY E; MS, 1979, VIRGINIA POLYTECHNIC INST & STATE UNIV; digital media - technology, usability, effectiveness
NYQUIST, JODY D; MA, 1967, UNIVERSITY OF WASHINGTON; communication occurring in higher education and/or business/industry training units.

Comparative Literature

Professor

ADAMS, HAZARD S; PhD, 1953, UNIVERSITY OF WASHINGTON; romanticism, history of literary theory, Anglo-Irish literature
CHRISTOFIDES, C G; PhD, 1956, UNIVERSITY OF MICHIGAN; medieval, seventeenth century, Romanesque
HRUBY, ANTONIN F; PhD, 1946, CHARLES UNIVERSITY (CZECHOSLOVAKIA); medieval literature
KRAMER, KARL D; PhD, 1964, UNIVERSITY OF WASHINGTON; Russian literature
LEINER, JACQUELINE; Docteur es Lettres, 1969, UNIVERSITY OF STRASBOURG (FRANCE); modern French literature.
REINERT, OTTO; PhD, 1952, YALE UNIVERSITY; comparative literature, eighteenth-century literature
STEELE, CYNTHIA; PhD, 1980, UNIVERSITY OF CALIFORNIA (SAN DIEGO); Latin American literature and society, cinema, postcolonial and feminist theory
STEENE, BIRGITTA; PhD, 1960, UNIVERSITY OF WASHINGTON; Scandinavian drama and film, children's literature, comparative literature
VANCE, EUGENE; PhD, 1964, CORNELL UNIVERSITY; medieval literature, the history of criticism, and discourse analysis
ZIADEH, FARHAT J; LLB, 1940, UNIVERSITY OF LONDON (UK); Arabic language and literature, Islamic law, Islamic institutions

Associate Professor

ELLRICH, ROBERT J; PhD, 1960, HARVARD UNIVERSITY; eighteenth-century French literature
KOGOJ-KAPETANIC, BREDA; LITD, 1966, UNIVERSITY OF ZAGREB (YUGOSLAVIA); theory of comparative literature, 19th and 20th century European literature

MC LEAN, SAMMY K; PhD, 1963, UNIVERSITY OF MICHIGAN; Western drama, 20th-c poetry, psychoanalysis and literature, literary translation
SEHMSDORF, HENNING K; PhD, 1968, UNIVERSITY OF CHICAGO; folklore and mythology, Norwegian language and literature, comparative literature.
WARME, LARS G; PhD, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); Swedish language and literature, Scandinavian novel, comparative literature.

Dance

Professor

BORIS, RUTHANNA; ballet technique and dance therapy.
KNAPP, JOAN S; MA, 1964, UNIVERSITY OF ILLINOIS; dance composition, improvisation, kinesthetic training.
WILEY, HANNAH; MA, 1981, NEW YORK UNIVERSITY; ballet, scientific aspects of dance, choreography, dance in higher education

Drama

Professor

CLAY, JACK D.; MA, 1956, NORTHWESTERN UNIVERSITY; acting
COMTOIS, MARY ELIZABETH; PhD, 1970, UNIVERSITY OF COLORADO (BOULDER); playwriting
CRIDER, JAMES R; MA, 1950, UNIVERSITY OF WASHINGTON; costume design
SYDOW, JOHN D; MFA, 1950, YALE UNIVERSITY; directing

Associate Professor

CURTIS-NEWTON, VALERIE; MA, 1996, UNIVERSITY OF WASHINGTON; theatrical production, theatre technique, theatre history
FORRESTER, WILLIAM D; MFA, 1969, YALE UNIVERSITY; scene design
JENKINS, MARK F.; , O., ; the Stanislavski approach to acting; acting, directing
JOHNSON, DAVID ODAI; PhD, 1994, UNIVERSITY OF TEXAS (AUSTIN); theatre history with an area of emphasis in English Restoration and 18th century
PARKER, SHANGA KYLE GERARD; MFA, 1991, UNIVERSITY OF CALIFORNIA (SAN DIEGO); acting in Shakespearean verse
VALENTINETTI, AURORA; MA, 1949, UNIVERSITY OF WASHINGTON; puppetry

Assistant Professor

MADDEN, CATHERINE M; MA, 1977, WASHINGTON UNIVERSITY; Alexander technique, acting
WOLCOTT, JOHN R; PhD, 1967, OHIO STATE UNIVERSITY; theatre history, computing in theatre research

Lecturer

COLLUM, JERRY L; BFA, 1984, AUBURN UNIVERSITY; technical theatre
SHAHN, JUDITH; BFA, 1977, CARNEGIE MELLON UNIVERSITY; voice production for the theatre, dialects, Shakespeare and modern text
TROUT, DEBORAH L; MFA, 1994, YALE UNIVERSITY; design for the theatre; costume and set design

Earth and Space Sciences

Professor

ADAMS, JOHN B; PhD, 1961, UNIVERSITY OF WASHINGTON; remote sensing, planetary geology
ATWATER, BRIAN F; PhD, 1980, UNIVERSITY OF DELAWARE; Quaternary geology, earthquake hazards.
BAKER, MARCIA; PhD, 1971, UNIVERSITY OF WASHINGTON; cloud physics, atmospheric geophysics
BERGANTZ, GEORGE W; PhD, 1988, JOHNS HOPKINS UNIVERSITY; volcanology, surface processes, physical petrology
BOOKER, JOHN R; PhD, 1968, UNIVERSITY OF CALIFORNIA (SAN DIEGO); magnetotellurics, tectonics, inverse theory
BROWN, J. MICHAEL; PhD, 1980, UNIVERSITY OF MINNESOTA; experimental and theoretical mineral and rock physics
BROWNLIE, DONALD E; PhD, 1971, UNIVERSITY OF WASHINGTON; origin of the solar system, comets, interplanetary dust.
BUSINGER, JOOST A; PhD, 1954, UNIVERSITY OF UTRECHT (NETHERLANDS); energy transfer.
CHARLSON, ROBERT J; PhD, 1964, UNIVERSITY OF WASHINGTON; atmospheric chemistry
CHENEY, ERIC S.; PhD, 1964, YALE UNIVERSITY; economic and regional geology, sequence stratigraphy
CLARK, KENNETH C; PhD, 1947, HARVARD UNIVERSITY; optical spectroscopy, upper atmosphere
COWAN, DARREL S; PhD, 1972, STANFORD UNIVERSITY; structural geology, regional tectonics
CREAGER, JOE S; PhD, 1958, TEXAS A&M UNIVERSITY; geological oceanography, sedimentology
CREAGER, KENNETH C; PhD, 1984, UNIVERSITY OF CALIFORNIA (SAN

DIEGO); seismology, geophysical inverse theory
 CROSSON, ROBERT S; PhD, 1966, STANFORD UNIVERSITY; seismology, earth structure, tectonics, earthquake hazards
 DELANEY, JOHN R.; PhD, 1977, UNIVERSITY OF ARIZONA; geological oceanography, origin of oceanic crust, igneous petrology
 EVANS, BERNARD W; PhD, 1959, OXFORD UNIVERSITY (UK); mineralogy, metamorphic petrology
 GHOSE, SUBRATA; PhD, 1959, UNIVERSITY OF CHICAGO; mineral physics, crystallography, mineralogy
 GILLESPIE, ALAN R.; PhD, 1982, CALIFORNIA INSTITUTE OF TECHNOLOGY; Quaternary geology, glacial geomorphology, remote sensing
 HALLET, BERNARD; PhD, 1975, UNIVERSITY OF CALIFORNIA (LOS ANGELES); glacial and periglacial geomorphology (alpine and Arctic)
 HOLZWORTH, ROBERT; PhD, 1977, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental space plasma physics, atmospheric/magnetospheric electric fields, thunderstorms
 IVERSON, RICHARD M; PhD, 1984, STANFORD UNIVERSITY; volcano hazards, landslides, debris flows, lahars, geomechanics
 JOHNSON, HARLAN PAUL; PhD, 1972, UNIVERSITY OF WASHINGTON; paleomagnetism and marine geophysics
 LACHAPPELLE, EDWARD; DSc, 1967, UNIVERSITY OF PUGET SOUND; snow-ice physics
 LEOVY, CONWAY B; PhD, 1964, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; climatic role of clouds, planetary atmospheres, astrobiology, atmospheric circulation and dynamics
 MC CALLUM, IAN S; PhD, 1968, UNIVERSITY OF CHICAGO; lunar science, physics of meteorites, petrology
 MERRILL, RONALD T; PhD, 1967, UNIVERSITY OF CALIFORNIA (BERKELEY); geomagnetism, paleomagnetism
 MONTGOMERY, DAVID R; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); geomorphology (fluvial and hillslope)
 NEWHALL, CHRISTOPHER; PhD, 1980, DARTMOUTH COLLEGE; volcanic processes, eruption forecasting
 PARKS, GEORGE K; PhD, 1966, UNIVERSITY OF CALIFORNIA (BERKELEY); magnetospheric and space plasma physics
 PORTER, STEPHEN C; PhD, 1962, YALE UNIVERSITY; Quaternary stratigraphy, geochronology, paleoclimatology
 RAYMOND, CHARLES F; PhD, 1969, CALIFORNIA INSTITUTE OF TECHNOLOGY; glaciology, ice sheet dynamics
 RENSBERGER, JOHN M; PhD, 1967, UNIVERSITY OF CALIFORNIA

(BERKELEY); vertebrate paleontology and evolution
 SACK, RICHARD O; PhD, 1979, HARVARD UNIVERSITY; petrology, thermochemistry of rock-forming minerals, chemical transport
 SAHR, JOHN D.; PhD, 1990, CORNELL UNIVERSITY; radar remote sensing, ionospheric physics; signal processing; wireless communications
 SMITH, STEWART W; PhD, 1961, CALIFORNIA INSTITUTE OF TECHNOLOGY; earthquake processes
 STUIVER, MINZE; PhD, 1958, UNIVERSITY OF GRONINGEN (NETHERLANDS); geochronology, isotope geology
 SWANSON, DONALD A; PhD, 1964, JOHNS HOPKINS UNIVERSITY; volcanology, regional geology
 UNTERSTEINER, NORBERT; PhD, 1950, UNIVERSITY OF INNSBRUCK (AUSTRIA); air-sea-ice interaction, polar climatology, sea ice physics
 WADDINGTON, EDWIN D; PhD, 1981, UNIVERSITY OF BRITISH COLUMBIA (CANADA); glacier and ice sheet dynamics, paleoclimatology
 WARD, PETER D.; PhD, 1976, MCMASTER UNIVERSITY (CANADA); paleontology, paleobiology, regional coastal stratigraphy
 WASHBURN, ALBERT L; PhD, 1942, YALE UNIVERSITY; geomorphology, periglacial processes and environments
 WHIPPLE, ELDEN C; PhD, 1965, GEORGE WASHINGTON UNIVERSITY; magnetospheric physics, spacecraft-plasma interactions, kinetic theory of plasmas
 WINGLEE, ROBERT M; PhD, 1984, UNIVERSITY OF SYDNEY (AUSTRALIA); space plasma physics, numerical simulation of space plasmas

Research Professor

ANDERSON, PATRICIA M; PhD, 1982, BROWN UNIVERSITY; paleoecology, paleoclimatology, Quaternary environments (Arctic)
 BOOTH, DEREK B; PhD, 1984, UNIVERSITY OF WASHINGTON; Environmental geology, particularly human influences on hillslopes, runoff, and rivers.
 CONWAY, HOWARD B; PhD, 1986, UNIVERSITY OF CANTERBURY (NEW ZEALAND); glacier and ice sheet history, snow avalanches
 HERNANDEZ, GONZALO; PhD, 1962, UNIVERSITY OF ROCHESTER; aeronomy, optics
 MALONE, STEPHEN; PhD, 1972, UNIVERSITY OF NEVADA; seismicity of Cascade volcanoes and eastern Washington, computers in seismic network analysis
 WINEBRENNER, DALE P.; PhD, 1985, UNIVERSITY OF WASHINGTON; optical and radiowave propagation and scattering, remote sensing of planetary surfaces and subsurfaces

Associate Professor

STEIG, ERIC J; PhD, 1996, UNIVERSITY OF WASHINGTON; stable and cosmogenic isotope geochemistry, glaciology
 STONE, JOHN O.H.; PhD, 1986, CAMBRIDGE UNIVERSITY (UK); cosmogenic isotope geochemistry
 WILCOCK, WILLIAM S D; PhD, 1992, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; marine seismology, dynamics of mid-ocean ridges, geological fluid dynamics
 WILLETT, SEAN D.; PhD, 1988, UNIVERSITY OF UTAH; geodynamics, earthquake hazards, modelling

Research Associate Professor

ABRAMSON, EVAN H.; PhD, 1985, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; The thermodynamic and transport properties of materials at extreme pressures.
 ELY, JOHN T; PhD, 1969, UNIVERSITY OF WASHINGTON; background radiation as part of the geophysical environment
 KRESS, VICTOR C; PhD, 1990, UNIVERSITY OF CALIFORNIA (BERKELEY); igneous petrology, physics/chemistry of volcanoes
 MC CARTHY, MICHAEL P; PhD, 1988, UNIVERSITY OF WASHINGTON; solar wind and magnetospheric physics
 MERCER, JAMES A; PhD, 1983, UNIVERSITY OF WASHINGTON; ocean acoustic tomography, global climate measurements, and ocean dynamic modeling
 ODOM, ROBERT I.; PhD, 1980, UNIVERSITY OF WASHINGTON; Theoretical seismology; ocean acoustic tomography; wave propagation and scattering
 SWANSON, BRIAN; PhD, 1992, UNIVERSITY OF WASHINGTON; atmospheric geophysics, cloud physics, physics of ice

Assistant Professor

CLADOUHOS, TRENTON T; PhD, 1993, CORNELL UNIVERSITY; structural geology, hydrogeology of fractured rocks
 COOPER, KARI MELISSA; PhD, 2001, CALIFORNIA INSTITUTE OF TECHNOLOGY; Isotope geochemistry of volcanic rocks, timescales of magmatic processes, mantle geochemistry
 COOPER, KARI MELISSA; PhD, 2001, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Isotope geochemistry of volcanic rocks, timescales of magmatic processes, mantle geochemistry
 DAVIES-VOLLUM, SIAN; DPhil, 1993, OXFORD UNIVERSITY (UK); MSC, 1990, UNIVERSITY OF LONDON (UK); Sedimentological research, paleoenvironmental & paleobotanical reconstruction-ancient river systems/floodplains
 DECOSMO, JANICE M; PhD, 1991, UNIVERSITY OF WASHINGTON; atmosphere-ocean interaction, boundary layer processes, science education,

educational technology
HARRIS, WALTER M; PhD, 1993,
UNIVERSITY OF MICHIGAN; Remote
Sensing of planet-satellite upper
atmospheres and their response to the
Sun and Solar Wind.
NESBITT, ELIZABETH A.; PhD, 1982,
UNIVERSITY OF CALIFORNIA
(BERKELEY); Paleoenvironments and
stratigraphy of the Pacific Northwest of
Tertiary rocks
ROE, GERARD H; PhD, 1999, MASSA-
CHUSETTS INSTITUTE OF TECHNOL-
OGY; Interaction/feedback of Earth
System components, Climate Dynamics,
Paleoclimate, Surface Processes

Research Assistant Professor

PUTKONEN, JAAKKO K; PhD, 1997,
UNIVERSITY OF WASHINGTON;
Quaternary geology, frozen ground
research, cosmogenic isotope dating

Lecturer

CHERNICOFF, STANLEY E; PhD, 1980,
UNIVERSITY OF MINNESOTA;
geomorphology.
SWANSON, TERRY W; PhD, 1994,
UNIVERSITY OF WASHINGTON;
Quaternary geology, geochronology

Economics

Professor

BROWN, GARDNER; PhD, 1964,
UNIVERSITY OF CALIFORNIA
(BERKELEY); resource economics
BRUCE, NEIL; PhD, 1975, UNIVERSITY
OF CHICAGO; public finance (econom-
ics of the public sector), especially
taxation
CRUTCHFIELD, JAMES A; PhD, 1954,
UNIVERSITY OF CALIFORNIA
(BERKELEY); natural resources
economics, policy and management,
especially marine and environmental
resources
HALVORSEN, ROBERT F; PhD, 1973,
HARVARD UNIVERSITY; natural
resource economics
HARTMAN, RICHARD C; PhD, 1971,
UNIVERSITY OF CALIFORNIA
(BERKELEY); economic theory
LUNDBERG, SHELLY J; PhD, 1981,
NORTHWESTERN UNIVERSITY; labor
economics
MAH, FENG-HWA; PhD, 1959, UNIVER-
SITY OF MICHIGAN; Chinese economy
and foreign trade.
MC CAFFREE, KENNETH M; PhD, 1950,
UNIVERSITY OF CHICAGO; labor
economics and the economics of
medicine
MC GEE, JOHN S; PhD, 1952,
VANDERBILT UNIVERSITY; industrial
organization
MORRIS, MORRIS D; PhD, 1954,

UNIVERSITY OF CALIFORNIA
(BERKELEY); economic history and the
economy of India
NELSON, CHARLES R; PhD, 1969,
UNIVERSITY OF WISCONSIN; time
series analysis, economic statistical
analysis, advanced macroeconomic
theory
NORTH, DOUGLAS C; PhD, 1952,
UNIVERSITY OF CALIFORNIA
(BERKELEY); economic history
PARKS, RICHARD; PhD, 1966, UNIVER-
SITY OF CALIFORNIA (BERKELEY);
econometrics
STARTZ, RICHARD; PhD, 1978, MASSA-
CHUSETTS INSTITUTE OF TECHNOL-
OGY; macroeconomics, econometrics,
finance, economics of tace
TURNOVSKY, STEPHEN J; PhD, 1968,
HARVARD UNIVERSITY; monetary and
macroeconomics, international econom-
ics, theory of economic stabilization

Associate Professor

EICHER, THEO S.; PhD, 1994, COLUM-
BIA UNIVERSITY; international,
development, and macroeconomics, with
emphasis on economic growth
KHALIL, FAHAD A.; PhD, 1991, VIRGINIA
POLYTECHNIC INST & STATE UNIV;
information economics and the theory of
contracts
LAWARREE, JACQUES P.; PhD, 1990,
UNIVERSITY OF CALIFORNIA
(BERKELEY); industrial organization,
contract theory, game theory

Assistant Professor

PORTNER, CLAUS C; PhD, 2001,
UNIVERSITY OF COPENHAGEN
(DENMARK); Household and Family
Economics; Economic Development;
Empirical Microeconomics; Labour
Economics

Lecturer

SALEHI-ESFAHANI, HAIDEH; PhD, 1985,
UNIVERSITY OF PENNSYLVANIA;
international economics, economic
development

English

Professor

ALEXANDER, EDWARD; PhD, 1963,
UNIVERSITY OF MINNESOTA;
Romantic and Victorian literature
ALLEN, CAROLYN; PhD, 1972, UNIVER-
SITY OF MINNESOTA; twentieth-century
literature, women writers, contemporary
critical theory
BURNS, WAYNE; PhD, 1946, CORNELL
UNIVERSITY; Victorian literature
COLDEWEY, JOHN C; PhD, 1972,
UNIVERSITY OF COLORADO (BOUL-
DER); medieval and Renaissance drama
and literature

DILLON, GEORGE L.; PhD, 1969,
UNIVERSITY OF CALIFORNIA
(BERKELEY); rhetoric, composition
FOWLER, DAVID C; PhD, 1949, UNIVER-
SITY OF CHICAGO; medieval literature,
comparative religion
FREY, CHARLES HUBBARD; PhD, 1971,
YALE UNIVERSITY; Renaissance
literature, Shakespeare
GERSTENBERGER, DONNA; PhD, 1958,
UNIVERSITY OF OKLAHOMA;
twentieth-century literature, Anglo-Irish
literature, feminist criticism
HANDWERK, GARY J; PhD, 1984,
BROWN UNIVERSITY; British, German,
and French nineteenth- and twentieth-
century narrative; Romantic and post-
Romantic
IRMSCHER, WILLIAM F; PhD, 1950,
INDIANA UNIVERSITY; rhetoric and
theory of composition
JOHNSON, CHARLES R; PhD, 1988,
STATE UNIV OF NEW YORK (STONY
BROOK); fiction writing
KENNEY, RICHARD L; BA, 1970,
DARTMOUTH COLLEGE; poetry writing
KORG, JACOB; PhD, 1952, COLUMBIA
UNIVERSITY; Victorian, twentieth-
century literature
MATCHETT, WILLIAM H; PhD, 1957,
HARVARD UNIVERSITY; Renaissance
literature, Shakespeare
MC CRACKEN, J DAVID; PhD, 1966,
UNIVERSITY OF CHICAGO; eighteenth-
century literature; Blake; Wordsworth;
biblical literature (esp. gospels,
parables)
REINERT, OTTO; PhD, 1952, YALE
UNIVERSITY; comparative literature,
eighteenth-century literature
RUSS, JOANNA; MFA, 1960, YALE
UNIVERSITY; fiction writing
SALE, ROGER H; PhD, 1957, CORNELL
UNIVERSITY; Renaissance literature
SHIELDS, DAVID; MFA, 1980, UNIVER-
SITY OF IOWA; creative nonfiction,
autobiography, fiction writing, contempo-
rary literature
SHULMAN, ROBERT; PhD, 1959, OHIO
STATE UNIVERSITY; American
literature
SILBERSTEIN, SANDRA V; PhD, 1982,
UNIVERSITY OF MICHIGAN; TESL,
critical theory, discourse analysis,
sociolinguistics, language and culture
SIMONSON, HAROLD P; PhD, 1958,
NORTHWESTERN UNIVERSITY;
American literature
STATEN, HENRY J.; PhD, 1978, UNIVER-
SITY OF TEXAS (AUSTIN); 19th- and
20th-century British literature, history of
literary criticism, contemporary theory
STEVICK, ROBERT D; PhD, 1956,
UNIVERSITY OF WISCONSIN;
medieval language and literature
WAGONER, DAVID R; MA, 1949, INDIANA
UNIVERSITY; twentieth-century
literature, fiction and poetry writing
WONG, SHAWN H; MA, 1974, SAN
FRANCISCO STATE; creative writing,
Chinese-American area studies

Associate Professor

ABRAMS, ROBERT; PhD, 1973, INDIANA UNIVERSITY; American literature
BAWARSHI, ANIS; PhD, 1999, UNIVERSITY OF KANSAS; rhetoric and composition studies, with an emphasis in genre theory, invention
BRENNER, GERALD J; PhD, 1969, UNIVERSITY OF NEW MEXICO; American literature, fiction writing
BUTWIN, JOSEPH M; PhD, 1971, HARVARD UNIVERSITY; Victorian literature
CUMMINGS, KATHERINE; PhD, 1985, UNIVERSITY OF WISCONSIN; cultural studies, critical theory, queer studies, 20th.c americanist
GRIFFITH, JOHN W; PhD, 1969, UNIVERSITY OF OREGON; American literature
GUERRA, JUAN C; PhD, 1992, UNIVERSITY OF ILLINOIS; Literacy, Ethnography, Composition, Pedagogy and Chicano Literature
HUDSON, LOIS PHILLIPS; LITD, 1965, NORTH DAKOTA STATE UNIVERSITY; fiction writing
LONGYEAR, CHRISTOPHER R; PhD, 1961, UNIVERSITY OF MICHIGAN; linguistics.
MUSSETTER, SALLY ANN; PhD, 1975, CORNELL UNIVERSITY; medieval language and literature
PALOMO, DOLORES J; PhD, 1972, STATE UNIVERSITY OF NEW YORK (BUFFALO); Renaissance literature, women writers
PATTERSON, MARK R; PhD, 1981, PRINCETON UNIVERSITY; American literature
SIMPSON, CAROLINE CHUNG; PhD, 1994, UNIVERSITY OF TEXAS (AUSTIN); Asian American studies and postwar American culture
SMITH, EUGENE H; PhD, 1963, UNIVERSITY OF WASHINGTON; rhetoric and theory of composition
STANTON, ROBERT B; PhD, 1953, INDIANA UNIVERSITY; American literature
STYGALL, GAIL; PhD, 1989, INDIANA UNIVERSITY; discourse analysis, rhetoric and composition, English language linguistics, forensic linguistics
WEBSTER, JOHN M; PhD, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); Renaissance literature

Assistant Professor

CHAUDHARY, ZAHID R; PhD, 2004, CORNELL UNIVERSITY; postcolonial theory & lit, critical theory
FEETHAM, ELIZABETH L; PhD, 1977, UNIVERSITY OF WASHINGTON; Graduate education in the United States
GRIFFITH, MALCOLM A; PhD, 1966, OHIO STATE UNIVERSITY; twentieth-century literature, modern criticism, American literature
HARKINS, GILLIAN H; PhD, 2002, UNIVERSITY OF CALIFORNIA

(BERKELEY); gender and sexuality, twentieth century U.S. fiction
KANNO, YASUKO; PhD, 1996, UNIVERSITY OF TORONTO (CANADA); language and identity; bilingual education; language minority education; qualitative research

Lecturer

GEORGE, E. LAURIE; PhD, 1984, UNIVERSITY OF OREGON; computer-integrated pedagogy (writing and literature) feminist pedagogies, rhetoric
LUSKEY, MATTHEW C; PhD, 2003, UNIVERSITY OF OREGON; Composition and Rhetoric, Interdisciplinary Writing, Modernism, Film Studies
POPOV, NIKOLAI B.; PhD, 1994, UNIVERSITY OF WASHINGTON; modern irish, slavic, and german writers, literary theory and criticism; translation
SIMMONS-ONEILL, ELIZABETH; PhD, 1988, UNIVERSITY OF WASHINGTON; expository and interdisciplinary writing, service learning
WACKER, NORMAN J.; PhD, 1986, UNIVERSITY OF WASHINGTON; expository and interdisciplinary writing

Geography

Professor

FLEMING, DOUGLAS K; PhD, 1965, UNIVERSITY OF WASHINGTON; transportation geography (especially ocean and air), regional organization of western Europe
HART, LAWRENCE G; PhD, 1985, UNIVERSITY OF WASHINGTON; rural health policy, medical geography
JACKSON, W A DOUGLAS; PhD, 1953, UNIVERSITY OF MARYLAND; Canada
KRUMME, GUNTER; PhD, 1966, UNIVERSITY OF WASHINGTON; economic geography, regional economics, location theory, organization and decision theory
MAYER, JONATHAN D; PhD, 1977, UNIVERSITY OF MICHIGAN; medical geography, health policy, env. health, epidemiology, intl. health, infectious diseases
MORRILL, RICHARD L; PhD, 1959, UNIVERSITY OF WASHINGTON; social and economic geography, theory and quantitative methods, spatial organization, migration
NYERGES, TIMOTHY L.; PhD, 1980, OHIO STATE UNIVERSITY; GIS, spatial decision support, urban, transportation, environment, groupware
VELIKONJA, JOSEPH; PhD, 1948, STATE UNIVERSITY (ITALY); social and political geography, international migration, immigrants in America, eastern Europe
ZUMBRUNNEN, CRAIG; PhD, 1973, UNIVERSITY OF CALIFORNIA

(BERKELEY); resource analysis, Russia and NIS, environment, mathematical programming, urban ecology

Associate Professor

CHANG, KUEI-SHENG; PhD, 1955, UNIVERSITY OF MICHIGAN; economic geography of China, historical geography of exploration, Third World development.
JAROSZ, LUCY A.; PhD, 1990, UNIVERSITY OF CALIFORNIA (BERKELEY); critical development studies, food and agriculture, rural poverty and inequality, political ecology
KAKIUCHI, GEORGE H; PhD, 1957, UNIVERSITY OF MICHIGAN; Japan, agriculture, internal migration, regional geography
SPARKE, MATTHEW; PhD, 1996, UNIVERSITY OF BRITISH COLUMBIA (CANADA); political-geography, social theory, cultural studies, globalization

Germanics

Professor

HRUBY, ANTONIN F; PhD, 1946, CHARLES UNIVERSITY (CZECHOSLOVAKIA); medieval literature
REY, WILLIAM H; PhD, 1937, UNIVERSITY OF FRANKFURT (GERMANY); nineteenth and twentieth century German literature

Associate Professor

MC LEAN, SAMMY K; PhD, 1963, UNIVERSITY OF MICHIGAN; Western drama, 20th-c poetry, psychoanalysis and literature, literary translation

Lecturer

BRANDL, KLAUS K; PhD, 1991, UNIVERSITY OF TEXAS (AUSTIN); foreign language pedagogy, applied linguistics, foreign language teacher training

History

Professor

ALDEN, DAURIL; PhD, 1959, UNIVERSITY OF CALIFORNIA (BERKELEY); Latin American history, comparative colonial history
BACHARACH, JERE L; PhD, 1967, UNIVERSITY OF MICHIGAN; history of the Near East
BERGQUIST, CHARLES W; PhD, 1973, STANFORD UNIVERSITY; modern Latin American history, comparative labor history, Third World development

BRIDGMAN, JON M; PhD, 1960, STANFORD UNIVERSITY; modern European history (especially military)

BUTOW, ROBERT J C; PhD, 1953, STANFORD UNIVERSITY; East Asian diplomatic history

CONLON, FRANK F; PhD, 1969, UNIVERSITY OF MINNESOTA; history of India

EBREY, PATRICIA B.; PhD, 1975, COLUMBIA UNIVERSITY; The social and cultural history of China, especially the Song Dynasty (960-1279).

FERRILL, ARTHUR L; PhD, 1964, UNIVERSITY OF ILLINOIS; ancient history

FOWLER, WILTON B; PhD, 1966, YALE UNIVERSITY; American history (especially diplomatic)

GIL, CARLOS; PhD, 1975, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Latin America and history of the Chicano people

GREGORY, JAMES N; PhD, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); U.S. social and political history since 1865, labor, the West

HANKINS, THOMAS L; PhD, 1964, CORNELL UNIVERSITY; history of science

JONAS, RAYMOND A.; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); modern France

KIRKENDALL, RICHARD S; PhD, 1958, UNIVERSITY OF WISCONSIN; recent United States history

LEBSOCK, SUZANNE D.; PhD, 1977, UNIVERSITY OF VIRGINIA; history of women, American social history, history of the South

LEVY, FRED J; PhD, 1960, HARVARD UNIVERSITY; history of England in the sixteenth- and seventeenth- centuries, English historiography

PALAIS, JAMES B; PhD, 1968, HARVARD UNIVERSITY; modern Korean history

PEASE, OTIS A; PhD, 1954, YALE UNIVERSITY; United States in the twentieth century.

PRESSLY, THOMAS J; PhD, 1949, HARVARD UNIVERSITY; history

RAFAEL, VICENTE L.; PhD, 1984, CORNELL UNIVERSITY; colonialism and nationalism, technology and translation, Filipino studies, S.E.Asia, Asian American

SAUM, LEWIS O; PhD, 1962, UNIVERSITY OF MISSOURI; American intellectual history

SEARS, LAURIE J; PhD, 1986, UNIVERSITY OF WISCONSIN; Southeast Asian social and cultural history

STACEY, ROBIN C; PhD, 1986, YALE UNIVERSITY; early and high medieval history, tribal law, Celtic/Anglo-Saxon literature, heresy

ULLMAN, JOAN CONNELLY; PhD, 1963, BRYN MAWR COLLEGE; modern Spain

Associate Professor

DONG, YUE; PhD, 1996, UNIVERSITY OF CALIFORNIA (SAN DIEGO); modern

Chinese history, urban history, gender studies

FELAK, JAMES R; PhD, 1989, INDIANA UNIVERSITY; modern East European history

MCKENZIE, ROBERT T; PhD, 1988, VANDERBILT UNIVERSITY; nineteenth-century U.S., U.S. economic

International Studies

Professor

BACHMAN, DAVID M; PhD, 1984, STANFORD UNIVERSITY; Chinese politics and foreign policy and China's political economy (1949-present); US-China relations

BRASS, PAUL R; PhD, 1964, UNIVERSITY OF CHICAGO; comparative government, international relations

BUTOW, ROBERT J C; PhD, 1953, STANFORD UNIVERSITY; East Asian diplomatic history

ELLISON, HERBERT J; PhD, 1955, UNIVERSITY OF LONDON (UK); modern Russian history

HANLEY, SUSAN B; PhD, 1971, YALE UNIVERSITY; premodern Japan

HELLMANN, DONALD C; PhD, 1964, UNIVERSITY OF CALIFORNIA (BERKELEY); Japanese politics and international relations

KAPETANIC, DAVOR; PhD, 1972, UNIVERSITY OF ZAGREB (YUGOSLAVIA); Yugoslav literature, Slavic literary theory

LEGTTERS, LYMAN H; PhD, 1958, FREIE UNIVERSITÄT OF BERLIN (GERMANY); Russian and East European Studies.

MAH, FENG-HWA; PhD, 1959, UNIVERSITY OF MICHIGAN; Chinese economy and foreign trade.

MICKLESEN, LEW R; PhD, 1951, HARVARD UNIVERSITY; Slavic linguistics

MIGDAL, JOEL S; PhD, 1972, HARVARD UNIVERSITY; state and society in the Third World; Middle East politics

PALAIS, JAMES B; PhD, 1968, HARVARD UNIVERSITY; modern Korean history

POZNANSKI, KAZIMIERZ; PhD, 1974, UNIVERSITY OF WARSAW (POLAND); international trade; economics of technology; comparative economic systems

WEBB, EUGENE; PhD, 1965, COLUMBIA UNIVERSITY; modern English, French, and German literature, comparative religion

YAMAMURA, KOZO; PhD, 1964, NORTH-WESTERN UNIVERSITY; economic development and economic history of Japan, comparative economic history

YANG, ANAND A; PhD, 1976, UNIVERSITY OF VIRGINIA; History of labor migration and crime and punishment in colonial South and Southeast Asia

Associate Professor

ANCHORDOGUY, MARIE C; PhD, 1986, UNIVERSITY OF CALIFORNIA (BERKELEY); Japan's political economy; East Asian economic development

DONG, YUE; PhD, 1996, UNIVERSITY OF CALIFORNIA (SAN DIEGO); modern Chinese history, urban history, gender studies

GIEBEL, CHRISTOPH; PhD, 1996, CORNELL UNIVERSITY; Viet Nam; 20th century history, communism, labor, post-independence historiography

LAVELY, WILLIAM R.; PhD, 1982, UNIVERSITY OF MICHIGAN; social demography of China

SPARKE, MATTHEW; PhD, 1996, UNIVERSITY OF BRITISH COLUMBIA (CANADA); political-geography, social theory, cultural studies, globalization

WARREN, JONATHAN W.; PhD, 1997, UNIVERSITY OF CALIFORNIA (BERKELEY); race and ethnicity, Latin American studies, cultural studies, Native American studies

YOUNG, GLENNYS J.; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); late Imperial and early Soviet Russia

Assistant Professor

TOKUNO, KYOKO; PhD, 1994, UNIVERSITY OF CALIFORNIA (BERKELEY); Chinese and Japanese Buddhism of medieval period. Buddhist polemical literature in China

WELLMAN, JAMES K.; PhD, 1995, UNIVERSITY OF CHICAGO; Western religions, contemporary American religion, liberal Protestantism, US & global evangelicalism

Linguistics

Professor

AUGEROT, JAMES E.; PhD, 1968, UNIVERSITY OF WASHINGTON; Slavic linguistics, Romanian, Bulgarian

BARRACK, CHARLES M; PhD, 1969, UNIVERSITY OF WASHINGTON; Germanic linguistics

BRAHE, MICHAEL; PhD, 1970, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; syntax, phonology, structure of Arabic and English, cross-linguistic comparisons, poetics

CONTRERAS, HELES; PhD, 1961, INDIANA UNIVERSITY; Spanish linguistics, syntax and English semantics

HUNN, EUGENE S; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); cognitive anthropology, ethnobiology, cultural ecology and evolution, North American Indians

KUHL, PATRICIA K; PhD, 1973, UNIVERSITY OF MINNESOTA; speech perception.

MICKLESEN, LEW R; PhD, 1951, HARVARD UNIVERSITY; Slavic linguistics
 NEUMEYER, FREDERICK; PhD, 1969, UNIVERSITY OF ILLINOIS; theoretical and English syntax, history of linguistics
 OSTENDORF, MARI; PhD, 1985, STANFORD UNIVERSITY; Speech synthesis and understanding; spoken document retrieval; statistical pattern recognition.
 STOEL-GAMMON, CAROL; PhD, 1974, STANFORD UNIVERSITY; developmental phonology and phonetics
 TOLLEFSON, JAMES W; PhD, 1978, STANFORD UNIVERSITY; English as a second language, language planning
 VOYLES, JOSEPH B.; PhD, 1965, INDIANA UNIVERSITY; Germanics and linguistics
 YUE-HASHIMOTO, ANNE O; PhD, 1966, OHIO STATE UNIVERSITY; Chinese linguistics, grammar (historical and modern), dialectology, historical reconstruction

Associate Professor

DZIWIWREK, KATARZYNA A.; PhD, 1991, UNIVERSITY OF CALIFORNIA (SAN DIEGO); linguistics, syntax and typology
 ETZIONI, OREN; PhD, 1990, CARNEGIE MELLON UNIVERSITY; artificial intelligence and information retrieval, natural language interfaces, software agents
 KAUTZ, HENRY; PhD, 1988, UNIVERSITY OF ROCHESTER; artificial intelligence, knowledge representation, decision-theoretic control of reasoning
 OHTA, AMY; PhD, 1993, UNIVERSITY OF CALIFORNIA (LOS ANGELES); applied linguistics, especially second language acquisition, discourse analysis, and Japanese
 OSTERHOUT, LEE E; PhD, 1990, TUFTS UNIVERSITY; psycholinguistics, cognitive psychophysiology
 STROZER, JUDITH R; PhD, 1976, UNIVERSITY OF CALIFORNIA (LOS ANGELES); comparative Romance syntax, second language acquisition, foreign language teaching
 WRIGHT, RICHARD A.; PhD, 1996, UNIVERSITY OF CALIFORNIA (LOS ANGELES); phonetics, production/perception, automatic speech recognition, phonology, African languages

Assistant Professor

BILANIUK, LAADA M.; PhD, 1998, UNIVERSITY OF MICHIGAN; Language politics, language ideology, ethnicity, nationalism, gender, Ukraine, former USSR.
 BILMES, JEFFREY A.; PhD, 1999, UNIVERSITY OF CALIFORNIA (BERKELEY); Speech & pattern recognition, learning, audio processing, high-performance computing, human-computer

HANDEL, ZEV; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); Chinese historical phonology; Sino-Tibetan linguistics.

Mathematics

Professor

ARSOVE, MAYNARD G; PhD, 1950, BROWN UNIVERSITY; potential theory, complex function theory, theory of bases
 BLUMENTHAL, ROBERT M; PhD, 1956, CORNELL UNIVERSITY; probability
 BROWNELL, FRANCIS H; PhD, 1949, YALE UNIVERSITY; differential equations, applied mathematics
 BUBE, KENNETH P.; PhD, 1978, STANFORD UNIVERSITY; numerical analysis, partial differential equations
 BURDZY, KRZYSZTOF; PhD, 1984, UNIVERSITY OF CALIFORNIA (BERKELEY); probability theory
 BURKE, JAMES V.; PhD, 1983, UNIVERSITY OF ILLINOIS; optimization, nonsmooth analysis
 CHAYES, JENNIFER T.; PhD, 1983, PRINCETON UNIVERSITY; theoretical condensed-matter physics
 CHEN, ZHEN-QING; PhD, 1992, WASHINGTON UNIVERSITY; probability theory and stochastic analysis
 COLLINGWOOD, DAVID; PhD, 1983, UNIVERSITY OF UTAH; computational biology, Lie theory
 CURJEL, CASPAR R; DSc, 1960, EIDGENOSSE TECHNISCHE HOCHSCHULE (SWITZ); algebraic topology, algebra
 DUBISCH, ROY; PhD, 1943, UNIVERSITY OF CHICAGO; teacher training, elementary and secondary curriculum
 DUCHAMP, THOMAS E.; PhD, 1976, UNIVERSITY OF ILLINOIS; differential geometry
 FREEDMAN, MICHAEL H.; PhD, 1973, PRINCETON UNIVERSITY; topology
 GANGOLLI, RAMESH A; PhD, 1961, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; probability theory, harmonic analysis on Lie groups
 GOLDSTEIN, ALLEN A.; PhD, 1954, GEORGETOWN UNIVERSITY; approximation theory, nonlinear programming, control theory, calculus of variations
 GOODEARL, KENNETH R.; PhD, 1971, UNIVERSITY OF WASHINGTON; noncommutative algebra (noetherian rings, quantum groups, regular rings, C*-algebras)
 GRAHAM, C. ROBIN; PhD, 1981, PRINCETON UNIVERSITY; partial differential equations, differential geometry, invariant theory
 GREENBAUM, ANNE; PhD, 1981, UNIVERSITY OF CALIFORNIA (BERKELEY); applied analysis and computational mathematics

GREENBERG, RALPH; PhD, 1971, PRINCETON UNIVERSITY; number theory
 GRUNBAUM, BRANKO; PhD, 1957, HEBREW UNIVERSITY (ISRAEL); geometry
 KAS, ARNOLD; PhD, 1966, STANFORD UNIVERSITY; Bioinformatics, Genetics and Genome Annotation.
 KIM, JEONG HAN; PhD, 1993, RUTGERS UNIVERSITY; mathematical physics (statistical mechanics), combinatorics
 KLEE, VICTOR; PhD, 1949, UNIVERSITY OF VIRGINIA; convex sets, functional analysis, analysis of algorithms, optimization, combinatorics
 KOBLITZ, NEAL I; PhD, 1974, PRINCETON UNIVERSITY; number theory and cryptography
 LEE, JOHN M; PhD, 1982, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; differential geometry and partial differential equations
 LOVASZ, LASZLO; PhD, 1977, HUNGARIAN ACADEMY OF SCIENCES; discrete mathematics
 MARSHALL, DONALD E; PhD, 1976, UNIVERSITY OF CALIFORNIA (LOS ANGELES); complex analysis
 MCGOVERN, WILLIAM M; PhD, 1987, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; representation theory
 MICHAEL, ERNEST A; PhD, 1951, UNIVERSITY OF CHICAGO; topology
 MITCHELL, STEPHEN A.; PhD, 1981, UNIVERSITY OF WASHINGTON; algebraic topology
 MORROW, JAMES ALLEN; PhD, 1967, STANFORD UNIVERSITY; complex singularities, inverse problems
 NAMIOKA, ISAAC; PhD, 1956, UNIVERSITY OF CALIFORNIA (BERKELEY); functional analysis
 NIJENHUIS, ALBERT; PhD, 1952, UNIVERSITY OF AMSTERDAM (NETHERLANDS); geometry, combinatorics, computational complexity
 NUNKE, RONALD; PhD, 1955, UNIVERSITY OF CHICAGO; category theory, Abelian groups
 PHELPS, ROBERT R; PhD, 1958, UNIVERSITY OF WASHINGTON; convexity, functional analysis, geometry of Banach spaces, optimization
 RAGOZIN, DAVID; PhD, 1967, HARVARD UNIVERSITY; approximation theory
 ROCKAFELLAR, R T; PhD, 1963, HARVARD UNIVERSITY; variational analysis and optimization
 ROHDE, STEFFEN; PhD, 1989, UNIVERSITY OF BERLIN (GERMANY); complex analysis
 SCHRAMM, ODED; PhD, 1990, PRINCETON UNIVERSITY; complex analysis
 SEGAL, JACK; PhD, 1960, UNIVERSITY OF GEORGIA; topology, shape theory
 SMITH, HART F; PhD, 1989, PRINCETON UNIVERSITY; partial differential equations, Fourier analysis

SMITH, SHOLTO PAUL; PhD, 1981, UNIVERSITY OF LEEDS (UK); algebra
 SOLOMYAK, BORIS; PhD, 1986, LENINGRAD UNIVERSITY (RUSSIA); ergodic theory, symbolic dynamics, spectral theory
 SULLIVAN, JOHN B; PhD, 1971, CORNELL UNIVERSITY; representations of classic groups
 SYLVESTER, JOHN; PhD, 1980, NEW YORK UNIVERSITY; partial differential equations
 TORO, TATIANA; PhD, 1992, STANFORD UNIVERSITY; analysis and geometric measure theory
 TSENG, PAUL YUN; PhD, 1986, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; optimization
 TUNCEL, SELIM; PhD, 1982, UNIVERSITY OF WARWICK (UK); ergodic theory, symbolic dynamics
 UHLMANN, GUNTHER A.; PhD, 1976, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; partial differential equations
 WARNER, GARTH; PhD, 1966, UNIVERSITY OF MICHIGAN; algebraic topology
 WESTWATER, MICHAEL; PhD, 1967, CAMBRIDGE UNIVERSITY (UK); mathematical physics
 ZHANG, JIAN JAMES; PhD, 1991, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; algebra, ring theory

Associate Professor

ARMS, JUDITH M; PhD, 1977, UNIVERSITY OF CALIFORNIA (BERKELEY); geometric analysis of Hamiltonian systems with symmetry
 BILLEY, SARA; PhD, 1994, UNIVERSITY OF CALIFORNIA (SAN DIEGO); Algebraic combinatorics
 BUNGART, LUTZ; PhD, 1962, PRINCETON UNIVERSITY; several complex variables
 DEVINATZ, ETHAN S; PhD, 1985, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; algebraic topology
 HOFFMAN, CHRISTOPHER; PhD, 1996, STANFORD UNIVERSITY; ergodic theory of p-adic endomorphisms, percolation theory
 KING, JAMES RICHARD; PhD, 1969, UNIVERSITY OF CALIFORNIA (BERKELEY); complex manifolds, instructional computing in geometry
 KOVACS, SANDOR J; PhD, 1995, UNIVERSITY OF UTAH; algebraic geometry, complex geometry, commutative algebra
 PALMIERI, JOHN; PhD, 1991, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; algebraic topology, representation theory
 POLLACK, DANIEL; PhD, 1991, STANFORD UNIVERSITY; differential geometry and nonlinear partial differential equations
 THOMAS, REKHA R.; PhD, 1994, CORNELL UNIVERSITY; computational

algebra, combinatorics, discrete optimization

Assistant Professor

DORAN, CHARLES F.; PhD, 1999, HARVARD UNIVERSITY; Geometry, string theory, number theory
 OZOLS, VILNIS; PhD, 1967, UNIVERSITY OF CALIFORNIA (BERKELEY); Lie groups, Riemannian geometry

Lecturer

WARFIELD, VIRGINIA; PhD, 1971, BROWN UNIVERSITY; probability and the teaching of mathematics

Music

Professor

BEALE, JAMES M; MMus, 1947, YALE UNIVERSITY; theory/composition
 CARLSEN, JAMES C; PhD, 1962, NORTHWESTERN UNIVERSITY; systematic musicology, psychomusicology, research methodology, theories of music instruction
 CURTIS-VERNA, MARY; BA, 1943, HOLLINS COLLEGE (VIRGINIA); voice
 DEMPSTER, STUART R; MA, 1967, SAN FRANCISCO STATE; trombone, contemporary music
 ELLINGSON, TERRY J; PhD, 1979, UNIVERSITY OF WISCONSIN; ethnomusicology, anthropology, religion, Tibet, Nepal, Buddhism;
 GROSSMAN, ARTHUR; Diploma, 1955, CURTIS INSTITUTE OF MUSIC; bassoon
 HOKANSON, RANDOLPH H; , 0, ; studied with Dame Myra Hess, Howard Ferguson (London); piano
 KAPLAN, ABRAHAM; Diploma, 1957, JUILLIARD SCHOOL; choral conducting, composition
 KAPPY, DAVID L; MM, 1971, UNIVERSITY OF WISCONSIN; French horn performance, chamber music, and theory
 KECHLEY, GERALD; MA, 1950, UNIVERSITY OF WASHINGTON; theory/composition
 LUNDQUIST, BARBARA R; DMA, 1973, UNIVERSITY OF WASHINGTON; music education, sociomusicology, ethnomusicology in schools
 LUNDQUIST, BARBARA R; MS, 1959, MONTANA STATE UNIVERSITY; music education, sociomusicology, ethnomusicology in schools
 MC CABE, ROBIN L; DMA, 1976, JUILLIARD SCHOOL; MMus, 1973, JUILLIARD SCHOOL; piano performance, communication skills, and pedagogy
 MC COLL, WILLIAM; Diploma, 1955, STATE ACADEMY OF MUSIC (AUSTRALIA); clarinet

SALZMAN, TIMOTHY O; MM, 1979, NORTHERN ILLINOIS UNIVERSITY; wind ensemble conducting, pedagogy and repertoire
 SIKI, BELA; Diploma, 1948, CONSERVATOIRE DE MUSIQUE (SWITZERLAND); piano literature with special interest in interpretation and performance
 SMITH, WILLIAM O; MA, 1952, UNIVERSITY OF CALIFORNIA (BERKELEY); theory/composition
 SOKOL, VILEM; BMus, 1938, OBERLIN COLLEGE; MMus, 1946, OBERLIN COLLEGE; violin, viola, conducting
 STORCH, LAILA; BA, 1964, WILKES COLLEGE; oboe
 THOME, DIANE; PhD, 1973, PRINCETON UNIVERSITY; theory/composition
 ZSIGMONDY-LIEDMANN, DENES; BA, 1940, GYMNASIAM, BUDAPEST (HUNGARY); violin

Associate Professor

BENSHOOF, KENNETH; MA, 1963, SAN FRANCISCO STATE; theory/composition.
 HARPER, THOMAS; MM, 1976, UNIVERSITY OF ARKANSAS; classical singing, vocal pedagogy, opera, baroque music
 IMMEL, DON T.; MM, 1996, RICE UNIVERSITY; artistic advancement of trombone performance, teaching and literature
 JUSSILA, CLYDE F; MS, 1951, KANSAS STATE UNIVERSITY; music education
 ROSINBUM, RALPH; MA, 1948, UNIVERSITY OF WASHINGTON; opera production
 TARICANI, JO ANN; PhD, 1986, UNIVERSITY OF PENNSYLVANIA; music history and literature

Assistant Professor

COLLIER, THOMAS W; BA, 1971, UNIVERSITY OF WASHINGTON; BMus, 1971, UNIVERSITY OF WASHINGTON; percussion performance and mallet jazz improvisational techniques

Near Eastern Languages and Literature

Professor

HEER, NICHOLAS L.; PhD, 1955, PRINCETON UNIVERSITY; Arabic language and literature, Islamic theology and philosophy
 MACKAY, PIERRE A; PhD, 1964, UNIVERSITY OF CALIFORNIA (BERKELEY); Greek literature, post classical and Byzantine Greek literature, numismatics
 ZIADEH, FARHAT J; LLB, 1940, UNIVERSITY OF LONDON (UK); Arabic language and literature, Islamic law, Islamic institutions

Associate Professor

NOEGEL, SCOTT B.; PhD, 1994, CORNELL UNIVERSITY; ancient Near Eastern languages, literatures, cultures, and history

Assistant Professor

ELKHAFIFI, HUSSEIN M.; PhD, 1985, UNIVERSITY OF UTAH; Arabic language, second language acquisition, pedagogy, language policy & planning, standardization

Philosophy

Professor

BOLER, JOHN F.; PhD, 1960, HARVARD UNIVERSITY; medieval philosophy
DIETRICHSON, PAUL; PhD, 1955, YALE UNIVERSITY; philosophy of religion, ethics, metaphysics
JECKER, NANCY A.S.; PhD, 1986, UNIVERSITY OF WASHINGTON; philosophical and ethical aspects of health care delivery and policy
MARKS, CHARLES; PhD, 1972, CORNELL UNIVERSITY; philosophy of mind, modern philosophy
POTTER, KARL H.; PhD, 1955, HARVARD UNIVERSITY; South Asia, Indian philosophy, epistemology
RICHMAN, ROBERT J.; PhD, 1953, HARVARD UNIVERSITY; ethics, epistemology
TALBOTT, WILLIAM J.; PhD, 1976, HARVARD UNIVERSITY; epistemology, ethics, social and political philosophy, rational choice theory

Associate Professor

MISHALANI, JAMES K.; PhD, 1961, BROWN UNIVERSITY; ethics, philosophical anthropology, contemporary continental philosophy
MOORE, RONALD M.; PhD, 1971, COLUMBIA UNIVERSITY; philosophy of law, aesthetics
ROBERTS, JEAN VALERIE; PhD, 1982, UNIVERSITY OF PITTSBURGH; ancient Greek philosophy, ethics, philosophy of feminism
ROSENTHAL, MICHAEL; PhD, 1996, UNIVERSITY OF CHICAGO; History of Early Modern philosophy, moral and political philosophy, and Jewish thought

Assistant Professor

GOERING, SARA L.; PhD, 1998, UNIVERSITY OF COLORADO (DENVER); bioethics, moral philosophy
MOORE, ADAM DANIEL; PhD, 1997, OHIO STATE UNIVERSITY; Philosophy of Law, Intellectual Property, Political Philosophy, Applied Ethics, Privacy Rights

SMITH, ANGELA; PhD, 1999, HARVARD UNIVERSITY; moral and political philosophy

Physics

Professor

ADELBERGER, ERIC G.; PhD, 1967, CALIFORNIA INSTITUTE OF TECHNOLOGY; experimental gravitational physics; experimental nuclear physics
ALBERG, MARY ANN; PhD, 1974, UNIVERSITY OF WASHINGTON; theoretical nuclear physics
BAKER, DAVID; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); protein folding, genomics
BAKER, MARSHALL; PhD, 1958, HARVARD UNIVERSITY; field theory, theoretical elementary-particle physics
BERTSCH, GEORGE F.; PhD, 1965, PRINCETON UNIVERSITY; theoretical physics, nuclear and atomic cluster physics
BICHSEL, HANS; PhD, 1951, UNIVERSITY OF BASEL (SWITZERLAND); experimental nuclear physics
BODANSKY, DAVID.; PhD, 1950, HARVARD UNIVERSITY; experimental nuclear physics
BOULWARE, DAVID G.; PhD, 1962, HARVARD UNIVERSITY; field theory, theoretical elementary-particle physics, general relativity
BOWLES, THOMAS J.; PhD, 1978, PRINCETON UNIVERSITY; experimental nuclear physics
BROWN, FREDERICK C.; PhD, 1950, HARVARD UNIVERSITY; use of synchrotron radiation in experimental solid state physics
BROWN, LOWELL S.; PhD, 1961, HARVARD UNIVERSITY; field theory, theoretical elementary-particle physics
BUCK, WARREN W.; PhD, 1976, COLLEGE OF WILLIAM AND MARY; physics and nuclear energy
BULGAC, AUREL; PhD, 1977, LENINGRAD NUCLEAR PHYSICS INST (RUSSIA); many body theory, molecular dynamics, classical and quantum chaos
BURNETT, THOMPSON H.; PhD, 1968, UNIVERSITY OF CALIFORNIA (SAN DIEGO); experimental elementary-particle physics
CAHN, JOHN WERNER; PhD, 1953, UNIVERSITY OF CALIFORNIA (BERKELEY); theoretical condensed-matter physics
CAMPBELL, CHARLES T.; PhD, 1979, UNIVERSITY OF TEXAS (AUSTIN); physical chemistry of solid surfaces, chemisorption, catalysis, and surface analysis
CHALLOUPKA, VLADIMIR; PhD, 1975, UNIVERSITY OF GENEVA (SWITZERLAND); experimental elementary-particle physics

CHAYES, JENNIFER T.; PhD, 1983, PRINCETON UNIVERSITY; theoretical condensed-matter physics
CLARK, KENNETH C.; PhD, 1947, HARVARD UNIVERSITY; optical spectroscopy, upper atmosphere
COOK, VICTOR; PhD, 1962, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental high-energy physics
CRAMER, JOHN G.; PhD, 1961, RICE UNIVERSITY; experimental nuclear physics
DASH, J GREGORY; PhD, 1951, COLUMBIA UNIVERSITY; cryogenics, surface physics, thermal physics, ice physics
DEHMELT, HANS G.; PhD, 1950, UNIVERSITY OF GOTTINGEN (GERMANY); single particle radio-frequency and laser spectroscopy of trapped electrons, positrons and ions
DROBNY, GARY P.; PhD, 1981, UNIVERSITY OF CALIFORNIA (BERKELEY); two-dimensional and multiple quantum studies in nuclear magnetic resonance
DUNHAM, SCOTT T.; PhD, 1985, STANFORD UNIVERSITY; Modeling and simulation of microfabrication processes and device behavior
ELLIS, STEPHEN D.; PhD, 1971, CALIFORNIA INSTITUTE OF TECHNOLOGY; theoretical elementary-particle physics
GERHART, JAMES B.; PhD, 1954, PRINCETON UNIVERSITY; experimental nuclear physics, physics education
GUNDLACH, JENS; PhD, 1990, UNIVERSITY OF WASHINGTON; experimental nuclear physics
HALPERN, ISAAC; PhD, 1948, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; experimental nuclear physics
HAXTON, WICK C.; PhD, 1976, STANFORD UNIVERSITY; theoretical physics, nuclear physics
HECKEL, BLAYNE; PhD, 1981, HARVARD UNIVERSITY; experimental neutron and atomic physics
HENLEY, ERNEST M.; PhD, 1952, UNIVERSITY OF CALIFORNIA (BERKELEY); theoretical nuclear physics, theoretical elementary-particle physics
HOLZWORTH, ROBERT; PhD, 1977, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental space plasma physics, atmospheric/magnetospheric electric fields, thunderstorms
INGALLS, ROBERT L.; PhD, 1962, CARNEGIE MELLON UNIVERSITY; experimental condensed-matter physics
JARBOE, THOMAS R.; PhD, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); plasma physics and controlled fusion, magnetic reconnection and relaxation
KAPLAN, DAVID B.; PhD, 1985, HARVARD UNIVERSITY; theoretical nuclear and elementary-particle physics
LORD, JERE J.; PhD, 1950, UNIVERSITY OF CHICAGO; cosmic rays, experimental elementary-particle physics

LUBATTI, HENRY J; PhD, 1966, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental elementary-particle physics
 MC DERMOTT, LILLIAN C; PhD, 1959, COLUMBIA UNIVERSITY; physics education.
 MC DERMOTT, MARK N; PhD, 1959, COLUMBIA UNIVERSITY; radio-frequency spectroscopy.
 MILLER, GERALD; PhD, 1972, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; theoretical nuclear physics
 OHUCHI, FUMIO; PhD, 1981, UNIVERSITY OF FLORIDA; nucleation and growth of thin film materials, surface science, glass, device applications
 OLMSTEAD, MARJORIE A; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental condensed-matter physics, surface and interface physics
 PUFF, ROBERT D; PhD, 1960, HARVARD UNIVERSITY; many-body theory, statistical physics.
 REHR, JOHN J; PhD, 1972, CORNELL UNIVERSITY; theoretical condensed-matter physics
 REINHARDT, WILLIAM P.; PhD, 1968, HARVARD UNIVERSITY; theoretical and computational chemistry with applications in thermodynamics and atomic physics
 RIEDEL, EBERHARD K.; PhD, 1966, TECHNICAL UNIVERSITY OF MUNICH (GERMANY); theoretical condensed-matter physics
 ROTHBERG, JOSEPH E; PhD, 1963, COLUMBIA UNIVERSITY; experimental high-energy physics
 SAVAGE, MARTIN J.; PhD, 1990, CALIFORNIA INSTITUTE OF TECHNOLOGY; nuclear and particle physics
 SCHICK, MICHAEL; PhD, 1967, STANFORD UNIVERSITY; theoretical condensed-matter physics
 SHARPE, STEPHEN R.; PhD, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); theoretical particle physics: lattice gauge theory and strong interaction phenomenology
 SORENSEN, LARRY B; PhD, 1980, UNIVERSITY OF ILLINOIS; experimental condensed-matter physics
 SPIVAK, BORIS; PhD, 1970, LENINGRAD POLYTECHNIC INSTITUTE (RUSSIA); theoretical condensed-matter physics
 STUBBS, CHRISTOPHER; PhD, 1988, UNIVERSITY OF WASHINGTON; observational cosmology and gravitation
 THOULESS, DAVID; PhD, 1958, CORNELL UNIVERSITY; theoretical condensed-matter physics
 VAN DYCK, ROBERT S; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental atomic physics
 WETTLAUFR, JOHN S; PhD, 1991, UNIVERSITY OF WASHINGTON; fundamental and applied physics of ice and crystal growth
 WILETS, LAWRENCE; PhD, 1952,

PRINCETON UNIVERSITY; theoretical nuclear and atomic physics
 WILKERSON, JOHN F.; PhD, 1982, UNIVERSITY OF NORTH CAROLINA; experimental nuclear and particle physics and astrophysics
 WILLIAMS, ROBERT W; PhD, 1948, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; experimental high-energy physics, cosmic rays
 WINGLEE, ROBERT M; PhD, 1984, UNIVERSITY OF SYDNEY (AUSTRALIA); space plasma physics, numerical simulation of space plasmas
 YAFFE, LAURENCE G; PhD, 1980, PRINCETON UNIVERSITY; quantum field theory, elementary particle theory

Research Professor

DOE, PETER J.; PhD, 1977, UNIVERSITY OF DURHAM (UK); Electro-weak interactions and solar neutrino physics
 NAGOURNEY, WARREN; PhD, 1972, COLUMBIA UNIVERSITY; experimental atomic physics, high resolution laser spectroscopy of atoms
 SNOVER, KURT ALBERT; PhD, 1969, STANFORD UNIVERSITY; experimental nuclear physics.
 STORM, DEREK; PhD, 1970, UNIVERSITY OF WASHINGTON; nuclear physics, especially medium energy, accelerator physics.
 TRAINOR, THOMAS A; PhD, 1973, UNIVERSITY OF NORTH CAROLINA; experimental nuclear physics.

Associate Professor

ELLIOTT, STEVEN R; PhD, 1987, UNIVERSITY OF CALIFORNIA (IRVINE); particle and nuclear physics
 KELLER, SARAH L.; PhD, 1995, PRINCETON UNIVERSITY; biophysics; physical chemistry; soft condensed matter; surfactants; lipids; self-assembly
 QUINN, THOMAS R.; PhD, 1986, PRINCETON UNIVERSITY; Solar System dynamics and galaxy formation
 RIEKE, FREDERICK MARTIN; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); sensory signal processing and computation
 SEIDLER, GERALD T.; PhD, 1993, UNIVERSITY OF CHICAGO; condensed matter experiment: microstructural kinetics and nonequilibrium statistical mechanics
 SHAFFER, PETER S.; PhD, 1993, UNIVERSITY OF WASHINGTON; research on the learning and teaching of physics
 WATTS, GORDON T.; PhD, 1995, UNIVERSITY OF ROCHESTER; accelerator-based elementary particle physics

Research Associate Professor

ZHAO, TIANCHI; PhD, 1987, COLUMBIA UNIVERSITY; experimental high energy physics instrumentation and detectors

Assistant Professor

AGOL, ERIC; PhD, 1997, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); Black holes, accretion disks, quasars, gravitational lensing, planetary transits, dark matter.

Lecturer

ROBERTSON, CHARLES E; MS, 1981, UNIVERSITY OF WASHINGTON; physics education

Political Science

Professor

BRASS, PAUL R; PhD, 1964, UNIVERSITY OF CHICAGO; comparative government, international relations
 CASSINELLI, CHARLES W; PhD, 1953, HARVARD UNIVERSITY; comparative government (Latin America)
 GERBERDING, WILLIAM P; PhD, 1959, UNIVERSITY OF CHICAGO; American government and politics, public policy
 GOLDBERG, ELLIS; PhD, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); political economy of the Middle East, comparative politics
 GORE, WILLIAM J; PhD, 1952, UNIVERSITY OF SOUTHERN CALIFORNIA; public policy, public administration
 HANSON, STEPHEN E; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); Soviet, post-Soviet and comparative politics
 KEELER, JOHN T; PhD, 1978, HARVARD UNIVERSITY; comparative politics (Western Europe), international relations
 LANG, GLADYS ENGEL; PhD, 1954, UNIVERSITY OF CHICAGO; political effects of mass media, sociology of art, political movements and crowd behavior.
 LEV, DANIEL S; PhD, 1964, CORNELL UNIVERSITY; comparative politics (Southeast Asia)
 LEVI, MARGARET; PhD, 1974, HARVARD UNIVERSITY; comparative politics, political economy, labor politics
 MAJESKI, STEPHEN J; PhD, 1981, INDIANA UNIVERSITY; international relations, foreign policy, peace and conflict resolution
 MATTHEWS, DONALD ROWE; PhD, 1953, PRINCETON UNIVERSITY; American government and politics, comparative politics (Norway, U.K.)
 MAY, PETER J.; PhD, 1979, UNIVERSITY OF CALIFORNIA (BERKELEY); policy processes; policy design and implementation; environmental regulation
 MC CANN, MICHAEL W; PhD, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); American government and politics, public law, political theory
 MC CRONE, DONALD J.; PhD, 1966, UNIVERSITY OF NORTH CAROLINA;

American politics, political economy, methodology
 MODELSKI, GEORGE; PhD, 1954, UNIVERSITY OF LONDON (UK); international relations, international political enemy
 OLSON, DAVID J; PhD, 1971, UNIVERSITY OF WISCONSIN; American government and politics (urban, state, and labor relations)
 RESHETAR, JOHN S; PhD, 1950, HARVARD UNIVERSITY; comparative government (Soviet Union), international relations.
 SCHEINGOLD, STUART A; PhD, 1963, UNIVERSITY OF CALIFORNIA (BERKELEY); American politics (public law)
 WARD, MICHAEL D.; PhD, 1977, NORTHWESTERN UNIVERSITY; international relations, political economy, political geography, statistical models

Associate Professor

ROHN, PETER H; PhD, 1958, UNIVERSITY OF WASHINGTON; international relations, international law
 WHITING, SUSAN H.; PhD, 1995, UNIVERSITY OF MICHIGAN; political economy of development in post-1949 China
 WILKERSON, JOHN D; PhD, 1991, UNIVERSITY OF ROCHESTER; American government and politics, quantitative methodology

Assistant Professor

ADOLPH, CHRISTOPHER A; PhD, 2004, HARVARD UNIVERSITY; comparative political economy, political methodology
 OSANLOO, ARZOO; PhD, 2002, STANFORD UNIVERSITY; everyday discourses and perceptions of rights in Iran's Islamic Republic

Psychology

Professor

BARASH, DAVID P; PhD, 1970, UNIVERSITY OF WISCONSIN; sociobiology, psychological aspects of the arms race and nuclear war, peace studies, animal behavior
 BECKER, JOSEPH; PhD, 1958, DUKE UNIVERSITY; psychosocial aspects of depression
 BERNSTEIN, ILENE L; PhD, 1972, UNIVERSITY OF CALIFORNIA (LOS ANGELES); neurobiology of taste aversion learning; developmental and genetic contributions to taste preference
 BOOTH-LAFORCE, CATHRYN L; PhD, 1974, OHIO STATE UNIVERSITY; mother-infant interaction, observational methodology, child birth experiences and attachment

BOWEN, DEBORAH J; PhD, 1986, UNIFORMED SERVICE U OF THE HEALTH SC.; health psychology
 BRENOWITZ, ELIOT A.; PhD, 1982, CORNELL UNIVERSITY; animal behavior, neuroethology, neuroendocrinology, animal communication
 BUCK, STEVEN L.; PhD, 1976, UNIVERSITY OF CALIFORNIA (SAN DIEGO); human visual psychophysics, color vision, animal learning.
 CARR, JOHN E; PhD, 1963, SYRACUSE UNIVERSITY; phobic disorders, patient therapist matching & therapy outcome, cross-cultural psychopathology
 CAUCE, ANA MARI; PhD, 1984, YALE UNIVERSITY; at-risk children, adolescents, and families; normative development in ethnic minority youth
 COVEY, ELLEN; PhD, 1980, DUKE UNIVERSITY; Structure and function of the central auditory system.
 CRAFT, SUZANNE; PhD, 1985, UNIVERSITY OF TEXAS (AUSTIN); neuropsychology of attention and memory in development and aging
 DAWSON, GERALDINE; PhD, 1979, UNIVERSITY OF WASHINGTON; developmental disabilities, autism, and neuropsychology
 DIAZ, JAIME; PhD, 1975, UNIVERSITY OF CALIFORNIA (LOS ANGELES); psychological brain development, neurophysiology, developmental psychopharmacology, effects of drugs
 DOERR, HANS O; PhD, 1965, FLORIDA STATE UNIVERSITY; psychophysiology of central and autonomic nervous systems, neuropsychology
 DONOVAN, DENNIS; PhD, 1980, UNIVERSITY OF WASHINGTON; cognitive-behavioral factors in substance abuse and addictive behaviors
 FIEDLER, FRED E; PhD, 1949, UNIVERSITY OF CHICAGO; leadership and group effectiveness, social and organizational psychology
 GEORGE, WILLIAM H; PhD, 1982, UNIVERSITY OF WASHINGTON; alcohol use and sexual behavior, addiction issues, sexual assault issues, racism issues
 GOTTMAN, JOHN M; PhD, 1971, UNIVERSITY OF WISCONSIN; children's emotional and social development, meta-emotion in families, marriages..
 GURALNICK, MICHAEL J; PhD, 1967, LEHIGH UNIVERSITY; developmental disabilities, peer relations, social and language development, evaluation systems
 HUNT, EARL B; PhD, 1960, YALE UNIVERSITY; individual differences in cognition, cognition in education and the work place
 KIYAK, H ASUMAN; PhD, 1977, WAYNE STATE UNIVERSITY; geriatric dentistry, behavioral aspects of health care
 KOHLENBERG, ROBERT J.; PhD, 1968, UNIVERSITY OF CALIFORNIA (LOS

ANGELES); clinical behavior modification, learning, biofeedback, psychotherapy
 LINEHAN, MARSHA M; PhD, 1971, LOYOLA UNIVERSITY (CHICAGO); behavioral assessment and therapy, suicide and parasuicide, borderline personality disorders
 LOCKARD, JOAN S.; PhD, 1963, UNIVERSITY OF WISCONSIN; primate social behavior, animal behavior, sociobiology, human ethology, neurobehavior
 LOFTUS, GEOFFREY R; PhD, 1971, STANFORD UNIVERSITY; perception, memory, cognitive processes and information processing
 MARLATT, G ALAN; PhD, 1968, INDIANA UNIVERSITY; cognitive-behavior therapy and assessment, addictive behaviors, relapse prevention, harm reduction
 MC CAULEY, ELIZABETH; PhD, 1973, STATE UNIVERSITY OF NEW YORK (BUFFALO); developmental psychopathology focused on affective disorders, behavioral genetics
 MCMAHON, ROBERT J.; PhD, 1979, UNIVERSITY OF GEORGIA; assessment, prevention, treatment of children with conduct disorders; developmental psychopathology
 MELTZOFF, ANDREW N; PhD, 1976, OXFORD UNIVERSITY (UK); perceptual, cognitive and social development in infants
 MIZUMORI, SHERI J; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); plasticity of neural and behavioral function during learning and memory
 MORRISON, DIANE M; PhD, 1982, UNIVERSITY OF WASHINGTON; sexual decision-making, attitudes and behavior, teen pregnancy
 PATTERSON, DAVID R.; PhD, 1982, FLORIDA STATE UNIVERSITY; treatment of acute pain, psychology of burn patients, psychological outcome of physical trauma
 RAMSAY, DOUGLAS S; PhD, 1988, UNIVERSITY OF WASHINGTON; behavioral medicine/dentistry, physiological psychology, orthodontics, pediatric dentistry
 RUBEL, EDWIN W.; PhD, 1969, MICHIGAN STATE UNIVERSITY; developmental neurobiology, with special emphasis on vertebrate auditory system development
 SACKETT, GENE P; PhD, 1963, CLAREMONT GRADUATE SCHOOL; experimental psychology, primate behavior, early experience and development
 SARASON, IRWIN G; PhD, 1955, INDIANA UNIVERSITY; personality, social support, stress and anxiety
 SAX, GILBERT; PhD, 1958, UNIVERSITY OF SOUTHERN CALIFORNIA; measurement, statistics and research design.

SMITH, RONALD E.; PhD, 1968, SOUTHERN ILLINOIS UNIVERSITY; clinical, personality, sport psychology
 SMOLL, FRANK L.; PhD, 1970, UNIVERSITY OF WISCONSIN; developmental kinesiology, children's sports, sport psychology, behavioral assessment of coaches.
 SPELTZ, MATTHEW L.; PhD, 1980, UNIVERSITY OF MISSOURI; developmental psychotherapy, family therapy, pediatric behavioral medicine
 SPIEKER, SUSAN J.; PhD, 1982, CORNELL UNIVERSITY; developmental psychology, infant security, mother-infant interaction
 TELLER, DAVIDA Y.; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); vision, psychophysics, development of vision
 VITALIANO, PETER P.; PhD, 1975, SYRACUSE UNIVERSITY; psychiatric methodology (epidemiology, design, psychometrics), behavioral medicine
 WEBSTER-STRATTON, CAROLYN; PhD, 1980, UNIVERSITY OF WASHINGTON; parent intervention programs for behaviorally disturbed children
 WEINSTEIN, PHILIP; PhD, 1971, UNIVERSITY OF KENTUCKY; dental behavioral science, treatment and prevention of fear and pain, clinical assessment.

Research Professor

BAER, JOHN S.; PhD, 1986, UNIVERSITY OF OREGON; clinical psychology, addictive behaviors, early intervention
 LATTEMANN, DIANNE; PhD, 1981, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); Effect of Regulatory Peptides on Feeding and Behavior and Metabolism

Associate Professor

BASSOK, MIRIAM; PhD, 1984, HEBREW UNIVERSITY (ISRAEL); learning, problem solving, analogical reasoning
 BEAUCHAINE, THEODORE P.; PhD, 2000, STATE UNIV OF NEW YORK (STONY BROOK); autonomic nervous system functioning and psychopathology, child development, statistics
 BROWN, JONATHAN D.; PhD, 1986, UNIVERSITY OF CALIFORNIA (LOS ANGELES); self-concept and social behavior; coping with failure and disappointment
 CARLSON, STEPHANIE M.; PhD, 1997, UNIVERSITY OF OREGON; cognitive and social development in preschool children
 COLDWELL, SUSAN E.; PhD, 1994, UNIVERSITY OF PENNSYLVANIA; pain, anxiety, and taste preference
 COMTOIS, KATHERINE ANN; PhD, 1992, UNIVERSITY OF MARYLAND; services research, borderline personality disorder, women, dual diagnosis
 CORINA, DAVID P.; PhD, 1991, UNIVER-

SITY OF CALIFORNIA (SAN DIEGO); cognitive neuropsychology, psycholinguistics, computational modeling
 KAHN, PETER H.; PhD, 1988, UNIVERSITY OF CALIFORNIA (BERKELEY); Social and Moral Development. Information, Technology, and Nature
 KIM, JEANSOK J.; PhD, 1991, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Neural circuits and mechanisms of learning & memory; Effects of stress on brain and behavior
 KIVLAHAN, DANIEL R.; PhD, 1983, UNIVERSITY OF MISSOURI; evaluating assessment, prevention, and treatment approaches for addictive behaviors
 LARIMER, MARY E.; PhD, 1992, UNIVERSITY OF WASHINGTON; prevention of alcohol problems among college students
 LENGUA, LILIANA J.; PhD, 1994, ARIZONA STATE UNIVERSITY; stress, temperament, coping, ecological models of the development of psychological symptomatology
 MIYAMOTO, JOHN M.; PhD, 1985, UNIVERSITY OF MICHIGAN; mathematical psychology, preference and utility theory, cognitive theories
 O'DONNELL, SEAN; PhD, 1993, UNIVERSITY OF WISCONSIN; genotypic and endocrine effects on social organization and division of labor in insects
 OLAVARRIA, JAIME F.; PhD, 1984, UNIVERSITY OF CALIFORNIA (BERKELEY); neurophysiological and neuroanatomical basis of vision
 OSTERHOUT, LEE E.; PhD, 1990, TUFTS UNIVERSITY; psycholinguistics, cognitive psychophysiology
 ROSE, RICHARD M.; PhD, 1964, UNIVERSITY OF PENNSYLVANIA; stochastic models, psychophysics, sleep
 SIMONI, JANE M.; PhD, 1990, UNIVERSITY OF CALIFORNIA (LOS ANGELES); HIV/AIDS; influence of culture and social support on psychological well-being

Research Associate Professor

FITTS, DOUGLAS A.; PhD, 1978, WASHINGTON STATE UNIVERSITY; neurobiology, salt/water regulation, thirst
 HA, JAMES; PhD, 1989, COLORADO STATE UNIVERSITY; animal behavior, especially ethology, evolution, infant primate development, and statistics
 KATZ, LYNN FAINSLBER; PhD, 1990, UNIVERSITY OF ILLINOIS; antisocial children, social psychophysiology, family interaction, parent-child interaction
 KYES, RANDALL C.; PhD, 1989, UNIVERSITY OF GEORGIA; primate behavior and ecology, neural mechanisms of behavior

Assistant Professor

SAWCHUK, CRAIG NEIL; PhD, 1999, UNIVERSITY OF ARKANSAS; Adult

anxiety disorders, medical fears, & health care service utilization in underserved populations

Research Assistant Professor

CARRERE, SYBIL; PhD, 1990, UNIVERSITY OF CALIFORNIA (IRVINE); interface between family relationships, stress, and health

Lecturer

BARRETT, KIMBERLY; EdD, 1989, UNIVERSITY OF SAN FRANCISCO; substance abuse and the family and the impact of racism on children
 FAGAN, COREY N.; PhD, 1988, UNIVERSITY OF MASSACHUSETTS; clinical psychology, program evaluation research, individual and family therapy
 JOSLYN, SUSAN L.; PhD, 1995, UNIVERSITY OF WASHINGTON; cognition, autobiographical memory, multitasking, applied issues
 LITTLE, LAURA M.; PhD, 1998, UNIVERSITY OF NEW MEXICO; quantitative methodology
 MC DERMOTT, LOIS J.; PhD, 1979, UNIVERSITY OF CHICAGO; human sexuality and reproductive physiology

Romance Languages and Literatures

Professor

ANDERSON, FARRIS FURMAN; PhD, 1968, UNIVERSITY OF WISCONSIN; nineteenth- and twentieth-century Spanish literature; Spanish grammar
 CHRISTOFIDES, C G; PhD, 1956, UNIVERSITY OF MICHIGAN; medieval, seventeenth century, Romanesque
 LEINER, JACQUELINE; Docteur es Lettres, 1969, UNIVERSITY OF STRASBOURG (FRANCE); modern French literature.
 O'HARA, EDGAR; PhD, 1989, UNIVERSITY OF TEXAS (AUSTIN); Latin American poetry and essay, composition and creative writing
 VANCE, EUGENE; PhD, 1964, CORNELL UNIVERSITY; medieval literature, the history of criticism, and discourse analysis

Associate Professor

COLLINS, DOUGLAS P.; PhD, 1978, UNIVERSITY OF MISSOURI; twentieth-century French literature
 DALE, ROBERT C.; PhD, 1963, UNIVERSITY OF WISCONSIN; nineteenth-century French literature, cinema
 ELLRICH, ROBERT J.; PhD, 1960, HARVARD UNIVERSITY; eighteenth-century French literature

FRIEDRICH, PIA; PhD, 1946, UNIVERSITY OF TURIN (ITALY); pedagogy and twentieth-century Italian literature
 SBRAGIA, ALBERT J; PhD, 1988, UNIVERSITY OF CALIFORNIA (BERKELEY); modern and contemporary Italian literature and cinema
 SHIPLEY, GEORGE A; PhD, 1968, HARVARD UNIVERSITY; Spanish golden age literature
 WORTLEY, W VICTOR; PhD, 1964, UNIVERSITY OF OREGON; seventeenth-century French theatre and prose (nonfiction).

Lecturer

BASDEO, GANESHDATH D.; MA, 1976, UNIVERSITY OF WASHINGTON; second-year Spanish, Spanish linguistics
 BENSADON, LEON M.; MA, 1991, UNIVERSITY OF WASHINGTON; Spanish language and reading for graduate students
 BODDEN, RODNEY V.; PhD, 1969, UNIVERSITY OF WISCONSIN; second- and third-year Spanish programs.
 BRANDL, KLAUS K; PhD, 1991, UNIVERSITY OF TEXAS (AUSTIN); foreign language pedagogy, applied linguistics, foreign language teacher training
 FOX, JOAN H.; MA, 1973, UNIVERSITY OF BRITISH COLUMBIA (CANADA); Spanish language, translation, business Spanish
 GONZALEZ, JORGE; MM, 1986, UNIVERSITY OF WISCONSIN; Spanish language
 KENNEDY, DONALLY S; MA, 1988, UNIVERSITY OF WASHINGTON; Spanish language
 LEPORACE, GIUSEPPE; MA, 1989, UNIVERSITY OF WASHINGTON; Italian pedagogy and translation
 MEYER, HEDWIGE M; MA, 1992, UNIVERSITY OF WASHINGTON; French pedagogy
 RANEDA-CUARTERO, I.; MA, 1994, UNIVERSITY OF WISCONSIN; second- and third-year Spanish language, Spanish culture

Scandinavian Languages and Literature

Professor

STEENE, BIRGITTA; PhD, 1960, UNIVERSITY OF WASHINGTON; Scandinavian drama and film, children's literature, comparative literature

Associate Professor

CONROY, PATRICIA L; PhD, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); Scandinavian philology, Icelandic language and literature, Danish, Faroese

INGEBRITSEN, CHRISTINE; PhD, 1993, CORNELL UNIVERSITY; Scandinavian domestic and foreign policies, European community integration and Scandinavia
 SEHMSDORF, HENNING K; PhD, 1968, UNIVERSITY OF CHICAGO; folklore and mythology, Norwegian language and literature, comparative literature.
 WARME, LARS G; PhD, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); Swedish language and literature, Scandinavian novel, comparative literature.

Lecturer

BRANDL, KLAUS K; PhD, 1991, UNIVERSITY OF TEXAS (AUSTIN); foreign language pedagogy, applied linguistics, foreign language teacher training

Slavic Languages and Literature

Professor

KAPETANIC, DAVOR; PhD, 1972, UNIVERSITY OF ZAGREB (YUGOSLAVIA); Yugoslav literature, Slavic literary theory
 KRAMER, KARL D; PhD, 1964, UNIVERSITY OF WASHINGTON; Russian literature
 MICKLESEN, LEW R; PhD, 1951, HARVARD UNIVERSITY; Slavic linguistics

Associate Professor

COATS, HERBERT S; PhD, 1970, UNIVERSITY OF ILLINOIS; Slavic linguistics, Russian phonology, Russian syntax, Slavic accentuation
 CRNKOVIC, GORDANA; PhD, 1993, STANFORD UNIVERSITY; East European literature, film and cultural studies, former Yugoslavia, theory, American literature

Assistant Professor

ALANIZ, JOSE; PhD, 2003, UNIVERSITY OF CALIFORNIA (BERKELEY); Russian lit., death & dying

Lecturer

HOLDSWORTH, NORA; BA, 1965, UNIVERSITY OF WASHINGTON; Russian language
 POLACK, ZOYA M; MA, 1975, UNIVERSITY OF WASHINGTON; Russian and Ukrainian languages.

Sociology

Professor

BORGATTA, EDGAR F; PhD, 1952, NEW YORK UNIVERSITY; methodology, social psychology, demography-ecology, aging
 BURSTEIN, PAUL; PhD, 1974, HARVARD UNIVERSITY; political sociology, social movements, social stratification, public policy, law
 CAMPBELL, FREDERICK L; PhD, 1967, UNIVERSITY OF MICHIGAN; population and ecology, social organization
 COSTNER, HERBERT L; PhD, 1960, INDIANA UNIVERSITY; methodology, social change
 GREMBOWSKI, DAVID; PhD, 1982, UNIVERSITY OF WASHINGTON; health services research, survey research, program evaluation, performance of health care systems
 HAMILTON, GARY G; PhD, 1975, UNIVERSITY OF WASHINGTON; economic sociology, historical comparative, organizational studies, East Asia
 HECHTER, MICHAEL N.; PhD, 1972, COLUMBIA UNIVERSITY; rational choice theory, nationalism, intergroup relations, norms and values
 HIRSCHMAN, CHARLES; PhD, 1972, UNIVERSITY OF WISCONSIN; demography, race and ethnic relations, social stratification, Southeast Asia
 KISER, EDGAR VANCE; PhD, 1987, UNIVERSITY OF ARIZONA; political sociology, theory, historical sociology
 LANG, GLADYS ENGEL; PhD, 1954, UNIVERSITY OF CHICAGO; political effects of mass media, sociology of art, political movements and crowd behavior.
 LANG, KURT; PhD, 1953, UNIVERSITY OF CHICAGO; political and social effects of the media on mass communication; arts and society; public opinion
 LARSEN, OTTO; PhD, 1955, UNIVERSITY OF WASHINGTON; mass communications, public opinion, collective behavior
 MIYAMOTO, S FRANK; PhD, 1950, UNIVERSITY OF CHICAGO; social psychology, collective behavior.
 MORRIS, WANDA MARTINA; PhD, 1989, UNIVERSITY OF CHICAGO; network models, population dynamics, economic inequality, AIDS
 PATRICK, DONALD L.; PhD, 1972, COLUMBIA UNIVERSITY; health status and quality of life, end of life, adolescents
 SCHMITT, DAVID R; PhD, 1963, WASHINGTON UNIVERSITY; experimental social psychology, exchange relations
 TOLNAY, STEWART E; PhD, 1981, UNIVERSITY OF WASHINGTON; social demography, race and ethnicity, marriage and family
 VAN DEN BERGHE, PIERRE; PhD, 1960, HARVARD UNIVERSITY; comparative sociology, stratification, race and ethnic relations, kinship, sociobiology

WAGER, L WESLEY; PhD, 1959, UNIVERSITY OF CHICAGO; organizations/occupations, theory, macrosociology
WEIS, JOSEPH G; DCrim, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); crime, delinquency, social control, deviance.

Associate Professor

STOVEL, KATHERINE W.; PhD, 1999, UNIVERSITY OF NORTH CAROLINA; organizational change and career outcomes; social networks; networks and disease transmission

Research Associate Professor

HERTING, JERALD R.; PhD, 1987, UNIVERSITY OF WASHINGTON; research methodology and at-risk youth

Assistant Professor

KITTS, JAMES A.; PhD, 2001, CORNELL UNIVERSITY; organizational dynamics, social networks, social exchange, collective action
LEPORE, PAUL C.; PhD, 1997, UNIVERSITY OF WISCONSIN; social psychology, social structure and personality, sociology of education, adolescence
PETTIT, ELIZABETH M.; PhD, 1999, PRINCETON UNIVERSITY; sociology of the family, social demography, inequality

Speech and Hearing Science

Professor

FOLSOM, RICHARD C; PhD, 1979, UNIVERSITY OF WASHINGTON; pediatric audiology
KUHL, PATRICIA K; PhD, 1973, UNIVERSITY OF MINNESOTA; speech perception.
MINIFIE, FRED D; PhD, 1963, UNIVERSITY OF IOWA; speech science
MOORE, CHRISTOPHER A.; PhD, 1985, PURDUE UNIVERSITY; speech production, speech development, speech physiology, acoustics, motor control, coordination
NORTON, SUSAN J.; PhD, 1982, UNIVERSITY OF WASHINGTON; normal and non-normal hearing, specifically cochlear mechanics, in humans and animals
OLSWANG, LESLEY B.; PhD, 1978, UNIVERSITY OF WASHINGTON; language development and disorders/clinical processes
PRINS, DAVID; PhD, 1961, UNIVERSITY OF MICHIGAN; stuttering
STOEL-GAMMON, CAROL; PhD, 1974, STANFORD UNIVERSITY; developmental phonology and phonetics

THOMPSON, GARY; PhD, 1967, UNIVERSITY OF MINNESOTA; pediatric audiology, clinical evaluation
WERNER, LYNNE A.; PhD, 1980, LOYOLA UNIVERSITY (CHICAGO); auditory development, infant psychoacoustics
WILSON, WESLEY; PhD, 1969, UNIVERSITY OF WASHINGTON; audiology, infant assessment and aural rehabilitation.
YORKSTON, KATHRYN; PhD, 1975, UNIVERSITY OF OREGON; neurogenic communication disorders in adults

Associate Professor

BURNS, EDWARD M.; PhD, 1977, UNIVERSITY OF MINNESOTA; psychoacoustics
CARPENTER, ROBERT L; PhD, 1969, NORTHWESTERN UNIVERSITY; language and language disorders.
COGGINS, TRUMAN E; PhD, 1976, UNIVERSITY OF WISCONSIN; language disorders in children.
COOKER, HARRY S; PhD, 1963, UNIVERSITY OF IOWA; speech physiology
FEENEY, M. PATRICK; PhD, 1993, UNIVERSITY OF WASHINGTON; The aging auditory system and wideband assessment of middle-ear function
MILLER, ROBERT M; PhD, 1976, UNIVERSITY OF WASHINGTON; speech, language pathology, adults, swallowing
REES, THOMAS; PhD, 1972, UNIVERSITY OF WASHINGTON; audiology.
ROGERS, MARGARET A.; PhD, 1992, UNIVERSITY OF IOWA; spoken language production, aphasia and apraxia of speech
SOUZA, PAMELA E; PhD, 1996, SYRACUSE UNIVERSITY; hearing aids, effects of sensorineural hearing loss on speech perception, aging
TREMBLAY, KELLY L; PhD, 1998, NORTHWESTERN UNIVERSITY; central auditory physiology and aging

Assistant Professor

DOWDEN, PATRICIA A; PhD, 1993, UNIVERSITY OF WASHINGTON; augmentative communication, cleft palate
EADIE, TANYA L; PhD, 2003, UNIVERSITY OF WESTERN ONTARIO (CANADA); Voice disorders, postlaryngectomy speech and voice, models of health and disability
SPENCER, KRISTIE A.; PhD, 2003, UNIVERSITY OF WASHINGTON; stages of speech production occurring before motor execution, neurologic communication disorders

Lecturer

ALARCON, NANCY B.; MS, 1981, UNIVERSITY OF WISCONSIN; speech-language disorders/adult.

MILLER, ROBERT M; PhD, 1976, UNIVERSITY OF WASHINGTON; speech, language pathology, adults, swallowing
STONE-GOLDMAN, JUDITH R; PhD, 1986, UNIVERSITY OF WASHINGTON; language development and disorders, counseling

Instructor

BRANSON, CYNTHIA J; MA, 1970, NORTHWESTERN UNIVERSITY; speech-language disorders/child

Statistics

Professor

BURDZY, KRZYSZTOF; PhD, 1984, UNIVERSITY OF CALIFORNIA (BERKELEY); probability theory
BURKE, JAMES V.; PhD, 1983, UNIVERSITY OF ILLINOIS; optimization, nonsmooth analysis
FELSENSTEIN, JOSEPH; PhD, 1968, UNIVERSITY OF CHICAGO; estimation of evolutionary trees, models of long-term evolutionary processes
FLEMING, THOMAS RICHARD; PhD, 1976, UNIVERSITY OF MARYLAND; survival analysis, cancer clinical trials, AIDS research, sequential analysis
FORD, E DAVID; PhD, 1968, UNIVERSITY COLLEGE, LONDON (UK); quantitative science, ecosystem analysis, forest productivity
GROENEBOOM, PETRUS; PhD, 1979, UNIVERSITY OF AMSTERDAM (NETHERLANDS); statistical inverse problems
GUTTORP, PETER; PhD, 1980, UNIVERSITY OF CALIFORNIA (BERKELEY); point processes, stochastic models, applications to hydrology, environmental and atmospheric science
HANDCOCK, MARK S.; PhD, 1989, UNIVERSITY OF CHICAGO; methodology for the social sciences; spatial, environmental modeling; distributional comparison
HAYNOR, DAVID R; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); medical image processing and segmentation; image deformation; functional MRI; expression arrays
KRONMAL, RICHARD A; PhD, 1964, UNIVERSITY OF CALIFORNIA (LOS ANGELES); nonparametric density estimation, computer algorithms, cardiovascular data analysis
MASON, DAVID M; PhD, 1977, UNIVERSITY OF WASHINGTON; nonparametric, order statistics; extreme value theory, limit theorems; empirical, quantile processes
NELSON, CHARLES R; PhD, 1969, UNIVERSITY OF WISCONSIN; time series analysis, economic statistical

PERLMAN, MICHAEL D; PhD, 1967, STANFORD UNIVERSITY; multivariate analysis, graphical Markov models, decision theory, probability inequalities, convexity

RAFTERY, ADRIAN ELMES; Doctorat d'Etat, 1980, UNIVERSITE DE PARIS VI (FRANCE); time series, spatial, Bayesian statistics, population estimation, model selection, sociology

SCHOLZ, FRIEDRICH-WILHELM; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); estimation, large sample theories; nonparametric statistics; risk and tolerance analysis; bootstrap

SIEGEL, ANDREW F; PhD, 1977, STANFORD UNIVERSITY; statistics, computing, corporate finance, investments, data analysis

STUETZLE, WERNER; PhD, 1977, SWISS FEDERAL INSTITUTE OF TECHNOLOGY; nonparametric methods in multivariate analysis, statistical applications of computer graphics

THOMPSON, ELIZABETH A; PhD, 1974, CAMBRIDGE UNIVERSITY (UK); statistical analysis of human genetic data, conservation and computational biology

WELLNER, JON A; PhD, 1975, UNIVERSITY OF WASHINGTON; large-sample theory, asymptotic efficiency, empirical processes, semiparametric models

SAMPSON, PAUL D; PhD, 1979, UNIVERSITY OF MICHIGAN; spatial statistics, environmetrics; morphometrics, multivariate analysis; statistical consulting

ZEH, JUDITH; PhD, 1979, UNIVERSITY OF WASHINGTON; estimation of population size and dynamics; robust

ALTSCHUL, ROBERTO; PhD, 1973, CASE WESTERN RESERVE UNIVERSITY; reliability models, fault trees for phased missions, stochastic models for fault tolerant systems

GNEITING, TILMANN J.; PhD, 1997, BAYREUTH UNIVERSITY (GERMANY); spatial and environmental statistics, positive definite functions

PERCIVAL, DONALD B; PhD, 1983, UNIVERSITY OF WASHINGTON; time series and signal analysis, computational environments, statistics of clocks

RICHARDSON, THOMAS S.; PhD, 1996, CARNEGIE MELLON UNIVERSITY; graphical models; algorithmic model selection; Bayesian inference; causal models; economics problems

STEPHENS, MATTHEW; PhD, 1997, OXFORD UNIVERSITY (UK); Bayesian inference, classification and clustering, Markove chain Monte Carlo, statistical genetics

EROSHEVA, ELENA A.; PhD, 2002, CARNEGIE MELLON UNIVERSITY; statistical methodology in the social sciences

HOFF, PETER D; PhD, 2000, UNIVERSITY OF WISCONSIN; constrained estimation, nonparametric Bayesian methods, two-sided matching models, cancer research

MEILA-PREDOVICIU, MARINA; PhD, 1999, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; graphical probability models, machine learning, algorithms, data mining

REYNOLDS, JOEL HOWARD; PhD, 1989, UNIVERSITY OF WASHINGTON; model

MORITA, JUNE G; PhD, 1984, UNIVERSITY OF CALIFORNIA (BERKELEY); sample surveys, quality control, survival analysis, statistical data analysis, statistics education

JACOBS, SUE-ELLEN; PhD, 1970, UNIVERSITY OF COLORADO (BOULDER); women studies, socio-cultural and applied anthropology, anthropological studies of women
WOODS, NANCY; PhD, 1978, UNIVERSITY OF NORTH CAROLINA; women's health

GINORIO, ANGELA B; PhD, 1979,
FORDHAM UNIVERSITY; women and
science, violence against women, sexual
harassment, racial identity among
Latino/as

RAMAMURTHY, PRITI; PhD, 1995,
SYRACUSE UNIVERSITY; political
economy of development; third world
feminism: agro-food systems: South Asia

BOYER, DEBRA; PhD, 1986, UNIVERSITY OF WASHINGTON; feminist research methodology, policy and evaluation issues, urban applied anthropology

Business School

Accounting

Professor

BERG, KENNETH B; PhD, 1952, UNIVERSITY OF ILLINOIS; financial and managerial accounting
BOWEN, ROBERT M; PhD, 1978, STANFORD UNIVERSITY; financial and managerial accounting. Hubert O. Whitten Endowed Professorship in Accounting
BURGSTAHLER, DAVID C; PhD, 1981, UNIVERSITY OF IOWA; financial and managerial accounting, statistical methods
DUKES, ROLAND E; PhD, 1974, STANFORD UNIVERSITY; financial and managerial accounting
HEATH, LOYD C; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); financial accounting
KENNEDY, S. JANE; PhD, 1992, DUKE UNIVERSITY; Professional judgment/decision making in accounting, auditing, or business contexts.
MUELLER, FRED J; PhD, 1956, OHIO STATE UNIVERSITY; auditing, not-for-profit, tax accounting.
MUELLER, GERHARD G; PhD, 1962, UNIVERSITY OF CALIFORNIA (BERKELEY); financial accounting and reporting, international accounting
NOREEN, ERIC W; PhD, 1976, STANFORD UNIVERSITY; managerial accounting
RAMANATHAN, K V; PhD, 1970, NORTHWESTERN UNIVERSITY; managerial accounting.
SEFCIK, STEPHAN E; PhD, 1983, UNIVERSITY OF ILLINOIS; financial reporting and environmental accounting issues
SUNDEM, GARY L; PhD, 1971, STANFORD UNIVERSITY; managerial accounting

Associate Professor

RAJGOPAL, SHIVARAM; PhD, 1998, UNIVERSITY OF IOWA; Financial accounting and capital markets, executive stock options, earnings management
SHORES, DONNA J; PhD, 1986, STANFORD UNIVERSITY; Financial accounting, corporate reporting, role of accounting choices in equity valuation and contra

Assistant Professor

CHEN, SHUPING; PhD, 2002, UNIVERSITY OF SOUTHERN CALIFORNIA; firms' voluntary disclosure practices & the role of financial intermediaries on disclosure decisions

Lecturer

RESLER, WILLIAM M; JD, 1972, UNIVERSITY OF WASHINGTON; LLM, 1973, NEW YORK UNIVERSITY; tax accounting.
WELLS, WILLIAM L.; MPAcc, 1989, UNIVERSITY OF WASHINGTON; financial reporting, not-for-profit accounting

Finance and Business Economics

Professor

ALBERTS, WILLIAM; PhD, 1961, UNIVERSITY OF CHICAGO; capital investment planning, business strategy, economics of industrial organization
BRADFORD, WILLIAM D; PhD, 1972, OHIO STATE UNIVERSITY; corporate finance and financial institutions
CONRAD, DOUGLAS A; PhD, 1978, UNIVERSITY OF CHICAGO; alternative vertical and horizontal market structures in health care
D AMBROSIO, CHARLES A; PhD, 1962, UNIVERSITY OF ILLINOIS; finance
FROST, PETER A; PhD, 1966, UNIVERSITY OF CALIFORNIA (LOS ANGELES); finance and business economics
HALEY, CHARLES; PhD, 1968, STANFORD UNIVERSITY; financial management and banking
HANSON, KERMIT O; PhD, 1950, IOWA STATE UNIVERSITY; accounting and statistics.
HESS, ALAN C.; PhD, 1969, CARNEGIE MELLON UNIVERSITY; finance and business economics
JOHNSON, DUDLEY; PhD, 1957, NORTHWESTERN UNIVERSITY; business economics
KARPOFF, JONATHAN M; PhD, 1982, UNIVERSITY OF CALIFORNIA (LOS ANGELES); corporate finance, law and economics, microeconomics, natural resources
MALATESTA, PAUL H; PhD, 1982, UNIVERSITY OF ROCHESTER; corporate finance, security and capital markets, corporate mergers, and empirical methods in finance
SCHALL, LAWRENCE D; PhD, 1969, UNIVERSITY OF CHICAGO; finance and business economics.
SIEGEL, ANDREW F; PhD, 1977, STANFORD UNIVERSITY; statistics, computing, corporate finance, investments, data analysis

Associate Professor

DEWENTER, KATHRYN L; PhD, 1993, UNIVERSITY OF CHICAGO; empirical

analysis of finance models in an international context
KOSKI, JENNIFER LYNCH; PhD, 1991, STANFORD UNIVERSITY; dividend policy, market microstructure, stock splits, mutual funds
RICE, EDWARD M; PhD, 1978, UNIVERSITY OF CALIFORNIA (LOS ANGELES); corporate finance, microeconomics, industrial organization

Lecturer

GLASSMAN, DEBRA A; PhD, 1980, UNIVERSITY OF WISCONSIN; international finance, international economic policy, macroeconomics

Management and Organization

Professor

BUCK, VERNON E; PhD, 1963, CORNELL UNIVERSITY; organizational behavior and administrative theory
CHEN, XIAO-PING; PhD, 1998, UNIVERSITY OF ILLINOIS; cross-cultural management, organizational behavior
FENN, MARGARET P; DBA, 1963, UNIVERSITY OF WASHINGTON; organizational behavior and administrative theory
FRENCH, WENDELL L; EdD, 1956, HARVARD UNIVERSITY; organizational behavior, human resources management, organization development
HENNING, DALE A; PhD, 1954, UNIVERSITY OF ILLINOIS; administrative theory and organizational behavior
HILL, CHARLES WILLIAM L; PhD, 1983, UNIVERSITY OF MANCHESTER (UK); business policy, corporate strategy, multinational enterprise
HUBER, VANDRA LEE; DBA, 1982, INDIANA UNIVERSITY; human resource decision making, compensation, and performance appraisal
JOHNSON, RICHARD A; DBA, 1958, UNIVERSITY OF WASHINGTON; business policy
JONES, THOMAS M; PhD, 1977, UNIVERSITY OF CALIFORNIA (BERKELEY); corporate governance, shareholder litigation, corporate social responsibility, business and society
KAST, FREMONT E; DBA, 1956, UNIVERSITY OF WASHINGTON; administrative theory and organizational behavior
KOTHA, SURESH; PhD, 1988, RENSSELAER POLYTECHNIC INSTITUTE; competitive strategy, competing on the internet and e-commerce, and international management

LEE, THOMAS W; PhD, 1984, UNIVERSITY OF OREGON; administrative theory and organizational behavior, human resources management
 MITCHELL, TERENCE R.; PhD, 1969, UNIVERSITY OF ILLINOIS; leadership, group processes, motivation, turnover
 MOXON, RICHARD W; DBA, 1973, HARVARD UNIVERSITY; international business
 NEWELL, WILLIAM T; PhD, 1962, UNIVERSITY OF TEXAS (AUSTIN); operations management and business policy
 PETERSON, RICHARD B; PhD, 1966, UNIVERSITY OF WISCONSIN; human resources management
 SCOTT, WILLIAM GEORGE; DBA, 1957, INDIANA UNIVERSITY; administrative theory and organizational behavior
 SUTERMEISTER, ROBERT A; MA, 1942, UNIVERSITY OF WASHINGTON; personnel and organizational behavior
 WOODWORTH, ROBERT T.; PhD, 1963, NORTHWESTERN UNIVERSITY; administrative theory and organizational behavior, human resources management

Associate Professor

BIGLEY, GREGORY; PhD, 1995, UNIVERSITY OF CALIFORNIA (IRVINE); organizational behavior
 KIENAST, PHILIP K; PhD, 1972, MICHIGAN STATE UNIVERSITY; human resources management
 STEENSMA, HARVEY K.; PhD, 1996, INDIANA UNIVERSITY; business policy
 STRONG, DENNIS FULTON; PhD, 1959, UNIVERSITY OF WASHINGTON; business history
 WICKMAN, JAMES A; DBA, 1961, UNIVERSITY OF WASHINGTON; risk control and insurance

Assistant Professor

PHELPS, COREY C; PhD, 2001, NEW YORK UNIVERSITY; competitive strategy, technological innovation, strategic alliances, social capital & social networks
 REYNOLDS, SCOTT J.; PhD, 2002, UNIVERSITY OF MINNESOTA; individual ethical decision-making, stakeholder decision-making, decision-making biases

Lecturer

GEORGE-FALVY, JANE; PhD, 1995, UNIVERSITY OF WASHINGTON; organizational behavior and human resource management

Management Science

Professor

CHIU, JOHN S Y; PhD, 1960, UNIVERSITY OF ILLINOIS; quantitative methods
 DEY, DEBABRATA; PhD, 1994, UNIVERSITY OF ROCHESTER; Heterogeneous and distributed systems; database theory, design and performance; knowledge-based syst
 FAALAND, BRUCE H; PhD, 1971, STANFORD UNIVERSITY; quantitative methods
 KLASTORIN, THEODORE; PhD, 1973, UNIVERSITY OF TEXAS (AUSTIN); operations management, facility location, project management, waiting lines, logistics, inventory
 MOINZADEH, KAMRAN; PhD, 1984, STANFORD UNIVERSITY; operations management, production management, inventory, quality and supply chain management
 SIEGEL, ANDREW F; PhD, 1977, STANFORD UNIVERSITY; statistics, computing, corporate finance, investments, data analysis

Associate Professor

HILLIER, MARK S.; PhD, 1994, STANFORD UNIVERSITY; Operations Management, Inventory, Commonality, Mathematical Programming Applications.
 SCHMITT, THOMAS G; DBA, 1979, INDIANA UNIVERSITY; MBA, 1974, UNIVERSITY OF CINCINNATI; management of service and manufacturing operations

Assistant Professor

FAN, MING; PhD, 1999, UNIVERSITY OF TEXAS (AUSTIN); The economics & use of information technology in financial services firms, telecommunications
 GENG, XIANJUN; PhD, 2003, UNIVERSITY OF TEXAS (AUSTIN); Electronic commerce, economics of information systems, data communications and networking
 JAIN, APURVA; PhD, 1999, PURDUE UNIVERSITY; supply chains, Web retailing, logistics, inventory
 SUSARLA, ANJANA; PhD, 2003, UNIVERSITY OF TEXAS (AUSTIN); IT outsourcing, Empirical analysis of contracts, customer satisfaction in IT service
 TRIPATHI, ARVIND K.; PhD, 2002, UNIVERSITY OF CONNECTICUT; applying optimization techniques & economic analysis pertaining to electronic/mobile commerce

Lecturer

BURROWS, WILLIAM E; MA, 1972, UNIVERSITY OF WASHINGTON; systems analysis/design methodologies and data/file structures

PILCHER, MARTHA G; PhD, 1985, GEORGIA INSTITUTE OF TECHNOLOGY; operations research/operations management, health care applications and logistics

Marketing and International Business

Professor

ERICKSON, GARY; PhD, 1978, STANFORD UNIVERSITY; quantitative models of marketing and analysis of competitive strategies
 HARDER, VIRGIL E; PhD, 1958, UNIVERSITY OF ILLINOIS; business communications
 JACOBSON, ROBERT L; PhD, 1981, UNIVERSITY OF CALIFORNIA (BERKELEY); marketing strategy
 MACLACHLAN, DOUGLAS; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); marketing, data analysis, and marketing research
 NARVER, JOHN C; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); market strategy, market-driven organization, pricing policies, marketing management
 SPRATLEN, THADDEUS H; PhD, 1962, OHIO STATE UNIVERSITY; marketing
 SULLIVAN, JEREMIAH J; PhD, 1970, NEW YORK UNIVERSITY; international business, Japanese management, multinational business management
 WHEATLEY, JOHN J; PhD, 1959, STATE UNIVERSITY OF NEW YORK (BUFFALO); marketing
 YALCH, RICHARD F; PhD, 1974, NORTHWESTERN UNIVERSITY; advertising management and consumer behavior, marketing management, marketing research

Associate Professor

FOREHAND, MARK ROBECK; PhD, 1997, STANFORD UNIVERSITY; consumer decision making and attitude development
 GRATHWOHL, HARRISON L; DBA, 1957, INDIANA UNIVERSITY; marketing

Assistant Professor

DACUNHA, MARCUS V. MORETTI; PhD, 2003, UNIVERSITY OF FLORIDA; Consumer information processing, intertemporal choice, bundling, variety seeking, signal detection.
 OKADA, ERICA MINA; PhD, 1999, UNIVERSITY OF PENNSYLVANIA; decision theory, entrepreneurial marketing, and marketing strategy
 SCHLOSSER, ANN E.; PhD, 1997, UNIVERSITY OF ILLINOIS; internet marketing

Lecturer

GIAMBATTISTA, MICHELE D.; MBA, 1969,
HARVARD UNIVERSITY; marketing,
international business, technology
KALITZKI, JUDITH ANN; PhD, 1979,
UNIVERSITY OF WASHINGTON;
business communications
ODEGAARD, MARY ANN; PhD, 1980,
STANFORD UNIVERSITY; retailing and
retail management
TURNER, DANIEL J.; PhD, 2001,
NORTHWESTERN UNIVERSITY;
quantitative methods, marketing
management, retailing and pricing
WHELAN, JOHN F.; MA, 1977, YALE
UNIVERSITY; business communications

School of Dentistry

Professor

- AMMONS, WILLIAM F; DDS, 1959, UNIVERSITY OF TEXAS (HOUSTON); MSD, 1970, UNIVERSITY OF WASHINGTON; periodontics
- BEIRNE, OWEN ROSS; PhD, 1976, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); basic and clinical biology of bone tissue reconstruction, bone alloplasts, and anesthesia
- BERG, JOEL H.; MS, 1985, UNIVERSITY OF IOWA; DDS, 1983, UNIVERSITY OF IOWA; Technologies in early caries diagnosis & treatment, Risk Assessment, Pediatric restorative materials
- BOLENDER, CHARLES L; DDS, 1956, UNIVERSITY OF IOWA; MS, 1957, UNIVERSITY OF IOWA; removable prosthodontics.
- BOLLEN, ANNE-MARIE; PhD, 1990, UNIVERSITY OF MICHIGAN; bone metabolism, skeletal growth and development
- BRUDVIK, JAMES S; DDS, 1957, UNIVERSITY OF MINNESOTA; removable prosthodontics.
- BYERS, PETER H; MD, 1969, CASE WESTERN RESERVE UNIVERSITY; extracellular matrix synthesis, genetic disorders of collagen metabolism, secretion, human genetics
- CAMERON, CHERYL A; PhD, 1986, UNIVERSITY OF WASHINGTON; dental hygiene, educational policy, academic and health law
- CANFIELD, ROBERT C; DDS, 1951, UNIVERSITY OF WASHINGTON; restorative dentistry.
- CONRAD, DOUGLAS A; PhD, 1978, UNIVERSITY OF CHICAGO; alternative vertical and horizontal market structures in health care
- DALE-CRUNK, BEVERLY A.; PhD, 1968, UNIVERSITY OF MICHIGAN; keratin biochemistry, epithelial differentiation, antimicrobial peptides
- DARVEAU, RICHARD P.; PhD, 1981, WASHINGTON STATE UNIVERSITY; innate host defense interactions between bacteria and their hosts
- DE ROUEN, TIMOTHY; PhD, 1971, VIRGINIA POLYTECHNIC INST & STATE UNIV; applications of biostatistics to clinical epidemiology of oral and infectious diseases
- DOMOTO, PETER K; DDS, 1964, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); MPH, 1975, UNIVERSITY OF WASHINGTON; pediatric dentistry, dental behavioral science.
- DWORKIN, SAMUEL F; PhD, 1969, NEW YORK UNIVERSITY; dentistry and clinical psychology, pain, psychosomatic and illness-related behavior.
- EYRE, DAVID R.; PhD, 1969, UNIVERSITY OF LEEDS (UK); connective tissue biology, collagen chemistry, bone and cartilage metabolism
- FALES, MARTHA H; PhD, 1978, UNIVERSITY OF MICHIGAN; dental hygiene
- FRANK, RICHARD P; DDS, 1962, UNIVERSITY OF IOWA; MSD, 1968, UNIVERSITY OF WASHINGTON; removable prosthodontics
- GEHRIG, JOHN D; DDS, 1946, UNIVERSITY OF MINNESOTA; MSD, 1951, UNIVERSITY OF MINNESOTA; oral and maxillofacial surgery, biological structure
- GIACHELLI, CECILIA; PhD, 1987, UNIVERSITY OF WASHINGTON; adhesion molecules and vascular biology processes
- GREMBOWSKI, DAVID; PhD, 1982, UNIVERSITY OF WASHINGTON; health services research, survey research, program evaluation, performance of health care systems
- HALL, STANTON H; PhD, 1974, UNIVERSITY OF WASHINGTON; orthodontics, cranio-facial development, biochemistry of mineralized tissues..
- HAMILTON, A IAN; PhD, 1968, UNIVERSITY OF LONDON (UK); restorative dentistry.
- HARRINGTON, GERALD W; DDS, 1959, ST LOUIS UNIVERSITY; MSD, 1969, UNIVERSITY OF WASHINGTON; endodontics
- HERRING, SUSAN W.; PhD, 1971, UNIVERSITY OF CHICAGO; vertebrate functional morphology, relations between muscular function and skull growth
- HOLLENDER, LARS GOSTA; PhD, 1964, UNIVERSITY OF LUND (SWEDEN); oral radiology
- IZUTSU, KENNETH; PhD, 1970, UNIVERSITY OF WASHINGTON; salivary gland physiology and pathophysiology, Ca²⁺ signaling in cell function and differentiation
- JOHNSON, GLEN H; DDS, 1978, UNIVERSITY OF WASHINGTON; MS, 1983, UNIVERSITY OF MICHIGAN; instruction, clinical trials and laboratory research with dental bio materials
- JOHNSON, ROBERT H; DDS, 1962, MCGILL UNIVERSITY (CANADA); MSD, 1964, INDIANA UNIVERSITY; periodontics
- KELLER, PATRICIA J; PhD, 1953, WASHINGTON UNIVERSITY; protein structure and function
- KING, GREGORY J.; DMD, 1969, TUFTS UNIVERSITY; MDS, 1976, MCGILL UNIVERSITY (CANADA); bone remodeling, bone cells, mineral metabolism, bone paracrine/endocrine mechanisms
- KIYAK, H ASUMAN; PhD, 1977, WAYNE STATE UNIVERSITY; geriatric dentistry, behavioral aspects of health care
- KOKICH, VINCENT G; DDS, 1971, UNIVERSITY OF WASHINGTON; MSD, 1974, UNIVERSITY OF WASHINGTON; orthodontics: craniofacial growth and development, sutural morphogenesis, premature sutural fusion.
- LE RESCHE, LINDA A; DSc, 1977, JOHNS HOPKINS UNIVERSITY; epidemiology of pain, specifically gender and pain; nonverbal behavior (facial expression)
- LEGGOTT, PENELOPE J; MSC, 1980, UNIVERSITY OF ILLINOIS; pediatric dentistry
- LITTLE, ROBERT M; PhD, 1974, UNIVERSITY OF WASHINGTON; orthodontics.
- MILGROM, PETER M; DDS, 1972, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); management of fearful and phobic dental patients, quality of dental care.
- MOFFETT, BENJAMIN C; PhD, 1952, NEW YORK UNIVERSITY; anatomy
- MOORE, ALTON W; DDS, 1941, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); MS, 1948, UNIVERSITY OF ILLINOIS; orthodontics.
- MORRISON, KENNETH N; DDS, 1943, UNIVERSITY OF TORONTO (CANADA); MSD, 1952, UNIVERSITY OF WASHINGTON; restorative dentistry.
- MORTON, THOMAS H; DDS, 1972, CREIGHTON UNIVERSITY; MSD, 1975, UNIVERSITY OF WASHINGTON; oral pathology, oral medicine
- MOURADIAN, WENDY ELYSE; MD, 1977, COLUMBIA UNIVERSITY; Ethics and quality of life in children's oral, craniofacial health.
- MYALL, ROBERT W.; MD, 1975, UNIVERSITY OF BRITISH COLUMBIA (CANADA); oral and maxillofacial surgery and biological structure
- NARAYANAN, A SAMPATH; PhD, 1967, UNIVERSITY OF MADRAS (INDIA); connective tissue, periodontal disease, regulation of fibroblast growth, matrix synthesis
- NATKIN, EUGENE; DDS, 1957, NEW YORK UNIVERSITY; MSD, 1962, UNIVERSITY OF WASHINGTON; endodontics.
- NICHOLLS, JACK I; PhD, 1965, PURDUE UNIVERSITY; dental materials
- ODA, DOLPHINE; MSC, 1981, UNIVERSITY OF MANITOBA (CANADA); chemical and viral carcinogenesis and genetic alteration of oral cancer
- OSWALD, ROBERT J; DDS, 1969, VIRGINIA COMMONWEALTH UNIVERSITY; endodontics
- PAGE, ROY C; PhD, 1967, UNIVERSITY OF WASHINGTON; connective-tissue pathology, chronic inflammation, immunopathology, periodontal disease
- RAMSAY, DOUGLAS S; PhD, 1988, UNIVERSITY OF WASHINGTON; behavioral medicine/dentistry, physiological psychology, orthodontics, pediatric dentistry
- RIVARA, FREDERICK P; MD, 1974, UNIVERSITY OF PENNSYLVANIA;

pediatric epidemiology and injury prevention and research
 ROBERTSON, PAUL B.; DDS, 1966, UNIVERSITY OF ALABAMA; MS, 1972, UNIVERSITY OF ALABAMA; host-bacterial interactions in the etiology and pathogenesis of the periodontal diseases
 ROBINOVITCH, MURRAY; PhD, 1967, UNIVERSITY OF WASHINGTON; salivary biochemistry and salivary anti-HIV activity.
 RUBENSTEIN, JEFFREY E.; DMD, 1975, TUFTS UNIVERSITY; MS, 1980, UNIVERSITY OF TEXAS (HOUSTON); maxillofacial and implant prosthodontics
 SCHUBERT, MARK M.; DDS, 1974, UNIVERSITY OF WASHINGTON; MSD, 1981, UNIVERSITY OF WASHINGTON; oral medicine/oral oncology
 SELIPSKY, HERBERT; MSD, 1973, UNIVERSITY OF WASHINGTON; periodontics.
 SHAPIRO, PETER A.; DDS, 1970, HOWARD UNIVERSITY; MSD, 1973, UNIVERSITY OF WASHINGTON; craniofacial biology, longterm evaluation of orthodontic treatment
 SMITH, DALE E.; DDS, 1952, UNIVERSITY OF PITTSBURGH; MSD, 1962, UNIVERSITY OF WASHINGTON; removable prosthodontics
 STAYTON, PATRICK S.; PhD, 1989, UNIVERSITY OF ILLINOIS; engineering proteins for biotechnology, biomaterials, and biomedical therapies/diagnostics
 STEINER, JAMES C.; DDS, 1956, CASE WESTERN RESERVE UNIVERSITY; MSD, 1966, UNIVERSITY OF WASHINGTON; normal sensory mechanisms of human dental pulp and pathologic alterations causing pain
 TRUELOVE, EDMOND L.; DDS, 1967, INDIANA UNIVERSITY; MSD, 1971, INDIANA UNIVERSITY; oral medicine, orofacial pain, stomatitis, and salivary gland disorders
 WARNICK, MYRON E.; DDS, 1955, UNIVERSITY OF ALBERTA (CANADA); restorative dentistry
 WATSON, EILEEN L.; PhD, 1970, UNIVERSITY OF UTAH; salivary gland physiology and regulation
 WEINSTEIN, PHILIP; PhD, 1971, UNIVERSITY OF KENTUCKY; dental behavioral science, treatment and prevention of fear and pain, clinical assessment.
 WHITE, THEODORE C.; PhD, 1984, UNIVERSITY OF MICHIGAN; molecular mechanisms of virulence and drug resistance in pathogenic yeasts
 WILLIAMS, BRYAN J.; DDS, 1974, WESTERN ONTARIO UNIVERSITY (CANADA); MSD, 1979, UNIVERSITY OF WASHINGTON; pediatric dentistry, orthodontics
 WORTHINGTON, PHILIP; MD, 1956, UNIVERSITY OF LIVERPOOL (UK); BDS, 1962, UNIVERSITY OF LIVERPOOL (UK); oral and maxillofacial surgery.

YAGER, PAUL; PhD, 1980, UNIVERSITY OF OREGON; physical chemistry, applications of biomembranes, biosensors, microfluidics, biomedical diagnostic i
 YUODELIS, RALPH A.; DDS, 1955, UNIVERSITY OF ALBERTA (CANADA); MSD, 1964, UNIVERSITY OF WASHINGTON; restorative dentistry, periodontics

Research Professor

BORDIN, SANDRA; PhD, 1966, UNIVERSITY OF FERRARA (ITALY); regulation of connective tissue repair by immune-inflammatory complement components
 BYERS, MARGARET R.; PhD, 1969, HARVARD UNIVERSITY; sensory neurobiology, neurocytochemistry, and neuropathologic reactions; neuroimmune interactions
 CHAPKO, MICHAEL K.; PhD, 1972, CITY UNIVERSITY OF NEW YORK; ambulatory care, long-term care, cost-effectiveness in health care, international health
 PERSSON, GOSTA RUTGER; PhD, 1978, UNIVERSITY OF LUND (SWEDEN); diagnosis of periodontal diseases and the consecutive process of clinical decision making

Associate Professor

AW, TAR C.; DDS, 1990, NORTHWESTERN UNIVERSITY; MS, 1995, UNIVERSITY OF MICHIGAN; restorative dentistry, operative dentistry, dental materials, computers
 BALES, DAVID J.; DDS, 1957, UNIVERSITY OF WASHINGTON; MSD, 1972, INDIANA UNIVERSITY; restorative dentistry.
 BLOOMQUIST, DALE S.; DDS, 1969, UNIVERSITY OF WASHINGTON; oral and maxillofacial surgery.
 BUTSON, TIMOTHY J.; DMD, 1982, UNIVERSITY OF PENNSYLVANIA; MSD, 1992, UNIVERSITY OF WASHINGTON; restorative dentistry, fixed prosthodontics
 CHASTEEN, JOSEPH E.; DDS, 1967, UNIVERSITY OF MICHIGAN; MA, 1976, UNIVERSITY OF MICHIGAN; dental informatics and multi-media instructional programs
 COLDWELL, SUSAN E.; PhD, 1994, UNIVERSITY OF PENNSYLVANIA; pain, anxiety, and taste preference
 CUNNINGHAM, MICHAEL L.; PhD, 1996, UNIVERSITY OF WASHINGTON; molecular, development, craniofacial, malformation, human, mouse, cranio-synostosis, birth defects
 DAVIS, JOHN M.; DDS, 1961, UNIVERSITY OF WASHINGTON; MSD, 1967, UNIVERSITY OF WASHINGTON; pediatric dentistry
 EGBERT, MARK A.; DDS, 1981, UNIVERSITY OF WASHINGTON; oral and maxillofacial surgery.

EVANS, JOHN R.; DDS, 1975, UNIVERSITY OF WASHINGTON; oral and maxillofacial surgery.
 FAINE, MARY P.; MS, 1975, UNIVERSITY OF WASHINGTON; nutrition.
 FISET, LOUIS O.; DDS, 1970, UNIVERSITY OF WASHINGTON; research and management of dental phobia.
 GRAHAM, ELINOR A.; MD, 1970, UNIVERSITY OF ROCHESTER; MPH, 1993, JOHNS HOPKINS UNIVERSITY; general pediatrics
 HOHL, THOMAS H.; DDS, 0, LOYOLA UNIVERSITY (CHICAGO); oral and maxillofacial surgery
 HUANG, GREG J.; DMD, 1987, UNIVERSITY OF FLORIDA; MSD, 1989, UNIVERSITY OF WASHINGTON; Stability of Anterior Open-bite Orthodontic Outcomes Temporomandibular Disorder
 HUEBNER, COLLEEN ELLEN; PhD, 1991, UNIVERSITY OF WASHINGTON; the social bases of developmental problems in early childhood
 JACKSON, DOUGLASS L.; PhD, 1996, UNIVERSITY OF MINNESOTA; the peripheral regulation of sensory neurons during tissue injury
 JOHNSON, BARTON S.; DDS, 1985, UNIVERSITY OF CALIFORNIA (LOS ANGELES); MS, 1989, UNIVERSITY OF CALIFORNIA (LOS ANGELES); hospital dentistry, medical compromise, oncology, sedation, pharmacology, molecular biology
 JOHNSON, JAMES D.; DDS, 1969, NORTHWESTERN UNIVERSITY; MS, 1985, NORTHWESTERN UNIVERSITY; Surgical and nonsurgical endodontics, pulpal / periradicular biology and pathology, instrumentation
 JOONDEPH, DONALD R.; DDS, 1967, NORTHWESTERN UNIVERSITY; MS, 1969, NORTHWESTERN UNIVERSITY; orthodontics
 KARL, HELEN W.; MD, 1976, UNIVERSITY OF VIRGINIA; pediatric anesthesiology
 KIM, SARA; PhD, 1999, UNIVERSITY OF WASHINGTON; educational technology
 KINNEY, LISA A.; DDS, 1982, CASE WESTERN RESERVE UNIVERSITY; oral and maxillofacial surgery
 LEPE, XAVIER; DDS, 1980, UNIVERSITY OF GUADALAJARA (MEXICO); MS, 1987, LOYOLA UNIVERSITY (CHICAGO); dental materials
 LEROUX, BRIAN; PhD, 1989, UNIVERSITY OF BRITISH COLUMBIA (CANADA); mixed models, correlated data, statistical applications in dentistry, toxicology, and psychology
 LIBMAN, WARREN J.; DDS, 1986, MCGILL UNIVERSITY (CANADA); MSD, 1990, UNIVERSITY OF WASHINGTON; restorative dentistry, fixed prosthodontics
 MARTIN, MICHAEL D.; PhD, 1993, UNIVERSITY OF WASHINGTON; dental education in oral health care of persons with disability

O'NEAL, ROBERT B.; MED, 1971, WAYNE STATE UNIVERSITY; DMD, 1971, UNIVERSITY OF SOUTH CAROLINA; periodontics

OSTLUND, LYLE E.; PhD, 1993, JOHNS HOPKINS UNIVERSITY; restorative dentistry.

OVIIR, TIINA; DDS, 1986, UNIVERSITY OF TARTU (ESTONIA); biology and mechano-sensory system of pulp-dentin complex, dentinal (bone) fluid

PETERSON, DEVEREAUX; PhD, 1980, UNIVERSITY OF PITTSBURGH; pediatric dentistry, educational administration, dental treatment for medically compromised patients

PITTS, DAVID LEROY; DDS, 1972, INDIANA UNIVERSITY; MSD, 1977, UNIVERSITY OF WASHINGTON; endodontics.

RAIGRODSKI, ARIEL J.; DMD, 1991, HEBREW UNIVERSITY (ISRAEL); MS, 1999, LOUISIANA STATE UNIVERSITY; Esthetic & implant dentistry, CAD/CAM & zirconia-based systems & computerized shade matching

ROBERTS, FRANK A.; PhD, 1996, UNIVERSITY OF ALABAMA; immunological and biochemical regulatory mechanisms of inflammatory periodontal disease progression

ROBINS, LYNNE S.; PhD, 1990, UNIVERSITY OF MICHIGAN; cultural competence, physician-patient communication, qualitative research assessment

ROSE, TIMOTHY M.; PhD, 1981, UNIVERSITY OF GENEVA (SWITZERLAND); molecular biology of tumor viruses, cell growth, differentiation, and transformation

SCHAAD, DOUGLAS C.; PhD, 1986, UNIVERSITY OF WASHINGTON; Medical education and evaluation; educational assessment; salmonid recovery; riparian restoration

SCHWEDHELM, ERNESTO R.; MSD, 1983, INDIANA UNIVERSITY; tooth fracture, restoration of endodontic-treated teeth, laboratory procedures, treatment planning

SOMMERS, EARL E.; DDS, 1971, INDIANA UNIVERSITY; diagnosis/management of orofacial pain, stomatitis, salivary gland disorders and dental management

TOOLSON, LEIGH; DDS, 1967, UNIVERSITY OF WASHINGTON; MSD, 1977, UNIVERSITY OF WASHINGTON; removable prosthodontics.

VERHOEF, DOUGLAS R.; DDS, 1973, UNIVERSITY OF WASHINGTON; DObst, 1973, UNIVERSITY OF WASHINGTON; fixed prosthodontics

VICINI, PAOLO; PhD, 1996, POLYTECHNIC OF MILAN (ITALY); biomathematics and modeling methodology, mathematical models of biological systems

WANG, I-CHUNG; DDS, 1985, CHUNG SHAN MEDICAL UNIVERSITY (TAIWAN); MPH, 1992, UNIVERSITY OF ALABAMA; MS, 1995, UNIVERSITY OF ALABAMA; periodontal regeneration, epidemiology, and dental implantology

WELLS, NORMA J.; MPH, 1966, UNIVERSITY OF CALIFORNIA (LOS ANGELES); oral health promotion, dental caries, dental hygiene education

WRIGHT, JEFFREY A.; MD, 1978, UNIVERSITY OF MISSOURI; general pediatrics

Research Associate Professor

CANGELOSI, GERARD A.; PhD, 1984, UNIVERSITY OF CALIFORNIA (DAVIS); molecular biology of tuberculosis

MANCL, LLOYD A.; PhD, 1992, UNIVERSITY OF WASHINGTON; statistical methodology in periodontal disease, TMD, and correlated data

PERSSON, RIGMOR E.; DDS, 1969, UNIVERSITY OF LUND (SWEDEN); MSD, 1989, UNIVERSITY OF WASHINGTON; oral health, geriatric and medically compromised patients, general dentistry

PRESLAND, RICHARD B.; PhD, 1987, UNIVERSITY OF ADELAIDE (AUSTRALIA); epithelial/epidermal differentiation, genetic diseases, regulation of development

Assistant Professor

ALCALDE, RAFAEL; DDS, 1990, CENTRAL UNIVERSITY (VENEZUELA); Orthognathic and Reconstructive Maxillofacial Surgery

CRINZI, RICHARD A.; DDS, 1972, UNIVERSITY OF WASHINGTON; oral and maxillofacial surgery.

DRANGSHOLT, MARK T.; DDS, 1984, UNIVERSITY OF WASHINGTON; MPH, 1992, UNIVERSITY OF WASHINGTON; epidemiology

LEE, JESSICA J.; DDS, 1995, UNIVERSITY OF WASHINGTON; oral and maxillofacial surgery

MASSOTH, DONNA L.; PhD, 1992, UNIVERSITY OF WASHINGTON; chronic pain, illness behavior, somitization

MIDDAUGH, DAN; DDS, 1961, UNIVERSITY OF MINNESOTA; MPA, 1972, UNIVERSITY OF WASHINGTON; oral medicine.

OVIIR, TIINA; DDS, 1986, UNIVERSITY OF TARTU (ESTONIA); biology and mechano-sensory system of pulp-dentin complex, dentinal (bone) fluid

PHILLIPS, KEITH M.; DMD, 1987, UNIVERSITY OF PENNSYLVANIA; MSD, 1991, UNIVERSITY OF WASHINGTON; restorative dentistry, fixed prosthodontics, implants

POPOWICS, TRACY; PhD, 1997, BROWN UNIVERSITY; dental biomechanics, craniofacial biology

SHERMAN, JEFFREY J.; PhD, 1998, UNIVERSITY OF KENTUCKY; Etiology, maintenance and treatment of chronic pain Posttraumatic stress disorder

Research Assistant Professor

CHUNG, WHASUN O.; PhD, 1999, UNIVERSITY OF WASHINGTON; oral microbiology and defensin antimicrobial peptides

FATHERAZI, SAHBA; PhD, 1979, UNIVERSITY OF LONDON (UK); signaling pathway in salivary gland and epithelial cell

RIEDY, CHRISTINE A.; PhD, 1997, UNIVERSITY OF WASHINGTON; children's oral health - cultural diversity, dietary influences; symptom self-report in children

Lecturer

GOVIN, GLENN M.; DDS, 1985, UNIVERSITY OF TEXAS (SAN ANTONIO); MPH, 1992, UNIVERSITY OF TEXAS (HOUSTON); dental education in oral health care of persons with disabilities

STODDARD, JAMES W.; DDS, 1961, UNIVERSITY OF WASHINGTON; restorative dentistry, operative dentistry

STRAND, HARVEY A.; DDS, 1957, UNIVERSITY OF WASHINGTON; restorative dentistry

TOWNSEND, JOHN D.; DDS, 1967, MCGILL UNIVERSITY (CANADA); MSD, 1973, UNIVERSITY OF WASHINGTON; restorative dentistry, fixed prosthodontics, periodontics, implants

Instructor

KAY, MICHAEL A.; DDS, 1987, NORTHWESTERN UNIVERSITY; hospital-based dentistry

NIEMAN, ROBERT K.; DDS, 1979, UNIVERSITY OF WASHINGTON; hospital-based dentistry

College of Education

Professor

ABBOTT, ROBERT D; PhD, 1970, UNIVERSITY OF WASHINGTON; measurement, statistics and research design

AFFLECK, JAMES Q; MA, 1963, SAN FRANCISCO STATE; EdD, 1968, COLUMBIA UNIVERSITY; special education (severely handicapped).

ANDERSON, ROBERT A; PhD, 1964, UNIVERSITY OF MINNESOTA; educational administration

BANKS, JAMES A; PhD, 1969, MICHIGAN STATE UNIVERSITY; social studies, multiethnic education

BERNINGER, VIRGINIA WISE; PhD, 1981, JOHNS HOPKINS UNIVERSITY; educational psychology

BOLTON, DALE LEROY; PhD, 1958, UNIVERSITY OF WISCONSIN; educational administration

BOROUGHES, HOMER; PhD, 1949, UNIVERSITY OF WASHINGTON; history and philosophy of education.

BRAMMER, LAWRENCE M; PhD, 1950, STANFORD UNIVERSITY; counseling, adult development.

BROWN, FRANCES A; MA, 1950, COLUMBIA UNIVERSITY; business education.

BURGESS, CHARLES O; PhD, 1962, UNIVERSITY OF WISCONSIN; history of education

CATALANO, RICHARD F; PhD, 1982, UNIVERSITY OF WASHINGTON; crime, violence and drug abuse prevention, promotion of positive youth development

CAUCE, ANA MARI; PhD, 1984, YALE UNIVERSITY; at-risk children, adolescents, and families; normative development in ethnic minority youth

DOI, JAMES I; PhD, 1952, UNIVERSITY OF CHICAGO; finance and management of colleges and universities.

DRISCOLL, JOHN P; PhD, 1957, PENNSYLVANIA STATE UNIVERSITY; educational communications

EDGAR, EUGENE BAYARD; PhD, 1972, GEORGE PEABODY COLLEGE; special education

EVANS, ELLIS D; EdD, 1964, INDIANA UNIVERSITY; human development and cognition

FORSTER, JERALD R.; PhD, 1966, UNIVERSITY OF MINNESOTA; counseling

FREEHILL, MAURICE F; EdD, 1948, STANFORD UNIVERSITY; school psychology/human development and cognition

GAY, GENEVA; PhD, 1972, UNIVERSITY OF TEXAS (AUSTIN); general curriculum theory, multicultural education, and educating African American students

GOODLAD, JOHN I; PhD, 1949, UNIVERSITY OF CHICAGO; education reform, curriculum theory

HARING, NORRIS GROVER; EdD, 1956, SYRACUSE UNIVERSITY; special education (early childhood)

HAWKINS, JOHN D; PhD, 1975, NORTH-WESTERN UNIVERSITY; crime and delinquency, substance abuse, social development, research, prevention

HUNKINS, FRANCIS PETER; PhD, 1966, KENT STATE UNIVERSITY; curriculum

JAROLIMEK, JOHN; PhD, 1955, UNIVERSITY OF MINNESOTA; social studies

JENKINS, JOSEPH R; PhD, 1967, UNIVERSITY OF MINNESOTA; special education (mildly handicapped).

KALTSOUNIS, THEODORE; PhD, 1961, UNIVERSITY OF ILLINOIS; social studies

KNAPP, MICHAEL S.; PhD, 1981, STANFORD UNIVERSITY; public policy in education; policy research; sociology of education

KUHL, PATRICIA K; PhD, 1973, UNIVERSITY OF MINNESOTA; speech perception.

LOVITT, THOMAS C; EdD, 1966, UNIVERSITY OF KANSAS; special education (mildly handicapped)

LOWENBRAUN, SHEILA; PhD, 1969, COLUMBIA UNIVERSITY; special education (hearing impaired)

MADSEN, DAVID L; PhD, 1961, UNIVERSITY OF CHICAGO; history of education

MC CARTIN, ROSEMARIE E; PhD, 1964, UNIVERSITY OF SOUTHERN CALIFORNIA; school psychology/human development and cognition.

MCCUTCHEN, DEBORAH ELAINE; PhD, 1985, UNIVERSITY OF PITTSBURGH; cognitive processes underlying reading and writing skills.

MELTZOFF, ANDREW N; PhD, 1976, OXFORD UNIVERSITY (UK); perceptual, cognitive and social development in infants

MORISHIMA, JAMES K; PhD, 1967, UNIVERSITY OF WASHINGTON; measurement and evaluation

NEEL, RICHARD S; PhD, 1972, UNIVERSITY OF SOUTHERN CALIFORNIA; special education (behavior disorders, learning disabilities); education (social behavior)

NOLEN, SUSAN B.; PhD, 1986, PURDUE UNIVERSITY; achievement motivation in educational settings, development of motivation

OLSTAD, ROGER G; PhD, 1963, UNIVERSITY OF MINNESOTA; science education, teacher education

OLSWANG, STEVEN G; PhD, 1977, UNIVERSITY OF WASHINGTON; law and education

PECK, CHARLES A; PhD, 1984, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); Teacher education, special education

PECKHAM, PERCY D; PhD, 1968, UNIVERSITY OF COLORADO (DEN-

VER); measurement, statistics and research design.

RYCKMAN, DAVID B; EdD, 1966, UNIVERSITY OF ILLINOIS; special education (mildly handicapped)

SCHWARTZ, ILENE SHARON; PhD, 1989, UNIVERSITY OF KANSAS; early childhood, autism, classroom-based interventions, and applied behavior analysis

SEBESTA, SAM L; EdD, 1963, STANFORD UNIVERSITY; reading/language arts

THOMPSON, MARIE D; PhD, 1970, UNIVERSITY OF WASHINGTON; special education (hearing impaired).

TOSTBERG, ROBERT E; PhD, 1960, UNIVERSITY OF WISCONSIN; philosophy of education

VALENCIA, SHEILA DENISE W; PhD, 1978, UNIVERSITY OF COLORADO (BOULDER); reading remediation, comprehension, instruction and assessment

WASLEY, PATRICIA A; EdD, 1989, UNIVERSITY OF WASHINGTON; school renewal, whole-school change, teacher and administrative change, teacher education

WHITE, OWEN R; PhD, 1971, UNIVERSITY OF OREGON; special education (severely handicapped)

WILLIAMS, DONALD T; PhD, 1963, STANFORD UNIVERSITY; higher education

WILLIAMS, RICHARD C.; PhD, 1966, UNIVERSITY OF MINNESOTA; career socialization of school principals; the process of school reform

Research Professor

HILL, PAUL T.; PhD, 1972, OHIO STATE UNIVERSITY; political science, public policy, effects of regulation, especially on schools

Associate Professor

ANTONY, JAMES SOTO; PhD, 1996, UNIVERSITY OF CALIFORNIA (LOS ANGELES); identifying the factors that influence aspirations and success of professional occupations

BEAL, JACK L; PhD, 1972, UNIVERSITY OF NEBRASKA; secondary mathematics education.

BELL, PHILIP L; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); cognition and learning, science education, argumentation, design of learning technologies

BROWN, ROBERT LEWIS; EdD, 1961, UNIVERSITY OF ARKANSAS; school psychology.

CHENEY, DOUGLAS A.; PhD, 1992, UNIVERSITY OF WASHINGTON; education, treatment and support of

students with behavioral/learning disabilities
 DIMMITT, NORMA M.; MED, 1963, UNIVERSITY OF WASHINGTON; EdD, 1970, STANFORD UNIVERSITY; curriculum and instruction, teacher education
 GRAY, CAROLA A.; PhD, 1971, UNIVERSITY OF WASHINGTON; school psychology/human development and cognition
 HANSEN-KRENING, NANCY M.; PhD, 1974, UNIVERSITY OF OREGON; reading/language arts
 HERRENKOHL, LESLIE R.; PhD, 1995, CLARKSON UNIVERSITY; cognitive and social processes of students in pre-school and elementary school settings
 KAZEMI, ELHAM; PhD, 1999, UNIVERSITY OF CALIFORNIA (LOS ANGELES); sociocultural analyses of learning, mathematics education, teacher education, school reform
 KELLY, SAMUEL E.; PhD, 1971, UNIVERSITY OF WASHINGTON; educational leadership and policy study, higher education
 MAZZA, JAMES J.; PhD, 1993, UNIVERSITY OF WISCONSIN; educational psychology/child and adolescent mental health
 NELSON, MARY LEE; PhD, 1989, UNIVERSITY OF OREGON; counseling, interpersonal theory, process research, supervision, gender issues
 NOLEN, PATRICIA A.; PhD, 1970, UNIVERSITY OF WASHINGTON; school psychology/human development and cognition.
 PLECKI, MARGARET L.; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); school finance, economics of education, policy analysis, school choice, study of education reform

PORTIN, BRADLEY S.; MED, 1987, SEATTLE PACIFIC UNIVERSITY; DPhil, 1995, OXFORD UNIVERSITY (UK); educational leadership, principalship, education policy and politics, and comparative education
 SANDALL, SUSAN R.; PhD, 1986, UNIVERSITY OF WASHINGTON; effective intervention practices for very young children with disabilities
 SMITH, JOHN P.; EdD, 1969, STANFORD UNIVERSITY; science education
 STAGE, SCOTT A.; PhD, 1991, FLORIDA STATE UNIVERSITY; educational psychology
 STEVENS, REED R.; PhD, 1999, UNIVERSITY OF CALIFORNIA (BERKELEY); ethnography research on cognition, learning, social interaction, and technology use
 THALBERG, STANTON P.; PhD, 1964, UNIVERSITY OF IOWA; school psychology
 TROIA, GARY A.; PhD, 1999, UNIVERSITY OF MARYLAND; oral and written language development, disabilities, assessment, and intervention
 VASQUEZ, JAMES A.; PhD, 1973, UNIVERSITY OF CALIFORNIA (LOS ANGELES); learning (minority youth)/bilingual education.
 WINEBURG, SAMUEL S.; PhD, 1990, STANFORD UNIVERSITY; educational psychology, cognitive psychology of school subjects, historical cognition

Research Associate Professor

BROWN, SHARAN E.; PhD, 1991, UNIVERSITY OF WASHINGTON; educational law
 COHEN, MARILYN; PhD, 1975, UNIVERSITY OF WASHINGTON; childhood

development, telecommunications technology and research
 FREY, KARIN S.; PhD, 1978, UNIVERSITY OF WASHINGTON; social-emotional development, adult-child and peer interaction, motivation, teacher development

Assistant Professor

BASHEY, HUSAIN ISMAIL; PhD, 1975, UNIVERSITY OF OREGON; counseling.
 HORN, ILANA SEIDEL; PhD, 2002, UNIVERSITY OF CALIFORNIA (BERKELEY); Secondary mathematics education
 KIMBALL, KATHLEEN L.; EdD, 1993, UNIVERSITY OF WASHINGTON; school leadership, assessment and accountability, program evaluation, education reform
 STONE, JENNIFER C.; PhD, 2003, UNIVERSITY OF WISCONSIN; literacy education and new technologies
 STRITIKUS, TOM; PhD, 2000, UNIVERSITY OF CALIFORNIA (BERKELEY); second language development, ESL/bilingual education, literacy, education policy
 VARGHESE, MANKA M.; PhD, 2000, UNIVERSITY OF PENNSYLVANIA; ESL/bilingual education, applied linguistics, teacher education for ESL/bilingual teachers

Lecturer

BRANDL, KLAUS K.; PhD, 1991, UNIVERSITY OF TEXAS (AUSTIN); foreign language pedagogy, applied linguistics, foreign language teacher training

College of Engineering

Aeronautics and Astronautics

Professor

BOLLARD, R JOHN; PhD, 1954, PURDUE UNIVERSITY; mechanics of materials, structural mechanics, aeroelasticity, design and crash-worthiness of aircraft
BRUCKNER, ADAM; PhD, 1972, PRINCETON UNIVERSITY; space systems, propulsion, hypervelocity accelerators, energy conservation astrophysics
CHRISTIANSEN, WALTER H; PhD, 1961, CALIFORNIA INSTITUTE OF TECHNOLOGY; gas dynamics and gas physics, high-power gas lasers and their application, energy conversion
CLARK, ROBERT N; PhD, 1969, STANFORD UNIVERSITY; automatic control systems, fault detection in dynamic systems
DECHER, REINER; PhD, 1968, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; aircraft propulsion, fluid mechanics, energy conversion
EASTMAN, FRED; MS, 1929, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; aeronautics and astronautics
FYFE, IAN M; PhD, 1957, STANFORD UNIVERSITY; dynamics, wave propagation in solids and fluids
HOFFMAN, ALAN LOWELL; PhD, 1967, CALIFORNIA INSTITUTE OF TECHNOLOGY; plasma physics and magnetic confinement fusion
HOLSAPPLE, KEITH A; PhD, 1965, UNIVERSITY OF WASHINGTON; solid mechanics, continuum mechanics, structure waves, finite element methods
JARBOE, THOMAS R.; PhD, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); plasma physics and controlled fusion, magnetic reconnection and relaxation
JOPPA, ROBERT G; PhD, 1972, PRINCETON UNIVERSITY; aircraft flight mechanics, stability and control, V/STOL testing, airplane design, flight testing
LIN, KUEN-YUAN; PhD, 1977, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; composite materials, structural mechanics, finite element methods
LIVNE, ELI; PhD, 1990, UNIVERSITY OF CALIFORNIA (LOS ANGELES); multidisciplinary design, aeroelasticity, aeroservoelasticity, optimization, structural dynamics
PARMETER, R REID; PhD, 1963, CALIFORNIA INSTITUTE OF TECHNOLOGY; structures, solid mechanics, fracture mechanics
PEARSON, CARL E; PhD, 1949, BROWN UNIVERSITY; wave propagation, fluid dynamics, numerical analysis, optimization

RUSSELL, DAVID A; PhD, 1961, CALIFORNIA INSTITUTE OF TECHNOLOGY; fluid mechanics and gas physics, aerodynamics, shock processes and laser fluid dynamics
VAGNERS, JURIS; PhD, 1967, STANFORD UNIVERSITY; optimal control and estimation theory, applications to aircraft systems

Associate Professor

MATTICK, ARTHUR T.; PhD, 1975, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; gas physics, gas lasers, energy conversion, propulsion
SHUMLAK, URI; PhD, 1992, UNIVERSITY OF CALIFORNIA (BERKELEY); computational fluid dynamics, parallel computing, plasma physics, magneto-hydrodynamics, and electri

Assistant Professor

CAMPBELL, MARK E.; PhD, 1996, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; precision controlled structures, autonomous aerospace vehicles, smart materials

Bioengineering

Professor

AUTH, DAVID C; PhD, 1969, GEORGETOWN UNIVERSITY; lasers and electro-optical system design, electrophysics, medical instrumentation
CASTNER, DAVID G.; PhD, 1979, UNIVERSITY OF CALIFORNIA (BERKELEY); polymer surfaces, metal-organic interfaces, catalytic materials
HOFFMAN, ALLAN S; DSc, 1957, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; synthesis, characterization, and biological interaction of biomaterials, mechanics of natural tissue
HORBETT, THOMAS A; PhD, 1970, UNIVERSITY OF WASHINGTON; interfacial proteins, cell interactions, foreign body reaction, nonfouling surfaces
HUNTSMAN, LEE L; PhD, 1968, UNIVERSITY OF PENNSYLVANIA; mechanics of heart and heart muscle, cardiovascular system assessment, new measurement techniques
KIM, YONGMIN; PhD, 1982, UNIVERSITY OF WISCONSIN; computer architecture, imaging systems, medical imaging, computer graphics, multimedia, home healthcare
RATNER, BUDDY D; PhD, 1972, POLYTECHNIC INSTITUTE OF BROOKLYN; synthesis and characterization of polymeric biomaterials

SPELMAN, FRANCIS A; PhD, 1975, UNIVERSITY OF WASHINGTON; biophysics of implanted cochlea, bioinstrumentation for primate research
VINEY, CHRISTOPHER; PhD, 0, CAMBRIDGE UNIVERSITY (UK); phase transformations and microstructure/property relationships in polymers and liquid crystals
VOGEL, VIOLA; Doctor of Natural Philosophy, 1987, JOHANN WOLFGANG GOETHE UNIV (GERMANY); molecular assemblies and Langmuir-Blodgett films, liquid interfaces, non-linear optics, microscopy

Research Professor

CRUM, LAWRENCE A.; PhD, 1967, OHIO UNIVERSITY; physical acoustics, underwater acoustics, medical ultrasound, acoustic cavitation, sonoluminescence,

Associate Professor

BURNS, DAVID H; PhD, 1984, UNIVERSITY OF WASHINGTON; non-invasive spectroscopic measurements of metabolism
SANDERS, JOAN ELIZABETH; PhD, 1991, UNIVERSITY OF WASHINGTON; soft tissue biomechanics and tissue adaptation to mechanical stress

Assistant Professor

PUN, SUZIE H; PhD, 2000, CALIFORNIA INSTITUTE OF TECHNOLOGY; Macromolecule transport; non-viral gene delivery; intracellular trafficking

Research Assistant Professor

HARRIS, SAMANTHA PAIGE; PhD, 1994, UNIVERSITY OF MICHIGAN; Regulation of cardiac contraction, muscle mechanics, molecular basis of inherited cardiomyopathies

Chemical Engineering

Professor

BABB, ALBERT L; PhD, 1951, UNIVERSITY OF ILLINOIS; reactor engineering, bioengineering
BANEYX, FRANCOIS; PhD, 1991, UNIVERSITY OF TEXAS (AUSTIN); biotechnology, protein technology, biochemical engineering
BERG, JOHN C.; PhD, 1964, UNIVERSITY OF CALIFORNIA (BERKELEY); interfacial phenomena, surface and colloid science
BOWEN, J RAY; PhD, 1963, UNIVERSITY OF CALIFORNIA (BERKELEY); combustion

DAVID, MORTON; Doctor of English, 1950, YALE UNIVERSITY; chemical engineering

DAVIS, E JAMES; PhD, 1960, UNIVERSITY OF WASHINGTON; transport in porous media, microparticle physics and chemistry, surface and colloid science

FINLAYSON, BRUCE A; PhD, 1965, UNIVERSITY OF MINNESOTA; modeling of chemical engineering problems

GARLID, KERMIT L; PhD, 1961, UNIVERSITY OF MINNESOTA; nuclear fuel cycles, radioactive waste management

HEIDEGER, WILLIAM J; PhD, 1959, PRINCETON UNIVERSITY; biomedical transport phenomena

JOHANSON, LENNART N; PhD, 1948, UNIVERSITY OF WISCONSIN; chemical engineering

LIDSTROM, MARY E.; PhD, 1977, UNIVERSITY OF WISCONSIN; biomolecular engineering, metabolic engineering, bioremediation

RIBE, FRED L; PhD, 1951, UNIVERSITY OF CHICAGO; experimental and theoretical plasma physics, fusion reactor studies

RICKER, NEIL L; PhD, 1978, UNIVERSITY OF CALIFORNIA (BERKELEY); process control and optimization

ROGERS, J. WILLIAM; PhD, 1979, UNIVERSITY OF TEXAS (AUSTIN); surface chemistry and engineering, applications to thin film deposition

SCHWARTZ, DANIEL T.; PhD, 1989, UNIVERSITY OF CALIFORNIA (DAVIS); electrochemical and environmental engineering

SLEICHER, CHARLES A; PhD, 1955, UNIVERSITY OF MICHIGAN; fluid mechanics, heat transfer

STUVE, ERIC M; PhD, 1983, STANFORD UNIVERSITY; electrochemical surface science, fuel cell engineering

WOODRUFF, GENE L; PhD, 1965, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; reactor physics, fusion engineering, neutron spectroscopy, energy studies

YAGER, PAUL; PhD, 1980, UNIVERSITY OF OREGON; physical chemistry, applications of biomembranes, biosensors, microfluidics, biomedical diagnostic i

Associate Professor

HOLT, BRADLEY R; PhD, 1984, UNIVERSITY OF WISCONSIN; process design and control

JIANG, SHAOYI; PhD, 1993, CORNELL UNIVERSITY; molecular simulation, statistical mechanics, and scanning probe microscopy

KRIEGER-BROCKETT, BARBARA; PhD, 1976, WAYNE STATE UNIVERSITY; reaction engineering, chemical kinetics and catalysis simulation

OVERNEY, RENE M; PhD, 1992, UNIVERSITY OF BASEL (SWITZERLAND);

nanoscale surface science and polymer rheology

Assistant Professor

HAYES, BRIAN; PhD, 1997, UNIVERSITY OF WASHINGTON; polymers and fiber-reinforced composites in aerospace and sporting goods industries

PUN, SUZIE H; PhD, 2000, CALIFORNIA INSTITUTE OF TECHNOLOGY; Macromolecule transport; non-viral gene delivery; intracellular trafficking

Civil and Environmental Engineering

Professor

BENJAMIN, MARK M; PhD, 1979, STANFORD UNIVERSITY; chemistry of natural waters, chemical and biological treatment of water and wastewater.

BOGAN, RICHARD H; DSc, 1954, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; water and air resources, environmental engineering.

BROWN, COLIN B; PhD, 1962, UNIVERSITY OF MINNESOTA; structural engineering and systems

BUCKNAM, RONALD E.; PhD, 1964, UNIVERSITY OF ILLINOIS; Professional Engineering Practice Liaison (PEPL)

BURGES, STEPHEN J; PhD, 1970, STANFORD UNIVERSITY; surface and ground water hydrology, water resource systems analysis and design

CARLSON, DALE A.; PhD, 1960, UNIVERSITY OF WISCONSIN; water resources and solid-waste management

COLCORD, J E; MSCE, 1949, UNIVERSITY OF MINNESOTA; surveying engineering.

EBERHARD, MARC O.; PhD, 1989, UNIVERSITY OF ILLINOIS; structural analysis and design, reinforced concrete, earthquake engineering, nondestructive testing

ELIAS, ZIAD; DSc, 1963, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; engineering mechanics.

EVANS, ROGER J; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); engineering mechanics, structural engineering

FERGUSON, JOHN F.; PhD, 1970, STANFORD UNIVERSITY; chemical and biological processes in water and waste treatment and in natural water systems

HAMMER, VERNON B; MS, 1941, HARVARD UNIVERSITY; solid-waste management.

HARTZ, BILLY J; PhD, 1955, UNIVERSITY OF CALIFORNIA (BERKELEY); engineering mechanics, structural mechanics

JACOBY, JEAN M.; PhD, 1986, UNIVERSITY OF WASHINGTON; applied

aquatic ecology and restoration; water quality management

LARSON, TIMOTHY; PhD, 1976, UNIVERSITY OF WASHINGTON; airborne particles, air quality modeling, and instrument development

LETTENMAIER, DENNIS P; PhD, 1975, UNIVERSITY OF WASHINGTON; systems analysis and water resources planning.

LINDELL, L. TOMMY; PhD, 1974, UNIVERSITY OF UPPSALA (SWEDEN); environmental engineering

MAHONEY, JOE PAUL; PhD, 1979, TEXAS A&M UNIVERSITY; construction materials, pavement systems, airport design

MANNERING, FRED L.; PhD, 1983, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; traffic flow theory, networks, econometric methods, equilibration in transportation markets

MATTOCK, ALAN; PhD, 1955, UNIVERSITY OF LONDON (UK); structural behavior and design

MORGAN, MICHAEL S; DSc, 1972, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; applied respiratory, physiology and inhalation toxicology.

NECE, RONALD E; DSc, 1958, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; hydraulic and coastal engineering

REED, DOROTHY; PhD, 1980, PRINCETON UNIVERSITY; structural and wind engineering

REIBER, STEVE H.; PhD, 1983, UNIVERSITY OF UTAH; environmental engineering

RICHEY, JEFFREY E; PhD, 1973, UNIVERSITY OF CALIFORNIA (DAVIS); quantitative problems of aquatic ecosystems, primary Amazon River, limnology

ROSSANO, AUGUST T; MS, 1941, HARVARD UNIVERSITY; DSc, 1954, HARVARD UNIVERSITY; air resources.

RUTHERFORD, G SCOTT; PhD, 1974, NORTHWESTERN UNIVERSITY; transportation planning and engineering, transit planning, demand forecasting

SCHNEIDER, JERRY; PhD, 1966, UNIVERSITY OF PENNSYLVANIA; metropolitan area and regional planning, transportation and other urban models.

SEABLOOM, ROBERT; MSCE, 1956, UNIVERSITY OF WASHINGTON; water-quality and solid-waste management

STEINEMANN, ANNE; PhD, 1993, STANFORD UNIVERSITY; Water, Drought, Environment, Climate Change, Health, Chemical Exposures, Public Economics, Sustainability

STENSEL, H. DAVID; PhD, 1971, CORNELL UNIVERSITY; biological wastewater treatment, fixed film reactors, mass transfer mechanics, modeling.

SYLVESTER, ROBERT O; MS, 1941, HARVARD UNIVERSITY; water resources.

TAWRESEY, JOHN G; MBA, 1975, UNIVERSITY OF WASHINGTON; structural engineering
 TAWRESEY, JOHN G; MS, 1968, CORNELL UNIVERSITY; structural engineering
 WELCH, EUGENE B; PhD, 1967, UNIVERSITY OF WASHINGTON; water resources and aquatic biology
 WOOD, ERIC F.; DSc, 1974, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; environmental engineering
 YEH, HARRY H; PhD, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); fluid mechanics, water wave motions, coastal and hydraulic engineering.

Research Professor

BOOTH, DEREK B; PhD, 1984, UNIVERSITY OF WASHINGTON; Environmental geology, particularly human influences on hillslopes, runoff, and rivers.
 COVERT, DAVID S; PhD, 1974, UNIVERSITY OF WASHINGTON; atmospheric chemistry; aerosol physics, chemistry, optics, and instrumentation
 DAILEY, DANIEL J; PhD, 1988, UNIVERSITY OF WASHINGTON; time series modeling of physical phenomena, optimization, distributed computing, networking
 STRAND, STUART E; PhD, 1982, PENNSYLVANIA STATE UNIVERSITY; forest biotechnology, environmental pollution control

Associate Professor

ARDUINO, PEDRO; PhD, 1996, GEORGIA INSTITUTE OF TECHNOLOGY; Mechanics of Porous Media, Constitutive Modeling of Soils, Numerical Methods of Geomechanics.
 BRETT, MICHAEL T.; PhD, 1990, UNIVERSITY OF UPPSALA (SWEDEN); Eutrophication and food web and nutrient regulation of algal biomass and secondary production in lak
 CHENOWETH, HARRY H; MSCE, 1957, UNIVERSITY OF WASHINGTON; engineering mechanics and hydraulic engineering.
 JESSUP, ANDREW T.; PhD, 1990, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; applications of remote sensing to air-sea interaction
 KENT, JOSEPH C; PhD, 1952, UNIVERSITY OF CALIFORNIA (BERKELEY); hydraulic engineering
 KORSHIN, GREGORY; PhD, 1983, CHEMICAL ENGINEERING INSTITUTE (RUSSIA); Environmental chemistry and engineering, aquatic chemistry, generation of halogenated organic compou
 MILLER, WILLIAM; MSCE, 1952, UNIVERSITY OF WASHINGTON; materials.
 SNYDER, MARK B.; PhD, 1989, UNIVERSITY OF ILLINOIS; construction engineering

SPYRIDAKIS, DIMITRIS; PhD, 1965, UNIVERSITY OF WISCONSIN; soil and water chemistry
 STRAUSSER, HOWARD; MSEng, 1950, JOHNS HOPKINS UNIVERSITY; hydraulic engineering
 TURKIYYAH, GEORGE; PhD, 1990, CARNEGIE MELLON UNIVERSITY; computer-aided engineering, finite element modeling

Research Associate Professor

HORNER, RICHARD R.; PhD, 1978, UNIVERSITY OF WASHINGTON; Effects of human activities on water resources in urban areas.

Assistant Professor

LEHMAN, DAWN E; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); Earthquake Engineering
 MUENCH, STEPHEN T; PhD, 2004, UNIVERSITY OF WASHINGTON; Transportation construction, construction information, engineering training & education, pavements
 PETROFF, CATHERINE; PhD, 1993, CALIFORNIA INSTITUTE OF TECHNOLOGY; sediment transport, coastal engineering, and environmental fluid mechanics
 WANG, YINHAI; PhD, 1998, TSINGHUA UNIVERSITY (CHINA); Intelligent Transportation Systems, Traffic Detection Technologies, & Transportation Modeling.

Research Assistant Professor

MACKENZIE-HELNWEIN, PETER; PhD, 1997, VIENNA UNIVERSITY OF TECHNOLOGY; computational mechanics, constitutive modeling, structural stability, finite elements

Computer Science and Engineering

Professor

ANDERSON, RICHARD J.; PhD, 1985, STANFORD UNIVERSITY; educational technology, algorithms
 ANDERSON, THOMAS E.; PhD, 1991, UNIVERSITY OF WASHINGTON; internetworking, local and wide area distributed systems, operating systems, computer architecture
 BAER, JEAN-LOUP; PhD, 1968, UNIVERSITY OF CALIFORNIA (LOS ANGELES); computer architecture and performance evaluation
 BORNING, ALAN H; PhD, 1979, STANFORD UNIVERSITY; human-computer interaction; constraint-based languages and systems
 BORRIELLO, GAETANO; PhD, 1988, UNIVERSITY OF CALIFORNIA

(BERKELEY); invisible and ubiquitous computing, embedded and network systems
 CHAMBERS, CRAIG D; PhD, 1992, STANFORD UNIVERSITY; programming language design, optimizing compilation, object-oriented systems
 DE ROSE, ANTHONY DAVID; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); computer-aided geometric design and modeling, graphical user interfaces, high resolution graphics
 EBELING, WILLIAM H.C.; PhD, 1986, CARNEGIE MELLON UNIVERSITY; VLSI architectures, configurable computing, computer-aided design
 EGGERS, SUSAN JANE; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); uniprocessor and parallel architectures and program behavior, back-end compiler optimizations
 ETZIONI, OREN; PhD, 1990, CARNEGIE MELLON UNIVERSITY; artificial intelligence and information retrieval, natural language interfaces, software agents
 FELSENSTEIN, JOSEPH; PhD, 1968, UNIVERSITY OF CHICAGO; estimation of evolutionary trees, models of long-term evolutionary processes, and theoretical popula
 FRIEDMAN, BATYA; PhD, 1988, UNIVERSITY OF CALIFORNIA (BERKELEY); value-sensitive design, social-cognitive and cultural aspects of information systems
 GOLDE, HELLMUT; PhD, 1959, STANFORD UNIVERSITY; programming languages, programming systems, compilers, computer networks
 GREEN, PHILIP; PhD, 1976, UNIVERSITY OF CALIFORNIA (BERKELEY); Mathematical and Computer Methods for Genome Analysis
 HANKS, STEVEN JOHN; PhD, 1990, YALE UNIVERSITY; Artificial intelligence; decision-theoretic reasoning; e-commerce technologies; computer security
 HOOD, LEROY E.; PhD, 1968, CALIFORNIA INSTITUTE OF TECHNOLOGY; molecular immunology, large-scale DNA mapping and sequencing, molecular evolution
 KALET, IRA J; PhD, 1968, PRINCETON UNIVERSITY; computer simulation of radiation therapy, artificial intelligence, computer graphics
 KARLIN, ANNA R.; PhD, 1987, STANFORD UNIVERSITY; online algorithms, probabilistic algorithms and probabilistic analysis
 KAUTZ, HENRY; PhD, 1988, UNIVERSITY OF ROCHESTER; artificial intelligence, knowledge representation, decision-theoretic control of reasoning
 KEHL, THEODORE; PhD, 1961, UNIVERSITY OF WISCONSIN; hardware design (VLSI), telephony and API programming
 KIM, YONGMIN; PhD, 1982, UNIVERSITY OF WISCONSIN; computer architecture,

imaging systems, medical imaging, computer graphics, multimedia, home healthc

LADNER, RICHARD E; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); design and analysis of algorithms, data compression, network algorithms, cache performance

LAZOWSKA, EDWARD D; PhD, 1977, UNIVERSITY OF TORONTO (CANADA); computer systems: modeling and analysis, design and implementation, distributed and parallel systems

LEVY, HENRY M; MS, 1981, UNIVERSITY OF WASHINGTON; operating systems, distributed and parallel systems, Web systems and performance

NOTKIN, DAVID S; PhD, 1984, CARNEGIE MELLON UNIVERSITY; software engineering, software evolution, software tools and environments

OLSON, MAYNARD V.; PhD, 1970, STANFORD UNIVERSITY; Methods and applications of large-scale DNA analysis

OSTENDORF, MARI; PhD, 1985, STANFORD UNIVERSITY; Speech synthesis and understanding; spoken document retrieval; statistical pattern recognition.

RISKIN, EVE A; PhD, 1990, STANFORD UNIVERSITY; image compression and processing, and signal processing

RUZZO, WALTER L; PhD, 1978, UNIVERSITY OF CALIFORNIA (BERKELEY); computational biology

SHAPIRO, LINDA G; PhD, 1974, UNIVERSITY OF IOWA; computer vision, multimedia information systems, medical informatics, pattern recognition

SHAW, ALAN CARY; PhD, 1968, STANFORD UNIVERSITY; operating systems, software specifications, real-time systems

STUETZLE, WERNER; PhD, 1977, SWISS FEDERAL INSTITUTE OF TECHNOLOGY; nonparametric methods in multivariate analysis, statistical applications of computer graphics

TANIMOTO, STEVEN L; PhD, 1975, PRINCETON UNIVERSITY; visual languages, image analysis, computer graphics, artificial intelligence, educational technology

TARCZY-HORNOCH, PETER; MD, 1989, STANFORD UNIVERSITY; bioinformatics and clinical informatics: clinical systems and integrating genetic databases

TOMPA, MARTIN; PhD, 1978, UNIVERSITY OF TORONTO (CANADA); computational complexity, computational biology

WELD, DANIEL SABEY; PhD, 1988, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; artificial intelligence, intelligent user interfaces, software agents, planning

Research Professor

BRINKLEY III, JAMES F.; PhD, 1984,

STANFORD UNIVERSITY; computer applications in medicine and biology

Associate Professor

BERSHAD, BRIAN; PhD, 1990, UNIVERSITY OF WASHINGTON; operating systems, architecture, distributed systems, parallel systems

BILMES, JEFFREY A.; PhD, 1999, UNIVERSITY OF CALIFORNIA (BERKELEY); Speech & pattern recognition, learning, audio processing, high-performance computing, human-computer

BOHRINGER, KARL F.; PhD, 1997, CORNELL UNIVERSITY; microelectromechanical systems (MEMS), applied microtechnology, micro spacecraft, distributed/ubiqui

CURLESS, BRIAN L.; PhD, 1997, STANFORD UNIVERSITY; computer graphics; active machine vision

DIORIO, CHRISTOPHER J; PhD, 1997, CALIFORNIA INSTITUTE OF TECHNOLOGY; silicon learning chips, neural networks, and learning algorithms

DOMINGOS, PEDRO MORAIS DEL; PhD, 1997, UNIVERSITY OF CALIFORNIA (IRVINE); artificial intelligence, machine learning, data mining

FOX, DIETER; PhD, 1998, UNIVERSITY OF BONN (GERMANY); artificial intelligence and mobile robotics, probabilistic state estimation, particle filters

GRIBBLE, STEVEN; PhD, 2000, UNIVERSITY OF CALIFORNIA (BERKELEY); cluster computing, operating systems, Internet infrastructure and services, distributed computing

HAUCK, SCOTT; PhD, 1995, UNIVERSITY OF WASHINGTON; FPGAs, Reconfigurable Computing, VLSI/CAD, Digital Logic, Adaptive Computing.

JOHNSON, RONALD A.; MA, 1972, UNIVERSITY OF CHICAGO; MS, 1975, UNIVERSITY OF SOUTHERN CALIFORNIA; information sciences

LANDAY, JAMES A; PhD, 1996, CARNEGIE MELLON UNIVERSITY; Human-computer interaction, ubiquitous computing

NOBLE, WILLIAM S; PhD, 1998, UNIVERSITY OF CALIFORNIA (SAN DIEGO); the development of machine learning techniques for application to problems in molecular biology

POPOVIC, ZORAN; PhD, 1999, CARNEGIE MELLON UNIVERSITY; computer graphics, character animation, physically based modeling and modeling, simulation

SEITZ, STEVEN M.; PhD, 1997, UNIVERSITY OF WISCONSIN; computer vision, computer graphics

STIBER, MICHAEL D; PhD, 1992, UNIVERSITY OF CALIFORNIA (LOS ANGELES); dynamics of synaptic integration

SUCIU, DAN; PhD, 1995, UNIVERSITY OF

PENNSYLVANIA; databases, XML

WETHERALL, DAVID JAMES; PhD, 1998, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; networks and distributed systems

Assistant Professor

ARNSTEIN, LAWRENCE; PhD, 1993, CARNEGIE MELLON UNIVERSITY; ubiquitous computing, bioinformatics, embedded systems design

GROSSMAN, DANIEL JOSEPH; PhD, 2003, CORNELL UNIVERSITY; programming language design, theory, and implementation

GURUSWAMI, VENKATESAN; PhD, 2001, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; Theoretical computer science, coding theory, algorithms, complexity theory

MEILA-PREDOVICIU, MARINA; PhD, 1999, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; graphical probability models, machine learning, algorithms, data mining

NOBLE, WILLIAM S; PhD, 1998, UNIVERSITY OF CALIFORNIA (SAN DIEGO); the development of machine learning techniques for application to problems in molecular biology

PADMANABHAN, VENKATA N.Z.; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); Internet performance analysis, wireless networking and mobile computing.

RAO, RAJESH P.N.; PhD, 1998, UNIVERSITY OF ROCHESTER; neural computing, machine vision and learning, robotics, computational neuroscience

Lecturer

MONES, BARBARA; MFA, 1989, RHODE ISLAND SCHOOL OF DESIGN; computer graphics, character animation

Electrical Engineering

Professor

ALBRECHT, ROBERT W; PhD, 1961, UNIVERSITY OF MICHIGAN; reactor dynamics and stochastic processes, innovative nuclear reactors, reactor instrumentation, rob

ALEXANDRO, FRANK J; MSEE, 1959, NEW YORK UNIVERSITY; DSc, 1964, NEW YORK UNIVERSITY; control systems, stochastic estimation methods

ALLSTOT, DAVID JAMES; PhD, 1979, UNIVERSITY OF CALIFORNIA (BERKELEY); Design and simulation of RF and mixed-signal integrated circuits. System-on-chip Solutions

ATLAS, LES EUGENE; PhD, 1984, STANFORD UNIVERSITY; time-frequency representations, digital signal processing applied to speech, audio, manufacturing

BERNARD, GARY D; PhD, 1964, UNIVERSITY OF WASHINGTON; advanced

- sensors for manufacturing, time-frequency classification, visual information processing
- BJORKSTAM, JOHN L.; PhD, 1958, UNIVERSITY OF WASHINGTON; materials science and engineering, fundamentals and technological applications of magnetic resonance
- CHIZECK, HOWARD JAY; DSc, 1982, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; Biologically inspired control systems for autonomous robotics, prosthetics, and rehabilitation.
- CLARK, ROBERT N.; PhD, 1969, STANFORD UNIVERSITY; automatic control systems, fault detection in dynamic systems
- DALTON, LARRY R.; PhD, 1971, HARVARD UNIVERSITY; materials chemistry focused on producing next generation opto-electronic materials
- DARLING, ROBERT B.; PhD, 1985, GEORGIA INSTITUTE OF TECHNOLOGY; semiconductor devices, solid state, optoelectronics, microelectronics.
- DOW, DANIEL G.; PhD, 1958, STANFORD UNIVERSITY; microwaves, physical electronics, semiconductor devices, sensors
- DUNHAM, SCOTT T.; PhD, 1985, STANFORD UNIVERSITY; Modeling and simulation of microfabrication processes and device behavior.
- EBELING, WILLIAM H.C.; PhD, 1986, CARNEGIE MELLON UNIVERSITY; VLSI architectures, configurable computing, computer-aided design
- EL-SHARKAWI, MOHAMED A.; PhD, 1980, UNIVERSITY OF BRITISH COLUMBIA (CANADA); analysis and control of power electronics, systems, and electric drives; artificial neural networks
- GUILFORD, EDWARD C.; PhD, 1959, UNIVERSITY OF CALIFORNIA (BERKELEY); electronics, computers
- HANNAFORD, BLAKE; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); haptic interfaces, robotics, biomechanics, bioengineering, controls, human-machine interaction
- HARALICK, ROBERT M.; PhD, 1969, UNIVERSITY OF KANSAS; computer vision, artificial intelligence, pattern recognition, image processing
- HSU, CHIH-CHI; PhD, 1951, OHIO STATE UNIVERSITY; control systems and cybernetics
- HUANG, XUECONG D.; PhD, 1989, UNIVERSITY OF EDINBURGH (UK); Speech recognition and synthesis, user interfaces, artificial intelligence, computational linguistic
- HWANG, JENQ-NENG; PhD, 1988, UNIVERSITY OF SOUTHERN CALIFORNIA; parallel architectures, signal and image processing, neural networks
- ISHIMARU, AKIRA; PhD, 1958, UNIVERSITY OF WASHINGTON; electromagnetics, optics, acoustics, applied mathematics, scattering theory
- JOHNSON, DAVID L.; PhD, 1955, PURDUE UNIVERSITY; digital design, artificial intelligence, models of learning systems
- KIM, YONGMIN; PhD, 1982, UNIVERSITY OF WISCONSIN; computer architecture, imaging systems, medical imaging, computer graphics, multimedia, home healthc
- KUGA, YASUO; PhD, 1983, UNIVERSITY OF WASHINGTON; microwave and millimeter-wave remote sensing, optics, and electromagnetics
- LAURITZEN, PETER O.; PhD, 1961, STANFORD UNIVERSITY; power electronics, electronic devices, instrumentation
- LEWELLEN, THOMAS; PhD, 1972, UNIVERSITY OF WASHINGTON; bioengineering, electrical engineering
- LIU, CHEN-CHING; PhD, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); power system analysis/computing, intelligent system methodologies/applications, power electronics
- MELDRUM, DEIRDRE R.; PhD, 1992, STANFORD UNIVERSITY; laboratory automation systems, genome analysis, modeling and control of dynamic systems, robots
- MORITZ, WILLIAM E.; PhD, 1969, STANFORD UNIVERSITY; human-powered transportation
- OSTENDORF, MARI; PhD, 1985, STANFORD UNIVERSITY; Speech synthesis and understanding; spoken document retrieval; statistical pattern recognition.
- PEDEN, IRENE CARSWELL; PhD, 1962, STANFORD UNIVERSITY; subsurface remote sensing and applied electromagnetics
- PORTER, ROBERT P.; PhD, 1970, NORTHEASTERN UNIVERSITY; acoustics, electromagnetics, signal processing
- RISKIN, EVE A.; PhD, 1990, STANFORD UNIVERSITY; image compression and processing, and signal processing
- RITCEY, JAMES A.; PhD, 1985, UNIVERSITY OF CALIFORNIA (SAN DIEGO); communications, signal processing, radar/sonar
- ROY, SUMIT; PhD, 1988, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); Performance analysis of communications networks; statistical & numerical computing
- SAHR, JOHN D.; PhD, 1990, CORNELL UNIVERSITY; radar remote sensing, ionospheric physics; signal processing; wireless communications
- SHI, CHUAN JIN; PhD, 1994, UNIVERSITY OF WATERLOO (CANADA); VLSI and VLSI-CAD, optimization
- SIGELMANN, RUBENS A.; PhD, 1963, UNIVERSITY OF WASHINGTON; bioengineering, ultrasonics, propagation, acoustics.
- SPINDEL, ROBERT C.; PhD, 1971, YALE UNIVERSITY; ocean acoustics, signal processing, acoustic navigation systems, acoustic tomography
- SUN, MING-TING; PhD, 1985, UNIVERSITY OF CALIFORNIA (LOS ANGELES); multimedia/video processing/networking VLSI
- TSANG, LEUNG; PhD, 1976, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; wave propagation and scattering, remote sensing and optics
- YUAN, CHUN; PhD, 1988, UNIVERSITY OF UTAH; magnetic resonance imaging in medical application

Research Professor

- BEACH, KIRK WATSON; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); arterial disease in diabetes, blood flow studies with ultrasonic Doppler
- CRUM, LAWRENCE A.; PhD, 1967, OHIO UNIVERSITY; physical acoustics, underwater acoustics, medical ultrasound, acoustic cavitation, sonoluminescence,
- DAILEY, DANIEL J.; PhD, 1988, UNIVERSITY OF WASHINGTON; time series modeling of physical phenomena, optimization, distributed computing, networking
- WINEBRENNER, DALE P.; PhD, 1985, UNIVERSITY OF WASHINGTON; optical and radiowave propagation and scattering, remote sensing of planetary surfaces and subsurfa

Associate Professor

- BABBITT, WILLIAM R.; PhD, 1987, HARVARD UNIVERSITY; Optical memories, processors, and optical interconnects and nonlinear optics
- BERG, MARTIN C.; PhD, 1986, STANFORD UNIVERSITY; digital control system design, control of structurally flexible electromechanical systems
- BILMES, JEFFREY A.; PhD, 1999, UNIVERSITY OF CALIFORNIA (BERKELEY); Speech & pattern recognition, learning, audio processing, high-performance computing, human-computer
- BOHRINGER, KARL F.; PhD, 1997, CORNELL UNIVERSITY; microelectromechanical systems (MEMS), applied microtechnology, micro spacecraft, distributed/ubiqui
- CHOU, PHILIP A.; PhD, 1998, STANFORD UNIVERSITY; Compression and recognition of video images, audio, speech and documents.
- GIRI, JAY; PhD, 1977, CLARKSON UNIVERSITY; power system analysis, software development and user interfaces for real-time power system control
- HAUCK, SCOTT; PhD, 1995, UNIVERSITY OF WASHINGTON; FPGAs, Reconfigurable Computing, VLSI/CAD, Digital Logic, Adaptive Computing.
- HELMS, WARD J.; PhD, 1968, UNIVER-

SITY OF WASHINGTON; VLSI analog and digital circuit design, integrated circuits, acoustics and audio, silicon compilers

JANDHYALA, VIKRAM; PhD, 1998, UNIVERSITY OF ILLINOIS; Computational and Applied Electromagnetics, High-Speed Circuit Applications of Field Solvers.

LIN, LIH-YUAN; PhD, 1996, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Photonics and MEMS, for applications in advanced communications and biotechnology.

LIU, HUI; PhD, 1995, UNIVERSITY OF TEXAS (AUSTIN); Wireless system and network design: DSP and VLSI for communications, numerical computing; statistica

SINANAN, MIKA N.; PhD, 1986, UNIVERSITY OF BRITISH COLUMBIA (CANADA); Surgical education, biorobotic surgical instrument development, and clinical procedure development

THORSOS, ERIC I; PhD, 1972, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; rough surface scattering, numerical simulation and theory, underwater acoustics

WILSON, DENISE M; PhD, 1995, GEORGIA INSTITUTE OF TECHNOLOGY; Distributed sensing systems design with emphasis on electronics interface.

Research Associate Professor

NELSON, BRIAN A.; PhD, 1987, UNIVERSITY OF WISCONSIN; fusion plasma physics, plasma processing of materials, data acquisition software

Assistant Professor

AMIRPARVIZ, BABAK; PhD, 2001, UNIVERSITY OF MICHIGAN; Nanofabrication, biotechnology, MEMS, organic microsystems, organic electronics, self-assembly

CHOI, JAI JOON; PhD, 1990, UNIVERSITY OF WASHINGTON; adaptive signal processing, neural networks, and fuzzy logic

FOX, DIETER; PhD, 1998, UNIVERSITY OF BONN (GERMANY); artificial intelligence and mobile robotics, probabilistic state estimation, particle filters

GOLDSCHNEIDER, JILL; PhD, 1997, UNIVERSITY OF WASHINGTON; data compression, image processing and clustering.

GUPTA, MAYA R; PhD, 2003, STANFORD UNIVERSITY; statistical classification and estimation, color image processing, information theory

KLAVINS, ERIC; PhD, 1998, UNIVERSITY OF MICHIGAN; Robotics, distributed algorithms, decentralized control and self-assembly

LUBY, JAMES C; PhD, 1984, UNIVERSITY

OF WASHINGTON; signal processing, underwater acoustics, computer simulation, adaptive array processing, tracking

PADMANABHAN, VENKATA N.Z; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); Internet performance analysis, wireless networking and mobile computing.

VENKATA, SUBRAHMANYAM S; PhD, 1971, UNIVERSITY OF SOUTH CAROLINA; computer applications to power systems, AI applications, transmission and distribution

Research Assistant Professor

BUSHNELL, LINDA; PhD, 1994, UNIVERSITY OF CALIFORNIA (BERKELEY); Networked control systems, nonlinear control theory, autonomous robotics

Lecturer

PECKOL, JAMES; PhD, 1985, UNIVERSITY OF WASHINGTON; real-time embedded systems, hardware/software co-design, computer architecture, digital fuzzy logic

POTTER, WILLIAM W; MD, 1958, ECOLE POLYTECHNIQUE FEDERALE DE LAUSANNE; electronics.

Industrial Engineering

Professor

ATMAN, CYNTHIA J.; PhD, 1990, CARNEGIE MELLON UNIVERSITY; engineering education issues and developing cognitive models of engineering design

FURNESS, THOMAS A.; PhD, 1981, UNIVERSITY OF SOUTHAMPTON (UK); display systems engineering, human factors, computer graphics, virtual reality

KAPUR, KAILASH C.; PhD, 1969, UNIVERSITY OF CALIFORNIA (BERKELEY); quality/reliability engineering, system design/optimization, total quality/reliability management

NIHAN, NANCY L; PhD, 1970, NORTH-WESTERN UNIVERSITY; transportation planning and systems analysis.

STORCH, RICHARD L; PhD, 1978, UNIVERSITY OF WASHINGTON; ship production, large scale assembly and manufacturing systems, statistical quality control, design

ZABINSKY, ZELDA; PhD, 1985, UNIVERSITY OF MICHIGAN; operations research, applications in industrial engineering, optimization with stochastic elements.

Associate Professor

DOUTHWAITE, GEOFFREY K; MSEE, 1963, UNIVERSITY OF WASHINGTON;

rigid body mechanics, software design for engineering economics

DRUI, ALBERT B; MS, 1957, WASHINGTON UNIVERSITY; industrial engineering, human factors

IVERSON, SCOTT CHRISTIAN; PhD, 1974, UNIVERSITY OF COLORADO (BOULDER); health care systems, operations research and systems design and engineering

ROBERTS, NORMAN H; PhD, 1958, UNIVERSITY OF WASHINGTON; reliability and probability theory

Materials Science and Engineering

Professor

ANDERSON, DONALD; BS, 1941, UNIVERSITY OF ILLINOIS; mining and exploration

ARCHBOLD, THOMAS F; PhD, 1961, PURDUE UNIVERSITY; corrosion, thermal diffusion, substructure characterization, fatigue

BORDIA, RAJENDRA KUMAR; PhD, 1986, CORNELL UNIVERSITY; processing and mechanical properties of ceramics, polymer and ceramic composites

FISCHBACH, DAVID B; PhD, 1955, YALE UNIVERSITY; structure and properties of carbons graphite, other non-oxide ceramics, and composite materials

JEN, ALEX K-Y; PhD, 1984, UNIVERSITY OF PENNSYLVANIA; organic materials/polymer chemistry, functional materials, optical sciences

OHUCHI, FUMIO; PhD, 1981, UNIVERSITY OF FLORIDA; nucleation and growth of thin film materials, surface science, glass, device applications

OLONIS, DOUGLAS H; PhD, 1955, UNIVERSITY OF BRITISH COLUMBIA (CANADA); physical metallurgy, phase transformations in solids, mechanical properties of materials, structure

ROGERS, J. WILLIAM; PhD, 1979, UNIVERSITY OF TEXAS (AUSTIN); surface chemistry and engineering, applications to thin film deposition

SARIKAYA, MEHMET; PhD, 1982, UNIVERSITY OF CALIFORNIA (BERKELEY); Biomimetics, nanotechnology, biomaterials, tissue engineering, dental, magnetics, semiconductors, ce

SCOTT, WILLIAM D; PhD, 1961, UNIVERSITY OF CALIFORNIA (BERKELEY); optical and transmission electron microscopy of high performance ceramics, alumina and electronic materials

WHITTEMORE, OSGOOD J; PhD, 1950, IOWA STATE UNIVERSITY; ceramic processing, refractories, industrial minerals

Associate Professor

MILLER, ALAN D.; PhD, 1967, UNIVERSITY OF WASHINGTON; chemical bonding, high temperature equilibria environmental effects on mechanical properties, high
STANG, ROBERT GEORGE; PhD, 1972, STANFORD UNIVERSITY; mechanical behavior, elastic and plastic deformation, and high-temperature creep in materials
ZHANG, MIQIN; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); Biomaterials, tissue engineering, BioMEMS, bionanotechnology, surface modification, drug delivery.

Research Associate Professor

FLINN, BRIAN D.; PhD, 1991, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); structure-processing-property relationships in structural materials

Mechanical Engineering

Professor

ALEXANDER, DANIEL; PhD, 1977, WASHINGTON STATE UNIVERSITY; engineering design
BALISE, PETER; MS, 1950, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; systems analysis and control
CHALUPNIK, JAMES; PhD, 1964, UNIVERSITY OF TEXAS (AUSTIN); sound and vibration, wave propagation
CORLETT, RICHARD; PhD, 1963, HARVARD UNIVERSITY; energy systems and combustion
DAY, EMMETT E.; PhD, 1962, UNIVERSITY OF CALIFORNIA (BERKELEY); materials, experimental stress analysis
DEPEW, CREIGHTON A.; PhD, 1960, UNIVERSITY OF CALIFORNIA (BERKELEY); heat transfer, fluid mechanics
DEVASIA, SANTOSH; PhD, 1993, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); control theory and applications: nanotechnology, distributed systems, and biomedical systems
EMERY, ASHLEY F.; PhD, 1961, UNIVERSITY OF CALIFORNIA (BERKELEY); experimental design, heat transfer, HVAC, thermal stress/fracture, bioengineering
FABIEN, BRIAN C.; PhD, 1990, COLUMBIA UNIVERSITY; kinematics, modeling and simulation of physical systems, optimal control
FIREY, JOSEPH C.; MME, 1941, UNIVERSITY OF WISCONSIN; combustion, lubrication
GALLE, KURT R.; PhD, 1951, PURDUE UNIVERSITY; instrumentation, controls, bioengineering
GANTER, MARK; PhD, 1985, UNIVERSITY OF WISCONSIN; solid modeling,

computer graphics and geometry, kinematics, rapid prototyping, manufacturing design
GARBINI, JOSEPH; PhD, 1977, UNIVERSITY OF WASHINGTON; systems and controls analysis, instrumentation, manufacturing automation
GESSNER, FREDERICK B.; PhD, 1964, PURDUE UNIVERSITY; fluid mechanics, turbulence
JORGENSEN, JENS E.; DSc, 1969, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; systems analysis, manufacturing, automation and controls, forest engineering
KIPPENHAN, CHARLES J.; PhD, 1948, UNIVERSITY OF IOWA; energy conservation in buildings, heating ventilating and air conditioning, heat transfer
KOBAYASHI, ALBERT S.; PhD, 1958, ILLINOIS INSTITUTE OF TECHNOLOGY; fracture mechanics
KRAMLICH, JOHN C.; PhD, 1980, WASHINGTON STATE UNIVERSITY; heterogeneous combustion, pollutant formation and control from thermal systems, waste remediation
LOVE, WILLIAM J.; PhD, 1952, UNIVERSITY OF ILLINOIS; design, mechanics, power systems
MC CORMICK, NORMAN J.; PhD, 1965, UNIVERSITY OF MICHIGAN; radiative transfer, optical oceanography, reliability/risk analysis, mechanical engineering design
MC FERON, DEAN E.; PhD, 1956, UNIVERSITY OF ILLINOIS; heat transfer and thermal power processes
MORRISON, JAMES B.; MS, 1954, UNIVERSITY OF WASHINGTON; design, dynamics
PRATT, DAVID T.; PhD, 1968, UNIVERSITY OF CALIFORNIA (BERKELEY); turbulent combustion, computer simulation
RAMULU, M.; PhD, 1982, UNIVERSITY OF WASHINGTON; manufacturing processes, production engineering, applied mechanics, fatigue and fracture mechanics
REINHALL, PER G.; PhD, 1982, CALIFORNIA INSTITUTE OF TECHNOLOGY; nonlinear dynamics, vibrations, vibration control, acoustics, biomedical engineering
SHEN, I-YEU (STEVE); PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); linear and nonlinear vibrations, disk and machine dynamics, damping and vibration control
SIDLES, JOHN ARTHUR; PhD, 1983, UNIVERSITY OF WASHINGTON; seeing molecules (i.e., quantum-coherent instrumentation); regenerating cartilage
TAGGART, RAYMOND; PhD, 1956, QUEEN'S UNIVERSITY (UK); mechanical metallurgy
TAYA, MINORU; PhD, 1977, NORTH-WESTERN UNIVERSITY; composite

materials, elasticity and plasticity, impact physics, fracture theory
TUTTLE, MARK E.; PhD, 1984, VIRGINIA POLYTECHNIC INST & STATE UNIV; applied solid mechanics, composite materials and structures, adhesion mechanics
WILSON, WILLIAM R.D.; PhD, 1967, QUEEN'S UNIVERSITY OF BELFAST (IRELAND); manufacturing and tribology, particularly metal forming
WOLAK, JAN; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); mechanics of materials, manufacturing processes

Associate Professor

ADEE, BRUCE H.; PhD, 1972, UNIVERSITY OF CALIFORNIA (BERKELEY); vessel safety and stability, floating structures, waves, ship resistance, model testing
BERG, MARTIN C.; PhD, 1986, STANFORD UNIVERSITY; digital control system design, control of structurally flexible electromechanical systems
BODOIA, JOHN R.; PhD, 1959, CARNEGIE MELLON UNIVERSITY; fluid mechanics, heat transfer, solar energy
CHALK, WILLIAM; MME, 1961, UNIVERSITY OF WASHINGTON; design graphics
COOPER, JOYCE S.; PhD, 1996, DUKE UNIVERSITY; design for environment and industrial ecology methodologies and models
FORD, PAUL W.; MSEng, 1959, UNIVERSITY OF WASHINGTON; manufacturing processes, metal casting
HENRY, ANN M.; PhD, 1995, OHIO STATE UNIVERSITY; polymer composites and manufacturing, polymer optics, heat transfer, design
HOLT, RICHARD; MME, 1957, UNIVERSITY OF WASHINGTON; manufacturing processes, welding
KIELING, WILLIAM C.; MME, 1959, UNIVERSITY OF WASHINGTON; design, dynamics, and kinematics
KUMAR, VIPIN; PhD, 1988, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; manufacturing, polymer processing, microcellular plastics, design theory and methodology
NELSON, ALAN C.; PhD, 1980, UNIVERSITY OF CALIFORNIA (BERKELEY); biomedical imaging using image analysis for tissue and tumor studies
SHERRER, ROBERT E.; PhD, 1958, UNIVERSITY OF WISCONSIN; solid mechanics
STORTI, DUANE W.; PhD, 1983, CORNELL UNIVERSITY; nonlinear dynamics and vibrations, dynamical systems, perturbations and bifurcations

Research Associate Professor

CHING, RANDAL PRESTON; PhD, 1992, UNIVERSITY OF WASHINGTON; orthopaedic biomechanisms related to

injury prevention, injury mechanisms and injury repair
DAHL, PETER H.; PhD, 1989, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; underwater acoustics; sound scattering from the sea surface, bubbles, marine life
SANDWITH, COLIN J; PhD, 1966, OREGON STATE UNIVERSITY; corrosion, material science, design, manufacturing.

Research Assistant Professor

WANG, WEI-CHIH; PhD, 1996, UNIVERSITY OF WASHINGTON; MEMS, fiber optic sensors, biomedical instrumentation, flexible sensors and actuators

Technical Communication

Professor

BEREANO, PHIL; JD, 1965, COLUMBIA UNIVERSITY; MRP, 1971, CORNELL UNIVERSITY; technology assessment, social values, public policy technology: social values, citizen participation
CONEY, MARY B; PhD, 1973, UNIVERSITY OF WASHINGTON; writing style and theories of technical communication, rhetoric
HASELKORN, MARK P; PhD, 1977, UNIVERSITY OF MICHIGAN; real-time information systems, human/machine interaction, the computer in technical communication
RAMEY, JUDITH A; PhD, 1983, UNIVERSITY OF TEXAS (AUSTIN); computer documentation, online documentation,

user interface design and usability testing
WHITE, MYRON; PhD, 1958, UNIVERSITY OF WASHINGTON; technical editing, publications management, bibliography for document design

Associate Professor

WILLIAMS, THOMAS R; PhD, 1988, UNIVERSITY OF WASHINGTON; text and visual information processing, document design, interactive multimedia

Lecturer

KATO, MASASHI; MA, 1980, UNIVERSITY OF WASHINGTON; technology-enhanced instruction, distance learning, research methods, international communication

College of Forest Resources

Professor

AGEE, JAMES K; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); management of natural systems, forest ecology, fire ecology
 AMMIRATI, JOSEPH F; PhD, 1972, UNIVERSITY OF MICHIGAN; mycology, taxonomy and ecology of fungi
 BARE, B BRUCE; PhD, 1969, PURDUE UNIVERSITY; forest land management and valuation, taxation, finance, management science
 BRADLEY, GORDON A; PhD, 1986, UNIVERSITY OF MICHIGAN; forest land use planning, Conservation area planning and design
 BRIGGS, DAVID G; PhD, 1980, UNIVERSITY OF WASHINGTON; operations research in forest products industries
 BRUBAKER, LINDA B; PhD, 1973, UNIVERSITY OF MICHIGAN; dendro-chronology, forest ecology, quaternary paleoecology.
 BRYANT, BENJAMIN S; Doctor of Forestry, 1951, YALE UNIVERSITY; wood utilization technology, wood gluing, plywood and board technology
 COLE, DALE W; PhD, 1963, UNIVERSITY OF WASHINGTON; forest soils, mineral cycling in forest ecosystems
 CONQUEST, LOVEDAY L; PhD, 1975, UNIVERSITY OF WASHINGTON; statistics in forestry, fisheries, and environmental pollution monitoring
 CUNDY, TERRANCE W; PhD, 1983, UTAH STATE UNIVERSITY; hillslope hydrology and watershed management
 DOWDLE, BARNEY; PhD, 1962, YALE UNIVERSITY; development of forest products industries, public forest land management
 DRIVER, CHARLES H; PhD, 1954, LOUISIANA STATE UNIVERSITY; processes of wood decay, forest diseases, range ecology
 EASTIN, IVAN; PhD, 1992, UNIVERSITY OF WASHINGTON; marketing strategies and international trade of forest products
 EDMONDS, ROBERT L; PhD, 1971, UNIVERSITY OF WASHINGTON; forest soil microbiology, biology of forest diseases, aerobiology
 EWING, KERN; PhD, 1982, UNIVERSITY OF WASHINGTON; wetland plant ecology, restoration ecology, ecosystem management
 FRANKLIN, JERRY F.; PhD, 1966, WASHINGTON STATE UNIVERSITY; forest ecosystem analysis, vegetation patterns, tree mortality in natural landscapes
 FRITSCHEN, LEO J; PhD, 1960, IOWA STATE UNIVERSITY; biometeorology, micrometeorology, measurement and instrumentation of the environment
 GARA, ROBERT I; PhD, 1964, OREGON STATE UNIVERSITY; bark beetle, forest

insect ecology, forest insect behavior, international forestry
 GUSTAFSON, RICHARD ROY; PhD, 1982, UNIVERSITY OF WASHINGTON; process modeling and optimization, fiber composites
 HANLEY, DONALD P; PhD, 1981, UNIVERSITY OF IDAHO; extension forestry, small-forest management, forestry continuing education
 HARRISON, ROBERT B.; PhD, 1985, AUBURN UNIVERSITY; soil chemistry and fertility, mineral cycling, carbon sequestration, long-term forest productivity
 HATHEWAY, WILLIAM H; PhD, 1956, HARVARD UNIVERSITY; quantitative ecology, physiological ecology, tropical forestry
 HODGSON, KEVIN T; PhD, 1986, UNIVERSITY OF WASHINGTON; surface and colloid science, papermaking chemistry, secondary fiber recycling
 HRUTFIORD, BJORN F; PhD, 1959, UNIVERSITY OF NORTH CAROLINA; wood extractive chemicals, air and water quality in forest products industries
 LEE, ROBERT G; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); natural resource sociology, multiresource management, development/change of forestry institutions
 LIPPKE, BRUCE R; MSEE, 1959, NEW MEXICO STATE UNIVERSITY; MIE, 1966, UNIVERSITY OF CALIFORNIA (BERKELEY); international trade and environmental linkages, investment analysis, economics of forest industry
 MARZLUFF, JOHN M.; PhD, 1987, NORTHERN ARIZONA UNIVERSITY; behavior, ecology, and conservation of birds and mammals
 MCKEAN, WILLIAM T; PhD, 1968, UNIVERSITY OF WASHINGTON; pulp and paper science, chemical engineering
 OLIVER, CHADWICK D; PhD, 1975, YALE UNIVERSITY; silviculture and forest ecology, culture of single- and mixed-species forest stands
 PEREZ-GARCIA, JOHN; MS, 1982, MAYAGUEZ (PUERTO RICO); Doctor of Forestry, 1991, YALE UNIVERSITY; forest economics, analysis of trade policy, global trade modeling, climatic change, carbon cycling
 PETERSON, DAVID L; PhD, 1980, UNIVERSITY OF ILLINOIS; mountain ecology, subalpine forests, global climate change, forest ecology
 PICKFORD, STEWART G; PhD, 1972, UNIVERSITY OF WASHINGTON; forest fire science, wildland fire management
 RICHEY, JEFFREY E; PhD, 1973, UNIVERSITY OF CALIFORNIA (DAVIS); quantitative problems of aquatic ecosystems, primary Amazon River, limnology

SCHIESS, PETER; PhD, 1975, UNIVERSITY OF WASHINGTON; forest engineering, mechanized harvest and thinning operations, forest road design and construction
 SCHREUDER, GERARD FRITZ; PhD, 1968, YALE UNIVERSITY; statistical analysis in resource economics, international forestry, trade, aerial photos
 SKALSKI, JOHN R.; PhD, 1985, CORNELL UNIVERSITY; population estimation, environmental statistics and sampling, effects assessment
 SPRUGEL, DOUGLAS GEORGE; PhD, 1974, YALE UNIVERSITY; forest ecology, tree ecophysiology, natural disturbance
 STEINEMANN, ANNE; PhD, 1993, STANFORD UNIVERSITY; Water, Drought, Environment, Climate Change, Health, Chemical Exposures, Public Economics, Sustainability
 STETTLER, REINHARD F.; PhD, 1963, UNIVERSITY OF CALIFORNIA (BERKELEY); genetics of forest tree populations, biotechnology, biomass production
 TABER, RICHARD D; PhD, 1951, UNIVERSITY OF CALIFORNIA (BERKELEY); biology and conservation of free-living birds and mammals, wildlife and human culture.
 THOMAS, DAVID P; MA, 1948, UNIVERSITY OF WASHINGTON; economics and technology of utilizing forest crops
 THORUD, DAVID B; PhD, 1964, UNIVERSITY OF MINNESOTA; watershed management, international forest policy and development
 TUKEY, HAROLD B; PhD, 1958, MICHIGAN STATE UNIVERSITY; urban horticulture, horticultural physiology
 VAN VOLKENBURGH, ELIZABETH; PhD, 1980, UNIVERSITY OF WASHINGTON; leaf growth and development, photobiology and electrophysiology
 WAGGENER, THOMAS R; PhD, 1966, UNIVERSITY OF WASHINGTON; policy and economics, regional impact analysis, international trade in forest products
 WEST, STEPHEN D; PhD, 1979, UNIVERSITY OF CALIFORNIA (BERKELEY); vertebrate wildlife ecology and conservation
 WISSMAR, ROBERT C; PhD, 1972, UNIVERSITY OF IDAHO; freshwater ecosystems, fish ecology, and trophic dynamics; river restoration
 WOTT, JOHN A; PhD, 1968, CORNELL UNIVERSITY; public horticulture, horticultural education, public gardens and administration, urban horticulture

Research Professor

BOOTH, DEREK B; PhD, 1984, UNIVERSITY OF WASHINGTON; Environmental

geology, particularly human influences on hillslopes, runoff, and rivers.
 HALPERN, CHARLES; PhD, 1987, OREGON STATE UNIVERSITY; plant community ecology, plant succession, effects of forest management on plant diversity
 STRAND, STUART E; PhD, 1982, PENNSYLVANIA STATE UNIVERSITY; forest biotechnology, environmental pollution control

Associate Professor

CHALKER-SCOTT, LINDA; PhD, 1988, OREGON STATE UNIVERSITY; environmental stress physiology of woody plants
 GOLD, WARREN G.; PhD, 1988, UTAH STATE UNIVERSITY; BIOLOGY, BOTANY AND PLANT ECOLOGY
 GRUE, CHRISTIAN E; PhD, 1977, TEXAS A&M UNIVERSITY; wildlife toxicology, wildlife science
 PAUN, DOROTHY A; PhD, 1993, UNIVERSITY OF OREGON; financial performance analyses; international countertrade; business-to-business relationships

REICHARD, SARAH E.; PhD, 1994, UNIVERSITY OF WASHINGTON; conservation biology of plants, biological invasions
 ROBERTSON, IAIN M; MLA, 1975, UNIVERSITY OF PENNSYLVANIA; designing with plants, planning and design of botanical gardens/arborescences
 RUSTAGI, KRISHNA P; PhD, 1973, YALE UNIVERSITY; operations research and statistical applications in resource management, forest inventory, growth and yield
 RYAN, CLARE; PhD, 1996, UNIVERSITY OF MICHIGAN; natural resource policy and administration, environmental conflict management, water policy
 TURNBLOM, ERIC; PhD, 1994, UNIVERSITY OF MINNESOTA; forest growth modeling, quantitative stand dynamics, biometrics and natural resources inventory
 VANBLARICOM, GLENN R.; PhD, 1978, UNIVERSITY OF CALIFORNIA (SAN DIEGO); marine wildlife, community ecology

Research Associate Professor

HORNER, RICHARD R.; PhD, 1978, UNIVERSITY OF WASHINGTON; Effects of human activities on water resources in urban areas.
 RAEDEKE, KENNETH J; PhD, 1979, UNIVERSITY OF WASHINGTON; wildlife biology and conservation, population dynamics, ungulate ecology, international conservation

Research Assistant Professor

DOTY, SHARON L; PhD, 1995, UNIVERSITY OF WASHINGTON; Molecular biology of pollutant degradation by plants (ie. Phytoremediation)

Lecturer

HENRY, CHARLES L; PhD, 1989, UNIVERSITY OF WASHINGTON; ecological restoration, recycling organic wastes as soil amendments, sustainable resources and infrastructure

The Information School

Professor

BENNE, MAE M; MS, 1955, UNIVERSITY OF ILLINOIS; children's literature, public library services for children
 BORNING, ALAN H; PhD, 1979, STANFORD UNIVERSITY; human-computer interaction; constraint-based languages and systems
 BORRIELLO, GAETANO; PhD, 1988, UNIVERSITY OF CALIFORNIA (BERKELEY); invisible and ubiquitous computing, embedded and network systems
 BRUCE, HARRY; PhD, 1996, UNIVERSITY OF NEW SOUTH WALES(AUSTRALIA); human factors in information and communication technology
 EISENBERG, MICHAEL.; PhD, 1986, SYRACUSE UNIVERSITY; information problem-solving; use of information and information technology; information science
 FIDEL, RAYA; PhD, 1982, UNIVERSITY OF MARYLAND; information systems, systems analysis, user interaction, classification research
 FULLER, SHERRILYNNE S00; PhD, 1984, UNIVERSITY OF SOUTHERN CALIFORNIA; Analysis, representation and mapping of research findings (data mining.)
 GRUDIN, JONATHAN T.; PhD, 1981, UNIVERSITY OF CALIFORNIA (SAN DIEGO); computer-supported cooperative work, collaboration technologies, human-computer interaction
 HAZELTON, PENELOPE A; JD, 1975, LEWIS AND CLARK COLLEGE; MLL, 1976, UNIVERSITY OF WASHINGTON; law librarianship, legal bibliography, computer-assisted legal research, law, Indian law
 HIATT, PETER; PhD, 1963, RUTGERS UNIVERSITY; adult services, special populations, library education, staff development, continuing education
 LEVY, DAVID M; PhD, 1979, STANFORD UNIVERSITY; nature of documents and the tools and practices through which they are created and used
 SHAW, SPENCER G; BLS, 1941, UNIVERSITY OF WISCONSIN; librarianship

Associate Professor

BROOKS, TERRENCE A; PhD, 1981, UNIVERSITY OF TEXAS (AUSTIN); interest scripting and programming, Web page design, post-alphabetic information designs
 CARLYLE, ALLYSON; PhD, 1994, UNIVERSITY OF CALIFORNIA (LOS ANGELES); online catalog use and design, conceptual foundations of descriptive cataloging
 FISHER, KAREN E; PhD, 1998, WESTERN ONTARIO UNIVERSITY (CANADA); information behavior
 JANES, JOSEPH W.; PhD, 1989, SYRACUSE UNIVERSITY; evolution of models of practice of digital reference
 JOHNSON, RONALD A.; MA, 1972, UNIVERSITY OF CHICAGO; MS, 1975, UNIVERSITY OF SOUTHERN CALIFORNIA; information sciences
 KAHN, PETER H.; PhD, 1988, UNIVERSITY OF CALIFORNIA (BERKELEY); Social and Moral Development. Information, Technology, and Nature
 METOYER, CHERYL; PhD, 1976, INDIANA UNIVERSITY; Information seeking in ethnic communities and information resources in Native American communities.
 MIGNON, EDMOND; PhD, 1976, UNIVERSITY OF CALIFORNIA (BERKELEY); information retrieval, bibliographic organization, information studies, methods of research
 SKELLEY, GRANT T; PhD, 1968, UNIVERSITY OF CALIFORNIA (BERKELEY); bibliography and reference, subject literature, history of the book
 SUTTON, STUART A; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); metadata and networked information discovery and retrieval, law and policy of intellectual property

Research Associate Professor

FOX, LOUIS B; MA, 1985, UNIVERSITY OF WASHINGTON; information technology & community development; teaching, learning, & technology; broadband applications

JONES, WILLIAM P.; PhD, 1982, CARNEGIE MELLON UNIVERSITY; personal information management, human factors in information and communication technology

Assistant Professor

MAI, JENS-ERIK; PhD, 2000, UNIVERSITY OF TEXAS (AUSTIN); philosophy, theory and practice of organization and representation of information
 NELSON, JEROLD A; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); interpersonal relations in libraries, intellectual freedom.
 SAXTON, MATTHEW; PhD, 2000, UNIVERSITY OF CALIFORNIA (LOS ANGELES); evaluation of information services, intermediation, collection management, information competencies
 SCHOLL, HANS JOCHEN; PhD, 2002, STATE UNIVERSITY OF NEW YORK (ALBANY); E-Government; Information Management; Organizational Learning; Action Research; System Dynamics
 SOPER, MARY E; PhD, 1972, UNIVERSITY OF ILLINOIS; technical services, organization of library materials, cataloging, subject analysis.

Lecturer

BARKER, SCOTT F; MS, 1987, SYRACUSE UNIVERSITY; computer networks, Internet applications, information management
 BRUCE, LORRAINE; Graduate Diploma, 1986, CHARLES STEWART UNIVERSITY (AUSTRALIA); information literacy, instructional training strategies for information professionals
 HILL, TRENT G.; PhD, 1994, DUKE UNIVERSITY; Knowledge organization; Information behavior; Popular music
 HOTCHKISS, MARY A; JD, 1983, GEORGE WASHINGTON UNIVERSITY; LLM, 1985, GEORGE WASHINGTON UNIVERSITY; legal research, writing, and analysis

School of Law

Professor

ALLEN, CRAIG H.; JD, 1989, UNIVERSITY OF WASHINGTON; marine affairs, evidence, environmental regulation

ANDREWS, THOMAS R.; MA, 1973, NORTHWESTERN UNIVERSITY; JD, 1979, UNIVERSITY OF PENNSYLVANIA; professional responsibility in legal practice, community property, decedents' estates, torts, proper

ARONSON, ROBERT H.; JD, 1973, UNIVERSITY OF PENNSYLVANIA; evidence, criminal law, professional responsibility, law and literature

BODANSKY, DANIEL; JD, 1984, YALE UNIVERSITY; international law, international environmental and human rights law, civil procedure

CALANDRILLO, STEVE P.; JD, 1998, HARVARD UNIVERSITY; law & economics, contract law, law & medicine, secured transactions

CLARKE, DONALD C.; MSC, 1983, UNIVERSITY OF LONDON; KING'S COLLEGE (UK); JD, 1987, HARVARD UNIVERSITY; China, modern Chinese law, corporations and business associations, international trade law

EMORY, MEADE; LLM, 1962, BOSTON UNIVERSITY; federal taxation

FLETCHER, ROBERT L.; LLB, 1947, STANFORD UNIVERSITY; property

HAZELTON, PENELOPE A.; JD, 1975, LEWIS AND CLARK COLLEGE; MLL, 1976, UNIVERSITY OF WASHINGTON; law librarianship, legal bibliography, computer-assisted legal research, law, Indian law

HICKS, GREGORY A.; JD, 1978, UNIVERSITY OF TEXAS (AUSTIN); property, environmental law, water law, public lands

HJORTH, ROLAND L.; LLB, 1961, NEW YORK UNIVERSITY; transnational tax, Common Market, federal taxation

HUSTON, JOHN; JD, 1952, UNIVERSITY OF WASHINGTON; LLM, 1955, NEW YORK UNIVERSITY; federal taxation

JAY, STEWART M.; JD, 1976, HARVARD UNIVERSITY; constitutional law, legal history, legal philosophy, federal courts

JECKER, NANCY A.S.; PhD, 1986, UNIVERSITY OF WASHINGTON; philosophical and ethical aspects of health care delivery and policy

KELLY, LISA A.; JD, 1982, UNIVERSITY OF PENNSYLVANIA; Child Welfare, Juvenile Justice, Education, Poverty, Family, Interdisciplinary work, DV, Race

KUMMERT, RICHARD O.; MBA, 1955, NORTHWESTERN UNIVERSITY; LLB, 1961, STANFORD UNIVERSITY; business planning, corporations, federal tax

KUSZLER, PATRICIA CAROL; MD, 1978, MAYO MEDICAL SCHOOL/GRADUATE SCHOOL; JD, 1991, YALE UNIVERSITY; law and medicine: health-care

finance and regulation, medical malpractice, biotechnology and law

LOFTUS, ELIZABETH F.; PhD, 1970, STANFORD UNIVERSITY; cognition, memory, eye-witness testimony, psychology and law

MARANVILLE, DEBORAH; JD, 1975, HARVARD UNIVERSITY; Civil Clinic, unemployment law, feminist legal theory

MORRIS, ARVAL; JD, 1955, UNIVERSITY OF COLORADO (BOULDER); LLM, 1958, YALE UNIVERSITY; LLD, 1972, COLORADO COLLEGE; constitutional law, jurisprudence

NICOLAS, PETER; MPP, 1992, UNIVERSITY OF MICHIGAN; JD, 1999, HARVARD UNIVERSITY; evidence, federal jurisdiction, choice-of-law, sexual orientation law

OLSWANG, STEVEN G.; PhD, 1977, UNIVERSITY OF WASHINGTON; law and education

PECK, CORNELIUS J.; LLB, 1949, HARVARD UNIVERSITY; administrative law, labor law, torts

RIEKE, LUVERN V.; LLM, 1953, UNIVERSITY OF CHICAGO; LLD, 1959, PACIFIC LUTHERAN UNIVERSITY; contracts, domestic relations

RODGERS, WILLIAM H.; LLB, 1965, COLUMBIA UNIVERSITY; legislation, environmental law, resource management, property

ROMBAUER, MARJORIE D.; LLB, 1960, UNIVERSITY OF WASHINGTON; creditor and debtor, personal property

SMITH, CHARLES Z.; JD, 1955, UNIVERSITY OF WASHINGTON; evidence, judicial administration

SMITH, FRANK W.; JD, 1962, UNIVERSITY OF RICHMOND; LLM, 1968, HARVARD UNIVERSITY; commercial law, bankruptcy, real property security

STOEBUCK, WILLIAM B.; MA, 1953, INDIANA UNIVERSITY; JD, 1959, UNIVERSITY OF WASHINGTON; SJD, 1973, HARVARD UNIVERSITY; property, land use, legal history

TAKENAKA, TOSHIKO; PhD, 1992, UNIVERSITY OF WASHINGTON; U.S. patent and intellectual property law; international and comparative intellectual property law

VAUGHN, LEA B.; JD, 1978, UNIVERSITY OF MICHIGAN; labor law, alternate dispute resolution, civil procedure

WINN, JANE K.; JD, 1987, HARVARD UNIVERSITY; Electronic commerce, commercial & trade & comparative law: China, European Union; law & development

WOLCHER, LOUIS E.; JD, 1973, HARVARD UNIVERSITY; contracts, critical legal studies, torts, remedies, philosophy of law

Associate Professor

BOXX, KAREN E.; JD, 1983, UNIVERSITY OF WASHINGTON; decedents' estates, community property

DONALDSON, SAMUEL A.; JD, 1993, UNIVERSITY OF ARIZONA; LLM, 1994, UNIVERSITY OF FLORIDA; taxation

GOMULKIEWICZ, ROBERT W.; MA, 1987, UNIVERSITY OF WASHINGTON; JD, 1987, UNIVERSITY OF WASHINGTON; intellectual property, computer law, licensing

KIRTLEY, ALAN; JD, 1972, INDIANA UNIVERSITY; negotiation, mediation, alternative dispute resolution generally, and clinical legal education

RAMASASTRY, ANITA G.; MA, 1989, UNIVERSITY OF SYDNEY (AUSTRALIA); JD, 1992, HARVARD UNIVERSITY; commercial law, legal history, contracts, non-profit organizations

WALSH, WALTER J.; LLM, 1989, YALE UNIVERSITY; torts, legal history, European community, constitutional law

Research Associate Professor

RIVIN, BETH E.; MD, 1982, EAST CAROLINA UNIVERSITY; MPH, 1985, HARVARD UNIVERSITY; Health and Human Rights

Assistant Professor

ANDERSON, HELEN A.; JD, 1984, UNIVERSITY OF WASHINGTON; legal research, writing, and analysis

COVINGTON, WILLIAM EDWARD; JD, 1977, UNIVERSITY OF MICHIGAN; How legislative and regulatory processes impact technology driven organizations

MASTROIANNI, ANNA C.; JD, 1986, UNIVERSITY OF PENNSYLVANIA; MPH, 1997, UNIVERSITY OF WASHINGTON; Law, ethics and policy genetics, reproduction, human subjects research

MCMURTRIE, JACQUELINE; JD, 1983, UNIVERSITY OF MICHIGAN; criminal law and practice, wrongful convictions, clinical legal education

O'CONNOR, SEAN M.; MA, 1995, ARIZONA STATE UNIVERSITY; JD, 1998, STANFORD UNIVERSITY; intellectual property; business & securities law; biotechnology law

ROBINSON-DORN, MICHAEL JAY; JD, 1991, CORNELL UNIVERSITY; Environmental/natural resource law, biodiversity, sustainability, transboundary pollution, fisheries

WHITENER, RON; JD, 1994, UNIVERSITY OF WASHINGTON; Federal Indian Law; Indian Treaty Rights; Tribal Law and Indigenous Justice Systems

Lecturer

GOLD, JULIA ANN; JD, 1983, UNIVERSITY OF SOUTH CAROLINA; alternative dispute resolution, mediation

HOTCHKISS, MARY A; JD, 1983, GEORGE WASHINGTON UNIVERSITY; LLM, 1985, GEORGE WASHINGTON UNIVERSITY; legal research, writing, and analysis

MCGINNIS, KATHLEEN M.; JD, 1984, UNIVERSITY OF CALIFORNIA (BERKELEY); legal research, writing and analysis

School of Medicine

Anesthesiology

Professor

BASHEIN, GERARD; PhD, 1969, CARNEGIE MELLON UNIVERSITY; automation techniques in anesthesia, transesophageal ultrasonic cardiac assesment

DOMINO, KAREN B.; MA, 1974, UNIVERSITY OF NEW MEXICO; MD, 1978, UNIVERSITY OF MICHIGAN; neuroanesthesia.

FREUND, PETER; MA, 1971, BROWN UNIVERSITY; MD, 1975, COLUMBIA UNIVERSITY; temperature regulation, vasomotor control, physiology/biophysics

GEIDUSCHEK, JEREMY M; MD, 1983, VANDERBILT UNIVERSITY; pediatric anesthesiology

HABERKERN, CHARLES M.; MD, 1974, COLUMBIA UNIVERSITY; anesthesiology.

HORNBEIN, THOMAS F; MD, 1956, WASHINGTON UNIVERSITY; physiology, biophysics

LAM, ARTHUR M; MD, 1974, WESTERN ONTARIO UNIVERSITY (CANADA); neuroanesthesia.

LOESER, JOHN D; MD, 1961, NEW YORK UNIVERSITY; pain, neurophysiology.

LYNN, ANNE; MD, 1975, STANFORD UNIVERSITY; pediatric anesthesiology

MACKIE, KENNETH P; MD, 1984, YALE UNIVERSITY; molecular and cell biological studies of cannabinoid receptor signaling

MARTIN, LYNN D; MD, 1982, UNIVERSITY OF WASHINGTON; pediatric anesthesiology

OTTO, CATHERINE M.; BA, 1975, REED COLLEGE; MD, 1979, UNIVERSITY OF WASHINGTON; cardiology

OXORN, DONALD C.; MD, 1978, MCGILL UNIVERSITY (CANADA); trauma and critical care

PEARLMAN, ALAN S; MD, 1970, HARVARD UNIVERSITY; cardiology

READY, L. BRIAN; MD, 1967, UNIVERSITY OF SASKATCHEWAN (CANADA); pain management

ROOKE, G. ALEC; MD, 1980, UNIVERSITY OF WASHINGTON; cardiac anesthesia.

SIVARAJAN, MURALI; MBBS, 1967, JAWAHARLAL INST OF POSTGR MED EDUC & RES; Transesophageal echocardiography, anesthesia education, peer evaluation of teaching

TURK, DENNIS C; PhD, 1978, UNIVERSITY OF WATERLOO (CANADA); pain control/psychology

UNADKAT, JASHVANT D; PhD, 1982, UNIVERSITY OF MANCHESTER (UK); mechanisms of transport of anti-HIV drugs across placenta, CSF-blood barrier, and intestine

ZIMMERMAN, JERRY J.; PhD, 1975, UNIVERSITY OF WISCONSIN; critical-care medicine

Research Professor

BYERS, MARGARET R; PhD, 1969, HARVARD UNIVERSITY; sensory neurobiology, neurocytochemistry, and neuropathologic reactions; neuroimmune interactions

SU, JUDY Y; PhD, 1968, UNIVERSITY OF WASHINGTON; physiological effects of anesthetic drugs

Associate Professor

DEEM, STEVEN A.; MD, 1984, SOUTHERN ILLINOIS UNIVERSITY; critical care

DUNBAR, PETER J.; MBChB, 1978, UNIVERSITY OF ABERDEEN (UK); pain management

EDWARDS, WILLIAM T.; PhD, 1968, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; pain management

EGAN, KELLY J; PhD, 1980, UNIVERSITY OF WASHINGTON; clinical psychology.

FITZGIBBON, DERMOT R.; MBChB, 1983, CORK REGIONAL HOSPITAL; pain management

JARDINE, DAVID; MD, 1980, JOHNS HOPKINS UNIVERSITY; pediatric anesthesiology

KARL, HELEN W.; MD, 1976, UNIVERSITY OF VIRGINIA; pediatric anesthesiology

ORR, ROSEMARY J; MBChB, 1967, QUEEN'S UNIVERSITY OF BELFAST (IRELAND); pediatric anesthesiology

RAPP, SUZANNE E; MD, 1981, UNIVERSITY OF WASHINGTON; pain management

SCHENKMAN, KENNETH A.; MD, 1986, INDIANA UNIVERSITY; pediatric anesthesia

SOUTER, KAREN J.; MBBS, 1985, ST BARTHOLOMEW'S HOSP MED SCHOOL (UK); MS, 1999, UNIVERSITY OF EAST ANGLIA (UK); Education in Anesthesiology

TREGGIARI, MIRIAM; MPH, 1990, UNIVERSITY OF PAVIA (ITALY); MD, 1999, UNIVERSITY OF GENEVA (SWITZERLAND); MPH, 2002, UNIVERSITY OF WASHINGTON; Critical Care Medicine: Acute Lung Injury, Subarachnoid Hemorrhage, sedation, Clinical Epidemiology

VAVILALA, MONICA S.; MD, 1991, UNIVERSITY OF TEXAS (HOUSTON); pediatric pain management

Assistant Professor

AMUNDSEN, LAURIE B.; MD, 1987, UNIVERSITY OF WISCONSIN; resident education

DAVIES, JOANNA M.; MBBS, 1991, LONDON HOSPITAL MEDICAL COLLEGE (UK); Obstetric anesthesia, regional anesthesia and acute pain management

DEMBO, GREGORY; MD, 1978, LENINGRAD UNIVERSITY (RUSSIA); Anesthesia for the Liver transplantation surgery

ERJAVEC, MIKLAVZ K.; MD, 1985, DALHOUSIE UNIVERSITY (CANADA); pain management

KUNDU, ANJANA; MD, 2002, MEDICAL COLLEGE OF WISCONSIN; Pediatric pain management

NATRAJAN, KRISHNA M.; MBBS, 1971, UNIVERSITY OF MADRAS (INDIA); pediatric anesthesia and transesophageal cardiac echocardiography

RUBENS, DANIEL D; MBBS, 1992, UNIVERSITY OF NEW SOUTH WALES(AUSTRALIA); Sudden Infant Death Syndrome, Landscape & Nature Photography, The psychology of conflict resolution

YAGER, ELAINE M.; MD, 1990, UNIVERSITY OF WASHINGTON; pain management

Biochemistry

Professor

BAKER, DAVID; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); protein folding, genomics

BORNSTEIN, PAUL; MD, 1958, NEW YORK UNIVERSITY; structure and function of connective tissue macromolecules, wound healing

CHAMBERLAIN, JEFFREY S; PhD, 1985, UNIVERSITY OF WASHINGTON; neurogenetics, Duchennes muscular dystrophy

COOPER, JONATHAN A.; PhD, 1976, UNIVERSITY OF WARWICK (UK); regulation of cellular metabolism and proliferation by protein phosphorylation

DAGGETT, VALERIE D.; PhD, 1990, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); molecular modelling studies of peptides and proteins

DALE-CRUNK, BEVERLY A.; PhD, 1968, UNIVERSITY OF MICHIGAN; keratin biochemistry, epithelial differentiation, antimicrobial peptides

DAVIE, EARL WARREN; PhD, 1954, UNIVERSITY OF WASHINGTON; protein synthesis, mechanism of blood clotting, cloning of plasma proteins.

DAVIS, TRISHA NELL; PhD, 1983, YALE UNIVERSITY; control of the cell cycle, chromosome segregation, proteomics

EISENMAN, ROBERT M; PhD, 1971, UNIVERSITY OF CHICAGO; viral

oncology, oncogenes, retrovirus multiplication
 EYRE, DAVID R.; PhD, 1969, UNIVERSITY OF LEEDS (UK); connective tissue biology, collagen chemistry, bone and cartilage metabolism
 FISCHER, EDMOND H.; PhD, 1947, UNIVERSITY OF GENEVA (SWITZERLAND); relationship of protein structure to enzyme activity, hormonal regulation of metabolic processes
 GELB, MICHAEL H.; PhD, 1982, YALE UNIVERSITY; mechanistic enzymology, bioorganic and medicinal chemistry
 GLOMSET, JOHN A.; MD, 1960, UNIVERSITY OF UPPSALA (SWEDEN); membrane structure and function
 HAHN, STEVEN M.; PhD, 1984, BRANDEIS UNIVERSITY; transcription initiation in yeast
 HAUSCHKA, STEPHEN D.; PhD, 1966, JOHNS HOPKINS UNIVERSITY; regulation of skeletal muscle differentiation, growth factor-receptor signaling mechanisms
 HOL, WILHELMUS G.J.; PhD, 1971, UNIVERSITY OF GRONINGEN (NETHERLANDS); protein crystallography, drug design, vaccine development, and protein engineering
 HURLEY, JAMES BRYANT; PhD, 1979, UNIVERSITY OF ILLINOIS; molecular basis of vision
 JENSEN, LYLE H.; PhD, 1943, UNIVERSITY OF WASHINGTON; molecular structure, x-ray diffraction
 KIMELMAN, DAVID; PhD, 1985, HARVARD UNIVERSITY; molecular biology of early development in the frog, *Xenopus laevis*, and the fish, *Danio rerio*
 KLEVIT, RACHEL E.; DPhil, 1981, OXFORD UNIVERSITY (UK); protein structure and function; molecular recognition; protein NMR
 KREBS, EDWIN G.; MD, 1943, WASHINGTON UNIVERSITY; intracellular signaling mechanisms involving protein phosphorylation
 LOEB, LAWRENCE A.; PhD, 1967, UNIVERSITY OF CALIFORNIA (BERKELEY); DNA replication, cancer and AIDS
 MAIZELS, NANCY; PhD, 1974, HARVARD UNIVERSITY; recombination and repair in mammalian cells, especially activated B cells
 MORRIS, DAVID R.; PhD, 1964, UNIVERSITY OF ILLINOIS; regulation of growth in eukaryotes and prokaryotes, translational control
 PALMITER, RICHARD D.; PhD, 1968, STANFORD UNIVERSITY; regulation of gene expression in transgenic mice
 PARSON, WILLIAM W.; PhD, 1965, CASE WESTERN RESERVE UNIVERSITY; bioenergetics, with particular emphasis on photosynthesis, picosecond spectroscopy
 PETRA, PHILIP H.; PhD, 1966, TULANE UNIVERSITY; reproductive biochemistry
 ROBERTS, JAMES MICHAEL; PhD, 1984,

COLUMBIA UNIVERSITY; regulation of DNA replication by cyclin-kinase complexes
 ROTH, MARK; PhD, 1988, UNIVERSITY OF COLORADO (BOULDER); nuclear proteins involved in the regulation of gene expression
 RUOHOLA-BAKER, HANNELE; PhD, 1989, HELSINKI UNIVERSITY (FINLAND); oogenesis, developmental genetics
 RUSSELL, DAVID WILLIAM; PhD, 1988, ROCKEFELLER UNIVERSITY; hematology
 SAARI, JOHN C.; PhD, 1970, UNIVERSITY OF WASHINGTON; retinal biochemistry
 SHAPIRO, BENNETT M.; MD, 1964, JEFFERSON MEDICAL COLLEGE; molecular basis of reproduction
 STENKAMP, RONALD E.; PhD, 1975, UNIVERSITY OF WASHINGTON; crystallography, metalloproteins, protein engineering, blood clotting proteins
 STODDARD, BARRY L.; PhD, 1990, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; physical and structural studies of biological macromolecules
 STRONG, ROLAND K.; PhD, 1990, HARVARD UNIVERSITY; structural immunology: analysis of the functions of proteins mediating immune responses
 WALSH, KENNETH A.; PhD, 1959, UNIVERSITY OF TORONTO (CANADA); structure and functions of proteins, zymogens, and proteases
 YOUNG, ELTON; PhD, 1967, CALIFORNIA INSTITUTE OF TECHNOLOGY; regulation of gene activity in the yeast *Saccharomyces cerevisiae*

Research Professor

CHUNG, DOMINIC W.; PhD, 1976, UNIVERSITY OF CALIFORNIA (LOS ANGELES); factor XI deficiency, structure and function of fibrinogen
 FUJIKAWA, KAZUO; PhD, 1965, KYOTO UNIVERSITY (JAPAN); studies of blood coagulation and anionic phospholipids at thrombotic sites

Associate Professor

FERRE-D'AMARE, ADRIAN RIU; PhD, 1994, ROCKEFELLER UNIVERSITY; structural biology of RNA, X-ray crystallography, biological catalysis
 VERLINDE, CHRISTOPHE; PhD, 1988, CATHOLIC UNIVERSITY OF LEUVEN (BELGIUM); structure-based drug design and protein crystallography

Research Associate Professor

DAUM, GUENTER; PhD, 1989, UNIVERSITY OF KONSTANZ (GERMANY); cellular and molecular biology, tyrosine phosphatase and kinases
 MERRITT, ETHAN ALLEN; PhD, 1980, UNIVERSITY OF WISCONSIN; X-ray crystallography and structure-based drug design

MULLER, ERIC D.; PhD, 1981, YALE UNIVERSITY; proteomics and cell biology in yeast

Bioengineering

Professor

AEBERSOLD, RUDOLF HANS; MD, 1984, YALE UNIVERSITY; Protein biochemical investigation of signal transduction pathways.
 BAKER, DAVID; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); protein folding, genomics
 BASHEIN, GERARD; PhD, 1969, CARNEGIE MELLON UNIVERSITY; automation techniques in anesthesia, transesophageal ultrasonic cardiac assessment
 BASSINGTHWAIGHTE, JAMES; PhD, 1964, MAYO MEDICAL SCHOOL/GRADUATE SCHOOL; computer analysis of transport mechanisms in blood and tissues.
 CALDWELL, JAMES H.; MD, 1970, UNIVERSITY OF MISSOURI; positron emission tomography imaging of myocardial oxygenation, metabolism and sympathetic function
 CONLEY, KEVIN E.; PhD, 1983, UNIVERSITY OF WISCONSIN; muscle metabolism and energetics in vivo
 DAGER, STEPHEN R.; MD, 1978, UNIVERSITY OF NEBRASKA; application of functional brain imaging techniques to investigate neuropsychiatric disorders
 GIACHELLI, CECILIA; PhD, 1987, UNIVERSITY OF WASHINGTON; adhesion molecules and vascular biology processes
 GREEN, PHILIP; PhD, 1976, UNIVERSITY OF CALIFORNIA (BERKELEY); Mathematical and Computer Methods for Genome Analysis
 GUY, ARTHUR W.; PhD, 1966, UNIVERSITY OF WASHINGTON; biological effects and medical applications of electromagnetic fields
 HAYNOR, DAVID R.; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); medical image processing and segmentation; image deformation; functional MRI; expression arrays
 HLASTALA, MICHAEL P.; PhD, 1969, STATE UNIVERSITY OF NEW YORK (BUFFALO); respiratory physiology, inert gas analysis of respiratory function
 HOOD, LEROY E.; PhD, 1968, CALIFORNIA INSTITUTE OF TECHNOLOGY; molecular immunology, large-scale DNA mapping and sequencing, molecular evolution
 KALET, IRA J.; PhD, 1968, PRINCETON UNIVERSITY; computer simulation of radiation therapy, artificial intelligence, computer graphics

KATZE, MICHAEL GERALD; PhD, 1980, HAHNEMANN MEDICAL COLLEGE; regulation of viral gene expression at the translational level

LEWELLEN, THOMAS; PhD, 1972, UNIVERSITY OF WASHINGTON; bioengineering, electrical engineering

MANKOFF, DAVID A.; PhD, 1988, UNIVERSITY OF PENNSYLVANIA; HIGH COUNT RATE PET IMAGING

MATSEN, FREDERICK A.; MD, 1968, BAYLOR UNIVERSITY; orthopaedics, bone and joint research, robotics

MURRY, CHARLES E.; PhD, 1989, DUKE UNIVERSITY; myocardial infarction, heart regeneration, skeletal/cardiac muscle differentiation

NICKERSON, DEBORAH A.; PhD, 1978, UNIVERSITY OF TENNESSEE; automating the analysis of single nucleotide polymorphisms, human genetics, DNA diagnostics

POLLACK, GERALD H.; PhD, 1968, UNIVERSITY OF PENNSYLVANIA; muscular contraction

SCHWARTZ, STEPHEN MARK; PhD, 1973, UNIVERSITY OF WASHINGTON; vascular biology, atherosclerosis, molecular basis of lineage, developmental biology, cell kinetics

STAYTON, PATRICK S.; PhD, 1989, UNIVERSITY OF ILLINOIS; engineering proteins for biotechnology, biomaterials, and biomedical therapies/diagnostics

TENCER, ALLAN FRED; PhD, 1981, MCGILL UNIVERSITY (CANADA); biomechanics of joints, orthopaedic trauma implants

TRASK, BARBARA J.; PhD, 1985, UNIVERSITY OF LEIDEN (NETHERLANDS); in situ hybridization, analytical cytogenetics, analysis of large-scale DNA polymorphism

VERDUGO, PEDRO; MD, 1965, STATE UNIVERSITY OF CHILE; microrheology, biomechanics, polymer gel physics, laser spectroscopy, cell biology

YAGER, PAUL; PhD, 1980, UNIVERSITY OF OREGON; physical chemistry, applications of biomembranes, biosensors, microfluidics, biomedical diagnostic i

YUAN, CHUN; PhD, 1988, UNIVERSITY OF UTAH; magnetic resonance imaging in medical application

Research Professor

BEACH, KIRK WATSON; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); arterial disease in diabetes, blood flow studies with ultrasonic Doppler

LAI, HENRY C.; PhD, 1978, UNIVERSITY OF WASHINGTON; cellular effects of electromagnetic fields.

Associate Professor

BARRETT, PETER HUGH RUSSEL; PhD, 1989, UNIVERSITY OF ADELAIDE (AUSTRALIA); biomathematics and

modeling methodology, simulation analyses, lipid and lipoprotein metabolism

GROSS, TED S.; PhD, 1993, STATE UNIV OF NEW YORK (STONY BROOK); biomechanics

LINKER, DAVID T.; MD, 1976, STANFORD UNIVERSITY; diagnostic ultrasound in cardiology and cardiovascular pathophysiology

REGNIER, MICHAEL; PhD, 1991, UNIVERSITY OF SOUTHERN CALIFORNIA; Mechanics, kinetics and computational modeling of cardiac/skeletal muscle contraction.

SCHENKMAN, KENNETH A.; MD, 1986, INDIANA UNIVERSITY; pediatric anesthesia

VESSELLE, HUBERT J.; PhD, 1990, CASE WESTERN RESERVE UNIVERSITY; nuclear medicine

VICINI, PAOLO; PhD, 1996, POLYTECHNIC OF MILAN (ITALY); biomathematics and modeling methodology, mathematical models of biological systems

Research Associate Professor

SINGH, NARENDRA PAL; MBBS, 1972, KING GEORGE'S MEDICAL COLLEGE (INDIA); changes in human DNA with age, adverse effects of drugs and environmental chemicals on DNA

Assistant Professor

LI, ZHENG; PhD, 1995, STATE UNIVERSITY OF NEW YORK (BUFFALO); nonlinear kinetic modeling, cardiac metabolism, PET functional imaging

Biological Structure

Professor

CLARK, JOHN I.; PhD, 1974, UNIVERSITY OF WASHINGTON; biophysical and structural properties of cytoplasmic proteins, cell aging, differentiation

DACEY, DENNIS M.; PhD, 1983, UNIVERSITY OF CHICAGO; the neural basis of vision and the organization of primate retina

FARR, ANDREW G.; PhD, 1975, UNIVERSITY OF CHICAGO; cell interactions governing lymphocyte production and function

GEHRIG, JOHN D.; DDS, 1946, UNIVERSITY OF MINNESOTA; MSD, 1951, UNIVERSITY OF MINNESOTA; oral and maxillofacial surgery, biological structure

GRANEY, DANIEL O.; PhD, 1965, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); gross anatomy, electron microscopy, intestinal absorption

HENDRICKSON, ANITA E.; PhD, 1964, UNIVERSITY OF WASHINGTON; neuroanatomy, morphology and development of primate visual system

HERRING, SUSAN W.; PhD, 1971, UNIVERSITY OF CHICAGO; vertebrate functional morphology, relations between muscular function and skull growth

HOL, WILHELMUS G.J.; PhD, 1971, UNIVERSITY OF GRONINGEN (NETHERLANDS); protein crystallography, drug design, vaccine development, and protein engineering

JENSEN, LYLE H.; PhD, 1943, UNIVERSITY OF WASHINGTON; molecular structure, x-ray diffraction

KALET, IRA J.; PhD, 1968, PRINCETON UNIVERSITY; computer simulation of radiation therapy, artificial intelligence, computer graphics

KOEHLER, JAMES K.; PhD, 1961, UNIVERSITY OF CALIFORNIA (BERKELEY); electron microscope, cryobiology, reproductive biology.

PATTON, DOROTHY L.; PhD, 1981, UNIVERSITY OF WASHINGTON; infectious disease

PRESS, OLIVER W.; PhD, 1977, UNIVERSITY OF WASHINGTON; treatment of hematologic malignancies with monoclonal antibody immunoconjugates

RAIBLE, DAVID W.; PhD, 1989, UNIVERSITY OF PENNSYLVANIA; zebrafish neural development

REH, THOMAS A.; PhD, 1981, UNIVERSITY OF WISCONSIN; regeneration and development of central nervous system

ROSSE, CORNELIUS; MD, 1964, UNIVERSITY OF BRISTOL (UK); DSc, 1983, UNIVERSITY OF BRISTOL (UK); knowledge representation in anatomy

SAGE, E HELENE; PhD, 1977, UNIVERSITY OF UTAH; molecular and cell biology

SHERK, HELEN; PhD, 1978, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; neural mechanisms underlying vision, especially visual guidance during locomotion

STENKAMP, RONALD E.; PhD, 1975, UNIVERSITY OF WASHINGTON; crystallography, metalloproteins, protein engineering, blood clotting proteins

Research Professor

BASKIN, DENIS G.; PhD, 1969, UNIVERSITY OF CALIFORNIA (BERKELEY); neuroendocrinology; obesity; CNS regulation of body weight; histochemistry; expression of receptors

BRINKLEY III, JAMES F.; PhD, 1984, STANFORD UNIVERSITY; computer applications in medicine and biology

BYERS, MARGARET R.; PhD, 1969, HARVARD UNIVERSITY; sensory neurobiology, neurocytochemistry, and neuropathologic reactions; neuroimmune interactions

COOK, DANIEL L.; PhD, 1980, UNIVERSITY OF WASHINGTON; Functional bioinformatics; pancreatic b-cell electrical activity and insulin release.

REUVENI, ZIPORA; PhD, 1979, UNIVERSITY OF WINDSOR (CANADA);

myogenesis during growth development and regeneration of skeletal muscle

Associate Professor

CUNNINGHAM, MICHAEL L.; PhD, 1996, UNIVERSITY OF WASHINGTON; molecular, development, craniofacial, malformation, human, mouse, cranio-synostosis, birth defects
GADDUM-ROSSE, PENELOPE; PhD, 1965, UNIVERSITY OF LIVERPOOL (UK); reproductive biology.
HARRIS, ROGER M.; PhD, 1975, UNIVERSITY OF WASHINGTON; neuro-anatomical recovery from spinal cord injury
NAMEROFF, MARK A.; PhD, 1966, UNIVERSITY OF PENNSYLVANIA; cell differentiation.
PROTHERO, JOHN W.; PhD, 1960, WESTERN ONTARIO UNIVERSITY (CANADA); model building, morphogenesis, cell kinetics, scaling
ROBINSON, FARREL R.; PhD, 1982, BROWN UNIVERSITY; study of the cerebellum via monkey eye movements
ROELINK, HENK; PhD, 1991, UNIVERSITY OF AMSTERDAM (NETHERLANDS); role of signaling molecules in mediating neural tissue differentiation during vertebrate development
VERLINDE, CHRISTOPHE; PhD, 1988, CATHOLIC UNIVERSITY OF LEUVEN (BELGIUM); structure-based drug design and protein crystallography
XU, WENQING; PhD, 1995, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; structural studies of proteins involved in cancer, immune dysfunction and neuronal diseases

Research Associate Professor

MERRITT, ETHAN ALLEN; PhD, 1980, UNIVERSITY OF WISCONSIN; X-ray crystallography and structure-based drug design

Assistant Professor

BRODERSON, STEVAN H.; PhD, 1967, STATE UNIVERSITY OF NEW YORK (BUFFALO); lipid histochemistry.

Lecturer

MULLIGAN, KATHLEEN A.; PhD, 1985, UNIVERSITY OF NEW SOUTH WALES(AUSTRALIA); neurobiology, gross anatomy, teaching innovations, technical communication

Comparative Medicine

Professor

DENNIS, MELVIN B.; DVM, 1961, WASHINGTON STATE UNIVERSITY; comparative medicine, including animal models and experimental surgery

DI GIACOMO, RONALD F.; DVM, 1965, UNIVERSITY OF PENNSYLVANIA; MPH, 1974, UNIVERSITY OF WASHINGTON; comparative epidemiology and zoonoses

JOHNSON, DENNIS O.; DVM, 1961, UNIVERSITY OF CALIFORNIA (DAVIS); MS, 1965, OHIO STATE UNIVERSITY; comparative medicine including nonhuman primate medicine, international health

LADIGES, WARREN C.; DVM, 1971, WASHINGTON STATE UNIVERSITY; immunobiology of aging, transgenic mouse models of aging, DNA repair genes and age-associated cancer
LIGGITT, H DENNY; PhD, 1979, COLORADO STATE UNIVERSITY; using in vivo models to evaluate novel approaches for gene delivery, transgenic models

PRICE, LILLIAN M.; PhD, 1983, UNIVERSITY OF PENNSYLVANIA; t-cell development in the thymus, immunotoxicology, thymus development, retinoic acid embryopathy

RAUSCH, ROBERT L.; PhD, 1949, UNIVERSITY OF WISCONSIN; parasitology, helminthic zoonoses

VAN HOOSIER, GERALD; DVM, 1957, TEXAS A&M UNIVERSITY; laboratory animal medicine with emphasis on effects of intercurrent infection on mouse phenotypes

WOLF, NORMAN S.; PhD, 1960, NORTH-WESTERN UNIVERSITY; hematopoietic stem cell dynamics and transplantation in radiation biology

Associate Professor

BRABB, THEA L.; PhD, 1999, UNIVERSITY OF WASHINGTON; using in vivo models to understand immune tolerance and autoimmunity

GROSSMANN, ANGELIKA; PhD, 1982, FREIE UNIVERSITÄT OF BERLIN (GERMANY); immunosenescence in humans and mice; immunotoxicology; transmembrane signaling in T-lymphocytes

IRITANI, BRIAN M.; PhD, 1997, UNIVERSITY OF WASHINGTON; developmental immunology, cell signaling, oncogene function

PEKOW, CYNTHIA A.; DVM, 1984, UNIVERSITY OF ILLINOIS; comparative medicine, instruction of research staff and technicians in animal care and use

WEIGLER, BENJAMIN J.; PhD, 1991, UNIVERSITY OF CALIFORNIA (DAVIS); infectious disease epidemiology in laboratory animal medicine and management

Research Associate Professor

WARE, CAROL B.; PhD, 1986, UNIVERSITY COLLEGE (IRELAND); Multi-systemic LIF receptor function in developing and adult mice.

Family Medicine

Professor

BALDWIN, LAURA M.; MD, 1980, UNIVERSITY OF SOUTHERN CALIFORNIA; MPH, 1986, UNIVERSITY OF WASHINGTON; family medicine.

BERG, ALFRED O.; MD, 1974, WASHINGTON UNIVERSITY; MPH, 1979, UNIVERSITY OF WASHINGTON; family medicine

CARLINE, JAN D.; PhD, 1979, UNIVERSITY OF WASHINGTON; assessment of physician performance, evaluation of medical education programs

CHERKIN, DANIEL C.; PhD, 1978, UNIVERSITY OF WASHINGTON; outcomes of care for back pain and other common problems

COOMBS, JOHN B.; MD, 1972, CORNELL UNIVERSITY; Health care outcomes, rural health policy, healthcare workforce issues and applied nutrition.

CRITTENDEN, ROBERT A.; MD, 1976, UNIVERSITY OF WASHINGTON; MPH, 1987, UNIVERSITY OF WASHINGTON; health plans/policies

ELLSWORTH, ALLAN J.; PharmD, 1977, PHILADELPHIA COLL OF PHARMACY & SCIENCE; primary care, family medicine

GEYMAN, JOHN P.; MD, 1960, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); family medicine.

GLOYD, STEPHEN S.; MD, 1973, UNIVERSITY OF CHICAGO; MPH, 1983, HARVARD UNIVERSITY; political economy, epidemiology, and primary health care in developing countries

GORDON, MICHAEL J.; PhD, 1973, MICHIGAN STATE UNIVERSITY; family medicine

HART, LAWRENCE G.; PhD, 1985, UNIVERSITY OF WASHINGTON; rural health policy, medical geography

KATON, WAYNE J.; MD, 1976, UNIVERSITY OF OREGON; depression, panic disorder, somatization, adherence

LOSH, DAVID PAUL; MD, 1974, UNIVERSITY OF KANSAS; family medicine

NORRIS, THOMAS E.; MD, 1973, UNIVERSITY OF TEXAS (GALVESTON); Clinical applications, health policy and health workforce needs.

ROSENBLATT, ROGER A.; MPH, 1971, HARVARD UNIVERSITY; MD, 1971, HARVARD UNIVERSITY; research into the organization and delivery of health services, rural health policy

SCHNEEWEISS, RONALD; MBChB, 1964, UNIVERSITY OF CAPETOWN (SOUTH AFRICA); family medicine.

STEVENS, NANCY G.; MD, 1979, UNIVERSITY OF WASHINGTON; MPH, 1982, UNIVERSITY OF WASHINGTON; family medicine

SUGARMAN, JONATHAN R.; MD, 1981, ALBERT EINSTEIN COLLEGE OF

MEDICINE; MPH, 1990, UNIVERSITY OF WASHINGTON; American Indian and Alaska Native health; Health Care Quality Assessment and Improvement
WALKER, EDWARD A.; MD, 1983, UNIVERSITY OF WASHINGTON; consultation-liaison psychiatry, medically unexplained physical symptoms

Associate Professor

CHURCH, LILI LUCILLE; MD, 1985, UNIVERSITY OF IOWA; family medicine
DOBIE, SHARON A.; MCP, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); MD, 1979, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); family medicine.
DOESCHER, MARK; MD, 1989, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); family medicine, medically vulnerable populations, primary care research
ELLSBURY, KATHLEEN E.; MD, 1977, JOHNS HOPKINS UNIVERSITY; MPH, 1982, UNIVERSITY OF MISSOURI; family medicine.
FARBER, STUART J.; MD, 1974, UNIVERSITY OF WASHINGTON; patient centered communication, palliative/end-of-life care
GOLDBAUM, GARY M.; MD, 1978, UNIVERSITY OF COLORADO (DENVER); MPH, 1989, UNIVERSITY OF WASHINGTON; preventive medicine, chronic diseases prevention, injury prevention
GREER, H THOMAS; MD, 1974, UNIVERSITY OF MISSISSIPPI; MPH, 1979, UNIVERSITY OF WASHINGTON; family medicine.
HUNTINGTON, JANE; MD, 1994, UNIVERSITY OF WASHINGTON; family medicine
KIM, SARA; PhD, 1999, UNIVERSITY OF WASHINGTON; educational technology
LEVERSEE, JOHN H.; MD, 1952, UNIVERSITY OF MINNESOTA; family medicine
LYNGE, DANA C.; MD, 1985, MCGILL UNIVERSITY (CANADA); general surgery
NEIGHBOR, WILLIAM E.; MD, 1979, UNIVERSITY OF WASHINGTON; family medicine and preventive cardiology.
O'KANE, JOHN; MD, 1993, UNIVERSITY OF VERMONT; family medicine, sports medicine, team care
OLIVER, LYNN M.; MD, 1983, UNIVERSITY OF WASHINGTON; family medicine.
PINSKY, LINDA E.; MD, 1989, UNIVERSITY OF WASHINGTON; general internal medicine
ROBINS, LYNNE S.; PhD, 1990, UNIVERSITY OF MICHIGAN; cultural competence, physician-patient communication, qualitative research assessment
SAVER, BARRY G.; MA, 1978, HARVARD UNIVERSITY; MD, 1983, COLUMBIA UNIVERSITY; MPH, 1991, UNIVERSITY OF WASHINGTON; family medicine

TAYLOR, THOMAS R.; PhD, 1971, UNIVERSITY OF GLASGOW (UK); family medicine.
WRIGHT, GEORGE; PhD, 1977, UNIVERSITY OF MICHIGAN; health economics emphasizing primary care, physician competition, rural health

Assistant Professor

OSBORN, JUSTIN; MD, 1989, UNIVERSITY OF VIRGINIA; family medicine
SPIELBERG, FREYA; MD, 1992, CORNELL UNIVERSITY; MPH, 1997, UNIVERSITY OF WASHINGTON; family medicine, HIV/STD prevention, behavior change

Lecturer

LANDEL, GRACE P.; MED, 1999, UNIVERSITY OF WASHINGTON; physician assistant education
MAUKSCH, LARRY B.; MED, 1982, UNIVERSITY OF WASHINGTON; physician/patient communication, underprivileged populations, mental health/primary care integration
SCOTT, TERRY B.; PAsst, 1993, UNIVERSITY OF WASHINGTON; physician assistant education, underserved and minority population health care

Genome Sciences

Professor

BAKER, DAVID; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); protein folding, genomics
BERG, CELESTE A.; PhD, 1986, YALE UNIVERSITY; Drosophila developmental genetics: Cell communication and cell migration during oogenesis. Patternin
BLAU, CARL A.; MD, 1986, OHIO STATE UNIVERSITY; hematology
BRAUN, ROBERT ELMER; PhD, 1985, TUFTS UNIVERSITY; mammalian genetics, germ cell development and reproduction
BREWER, BONITA J.; PhD, 1979, UNIVERSITY OF WASHINGTON; replication of chromosomes, plasmids, and mitochondrial DNA in yeast
BYERS, BRECK E.; PhD, 1967, HARVARD UNIVERSITY; cell biology: mitosis and meiosis, mechanisms of nuclear division and crossing-over in yeast
BYERS, PETER H.; MD, 1969, CASE WESTERN RESERVE UNIVERSITY; extracellular matrix synthesis, genetic disorders of collagen metabolism, secretion, human genetics
EISEN, HARVEY; PhD, 1967, UNIVERSITY OF TORONTO (CANADA); host-parasite interactions, generation of genetic diversity
FELSENSTEIN, JOSEPH; PhD, 1968, UNIVERSITY OF CHICAGO; estimation of evolutionary trees, models of long-

term evolutionary processes, and theoretical popula
GALLANT, JONATHAN A.; PhD, 1961, JOHNS HOPKINS UNIVERSITY; molecular genetics, control mechanisms in bacteria, accuracy of translation
GARTLER, STANLEY M.; PhD, 1952, UNIVERSITY OF CALIFORNIA (BERKELEY); mammalian somatic cell genetics with emphasis on the mechanism of x-chromosome inactivation
GOVERMAN, JOAN M.; PhD, 1981, UNIVERSITY OF CALIFORNIA (LOS ANGELES); immune recognition and tolerance, autoimmunity, T cell development, activation, antibody diversity
GREEN, PHILIP; PhD, 1976, UNIVERSITY OF CALIFORNIA (BERKELEY); Mathematical and Computer Methods for Genome Analysis
HALL, BENJAMIN D.; PhD, 1959, HARVARD UNIVERSITY; the evolution of nuclear genes in plants and fungi
HARTWELL, LELAND H.; PhD, 1964, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; genetic analysis of chromosome transmission and of the control of division by hormones in yeast
HENIKOFF, STEVEN; PhD, 1977, HARVARD UNIVERSITY; chromosome organization, epigenetic effects, analysis of protein sequence information
HOOD, LEROY E.; PhD, 1968, CALIFORNIA INSTITUTE OF TECHNOLOGY; molecular immunology, large-scale DNA mapping and sequencing, molecular evolution
HORWITZ, MARSHALL S.; PhD, 1988, UNIVERSITY OF WASHINGTON; inherited white blood cell disorders, including leukemia
JARVIK, GAIL P.; PhD, 1986, UNIVERSITY OF MICHIGAN; quantitative genetics and genetic epidemiology, focusing on common diseases
KING, MARY-CLAIRE; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); genetic analysis of complex human phenotypes, human diversity and evolution
MANOIL, COLIN C.; PhD, 1979, STANFORD UNIVERSITY; molecular genetics, protein localization in bacteria
MONNAT, RAYMOND J.; MD, 1976, UNIVERSITY OF CHICAGO; somatic mutation, somatic cell molecular genetics, human genetic disease
MOTULSKY, ARNO G.; MD, 1947, UNIVERSITY OF ILLINOIS; medical genetics
NICKERSON, DEBORAH A.; PhD, 1978, UNIVERSITY OF TENNESSEE; automating the analysis of single nucleotide polymorphisms, human genetics, DNA diagnostics
OLSON, MAYNARD V.; PhD, 1970, STANFORD UNIVERSITY; Methods and applications of large-scale DNA analysis
OSTRANDER, ELAINE A.; PhD, 1987, OREGON HEALTH SCIENCES

UNIVERSITY; Genetic Mapping of Simple and Complex Traits
 PALMITER, RICHARD D; PhD, 1968, STANFORD UNIVERSITY; regulation of gene expression in transgenic mice
 RAIBLE, DAVID W.; PhD, 1989, UNIVERSITY OF PENNSYLVANIA; zebrafish neural development
 RASKIND, WENDY H; PhD, 1977, UNIVERSITY OF WASHINGTON; medical genetics.
 REID, BRIAN J; PhD, 1975, UNIVERSITY OF WASHINGTON; genetic and cell cycle abnormalities in neoplastic progression in Barrett's esophagus
 RUOHOLA-BAKER, HANNELE; PhD, 1989, HELSINKI UNIVERSITY (FINLAND); oogenesis, developmental genetics
 SIBLEY, CAROL HOPKINS; PhD, 1974, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); molecular parasitology and drug resistance
 SMITH, GERALD R; PhD, 1970, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; molecular biology of genetic recombination and regulation of gene expression.
 STADLER, DAVID R; PhD, 1952, PRINCETON UNIVERSITY; mutation and genetic repair in *Neurospora*.
 STAMATOYANNOPOULOS, G; MD, 1958, UNIVERSITY OF ATHENS (GREECE); DrMedSci, 1960, UNIVERSITY OF ATHENS (GREECE); medical genetics.
 THOMAS, JAMES H; PhD, 1985, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; genetics of development and the nervous system in nematodes
 TRASK, BARBARA J; PhD, 1985, UNIVERSITY OF LEIDEN (NETHERLANDS); in situ hybridization, analytical cytogenetics, analysis of large-scale DNA polymorphism
 WATERSTON, ROBERT H; PhD, 1972, PRINCETON UNIVERSITY; DNA sequencing and comparative gene analysis
 YOUNG, ELTON; PhD, 1967, CALIFORNIA INSTITUTE OF TECHNOLOGY; regulation of gene activity in the yeast *Saccharomyces cerevisiae*

Research Professor

DEEB, SAMIR S.; PhD, 1964, UNIVERSITY OF ILLINOIS; genetic factors predisposing to hyperlipidemia and coronary artery disease
 FURLONG, CLEMENT E.; PhD, 1968, UNIVERSITY OF CALIFORNIA (DAVIS); human biochemical genetics in biochemistry of membrane transport systems
 WIJSMAN, ELLEN M; PhD, 1981, UNIVERSITY OF WISCONSIN; human quantitative and population genetics

Associate Professor

BREEDEN, LINDA; PhD, 1981, UNIVERSITY OF COLORADO (BOULDER); Start control in *S. cerevisiae*

NELSON, PETER S.; MD, 1986, UNIVERSITY OF KANSAS; the study of human carcinogenesis using tools of genomics and bioinformatics
 NOBLE, WILLIAM S; PhD, 1998, UNIVERSITY OF CALIFORNIA (SAN DIEGO); the development of machine learning techniques for application to problems in molecular biology
 PALLANCK, LEO J.; PhD, 1992, ALBERT EINSTEIN COLLEGE OF MEDICINE; Genetic and Molecular analysis of symptomatic transmission in *Drosophila melanogaster*
 SORIANO, PHILIPPE; PhD, 1978, UNIVERSITY OF PARIS (FRANCE); Mouse Developmental Genetics
 STEPHENS, MATTHEW; PhD, 1997, OXFORD UNIVERSITY (UK); Bayesian inference, classification and clustering, Markov chain Monte Carlo, statistical genetics

Assistant Professor

EDGAR, BRUCE A; PhD, 1987, UNIVERSITY OF WASHINGTON; Cell cycle control during development of *Drosophila*
 MACCOSS, MICHAEL; PhD, 2001, UNIVERSITY OF VERMONT; proteomics, mass spectrometry, and protein turnover kinetics
 STOREY, JOHN D; PhD, 2002, STANFORD UNIVERSITY; statistical genomics, computational biology, applied statistics
 SWANSON, WILLIE J; PhD, 1998, UNIVERSITY OF CALIFORNIA (SAN DIEGO); Function & molecular evolution of proteins with emphasis on reproduction

Lecturer

PAUL, ANNE S; MA, 1993, UNIVERSITY OF WASHINGTON; molecular biology, Science Education
 SCHIVELL, AMANDA E; PhD, 2000, UNIVERSITY OF WASHINGTON; Teaching biology and genetics to undergraduates

Immunology

Professor

ADEREM, ALAN A.; PhD, 1979, UNIVERSITY OF CAPETOWN (SOUTH AFRICA); signal transduction and the cytoskeleton
 BEVAN, MICHAEL J.; PhD, 1972, NATIONAL INST FOR MEDICAL RESEARCH (UK); T lymphocyte development and specificity
 CLARK, EDWARD A; PhD, 1977, UNIVERSITY OF CALIFORNIA (LOS ANGELES); lymphocyte surface molecules, lymphocyte activation and cell communication

CONCANNON, PATRICK J.; PhD, 1984, UNIVERSITY OF CALIFORNIA (LOS ANGELES); development of the human T cell receptor repertoire, genetics of diabetes and ataxia-telangiectasia
 FARR, ANDREW G; PhD, 1975, UNIVERSITY OF CHICAGO; cell interactions governing lymphocyte production and function
 FINK, PAMELA J.; PhD, 1981, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; T cell differentiation, tolerance induction, molecular and cellular immunology
 GOVERMAN, JOAN M; PhD, 1981, UNIVERSITY OF CALIFORNIA (LOS ANGELES); immune recognition and tolerance, autoimmunity, T cell development, activation, antibody diversity
 GREENBERG, PHILIP D; MD, 1971, ST UNIV OF NEW YORK (DOWNSTATE MED CTR); molecular, cellular, viral, and tumor immunology
 HOOD, LEROY E.; PhD, 1968, CALIFORNIA INSTITUTE OF TECHNOLOGY; molecular immunology, large-scale DNA mapping and sequencing, molecular evolution
 LERNMARK, AKE; PhD, 1971, UNIVERSITY OF UMEA; immunogenetics of organ-specific autoimmunity with emphasis on insulin-dependent diabetes
 MAIZELS, NANCY; PhD, 1974, HARVARD UNIVERSITY; recombination and repair in mammalian cells, especially activated B cells
 NEPOM, GERALD T; PhD, 1977, UNIVERSITY OF WASHINGTON; immunogenetics, immunoregulation, neuroimmunology
 PERLMUTTER, ROGER M.; PhD, 1979, WASHINGTON UNIVERSITY; molecular immunology and signal transduction in hematopoietic cells
 RUDENSKY, ALEXANDER Y.; PhD, 1986, GABRICHEVSKY INSTITUTE FOR EPI & MICRO; antigen processing and presentation, T-cell recognition, T cell development
 STRONG, ROLAND K; PhD, 1990, HARVARD UNIVERSITY; structural immunology: analysis of the functions of proteins mediating immune responses
 WILSON, CHRISTOPHER B; MD, 1972, UNIVERSITY OF CALIFORNIA (LOS ANGELES); immunology, infectious diseases

Associate Professor

NELSON, BRADLEY H.; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); molecular regulation of T lymphocyte proliferation by the interleukin-2 receptor
 ZIEGLER, STEVEN F.; PhD, 1984, UNIVERSITY OF CALIFORNIA (LOS ANGELES); genetic and molecular analysis of immune system function

Assistant Professor

BIX, MARK; PhD, 1993, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; regulation of cytokine gene expression during effector T cell development
KAJA, MURALI KRISHNA; PhD, 1995, INDIAN INSTITUTE OF TECHNOLOGY (INDIA); generation and maintenance of immune memory
LATCHMAN, YVETTE; PhD, 1996, UNIVERSITY COLLEGE, LONDON (UK); T cell activation and costimulation
WEINMANN, AMY S; PhD, 2000, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Mechanisms of transcriptional regulation in the immune system.

Research Assistant Professor

GAVIN, MARC A.; PhD, 1995, UNIVERSITY OF WASHINGTON; The molecular mechanisms that govern regulatory T cell homeostasis

Laboratory Medicine

Professor

ASHLEY MORROW, RHODA; PhD, 1977, UNIVERSITY OF CALIFORNIA (DAVIS); pathogenesis of viral infections, immune response to herpes, rapid diagnosis
BAUER, LARRY; PharmD, 1980, UNIVERSITY OF KENTUCKY; clinical pharmacokinetics and drug metabolism, drug interactions
CHANDLER, WAYNE L; MD, 1982, ST LOUIS UNIVERSITY; clinical chemistry, clinical coagulation, hematology
CHATRIAN, GIAN E; MD, 1951, UNIVERSITY OF NAPLES (ITALY); electroencephalography and clinical neurophysiology
CLARRIDGE, JILL E.; PhD, 1973, PURDUE UNIVERSITY; microbial pathogens; microbial taxonomy
COOMBS, ROBERT W; PhD, 1977, DALHOUSIE UNIVERSITY (CANADA); diagnosis and pathogenesis of HIV infection
COREY, LAWRENCE; MD, 1971, UNIVERSITY OF MICHIGAN; laboratory medicine: diagnosis, therapy, and pathogenesis of viral infections, AIDS virus
COYLE, MARIE B; PhD, 1965, KANSAS STATE UNIVERSITY; DNA probes and GLC for rapid identification of mycobacteria and corynebacteria
DETTER, JAMES C; MD, 1962, UNIVERSITY OF KANSAS; laboratory diagnosis of genetic disorders, red-cell disorders and laboratory instrumentation
FRENKEL, LISA M.; MD, 1987, UNIVERSITY OF KANSAS; infectious diseases
GILLILAND, BRUCE C.; MD, 1960, NORTHWESTERN UNIVERSITY; hematology

KAPLAN, ALEX; PhD, 1936, UNIVERSITY OF CALIFORNIA (BERKELEY); clinical chemistry
KENNY, MARGARET; PhD, 1968, UNIVERSITY OF ILLINOIS; clinical chemistry, new technologies for in vivo clinical biochemical analysis
LABBE, ROBERT F; PhD, 1951, OREGON STATE UNIVERSITY; porphyrin disorders, nutritional biochemistry
MCELRAITH, MARGARET JULIANA; PhD, 1978, MEDICAL UNIVERSITY OF SOUTH CAROLINA; infectious diseases
MULLINS, JAMES I.; PhD, 1978, UNIVERSITY OF MINNESOTA; retroviruses and AIDS, molecular virology
PLORDE, JAMES J; MD, 1959, UNIVERSITY OF MINNESOTA; infectious diseases, antibiotic-resistant nosocomial infections
RAGHU, GANESH; MD, 1974, UNIVERSITY OF MYSORE (INDIA); respiratory disease.
RAINEY, PETRIE M.; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); clinical chemistry, medical toxicology, therapeutic drug monitoring, pharmacology of antimicrobials
RAISYS, VIDMANTAS A; PhD, 1969, STATE UNIVERSITY OF NEW YORK (BUFFALO); clinical toxicology, therapeutic drug monitoring
RUTLEDGE, JOE C.; MD, 1976, VANDERBILT UNIVERSITY; genetic disease pathology, human embryology, mouse mutagenesis, pediatric chemistry/hematology
SCHMER, GOTTFRIED; MD, 1956, UNIVERSITY OF VIENNA (AUSTRIA); synthesis of artificial organs, molecular engineering of antitumor enzymes
TAIT, JONATHAN F; PhD, 1983, WASHINGTON UNIVERSITY; biochemistry of blood coagulation, laboratory diagnosis of genetic disorders
WENER, MARK H; MD, 1974, WASHINGTON UNIVERSITY; diagnostic immunology, immune complex diseases

Research Professor

STEPHENS, KAREN G.; PhD, 1982, INDIANA UNIVERSITY; molecular genetics of human disease; human gene mapping
ZEH, JUDITH; PhD, 1979, UNIVERSITY OF WASHINGTON; estimation of population size and dynamics; robust methods, computing in infectious disease research

Associate Professor

ASTION, MICHAEL L.; PhD, 1989, UNIVERSITY OF PENNSYLVANIA; neural networks, multi media computer-aided tutorials, immunology
BANKSON, DANIEL D; PhD, 1985, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; nutritional status of antioxidants and fat-soluble vitamins.

CHOU, DAVID; MD, 1974, UNIVERSITY OF PITTSBURGH; MS, 1979, UNIVERSITY OF MINNESOTA; medical informatics, instrument automation, clinical chemistry
CLAYSON, KATHLEEN J; MS, 1968, UNIVERSITY OF MINNESOTA; enzymology in clinical chemistry
COOKSON, BRAD T; PhD, 1991, WASHINGTON UNIVERSITY; cellular immune response to intracellular bacteria; microbial pathogenesis; clinical microbiology
DELANEY, COLLENE J; PhD, 1972, UNIVERSITY OF ILLINOIS; clinical chemistry, the study of diabetes and alcoholism
FINE, JAMES; MD, 1972, UNIVERSITY OF MINNESOTA; MS, 1977, UNIVERSITY OF MINNESOTA; enzymology, medical informatics
FLIGNER, CORINNE L.; MD, 1976, UNIVERSITY OF NEW MEXICO; autopsy and forensic pathology, fetal and perinatal pathology, forensic toxicology
GRETCH, DAVID R.; PhD, 1990, UNIVERSITY OF IOWA; research and diagnostics related to viral hepatitis
HACKMAN, ROBERT C; MD, 1971, STANFORD UNIVERSITY; infectious and pulmonary complications in immunocompromised patients
KOELLE, DAVID; MD, 1985, UNIVERSITY OF WASHINGTON; allergy and infectious diseases
LAMPE, MARY F; PhD, 1984, UNIVERSITY OF NORTH CAROLINA; medical technology education, molecular analysis of Chlamydia trachomatis
OPHEIM, KENT E; PhD, 1972, CORNELL UNIVERSITY; molecular cytogenetics, pediatric clinical chemistry, drug assay development
SABATH, DANIEL E.; PhD, 1989, UNIVERSITY OF PENNSYLVANIA; regulation of gene expression in hematopoietic cells
SCHILLER, HARVEY S; MD, 1966, WASHINGTON UNIVERSITY; clinical chemistry, hematology, interpretation of laboratory data
WALD, ANNA; MD, 1985, MT SINAI SCHOOL OF MEDICINE; MPH, 1994, UNIVERSITY OF WASHINGTON; the epidemiology, natural history and therapeutics of HSV and other herpesviruses infections
WOOD, BRENT L.; PhD, 1988, LOMA LINDA UNIVERSITY; Hematopathology, leukemia, lymphoma, flow cytometry, cell sorting.

Research Associate Professor

LIBBY, STEPHEN JAMES; PhD, 1987, IOWA STATE UNIVERSITY; Salmonella molecular pathogenesis and resistance to oxidative stresses

Assistant Professor

BEHRENS, JOYCE A.; MS, 1971, UNIVERSITY OF MINNESOTA; clinical hematology and clinical coagulation methodologies
CONE, RICHARD W.; PhD, 1980, STANFORD UNIVERSITY; viral nucleic acid detection for diagnosis, viral tumor genesis
LE CRONE, CAROL N.; MS, 1966, COLORADO STATE UNIVERSITY; hematology, hemoglobinopathies
MC GONAGLE, LEE ANNE; MPH, 1969, UNIVERSITY OF MICHIGAN; clinical microbiology, procedures for diagnostic bacteriology
SZABO, LA VERNE; MS, 1970, UNIVERSITY OF WASHINGTON; general clinical chemistry, heavy metals in clinical chemistry

Research Assistant Professor

MORISHIMA, CHIHIRO; BA, 1984, WASHINGTON UNIVERSITY; MD, 1988, WASHINGTON UNIVERSITY; pediatric rheumatology
VIEIRA, JEFFERY; PhD, 1988, UNIVERSITY OF MINNESOTA; Biology of Kaposi's sarcoma-associated herpesvirus, gene function and latent to lytic reactivation.

Lecturer

CHEN-LEVY, ZEHAVA; PhD, 1986, WEIZMANN INSTITUTE FOR SCIENCE (ISRAEL); Clinical chemistry, immunology research and laboratory medicine teaching and education
GOODYEAR, NANCY; PhD, 1997, CATHOLIC UNIVERSITY OF AMERICA; clinical microbiology and education
MC DONNEL, LISA M.; MS, 1998, UNIVERSITY OF WASHINGTON; clinical hematology and coagulation, molecular diagnostics, stem cell transplantation, MT education
WILCOCK, CYNTHIA J.; MS, 2001, UNIVERSITY OF WASHINGTON; clinical chemistry and education

MEDEX

Associate Professor

BALLWEG, RUTH A.; BS, 1969, SOUTHERN OREGON STATE COLLEGE; MPA, 1998, UNIVERSITY OF WASHINGTON; women's health issues, physician assistant education
EVANS, TIMOTHY C.; PhD, 1976, UNIVERSITY OF MICHIGAN; diabetes management

Lecturer

GIANOLA, FRED J.; PAsst, 1973, UNIVERSITY OF WASHINGTON; physician assistant education

LANDEL, GRACE P.; BA, 1978, UNIVERSITY OF CALIFORNIA (SANTA CRUZ); MED, 1999, UNIVERSITY OF WASHINGTON; physician assistant education
MORRISON, MONICA L.; BA, 1990, EVERGREEN STATE COLLEGE; Emergency Medicine, Surgery, Family Practice, Medical Education
PLUMMER, WILLIAM T.; BS, 1974, UNIVERSITY OF NEBRASKA; physician assistant education
SCOTT, TERRY B.; PAsst, 1993, UNIVERSITY OF WASHINGTON; physician assistant education, underserved and minority population health care
STOLL, HENRY; BA, 1971, BROWN UNIVERSITY; physician assistant education and professional issues, curriculum development

Medical Education and Biomedical Informatics

Professor

BERRY, DONNA L.; PhD, 1992, UNIVERSITY OF WASHINGTON; health care of persons with, and at risk for, cancer
CARLINE, JAN D.; PhD, 1979, UNIVERSITY OF WASHINGTON; assessment of physician performance, evaluation of medical education programs
DAGGETT, VALERIE D.; PhD, 1990, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); molecular modelling studies of peptides and proteins
DOHNER, CHARLES W.; PhD, 1966, OHIO STATE UNIVERSITY; program evaluation, administration, faculty development
FULLER, SHERRILYNNE S00; PhD, 1984, UNIVERSITY OF SOUTHERN CALIFORNIA; Analysis, representation and mapping of research findings (data mining.)
GOLDBERG, HAROLD I.; MD, 1977, STANFORD UNIVERSITY; applying clinical informatics to health services delivery and quality improvement
GORDON, MICHAEL J.; PhD, 1973, MICHIGAN STATE UNIVERSITY; family medicine
KALET, IRA J.; PhD, 1968, PRINCETON UNIVERSITY; computer simulation of radiation therapy, artificial intelligence, computer graphics
KIMBALL, ANN M.; MD, 1976, UNIVERSITY OF WASHINGTON; MPH, 1981, UNIVERSITY OF WASHINGTON; emerging infections, public health response to epidemic disease
MATSEN, FREDERICK A.; MD, 1968, BAYLOR UNIVERSITY; orthopaedics, bone and joint research, robotics
NORRIS, THOMAS E.; MD, 1973, UNIVERSITY OF TEXAS (GALVESTON); Clinical applications, health policy and health workforce needs.

OBERLE, MARK W.; MD, 1974, JOHNS HOPKINS UNIVERSITY; Public Health; Native American Health.
SCOTT, CRAIG S.; PhD, 1973, UNIVERSITY OF IOWA; performance-based teaching and evaluation; informatics fluency
SHAPIRO, LINDA G.; PhD, 1974, UNIVERSITY OF IOWA; computer vision, multimedia information systems, medical informatics, pattern recognition
SMITH, CURTIS SCOTT; MD, 1980, UNIVERSITY OF WASHINGTON; general internal medicine
STERN, ERIC J.; MD, 1985, U OF MEDICINE & DENTISTRY OF NEW JERSEY; chest radiology
SURAWICZ, CHRISTINA M.; MD, 1973, UNIVERSITY OF KENTUCKY; gastroenterology.
TARCZY-HORNOCH, PETER; MD, 1989, STANFORD UNIVERSITY; bioinformatics and clinical informatics: clinical systems and integrating genetic databases
WOLF, FREDRIC M.; PhD, 1980, KENT STATE UNIVERSITY; clinical decision making, evaluation of new technology, evidence-based health care

Research Professor

MYLER, PETER J.; PhD, 1982, UNIVERSITY OF QUEENSLAND (AUSTRALIA); regulation of gene expression in protozoan parasites

Associate Professor

ASTION, MICHAEL L.; PhD, 1989, UNIVERSITY OF PENNSYLVANIA; neural networks, multi media computer-aided tutorials, immunology
BALLWEG, RUTH A.; MPA, 1998, UNIVERSITY OF WASHINGTON; women's health issues, physician assistant education
BROCK, DOUGLAS MICHAEL; PhD, 1995, UNIVERSITY OF WASHINGTON; usability and human factors
CHOU, DAVID; MD, 1974, UNIVERSITY OF PITTSBURGH; MS, 1979, UNIVERSITY OF MINNESOTA; medical informatics, instrument automation, clinical chemistry
DOCTOR, JASON N.; PhD, 1995, UNIVERSITY OF CALIFORNIA (SAN DIEGO); medical decision making, health economics, decision theory
FINE, JAMES; MD, 1972, UNIVERSITY OF MINNESOTA; MS, 1977, UNIVERSITY OF MINNESOTA; enzymology, medical informatics
KIM, SARA; PhD, 1999, UNIVERSITY OF WASHINGTON; educational technology
PINSKY, LINDA E.; MD, 1989, UNIVERSITY OF WASHINGTON; general internal medicine
ROBINS, LYNNE S.; PhD, 1990, UNIVERSITY OF MICHIGAN; cultural competence, physician-patient communication, qualitative research assessment

SCHAAD, DOUGLAS C.; PhD, 1986, UNIVERSITY OF WASHINGTON; Medical education and evaluation; educational assessment; salmonid recovery; riparian restoration
 ZIERLER, BRENDA; PhD, 1996, UNIVERSITY OF WASHINGTON; research in patient with venous thromboembolism; clinical outcomes, process outcomes

Research Associate Professor

JOHNSON, LEONARD CLARK; PhD, 1978, UNIVERSITY OF WASHINGTON; applied research methods including development in applied statistics, assessment, and analysis
 MANDEL, LYNN S.; PhD, 1983, UNIVERSITY OF WASHINGTON; assessment of psychomotor skills, program evaluation, study and instrument design

Assistant Professor

KARRAS, BRYANT THOMAS; MD, 1995, UNIVERSITY OF WISCONSIN; public health informatics, guidelines, bioterrorism surveillance
 RAKESTRAW, PHILLIP G; PhD, 1981, UNIVERSITY OF WASHINGTON; research in medical education.

Lecturer

AMBROZY, DONNA M.; PhD, 1998, UNIVERSITY OF WASHINGTON; standardized patients, teaching methodology
 MACLAREN, CAROL F.; PhD, 1985, UNIVERSITY OF PENNSYLVANIA; educational research
 MASUDA, DAVID; MD, 1980, UNIVERSITY OF NORTH DAKOTA; MS, 1996, UNIVERSITY OF WISCONSIN; biomedical and health informatics

Medical History and Ethics

Professor

AUSTIN, MELISSA A.; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); genetic epidemiology of chronic diseases and public health genetics
 BERRYMAN, JACK W; PhD, 1976, UNIVERSITY OF MARYLAND; history of exercise, sports medicine, and health behavior/philosophy
 BURKE, WYLIE; PhD, 1974, UNIVERSITY OF WASHINGTON; ethical and policy implications of genetic information
 CURTIS, JARED R.; MD, 1988, JOHNS HOPKINS UNIVERSITY; MPH, 1994, UNIVERSITY OF WASHINGTON; pulmonary diseases and critical care medicine
 HUDSON, LEONARD D; MD, 1964, UNIVERSITY OF WASHINGTON; respiratory diseases

JECKER, NANCY A.S.; PhD, 1986, UNIVERSITY OF WASHINGTON; philosophical and ethical aspects of health care delivery and policy
 JONSEN, ALBERT R.; PhD, 1967, YALE UNIVERSITY; philosophical, historical values affecting practice and delivery of health care
 PEARLMAN, ROBERT A; MD, 1975, BOSTON UNIVERSITY; gerontology
 STEVENS, NANCY G; MD, 1979, UNIVERSITY OF WASHINGTON; MPH, 1982, UNIVERSITY OF WASHINGTON; family medicine
 SULLIVAN, MARK D.; PhD, 1982, VANDERBILT UNIVERSITY; depression and chronic medical illness, chronic pain, ethics, quality of life
 WHORTON, JAMES C; PhD, 1969, UNIVERSITY OF WISCONSIN; history of American medicine, public health, alternative healing

Associate Professor

BACK, ANTHONY L.; MD, 1984, HARVARD UNIVERSITY; oncology
 BRADDOCK, CLARENCE H.; MD, 1981, UNIVERSITY OF CHICAGO; doctor-patient communication, informed consent, bioethics education
 FARBER, STUART J.; MD, 1974, UNIVERSITY OF WASHINGTON; patient centered communication, palliative/end-of-life care
 GALLAGHER, THOMAS H; MD, 1990, HARVARD UNIVERSITY; Ethical and communication dimensions of conflicts of interest in the doctor-patient relationship.
 TONELLI, MARK R.; MD, 1989, UNIVERSITY OF COLORADO (BOULDER); pulmonary and critical care medicine

Assistant Professor

FRYER-EDWARDS, KELLY; PhD, 2000, UNIVERSITY OF WASHINGTON; innovation in medical education, professional identity development, clinician-patient relationships
 GOERING, SARA L.; PhD, 1998, UNIVERSITY OF COLORADO (DENVER); bioethics, moral philosophy

Lecturer

MC CORMICK, THOMAS R.; DMin, 1976, SOUTHERN METHODIST UNIVERSITY; biomedical ethics, particularly relating to neonatology, and problems related to death and dying.

Medicine

Professor

ABKOWITZ, JANIS L; MD, 1977, HARVARD UNIVERSITY; hematology

ABRASS, CHRISTINE K.; MD, 1973, CASE WESTERN RESERVE UNIVERSITY; nephrology
 ABRASS, ITAMAR B.; MD, 1966, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); gerontology
 ADEREM, ALAN A.; PhD, 1979, UNIVERSITY OF CAPE TOWN (SOUTH AFRICA); signal transduction and the cytoskeleton
 AITKEN, MOIRA L.; MBChB, 1978, UNIVERSITY OF EDINBURGH (UK); respiratory disease
 ALPERS, CHARLES E.; MD, 1978, UNIVERSITY OF ROCHESTER; clinical/experimental glomerular disease, AIDS in man and experimental simian AIDS, vascular biology
 ALTMAN, LEONARD; MD, 1969, HARVARD UNIVERSITY; mechanisms of tissue injury produced by bacteria, leukocytes, or toxins
 APPELBAUM, FREDERICK R; MD, 1972, TUFTS UNIVERSITY; oncology
 ARGENYI, ZSOLT B; MD, 1978, SEMMELWEIS MEDICAL UNIVERSITY (HUNGARY); dermatopathology
 AUSTIN, MELISSA A.; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); genetic epidemiology of chronic diseases and public health genetics
 BACK, ANTHONY L.; MD, 1984, HARVARD UNIVERSITY; oncology
 BARDY, GUST H; MD, 1977, NORTHWESTERN UNIVERSITY; cardiology
 BARNHART, SCOTT; MD, 1979, GEORGE WASHINGTON UNIVERSITY; occupationally related lung disease
 BENDITT, JOSHUA O.; MD, 1982, UNIVERSITY OF WASHINGTON; pulmonary and critical care medicine
 BENEDETTI, JACQUELINE K; PhD, 1974, UNIVERSITY OF WASHINGTON; statistical methodology in infectious disease research, cancer clinical trials
 BENSINGER, WILLIAM I; MD, 1973, NORTHWESTERN UNIVERSITY; oncology
 BERG, DANIEL; MD, 1985, UNIVERSITY OF TORONTO (CANADA); dermatological surgery
 BIRD, THOMAS D.; MD, 1968, CORNELL UNIVERSITY; neurology, neurogenetics
 BLAGG, CHRISTOPHER R; MD, 1954, UNIVERSITY OF LEEDS (UK); MBChB, 1954, UNIVERSITY OF LEEDS (UK); nephrology
 BLAU, CARLA A.; MD, 1986, OHIO STATE UNIVERSITY; hematology
 BOMSZTYK, KAROL; MD, 1977, UNIVERSITY OF ROCHESTER; role of cytokine-induced protein kinases in the regulation of gene expression
 BORNSTEIN, PAUL; MD, 1958, NEW YORK UNIVERSITY; structure and function of connective tissue macromolecules, wound healing
 BOYKO, EDWARD J.; MD, 1979, UNIVERSITY OF PITTSBURGH; epidemiology of

- inflammatory bowel disease and non-insulin-dependent diabetes mellitus
 BREMNER, WILLIAM J; PhD, 1977, MONASH UNIVERSITY (AUSTRALIA); endocrinology
 BROUDY, VIRGINIA C.; MD, 1980, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); hematology
 BROWN, B. GREG; PhD, 1969, JOHNS HOPKINS UNIVERSITY; cardiology
 BRUNZELL, JOHN D; MD, 1963, UNIVERSITY OF WASHINGTON; nutritional and metabolic aspects of lipoproteins and diabetes
 BUCHWALD, DEDRA S; MD, 1981, UNIVERSITY OF CALIFORNIA (SAN DIEGO); internal medicine
 BURKE, WYLIE; PhD, 1974, UNIVERSITY OF WASHINGTON; ethical and policy implications of genetic information
 BYERS, PETER H; MD, 1969, CASE WESTERN RESERVE UNIVERSITY; extracellular matrix synthesis, genetic disorders of collagen metabolism, secretion, human genetics
 CALDWELL, JAMES H; MD, 1970, UNIVERSITY OF MISSOURI; positron emission tomography imaging of myocardial oxygenation, metabolism and sympathetic function
 CARITHERS, ROBERT L.; MD, 1969, UNIVERSITY OF PENNSYLVANIA; gastroenterology/hepatology
 CELUM, CONNIE L.; MD, 1984, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); infectious diseases
 CHAIT, ALAN; MD, 1974, UNIVERSITY OF CAPETOWN (SOUTH AFRICA); clinical nutrition with special emphasis on lipid metabolism
 CHAIT, ALAN; MBChB, 1967, UNIVERSITY OF CAPETOWN (SOUTH AFRICA); clinical nutrition with special emphasis on lipid metabolism
 CHAMBERLAIN, JEFFREY S; PhD, 1985, UNIVERSITY OF WASHINGTON; neurogenetics, Duchennes muscular dystrophy
 CHARAN, NIRMAL B; MBBS, 1968, CHRISTIAN MEDICAL COLLEGE OF LUDHIANA; respiratory disease
 CHEEVER, MARTIN A; MD, 1970, UNIVERSITY OF MICHIGAN; oncology
 CHESNUT, CHARLES; MD, 1966, UNIVERSITY OF FLORIDA; nuclear medicine
 CLARK, JOAN G; MD, 1974, WASHINGTON UNIVERSITY; pulmonary and respiratory disease
 COBB, LEONARD A; MD, 1952, UNIVERSITY OF MINNESOTA; cardiology
 COLLIER, ANN C; MD, 1978, DARTMOUTH COLLEGE; infectious diseases
 COLLINS, STEVEN J; MD, 1973, COLUMBIA UNIVERSITY; retinoic acid receptors and the pathogenesis of malignancy
 COOMBS, ROBERT W; PhD, 1977, DALHOUSIE UNIVERSITY (CANADA); diagnosis and pathogenesis of HIV infection
 COPASS, MICHAEL K; MA, 1964, NORTHWESTERN UNIVERSITY; MD, 1964, NORTHWESTERN UNIVERSITY; neurology/emergency services
 COREY, LAWRENCE; MD, 1971, UNIVERSITY OF MICHIGAN; laboratory medicine: diagnosis, therapy, and pathogenesis of viral infections, AIDS virus
 COUNTS, RICHARD B; MD, 1967, WASHINGTON UNIVERSITY; hematology
 COUSER, WILLIAM G; MD, 1965, HARVARD UNIVERSITY; nephrology
 CUMMINS, RICHARD; MD, 1972, CASE WESTERN RESERVE UNIVERSITY; MPH, 1977, UNIVERSITY OF WASHINGTON; emergency medicine
 CURTIS, JARED R.; MD, 1988, JOHNS HOPKINS UNIVERSITY; MPH, 1994, UNIVERSITY OF WASHINGTON; pulmonary diseases and critical care medicine
 DALE, DAVID C; MD, 1966, HARVARD UNIVERSITY; internal medicine
 DALE-CRUNK, BEVERLY A.; PhD, 1968, UNIVERSITY OF MICHIGAN; keratin biochemistry, epithelial differentiation, antimicrobial peptides
 DAVIS, CONNIE; MD, 1980, UNIVERSITY OF WASHINGTON; nephrology
 DEAN, LARRY S.; MD, 1980, UNIVERSITY OF ALABAMA; cardiology
 DEEG, H. JOACHIM; DrMed, 1972, UNIVERSITY OF BONN (GERMANY); oncology
 DEYO, RICHARD A.; MD, 1975, PENNSYLVANIA STATE UNIVERSITY; health status measurement and evaluation of common medical practices
 DICHEK, DAVID A.; MD, 1984, UNIVERSITY OF CALIFORNIA (LOS ANGELES); cardiology
 DISIS, MARY L.; MS, 1986, UNIVERSITY OF NEBRASKA; MD, 1986, UNIVERSITY OF NEBRASKA; oncology
 DISTECHE, CHRISTINE M; PhD, 1976, UNIVERSITY OF LIEGE (BELGIUM); molecular genetics of sex chromosomes, X inactivation, human and mouse cytogenetics
 DONEY, KRISTINE; MD, 1972, UNIVERSITY OF MICHIGAN; hematology/oncology
 DREWNOWSKI, ADAM; PhD, 1977, ROCKEFELLER UNIVERSITY; taste and psychology of food choice in disease prevention
 DUGDALE, DAVID C.; MD, 1982, UNIVERSITY OF PENNSYLVANIA; general internal medicine
 EISENBERG, MICKEY; PhD, 1978, UNIVERSITY OF WASHINGTON; sudden cardiac arrest and acute myocardial infarction
 ELMORE, JOANN G; MD, 1987, STANFORD UNIVERSITY; MPH, 1992, YALE UNIVERSITY; clinical epidemiology, breast cancer screening, diagnostic accuracy
 ENSINCK, JOHN W; MDCM, 1956, MCGILL UNIVERSITY (CANADA); the role of GI hormones in fuel homeostasis
 FEFER, ALEXANDER; MD, 1964, STANFORD UNIVERSITY; oncology
 FIELDS, STANLEY; PhD, 1981, CAMBRIDGE UNIVERSITY (UK); Yeast Molecular Biology and Genetics
 FIGLEY, MELVIN M; MD, 1944, HARVARD UNIVERSITY; thoracic and pulmonary radiology
 FIHN, STEPHAN; MD, 1977, ST LOUIS UNIVERSITY; MPH, 1981, UNIVERSITY OF WASHINGTON; internal medicine
 FINCH, CLEMENT A; MD, 1941, UNIVERSITY OF ROCHESTER; hematology
 FISHBEIN, DANIEL P; MD, 1980, ALBERT EINSTEIN COLLEGE OF MEDICINE; cardiology
 FLECKMAN, PHILIP H; MD, 1973, WASHINGTON UNIVERSITY; dermatology
 FLEET, WENDELL P.; MD, 1965, CREIGHTON UNIVERSITY; internal medicine
 FUJIMOTO, WILFRED Y; MD, 1965, JOHNS HOPKINS UNIVERSITY; metabolism, endocrinology, nutrition
 GARDNER, GREGORY C.; MD, 1984, BAYLOR UNIVERSITY; rheumatology
 GARTLER, STANLEY M; PhD, 1952, UNIVERSITY OF CALIFORNIA (BERKELEY); mammalian somatic cell genetics with emphasis on the mechanism of x-chromosome inactivation
 GEBALLE, ADAM PHILIP; MD, 1978, DUKE UNIVERSITY; translational regulation of viral and cellular gene expression
 GIBRAN, NICOLE; MD, 1985, BOSTON UNIVERSITY; general, burn, and trauma surgery
 GILLILAND, BRUCE C.; MD, 1960, NORTHWESTERN UNIVERSITY; hematology
 GLENNY, ROBB; MD, 1984, UNIVERSITY OF VIRGINIA; determinants of regional pulmonary blood flow and ventilation distribution
 GLOMSET, JOHN A; MD, 1960, UNIVERSITY OF UPPSALA (SWEDEN); membrane structure and function
 GOLDBERG, HAROLD I.; MD, 1977, STANFORD UNIVERSITY; applying clinical informatics to health services delivery and quality improvement
 GOODNER, CHARLES J; MD, 1955, UNIVERSITY OF UTAH; metabolism and endocrinology
 GREENBERG, PHILIP D; MD, 1971, ST UNIV OF NEW YORK (DOWNSTATE MED CTR); molecular, cellular, viral, and tumor immunology
 GREENE, H LEON; MD, 1969, JOHNS HOPKINS UNIVERSITY; cardiology
 HAMMOND, WILLIAM P; MD, 1972, TUFTS UNIVERSITY; hematology
 HANDSFIELD, HUNTER; MD, 1968, COLUMBIA UNIVERSITY; infectious diseases

- HANSEN, JOHN A.; MD, 1970, STANFORD UNIVERSITY; oncology
- HARLAN, JOHN M.; MD, 1973, UNIVERSITY OF CHICAGO; vascular biology with emphasis on leukocyte-endothelial adhesion
- HAZZARD, WILLIAM R.; MD, 1962, CORNELL UNIVERSITY; gerontology and geriatric medicine
- HEINECKE, JAY W.; MD, 1981, WASHINGTON UNIVERSITY; Oxidative damage of biomolecules
- HEINECKE, JAY W.; BS, 1977, ANTIOCH COLLEGE; Oxidative damage of biomolecules
- HENDERSON, MAUREEN M.; MBBS, 1949, UNIVERSITY OF DURHAM (UK); DPH, 1956, UNIVERSITY OF DURHAM (UK); epidemiology of chronic diseases, dietary prevention of disease
- HENDERSON, WILLIAM R.; MD, 1973, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); allergy and infectious disease
- HILDEBRANDT, JACOB; PhD, 1966, UNIVERSITY OF WASHINGTON; respiratory physiology
- HIRSCH, IRL B.; MD, 1984, UNIVERSITY OF MISSOURI; metabolism and endocrinology/diabetes
- HIRSCHMANN, JAN V.; MD, 1970, UNIVERSITY OF WASHINGTON; internal medicine
- HLASTALA, MICHAEL P.; PhD, 1969, STATE UNIVERSITY OF NEW YORK (BUFFALO); respiratory physiology, inert gas analysis of respiratory function
- HOCKENBERRY, DAVID M.; MD, 1982, WASHINGTON UNIVERSITY; gastroenterology
- HOLMES, KING K.; PhD, 1967, UNIVERSITY OF HAWAII; clinical epidemiology and pathogenesis of infectious diseases
- HORWITZ, MARSHALL S.; PhD, 1988, UNIVERSITY OF WASHINGTON; inherited white blood cell disorders, including leukemia
- HUDSON, LEONARD D.; MD, 1964, UNIVERSITY OF WASHINGTON; respiratory diseases
- JARVIK, GAIL P.; PhD, 1986, UNIVERSITY OF MICHIGAN; quantitative genetics and genetic epidemiology, focusing on common diseases
- JONG, ELAINE C.; MD, 1974, UNIVERSITY OF CALIFORNIA (SAN DIEGO); emergency medicine
- KAHN, STEVEN EMANUEL; MBChB, 1978, UNIVERSITY OF CAPE TOWN (SOUTH AFRICA); metabolism and endocrinology
- KAVANAGH, TERRANCE J.; PhD, 1985, MICHIGAN STATE UNIVERSITY; free radical toxicology, glutathione metabolism, toxicology and aging
- KENNEDY, J. WARD; MD, 1959, UNIVERSITY OF ROCHESTER; cardiology
- KIMBALL, ANN M.; MD, 1976, UNIVERSITY OF WASHINGTON; MPH, 1981, UNIVERSITY OF WASHINGTON; emerging infections, public health response to epidemic disease
- KIMMEY, MICHAEL; MD, 1979, WASHINGTON UNIVERSITY; gastroenterology/endoscopy
- KING, MARY-CLAIRE; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); genetic analysis of complex human phenotypes, human diversity and evolution
- KIVIAT, NANCY C.; MA, 1970, UNIVERSITY OF WASHINGTON; MD, 1975, UNIVERSITY OF WASHINGTON; epidemiologic and molecular biologic studies of the relationship between HPV, HIV, and neoplasia
- KLEBANOFF, SEYMOUR; PhD, 1954, UNIVERSITY OF LONDON (UK); infectious disease
- KNOPP, ROBERT H.; MD, 1964, CORNELL UNIVERSITY; metabolism and endocrinology
- KOEPSSELL, THOMAS D.; MD, 1972, HARVARD UNIVERSITY; MPH, 1979, UNIVERSITY OF WASHINGTON; injuries, neuroepidemiology, veterans health, epidemiologic methods, program and policy evaluation
- KOWDLEY, KRIS V.; MD, 1985, MT SINAI SCHOOL OF MEDICINE; gastroenterology
- KUDENCHUK, PETER J.; MD, 1979, UNIVERSITY OF WASHINGTON; cardiology
- LAKSHMINARAYAN, S.; MBBS, 1965, ALL-INDIA INSTITUTE OF MEDICAL SCIENCES; pulmonary medicine
- LARSON, ERIC B.; MD, 1973, HARVARD UNIVERSITY; internal medicine
- LEE, SUM PING; PhD, 1978, UNIVERSITY OF AUCKLAND (NEW ZEALAND); gastroenterology
- LEHMANN, KENNETH G.; MD, 1979, UNIVERSITY OF CALIFORNIA (SAN DIEGO); cardiology
- LERNMARK, AKE; PhD, 1971, UNIVERSITY OF UMEA; immunogenetics of organ-specific autoimmunity with emphasis on insulin-dependent diabetes
- LILES, W. CONRAD; PhD, 1987, UNIVERSITY OF WASHINGTON; infectious diseases
- LIPSKY, BENJAMIN A.; MD, 1973, CORNELL UNIVERSITY; internal medicine
- LIVINGSTON, ROBERT B.; MD, 1967, UNIVERSITY OF OKLAHOMA; oncology
- LOGERFO SR., JAMES P.; MD, 1968, UNIVERSITY OF ROCHESTER; MPH, 1974, UNIVERSITY OF WASHINGTON; quality-of-care assessment
- LONGSTRETH JR, W. T.; MD, 1975, UNIVERSITY OF PENNSYLVANIA; MPH, 1982, UNIVERSITY OF WASHINGTON; neurology
- LUKEHART, SHEILA A.; PhD, 1978, UNIVERSITY OF CALIFORNIA (LOS ANGELES); immunology of infectious diseases, microbiology, sexually transmitted diseases
- MANKOFF, DAVID A.; PhD, 1988, UNIVERSITY OF PENNSYLVANIA; HIGH COUNT RATE PET IMAGING
- MANNIK, MART; MD, 1959, CASE WESTERN RESERVE UNIVERSITY; rheumatology
- MARRA, CHRISTINA M.; MS, 1979, OREGON STATE UNIVERSITY; MD, 1984, UNIVERSITY OF OREGON; neurology, infectious diseases.

- STORB, RAINER F; MD, 1960, UNIVERSITY OF FREIBURG (GERMANY); oncology.
- STRATTON, JOHN R; MD, 1973, YALE UNIVERSITY; cardiology.
- SULLIVAN, SEAN; PhD, 1992, UNIVERSITY OF CALIFORNIA (BERKELEY); health economics, pharmaceutical outcomes research and health policy
- SURAWICZ, CHRISTINA M.; MD, 1973, UNIVERSITY OF KENTUCKY; gastroenterology.
- SWANSON, PHILLIP D; PhD, 1964, UNIVERSITY OF LONDON (UK); movement disorders, neurology
- SWENSON, ERIK R.; MD, 1979, UNIVERSITY OF CALIFORNIA (SAN DIEGO); pulmonary medicine.
- SYBERT, VIRGINIA; MD, 1974, STATE UNIVERSITY OF NEW YORK (BUFFALO); genetics and dermatology
- TAIT, JONATHAN F; PhD, 1983, WASHINGTON UNIVERSITY; biochemistry of blood coagulation, laboratory diagnosis of genetic disorders
- THOMAS, E DONNALL; MA, 1943, UNIVERSITY OF TEXAS (AUSTIN); MD, 1946, HARVARD UNIVERSITY; oncology.

THOMPSON, ARTHUR R; PhD, 1972, UNIVERSITY OF WASHINGTON; hematology.

THOMPSON, JOHN A.; MD, 1979, UNIVERSITY OF ALABAMA; oncology.

TOROK-STORB, BEVERLY J; PhD, 1975, UNIVERSITY OF PITTSBURGH; hematology.

TURCK, MARVIN; MD, 1959, UNIVERSITY OF ILLINOIS; infectious diseases.

VAN CITTERS, ROBERT L.; MD, 1953, UNIVERSITY OF KANSAS; cardiovascular physiology

VAN VOORHIS, WESLEY C; PhD, 1983, ROCKEFELLER UNIVERSITY; infectious diseases.

VESTAL, ROBERT E; MD, 1971, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); gerontology.

WALLACE, JAMES F.; MD, 1961, WASHINGTON UNIVERSITY; internal medicine.

WATERSTON, ROBERT H; PhD, 1972, PRINCETON UNIVERSITY; DNA sequencing and comparative gene analysis

WATKINS, SANDRA L; MD, 1981, UNIVERSITY OF TEXAS (HOUSTON); nephrology

WEIGLE, DAVID S; MD, 1978, HARVARD UNIVERSITY; endocrinology and metabolism.

WENER, MARK H; MD, 1974, WASHINGTON UNIVERSITY; diagnostic immunology, immune complex diseases

WIPF, JOYCE E.; MD, 1984, UNIVERSITY OF MINNESOTA; general internal medicine.

WITHERSPOON, ROBERT P; MS, 1970, BAYLOR UNIVERSITY; MD, 1970, BAYLOR UNIVERSITY; oncology.

WOOD, ROBERT W; MD, 1970, UNIVERSITY OF ROCHESTER; internal medicine.

YEUNG, RAYMOND S.; MD, 1982, UNIVERSITY OF TORONTO (CANADA); general and surgical oncology

ZAGER, RICHARD A.; MD, 1969, NORTHWESTERN UNIVERSITY; nephrology.

Research Professor

ALBERS, JOHN J.; PhD, 1969, UNIVERSITY OF ILLINOIS; lipoprotein metabolism and pathophysiology

BASKIN, DENIS G.; PhD, 1969, UNIVERSITY OF CALIFORNIA (BERKELEY); neuroendocrinology; obesity; CNS regulation of body weight; histochemistry; expression of receptors

DEEB, SAMIR S.; PhD, 1964, UNIVERSITY OF ILLINOIS; genetic factors predisposing to hyperlipidemia and coronary artery disease

FURLONG, CLEMENT E.; PhD, 1968, UNIVERSITY OF CALIFORNIA (DAVIS); human biochemical genetics in biochemistry of membrane transport systems

LATTEMANN, DIANNE; PhD, 1981, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); Effect of Regulatory Peptides on Feeding and Behavior and Metabolism

LEBOEUF, RENEE C.; PhD, 1985, HARVARD UNIVERSITY; genetic and nutritional regulation of proteins involved in lipid transport

LI, QILIANG; PhD, 1962, UNIVERSITY OF SHANDONG (CHINA); medical genetics.

MARCOVINA, SANTICA M.; PhD, 1972, UNIVERSITY OF PAVIA (ITALY); PhD, 1975, UNIVERSITY OF URBINO (ITALY); metabolism and endocrinology.

MCTIERNAN, ANNE; PhD, 1982, UNIVERSITY OF WASHINGTON; breast and colon cancer, womens health, exercise and obesity

ORAM, JOHN FISHER; PhD, 1972, PENNSYLVANIA STATE UNIVERSITY; cellular lipid transport and metabolism; lipoprotein interactions

SCHELLENBERG, GERARD D; PhD, 1978, UNIVERSITY OF CALIFORNIA (RIVERSIDE); mapping of familial Alzheimer disease genes and cloning of Werner's syndrome gene

SHEEHAN, FLORENCE; MD, 1975, UNIVERSITY OF CHICAGO; cardiology.

STEPHENS, KAREN G.; PhD, 1982, INDIANA UNIVERSITY; molecular genetics of human disease; human gene mapping

WIJSMAN, ELLEN M; PhD, 1981, UNIVERSITY OF WISCONSIN; human quantitative and population genetics

Associate Professor

AHMAD, SUHAIL; MBBS, 1968, UNIVERSITY OF ALLAHABAD (INDIA); nephrology

AMORY, JOHN K.; MD, 1994, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); endocrinology

ANAWALT, BRADLEY D; MD, 1989, UNIVERSITY OF CALIFORNIA (DAVIS); general internal medicine

BECKER, PAMELA S; PhD, 1986, HARVARD UNIVERSITY; Hematopoietic stem cell gene transfer, anemias, marrow transplantation, and acute leukemia

BELCHER, DONALD W; MD, 1962, UNIVERSITY OF PENNSYLVANIA; ambulatory medicine

BOECKH, MICHAEL J. J.; MD, 1985, FREIE UNIVERSITÄT OF BERLIN (GERMANY); allergy and infectious diseases

BRADLEY, KATHARINE A; MD, 1987, STANFORD UNIVERSITY; MPH, 1993, UNIVERSITY OF WASHINGTON; general internal medicine

BRENTNALL, TERESA A.; MD, 1987, UNIVERSITY OF WASHINGTON; gastroenterology

BRODKIN, CARL; MD, 1983, UNIVERSITY OF COLORADO (DENVER); hepatic effects of occupational solvent exposure;

ventilatory decline in asbestos-exposed workers

BRODKIN, KAYLA I; MD, 1982, STATE UNIV OF NEW YORK (STONY BROOK); gerontology and geriatric medicine

BUCKNER, FREDERICK S.; MD, 1988, UNIVERSITY OF WASHINGTON; Infectious diseases

CARVALHO, PAULA G.; MD, 1984, UNIVERSITY OF WASHINGTON; pulmonary and critical care medicine

CHAUNCEY, THOMAS R.; MD, 1985, RUSH MEDICAL COLLEGE; oncology

CHENG, EDITH Y.; MS, 1979, SARAH LAWRENCE COLLEGE; MD, 1987, UNIVERSITY OF WASHINGTON; genetics, perinatal medicine

CHILDS, MARIAN T; PhD, 1950, UNIVERSITY OF CALIFORNIA (BERKELEY); nutrition

CLURMAN, BRUCE E.; PhD, 1988, CORNELL UNIVERSITY; oncology

COLVEN, ROY M.; MD, 1987, UNIVERSITY OF WASHINGTON; dermatology

CORSON, MARSHALL A.; MD, 1981, BAYLOR UNIVERSITY; cardiology

CULVER, BRUCE H; MD, 1969, UNIVERSITY OF WASHINGTON; respiratory diseases

CUMMINGS, DAVID E.; MD, 1987, HARVARD UNIVERSITY; genetic determinants of obesity. Interplay between body weight and reproduction

CUSACK, BARRY J.; MD, 1980, UNIVERSITY COLLEGE OF DUBLIN (IRELAND); gerontology

DANIELL, WILLIAM E; MD, 1979, TUFTS UNIVERSITY; MPH, 1986, UNIVERSITY OF WASHINGTON; noise-induced hearing loss; long-term disability associated with carpal tunnel syndrome

DAVIDSON, ROBERT C; MD, 1953, UNIVERSITY OF WASHINGTON; nephrology

DEEM, STEVEN A.; MD, 1984, SOUTHERN ILLINOIS UNIVERSITY; critical care

DEWITT, DAWN E.; MD, 1990, HARVARD UNIVERSITY; general internal medicine

DOLACK, GEORGE L.; MD, 1981, UNIVERSITY OF WASHINGTON; cardiology

DOMINITZ, JASON A; MD, 1991, UNIVERSITY OF MARYLAND; MS, 1996, DUKE UNIVERSITY; gastroenterology

DRACHMAN, JONATHAN; MD, 1989, HARVARD UNIVERSITY; hematology

DUCHIN, JEFFREY S.; MD, 1985, RUTGERS UNIVERSITY; infectious diseases and epidemiology

DUGOWSON, CARIN E.; MD, 1976, UNIVERSITY OF ILLINOIS; MPH, 1986, UNIVERSITY OF WASHINGTON; rheumatology

ELLIS, GEORGIANA K.; MD, 1982, UNIVERSITY OF WASHINGTON; oncology

EVANS, TIMOTHY C; PhD, 1976, UNIVERSITY OF MICHIGAN; diabetes management

 PHELAN, ELIZABETH A.; MD, 1992, TUFTS UNIVERSITY; MS, 1998, UNIVERSITY OF WASHINGTON; prevention of functional decline in older adults, how systems can support preservation of function
 PICKETT, CHERYL A.; PhD, 1984, UNIVERSITY OF CALIFORNIA (DAVIS); metabolism, endocrinology, nutrition
 RHIM, JONATHAN A.; MD, 1989, GEORGE WASHINGTON UNIVERSITY; molecular mechanisms of medical disease
 RHO, ROBERT W.; MD, 1992, LOMA LINDA UNIVERSITY; Cardiac

resynchronization, Arrhythmia mechanisms, ablation-Atrial fibrillation & ventricular tachycardia
 RICHARD, ROBERT E.; PhD, 1992, STATE UNIV OF NEW YORK (STONY BROOK); gene and cell therapy for blood disorders
 SHADLEN, MARIE-FLORENCE; MD, 1983, BROWN UNIVERSITY; gerontology and geriatric medicine
 SINGH, NALINI; MD, 1995, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); diabetes care and diabetes complications
 STEMPIEN-OTERO, APRIL S.; MD, 1990, UNIVERSITY OF CONNECTICUT; cardiology
 WANG, CHIA C.; MD, 1990, NORTHWESTERN UNIVERSITY; MS, 1999, UNIVERSITY OF WASHINGTON; hepatitis C, hepatitis B, HIV
 WARREN, EDUS HOUSTON; PhD, 1988, HARVARD UNIVERSITY; oncology
 WISSE, BRENT; MD, 1995, MCGILL UNIVERSITY (CANADA); body weight regulation
 ZIVIN, ADAM H.; MD, 1991, OREGON HEALTH SCIENCES UNIVERSITY; cardiology

Research Assistant Professor

WIJELATH, ERROL S.; PhD, 1989, UNIVERSITY OF STRATHCLYDE (UK); Extracellular matrix and growth factor interaction in vascular biology

Microbiology

Professor

CHAMPOUX, JAMES J.; PhD, 1970, STANFORD UNIVERSITY; DNA replication, tumor virology
 CLARK, EDWARD A.; PhD, 1977, UNIVERSITY OF CALIFORNIA (LOS ANGELES); lymphocyte surface molecules, lymphocyte activation and cell communication
 COREY, LAWRENCE; MD, 1971, UNIVERSITY OF MICHIGAN; laboratory medicine: diagnosis, therapy, and pathogenesis of viral infections, AIDS virus
 COYLE, MARIE B.; PhD, 1965, KANSAS STATE UNIVERSITY; DNA probes and GLC for rapid identification of mycobacteria and corynebacteria
 EMERMAN, MICHAEL; PhD, 1986, UNIVERSITY OF WISCONSIN; Molecular biology of the human immunodeficiency virus
 EVANS, CHARLES A.; PhD, 1943, UNIVERSITY OF MINNESOTA; microbial flora of human skin, medical virology
 FIELDS, STANLEY; PhD, 1981, CAMBRIDGE UNIVERSITY (UK); Yeast Molecular Biology and Genetics
 GEBALLE, ADAM PHILIP; MD, 1978, DUKE UNIVERSITY; translational

regulation of viral and cellular gene expression
 GILLILAND, BRUCE C.; MD, 1960, NORTHWESTERN UNIVERSITY; hematology
 HAIGWOOD, NANCY L.; PhD, 1980, UNIVERSITY OF NORTH CAROLINA; host immunity in the control and prevention of AIDS
 HELLSTROM, KARL-ERIK; DrMed, 1964, UNIVERSITY OF STOCKHOLM (SWEDEN); oncology, cancer immunology, tumor biology
 HOLMES, KING K.; PhD, 1967, UNIVERSITY OF HAWAII; clinical epidemiology and pathogenesis of infectious diseases
 HU, SHIU-LOK; PhD, 1978, UNIVERSITY OF WISCONSIN; virus-host interactions, AIDS vaccines and pathogenesis of primate lentivirus infection
 KATZE, MICHAEL GERALD; PhD, 1980, HAHNEMANN MEDICAL COLLEGE; regulation of viral gene expression at the translational level
 LIDSTROM, MARY E.; PhD, 1977, UNIVERSITY OF WISCONSIN; biomolecular engineering, metabolic engineering, bioremediation
 LORY, STEPHEN; PhD, 1980, UNIVERSITY OF CALIFORNIA (LOS ANGELES); biochemistry, genetics of microbial virulence factors
 LUKEHART, SHEILA A.; PhD, 1978, UNIVERSITY OF CALIFORNIA (LOS ANGELES); immunology of infectious diseases, microbiology, sexually transmitted diseases
 MILLER, SAMUEL I.; MD, 1979, BAYLOR UNIVERSITY; Salmonella pathogenesis and bacterial-eucaryotic cell interactions.
 MOSELEY, STEPHEN L.; PhD, 1981, UNIVERSITY OF WASHINGTON; molecular basis of pathogenesis in E. coli diarrhea.
 MULLINS, JAMES I.; PhD, 1978, UNIVERSITY OF MINNESOTA; retroviruses and AIDS, molecular virology
 NESTER, EUGENE W.; PhD, 1959, CASE WESTERN RESERVE UNIVERSITY; genetics and biochemistry, of bacterial-plant cell interactions
 OVERBAUGH, JULIE MAUREEN; PhD, 1983, UNIVERSITY OF COLORADO (BOULDER); molecular mechanisms of virus-host cell interactions/retroviral pathogenesis/aids
 RUBENS, CRAIG E.; PhD, 1978, MEDICAL UNIVERSITY OF SOUTH CAROLINA; infectious diseases/pathogenesis of gram(+) bacterial infections
 SHERRIS, JOHN C.; MBBS, 1948, UNIVERSITY OF LONDON (UK); MD, 1950, UNIVERSITY OF LONDON (UK); medical microbiology, antibiotic action and resistance
 STALEY, JAMES T.; PhD, 1967, UNIVERSITY OF CALIFORNIA (DAVIS); freshwater bacteriology, microbial ecology, general microbiology

STUART, KENNETH DANIEL; PhD, 1969, UNIVERSITY OF IOWA; molecular biology of parasites
 TARR, PHILLIP I; MD, 1980, YALE UNIVERSITY; gastroenterology/infectious diseases
 WHITE, THEODORE C; PhD, 1984, UNIVERSITY OF MICHIGAN; molecular mechanisms of virulence and drug resistance in pathogenic yeasts

Research Professor

DARVEAU, RICHARD P.; PhD, 1981, WASHINGTON STATE UNIVERSITY; innate host defense interactions between bacteria and their hosts
 GALLOWAY, DENISE A; PhD, 1976, CITY UNIVERSITY OF NEW YORK; viral pathogenesis and neoplasia
 LINIAL, MAXINE L; PhD, 1970, TUFTS UNIVERSITY; retroviral replication and genetics, retroviral transformation

Associate Professor

BUMGARNER, ROGER E.; PhD, 1988, UNIVERSITY OF ARIZONA; spectroscopy and instrumentation for biotechnology
 COOKSON, BRAD T; PhD, 1991, WASHINGTON UNIVERSITY; cellular immune response to intracellular bacteria; microbial pathogenesis; clinical microbiology
 HILL, WALTER E; PhD, 1972, UNIVERSITY OF WASHINGTON; genetic methods for detecting and characterizing foodborne microbial pathogens
 LAMPE, MARY F; PhD, 1984, UNIVERSITY OF NORTH CAROLINA; medical technology education, molecular analysis of Chlamydia trachomatis
 LARA, JIMMIE CANO; PhD, 1970, UNIVERSITY OF CALIFORNIA (RIVERSIDE); microbial physiology and cytology, sporulation and gas vesicle synthesis and regulation.
 LEDBETTER, JEFFREY A.; PhD, 1978, UNIVERSITY OF WISCONSIN; oncology, immunology.
 ROSE, TIMOTHY M; PhD, 1981, UNIVERSITY OF GENEVA (SWITZERLAND); molecular biology of tumor viruses, cell growth, differentiation, and transformation
 TRAXLER, BETH A; PhD, 1987, CARNEGIE MELLON UNIVERSITY; bacterial physiology, genetics, and membrane protein biochemistry

Research Associate Professor

HERWIG, RUSSELL P; PhD, 1989, UNIVERSITY OF WASHINGTON; environmental and applied aquatic microbiology, bioremediation-related microbiology

Assistant Professor

LAW, CHE-LEUNG; PhD, 1990, UNIVERSITY OF MINNESOTA; immunology, B cell activation and development

MARR, KIEREN A; MD, 1993, HAHNEMANN MEDICAL COLLEGE; Fungal infections in immunocompromised hosts; Pathogenesis of aspergillosis
 VAN T WOUT, ANGELIQUE B.; PhD, 1997, UNIVERSITY OF AMSTERDAM (NETHERLANDS); Interactions between HIV and its host cells
 WOOD, DEREK WILLIAM; PhD, 1997, UNIVERSITY OF ARIZONA; genomic analysis and evolution of pathogenesis

Research Assistant Professor

INTERTHAL, HEIDRUN; PhD, 1996, UNIVERSITY OF BERNE (SWITZERLAND); DNA repair in eukaryotic cells

Lecturer

ANDERSON, DENISE G; MS, 1985, UNIVERSITY OF WASHINGTON; microbiology laboratory teaching
 BARNES, GLOVER W; PhD, 1961, STATE UNIVERSITY OF NEW YORK (BUFFALO); tissue, organ immunology
 BICKNELL, MARY; MS, 1962, UNIVERSITY OF WASHINGTON; microbiology laboratory teaching.
 CHANDLER, MARK S; PhD, 1998, UNIVERSITY OF ILLINOIS; microbiology laboratory teaching
 MEMMER, RAMONA; MS, 1957, UNIVERSITY OF WASHINGTON; microbiology laboratory teaching.
 PARKHURST, DALE J.; BS, 1960, UNIVERSITY OF WASHINGTON; microbiology laboratory teaching.

Neurological Surgery

Professor

ANDERSON, GAIL; PhD, 1987, UNIVERSITY OF WASHINGTON; pharmacokinetics, metabolism and interactions of drugs in epilepsy and trauma
 CHAPMAN, JENS R.; MD, 1983, TECHNICAL UNIVERSITY OF MUNICH (GERMANY); orthopaedics, spine trauma/reconstruction
 CHATRIAN, GIAN E; MD, 1951, UNIVERSITY OF NAPLES (ITALY); electroencephalography and clinical neurophysiology
 COHEN, WENDY; MD, 1975, HARVARD UNIVERSITY; neuroradiology
 DIKMEN, SUREYYA S; PhD, 1973, UNIVERSITY OF WASHINGTON; clinical neuropsychology, traumatic brain injury
 DOMINO, KAREN B.; MA, 1974, UNIVERSITY OF NEW MEXICO; MD, 1978, UNIVERSITY OF MICHIGAN; neuroanesthesia.
 ELLENBOGEN, RICHARD G.; BA, 1980, BROWN UNIVERSITY;

MD, 1983, BROWN UNIVERSITY; pediatric neurosurgery, neuro-oncology, complex spine
 FRASER, ROBERT T; PhD, 1976, UNIVERSITY OF WISCONSIN; psychology.
 GEYER, JEFFREY R.; MD, 1977, WAYNE STATE UNIVERSITY; hematology/oncology
 GOODKIN, ROBERT; MD, 1964, CHICAGO MEDICAL SCHOOL; neurological surgery.
 GRUSS, JOSEPH S.; MBChB, 1969, UNIVERSITY OF WITWATERSRAND (S. AFRICA); craniofacial and maxillofacial surgery
 HARRIS, A BASIL; MD, 1954, UNIVERSITY OF ALABAMA; neurosurgery, neuroanatomy, microvascular, arteriovenous malformations, epilepsy mechanisms
 HAYNOR, DAVID R; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); medical image processing and segmentation; image deformation; functional MRI; expression arrays
 JAFFE, KENNETH M; MD, 1975, HARVARD UNIVERSITY; pediatric rehabilitation, brain injury, neuromuscular diseases, congenital defects
 JARVIK, JEFFREY G; MD, 1987, UNIVERSITY OF CALIFORNIA (SAN DIEGO); neuroradiology, outcomes research
 KELLY, WILLIAM A; MD, 1954, UNIVERSITY OF CINCINNATI; neurosurgery, neuroendocrinology
 KLIOT, MICHEL; MD, 1984, YALE UNIVERSITY; peripheral nerve injury and diseases, nerve injury/regeneration
 LAM, ARTHUR M; MD, 1974, WESTERN ONTARIO UNIVERSITY (CANADA); neuroanesthesia.
 LARAMORE, GEORGE E; PhD, 1969, UNIVERSITY OF ILLINOIS; therapeutic radiology.
 LEVY, RENE H; PhD, 1970, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); metabolic interactions among antiepileptic drugs and between cytokines and drugs
 LOESER, JOHN D; MD, 1961, NEW YORK UNIVERSITY; pain, neurophysiology.
 MARAVILLA, KENNETH R.; MD, 1970, STATE UNIVERSITY OF NEW YORK (BROOKLYN); neuroradiology and neurosurgery
 MILLER, JOHN W.; PhD, 1981, UNIVERSITY OF ILLINOIS; epilepsy and clinical neurophysiology
 MORRISON, RICHARD S; PhD, 1982, UNIVERSITY OF CALIFORNIA (LOS ANGELES); genetic pathways regulating neuronal cell death in disease and injury
 OJEMANN, GEORGE A; MD, 1959, UNIVERSITY OF IOWA; neurophysiology, organization of higher functions in brain, language, memory
 PHILLIPS, MARK H; PhD, 1982, UNIVERSITY OF WISCONSIN; medical radiation physics
 REH, THOMAS A.; PhD, 1981, UNIVERSITY OF WISCONSIN; regeneration and

development of central nervous system
 ROBERTS, THEODORE S.; MS, 1952, UNIVERSITY OF WISCONSIN; neurological surgery, stereotaxic surgery, pituitary and cerebrovascular disease
 ROBERTS, THEODORE S.; MD, 1955, UNIVERSITY OF WISCONSIN; neurological surgery, stereotaxic surgery, pituitary and cerebrovascular disease
 SILBERGELD, DANIEL L.; MD, 1984, UNIVERSITY OF CINCINNATI; brain tumors, epilepsy
 SPENCE, ALEXANDER M.; MD, 1965, UNIVERSITY OF CHICAGO; neurology, neuro-oncology.
 TEMKIN, NANCY R.; PhD, 1976, STATE UNIVERSITY OF NEW YORK (BUFFALO); clinical trials, recovery models, statistical modeling of epileptic phenomena, survival analysis.
 WEINBERGER, EDWARD; MD, 1979, HARVARD UNIVERSITY; pediatric radiology

Associate Professor

BECKER, KYRA J.; MD, 1989, DUKE UNIVERSITY; stroke, neurophysiology
 BELLABARBA, CARLO; MD, 1992, MCGILL UNIVERSITY (CANADA); spine trauma and reconstruction, orthopaedic trauma
 DALLEY, ROBERT W.; MD, 1982, UNIVERSITY OF UTAH; neuroradiology
 JANIGRO, DAMIR; PhD, 1982, UNIVERSITY OF MILAN (ITALY); blood brain barrier, glial-neuronal interactions
 MIRZA, SOHAIL K.; MD, 1989, UNIVERSITY OF COLORADO (DENVER); spinal surgery/spine biomechanics
 NELSON, PETER S.; MD, 1986, UNIVERSITY OF KANSAS; the study of human carcinogenesis using tools of genomics and bioinformatics
 OJEMANN, JEFFREY G.; MA, 1992, WASHINGTON UNIVERSITY; MD, 1992, WASHINGTON UNIVERSITY; fMRI and electrical studies of cognition in neurosurgery, epilepsy imaging, brain-computer interface
 OJEMANN, LINDA M.; MD, 1960, UNIVERSITY OF ILLINOIS; neurology, treatment of epilepsy.
 ROSTOMILY, ROBERT C.; MD, 1987, CASE WESTERN RESERVE UNIVERSITY; surgery of adult brain and cranial base tumors, molecular biology of nervous system tremors
 VAVILALA, MONICA S.; MD, 1991, UNIVERSITY OF TEXAS (HOUSTON); pediatric pain management
 WILENSKY, ALAN J.; PhD, 1973, UNIVERSITY OF TORONTO (CANADA); neurology, treatment of epilepsy, testing and use of anticonvulsants

Research Associate Professor

MOURAD, PIERRE; PhD, 1987, UNIVERSITY OF WASHINGTON; translational research in diagnostic and therapeutic ultrasound

SILBER, JOHN R.; PhD, 1977, UNIVERSITY OF FLORIDA; neuro-oncology

Assistant Professor

AVELLINO, ANTHONY M.; MD, 1992, COLUMBIA UNIVERSITY; Pediatric Neurosurgery
 BRANSFORD, RICHARD; MD, 1996, VANDERBILT UNIVERSITY; Pediatric, Degenerative, & Traumatic Spine Conditions, Pediatric Orthopaedics, 3rd World Medicine
 BRITZ, GAVIN W.; MBBChir, 1987, UNIVERSITY OF WITWATERSRAND (S. AFRICA); Cerebral aneurysms and AVMs, Carotid disease, skull base tumors, cerebral vasospasm

Neurology

Professor

BIRD, THOMAS D.; MD, 1968, CORNELL UNIVERSITY; neurology, neurogenetics
 CHAMBERLAIN, JEFFREY S.; PhD, 1985, UNIVERSITY OF WASHINGTON; neurogenetics, Duchennes muscular dystrophy
 CHANCE, PHILLIP F.; MD, 1978, UNIVERSITY OF TENNESSEE; pediatric neurology and genetics
 COPASS, MICHAEL K.; MA, 1964, NORTHWESTERN UNIVERSITY; MD, 1964, NORTHWESTERN UNIVERSITY; neurology/emergency services
 CRILL, WAYNE E.; MD, 1962, UNIVERSITY OF WASHINGTON; properties of spinal and cortical neurons, mechanisms of repetitive firing of CNS neurons
 DODRILL, CARL B.; PhD, 1970, PURDUE UNIVERSITY; neurophysiology of epilepsy
 FARRELL, DONALD; MD, 1965, GEORGE WASHINGTON UNIVERSITY; neurology, clinical neurophysiology including intraoperative monitoring, evoked potentials
 FRASER, ROBERT T.; PhD, 1976, UNIVERSITY OF WISCONSIN; psychology.
 GOSPE, SIDNEY M.; PhD, 1980, DUKE UNIVERSITY; pyridoxine-dependent seizures, developmental neurotoxicity of second-hand tobacco smoke and toluene
 KRAFT, GEORGE HOWARD; MD, 1963, OHIO STATE UNIVERSITY; psychiatry
 LONGSTRETH JR, W. T.; MD, 1975, UNIVERSITY OF PENNSYLVANIA; MPH, 1982, UNIVERSITY OF WASHINGTON; neurology
 MARRA, CHRISTINA M.; MS, 1979, OREGON STATE UNIVERSITY; MD, 1984, UNIVERSITY OF OREGON; neurology, infectious diseases.
 MILLER, JOHN W.; PhD, 1981, UNIVERSITY OF ILLINOIS; epilepsy and clinical neurophysiology

RANSOM, BRUCE ROBERT; PhD, 1972, WASHINGTON UNIVERSITY; neurology, neuroscience research
 SHADLEN, MICHAEL N.; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); neurobiology of vision and cognition
 SPAIN, WILLIAM; MD, 1977, COLUMBIA UNIVERSITY; signal transduction in the central nervous system
 SPENCE, ALEXANDER M.; MD, 1965, UNIVERSITY OF CHICAGO; neurology, neuro-oncology.
 STAHL, WILLIAM L.; PhD, 1963, UNIVERSITY OF PITTSBURGH; neurochemistry of brain ATPase systems.
 SUMI, SHUZO MARK; MD, 1956, UNIVERSITY OF TORONTO (CANADA); neuropathology, neuromuscular disease, neurodegenerative diseases
 SWANSON, PHILLIP D.; PhD, 1964, UNIVERSITY OF LONDON (UK); movement disorders, neurology
 TAPSCOTT, STEPHEN J.; PhD, 1982, UNIVERSITY OF PENNSYLVANIA; molecular and developmental biology
 WILENSKY, ALAN J.; PhD, 1973, UNIVERSITY OF TORONTO (CANADA); neurology, treatment of epilepsy, testing and use of anticonvulsants

Research Professor

FRANKLIN, GARY M.; MD, 1969, GEORGE WASHINGTON UNIVERSITY; MPH, 1982, UNIVERSITY OF CALIFORNIA (BERKELEY); occupational injury, neurological epidemiology, public health nutrition
 SCHELLENBERG, GERARD D.; PhD, 1978, UNIVERSITY OF CALIFORNIA (RIVERSIDE); mapping of familial Alzheimer disease genes and cloning of Werner's syndrome gene

Associate Professor

BECKER, KYRA J.; MD, 1989, DUKE UNIVERSITY; stroke, neurophysiology
 GARDEN, GWENN A.; PhD, 1994, UNIVERSITY OF WASHINGTON; Caspase enzymes and apoptosis in HIV neural injury
 HOLMES, MARK D.; MD, 1977, OHIO STATE UNIVERSITY; neurology/EEG.
 KAPUR, VISHESH; MD, 1989, YALE UNIVERSITY; pulmonary and critical-care medicine
 KRAUS, ERIC E.; MD, 1991, UNIVERSITY OF MINNESOTA; general neurology
 KURATANI, JOHN D.; MD, 1990, TULANE UNIVERSITY; pediatric epilepsy, EEG
 LEVERENZ, JAMES B.; MD, 1985, UNIVERSITY OF WASHINGTON; neurology, psychiatry and behavioral sciences, Alzheimer's
 MILSTEIN, JERROLD M.; MD, 1964, UNIVERSITY OF MINNESOTA; pediatric neurology
 SOTERO DE MENEZES, MARCIO; MD, 1984, RIO DE JANEIRO ST. U. MED.

SCH. (BRAZIL); pediatric neurology, epilepsy, EEG
 TIRSCHWELL, DAVID L.; MD, 1991, CORNELL UNIVERSITY; neurology, stroke
 YANG, CLAIRE C.; MD, 1988, VANDERBILT UNIVERSITY; neurourology and electrophysiology testing
 ZUNT, JOSEPH R.; MD, 1991, UNIVERSITY OF MINNESOTA; MPH, 1998, UNIVERSITY OF WASHINGTON; infectious disease, neuroepidemiology of AIDS/HIV

Research Associate Professor

MOELLER, THOMAS; PhD, 1996, FREIE UNIVERSITY OF BERLIN (GERMANY); neurophysiology

Assistant Professor

BROWN, ANGUS M.; PhD, 1990, UNIVERSITY OF MANCHESTER (UK); neuroscience research
 CRAMER, STEVEN C.; MD, 1988, UNIVERSITY OF SOUTHERN CALIFORNIA; MMSc, 1997, HARVARD UNIVERSITY; stroke, sensorimotor human brain mapping, in healthy and diseased subjects
 DISTAD, B. JANE; MD, 1994, MEDICAL COLLEGE OF OHIO; General neurology, neuromuscular disease and electromyography
 FERN, ROBERT; PhD, 1992, UNIVERSITY COLLEGE, LONDON (UK); cellular mechanisms of ischemic neonatal brain injury (cerebral palsy)
 MEEKINS, GREGG D.; MD, 1993, TULANE UNIVERSITY; clinical neurophysiology, EMG
 PINTER, JOSEPH D.; MD, 1990, UNIVERSITY OF CALIFORNIA (LOS ANGELES); pediatric neurology
 WARNER, MARY H.; PhD, 0, UNIVERSITY OF GEORGIA; neuropsychology
 WATSON, NATHANIEL F.; MD, 1996, UNIVERSITY OF NORTH CAROLINA; Clinical sleep disorders, general neurology.
 WEISS, MICHAEL D.; MD, 1991, ALBERT EINSTEIN COLLEGE OF MEDICINE; EMG, EEG, neuropathology and neuromuscular disorders
 YUEN, ERIC C.; MD, 1989, UNIVERSITY OF CHICAGO; EMG, peripheral neuropathy

Obstetrics and Gynecology

Professor

BENEDETTI, THOMAS J.; MD, 1973, UNIVERSITY OF WASHINGTON; perinatal medicine.

BREMNER, WILLIAM J.; PhD, 1977, MONASH UNIVERSITY (AUSTRALIA); endocrinology
 BROWN, ZANE A.; MD, 1966, TEMPLE UNIVERSITY; insulin requiring diabetes complicating pregnancy, genital herpes complicating pregnancy.
 CLIFTON, DONALD K.; PhD, 1979, UNIVERSITY OF CALIFORNIA (LOS ANGELES); reproductive physiology.
 DISIS, MARY L.; MS, 1986, UNIVERSITY OF NEBRASKA; MD, 1986, UNIVERSITY OF NEBRASKA; oncology
 EASTERLING, THOMAS R.; MD, 1981, UNIVERSITY OF NORTH CAROLINA; perinatal medicine, hypertension during pregnancy
 ESCHENBACH, DAVID A.; MD, 1968, UNIVERSITY OF WISCONSIN; gynecology and infectious disease.
 GOFF, BARBARA A.; MD, 1986, UNIVERSITY OF PENNSYLVANIA; gynecologic oncology
 GREER, BENJAMIN E.; MD, 1966, UNIVERSITY OF PENNSYLVANIA; gynecologic oncology.
 HEBERT, MARY F.; PharmD, 1987, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); transplantation, immunology pharmacotherapeutics
 HICKOK, DURLIN E.; MD, 1973, UNIVERSITY OF MICHIGAN; perinatal epidemiology
 KNOPP, ROBERT H.; MD, 1964, CORNELL UNIVERSITY; metabolism and endocrinology
 KOH, WUI-JIN; MD, 1984, LOMA LINDA UNIVERSITY; therapeutic radiology.
 LEIN, JOHN N.; MD, 1955, UNIVERSITY OF WASHINGTON; government relations.
 MERRIAM, GEORGE R.; MD, 1976, HARVARD UNIVERSITY; metabolism and endocrinology.
 PATTON, DOROTHY L.; PhD, 1981, UNIVERSITY OF WASHINGTON; infectious disease
 SHIELDS, LAURENCE E.; MD, 1987, UNIVERSITY OF TEXAS (SAN ANTONIO); perinatal medicine
 SHY, KIRKWOOD K.; MD, 1973, WAYNE STATE UNIVERSITY; epidemiologic applications to problems in obstetrics and gynecology
 SOULES, MICHAEL R.; MD, 1972, UNIVERSITY OF CALIFORNIA (LOS ANGELES); reproductive endocrinology.
 SPADONI, LEON R.; MD, 1957, UNIVERSITY OF WASHINGTON; reproductive endocrinology.
 STEINER, ROBERT A.; PhD, 1975, UNIVERSITY OF OREGON; neuroendocrinology, neuroscience, endocrinology
 STENCHEVER, MORTON A.; MD, 1956, STATE UNIVERSITY OF NEW YORK (BUFFALO); gynecology, reproductive genetics, medical education.
 TAMIMI, HISHAM K.; MD, 1969, CAIRO UNIVERSITY (EGYPT); gynecologic oncology.

VONTVER, LOUIS A.; MD, 1960, UNIVERSITY OF MINNESOTA; MED, 1970, UNIVERSITY OF WASHINGTON; medical education, gynecology
 WALKER, EDWARD A.; MD, 1983, UNIVERSITY OF WASHINGTON; consultation-liaison psychiatry, medically unexplained physical symptoms

Associate Professor

CHENG, EDITH Y.; MS, 1979, SARAH LAWRENCE COLLEGE; MD, 1987, UNIVERSITY OF WASHINGTON; genetics, perinatal medicine
 ECKERT, LINDA O.; MD, 1987, UNIVERSITY OF CALIFORNIA (SAN DIEGO); gynecology.
 HITTI, JANE; MD, 1989, UNIVERSITY OF VERMONT; MPH, 1995, UNIVERSITY OF WASHINGTON; perinatal medicine, HIV and pregnancy
 LENTZ, GRETCHEN M.; MD, 1986, UNIVERSITY OF WASHINGTON; urogynecology
 MILLER WEERTMAN, LESLIE; MD, 1990, UNIVERSITY OF WASHINGTON; contraception, reproductive endocrinology, sexually transmitted disease
 MOORE, DONALD E.; MD, 1967, CASE WESTERN RESERVE UNIVERSITY; reproductive endocrinology.
 REED, SUSAN D.; MS, 1979, SARAH LAWRENCE COLLEGE; MD, 1986, STANFORD UNIVERSITY; gynecology, evidence-based medicine and clinical outcomes studies, hormone replacement therapy

Assistant Professor

CARR, DARCY R.; MD, 1993, MEDICAL COLLEGE OF WISCONSIN; Diabetes and heart disease risk factors in women with prior preeclampsia or gestational diabetes
 GARCIA, ROCHELLE; MD, 1989, UNIVERSITY OF WASHINGTON; cytology, gynecologic pathology
 KLINE, CAROLYN R.; MA, 1984, HARVARD UNIVERSITY; MD, 1990, STANFORD UNIVERSITY; perinatal medicine
 MAO, CONSTANCE; MD, 1988, UNIVERSITY OF SOUTHERN CALIFORNIA; Screening and prevention of cervical cancer, human papilloma virus infection
 MELVILLE, JENNIFER L.; MD, 1995, UNIVERSITY OF CALIFORNIA (LOS ANGELES); MPH, 2001, UNIVERSITY OF WASHINGTON; Depression in Obstetrics and Gynecology
 MELVILLE, JENNIFER L.; BA, 1991, UNIVERSITY OF TEXAS (AUSTIN); Depression in Obstetrics and Gynecology
 PALEY, PAMELA J.; MD, 1990, LOYOLA UNIVERSITY (CHICAGO); gynecologic oncology
 SWENSEN, RON E.; MD, 1984, LOMA LINDA UNIVERSITY; Gynecologic Oncology clinical trials

Ophthalmology

Professor

- CLARK, JOHN I.; PhD, 1974, UNIVERSITY OF WASHINGTON; biophysical and structural properties of cytoplasmic proteins, cell aging, differentiation
- KALINA, ROBERT E.; MD, 1960, UNIVERSITY OF MINNESOTA; vitreoretinal diseases.
- KINYOUN, JAMES L.; MD, 1971, UNIVERSITY OF NEBRASKA; vitreoretinal diseases.
- MILAM, ANN H.; PhD, 1967, UNIVERSITY OF TEXAS (SOUTHWESTERN); electron microscopy, ophthalmic pathology, retinitis pigmentosa, retinal cell biology
- ORCUTT, JAMES C.; PhD, 1976, UNIVERSITY OF COLORADO (DENVER); orbit, oculoplastics, neuro-ophthalmology
- PAGON, ROBERTA A.; MD, 1972, HARVARD UNIVERSITY; medical genetics
- PALCZEWSKI, KRZYSZTOF; PhD, 1986, TECHNICAL UNIVERSITY OF WROCLAW (POLAND); visual transduction.
- PATTON, DOROTHY L.; PhD, 1981, UNIVERSITY OF WASHINGTON; infectious disease
- REH, THOMAS A.; PhD, 1981, UNIVERSITY OF WISCONSIN; regeneration and development of central nervous system
- SAARI, JOHN C.; PhD, 1970, UNIVERSITY OF WASHINGTON; retinal biochemistry
- WEISS, AVERY H.; MD, 1974, MIAMI UNIVERSITY (OHIO); pediatric ophthalmology, strabismus

Associate Professor

- CHEN, PHILIP P.; MD, 1991, YALE UNIVERSITY; glaucoma
- CHUANG, ELAINE L.; MD, 1979, UNIVERSITY OF TEXAS (SAN ANTONIO); vitreoretinal diseases, ocular inflammation
- RIEKE, FREDERICK MARTIN; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); sensory signal processing and computation
- SAPERSTEIN, DAVID A.; MD, 1987, PENNSYLVANIA STATE UNIVERSITY; vitreoretinal diseases, macular degeneration
- SIRES, BRYAN S.; PhD, 1986, NORTHWESTERN UNIVERSITY; plastic and reconstructive surgery

Assistant Professor

- SHEN, TUENG T.; PhD, 1994, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; Refractive & advanced eye surgery techniques, Corneal tissue research, tissue donation awareness

Orthopaedics

Professor

- BENIRSCHKE, STEPHEN K.; MD, 1979, CASE WESTERN RESERVE UNIVERSITY; traumatology
- BERRYMAN, JACK W.; PhD, 1976, UNIVERSITY OF MARYLAND; history of exercise, sports medicine, and health behavior/philosophy
- BIGOS, STANLEY J.; MD, 1975, UNIVERSITY OF MISSOURI; orthopaedics, spine
- CHANSKY, HOWARD ALAN; MD, 1987, UNIVERSITY OF PENNSYLVANIA; orthopaedics, general
- CHAPMAN, JENS R.; MD, 1983, TECHNICAL UNIVERSITY OF MUNICH (GERMANY); orthopaedics, spine trauma/reconstruction
- CHESNUT, CHARLES; MD, 1966, UNIVERSITY OF FLORIDA; nuclear medicine
- CONRAD, ERNEST U.; MD, 1979, UNIVERSITY OF VIRGINIA; orthopaedics, tumors and bone transplantation
- DEYO, RICHARD A.; MD, 1975, PENNSYLVANIA STATE UNIVERSITY; health status measurement and evaluation of common medical practices
- EARY, JANET F.; MD, 1980, MICHIGAN STATE UNIVERSITY; nuclear medicine
- EYRE, DAVID R.; PhD, 1969, UNIVERSITY OF LEEDS (UK); connective tissue biology, collagen chemistry, bone and cartilage metabolism
- GARDNER, GREGORY C.; MD, 1984, BAYLOR UNIVERSITY; rheumatology
- GRANEY, DANIEL O.; PhD, 1965, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); gross anatomy, electron microscopy, intestinal absorption
- HANEL, DOUGLAS PAUL; MD, 1977, ST LOUIS UNIVERSITY; orthopaedics, hand/microvascular surgery
- HANSEN, SIGVARD T.; MD, 1961, UNIVERSITY OF WASHINGTON; orthopaedics, foot, ankle and amputations
- HENLEY, MICHAEL BRADFORD; MD, 1979, UNIVERSITY OF WASHINGTON; orthopaedics, trauma, post-traumatic reconstruction, spinal trauma
- MANN, FREDERICK A.; MD, 1975, INDIANA UNIVERSITY; emergency and trauma radiology
- MATSEN, FREDERICK A.; MD, 1968, BAYLOR UNIVERSITY; orthopaedics, bone and joint research, robotics
- MILLS, WILLIAM J.; MD, 1950, STANFORD UNIVERSITY; traumatology, knee ligament injury
- MIRZA, SOHAIL K.; MD, 1989, UNIVERSITY OF COLORADO (DENVER); spinal surgery/spine biomechanics
- OLERUD, JOHN E.; MD, 1971, UNIVERSITY OF WASHINGTON; dermatology

- RASKIND, WENDY H.; PhD, 1977, UNIVERSITY OF WASHINGTON; medical genetics.
- RICHARDSON, MICHAEL L.; MD, 1975, BAYLOR UNIVERSITY; bone and joint radiology and musculoskeletal radiology
- ROUTT, MILTON L.; MD, 1983, UNIVERSITY OF TEXAS (GALVESTON); orthopaedics, traumatology
- SANGEORZAN, BRUCE J.; MD, 1981, WAYNE STATE UNIVERSITY; orthopaedics, trauma, and foot and ankle deformity
- SIDLES, JOHN ARTHUR; PhD, 1983, UNIVERSITY OF WASHINGTON; seeing molecules (i.e., quantum-coherent instrumentation); regenerating cartilage
- SIMKIN, PETER A.; MD, 1961, UNIVERSITY OF PENNSYLVANIA; rheumatology.
- SMITH, DOUGLAS G.; MD, 1984, UNIVERSITY OF CHICAGO; orthopaedics, traumatology, foot, ankle, amputations
- SMITH, NATHAN J.; MD, 1945, UNIVERSITY OF WISCONSIN; sports medicine
- STAHELI, LYNN T.; MD, 1959, UNIVERSITY OF UTAH; pediatric orthopaedics
- TEITZ, CAROL CLAIRE; MD, 1974, YALE UNIVERSITY; orthopaedics, arthroscopy, sports medicine
- TENCER, ALLAN FRED; PhD, 1981, MCGILL UNIVERSITY (CANADA); biomechanics of joints, orthopaedic trauma implants
- TRUMBLE, THOMAS E.; MD, 1979, YALE UNIVERSITY; orthopaedics, hand and microvascular surgery
- VEDDER, NICHOLAS; MD, 1981, CASE WESTERN RESERVE UNIVERSITY; case history, plastic and reconstructive surgery.
- WILSON, ANTHONY J.; MBBChir, 1972, OTAGO UNIVERSITY (NEW ZEALAND); orthopaedic trauma imaging, teleradiology, digital radiography, MRI/CT

Associate Professor

- ALLAN, CHRISTOPHER H.; MD, 1992, NORTHWESTERN UNIVERSITY; hand and microvascular surgery
- BELLABARBA, CARLO; MD, 1992, MCGILL UNIVERSITY (CANADA); spine trauma and reconstruction, orthopaedic trauma
- GILLESPIE, THURMAN; MD, 1980, THOMAS JEFFERSON UNIVERSITY; musculoskeletal radiology, orthopaedics
- GREENLEE, THEODORE K.; MD, 1959, NORTHWESTERN UNIVERSITY; general orthopaedics.
- GROSS, TED S.; PhD, 1993, STATE UNIVERSITY OF NEW YORK (STONY BROOK); biomechanics
- KADEL, NANCY J.; MD, 1988, UNIVERSITY OF WASHINGTON; orthopedic surgery, foot/ankle
- LARSON, ROGER V.; MD, 1973, UNIVERSITY OF UTAH; orthopaedics,

anthroscopy, sports medicine and knee ligament reconstruction
 LEOPOLD, SETH S.; MD, 1993, CORNELL UNIVERSITY; Treatments for hip and knee arthritis, arthritis research, and joint replacement surgery
 MILLS, WILLIAM J.; MS, 1985, UNIVERSITY OF MINNESOTA; MD, 1989, UNIVERSITY OF COLORADO (DENVER); traumatology, knee ligament injury
 MOSCA, VINCENT S.; MD, 1978, UNIVERSITY OF ROCHESTER; pediatric orthopaedics, the child's foot, limb length discrepancies
 NORK, SEAN E.; MD, 1992, UNIVERSITY OF CALIFORNIA (SAN DIEGO); traumatology
 O'KANE, JOHN; MD, 1993, UNIVERSITY OF VERMONT; family medicine, sports medicine, team care
 OTT, SUSAN M.; MD, 1974, UNIVERSITY OF WASHINGTON; nephrology
 SIMONIAN, PETER TODD; MD, 1991, UNIVERSITY OF SOUTHERN CALIFORNIA; orthopaedics, general, sports medicine
 SMITH, KEVIN L.; MD, 1990, SOUTHERN ILLINOIS UNIVERSITY; shoulder and elbow orthopaedics
 SONG, KIT M.; MD, 1985, UNIVERSITY OF IOWA; pediatric orthopaedics, spinal deformities of children
 ZHANG, MIQIN; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); Biomaterials, tissue engineering, BioMEMS, bionanotechnology, surface modification, drug delivery.

Research Associate Professor

CHING, RANDAL PRESTON; PhD, 1992, UNIVERSITY OF WASHINGTON; orthopaedic biomechanisms related to injury prevention, injury mechanisms and injury repair
 WU, JIANN-JIU; PhD, 1978, TEXAS A&M UNIVERSITY; orthopaedics.

Assistant Professor

AVELLINO, ANTHONY M.; MD, 1992, COLUMBIA UNIVERSITY; Pediatric Neurosurgery
 BAREI, DAVID P.; MD, 1991, UNIVERSITY OF OTTAWA (CANADA); traumatology
 BRANSFORD, RICHARD; MD, 1996, VANDERBILT UNIVERSITY; Pediatric, Degenerative, & Traumatic Spine Conditions, Pediatric Orthopaedics, 3rd World Medicine
 DALES, MARK C.; MD, 1982, UNIVERSITY OF NEVADA; orthopaedics.
 TAITSMAN, LISA A.; MD, 1994, BROWN UNIVERSITY; MPH, 1995, HARVARD UNIVERSITY; Orthopaedic trauma

Otolaryngology—Head and Neck Surgery

Professor

COLTRERA, MARC DANTE; MD, 1981, YALE UNIVERSITY; otolaryngology/head and neck surgery
 DONALDSON, JAMES A.; MD, 1954, UNIVERSITY OF MINNESOTA; otology
 DUCKERT, LARRY GENE; PhD, 1977, UNIVERSITY OF MINNESOTA; otology/neurotology
 FUCHS, ALBERT F.; PhD, 1966, JOHNS HOPKINS UNIVERSITY; oculomotor physiology, vision
 FUTRAN, NEAL DAVID; DMD, 1982, UNIVERSITY OF PENNSYLVANIA; MD, 1987, ST UNIV OF NEW YORK (DOWNSTATE MED CTR); oral maxillofacial surgery
 GATES, GEORGE A.; MD, 1959, UNIVERSITY OF MICHIGAN; otology/neurotology, cochlear implantation
 HILLEL, ALLEN D.; MD, 1976, STANFORD UNIVERSITY; peripheral nerve physiology after injury, swallowing disorders in neuromuscular disease
 KUHL, PATRICIA K.; PhD, 1973, UNIVERSITY OF MINNESOTA; speech perception.
 MANNING, SCOTT C.; MD, 1980, TULANE UNIVERSITY; pediatric otolaryngology/head and neck surgery
 NORTON, SUSAN J.; PhD, 1982, UNIVERSITY OF WASHINGTON; normal and non-normal hearing, specifically cochlear mechanics, in humans and animals
 ORCUTT, JAMES C.; PhD, 1976, UNIVERSITY OF COLORADO (DENVER); orbit, oculoplastics, neuro-ophthalmology
 ROBINSON, LAWRENCE R.; MD, 1982, BAYLOR UNIVERSITY; physiatry
 RUBEL, EDWIN W.; PhD, 1969, MICHIGAN STATE UNIVERSITY; developmental neurobiology, with special emphasis on vertebrate auditory system development
 SCHUBERT, MARK M.; DDS, 1974, UNIVERSITY OF WASHINGTON; MSD, 1981, UNIVERSITY OF WASHINGTON; oral medicine/oral oncology
 SNYDER, JACK; PhD, 1971, UNIVERSITY OF WASHINGTON; audiology.
 STANLEY, ROBERT B.; MD, 1976, DUKE UNIVERSITY; otolaryngology/head and neck surgery, trauma, maxillofacial surgery
 TEMPEL, BRUCE L.; PhD, 1983, PRINCETON UNIVERSITY; molecular neurobiology/neurogenetics, especially potassium channel gene structure and function
 WERNER, LYNNE A.; PhD, 1980, LOYOLA UNIVERSITY (CHICAGO); auditory development, infant psychoacoustics
 WEYMULLER, ERNEST A.; MD, 1966, HARVARD UNIVERSITY; otolaryngology/head and neck surgery

Associate Professor

CALDERON, ROSEMARY; PhD, 1988, UNIVERSITY OF WASHINGTON; mental health and deafness, childhood psychopathology, early intervention
 FEENEY, M. PATRICK; PhD, 1993, UNIVERSITY OF WASHINGTON; The aging auditory system and wideband assessment of middle-ear function
 GLENN, MICHAEL GERARD; MD, 1981, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); otolaryngology/head and neck surgery, microvascular surgery
 INGLIS, ANDREW F.; MD, 1981, MEDICAL COLLEGE OF PENNSYLVANIA; pediatric otolaryngology/head and neck surgery
 LIPPE, WILLIAM R.; PhD, 1972, UNIVERSITY OF CALIFORNIA (IRVINE); neurobiology
 MAKIELSKI, KATHLEEN H.; MD, 1978, UNIVERSITY OF MICHIGAN; otolaryngology/head and neck surgery
 MILLER, ROBERT M.; PhD, 1976, UNIVERSITY OF WASHINGTON; speech, language pathology, adults, swallowing
 MURAKAMI, CRAIG S.; MD, 1983, UNIVERSITY OF WASHINGTON; facial cosmetic and reconstructive surgery
 PERKINS, JONATHAN A.; DO, 0, OSTEOPATHIC MEDICINE AND SURGERY (IOWA); pediatric otolaryngology head and neck surgery
 PINCZOWER, ERIC F.; MD, 1986, UNIVERSITY OF CALIFORNIA (IRVINE); otolaryngology/head and neck surgery, facial reconstructive surgery.
 REES, THOMAS; PhD, 1972, UNIVERSITY OF WASHINGTON; audiology.
 SIE, KATHLEEN C.Y.; MD, 1984, UNIVERSITY OF MICHIGAN; pediatric otolaryngology/head and neck surgery
 YUEH, BEVAN; MD, 1989, STANFORD UNIVERSITY; clinical epidemiology of hearing loss and head and neck cancer

Research Associate Professor

OESTERLE, ELIZABETH C.; PhD, 1987, PURDUE UNIVERSITY; hair cell regeneration and supporting-cell functioning
 PHILLIPS, JAMES O.; PhD, 1993, UNIVERSITY OF WASHINGTON; vestibular neurobiology, neuronal control of eye and head movements during gaze shifts in primates

Assistant Professor

HUME, CLIFFORD; PhD, 1988, CORNELL UNIVERSITY; Otology, cochlear implantation, inner ear embryology and gene therapy
 MOST, SAM P.; MD, 1995, STANFORD UNIVERSITY; Facial plastic and reconstructive surgery
 WHIPPLE, MARK E.; MD, 1991, UNIVERSITY OF WASHINGTON; MS, 2001, MASSACHUSETTS INSTITUTE OF

Pathology

Professor

- ALPERS, CHARLES E.; MD, 1978, UNIVERSITY OF ROCHESTER; clinical/experimental glomerular disease, AIDS in man and experimental simian AIDS, vascular biology
- ALVORD, ELLSWORTH C.; MD, 1946, CORNELL UNIVERSITY; neuropathology, experimental allergic encephalitis
- ARGENYI, ZSOLT B.; MD, 1978, SEMMELWEIS MEDICAL UNIVERSITY (HUNGARY); dermatopathology
- BOWEN-POPE, DANIEL; PhD, 1979, UNIVERSITY OF CALIFORNIA (BERKELEY); gene regulation, growth factors and receptors
- BYERS, PETER H.; MD, 1969, CASE WESTERN RESERVE UNIVERSITY; extracellular matrix synthesis, genetic disorders of collagen metabolism, secretion, human genetics
- CLOWES, ALEXANDER W.; MD, 1972, HARVARD UNIVERSITY; vascular smooth muscle cell growth control arterial injury and repair
- COLLINS, STEVEN J.; MD, 1973, COLUMBIA UNIVERSITY; retinoic acid receptors and the pathogenesis of malignancy
- DISIS, MARY L.; MS, 1986, UNIVERSITY OF NEBRASKA; MD, 1986, UNIVERSITY OF NEBRASKA; oncology
- DISTECHE, CHRISTINE M.; PhD, 1976, UNIVERSITY OF LIEGE (BELGIUM); molecular genetics of sex chromosomes, X inactivation, human and mouse cytogenetics
- EARY, JANET F.; MD, 1980, MICHIGAN STATE UNIVERSITY; nuclear medicine
- EISEN, HARVEY; PhD, 1967, UNIVERSITY OF TORONTO (CANADA); host-parasite interactions, generation of genetic diversity
- FAUSTO, NELSON; MD, 1960, SAO PAULO STATE UNIVERSITY (BRAZIL); liver regeneration, tumor biology, carcinogenesis, growth factors
- FRIEND, STEPHEN H.; PhD, 1979, INDIANA UNIVERSITY; molecular biology of embryonal tumor, molecular pharmacology, tumor suppressor genes
- GIACHELLI, CECILIA; PhD, 1987, UNIVERSITY OF WASHINGTON; adhesion molecules and vascular biology processes
- GROUDINE, MARK; PhD, 1976, UNIVERSITY OF PENNSYLVANIA; chromatin structure and gene activity
- GUGGENHEIM, STEPHEN J.; MD, 1964, HARVARD UNIVERSITY; microbiology, renal pathology
- HARLAN, JOHN M.; MD, 1973, UNIVERSITY OF CHICAGO; vascular biology with emphasis on leukocyte-endothelial adhesion
- HELLSTROM, KARL-ERIK; DrMed, 1964, UNIVERSITY OF STOCKHOLM (SWEDEN); DrMed, 1966, KAROLINSKA INSTITUTE (SWEDEN); tumor immunology
- HORWITZ, MARSHALL S.; PhD, 1988, UNIVERSITY OF WASHINGTON; inherited white blood cell disorders, including leukemia
- KEMP, CHRISTOPHER JAMES; PhD, 1989, UNIVERSITY OF WISCONSIN; genetic and environmental influence on multistage cancer in the mouse
- KIVIAT, NANCY C.; MA, 1970, UNIVERSITY OF WASHINGTON; MD, 1975, UNIVERSITY OF WASHINGTON; epidemiologic and molecular biologic studies of the relationship between HPV, HIV, and neoplasia
- LOEB, LAWRENCE A.; PhD, 1967, UNIVERSITY OF CALIFORNIA (BERKELEY); DNA replication, cancer and AIDS
- MARTIN, GEORGE; MD, 1953, UNIVERSITY OF WASHINGTON; somatic cell genetics, pathobiology of aging, neurodegenerative disorders
- MILLER, ARTHUR D.; PhD, 1982, STANFORD UNIVERSITY; virology, gene therapy
- MONNAT, RAYMOND J.; MD, 1976, UNIVERSITY OF CHICAGO; somatic mutation, somatic cell molecular genetics, human genetic disease
- MONTINE, THOMAS J.; PhD, 1988, UNIVERSITY OF ROCHESTER; age-related neurodegeneration, Alzheimer's disease, Parkinson's disease,
- MOTTET, N KARLE; MD, 1952, YALE UNIVERSITY; effects of trace elements, especially methylmercury and arsenic, on growth and development.
- MURRY, CHARLES E.; PhD, 1989, DUKE UNIVERSITY; myocardial infarction, heart regeneration, skeletal/cardiac muscle differentiation
- NARAYANAN, A SAMPATH; PhD, 1967, UNIVERSITY OF MADRAS (INDIA); connective tissue, periodontal disease, regulation of fibroblast growth, matrix synthesis
- NICOSIA, ROBERTO F.; PhD, 1984, MEDICAL COLLEGE OF PENNSYLVANIA; vascular and renal pathology
- NORWOOD, THOMAS H.; MD, 1968, UNIVERSITY OF MARYLAND; somatic cell genetics, pathobiology of aging, mitotic cell cycle regulation
- PAGE, ROY C.; PhD, 1967, UNIVERSITY OF WASHINGTON; connective-tissue pathology, chronic inflammation, immunopathology, periodontal disease
- PIEPKORN, MICHAEL W.; PhD, 1980, UNIVERSITY OF WASHINGTON; dermatology
- PREHN, RICHMOND T.; MD, 1947, LONG ISLAND UNIVERSITY; cancer research
- RABINOVITCH, PETER S.; PhD, 1980, UNIVERSITY OF WASHINGTON; cellular aging, preneoplastic disease, cell cycle abnormalities, DNA change
- REAY, DONALD T.; MD, 1963, UNIVERSITY OF UTAH; MPA, 1978, SEATTLE UNIVERSITY; forensic medicine.
- REICHENBACH, DENNIS D.; MD, 1958, UNIVERSITY OF WASHINGTON; cardiovascular pathology, myocardial cell injury
- REIDY, MICHAEL A.; PhD, 1976, CAMBRIDGE UNIVERSITY (UK); identification of migration specific genes, expression of matrix metalloproteinases
- ROHRSCHEIDER, LARRY R.; PhD, 1973, UNIVERSITY OF WISCONSIN; control of growth, differentiation, transformation by the c-fms proto-oncogene
- ROSENFELD, MICHAEL E.; PhD, 1981, UNIVERSITY OF WISCONSIN; mechanisms of atherogenesis and macrophage gene expression
- SALE, GEORGE E.; MD, 1968, STANFORD UNIVERSITY; immunopathology of bone marrow transplantation, graft-versus-host
- SCHWARTZ, STEPHEN MARK; PhD, 1973, UNIVERSITY OF WASHINGTON; vascular biology, atherosclerosis, molecular basis of lineage, developmental biology, cell kinetics
- SHAW, CHENG-MEI; MD, 1950, NATIONAL TAIWAN UNIVERSITY; neuropathology, immunopathology, trace metal neurotoxicology
- SHULMAN, HOWARD M.; MD, 1971, UNIVERSITY OF CALIFORNIA (LOS ANGELES); graft-versus-host disease; venocclusive disease of the liver
- SMITH, GERALD R.; PhD, 1970, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; molecular biology of genetic recombination and regulation of gene expression.
- SPENCE, ALEXANDER M.; MD, 1965, UNIVERSITY OF CHICAGO; neurology, neuro-oncology.
- STAMATOYANNOPOULOS, G.; MD, 1958, UNIVERSITY OF ATHENS (GREECE); DrMedSci, 1960, UNIVERSITY OF ATHENS (GREECE); medical genetics.
- SUMI, SHUZO MARK; MD, 1956, UNIVERSITY OF TORONTO (CANADA); neuropathology, neuromuscular disease, neurodegenerative diseases
- TAIT, JONATHAN F.; PhD, 1983, WASHINGTON UNIVERSITY; biochemistry of blood coagulation, laboratory diagnosis of genetic disorders
- TAPSCOTT, STEPHEN J.; PhD, 1982, UNIVERSITY OF PENNSYLVANIA; molecular and developmental biology
- TRUE, LAWRENCE DASHIELL; MD, 1971, TULANE UNIVERSITY; urologic pathology, nuclear aspects of tumor differentiation
- VESSELLA, ROBERT L.; PhD, 1974, UNIVERSITY OF MISSISSIPPI; tumor markers and immunology
- WIGHT, THOMAS; PhD, 1972, UNIVERSITY OF NEW HAMPSHIRE; connective

tissue biology and pathology, proteoglycans metabolism, atherosclerosis
 WOLF, NORMAN S.; PhD, 1960, NORTH-WESTERN UNIVERSITY; hematopoietic stem cell dynamics and transplantation in radiation biology
 YEUNG, RAYMOND S.; MD, 1982, UNIVERSITY OF TORONTO (CANADA); general and surgical oncology

Research Professor

ALBERS, JOHN J.; PhD, 1969, UNIVERSITY OF ILLINOIS; lipoprotein metabolism and pathophysiology
 CHI, EMIL YIMUO; PhD, 1971, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); lung structures and function, mast cell secretion and inflammation
 GALLOWAY, DENISE A.; PhD, 1976, CITY UNIVERSITY OF NEW YORK; viral pathogenesis and neoplasia
 RAINES, ELAINE W.; MS, 1975, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); molecular mechanisms responsible for vascular cell migration
 STEPHENS, KAREN G.; PhD, 1982, INDIANA UNIVERSITY; molecular genetics of human disease; human gene mapping

Associate Professor

BORNFELDT, KARIN E.; PhD, 1991, LINKÖPING UNIVERSITY (SWEDEN); cardiovascular disease in diabetes, focusing on vascular muscle cells
 CLURMAN, BRUCE E.; PhD, 1988, CORNELL UNIVERSITY; oncology
 FINN, LAURA S.; MD, 1989, PENNSYLVANIA STATE UNIVERSITY; pediatric pathology
 FLIGNER, CORINNE L.; MD, 1976, UNIVERSITY OF NEW MEXICO; autopsy and forensic pathology, fetal and perinatal pathology, forensic toxicology
 HACKMAN, ROBERT C.; MD, 1971, STANFORD UNIVERSITY; infectious and pulmonary complications in immunocompromised patients
 HEVNER, ROBERT F.; PhD, 1992, MEDICAL COLLEGE OF WISCONSIN; development of cerebral cortex
 KAPUR, RAJ P.; MD, 1988, UNIVERSITY OF SOUTHERN CALIFORNIA; normal and abnormal development of the enteric nervous system
 KIEM, HANS-PETER; MD, 1987, UNIVERSITY OF ULM (GERMANY); oncology/hematology
 KINSELLA, MICHAEL G.; PhD, 1978, UNIVERSITY OF OREGON; endothelial cell biology
 LAWTON, THOMAS J.; MD, 1990, UNIVERSITY OF MICHIGAN; clinico-pathologic research in breast cancer with particular interest in lobular carcinoma
 MYERSON, DAVID; PhD, 1979, ALBERT

EINSTEIN COLLEGE OF MEDICINE; the pathology of viral disease in humans
 NELSON, PETER S.; MD, 1986, UNIVERSITY OF KANSAS; the study of human carcinogenesis using tools of genomics and bioinformatics
 OLSON, JAMES M.; MD, 1991, UNIVERSITY OF MICHIGAN; hematology, oncology
 OTT, SUSAN M.; MD, 1974, UNIVERSITY OF WASHINGTON; nephrology
 PATTERSON, KATHLEEN; MD, 1976, UNIVERSITY OF IOWA; pediatric pathology
 PORTER, PEGGY L.; MD, 1987, UNIVERSITY OF NEW MEXICO; identifying/understanding the molecular events associated with the initiation/progression of cancer
 QWARNSTROM, EVA E.; PhD, 1984, UNIVERSITY OF LUND (SWEDEN); cell matrix interaction, cytokine signaling
 RUBIN, BRIAN PAUL; PhD, 1995, CORNELL UNIVERSITY; bone and soft tissue tumors
 SCHMIDT, RODNEY; PhD, 1984, UNIVERSITY OF WASHINGTON; surgical pathology, pulmonary pathology, sarcomas, image analysis, electron microscopy
 SIMRELL, CHARLES R.; MD, 1978, UNIVERSITY OF FLORIDA; hematology and hematopathology
 THORNING, DAVID R.; MD, 1965, UNIVERSITY OF KANSAS; anatomic pathology, pulmonary pathology, tissue biology, electron microscopy
 VINCENT, INEZ J.; PhD, 1987, INDIANA UNIVERSITY; pathogenesis of Alzheimer's disease
 VIRGIN, JEFFREY B.; PhD, 1986, CASE WESTERN RESERVE UNIVERSITY; surgical pathology, cytopathology, autopsy pathology
 ZHANG, JING; PhD, 1995, DUKE UNIVERSITY; neuropathology and ocular pathology, Parkinson's disease

Research Associate Professor

OSHIMA, JUNKO; PhD, 1992, BOSTON UNIVERSITY; pathobiology of aging
 SIEBERT, JOSEPH ROBERT; PhD, 1985, UNIVERSITY OF WASHINGTON; pediatric pathology

Assistant Professor

ADLER, DAVID A.; PhD, 1996, UNIVERSITY OF WASHINGTON; mammalian x-chromosome inactivation
 BORN, DONALD E.; PhD, 1986, UNIVERSITY OF VIRGINIA; family medicine, sports medicine, team care
 BURMER, GLENNA C.; PhD, 1983, UNIVERSITY OF WASHINGTON; molecular events in tumor progression, molecular evolution, diagnostic molecular pathology
 GARCIA, ROCHELLE; MD, 1989, UNIVERSITY OF WASHINGTON; cytology, gynecologic pathology

KUECHLE, MELANIE K.; MD, 1989, BAYLOR UNIVERSITY; dermatology
 LEPPIG, KATHLEEN; MD, 1986, CASE WESTERN RESERVE UNIVERSITY; medical genetics
 PARKS, WILLIAM A.; MD, 1988, WASHINGTON UNIVERSITY; Transforming growth factor beta signaling, endocytosis
 RHIM, JONATHAN A.; MD, 1989, GEORGE WASHINGTON UNIVERSITY; molecular mechanisms of medical disease
 SMITH, KELLY D.; PhD, 1996, UNIVERSITY OF IOWA; Immunology, Molecular Biology, Host-Pathogen Interactions, Genomics, Renal and Cardiac Pathology
 WILLIAMS, KANDACE J.; PhD, 1987, DARTMOUTH COLLEGE; pathology, toxicology
 WRIGHT, A MORGAN; MD, 1976, PENNSYLVANIA STATE UNIVERSITY; cytology, histology
 YEH, MENG-CHE; PhD, 1997, UNIVERSITY OF PENNSYLVANIA; Surgical pathology with special interest in liver and gastrointestinal pathology

Research Assistant Professor

HU, QUBAI; PhD, 1995, UNIVERSITY OF ARKANSAS; Molecular mechanisms of Alzheimer pathogenesis emphasizing on neural adaptor FE65 and APP function
 MONTINE, KATHLEEN S.; PhD, 1988, UNIVERSITY OF ROCHESTER; Alzheimer's disease, aging brain, and age-related neurodegenerative disease
 REINECKE, HANS; PhD, 1995, UNIVERSITY OF FREIBURG (GERMANY); Myocardial infarction, strategies for repair, cell based therapy, gene therapy, stem cells.
 SWANSON, KRISTIN R.; PhD, 1999, UNIVERSITY OF WASHINGTON; mathematical medicine&biology; mathematical modeling of pathological biosystems&imaging; complex systems
 ZHENG, NATALIE N.; PhD, 1998, UNIVERSITY OF NEW SOUTH WALES(AUSTRALIA); T cell immunity in control of HIV infection and HIV pathogenesis

Lecturer

EK, MARIT; MBChB, 1959, UNIVERSITY OF CAPE TOWN (SOUTH AFRICA); gynecological/breast pathology
 PENDERGRASS, WILLIAM R.; PhD, 1977, UNIVERSITY OF WASHINGTON; DNA replication, caloric restriction, gerontology, invitro senescence

Pediatrics

Professor

BENNETT, FORREST C.; MD, 1970, UNIVERSITY OF MINNESOTA; child development and handicapped children

- BERGMAN, ABRAHAM; MD, 1958, CASE WESTERN RESERVE UNIVERSITY; ambulatory pediatrics
- BERNSTEIN, IRWIN D; MD, 1967, NEW YORK UNIVERSITY; hematology, oncology
- BURNS, JANE L.; MD, 1978, UNIVERSITY OF WASHINGTON; infectious diseases
- CHANCE, PHILLIP F.; MD, 1978, UNIVERSITY OF TENNESSEE; pediatric neurology and genetics
- CHRISTIE, DENNIS L.; MD, 1968, NORTHWESTERN UNIVERSITY; gastroenterology
- CLARREN, STERLING K; MD, 1973, UNIVERSITY OF MINNESOTA; congenital defects
- CONNELL, FREDERICK A; MD, 1972, NEW YORK UNIVERSITY; child health, child health services research, Medicaid, community health assessment
- COOMBS, JOHN B.; MD, 1972, CORNELL UNIVERSITY; Health care outcomes, rural health policy, healthcare workforce issues and applied nutrition.
- COREY, LAWRENCE; MD, 1971, UNIVERSITY OF MICHIGAN; laboratory medicine: diagnosis, therapy, and pathogenesis of viral infections, AIDS virus
- DEISHER, ROBERT W; MD, 1944, WASHINGTON UNIVERSITY; adolescent medicine
- DEL BECCARO, MARK A.; MD, 1985, UNIVERSITY OF WASHINGTON; pediatric emergency medicine
- DIEKEMA, DOUGLAS S.; MD, 1985, UNIVERSITY OF NORTH CAROLINA; MPH, 1993, UNIVERSITY OF WASHINGTON; pediatric emergency medicine
- EDDY, ALLISON A.; MD, 1975, McMASTER UNIVERSITY (CANADA); nephrology
- EMANUEL, IRVIN; MA, 1956, UNIVERSITY OF ARIZONA; MD, 1960, UNIVERSITY OF ROCHESTER; MS, 1966, UNIVERSITY OF WASHINGTON; epidemiology of maternal and child health problems, growth and development
- EMERY, HELEN; MD, 1971, UNIVERSITY OF ADELAIDE (AUSTRALIA); Pediatric rheumatology - clinical, rehabilitation and health outcomes research
- FOLSOM, RICHARD C; PhD, 1979, UNIVERSITY OF WASHINGTON; pediatric audiology
- FRENCH, JAMES W.; MD, 1963, UNIVERSITY OF MICHIGAN; pediatric cardiology
- FRENKEL, LISA M.; MD, 1987, UNIVERSITY OF KANSAS; infectious diseases
- GEYER, JEFFREY R.; MD, 1977, WAYNE STATE UNIVERSITY; hematology/oncology
- GIBSON, RONALD L; PhD, 1982, WASHINGTON UNIVERSITY; pulmonology
- GLEASON, CHRISTINE A.; MD, 1979, UNIVERSITY OF ROCHESTER; neonatology
- GROSSMAN, DAVID C.; MD, 1982, UNIVERSITY OF CALIFORNIA (LOS ANGELES); MPH, 1990, UNIVERSITY OF WASHINGTON; injury control, Native American health, and pediatric health services research
- GUNTHEROTH, WARREN G; MD, 1952, HARVARD UNIVERSITY; pediatric cardiology
- GURALNICK, MICHAEL J; PhD, 1967, LEHIGH UNIVERSITY; developmental disabilities, peer relations, social and language development, evaluation systems
- HAYDEN, PATRICIA; MD, 1953, UNIVERSITY OF ROCHESTER; congenital defects
- HAYS, ROSS M.; MD, 1978, UNIVERSITY OF WASHINGTON; pediatric rehabilitation, medical ethics, neuromuscular diseases, congenital defects
- HODSON, W. ALAN; MD, 1959, UNIVERSITY OF MANITOBA (CANADA); MMSc, 1964, OHIO STATE UNIVERSITY; neonatal and respiratory diseases
- JACKSON, J CRAIG; MD, 1979, VANDERBILT UNIVERSITY; neonatal and respiratory diseases
- JAFFE, KENNETH M; MD, 1975, HARVARD UNIVERSITY; pediatric rehabilitation, brain injury, neuromuscular diseases, congenital defects
- JONES, THOMAS K; MD, 1978, JEFFERSON MEDICAL COLLEGE; pediatric cardiology
- LEMIRE, RONALD J; MD, 1962, UNIVERSITY OF WASHINGTON; teratology
- LYNN, ANNE; MD, 1975, STANFORD UNIVERSITY; pediatric anesthesiology
- MARCUSE, EDGAR K; MD, 1967, STANFORD UNIVERSITY; MPH, 1973, UNIVERSITY OF WASHINGTON; general pediatrics
- MARTIN, LYNN D; MD, 1982, UNIVERSITY OF WASHINGTON; pediatric anesthesiology
- MASSAGLI, TERESA L.; MD, 1982, YALE UNIVERSITY; pediatric physiatry

 WEISS, AVERY H.; MD, 1974, MIAMI UNIVERSITY (OHIO); pediatric ophthalmology, strabismus
 WOOLFREY, ANN E.; MD, 1984, UNIVERSITY OF MINNESOTA; pediatric hematology/oncology
 WRIGHT, JEFFREY A.; MD, 1978, UNIVERSITY OF MISSOURI; general pediatrics
 ZELIKOVIC, ISRAEL; MD, 1977, TEL AVIV UNIVERSITY (ISRAEL); nephrology

Research Associate Professor

SPIERS, PHILIP S.; PhD, 1966, OXFORD UNIVERSITY (UK); SIDS

Assistant Professor

BADEN, HARRIS P.; MD, 1989, UNIVERSITY OF TEXAS (GALVESTON); Perioperative care of infants and children with congenital heart disease.
 CHABRA, SHILPI; MBBS, 1986, BOMBAY UNIVERSITY (INDIA); MD, 1989, BOMBAY UNIVERSITY (INDIA); Care of normal & high risk newborns. Prevention of chronic lung disease. Epidemiology of gastroschisis
 EBEL, BETH E.; MS, 1989, OXFORD UNIVERSITY (UK); MD, 1996, HARVARD UNIVERSITY; MPH, 2001, UNIVERSITY OF WASHINGTON; pediatric injury prevention, community intervention programs

HING, ANNE V.; MD, 1985, WASHINGTON UNIVERSITY; Genetics and Craniofacial Development

KURATANI, JOHN D.; MD, 1990, TULANE UNIVERSITY; pediatric epilepsy, EEG

LEPPIG, KATHLEEN; MD, 1986, CASE WESTERN RESERVE UNIVERSITY; medical genetics

LINGAPPA, JAIRAM R.; PhD, 1987, HARVARD UNIVERSITY; The impact of genomics on public health response to infectious diseases

MCPHILLIPS, HEATHER A.; MD, 1994, UNIVERSITY OF CHICAGO; Patient safety and medication errors. Medical education. Vaccine safety.

PARIS, CAROLYN A.; MD, 1991, CORNELL UNIVERSITY; pediatric emergency medicine

RAFF, MICHAEL L.; MD, 1991, MCGILL UNIVERSITY (CANADA); Inherited disorders of metabolism and disorders of skeletal growth

ROBERTS, JOAN S.; MD, 1992, UNIVERSITY OF NEVADA; Pediatric critical care

SALERNO, JACK; MD, 1996, UNIVERSITY OF CALIFORNIA (SAN DIEGO); Pediatric cardiology with an expertise in electrophysiology and pacemaker implementation

SIDBURY, ROBERT; MD, 1993, DUKE UNIVERSITY; pediatric dermatology, inflammatory skin diseases: atopic dermatitis & vascular tumors of infancy.

SUSKIND, DAVID; MD, 1997, LOUISIANA STATE UNIVERSITY; Microchimerism and development of autoimmune diseases

TAMURA, GLEN S.; PhD, 1987, STANFORD UNIVERSITY; infectious diseases

WRIGHT, PAIGE LEANNE; MD, 1996, INDIANA UNIVERSITY; Injury prevention in children

ZINNER, SAMUEL; MD, 1994, UNIVERSITY OF CALIFORNIA (BERKELEY); Developmental & Behavioral Pediatric & Adolescent psychosocial & medical issues

Research Assistant Professor

HAMBLETT, NICOLE M.; PhD, 1999, UNIVERSITY OF WASHINGTON; Clinical trials, Cystic Fibrosis, Longitudinal data analysis

STARR, JACQUELINE R.; PhD, 2003, UNIVERSITY OF WASHINGTON; clinical and genetic epidemiology of craniofacial malformations, epidemiologic methods

Lecturer

POLIFKA, JANINE E.; PhD, 1985, UNIVERSITY OF LOUISVILLE; teratology

REES, JANE; MS, 1972, UNIVERSITY OF WASHINGTON; nutritional support of adolescent health, especially during pregnancy; eating disorders

SNIDERMAN KING, LISA C.; MS, 1999,

MCGILL UNIVERSITY (CANADA); Genetic metabolic disorders: Genetic counseling, management, clinical trials of new treatments

TRAHMS, CRISTINE M.; MS, 1972, UNIVERSITY OF WASHINGTON; growth and development of young children: metabolic disorders, special health care needs

Pharmacology

Professor

BEAVO, JOSEPH A.; PhD, 1970, VANDERBILT UNIVERSITY; roles and molecular mechanisms of cyclic nucleotide phosphodiesterase regulation of cell function

BOMSZTYK, KAROL; MD, 1977, UNIVERSITY OF ROCHESTER; role of cytokine-induced protein kinases in the regulation of gene expression

CATTERALL, WILLIAM; PhD, 1972, JOHNS HOPKINS UNIVERSITY; molecular biology of ion channels, molecular pharmacology and neurobiology

CHAVKIN, CHARLES; PhD, 1982, STANFORD UNIVERSITY; cell and molecular mechanisms of psychoactive opiate drugs to understand normal and pathophysiology

DORSA, DANIEL M.; PhD, 1977, UNIVERSITY OF CALIFORNIA (DAVIS); neuropharmacology, neurochemistry

HOL, WILHELMUS G.J.; PhD, 1971, UNIVERSITY OF GRONINGEN (NETHERLANDS); protein crystallography, drug design, vaccine development, and protein engineering

HORITA, AKIRA; PhD, 1954, UNIVERSITY OF WASHINGTON; neuropsychopharmacology

JUCHAU, MONT RAWLINGS; PhD, 1966, UNIVERSITY OF IOWA; developmental pharmacology, drug metabolism

KREBS, EDWIN G.; MD, 1943, WASHINGTON UNIVERSITY; intracellular signaling mechanisms involving protein phosphorylation

MC KNIGHT, G STANLEY; PhD, 1976, STANFORD UNIVERSITY; phosphorylation; gene expression and neuro/endocrine physiology in mice using genetic approaches

MOON, RANDALL T.; PhD, 1982, UNIVERSITY OF WASHINGTON; embryonic development; signal transduction; cancer biology

NATHANSON, NEIL; PhD, 1975, BRANDEIS UNIVERSITY; neurobiology; molecular analysis of neural signal transduction by muscarinic and neurokinin receptors

OMIECINSKI, CURTIS J.; PhD, 1980, UNIVERSITY OF WASHINGTON; molecular toxicology, genetic regulation/

expression of drug/chemical metabolizing enzymes

SLATTERY, JOHN T.; PhD, 1978, STATE UNIVERSITY OF NEW YORK (BUFFALO); pharmacokinetics/pharmacodynamics of alkylating agents, oncology/bone marrow transplant

STORM, DANIEL R.; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); molecular basis of neuroplasticity; cAMP and Ca²⁺ signal transduction systems in the CNS

TEMPEL, BRUCE L.; PhD, 1983, PRINCETON UNIVERSITY; molecular neurobiology/neurogenetics, especially potassium channel gene structure and function

VINCENZI, FRANK F.; PhD, 1965, UNIVERSITY OF WASHINGTON; membrane transport, autonomic and cardiovascular pharmacology

WATSON, EILEEN L.; PhD, 1970, UNIVERSITY OF UTAH; salivary gland physiology and regulation

Research Professor

SCHELLENBERG, GERARD D.; PhD, 1978, UNIVERSITY OF CALIFORNIA (RIVERSIDE); mapping of familial Alzheimer disease genes and cloning of Werner's syndrome gene

Associate Professor

BAJJALIEH, SANDRA M.; PhD, 1989, UNIVERSITY OF WISCONSIN; molecular neurobiology

DE JONGH, KAREN S.; PhD, 1985, UNIVERSITY OF NEW SOUTH WALES(AUSTRALIA); characterization of the molecular components of excitability, mechanism

HALPERN, LAWRENCE M.; PhD, 1961, ALBERT EINSTEIN COLLEGE OF MEDICINE; neuropharmacology

HAMBLIN, MARK W.; PhD, 1982, UNIVERSITY OF CALIFORNIA (SAN DIEGO); molecular and cell biology of serotonin receptors, geriatric psychiatry

KAHN, MICHAEL; PhD, 1983, YALE UNIVERSITY; molecular recognition, protein structure-function relationships, peptidomimetics

STELLA, NEPHI; PhD, 1995, ECOLE POLYTECHNIQUE FEDERALE DE LAUSANNE; microglia cells activation: involvement of endogenous cannabinoid ligands and their allied receptors

WANG, EDITH H.; PhD, 1991, COLUMBIA UNIVERSITY; Regulation of genes that control cellular proliferation and differentiation

XIA, ZHENGUI; PhD, 1991, UNIVERSITY OF WASHINGTON; neuronal apoptosis, neuronal gene regulation

Research Associate Professor

COOK, DAVID G.; PhD, 1991, YALE UNIVERSITY; molecular mechanisms of Alzheimer's disease

SCHEUER, TODD; PhD, 1983, UNIVERSITY OF ROCHESTER; structure and function of ion channels in electricable cells, regulati

Assistant Professor

ZHENG, NING; PhD, 1997, UNIVERSITY OF TEXAS (SOUTHWESTERN); Protein X-ray crystallography

Research Assistant Professor

AMIEUX, PAUL S.; PhD, 1997, UNIVERSITY OF WASHINGTON; reproduction, microarrays, genome sciences
RYBALKIN, SERGEI D.; PhD, 1986, MOSCOW STATE UNIVERSITY (RUSSIA); Pharmacology, Signal transduction, Smooth muscle, Cyclic nucleotide phosphodiesterases.
WESTENBROEK, RUTH E.; PhD, 1987, UNIVERSITY OF WASHINGTON; expression of calcium channels in developing and adult nervous systems

Physiology and Biophysics

Professor

ALMERS, WOLFHARD; PhD, 1971, UNIVERSITY OF ROCHESTER; skeletal muscle physiology
ANDERSON, MARJORIE E; PhD, 1969, UNIVERSITY OF WASHINGTON; physiology of basal ganglia and thalamus; neural control of movement
BERGER, ALBERT J; PhD, 1967, PRINCETON UNIVERSITY; PhD, 1976, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); neural and chemical control of respiration, neurobiology, synaptic transmission
BINDER, MARC D; PhD, 1974, UNIVERSITY OF SOUTHERN CALIFORNIA; organization of spinal reflexes
BOTHWELL, MARK ALLEN; PhD, 1975, UNIVERSITY OF CALIFORNIA (BERKELEY); molecular and cellular physiology.
BRENGELMANN, GEORGE L; PhD, 1967, UNIVERSITY OF WASHINGTON; temperature regulation, cutaneous blood flow.
CARLSON, STEVEN S.; PhD, 1975, UNIVERSITY OF CALIFORNIA (BERKELEY); molecular and cellular physiology of synaptic transmission
CONLEY, KEVIN E; PhD, 1983, UNIVERSITY OF WISCONSIN; muscle metabolism and energetics in vivo
CRILL, WAYNE E; MD, 1962, UNIVERSITY OF WASHINGTON; properties of spinal and cortical neurons, mechanisms of repetitive firing of CNS neurons
DETWILER, PETER B; PhD, 1970, GEORGETOWN UNIVERSITY; physiology of photoreceptors

FEIGL, ERIC O; MD, 1958, UNIVERSITY OF MINNESOTA; cardiovascular physiology, coronary and cerebral circulation
FETZ, EBERHARD; PhD, 1966, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; cortical regulation of movement
FROEHNER, STANLEY C; PhD, 1973, CALIFORNIA INSTITUTE OF TECHNOLOGY; molecular mechanisms of synapse formation and muscle disease
FUCHS, ALBERT F; PhD, 1966, JOHNS HOPKINS UNIVERSITY; oculomotor physiology, vision
GLENNY, ROBB; MD, 1984, UNIVERSITY OF VIRGINIA; determinants of regional pulmonary blood flow and ventilation distribution
GORDON, ALBERT M.; PhD, 1961, CORNELL UNIVERSITY; skeletal and cardiac muscle physiology/biophysics
HILDEBRANDT, JACOB; PhD, 1966, UNIVERSITY OF WASHINGTON; respiratory physiology
HILLE, BERTIL; PhD, 1967, ROCKEFELLER UNIVERSITY; receptors and ion channels of excitable membranes; cell signaling; intracellular calcium dynamics
HLASTALA, MICHAEL P; PhD, 1969, STATE UNIVERSITY OF NEW YORK (BUFFALO); respiratory physiology, inert gas analysis of respiratory function
HORNBEIN, THOMAS F; MD, 1956, WASHINGTON UNIVERSITY; physiology, biophysics
KENNEDY, THELMA T; PhD, 1955, UNIVERSITY OF CHICAGO; cerebral cortical networks
KOERKER, DONNA J; PhD, 1970, UNIVERSITY OF MICHIGAN; endocrinology, intermediate metabolism of carbohydrates
KUSHMERICK, MARTIN J.; PhD, 1966, UNIVERSITY OF PENNSYLVANIA; muscle contraction, magnetic resonance, metabolic imaging NMR spectroscopy
MACKIE, KENNETH P; MD, 1984, YALE UNIVERSITY; molecular and cell biological studies of cannabinoid receptor signaling
RANSOM, BRUCE ROBERT; PhD, 1972, WASHINGTON UNIVERSITY; neurology, neuroscience research
ROBERTSON, H. THOMAS; MD, 1968, HARVARD UNIVERSITY; respiratory diseases
ROWELL, LORING B; PhD, 1962, UNIVERSITY OF MINNESOTA; regulation of blood flow, exercise physiology
RUBEL, EDWIN W.; PhD, 1969, MICHIGAN STATE UNIVERSITY; developmental neurobiology, with special emphasis on vertebrate auditory system development
SCHER, ALLEN M; PhD, 1951, YALE UNIVERSITY; electrophysiology of heart, baroreceptor reflexes

SCHWINDT, PETER C; PhD, 1972, UNIVERSITY OF WASHINGTON; properties of spinal and cortical neurons, mechanisms of repetitive firing and convulsive activity.
SHADLEN, MICHAEL N.; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); neurobiology of vision and cognition
SMITH, ORVILLE A; PhD, 1953, MICHIGAN STATE UNIVERSITY; central regulation of cardiovascular function
SPAIN, WILLIAM; MD, 1977, COLUMBIA UNIVERSITY; signal transduction in the central nervous system
STAHL, WILLIAM L; PhD, 1963, UNIVERSITY OF PITTSBURGH; neurochemistry of brain ATPase systems.
STEINER, ROBERT A; PhD, 1975, UNIVERSITY OF OREGON; neuroendocrinology, neuroscience, endocrinology
SWENSON, ERIK R.; MD, 1979, UNIVERSITY OF CALIFORNIA (SAN DIEGO); pulmonary medicine.
TELLER, DAVIDA Y; PhD, 1965, UNIVERSITY OF CALIFORNIA (BERKELEY); vision, psychophysics, development of vision
VAN CITTERS, ROBERT L.; MD, 1953, UNIVERSITY OF KANSAS; cardiovascular physiology
WORDEMAN, LINDA; PhD, 1988, UNIVERSITY OF CALIFORNIA (BERKELEY); mitosis and myofibril formation
ZAGOTTA, WILLIAM N.; PhD, 1989, STANFORD UNIVERSITY; molecular mechanisms of ion channel function

Research Professor

BABCOCK, DONNER; PhD, 1971, OREGON STATE UNIVERSITY; ion channels of sperm cells
COOK, DANIEL L; PhD, 1980, UNIVERSITY OF WASHINGTON; Functional bioinformatics; pancreatic b-cell electrical activity and insulin release.
POWERS, RANDALL K.; PhD, 1982, UNIVERSITY OF WASHINGTON; spinal cord neurophysiology
WINN, ROBERT K.; PhD, 1974, UNIVERSITY OF WASHINGTON; pulmonary physiology, neutrophil immigration and monoclonal antibody

Associate Professor

GINIGER, EDWARD SCOTT; PhD, 1988, HARVARD UNIVERSITY; neural development, mechanism of axon guidance, genetic specification of brain structure
GORDON, SHARONA E.; PhD, 1994, BROWN UNIVERSITY; molecular mechanisms of ion channel gating in visual and olfactory transduction
RIEKE, FREDERICK MARTIN; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); sensory signal processing and computation

Research Associate Professor

GORMAN, MARK; PhD, 1979, UNIVERSITY OF MICHIGAN; control of coronary blood flow
KOH, DUK-SU; PhD, 1992, UNIVERSITY OF LEIPZIG (GERMANY); regulation of exocytosis

Assistant Professor

FAIRHALL, ADRIENNE L; PhD, 1997, WEIZMANN INSTITUTE FOR SCIENCE (ISRAEL); computational neuroscience
JAGADEESH, BHARATHI; PhD, 1993, NORTHWESTERN UNIVERSITY; neural basis of visual learning and memory

Psychiatry

Professor

EVERY, DAVID H; MD, 1972, WASHINGTON UNIVERSITY; treatment of depression, seasonal affective disorder, transcranial magnetic stimulation
AYLWARD, ELIZABETH H.; PhD, 1982, CORNELL UNIVERSITY; structural and functional neuroimaging in neuropsychiatric disorders, developmental psychology
BECKER, JOSEPH; PhD, 1958, DUKE UNIVERSITY; psychosocial aspects of depression
BIRD, THOMAS D.; MD, 1968, CORNELL UNIVERSITY; neurology, neurogenetics
BORSON, SOO; MD, 1969, STANFORD UNIVERSITY; geriatric psychiatry
BOWDEN, DOUGLAS M; MD, 1965, STANFORD UNIVERSITY; neural substrates of learning and memory
BUCHWALD, DEDRA S; MD, 1981, UNIVERSITY OF CALIFORNIA (SAN DIEGO); internal medicine
CALSYN, DONALD; PhD, 1979, UNIVERSITY OF WASHINGTON; drug abuse treatment, AIDS prevention
CARR, JOHN E; PhD, 1963, SYRACUSE UNIVERSITY; phobic disorders, patient therapist matching & therapy outcome, cross-cultural psychopathology
COWLEY, DEBORAH S; MD, 1980, UNIVERSITY OF PENNSYLVANIA; anxiety disorders, psychiatric disorders during pregnancy and postpartum
CRAFT, SUZANNE; PhD, 1985, UNIVERSITY OF TEXAS (AUSTIN); neuropsychology of attention and memory in development and aging
DAGER, STEPHEN R; MD, 1978, UNIVERSITY OF NEBRASKA; application of functional brain imaging techniques to investigate neuropsychiatric disorders
DAWSON, GERALDINE; PhD, 1979, UNIVERSITY OF WASHINGTON; developmental disabilities, autism, and neuropsychology
DIKMEN, SUREYYA S; PhD, 1973, UNIVERSITY OF WASHINGTON; clinical neuropsychology, traumatic brain injury
DOERR, HANS O; PhD, 1965, FLORIDA STATE UNIVERSITY; psychophysiology of central and autonomic nervous systems, neuropsychology
DONOVAN, DENNIS; PhD, 1980, UNIVERSITY OF WASHINGTON; cognitive-behavioral factors in substance abuse and addictive behaviors
DORSA, DANIEL M; PhD, 1977, UNIVERSITY OF CALIFORNIA (DAVIS); neuropharmacology, neurochemistry
DUNNER, DAVID L; MD, 1965, WASHINGTON UNIVERSITY; diagnosis and treatment of depression
DWORKIN, SAMUEL F; PhD, 1969, NEW YORK UNIVERSITY; dentistry and clinical psychology, pain, psychosomatic and illness-related behavior.
HEIMAN, JULIA R; PhD, 1975, STATE UNIV OF NEW YORK (STONY BROOK); sexuality and sexual relationships, prevention and treatment of family abuse
HORITA, AKIRA; PhD, 1954, UNIVERSITY OF WASHINGTON; neuropsychopharmacology
KATON, WAYNE J; MD, 1976, UNIVERSITY OF OREGON; depression, panic disorder, somatization, adherence
MC CANN, BARBARA S.; PhD, 1984, RUTGERS UNIVERSITY; behavior change, health, nutrition, psychological stress, cardiovascular disease, diabetes, obesity
MC CAULEY, ELIZABETH; PhD, 1973, STATE UNIVERSITY OF NEW YORK (BUFFALO); developmental psychopathology focused on affective disorders, behavioral genetics
PESKIND, ELAINE R.; MD, 1986, UNIVERSITY OF WASHINGTON; neuroendocrinology of aging, Alzheimer's and PTSD, neurobiology of noncognitive behavioral problems
RASKIND, MURRAY; MD, 1968, COLUMBIA UNIVERSITY; aging and Alzheimer's disease
RASKIND, WENDY H; PhD, 1977, UNIVERSITY OF WASHINGTON; medical genetics.
RIES, RICHARD K.; MD, 1975, NORTHWESTERN UNIVERSITY; severe mental illness treatment, addictions, health services outcomes
ROBINSON, NANCY M.; PhD, 1958, STANFORD UNIVERSITY; psychology
ROMANO, JOAN; PhD, 1982, UNIVERSITY OF PITTSBURGH; clinical psychology
ROY-BYRNE, PETER; MD, 1978, TUFTS UNIVERSITY; diagnosis and psychopharmacology of anxiety, depression, and ADHD in adults
SAXON, ANDREW J; MD, 1977, TUFTS UNIVERSITY; addiction psychiatry
SPELTZ, MATTHEW L.; PhD, 1980, UNIVERSITY OF MISSOURI; developmental psychotherapy, family therapy, pediatric behavioral medicine

STREISSGUTH, ANN P; PhD, 1964, UNIVERSITY OF WASHINGTON; psychology and behavioral teratology
SULLIVAN, MARK D.; PhD, 1982, VANDERBILT UNIVERSITY; depression and chronic medical illness, chronic pain, ethics, quality of life
TOWNES, BRENDA D; PhD, 1970, UNIVERSITY OF WASHINGTON; psychology
TRUPIN, ERIC W; PhD, 1974, UNIVERSITY OF WYOMING; psychology
TUCKER, GARY J.; MD, 1960, CASE WESTERN RESERVE UNIVERSITY; neuropsychiatry
TURNER, JUDITH A; PhD, 1979, UNIVERSITY OF CALIFORNIA (LOS ANGELES); psychology
UNUTZER, JURGEN; MA, 1988, UNIVERSITY OF CHICAGO; MPH, 1996, UNIVERSITY OF WASHINGTON; MD, 1990, VANDERBILT UNIVERSITY; Mental health services in primary care. Depression & comorbid medical illness. Late-life depression
VARLEY, C K; MD, 1973, UNIVERSITY OF WASHINGTON; attention deficit hyperactivity disorder, pediatric psychopharmacology
VEITH, RICHARD; MD, 1973, UNIVERSITY OF WASHINGTON; gerontology
VITALIANO, PETER P; PhD, 1975, SYRACUSE UNIVERSITY; psychiatric methodology (epidemiology, design, psychometrics), behavioral medicine
VITIELLO, MICHAEL V; PhD, 1980, UNIVERSITY OF WASHINGTON; Sleep, sleep disorders, circadian rhythms, aging, behavioral medicine
WALKER, EDWARD A.; MD, 1983, UNIVERSITY OF WASHINGTON; consultation-liaison psychiatry, medically unexplained physical symptoms
WARD, NICHOLAS G; MD, 1973, CORNELL UNIVERSITY; treatment resistant mood disorders, psychopharmacology
ZHOU, XIAO-HUA ANDREW; PhD, 1991, OHIO STATE UNIVERSITY; Biostatistics, health services research, mental health research

Research Professor

LATTEMANN, DIANNE; PhD, 1981, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); Effect of Regulatory Peptides on Feeding and Behavior and Metabolism

Associate Professor

ARMSTRONG, HUBERT E; PhD, 1963, SYRACUSE UNIVERSITY; clinical psychology
CALDERON, ROSEMARY; PhD, 1988, UNIVERSITY OF WASHINGTON; mental health and deafness, childhood psychopathology, early intervention
CARLIN, ALBERT S; PhD, 1964, SYRACUSE UNIVERSITY; clinical psychology

CHANEY, EDMUND; PhD, 1976, UNIVERSITY OF WASHINGTON; clinical psychology

CIECHANOWSKI, PAUL S.; MD, 1991, MCGILL UNIVERSITY (CANADA); consultation-liaison

COMTOIS, KATHERINE ANN; PhD, 1992, UNIVERSITY OF MARYLAND; services research, borderline personality disorder, women, dual diagnosis

DAGADAKIS, CHRISTOS S.; MD, 1974, UNIVERSITY OF WASHINGTON; MPH, 1975, UNIVERSITY OF WASHINGTON; emergency psychiatry, mental health managed care, psychiatric disability, stress management

DENNY, MARY C.; MA, 1989, GRADUATE THEOLOGICAL UNION; counseling psychology

DOBIE, DORCAS J.; MD, 1984, UNIVERSITY OF MICHIGAN; geriatric psychiatry

DUBACH, MARK F.; PhD, 1983, UNIVERSITY OF WASHINGTON; anthropology

DUNN, CHRISTOPHER W.; PhD, 1994, UNIVERSITY OF FLORIDA; Research effectiveness of Motivational Interviewing training for mental health & medical clinicians

EGAN, KELLY J.; PhD, 1980, UNIVERSITY OF WASHINGTON; clinical psychology

ERICKSON, RICHARD C.; PhD, 1969, UNIVERSITY OF WASHINGTON; clinical psychology

FANN, JESSE R.; MD, 1989, NORTH-WESTERN UNIVERSITY; MPH, 1995, UNIVERSITY OF WASHINGTON; neuropsychiatry, psycho-oncology, epidemiology, health services research, depression, delirium

HAMBLIN, MARK W.; PhD, 1982, UNIVERSITY OF CALIFORNIA (SAN DIEGO); molecular and cell biology of serotonin receptors, geriatric psychiatry

KIVLAHAN, DANIEL R.; PhD, 1983, UNIVERSITY OF MISSOURI; evaluating assessment, prevention, and treatment approaches for addictive behaviors

LAMPE, THOMAS H.; MD, 1977, INDIANA UNIVERSITY; Alzheimer's disease, post-traumatic stress disorder, neuroendocrinology

LARIMER, MARY E.; PhD, 1992, UNIVERSITY OF WASHINGTON; prevention of alcohol problems among college students

LEVERENZ, JAMES B.; MD, 1985, UNIVERSITY OF WASHINGTON; neurology, psychiatry and behavioral sciences, Alzheimer's

MC CLELLAN, JON M.; MD, 1984, UNIVERSITY OF MICHIGAN; child psychiatry

MCFALL, MILES E.; PhD, 1981, UNIVERSITY OF MONTANA; clinical psychology

MILLER, MARGARET A.; PhD, 1984, UNIVERSITY OF WASHINGTON; neurobiology, neuroendocrinology

MURBURG, MICHELE; MD, 1978, ALBERT EINSTEIN COLLEGE OF MEDICINE; neurobiology of PTSD, PTSD in special populations, psychiatric consequences of workplace harassment

NEUMAIER, JOHN F.; PhD, 1989, UNIVERSITY OF WASHINGTON; neurobiology of stress and depression; regulation of serotonin receptors

PASCUALY, O. MARCELLA; MD, 1982, UNIVERSIDAD JAVERIANA (COLOMBIA); geriatric psychiatry

PEPPING, MARY; PhD, 1981, WASHINGTON STATE UNIVERSITY; psychosocial outcome after TBI and mild TBI; neuropsychological features of dementia and mild TBI

PETRIE, ERIC C.; MS, 1981, UNIVERSITY OF WISCONSIN; MD, 1985, UNIVERSITY OF WASHINGTON; psychopharmacology, schizophrenia, post-traumatic stress disorder

REOUX, JOSEPH P.; MD, 1985, UNIVERSITY OF TEXAS (HOUSTON); addiction psychiatry, substance withdrawal syndromes, pharmacotherapy, clinical guidelines

SCHER, MARYONDA; MD, 1954, UNIVERSITY OF WASHINGTON; dissociative disorders/PTSD

SCOTT, DAVID T.; PhD, 1978, YALE UNIVERSITY; natural history of premature infants, efficacy of early intervention for premature infants

SHORES, MOLLY M.; MD, 1987, UNIVERSITY OF WASHINGTON; geriatric psychiatry

SLOAN, KEVIN L.; MD, 1986, UNIVERSITY OF CHICAGO; dual disorders/addictions

SREBNIK, DEBRA S.; PhD, 1992, UNIVERSITY OF VERMONT; public mental health services research, program and policy evaluation, community psychology

STELLA, NEPHI; PhD, 1995, ECOLE POLYTECHNIQUE FEDERALE DE LAUSANNE; microglia cells activation: involvement of endogenous cannabinoid ligands and their allied receptors

SULZBACHER, STEPHEN; PhD, 1971, UNIVERSITY OF WASHINGTON; psychiatry and behavioral sciences

SYRJALA, KAREN L.; PhD, 1983, BOSTON UNIVERSITY; oncology, pain

TSUANG, DEBBY W.; MD, 1988, UNIVERSITY OF IOWA; genetics of schizophrenia and late-life dementia

ULDALL, KARINA K.; MD, 1987, UNIVERSITY OF MISSOURI; HIV/AIDS, health services

VERHULST, JOHAN; MD, 1964, CATHOLIC UNIVERSITY OF LOUVAIN (BELGIUM); clinical psychiatry, marital therapy

VILLACRES, ENRIQUE C.; MD, 1981, MEDICAL COLLEGE OF WISCONSIN; signal transduction and role of cAMP cascade proteome and learning

WINGERTSON, DANE K.; MD, 1987, UNIVERSITY OF WASHINGTON; antipsychotic medications and pharmaco-economic issues

WOMACK, WILLIAM M.; MD, 1961, UNIVERSITY OF VIRGINIA; behavioral medicine, pediatric headache, stress/anxiety disorders, juvenile offenders

Research Associate Professor

LOGSDON, REBECCA G.; PhD, 1986, OKLAHOMA STATE UNIVERSITY; geriatric psychology, Alzheimer's disease, caregiving

MCCURRY, SUSAN MELANCON; PhD, 1991, UNIVERSITY OF NEVADA; dementia, aging, older adults, depression, sleep, psychotherapy intervention research

MOE, KAREN E.; PhD, 1981, UNIVERSITY OF WASHINGTON; estrogen replacement therapy in women

RUSO, JOAN E.; PhD, 1989, UNIVERSITY OF WASHINGTON; philosophy/psychology

WILKINSON, CHARLES W.; PhD, 1977, UNIVERSITY OF CALIFORNIA (SANTA BARBARA); physiological psychology

Assistant Professor

BENNETT, WILLIAM M.; MD, 1992, UNIVERSITY OF BRITISH COLUMBIA (CANADA); Primary Care Psychiatry, Consolation-Liaison Psychiatry, Cross Cultural Psychiatry

HARRIS, VICTORIA L.; MD, 1989, UNIVERSITY OF BRITISH COLUMBIA (CANADA); subspecialty ABPN certification in forensic psychiatry

MELVILLE, JENNIFER L.; MD, 1995, UNIVERSITY OF CALIFORNIA (LOS ANGELES); MPH, 2001, UNIVERSITY OF WASHINGTON; Depression in Obstetrics and Gynecology

PASIC, JAGODA; PhD, 1990, UNIVERSITY OF LONDON; KING'S COLLEGE (UK); mood disorders, depression in medical conditions, depression in heart disease

RIMMELE, CARL T.; PhD, 1988, UNIVERSITY OF NEW MEXICO; clinical psychology

SAWCHUK, CRAIG NEIL; PhD, 1999, UNIVERSITY OF ARKANSAS; Adult anxiety disorders, medical fears, & health care service utilization in underserved populations

STORCK, MICHAEL G.; MD, 1980, MEDICAL COLLEGE OF OHIO; early and late adolescent development, clinical ethnography, integrative medicine, psychiatry

Research Assistant Professor

CHERRIER, MONIQUE M.; PhD, 1994, WASHINGTON STATE UNIVERSITY; Neuropsychology, Aging, Neuroendocrinology, Dementias

Instructor

CHEN, JIM C.; MD, 1991, HAHNEMANN MEDICAL COLLEGE; general adult, geriatric, and cross-cultural psychiatry

Radiation Oncology

Professor

AUSTIN-SEYMOUR, MARY M.; MD, 1978, UNIVERSITY OF CHICAGO; therapeutic radiology.
BLASKO, JOHN C.; MD, 0, UNIVERSITY OF MARYLAND; therapeutic radiology
CHO, PAUL S.; PhD, 1989, UNIVERSITY OF CALIFORNIA (LOS ANGELES); medical radiation physics
GOODKIN, ROBERT; MD, 1964, CHICAGO MEDICAL SCHOOL; neurological surgery.
GROUDINE, MARK; PhD, 1976, UNIVERSITY OF PENNSYLVANIA; chromatin structure and gene activity
KALET, IRA J.; PhD, 1968, PRINCETON UNIVERSITY; computer simulation of radiation therapy, artificial intelligence, computer graphics
KOH, WUI-JIN; MD, 1984, LOMA LINDA UNIVERSITY; therapeutic radiology.
KROHN, KENNETH A.; PhD, 1971, UNIVERSITY OF CALIFORNIA (DAVIS); chemistry, radiation oncology
LARAMORE, GEORGE E.; PhD, 1969, UNIVERSITY OF ILLINOIS; therapeutic radiology.
PELTON, JAMES G.; MD, 1981, UNIVERSITY OF NEBRASKA; therapeutic radiology.
RUSSELL, KENNETH J.; MD, 1979, HARVARD UNIVERSITY; therapeutic radiology.
WILBUR, D. SCOTT; PhD, 1978, UNIVERSITY OF CALIFORNIA (IRVINE); radiochemistry.

Associate Professor

RAJENDRAN, JOSEPH; MBBS, 1973, MADURAI UNIVERSITY (INDIA); MD, 1980, CHRISTIAN MEDICAL COLLEGE; nuclear medicine
SCHWARTZ, JEFFREY L.; PhD, 1979, UNIVERSITY OF TEXAS (DALLAS); radiation biology
WALLNER, KENT E.; MD, 1981, OHIO STATE UNIVERSITY; therapeutic radiology

Radiology

Professor

AYLWARD, ELIZABETH H.; PhD, 1982, CORNELL UNIVERSITY; structural and functional neuroimaging in neuropsychiatric disorders, developmental psychology
BASSINGTHWAIGHTE, JAMES; PhD, 1964, MAYO MEDICAL SCHOOL/GRADUATE SCHOOL; computer analysis of transport mechanisms in blood and tissues.
BEAUCHAMP, NORMAN J.; MD, 1990, MICHIGAN STATE UNIVERSITY; Acute stroke diagnosis using advanced imaging techniques to extend the treatment window for stroke

BLACKMORE, CHRISTOPHER C.; MD, 1990, UNIVERSITY OF ROCHESTER; MPH, 1997, UNIVERSITY OF WASHINGTON; body imaging, teleradiology, digital radiology, MRI/CT
BUSH, WILLIAM H.; MD, 1967, OREGON HEALTH SCIENCES UNIVERSITY; genitourinary radiology
CALDWELL, JAMES H.; MD, 1970, UNIVERSITY OF MISSOURI; positron emission tomography imaging of myocardial oxygenation, metabolism and sympathetic function
CHESNUT, CHARLES; MD, 1966, UNIVERSITY OF FLORIDA; nuclear medicine
COHEN, WENDY; MD, 1975, HARVARD UNIVERSITY; neuroradiology
CONLEY, KEVIN E.; PhD, 1983, UNIVERSITY OF WISCONSIN; muscle metabolism and energetics in vivo
DAGER, STEPHEN R.; MD, 1978, UNIVERSITY OF NEBRASKA; application of functional brain imaging techniques to investigate neuropsychiatric disorders
EARY, JANET F.; MD, 1980, MICHIGAN STATE UNIVERSITY; nuclear medicine
EFFMANN, ERIC L.; MD, 1967, INDIANA UNIVERSITY; pediatric radiology
ELLENBOGEN, RICHARD G.; MD, 1983, BROWN UNIVERSITY; pediatric neurosurgery, neuro-oncology, complex spine
FIGLEY, MELVIN M.; MD, 1944, HARVARD UNIVERSITY; thoracic and pulmonary radiology
FRENEY, PATRICK C.; MD, 1968, UNIVERSITY OF OKLAHOMA; abdominal radiology, computed tomography
GODWIN, J. DAVID; MD, 1971, STANFORD UNIVERSITY; pulmonary radiology
GRAHAM, C BENJAMIN; MD, 1958, UNIVERSITY OF WASHINGTON; pediatric, neonatal radiology
HARLEY, JOHN D.; MD, 1966, WASHINGTON UNIVERSITY; general radiology and angiography
HAYES, CECIL E.; PhD, 1973, HARVARD UNIVERSITY; physics, MRI
HAYNOR, DAVID R.; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); medical image processing and segmentation; image deformation; functional MRI; expression arrays
HUNTER, JOHN C.; MD, 1970, UNIVERSITY OF ILLINOIS; musculoskeletal, radiology, MRI
JARVIK, JEFFREY G.; MD, 1987, UNIVERSITY OF CALIFORNIA (SAN DIEGO); neuroradiology, outcomes research
KIM, YONGMIN; PhD, 1982, UNIVERSITY OF WISCONSIN; computer architecture, imaging systems, medical imaging, computer graphics, multimedia, home healthc
KROHN, KENNETH A.; PhD, 1971, UNIVERSITY OF CALIFORNIA (DAVIS); chemistry, radiation oncology
KUSHMERICK, MARTIN J.; PhD, 1966, UNIVERSITY OF PENNSYLVANIA; muscle contraction, magnetic resonance, metabolic imaging NMR spectroscopy
LEHMAN, CONSTANCE D.; PhD, 1990, YALE UNIVERSITY; mammography, women's breast imaging
LEWELLEN, THOMAS; PhD, 1972, UNIVERSITY OF WASHINGTON; bioengineering, electrical engineering
LICHTENSTEIN, JOEL E.; MD, 1972, OHIO STATE UNIVERSITY; gastrointestinal radiology, computed tomography
MANKOFF, DAVID A.; PhD, 1988, UNIVERSITY OF PENNSYLVANIA; HIGH COUNT RATE PET IMAGING
MANN, FREDERICK A.; MD, 1975, INDIANA UNIVERSITY; emergency and trauma radiology
MARAVILLA, KENNETH R.; MD, 1970, STATE UNIVERSITY OF NEW YORK (BROOKLYN); neuroradiology and neurosurgery
MOSS, ALBERT A.; MD, 1967, STATE UNIV OF NEW YORK (UPSTATE MED CT); gastrointestinal radiology, computed tomography
NELP, WIL B.; MD, 1955, JOHNS HOPKINS UNIVERSITY; nuclear medicine
NELSON, JAMES A.; MD, 1965, HARVARD UNIVERSITY; diagnostic radiology with basic research in related sciences
O'SULLIVAN, S. FINBARR; PhD, 1983, UNIVERSITY OF WISCONSIN; nonparametric curve estimation, inverse problems, radiology
RICHARDS, TODD L.; PhD, 1984, UNIVERSITY OF CALIFORNIA (BERKELEY); nuclear magnetic resonance imaging, spectroscopy of the brain in demyelinating diseases
RICHARDSON, MICHAEL L.; MD, 1975, BAYLOR UNIVERSITY; bone and joint radiology and musculoskeletal radiology
ROHRMANN JR, CHARLES A.; MD, 1966, UNIVERSITY OF WASHINGTON; gastrointestinal radiology
SHAW, DENNIS; MD, 1983, UNIVERSITY OF WASHINGTON; neuroradiology, pediatric radiology
SHUMAN, WILLIAM P.; MD, 1973, STATE UNIV OF NEW YORK (UPSTATE MED CT); Body Computed Tomography, Body Magnetic Resonance Imaging, Administration of Academic Radiology Dept
STERN, ERIC J.; MD, 1985, U OF MEDICINE & DENTISTRY OF NEW JERSEY; chest radiology
STEWART, BRENT K.; PhD, 1988, UNIVERSITY OF CALIFORNIA (LOS ANGELES); biomedical physics, biomedical image processing, medical imaging, medical information systems
TALNER, LEE B.; MD, 1963, YALE UNIVERSITY; genitourinary radiology
WEINBERGER, EDWARD; MD, 1979, HARVARD UNIVERSITY; pediatric radiology

WILSON, ANTHONY J.; MBBChir, 1972, OTAGO UNIVERSITY (NEW ZEALAND); orthopaedic trauma imaging, teleradiology, digital radiography, MRI/CT
YUAN, CHUN; PhD, 1988, UNIVERSITY OF UTAH; magnetic resonance imaging in medical application

Associate Professor

ANDREWS, ROBERT TORRANCE; MD, 1990, UNIVERSITY OF CALIFORNIA (SAN DIEGO); Vascular and interventional radiology; endovascular therapy
BREWER, DAVID K.; MD, 1972, HARVARD UNIVERSITY; pediatric radiology, angiography, computed tomography
DALLEY, ROBERT W.; MD, 1982, UNIVERSITY OF UTAH; neuroradiology
DUBINSKY, THEODORE J.; MD, 1983, UNIVERSITY OF MARYLAND; ultrasound, computed tomography, body imaging
DUGOWSON, CARIN E.; MD, 1976, UNIVERSITY OF ILLINOIS; MPH, 1986, UNIVERSITY OF WASHINGTON; rheumatology
EUBANK, WILLIAM B.; MPH, 1986, TULANE UNIVERSITY; MD, 1986, TULANE UNIVERSITY; body MR and GU imaging
GILL, EDWARD A.; MD, 1984, UNIVERSITY OF WASHINGTON; cardiology
GILLESPIE, THURMAN; MD, 1980, THOMAS JEFFERSON UNIVERSITY; musculoskeletal radiology, orthopaedics
GLICKERMAN, DAVID J.; MD, 1983, ALBANY MEDICAL COLLEGE; angiography, interventional radiology
HOFFER, ERIC K.; MD, 1984, UNIVERSITY OF CALIFORNIA (LOS ANGELES); minimally invasive therapy, stent grafts for aneurysms, uterine artery embolization, dialysis access
LANGER, STEVE G.; PhD, 1994, OAKLAND UNIVERSITY; medical physics
LEWIS, DAVID H.; MD, 1985, VIRGINIA COMMONWEALTH UNIVERSITY; nuclear medicine
LINK, JEANNE; PhD, 1998, UNIVERSITY OF WASHINGTON; radioanalytical chemistry
MAKI, JEFFREY H.; MD, 1991, DUKE UNIVERSITY; MRI
MARGLIN, STEPHEN I.; MD, 1968, YALE UNIVERSITY; chest and oncologic radiology
OTT, SUSAN M.; MD, 1974, UNIVERSITY OF WASHINGTON; nephrology
PHILLIPS, LEON A.; MD, 1952, YALE UNIVERSITY; general radiology, urology
RAJENDRAN, JOSEPH; MBBS, 1973, MADURAI UNIVERSITY (INDIA); MD, 1980, CHRISTIAN MEDICAL COLLEGE; nuclear medicine
ROSENBAUM, DAVID M.; MD, 1977, ALBERT EINSTEIN COLLEGE OF MEDICINE; pediatric radiology

SCHULTE, SCOTT J.; MD, 1979, UNIVERSITY OF WASHINGTON; gastrointestinal radiology
SZE, RAYMOND W.; MD, 1990, U OF MEDICINE & DENTISTRY OF NEW JERSEY; pediatrics
TAKASUGI, JULIE E.; MD, 1982, UNIVERSITY OF CALIFORNIA (LOS ANGELES); pulmonary radiology
VESSELLE, HUBERT J.; PhD, 1990, CASE WESTERN RESERVE UNIVERSITY; nuclear medicine
WISEMAN, ROBERT W.; PhD, 1988, FLORIDA STATE UNIVERSITY; cellular energetics, nmr spectroscopy, mitochondria, kinetics, gene expression, metabolism
ZHANG, MIQIN; PhD, 1998, UNIVERSITY OF CALIFORNIA (BERKELEY); Biomaterials, tissue engineering, BioMEMS, bionanotechnology, surface modification, drug delivery.

Research Associate Professor

GARDNER, JILL C.; PhD, 1981, DALHOUSIE UNIVERSITY (CANADA); computed image processing and analysis

Assistant Professor

BRITZ, GAVIN W.; MBBChir, 1987, UNIVERSITY OF WITWATERSRAND (S. AFRICA); Cerebral aneurysms and AVMs, Carotid disease, skull base tumors, cerebral vasospasm
BRONSTEIN, ANDREW D.; MD, 1984, HARVARD UNIVERSITY; neuroradiology
DALY, CHARLES P.; MD, 1990, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); angiography and interventional radiology
GROSS, JOEL A.; MD, 1990, UNIVERSITY OF CALIFORNIA (DAVIS); Emergency & Trauma Radiology, Body Imaging, Computers in Medicine, Medical Education & Training
JOHNSON, JANET A.; MD, 0, UNIVERSITY OF HAWAII; musculoskeletal imaging, chest, GI, CT, ultrasound.
KANAL, KALPANA M.; PhD, 1996, UNIVERSITY OF TEXAS (HOUSTON); Medical Physics, X-rays, Mammography, Radiation Dosimetry and Radiation Safety
LALANI, TASNEEM A.; MS, 1990, HARVARD UNIVERSITY; MD, 1993, UNIVERSITY OF ALBERTA (CANADA); CT/US/MRI
MERCKER, JANIS M.; MD, 1976, UNIVERSITY OF WASHINGTON; pediatric radiology
PALADIN, ANGELISA M.; MD, 1999, CHICAGO MEDICAL SCHOOL; pediatric radiology
SIDHU, MANRITA K.; MD, 1988, MEDICAL COLLEGE OF PENNSYLVANIA; pediatrics

Research Assistant Professor

ZHANG, SHANRONG; PhD, 1995, CHINESE ACADEMY OF SCIENCES (CHINA); Magnetic Resonance Imaging, Molecular Imaging, Lanthanide Chemistry, Responsive Contrast Agent, Shift Reagent

Rehabilitation Medicine

Professor

ANDERSON, MARJORIE E.; PhD, 1969, UNIVERSITY OF WASHINGTON; physiology of basal ganglia and thalamus; neural control of movement
BELL, KATHLEEN; MD, 1981, TEMPLE UNIVERSITY; brain injury and sleep disorders, community reintegration in brain injury, medical education
BENDITT, JOSHUA O.; MD, 1982, UNIVERSITY OF WASHINGTON; pulmonary and critical care medicine
BOMBARDIER, CHARLES H.; PhD, 1987, WASHINGTON STATE UNIVERSITY; spinal cord injury, brain injury, alcohol abuse after injury, psychological comorbidities
CZERNIECKI, JOSEPH M.; MD, 1981, UNIVERSITY OF BRITISH COLUMBIA (CANADA); MS, 1985, UNIVERSITY OF WASHINGTON; rehabilitation engineering, prosthetics, biomechanics and gait analysis
DE LATEUR, BARBARA J.; MD, 1963, UNIVERSITY OF WASHINGTON; psychiatry
DEITZ, JEAN L.; PhD, 1976, UNIVERSITY OF FLORIDA; occupational therapy, pediatrics, measurement
DIKMEN, SUREYYA S.; PhD, 1973, UNIVERSITY OF WASHINGTON; clinical neuropsychology, traumatic brain injury
ENGEL KNOWLES, JOYCE M.; PhD, 1988, UNIVERSITY OF KANSAS; use of occupational therapy, pain management with children and persons with physical disabilities
ESSELMAN, PETER C.; MD, 1986, UNIVERSITY OF WASHINGTON; exercise in the elderly; treatment of traumatic brain injury and burn rehabilitation
FORDYCE, WILBERT E.; PhD, 1953, UNIVERSITY OF WASHINGTON; psychology
FRASER, ROBERT T.; PhD, 1976, UNIVERSITY OF WISCONSIN; psychology
GARDNER, GREGORY C.; MD, 1984, BAYLOR UNIVERSITY; rheumatology
GOLDSTEIN, BARRY; PhD, 1981, UNIVERSITY OF CALIFORNIA (LOS ANGELES); skin adaptation to mechanical stress, pressure ulcers, overuse injuries of the upper extremity
GUY, ARTHUR W.; PhD, 1966, UNIVERSITY OF WASHINGTON; biological

effects and medical applications of electromagnetic fields
 HALAR, EUGEN M.; MD, 1959, UNIVERSITY OF ZAGREB (YUGOSLAVIA); psychiatry
 HAMMOND, MARGARET C.; MD, 1979, MEDICAL COLLEGE OF WISCONSIN; medical consequences of longstanding spinal cord injury
 HAYS, ROSS M.; MD, 1978, UNIVERSITY OF WASHINGTON; pediatric rehabilitation, medical ethics, neuromuscular diseases, congenital defects
 HILLEL, ALLEN D.; MD, 1976, STANFORD UNIVERSITY; peripheral nerve physiology after injury, swallowing disorders in neuromuscular disease
 JAFFE, KENNETH M.; MD, 1975, HARVARD UNIVERSITY; pediatric rehabilitation, brain injury, neuromuscular diseases, congenital defects
 JENSEN, MARK; PhD, 1989, ARIZONA STATE UNIVERSITY; assessment and treatment of chronic pain, coping with medical illness, treatment outcome
 JOHNSON, KURT LEWIS; PhD, 1984, UNIVERSITY OF WISCONSIN; counseling psychology; psychological, social vocational aspects of disability and chronic illness
 KRAFT, GEORGE HOWARD; MD, 1963, OHIO STATE UNIVERSITY; psychiatry
 LEHMANN, JUSTUS F.; DrMed, 1945, JOHANN WOLFGANG GOETHE UNIV (GERMANY); psychiatry
 LITTLE, JAMES WENDELL; PhD, 1976, UNIVERSITY OF CHICAGO; rehabilitation medicine, clinical neurophysiology, spinal cord injury
 MASSAGLI, TERESA L.; MD, 1982, YALE UNIVERSITY; pediatric psychiatry
 PATRICK, DONALD L.; PhD, 1972, COLUMBIA UNIVERSITY; health status and quality of life, end of life, adolescents
 PATTERSON, DAVID R.; PhD, 1982, FLORIDA STATE UNIVERSITY; treatment of acute pain, psychology of burn patients, psychological outcome of physical trauma
 ROBINSON, LAWRENCE R.; MD, 1982, BAYLOR UNIVERSITY; psychiatry
 SHUMWAY-COOK, ANNE; PhD, 1983, UNIVERSITY OF OREGON; physiologic basis for balance problems following neurological injury
 SLIMP, JEFFERSON C.; PhD, 1976, UNIVERSITY OF WISCONSIN; clinical neurophysiology, intraoperative neuromonitoring, evoked potentials, deep-brain stimulation
 STOLOV, WALTER C.; MA, 1951, UNIVERSITY OF MINNESOTA; MD, 1956, UNIVERSITY OF MINNESOTA; psychiatry, electrodiagnostic medicine
 TEMKIN, NANCY R.; PhD, 1976, STATE UNIVERSITY OF NEW YORK (BUFFALO); clinical trials, recovery models, statistical modeling of epileptic phenomena, survival analysis.

TURNER, JUDITH A.; PhD, 1979, UNIVERSITY OF CALIFORNIA (LOS ANGELES); psychology
 YORKSTON, KATHRYN; PhD, 1975, UNIVERSITY OF OREGON; neurogenic communication disorders in adults

Associate Professor

BERNI, ROSEMARIAN; MN, 1973, UNIVERSITY OF WASHINGTON; rehabilitation nursing
 BRITELL, CATHERINE WOLLEAT; MD, 1973, UNIVERSITY OF SOUTHERN CALIFORNIA; chronic pain in spinal cord injury and development of new assistive technology for the work place
 BROCKWAY, JO A.; PhD, 1975, UNIVERSITY OF IOWA; behavioral medicine, clinical psychology, physical disability
 BURNS, STEPHEN P.; MD, 1992, BROWN UNIVERSITY; medical complications and neurologic recovery in spinal cord injury, whiplash, sleep apnea
 CHAN, LEIGHTON; MD, 1990, UNIVERSITY OF CALIFORNIA (LOS ANGELES); health service delivery related to Medicare patients
 CHANG, MICHAEL WEI; PhD, 1982, UNIVERSITY OF WASHINGTON; biomedical simulation, ultrasonography, electrophysiology, biomechanics
 DOCTOR, JASON N.; PhD, 1995, UNIVERSITY OF CALIFORNIA (SAN DIEGO); medical decision making, health economics, decision theory
 DUDGEON, BRIAN J.; PhD, 2000, UNIVERSITY OF WASHINGTON; occupational therapy, assistive technology, disability studies
 EHDE, DAWN; PhD, 1992, UNIVERSITY OF NORTH DAKOTA; chronic pain secondary to disability, psychological distress following disability
 FANN, JESSE R.; MD, 1989, NORTH-WESTERN UNIVERSITY; MPH, 1995, UNIVERSITY OF WASHINGTON; neuropsychiatry, psycho-oncology, epidemiology, health services research, depression, delirium
 GOLDBERG, MYRON; PhD, 1980, UNIVERSITY OF MIAMI (FLORIDA); neuropsychology, rehabilitation psychology, and neurologic rehabilitation
 GUTHRIE, MARK R.; PhD, 1990, UNIVERSITY OF WASHINGTON; functional assessment, physical therapy efficacy
 HASELKORN, JODIE K.; MD, 1985, LOUISIANA STATE UNIVERSITY; health services for the disabled: diagnostic accuracy of tests, effectiveness of interventions
 JAMES, JENNIFER J.; MD, 1994, UNIVERSITY OF VERMONT; spine, sports, and musculoskeletal medicine and rehabilitation
 KANNY, ELIZABETH M.; PhD, 1996, UNIVERSITY OF WASHINGTON; education of allied health practitioners; ethical reasoning and ethics education

KARTIN, DEBORAH; PhD, 1996, UNIVERSITY OF WASHINGTON; developmental disabilities, prenatal drug exposure, high-risk infancy, postural development
 MC MILLAN, JO ANN; MSED, 1968, UNIVERSITY OF SOUTHERN CALIFORNIA; physical therapy.
 MILLER, ROBERT M.; PhD, 1976, UNIVERSITY OF WASHINGTON; speech, language pathology, adults, swallowing
 ODDERSON, IB R.; PhD, 1978, INDIANA UNIVERSITY; psychiatry, stroke, multiple sclerosis, spasticity, botulinum toxin
 PEPPING, MARY; PhD, 1981, WASHINGTON STATE UNIVERSITY; psychosocial outcome after TBI and mild TBI; neuropsychological features of dementia and mild TBI
 RODRIQUEZ, ARTHUR A.; MD, 1972, UNIVERSITY OF WISCONSIN; musculoskeletal pain disorders and clinical neurophysiology
 STIENS, STEVE A.; MD, 1986, UNIVERSITY OF CINCINNATI; MS, 1991, UNIVERSITY OF WASHINGTON; Spinal cord injury medicine, rehabilitation, neurogenic bowel care, spinal cord neuroplasticity

Assistant Professor

DOWDEN, PATRICIA A.; PhD, 1993, UNIVERSITY OF WASHINGTON; augmentative communication, cleft palate
 GREENBERG, SHARON L.; MOT, 1978, UNIVERSITY OF WASHINGTON; occupational therapy
 HARNISS, MARK; PhD, 1996, UNIVERSITY OF OREGON; Using technology to improve the education of diverse learners.
 HOFFMAN, JEANNE MARIE; PhD, 2000, ARIZONA STATE UNIVERSITY; Rehabilitation Psychology
 POWELL, JANET M.; PhD, 2001, UNIVERSITY OF WASHINGTON; vision, perception, and cognition following brain injury; rehabilitation outcomes
 QUESTAD, KENT A.; PhD, 1982, UNIVERSITY OF WISCONSIN; rehabilitation counseling, psychology.
 SHERMAN, JEFFREY J.; PhD, 1998, UNIVERSITY OF KENTUCKY; Etiology, maintenance and treatment of chronic pain Posttraumatic stress disorder
 WEISS, MICHAEL D.; MD, 1991, ALBERT EINSTEIN COLLEGE OF MEDICINE; EMG, EEG, neuropathology and neuromuscular disorders
 WILLIAMS, RHONDA M.; PhD, 1992, ARIZONA STATE UNIVERSITY; multiple sclerosis, amputation, brain injury, social support, adjustment, group-based interventions

Lecturer

ABRAHAMSON, DANIEL C.; BS, 1998, UNIVERSITY OF WASHINGTON;

Prosthetics design for transtibial and transfemoral amputees
 DRALLE, ALAN J.; BS, 1968, UNIVERSITY OF WASHINGTON; prosthetics and orthotics
 HERTLING, DARLENE; BS, 1956, UNIVERSITY OF CALIFORNIA (BERKELEY); physical therapy and manual therapy techniques
 OKUMURA, RAMONA M.; BS, 1981, UNIVERSITY OF WASHINGTON; pediatric limb deficiency, upper extremity prosthetics, prosthetic biomechanics
 WILLIAMS, MARCIA FRANCES; PhD, 2000, UNIVERSITY OF WASHINGTON; physical therapy
 YAMANE, ANN; BS, 1976, UNIVERSITY OF WASHINGTON; prosthetics and orthotics

Surgery

Professor

ALDEA, GABRIEL S.; MD, 1981, COLUMBIA UNIVERSITY; cardiothoracic surgery
 ANDERSON, BENJAMIN O.; MD, 1985, ALBERT EINSTEIN COLLEGE OF MEDICINE; oncology, general surgery
 ASHBAUGH, DAVID G.; MD, 1957, OHIO STATE UNIVERSITY; thoracic surgery.
 BYRD, DAVID R.; MD, 1982, TULANE UNIVERSITY; general surgery and oncology
 CLOWES, ALEXANDER W.; MD, 1972, HARVARD UNIVERSITY; vascular smooth muscle cell growth control arterial injury and repair
 COPASS, MICHAEL K.; MA, 1964, NORTHWESTERN UNIVERSITY; MD, 1964, NORTHWESTERN UNIVERSITY; neurology/emergency services
 DEAN, LARRY S.; MD, 1980, UNIVERSITY OF ALABAMA; cardiology
 DELLINGER, E. PATCHEN; MD, 1970, HARVARD UNIVERSITY; general and gastrointestinal surgery
 ENGRAV, LOREN H.; MD, 1969, UNIVERSITY OF CALIFORNIA (LOS ANGELES); plastic and reconstructive surgery.
 FOY, HUGH M.; MD, 1978, UNIVERSITY OF NEBRASKA; general surgery.
 GIBRAN, NICOLE; MD, 1985, BOSTON UNIVERSITY; general, burn, and trauma surgery
 GOFF, BARBARA A.; MD, 1986, UNIVERSITY OF PENNSYLVANIA; gynecologic oncology
 GRUSS, JOSEPH S.; MBChB, 1969, UNIVERSITY OF WITWATERSRAND (S. AFRICA); craniofacial and maxillofacial surgery
 HANEL, DOUGLAS PAUL; MD, 1977, ST LOUIS UNIVERSITY; orthopaedics, hand/microvascular surgery
 HATSUKAMI, THOMAS; MD, 1982, UNIVERSITY OF CALIFORNIA (LOS ANGELES); vascular surgery.
 HEIMBACH, DAVID M.; MD, 1964, CORNELL UNIVERSITY; burn and general surgery.
 HERMAN, CLIFFORD M.; MD, 1959, UNIVERSITY OF VERMONT; general surgery.
 ISIK, F. FRANK; MD, 1985, MT SINAI SCHOOL OF MEDICINE; plastic surgery/control of angiogenesis
 JOHANSEN, KAJ H.; PhD, 1977, UNIVERSITY OF CALIFORNIA (SAN DIEGO); general and vascular surgery.
 JONES, ROBERT F.; MD, 1952, UNIVERSITY OF TEXAS (SOUTHWESTERN); oncology and general surgery.
 JURKOVICH, GREGORY J.; MD, 1978, UNIVERSITY OF MINNESOTA; general surgery.
 KOHLER, TED R.; MD, 1976, HARVARD UNIVERSITY; general and vascular surgery.
 MAIER, RONALD V.; MD, 1973, DUKE UNIVERSITY; general surgery, trauma-critical care surgery
 MERENDINO, K. ALVIN; PhD, 1946, UNIVERSITY OF MINNESOTA; general surgery
 MILLER, DONALD W.; MD, 1965, HARVARD UNIVERSITY; meticulous practice of cardiac surgery, including risk assessment & postoperative intensive care management
 MOCK, CHARLES N.; MD, 1980, BROWN UNIVERSITY; injury: epidemiology, prevention, treatment; especially in less-developed countries
 MOE, ROGER E.; MD, 1959, UNIVERSITY OF WASHINGTON; oncology and general surgery.
 PATTERSON, DAVID R.; PhD, 1982, FLORIDA STATE UNIVERSITY; treatment of acute pain, psychology of burn patients, psychological outcome of physical trauma
 PELLEGRINI, CARLOS A.; MD, 1971, UNIV OF ROSARIO MED SCHOOL (ARGENTINA); general and laparoscopic surgery
 PERKINS, JAMES D.; MD, 1979, UNIVERSITY OF ARKANSAS; transplant surgery.
 SATAVA, RICHARD M.; MD, 1968, HAHNEMANN MEDICAL COLLEGE; MS, 1972, MAYO MEDICAL SCHOOL/GRADUATE SCHOOL; Gastrointestinal surgery, robotics, surgical education, training and simulation, virtual reality
 SAWIN, ROBERT; MD, 1982, UNIVERSITY OF PITTSBURGH; pediatric surgery.
 SINANAN, MIKA N.; PhD, 1986, UNIVERSITY OF BRITISH COLUMBIA (CANADA); Surgical education, biorobotic surgical instrument development, and clinical procedure development
 TRUMBLE, THOMAS E.; MD, 1979, YALE UNIVERSITY; orthopaedics, hand and microvascular surgery
 VEDDER, NICHOLAS; MD, 1981, CASE WESTERN RESERVE UNIVERSITY; case history, plastic and reconstructive surgery.
 VERRIER, EDWARD D.; MD, 1974, TUFTS UNIVERSITY; cardiothoracic surgery.
 WALDHAUSEN, JOHN H.; MD, 1986, PENNSYLVANIA STATE UNIVERSITY; pediatric surgery
 WINTERSCHIED, LOREN C.; PhD, 1953, UNIVERSITY OF PENNSYLVANIA; general and thoracic surgery.
 WOOD, DOUGLAS E.; MD, 1983, HARVARD UNIVERSITY; thoracic surgery.
 YEUNG, RAYMOND S.; MD, 1982, UNIVERSITY OF TORONTO (CANADA); general and surgical oncology
 ZIERLER, ROBERT; MD, 1976, JOHNS HOPKINS UNIVERSITY; general and vascular surgery.

Research Professor

BEACH, KIRK WATSON; PhD, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); arterial disease in diabetes, blood flow studies with ultrasonic Doppler
 WINN, ROBERT K.; PhD, 1974, UNIVERSITY OF WASHINGTON; pulmonary physiology, neutrophil immigration and monoclonal antibody

Associate Professor

ALLAN, CHRISTOPHER H.; MD, 1992, NORTHWESTERN UNIVERSITY; hand and microvascular surgery
 COHEN, GORDON A.; PhD, 1996, UNIVERSITY OF CALIFORNIA (LOS ANGELES); cardiovascular biology & pharmacology, neonatal repairs, pediatric heart/lung transplantation
 EGBERT, MARK A.; DDS, 1981, UNIVERSITY OF WASHINGTON; oral and maxillofacial surgery.
 FLUM, DAVID R.; MD, 1991, UNIVERSITY OF MIAMI (FLORIDA); improving surgical care quality in the community at large, identifying & promoting "best" practices
 HEALEY, PATRICK J.; MD, 1987, BOSTON UNIVERSITY; general and pediatric surgery
 HORVATH, KAREN D.; MD, 1990, NEW YORK MEDICAL COLLEGE; surgical critical care, laparoscopic surgery
 KUHR, CHRISTIAN S.; MD, 1988, UNIVERSITY OF WASHINGTON; multi-organ transplantation, urologic surgery
 LANGDALE, LORRIE A.; MD, 1979, UNIVERSITY OF WASHINGTON; general surgery.
 LYNCE, DANA C.; MD, 1985, MCGILL UNIVERSITY (CANADA); general surgery
 MEISSNER, MARK H.; MD, 1985, UNIVERSITY OF COLORADO (DENVER); general, vascular, and critical care surgery

MULLIGAN, MICHAEL S.; MD, 1989, UNIVERSITY OF CONNECTICUT; thoracic surgery
 NICHOLLS, STEPHEN C.; MBChB, 1975, UNIVERSITY OF AUCKLAND (NEW ZEALAND); vascular surgery
 OELSCHLAGER, BRANT K.; MD, 1995, UNIVERSITY OF NORTH CAROLINA; minimally invasive surgery, esophageal surgery, bariatric surgery, gastro-intestinal surgery
 O'KEEFE, GRANT E.; MD, 1988, UNIVERSITY OF ALBERTA (CANADA); Pathophysiology of post-injury infection and organ failure
 PERMUT, LESTER C.; MD, 1983, BOSTON UNIVERSITY; Neonatal myocardial protection, peds cardiathoracic surgery, neonatal repairs, peds heart trnspltn
 ZIERLER, BRENDA; PhD, 1996, UNIVERSITY OF WASHINGTON; research in patient with venous thromboembolism; clinical outcomes, process outcomes

Research Associate Professor

DAUM, GUENTER; PhD, 1989, UNIVERSITY OF KONSTANZ (GERMANY); cellular and molecular biology, tryosine phosphatase and kinases

Assistant Professor

BAKTHAVATSALAM, RAMASAMY; MS, 1988, UNIVERSITY OF MADRAS (INDIA); kidney, pancreas and liver transplantation, complex uro-oncology, vascular access
 BARR, DARLENE; MD, 0, UNIVERSITY OF ALABAMA; transplant surgery
 CAINE, WILLIAM T.; MD, 1993, UNIVERSITY OF UTAH; Adult coronary artery and valve surgery, arrhythmia surgery, and study of heart surgery outcomes
 KING, ROBERT C.; MD, 1993, UNIVERSITY OF PENNSYLVANIA; Adult & Minimally invasive cardiac surgery. Community outreach programs. Cost & outcome analysis
 LEVY, ADAM E.; MD, 1990, UNIVERSITY OF CINCINNATI; transplant
 SALERNO, CHRISTOPHER T.; MD, 1992, RUSH MEDICAL COLLEGE; Adult cardiac surgery including cardiac transplantation and cardiac assist devices

Research Assistant Professor

HOCKING, ANNE MAREE; PhD, 1994, UNIVERSITY OF MELBOURNE (AUSTRALIA); Cell signaling in skin
 LI, WEI; PhD, 1999, NORMAN BETHUNE UNIVERSITY (CHINA); Transplant immunologist and microsurgeon
 WIJELATH, ERROL S.; PhD, 1989, UNIVERSITY OF STRATHCLYDE (UK); Extracellular matrix and growth factor interaction in vascular biology

Urology

Professor

ANSELL, JULIAN S.; PhD, 1959, UNIVERSITY OF MINNESOTA; congenital defects and pediatric urology
 BARNES, GLOVER W.; PhD, 1961, STATE UNIVERSITY OF NEW YORK (BUF-FALO); tissue, organ immunology
 BRANNEN, GEORGE; MD, 1969, NORTHWESTERN UNIVERSITY; general adult urology, third-world medicine
 CHAPMAN, WARREN H.; MD, 1952, UNIVERSITY OF CHICAGO; oncology and microsurgery
 ELLIS, WILLIAM J.; MD, 1985, JOHNS HOPKINS UNIVERSITY; oncology, prostate disease
 KRIEGER, JOHN N.; MD, 1974, CORNELL UNIVERSITY; infectious diseases
 LANGE, PAUL HENRY; MD, 1967, WASHINGTON UNIVERSITY; oncology, endourology and adult reconstruction
 MITCHELL, MICHAEL E.; MD, 1969, HARVARD UNIVERSITY; pediatric urology and reconstruction
 VESSELLA, ROBERT L.; PhD, 1974, UNIVERSITY OF MISSISSIPPI; tumor markers and immunology
 WESSELLS, HUNTER; MD, 1988, GEORGETOWN UNIVERSITY; ganitourinary trauma, reconstructive surgery

Associate Professor

BURNS, MARK W.; MD, 1979, UNIVERSITY OF WASHINGTON; pediatric urology and transplantation.
 GRADY, RICHARD W.; MD, 1990, UNIVERSITY OF MICHIGAN; pediatric urology

HIGANO, CELESTIA S.; MD, 1979, UNIVERSITY OF MASSACHUSETTS; oncology
 JOYNER, BYRON DAVID; MD, 1988, HARVARD UNIVERSITY; pediatric urology
 KUHR, CHRISTIAN S.; MD, 1988, UNIVERSITY OF WASHINGTON; multi-organ transplantation, urologic surgery
 MILLER, JANE L.; MD, 1985, UNIVERSITY OF OKLAHOMA; female urology and urodynamics, urologic trauma
 PORTER, JAMES ROSCOE; MD, 1990, MEDICAL COLLEGE OF OHIO; urologic trauma, laparoscopy, endourology
 TAKAYAMA, THOMAS K.; MD, 1985, TUFTS UNIVERSITY; biochemistry of prostate specific antigen
 YANG, CLAIRE C.; MD, 1988, VANDERBILT UNIVERSITY; neurourology and electrophysiology testing

Research Associate Professor

COREY, EVA; PhD, 1989, ACADEMY OF SCIENCE (USSR); bone metastasis, detection by RT-PCR, markers of progression, prostate specific antigen
 LIU, ALVIN Y.; PhD, 1981, UNIVERSITY OF CALIFORNIA (LOS ANGELES); cell biology, cancer, gene expression
 RILEY, DONALD E.; PhD, 1976, UNIVERSITY OF WASHINGTON; pathogenic research and diagnosis involving DNA sequences

Assistant Professor

BAKTHAVATSALAM, RAMASAMY; MS, 1988, UNIVERSITY OF MADRAS (INDIA); kidney, pancreas and liver transplantation, complex uro-oncology, vascular access
 CORMAN, JOHN M.; MD, 1992, BAYLOR UNIVERSITY; general surgery
 LIN, DANIEL W.; MA, 1994, VANDERBILT UNIVERSITY; Urologic oncology, prostate cancer molecular biology

Lecturer

MULLER, CHARLES; PhD, 1976, UNIVERSITY OF CALIFORNIA (BERKELEY); male fertility and sperm physiology

School of Nursing

Professor

- BARNARD, KATHRYN E.; PhD, 1972, UNIVERSITY OF WASHINGTON; ecological factors of child development
- BATEY, MARJORIE V.; PhD, 1968, UNIVERSITY OF COLORADO (BOULDER); sociological factors in health-care systems
- BERKOWITZ, BOBBIE; PhD, 1990, CASE WESTERN RESERVE UNIVERSITY; administration, leadership and policy development within public health and nursing
- BERRY, DONNA L.; PhD, 1992, UNIVERSITY OF WASHINGTON; health care of persons with, and at risk for, cancer
- BLACKBURN, SUSAN T.; PhD, 1979, UNIVERSITY OF WASHINGTON; high-risk infants and their families, infant care-giving interactions and environments
- BOND, ELEANOR; PhD, 1985, UNIVERSITY OF WASHINGTON; acute care and critical care nursing, gut motility, effect of ovarian hormones on GI track, stress
- BOOTH-LAFORCE, CATHRYN L.; PhD, 1974, OHIO STATE UNIVERSITY; mother-infant interaction, observational methodology, child birth experiences and attachment
- BRANDT, PATRICIA; PhD, 1981, UNIVERSITY OF WASHINGTON; influence of family functioning on early child development
- BROWN, MARIE ANNETTE; PhD, 1983, UNIVERSITY OF WASHINGTON; women's health, depression, mood disorders, lifestyle changes, exercise, and loss/grief/dying
- BUDZYNSKI, HELEN KOGAN; PhD, 1968, UNIVERSITY OF CALIFORNIA (LOS ANGELES); stress response: cognitive/physiologic interface in chronic dysfunction, self-management teaching
- BUTTERFIELD, PATRICIA G.; PhD, 1992, OREGON HEALTH SCIENCES UNIVERSITY; occupational & environmental health, public health nursing leadership
- CHRISMAN, NOEL J.; PhD, 1966, UNIVERSITY OF CALIFORNIA (BERKELEY); health beliefs and practices, social networks and social support; clinically applied anthropology
- COWAN, MARIE J.; PhD, 1979, UNIVERSITY OF WASHINGTON; estimation of infarct size by electrocardiography, sudden cardiac death, physiological nursing
- CRAVEN, RUTH F.; MN, 1968, UNIVERSITY OF WASHINGTON; EdD, 1984, SEATTLE UNIVERSITY; gerontological nursing
- CUNNINGHAM, SUSANNA L.; PhD, 1978, UNIVERSITY OF WASHINGTON; risk factors for atherosclerotic cardiovascular disease
- CURTIS, JARED R.; MD, 1988, JOHNS HOPKINS UNIVERSITY; MPH, 1994, UNIVERSITY OF WASHINGTON; pulmonary diseases and critical care medicine
- DE TORNYAY, RHEBA; EdD, 1967, STANFORD UNIVERSITY; health services, nursing education
- DIMOND, MARGARET; PhD, 1978, UNIVERSITY OF WISCONSIN; aging, bereavement, family caregiving, Alzheimer's disease, chronic illness, long-term care
- EGGERT, LEONA; PhD, 1984, UNIVERSITY OF WASHINGTON; adolescents, drug use, suicide, communication, personal relationships
- EYRES, SANDRA J.; PhD, 1972, UNIVERSITY OF NORTH CAROLINA; environmental resources promoting adaptation and health
- GALLUCCI, BETTY J.; PhD, 1973, NORTH CAROLINA STATE UNIVERSITY; oncology, nutritional assessment, pathophysiology of stomatitis, and graft versus host disease
- GRAHAM, KATHERINE YOUNG; PhD, 1978, UNIVERSITY OF WASHINGTON; family adaptation; quality of life in wellness and illness; professional commitment
- HABERMAN, MEL R.; PhD, 1987, UNIVERSITY OF WASHINGTON; quality of life of cancer survivors, impact of breast cancer on family
- HEGYVARY, SUE T.; PhD, 1974, VANDERBILT UNIVERSITY; administration and productivity of health care and nursing services
- HEITKEMPER, MARGARET M.; PhD, 1981, UNIVERSITY OF ILLINOIS; gastroenterology, enteral nutrition, gerontology
- HORN, BARBARA J.; PhD, 1971, UNIVERSITY OF MICHIGAN; effective organization of nursing resources
- KIECKHEFER, GAIL M.; PhD, 1985, UNIVERSITY OF WASHINGTON; motivation for health promotional and illness management behavior in children
- KILLIEN, MARCIA G.; PhD, 1982, UNIVERSITY OF WASHINGTON; women's health, reproductive decision making, work and family
- KODADEK, SHEILA M.; PhD, 1985, UNIVERSITY OF ILLINOIS; population-based nursing
- LANDIS, CAROL A.; MS, 1973, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); DNS, 1988, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); health consequences of sleep loss, neuroendocrinimmune interactions, methods of inquiry
- LEWIS, FRANCES M.; PhD, 1977, STANFORD UNIVERSITY; complex organizational analysis, evaluation
- research, psychosocial factors in chronic illness
- MAGYARY, DIANE L.; PhD, 1981, UNIVERSITY OF WASHINGTON; family centered health care of children at risk, disabled or handicapped
- MITCHELL, PAMELA H.; PhD, 1991, UNIVERSITY OF WASHINGTON; neuroscience nursing, diagnostic strategies
- MURPHY, SHIRLEY ANN; PhD, 1981, PORTLAND STATE UNIVERSITY; addictive processes in women, coping with undesirable life events
- OSBORNE, OLIVER H.; PhD, 1968, MICHIGAN STATE UNIVERSITY; ideology, policy and health-care systems, cross-cultural health, mental health, nursing
- PATRICK, MAXINE L.; DPH, 1970, UNIVERSITY OF CALIFORNIA (LOS ANGELES); gerontology, geriatrics
- PRICE SPRATLEN, LOIS; PhD, 1976, UNIVERSITY OF WASHINGTON; sexual harassment and perceived workplace mistreatment in higher education
- SALAZAR, MARY K.; PhD, 1991, SEATTLE UNIVERSITY; behavioral theory applied to health education, occupational health, program evaluation
- SIANTZ, MARY LOU; PhD, 1984, UNIVERSITY OF MARYLAND; child/adolescent psychiatric nursing, risk and adaptation among migrant children and families
- SPIEKER, SUSAN J.; PhD, 1982, CORNELL UNIVERSITY; developmental psychology, infant security, mother-infant interaction
- SWANSON, KRISTEN M.; PhD, 1983, UNIVERSITY OF COLORADO (BOULDER); caring therapeutics, responses to miscarriage, women's health, loss, bereavement
- TERI, LINDA; PhD, 1980, UNIVERSITY OF VERMONT; controlled clinical trials of caregiving training for patients with Alzheimers
- THOMAS, KAREN A.; PhD, 1986, UNIVERSITY OF WASHINGTON; preterm infant development, care unit environments, acute care pediatrics, thermoregulation
- THOMPSON, FRANCES ELAINE A.; PhD, 1990, UNIVERSITY OF WASHINGTON; attribution theory, adolescent drug use, suicide
- VITIELLO, MICHAEL V.; PhD, 1980, UNIVERSITY OF WASHINGTON; Sleep, sleep disorders, circadian rhythms, aging, behavioral medicine
- WHITNEY, JOANNE D.; PhD, 1991, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); wound healing
- WILKIE, DIANA J.; PhD, 1990, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); cancer pain assessment and management, pain research

WOLF-WILETS, VIVIAN; PhD, 1969, UNIVERSITY OF CHICAGO; curriculum development, instruction, stress management
 WOODS, NANCY; PhD, 1978, UNIVERSITY OF NORTH CAROLINA; women's health
 WOODS, SUSAN L.; PhD, 1991, OREGON HEALTH SCIENCES UNIVERSITY; cardiovascular clinical specialist, pulmonary artery catheter measurement

Research Professor

BEATON, RANDAL D.; PhD, 1972, UNIVERSITY OF WASHINGTON; assessment and treatment of temporomandibular joint pain and dysfunction
 KELLY, JEAN F.; PhD, 1979, UNIVERSITY OF WASHINGTON; family factors that affect at-risk children
 LENTZ, MARTHA J.; PhD, 1984, UNIVERSITY OF WASHINGTON; physiological adaptation: the influence of sleep and other biological rhythms

Associate Professor

ALTMAN, GAYLENE M.; PhD, 1992, UNIVERSITY OF WASHINGTON; women's health and inflammation; pain and endometriosis
 BELZA, BASIA; PhD, 1991, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); chronic illness, gerontology, fatigue prevention and management in rheumatic diseases
 BETRUS, PATRICIA; PhD, 1985, UNIVERSITY OF WASHINGTON; women and depression, epigenesis of emotions, mental health, stress, violence quantitative analysis
 BEVENS, STELLA H.; MA, 1951, UNIVERSITY OF MINNESOTA; physiological nursing
 BLAINEY, CAROL; MN, 1967, UNIVERSITY OF WASHINGTON; clinical teaching and problems of patients with diabetes mellitus
 BRANDT, EDNA M.; MN, 1953, UNIVERSITY OF WASHINGTON; physiological nursing
 CARR, CATHERINE A.; PhD, 1993, UNIVERSITY OF MICHIGAN; factors that affect provider practice and clinical outcomes of midwifery care
 COCHRANE, BARBARA B.; PhD, 1992, UNIVERSITY OF WASHINGTON; women's health; individual adaptations to health and illness, clinical therapeutics
 ENSIGN, B. JOSEPHINE; MS, 1986, VIRGINIA COLLEGE OF MEDICINE; MPH, 1992, JOHNS HOPKINS UNIVERSITY; DPH, 1994, JOHNS HOPKINS UNIVERSITY; health care program planning and evaluation for marginalized populations and high-risk youth
 ESTES, NADA; MS, 1958, UNIVERSITY OF COLORADO (BOULDER); counseling people with substance-use disorder, depression

FLAGLER, SUSAN B.; DNS, 1981, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); maternal role adjustment and early parent-infant interaction
 HOFFMAN, AGNES; PhD, 1977, UNIVERSITY OF KANSAS; substance use disorders, mental health care of the elderly
 HORN, BEVERLY M.; PhD, 1975, UNIVERSITY OF WASHINGTON; cross-cultural research in maternal-child nursing
 HUEBNER, COLLEEN ELLEN; PhD, 1991, UNIVERSITY OF WASHINGTON; the social bases of developmental problems in early childhood
 JARRETT, MONICA E.; PhD, 1988, UNIVERSITY OF WASHINGTON; psychobiology of women
 JORDAN, PAMELA L.; PhD, 1984, UNIVERSITY OF MICHIGAN; expectant/new fatherhood, transition to parenthood
 KANG, REBECCA R.; PhD, 1985, UNIVERSITY OF WASHINGTON; environment of at-risk infants and families, Asian and Pacific Islander health
 LEPPA, CAROL J.; PhD, 1990, UNIVERSITY OF ILLINOIS; Ethics and comparative health care systems, palliative care approaches to end of life care, chronic
 LEWIS, LINDA L.; PhD, 1987, UNIVERSITY OF ILLINOIS; reproductive neuroendocrinology mood changes related to the human menstrual cycle
 LINDENBERG, CATHERINE S.; DPH, 1985, JOHNS HOPKINS UNIVERSITY; public health management and policy
 LYDON-ROCHELLE, MONA; PhD, 1999, UNIVERSITY OF WASHINGTON; applied epidemiology in maternal health
 MEYER, KERRY E.; PhD, 1990, UNIVERSITY OF MARYLAND; Health informatics, expert systems in support of clinical decision making, and geriatrics
 MITCHELL, ELLEN S.; PhD, 1986, UNIVERSITY OF WASHINGTON; women's health; menstrual cycle symptom experience, food cravings and eating control
 MOTZER, SANDRA ADAMS; PhD, 1992, OREGON HEALTH SCIENCES UNIVERSITY; NK cell function in women with chronic health disturbance (i.e., irritable bowel syndrome)
 MUNET-VILARO, FRANCES; PhD, 1984, UNIVERSITY OF WASHINGTON; Coping of Latinos with a family member with cancer and/or AIDS.
 O'CONNOR, FREDERICA W.; PhD, 1986, NORTHWESTERN UNIVERSITY; public sector mental health treatment provision, interventions promoting desired life quality
 OLSHANSKY, ELLEN F.; DNS, 1985, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); psychosocial implications of infertility related to the family, qualitative research, depression
 SCHEPP, KAREN G.; PhD, 1985, UNIVERSITY OF ARIZONA; stress and coping of

physically and mentally ill youth and their families
 SCHROEDER, CAROLE A.; PhD, 1993, UNIVERSITY OF COLORADO (DENVER); women's health experiences, critical approaches to knowledge development, and developing partnership
 SCHULTZ, PHYLLIS R.; PhD, 1981, UNIVERSITY OF DENVER; nursing systems research, impact of nursing services on population's health
 SCHWARTZ, ANNA L.; PhD, 1997, UNIVERSITY OF UTAH; Exercise and cancer. Cancer-related fatigue, symptom management, health promotion, instrumentation
 SHANNON, SARAH E.; PhD, 1992, UNIVERSITY OF WASHINGTON; clinical ethics; decision-making surrounding use of life-sustaining therapies
 SIKMA, SUZANNE; PhD, 1994, UNIVERSITY OF WASHINGTON; caring in organizations, development and evaluation of organizations, care delivery systems
 SIMPSON, TERRI A.; PhD, 1988, UNIVERSITY OF WASHINGTON; critical care patients' physiological and psychological responses to environmental stressors
 SPITZER, ADA; PhD, 1990, UNIVERSITY OF WASHINGTON; migration, cross-cultural nursing, stress and coping of children with illness, nursing scholarship
 WHITE-TRAUT, ROSEMARY; DSc, 1983, RUSH UNIVERSITY; preterm infant physiological and behavioral responsiveness to multimodal stimulation by caregivers
 YOUNG, HEATHER M.; PhD, 1991, UNIVERSITY OF WASHINGTON; community based health care service for older adults
 ZIERLER, BRENDA; PhD, 1996, UNIVERSITY OF WASHINGTON; research in patient with venous thromboembolism; clinical outcomes, process outcomes

Research Associate Professor

BURR, ROBERT L.; PhD, 1986, UNIVERSITY OF WASHINGTON; cardiovascular/psychophysiology, autonomic nervous system
 DOUGHERTY, CYNTHIA M.; PhD, 1990, UNIVERSITY OF WASHINGTON; cardiovascular disease, sudden cardiac death, nursing interventions, cardiovascular risk modification
 HERTING, JERALD R.; PhD, 1987, UNIVERSITY OF WASHINGTON; research methodology and at-risk youth
 JOHNSON, LEONARD CLARK; PhD, 1978, UNIVERSITY OF WASHINGTON; applied research methods including development in applied statistics, assessment, and analysis
 LOGSDON, REBECCA G.; PhD, 1986, OKLAHOMA STATE UNIVERSITY;

geriatric psychology, Alzheimer's disease, caregiving
 LOVELL, DAVID GILBERT; MSW, 1993, UNIVERSITY OF WASHINGTON; criminal justice policy and treatment of mentally ill offenders.
 MCCURRY, SUSAN MELANCON; PhD, 1991, UNIVERSITY OF NEVADA; dementia, aging, older adults, depression, sleep, psychotherapy intervention research
 MCGRATH, BARBARA B.; PhD, 1993, UNIVERSITY OF WASHINGTON; ethnographic studies with U.S. Pacific Islanders on health issues, specifically, HIV/AIDS prevention
 RANDELL, BROOKE P.; MN, 1969, UNIVERSITY OF CALIFORNIA (LOS ANGELES); DNursSci, 1987, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); preventive community-based interventions with high-risk adolescents and their families.

Assistant Professor

BAKER, MARGARET W; PhD, 2000, UNIVERSITY OF WASHINGTON; Independence and older Americans; elder mistreatment
 DRAYE, MARY A.; MPH, 1968, UNIVERSITY OF MICHIGAN; primary health care, health promotion, risk appraisal, coping with infertility
 KENNEDY, MICHAEL; PhD, 1994, UNIVERSITY OF WASHINGTON; symptom self-management, clinical nursing research
 KOZUKI, YORIKO; PhD, 1999, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); adherence to psychotropic medications in populations with schizophrenia spectrum disorders
 KURTH, ANN E.; PhD, 2003, UNIVERSITY OF WASHINGTON; sexually transmitted infection screening & prevention; clinical epidemiology; applied informatics
 LARSON, MARGARET L; MN, 1967, UNIVERSITY OF WASHINGTON; cross-cultural variables in mental illness,

nursing interventions in disturbed behaviors
 MACLAREN LORANGER, AILEEN; PhD, 1998, JOHNS HOPKINS UNIVERSITY; nurse midwifery
 NGUYEN, HUONG Q; PhD, 2003, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); Self-management, chronic illness, Internet, interactive technology
 OSHIO, SACHIKO; PhD, 1992, UNIVERSITY OF WASHINGTON; Nurse-Midwifery, Mother-Infant Relationship Development, Mental Representation of Relationship.
 OYLER, MEL R.; PhD, 1997, UNIVERSITY OF WASHINGTON; database systems, technology strategy, commercial applications of information science
 PRICE, MARTHA J.; DNS, 1988, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); self-management in chronic illness, diabetes mellitus, qualitative research methodologies
 RICE, STEPHEN G; PhD, 1974, NEW YORK UNIVERSITY; sports medicine
 SALES, ANNE; PhD, 1998, UNIVERSITY OF MINNESOTA; patient and organizational outcomes, health care work force, health economics
 SOLCHANY, JOANNE E.; PhD, 2000, UNIVERSITY OF WASHINGTON; relationships between children and their primary caregivers
 TYSON, SHERYL; PhD, 2002, UNIVERSITY OF CALIFORNIA (LOS ANGELES); Intimate Partner Violence Against Women
 WALSH, ELAINE M.; PhD, 1999, UNIVERSITY OF WASHINGTON; Prevention of suicide and drug abuse among adolescents and young adults
 WILD, LORIE M; PhD, 1996, UNIVERSITY OF WASHINGTON; clinical pain management

Research Assistant Professor

ARCHBOLD, KRISTEN H; PhD, 2001, UNIVERSITY OF MICHIGAN; Sleep and cognitive executive dysfunction
 BOND, GAIL E; PhD, 1995, UNIVERSITY OF WASHINGTON; aging, memory, substance-use disorders, long-term care
 CARRERE, SYBIL; PhD, 1990, UNIVERSITY OF CALIFORNIA (IRVINE); interface between family relationships, stress, and health

Lecturer

ACKER, MICHELE; MN, 1995, ARIZONA STATE UNIVERSITY; promoting good health for children, educating teens about healthy lifestyles-making positive choices
 CHRISTIANSON, PHYLLIS L.; MN, 1990, UNIVERSITY OF WASHINGTON; gerontology
 CORNMANN, BARBARA J; PhD, 1988, UNIVERSITY OF WASHINGTON; sexual assault victims, kinetic family drawings, family having child with cancer
 HOYLE, CHRISTINE A; MN, 1979, UNIVERSITY OF WASHINGTON; primary health care
 PIPES, PEGGY L; MA, 1952, COLUMBIA UNIVERSITY; MPH, 1966, UNIVERSITY OF MICHIGAN; maternal and child nutrition
 WELTON, WILLIAM E.; MHA, 1972, UNIVERSITY OF MICHIGAN; DPH, 1999, UNIVERSITY OF MICHIGAN; strategic and organizational effectiveness of health systems

Instructor

AKER, SAUNDRA; BS, 1961, UNIVERSITY OF UTAH; medically optimal nutrition support for immunocompromised patients
 TYLER, MARTHA L; MN, 1977, UNIVERSITY OF WASHINGTON; oxygenation during chest physiotherapy, suctioning, dyspnea, breathing patterns in disease
 WILKINSON, KAREN; MN, 1990, UNIVERSITY OF WASHINGTON; pediatric nursing

College of Ocean and Fishery Sciences

Aquatic and Fishery Sciences

Professor

ARMSTRONG, DAVID A.; PhD, 1978, UNIVERSITY OF CALIFORNIA (DAVIS); crustean ecology and fisheries, estuarine habitat protection, impacts on dredging, pesticides

BOLTON, SUSAN M.; PhD, 1991, NEW MEXICO STATE UNIVERSITY; hydrology, watershed management, stream restoration, ecological engineering

BURGNER, ROBERT L.; PhD, 1958, UNIVERSITY OF WASHINGTON; salmon ecology and salmon biology.

CHEW, KENNETH K.; PhD, 1962, UNIVERSITY OF WASHINGTON; shellfish biology and aquaculture; director, Western Regional Aquaculture Center

CONQUEST, LOVEDAY L.; PhD, 1975, UNIVERSITY OF WASHINGTON; statistics in forestry, fisheries, and environmental pollution monitoring

DICKHOFF, WALTON W.; PhD, 1976, UNIVERSITY OF CALIFORNIA (BERKELEY); fish physiology, endocrinology, aquaculture

ERICKSON, ALBERT; PhD, 1964, MICHIGAN STATE UNIVERSITY; wildlife biology and marine mammals

FRANCIS, ROBERT C.; PhD, 1970, UNIVERSITY OF WASHINGTON; fisheries management, marine ecosystem dynamics, fisheries oceanography and global climate change

GALLUCCI, VINCENT; PhD, 1971, NORTH CAROLINA STATE UNIVERSITY; stock assessment, fisheries management

GUNDERSON, DONALD R.; PhD, 1975, UNIVERSITY OF WASHINGTON; marine fisheries, stock assessment and recruitment processes

HALVER, JOHN E.; PhD, 1953, UNIVERSITY OF WASHINGTON; fundamental fish nutrition, physiology and metabolism, nutrients balance in field formulations

HILBORN, RAY; PhD, 1974, UNIVERSITY OF BRITISH COLUMBIA (CANADA); stock assessment, population dynamics, fisheries policy

HUPPERT, DANIEL D.; PhD, 1975, UNIVERSITY OF WASHINGTON; economics and management of natural resources, especially marine fisheries

KARR, JAMES; PhD, 1970, UNIVERSITY OF ILLINOIS; stream and watershed ecology, tropical forest ecology, conservation biology, environmental policy

KOCAN, RICHARD M.; PhD, 1967, MICHIGAN STATE UNIVERSITY; aquatic toxicology, fish toxicology, fish and wildlife diseases

LESCHINE, THOMAS M.; PhD, 1975, UNIVERSITY OF PITTSBURGH; marine

pollution management, ocean policy studies

LISTON, JOHN; PhD, 1955, UNIVERSITY OF ABERDEEN (UK); food science, marine microbiology

MATHEWS, STEPHEN B.; PhD, 1967, UNIVERSITY OF WASHINGTON; quantitative fishery management

MILES, EDWARD L.; PhD, 1965, UNIVERSITY OF DENVER; international law and organization; science, technology, and international relations; marine policy

MILLER, BRUCE S.; PhD, 1969, UNIVERSITY OF WASHINGTON; life history and ecology of marine fishes, especially early life history

MILLER, MARC; PhD, 1974, UNIVERSITY OF CALIFORNIA (IRVINE); maritime anthropology, cognitive anthropology and social/cultural change

NAIMAN, ROBERT J.; PhD, 1974, ARIZONA STATE UNIVERSITY; forest stream ecosystems, aquatic landscape dynamics

PIETSCH, THEODORE W.; PhD, 1973, UNIVERSITY OF SOUTHERN CALIFORNIA; systematic ichthyology, zoogeography, behavior, functional morphology, biotic survey

PIGOTT, GEORGE M.; PhD, 1963, UNIVERSITY OF WASHINGTON; food engineering

QUINN, THOMAS P.; PhD, 1981, UNIVERSITY OF WASHINGTON; fish behavior, ecology and evolution

SKALSKI, JOHN R.; PhD, 1985, CORNELL UNIVERSITY; population estimation, environmental statistics and sampling, effects assessment

SMITH, LYNWOOD S.; PhD, 1962, UNIVERSITY OF WASHINGTON; fish physiology.

TAUB, FRIEDA B.; PhD, 1959, RUTGERS UNIVERSITY; ecology

UTTER, FRED M.; PhD, 1969, UNIVERSITY OF CALIFORNIA (DAVIS); Applied population genetics using molecular markers.

WISSMAR, ROBERT C.; PhD, 1972, UNIVERSITY OF IDAHO; freshwater ecosystems, fish ecology, and trophic dynamics; river restoration

WOOSTER, WARREN S.; PhD, 1953, UNIVERSITY OF CALIFORNIA (SAN DIEGO); effects of climate change on marine ecosystems, use of scientific information in marine management

Research Professor

ANDERSON, JAMES J.; PhD, 1977, UNIVERSITY OF WASHINGTON; biomathematics, ecology, fisheries, oceanography, toxicology, fish protection at power plants

Associate Professor

BEAUCHAMP, DAVID A.; PhD, 1987, UNIVERSITY OF WASHINGTON; aquatic community ecology, bioenergetics, food web modeling, predator-prey, interactions, behavior

GRUE, CHRISTIAN E.; PhD, 1977, TEXAS A&M UNIVERSITY; wildlife toxicology, wildlife science

PARRISH, JULIA; PhD, 1988, DUKE UNIVERSITY; animal aggregation, fish schooling, seabirds, marine conservation, by catch

SCHINDLER, DANIEL E.; PhD, 1995, UNIVERSITY OF WISCONSIN; Ecosystem and community ecology - especially of aquatic systems.

VANBLARICOM, GLENN R.; PhD, 1978, UNIVERSITY OF CALIFORNIA (SAN DIEGO); marine wildlife, community ecology

Research Associate Professor

HERWIG, RUSSELL P.; PhD, 1989, UNIVERSITY OF WASHINGTON; environmental and applied aquatic microbiology, bioremediation-related microbiology

Assistant Professor

ESSINGTON, TIMOTHY E.; PhD, 1999, UNIVERSITY OF WISCONSIN; Fish and fisheries in marine food webs

Marine Affairs

Professor

ALVERSON, DAYTON L.; PhD, 1967, UNIVERSITY OF WASHINGTON; marine affairs

ARON, WILLIAM I.; PhD, 1960, UNIVERSITY OF WASHINGTON; management of living marine resources

CRUTCHFIELD, JAMES A.; PhD, 1954, UNIVERSITY OF CALIFORNIA (BERKELEY); natural resources economics, policy and management, especially marine and environmental resources

HERSHMAN, MARC; JD, 1967, TEMPLE UNIVERSITY; LL.M., 1970, UNIVERSITY OF MIAMI (FLORIDA); coastal zone management law

LESCHINE, THOMAS M.; PhD, 1975, UNIVERSITY OF PITTSBURGH; marine pollution management, ocean policy studies

MILES, EDWARD L.; PhD, 1965, UNIVERSITY OF DENVER; international law and organization; science, technology, and international relations; marine policy

WOOSTER, WARREN S.; PhD, 1953, UNIVERSITY OF CALIFORNIA (SAN DIEGO); effects of climate change on

marine ecosystems, use of scientific information in marine management

Associate Professor

- CANNING, DOUGLAS J.; MS, 1987, EVERGREEN STATE COLLEGE; coastal zone management, public trust doctrine, global climate change and sea level rise
- COPPING, ANDREA; PhD, 1982, UNIVERSITY OF WASHINGTON; marine environment and water quality, marine science/marine policy
- DE MASTER, DOUGLAS PAUL; PhD, 1978, UNIVERSITY OF MINNESOTA; marine mammals, population dynamics, conservation biology
- DUXBURY, ALYN C.; PhD, 1963, TEXAS A&M UNIVERSITY; estuarine processes and the management of human uses of these marine systems
- FLUHARTY, DAVID L.; PhD, 1977, UNIVERSITY OF MICHIGAN; natural resource and environmental policy
- KACZYNSKI, WLODZIMIERZ M.; PhD, 1973, UNIVERSITY OF GDANSK (POLAND); fishery economics, international joint ventures in marine fisheries, international fisheries policy

Oceanography

Professor

- AAGAARD, KNUT; PhD, 1966, UNIVERSITY OF WASHINGTON; physical oceanography, ocean circulation, arctic oceanography
- ANDERSON, GEORGE C.; PhD, 1954, UNIVERSITY OF WASHINGTON; plankton ecology, biological oceanography
- BAKER, EDWARD T.; PhD, 1973, UNIVERSITY OF WASHINGTON; distribution, characterization, and impacts of hydrothermal emissions, linkage to tectonic processes
- BANSE, KARL; Doctorat d'Etat, 1955, UNIVERSITY OF KIEL (GERMANY); biological oceanography, plankton production and methodology, polychaete systematics
- BAROSS, JOHN A.; PhD, 1973, UNIVERSITY OF WASHINGTON; microbial oceanography, bacterial ecology
- CANNON, GLENN A.; PhD, 1969, JOHNS HOPKINS UNIVERSITY; physical oceanography of coastal waters and deep-sea hydrothermal venting
- CREAGER, JOE S.; PhD, 1958, TEXAS A&M UNIVERSITY; geological oceanography, sedimentology
- DELANEY, JOHN R.; PhD, 1977, UNIVERSITY OF ARIZONA; geological oceanography, origin of oceanic crust, igneous petrology
- DEMING, JODY W.; PhD, 1981, UNIVERSITY OF MARYLAND; evolution and ecology of marine bacteria in the pressurized ocean
- DEVOL, ALLAN H.; PhD, 1975, UNIVERSITY OF WASHINGTON; biogeochemistry, sediment diagenesis, anoxic systems, carbon fluxes
- EMERSON, STEVEN R.; PhD, 1974, COLUMBIA UNIVERSITY; marine geochemistry, chemical oceanography, sediment diagenesis
- ERIKSEN, CHARLES C.; PhD, 1977, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; experimental physical oceanography; equatorial and upper ocean dynamics, internal waves
- EWART, TERRY E.; PhD, 1965, UNIVERSITY OF WASHINGTON; physics, ocean microstructure, diffusion, acoustic transmission
- FEELY, RICHARD A.; PhD, 1974, TEXAS A&M UNIVERSITY; chemical oceanography, oceanic sources and sinks for carbon dioxide
- GREGG, MICHAEL C.; PhD, 1971, UNIVERSITY OF CALIFORNIA (SAN DIEGO); physical oceanography, ocean microstructure, coastal and estuarine processes, hydraulics, internal waves
- HARRISON, DON EDMUNDS; PhD, 1977, HARVARD UNIVERSITY; ocean circulation modeling, air-sea interaction, ocean and climate dynamics
- HEATH, G. ROSS; PhD, 1968, UNIVERSITY OF CALIFORNIA (SAN DIEGO); geochemistry and mineralogy of deep-sea sediments
- HICKEY, BARBARA M.; PhD, 1975, UNIVERSITY OF CALIFORNIA (SAN DIEGO); physical oceanography, dynamics of equatorial and shelf circulation
- JOHNSON, GREGORY C.; PhD, 1991, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; large-scale ocean circulation, dynamics and variability
- JOHNSON, HARLAN PAUL; PhD, 1972, UNIVERSITY OF WASHINGTON; paleomagnetism and marine geophysics
- KELLY, KATHRYN A.; PhD, 1983, UNIVERSITY OF CALIFORNIA (SAN DIEGO); physical oceanography, specializing in combining models with satellite observations.
- KESSLER, WILLIAM S.; PhD, 1989, UNIVERSITY OF WASHINGTON; equatorial ocean circulation and waves; interannual climate variability
- KUNZE, ERIC L.; PhD, 1985, UNIVERSITY OF WASHINGTON; mesoscale phenomena, wave/mean flow interaction double diffusion and mixing
- LEWIS, BRIAN T.; PhD, 1970, UNIVERSITY OF WISCONSIN; marine geophysics, marine seismology, gravity, magnetism, and computer modeling of those processes
- LILLEY, MARVIN D.; PhD, 1983, OREGON STATE UNIVERSITY; chemical oceanography
- MARTIN, SEELYE; PhD, 1967, JOHNS HOPKINS UNIVERSITY; geophysical fluid dynamics, properties of sea ice
- MC DUFF, RUSSELL E.; PhD, 1978, UNIVERSITY OF CALIFORNIA (SAN DIEGO); marine geochemistry
- MC MANUS, DEAN A.; PhD, 1959, UNIVERSITY OF KANSAS; geological oceanography, continental shelf sediments, geoscience education
- MC PHADEN, MICHAEL J.; PhD, 1980, SCRIPPS OCEANOGRAPHIC INSTITUTION; equatorial ocean dynamics, climate scale air-sea interaction
- MOBLEY, CURTIS D.; PhD, 1977, UNIVERSITY OF MARYLAND; optical oceanography and radiative transfer, especially numerical modeling
- MOFJELD, HAROLD; PhD, 1970, UNIVERSITY OF WASHINGTON; tsunami dynamics, long waves and currents in the ocean, storm surge inundation
- MOORE, DENNIS W.; PhD, 1968, HARVARD UNIVERSITY; equatorial oceanography, geophysical fluid dynamics, and inertial boundary currents
- MORISON, JAMES H.; PhD, 1980, UNIVERSITY OF WASHINGTON; upper ocean physical processes in the polar regions
- MURRAY, JAMES W.; PhD, 1973, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; marine geochemistry, aquatic chemistry
- NITTROUER, CHARLES; PhD, 1978, UNIVERSITY OF WASHINGTON; geological oceanography, continental-margin sedimentation
- PERRY, MARY J.; PhD, 1974, UNIVERSITY OF CALIFORNIA (SAN DIEGO); biological oceanography, phytoplankton physiology, nutrient cycling
- QUAY, PAUL D.; PhD, 1977, COLUMBIA UNIVERSITY; chemical oceanography, stable isotope geochemistry, ocean tracers and mixing
- RATTRAY, MAURICE; PhD, 1951, CALIFORNIA INSTITUTE OF TECHNOLOGY; physical oceanography, hydrodynamics, ocean circulation modeling
- RHINES, PETER B.; PhD, 1967, CAMBRIDGE UNIVERSITY (UK); the circulation of the oceans and evolution of climate
- RICHEY, JEFFREY E.; PhD, 1973, UNIVERSITY OF CALIFORNIA (DAVIS); quantitative problems of aquatic ecosystems, primary Amazon River, limnology
- SANFORD, THOMAS B.; PhD, 1967, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; physical oceanography, dynamics of ocean currents, motional induction, instrumentation
- SARACHIK, EDWARD; PhD, 1966, BRANDEIS UNIVERSITY; atmospheric dynamics, air-sea interactions, greenhouse warming, equatorial dynamics, climate change
- SPINDEL, ROBERT C.; PhD, 1971, YALE UNIVERSITY; ocean acoustics, signal

processing, acoustic navigation systems, acoustic tomography
 STERNBERG, RICHARD; PhD, 1965, UNIVERSITY OF WASHINGTON; geological oceanography, marine sedimentation processes
 WILCOCK, WILLIAM S D; PhD, 1992, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; marine seismology, dynamics of mid-ocean ridges, geological fluid dynamics

Research Professor

HOLMES, MARK L.; PhD, 1975, UNIVERSITY OF WASHINGTON; estuarine geologic processes, natural hazards in Puget Sound, crustal evolution at mid-ocean ridges

Associate Professor

ARMBRUST, E. VIRGINIA; PhD, 1990, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; molecular ecology, genetic diversity of microbial populations, diatom sexual reproduction
 BALISTRERI, LAURIE S; MS, 1977, UNIVERSITY OF WASHINGTON; aqueous and environmental geochemistry, processes controlling trace elements in aquatic systems
 BULLISTER, JOHN L; PhD, 1984, UNIVERSITY OF CALIFORNIA (SAN DIEGO); chemical tracers of large-scale ocean circulation and mixing, gases in the ocean and atmosphere
 BUTTERFIELD, DAVID A.; PhD, 1990, UNIVERSITY OF WASHINGTON; geochemical systematics of hydrothermal fluids, relation to seafloor volcanism, microbial activity
 CRONIN, MEGHAN; PhD, 1993, UNIVERSITY OF RHODE ISLAND; upper-ocean heat, salt, and momentum balances, western boundary currents, eddy-mean flow interaction
 DUXBURY, ALYN C; PhD, 1963, TEXAS A&M UNIVERSITY; estuarine processes and the management of human uses of these marine systems
 GRUNBAUM, DANIEL; PhD, 1991, CORNELL UNIVERSITY; zooplankton

ecology, population biology, behavioral ecology, mathematical biology, and biomechanics
 HOLCOMB, ROBIN T.; PhD, 1981, STANFORD UNIVERSITY; volcanology
 KAWASE, MITSUHIRO; PhD, 1986, PRINCETON UNIVERSITY; geophysical fluid dynamics; oceanic general circulation; tracer oceanography
 KEIL, RICHARD G; PhD, 1991, UNIVERSITY OF DELAWARE; microbial degradation of organic compounds in aquatic and soil environments
 KELLEY, DEBORAH S.; PhD, 1990, DALHOUSIE UNIVERSITY (CANADA); marine geology, volcanic-hosted submarine hydrothermal systems, sulfide-microbial habitats
 LEE, CRAIG M; PhD, 1995, UNIVERSITY OF WASHINGTON; upper-ocean processes, internal waves, fronts, interactions between dynamics and biology
 LESSARD, EVELYN J.; PhD, 1984, UNIVERSITY OF RHODE ISLAND; microzooplankton ecology and physiology; physical/biological interactions at oceanic fronts
 MAC CREADY, PARKER; PhD, 1991, UNIVERSITY OF WASHINGTON; ocean circulation in estuaries and the southern ocean
 NAPP, JEFFREY M; PhD, 1986, UNIVERSITY OF CALIFORNIA (SAN DIEGO); biological-physical interactions in the epipelagic zone, zooplankton ecology, fisheries oceanography
 NYSTUEN, JEFFREY A.; PhD, 1985, UNIVERSITY OF CALIFORNIA (SAN DIEGO); acoustical oceanography, applied to oceanic rainfall and physics of the air-sea interface
 OLTMAN-SHAY, JOAN M; PhD, 1986, SCRIPPS OCEANOGRAPHIC INSTITUTION; nearshore waves and currents: wave climatology, generation and dissipation, sediment dynamics
 RISER, STEPHEN C; PhD, 1981, UNIVERSITY OF RHODE ISLAND; physical oceanography, mesoscale mixing, physics of mesoscale eddies, numerical modeling

ROTHROCK, DAVID A; PhD, 1969, CAMBRIDGE UNIVERSITY (UK); physical oceanography, polar oceanography, polar ice remote sensing and modeling
 SHUMAN, FRANK R; PhD, 1978, UNIVERSITY OF WASHINGTON; monitoring activities in marine waters: sediment, water, plants and animals, toxic substances
 THOMPSON, LUANNE; PhD, 1990, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; numerical modeling of mesoscale and general circulation of the oceans
 WARNER, MARK J; PhD, 1988, UNIVERSITY OF CALIFORNIA (SAN DIEGO); physical oceanography, ocean ventilation and mixing processes

Research Associate Professor

HOWE, BRUCE M.; PhD, 1986, UNIVERSITY OF CALIFORNIA (SAN DIEGO); physical oceanography, acoustic tomography

Assistant Professor

DUSHAW, BRIAN D.; PhD, 1992, UNIVERSITY OF CALIFORNIA (SAN DIEGO); acoustic tomography, applications to ocean temperature, tidal dissipation, ocean mixing
 NEWTON, JAN A.; PhD, 1989, UNIVERSITY OF WASHINGTON; production and export of organic material, estuarine/coastal dynamics and marine water quality
 SABINE, CHRISTOPHER L.; PhD, 1992, UNIVERSITY OF HAWAII; carbon cycling in the global oceans including air-sea fluxes and estimates of anthropogenic carbon
 TYNAN, CYNTHIA T; PhD, 1993, UNIVERSITY OF CALIFORNIA (SAN DIEGO); biological-physical processes, distribution and abundances of plankton and marine mammals

School of Pharmacy

Medicinal Chemistry

Professor

ATKINS, WILLIAM M.; PhD, 1988, UNIVERSITY OF ILLINOIS; protein engineering
BAILLIE, THOMAS A.; PhD, 1973, UNIVERSITY OF GLASGOW (UK); medicinal chemistry.
DAGGETT, VALERIE D.; PhD, 1990, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); molecular modelling studies of peptides and proteins
ELMER, GARY W.; PhD, 1970, RUTGERS UNIVERSITY; pharmacognosy
HUITRIC, ALAIN C.; PhD, 1954, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); medicinal chemistry.
KRUPSKI, EDWARD; PhD, 1949, UNIVERSITY OF WASHINGTON; medicinal chemistry.
MC CARTHY, WALTER; PhD, 1949, INDIANA UNIVERSITY; medicinal chemistry.
NELSON, SIDNEY D.; PhD, 1974, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); medicinal chemistry, chemical toxicology
NELSON, WENDEL; PhD, 1965, UNIVERSITY OF KANSAS; medicinal chemistry.
RETTIE, ALLAN E.; PhD, 1983, UNIVERSITY OF NEWCASTLE-ON-TYNE (UK); drug metabolism: biochemical, analytical, mechanistic, and genetic aspects
TRAGER, WILLIAM F.; PhD, 1965, UNIVERSITY OF WASHINGTON; medicinal chemistry, bioanalytical chemistry drug metabolism

Associate Professor

KUNZE, KENT; PhD, 1981, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); medicinal chemistry and drug metabolism

Pharmaceutics

Professor

ANDERSON, GAIL; PhD, 1987, UNIVERSITY OF WASHINGTON; pharmacokinetics, metabolism and interactions of drugs in epilepsy and trauma
HO, RODNEY J.Y.; PhD, 1987, UNIVERSITY OF TENNESSEE; maternal-fetal transmission of HIV
HU, SHIU-LOK; PhD, 1978, UNIVERSITY OF WISCONSIN; virus-host interactions, AIDS vaccines and pathogenesis of primate lentivirus infection
LEVY, RENE H.; PhD, 1970, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); metabolic interactions among antiepileptic drugs and between cytokines and drugs

SHEN, DANNY D.; PhD, 1975, STATE UNIVERSITY OF NEW YORK (BUFFALO); CNS pharmacokinetics and pharmacodynamics of opioid analgesics and anticonvulsants
THUMMEL, KENNETH E.; PhD, 1987, UNIVERSITY OF WASHINGTON; the metabolism of drugs by human liver and intestine
UNADKAT, JASHVANT D.; PhD, 1982, UNIVERSITY OF MANCHESTER (UK); mechanisms of transport of anti-HIV drugs across placenta, CSF-blood barrier, and intestine

Associate Professor

KUNZE, KENT; PhD, 1981, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); medicinal chemistry and drug metabolism
VICINI, PAOLO; PhD, 1996, POLYTECHNIC OF MILAN (ITALY); biomathematics and modeling methodology, mathematical models of biological systems

Pharmacy

Professor

ANDERSON, GAIL; PhD, 1987, UNIVERSITY OF WASHINGTON; pharmacokinetics, metabolism and interactions of drugs in epilepsy and trauma
BAUER, LARRY; PharmD, 1980, UNIVERSITY OF KENTUCKY; clinical pharmacokinetics and drug metabolism, drug interactions
BURKHART, VINCENT D.; MS, 1972, UNIVERSITY OF MARYLAND; institutional pharmacy practice and fiscal and personnel management
EDWARDS, WILLIAM A.; MS, 1971, UNIVERSITY OF WISCONSIN; gastrointestinal diseases, nutrition
ELLSWORTH, ALLAN J.; PharmD, 1977, PHILADELPHIA COLL OF PHARMACY & SCIENCE; primary care, family medicine
FASSETT, WILLIAM E.; PhD, 1992, UNIVERSITY OF WASHINGTON; pharmacy administration, professional ethics
GARDNER, JACQUELINE S.; PhD, 1980, UNIVERSITY OF WASHINGTON; pharmacoepidemiology, drug therapy use and effects, pharmacist practice patterns
GRAY, SHELLY L.; PharmD, 1989, UNIVERSITY OF MICHIGAN; geriatric pharmacy
HALL, NATHAN A.; PhD, 1948, UNIVERSITY OF WASHINGTON; pharmacy practice

HANSTEN, PHILIP D.; PharmD, 1968, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); drug interactions.
HEBERT, MARY F.; PharmD, 1987, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); transplantation, immunology pharmacotherapeutics
HORN, JOHN; PharmD, 1977, UNIVERSITY OF CINCINNATI; pharmacotherapeutics, with emphasis on drug interactions
KEDZIERSKI, MICHAEL E.; BS, 1970, UNIVERSITY OF WISCONSIN; substance abuse, community health care
ORR, JACK E.; PhD, 1943, UNIVERSITY OF WISCONSIN; pharmacy history
PATRICK, DONALD L.; PhD, 1972, COLUMBIA UNIVERSITY; health status and quality of life, end of life, adolescents
RAMSEY, SCOTT D.; PhD, 1994, UNIVERSITY OF PENNSYLVANIA; economics in medicine
SHEN, DANNY D.; PhD, 1975, STATE UNIVERSITY OF NEW YORK (BUFFALO); CNS pharmacokinetics and pharmacodynamics of opioid analgesics and anticonvulsants
STERGACHIS, ANDREAS S.; PhD, 1979, UNIVERSITY OF MINNESOTA; pharmacoepidemiology, pharmacy administration
SULLIVAN, SEAN; PhD, 1992, UNIVERSITY OF CALIFORNIA (BERKELEY); health economics, pharmaceutical outcomes research and health policy
WILLIAMS, DONALD H.; PharmD, 1958, MASSACHUSETTS COLLEGE OF PHARMACY; pharmacy law

Associate Professor

BLACK, DOUGLAS J.; PharmD, 1983, UNIVERSITY OF WASHINGTON; infectious diseases
BOMGAARS, DONALD L.; MBA, 1985, UNIVERSITY OF UTAH; hospital pharmacy.
HAZLET, THOMAS K.; DPH, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); pharmaceuticals policy, outcomes and bioethics
MCCUNE, JEANNINE S.; PharmD, 1995, UNIVERSITY OF NORTH CAROLINA; drug metabolism
ODEGARD, PEGGY SOULE; PharmD, 1990, UNIVERSITY OF WASHINGTON; clinical practice, pediatrics.
SCOTT, DALE H.; MS, 1978, OHIO STATE UNIVERSITY; hospital pharmacy.
VEENSTRA, DAVID; PhD, 1996, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); economic modeling and cost-effectiveness analysis in health care
WEBER, STANLEY S.; PharmD, 1975, UNIVERSITY OF CINCINNATI; psychiatric pharmacy practice, pharmacy distance learning

Research Associate Professor

BLOUGH, DAVID K; PhD, 1982, IOWA STATE UNIVERSITY; Biostatistics applications; generalized linear models; time series analysis.

Assistant Professor

AU, DAVID H.; MD, 1993, UNIVERSITY OF CHICAGO; Chronic Lung Disease, Pharmacoepidemiology, Health services research, Communication

JOHNSON, ERIC S.; PhD, 1999, UNIVERSITY OF WASHINGTON; evaluate drug safety; describe burden of disease/clinical outcomes

POLIFKA, JANINE E.; PhD, 1985, UNIVERSITY OF LOUISVILLE; teratology

RITCHIE, CRAIG A.; JD, 1972, UNIVERSITY OF IDAHO; pharmacy law

WITEK, DONALD J.; BS, 1987, UNIVERSITY OF WASHINGTON; pharmacy

Lecturer

DAWSON, KARAN N; MS, 1978, UNIVERSITY OF WASHINGTON; psychotropics, geriatrics, teaching methods

LAM, ANNIE Y.; PharmD, 1997, UNIVERSITY OF WASHINGTON; drug disposition and age, long-term-care pharmacy

MURPHY, NANCY L; PharmB, 1977, WASHINGTON STATE UNIVERSITY; pharmacy education, geriatric practice and community pharmacy practice

ODEGAARD, MARY ANN; PhD, 1980, STANFORD UNIVERSITY; retailing and retail management

O'SULLIVAN, TERESA; PharmD, 1990, UNIVERSITY OF MINNESOTA; cystic fibrosis, general medicine, practice-related education, medical literature evaluation

Evans School of Public Affairs

Professor

ARCHIBALD, SANDRA O.; PhD, 1984, UNIVERSITY OF CALIFORNIA (DAVIS); economics of public policy focusing on water resources, environmental policy & sustainable development
CRUTCHFIELD, JAMES A.; PhD, 1954, UNIVERSITY OF CALIFORNIA (BERKELEY); natural resources economics, policy and management, especially marine and environmental resources
DENNY, BREWSTER C.; PhD, 1959, FLETCHER SCHOOL OF LAW AND DIPLOMACY; American foreign and defense policy, science and public policy
DOBEL, J. PATRICK; PhD, 1976, PRINCETON UNIVERSITY; political theory, ethics and public policy, organizational theory.
FAUSTMAN, ELAINE M.; PhD, 1980, MICHIGAN STATE UNIVERSITY; developmental toxicology, risk assessment methodologies, toxicology of N-nitroso compounds
GLOYD, STEPHEN S.; MD, 1973, UNIVERSITY OF CHICAGO; MPH, 1983, HARVARD UNIVERSITY; political economy, epidemiology, and primary health care in developing countries
GORDON, MARGARET T.; PhD, 1972, NORTHWESTERN UNIVERSITY; news media and public policy; violence against women
HYMAN, BARRY; PhD, 1965, VIRGINIA POLYTECHNIC INST & STATE UNIV; engineering design, energy systems and policy, technology and public policy
LOCKE, HUBERT G.; MA, 1962, UNIVERSITY OF MICHIGAN; criminal justice, urban policy, race and ethnic relations
PLOTNICK, ROBERT D.; PhD, 1976, UNIVERSITY OF CALIFORNIA

(BERKELEY); economics of poverty, labor and social welfare policy
SMITH, STEVEN RATHGEB; PhD, 1988, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; the changing relationship between government and nonprofit organizations
WADDELL, PAUL A.; PhD, 1989, UNIVERSITY OF TEXAS (DALLAS); urban policy, regional planning, growth management, land use, transportation, GIS
WATTS, CAROLYN A.; PhD, 1976, JOHNS HOPKINS UNIVERSITY; health economics and policy
WILLIAMS, WALTER; PhD, 1960, INDIANA UNIVERSITY; high-level decision making, policy implementation
ZERBE, RICHARD O.; PhD, 1969, DUKE UNIVERSITY; law and economics, cost-benefit analysis, economic history, environmental regulation
ZUMETA, WILLIAM M.; PhD, 1978, UNIVERSITY OF CALIFORNIA (BERKELEY); public policy analysis, higher education policy and finance, workforce policy

Research Professor

HILL, PAUL T.; PhD, 1972, OHIO STATE UNIVERSITY; political science, public policy, effects of regulation, especially on schools

Associate Professor

ANDERSON, C. LEIGH; PhD, 1989, UNIVERSITY OF WASHINGTON; institutional economics, international trade and environmental policy, international development
BROCK, JONATHAN; MBA, 1973, HARVARD UNIVERSITY; public

management, negotiation and mediation, labor relations, managing people
CULLEN, ALISON; DSc, 1992, HARVARD UNIVERSITY; environmental science, policy, quantitative decision making and management
MILLER, ERNEST G.; PhD, 1959, PRINCETON UNIVERSITY; management and organizational development, organization theory, administrative behavior.

Assistant Professor

FLETSCHNER, DIANA; PhD, 2002, UNIVERSITY OF WISCONSIN; Development Economics, Intrahousehold Decision-Making, Group Effects, Microfinance
KLEIT, RACHEL G.; PhD, 1999, UNIVERSITY OF NORTH CAROLINA; urban politics, public housing, urban planning
PAGE, STEPHEN B.; PhD, 1999, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; public management, interagency collaboration, U.S. social policy

Research Associate Professor

ROZA, MARGUERITE Y.M.; PhD, 1995, UNIVERSITY OF WASHINGTON; Education Policy and School Finance

Lecturer

CARLSON, DANIEL L.; MCP, 1972, UNIVERSITY OF CALIFORNIA (BERKELEY); urban policy, clinics
CORMICK, GERALD W.; PhD, 1971, UNIVERSITY OF MICHIGAN; mediation and negotiation
MCINTIRE, JAMES L.; PhD, 1993, UNIVERSITY OF WASHINGTON; housing policy, state tax policy, labor market policy.

School of Public Health and Community Medicine

Biostatistics

Professor

ANDERSON, GARNET L.; PhD, 1989, UNIVERSITY OF WASHINGTON; clinical trial methodology, survival analysis, women's health, ovarian cancer screening
BENEDETTI, JACQUELINE K.; PhD, 1974, UNIVERSITY OF WASHINGTON; statistical methodology in infectious disease research, cancer clinical trials
BRESLOW, NORMAN; PhD, 1967, STANFORD UNIVERSITY; clinical trials, epidemiology, survival and categorical data.
DE ROUEN, TIMOTHY; PhD, 1971, VIRGINIA POLYTECHNIC INST & STATE UNIV; applications of biostatistics to clinical epidemiology of oral and infectious diseases
DIEHR, PAULA K.; PhD, 1970, UNIVERSITY OF CALIFORNIA (LOS ANGELES); health services, small-area analysis, health status
EMERSON, SCOTT S.; PhD, 1988, UNIVERSITY OF WASHINGTON; clinical trials, sequential testing, survival analysis, categorical data
ETZIONI, RUTH B.; PhD, 1990, CARNEGIE MELLON UNIVERSITY; statistical methods in cancer screening, Bayesian methods in biostatistics
FENG, ZIDING; PhD, 1990, CORNELL UNIVERSITY; correlated data methods, mixture models, cancer prevention
FISHER, LLOYD D.; PhD, 1966, DARTMOUTH COLLEGE; cardiovascular data analysis, clinical trials, multivariate statistics, longitudinal data analysis
FLEMING, THOMAS RICHARD; PhD, 1976, UNIVERSITY OF MARYLAND; survival analysis, cancer clinical trials, AIDS research, sequential analysis
GOOLEY, THEODORE A.; PhD, 1990, UNIVERSITY OF ARIZONA; design and analysis of clinical trials in bone marrow transplantation
HALLSTROM, ALFRED; PhD, 1968, BROWN UNIVERSITY; clinical trial methodologies in cardiovascular research and emergency medical services applications
HEAGERTY, PATRICK J.; PhD, 1995, JOHNS HOPKINS UNIVERSITY; longitudinal and dependent data analysis
HUGHES, JAMES P.; PhD, 1993, UNIVERSITY OF WASHINGTON; statistical methods in STD/AIDS research, longitudinal methods, Markov models
KENNEDY, KATHRYN D.; PhD, 1974, UNIVERSITY OF WASHINGTON; density estimation, cardiovascular data analysis, clinical trials
KOOPERBERG, CHARLES L.; PhD, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); splines, density estimation, image reconstruction, spatial statistics, function estimation

KOPECKY, KENNETH J.; PhD, 1977, OREGON STATE UNIVERSITY; clinical trials design and survival data analysis, epidemiologic methodology, goodness of fit
KRONMAL, RICHARD A.; PhD, 1964, UNIVERSITY OF CALIFORNIA (LOS ANGELES); nonparametric density estimation, computer algorithms, cardiovascular data analysis
LIN, DANYU; PhD, 1989, UNIVERSITY OF MICHIGAN; analysis of failure time data, designs and analysis of clinical and epidemiologic studies
MOOLGAVKAR, SURESH H.; PhD, 1973, JOHNS HOPKINS UNIVERSITY; cancer epidemiology, development of quantitative methodology
PEPE, MARGARET; PhD, 1986, UNIVERSITY OF WASHINGTON; survival analysis, medical decision making, correlated data methods, child health issues
PETERSON, ARTHUR V.; PhD, 1975, STANFORD UNIVERSITY; survival data methodology, competing risks, design of disease prevention trials
PRENTICE, ROSS L.; PhD, 1970, UNIVERSITY OF TORONTO (CANADA); failure time analysis, disease prevention trials, epidemiologic methods, dietary factors and disease
SELF, STEVEN G.; PhD, 1981, UNIVERSITY OF WASHINGTON; longitudinal data analysis, survival time models, cancer prevention, HIV vaccine evaluation
STORER, BARRY E.; PhD, 1984, UNIVERSITY OF WASHINGTON; statistical methods in clinical trials and epidemiology
TEMKIN, NANCY R.; PhD, 1976, STATE UNIVERSITY OF NEW YORK (BUFFALO); clinical trials, recovery models, statistical modeling of epileptic phenomena, survival analysis.
THOMPSON, ELIZABETH A.; PhD, 1974, CAMBRIDGE UNIVERSITY (UK); statistical analysis of human genetic data, conservation and computational biology
VAN BELLE, GERALD; PhD, 1967, UNIVERSITY OF TORONTO (CANADA); biostatistics, environmental risk factors for neurodegenerative diseases, risk communication
WAHL, PATRICIA W.; PhD, 1971, UNIVERSITY OF WASHINGTON; multivariate statistical techniques, especially regression analysis applied to cardiovascular data
WAKEFIELD, JONATHAN C.; PhD, 1992, UNIVERSITY OF NOTTINGHAM (UK); Bayesian data analysis, statistics in epidemiology, spatial epidemiology/pharmacodynamic models

WANG, CHING-YUN; PhD, 1993, TEXAS A&M UNIVERSITY; case-control study, missing data, measurement error, kernel smoothing
WELLNER, JON A.; PhD, 1975, UNIVERSITY OF WASHINGTON; large-sample theory, asymptotic efficiency, empirical processes, semiparametric models
ZHOU, XIAO-HUA ANDREW; PhD, 1991, OHIO STATE UNIVERSITY; Biostatistics, health services research, mental health research

Research Professor

BARLOW, WILLIAM E.; PhD, 1986, UNIVERSITY OF WASHINGTON; survival analysis, residuals, and evaluation of screening programs
LE BLANC, MICHAEL; PhD, 1989, UNIVERSITY OF WASHINGTON; Tree-based models, survival analysis, clinical trials, adaptive statistical methods
SHEPPARD, ELIZABETH A.; PhD, 1992, UNIVERSITY OF WASHINGTON; aggregate data, survival analysis, biostatistical methods in environmental health
THOMPSON, MARY LOU; PhD, 1979, GEORG-AUGUST UNIVERSITÄT (GERMANY); filtered point processes, diagonal methods, longitudinal reference ranges, maternal/child health
WIJSMAN, ELLEN M.; PhD, 1981, UNIVERSITY OF WISCONSIN; human quantitative and population genetics

Associate Professor

HUANG, YIJIAN; PhD, 1997, UNIVERSITY OF MINNESOTA; survival analysis, HIV/AIDS clinical trials and epidemiological studies
LEROUX, BRIAN; PhD, 1989, UNIVERSITY OF BRITISH COLUMBIA (CANADA); mixed models, correlated data, statistical applications in dentistry, toxicology, and psychology
LUMLEY, THOMAS S.; PhD, 1998, UNIVERSITY OF WASHINGTON; statistical methods applied to public health, medicine and environmental science.
POLISSAR, NAYAK LINCOLN; PhD, 1974, PRINCETON UNIVERSITY; statistical consulting, community surveys, clinical trials, demography, epidemiology, environment
RUTTER, CAROLYN; PhD, 1991, UNIVERSITY OF CALIFORNIA (LOS ANGELES); evaluation of diagnostic tests, ROC curve analysis and correlated data problems
STOREY, JOHN D.; PhD, 2002, STANFORD UNIVERSITY; statistical genomics, computational biology, applied statistics
THORNQUIST, MARK DANIEL; PhD, 1985, UNIVERSITY OF WISCONSIN;

ordinal/categorical response, repeated measures data, chemoprevention, group-randomized trials

XU, LI; PhD, 1994, UNIVERSITY OF WASHINGTON; genetic epidemiology and biostatistics

YANEZ III, NORBERT DAVID; PhD, 1993, ARIZONA STATE UNIVERSITY; generalized linear models, overdispersion, measurement error models

Research Associate Professor

MANCL, LLOYD A.; PhD, 1992, UNIVERSITY OF WASHINGTON; statistical methodology in periodontal disease, TMD, and correlated data

RICHARDSON, BARBRA ANN; PhD, 1993, UNIVERSITY OF CALIFORNIA (LOS ANGELES); statistical methods for data from AIDS/STD clinical trials

ROSSINI, ANTHONY J; DSc, 1994, HARVARD UNIVERSITY; statistical computing, bioinformatics, clinical trials, statistical analysis of laboratory data

Assistant Professor

HOFF, PETER D; PhD, 2000, UNIVERSITY OF WISCONSIN; constrained estimation, nonparametric Bayesian methods, two-sided matching models, cancer research

INOUE, LURDES; PhD, 1999, DUKE UNIVERSITY; Bayesian mthds in Biostat; Statistical Computing; Clinical Trials; Decision Theory & Cancer Rsrch

MONKS, STEPHANIE; PhD, 1999, NORTH CAROLINA STATE UNIVERSITY; statistical genetics, permutation tests, sampling design of genetic studies

Research Assistant Professor

BRUMBACK, LYNDIA C.; PhD, 2001, UNIVERSITY OF WISCONSIN; Functional data analysis; statistical applications in cystic fibrosis, cardiovascular, AIDS research

Environmental and Occupational Health

Professor

ALTMAN, LEONARD; MD, 1969, HARVARD UNIVERSITY; mechanisms of tissue injury produced by bacteria, leukocytes, or toxins

BARNHART, SCOTT; MD, 1979, GEORGE WASHINGTON UNIVERSITY; occupationally related lung disease

CHECKOWAY, HARVEY; PhD, 1978, UNIVERSITY OF NORTH CAROLINA; occupational and environmental epidemiology

COSTA, LUCIO GUIDO; PharmD, 1977, UNIVERSITY OF MILAN (ITALY); neurotoxicology; developmental and

molecular mechanisms/biological markers of neurotoxicity

DE WALLE, FOPPE B.; PhD, 2000, UNIVERSITY OF WASHINGTON; environmental health technology, hazardous waste, drinking water treatment, toxics reduction

EATON, DAVID L; PhD, 1978, UNIVERSITY OF KANSAS; biochemical and environmental toxicology, aflatoxin carcinogenesis, metabolism of toxic chemicals

FAUSTMAN, ELAINE M.; PhD, 1980, MICHIGAN STATE UNIVERSITY; developmental toxicology, risk assessment methodologies, toxicology of N-nitroso compounds

FENSKE, RICHARD A.; PhD, 1984, UNIVERSITY OF CALIFORNIA (BERKELEY); human exposure and health risk assessment, pesticide exposure

KALMAN, DAVID A; PhD, 1978, UNIVERSITY OF WASHINGTON; environmental chemistry, detection and fate of chemical hazards in natural and manmade environments

KAUFMAN, JOEL D.; MD, 1986, UNIVERSITY OF MICHIGAN; MPH, 1990, UNIVERSITY OF WASHINGTON; occupational and environmental epidemiology: etiologic research and public health surveillance

KAVANAGH, TERRANCE J; PhD, 1985, MICHIGAN STATE UNIVERSITY; free radical toxicology, glutathione metabolism, toxicology and aging

KEMP, CHRISTOPHER JAMES; PhD, 1989, UNIVERSITY OF WISCONSIN; genetic and environmental influence on multistage cancer in the mouse

KISSEL, JOHN C.; PhD, 1985, STANFORD UNIVERSITY; solid and hazardous waste management practice, human exposure assessment

KOENIG, JANE Q; PhD, 1963, UNIVERSITY OF WASHINGTON; respiratory physiology, health effects of air pollutants, lung response of susceptible groups

LARSON, TIMOTHY; PhD, 1976, UNIVERSITY OF WASHINGTON; airborne particles, air quality modeling, and instrument development

LUCHTEL, DANIEL L; PhD, 1969, UNIVERSITY OF WASHINGTON; electron microscopy and cell biology, lung anatomy/pathophysiology, fiber toxicology

MORGAN, MICHAEL S; DSc, 1972, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; applied respiratory, physiology and inhalation toxicology.

MOTTET, N KARLE; MD, 1952, YALE UNIVERSITY; effects of trace elements, especially methylmercury and arsenic, on growth and development.

OMENN, GILBERT S; PhD, 1972, UNIVERSITY OF WASHINGTON; genetic predisposition to environmental and occupational hazards

OMIECINSKI, CURTIS J; PhD, 1980, UNIVERSITY OF WASHINGTON; molecular toxicology, genetic regulation/ expression of drug/chemical metabolizing enzymes

ROBKIN, MAURICE A; PhD, 1961, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; radiation dosimetry, environmental radioactivity, radioactive waste management, health physics

SEIXAS, NOAH S.; PhD, 1990, UNIVERSITY OF MICHIGAN; exposure assessment methods for occupational/epidemiologic studies; small industrial plants

VAN BELLE, GERALD; PhD, 1967, UNIVERSITY OF TORONTO (CANADA); biostatistics, environmental risk factors for neurodegenerative diseases, risk communication

WILSON, JOHN T; MD, 1950, COLUMBIA UNIVERSITY; DSc, 1956, UNIVERSITY OF CINCINNATI; environmental and occupational medicine, industrial toxicology

YOST, MICHAEL G.; PhD, 1989, UNIVERSITY OF CALIFORNIA (BERKELEY); worker exposures to physical agents, electromagnetic fields, noise and vibration

Research Professor

FANTEL, ALAN G; PhD, 1974, UNIVERSITY OF WASHINGTON; embryology, teratology

FRANKLIN, GARY M.; MD, 1969, GEORGE WASHINGTON UNIVERSITY; MPH, 1982, UNIVERSITY OF CALIFORNIA (BERKELEY); occupational injury, neurological epidemiology, public health nutrition

SHEPPARD, ELIZABETH A.; PhD, 1992, UNIVERSITY OF WASHINGTON; aggregate data, survival analysis, biostatistical methods in environmental health

WOODS, JAMES S; PhD, 1970, UNIVERSITY OF WASHINGTON; biochemical toxicology of trace metals; biological markers of metal exposure

Associate Professor

BREYSSE, PETER; MS, 1954, WASHINGTON STATE UNIVERSITY; MPH, 1957, UNIVERSITY OF PITTSBURGH; exposure of population to contaminants.

BURBACHER, THOMAS M; PhD, 1983, UNIVERSITY OF WASHINGTON; neurotoxicology, specializing in the behavioral effects of agents on the central nervous system

DANIELL, WILLIAM E; MD, 1979, TUFTS UNIVERSITY; MPH, 1986, UNIVERSITY OF WASHINGTON; noise-induced hearing loss; long-term disability associated with carpal tunnel syndrome

DOOLITTLE, THEUS LEE; PhD, 1963, UNIVERSITY OF SOUTHERN CALIFORNIA; physiology of exercise, physiological mechanical efficiency

GILBERT, STEVEN G.; PhD, 1986, UNIVERSITY OF ROCHESTER; primate neurobehavioral toxicology and teratology, developmental effects of heavy metals

GROSSMANN, ANGELIKA; PhD, 1982, FREIE UNIVERSITÄT OF BERLIN (GERMANY); immunosenescence in humans and mice; immunotoxicology; transmembrane signaling in T-lymphocytes

HATLEN, JACK B.; MS, 1958, UNIVERSITY OF WASHINGTON; environmental health program planning and management, environmental health manpower training

KEIFER, MATTHEW C.; MD, 1982, UNIVERSITY OF ILLINOIS; the human health effects of pesticide exposure

KISSEL, JOHN C.; PhD, 1985, STANFORD UNIVERSITY; solid and hazardous waste management practice, human exposure assessment

LEROUX, BRIAN; PhD, 1989, UNIVERSITY OF BRITISH COLUMBIA (CANADA); mixed models, correlated data, statistical applications in dentistry, toxicology, and psychology

LIU, LEE-JANE S.; DSc, 1994, HARVARD UNIVERSITY; air pollution, exposure assessment, environmental epidemiology

LIU, LEE-JANE S.; MS, 1991, HARVARD UNIVERSITY; air pollution, exposure assessment, environmental epidemiology

MARTIN, THOMAS G.; MD, 1977, PENNSYLVANIA STATE UNIVERSITY; general internal medicine

XIA, ZHENGUI; PhD, 1991, UNIVERSITY OF WASHINGTON; neuronal apoptosis, neuronal gene regulation

Assistant Professor

DE ROOS, ANNECLAIRE JENICE; PhD, 2000, UNIVERSITY OF NORTH CAROLINA; Occupational & environmental & chronic disease epidemiology, biomarkers of early effect

FIRESTONE, JORDAN A.; PhD, 1993, UNIVERSITY OF COLORADO (BOULDER); neurotoxicology

SHIN, GWY-AM; PhD, 1998, UNIVERSITY OF NORTH CAROLINA; Water and wastewater microbiology

SIMPSON, CHRISTOPHER DAVID; PhD, 1997, UNIVERSITY OF BRITISH COLUMBIA (CANADA); Exposure assessment, biomarker development, environmental analytical chemistry, industrial hygiene

Lecturer

CAMP, JANICE E.; MN, 1984, UNIVERSITY OF WASHINGTON; MS, 1984, UNIVERSITY OF WASHINGTON; workplace exposure assessment, evaluation of exposure, controls, program evaluation

FREEMAN, STANLEY H.; MA, 1959, STATE UNIVERSITY OF NEW YORK

(BUFFALO); industrial safety, program organization and administration.

MONTEITH, LEE E.; MS, 1956, UNIVERSITY OF WASHINGTON; industrial hygiene, analytical and environmental chemistry

MORRIS, SHARON L.; BA, 1965, REED COLLEGE; occupational safety and health policy, continuing education.

TRESER, CHARLES D.; MPH, 1976, UNIVERSITY OF MICHIGAN; administrative law and process in environmental health; housing; vector control

Epidemiology

Professor

ASTLEY, SUSAN J.; PhD, 1990, UNIVERSITY OF WASHINGTON; chronic childhood diseases.

AUSTIN, MELISSA A.; PhD, 1985, UNIVERSITY OF CALIFORNIA (BERKELEY); genetic epidemiology of chronic diseases and public health genetics

BECKER, THOMAS; PhD, 1986, UNIVERSITY OF NEW MEXICO; diagnosis and prevention of Native American cancer

BERESFORD, SHIRLEY A.; PhD, 1981, UNIVERSITY OF LONDON (UK); nutritional epidemiology, folic acid, fruit and vegetables

BERESFORD, SHIRLEY A.; PhD, 1981, UNIVERSITY OF LONDON: KING'S COLLEGE (UK); nutritional epidemiology, folic acid, fruit and vegetables

BOYKO, EDWARD J.; MD, 1979, UNIVERSITY OF PITTSBURGH; epidemiology of inflammatory bowel disease and non-insulin-dependent diabetes mellitus

BURKE, WYLIE; PhD, 1974, UNIVERSITY OF WASHINGTON; ethical and policy implications of genetic information

CELM, CONNIE L.; MD, 1984, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); infectious diseases

CHECKOWAY, HARVEY; PhD, 1978, UNIVERSITY OF NORTH CAROLINA; occupational and environmental epidemiology

CONNELL, FREDERICK A.; MD, 1972, NEW YORK UNIVERSITY; child health, child health services research, Medicaid, community health assessment

CRITCHLOW, CATHY W.; PhD, 1993, UNIVERSITY OF WASHINGTON; epidemiology of sexually transmitted diseases; HIV prevention, diseases of oral cavity

CUMMINGS, PETER; MD, 1970, CASE WESTERN RESERVE UNIVERSITY; MPH, 1993, UNIVERSITY OF WASHINGTON; injury epidemiology, emergency medicine, epidemiologic methods

DALING, JANET R.; PhD, 1977, UNIVERSITY OF WASHINGTON; maternal and child health and cancer research.

DAVIS, ROBERT L.; MD, 1983, UNIVER-

SITY OF CALIFORNIA (SAN DIEGO); MPH, 1993, UNIVERSITY OF WASHINGTON; childhood immunization, including adverse events perinatal and pediatric epidemiology

DAVIS, SCOTT; PhD, 1980, UNIVERSITY OF WASHINGTON; radiation and cancer, circadian disruption and cancer, hematopoietic cancers, epidemiologic methods

DREWNOWSKI, ADAM; PhD, 1977, ROCKEFELLER UNIVERSITY; taste and psychology of food choice in disease prevention

ELMORE, JOANN G.; MD, 1987, STANFORD UNIVERSITY; MPH, 1992, YALE UNIVERSITY; clinical epidemiology, breast cancer screening, diagnostic accuracy

EMANUEL, IRVIN; MA, 1956, UNIVERSITY OF ARIZONA; MD, 1960, UNIVERSITY OF ROCHESTER; MS, 1966, UNIVERSITY OF WASHINGTON; epidemiology of maternal and child health problems, growth and development

FOY, HJORDIS; PhD, 1968, UNIVERSITY OF WASHINGTON; epidemiology and control of infectious disease

GALE, JAMES L.; MD, 1961, COLUMBIA UNIVERSITY; MS, 1969, UNIVERSITY OF WASHINGTON; epidemiology and control of infectious disease, international health

GLOYD, STEPHEN S.; MD, 1973, UNIVERSITY OF CHICAGO; MPH, 1983, HARVARD UNIVERSITY; political economy, epidemiology, and primary health care in developing countries

GRAYSTON, J THOMAS; MD, 1948, UNIVERSITY OF CHICAGO; MS, 1952, UNIVERSITY OF CHICAGO; infectious causes (Chlamydia pneumoniae) of atherosclerotic cardiovascular disease

HANDSFIELD, HUNTER; MD, 1968, COLUMBIA UNIVERSITY; infectious diseases

HECKBERT, SUSAN R.; PhD, 1990, UNIVERSITY OF WASHINGTON; clinical and cardiovascular epidemiology, pharmacoepidemiology, pharmacogenetics

HENDERSON, MAUREEN M; MBBS, 1949, UNIVERSITY OF DURHAM (UK); DPH, 1956, UNIVERSITY OF DURHAM (UK); epidemiology of chronic diseases, dietary prevention of disease

HOLMES, KING K.; PhD, 1967, UNIVERSITY OF HAWAII; clinical epidemiology and pathogenesis of infectious diseases

HOLT, VICTORIA L.; PhD, 1990, UNIVERSITY OF WASHINGTON; women's reproductive health, intimate partner violence

JARVIK, GAIL P.; PhD, 1986, UNIVERSITY OF MICHIGAN; quantitative genetics and genetic epidemiology, focusing on common diseases

KIMBALL, ANN M.; MD, 1976, UNIVERSITY OF WASHINGTON; MPH, 1981, UNIVERSITY OF WASHINGTON;

- emerging infections, public health response to epidemic disease
- KING, MARY-CLAIRE; PhD, 1973, UNIVERSITY OF CALIFORNIA (BERKELEY); genetic analysis of complex human phenotypes, human diversity and evolution
- KOEPSSELL, THOMAS D.; MD, 1972, HARVARD UNIVERSITY; MPH, 1979, UNIVERSITY OF WASHINGTON; injuries, neuroepidemiology, veterans health, epidemiologic methods, program and policy evaluation
- KOUTSKY, LAURAA; PhD, 1987, UNIVERSITY OF WASHINGTON; sexually transmitted diseases, HIV, etiology and natural history of cervical neoplasia
- KRISTAL, ALAN R.; DPH, 1983, COLUMBIA UNIVERSITY; nutritional epidemiology, dietary behavior, nutrition intervention, and cancer control
- KUKULL, WALTER A.; PhD, 1984, UNIVERSITY OF WASHINGTON; neurological disease etiology, aging and methodology; focus on Alzheimers disease
- LACROIX, ANDREA Z.; PhD, 1984, UNIVERSITY OF NORTH CAROLINA; older womens health, osteoporosis, cardiovascular disease, cancer prevention
- LEE, JOHN A. H.; DPH, 1952, LONDON SCH OF HYGIENE & TROP MED (UK); MD, 1955, UNIVERSITY OF EDINBURGH (UK); epidemiology of neoplastic disease
- LONGSTRETH JR, W. T.; MD, 1975, UNIVERSITY OF PENNSYLVANIA; MPH, 1982, UNIVERSITY OF WASHINGTON; neurology
- MARCUSE, EDGAR K.; MD, 1967, STANFORD UNIVERSITY; MPH, 1973, UNIVERSITY OF WASHINGTON; general pediatrics
- MARTIN, DIANE P.; PhD, 1979, UNIVERSITY OF WASHINGTON; research methods; health services quality, use, and outcomes
- MAYER, JONATHAN D.; PhD, 1977, UNIVERSITY OF MICHIGAN; medical geography, health policy, env. health, epidemiology, intl. health, infectious diseases
- MOOLGAVKAR, SURESH H.; PhD, 1973, JOHNS HOPKINS UNIVERSITY; cancer epidemiology, development of quantitative methodology
- MUELLER, BETH A.; DPH, 1984, TULANE UNIVERSITY; epidemiology of perinatal and reproductive diseases, cancer, and injury research
- NOLAN, CHARLES M.; MD, 1969, UNIVERSITY OF ARKANSAS; infectious diseases.
- OBERLE, MARK W.; MD, 1974, JOHNS HOPKINS UNIVERSITY; Public Health; Native American Health.
- PATRICK, DONALD L.; PhD, 1972, COLUMBIA UNIVERSITY; health status and quality of life, end of life, adolescents
- PENDERGRASS, THOMAS W.; MD, 1971, UNIVERSITY OF TENNESSEE; MPH, 1979, UNIVERSITY OF WASHINGTON; hematology, oncology
- POTTER, JOHN D.; PhD, 1984, UNIVERSITY OF QUEENSLAND (AUSTRALIA); colorectal cancer etiology, gene-environment interaction, early detection, molecular epidemiology
- PROBSTFIELD, JEFFREY L.; MD, 1967, UNIVERSITY OF WASHINGTON; cardiology
- PSATY, BRUCE M.; PhD, 1979, INDIANA UNIVERSITY; cardiovascular disease, coronary heart disease, hypertension, pharmacoepidemiology
- REIBER, GAYLE; PhD, 1989, UNIVERSITY OF WASHINGTON; epidemiology and health services research on preventing complications of diabetes
- RIVARA, FREDERICK P.; MD, 1974, UNIVERSITY OF PENNSYLVANIA; pediatric epidemiology and injury prevention and research
- SCHWARTZ, STEPHEN MARC; PhD, 1990, UNIVERSITY OF WASHINGTON; cancer, cardiovascular disease, reproductive conditions; molecular/genetic epidemiology; methods
- SHY, KIRKWOOD K.; MD, 1973, WAYNE STATE UNIVERSITY; epidemiologic applications to problems in obstetrics and gynecology
- SISCOVICK, DAVID S.; MD, 1976, UNIVERSITY OF MARYLAND; epidemiology
- STAMM, WALTER E.; MD, 1971, HARVARD UNIVERSITY; infectious disease
- STERGACHIS, ANDREAS S.; PhD, 1979, UNIVERSITY OF MINNESOTA; pharmacoepidemiology, pharmacy administration
- STEVENS, NANCY G.; MD, 1979, UNIVERSITY OF WASHINGTON; MPH, 1982, UNIVERSITY OF WASHINGTON; family medicine
- SUGARMAN, JONATHAN R.; MD, 1981, ALBERT EINSTEIN COLLEGE OF MEDICINE; MPH, 1990, UNIVERSITY OF WASHINGTON; American Indian and Alaska Native health; Health Care Quality Assessment and Improvement
- THOMAS, DAVID B.; MD, 1963, UNIVERSITY OF WASHINGTON; DPH, 1972, JOHNS HOPKINS UNIVERSITY; cervix and breast carcinoma epidemiology.
- VAUGHAN, THOMAS L.; MD, 1978, UNIVERSITY OF ILLINOIS; MPH, 1983, UNIVERSITY OF WASHINGTON; cancer, environmental epidemiology.
- VERNEZ-MOUDON, ANNE; DSc, 1987, ECOLE POLYTECHNIQUE FEDERALE DE LAUSANNE; urban design, city form and neighborhood studies, design research
- WEISS, NOEL S.; MD, 1967, STANFORD UNIVERSITY; DPH, 1971, HARVARD UNIVERSITY; chronic disease epidemiology
- WHITE, J EMILY; PhD, 1982, UNIVERSITY OF WASHINGTON; cancer epidemiology and prevention
- WILLIAMS, MICHELLE A.; DSc, 1991, HARVARD UNIVERSITY; reproductive and perinatal epidemiology, cancer epidemiology

Research Professor

- JACKSON, LISA A.; MD, 1988, UNIVERSITY OF VIRGINIA; MPH, 1996, UNIVERSITY OF WASHINGTON; infectious disease epidemiology, assessments of vaccine safety and effectiveness
- MCTIERNAN, ANNE; PhD, 1982, UNIVERSITY OF WASHINGTON; breast and colon cancer, womens health, exercise and obesity
- PATTERSON, RUTH E.; PhD, 1992, UNIVERSITY OF NORTH CAROLINA; dietary assessment in adult populations, dietary change, vitamin supplements in cancer prevention
- STANFORD, JANET L.; PhD, 1985, JOHNS HOPKINS UNIVERSITY; cancer epidemiology and genetic susceptibility

Associate Professor

- CHU, JOSEPH; MD, 1975, GEORGETOWN UNIVERSITY; gynecologic cancer epidemiology, perinatal epidemiology, health services research
- DUCHIN, JEFFREY S.; MD, 1985, RUTGERS UNIVERSITY; infectious diseases and epidemiology
- EDWARDS, KAREN L.; PhD, 1996, UNIVERSITY OF WASHINGTON; genetic epidemiology, public health genetics, diabetes, cardiovascular disease
- FANN, JESSE R.; MD, 1989, NORTH-WESTERN UNIVERSITY; MPH, 1995, UNIVERSITY OF WASHINGTON; neuropsychiatry, psycho-oncology, epidemiology, health services research, depression, delirium
- GOLDBAUM, GARY M.; MD, 1978, UNIVERSITY OF COLORADO (DENVER); MPH, 1989, UNIVERSITY OF WASHINGTON; preventive medicine, chronic diseases prevention, injury prevention
- HASELKORN, JODIE K.; MD, 1985, LOUISIANA STATE UNIVERSITY; health services for the disabled: diagnostic accuracy of tests, effectiveness of interventions
- HELGERSON, STEVEN D.; MD, 1973, UNIVERSITY OF WASHINGTON; MPH, 1976, UNIVERSITY OF WASHINGTON; Public health practice and epidemiologic field investigation
- HITTI, JANE; MD, 1989, UNIVERSITY OF VERMONT; MPH, 1995, UNIVERSITY OF WASHINGTON; perinatal medicine, HIV and pregnancy
- JOHN STEWART, GRACE C.; MD, 1987, UNIVERSITY OF MICHIGAN; MPH,

1995, UNIVERSITY OF WASHINGTON; mother-to-child HIV-1 transmission (specifically, Africa, cofactors, breastmilk)

KAUFMAN, JOEL D.; MD, 1986, UNIVERSITY OF MICHIGAN; MPH, 1990, UNIVERSITY OF WASHINGTON; occupational and environmental epidemiology: etiologic research and public health surveillance

KESTIN, MARK; PhD, 1989, FLINDERS UNIVERSITY (AUSTRALIA); relationship between nutrition, cancer and cardiovascular disease

MARTIN, MICHAEL D.; PhD, 1993, UNIVERSITY OF WASHINGTON; dental education in oral health care of persons with disability

MOCK, CHARLES N.; MD, 1980, BROWN UNIVERSITY; injury: epidemiology, prevention, treatment; especially in less-developed countries

OLSON, CARIN M.; MD, 1978, OHIO STATE UNIVERSITY; general internal medicine

REED, SUSAN D.; MS, 1979, SARAH LAWRENCE COLLEGE; MD, 1986, STANFORD UNIVERSITY; gynecology, evidence-based medicine and clinical outcomes studies, hormone replacement therapy

STEHMAN-BREEN, CATHERINE O; MD, 1990, UNIVERSITY OF CHICAGO; MS, 1996, UNIVERSITY OF WASHINGTON; cardiovascular epidemiology among patients with end-stage renal disease

STEHR-GREEN, PAUL; DPH, 1982, UNIVERSITY OF PITTSBURGH; chronic, infectious, vaccine-preventable diseases, environmental health, health-care delivery

TSU, VIVIEN D.; PhD, 1991, UNIVERSITY OF WASHINGTON; maternal and child health in developing countries

TSUANG, DEBBY W.; MD, 1988, UNIVERSITY OF IOWA; genetics of schizophrenia and late-life dementia

WALD, ANNA; MD, 1985, MT SINAI SCHOOL OF MEDICINE; MPH, 1994, UNIVERSITY OF WASHINGTON; the epidemiology, natural history and therapeutics of HSV and other herpesviruses infections

WEIGLER, BENJAMIN J.; PhD, 1991, UNIVERSITY OF CALIFORNIA (DAVIS); infectious disease epidemiology in laboratory animal medicine and management

Research Associate Professor

CANGELOSI, GERARD A.; PhD, 1984, UNIVERSITY OF CALIFORNIA (DAVIS); molecular biology of tuberculosis

HOOVER, J JOANNE; MD, 1960, UNIVERSITY OF ILLINOIS; MPH, 1972, UNIVERSITY OF WASHINGTON; cardiovascular epidemiology, public health practice

LAMPE, JOHANNA W; PhD, 1990, UNIVERSITY OF MINNESOTA; gene-diet interactions and cancer

susceptability: phytochemicals, biotransformation enzymes, colon

MCGRATH, BARBARA B.; PhD, 1993, UNIVERSITY OF WASHINGTON; ethnographic studies with U.S. Pacific Islanders on health issues, specifically, HIV/AIDS prevention

REINER, ALEXANDER P.; MD, 1984, JOHNS HOPKINS UNIVERSITY; hematology

ROSSING, MARY ANNE; PhD, 1993, UNIVERSITY OF WASHINGTON; cancer epidemiology, particularly cancers of the reproductive system

Assistant Professor

DE ROOS, ANNECLAIRE JENICE; PhD, 2000, UNIVERSITY OF NORTH CAROLINA; Occupational & environmental & chronic disease epidemiology, biomarkers of early effect

DUNCAN, GLEN E; PhD, 1997, UNIVERSITY OF TENNESSEE; Prevention and treatment of type 2 diabetes, obesity, metabolism, exercise

FARQUHAR, CAREY; MD, 1994, HARVARD UNIVERSITY; MPH, 2001, UNIVERSITY OF WASHINGTON; HIV in Kenya: mother-to-child HIV transmission, correlates of immunity to HIV, couple counseling

GOLDEN, MATTHEW R; MPH, 1993, JOHNS HOPKINS UNIVERSITY; MD, 1994, JOHNS HOPKINS UNIVERSITY; allergy and infectious diseases

HAWES, STEPHEN E.; PhD, 2001, UNIVERSITY OF WASHINGTON; Epidemiology of HIV/AIDS, Human Papillomavirus (HPV), and other Sexually Transmitted Diseases

KURTH, ANN E.; PhD, 2003, UNIVERSITY OF WASHINGTON; sexually transmitted infection screening & prevention; clinical epidemiology; applied informatics

MANHART, LISA E.; PhD, 2002, UNIVERSITY OF WASHINGTON; Epidemiology of sexually transmitted diseases

MCLELLAND, RAYMOND SCOTT; MD, 1995, UNIVERSITY OF WASHINGTON; MPH, 2001, UNIVERSITY OF WASHINGTON; International HIV-1 and sexually transmitted disease epidemiology and clinical research

SHERMAN, KAREN J; PhD, 1983, CORNELL UNIVERSITY; Epidemiologic methods for complementary and alternative medicine.

Research Assistant Professor

LI, CHRISTOPHER I-FU; MPH, 2000, UNIVERSITY OF WASHINGTON; MD, 2000, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); Cancer etiology and outcomes, breast cancer, hormonal exposures

STARR, JACQUELINE R; PhD, 2003, UNIVERSITY OF WASHINGTON; clinical and genetic epidemiology of craniofacial malformations, epidemiologic methods

Lecturer

BRUEMMER, BARBARA; PhD, 1993, UNIVERSITY OF WASHINGTON; Antioxidant supplementation; body weight and mortality following cancer therapy.

WILLIAMS, MARCIA FRANCES; PhD, 2000, UNIVERSITY OF WASHINGTON; physical therapy

Health Services

Professor

ALTAMORE, RITA A; MD, 1977, BOSTON UNIVERSITY; information systems in health services, quality of health care

BALDWIN, LAURA M.; MD, 1980, UNIVERSITY OF SOUTHERN CALIFORNIA; MPH, 1986, UNIVERSITY OF WASHINGTON; family medicine.

BERKOWITZ, BOBBIE; PhD, 1990, CASE WESTERN RESERVE UNIVERSITY; administration, leadership and policy development within public health and nursing

BLACKMORE, CHRISTOPHER C.; MD, 1990, UNIVERSITY OF ROCHESTER; MPH, 1997, UNIVERSITY OF WASHINGTON; body imaging, teleradiology, digital radiology, MRI/CT

BOWEN, DEBORAH J; PhD, 1986, UNIFORMED SERVICE U OF THE HEALTH SC.; health psychology

CHERKIN, DANIEL C; PhD, 1978, UNIVERSITY OF WASHINGTON; outcomes of care for back pain and other common problems

CHRISMAN, NOEL J; PhD, 1966, UNIVERSITY OF CALIFORNIA (BERKELEY); health beliefs and practices, social networks and social support; clinically applied anthropology

CONNELL, FREDERICK A; MD, 1972, NEW YORK UNIVERSITY; child health, child health services research, Medicaid, community health assessment

CONRAD, DOUGLAS A; PhD, 1978, UNIVERSITY OF CHICAGO; alternative vertical and horizontal market structures in health care

COOMBS, JOHN B.; MD, 1972, CORNELL UNIVERSITY; Health care outcomes, rural health policy, healthcare workforce issues and applied nutrition.

CRITTENDEN, ROBERT A; MD, 1976, UNIVERSITY OF WASHINGTON; MPH, 1987, UNIVERSITY OF WASHINGTON; health plans/policies

CURTIS, JARED R.; MD, 1988, JOHNS HOPKINS UNIVERSITY; MPH, 1994, UNIVERSITY OF WASHINGTON; pulmonary diseases and critical care medicine

DAY, ROBERT W; PhD, 1962, UNIVERSITY OF CALIFORNIA (BERKELEY); translational research

DEYO, RICHARD A.; MD, 1975, PENNSYLVANIA STATE UNIVERSITY; health

- status measurement and evaluation of common medical practices
- DIEHR, PAULA K.; PhD, 1970, UNIVERSITY OF CALIFORNIA (LOS ANGELES); health services, small-area analysis, health status
- DOWLING, WILLIAM L.; PhD, 1971, UNIVERSITY OF MICHIGAN; strategic management of health-care organizations, managed care
- ETZIONI, RUTH B.; PhD, 1990, CARNEGIE MELLON UNIVERSITY; statistical methods in cancer screening, Bayesian methods in biostatistics
- FIHN, STEPHAN; MD, 1977, ST LOUIS UNIVERSITY; MPH, 1981, UNIVERSITY OF WASHINGTON; internal medicine
- FULLER, SHERRILYNNE S00; PhD, 1984, UNIVERSITY OF SOUTHERN CALIFORNIA; Analysis, representation and mapping of research findings (data mining.)
- GILSON, BETTY S.; MD, 1943, UNIVERSITY OF MINNESOTA; health-status measurment
- GLOYD, STEPHEN S.; MD, 1973, UNIVERSITY OF CHICAGO; MPH, 1983, HARVARD UNIVERSITY; political economy, epidemiology, and primary health care in developing countries
- GOLDBERG, HAROLD I.; MD, 1977, STANFORD UNIVERSITY; applying clinical informatics to health services delivery and quality improvement
- GREMBOWSKI, DAVID; PhD, 1982, UNIVERSITY OF WASHINGTON; health services research, survey research, program evaluation, performance of health care systems
- GROSSMAN, DAVID C.; MPH, 1990, UNIVERSITY OF WASHINGTON; injury control, Native American health, and pediatric health services research
- GROSSMAN, DAVID C.; MD, 1982, UNIVERSITY OF CALIFORNIA (LOS ANGELES); injury control, Native American health, and pediatric health services research
- HALE, CHRISTIANE B.; PhD, 1978, UNIVERSITY OF CINCINNATI; quantitative analyses of small area health outcomes
- HART, LAWRENCE G; PhD, 1985, UNIVERSITY OF WASHINGTON; rural health policy, medical geography
- HEDRICK, SUSAN; PhD, 1982, MICHIGAN STATE UNIVERSITY; long-term care
- HEGYVARY, SUE T.; PhD, 1974, VANDERBILT UNIVERSITY; administration and productivity of health care and nursing services
- JARVIK, JEFFREY G; MD, 1987, UNIVERSITY OF CALIFORNIA (SAN DIEGO); neuroradiology, outcomes research
- KATON, WAYNE J; MD, 1976, UNIVERSITY OF OREGON; depression, panic disorder, somatization, adherence
- KOEPSSELL, THOMAS D; MD, 1972, HARVARD UNIVERSITY; MPH, 1979, UNIVERSITY OF WASHINGTON; injuries, neuroepidemiology, veterans health, epidemiologic methods, program and policy evaluation
- LARSON, ERIC B; MD, 1973, HARVARD UNIVERSITY; internal medicine
- LOGERFO SR., JAMES P; MD, 1968, UNIVERSITY OF ROCHESTER; MPH, 1974, UNIVERSITY OF WASHINGTON; quality-of-care assessment
- MARLATT, G ALAN; PhD, 1968, INDIANA UNIVERSITY; cognitive-behavior therapy and assessment, addictive behaviors, relapse prevention, harm reduction
- MARTIN, DIANE P; PhD, 1979, UNIVERSITY OF WASHINGTON; research methods; health services quality, use, and outcomes
- MAYER, JONATHAN D; PhD, 1977, UNIVERSITY OF MICHIGAN; medical geography, health policy, env. health, epidemiology, intl. health, infectious diseases
- MEISCHKE, HENDRIKA W.; PhD, 1992, UNIVERSITY OF MICHIGAN; health communication, with an emphasis on mass media and health
- MILGROM, PETER M; DDS, 1972, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); management of fearful and phobic dental patients, quality of dental care.
- MITCHELL, PAMELA H; PhD, 1991, UNIVERSITY OF WASHINGTON; neuroscience nursing, diagnostic strategies
- MOCK, CHARLES N.; MD, 1980, BROWN UNIVERSITY; injury: epidemiology, prevention, treatment; especially in less-developed countries
- MONSEN, ELAINE R; PhD, 1961, UNIVERSITY OF CALIFORNIA (BERKELEY); nutrition, dietetics
- MOURADIAN, WENDY ELYSE; MD, 1977, COLUMBIA UNIVERSITY; Ethics and quality of life in children's oral, craniofacial health.
- MUECKE, MARJORIE A; PhD, 1976, UNIVERSITY OF WASHINGTON; community health, medical anthropology, reproductive health, Southeast Asia (Thailand)
- NORRIS, THOMAS E.; MD, 1973, UNIVERSITY OF TEXAS (GALVESTON); Clinical applications, health policy and health workforce needs.
- OBERLE, MARK W.; MD, 1974, JOHNS HOPKINS UNIVERSITY; Public Health; Native American Health.
- PATRICK, DONALD L.; PhD, 1972, COLUMBIA UNIVERSITY; health status and quality of life, end of life, adolescents
- PEARLMAN, ROBERT A; MD, 1975, BOSTON UNIVERSITY; gerontology
- PERRIN, EDWARD; PhD, 1961, STANFORD UNIVERSITY; biostatistics, health information, health services research methodology
- PLOUGH, ALONZO L.; PhD, 1978, CORNELL UNIVERSITY; anthropology, sociology or social welfare and public affairs/policy, epidemiology
- PSATY, BRUCE M.; PhD, 1979, INDIANA UNIVERSITY; cardiovascular disease, coronary heart disease, hypertension, pharmacoepidemiology
- RAMSEY, SCOTT D.; PhD, 1994, UNIVERSITY OF PENNSYLVANIA; economics in medicine
- REIBER, GAYLE; PhD, 1989, UNIVERSITY OF WASHINGTON; epidemiology and health services research on preventing complications of diabetes
- ROSENBLATT, ROGER A; MPH, 1971, HARVARD UNIVERSITY; MD, 1971, HARVARD UNIVERSITY; research into the organization and delivery of health services, rural health policy
- ROSS, AUSTIN; MPH, 1955, UNIVERSITY OF CALIFORNIA (BERKELEY); ambulatory care, health care delivery systems
- SULLIVAN, SEAN; PhD, 1992, UNIVERSITY OF CALIFORNIA (BERKELEY); health economics, pharmaceutical outcomes research and health policy
- THOMPSON, ENGELBERTA; PhD, 1981, WESTERN MICHIGAN UNIVERSITY; community studies, cancer prevention, smoking cessation, childrens pesticide exposure
- THOMPSON, FRANCES ELAINE A; PhD, 1990, UNIVERSITY OF WASHINGTON; attribution theory, adolescent drug use, suicide
- UNUTZER, JURGEN; MA, 1988, UNIVERSITY OF CHICAGO; MD, 1990, VANDERBILT UNIVERSITY; MPH, 1996, UNIVERSITY OF WASHINGTON; Mental health services in primary care. Depression & comorbid medical illness. Late-life depression
- VITALIANO, PETER P; PhD, 1975, SYRACUSE UNIVERSITY; psychiatric methodology (epidemiology, design, psychometrics), behavioral medicine
- WAGNER, EDWARD H; MD, 1965, STATE UNIVERSITY OF NEW YORK (BUFFALO); MPH, 1972, UNIVERSITY OF NORTH CAROLINA; clinical epidemiology and health services research, health promotion and disease prevention
- WATTS, CAROLYN A.; PhD, 1976, JOHNS HOPKINS UNIVERSITY; health economics and policy
- WICKIZER, THOMAS M.; PhD, 1989, UNIVERSITY OF MICHIGAN; health economics, health policy, program evaluation, quality improvement, occupational health
- WILLIAMS, MICHELLE A.; DSc, 1991, HARVARD UNIVERSITY; reproductive and perinatal epidemiology, cancer epidemiology
- WOLF, FREDRIC M; PhD, 1980, KENT STATE UNIVERSITY; clinical decision making, evaluation of new technology, evidence-based health care

YUEH, BEVAN; MD, 1989, STANFORD UNIVERSITY; clinical epidemiology of hearing loss and head and neck cancer

Research Professor

BEATON, RANDAL D.; PhD, 1972, UNIVERSITY OF WASHINGTON; assessment and treatment of temporomandibular joint pain and dysfunction
CHAPKO, MICHAEL K.; PhD, 1972, CITY UNIVERSITY OF NEW YORK; ambulatory care, long-term care, cost-effectiveness in health care, international health
CHEADLE, ALLEN D.; PhD, 1987, UNIVERSITY OF CALIFORNIA (BERKELEY); community based research and program evaluation
MAYNARD, CHARLES C.; PhD, 1986, UNIVERSITY OF WASHINGTON; cardiovascular health services research
TAYLOR, VICTORIA M.; MD, 1978, UNIVERSITY OF NOTTINGHAM (UK); MPH, 1989, UNIVERSITY OF WASHINGTON; cancer control in minority populations
URBAN, NICOLE D.; MS, 1973, HARVARD UNIVERSITY; ; DSc, 1978, HARVARD UNIVERSITY; analysis of the cost-effectiveness of disease prevention trials and interventions

Associate Professor

BELL, MICHELLE; PhD, 1984, UNIVERSITY OF WASHINGTON; maternal/child health, adolescent health, access to health services for disadvantaged populations
BRADLEY, KATHARINE A.; MD, 1987, STANFORD UNIVERSITY; MPH, 1993, UNIVERSITY OF WASHINGTON; general internal medicine
CHRISTAKIS, DIMITRI A.; MD, 1993, UNIVERSITY OF PENNSYLVANIA; MPH, 1998, UNIVERSITY OF WASHINGTON; general pediatrics
DOCTOR, JASON N.; PhD, 1995, UNIVERSITY OF CALIFORNIA (SAN DIEGO); medical decision making, health economics, decision theory
DOESCHER, MARK; MD, 1989, UNIVERSITY OF CALIFORNIA (SAN FRANCISCO); family medicine, medically vulnerable populations, primary care research
ENSGN, B. JOSEPHINE; MS, 1986, VIRGINIA COLLEGE OF MEDICINE; MPH, 1992, JOHNS HOPKINS UNIVERSITY; DPH, 1994, JOHNS HOPKINS UNIVERSITY; health care program planning and evaluation for marginalized populations and high-risk youth
FLUM, DAVID R.; MD, 1991, UNIVERSITY OF MIAMI (FLORIDA); improving surgical care quality in the community at large, identifying & promoting "best" practices
GOLDBAUM, GARY M.; MD, 1978, UNIVERSITY OF COLORADO (DENVER); MPH, 1989, UNIVERSITY OF

WASHINGTON; preventive medicine, chronic diseases prevention, injury prevention
HAZLET, THOMAS K.; DPH, 1991, UNIVERSITY OF CALIFORNIA (BERKELEY); pharmaceuticals policy, outcomes and bioethics
HELGERSON, STEVEN D.; MD, 1973, UNIVERSITY OF WASHINGTON; MPH, 1976, UNIVERSITY OF WASHINGTON; Public health practice and epidemiologic field investigation
HUEBNER, COLLEEN ELLEN; PhD, 1991, UNIVERSITY OF WASHINGTON; the social bases of developmental problems in early childhood
JOHNSON, DONNA; PhD, 1995, UNIVERSITY OF WASHINGTON; public health nutrition practice: obesity, maternal and child nutrition
KIENAST, PHILIP K.; PhD, 1972, MICHIGAN STATE UNIVERSITY; human resources management
KINNE, SUSAN; PhD, 1986, UNIVERSITY OF WASHINGTON; disability statistics/prevention, measurement of community needs, worksite health promotion
KOPJAR, BRANKO; PhD, 1996, UNIVERSITY OF OSLO (NORWAY); statistics and epidemiological studies
LAFFERTY, WILLIAM E.; MD, 1978, UNIVERSITY OF KANSAS; STDs, HIV/AIDS, surveillance and epidemiology of STD, managed care
LESSLER, DANIEL; MD, 1986, STANFORD UNIVERSITY; MHA, 1992, UNIVERSITY OF WASHINGTON; health services research pertaining to cost-effectiveness, quality of care, medical management
LOZANO, PAULA; MD, 1989, HARVARD UNIVERSITY; MPH, 1994, UNIVERSITY OF WASHINGTON; general pediatrics, asthma, evidence-based medicine
LYDON-ROCHELLE, MONA; PhD, 1999, UNIVERSITY OF WASHINGTON; applied epidemiology in maternal health
MACIEJEWSKI, MATTHEW L.; PhD, 1998, UNIVERSITY OF MINNESOTA; managed care, outcomes research, research methods, health economics, diabetes
MELZER, SANFORD M.; MD, 1982, MT SINAI SCHOOL OF MEDICINE; general pediatrics
ROBINS, LYNNE S.; PhD, 1990, UNIVERSITY OF MICHIGAN; cultural competence, physician-patient communication, qualitative research assessment
RUTTER, CAROLYN; PhD, 1991, UNIVERSITY OF CALIFORNIA (LOS ANGELES); evaluation of diagnostic tests, ROC curve analysis and correlated data problems
SALES, ANNE; PhD, 1998, UNIVERSITY OF MINNESOTA; patient and organizational outcomes, health care work force, health economics
SHELL-DUNCAN, BETTINA; PhD, 1994, PENNSYLVANIA STATE UNIVERSITY; health assessment in traditional

societies, including immunity, nutrition, and anthropological demog
SPIGNER, CLARENCE; DPH, 1987, UNIVERSITY OF CALIFORNIA (BERKELEY); health of the disadvantaged; race/ethnic relations; societal behavior, popular culture
SPIGNER, CLARENCE; MPH, 1982, UNIVERSITY OF CALIFORNIA (BERKELEY); health of the disadvantaged; race/ethnic relations; societal behavior, popular culture
STOUT, JAMES W.; MAT, 1981, DUKE UNIVERSITY; MD, 1986, WAKE FOREST UNIVERSITY; childhood asthma, health services and epidemiology
ZIERLER, BRENDA; PhD, 1996, UNIVERSITY OF WASHINGTON; research in patient with venous thromboembolism; clinical outcomes, process outcomes

Research Associate Professor

JOHNSON, LEONARD CLARK; PhD, 1978, UNIVERSITY OF WASHINGTON; applied research methods including development in applied statistics, assessment, and analysis
LALONDE, BERNADETTE; PhD, 1979, UNIVERSITY OF TORONTO (CANADA); public health program development, process and outcome program evaluation, evaluation research
RIVIN, BETH E.; MD, 1982, EAST CAROLINA UNIVERSITY; MPH, 1985, HARVARD UNIVERSITY; Health and Human Rights
WEAVER, MARCIA R.; PhD, 1986, UNIVERSITY OF CHICAGO; HIV/AIDS, cost-effectiveness of community-based care, contingent valuation, health care reform

Assistant Professor

KARRAS, BRYANT THOMAS; MD, 1995, UNIVERSITY OF WISCONSIN; public health informatics, guidelines, bioterrorism surveillance
MASTROIANNI, ANNA C.; JD, 1986, UNIVERSITY OF PENNSYLVANIA; MPH, 1997, UNIVERSITY OF WASHINGTON; Law, ethics and policy genetics, reproduction, human subjects research
PHELAN, ELIZABETH A.; MD, 1992, TUFTS UNIVERSITY; MS, 1998, UNIVERSITY OF WASHINGTON; prevention of functional decline in older adults, how systems can support preservation of function

Research Assistant Professor

LIU, CHUAN-FEN; PhD, 1994, UNIVERSITY OF MINNESOTA; health economics, health services research, mental health
RIEDY, CHRISTINE A.; PhD, 1997, UNIVERSITY OF WASHINGTON; children's oral health - cultural diversity,

dietary influences; symptom self-report in children

Lecturer

DOWNER, ANN E.; MS, 1984, UNIVERSITY OF WASHINGTON; EdD, 1996, SEATTLE UNIVERSITY; education and training, educational program design and development, health communication
GONZALES, VIRGINIA; MSW, 1971, UNIVERSITY OF CALIFORNIA (BERKELEY); MPH, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); EdD, 1988, HARVARD UNIVERSITY; women's health, STI/HIV/AIDS prevention in United States and developing countries
HANKEN, MARY A.; PhD, 1989, UNIVERSITY OF WASHINGTON; health information systems
KATZ, AARON; Public Health Cert, 1975, UNIVERSITY OF TORONTO (CANADA); health policy, public health, determinants of health
MASUDA, DAVID; MD, 1980, UNIVERSITY OF NORTH DAKOTA; biomedical and health informatics
MASUDA, DAVID; MS, 1996, UNIVERSITY OF WISCONSIN; biomedical and health informatics
MURPHY, GRETCHEN C.; MED, 1973, UNIVERSITY OF WASHINGTON; health information systems, health informatics, electronic health records
PILCHER, MARTHA G; PhD, 1985, GEORGIA INSTITUTE OF TECHNOLOGY; operations research/operations management, health care applications and logistics
REES, JANE; MS, 1972, UNIVERSITY OF WASHINGTON; nutritional support of adolescent health, especially during pregnancy; eating disorders
SAPPINGTON, JEREMY L.; MPH, 1964, UNIVERSITY OF NORTH CAROLINA; systems theory, human resources management, undergraduate studies in public health
STILLMAN, DENNIS; MHA, 1979, UNIVERSITY OF WASHINGTON; health care financial management, management development
THOMPSON, JOHN R.; MSW, 1976, UNIVERSITY OF WASHINGTON; public health practice, health policy analysis, work force development
WELTON, WILLIAM E.; MHA, 1972, UNIVERSITY OF MICHIGAN; DPH, 1999, UNIVERSITY OF MICHIGAN; strategic and organizational effectiveness of health systems

Pathobiology

Professor

CAMPBELL, LEE ANN; PhD, 1982, PENNSYLVANIA STATE UNIVERSITY;

molecular biology and pathogenic mechanisms of chlamydiae
CARTER, WILLIAM G; PhD, 1974, UNIVERSITY OF CALIFORNIA (DAVIS); elucidation of components in cell attachment and cell spreading in normal cells
EMERMAN, MICHAEL; PhD, 1986, UNIVERSITY OF WISCONSIN; Molecular biology of the human immunodeficiency virus
HAIGWOOD, NANCY L.; PhD, 1980, UNIVERSITY OF NORTH CAROLINA; host immunity in the control and prevention of AIDS
HAKOMORI, SEN-ITIROH; MD, 1951, TOHOKU IMPERIAL UNIVERSITY (JAPAN); DrMedSci, 1956, TOHOKU IMPERIAL UNIVERSITY (JAPAN); membrane biochemistry and glycoproteins
KENNY, GEORGE E; PhD, 1961, UNIVERSITY OF MINNESOTA; antigenic structure
KUO, CHO-CHOU; PhD, 1970, UNIVERSITY OF WASHINGTON; chlamydiae
LUKEHART, SHEILA A; PhD, 1978, UNIVERSITY OF CALIFORNIA (LOS ANGELES); immunology of infectious diseases, microbiology, sexually transmitted diseases
MCEL RATH, MARGARET JULIANA; PhD, 1978, MEDICAL UNIVERSITY OF SOUTH CAROLINA; infectious diseases
OVERBAUGH, JULIE MAUREEN; PhD, 1983, UNIVERSITY OF COLORADO (BOULDER); molecular mechanisms of virus-host cell interactions/retroviral pathogenesis/aids
PARSONS, MARILYN; PhD, 1979, STANFORD UNIVERSITY; parasite cell biology
RAUSCH, ROBERT L.; PhD, 1949, UNIVERSITY OF WISCONSIN; parasitology, helminthic zoonoses
ROBERTS, MARILYN C; PhD, 1978, UNIVERSITY OF WASHINGTON; antibiotic resistance genes, plasmids, sexually transmitted diseases, oral microbiology
ROSENFELD, MICHAEL E.; PhD, 1981, UNIVERSITY OF WISCONSIN; mechanisms of atherogenesis and macrophage gene expression
SMITH, ARNOLD L; MS, 1964, UNIVERSITY OF MISSOURI; MD, 1964, UNIVERSITY OF MISSOURI; Investigating the biology of the human-restricted bacterium *Haemophilus*
STUART, KENNETH DANIEL; PhD, 1969, UNIVERSITY OF IOWA; molecular biology of parasites
VAN VOORHIS, WESLEY C; PhD, 1983, ROCKEFELLER UNIVERSITY; infectious diseases.
WHITE, THEODORE C; PhD, 1984, UNIVERSITY OF MICHIGAN; molecular mechanisms of virulence and drug resistance in pathogenic yeasts

Research Professor

LAMPE, PAUL D; PhD, 1984, UNIVERSITY OF MINNESOTA; regulation of intercellular communication via gap junctions
LINIAL, MAXINE L; PhD, 1970, TUFTS UNIVERSITY; retroviral replication and genetics, retroviral transformation
MYLER, PETER J.; PhD, 1982, UNIVERSITY OF QUEENSLAND (AUSTRALIA); regulation of gene expression in protozoan parasites
REED, STEPHEN G.; PhD, 1979, UNIVERSITY OF MONTANA; immune response to human pathogens

Associate Professor

FEAGIN, JEAN E.; PhD, 1982, STANFORD UNIVERSITY; molecular parasitology, emphasizing gene organization and expression in protozoans
KOELLE, DAVID; MD, 1985, UNIVERSITY OF WASHINGTON; allergy and infectious diseases
KURATH, GAEL; PhD, 1984, OREGON STATE UNIVERSITY; molecular biology and evolution of RNA viruses that infect fish
LINGAPPA, JAISRI; PhD, 1985, HARVARD UNIVERSITY; cell biology of virus assembly; host proteins involved in assembly of HIV and other viruses
ROSE, TIMOTHY M; PhD, 1981, UNIVERSITY OF GENEVA (SWITZERLAND); molecular biology of tumor viruses, cell growth, differentiation, and transformation
SHERMAN, DAVID R.; PhD, 1987, VANDERBILT UNIVERSITY; molecular genetics, microbiology and biochemistry of pathogenic mycobacteria

Research Associate Professor

CANGELOSI, GERARD A.; PhD, 1984, UNIVERSITY OF CALIFORNIA (DAVIS); molecular biology of tuberculosis

Assistant Professor

FRIED, MICHAL; PhD, 1991, HEBREW UNIVERSITY (ISRAEL); Malaria pathogenesis, pregnancy malaria, Parasite adhesion in the placenta, immune responses to malaria
KIRK, ELIZABETH; PhD, 1995, UNIVERSITY OF WASHINGTON; nutrition, atherosclerosis, and diabetes

Research Assistant Professor

SMITH, JOSEPH; PhD, 1994, WASHINGTON UNIVERSITY; *Plasmodium falciparum*, malaria

School of Social Work

Professor

CATALANO, RICHARD F.; PhD, 1982, UNIVERSITY OF WASHINGTON; crime, violence and drug abuse prevention, promotion of positive youth development
 GILCHRIST, LEWAYNE D.; PhD, 1981, UNIVERSITY OF WASHINGTON; health promotion and disease prevention in community settings, women's health, research methods
 HAWKINS, JOHN D.; PhD, 1975, NORTH-WESTERN UNIVERSITY; crime and delinquency, substance abuse, social development, research, prevention
 HOOYMAN, NANCY; PhD, 1974, UNIVERSITY OF MICHIGAN; aging, caregivers of dependents, feminist practice, community organization development
 LEVY, RONA L.; PhD, 1974, UNIVERSITY OF MICHIGAN; research methodology, single-case evaluation, health care, behavioral medicine, biofeedback
 LONGRES, JOHN F.; PhD, 1970, UNIVERSITY OF MICHIGAN; race and ethnicity; children, youth, and families
 MORRISON, DIANE M.; PhD, 1982, UNIVERSITY OF WASHINGTON; sexual decision-making, attitudes and behavior, teen pregnancy
 PECORA, PETER; PhD, 1982, UNIVERSITY OF WASHINGTON; child welfare practice, foster care, family preservation services, personnel management
 RESNICK, HERMAN; PhD, 1970, BRYN MAWR COLLEGE; organizational development, group dynamics, planned change, environmental psychology, social welfare
 RICHEY, CHERYL A.; DSW, 1974, UNIVERSITY OF CALIFORNIA (BERKELEY); cultural and gender issues, intervention design and research
 ROFFMAN, ROGER ALAN; DSW, 1983, UNIVERSITY OF CALIFORNIA (BERKELEY); alcoholism and drug abuse, research methodology, program evaluation
 SPIEKER, SUSAN J.; PhD, 1982, CORNELL UNIVERSITY; developmental psychology, infant security, mother-infant interaction
 STIER, FLORENCE E.; MS, 1941, UNIVERSITY OF PITTSBURGH; social welfare planning and program development
 WEATHERLEY, RICHARD A.; PhD, 1975, MASSACHUSETTS INSTITUTE OF TECHNOLOGY; social welfare policy and administration, poverty and inequality
 WHITTAKER, JAMES; PhD, 1970, UNIVERSITY OF MINNESOTA; interpersonal practice with individuals, families, and small groups; child and family policy

Research Professor

WELLS, ELIZABETH A.; PhD, 1984, UNIVERSITY OF WASHINGTON; Understanding, assessing, and intervening with issues related to psychoactive substance use.

Associate Professor

AI, AMY; PhD, 1996, UNIVERSITY OF MICHIGAN; health, mental health, aging, spirituality, coping, depression, psychosocial adjustment, PTSD
 ALMGREN, GUNNAR R.; PhD, 1990, UNIVERSITY OF WASHINGTON; the relationship between race, ethnicity, socioeconomic status, and health outcomes
 ANDERSON, JAMES R.; MA, 1954, INDIANA UNIVERSITY; social work and health care, interdisciplinary teams in health care, growth and development
 BERLEMAN, WILLIAM C.; MSW, 1960, UNIVERSITY OF WASHINGTON; undergraduate social welfare, social welfare policy
 DEAR, RONALD BRUCE; DSW, 1972, COLUMBIA UNIVERSITY; welfare and income maintenance policy and programs, fiscal impact of social programs
 DUPLICA, MOYA M.; MSW, 1956, ST LOUIS UNIVERSITY; social welfare policy and history, women and social policy, values and ethics
 ELLIS, JACK A N.; MSW, 1955, UNIVERSITY OF BRITISH COLUMBIA (CANADA); social welfare administration and planning, social work and the justice system
 FREDRIKSEN GOLDSSEN, KAREN; PhD, 1993, UNIVERSITY OF CALIFORNIA (BERKELEY); gerontology, work and family dependent care, non-traditional families, social policy
 HERRICK, JAMES E.; DSW, 1966, UNIVERSITY OF SOUTHERN CALIFORNIA; social policy, social work and the justice system, research methodology, social and cultural change
 ISHISAKA, ANTHONY H.; MSW, 1968, UNIVERSITY OF CALIFORNIA (BERKELEY); DSW, 1978, UNIVERSITY OF CALIFORNIA (BERKELEY); social work practice, mental health services, services to minority communities, human development
 KELLEY, JERRY LEE; MA, 1949, UNIVERSITY OF CHICAGO; social workers in schools, interviewing and counseling in human services
 KEMP, SUSAN; PhD, 1994, COLUMBIA UNIVERSITY; supports to low-income families; public child welfare; social welfare history; social work theory
 KRIZICH, JEAN; PhD, 1982, UNIVERSITY OF WASHINGTON; child maltreatment and substance abuse, influence of

organizational characteristics on human service

MARCENKO, MAUREEN; PhD, 1988, MCGILL UNIVERSITY (CANADA); research on the efficacy of interventions for families
 MILLER, SIDNEY; MS, 1953, COLUMBIA UNIVERSITY; children, adolescents, and their families, interviewing, crisis intervention, marital counseling
 MUNDT, LENORA B.; MSW, 1950, UNIVERSITY OF WASHINGTON; family treatment
 NAGDA, BIREN A.; PhD, 1996, UNIVERSITY OF MICHIGAN; multicultural and empowerment approaches in social work, organizations and education
 SOHNG, SUE; PhD, 1989, UNIVERSITY OF PITTSBURGH; action research and chronic mental illness, cross-cultural social work practice
 TAJIMA, EMIKO A.; PhD, 1999, BRYN MAWR COLLEGE; domestic violence; child abuse; parenting practices; law and social policy
 TEATHER, EDWARD CHARLES; MSW, 1962, UNIVERSITY OF BRITISH COLUMBIA (CANADA); residential treatment of children, group work, program development
 UEHARA, EDWINA; PhD, 1987, UNIVERSITY OF CHICAGO; qualitative/quantitative research methods, cross-cultural mental health, human services organization
 WALTERS, KARINA; PhD, 1995, UNIVERSITY OF CALIFORNIA (LOS ANGELES); American Indian health and mental health research and multicultural counseling.

Research Associate Professor

ARTHUR, MICHAEL; PhD, 1990, UNIVERSITY OF VIRGINIA; Project Director—Community Youth Activity, Six State Prevention Needs and Assessment
 HILL, KARL GORDON; PhD, 1991, BRANDEIS UNIVERSITY; Life-span human development, intergenerational mechanisms, parenting, substance use, crime
 RYAN, ROSEMARY; PhD, 1987, UNIVERSITY OF WASHINGTON; behavioral HIV prevention research; AIDS services policy, planning and evaluation

Assistant Professor

ALLEN, ALLETHIA LEE; PhD, 1986, WALDEN UNIVERSITY; social work practice, social policy, interviewing, minority women, minority families, adolescents
 BOYER, DEBRA; PhD, 1986, UNIVERSITY OF WASHINGTON; feminist research methodology, policy and evaluation issues, urban applied anthropology
 EROSHEVA, ELENA A.; PhD, 2002, CARNEGIE MELLON UNIVERSITY;

statistical methodology in the social sciences

HALEY-LOCK, ANNA; MA, 1995, UNIVERSITY OF MICHIGAN; organizational theory & behavior, program & human resource management, nonprofit human services

LINCOLN, KAREN; PhD, 2001, UNIVERSITY OF MICHIGAN; Informal networks, the stress process, aging, SES, race, sociocultural factors and mental health

ROMICH, JENNIFER; PhD, 2002, NORTHWESTERN UNIVERSITY; Social policy, family and child well-being

WEST, MARGARET A; PhD, 1984, UNIVERSITY OF WASHINGTON; children and youth with developmental disabilities and their families

Research Assistant Professor

WALKER, DENISE D; PhD, 2001, UNIVERSITY OF NEW MEXICO; addictive behaviors, substance abuse treatment outcome, and motivational interviewing

Lecturer

AMIDEI, NANCY; MSW, 1968, UNIVERSITY OF MICHIGAN; poverty, public policy, advocacy

AVERILL, LLOYD J.; MA, 1952, UNIVERSITY OF ROCHESTER; MTh, 1966, COLGATE ROCHESTER DIVINITY SCHOOL; development and continuing education director

DE MELLO, STAN; MSW, 1982, DALHOUSIE UNIVERSITY (CANADA); MPA, 1983, DALHOUSIE UNIVERSITY (CANADA); cross-cultural social work practice

DELONG, JAMES B.; MSW, 1979, UNIVERSITY OF WASHINGTON; aging, mens and gender issues, group work, human diversity and social justice, distance learning

HAGGERTY, KEVIN P.; MSW, 1989, UNIVERSITY OF WASHINGTON; Project Director—Focus on Families, Raising Healthy Children

ROBERTS, ELIZABETH A; MSW, 1975, UNIVERSITY OF WASHINGTON; aging, social policy and aging, social work administration and field education
