# ABOUT THE UNIVERSITY OF WASHINGTON

Founded in 1861, the University of Washington is one of the oldest state-assisted institutions of higher education on the Pacific coast. From its original site on a 10-acre tract of wooded wilderness that is now located in downtown Seattle, the campus has grown to comprise 703 acres of trees, landscape, and buildings. Located between the shores of Lake Washington and Lake Union, it is in a residential section of the city that long has been considered one of the most attractive in the nation. Two additional campuses, one south of Seattle in Tacoma, and one north in Bothell, were opened in 1990.

Enrollment at the University in autumn quarter 2009 was more than 48,000, including its campuses in Bothell and Tacoma, of which 32,000 were undergraduates and the balance were in professional and graduate programs. Almost 90 percent of the undergraduates enter as freshmen from Washington high schools or as transfer students from Washington community colleges or other colleges and universities in the state. The grade-point average for the regularly admitted freshman class entering in autumn quarter 2009 was 3.76. In 2009, the full-time teaching faculty of the University numbered approximately 3,400 members.

## MESSAGE FROM THE INTERIM PRESIDENT

More than two centuries ago, Benjamin Franklin said, "An investment in knowledge always pays the best interest." Here at the University of Washington, a vibrant and diverse academic community makes that investment every day in an environment distinguished by innovation, collaboration, and a commitment to excellence.

As one of the nation's leading public research universities, the UW is uniquely positioned to take on the most complex challenges of our time. Our faculty, students, and staff work together across disciplines to make discoveries that transform and enrich the lives of people throughout our state, our region, and our world.

Phyllis M. Wise

## ROLE AND MISSION OF THE UNIVERSITY

Founded 4 November 1861, the University of Washington is one of the oldest state-supported institutions of higher education on the Pacific coast. The University is comprised of three campuses: the Seattle campus is made up of seventeen schools and colleges whose faculty offer educational opportunities to students ranging from first-year undergraduates through doctoral-level candidates; the Bothell and Tacoma campuses, each developing a distinctive identity and undergoing rapid growth, offer diverse programs to upper-division undergraduates and to graduate students.

The primary mission of the University of Washington is the preservation, advancement, and dissemination of knowledge. The University preserves knowledge through its libraries and collections, its courses, and the scholarship of its faculty. It advances new knowledge through many forms of research, inquiry and discussion; and disseminates it through the classroom and the laboratory, scholarly exchanges, creative practice, international education, and public service. As one of the nation's outstanding teaching and research institutions, the University is committed to maintaining an environment for objectivity and imaginative inquiry and for the original scholarship and research that ensure the production of new knowledge in the free exchange of facts, theories, and ideas.

To promote their capacity to make humane and informed decisions, the University fosters an environment in which its students can develop mature and independent judgment and an appreciation of the range and diversity of human achievement. The University cultivates in its students both critical thinking and the effective articulation of that thinking.

As an integral part of a large and diverse community, the University seeks broad representation of and encourages sustained participation in that community by its students, its faculty, and its staff. It serves both non-traditional and traditional students. Through its three-campus system and through educational outreach, evening degree, and distance learning, it extends educational opportunities to many who would not otherwise have access to them.

The academic core of the University of Washington is its College of Arts and Sciences; the teaching and research of the University's many professional schools provide essential complements to these programs in the arts, humanities, social sciences, and natural and mathematical sciences. Programs in law, medicine, forest resources, oceanography and fisheries, library science, and aeronautics are offered exclusively (in accord with state law) by the University of Washington. In addition, the University of Washington has assumed primary responsibility for the health science fields of dentistry and public health, and offers education and training in medicine for a multi-state region of the Pacific Northwest and Alaska. The schools and colleges of architecture and urban planning, business administration, education, engineering, nursing, pharmacy, public affairs, and social work have a long tradition of educating students for service to the region and the nation. These schools and colleges make indispensable contributions to the state and, with the rest of the University, share a long tradition of educating undergraduate and graduate students toward achieving an excellence that well serves the state, the region, and the nation.

*BR, February 1981; revised February 1998; December 2001*

## NON-DISCRIMINATION POLICY

The University of Washington reaffirms its policy of equal opportunity regardless of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam era veteran. This policy applies to all programs and facilities including, but not limited to, admissions, educational programs, employment, and patient and hospital services. Any discriminatory action can be a cause for disciplinary action. Discrimination is prohibited by Presidential Executive Order 11246 as amended; Washington State Gubernatorial Executive Orders 89-01 and 93-07; Titles VI and VII of the Civil Rights Act of 1964; Washington State Law Against Discrimination RCW 49.60; Title IX of the Education Amendments of 1972; State of Washington Gender Equity in Higher Education Act of 1989; Sections 503 and 504 of the Rehabilitation Act of 1973; Americans with Disabilities Act of 1990; Age Discrimination in Employment Act of 1967 as amended; Age Discrimination Act of 1975; Vietnam Era Veterans' Readjustment Act of 1972 as

amended; other federal and state statutes, regulations; and University policy. Coordination of the compliance efforts of the University of Washington with respect to all of these laws and regulations is provided by the Equal Opportunity Office, Box 354560, 4045 Brooklyn Avenue Northeast, Seattle, WA 98195, 206-543-1830, [eoaa@uw.edu](mailto:eoaa@uw.edu).

Additional information concerning the equal opportunity and affirmative action policies and procedures, including complaint procedures, is in the UW Handbook, Vol. IV, part 1, chapter 2.

Information on reasonable accommodation for students with disabilities is available from the following offices: for classroom and academic-related accommodation, contact Disabled Resources for Students, 206-543-8924/V, 206-543-8925/TTY, [uwdss@uw.edu](mailto:uwdss@uw.edu); for other non-academic related information and accommodation, contact the Disability Services Office, 206-543-6450/V, 206-543-6452/TTY, [dso@uw.edu](mailto:dso@uw.edu).

## ACCREDITATION

The University of Washington is accredited by the Northwest Association of Schools and Colleges and is a member of the Association of American Universities. Individual schools and colleges are members of the various accrediting association in their respective fields.

Currently enrolled or prospective students should contact the Office of the Registrar to review accreditation documents for the University and the respective departments to review programmatic accreditation documents.

# KEY TO SYMBOLS AND ABBREVIATIONS

## COURSE DESCRIPTIONS

Each course listing includes prefix, course number, title and credits. Each listing also may include general education designator(s), names of instructor(s), description of the course, prerequisite(s), and quarter(s) offered.

Specific information on courses offered in a particular quarter appears in the [quarterly Time Schedule](#).

## COURSE NUMBERS

**100–299** Lower-division courses primarily for freshmen and sophomores.

**300–499** Upper-division courses primarily for juniors, seniors, and postbaccalaureate (fifth-year) students. Graduate students may enroll in 300- and 400-level courses. When acceptable to the major department and the Graduate School, approved 400-level courses may be applied as graduate credit in the major field and approved 300-level courses may be applied in the supporting field(s).

**500-** Restricted to graduate students. (Courses numbered in the 500 and 600 series with a P before the course title denote professional courses for students in the schools of Dentistry and Medicine, and such courses may not be applied as graduate credit in the Graduate School.) Undergraduate, postbaccalaureate, and nonmatriculated students who wish to register for 500-level courses must obtain permission from the instructor of the class, departmental Chair, or other designated person.

## Graduate School-restricted courses

Graduate courses numbered 600, 601, 700, 750, or 800 are restricted to students in the Graduate School. They appear by number and title only where applicable under the departmental course listings in this catalog. Descriptions for these courses are listed below.

- **(PREFIX) 600 Independent Study or Research (\*)**

Individual readings or study, including independent study in preparation for doctoral examinations, research, etc. *Prerequisite:* permission of Supervisory Committee or graduate program advisor.

- **(PREFIX) 600 Internship (3–9, max. 9)**

Internship required of students in a graduate degree program. *Prerequisite:* permission of Supervisory Committee chair or graduate program advisor.

- **(PREFIX) 700 Master's Theses (\*)**

Research for the master's thesis, including research preparatory or related thereto. Limited to premaster graduate students (i.e., those who have not yet completed the master's degree in their major field at the University of Washington). *Prerequisite:* permission of Supervisory Committee or graduate program advisor.

- **(PREFIX) 750 Internship (\*)**

Internship required of all graduate students in the Doctor of Arts degree program.

- **(PREFIX) 800 Doctoral Dissertation (\*)**

Research for the doctoral dissertation and research preparatory or related thereto. Limited to graduate students who have completed the master's degree or the equivalent, or Candidate-level graduate students. Premaster students initiating doctoral dissertation research should register for 600. *Prerequisite:* permission of Supervisory Committee or graduate program advisor.

## CREDIT DESIGNATION

- **ART 100 (5)** 5 credits are received for the quarter.
- **Art 100 (5-)** Course may take longer than one quarter to complete or is the first course in a hyphenated sequence. Credit is earned, but may not be applied toward graduation until the entire sequence is completed. If not part of a hyphenated sequence, repeated registration may be necessary. An N grade is received until the final grade is submitted.
- **ART 100 (-5-)** Middle course in a hyphenated sequence.
- **ART 100 (-5)** Final course in a hyphenated sequence. When grade is submitted, all N grades are converted to the submitted grade.
- **ART 100 (2, max. 8)** 2 credits per quarter; course may be repeated up to four times to earn a maximum of 8 credits.
- **ART 100 (1–5)** Up to 5 credits may be taken in a given quarter. Specific number is determined in consultation with instructor of adviser. When a maximum is not stated, course is not repeatable.

- **ART 100 (1–5, max. 15)** Up to 5 credits may be taken in a given quarter. Course may be repeated to a maximum of 15 credits.
- **ART 100 (\*, max. 10)** Credit to be arranged per quarter; course may be repeated to a maximum of 10 credits.
- **ART 100 (3/5)** 3 or 5 credits are earned in a given quarter. Specific amount is determined by school or college offering the course. The Time Schedule may indicate 3 credits, 5 credits, or 3 or 5 credits. Credits may vary by section.
- **ART 100 (3/5, max. 15)** 3 or 5 credits are earned in a given quarter. Course may be repeated to earn a maximum of 15 credits.
- **ART 700 (\*)** Credit is to be arranged with school or college offering the course. No maximum stated. Only 600-, 700-, and 800-level courses do not require a maximum.

## UNDERGRADUATE GENERAL EDUCATION

### REQUIREMENT DESIGNATORS

- **VLPA** Visual, Literary, and Performing Arts (*Areas of Knowledge requirement*)
- **I&S** Individuals & Societies (*Areas of Knowledge requirement*)
- **NW** The Natural World (*Areas of Knowledge requirement*)
- **QSR** Quantitative, Symbolic, or Formal Reasoning
- **C** English Composition

Courses marked **C** may be used for the English Composition requirement or the additional-writing (**W**-course) requirement, but not both; none may count for the Area of Knowledge requirements. Courses marked **QSR** may be used for both the QSR requirement and an Area of Knowledge requirement, if one is listed. Courses marked with more than one Areas of Knowledge designator (VLPA, I&S, and/or NW) may be used for any one of the areas indicated, but not for more than one.

## BACKGROUND REQUIRED

**Prerequisites** Courses to be completed or conditions to be met before a student is eligible to enroll in a specific course.

## QUARTERS OFFERED

A, W, Sp, S indicates the quarter(s) the course is offered.

Abbr.	Quarter
A	Autumn
W	Winter
Sp	Spring
S	Summer

### Example

- **ART 100 AWSp** ART 100 offered Autumn, Winter, and Spring Quarters.

### 2010–2011

#### Autumn Quarter 2010

Classes begin . . . . . September 29  
Last day of instruction . . . . . December 10  
Final examinations . . . . . December 13–17

#### Winter Quarter 2011

Classes begin . . . . . January 3  
Last day of instruction . . . . . March 11  
Final examinations . . . . . March 14–18

#### Spring Quarter 2011

Classes begin . . . . . March 28  
Last day of instruction . . . . . June 3  
Final examinations . . . . . June 6–10  
Commencement . . . . . June 10–12

#### Summer Quarter 2011

Full-term and term a classes begin . . . . . June 20  
Term a classes end . . . . . July 20  
Term b classes begin . . . . . July 21  
Full-term and term b classes end . . . . . August 19

### 2011–2012

#### Autumn Quarter 2011

Classes begin . . . . . September 28  
Last day of instruction . . . . . December 9  
Final examinations . . . . . December 12–16

#### Winter Quarter 2012

Classes begin . . . . . January 3  
Last day of instruction . . . . . March 9  
Final examinations . . . . . March 12–16

#### Spring Quarter 2012

Classes begin . . . . . March 26  
Last day of instruction . . . . . June 1  
Final examinations . . . . . June 4–8  
Commencement . . . . . June 8–10

#### Summer Quarter 2012

Full-term and term a classes begin . . . . . June 18  
Term a classes end . . . . . July 18  
Term b classes begin . . . . . July 19  
Full-term and term b classes end . . . . . August 17  
*Dates in this calendar are subject to change without notice. A detailed calendar with the latest information on registration can be found online at [www.washington.edu/students/](http://www.washington.edu/students/).*

For directory assistance, call the University switchboard, (206) 543-2100.

Address correspondence to:

University of Washington  
(Name of office and box number)  
Seattle, Washington 98195

The University and its colleges and schools reserve the right to change the fees, the rules, and the calendar regulating admission and registration; the instruction in and the graduation from the University and its various divisions; and any other regulations affecting the student. The University also reserves the right to withdraw courses and programs at any time.

It is the University's expectation that all students follow University regulations and procedures as they are stated in the General Catalog. Appeals may be filed with the stu-

dent's dean or with the Vice President for Student Affairs in nonacademic matters. Students are expected to observe the standards of conduct contained in the Student Conduct Code (WAC 478-120).

Box 355852  
Seattle WA 98195-5852

## FRESHMAN APPLICANTS

### Definition of Freshman Status

Apply as a freshman if *any* of the following statements describe you.

- You plan to enter the UW right after graduating from high school.
- You are in Washington State's Running Start Program and you plan to enter the UW right after graduating (regardless of how many college credits you have earned or will earn).
- You have never attended college since leaving high school (regardless of your age or whether you ever graduated).

### Admission Policy

#### Selecting the Freshman Class

The University of Washington seeks students who can benefit from its wealth of academic and cultural opportunities and contribute to its amazing energy and rich diversity of experience. Choosing students from a very able group of applicants requires a selection process that looks beyond grades and standardized tests. While these factors are important, they tell only part of an applicant's story. The University uses an individualized application review more typically found at smaller, private universities and colleges. In addition to grade-point average (GPA) and test scores, the University takes into account many aspects of an applicant's achievements and personal history.

#### Academic Preparation and Performance

While the UW looks at many factors in reviewing applications for admission, academic preparation and perfor-

mance are still primary. Indicators of preparation and performance include:

- An overall strong level of academic achievement as demonstrated by GPA, rigor of curriculum, standardized test scores, and academic distinctions
- Taking advantage of college-preparatory courses during high school, such as Advanced Placement (AP), International Baccalaureate (IB), Running Start, or college in the high school; or core subjects beyond the minimum required for college entrance
- Taking full academic advantage of the senior year
- Demonstrating a positive grade trend
- Demonstrating habits associated with independent intellectual growth such as self-guided reading, engagement with other cultures, or research activities
- Demonstrating exceptional artistic talent and achievement

### Personal Achievements and Characteristics

In addition to academic preparation and performance, personal achievements and characteristics can also indicate promise to benefit from and contribute to the University of Washington. These include:

- Demonstrating a commitment to community service and leadership
- Exercising significant responsibility in a family, community, employment, or through activities
- Attaining a college-preparatory education in the face of significant personal adversity, economic disadvantage, or disability
- Demonstrating cultural awareness or unique perspectives or experiences
- Demonstrating notable tenacity, insight, originality, or creativity

The entire application, including the Writing Section and Activities Log, is important in the individualized application review. Because the University receives about 23,000 freshman applications every year, this process takes time to complete. The University takes great care in assessing applications and does not rush the selection of future students. While this process requires patience on the part of many applicants, the benefit is that each applicant is reviewed as an individual. Applications for 2011 may be submitted between October 1 and December 15, 2010. An admission decision will be mailed to all freshman applicants between March 15 and 31, 2011.

### Minimum Requirements

To be eligible for full admission consideration, applicants must present the following:

1. Submit official admission test scores from either SAT Reasoning Test or ACT with Writing.
2. Completion of a college-preparatory course of study to include the following high school credits\*:
  - a. 4 high school credits of English
  - b. 2 high school credits of a single world language
  - c. 3 high school credits of mathematics: algebra, geometry, and preferably trigonometry (a fourth high school credit of mathematical analysis or calculus is recommended for students preparing for majors in the sciences or engineering)
  - d. 2 high school credits of science including one laboratory science course in biology chemistry or physics
  - e. 3 high school credits of social science

- f. 0.5 high school credits of the fine, visual, or performing arts
- g. 0.5 high school credits of electives taken from the above areas

Total 15 high school credits of college preparatory coursework.

\* One high school credit represents a standard full year of high school coursework

Because these are admission requirements, all CADR must be satisfactorily completed before the first quarter of enrollment at the UW. Almost all applicants will have satisfied these requirements through high school coursework, which is generally defined as that completed in grades 9–12. There are, however, several ways to satisfy CADR at the college level. In general, five quarter credits (or three semester credits) at the college level equals one credit of high-school study. If you completed a portion of these requirements in high school, you can supplement high school courses with college course work. For example:

High School:	3 credits of English
Community college:	5-credit English composition or literature course is equivalent to one high-school year
Total:	4 credit high school requirement satisfied

### Grading Restrictions

In general, you must attain at minimum a passing grade (including 'D') to satisfy a CADR. Also acceptable is a grade of 'Pass' in a course taken on a 'Pass/Not Pass' basis. However, if you are completing CADR through college course work you are strongly encouraged to choose a letter or numerical grade, because you may later want to apply CADR courses towards requirements for your major or University or college graduation requirements, for which grading restrictions pertain.

Applicants using a college course to satisfy the mathematics CADR: specific restrictions on grading apply. See the Mathematics section.

## English Composition/Literature

### 1. IF TAKEN IN HIGH SCHOOL

Four high school credits of study are required, at least three of which must be in college-preparatory composition or literature.

- One of the four credits may be satisfied by courses in drama as literature, public speaking, debate, journalistic writing, business English, or English as a Second Language (ESL).
- Courses that are generally not acceptable include those identified as remedial or applied (e.g., acting, basic English skills, developmental reading, library, newspaper staff, remedial English, review English, vocabulary, yearbook/annual).

### 2. IF SATISFIED BY COLLEGE COURSE WORK

College course work must be at the 100 level or higher. For the composition/literature component, generally any course with an English or Writing prefix is acceptable.

- One of the four credits may be satisfied by a college course in speech, drama as literature, journalistic writing, business English, ESL, or engineering/technical writing.
- Courses such as developmental or speed reading, vocabulary, or remedial English are not acceptable.
- English courses are considered equivalent to ESL unless taken in Australia, Canada, Ireland, New Zealand, the United Kingdom, or the U.S.

### 3. APPLICANTS WHOSE FIRST LANGUAGE IS NOT ENGLISH

Although the four-credit English high school course requirement cannot be waived, there are some alternatives for meeting the English subject requirement for U.S. citizens, permanent residents or refugees

- whose first language is not English or,
- who attended school in a non-English speaking country.

English-speaking countries are defined as Australia, Canada, Ireland, New Zealand, the United Kingdom, or the U.S.

#### ALTERNATIVE ONE (Applicants with Test Scores)

To fulfill the English core subject requirement under this alternative, both A and B must be satisfied.

##### A: Test Score Requirement

Submit one of the following official test scores by the application closing date:

- SAT Critical Reading 430
- ACT English 17

Other tests (e.g., Test of English as a Foreign Language [TOEFL] or IELTS) cannot be used to meet this requirement.

##### B: Coursework Requirement

A total of four years of study are required.

- Composition or literature courses in the student's first language may satisfy up to three years of the requirement.
- English composition or literature courses taken in Australia, Canada, Ireland, New Zealand, the United Kingdom, or the U.S. may satisfy up to four years of the requirement.
- These courses may satisfy no more than one year of the requirement:
  - English, if taken outside of Australia, Canada, Ireland, New Zealand, the United Kingdom, or the U.S.
  - ESL taken in the U.S.
  - Courses in drama as literature, public speaking, debate, journalistic writing, or business English that were completed in Australia, Canada, Ireland, New Zealand, the United Kingdom, or the U.S.

#### ALTERNATIVE TWO (Applicants with 60 or more college quarter credits)

All three of the following conditions (A, B, and C) must be satisfied:

- A. A minimum of 60 transferable quarter credits from a regionally accredited college or university in the U.S. or from an accredited college or university in Australia, Canada, Ireland, New Zealand, or the United Kingdom must be completed at the time of application. Transcripts showing 60 completed credits must be submitted by the application closing date.
- B. A minimum of two college-level English composition courses, for a minimum of six credits, taken at a regionally accredited college or university in the U.S., or from an accredited college or university in Australia, Canada, Ireland, New Zealand, or the United Kingdom. All college-level English composition and literature courses must be completed with a minimum cumulative grade-point average (GPA) of 3.00 (B) and must be recorded on a transcript at the time of application.

##### C. Additional English Course Work Requirements

The remaining two units of the requirement may be satisfied by any combination of course work from among the following options:

- Up to two units may be satisfied by high school English composition or literature courses from high schools where the primary language of instruction is English.
- Up to two units may be satisfied by composition or literature courses in the student's first language (when the first language is not English) for coursework completed

in educational systems other than the U.S., Australia, Canada, Ireland, New Zealand, or the United Kingdom.

3. Only one unit (year) of the requirement may be satisfied by one of the following:
  - English courses taken in countries where English is NOT recognized as the primary language of instruction.
  - ESL courses taken in the U.S.
  - Courses in drama as literature, public speaking, debate, journalistic writing, or business English that were completed in Australia, Canada, Ireland, New Zealand, the United Kingdom, or the U.S.
4. Up to two units may be satisfied by additional college-level English composition or English literature courses from a regionally accredited college or university in the U.S., or from an accredited college or university in Australia, Canada, Ireland, New Zealand, or the United Kingdom.

## Mathematics

### 1. IF COMPLETED IN HIGH SCHOOL

Three high school credits are required, at least at the level of algebra, geometry, and second-year algebra.

- An algebra course completed in the last year of junior high school may partially satisfy the requirement if the second-year algebra is completed in secondary school.
- Arithmetic, pre-algebra, business math, and statistics will not count toward the requirement.

### 2. IF SATISFIED BY COLLEGE COURSE WORK

If your high school preparation in mathematics was insufficient, you must complete one of the courses listed below:

- A course in intermediate algebra - At UW Extension, as well as at many community colleges in Washington, MATH 098 is the necessary course. The course must be completed with a grade of 'C' (2.0) or better, even though it does not transfer to the UW as college credit and the grade earned in the course is not used in computing the transfer GPA.
- MATH 104 (Trigonometry) or its equivalent - The course must be completed with a grade of 'C' (2.0) or better.
- MATH 107 (Mathematics: A Practical Art) or its equivalent - The course must be completed with a grade of 'C' (2.0) or better.
- Mathematics courses with intermediate algebra as a prerequisite (except statistics courses) - This includes any higher-level math courses such as elementary functions, calculus, and beyond.

## Social Science

### 1. IF COMPLETED IN HIGH SCHOOL

Three high school credits are required in history or in any of the social sciences, e.g., anthropology, contemporary world problems, economics, geography, government, political science, psychology, sociology.

Credit for religion courses, consumer economics, student government, or community service will not count towards the requirement.

### 2. IF SATISFIED BY COLLEGE COURSE WORK

Courses in the social sciences-e.g., anthropology, economics, ethnic studies, history, philosophy, political science, psychology, sociology-will count toward the requirement.

## World Languages

### 1. IF COMPLETED IN HIGH SCHOOL

Two high school credits are required. The two credits must be completed in the same language.

Note: The world language requirement will be considered satisfied for applicants who complete their education through the 7th grade in school(s)

- 1. where English was not the language of instruction and
- 2. in countries other than Australia, Canada, Ireland, New Zealand, the United Kingdom, and the U.S.

International applicants who entered the U.S. education system prior to the 8th grade must satisfy the foreign language requirement.

Any natural language that has been formally studied may be used to satisfy this requirement, including American Sign Language (ASL, the language of the deaf community), and languages no longer spoken, such as Latin and ancient Greek. However, neither computer ‘languages’ nor forms of deaf signing aside from ASL are acceptable.

A world language course taken in the eighth grade may satisfy one credit of the requirement if the second-year course is completed in high school.

2. IF SATISFIED BY COLLEGE COURSE WORK

For purposes of admission, each 5-quarter-credit course of language in college is considered equivalent to one high school credit. Applicants who have never studied a world language will need to complete ten quarter credits of a single world language. However, an applicant who studied French for one credit in high school needs to complete only the second quarter (e.g., FREN 102) or the second semester of a first-year language sequence. Of course, you may prefer to begin with 101 to refresh your memory.

Lab Science

1. IF COMPLETED IN HIGH SCHOOL

A minimum of two credits of laboratory science are required. At least one of the two credits must be in biology, chemistry, or physics. Students typically take this full year course in two successive high school semesters. Additionally, at least one of the two years of laboratory science must be an algebra-based science course. The principles of technology courses taught in Washington State high schools may apply toward the laboratory science requirement. Additionally, courses identified by the school district as a laboratory science courses—e.g., astronomy, environmental science, geological science, genetics, marine science—may also apply toward the additional credit of laboratory science requirement.

2. IF SATISFIED BY COLLEGE COURSE WORK

College science courses with a lab will count toward the laboratory science portion of the requirement. Any course in astronomy, atmospheric science, biological structure, biology, botany, chemistry, environmental science (but not environmental studies), genetics, geology, oceanography, physical anthropology, physical geography, physics, or zoology will count toward the second-year requirement, as will introductory courses in biological or physical science.

Fine, Visual, or Performing Arts

1. IF COMPLETED IN HIGH SCHOOL

One-half credit is required in the fine, visual, or performing arts, to be chosen from art appreciation, band, ceramics, choir, dance, dramatic performance and production, drawing, fiber arts, graphic arts, metal design, music appreciation, music theory, orchestra, painting, photography, print making, or sculpture.

Courses that do NOT satisfy this requirement include architecture, color guard, creative writing, drafting, drill team, fashion design, foreign languages, interior design, sewing, speech, web design or graphics, woodworking, and year-book.

2. IF SATISFIED BY COLLEGE COURSE WORK

Two quarter credits (or 2 semester credits) chosen from any of the following subjects will satisfy the requirement:

- Art, art history, cinema/filmmaking, dance, music, or photography;
- Any course in drama except drama as literature courses.
- Courses in architecture are generally not accepted, except for those in architectural history.

Academic Electives

1. IF COMPLETED IN HIGH SCHOOL

Academic electives are courses in any of the six core subject areas — English, Mathematics, Social Science, World Languages, Lab Science, and the Arts — beyond the minimum number of credits specified. An additional half-credit is required.

2. IF SATISFIED BY COLLEGE COURSE WORK

Three quarter credits (2 semester credits), chosen from any of the six subject areas, satisfy this requirement.

High School Students Enrolled in Dual-Credit Programs

The Running Start Program allows academically qualified 11th- and 12th-graders the opportunity to enroll in certain Washington colleges for college credit. College in the High School, which may go under names such as dual enrollment or dual credit, allows high school students to take college courses at their local high school and receive college credit. Some well-known dual enrollment programs include Seattle’s Matteo Ricci College and Hawaii’s Running Start program.

ADMISSION

Dual-enrollment applicants are evaluated for admission on the same basis as other freshman applicants: academic preparation and performance; and personal achievement and characteristics. See Requirements/Freshman/Review.

- You must satisfy the College Academic Distribution Requirements (CADR).
- You must submit scores from SAT Reasoning Test or ACT with Writing. Dual-enrollment applicants are evaluated for admission on the basis of both quantitative (including high school and college grades and admission test scores) and qualitative factors.

APPLICATION PROCEDURES

- If you are applying for summer or autumn quarter after you graduate from high school, use the freshman application and apply by the freshman application deadline, December 15, regardless of the number of college credits you have taken or will have taken. All materials to complete the application file must be submitted or postmarked by the deadline.
- The the Honors Program priority date for scholarship consideration is November 15.
- If you are starting college after you leave high school, apply as a transfer student.

Recommendations for Academic Planning

We encourage dual-enrollment applicants—particularly those with a significant number of college credits—to begin their academic planning as early as possible to ensure that they make the most of their college credit. The Transfer Admission & Planning booklet will be helpful in this regard, especially the academic planning section.

- Keep in mind that you have established a college record. Grades you earn now could affect admission to the University and to your intended major.
- If you anticipate entering the UW with 90 or more transferable credits, please know that you will be expected to declare a major at the end of your first quarter at the UW or request an extension from your adviser.

Two online tools will help you look ahead toward UW requirements—for your intended major and for graduation—

while still completing course work at the college you are now attending:

- For transferable courses at Washington State community colleges and transfer credit policies, get to know the Equivalency Guide.
- Consult the Academic Planning Worksheets, to help you prepare for your intended major and UW graduation requirements.

Transfer Credit Policy

The UW will grant full transfer credit for courses completed while participating in the Washington Running Start program if they are college level and recorded on a college transcript. All UW restrictions on transfer credit apply.

Scholarships

You may be considered for freshman scholarships as long as you do not enroll in another degree-seeking program after leaving high school and before enrolling at the UW. December 15 is the application deadline for freshman admission.

Homeschooled Applicants

Homeschooled students bring unique qualities to our campus, and we welcome their interest in the University of Washington. The Office of Admissions provides these guidelines to help homeschooled applicants become eligible for admission consideration.

College Academic Distribution Requirements (CADR)

All freshman and transfer applicants are required to meet minimum academic distribution requirements as set by the Washington State Higher Education Coordinating (HEC) Board and the faculty of the University of Washington. These requirements are explained in detail elsewhere.

Test Score Requirements

- CADR subjects completed at a high school or regionally accredited college do not require test score validation.
- CADR subjects completed through homeschooled coursework require validating test scores.

The UW does not have an established list of predetermined minimum scores but reviews each homeschooled applicant in light of their unique educational history. All applicants are assessed holistically in the context of the UW’s comprehensive review process.

	Examination Options <i>Scores from ACT with Writing or SAT Reasoning Test are required of all freshman applicants and may also serve as a validation option for some CADR subjects.</i>
CADR	
English	SAT Reasoning Test or ACT with Writing
Mathematics	SAT Reasoning Test or ACT with Writing
Lab Science: <i>Validation is required for at least one of the following: Biology, Chemistry, or Physics.</i>	ACT with Writing or SAT Subject Test or Advanced Placement (AP)

	Examination Options <i>Scores from ACT with Writing or SAT Reasoning Test are required of all freshman applicants and may also serve as a validation option for some CADR subjects.</i>
CADR	
World Languages	UW proficiency examination results for subject area (Comparable proficiency exam from another regionally accredited college or university may be an option; contact UW Admissions Office in advance.) SAT Subject Test or Advanced Placement (AP)
Social Science	No additional test required.
Fine Visual & Performing Arts	No additional test required.

## Required Documents

### Transcripts

An official homeschool transcript is required for all home-schooled coursework. For each subject studied, the transcript must include:

- Course title,
- Duration of study,
- Short description of course content, and
- Grade for performance (or comparable qualitative assessment).

To be considered official, the homeschool transcript must be signed by the teacher of record; this may be a parent. Official transcripts are also required for any coursework completed at other high schools or regionally accredited colleges. All official transcripts, including college transcripts, must be submitted by the appropriate application deadline.

### Test Scores

Everything you need to know about how to submit scores from SAT Reasoning and ACT with Writing is at [admit.washington.edu/Apply/Freshman/Tests](http://admit.washington.edu/Apply/Freshman/Tests).

## Applicants with College Coursework: Freshman vs. Transfer Application

### Freshman

If you are applying for admission for the summer or autumn quarter immediately following your high school graduation, apply using the freshman application, regardless of the number of college credits you have taken, are taking, or will have taken.

### Transfer

If you will have completed college coursework and will be applying for a quarter beyond the autumn immediately following high school graduation, use the transfer application.

### College Credit

In general, the UW awards credit for academic, college-level course work completed through regionally accredited colleges. See the section on Transfer Credit Policies below.

## English Language Proficiency Requirement

### Enrollment Requirement

Upon enrolling at the Seattle campus of the University of Washington, all new freshman and transfer students must satisfy an English language proficiency requirement upon enrolling at the University of Washington Seattle campus. All applicants should review the English language proficiency requirement section of the catalog so they will know what to expect when they enroll at the UW.

## Admission Requirement

Although the enrollment requirement applies to all new students (both freshmen and transfer), proof of English language proficiency is not an admission requirement for U.S. applicants. However, international applicants are required to submit minimum test scores to be considered for admission. Please refer to information about the admission process for international students in the International Applicants section.

## Freshman Application Checklist

A complete application file for freshman admission must include:

- Application
- \$60 nonrefundable application fee OR approved fee waiver
- Official test scores from SAT Reasoning Test or ACT with Writing
- Transcripts: Do not send unless you receive a request from the Office of Admissions. The application requires that you self-report your academic coursework.
- Letters of Recommendation: Do not send.
- The Writing Section. It plays a critical role in your application for admission and scholarships.

## Application Deadlines

All required materials, including official exam and test score results, must be received by the application deadline.

Quarter of Application	Deadline
Winter	Sept. 15 (Sept. 1, 2011 for Winter 2012)
Spring	Not Open for General Admission
Summer	Dec. 15 (expected to be Dec. 1 beginning 2012)
Autumn	Dec. 15 (expected to be Dec. 1 beginning 2012)

## TRANSFER APPLICANTS

### Definition of Transfer Status

Apply as a transfer student if all of the following statements describe you.

- You wish to enroll at the University of Washington to earn your first bachelor's degree.
- You are no longer in high school (regardless of how old you are or whether you graduated).
- You have completed, plan to complete, or will have completed any coursework at a regionally accredited college or university before you enroll at the University of Washington.

## Admission Policy

### Selecting the Transfer Class

The University seeks students who will enhance the intellectual and cultural vitality of the university community. Choosing students from an able group of applicants requires a selection process that looks beyond grades.

### Minimum Requirements

Transfer applicants must meet the following minimum standards to be assured their application will receive a comprehensive review:

1. Completion of the College Academic Distribution Requirements (see Freshman Admission section for complete details)
2. Transfer GPA of 2.50 or better

3. Submission of scores on the SAT or ACT unless the applicant has earned at least 40 reasonably distributed transferable quarter-credits after high school graduation

## Comprehensive Review

The Comprehensive Review is a holistic assessment of an applicant's academic performance and personal qualities and achievements. The comprehensive review includes the following assessment areas:

- Level of academic achievement including cumulative transfer GPA based on all transferable college-level courses attempted; rigor of curriculum; and consistency in course completion
- Well-defined academic goals
- Preparation for intended major
- Plan for timely completion of a bachelor's degree
- Completion of foreign language through the 103-level, or equivalent, when applying to Arts and Sciences or Social Work
- Evidence of a need to enroll at the UW and the availability of the applicant's intended academic program at other Washington public educational institutions
- Academic or artistic awards and achievements, community service, work experience, or research that demonstrates success or potential contributions to the University and community
- Improved grades after an extended absence from college or evidence of a new maturity in approaching college work
- Cultural awareness
- Perseverance in attaining higher education in spite of personal adversity, disability, or economic disadvantage
- Admission test scores, if provided

## Enrollment Goals and Priorities

The University is committed to the following transfer goals and priorities to benefit students from Washington's community and technical colleges.

- The University of Washington Seattle commits 30% of the spaces available annually for new undergraduates to qualified Washington community college transfer students.
- Among community college transfer students, the highest admission priority will be given to those with academic associate degrees and those with 90 transferable credits taken in preparation for a professional academic major. Applicants with fewer than 90 credits may also be admitted when early transfer is advisable, but the number of such transfers remains small.
- The University accepts applicants who have completed fewer than 40 quarter credits (slightly less than one year of college) at the time of application. However, admission for these applicants is competitive and, due to enrollment pressures, priority is low.

## English Language Proficiency Requirement

### Enrollment Requirement

Upon enrolling at the Seattle campus of the University of Washington, all new freshman and transfer students must satisfy an English language proficiency requirement upon enrolling at the University of Washington Seattle campus. All applicants should review the English language proficiency requirement section of the catalog so they will know what to expect when they enroll at the UW.

### Admission Requirement

Although the enrollment requirement applies to all new students (both freshmen and transfer), proof of English lan-

guage proficiency is not an admission requirement for U.S. applicants. However, international applicants are required to submit minimum test scores to be considered for admission. Please refer to information about the admission process for international students in the International Applicants section.

Transfer Application Checklist

A complete application file for transfer admission must include:

- Application
- \$60 nonrefundable application fee OR approved fee waiver
- Academic Planning Worksheet for intended major
- Personal Statement
- Official high school transcript (if homeschooled, see Homeschool section)
- Official college or university transcript(s)
- Test scores (for applicants with fewer than 40 transferable credits)

Application Deadlines

Quarter of Application	Deadline
Winter	Sept. 15 (Sept. 1, 2011 for Winter 2012)
Spring	Not Open for General Admission
Summer	Feb. 15
Autumn	Feb. 15

*\* ATTN: Engineering Applicants and Computer Science Applicants Only. You may submit the paper application to the UW Admissions Office for spring quarter admission only if you are also applying for spring quarter direct entry to the programs listed below. To apply to the university, direct entry applicants to these programs should print the PDF version of the university application and submit the paper application and required documents prior to December 15. Direct entry applicants must also submit a departmental application to the program; check department websites for instructions.*

The following departments admit new transfer students for spring quarter only:

- Bioengineering
- Chemical Engineering

The following departments admit new transfer students for spring and autumn quarters:

- Bioresource Science & Engineering
- Computer Science
- Computer Engineering
- Electrical Engineering
- Materials Science & Engineering
- Human Centered Design & Engineering

INTERNATIONAL APPLICANTS

An international student is anyone who needs an F-1 student visa or has any other type of temporary, non-immigrant visa. You are not considered an international student if you have US citizenship, US permanent residency, political asylum, refugee status, or an A, E, I, G, K, or V visa. The University of Washington accepts international student applications for either summer or autumn quarters. Admission to the University of Washington is competitive for international degree-seeking students. In recent years, the UW has been able to offer admission to about half of the international student applicants.

Admission Policy and Requirements

For admission consideration, the following requirements must be completed by the December 15 application deadline for freshman or the February 15 deadline for transfer and postbaccalaureates:

1. Complete the Application for International Undergraduates
2. Submit official English proficiency exam scores that meet the minimum admission requirement
3. Completion of the College Academic Distribution Requirements before enrolling at the University. The minimum requirements are as follows:
  - Composition/Literature 4 years
  - Mathematics 3 years
  - Social Science 3 years
  - World Languages 2 years
  - Lab Science 2 years
  - Fine, Visual, or Performing Arts 0.5 year
4. Submit official transcripts for all schools attended for grades 9–11 (or grades 10–12 if you have already graduated high school) and for all colleges and/or universities attended.

For additional details, go to [admit.washington.edu/Requirements/International/CADR](http://admit.washington.edu/Requirements/International/CADR)

English Proficiency for Admission

All international students are required to submit English proficiency scores that meet the University's minimum requirement for admission consideration. Applicants must request official scores be sent directly to the UW from the testing agency for either the TOEFL or IELTS. Previous ESL or English composition courses, even when taken in the United States, will not satisfy the admission requirement. Students currently enrolled in US or Canadian schools are also required to submit official exam scores. Applicants who have not met the minimum English proficiency requirement by the application deadline or have not taken one of the English proficiency exams will not be considered for admission.

Exception. Non-U.S. citizens whose primary and secondary education took place in Australia, Canada, Great Britain, Ireland, New Zealand, or the US are exempt from this requirement. Students who were born in one of these countries but educated elsewhere are still required to satisfy the English proficiency requirement. SAT or ACT Scores. Although the SAT and ACT are not required for international student applicants, the University may consider the English proficiency requirement satisfied if you have achieved academic success in English writing or literature courses and have a minimum SAT critical reading score of 550 or an ACT English/Writing score of 22. Official SAT or ACT scores must be sent directly from the testing organization.

English Language Proficiency Requirement for UW Enrollment

All new freshmen and transfer students must satisfy an English language proficiency requirement upon enrolling at the University. This requirement is separate from the admission requirement for international students. English composition, literature, or ESL courses taken at the secondary or college level will not satisfy the English language proficiency requirement for UW enrollment.

Applicants who are offered admission to the UW and have qualifying exam scores or meet one of the other alternatives will have satisfied this requirement. New students entering the UW without a qualifying test score, will be required to take an English language proficiency screening test before registering for classes. Students who do not achieve the minimum score on the screening test will be directed to participate in a mandatory advising program and/

or to complete courses through the Academic English Program (AEP). At least one AEP course will be required each quarter until all mandatory AEP classes are completed. An extra fee is charged for each AEP course in addition to regular tuition.

Test Score Requirements

Test Title	Minimum Requirement for Admission to UW Seattle	Score Needed for English Language Proficiency Exemption Upon UW Enrollment
TOEFL Internet-based	76	92
TOEFL Computer-based	207	237
TOEFL Paper-based	540	580
IELTS	6.0	7.0

Selecting International Students for Admission

All international students for a given year are reviewed to determine which applicants meet minimum requirements and have the strongest overall academic background. In selecting students for admission, the University considers the overall academic record, the rigor of a student's curriculum, the education system where the student has studied, test scores, personal achievements, educational goals, academic preparation, special talents, and a student's personal background as seen through the personal statement. Admission will be offered to as many highly qualified students as space allows and to those applicants who will most benefit from and contribute to the University's educational resources.

International Application Checklist

A complete application file for transfer admission must include:

- Application
- \$75USD nonrefundable application fee
- Official scores from English proficiency exam
- Academic Credentials (transcripts)
- Official secondary school transcripts
- Official transcripts from each college, university, or other post-secondary institution attended

Application Deadlines

Quarter of Application	Deadline
Summer	Freshmen: Dec.15 Transfers & Postbaccalaureates: Feb. 15
Autumn	Freshmen: Dec.15 Transfers & Postbaccalaureates: Feb. 15

POSTBACCALAUREATE APPLICANTS

Admission Policy

Postbaccalaureate is a highly competitive status, reserved for students who are working toward a second bachelor's degree or preparing for entrance to graduate or professional school. Only a small number of applicants are admitted every quarter as postbaccalaureates because the University's primary commitment is to undergraduates who are completing the first bachelor's degree. The primary factors in the admission decision are the Statement of Purpose,

the applicant's academic record from the first bachelor's degree, and any relevant postbaccalaureate course work.

## Postbaccalaureate Application Checklist

A complete application file consists of:

- Application, available online
- \$60 nonrefundable application fee via Visa, MasterCard or electronic check
- Statement of Purpose
- One official transcript from each college or university attended
- Letters of recommendation, if applicable (up to three may be submitted)

### Statement of Purpose

A Statement of Purpose, required of all postbaccalaureate applicants, is a critical part of your application for admission and is a required part of your admission file. Statements of Purpose and all other documents submitted are reviewed by the Postbaccalaureate Review Committee (PRC). Applicants will be notified in writing of the final decision after evaluation of transcripts and the Statement of Purpose.

The Statement of Purpose will be evaluated as part of the admission decision. Content as well as form (spelling, grammar, punctuation) will be considered.

Applicants are expected to answer the following questions in their statements:

- Why are you pursuing further studies? How did you reach the decision to go into your particular field? What are your long term academic and professional goals? Be as specific as possible.
- If you are preparing to enter a second undergraduate, graduate, or professional program (such as medical, dental, or law school), what courses do you intend to take? If, on the other hand, you are ready to begin work in your major immediately, you do not need to list all of the courses comprising the major.
- For how many academic quarters do you plan to enroll? Why is it necessary for you to enroll at the UW? Do other four-year universities or community colleges offer what you need at this time? Can you meet your goal as a non-matriculated student, attending classes through UW Educational Outreach? (If you are planning to take specific courses in preparation for a graduate or professional program, be aware that access to courses in a particular quarter is not guaranteed.)
- If you are seeking admission to an undergraduate program with selective admission criteria: are you assured departmental admission? Your statement will be strengthened by a letter of support from the department. We recommend that applicants preparing for graduate school meet with an adviser in the department for an assessment of their chances for future admission. It is your responsibility to contact directly the program(s) you are interested in well before applying for admission to the University. Please be aware that postbaccalaureate applicants who are not accepted to their major of choice will not be admitted to the University.
- If you feel your undergraduate GPA is low: why might it be an unreliable indicator of your academic potential? Those students with postbaccalaureate course work on record, be it from a community college, four-year school, or graduate program, may use this opportunity to point out subsequent high performance if it is relevant to their academic plans at the UW.

## Application Deadlines

Quarter of Application	Deadline
Winter	Sept. 15 (Sept. 1 beginning 2011)
Spring	Not Open for General Admission
Summer	Feb. 15
Autumn	Feb. 15

## TRANSFER CREDIT POLICY

### General Policy

To students pursuing a first bachelor's degree, the Office of Admissions awards transfer credit according to the guidelines discussed here. Admissions reserves the right to accept or reject credits earned at other institutions of higher education. In general, it is University policy to accept credits earned at institutions fully accredited by their regional accrediting association for colleges and universities, provided that such credits have been earned through university-level courses appropriate to the student's degree program at the University of Washington (UW). Exceptions are noted below.

### State Policy on Inter-college Transfer and Articulation

The UW subscribes to the statewide Policy on Inter-College Transfer and Articulation Among Washington Public Colleges and Universities, endorsed by the public colleges and universities of Washington as well as by the State Board for Community and Technical College Education, and adopted by the Higher Education Coordinating Board. The policy deals with the rights and responsibilities of students, and the review and appeal process in transfer-credit disputes.

### Class Standing

A student's class standing is determined by the total number of transfer credits awarded by the UW, not by the number of years of college study or by the completion of an associate degree.

Standing	Credit total
Freshman	0–44 credits
Sophomore	45–89 credits
Junior	90–134 credits
Senior	135+ credits

Satisfying UW graduation requirements depends not only on the number of credits completed—a minimum of 180 for most programs—but also on completing all College and major requirements.

### Quarter vs. Semester Credits

Colleges and universities that operate on a semester system award semester credit. The UW awards quarter credit. To convert quarter credits to semester credits, multiply by two-thirds. To convert semester to quarter credits, multiply by 1.5. For example, a student who has earned 30 credits at an institution on a semester calendar would earn 45 quarter credits at the UW.

### Applying Transfer Credit to Degree Requirements

Before a student first registers for classes at the University of Washington, s/he should meet with an academic adviser to plan a program of study. The adviser determines how the transfer credits shown on the transfer-credit evaluation may be used to meet UW degree requirements. For example, suppose that Admissions awards a student 120 transfer credits, but only 100 of those credits can be applied toward graduation requirements for that student's de-

gree program. If selective credits are needed, credits that do not apply toward specific requirements may still be applied toward the minimum number of total credits required for graduation.

### Alternative Credit Options

The UW does not award credit for work or life experience; however, two avenues exist for obtaining credit. Both situations require a formal approval process and a fee of \$25 per course.

- Once enrolled at the UW, students may explore the possibility of obtaining departmental approval for transfer of credit earned through coursework taken at a non-regionally accredited institution.
- Students may arrange to challenge specific UW courses via credit by examination if the same knowledge has been gained through independent study outside a formal educational setting.

For course work taken at an unaccredited institution, contact Admissions. For credit by examination for independent study completed outside a formal educational setting, contact the Graduation and Academic Records Office, [ugradoff@uw.edu](mailto:ugradoff@uw.edu).

### Transfer Credit Limit

The University allows a maximum of 90 credits of lower-division transfer course work to be applied toward a UW degree. Of the 180 credits required for graduation from the University (some majors require more than 180), a maximum of 90 lower-division transfer credits are allowed. Upon enrolling at the UW, students with a lower-division credit total that exceeds 90 will see a difference between the "total credits earned" and the "total credits allows" on their UW record under the Summary of Transfer Credit following the course by course "Detail of Transfer Credit."

Additionally, a maximum of 135 total transfer credits are allowed toward the 180-credit total. Therefore, a student transferring 135 or more credits must complete a minimum of 45 more credits in residence at the UW.

Despite these restrictions, all transferable credit are listed under the Detail of Transfer Credit and, with an adviser's approval, may be used to satisfy individual requirements for graduation. It may be helpful to think of transfer credits as a "bank account" of credits from which applicable credits may be drawn. All transferable credits remain in the bank, but no more than 90 lower-division credits and no more than 135 total transfer credits may be "withdrawn" in order to be applied toward the 180 (or more) credits required for a degree.

### Extension Credit from Other Schools

Extension credit, including correspondence courses, earned at other schools may not exceed 45 credits. Military credit is included in this 45-credit limit.

### Foreign Language Courses

Students who complete two or more years of a foreign language in high school and then go on to complete an entry-level language course in the same language (e.g., FRENCH 101) before transferring to the UW are eligible to receive transfer credit. However, students who complete an entry-level course after their transfer to the UW will not receive college credit.

### Military Credit

Credits earned for courses completed through in Armed Forces Training Schools (AFTS) and through USAFI and DANTES may not exceed 30 credits. Official transcripts (or DD-214 or DD-295 forms) will be evaluated after a student enrolls at the UW. No credit is awarded for Military Occupational Specialty (MOS) programs.

Native Language

First-year (elementary) or second-year (intermediate) foreign-language credit is not granted either by examination or by course completion in a student's native language. "Native language" is defined as the language spoken in the student's home during the first six years of his or her life and in which he or she received instruction through the seventh grade.

Out-of-Sequence Courses

Credit is not awarded for prerequisite courses in mathematics or foreign languages completed after a more advanced course has been completed. For example, students will not be awarded credit for Spanish 102 if taken after Spanish 103.

Overlapping Content

If a department considers two of its courses to have overlapping content, credit will be awarded for only one. For example, credit is granted for either PHYS 114 or PHYS 121.

Physical Education

No more than three quarter credits will be allowed for physical-education activity courses.

Restricted Transfer Credit

Transfer credit will not generally be awarded for vocational or technical courses. However, a maximum of 15 quarter credits will be awarded in transfer for college-level vocational-technical courses when they have been allowed as electives within the 90 credits comprising an academic associate degree from a Washington community college. Courses in this category are those that ordinarily provide specialized training for an occupation (e.g., allied health, bookkeeping, electronics, or physical therapy assistant). When allowed, these credits will apply only toward the elective credit component of a baccalaureate degree at the UW. Such courses are not included in the transfer GPA.

Senior Residency Requirement

To be recommended for a first bachelor's degree, a student must complete 45 of the last 60 credits as a matriculated student at the UW campus where the degree is to be awarded.

Appeal Procedure

If not all courses transfer as the student had anticipated, and it is not evident to the academic adviser is unable to answer questions about an individual student's transfer credit award, the student should first consult with an admissions specialist in the Office of Admissions. If appropriate, further appeal can be directed to the UW Transfer Officer in the Admissions Office.

The Transfer Associate Degree Agreement

Several of the schools and colleges\* at the University of Washington have entered into the Transfer Associate Degree Agreement with the Intercollege Relations Commission of the state of Washington to aid in transfer from two-year schools to the UW.

Transfer students who enroll in one of these schools or colleges with an academic transfer (not vocational-technical) associate's degree from a Washington community college, receive this benefit: transferable courses used by the community college toward the general education requirement in the associate degree awarded will be accepted toward Areas of Knowledge at the UW in the equivalent Area (humanities/VLPA; social sciences/I&S; natural sciences/NW), even if they do not count that way for other students.

Please note the following:

- The agreement does not apply to students who entered the UW before Autumn 1985.

- To qualify for the agreement, students must complete all the coursework required for the associate's degree before matriculating at the UW.
- Courses counted toward the UW's Language Skills (English composition and foreign language) requirement cannot also be counted toward Areas of Knowledge. In particular, students in the College of Arts and Sciences and the School of Social Work will have to count first-year foreign language courses toward the foreign language requirement rather than Areas of Knowledge. (Students with associate's degrees who first entered college before Autumn 1985 are exempt from the earlier version of the Language Skills requirement.)
- Students must meet the additional writing requirement (unless you started college before Autumn 1985). Many AA degrees require 10 credits of English composition, 5 of which can be counted toward the additional writing requirement if similar to UW courses allowed. Note that many community colleges count creative writing and verse writing as English composition, but the UW does not allow those courses toward either the English composition or additional writing requirement. (They do count toward VLPA at the UW—even if the community college did not allow them to count toward the humanities requirement of the Associate's degree.)
- Most community colleges do not require a 20-20-20 general education plan; the number of credits required in each area may be a combination such as 15-15-15, or 20-20-15, etc. You must eventually complete the entire Areas of Knowledge plan required by your UW school or college.
- Students who do not meet the Areas of Knowledge requirement entirely with courses taken before transfer must select UW courses with the appropriate Area designations to complete the requirement.

\* The following UW schools and colleges honor the Transfer Associate Degree Agreement: College of Built Environments, College of Arts & Sciences, Business School, School of Medicine, School of Nursing, and School of Social Work.

ADVANCED PLACEMENT PROGRAM (COLLEGE BOARD)

AP Credit Policies

Although AP scores range from 1 to 5, all UW departments that award credit require a minimum score of 3 or 4. In some cases, students must consult a UW departmental adviser for evaluation after entering the University.

NOTE: AP test results may be submitted only for courses taken in high school and for tests taken during or within 6 months of leaving high school. AP test results may not be used to waive admission requirements.

AP Subject	Score	Credit/Placement Awarded and Additional Information
Art: History of Art	4,5	ART H 100 (5 or 10 cr., respectively). Art history elective credit. See Art adviser for placement. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation.
Art: Studio Art	-	Placement only. See Art adviser.
Biology	4,5	BIOL 161-162 (10 cr.) First two quarters of general biology. Counts toward Natural World general education requirement

AP Subject	Score	Credit/Placement Awarded and Additional Information
Calculus AB	5	MATH 124,125 (10 cr.) First two quarters of calculus. Counts toward Natural World general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Calculus AB	3,4	MATH 124 (5 cr.) First quarter of calculus. Counts toward Natural World general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Calculus AB	2	Placement only into MATH 124. Placement into first quarter of calculus.
Calculus BC	4,5	MATH 124,125 (10 cr.) First two quarters of calculus. Counts toward Natural World general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Calculus BC	3	MATH 124 (5 cr.) First quarter of calculus. Counts toward Natural World general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Calculus BC	2	(Subgrade 3,4,5) MATH 124 (5 cr.) First quarter of calculus. Counts toward Natural World general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Chemistry	5	CHEM 142, 152, 162 (5, 5, 5) General chemistry for science and engineering majors. Counts toward Natural World general education requirement for graduation. CHEM 142 also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Chemistry	4	CHEM 142, 152 (5, 5) General chemistry for science and engineering majors. Counts toward Natural World general education requirement for graduation. CHEM 142 also satisfies Quantitative and Symbolic Reasoning graduation requirement. Note:Students with AP scores of 4 or 5 who plan to major in chemistry or biochemistry are strongly encouraged to discuss the option of enrolling in the honors introductory chemistry sequence, Chem 145-165, with the undergraduate advisers in the Chemistry department.
Chinese Language	3,4,5	CHIN 133, 231, 232 (5,10,15 cr., respectively) Courses are parallel to CHIN 103, 201, 202; cannot earn credit for both sequences. Credit for 133, 231, 232 does not imply placement into specific CHIN courses.

AP Subject	Score	Credit/Placement Awarded and Additional Information
Computer Science A	4,5	CSE 142 (4 cr.) Computer programming for science/engineering students. Counts toward Natural World general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Computer Science AB	5	CSE 142, 143 (4, 5 cr.) Computer programming for engineering and science students. Counts toward Natural World general education requirements for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Computer Science AB	3,4	CSE 142 (4 cr.) Computer programming for engineering and science students. Counts toward Natural World general education requirements for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Economics: Micro	4,5	ECON 200 (5 cr.) Introduction to Microeconomics. Counts toward Individuals & Societies general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Economics: Macro	4,5	ECON 201 (5 cr.) Introduction to Macroeconomics. Counts toward Individuals & Societies general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
English: Language & Composition	4,5	ENGL 190 (5 cr.) AP English. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation.
English: Literature & Composition	4, 5 or both	ENGLISH 191 (5 cr.) AP English. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation.
Environmental Science	3,4,5	ESRM 100 (5 cr.) Introduction to environmental science. Counts toward Natural World general education requirement for graduation.
European History	4,5	HIST 113 (5 cr.) Western Civilization history survey (modern). Counts toward Individuals & Societies general education requirement for graduation.
French Language	3,4,5	FRENCH 201,202,203 (5,10,15 cr., respectively) Intermediate French. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.

AP Subject	Score	Credit/Placement Awarded and Additional Information
French Literature	3,4,5	FRENCH 298 (5,10,15 cr., respectively) Does not imply a particular placement. French credit at the second-year college level. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
German Language	3,4,5	GERMAN 201,202,203 (5,10,15 cr., respectively) Intermediate German. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Government and Politics: American	4,5	POL S 202 (5 cr.) American politics. Counts toward Individuals & Societies general education requirement for graduation.
Government and Politics: Comparative	4,5	POL S 204 (5 cr.) Comparative politics. Counts toward Individuals & Societies general education requirement for graduation.
Human Geography	3,4,5	GEOG 100 (5 cr.) Introduction to geography. Counts toward Individuals and Societies general education requirement for graduation.
Italian Language & Culture	3,4,5	ITAL Intermediate Italian. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences. 201,202,203 (5,10,15 cr., respectively).
Japanese Language	3,4,5	JAPAN 133, 231, 232 (5,10,15 cr., respectively) Courses are parallel to JAPAN 113, 211, 212; cannot earn credit for both sequences. Credit for 133, 231, 232 does not imply placement into specific JAPAN courses.
Latin Literature	4,5	LATIN 305,306 (10 cr.) Latin literature courses. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Latin Literature	3	LATIN 103 (5 cr.) Third quarter of elementary Latin. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Latin: Vergil	4,5	LATIN 305,307 (10 cr.) Latin literature courses. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.

AP Subject	Score	Credit/Placement Awarded and Additional Information
Latin: Vergil	3	LATIN 103 (5 cr.) Third quarter of elementary Latin. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Latin Literature and Latin: Vergil	4,5	LATIN 305,306,307 (15 cr.) Latin literature courses. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Latin Literature and Latin: Vergil	3	LATIN 103 (5 cr.) Third quarter of elementary Latin. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Music Theory	-	None Awarded. See Music adviser for placement.
Physics B	4,5	PHYS 114/117, 115/118, 116/119 (15 cr.) First-year general physics sequence. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Physics C: Mechanics	4,5	PHYS 121 (5 cr.) First quarter of engineering physics sequence. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Physics C: Electricity & Magnetism	4,5	PHYS 122 (5 cr.) Second quarter of engineering physics sequence. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
Psychology	4,5	PSYCH 101 (5 cr.) Introductory psychology. Counts toward Individuals & Societies general education
Spanish Language	3,4,5	SPAN 201,202,203 (5,10,15 cr., respectively). Intermediate Spanish. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Spanish Literature	3,4,5	SPAN 298 (5,10,15 cr., respectively). Spanish credit at the second-year college level. Counts toward Visual, Literary, and Performing Arts general education requirement for graduation. Also satisfies foreign language graduation requirement of the College of Arts and Sciences.
Statistics	3,4,5	STAT 311 (5 cr.) Statistical Methods. Counts toward Natural World general education requirement for graduation. Also satisfies Quantitative and Symbolic Reasoning graduation requirement.
U.S. History	4,5	HSTAA 101 (5 cr.) American history survey. Counts toward Individuals & Societies general education requirement for graduation.

AP Subject	Score	Credit/Placement Awarded and Additional Information
World History	4,5	HIST 100 (5 cr.) AP World History. Counts toward Individuals & Societies general education requirement for graduation.

## INTERNATIONAL BACCALAUREATE PROGRAM

### Policy Overview

In most cases, five quarter credits (or more) are granted for Higher Level subjects in which a grade of 5 or higher is earned. Students who earn an IB diploma may be awarded up to 45 quarter credits for a combination of subject grades and 15 general education credits distributed equally among the three Areas of Knowledge (general education) areas: Visual, Literary, and Performing Arts (VLP), Individuals and Societies (I&S), and The Natural World (NW). No credit is awarded for Standard Level subject grades. Consult the Higher Level Subjects table for detailed information about credit awards in particular disciplines.

### IB Credit Policies

IB Subject	Score	Courses and Credits Counts Toward/Comments
African History	7,6,5	HIST 108 (5 cr.) Counts toward Individuals & Societies general education requirement for graduation.
American History	7,6,5	HSTAA 101 (5 cr.) Counts toward Individuals & Societies general education requirement for graduation.
Anthropology	7,6,5	ANTH 202 (5 cr.) Counts toward Individuals & Societies general education requirement for graduation.
Arabic	7	ARAB 108 (15 cr.) Satisfies foreign language requirement, and credits count toward general education requirement for graduation. See department for placement.
Arabic	6	ARAB 108 (10 cr.)
Arabic	5	ARAB 108 (5 cr.)
Art/Design	7,6,5	Policy to be determined.
Biology	7,6,5	BIOL 161-162 (10 cr.) Counts toward Natural World general education requirement for graduation.
Business and Organization	7,6,5	No credit
Chemistry	7	No credit. Exemption from CHEM 142, 152; placement into CHEM 162.
Chemistry	6	No credit Exemption from CHEM 142; placement into CHEM 152.
Chinese	7	CHIN 201, 202, 203 (15 cr.) Satisfies foreign language requirement, and credits count toward general education requirement for graduation. For further study, instructor evaluation required for placement.

IB Subject	Score	Courses and Credits Counts Toward/Comments
Chinese	6	CHIN 201, 202 (10 cr.)
Chinese	5	CHIN 201 (5 cr.)
Computer Science and Engineering	7,6,5	CSE 100 (5 cr.) Satisfies Quantitative and Symbolic Reasoning graduation requirement.
Design Technology	7,6,5	ENGR 100 (5 cr.) Counts toward Individuals & Societies general education requirement for graduation.
East/Southeast Asia and Oceania History	7,6,5	HISTAS 108 (5 cr.) Counts toward Individuals & Societies general education requirement for graduation.
Economics	7,6	ECON 200, 201 (10 cr.) Satisfies Quantitative and Symbolic Reasoning graduation requirement and/or counts toward Individuals & Societies general education requirement for graduation.
Economics	5	ECON 200 (5 cr.) Satisfies Quantitative and Symbolic Reasoning graduation requirement or counts toward Individuals & Societies general education requirement for graduation.
English	7,6,5	ENGL 108 (5 cr.) Counts toward Visual, Literary, and Performing Arts general education requirement for graduation.
European History	7,6,5	HIST 113 (5 cr.) Counts toward Individuals & Societies general education
French	7	FRENCH 201, 202, 203 (15 cr.) Satisfies foreign language requirement, and credits count toward Visual, Literary, and Performing Arts general education requirement for graduation.
French	6	FRENCH 201, 202 (10 cr.)
French	5	FRENCH 201 (5 cr.)
Geography	7,6,5	GEOG 100 (5 cr.) Counts toward Individuals & Societies general education requirement for graduation.
Germanics	7	GERMAN 201, 202, 203 (15 cr.) Satisfies foreign language requirement, and credits count toward Visual, Literary, and Performing Arts general education requirement for graduation.
Germanics	6	GERMAN 201, 202 (10 cr.)
Germanics	5	GERMAN 201 (5 cr.)
History		See African History; American History; East/Southeast Asia and Oceania History; European History
Italian	7	ITAL 201, 202, 203 (15 cr.) Satisfies foreign language requirement, and credits count toward general education requirement for graduation.
Italian	6	ITAL 201, 202 (10 cr.)
Italian	5	ITAL 201 (5 cr.)

IB Subject	Score	Courses and Credits Counts Toward/Comments
Japanese	7	JAPAN 421, 422, 423 (15 cr.) Satisfies foreign language requirement, and credits count toward general education requirement for graduation.
Japanese	6	JAPAN 421, 422 (10 cr.)
Japanese	5	JAPAN 421 (5 cr.)
Latin	7,6,5	LATIN 305, 306, 307 (15 cr.) Satisfies foreign language requirement, and credits count toward Visual, Literary, and Performing Arts general education requirement for graduation.
Mathematics	7	MATH 124 (5 cr.) Satisfies Quantitative and Symbolic Reasoning basic skills requirement and/or Natural World general education requirement for graduation
Mathematics	6,5	MATH 120 (5 cr.) Satisfies Natural World general education requirement for graduation
Music	7,6,5	MUSIC 120 (5 cr.) Counts toward Visual, Literary, and Performing Arts general education requirement for graduation.
Near East	7,6,5	NEARE 210 (5 cr.) Counts toward Visual, Literary, and Performing Arts or Individuals & Societies general education requirement for graduation.
Philosophy	7,6,5	No credit
Physics	7,6,5	PHYS 114/117, 115/118, 116/119 (15 cr.) Satisfies Natural World general education requirement for graduation. PHYS 114 also satisfies Quantitative and Symbolic Reasoning basic skills requirement for graduation.
Psychology	7,6,5	PSYCH 101 (5 cr.) Counts toward Individuals & Societies general education requirement for graduation.
Russian	7	RUSS 301, 302, 303 (15 cr.) Satisfies foreign language requirement, and credits count toward general education requirement for graduation.
Russian	6	RUSS 301, 302 (10 cr.)
Russian	6	RUSS 301, 302 (10 cr.)
Spanish	7	SPAN 201, 202, 203 (15 cr.) Satisfies foreign language requirement, and credits count toward general education requirement for graduation.
Spanish	6	SPAN 201, 202 (10 cr.)
Spanish	5	SPAN 201 (5 cr.)
Swahili	7	AFRAM 306, 307, 308 (15 cr.) Satisfies foreign language requirement.
Swahili	6	AFRAM 306, 307 (10 cr.) Counts toward foreign language requirement.
Swahili	5	AFRAM 306 (5 cr.) Counts toward foreign language requirement.

IB Subject	Score	Courses and Credits Counts Toward/Comments
Theater Arts	7,6,5	DRAMA 101, 201 (10 cr.) Counts toward Visual, Literary, and Performing Arts general education requirement for graduation.

## REGISTRATION POLICIES

### Full-time Requirements

You should register for 12 or more credits to be considered full-time if you are an undergraduate or professional student. If you are a graduate student, you should register for 10 or more credits. It is important to note that differing criteria and standards for full-time enrollment exist for eligibility in certain programs. Consult the Financial Aid Office for its requirements on satisfactory student progress. The tuition schedule does not reflect full-time credit requirements for loan deferments, teaching assistantships or other programs.

### Class Attendance

If you do not attend regularly scheduled class meetings during the first week of the quarter, you are subject to being dropped at the discretion of the teaching department to allow enrollment space for other students. Affected courses should be identified in the Time Schedule and/or posted in departmental offices. Do not assume that departments will automatically drop you from the course if you do not attend. If you are not going to go to class, you should drop the course through the registration system. Students who are registered for a course section but do not attend will be assigned a failing grade by the instructor. You may not attend a University course in which you have not been officially registered after the first two weeks of the quarter.

An instructor may allow you to attend his or her class only if your name appears on the official class list from Office of the Registrar. A faculty member may attend informally with the approval of the instructor.

### Satisfactory Progress

If you are pursuing a baccalaureate degree, you are expected to make satisfactory progress toward the attainment of that degree and are expected to enter a major and graduate after completion of a reasonable number of credits.

NOTE: Individual departments may have additional satisfactory progress requirements.

#### The 105-Credit Rule

Undergraduates must declare a major by the time they have earned 105 credits or a hold will be placed on their registration until they either declare a major, or meet with an adviser and receive a pre-major extension. The hold is placed on the student record when 105 or more credits have been completed. Transfer students who are admitted to the University with 105 or more credits are expected to declare a major before their second quarter at the UW, or obtain an extension from an adviser.

You will be granted a pre-major extension if your adviser decides that you are pursuing a reasonable goal, and have a good chance of gaining admission to your intended major. The extension will be granted for the number of quarters it should take you to complete the admission requirements of your major.

If your adviser feels that your choice of major is unrealistic, he or she will deny your request for an extension. You will not be allowed to register for subsequent quarters until you can present a reasonable degree plan. Since the intent of the rule is not to drop you from the University but to encourage you to meet with an adviser and plan for an attainable goal, if you need time to consider your options you will usually be given one or two quarters to do so, and then may be

allowed additional time if necessary to meet the admission requirements of your new major.

You will receive a warning letter from the University as you approach 105 credits, if you have not yet declared a major. If you complete 105 credits and are still a pre-major, the registration system will not let you register for the next quarter. To avoid registration delays, meet with the appropriate adviser at least one quarter before you complete 105 credits.

#### The 210-Credit Rule

The University's satisfactory progress policy requires students to complete their undergraduate degree programs within 30 credits beyond the minimum required for the degree. Because most degrees require 180 credits, students generally must complete their programs by the time they earn 210 credits. Undergraduates who have completed over 210 credits will be notified by e-mail the third week of the quarter that a hold is being placed on their registration due to lack of satisfactory progress. Students ineligible to graduate will be permitted to register for succeeding quarters only if they receive approval from their department and college after filing a graduation plan. Approval to enroll beyond 210 credits may not extend beyond two additional quarters.

Students receiving satisfactory progress registration holds should immediately contact their departmental academic adviser to file a graduation application or to initiate a satisfactory progress appeal.

#### Postbaccalaureate Students

Postbaccalaureate students are expected to be either preparing for admission into a degree program, seeking an additional baccalaureate degree, or working toward a certificate. If you are admitted as "postbaccalaureate undeclared," you must declare a major by the time you have earned 30 credits beyond your last degree. Once a degree objective has been declared, you must make progress toward that degree as evidenced by courses satisfactorily completed. College advisers may grant extensions beyond the 30-credit limit.

#### Excessive Course Repeats and/or Drops

The Committee on Admissions and Academic Standards may terminate your enrollment if you have demonstrated lack of academic progress as evidenced by excessive course repeats, course drops, or University withdrawals and cancellations. You may be reinstated with the approval of your college and the Committee. EOP students may be reinstated in consultation with the Office of Minority Affairs.

### Registration Tampering

A student who tampers or attempts to tamper with the registration records of another student, including but not limited to dropping courses and adding courses, may be subject to disciplinary sanctions as defined in the Student Conduct Code (WAC 478-120).

### Registration Abuse

To help conserve University resources and ensure the registration system is available to all, students are locked out of Web Registration after a specific number of excessive transactions are made per day. This threshold is sufficient for students' regular use and should not interfere with typical use. The use of robots and other automated tools to submit registration requests is expressly forbidden.

If your account is locked out for excessive use, you must wait until the registration system removes the lockout (within 24 hours). The Office of the Registrar is unable to override a locked account.

## GRADING SYSTEM

### Standard Grading System

The UW uses a numerical grading system, with certain exceptions in the schools of Dentistry, Law, and Medicine. Instructors may report grades from 4.0 to 0.0 in 0.1 increments and the grade 0.0. The number 0.0 is assigned for failing work or if a student does not officially withdraw. Grades in the range 0.6 to 0.1 may not be assigned. Grades reported in this range are converted by the Office of the University Registrar to 0.0. Numerical grades may be considered equivalent to letter grades as follows:

Letter	Number	Note
A	4.0-3.9	
A-	3.8-3.5	
B+	3.4-3.2	
B	3.1-2.9	
B-	2.8-2.5	
C+	2.4-2.2	
C	2.1-1.9	
C-	1.8-1.5	
D+	1.4-1.2	
D	1.1-0.9	
D-	0.8-0.7	Lowest passing grade.
E	0.0	Academic failure. No credit earned.

Additional information on grades and scholarship rules may be obtained from the Graduation and Academic Records Office, 264 Schmitz.

The following letter grades also may be used:

- **N In Progress** — Indicates that the student is making satisfactory progress and a final grade will be given at the end of the quarter the work is completed. Used only for thesis, research, and hyphenated courses (courses not completed in one quarter) and courses numbered 600, 601, 700, 750, and 800. An "N" grade carries with it no credit or grade until a regular grade is assigned.
- **I Incomplete** — An Incomplete is given only when the student has been in attendance and has done satisfactory work until within two weeks of the end of the quarter and has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other circumstances beyond the student's control. A written statement of the reason for the giving of the Incomplete, listing the work which the student will need to do to remove it, must be filed by the instructor with the head of the department or the dean of the college in which the course is given.

To obtain credit for the course, an undergraduate student must convert an Incomplete into a passing grade no later than the last day of the next quarter. For Spring Quarter, the following quarter is considered to be Fall Quarter. The student should never reregister for the course as a means of removing the Incomplete. An Incomplete grade not made up by the end of the next quarter is converted to the grade of 0.0 by the Office of the University Registrar unless the instructor has indicated, when assigning the Incomplete grade, that a grade other than 0.0 should be recorded if the incomplete work is not completed. The original Incomplete grade is not removed from the permanent record.

An instructor may approve an extension of the Incomplete removal deadline by writing to the Graduation and Academic Records Office no later than the last day of the quarter following the quarter in which the Incomplete grade was assigned. Extensions, which may be granted for up to three additional quarters, must be re-

ceived by the Office of the University Registrar before the Incomplete has been converted into a failing grade. In no case can an Incomplete received by an undergraduate be converted to a passing grade after a lapse of one year.

In no case shall an Incomplete on the record at the time a degree is granted be subsequently changed to any other grade.

An Incomplete grade does not count for registered hours nor in computation of grade-point averages.

For DL-suffix courses that do not follow the quarter schedule, an Incomplete shall be given only when the student has done satisfactory work to within two weeks of the maximum term for completion of the course, as specified at the time of registration. In order to obtain credit for the course, a student must convert an Incomplete into a passing grade by the end of the quarter following the one in which the Incomplete was given. All other provisions and deadlines of subsections a. through d. shall also apply.

- **S Satisfactory grade** for courses taken on a satisfactory/not-satisfactory basis — An S grade is automatically converted from a numerical grade of 2.0 or above for undergraduates. The grade S may not be assigned directly by the instructor, but is a grade conversion by the Office of the University Registrar. Courses so graded can only be used as free electives and cannot be used to satisfy a University, college, or department course requirement. S is not computed in GPA calculations.
- **NS Not-satisfactory grade** for courses taken on a satisfactory/not-satisfactory basis — A grade less than 2.0 for undergraduates is converted to NS. NS is not included in GPA calculations. No credit is awarded for courses in which an NS grade is received.
- **CR Credit awarded** in a course offered on a credit/no-credit basis only or in courses numbered 600, 601, 700, 750, and 800 — The minimum performance level required for a CR grade is determined, and the grade is awarded directly, by the instructor. CR is not computed in GPA calculations.
- **NC Credit not awarded** in a course offered on a credit/no-credit basis only or in courses numbered 600, 601, 700, 750, and 800 — The grade is awarded directly by the instructor and is not included in GPA calculations.
- **W Official withdrawal** or drop from a course after the fourteenth calendar day of the quarter through the seventh week — to be followed by a number representing the week in which the course was dropped. An official withdrawal is not computed in GPA calculations. Students who do not officially drop a course(s) will receive a grade of 0.0. For DL-suffix courses that do not follow the quarter schedule, the grade W shall be assigned to any course dropped after the fourteenth calendar day after the start of the course and more than two weeks before the end of the maximum term for completion of the course, as specified at the time of registration. The date of withdrawal shall be noted on the transcript.
- **HW Hardship Withdrawal** — Grade assigned when a student is allowed a hardship withdrawal from a course after the fourteenth calendar day of the quarter. HW grades are not computed in GPA calculations.

Nontraditional Grading Options

Credit/No Credit–Only as a Course Option

With appropriate departmental review and approval, a course may be offered on a credit/no credit-only basis. The standard for granting credit in credit/no credit-only courses under this option is the demonstration of competence in the material of the course to the instructor’s satisfaction.

Satisfactory/Not-Satisfactory Grading Option

You may elect to take certain courses on a satisfactory/not satisfactory (S/NS) basis.

When registering through Personal Services on MyUW, select the Grade Option box to select S/NS grading option. The S/NS grade option can be elected through the day shown on the academic calendar for the current quarter. NO EXCEPTIONS. A \$20 fee is charged beginning the eighth calendar day of the quarter.

As an undergraduate, a course in which an S is earned may not be used to satisfy any department, college, or University requirement, except that the credits may be applied to the minimum of 180 credits required for graduation. Each instructor will report numerical grades to the Registrar, who will convert satisfactory grades (2.0 or greater) to S, and unsatisfactory grades (less than 2.0) to NS for the student’s transcript. No more than 25 S/NS credits may apply toward an undergraduate degree.

If you are a graduate student and earn grades of 2.7 or above, you will receive a grade of S while 2.6 or below are recorded as NS. With the approval of your graduate program adviser or the Supervisory Committee Chairperson, you may elect to take any course for which you are eligible outside of your major academic unit on an S/NS basis.

In cases of withdrawal, the W is recorded. Neither S nor NS is included in the grade-point average.

Grade-Point Average (GPA)

The University’s cumulative GPA is based solely on courses taken in residence at the UW; this includes some, but not all, courses taken through UW Extension. The UW transcript also reflects grades for UW Extension course work that is not residence credit, and the grades for credit by examination. These latter grades do not affect the University cumulative GPA.

Computation of GPA

The GPA for graduation is computed by dividing the total cumulative grade points by the total graded credits attempted for courses taken in residence at the University. Grade points are calculated by multiplying the number of credits by the numeric value of the grade for each course. The sum of the grade points is then divided by the total graded credits attempted. Courses elected on an S/NS basis are counted as follows: Satisfactory grades are printed on the permanent record as an S and do not count in the quarterly or cumulative GPA, but they do count as credits earned toward graduation. Not-satisfactory grades, NS, do not count in the quarterly and cumulative GPA and do not count as credits earned toward graduation.

EXAMPLE 1

Course	Credits	Grade	Grade Points
CLAS 205	3	CR	
OCEAN 101	5	2.7	= 13.5
HIST 111	5	4.0	= 20.0
SCAND 100	2	3.3	= 6.6

Total credits earned toward graduation 15  
Total graded credits attempted 12 40.1  
GPA = 40.1 ÷ 12 = 3.34

The total graded credits attempted, not the credits earned toward graduation, are used in computing the GPA.

EXAMPLE 2

Course	Credits	Grade	Grade Points
ENGL 121	5	2.3	= 11.5
OCEAN 101	5	0.0	= 0.0
SPHSC 100	3	2.7	= 8.1
ART 121	5	I	= 0.0

Total credits earned toward graduation 8  
Total graded credits attempted 13 19.6  
GPA = 19.6 ÷ 13 = 1.51

The student attempted 18 credits, but only 13 are graded, because the Incomplete (I) is not computed in the GPA. The 0.0 for OCEAN 101 is computed in the GPA, but no credit is awarded toward graduation.

If the work in ART 121 is not made up by the end of the next quarter, the I is converted to a numeric grade and the GPA is recomputed.

Repeating Courses

Undergraduates

With the approval of the academic department offering the course, an undergraduate may repeat a course once. Both the original grade and the second grade are computed in the GPA but credit is allowed only once. Veterans receiving benefits must receive approval from the Veterans Center before a course is repeated.

Graduates

Graduate students may repeat any course. Both the original grade and the second grade are computed in the GPA. Subsequent grades will not be included, but will appear on the permanent record. The number of credits earned in the course will apply toward degree requirements only once. Veterans receiving benefits must receive approval from the Veterans Center before a course is repeated.

Grading Procedures

Change of Grade

Except in case of error, no instructor may change a grade that he or she has turned in to the Registrar. Grades cannot be changed after a degree has been granted.

Grade Appeal Procedure

A student who believes he or she has been improperly graded must first discuss the matter with the instructor. If the student is not satisfied with the instructor’s explanation, the student, no later than ten days after his or her discussion with the instructor, may submit a written appeal to the chair of the department, or in a nondepartmental college, to the dean, with a copy of the appeal also sent to the instructor. Within ten calendar days, the chair or dean consults with the instructor to ensure that the evaluation of the student’s performance has not been arbitrary or capricious. Should the chair believe the instructor’s conduct to be arbitrary or capricious and the instructor declines to revise the grade, the chair (or the dean in a nondepartmental school or college), with the approval of the voting members of his or her faculty, shall appoint an appropriate member, or members, of the faculty of that department to evaluate the performance of the student and assign a grade. The dean and Provost should be informed of this action.

Once a student submits a written appeal, this document and all subsequent actions on this appeal are recorded in written form for deposit in a department or college file.

Grade Reports

Grades are not mailed. You may display and print a grade report through MyUW.

PROCEDURES AND FEES

The University and its colleges and schools reserve the right to change the fees, the rules, and the calendar regulating admission and registration; the instruction in and the graduation from the University and its various divisions; and any other regulations affecting the student. The University also reserves the right to withdraw courses and programs at any time.

It is the University's expectation that all students follow University regulations and procedures as they are stated in the General Catalog. Appeals may be filed with the student's dean or with the Vice Provost for Student Life in non-academic matters. Students are expected to observe the standards of conduct contained in the Student Conduct Code (WAC 478-120).

## Registration

[www.washington.edu/students/reg/regelig.html](http://www.washington.edu/students/reg/regelig.html)

Instructions for registration are available on MyUW ([myuw.washington.edu](http://myuw.washington.edu)). Notification is e-mailed to each student quarterly with information about registration for the next quarter.

### Registration Period I

[www.washington.edu/students/reg/addpolicy.html](http://www.washington.edu/students/reg/addpolicy.html)

Designed to accommodate currently registered matriculated students and students eligible to register under the Quarter Off Eligibility Policy, Registration Period I occurs during the latter half of the quarter preceding the quarter for which the student is registering. However, currently enrolled students registering for autumn quarter do so in spring quarter.

### Registration Period II

Registration occurs after Registration Period I closes and is intended primarily to accommodate new and returning students. Continuing students who fail to register during Registration Period I may register during this period. Students who have not completed their initial registration by the end of this period (update and selection of address information, insurance/optional charges, and ASUW membership) are charged a Late Registration Fee.

### Registration Period III

All students may register or make course changes during this period. Dropped courses do not appear on the transcript. Students are charged a Change of Registration service fee for registration changes made after Period III. One fee is charged for all changes occurring during the same day. A tuition forfeiture is charged for total credit reductions after Period III if applicable. See Fee Forfeiture section.

### Late Add Period

All students may register or make registration changes during this period. All added courses require an entry code or faculty number. A Change of Registration service fee is charged.

### Unrestricted Drop Period

[www.washington.edu/students/reg/wdpolicy.html](http://www.washington.edu/students/reg/wdpolicy.html)

Courses dropped during this period will not appear on the transcript. A Change of Registration fee is charged.

### Late Course Drop Period (Annual Drop)

Students may drop one course each academic year (autumn through summer quarters) after the fourteenth calendar day of the quarter through the seventh week of the quarter. A course drop will be recorded on the transcript with a W followed by the number of the week of the drop (W3-W7). A Change of Registration service fee is charged.

### Credits Required for Full- or Half-Time Status Requirements

[www.washington.edu/students/reg/regpol.html](http://www.washington.edu/students/reg/regpol.html)

Some agencies require that a student have full-time status to receive maximum benefits. To be classified as a full-time student by the University, a professional or undergraduate student must register for and complete at least 12 credits per quarter and a graduate student must register for and complete at least 10 credits per quarter. To be classified

as a half-time student by the University, a professional student must register for at least 6 credits per quarter and a graduate student must enroll for at least 5 credits per quarter.

### Restrictions on Attending Classes

[www.washington.edu/students/reg/regpol.html](http://www.washington.edu/students/reg/regpol.html)

No person, other than a faculty member attending informally with the approval of the instructor, may attend a University course in which that person has not been registered.

An instructor may allow a student to attend his or her class only if the student's name is on the official class list from the Office of the Registrar. An unregistered student may attend through the fourteenth calendar day of the quarter if the student is on an official wait list for the course.

### Adding Courses/Permission Guidelines

[www.washington.edu/students/reg/regopt.html](http://www.washington.edu/students/reg/regopt.html)

For reasons of public safety and instructional quality, it is important to limit course enrollment to the approved classroom capacity. The Office of the Registrar monitors course enrollment and accepts student registration in fully enrolled courses according to the following guidelines:

1. Through the second week of the quarter, departments may choose to overload courses up to 115% of the room capacity to offset anticipated student course drops and withdrawals as demonstrated by past registration activity. Students must secure entry codes from instructors or departments to add closed courses. However, if enrollment is at 115% of room capacity, registration requests are denied. Students should be informed when receiving entry codes to overload courses that registration is not guaranteed if enrollment exceeds 115% of room capacity. If centralized room-capacity records do not correctly reflect the actual seating capacity, notification should be made to the Room Assignments/Time Schedule Office in the Office of the Registrar.
2. Students may add courses during the Late Add Period or through the twenty-first calendar day of the quarter. Adds after the seventh calendar day of the quarter require an entry code or faculty number. Departments may also add students to departmental courses during this period through departmental registration screens. To add courses after this period, students must submit a faculty-approved Late Add Petition form to the Registration Office.
3. A course may not be changed to or from an audit registration after the first two weeks of the quarter. See below for transcript entry.

### Dropping a Course

[www.washington.edu/students/reg/wdpolicy.html](http://www.washington.edu/students/reg/wdpolicy.html)

Students dropping a course during the first two weeks of a quarter shall have no entry on their permanent academic transcript. If all courses are dropped, then a complete withdrawal date is recorded on the transcript.

A course drop made during the third through the seventh weeks of the quarter is recorded on a student's transcript with a W grade and a number designating the week of the quarter in which the course drop was transacted. Only one drop after the fourteenth day of a quarter is permitted each academic year (autumn through summer quarter).

A student who does not officially drop a course through the registration system or the offering department is given a grade of 0.0.

Students receiving or applying for financial aid should check with the Office of Student Financial Aid, 105 Schmitz, 206-543-6101, before dropping a class because it may affect their eligibility.

Students receiving veterans' benefits should contact the UW Veterans Center, 520 Schmitz, when dropping courses.

### Complete Withdrawal from the University for a Registered Quarter

[www.washington.edu/students/reg/wdoffleave.html](http://www.washington.edu/students/reg/wdoffleave.html)

Once registered, a student must officially withdraw if he or she later chooses not to attend the University for the registered quarter. Official withdrawal must be made by the fifth day of the quarter for the student to avoid further financial obligation (see Tuition, Fees, and Special Charges for refund information on withdrawals).

1. To withdraw from a quarter, students may complete a Withdrawal form and submit it in person to the Registration Office, 225 Schmitz, or write to the Registration Office, Box 355850, Seattle, WA 98195-5850. Withdrawal forms are available at advising offices and the Registration Office. An official withdrawal is effective the day it is received in the Registration Office, or if submitted by mail, the date of the postmark.
2. Students who drop the last course on their schedules will be considered withdrawn for the quarter. Students who drop courses beginning the eighth calendar day of the quarter are charged a Change of Registration service fee per day for any course drops.
3. Submission of a graduate On-Leave application does not constitute official withdrawal from the University.
4. Refer to the grading section in the Graduate School: Graduate Study section.
5. Students receiving veterans' benefits should immediately notify the Veterans Center of withdrawal.
6. Students with a scholarship or loan awarded through the University should notify Student Fiscal Services.
7. Students who withdraw due to conscription into the armed forces or who are called to active duty military service may be entitled to either a full refund of tuition and fees or academic credit, depending on when in the quarter official withdrawal occurs. Students should contact the Registration Office for complete information.

## ADDITIONAL INFORMATION

### Address Change

[www.washington.edu/students/reg/address.html](http://www.washington.edu/students/reg/address.html)

Students are responsible for notifying the Office of the Registrar when their address changes. Individual addresses may be viewed and updated through MyUW. A confirmation message will be sent to the student's e-mail address. The mailing of notices to the last address on record constitutes official notification.

### Residence Classification Requirements

[www.washington.edu/students/reg/residency.html](http://www.washington.edu/students/reg/residency.html)

Residence classification information is available from the Graduation and Academic Records Office, 264 Schmitz.

### Student Identification Cards

[www.washington.edu/students/reg/id.html](http://www.washington.edu/students/reg/id.html)

All new students should go to the Husky Account and ID Card Center, Ground Floor, Odegaard Library, to be issued a permanent student identification card. Photo identification (such as a driver's license, state ID card, or passport) is required to obtain a student ID card. Returning students who have not retained a previous ID card should obtain a new one. The student ID card is used for a variety of campus services. It is the student's means of identifying his or her status as a student at the University.

Registered students whose ID cards have been lost or stolen can have them replaced at the Student ID Card Center. Students who request such replacement are charged

a nonrefundable fee. Replacement of cards made invalid by changes in a student's name or rendered unusable by normal wear and tear is provided without charge upon return of the original card to the Husky Account and ID Card Center. Two pieces of identification (one with a photo) are required to obtain a replacement card.

Cards that have been tampered with or misused may be confiscated by the University agency or department involved, and the incident may be referred to the Office of the Vice Provost for Student Life for appropriate University action.

## Transcripts

[www.washington.edu/students/reg/transcripts.html](http://www.washington.edu/students/reg/transcripts.html)

Official copies of student academic records at the UW must bear the official seal of the University, the signature of the Registrar, and the date of issue.

### Transcript Fee

A charge of \$9, paid to the Transcript Office in advance, is required for each transcript.

### Transcripts from Other Schools

A transcript covering a student's previous secondary and college education that has been submitted to the University as a requirement for admission becomes part of the official file and is not returned to the student. Any student who desires transcripts of his or her course work undertaken elsewhere must order official transcripts from the institution. The University does not issue or certify copies of transcripts from other institutions.

## Veterans and Children of Totally Disabled Veterans and Personnel in the Armed Forces

Information on educational benefits and tuition reduction programs for veterans and their dependents is available from the Veterans' Center, 520 Schmitz. Veterans and members of the armed forces who apply for admission to the University are subject to the same minimum requirements as regular students and are expected to enroll in accordance with University requirements.

The University's academic programs of study are approved by the Washington State Higher Education Coordinating Board's State Approving Agency (HECB/SAA) for enrollment of persons eligible to receive educational benefits under Title 38 and Title 10 USC.

## TUITION, FEES, AND SPECIAL CHARGES

### Estimated Expenses

The cost of a student's education at the University varies, the amount depending on his or her classification, status as resident or nonresident, and field of study. In computing college costs, a student should consider such additional expenses as insurance coverage, books, and laboratory supplies. Personal expenses (e.g., clothing, laundry, recreation, and transportation), which vary with each individual, as well as between-quarter expenses, should not be overlooked.

### Definitions

- Lives Away from Home** — All single undergraduate students without dependents (spouse or children) who are living away from parents' home; undergraduate married students without children, whose spouses are also students.

- Non-Traditional** — Undergraduates who have children; married students whose spouses are not also enrolled students.
- Tuition and Fees** — Figures presented here are for full-time enrollment, i.e., 10–18 credits per quarter; however, for purposes of financial aid eligibility, full-time is defined as 12 or more credits.

Tuition is due quarterly by Friday of the third week of the quarter. The following figures are prepared and updated each year by the Office of Student Financial Aid and reflect modest, but adequate, probable costs for students attending the University during the nine-month academic year. They should be used only as a guide in determining the year's expenses.

- Room and Board** — The Office of Student Financial Aid uses a figure of \$8,701 in determining students' financial need. This figure includes food, utilities, and housing. It is higher than the figure of \$8,169 charged by Housing & Food Services (for double-room occupancy and preferred dining allowance) because it includes the cost of meals not covered in the campus dining plan.

For students living on campus, room and board is paid quarterly. The first payment, approximately \$2,200, is due on September 1 for autumn quarter, except for financial aid recipients, who pay after aid is dispersed.

### New Undergraduates — New Student Enrollment and Orientation Fee

As a new undergraduate, you must return the Enrollment Confirmation Form and the \$272 nonrefundable New Student Enrollment and Orientation Fee (NSEOF) to confirm your intention to enroll at the University of Washington.

If you have applied for financial aid and you and your family cannot afford the \$272 NSEOF, you may apply for a fee deferral. Write to the Office of Admissions; include your name, student number, phone number, and reason for the deferral. Send your letter, along with the Enrollment Confirmation Form. Any deferral will be conditional on the verification of your financial aid status.

### Returning Undergraduates, Graduates and Professional Students — \$100 Enrollment Confirmation Deposit

Returning undergraduates, new graduate students, and new students in a professional program are required to confirm his or her intention to enroll by paying a nonrefundable \$100 Enrollment Confirmation Deposit (not required of students admitted summer quarter). The \$100 is applied toward tuition and fees assessed for the quarter for which the student is determined to be admissible and subsequently enrolls. A student who pays the fee for a given quarter but does not register in that quarter is not entitled to a refund except by petition in the situation listed below.

- A new or returning matriculated student who is unable to obtain courses required for the completion of the degree or certificate program, or courses which are determined by an appropriate academic adviser to be acceptable alternate courses. A written verification from the appropriate academic adviser must be attached to this petition. Such requests for refund must be submitted by Friday of the second week of the quarter. A new or returning matriculated student who, after meeting with an appropriate academic adviser, determines that the program for which admission was granted differs substantially from what the student was led to expect based upon earlier available information. This petition for refund must be submitted before the student registers for courses and in no case later than the first day of the quarter for which admission has been granted. A written verification from the appropriate academic adviser must be included.
- A new or returning student who applies by the prescribed deadline for financial aid administered by the University's Office of Student Financial Aid, and who cannot be awarded financial aid adequate to his or her needs as determined by that office, and who is therefore unable to attend the University. This petition and a copy of the Notice of Award and Acceptance must be submitted no later than two weeks after receipt of notice of the financial aid award.

ty's Office of Student Financial Aid, and who cannot be awarded financial aid adequate to his or her needs as determined by that office, and who is therefore unable to attend the University. This petition and a copy of the Notice of Award and Acceptance must be submitted no later than two weeks after receipt of notice of the financial aid award.

- A new or returning student who is unable to attend the University because of pregnancy, disability, or death, or because of being called involuntarily into the military service of the United States or into civil duty. Documentation is required.

## Fee Payment

[www.washington.edu/students/sfs/sao/ttnrates.html](http://www.washington.edu/students/sfs/sao/ttnrates.html)

An obligation to pay tuition and fees in U.S. dollars is incurred when a student registers. A fee statement is mailed to the student's address on file with the Office of the Registrar.

Payment of this obligation is due by Friday of the third week of the quarter. Nonpayment of tuition and fees by the due date results in a charge of \$120 for late payment. For balances under \$150, the late fee is \$50. There is no late fee for balances under \$50. One-half of tuition is assessed when registration is canceled for nonpayment of tuition and fees. The Student Guide should be consulted for fees and fee payment schedule applicable to summer quarter only.

When the payment is not in conformance with the tuition and fee billing, specific instructions on how the payment is to be applied must accompany the payment. In the absence of instructions, the University makes a reasoned interpretation of the student's intent and accounts for the funds accordingly. The student number must be specified on all payments.

Fees listed above do not apply to students registered through UW Extension. See the UW Extension Bulletin for their fee structure.

### 2010–2011 Student Budget Nine-Month Living Expenses

Budget Items	Lives with Parents/Relative Undgrad	Traditional Undergrad	Non-Traditional Undergrad
Books	\$1,035	\$1,035	\$1,035
Room/Board	\$3,189	\$9,399	\$13,578
Personal	\$2,265	\$2,265	\$2,265
Transportation	\$642	\$642	\$1,524
Resident Tuition	\$8,701	\$8,701	\$8,701
Resident Total Costs	\$15,832	\$22,042	\$27,103
Non-Resident Tuition	\$25,329	\$25,329	\$25,329
Non-Resident Total Costs	\$32,460	\$38,670	\$43,731

### Special Course and Laboratory Fees

The amounts listed above cover normal University charges for course registration. Some courses, however, have extraordinary expenses associated with them, and in such cases the University may charge additional fees in amounts that approximate the added instructional or laboratory costs.

## Other Fees

- **Auditors:** There is no reduction in fees for auditors.
- **Admission Application Fees:** Graduate, \$45 (online); Medicine, Dentistry, \$35; Law, \$50. Former students returning in the same classification, \$60.
- **On-Leave Registration Fee:** This fee of \$35, charged to graduate students only, provides for a maximum on-leave period of four successive academic quarters or any part thereof and is not refundable.
- **Late Registration/Reregistration Fees:** A late registration service charge of \$25 is assessed when a student registers after the last scheduled day of Period II registration and through the fourteenth day of the quarter. Students registering after the fourteenth day pay a \$75 Late Registration Fee. Waiver or refund of the Late Registration Fee may be petitioned in the Registration Office. Waiver or refund of the \$75 reregistration fee may be petitioned in the Student Fiscal Services Office.
- **Change of Registration Service Fee:** A charge of \$20 is made for any number of add, drop, or change transactions processed during a given day beginning the eighth calendar day of the quarter.
- **Transcript Fees:** A charge of \$9, paid to the Transcript Office in advance, is required for each transcript.
- **Thesis and Dissertation Fees:** Publication binding fee, \$25; dissertation microfilming fee, \$70\*; Microfilming for either the entire dissertation, or the abstract only; \$35 Optional copyright fee (Not available to those microfilming only the abstract.)

\* *Part of the obligation of research is publication. In the case of doctoral research, this means microfilm publication of the dissertation and/or abstract. This is a Graduate School requirement in addition to any previous or planned publication of any or all the dissertation. Microfilming allows worldwide distribution of your work. More information about microfilming is provided in the Step 4 section of the Graduate School manual.*

- **Replacement Fees:** Duplicate diploma, \$20; student identification card, \$10.
- **U-PASS Fee:** A U-PASS validation sticker is mailed quarterly with a student's registration confirmation. The U-PASS is valid on all Metro and Community Transit routes at all times and provides parking privileges to carpoolers, riding privileges to vanpool and Night Ride passengers, and merchant discounts. The quarterly fee of \$99 (subject to change) is included on the tuition bill. Students who do not wish to participate in the U-PASS program must return the validation sticker to the University by the tuition payment deadline. The sticker can be returned by mail in the return envelope provided, mailed with the tuition payment, or returned in person to Student Fiscal Services.

All fees are subject to change without notice.

## Cancellation of Tuition

Registered students must pay full tuition and fees. Tuition may be canceled or reduced if a student makes an official withdrawal or drops a course during the period specified by state statute. Refunds are given when a cancellation or reduction results in an overpayment.

## Continuing Students

1. A student who withdraws on or before the seventh calendar day of the quarter does not pay tuition.
2. A student who withdraws after the seventh calendar day through the thirtieth calendar day of the quarter must pay one-half tuition.
3. A student who withdraws after the thirtieth calendar day must pay full tuition.

## New and Returning Students

1. A student who withdraws on or before the seventh calendar day forfeits the \$272 New Student Enrollment and Orientation fee or the \$100 Enrollment Confirmation Deposit but does not pay the regular tuition.
2. A student who withdraws after the seventh calendar day through the thirtieth calendar day of the quarter must pay one-half tuition. The \$100 Enrollment Confirmation Deposit is applied toward payment of tuition.
3. A student who withdraws after the thirtieth calendar day of the quarter must pay full tuition. The \$100 Enrollment Confirmation Deposit is applied toward payment of tuition.

## Fee Forfeiture

A student who does not completely withdraw but drops one or more courses may be eligible for lower tuition, depending on the total number of credits remaining after the course drop and on the time period when the drop was made. Tuition for students making a course drop on or before the seventh calendar day of the quarter is determined by the total credits remaining. Tuition for students making a course drop after the seventh calendar day through the thirtieth calendar day of the quarter is computed on the total credits remaining plus one-half the difference between the old tuition and the new tuition. There is no cancellation or reduction in tuition for courses dropped after the thirtieth calendar day of the quarter.

## Fee Refund

When a fee payment is made by check, a waiting period is required before a refund can be authorized. An application for refund may be refused, unless it is made during the quarter in which the fees apply. A student who withdraws for disciplinary reasons forfeits all rights to refund or cancellation of any portion of his or her fees.

## Financial Obligations

The Comptroller is authorized to place a hold (administrative) on the records of any student who fails to pay amounts due the University.

Until this hold is cleared, the University (1) does not release the student's record or any information based upon the record, (2) does not prepare transcripts or certified statements, and (3) denies registration.

In cases of serious financial delinquency, the Comptroller, with the consent of the Associate Registrar, may order that a student's registration be canceled and that privileges of attendance be withdrawn.

An administrative hold or cancellation also may occur when a student has not complied with other University rules, procedures, or obligations. The hold may be placed on the student's record by the authorized University office responsible for enforcement of the rule, procedure, or obligation involved. The student is not permitted to register for any subsequent quarter or to obtain a transcript of his or her record or a certified statement except on the written release of the office that placed the hold.

## Tuition Exemptions and Reductions

[www.washington.edu/students/reg/tuition\\_exempt.html](http://www.washington.edu/students/reg/tuition_exempt.html)

### Faculty, Staff, and Washington State Employee Tuition Exemption Programs

Eligible faculty, staff, and state employees admitted to the University may request an exemption for a maximum of 6 credits each quarter under these tuition exemption programs. Applicable tuition will be charged for credits that exceed the 6-credit limit. Because such students are registered on a space-available basis, they must register after other students. The quarterly Time Schedule lists registration dates when students enrolling under these exemption programs may register. Eligibility information may

be obtained from either the Professional & Organizational Development Office, or the Registration Office.

### "Access" Program for Older Adults

[www.washington.edu/students/reg/access.html](http://www.washington.edu/students/reg/access.html)

The UW allows Washington residents who are 60 years of age or older to audit certain courses on a space-available basis. Students who attend the University under the Access Program are limited to two courses per quarter. There is a nominal registration fee. As auditors, students do not receive credit, participate in discussions, complete laboratory work, or take examinations.

## Tuition Reductions

The following categories of students may be eligible for reduced tuition and fees. Students in these categories may contact the offices shown for information or to obtain an application. The reductions are established by legislative mandate and may be revoked by the legislature at any time.

### Tuition Exemptions

families. It is held annually on the Sunday preceding the first day of autumn quarter. The President presides over the ceremony, which features remarks by a distinguished member of the faculty. Neither tickets nor reservations are required for the Convocation. Formal invitations are mailed in mid-August. A no-host brunch, which requires tickets, is held in the Student Union Building (HUB) and precedes the Convocation.

## Student Health Insurance Program

An accident and sickness insurance plan is available to matriculated University students (Seattle campus) and dependents on a voluntary basis. A student may enroll in the plan at the time of registration through the seventh calendar day of each quarter. The appropriate premium is paid by the quarterly tuition due date. Brochures describing the insurance eligibility, coverage, and costs are available at the Office of Business Services and Student Insurance, Hall Health Primary Care Center, and the HUB.

The University also sponsors a field-trip accident insurance plan. Application forms may be requested from the Risk Management Office, 22 Gerberding, Box 351276, (206) 543-3419.

## Insurance for Foreign Students

All students from foreign countries are required to have a health-and- accident insurance policy in force while registered at the University. This may be achieved by purchasing either the student accident and sickness insurance offered through the University or other coverage, proof of which must be furnished to the International Services Office and for which an insurance waiver must be obtained. To avoid cancellation of registration, international students must pay tuition and either pay for the University-sponsored insurance or have a waiver on file by the tuition due date.

## International Services Office

The International Services Office provides assistance to international students, scholars, and faculty in meeting United States Immigration and Naturalization Service regulations dealing with such matters as maintaining lawful status, extensions of stay, transfers of schools/programs, and working authorizations. The office also provides a formal orientation to the campus and community for new international students and visiting faculty; advice and counsel for educational, financial, and personal problems; and dissemination of important and timely information through newsletters and workshops. The office is located in 459 Schmitz, (206) 543-0841.

## UW Veterans' Center

The Veterans' Center, 520 Schmitz, assists students eligible for veterans' educational benefits.

## Office of Student Financial Aid

The Office of Student Financial Aid, 105 Schmitz, administers federal, state, and private financial aid programs designed to help form of grant aid, scholarships, long-term loans that must be repaid after leaving school, and work opportunities. Information describing the different programs, eligibility criteria, and application procedures may be viewed at [www.washington.edu/students/osfa](http://www.washington.edu/students/osfa) or may be obtained by calling (206) 685-9535. To be eligible for financial aid, an individual must be a citizen or permanent resident of the United States and be admitted to the University as a matriculated, degree-seeking student. Priority consideration is given to students who apply before the University's financial aid application deadline of February 28 (e.g., February 28, 2010, for the academic year beginning in September 2010).

The Office of Student Financial Aid also administers a short-term loan program for full-time students who find themselves in temporary financial difficulty. University stu-

dents may take advantage of the short-term loan program without applying for financial aid.

## Student Legal Services

Student Legal Services (SLS) provides legal advice, counseling, negotiating, and court representation in many civil and criminal matters. All currently enrolled undergraduate and graduate students at UW Seattle are eligible for a free initial consultation. If additional services are needed, there is an hourly charge, plus an office supply fee. Students are responsible for court costs, if any. The office is staffed by third-year law students supervised by licensed attorneys.

## Student Publications

The Daily is published Monday-Friday throughout the academic year and is distributed in the mornings on campus without charge. During summer quarter, The Daily is published once a week. Any student with an interest in journalism may serve on The Daily staff.

## Student Union Facilities

The Husky Union Building (Student Union Building) and the South Campus Center are the principal centers of student activities and programs on the campus.

### Husky Union Building

The Husky Union Building (HUB), located in the center of campus, is currently undergoing renovation, to reopen in autumn quarter 2012. Most of the offices that resided in the HUB have relocated to Condon Hall during construction.

### South Campus Center

The South Campus Center, located on the shore of Portage Bay, serves as the central meeting place for students and faculty on the southern end of campus. Facilities and services similar to those in the HUB are available and include meeting and conference rooms, display cases, a hair-styling shop, amusement games, a cash machine, a branch of the University Book Store, a newsstand, and lounges with beautiful views of Portage Bay.

## Student Activities and Organizations

### Student Activities Office

The services provided by the Student Activities Office (SAO) include assisting student organizations in understanding University policies and procedures, providing technical help in the planning and conduct of student events, and furnishing information and assistance in order that they may represent themselves and their interests in an effective manner. Advisers are available to assist students involved in group activities with budget and program planning, advertising, orientation to campus resources, and leadership and organizational skill development. Underlying the SAO service functions is a desire to provide an environment in which students can learn from their experiences in extracurricular activities as a supplement to their classroom experiences. Additional information about the services is available from the Student Activities Office, 410A/412 Condon Hall, (206) 543-2380.

### Student Organizations

Students at the University are encouraged to become active in at least one of the campus's approximately 450 voluntary student organizations, which include honorary, professional, and social organizations; service clubs; activity groups; and religious and fraternal organizations. Voluntary student organizations that register with the University receive various benefits and services to assist their respective activities. Additional information is available from the Student Activities Office, 410A/412 Condon Hall, (206) 543-2380.

## STUDENT LIFE AND STUDENT SERVICES

### Freshman Convocation

Freshman Convocation is an academic ceremony involving the President of the University, other administrators, student leaders, and members of the Board of Regents and the faculty, to welcome and honor new freshmen and their

## **Associated Students of the University of Washington**

The Associated Students of the University of Washington (ASUW) is a voluntary, nonprofit association of students designated by the University Board of Regents to carry out a variety of student activities and to represent student interests. In order to vote in ASUW elections, hold ASUW office, or be employed by the ASUW, a student must be a member of the ASUW. Membership is open to all students by providing an affirmative answer on the University registration form each quarter.

The ASUW's annual budget is supported by the services and activities fee paid as part of tuition and from program revenue. The government of the ASUW is headed by an eleven-member board of directors elected by the student body each year, and one representative from the Graduate and Professional Student Senate. The ASUW maintains agencies and service groups to provide students with a varied program of activities during the school year and nominates students for service on a number of University committees. ASUW services include the Experimental College, a bicycle repair shop, and an ongoing film and entertainment series. Questions regarding the ASUW and its services should be directed to either the ASUW Office, 413/429 Condon Hall, (206) 543-1780, or the Student Activities Office, 410A/412 Condon Hall, (206) 543-2380.

## **Recreational Sports**

The Department of Recreational Sports Programs provides a comprehensive program of more than seventy sports and fitness activities designed to meet the diverse needs and interests of students. To provide this service, the department manages recreation facilities that include the Intramural Activities Building (IMA), Golf Driving Range, Waterfront Activities Center (canoe rentals), outdoor facilities (Denny Field and tennis courts), Hutchinson Hall swimming pool and locker rooms, and the practice Climbing Rock. Programs and facilities are open to students with a valid student identification card (Husky card). For additional information visit the Recreational Sports website at [depts.washington.edu/ima/](http://depts.washington.edu/ima/).

## **Student Rights and Responsibilities**

### **Student Conduct Code**

The University Board of Regents has adopted a Student Conduct Code, which applies to both the academic and nonacademic conduct of students while they are attending the University. The Code specifies standards of conduct, jurisdiction for hearing disciplinary matters, and due-process procedures. Students may obtain copies of the code through either their advisers or the Office of the Vice Provost for Student Life, 101 Gerberding Hall.

### **Computer Use Policy**

All faculty, staff, and students who use any computer at the University are responsible for using computer resources in an ethical and legal manner. For example, it is not appropriate to share computer accounts or use them for commercial purposes, to send unwanted e-mail, or to distribute copyrighted software, music, or images. Those who do not follow the rules could lose their UW computing privileges. For detailed information see [www.washington.edu/itconnect/policy/](http://www.washington.edu/itconnect/policy/).

### **University Policy on Student Education Records**

A copy of the University's policy on a student's right to inspect his or her education records and the University's responsibility to maintain the confidentiality of such records is located at each departmental reference station. The policy is filed under the Washington Administrative Code 478-140-010. Copies of the policy are available at the Registration Office, 225 Schmitz.

## **Sexual Harassment Complaint Procedure**

Students, staff, faculty, and other users of University services who have a concern or complaint regarding sexual harassment may contact either the University Ombudsman, (206) 543-6028, or the University Complaint Investigation and Resolution Office, (206) 616-2028. Personnel in these offices provide assistance in resolving concerns and complaints. Also, University staff may contact their human resources representative about sexual harassment concerns.

## **Office of Minority Affairs and Diversity**

Fostering diversity is the ongoing work of the entire University, but it is a special responsibility of the Office of Minority Affairs and Diversity (OMAD). To this end, OMAD provides a variety of services to undergraduates from underrepresented and economically and educationally disadvantaged backgrounds. These services include a statewide Recruitment and Outreach Office whose staff provides assistance with the admissions and financial aid process in high schools and community colleges throughout Washington state. Through its Counseling Center, OMAD offers academic advising, financial aid advocacy, housing assistance, and other services related to life on campus. OMAD's services are available mainly to students who, following admission, are invited to become members of the Educational Opportunity Program (EOP). Participation in EOP is limited to students who are U.S. citizens or permanent residents, with priority given to Washington state residents. OMAD's other services are open to EOP participants and other students as resources permit.

The Office of the Vice President for Minority Affairs and many of OMAD's services are located on the third floor of Schmitz Hall. For information about OMAD's program locations and services, call (206) 685-0774.

## **Residence Halls**

Students like the convenience of living in the residence halls (being close to classes and having access to a variety of dining options), but that's just the beginning. Those who live on campus are part of a community that offers opportunities for fun, friendships, personal development and academic success.

### **Safety and Security**

The University of Washington is a relatively safe place; however, it can be subject to the same problems as the surrounding urban community. The following information describes programs and policies established to protect your safety and well-being.

#### **Residence Hall Patrol**

Plainclothes University Police patrol the halls each night from 7 p.m. to 5 a.m. Officers are fully commissioned and have the same authority as other law enforcement officers. RDs and RAs are on duty to handle security issues from 5 p.m. to 8 a.m. and RDs are on duty 24 hours a day on weekends and holidays.

#### **Locked Halls**

Residence halls are locked 24 hours a day, except those with food service operations, which remain open from 7 a.m. until 7 p.m. The residence hall desks are staffed from 8 a.m. to 7 p.m. Monday - Friday, 8 a.m. - 5 p.m. on Saturday and 10 a.m. to 5 p.m. on Sunday.

### **Fire Safety**

The fire alarms for all residence halls comply with City of Seattle high-rise fire codes. The systems consist of area-sensitive and building heat and smoke detectors. Each student room contains a smoke/heat detector. Sprinkler systems exist in Terry, Lander, McCarty, McMahon, Haggett and Hansee Halls. Sprinkler systems will be added to Mercer Hall by autumn 2004. All heating and ventilating fans

within a facility are interlocked with the fire alarm system for that facility. The system is hardwired directly into the University Police Department, which notifies the City of Seattle Fire Department if problems arise. The University of Washington's Environmental Health and Safety (EHS) department conducts a comprehensive annual inspection of all physical fire safety attributes. In addition, HFS is subject to random inspection by the City of Seattle Fire Department, and semiannual fire drills are conducted in every hall.

### **Other Safety Measures**

- All residence hall rooms have peepholes.
- Women's restrooms are locked.
- Residence hall keys are high-security keys; duplicate keys can only be made using factory equipment.
- Throughout the year residents receive information about safety issues, and Resident Advisers offer programs on personal safety, property protection, emergency procedures and related topics.

# Undergraduate Study

## Office of Undergraduate Academic Affairs

[www.washington.edu/uaa/](http://www.washington.edu/uaa/)

The University of Washington established the Office of Undergraduate Academic Affairs (UAA) in 1992 (as the Office of Undergraduate Education) in order to make undergraduate education a more visible and central part of the University's work and purpose. UAA offers opportunities and resources for students and their families, faculty members, and academic departments and programs. UAA's unique mission of ensuring excellence in undergraduate teaching and learning is critical to the University's commitment to providing students a rich academic experience.

### Intercollege Programs

The following programs, described in detail in other sections of the catalog, are administered by the Office of Undergraduate Academic Affairs.

## Individualized Studies

[www.washington.edu/students/gencat/academic/individualstudies.html](http://www.washington.edu/students/gencat/academic/individualstudies.html)

Individualized Studies provides students an opportunity to obtain an individually designed interdisciplinary degree through the College of Arts and Sciences. Students may also pursue a major in one of several existing interdisciplinary programs. Requirements for the Bachelor of Arts or Bachelor of Science degree are shown in the Arts and Sciences section of this catalog.

## Program on Africa

[depts.washington.edu/poa/](http://depts.washington.edu/poa/)

The Program on Africa (PoA) develops, co-ordinates, and disseminates information about inter-disciplinary, cross-college, Africa-related courses and activities at the UW. It aims to foster an interest in the African continent and its Diaspora, with the ultimate goal of involving knowledgeable, well-trained, and committed students and graduates in Africa's political, cultural, medical, technological, and economic future. PoA offers undergraduate students a minor in African Studies with courses drawn from disciplines as varied as fisheries, anthropology, social work, history, public health, art, and music.

## Program on the Environment

[depts.washington.edu/poeweb/](http://depts.washington.edu/poeweb/)

The Program on the Environment (PoE) fosters and promotes interdisciplinary environmental education at the UW by linking scholars active in environmental fields from across the University to build a trans-disciplinary network of educators, students, and researchers. PoE offers an undergraduate degree in Environmental Studies, a minor in Environmental Studies, and three graduate certificate programs. The program provides students knowledge in four domains of inquiry: natural sciences; social sciences; law, policy, and management; and ethics, values, and culture. PoE merges these fields through rigorous coursework and hands-on learning to provide a unique opportunity for students and faculty to explore complex environmental issues from multiple perspectives.

## Undergraduate Majors

[www.washington.edu/students/ugrad/advising/majmenu.html](http://www.washington.edu/students/ugrad/advising/majmenu.html)

To graduate from the UW, students must complete one of the majors listed below. In many cases, the student need not make a final choice until the beginning of the junior year, although programs with considerable mathematics

and science (e.g., engineering and premedicine) include lock-step requirements that must be started early on if the student expects to finish in four years.

Students can enter some majors directly (e.g., those in Ocean and Fishery Sciences, most in Forest Resources, and some in Arts and Sciences), but most students start out as premajors. As premajors, they take courses to fulfill general requirements and admission requirements for the major. Many majors require one or two years of pre-admission course work, although a few require more. Admission to many majors is competitive, which means students may not be accepted even if they complete all the prerequisite course work, depending on their grades and other factors.

The General Catalog shows requirements for all majors, but students should see an adviser to ask about changes, course sequences, or new options.

## Satisfactory Progress

[www.washington.edu/students/reg/satprog.html](http://www.washington.edu/students/reg/satprog.html)

Students admitted to the University to pursue baccalaureate degrees are expected to make satisfactory progress toward the attainment of the degree and are expected to enter a major and to graduate after completion of a reasonable number of credits. By the time undergraduate students have completed 105 credits, they must either be accepted in their major or have their premajor status extended temporarily by an adviser. Extensions are normally granted only to students who are in the final phases of completing admission requirements for a major to which they have a reasonable chance of acceptance.

Students who do not either declare a major or have their premajor status extended by the time they have earned 105 credits will have a "hold" placed against registration for the following quarter. Students must normally graduate with their first baccalaureate degree by the time they have completed 30 credits beyond the credits required for the first degree or concurrent degrees. Departmental advisers may grant extensions beyond the 30-credit limit.

Postbaccalaureate students are expected to be either preparing for admission into a degree program, seeking an additional baccalaureate degree. Students admitted as "postbaccalaureate undeclared" must declare a major by the time they have earned 30 credits beyond their last degree, and once a degree objective has been declared, must make progress toward that degree as evidenced by the courses they have completed satisfactorily. Advisers may grant extensions beyond the 30-credit limit.

The Faculty Council on Academic Standards may terminate a student's enrollment if the student demonstrates lack of academic progress as evidenced by excessive course repeats, course drops, or University withdrawals and cancellations. The student may be reinstated with the approval of the student's college and the council. EOP students may be reinstated in consultation with the Office of Minority Affairs and Diversity.

## Undergraduate Minors

Undergraduate students have the option of completing a minor. Minors require the completion of at least 25 credits, 15 of which must be taken in residence at the UW. There are no departmental admission requirements for minors. Students may declare an approved minor when they have earned 90 credits or more. A cumulative GPA of 2.00 is required for courses within the minor. Some departments do not offer minors. Requirements for minors established as of spring 2002 are shown in the academic programs section of this catalog. A list of currently offered minors is available at the Undergraduate Gateway Center, 171 Mary Gates Hall.

## Undergraduate Degrees

The UW grants the following degrees upon satisfactory completion of appropriate programs of study in the departments, schools, and colleges:

• Bachelor of Arts	BA
• Bachelor of Arts in Business Administration	BABA
• Bachelor of Clinical Health Services	BCHS
• Bachelor of Fine Arts	BFA
• Bachelor of Landscape Architecture	BLArch
• Bachelor of Music	BMus
• Bachelor of Science	BS
• Bachelor of Science in Aeronautical and Astronautical Engineering	BSA&A
• Bachelor of Science in Bioengineering	BSBioE
• Bachelor of Science in Chemical Engineering	BSCHE
• Bachelor of Science in Civil Engineering	BSCE
• Bachelor of Science in Computer Engineering	BSCompE
• Bachelor of Science in Construction Management	BSCM
• Bachelor of Science in Electrical Engineering	BSEE
• Bachelor of Science in Engineering	BSE
• Bachelor of Science in Health Information Administration	BSHIA
• Bachelor of Science in Human Centered Design	BSHCDE
• Bachelor of Science in Industrial Engineering	BSIE
• Bachelor of Science in Informatics	BSInfo
• Bachelor of Science in Materials Science and Engineering	BSMSE
• Bachelor of Science in Mechanical Engineering	BSME
• Bachelor of Science in Medical Technology	BSMedTech
• Bachelor of Science in Nursing	BSNurs

## Freshmen Interest Groups

A FIG consists of 20–25 freshmen who have similar academic interests and share the same cluster of three or four courses for their first quarter at the UW. The FIG provides both a social support network and a learning community. More than 100 FIGs are offered in the autumn, spanning a range of topics and interests.

## Freshman Seminars

Taught by faculty members, many nationally and internationally recognized leaders in their fields, these seminars meet once a week, are limited to 15 students, and are graded credit/no credit. Students can establish a rapport with a professor while learning about different fields of study, all in a low-pressure academic setting.

The University Honors Program offers the best of both worlds: the combined riches of a small learning community and the inexhaustible resources of a large research university.

## Phi Eta Sigma

A national freshman honor society with more than 300 chapters and 500,000 lifetime members. The UW chapter focuses on community service, campus service, and membership services.

## University Honors Program

The University Honors Program provides a special learning context for high-achieving students looking for a rigorous and enhanced educational experience.

Most Honors students enter the Full College Honors Program as incoming freshmen. This Honors option is a four-

year track through our program consisting of an Honors Core followed by Departmental Honors and results in a degree earned "With College Honors." The rest of our students participate only in Departmental Honors (which students enter once they enter their department). Completion of Departmental Honors alone results in a degree earned "With Distinction."

The University Honors Program assists and encourages students to find ways to enrich their education and to create an experience that facilitates their long-term goals. Honors seeks to enhance the already rich experience available at the University of Washington by bringing students and the best opportunities of a large research university into close contact.

Honors students benefit from unique opportunities such as:

- Personalized and Comprehensive Honors Advising
- Small, Intensive, Interdisciplinary Honors Classes
- Continuous Contact with Honors Faculty
- Assistance in Finding Appropriate Research and Internship Opportunities
- Bonderman Honors Travel Fellowship
- Mary Gates Research Grants
- Mary Gates Leadership Grants
- Honors Peer Advisers
- Honors Computer Lab

## CLUE

The Center for Learning and Undergraduate Enrichment (CLUE) is a free late-night study center. It is designed to provide supplementary educational opportunities for and enhance the academic achievement of all UW undergraduates. The program places a strong emphasis on creating a rich learning community while supporting freshmen, sophomore, and transfer students who are enrolled in many of the UW's crucial lower-division courses. CLUE services include drop-in help sessions for subjects like chemistry, math, biology, writing, economics, and foreign languages; evening discussion and review sessions with TAs and fellow students; and exam reviews for a variety of courses.

## Computing Resources

UW students have access to computers, e-mail, the Internet (in campus labs or from home), MyUW, and other online resources, training, and Web services for publishing. You don't need to buy your own computer, although it's recommended. Regardless of your major or future career plans, learning how to navigate campus computing resources—and to make the most of them—will be a significant part of your UW education.

## Educational Opportunity Program

EOP provides educational opportunity and creates greater cultural diversity within the University. The program is open to underrepresented minority students from American Indian, Native American, African-American, Hispanic, and Asian/Pacific Islander backgrounds, and to economically disadvantaged students of all ethnicities whose parents do not have 4-year college degrees. EOP services include academic and personal counseling, advocacy and support with financial aid and housing, placement testing, academic tutoring, and special instruction.

## Libraries

The University of Washington Libraries received the 2004 Excellence in Academic Libraries Award, which recognizes the top university research library in the country. UW Libraries rank 12th among North American research libraries. Here are some more numbers: 5.9 million volumes, 6.9 million items in microform, and more than 50,000 periodical titles. Impressive, but what does all of this mean to you?

Simple: the chance to explore to the fullest extent of your interest and imagination. And in the process, you'll be acquiring valuable skills for navigating and analyzing information. There's no more important skill in the 21st century.

## Women's Center

Located in historic Imogen Cunningham Hall, the Women's Center offers classes, workshops, and events. The Re-Entry Program offers free services to women and men who are considering returning to the University after a significant time away or who, for whatever reason, feel they need additional support and advice in making the transition into higher education.

# The Graduate School: Graduate Study

[www.grad.washington.edu](http://www.grad.washington.edu)

## History and Mission

In 1885, the University of Washington awarded its first graduate degree, a Master of Arts in the field of classical languages. In 1914, the University awarded its first Doctor of Philosophy degree, in the field of chemistry. The University has conferred more than forty-five thousand master's degrees and nine thousand doctoral degrees, exclusive of medical, dental, and first legal doctorates.

The Graduate School was created in 1899 and was established permanently in 1910. Its purposes are to exercise leadership for the University of Washington in matters pertaining to graduate education, to facilitate the performance of research by its faculty and students, and to foster the integration of education and research to the benefit of both. Through graduate programs, the University fulfills several functions vital to a healthy society: by fostering research, it advances human knowledge; by educating scholars and teachers, it preserves and transmits our cultural heritage; by training professionals, it makes information and help available to the various sectors of the public; and, by virtue of all of these, it contributes to the resolution of the problems and needs of society.

Graduate study is guided by the Dean of the Graduate School and a Graduate Faculty of over twenty-five hundred members, selected for their scholarly and research qualifications and their concern with graduate education. Approximately eight thousand graduate students are now in residence, working toward master's or doctoral degrees. Programs in the Graduate School leading to master's and doctoral degrees are offered in over one hundred twenty departments or other organizational units of the University. The Graduate School directly sponsors nine interdisciplinary degree programs by organizing Graduate School groups of interested faculty members and assisting them in developing such programs. It also administers a small Special Individual PhD program for approved uniquely interdisciplinary dissertations.

Acting through an elected council that advises the Dean, the Graduate Faculty establishes Graduate School policies. Each degree-offering unit within the University appoints a graduate program coordinator, who serves as an important link between the unit and the Graduate School. Students are advised to seek the help of the graduate program coordinator when questions concerning Graduate School and departmental degree requirements arise.

The Graduate School also has been given a number of responsibilities that relate to its primary ones, such as the administration of the Graduate School Fund and certain fellowship programs, as well as such central facilities as the University of Washington Press, and the Walker-Ames and the Jessie and John Danz distinguished visiting professorships.

The University has obligated itself to promote greater access to advanced study by women and members of ethnic minority groups. Within the Graduate School the Graduate Opportunities & Minority Achievement Program (GO-MAP) actively solicits applications for admission, facilitates their review, and helps with various procedures related to the enrollment of minority graduate students. The division offers financial aid to students who need such help. In addition to a special appropriation of funds by the Washington State Legislature to encourage the recruitment and retention of ethnic minority students in areas of underrepresentation, the division administers several federal and private scholarship programs which provide financial aid and con-

tribute to the overall environment of support for minority graduate students.

The Dean of the Graduate School is also a Vice Provost with responsibilities for strengthening the graduate dimensions of all aspects of the University's mission: —teaching, research, and community service. The Vice Provost's responsibilities are to encourage the graduate initiatives of units and individuals on all three campuses, to advocate the University's graduate mission both internally and externally, to actively work to identify needed programs, to help create these programs, to facilitate cooperative efforts across the University, to urge that graduate activities and programs have a high priority for funding, and to develop and nurture partnerships internally and with other institutions in the region and with foreign universities and alumni organizations.

## Graduate Degree Programs

The Office of Academic Affairs and Planning in the Graduate School contributes to the University's educational and research mission by conducting quality assessment of proposed and continuing education programs at the graduate and undergraduate level as well as research institutes and centers. Through program review, it ensures academic program quality, including all aspects of an academic unit, and promotes communication among academic units throughout the three-campus system. The principle mechanism by which this is achieved is through a process of peer review. Reviews of degree programs are conducted on a ten-year cycle, or at predetermined shorter intervals. For further information, see Graduate School Memorandum No. 7: Periodic Review of Existing Degree Programs at [www.grad.washington.edu](http://www.grad.washington.edu) and the schedule of program reviews at [www.grad.washington.edu/Acad/Academicprograms.htm](http://www.grad.washington.edu/Acad/Academicprograms.htm), or contact the Office of Academic Programs in the Graduate School at 206-685-3519.

Because the following professional doctoral degrees offered by the University are not considered to be graduate degrees, they are not administered through the Graduate

School: Doctor of Medicine (MD), Doctor of Dental Surgery (DDS), Juris Doctor (JD), and Doctor of Pharmacy (PharmD).

**GRADUATE ADMISSIONS**

Additional program information is available on the World Wide Web at [www.grad.washington.edu](http://www.grad.washington.edu).

The University of Washington reaffirms its policy of equal opportunity regardless of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam-era veteran in accordance with University policy and applicable federal and state statutes and regulations.

Application to the UW through the Office of Graduate Admissions is available for three types of students. It is important to understand the distinctions between the categories.

A graduate student is a person working toward a master's or doctoral degree or earning a school administrator's credential. Students must be admitted to this status in order to earn a degree. Information about the Application for Admission to the Graduate School is obtained from the program to which you wish to apply.

A visiting graduate student is a person who plans to transfer a limited number of graduate credits earned at the UW to another institution where he or she is actively pursuing a graduate degree. Admission is based in part on availability of resources. Visiting graduate applicants must have been admitted to another recognized graduate school, be currently pursuing a graduate degree there, and be in good standing. A Certificate of Status signed by the home institution is required. The Application and Certificate are available online at [www.grad.washington.edu/application/](http://www.grad.washington.edu/application/). Individual departments may require additional materials, such as transcripts, GRE/GMAT scores, a statement of purpose, or a list of desired course work.

Some graduate programs have chosen to offer admission to graduate nonmatriculated students. These students are not presently seeking a graduate degree but may apply a maximum of 12 credits earned in this category to degree requirements should they later be accepted into a graduate program. Applicants should meet minimum Graduate School admission requirements but admission as a graduate nonmatriculated student does not imply admission to a graduate degree program. The Application to Graduate Nonmatriculated Status must be obtained from the program to which you wish to apply. Official sealed transcripts from all collegiate institutions previously attended must be sent to the Graduate Nonmatriculated Office, Box 84808, University of Washington, Seattle, WA 98124-6108. (Refer to Graduate School Memorandum No. 37 for further information.)

Admission to the UW is necessarily a selective process. The prospective student must hold a baccalaureate degree from an accredited college or university in this country or an equivalent degree from a foreign institution. The student's record should be a strong one with an average grade of "B" or a 3.00 grade-point, or better. The primary criterion and the priority for admission of new applicants into a graduate program is the applicant's ability, as decided by the appropriate faculty, to complete the graduate program expeditiously with a high level of achievement. One aspect of meeting this criterion is the matching of interests between applicants and faculty. Additional factors may be used in developing a pool of qualified applicants for admission to the Graduate School. Weights given these and other factors vary among graduate degree programs. No factor will confer admission on an academically unqualified applicant. These factors include, but are not limited to, the following:

1. Priority for admission of applicants into a graduate degree program based upon the applicant's apparent ability, as determined by the University, to complete the program with a high level of achievement.

2. No practice may discriminate against an individual because of race, color, creed, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam era veteran.

3. Sustained efforts shall be made to recruit qualified applicants who are members of groups that are underrepresented in certain disciplines.

4. All applicants to a degree-offering unit shall be processed through the same set of procedures to assure that all applicants are evaluated on their individual merits.

5. Tests and criteria for admission should relate to the actual requirements of the graduate program. Reasonable accommodation for testing conditions may be made to compensate for relevant disabilities.

6. Additional factors may be used in developing a pool of qualified applicants for admission to the Graduate School. Weights given these and other factors may vary among graduate degree programs. No factor will confer admission on an academically unqualified applicant. These factors include, but are not limited to, the following:

- a. Grades earned, especially for subjects in or closely related to the field of the applicant's proposed graduate work.
- b. Scores on the Graduate Record Examination (GRE) Verbal, Quantitative, and Analytical Tests, on the GRE Advanced Test, on other tests related to the applicant's field, and on other aptitude tests which may be required.
- c. Personal interviews of the applicant by the department admissions committee.
- d. The career objectives of the applicant and the extent to which the graduate degree program may be expected to prepare the applicant for those objectives.
- e. Written and oral recommendations from persons who are qualified to evaluate the applicant's academic record and promise.
- f. The applicant's degree objective (i.e., master's degree, doctoral degree, or a master's followed by a doctoral degree).
- g. Activities or accomplishments; educational goals; prior employment experience; living experiences, such as growing up in a disadvantaged or unusual environment; special talents.
- h. Academic accomplishments in light of the applicant's life experiences and special circumstances. These experiences and circumstances may include, but are not limited to disabilities, low family income, first generation to attend college, need to work during college, disadvantaged social or educational environment, difficult personal and family situation or circumstances, and refugee status or veteran status.

Importance given to these factors will vary among degree programs.

Most Graduate School admissions are for summer or autumn quarters. Admissions for winter and spring quarters may be severely restricted due to considerations of space.

Each academic program at the UW has a graduate program coordinator who is responsible for providing advice, guidance, and assistance to applicants as well as to students working toward graduate degrees. Prospective graduate students are urged to contact the graduate program coordinator in their program of interest for information about any aspect of graduate study, including research, curriculum, faculty, and financial support in the form of teaching and research assistantships, grants, and scholarships. Information about graduate programs is available at [www.grad.washington.edu](http://www.grad.washington.edu).

## Admission Process

Information about the application process for both graduate and graduate nonmatriculated status must be obtained directly from the department. Visiting graduate applicants should go to [www.grad.washington.edu/application/](http://www.grad.washington.edu/application/) for application information. It is very important to submit all application documents in time to meet departmental deadlines as these will supersede graduate admissions deadlines.

## Registration

After successful applicants have been offered admission, the Registration Office sends a request for a \$100 Enrollment Confirmation Deposit to indicate the intent to register. This nonrefundable deposit will apply toward the first quarter's tuition.

Once admitted, graduate students are expected to maintain registered or on-leave status until the degree is conferred. (See section on Continuous Enrollment.)

## Financial Aid for Graduate Students

Students applying for fellowships, traineeships, and assistantships or associateships must make certain that complete transcripts and other credentials are on file by February 15 (earlier submission of applications and supporting documents is urged by all departments and required by some). Awards and appointments are usually made about April 1. Application forms may be obtained by writing to the graduate program coordinator of the appropriate department.

## Fellowships, Traineeships, and Scholarships

A limited number of fellowships, traineeships, and scholarships is available through individual departments to outstanding students in fields of study leading to advanced degrees. Application forms may be obtained from the graduate program coordinators in the departments.

The Graduate School and the University of Washington Libraries have collaborated to provide the Grants and Funding Information Services (GFIS) for University of Washington graduate students (and faculty) who are seeking any type of general research funding for use at the University of Washington. GFIS promotes awareness of external funding information resources by providing drop-in educational consultations, maintaining a print collection for grant seekers, and offering quarterly seminars highlighting Web-based grant-seeking tools. GFIS works with students and faculty to devise a search strategy, helping to focus efforts and locate available resources. GFIS also will demonstrate searching on several online databases and how to use its print collection of funding resource books so that students can perform future searches based on changing funding needs. GFIS also maintains resources to assist in the proposal-writing process, including grant-writing handbooks and links to online resources.

To set up a consultation, e-mail [gfis@u.washington.edu](mailto:gfis@u.washington.edu), call 206-616-3084, or submit a research profile using GFIS's online form. For funding seminar schedules, check the Web at [www.lib.washington.edu/gfis/events.html](http://www.lib.washington.edu/gfis/events.html).

## Work Study Graduate Assistantships

Graduate students who are eligible for the need-based college work-study program may qualify for work study graduate assistantships in teaching or research. Students must submit financial aid applications to the Office of Student Financial Aid by the February 28 deadline to be considered for these positions. Information is available from the Office of Student Financial Aid.

## Employment Opportunities

The campus offers other job opportunities for graduate students. Students may apply directly to the chair of the department in which they hope to work or to the Student Employment Office. Students seeking part-time employment must be enrolled and on campus before they may obtain jobs.

Advisory positions in University residence halls paying room and board are available for single graduate students, both men and women. Additional information may be obtained from the Director of Residence Halls Programs, 301 Schmitz.

Spouses of students also may apply for regular full- and part-time University employment. These positions cover a wide range of occupations and offer pay comparable to the prevailing salaries in the community. Some carry such fringe benefits as vacations, sick leave, and opportunities to enroll in University courses. Inquiries may be directed to the Staff Employment Office, 1320 Northeast Campus Parkway.

## Loans

Long-term educational loans are available to graduate students through the Federal Perkins Student Loan, the Federal Direct Stafford Loan, and the Federal Direct Unsubsidized Stafford Loan programs. An application form for these programs (the Free Application for Federal Student Aid, or FAFSA) is available in the office of Student Financial Aid, Box 355880, 105 Schmitz Hall, 206-685-9395, or from the U.S. Department of Education website at [www.ed.gov/offices/OPE/express.html](http://www.ed.gov/offices/OPE/express.html). The Office of Student Financial Aid may also be reached by e-mail ([osfa@u.washington.edu](mailto:osfa@u.washington.edu)) or on the Web at [www.washington.edu/students/osfa/](http://www.washington.edu/students/osfa/). The application deadline is February 28 for the following autumn quarter.

Students should meet the application deadline even if they have not yet been admitted to the Graduate School.

The Federal Perkins Student Loan and the subsidized Federal Direct Stafford Loan are awarded to students who demonstrate financial need. Students who do not qualify for need-based assistance may qualify for Federal Direct Unsubsidized Stafford Loans. For more detailed information on these loan programs, visit the Office of Student Financial Aid website at [www.washington.edu/students/osfa/](http://www.washington.edu/students/osfa/).

Short-term emergency loan funds also are available through the Office of Student Financial Aid. Several different types of short-term loans are possible. More information is available from the Office of Student Financial Aid, Short-Term Loans, 172 Schmitz, 206-685-1282. The Graduate School also has a short-term emergency loan available. For more information, call 206-543-5900.

## Graduate Opportunities and Minority Achievement Program

The Graduate Opportunities and Minority Achievement Program (GO-MAP) works to develop and maintain a diverse and welcoming climate from which all students may benefit. As part of its duties GO-MAP assists University of Washington graduate programs in developing and maintaining efforts designed to increase the recruitment, enrollment, and retention of students from groups that have been historically underrepresented in graduate programs.

Recognizing that financial support in the form of scholarships, grants, and fellowships is important in achieving and maintaining diversity, GO-MAP administers a variety of financial-need and merit-based fellowships. Awards are made through the nomination and support of the department in which the student is enrolled. No student applications are required. GO-MAP encourages the nomination of students whose individual experiences and/or academic interests will bring diversity to scholarly perspectives and

endeavors and to the academic community. Need-based awards rely on evaluation of the student's financial need as established by the Free Application for Federal Student Aid (FAFSA) and the Office of Student Financial Aid. Students must be U.S. citizens or permanent residents to be eligible for GO-MAP funding. All awards are contingent upon the student's admission to the UW Graduate School.

## GRADUATE DEGREE POLICIES

Usually focused on a specific field of knowledge, graduate study is conducted through a variety of means, including lectures, seminars, independent advanced study, special reading courses, internships, and participation in research. Graduate programs leading to the Master of Arts, Master of Science, or Doctor of Philosophy degrees emphasize the development of the student's ability for independent scholarly work and the creation of new knowledge through research. Practice-oriented programs, which ordinarily lead to the degree of master or doctor in a particular professional field, emphasize preparation of the student for professional practice at the frontiers of existing knowledge.

Many master's and all doctoral programs culminate in the presentation of a thesis or dissertation conveying the results of the independent study and research carried out by the student. A master's thesis contributes to knowledge, reviews or critiques the state of knowledge in a field, creates a new design or composition, or represents some other appropriate kind of independent contribution. A doctoral dissertation must set forth a significant contribution to knowledge or understanding in the student's field, be presented in scholarly form, and demonstrate that the student is competent to engage independently in the pursuit of solutions to important problems. The student must defend the doctoral dissertation in a Final Examination conducted by a faculty committee and open to all other graduate-faculty members. A member of the graduate faculty from some other discipline participates as an official representative of the Graduate School, including various major evaluations such as the General Examination and Final Examination.

## Graduate Program Coordinator

The graduate student's initial work at the University is guided by the graduate program coordinator in his or her field. The coordinator must be a senior tenured member of the graduate faculty and is the official representative of the academic unit that offers the graduate degree program. The graduate program coordinator maintains familiarity with policies and procedures of the Graduate School and provides overall coordination of graduate activities within the unit.

## Graduate Courses

Graduate courses are intended for, and ordinarily restricted to, either students enrolled in the Graduate School or graduate non-matriculated students, and are given numbers from 500 through 800. Some courses at the 300 and 400 levels are open both to graduates and to upper-division undergraduates. Such courses, when acceptable to the supervisory committee and the Graduate School, may be part of the graduate program. The Graduate School accepts credit in approved 300-level courses for the minor or supporting fields only. Courses at the 300 level are not included in the calculation of grade-point average (GPA) and will not apply toward the minimum Graduate School requirement of 18 graded credits for the master's or doctoral degree. Approved 400-level courses are accepted as part of the major as well as minor or supporting fields. Undergraduate research (499) is not accepted as part of the graduate program. Graduate School Memorandum No. 36 offers additional information on graduate courses. With the exception of summer, students are limited to a maximum of 10 credits per quarter of any combination of courses numbered 600, 700, or 800.

## Repeating Courses

Graduate students may repeat any course. Both the first and second grades will be included in the cumulative GPA. Subsequent grades will not be included, but will appear on the permanent record. The number of credits earned in the course will apply toward degree requirements only once.

## Grading System for Graduate Students

In reporting grades for graduate students, graduate degree-offering units shall use the system described herein. Grades shall be entered as numbers, the possible values being 4.0, 3.9, . . . and decreasing by one-tenth until 1.7 is reached. Grades below 1.7 will be recorded as 0.0 by the Registrar and no credit is earned. A minimum of 2.7 is required in each course that is counted toward a graduate degree. A minimum cumulative grade-point average of 3.0 is required for graduation.

Correspondence between number grades and letter grades is as follows:

Numeric Grade-Point Equivalent	Letter Grade
4.0	A
3.9	
3.8	A-
3.7	
3.6	
3.5	
3.4	B+
3.3	
3.2	
3.1	
3.0	B
2.9	
2.8	B-
2.7	
2.6	
2.5	
2.4	C+
2.3	
2.2	
2.1	
2.0	C
1.9	
1.8	
1.7	
1.6–0.0	E

The following letter grades also may be used:

- **I Incomplete.** An Incomplete may be given only when the student has been in attendance and has done satisfactory work to within two weeks of the end of the quarter and has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other circumstances beyond the student's control. To obtain credit for the course, a student must successfully complete the work and the instructor must submit a grade. In no case may an Incomplete be converted into a passing grade after a lapse of two years or more. An incomplete received by the graduate student does not automatically convert to a grade of 0.0 but the "I" will remain as a permanent part of the student's record.
- **N No grade.** Used only for hyphenated courses and courses numbered 600 (Independent Study and Research), 601 (Internship), 700 (Thesis), 750 (Internship),

and 800 (Dissertation). An N grade indicates that satisfactory progress is being made, but evaluation depends on completion of the research, thesis, internship, or dissertation, at which time the instructor or Supervisory Committee Chairperson should change the N grade(s) to one reflecting the final evaluation.

- **S/NS Satisfactory/Not-Satisfactory.** A graduate student, with the approval of the Graduate Program Coordinator or Supervisory Committee Chairperson, may elect to be graded S/NS in any numerically-graded course for which he or she is eligible. If a student does not so elect, then he/she will be graded on a numerical basis. If approval is granted the student must elect the S/NS option either when registering or no later than the end of the seventh week of the quarter. The instructor shall submit a numeric grade to the Registrar, who shall convert grades of 2.7 and above to S and grades lower than 2.7 to NS.
- **CR/NC Credit/No Credit.** With the approval of the faculty in the academic unit, any course may be designated for grading on the CR/NC basis by notice in the appropriate Time Schedule. For such courses, the instructor will submit a grade of CR or NC to be recorded by the Registrar's Office for each student in the course at the end of the quarter. All courses numbered 600, 601, 700, 750 and 800 may be graded with a decimal grade, a CR/NC or N at the instructors' option.
- **W Withdrawal.** Refer to the University of Washington timeschedule or homepage at [www.washington.edu/students/reg/wdoffleave.html](http://www.washington.edu/students/reg/wdoffleave.html).
- **HW Hardship withdrawal.** Grade assigned when a graduate student is allowed a hardship withdrawal from a course after the seventh week of the quarter. Unofficial withdrawal from a course shall result in a grade of 0.0.

The grade W and HW count neither as completed credits nor in computation of grade-point average.

Graduate students who withdraw from the University (dropping all courses for the quarter) during the first week of two consecutive quarters (Summer Quarter excepted) will not be eligible to register as a continuing graduate student for the third quarter. Such graduate students must reapply as former graduate students returning to the University. For example, if a graduate student withdraws during the first week of Spring Quarter and Autumn Quarter, he or she must reapply as a returning former graduate student for Winter Quarter.

Of the minimum credits required for a graduate degree, a graduate student must show numerical grades in at least 18 quarter credits of course work taken at the University of Washington. These numerical grades may be earned in approved 400-level courses and 500-level courses.

A graduate student's grade-point average will be calculated entirely on the basis of number grades in 400- and 500-level courses. The grades of S, NS, CR, NC, and N will be excluded, as will all grades in courses numbered 600, 601, 700, 750, and 800, and in 100- and 200-level courses.

The graduate student may petition the Dean of the Graduate School to modify the procedures described above. The petition should be accompanied by comments and recommendations from the Graduate Program Coordinator or Supervisory Committee Chairperson.

## Scholarship

A cumulative GPA of 3.00 or above is required to receive a degree from the Graduate School. A graduate student's GPA is calculated entirely on the basis of numeric grades in 400- and 500-level courses. The grades of S, NS, CR, NC, and N are excluded, as are all grades in courses numbered 600, 601, 700, 750, and 800, and in courses at the 100, 200, and 300 levels.

Failure to maintain a 3.00 GPA, either cumulative or for a given quarter, constitutes low scholarship and may lead to a change-in-status action by the Graduate School. Failure to maintain satisfactory performance and progress toward a degree may also result in a change-in-status action by the Graduate School.

For more information, see Graduate School Memorandum 16: [grad.washington.edu/policies/memoranda/memo16.shtml](http://grad.washington.edu/policies/memoranda/memo16.shtml)

## Withdrawal Policy

Refer to the University of Washington Time Schedule for procedures and dates, or look on the Web at [www.washington.edu/students/reg/wdoffleave.html](http://www.washington.edu/students/reg/wdoffleave.html)

## Language Competency Requirements and Examinations

Competence in one or more languages in addition to English is desirable for all fields of advanced study and is often required, especially in the scholarly and research-oriented programs leading to the degrees of Master of Arts, Master of Science, and Doctor of Philosophy.

Requirements for foreign-language competence are established by the graduate faculty in the unit offering the graduate program. Language competence in certain languages other than English (i.e., languages that may have special significance to the field) may be specified as helpful or desirable or may be required. Students should consult the graduate program coordinator for information and advice about desirable or required competence in foreign languages.

When appropriate, students are urged to establish foreign language competence as undergraduates before entering the Graduate School or as early as possible in their graduate careers. The University's language-competence requirements in French, German, and Spanish may be satisfied by successful completion of the standardized examinations given by the Educational Assessment Office. Other foreign language examinations are also given at the UW.

It is assumed that citizens of certain English-speaking countries who are admitted to the Graduate School are competent in the English language; citizens of non-English-speaking countries must demonstrate a satisfactory command of English, both for admission and for appointment as teaching assistants.

Refer to Graduate School Memorandum No. 8, English Language Competence for Admission to the Graduate School ([www.grad.washington.edu/Acad/gsmemos/gsmemo08.htm](http://www.grad.washington.edu/Acad/gsmemos/gsmemo08.htm)) for more information.

## Enrollment Requirement

The enrollment requirement for the master's degree is 36 credits, 30 of which must be taken at the University of Washington.

For the doctoral degree, the enrollment requirement is 90 credits, 60 of which must be taken at the University of Washington. With the approval of the degree-granting unit, an appropriate master's degree from a regionally accredited institution may substitute for (30 credits) of enrollment. Doctoral Study requires an immersion in an academic field and its intellectual community. Degree-granting units may require a period of full-time and/or on-site study.

Only courses numbered 400, 500, 600, 700, and 800 can be applied to enrollment or course credit in the major field for advanced degrees (please see the Graduate Courses policy regarding courses numbered 499). Courses numbered 300 are not applicable to enrollment or course credit toward advanced degrees except when applied by permission of the graduate program coordinator or supervisory committee toward the graduate minor or supporting courses. Courses numbered below 300 are not applicable to enrollment or course credit for advanced degrees.

## Full-Time Enrollment

Full-time quarterly enrollment for graduate students is 10 credits.

## Final Quarter Registration

A student must maintain registration as a full- or part-time graduate student at the University for the quarter the master's degree, the candidate certificate, or doctoral degree is conferred. A student who does not complete all degree requirements by the last day of the quarter must be registered for the following quarter.

## Continuous Enrollment and Official On-Leave Requirement

### Policy

To maintain graduate status, a student must be enrolled on a full-time, part-time, or official On-Leave basis from the time of first enrollment in the Graduate School until completion of all requirements for the graduate degree. (Summer quarter On-Leave enrollment is automatic for all graduate students who were either registered or officially On-Leave during the prior Spring Quarter.) Any student who fails to register for classes or On-Leave status after being admitted to the UW will need to reapply to the Graduate School if he/she wishes to be considered for readmission by his/her program. Failure to maintain either continuous enrollment or On-Leave status constitutes evidence that the student has resigned from the Graduate School.

Registration is required to take the master's final examination or doctoral general or final examinations. Students may either be registered or eligible to use the Graduate Registration Waiver Fee for filing the Request for Master's Degree, submitting a thesis or dissertation, and receiving the degree.

To be eligible for On-Leave status, the student must have registered for, and completed at least one quarter as a graduate student at the University of Washington immediately prior to going on-leave; international students must complete three consecutive quarters (see International Graduate Students section below).

Any student who has registered for a quarter may NOT submit a Petition for On-Leave Status form directly to the Registration Office for that quarter unless he/she officially withdraws from all courses before the first day of the quarter. Students who have been registered for even one day of a quarter are deemed to have status for the quarter and will be eligible to register for classes or apply for On-Leave for the following quarter (Spring enables registration for Summer or Autumn); the student's e-mail account will be active for the quarter, but library privileges will not be maintained once courses are dropped.

The procedure for going on leave is online at [www.grad.washington.edu/policies/memoranda/memo09.shtml](http://www.grad.washington.edu/policies/memoranda/memo09.shtml).

If a student who is in On-Leave status registers in any other status, i.e., Matriculated, Non-matriculated, Graduate Non-matriculated, it will terminate their official On-Leave status for that quarter, even if they subsequently drop those courses.

### Readmission

A student previously registered in the Graduate School who has failed to maintain graduate student status but wishes later to resume studies must file a new on-line application for admission to the Graduate School by the regularly published closing dates. If the student is readmitted by the department, registration will occur during the usual registration period. If the student has attended any other institution during the period when not registered at the University of Washington, official transcripts must be submitted. An application for readmission carries no preference and is treated in the same manner as an application for

initial admission, including the required payment of the application fee.

The Graduate School normally allows six years to complete requirements for a master's degree and ten years for a doctoral degree. Periods spent On-Leave or out of status are included.

## Concurrent Degree Programs

Concurrent programs are defined as a pair of programs that may be pursued at the UW by a post baccalaureate student resulting in completion of the requirements for either two graduate degrees or a graduate and a professional degree. Rather than sequentially completing first one degree and then the other, the student's time and the University's resources may be conserved by arrangements that permit the student to proceed in a coordinated way toward completion of the degree programs. Graduate School policy allows for both formal and informal concurrent degree programs, as described below.

### Formal Concurrent Degree Programs

Graduate School policy defines a formal concurrent degree program as a curriculum established by two participating academic units resulting in completion of two graduate degrees or a graduate and a professional degree. These specific programs must be formally approved by the Graduate School, and students in formal concurrent degree programs are designated by unique program codes.

The two types of formal concurrent degree programs are as follows:

#### 1. Graduate/Professional Degrees

Examples of formal graduate/professional concurrent degrees:

- School of Dentistry: DDS/Master's or Doctoral degree
- School of Law: JD/Master's or Doctoral degree
- School of Medicine: M.D./Master's or Doctoral degree
- School of Pharmacy: PharmD/Master's or Doctoral degree

The Graduate Program Coordinators are the primary representatives of the professional schools and the graduate-degree

Requirements for the master's degree are those which are in effect at the time the degree is awarded. All program and Graduate School minimum requirements must be met by appropriate graduate courses. It is the responsibility of the student to submit a written list of courses which apply toward the graduate degree at the time the student applies for the master's degree. This list must be approved by both programs.

Requirements for the doctoral degree are those which are in effect at the time the degree is awarded with the understanding that only approved graduate courses will be applicable.

#### 2. Graduate/Graduate degrees

Examples of formal graduate/graduate concurrent programs:

- Master of Health Administration/Master of Business Administration
- International Studies/Epidemiology
- Master of Arts in International Studies/Master of Public Health

To earn two master's degrees in a formal concurrent degree program, a student must complete the equivalent of two Graduate School minimum degree requirements of 36 credits each for a minimum total of 72 credits. If one or both of the participating programs require more than the minimum of 36 credits, those additional credits may be "shared" and applied to both degrees. Further, a maximum of 12 credits from one master's program, earned beyond the 36 credit minimum, may be applied in the second mas-

ter's program towards the Graduate School minimum of 36 credits required. In this case, the minimum number of additional credits for the second degree, with the 12 approved credits, is 24. In all cases the total minimum required credits remains 72. For formal concurrent degree programs, both programs must approve the shared credits counting toward both degrees. A formal concurrent degree program may allow a shared thesis as described within the formal concurrent degree proposal. The proposing programs should follow the best practices guidelines developed by the Graduate School Council (Concurrent Degrees Shared Thesis Best Practices) and articulate these in the proposal sent to the Graduate School.

For formal PhD/Master's concurrent programs, up to 12 credits earned toward a PhD degree may be counted toward a Master's degree in another program with the approval of both degree offering units.

It is the responsibility of the student to submit a written list of courses which apply toward each respective degree at the time he or she files an application for the Master's degree or schedules the general examination. This list must be approved by both programs.

### Informal Concurrent Degree Programs

Students may pursue two degrees from different departments simultaneously in an informal concurrent degree program. These programs have not been approved as formal concurrent programs and do not have unique program codes, but students have flexibility to 'share' coursework, given the approval of both programs.

Current graduate students wishing to pursue an informal concurrent degree program must go to [www.grad.washington.edu/applForAdmiss/](http://www.grad.washington.edu/applForAdmiss/) and submit an application and fee for the second program.

Graduate School Memorandum No. 35: Concurrent Degree Programs contains additional information and is available online at [grad.washington.edu/policies/memoranda/memo35.shtml](http://grad.washington.edu/policies/memoranda/memo35.shtml).

## Master's Degree

### Summary of Requirements

- A student must satisfy the requirements for the degree that are in force at the time the degree is to be awarded
- At least 36 credits must be completed
- All courses numbered 400-799 that are numerically graded 2.7 and above, or have a grade of Satisfactory or Credit ('S' or 'CR') count toward the 36 credit total. 499 courses are not counted in the 36 credit total.
- Courses graded less than 2.7 do not count towards the 36 credit total.
- At least 18 credits must be in courses numbered 500 and above.
- 18 credits must be numerically graded in department approved 400-level courses accepted as part of the major and in 500-level courses. This excludes 499 and transfer credits.
- No more than 6 graduate level quarter credits can be transferred from other academic institutions to count toward the 36 credit total.
- No more than 12 UW Graduate Non-matriculated credits can be applied to the 36 credit total.
- No more than 12 credits derived from any combination of UW Graduate Non-matriculated credits and transfer credits can be applied to the 36 credit total.
- If a student repeats a non-repeatable class, only one set of credits counts toward the 36 credit total.
- A minimum cumulative GPA (grade point average) of 3.00 is required for a graduate degree at the University
- The Master's Degree Request must be filed

- If the Master's Degree Request is filed during weeks ten and eleven it is not accepted. The system is closed.
- In summer quarter, the Master's Degree Request is filed in weeks eight and nine is not accepted. The system is closed.
- Must complete all degree requirements within six years
- The timeframe/clock begins on the first day of the quarter that the Graduate Student uses a course to satisfy degree requirements when he/she is coded as either a Graduate Non-Matriculated student (Department Code with class 6) or as a Graduate Student (Department code with class 8) in the department to which he/she is admitted.
- UW Graduate Non-matriculated credits used towards the 36 course credit total are counted in the six years.
- Quarters spent On-Leave and out of status are counted in the six years.
- Must maintain registration through the end of the quarter in which the degree is conferred or, if eligible, pay the Graduate Registration Waiver Fee within 14 days following the last day of the quarter in which all degree requirements were met.
- Thesis track students are required to take a minimum of 9 thesis credits in their 36 credit total.
- Thesis Track students are required to submit two copies of an acceptably formatted thesis to the Graduate School by 5 pm on the last day of the quarter.

## Second Master's Degree Requirement

A second master's degree may be earned at the UW by completing an additional separate set of requirements. Please refer to Concurrent Degree Programs earlier in this section and to Graduate School Memorandum No. 35 ([grad.washington.edu/policies/memoranda/memo35.shtml](http://grad.washington.edu/policies/memoranda/memo35.shtml)) for more specific information.

## Transfer Credit

A student working toward the master's degree may petition the Dean of the Graduate School for permission to transfer to the University of Washington the equivalent of a maximum of 6 quarter credits of graduate level course work taken at another recognized academic institution. These credits may not have been used to satisfy requirements for another degree. The petition must include a recommendation from the graduate program coordinator and an official transcript indicating completion of the course work. Transfer credits are not entered on the UW transcript.

University of Washington students who are within 6 credits of completing their undergraduate degree and who have met the requirements for admission to the Graduate School may register the quarter immediately preceding admission to Graduate School for up to 6 credits in 500-level courses in addition to the last 6 credits they require of undergraduate work. The graduate program which has admitted the student must approve registration for the courses. The student, after admission to the Graduate School, must file a petition with the Dean of the Graduate School to transfer the 6 credits. The student must also provide a letter or e-mail from the office of Graduations and Academic Records stating that these credits have not been applied toward the undergraduate degree.

Approved transfer credits are applied toward total credit count only for the master's degree. (Transfer credits are not applicable toward a doctoral degree.) The 18 quarter credits of numerically graded course work, and 18 quarter credits of 500-level-and-above course work may not be reduced by transfer credit.

Credit taken as an undergraduate non-matriculated student or post-baccalaureate student at the University of Washington may not be transferred into a graduate program. Credit by either independent study through corre-

spondence or advanced credit examinations is not transferable.

## Thesis Program

The master's thesis should be evidence of the graduate student's ability to carry out independent investigation and to present the results in clear and systematic form. Two copies of the thesis must be submitted to the Graduate School by the end of the quarter in which degree requirements are completed or by the deadline specified in the Graduate Registration Waiver Fee. The faculty in the graduate program may require that the student present an additional copy for its own use. The Graduate School publishes online Format Guidelines for Theses and Dissertations ([grad.washington.edu/students/thesis-dissertation/format-guidelines/index.shtml](http://grad.washington.edu/students/thesis-dissertation/format-guidelines/index.shtml)). These guidelines should be read thoroughly before the student begins writing the thesis. The thesis must meet all format requirements before being accepted by the Graduate School. A thesis adviser is available in the Graduate School for consultation during the thesis preparation process.

A \$25 binding fee is payable at 129 Schmitz before the thesis is submitted to the Graduate School.

## Non-thesis Programs

The faculty in some graduate programs have arranged programs of study for the master's degree that do not require the preparation of a thesis. These non-thesis programs normally include a more comprehensive plan of course work for more extensive examinations than are required in thesis programs, or they may include some approved research activity in lieu of a thesis.

## Final Examination for Master's Degree

As soon as is appropriate, the faculty in the student's graduate program appoints a supervisory committee, consisting of two to four members. The Chair and at least one-half of the total membership must be members of the graduate faculty. (see Graduate School Memorandum 13: [grad.washington.edu/policies/memoranda/memo13.shtml](http://grad.washington.edu/policies/memoranda/memo13.shtml)). The committee Chairperson arranges the time and place of the final examination, the results of which must be reported to the Graduate School by the last day of the quarter (last day of finals week) in which degree requirements are met. The examination may be oral or written, and all members of the supervisory committee must certify its results. If the examination is not satisfactory, the committee may recommend to the Dean of the Graduate School that the student be allowed to take another examination after a period of further study. A student must be registered the quarter in which any required exam or presentation occurs.

## Application for Master's Degree

Students apply for the master's degree on the Web at [www.grad.washington.edu/student/mastapp.aspx](http://www.grad.washington.edu/student/mastapp.aspx). The online application period commences on the first day of each quarter and closes on Sunday (midnight Pacific Time) of the 9th week of the quarter (8th week during summer quarter). If degree requirements are not met in the requested quarter, students must complete another degree request for the quarter in which they expect to complete requirements. Students will receive an e-mail confirming receipt of their Master's Degree Request. The filing of the application is the responsibility solely of the student. When the application is received, the student's record is reviewed in the Graduate School. All requirements for the degree must be met by the end of the current quarter if the application is to be approved. Registration must be maintained for the entire quarter in which application for the degree is made. If a student should withdraw during the quarter, the application becomes void and a new one must be submitted at the appropriate time.

## Master of Arts for Teachers

Master's degree programs for experienced teachers, which focus upon the fields of knowledge normally taught in the common school and the community college, have been established at the University. These programs provide alternatives to the research-oriented Master of Arts and Master of Science degree programs, which emphasize particular fields of knowledge. Programs leading to the MAT degree are offered in Biology Teaching and English.

## Doctoral Degree

The doctoral degree is by nature and tradition the highest certificate of membership in the academic community. As such, it is meant to indicate the presence of superior qualities of mind and intellectual interests and of high attainments in a chosen field. It is not conferred merely as a certificate to a prescribed course of study and research, no matter how long or how faithfully pursued. All requirements and regulations leading to the doctoral degree are devices whereby the student may demonstrate present capacities and future promise for scholarly work.

## Summary of Requirements

- In order to qualify for the doctoral degree, it is the responsibility of the student to meet the following Graduate School minimum requirements:
- Completion of a program of study and research as planned by the graduate program coordinator in the student's major department or college and the Supervisory Committee. At least 18 credits of course work at the 500 level and above must be completed prior to scheduling the General Examination.
- Presentation of 90 credits, 60 of which must be taken at the University of Washington. With the approval of the degree-granting unit, an appropriate master's degree from an accredited institution may substitute for 30 credits of enrollment.
- Numerical grades must be received in at least 18 quarter credits of course work taken at the UW prior to scheduling the General Examination. The Graduate School accepts numerical grades in approved 400-level courses accepted as part of the major, and in all 500-level courses. A minimum cumulative GPA of 3.00 is required for a graduate degree at the University.
- Creditable passage of the General Examination. Registration as a graduate student is required the quarter the exam is taken and candidacy is conferred.
- Preparation of and acceptance by the Dean of the Graduate School of a dissertation that is a significant contribution to knowledge and clearly indicates training in research. Credit for the dissertation ordinarily should be at least one-third of the total credit. The Candidate must register for a minimum of 27 credits of dissertation over a period of at least three quarters. At least one quarter must come after the student passes the General Examination. With the exception of summer quarter, students are limited to a maximum of 10 credits per quarter of dissertation (800).
- Creditable passage of a Final Examination, which is usually devoted to the defense of the dissertation and the field with which it is concerned. The General and Final Examinations cannot be scheduled during the same quarter. Registration as a graduate student is required the quarter the exam is taken and the degree is conferred.
- Completion of all work for the doctoral degree within ten years. This includes quarters spent On-Leave or out of status as well as applicable work from the master's degree from the UW or a master's degree from another institution, if applied toward one year of resident study.
- Registration maintained as a full- or part-time graduate student at the University for the quarter in which the de-

gree is conferred (see detailed information under Final Quarter Registration).

- A student must satisfy the requirements that are in force at the time the degree is to be awarded.

## Appointment of Doctoral Supervisory Committee

A supervisory committee is appointed by the Dean of the Graduate School to guide and assist a graduate student working toward a doctoral degree and is expected to evaluate a student's performance throughout a program. A supervisory committee should be appointed no later than four months prior to a General Examination. Appointment of a supervisory committee indicates that the Graduate Faculty in a student's field finds a student's background and achievement a sufficient basis for admission into a program of doctoral study and research. "Preliminary" examinations, if required, should be completed prior to a request for appointment of a supervisory committee. If "preliminary" examinations are not an academic unit's requirement, it is appropriate to request appointment of a supervisory committee during a student's first year of study (see Graduate School Memorandum 13, Supervisory Committees for Graduate Students: [grad.washington.edu/policies/memoranda/memo13.shtml](http://grad.washington.edu/policies/memoranda/memo13.shtml)).

## Admission to Candidacy for Doctoral Degree

A General Examination may be scheduled if: (a) the student has completed 60 credits (some of these credits may be taken the same quarter of the exam); (b) all required program examinations that do not need Graduate School approval have been completed and; (c) all members of the supervisory committee agree that the student's background of study and preparation is sufficient and have approved the student to schedule a General Examination. At least four members of a supervisory committee (including the Chair, Graduate School Representative, and one additional Graduate Faculty member) must be present at the examination.

If the General Examination is satisfactory, the supervisory committee members who participate at the examination sign the warrant and return it to the student's graduate program by the last day of the quarter (last day of finals week). If an examination is unsatisfactory, a supervisory committee may recommend that the Dean of the Graduate School permit up to a maximum of two additional reexaminations after a period of additional study. Any members of a supervisory committee who do not agree with the majority opinion are encouraged to submit a minority report to the Dean of the Graduate School.

Registration as a graduate student is required the quarter that a General Examination is taken. When the Graduate School approves candidacy, a student is identified and designated as a candidate for the appropriate doctoral degree and is awarded a candidate certificate. After achieving candidate status, a student ordinarily devotes his or her time primarily to the completion of research, writing of the dissertation, and preparation for the Final Examination.

A candidate certificate and the doctoral degree may not be awarded the same quarter.

## Candidate's Certificate

A candidate certificate gives formal recognition to a successful completion of a very significant step towards a doctoral degree. Students who have passed a General Examination and have completed all requirements for a doctoral degree, except a Final Examination and Graduate School acceptance of a dissertation, are awarded a candidate certificate. Candidacy is conferred on the last day of a quarter and certificates are issued by the Graduation and Academic Records office approximately 4 months after this date.

## Dissertation and Final Examination

A candidate must present a dissertation demonstrating original and independent investigation and achievement. A dissertation should reflect not only a mastery of research techniques, but also ability to select an important problem for investigation, and to deal with it competently.

Normally, a dissertation is written in the English language. However, if there are circumstances that warrant a dissertation be written in a foreign language, approval must be received from the Dean of the Graduate School via petition.

The Graduate School publishes online Format Guidelines for Theses and Dissertations ([grad.washington.edu/students/thesis-dissertation/format-guidelines/index.shtml](http://grad.washington.edu/students/thesis-dissertation/format-guidelines/index.shtml)) and it is recommended that students read and familiarize themselves with the requirements before they begin to write a dissertation. A dissertation must meet these format requirements before being accepted by the Graduate School. Thesis/dissertation advisers are available in the Graduate School regarding specific questions not covered in the guidelines.

A Final Examination may be scheduled if: (a) a student passed a General Examination in a previous quarter; (b) a reading committee is officially established with the Graduate School; (c) the reading committee has read an entire draft of the dissertation and; (d) the entire supervisory committee has agreed that the student is prepared and has approved the student to schedule a Final Examination. At least four members of a supervisory committee (including the Chair, Graduate School Representative, and one additional Graduate Faculty member) must be present at the examination.

If the Final Examination is satisfactory, the supervisory committee members who participate at the examination sign the warrant and return it to the student's graduate program by the last day of the quarter (last day of finals week). Any members of a supervisory committee who participate at an examination but do not agree with the majority opinion are encouraged to submit a minority report to the Dean of the Graduate School. If an examination is unsatisfactory, a supervisory committee may recommend that the Dean of the Graduate School permit a second examination after a period of additional study.

After the Final Examination, the candidate has 60 days in which to submit a dissertation to the Graduate School. Registration as a graduate student is required the quarter that a Final Examination is taken AND the quarter the dissertation is submitted. If the 60 day time period expires, another Final Examination may be required. The degree is conferred the quarter in which the student's dissertation is accepted by the Graduate School.

## Publication of Doctoral Dissertations

Part of the obligation of research is publication of the results and, in the case of doctoral research, this means microfilm publication of the dissertation. This is a Graduate School requirement, in addition to any previous or planned publication of any or all of a dissertation, and provides worldwide distribution of the work. A candidate signs a publication agreement when a dissertation is presented to the Graduate School. Publication in microfilm does not preclude other forms of publication.

The following required fees for microfilming a dissertation are paid at the Cashier's Office, 129 Schmitz Hall. An itemized tuition statement indicating payment of the fees must be presented to the Graduate School when submitting the final documents. All fees are subject to change without notice.

- Microfilm an entire dissertation, \$70; AND Binding fee, \$25
- Total Mandatory Fees - \$95
- Optional copyright fee, an additional \$65 (available only when an entire dissertation is microfilmed)

## Individual PhD Program

The Graduate School maintains the Individual PhD (IPhD) Program for exceptionally able students whose objectives for study are of an interdisciplinary nature that cannot be met within one of the University units authorized to grant the PhD degree. The program is intended for dissertation topics that require supervision from two or more of the disciplines in which the University offers the PhD degree. It is not intended as a mechanism for offering the PhD degree within units that do not have their own authorized PhD programs.

A graduate student may apply to the IPhD Program when he or she has completed the master's degree, or has been admitted to the Graduate School and has completed at least three quarters of full-time work at the UW, and has carefully planned an appropriate program of studies.

Proposals, including GRE scores, are due by December 15 of each year, and decisions on admission are made by May 31 of the following year. Information and application materials for the Individual PhD Program are available at [www.grad.washington.edu/students/interdisciplinary/iphd/index.shtml](http://www.grad.washington.edu/students/interdisciplinary/iphd/index.shtml).

# ACADEMIC PROGRAMS AND COURSES

## College of Arts and Sciences

### SCHOOL OVERVIEW

**Dean**

Ana Mari Cauce  
50 Communications

**Divisional Deans**

Judith Howard—Social Sciences  
Richard Karpen—Research and Infrastructure  
Robert Stacey—Arts and Humanities  
Werner Stuetzle—Natural Sciences

The departments and schools of the College of Arts and Sciences offer nearly 100 curricula leading to the degrees of Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, and Bachelor of Science, as well as graduate study leading to master's and doctoral degrees.

### UNDERGRADUATE STUDY

#### Graduation Requirements

A liberal arts education entails mastery of certain basic skills, exposure to a broad range of academic disciplines, and concentration in a particular field of knowledge. To be awarded a baccalaureate degree a student in the College must fulfill requirements in the following areas: Language Skills, Reasoning and Writing in Context, Areas of Knowledge, and a Major (see table below). All required courses must be taken for a numerical grade. In addition, the student must present at least 90 credits outside the major department and must meet minimum GPA requirements as specified below. Detailed information on graduation requirements is provided in the University of Washington (Seattle) Student Planner, a copy of which is given to each entering student.

Requirement*	Credits	
Language Skills	5–20	English composition (5 credits) Foreign language (0–15 credits, depending on placement or high school background)
Reasoning and Writing in Context	15	Quantitative/symbolic reasoning (QSR) (5 credits) Additional writing (W) courses (10 credits)
Areas of Knowledge	75	General-education courses to include at least 20 credits in each of the following three areas: <ul style="list-style-type: none"><li>• Visual, Literary, &amp; Performing Arts (VLPA)</li><li>• Individuals &amp; Societies (I&amp;S)</li><li>• The Natural World (NW)</li></ul>
Major	50–90	An area of specialization, usually in a single department
Minor (optional)	25–35	An additional area of specialization
Electives	varies	Free choice; as many credits as necessary to bring the total to 180

*\* Requirements of colleges other than Arts and Sciences are based on these, but may differ. Students who have not chosen a major are advised to follow the College of Arts and Sciences requirements.*

#### Language Skills

To receive a degree from the College of Arts and Sciences, students whose first enrollment in college (whether at the UW or elsewhere) was in autumn quarter 1985 or later are required to complete 5 credits of English composition with a minimum grade of 2.0. They must also complete coursework through the end of the first-year college sequence in a foreign language, with at least a 2.0 in the third-quarter course, or demonstrate equivalent proficiency through one of the following: successful completion of the third-year or higher level of high school language instruction (effective autumn 2009); by passing an examination; or by receiving a passing grade in a qualifying course beyond the first-year level. Credits used for these two requirements (including the entire first year of foreign language, if taken) cannot also be applied to the Areas of Knowledge requirements described below.

#### Reasoning and Writing in Context

Students who first entered college autumn quarter 1985 or later must complete a minimum of 5 credits in Quantitative or Symbolic Reasoning (QSR) and 10 credits of additional composition courses or courses that emphasize the development of writing skills in the context of an academic discipline (W courses). QSR and writing courses, if they apply, can also be counted toward Areas of Knowledge or major requirements. The writing requirement is in addition to the English composition requirement mentioned in the preceding paragraph.

#### Areas of Knowledge

The Areas of Knowledge requirement is the means by which the student develops a breadth of knowledge. Undergraduate courses are currently divided broadly into three categories: Visual, Literary, & Performing Arts; Individuals & Societies; and the Natural World. Each student must select at least 20 credits in courses from each of the three fields and an additional 15 credits from any courses in the three fields. Of the 75 total credits required, 15 may be from courses in the student's major department.

#### Course Designators

The following symbols, included in course descriptions in this catalog, indicate which, if any, of the above requirements are fulfilled by certain courses:

- VLPA—Visual, Literary, & Performing Arts (Area of Knowledge requirement)
- I&S—Individuals & Societies (Area of Knowledge requirement)
- NW—The Natural World (Area of Knowledge requirement)
- QSR—Quantitative and Symbolic Reasoning

Courses that meet the foreign-language requirement and the additional-writing requirement are not marked. The third-quarter (or second-semester) course in any language meets the language requirement, so long as the entire first-year sequence totals at least 12 credits (regardless of whether the student earned credit for the earlier parts of the sequence). Consult the quarterly Time Schedule for writing-intensive courses that meet the additional-writing requirement.

#### Major

In fulfilling the requirements for a major, the student engages in thorough study of a discipline or subject, aimed at developing knowledge in depth. This part of the student's program is determined by the department, school, or faculty committee with which the major study is pursued. Measured in academic credits, the "major" required of each student consists of 50 or more prescribed credits in a department of the College or a closely related group of departments. Descriptions of major programs are printed below.

#### Minor

Completion of a minor, available through many departments, is optional. Requirements are shown under individual department undergraduate programs, below, or in a minors handout available in the Undergraduate Gateway Center, 171 Mary Gates Hall. The following interdisciplinary minors are also offered: Disability Studies; Diversity; Education, Learning, and Society; Human Rights; Labor Studies; and Values in Society. Websites for these minors may be found in the alphabetical listing of Arts & Sciences degree programs.

#### Credits Required Outside Major Department

So that the student will not overspecialize, the College limits to 90 the number of credits from a single department that the student may elect to count in the 180 credits required for the baccalaureate degree. A department itself can require no more than 70 credits from courses within the department, and no more than 90 credits from within the department and related fields combined, as constituting its major program for the baccalaureate degree. Exceptions to these restrictions may be granted by the Dean.

#### GPA Required for Graduation

To be eligible to receive the baccalaureate degree, the student must achieve at least a 2.00 cumulative GPA in the major (some departments prescribe a higher minimum GPA for the major), as well as a 2.00 cumulative GPA for all work done in residence at the University.

#### Applying for Graduation

Students should apply for the baccalaureate degree no later than the first quarter of their final year. Seniors who apply by announced quarterly deadlines will receive Graduating Senior Registration Priority (GSP), allowing them to register first for the following quarter. GSP status is limited to two quarters.

All current and past UW students may graduate under the College requirements published in this catalog. Students may use the department requirements in effect at the time they are admitted to the major, if they graduate within 10 years of that time. Otherwise, the department may insist on more recent major requirements. Students wishing to fulfill a previous set of requirements should see an adviser for details and options. All responsibility for fulfilling graduation requirements rests with the student concerned.

#### Limits on Physical Education Courses Allowed Toward Graduation

A student graduating from the College of Arts and Sciences may count a maximum of three credits of 100-level physical-education activity courses taken at the University of Washington, or their equivalents at other collegiate institutions, as elective credits toward graduation. At present, physical-education courses are not offered at the University.

## EVENING DEGREE PROGRAM

Students may earn a degree in communication, English, health informatics and health information administration, humanities, or social sciences through the Evening Degree Program. Admission to the program requires the following: 75 college credits, normally to include Arts and Sciences language-skills requirements (English composition and foreign language), the reasoning-in-context requirement (quantitative/symbolic reasoning), and a substantial portion of the writing-in-context and general education requirements. Students who have only a few remaining prerequisite courses to complete may, under certain circumstances, be admitted as premajors. Admission and graduation requirements for communication (only the general communication option is offered) and English are identical to requirements for the day programs, shown under departmental listings.

## Major Requirements

The Humanities major and the Social Sciences major require a minimum 2.00 GPA for all courses taken in residence at the UW and a minimum 2.25 GPA for courses taken to satisfy the major requirements.

- **Humanities**—60 credits, including at least 30 credits from one of the following three options: communication and critical thinking; literature and culture; ideas and beliefs in social history. A 5-credit senior seminar. Remaining credits from courses outside the principal option.
- **Social Sciences**—60 credits, including 15 credits of social science survey courses (e.g., ANTH 202, SOC 271, POL S 202); 25 credits from one of the following four options: social and ethical theory; law, politics, and the state; culture and ethnicity; economy and ecology. 15 credits of program electives (selected from courses outside the principal option). A 5-credit senior seminar. Major requirements are to include at least 40 credits in 300- and 400-level courses.

For course lists, consult the Evening Degree Program adviser (at Evening Degree Program, 103 Lewis Hall) or the Undergraduate Gateway Center, 171 Mary Gates Hall.

## GRADUATE STUDY

Students who intend to work toward advanced degrees must apply for admission to the [Graduate School](#) and must meet the general requirements outlined in this General Catalog, as well as the requirements established by the graduate faculty in the department or unit offering the degree program. Graduate students must satisfy the requirements for an advanced degree that are in force at the time the degree is to be awarded.

## American Ethnic Studies

### DEPARTMENT OVERVIEW

B510 Padelford

American Ethnic Studies exposes students to key content, methodologies, and theories in the comparative and interdisciplinary study of African Americans, Asian/Pacific Americans, and Chicanos in the United States.

## UNDERGRADUATE PROGRAM

### Adviser

B509 Padelford, Box 354380  
206-221-0664

[aes@uw.edu](mailto:aes@uw.edu)

The Department of American Ethnic Studies offers the following undergraduate programs:

- The Bachelor of Arts degree with a major in American ethnic studies
- A minor in diversity

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* United States history, literature, drama, arts, sociology, political science, ethnic studies.

### Department Admission Requirements

Students in good academic standing may declare this major at any time.

### Major Requirements

60 credits as follows:

- **Core courses (30 credits):**
  - 15 credits of AES 150, AES 151, AES 212
  - 15 credits of AFRAM 101, AAS 101, CHSTU 101
- **Concentration:** 30 credits in one of the following: African American Studies, Asian/Pacific American Studies, Chicano Studies, Comparative American Ethnic Studies. See department for list of concentration courses. Some concentration requirements may be met while fulfilling the core courses requirement.
- **Electives:** Sufficient electives to reach 60 credits of approved courses applied to the major.

### Minor

Diversity minor requirements: 25 credits to include the following:

- One foundation course (5 credits) chosen from the following: AES 151, ANTH 330, HSTAA 105, LSJ 332/CHID 332, PSYCH 250, WOMEN 200
- A minimum of four additional courses, with at least one each from four of the five following categories (20 credits): arts/cultural; historical; global; contemporary/institutional; applications. A list of courses by category is available at [depts.washington.edu/divminor/](https://depts.washington.edu/divminor/).
- Minimum 15 credits must be completed in residence at the UW. Maximum 10 credits from one department and maximum 10 credits from the student's major department may be applied toward the minor.

Diversity minor students are strongly encouraged to complete an internship, volunteer project, research project, study abroad program, intergroup dialogue course, or some applied learning opportunity that promotes the goals of the minor.

Contact information for the minor is as follows: Address: B505 Padelford, Box 354380; Phone: 206-616-5789; E-mail: [divminor@uw.edu](mailto:divminor@uw.edu). Program director is Professor Rick Bonus at [rbonus@uw.edu](mailto:rbonus@uw.edu).

### Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The American Ethnic Studies curriculum prepares undergraduate students to understand the breadth, key content, methodologies, and theories in the field of ethnic studies as well as comparative interdisciplinary knowledge of African American, Asian/Pacific American, and Chicano issues. The major is designed to help students acquire the skills to think and write critically about race, class, and ethnicity in social and historical contexts and multiple categories of social diversity.
- **Instructional and Research Facilities:** Writing Center
- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors

requirements in the major). See adviser for requirements.

- **Research, Internships, and Service Learning:** Students have the opportunity to become actively engaged in personalized research and discovery through independent study and research courses in each program concentration.
- **Department Scholarships:** None
- **Student Organizations/Associations:** Ethnic Studies Student Association

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [uw.edu/students/crscat/](http://uw.edu/students/crscat/)

### Afro-American Studies

**AFRAM 101 Introduction to African American Studies (5) I&S** History, culture, religion, institutions, politics, economics, arts, and psychology of peoples of African descent as developed from experience in both the old and new worlds. Multidisciplinary analysis of social life from a Black perspective as illustrated in selected historical and contemporary writings.

**AFRAM 150 Introduction to African-American History (5) I&S** Introductory survey of topics and problems in Afro-American history with some attention to Africa as well as to America. Basic introductory course for sequence of lecture courses and seminars in Afro-American history. Offered: jointly with HSTAA 150.

**AFRAM 214 Survey of Afro-American Literature (5) VLPA** Butler A chronological survey of Afro-American literature in all genres from its beginnings to the present day. Emphasizes Afro-American writing as a literary art; the cultural and historical context of Afro-American literary expression and the aesthetic criteria of Afro-American literature. Offered: jointly with ENGL 258.

**AFRAM 220 Third World Images in Film (5) I&S/VLPA**

**AFRAM 246 African American Politics (5) I&S P. Rivers** Survey of African Americans within the U.S. socio-political processes. Situates African Americans within a post-civil rights context where there is debate about race's centrality to an African American politics. Recommended: either AES 150, AFRAM 201, or POL S 202. Offered: jointly with POL S 246.

**AFRAM 260 African American Family (5) I&S** Explores the structures and functioning of various types of black families. Single-parent families, two-parent families, extended families, and consensual families are explored. Their consequences for male/female relationships are linked and critiqued. Offered: jointly with SOC 260.

**AFRAM 261 The African-American Experience Through Literature (5) I&S/VLPA** Scott Instructs students in hermeneutical and sociological methods of analyses. Analyzes selected novels, essays, poems, short stories, and plays with the purpose of understanding the structures and functions of both society and personality. Offered: jointly with SOC 261.

**AFRAM 270 The Jazz Age (5) I&S** Walter Interdisciplinary study of period after World War I to Great Crash. Afro-American and Anglo-American currents and impulses that flowed together in the Roaring Twenties. Covers politics of normalcy, economics of margin, literature of indulgence and confusion, transformation of race relations, and cultural influence of jazz. Offered: jointly with HSTAA 270.

**AFRAM 272 History of the South Since the Civil War (5) I&S** Walter Reconstruction and its aftermath, the Agrarian (Populist) revolt, disfranchisement and segregation, the effects of urbanization and subsequent depression, desegregation, and the struggle for civil rights. Examines the New South, the conflict of ideology with structural and material change, and the place of the South in contemporary America.

**AFRAM 315 Black Identities and Political Power (5) I&S** *Rivers* Relates the deployment of political power within institutions to shifting racial identities. Shows how racial identities both reflect and inflect relations of domination and resistance within and between cultures in the black diaspora. Prerequisite: either AES 150, AFRAM 150, AFRAM 201, or POL S 201. Offered: jointly with POL S 315.

**AFRAM 318 Black Literary Genres (5) VLPA** *Ibrahim, Retman* Considers how generic forms have been discussed, distributed, and valued in the larger context of African American, or other African-Diasporic literary studies. Explores how black writers and artists treat the terms and conventions of generic forms in response, and comparison, to their cultural treatment of others. Offered: jointly with ENGL 318; AWSp.

**AFRAM 320 Black Women in Drama (5) VLPA** Character types of Black women as represented in plays by Black women. Some Black male playwrights are juxtaposed with Black female writers for comparative analysis. Playwrights include Georgia Douglas Johnson, Angelina Grimke, Alice Childress, Lorraine Hansberry, Ira Aldridge, LeRoi Jones.

**AFRAM 321 History of Afro-American Women and the Feminist Movement (5) I&S** "Feminist Movement" from early nineteenth century to present. Treats relationship between Black and White women in their struggle for independence, at times together and at times apart. Discusses the reasons, process, and results of collaboration as well as opposition. Examines recent and contemporary attempts at cooperation. Offered: joint with WOMEN 321.

**AFRAM 323 African-American Women's History (5) I&S** Yee Survey of African-American women's experience in United States, 1600 to present. Includes: social, political, economic status of Black women in slavery, freedom, education, activism, Civil Rights, women's rights, other social movements. Explores individual and collective interactions with African-American men, white men and women, other people of color.

**AFRAM 334 The Sixties in America: Conflict, Confrontation, and Concession (5) I&S** *Walter* Politico-cultural movements that collided in the sixties. Includes politics of confrontation and civil disobedience, economics of "guns and butter," literature of conflict and angst, polarization of arts, transformation of race relations, role of Rock, and influence of domestic politics on foreign relations. Recommended: AFRAM 150; AFRAM 270. Offered: jointly with HSTAA 334.

**AFRAM 337 Music and Social Change in the Sixties Era (5) I&S/VLPA** *Walter* Introduction of popular music and social change in 1950s and 1960s. How this interaction effects significant change. Considers political activism for civil rights and against the Vietnam War as they intersect with the development of rock and roll, R&B, acoustic and political folk music, and post-bebop jazz.

**AFRAM 340 The Harlem Renaissance: A Literary Study (5) VLPA** Highlights Harlem Renaissance—1912 through mid-1930s—as establishing a role for twentieth-century African-American writer, encompassing literature, politics, and decolonization of the image of Africa, and solidifying integrationist and nationalist schools of thought. Examines images, themes, and characterizations in creating a literary aesthetic simultaneously American and African-American.

**AFRAM 350 The Black Aesthetic (3) I&S/VLPA**

**AFRAM 358 Literature of Black Americans (5) VLPA** *Butler, Moody* Selected writings—novels, short-stories, plays, poems—by Afro-American writers. The historical and cultural context within which they evolved. Differences between Afro-American writers and writers of the European-American tradition. Emphasis varies. Offered: jointly with ENGL 358.

**AFRAM 370 Afro-American Political Thought (5) I&S** Political ideologies and philosophies of pivotal Afro-American historical figures and the conditions under which these ideologies are developed, rejected, and transformed. How ideologies relate to solution of Afro-American political problems.

**AFRAM 437 Blacks in American Law (5) I&S** *Walter* Historical continuity for changing relationship between American jurisprudence and Black Americans, 1640-1986. Statutory and case law which determined role of Blacks in American

society, and use of law by Blacks to gain civil and personal rights.

**AFRAM 498 Special Topics in African American Studies (3-5, max. 15) I&S** Topics in which students and faculty have developed an interest as a result of work done in other classes or as a result of the need to investigate in greater depth Afro-American Studies issues. Topics vary.

**AFRAM 499 Independent Study and Research (1-5, max. 10)** Identification and investigation of the problems and needs of the Black community. Methods and alternatives of approaching these problems and needs. Students designate their areas of interest and subsequently pursue research and problem solving.

## American Ethnic Studies

**AES 150 Introductory History of American Ethnic Groups (5) I&S** *Gamboa, Salas* Survey of the history of African Americans, Asian Americans, Chicanos, and American Indians in the United States.

**AES 151 Introduction to the Cultures of American Ethnic Groups (5) I&S** Survey of the cultures of Chicano, African-American, Asian-American, and American-Indian communities of the United States. Each group's culture is examined in its isolation and in its interaction with mainstream culture.

**AES 211 Environmental Justice (5) I&S** Examines introductory studies of environmental racism and ecological injustice in the USA and select areas of the world. Reviews environmental justice theories and methods applied to risk science, ecosystem management, biodiversity conservation, and sustainable development. Includes comparative studies of social movements for "eco-justice." Offered: jointing with ANTH 211/ENVIR 211.

**AES 212 Comparative American Ethnic Literature (5) I&S/VLPA** *Butler* Selected texts from the African-American, American-Indian, Asian-American, Chicano/Latino, and Euro-American traditions of American literature. Examines the American Dream, identity, community, conformity, individualism, and family. Explores themes of assimilation, double consciousness, *meztiza* consciousness, and wholeness as an introduction to multiple American voices in literary expression.

**AES 250 Race in the American University (5) I&S** Racial integration in American institutions of higher education. Entry to, and impact on, American universities by people of color. History of ethnic studies and its relation to other disciplines. Recommended: AES 150; AES 151.

**AES 322 Gender, Race, and Class in Social Stratification (5) I&S** The intersection of race and gender in the lives of women of color in the United States from historical and contemporary perspectives. Topics include racism, sexism, activism, sexuality, and inter-racial dynamics between women of color groups. Prerequisite: WOMEN 200. Offered: jointly with WOMEN 300.

**AES 330 Beyond Civil Rights: Law, Culture, and Change (5) I&S** Assessment of the contemporary politics of civil rights as shaped by an identity politics that is both significant and passe. Recommended: LSJ 363 or one course in either AES or WOMEN. Offered: jointly with LSJ 330.

**AES 333 Race and Ethnicity in the U.S. Military (5) I&S** *Salas* The experiences of racial minorities in the military. Topics include segregation of units, desegregation of military, career limitations and opportunities, minority women, military families, racism and role of veterans in civil rights struggles after service.

**AES 335 Sports and Social Change in the Twentieth Century (5) I&S** *Walter* Development of sport in the US and its importance for US culture and society. Covers increased centrality of athletic competition as part of the new leisure time in the late-19th century, revival of the Olympic movement, racial segregation/integration, today's American notions of celebrity and social style.

**AES 340 Race, Ethnicity, and Education (5) I&S** Focuses on critical social and political dimensions of race and ethnicity as they relate to issues and practices of pedagogy and

power in American education. Considers schooling as sites at which contemporary politics of diversity play out amidst increasingly diverse demographics of students, teachers, and parents.

**AES 361 Ethnicity, Business, Unions, and Society (5) I&S** Scott Interrelationships of ethnicity, business, unions, and the larger society. Examines financial and sociological structure of business and manufacturing sector, how this sector performs, and consequences of performance for selected ethnic groups in United States. Offered: jointly with SOC 363.

**AES 389 Race, Gender, and Sexuality in the Media (5) I&S** Introduction to media representations of gender, race, and sexuality. Offered: jointly with COM 389/WOMEN 389.

**AES 446 Music in American Cultures (3) I&S/VLPA** Compares musical history and experience of selected American cultures that have fed into the American musical mainstream or had significant popularity on its periphery. Case studies may include African Americans, Latino/a Americans, Jewish Americans, Asian Americans, or European Americans. Considerations of social identity as well as musical styles. Offered: jointly with MUSIC 446.

**AES 461 Comparative Ethnic Race Relations in the Americas (5) I&S** Sketches the ethnoracial systems operating in American society. Studies these systems as systems and examines their institutional and interpersonal dynamics. Compares ethnoracial systems in order to arrive at empirical generalizations about race/ethnorelations in the Americas. Offered: jointly with SOC 461.

**AES 462 Comparative Race and Ethnic Relations (5) I&S** Scott Race and ethnicity are examined as factors of social differentiation in a number of Western and non-Western societies in Europe, Africa, Asia, and the Americas. Offered: jointly with SOC 462.

**AES 487 Cultures and Politics of Environmental Justice (5) I&S** *Pena* Comparative survey of environmental justice movements in the world with focus on critical studies of environmental racism, risk, and sustainable development. Provides theoretical knowledge and research methods incorporating the study of equity and autonomy in environmental impact and risk assessment and other aspects of environmental policy politics. Offered: jointly with ANTH 487.

**AES 489 Black Cultural Studies (5) I&S** Examines how images of Blackness have been (re)constructed. Topics include black women's bodies, black men's bodies, Black-face minstrelsy, black queer studies, black power, and black hybridities. Offered: jointly with COM 489/WOMEN 489.

**AES 490 Representing Beyond the Binaries: Mixing Race, Gender, and Sexuality in the Media (5) I&S** *Joseph* Cultural studies approach to examining the mixed formations that race, sexuality, and gender take in the contemporary United States media. Draws upon multi-disciplinary scholarship in examination of the media. Offered: jointly with COM 490/WOMEN 486.

**AES 494 Community Practicum and Internship (3-5, max. 10)** Faculty supervised practicum and internship experience in variety of settings and agencies, e.g., ethnic specific agencies, government and civic community-based offices. Students contribute skills and knowledge to respective communities and gain experience by working with professionals and community organizers. Credit/no credit only.

**AES 496 Honors Senior Thesis (5-10) I&S** Supervised individual and independent/tutorial study for AES Department Honors students involving research, writing, project completion, and completion of a major 30 page paper or commensurate project. Offered: AWSpS.

**AES 498 Special Topics in American Ethnic Studies (1-5, max. 15) I&S** Designed to provide the student an opportunity to concentrate on one specific aspect of American Ethnic Studies through a comparative, interdisciplinary approach.

**AES 499 Independent Study or Research (1-5, max. 10)** Independent readings and/or research under the supervision of a faculty member.

## Asian-American Studies

**AAS 101 Introduction to Asian American Cultures (5) I&S** Asian-American subcultures; evolution of Asian-American cultures in the United States from 1850 to 1950-immigration patterns, evolution of subcultures, evacuation, interracial relations, assimilation, and signs of social disorganization.

**AAS 206 Contemporary Problems of Asian Americans (5) I&S** Recent Asian-American issues from 1950 to the present. Topics include ghetto communities, civil rights, identity problems and ethnicity, social organizations, political movements, and recent immigration.

**AAS 210 Asian-American Identity (5) I&S** Examines the nature of Asian-American identity from a multidisciplinary approach. Explores influences and manifestations of Asian-American identity, using literature, history, and other texts. Topics to include gender issues, interracial relationships, and Amerasians. Recommended: AAS 101; AAS 206.

**AAS 220 Asian-American Stereotypes in the Media (5) I&S** Asian stereotypes popularized by American literature, film, radio, and television and their effects on Asian American history, psychology, and community.

**AAS 300 U.S. Pacific Islander Contemporary Culture (5) I&S McGrath** Examines U.S. Pacific Islander culture as informed by Pacific history, social and cultural organization. Emphasis on understanding contemporary experience in the U.S. and other diaspora communities. Major themes include post-colonialism, migration, family, religion, politics, gender, education, and transnational identity. Recommended: either ANTH 202 or AES 151. Offered: jointly with ANTH 307. Offered: Sp.

**AAS 314 Ethnography, Transnationalism, and Community in Island Southeast Asia/Asian American (5) I&S Lowe** Ethnographic exploration of the transformative processes of transnationalism in relation to identity and community formation in Southeast Asia and among Southeast Asian Americans. Experiential learning format concentrates on mini-ethnographic projects, field trips, and group presentations. Prerequisite: either one 200-level ANTH course or one AAS/AES course. Offered: jointly with ANTH 314.

**AAS 320 Hawaii's Literatures (5) VLPA Sumida** Prose fiction, historical narratives, and poetry (including lyrics and songs) of Hawaii by Native Hawaiian and multicultural local writers and composers of the nineteenth and twentieth centuries. Analyses of colonization and its consequences frame the literary studies.

**AAS 330 Asian American Theater (5) VLPA Sumida** Explores works of Asian American plays in historical, interpretive, and artistic contests and dimensions. Includes students' performances of dramatic readings.

**AAS 350 Chinese American History and Culture (5) I&S** Experience of the Chinese in America from 1850 to the present. Transformation from an immigrant to Chinese American community: immigration patterns, anti-Chinese movements, ethnic sociopolitical and economic institutions, community issues, Chinese American culture. Recommended: AAS 205.

**AAS 360 Filipino-American History and Culture (5) I&S Revilla** History and culture of the Filipino in America and the influence of an admixture of Filipino, Spanish, and American traditions on the Filipino immigrant and his or her descendants. Recommended: AAS 205.

**AAS 370 Japanese-American History and Culture (5) I&S** Historical roots and subsequent changes in the Japanese-American group examined through an interdisciplinary approach. Topics include historical events, culture, values, social and community structures, institutions, occupations, and future orientations. Recommended: AAS 205.

**AAS 372 Internment Camps in North America: United States and Canada (5) I&S** Comparative study of United States and Canadian internment camps incarcerating Japanese Americans and Japanese Canadians during World War II. Focuses on early history, dislocation and internment, effects (disorganization and adjustments), effects on the internees and society, and present situation.

**AAS 380 Asian-American Communities and Social Policies (5) I&S** History, culture, social organization, leadership patterns and interethnic relations of Asian-American (Chinese, Filipino, Japanese, and Korean) communities. Origins and impact of social policies relevant to Asian-American communities. Recommended: AAS 205

**AAS 385 Asian Americans: The Law and Immigration (5) I&S** Traces the evolution of United States immigration law and policy from the nineteenth century to modern day, from free immigration to immigration restriction, through the elimination of race as a criterion, and culmination in the passage of the Simpson-Mezzoli bill. Recommended: AAS 205 or AAS 206.

**AAS 392 Asian-American Women (5) I&S** History of and contemporary issues related to Asian-American women in the United States. Recommended: AAS 205 or AAS 206. Offered: jointly with WOMEN 392.

**AAS 395 Southeast-Asian Americans: History and Culture (5) I&S**

**AAS 401 Asian-American Literature to the 1940s (5) VLPA** Asian-American literature from nineteenth-century immigrants to the 1940s. Emphasis on Chinese, Japanese, and Filipino writings detailing the experience and sensibility of first generation immigrants. Early twentieth-century writing focus on the development not only of Asian-American community, but also of second generation American-born Asian-American writers. Recommended: AAS 205 or AAS 206.

**AAS 402 Contemporary Asian-American Literature (5) VLPA** Asian-American literature from the 1940s to the present. Emphasis on the development of attitudes and identities in contemporary Asian-American literature, the role of the writer in a minority culture, and the relationship of literature to self and society.

**AAS 403 Survey of Asian-American Poetry (5) VLPA** Asian-American poetry, nineteenth century to present. Readings include poetry of the early immigrant to America, cultural imperatives transferred from old world to new world, and establishment of an Asian-American identity in poetry from 1870s through 1890s.

**AAS 406 Asian American Activism (5) I&S** Explores the multiple political traditions forged by Asian Americans, from the earliest challenges to racist laws and unequal wages to the latest debates over affirmative action and racial profiling. Examines Asian American communities organized to oppose and to perpetuate social inequalities. Offered: jointly with HSTAA 406.

**AAS 498 Special Topics (5, max. 10) I&S**

**AAS 499 Undergraduate Independent Study (1-5, max. 10)**

## Chicano Studies

**CHSTU 101 Introduction to Chicano Studies (5) I&S Gamboa, Salas** Selected themes in Chicano experience; studies in Chicano politics and Chicano socioeconomic concerns.

**CHSTU 180 History of the Chicano People to 1848 (5) I&S Gil** Historical survey of the Chicano people from pre-Hispanic times to the war between the United States and Mexico. Offered: jointly with HSTAA 283.

**CHSTU 200 Latinos in the United States (5) I&S Gamboa, Salas** Historical, social, and economic experience of Latinos in the United States. Major themes include education, labor, class, and gender identity. Analyzes rapid growth of old and newly established Latino communities, based on emigration from Latin America.

**CHSTU 254 Northwest Latinos: History, Community, Culture (5) I&S Gamboa** Traces the history, extent, and development of the Chicano/Latino presence from the early Spanish period to the present. Examines the major contemporary political, social, and economic issues affecting Northwest Chicano/Latinos in a broader national and international context.

**CHSTU 255 Mexican Women: Past and Present (5) I&S Salas** Survey of women in Mexican society from Meso-American times to the 1940s.

**CHSTU 256 Chicanas: Gender and Race Issues (5) I&S Salas** Contemporary issues in the Chicana movement since the 1940s. Issues range from feminism and Chicana political, educational, and social organizations, to work, family, health, and the arts.

**CHSTU 260 Introduction to Chicano Politics (5) I&S** Surveys the political position and activities of Mexican-American peoples in the United States from two perspectives: (1) Chicanos as objects of the political process of United States life, (2) contributions of the Chicano people to United States politics.

**CHSTU 330 Chicano/Chicana Autobiography (5) I&S** Explores the issue of Chicano, or Mexican-American, identity. Examines statements of selfhood by Chicanos, studied in order to understand the relationship between individual and society in creating identity.

**CHSTU 332 Chicano Film and Narrative (5) I&S/VLPA Flores** Historical overview of the evolution of Chicano culture through film. Critical examination of the portrayal and self-portrayal of Chicanos in film and selected works of narrative. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314, any of which may be taken concurrently. Offered: jointly with SPAN 332.

**CHSTU 340 Latina/Latino Theater (5) VLPA Habell-Pallan** Explores the contextual, theoretical, thematic, and formal dimensions of U. S. Latina and Latino theater and performance art in the contemporary period. Examines performances and play scripts as a way of analyzing innovations in form, language, and content produced by Chicano/Latino teatro and performance art.

**CHSTU 352 Mexican Immigration: A Comparative Analysis (5) I&S Gamboa, Salas** Examines and compares constant Mexican immigration with that of other immigrants to the United States as one of the most important issues confronting Chicanos and other Americans in the United States.

**CHSTU 356 The Chicano Family (5) I&S Salas** The historical, psycho-social, and sociocultural role of the Chicano family from Meso-American times to the present.

**CHSTU 405 Advanced Chicano Studies (5) I&S Gamboa** Chicano culture as related to current values and health practices, Mexican labor and immigration in both historical and contemporary setting. Chicano politics 1848 to present. Recurrent problems of Chicanos in society; social movement for acceptance and for self-determination.

**CHSTU 416 Comparative Social Movements: Mexico and the United States (5) I&S Pena** Historical, ethnographic, and theoretical perspectives in the study of Mexican-origin communities in social movements in Mexico and the United States with a focus on workers, immigrants, peasants, women, indigenous peoples, and students as forces of collective mobilization and social, cultural, and political change. Offered: jointly with ANTH 416.

**CHSTU 465 Contemporary Chicano Literature (5) VLPA Flores** Examination of one or more problems, themes, and/or figures in the developing body of Chicano literature. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, or SPAN 352. Offered: jointly with SPAN 465.

**CHSTU 466 Chicano Literature: Fiction (5) VLPA Flores** Nineteenth- and early twentieth-century fiction, as well as contemporary works, are examined in attempts to trace the development of Chicano fiction in the proper historical trajectory. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, or SPAN 352. Offered: jointly with SPAN 466.

**CHSTU 498 Special Topics in Chicano Studies (3-5, max. 10) I&S Gamboa, Olguin, Salas** Interdisciplinary course concentrating on one or more aspects of the Chicano experience.

**CHSTU 499 Independent Study and Research (1–6, max. 10)** *Gamboa, Olguin, Salas* Students work individually or in teams.

## Swahili

**SWA 101 Basic Swahili (5)** *Maulana* Introduces the Swahili language and the diverse cultures and customs of the people of East Africa. Provides a basic foundation in speaking, reading, and writing. First in a sequence of three.

**SWA 102 Basic Swahili (5)** *Maulana* Introduces the Swahili language and the diverse cultures and customs of the people of East Africa. Provides a basic foundation in speaking, reading, and writing. Second in a sequence of three. Prerequisite: SWA 101.

**SWA 103 Basic Swahili (5)** *Maulana* Introduces the Swahili language and the diverse cultures and customs of the people of East Africa. Provides a basic foundation in speaking, reading, and writing. Third in a sequence of three. Prerequisite: SWA 102.

**SWA 134 Intensive Basic Swahili (15)** *Maulana* Introduces the Swahili language and the diverse cultures and customs of the people of East Africa. Provides a basic foundation in speaking, reading, and writing. Offered: S.

**SWA 201 Intermediate Swahili (5) VLPA** Builds proficiency in the language by speaking, reading, and writing. Includes children's stories, newspaper articles, poetry, and folklore. First in a three sequence of three. Prerequisite: either SWA 103 or SWA 134.

**SWA 202 Intermediate Swahili (5) VLPA** Builds proficiency in the language by speaking, reading, and writing. Includes children's stories, newspaper articles, poetry, and folklore. Second in a sequence of three. Prerequisite: SWA 201.

**SWA 203 Intermediate Swahili (5) VLPA** Builds proficiency in the language by speaking, reading, and writing. Includes children's stories, newspaper articles, poetry, and folklore. Third in a sequence of three. Prerequisite: SWA 202.

## Tagalog

**TAGLG 101 Basic Tagalog (5)** Introduces the Filipino language and culture. Students use the language through speaking, listening, reading, and writing at the novice level. Examines basic language structures, appropriate forms of address, and vocabulary for communication. First in a sequence of three. Offered: A.

**TAGLG 102 Basic Tagalog (5)** Introduces the Filipino language and culture. Students use the language through speaking, listening, reading, and writing at the novice level. Examines basic language structures, appropriate forms of address, and vocabulary for communication. Second in a sequence of three. Offered: W.

**TAGLG 103 Basic Tagalog (5)** Introduces the Filipino language and culture. Students use the language through speaking, listening, reading, and writing at the novice level. Examines basic language structures, appropriate forms of address, and vocabulary for communication. Third in a sequence of three. Offered: Sp.

**TAGLG 134 Intensive Basic Tagalog (15)** Intensive introduction to the Filipino language and culture. Uses the language through speaking, listening, reading, and writing at the novice level. Explores basic language structures, appropriate forms of address, and vocabulary for communication.

**TAGLG 201 Intermediate Tagalog (5) VLPA** Provides further reinforcement and practice of the lessons learned in Basic Tagalog. Improved the communicative competence of the student by teaching the social rules along with the linguistic rules. First in a sequence of three. Prerequisite: TAG 103. Offered: A.

**TAGLG 202 Intermediate Tagalog (5) VLPA** Provides further reinforcement and practice of the lessons learned in Basic Tagalog. Improved the communicative competence of the student by teaching the social rules along with the linguistic rules. Second in a sequence of three. Prerequisite: TAG 201. Offered: W.

**TAGLG 203 Intermediate Tagalog (5) VLPA** Provides further reinforcement and practice of the lessons learned in Basic Tagalog. Improved the communicative competence of the student by teaching the social rules along with the linguistic rules. Third in a sequence of three. Prerequisite: TAG 202. Offered: Sp.

**TAGLG 301 Advanced Tagalog (5) VLPA** Reading of contemporary Filipino (Tagalog) prose, poetry, and drama. Advanced conversation and composition. First in a sequence of three. Prerequisite: TAG 203. Offered: A.

**TAGLG 302 Advanced Tagalog (5) VLPA** Reading of contemporary Filipino (Tagalog) prose, poetry, and drama. Advanced conversation and composition. Second in a sequence of three. Prerequisite: TAG 301. Offered: A.

**TAGLG 303 Advanced Tagalog (5) VLPA** Reading of contemporary Filipino (Tagalog) prose, poetry, and drama. Advanced conversation and composition. Third in a sequence of three. Prerequisite: TAG 302. Offered: A.

# American Indian Studies

## DEPARTMENT OVERVIEW

C514 Padelford

American Indian studies surveys Indian cultural developments in art, music, history, medicine, media and film, language, and literature and offers performance and studio experience.

## UNDERGRADUATE PROGRAM

### Adviser

C514 Padelford, Box 354305

206-543-9082

The American Indian Studies Center offers the following undergraduate programs:

- Bachelor of Arts degree with a major in American Indian studies
- A minor in American Indian studies.

## Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Completion of two courses from AIS 102, AIS 201, AIS 202, AIS 203

### Department Admission Requirements

- 10 credits of college American Indian studies classes.
- Minimum 2.00 cumulative GPA.
- Upon satisfying items 1 and 2, above, students may declare the major any time. Transfer students must be enrolled at the UW before applying.

### Major Requirements

55 credits as follows:

- *Introductory courses (10 credits):* Two courses from AIS 102, AIS 201, AIS 202, and AIS 203. Other courses may be approved by the American Indian Studies chair.
- *American Indian Studies electives (40 credits):* Chosen from AIS courses or a select list of courses from other departments. (See program adviser or departmental website for complete list.)
- *Senior project (5 credits):* AIS 498 or approved alternative.
- Minimum 25 credits for the major at the 300 level or above must be completed at the UW.

## Minor

*Minor Requirements:* Minimum 30 credits to include:

- 10 credits of introductory coursework in American Indian studies, chosen from AIS 102, AIS 201, AIS 202, AIS 203. Other courses may be allowed with the approval of the American Indian Studies program chair.
- 20 credits of AIS electives, chosen from AIS courses or from a select list of courses in other departments (see program adviser or program website for complete list).

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* American Indian studies graduates possess a broad knowledge of historical and contemporary American Indian cultures, have the ability to develop both written and oral arguments, possess knowledge of American Indian philosophy and world view, and possess an understanding of Native Nation sovereign status and treaty status.
- *Instructional and Research Facilities:* None
- *Honors Options Available:* For Interdisciplinary Honors, see University Honors Program.
- *Research, Internships, and Service Learning:* None offered
- *Department Scholarships:* None offered
- *Student Organizations/Associations:*
  - American Indians in Science and Engineering Society (AISES), UW Chapter Office: Ethnic Cultural Center and 207 Loew Hall (MSEP), 206-543-5536 or 206-685-8688
  - First Nations at the UW, Office: Ethnic Cultural Center, American Indian Room, 206-543-4635, ext. 12
  - Medicine Wheel Society, Office: Ethnic Cultural Center and School of Medicine

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsat/](http://uw.edu/students/crsat/)

**AIS 102 Survey of American Indian Studies (5) I&S** Explores basic issues of American Indian Studies including theories about American Indian origins and demography; the impact of European disease and colonialism, the formation of American Indian stereotypes, the resistance of native peoples to racism and oppression, and the treaty status and continuing challenges for Indian nations. Introduces American Indian Studies faculty and their research and teaching specialties.

**AIS 110 Musical Traditions of Native North America (5) VLPA** Utilizes historical and contemporary sources to survey the music and music-related traditions of Native North America. Examines traditional music and context from the Northwest Coast, Arctic, Southwest, Great Basin, Plains, Plateau, California, and Eastern Woodlands music-style areas, as well as contemporary neo-traditional and popular genres of American Indian music.

**AIS 113 American Indian Language: Navajo (5) Witherspoon** Conversation, reading, and writing in Navajo. Oral literature and other aspects of Navajo culture integrated into language study. First in a sequence of three.

**AIS 114 American Indian Language: Navajo (5) Witherspoon** Conversation, reading, and writing in Navajo. Oral literature and other aspects of Navajo culture integrated into language study. Second in a sequence of three. Prerequisite: AIS 113.

**AIS 115 American Indian Language: Navajo (5) Witherspoon** Conversation, reading, and writing in Navajo. Oral literature and other aspects of Navajo culture integrated into language study. Third in a sequence of three. Prerequisite: AIS 114.

**AIS 151 Indian Art of Northwest Coast (3) VLPA Oliver** Studio course on Pacific Northwest coast Indian/Eskimo art. Tradi-

tional and contemporary forms; principles of form, style, and techniques; values that influence Indian/Eskimo art styles.

**AIS 170 Survey of North American Indian Art (5) VLPA** Major American Indian art traditions of North America. Precontact and early-contact-era traditions and the evolution of Indian art forms in contemporary times. Design and techniques in Indian art.

**AIS 201 Introduction to American Indian Histories (5) I&S** *Harmon* Survey of histories of Indians in the U. S. from native perspectives. Presents traditional creation accounts and oral histories, archaeological, and historical evidence. Focus is cultural dynamics, considering change and continuity through prehistoric, protohistoric, colonial, and American periods.

**AIS 202 Introduction to Contemporary Experience in Indian America (5) I&S** Survey of contemporary Native-American people, cultures, and issues. Focus on modern experiences through readings from Native-American autobiographies, contemporary narratives and literature, and reports of important topical issues, e.g., water rights, Indian gaming, treaty law.

**AIS 203 Introduction: Philosophical and Aesthetic Universes (5) I&S** Social constructions of reality, aesthetic as well as philosophic, as conceptualized by approximately five traditional American Indian cultures from different regions of North America.

**AIS 230 Contemporary Indian Gaming and Casinos (5) I&S** *Wright* Overview of the contemporary \$18.5 billion Indian Tribal gaming industry (with a focus on the Pacific Northwest), which is heavily regulated, is an economic engine for non-Indian communities, and funds economic, social and cultural revitalization of Indian Reservations, yet often generates intense political discussions. Offered: .W.

**AIS 240 Native North American Women (5) I&S** Indian women in the social structure; historical and contemporary roles; changes in male-female relationships; problems and opportunities of contemporary women; the feminist movement and Indian rights.

**AIS 253 Wood Design (5, max. 15) VLPA** *Oliver* Studio course in wood sculpture utilizing Pacific Northwest Indian hand tools. Properties of woods and their uses.

**AIS 270 Native Peoples of the Pacific Northwest (5) I&S** Examines indigenous societies on the Pacific Northwest's western slope, from southeast Alaska to California, including social structures and relations, subsistence strategies, belief systems, and changes over time, both before and after non-Natives' arrival.

**AIS 271 Native Peoples of the Intermountain West (5) I&S** Examines societies of the Columbia and Fraser River Plateau and Great Basin, including social structures and relations, subsistence strategies, belief systems, and changes over time, both before and after non-Natives' arrival.

**AIS 272 Native Peoples of the Southeast (5) I&S** Examines indigenous societies of North America's southeastern sector, including social structures and relations, subsistence strategies, belief systems, and changes over time, both before and after non-Natives' arrival.

**AIS 317 North American Indians: The Southwest (5) I&S** *Witherspoon* Overview of history and ethnography of the Southwest with emphasis on Apaches, Pueblos, and Pimans/Yumans. Social organization, religion, worldview, and expressive culture of such specific groups as Navajo, Hopi, Zuni, Tewa, and Tohono O'odham.

**AIS 330 United States-Indian Relations (5) I&S** *Harmon* History of relations between American Indians and non-Indians in the U. S. with emphasis on national laws and policies. Examines origins and impacts of Indians' and non-Indians' strategies for dealing with each other, historical reasons for Indians' contemporary conditions and status.

**AIS 331 American Indian History I to 1840 (5) I&S** *Harmon* History of Indigenous peoples and their descendants in the area that now constitutes the United States, from the eve of European discovery of the Americas to 1840. Emphasis

on relations between Indigenous peoples and immigrants. Offered jointly with HSTAA 331.

**AIS 332 American Indian History II Since 1840 (5) I&S** *Harmon* History of American Indians in the United States from 1840 to the present. Emphasis on relations between Indians and non-Indians, government policies, and Indian strategies of survival. Offered jointly with HSTAA 332.

**AIS 335 American Indians and the Law (5) I&S** *Harmon* History of laws governing American Indians: aboriginal law systems, U. S. laws, and contemporary tribal laws. Effects of laws and legal institutions on contemporary Indian identity and tribal status, self-government, land ownership and use, natural resources, religion, family life, cultural and spiritual practices, crimes and punishment, and federal responsibilities for Indians.

**AIS 340 Indian Children and Families (5) I&S** Cross-cultural survey of Indian child rearing, family structure, and related social issues. Includes historical changes in family structure, value orientation and adaptation to a bicultural environment, education, child welfare, health problems, and aging.

**AIS 341 Native Women in the Americas (5) I&S** Historiography, sociology, biography, autobiography, and fiction about native women in the United States and Canada. Offered: jointly with WOMEN 341. Offered: AWSpS.

**AIS 350 Two-Dimensional Art of the Northwest Coast Indians (5, max. 15) VLPA** *Oliver* Studio course emphasizes principles of structure and style of two-dimensional art which can be found on many old, traditional Northwest Coast pieces, such as painted storage boxes and chests, house panels, and ceremonial screens. Students apply these principles in creating a variety of graphic projects.

**AIS 360 American Indians in Cinema (5) VLPA/I&S** *Colonnese* Studies representations of American Indians in American films from 1900 to present. Examines the foundations of American Indian stereotypes and how Hollywood helped create and perpetuate those stereotypes. Activities include reading critical materials, and viewing, discussing, and writing critically about films by non-native directors. Offered: ASpS.

**AIS 370 Researching Indians' History (5) I&S** *Harmon* Finding and interpreting sources of information about American Indians' history. Offered: jointly with HSTAA 315:

**AIS 376 First Nations Literature (5) VLPA** *Cote'* Literature written by First Nations Canadian authors as a form of cultural resistance and a reseeing of identity. Offered: S.

**AIS 377 Contemporary American Indian Literature (5) VLPA** *Colonnese* Creative writings-novels, short stories, poems-of contemporary Indian authors; the traditions out of which these works evolved. Differences between Indian writers and writers of the dominant European/American mainstream. Offered: jointly with ENGL 359.

**AIS 378 Contemporary American Indian Literature: A Northwest Focus (5) VLPA** Literature and poetry of the Pacific Northwest (Coast and Plateau) Native peoples. Contemporary literature and discussion of social and cultural issues raised by American Indian writers and writing. Offered: AW.

**AIS 379 Powwow: Tradition and Innovation (5) VLPA/I&S** Explores the historical and cultural roots of powwow. Discusses the ways this Indigenous Native art form has adapted since prehistoric times.

**AIS 425 Indians in Western Washington History (5) I&S** *Harmon* Relations of Indians and non-Indians in the Puget Sound region, from the 1790s to the present, with emphasis on evolving ideas about Indian identity. Offered: jointly with HSTAA 417.

**AIS 431 History of American Indian Education (5) I&S** Traditional and European-introduced methods of schooling, the federal role in Indian education, and contemporary Indian education issues. Special attention to Indian concepts of learning; boarding school education; the role of the Bureau of Indian Affairs; current trends in bilingual and bicultural education for Indians.

**AIS 435 Spiritual Encounters: Native Spirituality in the Contact Era (5) I&S** *Wright* Explores North American Indigenous interaction with, resistance to, and syncretization with Christianity, the European colonizers' religious system. Focuses on Native revitalization movements and new forms of religious expression such as the Indian Shaker Church and the Peyote Road, as well as the legal, social, and cultural issues of Native freedom of religion. Offered: W.

**AIS 440 Reading Native American Women's Lives (5, max. 10) I&S** Ross Seminar based on social science writings, autobiographies, biographies, and fiction written by, with, or about indigenous women of the United States and Canada. Offered: jointly with WOMEN 440.

**AIS 441 Gender in Native American Societies (5) I&S** *Cote'* Examines gender roles, identity, and relations in Native American pre- and post-contact societies. Analyzes how contact with European gender customs influenced and altered traditional gender practices, especially in regards to women's social position and the roles of the third/fourth genders in Native American communities.

**AIS 442 Images of Natives in the Cinema and Popular Cultures (5) I&S/VLPA** Ross Cultural examination of images of native people in cinema and popular culture based on social science writings and films by or about natives in the United States and Canada. Offered: jointly with WOMEN 442.

**AIS 443 Indigenous Films, Sovereign Visions (5) VLPA/I&S** *Cote', Hart, Ross* Explores fiction, documentary, experimental film, and digital media from indigenous artists from around the world. Focuses on personal, political, and cultural expression. Issues include media and sovereignty movements, political economy, language revitalization, the politics of decolonization, and indigenous aesthetics. Offered jointly with COM 443.

**AIS 444 Criminality and "Deviance" in Native Communities (5) I&S** Seminar based on social science writings and biographies written by and about incarcerated natives and "deviance" in Native communities in the United States and Canada. Prerequisite: AIS 330; WOMEN 200; WOMEN 310. Offered: jointly with WOMEN 444.

**AIS 446 American Indian Economic History (5) I&S** *Harmon* Surveys and analyzes the history of American Indians' economic challenges and strategies. Topics include the economic cultures of Indigenous North American societies, the impacts of European colonization and U.S. government policies, and tribal strategies aimed at improving Indians' economic circumstances. Offered: jointly with HSTAA 446.

**AIS 450 American Indian Song and Dance Tradition: Performance (3) VLPA** Performance of various American Indian social dances, songs, and games. In-depth study of various American Indian vocal styles.

**AIS 451 Critical Conversations in American Indian Studies (5, max 10)** Critical issues in American Indian Studies. Topics vary. Offered: Sp.

**AIS 461 First Nations Government and Politics in Canada (5) I&S** *Cote'* Focuses on First Nations government and politics in Canada. Examines development of First Nations political governing structures with an introduction to the values, perspectives, concepts, and principles in Native political cultures. Explores federal Indian policy in context of First Nations strategies to become self-governing.

**AIS 465 First Nations Filmmaking in Canada (5) VLPA** *Cote'* Examines First Nations video production in Canada; how film is utilized as a medium for addressing issues significant to First Nations. First Nations filmmakers "decolonize" the screen by providing real and positive images of First Nations people that correspond to their cultural and social experiences.

**AIS 466 Producing the Documentary Short (5) VLPA** *Cote', Hart, Ross* Explores documentary theory, methods, and aesthetics. From humanities, social science, and Indigenous studies perspectives, students critique a self-produced documentary, looking at methodology, perspective, and ethics. Students also explore pre-production, production, and post-production documentary techniques.

**AIS 469 Special Studies in American Indians (3, max. 6) I&S** Delineation and analysis of a specific problem or related problems in American Indian Studies. Offered occasionally by visitors or resident faculty.

**AIS 475 Special Topics in Indian Studies (1–5, max. 15) I&S** Current research and readings in American Indian Studies content areas.

**AIS 498 Senior Project (5)** Intensive research and presentation on a selected issue. For students majoring in American Indian Studies or other advanced students by permission. Offered: AWSp.

**AIS 499 Independent Study (1–5, max. 15)** Readings and/or research under faculty supervision.

**AIS 501 Documentary Film/Video Research Methods in Native Communities (5)** Seminar exploring theoretical, methodological, and aesthetic issues when researching documentary film and video projects in Native American communities. Utilizes readings, screening, discussions, and a major research project to explore issues of documentary representation, ethics, and historiography. First part of a two-quarter documentary production sequence. Offered: AWSpS.

**AIS 503 Documentary Theory, Form, and Practice (5)** Explores documentary theory and practice, utilizing readings and documentary filmmaking exercises. Students create short documentary sequences while investigating traditional and more experimental ideas about the non-fiction form; theories of representation, subject ethics, documentary authenticity, the intersection of fiction and non-fiction forms, documentary and performance, documentary and historiography.

**AIS 590 Special Topics (1–5, max. 15)** Offered by visitors or resident faculty as a one-time, in-depth study of special interest.

## Anthropology

### DEPARTMENT OVERVIEW

M32 Denny

Anthropology is the study of human beings in all their cultural diversity. It includes the study of human evolution, the archaeological record, language and culture, the relationship between humans and their environment, and cultural modes of being as these differ in time and space. In studying anthropology, students can better understand how to find ways to live together in today's world, respecting cultural diversity while building upon common human values.

The study of anthropology at the University of Washington is comprised of three sub-disciplines:

- *Archaeology* is the study of the human past through investigation of material remains (artifacts, food remains, features, structures, etc.) and their relationships in space and time.
- *Biocultural anthropology* focuses on understanding human variation through the study of the ecological, demographic, genetic, developmental, and epidemiological dimensions of modern human adaptation and its evolutionary basis.
- *Sociocultural anthropology* is the study of human societies from the perspective of culture as a comparative frame.

### UNDERGRADUATE PROGRAM

#### Adviser

243 Denny, Box 353100  
206-543-7772

The Department of Anthropology offers the following undergraduate programs:

- The Bachelor of Arts degree with a major in anthropology
- The Bachelor of Arts degree with a major in anthropology, with an option either in medical anthropology and global health (MAGH), or in anthropology of globalization (AG)
- A minor in anthropology

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Any two of the following: ANTH 202, ANTH 203, ANTH 204, ANTH 206, ANTH 207, ANTH 208, ANTH 209, ANTH 210, or ANTH 228; ARCHY 205; BIO A 201; at least one from STAT 220, STAT 311, or Q SCI 381.

#### Department Admission Requirements

- Minimum 15 ANTH/ARCH/BIOA credits.
- Minimum cumulative 2.50 GPA for ANTH/ARCH/BIO A credits, with at least a 2.0 grade in each course.
- Minimum 2.50 GPA for all prior college work, including transfer credits.
- Transfer students must be admitted to the UW before they can apply.

Additional requirements for students applying to one of the two options: either medical anthropology and global health (MAGH) or anthropology of globalization (AG).

- Admission to either option is competitive. Meeting minimum requirements for admission to the major does not guarantee admission to either option. Applications are available on the department website on the first day of the quarter. Application deadline is the second Friday of autumn, winter, or spring quarters. Students are notified of the admission decision by the end of week five of the quarter in which they apply.
- See department advising office for additional requirements.

#### Major Requirements

55 credits as follows:

- *Core courses (20 credits):* ARCHY 205, BIO A 201; any 200-level ANTH course; and one of the following: CS&SS 221/SOC 221/STAT 221, STAT 220, STAT 311, Q SCI 381
- 35 additional ANTH, ARCHY, and BIO A credits distributed across the subfields or concentrated as suits the interests of the student. 20 of these credits must be in upper-division (300- or 400-level) courses. Students may count one 100-level ANTH, ARCHY, or BIO A course toward the major, but are not required to do so.
  - The following AIS courses may apply toward this requirement: AIS 201, AIS 202, AIS 203, AIS 240, AIS 311, AIS 312, AIS 316, AIS 317, AIS 330, AIS 335, AIS 340, AIS 443.
  - Maximum 12 credits (18 credits for departmental honors students) from ANTH 499, ARCHY 499, and BIO A 499 combined can be counted toward the major.
- *Additional major requirements:*
  - Courses with a grade of 1.9 or lower do not count toward the major.
  - At least 25 credits in the major must be completed with a minimum grade of 2.5.
  - Transfer students must complete a minimum of 15 upper-division credits in anthropology at the UW.
- Students may pursue either the general anthropology major or one of the two options shown below.

*Medical Anthropology and Global Health (MAGH) Option:* Requirements for the general anthropology major, as shown above, to include ANTH 215 and 15 credits from ANTH and BIO A courses approved for the MAGH option. Approved courses available at the department advising office (243 Denny) or on the department website.

*Anthropology of Globalization (AG) Option:* Requirements for the general anthropology major, as shown above, to include 20 credits from courses in ANTH, ARCHY, and BIO A approved for the AG option. Approved courses available at the department advising office (243 Denny) or on the department website.

### Minor

*Minor Requirements:* 30 credits (at least 15 credits at upper-division level) from courses with the following prefixes: ANTH, ARCHY, BIO A. ANTH 100 may be applied to the minor but is not required. (Certain AIS courses may apply toward this requirement. See departmental adviser for list.) Minimum grade of 2.0 required in each course.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of anthropology develops skills in critical thinking, research, and writing, as well as technical skills specific to the different subfields (ethnographic field techniques, interpretation of data, statistical analysis, archaeological methods of data collection and interpretation). An undergraduate degree prepares students for many positions that involve working with people, as well as for academic studies in a variety of fields. Careers in anthropology can be developed through employment with government agencies, museums, teaching and research, private consulting firms, and nongovernmental organizations.
- *Instructional and Research Facilities:* Undergraduate students have access to the following facilities for classroom training in laboratory methods and for research experiences subject to faculty approval and supervision: the Burke Museum (ethnological, archaeological, natural history, and archival collection), Quaternary Research Center, Biodemography Lab, Luminescence Dating Laboratory, Electron Microscope Laboratory Cooperative, Geoarchaeology Lab, Digital Imaging and Microscopy Lab, Geographical Information System (GIS) Computer Lab. In addition, the department co-sponsors with the Department of Geography a writing center offering undergraduate writing support for anthropology classes.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* The Department of Anthropology supports students who undertake community-based internships under faculty supervision.
- *Department Scholarships:*
  - The Brett E Baldwin Scholarship, for approximately \$1,000, is awarded to an outstanding graduate or undergraduate majoring in anthropology.
  - The Wienker Prize for Best Undergraduate Essay. Four awards are given each year, one in each sub-discipline for the best essay in an undergraduate anthropology class, and one for the best senior honors thesis.
- *Student Organizations/Associations:* The Anthropology Club is run by and for students in the department.

### GRADUATE PROGRAM

Graduate Program Coordinator

M31 Denny Hall, Box 353100

206-685-1562

The department recognizes three principal subfields of anthropology within its faculty, programs, and curriculum: archaeology, biocultural anthropology, and sociocultural anthropology (including linguistic anthropology). The department offers three distinct PhD programs within the subdisciplines. Additionally, the department has an informal program in environmental anthropology which applicants may pursue within one of the traditional PhD track programs. A concurrent degree program with Health Services offers an MPH/PhD. A PhD program in sociocultural anthropology with emphasis in ethnomusicology is offered in cooperation with the School of Music. The MA degree may be earned within the PhD programs. Graduate students are admitted to, and specialize in, their chosen subfields from the beginning of their graduate studies.

### Admission Requirements

Applicants are admitted to begin study only during autumn quarter and are advised to have their application materials completed by the beginning of the prior January. A complete application file includes the online application to the Graduate School, official transcripts, the supplementary application to anthropology, three recommendations, a statement of purpose, and scores from the Graduate Record Examination (GRE). International students are required to take the TOEFL exam as well as the GRE.

### Program Requirements

For each of the respective graduate programs, completion of the core requirements and a reading knowledge of one foreign language are required. Under the guidance of a supervisory committee selected from the appropriate subfield, the student shapes an individual program. The major areas emphasized in the faculty and curriculum are the United States, Mexico, Africa, South Asia, Southeast Asia, China, Oceania, Middle East, and the post-Soviet states. The MA degree usually requires two years of graduate study; the PhD programs usually require at least three years beyond the master's level, including a year of independent field research and a year to organize field materials and write a doctoral dissertation. The MA degree can be earned only within the PhD programs as a thesis or non-thesis degree.

### Financial Aid

Two multi-year recruitment fellowships are awarded to outstanding entering students. A limited number of teaching and research assistantships and hourly positions are offered primarily to advanced students. Applicants should apply for Foreign Language Area Studies Fellowships if qualified. Work-study positions may also be available for eligible graduate students.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [uw.edu/students/crscat/](http://uw.edu/students/crscat/)

**ANTH 100 Introduction to Anthropology (5) I&S** Introduction to the subfields of archaeology, biocultural anthropology, and sociocultural anthropology through the examination of selected problems in human physical, cultural, and social evolution. Not recommended for students who have had other courses in anthropology, archaeology, or biocultural anthropology. May not be counted toward the 55 credits required for the major in anthropology. Offered: AWSp.

**ANTH 101 Exploring Sociocultural Anthropology (5) I&S DeLeon, Hoffman** Introduces perspectives from sociocultural anthropology on the diversity and the dynamics of collective human life. Examines how individual lives are shaped by broader social and cultural contexts, how people make

meaning, and how power relations work. Introduces ethnography as a method for documenting and understanding social and cultural life. Offered: AWSp.

**ANTH 150 Culture and Rights: Exploring the Meaning and Practice of Human Rights (5) I&S** Examines social justice issues with the aim of obtaining deeper understanding of human rights. Analyzes historical and theoretical foundations and introduces international and regional institutions designed to implement and enforce human rights. Case studies in sovereignty, war crimes, ethnic cleansing, genocide, torture, truth commissions, and forgiveness.

**ANTH 202 Principles of Sociocultural Anthropology (5) I&S** Comparison of lifeways of various non-Western and Western peoples. Introduction to basic theories and methods used in the field.

**ANTH 203 Introduction to Anthropological Linguistics (5) I&S/VLPA** Linguistic methods and theories used within anthropology. Basic structural features of language; human language and animal communication compared; evidence for the innate nature of language. Language and culture: linguistic relativism, ethnography of communication, sociolinguistics. Language and nationalism, language politics in the U.S. and elsewhere. Offered: jointly with LING 203.

**ANTH 204 Reading Ethnography (5) I&S** Introduction to the descriptive and analytic literature of cultural anthropology. Extended examination of representative accounts of the lifeway of peoples from selected areas of the world with an emphasis on methods of observation and analysis.

**ANTH 206 The Cultural Animal (5) I&S/NW** Examination of the interaction between biology and culture in shaping human social behavior. Basic principles of natural selection, gene-environment interaction, cultural transmission, learning, and cultural evolution; application of these to various topics, including gender, violence, politics, kinship, and religion.

**ANTH 207 Class and Culture in America (5) I&S** Anthropological view of the contemporary United States with emphasis on social class. Through ethnographic readings examines education, work, political economy, working class experience and the ideology of the middle class, and relations between class and race, gender, ethnicity, language, place, sexuality, and culture.

**ANTH 208 The Culture Concept (5) I&S** History of the culture concept and its use in the field of cultural anthropology. History of its emergence in European colonial expansion and contemporary debates about its place as the central concept defining the field of anthropology.

**ANTH 209 Anthropology Through Visual Media (5) I&S/VLPA Welland** Theories of culture and cultural variation, as seen and understood through visual media such as films, video, and photography.

**ANTH 210 Introduction to Environmental Anthropology (5) I&S Pena, Harrell** Introduction to human/environment interactions from various anthropological perspectives. Intellectual history of anthropological approaches to environment, emphasizing the mutual interconnectedness of people and nature. Survey of evolutionary models; cultural ecology; systems approaches; indigenous knowledge; ethnoecology; nature and the state; political ecology; ecofeminism; and environmentalism.

**ANTH 211 Environmental Justice (5) I&S Pena** Examines introductory studies of environmental racism and ecological injustice in the USA and select areas of the world. Reviews environmental justice theories and methods applied to risk science, ecosystem management, biodiversity conservation, and sustainable development. Includes comparative studies of social movements for "eco-justice." Offered: jointly with AES 211/ENVIR 211.

**ANTH 215 Introduction to Medical Anthropology and Global Health (5) I&S Chapman** Explores influences of global processes on health of U.S. and other societies from a social-justice perspective. Emphasizes inter-relationships between cultural, environmental, social-economic, political, and medical systems that contribute to health status, outcomes, policies, and health-care delivery, focus on health dispari-

ties within and between societies and communities around the world.

**ANTH 228 Identities: Race, Class, Gender, and Sexuality in Anthropology (5) I&S** An introduction to the study of race, class, gender, and sexuality in anthropology. Through ethnographic and theoretical readings, students are introduced to the concept of identity as intersectional construction and social performance.

**ANTH 233 Introduction to Language and Society (5) VLPA Evans, Wassink** Provides an introduction to they study of language through culture and society, and raises and awareness of the role that society and the individual play in shaping language via the systematic observation and critical discussion of linguistic phenomena. Offered: jointly with COM 233/LING 233; A.

**ANTH 269 Special Topics in Anthropology (3–5, max, 10)** Delineation and analysis of a specific problem or related problems in anthropology. Offered: occasionally.

**ANTH 289 Identities: Service Learning (3) I&S** Engages students in volunteer activities in order to explore the process of social change around intersections of race, class, gender, and sexuality. A service learning companion course to ANTH 228. Students must be enrolled in ANTH 228 in order to enroll in ANTH 289

**ANTH 301 Human Nature and Culture (3) I&S** Comparison of various anthropological perspectives on the sources of variation in customs, values, and beliefs of human groups, including non-Western peoples and contemporary Americans.

**ANTH 305 Anthropology of the Body (5) I&S** Surveys classic anthropological literature examining the relationship between culture and the body. Examines Euroamerican body culture historically. Explores how the body is represented in mass media and the effects this has on everyday body ideologies.

**ANTH 306 Representations of the Pacific Islands and Islanders (3) I&S/VLPA Kahn** Explores written texts and visual images about the Pacific Islands and Islanders in an effort to understand the power of representation and its relationship to the construction of knowledge. Examples drawn from early explorers, artists, novelists, anthropologists, the tourist industry, and Pacific Islanders.

**ANTH 307 U.S. Pacific Islander Contemporary Culture (5) I&S** Examines U.S. Pacific Islander culture as informed by Pacific history, social and cultural organization. Emphasis on understanding contemporary experience in the U.S. and other diaspora communities. Major themes include post-colonialism, migration, family, religion, politics, gender, education, and transnational identity. Recommended: either ANTH 202 or AES 151. Offered: jointly with AAS 300. Offered: Sp.

**ANTH 308 Anthropology of Women's Health and Reproduction (5) I&S Chapman** Introduction to anthropological approaches to women's health, addressing women's health status and participation in healthcare. Topics include reproductive health, women's bodies and sexuality, social policy in relation to gender, race, ethnicity, and class. Emphasis on how the politics of gender shapes women's experiences of health care institutions in the U.S.

**ANTH 310 Native North American Societies (5) I&S Smith** Traditional cultures of America north of Mexico, emphasizing diversity of North American Indian and Eskimo societies. Origins of Native-American culture areas and language groupings; subsistence systems; levels of social organization; European conquest and colonialism; and description of representative cultures from the ten culture areas. Recommended: ANTH 100.

**ANTH 312 Pacific Islands Literature (5) I&S/VLPA** Focuses on works written by Pacific Islanders (novels, short stories, plays, and poetry) since the 1970s. Explores colonialism and its effects on indigenous peoples. Examines discourses of gender, class, and cultural identity within the Pacific Islands region.

**ANTH 313 Peoples of Africa (5) I&S** Survey of the many cultures of pre- and post-colonial sub-Saharan Africa. Appre-

ciation of the adaptability, strength, and creativity of African peoples. Recommended: ANTH 100.

**ANTH 314 Ethnography, Transnationalism, and Community in Island Southeast Asia/Asian American (5) I&S** Lowe Ethnographic exploration of the transformative processes of transnationalism in relation to identity and community formation in Southeast Asia and among Southeast Asian Americans. Experiential learning format concentrates on mini-ethnographic projects, field trips, and group presentations. Prerequisite: either one 200-level ANTH course or one AAS/AES course. Offered: jointly with AAS 314.

**ANTH 315 Southeast Asian Civilization: Buddhist and Vietnamese (5) I&S** Keyes Civilizations of Theravada Buddhist societies in Burma, Thailand, Cambodia, and Laos and in Vietnamese societies of Southeast Asia. Culture of tribal peoples who live on peripheries of these societies. Cultural transformations consequent upon the war in Indochina and resettlement of Indochinese refugees in United States. Offered: jointly with SISSE 315.

**ANTH 316 Modern South Asia (5) I&S** Twentieth-century history and society of Indian subcontinent. Topics include nationalism, rural and urban life, popular culture, gender, and environmental politics. Offered: jointly with SISSA 316.

**ANTH 317 Anthropology of Tibetan Civilization (5) I&S** Introduces the basic features of Tibetan society and culture, exploring how the global debate over Tibet's past, present, and future relates to contemporary concerns in anthropology, through the examination of Tibetan history, social and political organization, religion, and other cultural themes in both traditional and contemporary contexts.

**ANTH 318 Peoples and Cultures of the Islamic Middle East (3) I&S** Survey of cultures and peoples of Islamic Middle East and North Africa. First half of the course emphasizes the integration of peasant, urban, and nomadic societies in the traditional culture and economy; the second half concentrates on the transformation of the traditional life styles through the process of westernization and modernization.

**ANTH 320 Game Theory, Evolution, and Behavior (4) I&S, QSR** Bergstrom, Smith Introduction to the logic and basic techniques of modern game theory, and exemplary applications to understand behavioral variation and social interaction in humans and other species. Emphasizes non-mathematical representations of fundamental concepts and processes, with considerable use of computer-based exercises and experiments. Offered: jointly with BIOL 320.

**ANTH 321 Comparative Religion (3) I&S** Anthropological approaches to religious experience and belief with emphasis on conceptual issues such as ritual, symbolism, identity, ecstatic experience, and revitalization movements in the context of globalization. Also addresses the diversity of religious expression in American culture and how that compares with other societies. Offered: jointly with RELIG 321.

**ANTH 322 Comparative Study of Death (5) I&S** Death analyzed from a cross-cultural perspective. Topics include funerary practices, concepts of the soul and afterlife, cultural variations in grief, cemeteries as folk art, and medical and ethical issues in comparative context. American death practices compared to those of other cultures. Offered: jointly with RELIG 320.

**ANTH 323 Human Rights Law in Culture and Practice (5) I&S** Introduces the complexities of issues surrounding human rights. Examines human rights concerns through critical analyses, taking into account legal, social, economic, and historical variables. Offered: jointly with LSJ 321.

**ANTH 324 Culture and Politics of Africa (5) I&S** Hoffman Introduction to African cultural responses to the slave trade, European colonialism, and globalization. Topics include an examination of Euro-American representations of Africa and how they are often at odds with African realities.

**ANTH 330 Religion, Identity, and Cultural Pluralism (5) I&S** The role of religion in shaping personal and communal identity in a pluralistic society. Themes include current dimensions of American pluralism, effects of ethnicity, immigration, and electronic communication on building religious

communities, and issues of conflict, violence, and reconciliation. Offered: jointly with RELIG 330.

**ANTH 331 Native Art of the Pacific Northwest Coast (5) I&S/ VLPA** Survey of the indigenous arts of the Pacific Northwest Coast from the Columbia River in the south to Southeast Alaska in the north. Overview of ancient through contemporary times, focusing on the historical and cultural contexts of the arts and the stylistic differences between tribal and individual artists' styles. Offered: jointly with ART H 331.

**ANTH 339 Social Movements in Contemporary India (5) Ramamurthy, Sivaramakrishnan** Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with WOMEN 339/SISA 339.

**ANTH 341 Political Violence and the Post-Colonial State in South Asia (5) I&S** Examines theoretical approaches to the analysis of collective, state, and anti-state violence in post-colonial South Asia through the study of specific cases of political violence in modern India, Pakistan, Sri Lanka, and Nepal. Offered: jointly with SISSA 341.

**ANTH 345 Women and International Economic Development (5) I&S Ramamurthy** Questions how women are affected by economic development in Third World and celebrates redefinitions of what development means. Theoretical perspectives and methods to interrogate gender and development policies introduced. Current processes of globalization and potential for changing gender and economic inequalities assessed. Offered: jointly with SIS 345/WOMEN 345.

**ANTH 349 Dance/Performance Ethnography (3) VLPA/I&S** Explores theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses primarily on dance. Also discusses methods and theories applicable to other physical practices such as music, theatre, sports, and performance arts. Offered: jointly with ANTH 349.

**ANTH 352 Buddhism and Society: The Theravada Buddhist Tradition in South and Southeast Asia (5) I&S** Introduction to the religious tradition of Theravada Buddhism (as practiced in Sri Lanka, Burma, Thailand, Laos, and Cambodia) and examination of the variations in ethical orientations developed through Theravada Buddhist ideas. Recommended: RELIG 202 or one eastern religions course. Offered: jointly with RELIG 350.

**ANTH 353 Anthropological Studies of Women (5) I&S Welland** Critical examination of the intersections between anthropology, research on gender issues, and feminism. Readings and class discussions examine the ways women have been represented in the field of anthropology and the repercussions of these anthropological images of women on contemporary understandings of gender. Offered: jointly with WOMEN 353.

**ANTH 356 Visual Anthropology (3) I&S Welland** The place of photography and films in ethnography; their use in the documentation and interpretation of cultural and social systems.

**ANTH 358 Culture and Cognition (5) I&S/NW** Surveys anthropological theories and research on the relationship between language, thought, and behavior. Examines the influence of cultural inheritance on perception, classification, inference, and choice. Describes relevant cross-cultural research methods and evaluates theoretical models used by cognitive anthropologists. Prerequisite: either ANTH 203, LING 203, or PSYCH 355.

**ANTH 359 Linguistic Ethnography (5) I&S** Language use in cultural contexts. How language reflects world view. Language use in culturally significant settings. Analyzes sets of culturally specific terms in semantic domains. Includes projects demonstrating application of theory and method to data addressing specific problems. Workshop format.

**ANTH 360 Anthropology of Popular Culture (5) I&S Bilaniuk** Analysis of the forces that shape popular culture. Examina-

tion of the local meanings of global trends in music, clothing, and leisure activities through case studies around the world. Students learn ethnographic methods and conduct an original research project. Prerequisite: one 200-level ANTH course.

**ANTH 361 Anthropology of Food (5) I&S** Explores how foods reproduce social relations, the meanings food acquire within culture, how food systems are intertwined with structures of power and economic inequality, national cuisines and restaurant cultures, the global marketing of foods, controversies surrounding GMO foods, and alternative food communities. Prerequisite: one 200-level ANTH course.

**ANTH 362 Anthropology of Tourism (5) I&S Kahn** Anthropological approaches to tourism. Debates about cultural encounters and cultural change, authenticity, economic development, social inequalities, identity, gender, ethnicity, nationality, and cultural representation. Prerequisite: one 200-level ANTH course.

**ANTH 369 Special Problems in Anthropology (3-5, max, 10)** Delineation and analysis of a specific problem or related problems in sociocultural anthropology.

**ANTH 370 Han Chinese Society and Culture (5) I&S Harrell** Themes in the society and culture of the Han Chinese people. Concepts of self; personal interaction; family, gender, and marriage; communities and the state; religion and ritual; class, social categories, and social mobility; culturalism, nationalism, and patriotism. Offered: jointly with SISEA 370.

**ANTH 371 Anthropology of Development (5) I&S Sivaramakrishnan** Development refers to social, economic, cultural, political transformations viewed as progress. Studied from anthropological perspectives. Historical, social context for emergence of ideas of development. Role of development in promoting national cultures. Impact of development on individual citizenship, families, rural-urban relations, workers, business, environment. Prerequisite: one 200-level ANTH course. Offered: jointly with ENVIR 371.

**ANTH 374 Narrative, Literature, and Medical Anthropology (5) I&S Taylor** Introduces anthropological perspectives on the workings of narrative in illness, healing, and medicine. Considers writings in medical anthropology alongside other genres of writing about similar topics. Readings include memoirs and fiction as well as scholarly articles.

**ANTH 375 Comparative Systems of Healing (5) I&S** Introduction to the anthropological study of healing. Examines local approaches to healing, considering their similarities and differences and addresses their place within global systems. Includes anthropological theories of healing.

**ANTH 379 Prisons in Anthropological Perspective (5) I&S Rhodes** An introduction to prisons from an anthropological point of view, with focus on prisons as total institutions. Topics include the experiences of prisoners and staff, prison history, issues of race and gender associated with incarceration, and the imprisonment of the mentally ill. Offered: jointly with LSJ 379.

**ANTH 399 Junior Honors Seminar (5) I&S** Teaches skills required to write senior honors thesis, including evaluation of academic and scientific writing, formulation of problem, collection of bibliographic and other resources, evaluation of research proposals, and research proposal preparation. Final product is a formal thesis prospectus.

**ANTH 404 South America (5) I&S** Survey of anthropological research among the traditional peoples of South America. Historical background and contemporary life of cultural groups of the Amazonian Basin. Transformation of traditional life-styles through the process of European conquest and the aftermath of colonialism. Detailed study of selected societies. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 406 China's Environment (5) I&S Harrell** Analysis of contemporary environmental problems in China, including population, food, water supply, pollution, biodiversity, and environmental activism. Combines natural science and social science perspectives. Prerequisite: either ANTH 210, ENVIR 201, SIS 200, SIS 201, or SIS 202. Offered: jointly with SISEA 406.

**ANTH 407 Global Futures in East Asia (5) I&S** *Anagnost* Explores interlinked modernity projects in China, Japan, Korea, and Taiwan and how the education of youth figures in projects of national development and international economic competition. Recommended: prior courses in socio-cultural anthropology and East Asian studies. Offered: jointly with SISEA 407; AWSpS.

**ANTH 412 South Asian Social Structure (5) I&S** Caste class, and community in modern India. Transitions from colonial typology to analysis of social change, diversity, stability, and caste hierarchy in rural society. Current debates on class and community in Indian society, rural and urban, explored through themes of identity, structure, and mobility. Prerequisite: one 200-level ANTH course. Offered: jointly with SISA 412.

**ANTH 414 Applied and Public Anthropology (5) I&S** *Barker, Chapman* Considers the practical application of anthropology's methods and theories to the challenges and research needs of communities and organizations. Concentrates on a specific topic each quarter. Includes a required service-learning component that helps students connect classroom learning beyond the University.

**ANTH 415 Anthropology and International Health (5) I&S** *Chapman, Taylor* Explores international health from medical anthropological perspective, focusing on serious health problems facing resource-poor societies around the globe and U.S. Develops awareness on political, socio-economic, ecological, and cultural complexity of most health problems and anthropology's consequent role in the field of international health. Prerequisite: ANTH 215.

**ANTH 416 Comparative Social Movements: Mexico and the United States (5) I&S** *Pena* Historical, ethnographic, and theoretical perspectives in the study of Mexican-origin communities in social movements in Mexico and the United States with a focus on workers, immigrants, peasants, women, indigenous peoples, and students as forces of collective mobilization and social, cultural, and political change. Offered: jointly with CHSTU 416.

**ANTH 418 Indian Heritage of Mexico and Central America (5) I&S** *DeLeon* Indian civilization of Mexico and Guatemala, their origins and ecological foundations. Contemporary communities of Mexico and Guatemala, focusing on creative adaptation of pre-Columbian traditions to modern national realities. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 420 Psychoanalysis and the Study of Culture (3) I&S** *Spain* Anthropological use of theories developed by Freud to understand culture. Reviews psychoanalytic theory as a foundation for examining the work of Roheim, LaBarre, Devereaux, Kardiner, and Spiro, among others. Topics covered include the universality of oedipality and the utility of psychoanalysis in non-Western cultures.

**ANTH 421 Belief, Ritual, and the Structure of Religion (5) I&S** Systematic survey of concepts, models, and theories that characterize the anthropological study of religion. Consideration of the human universal basis of religion and of diverse ways in which religions are constructed and related to social experience. Prerequisite: either ANTH 321 or RELIG 201; RELIG 202.

**ANTH 422 Peoples and Cultures of Central and Inner Asia (5) I&S** *Mawkanuli* Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang - Eastern Turkestan, Tibet and Manchuira), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with NEAR E 472/SISRE 472.

**ANTH 423 Traffic Across Cultural Boundaries (5) I&S** *DeLeon* Focuses on the movement of cultural patterns and processes across boundaries, examining the "contact zones" in colonial encounters, moving to borrowing and blendings along ethnic and national borders. Examines border crossing of immigration and diasporas. Ethnographic examples from the Americas and Africa. Prerequisite: one 200-level ANTH course.

**ANTH 424 Hunter-Gatherer Societies (4) I&S** Comparative examination of human foraging societies, emphasizing ethnographic cases and socioecological analysis. Foraging and human evolution; rationality of foraging societies; population and reproductive strategies; variability in social organization and land use; power relations between the sexes; ritual and belief; contemporary status of hunter-gatherer populations. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 425 Anthropology of the Post-Soviet States (5) I&S** Analysis of Soviet and post-Soviet culture and identity. Historical transformations in Soviet approaches to ethnicity and nationality; contemporary processes of nationbuilding and interethnic conflict. Examination of culture through the intersection of social ritual, government policies, language, economic practices, and daily life. Regional focus will vary. Offered: jointly with SISRE 425.

**ANTH 427 Anthropology in Urban Settings (3) I&S** Cross-cultural examination of theoretical issues in anthropology as studied in urban places. Focuses on ethnic identity and the formation of urban ethnic groups; migration and its rural and urban consequences; family and kinship organization as an adaptation to urban complexity; the nature of urban voluntary associations; law and politics; and the developments in anthropological method. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 428 Anthropological Perspectives on Ethnicity (5) I&S** *DeLeon* Anthropological approaches to ethnicity and ethnic group relations with reference to other models including race, caste, class, regional groupings, nations, religion, and stratification. Data drawn from precolonial, colonial, and postcolonial periods. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 429 Expressive Culture (5) VLPA** *Welland* Anthropological view of one expressive aspect of culture: plastic and graphic arts, myth and folktale, music, dance, humor and tragedy, or play and games. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 430 The Anthropology of Music (3) I&S/VLPA** Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation, e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with MUSIC 480; alternate years.

**ANTH 432 Sociolinguistics I (5) I&S/VLPA** Social variation in the phonology, morphology, syntax, lexicon of languages and dialects. Nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: either LING 200 or LING 400; recommended: prior or concurrent registration in ANTH 451 or LING 450. Offered: jointly with LING 432.

**ANTH 433 Sociolinguistics II (5) I&S/VLPA** *Wassink* Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Offered: jointly with LING 433.

**ANTH 435 Economic Anthropology (5) I&S** Chief features of nonmonetary and simple monetary economics. Impact of central or metropolitan market economy and industrial technology as peripheral systems, especially of small-scale and limited monetary circulation. Development and application in anthropology of economic concepts, including Marxian. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 436 Comparative Family Organization (5) I&S** Function and structure of family developmental processes in band, tribal, peasant, and modern societies. Illustrates inter- and intrasocietal variation and provides data for construction of formal models of process and variation in family systems. Prerequisite: either one 200-level ANTH course, LING 203, or SOC 352.

**ANTH 437 Political Anthropology and Social Change (5) I&S** Study of politics from different anthropological perspectives,

specially processual approaches to political change. Focused examination of cultural aspects of modern state formation in local and regional contexts. Themes: colonialism and nationalism, regime and transitions, local politics and global processes, social construction of bureaucracy. Prerequisite: one 200-level ANTH course.

**ANTH 438 The Analysis of Kinship Systems (5) I&S** Data, theories, and analytical technique used in the study of kinship systems, including our own, from around the world. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 439 Pidgin and Creole Languages (5) VLPA/I&S** *Wassink* Explores aspects of the linguistic structure, history, and social context of pidgin and creole languages. Creolization as one possible outcome of language contact. Examines theories of creole genesis, similarities and differences between creole and non-creole languages. Prerequisite: either ANTH 203, LING 200, LING 201, LING 203, or LING 400. Offered: jointly with LING 430.

**ANTH 442 Global Asia (5) I&S** *Welland* Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with SISA 442/WOMEN 446; W.

**ANTH 443 Anthropology of Modern Japan (5) I&S** Examines the problem of modernity in Japan since the late nineteenth century, with emphasis on contemporary Japan. Critically addresses previous anthropological work concerning patterns of Japanese "culture." Particular focus on the influence of modern forms of power, media, and exchange in the construction of present-day Japan. Offered: jointly with SISEA 447.

**ANTH 444 Politics of Representation in Modern China (5) I&S** *Anagnost* Focuses on issues of representation and power in twentieth century China. Combines substantive information on modern Chinese society and culture with recent debates in social theory and the politics of representation. Major themes include Chinese nationalism, body politics, popular culture, and everyday practice. Offered: jointly with SISEA 444.

**ANTH 445 Literature and Society in Southeast Asia (5, max. 10) I&S/VLPA** *Lowe* Focus on either Vietnam or Thailand. Provides students with opportunity to explore how those living in Southeast Asia have reflected on the radical social changes their societies have undergone through novels, short stories, and poetry. Prerequisite: either one 200-level ANTH course or LING 203. Offered: jointly with SISSE 445.

**ANTH 446 Class and Culture in East Asia (5) I&S** Examines the nexus between culture and systems of social stratification/class in East Asia, with an emphasis on Taiwan, Korea, Japan, and China. Topics include class formation, mechanisms of social mobility and reproduction, markers of status and hierarchy, resistance, and the formation of class identity. Offered: jointly with SISEA 443.

**ANTH 447 Anthropology of Chinese Religion (5) I&S** Chinese religions, including folk, popular, and new religions, viewed from an anthropological perspective. Prerequisite: either ANTH 202, 204, 208, 321, 421, 370, or RELIG 202, or SISEA 370, 454.

**ANTH 448 Modern Korean Society (5) I&S** Social organization and values of twentieth-century Korea. Changes in family and kinship, gender relations, rural society, urban life, education, and industrial organization since 1900. Differences between North and South Korea since 1945. Recommended: HSTAS/SISEA 212. Offered: jointly with SISEA 448.

**ANTH 449 Social Transformation of Modern East Asia (5) I&S** Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Recommended: two history or anthropology of East Asia courses. Offered: jointly with SIS 449.

**ANTH 450 Language and Gender (5) I&S, VLPA** *Bilaniuk* Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with WOMEN 450/LING 458.

**ANTH 452 Explorations in Biopower (5) I&S** *Amrute, Anagnost, Lowe, Rhodes* Explores Foucault's concept of biopower - power organized around life - from the perspectives of its theoretical mediations and its anthropological interventions. Looks at specific descriptions of what biopower is and ethnographic extensions of the concept to particular settings and experiences taking place within the modern state.

**ANTH 454 Women, Words, Music, and Change (5) I&S/VLPA** Comparative analysis of use of myths, tales, music, and other forms of expressive culture to account for, reinforce, and change women's status and roles. Recommended: WOMEN 353. Offered: jointly with WOMEN 454.

**ANTH 455 Areal Linguistics (3, max. 6) I&S/VLPA** Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Borrowing vocabulary specialization, lexical change, and language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with LING 455.

**ANTH 456 Contemporary Ethnography (5) I&S** Techniques and theories of ethnographic description for the anthropological analysis of contemporary life. Materials drawn from the contemporary United States, with a focus on issues and events in the Seattle area. Includes fieldwork projects. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 457 Ecological Anthropology (5) I&S** Survey of anthropological research on interaction between human societies and their environments. Logic of different subsistence systems; intensification and transformation of subsistence strategies; population regulation; ecological aspects of human nutrition, disease, spatial organization, ethnicity, social stratification, conflict, and cooperation; historical roots of current ecological crisis.

**ANTH 458 Ethnobiology: Plants, Animals, and People (5) I&S** *Hunn* Culturally mediated relationships between human and natural environment studied in a comparative and evolutionary framework. How do peoples in diverse cultures recognize and name plants and animals and understand their relationship with nature? How is this traditional ecological knowledge applied in people's daily lives? Prerequisite: either BIO A 201, ARCHY 205, or one 200-level ANTH course.

**ANTH 459 Culture, Ecology, and Politics (5) I&S** *Pena* Critical studies of class, gender and race differences in environmental politics. The political-economic dimensions of ecological change. Contemporary environmental movements including the varieties of bioregionalism, deep ecology, ecofeminism, ecosocialism, environmental justice, and social ecology. Offered: jointly with ENVIR 459.

**ANTH 460 History of Anthropology (5) I&S** Sources and development of leading concepts, issues, and approaches in anthropology. Findings of anthropology in relation to scientific and humanistic implications and to practical application. Main contributors to field; their work and influence. Past, present, and future perspectives, including anthropology of modern life.

**ANTH 464 Language Politics and Cultural Identity (3) I&S/VLPA** *Bilaniuk* Theories and case studies of the power of language and how it is manipulated. Multilingualism, diglossia. Role of language and linguistics in nationalism. Standardization, educational policy, language and ethnicity. World languages, language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with LING 464

**ANTH 465 Critical Anthropology of Mass Culture (5) I&S** Critical overview of theories of mass culture and their relationship to current anthropological practice. Analyses of the historical interconnections among capitalism and com-

modity fetishism, modernity and representation, and media and consumption.

**ANTH 466 Anthropology Honors Thesis ([1-9]-, max. 18) I&S** Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

**ANTH 467 Anthropology of Education (5) I&S** Uses a wide range of social theory and philosophy to investigate mechanisms which reproduce inequality and asymmetry in American education.

**ANTH 469 Special Studies in Anthropology (3-5, max. 15) I&S** Delineation and analysis of a specific problem or related problems in anthropology. Offered occasionally by visitors or resident faculty.

**ANTH 470 Minority Peoples of China (5) I&S** *Harrell* Interaction between China and the peoples of its periphery, including inner Asia, Tibet, northern mainland Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state. Prerequisite: one 200-level ANTH course; LING 203; either ANTH/SISEA 370 or HSTAS 454. Offered: jointly with SISEA 470.

**ANTH 471 Colonialism and Culture (5) I&S** Explores the cultural, political, and historical implications of the power to colonize. Readings include ethnographic, historical, and literary works on colonialism, nationalist responses, and postcolonial positions.

**ANTH 472 Case Studies in Medical Anthropology and Global Health (5) I&S** Uses multidisciplinary case studies to analyze quantitative parameters of diseases; contrast the description and analytic approaches of health sciences, anthropology, and other social sciences; integrate diverse disciplinary perspectives into cohesive information; organize class presentations; and apply critical thinking in approaches complex health issues. Offered: Sp.

**ANTH 473 Anthropology of Science and Technology (5) I&S/NW** *Lowe* Introduces the study of science and technology as social and cultural phenomena. Considers both theoretical and methodological questions. Readings include key texts from interdisciplinary field of science studies as well as selected ethnographic texts. Examples taken from U.S. society and other local contexts. Prerequisite: one 200-level ANTH course.

**ANTH 474 Social Difference and Medical Knowledge (5) I&S** *Taylor* Explores relations between medical and social categories: how social differences become medicalized; how medical conditions become associated with stigmatized social groups; and how categories become sources of identity and bases for political action. Considers classifications (race, gender, sexuality, disability) and how each has shaped and/or been shaped by medical science/practice

**ANTH 475 Perspectives in Medical Anthropology (5) I&S** *Taylor* Introduction to medical anthropology. Explores the relationships among culture, society, and medicine. Examples from Western medicine as well as from other medical systems, incorporating both interpretive and critical approaches. Offered: jointly with HSERV 475.

**ANTH 476 Culture, Medicine, and the Body (5) I&S** Explores the relationship between the body and society, with emphasis on the role of medicine as a mediator between them. Case study material, primarily from contemporary bio-medicine, as well as critical, postmodern, and feminist approaches to the body introduced within a general comparative and anthropological framework.

**ANTH 477 Medicine in America: Conflicts and Contradictions (3) I&S** Introduction to the pragmatic and theoretical dilemmas of current biomedical practice with emphasis on social and cultural context. Case studies in technological intervention, risk management, and other health-related issues used to explore connections among patients' experiences, medical practices, and the contemporary social context.

**ANTH 478 Introduction to the Anthropology of Institutions (5) I&S** *Rhodes* Historical, theoretical, and ethnographic perspectives on the study of total institutions, with an em-

phasis on prisons and psychiatric facilities. Includes issues of subjection and subjectivity, institutional social dynamics, and social justice concerns.

**ANTH 479 Advanced Topics in Medical Anthropology (3-5, max. 15) I&S** *Chapman, Rhodes, Taylor* Explores theoretical and ethnographic advanced topics in medical anthropology. Prerequisite: permission of instructor.

**ANTH 483 Africa Living with HIV/AIDS (5) I&S** *Chapman* Examines the epidemiological, historical, political-economic, and social-cultural dimensions of Africa living with HIV/AIDS and the current challenges and debates in international HIV/AIDS policy and programming. Various approaches and analytical models help students grasp the complicated and multiple effects, responses, conditions, and debates surrounding the African HIV/AIDS pandemic.

**ANTH 484 Motherhood: Ideologies and Technologies (5) I&S** Examines how motherhood is culturally constituted, regulated, and managed within various ideological and technological milieus. Uses ethnographies from anthropology and case studies from feminist legal theory. Topics include slave mothers, surrogate mothers, lesbian mothers, transracial mothers, co-mothers, teen mothers. Prerequisite: WOMEN 200. Offered: jointly with WOMEN 458.

**ANTH 486 Human Family Systems: Biological and Social Aspects (5) I&S** Biological bases for human mating and reproduction and an examination of the range of cross-cultural variability in human systems of kinship and marriage; comparisons among a wide range of human and nonhuman species and between Western and non-Western human societies; interplay of biological, ecological, and sociocultural factors in determining the structure and function of human family systems. Offered: jointly with SOC 486.

**ANTH 487 Cultures and Politics of Environmental Justice (5) I&S** *Pena* Comparative survey of environmental justice movements in the world with focus on critical studies of environmental racism, risk, and sustainable development. Provides theoretical knowledge and research methods incorporating the study of equity and autonomy in environmental impact and risk assessment and other aspects of environmental policy politics. Offered: jointly with AES 487.

**ANTH 488 Agroecology (5) I&S** *Pena* Cross-cultural survey of agroecological research methods, theoretical problems, policy issues, and ethical debates. Local knowledge and ethnoscientific bases of alternative agriculture. Comparative political ecology of agroecosystems with a focus on indicators of social equity and ecological sustainability.

**ANTH 489 Anthropology Practicum (2-9, max. 15)** Faculty-supervised internships, either on or off campus, in organizations utilizing anthropological skills in nonacademic settings. Settings may include museums, academic journals, social service or other governmental agencies, and private nonprofit service agencies.

**ANTH 491 Honors Colloquium (2, max. 12) I&S** Introduction to anthropological research. Students read original articles and papers and discuss them with authors. Research presenters include department faculty, visiting faculty, and advanced graduate students. Credit/no credit only.

**ANTH 495 Advanced Problems in Ethnology (3-5, max. 10) I&S** Current problems in ethnology. Seminar format.

**ANTH 497 Domesticating International Human Rights: Perspectives on U.S. Asylum and Refugee Law (5) I&S** Examines the creation, production, and proliferation of law and legal categories relating to the status of refugees and asylum-seekers in the United States. Integrates anthropological perspectives of law's ability to create meaning in the examination of deeper implications of asylum and refugee law in American society. Offered: jointly with LSJ 425.

**ANTH 498 Women's Rights and Politics in Islamic Society (5) I&S** Human rights theory with women's legal rights and practice within context of the Islamic state. Introduction to debates regarding universality of human rights through examination of women's rights in Muslim context. Considers journalistic notions of homogeneity among Muslims, political nature of the Islamic state, and its mobilization of human rights. Offered: jointly with LSJ 421.

**ANTH 499 Undergraduate Research (\*, max. 12)**

**ANTH 500 Preceptorial Reading (6)** For beginning graduate students who have not had adequate training in the problems, principles, and methods involved in the analysis and comparison of social and cultural systems. Not open to graduate students in the sociocultural anthropology program.

**ANTH 503 Preceptorial Reading in Linguistic Anthropology (6)** For beginning graduate students who have not had prior training in the problems, principles, and methods involved in linguistic anthropology. See also course description for 203. Not open to graduate students in the linguistics program.

**ANTH 507 Current Issues in Sociocultural Anthropology (2-)** Biweekly presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to social, cultural, and linguistic anthropology. Credit/no credit only. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

**ANTH 508 Current Issues in Sociocultural Anthropology (2)** Biweekly presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to social, cultural, and linguistic anthropology. Credit/no credit only. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

**ANTH 509 Sociocultural Anthropology Problem Paper (4)** All first-year graduate students in sociocultural anthropology select a topic for independent research, conduct that research, and prepare a paper of about 25–50 pages on the topic chosen. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

**ANTH 510 Seminar on North American Indians (3)** Advanced comparative treatment of selected aspects of the Indian cultures and societies of North America.

**ANTH 514 Regional Seminar (3–5, max. 15)** Comparative treatment of selected aspects of cultures and societies of a particular region or area.

**ANTH 516 Rethinking Area Studies (5)** Lowe “Area study” is critiqued for its sources of funding, relationship to governmentality, and for ignoring other forms of global linkage in its particular framing of cultural, social, and political connectivity. Designed for graduate students conducting research on, in, or across such “area.” Attempts to rethink regions.

**ANTH 517 Seminar on South Asia (3)** Advanced analysis of selected problems in South Asian ethnology and social structure. Prerequisite: ANTH 412.

**ANTH 521 Seminar on the Anthropological Study of Religion (3, max. 9)** Advanced seminar in the anthropological study of religion designed for students who have a background in the theory and applications of theory developed in the anthropological study of religion. Seminar topics vary each quarter. Prerequisite: ANTH 422 and graduate standing; permission of instructor for graduate students in Comparative Religion.

**ANTH 523 Seminar on Religious and Political Violence (5)** Robinson Employs ethnographic studies and anthropological theory to examine the relationships between culture and power in the analysis of religious and political violence. Topics include modernity; secularisms and fundamentalisms; ritual, sacrifice, and martyrdom; law, rights, and subject-making. Offered: jointly with SIS 523.

**ANTH 525 Seminar in Culture Processes (3, max. 6)** The concept of process and its application to the study of culture.

**ANTH 526 Political Islam and Islamic Fundamentalism (3/5)** Robinson Examines political Islam as a modern phenomenon produced at the intersections between localized and globalized political cultures and between political, religious, and social authority. Focuses on anthropological studies to examine how Islamic publics produce moral judgments about political practices. Offered: jointly with SIS 526.

**ANTH 527 Ethnicities, Nations, and Cultural Identities (3)** Exploration of how cultural differences have been represented in ethnic and national narratives and how these narratives have shaped identities and social relations.

**ANTH 532 Sociolinguistics I (5)** Evans, Wassink Examines social variation in the phonology, morphology, syntax, and lexicon of languages and dialects. Includes nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, and language attitudes. Prerequisite: either LING 200 or LING 400; recommended: prior or concurrent registration in LING 450. Offered: jointly with LING 532; S.

**ANTH 533 Law, Liberalism, and Modernity (5)** Examines relationships between law, culture, and power through post-structuralist theories that consider subjectivity, agency, and identity. Explores connections between modern liberal law and the body, possessive individualisms, and discourses of rights. Topics include rights-talk, globalization, biopolitics, subject-making, modern nation-states, the rule of law, neo-liberalism, and legal cultures.

**ANTH 535 Research Issues in Demography and Population Studies (1–2, max. 7)** Interdisciplinary seminar on current research issues in demography and population studies. Critical analysis and discussion of readings drawn from anthropological, economic, geographic, and sociological approaches. Credit/no credit only. Offered: AWSp.

**ANTH 536 Seminar in Visual Anthropology (3–5)** Significance of anthropological cinema and photography placed in historical perspective. Screening of films to determine the role of the anthropologist as filmmaker, as well as the role of the filmmaker as anthropologist.

**ANTH 537 Political Anthropology and Law (3, max. 6)** Seminar on special topics in politics and law and their interrelationships.

**ANTH 539 Social Movements in Contemporary India (5)** Ramamurthy, Sivaramakrishnan Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with SISA 539/WOMEN 539.

**ANTH 540 Anthropology of Place (5)** Kahn, Pena Explores a variety of ways that “place” has been studied and theorized. Attention paid to places as they are sensed, inscribed, practiced, narrated, scripted, created, and reclaimed. “Place” also discussed in relation to issues of the environment, travel, diaspora, race, class, and gender.

**ANTH 541 Cultural Aspects of International Development (3)** Sivaramakrishnan Emergence of development as an aspect of late colonialism and the decolonization process. Ways in which development came to visualize social change in sectoral terms like rural land use, cities, and education, while objectifying people in target groups. Relationships between development and modernity, and development and globalization.

**ANTH 543 Seminar in Anthropology and Political Theory (5)** Examines the role of political theory in contemporary anthropology. Designed to work through particular thinkers or constellations of thought that inform anthropological thinking today. Content dependent upon instructor, but may include such topics as Marx, Weber, and Durkheim; Foucault, the Anthropology of Reason; and Frankfurt School.

**ANTH 549 Dance Performance Ethnography (3)** VLPA/I&S McMains Theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses on dance-methods and theories discussed also applicable to other physical practices such as music, theatre, sports and performance art. Offered: jointly with DANCE 550; W.

**ANTH 550 Field Techniques in Ethnography (5)** Techniques of collecting, ordering, and utilizing ethnographic data in the field. Problems of rapport, elicitation, observation, interpretation, and ethics. Credit/no credit only.

**ANTH 551 Research Design (5)** Focuses on the basic components, format, and writing style of grant proposals. Works through various stages of proposal writing, including titles, abstracts, introduction, theoretical orientations, significance, methodology, data analysis, etc. Discusses funding sources, human subjects reviews, and preparing budgets. Prerequisite: permission of instructor.

**ANTH 552 Practicum in Ethnographic Research (3)** Techniques of data recording, analysis, and writing for the field ethnographer. Not recommended for non-anthropology graduate students. Prerequisite: ANTH 550; ANTH 551.

**ANTH 556 The Evolution of the Family (3)** Biological evolution of species-specific behaviors and forms of sociality linked to human mating, reproduction, and parenting. Cultural evolution of human systems of kinship and marriage as fitness-maximizing adaptations to a wide range of habitats. Prerequisite: upper-division course in evolutionary theory, population genetics, behavioral ecology, primatology, or animal behavior. Offered: jointly with SOC 556.

**ANTH 559 Seminar in Language and Culture (3, max. 9)** Theoretical and methodological problems in language and culture.

**ANTH 560 Discourse and Culture (5)** Exploration of discourse and narrative as culturally constitutive activities. Critical examination of the social implications of cultural variation in discourse. Techniques of discourse analysis in anthropological research.

**ANTH 561 Seminar in Methods and Theories (3, max. 9)**

**ANTH 562 Clinically Applied Anthropology (3)** Anthropology as it relates to interdisciplinary delivery of health care. Cultural variation in illness beliefs and behavior, types of healing practice, illness prevention, and social support networks. Prerequisite: graduate standing and permission of instructor. Offered: jointly with NURS 562.

**ANTH 565 Theory of Sociocultural Anthropology (5)** First core course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: graduate standing in anthropology or permission of instructor.

**ANTH 566 Theory of Sociocultural Anthropology (5)** Second core course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: ANTH 565.

**ANTH 567 Theory of Sociocultural Anthropology (5)** Third core course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: ANTH 566.

**ANTH 569 Special Topics in Sociocultural Anthropology (3–5, max.15)** Delineation and analysis of a specific topic or set of related topics in sociocultural anthropology.

**ANTH 570 Environmental Anthropology (5)** Current issues in the study of human environment interaction from a cross-cultural perspective: ecological adaptation and maladaptation; ethnoscience and indigenous knowledge; anthropogenic environmental change; political ecology of “development;” interrelations of cultural and biological diversity; conflicts over indigenous land use and property rights, environmental justice, resource conservation, and sustainability.

**ANTH 572 Environmental Anthropology Research Methodology Colloquium (2, max. 10)** Environmental anthropology research methodology and practice. Presentations by faculty and advanced students, hands-on exercises, and extensive discussion. Students at various stages in the program learn practical details of current methods. Limited to environmental anthropology PhD students. Credit/no credit only.

**ANTH 573 Current Issues in Environmental Anthropology (2, max. 10)** Presentation and discussion of current research

and scholarly literature in environmental anthropology and related fields. Credit/no credit only. Prerequisite: graduate standing in any field of anthropology or permission of instructor.

**ANTH 574 Culture, Society, and Genomics (3)** Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with NURS 582/PHG 521.

**ANTH 575 Cultural Construction of Illness: Seminar in Medical Anthropology (5)** Historical and comparative examination of depression, neurasthenia, somatization, hypochondriasis, and hysteria. Anthropology of psychosomatics and psychiatry, including cultural analysis of selected biomedical, indigenous folk medical, and popular common-sense conceptualizations of illness.

**ANTH 578 Special Topics in the Anthropology of Institutions (5)** Explores theoretical issues.

**ANTH 580 Presenting Research Effectively (2)** Designed to help advanced graduate students develop the ability to present research projects effectively in a variety of formats relevant to the academic job-search process (c.v., job letter, interview, etc.). Faculty and alumni speakers share information, advice, and guidance regarding the job-search and the various paths toward meaningful employment.

**ANTH 581 Dissertation Writing (3)** Students experiment with different styles of anthropological writing. They apply writing techniques and styles to their own material. Students peer review for one another. Credit/no credit only.

**ANTH 583 Africa Living with HIV/AIDS (5)** Examines the epidemiological, historical, political-economic, and social-cultural dimensions of Africa living with HIV/AIDS and the current challenges and debates in international HIV/AIDS policy and programming. Various approaches and analytical models help students grasp the complicated and multiple effects, responses, conditions, and debates surrounding the African HIV/AIDS pandemic.

**ANTH 584 Ways of Speaking (5)** Theory and literature of the ethnography of communication, with special emphasis on the descriptive-comparative approach to culturally patterned styles of communicative conduct. Offered: jointly with COM 584.

**ANTH 599 Effective Teaching of Anthropology (1)** Class required of all graduate students who accept teaching assistantships: instruction in teaching methods and issues, e.g., professional ethics, preparing and delivering lectures, leading discussion groups, test writing and grading, diversity in the classroom. Credit/no credit only.

**ANTH 600 Independent Study or Research (\*)**

**ANTH 700 Master's Thesis (\*)** Credit/no credit only.

**ANTH 800 Doctoral Dissertation (\*)** Credit/no credit only.

## Archaeology

**ARCHY 101 Exploring Archaeology (5) I&S** Introduces perspectives from archaeology on the long term history of the diversity and the dynamics of human life. Examines how archaeologists gather and use data and how that information is relevant to contemporary society. Concepts and methods introduced through readings focus around a theme that varies such as environmental issues, warfare, and migration.

**ARCHY 105 The Human Past (5) I&S** Explores human cultural and biological evolution: how ancestors 2,500,000 years ago were like us but still different, Neanderthals and their extinction, social/economic revolutions from foraging to farming to "civilized"—progress, setbacks, failures, relationships with social and natural environments, and the role of technology. Examines the astonishing variety of adaptations humans have made.

**ARCHY 109 Archaeology in Film (5) I&S Marwick** Deals with depictions of archaeology by and for non-archaeologists and implication of those depictions at the intersection of archaeology, the human past, and popular culture.

**ARCHY 205 Principles of Archaeology (5) I&S** Techniques, methods, and goals of archaeological research. Excavation and dating of archaeological materials. General problems encountered in explaining archaeological phenomena.

**ARCHY 269 Special Topics in Archaeology (3–6, max. 12) I&S** Investigation of special topics in archaeology focusing on developing basic analytical, practical, and numerical skills.

**ARCHY 270 Field Course in Archaeology (12) I&S** Introduction to field acquisition of archaeological data through survey and excavation. On-going field projects; recovery and recording techniques.

**ARCHY 272 Short Field Course in Archaeology (5)** Learn how archaeologists detect human occupation on the landscape by surveying, excavating, and crating evidence of the past. Students learn from start to finish the process of archaeological field investigation. The location for this course may change from year to year. Recommended: ARCHY 205.

**ARCHY 299 Archaeological Laboratory Techniques (1–3, max. 12) I&S** Laboratory procedures geared to one specific archaeological research project. Archaeological collection, its processing and curation, how archaeological materials are processed, and how significance is determined. No more than 5 credits may be used toward an anthropology major. Prerequisite: either ARCHY 105 or ARCHY 205.

**ARCHY 303 Archaeology of Africa and Eurasia (5) I&S** Old World prehistory from beginnings of human culture to rise of civilizations. First tools made by humans, spread of humans out of Africa, origins of agriculture, rise of state society. Africa, Near East, Egypt, China, India, Europe.

**ARCHY 304 Archaeology of the Americas (5) I&S** History of earliest Americans, beginning with crossing of land bridge between Asia and North America and eventual spread over the Americas. Highlights prehistory and best examples of western hemisphere's civilizations. Mexico, Yucatan, Peru, southwestern and eastern United States, Washington.

**ARCHY 309 Archaeology of Mainland Southeast Asia (5) I&S Marwick** Covers the archaeology of mainland Southeast Asia from the first colonization by hominins to the appearance of written texts, especially in Thailand, Cambodia, Laos, Vietnam, and Myanmar. Emphasizes methods of acquiring archaeological data and addressing current controversies about mainland Southeast Asia prehistory. Prerequisite: ARCHY 205.

**ARCHY 325 Archaeology of Island Southeast Asia and the Pacific (5) I&S Lape** History of the human occupation of the South Pacific Islands, especially Indonesia, Philippines, Micronesia, Melanesia, and Polynesia. Focus on current debates about human migrations, long distance maritime trade, political structures, culture contact, and colonialism. Emphasis on the analysis of the primary archaeological and documentary data. Prerequisite: ARCHY 205.

**ARCHY 369 Special Problems in Archaeology (3–6, max. 12) I&S** Delineation and analysis of a specific problem or related problems in archaeology focusing on developing research and scholarly communication skills.

**ARCHY 371 Analysis of Archaeological Data (5) I&S** Analyzing archaeological data by measuring and describing such artifacts as stone tools and ceramics. Analysis of such environmental data as bones, plant remains, and sediments. Prerequisite: ARCHY 205.

**ARCHY 372 Archaeological Mapping (5) I&S** Provides hands-on experience in archaeological mapping, which plays an essential part in unraveling archaeological formation processes, understanding archaeological landscapes, communicating results to other experts and the public, and conducting any sort of spatial quantitative analysis. Prerequisite: either MATH 120, MATH 124, or MATH 134.

**ARCHY 401 Archaeology of Human Origins (5) I&S** Close Early part of the prehistoric archaeological record in Africa and Eurasia, from >2,000,000 years ago until the spread of modern human beings; development of stone and bone technologies; ways of making a living; cultural adaptations;

intellectual and social development. Prerequisite: ARCHY 205.

**ARCHY 402 Archaeology and Social Difference (5) I&S** Close Examines case studies in prehistoric archaeological record for intersections of socially constructed differences including age, gender, and class. Contrasts past perceptions of difference with projection of modern differences backward to validate the present. Prerequisite: ARCHY 205; either ARCHY 105, ARCHY 303, or ARCHY 401.

**ARCHY 403 The Archaeology of Landscapes (5) I&S/NW Llobera** Study of landscapes in archaeology. Methods for landscape research: historic maps, diaries, aerial photographs, geophysical and satellite imagery, etc. Archaeological landscape surveys: principles and limitations. Review of various theoretical approaches. Examination of key case studies, Issues on landscape heritage and indigenous landscapes. Prerequisite: ARCH 205.

**ARCHY 465 Public Archaeology (5) I&S Lape** Examines archaeology as practiced, regulated, represented, and paid for in the world outside of academia. Reviews the development of cultural resource management laws in the context of other social changes, investigates archaeology job opportunities outside of academia, and discusses how the public learns about and funds archaeology. Prerequisite: ARCHY 205.

**ARCHY 466 Archaeology Honors Thesis ([1–9]-, max. 18) I&S** Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

**ARCHY 467 Research Ethics in Archaeology: Conservation, Accountability, and Stewardship (5) I&S Wylie** Advanced survey of ethics issues that arise in archaeology including: accountability to descendent communities; professional codes of conduct; response to looting and commercial exploitation of the record; and the implications of a conservation ethic and principles of stewardship for archaeological practice.

**ARCHY 469 Special Studies in Archaeology (3–6, max. 18) I&S** Consideration in detail of specific archaeological topics, either methodological or substantive in content, of current interest. Offered occasionally by resident, new, or visiting faculty. For advanced undergraduates and graduate students. Prerequisite: ARCHY 205.

**ARCHY 470 The Archaeology of Extinction (5) I&S Grayson** Uses archaeological and paleoecological data to examine the argument that prehistoric peoples caused vertebrate extinction, from the late Ice Age extinction of ground sloths and saber-toothed cats in North America to the extinction of moas in New Zealand some 500 years ago.

**ARCHY 477 Archaeology of the North (5) I&S Fitzhugh** Archaeological history of the circumpolar arctic and subarctic from Pleistocene to the 19th century. Variability in human adaptation and social change in extreme cold environments such as Eurasian tundra, North Pacific rim, Beringia, and North American high arctic. Prerequisite: ARCHY 205.

**ARCHY 478 Prehistory of the Arid West (5) I&S Grayson** Archaeology of arid western North America, with particular emphasis on the earliest peoples of this region (and on the peopling of the New World in general), and on the prehistoric hunter-gathers of the Great Basin and Southwest. Prerequisite: ARCHY 205.

**ARCHY 480 Advanced Archaeological Analysis: Ceramics (6) I&S Feathers** Surveys history of ceramic studies in archaeology and introduces analytical methods involving ceramic function, style, unit construction and sampling, use wear, and trade and exchange. Laboratory provides hands-on experience with prehistoric ceramics, and applies various techniques for studying composition, form, manufacturing methods, and firing strategies. Prerequisite: ARCHY 205.

**ARCHY 481 Zooarchaeology (6) I&S Grayson** Seminar on techniques and methods employed in analysis of faunal remains from a wide range of Pleistocene and Holocene settings, including archaeological sites, coupled with a laboratory focusing on identification of faunal remains from these settings. Prerequisite: ARCHY 205.

**ARCHY 482 Geoarchaeology (6) I&S Marwick** Includes identification, analysis, and interpretation of sediments and soils associated with archaeological remains. Covers geochemistry and geophysics in archaeology. Laboratories deal with sediment description and chemical analysis; field trips and student projects focus on archaeological applications of these subjects. Prerequisite: ARCHY 205.

**ARCHY 483 Analyses of Stone Artifacts (6) I&S Close** Current approaches to lithic analysis, including types of information obtainable (technological, functional, social, ideological) and constraints affecting the formation and analysis of lithic assemblages. Lectures interspersed with application of methods under discussion to individual artifacts and to assemblages. Prerequisite: ARCHY 371.

**ARCHY 484 Archaeological GIS (5) I&S** Teaches students the basics of GIS through a series of hands-on tutorials using archaeological datasets, and provides them with a critical view of the application of this tool within the field of archaeology.

**ARCHY 489 Archaeology Practicum (2-9, max. 15) I&S** Faculty-supervised internships either on or off campus in organizations utilizing archaeological skills in academic or non-academic settings. Includes cultural resource management companies, government agencies, private non-profit organizations, tribal governments, and museums.

**ARCHY 490 Museum Curation Practicum: Archaeology (1-5, max. 15)** Application of museological training in curation of archaeological collections including ethnographic, geological, or zoological collection materials in the Burke Museum. Supervised work ranges from fundamental collection documentation and research to preventive conservation, storage, and other special curation projects. Recommended: MUS 481. Offered: jointly with MUSEUM 490.

**ARCHY 495 Quantitative Archaeological Analytic Techniques (5) I&S** Introduction to quantitative approaches to archaeological problems; data screening, numeric methods of classification and identification, graphical and computer-based seriation techniques, and the analysis of spatial patterning in artifact distributions.

**ARCHY 499 Undergraduate Research (\*, max. 12)**

**ARCHY 501 Preceptorial Reading (6)** For beginning graduate students who have not had adequate training in the problems, principles, and methods involved in the reconstruction of prehistory. Not open to graduate students in the archaeology program.

**ARCHY 508 Histories of Archaeological Theory and Practice (5) Wylie** Advanced history of archaeological theories and traditions of research practice. Topics include the formation of scientific and humanistic research traditions in anthropological archaeology; comparative global histories of archaeology; object biographies and histories of craft practice in emerging research traditions; and critical histories of inequality and marginality in archaeology. Offered: A.

**ARCHY 509 Archaeology and Explanation (5) Marwick** Analytical and historical examination in archaeology and philosophy of science. Prerequisite: permission of instructor.

**ARCHY 520 Principles of Archaeological Theory (5)** Review of principles of archaeological theory. Student presentation of research on archaeological theory and seminar discussion or presentations. Open only to first-year graduate students in anthropology.

**ARCHY 525 Archaeology of Island Southeast Asia and the Pacific (5) Lape** History of the human occupation of the South Pacific Islands, especially Indonesia, Philippines, Micronesia, Melanesia, and Polynesia. Focus on current debates about human migrations, long distance maritime trade, political structure, culture contact, and colonialism. Emphasis on the analysis of the primary archaeological and documentary data.

**ARCHY 560 Seminar in Archaeological Methods (5, max. 20)** Basis, limitations, and applications of a particular archaeological analytical method, or closely related set of methods. Prerequisite: permission of instructor.

**ARCHY 561 Dating Methods in Archaeology (6) Feathers** Theory and method of dating in archaeology. How archaeologists determine time, in both relative and absolute senses. Methodology of stratigraphy, seriation, radiocarbon dating, dendrochronology, obsidian hydration dating and other methods. Special emphasis on, and laboratory experience in, luminescence dating.

**ARCHY 570 Seminar in Archaeological Theory (3-6, max. 18)** Detailed consideration of a particular archaeological theory or closely related set of theories, including their methodological and epistemological bases. Prerequisite: ARCHY 497, ARCHY 498.

**ARCHY 572 Seminar in North American Archaeology (3, max. 6)** Selected problems in the archaeology of America north of Mexico. Prerequisite: permission of instructor.

**ARCHY 574 Meta-archaeology: Philosophy and Archaeology (4) Wylie** Examines philosophical issues raised in and by archaeology, including theories of explanation and model building, analyses of evidential reasoning and hermeneutic interpretation, debates about ideals of objectivity and about science and values. Recommended: ARCHY 570 Text Offered: jointly with PHIL 574; Sp.

**ARCHY 575 Archaeological Field Research Design (6)** Nature of the archaeological record, and methods and techniques of field research, to illustrate range of data sources and modern techniques of general applicability. Practical experience in mapping, map interpretation, sampling design, remote sensing, photogrammetry, and research proposal writing. Prerequisite: permission of instructor.

**ARCHY 576 Designing Grant Proposals (5) Grayson** Design and writing of grant proposals for archaeological research at both dissertation and senior investigator levels, with particular emphasis on National Science Foundation structure and requirements. Prerequisite: upper-level graduate standing and permission of instructor.

**ARCHY 591 Advanced Field Course in Archaeology (6-9)** For students with previous field experience and graduate work in archaeology. Emphasis on decision making in field and project management. Prerequisite: ARCHY 497, ARCHY 498, ARCHY 571, and ARCHY 575 or permission of instructor.

**ARCHY 600 Independent Study or Research (\*)** Prerequisite: permission of instructor.

**ARCHY 601 Internship (3-10, max. 10)** Credit/no credit only.

## Biocultural Anthropology

**BIO A 100 Evolution and Human Behavior (3) NW Newell** Introduction to evolution by natural selection, examining the light it can throw on human biology and behavior in such areas as the nature of sex differences, sexual conflict, and conflict between parents and children. Does not fulfill major requirements. Offered: jointly with BIOL 108.

**BIO A 101 Human Biological Diversity (5) NW Kramer** Exploration of human biological variation, including skin color, body form, blood groups, genetics, and reproductive strategies. Introduction to the theory of evolution through natural selection. Offered: A.

**BIO A 201 Principles of Biological Anthropology (5) NW** Evolution and adaptation of the human species. Evidence from fossil record and living populations of monkeys, apes, and humans. Interrelationships between human physical and cultural variation and environment; role of natural selection in shaping our evolutionary past, present, and future. Offered: AWSpS.

**BIO A 269 Special Problems in Biocultural Anthropology (3-6, max. 12)** Explores a specific problem or set of problems in biocultural anthropology with a focus on understanding how the problem is framed and communicated using different theoretical and methodological frameworks.

**BIO A 369 Special Issues in Biocultural Anthropology (2-6, max., 12)** Exploration and analysis of a specific issue in biocultural anthropology with a focus on critical analysis on methodological approaches and theoretical frameworks.

**BIO A 370 Introduction to Primates (5) NW Newell** Origins, major evolutionary trends, and modern taxonomic relationships of the nonhuman primates. Their distribution and habitat in relation to behavioral and morphological adaptations and their status as endangered species. Prerequisite: BIO A 201. Offered: A.

**BIO A 372 Uses and Abuses of Evolutionary Views of Human Behavior (5) I&S/NW Newell** Interaction of human behavior and biology as it has been interpreted within an evolutionary framework. Discusses various challenges to Darwinian theory, particularly Lamarckism and creationism. Topics include biological determinism as exemplified by racism, myths of human origins, the clash between biological and cultural determinism, and modern genetics and behavior.

**BIO A 382 Human Population Biology (3) NW** Explores human fertility and mortality, and their relationships to the size and structure of populations through time. Emphasizes the biological and cultural determinants of these life course events in evolutionary perspective. Introduces the quantitative tools needed to understand these phenomena, including formal demography, epidemiology, and population genetics. Prerequisite: BIO A 201.

**BIO A 387 Ecological Perspectives on Environmental Stress, Adaptation, and Health (5) NW Leonetti** How human populations respond to environmental stressors in biological-behavioral terms and the relationship of this adaptational process to health. Nutritional, climatic, and sociocultural stress and associated patterns of birth, disease, and death throughout human history in hunting, gathering, farming, pre-industrial, and industrial societies. Prerequisite: BIO A 201.

**BIO A 388 Human Fossils and Evolution (5-) NW Kramer** First of a two-part series. Evolution of human anatomy and behavior as adaptations to changing environments. Human fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Prerequisite: either BIO A 201 or BIOL 180.

**BIO A 389 Human Fossils and Evolution (5) NW Kramer** Second of two-part series. Evolution of human anatomy and behavior as adaptations to changing environments. Human fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Prerequisite: BIO A 388. Offered: S.

**BIO A 450 Biodemography Seminar (5) I&S/NW** Introduction to theory, methods, and literature of biodemography. Examines biological mechanisms underlying patterns of aging, mortality, fertility, and population growth and decline. Includes readings from anthropology, sociology, demography, evolutionary biology, molecular biology, and epidemiology. Covers prehistoric, historic, and modern human populations, and non-human model systems. Offered: W.

**BIO A 455 Reproductive Ecology Laboratory Seminar (5) NW O'Connor** Introduction to the theory and methods of laboratory-based research in reproductive ecology. Covers lab methods for reproductive hormone assays, and their application in anthropological, biodemographic, and epidemiological research. Prerequisite: BIO A 201. Offered: Sp.

**BIO A 465 Nutritional Anthropology (3) I&S/NW** Examines the interrelationships between biomedical, sociocultural, and ecological factors, and their influence on the ability of humans to respond to variability in nutritional resources. Topics covered include diet and human evolution, nutrition-related biobehavioral influences on human growth, development, and disease resistance. Prerequisite: BIO A 201. Offered: jointly with NUTR 465.

**BIO A 466 Biocultural Anthropology Honors Thesis ([1-9]-, max. 18) NW** Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

**BIO A 469 Special Topics in Biocultural Anthropology (3-5, max. 15) NW** Delineation and analysis of a specific problem

or a more general area in biocultural anthropology. Offered occasionally by visiting or resident faculty.

**BIO A 470 Evolution of Human Social Behavior (5) I&S, QSR** *Smith* Key concepts, research strategies, and debates concerning the processes and outcomes of human behavioral evolution. Emphasizes the complementarity of various methods and theories for understanding human biocultural evolution, including behavioral ecology, dual transmission theory, phylogenetic analysis, and evolutionary psychology. Prerequisite: BIO A 201.

**BIO A 473 Biological Adaptability of Human Populations (5) NW** *Shell-Duncan* Mechanisms enabling humans to maintain homeostasis in extreme environments: high altitude, heat, cold, nutritional deficiency, radiation. Adaptive process operating at levels of physiology, metabolism, and population, including the strategies of fertility and birth spacing. Prerequisite: BIO A 201.

**BIO A 475 Environmental Impacts of Small Scale Societies (5) I&S/NW** *Grayson, Smith* Examines the environmental impacts (positive and negative) among prehistoric and historic/ethnographic small-scale (hunter-gatherer and horticultural) societies worldwide, and debates these impacts, within a theoretical framework provided by evolutionary ecology and biogeography. Offered: jointly with ENVIR 475.

**BIO A 476 Sociocultural Ecology and Health (3) NW** *Leonetti* Sociocultural ecology of health/disease, focusing on humans as bioculturally integrated beings and on populations as biocultural units of adaptation. Examples of research on disease, both infectious and chronic, and patterns of morbidity and mortality, infant, maternal, old age, with particular attention to situations of sociocultural changes. Prerequisite: BIO A 201.

**BIO A 477 Evolutionary Perspectives on Sex and Gender Roles (3) I&S/NW** Critical examination of theories explaining the evolution of sex differences and associated gender roles. Consideration of gender differences in mate preferences, parental investment, subsistence, aggressiveness, and risk-taking. Stresses interactions between biology and culture. Prerequisite: BIO A 201.

**BIO A 482 Human Population Genetics (5) NW, QSR** *Holman* Micro-evolutionary changes in human populations. Effects of mutation, selection, inbreeding, gene flow, and genetic drift as causes of evolutionary change. Prerequisite: BIO A 201.

**BIO A 483 Human Genetics, Disease, and Culture (5) NW** Considers relationships among genetic aspects of human disease, cultural behavior, and natural habitat for a wide variety of conditions. Also considers issues of biological versus environmental determinism, adaptive aspects of genetic disease, and the role of cultural selection. Prerequisite: BIO A 201.

**BIO A 484 Human Life Cycle (5) NW** *Newell* Human growth and physical/social development: fetal life to old age. Cultural, ecological, and evolutionary aspects of the life cycle. Population differences in age and sex related to morbidity and mortality. Prerequisite: BIO A 201.

**BIO A 485 Research in Growth and Development (2, max. 8) NW** Focus on topics relating to primate growth and development. Prerequisite: either BIO A 484, BIO A 495, or BIO A 496, any of which may be taken concurrently.

**BIO A 486 Primate Socioecology (3) NW** Focus on the variety of social systems exhibited by nonhuman primates and adaptive significance of these societies; social systems in terms of the present ecology and evolutionary past of the species; the function of communicatory gestures and vocalizations, tradition, kinship, and social roles in maintaining and structuring groups over generations; the relationship among mating systems, foraging strategies, ranging patterns, and ecological separation/resource partitioning and their contribution to species-typical social organization. Prerequisite: either BIO A 370 or PSYCH 418.

**BIO A 487 Human and Comparative Osteology (5) NW** Introduction to the vertebrate skeleton. The skeleton is described in detail and various methods of determining age and sex,

as well as osteometry and modern statistical methods for handling such data, are presented.

**BIO A 488 Primate Evolution (5) NW** Major trends in non-hominid primate evolution through the Cenozoic. Discussion of the specimens, geological context, and age of the fossil taxa and their relationship to modern taxa. Practical experience in analyzing fossil material. Prerequisite: BIO A 201.

**BIO A 491 Issues in Human Paleontology (5) NW** *Kramer* Addresses several major unanswered questions concerning human evolution as represented by the fossil record. Prerequisite: either BIO A 389 or BIOL 354.

**BIO A 495 Growth and Development: Infancy (5) NW** *Newell* Genetic and environmental influences on growth and development from prenatal life through infancy. Includes exploration of methods for assessing development and comparisons of development in non-human primates with human development. Prerequisite: BIO A 370.

**BIO A 496 Growth and Development: Adolescence and Reproductive Maturity (5) NW** *Newell* Genetic and environmental influences on growth and development during adolescence. Emphasis on the interaction of biological and social factors in attainment of reproductive maturity. Compares conditions of non-human primates with human conditions. Prerequisite: BIO A 370.

**BIO A 499 Undergraduate Research (\*, max. 12)**

**BIO A 502 Preceptorial Reading (6)** For beginning graduate students who have not had adequate training in the study of primate principles and methods involved in the study of evolution, human genetics, and the evolution of modern populations. Not open to graduate students in the biocultural anthropology program. Offered: AWS.

**BIO A 520 Human Behavioral Ecology (3-5) Smith** Principles and methods of evolutionary behavioral ecology, and critical examination of their application to human behavior in such areas as resource utilization, mating, parenting, life history, cooperation, and competition.

**BIO A 525 Biocultural Research Methods and Study Design (5) Shell-Duncan** Survey of basic conceptual issues in the design of empirical research, with special attention to problems that arise during anthropological fieldwork. Topics include defining data needs, sampling strategies, problems with co-funding, proposal writing, human subjects approval, and basic ethical issues in human biocultural research.

**BIO A 526 Quantitative Methods and Modeling for Biocultural Anthropology (5)** Surveys the concepts, tools, and methods for developing quantitative models based on underlying biocultural processes. Introduces methods of testing models from observations collected in anthropological field studies. Oriented toward longitudinal research of fertility, mortality, disease dynamics, population genetics, and other biocultural processes.

**BIO A 550 Skeletal Biology and Prehistoric Demography (5) O'Connor** Composition and structure of calcified tissue. Analytical techniques and their contribution to interpretation of the archaeological record.

**BIO A 568 Human Reproductive Ecology (3) Holman** A consideration of the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, nuptiality, duration of birth intervals, and reproductive senescence.

**BIO A 569 Demographic Analysis in Biological and Social Anthropology (5) Leonetti** Demographic analysis relevant to anthropological research on small populations. Use of data collected through local surveys, genealogical methods, and from other sources. Focuses on use of demography to analyze social and biological processes with adaptive and/or cultural-historical significance. Theoretical approaches emphasized.

**BIO A 584 Topics in Ecology and Adaptation (3, max. 9)** Seminar dealing with various aspects of ecology and adaptation. Topics vary each quarter.

**BIO A 588 Topics in Primate Evolution (3)** Emphasis on fossil taxa and their importance in understanding the morpholo-

gies and distributions of members of modern taxa. Prerequisite: BIO A 488 and permission of instructor.

**BIO A 590 Current Issues in Human and Non-Human Primate Evolution (2, max. 18)** Includes presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to human and nonhuman primate evolution, biology, anatomy, genetics variation, and behavior. Credit/no credit only.

**BIO A 600 Independent Study or Research (\*)**

## Applied and Computational Mathematical Sciences

### PROGRAM OVERVIEW

C36 Padelford

Mathematics is the common language of modern science, engineering, and business. Techniques of mathematical modeling and data analysis are key instruments in the tool kit of modern practitioners and researchers in a wide array of disciplines. ACMS is an interdisciplinary program in the mathematical sciences that provides a sound training in mathematical modeling, scientific computation, mathematical reasoning, and statistical analysis. The program is jointly administered by the Departments of Applied Mathematics, Computer Science and Engineering, Mathematics, and Statistics, offering students access to their combined resources. An ACMS major is an excellent stepping stone to a career in engineering and the physical, life, and management sciences.

### UNDERGRADUATE PROGRAM

#### Adviser

C36 Padelford, Box 354350

206-543-6830

[advising@math.washington.edu](mailto:advising@math.washington.edu)

The ACMS program offers a Bachelor of Science degree that builds on the strengths of the four mathematical sciences departments as well as the many quantitatively oriented departments across campus. All students complete a core set of courses developing basic skills in modeling, computation, mathematics, and statistics. Students choose one of the eight option areas listed below for further training and specialization.

- *Biological and Life Sciences* focuses on basic techniques of mathematical modeling and computing that are employed in the life sciences.
- *Discrete Mathematics and Algorithms* gives students a broad background in mathematics and computation with special emphasis on discrete mathematics and its application to optimization and algorithm design.
- *Engineering and Physical Sciences*: This option is an excellent choice for students with an interest in the physical world and classical areas of applied mathematics.
- *Mathematical Economics*: Students in this option obtain a firm foundation in applied and computational mathematics as well as a basic grounding in economic theory.
- *Operations Research* provides a firm foundation in the mathematical tools of operations research, particularly optimization and stochastic modeling.
- *Scientific Computing and Numerical Algorithms* focuses on the design, mathematical analysis, and efficient implementation of numerical algorithms for such problems.

- *Social and Behavioral Sciences* provides a foundation in commonly used statistical and computational techniques followed by flexibility in pursuing different sets of advanced courses.
- *Statistics*: This option is designed to introduce students to theory, methodology, and applications of statistics.

## Bachelor of Science

*Suggested First- and Second-Year College Courses*: MATH 124, MATH 125, MATH 126, PHYS 121, PHYS 122, PHYS 123, CSE 142, CSE 143

### Department Admission Requirements

A GPA of at least 2.50 in the following courses, with a minimum grade of 2.0 in each course: CSE 142; MATH 124, MATH 125, MATH 126; one from MATH 307, MATH 308, MATH 300, AMATH 351, AMATH 352.

### Major Requirements

90 credits as follows:

- A minimum GPA of 2.50 for all courses counted toward the major; minimum grade of 2.0 in each course taken toward the major.
- *Core*: 43 credits to include MATH 124, MATH 125, MATH 126; MATH 308; MATH 307 or MATH 351; MATH/STAT 390; CSE 142, CSE 143; AMATH 352; AMATH/MATH 381, AMATH 383
- Completion of one of the following options:
  - *Biological and Life Sciences Option*. 47 credits to include option core (27 credits): PHYS 121, PHYS 122, PHYS 123; or BIOL 101 and BIOL 102 or BIOL 180 and BIOL 200; MATH 324, AMATH 353, AMATH 422, AMATH 423; and option electives (20 credits): outside area (12 credits or double major/double degree; see adviser for options) and 8 credits of approved courses at the 300 level or above, chosen from the four participating departments.
  - *Discrete Mathematics and Algorithms Option*. 47 credits to include option core and option electives. Option core: 33 credits for non-Computer Science and Engineering majors - PHYS 121, PHYS 122, PHYS 123, MATH 300, MATH/STAT 394, CSE 373, CSE 417, and two of CSE 374, CSE 410, CSE 413, CSE 415; 9 credits for Computer Science/Computer Science and Engineering double major/double degree - MATH/STAT 394, CSE 421, CSE 431. Option electives: 14 credits for non-Computer Science and Engineering majors, 23 credits for Computer Science/Computer Science and Engineering double majors, to include 9 credits from MATH 407, MATH 408, MATH 409, MATH 461, MATH 462, and remaining 15 credits from approved courses at the 300 level or above from the four participating departments.
  - *Engineering and Physical Sciences Option*. 47 credits to include option core (30 credits): PHYS 121, PHYS 122, PHYS 123, MATH 324, AMATH 401, AMATH 402, AMATH 403; and option electives (17 credits): outside area (11 credits or double major/double degree; see adviser for options) and 6 credits of approved courses at the 300 level or above, chosen from the four participating departments.
  - *Mathematical Economics Option*. 47 credits to include option core and electives. Option core (27 credits): PHYS 121, PHYS 122, PHYS 123 or ECON 200, ECON 201, ECON 300, MATH 300, MATH 327, MATH 407; and at least one of the following: MATH 408, STAT 423. Option electives: Either (1) or (2), below. (1) 20 credits including at least 15 credits from ECON 301, ECON 400, ECON 401, ECON 404, ECON 421, ECON 422, ECON 454, ECON 472, ECON 482, ECON 483, ECON 485; at least 5 additional credits at the 300 level or above from the four participating departments or from the department of Economics (taken

from ECON courses listed above). (2) Complete a double major with a Bachelor of Science in Economics.

- *Operations Research Option*. 47 credits to include option core and electives. Option core (30 credits): PHYS 121, PHYS 122, PHYS 123, MATH 300, MATH/STAT 394, MATH/STAT 395; and at least two of the following: MATH 407, MATH 408, MATH 409. Option electives: Either (1) or (2), below. (1) 17 credits, including at least 6 credits from MATH/STAT 491, MATH/STAT 492, STAT 421, STAT 423; at least 8 credits from OPMGT 301, OPMGT 402, OPMGT 443, OPMGT 450, OPMGT 490, QMETH 450, QMETH 490, IND E 321, IND E 337, IND E 410, IND E 412, IND E 424, IND E 426, IND E 430, IND E 433, (with at least one course at the 400 level); at least 3 additional credits at the 300 level or above from the four participating departments or from the departments of Management Science and Industrial Engineering (taken from IND E courses listed above). (2) Complete a double degree in Management Science in the Foster School of Business or in Industrial Engineering in the College of Engineering.
- *Scientific Computing and Numerical Algorithms Option*. 47 credits to include option core (27 credits): PHYS 121, PHYS 122, PHYS 123, MATH 300, MATH 327, MATH 464, MATH 465; and option electives (20 credits), to include 11 credits from the following: AMATH 301; AMATH 353 or MATH 309; CSE 373 or CSE 326; CSE 410; AMATH 401, AMATH 402, AMATH 403; MATH 407, MATH 408, MATH 409; MATH 427, MATH 428; remaining 9 credits from approved courses at the 300 level or above from the four participating departments.
- *Social and Behavioral Sciences Option*. 47 credits to include option core (31 credits): PHYS 121, PHYS 122, PHYS 123, STAT 340, STAT 341, STAT 342, STAT 423; and option electives (16 credits): outside area (10 credits or double major/double degree; see adviser for options) and 6 credits of approved courses at the 300 level or above, chosen from the four participating departments.
- *Statistics Option*. 47 credits to include program core (37 credits): PHYS 121, PHYS 122, PHYS 123, STAT 302, STAT 340, STAT 341, STAT 342, STAT 421, STAT 423; option electives (10 credits): approved courses at the 300 level or above, chosen from the four participating departments.

See adviser for additional information on program options, for possible substitutions, and for approval of elective choices noted above.

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes*: The ACMS degree emphasizes the development of advanced skills in discrete and continuous mathematical modeling, computing and scientific computation, mathematical reasoning and analytic skills, and statistical reasoning and analytic skills. Students develop an expertise at an advanced level in an applications area. This set of skills provides the basis for careers in a wide array of quantitative disciplines including engineering; the physical, life, and social sciences; as well as business and management sciences. In addition, the ACMS program has developed partnerships with a number of departments on campus to facilitate the pursuit of double majors.
- *Instructional and Research Facilities*: The program has access to the combined instructional and research facilities of the four participating departments, as well as the Mathematics and Statistics library and the Math Study Center.
- *Honors Options Available*: College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser

for requirements). For Interdisciplinary Honors, see University Honors Program.

- *Research, Internships, and Service Learning*: The program is provided with internship opportunities periodically, which are then passed on to students.
- *Department Scholarships*: None offered.
- *Student Organizations/Associations*: MAA Student Chapter, Actuarial Club, SIAM

## Applied Mathematics

### DEPARTMENT OVERVIEW

414 Guggenheim Hall

Applied mathematics is concerned with mathematical modeling and analysis of problems from the physical, biological, and social sciences, and from engineering.

### UNDERGRADUATE PROGRAM

#### Adviser

414 Guggenheim Hall, Box 352420

206-543-5493

The Department of Applied Mathematics offers the following undergraduate programs:

- The Bachelor of Science degree with a major in applied and computational mathematical sciences, offered in cooperation with departments of [Computer Science and Engineering](#), [Mathematics](#), and [Statistics](#). See [Applied and Computational Mathematical Sciences](#) for specific degree information.
- A minor in applied mathematics.

### Minor

*Minor Requirements*: 27 or more credits as follows:

- MATH 124, MATH 125, MATH 126 (5, 5, 5) or equivalent
- Four applied mathematics courses at the 300 level or above (excluding AMATH 400, AMATH 498, AMATH 499)
- Minimum grade of 2.0 required in each course.

## GRADUATE PROGRAM

### Graduate Program Coordinator

414 Guggenheim Hall, Box 352420

206-543-5493

The Department of Applied Mathematics offers graduate programs of study leading to the degrees of Master of Science and Doctor of Philosophy. These programs involve (1) broad training in those mathematical methods and techniques that have been found useful in applications, (2) in-depth study in at least one field of application, and (3) opportunities to explore various specialized aspects of applied mathematics.

### Master of Science

#### Admission Requirements

Undergraduate degree either in mathematics with a strong background in applications such as physical, engineering, biological, or social sciences with a strong background in applications-oriented mathematics. Minimum GPA of B (3.00) or better. Graduate Record Examination scores. Minimum score of 500 on the Test of English as a Foreign Language (TOEFL) for applicants who are not citizens of the United States, unless they meet one of the following criteria: citizens of Australia, Canada, Ireland, New Zealand, or the United Kingdom; or applicants holding bachelor's or ad-

vanced degrees from accredited institutions in the United States or in one of the countries listed above.

### Degree Requirements

Minimum 36 credits, to include:

- **Core Courses (20 credits):** AMATH 567 (5), AMATH 568 (5) and AMATH 569 (5). [Substitution of any of these courses with AMATH 401 (4), AMATH 402 (4) and AMATH 403 (4), respectively, is permitted.] Either AMATH 581 (5) or AMATH 584 (5).
- **Applied Mathematics Courses:** Minimum 24 credits from the Applied Mathematics curriculum. Core courses are counted toward this requirement.
- **Applied Mathematics Seminar/Clinic/Independent Study (4 credits):** AMATH 501 (1, max. 6), AMATH 502 (1, max. 6), or AMATH 600 spread over at least two quarters.
- **Final Examination:** Oral presentation by the candidate in the presence of his or her graduate committee on a current topic from the literature or the results of original research.
- **Program Plan:** To be filled out by the student, signed by the adviser, and approved by the graduate committee. For full-time students, no later than the end of the third quarter of registration. For part-time students, prior to the end of their first three quarters of registration.
- **Satisfactory Progress:** Maintain a minimum 3.20 GPA. Full-time students (whether self-supporting or under full scholarship or assistantship support) should normally complete the requirements for an MS degree in one year and should not exceed two years. Exceptions are granted only by petition to the graduate committee.

## Doctor of Philosophy

### Admission Requirements

- Completion of coursework equivalent to that described for the master's degree, with a minimum 3.40 GPA, and indication of the ability or potential to perform independent research.
- Graduate Record Examination
- Three letters of recommendation sent directly to the department.
- Minimum score of 500 on the Test of English as a Foreign Language (TOEFL) for applicants not citizens of the United States unless they meet one of the following criteria: citizens of Australia, Canada, Ireland, New Zealand, or the United Kingdom; or applicants holding bachelor's or advanced degrees from accredited institutions in the United States or in one of the countries listed above.
- Students are considered for admission to the PhD program after completing AMATH 567 (5), AMATH 568 (5), AMATH 584 (5), and AMATH 585 (5) with a grade of 3.4 or better in each course, as well as passing the preliminary examination.

### Degree Requirements

Minimum 90 credits, to include:

- **Course Requirements:** AMATH 567 (5), AMATH 568 (5), AMATH 569 (5), AMATH 584 (5), AMATH 585 (5), AMATH 586 (5); three of AMATH 570 (5), AMATH 571 (5), AMATH 572 (5), AMATH 573 (5), AMATH 574 (5), AMATH 575 (5); either AMATH 507 (5) or AMATH 515 (5); AMATH 506 (4); two applications courses; 2 credits of departmental seminars; 2 credits of departmental clinics.
- **Preliminary Exam:** Three written two-hour exams, covering a core of undergraduate material necessary for successful completion of the PhD program. Core areas are differential equations, linear algebra, and advanced calculus.

- **Supervisory Committee:** Formed no later than the end of spring quarter of the first year.
- **Candidacy Requirements:** Form a Supervisory Committee, select two specialization areas, satisfy course requirements, and design a doctoral research plan.
- **General Examination:** Administered after the student has passed the preliminary examination and sometime before the end of the student's second year.
- **Final Examination:** Oral presentation of completed research in a seminar open to the public.

### Financial Aid

Both research and teaching assistantships are available to full-time students who qualify. In addition, fellowship funds for the study of applied mathematics are available and awarded on a competitive basis.

### Research Facilities

Students in applied mathematics have access to a departmental computing lab equipped with a DEC Alpha server, Alpha/AXP workstations, and X-terminals, with centralized file storage. Software for scientific visualization, numerical analysis, symbolic mathematics, programming, and document preparation is available. The lab is connected to the campus network and the Internet, providing access to supercomputing facilities and other resources.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**AMATH 301 Beginning Scientific Computing (4) NW** Introduction to the use of computers to solve problems arising in the physical, biological and engineering sciences. Application of mathematical judgment, programming architecture, and flow control in solving scientific problems. Introduction to MATLAB routines for numerical programming, computation, and visualization. Prerequisite: either MATH 125, Q SCI 292, MATH 128, or MATH 135. Offered: AWSpS.

**AMATH 351 Introduction to Differential Equations and Applications (3) NW** Introductory survey of ordinary differential equations. Linear and nonlinear equations. Taylor series. Laplace transforms. Emphasis on formulation, solution, and interpretation of results. Examples from physical and biological sciences and engineering. Introduction to MATLAB as a tool for solving differential equations. Prerequisite: MATH 125. Offered: AWSpS.

**AMATH 352 Applied Linear Algebra and Numerical Analysis (3) NW** Analysis and application of numerical methods and algorithms to problems in the applied sciences and engineering. Applied linear algebra, including eigenvalue problems. Emphasis on use of conceptual methods in engineering, mathematics, and science. Extensive use of MATLAB package for programming and solution techniques. Prerequisite: either MATH 126 or Q SCI 293. Offered: AWSpS.

**AMATH 353 Fourier Analysis and Partial Differential Equations (3) NW** Heat equation, wave equation, and Laplace's equation. Separation of variables. Fourier series in context of solving heat equation. Fourier sine and cosine series; complete Fourier series. Fourier and Laplace transforms. Solution of partial differential equations on infinite domains. D'Alembert's solution for wave equation. Prerequisite: either AMATH 351 or MATH 307. Offered: Sp.

**AMATH 383 Introduction to Continuous Mathematical Modeling (3) NW** Introductory survey of applied mathematics with emphasis on modeling of physical and biological problems in terms of differential equations. Formulation, solution, and interpretation of the results. Prerequisite: either AMATH 351 or MATH 307. Offered: AWS.

**AMATH 401 Vector Calculus and Complex Variables (5)** Emphasizes acquisition of solution techniques; illustrates ideas

with specific example problems arising in science and engineering. Includes applications of vector differential calculus, complex variables; line-surface integrals; integral theorems; and Taylor and Laurent series, and contour integration. Prerequisite: MATH 126. Offered: A.

**AMATH 402 Introduction to Dynamical Systems and Chaos (5)** Overview methods describing qualitative behavior of solutions on nonlinear differential equations. Phase space analysis of fixed pointed and periodic orbits. Bifurcation methods. Description of strange attractors and chaos. Introductions to maps. Applications: engineering, physics, chemistry, and biology. Prerequisite: either AMATH 351 or MATH 307. Offered: W.

**AMATH 403 Methods for Partial Differential Equations (5)** Applications of partial differential equations; linear and quasilinear first order equations, characteristics, shocks; classification of linear second order equations; basic solution techniques for parabolic, elliptic, and hyperbolic equations; Green's functions and integral transform methods. Prerequisite: AMATH 402. Offered: Sp.

**AMATH 410 Computational Biology and Chemistry (5)** Introduction to computational methods in biology and chemistry. Applications on statistical models, equilibrium models, discrete- and continuous- time deterministic models, stochastic models arising in the biological and life sciences, and chemistry. Uses MATLAB for numerical computation and data analysis. Teaches tools in parallel with their computational implementation. Offered: W.

**AMATH 422 Introduction to Mathematical Biology (5)** Modeling biological systems with differential and difference equations. Examples from: ecology (population growth, disease dynamics); biochemistry and cell biology; and neurobiology (Hodgkin-Huxley and neural networks). Methods include linear stability analyses, phase-plane analyses, and perturbation theory. Prerequisite: either MATH 307 or AMATH 351. Offered: A.

**AMATH 423 Mathematical Biology: Stochastic Models (5)** Focuses on stochastic modeling and analysis of biological and medical systems. Biological topics include biochemistry, population genetics, genomics, population and community ecology, and neuroscience. Mathematical topics include generating functions, the Poisson process, Markov processes and master equations, branching processes, and elementary diffusion theory. Prerequisite: either AMATH 351 or MATH 307, MATH/STAT 390. Offered: W.

**AMATH 424 Mathematical Biology: Spatiotemporal Models (3)** Examines partial differential equations for biological dynamics in space and time. Draws examples from molecular and cell biology, ecology, epidemiology, and neurobiology. Topics include reaction-diffusion equations for biochemical reactions, calcium wave propagation in excitable medium, and models for invading biological populations. Prerequisite: AMATH 353. Offered: Sp.

**AMATH 481 Scientific Computing (5)** Project-oriented computational approach to solving problems arising in the physical/engineering sciences, finance/economics, medical, social, and biological sciences. Problems requiring use of advanced MATLAB routines and toolboxes. Covers graphical techniques for data presentation and communication of scientific results. Prerequisite: AMATH 301. Offered: A.

**AMATH 482 Computational Methods for Data Analysis (5)** Exploratory and objective data analysis methods applied to the physical, engineering, and biological sciences. Brief review of statistical methods and their computational implementation for studying time series analysis, spectral analysis, filtering methods, principal component analysis, orthogonal mode decomposition, and image processing and compression. Offered: W.

**AMATH 483 High-Performance Scientific Computing (5)** Introduction to hardware, software, and programming for large-scale scientific computing. Overview of multicore, cluster, and supercomputer architectures; procedure and object oriented languages; parallel computing paradigms and languages; graphics and visualization of large data sets; validation and verification; and scientific software development. Prerequisite: either CSE 142 or AMATH 301. Offered: Sp.

**AMATH 490 Special Topics (1–5, max. 15)** Topics of current interest in applied mathematics not covered by other undergraduate courses.

**AMATH 498 Senior Project or Thesis (1–6, max. 6)** Intended for Honors students and other advanced undergraduates completing a special project or senior thesis in applied mathematics. Offered: AWSpS.

**AMATH 499 Undergraduate Reading and Research (1–6, max. 6)** Credit/no credit only. Offered: AWSpS.

**AMATH 500 Special Studies in Applied Mathematics (\*, max. 12)** Lectures and discussions of topics of current interest in applied mathematics. May not be offered every quarter; content may vary from one offering to another. Prerequisite: permission of instructor.

**AMATH 501 Vector Calculus and Complex Variables (5)** Emphasizes acquisition of solution techniques; illustrates ideas with specific example problems arising in science and engineering. Includes applications of vector differential calculus, complex variables; line-surface integrals; integral theorems; and Taylor and Laurent series, and contour integration.

**AMATH 502 Introduction to Dynamical Systems and Chaos (5)** Overview methods describing qualitative behavior of solutions on nonlinear differential equations. Phase space analysis of fixed pointed and periodic orbits. Bifurcation methods. Description of strange attractors and chaos. Introductions to maps. Applications: engineering, physics, chemistry, and biology.

**AMATH 503 Methods for Partial Differential Equations (5)** Applications of partial differential equations; linear and quasilinear first order equations, characteristics, shocks; classification of linear second order equations; basic solution techniques for parabolic, elliptic, and hyperbolic equations; Green's functions and integral transform methods.

**AMATH 504 Mathematical Epidemiology (5)** Focuses on the construction and analysis of mathematical models for infectious disease transmission and control. Emphasizes evaluation and comparison of vaccination programs. Applications are presented for a variety of diseases such as measles, rubella, smallpox, rabies, etc. Prerequisite: AMATH 351 or equivalent. Offered: Sp; odd years.

**AMATH 505 Introduction to Fluid Dynamics (4)** Eulerian equations for mass-motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress-strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high-low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisite: AMATH 403 or permission of instructor. Offered: jointly with ATM S 505/OCEAN 511; A; odd years.

**AMATH 506 Applied Probability Statistics (4)** Discrete and continuous random variables, independence and conditional probability, central limit theorem, elementary statistical estimation and inference, linear regression. Emphasis on physical applications. Prerequisite: some advanced calculus and linear algebra. Offered: jointly with STAT 506.

**AMATH 507 Calculus of Variations (5)** Necessary and sufficient conditions for a weak and strong extremum. Legendre transformation, Hamiltonian systems. Constraints and Lagrange multipliers. Space-time problems with examples from elasticity, electromagnetics, and fluid mechanics. Sturm-Liouville problems. Approximate methods. Prerequisite: AMATH 351 or MATH 307; MATH 324, 327; recommended: AMATH 402 and AMATH 403 or MATH 428 and 429. Offered: W; odd years.

**AMATH 510 Computational Biology and Chemistry (5)** Introduction to computational methods in biology and chemistry. Applications on statistical models, equilibrium models, discrete- and continuous- time deterministic models, stochastic models arising in the biological and life sciences, and chemistry. Uses MATLAB for numerical computation and data analysis. Teaches tools in parallel with their computational implementation. Offered: W.

**AMATH 512 Methods of Engineering Analysis (3)** Applications of mathematics to problems in chemical engineering;

vector calculus; properties and methods of solution of first and second order partial differential equations; similarity transforms, separation of variables, Laplace and Fourier transforms. Offered: jointly with CHEM E 512; A.

**AMATH 514 Networks and Combinatorial Optimization (3)** Networks and directed graphs. Paths and trees. Feasible and optimal flows and potentials. Transportation problems, matching and assignment problems. Algorithms and applications. Prerequisite: MATH 308 or AMATH 352 and MATH 324. Offered: jointly with MATH 514.

**AMATH 515 Fundamentals of Optimization (5)** Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisite: linear algebra and advanced calculus. Offered: jointly with IND E 515/MATH 515.

**AMATH 516 Numerical Optimization (3)** Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Prerequisite: AMATH 515. Offered: jointly with MATH 516.

**AMATH 521 Special Topics in Mathematical Biology (5, max. 15)** DNA-folding, patter-forming systems, stochastic analysis. Prerequisite: AMATH 402 or equivalent. Offered: Sp.

**AMATH 522 Introduction to Mathematical Biology (5)** Modeling biological systems with differential and difference equations. Examples from: ecology (population growth, disease dynamics); biochemistry and cell biology; and neurobiology (Hodgkin-Huxley and neural networks). Methods include linear stability analyses, phase-plane analyses, and perturbation theory.

**AMATH 523 Mathematical Biology: Stochastic Models (5)** Focuses on stochastic modeling and analysis of biological and medical systems. Biological topics include biochemistry, population genetics, genomics, population and community ecology, and neuroscience. Mathematical topics include generating functions, the Poisson process, Markov processes and master equations, branching processes, and elementary diffusion theory. Offered: W.

**AMATH 524 Mathematical Biology: Spatiotemporal Models (5)** Examines partial differential equations for biological dynamics in space and time. Draws examples from molecular and cell biology, ecology, epidemiology, and neurobiology. Topics include reaction-diffusion equations for biochemical reactions, calcium wave propagation in excitable medium, and models for invading biological populations. Offered: Sp.

**AMATH 531 Mathematical Theory of Cellular Dynamics (3)** Develops a coherent mathematical theory for processes inside living cells. Focuses on analyzing dynamics leading to functions of cellular components (gene regulation, signaling biochemistry, metabolic networks, cytoskeletal biomechanics, and epigenetic inheritance) using deterministic and stochastic models. Prerequisite: AMATH 402; AMATH 403; course in probability.

**AMATH 567 Applied Analysis (5)** Reviews applications of metric and normed spaces, types of convergence, upper and lower bounds, and completion of a metric space; Banach spaces and Hilbert spaces, bounded linear operators, orthogonal sets and Fourier series, and the Riesz representation theorem; and the spectrum of a bounded linear operator and the Fredholm alternative. Introduces distributions. Recommended: AMATH 401 or equivalent. Offered: A.

**AMATH 568 Advanced Methods for Ordinary Differential Equations (5)** Survey of practical solution techniques for ordinary differential equations. Linear systems of equations including nondiagonal case. Nonlinear systems; stability phase plane analysis. Asymptotic expansions. Regular and singular perturbations. Recommended: 402 or equivalent. Offered: W.

**AMATH 569 Advanced Methods for Partial Differential Equations (5)** Analytical solution techniques for linear par-

tial differential equations. Discussion of how these arise in science and engineering. Transform and Green's function methods. Classification of second-order equations, characteristics. Conservation laws, shocks. Prerequisite: AMATH 403, AMATH 568 or MATH 428 or permission of instructor. Offered: Sp.

**AMATH 570 Asymptotic and Perturbation Methods (5)** Asymptotics for integrals, perturbation and multiple-scale analysis. Singular perturbations: matched asymptotic expansions, boundary layers, shock layers, uniformly valid solutions. Prerequisite: AMATH 567, AMATH 568, AMATH 569, or permission of instructor. Offered: A.

**AMATH 572 Introduction to Applied Stochastic Analysis (5)** Introduction to the theory of probability and stochastic processes based on differential equations with applications to science and engineering. Poisson processes and continuous-time Markov processes, Brownian motions and diffusion. Prerequisite: AMATH/STAT 506, AMATH 402, or equivalent knowledge of probability and ordinary differential equations. Offered: Sp; even years.

**AMATH 573 Coherent Structures, Pattern Formation and Solitons (5)** Methods for nonlinear partial differential equations (PDEs) leading to coherent structures and patterns. Includes symmetries, conservation laws, stability Hamiltonian and variation methods of PDEs; interactions of structures such as waves or solitons; Lax pairs and inverse scattering; and Painleve analysis. Prerequisite: AMATH 569, or permission of instructor. Offered: A; odd years.

**AMATH 574 Conservation Laws and Finite Volume Methods (5)** Theory of linear and nonlinear hyperbolic conservation laws modeling wave propagation in gases, fluids, and solids. Shock and rarefaction waves. Finite volume methods for numerical approximation of solutions; Godunov's method and high-resolution TVD methods. Stability, convergence, and entropy conditions. Prerequisite: AMATH 586 or permission of instructor. Offered: W.

**AMATH 575 Dynamical Systems (5)** Overview of ways in which complex dynamics arise in nonlinear dynamical systems. Topics include bifurcation theory, universality, Poincare maps, routes to chaos, horseshoe maps, Hamiltonian chaos, fractal dimensions, Liapunov exponents, and the analysis of time series. Examples from biology, mechanics, and other fields. Prerequisite: AMATH 568 or equivalent. Offered: Sp; odd years.

**AMATH 579 Intelligent Control through Learning and Optimization (3)** Design or near-optimal controllers for complex dynamical systems, using analytical techniques, machine learning, and optimization. Topics from deterministic and stochastic optimal control, reinforcement learning and dynamic programming, numerical optimization in the context of control, and robotics. Prerequisite: vector calculus; linear algebra, and Matlab. Recommended: differential equations; stochastic processes, and optimization. Offered: jointly with CSE 579.

**AMATH 581 Scientific Computing (5)** Project-oriented computational approach to solving problems arising in the physical/engineering sciences, finance/economics, medical, social, and biological sciences. Problems requiring use of advanced MATLAB routines and toolboxes. Covers graphical techniques for data presentation and communication of scientific results.

**AMATH 582 Computational Methods for Data Analysis (5)** Exploratory and objective data analysis methods applied to the physical, engineering, and biological sciences. Brief review of statistical methods and their computational implementation for studying time series analysis, spectral analysis, filtering methods, principal component analysis, orthogonal mode decomposition, and image processing and compression. Offered: W.

**AMATH 583 High-Performance Scientific Computing (5)** Introduction to hardware, software, and programming for large-scale scientific computing. Overview of multicore, cluster, and supercomputer architectures; procedure and object oriented languages; parallel computing paradigms and languages; graphics and visualization of large data sets;

validation and verification; and scientific software development. Offered: Sp.

**AMATH 584 Applied Linear Algebra and Introductory Numerical Analysis (5)** Numerical methods for solving linear systems of equations, linear least squares problems, matrix eigen value problems, nonlinear systems of equations, interpolation, quadrature, and initial value ordinary differential equations. Offered: jointly with MATH 584; A.

**AMATH 585 Numerical Analysis of Boundary Value Problems (5)** Numerical methods for steady-state differential equations. Two-point boundary value problems and elliptic equations. Iterative methods for sparse symmetric and non-symmetric linear systems: conjugate-gradients, preconditioners. Prerequisite: AMATH 581 or MATH 584 which may be taken concurrently. Offered: jointly with MATH 585; W.

**AMATH 586 Numerical Analysis of Time Dependent Problems (5)** Numerical methods for time-dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence theory. Spectral and pseudospectral methods. Prerequisite: AMATH 581 or AMATH 584. Offered: jointly with ATM S 581/MATH 586; Sp.

**AMATH 600 Independent Research or Study (\*)** Credit/no credit only.

**AMATH 700 Master's Thesis (\*)** Credit/no credit only.

**AMATH 800 Doctoral Dissertation (\*)** Credit/no credit only.

## Art

### SCHOOL OVERVIEW

104 Art

The School of Art serves a dual role within the educational structure of the University of Washington. It is both a professional school and an academic department. As a professional school it trains students for active careers in the visual arts; as a school of the College of Arts and Sciences it offers studio and lecture courses. All of its course offerings and its curriculum requirements are based on the underlying philosophy that an awareness and understanding of the visual arts are necessary to a liberal education, and that a liberal education is necessary to the training of a professional artist.

### UNDERGRADUATE PROGRAM

#### Adviser

104 Art, Box 353440

206-543-0646

[uaskart@uw.edu](mailto:uaskart@uw.edu)

The School of Art offers the following undergraduate programs:

- The Bachelor of Arts degree with a major in art history, design studies (incorporates elements of the Bachelor of Fine Arts industrial design and visual communication design programs), interdisciplinary visual arts, or painting and drawing.
- The Bachelor of Fine Arts degree with a major in fibers, industrial design, metals, painting and drawing, photo media, printmaking, three-dimensional forum, or visual communication design.
- A minor in interaction design.
- NOTE: The design studies, fibers, metals, and printmaking programs are not currently admitting new majors.

### Bachelor of Arts

*Design Studies, Interdisciplinary Visual Arts (IVA), Painting and Drawing (Students may earn a Bachelor of Arts or a*

*Bachelor of Fine Arts with a major in Painting and Drawing, but not both.)*

#### Department Admission Requirements

The minimum GPA for application to the School of Art is 2.50.

NOTE: Design Studies is not currently accepting students.

*Admission to the Interdisciplinary Visual Arts Major for Freshmen or Currently Enrolled Students:* After completing 5 credits of introductory level art (100/200 level), students meet with an Art adviser to declare the major.

*Admission to the Interdisciplinary Visual Arts Major for Transfer Students:* Students complete the equivalent of 5 credits of introductory art (100/200 level) prior to transferring. Once admitted to the UW, they meet with an Art adviser to declare the major. Prior to transfer, students may address questions to [uaskart@uw.edu](mailto:uaskart@uw.edu).

*Admission to the Painting and Drawing Major for Freshmen and Currently Enrolled Students:* After completing ART 190, students meet with an Art adviser to declare the major.

*Admission to the Painting and Drawing Major for Transfer Students:* Once admitted to the UW, students meet with an Art adviser to enroll in ART 190. Students who transfer with college credits in painting and drawing may wish to present a portfolio for advanced placement in the program. Prior to transfer, students may address questions to [uaskart@uw.edu](mailto:uaskart@uw.edu).

#### Major Requirements

*Design Studies (80 credits)*

Major not currently accepting students.

*Interdisciplinary Visual Arts (63 credits)*

- 20 credits of introductory art selected from ART 120, ART 124, ART 126, ART 131, ART 133, ART 140, ART 165, ART 166, ART 190, ART 201, ART 202, ART 208, ART 226, ART 227, ART 233, ART 234, ART 245, ART 246, ART 272, ART 273, ART 290, ART 292.
- 25 upper-division credits in art selected from ART 327, ART 328, ART 329, ART 332, ART 333, ART 334, ART 335, ART 338, ART 339, ART 342, ART 345, ART 350, ART 351, ART 352, ART 353, ART 360, ART 361, ART 383, ART 390, ART 392, ART 393, ART 427, ART 450, ART 457, ART 458, ART 483, ART 484, ART 490, ART 492, ART 496, ART 498, ART 499, ART H 498, ART H 499.
- 18 credits in art history, with a minimum 8 upper division credits, to include one from ART H 203, ART H 380, ART H 381, ART 384, or ART H 482; one non-western course from ART H 205, ART H 206, ART H 212, ART H 215, ART H 230, ART H 233, ART H 310, ART H 311, ART H 313, ART H 315, ART H 318, or ART H 337.

*Painting and Drawing (60 credits)*

- 5 credits: ART 190
- 15 credits drawing classes: 5 credits ART 290; 5 credits ART 390; 5 credits ART 490
- 25 credits painting classes: 5 credits ART 292; 5 credits ART 293; 5 credits ART 392; 5 credits ART 393; 5 credits ART 492
- 15 credits art history (with a minimum 5 upper division) to include one from ART H 203, ART H 380, ART H 381, or ART H 384; one non-western from ART H 205, ART H 206, ART H 215, ART H 230, ART H 311, ART H 312, ART H 313, ART H 315, ART H 318, ART H 330, ART H 331, or ART H 337.

### Bachelor of Fine Arts

*Fibers, Industrial Design, Metals, Painting & Drawing (Students may earn a Bachelor of Fine Arts or a Bachelor of Arts with a major in Painting & Drawing, but not both), Pho-*

*tography, Printmaking, Three-Dimensional Forum, Visual Communication Design*

#### Department Admission Requirements

The minimum GPA for admission to School of Art B.F.A. programs is 3.00.

Note: The fibers, printmaking, and metals programs are not currently admitting new majors. Students may check with Academic Advising and Student Services for updated information: [uaskart@uw.edu](mailto:uaskart@uw.edu)

#### For currently enrolled students

*Admission to Painting and Drawing:* Students complete ART 190, then meet with an Art adviser to declare the major.

*Admission to Three-Dimensional Forum:* Students complete ART 124 and one of ART 201, ART 202, ART 233, ART 272, or ART 273, then meet with an Art adviser to declare the major.

*Admission to Photo Media:* Admission is competitive. Students enroll in ART 140 spring quarter of their freshman year to prepare the portfolio required for the competitive selection process for ART 241 autumn quarter. Students selected to register for ART 241 spend autumn quarter working with the photo media faculty, revising their portfolio which is then used to select students admitted to the photo media major in winter quarter. See department website at [art.washington.edu](http://art.washington.edu) for timing and suggestions for successful completion of portfolio requirements.

*Admission to Industrial Design, and Visual Communication Design:* Students must complete prerequisite courses unique to each major (see major requirements, below). Students then apply to the major using the appropriate application process. Each major has its own unique application process; see program guides at the department website at [art.washington.edu/](http://art.washington.edu/).

#### For transfer students

*Admission to Painting and Drawing, and Sculpture:* Once admitted to the UW, students meet with an Art adviser to enroll in ART 190. Students who transfer with college credits in the proposed area of study may wish to present a portfolio for advanced placement in the program. Prior to transfer, students may address questions to [uaskart@uw.edu](mailto:uaskart@uw.edu).

*Admission to Three-Dimensional Forum:* Once admitted to the UW, students meet with an Art adviser to enroll in the appropriate art course, ART 124. Students who transfer with college credits in the proposed area of study may wish to present a portfolio for advanced placement in the program. Prior to transfer, students may address questions to [uaskart@u.washington.edu](mailto:uaskart@u.washington.edu).

*Admission to Photo Media:* Admission is competitive. Transfer students must apply for admission to the UW for summer or autumn quarter, must have completed an equivalent course to ART 140, and must submit their portfolios by mid-August for consideration to register for ART 241 autumn quarter. Students selected to register for ART 241 spend autumn quarter working with photo media faculty, revising their portfolios which are then used to select students admitted to the photo media major in winter quarter. See department website at [art.washington.edu](http://art.washington.edu) for further information on timing and suggestions for successful completion of portfolio requirements.

*Admission to Industrial Design and Visual Communication Design:* Students must complete prerequisite courses unique to each major (see major requirements, below). Students then apply to the major using the appropriate application process and submitting a portfolio. Each major has its own unique application process; see program guides at department website for specific information: [art.washington.edu/](http://art.washington.edu/).

*Admission Policy for Postbaccalaureate Applicants:* Post-baccalaureate study in studio art is limited; admission

requirements vary within each major. See information concerning specific postbaccalaureate admission online at department website: [art.washington.edu/](http://art.washington.edu/).

## Major Requirements

### Fibers (85 credits)

Major not accepting new students

### Industrial Design (93 credits)

- 5 credits prerequisite: ART 166
- Successful completion of design admission selection process
- 30 credits: ART 207, ART 208, ART 209, ART 210, ART 211, ART 212
- 30 credits: ART 316, ART 317, ART 318, ART 321, ART 322, ART 323
- 18 credits: ART 445, ART 446, ART 447, ART 488.
- 10 credits of art history including ART H 203, ART H 290, ART H 380, ART H 381, ART H 382, ART H 384, or ART H 497; and any non-western art history: ART H 205, ART H 206, ART H 212, ART H 215, ART H 230, ART H 233, ART H 306, ART H 310, ART H 311, ART H 313, ART H 315, ART H 318, or ART H 337.

### Metals (85 credits)

Major not accepting new students

### Painting & Drawing (95 credits)

- 5 credits, ART 190.
- 15 credits drawing classes: 5 credits ART 290; 5 credits ART 390; 5 credits ART 490
- 45 credits painting classes: 5 credits ART 292; 5 credits ART 293; 5 credits ART 392; 5 credits ART 393; 10 credits ART 492 or 5 credits ART 492 and 5 additional credits ART 490; 15 credits ART 494.
- 15 credits studio art or related electives.
- 15 credits of art history (with a minimum 5 upper division) to include one from ART H 203, ART H 380, ART H 381, or ART H 384; one non-western art history from ART H 205, ART H 206, ART H 215, ART H 230, ART H 311, ART H 312, ART H 313, ART H 315, ART H 318, ART H 330, ART H 331, ART H 337.

### Photo Media (80 credits)

- 55 credits: ART 140 or adviser-approved course; ART 241; ART 338; ART 340; ART 341; ART 342; ART 343; and ART 400.
- 15 credits: Approved ART electives or related adviser-approved courses.
- 10 credits of art history: one of ART H 203, ART H 380, ART H 381, ART H 382, or ART H 384; one non-western art history course from ART H 205, ART H 206, ART H 212, ART H 215, ART H 230, ART H 233, ART H 306, ART H 310, ART H 311, ART H 313, ART H 315, ART H 318, or ART H 337.
- Successful completion of photography portfolio review.

### Printmaking (85 credits)

Major not accepting new students

### Three-Dimensional Forum (80 credits)

- 5 credits of ART 124.
- 20 credits of ART 453.
- 25 credits from one of the following tracks:
  - *Ceramics*: ART 201; one of ART 202, ART 233, ART 272, or ART 273; ART 353 (15 credits) or ART 353 (10 credits) and either ART 332 or ART 333.
  - *Glass*: ART 233; one of ART 202, ART 272, or ART 273; ART 333 (15 credits) or ART 333 (10 credits) and either ART 332 or ART 353.

- *Sculpture*: ART 272; one of ART 201, ART 233, or ART 273; ART 332 (15 credits) or ART 332 (10 credits) and ART 333 or ART 353.

- 15 credits of ART or adviser-approved electives.
- 15 credits of ART H (with a minimum 5 upper division), to include one from ART H 202, ART H 380, ART H 381, ART H 382, or ART H 384; one non-western from ART H 205, ART H 206, ART H 212, ART H 215, ART H 230, ART H 233, ART H 306, ART H 310, ART H 311, ART H 313, ART H 315, ART H 318, or ART H 330; one additional 5-credit ART H elective.

### Visual Communication Design (98 credits).

- 5 credits prerequisite: ART 166.
- Successful completion of design admission selection process.
- 30 credits: ART 207, ART 208, ART 209, ART 210, ART 211, ART 212
- 30 credits: ART 366, ART 367, ART 368, ART 376, ART 377, ART 378
- 23 credits: ART 466, ART 478, ART 479, ART 480, ART 488
- 10 credits of art history including ART H 203, ART H 290, ART H 380, ART H 381, ART H 382, ART H 384, or ART H 497; and any non-western art history: ART H 205, ART H 206, ART H 212, ART H 215, ART H 230, ART H 233, ART H 306, ART H 310, ART H 311, ART H 313, ART H 315, ART H 318, or ART H 337.

## Minor

### Interaction Design

*Minor requirements:* Minimum 25 credits to include ART 383, ART 483, ART 484, and 10 additional credits from the following courses: CSE 100, CSE 142, CSE 143, CSE 440, CSE 441, INFO 310, INFO 344, INFO 360, INFO 424, INFO 444, INFO 447, HCDE 417, HCDE 418, HCDE 419, HCDE 438, HCDE 455, DXARTS 471, DXARTS 472, DXARTS 473. Minimum cumulative 2.00 GPA for courses applied to the minor.

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Students receiving an undergraduate degree in art can expect to develop strong writing, analytical, critical-thinking, and problem-solving skills. Students learn to recognize the power of the visual image and understand its importance in a world increasingly dependent on the aesthetic and technical skill of trained artists and designers to create images that communicate information and ideas across cultures and generations. In addition to becoming practicing artists, art graduates find careers in fields such as gallery and museum management, arts education, arts administration, photojournalism, film making, graphic and product design, interior design, teaching, advertising, art therapy, and visual and digital technology.
- *Instructional and Research Facilities:* None.
- *Honors Options Available:* Photography Honors (see Academic Advising and Student Services for requirements).
- *Research, Internships, and Service Learning:* The School of Art has several programs that help students develop professional practices and expand their knowledge outside the UW: internships for credit, Artist in Residence programs, K-12 Educational Partnerships, and the Studio Art Rome program.
- *Department Scholarships:* Scholarships are available annually to enrolled majors (see Academic Advising and Student Services for details)
- *Student Organizations/Associations:* Students majoring in the studio arts have the opportunity to participate

in several student associations: Hephestium (metals), Zeeware (ceramics), Broadclothes (fiber), Printmakers Association (printmaking), a photo guild, and the Inter Arts Council. These organizations raise funds through the sale of members' work to support visiting artists and lectures and to sponsor student involvement in regional arts events.

## GRADUATE PROGRAM

### Graduate Program Coordinator

104 Art Building, Box 353440

206-543-0646

[gradart@u.washington.edu](mailto:gradart@u.washington.edu)

The Master of Fine Arts program offers an intense, two-year studio and seminar/classroom experience leading to an advanced degree in visual art. The program builds on prior, significant academic experience and studio work. Admission is competitive to any one of the following five programs: Ceramics, Painting and Drawing, Photography, Sculpture, and Visual Communication Design.

The master's degree program in Art History at the University of Washington affirms that the MA degree is an independent degree useful in its own right. Successful applicants to the program normally have a broad undergraduate background in art history.

The PhD program in the Division of Art History prepares graduates for university-level teaching, curator positions at major museums, and independent research in the field. Before beginning work for the PhD, students should have completed a Master of Arts degree in the history of art.

## Master of Fine Arts

### Admission Requirements

Applicants for admission to the Master of Fine Arts program are required to have a Bachelor of Fine Arts degree or equivalent (determined by the quality of the applicant's work and equivalent experience, based upon the UW B.F.A. requirements) with a minimum GPA of 3.00 in the undergraduate art major.

The Graduate Record Examination is not required. Admission is on a competitive basis. Annual deadline for applications is February 1, for consideration for admission the following autumn quarter.

### Degree Requirements

For each program, 90 credits are required, as follows:

#### Ceramics

- Ceramics studio: 20 credits of ART 553
- Interdisciplinary seminar: 25 credits of ART 590
- Art history, theory, and criticism: 10 credits of approved courses
- Studio electives: 15 credits of approved electives
- Thesis: 20 credits of ART 700. The thesis is a natural outgrowth of the student's work. It can consist of one major work or a body of work that involves one central theme. Ceramics graduates exhibit their thesis work in the annual MFA exhibition at the Henry Art Gallery along with a one person show at the Ceramics Gallery.

#### Painting and Drawing

- Drawing studio: 6 credits of ART 591
- Painting studio: 25 credits of ART 592
- Graduate seminar: 30 credits of ART 594
- Art history, theory, and criticism: 10 credits of approved courses
- Studio electives: 9 credits of approved electives
- Thesis: 10 credits of ART 700. The thesis is a natural outgrowth of the student's work. It can consist of one

major work or a body of work that involves one central theme. Painting and drawing graduates exhibit their thesis work in the annual MFA exhibition at the Henry Art Gallery.

### Photography

- Photography studio: 20 credits of ART 515
- Interdisciplinary seminar: 25 credits of ART 590
- Art history, theory, and criticism: 15 credits of approved courses
- Studio electives: 15 credits of approved electives
- Thesis: 15 credits of ART 700. The thesis is a natural outgrowth of the student's work. It can consist of one major work or a body of work that involves one central theme. Photography graduates exhibit their thesis work in the annual MFA exhibition at the Henry Art Gallery.

### Sculpture

- Sculpture studio: 20 credits of ART 552
- Interdisciplinary seminar: 25 credits of ART 590
- Art history, theory, and criticism: 10 credits of approved courses
- Studio electives: 15 credits of approved electives
- Thesis: 20 credits of ART 700. The thesis is a natural outgrowth of the student's work. It can consist of one major work or a body of work that involves one central theme. Sculpture graduates exhibit their thesis work in the annual MFA exhibition at the Henry Art Gallery.

### Visual Communication Design

- Design studio: 25 credits of ART 580/ART 582
- Design seminar: 20 credits of ART 581
- Art history, theory, and criticism: 15 credits of approved courses
- Studio electives: 20 credits of approved electives
- Thesis: 10 credits of ART 700. The thesis is a natural outgrowth of the student's work. It can consist of one major work or a body of work that involves one central theme. Design graduates exhibit their thesis work in the annual MFA exhibition at the Henry Art Gallery.

### Master of Arts

- See Art History.

### Doctor of Philosophy

- See Art History.

### Scholarships and Teaching Assistantships

School of Art scholarships are awarded annually to new and returning students, based on merit. Applicants admitted to the MFA program may be offered School of Art scholarships for the coming year on an individual merit basis. Further application is not required.

The School of Art offers a limited number of teaching assistantships to incoming graduate students on an individual merit basis, as determined by each program. Enrolled graduate students may apply for a limited number of additional, competitive teaching assistantships.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsat/](http://www.uw.edu/students/crsat/)

**ART 120 Influences in Contemporary Art (5) VLPA** Introduction to recurring themes and practices in the visual arts. Moves beyond medium-based categories, surveying a diverse range of issues that motivate artists and create content in contemporary art. Examines the importance and

influence of the visual arts in the larger context of contemporary culture and society.

**ART 124 3D4M Studio: Materials in Real Space (5) VLPA** Introduces three-dimensional concepts and a critical, formal vocabulary through exploration of the dependent relationship of visual, physical, and experimental principles involved in created three-dimensional art. Emphasizes exposure to a variety of physical materials, processes, and diverse approaches to designing and solving assignments and investigations. Offered: AWSp.

**ART 126 Topics in Studio Art (5) VLPA** Studio-based class introducing students, through particular studio practice of individual instructors, to methods of visual awareness, principles of organization, and approaches to visual and conceptual observation. Relationship between art history and contemporary art practice. Artistic medium in each class varies with instructor expertise. Offered: AWSpS.

**ART 131 Alternative Approaches to Art and Design (5, max. 20) VLPA** Presentation of process through which artists discover and translate ideas, feelings, and concerns into images or objects. Use of a wide variety of methods and approaches, from traditional to technological, to promote visual expression. Discussion and critiques leading toward better understanding the creative process.

**ART 134 Concepts in Three-dimensional Art (5) VLPA** Exploration, study, and application of thematic concepts not generally associated with traditional three-dimensional art forms. Investigation of themes such as installation, performance, public, and socio-political art.

**ART 140 Basic Photography (5) VLPA** Introduces theory, techniques, and processes of still photography in an artistic context. Emphasizes photography's creative potential. Offered: Sp.

**ART 165 Introduction to Industrial Design (5) VLPA** Provides a general introduction to industrial design. Develops students knowledge through lectures, readings, and studio projects that focus on the history of the discipline and the processes of brainstorming, ideation, skill building, problem solving, and professional presentation used in the creation of design. Includes participation by guest designers.

**ART 166 Design Foundations (5) VLPA** Examines the rudiments of visual structure and problem solving in two and three-dimensional design. Emphasizes design methodology and design processes with emphasis on the formal principles of composition and organization. Offered: A.

**ART 190 Introduction to Drawing (5) VLPA** Builds basic drawing skills, develops understanding of primary concepts which relate to drawing and develops an understanding of the grammar or syntax of two-dimensional language. Students move beyond their current knowledge and abilities and link new skills, concepts, and understandings to creative expressing. Offered: AWSp.

**ART 191 Color Studies Studio (5) VLPA** *Lin* Examination of color as a distinct visual phenomenon with investigations of its practical, theoretical, and illusionary aspects. Employs various media and materials in exercises and compositions that demonstrate properties of color structure, symbolism, and perception and the potential application to art and design.

**ART 201 Introduction to Ceramics: Handbuilding (5) VLPA** Introduces a variety of ceramic handbuilding and surface processes with an emphasis on problem solving and self-expression. Includes examination of contemporary sculpture in clay.

**ART 202 Introduction to Ceramics: Wheel Throwing (5) VLPA** Introduces wheel throwing and glazing as a means to explore functional and conceptual considerations with clay in a contemporary context and art practice.

**ART 207 Design Drawing (5) VLPA** Concentrates on developing skills used to communicate ideas that exist in the imagination. Focuses on study of design drawing history and development of basic skills necessary for ideation, exploration, communication, explanation. Prepares students

to visualize and discuss ideas rapidly and professionally. For design majors only. Offered: A.

**ART 208 Survey of Design History (5) VLPA** Comprehensive survey of the ideas, events, and individuals that determined the design of information, objects, culture, and commerce across societies. Examines the social, political and cultural contexts that shape graphic design and the ideologies and relationships of similar movement in art and architecture. Late 19th Century - contemporary issues.

**ART 209 Fundamentals of Typography (5) VLPA** Develops understanding of and sensibility to typographic details used to create effective communication. Focus moves from understanding letter forms that make up words to the complexities of developing phrases, sentences, and short paragraphs with multiple levels of hierarchical meaning. Prerequisite: ART 207. Offered: W.

**ART 210 Collaboration and Improvisation (5) VLPA** Introduces key factors in the theory and practice of creating and participating in collaborative projects. Focuses on creating and participating in effective teams, understanding strengths and roles within teams, working through team issues, developing techniques for interdisciplinary problem solving. Prerequisite: ART 207.

**ART 211 3-D Foundation (5) VLPA** Introduction to aesthetic fundamentals of 3-dimensional form. Explores the articulation of form and space in both abstract and applied scenarios. Prepares design students for subsequent work in interaction design, design, studies, industrial design, and visual communication design. Prerequisite: ART 210.

**ART 212 Introduction to Interaction Design (5) VLPA** Introduces human-computer interaction, interface design, and interactive and time-based media for designers. Reviews foundational interaction design concepts such as human factors, perception, cognition, research techniques, and design methods for the design of interactions. Prerequisite: ART 211.

**ART 226 Introduction to Structure (5) VLPA** Explores the structure of two- and three-dimensional textile forms. Students work with floor looms, computer-aided looms, as well as working directly with materials.

**ART 227 Introduction to Surface (5) VLPA** Basic techniques of dying, printing, and embellishing, with emphasis on their conceptual uses in art making.

**ART 233 Introduction to Glass (5) VLPA** Introduces the materials of glass and its applications in the fine arts. Examines historical, technical, and contemporary practices. Focuses on glass-forming processes including cold fabrication, cold-working, kiln-forming, mold making, kiln-casting, flame working, and hot shop practices.

**ART 234 History of Public Art and Public Space (5) VLPA** *Young* Survey of the melding of public art, architecture, and landscape architecture through the ages, starting with Stonehenge, the Pyramids, and Gothic cathedrals, and ending with contemporary earthworks, public art, and twenty-first century performance art. Offered: W.

**ART 241 Intermediate Photography (5) VLPA** Includes studio projects examining the expressive and conceptual uses of alternative photographic materials and techniques. May include an introduction to analog photography, large format and studio lighting. Prerequisite: ART 140. Offered: A.

**ART 245 Concepts in Printmaking (5) VLPA** Introduction to contemporary printing methods such as monotype, monoprint, stencil, and photocopy. Survey of historical and current approaches to the art of printmaking.

**ART 246 Works on Paper/Monotype (5) VLPA** Introduces contemporary imaging methods, expands traditional drawing methods, and encourages relationship of content to structure. Introduces relationship of printmaking and painting to drawing through monotype methods.

**ART 259 Water-Soluble Media (5, max. 15) VLPA**

**ART 272 Introduction to Sculpture I: Techniques (5) VLPA** *Taylor* Introduces a variety of techniques and processes used in the creation of sculpture in the form of multiples,

series, narrative, progressions, and identity. Includes the study and studio practice of mold making and casting.

**ART 273 Introduction to Sculpture II: Structures (5) VLPA** Lynn Introduces understanding the specific concepts and skills needed to construct and create structure driven in wood, steel, plastic, glass, rubber, fabric, and found object. Explores issues of materiality, form, object, scale, and connection.

**ART 290 Beginning Drawing: The Figure (5) VLPA** Introduction to the human figure as historically traditional subject matter as well as an important component in self expression. Covers proportion, foreshortening, and composition. Prerequisite: ART 190. Offered: AWSpS.

**ART 291 Beginning Drawing Topics (5) VLPA** Revolving topics in the study of drawing at the beginning level. Not open for credit to students having taken ART 290.

**ART 292 Beginning Painting (5) VLPA** Beginning oil painting. Prerequisite: ART 290.

**ART 293 Beginning Painting Topics (5) VLPA** Revolving topics in the study of painting at the beginning level. Prerequisite: ART 292.

**ART 316 Introduction to Industrial Design (5) VLPA** Introduces the fundamentals of 3-D design with emphasis on analytical and intuitive approaches to problem solving, technical skills, and form development. Prerequisite: ART 207; ART 211.

**ART 317 Intermediate ID Studio 1 (5) VLPA** Introduces theories, methods, and design development focused on design principles involving form, function, usability, and product development. Prerequisite: ART 316.

**ART 318 Intermediate ID Studio 2 (5) VLPA** Includes studio experiences that expand upon and combine intellectual and manual skills for the practice of industrial design. Emphasizes the ideation process with form development. Prerequisite: ART 317.

**ART 320 Industrial Design Special Projects (5, max. 15) VLPA** Progressive industrial design methodology and criticism introduced through projects corresponding to major international design competitions, visiting critics and lecturers, corporate sponsored projects, or faculty design research. Independent or group work on projects to expand students' visual research, drawing, modelmaking, presentation, and literacy skills. Includes contemporary manufacturing and information technologies.

**ART 321 Materials and Manufacture (5) VLPA** Analyzes materials used in mass-produced products, focusing on how these materials impact product design and on finishing quality of products. Emphasizes materials research and manufacturing processes.

**ART 322 Presentation for Industrial Design I (5) VLPA** Introduction to presentation skills, from quick sketching of design concepts to refined representation of the finished design in a two-dimensional format. Emphasis on accuracy and development of an individual style. Prerequisite: ART 211; ART 212.

**ART 327 Intermediate Surface Design Studio (5, max. 10) VLPA** Explores intermediate techniques used in the basic fiber media, surface design. Covers pattern development, expanded scale, visual clarity, and conceptual depth. Prerequisite: ART 227.

**ART 328 Intermediate Fiber Studio (5, max. 15) VLPA** Explores more advanced techniques used in the basic fiber media, weaving and surface design. Technical focus of each class varies. Covers pattern development, expanded scale, visual clarity, and conceptual depth.

**ART 329 Topics in Fiber Art (5, max. 15) VLPA** Explores a range of special topics in fibers, including non-traditional materials and processes and interdisciplinary areas of interest within the field, while offering specific technical, hands-on training when appropriate. Emphasizes the development of the thematic content of the individual's work.

**ART 330 History of Textiles (5) VLPA** Overview of Western textiles from Coptic tapestry through industrialization. Dis-

cussion of textiles not only in aesthetic terms but also as cultural documents arising from, and reflecting, a broad range of societal pressures and concerns. Special topics in contemporary issues and non-Western textiles with emphasis on holdings in the University collection.

**ART 332 Intermediate Sculpture (5, max. 15) VLPA** Studio practice focusing on sculptural installation in architectural, urban, and natural settings; foundry, forging, and advanced fabrications; and movement, kinetics, and interaction. Prerequisite: either ART 201, ART 233, ART 272, or ART 273.

**ART 333 New Materials and Processes in Glass (5, max. 15) VLPA** Explores the process through which artists discover and translate ideas, feelings, and concerns into images or objects. Investigations include various glass forming methodologies and material properties. Topics rotate and may include mold-making, kiln casting, photo processes, mixed medial, cold fabrication, enamels, cold-working, hot glass practices, and sculptural applications. Prerequisite: either ART 201, ART 233, ART 272, or ART 273.

**ART 334 Public/Professional Art Issues (5, max. 15) VLPA** Young Topics vary, centering on issues of public art and professional practices.

**ART 335 Metal Casting (5, max. 15) VLPA** Introduction to foundry techniques as applied to fine arts casting of ferrous and nonferrous material. Prerequisite: ART 272.

**ART 338 Photography: Theory and Criticism (5) I&S/VLPA** Art traditions of photography from its origins in the nineteenth century to the present. Emphasis on photographic traditions and photographers of the twentieth century, and investigations of and research into local collections.

**ART 339 Intermediate Photography: Color (5) VLPA** Introduction to photographic color theory and processes with emphasis on color printing on type-C darkroom printing. Additional traditional and experimental color materials explored. Offered: Sp.

**ART 340 Digital Imaging I (5) VLPA** Introduces the creative use of photographic digital workflow in the processing, cataloging, and printing of camera generated digital imaging. Examines a variety of manipulations and transformation of both photographic and non-photographic imagery, involving multiple programs, procedures, and hardware (Macintosh platform). Prerequisite: ART 241. Offered: W.

**ART 341 Digital Imaging II (5) VLPA** Berger Advanced topics in digital imaging, including specialized output, interactive presentations, the moving image, and web based works. Emphasizes creative exploration of both software and hardware tools and the possibilities of integration with other art media. Prerequisite: ART 340.

**ART 342 Contemporary Issues in Photography (5) VLPA** Examines the use and role of photography and related media in contemporary culture. Introduces how an artist's work responds to these contemporary issues. Prerequisite: ART 241; ART 340. Offered: S.

**ART 343 Advanced Photomedia (5, max. 10) VLPA** Explores the concepts and techniques of contemporary photographic practice, including non-traditional approaches to photography and related media. Includes an exploration of 3-dimensional installation practices, collaborative projects, and the moving image. Prerequisite: ART 340. Offered: AWSp.

**ART 345 Intermediate Printmaking (5, max. 25) VLPA** Development of mature and personal statement within context of the print form through studio practice and group discussion and critique. Processes and media emphasis varies on a revolving basis.

**ART 350 Printmaking Special Projects (5, max. 15) VLPA** Approaches to water based printmaking. Introduces serigraphy, collagraph and relief printing through lecture, critique, class discussion, and creative practice.

**ART 351 Furniture Design and Making (5, max. 10) VLPA** Introduction to furniture design and making. Covers history of furniture from 1850 to present and includes hands-on learning resulting in design and fabrication of three unique tables. No previous experience required.

**ART 352 Furniture Design and Production (5, max. 10) VLPA** Hands-on woodworking and furniture production. Includes development of technique and collaboration with fabrication shops and design professionals. Uses design drawing, model building, and full-scale construction prototypes as tools of communication. End-of-term exhibit places work on public view.

**ART 353 Intermediate Ceramic Art (5, max. 20) VLPA** Explores a variety of ceramic processes and conceptual development including: press and slip molds, glaze formulation, multiples and installation, tiles and bricks, intermediate wheel, time, space, and scale. Prerequisite: ART 201; either ART 124, ART 233, ART 272 or ART 273.

**ART 360 Topics in Studio Art and Practice (5, max. 20) VLPA** Examines a variety of cutting edge, emerging, and interdisciplinary approached in studio art and practice. Topics vary.

**ART 361 Critical Ideas in Contemporary Art (5, max. 15) VLPA** Surveys critical ideas in contemporary art practice. Includes lectures by nationally recognized artists to introduce a wide range of artistic positions and practices. Engages students with the major issues informing contemporary art and new modes of practice.

**ART 366 Editorial Visualizations (5) VLPA** Expands focus on design process through a broad variety of image production techniques. Emphasizes concept development and the power of the image for storytelling. Design of stand-alone compositions is expanded into the development of a series of themed works. Prerequisite: ART 209; ART 210. Offered: A.

**ART 367 Communications Programs (5) VLPA** Investigation of strategies and graphic interpretations using typography, images, and diverse applications of design. Emphasis on development of conceptual themes, graphically implemented across an array of communications media. Prerequisite: ART 366, ART 376. Offered: W.

**ART 368 Case Studies in Corporate Identity (5) VLPA** Research and analysis of visual identity systems for complex institutional and corporate entities. Focuses on issues that concern how design programs function across diverse application and media and how they engage various audiences. Prerequisite: ART 377. Offered: Sp.

**ART 376 Typography (5) VLPA** Explores how meaning, hierarchy, and legibility are affected by typographic contrast, organization, and composition. Prepares students to create dynamic compositions with type, understand how type is used as an image/conceptual visualization, understand the nuances/techniques involved in a professional typesetting, and develop vocabulary. Prerequisite: ART 209; ART 210.

**ART 377 Marks and Symbols (5) VLPA** Investigates formal and conceptual problems associated with mark and symbol design. Students individually/collaboratively research and develop a series of marks and symbols for specific organizations. Helps develop the ability to recognize effective marks/symbols that identifies/communicates an identity or idea, identify specific types of marks and symbols, and determine the most suitable types for a specific communication problem. Prerequisite: ART 366, ART 376.

**ART 378 Information Architecture and Web Design (5) VLPA** Fundamental issues in web design, including site planning, information architecture, navigation, visual hierarchy, and interactivity. Emphasis on understanding the unique functional limitations of designing for the web while building an awareness of contemporary design practice. Design a simple site and produce a working a prototype. Prerequisite: ART 209; ART 211; ART 212. Offered: Sp.

**ART 381 Design Case Studies: Interaction Design Technology and Production (5) VLPA** History, theory, and practice of ways design functions in society and culture. Emphasis on developing broad understanding of design production while working collaboratively and individually on a quarter-long research project concerned with producing a comprehensive conceptual map of the design discipline. Prerequisite: ART 211; ART 212.

**ART 383 Foundations of Interaction Design (5) VLPA** Focus on human-to-product interaction and ways we perceive,

understand, and experience the world regards to objects, environments, or on-screen controls/information. Prerequisite: ART 211; ART 212.

**ART 384 Information Visualization for Interaction Designers (5) VLPA** Surveys information visualization approaches, techniques, and concepts for the design of interaction information systems, interactive instructions, and animated information graphics.

**ART 385 Design Innovation and Society (5) VLPA** Surveys the role of interaction design and impact of new information technologies and interactive product/systems of everyday life, expert domains, the formation of values and knowledge, and the production of adaptation to innovations.

**ART 386 Visual Storytelling (5) VLPA** Investigates the form and role of visual narratives from design development in the interaction design process. Introduces planning and production of storyboards, photography, video, editing for storytelling, character development, and design concept visualization as they apply to design presentation, communication, and evaluation of interactive design sequences.

**ART 387 Physical Interaction Design (5) VLPA** Surveys approaches, concepts, and techniques for the design of interaction systems that are situated in physical environments.

**ART 390 Intermediate Drawing (5, max. 10) VLPA** Prerequisite: ART 290.

**ART 391 Intermediate Drawing Topics (5) VLPA** Revolving topics in the study of drawing at the intermediate level. Prerequisite: either ART 290 or ART 291.

**ART 392 Intermediate Painting (5, max. 10) VLPA** Prerequisite: ART 293, ART 390. Offered: AWSp.

**ART 393 Intermediate Painting Topics (5) VLPA** Revolving topics in the study of painting at the intermediate level. Prerequisite: ART 292.

**ART 400 Interdisciplinary Visual Arts Senior Studio (5, max. 10) VLPA** Labitzke Focuses on the development of exhibition quality artwork and culminating in a group show. Covers curatorial issues, installation, and presentation. Assignments are designed to strengthen oral presentation skills, artist's written statement, critiquing abilities, and ability to place work within a larger art historical framework.

**ART 421 Video Art (5, max. 15) VLPA**

**ART 427 Special Topics in Surface Design (5, max. 15) VLPA** Advanced art making in the field of surface design. Topics include improvisational silk screening, artist's books, and explorations of non traditional approached in surface design. Prerequisite: ART 227.

**ART 428 Senior Thesis in Fiber Arts (5, max. 20) VLPA** Specialized investigation involving surface design and/or fabric structures.

**ART 440 Senior Thesis in Photomedia (5, max. 20) VLPA** Develops of a coherent artistic theme or topic evolved over three consecutive quarters resulting in a finished thesis portfolio. Prerequisite: ART 343. Offered: AWSp.

**ART 445 Advanced Industrial Design (5) VLPA** Emphasizes solving problems through the manipulation of design theory, application of human factors, appropriate combination of materials and manufacturing techniques, and presentation of concepts. . Prerequisite: ART 318; ART 323.

**ART 446 Advanced Industrial Design: Professional Practice (5) VLPA** Collaboration project with the professional design industry. Students learn how industrial designers brainstorm, develop, and refine initial design concepts to final product solutions. Prerequisite: ART 445.

**ART 447 Advanced Industrial Design: Degree Projects (5) VLPA** Industrial design project of the student's own choosing, with consent of instructor, to refine problem solving and design ability in preparation for graduate exhibition. Prerequisite: ART 446.

**ART 450 Individual Projects in Printmaking (5, max. 15) VLPA** Individual media study within the context of group discussion and critique.

**ART 457 Artist Handmade Books (5) VLPA** The creative and structural development of an artist's book. Focuses on issues of sequential imagery, conceptual development, and the relationship between work and image.

**ART 458 Alternative Approaches to Drawing (5) VLPA** Advanced works-on-paper class. Focuses on drawing issues such as formal process, working methods, conceptual development, and practical working applications.

**ART 466 Publication Design (5) VLPA** Stresses the research, development, organization, design, and presentation of a complex printed document, such as a journal, annual report, or large publication. Addresses all aspects of design, content, image creation, and production through a quarter-long project. Prerequisite: ART 368; ART 378. Offered: A.

**ART 467 Exhibition and Installation Design (5) VLPA** Explores how to communicate powerful messages and stories in three-dimensional space, bringing together typography, imagery, and innovative use of materials and structures. Emphasizes sustainable processes and materials. Prerequisite: ART 211; ART 212. Offered: W.

**ART 477 Type Design (3-5) VLPA** Exploration of contemporary type design.

**ART 478 Information Design (5) VLPA** Exploration of strategies for enhancing and visually presenting complex statistics and data. Various information subjects are select and formed into charts, diagrams, graphs, tables, directories and maps. Identify, through personal investigations, the principles which provide the most successful means for presentation of information. Prerequisite: ART 368; ART 378.

**ART 479 Interaction Design (5) VLPA** Exploration of design issues unique to user-centered interaction in digital media. Explore a range of formal and conceptual issues including user interface, organization, narrative, motion, time, and sound. Prerequisite: ART 466, ART 478. Offered: W.

**ART 480 Senior Project/Presentation (5) VLPA** Presents an opportunity for advanced, individualized design research and study. Complete a unique capstone project based on individual design interests and prior experiences in the VCD program. Public exhibition of this project is required in the BFA Graduation Exhibition. Prerequisite: ART 467, ART 479. Offered: W.

**ART 481 Field Studies: Design Research Techniques (5) VLPA** Students develop an understanding of significant theoretical models related to design through a series of readings, lectures, discussions, and assignments. Prerequisite: ART 211; ART 212.

**ART 483 Advanced Interaction Design (5) VLPA** Explores the role of visual interface design and interaction flows in technology-driven work settings. Introduces techniques for knowledge elicitation and design of interactive systems in expert domains or special use contexts to develop interface that are useful, understandable, and usable. Prerequisite: ART 383.

**ART 484 Senior Projects in Interaction Design (5) VLPA** Explores the design of interactive products and user experience in everyday settings. Students apply interaction design and research techniques in a multi-disciplinary studio for a quarter long interaction design project requiring collaboration between students from a variety of backgrounds including design, engineering, and computer science. Prerequisite: ART 383; ART 483.

**ART 488 Portfolio Preparation (3) VLPA** Focuses on developing the tools to create a successful transition between academia and professional practice as a working designer.

**ART 490 Advanced Drawing (5, max. 15) VLPA** Study at an advanced level involving history, practice, and theory of drawing as an art form. Prerequisite: either ART 265 or ART 390. Offered: AWSp.

**ART 491 Advanced Drawing Topics (5) VLPA** Revolving topics in the study of drawing at the advanced level. Prerequisite: either ART 390 or ART 391. Not open for credit to students having taken ART 490.

**ART 492 Advanced Painting: The Figure (5, max. 10) VLPA** Drawing and painting from the model. Prerequisite: ART 390; ART 392. Offered: AWSp.

**ART 493 Advanced Painting Topics (5) VLPA** Revolving topics in the study of painting at the advanced level. Prerequisite: either ART 390 or ART 391; either ART 392 or ART 393.

**ART 494 Senior Seminar in Painting and Drawing (5, max. 15) VLPA** Development of individuality in painting through creative exercises. Prerequisite: ART 492. Offered: AWSp.

**ART 496 Undergraduate Internship (2-5, max. 10)** Faculty supervised fieldwork in art related activities. Credit/no credit only.

**ART 497 Study Abroad-Studio Individual Projects (3-10, max. 20) VLPA**

**ART 498 Individual Projects-Painting/Sculpture (2-5, max. 15)**

**ART 499 Individual Projects-Design (2-5, max. 15)**

**ART 512 Graduate Seminar (3, max. 9)**

**ART 515 Graduate Studio Photomedia (3-15, max. 60)** Photomedia graduate studio and seminar, including readings, discussions, and studio critiques.

**ART 540 Fiber Arts (3-15, max. 60)**

**ART 550 Printmaking (3-15, max. 60)**

**ART 553 Ceramic Art (3-15, max. 60)**

**ART 581 Graduate Seminar in Design (5, max. 30)** Addresses critical issues in design through research, writing, presentations, and discussion. Offered: AWSp.

**ART 582 Design Graduate Studio (5, max. 40)** Explores a range of ideas and influences in the context of applied design.

**ART 590 Interdisciplinary Graduate Seminar in Contemporary Practices (5, max. 25)** Constructive forum for developing dialogue and critique in practicum-based setting. Professional development highlights the student's experience.

**ART 591 Graduate Studio: Drawing (5, max. 15)** Supervised studio for advanced-level students from various media-based disciplines designed to develop an interest in and familiarity with aspects of drawing. Utilization of various media. Discussion of historical and contemporary issues concerning drawing.

**ART 592 Graduate Studio: Painting (3-15, max. 60)** Offered: AWSp.

**ART 594 Graduate Seminar in Painting and Drawing (5, max. 15)** Designed as a forum for the presentation and criticism of student work as well as for discussion of contemporary directions in visual art. Credit/no credit only.

**ART 595 Master of Fine Arts Research Project (2-5, max. 10)** An independent research project related to and informed by the MFA student's studio work. Final project form may be a lecture, slide presentation, or paper.

**ART 600 Independent Study or Research (\*)**

**ART 700 Master's Thesis (\*)**

---

## Art History

---

### PROGRAM OVERVIEW

209 Art

Art history is the study of the creation, style, and meaning of works of art in relation to the artists and societies that created them. The history of art involves the interaction of styles, techniques, concepts, individual personalities, and social values from many places over long periods of time. This discipline is comparative in nature and requires many different skills, derived from the study of history and culture, foreign languages and literature, iconography, stylistic analysis, and connoisseurship.

## UNDERGRADUATE PROGRAM

### Adviser

104 Art, Box 353440

206-543-0646

[uaskart@uw.edu](mailto:uaskart@uw.edu)

The Division of Art History offers the following undergraduate programs:

- The Bachelor of Arts degree with a major in art history
- A minor in art history

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* ART H 201, ART H 202, ART H 203, ART H 204, ART H 205, ART H 206. Courses to enhance writing skills, and courses in history, literature, anthropology, classics, and foreign languages.

### Department Admission Requirements

Entering freshmen and transfer students may declare an Art History major by scheduling an appointment with the Art History adviser on or after their orientation/registration date. Currently enrolled University students who wish to declare an Art History major must have a minimum 2.50 GPA and meet with the adviser anytime during the quarter except the first two weeks.

*Admission Policy for Postbaccalaureate Applicants:* Postbaccalaureate study in Art History is limited. Acceptance is competitive, based upon transcripts of prior college work and a School of Art supplemental information form.

### Major Requirements

55 credits in art history, including one course from each of the following four groups plus three 400-level art history courses:

- ART H 201, ART H 202, ART H 290, ART H 340, ART H 341, ART H 342, ART H 343, ART H 361, ART H 366, or ART H 373
- ART H 212, ART H 215, ART H 306, ART H 310, ART H 311, ART H 313, ART H 315, or ART H 318
- ART H 205, ART H 206, ART H 230, ART H 233, or ART H 337
- ART H 203, ART H 280, ART H 381, ART H 382, or ART H 384

### Minor

*Minor Requirements:* 30 credits of art history courses, of which 15 must be upper-division courses. Minimum grade of 2.0 required in each course applied to the minor. At least 15 credits must be completed at the UW.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Students studying in the field of art history can expect to develop strong writing, research, analytical, critical thinking, and problem-solving skills. Coursework is designed to allow students to comprehend the social, historical, ethical, and aesthetic significance of the visual realm that is our present environment and the heritage of many cultures. Art history graduates pursue careers in fields such as gallery and museum management, visual technology, teaching, arts administration, arts education, research, curating and restoration, interior design, and art and antique connoisseurship.
- *Instructional and Research Facilities:* None
- Honors Options Available: College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements). For Interdisciplinary Honors, see University Honors Program.

- *Research, Internships, and Service Learning:* The Art History program is based in the School of Art where majors work side by side with students studying in the studio arts. They have direct access to the Art Library, Media Center, Writing Center, a state of the art Computer Center, and three active art galleries. Classes are taught in rooms equipped with the technology needed to address all the issues and complexities of a visual culture. Many art history classes are conducted at local galleries and museums where students receive first-hand knowledge of the visual arts. Enrichments outside the classroom include one quarter study abroad in Rome, opportunities to work one on one with faculty in research projects, and workshops and presentations by visiting artists and scholars.
- *Department Scholarships:* Art history majors compete each year for several major scholarships in the School of Art: Austin Award (\$3,000), Marsh Scholarship (\$3,000), and Milnor Roberts Award (\$4,000). They are also eligible for smaller awards of excellence that range from \$500 to \$1,000. Applications are made in early April and scholarship winners are announced at the annual School of Art Open House in late April. In addition to these awards, students are also encouraged to apply for the Nordstrom Research and Recognition Awards that support special projects, research, and professional development. The \$2,000 Lockitch Graduating with Excellence Award is presented each year at the School of Art Graduation Celebration to the top undergraduate in Art History.
- *Student Organizations/Associations:* Art history majors have opportunities to serve on School of Art committees which include: Open House, Gallery, Graduation Celebration, Curriculum, Space, and Career Discovery Week.

*Of Special Note:* Art history majors anticipating graduate study should acquire a reading knowledge of French, German, Chinese, Italian, or Japanese.

## GRADUATE PROGRAM

### Graduate Program Coordinator

209 Art, Box 353440

206-543-4876

[uwah@uw.edu](mailto:uwah@uw.edu)

### Master of Arts

#### Admission Requirements

- Bachelor of Arts degree with major in the history of art, or equivalent coursework, with a minimum GPA of 3.00 or B average in art history courses. Students in other majors may apply if they have a strong background in art history.
- One copy of all academic transcripts (international applicants must submit two copies)
- Three letters of recommendation
- Statement of professional objectives in the field
- Samples of the applicant's written work
- Graduate Record Examination scores (General Test)

#### Degree Requirements

55 to 65 credits, to include:

- 55 credits in the thesis track or 65 credits in the non-thesis track. Of these credits, a minimum of 45 credits in the thesis track or 55 credits in the non-thesis track must be numerically graded art history courses numbered 400 and above, exclusive of thesis or practicum credits. A maximum of 10 credits in related fields, in numerically graded courses numbered 300 and above, may be approved for credit in place of art history courses. No more than 12 credits of ART H 600 may be

counted toward the minimum credit requirement for the Master of Arts degree.

- A minimum of 5 numerically graded credits each in four of five major areas: African or Native American; East Asian; Ancient, Classical, and Medieval; Italian and Northern Renaissance, Baroque, and Rococo; or late eighteenth- to twenty-first-century Western.
- A minimum of 15 credits in 500-level seminars, in addition to ART H 500 and ART H 504, both of which must be taken within the first year of residence. At least one seminar each in a Western and a non-Western area.
- Knowledge of French, German, or Italian, or of Chinese or Japanese if appropriate. Degree candidates specializing in Native American art may substitute Spanish for French, German, or Italian. Candidates in the thesis track must, in addition, demonstrate knowledge in a second language appropriate to the student's area of study as determined by the faculty. Petitions to the Faculty Graduate Committee for exemption from the second language requirement are considered as warranted by the needs of different fields or projects. Language requirements may be satisfied by passing graduate proficiency examinations (available in French, German, Italian, and Spanish), or by completing the third quarter of the second year of French, German, Italian, Chinese, Japanese, or other appropriate language as a graduate student at the UW with a minimum grade of 3.0. Students are expected to satisfy at least one of the language requirements no later than the first quarter of residence in the program.
- Students in the thesis track take 10 thesis credits in ART H 700 in preparation for the written presentation and oral defense of a thesis that demonstrates the ability to conduct rigorous research, familiarity with relevant sources, and a capacity for synthesis and critical evaluation; students in the non-thesis track take 10 practicum credits in ART H 598, a practical or theoretical program designed in conjunction with the faculty and defended by means of a final written report and oral examination.

### Doctor of Philosophy

#### Admission Requirements

- Prior sound preparation in art history at a general level, which usually means the Master of Arts degree in the history of art;
- One copy of all academic transcripts (international applicants must submit two copies);
- Three letters of recommendation;
- Statement of professional objectives in the discipline;
- Samples of written research work in art history;
- Graduate Record Examination scores.

#### Graduation Requirements:

Minimum 90 credits, to include:

- 60 credits in numerically graded art history courses numbered 400 and above, beyond the Master of Arts degree or equivalent, and exclusive of dissertation credits; maximum 20 credits in related fields in numerically graded courses numbered 300 and above may be approved for credit in place of art history courses; minimum 10 credits in areas other than those tested by the general examination; at least 30 credits in 500-level seminars;
- Knowledge of German, French, or Italian, or of Chinese or Japanese if appropriate; research capability in a second language judged appropriate to the student's area of study; knowledge of any other languages considered necessary by the faculty. Language requirements may be satisfied by passing graduate-proficiency examinations (available in French, German, Italian, and Spanish), or by completing the third quarter of second-year

French, German, Italian, Chinese, Japanese, or other appropriate language as a graduate student at the University with a minimum grade of 3.0;

- General examination, written and oral, taken prior to enrollment for dissertation credits; this examination covers three specific fields of art history chosen from the following general areas: African, Native American, Chinese, Japanese, Ancient, Medieval, Renaissance, Baroque and eighteenth century, Modern, and Contemporary; no more than two fields may be selected from the same area;
- 30 dissertation credits in ART H 800 taken after the general examination in preparation and defense of the dissertation. These credits must be distributed over a minimum of three quarters;
- Dissertation demonstrating original and independent investigation and achievement.

## Financial Aid

The Art History division offers certain scholarship funds, as well as teaching assistantships, for art history graduate students. A small number of grants are awarded to outstanding entering students, but it is otherwise a policy to award financial aid and assistantships only to students who have completed at least one year of graduate study.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/).

**ART H 201 Survey of Western Art--Ancient (5) VLPA** Major achievements in painting, sculpture, architecture, and the decorative arts in Europe, the Near East, and North Africa, from prehistoric times to the beginnings of Christianity.

**ART H 202 Survey of Western Art--Medieval and Renaissance (5) VLPA** Emphasizes the arts of the Byzantine Empire and Western Christendom from Late Antiquity to the High Renaissance.

**ART H 203 Survey of Western Art--Modern (5) VLPA** Western art from 1520 to the present.

**ART H 205 Survey of Tribal Art (5) I&S/VLPA** Arts of Sub-Saharan Africa and Oceania from prehistoric times to the present and to the pre-Columbian arts of the Americas.

**ART H 206 Survey of Native-North American Art (5) I&S/VLPA** Survey of the indigenous arts of North America north of Mexico from ancient through contemporary times. Focuses on the historical and cultural contexts of the arts and the stylistic differences between tribal and individual artists' styles.

**ART H 212 Chinese Art and Visual Culture (5) VLPA/I&S** Surveys the highlights of Chinese visual arts from the Neolithic to the present. Studies jade, bronze, lacquer, silk, Buddhist sculpture, ceramics, calligraphy, painting, architecture, film, and installation art forms at a moment in Chinese history when work in those media was especially innovative and important.

**ART H 215 The Arts of Japan: A Visual and Cultural History (5) VLPA** Survey of Japanese art from prehistory to the present. Focuses on selected works of paintings, sculpture, calligraphy, architecture, gardens, and manga while considering themes such as art forms, techniques, patronage, religious beliefs and practice, relationship to other Asian traditions, modernity and tradition, and ideas of representation in ancient Japan.

**ART H 230 The African-American Tradition: A Transatlantic View of Art and Culture (5) I&S/VLPA** Assesses the diversity of art by individuals of African descent in Brazil, the Caribbean, and the United States. Examines questions of form meaning, and symbolic and ritual behavior. Considers formal and conceptual relationships between art forms and

their African sources; assesses their role in the construction of new African-American identities.

**ART H 233 Survey of Native Art of the Pacific Northwest Coast (5) VLPA/I&S** Surveys indigenous art of the Pacific Northwest Coast from the Columbia River in the south to Southeast Alaska in the north and from ancient through contemporary times. Focuses on the historical and cultural contexts of the art and the stylistic differences between tribal and individual artists' styles.

**ART H 250 Rome (5) I&S/VLPA** Focuses on Rome as an historical, intellectual, and artistic world center. Literary and historic documents, visual arts, architecture, film, and opera used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with ITAL 250 and HSTEU 250.

**ART H 260 Fashion, Nation, and Culture (5) VLPA/I&S** Gaylard Introduction to Italian culture focusing on fashion and manners from the late Middle Ages to today. Explores common assumptions about nation, gender, clothes, make-up, and manners, through literary and visual analysis. In English. Offered: jointly with EURO 260/ITAL 260; W.

**ART H 290 History of Architecture (5) I&S/VLPA** Introduction to the history of architecture across a broad range of cultural contexts.

**ART H 306 Indian Art of South Asia (5) VLPA** Development of Indian art from its origins to the medieval period. Spread of Indian religions and related art forms in Tibet and Southeast Asia are briefly introduced.

**ART H 309 Topics in Art History (5, max. 25) VLPA** Topics vary.

**ART H 310 Chinese Art and Archaeology Neolithic to Han Dynasty (5) VLPA/I&S** Introduces Chinese art and archaeology from the Neolithic to the Han Dynasty. Focuses on the history of developing technology and the archaeological basis for understanding the development of art and visual culture in early China.

**ART H 311 Arts of Imperial China (5) I&S/VLPA** Introduces the role of painting in the history of Imperial China from the fourth to the seventeenth century. Topics for reading and discussion include political forces, regional geography, social structure, gender, traditional philosophies, religious, and spiritual influences.

**ART H 313 East Asian Art (5, max. 15) I&S/VLPA** Examines East Asian art and visual culture from ancient times to present day. Emphasizes how artistic styles were tied to different social and cultural contexts, and how arts were transformed and exchanged within the larger cultural geographical circle of East Asia.

**ART H 315 Buddhist Art and Material Culture of East Asia (5, max. 15) VLPA** Buddhist painting and sculpture of China, Korea, and Japan. Explores religious meaning, artistic development, and historical significance. Examples from the sixth to the seventeenth centuries, along with paintings and contemporary carvings.

**ART H 317 Chado-Japanese Esthetics (4) VLPA** History, theory, and practice of chado, or Way of Tea, a Zen-inspired art that has had notable effects on Japanese society. Lectures on esthetics and cultural history supplemented by participation in chado, with the goal of developing sufficient understanding and skill to continue chado as a discipline.

**ART H 318 Japanese Prints 1600-Present (5) VLPA** Bogel Introduction to Japanese printmaking practices, style, and themes. Examines concerns related to gender, issues of representation, explicit sexual imagery, cultural and artistic practice, and the function of prints.

**ART H 331 Native Art of the Pacific Northwest Coast (5) I&S/VLPA** Survey of the indigenous arts of the Pacific Northwest Coast from the Columbia River in the south to Southeast Alaska in the north. Overview of ancient through contemporary times, focusing on the historical and cultural contexts of the arts and the stylistic differences between tribal and individual artists' styles. Offered: jointly with ANTH 331.

**ART H 337 African Art and Society (5) I&S/VLPA** Explores the ideas and notions expressed visually in sculpture, paint-

ing, ceramics, textiles, and architecture and describes their relationships to man and culture in Africa.

**ART H 340 Pre-Classical Art and Archaeology (3) VLPA** Art and the other material remains of the civilizations in the Aegean from the Neolithic period to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece; illustrated by slides. The history, techniques, and results of significant excavations. Offered: jointly with CL AR 340.

**ART H 341 Greek Art and Archaeology (3) VLPA** Material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the Geometric to the Hellenistic periods; illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct the material culture of antiquity. Offered: jointly with CL AR 341.

**ART H 342 Roman Art and Archaeology (3) VLPA** Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with CL AR 342.

**ART H 343 Hellenistic Art and Archaeology (3) VLPA** Art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting, mosaics, and minor arts examined in lectures with slides. Offered: jointly with CL AR 343.

**ART H 351 Early Medieval and Byzantine Art (5) I&S/VLPA** Christian art and architecture of the Roman and Byzantine empires and of western Europe through the eighth century.

**ART H 352 High and Late Medieval Art (5) I&S/VLPA** Art and architecture of western Christendom from the time of Charlemagne to the Renaissance.

**ART H 361 Italian Renaissance Art (5) VLPA** Sculpture, painting, and architecture from 1300 to 1600.

**ART H 366 Northern Renaissance Art (5) VLPA** An overview of Netherlandish, French, and German art in the context of cultural developments circa 1400-1570.

**ART H 373 Southern Baroque Art (5) VLPA** Art of Italy and Spain, circa 1590 to circa 1710.

**ART H 374 Northern Baroque Art (5) VLPA** The art of northern Europe, circa 1590 to circa 1710.

**ART H 380 Nineteenth- and Twentieth-Century Art (5) VLPA** Arts and architecture of Europe and America from Romanticism to the present.

**ART H 381 Art Since World War II (5) I&S/VLPA** Art of Europe and the United States in the decades since World War II: painting, sculpture, and architecture, multiplication of new forms (video, performance pieces, land and installation pieces), changing context of patronage, publicity, and marketing.

**ART H 382 Theory and Practice of Art Criticism (5) VLPA** Explores the origins, development, decline, and aftermath of modernist visual art criticism in the United States. Emphasizes study of widely circulated critical essays and reviews. Assess and evaluates categories of critical writing in contemporary art publications and art-historical texts.

**ART H 384 American Art (5) I&S/VLPA** Achievements and issues in painting, architecture, sculpture, and other arts in the United States from the colonial era to the present.

**ART H 397 Art in Rome: Augustus to Mussolini (10) VLPA** Survey of art in Rome; studies from original monuments. Offered in Italy as part of the Art History Seminar in Rome. Focuses on representative works from the most important periods of Italian art: Ancient, Medieval, Renaissance, Baroque, Modern. Site visits, field trips, individual research projects.

**ART H 399 Study Abroad: Art History Individual Projects (3-10, max. 20) VLPA** For participants in Study Abroad programs.

**ART H 400 ART History and Criticism (2-5, max. 15) VLPA** Courses on special topics, frequently by visiting faculty,

which cannot be offered on a continuing basis. Consult art history office for subjects offered.

**ART H 411 Chinese Painting Experiences, 900-1800 (3) VLPA/I&S** Examines issues of style, theme, and function in Chinese painting from the tenth to the nineteenth century. Discusses painting practice, patronage, regional diversity, the relationship of word and image, amateurism vs. professionalism, and the introduction of foreign elements.

**ART H 412 Art History and the Study of Chinese Bronzes (3) VLPA/I&S** An investigation of Chinese Bronzes to illuminate some general ideas about the discipline and practice of art history. Focuses on a case study examining the work of a twentieth century practitioner of art history and comparing it with that of a famous scholar from a neighboring discipline.

**ART H 413 Selected Topics in Chinese Art (3, max. 9) VLPA** Specific theme or area of Chinese art, such as the art of bronze age China or Chinese painting under Communist rule. Recommended: some background in Chinese art, history, language, or literature.

**ART H 419 Japanese Architecture (3) VLPA** Survey of Japanese architecture from its origins to modern times. Although Shinto architecture, tea houses, gardens, and modern developments are discussed, the primary focus is on the development of Japanese Buddhist architecture. Recommended: some background in Japanese art, history, language, or literature. Offered: jointly with ARCH 453.

**ART H 420 Art of the Japanese Print (3) VLPA** Foundations of Ukiyo-e in Japanese genre from the twelfth through mid-seventeenth centuries; woodblock technique from the Heian period through the early Edo period. Emphasis on the changing styles and subject matter in Ukiyo-e Hanga from Moronobu through Kuniyoshi. Recommended: some background in Japanese art, history, language, or literature.

**ART H 421 Topics in Art and Visual Cultures: Japan (5, max. 15) VLPA/I&S** Special topics in the study of Japanese art and visual culture.

**ART H 432 Oceanic Art (3) I&S/VLPA** Explores the arts of the Pacific Islands and Australia. Pays special attention to the arts of aboriginal Australia, traditional and contemporary creativity in Papua New Guinea, and the diversity of island Melanesian art forms. Recommended: previous coursework in Tribal Art.

**ART H 433 Northern Northwest Coast Native-American Art: Methodologies in Stylistic Analysis (5) VLPA** Stylistic and historical analysis of northern Northwest Coast art (Haida, Tlingit, Tsimshian, Northern Wakashan). Intensive analysis of formline rules; stylistic variation through time and between tribal and individual artists' styles. Recommended: some background in Native American art, history, languages, or literature.

**ART H 434 Native-American Art and Ceremony of the Southern and Central Northwest Coast (3) I&S/VLPA** Examination of the role of the visual arts in the ceremonial life of the Native-American people of the central and southern Northwest Coast. Emphasis on the traditional social and religious aspects of ceremonialism, contrasts between tribal traditions, and continuing twentieth-century traditions. Recommended: some background in Native American art, history, languages, or literature.

**ART H 435 Thematic Studies in Native-American Art (5, max. 15) I&S/VLPA** Wright Approach to Native-American art through themes and issues. Focus varies from year to year (e.g. Shamanism in Native-American art, gender identity in Native-American art, social and political aspects of Native-American art, issues in contemporary Native-American art). Recommended: some background in Native American art, history, languages, or literature.

**ART H 436 History of the Arts of Africa I (3) I&S/VLPA** Approaches the arts of North Africa, the Sahara, and Sudan from pre-historic times to the present. Emphasizes the role of Islam throughout this vast region and the role of local cultures in shaping the varieties of African Islam. Recommended: some background in African art, history, languages, or literature.

**ART H 437 History of the Arts of Africa II (3) I&S/VLPA** Explores the history of the arts and creativity of western Africa from Cape Verde to Cape Lopez with consideration given to the European presence, the peoples of "Guinea", and the shaping of intercultural spaces and artistry. Recommended: some background in African art, history, languages, or literature.

**ART H 438 History of the Arts Africa III (3) I&S/VLPA** Surveys the arts from the equatorial forest to the Cape of Good Hope with an extended examination of Congolese (Bantu and Abatwa) artistry, the personal arts of East Africa herders, and the art and architecture of Swahili civilization. Recommended: some background in African art, history, languages, or literature.

**ART H 442 Greek Painting (3) VLPA** Study of painted decoration on Greek vases, with emphasis on stylistic developments and cultural and historical influences. Painting on other media also examined as evidence allows. Offered: jointly with CL AR 442.

**ART H 443 Roman Painting (3) VLPA** Study of surviving painting from the Roman World, with emphasis on wall paintings from Pompeii and Herculaneum. Principal topics for discussion: the four styles of Pompeian painting the dependence of Roman painters on Greek prototypes, and the significance of various kinds of painting as domestic decoration. Offered: jointly with CL AR 443.

**ART H 444 Greek and Roman Sculpture (3) VLPA** History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC Offered: jointly with CL AR 444.

**ART H 446 Greek Architecture (3) VLPA** Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with CL AR 446/ARCH 454.

**ART H 447 The Archaeology of Early Italy (3) VLPA** Harmon Study of the principal archaeological sites of early Italy, including Etruria, Sicily, southern Italy, and archaic Rome up to the Republican period. Attention given to the material remains and their relationship to the Etruscan, ancient Sicilian, and early Roman civilizations. Offered: jointly with CL AR 447.

**ART H 448 The Archaeology of Italy (3) VLPA** Harmon Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with CL AR 448.

**ART H 451 Topics in Early Christian and Byzantine Art and Architecture (3, max. 9) VLPA** Specific theme or area of early Christian and Byzantine art and architecture, such as early Christian and Byzantine mosaics or the art of Constantinople.

**ART H 452 Art, Religion, and Politics in the Early Christian Period, 300-700 AD (3) I&S/VLPA** Kartsonis Evolution of the art of the early Christian period (300-700 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with RELIG 442.

**ART H 453 Art, Religion, and Politics in Byzantium, 700-1453 AD (3) I&S/VLPA** Kartsonis Evolution of the art of Byzantium (700-1453 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with RELIG 443.

**ART H 455 Special Studies in Gothic Art and Architecture (3) VLPA** Detailed study of Gothic architecture and its accompanying sculpture and stained glass, with special emphasis on the twelfth and thirteenth centuries in France and England. Offered: jointly with ARCH 455.

**ART H 460 Topics in Northern European Art (3-5, max. 9) VLPA** Goettler Approaches to the art of northern Europe

through particular themes, genres, contexts, or other issues. Focus varies from year to year.

**ART H 461 Early Renaissance Painting in Italy (3) VLPA** Painting of the fourteenth and fifteenth centuries in central and northern Italy. Recommended: some background in Italian Renaissance art or history.

**ART H 462 High Renaissance Painting in Italy (3) VLPA** Painting in central and northern Italy, from about 1480 to about 1530: Leonardo, Raphael, the early Michelangelo, Sarto, Correggio, Bellini, Giorgione, and the early Titian. Recommended: some background in Italian Renaissance art or history.

**ART H 464 Late Renaissance Painting in Italy (3) VLPA** Painting in central and northern Italy, from about 1515 to about 1580: Pontorno, Rosso, Parmigianino, Beccafumi, the later Michelangelo, Vasari, Bronzino, Salvati, the later Titian, Tintoretto, and Veronese. Recommended: some background in Italian Renaissance art or history.

**ART H 466 High Renaissance Painting in Venice (3) VLPA** Painting in Venice, circa 1480 to circa 1580: Bellini, Carpaccio, Giorgione, Titian, Lotto, del Piombo, Tintoretto, and Veronese. Recommended: some background in Italian Renaissance art or history.

**ART H 471 Rome in the Seventeenth Century (3) VLPA** Painting, sculpture, and architecture; concentration on Caravaggio, Bernini, Poussin, and Borromini. Recommended: some background in the art or history of the period.

**ART H 479 Representations of the Other in 19th Century Art (5) VLPA** Explores how cultural identities were formed and reinforced in nineteenth-century European, British, and American Art. Includes investigations of physical and racial stereotyping, historical notions of the "primitive", fantasies of race, gender, imperialism, nationalism, and ethnicity.

**ART H 480 Art Museums: History, Theory, Practice (5) VLPA** Explores the history of art museums in America and Europe from the nineteenth century to the present. Topics include connoisseurship and conservation, theories of design and display, architectural challenges, auction houses, dealers, curators, directors, impact of education departments, museums changing relationship to public audiences, visual arts, and the law.

**ART H 483 Post-Impressionism to 1918 (5, max. 15) VLPA** Post-Impressionism and the great revolution of early twentieth-century art, with emphasis on painting. From the first revisions of Impressionism around 1880 to Fauvism, Cubism, Futurism, the Blaue Reiter, and Dadaism. Recommended: some background in the art or history of the period.

**ART H 484 Topics in Modern Art (5, max. 15) VLPA** Approach to art of the nineteenth and twentieth centuries through particular themes, genres, contexts, or other issues. Focus varies from year to year. Recommended: some background in the art or history of the period.

**ART H 485 Italian Futurism, Dada, Surrealism (5) VLPA** *Failing* Survey of three European early modern art movements whose ultimate objective was the collapse of bourgeois culture. Central issues: the role of art and artists in catalyzing social change, strategies for destroying public faith in logic, integration of verbal and visual signs and nonaesthetic conceptions of art. Recommended: some background in the art or history of the period.

**ART H 486 Abstract Expressionism: History and Myth (5) VLPA** Thematic and chronological survey of abstract expressionism, including major genres of critical interpretation, revisionist scholarship, and the relationship of artistic production to a larger context of visual production. Recommended: some background in the art or history of the period.

**ART H 488 American Architecture (3) VLPA** American architecture from indigenous native American traditions to the present. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 488.

**ART H 490 Nineteenth-Century Architecture (3) VLPA** From late eighteenth-century French rationalists, Neoclassicists, to *fin de siecle* Vienna and Paris. Includes theorists such as

Ruskin, Viollet-le-Duc, and Semper; major movements, such as the Arts and Crafts, and the French Ecole des Beaux-Arts method of design. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 456.

**ART H 491 Twentieth-Century Architecture (3) VLPA** Architecture in the twentieth century, mainly in Europe and the United States. Traces roots of Modernism in Europe in the 1920s, its demise (largely in the United States) in the 1960s and recent trends such as Post-Modernism and Deconstructivism. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 457.

**ART H 492 Alternative Art Forms Since 1960 (5) VLPA** Survey of "post-studio" art forms developed in the 1960s by artists who did not equate artmaking with painting, sculpture, or other traditional forms. Topics include: happenings, Fluxus, land projects, artists' video, artists' books, performance, site works, and art made for distribution on CD-ROM and on the World Wide Web.

**ART H 493 Architecture Since 1945 (3) VLPA** Theories and forms in architecture from the end of World War II to present. Includes new wave Japanese architects, recent Native-American developments, and non-Western as well as Western trends. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 459.

**ART H 494 Paris: Architecture and Urbanism (3/5) I&S/ VLPA** Spans the architectural history of Paris, from its Gallic, pre-roman origins in the 2nd century BCE through the work of 21st century architects. Focuses on changing patterns of the physical fabric of the city and its buildings, as seen within the context of the broader political, social, economic, and cultural history. Offered: jointly with EURO 496.

**ART H 497 Special Topics in Art in Rome (5, max. 10) VLPA** Topics in art and architecture in Rome and environs, studied from original works. Offered in Italy as part of the art history Seminar in Rome. Topics vary. Site visits, field trips, and individual research projects.

**ART H 498 Individual Projects, Undergraduate Practicum (2–5, max. 10)** Fieldwork or internships in art-related areas in the community. Practical experience in areas such as arts administration, gallery and museum operations, collection cataloging, curatorial responsibilities, and art education. Credit/no credit only.

**ART H 499 Individual Projects (2–5, max. 10)**

**ART H 500 Methods of ART History (5)** Introduction to the specialized bibliography of art historical research and to the wide variety of approaches to art historical problems of all periods and regions.

**ART H 501 Seminar in the General Field of Art (5, max. 15)**

**ART H 504 Methods of Art History: Faculty Research (2)** Discussion and analysis of methodological issues posed in faculty research. Credit/no credit only. Offered: W.

**ART H 509 Seminar in Special Topics in ART History (5, max. 15)** Specific focus changes from quarter to quarter.

**ART H 511 Seminar in Chinese Art (5, max. 15)** Critical appraisal of the principal research methods, theories, and types of literature dealing with the art of China.

**ART H 515 Seminar in Japanese Art (5, max. 15)** Critical appraisal of the principal research methods, theories, and types of literature dealing with the art of Japan.

**ART H 520 Topics in Tribal Art (5, max. 20)** Investigates a series of variable topics in tribal art.

**ART H 521 Topics in Asian Art (5, max. 20)** Investigates a series of topics in Asian art.

**ART H 522 Topics in Ancient, Classical, and Medieval Art (5, max. 20)** Investigates a series of variable topics in ancient, classical, and medieval art.

**ART H 523 Topics in Italian and Northern Renaissance Art (5, max. 20)** Investigates a series of variable topics in Italian and Northern Renaissance art.

**ART H 524 Topics in Baroque and Eighteenth Century Western Art (5, max. 20)** Investigates a series of variable topics in baroque and Eighteenth century Western art.

**ART H 525 Topics in Modern and Contemporary Art and Architecture (5, max. 20)** Investigates a series of variable topics in modern and contemporary art and architecture.

**ART H 531 Seminar in Tribal Art (5, max. 15)** Methodological and cross-disciplinary problems in the visual arts of precolonial Africa, Oceania, and America. Specific content varies.

**ART H 533 Seminar in North American Native Art (5, max. 15)** Problems in North American Indian visual arts. Content varies.

**ART H 541 Seminar in Greek and Roman Art (5)** In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with CL AR 541.

**ART H 551 Seminar in Early Christian, Byzantine, and/or Medieval Art and Architecture (5, max. 15)** Problems in early Christian, Byzantine, and medieval art and architecture. Content varies. Prerequisite: permission of instructor.

**ART H 561 Seminar in Italian Renaissance Art (5, max. 15)** Problems and in-depth study of selected topics of the art of the Italian Renaissance.

**ART H 566 Seminar in North European Art (5, max. 15)** Deals with problems of style and iconography of the northern European masters of the fourteenth through seventeenth centuries.

**ART H 577 Seminar in Baroque Art (5, max. 15)** Iconographic and stylistic problems of the art of the Baroque period, with emphasis on the principal research methods, theories, and types of literature dealing with the art of the seventeenth and eighteenth centuries in Europe.

**ART H 581 Seminar in Modern Art (5, max. 15)** Art historical problems of the nineteenth and twentieth centuries.

**ART H 590 Seminar in Criticism of Contemporary Art (5, max. 15)** Contemporary art and appropriate critical methodology.

**ART H 591 Seminar in Twentieth-Century Architecture (3/5)** Specific focus changes from quarter to quarter. Prerequisite: graduate standing with background in art history, architecture, architectural history, or permission of instructor. Offered: jointly with ARCH 558.

**ART H 592 Seminar in American Architecture (5) Clausen** Topics vary. Offered: jointly with ARCH 529.

**ART H 597 Graduate Internship (2–5, max. 5)** Internship in the field of art history with a museum, gallery, or other faculty-approved art or architectural institution that can offer the student substantial research or curatorial experience. Credit/no credit only.

**ART H 598 Master's Practicum (\*, max. 15)** Credit/no credit only.

**ART H 599 Reading and Writing Projects (2)** Art historical issues, methods, and materials. Required of all graduate majors registered in 400-level art history courses. Open also to graduate nonmajors.

**ART H 600 Independent Study or Research (\*)**

**ART H 700 Master's Thesis (\*)** Credit/no credit only.

**ART H 800 Doctoral Dissertation (\*)** Credit/no credit only.

## Arts (Interdisciplinary)

### COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsclat/](http://www.uw.edu/students/crsclat/)

**ARTS 150 Experiencing the Arts (1–5, max. 15) VLPA** Investigates several art forms through readings, lecture, discus-

sion, and attendance at UW Summer Arts Festival events. Offered: S.

**ARTS 350 Arts in Collaboration (1–5, max. 10) VLPA** Collaboratively taught workshop for students from multiple artistic disciplines involving interactive development of a performance work to be presented in the Summer Arts Festival.

## Asian Languages and Literature

### DEPARTMENT OVERVIEW

225 Gowen

The Department of Asian Languages and Literature offers instruction in the principal languages and literatures of Asia, including East, Southeast, Central, and South Asia. Emphasis is placed on the roles of these languages within the cultures they serve as well as on linguistic, textual, and literary analysis. Courses on Asian literature in English are offered for majors and nonmajors alike.

### UNDERGRADUATE PROGRAM

#### Adviser

223A Gowen, Box 353521

206-543-4996

The Department of Asian Languages and Literature offers the following undergraduate programs:

- The Bachelor of Arts degree with majors in Chinese, Japanese (with either a linguistic or literature concentration), Korean, and South Asian languages and literature (Hindi and Sanskrit)
- Minors in Chinese, Japanese, Korean, and South Asian languages and literature

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* First and second years of the target foreign language(s): Chinese, Japanese, Korean, or South Asian (Hindi or Sanskrit). Any courses relating to the area or discipline of major study.

#### Department Admission Requirements

- Completion of at least 20 credits of college coursework (or department-approved equivalent) in the intended primary language of concentration. The most recent course completed in the intended primary language of concentration must be taken at the UW, and the final grade in the most recent course in that language must be 2.5 or higher.
- Completion of one writing course (W-prefix) taught in English with a minimum grade of 2.0.
- The department prefers that prospective majors present a cumulative GPA of 2.50 or higher. Students with a cumulative GPA below 2.50 may be considered for the major if they submit materials in addition to transcripts, clarifying any aspect of past coursework. Denied applications may appeal.
- Transfer students must be enrolled at the UW before applying to the major.

*Note:* A student entering the junior year without two years of the appropriate foreign language will not be able to complete the degree requirements in two years unless he or she takes accelerated courses such as Chinese or Japanese at the UW during summer quarter.

#### Major Requirements

##### Chinese

75 credits, as follows:

- Language courses (30 credits): To include a minimum of 20 beyond the third-year level. Must include CHIN 451, plus other courses drawn from CHIN 411, CHIN 412, CHIN 413, CHIN 421, CHIN 422, CHIN 423, CHIN 452, CHIN 453, CHIN 470, and CHIN 482.
- Linguistics courses (5 credits): CHIN 342; an additional 5 credits optional (CHIN 443).
- Literature courses (15 credits): 10 if the optional 5 linguistics credits are taken. Courses may be drawn from ASIAN 201, ASIAN 204, ASIAN 211, ASIAN 263, CHIN 373, CHIN 374, CHIN 380, CHIN 381, CHIN 385, CHIN 461, CHIN 462, CHIN 463, and Chinese literature courses offered in the Department of Comparative Literature.
- China-related humanities and social science courses (25 credits): Must include HSTAS 211, plus other courses explicitly related to China from such departments as Anthropology, Art, History, International Studies, Linguistics, and Sociology.

## Japanese

75 credits as follows:

- 45 credits in language, including 30 credits beyond the second year, selected according to the student's choice of literature or linguistics concentration; 20 credits of a literature or linguistics sequence; and 10 credits of area-related humanities and social sciences, as follows:

- *Literature Concentration*

- *Language*: 45 credits, with a minimum of 30 credits beyond the second year. (Second year: JAPAN 211, JAPAN 212, JAPAN 213; third year: JAPAN 311, JAPAN 312, JAPAN 313; fourth year: 15 credits from JAPAN 431, JAPAN 432, JAPAN 433, JAPAN 445, JAPAN 471, JAPAN 472, and JAPAN 473.) Students who, upon the determination of the faculty in Japanese, are permitted to begin their study of Japanese at the University at a level higher than JAPAN 211 substitute, in consultation with the undergraduate adviser, an equivalent number of credits in additional courses drawn from JAPAN 431, JAPAN 432, JAPAN 433, JAPAN 445, JAPAN 471, JAPAN 472, JAPAN 473, and with prior approval, other Japan-related humanities or social science courses.
- *Literature sequence*: 20 credits, including JAPAN 321, JAPAN 322, JAPAN 323, and 5 credits from JAPAN 395, JAPAN 431, JAPAN 432, JAPAN 433, JAPAN 460, JAPAN 471, JAPAN 472, and JAPAN 473, if not used to satisfy the language requirement.
- *Area-related humanities or social science courses*: 10 credits at the 300 level or above, at least 5 of which must be from outside the Department of Asian Languages and Literature; may be taken from JAPAN 342, JAPAN 343, JAPAN 395, JAPAN 440, JAPAN 442, JAPAN 443, and JAPAN 460; other Japanese literature courses not used to meet the literature requirement; and related courses from other departments.

- *Linguistics Concentration*

- *Language*: 45 credits, with a minimum of 30 credits beyond the second year. (Second year: JAPAN 211, JAPAN 212, JAPAN 213; third year: JAPAN 311, JAPAN 312, JAPAN 313; fourth year: 15 credits from JAPAN 421, JAPAN 422, JAPAN 423, JAPAN 431, JAPAN 432, JAPAN 433, JAPAN 445, JAPAN 471, JAPAN 472, and JAPAN 473) Students who, upon the determination of the faculty in Japanese, are permitted to begin their study of Japanese at the University at a level higher than JAPAN 211 substitute, in consultation with the undergraduate adviser, an equivalent number of credits in additional courses drawn from JAPAN 431, JAPAN 432, JAPAN 433, JAPAN 445, JAPAN

471, JAPAN 472, JAPAN 473, and with prior approval, other Japan-related humanities or social science courses.

- *Linguistics sequence*: 20 credits, including at least 15 credits from JAPAN 342, JAPAN 343, JAPAN 395, JAPAN 440, JAPAN 442, JAPAN 443; 5 of the 20 credits may come from JAPAN 321, JAPAN 322, JAPAN 323, JAPAN 460, JAPAN 471, JAPAN 472, JAPAN 473, LING 400, or related courses from other departments.
- *Area-related humanities or social science courses*: 10 credits at the 300 level or above, at least 5 of which must be from outside the Department of Asian Languages and Literature; may be taken from LING 400, JAPAN 321, JAPAN 322, JAPAN 323, JAPAN 395, JAPAN 460, JAPAN 471, JAPAN 472, and JAPAN 473; or related courses from other departments.

## Korean

75 credits as follows:

- 45 credits in the Korean language, 15 beyond second-year level
- 30 credits in literature and area-related humanities or social science courses

## South Asian Languages

69 credits as follows:

- *Language*: 39 credits beyond first-year level in a single South Asian language (Hindi or Sanskrit)
  - *Basic Language*: For Hindi - HINDI 321, HINDI 322, HINDI 323, HINDI 401, HINDI 402, HINDI 403; for Sanskrit - SNKRT 401, SNKRT 402, SNKRT 403, SNKRT 411, SNKRT 412, SNKRT 413.
  - *Advanced Language, Literature, and Linguistics*: 9 credits at 400 level, drawn from the following. For Hindi - HINDI 404, HINDI 421, HINDI 422, HINDI 423, HINDI 431, HINDI 451; for Sanskrit - SNKRT 491, SNKRT 492, INDIAN 401, INDIAN 402, INDIAN 410
- *Literature in Translation* (10 credits): ASIAN 203, ASIAN 206.
- *South Asian History* (5 credits): One course from among HSTAS 202, HSTAS 401, HSTAS 402, HSTAS 403, HSTAS 404.
- *South Asian Humanities and Social Sciences* (10 credits): Chosen in consultation with adviser. A list of courses that satisfy this requirement is included on the expanded description of the major available from the adviser.
- *Capstone Seminar* (5 credits): INDIAN 490.

## Minor

### Minor Requirements

*Chinese*: 30 credits as follows:

- *Language courses*: 15 credits at or above the third-year level. Must include CHIN 451, plus other courses drawn from among CHIN 212 (CHIN 212 and CHIN 213, heritage-track Chinese, considered equivalent to third-year level), CHIN 213, CHIN 301, CHIN 302, CHIN 303, CHIN 411, CHIN 412, CHIN 413, CHIN 421, CHIN 422, CHIN 423, CHIN 452, CHIN 453, CHIN 470, and CHIN 482.
- *China-related humanities courses*: 15 credits drawn from among the following: ASIAN 201, ASIAN 204, ASIAN 211, ASIAN 263 (when China is the topic), CHIN 342 (or CHIN 442), CHIN 373, CHIN 374, CHIN 380, CHIN 381, CHIN 385, CHIN 443, and CHIN 461, CHIN 462, CHIN 463.

*Hindi*: 30 credits as follows:

- 15 language credits at the second-year level (HINDI 321, HINDI 322, HINDI 323) or above

- 15 credits in area-related humanities courses to include either ASIAN 203 or ASIAN 206 and any of the following: ART H 306; HSTAS 201, HSTAS 202, HSTAS 401, HSTAS 402, HSTAS 403, HSTAS 404; PHIL 386, PHIL 412; RELIG 352, RELIG 354

*Japanese*: 30 credits as follows:

- 15 language credits at the third-year level (JAPAN 311, JAPAN 312, JAPAN 313) or above
- 15 credits in additional language or literature/culture courses. Acceptable courses include, but are not limited to: JAPAN 321, JAPAN 322, JAPAN 323, JAPAN 342, JAPAN 343, JAPAN 431, JAPAN 432, JAPAN 433, JAPAN 440, JAPAN 442, JAPAN 443, JAPAN 460, JAPAN 471, JAPAN 472, JAPAN 473; ART H 316, ART H 317; ART 321; ECON 494; GEOG 313; HSTAS 422, HSTAS 423; MUSIC 495; POL S 435. Acceptable language courses include those offered by the technical Japanese program, the Jackson School of International Studies, the School of Law, and the School of Business Administration.
- Minimum 2.0 grade required for each course applied to the minor

*Korean*: 30 credits as follows:

- *Language courses*: 15 credits at or above third-year level (KOREAN 411, KOREAN 412, KOREAN 413, and/or KOREAN 345).
- 15 credits in Korea-related humanities and social sciences courses: ASIAN 207 (when Korea is the topic), ASIAN 498 (when Korea is the topic), HSTAS 212, HSTAS 481, HSTAS 482, KOREAN 415, KOREAN 416, KOREAN 417, KOREAN 445, KOREAN 499, SISEA 448.

*South Asian Languages and Literature (Bengali, Hindi, Sanskrit, Urdu)*: 30 credits as follows: 30 credits as follows:

- *Language*: 15 credits of language classes at the second-year level or above in a single Indic language: For Bengali, BENG 321, BENG 322, BENG 323; for Hindi, HINDI 321, HINDI 322, HINDI 323; for Sanskrit, SNKRT 401, SNKRT 402, SNKRT 403; for Urdu, URDU 321, URDU 322, URDU 323.
- *South Asia related humanities and social science courses* (15 credits): Literature (5 credits)—ASIAN 203 or ASIAN 206; South Asia area studies (10 credits)—chosen in consultation with adviser. A list of courses that satisfy this requirement may be found on the following website: [depts.washington.edu/asianll/lang\\_degs/prog\\_southasia\\_reqs.html](https://depts.washington.edu/asianll/lang_degs/prog_southasia_reqs.html)

At least half the credits for the minor must be taken at the UW.

## Student Outcomes and Opportunities

- *Learning Objectives & Expected Outcomes*:
  - *Language*: A student of one of the languages achieves competency in speaking, listening, reading, and writing. Skills acquired for the minor include the ability to manage simple spoken communicative tasks and social situations; to understand sentence-length utterances on familiar topics in face-to-face situations; to read simple connected texts dealing with personal and social topics; to write short essays on familiar topics grounded in personal experience and immediate surroundings. Skills acquired for the major include the ability to manage spoken communicative tasks, including topics of common interest, description and narration, expression of personal viewpoints, and presentation and support of an argument; to understand the main idea and important details of connected spoken discourse, ranging from face-to-face situations to radio and TV broadcasting; to understand the main idea and important details of written texts in a range of styles and registers; to write routine social correspondence using the appropriate conventions, and to write connected essays

of several paragraphs in an appropriate linguistic register.

- **Linguistics:** A student with a minor achieves competency in understanding the basic structure of the language, including its grammatical forms, writing system, and phonology; recognizing the language's historical relationships with other languages in the geographical region; understanding the structured and hierarchical nature of linguistic systems. A student with a major additionally achieves competency in understanding basic linguistic concepts and terminology in such fields as syntax, morphology, and phonology, and applying them to the analysis of the linguistic structures of the language; understanding the historical development of the language, including its historical linguistic features and dialectal development; recognizing the relationship between linguistic structures and literary forms and devices.
- **Literature:** A student with a minor achieves competency in identifying major works and forms within the literary tradition; understanding the place of selected literary texts within the ongoing tradition; understanding the historical and cultural contexts of major literary forms and works; understanding the roles of literary works and literary activity within the culture; utilizing basic research skills. A student with a major additionally achieves competency in reading selected literary texts in the original; employing linguistic and philological analysis as tools for understanding literary texts; performing formal analysis of literary texts; analyzing literary texts with reference to relevant literary traditions and intertextual dynamics; analyzing literary texts with reference to their historical background and broader cultural context; practicing critical reading of primary and secondary texts; employing research and writing skills to produce formal written analysis of literary texts.
- **Instructional and Research Facilities:** None
- **Honors Program:** College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements). For Interdisciplinary Honors, see University Honors Program.
- **Research, Internships, and Service Learning:** None offered
- **Department Scholarships:** None offered
- **Student Organizations/Associations:** None

## GRADUATE PROGRAM

### Graduate Program Coordinator

225 Gowen, Box 353521

206-543-4996

The Department of Asian Languages and Literature offers programs of study leading to the Master of Arts and Doctor of Philosophy degrees with specializations in (1) the languages and literatures of China; (2) the language and literature of Japan; (3) the languages and literatures of South Asia, subsuming Sanskrit and Hindi; (4) the language and literature of Korea. All graduate students in the department must affiliate themselves with one of these programs. The department does not offer degrees or specializations in language pedagogy.

## Master of Arts, Buddhist Studies

### Admission Requirements

- An undergraduate major in the language and literature of specialization (four years of language training if the language is Chinese or Japanese; fewer years of language acquisition may be acceptable in South Asian languages), or the background and training equivalent to such a major. Students without such a background

may be qualified for admission, but must acquire the program prerequisites during the earliest stages of their graduate study.

- A statement of academic goals
- Three letters of recommendation addressed to the Graduate Program Coordinator.

### Degree Requirements

45–54 credits plus language requirements, as follows:

- **Coursework requirement:**
  - **Non-thesis program:** 45 course credits, 18 of which must be at the 500 level and above. Buddhist Studies seminars and text reading courses offered within the department must be included. Students are also required to complete language study through the fourth-year level in their major language and through the second-year level in a second Asian language.
  - **Thesis program:** 45 course credits plus 9 thesis credits. At least 18 of the 45 credits must be taken at the 500 level or above. Buddhist Studies seminars and text reading courses offered within the department must be included. The language requirements in this program are the same as in the non-thesis program. In addition, the student must write an acceptable MA thesis according to the rules and policies of the Department of Asian Languages and Literature and pass an oral examination.
- **Foreign language requirements:** Students must demonstrate competence in their major language, and must complete the course requirements in their second Asian language as outlined above. These two languages may include one classical language and one relevant modern language, or two classical languages. In either case, one of the languages must be Sanskrit. In addition, students must demonstrate through a written examination reading knowledge of one foreign language relevant to their area of specialization, which must be other than English and the student's native language. It may be the student's second Asian language or a European or Asian research language.

## Master of Arts, Chinese

### Admission Requirements

- A minimum undergraduate GPA of 3.00 in the junior and senior years
- Three letters of recommendation and a statement of purpose.
- Strong undergraduate preparation in one of the following: Chinese language and literature, another foreign language and literature, Asian regional studies, comparative literature, linguistics, English, philosophy, or history. Applicants are also expected to have completed four years of modern Chinese and one year of classical Chinese, each with a minimum GPA of 3.00.
- Students lacking such preparation may be admitted to the MA program provisionally, and are required to make up the deficiencies during their first year of residence.

### Degree Requirements

38–40 credits, as follows:

- Two options are available to the student in the MA degree program: (1) a thesis program, and (2) a non-thesis program which requires two seminar or research papers in lieu of a thesis, and two 500-level departmental courses in addition to the requirements specified below.
- **Coursework requirements:**
  - Second-Year Classical Chinese, 15 credits: CHIN 551, CHIN 552, CHIN 553 (5, 5, 5)
  - Methods and Materials, 5 credits: CHIN 559 (5)

- History of Chinese Literature, 5 credits: Any one course of the following three-quarter sequence: CHIN 461, CHIN 462, CHIN 463 (5, 5, 5)
- The Chinese Language, 5 credits: CHIN 442 (5)
- At least one course from each of the following two groups, 8–10 credits:
  - **Group I—Literature:** CHIN 461, CHIN 462, CHIN 463 (5, 5, 5); CHIN 482 (5); CHIN 554, CHIN 555, CHIN 556 (5, 5, 5); CHIN 561, CHIN 562, CHIN 563 (5, 5, 5); CHIN 573 (5, max. 15); CHIN 575 (5, max. 15); CHIN 580 (5, max. 15); CHIN 582 (5, max. 15); CHIN 583 (5); CHIN 590 (5); CHIN 591, CHIN 592, CHIN 593 (5, 5, 5)
  - **Group II—Linguistics and Philology:** CHIN 443 (5); CHIN 531, CHIN 532, CHIN 533 (3, 3, 3); CHIN 540 (3, max. 9); CHIN 541 (3, max. 9); CHIN 542 (3); CHIN 544 (3, max. 9); CHIN 557 (5); CHIN 558 (3)
- **Foreign language requirement:** The additional language requirement must be fulfilled through a graduate reading examination. The additional language may be another Asian language or a European language, but may not be the student's native language, and must be relevant to the student's program of study.
- **MA Examination:** Examination in Chinese covers Chinese literature, and the second part focuses on language (linguistics and philology) and texts. The examination should normally be taken no later than autumn quarter of the third year.

## Master of Arts, Japanese Language and Literature

### Admission Requirements

- A minimum undergraduate GPA of 3.00 in the junior and senior years
- Three letters of recommendation and a statement of purpose
- Strong undergraduate preparation in any of the following: Japanese language and literature, with the equivalent of at least four years' work in the language; another language and literature, Asian regional studies, comparative literature, linguistics, art history, English, philosophy, or history.
- While a student lacking such preparation may be admitted, the student is expected to concentrate initially on compensating for deficiencies in background by taking coursework chosen in consultation with the academic adviser. In the case of inadequate training in Japanese, intensive courses in the language are available.

### Degree Requirement

45–75 credits, as follows:

- **Coursework:** The MA program requires a minimum of 45 credits above the 300 level which are earned through a combination of coursework and research. At least 18 credits of coursework must be completed in numerically graded courses at the 400 and 500 level, and 18 credits at the 500 level and above. The following courses normally constitute a minimal level of training: JAPAN 321, JAPAN 322, JAPAN 323 (5, 5, 5, no graduate credit); JAPAN 421, JAPAN 422, JAPAN 423 (5, 5, 5); JAPAN 431, JAPAN 432, JAPAN 433 (5, 5, 5); JAPAN 471, JAPAN 472, JAPAN 473 (5, 5, 5). Students whose undergraduate training has provided them with a background comparable to this may enter more advanced courses. Less well prepared students may require a program considerably in excess of the minimum 45 credits. The student may present research in either of two ways: (1) by submitting a thesis, in which case the student takes at least 36 course credits and 9 thesis credits, or (2) by submitting two research papers that have been

written either independently or for courses or seminars, in which case all 45 minimum credits are in course credits.

- **Foreign language requirement:** The student must fulfill one additional language requirement in addition to the language of specialization. The language can be either a European or an Asian one; however, it should not be English. The language chosen must be relevant to the student's program of study, i.e., the knowledge of it provides him or her access to a body of critical literature on the field (as in the case of French or German) or improves the student's grasp of the structure or etymological sources of Japanese (as in the case of Chinese or Korean). It may not be the student's native language.
- **MA General Examination:** Near the end of study, the student takes two written examinations, each of two hours' duration, one in pre-modern (pre-Meiji) literature, and the other modern. These are intended to examine the student's general mastery of the respective areas.

## Master of Arts, Japanese Language and Linguistics

### Admission Requirements

- A minimum undergraduate GPA of 3.00 in the junior and senior years
- Three letters of recommendation and a statement of purpose
- Strong undergraduate preparation in any of the following: Japanese language and literature, with the equivalent of at least four years' work in the language; another language and literature, Asian regional studies, comparative literature, linguistics, art history, English, philosophy, or history.
- While a student lacking such preparation may be admitted, the student is expected to concentrate initially on compensating for deficiencies in background by taking coursework chosen in consultation with the academic adviser. In the case of inadequate training in Japanese, intensive courses in the language are available.

### Degree Requirements

45–75 credits, as follows:

- **Coursework:** The MA program requires a minimum of 45 credits above the 300 level which are to be earned through a combination of coursework and research. At least 18 credits of coursework must be completed in numerically graded courses at the 400 and 500 level, and 18 credits at the 500 level and above. The following courses normally constitute a minimal level of training: JAPAN 421, JAPAN 422, JAPAN 423 (5, 5.5, if language training is necessary); JAPAN 342 (5, no graduate credit); JAPAN 343 (5, no graduate credit); JAPAN 440 (5); JAPAN 442 (5); JAPAN 443 (5). Students whose undergraduate training has provided them with a background comparable to this may enter more advanced courses. Less well prepared students may require a program considerably in excess of the minimum of 45 credits. The student may present research in either of two ways: 1) by submitting a thesis, in which case the student takes at least 36 course credits and 9 thesis credits (ASIAN 700), or 2) by submitting two research papers that have been written either independently or for courses or seminars, in which case all 45 minimum credits are in course credits.
- **Foreign language requirement:** The student must fulfill one additional language requirement in addition to the language specialization. The language can be either European or an Asian one; however, it should not be English. The language must be relevant to the student's program of study, which is to say that knowledge of it will provide him access to a body of critical literature

on the student's field (as in the case of French or German) or will improve the student's grasp of the structure or etymological sources of Japanese (as in the case of Chinese or Korean). It may not be the student's native language.

- **Linguistics:** Near the end of the course of study, each student takes two written examinations in Japanese linguistics, whether in descriptive linguistics, theoretical linguistics, applied linguistics, or sociolinguistics. These are intended to examine the student's general mastery of the respective areas.

## Master of Arts, Korean

### Admission Requirements

- A minimum undergraduate GPA of 3.00 in the junior and senior years
- Three letters of recommendation and a statement of purpose
- Strong undergraduate preparation in any of the following: Korean language and literature, another language and literature, Asian regional studies, comparative literature, linguistics, English, philosophy, history or an approved area in the humanities or social sciences
- Three years of Korean language training. Students lacking such preparation are required to take the necessary courses during their first year of residence.

### Degree Requirements

39 credits, as follows:

- **Coursework:** KOREAN 415, KOREAN 416, KOREAN 417 (5, 5, 5); ASIAN 498 (5) or KOREAN 462 (5); KOREAN 531 (5); KOREAN 532 (5); ASIAN 700 (9). The student must also either 1) submit a thesis, or 2) submit two research papers in lieu of a thesis.
- **Foreign language requirement:** The student must fulfill one additional language requirement in addition to the language of specialization. The language can be either European or an Asian one; however, it should not be English. The language chosen must be relevant to the student's program of study. It may not be the student's native language.
- **MA examination:** The student must take a written examination in two parts, each part to be two hours in length. One part is in pre-modern Korean literature, the other modern. The student should take the MA examination no later than autumn quarter of the third year.

## Master of Arts, South Asian Languages and Literature

### Admission Requirements

- Minimum undergraduate GPA of 3.00 in the last 90 quarter or 60 semester credit hours
- Three letters of recommendation and a statement of purpose
- Preference is given to students with prior preparation in a South Asian language and literature, in South Asian regional studies, or in a humanistic discipline pertinent to the study of South Asian civilization. Students lacking such preparation may be admitted to the MA program; however, they must remedy any deficiencies by adding, as early as possible, such courses as the academic adviser considers necessary. South Asian languages in which specializations are offered at the University are Sanskrit and Hindi.

### Degree Requirements

45–75 credits, as follows:

- **Coursework:**

- **Non-thesis program:** 45 course credits, 18 of which must be at the 500 level and above. Language study through the fourth-year level in the student's major language and through the second-year level in a second South Asian language. In addition, the student must present two seminar papers which are approved by the student's adviser and at least one other faculty member in the department.

- **Thesis program:** 45 course credits plus 9 thesis credits. At least 18 of the 45 credits must be taken at the 500 level or above. The language requirements in this program are the same as in the non-thesis program. In addition, the student must write an acceptable MA thesis according to the rules and policies of the Department of Asian Languages and Literature and pass an oral examination.

- **Foreign language requirements:** Students must demonstrate competence in their major South Asian language, and must complete the course requirements in their second South Asian language as outlined above. In addition, students must demonstrate through a written examination reading knowledge of one foreign language relevant to their research, which must be other than English and the student's native language. At the MA level, this language may be the student's second South Asian language or a European language.

## Doctor of Philosophy, Buddhist Studies

### Admission Requirements

MA degree in Asian Languages and Literature at the University of Washington and a satisfactory evaluation by South Asian Language program faculty. Students with sufficient background, usually the successful completion of a relevant MA degree at another institution, may be considered for admission into the PhD program.

### Degree Requirements

90 credits, as follows:

For the PhD, students are expected to demonstrate the ability to do original research utilizing primary languages of Buddhist traditions in accordance with their chosen areas of concentration. Students are required to demonstrate competence in their major Asian languages and pass written examinations in two research languages other than English and the student's native language (that is, one written examination in addition to the examination completed at the MA level). Where appropriate, students are strongly encouraged to acquire competence in a modern research language in order to pursue research in the field: for example, in India, Nepal, Sri Lanka, Tibet, China, or Japan.

Students are also required to pass four written field examinations selected in accordance with the student's interests. Generally, at least two of these examinations are directly related to some aspect of Buddhist studies and a third falls within the general purview of South Asian languages and literature. A fourth field examination can have as its subject an adjacent field or discipline. Once these field examinations have been satisfactorily completed, the student is eligible to take a two-hour comprehensive oral examination, administered by the student's Supervisory Committee. When that has been passed, students are accorded candidate's status and are ready to submit a dissertation proposal. The PhD is conferred once the completed dissertation has been defended successfully before the student's Supervisory Committee.

## Doctor of Philosophy, Chinese

### Admission Requirements

After successful completion of 45 credits (a minimum of three quarters) of graduate study in the department, a student wishing to enter the PhD program with specialization in Chinese language and literature submits a formal peti-

tion to the Department stating post-MA academic plans and goals.

Ideally, the prospective candidate has completed an MA degree in the field of Chinese language and literature prior to entering the PhD program. If the student has an MA in another pertinent field, for example, in linguistics, comparative literature, philosophy, history, or Asian regional studies, it is not necessary to take an additional MA in Chinese language and literature. The student, however, is required to satisfy all course and examination requirements for the MA program in this department. Upon admission to the program, the student should be prepared to take courses in modern Chinese at the 500 level, and should have at least two years of Classical Chinese.

A student who intends to go directly from the B.A. to the PhD program must present an exceptionally strong background preparation in the disciplines of literary study or linguistics. The student is expected in the course of his or her work to satisfy all curriculum requirements for the MA, and must petition the department for special permission to bypass the MA

### Degree Requirements

90 credits, as follows:

- **Course requirements:** Students in the PhD program must complete the course requirements for the MA in Chinese. Equivalent courses from other programs may be substituted subject to written approval by the regular instructor of the course in question. In addition, which ever quarters of the sequence CHIN 461, CHIN 462, CHIN 463 were not taken for the MA must be taken for the PhD. The student's post-MA coursework should be designed, in consultation with the adviser, to fill in gaps or strengthen weaknesses in the student's background, and to establish and develop four fields of special study that the student pursues in some depth in preparation for the general examination.
- **Field requirements:** The student is expected to familiarize himself or herself with both the original texts and the secondary scholarship of the field, and to show some potential for carrying out original research in the area or field in question. Each student must pursue four such fields of special study, and is examined separately by an appropriate faculty member prior to the general oral examination. The field examinations must be written. The four fields that a student elects to study must, in the aggregate, reflect both of the primary components of the department's graduate-level offerings, i.e., language (linguistics and philology) and literature. In at least one field, students are encouraged to incorporate to a significant extent some aspect of Chinese history and culture, exclusive of strictly literary or linguistic facets thereof. With permission of his or her adviser a student may offer one field from outside the department, for example, in general linguistics, literary criticism, a non-Chinese literature, Chinese philosophy or religion, or a particular period of Chinese history. Such a field must be demonstrably related in a significant way to the student's overall course of study.
- **Examinations:** The student is examined in each of the four fields separately by an appropriate faculty member. Prior to the general examination the student must demonstrate a reading knowledge of an additional Asian language and a pertinent European language. (The student may apply the foreign language reading examination required for the MA to this requirement.)

## Doctor of Philosophy, Japanese

### Admission Requirements

Aside from having to complete at least two quarters of graduate study in the department, the student petitioning for admission to pre-candidacy status in the PhD program either must hold the MA degree in Japanese language and

literature or must have completed a minimum of 45 course credits and have satisfied the language requirement for the MA. The student should also be taking at least 500-level courses in modern Japanese and should have studied classical Japanese for a minimum of one year. Any insufficiencies in background (e.g., in the case of a student holding an MA in an area other than Japanese language and literature) should be made up before the student petitions for admission to pre-candidacy. The petition indicates that the student feels he or she is prepared to take a written examination on the student's general knowledge of the field and an additional oral diagnostic examination on his or her background and plans for future study. The petition should be submitted only after consultation with the academic adviser.

### Degree Requirements

95 credits, as follows:

**Course requirements:** In addition to the minimum of 45 credits or its equivalent required for the master's program, the student must take at least 50 credits of coursework on the graduate level. The following courses and dissertation credits are required: JAPAN 501 (5); JAPAN 505, JAPAN 506, JAPAN 507 (5, 5, 5); JAPAN 531, JAPAN 532, JAPAN 533 (5, 5, 5); JAPAN 571, JAPAN 572, JAPAN 573 (5, 5, 5); JAPAN 590 (15); ASIAN 800 (27).

Additional coursework in related fields may be required to meet the needs of each program. In order to acquire the widest possible background, students are encouraged to take related courses in history, linguistics, religion, and the social sciences. Familiarity with Chinese literature and allied fields as well as with comparative literature is strongly recommended. Each student develops an individualized program of studies in consultation with the academic adviser.

- **Language examinations:** In addition to a second language (usually European) required for the MA, the student must demonstrate proficiency in a third language, usually Asian (Chinese is the usual choice for an Asian language, but the student should discuss other possibilities with the adviser). Proficiency must be demonstrated in the third language before the student may proceed to the general examination.
- **Field examination:** Upon becoming a precandidate, the student has completed a generalized study of the area of Japanese language and literature, and should choose four specialized fields to study for the next one or two years under the guidance of the Supervisory Committee. The four fields must be sufficiently diverse, and at least one of them must be in language. As the supervisor for each field becomes satisfied that the student has attained sufficient mastery, the supervisor and the student decide on a time for the student to take a written examination.
- **General examination:** When the four field examinations and the third language requirement have been satisfied, the academic adviser arranges with the Graduate School for the student to take the oral general examination for admission to candidacy for the doctoral degree.
- **Dissertation and final examination:** After achieving candidate status, the student engages in research and the writing of the dissertation. When the reading committee has accepted the dissertation, the Dean of the Graduate School authorizes the Supervisory Committee to hold the final examination in defense of the dissertation, which completes the degree requirements for this program.

## Doctor of Philosophy, Korean

### Admission Requirements

A student petitions for admission to the PhD program with specialization in Korean literature after successful completion of at least two quarters of graduate study in the De-

partment of Asian Languages and Literature. The student should either have the MA degree in Korean literature or the equivalent, or have satisfactorily completed all coursework required for the MA in Korean literature. The student should be prepared to take 500-level courses in Korean. The petition is submitted after consultation with the student's academic adviser.

### Degree Requirements

90 credits, as follows:

- **Coursework:**
  - **Korean language and literature:** In addition to the course requirement and examination for the MA in Korean literature, students in the PhD program must complete the following courses: KOREAN 531 (5), KOREAN 532 (5), ASIAN 800 (27)
  - **Chinese language and literature:** Students interested in pre-modern Korean literature are required to take two years of Chinese, at least one year of classical Chinese, and a survey course on pre-modern Chinese literature. Students interested in modern Korean literature are required to take either: (1) three years of Chinese and a survey course in Chinese literature, or (2) three years of Japanese and a survey course in modern Japanese literature.
  - **Linguistics:** Students are encouraged to take linguistics courses that help them prepare for the field examination in a language-related area. Courses to choose from include the following: ASIAN 401 (5), JAPAN 440 (5).
  - **Interdepartmental:** Students are encouraged to take Korea-related courses in other disciplines such as history and anthropology. Familiarity with other literatures and cultures, and coursework in other departments such as Comparative Literature or other language and literature programs is also recommended.
- **Field examinations:** With the guidance of an adviser, students develop a plan of study that concentrates on four areas of study, or "fields". A student may offer no more than one Korea-related field from outside the department; three of the fields must be prepared with department faculty. One of the fields may be in another Asian language or literature, depending on the student's interests. At least one of the fields must be related to language.
- **Language examinations:** Prior to the general examination, students must demonstrate proficiency of an additional Asian language and a European language. (The student may apply the foreign language required for the MA to this requirement.)
- **General examination, dissertation, final examination:** When the four field examinations have been successfully passed, and the second language requirement met, the academic adviser arranges with the Graduate School for the student to take the oral general examination for admission to candidacy for the doctoral degree. This is usually a two-hour long oral examination, and covers principally, but not exclusively, the four fields that the student has prepared. Passing this examination, the student then writes a dissertation, under the direction of a dissertation adviser. An oral final examination in defense of the finished dissertation completes the degree requirements for this program.

## Doctor of Philosophy, South Asian Languages and Literature

### Admission Requirements

Normally, entry into the program is contingent upon successful completion of the MA degree in Asian Languages and Literature at the University of Washington and a satisfactory evaluation by South Asian Language program faculty. Students with sufficient background, usually the

successful completion of a relevant MA degree at another institution, may be considered for admission into the PhD program.

### Degree Requirements

90 credits, as follows:

For the PhD, students are required to demonstrate competence in their major South Asian language and pass written examinations in two research languages other than English and the student's native language (that is, one written examination in addition to the examination completed at the MA level). One of these two research languages must be a European language.

Students are also required to pass four written field examinations, at least three of which must fall within the general purview of South Asian languages and literature. A fourth can have as its subject an adjacent field or discipline, if the candidate so chooses—an aspect of South Asian history or art history, for example. Once these field examinations have been satisfactorily completed, the student is eligible to take a two hour comprehensive oral examination, administered by his or her supervisory committee. When that has been passed, students are accorded candidate's status and are ready to submit a dissertation proposal. The PhD is conferred once the completed dissertation has been defended before the student's supervisory committee.

### Financial Aid

Financial aid for graduate students newly entering the department is very limited and is awarded on a competitive basis. National Resource Fellowships are awarded for the study of Chinese, Japanese, and Korean. The department offers incoming graduate students limited opportunities for teaching assistant positions in Chinese, Japanese, and Korean. Since some financial aid is wholly or partially determined by need, all prospective students are urged to submit the Free Application for Federal Student Aid (FAFSA) with the College Scholarship Service in New Jersey, and to apply for other forms of aid mentioned in the department's cover letter to prospective students.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**ASIAN 201 Literature and Culture of China: Ancient and Classical (5) I&S/VLPA** Introduction to ancient and classical Chinese literature in its cultural context. Texts in English translation.

**ASIAN 202 Literature and Culture of Japan: Traditional Japan (5) I&S/VLPA** Introduction to traditional Japanese literature in its cultural context. Texts in English translation.

**ASIAN 203 Literature and Culture of Ancient and Classical India (5) I&S/VLPA** Introduction to ancient and classical Indian literature in its cultural context. Texts in English translation.

**ASIAN 204 Literature and Culture of China from Tradition to Modernity (5) I&S/VLPA** Introduction to modern Chinese literature in its cultural context. Texts in English translation.

**ASIAN 205 Literature and Culture of Japan from Tradition to Modernity (5) I&S/VLPA** Introduction to Japanese literature of the nineteenth and twentieth centuries in its cultural context. May also include some Korean literature. Texts in English translation.

**ASIAN 206 Literature and Culture of South Asia from Tradition to Modernity (5) I&S/VLPA** Pauwels, Shapiro Introduction to medieval and modern South Asian literature in its cultural context. Texts in English translation.

**ASIAN 207 Special Topics in Literature and Culture of Asia (5) I&S/VLPA** Introduction to the literature of one or more Asian traditions considered in its cultural context. Content

varies depending on the specialization and interest of instructor. Texts in English translation.

**ASIAN 211 Languages and Cultures of China (5) I&S/VLPA** Provides a general survey of the languages and language-families in China, emphasizing the rich linguistic diversity found there today. Languages compared with English, from linguistic and cultural perspectives, to demonstrate not only characteristics but also mutual dependence throughout their development.

**ASIAN 263 Great Works of Asian Literature (5) VLPA** Selected major works of Asian literature. Taught on a rotational basis with the literary traditions of China, Japan, India covered in successive years. Content varies depending on specialization and interest of instructor. Primary emphasis on literary values of works and their tradition; attention also given to historical and social contexts and the thought and value systems of the culture involved.

**ASIAN 401 Introduction to Asian Linguistics (5) VLPA** Handel, K. Ohta, Shapiro Linguistic analysis, with emphasis on languages of east, southeast, south, and central Asia. Includes phonetics, phonemics, morphology, syntax, historical reconstruction, linguistic typology, comparative grammar. Survey of major languages and language families of Asia. Diverse Asian languages as subjects of linguistic analysis. Prior knowledge of linguistics not required. Recommended: two years of any Asian language.

**ASIAN 404 Writing Systems (3) VLPA** Boltz, Salomon Origin, nature, and development of writing systems. Alphabets, syllabaries, and logographic systems; relation of writing systems to spoken languages; decipherment of previously undeciphered scripts.

**ASIAN 405 Advanced Problems in Asian Linguistics (3) VLPA** Handel, K. Ohta, Shapiro Advanced problems in the analysis of the languages of east, southeast, south, and central Asia. Includes phonology, morphology, syntax, lexicography, historical reconstruction, linguistic typology, and comparative grammar. Prerequisite: ASIAN 401.

**ASIAN 411 Buddhist Literature (5) VLPA/I&S** Overview of major Buddhist literary traditions of India, China, and Tibet from antiquity to the end of the first millennium CE. Special focus on Indian Mahayana literature and the historical factors that accompanied its introduction and preservation in China and Tibet. Offered: W.

**ASIAN 494 Ramayana in Comparative Perspective (5) VLPA** Pauwels Examines and compares different versions (mainly South Asian) of the Ramayana, including the widely popular television version. Focuses on some famous and controversial passages, with special attention to gender issues. Incorporates background readings from the most recent research. Offered: jointly with SISSA 494.

**ASIAN 498 Special Topics (1–5, max. 15) VLPA** Offered occasionally by permanent or visiting faculty members. Topics vary. Offered: AWSp.

**ASIAN 503 Seminar in Asian Linguistics (1–5, max. 15) Handel, A. Ohta, K. Ohta** Topics vary. Prerequisite: permission of instructor. Offered: AWSp.

**ASIAN 510 Teaching Asian Languages (5) A. Ohta** Methodology for teaching modern foreign languages, focusing on languages taught by teaching assistants in the department. Eclectic and practical overview for current and potential TAs. Consideration of broader issues involved in language program management. Strong hands-on component, including observation, teaching, materials development, and portfolio development for job seekers. Prerequisite: Proficiency in an Asian language Graduate standing or permission Offered: A.

**ASIAN 580 Seminar in Hinduism Studies (5) Pauwels** Introduction to the academic study of Hinduism for graduate students. Examines major problems currently addressed in the academic study of Hinduism and the methods used. Provides a historical perspective on past scholarship. Offered: jointly with RELIG 580.

**ASIAN 585 Seminar in Buddhism (5) Cox** Systems and history of Buddhist thought. Original and secondary sources are used. Combines the methods of specialists in south,

central, and east Asian Buddhism with those of historians of religion and philosophy. Prerequisite: permission of instructor. Offered: AWSp.

**ASIAN 600 Independent Study or Research (\*)** Offered: AWSpS.

**ASIAN 700 Master's Thesis (\*)** Offered: AWSpS.

**ASIAN 800 Doctoral Dissertation (\*)** Offered: AWSpS.

## Bengali

**BENG 311 Elementary Bengali (5)** Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary level texts. First in a sequence of three. Offered: A.

**BENG 312 Elementary Bengali (5)** Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary level texts. Second in a sequence of three. Prerequisite: BENG 311. Offered: W.

**BENG 313 Elementary Bengali (5)** Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary level texts. Third in a sequence of three. Prerequisite: BENG 312. Offered: Sp.

**BENG 321 Intermediate Bengali (5) VLPA** Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. First in a sequence of three. Prerequisite: BENG 313. Offered: A.

**BENG 322 Intermediate Bengali (5) VLPA** Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. Second in a sequence of three. Prerequisite: BENG 321. Offered: W.

**BENG 323 Intermediate Bengali (5) VLPA** Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. Third in a sequence of three. Prerequisite: BENG 322. Offered: Sp.

**BENG 401 Advanced Bengali (5) VLPA** Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. First in a sequence of three. Prerequisite: BENG 323. Offered: A.

**BENG 402 Advanced Bengali (5) VLPA** Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. Second in a sequence of three. Prerequisite: BENG 401. Offered: W.

**BENG 403 Advanced Bengali (5) VLPA** Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. Third in a sequence of three. Prerequisite: BENG 402. Offered: Sp.

**BENG 499 Independent Study (3–5, max. 15)** Offered: AWSpS.

## Chinese

**CHIN 101 First-Year Chinese for Non-Heritage Learners (5)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. First in a sequence of three. Offered: A.

**CHIN 102 First-Year Chinese for Non-Heritage Learners (5)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 101. Offered: W.

**CHIN 103 First-Year Chinese for Non-Heritage Learners (5)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 102. Offered: Sp.

**CHIN 111 First-Year Chinese for Heritage Learners (5)** Intended for students who have some formal or home training in listening and speaking Mandarin. Focuses on reading comprehension and writing characters in context. First in a sequence of three. Offered: A.

**CHIN 112 First-Year Chinese for Heritage Learners (5)** Intended for students who have some formal or home training in listening and speaking Mandarin. Focuses on reading comprehension and writing characters in context. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 111. Offered: W.

**CHIN 113 First-Year Chinese for Heritage Learners (5) VLP** Intended for students who have some formal or home training in listening and speaking Mandarin. Focuses on reading comprehension and writing characters in context. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 112. Offered: Sp.

**CHIN 134 First-Year Intensive Chinese for Non-Heritage Learners (15)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 101, 102, or 103. Offered: S.

**CHIN 138 First-Year Intensive Chinese for Heritage Learners (15)** Intended for students who have some formal or home training in listening and speaking Chinese. Focuses on reading, comprehension, and writing characters in context. Cannot be taken for credit in combination with CHIN 111, CHIN 112, or CHIN 113. Offered: S.

**CHIN 145 Foreign Study: First-Year Chinese (1–15, max. 20)** Modern 100-level Chinese language studied abroad. Evaluation by department/faculty required.

**CHIN 201 Second-Year Chinese for Non-Heritage Learners (5) VLP** Advanced grammar and vocabulary expansion stressed. Aural and oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. First in a sequence of three. Prerequisite: minimum grade of 2.0 in either CHIN 103 or CHIN 134. Offered: A.

**CHIN 202 Second-Year Chinese for Non-Heritage Learners (5) VLP** Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 201. Offered: W.

**CHIN 203 Second-Year Chinese for Non-Heritage Learners (5) VLP** Advanced grammar and vocabulary expansion

stressed. Oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 202. Offered: Sp.

**CHIN 211 Second-Year Chinese for Heritage Learners (5) VLP** Stresses advanced grammar and vocabulary expansion. Continues Aural and oral practice. Cannot be taken for credit in combination with 234. First in a sequence of three. Prerequisite: 2.0 in either CHIN 113 or CHIN 138. Offered: A.

**CHIN 212 Second-Year Chinese for Heritage Learners (5) VLP** Stresses advanced grammar and vocabulary expansion. Cannot be taken for credit in combination with CHIN 234. Second in a sequence of three. Prerequisite: 2.0 in CHIN 211. Offered: W.

**CHIN 213 Second-Year Chinese for Heritage Learners (5) VLP** Stresses advanced grammar and vocabulary expansion. Emphasizes reading and writing. Continues aural and oral practice. Cannot be taken for credit in combination with CHIN 234. Third in a sequence of three. Prerequisite: 2.0 in CHIN 212. Offered: Sp.

**CHIN 234 Second-Year Intensive Chinese for Non-Heritage Learners (15) VLP** Continuation of first-year non-heritage Chinese. Stresses advanced grammar and vocabulary expansion. Continues aural and oral practice and structural drills. Cannot be taken for credit in combination with 201, 2202, or 203 taken. Prerequisite: minimum grade of 2.0 in either CHIN 103 or CHIN 134. Offered: S.

**CHIN 245 Foreign Study: Second-Year Chinese (1–15, max. 20) VLP** Modern 200-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 301 Third-Year Chinese for Non-Heritage Learners (5) VLP** Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. First in a sequence of three. Prerequisite: 2.0 in CHIN 203. Offered: A.

**CHIN 302 Third-Year Chinese for Non-Heritage Learners (5) VLP** Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. Second in a sequence of three. Prerequisite: 2.0 in CHIN 301. Offered: W.

**CHIN 303 Third-Year Chinese for Non-Heritage Learners (5) VLP** Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. Third in a sequence of three. Prerequisite: 2.0 in CHIN 302. Offered: Sp.

**CHIN 342 The Chinese Language (5) VLP** *Handel* Nature and structure of the Chinese language, covering structural characteristics, genetic and typological affiliation, standard Mandarin and Chinese dialects, Chinese writing system, history of the Chinese language, and cultural aspects. Prerequisite: either CHIN 103, CHIN 113 or CHIN 134; recommended: either CHIN 201, CHIN 211 or CHIN 234.

**CHIN 345 Foreign Study: Third-Year Chinese (1–15, max. 20) VLP** Modern 300-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 373 Chinese Poetry (5) VLP** Introduction to Chinese poetry. A study of its origins, forms, major themes, and relevant conventions. All readings in English. No knowledge of Chinese required.

**CHIN 374 Chinese Prose (5) VLP** *Knechtges* Survey of great works of Chinese prose, including philosophical writings, historical works, short narratives, essays, and rhyme-prose. All readings in English. No knowledge of Chinese required.

**CHIN 380 Premodern Chinese Narrative in Translation (5) VLP** Premodern Chinese fiction in English translation. Historical and cultural contexts of narrative traditions. Emphasis on the Ming and Ch'ing periods; works and topics vary from year to year.

**CHIN 381 Literature in Modern China (5) VLP** Twentieth-century Chinese literature in English translation. Introduces

the historical and cultural context of modern Chinese writing, as well as various critical approaches to its study.

**CHIN 385 Popular Culture in Twentieth-Century China (5) I&S/VLP** Introduction to Chinese popular culture from the turn-of-the-century to the present. Topics include cinema, popular music, and popular fiction; emphasis varies from year to year.

**CHIN 395 Foreign Study: Intermediate Chinese Literature or Linguistics (1–15, max. 15) VLP** Intermediate Chinese literature or linguistics studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 411 Fourth-Year Chinese (5) VLP** *Yue-Hashimoto* Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. First in a sequence of three. Prerequisite: minimum grade of 2.0 in either CHIN 213 or CHIN 303. Offered: A.

**CHIN 412 Fourth-Year Chinese (5) VLP** *Yue-Hashimoto* Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 411. Offered: W.

**CHIN 413 Fourth-Year Chinese (5) VLP** *Yue-Hashimoto* Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 412. Offered: Sp.

**CHIN 421 Business Chinese I (5) VLP** *Chang* Focus on international trade issues of Greater China in the contemporary world. Subjects include international business activities such as trade, banking, marketing, finance, and investment. First in a sequence of three. Prerequisite: CHIN 313. Offered: A.

**CHIN 422 Business Chinese II (5) VLP** *Chang* Focus on international trade issues of Greater China in the contemporary world. Subjects include international business activities such as trade, banking, marketing, finance, and investment. Second in a sequence of three. Prerequisite: CHIN 421. Offered: W.

**CHIN 423 Business Chinese III (5) VLP** *Chang* Focus on international trade issues of Greater China in the contemporary world. Subjects include international business activities such as trade, banking, marketing, finance, and investment. Third in a sequence of three. Prerequisite: CHIN 422. Offered: Sp.

**CHIN 442 The Chinese Language (5) VLP** Covers the same topics as CHIN 342 (students attend CHIN 342 lectures), with additional readings and assignments. Provides necessary background for 500-level courses in Chinese linguistics and textual study. Intended for graduate students or advanced undergraduates. Required: Reading ability in Chinese.

**CHIN 443 Structure of Chinese (5) VLP** *Yue-Hashimoto* Outline of the major grammatical structures of Chinese. Focus on learning and teaching problems. Prerequisite: either CHIN 313 or CHIN 334.

**CHIN 445 Foreign Study: Fourth-Year Chinese (1–15, max. 20) VLP** Modern 400-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 451 First-Year Classical Chinese (5) VLP** *Boltz* Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. First in a sequence of three. Prerequisite: either CHIN 203 or CHIN 213. Offered: A.

**CHIN 452 First-Year Classical Chinese (5) VLP** *Boltz* Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. Second in a sequence of three. Prerequisite: CHIN 451. Offered: W.

**CHIN 453 First-Year Classical Chinese (5) VLPA Boltz** Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. Third in a sequence of three. Prerequisite: CHIN 452. Offered: Sp.

**CHIN 461 History of Chinese Literature (5) VLPA Knechtges** Chinese literature from earliest times to the end of the Six Dynasties. Offered: A.

**CHIN 462 History of Chinese Literature (5) VLPA Knechtges** Chinese literature from the T'ang to the end of the Song. Prerequisite: CHIN 461. Offered: W.

**CHIN 463 History of Chinese Literature (5) VLPA Knechtges** Chinese literature from the Yuan to recent times. Offered: Sp.

**CHIN 470 Advanced Readings in Modern Chinese (5) VLPA** Reading and translation of scholarly articles and selections in the humanities and social sciences. Prerequisite: either CHIN 213 or CHIN 303.

**CHIN 482 Advanced Readings in Modern Chinese (5) VLPA** Modern texts in the original, mainly works published since the beginning of the twentieth century. Focus on literature, primarily short story and essay.

**CHIN 495 Foreign Study: Advanced Chinese Literature or Linguistics (1-5, max. 15) VLPA** Advanced Chinese literature or linguistics studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 496 Special Studies in Chinese (5, max. 15) VLPA** Topics vary.

**CHIN 499 Undergraduate Research (3-5, max. 15)** For Chinese language and literature majors. Offered: AWSpS.

**CHIN 531 Studies in Chinese Phonology (5) Handel** Sources and methods in the study of Chinese phonology; modern standard Chinese. Prerequisite: CHIN 442 or permission of instructor. Offered: A.

**CHIN 532 Studies in Chinese Phonology (5) Handel** Sources and methods in the study of Chinese phonology; medieval period. Prerequisite: CHIN 442 or permission of instructor. Offered: W.

**CHIN 533 Studies in Chinese Phonology (5) Handel** Sources and methods in the study of Chinese phonology; advanced topics in Chinese historical phonology. Prerequisite: CHIN 442 or permission of instructor. Offered: Sp.

**CHIN 540 Seminar on Chinese Linguistics (5, max. 15) Handel, Yue-Hashimoto** Advanced topics in Chinese linguistics. Subject emphasis varies from year to year. Offered: Sp.

**CHIN 541 Seminar in Chinese Grammar (3, max. 9) Boltz, Yue-Hashimoto** Problems of theory and analysis of Chinese grammar, both synchronic and diachronic, modern and classical. Prerequisite: CHIN 443.

**CHIN 542 Chinese Historical Phonology (5) Handel** Introduction to Chinese historical phonology; emphasis on the Middle Chinese period. Prerequisite: CHIN 422 or permission of instructor.

**CHIN 544 Chinese Dialectology (5, max. 15) Yue-Hashimoto** Methodology and theory of studying Chinese dialects. Among areas covered are fieldwork methods, dialect classification, and dialectal grammar. Prerequisite: CHIN 542, ASIAN 401, and permission of instructor.

**CHIN 551 Second-Year Classical Chinese (5) Knechtges** Problems of grammar, rhetoric, and textual criticism. Early literary texts. Offered: A.

**CHIN 552 Second-Year Classical Chinese (5) Knechtges** Problems of grammar, rhetoric, and textual criticism. Later literary texts. Offered: W.

**CHIN 553 Second-Year Classical Chinese (5) Boltz** Continuation of 551, 552. Intermediate level readings in Han and pre-Han historical and philosophical texts. Prerequisite: CHIN 551 and CHIN 552. Offered: Sp.

**CHIN 554 Readings in Chinese Prose (5) Knechtges** Selected readings in the fu of the Han, Wei, Chin, and North-South Dynasties period. Offered: alternate years.

**CHIN 555 Readings in Chinese Prose (5) Knechtges** Selected readings in parallel prose (pian wen). Offered: alternate years.

**CHIN 556 Readings in Chinese Prose (5) Knechtges** Selected readings in guwen prose of the T'ang and Sung periods. Offered: alternate years.

**CHIN 557 Introduction to Chinese Philology and Textual Criticism (5) Boltz** Principles and methods of textual criticism and philological analysis of ancient Chinese texts. Study of both manuscripts and transmitted texts. Emphasis on Han and pre-Han documents; specific texts vary. Prerequisite: two years of classical Chinese and ASIAN 401. Offered: alternate years.

**CHIN 558 Seminar in Chinese Lexicology and Grammatonymy (3) Boltz** Study of the Chinese script, lexicographical history, and lexicological and etymological analysis. Prerequisite: two years of classical Chinese, ASIAN 401. Offered: alternate years.

**CHIN 559 Methods and Materials (5) Knechtges** Introduction to the basic reference works and methods of research in Chinese language and literature. Includes a history of Sinology, survey of basic bibliographies, dictionaries, atlases, catalogs, journals, literary collections, concordances, and other sources. Prerequisite: CHIN 551, CHIN 552. Offered: alternate years.

**CHIN 560 Proseminar in Chinese (3-5, max. 15) Boltz, Knechtges** Methods and materials in the study of Chinese texts. Problems in textual analysis and Chinese literary history. Prerequisite: CHIN 553 and one of CHIN 554, CHIN 555, and CHIN 556.

**CHIN 561 Studies in Chinese Literature (5) Knechtges** Literature before Ch'in. Prerequisite: permission of instructor.

**CHIN 562 Studies in Chinese Literature (5) Knechtges** Poetry of the T'ang and Sung periods. Prerequisite: permission of instructor.

**CHIN 563 Studies in Chinese Literature (5) Knechtges** Literary theory and criticism. Prerequisite: permission of instructor.

**CHIN 573 Seminar in Chinese Poetry (5, max. 15)** Directed study of selected works of poetry. Subject emphasis varies each year. Prerequisite: permission of instructor. Offered: alternate years.

**CHIN 574 Seminar in Six Dynasties Literature (5, max. 15) Knechtges** Directed study of selected works of Six Dynasties. Subject emphasis varies each year. Prerequisite: permission of instructor. Offered: alternate years.

**CHIN 575 Studies in Chinese Drama (5, max. 15)** Readings and discussion of Chinese drama. Subject emphasis varies. Prerequisite: permission of instructor. Offered: alternate years.

**CHIN 577 Advanced Readings in Chinese Opera (4)** Introduction to the dialogue and verses frequently used in Chinese opera. Comparisons between language spoken daily and languages used in Chinese opera. Prerequisite: CHIN 553 or permission of instructor. Offered: A.

**CHIN 578 Advanced Readings in Classical Chinese (4)** Study of texts from all periods. Prerequisite: CHIN 553 or permission of instructor.

**CHIN 580 Readings in Vernacular Chinese Fiction (5, max. 15)** Directed study of selected works of premodern vernacular Chinese narrative, with an emphasis on Ming and Ch'ing fiction. Introduction to various critical approaches to the study of Chinese narrative.

**CHIN 582 Topics in Chinese Literature and Cultural Studies (5, max. 15)** Directed study of aspects of twentieth-century Chinese literary and popular cultures. Provides both historical coverage and a grounding in various theoretical and methodological problems. Topics include print culture, cinema, popular music, as well as aspects of material culture; emphasis varies. Prerequisite: permission of instructor.

**CHIN 583 Seminar in Modern Chinese Literature (5)** Directed study of selected works of modern Chinese literature. Primary focus on the novel, short story, and essay.

**CHIN 590 Readings in the Thirteen Classics (5) Boltz** Selected readings from the Thirteen Classics, and from their associated exegetic and hermeneutic traditions. Readings and emphases vary from year to year. Prerequisite: two years of Classical Chinese and CHIN 557. Offered: alternate years.

**CHIN 591 Studies in the History of Chinese Thought (5) Knechtges** Directed readings in selected traditional philosophical texts. Han through T'ang. Prerequisite: permission of instructor.

**CHIN 592 Studies in the History of Chinese Thought (5) Knechtges** Directed readings in selected traditional philosophical texts. Sung and Yuan. Prerequisite: permission of instructor.

**CHIN 593 Studies in the History of Chinese Thought (5) Knechtges** Directed readings in selected traditional philosophical texts. Ming and Ch'ing. Prerequisite: permission of instructor.

## Hindi

**HINDI 311 Elementary Hindi (5)** Modern literary Hindi. Reading, writing, and conversation. Introduction to Devanagari script. First in a sequence of three. Offered: A.

**HINDI 312 Elementary Hindi (5)** Modern literary Hindi. Reading, writing, and conversation. Introduction to Devanagari script. Second in a sequence of three. Prerequisite: HINDI 311. Offered: W.

**HINDI 313 Elementary Hindi (5)** Modern literary Hindi. Reading, writing, and conversation. Introduction to Devanagari script. Third in a sequence of three. Prerequisite: HINDI 312. Offered: Sp.

**HINDI 321 Intermediate Hindi (5) VLPA** Systematic expansion of vocabulary and grammar. Intermediate-level prose and poetry readings. Oral drills. First in a sequence of three. Prerequisite: HINDI 313. Offered: A.

**HINDI 322 Intermediate Hindi (5) VLPA** Systematic expansion of vocabulary and grammar. Intermediate-level prose and poetry readings. Oral drills. Second in a sequence of three. Prerequisite: HINDI 321. Offered: W.

**HINDI 323 Intermediate Hindi (5) VLPA** Systematic expansion of vocabulary and grammar. Intermediate-level prose and poetry readings. Oral drills. Third in a sequence of three. Prerequisite: HINDI 322. Offered: Sp.

**HINDI 401 Advanced Hindi (5) VLPA** Rapid reading of contemporary Hindi prose, poetry, and drama. Advanced conversation and composition. First in a sequence of three. Offered: A.

**HINDI 402 Advanced Hindi (5) VLPA** Rapid reading of contemporary Hindi prose, poetry, and drama. Advanced conversation and composition. Second in a sequence of three. Offered: W.

**HINDI 403 Advanced Hindi (5) VLPA** Rapid reading of contemporary Hindi prose, poetry, and drama. Advanced conversation and composition. Third in a sequence of three. Offered: Sp.

**HINDI 404 Derivational Morphology of Hindi/Urdu (3) VLPA Shapiro** A systematic introduction to the derivational morphology of Hindi/Urdu. Sanskrit, Persian, Arabic, and English elements in Hindi/Urdu. Treatment of derivational prefixes and suffixes, stem alternations, and methods of compound formation. Prerequisite: HINDI 323.

**HINDI 421 Survey of Modern Hindi Literature (3) VLPA Pauwels, Shapiro** Survey of Hindi literature from the late nineteenth century to the present. Readings from representative short stories. Prerequisite: HINDI 403.

**HINDI 422 Survey of Modern Hindi Literature (3) VLPA Pauwels, Shapiro** Survey of Hindi literature from the late nineteenth century to the present. Readings from representative poems. Prerequisite: HINDI 403.

**HINDI 423 Survey of Modern Hindi Literature (3) VLPA** *Pauwels, Shapiro* Survey of Hindi literature from the late nineteenth century to the present. Readings from representative novels. Prerequisite: HINDI 403.

**HINDI 431 Advanced Conversational Hindi (3, max. 9) VLPA** Conversational practice in contemporary Hindi. Prerequisite: HINDI 323.

**HINDI 451 Advanced Hindi Readings (3, max. 9) VLPA** Readings in Modern Standard Hindi prose texts drawn from diverse disciplines. Prerequisite: HINDI 403.

**HINDI 499 Undergraduate Research (3-5, max. 15)** Primarily for Hindi language and literature majors. Offered: AWSpS.

**HINDI 501 Studies in Medieval Braj Literature (3, max. 9)** *Pauwels* Introduction to the Braj dialect of Hindi and its literature. Prose readings and selected poetry by Surdas, Raskhan, Bihari, and others. Prerequisite: HINDI 403 or equivalent.

**HINDI 502 Studies in Medieval Avadhi Literature (3, max. 9)** *Pauwels* Introduction to the Avadhi dialect of Hindi and its literature. Readings from Ramcaritmanas of Tulsidas and Padmavat of Muhammad Malik Jayasi. Prerequisite: HINDI 403 or equivalent.

**HINDI 504 Studies in Medieval Rajasthani Literature (3)** *Pauwels* Introduction to the literary language of Rajasthan. Reading of extracts from representative selections from Rajasthani literature. Prerequisite: HINDI 403 or equivalent.

**HINDI 510 Structure of Hindi (3)** *Shapiro* Grammatical analysis of Hindi, phonology, syntax, and semantics. Readings from both Western and native grammarians. Prerequisite: HINDI 403 or permission of instructor; recommended: course in linguistics.

## Indian

**INDN 401 Pali (3) VLPA** *Cox, Salomon* Introduction to Pali language and literature. Prerequisite: SNKRT 303.

**INDN 402 Pali (3) VLPA** *Cox, Salomon* Introduction to Pali language and literature.

**INDN 410 Prakrit (3, max. 6) VLPA** *Salomon* Introduction to the various Prakrit or Middle Indo-Aryan dialects (Gandhari, Magadhi, Maharashtri, Sauraseni) from literary, canonical, and inscriptional sources. Prerequisite: SNKRT 303.

**INDN 490 Senior Seminar (5)** Seminar study of special topics in the languages and literatures of South Asia.

**INDN 499 Undergraduate Research (3-5, max. 15)** Primarily for South Asian language and literature majors. Offered: AWSpS.

**INDN 530 Readings in Pali Literature (3, max. 18)** *Cox, Salomon* Reading and interpretation of intermediate and advanced texts in Pali. Prerequisite: INDN 402 or equivalent.

**INDN 590 Special Topics in Indology (1-5, max. 27)** Studies in selected research topics in South Asian languages and literatures. Prerequisite: graduate standing and permission of instructor.

## Indonesian

**INDON 111 Elementary Indonesian (5)** Introduction to modern standard Indonesian. Emphasis on grammar and conversational drills. Practice with basic phonological, morphological, and syntactic structures. First in a sequence of three. Offered: A.

**INDON 112 Elementary Indonesian (5)** Introduction to modern standard Indonesian. Emphasis on grammar and conversational drills. Practice with basic phonological, morphological, and syntactic structures. Second in a sequence of three. Prerequisite: INDON 111. Offered: W.

**INDON 113 Elementary Indonesian (5)** Introduction to modern standard Indonesian. Emphasis on grammar and conversational drills. Practice with basic phonological, morphological, and syntactic structures. Third in a sequence of three. Prerequisite: INDON 112. Offered: Sp.

**INDON 211 Intermediate Indonesian (5) VLPA** Review/expansion of fundamental grammatical patterns: morphological and syntactic structures, development of conversational skills, reading some literary and cultural materials, writing compositions. First in a sequence of three. Prerequisite: INDON 113. Offered: A.

**INDON 212 Intermediate Indonesian (5) VLPA** Review/expansion of fundamental grammatical patterns: morphological and syntactic structures, development of conversational skills, reading some literary and cultural materials, writing compositions. Second in a sequence of three. Prerequisite: INDON 211. Offered: W.

**INDON 213 Intermediate Indonesian (5) VLPA** Review/expansion of fundamental grammatical patterns: morphological and syntactic structures, development of conversational skills, reading some literary and cultural materials, writing compositions. Third in a sequence of three. Prerequisite: INDON 212. Offered: Sp.

**INDON 311 Advanced Indonesian (5) VLPA** Expanding vocabulary; preparing for research work using original sources; improving reading fluency in modern standard written Indonesian using novels, short stories, newspapers, and other authentic materials. Conversation practice centers on discussion of readings. Writing compositions. First in a sequence of three. Prerequisite: INDON 211. Offered: A.

**INDON 312 Advanced Indonesian (5) VLPA** Expanding vocabulary; preparing for research work using original sources; improving reading fluency in modern standard written Indonesian using novels, short stories, newspapers, and other authentic materials. Conversation practice centers on discussion of readings. Writing compositions. Second in a sequence of three. Prerequisite: INDON 311. Offered: W.

**INDON 313 Advanced Indonesian (5) VLPA** Expanding vocabulary; preparing for research work using original sources; improving reading fluency in modern standard written Indonesian using novels, short stories, newspapers, and other authentic materials. Conversation practice centers on discussion of readings. Writing compositions. Third in a sequence of three. Prerequisite: INDON 312. Offered: Sp.

**INDON 499 Undergraduate Research (3-5, max. 15)** Primarily for Southeast Asian studies majors. Offered: AWSpS.

## Japanese

**JAPAN 111 First-Year Japanese (5)** Elementary speaking, listening, reading, and writing skills in modern Japanese. First in a sequence of three. Recommended: score of 0-5 on JP 100A placement test if Japanese is language of admission. Offered: A.

**JAPAN 112 First-Year Japanese (5)** Elementary speaking, listening, reading, and writing skills in modern Japanese. Second in a sequence of three. Prerequisite: either JAPAN 111 or score of 6-20 on JP 100A placement test. Offered: AW.

**JAPAN 113 First-Year Japanese (5)** Elementary speaking, listening, reading, and writing skills in modern Japanese. Third in a sequence of three. Prerequisite: either JAPAN 112 or score of 21-40 on JP 100A placement test. Offered: AWSp.

**JAPAN 134 First-Year Intensive Japanese (15)** Fundamentals of the modern Japanese language. Oral communication skills, basic grammar, and reading/writing of hiragana, katakana, and basic kanji. No initial knowledge of Japanese is presumed. Equivalent of 111, 112, 113. Satisfies requirement for entry to 211. Students with prior background must take placement test. Offered: S.

**JAPAN 145 Foreign Study: Elementary Japanese (1-15, max. 20)** For participants in study abroad programs in Japan who complete 100-level language courses in approved programs in Japan. Evaluation by department/faculty required.

**JAPAN 211 Second-Year Japanese (5) VLPA** Development of further skills in the spoken and written languages. Students

must enroll in both a lecture and quiz section to receive credit. First in a sequence of three. Prerequisite: either JAPAN 113, JAPAN 134. Offered: A.

**JAPAN 212 Second-Year Japanese (5) VLPA** Development of further skills in the spoken and written languages. Students must enroll in both a lecture and quiz section to receive credit. Second in a sequence of three. Prerequisite: JAPAN 211. Offered: W.

**JAPAN 213 Second-Year Japanese (5) VLPA** Development of further skills in the spoken and written languages. Students must enroll in both a lecture and quiz section to receive credit. Third in a sequence of three. Prerequisite: JAPAN 212. Offered: Sp.

**JAPAN 234 Second-Year Intensive Japanese (15) VLPA** Equivalent of 211, 212, 213. Satisfies requirements for entry to 311, but recommended primarily for those going to Japan shortly upon completion. Prerequisite: either JAPAN 113 or JAPAN 134. Offered: S.

**JAPAN 245 Foreign Study: Intermediate Japanese (1-15, max. 20) VLPA** For participants in study abroad programs in Japan who complete 200-level language courses in approved programs in Japan. Evaluation by department/faculty required.

**JAPAN 311 Third-Year Japanese (5) VLPA** Intermediate-level skills in both spoken and written languages. Some introduction to unedited materials. First in a sequence of three. Prerequisite: a minimum grade of 2.0 in either JAPAN 213 or JAPAN 234. Offered: AS.

**JAPAN 312 Third-Year Japanese (5) VLPA** Intermediate-level skills in both spoken and written languages. Some introduction to unedited materials. Second in a sequence of three. Prerequisite: JAPAN 311. Offered: WS.

**JAPAN 313 Third-Year Japanese (5) VLPA** Intermediate-level skills in both spoken and written languages. Some introduction to unedited materials. Third in a sequence of three. Prerequisite: JAPAN 312. Offered: SpS.

**JAPAN 321 Japanese Literature I (5) VLPA** *Atkins* Introduction to the literature and culture of Japan from the earliest times until the mid-nineteenth century. Close readings of tales, poems, plays, or essays with an emphasis on understanding cultural and historical contexts. In English. Offered: A.

**JAPAN 322 Japanese Literature II (5) VLPA** Introduction to the literature and culture of Japan from the mid-nineteenth century to the present. Close reading of novels, short stories, criticism, or other texts with an emphasis on understanding cultural and historical contexts. In English. Offered: W.

**JAPAN 323 Japanese Literature III (5) VLPA** Introduction to the major works of contemporary Japan in English translation, with readings that focus on the clash of cultures, generational struggles, and war, plus films that portray these themes and reflect modern Japanese life. In English. Offered: Sp.

**JAPAN 334 Third-Year Intensive Japanese (15) VLPA** Equivalent to JAPAN 311, JAPAN 312, and JAPAN 313. Prerequisite: minimum grade of 2.0 in either JAPAN 213 or JAPAN 234. Offered: S.

**JAPAN 342 The Japanese Language (5) VLPA** *K. Ohta* Survey of the nature and structure of the Japanese language, covering genetic and typological affiliations, writing systems, lexicon, and features of Japanese sentence structures. Prerequisite: JAPAN 311 which may be taken concurrently.

**JAPAN 343 Japanese Language in Society (5) I&S/VLPA** *A. Ohta* Survey of issues in Japanese language use. Areas covered include dialectal variation, language attitudes, gender differences, and pragmatics. Prerequisite: JAPAN 311.

**JAPAN 345 Foreign Study: Advanced Japanese (1-15, max. 20) VLPA** For participants in study abroad programs in Japan who complete 300-level language courses in approved programs in Japan. Evaluation by department/faculty required.

**JAPAN 360 Topics in Japanese Culture (5, max. 15) VLPA** Focuses on literature from a limited time period or particular aspects of pre-modern or modern Japanese culture.

**JAPAN 395 Foreign Study: Japanese Linguistics or Literature (1–20, max. 20) VLP** For participants in study abroad programs in Japan who complete coursework in Japanese literature or linguistics.

**JAPAN 405 History of the Japanese Language (5) VLP** Introduction to the history of the Japanese language, including phonology, morphology, syntax, and the writing system. Prerequisite: JAPAN 313. Recommended: JAPAN 440, JAPAN 471.

**JAPAN 421 Fourth-Year Japanese I (5) I&S/VLP** Reading, class discussion, oral presentations, and composition on topics related to the Japanese language and present-day Japan. Conducted in Japanese. First in a sequence of three. Prerequisite: 2.5 in JAPAN 313, may not be repeated. Offered: A.

**JAPAN 422 Fourth-Year Japanese II (5) I&S/VLP** Reading, class discussion, oral presentations, and composition on topics related to the Japanese language and present-day Japan. Second in a sequence of three. Conducted in Japanese. Prerequisite: minimum grade of 2.5 in JAPAN 313, may not be repeated. Offered: W.

**JAPAN 423 Fourth-Year Japanese III (5) I&S/VLP** Reading, class discussion, oral presentations, and composition on topics related to the Japanese language and present-day Japan. Conducted in Japanese. Third in a sequence of three. Prerequisite: minimum grade of 2.5 in JAPAN 313, may not be repeated. Offered: Sp.

**JAPAN 428 Advanced Oral Communication (3) VLP** *Iwata* Fourth-year Japanese oral communication skills. Instruction in Japanese. Activities include task-based role-play, speeches, discussions, conversations with native speakers, and study of societal aspects of speech. Prerequisite: JAPAN 313 with a grade of 2.5 or higher.

**JAPAN 429 Advanced Writing in Japanese (3) VLP** *Nishikawa* Focuses on the development of advanced writing and language proficiency in Japanese. Instruction in Japanese. Prerequisite: JAPAN 313 with a grade of 2.5 or higher.

**JAPAN 431 Readings in Modern Japanese Literature (5) VLP** Reading and discussion of selected modern literary texts in the original language, concentrating on the short story. Close attention to grammar and syntax. Prerequisite: 2.5 in JAPAN 313; may not be repeated.

**JAPAN 432 Readings in Modern Japanese Literature (5) VLP** Reading and discussion of selected modern literary texts in the original language, concentrating on the short story. Close attention to grammar and syntax.

**JAPAN 433 Readings in Modern Japanese Literature (5) VLP** Reading and discussion of selected modern literary texts in the original language, concentrating on the short story. Close attention to grammar and syntax.

**JAPAN 434 Seminar in Premodern Japanese Literature (5) VLP** Seminar study of special topics in Premodern Japanese literature.

**JAPAN 435 Seminar in Modern Japanese Literature (5) VLP** Seminar study of special topics in modern Japanese literature.

**JAPAN 440 Introduction to Japanese Linguistics (5) VLP** *A. Ohta, K. Ohta* Overview of major topics in the linguistic description of Japanese: phonology, morphology, syntax, history, dialects, sociolinguistics, and the writing system. Elementary training in phonological, morphological, and syntactic analysis of Japanese. Prerequisite: JAPAN 312 which may be taken concurrently; JAPAN 342; recommended: introductory linguistics course.

**JAPAN 441 The Acquisition of Japanese as a Second or Foreign Language (5) Ohta** Focuses on how Japanese is acquired or learned by non-native speakers in North America and Japan. Includes study of how Japanese is learned in both naturalistic settings such as study abroad and in foreign language classrooms.

**JAPAN 443 Topics in Japanese Sociolinguistics (5) I&S/VLP** *A. Ohta* Methodology and theory of sociolinguistic analysis. Reading of research literature and training in

analysis of Japanese language data. Prerequisite: JAPAN 313 which may be taken concurrently; either JAPAN 342 or JAPAN 343.

**JAPAN 445 Foreign Study: Fourth-Year Japanese (1–15, max. 20) VLP** For participants in study abroad programs in Japan who complete 400-level language courses in approved programs in Japan. Evaluation by department/faculty required.

**JAPAN 451 Readings in Japanese for China and Korea Specialists (5) VLP**

**JAPAN 460 Readings in Japanese Culture (5, max. 15) VLP** Reading and discussion of texts in Japanese on various aspects of Japanese culture, such as film, anime, art, and other socio-cultural phenomena. Close attention to grammar and syntax. Prerequisite: minimum grade of 2.5 in JAPAN 313.

**JAPAN 471 Introduction to Classical Japanese (5) VLP** *Atkins* Introduction to classical Japanese writing system, grammar, and vocabulary. Prerequisite: 2.5 in JAPAN 313; may not be repeated. Offered: A.

**JAPAN 472 Readings in Classical Japanese Literature I (5) VLP** *Atkins* Continued study of the classical language with a transition to reading literary works and understanding their cultural contexts. Prerequisite: JAPAN 471. Offered: W.

**JAPAN 473 Readings in Classical Japanese Literature (5) VLP** Readings in prose, poetry, and drama, antiquity to nineteenth century. Prerequisite: JAPAN 472. Offered: Sp.

**JAPAN 481 Advanced Japanese Through Content (5) VLP** *Ohta* Instruction in Japanese. Dictionary skills in Japanese and Kanji required. Prerequisite: JAPAN 313.

**JAPAN 499 Undergraduate Research (3–5, max. 15) For** Japanese language and literature majors. Offered: AWSpS.

**JAPAN 505 Kambun (5) Atkins** Introduction to Kambun, a method of reading texts written in Chinese as Classical Japanese. Prerequisite: JAPAN 472; or JAPAN 471 and graduate standing.

**JAPAN 531 Advanced Readings in Modern Japanese Literature (5, max. 15)** Rapid reading of modern literary and critical texts. Prerequisite: JAPAN 433 or equivalent.

**JAPAN 532 Advanced Readings in Modern Japanese Literature (5, max. 15)** Rapid reading of modern literary and critical texts. Prerequisite: JAPAN 433 or equivalent.

**JAPAN 533 Advanced Readings in Modern Japanese Literature (5, max. 15)** Rapid reading of modern literary and critical texts. Prerequisite: JAPAN 433 or equivalent.

**JAPAN 540 Seminar on Japanese Linguistics (3, max. 15) A. Ohta** Problems in the history and structure of the Japanese language. Topics vary each quarter, according to the needs and interests of the students. Prerequisite: JAPAN 440 or permission of instructor.

**JAPAN 561 No and Kyogen (5, max. 15)** Close reading and analysis of No texts in Japanese, with some attention to Kyogen. Discussion of categorization, structure, imagery, style, mode, theme, authorship, source material, theory, and problems of translation. Prerequisite: JAPAN 472 or equivalent and permission of instructor.

**JAPAN 571 Advanced Readings in Classical Japanese Literature (5)** Continued readings in classical literary texts. Prerequisite: JAPAN 473 or permission of instructor.

**JAPAN 572 Advanced Readings in Classical Japanese Literature (5)** Continued readings in classical literary texts. Prerequisite: JAPAN 473 or permission of instructor.

**JAPAN 573 Advanced Readings in Classical Japanese Literature (5)** Continued readings in classical literary texts. Prerequisite: JAPAN 473 or permission of instructor.

**JAPAN 580 Development of Modern Japanese Fiction (5, max. 15)** Reading and translation of major works of modern fiction in the original, with emphasis on the chronological development of modern prose style.

**JAPAN 590 Seminar in Japanese Literature (5, max. 15)** Close examination of selected periods, writers, or genres,

including problems of literary criticism in Japanese literature. Prerequisite: permission of instructor.

## Korean

**KOREAN 145 Foreign Study: Elementary Korean (1–15, max. 20)** For participants in study abroad programs who complete elementary language courses in approved programs in Korea. Evaluation by department/faculty required.

**KOREAN 245 Foreign Study: Intermediate Korean (1–15, max. 20) VLP** For participants in study abroad programs who complete intermediate language courses in approved programs in Korea. Evaluation by department/faculty required.

**KOREAN 301 First-Year Korean for Novice Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with no formal or informal background in the language. First in a sequence of three. Offered: A.

**KOREAN 302 First-Year Korean for Novice Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with no formal or informal background in the language. Second in a sequence of three. Prerequisite: KOREAN 301. Offered: W.

**KOREAN 303 First-Year Korean for Novice Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with no formal or informal background in the language. Third in a sequence of three. Prerequisite: KOREAN 302. Offered: Sp.

**KOREAN 304 Spoken Korean (5) VLP** The Korean language as spoken in ordinary conversational situations. Phonetic accuracy and appropriateness of idiom. May be taken any summer after completion of first-year Korean. Prerequisite: KOREAN 303.

**KOREAN 305 First-Year Korean for Heritage Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with formal or informal background in the language or to students with Korean heritage. First in a sequence of three. Prerequisite: score of 30–60 on KR100A placement test. Offered: A.

**KOREAN 306 First-Year Korean for Heritage Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with formal or informal background in the language or to students with Korean heritage. Second in a sequence of three. Prerequisite: KOREAN 305. Offered: W.

**KOREAN 307 First-Year Korean for Heritage Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with formal or informal background in the language or to students with Korean heritage. Third in a sequence of three. Prerequisite: KOREAN 306. Offered: Sp.

**KOREAN 311 Second-Year Korean for Novice Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with no formal or informal background in the language prior to first-year Korean at UW. First in a sequence of three. Prerequisite: KOREAN 303 or placement test. Offered: A.

**KOREAN 312 Second-Year Korean for Novice Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with no formal or informal background in the language prior to first-year Korean at UW. Second in a sequence of three. Prerequisite: KOREAN 311 or placement test. Offered: W.

**KOREAN 313 Second-Year Korean for Novice Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with no formal or informal background in the language prior to first-year Korean at UW. Third in a sequence of three. Prerequisite: KOREAN 312 or placement test. Offered: Sp.

**KOREAN 315 Second-Year Korean for Heritage Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with formal or informal background in the language prior to first-year Korean at the UW. First in a sequence of three. Prerequisite: either

score of 0–41 on KR200A placement test or KOREAN 307. Offered: A.

**KOREAN 316 Second-Year Korean for Heritage Learners (5) VLPA** Development of further skills in the spoken and written languages. Open only to students with formal or informal background in the language prior to first-year Korean at the UW. Second in a sequence of three. Prerequisite: KOREAN 315. Offered: W.

**KOREAN 317 Second-Year Korean for Heritage Learners (5) VLPA** Development of further skills in the spoken and written languages. Open only to students with formal or informal background in the language prior to first-year Korean at the UW. Third in a sequence of three. Prerequisite: KOREAN 316. Offered: Sp.

**KOREAN 345 Foreign Study: Advanced Korean (1–15, max. 20) VLPA** For participants in study abroad programs who complete advanced language courses in approved programs in Korea. Evaluation by department/faculty required.

**KOREAN 411 Readings in Contemporary Korean (5) VLPA** Completes the introduction to Korean writing in mixed script of 311, 312, 313. Prerequisite: either minimum score of 42 on KR200A placement test or KOREAN 313. Offered: A.

**KOREAN 412 Readings in Contemporary Korean (5) VLPA** Provide experience in reading a variety of contemporary styles. Materials from published works include informal essays, short stories, one-act plays, academic essays, and newspaper editorials. Offered: W.

**KOREAN 413 Readings in Contemporary Korean (5) VLPA** Provide experience in reading a variety of contemporary styles. Materials from published works include informal essays, short stories, one-act plays, academic essays, and newspaper editorials. Offered: Sp.

**KOREAN 415 Social Science Literature in Korean (3) VLPA** Readings in selections from contemporary Korean publications in social science topics. Prerequisite: KOREAN 413. Offered: A.

**KOREAN 416 Readings in Korean Literature (3) VLPA** Reading of various literary texts which may include pre-modern Korean narrative and poetry as well as modern literature and drama. Prerequisite: KOREAN 413. Offered: W.

**KOREAN 417 Readings in Korean Journals (3) VLPA** Selections from Korean newspapers, news magazines, and other journals. Prerequisite: KOREAN 413. Offered: Sp.

**KOREAN 445 Foreign Study: Korean Literature (1–15, max. 20) VLPA** For participants in study abroad programs who complete course work Korean literature.

**KOREAN 499 Undergraduate Independent Study (3–5, max. 15) For** students who have completed 417 or equivalent. Offered: AWSpS.

**KOREAN 531 Advanced Readings in Modern Korean Literature (5)** Literature and literary criticism in Korean. Prerequisite: fourth-year Korean or equivalent.

**KOREAN 532 Advanced Readings in Traditional Vernacular Korean Literature (5)** Readings in traditional Korean vernacular literature, including poetry, sung narrative, and fiction. Prerequisite: fourth-year Korean or equivalent.

## Sanskrit

**SNKRT 301 Introduction to Sanskrit (5) Cox, Salomon** Basic grammar and vocabulary of the classical language. Reading of elementary texts from the epic or Puranic literature. First in a sequence of three. Offered: A.

**SNKRT 302 Introduction to Sanskrit (5) Cox, Salomon** Basic grammar and vocabulary of the classical language. Reading of elementary texts from the epic or Puranic literature. Second in a sequence of three. Prerequisite: SNKRT 301. Offered: W.

**SNKRT 303 Introduction to Sanskrit (5) Cox, Salomon** Basic grammar and vocabulary of the classical language. Reading of elementary texts from the epic or Puranic literature. Third in a sequence of three. Prerequisite: SNKRT 302. Offered: Sp.

**SNKRT 401 Intermediate Sanskrit (5) VLPA Cox, Salomon** Further study of classical grammar; introduction to classical literature and Vedic language and texts. First in a sequence of three. Prerequisite: SNKRT 303. Offered: A.

**SNKRT 402 Intermediate Sanskrit (5) VLPA Cox, Salomon** Further study of classical grammar; introduction to classical literature and Vedic language and texts. Second in a sequence of three. Offered: W.

**SNKRT 403 Intermediate Sanskrit (5) VLPA Cox, Salomon** Further study of classical grammar; introduction to classical literature and Vedic language and texts. Third in a sequence of three. Offered: Sp.

**SNKRT 411 Advanced Sanskrit (5, max. 15) VLPA Cox, Salomon** Reading and analysis of classical texts, chosen according to students' interests. First in a sequence of three. Prerequisite: SNKRT 403. Offered: A.

**SNKRT 412 Advanced Sanskrit (5, max. 15) VLPA Cox, Salomon** Reading and analysis of classical texts, chosen according to students' interests. Second in a sequence of three. Offered: W.

**SNKRT 413 Advanced Sanskrit (5, max. 15) VLPA Cox, Salomon** Reading and analysis of classical texts, chosen according to students' interests. Third in a sequence of three. Offered: Sp.

**SNKRT 491 Vedic Studies (3) VLPA Salomon** Readings of selected Vedic texts, with linguistic, religious, and historical analyses. Includes background material on Vedic religion, literature, and culture. First in a sequence of three. Prerequisite: SNKRT 303.

**SNKRT 492 Vedic Studies (3) VLPA Salomon** Readings of selected Vedic texts, with linguistic, religious, and historical analyses. Includes background material on Vedic religion, literature, and culture. Second in a sequence of three.

**SNKRT 493 Vedic Studies (3) VLPA Salomon** Readings of selected Vedic texts, with linguistic, religious, and historical analyses. Includes background material on Vedic religion, literature, and culture. Third in a sequence of three.

**SNKRT 494 Readings in Religious Classics of India (5) VLPA** Reading and analysis of the older religious brahmanical texts. Prerequisite: SNKRT 402.

**SNKRT 495 Studies in Indian Thought (3, max. 9) VLPA Cox** Religious and philosophical traditions in South Asia. The original documents studied vary from year to year. Prerequisite: SNKRT 402.

**SNKRT 499 Undergraduate Research (3–5, max. 15)** Primarily for Sanskrit language and literature majors. Offered: AWSpS.

**SNKRT 550 Seminar on Sanskrit Literature (3, max. 9) Salomon** Detailed study of selected authors, periods, or traditions, within the context of Indian literary history. Prerequisite: SNKRT 403 or permission of instructor.

**SNKRT 555 Seminar on Sanskrit Grammar (3, max. 6) Salomon** Reading and critical study of traditional literature on grammar and language, including texts of Paninian and other schools. Offered: A.

**SNKRT 560 Readings in Philosophical Sanskrit (3, max. 9) Cox, Salomon** Intensive reading and analysis of Hindu or Buddhist philosophical texts. Prerequisite: SNKRT 494 or permission of instructor.

**SNKRT 570 Seminar in Indian Epigraphy and Paleography (3, max. 6) Salomon** Introduction to the study of inscriptions and other original documents in Sanskrit and Prakrit languages and in Kharosthi, Brahmi, and derived scripts. History of writing in India and development of Indic scripts. Methods of critical evaluation of inscriptions as sources of political and cultural history. Prerequisite: SNKRT 403.

**SNKRT 581 Readings in Buddhist Texts (3, max. 9) Cox** Interpretation of original sources. Texts vary from year to year. Prerequisite: ability to study sources in the original languages, an introduction to Buddhist thought, and permission of instructor.

**SNKRT 582 Readings in Buddhist Texts (3, max. 9) Cox** Interpretation of original sources. Texts vary from year to year. Prerequisite: ability to study sources in the original languages, an introduction to Buddhist thought, and permission of instructor.

## Thai

**THAI 111 Elementary Thai (5) Kesavatana-Dohrs** Introduction to modern spoken and written Thai. Emphasis on spoken language competence with additional skills in elementary reading and writing. Designed for students with no prior knowledge of Thai. First in a sequence of three. Offered: A.

**THAI 112 Elementary Thai (5) Kesavatana-Dohrs** Introduction to modern spoken and written Thai. Emphasis on spoken language competence with additional skills in elementary reading and writing. Designed for students with no prior knowledge of Thai. Second in a sequence of three. Prerequisite: THAI 111. Offered: W.

**THAI 113 Beginning Thai (5) Kesavatana-Dohrs** Introduction to modern spoken and written Thai. Emphasis on spoken language competence with additional skills in elementary reading and writing. Designed for students with no prior knowledge of Thai. Third in a sequence of three. Prerequisite: THAI 112. Offered: Sp.

**THAI 145 Foreign Study: Elementary Thai (1–15, max. 20)** For participants in study abroad programs who complete elementary language courses in approved programs in Thailand. Evaluation by department faculty required.

**THAI 211 Intermediate Thai (5) VLPA Kesavatana-Dohrs** Continuation of 303. Expands students' abilities in the four language skills of listening, speaking, reading, and writing. First in a sequence of three. Prerequisite: THAI 113. Offered: A.

**THAI 212 Intermediate Thai (5) VLPA Kesavatana-Dohrs** Expands students' abilities in the four language skills of listening, speaking, reading, and writing. Second in a sequence of three. Prerequisite: THAI 211. Offered: W.

**THAI 213 Intermediate Thai (5) VLPA Kesavatana-Dohrs** Expands students' abilities in the four language skills of listening, speaking, reading, and writing. Third in a sequence of three. Prerequisite: THAI 212. Offered: Sp.

**THAI 245 Foreign Study: Intermediate Thai (1–15, max. 20) VLPA** For participants in study abroad programs who complete intermediate language courses in approved programs in Thailand. Evaluation by department faculty required.

**THAI 311 Advanced Thai (3–5, max. 15) VLPA Kesavatana-Dohrs** Advanced reading and translation of selections from various Thai authors, with occasional practice in conversation and composition. Prerequisite: THAI 213. Offered: A.

**THAI 312 Advanced Thai (3–5, max. 15) VLPA Kesavatana-Dohrs** Advanced reading and translation of selections from various Thai authors, with occasional practice in conversation and composition. Prerequisite: THAI 311. Offered: W.

**THAI 313 Advanced Thai (3–5, max. 15) VLPA Kesavatana-Dohrs** Advanced reading and translation of selections from various Thai authors, with occasional practice in conversation and composition. Prerequisite: THAI 312. Offered: Sp.

**THAI 345 Foreign Study: Advanced Thai (1–15, max. 20) VLPA** For participants in study abroad programs who complete 300-level language courses in approved programs in Thailand. Evaluation by department faculty required.

**THAI 499 Undergraduate Research (3–5, max. 25)** For Thai language and literature majors. Offered: AWSpS.

## Urdu

**URDU 311 Elementary Urdu (5)** Modern literary Urdu. Reading, writing, conversation, and listening comprehension. Introduction to Perso-Arabic script. First in a sequence of three.

**URDU 312 Elementary Urdu (5)** Modern literary Urdu. Reading, writing, conversation, and listening comprehension. Introduction to Perso-Arabic script. Second in a sequence of three. Prerequisite: URDU 311.

**URDU 313 Elementary Urdu (5)** Modern literary Urdu. Reading, writing, conversation, and listening comprehension. Introduction to Perso-Arabic script. Third in a sequence of three. Prerequisite: URDU 312.

**URDU 321 Intermediate Urdu (5)** Systematic expansion of vocabulary and grammar. Intermediate level prose and poetry readings. Expansion of skills in reading, writing, speaking, and listening comprehension. First in a sequence of three. Prerequisite: URDU 313.

**URDU 322 Intermediate Urdu (5)** Systematic expansion of vocabulary and grammar. Intermediate level prose and poetry readings. Expansion of skills in reading, writing, speaking, and listening comprehension. Second in a sequence of three. Prerequisite: URDU 321.

**URDU 323 Intermediate Urdu (5)** Systematic expansion of vocabulary and grammar. Intermediate level prose and poetry readings. Expansion of skills in reading, writing, speaking, and listening comprehension. Third in a sequence of three. Prerequisite: URDU 322.

**URDU 401 Advanced Urdu (5)** Rapid reading of contemporary Urdu prose and poetry. Advanced conversation and composition. First in a sequence of three. Prerequisite: URDU 323.

**URDU 402 Advanced Urdu (5)** Rapid reading of contemporary Urdu prose and poetry. Advanced conversation and composition. Second in a sequence of three. Prerequisite: URDU 401.

**URDU 403 Advanced Urdu (5)** Rapid reading of contemporary Urdu prose and poetry. Advanced conversation and composition. Third in a sequence of three. Prerequisite: URDU 402.

**URDU 499 Independent Study (3–5, max. 15)** For Urdu language and literature majors. Offered: AWSpS.

## Vietnamese

**VIET 111 Elementary Vietnamese (5)** *Nguyen* Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. First in a sequence of three. Offered: A.

**VIET 112 Elementary Vietnamese (5)** *Nguyen* Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. Second in a sequence of three. Prerequisite: VIET 111. Offered: W.

**VIET 113 Elementary Vietnamese (5)** *Nguyen* Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. Third in a sequence of three. Prerequisite: VIET 112. Offered: Sp.

**VIET 145 Foreign Study: Elementary Vietnamese (1–15, max. 20)** For participants in study abroad programs who complete elementary language courses in approved programs in Vietnam. Evaluation by department faculty required.

**VIET 211 Intermediate Vietnamese (5) VLPA** *Nguyen* Development of conversation skills, reading for comprehension, and writing short compositions. First in a sequence of three. Prerequisite: VIET 113. Offered: A.

**VIET 212 Intermediate Vietnamese (5) VLPA** *Nguyen* Development of conversation skills, reading for comprehension, and writing short compositions. Second in a sequence of three. Prerequisite: VIET 211. Offered: W.

**VIET 213 Intermediate Vietnamese (5) VLPA** *Nguyen* Development of conversation skills, reading for comprehension, and writing short compositions. Third in a sequence of three. Prerequisite: VIET 212. Offered: Sp.

**VIET 214 Accelerated Vietnamese Reading and Writing (5) VLPA** *Nguyen* Accelerated course for fluent speakers who do not read or write Vietnamese. Emphasis on reading and writing through second-year level. Cannot be taken for credit in combination with any formal Vietnamese course. Credit/no credit only. Offered: AWSp.

**VIET 245 Foreign Study: Intermediate Vietnamese (1–15, max. 20) VLPA** For participants in study abroad programs who complete intermediate language courses in approved programs in Vietnam. Evaluation by department faculty required.

**VIET 311 Advanced Vietnamese (5)** *Nguyen* Develops proficiency in reading, writing, listening, and speaking standard colloquial Vietnamese at an advanced level to prepare students to do research. Includes readings in fiction and nonfiction literature, vocabulary and grammar, writing comprehensive exercises, and topic-based conversations First in a series of three. Prerequisite: VIET 213.

**VIET 312 Advanced Vietnamese (5)** *Nguyen* Develops proficiency in reading, writing, listening, and speaking standard colloquial Vietnamese at an advanced level to prepare students to do research. Includes readings in fiction and nonfiction literature, vocabulary and grammar, writing comprehensive exercises, and topic-based conversations Second in a series of three. Prerequisite: VIET 311.

**VIET 313 Advanced Vietnamese (5)** *Nguyen* Develops proficiency in reading, writing, listening, and speaking standard colloquial Vietnamese at an advanced level to prepare students to do research. Includes readings in fiction and nonfiction literature, vocabulary and grammar, writing comprehensive exercises, and topic-based conversations Third in a series of three. Prerequisite: VIET 312.

**VIET 345 Foreign Study: Advanced Vietnamese (1–15, max. 20) VLPA** For participants in study abroad programs who complete 300-level language courses in approved programs in Vietnam. Evaluation by department faculty required.

**VIET 496 Special Studies in Vietnamese (3–5, max. 15) VLPA** *Nguyen* Topics vary. Emphasizes improving language skills for research. Primarily for Southeast Asian Studies majors. Offered: AWSp.

**VIET 499 Undergraduate Research (3–5, max. 15)** *Nguyen* Undergraduate research/independent study in Vietnamese language and literature. Offered: AWSp.

## Astronomy

### DEPARTMENT OVERVIEW

C319 Physics-Astronomy Building

Modern research in astronomy and astrophysics encompasses a large number of disciplines and specialties. Research areas include planetary systems and astrobiology, stellar structure and evolution, interstellar matter, binaries and compact objects, galactic structure and dynamics, galaxies and quasars, and large scale structure and cosmology.

### UNDERGRADUATE PROGRAM

#### Adviser

C311 Physics-Astronomy, Box 351580

206-543-1988

[office@astro.washington.edu](mailto:office@astro.washington.edu)

The Department of Astronomy offers the following undergraduate program:

- The Bachelor of Science degree with a major in astronomy

#### Bachelor of Science

Suggested First-Year Courses: MATH 124, MATH 125, MATH 126; MATH 308, MATH 324; PHYS 121, PHYS 122, PHYS 123. At community colleges it is better to take courses in physics, chemistry, mathematics, and computer science than the usual introductory astronomy courses.

### Department Admission Requirements

Enrolled students in good academic standing may declare the major at any time. Students complete the necessary paperwork to declare by visiting the department advising office.

### Major Requirements

89 credits as follows:

- ASTR 300, ASTR 321, ASTR 322, ASTR 323
- 9 graded credits of astronomy 400-level courses (with at least 3 credits in ASTR 480 or ASTR 499). Data analysis (ASTR 480) and senior-year research (ASTR 499) are highly recommended, especially for students planning graduate work.
- PHYS 121, PHYS 122, PHYS 123; PHYS 224, PHYS 225, PHYS 226, PHYS 227, PHYS 228; PHYS 321, PHYS 322, PHYS 334
- MATH 124, MATH 125, MATH 126, and 6 credits from MATH 307, MATH 308, MATH 309, MATH 324, MATH 326, AMATH 352, OR AMATH 353
- 6 additional physics credits in courses at the 300 level or above in physics (chosen from PHYS 311, PHYS 323, PHYS 324, PHYS 325, PHYS 328, PHYS 331, PHYS 335, PHYS 421, PHYS 422, PHYS 423, PHYS 424, PHYS 431, PHYS 432, PHYS 433, PHYS 434) or engineering as approved by adviser.
- No grade lower than 2.0 is acceptable in courses fulfilling the above requirements.
- Undergraduates interested in advanced work in astronomy are advised to take a double major in astronomy and physics. Undergraduates interested in immediate employment at an observatory or other scientific institution should include computing and electronics courses as part of their program. As a capstone sequence of hands-on research and dissemination of results, the following is highly recommended: ASTR 480, followed by either ASTR 481 or ASTR 499 or an REU project, and ending with ASTR 482.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* With this degree, students obtain knowledge of the components of the universe, an understanding of the physics of its structure, and the technical skills to obtain and analyze data from telescopes. Graduates go on to graduate school or work at observatories or in industrial applications (lasers, x-ray, optical imaging) or in teaching applications. Students are able to do the following:
  - Understand the principal findings, common application, and current problems within astronomy as a scientific discipline.
  - Be versed in the computational methods and software resources utilized by professional astronomers.
  - Have experience operating modern astronomical instrumentation and analyzing a range of experimental data.
  - Assess, communicate, and reflect their understanding of astronomy and the results of astrophysical experiments in both oral and written formats.
  - Learn in a diverse environment with a variety of individuals, thoughts, and ideas.
- *Instructional and Research Facilities:* The department operates a 30-inch telescope with modern instrumentation, primarily for students, at the Manastash Ridge Observatory near Ellensburg. The department is also part of a consortium of universities that operate a 3.5-meter optical/infrared telescope located on Sacramento Peak, New Mexico and that are partners in the innovative Sloan Digital Sky Survey and the future Large Synoptic Survey Telescope. Students also have access to a variety of national facilities, such as the Kitt Peak

and Cerro Tololo observatories and the Very Large Array. A variety of research is conducted with satellite instruments such as the Hubble Space Telescope. Data analysis and theoretical research are conducted on the department's cluster of computers, and on a variety of UW and national supercomputer facilities. Undergraduate majors often assist faculty members in acquisition, reduction, and interpretation of data.

- **Honors Options Available:** College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements).
- **Research, Internships, and Service Learning:** Washington State Space Grant, NSF research experiences for undergraduates. NASA internships, outreach opportunities.
- **Department Scholarships:** Baer Prize. See adviser for details.
- **Student Organizations/Associations:** The Society of Physics Students. Undergraduate Astronomy Institute/Palen Radio Astronomy Group. League of Astronomers. See adviser for details.

**Of Special Note:** The first required astronomy course, ASTR 321, must be preceded by at least one year of college physics and mathematics. Any lower-division astronomy courses count as electives and not as part of the major. To finish in four years, the student must have completed PHYS 123 before winter quarter of the sophomore year. Students are encouraged to take the capstone sequence: Spring: ASTR 480; Summer: ASTR 481 or ASTR 499 or an REU (Research Experiences for Undergraduates) program; Autumn: ASTR 482.

## GRADUATE PROGRAM

### Graduate Program Coordinator

C306 Physics-Astronomy, Box 351580

206-685-2392

[grad@astro.washington.edu](mailto:grad@astro.washington.edu)

A series of graduate courses in solar system, stellar, galactic, and extragalactic astrophysics is offered. The heart of the graduate program is the collaboration of students and faculty members in research at the frontiers of astronomy. Students work collaboratively with members of the faculty to develop the techniques and insight necessary for successful research and, subsequently, to define a thesis topic. The student's thesis research may use theoretical, computational, or observational material (obtained through the facilities of the UW or one of the national ground- or space-based observatories, or a combination). Active research programs in observations and theory are being carried out in a variety of areas, including astrophysics and extrasolar planets, interplanetary dust and comets, stellar atmospheres and interiors, stellar evolution and populations, interacting binary stars and compact objects, interstellar matter and nebulae, computational astrophysics and data mining, galaxies and quasars, large scale structure and cosmology, and dark matter and energy.

## Doctor of Philosophy

### Admission Requirements

Most, though not all, entering students have a bachelor's degree in physics. Entering students are not required to have a background in astronomy, although some knowledge of general astronomy is expected of those to whom a teaching assistantship is offered. Undergraduates interested in a graduate program in astronomy are urged to concentrate on preparation in physics and mathematics before entering.

Visit [www.astro.washington.edu/grad](http://www.astro.washington.edu/grad) for details on admission requirements. Most application material is submitted through the Graduate School online application.

- Online Application for Graduate Admission (AGA) form of the UW Graduate School
- Application fee
- A copy of the AGA to the Astronomy Department
- Résumé
- "Statement of Goals and Achievements." This one-page, typed essay must address the reasons why the applicant wishes to pursue a graduate program in astronomy.
- Transcripts from all previous colleges and academic programs
- Graduate Record Examination (GRE) scores, both general and in the physics subject test, sent from the testing service
- Three letters of recommendation submitted online before the application deadline by the recommender
- For international applicants, see Graduate School requirements website at [grad.washington.edu/admissions/international.shtml](http://grad.washington.edu/admissions/international.shtml).

### Degree Requirements

90 credits minimum, to include the following:

Typically PhD students take formal courses during their first two years at the UW while at the same time sampling research projects with various faculty. The department offers a full set of graduate astronomy courses covering every major research area in astrophysics. Areas covered include planetary astronomy, stellar interiors and atmospheres, interstellar medium, galaxies, dynamics, cosmology, physical processes, observational astronomy, and a variety of special topics. Even in their first year, students are encouraged to embark on faculty-supervised research programs so they can make informed decisions about a thesis topic and a professional research career.

**Core Curriculum:** Each quarter of their first two years, students usually take at least two graduate-level core courses in astronomy, along with a third course emphasizing additional physical or mathematical science study or astronomical research. Typical core courses include ASTR 507, ASTR 519, ASTR 521, ASTR 531, ASTR 557, ASTR 561 in one year, and ASTR 508, ASTR 509, ASTR 511, ASTR 512, ASTR 513, ASTR 541, in the alternate year, along with ASTR 500 and ASTR 581 (latter two often offered annually).

Students must pass two examinations, the qualifying examination and the general examination, before being admitted to PhD candidacy. The qualifying examination, a written examination covering general knowledge, must be passed by the end of the third year of matriculation. The general examination is an oral examination on a topic related to a student's proposed PhD research topic. Students embark on their PhD research program after passing the general examination, typically in their third or fourth year at UW. Most students complete their PhD thesis and defense two to three years later.

A Master of Science degree is offered but the department is not currently accepting students for a master's-only program. Students typically earn the master's degree as part of the PhD program. The departmental requirements for a master's degree are either (1) adequate performance on the qualifying exam or (2) an approved and supervised master's thesis.

### Assistantships

Normally all students making satisfactory academic progress receive financial support. More than three-quarters of the department's graduate students hold fellowships or research assistantships. A number of teaching assistantships are available, primarily in the elementary astronomy courses.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/).

**ASTR 101 Astronomy (5) NW, QSR** Introduction to the universe, with emphasis on conceptual, as contrasted with mathematical, comprehension. Modern theories, observations; ideas concerning nature, evolution of galaxies; quasars, stars, black holes, planets, solar system. Not open for credit to students who have taken 102 or 301; not open to upper-division students majoring in physical sciences or engineering.

**ASTR 102 Introduction to Astronomy (5) NW, QSR** Emphasis on mathematical and physical comprehension of nature, the sun, stars, galaxies, and cosmology. Designed for students who have had algebra and trigonometry and high school or introductory level college physics. Cannot be taken for credit in combination with ASTR 101 or ASTR 301.

**ASTR 105 Exploring the Moon (5) NW Smith** Examines the questions why did we go to the moon, what did we learn, and why do we want to go back.

**ASTR 115 Astrobiology: Life in the Universe (5) NW** Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with AST-BIO/ESS/OCEAN 115/BIOL 114.

**ASTR 150 The Planets (5) NW, QSR** For liberal arts and beginning science students. Survey of the planets of the solar system, with emphases on recent space exploration of the planets and on the comparative evolution of the Earth and the other planets.

**ASTR 190 Modern Topics in Astronomy for Non-Science Majors (3/5, max. 10) NW** Topics of current interest, such as origin of chemical elements, novae and supernovae, white dwarfs, neutron stars, black holes, active galaxies, quasars, or interstellar medium and astrochemistry. Choice of topics depends on instructor and class interest. Prerequisite: either one 100- or one 200-level ASTR course.

**ASTR 192 Pre-Major in Astronomy Research Seminar (3) NW** Introduction to astronomical computing and research methods for students interested in Astronomy and in the Pre-Major in Astronomy Program. Co-requisite: ASTR 102. Offered: A.

**ASTR 201 The Universe and the Origin of Life (5) NW, QSR** Sequel to 101 or 102, emphasizing modern views of the atomic and molecular evolution of the universe from the initial "big bang" through the formation of the solar system and the emergence of biological forms on the earth. The latter part of the course considers questions about the existence of, and communication with, extraterrestrial intelligent life, and finally the ultimate fate of the cosmos.

**ASTR 210 Distance and Time: Size and Age in the Universe (5) NW, QSR** Space and time as basic concepts in physical science. How we define and measure them, how the concepts have developed over the centuries, and how modern measurements allow us to determine the size and age of the universe.

**ASTR 211 The Universe and Change (5) NW, QSR** Gravity as central to the form and evolution of the universe. Conceptual formulation of gravity from the Renaissance to Einstein. Its consequences from the falling of an apple to the slowing of the expansion of the universe.

**ASTR 270 Public Outreach in Astronomy (3) NW/VLPA** Emphasis is on giving effective scientific presentations, developing and giving educational programs to school-age groups, and communicating your knowledge of astronomy to others. Give talks at the Jacobsen Observatory on campus and presentations in the Astronomy Department's planetarium. Learn to operate a telescope and the planetarium equipment. Prerequisite: one astronomy course at either the 100-, 200-, or 300-level.

**ASTR 300 Introduction to Programming for Astronomical Applications (2) QSR** *Smith* Introduction to programming needed for astronomical applications: Linux operating systems, PERL, IDL. Recommended for astronomy majors planning to take 400-level astronomy courses, to pursue individual research projects, or to apply for research experience for undergraduate appointments. Prerequisite: PHYS 121 which may be taken concurrently. Offered: W.

**ASTR 301 Astronomy for Scientists and Engineers (3) NW** Introduction to astronomy for students in the physical sciences or engineering. Topics similar to 101, but the approach uses more mathematics and physics. Prerequisite: PHYS 123.

**ASTR 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW** Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with HIST 313.

**ASTR 321 The Solar System (3) NW** Solar system; planetary atmospheres, surfaces and interiors, the moon, comets. The solar wind and interplanetary medium. Formation of the solar system. Prerequisite: PHYS 224 which may be taken concurrently. Offered: A.

**ASTR 322 The Contents of Our Galaxy (3) NW** Introduction to astronomy. Basic properties of stars, stellar systems, interstellar dust and gas, and the structure of our galaxy. Prerequisite: PHYS 225 which may be taken concurrently; recommended: PHYS 224 which may be taken concurrently. Offered: W.

**ASTR 323 Extragalactic Astronomy and Cosmology (3) NW** Galaxies, optical and radio morphology and properties. Clusters of galaxies, radio sources, and quasars. Observational cosmology. Prerequisite: ASTR 322 which may be taken concurrently. Offered: Sp.

**ASTR 400 Undergraduate Research Seminar (1)** Introduces research topics conducted by astronomy faculty. Each week a faculty member describes their current research and the opportunities available for interested majors to participate in the research. Credit/no credit only.

**ASTR 421 Stellar Observations and Theory (3) NW** Observations and theory of the atmospheres, chemical composition, internal structure, energy sources, and evolutionary history of stars. Prerequisite: ASTR 322.

**ASTR 423 High-Energy Astrophysics (3) NW** High-energy phenomena in the universe. Includes supernova, pulsars, neutron stars, x-ray and gamma-ray sources, black holes, cosmic rays, quasi stellar objects, active galactic nuclei, diffuse background radiations. Radiative emission, absorption processes, and models derived from observational data. Prerequisite: PHYS 224; PHYS 225.

**ASTR 425 Cosmology (3) NW, QSR** *Agol, Connolly, Quinn* Studies the universe as a whole. Overview of fundamental observations of cosmology and an introduction to general relativity. Examines theories of the past and future history of the universe, the nature of dark matter and dark energy, and the origin of ordinary matter on the large-scale structure. Prerequisite: PHYS 224; PHYS 225. Offered: W.

**ASTR 427 Methods of Computational Astrophysics (3) NW** *Quinn* Provides hands-on experiences in writing computer programs to solve astrophysics problems. Topics include: interpolation and extrapolation, integration, ordinary, differential equations, root finding, optimization, linear algebra, Monte-Carlo partial differential equations, and parallel techniques.

**ASTR 480 Introduction to Astronomical Data Analysis (5) NW** Hands-on experience with electronic imaging devices (CCDs) and software for image reduction and analysis. Introduction to operating systems, reduction software, and statistical analysis with applications to CCD photometry. Prerequisite: ASTR 300; ASTR 323, which may be taken concurrently. Offered: Sp.

**ASTR 481 Introduction to Astronomical Observation (5) NW** Theory and practice of obtaining optical data at a telescope.

Preparation, obtaining data with a CCD on a telescope, and subsequent data analysis for completion of a research project. Prerequisite: ASTR 480. Offered: S.

**ASTR 482 Writing Scientific Papers (2)** *Szkody* Principles of organizing, developing, and writing resumes, scientific research papers for journals and astronomy articles for general public interest. Prerequisite: ASTR 481, ASTR 499, PHYS 491, PHYS 492, or PHYS 493, any of which may be taken concurrently. Offered: A.

**ASTR 497 Topics in Current Astronomy (1–3, max. 9) NW** Recent developments in one field of astronomy or astrophysics.

**ASTR 498 Independent Study (1–3, max. 15)** Astronomy-related projects supervised by a faculty member. Projects may be hardware, software, or library work in preparation for conducting astronomical research. Credit/no credit only.

**ASTR 499 Undergraduate Research (\*, max. 15)** Special astronomical problems and observational projects, by arrangement with instructor.

**ASTR 500 Practical Methods for Teaching Astronomy (1–3)** Seminar in the preparation of lecture and workshop materials with emphasis on demonstration, visual aids, and the evaluation of students' progress. Credit/no credit only.

**ASTR 507 Physical Foundations of Astrophysics I (3)** Thermodynamics from an astronomer's point of view: black body radiation, basic radiative transfer, equation of state, degenerate gases, crystallization at high density.

**ASTR 508 Physical Foundations of Astrophysics II (3)** Introduction to astronomical hydrodynamics and magnetohydrodynamics, basic theorems and application to stellar and interstellar magnetic fields. Introduction to plasma physics and waves in a plasma.

**ASTR 509 Physical Foundations of Astrophysics III (3)** Potential theory as applied to astrophysical systems. Orbits. Integrals of motion. Equilibrium and stability of stellar systems. Encounters of stellar systems. Kinetic theory of collisional systems. Applications of stellar dynamics to star clusters, galaxies, and large-scale structure.

**ASTR 510 Nuclear Astrophysics (3)** Big bang nucleosynthesis; nuclear reactions in stars; solar neutrinos and neutrino oscillations; core-collapse supernovae; nucleosynthesis in stars, novae, and supernovae; neutron stars; composition and sources of cosmic rays; gamma ray bursts; atmospheric neutrinos. Offered: jointly with PHYS 554; A.

**ASTR 511 Galactic Structure (3)** Kinematics, dynamics, and contents of the galaxy. Spiral structure. Structure and evolution of galaxies.

**ASTR 512 Extragalactic Astronomy (3)** Types of galaxies. Integrated properties, content, and dynamics. Extragalactic distance scale, groups and clusters. Radio sources. Observational cosmology.

**ASTR 513 Cosmology and Particle Astrophysics (3)** Big bang cosmology; relativistic world models and classical tests; background radiation; cosmological implications of nucleosynthesis; baryogenesis; inflation; galaxy and large-scale structure formation; quasars; intergalactic medium; dark matter.

**ASTR 519 Radiative Processes in Astrophysics (3)** Theory and applications of astrophysical radiation processes: transfer theory; thermal radiation; theory of radiation fields and radiation from moving charges; bremsstrahlung; synchrotron; Compton scattering; plasma effects.

**ASTR 521 Stellar Atmospheres (3)** Theory of continuous radiation and spectral line formation. Applications to the sun and stars. Prerequisite: PHYS 421 or equivalent.

**ASTR 531 Stellar Interiors (4)** Physical laws governing the temperature, pressure, and mass distribution in stars. Equation of state, opacity, nuclear energy generation, computational methods. Models of main sequence stars and star formation. Prerequisite: PHYS 421 or equivalent.

**ASTR 532 Stellar Evolution (3)** Theoretical and observational approaches to stellar evolution. Structure of red giants, supernovae, and white dwarfs. Observations of star clusters

and the chemical composition of stars as they relate to the theory of stellar structure. Prerequisite: ASTR 531.

**ASTR 541 Interstellar Matter (3)** Physical conditions and motions of neutral and ionized gas in interstellar space. Interstellar dust, magnetic fields, formation of grains, clouds, and stars. Prerequisite: modern physics or permission of instructor.

**ASTR 555 Planetary Atmospheres (3)** Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar system objects in the context of comparative planetology. Offered: jointly with ATM S 555/ESS 581.

**ASTR 556 Planetary Surfaces (3)** Comparison of surface processes and conditions on Mercury, Venus, Earth, moon, Mars, asteroids, and satellites of the great planets. Emphasis on understanding how and why planetary surfaces differ from one another and the implied course of solar-system evolution. Analysis of data from Earth-based telescopes and manned and unmanned space missions.

**ASTR 557 Origin of the Solar System (3)** Nebular and non-nebular theories of the solar system origin; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; physical and chemical evidence upon which the ideas concerning the origin of the solar system are based. Offered: jointly with ESS 583.

**ASTR 561 High Energy Astrophysics (3)** Observed properties of supernovae, x-ray stars, radio sources, quasars. Theories explaining such objects. Origin of cosmic rays.

**ASTR 575 Seminar in Astronomy (1–2, max. 20)** Discussion of recent research in astronomy and astrophysics. Credit/no credit only. Prerequisite: permission of department.

**ASTR 576 Astronomy Colloquium (1, max. 20)** Current research topics in astronomy and astrophysics. Credit/no credit only. Prerequisite: permission of department.

**ASTR 581 Techniques in Optical Astronomy (5)** Theory and practice of obtaining optical data. Astronomical photoelectric photometers, spectrographs, interferometers, CCDs, and infrared equipment. Data-reduction techniques with emphasis on statistical analysis using digital computers. Observations with MRO thirty-inch telescope.

**ASTR 597 Topics in Observational Astrophysics (1–5, max. 20)**

**ASTR 598 Topics in Theoretical Astrophysics (1–5, max. 20)**

**ASTR 599 Advanced Astronomy Seminar (1–3, max. 6)** Practical exercises in astrophysics. Emphasis on methods and techniques of simulation, acquisition, evaluation, and analysis of observational data and its interpretation using models of astrophysical systems. Prerequisite: permission of instructor.

**ASTR 600 Independent Study or Research (\*)**

**ASTR 700 Master's Thesis (\*)**

**ASTR 800 Doctoral Dissertation (\*)**

## Biology

### DEPARTMENT OVERVIEW

106 Kincaid

Biology is the broadly based study of living organisms and has become an increasingly dynamic and wide-ranging discipline. It may be approached by focus on cell and molecular processes, development, organismal physiology and morphology, natural history, evolution, conservation, or ecology. The aim is to elucidate general principles applicable to many different sorts of organisms rather than to

concentrate on any particular taxonomic group. Biology is often interdisciplinary in nature and may involve aspects of biochemistry, botany, genetics, microbiology, zoology, and many other natural sciences.

## UNDERGRADUATE PROGRAM

### Adviser

318 Hitchcock, Box 355320

206-543-9120

[bioladv@uw.edu](mailto:bioladv@uw.edu)

The Department of Biology offers the following programs of study:

- The Bachelor of Arts degree with a major in biology.
- The Bachelor of Science degree with a major in biology. Students choose one of the following options: ecology, evolution, and conservation; general; molecular, cellular, and development; physiology; and plant.
- A minor in paleobiology.

Designed for students desiring breadth of training, the Bachelor of Arts program does not require physics. Students do not select an emphasis, and hence have greater flexibility in upper division biology electives. An ideal degree for students wishing to double major in arts or humanities and in biology or who wish to design their own degree program.

The Bachelor of Science options are as follows:

- *Ecology, Evolution, and Conservation.* Emphasizes ecological and evolutionary processes and conservation biology. Relates these areas to systematics, the distribution and abundance of organisms, and environmental policy. Prepares students for graduate study in ecology and evolution, for professional schools that seek individuals with strong system-level approaches to problem solving, and for careers in natural resources and conservation.
- *General.* Emphasizes breadth of training in biology. This is the most flexible program and offers a greater variety of advanced electives than other options. Attractive to students desiring K-12 teaching credentials or who otherwise wish to tailor their degree to their needs.
- *Molecular, Cellular, and Development.* Designed for students who wish to pursue graduate studies in genetics, biochemistry, microbiology, cell biology, or developmental biology, as well as for candidates for professional schools such as medicine and dentistry.
- *Physiology.* Emphasizes physiological processes from the cellular to the organismal levels, and across all groups of organisms. An attractive option for students interested in graduate and professional fields in animal and human physiology, medicine, and veterinary sciences.
- *Plant.* Offers students both breadth and depth of training in the field of botany. Ideal for students desiring to enter graduate programs in botany or for those wishing to pursue careers in the plant biology or horticultural fields in state and federal agencies.

Each of the above bachelor's degree programs in the biological sciences can be combined with Washington State requirements to prepare students to teach biology in public schools at the secondary level. See the Biology Teaching Program adviser for specific requirements.

## Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Same as for the Bachelor of Science degree as described below, except no physics or third quarter of organic chemistry is required.

### Department Admission Requirements

Same as for the Bachelor of Science degree as described below.

### Major Requirements

90 credits as follows:

- Introductory biology, three to six quarters of chemistry, and mathematics are the same as required by the B.S., listed below. However, physics is not required and the remaining 36 upper-division elective credits may be chosen from any biology course or any courses on the electives lists from the six options for the BS degree.
- *Additional Degree Requirements.*
  - A minimum of 15 credits of 400-level biology electives must be taken at the UW.
  - Minimum GPA requirements are the same as for a B.S.

## Bachelor of Science

*Suggested First- and Second-Year Courses:* Students should concentrate on general chemistry and mathematics the first year, biology and organic chemistry the second year (see major requirements for specific courses). Transfer students: complete an entire sequence at one school if possible. It is not necessary, or even desirable, to complete the Areas of Knowledge requirement during the first two years.

### Department Admission Requirements

BIOL 180 with a minimum grade of 2.5; or BIOL 180, BIOL 200, BIOL 220 (or full transfer equivalent) with a cumulative GPA of 2.00 for the three courses. CHEM 142, CHEM 152, or equivalent. A minimum cumulative GPA of 2.00 is required for all courses which would apply toward major requirements (this includes all applicable chemistry, physics, mathematics, quantitative science, and introductory biological science courses).

### Major Requirements

90 credits as follows:

- For all options the following basic coursework is required:
  - A one year sequence of introductory biology for majors (BIOL 180, BIOL 200, BIOL 220)
  - Three to six quarters of chemistry, covering general and organic chemistry: CHEM 120, CHEM 220, and CHEM 221; or CHEM 142, CHEM 152, CHEM 223, and CHEM 224; or CHEM 142, CHEM 152, CHEM 162\* and CHEM 237, CHEM 238, and CHEM 239
  - Two quarters of mathematics (calculus or statistics): MATH 124 and MATH 125, or MATH 144 and MATH 145, or Q SCI 291 and Q SCI 292, or Q SCI 381 (or STAT 311) and Q SCI 482
  - Two quarters of physics: PHYS 114 and PHYS 115, or PHYS 121 and PHYS 122
  - GENOME 371
  - Natural history/biodiversity: one course selected from approved list (3 credits)
  - *Option Requirement:* 300- and 400-level courses selected from lists specific to each option. See department website for additional information. (34 credits)

\* CHEM 162 is not required for this degree; however, CHEM 237, CHEM 238, and CHEM 239 are required by many professional programs and graduate schools, and that sequence does require CHEM 162.

- *Additional Degree Requirements:*
  - A minimum cumulative GPA of 2.00 for all UW courses applied toward major requirements, including required supporting courses (chemistry, physics, mathematics), introductory biology, and upper-division

coursework. (A grade of 2.0 is not required in individual courses.)

- A minimum of 15 credits of 400-level biology electives must be taken at the UW.
- Two 300- or 400-level laboratory courses

Because of the differing specific requirements and choices for each option, it is extremely important for students to work closely with the Biology departmental advisers to insure completion of these 22-25 credits.

## Minor

### Paleobiology

Minimum 30 credits, as follows:

- BIOL 354 (3 credits)
- Two of BIOL 443, BIOL 447, BIOL 450/ESS 452, BIOL 451/ESS 451 (8-10 credits)
- One of ESS 100, ESS 104, ESS 115, or ESS 213 (2-5 credits)
- One of ESS 313, ESS 450, ESS 455, or ESS 456 (3-5 credits)
- One of BIO A 388 or ARCHY 470 (5 credits)
- BIOL 483 (1-3 credits)
- Remaining credits from any of the above or BIO A 389, BIO A 491, or adviser-approved elective.
- Minimum 2.00 cumulative GPA for courses presented for the minor.
- Minimum 18 credits from outside the student's major.
- Minimum 15 credits completed at the UW.

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The department graduates between 350 and 400 students each year. Biology degrees are applicable to many different fields, depending upon student interests. Students in the program gain analytical and laboratory skills that prepare them for entry-level positions in a variety of biologically related areas, including, but not limited to, biotechnology, laboratory and/or field research support, health science support, wildlife biology, and ecology and conservation work with a variety of agencies, consulting firms, and research organizations in the northwest. Students may enter graduate programs that focus on some aspect of biological science (such as genetics, microbiology, immunology, ecology, environmental health, or cell and molecular biology), or enter a variety of professional programs, such as veterinary medicine, medicine, dentistry, pharmacy, laboratory medicine, and nursing.
- *Instructional and Research Facilities:* The Department of Biology occupies 128,000 square feet in Hitchcock, Johnson, and Kincaid Halls. Extensive research laboratories, teaching laboratories, computer workstations, and support services are found throughout the department.

Specialized facilities include more than 16,000 square feet of greenhouse, seawater facilities, growth rooms, electron microscopes, and other specialized equipment. Undergraduates have access to most of these facilities, especially those engaged in undergraduate research.

Off campus, the internationally recognized Marine Research Station, Friday Harbor Laboratories, provides many opportunities for undergraduates, from courses to research apprenticeships.

- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- **Research, Internships, and Service Learning:** Biology faculty welcome undergraduates into their research programs, often working closely with them. Approximately 40% of the 900 undergraduate Biology majors finish with undergraduate research experience. UW proximity to such Seattle area organizations as the Fred Hutchinson Cancer Research Center, Swedish Hospital, numerous biotech companies, NOAA, National Marine Fisheries Research Center, the Seattle Aquarium, and the Woodland Park Zoo, as well as the close ties of Biology faculty to Friday Harbor Laboratories, the faculty in the College of Forest Resources, and the College of Ocean and Fishery Sciences provide opportunities for biology majors to develop internships within these organizations. See adviser for ways to get credit for such experiences.
- **Department Scholarships:** Several scholarships are available, in a few cases to biology majors only. Most of these support students wishing to pursue an undergraduate research experience. They are competitive, sometimes highly so. They include:
  - **Howard Hughes Undergraduate Research Internship:** approximately 20 per year for freshmen and 20 per year for juniors and seniors.
  - **Friday Harbor Laboratory (FHL) Apprenticeships:** \$3,000 for one quarter, spring or autumn.
  - **Mary Gates Scholarships:** very competitive, across all science disciplines.
  - **Herschel and Caryl Roman Scholarship:** \$2,500-\$5,000 annually to one or two students who have an interest in genetics research.
  - **Porath/Johnson Endowed Scholarship:** one-year, \$5,000 scholarship to an outstanding biology major.

For qualifications, deadlines, and other details, see adviser or consult the Department of Biology website.

- **Student Organizations/Associations:** Beta Beta Beta Biology Honor Society, [tribeta@uw.edu](mailto:tribeta@uw.edu); Pre Med Society (Alpha Epsilon Delta), [aed@uw.edu](mailto:aed@uw.edu).

## GRADUATE PROGRAM

### Graduate Program Coordinator

106 Kincaid Hall, Box 351800

206-685-8240

[biolgrad@u.washington.edu](mailto:biolgrad@u.washington.edu)

## Doctor of Philosophy

### Admission Requirements

- Satisfy UW Graduate School requirements as shown at [www.grad.washington.edu/students/index.shtml](http://www.grad.washington.edu/students/index.shtml)
- Have or obtain an academic background equivalent to that required of students receiving a B.S. degree from the department [www.biology.washington.edu](http://www.biology.washington.edu). Assessment of background and requirements for any remedial work is made in the student's meeting with a temporary guiding committee just prior to the beginning of autumn quarter, in the student's first year of residence. The committee develops a list of required actions to correct any perceived deficiencies and recommends courses likely to be of value to the student in the first year or two of study.

### Degree Requirements

- Request appointment of a Supervisory Committee no later than autumn quarter of the second year in residence. Meet at least once annually with the Supervisory Committee.
- Upon completion of 18 graded credits and 60 regular credits of coursework, schedule the general examination, which consists of a written research proposal fol-

lowed by an oral examination, taken no later than spring quarter of the second year in residence. Successful completion makes the student a candidate for the PhD degree.

- Hold an appointment as a teaching assistant (TA) for at least three quarters while in residence.
- Request appointment of a dissertation reading committee at the beginning of the quarter of anticipated graduation. The committee consists of three members of the student's supervisory committee.
- Successfully defend the doctoral dissertation at the final examination. After completion of 27 dissertation credits, the student is ready to take the final examination, devoted to the subject of the dissertation. The format of the examination is a public seminar.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

The courses in biology listed below are administered by several departments. Other courses in biology are listed under such headings as Biochemistry, Biological Structure, and Microbiology.

**BIOL 100 Introductory Biology (5) NW** Develops an awareness of science by studying basic biological principles and their application to problems of humans and society in the contexts of special topics or themes, which vary quarter to quarter. For non-science majors only.

**BIOL 104 Biology for Elementary School Teachers (5) NW** *Buttner* Basic concepts of biology, with emphasis on background needed for confident use of the new science curriculum materials in the elementary school. Offered: AW.

**BIOL 106 Introductory Biology Seminar (1/3, max 6) NW** Focuses on current topics in biology. Topics vary from quarter to quarter. Designed to enhance learning skills of students who intend to take BIOL 180/200/220 and major in one of the biological sciences. Intended for HHMI Fellows. Recommended: high school chemistry and biology, or one quarter of college chemistry.

**BIOL 108 Evolution and Human Behavior (3) NW** Introduction to evolution by natural selection, examining the light it can throw on human biology and behavior in such areas as the nature of sex differences, sexual conflict, and conflict between parents and children. Does not fulfill major requirements. Offered: jointly with BIO A 100.

**BIOL 110 Freshman Discovery Seminar in Biology (5) NW** Introduces incoming freshman to research basics and scholarly inquiry skills used in the study of biology.

**BIOL 113 Introduction to Biosciences (1-3, max. 6) NW** Independent study/topics related to material taken in BIOL 180, BIOL 200, and BIOL 220. Credit/no credit only. Offered: AWP

**BIOL 114 Astrobiology: Life in the Universe (5) NW** Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with ASTR/ASTBIO/ESS/OCEAN 115.

**BIOL 118 Survey of Physiology (5) NW** *Bilgen, Petersen* Human physiology, for nonmajors and health sciences students. Offered: AWPSp.

**BIOL 119 Elementary Physiology Laboratory (1) NW** Prerequisite: BIOL 118 which may be taken concurrently. Offered: AWPSp.

**BIOL 120 Current Controversies in Biology (2-5, max. 6) NW** Explores a current controversial topic in biology, stressing information needed by the general public to make informed personal, political, and ethical decisions relating to this topic.

**BIOL 179 Learning to Learn in the Sciences (2)** Explores how to learn in the sciences. Develops various learning strategies, study skills, and personalized study plans to meet the new challenges of the BIOL 180 series through weekly in-class workshops and organized study sessions. Credit/no credit only. Corequisite: BIOL 180.

**BIOL 180 Introductory Biology (5) NW** Mendelian genetics, evolution, biodiversity of life forms, ecology, and conservation biology. Open to all students interested in biology whether intending to major in the biological sciences, enroll in preprofessional programs, or fulfill a Natural World requirement. First course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220). Offered: AWPSp.

**BIOL 200 Introductory Biology (5) NW** For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Metabolism and energetics, structure and function of biomolecules, cell structure and function, animal development. Second course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220). Prerequisite: 1.5 in BIOL 180; either CHEM 152, CHEM 154, CHEM 155, CHEM 220, CHEM 223, or CHEM 237. Offered: AWPSp.

**BIOL 220 Introductory Biology (5) NW** For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Animal physiology, plant development and physiology. Final course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220). Prerequisite: 1.5 in BIOL 200. Offered: AWPSp.

**BIOL 240 The Urban Farm (3) NW** *Ruesink* Develops students' understanding of the ecological connections between food production, human health, and planetary sustainability. Teaches basic skills needed for food production in urban areas and the ethics behind sustainable urban agriculture, including a hands-on component on the farm at the biology greenhouse. Offered: Sp.

**BIOL 250 Marine Biology (3/5, max. 5) I&S, NW** Lecture-laboratory course in Marine Biology focusing on physical, biological, and social aspects of the marine environment. Topics include oceanography, ecology, physiology, behavior, conservation, fisheries, exploration, and activism. Evening marine biology movies and weekend field trip. Honors section research project. Offered: jointly with FISH/OCEAN 250.

**BIOL 293 Study Abroad—Biology (1-10, max. 10) NW** For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements without approval.

**BIOL 302 Laboratory Techniques in Cell and Molecular Biology (4) NW** *Martin-Morris* Explores the use of various cell and molecular laboratory techniques, such as PCR, cloning, gel electrophoresis, and bacterial transformation through hands-on experiments. Students produce a portfolio of techniques they have learned. Writing credit. Prerequisite: either BIOL 355 or a minimum grade of 2.5 in BIOL 200

**BIOL 311 Biology of Fishes (3/5) NW** Lecture and laboratory, of the morphological, physiological, behavioral, and ecological diversity of fishes of the world; designed to provide a basic foundation for advanced courses in all areas of finfish fisheries. 3-credit option does not include laboratory. Recommended: 10 credits biological science. Offered: jointly with FISH 311; W.

**BIOL 317 Plant Classification and Identification (5) NW** *Olmstead* Classification and diversity of seed plants; concepts and principles of classification, lab and field study of common plant families in Washington, and skill development for identification of species. One weekend field trip. Offered: SpS.

**BIOL 330 Natural History of Marine Invertebrates (5) NW** Field and laboratory course emphasizing the habits, habitats, adaptations, and interrelationships of marine animals. Weekend field trips required. Offered: S.

**BIOL 331 Landscape Plant Recognition (3) NW** Field recognition of important groups of woody landscape plants, emphasizing diversity at the genus and family levels. Cultivated plant nomenclature. Plant descriptive characters evident in the field with eye and hand lens. Hardiness and landscape

applications. Recommended: either BIOL 117 or BOTANY 113. Offered: jointly with ESRM 331; Sp.

**BIOL 340 Genetics and Molecular Ecology (5) NW** Application of molecular markers to ecology, evolution, and the management of living resources. Emphasis on understanding the strengths and weaknesses of the approach based on case studies. Offered: jointly with FISH 340. Prerequisite: either BIOL 162 or BIOL 200.

**BIOL 350 Foundations in Physiology (3) NW** Physiology core course for biological sciences majors. Analysis of basic principles of animal and plant physiology, with emphasis on cellular processes that mediate organismic processes. Serves as gateway to upper-division courses in physiology. Prerequisite: BIOL 220; recommended: either PHYS 115 or PHYS 122. Offered: AWSpS.

**BIOL 354 Foundations in Evolution and Systematics (3) NW** Evolution and systematics core course for biological sciences majors. Emphasizes patterns, processes, and consequences of evolutionary change. Serves as gateway to 400-level courses and seminars in evolution, population genetics, sociobiology, conservation biology, phylogenetics, and systematics. Prerequisite: either BIOL 180 or BIO A 201. Offered: WSp.

**BIOL 355 Foundations in Molecular Cell Biology (3) NW** Cell biology core course for biological sciences majors. Emphasis on molecular approaches to understand cell structure, function, and regulation, and the analysis of experimental design and data interpretation. Serves as a prerequisite to advanced 400-level cell, molecular, and developmental biology courses and seminars. Prerequisite: BIOL 200. Offered: AWSpS.

**BIOL 356 Foundations in Ecology (3) NW** Ecology core course for biological sciences majors. Emphasizes understanding species interactions in biological communities and relationships of communities to environment. Serves as a prerequisite to 400-level courses and senior seminars in ecology, population and conservation biology. Prerequisite: BIOL 180. Offered: AW.

**BIOL 390 Undergraduate Internship Seminar (1) NW** Crowe Weekly workshop to prepare students for off-campus research internships. Prerequisite: BIOL 220.

**BIOL 396 Peer Facilitation—Teaching in Biology (1–2, max. 4) NW** Martin-Morris For students concurrently serving as peer facilitators in biology courses. Students received instruction in teaching as well as supplemental information on material they teach others. Credit no credit only. Prerequisite: either BIOL 100 or BIOL 180.

**BIOL 399 Biology Internship Program (2–5, max. 15) NW** Crowe Coordinated internship in a biology-related field. Allows a structured, real world biology work experiences off-campus. All internships must be approved by instructor. Credit/no credit only. Offered: AWSpS.

**BIOL 401 Advanced Cell Biology (3) NW** Selected topics in molecular cell biology. Strong emphasis on reading and interpreting primary research literature. Writing intensive course. Prerequisite: BIOL 355; either BIOC 405, BIOC 440, or GENOME 371.

**BIOL 402 Cell Biology Laboratory (4) NW** Investigative projects using modern molecular methods (restriction enzyme digestion, blotting, hybridization, immunochemistry, density gradient centrifugation, electrophoresis) and other methods currently used to study plant and animal cells, nucleic acids, and proteins. Includes practice in scientific style writing. Prerequisite: BIOL 401, which may be taken concurrently. Offered: AWSp.

**BIOL 404 Animal Physiology: Cellular Aspects (3) NW** de la Iglesia Examines the physiology of membrane transport, nervous signaling, sensory systems, behavioral modulation, muscle, neuronal and endocrine integration, and circadian rhythms. Emphasis on the cellular and tissue level. Prerequisite: BIOL 220; either CHEM 224 or CHEM 239; either PHYS 115 or PHYS 122. Offered: A.

**BIOL 405 Cellular and Molecular Biology of Human Disease (3) NW** Concepts of cellular and molecular biology as ap-

plied to human disease. Emphasis on current experimental approaches to investigate disease mechanisms and the contributions of model systems. Selected topics in cancer biology, viral induced disease, gene therapy. Prerequisite: GENOME 371; either BIOC 405, BIOC 440, BIOL 355, or BIOL 401.

**BIOL 406 Insect Behavior (4) NW** O'Donnell Explores complexity and diversity of behavior in insects and related invertebrate animals. Overview of important lineages of insects and major behavioral traits. Examines how insect biology both constrains behavior and provides evolutionary opportunities. Prerequisite: either 2.0 in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300. Offered: jointly with PSYCH 406.

**BIOL 408 Mechanisms of Animal Behavior (4) NW** Beecher, Brenowitz Comparative exploration of physiological and perceptual mechanisms that control behaviors necessary for survival and reproduction in animals. Model systems discussed include animal communication, mate choice, escape behavior, learning and memory, orientation, biological rhythms, foraging behavior. Prerequisite: either 2.0 in BIOL 180, or 3.5 in PSYCH 200, or 2.0 in PSYCH 300. Offered: jointly with PSYCH 408.

**BIOL 409 Sociobiology (5) NW** Biological bases of social behavior, emphasizing evolution as a paradigm. Emphasizes how to think like evolutionary biologist, especially with regard to interest conflict. Topics are individual versus group selection, kin selection, altruism, mating systems, sexual conflict, alternate reproductive strategies, and parent/offspring conflict. Prerequisite: either 3.5 in PSYCH 200, 2.0 in PSYCH 300, or 2.0 in BIOL 180. Offered: jointly with PSYCH 409.

**BIOL 411 Developmental Biology (4) NW** Embryology and subsequent development of vertebrate and invertebrate animals, including *Xenopus*, mammals, chicks, *Drosophila*, echinoderms. Morphological changes in developing animals; experimental analysis of developing systems; underlying genetic and biochemical regulation of development. Prerequisite: either BIOL 355, BIOL 401, or BIOC 442. Offered: AW.

**BIOL 412 Developmental Biology Lab (4) NW** Swalla Introduces the methods of studying developmental processes in embryos. Uses modern techniques to study cell lineages and gene expression in embryos. Presents and discusses comparative genomics and modeling gene networks in embryos. Practices scientific writing skills. Prerequisite: BIOL 411, which may be taken concurrently. Offered: W.

**BIOL 413 Methods and Problems in Development (3) NW** Schubiger Special topics in development. Integrating classical and current approaches. Developmental genetics, experimental embryology, molecular mechanisms of developmental regulation, and gene function in cell determination and cell differentiation in animal systems. Prerequisite: BIOL 411. Offered: irregularly.

**BIOL 414 Molecular Evolution (5) NW** Survey of empirical approaches to the study of molecular evolution and ecology, drawing on examples from a variety of taxa and the recent literature. Topics include DNA sequencing and systematics, fingerprinting approaches in behavioral ecology, and adaptive evolution at the molecular level. Prerequisite: BIOL 354. Offered: jointly with GENOME 414; alternate years.

**BIOL 415 Evolution and Development (3) NW** Parichy, Swalla Analysis of intertwined developmental and evolutionary processes studied through evolution of developmental genes, proteins, and expression patterns in different organisms. Includes reading and analyzing implications for ecology evolution, and human disease. Prerequisite: either BIOL 354, BIOL 355, or BIOC 442.

**BIOL 416 Molecular Genetics of Plant Development (3) NW** Torii Plant growth and development examined in molecular-genetic terms. Covers mutation, dominance, redundancy, epistasis, and key technologies for discovery of gene function as well as embryogenesis, meristem formation, flower development, and other problems in plant development. Prerequisite: BIOL 220, GENOME 371.

**BIOL 418 Biological Clocks and Rhythms (3) NW** de la Iglesia Examines circadian rhythms and other forms of biological rhythmicity, including annual and tidal rhythms. Includes theoretical background as well as aspects that range from the molecular and cellular basis to the ecological and evolutionary implications of biological rhythms. Prerequisite: BIOL 350 or BIOL 355.

**BIOL 424 Plant Eco-Physiology (5) NW** Ford Explores physiological mechanisms that underlie ecological observations, including how above- and below-ground microclimates develop and affect plant physiological processes. Discusses acclimation to environmental change along with species differences in physiological processes and plant's occupation of heterogeneous environments. Laboratories emphasize field measurement techniques. Prerequisite: either BIOL 162 or BIOL 220. Offered: jointly with ESRM 478; W.

**BIOL 425 Advanced Plant Physiology and Development (3) NW** Expanded coverage of plant growth, nutrition, metabolism, and development. Cannot be taken for credit if BIOL 325 already taken. Prerequisite: BIOL 220. Offered: W.

**BIOL 426 Plant Physiology Laboratory (3) NW** Expanded laboratory experiments on the growth, nutrition, metabolism, and development of plants. Cannot be taken for credit if BIOL 326 already taken. Prerequisite: BIOL 425, which may be taken concurrently. Offered: Sp.

**BIOL 427 Biomechanics (4) NW** Daniel Physical biology emphasizing a mechanical approach to ecological, evolutionary, and physiological questions. Basic principles underlying fluid and solid mechanics to explore responses of animals to flows, loads, and motions. Recommended: BIOL 220; either MATH 125 or Q SCI 292; either PHYS 114 or PHYS 121.

**BIOL 429 Models in Biology (4) NW** Explores use of models in biology in a wide range of topics, including morphogenesis, nerve signals, ecological interactions, population biology, and evolutionary theory. Emphasis on the biological insights models can provide rather than mathematical techniques. Prerequisite: either MATH 146, MATH 390, MATH 395, STAT 342, or STAT 391.

**BIOL 430 Marine Zoology (5) NW** Survey of groups of invertebrate animals represented in the San Juan Archipelago; natural history, functional morphology, ecology, distribution, habitat, adaptation, trophic interrelationships, and evolution. Permission of Director, Friday Harbor Laboratories required for registration. Recommended: 20 credits in biological sciences; corequisite: BIOL 445. Offered: at Friday Harbor Laboratories; Sp.

**BIOL 432 Marine Invertebrate Zoology (9) NW** Comparative morphology and biology of marine invertebrates with emphasis on field and laboratory studies. Representatives of all major and most minor phyla are collected, observed alive, and studied in detail. Not open for credit to students who have taken 433 or 434. Recommended: 20 credits in biological sciences. Offered: at Friday Harbor Laboratories; S.

**BIOL 433 Marine Ecology (5) NW** Ruesink Study of marine ecological processes such as recruitment, disturbance, competition, and predation, and their effects on the structure and diversity of marine communities. Weekend field trips to local intertidal habitats required. Prerequisite: either BIOL 356, BIOL 472, or a minimum grade of 3.4 in BIOL 180. Offered: Sp, odd years.

**BIOL 434 Invertebrate Zoology (5) NW** Comparative biology and morphology of invertebrates. Laboratory work emphasizes structures and functions. Emphasizes annelids and related worms, mollusks, and arthropods. Not open to students who have taken 430 or 432. Prerequisite: BIOL 220.

**BIOL 440 General Mycology (5) NW** Ammirati General survey of the fungi with emphasis on life cycles, structure, physiology, economic importance. Prerequisite: BIOL 180. Offered: W.

**BIOL 441 Morphology and Anatomy of Land Plants (5) NW** Comparative morphology and anatomy of land plants. Derivation of morphological structures and basis for current classification schemes examined using living and fossil organisms. Laboratories emphasize live plants native to the

Pacific Northwest. Prerequisite: BIOL 220; recommended BIOL 317. Offered: A.

**BIOL 442 Mushrooms and Related Fungi (5) NW** *Ammirati* General biology, ecology, and classification of mushrooms, polypores, puffballs, and other related basidiomycetes. Emphasis on Pacific Northwest species. Prerequisite: BIOL 220; recommended BIOL 440. Offered: S.

**BIOL 443 Evolution of Mammals and their Ancestors (5) NW** Highlights the evolutionary history and systematics of mammals and their ancestors. Examines fossil and modern mammal specimens from the Burke Museum collections. Required field trip. Prerequisite: either BIOL 354, BIOL 453, or ESS 100. Offered: Sp.

**BIOL 444 Natural History of Birds (5) NW** Field, lecture, and laboratory study of birds framed in biological theory rather than taxonomy. Breeding systems, brood parasitism, appearance, molt, migration, orientation, social behavior, song, and flight are emphasized. Includes Saturday and weekend field trips for which students are required to share a portion of transportation costs. Prerequisite: BIOL 220; recommend BIOL 350 or BIOL 356. Offered: irregularly.

**BIOL 445 Marine Botany (5) NW** Survey of plants represented in marine environments; natural history; ecology, distribution, habitat, adaptation, and trophic interrelationships. Prerequisite: BIOL 220; BIOL 430 which may be taken concurrently. Offered: at Friday Harbor Laboratories; Sp.

**BIOL 446 Biology of Algae (5) NW** *Cattolico, Waaland* Study of major algal groups emphasizing form, function, reproduction, distribution, biodiversity, and ecological roles in coastal, oceanic, and global ecosystems. Topics include classification, cellular and organismal features, phylogeny, and evolution of major algal groups. Emphasizes economically useful and ecologically important algae. Prerequisite: BIOL 180. Offered: Sp.

**BIOL 447 The Greening of the Earth: Influence of Plants on the Evolution of Terrestrial Ecosystems (3) NW** *Stromberg* Examines the evolution of terrestrial ecosystems focusing on how abiotic factors such as climate change have shaped the evolution of vegetation on earth, and how the evolution of vegetation has influenced the evolution of animals. Prerequisite: either BIOL 180 or ESS 450. Offered: A.

**BIOL 449 Applied Phylogenetics (3) NW** *Leache* Emphasizes the estimation of species trees - multilocus estimates of species or population relationships as opposed to genealogies of alleles. Provides students with the computation and bioinformatics skills needed to apply new phylogenetic techniques that can accommodate larger, more complex data sets. Prerequisite: BIOL 354.

**BIOL 450 Vertebrate Paleontology (5) NW** *Sidor* Examines fossil vertebrate life, focusing on systematics and morphology of major lineages (fish, reptiles, bird, and early mammal relatives). Examines fossil and modern vertebrates from the Burke Museum collection in the lab. Weekend field trip. Prerequisite: either BIOL 354, BIOL 452, BIOL 453 or ESS 100. Offered: jointly with ESS 452; A.

**BIOL 451 Invertebrate Paleontology (5) NW** *Ward* Important larger invertebrate groups; morphology, classification, stratigraphic distribution, evolution, paleoecology. Offered: jointly with ESS 451; W.

**BIOL 452 Vertebrate Biology (5) NW** The biology of vertebrate animals, emphasizing their diversity, adaptations, and evolutionary history. Introduces aspects of behavior, physiology, morphology, and ecology that emerge from the comparative study of vertebrates. Laboratory includes local field trips, films, and introduction to regional vertebrate fauna. Prerequisite: BIOL 180. Offered: SpS.

**BIOL 453 Comparative Anatomy of Vertebrates (5) NW** Comparison of the structure of vertebrate organ systems: integument, skeletal, muscle, digestive, respiratory, cardiovascular, urinary, and reproductive, with an emphasis on evolutionary trends. Prerequisite: either BIOL 350 or BIOL 452. Offered: W.

**BIOL 454 Entomology (3) NW** Biology of terrestrial arthropods, with emphasis on insects. Structure, classification,

physiology, and ecology of insects. Interrelationships of insects and man. Prerequisite: BIOL 180.

**BIOL 455 Entomology Laboratory (3) NW** Structure and function of arthropods, with emphasis on insects. Field studies and taxonomy of important insect groups. Students may be required to share a portion of the transportation costs of field trips. Prerequisite: BIOL 454 which may be taken concurrently. Offered: Sp.

**BIOL 456 Vegetation of Western Washington (5) NW** *del Moral* Vegetation of western Washington, including mature, seral, and weedy vegetation. Recognition of landscape patterns, sight identification of common and indicator species, classification of major community types, and uses of native species in landscape design. Four weekend field trips required. Prerequisite: BIOL 317.

**BIOL 457 Chemical Communication (3) NW** *Riffell* Exploration of how chemical signals are produced, transported, and influence behavior of microbes, plants, and animals. Synthetic approach, with emphasis on applications to cell biology, neurobiology, and ecology. Prerequisite: BIOL 350; PHYS 115; CHEM 224.

**BIOL 458 Behavioral Genetics (4) NW** *O'Donnell* Role of genetics in determining variation in human and animal behavior and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects, and gene expression. Prerequisite: either 3.5 in PSYCH 200, 2.0 in PSYCH 300, or 2.0 in BIOL 161, or 2.0 in BIOL 180. Offered: jointly with PSYCH 458.

**BIOL 459 Developmental Neurobiology (3) NW** *Bosma* Invertebrate and vertebrate examples illustrate the mechanisms used in constructing nervous systems. Focus on the cellular and molecular mechanisms that underlie questions about the basis of neuronal diversity, axonal pathfinding and target recognition, synaptogenesis, and activity-dependent plasticity. Prerequisite: BIOL 220. Offered: Sp.

**BIOL 460 Mammalian Physiology (3) NW** Principles of mammalian physiology with special emphasis on the cardiac, respiratory, renal systems taught at the organ and organ systems level. Prerequisite: BIOL 350 or NBIO 301.

**BIOL 461 Neurobiology (3) NW** *Bosma, Perkel* Broad examination of integrative mechanisms in central nervous system function, with emphasis on sensory processing, plasticity, and control of behavior. Examples are taken from a variety of animal groups. Prerequisite: BIOL 220; either PHYS 115 or PHYS 122. Offered: W.

**BIOL 462 Advanced Animal Physiology (3) NW** *Wenderoth* Physiology at levels of organisms and behavior, organ systems, and cells—an evolutionary and integrative perspective. Organismal physiology: metabolism, temperature, locomotion, osmoregulation, respiration, circulation, digestion. Prerequisite: BIOL 220; either BIOL 350, BIOL 460, or NBIO 301; either CHEM 152, CHEM 154, CHEM 155, CHEM 162, CHEM 164, CHEM 165, or CHEM 220; either PHYS 114 or PHYS 121. Offered: A.

**BIOL 463 Advanced Animal Physiology Lab (3) NW** *Huey, Wenderoth* Experimental design and techniques, data analysis, written reports. Original project labs and experiments in physiology. Prerequisite: BIOL 462, which may be taken concurrently. Offered: A.

**BIOL 464 Muscle Physiology and Movement (3)** Explores skeletal muscle structure and function. Topics include muscle fiber anatomy, contraction and the generation of movement, control of muscle force, spinal reflexes, energy sources, adaptations to exercise, and muscle diseases and rehabilitation. Prerequisite: BIOL 220; recommended: BIOL 350.

**BIOL 465 Comparative Endocrinology (3) NW** Hormonal integration of living processes at all levels in animals: molecules, cells, organs, organisms, populations. Prerequisite: BIOL 350.

**BIOL 467 Comparative Animal Biology (5) NW** Studies organismal function in an evolutionary context. Uses a variety of animals to highlight transitions in metabolism, muscle

function, respiration, circulation, digestion, excretion, and ion regulation. Prerequisite: BIOL 220. Offered: W.

**BIOL 468 Medical Physiology (3)** *Weigle* Students deepen their understanding of human physiology and pathophysiology by performing in-depth analyses of actual medical cases. Cases are chosen to illustrate the mechanisms of frequently encountered diseases and the clinical presentation of affected patients. Prerequisite: BIOL 220; BIOL 350.

**BIOL 469 Evolution and Medicine (3) NW** *Bergstrom* Responds to new applications of evolutionary biology in medicine, now being discovered at an accelerating rate. Emphasizes medically relevant aspects of evolutionary biology. Prerequisite: BIOL 180.

**BIOL 470 Biogeography (4) NW** Analysis of historical and ecological determinants of current and past distributions of organisms. Integrates techniques developed by taxonomists, paleontologists, geologists, evolutionists, ecologists, and biogeographers to elucidate relationships between geographical distributions and continental drift, ecological interactions, climate, and dispersal abilities of organisms. Recommended: one year college biology; background in ecology and evolution. Offered: irregularly.

**BIOL 471 Plant Ecology (5) NW** *del Moral* Basic concepts of plant ecology, including studies of the environment, plant-environment interactions, populations, communities, and ecosystems. Laboratory includes one weekend field trip, laboratory and greenhouse experiments, and an introduction to ecological problem solving. Prerequisite: BIOL 180. Offered: alternative years; Sp.

**BIOL 472 Community Ecology (5) NW** Covers the complexity of biological communities as influenced by biotic and abiotic factors, as well as the impact of human activities (like global warming) on communities. Prerequisite: BIOL 356.

**BIOL 473 Limnology (3) NW** *Schindler* Ecology, conservation and management of inland aquatic ecosystems. Explores interactions among biological, chemical and physical features of lakes and other aquatic habitats. Prerequisite: BIOL 180. Offered: jointly with FISH 473; A.

**BIOL 474 Limnology Laboratory (2) NW** *Schindler* Examination of biota of fresh waters, survey of limnological methods, analysis of data, and writing of scientific papers. Prerequisite: BIOL 473/FISH 473/CEE 462, which may be taken concurrently. Offered: jointly with FISH 474/CEE 463; A.

**BIOL 476 Conservation Biology (5) NW** *Boersma, Tewksbury* Explores biological, managerial, economic, and ethical concepts affecting survival of species. Applications of ecology, biogeography, population genetics, and social sciences for the preservation of species in the face of widespread global habitat modification, destruction, and other human activities. Prerequisite: BIOL 180.

**BIOL 477 Marine Conservation (3) NW** Terrestrially based concepts of conservation biology applied to marine systems. Human activities affecting the marine environment including fishing and pollution; influence of legal and cultural frameworks; and ecosystem management. Prerequisite: BIOL 180. Offered: irregularly.

**BIOL 478 Topics in Sustainable Fisheries (3, max. 9) I&S/ NW** *Parrish* Seminar series featuring local, national and internationally known speakers in fisheries management and conservation. Case studies. Conservation/restoration in practice. Pre-seminar discussion section focusing on select readings. Final paper. Topics may include harvest management, whaling, by-catch, salmon, marine protected areas, introduced species, citizen action, co-management, and marine ethics. Offered: jointly with ENVIR/FISH 478; odd years; W.

**BIOL 479 Research in Marine Biology (1-15, max. 15)** Individual research on topics in marine biology. Research projects supervised by an individual faculty member. Projects may include laboratory work, fieldwork, and literature surveys. Prerequisite: BIOL 250/FISH 250/OCEAN 250; Q SCI 381. Offered: jointly with FISH 479/OCEAN 479; AWSps.

**BIOL 480 Field Ecology (4) NW** *Boersma* Field projects examining ecological and behavioral topics such as foraging

and social behavior, species interactions, and structure of terrestrial and aquatic communities. Two weekend fieldtrips required. Prerequisite: either BIOL 356 or 3.0 in BIOL 180. Offered: Sp.

**BIOL 481 Experimental Evolutionary Ecology (5) NW Bradshaw, Kerr, Tewksbury** Explores experimentally approachable questions in ecology and evolution through lectures, lab, and field experiments. Topics may include evolution of bacterial antibiotic resistance, the evolution of virulence, seed predation, plant biodiversity, and others. Prerequisite: BIOL 180. Offered: A.

**BIOL 482 Advanced Experimental Evolutionary Ecology (2–5, max, 15) NW Bradshaw, Kerr, Tewksbury** Working in pairs or independently, students pursue supervised original field or lab research projects. Projects span three academic quarters, with project development beginning in autumn, research continuing in winter, and culminating in spring with production of a scientific paper. Prerequisite: BIOL 481, which may be taken concurrently. Offered: AWSp.

**BIOL 483 Senior Seminar in Paleobiology (1–3, max. 9)** Supervised readings and group discussion. Prerequisite: BIOL 354.

**BIOL 484 Senior Seminar in Evolution and Systematics (1–3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 354.

**BIOL 485 Senior Seminar in Cellular, Molecular and Developmental Biology (1–3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 355.

**BIOL 486 Senior Seminar in Ecology (1–3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 356.

**BIOL 487 Senior Seminar in Conservation Biology (1–3, max. 9) NW** Supervised readings and group discussion. Recommended: one upper division course in ecology or conservation biology.

**BIOL 488 Senior Seminar in Physiology (1–3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 350.

**BIOL 489 Senior Seminar in Plant Biology (1–3, max. 9) NW** Supervised readings and group discussion. Recommended: one upper division course emphasizing plant biology

**BIOL 490 Undergraduate Seminar (1–3, max. 6) NW** Supervised readings and group discussion of selected topics of broad biological significance. Prerequisite: either BIOL 162 or BIOL 220.

**BIOL 491 Special Topics in Biological Science for Teachers (1–9, max. 9) NW** Study of selected areas of biology. Designed to enhance the skills and background of K-12 teachers. Credit/no credit only. Recommended: teaching experience.

**BIOL 492 The Teaching of Biology (2)** Basic course in the teaching of biology in the secondary school. Designed to help preservice teachers identify useful laboratory techniques, materials, and content for the teaching of pre-college biology. Special attention to current issues in biology education. Required for biology students in Teacher Certification Program.

**BIOL 493 Study Abroad—Advanced Biology (1–15, max. 15) NW** For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements without approval.

**BIOL 496 Peer Teaching Assistants in Biology (1–5, max. 10)** Direct experience in the classroom, typically teaching a lab section of BIOL 100. Peer Teaching Assistants attend lectures and weekly preparation meetings and gain in-depth background on the subject material as well as training in teaching techniques and approaches. Credit/no credit only. Prerequisite: BIOL 220. Offered: AWSp.

**BIOL 497 Special Topics in Biology (1–5, max. 10) NW**

**BIOL 498 Library Research (1–5, max. 10)**

**BIOL 499 Undergraduate Research (1–20, max. 20)**

**BIOL 500 Topics in Biology (1–3, max. 16)** . Offered: Sp.

**BIOL 502 Grant Writing (3)** Introduces the steps of compiling a successful grant proposal, using the NSF graduate fellowship as a template. Offered: A.

**BIOL 505 Problems in Biological Instruction (1–3, max. 3)**

**BIOL 506 Scientific Manuscript Writing (4) Hillie Ris** Introduces the writing of scientific articles. Students write a scientific manuscript, cover letter, and identify a journal for submission. Offered: W.

**BIOL 510 Seminar in Mathematical Biology (1–3, max. 15) Bergstrom, Daniel, Grunbaum, Kot, Odell, Thompson** Seminar on a topic of current interest in mathematical biology. Graduate status required, or permission of instructor for undergraduates.

**BIOL 511 Topics in Mathematical Biology (1–3, max. 15)** Discussion of current topics in mathematical biology. Graduate status required, or permission of instructor for undergraduates.

**BIOL 520 Departmental Seminar (1, max. 18)** Credit/no credit only. Offered: AWSp.

**BIOL 533 Advanced Invertebrate Zoology (9)** Invertebrate fauna of the San Juan Archipelago. Topic changes from year to year. Individual research projects are emphasized. Prerequisite: course in invertebrate zoology and permission of Director of Friday Harbor Laboratories. Offered: at Friday Harbor Laboratories; SpS.

**BIOL 536 Comparative Invertebrate Embryology (9)** Diversity in developmental patterns in major marine taxa. Analysis of evolutionary changes in development. Emphasis on observation of live embryos and larvae. Prerequisite: permission of Director of Friday Harbor Laboratories; recommended: courses in invertebrate zoology and developmental biology. Offered: at Friday Harbor Laboratories; SpS.

**BIOL 539 Marine Phycology (9)** Field and laboratory studies of marine algae of the San Juan Archipelago with emphasis on seaweed diversity, identification, and the role of algae in marine ecosystems. Offered at Friday Harbor Laboratories.

**BIOL 540 Seminar in Molecular, Cellular, and Developmental Biology (1–3, max. 15)** Weekly discussions of past and current scientific literature in cell, molecular, and/or developmental biology, review of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 541 Topics in Molecular, Cellular, and Developmental Biology (1–3, max. 15)** Focused discussion of on-going cell, molecular, or developmental biology research occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 542 Analysis of Development (1–3, max. 15)** Analysis of structural, physiological, and molecular levels of developmental processes, including gametogenesis, fertilization, cell and tissue movements, induction, and cytodifferentiation. Graduate standing or permission of instructor.

**BIOL 543 Biology of Drosophila Seminar (1, max. 12)** Weekly presentation by participants of classical literature, current literature, and research in the molecular biology, developmental biology, neurobiology, and genetics of *Drosophila*. Prerequisite: permission of instructor. Offered: AWSp.

**BIOL 546 Experimental Design in Cell Biology (1.5)** Focuses on experimental design in cell biology. A topic of current research interest is covered in depth in order to follow a line of investigation and critically evaluate the strengths and limitations of various experimental strategies. Offered: jointly with CONJ 536.

**BIOL 550 Seminar in Evolution and Systematics (1–3, max. 15)** Weekly discussions of past and current scientific literature in evolution and/or systematics, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 551 Topics in Evolution and Systematics (1–3, max. 15)** Focused discussion of on-going research in evolution and/or systematics occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 552 Advanced Evolution (3)** Successful analytical approaches to understanding evolutionary patterns and the processes that generate them, examined by using a wide array of empirical and theoretical tools. Survey of how theory, modeling, and statistics can be applied to observations and experiments in evolutionary biology. Graduate standing required.

**BIOL 553 Applied Phylogenetics (3) NW Leache** Emphasizes the estimation of species trees - multilocus estimates of species or population relationships as opposed to genealogies of alleles. Provides students with the computation and bioinformatics skills needed to apply new phylogenetic techniques that can accommodate larger, more complex data sets. Prerequisite: BIOL 354.

**BIOL 557 Vertebrate Paleontology (5)** Examines the biology of vertebrate animals, emphasizing their diversity, adaptations, and evolutionary history. Introduces aspects of behavior, physiology, morphology, and ecology that emerge from the comparative study of vertebrates. Laboratory includes local field trips, and introduction to regional vertebrate fauna. Offered: jointly with ESS 557.

**BIOL 560 Seminar in Ecology (1–3, max. 15)** Weekly discussions of past and current scientific literature in ecology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 561 Topics in Ecology (1–3, max. 15)** Focused discussion of on-going research in ecology occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 562 Advanced Ecology (3)** Successful analytical approaches to understanding ecological patterns and the mechanisms that generate them, examined by using a wide array of empirical and theoretical tools. Applying theory, modeling, and statistics to empirically derived data to providing insight and solutions to key environmental problems. Graduate standing required.

**BIOL 563 Experimental Evolutionary Ecology (5) NW Bradshaw, Kerr, Tewksbury** Explores experimentally approachable questions in ecology and evolution through lectures, lab, and field experiments. Topics may include evolution of bacterial antibiotic resistance, the evolution of virulence, seed predation, plant biodiversity, and others. Offered: A; concurrent with BIOL 481.

**BIOL 564 Advanced Experimental Evolutionary Ecology (2–5, max, 15) NW Bradshaw, Kerr, Tewksbury** Working independently or paired with an undergraduate in BIOL 482, students pursue supervised original field or lab research projects. Projects span three academic quarters, with project development beginning in autumn, research continuing in winter, and culminating in spring with production of a scientific paper. Prerequisite: BIOL 563, which may be taken concurrently. Offered: AWSp.

**BIOL 567 Topics in Advanced Ecology (3, max. 6)** Discusses literature on active research areas or controversies in different branches of ecology. Offered: jointly with CFR 567/ FISH 567; W.

**BIOL 570 Seminar in Conservation Biology (1–3, max. 15)** Weekly discussions of past and current scientific literature in conservation biology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 571 Topics in Conservation Biology (1–3, max. 15)** Focused discussion of on-going research in conservation biology occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 572 Science and Environmental Policy (3–5, max. 5)**  
Boersma

**BIOL 580 Seminar in Physiology (1–3, max. 15)** Weekly discussions of past and current scientific literature in physiology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 581 Topics in Physiology (1–3, max. 15)** Focused discussion of on-going research in physiology occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 590 Seminar in Organismal Biology (1–3, max. 15)** Weekly discussions of past and current scientific literature in organismal biology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Prerequisite: graduate standing, or permission of instructor for undergraduates.

**BIOL 591 Topics in Organismal Biology (1–3, max. 15)** Focused discussion of on-going research in organismal biology occurring in the instructor's laboratory. Prerequisite: graduate standing, or permission of instructor for undergraduates.

**BIOL 600 Independent Study or Research (1–10)** Credit/no credit only.

**BIOL 700 Master's Thesis (\*)** Credit/no credit only. Offered: AWSpS.

**BIOL 800 Doctoral Dissertation (\*)** Credit/no credit only. Offered: AWSpS.

## Center for Statistics and Social Sciences

### COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [uw.edu/students/crscat/](http://uw.edu/students/crscat/)

**CS&SS 221 Statistical Concepts and Methods for the Social Sciences (5) QSR** Develops statistical literacy. Examines objectives and pitfalls of statistical studies; study designs, data analysis, inference; graphical and numerical summaries of numerical and categorical data; correlation and regression; and estimation, confidence intervals, and significance tests. Emphasizes social science examples and cases. (Students may receive credit for only one of STAT 220, STAT 311, STAT/CS&SS/SOC 221, and ECON 311.) Offered: jointly with SOC 221/STAT 221; AWSp.

**CS&SS 320 Evaluating Social Science Evidence (5) I&S, QSR** A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with SOC 320/STAT 320; A.

**CS&SS 321 Case-Based Social Statistics I (5) I&S, QSR** Introduction to statistical reasoning for social scientists. Built around cases representing in-depth investigations into the nature and content of statistical and social-science principles and practice. Hands-on approach: weekly data-analysis laboratory. Fundamental statistical topics: measurement, exploratory data analysis, probabilistic concepts, distributions, assessment of statistical evidence. Offered: jointly with SOC/STAT 321; W.

**CS&SS 322 Case-Based Social Statistics II (5) I&S, QSR** Continuation of CS&SS/SOC/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods.

Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory. Prerequisite: CS&SS/SOC/STAT 321, or permission of instructor. Offered: jointly with SOC/STAT 322; Sp.

**CS&SS 481 Introduction to Mathematical Statistics (5) NW** Probability, generating functions; the d-method, Jacobians, Bayes theorem; maximum likelihoods, Neyman-Pearson, efficiency, decision theory, regression, correlation, bivariate normal. (Credit allowed for only one of 390, 481, and ECON 580.) Prerequisite: STAT/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. Recommended: MATH 324. Offered: jointly with ECON/STAT 481; A.

**CS&SS 501 Advanced Political Research Design and Analysis (5) I&S** Third methods course in political research. Testing theories with empirical evidence. Examines current topics in research methods and statistical analysis in political science. Content varies according to recent developments in the field and with interests of instructor. Offered: jointly with POL S 501.

**CS&SS 503 Advanced Quantitative Political Methodology (5)** Theory and practice of likelihood inference. Topics covered include probability modeling, maximum likelihood estimation, models for binary responses, count models, sample selection, and basis time series analysis. Prerequisite: POL S 500; POL S 501. Offered: jointly with POL S 503.

**CS&SS 504 Applied Regression (4)** Least squares estimation. Hypothesis testing. Interpretation of regression coefficients. Categorical independent variables. Interactions. Assumption violations: outliers, residuals, robust regression; nonlinearity, transformations, ACE, CART; nonconstant variance. Variable selection and model averaging. Prerequisite: either STAT 342, STAT/MATH 390, STAT 421, STAT/ECON 481, or SOC 505; recommended: MATH 308. Offered: jointly with STAT 504.

**CS&SS 505 Review of Mathematics for Social Scientists (1)** Reviews basic mathematical skills needed for a meaningful understanding of elementary statistics, data analysis, and social science methodology. Overview of core knowledge required for graduate courses in quantitative methods in social sciences. Topics include discrete mathematics, differential and integral calculus, review of matrix algebra, and basic probabilistic and statistical concepts. Offered: jointly with SOC 512; Sp.

**CS&SS 506 Computer Environments for the Social Sciences (1)** Familiarizes graduate students in the social sciences with modern environments for statistical computing. Provides an overview of available resources and a description of fundamental tools used in quantitative courses and doctoral research. Topics include interfaces to Web-based resources, UNIX-based computing, and major statistical packages (R, SPLUS, SAS, and SPLUS). Offered: W.

**CS&SS 507 Methodology: Quantitative Techniques in Sociology (3) I&S** Applied regression analysis with emphasis on interactive computer graphics techniques and interpretation. Application to typical sociological problems. Offered: jointly with SOC 506; A.

**CS&SS 508 Introduction to R for Social Scientists (1)** Familiarizes students with the R environment for statistical computing ([www.r-project.org](http://www.r-project.org)). R is a freely available, multi-platform, and powerful program for analysis and graphics similar to S-PLUS. Covers the basics of organizing, managing, and manipulating social science data; basic applications; introduction to programming; links to other major statistical packages. Offered: A.

**CS&SS 510 Maximum Likelihood Methods for the Social Sciences (5)** Introduces maximum likelihood, a more general method for modeling social phenomena than linear regression. Topics include discrete, time series, and spatial data, model interpretation, and fitting. Prerequisite: POL S/CS&SS 501; POL S/CS&SS 503. Offered: jointly with POL S 510; W.

**CS&SS 526 Structural Equation Models for the Social Sciences (3)** Structural equation models for the social sciences, including specification, estimation, and testing. Top-

ics include path analysis, confirmatory factor analysis, linear models with latent variables, MIMIC models, non-recursive models, models for nested data. Emphasizes applications to substantive problems in the social sciences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with SOC 529.

**CS&SS 527 Survey Research Methods (4)** Provides students with skills in questionnaire development and survey methods. Develops a questionnaire and design a survey research proposal on a health-related or social topic. Prerequisite: either HSERV 511-513, BIOSTAT 517-518, EPI 512-513, which may be taken concurrently or permission of the instructor is required, and students should have a survey project in mind. Offered: jointly with HSERV 527.

**CS&SS 529 Sample Survey Techniques (3)** Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BIOST 511, or BIOST 517, or equivalent; or permission of instructor. Offered: jointly with BIOST 529/STAT 529.

**CS&SS 536 Analysis of Categorical and Count Data (3)** Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 424, SOC 425, SOC 426, or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with SOC 536/STAT 536; annually.

**CS&SS 544 Event History Analysis for the Social Sciences (5)** Examines life course research using event-history analysis with applications to the substantive areas of household dynamics, family formation and dissolution, marriage, cohabitation, and divorce, migration histories, residential mobility, and housing careers. Examines continuous- and discrete-time longitudinal models during practical laboratory sessions.

**CS&SS 560 Hierarchical Modeling for the Social Sciences (4)** Explores ways in which data are hierarchically organized, such as voters nested within electoral districts that are in turn nested within states. Provides a basic theoretical understanding and practical knowledge of models for clustered data and a set of tools to help make accurate inferences. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505-506 or equivalent. Offered: jointly with STAT 560/SOC 560.

**CS&SS 564 Bayesian Statistics for the Social Sciences (4)** Statistical methods based on the idea of probability as a measure of uncertainty. Topics covered include subjective notion of probability, Bayes' Theorem, prior and posterior distributions, and data analysis techniques for statistical models. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505; CS&SS 506. Offered: jointly with STAT 564.

**CS&SS 565 Inequality: Current Trends and Explanations (3)** Discussion of recent growth in economic inequality in the U.S. and competing explanations for these new trends through examination of labor market demographics, industrial composition and restructuring, and the broader political context that impacts policies like minimum wage, strength of unions, and foreign trade. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with SOC 565.

**CS&SS 566 Causal Modeling (4)** Construction of causal hypotheses. Theories of causation, counterfactuals, intervention vs. passive observation. Contexts for causal inference: randomized experiments; sequential randomization; partial compliance; natural experiments, passive observation. Path diagrams, conditional independence and d-separation. Model equivalence and causal under-determination. Prerequisite: course in statistics, SOC 504-505-506 or equivalent;

recommended: CS&SS 505-506 or equivalent. Offered: jointly with STAT 566.

**CS&SS 567 Statistical Analysis of Social Networks (4)** Statistical and mathematical descriptions of social networks. Topics include graphical and matrix representations of social networks, sampling methods, statistical analysis of network data, and applications. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505; CS&SS 506. Offered: jointly with STAT 567.

**CS&SS 568 Game Theory for Social Scientists (5)** Studies non-cooperative game-theory and provides tools to derive appropriate statistical models from game-theoretic models of behavior. Equilibrium concepts, learning, repeated games and experimental game theory. Prerequisite: MATH 112, MATH 124, or MATH 134; STAT/ECON 311 or equivalent. Offered: jointly with ECON 568; W.

**CS&SS 569 Visualizing Data (4)** Explores techniques for visualizing social science data to complement graduate training methods. Emphasis on principles and perception of visualization, novel exploration and presentation of data and statistical models, and implementation of recommended techniques in statistics packages. Prerequisite: SOC 504, SOC 505 and SOC 506. Recommended: CS&SS 505 and CS&SS 506.

**CS&SS 589 Multivariate Data Analysis for the Social Sciences (4, max. 8)** *Erosheva* Provides social scientists with an introduction to multivariate analysis techniques and the knowledge to carry them out. Focuses on statistical methods that explore relationships between observed variables. Topics include principal components, cluster, factor, latent class analysis. Prerequisite: SOCWL 587, 588, or equivalent. Offered: jointly with SOC WL 589; A.

**CS&SS 590 CSSS Seminar (1, max. 20)** Presentations of ongoing social science research involving cutting edge statistical methods. Credit/no credit only. Offered: AWSp.

**CS&SS 594 Special Topics in Social Science and Statistics (1-5, max. 30)** Topics vary. Prerequisite: permission of instructor. Offered: AWSp.

## Center for Studies in Demography and Ecology

### COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**CSDE 501 Population Studies Seminar Series (1)** CSDE affiliates and visitors present current research projects. Credit/no credit only. Offered: AWSp.

**CSDE 502 Population Studies Proseminar (1/2)** Professional training in demography and populations studies. Includes ethics in population research, human subjects review, proposal application and writing. DSE faculty research specialization, and research preparation and presentation. Credit/no credit only. Offered: ASP.

**CSDE 513 Demography and Ecology (3)** *Hirschman* Theories and research on human fertility, mortality, mobility, migration, and urbanization in social/economic context. Comparative and historical materials on Europe, the United States, and the Third World. Offered: jointly with SOC 513.

**CSDE 555 Population Metrics in Global Health (4)** *Clark* Presents a conceptual framework in which to understand and assess the health of populations. Appropriate methodological tools and techniques from Demography, Epidemiology, and related disciplines are presented together in this broader context. Offered: Sp.

**CSDE 595 Special Topics in Population Studies (1-5, max. 10)** Examination of current substantive and methodological topics in demography. Content varies according to recent developments in the field and interest of the instructor.

## Simpson Center for the Humanities

### COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**HUM 204 Special Topics: Interdisciplinary Studies in the Humanities (5, max. 25)** *VLPA/I&S* Focuses on interdisciplinary study in the humanities through the study of human thought, values, beliefs, creativity, and culture. Team-taught faculty from diverse disciplines, topic change quarterly, discussion sections, open to undergraduates. Continuation of Danz series. Offered: AWSp.

**HUM 205 Religion, Violence, and Peace: Patterns Across Time and Tradition (5)** *I&S* Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with RELIG/NEAR E 205; W.

**HUM 411 Applications of Digital Technologies to Humanities Research (5)** *VLPA* Hands-on project-based approach to imaging, new media, text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research. Offered: jointly with DXARTS 411.

**HUM 498 Special Topics in the Humanities (1-6, max. 15)** *I&S/VLPA* Intensive research opportunity, for work on project of independent and/or original design in the cultural disciplines. Mentored by UW and visiting faculty in the arts, humanities, and qualitative social sciences, by arrangement only. Offered: S

**HUM 520 Seminar in Textual Theory (5)** Introduction to the theoretical perspectives that have shaped the emerging interdisciplinary field of Textual Studies. Included in curriculum of Textual Studies Program.

**HUM 521 Seminar in Scribal Texts (5)** Relationship between oral and written texts and of the social and cultural systems which enable their production, transmission, and preservation. Included in curriculum of Textual Studies Program.

**HUM 522 Seminar in Printed Texts (5)** Study of printing as a means of textual transmission in the ages of the hand press, machine press, and electronic press; of current theories of editing; and of preparing critical editions of printed texts.

**HUM 523 Seminar in Hypertext and Textual Studies (5)** Several views of hypertext conceptually explored as a basis for research and evaluation of selected hypertext works. Includes initiating the construction of a World Wide Web hypertext of resources for the study of oral, graphical, handwritten, and printed texts. Included in curriculum of Textual Studies Program.

**HUM 594 Scholarship as Public Practice (2)** *Bartha, Burgett, Krabill, Mitchell* Explores historical genealogies and emergent forms of public scholarly activity; orient student to the expectation and resources of the graduate certificate in public scholarship; and launches students on the process of generating their program portfolios. Credit/no credit only. Offered: A.

**HUM 595 Public Culture, Engaged Scholarship (1-5, max. 25)** Explores relations among cultural research, public practice, and diverse forms of engagement. Topics vary by instructor.

**HUM 596 Humanities Research Seminar (1-5, max. 15)** Explorations of current research in the humanities, most frequently with interdisciplinary emphasis. Offered by selected UW faculty and scholars-in-residence.

**HUM 597 Special Topics in the Humanities (1-2, max. 10)** Short, topical courses in humanities and interdisciplinary fields, offered in conjunction with a visiting speaker invited by faculty in the Humanities, Arts, and Social Sciences. Credit no credit only.

**HUM 598 Teachers as Scholars (1, max. 10)** Small-scale seminars on selected topics in the liberal arts, designed to renew and enhance the subject matter/field knowledge of practicing K-12 educators. Offered: AWSp.

## Chemistry

### DEPARTMENT OVERVIEW

303 Bagley

Chemistry is a branch of natural science that deals principally with the properties of molecules, the chemical reactions that occur between them, and the natural laws that describe molecular interactions. Chemistry is a central science, having strong interactions with biology, medicine, earth and environmental sciences, physics, and mathematics.

### UNDERGRADUATE PROGRAM

#### Adviser

109 Bagley, Box 351700

206-616-9880, 206-543-9343

[advisers@chem.washington.edu](mailto:advisers@chem.washington.edu)

The Department of Chemistry offers the following programs of study:

- The Bachelor of Arts degree with a major in chemistry
- The Bachelor of Science degree with a major in chemistry - ACS certified
- The Bachelor of Science degree with a major in chemistry
- A minor in chemistry

The Bachelor of Science degree is designed primarily for those who wish to pursue a career in chemistry or a career in which chemistry plays a central role.

The department offers two Bachelor of Science degrees. The Bachelor of Science with a major in chemistry (ACS certified) meets guidelines established by the American Chemical Society (ACS). It provides an extensive education in all branches of chemistry and also emphasizes laboratory training. The non-certified major does not emphasize laboratory work as strongly, offers more options among chemistry courses, and allows more flexibility in incorporating coursework outside of chemistry.

The Bachelor of Arts in chemistry fills the needs of students whose chosen career requires a strong background in chemistry with additional expertise in other disciplines.

### Bachelor of Science

*Suggested First- and Second-Year Courses:* CHEM 142, CHEM 152, CHEM 162 (or CHEM 145, CHEM 155, CHEM 165); CHEM 237, CHEM 238, CHEM 239, CHEM 241, CHEM 242 (or CHEM 335, CHEM 336, CHEM 337, CHEM 346, CHEM 347); MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136); PHYS 121, PHYS 122, PHYS 123 (or PHYS 114, PHYS 115, PHYS 116 plus one physics lab course. PHYS 121 sequence recommended); courses in linear algebra and differential equations.

## Department Admission Requirements

Beginning Spring quarter 2010, application to B.A. and B.S. degree programs in chemistry is competitive. Applicants are considered in the following groups: Direct Freshman Admission, Early Admission, First-Year Admission, and Regular Admission. Completion of minimum requirements described below does not guarantee admission. All applicants have the right to petition and appeal the department's admission decision. Applications are considered twice each academic year and are due on the second Friday of October and the second Friday of April, with the exception of Direct Freshman Admission. The application and additional information is available at [depts.washington.edu/chem/undergrad/](http://depts.washington.edu/chem/undergrad/).

## Direct Freshman Admission

- Open to freshman students formally admitted to the UW
- Score of 5 on the AP chemistry examination
- Indication on the UW freshman application of chemistry as the student's first choice of major
- Successful direct-admission applicants generally have received a minimum 1400 on the SAT (math and verbal sections) or a minimum 30 on the ACT.
- Admission is for autumn quarter only.

## Early Admission

- Students with exceptional records can apply for consideration for early admission via the Honors or Research track. Students seeking early admission should submit an application that includes:
  - Cover sheet (available on the Department of Chemistry website)
  - Unofficial transcript
  - Statement of purpose: May include a description of interest in chemistry, career goals, undergraduate research interests, degree interest (B.A. or B.S.), and any other information applicant believes is useful in evaluating the application.
  - (Research Track only) Written letter or recommendation from research adviser.
- Honors Track. Students participating in the chemistry Honors sequence who have completed the following courses with a minimum cumulative GPA of 3.00: CHEM 145, CHEM 155 (10 credits); MATH 124 and MATH 125 (or MATH 134 and MATH 135) (10 credits).
- Research Track. Students who have performed at least 6 credits of undergraduate research (CHEM 199, CHEM 299, or higher) and who provide a strong recommendation from faculty research advisers. Biochemistry undergraduate research may be considered as well.

## First-Year Admission

- Course requirements: CHEM 142, CHEM 152, CHEM 162 (or CHEM 144, CHEM 154, CHEM 164; or CHEM 145, CHEM 155, CHEM 165) (15 credits). PHYS 121, PHYS 122 (recommended) or PHYS 114, PHYS 115 (10 or 8 credits). MATH 124, MATH 125 (or MATH 134, MATH 135) (10 credits).
- Factors in the admission decision include academic performance as measured by GPA in courses required for application, difficulty of other courses completed, frequency of incompletes or withdrawal grades, number of repeated courses, relevant work and life experience, and record of honors.
- Successful applicants for the B.S. chemistry and B.S. chemistry-ACS Certified programs typically have a cumulative GPA greater than 3.20 in courses listed above under course requirements. Successful applicants for the B.A. chemistry program typically have a cumulative GPA greater than 3.00 in courses listed above under course requirements.

## Regular Admission

- Course requirements: CHEM 142, CHEM 152, CHEM 162 (or CHEM 144, CHEM 154, CHEM 164; or CHEM 145, CHEM 155, CHEM 165) (15 credits). CHEM 237, CHEM 238 (or CHEM 335, CHEM 336) (8 credits). PHYS 121, PHYS 122 (recommended) (or PHYS 114, PHYS 115) (10 or 8 credits). MATH 124, MATH 125 (or MATH 134, MATH 135) (10 credits).
- Factors in the admission decision include academic performance as measured by GPA in courses required for application, difficulty of other courses completed, frequency of incompletes or withdrawal grades, number of repeated courses, relevant work and life experience, and record of honors.
- Successful applicants for the B.S. chemistry and B.S. chemistry-ACS Certified programs typically have a cumulative GPA greater than 2.50 in courses listed above under course requirements, with no individual grade lower than a 2.0. Successful applicants for the B.A. chemistry program typically have a cumulative GPA greater than 2.00 in courses listed above under course requirements, with no individual grade lower than 1.7.

## Continuation Policy

Beginning Spring quarter 2010, students enrolled in degree programs in chemistry must maintain both a cumulative GPA and individual-course grades consistent with requirements for their degree. Students pursuing B.S. degrees must maintain a minimum cumulative major GPA of 2.50 and minimum 2.0 for individual courses required for the major. Students pursuing a B.A. degree must maintain a minimum cumulative major GPA of 2.00 and minimum 1.7 grade for individual courses required for the major. Failure to maintain these GPA and grade standards results in the student being placed on departmental academic probation for one quarter, and dropped from the major if marked improvement in academic performance is not achieved. Students who experience extraordinary circumstances may petition for one or more additional probationary quarters.

## Major Requirements

### Chemistry (ACS-Certified)

95 credits as follows:

- *Chemistry and Biochemistry Courses:*
  - *General Chemistry:* CHEM 142, CHEM 152, CHEM 162 (or CHEM 145, CHEM 155, CHEM 165)
  - *Organic Chemistry:* CHEM 237, CHEM 238, CHEM 239, CHEM 241, and CHEM 242 (or CHEM 335, CHEM 336, CHEM 337, CHEM 346 and CHEM 347)
  - *Inorganic Chemistry:* CHEM 312, CHEM 317, and CHEM 416 (students completing CHEM 165 are exempt from CHEM 312)
  - *Analytical Chemistry:* CHEM 321, CHEM 426
  - *Physical Chemistry:* CHEM 455, CHEM 456, CHEM 457, CHEM 461
  - *Biochemistry:* BIOC 405 (students should contact adviser regarding alternative prerequisites for BIOC 405)
  - *Advanced Chemistry:* 5 credits of numerically graded CHEM or BIOC 400-level courses (not previously listed) and one more course with laboratory (currently CHEM 428, CHEM 462, CHEM 463, and CHEM 465)
  - Strongly recommended, research credits in CHEM 399 and CHEM 499.
- *Mathematics:* MATH 124, MATH 125, MATH 126 and two additional math courses above 300 (recommended MATH 307 and MATH 308, or AMATH 351 and AMATH 352); (alternative math requirement: MATH 134, MATH 135, MATH 136)

- *Physics:* PHYS 121, PHYS 122, PHYS 123 (or PHYS 114, PHYS 115, PHYS 116 plus one physics lab course). PHYS 121 sequence recommended.
- *Grade Requirements:* Minimum 2.0 grade in each chemistry course; minimum 2.50 GPA for courses used to satisfy the major degree requirements; minimum overall cumulative 2.50 GPA and minimum 185 credits required for graduation.

## Chemistry

92 credits as follows:

- *Chemistry and Related Courses:*
  - *General Chemistry:* CHEM 142, CHEM 152, CHEM 162, and CHEM 312 (or CHEM 144, CHEM 154, CHEM 164, and CHEM 312; or CHEM 145, CHEM 155, CHEM 165, and CHEM 416)
  - *Organic Chemistry:* CHEM 237, CHEM 238, CHEM 239, and CHEM 241 (or CHEM 335, CHEM 336, CHEM 337, and CHEM 346)
  - *Physical Chemistry:* CHEM 455, CHEM 456, CHEM 457
  - *Advanced Chemistry Labs:* Two of the following three: CHEM 317, CHEM 321, or CHEM 461
  - *Additional Labs:* 5 additional lab credits chosen from the following: CHEM 242, CHEM 317, CHEM 321, CHEM 347, CHEM 426, CHEM 428, CHEM 461, CHEM 462, CHEM 463, CHEM 465, and BIOC 426
  - *Science Electives:* 11 credits chosen from CHEM 242, CHEM 317, CHEM 321, CHEM 347, any 400-level numerically graded chemistry or biochemistry courses, or MATH 307 (or AMATH 351). Students with a chemistry GPA of 3.30 or higher may apply up to 6 credits of approved research (CHEM 399 or CHEM 499) toward satisfying this requirement. CHEM 498 may not be used to satisfy this requirement.
- *Mathematics:* MATH 124, MATH 125, MATH 126 and one course above 300 (recommended: MATH 308 or AMATH 352); alternative MATH requirement: MATH 134, MATH 135, MATH 136.
- *Physics:* PHYS 121, PHYS 122, PHYS 123 (or PHYS 114, PHYS 115, PHYS 116 plus one physics lab course). PHYS 121 sequence recommended.
- *Grade Requirements:* Minimum 2.0 grade in each chemistry course; minimum 2.50 GPA required for all chemistry, mathematics, and physics courses used to satisfy major requirements; minimum overall cumulative 2.50 GPA and minimum 182 credits required for graduation.
- For graduation, a minimum of 182 credits is required with an overall cumulative GPA of 2.80.

## Bachelor of Arts

*Suggested First- and Second-Year Courses:* CHEM 142, CHEM 152, CHEM 162 (or CHEM 145, CHEM 155, CHEM 165) CHEM 237, CHEM 238, CHEM 239, CHEM 241, CHEM 242 (or CHEM 335, CHEM 336, CHEM 337, CHEM 346, CHEM 347); MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136); PHYS 121, PHYS 122, PHYS 123 (or PHYS 114, PHYS 115, PHYS 116 plus one physics lab course; PHYS 121 sequence recommended).

## Department Admission Requirements

Students in good academic standing may declare this major at any time.

## Major Requirements

79–82 credits as follows:

- *Chemistry Courses:*
  - *General Chemistry:* : CHEM 142, CHEM 152, CHEM 162, CHEM 312 (or CHEM 144, CHEM 154, CHEM 164, CHEM 312; or CHEM 145, CHEM 155, CHEM 165)

- *Organic Chemistry*: CHEM 237, CHEM 238, CHEM 239, CHEM 241, CHEM 242 (or CHEM 335, CHEM 336, CHEM 337, CHEM 346, CHEM 347)
- *Analytical Chemistry*: CHEM 321
- *Advanced Chemistry Lab*: Either CHEM 317 or CHEM 461
- *Advanced Chemistry*: 11 credits of numerically graded CHEM 400-level courses to include either CHEM 455, CHEM 456, CHEM 457 series, or CHEM 452, CHEM 453 series
- *Mathematics*: MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136)
- *Physics*: One year of physics including at least 1 credit of laboratory (PHYS 114, PHYS 115, and PHYS 116 and at least one of PHYS 117, PHYS 118, or PHYS 119; or PHYS 121, PHYS 122, and PHYS 123; PHYS 121 sequence recommended).
- *Grade Requirements*: Minimum 2.00 GPA in chemistry courses counted toward major; minimum 1.7 grade in all required chemistry courses.

## Minor

*Minor Requirements*: 35–44 credits as follows:

- One of the following three sequences:
  - CHEM 142, CHEM 152, CHEM 162, and one of CHEM 223, CHEM 237, or CHEM 335
  - CHEM 144, CHEM 154, CHEM 164, and one of CHEM 223, CHEM 237, or CHEM 335
  - CHEM 145, CHEM 155, CHEM 165, and one of CHEM 223, CHEM 237, or CHEM 335
- MATH 124 (or Q SCI 291 and Q SCI 292)
- PHYS 114 or PHYS 121
- Three of the following four groups:
  - CHEM 312 (or CHEM 165)
  - CHEM 321
  - One of CHEM 452, CHEM 455, or CHEM 456
  - One of CHEM 224, CHEM 238, CHEM 336
- Minimum 2.00 GPA for the minor; minimum 1.7 grade in each course presented for the minor.
- A minimum of 15 credits taken for the minor must be completed in residence at the University of Washington.

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes*: At the conclusion of their studies, graduating chemistry majors should have a general knowledge of the basic areas of chemistry with a working knowledge of at least one area: be proficient in basic laboratory skills; have the ability to carry out strategies for solving scientific problems; have an understanding of the principles and applications of modern instrumentation, computation, experimental design, and data analysis; have had the opportunity to gain experience with a research project; have the ability to communicate scientific information clearly and precisely; have the ability to read, understand, and use scientific literature; have an awareness of the broader implications of chemical processes; have had the opportunity to work as part of a team to solve scientific problems; and have had an introduction to opportunities in, and requirements for, the careers available to chemistry majors. Teaching high school chemistry, environmental or patent law practice, or working in the chemical industry in sales or management positions are career choices for which the B.A. in chemistry is generally useful.
- *Instructional and Research Facilities*:
  - Departmental facilities include a spectroscopic and analytical instrumentation laboratory (NMR, GC-MS, X-Ray, IR), Chemistry Library, Center for Enabling New

Technologies through Catalysis (CENTC), Center for Process and Analytical Chemistry (CPAC), Materials and Devices for Information Technology Research (MDITR), Center for Nanotechnology, and extensive computing capabilities.

- The department's local area network (LAN) is extended through a fiber optic cable to the university-wide network that is connected to Internet, HEPNET, SPAN, and other national and international computer networks.
  - The Chemistry Study Center offers assistance to students in 100-level chemistry courses and has 40 Pentium computers available to undergraduates taking chemistry courses.
  - *Honors Options Available*: With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
  - *Research, Internships, and Service Learning*: No formal internship program. Students are encouraged to pursue national and regional internships. See advisers for information.
  - *Department Scholarships*: Resident tuition scholarships and book prizes are awarded annually by the Department of Chemistry to eligible chemistry and biochemistry majors. Applications are available during the month of March for the following academic year. See department advisers for more information.
  - *Student Organizations/Associations*:
    - Alpha Chi Sigma: the UW affiliate of the national chemistry-related science organization for chemistry and biochemistry majors
    - Phi Lambda Upsilon: the UW affiliate of the national chemistry honorary society
    - The Free Radicals: a general undergraduate club for chemistry and biochemistry majors
- Of Special Note*:
- The B.S. degree in chemistry requires a minimum of 182 credits to graduate.
  - The B.S. degree in Chemistry, ACS-Certified Option, requires a minimum of 185 credits to graduate.
  - The B.A. degree in Chemistry requires a minimum of 180 credits to graduate.
  - Students are strongly encouraged to participate in undergraduate research.
  - The maximum number of credits that may be earned combining CHEM 199 and CHEM 299 is 12; the maximum number of credits that may be earned combining CHEM 399 and CHEM 499 is 24.

## GRADUATE PROGRAM

### Graduate Program Coordinator

109D Bagley, Box 351700

206-543-4787

[graduate@chem.washington.edu](mailto:graduate@chem.washington.edu)

The Master of Science and Doctor of Philosophy programs are designed to lead to positions of leadership and independent investigation in research institutes, industrial laboratories, and government agencies, and as teachers, researchers, or administrators in colleges and universities in chemistry or allied fields.

Students can pursue research in the following areas of chemistry: analytical, bioanalytical, bioinorganic, bioorganic, biophysical, environmental, inorganic, materials, medicinal, nuclear, organic, organometallic, physical, polymer, process analytical, and theoretical.

Thesis research for the Master of Science degree and dissertation research for the Doctor of Philosophy degree will constitute an original contribution of knowledge worthy of report in the scientific literature.

Refer to the [Chemistry Department website](#) for more detailed information regarding admission and graduation requirements.

## Master of Science

The Department of Chemistry offers primarily the PhD degree. The Master of Science program is not open to master's-only students, except under specific conditions.

*Graduation Requirements*: With Thesis—36 approved credits with 18 in courses at the 500 level or above; 18 credits in courses at the 400 or 500 level taken for numerical grade with a 2.7 grade minimum in each graded course; 9 credits in thesis research. Without Thesis—Same as with thesis, except that additional coursework may be substituted for the required research. Minimum GPA of 3.00 required.

## Doctor of Philosophy

### Admission Requirements

- Baccalaureate degree with major in chemistry or allied sciences
- Graduate Record Examination scores

### Degree Requirements

90 credits, to include:

- *Required coursework*: 18–27 credits of coursework to support the student's individualized program of study, approved by the Graduate Program Coordinator, at the 400 or 500 level, with a 2.7 grade minimum in each graded course, and a minimum 3.00 GPA
- *Seminars*: Participation in departmental seminars
- *Dissertation*: minimum 27 credits of dissertation (CHEM 800) work
- Candidacy examinations covering area of specialization

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsat/](http://www.uw.edu/students/crsat/)

No more than the number of credits indicated can be counted toward graduation from the following course groups: 120, 142, 144, 145 (5 credits); 152, 154, 155 (5 credits); 145, 154, 155, 162 (10 credits); 162, 165 (5 credits); 165, 312 (5 credits); 221, 223, 237, 335 (5 credits); 238, 336 (4 credits); 224, 239, 337 (4 credits); 241, 346 (3 credits); 242, 347 (3 credits); 452, 456 (3 credits). If a course is completed before a prerequisite is taken, credit will not later be allowed for the prerequisite course.

**CHEM 110 Introduction to General Chemistry (3) NW** Introduction to general chemistry with an emphasis on developing problem solving skills. Covers basic concepts of chemistry along with the mathematics required for quantitative problem solving. For students without high school chemistry or with limited mathematics background. Successful completion of CHEM 110 prepares students to enroll in CHEM 142. Credit/no credit only. Offered: A.

**CHEM 120 Principles of Chemistry I (5) NW, QSR** First course in a three-quarter overview of chemistry. Not for students majoring in biochemistry, chemistry, or engineering. Includes matter and energy, chemical nomenclature, chemical reactions, stoichiometry, modern atomic theory, chemical bonding. Laboratory. Only 5 credits can be counted toward graduation from the following: CHEM 120, 142, 144, 145. Offered: AS.

**CHEM 142 General Chemistry (5) NW, QSR** For science and engineering majors. Atomic nature of matter, stoichiometry, acids and bases, chemical equilibrium, and gas laws. Includes laboratory. Recommended: high school chemistry and placement into MATH 120 or higher. No more than the number of credits indicated can be counted toward graduation from the following course groups: 142, 144, 145 (5 credits). Cannot be taken for credit if CHEM 120 already taken. Offered: AWSpS.

**CHEM 144 Advanced General Chemistry (5) NW, QSR** For science and engineering majors. Provides a more in depth presentations of atomic nature of matter, stoichiometry, acids and bases, chemical equilibrium, and gas laws. Lab included. Prerequisite: either MATH 124 or MATH 134, which may be taken concurrently; one year of high school chemistry. No more than the number of credits indicated can be counted towards graduation from the following course groups: CHEM 142, CHEM 144, CHEM 145 (5 credits). Cannot be taken for credit if CHEM 120 already taken. Offered: A.

**CHEM 145 Honors General Chemistry (5) NW, QSR** 145 and 155 cover material in 142, 152, and 162. Includes laboratory. Prerequisite: either MATH 124 or MATH 134, either of which may be taken concurrently; score of 66% on HCHEMC placement test, score of 4 or 5 on AP Chemistry exam, or IB score of 5, 6, or 7 on high level chemistry exam. No more than the number of credits indicated can be counted toward graduation from the following course groups: 142, 144, 145 (5 credits); 145, 155, 162 (10 credits). Offered: A.

**CHEM 152 General Chemistry (5) NW** Energy, enthalpy and thermochemistry, spontaneity, entropy and free energy, electrochemistry, quantum mechanics and atomic theory, general concepts of bonding. Includes laboratory. Prerequisite: a minimum grade of 1.7 in either CHEM 142, CHEM 144, or CHEM 145. No more than the number of credits indicated can be counted toward graduation from the following course groups: 152, 154, 155 (5 credits). Offered: AWSpS.

**CHEM 154 Advanced General Chemistry (5) NW, QSR** For science and engineering majors. Provides a more in depth presentation of energy, enthalpy and thermochemistry, spontaneity, entropy and free energy, electrochemistry, quantum mechanics and atomic theory, and general concepts of bonding. Lab included. Prerequisite: either a minimum grade of 3.5 in CHEM 142, or a minimum grade of 1.7 in either CHEM 144 or CHEM 145; either MATH 124 or MATH 134; may not be taken for credit if student has completed either CHEM 152 or CHEM 155. No more than the number of credits indicated can be counted towards graduation from the following course groups: CHEM 152, CHEM 154, CHEM 155 (5 credits). Offered: W.

**CHEM 155 Honors General Chemistry (5) NW** Continuation of 145. Includes laboratory. Together 145 and 155 cover material in 142, 152, and 162. No more than the number of credits indicated can be counted toward graduation from the following course groups: 152, 154, 155 (5 credits); 145, 155, 162 (10 credits). Prerequisite: 2.2 in CHEM 145. Offered: W.

**CHEM 162 General Chemistry (5) NW** Covalent bonding, chemical kinetics, liquids and solids, properties of solutions, the elements in groups 1A-4A, the elements in groups 5A-8A, transition metals and coordination chemistry, and organic chemistry. Includes laboratory. Prerequisite: a minimum grade of 1.7 in either CHEM 152 or CHEM 154. No more than the number of credits indicated can be counted toward graduation from the following course groups: 162, 164, 165 (5 credits). Offered: AWSpS.

**CHEM 164 Advanced General Chemistry (5) NW, QSR** For science and engineering majors. Provides a more in depth presentation of covalent bonding, chemical kinetics, liquids and solids, properties of solutions, the elements in groups 1A-4A, the elements in groups 5A-8A, transition metals and coordination chemistry, and organic chemistry. Lab included. Prerequisite: either a minimum grade of 3.5 in CHEM 152, or a minimum grade of 1.7 in either CHEM 154 or CHEM 155; either MATH 124 or MATH 134; may not be taken for credit if student has completed either CHEM 162 or CHEM 165. No more than the number of credits

indicated can be counted towards graduation from the following course groups: CHEM 162, CHEM 164, CHEM 165 (5 credits). Offered: Sp.

**CHEM 165 Honors General Chemistry (5) NW** Introduction to systematic inorganic chemistry: representative elements, metals, and nonmetals. Includes coordination complexes, geochemistry, and metallurgy. Additional material on environmental applications of basic chemistry presented. Includes laboratory. No more than the number of credits indicated can be counted toward graduation from the following course groups: 162, 164, 165 (5 credits); 165, 312 (5 credits). Prerequisite: 2.2 in CHEM 155. Offered: Sp.

**CHEM 190 Freshman Discovery Seminar in Chemistry (5) NW** Introduces incoming freshman to research basics and scholarly inquiry skills used in the study of chemistry.

**CHEM 198 Tutorial Study (2, max. 6) NW** Credit/no credit only.

**CHEM 199 Special Problems (1-6, max. 6)** Research in chemistry. Credit/no credit only. Offered: AWSpS.

**CHEM 220 Principles of Chemistry II (5) NW, QSR** Second course in a three-quarter overview of chemistry. Not for students majoring in biochemistry, chemistry, or engineering. Includes gases/liquids/solids, solutions, acids and bases, equilibrium, oxidation-reduction, electrochemistry, organic compounds, hydrocarbons, aromaticity, stereochemistry. Prerequisite: a minimum grade of 1.7 in either CHEM 120, CHEM 142, or CHEM 144. Offered: W.

**CHEM 221 Principles of Chemistry III (5) NW, QSR** Third course in a three-quarter overview of chemistry. Not for students majoring in biochemistry, chemistry, or engineering. Includes alcohols, phenols, ethers, aldehydes, ketones, carboxylic acids, amines, and structural determination. Only 5 credits can be counted toward graduation from the following: CHEM 221, CHEM 223, CHEM 237, CHEM 335. Prerequisite: 1.7 in CHEM 220. Offered: Sp.

**CHEM 223 Organic Chemistry—Short Program (4) NW** First of a two-quarter lecture series in organic chemistry, for those who elect not to complete the CHEM 237, CHEM 238, CHEM 239 sequence. Introduction to structure, nomenclature, properties, and reactions of the main functional families of organic compounds. Stereochemistry and spectroscopy. No more than 5 credits can be counted toward graduation from the following course group: CHEM 221, CHEM 223, CHEM 237, CHEM 335. Prerequisite: a minimum grade of 1.7 in either CHEM 152, CHEM 154, or CHEM 155; recommended: CHEM 162. Offered: AS.

**CHEM 224 Organic Chemistry—Short Program (4) NW** Continuation of CHEM 223. Structure, nomenclature, properties, and reactions of aldehydes, ketones, carboxylic acid derivatives, amines, carbohydrates, lipids, amino acids, peptides, proteins, and nucleic acids. No laboratory accompanies this course, but CHEM 241 laboratory may be taken concurrently. No more than 4 credits can be counted toward graduation from the following course group: CHEM 224, CHEM 239, CHEM 337. Prerequisite: 1.7 in CHEM 223. Offered: WS.

**CHEM 237 Organic Chemistry (4) NW** First course for students planning to take three quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of the main types of organic compounds. No organic laboratory accompanies this course. No more than 5 credits can be counted toward graduation from the following course groups: CHEM 221, CHEM 223, CHEM 237, CHEM 335. Prerequisite: a minimum grade of 1.7 in either CHEM 155, CHEM 162, or CHEM 164. Offered: AWS.

**CHEM 238 Organic Chemistry (4) NW** Second course for students planning to take three quarters of organic chemistry. Further discussion of physical properties and transformations of organic molecules, especially aromatic and carbonyl compounds. No more than the number of credits indicated can be counted toward graduation from the following course groups: 238, 336 (4 credits). Prerequisite: either 1.7 in CHEM 237 or 1.7 in CHEM 335. Offered: WSp.

**CHEM 239 Organic Chemistry (3) NW** Third course for students planning to take three quarters of organic chemistry.

Polyfunctional compounds and natural products, lipids, carbohydrates, amino acids, proteins, and nucleic acids. Includes introduction to membranes, enzyme mechanisms, prosthetic groups, macromolecular conformations and supramolecular architecture. No more than 4 credits can be counted toward graduation from the following course groups: CHEM 224, CHEM 239, CHEM 337. Prerequisite: either 1.7 in CHEM 238 or 1.7 in CHEM 336. Offered: ASpS.

**CHEM 241 Organic Chemistry Laboratory (3) NW** Introduction to organic laboratory techniques. Preparation of representative compounds. Designed to be taken with 224 or 238. No more than the number of credits indicated can be counted toward graduation from the following course groups: 241, 346 (3 credits). Prerequisite: either 1.7 in CHEM 223, 1.7 in CHEM 237, or 1.7 in CHEM 335; either CHEM 224, CHEM 238 or CHEM 336, any of which may be taken concurrently. Offered: WSpS.

**CHEM 242 Organic Chemistry Laboratory (3) NW** Preparations and qualitative organic analysis. Designed to be taken with 239. No more than the number of credits indicated can be counted toward graduation from the following course groups: 242, 347 (3 credits). Prerequisite: either 1.7 in CHEM 224 or CHEM 239 which may be taken concurrently or CHEM 337 which may be taken concurrently; either 1.7 in CHEM 241 or 1.7 in CHEM 346. Offered: ASpS.

**CHEM 291 Study Abroad - Chemistry (1-15, max. 15) NW** For student in the UW study abroad program. Content varies and is individually evaluated. Credit does not apply to major degree requirements without departmental approval.

**CHEM 299 Special Problems and Report Writing (1-6, max. 6)** Research in chemistry and/or study in the chemical literature. Requires writing a scientific report. Credit/no credit only. Offered: AWSpS.

**CHEM 312 Inorganic Chemistry (3) NW** The periodic table: chemistry of representative and transition elements. Aqueous chemistry, solid state chemistry, and everyday aspects of inorganic chemistry emphasized. Not intended for students who have completed 165. No more than the number of credits indicated can be counted toward graduation from the following course groups: 165, 312 (5 credits). Prerequisite: either CHEM 155, CHEM 162, or CHEM 164; either CHEM 224, CHEM 238, or CHEM 336. Offered: AWS.

**CHEM 317 Inorganic Chemistry Laboratory (4) NW** Experimental exploration of the periodic table. Techniques of preparation and characterization of inorganic compounds. Handling of air-sensitive materials and gases. Prerequisite: either CHEM 165 or CHEM 312; either CHEM 242 or CHEM 347. Offered: WSp.

**CHEM 321 Quantitative Analysis (5) NW** Introduction to chemical analysis, including gravimetric, volumetric, spectrophotometric, and potentiometric analyses. Laboratory computer use included. Prerequisite: either CHEM 155, CHEM 162, or CHEM 164. Offered: AWS.

**CHEM 335 Honors Organic Chemistry (4) NW** For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. No organic laboratory accompanies this course. No more than 5 credits can be counted toward graduation from the following course groups: 221, 223, 237, 335. Prerequisite: either CHEM 155, CHEM 162, or CHEM 164. Offered: A.

**CHEM 336 Honors Organic Chemistry (4) NW** For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. No more than 4 credits can be counted toward graduation from the following course groups: CHEM 238, CHEM 336. Prerequisite: 2.2 in CHEM 335. Offered: W.

**CHEM 337 Honors Organic Chemistry (4) NW** For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds.

Theory and mechanism of organic reactions. Studies of biomolecules. Includes introduction to membranes, enzyme mechanisms, prosthetic groups, macromolecular conformations, and supramolecular architecture. No more than 4 credits can be counted toward graduation from the following course groups: CHEM 239, CHEM 337. Prerequisite: 2.2 in CHEM 336. Offered: Sp.

**CHEM 346 Organic Chemistry Honors Laboratory (3) NW** To accompany 336. No more than the number of credits indicated can be counted toward graduation from the following course groups: 241, 346 (3 credits). Prerequisite: 1.7 in CHEM 335; CHEM 336 which may be taken concurrently. Offered: W.

**CHEM 347 Organic and Qualitative Organic Honors Laboratory (3) NW** Continuation of 346. To accompany 337. No more than the number of credits indicated can be counted toward graduation from the following course groups: 242, 347 (3 credits). Prerequisite: CHEM 337 which may be taken concurrently; 2.2 in CHEM 346. Offered: Sp.

**CHEM 399 Undergraduate Research (\*, max. 12)** Research in chemistry. Credit/no credit only. Offered: AWSpS.

**CHEM 410 Radiochemistry Laboratory (2) NW** Introductory general service course for students planning further work in nuclear or tracer applications. Safety procedures, detection and measurement of nuclear radiation, radiochemical and tracer techniques. Prerequisite: a minimum grade of 1.7 in either CHEM 155, CHEM 162, or CHEM 164; recommended: CHEM 418. Offered: alternate years.

**CHEM 416 Transition Metals (3) NW** Survey of selected key topics in the chemistry of the transition metals, including emphasis on the structure, bonding, and reactivity of major classes of compounds. Prerequisite: either CHEM 165 or CHEM 312; either CHEM 453, CHEM 455, or CHEM 475, which may be taken concurrently. Offered: A.

**CHEM 417 Organometallic Chemistry (3) NW** Chemistry of the metal-carbon bond for both main group and transition metals. Structure and reactivity with applications to organic synthesis and catalysis. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; CHEM 416. Offered: W.

**CHEM 418 Nuclear Chemistry (3) NW** Natural radioactivity, nuclear systematics and reactions, radioactive decay processes, stellar nucleosynthesis, applications of radioactivity. Prerequisite: either CHEM 453, CHEM 455, or CHEM 475. Offered: alternate years.

**CHEM 419 Bioinorganic Chemistry (3) NW** Description of transition metal-containing systems found in biology. Structural and electronic properties and reactivity of metalloproteins, metalloenzymes, and metallocofactors. Methods used to probe and model metal sites by spectroscopic and synthetic techniques. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; CHEM 416. Offered: Sp, even years.

**CHEM 426 Instrumental Analysis (3) NW** Introduction to modern instrumental methods of chemical analysis, including chromatography, optical and mass spectroscopy, electrochemistry and flow injection analysis. Basic concepts of transducers, spectrometers, mass analysis, separation sciences, and computerized data acquisition and reduction. Includes laboratory. Prerequisite: CHEM 321. Offered: W.

**CHEM 428 Bioinstrumental Analysis (3) NW** Modern instrumental methods of bioanalysis of DNA and proteins, including agarose gel electrophoresis, PCR, Sanger sequencing for nucleic acid analysis and ELISA, SDS-PAGE, and LC/MS-MS analysis of proteins. Mass analysis, separation sciences, and bioinformatics tools. Includes laboratory. No credit allowed if BIOC 426 taken. Prerequisite: either BIOC 405 or BIOC 440. Offered: Sp.

**CHEM 429 Chemical Separation Techniques (3) NW** Introduction to modern separation techniques such as gas chromatography, high-performance liquid chromatography, electrophoresis, and field flow fractionation. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; either CHEM 241, CHEM 321, or CHEM 346. Offered: Sp.

**CHEM 433 Theoretical Organic Chemistry—Predictions and Experimental Tests (3) NW** Molecular orbital theory in

organic chemistry. Woodward-Hoffmann rules, aromaticity, concerted reactions, photochemical transformations, and reactions of electron-deficient species. Prerequisite: either CHEM 239 or CHEM 337. Offered: alternate years.

**CHEM 436 Molecular Enzymology (3) NW** Enzyme structure, function, chemistry and inhibition, including modes of biological catalysis, stereochemistry, enzyme characterization and kinetics, and design and principles of enzyme inhibitors. Also major classes of natural products, their chemistry, biological activity, biosynthesis, physiological role, and ecological significance. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; recommended: either BIOC 405 or BIOC 440. Offered: alternate years; Sp.

**CHEM 453 Physical Chemistry for Biochemists II (3) NW** Continuation of 452. Includes transport properties, enzyme kinetics, introduction to quantum mechanics, spectroscopy, and classical statistical mechanics. Prerequisite: either CHEM 452 or CHEM 456; either MATH 126 or MATH 135; either PHYS 116 or PHYS 123. Recommended: MATH 307; MATH 308. Offered: WSp.

**CHEM 455 Physical Chemistry (3) NW** Introduction to quantum chemistry and spectroscopy. Theory of quantum mechanics presented at an elementary level and applied to the electronic structure of atoms and molecules and to molecular spectra. Prerequisite: either CHEM 155, CHEM 162, or CHEM 164; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123; recommended: MATH 307; MATH 308. Offered: ASP.

**CHEM 456 Physical Chemistry (3) NW** Chemical thermodynamics. Laws of thermodynamics presented with applications to phase equilibria, chemical equilibria, and solutions. No more than the number of credits indicated can be counted toward graduation from the following course groups: 452, 456 (3 credits). Prerequisite: either CHEM 155, CHEM 162, or CHEM 164; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123; recommended: MATH 307. Offered: WS.

**CHEM 457 Physical Chemistry (3) NW** Introduction to statistical mechanics, kinetic theory, and chemical kinetics. Prerequisite: either CHEM 455 or CHEM 475; either CHEM E 326 which may be taken concurrently, CHEM 456 or CHEM 476. Offered: Sp.

**CHEM 458 Global Atmospheric Chemistry (4) NW** Global atmosphere as chemical system. Physical factors and chemical processes. Natural variabilities and anthropogenic change. Cycling of trace substances. Global issues such as climate change, acidic deposition, influences on biosphere. Prerequisite: either ATM S 358 or CHEM 456. Offered: jointly with ATM S 458.

**CHEM 460 Spectroscopic Molecular Identification (3) NW** Basic theory of spectral techniques-infrared and ultraviolet/visible spectroscopy, NMR, and mass spectrometry-with emphasis on spectral interpretation skills needed for the elucidation of structure, conformation, and dynamics in organic and biological chemistry. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; recommended: either CHEM 455 or CHEM 475. Offered: A.

**CHEM 461 Physical Chemistry Laboratory (3) NW** Physical measurements in chemistry. Vacuum techniques, calorimetry, spectroscopic methods, electrical measurements. Prerequisite: either CHEM 453, or both CHEM 455 and CHEM 456, or both CHEM 456 and CHEM 475; recommended CHEM 457. Offered: ASpS.

**CHEM 462 Techniques of Synthetic Organic Chemistry (2-3) NW** Laboratory techniques of synthetic organic chemistry. Vacuum distillation, multistep synthesis, air sensitive reagents, photochemistry, chromatography, and separation techniques. Prerequisite: either CHEM 242 or CHEM 347; CHEM 460 which may be taken concurrently. Offered: A.

**CHEM 463 Spectroscopic Techniques for Structural Identification (2) NW** Laboratory techniques of spectroscopic analysis for structural determination using UV, IR, NMR, mass spectroscopy. Prerequisite: CHEM 460. Offered: W.

**CHEM 464 Computers in Data Acquisition and Analysis (3) NW** Introduction to use of the computer in the chemistry laboratory. Principles of microcomputers and their use for

such problems as data acquisition, noise reduction, and instrument control. Prerequisite: either CHEM 453, CHEM 455, or CHEM 475; MATH 136, or both MATH 307 and MATH 308. Offered: Sp.

**CHEM 465 Computations in Chemistry (3) NW** Computer calculations on color graphics workstations applied to problems in chemistry. Numerical methods and algorithms for calculating classical dynamics, quantum wavefunctions, wavepacket propagation, chemical kinetics. Use of computer programs for calculating electronic wavefunctions, molecular conformations, simulations of liquids and solids. Prerequisite: either CHEM 455 or CHEM 475, either of which may be taken concurrently. Offered: W.

**CHEM 475 Honors Physical Chemistry (3) NW** Introduction to quantum chemistry, spectroscopy. Theory of quantum mechanics applied more rigorously than in CHEM 455. Application of quantum mechanics to electronic structure of atoms and molecules. Computer software used to solve problems. Prerequisite: either CHEM 155, CHEM 162, or CHEM 164; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123; recommended: MATH 307; MATH 308. Offered: A.

**CHEM 484 Materials Chemistry (3) NW** Overview of basic principles, techniques, and applications associated with solid materials. Topics include description of crystals, examples of crystal structures, structural analysis, band structures of solid materials, preparation of materials, materials for microelectronics, and materials for information technology. Prerequisite: CHEM 453 or CHEM 455. Offered: jointly with MSE 484; A.

**CHEM 491 Study Abroad—Advanced Chemistry (1-15, max. 15) NW** For students in the UW study abroad program. Content varies and is individually evaluated. Credit does not apply to major degree requirements without departmental approval.

**CHEM 498 Teaching Chemistry (3) NW** Training in teaching chemistry laboratory and quiz sections. For chemistry and biochemistry majors, especially those planning graduate work or secondary education. Covers teaching strategies, student diversity, learning styles, grading, and interaction with students and faculty. Credit/no credit only. Offered: A.

**CHEM 499 Undergraduate Research and Report Writing (\*, max. 12)** Research in chemistry and/or study in the chemical literature. Credit/no credit only. Offered: AWSpS.

**CHEM 501 Readings in Chemistry (1, max. 9)** Individual meetings with faculty to discuss readings (journal articles, book chapters, proceedings) in the chemical sciences. Credit/no credit only. Offered: AWSpS.

**CHEM 502 Practical NMR Methods for Biological and Organic Structure Elucidation (4)** Theory of NMR (rotating frame formalism, multi-pulse experiments, relaxation phenomena, 2D experiments) as applied to structural and dynamic problems in organic and biological chemistry. Provides basis for experiment selection and spectrum interpretation. A more advanced treatment of NMR than 460. Prerequisite: CHEM 224, CHEM 239, or CHEM 337; recommended: CHEM 460 or equivalent, CHEM 435 or CHEM 455. Offered: W.

**CHEM 508 Advanced Inorganic Chemistry (3, max. 9)** Discussion of selected applications of physical techniques to the study of inorganic molecules. Topics include group theory, magnetic resonance spectroscopy (NMR and ESR), vibrational spectroscopy (IR and Raman), electronic spectroscopy, magnetism, and electrochemistry. Offered: A.

**CHEM 510 Current Problems in Inorganic Chemistry (3, max. 9)** Primarily for doctoral candidates in inorganic chemistry. Current topics (e.g., bioinorganic, advanced organometallic, materials and solid state, advanced inorganic spectroscopy). See department for instructor and topics during any particular quarter. Offered: Sp.

**CHEM 520 Current Problems in Analytical Chemistry (3, max. 9)** Primarily for doctoral candidates in analytical chemistry. Current topics (e.g., flow injection analysis, mass spectrometry, and advanced radiochemistry). See department for instructor and topics during any particular quarter. Offered: AWSpS.

**CHEM 522 Atomic and Molecular Analytical Spectroscopy (3)** Quantitative analysis of atomic and molecular species, using all forms of electromagnetic radiation, electrons, and gaseous ions. Offered: alternate years.

**CHEM 530 Advanced Organic Chemistry (3)** Fundamental aspects of organic structures and transformations. Structure and basicity of carbanions, substitution reactions, elimination reactions, nucleophilic addition and addition/elimination reactions, condensation reactions, structure and rearrangements of carbocations, electrophilic addition, electrophilic substitutions, neighboring group effects. Prerequisite: CHEM 337. Offered: A.

**CHEM 531 Advanced Organic Chemistry (3)** Synthetic organic chemistry. Discussion of practical methods for the synthesis of complex organic molecules with an emphasis on strategy and the control of stereochemistry. Prerequisite: CHEM 530. Offered: W.

**CHEM 532 Advanced Organic Chemistry (3)** Chemical Biology. Application of chemical methods to the study of biological processes that occur in cells. Prerequisite: CHEM 530 and CHEM 531. Offered: Sp.

**CHEM 540 Current Problems in Organic Chemistry (1-3, max. 12)** Primarily for doctoral candidates in organic chemistry. Discussions of topics of current interest and importance. See department for instructor and topic during any particular quarter.

**CHEM 550 Introduction to Quantum Chemistry (3)** Origins and basic postulates of quantum mechanics, solutions to single-particle problems, angular momentum and hydrogenic wave functions, matrix methods, perturbation theory, variational methods. Prerequisite: CHEM 455. Offered: A.

**CHEM 551 Introduction to Quantum Chemistry (3)** Electronic structure of many-electron atoms and molecules, vibration and rotation levels of molecules, effects of particle exchange, angular momentum and group theory, spectroscopic selection rules. Prerequisite: CHEM 550. Offered: W.

**CHEM 552 Statistical Mechanics (3)** General theorems of statistical mechanics, relation of the equilibrium theory to classical thermodynamics, quantum statistics, theory of imperfect gases, lattice statistics and simple cooperative phenomena, lattice dynamics and theory of solids, liquids, solutions, and polymers, time-dependent phenomena and mechanisms of interaction. Prerequisite: CHEM 455 and CHEM 456 (concurrent registration permitted) or equivalent. Offered: W.

**CHEM 553 Statistical Mechanics (3)** General theorems of statistical mechanics, relation of the equilibrium theory to classical thermodynamics, quantum statistics, theory of imperfect gases, lattice statistics and simple cooperative phenomena, lattice dynamics and theory of solids, liquids, solutions, and polymers, time-dependent phenomena and mechanisms of interaction. Prerequisite: CHEM 552. Offered: Sp.

**CHEM 560 Current Problems in Physical Chemistry (1-3, max. 12)** Primarily for doctoral candidates in physical chemistry. A discussion of topics selected from active research fields. See department for instructor and the topic during any particular quarter.

**CHEM 564 Organic Electronic and Photonic Materials/Polymers (3)** Physical and material concepts determining properties of organic electronic and photonic materials. Discusses electronic structure, physico-chemical characterization, and device application. Includes introduction of electronic band structure of polymers, electrically conducting polymers; organic nonlinear optical electroluminescent materials; polymer optical fibers; two-photon absorption materials for 3-D microfabrication. Offered: jointly with MSE 560.

**CHEM 581 Preparation for Second-Year Exam (3, max. 9)** Preparation for examination. Open only to students accepted for doctoral work in chemistry, in their second year of study. Credit/no credit only. Offered: AWSp.

**CHEM 590 Seminar in General Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 591 Seminar in Inorganic Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 592 Seminar in Analytical Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 593 Seminar in Organic Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 597 Nanotechnology Seminar (1, max. 18)** Emphasizes frontier research in nanoscience and nanotechnology and on intellectual interactions within the nanotechnology community. Presented by experts in the field, with most being from other institutions. Prerequisite: graduate standing and permission of instructor. Credit/No Credit only. Offered: jointly with BIOEN 518; AWSp.

**CHEM 600 Independent Study or Research (\*)** Prerequisite: permission of coordinator. Offered: AWSpS.

**CHEM 700 Master's Thesis (\*)** Prerequisite: permission of coordinator. Offered: AWSpS.

**CHEM 800 Doctoral Dissertation (\*)** Prerequisite: permission of coordinator. Offered: AWSpS.

## Classics

### DEPARTMENT OVERVIEW

218 Denny

The discipline of classics concerns itself with the cultures of ancient Greece and Rome from prehistoric times to the Middle Ages. The department is concerned with the Greek and Latin languages and their literatures, including poetry, drama, history, philosophy, rhetoric, and political theory, as well as with classical art and archaeology. The ancient cultures of Greece and Rome hold an extraordinary place in the American past and present, thanks to their central role in forming the basic conceptual categories that shape our intellectual, professional, and civic lives. The vast temporal and geographic gulf that divides these ancient cultures from modernity brings students and scholars of classics face to face with the otherness of antiquity and forces a critical examination of our own cultural roots.

### UNDERGRADUATE PROGRAM

#### Adviser

218 Denny, Box 353110

206-543-2266

[clasdept@uw.edu](mailto:clasdept@uw.edu)

The Department of Classics offers the following programs of study:

- The Bachelor of Arts degree with majors in classics, Greek, Latin, and classical studies.
- Minors in classical studies, Greek, Latin, and classics and ancient history.

The majors in classics, Greek, and Latin emphasize the development of expertise in Greek and Latin and can include coursework in the history, literature, philosophy, science, and the art and archaeology of these two contrasting but related cultures. Students who intend to continue their studies to the PhD degree are advised to take the B. A. in classics or, alternatively, the B. A. in Latin or Greek with as many courses in the second language as possible.

A fourth major, the Bachelor of Arts with a major in classical studies, is especially suited to students wishing to explore

the literature, history, art, archaeology, and philosophy of classical antiquity primarily through English translations. The classical studies major demands less study of the classical languages of Greece and Rome than is required for the other majors. Students with no previous exposure to Greek or Latin can complete the classical studies major in two years. Students have often combined this major with another major such as English, history, or art history, and even with a non-humanities major such as computer science, biochemistry, or economics.

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* First- and second-year Latin and/or classical Greek, classics in translation, ancient history, classical art and archaeology, ancient philosophy.

#### Department Admission Requirements

Students in good academic standing may declare this major at any time.

#### Major Requirements

66 credits in each of the majors, to include:

- *Greek:* 27 approved credits in Greek at the 400 level plus 9 credits chosen with department approval from courses in Latin, Greek at the 400 level, classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science. The major must include a minimum of 2 credits of CLAS 495.
- *Latin:* 27 approved credits in Latin at the 400 level plus 9 credits chosen with department approval from courses in Greek, Latin at the 400 level, classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science. The major must include a minimum of 2 credits of CLAS 495.
- *Classics:* 15 approved credits in Greek at the 400 level and 15 approved credits in Latin at the 400 level; 6 additional credits (including 2 credits of CLAS 495) chosen from the following courses: Greek and Latin at the 400 level, classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science.
- *Classical Studies:* Greek or Latin through 307 or the equivalent; 36 additional credits chosen with department approval from the following courses: Greek and Latin at 400 level (including a minimum of 2 credits of CLAS 495), classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science. Classical studies is especially suited to students not preparing for graduate study in classics but wishing to explore the literature, history, art, archaeology, and philosophy of classical antiquity primarily through English translations.
- *Note:* Competence to take 400-level courses which count toward the Latin, Greek, and Classics majors generally requires four-to-six quarters (20-30 credits) of previous study.

### Minor

*Minor Requirements:* Minimum 25 credits as follows for each of the minors except Classics and Ancient History, which requires 30 credits:

- *Classical Studies:* 25 approved credits from classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science.
- *Greek:* Minimum 25 credits in Greek, including at least 6 credits at the 400 level (excluding GREEK 490).
- *Latin:* Minimum 25 credits in Latin, including at least 6 credits at the 400 level (excluding LATIN 490).

- **Classics and Ancient History:** 30 credits from the course list below, including at least 20 upper-division credits (15 of which must be taken at the UW). 100-level credit is not accepted. Minimum 10 credits from each department (Classics and History). A minimum grade of 2.0 is required in each course. Not available to students pursuing majors or other minors in classics. **Courses:** CLAS 210, CLAS 320, CLAS 322, CLAS 324, CLAS 326, CLAS 328, CLAS 330, CLAS 424, CLAS 427, CLAS 428, CLAS 430, CLAS 432, CLAS 435, CLAS 445, CLAS 496 (except when topic is medieval); CL AR 340, CL AR 341, CL AR 342, CL AR 343, CL AR 442, CL AR 443, CL AR 444, CL AR 446, CL AR 447, CL AR 448; GREEK (all upper-division courses except GREEK 300 and GREEK 301); LATIN (all upper-division courses except LATIN 300, LATIN 301, LATIN 401, and LATIN 402); HSTAM 205, HSTAM 302, HSTAM 312, HSTAM 313, HSTAM 314, HSTAM 330, HSTAM 401, HSTAM 402, HSTAM 403; HIST 490 (when topic is ancient), HIST 498 (when topic is ancient).

## Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The undergraduate study of classics emphasizes critical analysis of language and culture and clear and effective writing. The B.A. with a major in classics is a respected terminal degree in itself. Like other degree programs in the humanities, it emphasizes the acquisition of those analytic and communications skills which are indispensable for careers in government, journalism, law, industry, medicine, and business. The classics major (especially in its more language-intensive forms) is often a mark of distinction when a graduate applies for admission to professional school. Many who take the bachelor's degree in classics go on to pursue graduate work in the subject at leading PhD programs. Graduates include winners of prestigious national awards such as Mellon Fellowships for graduate study and the Rhodes Scholarship.
- **Instructional and Research Facilities:** The departmental office provides access to several computers for research and coursework. The Classics Department sponsors numerous lectures by distinguished speakers visiting from universities in this country and abroad; undergraduates are always welcome to attend.
- **Honors Options Available:** College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements). For Interdisciplinary Honors, see University Honors Program.
- **Research, Internships, and Service Learning:** None offered.
- **Department Scholarships:**
  - **Jim Greenfield Undergraduate Scholarship** is intended for undergraduate majors in Classics. The object of the Jim Greenfield scholarship is to enable exceptionally well-qualified students to devote the maximum time and energy to their study of the Classics at the University of Washington. While the first criterion is academic promise, an applicant's current means of support is also taken into consideration; therefore, the amount of the award may vary from partial tuition to full tuition and some expenses. Successful candidates may reapply for the following year.
  - **Jim Greenfield Undergraduate Travel Bursaries:** Jim Greenfield Undergraduate Travel Bursaries may be used for the department's Rome Program, for travel associated with participation in archaeological excavations, for independent travel to areas of classical interest, or for other kinds of study-related travel for which the applicant can make a cogent case. In some cases an award might allow a student to remain overseas for study travel in the wake of the department's Rome Program. Further information about applying

for a Jim Greenfield Undergraduate Travel Bursary is available in the department office.

- **Student Organizations/Associations:** None

### Of Special Note:

- CLAS 101, CLAS 102, CLAS 205, and HIST 111 may not be taken in fulfillment of major requirements for baccalaureate degrees in the Department of Classics.
- **Classical Seminar in Rome:** During spring quarter, the department offers instruction in classics for advanced undergraduate majors and graduate students at the University of Washington Rome Center, located in the Palazzo Pio on the Campo de Fiori.

## GRADUATE PROGRAM

### Graduate Program Coordinator

218 Denny, Box 353110

206-543-2266

[clasdept@uw.edu](mailto:clasdept@uw.edu)

The Department of Classics offers programs of graduate study leading to the Master of Arts and Doctor of Philosophy degrees. The MA degree may be in Greek, Latin, or classics (a combination of Greek and Latin). The PhD degree requires both Greek and Latin.

The program of formal instruction ensures comprehensive and thorough training in the basic disciplines needed for teaching and research. The department offers courses in the major writers and periods of literature, philosophy, and history, in classical art and archaeology, and in Greek and Latin linguistics. The courses in Greek and Latin literature include many works on the PhD-degree reading list. Seminars introduce research techniques through the study of more specialized topics, which vary from quarter to quarter. Students may include in their programs courses and seminars given by other departments in such subjects as ancient philosophy, ancient and medieval history, comparative literature, and linguistics.

## Master of Arts

### Admission Requirements

Strong preparation in Latin and Greek, preferably a full undergraduate major. Although the MA may be attained with work in only one of the languages, students who plan to work toward the PhD must be prepared to do graduate work in both Latin and Greek.

### Degree Requirements

36 credits, as follows:

- 27 credits in courses and seminars approved by the department as applicable toward an advanced degree and either a) 9 additional credits and a research paper or b) a thesis (9 credits). At least 18 of the total 36 credits must be at the 500 level or above.
- Competence in reading German, French, or Italian, demonstrated by passing a departmental examination.

## Doctor of Philosophy

### Admission Requirements

Strong preparation in Latin and Greek, preferably a full undergraduate major. Admission to the PhD program is granted after completion of the MA degree.

### Degree Requirements

90 credits, as follows:

- Minimum three academic years of graduate study, of which at least two must be at the UW, and one in full-time residence at the University for three out of four consecutive quarters.

- 90 credits in courses approved by the department. At least half (which include dissertation credits) must be at the 500 level or above.
- Competence in reading German and French, or German and Italian, demonstrated by passing departmental examinations.
- Graduate courses (or the equivalent) in Greek and Latin composition.
- The Classics proseminar (or equivalent).
- Written preliminary examinations:
  - Translation exams on Greek and Latin literature. Reading lists in each language guide the student's preparation for these exams.
  - A written examination on a special field of classical studies, e.g.; a period of Greek or Roman history, Greek or Latin epigraphy, Athenian or Roman topography, Greek or Roman religion, classical linguistics, metrics, or palaeography, an area of intellectual history, a literary theme or cultural institution. This examination must be taken before the doctoral orals but is preferably taken earlier in the student's graduate program.
  - Written examinations on two special authors, one Greek and one Latin, which assume a deep familiarity with the text, a knowledge of the textual history, and the important secondary works and trends in scholarship. A special author examination may be taken only after the translation examination in that language has been passed.
- An oral general examination on Greek and Roman history, literature, philosophy, and related subjects.
- A dissertation approved by the student's supervisory committee, and an oral examination on the dissertation.
- Graduate students are expected to have teaching experience before completing their terminal degrees.

## Research Facilities

The Suzzallo Library has an extensive classics collection. The department's seminar room in Denny Hall, which is available to graduate students for their study and research, contains an excellent non-circulating library with such reference works as Pauly-Wissowa, L'Année Philologique, the Thesaurus Linguae Latinae, the Müller Handbuch series, the Teubner and Oxford texts, commentaries on the classical authors, standard collections of inscriptions and fragments, and a number of important serials. The department also possesses a license for the Thesaurus Linguae Graecae, Thesaurus Linguae Latinae, and other databases.

## Teaching Assistantships

A number of teaching assistantships as well as the Jim Greenfield Graduate Fellowship are available. Assistants teach sections of elementary Latin and Greek, a course in Latin and Greek derivatives, hold discussion sections in classical literature in translation, or assist faculty members with other courses. The teaching load is four to six hours a week throughout the academic year.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

## Classical Archaeology

**CL AR 340 Pre-Classical Art and Archaeology (3) VLPA** Survey of the art and the other material remains of the civilizations in the Aegean from the Neolithic Age to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece, illustrated

by slides. The history, techniques, and results of significant excavations are examined. Offered: jointly with ART H 340.

**CL AR 341 Greek Art and Archaeology (3) VLPA** *Bliquez* Survey of the material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the geometric to the Hellenistic periods, illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct the material culture of antiquity. Offered: jointly with ART H 341.

**CL AR 342 Roman Art and Archaeology (3) VLPA** *Harmon* Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with ART H 342.

**CL AR 343 Hellenistic Art and Archaeology (3) VLPA** Survey of the art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting, mosaics, and minor arts examined in lectures illustrated with slides. Offered: jointly with ART H 343.

**CL AR 442 Greek Painting (3) VLPA** Study of painted decoration on Greek vases, with emphasis on stylistic developments and cultural and historical influences. Painting on other media also examined as evidence allows. Offered: jointly with ART H 442.

**CL AR 443 Roman Painting (3) VLPA** Study of surviving painting from the Roman World, with emphasis on wall paintings from Pompeii and Herculaneum. Principal topics for discussion: the four styles of Pompeian painting the dependence of Roman painters on Greek prototypes, and the significance of various kinds of painting as domestic decoration. Offered: jointly with ART H 443.

**CL AR 444 Greek and Roman Sculpture (3) VLPA** History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC. Offered: jointly with ART H 444.

**CL AR 446 Greek Architecture (3) VLPA** Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with ARCH 454/ART H 446.

**CL AR 447 The Archaeology of Early Italy (3) VLPA** *Harmon* Study of the principal archaeological sites of early Italy, including Etruria, Sicily, southern Italy, and archaic Rome up to the Republican period. Attention given to the material remains and their relationship to the Etruscan, ancient Sicilian, and early Roman civilizations. Offered: jointly with ART H 447.

**CL AR 448 The Archaeology of Italy (3) VLPA** *Harmon* Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with ART H 448.

**CL AR 513 Athenian Topography (5)** Detailed consideration of the topography and monuments of ancient Athens from the beginning through the Roman period.

**CL AR 541 Seminar in Greek and Roman Art (3)** In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with ART H 541.

## Classical Linguistics

**CL LI 501 Comparative Phonology of Greek and Latin (5)** *Harmon, Levaniouk* Phonological developments of Greek and Latin from Indo-European to the classical periods of both languages.

**CL LI 503 History of the Greek Language (5)** *Levaniouk* Morphological and syntactical development of the Greek language from Homer through the New Testament; the development of prose and poetic style.

**CL LI 505 History of the Latin Language (5)** *Harmon, Levaniouk* Morphological and syntactical development of the Latin language; the development of Latin as a literary language.

**CL LI 506 Italic Dialects (5)** *Harmon, Levaniouk* Principal remains of the non-Latin languages and dialects of ancient Italy.

**CL LI 508 Greek Dialects (5)** *Levaniouk* The non-Attic dialects of ancient Greek, based on a study of inscriptions and the literary remains.

## Classics

Upper-division classics courses in English (300 and 400 level) in the Department of Classics do not generally have prerequisites. Most 400-level courses deal with a single genre of literature or with a limited area of classical studies. The 300-level courses deal with broader subjects at a relatively advanced level. Both are primarily for juniors and seniors, but they are open to freshmen and sophomores with an interest or background in the subject of the course.

**CLAS 101 Latin and Greek in Current Use (2) VLPA** Designed to improve and increase English vocabulary through a study of the Latin and Greek elements in English, with emphasis on words in current literary and scientific use. No auditors. Knowledge of Latin or Greek is not required. Offered: AWSpS.

**CLAS 102 Grammar and Syntax through Latin (3) VLPA** Improve familiarity with basic grammar, syntax, logic through study of mechanics of the Latin language. For Educational Opportunity Program students only. No auditors. Knowledge of Latin or Greek not required.

**CLAS 122 Gateway to the Ancient Greco-Roman World (5) VLPA** Introduces students to aspects of Ancient Greek and/or Roman literature and culture. Develop understanding of the nature and process of critical thinking and basic research techniques.

**CLAS 205 Bioscientific Vocabulary Building From Latin and Greek (3) VLPA** Designed to help the student master the scientific vocabulary of his or her particular field by a study of the Latin and Greek roots that are used to create the majority of scientific terms. No auditors. Knowledge of Latin or Greek is not required. Offered: AWSpS.

**CLAS 210 Greek and Roman Classics in English (5) VLPA** *Bliquez, Blondell, Clauss, Connors, Gowing, Harmon, Hinds, Kamen, Levaniouk, Power, Stroup* Introduction to classical literature through a study of the major Greek and Latin authors in modern translation. Offered: AWSp.

**CLAS 320 Greek and Roman Private and Public Life (5) I&S/VLPA** *Bliquez* Study of the civic and social practices and institutions of everyday Greek and Roman private and public life, including the family, social classes, the courts and legal systems, military service and war, technology and the trades, money and banking, agriculture and rural life. Many lectures illustrated by slides. Offered: A.

**CLAS 324 Greek and Roman Athletics (3) I&S** Greek and Roman athletic festivals and events, and the place of athletes and sport in ancient society.

**CLAS 326 Women in Antiquity (5) I&S/VLPA** *Connors, Levaniouk* A broad survey of primary sources in medicine, law, philosophy, religious ritual, myth, history, and ethnography, informed by perspectives from literature, art, and archaeology. Provides students the tools to analyze the social roles of women in ancient Greece and Rome.

**CLAS 328 Sex, Gender, and Representation in Greek and Roman Literature (3) I&S/VLPA** *Hinds, Stroup* Affirmation and inversion of gender roles in Greek and Roman literature, myths of male and female heroism; marginalization of female consciousness; interaction of gender, status, and sexual preference in love poetry. Readings from epic, drama, historiography, romance, and lyric.

**CLAS 330 The Age of Augustus (5) I&S/VLPA** *Gowing* Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14). Includes readings in Augustan authors such as Vergil, Ovid, and Horace as

well as the study of Augustan art and architecture. Offered: jointly with HSTAM 330.

**CLAS 399 Study Abroad: Classics (3-15, max. 20) VLPA** For participants in Classics overseas study programs. Specific course content determined by assigned faculty member. Credit not applicable to majors in the Classics Department without approval.

**CLAS 405 Undergraduate Seminar in Classics (5, max. 15) VLPA** Seminar on a broadly defined topic in classics. Includes reading in Latin or Greek as appropriate for individual students. Additional readings of works in English translation and works of scholarship chosen to give undergraduate majors familiarity with research methods and perspective on the discipline.

**CLAS 422 Greek Historians and Philosophers in English (5) I&S/VLPA** Uses Plato's Republic as a core text to explore a range of issues of ancient and contemporary interest, such as justice, political theory, education, gender, and the nature of the soul. Besides the Republic and other works of Plato, reading are taken from Homer, Hesiod, the dramatists, and other authors. Taught in English.

**CLAS 424 The Epic Tradition (5) VLPA** *Clauss, Levaniouk* Ancient and medieval epic and heroic poetry of Europe in English: the *Iliad*, *Odyssey*, and *Aeneid*; the *Roland* or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies according to instructor's preference. Offered: jointly with C LIT 424.

**CLAS 427 Greek and Roman Tragedy in English (5) VLPA** *Stroup* Study of the development of Greek and Roman tragedy, with extensive readings in representative plays of Aeschylus, Sophocles, Euripides, and Seneca.

**CLAS 428 Greek and Roman Comedy in English (5) VLPA** *Stroup* Readings from the comedies of Aristophanes, Plautus, and Terence.

**CLAS 430 Greek and Roman Mythology (3/5) VLPA** Principal myths found in classical and later literature. Offered: AWSp.

**CLAS 432 Classical Mythology in Film (3/5) VLPA** *Clauss* Comparison and discussion of classical myths and modern films inspired by them. Promotes access to the reading of classical mythology. Analyzes significant differences between ancient literary and modern cinematographic representations of the myth.

**CLAS 435 The Ancient Novel (3) VLPA** *Connors* Reading and discussion of the principal Greek and Roman novels, the earliest European prose fiction, with attention to earlier literature and to imperial culture.

**CLAS 445 Greek and Roman Religion (5) I&S/VLPA** *Harmon, Hollmann, Levaniouk* Religion in the social life of the Greeks and Romans, with emphasis placed on their public rituals and festivals. Attention is given to the priesthods, personal piety, rituals of purification and healing, and the conflict of religions in the early Roman Empire. Many lectures illustrated by slides. Recommended: RELIG 201. Offered: jointly with RELIG 445.

**CLAS 490 Supervised Study (1-6, max. 18)** Individual study in classical topics by arrangement.

**CLAS 495 Senior Essay (1-3, max. 4) VLPA** Usually written in conjunction with another course in the final year of study in the major.

**CLAS 496 Special Topics (2-5, max. 15) VLPA** Offered occasionally by visitors or resident faculty.

**CLAS 520 Seminar (5, max. 45)** Advanced comparative work on Greek and Latin materials studied in both original languages.

**CLAS 525 Proseminar (5)** Introduces graduate students to the chief subfields, together with their various methodologies and resources, of the broad discipline of classical studies.

**CLAS 540 Topics in Greek and Latin Literary History (5, max. 25)** Reading of a range of Greek and Latin texts by various authors.

**CLAS 700 Master's Thesis (\*)**

**CLAS 800 Doctoral Dissertation (\*)**

## Greek

**GREEK 101 Elementary Greek (5)** An intensive study of grammar, with reading and writing of simple Attic prose. First in a sequence of three. Offered: A.

**GREEK 102 Elementary Greek (5)** An intensive study of grammar, with reading and writing of simple Attic prose. Second in a sequence of three. Prerequisite: GREEK 101. Offered: W.

**GREEK 103 Elementary Greek (5)** Reading of selections from classical Greek literature. Third in a sequence of three. Prerequisite: GREEK 102. Offered: Sp.

**GREEK 300 Greek Language, Accelerated (5)** Intensive introduction to Attic Greek. Not accepted as upper-division credit toward a major in Greek or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if GREEK 101 already taken. Offered: W.

**GREEK 301 Greek Language, Accelerated (5)** Intensive introduction to Attic Greek. Not accepted as upper-division credit toward a major in Greek or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if GREEK 101 already taken. Prerequisite: GREEK 300. Offered: Sp.

**GREEK 305 Attic Prose (5) VLPA** Translation of selections from Attic prose; elementary exercises in Attic prose composition. Recommended: GREEK 103, GREEK 301, or equivalent.

**GREEK 306 Attic Prose (5) VLPA** Translation of selections from Attic prose; elementary exercises in Attic prose composition. Prerequisite: GREEK 305.

**GREEK 307 Homer (5) VLPA** Translation of selections from the *Iliad* or the *Odyssey*; Attic prose composition, metrics. Prerequisite: GREEK 306. Offered: Sp.

**GREEK 308 Introduction to Koine Greek Texts (3) VLPA** Williams Reading and discussion of selected religious and philosophical texts from Koine Greek.

**GREEK 405 Undergraduate Seminar in Classics (5, max. 15) VLPA** Seminar on a broadly defined topic in classics. Includes reading in Latin or Greek as appropriate for individual students. Additional readings of works in English translation and works of scholarship chosen to give undergraduate majors familiarity with research methods and perspective on the discipline.

**GREEK 413 The Pre-Socratic Philosophers (3) VLPA** Blondell Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 414 Plato (3) VLPA** Blondell Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 415 Aristotle (3) VLPA** Blondell Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 422 Herodotus and the Persian Wars (3) VLPA** Bliquez, Hollmann, Kamen, Levanouk Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 424 Thucydides and the Peloponnesian War (3) VLPA** Bliquez, Kamen Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 426 Attic Orators (3) VLPA** Bliquez, Kamen Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 428 Imperial Greek Literature (3–5, max. 15) VLPA** Clauss, Gowing, Hollmann Readings in imperial Greek prose and poetry from the first century CE onward, including Dio

Chrysostom, Appian, Plutarch, Aelius Aristides, Lucian, Athenaeus, and New Testament Koine. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 442 Greek Drama (3) VLPA** Blondell, Levanouk Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 443 Greek Drama (3) VLPA** Blondell, Levanouk Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 444 Greek Drama (3) VLPA** Blondell, Levanouk Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 449 Greek Epic (3) VLPA** Levanouk Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 451 Lyric Poetry (3) VLPA** Blondell, Levanouk Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 453 Pindar: The Epinician Odes (3) VLPA** Levanouk Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 461 Early Greek Literature (3–5, max. 15) VLPA** Readings and discussion of selected authors of the early Greek period. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 462 Literature of Classical Athens (3–5, max. 15) VLPA** Readings and discussion of selected authors of classical Athens. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 463 Hellenistic Greek Literature (3–5, max. 15) VLPA** Clauss Readings and discussion of selected authors of the Hellenistic Age. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 490 Supervised Study (\*, max. 18)** Special work in literary and philosophical texts for graduates and undergraduates. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 500 Grammar and Composition (5) Bliquez, Blondell** Translation of passages from English to Greek for the purpose of acquiring advanced knowledge of the grammar and the style of the classical tongue.

**GREEK 501 Homer (5) Levanouk** Readings from the *Iliad* or the *Odyssey*.

**GREEK 503 Aristophanes (5) Bliquez** Select comedies.

**GREEK 504 Plato (5) Blondell** The Republic or other dialogues.

**GREEK 506 Aristotle (5) Blondell**

**GREEK 508 Lysias and Demosthenes (5) Bliquez, Kamen** Select speeches, oratorical theory, historical questions.

**GREEK 510 Greek Historians (5, max. 10) Bliquez, Hollmann**

**GREEK 512 Greek Tragedy (5, max. 10)** Aeschylus, Sophocles, and/or Euripides.

**GREEK 515 Greek Epigraphy (5) Kamen** Selected inscriptions from various Greek states and sanctuaries and evidence they provide for religious and social practices, literature, and political history. Classification and editing of inscriptions, and epigraphical techniques.

**GREEK 520 Seminar (5, max. 45)**

**GREEK 540 Topics in Greek Literary History (5, max. 25)** Reading of a range of Greek texts by various authors.

**GREEK 590 Supervised Study (\*, max. 18)** Prerequisite: permission of graduate program coordinator.

**GREEK 600 Independent Study or Research (\*)**

## Latin

**LATIN 101 Elementary Latin (5)** An intensive study of grammar, with reading and writing of simple Latin prose. First in a sequence of three. Offered: A.

**LATIN 102 Elementary Latin (5)** An intensive study of grammar, with reading and writing of simple Latin prose. Second in a sequence of three. Prerequisite: LATIN 101. Offered: W.

**LATIN 103 Elementary Latin (5)** Reading of selections from classical Latin literature. Third in a sequence of three. Prerequisite: LATIN 102. Offered: Sp.

**LATIN 300 Latin Language, Accelerated (5)** Intensive introduction to classical Latin. Not accepted as upper-division credit toward a major in Latin or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if LATIN 101 already taken. Offered: W.

**LATIN 301 Latin Language, Accelerated (5)** Intensive introduction to classical Latin. Not accepted as upper-division credit toward a major in Latin or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if LATIN 101 already taken. Prerequisite: LATIN 300. Offered: Sp.

**LATIN 305 Introduction to Latin Literature (5) VLPA** Readings in prose and poetry from various Latin authors; elementary exercises in Latin prose composition. Recommended: LATIN 103, LATIN 301, or equivalent. Offered: A.

**LATIN 306 Cicero and Ovid (5) VLPA** Readings from the orations of Cicero and the poetry of Ovid; elementary exercises in Latin prose composition. Prerequisite: LATIN 305. Offered: W.

**LATIN 307 Vergil (5) VLPA** Selections from the first six books of the *Aeneid*; elementary exercises in Latin prose composition or metrics. Prerequisite: LATIN 306. Offered: Sp.

**LATIN 401 Medieval Latin Literature to 1200 (3) VLPA** Hinds Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or renaissance Latin texts in their research. Recommended: LATIN 306.

**LATIN 402 Later Medieval and Renaissance Latin Literature (3) VLPA** Hinds Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or renaissance Latin texts in their research. Recommended: LATIN 306.

*Recommended background for the following 400-level Latin courses is four years of high-school Latin, LATIN 307, or permission of instructor.*

**LATIN 405 Undergraduate Seminar in Classics (5, max. 15) VLPA** Seminar on a broadly defined topic in classics. Includes reading in Latin or Greek as appropriate for individual students. Additional readings of works in English translation and works of scholarship chosen to give undergraduate majors familiarity with research methods and perspective on the discipline.

**LATIN 412 Lucretius (3) VLPA** Blondell, Clauss Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 414 Seneca (3) VLPA** Blondell, Stroup Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 422 Livy (3) VLPA** Clauss, Gowing Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 423 Cicero and Sallust (3) VLPA** Clauss, Gowing, Stroup Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 424 Tacitus (3) VLPA** Clauss, Gowing Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 447 Roman Lyric (3) VLPA** *Clauss, Harmon* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 449 Roman Elegy (3) VLPA** *Harmon, Hinds* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 451 Roman Satire (3) VLPA** *Connors, Stroup* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 457 Roman Drama (3) VLPA** *Connors* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 458 Roman Epic (3) VLPA** *Clauss, Connors, Harmon, Hinds* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 461 Latin Literature of the Republic (3–5, max. 15) VLPA** Readings and discussion of selected authors from the era of the Roman Republic. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 462 Latin Literature of the Augustan Age (3–5, max. 15) VLPA** Readings and discussion of selected authors from the Augustan era. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 463 Latin Literature of the Empire (3–5, max. 15) VLPA** Readings and discussion of selected authors from the Roman Empire. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 465 Roman Topography and Monuments (5, max. 10) VLPA** *Clauss, Gowing, Harmon, Stroup* Study of the material remains of ancient Rome from the archaic period through the imperial age. Reading of source materials and inscriptions in Latin. Conducted in Rome. Recommended: minimum of two years of Latin language study at college level (or equivalent). Offered: Sp.

**LATIN 490 Supervised Study (\*, max. 18)** Special work in literary and philosophical texts for graduates and undergraduates. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 500 Grammar and Composition (5)** *Clauss, Gowing, Hinds, Stroup* Translation of passages from English to Latin for the purpose of acquiring advanced knowledge of the grammar and style of the classical tongue.

**LATIN 501 Vergil (5)** *Clauss, Harmon, Hinds*

**LATIN 502 Horace (5)** *Clauss, Harmon*

**LATIN 503 Plautus and Terence: Early Republican Literature (5)** *Blondell, Connors, Stroup*

**LATIN 504 Philosophy at Rome (5)** *Blondell, Stroup* Selected philosophical works of Cicero and other sources for Hellenistic and Roman philosophy.

**LATIN 506 Cicero (5)** *Gowing, Stroup* Select speeches, with attention to rhetorical theory and/or letters.

**LATIN 508 Silver Latin Literature (5)** *Connors, Hinds*

**LATIN 510 Roman Historians (5, max. 10)** *Clauss, Gowing*

**LATIN 512 Augustan Poetry (5, max. 15)**

**LATIN 520 Seminar (5, max. 45)**

**LATIN 540 Topics in Latin Literary History (5, max. 25)** Reading of a range of Latin texts by various authors. Offered: AWSpS.

**LATIN 565 Seminar in Rome (5, max. 10)** *Clauss, Gowing, Harmon, Stroup* Study of selected topics and authors in Latin literature. Conducted in Rome.

**LATIN 590 Supervised Study (\*, max. 18)** Prerequisite: permission of graduate program coordinator.

**LATIN 600 Independent Study or Research (\*)**

## Communication

### DEPARTMENT OVERVIEW

102 Communications

Communication is a process that creates and reveals meanings, relationships, and cultural patterns.

### UNDERGRADUATE PROGRAM

#### Adviser

118 Communications, Box 353740

206-543-8860

The Department of Communication offers the following programs of study:

- The Bachelor of Arts degree with a major in communication
- The Bachelor of Arts degree with a major in communication: journalism

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* COM 201, COM 202.

#### Department Admission Requirements

- Admission is competitive, based on information in the application packet, cumulative GPA, and grades in COM 201 and/or COM 202. Minimum cumulative 2.50 GPA ensures consideration, but not acceptance.
- Students are admitted quarterly - autumn, winter, and spring. Applications are due Monday, the third week of autumn, winter, and spring quarters. Applications and additional information are available on the Web and in 118 Communications. Students are notified of acceptance by the end of the fifth week of the quarter. If accepted, they can register for the next quarter as majors.
- Applications are available from the department website on the first day of the quarter. Applications should include application form, copies of transcripts and grade reports, and an essay explaining what led applicants to apply to the major.
- Option requirements:
  - *Standard Option:* Minimum 45 quarter credits completed (transfer students must complete at least 10 graded credits at UW). Credits must include completion of COM 201 and COM 202 or completion of one of these and current enrollment in the other.
  - *Journalism Option:* Completion of COM 201 or COM 202 required before application.

#### Major Requirements

*Communication:* 50 credits, to include the following:

- *Introductory courses (10 credits):* COM 201 and COM 202.
- *Methods in inquiry (5 credits):* Examples of courses that apply include COM 382, COM 405, and COM 485. For full list, see department adviser or Web.
- *Area concentration (15 credits)* in one of the following: communication and culture, communication technology and society, international communication, political communication, rhetoric and critical studies, or social interaction. See advising office or Web for description of each area and lists of qualifying courses.
- *Electives (20 credits)* from the Department of Communication and from selected courses outside the department. See advising office or Web for electives list.

Of the 50 required credits specified above, at least 20 must be Communication courses at the 300 level or above, and

of those 20, at least 10 must be Communication courses at the 400 level (excluding COM 498/COM 499).

*Journalism Option:* A minimum of 59 credits, including the following:

- *Introductory courses (10 credits):* COM 201 and COM 202.
- *Skills/Competencies core (19 credits):* COM 360, COM 361, COM 362, and COM 363.
- *Law and Ethics core (10 credits):* COM 440 and COM 468.
- *Emphasis/Specialization (15 credits)* in one of the following areas: civic/public engagement, global affairs/development, and communication technology/science. See advising office or Web for description of each area and lists of qualifying courses.
- *Advanced Skills/Competencies (5 credits minimum):* See advising office or department website for list of qualifying courses.
- *Other requirements (15 credits):* 5 credits each in economics, political science, and history. See advising office for list of acceptable courses.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The Department of Communication prepares students for the challenges of a society that is informed, entertained, persuaded, and shaped by communication. The department seeks out and appeals to students from a variety of backgrounds and perspectives. It nurtures socially responsible, literate citizens who can interpret and evaluate images and messages they create and receive. It teaches students to think critically, respect diversity, communicate effectively, and develop the skills needed for the life-long learning that is central to successful careers and rewarding lives. Undergraduate study in communication has four pedagogical emphases: communication literacy, communication inquiry, theory and concepts, and community engagement.
- *Instructional and Research Facilities:* The Department of Communication has the following labs: Media Lab. News Lab. Observation Labs. It also has an Instructional Resources Center and video-editing facilities. Additionally, the department manages the following centers: The Dart Center, the Center for Communication and Civic Engagement, and the Resource Center for Cyberculture Studies. See the department website for further information.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* See adviser for details.
- *Department Scholarships:* None offered
- *Student Organizations/Associations:*
  - Society of Professional Journalists
  - Public Relations Student Society of America

## GRADUATE PROGRAM

### Graduate Program Coordinator

221 Communications, Box 353740

206-543-7269

[cominfo@uw.edu](mailto:cominfo@uw.edu)

Graduate study in communication engages students in the complexity of modern communication and its centrality to society and, in doing so, prepares them to become thoughtful scholars, teachers, practitioners, and leaders related to this field. The Department of Communication offers gradu-

ate programs leading to the degrees of Master of Arts, Doctor of Philosophy, and Master of Communication (MC).

Graduate study in the Department of Communication is guided by four related principles: intellectual and cultural pluralism, interdisciplinary theorizing, collaboration, and public scholarship. Coursework brings together humanistic and social scientific intellectual traditions through a unified core curriculum and a wide selection of graduate seminars. Research and teaching in the department focus on six interrelated areas: communication and culture, communication technology and society, international communication, social interaction, political communication, and rhetoric and critical studies.

The MA degree program provides training in research and scholarship and can be either preparation for doctoral study or a terminal degree. The MA degree requires a minimum of 45 credits of approved coursework and a research thesis. The PhD degree program develops conceptual and methodological capabilities in a substantive area of communication. The PhD degree requires completion of a minimum of 45 post-master credits, general examinations, and a dissertation demonstrating an original scholarly contribution to the field.

The Department of Communication also offers three MC degrees, each of which has specific requirements tailored to that degree. The general MC degree is targeted for mid-career communication professionals who seek to develop an understanding of communication theory related to a special area of interest. The MC in digital media is a professional degree focused on digital media content creation, management, and policy. Native Voices is an MC degree offered in conjunction with American Indian Studies. It is designed for documentary filmmakers who focus their work on subjects relevant to the Native American Community.

## Master of Arts

### Admission Requirements

- Minimum 3.00 or B GPA over the two most recent years guarantees consideration. However, average GPAs for the students admitted have been higher.
- MA applicants must show proof of completion of a bachelor's degree prior to starting the program, though it is common for applicants to be in their senior year of college when they apply to the MA program.
- Full-time status is strongly encouraged, but domestic U.S. residents who do not receive assistantships can enroll half-time.
- Students who wish to continue directly into the UW PhD program after completing the UW MA program should apply to the MA/PhD program.
- Note to U.S. permanent residents/immigrants (green card holders): Applicants who are not native speakers of English must submit TOEFL scores taken within the past two years. Only the following applicants are exempt from the TOEFL requirement: citizens of the United States, Australia, Canada, Ireland, New Zealand, or the United Kingdom and non-United States citizens who have received a bachelor's degree or higher from a U.S. institution or from institutions in the countries listed here. Applicants who are not U.S. citizens must also submit a TSE score to be considered for departmental funding. Permanent residency/immigrant status or a degree from the U.S. does not exempt one from this TSE requirement.

### Degree Requirements

45 credits minimum, to include:

- Two core courses (COM 500 and COM 501) during the first year of study.
- One additional methods course beyond COM 501

- Up to 5 credits of COM 594 in five different topics may count toward total, although COM 594 credits are not required for master's students.
- Up to 3 credits of COM 596 may count toward total. These credits are required for students with assistantships and optional for all others.
- Completion of the thesis (minimum 10 credits in COM 700) and oral defense.
- Specific courses should be selected in consultation with the supervisory committee.

## Master of Communication

### Admission Requirements

Admission requirements are the same as for the Master of Arts program (above).

### Degree Requirements

45 credits minimum, as follows:

- At least 12 credits in Communication courses at the 400 and 500 level.
- At least 15 credits outside the Department of Communication in a coherent substantive area of specialization.
- 10 credits in COM 600 to produce a professional project in an area of specialization for broadcast or publication.
- Passage of an oral defense of the project.
- The remaining credits necessary to meet the 45 credits for the degree should be selected in consultation with the supervisory committee.
- At least 21 credits must be at the 500- or 600-level.
- Up to 5 credits of COM 594 may count toward total, although COM 594 credits are not required for MC students.
- Up to 3 credits of COM 596 may count toward total. These credits are required for students with assistantships and optional for all others.

## Digital Media

The Master of Communication (MC) in Digital Media is a professional degree focused in three concentrations: digital media content creation, management, and policy. 45 credits minimum as follows:

- Three core courses: COM 529 (5), COM 546 (5), and COM 558 (5).
- Students may choose either to complete 45 credits of coursework or to complete 40 credits of coursework (including three core courses) and a final project worth 5 credits. Specific courses should be selected in consultation with the supervisory committee.

## Native Voices

45 credits, as follows:

- 20 credits in the Department of Communication:
  - 10 credits of 500-level communication courses. This is typically two 500-level seminars.
  - COM 600: 10 credits in documentary research and production. To be taken for completion of the final project.
- 25 credits in American Indian Studies/Native Voices: WOMEN 443 (5), AIS 501 (5), AIS 502 (5), AIS 503 (5), AIS 504 (5)

## Doctor of Philosophy

### Admission Requirements

- Minimum 3.00 or B GPA over the two most recent years guarantees consideration; however, GPAs for students admitted have been higher.

- PhD applicants must show proof of completion of a master's degree prior to starting the program, though applicants are commonly working on their master's thesis the year during which they apply.
- Full-time status is strongly encouraged, but domestic U.S. residents who do not receive assistantships can enroll half-time.
- U.S. permanent residents/immigrants (green card holders): Applicants who are not native speakers of English must submit TOEFL scores taken within the past two years. Only the following applicants are exempt from the TOEFL requirement: citizens of the United States, Australia, Canada, Ireland, New Zealand, or the United Kingdom and non-U.S. citizens who have received a bachelor's degree or higher from a U.S. institution or from institutions in the countries listed here. Applicants who are not U.S. citizens must also submit a TSE score to be considered for departmental funding. Permanent resident/immigrant status or a degree from the United States does not exempt one from this TSE requirement.

### Degree Requirements

Minimum 45 post-master credits, to include:

- Two core courses (COM 500 and COM 501) during the first year of study.
- Two additional methods courses beyond COM 501.
- 5 credits of COM 591 or COM 592
- 3 credits of COM 594 in three different topics, to be taken before the general examinations (up to five credits in five different topics may be taken).
- Up to 3 credits of COM 596 may count toward total. These credits are required for students with assistantships and optional for all others.
- Completion of the general examination. COM 600 credits do not count toward the 45 required post-master credits (unless student is a UW Communication MA).
- Completion of the dissertation (minimum 27 credits in COM 800 over at least three quarters) and final examination. These 27 credits do not count toward the 45 required post-master credits (or 30 required post-master credits for UW Communication MA students).
- Specific courses should be selected in consultation with the Supervisory Committee.

Students who completed their MA in Communication at the UW do not repeat the core courses, and need only 30 post-master credits, which can include COM 600 credits, and 3 credits of COM 594 in three different topics. Such students are required to take two methods courses beyond the minimum methods course requirements for the MA degree. COM 594 credits and additional methods courses beyond the minimum MA requirements taken during MA work may be used to fulfill the COM 594 and methods requirements for the doctoral program, but may not be applied to the 30 post-master credits.

## Research Facilities

In addition to the University's research facilities available to all students, the Department of Communication houses a collection of specialized research laboratories, including the Digital Media Lab, Graduate Computer Lab, Observational Research Facility, Instructional Resources Center, and Video Editing Lab.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsctat/](http://www.uw.edu/students/crsctat/)

**COM 201 Introduction to Communication I (5) I&S** Introduces students to four core principles that undergird the study and practice of communication—communication

literacy, research inquiry, theories and concepts, and community engagement. Principles discussed and developed in the context of international communication, political communication, and communication technology and society.

**COM 202 Introduction to Communication II (5) I&S/VLPA** Introduces students to four core principles that undergird the study and practice of communication—communication literacy, research inquiry, theories and concepts, and community engagement. Principles discussed and developed in the context of social interaction, rhetoric and critical studies, and communication and culture.

**COM 210 Introductory Communication Topics (5, max. 10)** Introduction to a specified area of communication scholarship.

**COM 220 Introduction to Public Speaking (5) I&S/VLPA** Designed to increase competence in public speaking and the critique of public speaking. Emphasizes choice and organization of material, sound reasoning, audience analysis, and delivery.

**COM 233 Introduction to Language and Society (5) VLPA** *Evans, Wassink* Provides an introduction to the study of language through culture and society, and raises and awareness of the role that society and the individual play in shaping language via the systematic observation and critical discussion of linguistic phenomena. Offered: jointly with ANTH 233/LING 233; A.

**COM 238 Rhetoric and Popular Culture (5) VLPA** Explores the rhetorical dimensions of popular culture (e.g., film, television, music, advertising, and video games) and their importance, albeit often tacit, political, and social implications. Themes include the ways popular culture shapes civic life, the influence of popular culture on identity, and the relationship between commerce and culture.

**COM 270 Interpersonal Communication (5) I&S/VLPA** Emphasizes analyzing and understanding communication variables affecting human relationships, such as person perception, feedback, idea development, nonverbal cues. Focus on informal communication settings.

**COM 289 Communication and Difference (5) I&S** Explores how communication - from face-to-face to mass media messages - reinforces or challenges certain conceptions of "difference" along racial, ethnic, gender, sexual, class, ability, religion, and other important lines. Examines communication practices, particularly media, shape our understanding of ourselves, our relationships, other, society, and the world.

**COM 300 Basic Concepts of New Media (5) I&S/VLPA** Provides a comprehensive examination of the effects of new, digital media on interpersonal communication, media industries, and media culture. Emphasis on economic, social, political, and aesthetic implications. Provides limited experience with computer-based media. No prior technical computer experience assumed.

**COM 301 Navigating Information Networks for Mass Media (5) I&S** Builds familiarity with computer-mediated information networks. Introduces and compares network search engines, agents, browsing/viewing tools and retrieval/transfer software for use by reporters and other media workers. Instruction and practice with searching/acquiring information, its analysis and interpretation, illustration, and write-up. No prior computer or network experience assumed.

**COM 302 The Cultural Impact of Information Technology (5) I&S/VLPA** Utilizing approaches from the history of technology, cultural studies, and literary theory, seeks to analyze the cultural and social impact of information technology. Considers how information technologies impact our relationships with others, our concept(s) of self, and the structure of the communities to which we belong. Offered: jointly with CHID 370.

**COM 304 The Press and Politics in the United States (5) I&S** Journalist's role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Offered: jointly with POL S 304.

**COM 305 The Politics of Mass Communication in America (5) I&S** Role of mass audiences in politics from the standpoint of the communication strategies used to shape their political involvement. Topics include: social structure and political participation, political propaganda and persuasion, the political uses of public opinion, and the mass media and politics. Offered: jointly with POL S 305.

**COM 306 Media, Society and Political Identity (5) I&S** Explores how society and culture are both represented in and shaped by communication technologies and media content. Media include film, advertising, news, entertainment television, talk shows, and the Internet. Explores how media represent and affect individual identity, values, and political engagement. Offered: jointly with POL S 306.

**COM 320 Public Speaking (5) I&S/VLPA** Practice in preparation and presentation of a variety of types of public speeches based on study of their structure and form; emphasis on organization and delivery. Prerequisite: COM 220.

**COM 321 Communications in International Relations (5) I&S** Looks at communications in relations between international groups and states. Examines the range of functions and roles communication media play in international affairs, global issues, and intergroup relations. Also examines the strategic use of communications by various groups. Offered: jointly with POL S 330.

**COM 322 Global Communication (5) I&S** Introduction to the history, purpose, channels, content, technologies, policy, and regulation of international communications systems. Issues covered include disparities in media development between post-industrial and developing nations, imbalances in international news and information flow, and the emergence of global communications. Offered: jointly with POL S 329.

**COM 329 Rhetoric of Social and Political Movements (5) I&S/VLPA** Inquiry into the rhetoric of social and political movements; emphasis on investigation of persuasive discourse; examination of the nonverbal symbols of persuasion.

**COM 331 The Rhetorical Tradition in Western Thought (5) I&S/VLPA** Analysis of the major theories that prescribe and describe the use of symbols to change attitudes and behavior. Principal emphasis is placed upon defining the nature and scope of rhetoric and upon analyzing the art's underlying assumptions about human beings as symbol users. Some background in history, philosophy, and literature is desirable.

**COM 332 History of Rhetoric (5) VLPA** Investigates how rhetoric has been theorized and taught since antiquity. Focuses on key thinkers and texts in the rhetorical tradition. Students learn to describe rhetorical theories of key thinkers, explain how rhetoric was understood and practiced in different historical societies, and explain how beliefs about rhetoric have changed over time.

**COM 334 Essentials of Argument (5) I&S/VLPA** Argument as a technique in the investigation of social problems; evidence, proof, refutation, persuasion; training in argumentative speaking.

**COM 339 The Business of Media in the Digital Age (5) I&S** *Neff* Examines the production of media within changing social, technological, and economic contexts. Emphasizes how new technologies can change the market for media goods and media experiences and the ways in which mediated production pervades contemporary economic life.

**COM 340 History of Mass Communication (5) I&S** History and development of communication from prehistoric times; rise of mass media; political and economic context of newspapers, radio, film, and television.

**COM 342 Media Structure (5) I&S** Industrial organization and culture; consumer and producer decisions; public policy toward media; workforce and unions. Media role in culture and political economy.

**COM 343 Effects of Mass Communication (5) I&S** Effects of mass communication on individuals and society. Relevant theories applied to research evidence, addressing such topics as effects of stereotypes, violent and sexual imagery,

and persuasive messages on our knowledge, attitudes, and behaviors.

**COM 351 Interviewing Principles and Practices (5) I&S/VLPA** Interviewing principles and practices, with emphasis on information gathering, selection, and persuasive interviews. Purposes and types of interviews, structure of interviews, and influence of communication patterns on interview outcomes.

**COM 359 Writing for Mass Media (5) I&S** Training in gathering information through interviews and observation and from written record and other public sources. Practice in organizing and writing this information for presentation in a mass medium such as a newspaper, newsletter, or magazine. Offered: AWSpS.

**COM 360 Introductory Multimedia Journalism (5) I&S** Introduction to newswriting and reporting for print media. Focus on defining news, general writing skills, constructing leads, preparing a variety of basic journalism news stories, interviewing techniques, covering beats, and journalistic style.

**COM 361 Advanced Multimedia Journalism (4) I&S** Provides training in the development of advanced-level skills needed to gather and present news in multimedia formats. Practice in information gathering, interviewing, photography, videography, and basic Web content production. Prerequisite: COM 360.

**COM 362 Community Journalism: News Lab (5) I&S** News-writing-skills course. Students gain real-world experience by producing news and feature stories for client papers in the Puget Sound Region. Involves considerable one-on-one work with the lecturer/editor. Requires writing and reporting skills. Prerequisite: COM 361.

**COM 363 Entrepreneurial Journalism Practicum (5) I&S** Requires students to identify a target audience in order to determine the kinds of multimedia news and feature content that meet informational needs of that audience; to create and distribute that content; and to encourage and assess audience response.

**COM 373 Communication in Small Groups (5) I&S/VLPA** Discussion as an everyday community activity, with emphasis on the informal cooperative decision-making methods of committee, conference, and roundtable groups.

**COM 374 Perspectives on Language (5) I&S/VLPA** Study of language and meaning, and survey of several influential modern approaches, including the semantic, general semantic, behavioral, and analytic philosophical. Relates theories of language and meaning to the study of speech communication.

**COM 375 Communication Ethics (5) I&S/VLPA** Ethical problems in interpersonal and public speech communication. Alternative ways of evaluating and responding to moral problems in a variety of communication situations.

**COM 376 Nonverbal Communication (5) I&S/VLPA** Reviews the nature of nonverbal communication as part of the human message system. Discusses research on the types of cues that are part of the nonverbal system, reviews some communicative functions allowed by nonverbal cues (e.g., emotional expressions, relational messages, deception, coordination, or interaction), and ties nonverbal communication to language.

**COM 382 Social Scientific Approaches to Communication Research (5) I&S** Comprehensive introduction to research methods employed in basic and applied communication research, including sample surveys, content analysis, experimentation, and elementary statistics.

**COM 389 Race, Gender, and Sexuality in the Media (5) I&S** Introduction to media representations of gender, race, and sexuality. Offered: jointly with AES 389/WOMEN 389.

**COM 395 Communication Internship (2-5, max. 5) Faculty-supervised study of communication principles in internship contexts. Readings to aid students in observations of communication concepts combined with individualized reading structured around topics of interest for each student.**

**COM 401 Telecommunication Policy and Convergent Media (5) I&S** Examines contemporary media and telecommunications industries since 1980 and their accelerating convergence. Attention given to economic, policy, and mass use issues. Review of major industry leaders, promising technologies, and new services. Social issues, government initiatives, and new legislation covered for both North American and international markets. Recommended: COM 301.

**COM 407 Communication Technology and Politics (5) I&S** Employs some core concepts of political communication and theories of democracy to examine the emerging role of information and communication technologies in candidate and issue campaigning; online voting; protest and advocacy movements; law-making and electronic governance in the United States and internationally. Offered: jointly with POL S 451.

**COM 411 Political Communication Seminar (5, max. 10) I&S** Contemporary topics studying how communication affects citizen engagement with public life. Offered: jointly with POL S 454.

**COM 414 Mass Media and Public Opinion (5) I&S** Examines the foundations of the idea of public opinion in a democratic environment and the role of mass communication in the organization, implementation, and control of that opinion. Considers these relationships from the perspectives of societal elites, media, and citizens. Offered: jointly with POL S 452.

**COM 417 Political Deliberation (5) I&S** Exploration of philosophical and empirical writings on political deliberation in small groups, campaigns, and other public settings. Contemporary deliberative theory. Participation in face-to-face discussions on current issues. Recommended: either COM 273 or COM 373. Offered jointly with POL S 455.

**COM 418 Communications and the Environment (5) I&S** Examines the role of mass media in the resolution of environmental problems. Topics include strengths and weaknesses of media coverage, use of media by environmental groups and government agencies, media effects on public opinion, and mass communication and social movements. Offered: jointly with ENVIR 418.

**COM 420 Comparative Media Systems (5) I&S** Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with SIS 419/POL S 468.

**COM 423 Communication and Social Change (5) I&S** Examines both theory and application involved in using communications media as a tool for addressing political, social, and economic development issues. Utilizes a case study approach to look at localized applications of traditional and new communications tools in the pursuit of sustainable development.

**COM 425 European Media Systems (5) I&S** Examines media systems in selected countries in Europe and policy issues that link (or divide) members of the European Union and other major media producers. Media studied in context of the contemporary economic, social, political, and cultural milieu in which they operate. Offered: jointly with EURO 425.

**COM 426 International Media Images (5) I&S** Ways in which media construct images of international peoples and events. Develops a set of critical tools for assessing media portrayals of international affairs and cultures.

**COM 431 Rhetorical Criticism (5) I&S/VLPA** Study of approaches to rhetorical inquiry that aid in the description, analysis, interpretation, and evaluation of discourse. Applies various critical models to a chosen artifact.

**COM 435 Historic American Public Address (5) I&S/VLPA** Rhetorical criticism of historical public speeches, essays, and declarations. Includes readings of public texts in their historical and political context to increase understanding of those texts, their rhetorical construction, and the culture from which they arose. Covers the beginnings of the nation to the middle of the 20th century.

**COM 436 Contemporary American Public Address (5) I&S/VLPA** Rhetorical criticism of contemporary public messages. Includes reading of public texts in their context to increase understanding of those texts, their rhetorical construction, and the culture from which they arose. Covers mid-20th century to the present.

**COM 440 Mass Media Law (5) I&S** Survey of laws and regulations that affect the print and broadcast media. Includes material on First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation, and matters relating to press coverage of the judicial system. Offered: jointly with POL S 461.

**COM 441 United States Media History (5) I&S** Development of mass communication in the United States with emphasis on role of mass media in politics, economics, gender, and race.

**COM 442 History of Media Technology and Regulation (5) I&S** Impact of pre-1980s media technologies—printing, telecommunications, broadcasting, photography, and more—on individuals and institutions, especially government, business, and the mass media. How laws and policies have changed to govern new media forms.

**COM 443 Indigenous Film, Sovereign Visions (5) VLPA/I&S** *Cote', Hart, Ross* Explores fiction, documentary, experimental film, and digital media from indigenous artists from around the world. Focuses on personal, political, and cultural expression. Issues include media and sovereignty movements, political economy, language revitalization, the politics of decolonization, and indigenous aesthetics. Offered jointly with AIS 443.

**COM 444 Public Relations and Society (5) I&S** Overview of issues, strategies, and role of public relations professionals in various areas of American society, including media relations, government relations, community affairs, and consumer relations.

**COM 445 Journalism and Literature (5) I&S/VLPA** Explores the relationship between journalism and fiction writing in the United States. Examines writers who began their careers as journalists and forged a fiction-writing philosophy related to what they learned in journalism. Readings in fiction and journalism.

**COM 451 Mass Media and Culture (5) I&S/VLPA** Empirical and theoretical framework for analyzing role of mass media in cultural change. Historical and contemporary cases consider ethnic, gender, class, and urban-rural conflicts and cultural roles of sports, elections, and national rituals. Focus on visual electronic media.

**COM 452 Crisis Communications (5) I&S** Study of the functions of communications professionals during crises. Covers public relations professionals as advocates for organizations and companies in crisis and the news media as advocates of the mass public. Discussion of cases.

**COM 459 Narrative Journalism (5) VLPA/I&S** *Kaplan* Introduces the rigorous reporting and literary writing techniques involved in narrative journalism. Concentrates on producing three narrative articles for publication in the online, reader-interactive magazine, *Narrative Journalist*.

Offered: jointly with CHID 459.

**COM 460 Special Reporting Topics (4, max. 8) I&S** Topics vary. Prerequisite: COM 360.

**COM 461 Computer-Assisted Journalism (5) I&S** Introduction to computer-assisted journalism and other advanced reporting techniques. Includes hands-on electronic data analysis, exploration of on-line investigative tools, and the fashioning of electronically-retrieved information into news stories. Students examine ethical and technical challenges these tools present to media and society. Prerequisite: COM 360.

**COM 463 Copy Editing and Design (5) I&S** Focus on editing copy for publications, covering grammar and style, production methods, news criteria, use of wire services, headlines, make-up and design, pagination, and online publication. Prerequisite: COM 360.

**COM 464 Opinion Writing (5) VLPA** Combines the teaching expertise of a Department of Communication faculty member with the professional expertise of an opinion-writing journalist. Students learn about and practice writing newspaper editorials, columns, and various forms of criticism in order to gain an understanding of the differences between news and opinion content in print journalism. Prerequisite: COM 360.

**COM 465 Legislative Reporting (12) I&S** Coverage of Washington legislature for a daily newspaper. Selected students live in Olympia, interview legislative delegations, report on committee and floor sessions, and attend and report on gubernatorial and other press conferences.

**COM 466 Digital Journalism (5) I&S** *A. Chan* Introduction to digital journalism. Integrates Web design, video, still, and sound to develop an Internet Webcast called DIA (Digital Interactive) News. Students serve as sole initiator of DIA news, utilizing journalistic standard of storytelling, video production, and editing and design. Prerequisite: COM 360.

**COM 467 Feature Writing (5) VLPA** Focuses on the many types of newspaper and magazine articles that do not fall into the category of hard news, including histories and back-grounders, how-to and explanatory, consumer information, statistical pieces, first-person, and participatory. Includes practice in writing these forms. How to market freelance manuscripts. Prerequisite: COM 361.

**COM 468 Journalism Ethics (5) I&S** *Simpson* Provides a method and substantive context based on ethical theory, media history, and value systems analysis for analyzing and resolving dilemmas raised by journalistic practices.

**COM 469 Intellectual Foundations of American Journalism (5) I&S** Examines the thinkers and philosophers who have influenced modern journalism. Studies the main ideas in the development of world thought and their impact on today's journalists. Explores the role communications systems have played in the creation of the world's cultures.

**COM 470 Discourse: Analyzing Talk and Texts (5) I&S/VLPA** A critical and practical introduction to contemporary theories/methods in discourse analysis: how verbal communication (together with visual communication) is used in conversational talk and mediated texts to construct identities and relationships; and how power and ideology are reproduced through these everyday social interactions. Offered: jointly with LING 470.

**COM 471 Persuasion (5) I&S/VLPA** Analysis of the ways in which beliefs, values, attitudes, and behavior are deliberately influenced through communication.

**COM 472 Empirical Approaches to Interpersonal Communication (5) I&S** Examination of theories and research on the development and deterioration of interpersonal relationships. Emphasis on the nature of interpersonal interaction, the role of language and nonverbal communication in relationships, functional and dysfunctional interaction patterns, and the dynamics of interpersonal networks.

**COM 473 Problems of Discussion Leadership (3) I&S/VLPA** Critical analysis of leadership in committee and conference, with emphasis on the development of speech effectiveness in the cooperative achievement of goals. Prerequisite: COM 373.

**COM 474 Communication, Conflict, and Cooperation (5) I&S/VLPA** Role of communication in resolving informal conflicts and in facilitating interpersonal and intergroup cooperation. Review of empirical literature. In-class simulations and exercises.

**COM 475 Organizational Communication (5) I&S/VLPA** Role of communication in organizations, the types of problems arising, and approaches to their resolution. Communication in the human relations and productivity of organizations. Applying communication skills in various organization roles.

**COM 478 Intercultural Communication (5) I&S** Investigates intercultural communication theory and its application for varying levels of human interaction: interpersonal, intergroup, and international.

**COM 480 Communication in Adolescent Environments (5) I&S/VLPA** Study of the communication process in youth environments with a primary focus on formal and informal learning. Includes critical analysis of communication in contemporary instructional settings and the development of communication strategies for teaching and learning.

**COM 482 Computer-Mediated Interpersonal Communication (5) I&S** Examination of relationships and groups formed through computer-mediated interpersonal communication. Focus on how people manage interactions and identities, develop interpersonal relationships, engage in collaboration and conflict, and develop communities in virtual environments. Involves both the study and use of network-based computer-mediated systems.

**COM 484 Cultural Codes in Communication (5) I&S/VLPA** Social and cultural codes in interpersonal communication, with special reference to contemporary American subcultural groups and their communication patterns.

**COM 485 Fieldwork in Communication Studies (5) I&S/VLPA** Theory and practice of participant observation, intensive interviewing, and discourse analysis in the study of communicative practices. Prerequisite: COM 484.

**COM 488 Race, Gender, and Power in Asian American Media (5) I&S** Examines the cultural, political, and social facets of Asian American media since 1915 within such key issues as racial and sexist stereotypes, white privilege and hegemony, identity, and agency and empowerment. Informed by critical theories of race and ethnicity.

**COM 489 Black Cultural Studies (5) I&S** Examines how images of Blackness have been (re)constructed. Topics include black women's bodies, black men's bodies, Black-face minstrelsy, black queer studies, black power, and black hybridities. Offered: jointly with AES 489/WOMEN 489.

**COM 490 Representing Beyond the Binaries: Mixing Race, Gender, and Sexuality in the Media (5) I&S** *Joseph* Cultural studies approach to examining the mixed formations that race, sexuality, and gender take in the contemporary United States media. Draws upon multi-disciplinary scholarship in examination of the media. Offered: jointly with AES 490/WOMEN 486.

**COM 491 Publication Design (5) I&S** *Rathe* provides basic theories of design for newspapers, magazines, and their online counterparts. Introduces a computer layout program. Areas of study include typography, photo editing, print production, and the page design process, stresses journalistic standards of writing, reporting, and ethics. Prerequisite: COM 361.

**COM 495 Special Topics in Communication (2-5, max. 15)** Lecture, seminar, and/or team study. Topics vary.

**COM 496 Honors Seminar (5) I&S/VLPA** Preparation for researching and writing senior honors thesis.

**COM 497 Honors Thesis (5, max. 15) I&S/VLPA** Researching and writing honors thesis.

**COM 498 Independent Research (1-5, max. 10)** Work on research projects designed and conducted by undergraduate students.

**COM 499 Directed Research (1-5, max. 10)** Work on research projects designed by faculty members.

**COM 500 Communication Theory Development (5)** Covers the philosophy behind theory development, discusses the basic components of theories, and reviews significant theoretical contributions in communication from social scientific and humanistic traditions. Introduces students to the process of conceptualization and theory design through reading and discussion of relevant bodies of communication scholarship.

**COM 501 Methods of Inquiry (5)** Overviews some of the most important methods of inquiry used to investigate communication phenomena. Includes textual criticism, content analysis, ethnography, experimentation, survey research, and historical approaches. Explores the utility of different methods for investigating research topics, defining and

measuring concepts, reading texts, and investigating theories.

**COM 502 Communication Scholarship and Public Life (5)** Examines potential connections between communication scholarship and government, markets, civil society, and the general public.

**COM 507 Interdisciplinary Communication Theory (5)** Introduces students to challenges, benefits, and processes of interdisciplinary research. Explores formation of disciplinary boundaries. Considers significant theories that have influenced communication research. Considers how synthetic theoretical arguments are made and how to integrate work from fields with different epistemologies.

**COM 509 Collaboration and Scholarship (5)** Examines the collaborative research process. Students identify and conceptualize a group project, carry it out, and present findings. Topic varies. Prerequisite: COM 501 or equivalent.

**COM 511 Content Analysis (5)** Content analysis as a technique for making inferences from texts. Includes quantitative, qualitative, and computer-assisted approaches to analysis.

**COM 512 Critical, Social, and Practice-Based Approaches (5)** Explores approaches to communication research developed from understandings of human communication as inherently social, grounded in tool-mediated action, and interwoven with power relations. Covers a range of theories that are associated with these approaches, and the implications of these theories for methods of data collection and analysis.

**COM 513 Fieldwork Research Methods (5-, max. 10)** Methods of fieldwork research in communication studies, with emphasis on participant observation, ethnography, and discourse analysis.

**COM 514 Critical Discourse Analysis (5)** Introduction to systematic analysis of linguistic and visual discourse in face-to-face and mediated talk and texts; critical examination of the reproduction of power, control, and ideology through linguistic and related semiotic practices of everyday life.

**COM 515 Rhetorical Criticism (5)** History and method of rhetorical criticism. Application of critical standards to various rhetorical artifacts.

**COM 516 Descriptive and Analytic Communication Research Methods (5)** Development of the historical approach to communications research. Study of historical methods, bibliography, and criticism.

**COM 517 Survey Research (5)** Faculty-directed project in survey research in which basic principles of survey design, including sampling, observation, measurement, data analysis, and data interpretation, are all applied. Prerequisite: elementary statistics or permission of instructor.

**COM 520 Statistical Methods in Communication (5)** Reviews the steps taken in social scientific research on communication, with emphasis on the conceptualization, operationalization, and analysis of quantifiable variables. Highlights understanding of computer application of univariate and bivariate statistics, focusing on both parametric and nonparametric tests.

**COM 521 Advanced Statistical Methods in Communication (4)** Discusses complexities in quantitative research on communication. Focus on multivariate data design and analysis, including multiple and logistic regression, ANOVA and MANOVA, and factor analysis. Prerequisite: COM 520.

**COM 527 Global Communication Research Methods (5)** Methodological issues particular to the design or analysis of research that deals with data from different countries, cultures, or sub-cultures. Prerequisite: COM 501 or equivalent.

**COM 528 Designing Internet Research (5)** Focuses on designing Internet research, assessing the adaptation of proven methods to Internet tools and environments, and developing new methods in view of particular capacities and characteristics of Internet applications. Legal and ethical aspects of Internet research receive ongoing consideration.

**COM 529 Strategic Research and Business Practice (5)** Introduces and compares methods of inquiry into digital media industries, practitioners, and consumers. Develops theories and skills applicable in business decision-making processes, as well as in scholarly research.

**COM 530 Philosophical Issues in Rhetorical and Communication Theory (5)** Survey of selected philosophical controversies among speech communication theorists, and analysis of one philosopher's approach to communication. Topics include paradigm descriptions of communication, rhetoric and knowledge, linguistic analysis and communication, hermeneutics and dialogue.

**COM 531 Rhetoric in Society (5)** Selected works of major rhetorical theorists such as Aristotle, Cicero, Augustine, Campbell, Whately, Perelman, and Burke. Examines how rhetorical themes are responsive to and symptomatic of societal conditions and values.

**COM 532 Classical Rhetoric (5)** Development of the classical tradition in rhetorical theory, criticism, and pedagogy from the sophists to Augustine; analysis of the contributions of major figures and works to that tradition.

**COM 534 Studies in Contemporary Rhetoric (5)** Critical analysis of theories of twentieth-century rhetoric.

**COM 535 Critical Theory Applications in Communication (5)** Major approaches in critical theory: Marxism, psychoanalysis, structuralism, and semiology. Synthesizes these approaches by viewing the "cultural studies" tradition. Assesses critical theory through empirical study of network television in the United States and the United Kingdom.

**COM 538 Theories and Criticism of Communication Technologies (5)** Potential of the computer for use in behavioral science. Prerequisite: elementary programming, elementary statistics.

**COM 540 The Rhetoric of Science (5)** Examines selected topics in the rhetoric of science, underscoring the interplay of language, situation, culture, and prior tradition in the quest for exact knowledge of the natural world. Scrutinizes scientific communication in intradisciplinary, interdisciplinary, and extradisciplinary contexts.

**COM 542 Readings in Communication History (5)** Selected readings on the history of communication.

**COM 543 Research Seminar in Historic and Contemporary Communication (5)** Topical research seminar in historic and contemporary communication.

**COM 545 Development of Mass Communication (5)** Institutions of mass communication. Political and social roles.

**COM 546 Evolution and Trends in Digital Media (5)** Examines the past, present, and future of digital communication from diverse disciplinary and theoretical perspectives. Offered: A.

**COM 547 Telecommunications Policy and Convergent Media (5)** Structures and policies governing the functioning of communication technologies and data flow: United States and international perspectives. Interdisciplinary approach.

**COM 548 Economics of Digital Communication (5)** Critically examines the impact of the Internet and digital technologies on the economy. Focus includes third world countries as well as the United States and other industrialized countries.

**COM 549 Mass Communication Process and Effects (5)** Analytic approach to conceptualization and research in the field since 1900.

**COM 550 European Union Information Society Policy (5)** *Giffard* Analysis of European Union policy and regulatory documents relating to cultural, economic, political, social, and technological aspect of the new information society, including efforts to promote transborder flows of television programs in Europe.

**COM 551 Political Communication (5)** Surveys classic works and new directions in political communication, including functionalist, structuralist, constructivist, network, and comparative approaches, reflecting a range of methods. Examines political organizing, electoral and legislative pro-

cesses, civic (dis)engagement, media and politics, public deliberation and opinion formation, political identity and discourse. Offered: jointly with POL S 551.

**COM 552 Social Construction of News (5)** *Beam* Examines social, political, economic, technological, and cultural influences on the news. Identifies constraints on journalists and explores how those constraints shape the news and information that journalists and media organizations produce.

**COM 553 Public Opinion and Communication (5)** Conceptual and methodological approaches to public opinion and communication as historical and behavioral phenomena. United States and international perspectives.

**COM 554 Discourse and the Politics of Resistance (5)** Examines how disciplines theorize and empirically study discourse in the politics of resistance. Examines the discursive turn in U.S. and European "new" social movement theory. Ranges across disciplines, such as political sociology, cultural anthropology and human geography, to discover ways in which discourse is conceptualized and studied for its role in seeding social change. Offered: jointly with POL S 567.

**COM 555 Political Deliberation (5)** *VLPA I&S Gastil* Exploration of deliberative theories of democracy and research on political discussion in campaigns, face-to-face meetings, on-line forums, and informal conversations. Presents different uses and understandings of deliberation and its role in democratic governance. Recommended: COM 577, POL S 551/COM 551. Offered jointly with POL S 558.

**COM 556 Political Communication Research Practicum: Community, Communication, and Civic Engagement (5)** Overview of the research process, including literature review, hypothesis generation, data gathering, empirical analysis, and writing for publication. Topics vary with instructor, but generally address questions of how communication affects democracy and citizen engagement in national or international contests. Offered: jointly with POL S 594.

**COM 557 Government and Mass Communication (5)** Legal problems of mass communication, institutions, and media operations.

**COM 558 U. S. Digital Media Law and Policy (5)** Examines the conceptual framework and social application of existing regulations and policies on digital media, with the aim of helping professionals address the changing legal and policy environments.

**COM 559 Media and Foreign Policy (5)** The role of communications media in how nations interact. The media as source, actor, and catalyst in international affairs. Interdisciplinary focus.

**COM 561 Regional Communication Systems (5)** Communication as a factor in economic, sociocultural, and political relations among nations of a region. Focus varies with specialization of instructor. Consult graduate secretary for details. Interdisciplinary focus.

**COM 562 International Communication Systems (5)** International communications and contemporary issues that affect the functioning of global communication systems. Interdisciplinary focus.

**COM 563 Black Cultural Studies (5)** Takes a critical approach to studying media representations of Blackness. Drawing upon traditions in Africana studies and cultural studies, students engage with theory and practice various methods by regularly presenting on academic works, historicizing events, and unpacking cultural texts.

**COM 564 Media, Myth, and Ritual (5)** *Douglas* Examines the way media operate in a secular society with many of the characteristics that traditionally have been imputed to spirituality and religion. Analyzes media's mythological and ritualistic function in society by taking an interdisciplinary approach informed by religious studies, cultural studies, journalism, and communication theory.

**COM 565 Mass Media Structure (5)** Research on the structural aspects of mass communication.

**COM 566 Discourse and Sex/uality (5)** Seminar-based analysis of discourse and social construction of eroticism/desire

in face-to-face/mediatized talk and texts; examination of the reproduction of power, control and ideology through the linguistic and semiotic realization of sex/uality. Offered: jointly with WOMEN 566.

**COM 567 Gender, Race, and Communication (5)** Analysis of the role of media in the construction of reality, production processes, and their influence on media representation of women and people of color. Offered: jointly with WOMEN 589.

**COM 568 Mobile Communication and Digital Media (5)** Explores impact of mobile technology on social, political, civic, and business spheres. Strategizes how to make mobile an integrated part of a broader media strategy.

**COM 569 Communication Strategies in Virtual Worlds and Games (5)** Analyzes potential configurations made possible by interactivity and simulation in virtual worlds and games. Explores applications of this communication medium to education, literacy, and business.

**COM 570 Organizational Communication (5)** Examination of social scientific theory and research on communication in organizations. Topics include quantitative and qualitative approaches to process of organizational communication, function and structure of macro networks, superior-subordinate relationships, and the role of communication in organizational change, development, and effectiveness.

**COM 576 Interpersonal Communication (5)** Social scientific research and theory on the role of communication in developing and maintaining interpersonal relationships. Nature of interpersonal communication, relationship change processes, interpersonal control through communication, and personal communication networks.

**COM 577 Communication in Small Groups (5)** Reviews major small group communication theories and the history of research on small groups. Topics include structuration, democratic decision making, symbolic convergence, and the influence of personality, gender, and ethnicity on group communication. Involves students in original research projects on communication in small group settings.

**COM 578 Intercultural Communications (5)** *Manusov, Rivenburgh* Focuses on the nature of communication between different cultures, including the processes as they occur on sojourns, immigration, negotiations, and conversations across national boundaries. Specific topics include identity formation and expression, intercultural relationships, stereotyping, prejudice, and group affiliation.

**COM 580 Nonverbal Communication (5)** Reviews primary theories and research on nonverbal communication. Focus on developmental and social aspects of nonverbal cues, including review of communicative functions served by nonverbal channels. Topics include paralinguistic systems, relational messages, deception, acquisition of cue use, and emotional expression. Emphasizes research methods and influences of culture and context.

**COM 581 Social Production and Distribution of Digital Content (5)** *Hosein* Explores theoretical and applied analysis of "user-generated" digital and distribution, as well as their economic cultural impact. Examines specific issues related to monetization and messaging, particularly in storytelling, advertising, campaigning, advocacy, and entertainment.

**COM 582 Communication Education Research (5)** Communication in instructional environments. Nature of instructional communication, paradigms for instructional communication research, quantitative and qualitative approaches to instructional communication, verbal and nonverbal classroom interaction.

**COM 583 Multimedia Storytelling (5)** Uses videos, photos, audio, and text to communicate through narratives that can be accessed by a worldwide audience via social media distribution.

**COM 584 Ways of Speaking (5)** Theory and literature of the ethnography of communication, with special emphasis on the descriptive-comparative approach to culturally patterned styles of communicative conduct. Offered: jointly with ANTH 584.

**COM 585 Digital Media Message Design and Content Creation (5)** Applies communication theory to the identification, creation, and evaluation of digital media message design to meet needs of the target audience. Introduces the theory and practice of hypertext and project management techniques needed to organize digital assets, allocate resources, and meet deadlines.

**COM 586 Writing and Presentation for Digital Media (5)** Applies communication theory and research tools to rhetorical and design choices in web page creation. Examines the emergence of digital media story-telling techniques, as well as ethical and technical challenges these tools present to media and society.

**COM 587 Digital Media Economics and Management (5)** Emphasizes communication theory to analyze effective management of digital media enterprises, with practical application of economic theory to entrepreneurial strategies. Topics include analysis of the total business process, patterns of ownership, merger and acquisitions, finance and accounting, human resources development, sales and marketing, and ethics.

**COM 588 Digital Media Branding and Marketing (5)** Critically examines the role of advertising, marketing, and other promotional efforts in establishing the branding of digital media companies. By using communication theory to analyze successful cases of established and start-up digital media companies, participants identify practicable and effective strategies for brand building and enhancement.

**COM 589 Global Digital Media Law, Policy, and Ethics (5)** Examines the legal, social, political, and policy environments of digital media laws, policies and ethics around the world. Offers a comparative perspective, which prepares digital media managers to expand into other markets outside their home bases.

**COM 590 Selected Readings (1-5, max. 10)** Selected readings assigned by faculty.

**COM 591 Independent Research (1-5, max. 10)** Research projects designed and led by students with faculty supervision.

**COM 592 Directed Research (1-5, max. 10)** Student participation in faculty-directed research projects.

**COM 593 Communication Internship (1-5, max 15)** Provides students an opportunity to connect their scholarship with communities outside academia by engaging in a project that uses communication theory to inform practical work.

**COM 594 Professional Proseminar (1, max. 6)** Helps students develop a range of professional competencies. Focuses on a particular topic such as computer-assisted research, technology in the classroom, obtaining funding for research, writing for academic publication, career choices after graduate school, and ethics in research and teaching.

**COM 595 Public Speaking Pedagogy (1, max. 5)** Content and effective teaching skills for public speaking course. Emphasizes the rhetorical tradition, grading speeches, and facilitating oral critiques. Required for all COM 220 TAs; recommended for those who want to teach COM 220. Only 3 credits count toward degree. Credit/no credit only.

**COM 596 Communication Pedagogy (1, max. 3)** Development of effective teaching and professional skills. Emphasizes interactive teaching, leading discussions, lecturing, planning courses, evaluating resource materials, grading and evaluation, teaching philosophies, and effective classroom management and communications. Required of all graduate students who accept teaching assistantships. Credit/no credit only.

**COM 597 Special Topics in Communication (5, max. 10)**

**COM 600 Independent Study or Research Project (\*)** Prerequisite: permission of supervisory committee chairperson. Credit/no credit only.

**COM 700 Master's Thesis (\*)**

**COM 800 Doctoral Dissertation (\*)**

# Comparative History of Ideas

## PROGRAM OVERVIEW

B102 Padelford

Comparative History of Ideas is an interdisciplinary program that draws on a wide variety of disciplines within the College of Arts and Sciences to examine the interplay of ideas and their cultural, historical, and political contexts.

## UNDERGRADUATE PROGRAM

### Adviser

B102D Padelford, Box 354300

206-543-2097

[chid@uw.edu](mailto:chid@uw.edu)

The Comparative History of Ideas program offers the following programs of study:

- The Bachelor of Arts degree with a major in comparative history of ideas
- A minor in comparative history of ideas

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Coursework in the history of relevant periods, areas, and themes. Introductory courses in philosophy, English, comparative literature, ethnic and gender studies, and other areas of the humanities and social sciences. CHID 110.

### Department Admission Requirements

Students in good academic standing may declare this major after meeting with an adviser.

### Major Requirements

55 credits as follows:

- CHID 101 (2 credits)
- Gateways to CHID (10 credits)
- Cultural and historical engagements (5 to 10 credits). Students choose from three options: CHID study abroad program; local/global engagements; or encounters across cultures. Must be chosen with guidance of program adviser.
- Ideas in the world (5 credits). Must be chosen with guidance of program adviser.
- Power and difference (5 credits). Must be chosen with guidance of program adviser.
- CHID 390 (5 credits)
- Senior thesis/capstone project (CHID 490 or CHID 491) (5 credits)
- Remaining 13–18 credits chosen from among approved electives (300 level or above).
- At least half the credits presented for the major must be at the upper-division level.
- Minimum 2.50 GPA in courses presented for the major.
- Students may expand the senior project to 10 or 15 credits (CHID 492/CHID 493). The 5 to 10 optional senior project credits are in addition to the 55 credits required of all CHID majors.

### Minor

*Minor Requirements:* 30–35 credits as follows:

- Gateways to CHID (5 credits)
- Cultural and historical engagements (5–10 credits). Students choose from three options: CHID study abroad program; local/global engagements; or encounters

across cultures. Must be chosen with guidance of program adviser.

- Ideas in the world (5 credits). Must be chosen with guidance of program adviser.
- Power and difference (5 credits). Must be chosen with guidance of program adviser.
- CHID 390 (5 credits)
- One upper-division CHID course (5 credits)

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The program encourages students to adopt nuanced perspectives on their position relative to texts, cultures, societies, and historical periods. Program graduates have gone on to postgraduate studies in the humanities and social sciences, as well as professional training and careers in a wide variety of fields including law, administration and public policy, medicine, education, journalism, new media, and film.

- *Instructional and Research Facilities:* Computer workstations for students in Padelford B102 and in Padelford C101.

- *Honors Options Available:* College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements). For Interdisciplinary Honors, see University Honors Program.

- *Research, Internships, and Service Learning:* CHID undergraduates participate in a variety of educational experiences outside the classroom. For example, many study abroad programs incorporate an “engaged community learning” project, which provides an opportunity for students to apply their analytical skills and understanding of the historical and cultural context to a close participation in the work of local organizations. The diversity of these community efforts allows students to engage their particular interests through participation in social welfare organizations, grassroots community groups, after-school programs, health clinics, theater and other performing arts groups, as well as video and other visual arts projects.

- *Department Scholarships:* None offered.

- *Student Organizations/Associations:* CHID students spearheaded the formation and development of the DIALOGUE Project, a group open to all UW students interested in international issues. The project serves to facilitate greater international and intercultural dialogue within our own community, centered around topics germane to each student’s own educational goals. Many students work directly to develop and help coordinate international clubs in high schools across the state.
- *Of Special Note:* CHID also sponsors *interSections*, a student journal published annually by the Comparative History of Ideas program. *interSections* is organized and edited by undergraduate volunteers from the CHID program.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsct/](http://www.uw.edu/students/crsct/)

**CHID 101 Introduction to the Comparative History of Ideas (2)** Provides a methodological, curricular, and intellectual introduction to comparative history of ideas. Teaches the importance of interdisciplinary inquiry in research and provides models for how to formulate, undertake, and present interdisciplinary research projects. Credit/no credit only. Offered: AWSp.

**CHID 110 The Question of Human Nature (5) I&S/VLPA Merrill** Considers the relationship between the individual and

his/her culture. Traces the evolution of the notion of human nature in Europe and the United States and compares this tradition with representations of the human being from other cultural traditions.

**CHID 205 Method, Imagination, and Inquiry (5) VLPA Searle** Examines ideas of method and imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with ENGL 205.

**CHID 207 Introduction to Intellectual History (5) I&S Toews** Ideas in historical context. Comparative and developmental analysis of Western conceptions of “community,” from Plato to Freud. Offered: jointly with HIST 207.

**CHID 210 The Idea of the University: Ways of Learning, Exploring, and Knowing (5) I&S** Considers different ways of learning, exploring, and knowing in the context of the historical development, social context, and impact of universities in general and of the University of Washington in particular. Includes reflective workshops on choosing areas of study (majors) in collaboration with Undergraduate Advising.

**CHID 222 BioFutures (5) I&S/NW** Explores key legal, ethical, cultural, scientific, and commercial aspects of the rapidly changing world of biotechnology and bioinformatics. Specifically asks how new discoveries in biology encourage us to rethink issues of ownership, communication, geography, identity, and artistic practice.

**CHID 250 Special Topics: Introduction to the History of Ideas (5, max. 15) I&S Thurtle** Examines a different subject or problem from a comparative framework. Satisfies the Group A major/minor requirement. Offered: AWSp.

**CHID 260 Re-Thinking Diversity (5) I&S Bushnell** Considers the notion of diversity from many scholarly perspectives and from personal engagements. Critically visits historical thinking about diversity and examines contemporary issues such as racism and other oppressions.

**CHID 270 Special Topics (5, max. 15) I&S** Each special topics course examines a different subject or problem from a comparative framework.

**CHID 280 Indigenous Encounters: Politics, Culture, and Representation in Latin America (5) I&S Garcia** Explores the contemporary cultural and political transformations advanced by indigenous groups and their advocates in Latin America. Examines the concept of indigeneity, the cultural politics of indigenous mobilization, and the effects of international development policies on indigenous communities. Offered: jointly with SISLA 280.

**CHID 298 Pre-Departure Seminars (2) I&S Barrett, Pitchford, Warren** Prepares students to participate in CHID International Programs. Prerequisite: students must be accepted to an International Program prior to registration. Offered: AWSpS.

**CHID 300 Ideas in Art (5) VLPA Opperman** Selected monuments of art and architecture in the Western tradition, from the Greeks to the twentieth century, studied in relation to the intellectual background of the ages and civilizations that produced them. Slide lectures accompanied by discussion of assigned readings in philosophical, religious, scientific, political, literary, and artistic texts. Offered: jointly with ART H 300.

**CHID 309 Marx and the Marxian Tradition in Western Thought: The Foundations of Modern Cultural Criticism I (5) I&S** Critically examines the formation of modern Western culture, politics, and society through an historical analysis of the work of Karl Marx and the thinkers, artists, and activists who assimilated and transformed Marxian concepts from the late 19th century to the present. Offered: jointly with HIST 309.

**CHID 314 The Psychoanalytic Revolution in Historical Perspective (5) I&S** Genesis and evolution of Freudian theory in context of the crisis of liberal-bourgeois culture in central Europe and parallel developments in philosophy, literature, and social theory. Emergence and division of the psychoanalytic movement. Transformation of psychoanalysis in

British, French, and especially American cultural traditions. Offered: jointly with HIST 314.

**CHID 319 Nietzsche and the Nietzschean Legacy in Western Thought: Foundations of Modern Cultural Critique II (5) I&S** Critically examines the formation of modern Western politics, society, and cultures through a historical analysis of the thought of Friedrich Nietzsche and the thinkers, artists, and activists who assimilated and transformed the Nietzschean perspective during the twentieth century. Offered: jointly with HIST 319.

**CHID 332 Disability and Society: Introduction to Disability Studies (5) I&S** Introduction to the field of disability studies. Focuses on theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in social creation/construction (framing) of disability and effects on those claiming and/or labeled as disabled. Offered: jointly with LSJ 332.

**CHID 350 Women in Law and Literature (5) I&S/VLPA** Representations of women in American law and literature. Considers how women's political status and social roles have influenced legal and literary accounts of their behavior. Examines how legal cases and issues involving women are represented in literary texts and also how law can influence literary expression. Offered: jointly with WOMEN 350.

**CHID 370 The Cultural Impact of Information Technology (5) I&S/VLPA** *Thurtle* Utilizing approaches from the history of technology, cultural studies, and literary theory, seeks to analyze the cultural and social impact of information technology. Considers how information technologies impact our relationships with others, our concept(s) of self, and the structure of the communities to which we belong. Offered: jointly with COM 302.

**CHID 380 The Nature of Religion and its Study (5) I&S** *Jaffee, Webb* Study of religion as a general human phenomenon. Manner in which different methods of inquiry (phenomenology, anthropology, sociology, psychology, literary criticism, archaeology, philosophy, theology) illuminate different aspects of religion and shape our conceptions of its nature. Recommended: RELIG 201 or RELIG 202. Offered: jointly with RELIG 380.

**CHID 390 Colloquium in the History of Ideas (5) I&S** *Thurtle, Toews* Basic theoretical issues in the comparative history of ideas as a disciplined mode of inquiry; examination of representative historical figures and problems. Primarily for majors.

**CHID 433 Disability Law, Policy, and the Community (5) I&S** Seminar addressing legal rights of disabled people, history of disability policy in the United States, and the role of community activism and other forces in policy development and systems change. Introduction to the existing social service systems that affect disabled people. Recommended: LSJ 332. Offered: jointly with LSJ 433.

**CHID 434 Civil and Human Rights Law for Disabled People (5) I&S** Designed for students interested in expanding their knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Recommended: LSJ 332. Offered: jointly with LSJ 434; A.

**CHID 442 Roma Eterna (5) VLPA/I&S** *Merrell* Explores the historical layers of meaning in the artifacts and monuments of Rome to reflect on its transformation over time as a symbol of the human aspiration for both temporal order and spiritual and aesthetic transcendence. Specific periods considered for reading and daily site visits include Ancient Rome; Imperial Rome; Medieval Rome; Renaissance Rome; Baroque Rome; Romanticism, The Grand Tour and the Risorgimento; and Fascist Rome.

**CHID 444 Eye and Mind (5) VLPA/I&S/NW** *Thurtle* Investigates life as an emergent phenomenon across the disciplines of biophilosophy, art, art history, literary criticism, and information studies with an emphasis on interdisciplinary

methods. Addresses key issues in phenomenology, social theory, contemporary bioart, and complexity studies.

**CHID 459 Narrative Journalism (5) VLPA/I&S** *Kaplan* Introduces the rigorous reporting and literary writing techniques involved in narrative journalism. Concentrates on producing three narrative articles for publication in the online, reader-interactive magazine, Narrative Journalist.

Offered: jointly with COM 459.

**CHID 470 CHID Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 471 Europe Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 472 Latin America Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 473 Africa Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 474 Asia Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 475 East Asia Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 476 South Pacific Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 477 Middle East Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 480 Special Topics: Advanced Study of the History of Ideas (5, max. 15) I&S** *Thurtle* Examines a different subject or problem from a comparative framework with an interdisciplinary perspective. Offered: AWSp.

**CHID 484 Colonial Encounters (5) I&S** History of European colonialism, focusing on British, French, and Dutch colonial encounters from 1750s to 1950s. Units on colonial law, medicine, religion, sexuality, and commodity culture. Offered: jointly with HSTEU 484.

**CHID 490 Research Seminar (5) VLPA/I&S** *Thurtle, Toews* Intensive readings in specific topic. Students complete individual research projects. Satisfies the CHID senior thesis requirement. Prerequisite: CHID 390.

**CHID 491 Senior Thesis (5-) I&S** Critical and methodological issues. Required of candidates for an honors degree.

**CHID 492 Senior Thesis (5-) I&S** Critical and methodological issues. Required of candidates for an honors degree.

**CHID 493 Senior Thesis (5) I&S** Research and writing of thesis under supervision of a faculty member. Required of candidates for an honors degree.

**CHID 495 Close Readings in Theory (5) I&S** Close readings of a specific work, author, artist, or body of work.

**CHID 496 Focus Groups (1-2, max. 4) Credit/no credit only.**

**CHID 497 Peer Facilitators (5)**

**CHID 498 Special Colloquia (1-5, max. 20) I&S** Each colloquium examines a different subject or problem from a comparative framework. A list of topics is available from the CHID office.

**CHID 499 Undergraduate Independent Study or Research (1-5, max. 10)** Supervised independent study for students who wish to pursue topics not available in regular course offerings.

## Comparative Literature

### PROGRAM OVERVIEW

B-531 Padelford

Comparative literature works across national and regional boundaries to explore the relationships among multiple literary traditions. Comparative literature also focuses on the relationship of literature to the other arts and to fields of knowledge such as philosophy, anthropology, history, and media or cultural studies.

### UNDERGRADUATE PROGRAM

#### Adviser

B-534 Padelford, Box 354338

206-685-1642

[tcoop@uw.edu](mailto:tcoop@uw.edu)

Comparative Literature offers the following programs of study:

- Bachelor of Arts with a major in comparative literature
- Bachelor of Arts with a major in comparative literature (cinema studies)
- Minor in comparative literature (literature minor only)

The literature option includes core course requirements in literary analysis (C LIT 300), literary theory (C LIT 400), and regional literatures (C LIT 320, C LIT 322, C LIT 323).

The cinema studies option is structured around two series of required core courses devoted to film theory and film history.

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Courses in foreign languages, classics, history, philosophy, literature, and writing. Sufficient preparation in a foreign language (completion of second year or higher) to enable the student to take a 300- or 400-level literature or national film course by the senior year.

#### Department Admission Requirements

Minimum 2.00 overall GPA; completion of one course fulfilling either College of Arts and Sciences English composition requirement or the W (writing) requirement (5 credits).

*Cinema Studies:* Same as above, plus completion of C LIT 270, C LIT 271, or C LIT 272.

#### Major Requirements

*Literary Studies Option: 50 credits*

- C LIT 250, C LIT 251, or C LIT 252 (5 credits).
- C LIT 400 (5 credits).
- Three differently-numbered courses from among C LIT 320, C LIT 321, C LIT 322, or C LIT 323; C LIT 360, C LIT 361, or C LIT 362. At least one must come from each series (15 credits).
- One 300-level cinema studies course (5 credits).
- One additional course in comparative literature at the 300 or 400 level (5 credits).
- At least one foreign literature course, studied in the original language (3/5 credits). The minimum foreign language prerequisite to meet this requirement is completion of a second year (often higher) of the foreign language, e.g., GERMAN 203 for GERMAN 311; FRENCH 302 for FRENCH 304.
- Remaining (12/10 credits) to be earned, with few exceptions, in 300- and 400- level literature courses from among the offerings of Comparative Literature and the following participating departments: Asian Languages

and Literature, Classics, English, Germanics, Near Eastern Languages and Civilization, Romance Languages and Literature, Scandinavian Studies, and Slavic Languages and Literatures.

- One course in the program must focus on literature written before 1800.

#### *Cinema Studies Option: 50 credits*

- 15 credits from cinema studies core courses, with at least one course in film theory and one course in film history (C LIT 301, C LIT 302, C LIT 303, C LIT 310, C LIT 311, C LIT 312).
- 10 credits from C LIT core requirements (choice of either C LIT 300 or 400, and one course from C LIT 320, C LIT 321, C LIT 322, C LIT 323).
- One national cinema course (5 credits).
- Minimum two years of foreign language study (e.g., through GERMAN 203, or equivalent).
- Remaining credits to be earned in recommended 300- and 400-level cinema elective courses offered by Comparative Literature or any UW department.
- A maximum of 5 credits of internship (C LIT 491) may be applied toward the cinema studies option.

## Minor

**Minor Requirements:** 30 credits to include C LIT 300, C LIT 400, and two differently-numbered courses from among C LIT 320, C LIT 321, C LIT 322, and C LIT 323; at least one course in a literature, studied in the original language, other than English; and the remaining credits in upper-division literature courses offered through Comparative Literature and the following participating departments: Asian Languages and Literature, Classics, English, Germanics, Near Eastern Languages and Civilization, Romance Languages and Literature, Scandinavian Studies, and Slavic Languages and Literatures.

A minor is not available for the cinema studies option.

## Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The study of comparative literature provides training in the analysis and critique of varied kinds of social texts and discourses. It stresses the centrality of historical and cross-cultural awareness for effective interpretation of both verbal and visual texts. Students earning the degree in comparative literature may pursue advanced work at the MA and PhD level in language and literature programs, or allied curricula in film studies, philosophy, intellectual history, and cultural studies. They may aim for degrees in education, specializing in language arts, foreign language teaching, or both. Comparative literature majors may also find jobs in fields where liberal arts skills, such as strong writing ability and fluency in foreign languages, are valued. Cinema studies majors often seek positions associated with film production and distribution.
- **Honors Options Available:** With Distinction (Departmental Honors, by invitation). See adviser.
- **Undergraduate Research, Internships, and Service Learning:** See adviser for internship information.
- **Department Scholarships:** Some financial support available for student film projects.
- **Student Organizations/Associations:**
  - Film Club, [film@uw.edu](mailto:film@uw.edu)
  - UW Film Colloquium, [filmcol@uw.edu](mailto:filmcol@uw.edu)

*Of Special Note:* A maximum of 5 credits of internship (C LIT 491) may be applied toward the Cinema Studies major.

B531 Padelford, Box 354338

206-543-7542

[clitgrad@uw.edu](mailto:clitgrad@uw.edu)

The Department of comparative literature offers a program of study with faculty members from the following participating departments: Asian Languages and Literature, English, French and Italian Studies, Germanics, Near Eastern Languages and Civilization, Scandinavian Studies, Slavic Languages and Literatures, Spanish and Portuguese Studies, and Women Studies. Study leads to a Master of Arts or Doctor of Philosophy degree. Students concentrate on graduate courses in comparative literature and specialize in two or more national literatures of major interest to them, studied in the original language. With permission, a PhD aspirant may choose as a third area of study a field outside of literature (e.g., philosophy, religion, art, political thought). On receiving the advanced degree, the student is qualified for teaching and research in comparative and general literature, as well as the language and literature of specialization.

## Master of Arts

### **Admission Requirements**

Bachelor of Arts degree in Comparative Literature, English, or any other literature, or equivalent background; advanced reading knowledge in one language other than English.

### **Degree Requirements**

45 credits, as follows:

- **Coursework:** Minimum 45 quarter credits at the 400 and 500 level, of which at least 25 must be at the 500 level. Three courses must be taken in comparative literature. Remaining credits must include study in two or more literatures with at least three courses in each of two literatures.
- **Language Requirements:** Advanced reading knowledge in at least one language other than English and a basic reading knowledge of a second, demonstrated before starting to write the MA essay. Language competence is attested either by exams or by completion of satisfactory coursework in the language.
- **Essay:** Prepared after completion of coursework, under supervision of two faculty members.
- **Study Abroad:** Students are encouraged to study abroad by participating in exchange programs offered through the individual language and literature departments or through the UW's Office of International Programs and Exchanges.

## Doctor of Philosophy

### **Admission Requirements**

Master of Arts degree in Comparative Literature, English, or any other literature, or equivalent background; advanced reading knowledge in two languages other than English.

### **Degree Requirements**

90 credits, as follows:

- **Coursework:** Minimum 90 postbaccalaureate degree credits at the 400 and 500 level of which at least half in each section of the program must be at the 500 level. Credits must include: 1) at least 30 credits in comparative literature courses; 2) 30 credits in the literature of major interest to the student; 3) 20 credits in the student's minor field (or, if more than one minor field is chosen, at least 15 credits in each); 4) 10 elective credits chosen from any area of the student's choice. One of two minor fields may be extra-literary.
- **Language Requirements:** Advanced reading knowledge in two languages other than English and a basic reading knowledge of a third, demonstrated before PhD

examinations are administered. Language competence is attested either by examinations or by completion of satisfactory coursework in the language.

- **General Examination:** The general examination requires one quarter and is taken after completion of the 90-credit course requirement and language requirements. The examination, taken within three quarters of completion of coursework, consists of the following two sections: 1) eight-hour written examinations in each of the following three areas: a) a period exam in the student's primary national literature; b) comparative literature exam; and c) comparative theory exam; 2) an oral comprehensive examination evaluating the student's overall preparation for dissertation work.
- **Dissertation:** Dissertation topics are chosen from a broad range of areas including: 1) the comparative study of authors or themes in different languages; 2) issues in the fields of theory of literature and history of criticism; 3) the study of literary authors or themes whose significance transcends national or linguistic boundaries; 4) the study of such phenomena as transmission, reception, and influence.
- **Final Examination:** Candidates must pass an oral examination devoted to the dissertation and to fields covered by their written exams.
- **Study Abroad:** Students are encouraged to study abroad by participating in exchange programs offered through the individual language and literature departments or through the UW's Office of International Programs and Exchanges.

## Financial Aid

The department awards teaching assistantships annually to qualified students and provides up to five years of support toward the PhD to students who enter with a B.A. Teaching assistantships can be assigned in comparative literature, cinema studies, or in any of the national literature departments affiliated with Comparative Literature.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsclat/](http://www.uw.edu/students/crsclat/)

**C LIT 200 Introduction to Literature (3/5) VLPA** Reading, understanding, and enjoying literature from various countries, in different forms of expression (e.g., dramatic, lyric, narrative, rhetorical) and of representative periods. Emphasis on the comparative study of themes and motifs common to many literatures of the world.

**C LIT 210 Literature and Science (5, max. 15) VLPA** Introduces the rich and complex relationship between science and literature from the seventeenth century to the present day. Students examine selected literary, scientific, and philosophical texts, considering ways in which literature and science can be viewed as forms of imaginative activity.

**C LIT 230 Introduction to Folklore Studies (5) I&S/VLPA** Comprehensive overview of the field of folkloristics, focusing on verbal genres, customs, belief, and material culture. Particular attention to the issues of community, identity, and ethnicity. Offered: jointly with SCAND 230.

**C LIT 240 Writing in Comparative Literature (5, max. 15) C** Comparative approach to literature and a workshop in writing comparative papers in English. Emphasis on cross-cultural comparison of literary works. Readings in English with an option to read selected texts in the original languages. Offered: AWWsp.

**C LIT 250 Introduction to Comparative Literature: Literature and Culture (5, max. 15) I&S/VLPA** Study of literature in its relation to culture. Focuses on literature as a cultural institution, directly related to the construction of individual identity and the dissemination and critique of values.

## GRADUATE PROGRAM

Graduate Program Coordinator

**C LIT 251 Introduction to Comparative Literature: Themes (5) VLPA** Reading and analyzing literature based upon rotating themes such as love, sex, and murder, haunted houses, and dreams and memory. Selections drawn from European, English, and American literature, not limited to period and genre.

**C LIT 252 Introduction to Comparative Literature: Genres (5) VLPA** Reading and analyzing literature based upon rotating genres such as sci-fi, detective fiction, romance, love, poetry, and comedy. Draws from world literature.

**C LIT 270 Perspectives on Film: Introduction (5) VLPA** Introduction to film form, style, and techniques. Examples from silent film and from contemporary film. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

**C LIT 271 Perspectives on Film: Great Directors (5) VLPA** Introduction to authorship in the cinema. The work of a major director or directors. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

**C LIT 272 Perspectives on Film: Genre (5) VLPA** Introduction to study of film genre. Literary, mythic, and historic aspects of film genre. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

**C LIT 300 Introduction to Comparative Literature: Forms, Genres, History (5) VLPA** An introduction to comparative literary study designed for departmental majors. Examines how literary forms and genres shape our reading of texts; how these forms and genres change over time; and how literary forms and genres manifest themselves in different cultural traditions. Includes theoretical readings and substantial writing.

**C LIT 301 Theory of Film: Analysis (5) VLPA** Introduction to the analysis of film. Covers major aspects of cinematic form: mise en scene, framing and camera movement, editing, and sound and color. Considers how these elements are organized in traditional cinematic narrative and in alternative approaches.

**C LIT 302 Theory of Film: Critical Concepts (5) VLPA** Overview of the main conceptual problems in film criticism such as: "what is a film?", "what is the relationship between film and reality?", "does a film have a language?", "what is the connection between image and sound?" Follows a historical timeline within five individual sections.

**C LIT 303 Theory of Film: Genre (5) VLPA** Introduction to the history and significance of film genres from the early days of film to the present. Examines a selection of several genres, drawn from a list including western, melodrama, musical, thriller, road odyssey, film noir, and documentary. Topics include form, ideology, authority, history, innovation, and parody.

**C LIT 310 History of Film: 1895–1929 (5) VLPA** Film history from its beginnings in the 1890s through the golden era of silent film in the 1920s. Topics include the invention of major film techniques, the creation of Hollywood and the studios, and movements such as expressionism, constructivism, and surrealism.

**C LIT 311 History of Film: 1930–1959 (5) VLPA** Film history from the introduction of sound through the late 1950s. Focuses mostly on the golden age of the Hollywood studios and on alternative developments after World War II in Italy (Neo-Realism), France (the New Wave), and Japan.

**C LIT 312 History of Film: 1960–1988 (5) VLPA** Covers the vast changes in filmmaking since 1960. Topics include the continuing influence of the French New Wave, the New German Cinema of the 70s and the "New Hollywood" of the 70s, American independent film of the 80s, and the resurgence of Chinese filmmaking since 1980.

**C LIT 313 History of Film: 1989–Present (5) VLPA** Addresses the latest trends in international filmmaking typically with an emphasis on world cinema and issues of globalization and diaspora. Sometimes taught in conjunction with the Seattle International Film Festival.

**C LIT 315 National Cinemas (3–5, max. 15) VLPA** Examines the cinema of a particular national, ethnic or cultural group,

with films typically shown in the original language with subtitles. Topics reflect themes and trends in the national cinema being studied.

**C LIT 320 Studies in European Literature (5, max. 15) VLPA** Examination of the development of European literature in a variety of genres and periods. Possible areas of study include literature from romantic fiction of early nineteenth century through great realist classics of second half of the century or from symbolism to expressionism and existentialism.

**C LIT 321 Studies in Literature of the Americas (5, max. 15) VLPA** Emphasizes connections between twentieth century literature of the United States and Canada and current literature of Latin America. Emphasizes that, despite obvious differences, much is shared in terms of culture and national sensibility across the two continents.

**C LIT 322 Studies in Asian and Western Literatures (5, max. 15) VLPA** Topics designated by individual instructors.

**C LIT 323 Studies in the Literature of Emerging Nations (5, max. 15) VLPA** Novels and short stories, from Africa, the Middle East, and South Asia. Discusses relationship of Western literary genres to an oral literary tradition, as well as issues like colonialism, gender relations, narrative technique, native and non-native languages.

**C LIT 330 The European Fairy Tale (5) VLPA** An introduction to folktales and literary tales from various traditions and periods. A discussion of their origin, special characteristics, dissemination, and relevance to the contemporary reader.

**C LIT 331 Folk Narrative (5) VLPA** Survey of various genres of folk narratives studied in performance contexts to reveal their socio-cultural functions in a variety of milieu. Theory and history of folk narrative study, taxonomy, genre classification, and interpretative approaches. Recommended: SCAND 230 or C LIT 230. Offered: jointly with SCAND 331.

**C LIT 334 Immigrant and Ethnic Folklore (5) I&S/VLPA** Survey of verbal, customary, and material folk traditions in ethnic context. Theories of ethnic folklore research applied to the traditions of American communities of Scandinavian, Baltic, or other European ancestry. Recommended: SCAND 230 or C LIT 230. Offered: jointly with SCAND 334.

**C LIT 350 Themes in World Literature: Parents and Children (5) VLPA** World literature, from the Renaissance to modern times, based upon the theme of "parents and children." Selections drawn from European, English, and American literature, not limited to period and genre. Focus upon the motive of generational conflict.

**C LIT 352 Themes in World Literature: Death and Transfiguration (5) VLPA** Theme of death, transfiguration, and new life in world literature. Selections from Tolstoy, D. H. Lawrence, Celine, E. M. Forster, and other major writers.

**C LIT 357 Literature and Film (3–5, max. 10) VLPA** The film as an art form, with particular reference to the literary dimension of film and to the interaction of literature with the other artistic media employed in the form. Films are shown as an integral part of the course. Content varies.

**C LIT 360 Topics in Ancient and Medieval Literature (5) VLPA** Explores topics in literature and cultures of the ancient and medieval worlds across national and regional cultures, such as particular movements, authors, genres, themes, or problems.

**C LIT 361 Topics in Early Modern Literature (5) VLPA** Explores topics in literature and cultures of the early modern world (approximately 1400–1800) across national and regional cultures, such as particular movements, authors, genres, themes, or problems.

**C LIT 362 Topics in Modern Literature (5) VLPA** Explores topics in literature and cultures of the modern world (approximately 1800–present) across national and regional cultures, such as particular movements, authors, genres, themes, or problems.

**C LIT 371 Literature and the Visual Arts (5) VLPA** Focuses on specific theoretical problems. Examines the relationship between text and image in a variety of art forms including

poetry, novels, paintings, photography, essays, comic strips, film, and advertisement. Readings, in English, from a wide variety of national literatures.

**C LIT 375 Images of Women in Literature (5, max. 15) VLPA** Comparative study of the ways women's image, social role, and psychology have been portrayed by writers of various nationalities and literary periods. Selection of theme varies from quarter to quarter. Works are read in English translation.

**C LIT 376 Violence, Myth, and Memory (5) VLPA/I&S Benitez, Sears** Explores how images and ideas of power, violence, and global modernity circulate in films and novels, memories and discourses about U.S. relations with Vietnam, the Philippines, and Indonesia. Topics include foundational myths, colonial and post-colonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with SISSE 376.

**C LIT 396 Special Studies in Comparative Literature (3–5, max. 10) VLPA** Offered by visitors or resident faculty. Content varies.

**C LIT 397 Special Topics in Cinema Studies (3–5, max. 10) I&S/VLPA** Varying topics relating to film in social contexts. Offered by resident or visiting faculty.

**C LIT 400 Introduction to Theory and Criticism (5) VLPA** A selection of major theoretical statements in the history of literary theory and criticism, with texts drawn from such fields as literary studies, aesthetic theory, film studies, philosophy, and cultural studies.

**C LIT 410 Studies in Literary History (5, max. 15) VLPA** Introduction to a major figure or movement associated with the development of literary history. Through the study of one aspect of literary history students gain a thorough understanding of a particular point of view, while exploring the breadth of contemporary approaches to literature.

**C LIT 421 Studies in Connections: Literature and Other Disciplines (5, max. 15) VLPA** Examines the links between literature and other disciplines or art forms. Literature and history, literature and philosophy, literature and music, literature and the visual arts are all appropriate topics. Selection of focus depends on instructor.

**C LIT 422 Studies in Genre (5, max. 15) VLPA** Major genres of world literature: poetry, fiction, drama. Readings, in English from a wide selection of national literatures.

**C LIT 424 The Epic Tradition (5) VLPA** Ancient and medieval epic and heroic poetry of Europe in English: the Iliad, Odyssey, and Aeneid; the Roland or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies. Literary background recommended. Offered: jointly with CLAS 424.

**C LIT 430 Readings in Folklore (5) VLPA** Exploration of theoretical and methodological issues in folklore studies through independent reading of journal articles published during the last five years. Recommended: SCAND 230 or C LIT 230. Offered: jointly with SCAND 430.

**C LIT 431 The Northern European Ballad (5) VLPA** Integrative study of the Northern European Ballad, with an emphasis on texts, performance, context, history, theory, genre classification, and interpretive approaches. Offered: jointly with SCAND 431.

**C LIT 432 Technology and Culture in the Making of Contemporary Empires (5) I&S Benitez, Rodriguez-Silva** Explores the struggles that shaped organization of the U.S. empire at the turn of the 20th century, focusing on how empire's materials, cultural, and ideological boundaries were drawn. Topics include race, gender, and class as colonial formations; technologies of imperial governance such as public health, citizenship and territory; and popular culture. Offered: jointly with SISSE 432.

**C LIT 441 Literature and the Holocaust (5) VLPA Sokoloff** Examines fiction, poetry, memoir, diaries, monuments, film, and pop culture from several languages and cultural milieus, with emphases on English and Hebrew. Topics include

survivor testimony, shaping of collective memory, the second generation, Holocaust education and children's literature, gender and the Holocaust, and fantasy and humor as responses to catastrophe. Offered: jointly with NEAR E 441.

**C LIT 474 Scandinavian Auteurs (5, max. 10) VLPA** *Nestingen* Studies the body of work of Scandinavians auteur filmmakers. Introduces the theory and history of auteur cinema, with special attention to Scandinavian filmmakers' contribution. Offered: jointly with SCAND 470; AWSp.

**C LIT 490 Directed Study or Research (1–5, max. 10)** Individual study of topics in comparative literature by arrangement with the instructor and the Comparative Literature office.

**C LIT 491 Internship (1–5, max. 5)** Supervised experience in local businesses and other agencies. Open to upper-division Comparative Literature and Cinema Studies majors. Recommended: 25 credits of C LIT courses.

**C LIT 493 Comparative Literature Honors Seminar (5, max. 15) VLPA** Special topics in comparative literature. Required of honors students in comparative literature.

**C LIT 495 Honors Thesis (5) VLPA** Preparation of an honors thesis under the direction and supervision of a faculty member.

**C LIT 496 Special Studies in Comparative Literature (3–5, max. 15) VLPA** Offered occasionally by visitors or resident faculty. Content varies.

**C LIT 497 Special Topics in Cinema Studies (3–5, max. 10) VLPA** Varying topics in Cinema Studies. Offered by resident or visiting faculty.

**C LIT 500 The Theory of Literature I: The Literary Text (5, max. 15)** An investigation into the nature of literature in contrast to other forms of writing and into essential features of literature such as genres, imagery, modes of communication, and structure.

**C LIT 501 The Theory of Literature II: History of Literature (5, max. 15)** An exploration of topics of literary history such as periods, traditions, the writing of literary history, and literary history in contrast to other histories.

**C LIT 502 The Theory of Literature III: Special Topics (5, max. 15)** Offerings vary to cover topics such as individual theorists, theoretical movements, or the intersection of literary theory with other disciplines or arts (psychoanalysis, structuralism, ethics, aesthetics).

**C LIT 507 History of Literary Criticism and Theory I (5, max. 15)** A general introduction to the major issues in the history of criticism followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with ENGL 507.

**C LIT 508 History of Literary Criticism and Theory II (5, max. 15)** Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with ENGL 508.

**C LIT 509 History of Literary Criticism and Theory III (5, max. 15)** Literary Criticism and theory from Kant's *Critique of Judgment* to the mid-twentieth century and the work of Northrop Frye. Offered: jointly with ENGL 509.

**C LIT 510 History of Literary Criticism and Theory IV (5, max. 15)** A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with ENGL 510.

**C LIT 511 Literary Translation (5, max. 15)** Lectures on principles of translating literary works into readable English. Students present and comment on translations made by them and write seminar papers on problems of translation in theory and practice.

**C LIT 516 Colloquium in Criticism (5, max. 15)** Recent trends in literary criticism, taught by representatives from various literature departments, covering critical trends such as structuralism, poststructuralism, hermeneutics, reception theory, and sociological approaches to literature.

**C LIT 517 Colloquium in Folklore (5)** Recent trends in folklore studies, taught by representatives from various literature departments and disciplines in the social sciences.

**C LIT 518 Colloquium in Medieval Studies (5)** Salient literary aspects of the European Middle Ages, taught by representatives from various literature departments as well as from related disciplines, such as philosophy, art history, history, and comparative religion.

**C LIT 520 Methods and Issues in Cinema and Media Studies (5)** Provides a basic grounding in the theory, history, and criticism of film and media studies, and introduces central debates, topics, and methods in the field.

**C LIT 530 Cultural Criticism and Ideology Critique I (5, max. 15)** A study of the main attempts to come to an understanding of the humanities and the nature of historical interpretation in a cultural context.

**C LIT 535 Cultural Criticism and Ideology Critique II (5, max. 15)** Offerings vary to cover individual theorists and particular manifestations of cultural criticism and ideology critique.

**C LIT 545 Medieval Studies (3/5, max. 15)** Literature, intellectual history, and sociology of the Middle Ages, 500–1200. Topics may include “renaissance” of the twelfth century; the educational ideal; rise of universities; philosophical concepts.

**C LIT 546 Studies in Renaissance and Baroque (3–5, max. 10)** Aspects of Western European literature during the Renaissance and Baroque period. Course content varies.

**C LIT 547 Studies in Eighteenth-Century Literature (3–5, max. 10)** Examination of various trends in eighteenth-century literature including the Enlightenment, Rationalism, Pre-Romanticism, and Neo-Classicism. Course content varies with instructor.

**C LIT 548 Studies in Nineteenth-Century Literature (3–5, max. 10)** Examination of various trends in nineteenth-century literature including Romanticism, Realism, Naturalism, and Symbolism.

**C LIT 549 Twentieth-Century Literature (3–5, max. 10)** Selected movements, schools, and trends of significance in twentieth-century literature of Europe and Americas. Symbolism, surrealism, dada, expressionism, neorealism, existentialism, nouveau roman, and absurd may be considered. Texts in English, French, and German figure most prominently, but Spanish, Italian, Russian, and other materials may be examined. Content and emphasis vary.

**C LIT 570 The Novel: Theory and Practice (3–5, max. 15)** Study of the novel as a genre, examining two or more novels of varying national literatures. Course content varies.

**C LIT 571 The Lyric: Theory and Practice (3–5, max. 15)** Examination of central questions in the study of the lyric genre as approached from an international point of view. Course content varies.

**C LIT 572 The Epic: Theory and Practice (3–5, max. 15)** Examination of epic literature as exemplified by selected works chosen from various cultures and periods (e.g., French and German medieval courtly epic, the epic in Renaissance and baroque Europe, traditions of the mock epic). Course content varies.

**C LIT 573 The Drama: Theory and Practice (3–5, max. 15)** Examination of various aspects of the drama as a major literary genre, as approached from international and multilingual points of view. Course content varies.

**C LIT 574 Scandinavian Auteurs (5, max. 10) Nestingen** Seminar on auteur filmmakers in Scandinavian cinema, studying specific auteur's bodies of work, theories of auteur cinema, and the history of auteurism in Scandinavian cinema. Offered: jointly with SCAND 570; AWSp.

**C LIT 576 Seminar in East-West Literary Relations (3–5, max. 15)** Comparative investigation of literary topics requiring the study of both Eastern and Western documents. Explores parallels and contradictions between the two, in concepts, ideas, and specific topics. A comparative paper on a chosen topic with qualified conclusions is required. Emphasis varies. Prerequisite: at least one East Asian language.

**C LIT 590 Master of Arts Essay (5/10, max. 10)** Research and writing project under the supervision of a faculty member.

**C LIT 596 Special Studies in Comparative Literature (3–5, max. 15)** Offered occasionally by visiting or resident faculty. Course content varies.

**C LIT 599 Special Seminar or Conference (1–9, max. 30)** Group seminars or individual conferences scheduled to meet special needs. Prerequisite: permission of graduate program adviser.

**C LIT 600 Independent Study or Research (\*)**

**C LIT 700 Master's Thesis (\*)**

**C LIT 800 Doctoral Dissertation (\*)**

## Computer Science

### OVERVIEW

AC101 Paul G. Allen Center for Computer Science and Engineering

Computer science is the study of information and algorithms within the context of real and abstract computing devices. Computer scientists are interested in such topics as the representation and storage of information; algorithms to access, display, edit, and transform information; programming languages to express algorithms; and hardware and software processors to execute algorithms. These concerns lead to practical developments in computer systems software, such as operating systems and compilers; in application areas, such as artificial intelligence, computer graphics, and computational biology; and also lead to theoretical investigations of computers, algorithms, and data.

### UNDERGRADUATE PROGRAM

#### Adviser

101 Paul G. Allen Center for Computer Science and Engineering, Box 352350

206-543-1695

[ugrad-advisor@cs.washington.edu](mailto:ugrad-advisor@cs.washington.edu)

The Department of Computer Science and Engineering offers the following programs of study:

- The Bachelor of Science degree with a major in computer science
- The Bachelor of Science in Computer Engineering degree (see [Computer Engineering](#) section)

The core requirements of the two undergraduate majors are similar. The computer science major may be more appropriate for students who want to earn a double major with another College of Arts and Sciences program, who want the additional flexibility of the computer science requirements (the computer engineering major has more required courses and fewer electives), or who may be more interested in the theory, design, and implementation of software systems and applications (for example, the techniques of modern compilers or the algorithms behind computer graphics and animation).

The computer engineering major may be more appropriate for students who are interested in creating and building systems that include both hardware and software components and that must be engineered to meet a variety of cost and performance constraints. The program includes a general foundation in engineering fundamentals to enable interdisciplinary work with other departments in the College of Engineering and the University as a whole.

### Bachelor of Science

#### Department Admission Requirements

Applicants are considered in three groups: Direct Admission, Accelerated Admission, and Upper-division Admis-

sion. Admission is competitive. Completion of minimum requirements does not guarantee admission.

- **Direct Admission:** Computer Science and Engineering enrolls up to 20 percent of its incoming class directly out of high school, prior to the completion of university-level prerequisites. Freshman applicants to the University listing computer science or computer engineering as their intended major are automatically considered. Competitive applicants have taken calculus and at least one year of laboratory science (preferably physics) upon entering the University. Admission is for autumn quarter only.
- **Accelerated Admission:** Intended as a fast track into the Computer Science and Engineering department for matriculated students who have excelled in the CSE introductory courses.
  - Course requirements: CSE 142 or equivalent, CSE 143. At least five additional credits toward the Computer Science Upper-division Admission course requirements.
  - Other requirements: Completion of at least 15 credits at the UW. 3.00 cumulative GPA. Competitive applicants for accelerated admission typically have received a high grade in CSE 143 at the UW on their first attempt.
  - Admission is considered for any quarter.
- **Upper-division Admission**
  - MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136); at least five credits of Natural World, including one of the following: PHYS 121, CHEM 142/CHEM 145, or BIOL 180 (or any approved science course that requires one of these courses as a prerequisite); CSE 142, CSE 143; and at least five credits of English composition. In addition to any AP credit, at least one calculus or post-calculus mathematics course and one approved Natural World courses must be completed prior to applying to the department.
  - Admission is for autumn or spring quarter. Application deadlines are July 1 for autumn quarter and February 1 for spring quarter.
  - Students may also declare into the computer science degree program through the College of Engineering Advanced Admission program (see the College of Engineering section for Advanced Admission entrance and continuation requirements).

## Major Requirements

87–90 credits as follows:

- **Science (10 credits):** 10 credits from the list of approved natural science courses in the CS&E Handbook. Courses that meet the department's science requirement include PHYS 121, CHEM 142/CHEM 145, and any course in biology, chemistry, physics, earth and space sciences, astronomy, and atmospheric sciences that requires PHYS 121 or CHEM 142/CHEM 145 as a prerequisite.
- **Mathematics (15–18 credits):** MATH 124, MATH 125, MATH 126, (or MATH 134, MATH 135, MATH 136); MATH 308 or MATH 318 (waived if MATH 136 taken); MATH/STAT 390 or MATH/STAT 391.
- **Required Courses (29 credits):** CSE 142, CSE 143, CSE 311, CSE 312, CSE 331, CSE 332, CSE 351.
- **Senior Electives (minimum of 20 credits):** At least 33 additional credits from courses on the approved CSE electives list in the CS&E Handbook, including at least the following:
  - Six courses from the CSE Core Courses list in the CS&E Handbook of which four courses must be 400-level CSE courses.

- Either one additional course from the CSE Core Courses list or one course from the CSE Capstone list in the CS&E Handbook.
- Minimum 2.0 grade for any course applied to the major. Transfer students must earn a minimum of 24 graded credits toward the major at the UW.

## Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The computer science field has a broad base of private- and public-sector jobs suitable for the Bachelor of Science graduate: systems analyst, systems programmer, applications programmer, technical sales and marketing, and hardware or software engineering specialist. In addition, there are jobs for which graduate education may be appropriate: producers and developers of computer systems, and teachers and researchers. The field is also highly valued for practicing entrepreneurship.
- **Instructional and Research Facilities:** [Paul G. Allen Center for Computer Science and Engineering](#) includes more than 20,000 square feet of laboratories, nearly 1,000 computer systems, and more than 50 terabytes of storage. Gigabit connectivity is provided to every desktop by more than 60 miles of data cabling, and wireless access is available throughout the building.
- CSE general-purpose laboratories support the diverse set of hardware and software platforms required for a cutting-edge education in the field. CSE special-purpose laboratories provide tailored support for activities such as mobile robotics, computer graphics, digital design, motion capture, embedded systems, laser scanning, educational technology, networking, and artificial intelligence.
- The Allen Center is one of the finest computer science and computer engineering facilities in the nation. All of its capabilities are available to all CSE students.
- **Honors Options Available:** Departmental Honors (see adviser for requirements). For Interdisciplinary Honors, see University Honors Program.
- **Research, Internships, and Service Learning:** Internships and co-op opportunities are available for computer science undergraduates. See [www.engr.washington.edu/coop](http://www.engr.washington.edu/coop) and [depts.washington.edu/careers](http://depts.washington.edu/careers) for information.
- **Departmental Scholarships:** CSE has a limited number of scholarships available to current CSE majors. Scholarship information is listed at [www.cs.washington.edu/education/ugradscholars/scholarships.html](http://www.cs.washington.edu/education/ugradscholars/scholarships.html)
- **Student Organizations/Associations:** A student chapter of the Association for Computing Machinery (ACM) operates within CSE.

## Dance

### PROGRAM OVERVIEW

256 Meany

Dance is part of a liberal arts curriculum and provides students a foundation for future advanced work in dance pedagogy, performance, choreography, dance science, dance studies, or other movement-related fields. Faculty work closely with students to guide them on the educational track that best serves their career goals. Information about the dance major, dance studies option, dance minor, dance endorsement, and Master of Fine Arts degree in dance can be found at [depts.washington.edu/uwdance/](http://depts.washington.edu/uwdance/)

## UNDERGRADUATE PROGRAM

Adviser

256 Meany, Box 351150

206-543-0550

[danceadv@uw.edu](mailto:danceadv@uw.edu)

The Dance Program offers the following programs of study:

- The Bachelor of Arts degree with a major in dance, with options in either creative or dance studies.
- A minor in dance.
- OSPI approved Dance Endorsement

## Bachelor of Arts

### Program Admission Requirements

Applicants who meet the following requirements are accepted during autumn, winter, and spring quarters on a rolling basis.

- Minimum 2.00 cumulative GPA.
- Interview with Dance Program adviser to assess applicant's dance background, goals and interests, time to degree, and preparation for the major to ensure proper placement in dance coursework.
- Completion of DANCE 250 or DANCE 251.
- Creative studies option applicants must also be currently enrolled in a UW dance technique course (ballet or modern) so faculty can determine demonstration of minimum level of dance skill required to ensure the timely completion of requirements, and to evaluate appropriate level for further dance study.

### Major Requirements

Minimum 54–73 credits in dance as follows:

- **Core Curriculum (23–28 credits)**
  - **Gateway Course (5 credits):** DANCE 250 or DANCE 251. (Students enrolled in the dance studies option must take DANCE 250 as their gateway course.)
  - **Dance History (5 credits):** DANCE 344 or DANCE 345.
  - **Cross Cultural Studies (3–5 credits):** One of DANCE 234, DANCE 250, DANCE 336, DANCE 350, or DANCE 420. (If DANCE 250 is taken as the gateway course, the cross-cultural requirement is satisfied and no other course from the cross-cultural list is required, except for students enrolled in the Dance Studies option, who take DANCE 350 or DANCE 420 in addition to DANCE 250.
  - **Senior Seminar (3 credits):** DANCE 480
  - **Technique (10 credits):** From approved dance technique courses. See adviser for list of approved technique courses for each option. This requirement may be waived for students pursuing the dance studies option who have professional dance experience or those with a focus on dance form(s) not offered in the dance program curriculum. If the requirement is waived, students need to complete an additional 10 credits of approved electives.
- **Creative Studies Option (41–43 credits)**
  - **Required Courses (20 credits):** DANCE 166, DANCE 242, DANCE 270 (2 credits, 1 crew minimum), DANCE 493, DANCE 494.
  - **Dance Electives (3–5 credits):** At least one from DANCE 234, DANCE 235, DANCE 251, DANCE 266, DANCE 366, DANCE 371, DANCE 420, DANCE 490.
  - **Technique:** 18 credits from the following (12 credits minimum at the 300 level or above; 6 credits minimum in both ballet and modern dance; a maximum of 6 credits in the alternative movement studies series can be counted toward major technique requirements): DANCE 104, DANCE 105, DANCE 106, DANCE 107, DANCE 108, DANCE 109, DANCE 110, DANCE 111, DANCE 112, DANCE 201, DANCE 202, DANCE 203, DANCE 204, DANCE 205, DANCE 206,

DANCE 210, DANCE 211, DANCE 212, DANCE 230, DANCE 231, DANCE 232, DANCE 233, DANCE 301, DANCE 302, DANCE 303, DANCE 304, DANCE 305, DANCE 306, DANCE 310, DANCE 311, DANCE 312, DANCE 401, DANCE 402, DANCE 403, DANCE 404, DANCE 405, DANCE 406.

- *Dance Studies Option (31 credits)*
  - *Required Courses (9 credits):* DANCE 350 or DANCE 420, DANCE 415 and DANCE 416.
  - *Dance Electives (minimum 17 credits):* At least 17 credits from the following: DANCE 166, DANCE 234, DANCE 235, DANCE 251, DANCE 266, DANCE 270, DANCE 336, DANCE 350, DANCE 366, DANCE 420, DANCE 490, DANCE 493, and DANCE 494.
  - *Approved Electives (minimum 8 credits):* Approved elective courses based on individual interests and decided in conjunction with Dance Program adviser and faculty.

## Minor

*Minor Requirements:* Minimum 25 credits to include 10 credits from DANCE 166, DANCE 234, DANCE 235, DANCE 250, DANCE 251, DANCE 270 (1–6), DANCE 336, DANCE 344, DANCE 345, DANCE 350, DANCE 420, DANCE 490, DANCE 493, DANCE 494; and 15 credits from DANCE 102, DANCE 103, DANCE 104, DANCE 105, DANCE 106, DANCE 107, DANCE 108, DANCE 109, DANCE 110, DANCE 111, DANCE 112, DANCE 201, DANCE 202, DANCE 203, DANCE 204, DANCE 205, DANCE 206, DANCE 210, DANCE 211, DANCE 212, DANCE 230, DANCE 231, DANCE 232, DANCE 233, DANCE 301, DANCE 302, DANCE 303, DANCE 304, DANCE 305, DANCE 306, DANCE 310, DANCE 311, DANCE 312, DANCE 324, DANCE 401, DANCE 402, DANCE 403, DANCE 404, DANCE 405, DANCE 406.

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The Dance Program curriculum provides a balance between academic rigor and artistic development and serves as a basis for a broad range of career choices in dance related and other fields demanding strong communication skills, creativity, commitment, and the ability to work collaboratively and independently. Majors are encouraged to supplement their dance studies with coursework in other disciplines that provide a foundation for later specialization in dance ethnology, dance history and criticism, performance art, education, movement therapy, or movement science.
- *Instructional and Research Facilities:* Three spacious and well-equipped dance studios in Meany Hall. A video and sound editing facility. Use of Meany Hall and the Meany Studio Theatre for Dance Program performances.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Dance Endorsement:* [depts.washington.edu/uwdance/endorsement.html](https://depts.washington.edu/uwdance/endorsement.html).
- *Department Scholarships:* See adviser.
- *Research, Internships, and Service Learning:* See adviser.
- *Student Organizations/Associations:* Dance Student Association, University Dance Ensemble

## GRADUATE PROGRAM

### Graduate Program Coordinator

255 Meany, Box 351150

206-543-5594

[uwdance@uw.edu](mailto:uwdance@uw.edu)

The UW Dance Program offers graduate study leading to a Master of Fine Arts degree that prepares dance artists (who have had a minimum of eight years professional performance experience) for entry into the academic setting. This full two-year program begins mid June and includes summer quarter study. MFA candidates are supported in the development of an academic dimension to their creative work in dance. MFA candidates receive a tuition waiver and earn a monthly stipend in exchange for working as a teaching assistant in the Dance Program. For more extensive information visit: [depts.washington.edu/uwdance/graduate.html](https://depts.washington.edu/uwdance/graduate.html)

## Master of Fine Arts

### Admission Requirements

- A letter of interest and resume.
- An undergraduate degree from an accredited institution.
- Minimum eight years of professional performing experience.
- Ability to demonstrate movement skills at a professional level in at least one idiom, performance video-tape/DVD demonstrating performance range and ability, in person interview for final candidates.
- Three letters of reference verifying success and responsibility in the professional dance arena.
- Neither a foreign language nor the Graduate Record Examination is required.
- Application deadline is November 15. October 15 deadline for foreign applicants.
- Online application procedures available at [www.grad.washington.edu/admissions/](https://www.grad.washington.edu/admissions/)

### Degree Requirements

Minimum 72 credits, to include:

During the full two-year program, a student is expected to enroll full-time (minimum 10 credits/quarter, including 9 credits during summer quarter). A student must complete at least 72 credits in order to earn the degree, 40 of which are in required courses.

- *Required Coursework:* DANCE 510 (3, 12 total), DANCE 515 (3), DANCE 516 (3), DANCE 520 (3), DANCE 521 (3), DANCE 530 (2, total 4), DANCE 531 (3, total 6), DANCE 570 (3), DANCE 595 (3)
- *Coursework or Competency:* Students must have taken the following courses as an undergraduate, or have mastered their content through practical experience, or complete them during their two years in the program: DANCE 493 (5), DANCE 544 (5), DANCE 545 (5), DANCE 590 (5).
- *Coursework of Interest (not required):* DANCE 420 (3), DANCE 535 (3), DANCE 536 (3), DANCE 550 (3), PHIL 445 (5) or PHIL 446 (5)

## Financial Aid

All graduate students receive tuition waivers and teaching assistant stipends.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsat/](https://www.uw.edu/students/crsat/)

**DANCE 100 Understanding Dance (5) VLPA** Introduces the aesthetics and creative processes in dance and choreography. Pays attention to how dance is practiced in social arenas, popular entertainment and concert settings. Includes

independent field trips to local dance settings. Offered: AWSp.

**DANCE 101 Introduction to Dance (5) VLPA** Introduction to dance as an art form. Lectures in dance appreciation. Studio experience in ballet and modern dance techniques and composition. Attendance required at outside events.

**DANCE 102 Introduction to Dance (2–5, max. 10) VLPA** Introduces dance as an art form. Lectures in dance appreciation. Studio experience in ballet or modern dance techniques, may include experience in both techniques. Attendance required at outside events.

**DANCE 103 Introduction to Dance (2–5, max. 10) VLPA** Introduces dance as an art form. Studio experience in ballet or modern dance techniques, may include experience in both techniques. Attendance required at outside events. Prerequisite: DANCE 102.

**DANCE 104 Modern Technique (1–8, max. 12) VLPA** Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: either Dance 101 or Dance 102.

**DANCE 105 Modern Technique (1–8, max. 12) VLPA** Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: Dance 104.

**DANCE 106 Modern Technique (1–8, max. 12) VLPA** Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: Dance 105.

**DANCE 107 Ballet Technique (1–8, max. 12) VLPA** Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: either Dance 101 or Dance 102.

**DANCE 108 Modern Technique (1–8, max. 12) VLPA** Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: Dance 107.

**DANCE 109 Ballet Technique I (1–8, max. 12) VLPA** Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: Dance 108.

**DANCE 110 Jazz Technique I (1–4, max. 8) VLPA** Introduction to jazz technique.

**DANCE 111 Jazz Technique I (1–4, max. 8) VLPA** Introduction to jazz technique.

**DANCE 112 Jazz Technique I (1–4, max. 8) VLPA** Introduction to jazz technique.

**DANCE 166 Dance Composition I (5) VLPA** Introduction to the principles of dance composition through improvisation.

**DANCE 201 Ballet Technique II (1–8, max. 12) VLPA** Advanced-beginning level. Continued development of all beginning areas. Expansion of ballet vocabulary. Prerequisite: Dance 109.

**DANCE 202 Ballet Technique II (1–8, max. 12) VLPA** Advanced-beginning level. Continued development of all beginning areas. Expansion of ballet vocabulary. Prerequisite: Dance 201.

**DANCE 203 Ballet Technique II (1–8, max. 12) VLPA** Advanced-beginning level. Continued development of all beginning areas. Expansion of ballet vocabulary. Prerequisite: Dance 202.

**DANCE 204 Modern Dance Technique II (1–8, max. 12) VLPA** Advanced-beginning level technique. Continued development of all beginning areas and expansion of movement vocabulary. Prerequisite: Dance 106.

**DANCE 205 Modern Dance Technique II (1–8, max. 12) VLPA** Advanced-beginning level technique. Continued development of all beginning areas and expansion of movement vocabulary. Prerequisite: Dance 204.

**DANCE 206 Modern Dance Technique II (1–8, max. 12) VLPA** Advanced-beginning level technique. Continued development of all beginning areas and expansion of movement vocabulary. Prerequisite: Dance 205.

**DANCE 210 Jazz Technique II (1–4, max. 8) VLPA** Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary.

**DANCE 211 Jazz Technique II (1–4, max. 8) VLPA** Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary.

**DANCE 212 Jazz Technique II (1–4, max. 8) VLPA** Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary.

**DANCE 230 Alternative Movement Studies (1–3, max. 9) VLPA** Introduction to an alternative approach to movement study. Topics vary and may include pilates, yoga, Feldenkrais, or other somatic practices.

**DANCE 231 Folk-Social Dance Forms (1–2, max. 12) VLPA** Studio course in folk dance and social dance forms. Topics vary, and may include salsa, ballroom, or swing. Prerequisite: one year of previous dance experience.

**DANCE 232 Intermediate Alternative Movement Studies (1–3, max. 9) VLPA** Study of an alternative approach to movement at the intermediate level. Topics vary and may include pilates, yoga, Feldenkrais, or other somatic practices.

**DANCE 233 Advanced Alternative Movement Studies (3) VLPA** Study of an alternative approach to movement at the advanced level. Topics vary and may include pilates, yoga, Feldenkrais, or other somatic practices. Prerequisite: DANCE 232.

**DANCE 234 World Dance and Culture (3/5, max. 11) VLPA/I&S** Presents selected dance idioms as they relate to ethnicity in their performance, aesthetics, and history. Topics vary. May have studio component.

**DANCE 235 Integrated Dance: Training and Composition (3, max. 9) VLPA/I&S Koch** Investigates and explores ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses composition and movement technique utilized by integrated dance. May culminate in performance in Faculty Dance Concert.

**DANCE 242 Music in Relation to Dance (3) VLPA Moore** Provides students with music skills necessary to the areas of dance pedagogy, performance, choreography, dance analysis/criticism, and production. Includes an introduction to music theory, compositional and rhythmic analysis, music for dance class, and training on music/sound editing equipment. Offered: W.

**DANCE 250 Cross-Cultural Dance Studies (1–5, max. 8) I&S/VLPA McMains** Gateway course for dance major. Examines dance as a universal activity and expression of cultural identity. Offers a cross-cultural and historical view of a variety of theatrical, vernacular, and sacred dance forms, and investigates the myriad ways that dance functions across societies. Offered: A.

**DANCE 266 Dance Composition II (3–5, max. 10) VLPA** Dance composition in relation to music. Emphasis on solos and small groups. Prerequisite: DANCE 166. Offered: W.

**DANCE 270 Dance Performance Activities (1–3, max. 12) VLPA Bracilano** May include performance, choreography, production crew, or stage management in Dance program produced concerts under faculty supervision. Credit/no credit only.

**DANCE 290 Forces and Figures in American Popular Entertainment (3) VLPA/I&S** Designed to broaden understanding of the multi-cultural influences that American vernacular dance and music played in the shaping of the unique aesthetic of musical theater, dance, film, and stage traditions in the American popular entertainment industry. Includes live music and dance demonstrations by experts. Offered: Sp.

**DANCE 301 Ballet Technique III (1–8, max. 12) VLPA** Intermediate level. Expansion of ballet vocabulary. Prerequisites: Dance 203.

**DANCE 302 Ballet Technique III (1–8, max. 12) VLPA** Intermediate level. Expansion of ballet vocabulary. Prerequisites: Dance 301.

**DANCE 303 Ballet Technique III (1–8, max. 12) VLPA** Intermediate-level. Expansion of ballet vocabulary. Prerequisite: Dance 302.

**DANCE 304 Modern Dance Technique III (1–8, max. 12) VLPA** Intermediate-level technique. Expansion of movement vocabulary. Prerequisite: Dance 206.

**DANCE 305 Modern Dance Technique III (1–8, max. 12) VLPA** Intermediate-level technique. Expansion of movement vocabulary. Prerequisite: Dance 304.

**DANCE 306 Modern Dance Technique III (1–8, max. 12) VLPA** Intermediate-level technique. Expansion of movement vocabulary. Prerequisite: Dance 305.

**DANCE 310 Jazz Technique III (2, max. 8) VLPA** Advanced-level jazz technique. Styles vary.

**DANCE 311 Jazz Technique III (2, max. 8) VLPA** Advanced-level jazz technique. Investigation of jazz styles such as Afro-Caribbean, Luigi, and musical theatre.

**DANCE 312 Jazz Technique III (2, max. 8) VLPA** Advanced-level jazz technique. Investigation of jazz styles such as Afro-Caribbean, Luigi, and musical theatre.

**DANCE 324 Partnering Techniques (1–2, max. 6) VLPA** Studio course in partnering techniques used in social dance and contemporary dance practices, or classical dance. Prerequisite: intermediate level technique.

**DANCE 336 Integrated Dance: History, Methodology, and Praxis (3, max. 9) VLPA/I&S Koch** Investigates and practices ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses the history, background and varying practices of integrated dance.

**DANCE 344 Early Dance History (3–5, max. 5) I&S/VLPA Cooper** Explores Western theatre dance history from Renaissance court dance to development in ballet history through the mid-20th century. Examines dance practices in cultural/historical context. Assigned readings, in-depth analyses of dances on video guide a discussion of form, content, interpretation, and critical reception. Prerequisite: DANCE 250. Offered: A; alternate years.

**DANCE 345 Contemporary Dance History (3–5, max. 5) I&S/VLPA Salk** Examines the development of social and performance-based dance from the beginning of the 20th century to the present with particular emphasis on major international stylistic trends, cultural influences, and principal artists and their work. Prerequisite: DANCE 250. Offered: A; alternate years.

**DANCE 350 Dance/Performance Ethnography (3) VLPA/I&S McMains** Explores theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses primarily on dance. Also discusses methods and theories applicable to other physical practices such as music, theatre, sports, and performance arts. Offered: jointly with ANTH 349.

**DANCE 354 Laban Movement Analysis (5) VLPA** Introduction to the movement theories of Rudolph Laban and his proteges. Coursework includes effort/shape, space harmony, and an introduction to Labanotation. May include collaboration with other disciplines. Prerequisite: DANCE 166. Offered: alternate years.

**DANCE 366 Dance Composition III (3–5, max. 10) VLPA** Dance composition in relation to production, including elements of technology. Emphasis on larger group works. Prerequisite: DANCE 166. Offered: Sp.

**DANCE 371 Choreographic Workshop (2–5, max. 12) VLPA** Performing experience for students in pieces choreographed by faculty members and guest choreographers.

**DANCE 401 Ballet Technique IV (1–8, max. 12) VLPA** Advanced level. Includes expansion of ballet vocabulary. Prerequisite: DANCE 303.

**DANCE 402 Ballet Technique IV (1–8, max. 12) VLPA** Advanced level. Advanced level. Includes expansion of ballet vocabulary. Prerequisite: DANCE 401.

**DANCE 403 Ballet Technique IV (1–8, max. 12) VLPA** Advanced level. Advanced level. Includes expansion of ballet vocabulary. Prerequisite: DANCE 402.

**DANCE 404 Modern Dance Technique IV (1–8, max. 12) VLPA** Advanced technical skills applied to longer dance sequences. Includes expansion of movement vocabulary. Prerequisite: DANCE 306.

**DANCE 405 Modern Dance Technique IV (1–8, max. 12) VLPA** Advanced technical skills applied to longer dance sequences. Includes expansion of movement vocabulary. Prerequisite: DANCE 404.

**DANCE 406 Modern Dance Technique IV (1–8, max. 12) VLPA** Advanced technical skills applied to longer dance sequences. Includes expansion of movement vocabulary. Prerequisite: DANCE 405.

**DANCE 415 Research Methods I (3) VLPA McMains** Surveys theoretical modes of inquiry in current dance scholarship. Offered: Sp.

**DANCE 420 Dance Aesthetics (3) I&S/VLPA Woody** Philosophical investigation of the expressive elements of dance. Reading and discussion of the concepts of beauty, style, and aesthetic theory. Offered: W; alternate years.

**DANCE 480 Senior Seminar (3) VLPA** Provides a synthesis of experiences in the Dance Program with a focus on current and future individual interests and the transition to post-graduate life. Includes guest lecturers in dance professions.

**DANCE 490 Special Studies in Dance (1–3, max. 12) VLPA** Special studies designed to address contemporary and historical concerns in the field of dance.

**DANCE 493 Anatomy for Dance (3–5) NW/VLPA Wiley** Anatomy of the musculoskeletal system and its applications in dance movement.

**DANCE 494 Dance Teaching Methodologies (3–5) VLPA Salk** Introduction to dance pedagogy, including educational theory, motor learning, and biomechanical principles and music as it relates to the teaching of dance. Prerequisite: DANCE 242, DANCE 493, and a minimum of one quarter of ballet and/or modern technique at the 300 level or above.

**DANCE 499 Undergraduate Independent Study (\*, max. 10)**

**DANCE 510 Chamber Dance Production (3, max. 12) Wiley** Rehearsal and performance of significant choreography from the modern dance canon. Credit/no credit only.

**DANCE 515 Dance Research Methods (3) McMains** Survey of theoretical modes of inquiry in current dance scholarship. Offered: Sp.

**DANCE 516 Research Methods II (3) McMains** Focuses on designing an original research project, conducting research, and writing a scholarly paper suitable for publication in a juried journal or conference presentation. Practice in conference presentation. Offered: S.

**DANCE 520 Dance in Higher Education (3) Wiley** Discussion, writing, and observation of dance in higher education. Offered: A.

**DANCE 521 Dance Administration (3) Cooper** Readings and discussion relating to dance administration in college and professional settings. Topics include: curricular development, university governance, development of curriculum vitae and teaching portfolio, preparation for tenure and promotion, and current issues related to dance as a performing art within the university structure.

**DANCE 530 Graduate Dance Composition (2, max. 6)** Addresses creative process, directing, and critical analysis in dance composition. Alternate years: focus on interdisciplinary collaborative projects. Offered: A.

**DANCE 531 MFA Concert Production (3, max. 9)** Public performance of MFA choreography. On alternate years this is a collaborative concert between MFA choreographers and artists working in another discipline. Offered: Sp.

**DANCE 536 Integrated Dance: History, Methodology, and Praxis (3, max. 9) Koch** Investigates and practices ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities.

ties. Addresses the history, background and varying practices of integrated dance.

**DANCE 544 Early Dance History (3–5, max. 5)** *Cooper* Explores Western theatre dance history from Renaissance court dance to development in ballet history through the mid-20th century. Examines dance practices in cultural/historical context. Assigned readings, in-depth analyses of dances on video guide a discussion of form, content, interpretation, and critical reception. Offered: A; alternative years.

**DANCE 545 Contemporary Dance History (3–5, max. 5)** *Salk* Examines the development of social and performance-based dance from the beginning of the 20th century to the present with particular emphasis on major international stylistic trends, cultural influences, and principal artists and their work. Offered: A; alternative years.

**DANCE 550 Dance Performance Ethnography (3) VLPA/I&S McMains** Theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses on dance-methods and theories discussed also applicable to other physical practices such as music, theatre, sports and performance art. Offered: jointly with ANTH 549; W.

**DANCE 570 Dance Production Seminar (3)** Surveys the process of dance production from audition to performance. Managing design, technology, and personnel to support the creative process from conceptual stages to production. Offered: S.

**DANCE 590 Dance Teaching Methodologies (3–5)** *Salk* Introduction to dance pedagogy with an emphasis on motor learning skills and biomechanics. Practical teaching experience. Offered: W.

**DANCE 595 Master's Project (3)** Project in area of interest developed in consultation with faculty advisor and supported by elective courses. Full faculty approval of proposed project by end of first year. Formal presentation, appropriate to project's content, presented to full faculty during second year. Project culminates in the teaching of an undergraduate dance course.

**DANCE 600 Independent Study or Research (\*)**

## Digital Arts and Experimental Media

### PROGRAM OVERVIEW

207 Raitt

The processes of inquiry encompassing imagination, exploration, discovery, and reflection are universal among artists, scholars, scientists, and engineers. All seek to uncover new knowledge through innovations that improve our lives and communicate new ways of understanding ourselves and the universe. The Center for Digital Arts and Experimental Media (DXARTS) is a creative research convergence zone for intrepid artists and scholars who are pioneers of an unfolding new era in the arts.

The DXARTS program embraces an expansive range of arts practice, theory, and research across multiple disciplines. The center is home to its own undergraduate and graduate degree programs, but welcomes into its facilities and courses many who are not directly affiliated with one of these programs. Faculty and students at DXARTS may focus their work in a particular area of experimental arts (digital video, digital media art, computer music and sound art, computer animation, design computing, mechatronics, and so on), or they may pursue areas of creative research that have no media allegiance overlapping with and drawing from several or many different areas. Whatever the case, artists and scholars working at DXARTS engage in teaching, learning, and research within the synergistic,

multidisciplinary setting of the center's labs, studios, and classrooms.

A common thread running through all of the work at DXARTS is the implicit maxim that to discover new knowledge we must challenge all assumptions. DXARTS is a place where the ideas and outcomes of creative arts research are in an ongoing state of becoming.

## UNDERGRADUATE PROGRAM

### Adviser

207 Raitt Hall, Box 353414

206-221-6085

[dxarts@uw.edu](mailto:dxarts@uw.edu)

The DXARTS program offers the following program of study:

- The Bachelor of Fine Arts degree with a major in digital arts and experimental media

### Bachelor of Fine Arts

#### Program Admission Requirements

Admission is once a year. Application, normally during the sophomore year, is made during winter quarter for admission in spring. Admission is competitive. A minimum 2.50 GPA guarantees consideration, but the GPA of accepted applicants is normally considerably higher.

All applicants, regardless of background and proposed course of study, are expected to show a significant level of computing skill and general technology literacy.

Students must enroll in DXARTS 200 autumn quarter. Based on performance in DXARTS 200, students are selected to continue in DXARTS 201 winter quarter. Students enrolled in DXARTS 201 are eligible to submit an application and supplemental materials to be considered for admission spring quarter. Supplemental materials include an electronic portfolio, a statement of interest in the program, and a proposed course-of-study plan. For details, see the program's [website](http://dxarts.uw.edu). Students must complete the following prior to application:

- CSE 142
- PHYS 114 or PHYS 121
- MUSIC 120
- ART H 203
- Mathematics proficiency through the pre-calculus level. Proficiency may be demonstrated by completion of MATH 120 or equivalent, a minimum score of 68% on the UW Advanced Mathematics placement test, a minimum score of 2 on the mathematics AP exam, or completion of a college-level calculus course.

#### Major Requirements

In addition to the courses required for admission as described above, major requirements include the following:

- 64–74 credits of DXARTS courses, as follows:
  - DXARTS 202 (5 credits)
  - Three quarters of DXARTS 400 (6 credits total)
  - DXARTS 412 (3 credits)
  - Completion of two of the following four DXARTS core sequences (30 credits): DXARTS 441, DXARTS 442, DXARTS 443 (3D Motion and Graphics); DXARTS 451, DXARTS 452, DXARTS 453 (Video); DXARTS 461, DXARTS 462, DXARTS 463 (Sound); DXARTS 471, DXARTS 472, DXARTS 473 (Mechatronics).
  - Completion of a third core sequence as listed above or one of the following fundamentals courses dealing with a third content area (5 to 15 credits): DXARTS 440, DXARTS 450, DXARTS 460, or DXARTS 470.
  - Senior thesis in the form of 15 credits of DXARTS 491, DXARTS 492, and DXARTS 493, including the

completion and exhibition of a B.F.A. thesis project that is a significant and original contribution both aesthetically and technically.

- 20–30 credits in additional DXARTS courses, or courses from a list of approved electives in other areas, to bring total major credits to 94. See department website or advising office for a list of approved electives.
- A minimum 2.0 grade in all DXARTS courses counted toward the major. A cumulative GPA of 2.50 in all DXARTS courses and approved electives.
- For complete information about the B.F.A. program visit the program's [website](http://dxarts.uw.edu).

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The program goal is to create opportunities for entering artists to discover and document new knowledge and expertise. Unlike other B.F.A. degrees, which offer initial professional studio art education, this B.F.A. is primarily a pre-graduate, research-oriented degree, signifying that an individual is professionally qualified to investigate fundamental problems in the nature and practice of digital arts and experimental media. Graduates are prepared to pursue original creative and technical research in the field and contribute to the development of knowledge and its consequences in society and culture.
- *Instructional and Research Facilities:* DXARTS houses extensive laboratories and advanced research studios with state-of-the-art computing, imaging, sound, networking, mechatronics, and electronics equipment to support a wide range of experimental art.
- *Honors Options Available:* College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements). For Interdisciplinary Honors, see University Honors Program.
- *Research, Internships, and Service Learning:* Some areas of research and professional opportunities within DXARTS include digital video art, computer music composition, website design and programming, 3D animation, motion graphics design, user interface design, sound design, interactive media production, multimedia art, electronic stage and set design, authoring of electronic online publications, special effects design, virtual environment design, sound art, and installations art (in galleries, public, and virtual spaces).
- *Department Scholarships:* Limited in number with competitive application processes. Please see adviser for details.
- *Student Organizations/Associations:* None.

## GRADUATE PROGRAM

### Graduate Program Coordinator

207 Raitt Hall, Box 353414

206-543-4218

[dxarts@uw.edu](mailto:dxarts@uw.edu)

### Doctor of Philosophy

The goal of doctoral education in Digital Arts and Experimental Media is to create opportunities for artists to discover and document new knowledge and expertise at the most advanced levels higher education can offer. While creating new art is at the center of all activities in the program, the DXARTS PhD is a research-oriented degree requiring a substantial commitment to graduate-level study and reflection. The PhD degree prepares artists to pursue original creative and technical research in digital arts and experimental media and to pioneer lasting innovations on which future artists and scholars can build.

### Admission Requirements

- Master's degree or equivalent in a discipline or field related to the proposed doctoral work.
- Portfolio of artistic work.
- Statement of purpose
- Competence in computing, general technology literacy, and skill and imagination in the applicant's areas of interest.
- One copy of the Graduate School's Application Form
- One sealed official transcript from each collegiate institution attended.
- A digitally-based portfolio of artistic work including any other documentation that can help the admissions committee make its evaluations. The portfolio should be thoughtfully organized in a digital format (CDROM, DVD, URL, etc.) that best represents the applicant's work. Non-digital supplemental materials should be included in the index on the digital portfolio.
- A complete curriculum vitae and narrative biography
- Three letters of recommendation from instructors or professors familiar with the applicant's academic qualifications
- International applicants must submit TOEFL and TSE scores

### Degree Requirements

90 credits, to include:

- Prior to the general examination, which concludes Phase Two of the program, six quarters of full-time study (minimum of 10 credits per quarter). DXARTS 500 is required every quarter.
- 60 credits of DXARTS approved courses (not including DXARTS 800 credits). At least 30 of the credits earned must be at the 500 level. At least 30 must be in graded 400- and 500-level courses.
- Minimum 3.00 GPA in DXARTS courses.
- General examination
- Final project - a substantial and original contribution in both artistic and technical domains. At least 27 credits of DXARTS 800 over a period of at least three quarters before taking the final doctoral examination.
- Two-part final examination. Registration as a doctoral student is required during the quarter the examination is taken.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**DXARTS 198 Digital Arts Seminar (5, max. 10) VLPA** Topics vary and are announced during the preceding quarter. Taught by UW faculty and visiting artists, engineers, scientists, and humanities scholars.

**DXARTS 200 Digital Art and New Media: History, Theory, and Practice (5) VLPA** Provides a historical and critical overview of artists and scientists pioneering the digital arts. Discusses important digital media issues from aesthetics, creative strategies, emerging trends, and socio-cultural aspirations.

**DXARTS 201 Fundamentals of Digital and Experimental Art I (5) VLPA** Principles of digital media creation through a combination of lectures, practical assignments, and studio seminars. All resources, assignments, and reviews are web-based. Requires access to a fast, networked computer outside of class. Prerequisite: DXARTS 200.

**DXARTS 202 Fundamentals of Digital and Experimental Art II (5) VLPA** Server-based art course. Introduces principles of digital media creation. All resources, assignments, and re-

views are web-based. Requires access to a fast, networked computer outside of class. Prerequisite: DXARTS 201.

**DXARTS 400 Undergraduate Research Studio (2, max. 6) VLPA** Covers recent advances and current trends in digital arts and experimental media research. Topics may include in-depth examination of new artwork and research by pioneering figures in the field.

**DXARTS 411 Applications of Digital Technologies to Humanities Research (5) VLPA** Hands-on project-based approach to imaging, new media, text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research. Offered: jointly with HUM 411.

**DANCE 416 Research Methods II (3) VLPA Cooper** Focuses on designing an original research project, conducting research, and writing a scholarly paper suitable for presentation at an undergraduate research conference. Practice in conference presentation. Prerequisite: DANCE 415. Offered: A.

**DXARTS 430 Algorithmic Processes in the Arts (5) VLPA** Basics of computer programming and algorithmic thinking in digital arts. Emphasis on experimental art forms where building of custom software is integral to realizing an artistic vision.

**DXARTS 440 Fundamentals of Interactive 3D Art (5) VLPA** Introduction to fundamental techniques for the creation of interactive graphics-based three-dimensional digital art. Concepts and techniques include the use of scripting and modeling as methods for designing spaces. Strong emphasis on interactivity, aesthetics, and the exploration of time-based art. Contextualizes navigable digital environments within the history of the visual arts.

**DXARTS 441 3D Space I: Computer Modeling and Environments (5) VLPA Andrews** Introduction to 3D graphics for experimental artists. Utilizes sophisticated software tools to explore object modeling, environment construction, surface texturing, and image rendering. Through lectures, viewings, tutorials, and projects, students develop a multi-purpose skill set that can be used for innovative content creation, visualization, project planning, documentation, and cross-media integration. Offered: A.

**DXARTS 442 3D Space II: Computer Motion and Advanced Techniques (5) VLPA Andrews** Further investigation into 3D visualization for experimental artists. Building on foundations established DXARTS 441, introduces methods for orchestrating movement, including deformation, dynamics, and rigging. Also covers techniques such as particle systems, simulation, and scripting, giving students experience using advanced tools for envisioning and creating original artwork. Prerequisite: DXARTS 441. Offered: W.

**DXARTS 443 3D Space III: Special Topics in 3D Computer Arts (5) VLPA Andrews** In-depth exploration of topics in advanced 3D arts research, specific subjects vary. Students integrate skill developed in DXARTS 441 and DXARTS 442 to realize ambitious art projects related to particular class focus. Sample topics include virtual reality, interactive 3D, networked environments, and rapid prototyping. Prerequisite: DXARTS 442. Offered: Sp.

**DXARTS 450 Digital Video Foundations (5) VLPA** Digital video studio designed towards the individual creation of experimental short films and video art. Emphasis on art-making, conceptual thinking, and experimentation. Focuses on core generative processes of digital film, including preproduction, production, and presentation. Students work individually and in small teams.

**DXARTS 451 Introduction to Experiments in Digital Video: The Architecture of Time I (5) VLPA** Introduction to the skills and concepts used in digital video production. Includes exposure to industry standard equipment, terminology, and digital video production skills in experimental arts context. Basic research areas include field production and electronic image gathering, field and studio lighting, basic non-linear editing. Offered: A.

**DXARTS 452 Experiments in Digital Video: The Architecture of Time II (5) VLPA** Nonlinear and nondestructive editing

methods used in digital video are defining new architectures of time for cinematic creation. Continues previous digital video research with intermediate nonlinear editing, digital audio, compositing, and digital effects. Focuses specifically on student research with alternative cinematic strategies in an experimental arts context. Prerequisite: DXARTS 451. Offered: W.

**DXARTS 453 Experiments in Digital Video: The Architecture of Time III (5) VLPA** Furthers skills and concepts taught in DXARTS 450 and 451. Emphasizes development of advanced research interests. Research topics include interactive video installation, web-based e-cinema projects, anamorphic image research, video and electronics as support systems for installation, CCTV research, basic D D authoring, and live keying techniques. Prerequisite: DXARTS 452. Offered: Sp.

**DXARTS 460 Digital Sound (5) VLPA** Foundations of digital sound for digital arts applications. Digital sound theory; transducers; audio signals; mixer architectures; field recording strategies. Multi-track editing for recording, analysis, editing, montage, mixing, synchronization, and mastering. Problem-solving for innovative applications in video, multimedia, and installation art.

**DXARTS 461 Digital Sound Synthesis (5) VLPA** Introduction to software sound synthesis techniques. Includes acoustics and psychoacoustics; virtual synthesizers and unit generators; table-lookup oscillators and wavetable synthesis; additive synthesis; modulation synthesis; ring amplitude, phase and frequency; granular synthesis; noise; subtractive synthesis and filters. Offered: jointly with MUSIC 401; A.

**DXARTS 462 Digital Sound Processing (5) VLPA** Introduction to digital sound processing techniques. Includes sampling techniques and time-domain transformation of samples sound; sample-rate conversion; sound granulation and time stretching; delay lines; introduction to digital filtering; FIR and IIR filters; digital effects; reverberation; virtual-room acoustics and dynamic sound location. Prerequisite: DXARTS 461/MUSIC 401. Offered: jointly with MUSIC 402; W.

**DXARTS 463 Advanced Digital Sound Synthesis and Processing (5) VLPA** Advanced sound processing and synthesis techniques. Includes sound time warping; analysis-synthesis techniques; linear predictive coding; the phase vocoder; frequency-domain sound transformations; introduction to physical modeling. Prerequisite: DXARTS 462/MUSIC 402. Offered: jointly with MUSIC 403; Sp.

**DXARTS 470 Sensing and Control Systems for Digital Arts (5) VLPA** Software- and hardware-based tools and approaches to real-time I/O and electromechanical control in performance, art installations, and other digital arts applications. Focus on prepackaged but flexible tools. Real-time systems programming and design.

**DXARTS 471 Mechatronic Art, Design, and Fabrication I (5) VLPA** A systems based approach to design and fabrication of functional experimental art devices. Combines principles of mechanical, electronic, electrical, software engineering, robotics, motion control, sensors, actuators, and other control devices. Integrated review of new hardware and software components. Offered: A.

**DXARTS 472 Mechatronic Art, Design, and Fabrication II (5) VLPA** Continues the systems based approach to the design and fabrication of functional experimental art devices. Combines principles of mechanical, electronic and electrical engineering, software engineering, robotics and motion control, application of sensors, actuators, and other control devices. Prerequisite: DXARTS 471. Offered: W.

**DXARTS 473 Mechatronic Art, Design, and Fabrication (5) VLPA** Continues systems based approach to the design and fabrication of functional experimental art devices. Combines principles of mechanical, electronic and electrical engineering, software engineering, robotics and motion control, application of sensors, actuators, and other control devices. Prerequisite: DXARTS 472. Offered: Sp.

**DXARTS 490 Special Topics in Digital Arts and Experimental Media (3-5, max. 15)** Taught by UW faculty and visiting artists, engineers, scientists, and humanities scholars.

**DXARTS 491 Senior Thesis I (5) VLPA** Introductory course of the senior thesis sequence. Includes weekly seminars, selection of a thesis topic, and contract with an appropriate faculty advisor. Majors and senior standing only. Offered: A.

**DXARTS 492 Senior Thesis II (5) VLPA** Second course of the senior thesis sequence. Majors and senior standing only. Prerequisite: DXARTS 491. Offered: W.

**DXARTS 493 Senior Thesis III (5) VLPA** Third course of the senior thesis sequence. Completion and presentation of final project. Majors and senior standing only. Prerequisite: DXARTS 492. Offered: Sp.

**DXARTS 495 DXARTS Production Studio (3–15, max 30) VLPA** Intensive, large-scale, collaborative, experimental media-based art projects. Examples include major interactive art installations, cinematic works, live computer music performances, and mechatronic or telematic collaborations. Topic vary.

**DXARTS 499 Undergraduate Research (1–5, max. 12)** Supervised independent work on projects and research. Offered: AWSpS.

**DXARTS 500 Research Studio (3, max. 30)** Covers recent advances and current trends in digital arts and experimental media research. Students discuss and demonstrate their own ongoing research and creative projects. In-depth examination of new artwork and research by pioneering figures in the field. Prerequisite: DXARTS graduate student.

**DXARTS 505 Research Techniques in Digital Arts (3)** Digital arts research resources; structuring and strategizing research as part of artistic development; standards for writing and publishing; ethics and approach to technology transfer, and issues such as patenting. Prerequisite: DXARTS doctoral student.

**DXARTS 511 Applications of Digital Technologies to Humanities Research (5)** Hand-on project based approach to imaging, new media, electronic text, metadata and accessibility, rights management, and other issues central to contemporary humanities research.

**DXARTS 517 Psychology of Audio and Visual Perception in the Arts (5)** Processes behind sound and image perception, with emphasis on cognition and practical applications for artists. Includes cross-modal theory and synaesthesia. Prerequisite: DXARTS graduate student.

**DXARTS 528 Real-Time Digital Image Processing (5)** Theory, aesthetics, and practice of real-time video manipulation/performance systems. Theory and high-level programming of image synthesis and processing.

**DXARTS 545 Digital Stereoscopic Cinema (5)** Andrews Exploration of stereoscopic cinema focusing on depth perception as an element in artistic practice. Introduces history, theory, and methods of production for 3D time-based imagery. Students have access to equipment and opportunities to produce work in this format. Prerequisite: DXARTS 442, DXARTS 452, or permission of instructor.

**DXARTS 552 Advanced Topics in Digital Video (5)** Covers recent advances and current trends in digital video research. May include in-depth examination of new artwork and research by faculty, students, and visiting professionals. Prerequisite: DXARTS 450; and either DXARTS 451 or 452.

**DXARTS 565 Spectral Modeling of Sound (5)** Theory and practice of sound modeling in the spectral domain. Custom-designed software for spectral modeling and re-synthesis. Implementation of software tools for spectral analysis, transformation, and synthesis. Prerequisite: DXARTS 463.

**DXARTS 567 Sound in Space (5)** Theory and practice of spatial sound. Custom-designed software for spatial location of sound. Soundfield microphones used for team-based location recording sessions. Prerequisite: DXARTS 463.

**DXARTS 569 Real-time Digital Sound Processing (5)** Introduction to real-time digital sound processing techniques. Includes: foundation of real-time systems; integration; reactive environments in performance and installation work; interfaces; communication protocols (MIDI, TCP); feature detection; pitch tracking; transient detection; time-domain

processing techniques; frequency-domain processing techniques; algorithmic processes. Prerequisite: DXARTS 463.

**DXARTS 571 Telematic Art I (5)** Focuses on the production of artworks that make use of real-time information networks. Topics include Internet art, database-driven art, and telematic installation art. Prerequisite: either DXARTS 470, DXARTS 473, or permission of instructor.

**DXARTS 598 Advanced Topics in Digital Arts and Experimental Media (3–5, max 21)** Covers recent advances and current trends in digital arts and experimental media research. Various topics may include in-depth examination of new art work and research by faculty, students, and visiting professions.

**DXARTS 600 Independent Study or Research (1–9)**

**DXARTS 800 Doctoral Dissertation (\*)** At least 27 hours of dissertation credit is required for the award of a PhD in Digital Arts and Experimental Media. No more than 10 credits may be taken in any quarter, except summer. Credit/no credit only.

## Drama

### SCHOOL OVERVIEW

101 Hutchinson

Drama as an art form is a far-reaching discipline providing a humanistic approach to today's societal problems and issues. Drama wrestles with the most compelling issues of our time, to derive new understanding for the advancement of the human condition. It also fosters curiosity, invention, bravery, and humor, promoting practical innovation and personal revelation as lifelong practice for the artist.

Through mastery of skills, techniques and theories, people in drama nurture imagination, seek inspiration and fluent, authentic, original storytelling that reflects the complexity of the human spirit.

### UNDERGRADUATE PROGRAM

#### Adviser

129 Hutchinson Hall, Box 353950

206-543-4204

[uwdrama@uw.edu](mailto:uwdrama@uw.edu)

The School of Drama offers the following program of study:

- The Bachelor of Arts degree with a major in drama

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* See department admission requirements below.

#### Department Admission Requirements

DRAMA 201 and DRAMA 251; two of the following: DRAMA 210, DRAMA 211, DRAMA 212, DRAMA 213; one of the following: DRAMA 290, DRAMA 291, DRAMA 292; and a minimum GPA of 2.50 for the five courses.

No audition is required to enter the program.

#### Major Requirements

66 credits as follows:

- DRAMA 201 (5 credits)
- DRAMA 251, DRAMA 252 (10 credits)
- Three courses from the following: DRAMA 210 (4 credits), DRAMA 211 (4 credits), DRAMA 212 (4 credits), DRAMA 213 (4 credits) (12 credits total)
- DRAMA 290, DRAMA 291, DRAMA 292 (3 credits total)
- DRAMA 302 (5 credits)

- One course from the following: DRAMA 374, DRAMA 377, DRAMA 378, DRAMA 471, DRAMA 472 (5 credits)
- One course from the following: DRAMA 473, DRAMA 475, DRAMA 476 (5 credits)
- One course from the following: DRAMA 371, DRAMA 373, DRAMA 416, DRAMA 494 (5 credits)
- One additional course from the above three groups (5 credits)
- 300- and 400- level drama electives (10 credits)
- DRAMA 401 (1 credit)

*Continuation Policy:* Drama majors who fall below a 2.00 GPA in drama courses are placed on department academic probation for one quarter. Students who fail to raise their GPA to 2.00 in that time are dropped from the major and returned to premajor status. Students may petition the School of Drama for readmission.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The faculty of the School of Drama considers the optimum preparation for the theatre artist to be comprised of a liberal arts undergraduate major in drama and a graduate conservatory education.
- Learning objectives include enriched artistic expression, a foundation for further study, and cultivation of essential life skills: teamwork, communication, critical thinking, and imagination.
- Students earning the Bachelor of Arts in drama are prepared to seek employment in the theatre industry, apply for advanced degrees in a specific area of theatre (e.g., MFA in acting or design), or transfer the skills gained through the program to broader career opportunities. Recent graduates have pursued careers in acting, design, directing, technical direction, stage management, dramaturgy, playwrighting, literary management, teaching, and in such non-theatre occupations as real estate agent, fund-raiser, public relations staff, politician, librarian, academic counselor, lawyer, nurse, translator of foreign films, admissions counselor, trade show/convention production assistant, talent agent, casting director, music promoter, special events coordinator, tour guide, human resources coordinator, wedding coordinator, aerobics instructor, music promoter.
- *Instructional and Research Facilities:* Rehearsal and performance spaces include the Glenn Hughes Penthouse Theatre (the first theatre-in-the-round built in the United States), the thrust-stage Floyd and Delores Jones Playhouse, the end-stage Meany Studio Theatre, and the proscenium in Meany Hall. Other spaces include the Cabaret, Studio 201, and Hutchinson 218. School of Drama facilities include a design studio, costume shop, scene shop, and computer labs. The Drama Library houses reserve books, plays, sound effects, dialect tapes, local audition and job notices, and a special collection of acting editions. Also available are specialized indexes and theatre databases. The librarian assists in the use of reference materials and indexes, bibliographic searches of on-line databases, and offers reference service and bibliographic instruction sessions for groups and individuals.
- *Honors Options Available:* Minimum 90 credits, minimum cumulative 3.50 GPA, and identified faculty adviser required to apply. For requirements to graduate with departmental honors, see adviser for details.
- *Research, Internships, and Service Learning:* Student participation in all aspects of dramatic art is provided through student productions, and faculty- and student-directed plays drawn from the full range of world dramatic literature and produced throughout the year. The School also produces operas in association with the School of Music To enhance employability and gain hands-on experi-

ence, students are encouraged to participate in internships with regional theatres, and related organizations or businesses. Academic credit may be earned for internships under the course number DRAMA 493. Internship credits count toward drama elective credits to graduate. A resource guide to drama-related internships is available at the drama undergraduate advising website. Drama students are also encouraged to apply for undergraduate research, leadership, and/or fellowship grants available through the Mary Gates Endowment.

- **Department Scholarships:** School of Drama scholarships are awarded annually every spring for the following academic year to students who have demonstrated academic merit and contributed significantly to the School of Drama. Applications are available from the advising office mid-January.
- **Student Organizations/Associations:** The Undergraduate Theatre Society (UTS) is a student organization that produces undergraduate theatre works in the Cabaret performance space. Any UW student may audition for UTS productions. UTS members also participate in annual New Student Orientation and other school events on a volunteer basis. A volunteer elected group of drama students, the B.A. Council, meets regularly with the School of Drama Executive Director and head of the bachelor of arts program to discuss issues relative to the undergraduate program.

## GRADUATE PROGRAM

### Graduate Program Coordinator

101 Hutchinson, Box 353950

206-543-5140

[uw drama@uw.edu](mailto:uw drama@uw.edu)

The School of Drama offers professional training and scholarly programs leading to the Master of Fine Arts (MFA) and Doctor of Philosophy (PhD) degrees. Areas of study for the MFA degree are acting, stage direction, scene design, lighting design, and costume design. Most students should expect to spend three intensive years completing the requirements for the MFA degree.

The PhD program provides students with training for scholarly research in theatre history, dramatic literature, theory, and criticism. It also hosts the UW's Center for Performance Studies and connects students with related classes on campus.

## Master of Fine Arts—Acting

### Admission Requirements

Admission is based on a private fifteen minute audition and interview with the head of the Professional Actor Training Program (PATP).

Applicants should prepare the following:

- A two-minute monologue from a modern prose play.
- A two-minute Shakespearean verse monologue.
- Approximately 16 bars of a song, a cappella or with auditioner-provided accompaniment.
- Auditioners should also be ready to detail their previous training.

Students who hold (or will hold by the time they enroll) a baccalaureate degree from an accredited institution may apply. Most applicants have undergraduate degrees in theatre, but it is not essential. All applicants must demonstrate outstanding talent to be admitted. The GRE is not required. International applicants must meet the minimum TOEFL and TSE scores and other requirements listed on the Graduate School's website ([www.grad.washington.edu/admissions/info.shtml](http://www.grad.washington.edu/admissions/info.shtml))

Applicants must submit the following to Graduate Programs, School of Drama, University of Washington, Box 353950, Seattle, WA 98195-3950:

- The School of Drama PATP application form (available for download from [the School's website](http://the School's website)) with the preferred audition date indicated.
- A non-refundable audition fee, payable by check or money order to the School of Drama. Applications postmarked after the deadline must include a late application fee of \$10.00. Please note, this is a separate fee from the one due to the Office of Graduate Admissions.
- A photograph.
- A current résumé of training and experience in the applicant's field.
- One set of official transcripts.
- A statement of purpose including educational and professional goals.
- Two letters of recommendation.
- A copy of the Application for Admission to the Graduate School.

### Degree Requirements

The primary focus of PATP training is to provide actors with the practical tools and sensibilities to become outstanding theatre actors comfortable and effective in all media. During the three-year course of study, every student appears in at least seven productions, two self-written solo shows, an in-depth dialect project, and extensive scene and technique classes.

The program is structured to immerse students in the traditional vocabulary and practices set down by Konstantin Stanislavski and informed by the individual professional experiences of the faculty. The program is also designed to increase the actors' expressiveness through "instrument classes" in voice, speech, dialects, coordination (Alexander Technique), Viewpoints, and Suzuki-based movement. During the three years of study, students become well versed in the established canon of western dramatic literature.

Throughout the year PATP students have opportunities to audition for summer theatre festivals from around the region and country. The program also maintains productive relationships with professional theatres in Seattle and the region such as the Seattle Repertory Theatre, Intiman, Empty Space, ACT, Seattle Children's Theatre, The Guthrie Theatre, and the Oregon Shakespeare Festival.

During the third year, classes and projects focus on career and business. At the end of the third year, students prepare a professional showcase for Seattle, Los Angeles, and New York, and each actor in the program leaves with a professional quality audition reel. All PATP students are evaluated by the acting faculty at the end of each quarter. Students are admitted with the expectation that all will graduate, although dismissal is possible given two unsatisfactory critiques.

Required coursework is 90 credits, to include:

- 36 credits of DRAMA 557 (12, max. 36)
- 36 credits of DRAMA 558 (12, max. 36)
- DRAMA 551 (1–3, max. 3)
- DRAMA 552 (1–3, max. 3)
- DRAMA 553 (1–3, max. 3)
- 6 credits of DRAMA 559 (6, max. 18)
- 9 credits of DRAMA 700 (1, max. 9)

## Master of Fine Arts—Directing

### Admission Requirements

This program accepts only two MFA candidates every other year. While there is always room for the exceptional applicant, it is extremely difficult to gain admission directly out of a B.A. program with no other credentials. The program

tends to choose candidates who show evidence of enterprising energy and accomplishment "out in the world," who may have successfully assisted seasoned directors, and who have at least the beginning of a professional and artistic record.

### All Applicants

- Applicants submit the following to Graduate Programs, School of Drama, Box 353950, Seattle WA 98195-3950:
  - The separate directing application form (available for download from the School's [website](http://website)) and fee, made payable to the School of Drama. This fee is separate from that due to the Office of Graduate Admissions.
  - A current résumé of training and experience in the field.
  - A statement of purpose including educational and professional goals.
  - Three letters of recommendation. A copy of the Application for Admission to the Graduate School.
  - One set of official transcripts.
  - A directorial analysis of a play or opera chosen from a preselected list.
- All applicants for graduate study at the UW must also apply to the Office of Graduate Admissions. The GRE is not required for any applicant to this program. International applicants must meet minimum TOEFL and TSE scores and other requirements as listed on the Graduate School's website ([www.grad.washington.edu/admissions/info.shtml](http://www.grad.washington.edu/admissions/info.shtml)) and should apply by November 1.

### Second step for selected applicants

- A short list of candidates (12–16) are invited to continue the application process and interview, either in person or via video conferencing.
  - Candidates interview for 30 minutes with the head of the program
  - Candidates present a two-minute monologue as a way of revealing, not acting talent but the candidate's knowledge of what it is to speak dialogue, transmit thoughts, and physically relate to space.
  - Candidates are asked to respond to a two-page questionnaire provided by the School of Drama.

### Third step for final short-listed applicants

- A small group of four to eight candidates is invited to Seattle to be interviewed in person by a group of faculty. As part of this interview each candidate conducts a rehearsal of one of three pre-selected scenes with actors provided by the School of Drama. These actors are familiar with the material and are ready to be on their feet. Candidates receive the scene options and any additional information when notified of their selection to this short list.

### Degree Requirements

The directing program at the UW School of Drama is a three-year intensive, conservatory program designed to prepare students for successful entry into the professional theatre. Classes and training include work in a range of types and styles of dramatic work, including realistic, non-realistic, classical, and contemporary plays. Directing lab, seminar, Suzuki, and Viewpoints are taken every quarter. Acting process work includes Stanislavski, action theory, Shakespeare, Chekhov, and contemporary realism.

Every quarter each student directs in the classroom, studio, or both. Plays are selected in conjunction with the faculty and the length and nature of the project is determined by each student's pedagogical needs at the time. On occasion directing students serve as assistant directors to members of the faculty and/or visiting artists during their time at the School of Drama.

In the second year, each student directs a workshop production of a full-length play in the school's subscription season. In both the first and second year, each director may also direct in the annual short play festival. In the third year, each student directs a fully produced, full-length play as a thesis in either the winter or spring quarter.

90 credits, to include the following:

- 14 credits of DRAMA 563 (2, max. 18)
- 12 credits of DRAMA 567 (1–3, max. 12)
- Electives chosen from DRAMA 419 (3, max. 9), DRAMA 510 (3, max. 18), DRAMA 560 (2), DRAMA 561 (2–3, max. 12), DRAMA 562 (1–3, max. 12), and DRAMA 569 (3)
- 9 credits of DRAMA 700

**Additional Coursework:** After discussions with each student the faculty may advise additional coursework in such areas as Alexander technique, dialects, lighting design, combat, literature, or history of styles and costume.

All students are evaluated by all contact faculty each quarter.

**Internships:** One quarter of the program is devoted to a professional internship experience. MFA directors may intern either locally, nationally, or internationally during winter or spring quarter of the third year.

## Master of Fine Arts—Design

### Admission Requirements

Applicants to the design program must submit a portfolio representative of their work and interview with design faculty. They may mail the portfolio to the School of Drama and interview with a faculty member on the phone or via video conferencing. It is always preferable for applicants to bring the portfolio with them when they visit Seattle to interview with design faculty and sit in on graduate design classes. Other required application materials and fees are detailed below.

The program generally accepts two students in each area. While there is always room for the exceptional applicant, it is extremely difficult to gain admission directly out of a B.A./B.F.A. program with no other credentials.

**Interviews:** A personal interview is highly recommended, preferably in Seattle. Interviews are held in Seattle from mid-January to the beginning of March, with a limited number scheduled each week. Interviews are held when possible on Thursday afternoons and applicants are invited to visit classes Thursday morning. Applicants fill out the MFA design application form completely and indicate how and when they plan both to submit their portfolio and to interview with faculty. Applications must be received by the school before an interview is scheduled.

**Portfolios:** Portfolio materials need not be matted nor in a presentation case. The portfolio may include hand drafting, renderings, photographs of realized work or of models, costume sketches, and other graphic work or high-quality photocopies of same, blue lines and/or duplicate slides. Work should be presented in chronological order and should demonstrate strong graphic skills (including accurate rendering of the human figure) and the ability to devise effective design solutions to the problems posed by a script. It is particularly desirable for the portfolio to include examples of drawing or painting not intended as theatre design projects: figure drawing, landscape, architectural sketching or lighting, lighting installations, etc. Again, high quality photocopies are acceptable.

For lighting design applicants, the portfolio should include examples of hand or computer drafting, two or more complete projects including a one-page statement of conceptual approach, hook-up, plot, and cue ideas. It should also include samples of set sketches and life drawing.

**Application Procedures:** For questions about the application procedure, contact the School of Drama's graduate

program assistant at (206)543-0714 or e-mail [uw drama@uw.edu](mailto:uw drama@uw.edu).

The GRE is not required for any applicant. International applicants must meet minimum TOEFL and TSE scores and other requirements as listed on the Graduate School's website ([www.grad.washington.edu/admissions/info.shtml](http://www.grad.washington.edu/admissions/info.shtml))

- Submit the following to Graduate Programs, School of Drama, Box 353950, Seattle WA 98195-3950:
  - Portfolio (or bring to the interview in Seattle).
  - The separate design application form (available for download from the [School's website](http://www.grad.washington.edu/admissions/info.shtml)) and fee. This fee is separate from the one due to the Office of Graduate Admissions (B below).
  - A current résumé of training and experience in the field.
  - Three letters of recommendation.
  - A statement of purpose including educational and professional goals.
  - A copy of the Application for Admission to the Graduate School.
  - One set of official transcripts.
- All applicants for graduate study at the UW must also apply to the Office of Graduate Admissions.

### Degree Requirements

90 credits, to include:

The MFA program is three years in length. The first two years are devoted to class, studio, and realized production designs. In the third year, students complete a ten-week professional internship before returning to the School of Drama for two quarters with a final thesis project occurring in either of those quarters. The program of study is intended to give the student the skills needed to work productively in his or her area of interest and to help the student develop his or her own individual artistic vision. The design studio is a core class taken each quarter by directors and design students in all years and disciplines where students are asked to create designs for works for the stage. Other studio and skills courses develop proficiency. Each course of study also requires students to work in the other visual design disciplines. In addition, professional designers and/or directors working in Seattle are often invited to attend classes and offer critiques or discuss their work, and students regularly assist faculty on outside projects. The costume shop, scene shop, electrics shop, design studio, and light lab across campus are well equipped and staffed by full-time professional costume shop and scene-shop staff.

**Scenic Design:** Through a rigorous succession of studio assignments and realized production work, students in scenic design are expected to develop proficiency of expression via drawing and painting, drafting, model building, scene painting, and a working knowledge of scenic and property construction. Production work is emphasized in the second and third years of residency.

**Costume Design:** This course of study emphasizes the aesthetic as well as intellectual analysis of theatrical or operatic texts and how one turns these impulses into three-dimensional, unified designs. Students have intensive exposure to this process as they are mentored through the production of their designs as well as through classes, which encompass design, construction, graphic skills, and history. Production work in costume design is emphasized in the second and third year of residency.

**Lighting Design:** The lighting design program focuses on dramaturgical understanding, communication with collaborators, and a rigorous understanding of a lighting design process. The lighting curriculum emphasizes the development of both theoretical/thinking and practical/compositional skills. Production work in lighting is emphasized in all three years, and often includes dance and opera.

## Doctor of Philosophy

### Admission Requirements

Preference is given to applicants with MA/MFA degrees and theatre experience but those who hold a baccalaureate degree from an accredited college or university are eligible to apply.

- An essay or thesis chapter representative of the applicant's best scholarly work.
- Graduate Record Examination (GRE) test scores.
- A current résumé of training and experience in the field.
- A statement of purpose including educational and professional goals.
- Three letters of recommendation. Each recommendation must state whether the letter is or is not available for review by the applicant. Forms for this purpose are available for download from the school's website ([depts.washington.edu/uwdrama/](http://depts.washington.edu/uwdrama/)). Letters of recommendation should evaluate the applicant's skills and accomplishments as a theatre artist and his or her potential for graduate study in theatre history, dramatic theory, and criticism.
- A copy of the Application for Admission to the Graduate School.
- One set of official transcripts.
- All applicants for graduate study at the UW must also apply to the Office of Graduate Admissions.

International applications must meet minimum TOEFL and TSE scores and other requirements as listed on the Graduate School's website ([www.grad.washington.edu/admissions/info.shtml](http://www.grad.washington.edu/admissions/info.shtml))

### Degree Requirements

Minimum 110 credits, to include:

Three years of coursework, including a sequence of 16 seminars (eight in history and eight in theory) and annual examinations. These linked courses provide complete preparation in the major issues of historical study and contemporary critical practice. Students also enroll in a minimum of three courses outside the School of Drama and must complete an upper-level reading course in a foreign language. Specific coursework includes DRAMA 571, DRAMA 572, DRAMA 573, DRAMA 575, DRAMA 576, DRAMA 577, DRAMA 581, DRAMA 582, DRAMA 583, DRAMA 585, DRAMA 586, and DRAMA 587, as well as 30 credits of DRAMA 800.

The PhD program hosts the UW's Center for Performance Studies and connects doctoral students with related classes on campus. The sequence of drama seminars reflects the changing needs of students, the developing research of the faculty, and the conditions of contemporary scholarship. Special topics in the history sequence have included Restoration theatre, drama in the Industrial Age, communism and capitalism, and ancient theatre history. Seminars in criticism have included reading, interpretation and performance; mimesis and theatrical representation; the semiotics of theatre; and drama and Marxist theatre theory. Students are encouraged to develop original research in these seminars and to present their work at professional meetings or publish it in academic journals.

The fourth year of the program is devoted to writing a dissertation under the guidance of a faculty adviser. Recent doctoral dissertations have explored semiotics, feminism, American theatre history, contemporary English and German drama, ethnicity, and performance theory.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crs cat/](http://www.uw.edu/students/crs cat/)

**DRAMA 101 Introduction to the Theatre (5) VLPA** The theatre as an art form with emphasis on the play in production. The role of the various theatre artists: actors, directors, designers, and playwrights. Required attendance at one or more performances. Lecture and discussion groups. For nonmajors. Offered: AWSp.

**DRAMA 201 Plays and Styles (5) VLPA** Introduces theatre practitioners to the principles of play construction, to the process of reading and conceiving plays for production, and to the basic vocabulary of artistic styles through which plays are produced.

**DRAMA 210 Theatre Technical Practice (4) VLPA** *Morgan* Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Technical procedures.

**DRAMA 211 Theatre Technical Practice (4) VLPA** *Trout* Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Costumes.

**DRAMA 212 Theatre Technical Practice (4) VLPA** Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Stage lighting.

**DRAMA 213 Introduction to Sound Design for Theatre (4) VLPA** Explores the how and why of sound and music for theatre. Includes different uses for audio in plays; choosing sounds and pieces of music; basic editing of music, environments, and effects; designing a cohesive world of sound.

**DRAMA 251 Acting (5) VLPA** Explores theory and practice of fundamentals of American "method," based on principles of Stanislavsky and their American evolution. Development of basic acting skills through monologue work. Offered: A.

**DRAMA 252 Acting (4) VLPA** Explores theory and practice of fundamentals of American "method," based on principles of Stanislavsky and their American evolution. Preparation of audition material and scene work within the context of entire play. Recommended: DRAMA 251. Offered: W.

**DRAMA 259 Performance Practicum (2-6, max. 12) VLPA** Special work in various aspects of performance technique.

**DRAMA 290 Theatre Technical Practices Laboratory (1-3, max. 3) VLPA** Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

**DRAMA 291 Theatre Technical Practices Laboratory (1-3, max. 3) VLPA** Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

**DRAMA 292 Theatre Technical Practices Laboratory (1-3, max. 3) VLPA** Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

**DRAMA 298 Theatre Production (1-2, max. 9) VLPA** Laboratory course for students participating in School of Drama minor productions and projects. Credit/no credit only. Offered: AWSp.

**DRAMA 302 Critical Analysis of Theatre (5) VLPA** *Bryant-Bertail*, Analyses of plays, based on leading critical traditions. Illustrates variety of approaches to a play, criteria for choosing best approach for a given play, and ways in which criticism aids in understanding dramatic effect, for both reader and practitioner. Prerequisite: DRAMA 201. Offered: AWSp.

**DRAMA 314 Introduction to Design for the Performing Arts (3) VLPA** Survey of the role of design (scenery, costume, lighting, and sound) in the contemporary performing arts. Consideration of communicative mission and limitations of each of the design areas. Recommended: DRAMA 210; DRAMA 211; DRAMA 212.

**DRAMA 316 Theatrical Makeup (2) VLPA** Basic principles, with intensive practice in application of makeup for use on proscenium and arena stages. Open to nonmajors.

**DRAMA 351 Intermediate Acting-Scene Study (4) VLPA** Actor-training methodologies of Stanislavsky, Meyerhold, Michael Chekov, and other physically-based approaches. Increases understanding of psychological motivation, concen-

tration, focus of attention, clarity of physical expressiveness. Perform three scenes. Recommended: one of DRAMA 210, DRAMA 211, DRAMA 212; two of DRAMA 290, DRAMA 291, DRAMA 292; DRAMA 253; audition; and 2 credits of DRAMA 466 within two quarters. Offered: A

**DRAMA 352 Intermediate Acting-Verse (4) VLPA** *Parker* Addresses character motivation within classical verse of Shakespeare, Moliere, Racine, etc. Sonnets, monologues, scenes in iambic pentameter and rhyming couplet, exploring rhythm, music, and how these relate to character psychology, motivation. Recommended: one of DRAMA 210, DRAMA 211, DRAMA 212; two of DRAMA 290, DRAMA 291, DRAMA 292; DRAMA 253; audition; and 2 credits of 466 within two quarters. Offered: A

**DRAMA 353 Intermediate Acting—Production (4) VLPA** Explores the ten-minute play. Focus shifts to full-length play script, developing ensemble playing, sustained concentration, focus of attention, character motivation, and extended through-line. Culminates in public performance. Recommended: one of DRAMA 210, DRAMA 211, DRAMA 212; two of DRAMA 290, DRAMA 291, DRAMA 292; audition; and 2 credits of 466 within two quarters. Offered: Sp.

**DRAMA 365 Ethnic Studies in Drama (3-5, max. 15) I&S/ VLPA** *Curtis-Newton* Theatre and plays, post-World War II to the present. Style, content, and context explored. Emphasis on social, political, and economic milieu from which theatre arose. Playwrights studied may include Alice Childress, August Wilson, Lynn Nottage, Percy Mtwa, Luis Valdez, and Maria Fornes.

**DRAMA 371 Theatre and Society (5) I&S/ VLPA** Introduction to the history of the theatre from the Greeks to the present day. Development of the theatre as a social institution. Reading of major texts from each period. Prerequisite: DRAMA 302

**DRAMA 373 Women in Theatre (5) VLPA** Examines both the inclusion and exclusion of women by the cultural practice of theatre. Has two primary aims: to provide an historical overview of women in playwriting, acting, directing and criticism, and to apply contemporary social issues to the practice, texts, and criticism of the stage. Prerequisite: DRAMA 302.

**DRAMA 374 History of Greek and Roman Theatre (5) VLPA** *Johnson* Survey of Classical and Hellenistic Greek and Roman theatre culture, including texts, architecture, iconography, scenic practices, and conventions of performance from the Festival of Dionysus to the bloodsports of the Roman arenas. Prerequisite: DRAMA 302.

**DRAMA 377 History of Medieval and Renaissance Theatre (5) VLPA** *Johnson* Survey of the rise of theatre from the early liturgical drama through the High Middle Ages to the Reformation and the great flowering of secular drama in Elizabethan England and the Golden Age of Spain. Prerequisite: DRAMA 302.

**DRAMA 378 History of European Theatre, Renaissance to Revolution (5) VLPA** *Johnson* Survey of the drama, theatre, and theatre culture from the Italian Renaissance through the French Revolution. Examines the rise of court culture, opera, French neo-classicism, as well as the popular commedia dell Arte. Prerequisite: DRAMA 302.

**DRAMA 391 Beginning Technical Practices (1-3, max. 9) VLPA** Laboratory course involving specific production assignments, either in-shop or in-theatre, or both. Recommended: DRAMA 290; DRAMA 291; DRAMA 292.

**DRAMA 401 Senior Seminar (1, max. 2) VLPA** *Gates* A professional seminar featuring guest artists and career development specialists. Credit/no credit only. Offered: A.

**DRAMA 405 Computer Graphics Systems (3) VLPA** *Morgan* Introduction to CAD applications in theatre design and technology. Focus on learning to use general purpose graphics software for CAD. Discussion of available hardware and software. Recommended: DRAMA 420.

**DRAMA 406 Digital Cinema Production (3-5) VLPA** *Tsao* Explores applied narrative film grammar and cinematic technique. Covers operations of digital cinema equipment including cameras, cinema lighting, and editing software

such as Final Cut Studio. Includes lab where students work in a professional motion picture crew structure to implement principles of cinematic narrative and gain experience directing actors on screen. Credit/no credit only.

**DRAMA 410 Advanced Theatre Technical Practices (2-4, max. 20) VLPA** Production-related apprenticeship, in the areas of scene construction, scene painting, costume, or lighting. Recommended: DRAMA 210; DRAMA 211; DRAMA 212; DRAMA 418. Offered: AWSp.

**DRAMA 413 Advanced Scene Construction (3) VLPA** Special problems in scene construction materials and rigging. Recommended: DRAMA 210; DRAMA 212; DRAMA 290; DRAMA 292; DRAMA 410; DRAMA 420.

**DRAMA 414 Scene Design (3, max. 6) VLPA** Theory, practice, and rendering of scene designs. Repeat of course involves intermediate designs and models. Prerequisite: DRAMA 210.

**DRAMA 415 Stage Costume Design (3, max. 6) VLPA** *Trout* Theory, practice, and rendering of costume designs for the theatre. Repeat of course involves intermediate designs. Recommended: ART H 203; DRAMA 211; DRAMA 416 if repeating.

**DRAMA 416 History of Western Dress (5) VLPA** *Gates* Survey history of Western dress. Emphasis on use of this information by theatrical costume designers. Includes development of costume for drama, ballet, and opera. Prerequisite: DRAMA 302.

**DRAMA 417 Stage Costume Patterning and Construction (3, max. 6) VLPA** Techniques of costume construction, including study of fabrics; emphasis on creating patterns by draping. Recommended: DRAMA 211; DRAMA 416.

**DRAMA 418 Scene Painting (3, max. 6) VLPA** Lecture-laboratory with focus on techniques and principles of scene painting. Uses of various media and types of equipment as applicable to varied scenic pieces. Recommended: DRAMA 210.

**DRAMA 419 Advanced Stage Lighting Design (3, max. 9) VLPA** Development of a working process consistent with current professional practice. Includes drafting, worksheets, study of color. Students read plays and develop analytical skills. Recommended: DRAMA 212.

**DRAMA 420 Design and Technical Drafting (2, max. 4) VLPA** *Morgan* Laboratory and project critique covering stage design graphics and technical drawing; specifically: designer's elevations, ground plans, sections, detail drawing, transposition of design drawing information to technical drawings. Recommended: DRAMA 210.

**DRAMA 421 Drawing and Rendering Techniques for the Theatre (2, max. 10) VLPA** Weekly figure-drawing laboratories with live model and weekly field trips for laboratories in drawing natural phenomena and architectural detail. Studies in historical drawing styles. Practice in use of several media and techniques of expression. Recommended: DRAMA 210; DRAMA 211.

**DRAMA 441 Beginning Playwriting (1-6, max. 12) VLPA** Writing exercises and drafts of a one-act play provide first experience in writing for performance. Readings of representative one-act plays introduce genres and writing styles. Recommended: DRAMA 253 or DRAMA 353; DRAMA 210; DRAMA 211; DRAMA 212.

**DRAMA 451 Advanced Acting—Production Workshop (4) VLPA** Improvisation skills. Methodology employed develops one five-minute solo work, using either original or adaptations of non-dramatic texts. Culminates in public showings of the five-minute one-person works. Offered: A.

**DRAMA 452 Advanced Acting—Scene Study (4) VLPA** Invites actor to create a role. Script reading for action and consequence. Use and employment of five senses to express a character's life, presenting a coherent and alive person to the stage. Culminates in public performance. Offered: W.

**DRAMA 453 Advanced Acting—Physical Training (4) VLPA** Introduction to physical training methods of Tadashi Suzuki, Kenji Suzuki, and the relationship of their methodologies

to Constantin Stanislavsky. Contemporary monologues analyzed for psychological motivation, while exploring the physical analog of "action" as expressed and accessed by the new physical training. Offered: Sp.

**DRAMA 454 Projects in Acting (3, max. 9) VLPA** Rehearsal and classroom performance of dramatic literature of various periods and styles.

**DRAMA 455 Alexander Technique (3) VLPA** Madden A practical and theoretical introduction to the Alexander Technique, a psychophysical re-education process developed by F. M. Alexander (1869–1955). Studio application of this work improves physical/vocal coordination, enhances creativity, and clarifies thinking.

**DRAMA 456 Topics in Theatre for Youth (3–5, max. 10) VLPA** Topics in rehearsal and performance of theatre for young audiences; basic principles and techniques for using drama in the classroom; and creating original work for young audiences.

**DRAMA 457 Creating Drama (3–5) VLPA** Tsao Covers learning and application of creative methodologies for the theatre artist. Students study established systems of creative development, the use non-dramatic source texts as a foundation for adaptation into dramatic theatre pieces. Emphasizes artistic entrepreneurship, group collaboration, and applied narrative theories. Offered: Sp.

**DRAMA 460 Introduction to Directing (4) VLPA** Curtis-Newton, Student is introduced to the art of the stage director. Recommended: DRAMA 210; DRAMA 211; DRAMA 212; DRAMA 253 or DRAMA 353; DRAMA 302. Offered: A.

**DRAMA 461 Elementary Directing (4) VLPA** Curtis-Newton Elementary study of the art of the stage director. Recommended: DRAMA 460.

**DRAMA 462 Elementary Directing (4) VLPA** Elementary study of the art of the stage director. Recommended: DRAMA 461.

**DRAMA 466 Stage Management (2–5, max. 15) VLPA** Stewart Study and practice of stage management. Recommended: DRAMA 210; DRAMA 211; DRAMA 212; DRAMA 290; DRAMA 291; DRAMA 292.

**DRAMA 471 History of the English Restoration and 18th Century Theatre (5) VLPA** Johnson Examination of the relationship of the physical theatre and the productions that took place within that theatre. Particular emphasis on the text performed, styles of acting, scenic elements, and the critical theories that influenced the theatre of the period. Prerequisite: DRAMA 302.

**DRAMA 472 European and American Theatre, Revolution to Modernism (1780–1920) (5) VLPA** Johnson Survey of the drama, theatre, and theatre culture from the French Revolution into the beginnings of Modernism; social and political aspects of theatre, rise of Romanticism, melodrama, and variety entertainment through the 19th century to the artistic revolution that paved the way for modern theatre. Prerequisite: DRAMA 302.

**DRAMA 473 Modern European Theatre and Drama (5) VLPA** Major movements and figures in contemporary European theatre from French absurdism to the present. Prerequisite: DRAMA 302.

**DRAMA 475 Modern English Theatre and Drama (5) VLPA** Major trends in contemporary English theatre, post-World War II to the present. Performers, dramatists, and designers who shaped the course of the theatre following the "angry young rebellion" of the 1950s. Prerequisite: DRAMA 302.

**DRAMA 476 Modern American Theatre and Drama (5) VLPA** Major forces shaping modern American theatre, Eugene O'Neill to the present. Leading dramatists, directors, and designers of the post-World War II era. Experiments such as the Federal Theatre Project, Group Theatre, and Living Theatre. Prerequisite: DRAMA 302.

**DRAMA 477 The Legacy of Epic Theatre (5) VLPA** Bryant-Bertail Traces the historical roots and world-wide influence of epic theatre by studying its plays, performances, ideological

aims, and diverse contexts, from its beginnings continuing through to contemporary theater. Prerequisite: DRAMA 302.

**DRAMA 490 Special Studies in Acting-Directing (1–6, max. 12) VLPA**

**DRAMA 491 Special Studies in Design-Technical (1–6, max. 6) VLPA**

**DRAMA 493 Drama Internship (1–6, max. 6)** Supervised experiences in an off campus venue.

**DRAMA 494 Special Studies in Theatre and Drama (5, max. 20) VLPA** Bryant-Bertail, Johnson, Witham Topics in drama, history, and criticism. See Time Schedule for specific topic. Prerequisite: DRAMA 302.

**DRAMA 495 Practicum in Design and Technical Theatre (2–6, max. 15) VLPA** Emphasis on developing design and technology problem-solving skills through laboratory and project evaluation.

**DRAMA 496 Stage Costume Problems (2, max. 8) VLPA** Specific research problems of stage costume design and execution: accessories, masks, wigs, fabric modification, millinery or construction analysis for specialized costumes. Topics vary. Recommended: DRAMA 211; DRAMA 416.

**DRAMA 498 Theatre Production (1–2, max. 9) VLPA** Laboratory course for students participating in School of Drama major productions. Credit/no credit only. Offered: AWSp.

**DRAMA 499 Undergraduate Research (1–5, max. 15)**

**DRAMA 502 Designer-Director Analysis (4)** Methods of examining plays to make the collaboration of director and designer productive. Attempts to create a structural whole from visual and verbal approaches to analysis. Prerequisite: graduate standing in drama.

**DRAMA 510 Design Studio (1–5, max. 20) Korf, Lynch, Morgan, Trout** Design for live performance focused primarily on scenery and costumes. Includes comprehensive investigation of space, form, light, texture, and color in theatre design, interpretation of literary and musical text, understanding of dramatic action, and collaborative communication. Projects include a variety of theatrical and musical genres. Prerequisite: graduate standing in drama.

**DRAMA 512 Advanced Lighting (1–4, max. 28)** Intensive training in lighting design for performance. Includes intermediate and advanced paper projects as well as advanced practical projects and span a variety of performance genres, and environments. Prerequisite: graduate standing.

**DRAMA 514 Design and Technical Theatre Colloquium (2, max. 18) Korf, Lynch, Trout** Discussion of work in progress or completed in production, centering on the conceptual work of the designer/director on the production and the methods of execution in the shops and on stage. Offered: AWSp.

**DRAMA 518 Studies in Historic Design (3)** Investigation of artistic principles and modes that influenced the art, architecture, furniture, and decor of selected historic periods.

**DRAMA 520 Advanced Theatre Practicum (1–5, max. 15)** Professional student internship with professional theatres: scenery, lighting, scene painting, costume, acting, directing, stage management, theatre management. Prerequisite: permission of instructor.

**DRAMA 551 Teaching of Acting (1–3, max. 3)** Seminar discussion on problems in teaching acting to undergraduate students in 251, 252, and 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

**DRAMA 552 Teaching of Acting (1–3, max. 3)** Seminar discussion on problems in teaching acting to undergraduate students in 251, 252, and 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

**DRAMA 553 Teaching of Acting (1–3, max. 3)** Seminar discussion on problems in teaching acting to undergraduate students in 251, 252, and 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

**DRAMA 555 Studies in Acting (2–6, max. 18)** Individual or group work on special skills for the actor. Topics vary. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

**DRAMA 557 Studio I (12, max. 36) Frace, Hafso, Jenkins, Jory, Madden, Shahn, Tsao** Skill development in acting, voice, speech, and movement necessary for professional training in acting. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

**DRAMA 558 Studio II (12, max. 36) Frace, Hafso, Jenkins, Jory, Madden, Shahn, Tsao** Continuation of 557. Prerequisite: DRAMA 557 and completion of the first year of the Professional Actor Training program. Offered: AWSp.

**DRAMA 559 Studio III (6, max. 18) Frace, Hafso, Jenkins, Jory, Madden, Shahn, Tsao** Specialized and individualized work relating to the main curriculum of the third year of the Professional Actor Training Program. Prerequisite: DRAMA 558 and completion of the second year of the Professional Actor Training Program. Offered: AWSp.

**DRAMA 560 Managing the Rehearsal and Production Process (2)** Introduction to graduate-level directing. Play analysis, research, performance theory, and concept development as it relates to process-acting and rehearsal, design, staging techniques, and production management. Reading and writing assignments augmented by faculty and professional guests in performance, design, production, and dramaturgy.

**DRAMA 561 Directing Projects (2–3, max. 12)** Rehearsal techniques and staging skills in a variety of spatial configurations. One-act and full-length plays which follow a prescribed sequence. Prerequisite: graduate standing in the directing program.

**DRAMA 562 Performance Studio (1–3, max. 12)** Performance techniques in specialized areas of importance to the professional director, including stage combat, speech and dialect, mask, physical comedy, improvisation, and puppetry.

**DRAMA 563 Seminar in Directing (2, max. 18)** Seminar discussion of current productions; focused readings and discussion in specific areas of dramatic literature and problems related to stage direction. Prerequisite: graduate standing in drama and permission of instructor.

**DRAMA 564 Theatre Studies: History, Theory, Criticism (3, max. 15)** Special topics in history, theory, and criticism.

**DRAMA 565 Verse Workshop (4)** Techniques necessary to direct and perform plays of Shakespeare, Moliere, and other verse playwrights: scansion and imagery; period and style using verse text; crowd scenes, transformations of time and space, and other staging exercises; direction of scenes or acts from verse plays.

**DRAMA 566 Directing for the Camera (3) Tsao** Storyboarding, setting up camera shots, improvisation, and rehearsal techniques for directing actors on camera (both in studio and on location). Students direct one- and two-camera scenes; and write, direct, and edit a short screenplay.

**DRAMA 567 Acting Process (1–3, max. 12)** Development of acting skills necessary for the professional director. Emphasis on physical training, playing action, strong internal technique, imagination and clarity of expression.

**DRAMA 568 Writing for the Stage (3, max. 6)** Focus on adaptation for the stage of non-dramatic sources, such as literature, poetry, history, and contemporary events. Emphasis on structure, dialogue, dramatic action, rhythm, characterization. Writing exercises using fictive and non-fictive sources, biographical sources, and found objects. For MFA Directing students only.

**DRAMA 569 Directing/Teaching Apprenticeship (3)** Assisting faculty or professional guest director in production for the entire rehearsal period, or assisting faculty in performance training.

**DRAMA 571 Problems in Theatre History Research (5) Johnson, Postlewait** Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

**DRAMA 572 Problems in Theatre History Research (5) Johnson, Postlewait** Methods and techniques of research,

interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

**DRAMA 573 Problems in Theatre History Research (5)** *Johnson* Postlewait Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

**DRAMA 575 Seminar in Theatre History (5)** *Johnson* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

**DRAMA 576 Seminar in Theatre History (5)** *Johnson* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

**DRAMA 577 Seminar in Theatre History (5)** *Johnson* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

**DRAMA 581 Analysis of Dramatic Texts (5)** *Bryant-Bertail* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

**DRAMA 582 Analysis of Dramatic Texts (5)** *Bryant-Bertail* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

**DRAMA 583 Analysis of Dramatic Texts (5)** *Bryant-Bertail* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

**DRAMA 585 Seminar in Dramatic Theory (5)** *Bryant-Bertail* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

**DRAMA 586 Seminar in Dramatic Theory (5)** *Bryant-Bertail* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

**DRAMA 587 Seminar in Dramatic Theory (5)** *Bryant-Bertail* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

**DRAMA 599 Advanced Studies in Theatre Arts (1-5, max. 10)** Independent projects or group study of specialized aspects of theatre arts. Prerequisite: permission of instructor.

**DRAMA 600 Independent Study or Research (\*)**

**DRAMA 700 Master's Thesis (\*)**

**DRAMA 800 Doctoral Dissertation (\*)**

## Economics

### DEPARTMENT OVERVIEW

401 Condon

Economics studies the institutions and arrangements that societies use to create and allocate productive resources and advances our understanding of the choices and behaviors of individuals, households, firms, and other organizations. Its deep intellectual roots, rigorous analytical methods, and powerful ability to explain social phenomena warrant the importance of economics within the social sciences.

### UNDERGRADUATE PROGRAM

Advisers

413 Condon, Box 353330

206-543-5794

[econadv@uw.edu](mailto:econadv@uw.edu)

The Department of Economics offers the following programs of study:

- The Bachelor of Arts degree with a major in economics
- The Bachelor of Science degree with a major in economics

The Bachelor of Arts degree is designed to provide a general background in economics, and is the choice of most departmental majors.

The Bachelor of Science degree requires more mathematics for admission, and its graduation requirements have a more pronounced quantitative emphasis.

Applied fields of study available include money and banking, industrial organization, environmental and natural resource economics, labor economics, public finance, comparative systems and development, international trade, and econometrics.

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* ECON 200, ECON 201 and MATH 120, MATH 124 or MATH 111, MATH 112. Courses that develop strong analytical and quantitative-reasoning skills.

#### Department Admission Requirements

- A minimum of 45 quarter credits completed, including ECON 200, ECON 201; STAT 311; and one of the following: MATH 112, MATH 124, MATH 134, or MATH 145
- A minimum cumulative GPA for all prior college work of 2.50; minimum 2.50 GPA for all UW coursework, when applicable.
- The minimum cumulative GPA for the four courses required for entrance (ECON 200, ECON 201; STAT 311; and one of the following: MATH 112, MATH 124, MATH 134, or MATH 145) must be at least 2.50 with a minimum 2.0 in each course.
- A one-page personal statement, typed and double-spaced, responding to the following questions: What are your personal/educational goals, and how do you expect those to be met through an economics major? What background do you bring to the program? Describe any special experiences that would contribute to your studies in the field.
- Application deadline is the second Friday of each quarter (autumn, winter, spring). Admission is competitive. Meeting above criteria does not guarantee admission to the major.

#### Major Requirements

55 credits as follows:

- Admission to the major.
- A minimum of 50 credits in economics, including ECON 200, ECON 201, ECON 300, ECON 301, STAT 311, and at least five other upper-division courses in economics at the 400 level, excluding ECON 496, ECON 497, and ECON 499.
- Grades of 2.0 or better in ECON 300 and 301.
- One calculus course (MATH 112, MATH 124, MATH 134, MATH 145, or equivalent).
- Transfer students are required to complete a minimum of 25 upper-division economics credits in residence at the UW.

### Bachelor of Science

*Suggested First- and Second-Year College Courses:* ECON 200, ECON 201 and MATH 120, MATH 124 and STAT 311. Additional calculus preparation during the first year is strongly recommended as MATH 125 and MATH 126 are required for admission. Courses that develop strong analytical and quantitative-reasoning skills.

#### Department Admission Requirements

- A minimum of 45 quarter credits completed, including ECON 200, ECON 201; STAT 311, STAT 341, or STAT 390; MATH 124, MATH 125, and MATH 126 (or MATH 134, MATH 135, MATH 136).

- A minimum cumulative GPA for all prior college work of 2.50; a minimum GPA of 2.50 for all UW coursework, when applicable.
- The minimum cumulative GPA for four of the six courses required for entrance (ECON 200, ECON 201; STAT 311, STAT 341, or STAT 390; and calculus at the level of MATH 124 or higher, or first calculus course taken) must be at least 2.50, with a minimum grade of 2.0 for each of the six courses required for entrance.
- A one-page personal statement, typed and double-spaced, responding to the following questions: What are your personal/educational goals, and how do you expect those to be met through an economics major? What background do you bring to the program? Describe any special experience that would contribute to your studies in the field.
- Application deadline is the second Friday of each quarter (autumn, winter, spring). Admission is competitive. Meeting the above criteria does not guarantee admission to the major.

#### Major Requirements

65 credits as follows:

- Admission to the major.
- 15 credits in MATH 124, MATH 125, MATH 126 (or equivalent).
- A minimum of 50 credits in economics, including ECON 200, ECON 201; ECON 300, ECON 301. At least 15 credits of the following theory and methods courses: ECON 400 (or equivalent) or ECON 401, ECON 424, ECON 435 (if taken during or before autumn 2010), ECON 473, ECON 481, ECON 482, ECON 483, ECON 485, ECON 486. Of these, 5 credits should be chosen from either ECON 400 or ECON 401, and another 5 credits should be chosen from ECON 424, ECON 481, ECON 482, ECON 483. Students preparing for graduate work in economics should consider taking both ECON 400 and ECON 401. 15 additional credits should be taken at the 400 level, excluding ECON 496, ECON 497, and ECON 499.
- Grades of 2.0 or better in ECON 200, ECON 201, ECON 300, and ECON 301.
- Transfer students are required to complete a minimum of 25 upper-division economics credits in residence at the UW.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* For undergraduates, the role of the Department of Economics is to train students in a rigorous, analytical discipline that advances their problem-solving abilities and their understanding of important public issues. The Bachelor of Arts program provides the flexibility and social science training to prepare students for employment in a variety of areas. Also, it is excellent preparation for many master's-level graduate programs in other disciplines and for professional schools such as law, business, and medicine. The Bachelor of Science program is designed to provide undergraduates a rigorous background in economic analysis. This degree is designed for students who plan to do graduate study in economics or who plan to enter certain technically oriented professions, such as actuarial science, demography, financial analysis, or environmental consulting.
- *Instructional and Research Facilities:* The department currently has a Resources Room (Condon 210), staffed during tutoring hours, which are posted in Condon 413 or at [depts.washington.edu/ecnboard/tutor.html](https://depts.washington.edu/ecnboard/tutor.html).
- *Honors Options Available:* College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser

for requirements or visit [www.econ.washington.edu/instruction/undergrad/honorsrequirements.html](http://www.econ.washington.edu/instruction/undergrad/honorsrequirements.html).

- **Internships, Research, and Service Learning:** Course credit available for internships and research. Visit [www.econ.washington.edu/instruction/undergrad/beyond.html](http://www.econ.washington.edu/instruction/undergrad/beyond.html).
- **Department Scholarships:** Scholarship opportunities are available for application during spring quarter. See departmental advisers for details. Note: Students must have filed a FAFSA with the University of Washington's Financial Aid Office to be eligible.
- **Study Abroad Opportunities:** The department offers a variety of exchange programs. For more information, visit [www.washington.edu/instruction/undergrad/studyabroad.htm](http://www.washington.edu/instruction/undergrad/studyabroad.htm).
- **Student Organizations/Associations:**
  - The Economics Undergraduate Board (EUB) serves as a liaison between economics students, faculty, and alumni, and also provides services to the general economics undergraduate student body. The EUB provides free tutoring for ECON 200, ECON 201, ECON 300, and ECON 301; holds career seminars and faculty lectures; and publishes the quarterly newsletter, "The Economizer." For more information on these services, as well as others provided by the EUB, visit [depts.washington.edu/ecnboard/](http://depts.washington.edu/ecnboard/).

#### Of Special Note:

- Courses accepted in transfer as ECON 1XX or ECON 2XX cannot be applied to the major requirements unless courses equivalent to ECON 200 and ECON 201 were required as prerequisites. ECON X courses not having these prerequisites may be applied to electives for the degree, but not to the 50-credit economics-course requirement.
- Internship and independent study economics credits do not count towards the required economics credits for the B.A. or B.S. degree.

## GRADUATE PROGRAM

### Graduate Program Coordinator

306 Savery, Box 353330

206-685-1384

[econadv@uw.edu](mailto:econadv@uw.edu)

The department offers a program of study leading to the Doctor of Philosophy degree. The academic program in economics is designed to develop trained economists for careers in teaching, private industry, government, and international agencies. Frequent seminars led by U.S. and foreign visitors as well as by faculty and students are conducted as an integral element of the department's graduate program.

## Doctor of Philosophy

### Admission Requirements

Applicants should have completed undergraduate training that includes courses in at least intermediate-level microeconomic and macroeconomic theory. In addition, applicants must have had at least one year of calculus, one term of linear algebra, and one term of statistics. A course in differential equations is strongly recommended. Additional work in calculus, matrix algebra, and probability and statistics is also strongly recommended. An undergraduate major in economics is not required for admission to the graduate program provided that the above prerequisites have been met. All applicants are required to take the General Test of the Graduate Record Examination (GRE).

All international applicants (except those noted below) are required to submit a valid score from one of the following tests to demonstrate spoken English proficiency. The scores noted meet the UW language requirement for

international teaching assistants: 26 on the speaking portion of the TOEFLIT, or 7.0 on the speaking portion of the IELTS, or 70 on the Versant English Test. Applicants who achieve one of these scores are given priority for departmental funding, although students who achieve slightly lower scores may also be considered for funding.

The following international applicants are not required to take a language test to demonstrate spoken English proficiency: (1) Those who have completed, or will complete before starting the graduate program, a bachelor's degree at a regionally accredited U.S. institution. (This exemption does not apply to applicants who have completed, or will complete, only a master's degree at a U.S. institution.) (2) Those who are native English speakers.

The department does not accept admission to a terminal master's (MA) degree. A sequential MA degree is offered for students already enrolled in the PhD program.

### Degree Requirements

Minimum 90 credits, to include:

ECON 500, ECON 501, ECON 502, ECON 503, ECON 508, ECON 509, ECON 580, ECON 581, and ECON 582. PhD students are required to pass core examinations in microeconomics and macroeconomics. In addition to this core program, PhD students must take eight other elective field courses in economics at the graduate level. Each PhD student must satisfy the requirements for two fields of specialization. The fields of specialization include advanced macroeconomic theory, advanced microeconomic theory, comparative systems and development, econometrics, finance, health economics, industrial organization, international economics, labor economics, natural resource economics, and public finance.

The doctoral dissertation is the final major requirement for the PhD degree. Each PhD student chooses a dissertation topic and a doctoral Supervisory Committee is appointed. After the dissertation topic has been developed, PhD students take the general examination, an oral defense of the dissertation proposal. When the dissertation is completed, PhD students take the final examination, an oral defense of the completed dissertation. A foreign language is not required. The doctoral program is designed to be completed in four years, although the average is five.

### Financial Aid

The principal form of financial aid available to graduate students in economics is a teaching assistantship. A number of such assistantships are available to entering graduate students with promising academic records. A small number of fellowships are also available.

### Research and Computing Resources

The department houses a computer laboratory that provides hardware and software for economic modeling, economic estimation, word processing, and other faculty and graduate student research functions. Access is restricted to economics graduate students and faculty. In addition, the Center for Social Science Computation and Research (CSSCR) maintains an extensive library of computer software and data, and offers free consulting services to aid faculty and students with computing problems.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/).

**ECON 200 Introduction to Microeconomics (5) I&S, QSR** Analysis of markets: consumer demand, production, exchange, the price system, resource allocation, government intervention. Recommended: MATH 111. Offered: AWSpS.

**ECON 201 Introduction to Macroeconomics (5) I&S, QSR** Analysis of the aggregate economy: national income, in-

flation, business fluctuations, unemployment, monetary system, federal budget, international trade and finance. Prerequisite: ECON 200; recommended: MATH 111. Offered: AWSpS.

**ECON 235 Introduction to Environmental Economics (5) I&S/NW** Introduces non-economics majors to environmental and natural resource economics. Discussion of fundamental economic concepts, including markets and private property. Students learn basic tools used in the economic assessment of environmental problems and apply these methods to key environmental issues. Offered: jointly with ENVIR 235

**ECON 299 Study Abroad: Economics (5, max. 10) I&S** For participants in the Study Abroad program. Specific course content determined by assigned faculty member and announced in Study Abroad bulletins.

**ECON 300 Intermediate Microeconomics (5) I&S** Analysis of decisions by individuals and by firms and of outcomes in factor and product markets. Policy issues and applications. Prerequisite: ECON 200; either MATH 112, MATH 124, MATH 127, MATH 134, or MATH 145. Offered: AWSpS.

**ECON 301 Intermediate Macroeconomics (5) I&S** Analysis of the determinants of the aggregate level of employment, output, prices, and income of an economy. Policy issues and applications with special reference to current monetary and fiscal policy. Prerequisite: 2.0 in ECON 201; 2.0 in ECON 300. Offered: AWSpS.

**ECON 396 Honors Research Seminar (2) I&S** Different members of the Economics faculty present and discuss their research work. Exposes students to ideas about potential topics for their thesis. For Honors students only. Does not satisfy graduation requirement for the major. Credit/no credit only. Offered: Sp.

**ECON 399 Economics Internship (1-5, max. 10)** Academic work completed in conjunction with an economics-related internship. Faculty supervision required. Does not apply toward major.

**ECON 400 Advanced Microeconomics (5) NW** Explores the rigorous development of mathematical models used by economists to explain the behavior of consumers, firms, and markets. Topics include comparative statics for consumption theory, duality in production, and decision-making under uncertainty. Prerequisite: 2.0 in ECON 300; MATH 126; recommended: 3.0 in ECON 300.

**ECON 401 Advanced Macroeconomics (5) NW** Application of mathematics to macroeconomics. Possible topics include economic dynamics and growth, rational expectations, real business cycle models, and New Keynesian approach. Prerequisite: 2.0 in ECON 301; either MATH 126, MATH 129, or MATH 136; recommended: 3.0 in ECON 301.

**ECON 402 Microeconomics: Methods and Applications (5) I&S** Generalizations and extensions of the course models of competition and monopoly taught in ECON 300. Topics include: factor markets and effects of monopoly power; game theory and oligopoly theory; decision making over time; uncertainty and under asymmetric information; contracts and incentives. Prerequisite: 2.0 in ECON 300.

**ECON 403 The Economics of Property Rights (5) I&S** Property rights as an economic concept. Delineation of rights as a subject of optimization. Formation of contracts to maximize the value of personal property. Formation of organizations to induce efficient use of resources and minimize losses to public domain. Prerequisite: 2.0 in ECON 300; recommended: two 400-level microeconomics classes.

**ECON 404 Industrial Organization and Price Analysis (5) I&S** Analysis of firm behavior in imperfectly competitive markets. Topics include monopoly, oligopoly, product differentiation, entry deterrence, and the role of asymmetric information. Game theoretic tools and empirical evidence used to analyze topics. Prerequisite: 2.0 in ECON 300; recommended: ECON 485.

**ECON 406 Undergraduate Seminar in Economics (5, max. 10) I&S** Provides undergraduate student an opportunity to apply the tools of economic analysis in a critical examination

of theoretical and empirical work. A list of topics is available in the departmental office. Prerequisite: ECON 200.

**ECON 409 Undergraduate Seminar in Political Economy (5, max. 10) I&S** Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Recommended: ECON 300; POL S 270. Offered: jointly with POL S 409.

**ECON 421 Money, Credit, and the Economy (5) I&S** Role of money and the banking system in the United States economy. Relation of money to inflation, interest rates, and business fluctuations. Monetary policy and Federal Reserve System. Prerequisite: 2.0 in ECON 301.

**ECON 422 Investment, Capital, and Finance (5) I&S** Inter-temporal optimization: consumption and portfolio allocation decisions of households, investment and financing decisions of firms. Introduction to financial decisions under uncertainty. Portfolio theory, asset pricing, options, and futures. Financial market institutions and efficiency. Prerequisite: 2.0 in ECON 300; either ECON 311, STAT 311, MATH 390, STAT 390, or Q SCI 381.

**ECON 423 Topics in Financial Economics (5) I&S** Topics of current interest such as regulation of securities markets and valuation of stocks. Allows students to apply tools of economics to real world problems in finance. Prerequisite: 2.0 in ECON 301; ACCTG 215. Offered: AWSpS.

**ECON 424 Computational Finance and Financial Econometrics (5) NW** Covers probability models, data analysis, quantitative, and statistical methods using applications in finance. Prerequisite: 2.0 in ECON 300; either ECON/STAT 311, STAT 341, MATH/STAT 390, or Q SCI 381; either MATH 112, MATH 124, MATH 127, MATH 134, or MATH 145. Offered: AWSpS.

**ECON 425 Topics in Monetary Economics (5) I&S** Topics include monetary policy and financial markets, two transmission mechanisms, dynamics of monetary policy, targeting interest rates versus targeting the quantity of money, monetary policy under fixed versus flexible exchange rates, inflation targeting, and practices of central banks, i.e., Fed, ECB, BOJ and PBOC. Prerequisite: 2.0 in ECON 301.

**ECON 426 Advanced Financial Economics (5) I&S** Provides an introduction to financial derivatives and structured financial products, with emphasis on futures, options, credit derivatives, swaps, economic theory, valuation methods, trading strategies, hedging, and securitization. Emphasizes real world applications and developments in the financial market. Prerequisite: ECON 422; MATH 124.

**ECON 431 Government and Business (5) I&S** Economic effects of various governmental regulatory agencies and policies. Antitrust legislation as a means of promoting desired market performance. Observed economic effects of policies intended to regulate business practices, control prices, conserve resources, or promote competition. Prerequisite: 2.0 in ECON 300.

**ECON 435 Natural Resource Economics (5) I&S** Survey of the economics of renewable and nonrenewable resources including fisheries, forest, minerals, and fuels. Optimal trade-offs between benefits and costs of resource use, including trade-offs between current and future use. Effects of property rights on resource use. Prerequisite: ECON 300.

**ECON 436 Economics of the Environment (5) I&S** Microeconomic analysis of environmental regulation. The problem of social cost, policy instrument choice, enforcement of regulations, methods for damage assessment, and estimating benefits of environmental improvement. Prerequisite: 2.0 in ECON 300.

**ECON 437 Economics of Biological Resources (5) I&S** Application of economic concepts to biology and biological concepts to economics. Examination of theory of species maximization, parallels in behavior between humans and other biota, animal choices among alternative food sources, games animals play, evidence of risk aversion in animals. Prerequisite: 2.0 in ECON 300.

**ECON 442 Economics of Human Resource Management (5) I&S** Analyzes the relationship between personnel practices and organizational performance. Economic analysis of compensation policy emphasized. Topics include hiring and retention strategies; incentive pay; relative performance evaluation; teams; promotions; seniority; and organization design. Examines human capital accumulation and labor legislation. Prerequisite: minimum grade of 2.0 in ECON 300.

**ECON 443 Labor Market Analysis (5) I&S** Determinants of employment and incomes in the United States: analysis of individual and firm decisions and of equilibrium in the labor market. Topics include decisions to work and retire, education and occupation choices, compensation, discrimination, poverty, unemployment and unions. Examination of policy issues affecting the labor market. Prerequisite: 2.0 in ECON 300.

**ECON 444 Topics in Labor Market Analysis (5) I&S** In-depth analysis of special topics in the operation of labor markets and public policies affecting incomes and employment. Course content varies by instructor. Prerequisite: 2.0 in ECON 300.

**ECON 446 Economics of Education (5) I&S** Examines formal education as an investment industry, the economics of human capital investment, and competition among government owned schools and the non-profit sector. Prerequisite: 2.0 in ECON 300. Offered: AWSpS.

**ECON 447 Economics of Gender (5) I&S** Microeconomic analysis of the sources of gender differences in earnings, labor force participation, occupational choice, education, and consumption. Economic theories of discrimination, human capital, fertility and intrahousehold resource allocation. Economics of the family in developed and developing countries. Prerequisite: 2.0 in ECON 300. Offered: jointly with WOMEN 447.

**ECON 448 Population and Development (5) I&S** Survey of topics in population economics, including history of thought, demographic experience of currently developing countries, household production models, fertility demand, quantity-quality models of fertility, mortality, health and nutrition, migration, macroeconomic-demographic linkages. Prerequisite: 2.0 in ECON 300.

**ECON 450 Public Finance: Expenditure Policy (5) I&S** Application of normative microeconomic theory to analysis of government expenditures. Rationale for government economic activity, collective choice, public goods, and externalities, income redistribution, public sector pricing, and specific expenditure programs. Prerequisite: 2.0 in ECON 300.

**ECON 451 Public Finance: Tax Policy (5) I&S** Microeconomics of taxation: efficiency, incidence, effect on distribution of income, personal and corporate income taxes, sales and consumption taxes, taxation of property and estates. Prerequisite: 2.0 in ECON 300.

**ECON 454 Cost-Benefit Analysis (5) I&S** Theory and practice of cost-benefit analysis of public sector projects and policies. Welfare criteria, investment criteria, shadow prices, social discount rate, marginal-willingness-to-pay for non-market goods, social risk, and special topics. Prerequisite: 2.0 in ECON 300.

**ECON 455 Microeconomics of Public Policy (5) I&S** Topics include general equilibrium analysis of efficiency and equity, income and substitution effects, analysis of alternative welfare programs, intergovernmental grants, price discrimination, price controls, rationing, industry regulation, and public goods. Prerequisite: 2.0 in ECON 300.

**ECON 464 Financial Crisis (5) I&S** Causes, effects, and cures for financial crisis traced through history from the Tulip Bubble, to the Great Depression, to the East Asian Crisis of 1997, and beyond. Explores the original work of Fisher, Keynes, Friedman, and Krugman, among others. Prerequisite: 2.0 in ECON 301. Offered: AWSpS.

**ECON 471 International Trade (5) I&S** Theory of comparative advantage and different models of international trade. Trade and welfare. Factor mobility and trade flows. Eco-

nomics integration. Theory and practice of commercial policy. Prerequisite: 2.0 in ECON 301.

**ECON 472 International Macroeconomics (5) I&S** International monetary theory and open economy macroeconomics. Balance of payments and foreign exchange markets. Different exchange rate arrangements and their adjustment mechanisms. Money and international capital movements. Policy issues. The international monetary system. Prerequisite: 2.0 in ECON 301.

**ECON 473 Topics in International Trade (5) I&S** Advanced theory of trade and analysis of government trade policies. International trade and factor mobility. Theory of commercial policy. Prerequisite: 2.0 in ECON 301; ECON 471.

**ECON 475 Economics of the European Union (5) I&S** Analysis of economic issues relating to the European union. Explores the institutional aspects, the attempt to coordinate social and economic policies-welfare, employment, commercial, fiscal, and monetary-and the economic linkages between the European Union and the rest of the world. Prerequisite: 2.0 in ECON 301.

**ECON 481 Introduction to Mathematical Statistics (5) NW** Probability, generating functions; the d-method, Jacobians, Bayes theorem; maximum likelihoods, Neyman-Pearson, efficiency, decision theory, regression, correlation, bivariate normal. (Credit allowed for only one of 390, 481, and ECON 580.) Prerequisite: STAT/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. Recommended: MATH 324. Offered: jointly with CS&SS/STAT 481; A.

**ECON 482 Economic Theory and Practice (5) NW** Applies statistical modeling to empirical work in economics. Focuses on regression analysis; derivations of regression estimators and their properties; and applied computer work in estimating multiple regression models. Prerequisite: 2.0 in ECON 300; either ECON 311/STAT 311, MATH 390/STAT 390, or Q SCI 381; recommended: MATH 124

**ECON 483 Econometric Applications (5) NW** Provides opportunity to learn econometric model building for a particular problem while applying the theory learned in various courses to specific economic cases. Estimate, test, and forecast economic models. Extensive use of the computer and econometric programs. Prerequisite: 2.0 in ECON 301; either ECON/STAT 311, STAT 341, MATH/STAT 390, or Q SCI 381.

**ECON 485 Game Theory with Applications to Economics (5) NW** Introduction to the main concepts of game theory: strategy, solution concepts for games, strategic behavior, commitment, cooperation, and incentives. Application to economics oligopoly theory, bargaining theory, and contract theory. Prerequisite: either MATH 112, MATH 124, MATH 127, MATH 134, or MATH 145; 2.0 in ECON 300.

**ECON 486 Economics of Information (5) I&S, QSR** Basic models of decision making and strategic interaction in the presence of imperfect and incomplete information. Information issues in market exchange and in hierarchical settings. Includes adverse selection, moral hazard, signaling, and screening. Recommended: ECON 404 or ECON 485. Prerequisite: 2.0 in ECON 300; may not be taken for credit if credit received for ECON 402.

**ECON 490 Comparative Economic Systems (5) I&S** Study of resource allocation, growth, and income distribution in capitalist, market socialist, and centrally planned economies. Prerequisite: 2.0 in ECON 301.

**ECON 491 Issues in Economic Development (5) I&S** Examines factors contributing to the economic problems of developing countries and possible solutions. Theory and applications in economic development and international trade. Prerequisite: 2.0 in ECON 301.

**ECON 492 Economic Issues of Contemporary Latin America (5) I&S** Covers economic issues of current interest to policymakers in Latin America. Topic areas include trade policy, external capital flows to the region, macroeconomic instability, fiscal and monetary institutions, income inequality, and globalization. Prerequisite: minimum grade of 2.0 in ECON 301.

**ECON 495 Economic Transformation of Russia and Eastern Europe (5)** I&S Analytical survey of the economic institutions and economic structures of the transforming socialist economies. Socialist resource allocation. Market institutions. Structural change and the sequencing of economic reform. Primary focus on Russia and Eastern Europe. Prerequisite: 2.0 in ECON 301.

**ECON 496 Honors Seminar (5)** I&S Honors and other students in high standing have the opportunity to develop research techniques, to pursue topics in breadth and depth, and to apply tools of economic analysis to selected topics in economic theory and current issues of national and international economic policy. For seniors only.

**ECON 497 Honors Directed Study (5)** Students write their honors thesis on the topic chosen in the Honors Seminar working under the previously arranged supervision of an economics faculty adviser. Prerequisite: ECON 496

**ECON 498 Senior Seminar (5)** I&S Advanced undergraduate research in economics. Students formulate some underlying economic issue, organize its study, gather necessary information, and analyze results. Does not satisfy graduation requirement for the major. Prerequisite: ECON 301; one 400-level ECON course; recommended: two 400-level ECON courses.

**ECON 499 Undergraduate Research (1–5, max. 10)** May not be applied toward an advanced degree.

**ECON 500 Microeconomic Analysis I (4)** Duality and comparative statics analysis. Consumer and firm behavior. Uncertainty. Prerequisite: permission of instructor.

**ECON 501 Microeconomic Analysis II (4)** General equilibrium and welfare economics. Introduction to game theory. Prerequisite: ECON 500.

**ECON 502 Macroeconomic Analysis I (4)** Topics include theories of business cycles, dynamics of price adjustments, consumption theory, dynamic programming, introduction to numerical techniques, and open economy macroeconomics. Prerequisite: permission of instructor.

**ECON 503 Macroeconomic Analysis II (4)** Rational expectations in macroeconomic models. Dynamic optimizing models under uncertainty. Empirical examination of consumption, asset-pricing, and real business cycles. Prerequisite: ECON 502.

**ECON 508 Microeconomic Analysis III (4)** Information economics. Prerequisite: ECON 500; ECON 501.

**ECON 509 Macroeconomic Analysis III (4)** Modern macroeconomic dynamics, presenting a range of approaches based on intertemporal optimization. Representative agent models with special emphasis on the analysis of government policy. More advanced discussion of economic growth. Prerequisite: ECON 502; ECON 503, or equivalent.

**ECON 511 Advanced Microeconomic Theory: Selected Topics (3, max. 12)** Seminar in advanced microtheory. Selected topics of special interest and significance. Prerequisite: ECON 500; ECON 501.

**ECON 512 Advanced Macroeconomic Theory: Selected Topics (3, max. 12)** Seminar in advanced macrotheory. Selected topics of special interest and significance.

**ECON 515 Special Topics in Mathematical Economics (3, max. 12)**

**ECON 516 Introduction to Noncooperative Game Theory (3)** Study of both pure game theory and its applications to such problems as oligopoly pricing, non-cooperative bargaining, entry deterrence, reputation phenomena. Focus on game theory as a modeling tool as opposed to a body of known results. Prerequisite: ECON 508.

**ECON 518 Contract Theory (3)** Basic contract theory models, including hidden action and hidden information models. Current developments in contract theory. Prerequisite: ECON 508; ECON 516 or permission of instructor.

**ECON 519 Economics of Contracts and Organizations: Empirics (3)** Shi Critically reviews empirical literature on contracts and organization. Topics include multi-tasking; incentives

and risk sharing; relative and subjective performance evaluation; team production; tournament and promotion; efficiency wage; career concern; relational contracts; asset specificity and asset ownership; complexity, uncertainty, asset ownership; adverse selection. Prerequisite: ECON 518; ECON 582, or permission of the instructor.

**ECON 520 The Economics of Property Rights (3)** Application of standard economic theory to analyze various forms of property rights as constraints of competition; the costs associated with delineation and enforcement of rights; the costs of negotiating and enforcing contracts for right transfers; resource allocation and income distribution implied by different property right and transaction cost constraints. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 523 Emergence of the State (3)** Using tools of property rights, industrial organization, and game theory, explores the emergence of the state. Specifies conditions conducive to constitutional rule. Analyzes circumstances amenable to state-promoted exchange as opposed to self-enforced agreements. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 525 Computational Economics (3)** Develops a basic understanding of computational techniques used in the economic literature. Demonstrates, with economic examples, when and how these techniques are used and why and how they work. Prerequisite: ECON 580; ECON 581; ECON 582.

**ECON 527 Empirics and Theory in Macroeconomics (3)** Explores the integration of empirical and theoretical methods central to macroeconomic research. Exposes students to frontier areas of research to help them learn substantive material and transition to conducting their own independent research. Prerequisite: ECON 502; ECON 503; ECON 509; ECON 581; ECON 582; recommended: ECON 584.

**ECON 535 Natural Resource Economics (3)** Half of integrated two-course sequence in environmental and natural resource economics. Dynamic optimization. Nonrenewable resource extraction and exploration, including effects of market structure, uncertainty, and taxation. Renewable resources, including fisheries and forests. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 536 Environmental Economics (3)** Half of integrated two-course sequence in environmental and natural resource economics. Theory of externalities. Normative and positive analysis of policy instruments for environmental management. Theory and methods of measuring environmental and resource values. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 537 Economic Aspects of Marine Policy (3)** Development of pertinent economic concepts and their application to selected topics in marine policy decision making, including maritime policy, OCS oil and gas development, and wetlands management. Prerequisite: SMA 500 or permission of instructor. Offered: jointly with SMA 537; W.

**ECON 538 Economics of Living Marine Resources (3)** Develops pertinent economic concepts and applications for conservation, regulation, and restoration of fisheries and other living resources. Gives special attention to fishery management, including harvest regulation and enforcement, recreational fisheries evaluation, property rights regimes, contemporary issues, and marine protected area management. Offered: jointly with SMA 538; Sp.

**ECON 539 Economics of Natural Resources Seminar III (3)** Selected advanced topics in the economics of natural resources and environmental regulation. Topics may include environmental regulation as a problem in optimal mechanism design, enforcement of regulations, regulatory regimes for common property resources, and the measurement of market power in nonrenewable resource industries. Prerequisite: ECON 536.

**ECON 541 Labor Economics (3)** Theoretical and empirical analysis of the labor market, focusing on the time allocation and labor supply decisions of individuals and households and the determinants of wages and wage differentials.

**ECON 542 Labor Economics (3)** Theoretical and empirical analysis of the labor market. The determinants of labor supply and demand, human capital investment, the pattern of compensation, employment contracts and incentives, unemployment and labor market dynamics.

**ECON 543 Population Economics (3)** Analysis of population issues from an economic perspective. Focuses on the study of household behavior in both developed and developing countries. Studies areas including fertility decisions, health and mortality, investment in education, the intra-household allocation of resources, and household structure and marriage. Prerequisite: ECON 501.

**ECON 550 Public Finance: Expenditure Policy (3)** Theory of public finance with emphasis on public expenditures. Social welfare maximization, public goods and externalities, decreasing cost industries, theory of collective choice, second-best analysis. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 551 Public Finance: Tax Policy (3)** Theory of public finance with emphasis on taxation. Second-best analysis, optimal taxation, general equilibrium incidence analysis, issues in personal income taxation and corporate income taxation. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 554 Cost-Benefit Analysis (3)** Covers the theoretical foundations of cost-benefit analysis using graduate microeconomics. Stresses both the conceptual and practical problems encountered in the subject. Emphasis on problem solving and term project. Prerequisite: ECON 500; ECON 501.

**ECON 568 Game Theory for Social Scientists (5)** Studies non-cooperative game-theory and provides tools to derive appropriate statistical models from game-theoretic models of behavior. Equilibrium concepts, learning, repeated games and experimental game theory. Prerequisite: MATH 112, MATH 124, or MATH 134; STAT/ECON 311 or equivalent. Offered: jointly with CS&SS 568; W.

**ECON 571 International Trade Theory (3)** Comparative advantage, resource allocation, income distribution, and foreign trade. Different theories of trade, with or without perfect competition and constant returns. International factor mobility. Prerequisite: ECON 500; ECON 501.

**ECON 572 International Financial and Monetary Economics (3)** Analysis of open economy macro models with emphasis on exchange rates and balance of payments determination. Prerequisite: ECON 502; ECON 503.

**ECON 573 International Commercial Policy (3)** Analysis of welfare aspects of international trade and factor mobility. Costs and benefits of protection; implications of different government policies. Import competition and response. Prerequisite: ECON 500; ECON 502.

**ECON 574 International Macroeconomics (3)** Surveys recent developments in international macroeconomics, placing particular emphasis on the dynamic aspects. One sector, multisector, and two-country international models discussed. Fiscal issues treated in depth. Stochastic aspects introduced and related to the literature on international real business cycles. Prerequisite: ECON 509 or equivalent.

**ECON 580 Econometrics I (4)** Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Students may receive credit for only one of MATH/STAT 390, ECON/STAT 481, and ECON 580.

**ECON 581 Econometrics II (4)** Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Prerequisite: ECON 580.

**ECON 582 Econometrics III (4)** Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Prerequisite: ECON 581.

**ECON 583 Econometric Theory I (3)** Estimation and testing in linear and nonlinear regression models. Asymptotic theory, bootstrapping. Theoretical developments are reinforced with a variety of empirical examples and applications. Prerequisite: ECON 580, ECON 581, ECON 582 or equivalent.

**ECON 584 Econometric Theory II (3)** Continuation of 583. Analysis of stationary and nonstationary, univariate, and multivariate time series models. Emphasis on empirical applications. Prerequisite: ECON 583.

**ECON 585 Econometric Theory III (3)** Econometric issues that arise in applied microeconomic research. Topics range from standard methods to recent developments. Focus varies yearly to reflect interests of instructors and students. Prerequisite: ECON 582 or equivalent.

**ECON 586 Advanced Applied Time Series Analysis (3)** Time series and empirical macroeconomics with focus on applications of time series analysis to various topics in macroeconomics and finance. Topics include: state-space models and Kalman filter; Markov-switching models and their extensions; Bayesian Gibbs sampling; randomization; and measurement of volatility.

**ECON 587 Applied Microeconometrics (3)** Application of microeconomics methods. Topics include treatment effects, instrumental variables, natural experiments, measurement error, panel data, difference-in-differences, sibling data, regression discontinuity, randomization, and quantile regression. Prerequisite: ECON 582.

**ECON 588 Bayesian Econometrics (3)** Introduces the Bayesian approach to econometrics, and examines how estimation problems can be recast in a Bayesian light. Emphasizes practical technique. Examines Bayesian methods, standard econometric models, and computational issues.

**ECON 589 Financial Econometrics (3)** Focuses on statistical modeling of financial time series with an emphasis on modeling volatility and correlation. Topics include statistical properties of asset returns, volatility and correlation modeling, statistical analysis of ultra high frequency time series, and estimation of continuous time models for asset returns. Prerequisite: ECON 583; either ECON 584 or STAT 519.

**ECON 591 Microeconomics of Development (3)** Theoretical and empirical analysis of the microeconomics of development. Focuses on the study of household behavior in developing countries and how households respond to missing/imperfect markets. Topics include land access, nutrition and productivity, responses to risks and shocks, credit markets, micro-finance, and program evaluation. Prerequisite: ECON 501.

**ECON 592 Development Policy (3)** Theoretical and empirical analysis of macroeconomic policies pursued by developing countries. Topics include the determination of exchange rates and relative prices in small economies; the examination of government spending, taxation, banking, trade, and labor market policies; and the evaluation of market-oriented economic reform programs. Prerequisite: ECON 503; recommended: ECON 591.

**ECON 594 Economic Growth (3)** Studies various theoretical approaches to the question of why some countries are richer than others using generalizations and extensions of contemporary macroeconomic theory. Discusses the implications of various macroeconomic policies for economic growth. Prerequisite: ECON 502; ECON 503; ECON 509.

**ECON 595 Analysis of the Transforming Socialist Economies (3)** Applications of economic analysis to the economic problems of transforming socialist economies. Economic institutions. The role of the state. Privatization and the behavior of decentralized organizations. Integration into the world market. Prerequisite: micro- and macroeconomic theory and permission of instructor.

**ECON 599 Research Issues in Demography and Population Studies (1-2, max. 7)** Interdisciplinary seminar on current research issues in demography and population studies. Critical analysis and discussion of readings drawn from anthropological, economic, geographic, and sociological approaches. Credit/no credit only. Offered: AWSp.

**ECON 600 Independent Study or Research (\*)** Credit/no credit only.

**ECON 601 Internship (1-9, max. 9)** Credit/no credit only.

**ECON 602 Teaching Introductory Economics (1)** Examines problems encountered in preparing and presenting courses in introductory economics. Credit/no credit only.

**ECON 800 Doctoral Dissertation (\*)** Credit/no credit only.

## English

### DEPARTMENT OVERVIEW

A101 Padelford

The Department of English offers courses in English, American, and related literatures. Courses in literature emphasize techniques of literary analysis; theoretical problems in the interpretation of texts; the social, historical, and political context of literary production and reception; and the pleasures of reading. Most require significant written work and stress critical thinking skills. Courses in language study examine the structural, historical, social, and aesthetic dimensions of English. The creative writing program offers workshops in verse, short story, novel, and expository writing. English majors are exposed to many critical perspectives, and pursue interests in literary history, critical theory, language studies, and creative writing.

### UNDERGRADUATE PROGRAM

#### Adviser

A2B Padelford, Box 354330

206-543-2634

[engladv@uw.edu](mailto:engladv@uw.edu)

The Department of English offers the following program of study:

- The Bachelor of Arts degree with a major in English. A creative writing option is also available.

#### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Foreign languages, classics, English history, American history, and philosophy.

#### Department Admission Requirements

- Minimum grade of 2.0 in both ENGL 301 and the attached writing link, ENGL 297.
- Minimum cumulative GPA of 2.00.
- Minimum cumulative English GPA of 2.50.
- Students apply to the English Advising Office, A2B Padelford, during the first two weeks of autumn, winter, and spring quarters. Transfer students must be enrolled at the UW before applying.
- Admission is competitive. Completion of the above requirements does not guarantee admission.

Additional requirements for admission to the creative writing option:

- Admission to the English major.
- Completion of ENGL 283 and ENGL 284 or transfer equivalents.
- Submission of an unofficial transcript and a writing sample of 3-5 poems and 5-10 pages of fiction (preferably a complete story).
- Students interested in the creative writing option should apply to the Creative Writing Office, B-25 Padelford, during the first three weeks of autumn and spring quarters.

- Admission is competitive. Completion of the above requirements does not guarantee admission.

#### Major Requirements

Minimum 55 credits, as follows:

- Minimum grade of 2.0 in both ENGL 301 and writing link ENGL 297 (10 credits).
- Minimum grade of 2.0 in ENGL 302 (5 credits).
- English core (25 credits): At least 5 credits from each of the following categories: (1) theories and methodologies of language and literature; (2) forms and genres of language and literature; (3) histories of language and literature. A list of approved courses is available from the department advising office or department website: [depts.washington.edu/engl/](https://depts.washington.edu/engl/).
- English electives (10 credits): Must be 200-level or above.
- At least 15 credits must be in courses focused on pre-1900 literature.
- Minimum grade of 2.0 in an approved 400-level senior capstone English course (5 credits). List of approved senior capstones available at [depts.washington.edu/engl/ugrad/ugbareqs.php](https://depts.washington.edu/engl/ugrad/ugbareqs.php).
- Maximum 15 credits of 200-level courses and maximum 5 credits of creative writing may be applied towards the major.
- Minimum 25 credits of English at the 200-level or above must be completed in residence at the UW.

The department strongly recommends, but does not require, 5 credits in one of the following English language courses: ENGL 370, ENGL 371, ENGL 373, ENGL 374, ENGL 478, ENGL 479, or LING 200.

Creative Writing Option - Minimum 60 credits, as follows:

- Minimum grade of 2.0 in both ENGL 301 and writing link ENGL 297 (10 credits).
- ENGL 283 and ENGL 284 (10 credits)
- English core (20 credits) - At least 5 credits from each of the following categories: (1) theories and methodologies of language and literature; (2) histories of language and literature. A list of approved courses is available from the department advising office or department website: [depts.washington.edu/engl/](https://depts.washington.edu/engl/).
- At least 15 credits must be in courses focused on pre-1900 literature.
- ENGL 383 and ENGL 384 (10 credits)
- 10 credits of approved 400-level creative writing courses.
- Maximum 15 credits of 200-level courses may be applied towards the major.
- Minimum 25 credits of English at the 200-level or above must be completed in residence at the UW.

#### Continuation Policy

Certain levels of academic performance are required to continue in good standing in the English department. The criteria and procedures below are used in administering the English continuation policy. These criteria and procedures are in addition to those of the UW.

#### Time to Degree

English majors should complete degree requirements within the 180 credits required for graduation. The Department of English recognizes that exceptional circumstances (e.g., death in the family, serious illness) may delay degree progress. In addition, educational opportunities such as study abroad, Honors, or a double major may warrant the extension of a student's program up to 210 credits allowed under the University's satisfactory progress policy.

Only in rare circumstances does the Department of English support petitions to the College of Arts and Sciences for permission to remain enrolled beyond 210 credits. Requests for double degrees (225 credits minimum) are supported only in those instances where the student is completing two different degrees (e.g., one BA and one BS) or is earning degrees in two different colleges.

### Academic Standing

All English undergraduates must remain in good academic standing each quarter in the major. Good academic standing is defined as an overall UW GPA of 2.00 and an English GPA of 2.00.

- Students must maintain a minimum GPA of 2.00 in all UW English courses at the 200 level or above (grade of 0.0 included);
- Students who do not meet this minimum English GPA requirement are placed on departmental probation;
- Students on probation who do not meet the minimum 2.00 English GPA by the end of the following quarter are dropped from the English major and returned to premajor status in Arts and Sciences.

### Satisfactory Progress

- Completion of ENGL 302 during the first two quarters in the major. Students who fail to achieve the minimum 2.0 grade in ENGL 302 are placed on departmental probation and must repeat ENGL 302 the following quarter of enrollment. If the minimum grade of 2.0 is not achieved on the second taking, the student is dropped from the English major and returned to premajor status in Arts and Sciences.
- Minimum grade of 2.0 in the 400-level senior capstone course is required. Students who fail to achieve the 2.0 minimum in the capstone may not be graduated. Since this is a final requirement, there is no limit on the number of times the capstone may be attempted.

### Monitoring Academic Progress

The English Advising Office monitors the academic performance of all undergraduates. All students are subject to the UW [satisfactory progress policy](#) regarding grades, credits, and satisfactory progress. The University requires students to maintain a 2.00 cumulative GPA, as does the Department of English. If a course is repeated, both grades are counted in the GPA (while credit is assigned only once).

At the end of every quarter, the English Advising Office reviews the performance of all students and assesses their academic standing. Students are notified of academic probation or drop by e-mail as soon as practicable after receiving the previous quarter's grade reports. This grade review is conducted quarterly and each notice of academic probation is noted in the student's file.

### Appeals Process

Appealing drop from major: A student who is dropped under the continuation policy may file a written appeal with the English Advising Office. The appeal must be submitted within 15 working days after the denial, probation, or drop letter was dated. The appeal should state all the facts the student believes justify reconsideration and include supporting documentation. The Director of Undergraduate Programs and Director of Academic Services review the facts and render a decision within 15 working days after the appeal is received.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Good writing, analytical ability, research skills, and broadened perspectives are among the practical accomplishments majors acquire, all of which can be applied to a range of careers, including, but not limited to advertising, business and marketing,

law, library science, the media, public administration, publishing, the social services, and teaching. The undergraduate program of study in English concentrates on developing students' critical and interpretive abilities with regard to literatures written in English. Students become familiar with the critical developments in the study of language and literary forms, including especially understanding the cultural and historical contexts of various forms of literature. Students are, accordingly, asked to cultivate a habit of self-conscious and careful reading of written texts. Honing a successful habit of reading depends on acquiring an early awareness of the broad range of critical and interpretive methods available to readers of literature, as well as comprehending the basic purpose and effects at stake in different reading methods. Finally, students develop the ability to compose effective and persuasive written analyses of texts in a manner that demonstrates comprehension of the complexities or nuances of language, literature, and culture.

- *Instructional and Research Facilities:* Computer labs in Mary Gates Hall for computer-integrated sections.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* The English internship program maintains an active list of over 200 local employers, including publishers, arts organizations, the media, advertising agencies, social service groups, schools, and businesses. Credit is available to declared English majors (ENGL 491).
- *Department Scholarships:*
  - English Department scholarships are available to declared English majors enrolled at the UW for at least two quarters with a UW GPA of 3.50 and a UW English GPA of 3.70. Scholarship recipients must enroll for at least two quarters and carry at least 6 credits each quarter during the term of the scholarship. Applications, due in early March, are available in A11 and A2B Padelford.
  - Additional scholarships and prizes in creative writing are open to UW English majors only. Applications, due in early March, are available in B25 and A2B Padelford.
- *Student Organizations/Associations:* *Bricolage* is a student literary arts annual published entirely by UW undergraduates and features the works of University students, faculty, staff, and alumni. Students from all majors welcome. Contact: [brico@uw.edu](mailto:brico@uw.edu) for details.

#### Of Special Note:

- Students considering teaching English at the secondary level should consult an English adviser regarding coursework for the English Language Arts endorsement required for entry into the Secondary Teacher Education Program (TEP).
- The Department of English offers study abroad opportunities in London and Rome. Students from all majors welcome. See department website for more information.

## GRADUATE PROGRAM

### Graduate Program Coordinator

A105 Padelford, Box 354330

206-543-6077

[englgrad@uw.edu](http://englgrad@uw.edu)

The Department of English offers a complete program of graduate courses and seminars designed to provide aspirants for the Master of Arts and Doctor of Philosophy degrees with a knowledge of English literature and lan-

guage and the necessary scholarship for training in literary criticism and theory, literary history, and English-language study, including rhetoric and composition. It is possible to pursue a literature- or language-study emphasis. The Master of Fine Arts program in creative writing emphasizes projects in imaginative writing in fiction and poetry, supported by courses in criticism and literary periods and types. A special degree program, the Master of Arts for Teachers, is offered for English teachers in secondary schools and community colleges and a Master of Arts for Teachers (of English to speakers of other languages) for those interested in teaching English to speakers of other languages. The graduate program permits completion of master's degree requirements in four to six quarters and doctoral degree requirements in five years (including the master's degree). In a typical five-year PhD program, a student is encouraged to complete course requirements (75 credits) during the first three years, the general examination for the doctorate in the fourth year, and the dissertation in the fifth year. Those admitted with a master's degree from another university can complete the doctorate in four years: two years of coursework, exam year, and dissertation year.

### Financial Aid

The department annually awards 10 or more new teaching assistantships. To be considered for the following autumn, applicants must submit an assistantship application and supporting materials for admission to the graduate program by January 15. A statement of purpose, three recommendations, the GRE general test, and a critical-writing sample are required [except MAT (E.S.O. L.)]. Teaching assistantship applicants who are not native speakers of English must submit as part of their application a score of 290 or better on the Test of Spoken English (TSE) or UW-administered SPEAK test.

### Master of Arts

#### Admission Requirements

Bachelor of Arts degree: Major in English equivalent to that awarded by the UW preferred. Graduate Record Examination general test [GRE (literature in English) subject test recommended]. Three letters of recommendation, statement of purpose, and a critical writing sample.

#### Degree Requirements

40 credits, to include:

Intermediate-level proficiency in a language other than English. 40 credits, including 30 credits in graduate English seminars. For students continuing to the doctoral program, a 10-credit master's essay. For a terminal master's degree, students may substitute 10 additional credits in graduate English seminars for the master's essay. A maximum of 5 credits may be transferred from an accredited graduate program elsewhere.

### Master of Fine Arts

#### Admission Requirements

Bachelor of Arts degree, Graduate Record Examination general test, three letters of recommendation, statement of purpose, a critical-writing sample, and a creative-writing sample.

#### Degree Requirements

55 credits, as follows:

20 credits in creative writing, 15 credits in graduate English seminars (5 credits must be from an approved course in criticism), 5 elective credits, 15 thesis credits (including a creative thesis, an MFA essay, and a final oral examination); demonstration of proficiency in a language other than English.

## Master of Arts for Teachers

### Admission Requirements

Same as for the Master of Arts degree, but usually including prior teaching experience.

### Degree Requirements

45 credits, to include:

25 must be in courses numbered 500 or above; including at least one course each in English language or linguistics, rhetoric and/or composition, literary criticism or critical theory, and literature; three courses must have a stated orientation on teaching English; and 5 credits of MAT essay. In addition to the 45 credits, a student with no regular or formal teaching experience is required to complete at least 6 credits of ENGL 601 (Internship); 15 credits may be taken outside the department in courses related to the teaching of English, subject to approval.

## Master of Arts for Teachers (of English to Speakers of Other Languages)

### Admission Requirements

Bachelor of Arts degree, Graduate Record Examination general test, statement of purpose, three letters of recommendation. Students without training in linguistic method and theory must take LING 400 as a prerequisite for 400-level linguistics courses.

### Degree Requirements

45–54 credits, to include:

including ENGL 571, ENGL 572, ENGL 574, ENGL 576; LING 446 or LING 450, ENGL 575 or LING 461; three courses from ENGL 471, ENGL 478, ENGL 479, ENGL 560, ENGL 561, ENGL 562, ENGL 563, ENGL 564, ENGL 567, ENGL 569, ENGL 575, LING 433/ANTH 464, LING 457/PSYCH 457, LING 451, LING 462; one elective course; 3–6 credits of ENGL 570. Intermediate-level proficiency in a language other than English.

## Doctor of Philosophy

### Admission Requirements

By petition to the Graduate Studies Committee upon completion of the MA degree option in literature. Students with recent master's degrees from other institutions are admitted at the post-master's level following the guidelines for admission to the MA option and must complete two quarters before petitioning the Graduate Studies Committee for admission to the doctoral program. Students transferring with a master's degree from other institutions may be required to submit an equivalent to the master's essay. Students with MFA, MAT, or MAT (E.S.L.) degrees from this University must complete coursework and language requirements for the MA degree option and submit an equivalent to the master's essay.

### Graduation Requirements

Minimum 102 credits, to include:

75 graded credits of electives in graduate English seminars. Students with a recent master's degree from another university may count up to 30 credits from their master's program, upon approval of the Director of Graduate Studies. Students with a master's degree from the UW may count up to 40 credits in courses taken before admission to the doctoral program. Fluency in at least one language other than English, plus whatever additional language study the supervisory committee advises. Written examinations for literature emphasis: (1) historical period, (2) specialized field of study, (3) second period, genre, or topic. Written examinations for language emphasis: (1) major approach to English-language study, (2) second approach to language study, (3) textual focus (can be literary period). An

oral general examination; 27 credits of ENGL 800 (dissertation); and a final examination based on the dissertation.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**ENGL 101 Writing From Sources I (10)** Includes academic reading and graphics from different genres to provide opportunities for noticing lexis and grammar of the genre and specific topic. Students discuss the topic, receiving feedback on their use of structures and lexis, and write short responses to the type of questions that might be asked on exams related to the readings. Focuses on sentence-level issues related to sentence structure and lexis. Limited to student admitted to UW with an English language requirement. Offered: AWSp.

**ENGL 102 Writing From Sources II (5)** Focuses on reading and analysis of academic texts, such as those found in textbooks, newspaper articles, journal articles, and research reports, used for writing in various rhetorical styles at the paragraph level. Second in the three courses AEP writing sequence. Prerequisite: either ENGL 101 or placement by test score.

**ENGL 103 Writing From Sources III (5)** Introduces and practices reading, writing, and critical thinking strategies students need to develop researched, organized, and correctly documented papers using academic sources. Introduces library research skills for finding a variety of sources. Third in the three course AEP writing sequence. Prerequisite: either ENGL 102 or placement by test score. Offered: AWSp.

**ENGL 104 Academic Listening and Speaking (5)** Aims to improve students' ability to participate in university course lectures and class discussions. Students respond to lectures, participate in and lead class discussions, and deliver short oral reports. Offered: AWSp.

**ENGL 105 English for International Teaching Assistants (5)** Develops language production skills, lesson planning and presentation skills, and TA-student interaction skills related to classroom teaching for international teaching assistants. Requires speak exam.

**ENGL 106 Practical Forms of Writing (5) C** Instruction in writing essay examinations, reports, reviews, and research papers. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs.

**ENGL 108 Writing Ready: Preparing for College Writing (5)** Builds writing confidence through frequent informal writing, and introductions to key learning strategies. Includes user-friendly orientation to library and research documents, revision skills, and peer review work central to 100- and 200-level college writing assignments. Offered: A.

**ENGL 109 Introductory Composition (5-)** Development of writing skills: sentence strategies and paragraph structures. Expository, critical, and persuasive essay techniques based on analysis of selected readings. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs.

**ENGL 110 Introductory Composition (-5) C** Development of writing skills: sentence strategies and paragraph structures. Expository, critical, and persuasive essay techniques based on analysis of selected readings. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs.

**ENGL 111 Composition: Literature (5) C** Study and practice of good writing; topics derived from reading and discussing stories, poems, essays, and plays. Cannot be taken if student has already received a grade of 2.0 or higher in either ENGL 111, ENGL 121, or ENGL 131.

**ENGL 121 Composition: Social Issues (5) C** Study and practice of good writing; topics derived from reading and discussing essays and fiction about current social and moral issues. Cannot be taken if student has already received a

grade of 2.0 or higher in either ENGL 111, ENGL 121, or ENGL 131.

**ENGL 131 Composition: Exposition (5) C** Study and practice of good writing; topics derived from a variety of personal, academic, and public subjects. Cannot be taken if student has already received a grade of 2.0 or higher in either ENGL 111, ENGL 121, or ENGL 131.

**ENGL 182 The Research Paper (5) C** Includes study of library resources, the analysis of reading materials, and writing preparatory papers as basic to writing a reference or research paper. Open to all undergraduates. Prerequisite: either ENGL 111, ENGL 121, or ENGL 131.

**ENGL 197 Interdisciplinary Writing/Humanities (5, max. 15) C** Expository writing based on material presented in a specified humanities lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

**ENGL 198 Interdisciplinary Writing/Social Science (5, max. 15) C** Expository writing based on material presented in a specified social science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytic prose. Concurrent registration in specified course required.

**ENGL 199 Interdisciplinary Writing/Natural Science (5, max. 15) C** Expository writing based on material presented in a specific natural science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

**ENGL 200 Reading Literary Forms (5) VLPA** Covers techniques and practice in reading and enjoying literature in its various forms: poetry, drama, prose fiction, and film. Examines such features of literary meanings as imagery, characterization, narration, and patterning in sound and sense. Offered: AWSp.

**ENGL 205 Method, Imagination, and Inquiry (5) VLPA** Examines ideas of method and imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with CHID 205.

**ENGL 207 Introduction to Cultural Studies (5) VLPA** Introduces Cultural Studies, its history, terms, and specific ways of interpreting a variety of texts, that include literature, visual images, music, video, and performance. Offered: AWSp.

**ENGL 210 Medieval and Early Modern Literature, 400 to 1600 (5) VLPA** Introduces literature from the Middle Ages and the Age of Shakespeare, focusing on major works that have shaped the development of literary and intellectual traditions of these periods. Offered: AWSp.

**ENGL 211 Literature, 1500–1800 (5) VLPA** *Coldewey, Remley, Shields, Streitberger* Introduces literature from the Age of Shakespeare to the American and French Revolutions, focusing on major works that have shaped the development of literary and intellectual traditions in these centuries. Topics include: The Renaissance, religious and political reforms, exploration and colonialism, vernacular cultures, and scientific thought. Offered: AWSp.

**ENGL 212 Literature, 1700–1900 (5) VLPA** Introduces eighteenth and nineteenth-century literature, focusing on representative works that illustrate literary and intellectual developments of the period. Topics include: exploration, empire, colonialism, slavery, revolution, and nation-building. Offered: AWSp.

**ENGL 213 Modern and Postmodern Literature (5) VLPA** Introduces twentieth-century literature and contemporary literature, focusing on representative works that illustrate literary and intellectual developments since 1900.

**ENGL 225 Shakespeare (5) VLPA** Introduces Shakespeare's career as dramatist, with study of representative comedies, tragedies, romances, and history plays.

**ENGL 242 Reading Prose Fiction (5) VLPA** Critical interpretation and meaning in works of prose fiction, representing a variety of types and periods.

**ENGL 243 Reading Poetry (5) VLPA** Critical interpretation and meaning in poems, representing a variety of types and periods.

**ENGL 244 Reading Drama (5) VLPA** Critical interpretation and meaning in plays, representing a variety of types and periods.

**ENGL 250 American Literature (5) VLPA** Introduces American culture through a careful reading of a variety of representative texts in their historical contexts.

**ENGL 251 Literature and American Political Culture (5) I&S/VLPA** Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Offered: jointly with POL S 281.

**ENGL 257 Asian-American Literature (5) VLPA** Introductory survey of Asian-American literature provides introduction to Chinese, Japanese, Filipino, Korean, Hawaiian, South-Asian, and Southeast-Asian American literatures and a comparative study of the basic cultural histories of those Asian-American communities from the 1800s to the present.

**ENGL 258 African-American Literature: 1745 to Present (5) VLPA** A chronological survey of Afro-American literature in all genres from its beginnings to the present day. Emphasizes Afro-American writing as a literary art; the cultural and historical context of Afro-American literary expression and the aesthetic criteria of Afro-American literature. Offered: jointly with AFRAM 214.

**ENGL 270 The Uses of the English Language (5) VLPA** Surveys the assumptions, methodologies, and major issues of English in its cultural settings. Connects English Language study with the study of literature, orality and literacy, education, ethnicity, gender, and public policy.

**ENGL 281 Intermediate Expository Writing (5) C** Writing papers communicating information and opinion to develop accurate, competent, and effective expression.

**ENGL 282 Composing for the Web (5)** Introduces the writing of nonfiction narrative and expository pieces for publication on the Web. Analysis and criticism of on-line work.

**ENGL 283 Beginning Verse Writing (5) VLPA** Intensive study of the ways and means of making a poem.

**ENGL 284 Beginning Short Story Writing (5) VLPA** Introduction to the theory and practice of writing the short story.

**ENGL 285 Writers on Writing (5) VLPA** *Bosworth, Kenney, Shields, Sonenberg* Experiencing literature from the inside. Members of the creative writing faculty and other practicing writers discuss their poetry, fiction, and literary nonfiction, literary inspiration, artistic practice, and the writer's life.

**ENGL 297 Intermediate Interdisciplinary Writing - Humanities (5, max. 15) C** Expository writing based on materials presented in a specified humanities course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required. Offered: AWSpS.

**ENGL 298 Intermediate Interdisciplinary Writing - Social Sciences (5, max. 15) C** Expository writing based on materials presented in a specified social science course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required. Offered: AWSpS.

**ENGL 299 Intermediate Interdisciplinary Writing - Natural Sciences (5, max. 15) C** Expository writing based on materials presented in a specified natural science course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required. Offered: AWSpS.

**ENGL 300 Reading Major Texts (5) VLPA** Intensive examination of one or a few major works of literature. Classroom work to develop skills of careful and critical reading. Book selection varies, but reading consists of major works by important authors and of selected supplementary materials.

**ENGL 301 Introduction to the Study of English Language and Literature (5)** Gateway course designed for English pre-majors and majors. Introduces critical, historical, and theoretical frameworks important to studying the literature, language, and cultures of English. Concurrent registration with ENGL 297 required. Can not be taken for credit if student has taken ENGL 202.

**ENGL 302 Critical Practice (5) VLPA** Intensive study of, and exercise in, applying important or influential interpretive practices for studying language, literature, and culture, along with consideration of their powers/limits. Focuses on developing critical writing abilities. Topics vary and may include critical and interpretive practice from scripture and myth to more contemporary approaches, including newer interdisciplinary practices. Prerequisite: minimum grade of 2.0 in both ENGL 197 and ENGL 202; may not be repeated if received a grade of 2.0 or higher.

**ENGL 303 History of Literary Criticism and Theory I (5) VLPA** Literary criticism and theory from its beginnings in Plato through the early twentieth century. Philosophical and theoretical grounds for critical practice put forward by philosophers and critics.

**ENGL 304 History of Literary Criticism and Theory II (5) VLPA** Contemporary criticism and theory and its background in the New Criticism, structuralism, and phenomenology.

**ENGL 305 Theories of Imagination (5) I&S/VLPA** Survey of theories of imagination since the seventeenth century. Focuses on the uses of the concept in literature, criticism, science, and society.

**ENGL 306 Introduction to Rhetoric (5) VLPA** Introduces rhetorical theory from the classical period to the present, including an overview of core issues, vocabulary, and concepts in rhetorical theory; a discussion of methods for studying rhetoric, and a consideration of the social importance of studying rhetoric in the contemporary moment.

**ENGL 307 Cultural Studies: Literature and the Age (5) VLPA** Problems of literary periodization. Works by major and minor authors in the context of cultural history; critical and theoretical approaches that have led to the idea of periodization. Emphasis varies. Recommended: one 300-level ENGL course in the literary period being studied.

**ENGL 308 Marxism and Literary Theory (5) VLPA** Introduces Marxist theory and methodology. Explores how and why Marx's writings, Marxist theory, and materialist methods have become central to the study of literature and culture over the course of the twentieth century.

**ENGL 309 Theories of Reading (5) VLPA** Investigates what it means to be a reader. Centers on authorial and reading challenges, shifting cultural and theoretical norms, and changes in the public's reading standards.

**ENGL 310 The Bible as Literature (5) VLPA** Introduction to the development of the religious ideas and institutions of ancient Israel, with selected readings from the Old Testament and New Testament. Emphasis on reading *The Bible* with literary and historical understanding.

**ENGL 311 Modern Jewish Literature in Translation (5) VLPA** Survey of Jewish experience and its literary expression since 1880. Includes such Yiddish writers as Sholom Aleichem, Peretz, and I. B. Singer; such Israeli writers as Agnon, Hazaz, and Appelfeld; and such writers in non-Jewish languages as Primo Levi and Kafka.

**ENGL 312 Jewish Literature: Biblical to Modern (5) I&S/VLPA** A study of Jewish literature from Biblical narrative and rabbinic commentary to modern prose and poetry with intervening texts primarily organized around major themes: martyrdom and suffering, destruction and exile, messianism, Hasidism and Enlightenment, Yiddishism and Zionism. Various critical approaches; geographic and historic contexts. Offered: jointly with SISJE 312.

**ENGL 313 Modern European Literature in Translation (5) VLPA** Fiction, poetry, and drama from the development of modernism to the present. Works by such writers as Mann, Proust, Kafka, Gide, Hesse, Rilke, Brecht, Sartre, and Camus.

**ENGL 314 Transatlantic Literature and Culture (5) VLPA** Explores literatures and cultures produced in the Atlantic world. Emphasizes historical lines of communication and exchange among Atlantic cultures and their literature.

**ENGL 315 Literary Modernism (5) VLPA** Various modern authors, from Wordsworth to the present, in relation to such major thinkers as Kant, Hegel, Darwin, Marx, Nietzsche, Bergson, and Wittgenstein, who have helped create the context and the content of modern literature. Recommended: ENGL 230 or one 300-level course in 19th or 20th century literature.

**ENGL 316 Postcolonial Literature and Culture (5, max. 10) VLPA** Readings of major texts and writers in postcolonial literature and culture. Surveys some of the most important questions and debates in postcolonial literature, including issues of identity, globalization, language, and nationalism. The cultural focus may vary, so students should check with the professor for specific details.

**ENGL 317 Literature of the Americas (5) VLPA** Examines writings by and about people of the Americas, with a focus on intersections of gender, colonialism, race, sexuality, and ethnicity.

**ENGL 318 Black Literary Genres (5) VLPA** *Ibrahim, Retman* Considers how generic forms have been discussed, distributed, and valued in the larger context of African American, or other African-Diasporic literary studies. Explores how black writers and artists treat the terms and conventions of generic forms in response, and comparison, to their cultural treatment of others. Offered: jointly with AFRAM 318; AWSp.

**ENGL 319 African Literatures (5) VLPA** *Chrisman* Introduces and explores African literatures from a range of regions. Pays particular attention to writings connected with the historical experiences of colonialism, anti-colonial resistance, and decolonization. Considers the operations of race, gender, nationhood, neocolonialism, and globalization within and across these writings. Offered: AWSp.

**ENGL 320 English Literature: The Middle Ages (5) VLPA** Literary culture of Middle Ages in England, as seen in selected works from earlier and later periods, ages of *Beowulf* and of Geoffrey Chaucer. Read in translation, except for a few later works, which are read in Middle English.

**ENGL 321 Chaucer (5) VLPA** Chaucer's *Canterbury Tales* and other poetry, with attention to Chaucer's social, historical, and intellectual milieu.

**ENGL 322 English Literature: The Age of Queen Elizabeth (5) VLPA** The golden age of English poetry, with poems by Shakespeare, Spenser, Sidney, and others; drama by Marlowe and other early rivals to Shakespeare; prose by Sir Thomas More and the great Elizabethan translators.

**ENGL 323 Shakespeare to 1603 (5) VLPA** Shakespeare's career as dramatist before 1603 (including *Hamlet*). Study of history plays, comedies, and tragedies.

**ENGL 324 Shakespeare After 1603 (5) VLPA** Shakespeare's career as dramatist after 1603. Study of comedies, tragedies, and romances.

**ENGL 325 English Literature: The Late Renaissance (5) VLPA** A period of skepticism for some, faith for others, but intellectual upheaval generally. Poems by John Donne and the "metaphysical" school; poems and plays by Ben Jonson and other late rivals to Shakespeare; prose by Sir Francis Bacon and other writers.

**ENGL 326 Milton (5) VLPA** Milton's early poems and the prose; *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes*, with attention to the religious, intellectual, and literary contexts.

**ENGL 327 English Literature: Restoration and Early Eighteenth Century (5) VLPA** Selections from wits and satirists; poems by John Dryden and Alexander Pope; plays by

Dryden, William Congreve, and other wits; the great satires of Jonathan Swift, and the first stirring of the novel.

**ENGL 328 English Literature: Later Eighteenth Century (5) VLPA** Classic age of English prose. Essays, biography, and criticism by Samuel Johnson, Oliver Goldsmith, and others; comedies by Goldsmith and Richard Brinsley Sheridan; fiction by Henry Fielding and others; poetry by a variety of writers.

**ENGL 329 Rise of the English Novel (5) VLPA** Study of the development of this major and popular modern literary form in the eighteenth century. Readings of the best of the novelists who founded the form, and some minor ones, from Defoe to Fielding, Richardson, and Sterne, early Austen, and the gothic and other writers.

**ENGL 330 English Literature: The Romantic Age (5) VLPA** Literary, intellectual, and historical ferment of the period from the French Revolution to the 1830s. Readings from major authors in different literary forms; discussions of critical and philosophical issues in a time of change.

**ENGL 331 Romantic Poetry I (5) VLPA** Blake, Wordsworth, Coleridge, and their contemporaries.

**ENGL 332 Romantic Poetry II (5) VLPA** Byron, Shelley, Keats, and their contemporaries.

**ENGL 333 English Novel: Early and Middle Nineteenth Century (5) VLPA** Studies in the novel in one of its classic phases. Authors include Austen, the Brontës, Dickens, Thackeray.

**ENGL 334 English Novel: Later Nineteenth Century (5) VLPA** Studies in the novel as it passes from a classic format to formats more experimental. Authors include George Eliot, Thomas Hardy, Joseph Conrad, and others.

**ENGL 335 English Literature: The Age of Victoria (5) VLPA** Literature in an era of revolution that also sought continuity, when culture faced redefinition as mass culture and found in the process new demands and creative energies, new material and forms, and transformations of old ones. Readings range from works of Tennyson, Browning, Arnold, Shaw, to Dickens, Eliot, Hardy.

**ENGL 336 English Literature: The Early Modern Period (5) VLPA** Experiments in fiction and poetry. Novels by Joyce, Woolf, Lawrence, and others; poetry by Eliot and Yeats and others.

**ENGL 337 The Modern Novel (5) VLPA** The novel on both sides of the Atlantic in the first half of the twentieth century. Includes such writers as Joyce, Woolf, Lawrence, Stein, Hemingway, Faulkner, and others.

**ENGL 338 Modern Poetry (5) VLPA** Poetry in the modernist mode, including such poets as Yeats, Eliot, Pound, Auden, and Moore.

**ENGL 339 English Literature: Contemporary England (5) VLPA** Return to more traditional forms in such writers as Bowen, Orwell, Waugh, Cary, Lessing, Drabble.

**ENGL 340 Modern Anglo-Irish Literature (5) VLPA** Principal writers in English of the modern Irish literary movement—Yeats, Joyce, Synge, Gregory, and O'Casey among them—with attention to traditions of Irish culture and history.

**ENGL 342 Contemporary Novel (5) VLPA** Recent efforts to change the shape and direction of the novel by such writers as Murdoch, Barth, Hawkes, Fowles, and Atwood.

**ENGL 343 Contemporary Poetry (5) VLPA** Recent developments by such poets as Hughes, Heaney, Rich, Kinnell, and Hugo.

**ENGL 344 Twentieth-Century Dramatic Literature (5) VLPA** Modern and contemporary plays by such writers as Shaw, Synge, O'Casey, O'Neill, Yeats, Eliot, Beckett, Pinter, and Albee.

**ENGL 345 Studies in Film (5) VLPA** Types, techniques, and issues explored by filmmakers. Emphasis on narrative, image, and point of view.

**ENGL 346 Studies in Short Fiction (5) VLPA** The American and English short story, with attention to the influence of

writers of other cultures. Aspects of the short story that distinguish it, in style and purpose, from longer fiction.

**ENGL 347 The Art of Prose (5) VLPA** Techniques and varieties of prose—autobiography, biography, personal essay, reflective and meditative writing, social and scientific inquiry, and persuasive writing. Special attention to use of poetic, fictional, and dramatic devices. Recommended: one introductory literature course.

**ENGL 348 Studies in Drama (5) VLPA** Investigation of one of the major types of drama: tragedy or comedy. Emphasis on drama prior to the twentieth century.

**ENGL 349 Science Fiction and Fantasy (5) VLPA** The study of the development of and specific debates in the related genres of fantasy and science fiction literatures

**ENGL 350 Traditions in American Fiction (5) VLPA** A literary form in which America has found its distinctively American expression. Selected readings among important novelists from the beginnings until 1900, including Cooper, Hawthorne, Melville, Twain, Chopin, James, and Wharton.

**ENGL 351 American Literature: The Colonial Period (5) VLPA** Responses to the New World and literary strategies in the literature of the colonies and the early republic. Works by Taylor, Edwards, Franklin, and others.

**ENGL 352 American Literature: The Early Nation (5) VLPA** Conflicting visions of the national destiny and the individual identity in the early years of America's nationhood. Works by Emerson, Thoreau, Hawthorne, Melville, and such other writers as Poe, Cooper, Irving, Whitman, Dickinson, and Douglass.

**ENGL 353 American Literature: Later Nineteenth Century (5) VLPA** Literary responses to an America propelled forward by accelerating and complex forces. Works by Twain, James, and such other writers as Whitman, Dickinson, Adams, Wharton, Howells, Crane, Dreiser, DuBois, and Chopin.

**ENGL 354 American Literature: The Early Modern Period (5) VLPA** Literary responses to the disillusionment after World War I, experiments in form and in new ideas of a new period. Works by such writers as Anderson, Toomer, Cather, O'Neill, Frost, Pound, Eliot, Cummings, Hemingway, Fitzgerald, Faulkner, Stein, Hart Crane, Stevens, and Porter.

**ENGL 355 American Literature: Contemporary America (5) VLPA** Works by such writers as Ellison, Williams, O'Connor, Lowell, Barth, Rich, and Hawkes.

**ENGL 356 Classic American Poetry (5) VLPA** Poetry by Taylor, Whitman, Dickinson, and such others as Poe, Bradstreet, Crane, Robinson. The lineage and characteristics of lyric and epic in America.

**ENGL 357 Jewish American Literature and Culture (5) VLPA** *Butwin* Examines the literary and cultural production of American Jews from the colonial period to the present time. Considers ways in which American Jews assimilate and resist assimilation while Jewish writers, filmmakers, playwrights, and graphic novelists imitate and alter American life and literature. Offered: jointly with SISJE 357; AWSp.

**ENGL 358 Literature of Black Americans (5) VLPA** Selected writings, novels, short stories, plays, poems by Afro-American writers. Study of the historical and cultural context within which they evolved. Differences between Afro-American writers and writers of the European-American tradition. Emphasis varies. Offered: jointly with AFRAM 358.

**ENGL 359 Contemporary American Indian Literature (5) VLPA** Creative writings—novels, short stories, poems—of contemporary Indian authors; traditions out of which they evolved. Differences between Indian writers and writers of the dominant European/American mainstream. Offered: jointly with AIS 377.

**ENGL 360 American Political Culture: To 1865 (5) I&S/VLPA** American literature in its political and cultural context from the Puritan origins to the Civil War. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media.

**ENGL 361 American Political Culture: After 1865 (5) I&S/VLPA** American literature in its political and cultural context

from the Civil War to the present. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media.

**ENGL 362 U.S. Latino/a Literature (5) VLPA** *Kaup* Selected contemporary and historical works by U.S. Latino/a authors. Spans U. S. Latino/a literature from the nineteenth century to the present, tracing it genealogy from a foundational triad of communities - Mexican American, Puerto Rican, and Cuban American.

**ENGL 363 Literature and the Other Arts and Disciplines (5, max. 10) VLPA** Relationships between literature and other arts, such as painting, photography, architecture, and music, or between literature and other disciplines, such as science. Content varies.

**ENGL 364 Literature and Medicine (5) I&S/VLPA** How changing concepts of doctor-patient relationship and of body depicted in literary texts affect decisions throughout the human life cycle. Medicine and disease as metaphors for personal experience and social analysis.

**ENGL 365 Literature and Discourse on the Environment (5) VLPA** *Blake, Handwerk* Pays attention to verbal expression; forms and genres; and historical, cultural, and conceptual contexts of the natural environment. Focuses on sites, nations, and historical periods. Forms and genres include: nature writing, environmentalist discourses, the pastoral, the sublime, discourses of the city, fiction, poetry, nonfiction prose, dramatic forms, and religious texts. Offered: AWSpS.

**ENGL 366 Literature and Law (5) VLPA** Introduces and explores topics in law and literature, with a focus on the relationship between legal materials and literary or cultural imaginaries. Surveys debates in the field of law and literature or focuses on a specific problem, genre, or historical period.

**ENGL 367 Gender Studies in Literature (5, max. 15) VLPA** The study of contemporary approaches to analyzing the gender politics of literature and culture. Examines special topics in the history and development of the major theoretical trends, including the relationship of certain theories of gender to relevant works of literature.

**ENGL 368 Women Writers (5, max. 15) VLPA** Study of the work of women writers in English and American literature.

**ENGL 370 English Language Study (5) VLPA** Wide-range introduction to the study of written and spoken English. The nature of language; ways of describing language; the use of language study as an approach to English literature and the teaching of English.

**ENGL 371 English Syntax (5) VLPA** Description of sentence, phrase, and word structures in present-day English. Prerequisite: ENGL 370, LING 200 or LING 400.

**ENGL 372 World Englishes (5) VLPA** Examines emerging World/New Englishes, and variants of English employed as a second language in former colonies of the United Kingdom and United States. Explores issues of standardization and the standard in a global perspective. Prerequisite: ENGL 370, LING 200, or LING 400.

**ENGL 373 History of the English Language (5) VLPA** Evolution of English sounds, forms, structures, and word meanings from Anglo-Saxon times to the present. Prerequisite: either ENGL 370 or LING 200.

**ENGL 374 The Language of Literature (5) VLPA** Roles of explicitly describable language features in the understanding and appreciation of various verbal forms. Emphasis on literature, but attention also may be given to nonliterary prose and oral forms.

**ENGL 376 Introduction to Middle English Language (5) VLPA** *Moore* Explores the language and culture of the Middle English period in England (1100–1500). Examines Middle English texts, the cultural importance of written material, the shifting roles of literacy in early England, the relationship to French and Latin, the regional dialects of English in the period, and manuscript culture. Offered: AWSp.

**ENGL 381 Advanced Expository Writing (5) C** Concentration on the development of prose style for experienced writers.

**ENGL 382 Writing for the Web (5) C** Writing substantial Web essays on topics of current concern, Extensive analysis and criticism of on-line essays. Prerequisite: ENGL 282.

**ENGL 383 The Craft of Verse (5) VLPA** Intensive study of various aspects of the craft verse. Readings in contemporary verse and writing using emulation and imitation. Prerequisite: ENGL 283; ENGL 284.

**ENGL 384 The Craft of Prose (5) VLPA** Intensive study of various aspects of the craft of fiction or creative nonfiction. Readings in contemporary prose and writing using emulation and imitation. Prerequisite: ENGL 283; ENGL 284.

**ENGL 407 Special Topics in Cultural Studies (5) VLPA** Advanced work in cultural studies.

**ENGL 411 Introduction to the Folktale Among Literate Peoples (3) VLPA** Techniques of classification, geographic-historical distribution, theories of origin and interpretations, and related areas of investigation of the oral prose folk narrative of literate peoples.

**ENGL 422 Arthurian Legends (5) VLPA** Medieval romance in its cultural and historical setting, with concentration on the evolution of Arthurian romance.

**ENGL 430 British Writers: Studies in Major Authors (5, max. 15) VLPA** Concentration on one writer or a special group of British writers.

**ENGL 431 Topics in British Literature (5, max. 15) VLPA** Themes and topics of special meaning to British literature.

**ENGL 440 Special Studies in Literature (3/5, max. 10) VLPA** Themes and topics offering special approaches to literature.

**ENGL 442 The Novel: Special Studies (5, max. 10) VLPA** Readings may be English or American and drawn from different periods, or they may concentrate on different types—gothic, experimental, novel of consciousness, realistic novel. Special attention to the novel as a distinct literary form. Specific topic varies from quarter to quarter.

**ENGL 443 Poetry: Special Studies (5, max. 10) VLPA** A poetic tradition or group of poems connected by subject matter or poetic technique. Specific topics vary, but might include poetry as a geography of mind, the development of the love lyric, the comic poem.

**ENGL 444 Dramatic Literature: Special Studies (5, max. 10) VLPA** Study of a particular dramatic tradition (such as expressionism or the absurd theatre) or character (the clown) or technique (play-within-a-play, the neoclassical three unities). Topics vary.

**ENGL 451 American Writers: Studies in Major Authors (5, max. 15) VLPA** Concentration on one writer or a special group of American writers.

**ENGL 452 Topics in American Literature (5, max. 15) VLPA** Exploration of a theme or special topic in American literary expression.

**ENGL 453 Introduction to American Folklore (5) VLPA** Study of different kinds of folklore inherited from America's past and to be found in America today.

**ENGL 457 Pacific Northwest Literature (5) VLPA** Concentrates in alternate years on either prose or poetry of the Pacific Northwest. Prose works examine early exploration, conflicts of native and settlement cultures, various social and economic conflicts. Pacific Northwest poetry includes consideration of its sources, formative influences, and emergence into national prominence.

**ENGL 466 Gay and Lesbian Studies (5) I&S/VLPA** Examination of ways gays and lesbians are represented in literature, film, performance, and popular culture and how these representations are interpreted in mainstream, gay/lesbian, and academic writing.

**ENGL 470 Theory and Practice of Teaching Literature (5, max. 10) VLPA** Reviews the institutional history of English as an academic discipline and the core debates and politics that have shaped the content, teaching, and study of literature and literacy theory. Introduces some theoretical and methodological approaches that inform the teaching of literature.

**ENGL 471 The Theory and Practice of Teaching Writing (5) VLPA** Consideration of psychological and formal elements basic to writing and related forms of nonverbal expression and the critical principles that apply to evaluation.

**ENGL 472 Language Learning (5) VLPA** Consideration of how an individual achieves psychological and esthetic grasp of reality through language; relates language development to reading skills, literary interpretation, grammar acquisition, oral fluency, discursive and imaginative writing.

**ENGL 473 Current Developments in English Studies: Conference (5) VLPA**

**ENGL 474 Special Topics in English for Teachers (1–10, max. 10) VLPA**

**ENGL 475 Colloquium in English for Teachers (1–5, max. 10) VLPA**

**ENGL 476 Puget Sound Writing Program Institute (10) VLPA** Focus on the writing process and the teaching of writing, accomplished through research, writing, reflection, and demonstration of writing instruction. Affiliated with the National Writing Project.

**ENGL 477 Children's Literature (5) VLPA** An examination of books that form a part of the imaginative experience of children, as well as a part of a larger literary heritage, viewed in the light of their social, psychological, political, and moral implications.

**ENGL 478 Language and Social Policy (5) I&S/VLPA** Examines the relationship between language policy and social organization; the impact of language policy on immigration, education, and access to resources and political institutions; language policy and revolutionary change; language rights.

**ENGL 479 Language Variation and Language Policy in North America (5) I&S/VLPA** Surveys basic issues of language variation: phonological, syntactic, semantic, and narrative/discourse differences among speech communities of North American English; examines how language policy can affect access to education, the labor force, and political institutions.

**ENGL 481 Special Studies in Expository Writing (5) VLPA** Individual projects in various types of nonfictional prose, such as biographical sketches, informational reports, literary reviews, and essays.

**ENGL 483 Advanced Verse Workshop (5, max. 10) VLPA** Intensive verse workshop. Emphasis on the production and discussion of student poetry. Prerequisite: ENGL 383; ENGL 384.

**ENGL 484 Advanced Prose Workshop (5, max. 10) VLPA** Intensive prose workshop. Emphasis on the production and discussion of student fiction and/or creative nonfiction. Prerequisite: ENGL 383; ENGL 384.

**ENGL 485 Novel Writing (5, max. 15) VLPA** Experience in planning, writing, and revising a work of long fiction, whether from the outset, in progress, or in already completed draft. Prerequisite: ENGL 384.

**ENGL 486 Playwriting (5, max. 10) VLPA** Experience in planning, writing, and revising a play, whether from the outset, in progress, or in already completed draft.

**ENGL 487 Screenwriting (5) VLPA** Students read screenwriting manuals and screenplays, analyze exemplary films, and write synopses, treatments, and first acts of their own screenplays.

**ENGL 490 Study Abroad Program (5, max. 15) VLPA** For students in the Study Abroad program. Relates major works of literature to the landscape and activities of their settings.

**ENGL 491 Internship (1–6, max. 12)** Supervised experience in local businesses and other agencies. Open only to upper-division English majors. Credit/no credit only.

**ENGL 492 Advanced Expository Writing Conference (1–5, max. 10)** Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken.

**ENGL 493 Advanced Creative Writing Conference (1–5, max. 10)** Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken.

**ENGL 494 Honors Seminar (5, max. 10) VLPA** Survey of current issues confronting literary critics today, based on revolving themes and topics. Focuses on debates and developments affecting English language and literatures, including questions about: the relationship of culture and history; the effect of emergent technologies on literary study; the rise of interdisciplinary approaches in the humanities.

**ENGL 495 Major Conference for Honors in Creative Writing (5)** Special projects available to honors students in creative writing. Required of, and limited to, honors students in creative writing.

**ENGL 496 Major Conference for Honors (5)** Individual study (reading, papers) by arrangement with the instructor. Required of, and limited to, honors seniors in English.

**ENGL 497 Honors Senior Seminar (5) VLPA** Seminar study of special topics in language and literary study. Limited to honors students majoring in English.

**ENGL 498 Senior Seminar (5) VLPA** Seminar study of special topics in language and literary study. Limited to seniors majoring in English.

**ENGL 499 Independent Study (1–5, max. 10)** Individual study by arrangement with instructor.

**ENGL 500 Reading Medieval Literature (5)** Special problems involved in the study and interpretation of medieval texts, selected examples drawn from the beginnings of English literature to 1500.

**ENGL 501 The Renaissance and Literary Tradition (5)** Examination of selected texts from 1500 to 1660, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the Renaissance.

**ENGL 502 English Literary Culture: 1660–1800 (5)** Examination of selected texts of the Restoration and eighteenth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

**ENGL 503 English Literary Culture: 1800–1900 (5)** Examination of selected texts from the nineteenth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

**ENGL 504 Backgrounds of Modern Literature (5)** Examination of selected texts from the twentieth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

**ENGL 505 Theories of American Literature (5)** Examination of selected texts in American Literature, concentrating on the specific problems of interpretation and scholarship characteristic of the study of works in this field.

**ENGL 506 Modern and Contemporary Critical Theory (5)** Engages ongoing critical conversations that inform English studies, including: language, textual production, disciplinaryity, the university, capital, nation formation, postcolonialism, the environment, race, gender, class, and sexuality. The historical focus is contemporary, with attention to foundational modern theorists.

**ENGL 507 History of Literary Criticism and Theory I (5, max. 15)** A general introduction to the major issues in the history of criticism followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with C LIT 507.

**ENGL 508 History of Literary Criticism and Theory II (5, max. 15)** Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with C LIT 508.

**ENGL 509 History of Literary Criticism and Theory III (5, max. 15)** Literary criticism and theory from Kant's *Critique*

of *Judgment* to the mid-twentieth century and the work of Northrop Frye. Offered: jointly with C LIT 509.

**ENGL 510 History of Literary Criticism and Theory IV (5, max. 15)** A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with C LIT 510.

**ENGL 512 Introductory Reading in Old English (5)**

**ENGL 513 Old English Language and Literature (5, max. 15)**

**ENGL 514 Middle English (5, max. 15)**

**ENGL 515 Chaucer (5, max. 15)**

**ENGL 516 Topics in Medieval English Literature (5, max. 15)**

**ENGL 517 Sixteenth-Century Literature (5, max. 15)**

**ENGL 518 Shakespeare (5, max. 15)**

**ENGL 520 Seventeenth-Century Literature (5, max. 15)**

**ENGL 521 Milton (5, max. 15)**

**ENGL 522 Topics in the English Renaissance, 1485–1660 (5, max. 15)**

**ENGL 524 Restoration and Eighteenth-Century Literature (5, max. 15)**

**ENGL 525 Topics in Restoration and Eighteenth-Century Studies (5, max. 15)**

**ENGL 527 Romanticism (5, max. 15)**

**ENGL 528 Victorian Literature (5, max. 15)**

**ENGL 529 Topics in Nineteenth-Century Studies (5, max. 15)**

**ENGL 531 Early American Literature (5, max. 15)**

**ENGL 532 Nineteenth-Century American Literature (5, max. 15)**

**ENGL 533 Modern American Literature (5, max. 15)**

**ENGL 535 American Culture and Criticism (5, max. 15)**

**ENGL 537 Topics in American Studies (5, max. 15)**

**ENGL 540 Modern Literature (5, max. 15)**

**ENGL 541 Contemporary Literature (5, max. 15)**

**ENGL 543 Anglo-Irish Literature (5, max. 15)**

**ENGL 544 World Literature in English (5, max. 15)**

**ENGL 546 Topics in Twentieth-Century Literature (5, max. 15)**

**ENGL 550 Studies in Narrative (5, max. 15)**

**ENGL 551 Studies in Poetry (5, max. 15)**

**ENGL 552 Studies in Drama (5, max. 15)**

**ENGL 554 Theories of Structure, Genre, Form, and Function (5, max. 15)**

**ENGL 555 Feminist Theories (5, max. 15)**

**ENGL 556 Cultural Studies (5, max. 15)**

**ENGL 559 Literature and Other Disciplines (5, max. 15)**

**ENGL 560 The Nature of Language: History and Theory (5)**

**ENGL 561 Stylistics (5)**

**ENGL 562 Discourse Analysis (5)**

**ENGL 563 Comparative Grammars (5)**

**ENGL 564 Current Rhetorical Theory (5)** Prerequisite: teaching experience.

**ENGL 567 Approaches to Teaching Composition (1–5, max. 10)** Readings in composition theory and discussion of practical classroom applications. Prerequisite: previous experience or concurrent assignment in teaching writing.

**ENGL 569 Topics in Language and Rhetoric (5, max. 15)**

**ENGL 570 Practicum in Teaching English as a Second Language (5, max. 10)** Discussion and practice of second-language teaching techniques. Three hours per week teaching required in addition to regular class meetings. Credit/no credit only. Prerequisite: ENGL 571 or permission of instructor.

**ENGL 571 Theory and Practice on Teaching English to Speakers of Other Languages (5)** Topics include second language reading, aural/oral skills, critical pedagogy, program administration, and language policy.

**ENGL 572 Methods and Materials for Teaching English as a Second Language (5)** Prerequisite: LING 445 or permission of instructor.

**ENGL 574 Research Methods in Second-Language Acquisition (5)** Prerequisite: ENGL 572, LING 449, or permission of instructor.

**ENGL 575 Pedagogy and Grammar in Teaching English as a Second Language (5)**

**ENGL 576 Testing and Evaluation in English as a Second Language (5)** Evaluation and testing of English language proficiency, including testing theory, types of tests, and teacher-prepared classroom tests. Prerequisite: ENGL 571 and ENGL 572 or permission of instructor.

**ENGL 578 Colloquium in Teaching English to Speakers of Other Languages (5, max. 10)** Overview of major issues in second-language acquisition, teaching methodology, and classroom practice with special emphasis on links between theories of language learning and practical aspects of teaching English to speakers of other languages.

**ENGL 581 The Creative Writer as Critical Reader (5)**

**ENGL 584 Advanced Fiction Workshop (5, max. 20)** Prerequisite: graduate standing.

**ENGL 585 Advanced Poetry Workshop (5, max. 20)** Prerequisite: graduate standing.

**ENGL 586 Graduate Writing Conference (5)**

**ENGL 587 Topics in the Teaching of Creative Writing (3/5) VLPA** The theory and practice of teaching fiction, poetry, and creative nonfiction writing.

**ENGL 590 Master of Arts Essay (5/10, max. 10)** Research and writing project under the close supervision of a faculty member expert and with the consultation of a second faculty reader. The field of study is chosen by the student. Work is independent and varies. The model is an article in a scholarly journal. Prerequisite: graduate standing in English.

**ENGL 591 Master of Arts for Teachers Essay (5)** Research and writing project under the close supervision of a faculty member expert in the field of study chosen by the student within the MAT degree orientation toward the teaching of English, and with the consultation of a second faculty reader. The model is an article in a scholarly journal.

**ENGL 592 Graduate English Studies (1–5, max. 10)**

**ENGL 593 Textual Criticism (5)** Introduction to paleography, codicology, analytical and descriptive bibliography; examination of the major contributions to textual theory in the nineteenth and twentieth centuries; practice in applying textual theory in editing literary works.

**ENGL 595 Topics in Teaching Literature (5, max. 15)**

**ENGL 597 Directed Readings (\*, max. 18)** Intensive reading in literature or criticism, directed by members of doctoral supervisory committee. Credit/no credit only.

**ENGL 598 Colloquium in English (1–5, max. 10)** Lectures and seminars presented by visiting scholars or a range of local scholars relevant to English graduate studies.

**ENGL 599 Special Studies in English (5, max. 15)**

**ENGL 600 Independent Study or Research (\*)**

**ENGL 601 Internship (3–10, max. 10)** Credit/no credit only.

**ENGL 700 Master's Thesis (\*)**

**ENGL 800 Doctoral Dissertation (\*)**

## Geography

### DEPARTMENT OVERVIEW

408A Smith

Geography is the science of understanding the relationships among people, spaces, and environments as they take place and shape place around the world. In the twenty-first century, these spatial relationships have become more globally integrated, more globally consequential, and more globally contested than previously, compelling renewed demands for understanding about the complexity of spatial relations. In this context, geography provides important insights into the spatial transformations associated with globalization, global environmental change, and migration, as well as the geographic reordering of governance, geopolitics, health, population, regional economic development, and rural and urban transformation. The discipline offers sufficient skills training to enable graduates to be competitive in many job markets.

Geography seeks to understand the complex processes that result in the patterns, trends, and impacts of urbanization, migration, trade, and development. Geographers use interviews, statistical analysis, databases, scholarly research, and observation to construct models, maps, and other tools for understanding.

### UNDERGRADUATE PROGRAM

Advisers

415 A & B Smith, Box 353550

206-543-3246

[rroth@uw.edu](mailto:rroth@uw.edu)

The Department of Geography offers the following programs of study:

- Bachelor of Arts degree with a major in geography
- A minor in geography

Students may choose from among four multifaceted tracks (Cities, Citizenship, and Migration; Environment, Economy, and Sustainability; Globalization, Health, and Development; and GIS, Mapping, and Society), or customize their own hybrid focus along more thematic or issue-driven lines, such as inequality, race/class/gender studies, etc. Lists of courses in each track may be found at [depts.washington.edu/geog/undergrad\\_degreq.html](https://depts.washington.edu/geog/undergrad_degreq.html).

For an overview of main faculty research themes and how they relate to these tracks, visit [depts.washington.edu/geog/research\\_themes.html](https://depts.washington.edu/geog/research_themes.html).

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Any 100- or 200-level GEOG course. Courses that develop strong writing, analytical, and qualitative- and quantitative-reasoning skills. Geography is inherently interdisciplinary, so exposure to many social science fields of study in the first two years is ideal.

#### Department Admission Requirements

Students in good academic standing may declare this major at any time.

#### Major Requirements

60 credits as follows:

- *Foundations (30 credits):* See departmental adviser for approved track courses.
  - GEOG 315
  - One methods course from the following: GEOG 317, GEOG 326, GEOG 425, GEOG 426, or faculty approved methods course

- One Cities, Citizenship, and Migration Track course (5 credits)
- One Environment, Economy, and Sustainability Track course (5 credits)
- One Globalization, Health, and Development Track course (5 credits)
- One GIS, Mapping, and Society Track course (5 credits)
- **Track (20 credits):** See departmental adviser for approved track courses. Students may choose from among four tracks (Cities, Citizenship, and Migration; Environment, Economy, and Sustainability; Globalization, Health, and Development; and GIS, Mapping, and Society), or customize their own hybrid focus along more thematic or issue-driven lines, such as inequality, race/class/gender studies, etc. See adviser for details. Four upper-division (300- and 400-level) geography courses are required for this concentration, at least two of which must be at the 400 level.
- **Electives (10 credits):** GEOG electives at the 200 level or above; 300- and 400-level courses preferred.
- **Additional Degree Conditions and Program Features**
  - Transfer students must complete a minimum of 25 upper-division credits (300 and 400 level) in geography in residence at the University of Washington.
  - Individual geography course grades must be 2.0 or above to count toward major requirements; overall 2.50 GPA in geography courses counted toward the major required.
  - Students are encouraged to take appropriate elective courses outside the Geography Department in fields that support their track. Courses appropriate to various tracks are available on lists supplied by geography advisers, or may be recommended by the faculty adviser. Students should be aware that 300- and 400-level courses in other departments likely have prerequisites.
  - 5 credits of internship (GEOG 496) or independent study (GEOG 499) may apply toward the required 60 credits.
  - No single course may be counted toward more than one degree requirement.
  - Upon completion of the degree, the department confers a departmental certificate indicating proficiency in the track area.

## Minor

**Minor Requirements:** 30 credits in geography, including 15 upper-division geography credits with at least 5 credits at the 400 level. No more than 5 credits applied to the minor may be from 100-level classes. Independent learning and internship credits (GEOG 494, GEOG 496, GEOG 497, GEOG 499) may not be counted as part of the 30 credits. A minimum grade of 2.0 for each course counted toward the minor. At least 15 credits of upper-division geography courses must be taken at the UW.

## Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The study of geography emphasizes both technical and critical thinking skills. Geographers' skill sets include the ability to use Geographic Information Systems (GIS) software to produce maps; advanced technical skills in statistical analysis; the ability to use census and other demographic data; sophistication in locating data and interpreting it to help make an argument; sophistication in visual techniques for displaying data, including maps, charts, and graphs; advanced use of such software as spreadsheets, relational data bases, and Web page design; and the ability to present multiple models of land-use patterns for analysis in environmental and economic

decision making. Graduates have pursued careers as urban planners, environmental planners and land-use analysts, GIS analysts, economic analysts (marketing, location, geo-demographics), public health researchers, NGO specialists in developing nations, airline route analysts, import-export/international-trade specialists, real estate valuation specialists, economic development specialists, social studies teachers, and college professors.

- **Instructional and Research Facilities:** A map center in Suzzallo Library houses atlases, sheet maps, and aerial photographs. Departmental facilities include the Edward L. Ullman Geography Collaboratory and the John C. Sherman Laboratory, which houses a variety of computer workstations connected to the campus computer network. The Ullman Collaboratory in 415 Smith provides a unique collaborative classroom with networked computer work stations. The Geography Commons also provides computer work stations for students. The Department of Geography is a member of the Center for Social Science Computation and Research, which maintains an extensive data archive and offers many statistical and software consulting services.
- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- **Research, Internships, and Service Learning:** More than 125 geography students participate each year in internships. For lists of these opportunities, see the department's [career site](#).
- **Department Scholarships:** None offered.
- **Student Organizations/Associations:** The Undergraduate Geography Association (UGA) organizes field trips, alumni career panels, public-service projects, and social gatherings.

**Of Special Note:** Students planning to study economic, transportation, or urban geography are advised to take ECON 200, ECON 201 as early as possible. For those interested in international or area studies, foreign-language competence (i.e., at a level sufficient to be useful for elective, course-related reading and research) is highly desirable (Russian, Chinese, or Spanish). A working knowledge of a region's or nation's history, landscapes (including physical, urban, and cultural), and current role in world economics and politics is also of great benefit. Students interested in GIS are encouraged to learn a high-level programming language such as C, C++, Java, or Visual Basic.

## GRADUATE PROGRAM

### Graduate Program Coordinator

415B Smith, Box 353550

206-543-3246

[rroth@uw.edu](mailto:rroth@uw.edu)

The Department of Geography has flexible programs of graduate study leading to the Master of Arts and Doctor of Philosophy degrees. The aspirant to the master's degree is expected to complete all work for the degree in four to six quarters. The aspirant to the doctoral degree is expected to undertake two years of post-master's study and must take a departmental diagnostic examination upon entry, pass the general examination, attain an appropriate level of competence in a foreign language or cognate field, and successfully complete a dissertation. Normally, doctoral program students complete all degree requirements in three to four years.

## Master of Arts

### Admission Requirements

Admission to the graduate program normally requires a minimum GPA of 3.00 (on a 4.00 scale), or "B." Students holding a master's degree must meet this minimum scholastic requirement, but also should have achieved a GPA higher than 3.00 for graduate studies completed. All applicants must take the Graduate Record Examination. Specific information regarding application procedures may be obtained by writing to the Graduate Program Adviser.

### Degree Requirements

45 credits, to include:

- GEOG 512 (5)
- One of the following 400-level courses in analytical methods: GEOG 425 (5), GEOG 426 (5), GEOG 440 (5), GEOG 460 (5), GEOG 461 (5), or GEOG 471 (5).
- At least three quarters of GEOG 598 (1, max. 3), the departmental colloquium, usually taken during the first year in the program
- GEOG 597 (2). At the conclusion of GEOG 597, the student must write a revised statement of academic objectives.
- The completion of at least two departmental research seminars numbered 500 and above, but not including GEOG 502, GEOG 512, GEOG 513, GEOG 515 or other non-specialized seminars.
- Remaining credits to be determined in consultation with adviser.

## Master in Geographic Information Systems

The Professional Master's Program in Geographic Information Systems (PMP-GIS) helps working professionals enter or advance their careers in the field of geographic information science and sustainability management. PMP-GIS prepares students to understand and apply geographic information systems (GIS) to solve complex problems in a wide range of disciplines. Students learn to combine geovisualization, data management and geospatial analysis to develop, examine and portray data in two- and three-dimensional maps. Specialized program courses explore sustainability and investigate the interconnection of social, environmental and economic issues on a regional to global scale.

### Admissions Requirements

- A bachelor's degree from an accredited college or university in the United States, or its equivalent from a foreign institution, in a spatially-oriented discipline such as, but not limited to, geography, urban planning, geology, environmental science, civil engineering, environmental science/studies, and/or forest resources.
- Minimum 3.00 GPA in the last 60 graded semester hours or last 90 graded quarter hours of undergraduate and graduate study.
- At least one year of professional work experience in a field that emphasizes spatial relationships, wherein analyzing and synthesizing phenomena related across space are important parts of the work.
- Graduate Record Examination (GRE) scores.
- A personal statement describing educational goals and objectives.
- Three letters of recommendation.
- Previous coursework or work experience in GIS is advantageous and is considered as a way to offset any relative weaknesses in some of the previous criteria.
- **International Applicants:** The UW Graduate School requires every applicant whose native language is not

English to demonstrate English language proficiency. See Graduate School Memorandum #8 and English proficiency tests comparison tables for the university's policy.

### Degree Requirements

The PMP-GIS is a nine-course program primarily designed for part-time students. Each course is 5 credits and students must earn 45 credits to graduate. It is a non-thesis program, but the capstone course involves a final project.

Because this unique program combines GIS with sustainability management, the curriculum is developed to teach students how to address complex geographic information problems with GIS technologies, and create solutions that balance economic, social and environmental issues at local and global scales. Graduates will appreciate tradeoffs among human, financial and physical resource constraints when creating solutions.

Core courses expose students to the fundamentals of GIS software technologies and advanced spatial thinking skills. Concentration courses in sustainability management consider how resources are being treated currently and how they will be treated for future generations.

Most courses are taught online; however, students are required to attend three, three-day summer sessions in Seattle.

Courses: GEOG 513, GEOG 517, GEOG 560, GEOG 562, GEOG 564, GEOG 565, GEOG 568, GEOG 569, GEOG 582

## Doctor of Philosophy

### Admission Requirements

Admission to the graduate program normally requires a minimum GPA of 3.00 (on a 4.00 scale), or "B." Students holding a master's degree must meet this minimum scholastic requirement, but also should have achieved a GPA higher than 3.00 for graduate studies completed. All applicants must take the Graduate Record Examination. Specific information regarding application procedures may be obtained by writing to the graduate program adviser.

### Degree Requirements

90 credits, to include:

- **Core requirements:**
  - GEOG 515 (5). Post-master's students who have not previously completed a course on the history of geographic thought (GEOG 512) must complete such a course before taking GEOG 515.
  - At least three quarters of GEOG 598 (1, max. 3), the departmental colloquium, usually taken during the first year in the program
  - GEOG 597. At the conclusion of GEOG 597, the student must write a revised statement of academic objectives.
  - Two of the following 400-level courses in analytical methods: GEOG 425 (5), GEOG 426 (5), GEOG 440 (5), GEOG 460 (5), GEOG 461 (5), or GEOG 471 (5).
  - Entering post-master's students who have already completed one of these courses or their equivalents need complete only one additional analytical methods course, subject to the approval of the Graduate Program Coordinator.
  - The completion of at least two departmental research seminars numbered 500 and above, but not including GEOG 502, GEOG 512, GEOG 513, GEOG 515 or other non-specialized seminars. This requirement may be satisfied if the two seminars were taken while earning an MA degree in this program.
  - Submission of a scholarly article to a professionally-reviewed academic journal; or successful application for research support from external agencies such as the National Science Foundation, the Social Sci-

ence Research Council, the Ford Foundation, or the Fulbright Commission. Additional writing credits may be earned by registering for GEOG 599. The publication may be jointly authored with a faculty member or other graduate student.

- A minimum grade of 3.0 must be earned in all geography courses, and a grade of 2.7 or higher must be obtained in all courses in related fields used to satisfy the doctoral degree credit requirement. Evidence of reading competence in one foreign language, or a sound level of competence in one cognate field of concentration as determined by the student's Supervisory Committee.
- A departmental written and oral preliminary examination, normally by the end of the third quarter in residence. Post-master's students seeking entry into the PhD program must take the departmental preliminary examination during their first year of enrollment. The preliminary examination, or designated parts, may be retaken once.
- Successful completion of a Graduate School general examination, normally held at the end of two years (six quarters) of study. The Supervisory Committee examines the student's qualifications and competency to undertake dissertation research, and evaluates the student's general training in geography and in the field of specialization. Normally, the oral examination is preceded by a written examination.
- Preparation and acceptance by the Dean of the Graduate School of a dissertation. The candidate is expected to register for a minimum of 27 credits of dissertation (GEOG 800) over a period of at least three quarters.

## Financial Aid

The department usually awards approximately 15 to 20 teaching assistantships for the academic year. Most of the assistantships are for teaching quiz sections for a larger lecture class. A few of the more advanced doctoral candidates may teach a class. Normally several research assistantships are also available. In recent years, approximately 85 percent of the department's graduate students have been funded by internal or external sources.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsct/](http://www.uw.edu/students/crsct/)

**GEOG 100 Introduction to Geography (5) I&S** Introduction to the study of human geography and the major themes of the discipline. Topics include: human-environment interactions, migration and human mobility, industrialization and urbanization, and the geography of culture and politics. Offered: AWSpS.

**GEOG 102 World Regions (5) I&S** Spatial study of world regions, based on historical, cultural, political, economic, and other factors. An attempt to understand the underlying forces that have led to the formation of regions and regional patterns.

**GEOG 111 Global Youth (5) I&S** Examines how a focus on young people might inform our understanding of key aspects of global social and political change. Students discuss the links between their own lives and those of students in other global contexts, with particular reference to health threats, environmental transformations, and educational change. Offered: jointly with SIS 111; W.

**GEOG 123 Introduction to Globalization (5) I&S Sparke** Provides an introduction to the debates over globalization. Focuses on the growth and intensification of global ties. Addresses the resulting inequalities and tensions, as well as the new opportunities for cultural and political exchange. Topics include the impacts on government, finance, labor, culture, the environment, health, and activism. Offered: jointly with SIS 123.

**GEOG 195 Special Topics in Geography (1-5, max. 10) I&S**

**GEOG 200 Introduction to Human Geography (5) I&S** Patterns and systems of human occupancy of the world. Emphasis on cultural processes, dynamic change, functional relations, networks, and diffusion models.

**GEOG 205 Introduction to Physical Sciences and the Environment (5) NW ZumBrunnen** Major atmospheric, hydrologic, and geomorphic processes used to interpret the character, distribution, and human significance of different natural and human-altered environments. Includes laboratory exercises for science and non-science majors, geography majors and nonmajors.

**GEOG 207 Economic Geography (5) I&S Beyers, Harrington** The changing locations and spatial patterns of economic activity, including: production in agriculture, manufacturing, and services; spatial economic principles of trade, transportation, communications, and corporate organization; regional economic development, and the diffusion of technological innovation. Offered: A.

**GEOG 208 Geography of the World Economy: Regional Fortunes and the Rise of Global Markets (5) I&S Ellis** Examines the relationship between the globalization of economic activity and regional development. Topics include international trade, colonialism, industrial capitalism, advanced capitalism, and the globalization of labor markets.

**GEOG 230 Urbanization and Development: Geographies of Global Inequality (5) I&S Lawson** Examines global to local interactions of economic, political, and social forces shaping urbanization and development processes across the globe. Provides an introduction to critical development studies, focusing on Latin America, Africa, and Asia. Also examines debates over the causes and geographic patterns of social inequality worldwide.

**GEOG 236 Development and Challenge in Greater China (5) I&S Chan** Studies the geography of development processes, patterns, and problems in "Greater China": mainland China, Taiwan, and Hong Kong. Covers physical geography, history, and economic and political systems, with major focus on geographical issues in China's development: agriculture, population, industry and trade, and relations with Hong Kong and Taiwan. Offered: jointly with SISEA 236.

**GEOG 245 Geographic Perspectives on U.S. Population Diversity (5) I&S Withers** Introduction to population geography. Offers a practical understanding of population processes (fertility, mortality, and migration); knowledge of geographic variation in population structures and characteristics; knowledge of data sources for demographic research; experience using formal demographic methods for geographic research; and an appreciation for the demographic underpinnings of contemporary social issues. Offered: W

**GEOG 258 Maps and GIS (5) I&S** Explores how people represent the world with maps and geographic information systems (GIS). Trains students in map use for basic navigation, urban management, and environmental analysis. Considers role of spatial databases in commerce, decision-making, and analysis. Helps map readers better determine quality, usefulness, and representation of information.

**GEOG 270 Geographies of International Development and Environmental Change (5) I&S** Considers the meaning of development and how debates over international development link to environmental concerns. Examines how the globalization of agricultural production and debates over genetically modified food alter ideas about development, nature, and the environment. Addresses fair trade policies and practices and the obligations of multinational corporations. Offered: A.

**GEOG 271 Geography of Food and Eating (5) I&S Jarosz** Examines food production, distribution, and consumption issues across geographic scales. Focus ranges from the microcosm of the individual body to food and eating at the national and global scales. Explores the political, social, cultural, and economic dimensions of food and eating in particular spaces, places, environments, contexts, and regions. Offered: Sp.

**GEOG 276 Introduction to Political Geography (5) I&S** *Brown* Examines both the geography of politics and the politics of geography at a variety of spatial scales and in different global locations. Typical topics include: geographies of the state and state power; geopolitics and globalization; national and local politics, and other politics of culture, health, nature, and the body.

**GEOG 277 Geography of Cities (5) I&S** *England* Explores the system of cities—their location, distribution, and functions; the internal structure of cities—the location of activities within urban areas, including housing, economic activities and social geography; and shed light on the major issues and problems facing contemporary urban society.

**GEOG 280 Introduction to the Geography of Health and Health Care (5) I&S** *Mayer* Concepts of health from a geographical viewpoint, including human-environment relations, development, geographical patterns of disease, and health systems in developed and developing countries.

**GEOG 295 Special Topics in Geography (1–5, max. 10) I&S**

**GEOG 301 Cultural Geography (5) I&S** *Brown* Analysis of the role of culture in the formation of landscape patterns; components of culture that contribute not only to a “sense of place,” but also to the mosaic of settlement patterns and occupancy that can be traced to culture.

**GEOG 302 The Pacific Northwest (3) I&S** *Beyers* Settlement pattern in the Pacific Northwest, emphasizing economic and historical factors, including the location of resource-oriented industries, policies regarding the use of public lands, and bases of the development of major urban areas in the region. Offered: W.

**GEOG 310 Immigrant America: Trends and Policies from a Geographic Perspective (5) I&S** *Ellis* Examines U.S. immigration trends and policies from a geographic perspective. Topics include where immigrants come from, where they settle in the United States, immigrant employment enclaves, the effects of U.S. immigration policy on immigrant settlement and employment patterns, illegal immigration, citizenship, and barriers to immigrant success in the United States.

**GEOG 315 Explanation and Understanding in Geography (5) I&S** *Brown* Covers the beginning steps in the research process. Introduces the discipline of geography, the department, and current faculty through the research aims of explanation and understanding that frame social scientific inquiry. Students develop basic library and writing skills as preparation for future research methods classes and independent research.

**GEOG 317 Geographic Information and Spatial Analysis (5) I&S** *Withers* Integrates geographic information systems and spatial data analysis, emphasizing the appropriate selection of methods, procedures for research design, and interpretation of findings. Topics include descriptive and inferential methods, spatial patterns and statistics, and correlation and spatial autocorrelation. Applications use SPSS and Arc-Map software. Offered: Sp.

**GEOG 326 Quantitative Methods in Geography (5) I&S** *Chan* Introduction to quantitative methods in geography, with a primary focus on statistical techniques. Examines the basic concepts, reasoning, and procedures geographers use in developing, analyzing, applying, and presenting quantitative methods. Topics include: generating and describing data; elementary probability, hypothesis testing, comparative tests; finding relationships; and using and misusing statistics. Offered: A.

**GEOG 330 Latin America: Landscapes of Change (5) I&S** *Lawson* Examines operation of economic, social, and political processes across countries of Latin America on international, national, and local scales to understand common issues facing the region and different impacts in particular countries. Topics include internationalization of Latin American economies; agrarian and urban change; popular movements. Offered: W.

**GEOG 331 Global Poverty and Care (5) I&S** *Lawson* Explores the causes and patterns of global poverty, and the urgent need for studies of care in both academic work and public policy. Considers the possibilities and challenges of car-

ing across distance, and ways to respectfully engage with people in different places.

**GEOG 333 Russia's Changing Landscape (5) I&S** *Zumb-runnen* The Russian landscape as it has been affected by Soviet planning, migration and settlement, urbanization, industrialization, the results of collectivization in agriculture, and the growth of a transport network.

**GEOG 335 Geography of the Developing World (5) I&S** Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Recommended: GEOG 100 or GEOG 230. Offered: jointly with SIS 335.

**GEOG 336 Development and Challenge in China (5) I&S** *Chan* Examines the geography of China's development since 1949. Introduces China's physical geography, history, and economic and political system. Emphasizes China's uneven development in agriculture, population, industry, and trade. Also examines problems China faces in meeting its internal food demand, as well as the external processes of globalization. Offered: W.

**GEOG 342 Geography of Inequality (5) I&S** *England* Geographies of social, political, and economic inequality. Focus is usually on North American cities. Examines the theoretical underpinning of inequality. Explores topics such as the spatial distribution of wealth and poverty, the geographies of exclusion, and discrimination in paid employment and housing.

**GEOG 344 Migration in the Global Economy (5) I&S** *Mitchell* Analyzes the relationship between human mobility in the late 20th century and changes in the global economy. Allows the students to gain familiarity with scholarly research on international migration from a diversity of approaches and methods. Offered: jointly with SIS 344; W.

**GEOG 349 Geography of International Trade (5) I&S** *Harrington* Introduces the theories and practice of international trade and foreign direct investment. Topics include: trade theory and policy; economic integration; currency markets and foreign exchange; trade operations and logistics; the international regulatory environment; and marketing, location and entry, and finance, accounting, and taxation. Offered: A.

**GEOG 350 Marketing and Retail Geographies (5) I&S** *Harrington* Introduction to the geography of retailing and consumer behavior. Focuses on methods of analyzing market areas at multiple scales. Reviews work in the cultural-geographic interpretation of retailing and marketing. Empirical examples focus on the United States and Great Britain, but additional international information is included. Offered: Sp.

**GEOG 360 Principles of GIS Mapping (5) I&S, QSR** *Elwood, Nyerges* Origins, development, and methods of cartographic mapping. Principles of data representation and map design for thematic mapping and spatial analysis. Introduction to principles of geographic information systems. Offered: ASP.

**GEOG 366 Introduction to Regional Economic Development (3/5) I&S** *Harrington* The process of regional economic development. Theories and conceptualizations of economic growth and structural change, technological change and industrial development, spatial variation in economic activities and government policies. Recommended: GEOG 207; ECON 201.

**GEOG 367 Economic Uses of Geographic Information (5) I&S** *Harrington* Uses of area data and the geographic information systems (GISs) that handle them in routing, marketing, service-area assessment, and site location. Considers key economic-geography concepts, marketing approaches, questions of data availability and suitability, and GIS. Prerequisite: GEOG 360.

**GEOG 370 Problems in Resource Management (5) I&S** *Zumb-runnen* Principles and practices of effective conservation and utilization of natural resources. Role of technology in resource use. Physical, political, and economic aspects of resource management for food, population, land, water, air,

energy, and timber resources. Recommended: GEOG 100. Offered: Sp.

**GEOG 371 World Hunger and Agricultural Development (5) I&S** *Jarosz* Addresses world hunger and poverty in relation to agricultural development, food security policy, the globalization of food and agriculture and social movements. Explores the problem and historical persistence of hunger across geographic scale and examines the debates about how hunger can be eradicated. Recommended: GEOG 230, GEOG 330, or GEOG 335.

**GEOG 372 Asian Sustainable Development (5) I&S** Examines the contemporary relationship between environmental protection and development paths in Asia. Inquires into the forces driving both environmental change and societal responses (state and local regulations, social movements, etc.) to that change, at many geographical scales. Asian concepts of nature-society relations also explored. Offered: jointly with SISA 372; W.

**GEOG 375 Geopolitics (5) I&S** *Sparke* An introduction to both political geography and geopolitics, addressing the fundamental links between power and space. Topics covered include: theories of power, space, and modernity; the formation of modern states; international geopolitics in the aftermath of the Cold War; the post-colonial nation-state; and the geopolitics of resistance. Offered: jointly with SIS 375.

**GEOG 377 Urban Political Geography (5) I&S** *Brown* Examines how the spatial structure of cities and towns affects and is affected by political processes. Considers both traditional and newer forms of politics, as global and local issues. Special attention paid to where politics take place within local contexts across state, civil society, home, and the body. Offered: Sp.

**GEOG 378 Policing the City (5) I&S** *Herbert* Investigates how and why formal and informal order is established in urban areas, how this order produces advantages and disadvantages, and possibilities of alternative visions of order. Topics include formal means of control (zoning, laws, policing, building codes) and informal means of control (gossip, ostracism, peer pressure, local politics). Offered: jointly with LSJ 378; A.

**GEOG 380 Geographical Patterns of Health and Disease (5) I&S** *Mayer* Geography of infectious and chronic diseases at local, national, and international scales; environmental, cultural, and social explanations of those variations; comparative aspects of health systems. Offered: W.

**GEOG 395 Special Topics in Geography (1–5, max. 10) I&S**

**GEOG 403 Modern European-Islamic Migration, Integration, and Citizenship (5) I&S** *Mitchell* Offers a theoretical and empirical understanding of migration processes and patterns in Europe, with a focus on Muslim immigration in the post WWII period. Analyzes the impact of European Union mandates, globalization processes, and international, national, and urban policies on Muslim immigrant rights and identity formation. Offered: A; jointly with EURO 403.

**GEOG 412 History of Geographic Thought (5) I&S** *Brown, Mitchell* Explores a series of historical positions and debates that have affected the discipline of geography over the past century. Includes colonial mappings, imperialism, development theory, environmental determinism, landscape and region, the quantitative revolution, historical materialism, and humanism. Offered: A.

**GEOG 425 Qualitative Methodology in Geography (5) I&S** *Jarosz* Historical and philosophical overview of qualitative methodology in design of geography research strategies. Techniques of interviewing, participant observation, and archival research. Forms of analyses such as textual interpretation, discourse analysis and computer-aided analyses of interview transcriptions and ethnography. Questions of ethics, field notes and write-up. Offered: W.

**GEOG 426 Advanced Quantitative Methods (5) I&S, QSR** *Withers* Introduces elementary spatial statistics and advanced statistical techniques in quantitative human geography. Methods reviewed include geographic applications of multiple regression analysis, spatial statistics and spatial

autocorrelation, geographically weighted regression, factor analysis, discriminant analysis, and logistic regression. Prioritizes the interpretation and application of methods. Prerequisite: GEOG 326. Offered: A.

**GEOG 430 Contemporary Development Issues in Latin America (5) I&S** Lawson Contemporary development issues in Latin America, seen from a spatial perspective. Concept of development; competing theories as related to various Latin American states. Economic structural transformation, migration, urbanization, regional inequality, and related policies. Offered: A.

**GEOG 431 Geography and Gender (5) I&S** Brown, Jarosz Examines theories and case studies across international, national, and regional scales in order to illustrate the impacts of social and economic processes upon the construction of gender in particular places. Offered: Sp.

**GEOG 433 Resource Use and Management in Russia and the Newly Independent States (5) I&S** ZumBrunnen Geographic and historical background of the natural resource base of Russia and the newly independent states. Geographic and historical perspectives on Soviet natural resource use and management in theory and practice. Implications of the breakup of the USSR for natural resource use and management. Offered: odd years; W.

**GEOG 435 Industrialization and Urbanization in China (5) I&S** Chan Examines the impacts of industrialization strategies adopted by the Peoples Republic of China on urbanization and rural-urban relations. Topics include: economic development strategies, industrial geography, rural industrialization, urban development patterns, migration, and urbanization policies. Recommended: GEOG 336. Offered: Sp.

**GEOG 436 Social and Political Geographies of South Asia (5) I&S** Introduces the social and political geographies of South Asia through reference to agrarian change in India. Outlines key concepts related to the reproduction of inequality in the region, particularly theories of caste, class, gender, and religious communalism, and examines the mechanisms through which these inequalities are reproduced in South Asia. Offered: jointly with SISSA 436, Sp.

**GEOG 439 Gender, Race, and the Geography of Employment (5) I&S** Ellis Focuses on the geography of employment for men and women of different racial and ethnic backgrounds in American cities. Presents evidence on labor market inequality for different groups and explanations of these differences. Emphasizes the importance of a spatial perspective in understanding employment outcomes for women and minorities.

**GEOG 440 Regional Analysis (5) I&S** Beyers Regional industrial structures and economic change. Application of shift-share, cohort, multiplier, input/output, and programming models to the analysis and projection of regional population and employment patterns, regional growth differentials, and regional impact analysis. Recommended: GEOG 207. Offered: Sp.

**GEOG 445 Geography of Housing (5) I&S** Withers Focuses on the geography of housing, especially in the United States. Topics include: the American dream of home ownership; housing affordability and differential access to home ownership; homelessness; the history of public housing; housing demography; residential mobility and neighborhood change, and discrimination in the housing market. Offered: Sp.

**GEOG 448 Geography of Transportation (5) I&S** Circulation geography, principles of spatial interaction emphasizing commodity flow, the nature and distribution of rail and water transport, the role of transport in area development.

**GEOG 449 Geography of Ocean Transportation (5) I&S** Geographic analysis of ocean trade routes, cargo and passenger flows, and port activities. Evaluation of the role of the transportation carrier in international trade.

**GEOG 461 Urban Geographic Information Systems (5) I&S** Elwood Use of geographic information systems to investigate urban/regional issues; focus on transportation, land-use and environmental issues; all urban change problems considered. GIS data processing strategies. Problem definition for GIS processing. Data collection, geocoding issues.

Data structuring strategies. Prerequisite: 2.0 in GEOG 360; recommended: GEOG 277. Offered: W.

**GEOG 462 Coastal Geographic Information Systems (5) QSR** Nyerges Combines lectures about fundamental concepts in geographic information systems with hands-on computer lab assignments about coastal environment-society issues. Coastal feature data measurement, characterization, and movement related to the land-water and environment society dynamic. Prerequisite: GEOG 360; may not be taken if credit received in GEOG 460. Offered: A.

**GEOG 464 GIS and Decision Support (5) I&S** Nyerges Combines lectures about geographic information systems and decision methods with hands-on computer assignments about regional and urban issues associated with such complex decisions processes as planning, improvement programming, and capital project implementation. Emphasizes land, transportation, and water resources decision problems. Prerequisite: GEOG 360. Offered: W.

**GEOG 465 GIS Database and Programming (5) I&S** Explores GIS database models, database development, and database management systems used in GIS. Uses programming languages most applicable to GIS database work, particularly related to extending current commercial GIS such as ArcGIS. Prerequisite: Prerequisite: either 2.0 in GEOG 460, 2.0 in GEOG 461, or 2.0 in GEOG 462. Offered: odd years; W.

**GEOG 466 Regional Economic Development (5) I&S** Harrington Provides a theoretical overview of sub-national, regional economic growth and structural change, including the roles of interregional interaction and international trade, technological change, social, and legal institutions. Emphasizes inter-regional disparities in the context of relatively wealthy countries. Explores the constraints and effectiveness of government (and other organizations') policy. Offered: W.

**GEOG 467 Law, Justice, and the Environment (5) I&S** Herbert Examines the role law plays in shaping environmental policy. Challenges student to understand how environmental concerns are translated into legal discourse, and covers several typical issues that emerge in environmental law. Centers on active discussions. Offered: jointly with LSJ 467.

**GEOG 469 Geographic Information Systems Workshop (5) I&S** Elwood, Nyerges Practical experience applying geographic information system (GIS) tools to analyze spatial data. Workshop format involves team-based work on GIS application project for community or university partners; diverse background encourages. Prerequisite: either a minimum grade of 2.0 in one of GEOG 461, GEOG 462, GEOG 464, or GEOG 465. Offered: Sp.

**GEOG 471 Methods of Resource Analysis (5) I&S** ZumBrunnen Economic and noneconomic criteria for resource analysis. Theory and methods of linear models of natural resource analysis. Includes materials-balance modeling, residuals management, constrained system optimization approaches to water quality analysis, land-use patterns and interregional energy use, and multiple objective planning techniques applied to natural resource problems. Recommended: GEOG 370.

**GEOG 474 Geography and the Law (5) I&S** Herbert Examines the relationship between geography, law, and socio-legal analysis; reviews significant instances where law and geography intersect, such as the regulation of public space, the regulation of borders and mobility, and disputes over property and land use. Offered: jointly with LSJ 474.

**GEOG 476 Women and the City (5) I&S** England Explores the reciprocal relations between gender relations, the layout of cities, and the activities of urban residents. Topics include: feminist theory and geography (women, gender, and the organization of space); women and urban poverty, housing and homelessness; gender roles and labor patterns; geographies of childcare; and women and urban politics. Offered: jointly with WOMEN 476.

**GEOG 477 Advanced Urban Geography (5) Brown** Geographic patterns and social processes within metropolitan areas. Canvases current research topics, methods, and theoretical

debates in urban geography. Issues covered range across urban economic, political, and cultural geography. Recommended: GEOG 277. Offered: Sp.

**GEOG 478 Social Justice and the City (5) I&S** Mitchell Provides a link between general theories of urban development and their specific manifestation in the U.S. Explores a series of themes related to contemporary urbanization processes, including urban segregation, gentrification, the rise of fortress cities, homelessness, and the loss of public space. Recommended: GEOG 277. Offered: Sp.

**GEOG 479 Race, Ethnicity, and the American City (5) I&S** Ellis Explores America's cities as sites where ethnic and racial interaction have generated specific patterns of opportunity and disadvantage in housing and labor markets; how ethnic identities and racial formations are changed by living and working in cities, and questions of assimilation, multiculturalism, and America's ethno-racial future.

**GEOG 480 Environmental Geography, Climate, and Health (5) I&S** Mayer Demonstrates and investigates how human-environment relations are expressed in the context of health and disease. Local and global examples emphasize the ways medical geography is situated at the intersection of the social, physical, and biological sciences. Examines interactions between individual health, public health, and social, biological, and physical phenomena. Prerequisite: either GEOG 280, GEOG 380, or GEOG 426. Offered: W.

**GEOG 482 GIS Data Management (5) I&S** Nyerges Examines the principles and application of geospatial database management software, including personal and enterprise geodatabase management solutions. Considers enterprise architectures for GIS relative to organizational size. Addresses collaborative uses of Internet, Intranet, and Extranet architectures. Offers case studies in database management, with a variety of dataset types and sizes. Offered: W.

**GEOG 490 Field Research: The Seattle Region (6) I&S** Elwood Field methods for contemporary urban research. Survey designs used in the analysis of transportation, land use, location of employment, shopping and housing, political fragmentation, and environmental degradation. Field report required, based on field work in the Seattle region.

**GEOG 493 Assessing Geographic Learning (2) Withers** Enables graduating geography majors to articulate and assess their academic development and professional readiness by examining ways of representing geographic skills and capabilities. Offered: Sp.

**GEOG 494 Senior Essay (3) I&S** Supervised individual research and writing of major paper during senior year. Offered: AWSp.

**GEOG 495 Special Topics (\*, max. 15) I&S** Topics vary and are announced in the preceding quarter. Offered: AWSpS.

**GEOG 496 Internship in Geography (3/5, max. 12)** Internship in the public or private sector, supervised by a faculty member. Credit/no credit only. Offered: AWSpS.

**GEOG 497 Tutorial in Geography (1-5, max. 15) I&S** Withers Intensive directed study and tutoring. Literature reviews, formulations of project outlines and research designs, orientation in contemporary geographic thought and trends. Directed writing. Required for honors students. Offered: AWSp.

**GEOG 498 Seminar in Economic Geography (5) I&S** Harrington Themes and debates within and between economic geography and regional science. . Offered: Sp.

**GEOG 499 Special Studies (\*, max. 15)** Supervised reading programs, undergraduate and graduate library and field research; special projects for undergraduate honors students. Offered: AWSpS.

**GEOG 500 Geographic Thought (5)** Explores key theoretical positions and debates that have affected Geography in recent decades, including colonial mappings, imperialism, development theory, environmental determinism, landscape and region, the quantitative revolution, historical materialism, and feminism. Examines ways that current positions both build upon and transform their historical antecedents.

**GEOG 502 Professional Writing in Geography (\*, max. 6)**

**GEOG 505 Spatial Dimensions of Chinese Development (5, max. 10)** *Chan* Addresses several major spatial topics critical to present-day China's development, including: population and land relationship, the spatial structures of economic activities and governments; rural-urban relations and transition; central-local relations; the hukou system; population mobility at different spatial scales, and urban centers. Offered: A.

**GEOG 511 Contemporary Research Design in Geography (5)** Reviews the key steps in designing and executing high-caliber independent research in geography. Students generate a research proposal that can further their own thesis or dissertation research.

**GEOG 512 History of Geographic Thought (5)** Historical development of modern geography. Emphasis on various philosophical and methodological debates in geography and the contexts from which they emerged. Investigates geography's foundational concepts and institutions; how they have responded to—and influenced—the world around them. Offered: A.

**GEOG 513 Research Grant Workshop (5, max. 10)** Writing research proposals. Participants learn to identify and approach sponsors; practice the peer-review process; develop a competitive research proposal. Prerequisite: GEOG 512 or GEOG 515 or equivalent; training and experience with quantitative, qualitative, or cartographic analysis; an already-formulated research project.

**GEOG 514 GIS Problem Solving (5)** *Nyerges* Introduces geospatial information technologies including geographic information systems, global positioning systems, remote sensing, and spatial decision support systems for addressing complex geospatial problems. Students gain an understanding of integrated data processing strategies including problem definition, database design, data collection, data structuring, data analysis, and information presentation. Offered: S.

**GEOG 515 Evidence and Explanation in Geography (5)** *Sparke* Introduces the main strands of philosophical debate shaping the discipline of human geography, including description, prediction, explanation, abstraction, structuration, representation, and institutionalization. Focuses on ways "theories" from outside the discipline have shaped the questions and concerns of geographers, and the ways geography reworks such theories. Offered: Sp.

**GEOG 520 Research Seminar: Geographic Information Representation (5)** *Nyerges* Current issues in geographic information representation for geographic information systems (GIS). Includes representation for visualization, databases, and analyses. Prerequisite: one course in GIS.

**GEOG 521 Research Seminar: Critical GIS (5)** *Elwood* Examines theoretical and methodological foundations and practices of critical GIS research; considers philosophical and practical considerations in mixed methods research that incorporates GIS and other spatial technologies. Offered: Sp.

**GEOG 526 Advanced Quantitative Methods in Geography (5)** *Morrill, Withers* Introduces elementary spatial statistics and advanced statistical techniques in quantitative human geography. Methods reviewed include geographic applications of multiple regression analysis, spatial statistics and spatial autocorrelation, geographically weighted regression, factor analysis, discriminant analysis, and logistic regression. Prioritizes the interpretation and application of methods. Prerequisite: GEOG 326 or equivalent. Offered: Sp

**GEOG 531 Latin American Development Seminar (5, max. 10)** *Lawson* Evolution of development theory in Latin America from a spatial perspective. Theories and development issues, using case studies from Latin America. How geographers have conceptualized development problems and solutions. Prerequisite: GEOG 430.

**GEOG 532 Rural Development Seminar (5, max. 10)** *Jaros* Contemporary issues in international development theory related to regional and agrarian change, with emphasis on Africa.

**GEOG 533 Research Seminar: Russia and the Newly Independent States (5, max. 10)** *ZumBrunnen*

**GEOG 536 Advanced Research Seminar on South Asian Geographies (5)** Examines geographies of social inequality in South Asia through reference to how space, place, and the environment are shaping practices of political struggle in the region. Considers how liberalization, democratization and religious communalization are changing the political geography of South Asia. Offered jointly with SISSA 536, Sp.

**GEOG 540 Research Seminar: Industrial Geography (5, max. 10)** *Beyers* Offered: W.

**GEOG 541 Research Seminar: Feminist Geographies (5)** *England* Explores major research themes in feminist geographies. Particular attention to the concept that gendered identities and spaces are discursively (re)produced. Emphasizes recent feminist scholarship that emphasizes difference, as well as the intersections between gender, "race," ethnicity, sexuality, age, nationality, class, and other social identities and divisions. Offered: jointly with WOMEN 541; W.

**GEOG 542 Research Seminar: Social and Population Geography (5, max. 10)** *Withers* Classic and contemporary theoretical and empirical research in social and population geography. Specific focus changes annually.

**GEOG 543 Research Seminar: Topics in Immigration, Ethnicity, and Race (5, max. 10)** *Ellis* Theoretical and empirical research issues in the geographies of immigration, ethnicity, and race. Specific focus changes annually.

**GEOG 544 Event History Analysis of Social and Spatial Change (5)** *Withers* Examines life course research using event-history analysis with applications to the substantive areas of household dynamics, family formation and dissolution, marriage, cohabitation, and divorce, migration histories, residential mobility, and housing careers. Examines continuous- and discrete-time longitudinal models during practical laboratory sessions.

**GEOG 553 Advanced Topics in Cultural Geography (5, max. 10)** *Mitchell* Focuses on important contemporary topics in cultural geography. Examines current theoretical debates in anthropology, sociology, geography, feminist criticism, and cultural studies as they relate to the landscape. Include critical questions surrounding issues of representation and ethnography. Designed to help student prepare for advanced fieldwork. Offered: Sp.

**GEOG 560 Principles of GIS Mapping (5)** Origins, development, and methods of cartographic mapping. Principles of data representation and map design for thematic mapping and spatial analysis. Introduction of principles of geographic information systems (GIS).

**GEOG 561 Urban Geographic Information Systems (5)** *Elwood, Nyerges* Uses geographic information systems to investigate urban/regional issues, including transportation, land use, environment, emergency response, and public health. Spatial data acquisition, structuring, management, and analysis in a GIS environment; for urban planning, government, and research applications. Prerequisite: 2.0 in GEOG 560 or permission of instructor. Offered: W.

**GEOG 562 Coastal Geographic Information Systems (5)** *Nyerges* Combines lectures about fundamental concepts in geographic information systems with methods in hands-on computer lab assignments about coastal environment-society issues. Includes coastal feature data measurement, characterization, and movement related to the land-water and environment-society dynamic. Prerequisite: GEOG 560 or equivalent. Offered: A.

**GIS 564 GIS and Decision Support (5)** *Nyerges* Combines lectures about geographic information systems and decision methods with hands-on computer assignments about regional and urban issues associated with such complex decision processes as planning, improvement programming, and capital project implementation. Emphasis on land, transportation, and water resource decision problems. Prerequisite: GEOG 560 or equivalent. Offered: W.

**GEOG 566 Research Seminar on Regional Economic Geography (5)** *Harrington* Provides the opportunity to read and discuss key articles on the theory and study of subnational, regional economic development in industrial and "post-

industrial" settings, to develop a research program, and to get feedback on research and writing.

**GEOG 567 Research Seminar: Geography and Economic Development (5, max. 10)** *Harrington* Explores ways in which economic and social changes affect the well-being and development of subnational, regional economies. Explanatory roles of such factors as labor and labor institutions, governments, technical change, corporations, capital markets, information costs, and international trade in the process of global restructuring. Specific focus changes annually.

**GEOG 569 Geographic Information Systems Workshop (5)** *Elwood, Nyerges* Practical experience applying geographic information system (GIS) tools to analyze spatial data. Workshop format involves team-based work on GIS application project for community or university partners; diverse background encourages. Prerequisite: either 2.0 in GEOG 561 or 2.0 in GEOG 562. Offered: Sp.

**GEOG 570 Research Seminar: Natural Resources Analysis (3, max. 6)** *ZumBrunnen*

**GEOG 572 Research Seminar: Queer Geographies (5)** *Brown* Explores the relationship between queer theory and critical human geography. Covers classic themes and debates, as well as new and emerging topics. Asks how geographic thought can be queered, as well as how queer studies can be augmented or critiqued with a geographical imagination. Offered: A.

**GEOG 573 Urban Political Geography: Research Seminar (5)** *Brown* Covers both classic and contemporary theoretical debates and research on the relation between power, place, and the local scale. Considers both conventional sites (e.g., the local state) as well as new forms and locations of city politics (e.g., sexuality and the body).

**GEOG 574 Research Seminar: Geography, Law, and Social Control (5)** *Herbert* Explores relationship between the construction and enforcement of law and the landscape of lived experience; reviews major approaches in socio-legal analysis and seeks to augment these with insights from contemporary human geography research; explores various ways in which geographical variance shapes legal behavior.

**GEOG 575 Advanced Political Geography (5)** *Sparke* Provides resources for theorizing how politics shapes and is shaped by geographical relationships. Examines how politics are situated in complex material and discursive geographies that are partly reproduced through political negotiations. Examines interrelationships of contemporary capitalism with other complex systems of social and political power relations. Offered: jointly with SIS 575.

**GEOG 577 Research Seminar: Internal Spatial Structure of Cities (4, max. 8)** *Brown* Offered: A.

**GEOG 578 Research Seminar: Theorizing the City (5)** *Ellis* Considers classic and contemporary writings in urban theory in the twentieth century, including social ecology (Chicago School), political economy, and contemporary theoretical debates in poststructuralism, deconstructionism, and culture as they relate to cities and space. Offered: W.

**GEOG 580 Medical Geography (3)** *Mayer* Geography of disease, consideration in health systems planning. Analysis of distributions, diffusion models, migration studies. Application of distance, optimal location models to health systems planning; emergency medical services; distribution of health professionals; cultural variations in health behavior. Prerequisite: familiarity with social science research; health-related issues. Offered: jointly with HSERV 586; W.

**GEOG 581 Seminar in Medical Geography (5, max. 10)** *Mayer* Intensive research seminar dealing with new and promising research themes in medical geography and public health. Offered: jointly with HSERV 585; A.

**GEOG 582 GIS Data Management (5)** *I&S Nyerges* Examines the principles and application of geospatial database management software, including personal and enterprise geodatabase management solutions. Considers enterprise architectures for GIS relative to organizational size. Addresses collaborative uses of Internet, Intranet, and Extranet ar-

chitectures. Offers case studies in database management, with a variety of dataset types and sizes. Offered: W.

**GEOG 588 Advanced Urban Ecology (5)** *ZumBrunnen* Discussion of current and important theoretical and empirical papers in urban ecology. Students continue to research interdisciplinary urban ecology projects while developing publishable manuscripts and oral presentations. Offered: jointly with CFR 588; AWSp.

**GEOG 598 Geography Colloquium (1, max. 3)** Participation in, and critique of, student thesis and dissertation research, faculty research, and visitor contributions. Offered: AWSp.

**GEOG 600 Independent Study or Research (\*)** Offered: AWSpS.

**GEOG 700 Master's Thesis (\*)** Offered: AWSpS.

**GEOG 800 Doctoral Dissertation (\*)** Offered: AWSpS.

## Germanics

### DEPARTMENT OVERVIEW

340C Denny

The Department of Germanics focuses on the language, literature, and civilization of the German-speaking countries; on the role of their history, literature, and philosophy in Western civilization; and on linguistic analysis, especially historic, of the Germanic languages.

### UNDERGRADUATE PROGRAM

#### Adviser

337 Denny, Box 353130

206-543-4580

[uwgerman@uw.edu](mailto:uwgerman@uw.edu)

The Department of Germanics offers the following programs of study:

- The Bachelor of Arts degree with a major in Germanics
- A minor in Germanics, plus an option in German linguistics

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* First- and second-year German or equivalent. Courses in Central European history, literature and culture. Courses on broad cultural topics offered by Germanics.

#### Department Admission Requirements

Admission to major status requires the completion of GERMAN 202 or equivalent.

#### Major Requirements

60 credits as follows:

- 20 Credits as follows: GERMAN 203, GERMAN 311, GERMAN 322, GERMAN 401
- Three 400-level courses in literature and culture (15 credits), chosen from the following: GERMAN 411, GERMAN 412, GERMAN 421, GERMAN 422, GERMAN 423, GERMAN 493, GERMAN 495
- 25 additional credits from any combination of the following courses, or additional courses from the list above. No more than 10 of these credits can be at the 200 level, and no more than 10 credits total in GERMAN 301, GERMAN 302, GERMAN 303, GERMAN 304, GERMAN 307, GERMAN 333, and GERMAN 334.
  - *Language:* GERMAN 301, GERMAN 302, GERMAN 303, GERMAN 304, GERMAN 333, GERMAN 334, GERMAN 498

- *Literature:* GERMAN 210, GERMAN 243, GERMAN 293, GERMAN 295, GERMAN 300, GERMAN 312, GERMAN 313, GERMAN 340, GERMAN 341, GERMAN 342, GERMAN 345, GERMAN 346, GERMAN 349, GERMAN 350, GERMAN 351, GERMAN 352, GERMAN 353, GERMAN 360, GERMAN 390, GERMAN 397, GERMAN 490, GERMAN 494, GERMAN 497
- *Culture:* GERMAN 323, GERMAN 355, GERMAN 370, GERMAN 371, GERMAN 399, GERMAN 499
- *Linguistics:* GERMAN 220, GERMAN 451, GERMAN 452, GERMAN 479
- *Other:* GERMAN 395/GERMAN 396 (4 credits max.), GERMAN 398, GERMAN 446 (5 credits max.), GERMAN 447 (5 credits max.)

A grade of at least 2.0 must be earned in every upper-division German course; an overall GPA of 2.50 is required for all German courses counted toward the major.

### Minor

#### Germanics

35 credits as follows:

- GERMAN 203, GERMAN 311, GERMAN 322
- 5 credits in 400-level coursework from either GERMAN 411, GERMAN 412, GERMAN 421, GERMAN 422, GERMAN 423, GERMAN 490, GERMAN 493, GERMAN 494, GERMAN 495, GERMAN 497, GERMAN 498, GERMAN 499, or from the courses listed below
- 15 additional credits from any combination of the following courses (no more than 10 credits may be taken from 200-level courses):
  - *Language:* GERMAN 301, GERMAN 302, GERMAN 303, GERMAN 304, GERMAN 307, GERMAN 333, GERMAN 334, GERMAN 401, GERMAN 498. (No more than 10 credits in GERMAN 301 through GERMAN 304, GERMAN 333, and GERMAN 334 can be counted toward the minor.)
  - *Literature:* GERMAN 210, GERMAN 243, GERMAN 293, GERMAN 295, GERMAN 300, GERMAN 312, GERMAN 313, GERMAN 340, GERMAN 341, GERMAN 342, GERMAN 345, GERMAN 346, GERMAN 349, GERMAN 350, GERMAN 351, GERMAN 352, GERMAN 353, GERMAN 360, GERMAN 390, GERMAN 397, GERMAN 411, GERMAN 412, GERMAN 421, GERMAN 422, GERMAN 423, GERMAN 490, GERMAN 494, GERMAN 495, GERMAN 497
  - *Culture:* GERMAN 323, GERMAN 355, GERMAN 370, GERMAN 371, GERMAN 399, GERMAN 493, GERMAN 499
  - *Linguistics:* GERMAN 220, GERMAN 451, GERMAN 452, GERMAN 479
  - *Other:* GERMAN 395/GERMAN 396 (4 credits max.), GERMAN 398, GERMAN 446 (5 credits max.), GERMAN 447 (5 credits max.)
- A minimum grade of 2.0 is required for each course counted toward the minor.

### German Linguistics

35 credits as follows:

- GERMAN 203; either GERMAN 311 or GERMAN 322; GERMAN 401; GERMAN 451; GERMAN 452
- Two additional courses (from any of the following):
  - *Language:* GERMAN 301, GERMAN 302, GERMAN 303, GERMAN 304, GERMAN 307, GERMAN 333, GERMAN 334, GERMAN 401, GERMAN 498
  - *Literature:* GERMAN 210, GERMAN 293, GERMAN 295, GERMAN 300, GERMAN 311 (if not used for requirement above), GERMAN 312, GERMAN 313, GERMAN 340, GERMAN 341, GERMAN 342, GERMAN 345, GERMAN 346, GERMAN 349, GERMAN

350, GERMAN 351, GERMAN 352, GERMAN 353, GERMAN 360, GERMAN 390, GERMAN 397, GERMAN 411, GERMAN 412, GERMAN 421, GERMAN 422, GERMAN 423, GERMAN 490, GERMAN 494, GERMAN 495, GERMAN 497

- *Culture:* GERMAN 322 (if not used for requirement above), GERMAN 323, GERMAN 355, GERMAN 370, GERMAN 371, GERMAN 399, GERMAN 493, GERMAN 499
- *Linguistics:* GERMAN 220, GERMAN 479, or courses from other departments offering linguistics
- *Other:* GERMAN 395/GERMAN 396 (4 credits max.), GERMAN 398, GERMAN 446 (5 credits max.), GERMAN 447 (5 credits max.)
- A minimum grade of 2.0 is required for each course counted toward the minor.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The department's objective is the dissemination of the intellectual and artistic traditions of the German-speaking countries. Toward this goal the department offers courses conducted not only in German but also in English on aspects of German culture and history for general humanistic education. The major in Germanics offers training in verbal interpretation and analysis useful for any career that involves formulating and solving problems, especially for those with some special interest in Europe and Germany. It provides excellent preparation for students planning to do graduate work in German literature or linguistics, and also for those who wish to teach German in K-12 settings. Stress is placed on the critical analysis of texts, both in English and in German, and the development of high proficiency in language fluency, grammar, and style. The major also accommodates students who wish to study the German-speaking countries and their culture in a broader context and encourages students to analyze various aspects of culture and society, such as literature, film, art, architecture, and political and social institutions.
- *Instructional and Research Facilities:* None
- Honors Options Available: With College Honors (Completion of Honors Core and Departmental Honors requirements). With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Undergraduates may count 5 credits of internship (conducted either here or in a German-speaking country) toward their major or minor in German. Students must sign up in GERMAN 446. A list of internships is available on the departmental Web page. They include local businesses and training sites, as well as internship options abroad. The Office of International Programs and Exchanges offers a number of different study abroad options for Austria and Germany. Students can consult their website at [www.ipe.washington.edu](http://www.ipe.washington.edu). The Department of Germanics offers a "Spring in Vienna" program. Students can consult the departmental website for more information, or pick up a brochure in the main office.
- *Department Scholarships:* The department's German Express program consists of a series of intensive courses able to take a student from no knowledge of German to fluency in one year. The best five students are awarded stipends of \$1,000 each to be applied toward study during spring quarter at a German university.
- *Student Organizations/Associations:* German Club.

*Of Special Note:* Qualified students are invited to take part in the department's Spring in Vienna program. Every spring quarter the department sends a group of approximately 20 students to Vienna to participate in a program of studies in German language and Austrian culture for which students

are able to earn 16 credits. Program costs are commensurate with in-state tuition at the University of Washington.

## GRADUATE PROGRAM

### Graduate Program Coordinator

240 Denny, Box 353130

206-543-4580

[uwgerman@uw.edu](mailto:uwgerman@uw.edu)

The graduate program in Germanics offers a broad, flexible, yet integrated curriculum that allows students to organize studies according to their inclinations and professional needs. Although based upon objectives common to all aspects of study (such as the acquisition of a body of learning, training in technical skills, and development of critical judgment), the program offers a background for different professional pursuits: careers as scholars and teachers in literature, cultural studies, the humanities, linguistics, and philology on the university level; the teaching of German language and civilization on the college and secondary school level; and professional writing, editing, and publishing. The master's curriculum requires a minimum of 40 credits, a critical MA paper, a textual analysis, and a final comprehensive examination. Study period of the doctoral program is two years (minimum number of post-master's course credits is 60). Completion of necessary coursework is followed by general written and oral examinations. A third doctoral year is reserved for writing the dissertation.

The MA and PhD programs concentrate on German literature, civilization, cultural history, and philosophical traditions, with an option to include Germanic linguistics and courses outside the department.

## Master of Arts

### Admission Requirements

An undergraduate major in German, or equivalent. Superior German language skills.

### Degree Requirements

- 40 hours of coursework as determined in consultation with adviser
- One critical MA paper
- Text analysis in one of the MA areas of expertise (see below)
- Written comprehensive examination in one of the MA areas

Areas of expertise for the MA in Germanics are literary history; intellectual history; cultural studies; and linguistics or applied linguistics.

Students must demonstrate foundational competency in three of the four areas of expertise. Evaluation of this expertise is based on three procedures: one comprehensive examination (based on the MA reading list); one text analysis (text selected by the MA committee from the MA reading list); one critical MA paper (based on work in a graduate seminar). Students choose the way these three evaluation procedures are distributed across their selected areas of expertise.

## Doctor of Philosophy

### Admission Requirements

Undergraduate major in German, or equivalent. Superior German language skills. Reading knowledge of a second foreign language (in addition to German) is required before the student is admitted to the PhD General Examination. Languages chosen are subject to approval by the department.

### Degree Requirements

90 credits, to include:

60 credit hours at the 500 level or higher (GERMAN 411, GERMAN 451, GERMAN 452, GERMAN 497, GERMAN 498, GERMAN 499 may be counted toward this requirement if not already counted toward the MA); knowledge of a foreign language other than German; one PhD paper and a dissertation prospectus (or three PhD papers); three written doctoral examinations; an oral examination; and a dissertation.

- The 60 hours of coursework are selected at the student's discretion with an eye toward developing distinct areas of specialization, though students are encouraged to define their areas broadly.
- *PhD paper:* The doctoral paper must be on file one year following successful completion of the MA examination. For students who arrive with the MA, the paper must be on file by December 15 in the second year of coursework.
- *Reading lists:* Guided by the PhD reading list, students prepare their own reading lists for each of the three doctoral examination areas in consultation with members of the PhD supervisory committee.
- Knowledge of a foreign language other than German, by completion of a literature course - with readings in the language and a grade of 3.0 or higher - or by standard examinations in the target language approved by the Graduate Program Coordinator, must be demonstrated.
- After students have completed the required 60 hours of coursework, met the language requirement, and had the dissertation prospectus approved they may register for 800-level coursework.
- Students write three 24-hour examinations at home, organized in consultation with the Supervisory Committee according to one of the following patterns: one period examination, one genre examination, one special topic examination; two period examinations, one genre examination; two period examinations, one special topic examination; one period examination, two special topic examinations (for students specializing in linguistics).

## Financial Aid

A limited number of teaching assistantships and fellowships are available. The teaching load consists of a five-hour course on the first- or second-year level. Teaching assistants are supervised by experienced faculty members.

*Detailed descriptions of courses are published by the Department of Germanics prior to registration each quarter.*

*Credit Restrictions: Students may receive credit for only one course in each of the following: 101, 111, and the first 5 credits of 104; 102, 111, and the second 5 credits of 104; 103 and the last 5 credits of 104. They may, however, receive credit for courses in different first-year sequences if the courses are taken in progressively more advanced order (e.g., the first 5 credits of 104 followed by 102 and 103). 100 is the equivalent of 101, 102, 103, or 15 credits of 104.*

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsat/](http://www.uw.edu/students/crsat/)

**GERMAN 100 Intensive First-Year German (15)** Accelerated first-year German. Speaking and listening. Secondary objectives are reading and writing.

**GERMAN 101 First-Year German (5)** The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. (Can not be taken for credit if German is language of admission). First in a sequence of three. Prerequisite: score of 0–11 on GER TL placement test if German is language of admission.

**GERMAN 102 First-Year German (5)** The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. Second in a sequence of three. Prerequisite: either GERMAN 101 or score of 12–35 on German placement test.

**GERMAN 103 First-Year German (5)** The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. Third in a sequence of three. Prerequisite: either GERMAN 102, GERMAN 111, or score of 36–56 on German placement test.

**GERMAN 104 Individualized First-Year German (1–15, max. 15)** Individualized approach to elementary German instruction. Students progress at their own pace. Number of credits vary. Depending upon amount of material mastered, any number of credits up to 15 may be earned per quarter. (Note: If German is the student's language of admission, only 10 credits count towards graduation.) Credit/no credit only.

**GERMAN 111 Basic German Review (5)** Includes the curriculum of GERMAN 102, preceded by a review of GERMAN 101. Designed for students with a background in German. Awards credits for GERMAN 102. Cannot be taken for credit if student has already taken GERMAN 102, 103, or more advanced courses.

**GERMAN 121 First-Year Reading German (5)** Special beginning course devoted exclusively to the reading objective.

**GERMAN 122 First-Year Reading German (5)** Special beginning course devoted exclusively to the reading objective; 122 continuation of 121.

**GERMAN 150 Conversational German Through Films (2, max. 6)** Conversational practice in small groups based on films. Because series progresses through the year, beginners may enroll only Autumn Quarter. May be taken concurrently with other Germanics courses. Cannot be taken for credit if 250 previously taken.

**GERMAN 190 Crime Scenes: Investigating the Cinema and Its Cultures (5) VLPA Ames, Nestingen** Teaches how to analyze film by closely studying crime scenes from historical and contemporary German and Scandinavian cinema. Directors studied include Fritz Lang, Carl Th. Dreyer, Billy Wilder, and Lars von Trier. Offered jointly with SCAND 190.

**GERMAN 195 Popular Film and the Holocaust (5) VLPA Block** Introduces films about the Holocaust with particular emphasis on popular films. Develops the requisite tools for analyzing films, a historical perspective of the Holocaust, and the problems involved in trying to represent a historical event whose tragic dimensions exceed the limits of the imagination. Offered: jointly with SISJE 195.

**GERMAN 199 Supervised Study (1–10, max. 10)** Study in German language and culture.

**GERMAN 200 Intensive Second-Year German (15) VLPA** Accelerated second-year German. Systematic review of German grammar. Intensive practice in conversation, reading and writing. Recommended: GERMAN 103.

**GERMAN 201 Second-Year German (5) VLPA** Systematic review of German grammar. Intensive practice in conversation, reading, and writing. First in a sequence of three. Recommended: GERMAN 103.

**GERMAN 202 Second-Year German (5) VLPA** Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Second in a sequence of three. Recommended: GERMAN 201.

**GERMAN 203 Second-Year German (5) VLPA** Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Third in a sequence of three. Recommended: GERMAN 202.

**GERMAN 210 Classics of German Literature and Thought (5) VLPA** Introduction to major figures of German culture from the Reformation to the present, their contribution to the intellectual life of the Western world. Luther, Kant, Goethe, Schopenhauer, Marx, Freud, Nietzsche, Kafka, Brecht, and Mann. In English.

**GERMAN 220 Origins of the Germanic Languages (5) VLPA** Introduction to basic grammatical concepts, terminology, and linguistics with emphasis on German-English relationship. Overview of phonology, morphology, syntax, and history of Germanic languages and people, both ancient and modern. Languages covered include Old, Middle, and New High German; English, Frisian, Dutch, Old Saxon, and Gothic. Taught in English. Offered: jointly with LING 220.

**GERMAN 221 The German Express: Second Year (10) VLPA** Combines in one quarter the contents of 201 and 202, with special emphasis on reading and speaking skills. Limited to students who have demonstrated exceptional skills in first-year German. Recommended: GERMAN 103.

**GERMAN 230 Conversational German (5) VLPA** Recommended: GERMAN 103.

**GERMAN 243 Fairy Tale and Fantasy (5) VLPA** Studies of the Grimm brothers' fairy tales, their reception in different cultural frameworks, and their influence on fantasy literature from the nineteenth century to the present, including discussions of their sociological, psychological, and psychoanalytical implications and gender issues. In English.

**GERMAN 250 Advanced Conversational German Through Films (2, max. 6) VLPA** Conversational practice in small groups based on films. May be taken concurrently with other Germanics courses. Recommended: GERMAN 103 and GERMAN 150.

**GERMAN 293 Introduction to Contemporary German Culture (5) I&S/VLPA** Introduction to culture of today's German-speaking world through readings from various media and discussion of diverse manifestations of both high and popular culture, its underlying beliefs and values, and its institutions and historical background. Readings and discussions in English.

**GERMAN 295 The Contributions of German Jews to German Culture (5) I&S/VLPA** Contribution, assimilation and alienation of German-speaking Jews—such as Karl Marx, Sigmund Freud and Franz Kafka—emphasizing the multicultural nature of that which is understood as “German culture.” Offered: jointly with SISJE 295.

**GERMAN 299 Supervised Study (1–5, max. 10)**

**GERMAN 300 Studies in Germanics (5, max. 15) VLPA** Topics or figures of German literature or language.

**GERMAN 301 Conversation and Writing Skills (3–5) VLPA** Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Recommended: GERMAN 203.

**GERMAN 302 Conversation and Writing Skills (3–5) VLPA** Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Recommended: GERMAN 301.

**GERMAN 303 Conversation and Writing Skills (3–5) VLPA** Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Recommended: GERMAN 302.

**GERMAN 304 Contemporary German Play (5, max. 15) VLPA** Reading, analysis, and performance of one play by a contemporary German author. Taught in German. Performance scheduled for last week of quarter. Prerequisite: GERMAN 203.

**GERMAN 311 Introduction to German Literary Studies (5) VLPA** Introduction to major critical concepts and basic methodological issues of literary studies. Diverse reading strategies plus special emphasis on analytical writing about literature. Readings from eighteenth- to twentieth-century literature. Recommended: GERMAN 203.

**GERMAN 312 Historical Approaches to German Literature (5) VLPA** German literature from the Middle Ages to the present: Medieval Courtly period, Baroque, Enlightenment, *Sturm und Drang*, Classicism, Romanticism, Realism, Neoromanticism, Expressionism. Recommended: GERMAN 311.

**GERMAN 313 Major Figures of German Literature (5) VLPA** Focus on major figure such as Goethe, Schiller, Kleist, Fontane, Thomas Mann, Kafka. Emphasis on his/her cultural

and sociopolitical contexts. Literary and nonliterary texts, including film, art, political, historical, and philosophical texts. Recommended: GERMAN 203; either GERMAN 311 or GERMAN 312.

**GERMAN 322 Introduction to German Cultural Studies (5) VLPA** Questions addressed include: What is “German culture,” how has it been defined and contested, and how and why do we study it? Interdisciplinary methods and readings. Recommended: GERMAN 203;

**GERMAN 323 Institutions and Their Ideas (5) I&S/VLPA** Analysis of central institutions of contemporary Germany in their historical development. Recommended: GERMAN 203; either GERMAN 311 or GERMAN 312; GERMAN 322.

**GERMAN 330 Conversational German (3–5) VLPA** For participants in special summer programs only.

**GERMAN 333 Business German 1 (5) VLPA** Introduction to the language and practices of German business. Recommended: GERMAN 203.

**GERMAN 334 Business German 2 (5) VLPA** Introduction to the language and practices of German business. Recommended: GERMAN 203.

**GERMAN 340 Friedrich Nietzsche in English (5) I&S/VLPA** Analysis of Friedrich Nietzsche's chief works and the discussion of his position within modern German literature and thought.

**GERMAN 341 Franz Kafka in English (5) VLPA** Short stories and novels of Franz Kafka; emphasis on philosophical relevance and esthetic significance.

**GERMAN 342 Thomas Mann in English (5) VLPA**

**GERMAN 345 Bertolt Brecht in English (5) VLPA**

**GERMAN 346 The Contemporary German Novel in English (5) VLPA** Major novels of the postwar period (1945 to present) discussed in their historical context.

**GERMAN 349 Goethe in English (5) VLPA** Selected major works (especially *Faust*) of Goethe, whose literary, philosophical, and scientific achievements are examined as integral parts of his quest for meaning, wholeness, and universality, and whose impact on Western thinking is traced up to Thomas Mann and C. G. Jung.

**GERMAN 350 The German Drama in English (5) VLPA** German drama from the eighteenth to the twentieth centuries. German history and culture as reflected in the plays. Discussion of major themes.

**GERMAN 351 Vienna 1900 in English (5) I&S/VLPA** Interdisciplinary study of Vienna at the turn of the century. Discussion of literary texts with emphasis on other intellectual and cultural trends of this very rich and complex period.

**GERMAN 352 Literature and Society in Weimar and National Socialist Germany in English (5) I&S/VLPA** Literature, theater, and film, with adjunct consideration of art and architecture, in relation to the German social and cultural situation circa 1918 to circa 1947.

**GERMAN 353 Postwar Germany (5) I&S/VLPA** Study of culture, society, and politics in Germany since 1945. Readings include literary and nonliterary texts devoted to culture and everyday life. In English.

**GERMAN 355 German Literature and Film in English (5) VLPA** Relationship between literature and film in the German tradition. Content varies; focus may be on a particular time period, director, or theme. Special attention paid to developing critical and analytical skills.

**GERMAN 356 Pagan Germany: Myth, Religion, Folklore in English (5) I&S/VLPA** History and culture of the German peoples before and during the conversion to Christianity. Readings include Tacitus's *Germania* and other historical sources, *Beowulf*, *Nibelungenlied*, *Grimm's Fairy Tales*, and German legends. Treatment of archaeological finds and a variety of materials that bear on religion, prophecy, magic, folk customs, and festivals.

**GERMAN 360 Women in German Literature in English (5) I&S/VLPA** Investigates the changing social roles of women

in German society on the example of various literary texts from different periods.

**GERMAN 370 History of German Cinema (5) I&S/VLPA** History of German cinema emphasizing the cultural and political contexts. Films by Lang, Murnau, Riefenstahl, and Fassbinder, among others. Readings and discussions in English.

**GERMAN 371 Special Topics: German Cinema (5, max. 10) VLPA** Covers one or more German film directors, a specific genre, or a chosen theme. Topics vary. Readings and discussions in English.

**GERMAN 390 Germanic Studies in English (5, max. 15) VLPA** Topics or figures of German literature or language.

**GERMAN 395 Proctoring of First-Year German Film Course (2, max. 6) VLPA** Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in 150. Leaders may participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in 3 quarters. Credit/no credit only. Recommended: GERMAN 203.

**GERMAN 396 Proctoring of Second-Year German Film Course (2, max. 6) VLPA** Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in 250. Leaders may participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in three quarters. Credit/no credit only. Recommended: GERMAN 303; either GERMAN 322 or GERMAN 323.

**GERMAN 397 Foreign Studies in German Literature (1–6, max. 15) VLPA**

**GERMAN 398 Foreign Studies in German Language (1–6, max. 15) VLPA**

**GERMAN 399 Foreign Studies in German Culture (1–6, max. 15) I&S/VLPA**

**GERMAN 401 Advanced Writing and Conversation (3–5) VLPA** Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. First in a sequence of three. Recommended: GERMAN 303.

**GERMAN 402 Advanced Writing and Conversation (3–5) VLPA** Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Second in a sequence of three. Recommended: GERMAN 303.

**GERMAN 403 Advanced Writing and Conversation (3–5) VLPA** Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Third in a sequence of three. Recommended: GERMAN 303.

**GERMAN 406 Intensive Elementary Yiddish (5–15, max. 15)** Intensive study of Yiddish grammar, with oral and written drills and reading of selected texts.

**GERMAN 411 Studies in Medieval Literature and Culture (5) VLPA** Rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 412 Studies in Renaissance and Baroque Literature and Culture (5) VLPA** Rotating special topics in literature and culture of the Renaissance and Baroque, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 421 Studies in Eighteenth-Century Literature and Culture (5) VLPA** Rotating special topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 422 Studies in Nineteenth-Century Literature and Culture (5) VLPA** Rotating special topics in literature

and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 423 Studies in Twentieth-Century Literature and Culture: (5) VLPA** Rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 430 Advanced Conversational German (3–5, max. 10) VLPA** For participants in special summer programs only. Cannot be taken for credit to those who have already taken 401, 402, or 403.

**GERMAN 444 Undergraduate Thesis in Germanics (5) VLPA** Supervised research leading to the writing of a research thesis.

**GERMAN 446 Internships and Service Learning (2–5, max. 10)** Prerequisite: 6 credits of upper-level German language courses. Credit/no credit only.

**GERMAN 447 Undergraduate Research (1–5, max. 15)** Supervised research with faculty member.

**GERMAN 451 Linguistic Analysis of German (5) VLPA** Recommended: GERMAN 203

**GERMAN 452 History of the German Language (5) VLPA** Traces the history of the German language from early Germanic to the present. Recommended: LING 200 and GERMAN 203 Offered: jointly with LING 415.

**GERMAN 479 Special Topics in the Teaching of Foreign Languages (3, max. 9) VLPA** Intensive workshop for in-service and pre-service teachers of all foreign languages on some aspect of foreign-language teaching methodology.

**GERMAN 490 Contemporary German Literature (5) VLPA** Interpretation of selected works by contemporary German authors. Recommended: GERMAN 303; either GERMAN 311 or GERMAN 312.

**GERMAN 493 Special Topics in German Culture (5) I&S/ VLPA** Recommended: GERMAN 303; either GERMAN 322 or GERMAN 323.

**GERMAN 494 Studies in German Poetry (5) VLPA** Introduction to various methods of analysis and interpretation. Recommended: GERMAN 303; either GERMAN 311 or GERMAN 312.

**GERMAN 495 Proseminar in German Literature (5, max. 15) VLPA** Special topics, the subject matter and depth of which are not included in other literature courses, arranged through consultation among students and faculty members.

**GERMAN 496 History of Germanic Philology (5) VLPA** Introduction to the works of outstanding scholars in the field of Germanics.

**GERMAN 497 Studies in German Literature (1–6, max. 15)**

**GERMAN 498 Studies in the German Language (1–6, max. 15)**

**GERMAN 499 Studies in German Culture (1–6, max. 15)**

**GERMAN 500 Literary Theory, Methodology, and Bibliography (5)** Historical survey and analysis of criticism (*Methodengeschichte*) and modern trends in contemporary theory. Methods of research and bibliography, as well as theoretical aspects of practical interpretation.

**GERMAN 501 Proseminar in Methods and Writing (5)** Introduction to research methods, presentation of research, scholarly writing, and general poetological issues. Each year a different special topic is chosen as a focus for students' research in the course.

**GERMAN 503 Contemporary German Literature (5, max. 15)** Seminar analyzing the esthetic movements and thought of contemporary German literature, the social and political problems dealt with in the works of representative authors, and major experimental concepts. Some previous exposure to the German literature and civilization after 1945 is expected.

**GERMAN 504 Special Studies in Literary Criticism and Theory (5, max. 15)** Literary criticism and theory, focusing on special topics proposed by the instructor. Taught in English. Prerequisite: GERMAN 500 or equivalent.

**GERMAN 510 Studies in Medieval Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems.

**GERMAN 511 Studies in Renaissance and Baroque Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the Renaissance and Baroque, such as particular movements, authors, genres, themes, or problems.

**GERMAN 512 Studies in Eighteenth-Century Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems.

**GERMAN 514 Studies in Nineteenth-Century Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems.

**GERMAN 516 Studies in Twentieth-Century Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems.

**GERMAN 518 Foreign Language Teaching Methodology (2)** *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with NEAR E 518/ SCAND 518/SLAV 518.

**GERMAN 525 Seminar in Romanticism (5, max. 15)**

**GERMAN 526 Seminar in Nineteenth-Century Drama (5, max. 15)**

**GERMAN 527 Seminar in Nineteenth-Century Prose (5, max. 15)**

**GERMAN 528 Nineteenth-Century Poetry (5, max. 15)** Representative selections from Holderlin, the late Goethe, and from prevalent trends in nineteenth-century poetry, such as romanticism, "Young Germany," poetic realism, and the experimental poetry of naturalism.

**GERMAN 529 Studies in Literature 1870–1920 (5, max. 15)** Seminar on rotating special topics drawn from the period 1870–1920, such as particular movements, authors, genres, themes, or problems.

**GERMAN 533 Seminar in Eighteenth-Century Literature (5, max. 15)** Study of one or more of the literary movements: Enlightenment, sentimentalism, anacreontics, storm and stress, classicism, early romanticism, and works by principal authors such as Gottsched, Bodmer, Gellert, Lessing, Wieland, Klopstock, Herder, Lenz, Goethe, Schiller, Jean Paul.

**GERMAN 534 Storm and Stress (5, max. 15)** Extensive investigation of poetological and esthetic concepts advanced by initiators and exponents of German storm and stress. Analyses of narrative and dramatic works of storm and stress reveal reflections and implementations of the new theoretical concepts.

**GERMAN 535 Classicism: Goethe, Schiller (5, max. 15)**

**GERMAN 537 Studies in Literature 1770–1830 (5, max. 15)** Seminar on rotating special topics drawn from the period 1770–1830, such as particular movements, authors, genres, themes, or problems.

**GERMAN 540 Twentieth-Century Poetry (5, max. 15)** Development of German poetry from Rilke, Hofmannsthal, and George through Trakl, Benn, the Expressionists and the Dadaists, Brecht, and Enzensberger, to such contemporaries as Eich, Heissenbuttel, the concrete poets, Celan, and Bachmann.

**GERMAN 541 Twentieth-Century German Drama (5, max. 15)** Selection from modern German drama representative

of the concern with the human condition, of social criticism, and of experimentation with the new dramatic forms.

**GERMAN 542 Twentieth-Century Prose (5, max. 15)** Selected modern German novels, short novels, and short stories by representative authors dealing with the social and political problems of Germany as well as with individual problems of existence and identity.

**GERMAN 550 Gothic (5)**

**GERMAN 551 Seminar in Germanic Philology and Linguistics (5, max. 15)** Topics vary. Prerequisite: basic knowledge of German and at least one elementary linguistics course.

**GERMAN 552 Old High German (5)**

**GERMAN 555 Old Saxon (5)**

**GERMAN 556 Middle High German (5)**

**GERMAN 558 Middle High German Literature (5)**

**GERMAN 560 Modern Dialects (5)**

**GERMAN 565 Seminar in Courtly Epic (5)** Aspects and methods of literary analysis pertaining to the study of medieval courtly epics.

**GERMAN 566 Late Middle High German Narrative (3)**

**GERMAN 567 Minnesang (3)** In-depth study of medieval German lyrics in the context of German and European literary and intellectual development. Poems of the period from Kurenberger through Walther are analyzed with stress on grammatical, formal, stylistic, and ideological interpretation. Prerequisite: adequate knowledge of Middle High German.

**GERMAN 568 Seminar in Heroic Epic (5)** Literary and historic problems of the German heroic epic, with special emphasis on the *Nibelungenlied* and the *Dietrichsepik*.

**GERMAN 575 Teaching of German Literature and Civilization (5)** Teaching of German language and literature on the advanced level in secondary schools and colleges. Credit/no credit only.

**GERMAN 576 Modern Methods and Materials in Teaching German (3)** Theory and practice of communicative language teaching; current developments in foreign-language teaching; evaluation of teaching materials. Credit/no credit only.

**GERMAN 577 Principles of Second Language Learning (2)**

**GERMAN 580 Seminar in German Literature (5, max. 15)** Open topics seminar with varying content.

**GERMAN 581 Seminar in Poetry (5, max. 15)** Open topics seminar with varying content.

**GERMAN 582 Seminar in Drama (5, max. 15)** Open topics seminar with varying content.

**GERMAN 583 Seminar in Prose (5, max. 15)** Open topics seminar with varying content.

**GERMAN 590 Philosophical Issues in German Culture (5, max. 15)** Seminar on rotating special topics dealing with the impact of particular thinkers, movements, or philosophical problems in German culture.

**GERMAN 591 Studies in German Intellectual History (5, max. 15)** Seminar on rotating special topics dealing with interactions of history, literature, and culture in the German tradition.

**GERMAN 592 Cultural Studies (5, max. 15)** Seminar on rotating special topics dealing with periods, themes, or particular problems in German life and culture.

**GERMAN 600 Independent Study or Research (\*)**

**GERMAN 700 Master's Thesis (\*)**

**GERMAN 800 Doctoral Dissertation (\*)**

# History

## DEPARTMENT OVERVIEW

315 Smith

History undertakes the study of human affairs in a manner that seeks to understand change and development rather than the state of things at a given moment, taking into account societies in diverse parts of the world from the earliest times for which written records exist to the present.

## UNDERGRADUATE PROGRAM

### Adviser

318 Smith, Box 353560

206-543-5691

[histadv@uw.edu](mailto:histadv@uw.edu)

The Department of History offers the following programs of study:

- The Bachelor of Arts degree with a major in history
- The Bachelor of Arts degree with a major in the history and philosophy of science, offered jointly with the Department of [Philosophy](#)
- Minors in history and history of science

## Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Courses that develop writing skills.

### Department Admission Requirements

- Minimum college/university GPA of 2.00.
- Completion of 10 credits of college history with a minimum cumulative GPA of 2.50.
- Completion of 10 credits of composition/writing courses with a minimum grade of 2.0 for each course. The requirement may be met by a freshman English composition course or a "W" course.
- Students may apply to the major at any time in the quarter. Transfer students must be enrolled at the UW before applying.

### Major Requirements

60 credits, to include:

- At least one 5-credit "broad" course (as designated by the department) in each of the following fields: European, United States, and non-Western history (any area outside Europe, the United States, and Canada)
- At least 10 credits in pre-modern history and 10 credits in modern history (as designated by the department)
- At least 30 upper-division credits completed in residence at the UW
- 5 credits of HIST 388, to be completed no later than within two quarters of declaring the major
- 5 credits of undergraduate senior seminar (as designated by the department)
- Beyond the required subjects, the student may or may not specialize, depending upon personal interests and career plans.
- A minimum GPA of 2.25 for all history courses and minimum grade of 2.0 in all history courses taken to fulfill requirements for the major.

## Minor

### Minor Requirements:

*History:* 30 credits of history, of which 20 must be upper-division, with a minimum grade of 2.0 in each course applied

toward the minor. A minimum of 15 of the 20 upper-division credits must be completed in residence at the UW.

*History of Science:* 25 credits, including HIST 311, HIST 312, HIST 390, and HIST 490; plus one course from HIST 215, HIST 310, HIST 313, HIST 315, HIST 316, HIST 317, HIST 318, HIST 412, HIST 498 (when topic is relevant), MHE 401, MHE 422, MHE 424. A minimum grade of 2.0 is required in each course.

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of history enhances critical thinking and writing skills. It is a creative process in which students learn to use arguments and evidence to communicate a sound historical thesis. It is a liberal arts degree that encourages students to become well rounded, educated people. Graduates are prepared for a variety of careers in many professions and businesses. In addition to teaching, research, and museum and archives work, recent graduates have pursued careers as political lobbyists, journalists, and law enforcement officers. Many history majors pursue, and are well prepared for, further education and professional programs such as medicine, law, library science, and museum curatorship.
- *Instructional and Research Facilities:* The department funds a writing center for students enrolled in history courses. The department also has a small computer lab available for history majors.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* The department encourages students to participate in internships that include historical elements. Students work with a sponsoring organization and a history faculty member. See adviser for details.
- *Department Scholarships:*
  - *The Faye Wilson Scholarship* is awarded to students emphasizing U.S. history and the *Schwartz Fellowship* to students pursuing historical study of a non-western civilization. The *Freedman Remak Scholarship* is awarded to non-resident history majors based on academic merit.
  - History majors may compete for two paper prizes: *The Thomas Power Prize* for papers written in a history course during the last year, and the *York/Mason Award* for history papers written on African Americans in the West.
  - The *Millican Fund* and the *Willstadter Snow-Smith Award* provide funding for travel in the course of historical research.
  - In addition, the department allows students to nominate their high school history teacher for the *Pressly Prize*, which honors excellence in education.
  - Scholarship and prize competitions run in February and March of each year. See adviser for details.
- *Student Organizations/Associations:* Phi Alpha Theta, a history honors society. See adviser for details.

## GRADUATE PROGRAM

### Graduate Program Coordinator

206C Smith, Box 353560

206-543-8291

[histgrad@uw.edu](mailto:histgrad@uw.edu)

The Department of History offers graduate training leading to the Master of Arts and Doctor of Philosophy degrees in a large number of fields within the discipline. Students in the programs prepare for careers as college teachers

who combine teaching with scholarship and professional writing. A few graduates enter government service, college administration, or publishing. The MA program is normally completed in five or six full-time academic quarters or their equivalent.

## Master of Arts

### Admission Requirements

- Completion of a strong undergraduate program in history, ordinarily as a history major.
- Usually a minimum GPA of 3.50 (A-), particularly in history and related subjects, and especially in the final two years of work, and in graduate work if any graduate studies have been completed prior to application.
- Ordinarily a score in the 80th percentile or higher on the verbal portion of the General Aptitude Test of the Graduate Record Examination (GRE).
- Evidence of genuine intellectual ability and interest beyond the routine performance of academic tasks.
- Reading knowledge of at least one language in addition to English is required for all graduate degrees. It is not a requirement for admission to the graduate program, but qualified applicants with knowledge of at least one foreign language may be favored over those who lack such knowledge. Moreover, and applicant who proposes to work for a degree in Greek, Roman, European, Russian, Medieval, Modern European, Latin American, Middle Eastern, or Asian history is expected to have begun to acquire a working knowledge in the foreign languages essential to research in the field.

### Degree Requirements

In addition to Graduate School requirements, 36 credits minimum, as follows:

- Submission of [proposed course of study: Two-field MA](#) form or proposed course of study, as appropriate. This requirement must be met no later than the end of the second quarter of graduate study.
- Official establishment of the MA committee and submission of the [request for establishing a master's supervisory committee form](#). This requirement must be met no later than the end of the third quarter of graduate study.
- Successful completion of all language requirements. This requirement must be satisfied no later than the quarter immediately preceding the quarter in which the student expects to complete the master's degree.
- Demonstrate by written examination mastery of a substantial body of historical knowledge. Students are expected to construct their fields of study in consultation with their supervising faculty.
- Satisfactory completion of a graduate seminar which entails the preparation of a research seminar paper; or the satisfactory completion of an MA thesis. Most seminars are two- or three-quarter classes.
- Official submission of an application for the degree.
- All Graduate School requirements.

## Doctor of Philosophy

### Admission Requirements

- Completion of a strong master's program in history, or a closely related field.
- Usually a minimum GPA of 3.50 (A-), particularly in history and related subjects.
- Ordinarily a score in the 80th percentile or higher on the verbal portion of the General Aptitude Test of the Graduate Record Examination (GRE).
- Evidence of genuine intellectual ability and interest beyond the routine performance of academic tasks.

- Reading knowledge of at least one language in addition to English is required for all graduate degrees. It is not a requirement for admission to the graduate program, but qualified applicants with knowledge of at least one foreign language may be favored over those who lack such knowledge. Moreover, an applicant who proposes to work for a degree in Greek, Roman, European, Russian, Medieval, Modern European, Latin American, Middle Eastern, or Asian history is expected to have begun to acquire a working knowledge in the foreign languages essential to research in the field.

### Degree Requirements

In addition to Graduate School Requirements, 90 credits minimum, as follows:

- Submission of the Proposed Course of Study form. This requirement should be met no later than the end of the second quarter after entrance to the PhD program. For students promoting into the PhD program from the MA program, this form must be completed no later than the end of the first quarter of doctoral study.
- Official establishment of the doctoral Supervisory Committee and submission of the request for establishing a doctoral Supervisory Committee form. This requirement must be met no later than the end of the third quarter after entrance to the PhD program. For students promoting into the PhD program from the MA program, this form must be completed no later than the end of the first quarter of doctoral study.
- Language requirements must be satisfied no later than the quarter immediately preceding the quarter in which the student expects to take the PhD general examination.
- Satisfactory performance in the PhD general examination, which consists of four written examinations in four fields and an oral examination. Fields must be distributed among at least two divisions, such that at least one of these four fields lies clearly outside the student's primary division of concentration. Students will be expected to construct their fields of study in consultation with their supervising faculty. PhD students concentrating in the U.S. history division are required to offer at least one of the following three chronological fields: Early America, Nineteenth Century, Twentieth Century. A grade of "honors" or "high pass" in a departmental field examination for the MA degree may exempt the student from the PhD examination in that field at the discretion of the faculty member administering the PhD examination.
- Satisfactory completion of a seminar paper while enrolled as a PhD student. This paper must be completed before the student takes the PhD general examination. Students who have not completed a graduate seminar in this department for their MA are ordinarily expected to enroll in such a seminar as part of their coursework for the PhD, and to write their research paper in the context of this seminar.
- Official establishment of the doctoral reading committee.
- Preparation of an acceptable doctoral dissertation.
- Satisfactory performance in a final oral examination in defense of the dissertation.

### Financial Aid

Entering graduate students are considered for any departmental fellowships and other funding for which they are eligible. Students with, or who expect to receive, the MA degree by the time they begin their studies may apply for teaching assistantships and may, with continued satisfactory scholarly progress, hold a T.A. appointment for a total of nine quarters, provided adequate funds are available.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

### Ancient and Medieval History

**HSTAM 203 Introduction to the Middle Ages: Medieval People (5) I&S** Introduction to the Western Middle Ages through a study of social roles and statuses as seen through documents and imaginative literature. The groups studied are rulers, aristocracy, peasants, townspeople, clergy, outcasts, and outsiders.

**HSTAM 205 Military History of the Ancient World (5) I&S** Military history from prehistoric times to the fall of the Roman Empire, with special emphasis on the Greco-Roman period and the campaigns of Alexander the Great, Hannibal, Scipio Africanus, and Julius Caesar.

**HSTAM 235 Myths and Mysteries of the Middle Ages (5) I&S** Introduces the basics of the historian's craft by focusing on some enduring mysteries of the European middle ages, including bog bodies, druids, King Arthur, Robin Hood, the Templars, the Holy Grail, the Shroud of Turin, and Joan of Arc.

**HSTAM 276 Celtic Civilizations of the European Middle Ages (5) I&S** Introduction to the history and pseudo-history of medieval Ireland, Wales, Scotland, and Gaul. Topics include "Celtic" religion, mythology, social institutions, nationalism, and the relationship between history and myth. Particular attention to how historians "do" history in the absence of straightforward historical sources.

**HSTAM 290 Topics in Ancient/Medieval History (5, max. 10) I&S** Examines special topics in ancient/medieval history.

**HSTAM 302 Ancient History (5) I&S** Political, social, economic, and cultural development of Rome from the beginnings in the eighth century BC to the beginning of the Middle Ages.

**HSTAM 312 The Roman Republic (5) I&S** Political, social, economic, and cultural history, with emphasis on the development of the constitution and territorial expansions.

**HSTAM 313 The Roman Empire (5) I&S** Political, social, and cultural history, with special emphasis on the period of Cicero and Caesar.

**HSTAM 314 The World of Late Antiquity (5) I&S** Examines the transformation of the ancient world from the third-century crisis of the Roman Empire to the rise of Islamic civilization. Explores the manifold political, cultural, and social changes that transformed Europe, the Mediterranean, and the Near East between the third and the eighth centuries CE.

**HSTAM 315 The Byzantine Empire (5) I&S** Political, social, economic, and cultural history of the eastern Roman Empire from the fourth to fifteenth centuries.

**HSTAM 330 The Age of Augustus (5) I&S/VLPA** Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14). Includes readings in Augustan authors such as Virgil, Ovid, and Horace as well as the study of Augustan art and architecture. Offered: jointly with CLAS 330.

**HSTAM 331 Early Middle Ages (5) I&S** The Dark Ages, feudalism, emergence of the medieval order of civilization, and the development of Romanesque culture.

**HSTAM 332 Central Middle Ages (5) I&S** Europe in the central Middle Ages: culture of cathedrals and universities, formation of national states, development of urban society.

**HSTAM 333 Late Middle Ages (5) I&S** Disintegration of the medieval order under the impact of the national state, the secularization of society, and the decline of the church. Movements of reform and revolution. The culture of late gothic Europe.

**HSTAM 340 Medieval Women (5) I&S** The experiences of women in medieval society: public and private power, chang-

ing concepts of family and the domestic sphere, ideal and reality in courtly love, women in religious life, women in the workplace, the querelle des femmes and the beginnings of "feminist" thought.

**HSTAM 360 Medieval Christianity (5) I&S** Development of Christianity in the medieval west circa 400 to 1500. Emphasis on the forms of religious life: monasticism, the papacy, friars, hermits, mystics, and reformers; and on the emergence of new modes of piety, both lay and clerical.

**HSTAM 365 Medieval England, 1042-1485 (5) I&S** Upper level survey of English history from the Norman conquest until 1485. Emphasis on political, social, and economic history, with special attention to the peculiarities of English development as these had emerged by 1485.

**HSTAM 367 Medieval Jewish History (5) I&S** Social and intellectual history of the Jews in western Europe to the fifteenth century. Jews under Islam and Christianity; the church and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with SISJE 367.

**HSTAM 370 The Vikings (5) I&S/VLPA** The Vikings at home in Scandinavia and abroad, with particular emphasis on their activities as revealed in archaeological finds and in historical and literary sources. Offered: jointly with SCAND 370.

**HSTAM 401 Early Greece (5) I&S** Bronze and Dark Age Greece: realities of the heroic age of ancient Greece.

**HSTAM 402 Classical Greece (5) I&S** The classical civilization of ancient Greece, with special emphasis on the legacy of Greece to Western civilization.

**HSTAM 403 Alexander the Great and the Hellenistic Age (5) I&S** Rise of Macedonia, conquest of Near East by Alexander, and division into lesser kingdoms after Alexander's death. Special emphasis on fusion of cultures and change from city-state to world-state.

**HSTAM 443 Kievan and Muscovite Russia: 850-1700 (5) I&S** Development of Russia from earliest times to the reign of Peter the Great. Offered: jointly with SISRE 443.

**HSTAM 490 Topics in Ancient/Medieval History (5, max. 10) I&S** Examines special topics in ancient/medieval history.

**HSTAM 501 Greek History Field Course (3-6, max. 6)** Examines various topics and themes in Greek history. Content varies.

**HSTAM 511 Roman History Field Course (3-6, max. 6)** Examines various topics and themes in Roman history. Content varies.

**HSTAM 512 Seminar in Ancient History ([3-6, max. 12]-)** Detailed study of special topics in ancient history.

**HSTAM 513 Seminar in Ancient History (-[3-6, max. 12])** Detailed study of special topics in ancient history.

**HSTAM 518 Topics in Late Antiquity (3-6, max. 18)** Examines various topics in the transformation of the ancient world from the third-century crisis of the Roman Empire to the rise of Islamic civilization. Serves as the field course for masters and PhD students.

**HSTAM 530 Early Middle Ages (3-6, max. 6)** Field course. Survey of early European history through the times of tribal migrations and invasions from Asia. Problems and methods of research.

**HSTAM 531 Medieval European History (3-6, max. 6)**

**HSTAM 532 Medieval European Seminar (3-6, max. 12)** Prerequisite: reading knowledge of Latin.

**HSTAM 533 Medieval European Seminar (3-6, max. 12)** Prerequisite: reading knowledge of Latin.

**HSTAM 534 Medieval European Seminar (3-6, max. 12)** Prerequisite: reading knowledge of Latin.

**HSTAM 535 Later Medieval Europe (3-6, max. 6)** Field course. Surveys European history from ca. 1250 to 1500, with particular attention to historiography.

**HSTAM 536 Topics in Early Medieval History (3-6, max. 12)** Graduate level study of specific topics in early medieval

history. Topics vary from quarter to quarter; for information, please see instructor.

**HSTAM 590 Topics in Ancient and Medieval History (5)** Seminar on selected topics in ancient and medieval history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

**HSTAM 591 Advanced Medieval and Renaissance Seminar (3–6, max. 12)**

**HSTAM 592 Advanced Medieval and Renaissance Seminar (3–6, max. 12)**

**HSTAM 593 Advanced Medieval and Renaissance Seminar (3–6, max. 12)**

## History

**HIST 111 The Ancient World (5) I&S** Origins of Western civilization to the fall of Rome.

**HIST 112 The Medieval World (5) I&S** Political, economic, social, and intellectual history of the Middle Ages. Cannot be taken for credit toward a history major if HSTAM 331 or 332 or 333 previously taken.

**HIST 113 Europe and the Modern World (5) I&S** Political, economic, social, and intellectual history of modern Europe. Cannot be taken for credit toward a history major if HSTEU 302 or 303 previously taken.

**HIST 140 Russia from the Tenth Century to the Present (5) I&S** Russian political, social, and economic history from the tenth century to the present. Offered: jointly with EURO 140.

**HIST 151 Introduction to African History, c. 1000–1880 (5) I&S** Examines Africa's past from approximately 1000 to 1880. Through the theme of the politics of wealth, explores the history of precolonial states and societies, religious movements that combined local beliefs with Islam and Christianity, the Atlantic and Indian Ocean slave trades, and the origins of American and European colonialism.

**HIST 152 Introduction to African History, c. 1880 - Present (5) I&S** Examines Africa's pasts from approximately 1880 to the present. Through the theme of the politics of wealth, explores the history of European colonization, African social and cultural life under colonial rule, anti-colonial movements and decolonization, and the changes and challenges of the postcolonial present.

**HIST 161 Survey of the Muslim Near East (5) I&S** The Middle East (the Arab countries, Israel, Turkey, Iran, and Afghanistan) from the emergence of Islam in AD 622 to the present: culture, economics, politics.

**HIST 163 The Modern Middle East (5) I&S** *Lopez* Explores the social, political, and cultural changes that have occurred in the Middle East during the past two centuries. Covers the main social, economic, and intellectual currents that have transformed this region, starting with Napoleon's conquest of Egypt in 1798 and ending with the present moment in history. Offered: Sp.

**HIST 199 Foreign Study (3–5, max. 10) I&S** Lower-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

**HIST 200 Ten Events that shook the World (5) I&S** Offers introduction to history by examining ten events of great importance for both past and present. The ten events, which vary from quarter to quarter, come from diverse times and places, thereby encouraging a sweeping view of world history. (See department advisor for the current quarterly list of the ten events.)

**HIST 204 Europe and America in the Era of the World Wars (5) I&S** Declining role of Europe in the world and rise of the United States from 1914 to 1945.

**HIST 205 Filipino Histories (5) I&S** Explores the histories, cultures, and politics of Filipinos in the Philippines and in the Diaspora, including Filipino Americans. Examines pre-colonial societies, Spanish and American colonial rule, nationalism, decolonization, and post-war political move-

ments. Includes the histories of Filipino peoples in Europe and the United States. Offered: jointly with SISSE 205.

**HIST 207 Introduction to Intellectual History (5) I&S** Ideas in historical context. Comparative and developmental analysis of Western conceptions of "community," from Plato to Freud. Offered: jointly with CHID 207.

**HIST 209 History of Christianity (5) I&S** Twenty centuries of the history, thought, and culture of Christianity.

**HIST 211 Introduction to the History of Science (5) I&S** Introduction to major themes in the history of science. Investigation of historical and scientific methods through the study of particular historical cases.

**HIST 215 The History of the Atomic Bomb (5) I&S** History of the atomic bomb from the beginning of nuclear physics to the security hearing of J. Robert Oppenheimer. Includes a study of the scientific achievements that made the bomb possible, the decision to deploy the bomb, the moral misgivings of the scientists involved.

**HIST 217 The Space Age (5) I&S** Explores the history of ideas, events, and practices associated with the Space Age from the late nineteenth century through the twentieth. Emphasizes intellectual, cultural, and political/military history in the development of rockets and space technology in the United States, Germany, and the Soviet Union.

**HIST 219 Science and the Arts in Early Modern Europe (5) I&S** Explores the role of artisanal craft practice and knowledge in the Scientific Revolution. Examines the artisanal world and its traditions of craft knowledge and follows the transmission of artisanal practice into the scholarly world of natural philosophy in the seventeenth century. Assesses the consequences for scientists and artisans.

**HIST 221 Information Research Strategies in History (3) I&S** Information research and problem solving in the context of history. Focuses on identifying information, need, information seeking, evaluation and presentation, and selection of the appropriate sources. Offered: jointly with INFO 221.

**HIST 222 Understanding Photographs as Historic Documents (3) I&S** Introduction to understanding how to view and interpret information contained in photographs. Examines the photograph as artifact, intent of the photographer, photographic codes and meanings; how such information is used, misused, and manipulated for various purposes and how to navigate archival institutions in search of photographs. Offered: jointly with INFO 222.

**HIST 225 The Silk Road (5) I&S** *Waugh* History of cultural and economic exchange across Eurasia from the early Common Era to modern times. Spread of religions such as Islam and Buddhism, overland trade in rare commodities, interaction between nomadic and sedentary cultures, role of empires, culture of daily life, and the arts. Offered: jointly with SIS 225.

**HIST 245 Exploration and Empire: Science, Art, and Power, 1300–1800 (5) I&S** Explores key moments in the history of exploration and empire, 1300–1800. Taking an interdisciplinary approach, focuses on scientific and artistic aspects of exploration, their implications for imperialism, and legacies in the postcolonial world.

**HIST 249 Introduction to Labor Studies (5) I&S** Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with POL S 249/SOC 266.

**HIST 250 Introduction to Jewish Cultural History (5) I&S** Introductory orientation to the settings in which Jews have marked out for themselves distinctive identities as a people, a culture, and as a religious community. Examines Jewish cultural history as a production of Jewish identity that is always produced in conversation with others in the non-Jewish world. Offered: jointly with SISJE 250.

**HIST 258 Slavery and Slave Trading in the 21st Century (5) I&S** Examines the forms that slavery and slave trading have taken in contemporary times.

**HIST 260 Slavery in History: A Comparative Study (5) I&S** Slavery as a universal historical phenomenon lending itself to a comparative analysis is studied in terms of its philosophical justifications, economic importance, and local practices. The following historical periods are surveyed: the ancient Near East, Greece, Rome, Islam, Africa, Latin America, and North America.

**HIST 261 The Crusades: Middle Eastern Perspectives (5) I&S** Examines the impact of European Christians on the Middle East, from the establishment of the County of Edessa (1097) to the fall of Acon (1291). Explores how Muslims understood, reacted, and adapted to the crusades and how the close encounter with the "Franks" transformed medieval Middle Eastern societies.

**HIST 265 Modern Revolutions Around the World (5) I&S** Introduces the causes, processes, and legacies of modern revolutions. Cases included the American, French, Mexican, Russian, and Chinese Revolutions. Special attention given to how these and other revolutions have shaped the modern world.

**HIST 268 Wars in the Modern Middle East (3) I&S** Examines the political, social, and cultural impact of war on Middle Eastern societies. Focuses on how the preparation for, conduct of, and aftermath of wars have affected the region. Examines the 1948 Arab-Israeli War, the Algerian War of Independence, the Lebanese Civil War, and the First Gulf War (1991).

**HIST 269 The Holocaust: History and Memory (5) I&S** Explores the Holocaust as crucial event of the twentieth century. Examines the origins of the Holocaust, perpetrators and victims, and efforts to come to terms with this genocide in Europe, Israel, and the United States. Offered: jointly with SISJE 269.

**HIST 283 Introduction to Women's History (5) I&S** Includes units on American, European, and Third World women that examine centers of women's activities (convents, women's clubs), women's place in male-dominated spheres (politics), women's impact on culture (health, arts), and the effect of larger changes on women's lives (technology, colonization). Offered: jointly with WOMEN 283.

**HIST 290 Topics in History (5, max. 10) I&S** Examines special topics in history.

**HIST 309 Marx and Nietzsche: The Assault on Bourgeois-Christian Civilization (5) I&S** Critically examines the formation of modern Western culture, politics, and society through an historical analysis of the work of Karl Marx and the thinkers, artists, and activists who assimilated and transformed Marxian concepts from the late 19th century to the present. Offered: jointly with CHID 309.

**HIST 310 Science and Religion in Historical Perspective (5) I&S** Scientific and religious ideas have been two of the major forces shaping our modern view of the world. Often regarded as being in conflict, they can equally well be seen as complementary and interdependent. Study of the relationship between scientific and religious ideas with focus on particular episodes of history from ancient to modern times.

**HIST 311 Science in Civilization: Antiquity to 1600 (5) I&S** From preclassical antiquity to the end of the Middle Ages, stressing the growth of scientific ideas, the cultural context in which they take shape, and their relationship to other movements of thought in the history of civilization.

**HIST 312 Science in Civilization: Science in Modern Society (5) I&S** Growth of modern science since the Renaissance, emphasizing the scientific revolution of the seventeenth century, the development of methodology, and the emergence of new fields of interest and new modes of thought.

**HIST 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW** Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with ASTR 313.

**HIST 314 The Psychoanalytic Revolution in Historical Perspective (5) I&S** Genesis and evolution of Freudian theory

in context of the crisis of liberal-bourgeois culture in central Europe and parallel developments in philosophy, literature, and social theory. Emergence and division of the psychoanalytic movement. Transformation of psychoanalysis in British, French, and especially American cultural traditions. Offered: jointly with CHID 314.

**HIST 315 History of Technology to 1940 (5) I&S** Technology since the Middle Ages, in its social and historical contexts. From the medieval foundations of metal working, its social consequences and the establishment of a class of engineering practitioners, to the transformation of American rural life, domestic technology, and industry before World War II.

**HIST 319 Nietzsche and the Nietzschean Legacy in Western Thought: Foundations of Modern Cultural Critique II (5) I&S** Critically examines the formation of modern Western politics, society, and cultures through a historical analysis of the thought of Friedrich Nietzsche and the thinkers, artists, and activists who assimilated and transformed the Nietzschean perspective during the twentieth century. Offered: jointly with CHID 319.

**HIST 320 Greek History: 7000 BC to Present (5) I&S** History of Greece from its Neolithic village origins to the present. Examines the different forms of one of the most resilient cultures in the human story. Offered: jointly with EURO 320.

**HIST 345 War and Society (5) I&S** Analysis of the techniques of war from the Renaissance to the present with consideration of the social, political, and economic consequences of war in the Western world.

**HIST 346 Images of War in History, Literature, and Media (5) I&S/VLPA** Explores images of war generated by historians, writers, artists, filmmakers, television producers, and journalists, analyzing the perspectives on war adopted by various observers to see what motivates their representations. Focuses on ways in which various media shape images of war and the effect of this shaping on human consciousness.

**HIST 358 Slavery in the Atlantic World (5) I&S** Comparative examination of slavery in North and South America, the Caribbean, and Africa from 1450–1800. Central concerns include: development of the Atlantic slave trade; diverse uses of slave labor in the Atlantic world; slave cultures that developed in the Americas; and ways Africans and African-Americans resisted their bondage.

**HIST 361 Middle Eastern History, 1453–1800 (5) I&S Schwarz** Introduction to the early modern period in the Middle East, including an exploration of the political, economic, and cultural dominance of the Ottoman Empire and Safavid Iran. Explores the political and social dynamics and economic transformations of the two empires. Offered: A.

**HIST 367 Southeast Asian Activism and Social Engagement (5) I&S Rafael** Investigates how Southeast Asian activism is tied to the histories of political struggle within Southeast Asia and to questions of diasporic Asian American identity. Engages in group research projects exploring the meaning of social activism within local communities. Offered: jointly with SISSE 367; Sp.

**HIST 369 The Jewish Twentieth Century in Film (5) I&S Stein** Surveys twentieth-century Jewish history in its European, American, and Middle Eastern contexts by examining films produced in these settings. Considers central events that shaped modern Jewish culture: the changing geography of Europe and the Middle East, mass migrations, the Holocaust, shifting meanings of race, culture, and religion. Offered: jointly with SISJE 369.

**HIST 388 Colloquium: Introduction to History (5, max. 10) I&S** Introduction to the discipline of history for new or prospective majors. Emphasizes the basic skills of reading, analysis, and communication (both verbal and written) that are central to the historian's craft. Each seminar discusses a different subject or problem.

**HIST 390 Colloquium in History and Science (5) I&S** Study in the history of science to bridge the gap between the natural sciences and the humanities. Students should have a strong background both in history and in a natural science.

**HIST 395 Modern Historical Writing, Honors Seminar (5) I&S** New types of problems examined by historians and new techniques that have evolved for solution. Brief historiographical introduction, reaching back to the "scientific" historians of the mid-nineteenth century, then continues by examining the impact on historians of new disciplines such as psychology, sociology, and economics, and of new techniques such as statistics and prosopography. Readings are in the theorists and in those who followed their lead. Admission by departmental invitation only.

**HIST 399 Advanced Foreign Study (3–5, max. 15) I&S** Upper-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

**HIST 403 Scandinavian Immigration in History and Literature (5) VLPA/I&S** History and literature of Scandinavian immigration to North America, including immigrant life and culture, community structures and traditions, and the literature about and by immigrants from Denmark, Finland, Iceland, Norway, and Sweden. Offered: jointly with SCAND 403.

**HIST 406 Issues in World History to 1500 (5) I&S** Explores important questions about development of civilizations. Topics include the spread of peoples and languages; the significance of technologies such as agriculture, writing, and the stirrup; links between trade and the spread of religions and diseases; and primary and secondary state formation.

**HIST 412 Science and the Enlightenment (5) I&S** The role of science in relation to intellectual, social, economic, and religious forces in the eighteenth century, and growth of the international community in science during the same period.

**HIST 425 History of the British Empire and Commonwealth Since 1783 (5) I&S** Britain in the Caribbean, Africa, India, Southeast Asia, and the Pacific; and the settlement, economic development, and political evolution of Canada, Australia, New Zealand, and South Africa.

**HIST 449 Issues in Comparative Labor History (5) I&S** Role of labor in the modern world. Emphasis on the centrality of workers' struggles in the evolution of national societies on the conceptual, research, and expository strategies of contemporary students of the labor movement and on differences and relationships between labor in developed and underdeveloped countries.

**HIST 451 Eastern and Central Africa Since 1500 (5) I&S** Explores the history of Eastern and Central Africa from the period prior to the slave trade through European colonialism to the post-colonial present. Focuses on political, economic, and social change and continuity. Emphasis on understanding how various historical actors and historians have interpreted these processes.

**HIST 452 Southern Africa Since 1500 (5) I&S** Explores the history of Southern Africa from pre-colonial social institutions through European colonialism and industrialization to the post-apartheid present. Focuses on the interplay between race, class, ethnicity, and gender in the structuring of political relations. Emphasis on understanding how various historical actors and historians have interpreted these processes.

**HIST 453 Health and Illness in Africa (5) I&S** Explores health and illness in Africa from the nineteenth century to the present. Focuses on the influence of colonial and post colonial history on patterns of health and health care in sub-Saharan Africa. Analyzes Western representations of health and illness in Africa.

**HIST 457 Topics in Labor Research (5, max. 10) I&S** Analysis of the post-World War II decline of national labor movements and strategies employed to reverse this trend. Requires a major research project on organizing, bargaining, or another question in labor studies. Prerequisite: either POL S 249, HIST 249, or SOC 266. Offered: jointly with POL S 457.

**HIST 461 History of the Middle East: 622–1300 (5) I&S** Political and economic analysis of the period circa AD 600, preliminary to rise of Islam, to arrival of the Turks. Muhammad's teaching and impact; Islamization and Arabization.

**HIST 462 History of the Middle East: 1258–1798 (5) I&S** Conquests by successors of Ghengis Khan; creation in Egypt, Syria, and Iran of cavalry-based states; domination of political, social, and economic history by Ottoman and Safavid empires. The Napoleonic invasion.

**HIST 463 History of the Middle East Since 1789 (5) I&S** Critical issues and themes in the changing Middle East, including Westernization, growth of nationalism, Arab-Israeli dispute, Iranian revolution, and the role of Islam.

**HIST 465 Iran, Afghanistan and Central Asia, 1750–2001 (5) I&S** Introduction to the modern history of the Islamic republics of Iran and Afghanistan and the secular republics of Central Asia from 1750 to 2001. Includes discussion of colonialism, the role of the U.S., and diaspora and exile in these predominantly Muslim societies.

**HIST 466 Sport and the British Empire in Asia, Africa, and the Middle East (5) I&S** Examines British imperialism in Asia, Africa, and the Middle East through the prism of sport. Explores the rise of sport in Victorian England, its use to discipline and control colonized peoples, and its role in the rise of nationalism throughout the British Empire.

**HIST 467 Nations and States in the Modern World (5) I&S** Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by new nationalism, spreading into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with SIS 467.

**HIST 468 Theatre as a Site of History and Memory (5) VLPA/I&S** Sears Explores Asian theatre traditions as sites of memory, testimony, and archive using ethnographic and historiographical approaches. Includes service-learning components and collaborative performance projects. Offered: jointly with SISSE 468; Sp.

**HIST 481 Economic History of Europe (5) I&S** Origins of the modern European economy; historical analysis of economic change and growth from medieval times that stresses the preconditions and consequences of industrialization. Recommended: ECON 201. Offered: jointly with ECON 460.

**HIST 483 Technology and Culture in the Making of Contemporary Empires (5) I&S Benitez, Rodríguez-Silva** Explores struggles shaping organization of US empire in the early twentieth century, focusing on sites where empire's material, cultural, and ideological boundaries were drawn and contested. Includes race, gender and class as colonial formation; technologies of imperial governance such as public health, citizenship, and territory. Offered: jointly with SISLA 483; W.

**HIST 485 Comparative Colonialism (5) I&S Rafael** Explores the historic roots and practices of colonialism throughout the world, focusing on the roles of nationalism, cosmopolitanism, and imperial domination. Treats colonialism as a world event whose effects continue to be felt and whose power needs to be addressed. Offered: S.

**HIST 490 Topics in History (5, max. 10) I&S** Examines special topics in history.

**HIST 491 Honors Historical Method (5-) I&S** The purposes, materials, and techniques of historical scholarship. Theory, practice, and criticism. For honors students.

**HIST 492 Honors Historical Method (5) I&S** The purposes, materials, and techniques of historical scholarship. Theory, practice, and criticism. For honors students.

**HIST 493 Senior Thesis in the History of Science (5, max. 10) I&S** Preparation of the senior thesis for the History and Science emphasis.

**HIST 494 Colloquium in Historiography (5, max. 15) I&S** Advanced seminar examining central issues in historiography. Emphasizes reading, discussion, and writing.

**HIST 495 History Internship (1–5, max. 10)** Off-campus independent fieldwork with a community agency in an apprenticeship or internship situation. Work to be jointly supervised by a member of the History Department and an on-site field supervisor.

**HIST 498 Colloquium in History (5, max. 15) I&S** Each seminar examines a different subject or problem. A quarterly list of the seminars and their instructors is available in the Department of History undergraduate advising office.

**HIST 499 Undergraduate Research (1–5, max. 15)**

**HIST 501 Ancient Greece and Rome: Writings and Interpretations (3–6, max. 6)** Study of historians, development of historical study as a distinct pursuit, focus of attention in historical scholarship in the ancient world and comparison with modern interpretation of antiquity.

**HIST 502 Medieval Europe: Writings and Interpretations (3–6, max. 6)** Study of historians, schools of history, and interpretations of medieval European history.

**HIST 503 Modern Europe: Writings and Interpretations (3–6, max. 6)** Study of historians, schools of history, and interpretations of modern European history.

**HIST 504 Comparative Ethnicity and Nationalism (5)** Theoretical approaches to, and historical case studies of, the phenomena of ethnicity, nationalism, and ethnic conflict in the modern world. Emphasis on Europe and Asia.

**HIST 506 Issues in World History to 1500 (5)** Explores important questions about development of civilizations. Topics include the spread of peoples and languages; the significance of technologies such as agriculture, writing, and the stirrup; links between trade and the spread of religions and diseases; and primary and secondary state formation.

**HIST 511 History of Science (3–6, max. 6)**

**HIST 512 Seminar in the History of Science ([3–6, max. 12]-)**

**HIST 513 Seminar in the History of Science (-[3–6, max. 12]-)**

**HIST 514 Seminar in the History of Science (-[3–6, max. 12])**

**HIST 515 Field Course in the History of Technology (5)** Introduces students to the literature, methodology, and problems of the history of technology, and prepares them for independent study in the field.

**HIST 520 Britons and Others (5)** Provides an overview of major themes and recent scholarship in modern British and imperial history. Emphasizes the ways in which ideas about class, gender, and race have influenced Britain's relationship to the wider world.

**HIST 530 Comparative Colonialisms: Methodological and Conceptual Approaches (5)** Introduces students to the historiography of modern European/American colonialisms, focusing on Africa, Asia, and/or the Americas. Addresses methodological and conceptual issues by examining relationship between capitalism and colonialism; violence and routinization of colonial power; colonial categories of race, ethnicity, class, and gender; and resistance movements and nationalist politics.

**HIST 552 Field Course in African History (5)** Methodological and conceptual issues in African historiography, focusing on 1500 to the present. Examines topics including pre-colonial politics and economics, slavery and the slave trades, European conquest and colonization, resistance movements and nationalist politics, and post-colonial debates and dilemmas. Special attention to issues of gender, race, ethnicity, and class.

**HIST 561 Islamic History (3–6, max. 6)** Field course. Introduction to advanced study in the major periods and problems of Islam. Bibliographical guidance is stressed.

**HIST 562 Ottoman History (3–6, max. 6)** Field course. Introduction to the major periods and problems of Ottoman history, 1300–1914, by acquainting the student with the major works in at least two languages. An attempt is made to teach some use of Ottoman materials. A minor problem is investigated in detail by every student. Prerequisite: knowledge of at least one major language besides English (French, German, Russian, or other).

**HIST 563 Modern Near East (3–6, max. 6)** Field course introducing the student to the major periods and problems of Near Eastern history, 1798 to the present.

**HIST 566 Sport and the British Empire in Asia, Africa, and the Middle East (5)** Examines British imperialism in Asia, Africa, and the Middle East through the prism of sport. Explores the rise of sport in Victorian England, its use to discipline and control colonized peoples, and its role in the rise of nationalism throughout the British Empire.

**HIST 570 Topics in Teaching History (3)** Topics include active learning, teaching writing, assessment, and course design. Designed for history graduate students working or planning to work as TAs or instructors. Students produce a teaching portfolio and conduct peer observations. Credit/no credit only.

**HIST 571 Orientation to an Academic Career in History (3)** Course for prospective college and university history instructors, preparing them for the nonacademic aspects of their duties. Prerequisite: Master of Arts degree in history or permission of instructor.

**HIST 580 Gender and History (5)** Introduction to gender as category of historical analysis, examining the impact of feminist theory within the discipline of history. Course traces historiographical debates in women's and gender history and explores, through cross-cultural comparisons, how scholars have conceived the relationship between gender and categories such as class, race, ethnicity, and sexuality.

**HIST 590 Topics in History (5, max. 15)** Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

**HIST 595 Historical Practices (5)** Emphasizes the interrelatedness of theoretical issues and historical research. Students read works that encourage the rethinking of sources and their historical meaning and experiment with sources, methods, and questions in a set of practical assignments.

**HIST 596 History Research Seminar (5-)** Advanced historical research seminar. First in a series of two.

**HIST 597 History Research Seminar (-5)** Advanced historical research seminar. Second in a series of two.

**HIST 598 Methods of Historical Research (5)** Exploration of new historical and scholarly techniques employed in historical research. Use of social science methodology and literary theory in the evaluation and interpretation of historical sources. Use of feminist theory, deconstruction, critical theory, and orality/literacy studies. Student research paper is based upon a chosen theoretical approach.

**HIST 600 Independent Study or Research (\*)**

**HIST 700 Master's Thesis (\*)**

**HIST 800 Doctoral Dissertation (\*)**

## History of Asia

**HSTAS 201 Introduction to South Asian History, pre-history to 1500 (5) I&S** Religions, literature, philosophy, politics, arts, and history of India from earliest times to the Mughal empire.

**HSTAS 202 Introduction to South Asian History, 1500 - present (5) I&S** The Islamic impact, British conquest, and contemporary India. Emphasis on the rise of nationalism, social organization, and contemporary life and history. Offered: jointly with SISSA 202.

**HSTAS 211 History of Chinese Civilization (5) I&S** Intensive survey of Chinese civilization from earliest times to today. Introduces all students, including East Asian history majors, to the general sweep of Chinese history. Social, cultural, and intellectual developments.

**HSTAS 212 History of Korean Civilization (5) I&S** From earliest times to the present. Development of Korean society and culture in terms of government organization, social and economic change, literature, and art. Offered: jointly with SISEA 212.

**HSTAS 221 History of Southeast Asia (5) I&S** Surveys Southeast Asian civilizations at the outset of Western colonial rule; the colonial impact on the traditional societies of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, and the Philippines; nineteenth- and twentieth-century nationalist and revolutionary movements; emergence of Southeast Asia as a region in the modern world. Offered: jointly with SISSE 221.

**HSTAS 241 Japanese Civilization (5) I&S** Japan's civilization, including its origins, government, literature, economic institutions, material culture, social organization, and religions, in relation to the development of Japan as a society and nation. Cannot be taken for credit if SISEA 341 previously taken. Offered: jointly with SISEA 241.

**HSTAS 244 Imperialism and Anti-Colonialism in Asia (5) I&S** Introduction to Western imperialism expansion, conquest, and colonial rule in Asia; the anti-colonial, nationalist resistances they engendered; and the resultant cultural, political, economic, and intellectual transformations in Asian societies. Covers post-1800 violence, racial hierarchies, human rights abuses, post-colonial memories, persistent strategies of domination, and structural inequities. Offered: jointly with SISA 244.

**HSTAS 245 Human Rights in Asia (5) I&S Callahan, Giebel** Introduction to recent and ongoing human rights issues in South, Southeast, and East Asia. Focuses on how human rights politics have played out in domestic political arenas. Provides exposure to views/insights into the historical context in which human rights claims, abuses, and debates arise. Offered: jointly with SISA 245.

**HSTAS 265 The Viet Nam Wars (5) I&S Giebel** Recent Vietnamese history and struggles for independence and national unification vis-a-vis French colonialism, Japanese occupation, American intervention, and internal divisions. Covers historical roots and contemporary contexts of revolution and war, objectives and motivations of participants, and the enormous human costs. Emphasizes socio-cultural changes and wars' legacies. Offered: jointly with SISSE 265.

**HSTAS 290 Topics in Asian History (5, max. 10) I&S** Examines special topics in Asian history.

**HSTAS 303 Divided Lands/Divided Lives: An Environmental History of South Asia (5) I&S** Focuses on the mobilization of South Asian tribal, peasant, and ethnic communities around ecological issues to secure social equity in the colonial and post-colonial period. Examines how the complex interactions of states and peoples have changed the ways in which nature itself is conceptualized. Offered: jointly with SISSA 303.

**HSTAS 348 Alternative Routes to Modernity (5) I&S** Routes to modernity followed by non-Western societies between 1600 and 1900. Historical experiences of non-Western societies seen in the contexts of European history and of development theory. Primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with SIS 348.

**HSTAS 364 Violence, Myth, and Memory (5) VLPA/I&S** Sears Explores how images and ideas of power, violence, and global modernity circulate in memories and discourses about US relations with Vietnam, the Philippines, and Indonesia. Topics include foundations myths, colonial and postcolonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with SISSE 346; Sp.

**HSTAS 401 History of Ancient India (5) I&S** India in ancient times; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

**HSTAS 402 History of Medieval and Mughal India (5) I&S** Medieval India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

**HSTAS 403 History of Modern India to 1900 (5) I&S** Modern India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

**HSTAS 404 History of Twentieth-Century India (5) I&S** Analysis of the problems in the fields of social life, international and domestic politics, education, economics, and other areas that confront India today.

**HSTAS 421 History of Pre-Modern Japan (5) I&S** Introduces the early years of Japan's political, socioeconomic, and cultural history, culminating in the emergence of the early modern state around 1600.

**HSTAS 423 History of Modern Japan (5) I&S** Political, social, economic, and cultural development of Japan from the late Tokugawa period to the present with special emphasis on the cultural impact of the West. Recommended: SISEA 242. Offered: jointly with SISEA 423.

**HSTAS 424 The Emergence of Postwar Japan (5) I&S** The making of modern Japan; World War II and surrender; American occupation; postoccupation rebuilding; emergence as an industrial power. Recommended: SISEA 242. Offered: jointly with SISEA 440.

**HSTAS 441 Economic and Social History of Japan to 1900 (5) I&S** Lecture-seminar on Japanese economic and social history from 700 to 1900. Analyses of the rise and decline of the shoen system, the rise of commerce, social change, changes in the living standard, demographic changes, and the early phases of industrialization. Political and cultural developments as related to economic and social change. Recommended: SISEA 242. Offered: jointly with SISEA 441.

**HSTAS 451 Chinese History: Earliest Times to 221 BC (5) I&S** Pre-imperial China.

**HSTAS 452 Chinese History from Earliest Times to 1276(5) I&S** Traces the development of Chinese civilization from earliest times through the Song dynasty. Examines social, cultural, political, and economic history.

**HSTAS 453 Chinese History from 1276–1895 (5) I&S** Political, social, economic, and intellectual history from the time of the Mongol conquest of China to the Sino-Japanese war. Focus on the evolution of the late imperial Chinese state and the “early modern” era in China.

**HSTAS 454 History of Modern China (5) I&S** Social, cultural, political, economic, and intellectual transformations and continuities in China from the end of the imperial period to the present. Offered: jointly with SISEA 454.

**HSTAS 456 Topics in Chinese Social History (5) I&S** Surveys major issues and approaches to the study of the role of the Chinese people in China's historical development. Historical focus of course varies with instructor. Recommended: HSTAS 211, HSTAS 452, HSTAS 453, or HSTAS/SISEA 454. Offered: jointly with SISEA 456.

**HSTAS 457 Women in China to 1800 (5) I&S** Gender in Chinese culture, women's situations in the patrilineal family system, and the ways women's situations changed as other dimensions of China's political system, economy, and culture changed from early times through the nineteenth century. Offered: jointly with WOMEN 457.

**HSTAS 459 Gender Histories of Modern China, 18th to 20th Centuries (5) I&S** Emergence of modernist social, political, intellectual gender formations in social activism, revolutionary writing, scientific ideologies, economic globalization. Stresses gender difference in colonial modernity, revolutionary movement, communism, post-socialist market society. Relates modern Chinese women to global flows, new division of labor, local and regional experience. Offered: jointly with WOMEN 459.

**HSTAS 460 Cities in China: Past and Present (5) I&S** Economic, political, social, and cultural functions of the city in modern Chinese history. Changes in China's urban system. The city as cultural center and focus of literary and cinematic representation. Attention to architecture, commerce, urbanization, the role of capital cities in the power of the state. Offered: jointly with SISEA 460.

**HSTAS 462 Southeast Asian History to 1800 (5) I&S** Absorption and modification of cultures (Indian and Chinese), religions (Islam, Buddhism, Catholicism), and peoples (northern European) by island- and mainland-Southeast

Asians. Main themes are cultural contact and the growth of states and peoples.

**HSTAS 463 Southeast Asian History from 1800 to the Present (5) I&S** Post-eighteenth-century history of the present countries of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Singapore, Brunei, Indonesia, and the Philippines. Deals with colonial rule, emerging nationalism, and political independence. Investigates broad themes of social, economic, and cultural history.

**HSTAS 466 Islam, Mysticism, Politics and Performance in Indonesian Culture (5) VLPA/I&S** Examines how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influences from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with SISSE 466.

**HSTAS 481 History of Traditional Korea: Earliest Times to the Nineteenth Century (5) I&S** Korean history from earliest times to the modern period.

**HSTAS 482 History of Modern Korea: 1860 to the Present (5) I&S** Traditional institutions and society, Japanese colonial rule, liberation and the Korean War, early Korean communist movement, and North Korea and South Korea since 1945.

**HSTAS 490 Topics in Asian History (5, max. 10) I&S**

**HSTAS 501 Indian History (3–6, max. 6)** Prerequisite: permission of instructor.

**HSTAS 502 Seminar: History of India (3–6, max. 12)** Seminar on selected topics and problems in the history of medieval and modern India. Prerequisite: HSTAS 501 and permission of instructor.

**HSTAS 503 Seminar: History of India (3–6, max. 12)** Seminar on selected topics and problems in the history of medieval and modern India. Prerequisite: HSTAS 501 and permission of instructor.

**HSTAS 520 Premodern Japanese History (5)** Field course; Japanese history prior to 1868. Prerequisite: HSTAS 421 and HSTAS 422, or SISEA 441 and SISEA 541, or permission of instructor.

**HSTAS 521 Modern Japanese History (3–6, max. 6)** Field course. Prerequisite: HSTAS 422, HSTAS 423, or permission of instructor.

**HSTAS 523 Seminar in Modern Japanese History (3–6, max. 12)** **HSTAS 524 Seminar in Modern Japanese History (3–6, max. 12)**

**HSTAS 530 Field Course in Southeast Asian History (5)** Introduction to major English-language works on Southeast Asian history and to the major historiographical issues of the era.

**HSTAS 532 Seminar in Southeast Asian History (5)** Selected topics in Southeast Asian history and historiography. Preparation for theses and doctoral dissertations on Southeast Asian History.

**HSTAS 534 Indonesian Histories, Oral Traditions, and Archives (5)** Explores the inscription of Indonesian histories and stories. Focuses on oral traditions, oral testimonies, and archives. Investigates how oral and written testimonies enter historical archives. Explores theoretical work on literary and performance traditions as they relate to nationalism and Islam in Indonesia. Offered: jointly with SISSE 534.

**HSTAS 541 Economic and Social History of Japan to 1900 (5)** Analyses of landholding systems, the rise of commerce, demographic changes, urbanization, early industrialization, and social change. Prerequisite: previous course work in Japanese history or economic history, or permission of instructor. Not open to students who have taken HSTAS 441. Offered: jointly with SISEA 541.

**HSTAS 551 Field Course in Chinese History: Pre-Sung Period (3–6, max. 6)** *Ebrey* Introduction to the English-language literature on Chinese history through the Song dynasty. Recommended: HSTAS 452 or equivalent.

**HSTAS 552 Seminar in Chinese History: Earliest Times to 1276 ([3–6, max. 12]-)** *Ebrey* Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Recommended: HSTAS 452, HSTAS 550, or HSTAS 551, or equivalent.

**HSTAS 553 Seminar in Chinese History: Earliest Times to 1276 ([3–6, max. 12]-)** *Ebrey* Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Recommended: HSTAS 452, HSTAS 550, or HSTAS 551, or equivalent.

**HSTAS 554 Seminar in Chinese History: Earliest Times to 1276 ([3–6, max. 12])** *Ebrey* Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Recommended: HSTAS 452, HSTAS 550, or HSTAS 551, or equivalent.

**HSTAS 555 Core Research Seminar in Chinese History (5-)** An introduction to research practices in Chinese history and exemplary recent works.

**HSTAS 556 Core Research Seminar in Chinese History (5-)** An introduction to research practices in Chinese history and exemplary recent works.

**HSTAS 560 Field Course in Chinese History: 1276–1895 ([3–6, max. 6]-)** *Guy* Introduction to the English-language literature on the Yuan, Min, and Qing dynasties. Recommended: HSTAS 453 or equivalent.

**HSTAS 561 Field Course in Chinese History: 1276–1895 ([3–6, max. 6])** *Guy* Introduction to the English-language literature on the Yuan, Min, and Qing dynasties. Recommended: HSTAS 453 or equivalent.

**HSTAS 562 Seminar in Chinese History: 1268–1895 ([3–6, max. 12]-)** *Guy* Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 563 Seminar in Chinese History: 1268–1895 ([3–6, max. 12]-)** *Guy* Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 564 Seminar in Chinese History: 1268–1895 ([3–6, max. 12])** *Guy* Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 572 Seminar in Twentieth Century Chinese History ([3–6, max. 12])** *Dong* Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 573 Seminar in Twentieth Century Chinese History ([3–6, max. 12]-)** *Dong* Materials and methods for research in twentieth-century Chinese history. Prerequisite: knowledge of Chinese and permission of instructor.

**HSTAS 574 Seminar in Twentieth Century Chinese History ([3–6, max. 12]-)** *Dong* Materials and methods for research in twentieth-century Chinese history. Prerequisite: knowledge of Chinese and permission of instructor.

**HSTAS 575 Seminar in Chinese History: Modern Period ([3–6, max. 12])** Research seminar in modern Chinese history. Training in the materials and methods of research, and preparation of extended research papers. Prerequisite: HSTAS 571–572 or permission of instructor and reading knowledge of Chinese.

**HSTAS 579 Modern Chinese History (5)** Introduction to the major English-language literature on modern Chinese history and to the major historiographical issues of the period. Prerequisite: HSTAS 454 or equivalent, and permission of instructor. Offered: jointly with SISEA 579.

**HSTAS 581 Modern Korean History (3–6, max. 6)** Field course. Prerequisite: permission of instructor.

**HSTAS 582 Seminar in Korean History ([3–6, max. 12]-)** Selected topics in Korean history and historiography.

**HSTAS 583 Seminar in Korean History (-[3-6, max. 12]-)**  
Selected topics in Korean history and historiography.

**HSTAS 584 Seminar in Korean History (-[3-6, max. 12])**  
Selected topics in Korean history and historiography.

**HSTAS 590 Topics in History (5, max. 15)** Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

## History of the Americas

**HSTAA 101 Survey of the History of the United States (5) I&S**  
Supplies the knowledge of American history that any intelligent and educated American citizen should have. Objective is to make the student aware of his or her heritage of the past and more intelligently conscious of the present.

**HSTAA 105 The Peoples of the United States (5) I&S**  
Surveys American diversity since 1500. Repeopling of America through conquest and immigration by Native Americans, Europeans, Africans, Asians, and Latin Americans. Contributions of various peoples and the conflicts between them, with special attention to changing constructions of race and ethnicity and evolving understandings of what it means to be American.

**HSTAA 150 Introduction to African-American History (5) I&S**  
Introductory survey of topics and problems in Afro-American history with some attention to Africa as well as to America. Provides some general knowledge and serves as a basic introductory course for a sequence of lecture courses and seminars in Afro-American history. Offered: jointly with AFRAM 150.

**HSTAA 185 Introduction to Latin American History: From Columbus to Castro (5) I&S**  
Survey of political, economic, and social history of Latin America from the Iberian conquest to the present. Lectures, discussions, and films focus on developing understanding of Latin America's current problems through study of their historical roots. Designed for the beginning student and the nonspecialist.

**HSTAA 202 Makers of American Foreign Policy, 1776 to the Present (5) I&S**  
Survey of the history of American foreign relations. Focus on the individuals responsible for initiating new foreign policies or for realigning old ones.

**HSTAA 205 Asian American History (5) I&S**  
Introductory history of Asian Indians, Chinese, Filipinos, Japanese and Koreans in the United States from the 1840s to the 1960s. Major themes include imperialism, labor migration, racism, community formation, and resistance.

**HSTAA 208 The City: People, Place, and Environments (5) I&S**  
Surveys the history of cities in North America and around the globe from 1800 to the present. Considers economic and technological change; politics and government; city planning and landscaping design; migration and immigration, race, gender, and class; suburbanization; popular culture; and natural environments and natural disasters.

**HSTAA 212 The Military History of the United States From Colonial Times to the Present (5) I&S**  
Development of American military policies, organizational patterns, tactics, and weaponry, from beginnings as a seventeenth-century frontier defense force to the global conflicts and military commitments of the twentieth century. Interaction and tension between need for an effective military force and concept of civilian control of that force.

**HSTAA 215 American South from the Revolution through the Civil War (5) I&S Kleit**  
Explores the history of the American South from the American Revolution through the Civil War, from a successful revolution to one that met defeat. Attention given to the diversity of people and changes over space and time. Offered: Sp.

**HSTAA 221 Environmental History of the U.S. (5) I&S**  
Surveys the relationship between nature and human history, including the impact of the non-human environment on American history and the environmental effects of colonization, urbanization, and consumerism; the cultural construction of nature in different eras and its social implications;

the sources and limits of modern environmental politics. Offered: jointly with ENVIR 221.

**HSTAA 225 American Slavery (5) I&S**  
Explores the making of American slavery from beginnings on the African coast to the plantations of the southern United States. Includes slave life, pro-slavery thought, slave management, representations of slavery then and now, abolitionism, and debates about slavery.

**HSTAA 230 Race and Power in America, 1861-1940 (5) I&S**  
Explores race and the shaping of American society between the Civil War and World War II. Topics include reconstruction, segregation and lynching, immigration and naturalization, imperialism, and movements for social justice.

**HSTAA 235 The American People and Their Culture in the Modern Era: A History of the United States Since 1940 (5) I&S**  
Through study of documents, personal testimony, and other source materials, through written reports on historical problems, and through discussions, lectures, films, and audiovisual presentations, students are encouraged to examine evidence and to think "historically" about persons, events, and movements within the memory of their own generation and that immediately preceding theirs. Primarily for first-year students.

**HSTAA 236 How Race Matters: Racial Norms in the Making of U.S. Society and Culture (5) I&S**  
Confronts U.S. racial history through a series of questions: Is U.S. history a story of increasing tolerance and inclusion, or a story about confronting and reconsolidating racial dominance? How have slavery, segregation, immigration, Indian removal, and imperialism defined national identity? How does racial exclusion intersect with class, gender, and sexuality?

**HSTAA 270 The Jazz Age (5) I&S**  
Interdisciplinary study of period after World War I to Great Crash. Afro-American and Anglo-American currents and impulses that flowed together in the Roaring Twenties. Covers politics of normalcy, economics of margin, literature of indulgence and confusion, transformation of race relations, and cultural influence of jazz. Offered: jointly with AFRAM 270.

**HSTAA 273 Women of the American West (5) I&S**  
Women of the Trans-Mississippi West, from the time of European contact to World War II, studied in all their multifarious roles. Explores ethnicity, class, work, family, suffrage, politics, reform, women's groups, arts and entertainment, religion, civilizing and resistance, and gender ideology.

**HSTAA 282 Social History of Mexico (5) I&S**  
Overview of Mexican history from late Aztec times until the twenty-first century. Emphasizes how women, campesinos, indigenous populations, free and enslaved Afro-Mexicans, and the urban poor experienced the past, challenged colonial and post-colonial rule, and shaped modern Mexican society and culture.

**HSTAA 285 Latin American History Through Film (5) I&S/VLPA**  
Critical analysis of Latin American films as historical documents. Subjects include Iberian conquest and colonialism, the struggle for independence in the nineteenth century, social revolutions of the twentieth century, and problems of contemporary development. Readings and lectures place each film in the context of the historiography of the subject matter.

**HSTAA 290 Topics in American History (5, max. 10) I&S**  
Examines special topics in American history.

**HSTAA 301 Foundations of American Civilization (5) I&S**  
Early America from the sixteenth century to the end of the American Revolution: the founding years, social and religious development, race relations, development of the Atlantic world, origins and legacy of American independence.

**HSTAA 302 American Civilization: The First Century of Independence (5) I&S**  
Establishment of the constitutional system; national expansion; intellectual and cultural development; internal conflicts, the Civil War, and Reconstruction.

**HSTAA 303 Modern American Civilization From 1877 (5) I&S**  
Emergence of modern America, after the Civil War; interrelationships of economic, social, political, and intellectual developments.

**HSTAA 313 African Americans in the American West (5) I&S**  
Explores pre-1848 Spanish-speaking black settlers, slavery, post-civil war migration, buffalo soldiers. 19th and 20th century black urban settlers, World War II migration, the civil rights movement in the West, the interaction of African Americans with other people of color. Particular focus on Seattle and the Pacific Northwest.

**HSTAA 315 Researching Indians' History (5) I&S**  
Finding and interpreting sources of information about American Indians' history. Offered: jointly with AIS 370:

**HSTAA 316 History of American Science (5) I&S**  
History of science in the United States, including migration of European science, development in colonial America, growth of an American scientific community, and expansion of American science in the twentieth century. Issues of scientific attitudes to the natural world, race, ethnicity, and gender are included.

**HSTAA 321 Becoming Black Americans (5) I&S**  
History of Africans in America from slave trade through the Civil War, with emphasis on how gender informed African-American experience. Topics include slave trade, middle passage, life in plantation south, culture, family structure and resistance, and the experience of free blacks, North and South.

**HSTAA 322 African-American History, 1865 To The Present (5) I&S**  
African-American experience from Reconstruction to the present, emphasizing the variety of African-American political expression. Gender and class differences closely examined, as well as such constructs as "community," "race," and "blackness."

**HSTAA 331 American Indian History to 1840 (5) I&S Harmon**  
History of Indigenous peoples and their descendants in the area that now constitutes the United States, from the eve of European discovery of the Americas to 1840. Emphasis on relations between Indigenous peoples and immigrants. Offered jointly with AIS 331.

**HSTAA 332 American Indian History II Since 1840 (5) I&S Harmon**  
History of American Indians in the United States from 1840 to the present. Emphasis on relations between Indians and non-Indians, government policies, and Indian strategies of survival. Offered jointly with AIS 332.

**HSTAA 334 The Sixties in America: Conflict, Confrontation, and Concession (5) I&S**  
Politico-cultural movements that collided in the sixties. Includes politics of confrontation and civil disobedience, economics of "guns and butter," literature of conflict and angst, polarization of arts, transformation of race relations, role of Rock, and influence of domestic politics on foreign relations. Recommended: AFRAM 150; AFRAM 270. Offered: jointly with AFRAM 334.

**HSTAA 336 American Jewish History Since 1885 (5) I&S**  
Political, social, economic, religious history of American Jewish community from great eastern European migration to present. Integration of immigrant community into general American community; rise of nativism; development of American socialism; World War I and II; and reactions of American Jews to these events. Offered: jointly with SISJE 336.

**HSTAA 338 The United States and Vietnam (5) I&S**  
American involvement in Vietnam, including: the complex negotiations; strategies and objectives of both sides; military, political, and economic operations of the United States; efforts at pacification; impact of Vietnam on American affairs.

**HSTAA 353 Class and Labor in American History (5) I&S**  
The history of workers and class formation from early industrialization to the present. Emphasizes the interaction of class with race, ethnicity, gender, and political culture within the context of American economic development. Explores the role of unions, labor politics, and radical movements.

**HSTAA 365 The History of the American Film (5) I&S/VLPA**  
Explores relationship between film and American social and cultural history. Considers films as products of specific periods, individual filmmakers, and developments within film industry. Examines representations of political and social issues on the screen, impact of movies on our understanding of the past, and significance of genres and visual styles.

**HSTAA 370 Consumer Culture in Twentieth Century America (5) I&S** Studies the American attempt in this century to create, sustain, and organize the world's first consumer-oriented industrial society. Topics to be considered include: the economy of mass consumption, how a culture of consumption was created, and the ideas of social critics who have rejected consumerism.

**HSTAA 371 Consumption and Consumerism in the Modern U.S. (5) I&S** Surveys the rise of consumer society in the late-nineteenth and twentieth-century United States including theories of consumption, the experience of consumer culture by different social groups, the role of the state in fostering consumption, the material impacts of consumer society in the U.S. and beyond, and critiques of consumerism.

**HSTAA 373 Social History of American Women to 1890 (5) I&S** A multi-racial, multicultural study of women in the United States from the 17th century to 1890 emphasizing women's unpaid work, participation in the paid labor force, charitable and reform activities, and 19th century social movements. Uses primary materials such as diaries, letters, speeches, and artifacts. Offered: jointly with WOMEN 383.

**HSTAA 374 Social History of American Women in the 20th Century (5) I&S** Analyzes major themes in the history of women in North America from 1890 through the 1990s. Themes include family and community formation, social activism, education, paid and unpaid labor patterns, war, migration, and changing conceptions of womanhood and femininity in the 20th century. Offered: jointly with WOMEN 384.

**HSTAA 377 History of Canada (5) I&S** General survey and analysis of political, economic, social, and cultural aspects of Canadian history from the foundation of New France to present; Canadian-American relations, the rise of Quebec nationalism, and the development of the Canadian West. Offered: jointly with SISCA 377.

**HSTAA 384 Latin America: Inter-American and Intra-Continental Relations (5) I&S** Inter-American relations, focusing on the United States' diplomatic and military responses to the problems of Latin America since 1776. Intra-Latin American relations and regional organizations (e.g., the Organization of American States).

**HSTAA 385 Colonial Society and the Negotiation of Rule in Latin America and the Caribbean (5) I&S** Examines the transition to Spanish and Portuguese rule in Latin America and the establishment, and eventual demise, of colonial systems linking Latin America to Europe and Africa. Asks how "colonized" groups mediated forms of colonial oppression and contributed to the development of colonial political culture.

**HSTAA 386 The Challenges of Post-Coloniality in Latin America and the Caribbean (5) I&S** Explores the legacies of, and ruptures from, colonialism and the new challenges Latin American and Caribbean peoples faced throughout the years after their struggles for independence from direct European rule. Emphasis on analysis of the negotiations and challenges entailed in the dynamic processes of national state formation in comparative perspective.

**HSTAA 401 American Revolution and Confederation (5) I&S** Causes of separation of the United States from the British empire; political theory of the Revolution; its military history; diplomacy of the Revolution; the Revolution as a social movement; intellectual aspects; readjustment after independence; the formation of the American union; the Constitution.

**HSTAA 404 New England: From the Foundings to the Civil War (5) I&S** New England from colonial beginnings to the region's emergence to national leadership in the mid-nineteenth century. Emphasis on Puritanism, the New England town, adjustment to empire, revolution and constitution making, the growth of party, abolitionism, the flowering of a regional culture, and the personalities who embodied these key themes and periods.

**HSTAA 406 Asian American Activism (5) I&S** Explores the multiple political traditions forged by Asian Americans, from the earliest challenges to racist laws and unequal wages to

the latest debates over affirmative action and racial profiling. Examines Asian American communities organized to oppose and to perpetuate social inequalities. Offered: jointly with AAS 406.

**HSTAA 407 Andrew Jackson's United States (5) I&S** In-depth examination of the U.S. from 1820 to 1850, including changes which affected American politics, society, and culture.

**HSTAA 409 American Social History: The Early Years (5) I&S** Survey of American society and institutions from the colonial era through the Civil War, with special attention to reform, labor, immigration, education, law enforcement and the city.

**HSTAA 410 American Social History: The Modern Era (5) I&S** Survey of American society and institutions from Reconstruction to the present with special attention to reform, poverty, social mobility, immigrant and ethnic groups, the city and law enforcement.

**HSTAA 411 The United States During the Era of Civil War and Reconstruction (5) I&S** Conflicting interests, ideologies, and ways of life in the United States from the 1840s to the 1870s.

**HSTAA 412 The Westward Movement, 1700-1850 (5) I&S** Anglo-American advance into interior of continental United States culminating in occupation of Far West. Rivalry with New France and New Spain in colonial period; role of federal government in westward expansion; land policy and land distribution; migration, settlement, and the pioneering experience; federal Indian policies and implementation; political evolution, urbanization, and economic development of trans-Appalachian West; shaping of national character and institutions.

**HSTAA 413 History of the Trans-Mississippi West (5) I&S** Anglo-American exploration, conquest, occupation, and exploitation of the trans-Mississippi West, with emphasis on economic development into the twentieth century. Considers wide range of developmental themes (social, political, cultural) in historiography of American West.

**HSTAA 414 The Canadian West, 1670-1990 (5) I&S** Examines the history of colonization and settlement of Canada's four westernmost provinces with emphasis on their economic, social, and Native history.

**HSTAA 415 History of Indian-White Relations in Anglo-America (5) I&S** Explores the wide variety of interactions in North America, ranging from close alliances to outright warfare, between Native Americans and Europeans and their descendants from contact through the removal of most of the remaining eastern Indians to land west of the Mississippi River during the 1830s.

**HSTAA 417 Indians in Western Washington History (5) I&S** Relations of Indians and non-Indians in the Puget Sound region, from the 1790s to the present, with emphasis on evolving ideas about Indian identity. Offered: jointly with AIS 425.

**HSTAA 426 American Urban History Since 1870 (3/5) I&S** Development of American cities for the past century. Topics include physical development, immigration, politics, and changes in society and culture.

**HSTAA 431 American Politics and Society Since 1920 (5) I&S** Political, social, economic, and intellectual developments in the United States from 1920 to the present.

**HSTAA 432 History of Washington and the Pacific Northwest (5) I&S** Exploration and settlement; economic development; growth of government and social institutions; statehood.

**HSTAA 433 A Documentary History of Pacific Northwest Identity (5) I&S** Findlay Considers cultural construction of Pacific Northwest region through more than two centuries of narratives, including Native American stories; travel literature from early explorers to modern tourists; accounts by newcomers from pioneer to modern era; aggressive regionalism of 1890-1945; Northwest literature of the post-war period. Offered: S.

**HSTAA 446 American Indian Economic History (5) I&S** Surveys and analyzes the history of American Indians'

economic challenges and strategies. Topics include the economic cultures of Indigenous North American societies, the impacts of European colonization and U.S. government policies, and tribal strategies aimed at improving Indians' economic circumstances. Offered: jointly with AIS 446.

**HSTAA 454 The Intellectual History of the United States (5) I&S/VLPA** Lectures and discussions devoted to the development of the American mind, from historical beginnings to the present.

**HSTAA 461 Diplomatic History of the United States, 1776-1901 (5) I&S** Foreign policy of the United States government prior to the twentieth century. Emphasis on international wars, territorial expansion, and the peculiarities of the American position in world politics.

**HSTAA 462 Diplomatic History of the United States, 1901-Present (5) I&S** Foreign policy of the United States government during the twentieth century. International wars and the other major episodes in diplomacy are emphasized.

**HSTAA 473 Homefront: American Cultures and Society in the 1940s (5) I&S** An exploration of the impact of WWII on American culture and social thought. Topics include the effects of war on civil liberties and civil rights, the uses of nationalism, patriotism, and racial ideology, the internment of Japanese-Americans, responses to the Holocaust, and the effects of war on social life.

**HSTAA 480 Labor and Popular Movements in Latin America (5) I&S** Interdisciplinary approach to origins and trajectory of labor movement from late nineteenth century to present. Emphasis in contemporary period on popular movements, including neighborhood associations, religious base communities, women's movement, and ethnic mobilization for democratic social and political reform. Recommended: two non-English-language Latin American studies courses. Offered: jointly with SISLA 480.

**HSTAA 481 History of Peru and the Andean Region (5) I&S** Traces the history of Peru specifically and the Andean highlands generally, from Inca times to the present, examining the shifting relationship between peasants, indigenous peoples, and the state. Analyzes historically why modern forms of peasant and indigenous political power differs radically between Peru, Bolivia, and Ecuador.

**HSTAA 482 The History of Brazil: Colonial Period to the Present (5) I&S** Colonial foundations; the first and second empires; the old and new republics; current problems; prospects for the future.

**HSTAA 487 History of Mexico: 1822 to the Present (5) I&S** Political, social, and economic history of Mexico from its independence from Spain to the present.

**HSTAA 488 History of the Caribbean and Central America (5) I&S** Political, social, and economic history of principal countries in the Caribbean and Central America from their discovery to the present.

**HSTAA 490 Topics in American History (5, max. 10) I&S** Examines special topics in American history.

**HSTAA 501 American History: Early (3-6, max. 6)**

**HSTAA 503 Seminar in American History, Early (3-) Research seminar in early American History, 1600-1875.**

**HSTAA 504 Seminar in American History, Early (3-6, max. 12) Research seminar in early American History, 1600-1875.**

**HSTAA 506 Slavery in the Americas (5)** Explores the rise of American slavery beginning with the development of the Atlantic slave trade between southern European powers and coastal African traders. Topics include cultures of slavery in the Americas, comparative racial formations, cultural change, and the role of gender in slave societies.

**HSTAA 508 American Urban History (5)** Covers major themes and scholarly literature in American urban history.

**HSTAA 512 American History: Western (3-6, max. 6)**

**HSTAA 513 Seminar in American History: Western ([3-6, max. 12]-)**

**HSTAA 514 Seminar in American History: Western (-[3-6, max. 12])**

**HSTAA 516 Hispanics of the United States (3-6, max. 6)**

**HSTAA 517 Field Course in American Indian History (5)** Field-reading course. Survey of major problems and literature concerning indigenous peoples of North America and their descendants.

**HSTAA 519 Asian American History (5)** Introduces students to the field of Asian American history, with an emphasis on historiographical shifts and debates. Includes a broad range of topics and methodologies that often cross disciplinary boundaries.

**HSTAA 521 American History: Writings and Interpretations, 1770-1870 (4-6)**

**HSTAA 522 American History: Writings and Interpretations Since 1870 (4-6)**

**HSTAA 524 American Social History Before 1860 (3-6, max. 6)** Field course. Survey of major problems and literature in American social history before 1860.

**HSTAA 525 American Social History After 1860 (3-6, max. 6)** Field course. Survey of major problems and literature in American social history after 1860.

**HSTAA 531 American History: Twentieth Century (3-6, max. 6)**

**HSTAA 532 Seminar in American History: Recent Period ([3-6, max. 12]-)**

**HSTAA 533 Seminar in American History: Recent Period (-[3-6, max. 12]-)**

**HSTAA 534 Seminar in American History: Recent Period (-[3-6, max. 12])**

**HSTAA 540 African American Urban History: 1700-2000 (5)** Examines the growth and evolution of African-American urban communities from the colonial era to the present, with particular emphasis on cities of the West.

**HSTAA 549 Culture, Politics, and Power in Nineteenth-Century Black America (5)** Canonical issues, problems, and topics in nineteenth-century black social history. Traces major developments during the period; engages historiographical debates; and explores methodological questions such as the intersection of social and cultural history, and the challenges and possibilities of writing the history of a people with few written records.

**HSTAA 550 African-American History to Reconstruction (5)** Comprehensive introduction to the major topics and writings in African-American history from the colonial era to 1900, including the inception of slavery, free Blacks, slave revolts, Black abolition, Blacks in the Civil War and Reconstruction, and the Black female role in the struggle for freedom.

**HSTAA 551 African-American History Since Reconstruction (5)** Comprehensive introduction to the major topics and writings in African-American history in the twentieth century, including Jim Crow era, Black Women's Movement, Harlem Renaissance, legal origins of Civil Rights Revolution, Second Reconstruction, and Politics of Cultural Pluralism.

**HSTAA 552 Graduate Seminar in African-American History (5-)** Research experiences and opportunities in African-American history. Provides students with skills and methodology to pursue advanced research in the field.

**HSTAA 553 Graduate Seminar in African-American History (5)** Research experiences and opportunities in African-American history. Provides students with skills and methodology to pursue advanced research in the field.

**HSTAA 554 American History: Intellectual (3-6, max. 6)**

**HSTAA 555 Seminar: American Intellectual History ([3-6, max. 12]-)** Develops research and writing competence in American intellectual history. Prerequisite: permission of instructor or graduate program coordinator.

**HSTAA 556 Seminar: American Intellectual History (-[3-6, max. 12])** Develops research and writing competence in American intellectual history. Prerequisite: permission of instructor or graduate program coordinator.

**HSTAA 561 History of American Foreign Policy (3-6, max. 6)**

**HSTAA 562 Seminar in American Diplomatic History ([3-6, max. 12]-)**

**HSTAA 563 Seminar in American Diplomatic History (-[3-6, max. 12])**

**HSTAA 570 American Environmental History (5)** Readings in environmental history emphasizing theory, methodology, and principal themes in the field. Readings emphasize the environmental history of North America and the United States.

**HSTAA 581 Latin American History: Colonial Period (3-6, max. 6)**

**HSTAA 582 Latin American History: National Period (3-6, max. 6)**

**HSTAA 583 Seminar in Latin American History ([3-6, max. 12]-)** Problems of historical research in the history of Latin America from colonial beginnings to the present.

**HSTAA 584 Seminar in Latin American History (-[3-6, max. 12]-)** Problems of historical research in the history of Latin America from colonial beginnings to the present.

**HSTAA 585 Seminar in Latin American History (-[3-6, max. 12])** Problems of historical research in the history of Latin America from colonial beginnings to the present.

**HSTAA 586 Seminar in Comparative Colonial History ([3-6, max. 12]-)**

**HSTAA 587 Seminar in Comparative Colonial History (-[3-6, max. 12])**

**HSTAA 590 Topics in American History (5, max. 15)** Seminar on selected topics in American history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

## Modern European History

**HSTEU 210 Paris (5) VLPA/I&S** Provides an introduction to the history, art, architecture, politics, and literature of the City of Light.

**HSTEU 211 France: A Portrait (5) I&S** Thematic approach to the history of France. Abandons the conventional chronological format in favor of a constellation of topics and themes—architecture, science, sex, cities, barricades, etc.—that, taken together and in historical perspective, make up a portrait of France.

**HSTEU 220 Introduction to East European Studies (5) I&S** Introduction to the history of post-1945 Eastern Europe focusing on political, economic, social, cultural, and diplomatic issues. Countries surveyed include Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Romania, and Yugoslavia. Offered: jointly with EURO 220.

**HSTEU 250 Rome (5) I&S/VLPA** Focuses on Rome as an historical, intellectual, and artistic world center. Literary and historic documents, visual arts, architecture, film, and opera used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with ART H 250/ITAL 250.

**HSTEU 273 Women and Gender in Modern Europe (5) I&S** Examines European women's changing social role and competing views of femininity from the Enlightenment to the end of the cold war. Special focus on the relationship of gender and politics and on the female body in bourgeois society, industrialization, imperialism, the welfare state, fascism, and the cold war.

**HSTEU 274 Twentieth Century Europe (5) I&S** Introduction to themes in 20th-century European history (1890s-1900s), including the histories of fascism, world war, communism, decolonization, and the fate of Europe under the European Union.

**HSTEU 275 Life in England (5) I&S** Social history of England from the Norman conquest to the present, seen through letters, autobiographies, novels, and plays of the time. Life of the ordinary inhabitant in the village and the manor house.

**HSTEU 290 Topics in European History (5, max. 10) I&S** Examines special topics in European history.

**HSTEU 301 Early Modern European History: 1450-1648 (5) I&S** Political, social, economic, and cultural history from the late Renaissance to the Peace of Westphalia.

**HSTEU 302 Modern European History: 1648-1815 (5) I&S** Political, social, economic, and cultural history from the Peace of Westphalia to the fall of Napoleon.

**HSTEU 303 Contemporary European History Since 1815 (5) I&S** Political, social, economic, and cultural history from the fall of Napoleon to the present.

**HSTEU 304 Cultural History of Renaissance Europe (5) I&S/VLPA** Examination of Medicean Florence, late sixteenth-century France, Elizabethan England, and the baroque courts of the early seventeenth century as cultural centers. Includes analysis of painters such as Botticelli and Rubens; poets such as Ronsard and Donne; philosophers such as Pico and Montaigne; and playwrights such as Marlowe, Shakespeare and Lope de Vega.

**HSTEU 305 European Witch Trials (5) I&S** Witchcraft and magical beliefs in Europe considered as a problem in intellectual, social, and legal history. Medieval background, systematization of witchcraft theory in fifteenth century; comparison of learned and popular beliefs; mechanisms of witch trials and inquisitorial procedure; the Faust legend; growth of skepticism and decline of witchcraft in seventeenth century.

**HSTEU 323 France Since 1814 (5) I&S** Political, economic, and social history since the Congress of Vienna. Special emphasis upon the continuity of the revolutionary tradition.

**HSTEU 334 Germany 1871-1989 (5) I&S** Society and politics from Germany's first unification to its reunification; domestic and foreign policy; political, economic, social, and cultural developments; high emphasis on German society's self-perception and on the variety of interpretations of this period's history Offered: by different "schools" of historians.

**HSTEU 361 Spain and Its Golden Age, 1469-1700 (5) I&S** History and culture of Spain and its empire from the late Middle Ages through the seventeenth century.

**HSTEU 364 Modern Greece: 1821 to the Present (5) I&S** Politics and society of Greece from War of Independence to the present. Emergence and development of the Greek state; Greece in the world wars; civil war and post-war politics; military dictatorship; transition to democracy; recent developments. No prior study of Greece assumed. Offered: jointly with EURO 364.

**HSTEU 368 Modern European Jewish History (5) I&S** Surveys European Jewish history from the Spanish expulsion (1492) to World War I (1914). Considers diversity of European Jewries and the factors that cohered them. Examines how European Jewries ordered their lives, shaped gender and class norms, and interacted with the societies in which they lived. Offered: jointly with SISJE 368.

**HSTEU 370 J.R.R. Tolkien: A Mythology for England (5) VLPA/I&S** Explores J.R.R. Tolkien in historical context. Influence of the nineteenth-century philosophy and folklore, World War I, Germanic mythology, Oxford Christianity, and the Inklings. Primary themes include language as a source of myth, fate and free will, religion, technology and nature, heroism and war, race and evil.

**HSTEU 376 Modern Irish History (5) I&S** Political and social history from 1800 to the present; the Irish Question after the Act of Union; development of Irish nationalism in the Home Rule and Sinn Féin periods; the Irish Free State and Northern Ireland since 1921; current problems in Northern Ireland.

**HSTEU 378 The Making of Contemporary France (5) I&S** Historical origins and subsequent development of nine contemporary problems and characteristics of French government and politics, economy, and society.

**HSTEU 380 History of Scandinavia to 1720 (5) I&S** Scandinavian history from the Viking Age to 1720, with an emphasis on the political, social, and economic development of Denmark, Norway, Sweden, Finland, and Iceland from the Middle Ages to the Enlightenment. Offered: jointly with SCAND 380.

**HSTEU 381 History of Scandinavia Since 1720 (5) I&S** Scandinavian history from the Enlightenment to the Welfare State with emphasis on the political, social, and economic development of the modern Scandinavian nations of Denmark, Norway, Sweden, Finland, and Iceland. Offered: jointly with SCAND 381.

**HSTEU 401 The Italian Renaissance: (5) I&S** Conditions of Renaissance culture: Italian republics and despots, humanism, the classical ideal of the arts, Machiavelli and the foundations of modern political thought; the end of an era.

**HSTEU 402 The Reformation (5) I&S** Origins of the disunity of Europe in the crisis of the sixteenth century with emphasis on the relations between religion and politics.

**HSTEU 405 European Intellectual History: Eighteenth Century (5) I&S/VLPA** Development of the social sciences, moral theory, political theory, and religious thought in eighteenth-century Europe. Rationalism, empiricism, utilitarianism, and the sources of idealism.

**HSTEU 406 European Intellectual History: Nineteenth Century (5) I&S/VLPA** Selected topics in intellectual history up to 1890. The philosophical consequences of the French Revolution, the development of idealism, conservatism, romanticism, and early socialist theory; positivism, the problems of historicism, new forms of Christian apologetics, utilitarianism in decline, liberalism as philosophy, the early Marx.

**HSTEU 407 European Intellectual History: Twentieth Century (5) I&S/VLPA** Selected topics in the intellectual history of the late nineteenth and early twentieth centuries. The aftermath of Darwinism, the problems of methodology in modern social science, historicism and moral relativism, irrationalism in philosophy and social theory, revisionism in secular and orthodox religions.

**HSTEU 411 Europe: 1814–70 (5) I&S** Development of Europe during the age of Metternich, the revolutions of 1848, and the emergence of new national states.

**HSTEU 412 Europe in the Age of the Masses: 1870–1914 (5) I&S** Impact of population increase and technological change on European society; stresses and strains in European life and outlook.

**HSTEU 413 Europe: 1914–45 (5) I&S** Politics and society of Europe in the age of the concentration camp.

**HSTEU 414 Europe Since 1945 (5) I&S** Political, economic, and military developments in Europe under the impact of the Cold War.

**HSTEU 415 Europe in the Second World War (5) I&S** Inquiry to discover what the war of 1939–45 was about and what it did to more than five hundred million Europeans.

**HSTEU 422 The French Revolution and Napoleon: 1789–1815 (5) I&S** Transformation of France under the Revolution of 1789; the Reign of Terror and Napoleon; the impact of the revolution and Napoleon upon Europe.

**HSTEU 432 Germany: 1914–1945 (5) I&S** Politics and society from the collapse of the Bismarckian empire to the collapse of Hitler's empire.

**HSTEU 435 World War I (5) I&S** European society on the eve of the war. War experience of the Europeans. Long term consequences of the war on European social, political, and economic institutions. Impact of the war on non-European world. The war in European literature.

**HSTEU 440 History of Communism (5) I&S** Communism from its origins in the Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Recommended: two history or politics of Europe courses. Offered: jointly with SIS 440.

**HSTEU 444 Imperial Russia: 1700–1900 (5) I&S** Development of Russia from Peter the Great to Nicholas II. Offered: jointly with SISRE 444.

**HSTEU 445 Twentieth-Century Russia (5) I&S** Russia and the USSR from Nicholas II to the present. Offered: jointly with SISRE 448.

**HSTEU 451 East-Central Europe Since 1342 (5) I&S** Explores the history of the lands and peoples of East Central Europe (Poles, Czechs, Slovaks, and Hungarians).

**HSTEU 452 Eastern Europe Since 1918 (5) I&S** Poland, Czechoslovakia, Hungary, Romania, Yugoslavia, Bulgaria, and Albania, from the end of World War I to the present.

**HSTEU 453 History of the Balkans, 1400 to the Present (5) I&S** Centuries of Ottoman rule that produced a new basis for the reemergence of independent states in the nineteenth and twentieth centuries; history of these new states until the present.

**HSTEU 454 Baltic History (5) I&S** Overview of the history of the area occupied by the Baltic countries of Latvia, Lithuania, and Estonia. Emphasizes their emergence as modern European nation-states. Era from World War I to present treated in depth, including the historical role and present situation of non-Baltic peoples, particularly Russians. Offered: jointly with SCAND 454.

**HSTEU 464 The Jews in Spanish History (5) I&S** Sephardic Jews in Spanish politics, economy, and culture, emphasizing the medieval Golden Age and the Inquisition. Offered: jointly with SISJE 464.

**HSTEU 465 The Jews of Eastern Europe (5) I&S** Jewish society in Poland, Russia, the Hapsburg Lands, and Romania from the late Middle Ages to the Holocaust. Offered: jointly with SISJE 465.

**HSTEU 466 The Sephardic Diaspora: 1492–Present (5) I&S** Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with SISJE 466.

**HSTEU 470 The Jacobethan Age: England 1580–1630 (5) I&S** Emphasis on arts and society instead of the traditional kings, battles, and politics; the way people at all levels of society lived, in towns and in the countryside, within the bounds of the royal court or outside in the political wilderness. Classes on poetry, drama, music, architecture, painting, interior decoration, and some of the minor arts, as well as on demography and some of the traditional historical subjects. Not open for credit to students who have taken 471 or 472.

**HSTEU 471 England in the Sixteenth Century (5) I&S** Political, administrative, and social history from Henry VII to Elizabeth I, with emphasis on the Reformation and its effects and on conditions of life in Elizabethan England. Not open to students who have taken 470.

**HSTEU 472 England in the Seventeenth Century (5) I&S** Political, administrative, and social history from the accession of James I to the Glorious Revolution. Not open to students who have taken 470.

**HSTEU 474 England in the Nineteenth Century (5) I&S** Political, social, and cultural development; the agrarian, industrial, and French revolutions; the rise of parliamentary democracy; the Victorian age; political thought from utilitarianism to Fabianism; Irish home rule.

**HSTEU 475 England in the Twentieth Century (5) I&S** From the Boer War to the present; conservatism, liberalism, and socialism; England in two world wars; the decline of British imperialism.

**HSTEU 482 Fascism in Europe (5) I&S** History of the fascist era in modern Europe from 1919 to 1945. A study of the principal examples of national fascism and fascist-like movements coupled with a general theoretical consideration of the phenomenon.

**HSTEU 484 Colonial Encounters (5) I&S** History of European colonialism from the 1750s to the present, with an emphasis on British and French colonial encounters. Offered jointly with CHID 484.

**HSTEU 490 Topics in European History (5, max. 10) I&S** Examines special topics in European history.

**HSTEU 501 Renaissance Field Course (3–6, max. 6)** Topics in the cultural, political, and social history of the Renaissance era.

**HSTEU 502 Reformation Field Course (3–6, max. 6)** Topics in the religious, political, and social history of the Reformation era.

**HSTEU 505 Early Modern European History (3–6, max. 18)** Select topics in early modern European history. Topics vary from quarter to quarter. Prerequisite: permission of instructor.

**HSTEU 510 Core Seminar in the History of Modern Europe (5–)** An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

**HSTEU 511 Core Seminar in the History of Modern Europe (5–)** An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

**HSTEU 512 Core Seminar in the History of Modern Europe (5–)** An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

**HSTEU 513 Europe and the Modern World I (5)** Provides an acquaintance with some of the themes, problems, and events in the history of modern Europe, 1789–1914, including Europe's larger global engagements. Offers foundation for advanced thematic or regional study, a basis for comparative historical study within Europe and beyond, and preparation for teaching entry-level and advanced undergraduate surveys.

**HSTEU 515 Modern European Intellectual History (3–6, max. 6)**

**HSTEU 516 Seminar: European Intellectual History ([3–6, max. 6]–)**

**HSTEU 517 Seminar: European Intellectual History ([3–6, max. 6])**

**HSTEU 521 Modern European History: France (3–6, max. 6)**

**HSTEU 522 Seminar in French History ([3–6, max. 12]–)**

**HSTEU 523 Seminar in French History ([3–6, max. 12]–)**

**HSTEU 524 Seminar in French History ([3–6, max. 12])**

**HSTEU 531 Modern European History: Germany (3–6, max. 6)**

**HSTEU 532 Seminar in Modern European History: Germany ([3–6, max. 12]–)**

**HSTEU 533 Seminar in Modern European History: Germany ([3–6, max. 12]–)**

**HSTEU 534 Seminar in Modern European History: Germany ([3–6, max. 12])**

**HSTEU 544 Modern Russian History (3–6, max. 6)**

**HSTEU 545 Seminar in Modern Russian History ([3–6, max. 12]–)** Prerequisite: reading knowledge of Russian and either French or German.

**HSTEU 546 Seminar in Modern Russian History ([3–6, max. 12]–)** Prerequisite: reading knowledge of Russian and either French or German.

**HSTEU 547 Seminar in Modern Russian History ([3–6, max. 12])** Prerequisite: reading knowledge of Russian and either French or German.

**HSTEU 548 Field Course in Soviet History (3–6, max. 6)** Specialized course for graduate history students in the scholarly literature of Russian history since 1917. Intended for graduate students preparing for MA or PhD field examination in Russian history of the Soviet period.

**HSTEU 551 History of Eastern Europe: 1772–1939 (5)** Study of the east-central European region: Poland, Czechoslovakia, Hungary, Romania, and the Balkan countries, from their

rebirth to World War II. Prerequisite: reading knowledge of German, French, Russian, or one East European language.

**HSTEU 552 History of Eastern Europe: 1939 to the Present (5)** Prerequisite: reading knowledge of one major European or one East European language.

**HSTEU 553 Seminar in Modern East European History ([3-6, max. 6]-)** Study and research involving special methods dealing with the histories of the East European countries in the modern period.

**HSTEU 554 Seminar in Modern East European History (-[3-6, max. 6]-)** Study and research involving special methods dealing with the histories of the East European countries in the modern period.

**HSTEU 555 Seminar in Modern East European History (-[3-6, max. 6])** Study and research involving special methods dealing with the histories of the East European countries in the modern period.

**HSTEU 571 English History: Tudor and Stuart (3-6, max. 6)**

**HSTEU 572 English History (3-6, max. 6)**

**HSTEU 573 Seminar in Modern English History ([3-6, max. 6]-)**

**HSTEU 574 Seminar in Modern English History (-[3-6, max. 6])**

**HSTEU 575 Seminar in Tudor-Stuart History ([3-6, max. 12]-)** History of England under the Tudors and the Stuarts. Prerequisite: HSTEU 571 or permission of instructor.

**HSTEU 576 Seminar in Tudor-Stuart History (-[3-6, max. 12])** History of England under the Tudors and the Stuarts. Prerequisite: HSTEU 571 or permission of instructor.

**HSTEU 590 Topics in History (5, max. 15)** Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

## Human Rights

### PROGRAM OVERVIEW

The issue of human rights has attracted increased attention around the world. The tri-campus Human Rights minor at the University of Washington provides students the opportunity to learn about the political, philosophical, economic, cultural, and legal aspects of this complex subject.

### UNDERGRADUATE PROGRAM

#### Adviser

42 Gowen, Box 353530

206-543-2396

[lsjadv@uw.edu](mailto:lsjadv@uw.edu)

111 Thomson, Box 353650

206-543-6001

[jsisadv@uw.edu](mailto:jsisadv@uw.edu)

The human rights minor is offered at all three University campuses, allowing students to take advantage of the expertise available on the campuses where they are not regularly in residence, although the minor can be completed on any one campus.

#### Minor

*Minor Requirements:* 25 credits, to include the following:

- 10 credits from an approved list of courses\* concerned with human rights as a core concept.
- 5 credits from an approved list of courses\* concerned with human rights in a broad context.

- 10 additional credits drawn from the above approved lists of courses\* concerned with human rights.
- At least 3 credits of the required 25 credits must be in a human-rights-related internship, practicum, international study abroad, or demonstrated equivalent. Courses that satisfy this requirement include BIS 403, BIS 480; LSJ 310, LSJ 499, POL S 496, SIS 399, and similar practicum and study-abroad courses in other programs (on the Seattle campus); and TIAS 496. See adviser for faculty-approved alternatives. Courses used to satisfy this requirement must be approved/supervised by the faculty offering courses appropriate to the minor. Credits for the minor may be completed across the three UW campuses, or on any single campus. If the minor is completed by a Seattle-major student, no more than 10 credits applied to the minor may be in the student's major department.

\* The list of core courses and context courses is maintained by the Human Rights Advisory Committee. For the current list of such courses, see [depts.washington.edu/hrights/hrminor.html](https://depts.washington.edu/hrights/hrminor.html). Note: From time to time, the advisory committee adds, subtracts, or reclassifies courses on the approved list. Students who have planned their studies on the basis of an earlier list may fulfill the requirements of the minor as specified in that earlier list.

## Humanities (Evening Degree)

### PROGRAM OVERVIEW

103 Lewis Hall

This multidisciplinary major includes upper-division humanities courses selected by faculty of the College of Arts and Sciences. Students explore diverse perspectives in thematically related courses from classics, literature, intellectual history, comparative religion, communications, and art history. Focus is on the ways human beings from different cultures understand their world through communication, literature, and the arts. Students discuss literary and artistic works from a variety of perspectives and approaches, as well as theories of interpretation and practical communication. Analytical, research, and communication skills which can enhance a person's career opportunities are emphasized. Coursework encourages greater understanding of issues, ideas, and themes in history and the contemporary world.

### UNDERGRADUATE PROGRAM

#### Adviser

103 Lewis Hall, Box 353921

206-543-6160

[advisers@extn.washington.edu](mailto:advisers@extn.washington.edu)

Humanities offers the following program of study:

- The Bachelor of Arts degree with a major in humanities

#### Bachelor of Arts

*Suggested First- and Second- Year College Courses:* English composition and additional writing. Introductory courses in Visual, Literary, & Performing Arts (VLPA) and Individuals & Societies (I&S). First-year foreign language study.

#### Program Admission Requirements

- [Admission](#) to the Evening Degree program (separate from admission to the UW day program).
- Minimum 75 college quarter credits completed. Most students admitted have completed two years of lower-division college work.

- See adviser for evaluation of applicable courses and credits.

#### Major Requirements

60 credits from the approved list of humanities courses, as follows:

- Not more than 15 credits in 200-level courses (some or all of which may have been completed prior to admission to the major).
- At least 45 credits of 300- and 400-level courses, of which a minimum 15 credits must be at the 400 level.
- Minimum 2.25 GPA for all courses counted toward the major.
- For list of applicable courses, consult the adviser or go to [www.evedegree.washington.edu/edp/majors/humanities\\_courses.asp](http://www.evedegree.washington.edu/edp/majors/humanities_courses.asp).

#### Additional Degree Requirements

- English composition and additional writing (15 credits)
- Quantitative and Symbolic Reasoning (QSR) (4-5 credits)
- Foreign language - through the third quarter of a single foreign language (0 to 15 credits, depending on placement)
- Areas of Knowledge
  - Visual, Literary, & Performing Arts (VLPA) (20 credits)
  - Individuals & Societies (I&S) (20 credits)
  - Natural World (NW) (20 credits)
  - Some credits in VLPA and/or I&S may count also toward the major
- Additional work to complete a minimum 180 credits overall.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Students investigate the social, historical, ethical, and aesthetic meanings attached to and manifested in cultural texts and artifacts. These include visual, literary, performance, and philosophical works in different forms and genres, and in different historical periods and cultural contexts. Students gain a critical understanding of developments in and approaches to the study of literary and cultural forms, as well as the processes by which they are produced, received, and used. They develop an appreciation for the complexities and nuances of language, literature, and cultural expression and communication. In learning to interpret and contextualize texts, to pose questions, to construct arguments, and to conduct effective research, students become better critical thinkers, speakers, and writers, capable of engaging cultural debates and producing new cultural knowledge.

Specific skills developed include writing in various genres; critical, analytic, and integrative thinking; textual and archival research in different media; argumentation; and effective public speaking.

Humanities majors pursue widely varied careers, including education, editing, private enterprise, public administration, creative writing, management, arts administration, museology, development and events planning.

- *Instructional and Research Facilities:* Students use all university library resources and facilities corresponding with their individual research needs. In addition, each of the contributing humanities academic departments offers individual resources to majors. Check with advisers for options.
- *Honors Options Available:* For Interdisciplinary Honors, see University Honors Program.
- *Research, Internships, and Service Learning:* The program works collaboratively with students interested in pursuing independent study and research opportunities

through academic departments that contribute to the major. Opportunities for work with the Carlson Center, Office of International Programs and Exchanges, and service learning are possible for all students.

- **Department Scholarships:** The Evening Degree program awards need-based financial aid assistance each year to students from a general fund. Two additional scholarship resources are the Rodney I. Straub Endowed Scholarship and the Nicole Snyder Dettmar Endowed Scholarship.
- **Student Organizations/Associations:** None at present.

## Individualized Studies

### PROGRAM OVERVIEW

171 Mary Gates Hall

Individualized Studies is an interdisciplinary major option for students who wish to create a program of study by combining selected courses from two or more departments. Students are required to identify a central organizing theme for their major and design it under the guidance and supervision of at least two faculty members and an Individualized Studies adviser.

### UNDERGRADUATE PROGRAM

#### Adviser

171 Mary Gates Hall, Box 352805

206-543-2550

[istudy@uw.edu](mailto:istudy@uw.edu)

The Individualized Studies program offers the following programs of study:

- Bachelor of Arts
- Bachelor of Science
- Degree depends on the theme and curriculum of the approved major.
- Ethnomusicology, technical writing, and public health are three faculty-designed major options also available through Individualized Studies. Ethnomusicology (B.A.) focuses on the study of world cultures through their musical expression. Technical writing (B.A. or B.S.) offers the study of writing and other modes of communication in a variety of technical environments. Public health (B.A. or B.S.) involves the study of historical and contemporary issues in public health, including social and behavioral determinants of health, the geography of health and illness, the etiology of chronic and infectious diseases, the relationship between environmental factors and health, and access to health care and modes of delivery of health services.

### Bachelor of Arts, Bachelor of Science

*Suggested First- and Second-Year College Courses:* Varies, depending on student's area of concentration.

#### Program Admission Requirements

Before developing an Individualized Studies major, students should read "[Designing an Individualized Studies Major](#)," or obtain a copy from the Undergraduate Gateway Center, 171 Mary Gates Hall. Particular attention should be paid to the sections defining restrictions on themes and restricted access to courses. Individualized Studies majors are not possible in a number of subjects because the UW does not offer sufficient coursework. Upper-division courses in departments with competitive admission are generally not available to students not in that major and ordinarily cannot be included in Individualized Studies proposals.

After reading the guidelines, the student must go through the following steps to design a major:

- Identify the unifying interdisciplinary theme of the program.
- Make a list of courses taken or planned to be taken toward this goal. This list should comprise between 50 and 70 quarter credits, all of which are related to the area of concentration. These courses must come from at least two departments, but may come from any number of areas, so long as interrelationships are discernible. Most courses must be at the 300- or 400-level. At least half the 50–70 credits selected for the major must come from courses taught within the College of Arts and Sciences.
- Draft a statement that describes the proposed major and discusses the interrelationships among the courses chosen. Propose a brief, descriptive title for the major.
- Submit the proposal to the Individualized Studies Committee for initial approval. Prospective majors should submit proposals to the Individualized Studies Committee for review at least three quarters prior to graduation.
- Identify at least two faculty sponsors for the major. The faculty sponsors attest to the intellectual soundness of the proposal and agree to provide whatever guidance is jointly decided upon. They may also suggest changes in the previously approved written proposal or list of courses.
- Obtain final approval from an Individualized Studies adviser.
- Transfer students must be enrolled at the UW before applying to the major.
- Admission requirements for the three faculty-designed major options vary. See an adviser for more details.

#### Major Requirements

55 to 70 credits, including completion of the approved curriculum and a 5-credit required senior study (minimum grade of 2.7 required for senior study). Awarding of the Bachelor of Arts or Bachelor of Science degree depends on the content of each student's program.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Varies, depending on student's area of concentration.
- *Instructional and Research Facilities:* None
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* None
- *Department Scholarships:* None offered
- *Student Organizations/Associations:* None

### COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsct/](http://www.uw.edu/students/crsct/)

### General Studies

**GEN ST 101 University Learning Skills (1–3)** Introduction to university culture. Practice in skills necessary for academic success, including note-taking, test-taking, writing, active learning, and time and stress management. Academic planning. Introduction to university resources.

**GEN ST 105 Introduction to Liberal Studies (1–10, max. 10)** Designed to increase the academic proficiencies of new freshmen entering the University. Includes coursework in the liberal arts and sciences and related work in writing,

speaking, and mathematics. Introduces students to computing and campus culture. Credit/no credit only.

**GEN ST 160 Discovery Seminar in the Humanities (5) VLPA** Small intensive seminar focusing on the visual, literary, and performing arts taught during Early Fall Start led by faculty representing a wide spectrum of academic disciplines and interests. Offered: A.

**GEN ST 161 Discovery Seminar in Individuals and Society (5) I&S** Small intensive seminar focusing on individuals and society taught during Early Fall Start led by faculty representing a wide spectrum of academic disciplines and interests. Offered: A.

**GEN ST 162 Discovery Seminar in the Natural World (5) NW** Small intensive seminar focusing on the natural world taught during Early Fall Start led by faculty representing a wide spectrum of academic disciplines and interests. Offered: A.

**GEN ST 197 Freshman Seminar (1–3, max. 3)** Small-group discussion with faculty representing a wide spectrum of academic disciplines. Topics and approaches vary. Instructor may introduce research techniques or findings, concentrate on readings in his/her area of interest, or illustrate problems and alternatives related to the study of a particular academic discipline. Credit/no credit only. Offered: AWSp.

**GEN ST 199 The University Community (1–2, max. 2)** Introduces students to various aspects of the University of Washington community. Includes exploration of university resources and opportunities, and academically related skill development. Credit/no credit only. Offered: A.

**GEN ST 300 Colloquium on Education, Learning, and Society (1, max. 3) I&S** Creates a learning community among Education minor students and their instructors. Students learn from researchers and practicing educators about current pedagogical projects and theories. Fosters self-reflexive projects to build understanding of learning pathways.

**GEN ST 340 Community Fieldwork: Law (1–5, max. 5)** Credit/no credit only.

**GEN ST 341 Community Fieldwork: Law (1–5, max. 5)** Credit/no credit only.

**GEN ST 342 Community Fieldwork: Health (1–5, max. 5)** Credit/no credit only.

**GEN ST 343 Community Fieldwork: Health (1–5, max. 5)** Credit/no credit only.

**GEN ST 344 Community Fieldwork: Social Services (1–5, max. 5)** Credit/no credit only.

**GEN ST 345 Community Fieldwork: Social Services (1–5, max. 5)** Credit/no credit only.

**GEN ST 346 Community Fieldwork: Education (1–5, max. 5)** Credit/no credit only.

**GEN ST 347 Community Fieldwork: Education (1–5, max. 5)** Credit/no credit only.

**GEN ST 348 Community Fieldwork: Special Topics (1–5, max. 5)** Credit/no credit only.

**GEN ST 349 Community Fieldwork: Special Topics (1–5, max. 5)** Credit/no credit only.

**GEN ST 350 Independent Fieldwork (1–6, max. 18)** Independent fieldwork in community agencies, apprenticeships, internships, as approved for College of Arts and Sciences credit. Faculty sponsor and internship supervisor are required. Credit/no credit only. Offered: AWSpS.

**GEN ST 391 Supervised Study in Selected Fields (\*, max. 15)** Special supervised study in a field represented in the College of Arts and Sciences. Faculty supervisor required. Credit/no credit only. Offered: AWSpS.

**GEN ST 470 Undergraduate Peer Instructor Practicum (1–3, max. 12)** Provides instruction in group leadership and promotion of values and methods of learning within a university setting. For Peer Instructors in the FIG and TRIG programs. Credit/no credit only. Offered: AWSpS.

## Individualized Studies

**INDIV 493 Senior Study (5)** For Individualized Studies majors only. Faculty supervisor required. Offered: AWSpS.

## International Studies

### SCHOOL OVERVIEW

401 Thomson

The Henry M. Jackson School of International Studies organizes and supports interdisciplinary teaching and research in international affairs. The school consists of a group of interdisciplinary area-studies programs on major world regions, as well as topical and comparative programs of study that transcend national and regional boundaries.

### UNDERGRADUATE PROGRAM

#### Adviser

111 Thomson, Box 353650

206-543-6001

[jsisadv@uw.edu](mailto:jsisadv@uw.edu)

The School of International Studies offers the following programs of study:

- The Bachelor of Arts degree with a major in Asian studies, Canadian studies, comparative religion, European studies, international studies, Jewish studies, or Latin American studies
- Minors in Africa and the African diaspora, Canadian studies, China studies, comparative Islamic studies, comparative religion, European studies, international studies, Japan studies, Jewish studies, Korea studies, Latin America studies, South Asian studies, and Southeast Asian studies.

### African Studies

Nancy Farwell, Chair

#### Adviser

501 Thomson, Box 353650

206-616-0998

[africa1@uw.edu](mailto:africa1@uw.edu)

African studies involves a multi-campus interdisciplinary group of faculty, staff, and students who share an interest in interdisciplinary questions relating to Africa and the African diaspora. Africa-focused courses are taught in a variety of scholarly disciplines and programs, including art, music, anthropology, forestry and fisheries, geography, history, international health, American ethnic studies, and the interdisciplinary arts and sciences programs at UW Bothell and UW Tacoma. The African studies program coordinates and disseminates information on Africa-related activities; facilitates research, internships, and study abroad opportunities; and administers the Africa and African diaspora minor.

#### Minor

##### Minor Requirements:

30 credits from at least three departments whose approved courses are shown on the African studies website, [jsis.washington.edu/africa/](http://jsis.washington.edu/africa/), including:

- Minimum 15 credits at the 300 level or above.
- Minimum 5 credits from the approved list of courses on the African diaspora.
- Minimum 10 credits from the approved list of courses on Africa.

- Maximum 10 credits of language courses, which may include 5 credits at the third-year level or above from the Africa-relevant languages of Arabic, French, or Portuguese and 10 credits of Swahili at the second-year level or above.
- Other courses not on the website may be approved by the program office.
- Minimum 15 credits completed at the UW.
- Minimum 2.0 grade in each course applied toward the minor.

### Asian Studies

The undergraduate program in Asian studies is directed by a committee consisting of the chairs of China studies, Korea studies, Japan studies, South Asian studies, and Southeast Asian studies (see below under Minors), and a designated faculty coordinator.

The Asian studies major combines language training with interdisciplinary study of an Asian region or single country. The program emphasizes social science approaches to the study of history, culture, and society, with provision for study of literature and the arts as well. Students may focus on China, Japan, Korea, South Asia (Bangladesh, India, Nepal, Pakistan, Sri Lanka, Tibet), Southeast Asia (Brunei, Burma (Myanmar), Cambodia, East Timor, Indonesia, Laos, Malaysia, the Philippines, Singapore, Thailand, Vietnam), or Asia as a whole. Five interdisciplinary minors on individual countries or regions also are offered.

#### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Either SISA 209 or SISA 210, and two introductory Asian civilization courses (see major requirements, below). Progress toward two years of a relevant Asian language. Courses that develop writing skills, especially in the social sciences.

#### Department Admission Requirements

Students in good academic standing may declare this major at any time.

#### Major Requirements

80 credits as follows:

- 30 credits or second-year equivalent language training in a language appropriate to student's concentration, plus 50 credits as follows:
- Either SISA 209 or SISA 210 (5 credits)
- SIS 201 (5 credits)
- An Asian civilization course in student's concentration chosen from SISEA 212/HSTAS 212, SISEA 241/HSTAS 241, SISEA 242, HSTAS 201, HSTAS 202, HSTAS 211, SISA 200, SISSE 221/HSTAS 221 (5 credits)
- 35 credits of approved coursework from one regional or country concentration, or from the general Asia concentration
- Approved research paper required in one of the upper-division concentration courses
- Minimum grade of 2.0 in all courses counted toward the major (except first- and second-year language courses, where grades must average 2.00)
- 30 of the 35 credits required for the concentration requirement must be taken in residence at the UW.

#### Minor

##### Minor Requirements:

The following are approved Asian civilization courses for the minors: SISA 209, SISA 210; SISEA 212/HSTAS 212 (Korea); SISEA 241/HSTAS 241 (Japan), SISEA 242 (Japan); SISSE 221/HSTAS 221 (Southeast Asia); HSTAS 201 (India), HSTAS 202 (India); HSTAS 211 (China).

#### China Studies

Madeleine Yue Dong, Chair

*Minor Requirements:* 30 credits, to include the following:

- HSTAS 211 and either RELIG 202 or one additional introductory Asian civilization course from those listed above. (10 credits)
- 10 credits of electives taken at the UW, chosen from the China history/social science electives list.\*
- 5 credits of electives taken at the UW, chosen from the China history/social science list or the China arts/literature electives list.\*
- 5 additional credits in Chinese language beyond second-year level, or in upper-division transfer courses on China, or in additional electives chosen from the China history/social science electives list.\*
- Minimum grade of 2.0 required in each course applied toward the minor.

\*The list of Asian civilization courses and China electives is maintained by the China studies program. For the current list of such courses, see [jsis.washington.edu/advise/undergraduate/minors.shtml](http://jsis.washington.edu/advise/undergraduate/minors.shtml).

#### Japan Studies

Robert Pekkanen, Chair

*Minor Requirements:* 30 credits, to include the following:

- SISEA/HSTAS 241 or SISEA 242 and one course on a different Asian civilization chosen from those listed above. (10 credits)
- 10 credits of electives taken at the UW, chosen from the Japan history/social science electives list.\*
- 5 credits of electives taken at the UW, chosen from either the Japan history/social science list or from the Japan arts/literature elective list.\*
- 5 credits in Japanese language beyond second-year level, or in upper-division transfer courses on Japan, or in additional electives chosen from the Japan history/social science elective list.\*
- Minimum grade of 2.0 required in each course applied toward the minor.

\*The list of Asian civilization courses and Japan electives is maintained by the Japan studies program. For the current list of such courses, see [jsis.washington.edu/advise/undergraduate/minors.shtml](http://jsis.washington.edu/advise/undergraduate/minors.shtml).

#### Korea Studies

Clark W. Sorensen, Chair

*Minor Requirements:* 30 credits, to include the following:

- SISEA 212/HSTAS 212 and one additional introductory Asian civilization course from the list above. (10 credits)
- 20 credits of electives, 15 of which must be taken at the UW, to include: (a) 10 credits chosen from the list of core courses\*; (b) 5 credits chosen from the list of core courses or the list of electives\*; (c) 5 additional credits in Korean language beyond second-year level, or in upper-division transfer courses on Korea, or from the lists of core courses and electives.\*
- Minimum grade of 2.0 required in each course applied toward the minor.

\*The lists of Asian civilization core and elective classes are maintained by the Korea studies program. For the current list of such courses, see [jsis.washington.edu/advise/undergraduate/minors.shtml](http://jsis.washington.edu/advise/undergraduate/minors.shtml).

#### South Asian Studies

Priti Ramamurthy, Chair

*Minor Requirements:* 30 credits, to include the following:

- HSTAS 202 or SISA 200 (5 credits)
- One additional introductory Asian civilization course chosen from those listed above (5 credits)
- 15 credits of electives taken at the UW, chosen from the approved list.\*

- 5 additional credits in a South Asian language beyond second-year level, or in upper-division transfer courses on South Asia, or in additional electives chosen from the approved list.\*
- Minimum grade of 2.0 required in each course applied toward the minor.

\*The list of Asian civilization courses and South Asia electives is maintained by the South Asian studies program. For the current list of such courses, see [jsis.washington.edu/advise/undergraduate/minors.shtml](https://jsis.washington.edu/advise/undergraduate/minors.shtml).

#### **Southeast Asian Studies**

Laurie J. Sears, Chair

**Minor Requirements:** 30 credits, to include the following:

- SISSE 221/HSTAS 221 (5 credits)
- One introductory Asian civilization course chosen from those listed above. (5 credits)
- 15 credits of electives taken at the UW, chosen from any SISSE-prefix course or its joint-listed equivalent, or from the approved list of electives.\*
- 5 additional credits in a Southeast Asian language beyond second-year level, or in upper division transfer courses on Southeast Asia, or from the approved list of electives.\*
- Minimum grade of 2.0 required in each course applied toward the minor.

\*The list of Asian civilization courses and Southeast Asia electives is maintained by the Southeast Asia program. For the current list of such courses, see [jsis.washington.edu/advise/undergraduate/minors.shtml](https://jsis.washington.edu/advise/undergraduate/minors.shtml).

## **Canadian Studies**

Daniel Hart, Chair

Canadian studies provides a broad understanding of Canadian society, culture and communications, historical development, and contemporary problems.

### **Bachelor of Arts**

**Suggested First- and Second-Year College Courses:** ECON 200, ECON 201. Progress toward two years of French language. Canadian history courses. Courses that develop writing skills.

### **Department Admission Requirements**

Students in good academic standing may declare this major at any time.

### **Major Requirements**

30 credits or second-year-equivalent French language training, plus 53 credits as follows:

- SIS 200, SIS 201, SIS 202; ECON 200, ECON 201; SISC 356, SISC 498
- Minimum 18 credits from approved Canadian Studies elective course list.

### **Minor**

**Minor Requirements:** 25 credits as follows:

- SISC 356 and SISC 498 (10 credits)
- 15 credits of electives chosen from an approved list\*
- Minimum grade of 2.0 in each course applied to the minor
- Minimum 15 credits toward the minor completed at the UW

\*The list of Canada electives is maintained by the Canadian studies program. For the current list, see [jsis.washington.edu/advise/undergraduate/minors.shtml](https://jsis.washington.edu/advise/undergraduate/minors.shtml). Since the program from time to time adds, subtracts, or reclassifies approved courses, students who have planned their studies on the basis of an earlier list may fulfill the requirements of the minor as specified on that list.

## **Comparative Islamic Studies**

Comparative Islamic studies provides a broad understanding of Islamic society, culture and communications, historical development, and contemporary problems.

### **Minor**

**Minor Requirements:** 30 credits as follows:

- NEAR E 210/SISME 210 (5)
- NEAR E 211/RELIG 211 or NEAR E 212/RELIG 212 (5)
- 10 credits in Islamic religious traditions and texts, chosen from an approved list\*
- 10 credits in history, society, and culture of Islam, chosen from an approved list\*
- Minimum grade of 2.0 in each course counted toward the minor.

\*The approved list of Comparative Islamic studies electives is maintained by the School of International Studies. For the current list, see [jsis.washington.edu/advise/undergraduate/minors.shtml](https://jsis.washington.edu/advise/undergraduate/minors.shtml). Since the school from time to time adds, subtracts, or reclassifies courses on the approved list, students who have planned their studies on the basis of an earlier list may fulfill the requirements as specified on that list.

## **Comparative Religion**

James K. Wellman, Chair

The comparative religion major introduces students to broad theoretical issues in the academic study of religion, and encourages them to explore these issues through mastering details of the textual canons, historical traditions, social contexts, and cultural forms of religion.

### **Bachelor of Arts**

**Suggested First- and Second-Year College Courses:** RELIG 201, RELIG 202. Courses that develop writing proficiency. Courses in particular religious traditions such as Christianity, Judaism, Islam, Hinduism, and Buddhism. Courses in the history of civilizations such as Chinese, South Asian, and Western.

### **Department Admission Requirements**

Students in good academic standing may declare this major at any time.

### **Major Requirements**

55 credits as follows:

- RELIG 201, RELIG 202; RELIG 380/CHID 380; SIS 201
- 35 additional credits in RELIG or non-RELIG prefix courses, of which at least 15 must be at the 300 level or above, selected from the three rubrics of textual canons, historical traditions, and social contexts and cultural forms. The distribution must include at least 5 credits and no more than 20 credits in any particular rubric.

### **Minor**

**Minor Requirements:** 30 credits as follows:

- RELIG 201, RELIG 202
- 15 additional credits in RELIG-prefix courses or joint-listed equivalents
- 5 additional credits chosen from RELIG courses or from an approved list of electives\*

\*The list of comparative religion electives is maintained by the Comparative Religion program. For the current list of such courses, see [jsis.washington.edu/advise/undergraduate/minors.shtml](https://jsis.washington.edu/advise/undergraduate/minors.shtml).

## **European Studies**

Carol G. Thomas, Chair

The curriculum in European studies prepares students to pursue careers requiring an understanding of all the forces,

both material and cultural, contemporary and historical, that are shaping Europe today (north, south, east, and west), taking into account transitions involved in the post-Soviet era and the movement toward greater political, economic, and cultural integration among the various nations involved. Students also may concentrate, within the major, on Hellenic studies, European Union studies, or Russian, East European, and Central Asian studies.

### **Bachelor of Arts**

**Suggested First- and Second-Year College Courses:** Progress toward two years of a modern European language. A survey course on modern Europe.

### **Department Admission Requirements**

Students in good academic standing may declare this major at any time.

### **Major Requirements**

60 credits as follows:

- 10 credits of a modern European language at the third-year level or beyond
- 20 credits of core courses, including EURO 301 (5 credits), EURO 302 (5), SIS 201 (5), and a survey course on modern Europe (5)
- One quarter (10 credits minimum) of study in Europe
- 15 credits from approved list of electives, including at least one course designated as a pre-modern elective.
- Either EURO 494, Senior Seminar (5 credits) or EURO 495, Senior Thesis (5 credits). The senior-thesis option (EURO 495) constitutes the major's research-intensive track. Criteria and admission procedures are described at [jsis.washington.edu/advise/catalog/eur\\_ba.shtml](https://jsis.washington.edu/advise/catalog/eur_ba.shtml).
- See adviser for specific course options.

### **Minor**

### **Minor Requirements:**

25 credits, to include:

- Foreign language through the sixth quarter
- 15 credits of core courses including EURO 301 (5 credits), SIS 201 (5), and a survey course on modern Europe (5)
- 10 credits from approved list of electives.

## **International Studies**

Sara R. Curran, Chair

The general program in international studies gives students a comprehensive and interdisciplinary perspective on world problems and an ability to analyze the subtle interactions of politics, economics, and culture within the global system.

### **Bachelor of Arts**

**Suggested First- and Second-Year College Courses:** 30 credits of a single foreign language. ECON 200, and either ECON 201 or SIS 123/GEOG 123.

### **Department Admission Requirements**

Admission is competitive, based on overall GPA, grades in the social sciences, a written statement of goals, language background, and any international experience. Before applying, students must complete ECON 200, ECON 201, or SIS 123/GEOG 123 and either SIS 200 or SIS 201. Grades in these courses are given special consideration.

Application deadline is the third Friday of each quarter; students are notified by the sixth Friday of the quarter in which they apply. Transfer students must be enrolled at the UW before applying to the major.

### **Major Requirements**

Foreign-language competency through the second-year college level, plus 70 credits as follows:

- ECON 200 and either ECON 201 or SIS 123/GEOG 123; SIS 200, SIS 201, SIS 202, SIS 401, SIS 495, SIS 498
- Three or four upper-division courses in an approved option
- Three upper-division interdisciplinary courses in international studies from an approved core list
- A research paper of approximately 25 pages to be completed in one of the courses in the student's approved option or in one of the approved interdisciplinary courses
- Majors are required to maintain a GPA of at least 2.50, both overall and in the program, and to earn a minimum grade of 2.0 in all required SIS-prefixed courses.

**Minor**

### Minor Requirements:

30 credits as follows:

- 10 credits chosen from SIS 200, SIS 201, SIS 202
- 15 credits in SIS-prefix courses, including at least 10 credits at the 300 or 400 level (courses with other JSlS prefixes are not eligible).
- 5 additional credits chosen from SIS-prefix courses or from undergraduate courses having any of the following prefixes: SISA, SISAF, SISCA, SISEA, SISJE, SISLA, SISME, SISRE, SISSA, SISSE, EURO, RELIG
- Minimum grade of 2.0 required in each course applied toward the minor.

## Jewish Studies

Paul Burstein, Chair

Jewish studies takes an interdisciplinary approach to the global study of Jews, exploring the rich diversity of their cultures, their philosophies, their religious practices, their histories, their roles in politics, and other areas of contemporary life.

Areas of concentration include ancient cultures and sacred texts, modern literature and culture, Jewish languages, American Jewish studies, Sephardic studies, European Jewish studies, and Israel and Middle East studies.

## **Bachelor of Arts**

**Suggested First- and Second-Year College Courses:** RELIG 210, SISJE 250/HIST 250. Courses that develop writing skills. Courses in international studies and world history (ancient, medieval, and modern). Modern European languages, e.g., French, German, Italian, Spanish. Progress toward two years of Department Admission Requirements -

Students in good academic standing may declare this major at any time.

## Major Requirements

52 credits as follows:

- Introductory courses (15 credits): RELIG 210, SISJE 250/HIST 250, SIS 201
- Jewish Studies Track (20 credits): Approved courses in either the Judaic Cultural Tradition or the Jewish People in the Modern World
- Jewish Languages and Texts (15 credits). A minimum of 15 credits selected from an approved list of courses. Students must be proficient in the Hebrew language through second-year level. Students in the cultural tradition track may study ancient or modern Hebrew. Modern Hebrew is required for students in the modern world track. Under certain circumstances substitution of coursework in an appropriate Jewish lingua franca other than Hebrew may be approved by petition.
- SIS 494 (2 credits): Senior paper or project

The lists of Jewish studies courses are maintained by the Jewish studies program as part of its website. For the cur-

rent list of such courses, see [jsis.washington.edu/advise/catalog/jewish\\_b.shtml](https://jsis.washington.edu/advise/catalog/jewish_b.shtml)

**Minor**

### Minor Requirements:

30 credits as follows:

- RELIG 210 (5 credits) and SISJE 250/HIST 250 (5). (10 credits)
- 15 credits of Jewish studies electives, chosen from the list of approved humanities/social science electives.\*
- 5 additional credits chosen from the list of approved humanities/social science electives or from courses in modern or Biblical Hebrew.\*
- 15 credits of the minor must be taken in residence at the UW.

\*The list of Jewish studies electives is maintained by the Jewish studies program. For the current list of such courses, see [jsis.washington.edu/advice/undergraduate/minors.shtml](https://jsis.washington.edu/advice/undergraduate/minors.shtml).

## Latin American Studies

Jonathan Warren, Chair

The Latin American studies major combines language study with work in history, the humanities, and the social sciences. It provides a comprehensive, interdisciplinary understanding of this major world region, emphasizing themes such as economic development, popular movements, cultural analysis, and hemispheric relations. At the same time, it gives students the option to develop their own particular disciplinary and thematic interests.

## Bachelor of Arts

**Suggested First- and Second-Year College Courses:** Substantial progress toward completing the language requirement described below. Courses in any of the following disciplines that deal with Latin America: history, literature, economics, geography, sociology, political science.

## Department Admission Requirements

Students in good academic standing may declare this major at any time.

## Major Requirements

52 credits plus language training, as follows:

- Training in two foreign languages of Latin America, to include the sixth quarter (or equivalent) of one language chosen from Spanish, Portuguese, or French, and the third quarter (or equivalent) of a second of these languages.
- SIS 201 (5 credits)
- Latin American History (10 credits): Courses to be selected from an approved list.
- Contemporary Latin America (15 credits): Courses drawn from a range of disciplines including anthropology, comparative literature, geography, international studies, and Spanish. See program website for a complete list of courses.
- Electives (15 credits): Courses on Latin America and international studies selected from an approved list.\*
- Interdisciplinary Seminar (5 credits): SISLA 485, SISLA 486, SISLA 492, or another course chosen from an approved list of research seminars.
- SIS 494 (2 credits): Senior paper or project

\*Lists of Latin American studies courses are maintained by the Latin American studies program as part of its website. For the current list of such courses, see [jsis.washington.edu/advice/catalog/latam\\_ba.shtml](https://jsis.washington.edu/advice/catalog/latam_ba.shtml).

## Minor

### Minor Requirements:

30 credits as follows, plus foreign language:

- One year of Spanish or Portuguese, or equivalent proficiency
- At least 5 credits in history chosen from an approved list\*
- At least 15 credits chosen from an approved list of courses on contemporary Latin America\*
- At least 10 additional credits chosen from the history or contemporary Latin America lists, or from an approved list of electives\*
- At least 20 of the 30 credits must be completed at the UW (UW foreign study programs included).
- Minimum 2.0 grade required in each course applied toward the minor.

\*The list of Latin American studies courses is maintained by the Latin American studies program. For the current list, see [jis.washington.edu/advise/undergraduate/minors.shtml](https://jis.washington.edu/advise/undergraduate/minors.shtml). Since the program from time to time adds, subtracts, or reclassifies approved courses, students who have planned their studies on the basis of an earlier list may fulfill the requirements of the minor as specified on that list.

## Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The majors offered in the School of International Studies emphasize development of critical thinking and provide a challenging framework for research and writing. Graduates attain competency in foreign language and an understanding of the political, economic, and cultural underpinnings of the global system and specific world regions. This background lays a foundation for advanced study in professional and academic disciplines, and for careers in the evolving global community. Graduates work in a wide range of jobs, depending on their interests and skills, including: Foreign Service officers, international trade specialists, political analysts, human rights associates, research assistants, social studies and language teachers, international student advisers, foreign study coordinators, program officers/managers for international non-profits and NGOs, foreign exchange specialists, international sales representatives/managers, import/export brokers, marketing analysts, associate editors/publicists, international news writers/journalists.
- **Instructional and Research Facilities:** More than 1.5 million volumes in the University library system are related to international studies. The library has a large [current international and domestic newspaper collection](#), with an emphasis on Slavic, South, and Southeast Asian papers and a selection of European papers. Specialized facilities include the East Asia Library, with a comprehensive collection of manuscripts, books, and serials on China, Japan, and Korea. The University's library holds an extensive collection of books and serials relating to South Asia. The library participates in the U.S. Library of Congress Public Law 480 program, which supplies current publications from India, Pakistan, and Sri Lanka; and is a member of the South Asian Microfilm Program of the Center for Research Libraries, providing access to a large collection of microfilm newspapers, journals, and documents on South Asia. Jackson School undergraduates can draw upon an extensive roster of more than 300 UW study-abroad programs and exchanges, in 50 countries, to enrich their studies.
- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- **Research, Internships, and Service Learning:** The School's Office of Career Services provides resources for students exploring job and internship opportunities.

ties. The Jackson School has limited funds available for students who serve as unpaid interns in nonprofit and governmental agencies. The Leslianne Shedd Memorial Internship Fund honors a Jackson School alumna killed while serving with the State Department. The Dorothy Fosdick Internship Fund is sponsored by the Henry M. Jackson Foundation in memory of the senator's foreign policy adviser. The George E. Taylor Internship Endowment supports students engaged in community-based internships.

- **Department Scholarships:** George M. Beckmann Memorial Scholarship (undergraduate-Japan); Neal and Helen Fosseen Scholarship (undergraduate); Vincent H. Gowen Scholarship (undergraduate-China); Japan-America Student Conference Scholarship; Margaret Mykut Scholarships; Ayako Betty Murakami Scholarship (Japan); I. Mervin and Georgiana Gorasht Scholarship, Arthur A. Jacobovitz Scholarship, Richard M. Willner Memorial Scholarship, and Jewish Studies Advisory Board Scholarship (Jewish Studies); Katherine M. Tyler Endowed Fellowships (Asia); Eugene and Marilyn Domoto Webb Scholarship and Marilyn Domoto Webb Fellowship (Comparative Religion); Alice Wanamaker Scholarships (undergraduate). See also the funding opportunities described under Internships.
- **Student Organizations/Associations:** Jackson School Student Association

## GRADUATE PROGRAM

Graduate Program Information

111 Thomson, Box 353650

206-543-6001

[jsinfo@uw.edu](mailto:jsinfo@uw.edu)

The Jackson School offers eight programs that lead to a Master of Arts in International Studies degree: six world area-studies programs, a comparative religion program, and a comparative and thematic program in international studies that concentrates on the interaction of international, economic, political, and cultural processes with states and societies around the world. The area-studies programs include China studies; Japan studies; Korea studies; Middle East studies; Russian, East European, and Central Asian studies; and South Asian studies. The comparative and thematic international studies program can be taken as a concurrent degree program with several professional schools. Specific requirements vary from one program to another, but all stress interdisciplinary study within the context of the historical cultures, contemporary situations, and languages either of the world areas or comparatively.

**Admission Requirements:** Applicants must meet the requirements of the Graduate School: a 3.00 GPA in the last 90 quarter (60 semester) graded credits and a baccalaureate degree from an accredited university. Submission of the scores of the general Graduate Record Examination is required. Applicants must also meet the requirements of the specific Jackson School program to which they are applying. Most require or strongly recommend previous study of an appropriate foreign language.

**Degree Requirements:** Students must meet Graduate School requirements for the Master of Arts, as well as individual Jackson School program requirements. Programs are designed to be completed in two years.

**Financial Aid:** Financial support is available to U.S. citizens and permanent residents in the form of Title VI Foreign Language and Area Studies Fellowships. Some Jackson School programs have additional fellowships available for specific areas of study. Graduate students are also eligible for a limited number of teaching or research assistantships and readerships.

**Research Facilities (East Asia):** Research and training facilities include the East Asia Library, with a comprehensive collection of manuscripts, books, and serials on China,

Japan, and Korea. In addition, the University is affiliated with the Inter-University Program for Chinese Language Studies in Beijing, language programs in Japan and the People's Republic of China sponsored by the Council on International Educational Exchange, the Inter-University Center for Japanese Language Studies in Yokohama, and other programs which provide intensive language training for advanced undergraduate and graduate students. The school has ongoing projects on China, Japan, and Korea in which advanced graduate students and recognized scholars from the United States and foreign institutions regularly participate.

See also descriptions of research facilities on Russia, East Europe, and Central Asia as well as South Asia under the appropriate headings below.

## China Studies

Madeleine Yue Dong, Chair

The China studies program provides a broad understanding of the Chinese people and their culture, historical development, and contemporary problems. The curriculum emphasizes the attainment of facility in Chinese language, a grounding in history, and a familiarity with the approaches of the social sciences to China studies. The cultural aspects of China are covered through offerings of several departments, with special strengths in art history and literature. The breadth of offerings allows students to select courses to meet career goals in business, government, or other professions, or to prepare for further graduate study in an academic discipline.

### Admission Requirements

See [above](#) under [Graduate Program](#). While not required for admission, some previous study of Chinese language is highly recommended.

### Degree Requirements

Chinese language training through the third year; two seminars: SISEA 521-SISEA 522 (5 credits each) plus 26 credits in discipline study related to China from at least two different disciplines; two seminar papers or a thesis; comprehensive oral examination.

## Comparative Religion

James K. Wellman, Chair

The comparative religion program leading to the Master of Arts in International Studies offers an interdisciplinary curriculum in the study of religion, with several choices for areas of concentration. The required core seminars focus on methodology and comparative perspective in the study of religion. For the remaining course requirements, primary and secondary curricular concentrations are available in Buddhism, Hinduism, Judaism, Islam, Christianity, and religion and culture; further secondary curricular concentrations are available in Greco-Roman religions, East Asian indigenous traditions, and African religious traditions.

### Admission Requirements

See [above](#) under [Graduate Program](#). The Comparative Religion faculty reserve the right to determine in each case whether an applicant has sufficient language preparation and background in the study of religion for acceptance into the program.

### Degree Requirements

Completion of the third year in a language of the primary sources in the chosen concentration, and first-year reading proficiency in a secondary foreign language necessary for reading published research (e.g., German, French); certification of basic competency in the history of world religions; RELIG 501-RELIG 502; RELIG 510, a colloquium course, each quarter; one course focused on historical relations between religious traditions; at least four courses

in a major concentration and two in a minor; one or two final research paper(s); and a comprehensive examination including both oral and written segments.

## International Studies

Sara R. Curran, Chair

The general program in international studies provides students with broad knowledge and skills in analyzing international affairs. Designed for students entering many different professional fields, the program trains them in international and comparative studies in a multidisciplinary setting. Students are prepared to undertake sophisticated analyses of international affairs and typically will hold positions after graduation with the international divisions of federal and state governments, international divisions of banks, trading companies, policy-study institutes, corporations with international operations, and international development and educational organizations. More than half of all students are enrolled in a concurrent graduate professional-degree program. This adds approximately one year to the student's course of study.

### Admission Requirements

See [above](#) under [Graduate Program](#). Those applying concurrently to a professional program (Business Administration, Public Affairs, Marine Affairs, Forest Resources, Law, or Public Health) must first be accepted by the professional school. For non-concurrent applicants, preference is given to those who have a professional interest, or previous professional experience or education. Prior study of a foreign language and preparation in intermediate-level microeconomics and macroeconomics are highly recommended.

### Degree Requirements

Japanese or Chinese language through the third year or any other modern foreign language through the second year; SIS 500, SIS 501, SIS 502, SIS 511, SIS 512, and SIS 522 (3 credits each); courses in two of the following three fields: a regional studies field, a professional field, or a special topics field (minimum three classes—9 credits—for each field); two seminar papers; and an oral examination. Students in concurrent graduate-degree programs also must meet Graduate School requirements for the second degree.

## Japan Studies

Robert Pekkanen, Chair

The graduate program in Japan studies gives students in-depth knowledge of many facets of Japan, including its history, political economy, society, and language. Coursework helps prepare students for careers in business, government, journalism, secondary-school teaching, and a wide variety of other professional fields. The program is specifically designed (1) for students with bachelor's degrees in a discipline who need language and interdisciplinary training on Japan to pursue their career goals, and (2) as preparation for doctoral work in an academic discipline involving Japan for students who have had little or no training on Japan or in the language. A concurrent degree program with the Foster School of Business (MAIS/MBA) is offered and other combinations (e.g., with Public Affairs and Law) can be arranged.

### Admission Requirements

See [above](#) under [Graduate Program](#). At least one year of prior training in Japanese language is strongly recommended.

### Degree Requirements

Japanese language training through the third year (15 credits minimum training at the UW); SISEA 555 (5 credits); 31 credits in discipline study of Japan to include at least one history course and one social science course; two research papers or an essay of distinction; and an oral examination.

## Korea Studies

Clark W. Sorensen, Chair

The graduate program in Korea studies offers courses in Korean language, history, and society. Regular offerings are supplemented by visiting faculty from political science, economics and economic development, folklore, and literature. The program emphasizes the study of Korea in the context of East Asian civilization and the modern world economy, not simply as a single country in isolation from its neighbors. The objective of the program is to provide students with a broad background which will be of use for further graduate study, or in a variety of professions such as teaching, business, and government.

### Admission Requirements

See above under Graduate Program. Previous language training is recommended

### Degree Requirements

Korean language through the third year of instruction; HS-TAS 481-HSTAS 482, SISEA 584 (5 credits each), and SI-SEA 585 (6 credits); 15 credits in discipline study of East Asia or international studies; two seminar papers or an essay of distinction; comprehensive oral examination.

## Middle East Studies

Philip D. Schuyler, Chair

The Middle East program is designed for students who wish to study the region within an interdisciplinary framework, focusing especially on the social, political, economic, and legal systems of the Middle East and/or Islamic Central Asia. To provide a thorough grounding in this region, students take courses in the social sciences, humanities, and a Middle Eastern or Central Asian language.

### Admission Requirements

See above under Graduate Program. Although knowledge of a Middle Eastern or Central Asian language is not a prerequisite for admission, it is advisable for applicants to have had at least the equivalent of one year's study of the language in which they plan to concentrate. Students accepted with no language training may wish to begin their language study in an intensive summer program.

### Degree Requirements

Three 3-credit or two 5-credit Middle Eastern language courses beyond the second-year (native speakers as well as non-native speakers); 20 credits on the modern Middle East from at least two social science or humanities disciplines; one approved Jackson School course; two courses in one social science discipline or in one professional school other than courses taken for preceding requirements; either a thesis and an oral examination, or two seminar papers and a four-hour written examination.

## Russian, East European, and Central Asian Studies

Stephen E. Hanson, Chair

Designed primarily for students with bachelor's degrees in a discipline, the program offers a background for professional pursuits in government and nongovernmental organizations, journalism, business, or teaching, or for advanced graduate study leading to the PhD degree in a discipline. The program includes language training, a concentration of study in a chosen discipline, and a combination of courses in other disciplines that deal with aspects of the area. Students usually focus on one region (Russia, East Europe, the Baltic States, or Central Asia), although the program provides flexibility to take courses on another region.

### Admission Requirements

See above under Graduate Program. A prerequisite for all applicants is two years of college-level language courses or the equivalent. For those focusing on Russia the language must be Russian; for other regions of the former Soviet Union and East Europe, two years of a language of the region, or another relevant language.

### Degree Requirements

Including the two years required for entry, four years of a language of the region being studied or two years each of two relevant languages (four years of Russian required for Russian focus); SISRE 501 (5 credits); SISRE 502, and SISRE 503 (2 credits each); 30 credits in disciplines other than language, with 15–20 credits in a discipline of concentration; 5 credits in a minor field and 10–15 credits in other REECAS-related courses; a thesis (9 credits of SISRE 700); and an oral interdisciplinary examination.

**Research Facilities:** The University of Washington is a major center for research on Eastern Europe, Russia, and the independent states of the former Soviet Union, notably the Baltic States and the countries of Central Asia. In addition to extensive holdings in Russian, East European, and Baltic language materials, the library has one of the best Central Asian language collections in the country and the largest collection of Latvian books outside Latvia. The strengths of the program are complemented by strong programs in East Asian and Middle Eastern Studies.

## South Asian Studies

Priti Ramamurthy, Chair

The South Asian studies program is designed for students whose career objectives involve teaching and research in a traditional discipline with geographical interests within South Asia (i.e., India, Pakistan, Bangladesh, Sri Lanka, Tibet, and Nepal); those planning to enter professional-training programs (e.g., education, business administration, journalism, law, or public affairs); or students planning a career in government service (e.g., the foreign service) who wish to acquire a special understanding of the South Asia area.

### Admission Requirements

See above under Graduate Program.

### Degree Requirements

Completion of the third year of a South Asian language to include at least 7 credits at the 400 level or above; SISSA 510, SISSA 511 (5 credits each); 21 credits in coursework from at least two different departments, focused primarily on South Asia or in courses taught by South Asia faculty on topics relevant to the student's specializations (students may take a maximum of 10 credits not focused on South Asia, nor taught by South Asia faculty, to help fulfill disciplinary or professional objectives); two seminar papers or a thesis; a comprehensive oral examination.

**Research Facilities:** The University of Washington library holds an extensive collection of books and serials relating to South Asia. The library participates in the U.S. Library of Congress Public Law 480 program, which supplies current publications from India, Pakistan, and Sri Lanka; and is a member of the South Asian Microfilm Program of the Center for Research Libraries, providing access to a large collection of microfilm newspapers, journals, and documents on South Asia.

## Graduate Certificate in South Asian Studies

The certificate, an added qualification for students already pursuing professional, master's, or doctoral degrees, helps students acquire in-depth knowledge of South Asia and develop interdisciplinary, analytical, and academic skills by taking four relevant courses. Eligible participants include

matriculated graduate students, matriculated professional students, non-matriculated graduate students, and international scholars and fellows engaged in research and funded training programs at UW.

Objectives include grounding in South Asian history and key economic, social, and political issues affecting contemporary South Asia; understanding the relationship between South Asia and other areas of the world, and considering global questions of political, social, cultural, and environmental change; improving oral and written communication skills; developing interdisciplinary analytical and thinking skills.

**Requirements (16 credits):** SISSA 510 (5 credits); SISSA 511 (5 credits); one elective South-Asia-focused course (5 credits); capstone (1 credit).

## Southeast Asian Studies

Laurie J. Sears, Chair

The Southeast Asian Studies program offers students a framework within which to carry out interdisciplinary study of the peoples and nations of insular and mainland Southeast Asia—Brunei, Burma, Cambodia, Indonesia, Laos, Malaysia, the Philippines, Singapore, Thailand, Timor Loro'sae, and Viet Nam. The curriculum combines training in one or more Southeast Asian languages with study of various aspects of modern and classical Southeast Asian Civilizations.

### Admission Requirements

See above under Graduate Program.

### Degree Requirements

Completion of the third year of a Southeast Asian language; SISSE 510, HSTAS 530, HSTAS 532 (5 credits each); 21 credits in coursework from at least two different departments, focused primarily on Southeast Asia or in courses taught by Southeast Asia faculty on topics relevant to the student's specializations (students may take a maximum of 5 credits not focused on Southeast Asia, nor taught by Southeast Asia faculty, to help fulfill disciplinary or professional objectives); a thesis or a non-thesis project (e.g., papers, documentary film, or performance project).

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

## European Studies

**EURO 110 Introduction to Russian Culture and Civilization (5) I&S/VLPA** Introduction to Russian culture and history from pre-Christian times to the present, as seen through literary texts, music, film, visual art, and historical works. All lectures and written materials in English. No prior knowledge of Russian necessary. Offered: jointly with RUSS 110.

**EURO 111 Elementary Modern Greek (5)** Fundamentals of oral and written modern Greek. Offered: A.

**EURO 112 Elementary Modern Greek (5)** Fundamentals of oral and written modern Greek. Recommended: EURO 111 or GREEK 401. Offered: W.

**EURO 113 Elementary Modern Greek (5)** Fundamentals of oral and written modern Greek. Recommended: EURO 112 or GREEK 402. Offered: Sp.

**EURO 140 Russia From the Tenth Century to the Present (5) I&S** Russian political, social, and economic history from the tenth century to the present. Offered: jointly with HIST 140.

**EURO 211 Second-Year Modern Greek (5) VLPA** Continuation of EURO 111, 112, 113. Intensive practice in speaking, reading, and writing. Recommended: EURO 113 or GREEK 403. Offered: A.

**EURO 212 Second-Year Modern Greek (5) VLPA** Continuation of EURO 111, 112, 113. Intensive practice in speaking, reading, and writing. Recommended: EURO 211. Offered: W.

**EURO 213 Second-Year Modern Greek (5) VLPA** Continuation of EURO 111, 112, 113. Intensive practice in speaking, reading, and writing. Recommended: EURO 212. Offered: Sp.

**EURO 220 Introduction to East European Studies (5) I&S** *Felak* Introduction to the history of post-1945 Eastern Europe focusing on political, economic, social, cultural, and diplomatic issues. Countries surveyed include Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Romania, and Yugoslavia. Offered: jointly with HSTEU 220.

**EURO 221 Renaissance, Enlightenment, Revolution: Major Works in English (5) VLPA** *Collins* Introduction to major figures of French culture from the Middle Ages to the eighteenth century, their contributions to the intellectual life of the Western world. Readings include Montaigne, Descartes, Rousseau, Voltaire, and Moliere. In English. Offered: jointly with FRENCH 211.

**EURO 243 Russian Civilization (5) I&S** Russia's civilization, including fine arts, literature, religion, and history; political, social, and legal institutions and thought in relation to the general development of Russian society from early times to 1917.

**EURO 260 Fashion, Nation, and Culture (5) VLPA/I&S** *Gaylard* Introduction to Italian culture focusing on fashion and manners from the late Middle Ages to today. Explores common assumptions about nation, gender, clothes, make-up, and manners, through literary and visual analysis. In English. Offered: jointly with ART H 260/ITAL 260; W.

**EURO 301 Europe Today (5) I&S** *Ingebritsen, Lang* A multidisciplinary approach to contemporary Europe focusing on social, political, cultural, and economic change, with special reference to developments in the countries of the European Union, Scandinavia, and those in Eastern Europe in the post-Soviet era. Offered: A.

**EURO 302 The Politics and Cultures of Europe (5) I&S** *Lang* Builds upon themes and topics introduced in EURO 301. Provides rigorous and specialized investigation of European political institutions, societies, and cultures in the modern era. Prerequisite: EURO 301.

**EURO 315 Scandinavian Crime Fiction (5) VLPA** *Nestingen* Studies Scandinavian crime-fiction literature and cinema since 1965, approaching crime fiction as a changing cultural artifact. Analyzes major issues and texts in the genre and its public status, while also training students in critical approaches to study of popular literature and culture. Offered: jointly with SCAND 315; Sp.

**EURO 320 Greek History: 7000 BC to Present (5) I&S** *Thomas* History of Greece from its Neolithic village origins to the present. Examines the different forms of one of the most resilient cultures in the human story. Offered: jointly with HIST 320, A.

**EURO 344 The Baltic States and Scandinavia (5) I&S** *Smid-chens* Survey of the cultures and history of Estonia, Latvia, and Lithuania from the Viking Age to the present, with particular attention to Baltic-Scandinavian contacts. Offered: jointly with SCAND 344.

**EURO 345 Baltic Cultures (5) I&S/VLPA** Cultures and peoples of Estonia, Latvia, and Lithuania. Baltic literature, music, art, and film in social and historical context. Traditional contacts with Scandinavia and Central and East Europe. Offered: jointly with SCAND 345.

**EURO 351 Scandinavia, the European Union, and Global Climate Change (5) I&S** Reviews the history of climate change, the role of Swedish scientist Svante Arrhenius in defining greenhouse effects, Scandinavian policy response, and the role of the European Union in global climate change. Offered: jointly with SCAND 351; WSP.

**EURO 360 Contemporary Spain (5) I&S/VLPA** *Raneda* Social, political, and cultural developments in Spain since the end of the Franco dictatorship in 1975. Extensive use

of Spanish websites. Prerequisite: SPAN 302 which may be taken concurrently. Offered: jointly with SPAN 360.

**EURO 364 Modern Greece: 1821 to the Present (5) I&S** Politics and society of Greece from War of Independence to the present. Emergence and development of the Greek state; Greece in the world wars; civil war and post-war politics; military dictatorship; transition to democracy; recent developments. No prior study of Greece assumed. Offered: jointly with HSTEU 364.

**EURO 399 Study Abroad (1–5, max. 15) I&S** For participants in Study Abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**EURO 403 Modern European Migration, Integration, and Citizenship (5) I&S** *Mitchell* Offers a theoretical and empirical understanding of migration processes and patterns in Europe, with a focus on Muslim immigration in the post WWII period. Analyzes the impact of European Union mandates, globalization processes, and international, national, and urban policies on Muslim immigrant rights and identity formation. Offered: A; jointly with GEOG 403.

**EURO 425 European Media Systems (5) I&S** Examines media systems in selected countries in Europe and policy issues that link (or divide) members of the European Union and other major media producers. Media studied in context of the contemporary economic, social, political, and cultural milieu in which they operate. Offered: jointly with COM 425.

**EURO 445 War and Occupation in Northern Europe: History, Fiction, and Memoir (5)** The study of literary representations (fiction, memoirs, and personal narratives) dealing with World War II and the occupation of the Nordic and Baltic countries. Offered: jointly with SCAND 445.

**EURO 480 Kierkegaard and Decadence in European Literature (5) VLPA** Reading and discussion of core texts by Søren Kierkegaard, as well as a consideration of the relationship between Kierkegaardian thought and the literary practice of various writers of Scandinavian and European decadence. Offered: jointly with SCAND 480.

**EURO 481 August Strindberg and European Cultural History (5) I&S/VLPA** Examines the work of Swedish dramatist, novelist, and painter August Strindberg, in the context of European literary movements and history of ideas from 1880 to 1912, and Strindberg's influence on 20th-century drama and film. Offered: jointly with SCAND 481.

**EURO 482 Knut Hamsun and Early European Modernism (5) VLPA** Reading and discussion of significant novels by Knut Hamsun, whose oeuvre is considered in the context of works by other European modernist writers. Offered: jointly with SCAND 482.

**EURO 490 Special Topics (1–5, max. 15) I&S**

**EURO 494 Senior Seminar (5) I&S** Introduction to research into European topics and to the analysis of problems.

**EURO 495 Thesis Seminar (5) I&S** Writing and discussion of senior thesis. Prerequisite: EURO 494. Offered: Sp.

**EURO 496 Paris: Architecture and Urbanism (3–5, max. 5) I&S/VLPA** *Clausen* Spans the architectural history of Paris, from its Gallic, pre-roman origins in the 2nd century BCE through the work of 21st century architects. Focuses on changing patterns of the physical fabric of the city and its buildings, as seen within the context of the broader political, social, economic, and cultural history. Offered: jointly with ART H 494.

**EURO 499 Undergraduate Research (1–5, max. 15)**

## International Studies

**SIS 101 Issue in International Studies (5, max. 15) I&S** *Bachman, Curran, Yang* Offers an introduction to some contemporary salient issues in international and global affairs, focusing on one or two major developments or questions.

**SIS 103 Society and the Oceans (5) I&S/NW** *Clausen* Explores the social and policy dimensions of the ocean environment and ocean management policy. Attention to how human values, institutions, culture, and history shape

environmental issues and policy responses. Examines case studies and influential frameworks, such as the ocean as "tragedy of the commons". Offered: jointly with SMA 103

**SIS 111 Global Youth (5) I&S** Examines how a focus on young people might inform our understanding of key aspects of global social and political change. Students discuss the links between their own lives and those of students in other global contexts, with particular reference to health threats, environmental transformations, and educational change. Offered: jointly with GEOG 111; W.

**SIS 123 Introduction to Globalization (5) I&S** *Sparke* Provides an introduction to the debates over globalization. Focuses on the growth and intensification of global ties. Addresses the resulting inequalities and tensions, as well as the new opportunities for cultural and political exchange. Topics include the impacts on government, finance, labor, culture, the environment, health, and activism. Offered: jointly with GEOG 123.

**SIS 150 Israel: Dynamic Society and Global Flashpoint (5) I&S** *Barzilai, Migdal, Pianko, Sokoloff* Introduces the people, institutions, and culture of Israel is the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture. Offered: jointly with NEAR E 150.

**SIS 200 States and Capitalism: The Origins of the Modern Global System (5) I&S** *Kasaba, Migdal, Yang* Origins of the modern world system in the sixteenth century and its history until World War I. Interacting forces of politics and economics around the globe, with particular attention to key periods of expansion and crisis. Offered: A.

**SIS 201 The Making of the 21st Century (5) I&S** *Bachman, Callahan, Migdal, Radnitz* Provides a historical understanding of the twentieth century and major global issues today. Focuses on interdisciplinary social science theories, methods, and information relating to global processes and on developing analytical and writing skills to engage complex questions of causation and effects of global events and forces. Recommended: SIS 200. Offered: WSP.

**SIS 202 Cultural Interactions in an Interdependent World (5) I&S** *Robinson, Sorensen, Warren, Wellman* Cultural interaction among societies and civilizations, particularly Western and non-Western. Intellectual, cultural, social, and artistic aspects; historical factors. Offered: Sp.

**SIS 216 Science and Society (5) I&S/NW** *Chaloupka* Investigation of the relationship between science, technology and society. Nuclear physics and molecular biology serves as concrete examples of fields with significant impact on society. Offered jointly with PHYS 216, Sp.

**SIS 301 War (5) I&S** Origins and conduct of war; readings from anthropology, political science, economics, and history, as well as novels and some recent works on the arms-control controversy. Modern forms of warfare, including guerrilla war, world war, and nuclear war. Offered: jointly with SOC 301.

**SIS 302 Intercultural Relations (5) I&S** *Warren* Perspectives on foreign cultures through literary example. Interdisciplinary approaches to the study of culture as such and problems of intercultural relations. Prerequisite: either one 200-level ANTH course, LING 203 or SIS 202.

**SIS 310 Myth of War (5) I&S** *Poznanski* Explores war as a concept in international political economy. Examines interpretations of war as put forth by proponents of the ken theoretical constructs of mercantilism, liberalism, and Marxism. Explores contemporary challenges to the prevailing, dominant theories of war.

**SIS 322 Human Rights in Latin America (5) I&S** *Godoy* Overview of human rights issues and their recent evolution in Latin American history; military dictatorships; contemporary challenges in the region's democracies. Human rights concerns in relation to broader sociopolitical context. Recommended: knowledge of modern Latin American history. Offered: jointly with LSJ 322.

**SIS 325 Immigration (5) I&S Friedman** Introduces key theoretical debates in international migration. Examines immigrants' political, economic, religious, and social integration into host societies, and continued ties to homelands. Experiences of voluntary and involuntary immigrants, of the second generation, and of incorporation into America and Europe. Designed around interdisciplinary texts and fieldwork in Seattle.

**SIS 330 Political Economy of Development (5) I&S Latsch, Poznanski** Growth, income distribution, and economic development in less-developed countries today. Policies concerning trade, industrialization, the agricultural sector, human resources, and financing of development. Prerequisite: either ECON 201, GEOG 123 or SIS 120 any of which may be taken concurrently.

**SIS 332 Political Economy of International Trade and Finance (5) I&S Poznanski** Theoretical and historical analysis to explore the causes and effects of the rise and decline of four major international trade and monetary regimes. Foundations and emerging features of the new international trade and monetary regime and its implications for the world economy.

**SIS 333 Gender and Globalization: Theory and Process (5) I&S Ramamurthy** Theoretical, historical, and empirical analysis of how current processes of globalization are transforming the actual conditions of women's lives, labor, gender ideologies, and politics in complex and contradictory ways. Topics include feminist exploration of colonialism, capitalism, economic restructuring policies, resistance in consumer and environmental movements. Offered: jointly with WOMEN 333.

**SIS 335 Geography of the Developing World (5) I&S** Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization, and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Offered: jointly with GEOG 335.

**SIS 336 The Place of Law in Multicultural Conflicts (5) I&S Barzilai** Global and regional issues of multicultural conflict and the law. Covers the multiplicity of theories, facts, and interpretations that shape this field of study, some of which are controversial, including: legal identities, cultural difference and human rights, multicultural jurisdictions, international/transnational immigration, and legal pluralism. Offered: jointly with LSJ 336.

**SIS 337 Collective Violence and the State (5) I&S** Comparative study of collective violence in modern states with emphasis on riots and pogroms. Readings include case materials drawn from Russian pogroms of the nineteenth and twentieth centuries, Hindu-Muslim riots in modern India, and race riots in the United States and Great Britain. Offered: jointly with POL S 337.

**SIS 342 Social Theory in International Context (5) I&S** Comparative, historical introduction to the foundations of modern social theory in the work of Max Weber, Sigmund Freud, and Claude Levi-Strauss. Focus on tensions between universalist claims, European origins, and non-European applications of models of cultural formation and development.

**SIS 344 Migration in the Global Economy (5) I&S Mitchell** Analyzes the relationship between human mobility in the late 20th century and changes in the global economy. Allows the student to gain familiarity with scholarly research on international migration from a diversity of approaches and methods. Offered: jointly with GEOG 344; W.

**SIS 345 Women and International Economic Development (5) I&S Ramamurthy** Questions how women are affected by economic development in Third World and celebrates redefinitions of what development means. Theoretical perspectives and methods to interrogate gender and development policies introduced. Current processes of globalization and potential for changing gender and economic inequalities assessed. Offered: jointly with ANTH 345/WOMEN 345.

**SIS 348 Alternative Routes to Modernity (5) I&S** Routes to modernity followed by non-Western societies between 1600

and 1900. Historical experiences of non-Western societies seen in the context of European history and of development theory. Emphasizes primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with HSTAS 348.

**SIS 350 Environmental Norms in International Politics (5) I&S Ingebritsen** Surveys development of international environmental consciousness from 1960s to present. Models of "green development"; ways in which norms for resource use have entered global politics. Patterns of state compliance with international environmental agreements, and why states fall short of meeting their international obligations. Offered: jointly with ENVIR 360/SCAND 350.

**SIS 362 Law and Justice: An Introduction to Social Theory (5) I&S Godoy** Provides conceptual tools for understanding law and its role in society by acquainting students with major currents of social theory. Topics include liberalism, Marxism, critical feminist theory, and critical race theory. Offered: jointly with LSJ 362.

**SIS 365 World Cities (5) I&S Kasaba, Sparke** Factors that have propelled New York, London, and Tokyo into key positions in the organization of the late twentieth century international system. Asks historical and comparative questions and discusses the reasons behind the diminished position of cities such as Venice, Vienna, and Istanbul in that system.

**SIS 366 Comparative Law, Societies, and Courts: Global and Local Perspectives (5) I&S Barzilai** Explores global issues of comparative law, societies, politics, and courts. Uses criteria, methodologies, and theories to compare legal settings internationally. Covers: what is 'comparative law'; 'families' of law; history of comparative law; models of judicial review; legal cultures; and models of regulation. Can not be taken for credit if student has already taken LSJ/POL S 367. Offered: jointly with LSJ 366.

**SIS 375 Geopolitics (5) I&S** An introduction to both political geography and geopolitics, addressing the fundamental links between power and space. Topics covered include: theories of power, space, and modernity; the formation of modern states; international geopolitics in the aftermath of the Cold War; the post-colonial nation-state; and the geopolitics of resistance. Offered: jointly with GEOG 375.

**SIS 377 Turkic Peoples of Central Asia (3) I&S** History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with NEAR E 375.

**SIS 390 Political Economy of Industrialized Nations (5) I&S** Theoretical bases of various political economic systems of industrialized nations. Several major issues these political economies currently face; usefulness and limits of economic analyses within broader perspective of political economy. Prerequisite: either ECON 201, GEOG 123 or SIS 120 any of which may be taken concurrently.

**SIS 397 Junior Honors Seminar (5) I&S Porter** Designed to facilitate writing of honors thesis through methodological and bibliographical research. Required of honors candidates.

**SIS 399 Study Abroad—International Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SIS 401 International Political Economy (5) I&S Hamilton, Ingebritsen, Latsch** Establishment, maintenance, and decay of the post-1945 international economic order. Political economy of international trade, monetary relations, inflation, and North-South relations. Prerequisite: SIS 201 which may be taken concurrently; either ECON 201, GEOG 123 or SIS 120 any of which may be taken concurrently.

**SIS 405 Political Economy of Religious Institutions (5) I&S Wellman** Comparative study of Buddhist, Taoist, Christian, and Islamic religious institutions as political and economic phenomena. Impact of wealth and power on religious institutions or religious ideas. Temporal coverage from the

formative period to the present. Recommended: one China, Japan, Middle East, or Europe course.

**SIS 406 Political Islam and Islamic Fundamentalism (5) I&S Robinson** Study of resurgence, since mid-1970s, of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with POL S 432.

**SIS 407 Political Islam and Contemporary Islamist Movements (5) I&S Robinson** Examines Islamist movements (which seek to reform Muslim society through the capture and the modern state and the establishment of Islamic law) to understand how they impact regional political and global political Islam. Prerequisite: either HIST 161, NEAR E 211, NEAR E 212, RELIG 211, RELIG 212, SIS 406/POL S 432, SISME 213, OR SISME 400. Offered: Sp.

**SIS 410 Introduction to Global Internet Political Economy (5) I&S Hellmann** Impact of the Internet revolution on structure and operating procedures of the international system. Effects of Internet-driven forces on aspects of the global political economy: cultural and political identities; interactions between states and markets; meaning of the boundaries of sovereignty and civil society.

**SIS 419 Comparative Media Systems (5) I&S** Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with COM 420/POL S 468.

**SIS 421 National Security and International Affairs (5) I&S Jones** Major military aspects of contemporary international politics. Uses and limitations of military capabilities for sustaining a stable international order and national security. Processes by which states detect and assess threats to their security; practice of deterrence; transfer of arms among states; pursuit of arms control. Recommended: one SIS or international relations course.

**SIS 422 The United States in the Contemporary International System (5) I&S** United States in the world: ways in which international circumstances shape the political-strategic, economic, and cultural dimensions of America's policy. Case studies from post-1945 period. Recommended: one international relations or foreign policy course.

**SIS 423 Practicing American Foreign Policy (5) I&S** Develops familiarity with tools available to promote international objectives of the United States. International case studies selected to illustrate the diverse considerations inherent in the policy process and evaluate the strengths and weaknesses of the national institutions involved. Prerequisite: SIS 201.

**SIS 425 International Law and Arms Control (5) I&S Jones** Surveys the political, legal, and technological history of 20th-century arms control agreements with emphasis on the treaties which ended the Cold War. Examines current issues of law, politics, military strategy, and technology in regard to weapons of mass destruction and related topics in international security.

**SIS 426 World Politics (5) I&S Caporaso** Nation-state system and its alternatives; world distributions of preferences and power; structures of international authority; historical world societies and their politics. Offered: jointly with POL S 426.

**SIS 427 Weapons of Mass Destruction: Development, Deployment, and Detection (5) I&S Fuller** Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current arms control agreements and non-proliferation programs.

**SIS 430 International Population (5) I&S Lavelly** Demographic situation of the world and of major world regions. The demographic transition. Topics include public health, policies of fertility and mortality control, international migra-

tion, relation of population growth to economic development, social change, and resource constraints. Exploration and manipulation of international demographic data.

**SIS 432 Population and Modernization (3) I&S** *Hirschman, Lavelly* Examines role of demographic factors in process of social modernization and economic growth. Approach is historical, focusing on populations of developed countries since 1700, and analytic, stressing attempts made by different disciplines to model demographic relationships, with attention to less developed regions. Offered: jointly with SOC 432.

**SIS 433 Environmental Degradation in the Tropics (5) I&S/NW** *Christie* Considers theories and controversies of environmental degradation in the tropics, ecological and social case studies of Central American rain forests and Southeast Asian coral reefs, and implications of environmental management techniques. Offered: jointly with ENVIR 433/SMA 433.

**SIS 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S** Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Offered: jointly with POL S 436.

**SIS 438 Forced Migrations (5) I&S** *Friedman* Provides an interdisciplinary understanding of the causes, characteristics, and consequences of forced migration experiences across the global system. Explores how international policy makers, humanitarian workers, and scholars have constructed forced migration as a problem for analysis and action, including some of the ethical dilemmas involved. Recommended: SIS 325 or SIS 344.

**SIS 439 Law and Political Power: Global and Local Issues (5) I&S** *Barzilai* Explores global and local interactions between political power and rule of law. Studies theory of law and political power; development of the concept of 'rule of law'; development and boundaries of civil democratic supervision; political corruption; relationship between economies and law; warfare; terrorism, counter-terrorism, and human rights. Offered: jointly with LSJ 439.

**SIS 440 History of Communism (5) I&S** *Young* Communism from its origins in Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Recommended: two history or politics of Europe courses. Offered: jointly with HSTEU 440.

**SIS 444 Peasants in Politics (5) I&S** *Young* Interdisciplinary study of peasants, with special attention to questions of rural transformation. Peasant involvement in an increasingly independent world. Rebellion and revolution, impact of the international market, agricultural development. Offered: jointly with POL S 446.

**SIS 446 History, Memory, and Justice (5) I&S** *Giebel* Focuses on the complex interactions between history and historical representation, remembrance and commemoration, memory and identity, and notions of justice and reconciliation. Addresses these issues on methodological, theoretical, and practical grounds, drawing on examples from various genres, periods, and world regions. Offered.

**SIS 449 Social Transformation of Modern East Asia (5) I&S** *Sorensen* Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Recommended: two history or anthropology of East Asia courses. Offered: jointly with ANTH 449.

**SIS 450 Political Economy of Women and Family in the Third World (5) I&S** Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with SOC 450.

**SIS 452 Law and Politics of International Trade (5) I&S** *S. Pekkanen* Survey of global trade politics in the context of the World Trade Organization (WTO), with attention to positive and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

**SIS 455 Industry and the State (5) I&S** *Hamilton, Whiting* Builds on states and markets approach of 200 and 201 through specific examination of effects of industry and industrial structure on political outcomes and roles of state. Emphasis on late-developing and newly developing economies. Prerequisite: SIS 200; SIS 201.

**SIS 456 State-Society Relations in Third World Countries (5) I&S** *Bachman, Callahan* Relationships among political, social, and economic changes in Asia, Africa, and Latin America. Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with POL S 450.

**SIS 460 Law, State, and Society (5) I&S** *Migdal* Examination of both state law and non-state law (rules and ways of ordering behavior such as customary law, religious law, and social conventions). Focuses on the ways non-state law interacts with and affects state law and is affected by state law.

**SIS 465 Deeply Divided Societies (5) I&S** *Migdal* Ethnic conflict seen from two perspectives: 1. the study of theoretical approaches as a means of understanding deeply divided societies; 2. a focus on one or more specific conflicts. Recommended: SIS 201 or POL S 204.

**SIS 467 Nations and States in the Modern World (5) I&S** *Migdal* Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by the new nationalism and its spread into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with HIST 467.

**SIS 476 Comparative International Political Economy (5) I&S** *Pozanski* Comparative analysis of four major approaches to international political economy: mercantilism, Marxism, liberalism, and evolutionary approach. Focus on international cooperation, social change, and economic institutions. Theoretical analysis of the four paradigms and applications to historic and current issues in international political economy: hegemonic cycle, post-communist transition, and cross-national income inequality.

**SIS 490 Special Topics (1-5, max. 15) I&S** Content varies from quarter to quarter.

**SIS 491 Senior Honors Seminar (5-) I&S** *Porter* Study of issues related to students' thesis topics. Develops thesis-writing skills. Open only to Jackson School honors students.

**SIS 492 Senior Honors Seminar (5) I&S** Students write a senior thesis working with their individual writing advisers.

**SIS 494 Senior Research (2)** Independent research and writing under supervision of a faculty member. Open only to International Studies majors.

**SIS 495 Task Force (5) I&S** Small-group seminars address current problems in international affairs, each focusing on one specific policy question and producing a joint task force report. Restricted to senior majors in International Studies. Prerequisite: SIS 200; SIS 201; SIS 202; SIS 401.

**SIS 497 Internship (1-5, max. 15)** Credit for the completion of an approved internship in international studies. Credit/no credit only.

**SIS 498 Readings in International Studies (5) I&S** Reading and discussion of selected works of major importance in interdisciplinary international studies. Restricted to majors in International Studies.

**SIS 499 Undergraduate Research (1-5, max. 15)**

**SIS 500 International Studies Survey (5)** *Kasaba, Migdal* Explores the development of global interdependence from the fifteenth century to World War II; the interrelationship of politics and economics; and international political economy

from contextual, institutional, and historical perspectives. Offered: A.

**SIS 501 Seminar: Comparative International Studies (5)** *Bachman, Kasaba, Poznanski* Focuses on comparison across geographical areas including comparative political economy, comparative cultures, and comparative institutions. Provides familiarity with the comparative method of inquiry, an understanding of the interplay between area studies and cross-regional theories, and skills in conducting comparative research and writing. Prerequisite: ECON 200; ECON 201. Offered: W.

**SIS 502 Seminar: Globalization and International Relations (3)** *Jones* Focuses on globalism, including international relations and transnational studies. Provides an understanding of the interplay of area studies with processes that transcend geographical areas and intersect political boundaries, an overview of transnationalism or international relations, and skills in undertaking a major research and writing project. Offered: Sp.

**SIS 511 Practicum: Methods in International Studies (3)** *Chirot, Curran* Assumptions underlying leading methodologies for comparative study of societies and other large-scale social entities. Quantitative and nonquantitative methods illustrated by recent research. Offered: Sp.

**SIS 512 Task Force in International Affairs (3)** *Chirot, Curran* Seminar addressing a current problem in international affairs and resulting in a joint task-force report. Results presented to, and critiqued by, a distinguished outside evaluator at end of term. Prerequisite: SIS 511.

**SIS 520 Introduction to Theories and Quantitative Methods for Social Science Research (5)** Selected social scientific theories and quantitative methods for students in international and area-studies programs. Introduction to methodological neoclassicism, neo-institutional analysis, "developmentalism," rational choice and dynamic institutionalist approaches, and selected theories from political science. Essentials of statistical analysis.

**SIS 522 Special Topics in Ethnicity and Nationalism (3, max. 6)** Topics vary, but always focus on ethnic group relations and nationalism viewed from a broad, comparative, interdisciplinary perspective. Emphasis is heavily cross-cultural, and the geographical coverage world-wide.

**SIS 523 Seminar on Religious and Political Violence (5)** *Robinson* Employs ethnographic studies and anthropological theory to examine the relationships between culture and power in the analysis of religious and political violence. Topics include modernity; secularisms and fundamentalisms; ritual, sacrifice, and martyrdom; law, rights, and subject-making. Offered: jointly with ANTH 523.

**SIS 524 International Security (5)** *Kier, Mercer* Introduces some of the major debates concerning the use of force in international politics. Covers traditional issues in international security such as alliances and the causes of war, as well as some of the new and important questions, such as explaining war outcomes and war termination. Offered jointly with POL S 524.

**SIS 526 Political Islam and Islamic Fundamentalism (3/5)** *Robinson* Examines political Islam as a modern phenomenon produced at the intersections between localized and globalized political cultures and between political, religious, and social authority. Focuses on anthropological studies to examine how Islamic publics produce moral judgments about political practices. Offered: jointly with ANTH 526.

**SIS 527 Weapons of Mass Destruction: Development, Deployment, and Detection (5)** *Fuller* Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current arms control agreements and non-proliferation programs.

**SIS 534 International Affairs (3)** Provides a broad understanding of international issues and United States policy. Students explore U.S. foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, develop-

ment assistance, and the environment. Offered: jointly with PB AF 530/POL S 534.

**SIS 536 Analysis, Information, and the Politics Shaping American Foreign Policy (5)** *Chirot* Explores competing interests and sources of information in the making of American foreign policy. Examines the origins of the national security state after World War II; decision making during the Cold War and Viet Nam War; the crisis of 9/11; and current strategies for analyzing information and handling foreign policy crises.

**SIS 542 Seminar: State and Society (5)** *Migdal* Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with POL S 542.

**SIS 552 Law and Politics of International Trade (5) I&S.** *Pekkanen* Survey of global trade politics in the context of the World Trade Organization (WTO), with attention to positive and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

**SIS 553 Environment and Health in the World Trade Organization (5)** *S. Pekkanen* Conflicts between global environmental and public health on the one hand and international trade expansion on the other in the World Trade Organization (WTO). Focuses on the state of GATT/WTO jurisprudence and its interaction with sovereign laws and regulations. Cases include asbestos, reformulated gasoline, beef hormones, shrimp-turtle, and genetically modified organisms.

**SIS 562 Law, Globalization, and Multinational Corporations (3)** An interdisciplinary workshop that examines the role of multinational corporations in a global society. Topics include the legal construct of the multinational corporation, the multinational and the state, the multinational and human rights, and the multinational in the international arena. Offered: jointly with LAW E 512.

**SIS 575 Advanced Political Geography (5)** *Sparke* Provides resources for theorizing how politics shapes and is shaped by geographical relationships. Examines how politics are situated in complex material and discursive geographies that are partly reproduced through political negotiations. Examines interrelationships of contemporary capitalism with other complex systems of social and political power relations. Offered: jointly with GEOG 575.

**SIS 580 Teaching International Studies (2, max. 4)** *Migdal* For current and prospective teaching assistants. Includes teaching writing, leading effective discussions, the art of evaluation, and teaching critical reading skills; videotaping of actual teaching sessions of participants in class. Credit/no credit only.

**SIS 590 Special Topics (2-5, max. 10)** Seminar. Course content varies. Offered occasionally by visiting or resident faculty.

**SIS 591 Colloquium in International Studies (1-)** *Migdal, Kasaba* Required colloquium for first-year Master in International Studies (MAIS) students. Informal introduction to the faculty and major avenues of research in international studies. Credit/no credit only.

**SIS 592 Colloquium in International Studies (1-)** *Migdal, Kasaba* Required colloquium for first-year Master in International Studies (MAIS) students. Informal introduction to the faculty and major avenues of research in international studies. Credit/no credit only.

**SIS 593 Colloquium in International Studies (1)** *Migdal, Kasaba* Required colloquium for first-year Master in International Studies (MAIS) students. Informal introduction to the faculty and major avenues of research in international studies. Credit/no credit only.

**SIS 600 Independent Study or Research (\*)**

**SIS 700 Master's Thesis (\*)**

## African Studies

**SISAF 399 Study Abroad: African Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific content varies. Courses do not automatically apply to major/minor requirements.

**SISAF 444 African Studies Seminar (5, max. 15) I&S** Interdisciplinary seminar focusing upon one particular aspect of the African continent. Emphasis may be humanistic, social scientific, or historical. African Studies faculty and visiting scholars lecture on areas of their own expertise.

**SISAF 490 Special Topics (1-5, max. 15) I&S**

**SISAF 499 Undergraduate Research (1-5, max. 15)**

## Asian Studies

**SISA 200 Contemporary India and Pakistan (5) I&S** *Dhavan, Kale* Interdisciplinary introduction to the field of South Asian Studies. Overview of the topographic, social, and linguistic geography and history of India, Pakistan, Bangladesh, Sri Lanka, and Nepal. Examines politics, economy, social structure, religion, cultural production and the arts, popular culture, and transnationalism.

**SISA 202 Introduction to South Asian History, 1500 - present (5) I&S** *Dhavan* The Islamic impact, British conquest, and contemporary India. Emphasis on the rise of nationalism, social organization, and contemporary life and history. Offered: jointly with HSTAS 202.

**SISA 209 Asian Civilizations: Traditions (5) VLPA** *Porter* Interdisciplinary introduction to the civilizations of Asia, particularly those of India, China, Japan, and Korea. Explores the religion, philosophy, literature, art, and social and political thought of these civilizations from ancient times to the 17th century.

**SISA 210 Rise of Asia (5) I&S** *Anchordoguy, Bachman, Giebel, Sorensen* Key themes in the study of Asia, with focus on the present. Topics include: the notion of "Asia;" cultural and religious similarities and differences; comparison of colonial experiences under Western and Asian powers; World War II and liberation; postwar patterns of economic and political development; social patterns and issues. Offered: A.

**SISA 244 Imperialism and Anti-Colonialism in Asia (5) I&S** *Giebel* Introduction to Western imperialism expansion, conquest, and colonial rule in Asia; the anti-colonial, nationalist resistances they engendered; and the resultant cultural, political, economic, and intellectual transformations in Asian societies. Covers post-1800 violence, racial hierarchies, human rights abuses, post-colonial memories, persistent strategies of domination, and structural inequities. Offered: jointly with HSTAS 244.

**SISA 245 Human Rights in Asia (5) I&S** *Callahan, Giebel* Introduction to recent and ongoing human rights issues in South, Southeast, and East Asia. Focuses on how human rights politics have played out in domestic political arenas. Provides exposure to views/insights into the historical context in which human rights claims, abuses, and debates arise. Offered: jointly with HSTAS 245.

**SISA 265 Globalization and the Transformation Economy and Society in Asia (5) I&S** *Hamilton* Examines the rapid and extensive social and economic development throughout Asia since the mid-20th century; the corresponding retail revolution in the American economy; the evolution of characteristic Asian product categories; and the impact of these developments on the social and economic organization of Asian economies. Offered: jointly with SOC 265.

**SISA 303 Divided Lands/Divided Lives: An Environmental History of South Asia (5) I&S** *Dhavan* Focuses on the mobilization of South Asian tribal, peasant, and ethnic communities around ecological issues to secure social equity in the colonial and post-colonial period. Examines how the complex interactions of states and peoples have changed the ways in which nature itself is conceptualized. Offered: jointly with HSTAS 303.

**SISA 316 Modern South Asia (5) I&S** Twentieth-century history and society of Indian subcontinent. Topics include

nationalism, rural and urban life, popular culture gender and environmental politics. Offered: jointly with ANTH 316.

**SISA 339 Social Movements in Contemporary India (5)** *Ramamurthy* Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with WOMEN 339/ANTH 339.

**SISA 340 Government and Politics of South Asia (5) I&S** *Kale* Comparison of problems of national integration and political development in India, Pakistan, and Ceylon. Offered: jointly with POL S 340.

**SISA 341 Political Violence and the Post-Colonial State in South Asia (5) I&S** Examines theoretical approaches to the analysis of collective, state, and anti-state violence in post-colonial South Asia through the study of specific cases of political violence in modern India, Pakistan, Sri Lanka, and Nepal. Offered: jointly with ANTH 341.

**SISA 343 Comparative Geographies of Youth (5) I&S** Examines how three key global processes - rising levels of formal education, changing health regimes, and environmental transformation - are shaping youth in the US and South Asia. Examines ways young people rework broader structures, paying particular attention to their economic livelihoods, cultural practices, and political engagements. Offered: jointly with GEOG 343.

**SISA 372 Asian Sustainable Development (5) I&S** Examines the contemporary relationship between environmental protection and development paths in Asia. Inquires into the forces driving both environmental change and societal responses (state and local regulations, social movements, etc.) to that change, at many geographical scales. Asian concepts of nature-society relations also explored. Offered: jointly with GEOG 372.

**SISA 399 Study Abroad: Asian Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISA 401 Asia and the World (5) I&S** *Bachman* Overview of major issues and developments in the interactions of Northeast and Southeast Asia and the world. Topics include economic development and integration, sources of instability, and historical patterns of relations. Particular focus on major current issues related to the region. Prerequisite: SIS 201, SISA 210.

**SISA 412 South Asian Social Structure (5) I&S** Caste class, and community in modern India. Transitions from colonial typology to analysis of social change, diversity, stability, and caste hierarchy in rural society. Current debates on class and community in Indian society, rural and urban, explored through themes of identity, structure, and mobility. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 412.

**SISA 417 Political Economy of India (5) I&S** Analysis of relationships among processes of economic change, political institutions, and structures of political power in contemporary India. Includes contrasting approaches to Indian economic development, land reform, radical and agrarian political movements, and role of foreign aid. Offered: jointly with POL S 417.

**SISA 434 International Relations of South Asia (5) I&S** Interrelationships of domestic, interstate, and extraregional forces and their effects upon the resolution or expansion of interstate conflicts in South Asia. Offered: jointly with POL S 434.

**SISA 436 Social and Political Geographies of South Asia (5) I&S** Introduces the social and political geographies of South Asia through reference to agrarian change in India. Outlines key concepts related to the reproduction of inequality in the region, particularly theories of caste, class, gender, and religious communalism, and examines the mechanisms through which these inequalities are reproduced in South Asia. Offered: jointly with GEOG 436.

**SISA 442 GLOBAL ASIA (5) I&S** *Welland* Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 442/WOMEN 446; W.

**SISA 460 Sociolinguistics of South Asia (3) I&S**

**SISA 490 Special Topics (1–5, max. 15) I&S** Content varies.

**SISA 494 Ramayana in Comparative Perspective (5) VPLA** *Pauwels* Examines and compares different versions (mainly South Asian) of the Ramayana, including the widely popular television version. Focuses on some famous and controversial passages, with special attention to gender issues. Incorporates background readings from the most recent research. Offered: jointly with ASIAN 494.

**SISA 498 Undergraduate Colloquium on South Asia (5) I&S** Interrelationship of the various social science disciplines in the study of South Asian history and culture.

**SISA 499 Undergraduate Research (1–5, max. 15)**

**SISA 590 Special Topics (1–5, max. 10) I&S** Special topics in Asian Studies. Course content varies by instructor.

## Canadian Studies

**SISCA 341 Government and Politics of Canada (5) I&S** Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered: jointly with POL S 341.

**SISCA 356 Canadian Society (5) I&S** Origins to the present in its North American setting; political development, cultural evolution, and emergence of multinationalism; economic base; arts and literature; problems of the environment; Canadian foreign relations.

**SISCA 377 History of Canada (5) I&S** General survey and analysis of political, economic, social, and cultural aspects of Canadian history from the foundation of New France to present; Canadian-American relations, the rise of Quebec nationalism, and the development of the Canadian West. Offered: jointly with HSTAA 377.

**SISCA 399 Study Abroad: Canadian Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISCA 441 Quebecois Literature (5) VPLA** *Delcourt* Readings of novels, plays, and occasionally, poetry. Special attention paid to how Quebecois authors represent in their works the complex socio-political reality of their culture. Conducted in French. French majors required to read and write in French; all others may read and write in English. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307. Offered: jointly with FRENCH 441.

**SISCA 490 Special Topics (1–5, max. 15)** Content varies.

**SISCA 498 Seminar: Canadian Problems (5) I&S** Major issues pertaining to Canadian society, government, and economic development.

**SISCA 499 Undergraduate Research (1–5, max. 15)**

**SISCA 507 Research Seminar: Canadian Problems (5, max. 10)** Consideration of the spatial dimensions of Canadian socioeconomic, cultural, and political development, with emphasis on resource potentials and relations with the United States, Japan, and other important trading partners. Prerequisite: GEOG 308 or permission of instructor. Offered: jointly with GEOG 507.

**SISCA 590 Special Topics (2–5, max. 10)** Offered occasionally by visitors or resident faculty. Course content varies.

**SISCA 600 Independent Study (\*)**

## Comparative Religion

**RELIG 201 Introduction to World Religions: Western Traditions (5) I&S** *Wellman* History of religions, concentrating on

religious traditions that have developed west of the Indus. Primary attention to the Semitic religions (Judaism, Christianity, Islam) and to their ancient world background with emphasis on basic conceptual and symbolic structures.

**RELIG 202 Introduction to World Religions: Eastern Traditions (5) I&S** *Novetzke, Pauwels* History of religions, concentrating on religions that have developed in South Asia and East Asia. Primary attention to Hinduism and Buddhism; other important Asian religions are discussed in relation to them, with emphasis on basic conceptual and symbolic structures.

**RELIG 205 Religion, Violence, and Peace: Patterns Across Time and Tradition (5) I&S** *Noegel, Wellman* Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with HUM/NEAR E 205; W.

**RELIG 210 Introduction to Judaism (5) I&S** *Jaffee, Pianko* Basic ideas and motifs of Judaism: God, Covenant, Law, Life Cycle (birth, marriage, family life, sexual laws, role of women, death); Cycle of the Year (Sabbath, holidays, festivals); Holy Land, prayer, Messianism.

**RELIG 211 Islam (5) I&S/VPLA** Introduction to important cultural and historical aspects of Islam, focusing on basic concepts and developments such as prophethood, Quran and Hadith, canon and law, ritual, social theory, Sufism, theology, and sectarianism. Special attention to comparison of varied Muslim practices and beliefs, and their relation to textual and personal authority. Offered: jointly with NEAR E 211.

**RELIG 212 Introduction to the Quran (5) I&S/VPLA** *Martin* Emphasis on the historical context of the Quran, the history of the text, its collection, organization, and interpretation. In English. Offered: jointly with NEAR E 212.

**RELIG 220 Introduction to the New Testament (5) I&S/VPLA** *Williams* Modern scholarly methods of research and analysis in dealing with New Testament books and their interpretation. Genres of various books (gospel, epistle, sacred history, apocalypse); problems of the relationships among author, material, and intended audience; relationships between theme and image.

**RELIG 240 Introduction to the Hebrew Bible: Old Testament (5) I&S/VPLA** *Noegel* Examines the Hebrew Bible (Old Testament) in translation and its relationship with literatures of ancient Near East. Comparisons drawn between the biblical text and the literary works of Canaan, Egypt, Greece, and Mesopotamia. Emphasis on the sophisticated literary techniques employed by the biblical writers. Offered: jointly with NEAR E 240.

**RELIG 254 American Religions (5) I&S** *Wellman* Seeks to understand religious diversity in the American context and the varieties of religions in the American historical horizon including religious minorities, American Protestants, public religious expressions, and new American religions.

**RELIG 301 Religious Thought Since the Middle Ages (5) I&S** Development of religious thought in the West from the Middle Ages to the twentieth century. History of focal ideas: God, man, knowledge, and authority during this period and the relation of changes in these ideas to the ways in which basic issues in religious thought have been conceived. Recommended: RELIG 201

**RELIG 307 Religion and World Politics (5) Gill** Explores the intersection of religion and politics in various regions of the world, including the U.S., Europe, Middle East, Latin America, and other regions. Presents a historical perspective on religion alongside contemporary issues in religion, politics, and church-state relations. Offered: jointly with POL S 307.

**RELIG 320 Comparative Study of Death (5) I&S** Death analyzed from a cross-cultural perspective. Topics include funerary practices, concepts of the soul and afterlife, cultural variations in grief, cemeteries as folk art, and medical and ethical issues in comparative context. American death prac-

tices compared to those of other cultures. Offered: jointly with ANTH 322.

**RELIG 321 Comparative Religion (3) I&S** Anthropological approaches to religious experience and belief with emphasis on conceptual issues such as ritual, symbolism, identity, ecstatic experience, and revitalization movements in the context of globalization. Also addresses the diversity of religious expression in American culture and how that compares with other societies. Offered: jointly with ANTH 321.

**RELIG 322 The Gospels and Jesus of Nazareth (5) I&S** *Williams* Gospel material from early Christianity, including both canonical and noncanonical gospels. Relation of gospels to analogous literature from the Hellenistic-Roman period. Recommended: ENGL 310 or RELIG 220.

**RELIG 324 The Emergence of Christianity (5) I&S** *Williams* Studies stages in the development of Christianity as a new religion, during the first to fifth centuries CE, as the classical forms and institutions of Christian "orthodoxy" gradually achieved definition, and as this emerging Christian tradition became a dominant cultural and socio-political force. Recommended: HIST 307, RELIG 201, or RELIG 220.

**RELIG 330 Religion, Identity, and Cultural Pluralism (5) I&S** The role of religion in shaping personal and communal identity in a pluralistic society. Themes include current dimensions of American pluralism, effects of ethnicity, immigration, and electronic communication on building religious communities, and issues of conflict, violence, and reconciliation. Offered: jointly with ANTH 330.

**RELIG 350 Buddhism and Society: The Theravada Buddhist Tradition in South and Southeast Asia (5) I&S** Religious tradition of Theravada Buddhism (as practiced in Sri Lanka, Burma, Thailand, Laos, and Cambodia). Variations in ethical orientations developed through Theravada Buddhist ideas. Recommended: RELIG 202 or one eastern religions course. Offered: jointly with ANTH 352.

**RELIG 352 Hinduism (5) I&S** *Novetzke, Pauwels* Varieties of Hindu religious practice; the diverse patterns of religious thought and action among contemporary Hindus. Includes ritual behavior, village Hinduism, tantrism, sadhus, yoga, sects, the major gods and their mythologies, religious art, and the adjustments of Hinduism to modernity. Recommended: RELIG 202 or one South Asian culture course.

**RELIG 354 Buddhism (5) I&S** *Cox, Tokuno* Buddhism as a religious way and as a way of thinking; the forms of Buddhism known in South Asia (India, Sri Lanka) and those introduced from there to Tibet and other parts of Central Asia. Includes the "Three Jewels" (i.e., the Buddha or Awakened Person, the Teaching [Dharma], and Community [Sangha]) around which Buddhism is traditionally articulated. Recommended: RELIG 202 or one Asian cultures course.

**RELIG 380 The Nature of Religion and Its Study (5) I&S** *Jaffee, Novetzke, Wellman* Study of religion as a general human phenomenon. Manner in which different methods of inquiry (phenomenology, anthropology, sociology, psychology, literary criticism, archaeology, philosophy, theology) illuminate different aspects of religion and help to shape our conceptions of its nature. Recommended: RELIG 201 or RELIG 202. Offered: jointly with CHID 380.

**RELIG 399 Study Abroad—Comparative Religion (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**RELIG 400 The Jewish Mystical Tradition (5) I&S** *Jaffee* Jewish esoteric thought from antiquity to early modern times. Emergence of Spanish Kabbalah. The thought of Isaac Luria and its immense influence in Jewish history through other movements—specifically the mystical messiah. Sabbetai Sevi, and the rise of Hasidism. Recommended: RELIG 201 or RELIG 210.

**RELIG 405 Scripture in Judaism (5) I&S** *Jaffee* Explores the phenomenon of religious interpretation of sacred books by attending to the destiny of the Bible as read within Judaism. Begins with the canonization of the biblical text itself and continues into the rationalist and mystical interpretive

innovations of the Middle Ages. Recommended: HIST/SISJE 250, RELIG 201, or RELIG 210.

**RELIG 410 Law in Judaic Experience (5) I&S** *Jaffee* Place and function of law in Jewish social and personal experience. Discusses the various ideological justifications of the law in biblical and rabbinic literature, examines representative texts, and explores theological reflection on law by medieval and modern thinkers. Recommended: RELIG 201; RELIG 210; RELIG 400 or RELIG 405.

**RELIG 415 Modern Jewish Thought (5) I&S** *Jaffee, Planko* Major trends in Jewish religious thought since the European Enlightenment, focusing on encounters between Judaism and the modern world. Includes Haskalah; varieties of religious reform and accommodation; Zionism; socialism; the philosophy of Rosenzweig, Buber, and Kaplan; and theological responses to the Holocaust. Recommended: HIST/SISJE 250, HSTEU/SISJE 469, RELIG 201, or RELIG 210.

**RELIG 420 The World of the Early Church (5) I&S** *Williams* Early Christian church within the context of the Greco-Roman sociopolitical, philosophical, and religious environment. Covers the period from about AD 100 to 300. Christian thinkers and documents studied include both the classical "orthodox" and the "heretical." Recommended: HIST 307, RELIG 220, or RELIG 324.

**RELIG 421 The Age of St. Augustine (5) I&S** Christian church in the fourth and fifth centuries as a major institution in the Roman Empire. Great figures of patristic theology, such as Athanasius, Gregory Nazianzus, Gregory of Nyssa, and Augustine. Recommended: HIST 307, RELIG 320, or RELIG 324.

**RELIG 426 Gnosticism and Early Christianity (5) I&S** *Williams* Impact of Gnosticism on the development of Christianity and several other religious groups of that period. Readings dating from the first through the third centuries AD.

**RELIG 428 Modern Christian Theology (5) I&S** Modern Protestant and Catholic thought since the nineteenth century: Kierkegaard, Barth, Bultmann, Rahner, Lonergan, and other major figures. Recommended: RELIG 301.

**RELIG 430 Scripture and Law in Islam (5) I&S/VLPA** Examines concept and use of scripture in Islam, with special attention to issues of canon and commentary, heavenly books, talismanic uses, and the place of scripture in ritual. In English. Offered: jointly with NEAR E 430.

**RELIG 432 Ritual and Territory in Islam (5) I&S/VLPA** Comparative study of Islamic ritual practices and related development of jurisprudence and law. Focus on sacrifice, political and social legal theory, pilgrimage, regulation of the body, and the diversity of contemporary practices. In English. Offered: jointly with NEAR E 432.

**RELIG 433 Life of Prophet Muhammad (5) I&S/VLPA** Examines historical and religious traditions associated with the life of the Prophet Muhammad with particular attention to the biography in classical Islam. Focuses on Muhammad as prophet, holy man, law-giver, mystic, and statesman. Comparison with other religious figures such as Jesus and the Buddha. In English. Offered: jointly with NEAR E 433.

**RELIG 442 Art, Religion, and Politics in the Early Christian Period, 300–700 AD (3) I&S/VLPA** *Kartsonis* Evolution of the art of the early Christian period (300–700 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with ART H 452.

**RELIG 443 Art, Religion, and Politics in Byzantium, 700–1453 AD (3) I&S/VLPA** *Kartsonis* Evolution of the art of Byzantium (700–1453 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with ART H 453.

**RELIG 445 Greek and Roman Religion (5) I&S/VLPA** *Harmon, Hollmann, Levaniouk* Religion in the social life of the Greeks and Romans, with emphasis placed on their public rituals and festivals. Attention is given to the priesthoods, personal piety, rituals of purification and healing, and the conflict of religions in the early Roman Empire. Many

lectures illustrated by slides. Recommended: RELIG 201. Recommended: RELIG 201. Offered: jointly with CLAS 445.

**RELIG 452 Topics in the Buddhism of Tibet (3) I&S** Topics in the development of Buddhism of Tibet. Includes the relationship between reasoning and religious thought; the concept of a person; the formation of the different schools of Tibetan Buddhism; the notion of lineage; the master-disciple relationship in the tantric tradition. Recommended: ANTH 352, RELIG 202, RELIG 350, or RELIG 354.

**RELIG 454 Perceptions of the Feminine Divine in Hinduism (5) VLPA** *Pauwels* Explores implications of the perception of a feminine divine for gender issues in South Asia. Includes historical overview of goddess worship in South Asia, mythologies, philosophical systems, cults, and rituals associated with the major goddesses, the phenomena of *suttee*, goddess possession, and women's goddess rituals at the village level.

**RELIG 457 The History of Biblical Interpretation (3) I&S/VLPA** *Noegel* Traces biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a "hands-on" approach to the material and explores various hermeneutics by applying them in class. Offered: jointly with NEAR E 457.

**RELIG 460 Anti-Semitism As a Cultural System (5) I&S** *Jaffee* Comparative study of various anti-Semitic cultural systems from ancient to modern times. Topics include how anti-Semitism can be defined as a cultural phenomenon; the conditions that explain the circulation of anti-Semitic traditions in a given society; the conditions under which social conflict with Jews becomes anti-Semitism.

**RELIG 490 Special Topics (1–5, max. 15) I&S** Topics vary with each offering.

**RELIG 491 Seminar: Topics and Issues in Judaism (5) I&S** *Jaffee* Topics vary. Recommended: RELIG 210; RELIG 400, RELIG 405, or RELIG 410.

**RELIG 492 Seminar: Topics in Early Christianity (5) I&S** *Williams* Topics vary. Recommended: one early Christian history or literature course.

**RELIG 497 Field Archaeology (1–10, max. 20)** Professionally-guided archaeological fieldwork at a recognized archaeological dig in the United States or abroad. Offered: S.

**RELIG 498 Honors Thesis (5) I&S** Required course for Comparative Religion honors students.

**RELIG 499 Undergraduate Research (1–5, max. 15)** Primarily for comparative religion majors and majors in the School of International Studies.

**RELIG 501 Approaches to the Study of Religion (5)** Major approaches employed by modern scholarship in the study of religion, including historical, phenomenological, anthropological, sociological, and psychological. Prerequisite: admission to the comparative religion MAIS program or permission of instructor. Offered: A.

**RELIG 502 Religion in Comparative Perspective (5, max. 15)** Analysis of selected theme or symbols in relation to several different religious traditions. Topics vary. Prerequisite: admission to the comparative religion MAIS program or permission of instructor. Offered: W.

**RELIG 504 Religion and Culture (5)** Study of the relations between religion and culture, with attention to the role of religion in defining conceptions of order and grounding socio-political and artistic traditions.

**RELIG 510 Colloquium in Comparative Religion (1, max. 6)** Required colloquium for graduate students in comparative religion program. Introduction to faculty research and to major methods and disciplines in the study of religion. Credit/no credit only.

**RELIG 520 Seminar On Early Christianity (5)** *Williams* Problems in the history and literature of early Christianity.

**RELIG 528 Christian Theology (5)** Study of exemplary figures in the history of Christian religious thought. Prerequisite: RELIG 428.

**RELIG 570 Religion and Literature (5)** The relation of religious thought to the study of imaginative literature. Includes both critical theory and practical criticism of exemplary texts.

**RELIG 580 Seminar in Hinduism Studies (5)** *Pauwels* Introduction to the academic study of Hinduism for graduate students. Examines major problems currently addressed in the academic study of Hinduism and the methods used. Provides a historical perspective on past scholarship. Offered: jointly with ASIAN 580.

**RELIG 590 Special Topics (2–5, max. 10)** Offered occasionally by visitors or resident faculty. Course content varies.

**RELIG 600 Independent Study or Research (\*)**

## East Asian Studies

**ISEA 212 History of Korean Civilization (5) I&S** From earliest times to present. Development of Korean society and culture in terms of government organization, social and economic change, literature, art. Offered: jointly with HSTAS 212.

**ISEA 213 The Korean Peninsula and World Politics (5) I&S** *Ha* Introduces Korean politics, economics, society, and international relations. Overview the development in politics, economy, and society since the late nineteenth century. Addresses the evolution of Korea in the international society by comparing Korea experience with that of China and Japan. Offered: jointly with POL S 213.

**ISEA 236 Development and Challenge in Greater China (5) I&S** *Chan* Studies the geography of development processes, patterns, and problems in "Greater China": mainland China, Taiwan, and Hong Kong. Covers physical geography, history, and economic and political systems, with major focus on geographical issues in China's development: agriculture, population, industry and trade, and relations with Hong Kong and Taiwan. Offered: jointly with GEOG 236.

**ISEA 241 Japanese Civilization (5) I&S** *Spafford* Japan's civilization, including its origins, government, literature, economic institutions, material culture, social organization, and religions, in relation to the development of Japan as a society and nation. Cannot be taken for credit if ISEA 341 previously taken. Offered: jointly with HSTAS 241.

**ISEA 242 Introduction to Contemporary Japan (5) I&S** *R. Pekkanen* Interdisciplinary social science introduction to various aspects of contemporary Japan, such as its politics, economics, and society. Designed to be taken either as a first course on Japan for majors or as a single-course introduction to Japan., suitable for non-majors. No prior background on Japan is necessary.

**ISEA 370 Han Chinese Society and Culture (5) I&S** *Anagnost, Harrell* Themes in the society and culture of the Han Chinese people. Concepts of self; personal interaction; family, gender, and marriage; communities and the state; religion and ritual; class, social categories, and social mobility; culturalism, nationalism, and patriotism. Offered: jointly with ANTH 370.

**ISEA 399 Study Abroad: East Asian Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**ISEA 406 China's Environment (5) I&S** *Harrell* Analysis of contemporary environmental problems in China, including population, food, water supply, pollution, biodiversity, and environmental activism. Combines natural science and social science perspectives. Prerequisite: either ANTH 210, ENVIR 201, SIS 200, SIS 201, or SIS 202. Offered: jointly with ANTH 406.

**ISEA 407 Global Futures in East Asia (5) I&S** *Anagnost* Explores interlinked modernity projects in China, Japan, Korea, and Taiwan and how the education of youth figures in projects of national development and international economic competition. Recommended: prior courses in socio-cultural

anthropology and East Asian studies. Offered: jointly with ANTH 407; AWSpS.

**SISEA 423 History of Modern Japan (5) I&S** *Pyle* Political, social, economic, and cultural development of Japan from the late Tokugawa period to the present with special emphasis on the cultural impact of the West. Recommended: SISEA 242. Offered: jointly with HSTAS 423.

**SISEA 424 Perspectives on East Asia for Teachers (3, max. 6) I&S** Substantive concepts, resources, and materials employed in teaching about East Asia. Requirements may vary in relation to the background of participants.

**SISEA 425 East Asia for Educators (6, max. 18) I&S** *Bernson* Provides pre-service and in-service elementary, middle, and high school educators with a grounding in China, Japan, or Korea studies and in curricular strategies for bringing the study of the country of focus into the educator's classroom. Offered: S.

**SISEA 434 Demographic Issues in Asia (3-5) I&S** *Hirschman*, *Lavelly* Contemporary Asian countries face a number of issues with demographic components, including environmental and resource issues, ethnic rivalries, international migration, and public health. Addresses a set of these issues by focusing on the demography of one or more countries in Asia. Offered: jointly with SOC 434.

**SISEA 435 Japanese Government and Politics (5) I&S** *Hellmann* Government and politics of Japan with emphasis on the period since 1945. Recommended: SISEA 242. Offered: jointly with POL S 435.

**SISEA 436 Political Parties in Japan and East Asia (5) I&S** *R. Pekkanen* Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Recommended: either SISEA 242, SISEA/POL S 435, or SISEA440/HSTAS 424. Offered: jointly with POL S 429.

**SISEA 437 International Relations of Japan (5) I&S** *S. Pekkanen* Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Recommended: SISEA 242. Offered: jointly with POL S 424.

**SISEA 439 Politics of Divided Korea (5) I&S** Governments, politics, and economy of South and North Korea, the inter-Korea relations, and the two Koreas' relationship with the major powers—especially the United States—with emphasis on the post-cold war period. Offered: jointly with POL S 439.

**SISEA 440 The Emergence of Postwar Japan (5) I&S** *Pyle* The making of modern Japan; World War II and surrender; American occupation; postoccupation rebuilding; emergence as an industrial power. Recommended: SISEA 242. Offered: jointly with HSTAS 424.

**SISEA 442 Political Economy of Postwar Japan (5) I&S** *Anchoroguy* Political and economic problems of Japan since 1945. Utility of competing theoretical approaches to analysis of government and economy of Japan. Policy-making processes and effects of policies adopted. Some knowledge of postwar Japan desirable. Recommended: SISEA 242.

**SISEA 444 Politics of Representation in Modern China (5) I&S** *Anagnost* Focuses on issues of representation and power in twentieth century China. Combines substantive information on modern Chinese society and culture with recent debates in social theory and the politics of representation. Major themes include Chinese nationalism, body politics, popular culture, and everyday practice. Offered: jointly with ANTH 444.

**SISEA 445 Religion in China (5) I&S** *Tokuno* Religion in Chinese society, doctrines, practices, and social consequences of the eclectic folk religion, the elite Confucian, Taoist, and Buddhist traditions, syncretistic sects, and imported Christianity. Prerequisite: either one 200-level ANTH course, ANTH 370, ANTH 403, LING 203, HSTAS 211, HSTAS 454, RELIG 202, SISEA 370, or SISEA 443.

**SISEA 447 Anthropology of Modern Japan (5) I&S** Examines the problem of modernity in Japan since the late nineteenth century, with emphasis on contemporary Japan. Critically addresses previous anthropological work concerning patterns of Japanese "culture." Particular focus on the influence of modern forms of power, media, and exchange in the construction of present-day Japan. Offered: jointly with ANTH 443.

**SISEA 448 Modern Korean Society (5) I&S** *Sorensen* Social organization and values of twentieth-century Korea. Changes in family and kinship, gender relations, rural society, urban life, education, and industrial organization since 1900. Differences between North and South Korea since 1945. Recommended: HSTAS/SISEA 212. Offered: jointly with ANTH 448.

**SISEA 449 Government and Politics of China (5) I&S** *Bachman*, *Whiting* Post-1949 government and politics, with emphasis on problems of political change in modern China. Offered: jointly with POL S 442.

**SISEA 454 History of Modern China (5) I&S** *Dong* Social, cultural, political, economic, and intellectual transformations and continuities in China from the end of the imperial period to the present. Offered: jointly with HSTAS 454

**SISEA 456 Topics in Chinese Social History (5) I&S** *Dong*, *Ebrey*, *Guy* Surveys major issues and approaches to the study of the role of the Chinese people in China's historical development. Historical focus of course varies with instructor. Recommended: HSTAS 211, HSTAS 452, HSTAS 453, or HSTAS/SISEA 454. Offered: jointly with HSTAS 456.

**SISEA 459 United States-China Relations (5) I&S** *Bachman* Surveys the history of United States-China relations and examines the evolution of bilateral relations, particularly since 1949. Focus on the period since 1972 and the major issues as they have evolved since that time, including trade, human rights, security, and Taiwan. Offered: jointly with POL S 419.

**SISEA 460 Cities in China: Past and Present (5) I&S** *Dong* Economic, political, social, and cultural functions of the city in modern Chinese history. Changes in China's urban system. The city as cultural center and focus of literary and cinematic representation. Attention to architecture, commerce, urbanization, the role of capital cities in the power of the state. Offered: jointly with HSTAS 460.

**SISEA 462 China's Rise and Its Global Implications (5) I&S** *Bachman* Examines the consequences of China's dramatic rise - three decades of very high rates of economic growth - on China and on the World. Fundamental concerns are how China's rise is changing the institutions and practices of the world order, and whether China is increasingly socialized into global norms. Prerequisite: SISA 210.

**SISEA 464 Contemporary Society in the People's Republic of China (5) I&S** *Lavelly* Separate development of rural and urban social institutions in the People's Republic of China since 1949 from a sociological perspective. Family and marriage, social control, educational institutions. Dilemmas of contemporary China and reasons for institutional change. Offered: jointly with SOC 464.

**SISEA 466 Comparative Politics and Korea Studies (5) I&S** *Ha* Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with POL S 480.

**SISEA 469 Law, Development, and Transition in East Asia (5) I&S** *Whiting* Examines the role of law and the courts in economic and political change in the developing world. Topics include variations in legal traditions and institutions, economic development, property rights, dispute resolution, democratization, and human rights. Empirical materials focus on East Asia. Offered: jointly with LSJ 469/POL S 469.

**SISEA 470 Minority Peoples of China (5) I&S** *Harrell* Interaction between China and the peoples of its periphery, including Inner Asia, Tibet, Northern Mainland, Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state.

Prerequisite: either ANTH/SISEA 370, HSTAS 454, LING 203, or one 200-level ANTH course. Offered: jointly with ANTH 470.

**SISEA 474 Civil Society in Japan and East Asia (5) I&S** *R. Pekkanen* Examines a wide range of nongovernmental organizations (NGOs) nonprofits, and voluntary groups under the unifying rubric of civil society. Theoretical introduction to civil society and ideas of social capital. Investigates general aspects of civil society, focusing on its specific characteristics in Japan and other parts of Asia. Recommended: SISEA 242.

**SISEA 475 Japanese Society (5) I&S** Discusses rapidly changing Japanese society and history of its unique aspects. Readings and lectures in sociology, anthropology, economics, and politics; emphasis on Japanese search for cultural identity and prevalent interpretations of Japanese society and behavior. Recommended: SISEA 242

**SISEA 478 Readings in the Social Sciences in Japanese (3-5) I&S** Introduction to articles and short works in economics, history, political science, and other social sciences. Assignments chosen from major Japanese monthlies and academic works. All readings in Japanese. Prerequisite: JAPAN 313.

**SISEA 479 Readings in the Social Sciences in Japanese (3-5) I&S** Introduction to articles and short works in economics, history, political science, and other social sciences. Assignments chosen from major Japanese monthlies and academic works. All readings in Japanese. Prerequisite: JAPAN 313.

**SISEA 480 New Orders in East Asia (5) I&S** *Pyle* Rise and fall of successive international systems in East Asia over the past 150 years: Sino-centric, imperialist, Washington Treaty system, Japan's East Asian order, Yalta system, cold-war system. Post-cold-war search for a new order. Special attention to triangular relations among the United States, China, and Japan. Recommended: SISEA 242

**SISEA 481 Science, Technology, and Innovation Policies in East Asia (5) I&S** *Anchoroguy* Role of state and technological change in economic development. Analyzes state and corporate technology policies historically. Basic technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores whether conditions for its success will continue. Recommended: SISEA or SISA course. Offered: jointly with I BUS 461.

**SISEA 482 Japanese Business and Technology (5) I&S** *Anchoroguy* Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with I BUS 462.

**SISEA 486 Japanese Trade Politics (5) I&S** *R. Pekkanen* Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Recommended: either SISEA 437 or POL S 424. Offered: jointly with POL S 418.

**SISEA 490 Special Topics (1-5, max. 15) I&S** Course content varies.

**SISEA 499 Undergraduate Research (1-5, max. 15)**

**SISEA 517 Foreign Trade and Investment Law of the People's Republic of China (1-4, max. 4)** Introduction to the regulatory regime governing foreign trade and investment in China and in-depth coverage of key aspects of the regime, with focus on issues faced by U.S. businesses. Covers specific regulations, their implementation in practice, as well as the political and economic background. Offered: jointly with LAW E 517.

**SISEA 521 Seminar: Introduction to the Interdisciplinary Study of China (5-) Bachman, Dong, Guy**

**SISEA 522 Seminar: Introduction to the Interdisciplinary Study of China (5)** *Bachman, Dong, Guy*

**SISEA 526 The Security of China (5)** *Bachman* Examines how the Chinese state conceptualizes its national security interests and how it pursues strategies designed to achieve those interests. Topics include use of force, military modernization, civil-military relations, and defense industrialization. Offered: jointly with POL S 526.

**SISEA 531 Chinese History: Research Methods and Bibliographic Guides (3, max. 6)** *Guy* Introductory research seminar dealing with the methodological and bibliographical problems concerning all periods and aspects of Chinese history from the earliest times to the nineteenth century. Prerequisite: two years of classical or modern Chinese.

**SISEA 532 The Chinese Political System (5)** *Bachman, Whiting* Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Prerequisite: permission of instructor. Offered: jointly with POL S 532.

**SISEA 533 Seminar on Contemporary Chinese Politics (5)** Research on selected problems in contemporary Chinese politics. Prerequisite: SISEA 532 or permission of instructor. Offered: jointly with POL S 533.

**SISEA 535 International Relations of Modern China (5)** *Bachman* Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a course on contemporary Chinese politics or history, or permission of instructor. Offered: jointly with POL S 535.

**SISEA 536 Political Parties in Japan and East Asia (5)** *R. Pekkanen* Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Recommended: either SISEA 242, SISEA 423, SISEA 440, or SISEA 442.

**SISEA 537 International Relations in Japan (5)** *S. Pekkanen* Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Not open to students who have taken SISEA 437.

**SISEA 540 Japanese Law (4)** *Taylor* Basic institutions and processes of the Japanese legal system. Historical development and traditional role of law, reception of Western law, and cultural and structural factors that influence the function of law and legal institutions. Offered: jointly with LAW B 540.

**SISEA 542 Political Economy of Post War Japan (5)** *Anchoroguy* Political and economic problems of Japan since 1945. Utility of competing theoretical approaches to analysis of government and economy of Japan. Policy-making processes and effects of policies adopted. Recommended: some knowledge of postwar Japan.

**SISEA 543 Chinese Law (4)** Introduction to the institutions and processes of the Chinese legal system. Focuses on the contemporary system and its role in relation to political, economic and social developments. Examines legal aspects governing foreign trade and investment in China. Offered: jointly with LAW B 541.

**SISEA 548 National Security of Japan (5)** *S. Pekkanen* Focuses on the changing landscape of Japan's national security concerns the actors, institutions, and circumstances that have brought issues of defense and rivalry to the center stage of Japanese politics. Topics include nationalism, militarization, pacifism, United States-Japan security alliance, Sino-Japanese competition, constitutional revision, collective defense, and spy satellites.

**SISEA 549 Government Regulation of Business in Japan (3)** Offered: jointly with LAW B 549.

**SISEA 550 Japan, the United States, and New Orders in Asia (5)** *Pyle* Seeks historical understanding of establishment of

new order in contemporary East Asia. Analyzes the imperialist, Washington conference, and cold war systems and explores the present post-cold war search for a new order. Prerequisite: one course in modern Japanese history, political economy, or political science.

**SISEA 551 International Relations of Northeast Asia (5)** *Hellmann* Comprehensive survey of contemporary international relations of Northeast Asia with emphasis on Russia, Japan, China, and the United States. Multidisciplinary approach placing contemporary problems in historical context, drawing on modern social science theories. Connections between defense and economics are examined. Prerequisite: permission of instructor. Offered: jointly with POL S 539.

**SISEA 552 Industrialization and International Relations (5)** *Ha* Examines internal-external linkage with a focus on industrialization and international relations. Comparative perspective on the question of how industrialization shapes distinctive international perspectives in terms of perception, strategies, and foreign policy behaviors. Countries covered: South Korea, Japan, Prussia, the Soviet Union, and China. Offered: jointly with POL S 560.

**SISEA 553 Chinese Legal Tradition (3)** Concepts and principles of the legal tradition in China. Draws on primary and secondary sources in English and, for students with Chinese language competence, traces the concept and development of Chinese law as well as legal institutions in Chinese society. Offered: jointly with LAW B 553.

**SISEA 555 Introduction to Japanese Studies (3-6, max. 6)** *Anchoroguy* Interdisciplinary introduction to the study of Japan, with emphasis on historical development. Required seminar for first-year graduate students.

**SISEA 558 Readings on Japan in the Social Sciences (5)** Seminar discussing articles in Japanese in economics, history, political science, and other social sciences. Assignments from major Japanese monthlies and academic works. Prerequisite: JAPAN 313 or equivalent and permission of instructor.

**SISEA 559 Interdisciplinary Seminar on Japan (6)** Interdisciplinary introduction to contemporary Japan, including its political economy, history, and politics. Surveys Japan's modern history from 1868, then examines elements of contemporary society and Japan's relations in the international community. Prerequisite: permission of instructor.

**SISEA 566 Comparative Politics and Korea Studies (5)** *Ha* Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with POL S 580.

**SISEA 574 Civil Society in Japan and East Asia (5)** *R. Pekkanen* Examines a wide range of nongovernmental organizations (NGOs), nonprofits, and voluntary groups under the unifying rubric of civil society. Theoretical introduction to civil society and ideas of social capital. Investigates general aspects of civil society, focusing on its specific characteristics in Japan and other parts of Asia. Not open to students who have taken SISEA 474.

**SISEA 575 Seminar on Japanese Society (5)** Interdisciplinary seminar with class-led discussions on readings from anthropology, history, sociology, and nondiscipline-specific articles on Japanese society. Prerequisite: background on Japan. Not open to students who have taken SISEA 475.

**SISEA 577 Readings on Political Economy of Japan and Northeast Asia (5)** *Anchoroguy* Analysis of major issues in Japan and also in Korea and China, such as the state's role in industrial development, trade and investment in Asia, trade and security relations with the U.S., and Asian models of capitalism.

**SISEA 579 Modern Chinese History (5)** *Dong* Introduction to the major English-language literature on modern Chinese history and to the major historiographical issues of the period. Prerequisite: HSTAS 454 or equivalent, and permission of instructor. Offered: jointly with HSTAS 579.

**SISEA 581 Science, Technology, and Innovation Policies in East Asia (5)** *Anchoroguy* Role of state and technological change in economic development. Analyzes state and corporate policies historically. Technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores conditions for its successful continuation. Not open to undergraduates. Recommended: SISEA/SSIA course. Offered: jointly with I BUS 561.

**SISEA 582 Japanese Business and Technology (5)** *Anchoroguy* Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with I BUS 562.

**SISEA 584 Survey of Korean Society (5)** *Sorensen* Introduction to the social and political institutions of North and South Korea with an opportunity to master the most important literature on modern Korea. Focuses on the twentieth century with the major emphasis on the post-1945 period. Offered: A.

**SISEA 585 Research Seminar: Modern Korea (6)** *Ha* Advanced instruction in problems and methods of research in Korean history. Foreign language not required. Prerequisite: permission of instructor.

**SISEA 586 Japanese Trade Politics (5)** *S. Pekkanen* Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Not open to students who have taken SISEA 486.

**SISEA 590 Special Topics (2-5, max. 10)** Seminar. Course content varies. Offered occasionally by visiting or resident faculty.

**SISEA 600 Independent Study or Research (\*)**

**SISEA 700 Master's Thesis (\*)**

## Jewish Studies

**SISJE 195 Popular Film and the Holocaust (5)** *VLPA Block* Introduces films about the Holocaust with particular emphasis on popular films. Develops the requisite tools for analyzing films, a historical perspective of the Holocaust, and the problems involved in trying to represent a historical event whose tragic dimensions exceed the limits of the imagination. Offered: jointly with GERMAN 195.

**SISJE 250 Introduction to Jewish Cultural History (5)** *I&S Jaffee* Introductory orientation to the settings in which Jews have marked out for themselves distinctive identities as a people, a culture, and as a religious community. Examines Jewish cultural history as a production of Jewish identity that is always produced in conversation with others in the non-Jewish world. Offered: jointly with HIST 250.

**SISJE 269 The Holocaust: History and Memory (5)** *I&S Pioeger* Explores the Holocaust as crucial event of the twentieth century. Examines the origins of the Holocaust, perpetrators and victims, and efforts to come to terms with this genocide in Europe, Israel, and the United States. Offered: jointly with HIST 269.

**SISJE 295 The Contributions of German Jews to German Culture (5)** *I&S/VLPA* Contribution, assimilation and alienation of German-speaking Jews—such as Karl Marx, Sigmund Freud and Franz Kafka—emphasizing the multi-cultural nature of that which is understood as “German culture.” Offered: jointly with GERMAN 295.

**SISJE 312 Jewish Literature: Biblical to Modern (5)** *I&S/VLPA* A study of Jewish literature from Biblical narrative and rabbinic commentary to modern prose and poetry with intervening texts primarily organized around major themes: martyrdom and suffering, destruction and exile, messianism, Hasidism and Enlightenment, Yiddishism and Zionism.

Various critical approaches; geographic and historic contexts. Offered: jointly with ENGL 312.

**SISJE 336 American Jewish History Since 1885 (5) I&S** Political, social, economic, religious history of American Jewish community from great eastern European migration to present. Integration of immigrant community into general American community; rise of nativism; development of American socialism; World War I and II; and reactions of American Jews to these events. Offered: jointly with HSTAA 336.

**SISJE 357 Jewish American Literature and Culture (5) VLPA** *Butwin* Examines the literary and cultural production of American Jews from the colonial period to the present time. Considers ways in which American Jews assimilate and resist assimilation while Jewish writers, filmmakers, playwrights, and graphic novelists imitate and alter American life and literature. Offered: jointly with ENGL 357; AWSp.

**SISJE 367 Medieval Jewish History (5) I&S** *Stacey* Social and intellectual history of the Jews in Western Europe to fifteenth century. Jews under Islam and Christianity; the church and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with HSTAM 367.

**SISJE 368 Modern European Jewish History (5) I&S** *Surveys* European Jewish history from the Spanish expulsion (1492) to World War I (1914). Considers diversity of European Jewries and the factors that cohered them. Examines how European Jewries ordered their lives, shaped gender and class norms, and interacted with the societies in which they lived. Offered: jointly with HSTEU 368.

**SISJE 369 The Jewish Twentieth Century in Film (5) I&S** *Surveys* twentieth-century Jewish history in its European, American, and Middle Eastern contexts by examining films produced in these settings. Considers central events that shaped modern Jewish culture: the changing geography of Europe and the Middle East, mass migrations, the Holocaust, shifting meanings of race, culture, and religion. Offered: jointly with HIST 369.

**SISJE 377 The American Jewish Community (5) I&S** *Burstein* Development and current status of American Jewish community: immigration; changes in religious practice, institutions in response to circumstances in American Society; creation of new types of secular communal organizations; assimilation; confrontation with antisemitism; family life; social, economic mobility; religious, secular education; intermarriage, and future of community. Offered: jointly with SOC 377.

**SISJE 378 Contemporary Jewish American Identities (5) I&S** *Friedman* Introduction to the debates about post-Holocaust Jewish identities in multicultural America. Explores whether a distinctive Jewish community is headed toward assimilation, experiencing revival, or merely transforming the multiple ways Jewish experience is lived. Topics include new Jewish immigrants, the new Orthodox, Black Jews, Jewish feminism, children of Holocaust survivors. Offered: jointly with SOC 378.

**SISJE 380 Doing Jewish Identity Studies (5) I&S** *Friedman* Involves the student in researching the diverse Jewish identities of young people today. Includes background reading on Jewish identities in the United States; interviewing young Jewish adults; transcribing and interpreting interviews; and crafting a qualitative research paper. Covers research skills, as well as sensitivity to Jewish community values and concerns.

**SISJE 399 Study Abroad—Jewish Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISJE 418 Jewish Philosophy (5) I&S** *Rosenthal* Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period—e.g., medieval or modern— or on a topic—e.g., reactions to the Enlightenment or to the Holocaust. Prerequisite: at least one previous course in philosophy. Offered: jointly with PHIL 418.

**SISJE 438 Jewish Women in Contemporary America (5) I&S** *Friedman* Examines how Jewish women's identities are socially constructed and transformed in contemporary America, using social histories, memoirs, and ethnographies to analyze scholars' approaches to Jewish women's lives. Topics include the role of social class, religion, migration, the Holocaust, and race relations in Jewish women's lives. Offered: jointly with WOMEN 438.

**SISJE 452 The Biblical Song of Songs (3) VLPA** *Noegel* Examines the erotic and beautiful Song of Songs within the context of ancient (and medieval) Near Eastern love poetry and correlates close readings of the book with various interpretations it has received from antiquity until today. No knowledge of Hebrew or the Bible is required. Offered: jointly with NEAR E 452.

**SISJE 453 The Biblical Prophets (3) VLPA I&S** *Noegel* Explores the biblical prophets (in translation) within their Near Eastern contexts. Studies them for their historicity, literary and rhetorical sophistication, and ideological agendas. This course seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible is required. Offered: jointly with NEAR E 453.

**SISJE 454 Israel: The First Six Centuries BCE (3) VLPA I&S** *Noegel* Traces the Israelites, from the Babylonian destruction of the Jerusalem Temple (586 BCE) to events following the destruction of the second Temple (1st century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible is required. Offered: jointly with NEAR E 454.

**SISJE 455 The Kings of Monarchic Israel (3) VLPA I&S** *Noegel* Examines the biblical accounts (in translation) concerning the formation and collapse of the united Israelite monarchy. Investigates the archaeological and textual evidence for their historicity, the literary sophistication of these accounts, and Israelite kingship within the wider context of the ancient Near East. No knowledge of the Bible is required. Offered: jointly with NEAR E 455.

**SISJE 458 The Babylonian Talmud (3/5) VLPA/I&S** *Jaffee* Introduction to the Babylonian Talmud, the classic collection of rabbinic literature. Literary and historic methodologies contextualize the Talmud in the setting of other ancient religious literatures and track the processes of its literary development. Offered: jointly with NEAR E 458.

**SISJE 465 The Jews of Eastern Europe (5) I&S** Jewish society in Poland, Russia, the Habsburg Lands, and Romania from the late Middle Ages to the Holocaust. Offered: jointly with HSTEU 465.

**SISJE 466 The Sephardic Diaspora: 1492–Present (5) I&S** Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with HSTEU 466.

**SISJE 469 Enlightenment, Emancipation, Antisemitism: History of the Jews, 1770–1914 (5) I&S** The Jewish experience in the modern world from the European Enlightenment to the First World War. Focus on the debates surrounding Jewish emancipation, the reception of Jews within European society, modern antisemitism, nationalist movements, mass migration, and war. Offered: jointly with HSTEU 469.

**SISJE 490 Special Topics (1–5, max. 15) I&S** Content varies.

**SISJE 495 Seminar in Jewish Studies (5) I&S** *Jaffee* History of Jewish Studies as an organized field of academic inquiry. Explores the implications for Jewish Studies of its present setting within the context of the humanities and the social sciences.

**SISJE 497 Field Archaeology (1–10, max. 20)** Professionally-guided archaeological fieldwork at a recognized archaeological dig in the United States or abroad. Offered: S.

**SISJE 499 Undergraduate Research (1–5, max. 15)**

## Latin American Studies

**SISLA 120 Introduction to Human Rights in Latin America (5) I&S** *Godoy* Overview of human rights issues and how they have evolved in recent Latin American history, from the military dictatorships of the authoritarian period to contemporary challenges faced in the region's democracies. Credit not allowed if LSJ 470/SIS 410 already taken.

**SISLA 280 Indigenous Encounters: Politics, Culture, and Representation in Latin America (5) I&S** *Garcia* Explores the contemporary cultural and political transformations advanced by indigenous groups and their advocates in Latin America. Examines the concept of indigeneity, the cultural politics of indigenous mobilization, and the effects of international development policies on indigenous communities. Offered: jointly with CHID 280.

**SISLA 322 International Political Economy of Latin America (5) I&S** Exploration of politics underlying Latin America's economic development. Topics covered include import-substituting industrialization, mercantilism, the debt crisis, neoliberalism, market integration, and poverty. Review of major theoretical perspectives such as modernization theory, dependency, and the new political economy. Offered: jointly with POL S 322.

**SISLA 342 Government and Politics of Latin America (5) I&S** *Gill, Lucero* Analysis of the political dynamics of change in Latin America comparing various national approaches to the political problems of modernization, economic development, and social change. Offered: jointly with POL S 342.

**SISLA 355 Social Change in Latin America (5) I&S** *Warren* Explores cultures, identities, political economy, and popular mobilization in Latin America. Examines relations of power and production between social classes and ethnic groups, as well as ideologies and intellectual movements. Offered: jointly with SOC 355.

**SISLA 399 Study Abroad: Latin American Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISLA 451 Cultural Geography of Latin America (5) I&S** Interdisciplinary senior seminar examining how physical and social geographies are culturally constructed and interconnected with subjectivities and power in Latin America. Topics include identity formation grounded in particular territories and the social constitution of space via an interplay of material and cultural forces. Offered: jointly with GEOG 451.

**SISLA 470 Latin American Studies Internship (1–5, max. 10)** Off-campus fieldwork with a community national, or international organization, in an apprenticeship or internship situation. Supervised by on-site field supervisor and Latin American Studies faculty member.

**SISLA 480 Labor and Popular Movements in Latin America (5) I&S** Interdisciplinary approach to origins and trajectory of labor movement from late nineteenth century to present. Emphasis in contemporary period on popular movements, including neighborhood associations, religious base communities, women's movement, and ethnic mobilization for democratic social and political reform. Recommended: two non-language Latin American studies courses. Offered: jointly with HSTAA 480.

**SISLA 483 Technology and Culture in the Making of Contemporary Empires (5) I&S** *Benitez, Rodriguez-Silva* Explores struggles shaping organization of US empire in the early twentieth century, focusing on sites where empire's material, cultural, and ideological boundaries were drawn and contested. Includes race, gender and class as colonial formation; technologies of imperial governance such as public health, citizenship, and territory. Offered: jointly with HIST 483; W.

**SISLA 486 Photography and Cultural Studies in Latin America (5) I&S/VLPA** *Steele* Interdisciplinary exploration of the connections between visual anthropology (ethnography through photography and film), documentary and art photography, and colonial and post-colonial discourse in Latin America during the twentieth century. Prerequisite: either

SPAN 303 or SPAN 316; SPAN 322; one additional 300-level course beyond 303. Offered: jointly with SPAN 486.

**SISLA 489 The Mexico-U.S. Border in Literature and Film (5) I&S/VLPA** Steele Analysis of the Mexico-U.S. Border region in literature and film of the 1990s and early 2000s. Includes migration, tourism, NGOs, globalization, transnational commerce, multiculturalism, and politics of gender, sexuality and race. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 321 or SPAN 322; one additional 300-level course above SPAN 303. Offered: jointly with SPAN 489.

**SISLA 490 Special Topics (1–5, max. 15) I&S** Content varies.

**SISLA 492 Latin American Studies Seminar (5, max. 15) I&S**

**SISLA 499 Undergraduate Research (1–5, max. 15)**

## Middle Eastern Studies

**SISME 210 Introduction to Islamic Civilization (5) I&S/VLPA** Major developments in Islamic civilization from advent of Islam in seventh century to present. Islamic history, law, theology, and mysticism, as well as the politics, cultures, and literatures of the various Islamic societies. Offered: jointly with NEAR E 210.

**SISME 213 Introduction to the Modern Middle East (5) I&S** Major social and political trends in the Middle East during the 18th, 19th, and 20th centuries. Basic principles of Islam and its diversity, changing balance of power during the early modern period; European colonialism and withdrawal; pan-Arabism, nationalism, feminism and religious resurgence. Offered: jointly with NEAR E 213.

**SISME 399 Study Abroad: Middle Eastern Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISME 400 The Middle East in the Modern World (5) I&S Kasaba** Economic, political, and cultural ties between the Middle East and the modern world between the eighteenth century and the present. Particular attention to the transformation of societies, formation of modern states, the relationship between Islam and democracy, and gender and society in the Middle East.

**SISME 420 International Humanitarian Law (5) I&S Lorenz** Investigates International Humanitarian Law (sometimes called the Law of Armed Conflict), the field concerned with rules developed by civilized nations to protect the victims of armed conflict, including the Geneva Conventions. Case studies include the conflict between Israel and the Palestinians, as well as developments in Afghanistan and Iraq.

**SISME 430 Economic Development of the Middle East (5) I&S Kasaba** Comparative examination of economic development in the Middle East. Includes population growth, agrarian change, industrialization, foreign trade, capital flows, and fiscal and monetary policies.

**SISME 458 Israel: Politics and Society (5) I&S Migdal** Examines how parts of the mosaic of Israel's ethnic groups and religions have interacted over time to create today's society. Focus on politics, especially interaction of the state with the mosaic society. The religious divide; the Jewish ethnic divide; Palestinians in Israel; war and its effect on Israel; the long road to peace.

**SISME 480 Current Issues in the Arab Media (5, max. 15) VLPA/I&S Hamd** Critical discussions on the dominant issues confronting the Arab world today. Examines Arab societies as they face the challenges of contemporary globalism. Emphasizes language proficiency and cultural competence. Taught in Arabic. Recommended: third-year Arabic. Offered: AWSp.

**SISME 490 Special Topics (1–5, max. 15) I&S** Content varies.

**SISME 491 Methodologies in Near Eastern Studies (5)** Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, imperial and nationalist social systems, and ideological

frameworks, such as Orientalism. Offered: jointly with NEAR E 491.

**SISME 495 Trends in the Contemporary Middle East (3) I&S** Perspectives on cultural, political, and other aspects of Middle Eastern societies. Focuses on background complexities rather than immediate political-military confrontations. Topics vary. Offered: jointly with NEAR E 495.

**SISME 499 Undergraduate Research (1–5, max. 15)**

**SISME 530 Reading Seminar on Middle East Studies (2)** Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no credit only.

**SISME 531 Reading Seminar on Middle East Studies (2)** Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no credit only.

**SISME 532 Reading Seminar on Middle East Studies (2)** Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no credit only.

**SISME 560 Seminar in Turkish Studies (2, max. 12)** Recent research and writings focused on the Ottoman Empire and modern Turkey. Credit /no credit only.

**SISME 590 Special Topics (3–5, max. 10)** Content varies.

**SISME 600 Independent Study or Research (\*)**

**SISME 700 Master's Thesis (\*)**

## Russian, East European, and Central Asian Studies

**SISRE 418 Eastern Europe: the Political Economy of the Region (5) I&S Poznanski** Focus on the classical command-type economy and the most recent economic and political transition in Eastern Europe. Analysis of current institutional reform, privatization, and trade relations.

**SISRE 424 Security Affairs of Russia and Eurasia (5) I&S Jones** Surveys history of Soviet military and Soviet empire from 1917 to 1985, breakup of the USSR during 1985 to 1991, and the emergence of new security issues among those Eurasian states that formally constituted the national components of the USSR and its communist military allies.

**SISRE 425 Anthropology of the Post-Soviet States (5) I&S Bilaniuk** Analysis of Soviet and post-Soviet culture and identity. Historical transformations in Soviet approaches to ethnicity and nationality; contemporary processes of nationbuilding and interethnic conflict. Examination of culture through the intersection of social ritual, government policies, language, economic practices, and daily life. Regional focus will vary. Offered: jointly with ANTH 425.

**SISRE 443 Kievan and Muscovite Russia: 850–1700 (5) I&S** Development of Russia from earliest times to the reign of Peter the Great. Offered: jointly with HSTAM 443.

**SISRE 444 Imperial Russia: 1700–1900 (5) I&S Young** Development of Russia from Peter the Great to Nicholas II. Offered: jointly with HSTEU 444.

**SISRE 445 Politics and Society Eastern Europe (5) I&S** Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all communist states of Eastern Europe and their successors. Offered: jointly with POL S 445.

**SISRE 448 Twentieth-Century Russia (5) I&S Young** Russia and the USSR from Nicholas II to the present. Offered: jointly with HSTEU 445.

**SISRE 450 Survey of the Cultures of the Turkic Peoples of Central Asia (3) I&S/VLPA Cirtautas** Nomadic and sedentary cultures of the Turkic peoples of Central Asia. Emphasis on languages, literature, and adherence to traditional modes of life. Offered: jointly with NEAR E 450.

**SISRE 465 Baltic States Since 1991 (5) I&S Smidchens** Intensive interdisciplinary survey of social, political and economic developments in Estonia, Latvia, and Lithuania since 1991. Offered: jointly with SCAND 455.

**SISRE 472 Peoples and Cultures of Central and Inner Asia (5) I&S Mawkanuli** Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang - Eastern Turkestan, Tibet and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with NEAR E 472/ANTH 422.

**SISRE 479 Contemporary Central Asian Politics (5) I&S Radnitz** Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with POL S 479.

**SISRE 490 Special Topics (1–5, max. 15) I&S** Topics vary.

**SISRE 501 Bibliography and Research Methods (5)** Introduction to bibliographic and other scholarly resources in field; development of research techniques. Some use of relevant language required. Required of all first-year MAIS students. Offered: A.

**SISRE 502 Thesis Seminar I (2-) Mikkelsen** Review of research techniques: preparation for drafting master's thesis. Required of all second-year MAIS students. Credit/no credit only. Offered: A.

**SISRE 503 Thesis Seminar -II(2) Mikkelsen** Seminar to complete draft of master's thesis. Some use of relevant language required. Required of all second-year MAIS students. Offered: W.

**SISRE 504 Approaches to East European Politics (3–5)** Selected concepts and methodologies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered: jointly with POL S 537.

**SISRE 505 Seminar: Problems of Social and Political Development in Eastern Europe (3–6, max. 6)** Research seminar dealing with selected problems of continuity and change in eastern Europe. Prerequisite: some previous course work on eastern Europe.

**SISRE 579 Contemporary Central Asian Politics (5) I&S Radnitz** Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with POL S 579.

**SISRE 590 Special Topics (2–5, max. 10)** Course content varies. Offered occasionally by visitors or resident faculty.

**SISRE 600 Independent Study or Research (\*)**

**SISRE 700 Master's Thesis (\*)**

## South Asian Studies

**SISSA 399 Study Abroad: South Asian Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISSA 490 Special Topics (1–5, max. 15) I&S** Topics vary.

**SISSA 499 Undergraduate Research (1–5, max. 15)**

**SISSA 510 Interdisciplinary Study of South Asia I (5)** Examines key themes and debates about the development of South Asian cultural and political formations. Examines how different scholarly disciplines, particularly those in the humanities, have approved and analyzed the past in South Asia.

**SISSA 511 Interdisciplinary Study of South Asia II (5) Kale** Examination of key themes and debates about the development of South Asian cultural and political formations. Exam-

ines how different scholarly disciplines, particularly those in the social sciences, analyze political transitions, social change, and cultural transformations in South Asia through the twentieth century. Offered: W.

**SISSA 512 South Asian Studies Research Design Seminar (5)** *Robinson* Interdisciplinary seminar for graduate students in which research and writing on individual research topics are critically developed. Designed to provide each student with an opportunity to synthesize his or her studies on South Asia. Prerequisite: SISSA 510; SISSA 511 or permission of graduate program coordinator.

**SISSA 536 Advanced Research Seminar on South Asian Geographies (5)** Examines geographies of social inequality in South Asia through reference to how space, place, and the environment are shaping practices of political struggle in the region. Considers how liberalization, democratization and religious communalization are changing the political geography of South Asia. Offered jointly with GEOG 536, Sp.

**SISSA 539 Social Movements in Contemporary India (5)** *Ramamurthy* Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with WOMEN 539/ANTH 539.

**SISSA 590 Special Topics (2–5, max. 10)** Seminar. Course content varies. Offered occasionally by visitors or resident faculty.

**SISSA 600 Independent Study or Research (\*)**

**SISSA 700 Master's Thesis (\*)**

## Southeast Asian Studies

**SISSE 221 History of Southeast Asia (5) I&S** *Giebel, Sears* Surveys Southeast Asian civilizations at the outset of Western colonial rule; the colonial impact on the traditional societies of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, and the Philippines; nineteenth- and twentieth-century nationalist and revolutionary movements; emergence of Southeast Asia as a region in the modern world. Offered: jointly with HSTAS 221.

**SISSE 265 The Viet Nam Wars (5) I&S** *Giebel* Recent Vietnamese history and struggles for independence and national unification vis-à-vis French colonialism, Japanese occupation, American intervention, and internal divisions. Covers historical roots and contemporary contexts of revolution and war, objectives and motivations of participants, and the enormous human costs. Emphasizes socio-cultural changes and wars' legacies. Offered: jointly with HSTAS 265.

**SISSE 314 Culture, Environment, and Identity in Island Southeast Asia (5) I&S** *Lowe* Anthropological study of colonial and post-colonial contexts of Island Southeast Asia. Emphasis on historical legacies, influence of world religions, formation of national and collective identities, revolution and national politics, and modernities. Prerequisite: either one 200-level ANTH course, LING 203, or one SIS course. Offered: jointly with ANTH 314.

**SISSE 315 Southeast Asian Civilization: Buddhist and Vietnamese (5) I&S** Civilizations of Theravada Buddhist societies in Burma, Thailand, Cambodia, and Laos and in Vietnamese societies of Southeast Asia. Culture of tribal peoples who live on peripheries of these societies. Cultural transformations consequent upon the war in Indochina and resettlement of Indochinese refugees in United States. Offered: jointly with ANTH 315.

**SISSE 343 Politics and Change in Southeast Asia (5) I&S** *Callahan* Government and politics in the countries of Southeast Asia, with attention given to the nature of the social and economic environments that condition them. Offered: jointly with POL S 343.

**SISSE 364 Violence, Myth, and Memory (5) VLPA/I&S** *Sears* Explores how images and ideas of power, violence, and global modernity circulate in memories and discourses about US relations with Vietnam, the Philippines, and Indonesia. Topics include foundations myths, colonial and postcolonial

encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with HSTAS 346; Sp.

**SISSE 367 Southeast Asian Activism and Social Engagement (5) I&S** *Rafael* Investigates how Southeast Asian activism is tied to the histories of political struggle within Southeast Asia and to questions of diasporic Asian American identity. Engages in group research projects exploring the meaning of social activism within local communities. Offered: jointly with HIST 367; Sp.

**SISSE 376 Violence, Myth, and Memory (5) VLPA/I&S** *Benitez, Sears* Explores how images and ideas of power, violence, and global modernity circulate in films and novels, memories and discourses about U.S. relations with Vietnam, the Philippines, and Indonesia. Topics include foundational myths, colonial and post-colonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with C LIT 376.

**SISSE 399 Study Abroad: Southeast Asian Studies (1–5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISSE 420 Southeast Asian Knowledge and the Politics of Information (5) I&S** *Henchy* Overview of information resources in and about Southeast Asia, including evaluation of those sources within various theoretical articulations (scholastic, cultural, and political). Pedagogical implications of the life cycle of information; critique of these implications from various theoretical and cultural viewpoints.

**SISSE 432 Technology and Culture in the Making of Contemporary Empires (5) I&S** *Benitez, Rodríguez-Silva* Explores the struggles that shaped organization of the U.S. empire at the turn of the 20th century, focusing on how empire's materials, cultural, and ideological boundaries were drawn. Topics include race, gender, and class as colonial formations; technologies of imperial governance such as public health, citizenship and territory; and popular culture. Offered: jointly with C LIT 432.

**SISSE 445 Literature and Society in Southeast Asia (5, max. 10) I&S/VLPA** Focus on either Vietnam or Thailand. Provides students with opportunity to explore how those living in Southeast Asia have reflected on the radical social changes their societies have undergone through novels, short stories, and poetry. Prerequisite: one 200-level ANTH course or LING 203. Offered: jointly with ANTH 445.

**SISSE 466 Islam, Mysticism, Politics and Performance in Indonesian Culture (5) I&S/VLPA** *Sears* Shows how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influences from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with HSTAS 446.

**SISSE 468 Theatre as a Site of History and Memory (5) GE** *Sears* Explores Asian theatre traditions as sites of memory, testimony, and archive using ethnographic and historiographical approaches. Includes service-learning components and collaborative performance projects. Offered: jointly with HIST 468; Sp.

**SISSE 469 Topics in Southeast Asian History and Society (5) I&S** Introduces major issues within the history and culture of one country of Southeast Asia. Content varies. Topics may include religion, economics, colonialism, perspectives on gender, labor history, literatures, popular culture, and performing arts. Focuses on a different Southeast Asian country each time offered.

**SISSE 490 Special Topics in Southeast Asian Studies (1–5, max. 15) I&S** Content varies.

**SISSE 499 Undergraduate Research (1–5, max. 15)**

**SISSE 510 Study of Southeast Asia (5) Lowe** Focuses on questioning what it means to create knowledge about the region.

**SISSE 534 Indonesian Histories, Oral Traditions, and Archives (5)** Explores the inscription of Indonesian histories and stories. Focuses on oral traditions, oral testimonies,

and archives. Investigates how oral and written testimonies enter historical archives. Explores theoretical work on literary and performance traditions as they relate to nationalism and Islam in Indonesia. Offered: jointly with HSTAS 534.

**SISSE 590 Special Topics (1–5, max. 15) Sears**

**SISSE 600 Independent Study or Research (\*)**

## Labor Studies

### UNDERGRADUATE PROGRAM

**Adviser**

101 Smith, Box 353560

206-543-7946

[pcls.uw.edu](http://pcls.uw.edu)

### Minor

The Labor Studies minor brings together a series of courses on labor in core social-science departments. It provides students an interdisciplinary program of study focusing on the importance of labor to the economic, social, political, and cultural evolution of modern societies.

### Minor Requirements

25 credits, to include the following:

- HIST 249/POL S 249/SOC 266 (5 credits)
- 20 additional credits from courses related to labor studies, with no more than 10 credits from one department. See department Web site for current list: [depts.washington.edu/pcls/resources-courses.html](http://depts.washington.edu/pcls/resources-courses.html).
- Minimum 2.0 grade required for each course applied toward the minor.

## Law, Societies, and Justice

### PROGRAM OVERVIEW

42 Gowen

The program in Law, Societies, and Justice provides an interdisciplinary liberal arts education focusing on the unique forms of social control, institutionalized disputing, and justice that we identify with law or legality. Courses inquire into the historically embedded principles and institutional practices associated with diverse legal domains—constitutional, criminal, administrative, and civil law as well as fundamental human rights—in the United States and throughout much of the world. The program encourages complex assessments of the workings and implications of law in society according to standards that are both internal and external to the rule of law itself.

### UNDERGRADUATE PROGRAM

**Adviser**

42 Gowen, Box 353530

206-543-2396

[lsjadv.uw.edu](http://lsjadv.uw.edu)

Law, Societies, and Justice offers the following programs of study:

- The Bachelor of Arts degree with a major in law, societies, and justice.
- A minor in law, societies, and justice

- A minor in [human rights](#) involving courses at the three UW campuses
- A minor in disability studies

## Bachelor of Arts

**Suggested First- and Second-Year College Courses:** Courses that emphasize development of reading, writing, and especially analytical skills. Also, classes that provide background knowledge of modern world history, politics, institutions, and political theory.

### Department Admission Requirements

- Admission is competitive, based on the following: GPA, with emphasis on grades received in courses required for admission (applicants accepted normally present cumulative GPAs considerably above 2.50); personal statement representing the student's interest in and commitment to becoming a Law, Societies, and Justice major; other evidence of a commitment to the study of society, justice, and law.
- Completion of one of the following courses: LSJ 320/POL S 368, LSJ 321/ANTH 323 or LSJ 322/SIS 322; LSJ 363/POL S 363 or LSJ 200; LSJ 367/POL S 367 or LSJ366/SIS 366; LSJ 375 or SOC 372.
- Completion of one research methods or statistics class. See the program's website or advising office for a list of approved courses.
- Completion of one English composition course. (Further evidence of writing skills in the social sciences is encouraged.)
- A minimum cumulative GPA of 2.00 at the University of Washington.
- Students may apply in autumn, winter, or spring quarters. Applications for admission are due no later than the second Friday of each quarter. Students are notified of admission decisions by the sixth week of the quarter in which they apply.

### Major Requirements

Minimum 57 credits as follows:

- Completion of the four LSJ core courses: LSJ 320/POL S 368, LSJ 321/ANTH 323, or LSJ322/SIS 322; LSJ 363/POL S 363 or LSJ 200; LSJ 367/POL S 367 or LSJ366/SIS 366; LSJ 375 or SOC 372 (20 credits).
- One research methods or statistics course from approved list (4–5 credits).
- Three courses from one of the three designated subfields of study (crime, social control, and justice; comparative legal institutions and politics; rights, resistance, and reconstructions in law); and two courses from one of the other two subfields. See the program's website or adviser for list of approved courses (23 to 25 credits).
- One LSJ senior seminar; and one field experience/internship, LSJ 401. Senior seminar cannot also count as an LSJ subfield course (10 credits).
- Students may use only one 3- or 4-credit course toward completion of the major.

### Minor

**Minor Requirements (Law, Societies, and Justice):** 30 credits, to include:

- Two courses from the following: LSJ 320/POL S 368, or LSJ 321/ANTH 323, or LSJ 322/SIS 322; LSJ 363/POL S 363 or LSJ 200; LSJ 367/POL S 367 or LSJ 366/SIS 366; LSJ 375 or SOC 372 (10 credits).
- Two courses from a single LSJ major subfield. The major subfield areas are crime, social control, & justice; comparative legal institutions & politics; and rights, resistance, & reconstruction in law. Classes fulfilling the

subfield requirement are outlined on departmental web pages and handouts (6–10 credits).

- One course from a second major subfield or from the LSJ research methods list. The research methods list is outlined on departmental web pages and handouts (3–5 credits).
- Elective courses from the list of LSJ core courses or LSJ major subfields. Only one course from the research methods list can be used to reach the total of 30 credits.

**Minor Requirements (Disability Studies):** 30 credits

- **Core courses:** LSJ 332/CHID 332; LSJ 433/CHID 433; LSJ 434/CHID 434 (15 credits).
- **Internship or independent study:** (5 credits) LSJ 332/CHID 332 must be completed before this requirement is undertaken.
- **Disability studies electives:** See LSJ adviser or disability studies program [website](#) for list of allowable classes (10 credits).

### Student Outcomes and Opportunities

- **Learning Objectives and Expected Outcomes:** The Law, Societies, and Justice curriculum emphasizes the development of a range of analytic and communicative skills. Courses challenge students to develop the capacities to: read and interpret texts, including theoretical, empirical and legal documents; comprehend and contrast arguments; develop and defend arguments; contrast theoretical arguments with empirical realities; assess contemporary practices of justice delivery against contemporary conceptions of justice. Students are required to express these skills in both verbal and written forms, through active class discussions and well-constructed writing assignments. The development of these skills assists students in a range of possible future endeavors, including a wide array of careers in law and justice.
- **Instructional and Research Facilities:** Students have access to the Political Science computer lab and writing center for most classes. Research opportunities are available on an individual and group basis with many professors.
- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- **Research, Internships, and Service Learning:** LSJ was the first program in the social sciences to require an internship as part of its major. The internship aims: (1) to provide students with insights into the workings of law in practice; (2) to scrutinize and 'test' some of the theories and concepts found in the literature against 'real world' practice; (3) to advance career development and goals; and (4) to provide 100 hours of local community service. Students work with a variety of governmental and non-governmental agencies and organizations, including private law firms, federal law enforcement agencies, and social service organizations (see the [internship listings](#) for complete information). It is the student's responsibility to find an internship, although the LSJ adviser can help find a suitable one. Students are required to write two papers according to specific guidelines for internship course credit. Many of the LSJ faculty regularly invite majors to assist them in the development and execution of research endeavors. These provide students an unparalleled opportunity to understand the challenges and mechanics of high-level research.
- **Department Scholarships:** None available, although the program does provide several awards with modest cash stipends to graduating seniors.

- **Student Organizations/Associations:** Law, Societies, and Justice is a founding member of the National Consortium of Law and Society Programs. The program is presently reassessing the status of student associations and organizations.

**Of Special Note:** The required senior seminar emphasizes close reading of texts, active class discussions, and well-reasoned analytic writing, providing an opportunity to establish a close connection to faculty and other students, and to hone analytic and communicative skills.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**LSJ 200 Introduction to Law, Societies, and Justice (5) I&S** Explores the central role of law in social processes; investigates the primary types of legal regimes and compares them across different national and international contexts; contrasts legal with non-legal forms of social ordering; investigates the structure and practice of human rights law.

**LSJ 299 Special Topics in Law, Societies, and Justice (2–5, max. 10) I&S** Examines a different subject or problem of current interest within the discipline.

**LSJ 301 Internship (1–5, max. 5)** Participation in an approved internship. Credit/no credit only.

**LSJ 310 Research in Law, Societies, and Justice (1–5, max. 15) I&S** Supervised introductory individual and/or seminar-based research on some aspect of society and justice.

**LSJ 320 The Politics and Law of International Human Rights (5) I&S** Studies the international human rights movement in its legal and political context. Focuses on institutions which influence, enable, and constrain the international promotion of human rights. Offered: jointly with POL S 368.

**LSJ 321 Human Rights Law in Culture and Practice (5) I&S** Introduces the complexities of issues surrounding human rights. Examines human rights concerns through critical analyses, taking into account legal, social, economic, and historical variables. Offered: jointly with ANTH 323.

**LSJ 322 Human Rights in Latin America (5) I&S** Overview of human rights issues and their recent evolution in Latin American history; military dictatorships; contemporary challenges in the region's democracies. Human rights concerns in relation to broader sociopolitical context. Recommended: knowledge of modern Latin American history. Offered: jointly with SIS 322.

**LSJ 327 Women's Rights as Human Rights (5) I&S** Women's rights in comparative perspective, focusing on varying settings that alter the meaning and practical application. Domestic level: areas including abortion politics to trafficking in women. International level: areas including equality claims before European supranational judicial bodies, rape as war crime in international law. Offered: jointly with POL S 327.

**LSJ 330 Beyond Civil Rights: Law, Culture, and Change (5) I&S** Assessment of the contemporary politics of civil rights as shaped by an identity politics that is both significant and passe. Recommended: LSJ 363 or one course in either AES or WOMEN. Offered: jointly with AES 330.

**LSJ 331 The Politics of Race and Ethnicity in the United States (5) I&S** Introduction to the history and development of racial hierarchy, focusing on how race and ethnicity shape political institutions (e.g., the Constitution, political parties, voting systems). Examination of political relationships between Whites, African Americans, Latinos, and Asian Americans. Case studies of minority representation and the politics of welfare, crime, immigration, and terrorism. Offered: jointly with POL S 317.

**LSJ 332 Disability and Society: Introduction to Disability Studies (5) I&S** Introduction to the field of disability studies. Focuses on theoretical questions of how society predominantly understands disability and the social justice con-

sequences. Examines biological, social, cultural, political, and economic determinants in social creation/construction (framing) of disability and effects on those claiming and/or labeled as disabled. Offered: jointly with CHID 332.

**LSJ 336 The Place of Law in Multicultural Conflicts (5) I&S** *Barzilai* Global and regional issues of multicultural conflict and the law. Covers the multiplicity of theories, facts, and interpretations that shape this field of study, some of which are controversial, including: legal identities, cultural difference and human rights, multicultural jurisdictions, international/transnational immigration, and legal pluralism. Offered: jointly with SIS 336.

**LSJ 355 Introduction to the American Court System (5) I&S** Philosophical and structural bases of the American court system; roles of attorneys, judges and the public in that system. Some focus also on current challenges to the courts posed by court congestion and alternative dispute resolution, and on future prospects for the courts.

**LSJ 360 Introduction to United States Constitutional Law (5) I&S** Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects. Offered: jointly with POL S 360.

**LSJ 361 United States Courts and Civil Liberty (5) I&S** Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. Offered: jointly with POL S 361.

**LSJ 362 Law and Justice: An Introduction to Social Theory (5) I&S** *Godoy* Provides conceptual tools for understanding law and its role in society by acquainting students with major currents of social theory. Topics include liberalism, Marxism, critical feminist theory, and critical race theory. Offered: jointly with SIS 362.

**LSJ 363 Law in Society (5) I&S** Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Offered: jointly with POL S 363.

**LSJ 366 Comparative Law, Societies, and Courts: Global and Local Perspectives (5) I&S** *Barzilai* Explores global issues of comparative law, societies, politics, and courts. Uses criteria, methodologies, and theories to compare legal settings internationally. Covers: what is 'comparative law'; 'families' of law; history of comparative law; models of judicial review; legal cultures; and models of regulation. Can not be taken for credit if student has already taken LSJ/POL S 367. Offered: jointly with SIS 366.

**LSJ 367 Comparative Law and Courts (5) I&S** Introduction to comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as on the functioning of supranational and international legal entities in the international system. May not be taken for credit if student has taken LSJ/SIS 366. Offered: jointly with POL S 367.

**LSJ 375 Crime, Politics, and Justice (5) I&S** Reviews the major components—police, courts, and corrections—of the U.S. criminal justice system; investigates critical factors that shape criminal procedure; considers the relationship between criminal procedure and wider concerns of justice.

**LSJ 376 Drugs and Society (5) I&S** *Beckett* Explores the questions of drug use and abuse, social and political factors that shape response to their use, and the social conditions under which drug use is likely to have adverse consequences. Also covers U.S. drug control policy, the political economy of legal and illegal drugs, and political aspects of drug use. Offered: jointly with SOC 376.

**LSJ 377 Punishment: Theory and Practice (5) I&S** Examines the philosophical reasoning that underlies punishment practices such as sentencing, imprisonment, or capital punishment. Considers policy issues in these areas in light of theories about morality and human nature. Helps students learn how to analyze punishment policies from ethical and philosophical perspectives.

**LSJ 378 Policing the City (5) I&S** *Herbert* Investigates how and why formal and informal order is established in urban areas, how this order produces advantages and disadvantages, and possibilities of alternative visions of order. Topics include formal means of control (zoning, laws, policing, building codes) and informal means of control (gossip, ostracism, peer pressure, local politics). Offered: jointly with GEOG 378; A.

**LSJ 379 Prisons in Anthropological Perspective (5) I&S** *Rhodes* An introduction to prisons from an anthropological point of view, with focus on prisons as total institutions. Topics include the experiences of prisoners and staff, prison history, issues of race and gender associated with incarceration, and the imprisonment of the mentally ill. Offered: jointly with ANTH 379.

**LSJ 380 Contemporary Issues in Law, Societies, and Justice (5, max. 10) I&S** Theoretical, empirical, and comparative aspects of such topics as human rights, socio-legal concepts, justice, and legal policy. Recommended: POL S 101, POL S 202, POL S 204, or SOC 110.

**LSJ 400 Senior Seminar (5, max. 10)** For students in their final year as Law, Societies, and Justice majors. Incorporates material learned in student's primary field of specialization. Includes independent research, oral presentations, and the completion of a substantial paper.

**LSJ 401 Field Experience in Law, Societies, and Justice (5)** Participant observation in a public or private agency relevant to the study of law, justice, human rights, or court systems.

**LSJ 420 The Politics of Rights (5) M. McCann** Examines rights in practical and social interaction, rights as social conventions, relations of rights practices to official state policies, disputing practices, interest formation, and identify construction at individual and group levels. Explores how rights practices figure into the constellation of contested power relations within modern societies.

**LSJ 421 Women's Rights and Politics in Islamic Society (5) I&S** Human rights theory with women's legal rights and practice within context of the Islamic state. Introduction to debates regarding universality of human rights through examination of women's rights in Muslim context. Considers journalistic notions of homogeneity among Muslims, political nature of the Islamic state, and its mobilization of human rights. Offered: jointly with ANTH 498.

**LSJ 425 Domesticating International Human Rights: Perspectives on U.S. Asylum and Refugee Law (5) I&S** Examines the creation, production, and proliferation of law and legal categories relating to the status of refugees and asylum-seekers in the United States. Integrates anthropological perspectives of law's ability to create meaning in the examination of deeper implications of asylum and refugee law in American society. Offered: jointly with ANTH 497.

**LSJ 428 Women's Rights in an Integrated Europe (5) I&S** Examines the transformation in women's rights policy within the European community from the late 1950s through the present. Focuses on the legal rules and bodies that govern not only these policy domains, but also their evolution and impacts. Offered: jointly with POL S 415.

**LSJ 433 Disability Law, Policy, and the Community (5)** Seminar addressing legal rights of disabled people, history of disability policy in the United States, and the role of community activism and other forces in policy development and systems change. Introduction to the existing social service systems that affect disabled people. Recommended: LSJ 332. Offered: jointly with CHID 433.

**LSJ 434 Civil and Human Rights Law for Disabled People (5) I&S** Designed for students interested in expanding their knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Recommended: LSJ 332. Offered: jointly with CHID 434.

**LSJ 439 Law and Political Power: Global and Local Issues (5) I&S** *Barzilai* Explores global and local interactions between political power and rule of law. Studies theory of law

and political power; development of the concept of 'rule of law'; development and boundaries of civil democratic supervision; political corruption; relationship between economies and law; warfare; terrorism, counter-terrorism, and human rights. Offered: jointly with SIS 439.

**LSJ 440 Criminal Law and Procedure (5) I&S** Substantive and procedural criminal law for lay persons; analysis of the philosophy behind the law, with an emphasis on due process in adult and juvenile courts; case-analysis teaching technique.

**LSJ 444 Ethics in Law and Justice (5) I&S** Applies ethical theories, research, and practice to the law and justice system, with the goals of: (1) analyzing the moral dimensions of criminal law; (2) studying ethical issues in law enforcement, adjudications, and corrections; and (3) examining a variety of controversial ethical issues associated with the justice system.

**LSJ 467 Law, Justice, and the Environment (5) I&S** *Herbert* Examines the role law plays in shaping environmental policy. Challenges student to understand how environmental concerns are translated into legal discourse, and covers several typical issues that emerge in environmental law. Centers on active discussions. Offered: jointly with GEOG 467.

**LSJ 469 Law, Development, and Transition in East Asia (5) I&S** Examines the role of law and the courts in economic and political change in the developing world. Topics include variations in legal traditions and institutions, economic development, property rights, dispute resolution, democratization, and human rights. Empirical materials focus on East Asia. Offered: jointly with POL S 469/SISEA 469.

**LSJ 470 Evaluation Research in Criminal Justice (5) I&S** Social science research methods relevant to criminal justice evaluation and operations research. Ethical considerations, formulation of goals and objectives, problem definition and research design, sources and methods of data collection, descriptive statistics, data interpretation, and utilizations of research results.

**LSJ 473 Corrections (5) I&S** Analyzes research on diversionary methods, treatment of convicted offenders. Emphasis on program evaluation. Community treatment, fines, restitution, probation, parole, halfway houses, other alternatives to incarceration; correctional institutions. Organization of state, federal systems. Problems of administration. Subsidies, governmental control. Planning, public participation. Recommended: SOC 371 and SOC 372. Offered: jointly with SOC 473.

**LSJ 474 Geography and the Law (5) I&S** *Herbert* Examines the relationship between geography, law, and socio-legal analysis; reviews significant instances where law and geography intersect, such as the regulation of public space, the regulation of borders and mobility, and disputes over property and land use. Offered: jointly with GEOG 474.

**LSJ 476 Miscarriages of Justice (5) I&S** Examines legal and social factors that shape criminal case outcomes, analyzing how one type of miscarriage of justice—wrongful conviction—occurs. How can cases of wrongful conviction be explained? Why are some people, against whom there is only weak evidence, convicted—and sometimes even executed? Offered: jointly with SOC 476.

**LSJ 480 The Police (5) I&S** Conceptual and empirical issues concerning multifaceted and changing roles of the American police.

**LSJ 485 Introduction to Organized and White Collar Crime (3) I&S** Overview of organized and white collar crime. Exposure to definitional problems, distinctive characteristics, potential areas of overlap, and barriers to more effective social control. Addresses impediments resulting from inadequate conceptualizations, legal and operational difficulties in pursuing offenders, and effects of corruption and discretion in the justice system.

**LSJ 488 Honors Thesis (5-) I&S** First of a two-course hyphenated sequence. To be completed with LSJ 489.

**LSJ 489 Honors Thesis (-[1-5, max. 5]) I&S** Thesis research honors option. Second of a two-course hyphenated sequence. To be completed with LSJ 488.

**LSJ 490 Special Topics in Law, Societies, and Justice (1-5, max. 15) I&S** Examination of socio-legal topics. Content varies.

**LSJ 495 Study Abroad-Law, Societies, and Justice (3-5, max. 15) I&S** Comparative studies abroad of legal institutions, rights, and justice as related to national settings. Specific course content determined by faculty member.

**LSJ 499 Readings in Law, Societies, and Justice (1-5, max. 10)** Individual readings in law, societies, and justice.

**LSJ 501 Law, Politics, and Society (5) Beckett, Herbert, McCann** Provides a broad overview of, and introduction to, the interdisciplinary field of Law and Society Studies, including the historical development of law and society studies and an overview of its main concerns and questions.

**LSJ 510 Topics in Law and Society Studies (3-5, max. 20)** Current topics in law and society studies.

## Linguistics

### DEPARTMENT OVERVIEW

A210 Padelford

Linguistics is the scientific study of language, which is one of the most characteristic human attributes. In contrast to other language-related disciplines, linguistics is concerned with describing the rule-governed structures of languages, determining the extent to which these structures are universal or language-particular, positing constraints on possible linguistic structures, and explaining why there is only a fairly narrow range of possible human languages.

### UNDERGRADUATE PROGRAM

#### Adviser

A215 Padelford, Box 354340

206-685-4846

[lingadv@uw.edu](mailto:lingadv@uw.edu)

The Department of Linguistics offers the following programs of study:

- The Bachelor of Arts degree with options in general linguistics and Romance linguistics
- A minor in linguistics

### Bachelor of Arts

#### General Linguistics

*Suggested First- and Second-Year College Courses:* LING 400 or other introductory course in linguistics. One year of a foreign language that belongs to a different family from the student's native language.

#### Department Admission Requirements

- Completion of at least the third quarter, or equivalent, of a foreign language.
- Completion of at least one writing (W) course and two quantitative and symbolic reasoning (Q/SR) courses, with a minimum grade of 2.0 in each course and a cumulative GPA of 2.50 in the three courses.
- The department accepts students who meet the minimum requirements stated above, but recognizes that a GPA of 2.50 or higher is indicative of the motivation and academic skills needed for a reasonable probability of success in the program.

#### Major Requirements

80 credits, as follows:

- LING 400 or other introductory course in linguistics
- LING 450, LING 451, LING 461, LING 462
- At least one of LING 432, LING 442, or LING 481
- At least one year of each of two languages, one of which must belong to a language family different than the student's native language
- 20 additional credits of departmentally approved courses in linguistics.

#### Romance Linguistics

*Suggested First- and Second-Year Courses:* Two college years of study in a Romance language; LING 400 or other introductory course in linguistics.

#### Department Admission Requirements

- Completion of at least one year of college work in a single Romance language.
- Completion of at least one writing (W) course and two quantitative and symbolic reasoning (QSR) courses, with a minimum grade of 2.0 in each course and a cumulative GPA of 2.50 in the three courses.
- The department accepts students who meet the minimum requirements stated above, but recognizes that a GPA of 2.50 or higher is indicative of the motivation and academic skills needed for a reasonable probability of success in the program.

#### Major Requirements

Minimum 62 credits, as follows:

- LING 400 or another introductory course in linguistics
- LING 450, LING 451, LING 461, and LING 462
- Highly recommended: ROLING 402
- 15 credits at the 300 level or higher of one Romance language
- ROLING 490
- 20 additional credits of departmentally approved courses in linguistics, with at least one course for which a research paper on a Romance language is written.

### Minor

*Minor Requirements:* 32 credits to include LING 400 or another introductory course in linguistics; three courses from LING 432, LING 442, LING 450, LING 451, LING 461, LING 462, or LING 481; 12 additional credits from a list of departmentally approved courses in linguistics, 6 of which must be upper-division courses.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of linguistics emphasizes formal reasoning and critical thinking skills. Linguists' skill sets include the ability to analyze sound, word, and sentence structures of individual languages; the ability to understand and account for how languages change in certain patterns; the ability to understand how social factors can affect language, how people learn their first or second languages; and the ability to find out and appreciate how apparently vastly different languages can be governed by the same set of rules. Linguistics is a valuable component of liberal education and vocationally can have applications wherever language itself becomes a matter of practical concern. Graduates have a good foundation for pursuing further training and careers in teaching languages, in areas of rehabilitative medicine such as audiology or speech therapy, in special education, in work with native peoples or with immigrant groups, in lexicographic work, in interpretation and translation, in work in computer science and artificial intelligence, or in academic disciplines such as psychology, philosophy, literature and language studies, where the contribution of linguistics is recognized. An undergraduate degree in linguistics from the UW also serves as preparation for graduate work

in linguistics or language-related fields such as speech and hearing science or language teaching.

- *Instructional and Research Facilities:* The Language Learning Center located in Denny Hall provides audio and video services facilitating language learning. It also has a computer lab providing instructional software for linguistics and varieties of languages. Departmental facilities include a phonetics lab for students conducting phonetic experiments and doing digital acoustic analyses, a linguistics library that supplements the linguistics collection of the UW libraries and provides a quiet study place, and a computer lab for research in computational linguistics.
- *Honors Options Available:* College Honors (Completion of both Interdisciplinary Honors and Departmental Honors requirements). Departmental Honors (see adviser for requirements).
- *Research, Internships, and Service Learning:* None offered
- *Department Scholarships:* None offered
- *Student Organizations/Associations:* The Linguistics Undergraduate Association (LingUA)

## GRADUATE PROGRAM

### Graduate Program Coordinator

A210B Padelford, Box 354340

206-543-2046

[phoneme@uw.edu](mailto:phoneme@uw.edu)

The Department of Linguistics offers a program of study for graduate students leading to the degrees of Master of Arts and Doctor of Philosophy. The program is administered by the departmental faculty. The major interest of the core faculty lies in syntax, semantics, phonetics, phonology, sociolinguistics, computational linguistics, and in theoretical aspects of second-language acquisition. Students may specialize in general or in Romance linguistics.

Some course work is also available in various cooperating departments. Among those fields represented outside the department are psycholinguistics, philosophy of language, speech synthesis, and the structure and history of a number of individual languages and language families.

*Admission Requirements:* At least one previous course in linguistics is highly recommended, as is proficiency in one language other than the student's native language. For a specialization in Romance, substantial upper-division coursework in a Romance language or equivalent is required. Two to three letters of recommendation (MA) or three letters of recommendation (PhD) and Graduate Record Examination scores are required for all applicants. Doctoral degree applicants should send the department a copy of their master's thesis or a paper of high quality, or both.

### Master of Arts

#### Degree Requirements

- *General Linguistics Option:* Minimum 48 credits
  - Two courses each in syntax and phonetics/phonology.
  - One course in semantics and one course in sociolinguistics.
  - Three additional courses at the 500 level. At least two of these must be 500-level courses for which papers or projects are required.
- *Romance Linguistics Option:* Minimum 47 credits
  - Three courses in syntax and phonetics/phonology.
  - ROLING 402, ROLING 551, LATIN 300
  - Six additional linguistics-related courses at the 400 or 500 level. One of these must be a 400-level FR-

LING or SPLING class and at least two of these must be 500-level classes for which papers or projects are required.

- No course fulfilling any of the above requirements can be taken for the 2-credit (no paper) option.
- Demonstrated ability to read the linguistic literature in a language other than English. (For the Romance option, the demonstrated ability must be in a Romance language.) This can be satisfied at any time during the program by arrangement with the Graduate Program Coordinator.
- An MA exam in any areas in which the GPA for the required coursework in that area is below 3.30.
- Choice of a faculty mentor by the second quarter; formation of a supervisory committee by the fifth quarter.
- A short MA thesis (30 to 50 pages), which will typically be an expansion of a term paper. Students must register for 9 credits of LING 700.
- All requirements must be completed within the equivalent of six full-time quarters.

## Master of Arts in Computational Linguistics

### Admission Requirements

- The ability to program, including knowledge of data structures and algorithms (equivalent to CSE 373); broad familiarity with C++ and Java; expertise in C++ or Java; and Perl and/or Python.
- A college-level introductory course in linguistics or equivalent
- Introduction to statistics and probability (equivalent to STAT 391)
- Some knowledge of languages other than English is strongly encouraged.
- A one- or two-page Statement of Purpose.
- Two or three letters of recommendation, preferably from people familiar with the applicant's academic work.
- A sample of the applicant's academic work (required for applicants who have completed their previous degree within the past two years. Other applicants who wish to send samples of academic work are encouraged to do so). Types of samples include coding projects (together with write-ups), theses and term papers.
- One complete set of official transcripts.
- International applicants must meet UW English language proficiency requirements. For more information, please refer to Memo 8: Graduate School English Language Proficiency Requirements.

### Degree Requirements

43 credits, as follows:

- **Required Courses:** LING 450 (5), LING 566 (3)
- One additional 400- or 500-level course in phonetics, phonology, morphology, syntax, semantics, or pragmatics
- **Computational Linguistics Courses:** LING 570 (4), LING 571 (4), LING 572 (4), LING 573 (4)
- One systems/applications course
- One elective in computational linguistics and one elective in computational linguistics or a related area
- At least 9 credits at the 500 or 600 level.
- At least 10 credits at the 700 level (master's thesis)

## Doctor of Philosophy

### Admission Requirements

Direct admission to the PhD program is considered on an individual basis for applicants holding a degree from a comparable MA thesis program in linguistics or a closely related field. Some such applicants may be granted admission directly into the PhD program, with the stipulation that they make up one or more MA-level deficiencies.

### Degree Requirements

- 30 additional credits of course work. A minimum of five 500-level courses with a paper requirement must be completed before the general examination, 9 credits of which must follow the MA A minimum cumulative GPA of 3.00 is required for graduate course work. A minimum of 90 credits of coursework is required for the PhD
- During the course of the entire MA-PhD program, the student must have completed at least three courses each in syntax and phonetics/phonology and at least two courses in semantics, and have taken a total of five 500-level classes for which papers or projects are required. There is also a major and minor requirement as follows: Major—six courses in the student's primary area of specialization; Minor—four courses in a second area (the major and minor together should form a coherent research area). The student's Supervisory Committee is the final judge of what courses might qualify to meet these requirements. However, it is worth noting that (a) courses fulfilling these requirements do not necessarily have to be offered from within the Department of Linguistics; (b) non-language instruction courses in a language area can fulfill the major or minor requirement; and (c) no course fulfilling any of the above requirements can be taken for the 2-credit (no paper) option.
- 27 credits of LING 800.
- **Language Requirement:**
  - **General Linguistics option:** A breadth language requirement as follows: (a) for native speakers of an Indo-European language, a year of a non-Indo-European language; (b) for native speakers of a non-Indo-European language, a year of a language that is not English or in the same sub-family as their language. The student has the right to petition the Supervisory Committee to allow a language excluded in (a) or (b) above.
  - **Romance Linguistics option:** The completion of LATIN 301, as well as the demonstrated ability to read the linguistic literature in a Romance language.
- Two linguistic papers delivered at a colloquium or conference. Each is evaluated by a member of the student's PhD committee with expertise in the area of the paper. The evaluation may be either of the oral presentation or of the paper in written form. The student should request evaluation by a faculty member for any paper to be considered for this requirement.
- By the end of the first quarter after admission to the PhD program, the student constitutes a PhD committee, in accord with Graduate School requirements. As part of this process, the student works out with the committee members (by e-mail or in person) a strategy for degree completion. The student's PhD committee administers a general examination, which involves two parts:
  - Two general papers in different areas. At least one of the papers must be in grammatical theory.
  - An oral examination, in which the candidate is questioned on the two papers. The oral examination may not be scheduled until the committee has read the two papers and approved them as passing. The oral examination must be completed within the equivalent of 12 full-time quarters (excluding summer) after entrance into the MA program.

- Within six months of the oral examination, the student presents a formal dissertation proposal to the subset of PhD committee members who constitute the reading committee along with a proposed calendar for completion of the dissertation.
- A final exam on the dissertation attended by the candidate's Supervisory Committee and open to others interested.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [uw.edu/students/crscat/](http://uw.edu/students/crscat/)

### American Sign Language

**ASL 101 Elementary American Sign Language I (5) Forshay** Introduction to American Sign Language using conversational methods. Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. First in a sequence of three. Offered: A.

**ASL 102 Elementary American Sign Language II (5) Forshay** Focuses on building mastery of American Sign Language grammar skills, increasing vocabulary, and gaining a deeper knowledge and appreciation of deaf culture. Second in a sequence of three. Prerequisite: ASL 101. Offered: W.

**ASL 103 Elementary American Sign Language III (5) Forshay** Focuses on grammatical features such as spatialization, directionality, and non-manual components. Intensive work in vocabulary development and continued study of deaf culture. Third in a series of three. Prerequisite: ASL 102. Offered: Sp.

**ASL 134 Intensive First Year ASL (15) Bateh** Intensive introduction to American Sign Language using conversational methods and covering vocabulary, grammatical usage, and culturally appropriate behavior. Also focused on grammatical features such as spatialization, directionality, and non-manual components. Offered: S.

**ASL 201 Intermediate American Sign Language I (5) VLPA Forshay** Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. First in a series of three. Prerequisite: either ASL 103 or ASL 134. Offered: A.

**ASL 202 Intermediate American Sign Language II (5) VLPA Forshay** Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. Second in a series of three. Prerequisite: ASL 201. Offered: W.

**ASL 203 Intermediate American Sign Language III (5) VLPA Forshay** Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. Third in a series of three. Prerequisite: ASL 202. Offered: Sp.

**ASL 305 Deaf Studies (3) I&S Forshay** Introduces the language, culture, and community of Deaf people. Covers topics in Deaf history, education, sociology, language, legal issues, art and literature, organizations and services for the Deaf, technological devices, and the nature of Deafhood. Analyzes issues such as methods of Deaf education, biomedical ethics, and the social movements in Deaf community.

### French Linguistics

**FRLING 400 The Syntactic Structure of French (5) VLPA** Scientific study of the syntax of French: phrase structure and movement, with emphasis on passives, relatives, and interrogatives. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 401 The Morphological Structure of French (5) VLPA** *Klausenburger* Linguistic study of French morphology. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 402 The Phonological Structure of French (5) VLPA** *Klausenburger* The phonological component of the generative grammar of French: representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 403 Background of Modern French (5) VLPA** *Klausenburger* Linguistic analysis of the important developments in the history of the French language from its Latin origin to contemporary speech. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 405 Linguistics and the Teaching of French (5) VLPA** *Herschensohn* Areas of linguistics that can be particularly helpful to the French teacher. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 406 Advanced French Grammar (5) VLPA** *Herschensohn* Problems of French grammar. Differences between forms and structures of French and English. Problems of effective teaching of French. Prerequisite: FRENCH 303.

**FRLING 409 The Phonetics of French (5) VLPA** *Klausenburger* Scientific study of the French sound system with special emphasis on "lower level" phonetic rules. Focus on data from standard French as well as socioeconomic and geographic variations. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

## Linguistics

**LING 100 Fundamentals of Grammar (5) VLPA** Introduction to basic grammatical concepts and terminology. Specifically intended for students planning to take a foreign language or linguistics. Does not count toward the linguistics major or minor.

**LING 101 Fundamentals of Pronunciation for Language Learners (5) VLPA** *Kaisse* Fundamentals of pronunciation for language learners. Introduces students to systematic characteristics of language sounds through examination of specific languages and their differences from English. Includes a laboratory component developing perceptual and productive skills of non-English sounds.

**LING 200 Introduction to Linguistic Thought (5) I&S/VLPA, QSR** Language as the fundamental characteristic of the human species; diversity and complexity of human languages; phonological and grammatical analysis; dimensions of language use; language and writing; impact of historical linguistics on contemporary theory. Not open for credit to students who have completed LING 201.

**LING 201 Introduction to Linguistic Theory and Analysis (5) I&S/VLPA, QSR** Background and scope of modern linguistics; behaviorist versus rationalist theories of language; universal and cognitive aspects of language structure; interplay of genetic and social factors in language formation; linguistic analysis. Not open for credit to students who have completed LING 200.

**LING 203 Introduction to Anthropological Linguistics (5) I&S/VLPA** *Bilaniuk, Hargus* Linguistic methods, theories used within anthropology. Basic structural features of language; human language and animal communication compared; evidence for the innate nature of language. Language and culture: linguistic relativism, ethnography of communication, sociolinguistics. Language and nationalism, language politics in the U.S. and elsewhere. Offered: jointly with ANTH 203.

**LING 220 Origins of the Germanic Languages (5) VLPA** *Barack, Voyles* Introduction to basic grammatical concepts, terminology, and linguistics with emphasis on German-English relationship. Overview of phonology, morphology, syntax,

and history of Germanic languages and people, both ancient and modern. Languages covered include Old, Middle, and New High German; English, Frisian, Dutch, Old Saxon, and Gothic. Taught in English. Offered: jointly with GERMAN 220; AWSpS.

**LING 233 Introduction to Language and Society (5) VLPA** *Evans, Wassink* Provides an introduction to the study of language through culture and society, and raises and awareness of the role that society and the individual play in shaping language via the systematic observation and critical discussion of linguistic phenomena. Offered: jointly with ANTH 233/COM 233; A.

**LING 242 Introduction to Meaning (5) VLPA** *Ogihara* Non-technical introduction to meaning in language and how it functions in communication and thinking. Discussion of how and why meanings of words change through time. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 270 Introduction to Perl Programming for Linguists (5) Bender** Fundamental programming techniques, including data types, control flow, regular expressions, file handling, GUI design, and CGI interaction. Content relates to a variety of linguistic concepts including syntax, morphology, phonology, lexicon building and foreign language corpora. No previous programming necessary; however, a background in general linguistic theory is assumed. Offered: W.

**LING 333 Linguistics and Society (3) I&S/VLPA** Interaction of language, culture, and society, and the relationship of linguistic theory to societal problems. Ethical and political considerations involved in the application of linguistic theory.

**LING 372 Language and Translation (5) VLPA** *Tarlinskaja* Role of linguistic concepts in the process of translation from one language to another. Attention to both language universals and language particulars.

**LING 390 Foreign Studies in Linguistics (3-5, max. 10) I&S** For students who take linguistics courses while participating in a University of Washington study abroad program and for which there is no direct University of Washington equivalent.

**LING 400 Survey of Linguistic Method and Theory (5) I&S/VLPA, QSR** Examines major linguistic theories in phonology, syntax and semantics; linguistic analysis and argumentation. Not available for credit to students who have completed LING 200.

**LING 401 The Linguistic, Philosophical, and Political Thought of Noam Chomsky (3) I&S/VLPA** Relation of current work in Chomskyan linguistics to philosophical, psychological, political, and educational thought.

**LING 402 Survey of the History of Linguistics (3) I&S/VLPA** *Zagona* Main trends in linguistic theory and philosophy of linguistics from ancient times through advent of transformational-generative grammar. Includes nineteenth-century comparative and historical grammar, Prague school grammar, American structuralist grammar, major concerns of linguistics today. Prerequisite: LING 451.

**LING 403 Structure of American Sign Language (5) VLPA** *Hargus* Introduction to the phonological, morphological, and syntactic structure of American Sign Language. Topics include acquisition, sociolinguistics, neurolinguistics, lexicography, history, and culture. Knowledge of American Sign Language is not required. Prerequisite: LING 200, 201, 203, or 400.

**LING 404 Indo-European (3) VLPA** *Voyles* Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

**LING 405 Indo-European (3) VLPA** *Voyles* Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

**LING 406 Indo-European (3) VLPA** *Voyles* Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

**LING 407 Languages of the World (5) VLPA** A survey of the world's languages, focusing on their syntactic, phonological, and morphological properties. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 411 Native Languages and Language Families of Washington State (3) VLPA** *Hargus* Survey of linguistic structures of Washington native languages. Language families consist of Salish, Wakashan, Chemakuan, Athabaskan, Chinookan, Sahaptian, Cayuse. Structure and origin of Chinook jargon. Prerequisite: LING 450; either LING 461 or LING 481.

**LING 415 History of the German Language (5) VLPA** Traces the history of the German language from early Germanic to the present. Recommended: LING 200 and GERMAN 203 Offered: jointly with GERMAN 452.

**LING 419 The Development of the Italian Language (5) VLPA** Historical survey of Italian phonology, morphology, and syntax. Evolution of the language is illustrated with study of pertinent documents from various periods. Prerequisite: ITAL 303; either LING 400 or ROLING 401. Offered: jointly with ITAL 400.

**LING 432 Sociolinguistics I (5) I&S/VLPA** *Evans, Wassink* Social variation in the phonology, morphology, syntax, lexicon of languages and dialects. Nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: either LING 200 or LING 400; recommended: prior or concurrent registration in LING 450. Offered: jointly with ANTH 432.

**LING 433 Sociolinguistics II (5) I&S/VLPA** *Wassink* Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Offered: jointly with ANTH 433.

**LING 430 Pidgin and Creole Languages (5) VLPA/I&S** *Wassink* Explores aspects of the linguistic structure, history, and social context of pidgin and creole languages. Creolization as one possible outcome of language contact. Examines theories of creole genesis, similarities and differences between creole and non-creole languages. Prerequisite: either ANTH 203, LING 200, LING 201, LING 203, or LING 400. Offered: jointly with ANTH 439.

**LING 441 Linguistics and Poetic Language (3) VLPA** Introduction to the Relationship between linguistic structures, linguistic universals, and the poetic uses of language; linguistic description in the analysis of literature. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 442 Semantics I (5) NW/VLPA** *Ogihara* Introduction to the study of meaning as part of linguistic theory. Relation of semantics to syntax. Emphasis on formal semantics and pragmatics. Discussion of various semantic phenomena in natural language that are theoretically relevant. Prerequisite: LING 461, Syntax 1.

**LING 443 Philosophy and Linguistics (3) I&S/VLPA** Philosophical problems that arise in the attempt to understand current linguistic theories and the implications of linguistics for philosophy. Offered: jointly with PHIL 443.

**LING 445 Descriptive Aspects of English as a Foreign Language (3) VLPA** Linguistic analysis as a basis for the teaching of English as a foreign language; language as rule-governed behavior. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 446 English Phonology (3) VLPA** *Hargus* Descriptively oriented approach to of English phonology and phonetics; dialect differences. Prerequisite: LING 450.

**LING 447 Psychology of Language (4) I&S/VLPA** *Osterhout* Introduction to the study of language, including language

structure, speech perception, language acquisition, psychological processes underlying comprehension and production of language, the relation between brain and language, and the question of the species-specificity of human language. Prerequisite: 2.0 in either PSYCH 209 or either LING 200 or LING 201. Offered: jointly with PSYCH 447.

**LING 449 Second-Language Learning (5) VLPA** *Herschensohn* Issues related to the linguistic aspects of second-language learning. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 450 Introduction to Linguistic Phonetics (5) NW/VLPA** *Wassink, Wright* Introduction to the articulatory and acoustic correlates of phonological features. Issues covered include the mapping of dynamic events to static representations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Prerequisite: either LING 200 or LING 400.

**LING 451 Phonology I (5) I&S/VLPA** *Hargus, Kaisse* Patterning of sounds and gestures in human languages; analysis in generative phonological framework. Prerequisite: LING 450.

**LING 452 Phonology II (5) I&S/VLPA** *Hargus, Kaisse* Speech sounds, mechanism of their production, and structuring of sounds in languages; generative view of phonology; autosegmental and metrical phonology. Prerequisite: LING 451.

**LING 453 Experimental Phonetics (5) I&S/NW/VLPA** *Wright* Examines phonetic and phonological aspects of spoken language using experimental methods. Focuses on acoustic phonetics and speech perception. Significant time devoted to experimental design and hands-on data analysis techniques. Prerequisite: LING 451.

**LING 454 Methods in Comparative Linguistics (5) VLPA** *Aldridge, Handel, Shapiro* Method and theory of historical and comparative linguistics. Problems of phonological, morphological, syntactic, and semantic change and reconstruction. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 455 Areal Linguistics (3, max. 6) I&S/VLPA** Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Processes such as borrowing, vocabulary specialization, lexical change, and language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 455.

**LING 457 Language Development (5) I&S/VLPA** First-language acquisition and use by children. Emphasis on theoretical issues and research techniques. Prerequisite: 2.0 in either PSYCH 206, PSYCH 306, LING 200, or LING 400. Offered: jointly with PSYCH 457.

**LING 458 Language and Gender (5) I&S, VLPA** *Bilaniuk* Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with ANTH 450/WOMEN 450.

**LING 461 Syntax I (5) I&S/VLPA** *Aldridge, Citko, Zagona* Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: either LING 200 or LING 400.

**LING 462 Syntax II (5) I&S/VLPA** *Aldridge, Citko, Zagona* Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 461.

**LING 463 Syntax III (4) I&S/VLPA** Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 462.

**LING 464 Language Politics and Cultural Identity (3) I&S/VLPA** *Bilaniuk* Theories and case studies of the power of language and how it is manipulated. Multilingualism, diglossia. Role of language and linguistics in nationalism. Standardization, educational policy, language and ethnicity. World

languages, language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 464.

**LING 470 Discourse: Analyzing Talk and Texts (5) I&S/VLPA** *Thurlow* A critical and practical introduction to contemporary theories/methods in discourse analysis: how verbal communication (together with visual communication) is used in conversational talk and mediatized texts to construct identities and relationships; and how power and ideology are reproduced through these everyday social interactions. Offered: jointly with COM 470.

**LING 471 Computational Methods for Linguists (5) QSR** Overview of methods for working with linguistic data in electronic form: electronic corpora, linguistic software tools, textual data formats, operating system fundamentals, and basic programming. Prerequisite: either LING 450 or LING 461.

**LING 472 Introduction to Computational Linguistics (5) NW/VLPA** *Hoard* Introduction to computational approaches to modeling language, for linguistic research and practical applications, including analyses at different levels of linguistic structure and symbolic as well as statistical approaches. Prerequisite: either LING 200 or LING 400; either LING 461 or CSE 321. Offered: jointly with CSE 472.

**LING 473 Basics for Computational Linguistics (3)** Examines computer applications involving automatic processing of natural language speech or text by machines. Intended as preparation for CLMA core courses. Includes concepts from probability and statistics; formal grammars and languages; finite-state automata and transducers; review of algorithms and data structures; and software for using parallel server cluster. Prerequisite: CSE 326; STAT 391; programming in Perl, C, C++, Java, or Python. Offered: S.

**LING 476 Philosophy of Language (5) I&S/VLPA** Current theories of meaning, reference, predication, and related concepts. Offered: jointly with PHIL 453.

**LING 479 Semantics II (3) I&S/ NW/VLPA** *Ogihara* Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Prerequisite: LING 442. Offered: jointly with PHIL 479.

**LING 480 Topics in Linguistics (3, max. 12) VLPA** Introduction to an area of linguistic study not covered by the regular departmental course offerings.

**LING 481 Introduction to Morphology (5) VLPA** *Aldridge* Structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisite: either LING 200 or LING 400.

**LING 484 Lexical Semantics and the Lexicon (3) VLPA** Role of the lexicon in syntax and semantics. Topics include the syntax-lexicon mapping; theories of argument structure; complex predicate formation and lexical subordination; the lexicon and language acquisition; the role of the lexicon in linguistic theory; and the lexicon and sentence processing. Prerequisite: LING 461.

**LING 490 Undergraduate Fieldwork (1–3, max. 6)** Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Credit/no credit only. Offered: AWSpS.

**LING 499 Undergraduate Research (1–5, max. 10)** Credit/no credit only.

**LING 501 Field Methods (3)** Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

**LING 502 Field Methods (3)** Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

**LING 503 Field Methods (3)** Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant.

Prerequisite: LING 453, LING 462, or permission of instructor.

**LING 507 Syntactic Theory I (4)** Introduction to the principles and parameters model of syntactic theory. The lexicon and its relation to syntactic representations. Syntactic modules and principles. Problem solving.

**LING 508 Syntactic Theory II (4)** *Zagona, Aldridge, Citko* Further explorations in principles and parameters syntax. Topics include logical form, island phenomena, locality restrictions, and licensing. Prerequisite: LING 507 or permission of instructor. Offered: W.

**LING 509 Syntactic Theory III (4)** *Zagona, Aldridge, Citko* Focus on primary readings in syntactic theory, from classic papers on constraints and the architecture of grammar to recently published articles. Prerequisite: LING 508 or permission of instructor. Offered: Sp.

**LING 514 Seminar in Comparative Linguistics (3)** *Kaisse* Nineteenth- and twentieth-century theories of phonological change. Prerequisite: LING 404 or permission of instructor.

**LING 515 Topics in the History of Germanic Languages (5)** *Barrack, Voyles* Topics in diachronic studies of Germanic languages such as Gothic, Old High German, Old Saxon.

**LING 519 Mathematical Models of Grammar (3)** *Ogihara* Study of some mathematical models of language recognition, emphasizing context-free and context-sensitive grammars. Prerequisite: graduate standing in mathematics, linguistics, or psychology, or permission of instructor.

**LING 522 Topics in the History of Linguistics (3)** *Zagona* Intensive investigation of the main trends in the history of linguistics, concentrating on the development of nineteenth-century historical linguistics, the various schools of structural linguistics, and transformational-generative grammar. Prerequisite: LING 451.

**LING 524 Seminar in Theoretical Linguistics (4, max. 8)** Individual and joint research on selected topics in theoretical linguistics. Topics change each quarter. Typical topics are semantics, generative grammar, phonological theories. Prerequisite: LING 453, LING 463.

**LING 525 Seminar in Theoretical Phonology (4, max. 12)** Individual and joint research on selected topics in theoretical phonology. Topics vary. Typical offerings include phonology and the lexicon, syntax and phonology, phonological representations. Prerequisite: LING 452.

**LING 530 Dialectology (3)** The principles of dialect deviation as related to linguistic structure and usage. Prerequisite: LING 452, LING 462, LING 508, or permission of instructor. Offered: jointly with ANTH 530.

**LING 531 Problems in Romance Linguistics (2–5, max. 15)** Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator. Offered: jointly with ROLING 531.

**LING 532 Sociolinguistics I (5)** *Evans, Wassink* Examines social variation in the phonology, morphology, syntax, and lexicon of languages and dialects. Includes nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, and language attitudes. Prerequisite: either LING 200 or LING 400; recommended: prior or concurrent registration in LING 450. Offered: jointly with ANTH 532; S.

**LING 533 Topics and Methods in Sociolinguistic Theory (5)** *Wassink* Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432.

**LING 534 Sociolinguistic Applications of Social Network Theory (5)** *Wassink* Examines structure and content of social networks from a linguistic perspective. Reviews applications of graph theory and sociometry in sociolinguistics. Examines how language is embedded in personal networks and how the study of linkages between individuals can

elucidate the regularity and direction of language change. Prerequisite: LING 400 and LING 432.

**LING 535 Advanced Sociolinguistics (5, max. 10)** *Wassink* Explores perspective on language change and its mechanisms, understood in relation to the social context of language use in the speech community. Examines language-internal and -external motivations for change; phonological mergers and splits, chain-shifts, and diffusion of change through the lexicon. Prerequisite: LING 432 and LING 533.

**LING 540 Phonological Development (3)** Selected topics in the developmental sequence of phonological systems in normal-speaking children. Relationships between possible phonological inventories and rule systems in different languages. Prerequisite: LING 451, LING 452, or permission of instructor.

**LING 542 Semantic Theory I (5)** *Ogihara* Introduction to formal semantics and pragmatic. Basic skills for proposing compositional semantic rules for natural language data. Discussion of various semantic phenomena in natural language that are theoretically relevant. Prerequisite: graduate standing in Linguistics or permission of instructor.

**LING 549 Second Language Learning (5)** *Herschensohn* Issues related to the linguistic aspects of second language learning. Prerequisite: either LING 200, LING 201, LING 203, or LING 400. Offered: AS.

**LING 550 Introduction to Linguistic Phonetics (5)** *Wright, Wassink* Introduction to the articulatory and acoustic correlates of phonological features. Covers mapping of dynamic events to static presentations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Offered: AWS.

**LING 551 Phonology I: Introduction to Phonological Analysis (5)** *Hargus* Patterns of sounds and signs in human languages; morpheme alterations in generative phonology; autosegmental approach to tone; syllable structure. Prerequisite: LING 550. Offered: WSpS.

**LING 552 Phonology II: Advanced Phonology (5)** *Hargus, Kaisse* Optimality theory; phonetics-phonology interface. Prerequisite: LING 551.

**LING 553 Experimental Phonetics (5)** *Wright* Examines phonetic and phonological aspects of spoken language using experimental methods. Focuses on acoustic phonetics and speech perception. Significant time devoted to experimental design and hands-on data analysis techniques. Prerequisite: LING 551. Offered: A.

**LING 554 Advanced Linguistic Phonetics (3, max. 9)** *Wright, Wassink* Individual and joint projects on selected topics in theoretical and experimental phonetics. Topics may include articulatory timing, the phonetics phonology interface, and constraints and constraint interaction. Prerequisite: LING 450 or LING 452. Offered: Sp.

**LING 561 Advanced Syntax (2-3, max. 9)** Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

**LING 562 Advanced Syntax (2-3, max. 9)** Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

**LING 563 Advanced Syntax (2-3, max. 9)** Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

**LING 565 Contrastive Linguistics (3)** The attempt to look across linguistic systems for comparable and contrastive classes and subclasses. Problems of subcategorization and universal grammar. Three conceptually distinct models: structural, transfer grammar, generative. Prerequisite: LING 452, LING 463.

**LING 566 Introduction to Syntax for Computational Linguistics (3)** *Bender* Introduction to syntactic analysis and concepts with emphasis on the formally precise encoding

in linguistic hypotheses and the design of grammars that can be scaled to practical applications. Coursework progressively builds up a consistent grammar for a fragment of English, while also considering data and phenomena from other languages. Offered: A.

**LING 567 Knowledge Engineering for Deep Natural Language Processing (3)** *Bender* Techniques and theoretical issues relating to the development of knowledge engineering resources required for deep processing (symbolic or hybrid), focusing on grammar engineering and semantic representations.

**LING 570 Shallow Processing Techniques for Natural Language Processing (4)** *Xia* Techniques and algorithms for associating relatively surface-level structures and information with natural language corpora, including POS tagging, morphological analysis, preprocessing/segmentation named-entity recognition, chunk parsing, and word-sense disambiguation. Examines linguistic resources that can be leveraged for these tasks (e.g., WordNet). Prerequisite: a minimum grade of 2.7 in each of CSE 326 or equivalent, STAT 391 or equivalent, and LING 473 or passing score on the placement exam. Offered: A.

**LING 571 Deep Processing Techniques for Natural Language Processing (4)** Algorithms for associating deep or elaborated linguistic structures with naturally occurring linguistic data (parsing/semantics/discourse), and to produce natural language strings from input semantic representations (generation). Prerequisite: a minimum grade of 2.7 in each of CSE 326 or equivalent, STAT 391 or equivalent, and LING 473 or passing score on the placement exam. Offered: A.

**LING 572 Advanced Statistical Methods in Natural Language Processing (4)** Covers several important machine learning algorithms for natural language processing including decision tree, kNN, Naive Bayes, transformation-based learning, support vector machine, maximum entropy and conditional random field. Students implement many of the algorithms and apply these algorithms to some NLP tasks." Prerequisite: LING 570. Offered: W.

**LING 573 Natural Language Processing Systems and Applications (4)** Examines building coherent systems to handle practical applications. Particular topics vary. Possible topics include information retrieval/extraction, natural language query systems, dialogue systems, augmentative and alternative communications, computer-assisted language learning, language documentation, spell/grammar checking, and software localization. Prerequisite: LING 570, LING 571, LING 572. Offered: Sp.

**LING 575 Topics in Computational Linguistics (3, max. 15)** *Bender, Xia* In-depth study of a particular area of computational linguistics, with hands-on experience. Prerequisite: LING 570 and 571, or permission of instructor. Offered: WSp.

**LING 579 Semantic Theory II (5)** *Ogihara* Advanced introduction to the formal semantics of natural language. Emphasizes the interface between syntax and semantics. Prerequisite: LING 542.

**LING 580 Problems in Linguistics (2-4)** Advanced study in current theories of syntax, semantics, phonology, or morphology. Can be repeated for credit.

**LING 581 Morphology (5)** Explores the structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisite: either LING 200 or LING 400.

**LING 590 Graduate Fieldwork (1-10, max. 10)** Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Offered: AWSpS.

**LING 599 Linguistics Colloquium (1, max. 6)** Seminar attended by faculty and graduate students to discuss research in progress and topics of general interest. Presentation of two seminars required for doctoral students. Prerequisite: permission of instructor.

**LING 600 Independent Study or Research (\*)**

**LING 700 Master's Thesis (\*)**

**LING 800 Doctoral Dissertation (\*)**

## Romance Linguistics

**ROLING 402 Historical Romance Linguistics (5) VLPA** *Klausenburger* Comparative historical survey of the development of the principal Romance tongues. Prerequisite: LING 400.

**ROLING 490 Senior Essay (2) VLPA** Essay on linguistic problem of student's choice written with faculty consultant.

**ROLING 505 Advanced Romance Linguistics (5)** *Klausenburger, Zagana* Advanced problems in the phonological, morphological, and syntactical analysis of the Romance languages. Descriptive, comparative, and historical considerations. Prerequisite: permission of instructor.

**ROLING 506 Advanced Romance Linguistics (5)** *Klausenburger, Zagana* Advanced problems in the phonological, morphological, and syntactical analysis of the Romance languages. Descriptive, comparative, and historical considerations. Prerequisite: permission of instructor.

**ROLING 518 Foreign Language Teaching Methodology (2)** *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology.

**ROLING 521 Seminar in Romance Linguistics (5)** *Contreras, Klausenburger, Zagana* Specific problems in linguistic analysis of the Romance languages. Prerequisite: permission of instructor.

**ROLING 522 Seminar in Romance Linguistics (5)** *Contreras, Klausenburger, Zagana* Specific problems in linguistic analysis of the Romance languages. Prerequisite: permission of instructor.

**ROLING 531 Problems in Romance Linguistics (2-5, max. 15)** Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator. Offered: jointly with LING 531.

**ROLING 551 Romance Linguistics: History, Methodology, and Bibliography (5)** For new graduate students in the Romance linguistics program. History of Romance linguistics and linguistic science in the nineteenth and twentieth centuries as it relates to Romance studies. Comparative and descriptive methods used in contemporary scholarship. Prerequisite: LING 200, LING 400, or equivalent.

**ROLING 600 Independent Study or Research (\*)**

## Spanish Linguistics

**SPLING 400 The Syntactic Structure of Spanish (5) VLPA** *Strozer, Zagana* Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 400.

**SPLING 401 The Morphological Structure of Spanish (5) VLPA** *Strozer, Zagana* Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 401.

**SPLING 402 The Phonological Structure of Spanish (5) VLPA** *Strozer, Zagana* Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 402.

**SPLING 403 The Evolution of the Spanish Language (5) VLPA** *Zagana* Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Pre-

requisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 403.

**SPLING 404 Dialects of World Spanish (5)** Introduction to dialectal variants of Spanish. Considers standardization and the real academia; variation and change; pragmatics and politeness; Spanish in contact; sound, word formation, and grammar variation. Taught in Spanish. Prerequisite: either SPAN 301 or SPAN 314; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 404.

**SPLING 405 Spanish Phonetics (5) VLPA** Analysis of sounds: training in pronunciation, intonation, and close transcription of Spanish language in its modalities. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 405.

**SPLING 406 Advanced Spanish Grammar (5) VLPA** Basdeo, Diaz Problems of Spanish grammar. Differences from English grammar. Techniques for the effective teaching of Spanish. Prerequisite: either SPAN 303, SPAN 316 or 330; SPAN 323. Offered: jointly with SPAN 406; AWSp.

## Mathematics

### DEPARTMENT OVERVIEW

C138 Padelford

Mathematics is both a science and an art. Like any great art, mathematics has an intrinsic beauty and coherence that has attracted practitioners for centuries. Yet, unlike other arts, mathematics is a surprisingly effective tool for describing the natural world. Indeed, mathematics has come to serve as the foundation of modern science, through its language and results. Some mathematical results were initially developed in order to solve internally generated mathematical problems and only later found application in other disciplines; other mathematical results were inspired by the needs of these other disciplines. The two facets of mathematics—tool of science and subject of inquiry for its own sake—have come to be interwoven into a complex fabric.

### UNDERGRADUATE PROGRAM

Adviser

C36 Padelford, Box 354350

206-543-6830

[advising@math.washington.edu](mailto:advising@math.washington.edu)

The Department of Mathematics offers the following programs of study:

- The Bachelor of Arts degree with a major in mathematics - standard program
- The Bachelor of Arts degree with a major in mathematics - philosophy option
- The Bachelor of Arts degree with a major in mathematics, with an option designed specifically for students who plan to pursue secondary teaching careers.
- The Bachelor of Science degree with a major in mathematics - standard program
- The Bachelor of Science degree with a major in mathematics - comprehensive option
- The Bachelor of Science degree with a major in applied and computational mathematical sciences (ACMS). The Department of Mathematics cooperates with the departments of Applied Mathematics, Computer Science and Engineering, and Statistics in offering this major. (See ACMS for requirements.)
- A minor in mathematics

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* MATH 124, MATH 125, MATH 126, or MATH 134, MATH 135, MATH 136.

#### Department Admission Requirements

*Admission Requirements for Standard Option and Philosophy Option:*

- A minimum grade of 2.0 in the following courses: MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136).

*Admission Requirements for Teacher Preparation Option:*

- A minimum grade of 2.5 in MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136); a minimum grade of 2.5 in each course offered as part of the major; a minimum overall GPA of 2.50 for all mathematics courses.

#### Major Requirements

*Standard Option (50 credits):*

- MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136); MATH 307; MATH 308; MATH 324; and 26 additional credits at the 300 level and above.
- A minimum grade of 2.0 must be obtained in all mathematics courses presented to satisfy the mathematics requirement and in required related courses. A GPA of 2.00 or higher must be obtained in all mathematics courses taken at the UW.
- At least 18 credits of graded mathematics courses numbered 300 or higher must be taken in residence at the UW.

*Philosophy Option (58 credits):*

- MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136); MATH 308, MATH 310, MATH 327, MATH 328; five additional mathematics courses at the 300 or 400 level, including at least one two-quarter sequence at the 400 level other than MATH 407, MATH 408, MATH 409, or MATH 421, MATH 422.
- PHIL 120 or an upper-level course in logic; PHIL 100, PHIL 160, or PHIL 240; one philosophy course at the 300 level; one philosophy course at the 400 level.

*Teacher Preparation Option (58 credits):*

- MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136); MATH 307; MATH 308; MATH 394, MATH 411, MATH 412, MATH 444, MATH 445; 11 credits of approved math electives or PHYS 407 and PHYS 408; either STAT 311, MATH 390/STAT 390, or Q SCI 381; 6 credits of electives at the 300-level in MATH, AMATH, or STAT.
- A minimum grade of 2.5 in all courses presented to satisfy the program requirements, with the exception of PHYS 407, PHYS 408, which require a grade of 3.0. At least 18 credits of graded mathematics courses numbered 300 or higher taken in residence at the UW.

### Bachelor of Science

*Suggested First- and Second-Year College Courses:* MATH 124, MATH 125, MATH 126, or MATH 134, MATH 135, MATH 136.

#### Department Admission Requirements

A minimum grade of 2.0 in the following courses: MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136)

#### Major Requirements

*Standard Option (66 credits):*

- A minimum grade of 2.0 in all courses applied toward the major.

- A minimum GPA of 2.00 in all mathematics courses taken at the University. At least 18 credits from courses at the 300-level or higher, taken in residence at the University.

- *Elementary Mathematics Core (21 credits):* MATH 124, MATH 125, MATH 126 (5, 5, 5); MATH 310 (3); MATH 324 (3). (MATH 134, MATH 135, MATH 136 may be substituted for MATH 124, MATH 125, MATH 126, MATH 307, and MATH 308.)

- *Intermediate Mathematics Core (12 credits):* MATH 308 (3); MATH 326, MATH 327, MATH 328 (3, 3, 3). (MATH 334, MATH 335, MATH 336 may be substituted for MATH 309, MATH 310, MATH 324, MATH 326, MATH 327, and MATH 328.)

- *Advanced Mathematics Core (21 credits):* At least seven courses from the following, from at least three different areas, and including at least two two-quarter sequences:

- *Algebra:* MATH 402, MATH 403, MATH 404 (3, 3, 3).
- *Analysis:* MATH 424, MATH 425, MATH 426 (3, 3, 3).
- *Geometry:* MATH 441, MATH 442, MATH 443 (3, 3, 3).
- *Other Analysis:* MATH 307, MATH 309 (3, 3); MATH 427, MATH 428 (3, 3).
- *Probability:* MATH 394, MATH 395, MATH 396 (3, 3, 3); MATH 491, MATH 492 (3, 3).
- *Other Mathematics:* MATH 381 (3); MATH 407, MATH 408, MATH 409 (3, 3, 3); MATH 461, MATH 462 (3, 3); MATH 464, MATH 465, MATH 466 (3, 3, 3).

- *Electives (12 credits):* Four additional mathematics courses, including a two-quarter sequence at the 300- or 400-level (teacher-preparation courses not allowed). With approval, two of the four courses may be chosen from appropriate courses offered by the departments of Applied Mathematics, Statistics, and Computer Science, or from certain other departments. Courses from the additional mathematics core sequences not used to fulfill core requirements can be used to fulfill the elective requirement.

*Comprehensive Option (69 credits):*

Emphasizes the fundamental subjects of algebra, analysis, and geometry and is designed to provide a deep understanding of these basic areas of modern mathematics. It lays a good foundation for more advanced study. For this option, the grade, elementary core, and elective requirements remain unchanged, with the same substitutions permitted from the accelerated/honors sequences. (Items 1, 2, 3, and 6 shown for the standard option, above.) MATH 318 is required in the intermediate core and the advanced mathematics core becomes the following:

- *Advanced Mathematics Core, Comprehensive Option (24 credits):* At least eight courses from the following, including at least two in each of the first three areas. If only six courses are chosen from the first three areas, then the two courses chosen from the fourth area must form a two-quarter sequence:

- *Algebra:* MATH 402, MATH 403, MATH 404 (3, 3, 3).
- *Analysis:* MATH 424, MATH 425, MATH 426 (3, 3, 3).
- *Geometry:* MATH 441, MATH 442, MATH 443 (3, 3, 3).
- *Other Analysis:* MATH 307, MATH 309 (3, 3); MATH 427, MATH 428 (3, 3).

### Minor

Minor Requirements (33 credits):

- *Core (21–25 credits):* MATH 124, MATH 125, MATH 126, MATH 307, and MATH 308 (or MATH 318) (21 credits) or MATH 134, MATH 135, MATH 136 (25 credits, including 10 advanced-placement credits)

- *Electives (8–12 credits):* mathematics courses numbered 301 or higher.
- At least 9 credits of courses numbered 301 or higher taken in residence at the UW. Minimum grade of 2.0 required for each course offered as part of the minor.

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of mathematics emphasizes exposure to the core foundational areas of analysis, modern algebra, and geometry. A mathematician's skill set includes the technical tools specific to each area as well as the development of critical thinking skills necessary for logical reasoning. Graduates have pursued careers in teaching, finance, science, engineering, and professional fields such as law and medicine.
- *Instructional and Research Facilities:* Mathematical Research Library and Math Sciences Computing Center
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* When available, internship opportunities are passed on to students.
- *Department Scholarships:* None offered.
- *Student Organizations/Associations:* MAA Student Chapter, Actuarial Club.

## GRADUATE PROGRAM

Graduate Program Coordinator

C36 Padelford, Box 354350

206-543-6830

[grads@math.washington.edu](mailto:grads@math.washington.edu)

The degrees of Master of Arts, Master of Science, and Doctor of Philosophy are offered. Opportunities are available within the department for study of abstract and applied mathematics for each of these degree programs. The Master of Arts degree is appropriate for students who need a broad background in advanced mathematics and who expect to continue working with mathematics of approximately the same level in their careers. The Master of Science degree is appropriate for students who expect to be working with more specialized mathematics of increasing order of complexity in their careers. The Doctor of Philosophy degree is the highest professional degree in mathematics. It is appropriate for students who plan on a career of research and/or teaching of mathematics at the highest levels.

Of the master's degrees, the M.S. non-thesis program has the most demanding course requirements and most closely matches the early stages of the Ph.D. program. Most students who enroll in the department begin their studies with the Ph.D. or M.S. non-thesis program in mind. The M.S. programs with options in numerical analysis or optimization provide more focused training in these directions, which can be useful for students seeking employment in certain industries; however, students intending to do research in these areas would normally follow the requirements of the Ph.D. program. Note that the department does not offer a master's degree in mathematics education.

## Master of Arts

### Admission Requirements

Bachelor of Arts degree with major in mathematics or equivalent background (minimum of 45 quarter credits or 30 semester credits of mathematics beyond college algebra).

### Degree Requirements

*Master of Arts, Non-Thesis:* A minimum of twelve approved one-quarter courses at the 400 or 500 level, including two courses in each of algebra, analysis, and one other field. The course total must include six courses chosen from the designated core graduate courses or, with prior approval of the Graduate Program Coordinator, from other 500-level sequences. The six courses at the 500 level should be distributed over no more than three sequences.

Written examination in an area agreed upon by the student and the chair of the examining committee. Oral examination may be substituted with prior approval of the Graduate Program Coordinator.

## Master of Science

### Admission Requirements

Bachelor of Science degree with major in mathematics, Bachelor of Arts degree with strong major in mathematics or equivalent background. In particular, at least one senior-level course in abstract algebra or real analysis is expected.

### Degree Requirements

- *Master of Science, Thesis:* A total of twelve numerically graded one-quarter courses from MATH 402, MATH 403, MATH 404; MATH 424, MATH 425, MATH 426; MATH 427, MATH 428, MATH 429; MATH 441, MATH 442, MATH 443; any 500-level mathematics course; AMATH 507; AMATH 584, AMATH 585, AMATH 586; plus 9 thesis credits (MATH 700). Other courses may be included in the total with prior approval of the graduate program coordinator. Courses to include at least two quarters from each of two designated core graduate courses and one other 500-level sequence. Transfer credits are not accepted at the 400 level; other transfer credits and substitutions are at the discretion of the Graduate Program Coordinator. The thesis, which is defended in an oral examination, should demonstrate the ability to do independent research.
- *Master of Science, Non-Thesis:* A total of fifteen numerically graded one-quarter courses from MATH 402, MATH 403, MATH 404; MATH 424, MATH 425, MATH 426; MATH 427, MATH 428, MATH 429; MATH 441, MATH 442, MATH 443; any 500-level mathematics course; AMATH 507; AMATH 584, AMATH 585, AMATH 586. Other courses may be included in the total with prior approval of the Graduate Program Coordinator. Courses to include at least two quarters from each of three designated core graduate courses, and in addition one three-quarter sequence of 500-level mathematics courses in an area of specialization approved by the Graduate Program Coordinator and the chair of the student's examining committee. Oral examination in the area of specialization on a topic agreed upon by the student and the chair of the examining committee, or the general examination for the Ph.D. degree.
- *Master of Science, Numerical Analysis and Optimization Options, Non-thesis:* A total of fifteen one-quarter courses, at least six of which are at the 500 level, chosen from MATH 424, MATH 425, MATH 426; MATH 427, MATH 428, MATH 429; MATH 438, MATH 439; MATH 441, MATH 442, MATH 443; MATH 461, MATH 462; MATH 491, MATH 492; any 500-level mathematics course; AMATH 507; AMATH 584, AMATH 585, AMATH 586. Other courses may be included in the total with prior approval of the Graduate Program Coordinator. Courses to include four from AMATH 584, AMATH 585, AMATH 586 and MATH 594, MATH 595, and MATH 596. Oral examination in a special topic agreed upon by the student and the chair of the student's examining committee.

## Doctor of Philosophy

### Admission Requirements

Mathematical training equivalent to a bachelor's degree with strong major in mathematics, including rigorous coursework in real analysis and abstract algebra.

### Degree Requirements

90 credits minimum, as follows:

- *Courses:* Six three-quarter sequences numbered 500 or above or equivalent, including three sequences from the department's list of core graduate courses. The list of core courses includes MATH 504, MATH 505, MATH 506 (5,5,5); MATH 524, MATH 525, MATH 526 (5,5,5); MATH 534, MATH 535, MATH 536 (5,5,5); MATH 544, MATH 545, MATH 546 (5,5,5); MATH 554, MATH 555, MATH 556 (5,5,5). At least two sequences from this list must be satisfactorily completed during year one, and the third must be satisfactorily completed by the end of year two. A student may substitute a passing performance in a preliminary examination for satisfactory completion of the corresponding designated core course.
- *Preliminary Examinations:* Pass three preliminary examinations by September of the beginning of the third year.
- *Foreign Language/Computer Requirement:* Pass either two foreign language examinations or one foreign language examination and a computer programming examination. A Ph.D. student is expected to pass one language or computer examination by the end of summer quarter after the second year, and the second by the end of summer quarter after the third year.
- *General Examination:* An oral examination on a special area of intended research, given by a committee after the student has passed the preliminary examinations and the language examinations. This examination can be given only after two years of graduate study. Normally, it should be taken by the middle of the student's fourth year. Thesis: An original contribution to knowledge. 27 credits of MATH 800 required.
- *Final Examination:* An oral exam given by a committee headed by the thesis supervisor.

## Financial Support

Most graduate students in mathematics are supported by fellowships, research assistantships, and teaching assistantships. The workload of teaching assistants allows ample time for graduate courses and thesis work.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**MATH 098 Intermediate Algebra (0)** Intermediate algebra equivalent to third semester of high school algebra. Includes linear equations and models, linear systems in two variables, quadratic equations, completing the square, graphing parabolas, inequalities, working with roots and radicals, distance formula, functions and graphs, exponential and logarithmic functions. Instruction provided by community colleges on UW campus. Extra fee required. Offered: AWSp.

**MATH 100 Algebra (5)** Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Offered: AWSp.

**MATH 102 Algebra (5)** Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Offered: AWSp.

**MATH 103 Introduction to Elementary Functions (5)** Continues the study of algebra begun in 100 and 102 with emphasis on functions (polynomial, rational, logarithmic, exponential, and trigonometric). Open only to students who have completed 102. Prerequisite: either score of 26–56% on MATHEA placement test or MATH 102. Offered: AWSp.

**MATH 111 Algebra with Applications (5) NW, QSR** Use of graphs and algebraic functions as found in business and economics. Algebraic and graphical manipulations to solve problems. Exponential and logarithm functions; various applications to growth of money. Prerequisite: either 2.0 in MATH 098, 2.0 in MATH 102, 2.0 in MATH 103, score of 49% on either the MPT-G or the MPT-I placement test, score of 35% on MPT-A placement test, or score of 56% on MATHEA placement test. Offered: AWS.

**MATH 112 Application of Calculus to Business and Economics (5) NW, QSR** Rates of change, tangent, derivative, accumulation, area, integrals in specific contexts, particularly economics. Techniques of differentiation and integration. Application to problem solving. Optimization. Credit does not apply toward a mathematics major. Prerequisite: 2.0 in MATH 111. Offered: WSp.

**MATH 120 Precalculus (5) NW** Basic properties of functions, graphs; with emphasis on linear, quadratic, trigonometric, exponential functions and their inverses. Emphasis on multi-step problem solving. Prerequisite: either 2.5 in MATH 098, 3.0 in MATH 103, score of 60% on either the MPT-G test or the MPT-I placement test, score of 40% on MPT-A test, or score of 77% on MATHEA placement test. Offered: AWSpS.

**MATH 124 Calculus with Analytic Geometry I (5) NW, QSR** First quarter in calculus of functions of a single variable. Emphasizes differential calculus. Emphasizes applications and problem solving using the tools of calculus. Prerequisite: 2.5 in MATH 120, score of 68% on MPT-A placement test, score of 75% on MATHEC placement test, or score of 2 on AP test. Offered: AWSpS.

**MATH 125 Calculus with Analytic Geometry II (5) NW** Second quarter in the calculus of functions of a single variable. Emphasizes integral calculus. Emphasizes applications and problem solving using the tools of calculus. Prerequisite: either 2.0 in MATH 124, score of 3 on AB advanced placement test, or score of 3 on BC advanced placement test. Offered: AWSpS.

**MATH 126 Calculus with Analytic Geometry III (5) NW** Third quarter in calculus sequence. Introduction to Taylor polynomials and Taylor series, vector geometry in three dimensions, introduction to multivariable differential calculus, double integrals in Cartesian and polar coordinates. Prerequisite: either 2.0 in MATH 125, 2.0 in MATH 145, 2.0 in MATH 146, score of 5 on AB advanced placement test, or score of 4 on BC advanced placement test. Offered: AWSpS.

**MATH 134 Accelerated [Honors] Calculus (5) NW, QSR** Covers the material of 124, 125, 126; 307, 308, 318. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for 124 after taking 134. For students with above average preparation, interest, and ability in mathematics. Offered: A.

**MATH 135 Accelerated [Honors] Calculus (5) NW** Covers the material of 124, 125, 126; 307, 308, 318. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for 125 after taking 135. For students with above average preparation, interest, and ability in mathematics. Offered: W.

**MATH 136 Accelerated [Honors] Calculus (5) NW** Covers the material of 124, 125, 126; 307, 308, 318. First year of a two-year accelerated sequence. May not receive credit for both 126 and 136. For students with above average preparation, interest, and ability in mathematics. Offered: Sp.

**MATH 170 Mathematics for Elementary School Teachers (3) NW** Basic concepts of numbers and operations. Emphasizes problem solving, communication of mathematical ideas, and analysis of sources of difficulty in learning/teaching these concepts. Credit may not apply toward a mathematics

major. Required for elementary education students. Credit/no credit only.

**MATH 171 Mathematics for Elementary School Teachers (3) NW** Basic concepts of geometry. Emphasizes problem solving, communication of mathematical ideas, and analysis of sources of difficulty in learning/teaching these concepts. Credit may not apply toward a mathematics major. Credit/no credit only.

**MATH 187 Elementary Mathematics Computer Laboratory (1, max. 3) NW** Laboratory activities designed to introduce computing as a tool for doing mathematics, to be taken jointly with a designated section of a 100-level mathematics course. Credit/no credit only. Offered: AWSp.

**MATH 197 Problem Solving in Mathematics (2, max. 4) NW** Lectures and problem sessions in mathematics with applications. Enrollment restricted to EOP students only. Credit/no credit only. Offered: AWSp.

**MATH 198 Special Topics in Mathematics (1–5, max. 15)** Independent reading in math. Does not count as credit toward a math major. Credit/no credit only. Offered: AWSpS.

**MATH 300 Introduction to Mathematical Reasoning (3) NW** Mathematical arguments and the writing of proofs in an elementary setting. Elementary set theory, elementary examples of functions and operations on functions, the principle of induction, counting, elementary number theory, elementary combinatorics, recurrence relations. Prerequisite: either 2.0 in MATH 125, MATH 145, or MATH 135. Offered: AWSpS.

**MATH 301 Elementary Number Theory (3) NW** Brief introduction to some of the fundamental ideas of elementary number theory. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 136. Offered: S.

**MATH 307 Introduction to Differential Equations (3) NW** Introductory course in ordinary differential equations. Includes first- and second-order equations and Laplace transform. Prerequisite: either 2.0 in MATH 125 or 2.0 in MATH 145. Offered: AWSpS.

**MATH 308 Matrix Algebra with Applications (3) NW** Systems of linear equations, vector spaces, matrices, subspaces, orthogonality, least squares, eigenvalues, eigenvectors, applications. For students in engineering, mathematics, and the sciences. Credit allowed for only one of MATH 308 or MATH 318. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 146. Offered: AWSpS.

**MATH 309 Linear Analysis (3) NW** First order systems of linear differential equations, Fourier series and partial differential equations, and the phase plane. Prerequisite: either 2.0 in MATH 307 and 2.0 in MATH 308, or 2.0 in MATH 307 and MATH 318, or 2.0 in MATH 136. Offered: AWSpS.

**MATH 324 Advanced Multivariable Calculus I (3) NW** Topics include double and triple integrals, the chain rule, vector fields, line and surface integrals. Culminates in the theorems of Green and Stokes, along with the Divergence Theorem. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 136. Offered: AWSpS.

**MATH 326 Advanced Multivariable Calculus II (3) NW** Elementary topology, general theorems on partial differentiation, maxima and minima, differentials, Lagrange multipliers, implicit function theorem, inverse function theorem and transformations, change of variables formula. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 318; 2.0 in MATH 324. Offered: AWSp.

**MATH 327 Introductory Real Analysis I (3) NW** Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on continuous functions, theory of the Riemann integral. Prerequisite: either both 2.0 in MATH 126 and 2.0 in MATH 300, or 2.0 in MATH 136. Offered: AWSpS.

**MATH 328 Introductory Real Analysis II (3) NW** Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on

continuous functions, theory of the Riemann integral. Prerequisite: 2.0 in MATH 327. Offered: WSpS.

**MATH 334 Accelerated [Honors] Advanced Calculus (5) NW** Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 309, 310, 324, 326, 327, 328, and 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: either 2.0 in MATH 136, or 2.0 in MATH 126 and 2.0 in MATH 307 and either 2.0 in MATH 205, 2.0 in MATH 308, or 2.0 in MATH 318. Offered: A.

**MATH 335 Accelerated [Honors] Advanced Calculus (5) NW** Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take 309, 324, 326, 327, 328, and 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: 2.0 in MATH 334. Offered: AWSp.

**MATH 336 Accelerated [Honors] Advanced Calculus (5) NW** Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take 309, 324, 326, 327, 328, and 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: 2.0 in MATH 335. Offered: Sp.

**MATH 380 Intermediate Topics in Undergraduate Mathematics (3, max. 12) NW** Covers intermediate topics in undergraduate mathematics.

**MATH 381 Discrete Mathematical Modeling (3) NW** Introduction to methods of discrete mathematics, including topics from graph theory, network flows, and combinatorics. Emphasis on these tools to formulate models and solve problems arising in variety of applications, such as computer science, biology, and management science. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 318.

**MATH 387 Intermediate Mathematics Computer Laboratory (1–2, max. 6) NW** Laboratory activities in the use of computing as tool for doing mathematics, to be taken jointly with a designated section of a 300-level mathematics course. Credit/no credit only.

**MATH 390 Probability and Statistics in Engineering and Science (4) NW** Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may receive credit for only one of 390, STAT/ECON 481, and ECON 580. Prerequisite: either MATH 126 or MATH 136. Offered: jointly with STAT 390; AWSpS.

**MATH 394 Probability I (3) NW** Sample spaces; basic axioms of probability; combinatorial probability; conditional probability and independence; binomial, Poisson, and normal distributions. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 136; recommended: MATH 324 or MATH 327. Offered: jointly with STAT 394; AWS.

**MATH 395 Probability II (3) NW** Random variables; expectation and variance; laws of large numbers; normal approximation and other limit theorems; multidimensional distributions and transformations. Prerequisite: 2.0 in STAT/MATH 394. Offered: jointly with STAT 395; WSpS.

**MATH 396 Probability III (3) NW** Characteristic functions and generating functions; recurrent events and renewal theory; random walk. Prerequisite: 2.0 in MATH 395 or 2.0 in STAT 511. Offered: jointly with STAT 396; Sp.

**MATH 398 Special Topics in Mathematics (1–5, max. 15)** Independent reading in math. Does not count as credit toward a math major. Credit/no credit only. Offered: AWSpS.

**MATH 402 Introduction to Modern Algebra (3) NW** Elementary theory of groups: Cosets and Lagrange's theorem. Ho-

homomorphisms, normal subgroups, quotient groups, and the fundamental isomorphism theorems. Cyclic and symmetric groups. Orders and Cauchy's theorem. Direct products. Automorphisms. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 327, 2.0 in MATH 336, or 2.0 in MATH 340. Offered: AS.

**MATH 403 Introduction to Modern Algebra (3) NW** Elementary theory of rings and fields: polynomial rings. Ideals, homomorphisms, quotients, and fundamental isomorphism theorems. Fields and maximal ideals. Euclidean rings. Field extensions. Algebraic extensions. Vector spaces and degrees of extensions. Adjoining roots of polynomials. Finite fields. Straight edge and compass constructions. Prerequisite: 2.0 in MATH 402. Offered: W.

**MATH 404 Introduction to Modern Algebra (3) NW** Topics in algebra chosen from Galois theory, theory of modules, geometric group actions, and the theory of rings and fields. Specific content determined by instructor. Prerequisite: 2.0 in MATH 403. Offered: Sp.

**MATH 407 Linear Optimization (3) NW** Maximization and minimization of linear functions subject to constraints consisting of linear equations and inequalities; linear programming and mathematical modeling. Simplex method, elementary games and duality. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, 2.0 in MATH 318, or 2.0 in AMATH 352. Offered: AWS.

**MATH 408 Nonlinear Optimization (3) NW** Maximization and minimization of nonlinear functions, constrained and unconstrained; nonlinear programming problems and methods. Lagrange multipliers; Kuhn-Tucker conditions, convexity. Quadratic programming. Prerequisite: either 2.0 in MATH 308 or 2.0 in MATH 318; either 2.0 in MATH 327 or 2.0 in MATH 334. Offered: W.

**MATH 409 Discrete Optimization (3) NW** Maximization and minimization problems in graphs and networks (shortest paths, minimum spanning trees, maximum flows, minimum cost flows); transportation and trans-shipment problems, NP-completeness. Prerequisite: 2.0 in MATH 407. Offered: Sp.

**MATH 411 Introduction to Modern Algebra for Teachers (3) NW** Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Designed for teaching majors; not open for credit to students who have taken 402, 403. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: either 2.0 in MATH 205, 2.0 in MATH 308, 2.0 in MATH 318, or 2.0 in MATH 136. Offered: AS.

**MATH 412 Introduction to Modern Algebra for Teachers (3) NW** Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Designed for teaching majors; not open for credit to students who have taken 402, 403. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: 2.0 in MATH 411. Offered: WS.

**MATH 414 Number Theory (3) NW** Congruences, arithmetic of quadratic fields, binary quadratic forms, Dirichlet's theorem on primes in an arithmetic progression, Chebyshev's theorem on distribution of primes, the partition function, equations over finite fields. Prerequisite: either 2.0 in MATH 301 or 2.0 in MATH 402.

**MATH 415 Number Theory (3) NW** Congruences, arithmetic of quadratic fields, binary quadratic forms, Dirichlet's theorem on primes in an arithmetic progression, Chebyshev's theorem on distribution of primes, the partition function, equations over finite fields. Prerequisite: 2.0 in MATH 414.

**MATH 420 History of Mathematics (3) NW** Survey of the development of mathematics from its earliest beginnings through the first half of the twentieth century. Prerequisite: 2.0 in MATH 126. Offered: S.

**MATH 421 Conceptual Calculus for Teachers (3) NW** In-depth conceptual study of calculus, approached from many points of view, including the study of patterns of physical change, discrete approximation to continuous phenomena, and the historical development of calculus. Intended for

future teachers. Cannot be used as elective credit for either BS program in mathematics.

**MATH 422 Conceptual Calculus for Teachers (3) NW** In-depth conceptual study of calculus, approached from many points of view, including the study of patterns of physical change, discrete approximation to continuous phenomena, and the historical development of calculus. Intended for future teachers. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: MATH 421; MATH 300, which may be taken concurrently.

**MATH 424 Fundamental Concepts of Analysis (3) NW** The real number system; field, order, and LUB axioms. Metric spaces: Euclidean space. Bolzano-Weierstrass property. Sequences and limits of Sequences. Cauchy sequences and completeness. The Heine-Borel Theorem. Uniform continuity. Connected sets and the intermediate value theorem. Prerequisite: either 2.0 in MATH 328 or 2.0 in MATH 335. Offered: A.

**MATH 425 Fundamental Concepts of Analysis (3) NW** One-variable differential calculus: chain rule, inverse function theorem, Rolle's theorem, intermediate value theorem, Taylor's theorem, and intermediate value theorem for derivatives. Multivariable differential calculus: mean value theorem, inverse and implicit function theorems, and Lagrange multipliers. Prerequisite: either 2.0 in MATH 326 or 2.0 in MATH 335; 2.0 in MATH 424. Offered: W.

**MATH 426 Fundamental Concepts of Analysis (3) NW** Lebesgue measure on the reals. Construction of the Lebesgue integral and its basic properties. Monotone Convergence Theorem, Fatou's Lemma, and Dominated Convergence Theorem. Integration of series. Continuity and differentiability theorems for functions defined by integrals. Introduction to general measures and integration. Prerequisite: 2.0 in MATH 425. Offered: Sp.

**MATH 427 Complex Analysis (3) NW** Complex numbers; analytic functions; sequences and series; complex integration; Cauchy integral formula; Taylor and Laurent series; uniform convergence; residue theory; conformal mapping. Topics chosen from: Fourier series and integrals, Laplace transforms, infinite products, complex dynamics; additional topics chose by instructor. Prerequisite: either 2.0 in MATH 327 or 2.0 in MATH 335; recommended: MATH 328. Offered: AS.

**MATH 428 Complex Analysis (3) NW** Continuation of MATH 427. Prerequisite: 2.0 in MATH 427. Offered: W.

**MATH 435 Introduction to Dynamical Systems (3) NW** Examples of dynamical systems in mathematics and in natural phenomena. Iterated functions, phase portraits, fixed and periodic points. Hyperbolicity, bifurcations. *Chaos*. Interval maps; quadratic families. Fractals; iterated function systems. Elements of higher dimensional dynamics. Julia sets, the Mandelbrot set. Prerequisite: 2.0 in MATH 335 or 2.0 in MATH 327; either 2.0 in MATH 309 or 2.0 in AMATH 352 and 2.0 in AMATH 353.

**MATH 436 Introduction to Dynamical Systems (3) NW** Examples of dynamical systems in mathematics and in natural phenomena. Iterated functions, phase portraits, fixed and periodic points. Hyperbolicity, bifurcations. *Chaos*. Interval maps; quadratic families. Fractals; iterated function systems. Elements of higher dimensional dynamics. Julia sets, the Mandelbrot set. Prerequisite: 2.0 in MATH 435.

**MATH 441 Topology (3) NW** Metric and topological spaces, convergence, continuity, finite products, connectedness, and compactness. Prerequisite: either 2.0 in MATH 328 or 2.0 in MATH 335. Offered: A.

**MATH 442 Differential Geometry (3) NW** Curves in 3-space, continuity and differentiability in 3-space, surfaces, tangent planes, first fundamental form, area, orientation, the Gauss Map. Prerequisite: either 2.0 in MATH 335 or 2.0 in both MATH 326 and 2.0 in MATH 328; 2.0 in either MATH 308 or 2.0 in MATH 318. Offered: W.

**MATH 443 Topics in Topology and Geometry (3) NW** Content selected from such topics as homotopy theory, topological surfaces, advanced differential geometry, projective geometry, hyperbolic geometry, spherical geometry, and combinatorial geometry. Offered: Sp.

**MATH 444 Geometry for Teachers (3) NW** Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Designed for teaching majors. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: 2.0 in MATH 126; either 2.0 in MATH 136, 2.0 in MATH 205, 2.0 in MATH 308, or 2.0 in MATH 318; 2.0 in MATH 300. Offered: WS.

**MATH 445 Geometry for Teachers (3) NW** Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Designed for teaching majors. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: 2.0 in MATH 444. Offered: SpS.

**MATH 461 Combinatorial Theory (3) NW** Selected topics from among: block designs and finite geometries, coding theory, generating functions and other enumeration methods, graph theory, matroid theory, combinatorial algorithms, applications of combinatorics. Prerequisite: either 2.0 in MATH 308 or 2.0 in MATH 318.

**MATH 462 Combinatorial Theory (3) NW** Selected topics from among: block designs and finite geometries, coding theory, generating functions and other enumeration methods, graph theory, matroid theory, combinatorial algorithms, applications of combinatorics. Prerequisite: 2.0 in MATH 461.

**MATH 464 Numerical Analysis I (3) NW** Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 335 Offered: A.

**MATH 465 Numerical Analysis II (3) NW** Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 335. Offered: W.

**MATH 466 Numerical Analysis III (3) NW** Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: either 2.0 in MATH 136, 2.0 in both MATH 307 and MATH 308, or 2.0 in MATH 335.

**MATH 480 Advanced Topics in Undergraduate Mathematics (3, max. 12)** Covers advanced topics in undergraduate mathematics.

**MATH 487 Advanced Mathematics Computer Laboratory (1-2, max. 6) NW** Laboratory activities in the use of computing as a tool for doing mathematics, to be taken jointly with a designated section of a 400-level mathematics course. Credit/no credit only.

**MATH 491 Introduction to Stochastic Processes (3) NW** Random walks, Markov chains, branching processes, Poisson process, point processes, birth and death processes, queuing theory, stationary processes. Prerequisite: either 2.0 in MATH 395 or STAT 395. Offered: jointly with STAT 491; A.

**MATH 492 Stochastic Calculus for Option Pricing (3) NW** Introductory stochastic calculus mathematical foundation for pricing options and derivatives. Basic stochastic

analysis tools, including stochastic integrals, stochastic differential equations, Ito's formula, theorems of Girsanov and Feynman-Kac, Black-Scholes option pricing, American and exotic options, bond options. Prerequisite: MATH STAT 394-5. Offered: jointly with STAT 492; W.

**MATH 496 Honors Senior Thesis (1-5) NW** Problem seminar for honors students. Cannot be repeated for credit. Offered: AWSp.

**MATH 497 Special Topics in Mathematics for Teachers (2-9, max. 9) NW** Study of selected areas of mathematics. Designed for the improvement of teachers of mathematics. Offered: jointly with EDC&I 478.

**MATH 498 Special Topics in Mathematics (1-5, max. 15)** Reading and lecture course intended for special needs of advanced students. Offered: AWSpS.

**MATH 499 Undergraduate Research (8)** Summer research opportunity for undergraduates. Credit/no credit only. Offered: S.

**MATH 504 Modern Algebra (5)** First quarter of a three-quarter sequence covering group theory; field theory and Galois theory; commutative rings and modules, linear algebra, theory of forms; representation theory, associative rings and modules; commutative algebra and elementary algebraic geometry. Prerequisite: MATH 404 or equivalent.

**MATH 505 Modern Algebra (5)** Continuation of MATH 504. Prerequisite: MATH 504.

**MATH 506 Modern Algebra (5)** Continuation of MATH 505. Prerequisite: MATH 505.

**MATH 507 Algebraic Geometry (3)** First quarter of a two-quarter sequence covering the basic theory of affine and projective varieties, rings of functions, the Hilbert Nullstellensatz, localization, and dimension; the theory of algebraic curves, divisors, cohomology, genus, and the Riemann-Roch theorem; and related topics. Prerequisite: MATH 506.

**MATH 508 Algebraic Geometry (3)** Continuation of MATH 507. Prerequisite: MATH 507.

**MATH 509 Theory of Optimal Control (3)** Trajectories from ordinary differential equations with control variables. Controllability, optimality, maximum principle. Relaxation and existence of solutions. Techniques of nonsmooth analysis. Prerequisite: real analysis on the level of MATH 426; background in optimization corresponding to MATH 515. Offered: jointly with AMATH 509; even years.

**MATH 510 Seminar in Algebra (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 514 Networks and Combinatorial Optimization (3)** Networks and directed graphs. Paths and trees. Feasible and optimal flows and potentials. Transportation problems, matching and assignment problems. Algorithms and applications. Prerequisite: MATH 308 or AMATH 352 and MATH 324. Offered: jointly with AMATH 514.

**MATH 515 Fundamentals of Optimization (5)** Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisite: linear algebra and advanced calculus. Offered: jointly with IND E 515/AMATH 515.

**MATH 516 Numerical Optimization (3)** Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Prerequisite: MATH 515. Offered: jointly with AMATH 516.

**MATH 517 Optimization Under Uncertainty (3)** Sequential optimization problems involving random variables. Dynamic programming, stochastic programming. Control of uncertain dynamic systems in finite, discrete time. Risk, feedback, adaptivity. Problems with imperfect state information. Ap-

plications such as to optimal stopping, inventory control, resource management. Prerequisite: MATH 308, MATH 324 and an introduction to basic concepts of probability, such as MATH 390 or MATH 394, MATH 395. Offered: jointly with AMATH 517.

**MATH 521 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers, Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 521.

**MATH 522 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers, Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 522.

**MATH 523 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers, Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 523.

**MATH 524 Real Analysis (5)** First quarter of a three-quarter sequence covering the theory of measure and integration, point set topology, Banach spaces,  $L_p$  spaces, applications to the theory of functions of one and several real variables. Additional topics to be chosen by instructor. Prerequisite: MATH 426 or equivalent.

**MATH 525 Real Analysis (5)** Continuation of MATH 524. Prerequisite: MATH 524.

**MATH 526 Real Analysis (5)** Continuation of MATH 525. Prerequisite: MATH 525.

**MATH 527 Functional Analysis (3)** First quarter of a three-quarter sequence. Review of Banach, Hilbert, and  $L_p$  spaces; locally convex spaces (duality and separation theory, distributions, and function spaces); operators on locally convex spaces (adjoints, closed graph/open mapping and Banach-Steinhaus theorems); Banach algebras (spectral theory, elementary applications); spectral theorem for Hilbert space operators. Additional topics chosen by instructor. A working knowledge of real variables, general topology, and complex variables is assumed.

**MATH 528 Functional Analysis (3)** Continuation of MATH 527. Prerequisite: MATH 527.

**MATH 529 Functional Analysis (3)** Continuation of MATH 528. Prerequisite: MATH 528.

**MATH 530 Seminar in Analysis (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 534 Complex Analysis (5)** First quarter of a three-quarter sequence covering complex numbers, analytic functions, contour integration, power series, analytic continuation, sequences of analytic functions, conformal mapping of simply connected regions, and related topics. Prerequisite: MATH 426.

**MATH 535 Complex Analysis (5)** Continuation of MATH 534. Prerequisite: MATH 534.

**MATH 536 Complex Analysis (5)** Continuation of MATH 535. Prerequisite: MATH 535.

**MATH 537 Several Complex Variables (3)** First quarter of a three-quarter sequence covering Weierstrass preparation theorem and its immediate consequences, analytic continuation, domains of holomorphy, pseudoconvexity, Cartan-Oka theory of coherence, embedding theorems; the CR equations, CR manifolds, connections with algebraic geometry. Prerequisite: MATH 536.

**MATH 538 Several Complex Variables (3)** Continuation of MATH 537. Prerequisite: MATH 537.

**MATH 539 Several Complex Variables (3)** Continuation of MATH 538. Prerequisite: MATH 538.

**MATH 541 Special Topics in Applied Mathematics (2-3, max. 15)** Such topics as mathematical quantum theory, fluid mechanics, optimization and operations research, and control theory.

**MATH 542 Special Topics in Applied Mathematics (2-3, max. 15)** Such topics as mathematical quantum theory, fluid mechanics, optimization and operations research, and control theory.

**MATH 543 Special Topics in Applied Mathematics (2-3, max. 15)** Such topics as mathematical quantum theory, fluid mechanics, optimization and operations research, and control theory.

**MATH 544 Topology and Geometry of Manifolds (5)** First quarter of a three-quarter sequence covering general topology, the fundamental group, covering spaces, topological and differentiable manifolds, vector fields, flows, the Frobenius theorem, Lie groups, homogeneous spaces, tensor fields, differential forms, Stokes's theorem, deRham cohomology. Prerequisite: MATH 404 and MATH 426 or equivalent.

**MATH 545 Topology and Geometry of Manifolds (5)** Continuation of MATH 544. Prerequisite: MATH 544.

**MATH 546 Topology and Geometry of Manifolds (5)** Continuation of MATH 545. Prerequisite: MATH 545.

**MATH 547 Geometric Structures (3, max. 9)** First quarter of a three-quarter sequence covering differential-geometric structures on manifolds, Riemannian metrics, geodesics, covariant differentiation, curvature, Jacobi fields, Gauss-Bonnet theorem. Additional topics to be chosen by the instructor, such as connections in vector bundles and principal bundles, symplectic geometry, Riemannian comparison theorems, symmetric spaces, symplectic geometry, complex manifolds, Hodge theory. Prerequisite: MATH 546.

**MATH 548 Geometric Structures (3, max. 9)** Continuation of MATH 547. Prerequisite: MATH 547.

**MATH 549 Geometric Structures (3, max. 9)** Continuation of MATH 548. Prerequisite: MATH 548.

**MATH 550 Seminar in Geometry (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 554 Linear Analysis (5)** First quarter of a three-quarter sequence covering advanced linear algebra and matrix analysis, ordinary differential equations (existence and uniqueness theory, linear systems, numerical approximations), Fourier analysis, introductions to functional analysis and partial differential equations, distribution theory. Prerequisite: MATH 426 and familiarity with complex analysis at the level of 427 (the latter may be obtained concurrently).

**MATH 555 Linear Analysis (5)** Continuation of MATH 554. Prerequisite: MATH 554.

**MATH 556 Linear Analysis (5)** Continuation of MATH 555. Prerequisite: MATH 555.

**MATH 557 Introduction to Partial Differential Equations (3)** First quarter of a three-quarter sequence. Review of the theory of distributions and the Fourier transform. Detailed study of main linear equations: wave equation, Laplace's equation, and the heat equation. Sobolev spaces and regularity of solutions of elliptic equations. Theory of pseudodifferential operators. Initial value problem for hyperbolic equations and methods of geometrical optics. Fourier integral operators. The Dirichlet problem and eigenfunction expansions for elliptic equations. Prerequisite: MATH 556.

**MATH 558 Introduction to Partial Differential Equations (3)** Continuation of MATH 557. Prerequisite: MATH 557.

**MATH 559 Introduction to Partial Differential Equations (3)** Continuation of MATH 558. Prerequisite: MATH 558.

**MATH 564 Algebraic Topology (3)** First quarter of a three-quarter sequence covering classical and modern approaches; complexes and their homology theory; applications; fixed points, products and Poincaré duality; axiomatic approach. Prerequisite: MATH 506 and MATH 544, or equivalent.

**MATH 565 Algebraic Topology (3)** Continuation of MATH 564. Prerequisite: MATH 564.

**MATH 566 Algebraic Topology (3)** Continuation of MATH 565. Prerequisite: MATH 565.

**MATH 570 Seminar in Topology (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 574 Fundamental Concepts of Analysis (3)** Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in Biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

**MATH 575 Fundamental Concepts of Analysis (3)** Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in Biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

**MATH 576 Fundamental Concepts of Analysis (3)** Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in Biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

**MATH 577 Lie Groups and Lie Algebras (3, max. 9)** Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

**MATH 578 Lie Groups and Lie Algebras (3, max. 9)** Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

**MATH 579 Lie Groups and Lie Algebras (3, max. 9)** Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

**MATH 580 Current Topics in Mathematics (2, max. 12)** Discussion of current research topics in mathematics, with emphasis on current departmental research projects and interests. Offered: AWSp.

**MATH 581 Special Topics in Mathematics (\*, max. 36)** Advanced topics in various areas of mathematics. Offered: AWSpS.

**MATH 582 Special Topics in Mathematics (\*, max. 36)** Advanced topics in various areas of mathematics. Offered: AWSpS.

**MATH 583 Special Topics in Mathematics (\*, max. 36)** Advanced topics in various areas of mathematics. Offered: AWSpS.

**MATH 584 Applied Linear Algebra and Introductory Numerical Analysis (5)** Numerical methods for solving linear systems of equations, linear least squares problems, matrix eigen value problems, nonlinear systems of equations, interpolation, quadrature, and initial value ordinary differential equations. Offered: jointly with AMATH 584. A.

**MATH 585 Numerical Analysis of Boundary Value Problems (5)** Numerical methods for steady-state differential equations. Two-point boundary value problems and elliptic equations. Iterative methods for sparse symmetric and non-symmetric linear systems: conjugate-gradients, preconditioners. Prerequisite: AMATH 584/MATH 584 which may be taken concurrently. Offered: jointly with AMATH 585; W.

**MATH 586 Numerical Analysis of Time Dependent Problems (5)** Numerical methods for time-dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence theory. Spectral and pseudospectral methods. Prerequisite: AMATH 581 or AMATH 584. Offered: jointly with AMATH 586/ATM S 581; Sp.

**MATH 590 Seminar in Probability (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of instructor.

**MATH 594 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing, such as iterative methods, eigenvalue computations, approximation theory, finite element methods, inverse problems, nonlinear conservation laws, computational fluid dynamics. Prerequisite: AMATH 584, AMATH 585, AMATH 586, or equivalent. Offered: jointly with AMATH 594.

**MATH 595 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing. See the description for 594 for sample topics. Prerequisite: AMATH 584, AMATH 585, AMATH 586, or equivalent. Offered: jointly with AMATH 595.

**MATH 596 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing. See the description for 594 for sample topics. Prerequisite: AMATH 584, 585, 586, or equivalent. Offered: jointly with AMATH 596.

**MATH 597 Seminar on Teaching Math (1, max. 3)** Issues in the teaching and learning of college mathematics, such as discovering and working with student background and expectations, increasing student engagement with course material, and evaluating student achievement. For graduate students who are, or soon will be, teaching mathematics courses on their own. Credit/no credit only.

**MATH 598 Seminar on Technology (1, max. 3)** Explores the use of computer technology in teaching and research in mathematics. Develops the basic skills required for using computer mathematics software.

**MATH 600 Independent Study or Research (\*)**

**MATH 700 Master's Thesis (\*)**

**MATH 800 Doctoral Dissertation (\*)**

## Music

### SCHOOL OVERVIEW

102 Music

The foremost goal of the School of Music is the discovery, preservation, and transmission of the practice and knowledge of music, as well as the role of music in culture and history. The school expands the frontiers of artistic enterprise and cultural knowledge through research, scholarship, and creative production, in its publications, performances, and teaching.

Through its instructional offerings, the School of Music provides opportunities for all students of the University of Washington to explore the role of music in the cultural nature of the world, past, present, and future. The school teaches students to think creatively and critically. The faculty provides professional training to musical performers as well as to academic scholars. The ultimate goal of the school is to instill the standards and ideals of excellence in both the artistic and scholarly endeavor of its students.

The School of Music is committed to furthering and transmitting technological advances through its research and instruction.

Because of its prominence in public performance, the School of Music has a unique external visibility, playing a vital role in the cultural life of the University, region, and beyond through the performance, creation, and study of

music and culture. To that end, the school maintains strong links with professional arts organizations regionally as well as nationally.

## UNDERGRADUATE PROGRAM

### Adviser

116 Music, Box 353450

206-543-1239

[musicadv@uw.edu](mailto:musicadv@uw.edu)

The School of Music offers the following programs of study:

- The Bachelor of Arts degree with a major in music (plus music history option; voice option; instrumental track; early music option)
- The Bachelor of Music degree with a major in composition, piano, string instruments, voice, organ, orchestral instruments, guitar, jazz studies, music education, and music history
- The Bachelor of Arts degree with a major in individualized studies (ethnomusicology) (See Individualized Studies adviser in 171 Mary Gates Hall for requirements.)
- A minor in music

## Information Applicable to All Music Majors

### Department Admission Requirements

All students must participate in an entrance audition and qualify at the MUSAP 320 level or better in their principal performance areas to be admitted as music majors and to receive private instruction. Entrance auditions are held in late September, late January, and as needed throughout the year. (See department website for more information.) Major status in performance areas is accorded when, after admission to the College of Arts and Sciences is acknowledged and the required School of Music audition is successfully completed, the student commences applied-music study in a performance medium (e.g., voice) with an approved faculty member of the School of Music. In music history, music education, and composition, additional entrance requirements apply.

All music programs require instruction on an instrument. Auditions into freshman-level applied-music instruction (private lessons) are based on the assumption that a student's background includes four to eight years of private study on an instrument. Completion of a further two years of college-level private instruction does not automatically guarantee entry at the junior level of private instruction; placement is determined by an audition.

Most degree programs in the School of Music require one to two years of basic piano, to be completed during the course of study at the University.

### Pre-Core Preparation

In preparation for beginning the music core coursework, all students must be evaluated by placement test to determine their levels in music theory and music history. Students who have minimal background in these areas may be required to take MUSIC 113/MUSIC 119 and MUSIC 120 before beginning the music core.

Transfer students who have had at least two quarters of music theory or music history are evaluated by a faculty member the quarter they are admitted to their program.

### Music Core Requirements

The music core (36 credits), required in each of the undergraduate program tracks, is as follows: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206; MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course.

## Grade Requirements

Undergraduate music majors are required to earn a minimum grade of 2.0 in each course (core and elective) counted toward music major requirements. An overall 2.50 minimum GPA in music coursework is required for graduation.

## Bachelor of Arts

### General Requirements

Minimum 180 credits, of which 90 must be taken in departments other than the School of Music. Piano proficiency at MUSAP 135 level. All College of Arts and Sciences graduation requirements must be met. Cumulative GPA of 2.50 for all music courses and a minimum grade of 2.0 for each music course counted toward the major.

### Major Requirements

- **Music (63 credits):** Music core, plus 6 credits of approved upper-level MUSIC or MUHST electives, 6 credits of approved 300- or 400-level MUSAP, MUSEN, MUSIC, or MUHST courses, 10 credits of MUSAP vocal or instrumental private applied instruction, 5 credits of MUSEN (ensembles).
- **Instrumental Track (69 credits):** Music core, plus 6 credits of approved upper-level MUSIC or MUHST electives, 18 credits of MUSAP instrumental private applied instruction, and 9 credits in ensembles.
- **Voice Option (75 credits):** Music core, plus 6 credits of approved upper-level MUSIC or MUHST electives, 18 credits of MUSAP vocal private applied instruction, 6 credits of vocal diction, and 9 credits in ensembles. Proficiency through the third quarter college level in two languages from French, German, and Italian.
- **Early Music Option (66 credits):** Music core, plus 15 credits of approved 300- and 400-level electives, selected from MUHST 400, MUHST 401, MUHST 406; MUSIC 418, MUSIC 421; MUSEN 369, MUSEN 383, and other approved 300- or 400-level courses. 10 credits of MUSAP vocal or instrumental private applied instruction, 5 credits of MUSEN (ensembles). Students are strongly encouraged to take 10 credits in pre-1700 literature, art history, and history courses as part to their VLPA requirement.
- **Music History Option (69 credits):** Music core, plus 12 credits of approved 400-level MUHST electives; 6 credits of approved 300- or 400-level music theory or MUHST courses; 10 credits of MUSAP vocal or instrumental private applied instruction; 5 credits of MUSEN (ensembles). Students must earn a minimum 2.00 cumulative GPA for all required MUHST courses.

## Bachelor of Music

### Admission Requirements

All students must participate in an entrance audition as described above. Students admitted into the B.A. program have the option to jury into the B.M. program at the end of the freshman and sophomore years. The composition and music education programs have additional application requirements as described below.

### General Requirements

A minimum of 180 credits, of which at least 60 must be taken in departments other than the School of Music. All College of Arts and Sciences degree requirements must be met (including Language Skills and Reasoning and Writing in Context), except that students need take only 60 credits in Areas of Knowledge, to include at least 20 credits each in two of the following three areas: Visual, Literary, & Performing Arts; Individuals & Societies; and the Natural World. Piano proficiency at MUSAP 235 level, a minimum grade of 2.0 in each music course counted toward the

major, and a GPA of 2.50 in music courses is required for graduation.

### Major Requirements (and Additional Admission Requirements, as noted)

#### Composition (114–120 credits)

**Additional Admission Requirements:** MUSIC 302 and MUSIC 305; MUHST 212; and MUSIC 216, MUSIC 217, MUSIC 218. Prospective students must also submit a portfolio of recent compositions. See adviser for more information on the application process.

**Major Requirements:** Music core (36 credits) plus MUSIC 216, MUSIC 217, MUSIC 218; PHYS 207; 18 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 380, MUSIC 381, MUSIC 382; MUSIC 400 or MUSIC 401; MUSIC 471 or MUSIC 472; MUSIC 490; 18 credits of private instruction in composition (MUSIC 391/MUSIC 491); 12–18 credits of MUSAP applied instruction; 6 credits of MUSEN ensembles; and one 400-level course in ethnomusicology. See the Music undergraduate adviser for more specific information.

#### Guitar (120 credits)

Music core (36 credits) plus 9 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 487 or MUSIC 438; 36 credits of MUSAP applied instruction; 7 credits of electives; 2 credits of recitals; MUSIC 326, MUSIC 327, MUSIC 328; MUSIC 434, MUSIC 435, MUSIC 436; MUSIC 380, MUSIC 381, MUSIC 382; and 12 credits of MUSEN ensembles. See the Music undergraduate adviser for more specific information.

#### Jazz Studies (120 credits)

Music core (36 credits) plus 9 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 319 or MUSIC 331; MUHST 425; MUSIC 336 and MUSIC 436; MUSIC 467, MUSIC 468, MUSIC 469; MUSIC 379, MUSIC 479; 6 credits of MUSIC 464; 10 credits of music electives; 30 credits of MUSAP applied instruction; 12 credits of MUSEN ensembles. See the Music undergraduate adviser for more specific information.

#### Music Education (115–119 credits)

**Additional Admission Requirements:** Students must complete a separate Music Education audition and interview. See adviser for more information on the application process.

**Major Requirements:** Music core (36 credits) plus MUSIC 300, MUSIC 350, MUSIC 351, MUSIC 352 (or MUSIC 380, MUSIC 381, MUSIC 382); MUSED 301; MUSED 304, MUSED 305, MUSED 306; MUSED 340; MUSED 403; MUSED 405 (or MUSEN 303); MUSED 440; MUSED 442 (or MUSED 443); MUSED 452; MUSED 465; 18 credits of MUSAP applied instruction; 6–7 credits of MUSEN ensembles; 12–14 credits of techniques courses; 3 credits of approved jazz coursework; EDC&I 494; and 3 credits of education electives. See the Music undergraduate adviser for more specific information.

#### Orchestral Instruments (116 credits)

Music core (36 credits) plus 12 credits of division-approved upper-level MUSIC or MUHST electives; 36 credits of MUSAP applied instruction; 18 credits of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See the Music undergraduate adviser for more specific information.

#### Organ (120 credits)

Music core (36 credits) plus 12 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 487; 36 credits of MUSAP applied instruction; MUSIC 454; MUSIC 473 and MUSIC 474; MUSIC 458 and MUSIC 459; MUSIC 350, MUSIC 351, MUSIC 352; 1 credit of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See the Music undergraduate adviser for more specific information.

### Piano (120 credits)

Music core (36 credits) plus 12 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 487; 36 credits of MUSAP applied instruction; MUSIC 434, 435, 436; MUSIC 326, MUSIC 327, MUSIC 328; 7 credits of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See the Music undergraduate adviser for more specific information.

### Strings (117 credits)

Music core (36 credits) plus 15 credits of division-approved upper-level MUSIC or MUHST electives; 36 credits of MUSAP applied instruction; 6 credits of MUSIC 429; MUSIC 434, MUSIC 435, MUSIC 436; MUSIC 380; 3 credits of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See the Music undergraduate adviser for more specific information.

### Voice (119 credits)

Music core (36 credits) plus 12 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 307, MUSIC 308, MUSIC 309; MUSIC 326, MUSIC 327, MUSIC 328; MUSIC 434; MUSIC 460, MUSIC 461, and MUSIC 462; MUSIC 379 and MUSIC 479; 36 credits of MUSAP applied instruction; 10 credits of MUSEN ensembles; and 3 credits of music electives. Proficiency through the third quarter college level in two languages from French, German, and Italian. See the Music undergraduate adviser for more specific information.

## Academic Options

### Music History

**Admission Requirements:** In addition to the admission requirements for all music majors, shown above, formal application to the music history division, to include verified completion of music core, 3.00 GPA in music core courses, 3.00 overall GPA, and a writing sample. Completion of minimum entrance requirements does not guarantee admission. The program of study and preparation of the senior thesis is developed in consultation with a music history faculty adviser. Students who intend to pursue graduate studies are strongly advised to establish proficiency in German or French and to acquire some acquaintance with one or two additional foreign languages.

**Major Requirements:** 135 credits as follows: Music core (36 credits) plus 6 credits of 300-level MUHST electives; 36 credits of 400-level MUSIC or MUHST (minimum 12 courses); a 3-credit 400-level course in ethnomusicology; 3 credits of MUSIC 498; 18 credits of MUSAP applied instruction (3 years); 9 credits of MUSEN ensembles; and 24 credits of music electives.

## Minor

**Minor Requirements:** Minimum 25 credits of music courses (MUSIC, MUHST, MUSEN, MUSAP, or MUSED prefixes). Maximum 10 credits at the 100 level, minimum 15 credits at the 200 level or above including:

- At least 4 credits from courses dealing with the elements of music (chosen from MUSIC 116, MUSIC 117, MUSIC 118, MUSIC 113/MUSIC 119, or MUSIC 120).
- 5 credits from courses for nonmajors that focus on a particular music area (MUSIC 121, MUSIC 122, MUSIC 160, MUSIC 162, MUSIC 316, MUSIC 317, MUSIC 318, MUSIC 319, MUSIC 331).
- Maximum 10 transfer credits (including maximum 5 transfer credits in performance lessons and ensembles) may count toward the minor.

## Student Outcomes and Opportunities

- **Instructional and Research Facilities:** None.
- **Honors Options Available:** With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors)

requirements in the major). See adviser for requirements.

- *Research, Internships, and Service Learning:* None.
- *Department Scholarships:* None.
- *Student Organizations/Associations:*
  - *Music Student Association (MSA):* A group of undergraduate and graduate students from various divisions of the School of Music, working to foster a stronger sense of professional community, serve the larger cultural community, and build practical tools for encouraging and promoting student musicians' endeavors. For more information, contact [sonare@uw.edu](mailto:sonare@uw.edu).
  - *Ethnomusicology Student Association:* A student association which deals with the concerns of the ethnomusicology division, as well as meeting socially. For further information, contact the division at 206-543-0949 or 64 Music Building.
  - *Music Educators National Conference (MENC):* A local chapter of this national scholarly organization of music educators is directly involved in annual state and regional meetings and events. Contact Professor Patricia Campbell ([pcamp@uw.edu](mailto:pcamp@uw.edu)) for further details.

#### Of Special Note:

*Continuation of Major Status* Performance studies should begin after audition and acceptance, and continue each subsequent quarter of registration until the minimum program requirements for applied-music lessons have been met. Applied-music study should continue as long as the student is registered and in residence until the final approved recital is given. In order to retain major standing, the student must make and demonstrate consistent and acceptable progress at the annual required jury. Concurrent enrollment or participation in at least one School of Music ensemble is required during each quarter in which a student receives MUSAP (applied-music) instruction, at the 300 level and above, except for MUSAP 389/589. Also, basic piano proficiency is required for all majors. Non-keyboard majors must enroll in the MUSAP 133/235 series until appropriate proficiency is attained. Any departure from the above requirements must have the recommendation of the appropriate divisional chair and the written consent of the Director of the School of Music.

## GRADUATE PROGRAM

### Graduate Program Coordinator

116 Music, Box 353450

206-543-2726

[musicadv@uw.edu](mailto:musicadv@uw.edu)

Graduate programs in the School of Music take into consideration the dual nature of music's subject matter. First, it is one of the creative arts, requiring constant renewal through the efforts of composers, performers, and teachers. Second, it is a branch of the humanities, subject to scholarly study and interpretation of its theoretical concepts and historical development. Each degree focuses on one of these areas.

## Master of Music or Doctor of Musical Arts

- Choral conducting
- Composition
- Instrumental conducting
- Opera production
- Performance piano, organ, harpsichord, voice, strings, brass, woodwinds, percussion, harp

## Master of Arts or Doctor of Philosophy

- Ethnomusicology
- Music education
- Music history
- Music theory

## Master of Arts

### Admission Requirements

- A baccalaureate degree from an accredited U.S. institution or its equivalent from a foreign institution. Performance programs expect that applicants have a bachelor's degree in music or the equivalent experience and training in the field.
- Minimum GPA of 3.00 or B average in the most recent two years of study.
- Scores from the Graduate Record Exam (GRE), unless the applicant holds an earned doctorate from an accredited institution.
- International Applicants
  - International applicants must consult the online Preliminary Evaluation Process before proceeding with the application process.
  - International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum scores are 580 for the paper test and 237 for the computer test.

### Degree Requirements

45 credits minimum, as follows:

- 45 credits as specified for the student's particular degree program; of these, 18 credits must be numerically graded and 18 credits must be at the 500-level
- Proficiency in a foreign language as required by the degree program
- Thesis, to include passing an oral thesis defense or passing an examination based on approximately 10 topics
- All work for the degree completed within six years, to include applicable work transferred from other institutions (max. 6 credits transferable) and time spent on leave.

## Master of Music

### Admission Requirements

- A baccalaureate degree from an accredited U.S. institution or its equivalent from a foreign institution. Performance programs expect that applicants have a bachelor's degree in music or the equivalent experience and training in the field.
- Minimum GPA of 3.00 or B average in the most recent two years of study.
- Scores from the Graduate Record Exam (GRE), unless the applicant holds an earned doctorate from an accredited institution.
- International Applicants
  - International applicants must consult the online Preliminary Evaluation Process before proceeding with the application process.
  - International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum scores are 580 for the paper test and 237 for the computer test.

*Entrance Auditions:* Before acceptance into a performance-based School of Music graduate program, applicants

need to pass an entrance audition in their major performance area.

### Degree Requirements

All students in the performance degree programs (MM, DMA) are expected to enroll in music applied lessons (MUSAP courses at the 500-level) until all recital requirements are met. The School of Music requires that all students registered for music applied lessons must also be enrolled in an ensemble (MUSEN 5XX).

- Minimum 45 credits, to include Minimum 45 credits as specified for the student's particular degree program; of these credits, 18 credits must be numerically graded and 18 credits must be at the 500-level
- Proficiency in a foreign language as required by the degree program
- Thesis, to include passing an oral thesis defense or passing an examination based on approximately ten topics
- All work for the degree completed within six years, to include applicable work transferred from other institutions (max. 6 credits transferable) and time spent on leave.

## Doctor of Music Arts

### Admission Requirements

- A baccalaureate degree from an accredited U.S. institution or its equivalent from a foreign institution. Performance programs expect that applicants have a bachelor's degree in music or the equivalent experience and training in the field.
- Minimum GPA of 3.00 or B average in the most recent two years of study.
- Scores from the Graduate Record Exam (GRE) unless applying to the Doctor of Musical Arts degree program in any area besides composition, or if the applicant holds an earned doctorate from an accredited institution.
- International Applicants
  - International applicants must consult the online Preliminary Evaluation Process before proceeding with the application process.
  - International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum scores are 580 for the paper test and 237 for the computer test.

*Entrance Auditions:* Before acceptance into a performance-based School of Music graduate program, applicants need to pass an entrance audition in their major performance area.

### Degree Requirements

All students in the performance degree programs (MM, DMA) are expected to enroll in music applied lessons (MUSAP courses at the 500-level) until all recital requirements are met. The School of Music requires that all students registered for music applied lessons must also be enrolled in an ensemble (MUSEN 5XX).

Minimum 90 credits, to include:

- Minimum 90 credits of resident study with at least 60 registered credits from the UW
- Reading knowledge of one or more foreign languages as required by the particular degree program
- Performance requirements as specified
- General examination for admission to candidacy; may consist of written and oral examinations based on approximately twenty topics (depending on degree program)

- Dissertation which is a significant contribution to knowledge in a specific field and which clearly indicates training and research
- Final examination devoted to the dissertation in the field with which it is concerned
- All work for the degree completed within ten years. Applicable work from the master's degree and work transferred from the other institutions must fall within the ten-year period, including time spent on leave and away from the program. Up to thirty credits from an approved master's degree may be counted toward the 90 credits required for the degree. (Master's degree credits are applied toward the general elective requirements of the degree plan.)

## Doctor of Philosophy

### Admission Requirements

- Baccalaureate degree from an accredited U.S. institution or its equivalent from a foreign institution. Performance programs expect that applicants have a bachelor's degree in music or the equivalent experience and training in the field.
- Minimum GPA of 3.00 or B average in the most recent two years of study.
- Scores from the Graduate Record Exam (GRE) unless the applicant holds an earned doctorate from an accredited institution.
- International Applicants
  - International applicants must consult the online Preliminary Evaluation Process before proceeding with the application process.
  - International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum scores are 580 for the paper test and 237 for the computer test.

### Degree Requirements

Minimum 90 credits, to include:

- Minimum 90 credits of resident study with at least 60 registered credits from the UW
- Reading knowledge of one or more foreign languages as required by the particular degree program
- Performance requirements as specified for the particular degree
- General examination for admission to candidacy; which may consist of written and oral examinations based on approximately twenty topics (depending on degree program). Dissertation which is a significant contribution to knowledge in a specific field and which clearly indicates training and research
- Final examination devoted to the dissertation in the field with which it is concerned
- All work for the degree completed within ten years. Applicable work from the master's degree and work transferred from the other institutions must fall within the ten-year period, including time spent on leave and away from the program. Up to thirty credits from an approved master's degree may be counted toward the 90 credits required for the degree. (Master's degree credits are applied toward the general elective requirements of the degree plan.)

## Financial Aid

A limited number of teaching and staff assistantships (including accompanying) are available. Competitive auditions for performance scholarships for new and returning students are held each year. See the school's website (above) for more information about applications and audition dates.

## Research Facilities

The Music Building contains the music library, an electronic composition laboratory, a listening center, and the ethnomusicology archives, as well as the studio, practice, and classroom facilities of a modern music department.

Ensembles available for student participation include University Symphony Orchestra, University Chorale, Opera Chorus, Contemporary Group, Wind Ensemble, University Symphonic Band, Studio Jazz Ensemble, Baroque Ensemble and Chamber Singers, as well as non-Western ensembles with visiting artists from around the globe.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsat/](http://www.uw.edu/students/crsat/)

**MUSIC 113 Pre-Core Ear Training (0/1, max. 1) VLPA** Pre-core course in musicianship. Offered: ASP.

**MUSIC 116 Elementary Music Theory (2) VLPA** For nonmusic majors. For people with no hands-on music experience. Rudiments of music; notation of time, small pitch structures (e.g., some scales, chords, rhythmic patterns), some analysis. Recommended: some music training including ability to read music.

**MUSIC 117 Elementary Music Theory (2) VLPA** For nonmusic majors. For students who can read music, having some performance experience. Prerequisite: MUSIC 116.

**MUSIC 118 Elementary Music Theory (2) VLPA** For nonmusic majors. For students who read music, have some performance experience, are familiar with scales, chords, intervals. Includes analysis composition in various styles. Prerequisite: MUSIC 117.

**MUSIC 119 Introduction to Music Theory and Musicianship (3) VLPA** Basic elements of music theory: introduction to acoustics, major and minor scales, triads and seventh chords, keys, four-part writing, functional harmony, modes, simple forms, and jazz notation. Offered: A.

**MUSIC 120 Survey of Music (5) VLPA** Studies in listening, with emphasis on the changing components of Western art music. Illustrated lectures, laboratory section meetings, and presentations by guest artists.

**MUSIC 121 The Orchestra (2) VLPA** Development of the orchestra and its literature.

**MUSIC 122 The Opera (2) VLPA** An introduction to opera through selected masterworks, from Monteverdi to the present. Primarily for nonmajors.

**MUSIC 160 Anglo-American Folk Music (5) VLPA** Genres and styles from earliest roots to the present; Anglo-American ballads, dance music, French and other European immigrant groups.

**MUSIC 161 American Musical Theater (5) VLPA** Historical and stylistic study of the development of the American musical theater. European roots in opera and operetta. Contributions from jazz and popular music. Selected musicals studied.

**MUSIC 162 American Popular Song (5) VLPA** Historical, social, and stylistic study of popular idioms from the late nineteenth century to the present. Most attention to contemporary idioms (rock, country-western, soul, hip-hop). Various facets of the industry examined to learn how they influence taste and musical style.

**MUSIC 185 The Concert Season (2) VLPA** Performances from the School of Music concert season, supplemented by lecture topics related to concert repertoire. Analysis of applicable musical topics appropriate for enhanced appreciation of historical and cultural contexts of works performed. Attendance at ten concerts required.

**MUSIC 191 Composition (3, max. 9) VLPA** One-hour private instruction and one-hour laboratory session each week.

Intended to develop skill in creative musical expression. For composition majors only.

**MUSIC 200 Music, Child, and Family (3) VLPA** Campbell Study of music in childhood as part of socialization and enculturation of the child within family and community. Emphasis given to songs and music listening experiences provided by parents to nurture the child's musical, social, and intellectual development from infancy through middle childhood. For nonmajors.

**MUSIC 201 First-Year Theory I (3) VLPA** Introduction to tonal harmony and counterpoint; triadic progressions in root position; first and second species counterpoint; analysis of simple works. Prerequisite: 2.0 in MUSIC 119; recommended: concurrent registration in MUSIC 204. Offered: W.

**MUSIC 202 First-Year Theory II (3) VLPA** Continued instruction in tonal harmony and counterpoint; triadic progressions with inversions; third and fourth species counterpoint; further analysis of basic forms. Prerequisite: 2.0 in MUSIC 201; recommended: concurrent registration in MUSIC 205. Offered: Sp.

**MUSIC 203 First-Year Theory III (3) VLPA** Further introduction in tonal harmony and counterpoint; seventh chords; modulations to closely related keys; secondary dominants; introduction to chromaticism; emphasis on analysis and writing of four-part chorales in early 18th century style. Prerequisite: 2.0 in MUSIC 202; recommended: concurrent registration in MUSIC 206. Offered: A.

**MUSIC 204 First-Year Ear Training I (0/1, max. 1) VLPA** Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 113; corequisite: MUSIC 201. Offered: W.

**MUSIC 205 First-Year Ear Training II (0/1, max. 1) VLPA** Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 204; corequisite: MUSIC 202. Offered: Sp.

**MUSIC 206 First-Year Ear Training III (0/1, max. 1) VLPA** Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 205; corequisite: MUSIC 203. Offered: AWSp.

**MUSIC 216 Introductory Composition (2) VLPA** For students not majoring in composition. Prerequisite: MUSIC 202.

**MUSIC 217 Introductory Composition (2) VLPA** For students not majoring in composition. Prerequisite: MUSIC 216.

**MUSIC 218 Introductory Composition (2) VLPA** For students not majoring in composition. Prerequisite: MUSIC 217.

**MUSIC 240 Reed-Making Techniques (1, max. 6) VLPA** Applies basic reed-making principles and techniques. Individualized instruction allows students of all levels to take the course simultaneously.

**MUSIC 250 World Music (3) I&S/VLPA** Introduction to world musical traditions, including both sound and socio-cultural dimensions of music. Topics include instruments, rhythm, melody, form, composition, improvisation, music in the family and community, politics, economy, religion, and case studies of major world musical traditions. Prerequisite: MUSIC 201; MUSIC 204.

**MUSIC 270 World Popular Music (5) I&S/VLPA** A global survey of popular music, including Latin America, Africa, Eastern Europe, the Middle East, Asia, and the Pacific. Emphasis on students' ability to recognize styles and to analyze the social and historical processes that have shaped them.

**MUSIC 291 Composition (3, max. 9) VLPA** One-hour private instruction and one-hour laboratory session per week. Prerequisite: MUSIC 191.

**MUSIC 300 Fundamentals of Music Technology (3) VLPA** Introduction to the principles of music technology. Exploration of different categories of music software, in terms of their functionality as well as the fundamental basis of these theories. Prerequisite: MUSIC 203; MUSIC 206.

**MUSIC 301 Second-Year Theory (3) VLPA** Further study of modulation and chromatic harmony; analysis of 18th- and 19th-century short forms; technical exercises; model composition. Prerequisite: 2.0 in MUSIC 203; 2.0 in MUSIC 206; corequisite: MUSIC 304; recommended: concurrent registration in MUSIC 304. Offered: W.

**MUSIC 302 Second-Year Theory (3) VLPA** More advanced study in mid- to late 19th-century chromaticism and compositional style; analysis of representative works; technical exercises; model composition. Prerequisite: 2.0 in MUSIC 301; 2.0 in MUSIC 304; corequisite: MUSIC 305. Offered: Sp.

**MUSIC 303 Second-Year Theory (3) VLPA** Core theory sequence for majors. Introduction to the theory and analysis of 20th-century music. Prerequisite: 2.0 in MUSIC 302; 2.0 in MUSIC 305; corequisite: MUSIC 306. Offered: A.

**MUSIC 304 Second-Year Ear-Training I (0/1, max. 1) VLPA** Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 203; 2.0 in MUSIC 206; corequisite: MUSIC 301. Offered: W.

**MUSIC 305 Second-Year Ear-Training II (0/1, max. 1) VLPA** Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 301; 2.0 in MUSIC 304; corequisite: MUSIC 302. Offered: Sp.

**MUSIC 306 Second-Year Ear-Training III (0/1, max. 1) VLPA** Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 302; 2.0 in MUSIC 305; corequisite: MUSIC 303. Offered: A.

**MUSIC 307 Diction for Singers (2) VLPA** Application of basic rules of diction, enunciation, and articulation in Italian. Materials include texts from the basic vocal repertoire. Primarily for the voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

**MUSIC 308 Diction for Singers (2) VLPA** Application of basic rules of diction, enunciation, and articulation in French. Materials include texts from the basic vocal repertoire. Primarily for the voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

**MUSIC 309 Diction for Singers (2) VLPA** Application of basic rules of diction, enunciation, and articulation in German. Materials include texts from the basic vocal repertoire. Primarily for the voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

**MUSIC 316 Music Cultures of the World (5) I&S/VLPA** Near East, Central Asia, Far East, South and southeast Asia, Indonesia, and the Philippines. Content varies.

**MUSIC 317 Music Cultures of the World (5) I&S/VLPA** Music of Africa, Americas, and Oceania. Content varies.

**MUSIC 318 Music Cultures of the World (5) I&S/VLPA** Folk and popular music in western and eastern Europe and the Americas. Content varies.

**MUSIC 319 Afro-American Music (5) I&S/VLPA** Centers on Black music in the United States, but also clarifies the relationship of this music to the musics of other Afro-American cultures as well as to their African roots.

**MUSIC 326 Repertoire (2) VLPA** For music majors.

**MUSIC 327 Repertoire (2) VLPA** For music majors.

**MUSIC 328 Repertoire (2) VLPA** For music majors.

**MUSIC 331 History of Jazz (5) VLPA** Extensive overview of important musicians, composers, arrangers, and stylistic periods of jazz history from emergence of the first jazz bands at the turn of the 20th century through post-modern bebop era of the 1990s.

**MUSIC 332 Music in European Society: Antiquity to 1700 (5) I&S/VLPA** Music and its relationship to aspects of European culture and society-philosophy, politics, social conditions, and the visual arts from antiquity to 1700.

**MUSIC 333 Music in Western Culture (5) I&S/VLPA** Music in Europe and North America, drawn from classical, popular, jazz, opera, and musical theatre traditions. Emphasis on the relationship between musical works and their social, philosophical, political, and other contexts.

**MUSIC 334 Band Arranging (2) VLPA** Prerequisite: MUSIC 303.

**MUSIC 336 Jazz Arranging (2) VLPA** Writing in jazz style for various instrumental combinations. To be able to arrange for modern jazz orchestra. Prerequisite: MUSIC 303.

**MUSIC 344 Psychology of Music: Cognition (5) I&S/VLPA** Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music perception, music performance, musical development, musical affect, musical preference, social psychology, and neuroscience.

**MUSIC 350 Choral Conducting (1) VLPA** Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 302; corequisite: MUSEN 307, 350 or 351.

**MUSIC 351 Choral Conducting (1) VLPA** Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 350; corequisite: MUSEN 307, 350 or 351.

**MUSIC 352 Choral Conducting (1) VLPA** Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 351; corequisite: MUSEN 307, 350 or 351.

**MUSIC 366 Cylinders to Platters--A Survey of Recorded Music Since 1888 (3) VLPA** Music as reflected through the influences of the recording industry and the development of related technologies. Examines social and artistic impacts that the recording age has brought to American and European musical cultures. Recommended: MUSIC 120; MUSIC 162.

**MUSIC 367 Beginning Jazz Improvisation I (1) VLPA** Beginning jazz improvisation techniques used in the performance of basic jazz styles such as the blues. Primarily for music majors. Prerequisite: MUSIC 302.

**MUSIC 368 Beginning Jazz Improvisation II (1) VLPA** Beginning jazz improvisation techniques used in the performance of basic jazz styles such as the blues. Primarily for music majors. Prerequisite: MUSIC 367.

**MUSIC 369 Beginning Jazz Improvisation III (1) VLPA** Beginning jazz improvisation techniques used in the performance of basic jazz styles such as the blues. Primarily for music majors. Prerequisite: MUSIC 368.

**MUSIC 379 Junior Recital (1) VLPA** For participants in the Bachelor of Music degree program only.

**MUSIC 380 Instrumental Conducting (1) VLPA** *Salzman* Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques and score study. Prerequisite: either MUSIC 212 or MUSIC 302.

**MUSIC 381 Instrumental Conducting (1) VLPA** *Salzman* Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques and score study. Prerequisite: MUSIC 380.

**MUSIC 382 Instrumental Conducting (1) VLPA** *Salzman* Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques and score study. Prerequisite: MUSIC 381.

**MUSIC 384 Ideas in Music (5) I&S/VLPA** *Taricani* Examines selected sources and compositions of music from the Western tradition (from the tenth through the twentieth centuries), in relation to the intellectual background of the periods and countries that produced them. Musical studies accompanied by assigned readings in philosophical, religious, literary, and artistic texts in addition to the primary readings in musical history.

**MUSIC 388 Jazz Pedagogy (2) VLPA** Stylistic and esthetic developments in the performance of jazz. Key musical ingredients in the evolution of jazz as an art form and the skills commensurate with teaching these. Designed for music majors

**MUSIC 390 Special Topics in Music (3, max. 9) VLPA** *Starr* Topics vary.

**MUSIC 391 Composition (3, max. 9) VLPA** One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 291.

**MUSIC 400 Computer Applications to Music (3, max. 9) VLPA** Music workstation applications using microcomputers, music synthesizers, and analog-to-digital converters: music editing and score production, transcription, waveform and spectral analysis, and introduction to programming.

**MUSIC 401 Digital Sound Synthesis (5) VLPA** Introduction to software sound synthesis techniques. Includes acoustics and psychoacoustics; virtual synthesizers and unit generators; table-lookup oscillators and wavetable synthesis; additive synthesis; modulation synthesis; ring amplitude, phase and frequency; granular synthesis; noise; subtractive synthesis and filters. Offered: jointly with DXARTS 461; A.

**MUSIC 402 Digital Sound Processing (5) VLPA** Introduction to digital sound processing techniques. Includes sampling techniques and time-domain transformation of samples sound; sample-rate conversion; sound granulation and time stretching; delay lines; introduction to digital filtering; FIR and IIR filters; digital effects; reverberation; virtual-room acoustics and dynamic sound location. Prerequisite: DXARTS 461/MUSIC 401. Offered: jointly with DXARTS 462; W.

**MUSIC 403 Advanced Digital Sound Synthesis and Processing (5) VLPA** Advanced sound processing and synthesis techniques. Includes sound time warping; analysis-synthesis techniques; linear predictive coding; the phase vocoder; frequency-domain sound transformations; introduction to physical modeling. Prerequisite: DXARTS 462/MUSIC 402. Offered: jointly with DXARTS 463; S.

**MUSIC 405 Liturgics and Hymnology: Practical Applications I (3) VLPA** *Butler* Prepares organ majors and other advanced organ students to play hymns in a manner that inspires congregational singing. Includes a study of hymnology from the early church to contemporary hymns of today. Explores several denominational hymns and many styles of improvisation, including baroque, romantic, and contemporary techniques. Prerequisite: MUSIC 302; MUSIC 305; MUHST 212. Offered: A.

**MUSIC 406 Liturgics and Hymnology: Practical Applications II (3) VLPA** *Butler* Surveys small and large choral works including anthems, oratorios, Requiem Masses, and Mass settings of major composers of the 16th century to present day. Resources drawn from the performing ensembles library, and from area church libraries and include a detailed study of choral styles and editions. Prerequisite: either MUSIC 303, MUSIC 306, MUHST 210, or MUSIC 405. Offered: W.

**MUSIC 407 Liturgics and Hymnology: Practical Applications III (3) VLPA** *Butler* Includes a survey of the necessary skills to run a successful music program in a church or synagogue. Provides an overview of traditional and contemporary liturgies, handbells, orchestral instruments and their use in worship and a special emphasis on the directing of children's choirs. Prerequisite: either MUSIC 303, MUSIC 306, MUHST 210, or MUSIC 406. Offered: Sp.

**MUSIC 410 ElectroAcoustic Music: History and Analysis (3) VLPA** Examines the music of major electro-acoustic composers. Emphasis on the relationship between technological resources and compositional advances. Addresses issues raised by the diversity of approaches to musical composition; relates particular creative contributions to the historical, cultural, and technological contexts in which they originated. Prerequisite: MUSIC 303; MUSIC 306; MUHST 210. Offered: Sp.

**MUSIC 418 Baroque Ornamentation and Improvisation (3) VLPA** *Terry* The study of ornamentation and improvisation for keyboard, woodwinds, voice, and strings of selected German, Italian, French, and English repertoire from 1600 to 1800.

**MUSIC 420 Organ Improvisation and Service Playing I (2) VLPA** Prepares students to improvise, especially for the church/synagogue service. Includes a brief study of hymnology, hymn elaboration, altered harmonizations, improvisation based on existing hymn tunes, interludes, chorale preludes, ornamented chorales. Prerequisite: MUSIC 303; MUSIC 306. Offered: A.

**MUSIC 421 Organ Improvisation and Service Playing II (2) VLPA** Continuation of MUSIC 420. Includes brief review of figured bass and functional harmony, free improvisation in simple antecedent/consequent ABA forms and more complex forms (rondo, theme, and variation), improvising partitas, interludes, improvisations based on plainchant. A survey of important improvisation texts. Prerequisite: MUSIC 420. Offered: W.

**MUSIC 422 Organ Improvisation and Service Playing III (2) VLPA** Continuation of MUSIC 421. Advanced improvisation: baroque improvisation techniques, fuguetas, baroque preludias and fantasias, canons, toccatas, duos, trios, and simple fugues. Prerequisite: MUSIC 421. Offered: Sp.

**MUSIC 426 Advanced Jazz Arranging (2) VLPA Brockman** Advanced arranging techniques for jazz ensembles of various sizes, exploring methods employed by Duke Ellington, Gil Evans, and others. Assignments include one original arrangement each for small-combo and full-jazz ensemble. Prerequisite: MUSIC 336. Offered: W.

**MUSIC 427 Music of Africa (3) I&S/VLPA** Music cultures of Africa. Traditional styles and more recent developments. Open to all students with an interest in the area. Prerequisite: MUSIC 317.

**MUSIC 428 Music of North India (3) I&S/VLPA** Classical music of North India, the Hindustani tradition with emphasis on the Dhrupad and Khyal styles. Recommended: ethnomusicology or South Asian studies background.

**MUSIC 429 String Orchestral Repertoire (2, max. 18) VLPA Lieberman Patterson, Saks, Watras** Intended for undergraduate BA/BM and BM music majors. Offered: biannually; AWSp.

**MUSIC 430 Organology (3) VLPA** Systematic study of musical instruments, involving the history, acoustical phenomena, and physical topologies of instruments from around the world, with emphasis on non-Western music.

**MUSIC 433 Music of Latin America (3) I&S/VLPA** The music of the Spanish-, French-, and Portuguese-speaking New World countries.

**MUSIC 434 Pedagogy (2) VLPA** Principles of effective studio teaching: survey and evaluation of teaching materials.

**MUSIC 435 Pedagogy (2) VLPA** Principles of effective studio teaching: survey and evaluation of teaching materials.

**MUSIC 436 Pedagogy (2) VLPA** Principles of effective studio teaching: survey and evaluation of teaching materials.

**MUSIC 438 Problems in Contemporary Music Performance (3, max. 9) VLPA Kappy** An active course examining and solving problems relevant to the successful performance of twentieth-century music. Preparation for complex rhythms, odd groupings, new notation, and extended performing techniques.

**MUSIC 439 Music of Indonesia and the Philippines (3) I&S/VLPA** Includes the traditions of Sumatra, Sunda, Java, Bali, Sunda Islands, and the Philippines. Open to students in music and to students with an interest in the area.

**MUSIC 444 Music of the Near East (3) I&S/VLPA** Classical and folk musical traditions of Iran, Turkey, and the Arab world. Prerequisite: MUSIC 316.

**MUSIC 445 Selected Topics in Ethnomusicology (3/5, max. 15) I&S/VLPA** Deals with areas not covered by other courses in ethnomusicology. Content varies with different instructors.

**MUSIC 446 Music in American Cultures (3) I&S/VLPA** Compares musical history and experience of selected American cultures that have fed into the American musical mainstream or had significant popularity on its periphery. Case studies may include African Americans, Latino/a Americans, Jewish Americans, Asian Americans, or European Americans. Considerations of social identity as well as musical styles. Offered: jointly with AES 446.

**MUSIC 447 Music of Southern India (3) I&S/VLPA** Classical music of South India, the Karnatic tradition, with emphasis

on the concert repertoire. Recommended: ethnomusicology or South Asian studies background.

**MUSIC 448 Music of China (3) I&S/VLPA** Confucian philosophies that relate to music, theory, scale systems, cosmology. Development of instrumental styles, vocal and dramatic regional forms from early historical periods to the present; recommended: background in either ethnomusicology or East Asian Studies. Recommended: ethnomusicology or East Asian studies background.

**MUSIC 449 Advanced Piano Repertoire (2, max. 6) VLPA McCabe, Michaelian, Sheppard** For piano majors who wish an in-depth survey of major areas of the piano repertoire. Prerequisite: MUSIC 328. Offered: AWSp.

**MUSIC 450 Percussion Education Institute (2) VLPA Collier, Crusoe** Intensive four-week institute focusing on techniques in percussion, timpani, and mallet performance. Intended for music educators with little or no percussion experience desiring additional training to enhance their careers as music teachers. Includes private instruction, master classes, and percussion ensemble participation. Prerequisite: MUSAP 217.

**MUSIC 451 Summer Jazz Institute (1) VLPA Brockman, Collier, Seales** Intensive one-week institute designed for the serious jazz student as well as for music educators. Six hours of daily instruction in jazz theory, ear-training, improvisation, arranging, as well as emphasis on rehearsal and performance techniques through sectional workshops and small group "jam sessions."

**MUSIC 454 Organ Pedagogy (3) VLPA Terry** Pedagogical approaches to organ techniques and performance practice, provides opportunity for practical application by means of student teaching.

**MUSIC 455 Choral Arranging (3) VLPA** Primarily for choral conductors who need to modify, arrange or compose material to suit the capabilities of specific choral groups and performance situations.

**MUSIC 458 Organ Repertoire: Middle Ages through Baroque (3) VLPA Terry** Analysis and performance practices of organ literature, Middle Ages through baroque period. Development of the organ as musical instrument. Prerequisite: either MUHST 400, MUHST 401, MUHST 402, MUHST 403, MUHST 406, or MUHST 407.

**MUSIC 459 Organ Repertoire: Bach to Present (3) VLPA Terry** Analysis and performance practices of organ literature, classical period through the twentieth century. Development of the organ as a musical instrument. Prerequisite: either MUHST 408, MUHST 409, MUHST 410, MUHST 411, MUHST 412, MUHST 413, MUHST 414, MUHST 415, MUHST 417, MUHST 418, MUHST 419, MUHST 423, MUHST 424, or MUHST 426.

**MUSIC 460 Advanced Vocal Repertoire: Pre-Nineteenth-Century Art Songs (2, max. 6) VLPA** Professional preparation of pre-nineteenth-century songs with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 328.

**MUSIC 461 Advanced Vocal Repertoire: Nineteenth-Century Art Songs (2, max. 6) VLPA** Professional preparation of works from the literature of nineteenth-century German lieder, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 460.

**MUSIC 462 Advanced Vocal Repertoire: Twentieth-Century Art Songs (2, max. 6) VLPA** Preparation of works from the twentieth-century repertoire of French, German, Italian, Spanish, and English songs, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 461.

**MUSIC 464 Jazz Laboratory (1, max. 9) VLPA Seales** Forum for testing new technical skills, improvisational techniques, and jazz compositions and/or arrangements in a formal laboratory setting.

**MUSIC 465 Acting for Singers (2, max. 6) VLPA** Workshop designed specifically for the singing actor, focusing on character analysis, movement, and audition department skills.

**MUSIC 467 Advanced Jazz Improvisation I (1) VLPA Collier, Seales** Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 369.

**MUSIC 468 Advanced Jazz Improvisation II (1) VLPA Collier, Seales** Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 467.

**MUSIC 469 Advanced Jazz Improvisation III (1) VLPA Collier, Seales** Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 468.

**MUSIC 470 Analysis of Tonal Music: Introduction to Schenker (3) VLPA Bernard, Kopp, Rahn** Introduction to the theories of Heinrich Schenker and their subsequent development; analysis of music from the common-practice period (1700–1900), with possible excursions into the twentieth century. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215.

**MUSIC 471 Introduction to Atonal Theory and Analysis (3) VLPA Bernard, Rahn** Theory of atonal music, including the "classical" twelve-tone repertoire. Analysis of works by Schoenberg, Berg, Webern, and others. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215.

**MUSIC 472 Analysis of Twentieth Century Music, 1900–1950 (3, max. 6) VLPA Bernard, Durand, Karpen, Rahn, Thome** Analytical examination of musical works of the first half of the twentieth century in Europe and the United States, with emphasis on music other than that of the second Viennese school. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215.

**MUSIC 473 Keyboard Harmony and Transposition (3) VLPA Terry** Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Offered: alternate years.

**MUSIC 474 Keyboard Harmony and Transposition (3) VLPA Terry** Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: MUSIC 473. Offered: alternate years.

**MUSIC 475 Figured Bass Realization (3) VLPA Terry** Various styles of continuo realization for keyboardists, emphasizing Bach cantatas, Haydn symphonies, and Mozart operas. Prerequisite: MUSIC 474. Offered: alternate years.

**MUSIC 476 Advanced Vocal Repertoire: Seventeenth and Eighteenth Centuries (2) VLPA** Opera repertoire, 1600 to the Bel Canto era (Bellini, Rossini, Donizetti); style, traditions, embellishments in Italian, French, and German arias. Prerequisite: MUSIC 328.

**MUSIC 477 Advanced Vocal Repertoire: Nineteenth Century (2) VLPA** Opera repertoire, the post Bel Canto era through Verdi, Puccini and verismo, and significant German, French, and Slavic repertoire. Prerequisite: MUSIC 476.

**MUSIC 478 Advanced Vocal Repertoire: Twentieth Century (2) VLPA** Opera repertoire, twentieth-century opera literature (Barber, Menotti, Bartok, Dvorak); understanding of style, character and overall artistic and musical needs of the present. Prerequisite: MUSIC 477.

**MUSIC 479 Senior Recital (1) VLPA**

**MUSIC 480 The Anthropology of Music (3) I&S/VLPA** Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation. e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with ANTH 430.

**MUSIC 481 Choral Repertoire: Sixteenth and Seventeenth Centuries (3) VLPA** Sacred and secular choral literature from the Renaissance through the early baroque, covering Europe and England. Various genres and styles of major

composers, including performance practice, rehearsals, and conducting.

**MUSIC 482 Choral Repertoire: Eighteenth Century (3) VLPA** Sacred and secular choral literature of the baroque, covering mainland Europe and England. Choral works of Bach, his predecessors, and contemporaries. Stylistic analysis and study of performance practice.

**MUSIC 483 Choral Repertoire: Nineteenth Century (3) VLPA** Sacred and secular choral literature of the nineteenth century, covering mainland Europe and England. Analysis of accompanied and a cappella choral works by major composers with implications for conducting and programming of literature.

**MUSIC 484 Choral Repertoire: Twentieth Century (3) VLPA** Choral literature of the twentieth century, covering America, England, and mainland Europe. Various genres and styles, including score study and teaching strategies.

**MUSIC 487 Tonal Counterpoint (3) VLPA** *Bernard, Durand, Rahn* Introduction to tonal counterpoint through exercises in analysis and composition, focusing on 18th-century styles. Study of melody principles of counterpoint in two and three voices, dance forms, inventions, fugue. Prerequisite: either MUSIC 311 or MUSIC 202.

**MUSIC 489 Special Topics in Music Theory (3/5, max. 15) VLPA** Prerequisite: either both MUSIC 303 and MUHST 210 or both MUSIC 312 and MUHST 314.

**MUSIC 490 Orchestration (3) VLPA** Study of the instruments of the orchestra and practical experience in combining them; to enable the student to score for various instrumental combinations. Ideally to be taken before band arranging or jazz arranging, but is not a prerequisite.

**MUSIC 491 Composition (3, max. 18) VLPA** One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 391.

**MUSIC 492 Opera Direction and Production (4) VLPA** Practical experience with problems of the theater.

**MUSIC 493 Opera Direction and Production (4) VLPA** Practical experience with problems of the theater. Prerequisite: MUSIC 492.

**MUSIC 495 Music of Japan (3) I&S/VLPA** Survey of major Japanese musical traditions. Open to students in music and East Asian area studies. Prerequisite: MUSIC 316.

**MUSIC 498 Senior Thesis (3-, max. 9) VLPA** Design and completion of an individual research project and writing of a thesis under supervision of a faculty member.

**MUSIC 499 Undergraduate Research (\*, max. 6)**

**MUSIC 511 Seminar in Field and Laboratory Methods (3)** Methodology of field research in ethnomusicology along with practical experience. Prerequisite: graduate student standing in ethnomusicology or permission of instructor.

**MUSIC 512 Seminar in Ethnomusicology (3/5, max. 35)** Deals with advanced theoretical and methodological problems in ethnomusicology, and with the relationship of ethnomusicology to allied disciplines. Prerequisite: graduate

**MUSIC 520 Music in Higher Education (3) Morrison** Philosophical and practical issues surrounding music within the context of higher education. Topics include mission and structure of music programs, development of teaching expertise, teacher/student evaluation, academic freedom, and job opportunities. Appropriate for all graduate music students and does not require background in teaching or education.

**MUSIC 523 Seminar in Music and Socialization (3, max. 9) Lundquist** The socialization process and music, including the interaction whereby music culture is learned. Prerequisite: MUSIC 345 or MUSIC 545 or permission of instructor.

**MUSIC 526 History of Theory (3)** Ancient, medieval, early Renaissance.

**MUSIC 527 History of Theory (3)** Renaissance, baroque, early classic.

**MUSIC 528 History of Theory (3)** Classic, romantic, twentieth century.

**MUSIC 530 Seminar in Music Cognition (3, max. 9)** Study of research literature in cognition and music cognition, particularly as it relates to nonverbal musical experience. Prerequisite: MUSIC 344 or MUSIC 544 or permission of instructor.

**MUSIC 531 Proseminar in Ethnomusicology (3)** Theoretical and methodological issues in ethnomusicology based on historical and contemporary major writings. Critical evaluations of works with a broad view toward developing ethnomusicological research. Prerequisite: permission of instructor.

**MUSIC 532 Opera Direction and Production (4/6, max. 12)** Practical experience with problems of the opera theatre.

**MUSIC 533 Preceptorial Readings in Ethnomusicology (5)** Significant ethnomusicological literature on the music cultures of Asia. Meets with MUSIC 316. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 534 Preceptorial Readings in Ethnomusicology (5)** Significant ethnomusicological literature on the music cultures of Africa, the Americas, and Oceania. Meets with MUSIC 317. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 535 Preceptorial Readings in Ethnomusicology (5)** Significant ethnomusicological literature on the music cultures of Europe and North America. Meets with MUSIC 318. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 536 Transcription and Analysis (3)** Study of the methodological principles of transcription and analysis, together with practical exercises in developing transcription skills. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 544 Psychology of Music: Music Cognition (5)** Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music performance, musical creativity, musical affect, musical preference, social psychology, and neuroscience. Discusses the role of theory, method, and typical procedures for psychological research.

**MUSIC 551 Practicum in Music Instruction (3, max. 9)** Practical application and validation of results of investigation in curriculum, music teaching and learning, performance and theoretical studies. Prerequisite: teaching experience or permission of instructor.

**MUSIC 553 Advanced Choral Techniques (2, max. 18)** Practical application of technique and pedagogy related to choral music. Surveys major choral repertoire. Concurrent enrollment in MUSIC 583 required.

**MUSIC 559 Master's Recital (3, max. 6)** Public performance for students in the Master of Music degree program. Prerequisite: permission of instructor and Master of Music program standing.

**MUSIC 570 Seminar in Schenkerian Analysis (3, max. 9) Bernard, Rahn** Advanced work in Schenkerian analysis. Prerequisite: MUSIC 470.

**MUSIC 571 Seminar in Serialism (3, max. 9) Bernard, Kopp, Rahn** Advanced theoretical and analytical work in serialism and other nontonal systems. Prerequisite: MUSIC 471 or equivalent.

**MUSIC 572 Advanced Topics in Computer Music (3) Karpen, Rahn** Topics vary. Offered: AWSpS.

**MUSIC 573 Seminar in Tonal Analysis (3, max. 9)** Modern theoretical and analytical methods appropriate to study of western music of the eighteenth and nineteenth centuries, conceived independently of or in response to the work of Heinrich Schenker. Prerequisite: MUSIC 470 or permission of instructor.

**MUSIC 574 Analysis of Twentieth-Century Music: 1950–Present (3) Bernard, Durand, Karpen, Rahn, Thome** Analytical examination of major works of second half of twentieth

century. Prerequisite: MUSIC 471; MUSIC 472, or permission of instructor.

**MUSIC 575 Seminar in Theory (3, max. 18) Bernard, Rahn** Development and discussion of current student and faculty research in compositional/analytical theory and metatheory.

**MUSIC 576 Critical Theory of Music (3, max. 18)** Philosophical foundations of the criticism of music, including relevant contemporary thought in the criticism of literature and the other arts.

**MUSIC 577 Composers of the Twentieth Century (3, max. 9) Bernard, Durand, Karpen, Rahn, Thome** Analytical examination of the work of a major composer of the twentieth century. Prerequisite: MUSIC 574 or permission of instructor.

**MUSIC 580 Advanced Conducting (3, max. 9) Eros, Salzman**

**MUSIC 581 Advanced Conducting (3, max. 9) Eros, Salzman**

**MUSIC 582 Advanced Conducting (3, max. 9) Eros, Salzman**

**MUSIC 583 Advanced Choral Conducting (2, max. 18) Boers**

**MUSIC 590 Keyboard and Doctoral Lecture Recital or Concerto Recital (6, max. 18)** Lecture recital or Concerto recital for students in the Doctor of Musical Arts in Piano Performance, in Harpsichord Performance, and in Organ Performance degree programs.

**MUSIC 591 Graduate Composition (\*, max. 30) Bernard, Durand, Karpen, Rahn**

**MUSIC 599 Advanced Selected Topics (1–3, max. 27)** Selected readings on current issues and problems in music. Prerequisite: permission of a supervising music faculty member.

**MUSIC 600 Independent Study or Research (\*)**

**MUSIC 700 Master's Thesis (\*)**

**MUSIC 800 Doctoral Dissertation (\*)**

## Music Applied

**MUSAP 133 Basic Keyboard (2) VLPA** Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSIC 116.

**MUSAP 134 Basic Keyboard (2) VLPA** Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 133.

**MUSAP 135 Basic Keyboard (2) VLPA** Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 134.

**MUSAP 136 Basic Jazz Keyboard (2, max. 6) VLPA Seales** Basics of jazz and pop chord voicings, reading lead sheets, basic accompanying in various jazz and pop styles. Audition required.

**MUSAP 137 Class Instruction: Voice (1) VLPA** Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required.

**MUSAP 138 Class Instruction: Voice (1) VLPA** Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required. Prerequisite: MUSAP 137.

**MUSAP 139 Class Instruction: Voice (1) VLPA** Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required. Prerequisite: MUSAP 139.

**MUSAP 205 String Techniques (2, max. 12) VLPA** Designed to prepare music education students to teach beginning and intermediate strings in the public schools.

**MUSAP 210 Wind Techniques (2, max. 12) VLPA** Designed to prepare music education students to teach beginning and intermediate woodwinds and brass in the public schools.

**MUSAP 217 Percussion Techniques (2, max. 4) VLPA Collier** The study of basic percussion techniques as they apply

to music in the public schools. Acquaints the prospective music education major with percussion performance and teaching techniques.

**MUSAP 218 Guitar Techniques (2, max. 4) VLPA** *Partington* Includes exercises to develop a good basic technique emphasizing correct position and movement of both hands, basic folk song accompaniments including a variety of strums, finger picking patterns, hammering on and bass runs, reading guitar music, classical pieces, special effects, and access to other styles. Offered: W.

**MUSAP 233 Secondary Piano (2) VLPA** Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 135.

**MUSAP 234 Secondary Piano (2) VLPA** Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 233.

**MUSAP 235 Secondary Piano (2) VLPA** Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 234.

**MUSAP 237 Secondary Class Instruction: Voice (2, max. 6) VLPA** Continuation of basic fundamentals of good singing: breathing, diction, voice focus and repertoire. Designed for students not yet prepared for private instruction. Audition required. Prerequisite: MUSAP 139.

**MUSAP 239 Secondary Piano (2, max. 8) VLPA** Intermediate level keyboard repertory. Private instruction. Audition required. Prerequisite: MUSAP 235.

**MUSAP 300 Private Instruction: Voice (2–3, max. 45) VLPA** *Eaglen, Guyer, Harper* Intended for undergraduate non-majors. Audition required.

**MUSAP 301 Private Instruction: Piano (2–3, max. 45) VLPA** *McCabe, Michaelian, Seales, Sheppard* Intended for undergraduate non-majors. Audition required.

**MUSAP 302 Private Instruction: Organ (2–3, max. 45) VLPA** *Terry* Intended for undergraduate non-majors. Audition required.

**MUSAP 303 Private Instruction: Harpsichord (2–3, max. 45) VLPA** *Terry* Intended for undergraduate non-majors. Audition required.

**MUSAP 304 Private Instruction: Violin (2–3, max. 45) VLPA** Intended for undergraduate non-majors. Audition required.

**MUSAP 305 Private Instruction: Violoncello (2–3, max. 45) VLPA** *Saks* Intended for undergraduate non-majors. Audition required.

**MUSAP 306 Private Instruction: Double Bass (2–3, max. 45) VLPA** *Lieberman* Intended for undergraduate non-majors. Audition required.

**MUSAP 307 Private Instruction: Flute (2–3, max. 45) VLPA** *Shin* Intended for undergraduate non-majors. Audition required.

**MUSAP 308 Private Instruction: Oboe (2–3, max. 45) VLPA** Intended for undergraduate non-majors. Audition required.

**MUSAP 309 Private Instruction: Clarinet (2–3, max. 45) VLPA** Intended for undergraduate non-majors. Audition required.

**MUSAP 310 Private Instruction: Bassoon (2–3, max. 45) VLPA** Intended for undergraduate non-majors. Audition required.

**MUSAP 311 Private Instruction: Saxophone (2–3, max. 45) VLPA** *Brockman* Intended for undergraduate non-majors. Audition required.

**MUSAP 312 Private Instruction: Horn (2–3, max. 45) VLPA** *Kappy* Intended for undergraduate non-majors. Audition required.

**MUSAP 313 Private Instruction: Trumpet (2–3, max. 45) VLPA** *Vizzutti* Intended for undergraduate non-majors. Audition required.

**MUSAP 314 Private Instruction: Trombone (2–3, max. 45) VLPA** Intended for undergraduate non-majors. Audition required.

**MUSAP 315 Private Instruction: Tuba (2–3, max. 45) VLPA** Intended for undergraduate non-majors. Audition required.

**MUSAP 316 Private Instruction: Harp (2–3, max. 45) VLPA** *Lehwalder* Intended for undergraduate non-majors. Audition required.

**MUSAP 317 Private Instruction: Percussion (2–3, max. 45) VLPA** *Collier, Crusoe* Intended for undergraduate non-majors. Audition required.

**MUSAP 318 Private Instruction: Guitar (2–3, max. 45) VLPA** *Partington* Intended for undergraduate non-majors. Audition required.

**MUSAP 319 Private Instruction: Viola da Gamba (2–3, max. 45) VLPA** Intended for undergraduate non-majors. Audition required.

**MUSAP 320 Private Instruction: Voice (2–3, max. 27) VLPA** *Eaglen, Guyer, Harper* Intended for undergraduate majors. Audition required.

**MUSAP 321 Private Instruction: Piano (2–3, max. 27) VLPA** *McCabe, Michaelian, Seales, Sheppard* Intended for undergraduate majors. Audition required.

**MUSAP 322 Private Instruction: Organ (2–3, max. 27) VLPA** *Terry* Intended for undergraduate majors. Audition required.

**MUSAP 323 Private Instruction: Harpsichord (2–3, max. 27) VLPA** *Terry* Intended for undergraduate majors. Audition required.

**MUSAP 324 Private Instruction: Violin (2–3, max. 27) VLPA** *Patterson* Intended for undergraduate majors. Audition required.

**MUSAP 325 Private Instruction: Violoncello (2–3, max. 27) VLPA** *Saks* Intended for undergraduate majors. Audition required.

**MUSAP 326 Private Instruction: Double Bass (2–3, max. 27) VLPA** *Lieberman* Intended for undergraduate majors. Audition required.

**MUSAP 327 Private Instruction: Flute (2–3, max. 27) VLPA** *Shin* Intended for undergraduate majors. Audition required.

**MUSAP 328 Private Instruction: Oboe (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 329 Private Instruction: Clarinet (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 330 Private Instruction: Bassoon (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 331 Private Instruction: Saxophone (2–3, max. 27) VLPA** *Brockman* Intended for undergraduate majors. Audition required.

**MUSAP 332 Private Instruction: Horn (2–3, max. 27) VLPA** *Kappy* Intended for undergraduate majors. Audition required.

**MUSAP 333 Private Instruction: Trumpet (2–3, max. 27) VLPA** *Vizzutti* Intended for undergraduate majors. Audition required.

**MUSAP 334 Private Instruction: Trombone (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 335 Private Instruction: Tuba (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 336 Private Instruction: Harp (2–3, max. 27) VLPA** *Vokolek* Intended for undergraduate majors. Audition required.

**MUSAP 337 Private Instruction: Percussion (2–3, max. 27) VLPA** *Lehwalder* Intended for undergraduate majors. Audition required.

**MUSAP 338 Private Instruction: Guitar (2–3, max. 27) VLPA** *Partington* Intended for undergraduate majors. Audition required.

**MUSAP 339 Private Instruction: Viola da Gamba (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 340 Timpani (2–3, max. 27) VLPA** *Crusoe* Intended for undergraduate majors. Audition required.

**MUSAP 341 Mallet Percussion (2–3, max. 27) VLPA** *Collier* Intended for undergraduate majors. Audition required.

**MUSAP 342 Jazz Drum Set (2–3)** Primarily for jazz studies and percussion majors. Audition required for non-majors.

**MUSAP 343 Private Instruction: Viola (2–3, max. 45) VLPA** *Watras* Intended for undergraduate non-majors. Audition required.

**MUSAP 363 Private Instruction: Viola (2–3, max. 27) VLPA** *Watras* Intended for undergraduate majors. Audition required.

**MUSAP 389 World Music (2–3, max. 18) I&S/VLPA** World music traditions taught by visiting native artists. Consult ethnomusicology staff for current offerings. Intended for undergraduate majors. Audition required. Credit/no credit only.

**MUSAP 420 Private Instruction: Voice (2–3, max. 27) VLPA** *Eaglen, Guyer, Harper* Intended for undergraduate majors. Audition required.

**MUSAP 421 Private Instruction: Piano (2–3, max. 27) VLPA** *McCabe, Michaelian, Seales, Sheppard* Intended for undergraduate majors. Audition required.

**MUSAP 422 Private Instruction: Organ (2–3, max. 27) VLPA** *Terry* Intended for undergraduate majors. Audition required.

**MUSAP 423 Private Instruction: Harpsichord (2–3, max. 27) VLPA** *Terry* Intended for undergraduate majors. Audition required.

**MUSAP 424 Private Instruction: Violin (2–3; max. 27) VLPA** *Patterson* Intended for undergraduate majors. Audition required.

**MUSAP 425 Private Instruction: Violoncello (2–3; max. 27) VLPA** *Saks* Intended for undergraduate majors. Audition required.

**MUSAP 426 Private Instruction: Double Bass (2–3, max. 27) VLPA** *Lieberman* Intended for undergraduate majors. Audition required.

**MUSAP 427 Private Instruction: Flute (2–3, max. 27) VLPA** *Shin* Intended for undergraduate majors. Audition required.

**MUSAP 428 Private Instruction: Oboe (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 429 Private Instruction: Clarinet (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 430 Private Instruction: Bassoon (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 431 Private Instruction: Saxophone (2–3, max. 27) VLPA** *Brockman* Intended for undergraduate majors. Audition required.

**MUSAP 432 Private Instruction: Horn (2–3, max. 27) VLPA** *Kappy* Intended for undergraduate majors. Audition required.

**MUSAP 433 Private Instruction: Trumpet (2–3, max. 27) VLPA** *Vizzutti* Intended for undergraduate majors. Audition required.

**MUSAP 434 Private Instruction: Trombone (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 435 Private Instruction: Tuba (2–3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 436 Private Instruction: Harp (2–3, max. 27) VLPA** *Lehwalder* Intended for undergraduate majors. Audition required.

**MUSAP 437 Private Instruction: Percussion (2–3, max. 27) VLPA** *Collier, Crusoe* Intended for undergraduate majors. Audition required.

**MUSAP 438 Private Instruction: Guitar (2–3, max. 27) VLPA** *Partington* Intended for undergraduate majors. Audition required.

**MUSAP 439 Private Instruction: Viola da Gamba (2–3, max. 27) VLPA** *Tindemans* Intended for undergraduate majors. Audition required.

**MUSAP 440 Timpani (2–3, max. 27) VLPA** *Crusoe* Intended for undergraduate majors. Audition required.

**MUSAP 441 Mallet Percussion (2–3, max. 27) VLPA** *Collier* Intended for undergraduate majors. Audition required.

**MUSAP 442 Jazz and Non-Western Drumming Techniques (2/3, max. 18) VLPA** *Collier* Focused study of American jazz drumming and/or hand drumming techniques of various world music cultures to broaden the skills of percussion students, preparing them for new demands of contemporary musical styles. Designed primarily for music undergraduates enrolled in the percussion program. Audition required.

**MUSAP 463 Private Instruction: Viola (2–3, max. 27) VLPA** *Watras* Intended for undergraduate majors. Audition required.

**MUSAP 500 Private instruction: Voice (2–3, max. 45)** *Eaglen, Guyer, Harper* Intended for graduate non-majors. Audition required.

**MUSAP 501 Private Instruction: Piano (2–3, max. 45)** *McCabe, Michaelian, Seales, Sheppard* Intended for graduate non-majors. Audition required.

**MUSAP 502 Private Instruction: Organ (2–3, max. 45)** *Terry* Intended for graduate non-majors. Audition required.

**MUSAP 503 Private Instruction: Harpsichord (2–3, max. 45)** *Terry* Intended for graduate non-majors. Audition required.

**MUSAP 504 Private Instruction: Violin (2–3, max. 45)** *Patterson* Intended for graduate non-majors. Audition required.

**MUSAP 505 Private Instruction: Violoncello (2–3, max. 45)** *Saks* Intended for graduate non-majors. Audition required.

**MUSAP 506 Private Instruction: Double Bass (2–3, max. 45)** *Lieberman* Intended for graduate non-majors. Audition required.

**MUSAP 507 Private Instruction: Flute (2–3, max. 45)** *Shin* Intended for graduate non-majors. Audition required.

**MUSAP 508 Private Instruction: Oboe (2–3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 509 Private Instruction: Clarinet (2–3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 510 Private Instruction: Bassoon (2–3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 511 Private Instruction: Saxophone (2–3, max. 45)** *Brockman* Intended for graduate non-majors. Audition required.

**MUSAP 512 Private Instruction: Horn (2–3, max. 45)** *Kappy* Intended for graduate non-majors. Audition required.

**MUSAP 513 Private Instruction: Trumpet (2–3, max. 45)** *Vizzutti* Intended for graduate non-majors. Audition required.

**MUSAP 514 Private Instruction: Trombone (2–3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 515 Private Instruction: Tuba (2–3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 516 Private Instruction: Harp (2–3, max. 45)** *Lehwalder* Intended for graduate non-majors. Audition required.

**MUSAP 517 Private Instruction: Percussion (2–3, max. 45)** *Collier, Crusoe* Intended for graduate non-majors. Audition required.

**MUSAP 518 Private Instruction: Guitar (2–3, max. 45)** *Partington* Intended for graduate non-majors. Audition required.

**MUSAP 519 Private Instruction: Viola da Gamba (2–3, max. 45)** Audition required.

**MUSAP 520 Private Instruction: Voice (3, max. 18)** *Eaglen, Guyer, Harper* Intended for graduate majors. Audition required.

**MUSAP 521 Private Instruction: Piano (3, max. 18)** *McCabe, Michaelian, Sheppard* Intended for graduate majors. Audition required.

**MUSAP 522 Private Instruction: Organ (3, max. 18)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 523 Private Instruction: Harpsichord (3, max. 18)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 524 Private Instruction: Violin (3, max. 18)** *Patterson* Intended for graduate majors. Audition required.

**MUSAP 525 Private Instruction: Violoncello (3, max. 18)** *Saks* Intended for graduate majors. Audition required.

**MUSAP 526 Private Instruction: Double Bass (3, max. 18)** *Lieberman* Intended for graduate majors. Audition required.

**MUSAP 527 Private Instruction: Flute (3, max. 18)** *Shin* Intended for graduate majors. Audition required.

**MUSAP 528 Private Instruction: Oboe (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 529 Private Instruction: Clarinet (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 530 Private Instruction: Bassoon (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 531 Private Instruction: Saxophone (3, max. 18)** *Brockman* Intended for graduate majors. Audition required.

**MUSAP 532 Private Instruction: Horn (3, max. 18)** *Kappy* Intended for graduate majors. Audition required.

**MUSAP 533 Private Instruction: Trumpet (3, max. 18)** *Vizzutti* Intended for graduate majors. Audition required.

**MUSAP 534 Private Instruction: Trombone (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 535 Private Instruction: Tuba (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 536 Private Instruction: Harp (3, max. 18)** *Lehwalder* Intended for graduate majors. Audition required.

**MUSAP 537 Private Instruction: Percussion (3, max. 18)** *Collier, Crusoe* Intended for graduate majors. Audition required.

**MUSAP 538 Private Instruction: Guitar (3, max. 18)** *Partington* Intended for graduate majors. Audition required.

**MUSAP 540 Timpani (3, max. 18)** *Crusoe* Intended for graduate majors. Audition required.

**MUSAP 541 Mallet Percussion (3, max. 18)** *Collier* Intended for graduate majors. Audition required.

**MUSAP 542 Private Instruction: Viola da Gamba (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 543 Private Instruction: Viola (2–3, max. 45)** *Watras* Intended for graduate non-majors. Audition required. Offered: AWSpS.

**MUSAP 563 Private Instruction: Viola (2–3, max. 45)** *Watras* Intended for Master's degree candidates. Audition required. Offered: AWSpS.

**MUSAP 570 Private Instruction: Voice (3, max. 27)** *Eaglen, Guyer, Harper* Intended for graduate majors. Audition required.

**MUSAP 571 Private Instruction: Piano (3, max. 27)** *McCabe, Michaelian, Sheppard* Intended for graduate majors. Audition required.

**MUSAP 572 Private Instruction: Organ (3, max. 27)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 573 Private Instruction: Harpsichord (3, max. 27)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 574 Private Instruction: Violin (3, max. 27)** *Patterson* Intended for graduate majors. Audition required.

**MUSAP 575 Private Instruction: Violoncello (3, max. 27)** *Saks* Intended for graduate majors. Audition required.

**MUSAP 576 Private Instruction: Double Bass (3, max. 27)** *Lieberman* Intended for graduate majors. Audition required.

**MUSAP 577 Private Instruction: Flute (3, max. 27)** *Shin* Intended for graduate majors. Audition required.

**MUSAP 578 Private Instruction: Oboe (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 579 Private Instruction: Clarinet (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 580 Private Instruction: Bassoon (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 581 Private Instruction: Saxophone (3, max. 27)** *Brockman* Intended for graduate majors. Audition required.

**MUSAP 582 Private Instruction: Horn (3, max. 27)** *Kappy* Intended for graduate majors. Audition required.

**MUSAP 583 Private Instruction: Trumpet (3, max. 27)** *Vizzutti* Intended for graduate majors. Audition required.

**MUSAP 584 Private Instruction: Trombone (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 585 Private Instruction: Tuba (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 586 Private Instruction: Harp (3, max. 27)** *Lehwalder* Intended for graduate majors. Audition required.

**MUSAP 587 Private Instruction: Percussion (3, max. 27)** *Collier, Crusoe* Intended for graduate majors. Audition required.

**MUSAP 588 Private Instruction: Guitar (3, max. 27)** *Partington* Audition required.

**MUSAP 589 World Music Laboratory (2–3, max. 18)** World music traditions taught by visiting artists with emphasis on cultural pedagogy and traditional theory. The particular culture studied changes from year to year. Required of all graduate students in ethnomusicology. Credit/no credit only. Audition required.

**MUSAP 590 Timpani (3, max. 27)** *Crusoe* Intended for graduate majors. Audition required.

**MUSAP 591 Mallet Percussion (3, max. 27)** *Collier* Intended for graduate majors. Audition required.

**MUSAP 592 Private Instruction: Viola da Gamba (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 593 Private Instruction: Viola (2–3, max. 45)** *Watras* Intended for Doctoral degree candidates. Audition required. Offered: AWSpS.

## Music Education

**MUSED 301 Techniques for Teaching Music to Children (2) VLPA** *Campbell* Exercises and applied experiences in sight-singing and error detection, keyboard skills, record and instruments of the Orff ensemble relevant to the teaching of music to children. Prerequisite: either MUSIC 212 or MUSIC 302; MUSAP 135.

**MUSED 304 Introductory Music Methods (2, max. 4) VLPA** *Demorest, Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, and problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Must be taken concurrently with MUSED 301; MUSED 340. Offered: A.

**MUSED 305 Introductory Music Methods II (2, max. 4) VLPA** *Demorest Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Offered: W.

**MUSED 306 Introductory Music Methods III (2, max. 4) VLPA** *Demorest, Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Offered: Sp.

**MUSED 340 Music in Education (3) VLPA** *Demorest* An orientation to the broad scope of issues regarding music in the

schools (K-12), including curriculum, the development of instructional strategies, and evaluation techniques.

**MUSED 401 Tin Pan Alley: Concepts and Teaching Strategies for Music Educators (1) VLPA** Overview of Tin Pan Alley phenomenon that dominated the American popular music industry for nearly 70 years. For music educators. Focuses on cooperative learning strategies and performance considerations in the school environment. Recommended: MUSIC 162.

**MUSED 402 Rock and Roll Roots for Music Educators (1) VLPA** Overview of the musical and cultural roots of American Rock and Roll for music educators. Explores teaching strategies and performance possibilities in the school environment. Recommended: MUSIC 162.

**MUSED 403 Part-Time Student Teaching in Music (6) VLPA** Campbell, Demorest, Morrison Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Credit/no credit only. Offered: AWSp.

**MUSED 404 Full-Time Student Teaching in Music (15) VLPA** Campbell, Demorest, Morrison Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Credit/no credit only. Prerequisite: MUSED 403. Offered: AWSp.

**MUSED 405 Marching Band Technique (2) VLPA** McDavid, Morrison, Salzman Basics of marching and maneuvering discussed and used to write drill. Covers selection of music, use of marching procession, and show design. Students complete a drill for their own band or for an instrumentation determined by the instructor.

**MUSED 410 Instrumental Rehearsal Techniques (3) VLPA** Salzman Includes score preparation, rehearsal formats, and error detection.

**MUSED 431 Curriculum in Music Education (3) VLPA** Campbell, Demorest, Morrison Principles and practices of curriculum design applied to the development of the music curriculum. Individual or group work on elementary and secondary school music curriculum projects.

**MUSED 432 Comprehensive Music in the Secondary School (3) VLPA** Demorest The teaching of music and its literature in music classes other than traditional ensembles from grade six through adults. Prerequisite: MUSED 340.

**MUSED 440 Music for Children (3) VLPA** Campbell Identification and selection of appropriate objectives, materials, teaching strategies and evaluation techniques used in teaching music from birth through grade five, with consideration of various approaches (e.g., Delcroze, Kodaly, Orff) for the musical development of children. Prerequisite: MUSED 302; MUSED 340

**MUSED 442 Instrumental Curriculum: Methods and Materials (3) VLPA** Morrison Study of the organization and administration of school instrumental music; the selection and use of materials and teaching strategies from beginning to advanced levels of instrumental instruction. Prerequisite: MUSED 340.

**MUSED 443 Choral Curriculum: Methods and Materials (3) VLPA** Demorest Study of the organization and administration of school choral music; the selection and use of materials and teaching strategies from beginning to advanced levels of choral instruction. Prerequisite: MUSED 340.

**MUSED 452 Ethnomusicology in the Schools (3) VLPA** Campbell Issues, teaching materials, and techniques involved in incorporating music cultures of United States and related world music repertoires in K-12 classroom instruction. Prerequisite: MUSED 340.

**MUSED 453 Approaches to Classroom Instruction: K-12 (3) VLPA** Campbell Examines such major instructional approaches as MMCP, Orff, Kodaly, and Dalcroze. Included are the philosophy of each and the methods, materials, and instructional skills needed for classroom application. Prerequisite: MUSED 403.

**MUSED 465 Classroom Management and Evaluation in Music Education (3) VLPA** Morrison Provides future teachers with strategies and techniques for classroom management, motivation, assessment, and evaluation for applications to K-12 school music programs. Prerequisite: MUSED 340.

**MUSED 475 Teaching the Music of Selected Cultures (1, max. 6) VLPA** Campbell Music and culture of a specific world region with particular attention to songs, stories, and instrumental pieces applicable to the teaching of music and the arts in elementary and secondary schools.

**MUSED 480 Music Methods for Classroom Teachers (3) VLPA** Campbell Addresses the basic fundamentals of music and methods for teaching K-6 school children. Topics include repertoire appropriate for different age levels, methods and materials for integrating music into the K-6 curriculum.

**MUSED 496 Special Topics in Music Education (1-3, max. 10) VLPA** Special studies designed to reflect contemporary emphases and concerns in the music education profession.

**MUSED 501 Introduction to Research in Music Education (3) Campbell, Demorest, Morrison** Seminar in research design and method with emphasis on identification of problems in music instruction, interpretation of data, and application of findings to classroom settings.

**MUSED 502 Quantitative Research in Music Education (3) Campbell, Demorest, Morrison** Seminar in quantitative research utilizing experimental, quasi-experimental, and descriptive design, with emphasis on the pursuit of solutions to pedagogical problems through appropriate research procedures, analysis, and interpretation of findings. Prerequisite: MUSED 501.

**MUSED 503 Qualitative Research in Music Education (3) Campbell, Demorest, Morrison** Examination of qualitative modes of inquiry (including ethnographic, case study, phenomenological, and historical) to music instruction in classroom, studio, and community settings. Prerequisite: MUSED 502.

**MUSED 522 Psychology of Music Learning and Teaching (3) Campbell, Demorest, Morrison** Examines previous research in areas related to music cognition, including music perception, music performance, musical creativity, musical affect, musical preference, and social psychology. Explores how this research relates to curriculum and practice in music education. Role of theory, method, and procedure for psychological research in music education.

**MUSED 523 Tests and Measurement (3) Campbell, Demorest, Morrison** Examination of currently published aptitude and achievement tests in music and their uses in music education. Explores the basic methods for constructing classroom tests and their use in evaluation. Selected readings include researching test construction and application of tests and measurement to program evaluation.

**MUSED 524 Seminar in Music Education (3) Campbell, Demorest, Morrison** Special problems in the teaching and supervision of music in the elementary grades. Prerequisite: one year of teaching experience.

**MUSED 525 Seminar in Music Education (3) Campbell, Demorest, Morrison** Special problems in the teaching and administration of music in the secondary school and community college. Prerequisite: one year of teaching experience.

**MUSED 530 Administration and Supervision in Music Education (3) Campbell, Demorest, Morrison** Survey of issues in policy and systems for facilities, student/personnel, technology, school/community relations, and special programs in music education. Focuses on evaluating and improving existing programs. Includes supervision of student teachers.

**MUSED 535 Seminar in Musical Development (3) Campbell, Demorest, Morrison** Critical review of theories, methods of inquiry, designs, and conclusions of research in musical development from early childhood through adolescence. Emphasis on evaluating theories and methods of studying musical development and exploring their relationship to theories of general intellectual development; adult music

cognition research; and curriculum and practice in music education.

**MUSED 540 History of American Music Education (3) Campbell, Demorest, Morrison** A chronological examination of individual, social, and political events, and educational philosophies, that characterized the development of music instruction in American schools from colonial times to the present.

**MUSED 542 Comparative Music Education (3) Campbell, Demorest, Morrison** A transcultural examination of philosophy and practice of music instruction.

**MUSED 550 Proseminar in Music Education (3) Campbell, Demorest, Morrison** Examination of the major literature in the philosophy, history, psychology, and sociology of formal school music instruction.

**MUSED 552 World Music Education (3) Campbell** Seminar on issues of multiculturalism and the world music "movement" as they affect school music curriculum and instruction. Curricular content and cultural context examined in relation to teaching K-12 students, teachers, and undergraduate students in music education programs. Offered: AWSpS.

**MUSED 560 Contemporary Issues in Music Education (1-3, max. 6) Campbell, Demorest, Morrison** Seminar focusing on review of literature on psychological and sociological aspects of music education, including historical and philosophical foundations of music education in the United States. Appropriate for MA students seeking guidance in preparation of topic for examinations. Prerequisite: MUSED 501.

**MUSED 561 Seminar in Theories of Music Instruction (3, max. 9) Campbell, Demorest, Morrison** Theories of music instruction, with special attention to curriculum, instructional procedures, and assessment of learning. Prerequisite: MUSED 501 or permission of instructor.

**MUSED 575 Seminar in Music Education Research (1-3, max. 6) Campbell, Demorest, Morrison** Examines research and research-based issues relevant to music instruction and learning. Doctoral students should register each quarter until successful completion of general examination. Offered: A.

## Music Ensemble

**MUSEN 100 University Singers (1, max. 15) VLPA** Credit/no credit only.

**MUSEN 200 Men's Glee Club (1, max. 15) VLPA** Demorest Non-auditioned ensemble open to all men in the campus community. Offers a number of performance opportunities throughout the year. Credit/no credit only. Offered: AWSp.

**MUSEN 201 Women's Chorus (1, max. 15) VLPA** Demorest Non-auditioned ensemble open to all women in the campus community. Offers a number of performance opportunities throughout the year. Credit/no credit only. Offered: AWSp.

**MUSEN 300 University Symphony Orchestra (1, max. 15) VLPA**

**MUSEN 301 Wind Ensemble (1, max. 15) VLPA** Salzman

**MUSEN 302 Symphonic Band (1, max. 10) VLPA** Salzman

**MUSEN 303 Marching Band (2, max. 10) VLPA** McDavid

**MUSEN 304 Percussion Ensemble (1, max. 12) VLPA** Collier

**MUSEN 305 Brass Ensemble (1, max. 12) VLPA** Kappy

**MUSEN 306 Woodwind Ensemble (1, max. 12) VLPA** Shin

**MUSEN 307 Recital Choir (1, max. 15) VLPA** Boers Choir presents two recital programs per quarter, surveying a wide variety of repertoire of all styles and periods. Credit/no credit only.

**MUSEN 308 Guitar Ensemble (1, max. 18) VLPA** Partington Study and performance works for two, three, and four guitars and one guitar with various solo instruments or voice. Designed for guitar performance majors. Other instrumentalists may register with instructor's permission. Offered: AWSp.

**MUSEN 309 Concert Band (1, max. 10) VLPA** *Salzman* Open for membership without audition to students from any major field of study as well as faculty and community members. This ensemble is also an outstanding forum for music majors to refine skills on primary or secondary instruments. Offered: AWSpS.

**MUSEN 325 Accompanying (2, max. 30) VLPA**

**MUSEN 340 Vocal Jazz Ensemble (1, max. 6) VLPA** Credit/no credit only.

**MUSEN 345 Jazz Workshop (1, max. 12) VLPA** *Collier, Seales*

**MUSEN 346 Studio Jazz Ensemble (1, max. 6) VLPA**

**MUSEN 347 Opera Chorus (1, max. 12) VLPA**

**MUSEN 350 University Chorale (1, max. 12) VLPA** Credit/no credit only.

**MUSEN 351 Chamber Singers (1, max. 15) VLPA** *Boers*

**MUSEN 361 Piano Ensemble (1, max. 3) VLPA** Study and performance of works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability.

**MUSEN 368 Harp Ensemble (1, max. 12) VLPA** *Lehwalder*

**MUSEN 369 Baroque Chamber Ensemble (1, max. 18) VLPA** *Terry*

**MUSEN 375 Opera Workshop (1, max. 6) VLPA** *Zahn* Preparation of music theatre repertoire. Intended for the mature voice student.

**MUSEN 381 Chamber Music (1, max. 18) VLPA**

**MUSEN 382 Opera Theatre (2, max. 6) VLPA** *Zahn* Public performance of roles in opera.

**MUSEN 383 Collegium Musicum (1, max. 6) VLPA**

**MUSEN 384 Contemporary Group (1, max. 6) VLPA** *Durand* Exploration of notation and performance problems in today's music; preparation for public performance. Credit/no credit only.

**MUSEN 410 Steelband (1, max. 6) VLPA** Performing and arranging techniques for the steelband, and percussion, in a variety of Caribbean and Latin American music styles, including calypso, soca, reggae, and salsa.

**MUSEN 446 Advanced Studio Jazz Ensemble (1, max. 9) VLPA** Preparation and performance of material appropriate to large jazz ensemble concerts, clinics, and radio and television broadcasts. Recommended: three quarters of MUSEN 346.

**MUSEN 500 University Symphony Orchestra (1, max. 9)**

**MUSEN 501 Wind Ensemble (1, max. 9) VLPA** *Salzman*

**MUSEN 503 Marching Band (2, max. 6) VLPA** *McDavid*

**MUSEN 504 Percussion Ensemble (1, max. 9) VLPA** *Collier*

**MUSEN 505 Brass Ensemble (1, max. 9) VLPA** *Kappy*

**MUSEN 506 Woodwind Ensemble (1, max. 9) VLPA** *Shin*

**MUSEN 507 Recital Choir (1, max. 9) VLPA** Choir presents two recital programs per quarter, surveying a wide variety of repertoire of all styles and periods. Credit/no credit only.

**MUSEN 508 Guitar Ensemble (1, max. 9) VLPA** *Partington* Study and performance works for two, three, and four guitars and one guitar with various solo instruments or voice. Designed for guitar performance majors. Other instrumentalists may register with instructor's permission. Offered: AWSp.

**MUSEN 525 Accompanying (2, max. 18)**

**MUSEN 540 Vocal Jazz Ensemble (1, max. 9) VLPA** Credit/no credit only.

**MUSEN 545 Jazz Workshop (1, max. 9) VLPA** *Collier, Seale, Vu*

**MUSEN 546 Studio Jazz Ensemble (1, max. 9)**

**MUSEN 547 Opera Chorus (1, max. 9)**

**MUSEN 550 University Chorale (1, max. 9) VLPA** Credit/no credit only.

**MUSEN 551 Chamber Singers (1, max. 9) VLPA** *Boers*

**MUSEN 561 Piano Ensemble (1, max. 9) VLPA** Study and performance of works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability.

**MUSEN 568 Harp Ensemble (1, max. 9) VLPA** *Lehwalder*

**MUSEN 569 Baroque Chamber Ensemble (1) VLPA** *Terry*

**MUSEN 575 Opera Workshop (1, max. 9) VLPA** *Zahn* Preparation of music theatre repertoire. Intended for the mature voice student.

**MUSEN 580 Sinfonietta (1, max. 9)**

**MUSEN 581 Chamber Music (1, max. 9)**

**MUSEN 582 Opera Theatre (2, max. 18) VLPA** Public performance of roles in opera.

**MUSEN 583 Collegium Musicum (1, max. 9)**

**MUSEN 584 Contemporary Group (1, max. 9) VLPA** *Durand* Exploration of notation and performance problems in today's music; preparation for public performance. Credit/no credit only.

## Music History

**MUHT 210 Introduction to the History of Western Music I (3) VLPA** *Taricani* Introduction to the critical study of Western music history, including representative composers, works, and genres, as well as significant concepts and issues. Origins of Western Music. Prerequisite: 2.0 in MUHT 212. Offered: A.

**MUHT 211 Introduction to the History of Western Music II (3) VLPA** *Rumph, Starr, Taricani* Introduction to the critical study of Western music history, including representative composers, works, and genres, as well as significant concepts and issues. Baroque and Classical Periods. Prerequisite: MUSIC 203, MUSIC 206; either 3.0 in MUSIC 120 or minimum score of 80% on music history placement test. Offered: W.

**MUHT 212 Introduction to the History of Western Music III (3) VLPA** *Starr* Introduction to the critical study of Western music history including representative composers, works, and genres as well as significant concepts and issues. Nineteenth and Twentieth Centuries. Prerequisite: 2.0 in MUHT 211. Offered: Sp.

**MUSIC 260 Orchestral Music (5) VLPA** Orchestral music from its beginnings in the seventeenth century through recent developments; evolution of the symphony.

**MUSIC 261 Mozart (5) VLPA** Introduction to Mozart's music and to musical life in Habsburg Austria during the Enlightenment. Mozart's musical personality studied through masterpieces in all genres, with principal emphasis on listening. Ability to read music not required.

**MUSIC 262 Introduction to Twentieth-Century Music (3) VLPA** *Starr* Listener's survey of important composers and trends from Debussy through electronic music.

**MUSIC 263 Opera (5) VLPA** *Rumph* Contributions of music, text, and staging; study of representative works concentrating on problems of combining these elements into a composite work of art.

**MUSIC 264 Sacred Music in the European Tradition (5) VLPA** Surveys European and American sacred music from the 12th to 20th centuries, examining the important role of music in religious worship. Considers the means composers used to make musical works sound the way they do to convey the messages of the texts through music. Offered: jointly with RELIG 264.

**MUHT 301 Music and the American Experience (3) I&S/ VLPA** *Starr* Survey of American music from the colonial period to the present day, with emphasis on in-depth examination of representative works from both cultivated and vernacular traditions. Prerequisite: MUHT 210; MUSIC 303; MUSIC 306. Offered: WSP.

**MUHT 310 Perspectives in Music History (3, max. 6) I&S/ VLPA** Overview of different stylistic periods in music history. Perspectives include music and philosophy, music and gen-

der, and music and text. Students develop an insight into the manner in which similar questions have been approached in diverse cultures and periods. Prerequisite: MUHT 210; MUSIC 303; MUSIC 306. Offered: WSP.

**MUHT 311 Beethoven in Western Culture (3) I&S/ VLPA** Comprehensive study of Beethoven's works and their nineteenth- and twentieth-century reception, with consideration of how Western culture has used Beethoven's music in its constructions of subjectivity, genius, and national and other collective identities. Prerequisite: MUSIC 303; MUSIC 306; MUHT 210. Offered: WSP.

**MUHT 330 Music in the United States (5) VLPA** *Starr* Contribution of music to the development of American culture.

**MUHT 400 Medieval Music: To 1400 (3) VLPA** *Taricani* Critical readings on issues in medieval music. Works to be studied included repertory from chant, motets, and sacred and secular music of the Middle Ages.

**MUHT 401 Early British Music: 1300–1700 (3) VLPA** *Taricani* Examines the history of British music from its earliest polyphony through the music of Purcell. Stylistic features of English music studied, including medieval polyphony, Tudor music, Elizabethan music, and seventeenth-century music through Purcell.

**MUHT 402 Late Renaissance Secular Music: 1525–1630 (3) VLPA** *Taricani* The madrigal in Italy, England, and Germany. The Chanson, Jannequin through Lassus.

**MUHT 403 Late Renaissance Sacred and Instrumental Music: 1525–1630 (3) VLPA** *Taricani* Latin church music. Willaert through G. Gabrieli; early Reformation church music, Walther through Gibbons; instrumental music, Cabezon, the English virginal school, and Sweelinck.

**MUHT 404 Baroque Keyboard Music (3) VLPA** Forms and styles: Frescobaldi through J.S. Bach and C.P.E. Bach.

**MUHT 405 Orchestral Music: 1620–1760 (3) VLPA** *Corelli* though the Mannheim School. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 406 Baroque Choral Music (3) VLPA** *Bozarth* Monteverdi through Handel. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 407 Baroque Opera (3) VLPA** Monteverdi through Handel.

**MUHT 408 Keyboard Music: 1760–1830 (3) VLPA** *Bozarth* Haydn through Schubert. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 409 Chamber Music: 1760–1830 (3) VLPA** Haydn through Schubert. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 410 Orchestral Music: 1760–1830 (3) VLPA** Haydn through early Berlioz.

**MUHT 411 Art Song, 1760–1830 (3) VLPA** The art song in European culture during the Classical and early Romantic periods. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 412 Choral Music: 1750–1830 (3) VLPA** Large works for chorus and orchestra, Haydn through Beethoven.

**MUHT 413 Opera: 1750–1830 (3) VLPA** *Rumph* Gluck through Bellini.

**MUHT 414 Keyboard Music: 1830–1915 (3) VLPA** *Bozarth* Schumann through Debussy. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 415 Chamber Music: 1830–1915 (3) VLPA** Schumann through Ravel. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 416 Orchestral Music: 1830–1915 (3) VLPA** Schumann and Mendelssohn through early Schoenberg and Stravinsky. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHT 417 Art Song: 1830–1915 (3) VLPA** *Bozarth* The Lieder of Schumann, Brahms, Wolf, Strauss, Mahler, and Schoenberg. Prerequisite: 2.0 in MUHT 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 418 Choral Music: 1830–1915 (3) VLPA** *Bozarth* Selected choral masterpieces. Mendelssohn through Schoenberg.

**MUHST 419 Opera: 1830–1915 (3) VLPA** *Rumph* German, French, and Italian operatic traditions. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 420 Authenticity and Performance (3) VLPA** The practical and philosophical issues raised by historically informed performance of early music on period instruments. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 421 Music Criticism (3) VLPA** *Starr* Study of the various forms of music criticism, with an emphasis on the writing of valid examples and evaluation of one's own work along with that of others—classmates, journalists, and academic critics. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 422 Gender and Music (3) VLPA** *Tsou* Investigates how gender issues have shaped the creation and perception of music; introduces women composers and their music. Topics include writing women's biography; creation of the music canon; gender issues in opera; intertwining issues of race, class, and gender, blues women; and popular music. Offered: W. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 423 Twentieth-Century Music to 1945 (3) VLPA** *Starr* Intensive study of selected composers and works exemplifying the new vocabularies, grammars, and styles of the early part of the twentieth century. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 424 Music Since 1945 (3) VLPA** *Starr* Diversity of the contemporary musical scene. Vocabularies appropriate for the description and understanding of the new music, developed through study of representative composers and works, and appropriate readings. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 425 Jazz History and Analysis (3) VLPA** *Collier* Major eras and styles of jazz with emphasis on technical aspects of jazz music: composition, arranging, improvisation practices. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 426 American Popular Music (3) VLPA** *Starr* An in-depth consideration of American popular music styles and repertoire from about 1920 to the present day. Analysis of representative pieces; consideration of critical and aesthetic issues relating to popular music; relationship of popular music to "art" music and to American culture and society. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 429 Music, Literature, and the Arts (3) VLPA** Literary and visual art works that include musical subject matter and forms; musical genres that incorporate other arts such as opera and ballet. Related philosophical writings. Includes works of a particular time period or investigation of a specific problem in comparative arts. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 497 Special Topics in Music History (1–3, max. 6) VLPA** *Bozarth, Rumph, Taricani, Tsou* Topics vary each quarter. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 500 Seminar in Methods of Music Research (3)** *Rumph, Taricani* Explores various critical approaches to research in music at the graduate level, examining specialized bibliographical resources, controversial arguments about musical issues, and other matters of musical criticism required to begin advanced study of music. Prerequisite for all graduate music history courses except MUHST 515.

**MUHST 503 Readings in Medieval and Renaissance Music (5)** *Taricani* Musical styles, genres, and forms of the Middle Ages and Renaissance. Focuses upon musicological problems and controversy related to music composed between ca. 1000 and 1600. Prerequisite: permission of instructor.

**MUHST 504 Seminar in Medieval Music (3, max. 6)** *Taricani* Prerequisite: MUHST 500.

**MUHST 505 Seminar in Renaissance Music (3, max. 6)** *Taricani* Prerequisite: MUHST 500.

**MUHST 506 Seminar in Baroque Music (3, max. 6)** *Bozarth* Prerequisite: MUHST 500.

**MUHST 508 Seminar in the Viennese Classical Period: 1760–1830 (3, max. 6)** *Bozarth* Prerequisite: MUHST 500.

**MUHST 509 Seminar in Nineteenth-Century Music: 1830–1890 (3, max. 6)** *Bozarth, Rumph* Prerequisite: MUHST 500.

**MUHST 510 Seminar in Music Since 1890 (3, max. 6)** *Starr* Prerequisite: MUHST 500.

**MUHST 515 Seminar in Medieval and Renaissance Notation (5)** *Taricani* Gregorian chant through sixteenth-century prints.

**MUHST 519 Seminar in Modern Editorial Procedures (5)** *Bozarth* Study of modern procedures for preparing critical editions. Related areas of study may include analysis of musical style and historical and performance problems inherent in works being edited.

**MUHST 520 Seminar in American Music (3, max. 6)** *Starr* Research in the life, works, and times of composers in the United States from colonial days to the present. Prerequisite: MUHST 500

**MUHST 537 Seminar on Opera (3, max. 6)** Prerequisite: MUHST 500.

## Near Eastern Languages and Civilization

### DEPARTMENT OVERVIEW

229 Denny

Near Eastern languages and civilization focuses on the languages and civilizations of the Near East with an emphasis on the ancient and medieval roots of these civilizations as well as more recent cultural developments. Each language offered represents a major literary tradition. Arabic, Persian, Turkish, and Central Asian Turkic are the languages of the most significant literary manifestations of Islamic civilization. Hebrew and Aramaic are the languages of the Bible and are central to Judaism and Jewish culture. Egyptian languages (Coptic, Hieroglyphic) and other Mesopotamian and Mediterranean languages (Akkadian, Ugaritic, Phoenician) are important to the ancient and Christian cultures of the Near East. These languages are taught in conjunction with courses on the social, cultural, and religious history of the Near East, providing students with a broad understanding and solid foundation for more advanced studies or professional career development.

### UNDERGRADUATE PROGRAM

#### Adviser

219 Denny, Box 353120

206-685-3743

[nelcua@uw.edu](mailto:nelcua@uw.edu)

The department offers the following programs of study:

- The Bachelor of Arts degree with a major in Near Eastern languages and civilization with options in Near Eastern languages and civilization, Near Eastern culture and civilization, comparative Islamic studies, and Biblical and ancient Near Eastern studies
- A minor in Near Eastern languages and civilization

### Bachelor of Arts

*Suggested First- and Second-Year College Courses:* Courses in any discipline that deals with the Near East. Courses

in writing, history, literature, comparative religion, French, and German are also recommended. Students should begin their studies of Near Eastern languages as soon as possible.

### Department Admission Requirements

Students in good academic standing may declare this major at any time.

### Major Requirements

*Near Eastern Studies—Languages and Civilization*

69 credits as follows:

- Two years of one Near Eastern language, or its equivalent as evidenced by examination
- At least 9 credits in advanced literature or text courses in that language
- NEAR E 210
- One of the following: NEAR E 211, NEAR E 240, or RELIG 210
- An approved program of 20 further credits in courses offered by the department or courses on the Near East offered by other departments, or both

*Near Eastern Studies—Culture and Civilization*

73 credits as follows:

- Two years of one Near Eastern language or its equivalent as evidenced by examination
- NEAR E 210 or (with approval of adviser) NEAR E 220
- One of the following: NEAR E 211, NEAR E 240, or RELIG 210
- An approved program of 20 further credits in Near Eastern courses including at least one course from each of the following areas: Near Eastern civilization, Near Eastern religion, Near Eastern literature in translation
- 8 credits in non-language, upper-division courses related to the Near East in the department or in other departments
- A senior essay on a topic of Near Eastern civilization (5 credits).

*Near Eastern Studies—Comparative Islamic Studies*

70 credits as follows:

- Two years of one of the following languages or its equivalent as evidenced by examination: Arabic, Persian, Turkish, Uzbek, Kazakh, or other appropriate languages with approval of adviser
- NEAR E 210
- NEAR E 212 or NEAR E 240
- An approved program of 10 credits in courses in Islamic religious traditions and texts, and 15 credits in history, society, and culture of Islam
- A senior essay on a topic in comparative Islamic studies (5 credits).

*Near Eastern Studies—Biblical and Ancient Studies*

73 credits as follows:

- Two years of Biblical Hebrew or its equivalent as evidenced by examination (alternatively, a student may satisfy this language requirement by combining a minimum of four quarters of Biblical Hebrew with two quarters of other ancient Near Eastern languages, including Aramaic, hieroglyphic Egyptian, Coptic, Akkadian, second-year Greek, or other appropriate languages as approved by adviser and/or faculty)
- NEAR E 220 and NEAR E 240
- An approved program of 20 credits in courses in ancient Near Eastern history, society and culture, and ancient Near Eastern literature in translation
- 8 credits in non-language, upper-division Near Eastern courses related to the ancient Near East

- A senior essay on a topic in biblical and ancient Near Eastern studies (5 credits).

## Minor

*Minor Requirements:* 25 credits as follows:

- NEAR E 210 or NEAR E 220
- One course from NEAR E 211, NEAR E 240, RELIG 210
- Additional credits from Near Eastern civilization or language courses (may not include language courses at the beginning or intermediate level).

## Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The NELC undergraduate degree offers a liberal arts education with a particular focus on the study of cultures and languages of the Near East and Central Asia. Educational outcomes from this degree serve a broad spectrum of undergraduates, ranging from those intending to begin the acquisition of specific linguistic and cultural proficiencies for the purpose of pursuing some career, academic or otherwise, related to these regions, to students for whom the Near East and/or Central Asia are regions with histories and cultures that are of special intellectual or personal interest. Students often combine Near Eastern studies as a double major with some other degree program that may be in a quite different discipline. For these students the NELC undergraduate major offers the important opportunity, as a core element in a broader liberal arts education, for expanding their cultural vision and understanding in ways made possible only through serious study of a language and literature other than one's own. Graduates from the B.A. degree have followed a wide range of post-baccalaureate paths, including further graduate study in the humanities or social sciences, professional degree programs in law or medicine, and employment with government or non-governmental organizations.
- *Instructional and Research Facilities:* The department draws on collections of books, serials, and other resources in the UW libraries that are unusually rich in the quantity and quality of items relating to Near Eastern and Central Asian languages and cultures. Students in the department's language classes make use of the University's well-equipped Language Learning Center.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Undergraduate research is carried out under the supervision of faculty members. Students can also undertake research and internship opportunities while studying abroad.
- *Department Scholarships:* See departmental website for most current information.
- *Student Organizations/Associations:* There are no formal student organizations in the department, but the department frequently sponsors educational and cultural events organized by students and faculty involved in interest groups such as the Central Asian Circle or the Persian Circle.

## GRADUATE PROGRAM

### Graduate Program Coordinator

M25 Denny, Box 353120

206-543-6033

[neareast@uw.edu](mailto:neareast@uw.edu)

## Master of Arts

The Department of Near Eastern Languages and Civilization offers a graduate program of studies leading to the Master of Arts degree. The program is designed to provide students with advanced training in at least one Near Eastern language and in a specific field of specialization. Students may concentrate in Arabic, Hebrew, Persian, Turkish, or Central Asian Turkic and may choose as their field of specialization a civilization or literature related to their language of concentration. The program is intended not only for those students who wish to continue their studies at the doctoral level but also for students who wish to pursue careers in government or business.

### Admission Requirements

- Statement of purpose
- Sample of written academic work
- Three letters of recommendation, of which at least two must attest to scholarly ability
- Official transcripts from all collegiate institutions attended
- Although knowledge of a Near Eastern language is not a prerequisite for admission, applicants are generally expected to have had the equivalent of two years' study of the language in which they plan to concentrate.
- A bachelor's degree from an accredited institution
- A minimum GPA of 3.00 or B for last 90 quarter (60 semester) credits
- GRE scores
- TOEFL scores for International Students

### Degree Requirements

36 credits, as follows:

- Reading knowledge of French or German; or, with the prior approval of the student's MA committee, any other language pertinent to the research in the student's field of study. Normally, to satisfy this requirement, the student must pass a reading exam before beginning the second year of study towards the MA
- A seminar paper representing the student's best work
- Coursework determined in consultation with MA committee to prepare for written examinations.
- A written examination consisting of four parts: (1) general culture of the Near East, (2) student's field of specialization, (3) student's language of concentration, (4) second Near Eastern language related to the language of concentration.

## Doctor of Philosophy

Some of the department faculty are part of an interdisciplinary faculty group which offers doctoral study in Near and Middle Eastern studies. The program is located administratively within the Graduate School. See the Interdisciplinary Graduate Degree Programs section of this catalog.

## Summer Programs

The department offers summer intensive language programs in Arabic, Hebrew, and Central Asian languages (Uzbek, Kazakh, Tajik, and others).

## Research Facilities

The University of Washington libraries hold an extensive collection of books and materials in the languages of the Near East, the Turkic regions of Central Asia, and in European languages on Near Eastern and Central Asian Turkic subjects. Candidates for the master's degree as well as doctoral students find in the collection adequate resources for their research. The library participated in the Library of Congress Middle East Cooperative program for the acquisition of Arabic serials, and the Library of Congress Coop-

erative program for Pakistan for the purchase of Persian books and serials. The library staff includes Near East and Central Asia specialists responsible for acquiring and cataloging the collection. The library maintains book exchanges with the Central Asian republics, handled through the Near East and Slavic sections of the University's Suzzallo Library, some exchanges beginning as early as 1961. Among its staff are an exchange librarian and a specialist trained in Central Asian Turkic languages. A book exchange with Xinjiang is administered through the East Asia Library.

## Financial Aid

A limited number of teaching assistantships are available for graduate students in the department who are fluent in speaking and writing a Near Eastern language. A limited number of graduate fellowships are also available.

## Exchange Agreements

The department participates actively in exchange programs involving institutions abroad, sending students for language and cultural study and research to a variety of locations, and training many students from institutions overseas. Students take advantage of existing formal UW exchange agreements with several universities in North Africa and the Middle East, such as American University in Cairo; Al-Akhawayn University in Ifrane, Morocco; Yarmouk University and Mu'tah University in Jordan; American University in Beirut; Hebrew University in Jerusalem; and Bogazici University in Istanbul. There have also been department-level exchange agreements with Xinjiang University in Urumchi, China (for Uighur, Kazakh, Kirghiz), or institutions in Central Asia such as Tashkent State University, the Humanities University of Bishkek, Kyrgyzstan, or Kyrgyz State National University, Bishkek. NELC students also study at other institutions in which there are not currently formal exchanges, such as the University of Damascus (for the study of Arabic and related subjects).

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crsctat/](http://www.uw.edu/students/crsctat/)

## Arabic

**ARAB 199 Study Abroad (1-12. max. 15)** Credit for elementary or intermediate Arabic in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSps.

**ARAB 399 Study Abroad (1-12. max. 15)** Credit for elementary or intermediate Arabic in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSps.

**ARAB 401 Intensive Elementary Arabic (15)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 411, 412, 413 taken.) If Arabic is the student's language of admission, only 10 credits count towards graduation. Offered: S.

**ARAB 411 Elementary Arabic (5)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 401 taken.). First in a sequence of three.

**ARAB 412 Elementary Arabic (5)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 401 taken.) Second in a sequence of three. Prerequisite: ARAB 411.

**ARAB 413 Elementary Arabic (5)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 401 taken.) Third in a sequence of three. Prerequisite: ARAB 412.

**ARAB 414 Spoken Arabic (3)** Study of grammar with emphasis on oral drill in modern spoken Arabic (Western or Eastern). First in a sequence of three.

**ARAB 415 Spoken Arabic (3)** Study of grammar with emphasis on oral drill in modern spoken Arabic (Western or Eastern). Second in a sequence of three.

**ARAB 416 Spoken Arabic (3)** Study of grammar with emphasis on oral drill in modern spoken Arabic (Western or Eastern). Third in a sequence of three.

**ARAB 421 Intermediate Arabic (5) VLPA** Reading of selected texts in standard Arabic, with continuing emphasis on grammar and syntax. First in a sequence of three. Prerequisite: either ARAB 401 or ARAB 413.

**ARAB 422 Intermediate Arabic (5) VLPA** Reading of selected texts in standard Arabic, with continuing emphasis on grammar and syntax. Second in a sequence of three. Prerequisite: ARAB 421.

**ARAB 423 Intermediate Arabic (5) VLPA** Reading of selected texts in standard Arabic, with continuing emphasis on grammar and syntax. Third in a sequence of three. Prerequisite: ARAB 422.

**ARAB 424 Intensive Intermediate Arabic (15) VLPA** Equivalent to one year of study of standard Arabic at intermediate level. Extension of knowledge in grammar, syntax and vocabulary, and skills in reading, writing, and conversation. May not be taken for credit if ARAB 421, 422, 423 previously taken for credit. Prerequisite: either ARAB 401 or ARAB 413. Offered: S.

**ARAB 431 Advanced Arabic (5) VLPA** Focus on Arabic at the advanced level through in-depth examination of grammar, reading of selected texts, and brief surveys of some major reference materials. First in a sequence of three. Prerequisite: either ARAB 423 or ARAB 424.

**ARAB 432 Advanced Arabic (5) VLPA** Focus on Arabic at the advanced level through in-depth examination of grammar, reading of selected texts, and brief surveys of some major reference materials. Second in a sequence of three. Prerequisite: ARAB 431.

**ARAB 433 Advanced Arabic (5) VLPA** Focus on Arabic at the advanced level through in-depth examination of grammar, reading of selected texts, and brief surveys of some major reference materials. Third in a sequence of three. Prerequisite: ARAB 432.

**ARAB 451 Adab Prose: Jahiz (3) VLPA** Readings in early Arabic prose. Prerequisite: ARAB 423.

**ARAB 452 Maqamat: Hamadhani, Hariri (3) VLPA** *MacKay* Reading of several maqamat (essays in rhymed prose) of al-Hamadhani and al-Hariri. Examination of the maqamat genre as a whole. Prerequisite: ARAB 423.

**ARAB 453 Historical Texts (3) I&S/VLPA** Readings in Arab historians with particular reference to scholars such as Tabari, Ibn al-Jawzi, and Ibn al-Athir. Prerequisite: ARAB 423.

**ARAB 454 Quran and Its Interpretation (3) VLPA** Reading of selected passages from the Quran in relation to their interpretation in classical commentaries (tafsir) and in legal texts (ahkam al-Quran). Focus on the various types of classical scholarship applied to the text of the Quran (ulum al-Quran). Prerequisite: ARAB 423.

**ARAB 455 Ritual and Legal Texts (3) VLPA** Selected readings from well-known Islamic legal texts (furu al-fiqh) with attention to the sources of the law and methods of exegesis (usul al-fiqh). Prerequisite: ARAB 423.

**ARAB 456 Islamic Political Theorists (3) I&S/VLPA** Readings from the main political theorists: al-Baghdadi, al-Mawardi, and Ibn Khaldun. Prerequisite: ARAB 423.

**ARAB 457 Grammatical and Lexical Texts (3) VLPA** Introduction to concepts and terminology of Arabic grammar and lexicography through readings from scholars such as Sibawayh, Ibn Aqil, and Ibn Manzur. Prerequisite: ARAB 423.

**ARAB 458 Modern Poetry (3) VLPA** *DeYoung* Neoclassical poetry of the nineteenth and twentieth centuries, and the development of modern verse. Prerequisite: ARAB 423.

**ARAB 459 Islamic Philosophical Literature (3) I&S/VLPA** Reading of selected texts by representative Islamic philosophers. Prerequisite: ARAB 423.

**ARAB 460 Islamic Theological and Mystical Literature (3) VLPA** Reading of selected texts representative of Islamic theological and mystical schools. Prerequisite: ARAB 423.

**ARAB 461 Modern Prose (3) VLPA** *DeYoung* Modern essays, fiction, and ideological writings. Prerequisite: ARAB 423.

**ARAB 462 Sirah and Maghazi Texts (3) I&S/VLPA** Reading and discussion of selected historical texts devoted to the life of the Prophet Muhammad, such as Ibn Ishaq, Ibn Hisham, al-Waqidi, Ibn Sa'd, and al-Bayhaqi. Some attention to related genres and contemporary scholarship. Prerequisite: ARAB 423.

**ARAB 470 Stories of the Prophets (3) I&S/VLPA** Reading and discussion of Jewish and Islamic exegesis of selected Biblical and Quranic narratives dealing with such figures as Moses, Abraham, Jacob, or Adam and Eve. Prerequisite: either ARAB 423 or HEBR 423.

**ARAB 490 Supervised Study (1-6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: ARAB 423.

**ARAB 496 Special Studies in Arabic (3-5, max. 15) VLPA** Topics vary. Offered occasionally by visiting or resident faculty.

**ARAB 499 Undergraduate Research (1-6, max. 18)**

**ARAB 596 Special Studies in Arabic (3-5, max. 15)** Topics vary. Offered occasionally by visiting or resident faculty.

**ARAB 600 Independent Study or Research (\*)**

## Aramaic

**ARAMIC 411 Syriac (3)** *Walker* Beginning Syriac including basic grammar and vocabulary with selected readings from simple prose passages and poetry selected from early Christian and other late antique writings. No previous study of Aramaic required. First in a sequence of two. Offered: A.

**ARAMIC 412 Syriac (3)** *Walker* Beginning Syriac including basic grammar and vocabulary with selected readings from simple prose passages and poetry selected from early Christian and other late antique writings. No previous study of Aramaic required. Second in a sequence of two. Offered: W.

**ARAMIC 421 Biblical Aramaic (5) VLPA** *Noegel* Fundamentals of Aramaic grammar and the differences that distinguish Aramaic from Hebrew, includes select Aramaic portions of the Bible. Emphasis on grammar and comprehension. Designed for students with some knowledge of Hebrew. Prerequisite: HEBR 402 or HEBR 426.

**ARAMIC 423 Readings in Syriac (3) VLPA** *Walker* Readings from selected passages in Biblical and Christian literature with emphasis on writings of late antique and medieval Christian communities of Syria, Iraq, and Iran until the Mongol invasions. Prerequisite: ARAMIC 412. Offered: Sp.

## Egyptian

**EGYPT 411 Introduction to Coptic (5)** *Williams* Elements of grammar of the Sahidic dialect of the Coptic language.

**EGYPT 422 Readings in Coptic (3) VLPA** *Williams* Readings from ancient Coptic Christian literature, with emphasis on the *Nag Hammadi* texts. Prerequisite: EGYPT 411.

**EGYPT 423 Readings in Coptic (3) VLPA** *Williams* Readings from ancient Coptic Christian literature, with emphasis on the *Nag Hammadi* texts. Prerequisite: EGYPT 411.

## Hebrew

**HEBR 199 Study Abroad (1-12, max. 15)** Credit for elementary Hebrew in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**HEBR 399 Study Abroad (1-12, max. 15)** Credit for intermediate Hebrew in an approved study abroad program.

Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**HEBR 401 Intensive Elementary Modern Hebrew (15)** Intensive study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 411, 412, 413 taken.) Offered: S.

**HEBR 402 Intensive Elementary Biblical Hebrew (15) VLPA** Intensive study of grammar with oral and written drills and reading of simple texts. Cannot be taken for credit if HEBR 414, HEBR 415, HEBR 426 has been taken previously. Offered: S.

**HEBR 411 Elementary Modern Hebrew (5)** *Sokoloff* Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if 401 taken). First in a sequence of three.

**HEBR 412 Elementary Modern Hebrew (5)** *Sokoloff* Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if 401 taken). Second in a sequence of three. Prerequisite: HEBR 411.

**HEBR 413 Elementary Modern Hebrew (5)** *Sokoloff* Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if 401 taken). Third in a sequence of three. Prerequisite: HEBR 412.

**HEBR 414 Elementary Biblical Hebrew (5)** *Noegel* Offers an inductive introduction to the biblical Hebrew language. Covers the basics of Hebrew grammar while reading the stories of Joseph in the book of Genesis. No prior knowledge of Hebrew necessary.

**HEBR 415 Elementary Biblical Hebrew (5)** *Noegel* Continues the inductive introduction to the biblical Hebrew language begun in HEBR 414. Moves beyond the textbook and into select portions of the Hebrew Bible. Prerequisite: HEBR 414.

**HEBR 421 Intermediate Modern Hebrew (5) VLPA** *Sokoloff* Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. First in a sequence of three. Prerequisite: either HEBR 401 or HEBR 413.

**HEBR 422 Intermediate Modern Hebrew (5) VLPA** *Sokoloff* Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Second in a sequence of three. Prerequisite: HEBR 421.

**HEBR 423 Intermediate Modern Hebrew (5) VLPA** *Sokoloff* Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Third in a sequence of three. Prerequisite: HEBR 422.

**HEBR 426 Biblical Hebrew Prose (5) VLPA** *Noegel* Explores select prose sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: HEBR 415.

**HEBR 427 Biblical Hebrew Poetry (5) VLPA** *Noegel* Explores select poetic sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: either HEBR 402 or HEBR 426.

**HEBR 428 Inscriptions from Biblical Times (5) VLPA** *Noegel* Surveys Northwest Semitic inscriptions that bear significantly on our understanding of Biblical history and ancient Hebrew including the Moabite stone, Israelite ostraca, Siloam engraving, Gezer calendar, Deir Alla (Gilead) inscriptions, the Asherah texts, Ammonite fragments, and Phoenician monuments. Prerequisite: HEBR 402 or HEBR 426.

**HEBR 451 Introduction to Hebrew Literature (3) VLPA Sokoloff** Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts-short poetry, fiction, and essays-with some selections as well from biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: HEBR 423.

**HEBR 452 Introduction to Hebrew Literature (3) VLPA Sokoloff** Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts-short poetry, fiction, and essays-with some selections as well from biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: HEBR 423.

**HEBR 453 Introduction to Hebrew Literature (3) VLPA Sokoloff** Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts-short poetry, fiction, and essays-with some selections as well from biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: HEBR 423.

**HEBR 454 Hebrew Poetry (3) VLPA Sokoloff** Selections of poetry by prominent twentieth-century Hebrew poets whose texts comment or elaborate on biblical texts. Original source considered side-by-side with modern poetry, to examine ways recent literature models itself on, draws upon, and revises traditional sources. Prerequisite: HEBR 423.

**HEBR 455 Hebrew Fiction (3) VLPA Sokoloff** Selections of fiction by prominent modern Hebrew writers, including S.Y. Agnon, Aharon Appelfeld, David Shahar, Aharon Megged, and others. Prerequisite: HEBR 423.

**HEBR 456 Hebrew Poems and Prayers (3) VLPA Sokoloff** Examines modern Hebrew poems side by side with texts from the traditional Jewish liturgy, analyzing how contemporary writers have drawn on classical sources to reflect on matters of faith and the language of prayer. Prerequisite: HEBR 423.

**HEBR 457 Hebrew in Song (3) VLPA Sokoloff** Selections of Israeli folksong, pop, rock, children's songs, and musika mizrahit. While building vocabulary and improving dictionary and composition skills, students examine the role of popular song in the construction of modern Hebrew culture and Israeli identity. Prerequisite: HEBR 423

**HEBR 470 Stories of the Prophets (3) I&S/VLPA** Reading and discussion of Jewish and Islamic exegesis of selected Biblical and Quranic narratives dealing with such figures as Moses, Abraham, Jacob, or Adam and Eve. Prerequisite: either ARAB 432 or HEBR 423. Offered: jointly with ARAB 470.

**HEBR 490 Supervised Study (1–6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: HEBR 423.

**HEBR 496 Special Studies in Hebrew (3–5, max. 15)** Topics vary.

**HEBR 499 Undergraduate Research (1–6, max. 18)**

**HEBR 596 Special Studies in Hebrew (3–5, max. 15)** Topics vary.

**HEBR 600 Independent Study or Research (\*)**

## Near Eastern Languages and Civilization

**NEAR E 150 Israel: Dynamic Society and Global Flashpoint (5) I&S Barzilai, Burstein, Migdal, Pianko, Sokoloff** Introduces the people, institutions, and culture of Israel in the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture. Offered: jointly with SIS 150.

**NEAR E 199 Study Abroad (1–12, max. 15)** Credit for 200-level NEAR E courses in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSps.

**NEAR E 205 Religion, Violence, and Peace: Patterns Across Time and Tradition (5) I&S Noegel, Wellman** Investigates

the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with HUM/RELIG 205; W.

**NEAR E 210 Introduction to Islamic Civilization (5) I&S/VLPA** Major developments in Islamic civilization from advent of Islam in seventh century to present. Islamic history, law, theology, and mysticism, as well as the politics, cultures, and literatures of the various Islamic societies. Offered: jointly with SISME 210.

**NEAR E 211 Islam (5) I&S/VLPA** Introduction to important cultural and historical aspects of Islam, focusing on basic concepts and developments such as prophethood, Quran and Hadith, canon and law, ritual, social theory, Sufism, theology, and sectarianism. Special attention to comparison of varied Muslim practices and beliefs, and their relation to textual and personal authority. Offered: jointly with RELIG 211.

**NEAR E 212 Introduction to the Quran (5) I&S/VLPA** Emphasis on the historical context of the Quran, the history of the text, its collection, organization, and interpretation. In English. Offered: jointly with RELIG 212.

**NEAR E 213 Introduction to the Modern Middle East (5) I&S** Major social and political trends in the Middle East during the 18th, 19th, and 20th centuries. Basic principles of Islam and its diversity, changing balance of power during the early modern period; European colonialism and withdrawal; pan-Arabism, nationalism, feminism and religious resurgence. Offered: jointly with SISME 213.

**NEAR E 220 Introduction to the Ancient Near East (5) I&S/VLPA Noegel** Surveys the peoples, places and events of the ancient Near East. Examines the cultures of Mesopotamia, Egypt, Canaan, and Israel with an eye to each culture's cultural contributions. Pays special attention to shared cultural elements as well as distinguishing characteristics of the peoples of these regions.

**NEAR E 221 Digital Egypt (3) I&S/VLPA** Uses technology to explore themes surrounding the study of Egypt, from ancient times through the early Islamic period. Intended as a broad interdisciplinary introduction to Egypt's history and cultural legacy.

**NEAR E 230 Themes in Near Eastern Literature (5) VLPA, I&S** Significant and interesting aspects of Near Eastern culture and society as represented by literary themes. Aspects of Near Eastern life and art such as women, minority groups, mysticism, and modern literature. Content varies.

**NEAR E 240 Introduction to the Hebrew Bible: Old Testament (5) I&S/VLPA** Examines the Hebrew Bible (Old Testament) in translation and its relationship with literatures of ancient Near East. Comparisons drawn between biblical text and literary works of Canaan, Egypt, Greece, Mesopotamia. Emphasis on the sophisticated literary techniques employed by biblical writers. Offered: jointly with RELIG 240.

**NEAR E 242 Cultural History of Turkey: From Empire to Nation (5) I&S/VLPA** Topics include: social, economic, and political structures of Ottoman and Turkish Anatolia; language, literature, and artistic tradition; social status of women, literacy and illiteracy, the secular enterprise of Kemal Ataturk; Islamic fundamentalism, educational institutions, Kurdish nationalism. Offered: W.

**NEAR E 250 Iranian Culture and Civilization (5) I&S/VLPA** Explores the culture and civilization of this Middle Eastern society through a multi-disciplinary approach that includes such manifestations as architecture, carpet-weaving, storytelling, and the composition of poetry.

**NEAR E 251 Jewish Life in Literature and Film (3) I&S/VLPA** Major themes of Jewish life treated in modern narrative and cinema. Topics include religious tradition and modernity. Jewish immigration to America, responses to the Holocaust and Zionism.

**NEAR E 310 Modern Near Eastern Literatures in English Translation (3) VLPA** Contemporary cultures of the Middle

East studied through exposure to a representative sample of their literary work. Texts selected address major issues in Middle Eastern societies, e.g. tradition versus modernity, national identity and the challenge of the West, Arab-Israeli conflict.

**NEAR E 325 Modern Hebrew Literature in English (3) VLPA Sokoloff** Major developments in Hebrew literature from the Enlightenment to the current Israeli literature.

**NEAR E 326 Israeli Identities (5) VLPA Sokoloff** Examines fiction and film, as well as selected poetry, popular songs, and essays, to explore diverse groups within contemporary Israeli society. Topics include the sabra ideal, holocaust survivors, Sephardic/Mizrahi communities, religious and secular Jews, Israel's Arab minority, and questions of gender.

**NEAR E 363 Oral Literature of the Turkic Peoples of Central Asia I: the Heroic Epos (3) VLPA Cirtautas** Representative heroic poems of Central Asian Turkic peoples now living in the Central Asian Republics and China. Origin of the heroic epos, its relation to the romantic epos and other oral literary genres. Art of the singer and his role in nomadic Turkic society. Emphasis on *Manas*, the monumental epos of Kirghiz.

**NEAR E 364 Islam and Muslims in China (5) I&S** Introduces the lived experiences of Muslims in contemporary China. Examines Muslims' understanding of their faith; the relationship of Islam to the political, economic, and social lives of Muslims; how Islam shapes people's sense of culture and identity; and unity and diversity of various Chinese Muslim communities.

**NEAR E 375 Turkic Peoples of Central Asia (3) I&S Cirtautas** History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with SIS 377.

**NEAR E 399 Study Abroad (1–12, max. 15)** Credit for NEAR E 200–400 level courses in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSps.

**NEAR E 402 Classical Arabic Literature in Translation (3) VLPA DeYoung** Examines development of Arabic literature from its beginnings through the fall of the Abbasid dynasty to the Mongols. Coincides with period when Arabic language and literature were dominant forces in Islamic civilization. Topics include: impact of Islam on the literature, courtly love, mystical poetry, the Thousand-and-One Nights, and Hispano-Arabic literature. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 403 Colonialism, Nationalism, and the Modern Arabic Novel (3) I&S/VLPA DeYoung** Examines how representative novels from the modern canon in Arabic have both endorsed and critiqued aspects of nationalism and colonialist ideology. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 410 Middle East Through Cinema (3) VLPA** Analyzes the function of cinema in shaping communal and individual identities in Middle Eastern cultures. Examines topics including religious transformation, violence, identity, gender, immigration, and exile through film screenings, discussions, and supplementary readings.

**NEAR E 411 Digital Media: The Middle East and Central Asia (5) VLPA Waters** Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

**NEAR E 420 Islamic Theological Literature in English (3) VLPA** Readings from Mu'tazilite and Ash'arite works and from traditionalist works opposed to theology.

**NEAR E 421 Islamic Mystical Literature in English (3) VLPA** Readings from the works of principal Sufi writers and poets. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 422 Islamic Philosophical and Scientific Literature in English (3) VLPA** Readings in philosophy, the physical sciences, and medicine.

**NEAR E 423 Persian Literature in Translation (3) VLPA** Designed to familiarize students with an expanding collection of works translated from Persian literature, both classical and modern, into English. Focuses on a few representative texts and offers interpretations of the culture through close readings. Prior acquaintance with Iranian culture not required.

**NEAR E 425 Current Trends in Modern Near Eastern Literature and Criticism (3) VLPA** Modern literary tradition of the Near East with emphasis on major literary movements and/or genres and literary criticism in the modern period. The literatures of the Arab world, Persia, Turkey, and Israel are considered in alternate quarters.

**NEAR E 430 Scripture and Law in Islam (5) I&S/VLPA** Examines concept and use of scripture in Islam, with special attention to issues of canon and commentary, heavenly books, talismanic uses, and the place of scripture in ritual. In English. Offered: jointly with RELIG 430.

**NEAR E 432 Ritual and Territory in Islam (5) I&S/VLPA** Comparative study of Islamic ritual practices and related development of jurisprudence and law. Focus on sacrifice, political and social legal theory, pilgrimage, regulation of the body, and the diversity of contemporary practices. In English. Offered: jointly with RELIG 432.

**NEAR E 433 Life of Prophet Muhammad (5) I&S/VLPA** Examines historical and religious traditions associated with the life of the Prophet Muhammad with particular attention to the biography in classical Islam. Focuses on Muhammad as prophet, holy man, law-giver, mystic, and statesman. Comparison with other religious figures such as Jesus and the Buddha. In English. Offered: jointly with RELIG 433.

**NEAR E 435 Major Trends in Modern Arabic Fiction (3) VLPA** *DeYoung* Development of Arabic prose fiction from the end of the nineteenth century to the present. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 436 Arab American Writers (3) I&S/VLPA** *DeYoung* Explores the influence of Arab American writing both in the United States and the Arab world during the nineteenth and twentieth centuries. Discusses issues of emigration to the United States from the Arab world and its impact on the formation of a distinctive Arab American identity. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 437 Thousand and One Nights (3) VLPA** *DeYoung* An examination of the major story cycles of the Thousand and One Nights collection, in its social and historical context. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 440 Calligraphy in Islamic Culture (3) VLPA** Survey of the esthetics, uses, interpretations of artistic writing in Islamic culture with a "hands on" approach to recognizing, appreciating, and creating Arabic script calligraphy. Students need not know Arabic script nor have calligraphic talents, although some familiarity with Islamic civilization is helpful.

**NEAR E 441 Literature and the Holocaust (5) VLPA** *Sokoloff* Examines fiction, poetry, memoir, diaries, monuments, film, and pop culture from several languages and cultural milieus, with emphases on English and Hebrew. Topics include survivor testimony, shaping of collective memory, the second generation, Holocaust education and children's literature, gender and the Holocaust, and fantasy and humor as responses to catastrophe. Offered: jointly with C LIT 441.

**NEAR E 442 Turkish Literature in Translation (3) VLPA** Covers major theoretical issues concerning Ottoman court literature and Turkish epic and troubadour poetry. Major writers and works of modern Turkish literature read and analyzed in their social, political, and theoretical contexts. Previous study of Turkish literature not required.

**NEAR E 443 The Word and the Empire: Reading Ottoman Literature (3-5) I&S/VLPA** *Kuru* Approaches Ottoman literature through translations and scholarly articles in English. Evaluates this particular literary tradition as an imperial pro-

duction, through an analysis and critical reading of course materials.

**NEAR E 450 Survey of the Cultures of the Turkic Peoples of Central Asia (3) I&S/VLPA** *Cirtautas* Nomadic and sedentary cultures of the Turkic peoples of Central Asia. Emphasis on language, literature, and adherence to traditional modes of life. Offered: jointly with SISRE 450.

**NEAR E 451 Pharaonic Egypt in the Context of the Ancient Near East (3) I&S/VLPA** *Noegel* Surveys the history, literature, and archaeology of ancient Egypt from the first pharaohs to the conquest of Alexander the Great. Introduces the field of Egyptology, and focuses on the continuity of Egyptian history and culture in context. Slide presentations supplement the readings and in-class lectures.

**NEAR E 452 The Biblical Song of Songs (3) VLPA** *Noegel* Examines the erotic and beautiful Song of Songs within the context of ancient (and medieval) Near Eastern love poetry and correlates close readings of the book with various interpretations it has received from antiquity until today. No knowledge of Hebrew or the Bible is required. Offered: jointly with SISJE 452.

**NEAR E 453 The Biblical Prophets (3) I&S/VLPA** *Noegel* Explores the biblical prophets (in translation) within their Near Eastern contexts. Studies them for their historicity, literary and rhetorical sophistication, and ideological agendas. Seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible is required. Offered: jointly with SISJE 453.

**NEAR E 454 Israel: The First Six Centuries BCE (3) I&S/VLPA** *Noegel* Traces the Israelites, from the Babylonian destruction of the Jerusalem Temple (586 BCE) to events following the destruction of the second Temple (1st century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible is required. Offered: jointly with SISJE 454.

**NEAR E 455 The Kings of Monarchic Israel (3) I&S/VLPA** *Noegel* Examines the biblical accounts (in translation) concerning the formation and collapse of the united Israelite monarchy. Investigates the archaeological and textual evidence for their historicity, the literary sophistication of these accounts, and Israelite kingship within the wider context of the ancient Near East. No knowledge of the Bible is required. Offered: jointly with SISJE 455.

**NEAR E 457 The History of Biblical Interpretation (3) I&S/VLPA** *Noegel* Traces biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a "hands-on" approach to the material and explores various hermeneutics by applying them in class. Offered: jointly with RELIG 457.

**NEAR E 458 The Babylonian Talmud (3/5) VLPA/I&S** *Jaffee* Introduction to the Babylonian Talmud, the classic collection of rabbinic literature. Literary and historic methodologies contextualize the Talmud in the setting of other ancient religious literatures and track the processes of its literary development. Offered: jointly with SISJE 458.

**NEAR E 472 Peoples and Cultures of Central and Inner Asia (5) I&S** *Mawkanuli* Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang - Eastern Turkestan, Tibet and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 422/SISRE 472.

**NEAR E 490 Supervised Study (1-6, max. 18)** Special work in Near Eastern studies for graduates and undergraduates.

**NEAR E 491 Methodologies in Near Eastern Studies (5)** Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, impe-

rial and nationalist social systems, and ideological frameworks, such as Orientalism. Offered: jointly with SISME 491.

**NEAR E 495 Trends in the Contemporary Middle East (3) I&S** *Bacharach, De Young* Perspectives on cultural, political, and other aspects of Middle Eastern societies. Focuses on background complexities rather than immediate political-military confrontations. Topics vary. Offered: jointly with SISME 495.

**NEAR E 496 Special Studies in Near Eastern Languages and Civilization (3-5, max. 15) VLPA** Offered occasionally by visitors or resident faculty. Content varies.

**NEAR E 498 Senior Essay (5) I&S/VLPA** Supervised individual research and writing of a major paper during the senior year. Offered: AWSp.

**NEAR E 499 Undergraduate Research (1-6, max. 18)**

**NEAR E 510 Middle East Through Cinema (3)** Analyzes the function of cinema in shaping communal and individual identities in Middle Eastern cultures. Examines topics including religious transformation, violence, identity, gender, immigration, and exile through film screenings, discussions, and supplementary readings.

**NEAR E 511 Digital Media: The Middle East and Central Asia (5)** *Waters* Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

**NEAR E 520 Seminar on Near Eastern Civilization and Thought (3, max. 27)** Content varies.

**NEAR E 521 Research Methods (3)** Introduction to research in Islamic civilization. Research methods, primary sources, evidence and documentation, reference works, transliteration systems, scholarly writing style.

**NEAR E 522 Islamic Theology (3)** Various schools of Islamic theology.

**NEAR E 523 Islamic Philosophy (3)** Various topics and problems dealt with by the Islamic philosophers.

**NEAR E 524 Islamic Law (3)** Selected topics in Islamic law that highlight major aspects of Islamic civilization. Offered: jointly with LAW B 556.

**NEAR E 525 Islamic Institutions (3)** Islamic institutions of the caliphate, the sultanate, the bureaucracy, taxation, mosques, and madrasahs, as well as theories of government.

**NEAR E 530 Seminar on Near Eastern Literature (3, max. 27)** Prerequisite: reading knowledge of at least one Near Eastern language. Content varies.

**NEAR E 531 Proseminar in Literary Analysis (3, max. 9)** Introduction to the theory and techniques of the study of literature in general and Near Eastern literatures in particular. Content varies. Prerequisite: reading knowledge of at least one Near Eastern language.

**NEAR E 532 Theory and Practice in Modern Near Eastern Literature (3)** Application of literary theory to works of modern Near Eastern literature. Concentrates on one major theory each year. Content varies.

**NEAR E 533 Islamic Poetry and Poetics (3)** Detailed introduction to prosody and rhyme in classical Arabic and Persian, followed by critical analysis of selected texts. Prerequisite: advanced level of Arabic or Persian; some knowledge of the other recommended.

**NEAR E 564 Islam and Muslims in China (5) I&S** Introduces the lived experiences of Muslims in contemporary China. Examines Muslims' understanding of their faith; the relationship of Islam to the political, economic, and social lives of Muslims; how Islam shapes people's sense of culture and identity; and unity and diversity of various Chinese Muslim communities.

**NEAR E 591 Methodologies in Near Eastern Studies (5)** Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, impe-

rial and nationalist social systems, and ideological frameworks, such as Orientalism.

**NEAR E 596 Special Studies in Near Eastern Languages and Civilization (3–5, max. 15)** Offered occasionally by visitors or resident faculty. Content varies.

**NEAR E 600 Independent Study or Research (\*)**

## Persian

**PRSAN 199 Study Abroad (1–12, max. 15)** Credit for elementary Persian in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**PRSAN 399 Study Abroad (1–12, max. 15)** Credit for elementary or intermediate Persian in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**PRSAN 401 Intensive Elementary Persian (15) VLPA** *Papan-Matin* Intensive study of grammar with oral and written drills and reading of simple texts. Cannot be taken for credit if PRSAN 411–413 has been taken previously. Offered: S.

**PRSAN 402 Intensive Elementary Tajik (15)** Intensive study of grammar with oral and written drill and reading of selected texts in Tajik, the literary language spoken and written in the Central Asian Republic of Tajikistan. Offered: S.

**PRSAN 404 Intensive Persian for Native Speakers (15) VLPA** Enables students with a degree of proficiency in spoken Persian to read and write, to translate rudimentary texts, and to conceptualize the use of the formal style of composition. Reading, writing, and comprehension, particularly of handwritten manuscripts of the scribal tradition. Also covers calligraphy, translation, journalistic prose, and other facets of the language and the script. Offered: S.

**PRSAN 411 Elementary Persian (5)** Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. First in a sequence of three.

**PRSAN 412 Elementary Persian (5)** Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Second in a sequence of three. Prerequisite: PRSAN 411.

**PRSAN 413 Elementary Persian (5)** Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Third in a sequence of three. Prerequisite: PRSAN 412.

**PRSAN 421 Intermediate Persian (5) VLPA** Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. First in a sequence of three. Prerequisite: PRSAN 413.

**PRSAN 422 Intermediate Persian (5) VLPA** Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Second in a sequence of three. Prerequisite: PRSAN 421.

**PRSAN 423 Intermediate Persian (5) VLPA** Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Third in a sequence of three. Prerequisite: PRSAN 422.

**PRSAN 431 Advanced Persian (3) VLPA** Designed to improve reading and writing skills. Graded reading and writing and exposure to the writing system, textual history, newspaper reading, and translation. Cultural materials presented as

appropriate. The art of calligraphy introduced. For students with a degree of proficiency in spoken Persian. First in a sequence of three. Prerequisite: PRSAN 423.

**PRSAN 432 Advanced Persian (3) VLPA** Designed to improve reading and writing skills. Graded reading and writing and exposure to the writing system, textual history, newspaper reading, and translation. Cultural materials presented as appropriate. The art of calligraphy introduced. For students with a degree of proficiency in spoken Persian. Second in a sequence of three. Prerequisite: PRSAN 431.

**PRSAN 433 Advanced Persian (3) VLPA** Designed to improve reading and writing skills. Graded reading and writing and exposure to the writing system, textual history, newspaper reading, and translation. Cultural materials presented as appropriate. The art of calligraphy introduced. For students with a degree of proficiency in spoken Persian. Third in a sequence of three. Prerequisite: PRSAN 432.

**PRSAN 451 Introduction to Persian Literature (3) VLPA** Selected texts from modern and classical Persian poetry and prose. Provides insights into Iranian culture and its past and present achievements in literature. Prepares the student for a more comprehensive and critical study of Persian literature. Prerequisite: PRSAN 423.

**PRSAN 452 Modern Persian Literature: A Survey (3) VLPA** Development of poetry and prose after Iran felt and absorbed the impact of Western cultures. Periods and genres. Works of such authors as Jamalzadeh, Hedayat, Deh-koda, Al-e Ahmad, Nima, Sepehri, and Forugh. Prerequisite: PRSAN 423.

**PRSAN 453 Classical Persian Literature: A Survey (3) VLPA** History of Persian literature from Rudaki to Hafiz. Studies epic, lyric, and mystic traditions placed in historical settings. Covers the most important genres such as the Qasida, the Ghazal, the *Ruba'i* and the *Masnawi*. Prerequisite: PRSAN 423.

**PRSAN 454 The Epic Tradition in Iran (3) VLPA** Focuses on the Shahnameh of Firdawsī: explores the ancient legends that gave rise to it and follows the fortunes of epic poetry after Firdawsī, touching on the rise, development, and decline of romance in classical Persian literature. Prerequisite: PRSAN 433.

**PRSAN 455 The Persian Ghazal (3) VLPA** The Ghazal as the leading medium for lyrical expression in classical Persian tradition. Follows this genre from conception to culmination in the poetry of Hafiz. Conventions and devices of the *Ghazal*. Development placed in historical and social context. Prerequisite: PRSAN 433.

**PRSAN 456 Sufism: Thought and Expression (3) I&S/VLPA** Dynamics of mystical thought and expression as evolved in the writings of the great Sufi masters and reflected in the poetry of Sana'i, Attar, Rumi, and others. The fundamental unity of the mystical vision, with special attention to the peculiarities of individual style and expression. Prerequisite: PRSAN 433.

**PRSAN 490 Supervised Study (1–6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: PRSAN 423.

**PRSAN 496 Special Studies in Persian (3–5, max. 15)** Topics vary.

**PRSAN 499 Undergraduate Research (1–6, max. 18)**

**PRSAN 596 Special Studies in Persian (3–5, max. 15)** Topics vary.

**PRSAN 600 Independent Study or Research (\*)**

## Turkic

**TKIC 199 Study Abroad (1–12, max. 15)** Credit for elementary Turkic in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**TKIC 399 Study Abroad (1–12, max. 15)** Credit for elementary or intermediate Turkic in an approved study abroad program. Requires credit evaluation by department or fac-

ulty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**TKIC 401 Intensive Elementary Uzbek (15)** Intensive study of grammar, with oral and written drill and reading of simple texts in Uzbek. Covers first-year Uzbek. Cannot be taken for credit if 411, 412, 413 taken. Offered: S.

**TKIC 402 Intensive Elementary Kazakh (15)** Intensive study of grammar, with oral and written drill and reading of simple texts in Kazakh. Covers first-year Kazakh. Cannot be taken for credit if 414, 415, 416 taken. Offered: S.

**TKIC 403 Intensive Elementary Kirghiz (15)** Intensive study of grammar with oral and written drill of selected texts. Offered: S.

**TKIC 404 Intensive Intermediate Uzbek (15) VLPA** Allows students to complete second-year Uzbek in one quarter. Reading of selected texts in Uzbek, with continuing emphasis on oral and written practice, grammar, and advanced readings. Cannot be taken for credit if 421, 422, 423 taken. Prerequisite: either TKIC 401 or TKIC 413. Offered: S.

**TKIC 405 Intensive Intermediate Kazakh (15) VLPA** Allows students to complete second-year Kazakh in one quarter. Reading of selected texts in modern literary Kazakh, with emphasis on grammar, syntax, and oral practice. Prerequisite: either TKIC 402 or TKIC 416. Offered: S.

**TKIC 406 Intensive Advanced Uzbek (15) VLPA** Advanced-level instruction in speaking, writing, reading, and listening skills. Students work independently on translation projects. Emphasis on extensive writing practices in Uzbek and student participation in an Uzbek e-mail conversation circle. Prerequisite: TKIC 423. Offered: S.

**TKIC 407 Intensive Elementary Uyghur (15) VLPA** Covers all four linguistic skills: reading, writing, speaking, and listening. Offered: S.

**TKIC 411 Elementary Uzbek (5) Cirtautas** Introduction to the modern written and spoken language. Cannot be taken for credit if 401 taken. First in a sequence of three.

**TKIC 412 Elementary Uzbek (5) Cirtautas** Introduction to the modern written and spoken language. Cannot be taken for credit if 401 taken. Second in a sequence of three.

**TKIC 413 Elementary Uzbek (5) Cirtautas** Introduction to the modern written and spoken language. Cannot be taken for credit if 401 taken. Third in a sequence of three.

**TKIC 414 Elementary Kazakh (5) Cirtautas** Position of Kazakh within the community of other Turkic languages; alphabets used for Kazakh; reading of texts from Kazakhstan and China (Xinjiang); oral and written exercises. Cannot be taken for credit if 402 taken. First in a sequence of three.

**TKIC 415 Introduction to Kazakh (3) Cirtautas** Position of Kazakh within the community of other Turkic languages; alphabets used for Kazakh; reading of texts from Kazakhstan and China (Xinjiang); oral and written exercises. Cannot be taken for credit if 402 taken. Second in a sequence of three.

**TKIC 416 Introduction to Kazakh (3) Cirtautas** Position of Kazakh within the community of other Turkic languages; alphabets used for Kazakh; reading of texts from Kazakhstan and China (Xinjiang); oral and written exercises. Cannot be taken for credit if 402 taken. Third in a sequence of three.

**TKIC 417 Introduction to Uyghur (5) Mawkanuli** Designed for students with no prior knowledge of Uyghur. Includes acquisition of Uyghur Arabic alphabet, general phonological rules, and basic grammar. Basic reading, listening, and oral comprehension practice all offered throughout the course. First in a sequence of three. Offered: A.

**TKIC 418 Elementary Uyghur (5) Mawkanuli** Continuation of basic modern Uyghur: phonological rules, grammar, and vocabulary. Practice in reading, listening, and oral comprehension. Second in a sequence of three. Prerequisite: TKIC 417. Offered: W.

**TKIC 419 Elementary Uyghur (5) Mawkanuli** Continuation of basic modern Uyghur: phonological rules, grammar, and vocabulary. Practice in reading, listening, and oral comprehen-

sion. Third in a sequence of three. Prerequisite: TKIC 418. Offered: Sp.

**TKIC 421 Intermediate Uzbek (3) VLPA** *Cirtautas* Continuation of elementary Uzbek. Oral work, grammar, and readings in Uzbek literature. First in a sequence of three. Prerequisite: either TKIC 401 or TKIC 413.

**TKIC 422 Intermediate Uzbek (3) VLPA** *Cirtautas* Continuation of elementary Uzbek. Oral work, grammar, and readings in Uzbek literature. Second in a sequence of three. Prerequisite: TKIC 421.

**TKIC 423 Intermediate Uzbek (3) VLPA** *Cirtautas* Continuation of elementary Uzbek. Oral work, grammar, and readings in Uzbek literature. Third in a sequence of three. Prerequisite: TKIC 422.

**TKIC 427 Intermediate Uyghur (5) VLPA** Second-year Uyghur. Includes reading, translation, oral comprehension, and composition. First in a sequence of three. Prerequisite: TKIC 419. Offered: A.

**TKIC 428 Intermediate Uyghur (5) VLPA** Second-year Uyghur. Includes reading, translation, oral comprehension, and composition. Second in a sequence of three. Prerequisite: TKIC 427. Offered: W.

**TKIC 429 Intermediate Uyghur (5) VLPA** Second-year Uyghur. Includes reading, translation, oral comprehension, and composition. Third in a sequence of three. Prerequisite: TKIC 428. Offered: Sp.

**TKIC 437 Advanced Uyghur (5) VLPA** Focuses on reading, writing, translation, and oral comprehension at an advanced level. Students gain fluency in order to work in social and scientific environments where only the Uyghur language is used. First in a sequence of three. Prerequisite: TKIC 429. Offered: A.

**TKIC 438 Advanced Uyghur (5) VLPA** Focuses on reading, writing, translation, and oral comprehension at an advanced level. Students gain fluency in order to work in social and scientific environments where only the Uyghur language is used. Second in a sequence of three. Prerequisite: TKIC 437. Offered: W.

**TKIC 439 Advanced Uyghur (5) VLPA** Focuses on reading, writing, translation, and oral comprehension at an advanced level. Students gain fluency in order to work in social and scientific environments where only the Uyghur language is used. Third in a sequence of three. Prerequisite: TKIC 438. Offered: Sp.

**TKIC 451 Introduction to Turkic Studies (3) VLPA** *Cirtautas* Bibliography, problems, and methods of research in the field of Turkic studies for advanced students of Turkish/Turkic languages, including readings in those languages on the languages, literatures, and ethnography of past and present Turkic peoples.

**TKIC 454 Introduction to Uzbek Literature (3) VLPA** *Cirtautas* Readings from selected Uzbek writers. Content varies.

**TKIC 455 Introduction to Uzbek Literature (3) VLPA** *Cirtautas* Readings from selected Uzbek writers. Content varies.

**TKIC 456 Introduction to Uzbek Literature (3) VLPA** *Cirtautas* Readings from selected Uzbek writers. Content varies.

**TKIC 490 Supervised Study (1–6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: either TKIC 404, TKIC 405, or TKIC 423.

**TKIC 496 Special Studies in Turkic Languages (3–5, max. 15)** Topics vary.

**TKIC 499 Undergraduate Research (3–5, max. 15)** For Turkic language and literature majors.

**TKIC 542 Comparative and Historical Grammar of Turkic Languages (3)** *Cirtautas* Classification of the Turkic languages; alphabets used; phonology, morphology, and syntax; lexical composition; structure changing developments. Prerequisite: TKIC 404.

**TKIC 543 Comparative and Historical Grammar of Turkic Languages (3)** *Cirtautas* Classification of the Turkic languages; alphabets used; phonology, morphology, and syn-

tax; lexical composition; structure changing developments. Prerequisite: TKIC 404.

**TKIC 546 Old Turkic (3)** *Cirtautas* Introduction to Runic script; phonology, morphology, and syntax of the oldest form of Turkic; reading and translation of eighth-century inscriptions of historical and literary importance. Prerequisite: permission of instructor.

**TKIC 547 Old Uyghur (3)** *Cirtautas* Introduction to script systems; phonology, morphology, and syntax. Reading and translation of mainly Buddhist texts in Uyghur script, eighth through eleventh centuries. Prerequisite: background in a Turkic language or permission of instructor.

**TKIC 561 Middle Turkic (3)** *Cirtautas* Introduction to the phonology, morphology, and syntax of the Middle Turkic languages; reading and translation of texts in Karakhanid, Khorazmian Turkic, Kipchak, and Chagatai. Prerequisite: permission of instructor.

**TKIC 562 Middle Turkic (3)** *Cirtautas* Introduction to the phonology, morphology, and syntax of the Middle Turkic languages; reading and translation of texts in Karakhanid, Khorazmian Turkic, Kipchak, and Chagatai. Prerequisite: permission of instructor.

**TKIC 563 Seminar on Turkic Literature (5)** *Cirtautas* Topics in oral and written literature. Prerequisite: permission of instructor.

**TKIC 596 Special Studies in Turkic Languages (3–5, max. 15)** Topics vary.

**TKIC 600 Independent Study or Research (\*)**

## Turkish

**TKISH 199 Study Abroad (1–12, max. 15)** Credit for elementary Turkish in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**TKISH 399 Study Abroad (1–12, max. 15)** Credit for elementary or intermediate Turkish in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**TKISH 411 Elementary Turkish (5)** Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. First in a sequence of three.

**TKISH 412 Elementary Turkish (5)** Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. Second in a sequence of three. Prerequisite: TKISH 411.

**TKISH 413 Elementary Turkish (5)** Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. Third in a sequence of three. Prerequisite: TKISH 412.

**TKISH 421 Intermediate Turkish (5) VLPA** Introduction to modern Turkish literature. First in a sequence of three. Prerequisite: TKISH 413.

**TKISH 422 Intermediate Turkish (5) VLPA** Introduction to modern Turkish literature. Second in a sequence of three. Prerequisite: TKISH 421.

**TKISH 423 Intermediate Turkish (5) VLPA** Introduction to modern Turkish literature. Third in a sequence of three. Prerequisite: TKISH 422.

**TKISH 451 Readings in Turkish Literary History I: Modern (3) VLPA** *Kuru* The development of modern Turkish literature and its ties to, and divergence from, the Ottoman tradition. Readings in modern and Tanzimat poetry, short story, drama, and novel.

**TKISH 452 Readings in Turkish Literary History II: Literature of the Ottoman Empire (3) VLPA** *Kuru* The parallel development of the classical high-culture literature and the popular literatures of the Ottoman Empire. Readings in poetry, history, travel-literature, drama, and popular narrative forms. Prerequisite: TKISH 423.

**TKISH 453 Ottoman Travelers and Geography (3) VLPA** *MacKay* Introduction to the geographic literature of Ottoman Turkish: readings from traditional cosmographies, travel journals, sailing instructions (portulans), ambassadorial and secret service reports. Prerequisite: TKISH 456.

**TKISH 454 Turkish Literary Genres: Prose (3) VLPA** Major genres, styles, and themes of Turkish art-prose from Ottoman times to present; creation of stylistic and critical norms. Prerequisite: TKISH 423.

**TKISH 455 Turkish Literary Genres: Poetry (3) VLPA** Poetic traditions of Turkey with a focus on the development of peculiarly Turkish aspects of style and structure. Social functions of poetry and the poetic milieu. Prerequisite: TKISH 423.

**TKISH 456 Introduction to Ottoman Turkish (3) VLPA** *Kuru* Introduction to Turkish in Arabic characters to cover the peculiar grammatical and syntactical problems of Ottoman.

**TKISH 490 Supervised Study (1–6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: TKISH 423.

**TRKISH 496 Special Studies in Turkish (3–5, max. 15)** Topics vary.

**TKISH 499 Undergraduate Research (1–6, max. 18)**

**TRKISH 596 Special Studies in Turkish (3–5, max. 15)** Topics vary.

**TKISH 600 Independent Study or Research (\*)**

## Ugaritic

**UGARIT 451 Ugaritic I (3) VLPA** *Noegel* Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, ca. 14th c. BCE). Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. First in a three course sequence. Prerequisite: either HEBR 402 or HEBR 426. Offered: A.

**UGARIT 452 Ugaritic I (3) VLPA** *Noegel* Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, ca. 14th c. BCE). Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. Second in a three course sequence. Prerequisite: UGARIT 451. Offered: W.

**UGARIT 453 Ugaritic I (3) VLPA** *Noegel* Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, ca. 14th c. BCE). Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. Third in a three course sequence. Prerequisite: UGARIT 452. Offered: Sp.

**UGARIT 551 Ugaritic I (3)** *Noegel* Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, ca. 14th c. BCE). Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. First in a three course sequence. Prerequisite: either HEBR 402 or HEBR 426. Offered: A.

**UGARIT 552 Ugaritic II (3)** *Noegel* Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, ca. 14th c. BCE). Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. Second in a three course sequence. Prerequisite: UGARIT 551. Offered: W.

**UGARIT 553 Ugaritic III (3)** *Noegel* Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, ca. 14th c. BCE). Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic

of Aqhat, the Baal Epic, and the Epic of Kret. Third in a three course sequence. Prerequisite: UGARIT 552. Offered: Sp.

## Neurobiology

### PROGRAM OVERVIEW

318 Hitchcock

Neurobiology offers students an intense introduction to the study of nervous systems. Faculty in both the College of Arts and Sciences and the School of Medicine teach courses in the major. Students study the cellular and molecular properties of single nerve cells and the connections among them and learn how these properties determine animal behavior and human disease.

### UNDERGRADUATE PROGRAM

#### Adviser

318 Hitchcock, Box 355320

206-616-3982

The Neurobiology Program offers the following program of study:

- The Bachelor of Science degree with a major in neurobiology

### Bachelor of Science

#### Program Admission Requirements

- BIOL 180, BIOL 200, BIOL 220, with minimum 2.0 grade in each
- Completion of most supporting coursework in physics, math, and chemistry recommended (see specific course lists, below), with minimum 2.50 GPA in any such work completed at time of application
- Admission is competitive; meeting minimum standards guarantees consideration but not acceptance. Early application is encouraged and may increase chances for acceptance. Since the program uses rolling admission, there is no specific deadline for applying. See adviser for details about applying.

#### Major Requirements

Minimum 86 credits, as follows:

- *Supporting coursework (minimum 48 credits):*
  - *Chemistry:* Pathway 1—CHEM 120, CHEM 220, CHEM 221; Pathway 2 (recommended)—CHEM 142, CHEM 152, CHEM 162 (or CHEM 144, CHEM 154, CHEM 164; or CHEM 145, CHEM 155, CHEM 165); and CHEM 223, CHEM 224 (or CHEM 237, CHEM 238, CHEM 239) (or CHEM 335, CHEM 336, CHEM 337) (labs not required) (15–27 credits)
  - *Physics:* Pathway 1—PHYS 114, PHYS 115; Pathway 2 (recommended)—PHYS 121, PHYS 122. ( 8 to 10 credits)
  - *Mathematics:* Two quarters of calculus (MATH 124, MATH 125, or MATH 144, MATH 145, or Q SCI 291, Q SCI 292) (10 credits)
  - *Introductory Biology (minimum 15 credits):* BIOL 180, BIOL 200, BIOL 220 (minimum 15 credits)
- *Introduction to Neurobiology (10 credits):* NBIO 301, NBIO 302.
- *Advanced courses in neurobiology (12 credits):* NBIO 401, NBIO 402, NBIO 403, NBIO 404.
- *Electives:* Minimum 16 credits from a wide variety of 400-level courses in the biological sciences. See adviser for list of courses. Courses not listed may be allowed with permission of program director. Students may ap-

ply up to 7 credits of undergraduate research toward the 16 elective credits.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Throughout the core sequence of neurobiology, students gain a deep understanding of the basic concepts of nervous system function and learn many of the basic techniques used to study nerve cells. Students also learn how to analyze neurophysiological data, and compose and present results. Graduates pursue careers in medicine, public health, education, pharmaceutical sales, computing, and graduate study.
- *Instructional and Research Facilities:* Labs are required with introductory courses. NBIO 301 and NBIO 302. The program offers state-of-the-art facilities and equipment for each course.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Most neurobiology students participate in undergraduate research with faculty from both the College of Arts and Sciences and the School of Medicine.
- *Program Scholarships:* None offered.
- *Student Organizations/Associations:* Beta Beta Beta, the honor society for biological study; Alpha Epsilon Delta, the national premedical honorary society.

### COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

**NBIO 301 Introduction to Cellular and Molecular Neurobiology (5) NW Moody** Introduces students to the physiological and molecular properties of individual nerve cells and the synaptic connections between them, and to principles of nervous system development. Includes weekly laboratory sessions. Prerequisite: BIOL 220. Offered: W.

**NBIO 302 Introduction to Systems and Behavioral Neurobiology (5) NW Kennedy, Perkel** Introduces neuroethology, i.e., the mechanisms by which neurons and the synaptic connections among them produce sensory perceptions and complex behavioral outputs. Includes weekly laboratory sessions. Prerequisite: NBIO 301. Offered: Sp.

**NBIO 401 Systems Neurobiology (3) NW Robinson** Introduces students to the anatomical and physiological organization of the major sensory, motor, and associative systems of the mammalian brain. Behavioral data used to stress functional integration of systems. Includes gross brain anatomy demonstration and computer tutorials. Prerequisite: NBIO 302. Offered: A.

**NBIO 402 Diseases of the Nervous System (3) NW** Introduces the basic mechanisms of mammalian nervous system function through the study of human neurological diseases that result from specific disruption of neuronal signaling. Prerequisite: NBIO 401. Offered: W.

**NBIO 403 Systems and Behavioral Neurobiology (3) NW** Topics include information processing in sensory and motor systems, sensory-motor integration, learning, and memory. Using examples from the field of neuroethology, encourages students to independently work on problems taken from the recent neurobiological research literature. Prerequisite: NBIO 401. Offered: W.

**NBIO 404 Neuropharmacology (3) NW Stella** Actions of drugs on the brain at clinical, cellular, and molecular levels. Therapeutic use of drugs in treatment of neurological and psychiatric diseases. Abuse of drugs and the mechanisms

of addiction, tolerance, and withdrawal. Prerequisite: NBIO 401. Offered: Sp.

**NBIO 440 Topics in Current Neurobiology Research (2, max. 6) NW** Credit/no credit only. Prerequisite: NBIO 302.

**NBIO 450 Current Research Literature in Neurobiology (2, max. 6) NW** Weekly journal club in neurobiology. Students read and discuss original research articles in neurobiology, centered around a specific topic each quarter. Credit/no credit only. Prerequisite: BIOL 220.

**NBIO 496 Peer Teaching Assistant in Neurobiology (5)** Direct classroom experience teaching in NBIO 301 or 302. Credit/no credit only. Prerequisite: NBIO 302. Offered: WSp.

**NBIO 499 Individual Research in Neurobiology (3–6, max. 18)** Students carry out projects in laboratories of program faculty. Prerequisite: NBIO 302.

## Philosophy

### DEPARTMENT OVERVIEW

361 Savery

Philosophy is the study of the most fundamental issues concerning reality, knowledge, and value, and of the basic concepts, principles, and arguments of the major intellectual disciplines. Its fields include metaphysics, epistemology, logic, ethics, history of philosophy, political philosophy, aesthetics, philosophy of science, philosophy of mind, philosophy of language, philosophy of law, and philosophy of religion.

### UNDERGRADUATE PROGRAM

#### Adviser

361 Savery, Box 353350

206-543-5855

[philadv@uw.edu](mailto:philadv@uw.edu)

The Department of Philosophy offers the following programs of study:

- The Bachelor of Arts degree with a major in philosophy
- The Bachelor of Arts degree with a major in history and philosophy of science, offered jointly with the [Department of History](#)
- A minor in philosophy

The Department of Philosophy also administers the interdisciplinary minor in [values in society](#).

### Bachelor of Arts

#### Philosophy

*Suggested First- and Second-Year College Courses:* Introductory courses in symbolic logic, social philosophy, major problems of philosophy, and history of philosophy. Courses to develop writing, language and analytic skills.

#### Department Admission Requirements

2.00 cumulative GPA and completion of 10 credits of philosophy coursework.

#### Major Requirements

50 credits, to include:

- PHIL 120 or an upper-division course in logic
- One course from PHIL 320, PHIL 330, PHIL 335, or PHIL 340 (undergraduate adviser must approve substitutions)
- One course from PHIL 322, PHIL 332, PHIL 342, or 400-level courses in the same areas (undergraduate adviser must approve substitutions)

- At least four UW philosophy courses at the 400 level, excluding PHIL 484
- At least 25 credits at the UW
- Minimum cumulative GPA of 2.00 for all philosophy courses taken.

### History and Philosophy of Science

*Suggested First- and Second-Year College Courses:* PHIL 120, PHIL 160. Courses that develop writing skills. Introductory science courses and mathematics courses through calculus.

### Department Admission Requirements

- HIST 311, HIST 312; PHIL 160 or PHIL 460; PHIL 120, each with a minimum grade of 2.0.
- Completion of 10 credits toward the Natural World (science) requirement (see below), each course with a minimum grade of 2.0.
- Minimum UW GPA of 2.00.
- Completion of 10 credits of composition/writing courses with a minimum grade of 2.0 for each course. This requirement may be met by freshman English composition courses, "W" courses, or any courses in which the student has written a graded paper (to be reviewed by HPS faculty) of at least 10 pages.

### Major Requirements

85 credits as follows:

- *Core Courses:* HIST 311, HIST 312, HIST 390; PHIL 160 or PHIL 460; PHIL 120 (25 credits). A minimum grade of 2.0 in each course and an overall minimum GPA of 2.50.
- *Electives:* 25 credits from the following, of which at least 10 must be PHIL courses and at least 5 must be HIST courses (or others upon petition): ESS 404, HIST 211, HIST 215, HIST 310, HIST 313 (or ASTR 313), HIST 314, HIST 315, HIST 316, HIST 317 (also MHE 422), HIST 318 (also MHE 424), HIST 412; PHIL 243, PHIL 350, PHIL 360, PHIL 406, PHIL 450, PHIL 460 (if PHIL 160 has been taken), PHIL 464, PHIL 466, PHIL 473, PHIL 481, PHIL 482, PHIL 483. A minimum grade of 2.0 in each class.
- *Capstone:* Completion of HPS 400, with a minimum grade of 2.0 (5 credits).
- *Science Component:* 30 credits of Natural World (NW) courses from anthropology, astronomy, atmospheric sciences, biology, chemistry, computer science, earth and space sciences, economics, environmental studies, mathematics, physics, psychology, and sociology, with a minimum GPA of 2.50 in these courses and a minimum grade of 2.0 in each course. At least 15 of the credits must be outside mathematics.

### Minor

*Minor Requirements:* 30 credits, to include:

- PHIL 115 or PHIL 120, or an upper-division course in logic;
- At least 15 UW philosophy credits at the 300 level or above, excluding PHIL 484.

### Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Graduates of the Department of Philosophy acquire considerable skills in abstract thinking, analysis, and critical writing (constructing and critiquing arguments). Because of these skills, philosophical training is invaluable in almost any area of life. Recent graduates have been successful in software development, financial planning, journalism, teaching, and law. A few go on to graduate school and become professional philosophers. Students' work is subjected to careful critical scrutiny. As a result, students benefit from philosophy courses with an increased competence in ex-

pository clarity, logical rigor, and analytical skill. Philosophy is an excellent undergraduate major for pre-professional students. It is perhaps ideal for those who aspire to work in the legal profession. The history and philosophy of science major is of particular interest to those planning careers in the sciences. Courses in ethics offer students in any field the opportunity to think clearly about the normative dimensions of their career choices. Because the skills of philosophical analysis can be applied widely, philosophy is always a good complementary second degree for any major, whether it is in the physical sciences, social sciences, arts, or humanities.

- *Instructional and Research Facilities:* The Philosophy Writing Center provides a free tutoring service to any student writing a philosophical paper.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* The department offers internship credits for students leading its new majors seminar. Students may also arrange for internship credit with individual faculty. See adviser for details.
- *Department Scholarships:* Kenneth R. Parker Award for Excellence in Community Service. The KRP award honors an undergraduate philosophy major or minor who has blended her or his studies in philosophy with a volunteer-based community project. The recipient receives a \$500 scholarship. A donation of \$250 is made on behalf of the recipient to a community organization of the student's choice. See adviser for details.
- *Student Organizations/Associations:* The Society for Undergraduate Philosophy Students (SUPS) is dedicated to the informal discussion of philosophical issues.

*Of Special Note:* The department offers a new majors seminar for those wishing to explore the major.

## GRADUATE PROGRAM

### Graduate Program Coordinator

361 Savery, Box 353350

206-543-5855

[philinfo@uw.edu](mailto:philinfo@uw.edu)

The Department of Philosophy offers programs of study leading to the Master of Arts and Doctor of Philosophy degrees, the MA program serving as the initial stage of the PhD program. The department's Program on Values in Society offers an interdisciplinary graduate certificate.

The Master of Arts program option is a two-year non-thesis program which may be extended to three years depending on the outcome of the spring research papers. The student must take twelve courses in philosophy, satisfy a logic requirement, and at the end of the second year, submit three research papers for evaluation by the graduate faculty of the department. The courses and the papers must satisfy a distribution requirement. The departmental evaluation of the student's papers and coursework determines whether an MA degree is awarded and also whether admission to the PhD program is granted. The MA portion of the program serves as the initial stage of the PhD program.

The PhD program, which normally requires at least two years of study beyond the MA, has three general requirements: (1) General Examination, (2) dissertation, and (3) final examination.

## Master of Arts

### Admission Requirements

In evaluating applications, the Department of Philosophy takes the following factors into account: the philosophical potential displayed in a sample of the applicant's written work, letters of recommendation, undergraduate record, and GRE scores.

- Three letters of recommendation written on the recommender's departmental letterhead and addressed to the Graduate Admissions Committee (address below). Recommenders may send their letters directly to the department, or the applicant may include the letters in sealed envelopes with the other application materials.
- A sample of the applicant's written philosophical work, normally an essay or paper (approximately 8–15 pages) written for a course in philosophy. Applicants are allowed one writing sample only.
- Official GRE scores (verbal, quantitative, and analytic).
- A 200–300 word statement of the applicant's reasons for doing graduate work in philosophy and his or her professional objectives.
- A complete set of official college transcripts.

### International Applicants

- *TOEFL.* A minimum official TOEFL score of 600 (TOEFLC score: 250) is required unless the applicant is a citizen of Australia, Canada, Ireland, New Zealand, or the United Kingdom, or has earned a bachelor's degree or higher in the United States or one of the countries listed above.
- *TSE.* An official TSE score of 55 is required to receive departmental assistantships involving classroom duties unless the applicant is a citizen of one of the countries listed above. A degree from the United States or one of those countries does not exempt the applicant from this requirement.
- *Degree Requirements.* The equivalent of a four-year U.S. bachelor's degree. This is based on the following criteria: the country's national system of education, type of institution attended, field of study, and level of studies completed. Policies at other institutions may differ.
- *Financial Responsibility.* The University of Washington requires official certification of adequate financial support from each international applicant. The total annual cost (12 months) of study is \$47,076 in U.S. funds. (This cost is subject to change without notice.) Even if a graduate program is able to offer some funding, the applicant may need to provide a portion of these funds personally.
- *ESL Requirements.* Policy for students for whom English is a second language: All such students must meet the Graduate School requirements for the admission of international students.
- *Additional Requirements.* In addition, the Philosophy Department has the following admission requirements:
  - An 8–15 page paper in English.
  - A letter of recommendation addressing the applicant's ability to speak and write English. (This letter may count as one of the three required for all applicants.)
  - Some students may be required to spend up to three additional quarters improving their English writing and speaking skills. Students who do not have adequate preparation in Western philosophy may be required to take ancient philosophy (PHIL 320), modern philosophy (PHIL 322), and introduction to symbolic logic (PHIL 120). Graduate credit is not normally given for these remedial courses.

### Special Requirements

An undergraduate major in philosophy is recommended, although not required, for admission to the MA program. An applicant's philosophical potential is assessed primarily on the basis of a sample of his or her written work in philosophy and secondarily on the basis of his or her undergraduate record, Graduate Record Examination scores, and letters of recommendation.

### Degree Requirements

The Philosophy Department at the University of Washington does not offer a terminal MA degree.

This is a non-thesis program. There is no language requirement for the MA degree.

The following requirements supplement the general requirements set forth by the UW Graduate School in the General Catalog (see the [Graduate School Admissions page](#) for further information). All students, whether or not they have earned an MA at another institution, must complete the MA requirements before entering the PhD program.

36 credits minimum, as follows:

- **Logic Requirement:** Either a grade of 3.0 or better in one of the graduate-level logic courses or a passing score on the departmental logic examination. The department offers the logic exam once annually upon request. Part-time students must satisfy this requirement by the time they submit master's papers.
- **Distribution Requirement:** Graduate courses are divided into three areas. Students must take at least three courses in each of the following three areas:
  - **Area One:**
    - Greek Philosophy—PHIL 430 (3), PHIL 431 (3), PHIL 433 (3), PHIL 520 (5)
    - Medieval Philosophy—PHIL 421 (3)
    - Modern Philosophy—PHIL 422 (3), PHIL 436 (3), PHIL 437 (3), PHIL 438 (5), PHIL 522 (5)
    - Recent Philosophy—PHIL 426 (5), PHIL 469 (3), PHIL 526 (5)
  - **Area Two:**
    - Logic and Philosophy of Mathematics—PHIL 470 (5), PHIL 471 (5), PHIL 472 (5), PHIL 473 (5), PHIL 474 (5), PHIL 570 (5)
    - Philosophy of Science—PHIL 459 (5), PHIL 460 (5), PHIL 466 (5), PHIL 481 (5), PHIL 482 (5), PHIL 560 (5), PHIL 566 (5), PHIL 574 (4)
    - Philosophy of Mind—PHIL 463 (5), PHIL 464 (5), PHIL 563 (5)
    - Philosophy of Language—PHIL 453 (5), PHIL 479 (3), PHIL 553 (5)
    - Epistemology—PHIL 450 (5), PHIL 490 (5), PHIL 550 (5)
    - Metaphysics—PHIL 456 (5), PHIL 556, PHIL 587 (5)
  - **Area Three:**
    - Ethics—PHIL 416 (5), PHIL 417 (5), PHIL 440 (5), PHIL 540 (5)
    - Philosophy of Art—PHIL 445 (5), PHIL 446 (5), PHIL 449 (5), PHIL 545 (5)
    - Philosophy of History—PHIL 465 (3), PHIL 565 (5)
    - Social and Political Philosophy—PHIL 406 (5), PHIL 407 (5), PHIL 408 (5), PHIL 409 (5), PHIL 410 (5), PHIL 411 (5), PHIL 414 (3), PHIL 461 (5), PHIL 510 (5), PHIL 514 (5)
    - Philosophy of Religion—PHIL 467 (5), PHIL 567 (5)
- Courses numbered below 400 cannot be used to satisfy graduate degree requirements.
- **12-Course Requirement:** Students must complete twelve courses (numbered 400 or above) in philosophy,

with a minimum grade of 3.0 in each course. At least four of these twelve courses must be seminars.

- **Master's Papers:** At the end of their second year, in lieu of a master's thesis, students submit three papers, one in each distribution area. (Part-time students will submit their papers for evaluation upon completion of twelve courses in philosophy. A change of status from full-time to part-time student requires departmental approval.)
- **Evaluation:** The graduate faculty of the department evaluates students' progress on the basis of coursework in philosophy and the papers submitted. The graduate faculty then decides whether students are (a) awarded an MA and admitted to the PhD program; (b) awarded an MA and invited to submit papers a second time; (c) awarded a terminal MA; or (d) dropped from the program without a degree. Students resubmitting papers must provide completely new ones that satisfy the distribution requirements. A completely new paper has not been submitted before and is not a revised version of one previously submitted. These papers are due the following year.
- **Satisfactory Progress:** Students not yet admitted to the PhD program must take at least two courses (10 credits) per quarter with a grade of 3.0 or better to be in good standing. An excessive number of incompletes may jeopardize a student's good standing. If a student does not make satisfactory progress in a given quarter, the director of graduate studies recommends to the dean of the Graduate School that the student be placed on probation.
- **Other Courses:** Students may use three courses outside philosophy in determining whether they are making satisfactory progress. The courses must be approved by the director of graduate studies as part of a program of specialization. Courses in areas other than philosophy do not normally satisfy the twelve-course requirement.

## Doctor of Philosophy

### Admission Requirements

Admission to the PhD program is based on the level of performance with the MA requirements. (See above.)

### Degree Requirements

Minimum 90 credits (60 credits minimum beyond the master's degree), as follows:

- **General Requirements:** There are four general requirements for the completion of the doctoral degree:
  - General written examination
  - General oral examination
  - Dissertation
  - Final examination
- The master's papers constitute the written portion of the general examination. The general oral examination is normally a presentation and defense of the student's dissertation proposal.
- **Course Requirement:** The only departmental course requirement is that the student must complete a total of at least six seminars with a grade of 3.0 or better in each before being awarded the PhD (seminars taken to fulfill the MA requirements may count toward this total). A student's Supervisory Committee may, however, require additional courses.
- **Language Requirement:** There is no departmental language requirement. However, in writing a dissertation a student must be able to deal with primary sources in the original language of the source. All language requirements are determined by the student's Supervisory Committee. A student should develop the needed language skills as early as possible in his or her career. The student should consult with the director of graduate studies during the first and second year in the MA pro-

gram to insure that he or she is developing any needed language skills.

- **Satisfactory Progress:** A student's Supervisory Committee determines whether a student in the PhD program is making satisfactory progress. Satisfactory progress for the PhD program includes steady and substantial progress toward the completion of the dissertation. Sanctions for failure to make satisfactory progress are the same as described for the master's requirements.

### Financial Aid

The department has some teaching assistantships available to incoming students and the Graduate School offers some non-teaching assistantships.

## Graduate Certificate in Values in Society

The program on values in society aims to facilitate graduate research in ethics as it arises across the disciplines. The program is designed to provide students with the knowledge and skills necessary for integrating ethics and ethics scholarship into their chosen field.

The graduate certificate program is open only to students already enrolled in other graduate degree programs at the University of Washington. Successful completion of the certificate program will be noted on official transcripts.

### Certificate Requirements

- Selection of a faculty adviser from the values in society [core faculty](#).
- Completion of VALUES 511 and VALUES 512 (10 credits).
- Completion of two other [graduate-level values-laden courses](#) specific to the student's field of study (6 credits). Courses from the student's home department are eligible. All courses must be approved by the student's faculty adviser and the program director.
- Completion of VALUES 513 (2 credits).

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/)

## History and Philosophy of Science

**HPS 210 Issues in the History and Philosophy of Science (5) I&S** Examination of selected topics in the history and philosophy of science at the introductory level. Taught by UW faculty and visiting scholars.

**HPS 400 Colloquium in the History and Philosophy of Science (5) I&S/NW** Fine, Hankinson Nelson, Hevly, Manchak, Werret, Woody Examines issues from the perspectives of both history and philosophy. Prerequisite: either HIST 311, HIST 312, HIST 313, HIST 314, HIST 315, HIST 317, HIST 318, or HIST 412; either PHIL 350, PHIL 360, PHIL 450, PHIL 460, PHIL 464, PHIL 466, PHIL 473, PHIL 481, PHIL 482, or PHIL 483.

## Philosophy

**PHIL 100 Introduction to Philosophy (5) I&S** Baker, A. Moore Major philosophical questions relating to such matters as the existence of God, the foundations of knowledge, the nature of reality, and the nature of morality. Approach may be either historical or topical. Offered: AWPSP.

**PHIL 101 Philosophical Classics (5) I&S** Selected works of some of the major philosophers, such as Plato, Aristotle, Descartes, Hume, Kant. The philosophers studied vary.

**PHIL 102 Contemporary Moral Problems (5) I&S/VLPA** Blake, A. Moore Philosophical consideration of some of the main moral problems of modern society and civilization,

such as abortion, euthanasia, war, and capital punishment. Topics vary.

**PHIL 110 Introduction to Social and Political Philosophy (5) I&S Clatterbaugh** An introduction to political theories such as conservatism, liberalism, and socialism and their treatment of select social issues.

**PHIL 114 Philosophical Issues in the Law (5) I&S R. Moore** Analysis and critical assessment of various philosophical issues in law and legal reasoning. Material drawn from actual law cases, as well as writings by contemporary philosophers of law and lawyers. Topics include criminal responsibility, civil disobedience, abortion, enforcement of morals. Special legal or philosophical training not required.

**PHIL 115 Practical Reasoning (5) I&S, QSR Lee** Introduction to logic emphasizing concepts and methods useful for practical analysis of arguments in everyday contexts; meaning, syllogisms, logical diagrams, inductive and statistical inference, informal fallacies, argument structure, perhaps some beginning symbolic logic. Offered: AWSpS.

**PHIL 120 Introduction to Logic (5) I&S/NW, QSR Fine, Hankinson, Nelson, Manchak, Weller** Elementary symbolic logic. The development, application, and theoretical properties of an artificial symbolic language designed to provide a clear representation of the logical structure of deductive arguments.

**PHIL 160 Why Do We Believe in Quarks, Evolution, and Other Crazy Things? Perspectives on Science, Reason, and Reality (5) I&S Hankinson Nelson** Study of how scientific theories are justified and why they are accepted, using selected examples from the history of science.

**PHIL 199 New Majors Seminar (2) I&S/VLPA** Introduces undergraduates to the field and to the interests of various faculty. Credit/no credit only. Prerequisite: one previous PHIL course.

**PHIL 200 Topics in Philosophy (3–5, max. 10) I&S** A study of philosophical topics at the introductory level. The content of the course is entirely at the discretion of the instructor.

**PHIL 205 Philosophy for Children (5) I&S** Introduction to the methods of “doing” philosophy with young people. Stresses the development of a community of inquiry in which budding philosophers are encouraged to ask their own relevant questions, develop views and articulate reasons for them, and to listen and learn from one another. Credit/no credit only.

**PHIL 206 Philosophy of Feminism (5) I&S Wylie** Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with POL S 212/WOMEN 206.

**PHIL 240 Introduction to Ethics (5) I&S/VLPA Gardiner, Roberts, Talbott** Critical introduction to various philosophical views of the basis and presuppositions of morality and moral knowledge. Critical introduction to various types of normative ethical theory, including utilitarian, deontological, and virtue theories.

**PHIL 241 Topics in Ethics (5, max. 10) I&S/VLPA** Introduction to ethics through in-depth study of one or more selected topics (e.g., limits of moral community, animal rights, moral education, and freedom). Topics vary.

**PHIL 242 Introduction to Medical Ethics (5) I&S/VLPA Goering, Schellenberg** Introduction to ethics, primarily for first- and second-year students. Emphasizes philosophical thinking and writing through an in-depth study of philosophical issues arising in the practice of medicine. Examines the issues of medical ethics from a patient's point of view.

**PHIL 243 Environmental Ethics (5) I&S** Focuses on some of the philosophical questions that arise in connection with environmental studies. Topics to be considered include: the ideological roots of current issues, values and the natural world, public policy and risk assessment, intergenerational justice, and social change. Offered: jointly with ENVIR 243.

**PHIL 267 Introduction to Philosophy of Religion (5) I&S Clatterbaugh** Consideration of the sources of religious ideas and practices, the main kinds of religious views and the problems they raise, and the different forms that spirituality can take. Issues concerning the relations of religion to science and morality also treated.

**PHIL 301 Intermediate Topics in Philosophy (3–5, max. 10) I&S** Philosophical topics at the intermediate level. Content varies each quarter, depending on instructor.

**PHIL 314 Philosophy of Crime and Punishment (5) I&S R. Moore** Examination of philosophical theories regarding criminal habits and punishment and the philosophical problems connected with specific topics in criminal law. Examines proper subject matter of criminal law (drug use, pornography, euthanasia); limits of criminal sanctions; crime and privilege (corporate crime, white-collar crime, blackmail); justifications for punishment; mercy; and execution.

**PHIL 320 Ancient Philosophy (5) I&S Roberts, Weller** Survey of ancient Greek philosophy, beginning with the pre-Socratics and proceeding on through Plato to Aristotle.

**PHIL 322 Modern Philosophy (5) I&S Baker, BonJour, Clatterbaugh, Rosenthal, Weller** Examination of metaphysical and epistemological problems from the works of Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

**PHIL 330 History of Ancient Political Philosophy (5) I&S Roberts** Political philosophy of fourth- and fifth-century Greece, especially the Sophists, Plato, and Aristotle, stressing the connection between the political philosophy and the underlying philosophical system of each philosopher.

**PHIL 332 History of Modern Political Philosophy (5) I&S Blake, BonJour, Clatterbaugh, A. Moore, Talbott** Examination of major political philosophies from the sixteenth century to the nineteenth century, with attention to the underlying philosophical methods and foundations.

**PHIL 334 Philosophy of Marxism (3) I&S Clatterbaugh** Philosophy of Marx and the Marxist tradition with attention to key Marxist concepts such as exploitation, alienation, and historical materialism.

**PHIL 335 Plato's Republic (5) I&S/VLPA Keyt** Designed especially for philosophy majors, but open to non-majors. Intensive study of Plato's masterpiece. Prerequisite: one PHIL course.

**PHIL 338 Philosophy of Human Rights (5) I&S Talbott** Theories of human rights and the bearing of these theories on issues of public policy such as legitimacy of war and terrorism, economic justice, and whether future generations have rights.

**PHIL 340 History of Ancient Ethics (5) I&S/VLPA Roberts, Weller** Development of moral thought from Socrates through the Stoics. Particular emphasis on the ethical writings of Plato and Aristotle.

**PHIL 342 History of Modern Ethics (5) I&S/VLPA Rosenthal, Weller** Development of moral thought from Hobbes through Nietzsche, with particular emphasis on the ethical writings of Hume, Kant, and John Stuart Mill.

**PHIL 344 History of Recent Ethics (5) I&S/VLPA** Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition.

**PHIL 345 Moral Issues of Life and Death (5) I&S/VLPA Goering** Examination of such topics as war and murder, famine relief, capital punishment, high-risk technologies, abortion, suicide, and the rights of future generations.

**PHIL 346 Personal Values and Human Good (3) I&S Baker, Goering** Examination of the idea of a good human life. Emphases differ from year to year. Typical topics include happiness and prudence, rationality and life plans, personal values and the meaning of life, autonomy and false consciousness, self-respect and self-esteem, honesty and self-deception, faith and “vital lies.”

**PHIL 347 Philosophy in Literature (5) I&S/VLPA** Study of philosophical ideas expressed in works of literature.

**PHIL 350 Introduction to Epistemology (5) I&S Baker, BonJour, Talbott** Nature, definition, and possibility of knowledge.

**PHIL 356 Introduction to Metaphysics (5) I&S Baker** Introductory examination of some of the main problems in metaphysics, such as the nature of truth and reality, the metaphysical status of properties, the existence of free will.

**PHIL 360 Introductory Topics in Philosophy of Science (5, max. 10) I&S Fine, Hankinson Nelson, Manchak, Woody** Study of one or more current topics in philosophy of science such as scientific realism, explanation, confirmation, causation. Prerequisite: one PHIL course; recommended: PHIL 120; PHIL 160.

**PHIL 363 Introduction to the Philosophy of Mind (5) I&S** Various theories of the nature of mind, the relationship between mind and body, the self, introspection, and knowledge of other minds.

**PHIL 399 Foreign Study (2–5, max. 10)** Upper division philosophy studies with no direct UW equivalents, taken through UW foreign study programs.

**PHIL 401 Advanced Topics in Philosophy (3–5, max 10) I&S** A study of philosophical topics at the advanced level. Topics vary.

**PHIL 406 Philosophical Topics in Feminism (5) I&S Goering, Hankinson Nelson, Woody** Detailed examination of questions raised by recent feminist scholarship in particular areas of philosophy, such as political theory, ethics, epistemology, or philosophy of science. Emphasis varies.

**PHIL 407 International Justice (5) I&S Blake, Gardiner** Examines issues through investigation of the moral foundations of international politics. Issues include: What moral duties constrain the relationships between states? Is international poverty a matter of moral concern? Are we justified in preferring the interest of our fellow nations? Prerequisite: one course in philosophy.

**PHIL 408 Philosophy of Diversity (5) I&S Blake** Must a liberal political community respect all claims made on behalf of minority cultural groups? Are there moral limits to the forms of diversity compatible with just governance? Examines modern philosophical writings on these topics. Prerequisite: One philosophy course.

**PHIL 409 Philosophy of Disability (3) I&S Goering** Rethinks the non-disabled assumption at the heart of much of western moral and political philosophy. Explores concepts of autonomy, opportunity, personhood, and dependence in regard to disability. Issues may include prenatal testing and reproduction, special education, requirements of accommodation, and social and legal interpretations of disability. Prerequisite: one philosophy course or LSJ/CHID 332, LSJ/CHID 433, or LSJ/CHID or 434.

**PHIL 410 Social Philosophy (5) I&S Clatterbaugh, Talbott** An examination of topics pertaining to social structures and institutions such as liberty, distributive justice, and human rights.

**PHIL 411 Justice in Health Care (5) I&S/VLPA Jecker** Examination of the ethical problem of allocating scarce medical resources. Emphasizes the fundamental principles of justice that support alternative health policies. Recommended: prior courses in philosophy or ethics. Offered: jointly with B H 474.

**PHIL 412 Ethical Theory (5) I&S Jecker** Studies the major normative ethical theories, including both teleological and deontological approaches. Emphasizes moral philosophy during the eighteenth and nineteenth centuries, as well as contemporary commentary. Recommended: one basic course in ethics. Offered: jointly with B H 402.

**PHIL 413 Metaethical Theory (5) I&S Jecker** Studies the major metaethical theories, including both cognitivist and noncognitivist approaches. Emphasizes moral philosophy during the twentieth century, as well as contemporary commentary. Recommended: one introductory philosophy course. Offered: jointly with B H 404.

**PHIL 414 Philosophy of Law (3) I&S** *BonJour, A. Moore, R. Moore* Nature and function of law. Relation of law to morality. Legal rights, judicial reasoning.

**PHIL 416 Ethics and Climate Change (5) I&S** *Gardiner* Critical examination of the ethical issues surrounding climate change. Prerequisite: either one philosophy or one environmental studies course. Offered: jointly with ENVIR 416.

**PHIL 417 Advanced Topics in Environmental Philosophy (5) I&S** *Gardiner* Critical examination of issues in environmental philosophy. Topics vary. Prerequisite: one philosophy course. Offered: jointly with ENVIR 417.

**PHIL 418 Jewish Philosophy (5) I&S** *Rosenthal* Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period—e.g., medieval or modern— or on a topic—e.g., reactions to the Enlightenment or to the Holocaust. Prerequisite: at least one previous course in philosophy. Offered: jointly with SISJE 418.

**PHIL 422 Studies in Continental Rationalism (3, max. 9) I&S** *Clatterbaugh, Rosenthal* Study of one or more of the major continental Rationalists: Descartes, Spinoza, Leibniz.

**PHIL 426 Twentieth-Century Philosophy (5) I&S** *Baker, Weller* A study of development of contemporary analytic philosophy, the revolt against idealism, and the linguistic turn in philosophy.

**PHIL 430 Hellenistic Philosophy (3) I&S** *Roberts* Survey of the Epicurean, Stoic, and Skeptic philosophy of the Hellenistic period. Emphasis may vary.

**PHIL 431 Philosophy of Plato (3, max. 6) I&S** *Keyt, Roberts, Weller* Study of selected middle and late dialogues.

**PHIL 433 Philosophy of Aristotle (3, max. 6) I&S** *Keyt, Roberts, Weller* Study of several major Aristotelian treatises.

**PHIL 436 British Empiricism (3) I&S** *Baker, BonJour, Weller* Examination of the metaphysical and epistemological views of Locke and Berkeley, with perhaps some attention also to Hume. Prerequisite: either PHIL 322 or PHIL 350.

**PHIL 437 Philosophy of Hume (3) I&S** *Talbott, Weller* Study of Hume's analyses of knowledge, the passions, and morals.

**PHIL 438 Philosophy of Kant (5) I&S** *BonJour, Weller* Systematic study of *The Critique of Pure Reason*.

**PHIL 440 Ethics (5) I&S** *Roberts, Talbott* Critical examination of the concepts and judgments of value, including an analytical treatment of the notions of good and bad, right and wrong, and obligation. Emphasis varies from quarter to quarter.

**PHIL 445 Philosophy of Art (5) I&S/VLPA** *R. Moore* Critical examination of various accounts of the nature of art, artistic activity, the aesthetic experience. Problems in interpretation and evaluation of works of art.

**PHIL 446 Development of Aesthetic Theory (5) I&S/VLPA** *R. Moore*, Historical development of aesthetics, emphasizing such major figures as Plato, Aristotle, Hume, Kant, Hegel, and Goodman.

**PHIL 450 Epistemology (5) I&S** *Baker, BonJour, Talbott* Systematic study of some of the main problems of the theory of knowledge, such as: the definition of "knowledge;" a priori knowledge; perception and knowledge of the external world; and whether knowledge has or requires a foundation. Emphasis varies from quarter to quarter.

**PHIL 453 Philosophy of Language (5) I&S/VLPA** Current theories of meaning, reference, predication, and related concepts. Offered: jointly with LING 476.

**PHIL 456 Metaphysics (5) I&S** *Baker, BonJour* Examination of such topics as freedom of the will, the nature of persons and personal identity, the existence of God, time, necessary truth, and universals. The emphases vary from year to year.

**PHIL 459 Philosophy of Medicine (5) I&S** *Jecker, Schellenberg* Familiarizes students with central issues in the philosophy of medicine. Focuses on the nature of medical knowledge, the connection between theory and observation, the meaning of medical concepts, and the relationship between theories and the world. Recommended: prior courses in philosophy, history of science, or history of medicine. Offered: jointly with B H 440.

philosophy, history of science, or history of medicine. Offered: jointly with B H 440.

**PHIL 460 Philosophy of Science (5) I&S/NW** *Hankinson Nelson, Manchak, Woody* Critical study of the nature of scientific knowledge. Topics include the relation of theory to observation, the use of mathematics, how theories change, the requirements for the meaningfulness of a theory, and nature of confirmation. Recommended: PHIL 120 or PHIL 160; prerequisite: one PHIL course.

**PHIL 461 Philosophical Anthropology (5) I&S** Investigation of the question, "What is human reality?" Philosophical significance of this question and its relation to the human sciences. Typical answers. Implications of those answers for culture, religion, morals, and politics.

**PHIL 463 Philosophy of Mind (5) I&S** *BonJour, Lee* Examination of current theories of the nature of the mind and mental processes.

**PHIL 464 Philosophical Issues in the Cognitive Sciences (5) I&S/NW** Philosophical problems connected with research in psychology, artificial intelligence, and other cognitive sciences. Topics vary. Readings from both philosophical and scientific literature. Accessible to nonphilosophers with suitable interests and backgrounds.

**PHIL 465 Philosophy of History (3) I&S** *Baker* Analyses of basic concepts employed in historical interpretation, and study of some of the principal philosophers of history, such as Plato, Saint Augustine, Hegel, Marx, Spengler, Toynbee.

**PHIL 466 Philosophy of the Social Sciences (5) I&S** *Hankinson Nelson, Talbott* Examination of fundamental issues in the foundations, methodology, and interpretation of the social sciences. Topics include value orientation and objectivity, methodological individualism, functionalism, reductionism, and the status of idealized models, including models involving idealized conceptions of individual rationality. Emphasis varies from quarter to quarter.

**PHIL 467 Philosophy of Religion (5) I&S** *Clatterbaugh, Rosenthal* Study of selected topics and problems in the philosophy of religion, such as: arguments for the existence of God; the problem of evil; atheism; faith; religious experience and revelation; the attributes of God; miracles; immortality; and the relation between religion and morality. Readings from historical and contemporary authors.

**PHIL 470 Intermediate Logic (5) I&S/NW, QSR** *Fine, Keyt* An introduction to the concepts and methods of metatheory and their application to the sentential calculus.

**PHIL 471 Advanced Logic (5) I&S/NW** *Keyt* Study of the first-order predicate calculus with identity and function symbols. Consistency, soundness, completeness, compactness. Skolem-Lowenheim theorem. Formalized theories. Prerequisite: PHIL 470.

**PHIL 472 Axiomatic Set Theory (5) I&S/NW** *Keyt, Townsend* Development of axiomatic set theory up to and including the consistency of the Axiom of Choice and Continuum Hypothesis with the Zermelo-Fraenkel Axioms.

**PHIL 473 Philosophy of Mathematics (5) I&S/NW** *Fine* Study of the traditional accounts of the nature of mathematical entities and mathematical truth given by logicism, intuitionism, and formalism, and the impact of Godel's incompleteness theorems on these accounts.

**PHIL 474 Modal Logic (5) I&S/NW** Notions of necessity and possibility, using the classical systems T, S4, and S5, and the syntax and the semantics (Kripke models) of these systems.

**PHIL 479 Semantics II (3) I&S/NW/VLPA** *Ogihara* Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Prerequisite: LING 442. Offered: jointly with LING 479.

**PHIL 481 Philosophy of Biology (5) I&S/NW** *Hankinson Nelson* Study of several current topics in philosophy of biology, which may include the logical structure of evolutionary theory, fitness, taxonomy, the concept of a living thing, reductionism, the concept of a biological species, evolutionary

explanations, and philosophical consequences of sociology. Recommended: college-level course in biological science; prerequisite: one PHIL course.

**PHIL 482 Philosophy of Physical Science (5, max. 10) I&S/NW** *Fine, Woody* Study of philosophical issues raised by theories in physics or chemistry, such as whether space (time) is a substance, how causation and locality are treated in quantum mechanics, temporal anisotropy and time travel, the nature of a field of force, the reduction of chemistry to physics. Prerequisite: one PHIL course.

**PHIL 483 Induction and Probability (5) I&S/NW** *Manchak* Introduction to current accounts of evidence and observation, the confirmation of scientific theories, the logic of inductive reasoning, and the metaphysics and epistemology of chance. High school-level math used. Specific topics vary from year to year. Prerequisite: PHIL 120.

**PHIL 484 Reading in Philosophy (1–5, max. 15)** Individual study of selected philosophical works.

**PHIL 490 Advanced Topics in Epistemology (5, max. 15) I&S** *BonJour, Talbott* Intensive study of a particular topic or area in epistemology. Prerequisite: either PHIL 350 or PHIL 450.

**PHIL 498 Undergraduate Internship (1–5, max. 10)** *Baker, Clatterbaugh* Independent fieldwork under the supervision of a faculty member. Individual experiences vary but could include an off-campus practicum or being trained as study group leader or tutor. Offered: AWSp.

**PHIL 500 Proseminar in Philosophy (5)** Introduces incoming graduate students to topics representative of the field and the faculty's interest. Each class session is devoted to a separate topic taught by a different member of the faculty. In addition to reading and short written assignments. Students prepare a term paper on a topic presented. Offered: A.

**PHIL 505 Seminar in Teaching Philosophy (1, max. 10)** *Baker* First quarter: seminar on topics of importance to a graduate student teaching two quiz sections of a large lecture course. Second quarter: focus on helping student prepare to teach own course. Prerequisite: graduate standing in philosophy. Offered: AW.

**PHIL 510 Seminar in Social Philosophy (5, max. 20)** *Talbott*

**PHIL 514 Seminar in Legal Philosophy (5, max. 20)** *R. Moore*

**PHIL 520 Seminar in Ancient Philosophy (5, max. 20)** *Keyt, Roberts, Weller*

**PHIL 522 Seminar in Modern Philosophy (5, max. 20)** *Clatterbaugh, Rosenthal, Weller*

**PHIL 526 Seminar in Recent Philosophy (5, max. 20)** *Weller*

**PHIL 538 Philosophy of Human Rights (5, max. 20)** *Talbott*

**PHIL 540 Seminar in Ethics (5, max. 20)** *Goering, Roberts, Schellenberg, Talbott*

**PHIL 545 Seminar in the Philosophy of Art (5, max. 20)** *R. Moore*

**PHIL 550 Seminar in Epistemology (5, max. 20)** *BonJour, Talbott*

**PHIL 556 Seminar in Metaphysics (5, max. 20)** *Baker, BonJour*

**PHIL 560 Seminar in the Philosophy of Science (5, max. 20)** *Fine, Hankinson Nelson, Manchak, Woody*

**PHIL 563 Seminar in the Philosophy of Mind (5, max. 20)** *BonJour, Lee*

**PHIL 565 Seminar in the Philosophy of History (5, max. 20)**

**PHIL 566 Seminar in Philosophy of the Social Sciences (5, max. 20)** *Lee*

**PHIL 570 Seminar in Logic (5, max. 20)** *Keyt* Prerequisite: PHIL 470.

**PHIL 574 Meta-archaeology: Philosophy and Archaeology (4)** *Wylie* Examines philosophical issues raised in and by archaeology, including theories of explanation and model building, analyses of evidential reasoning and hermeneutic interpretation, debates about ideals of objectivity and about

science and values. Recommended: ARCHY 570 Text Offered: jointly with ARCHY 574.

**PHIL 584 Reading in Philosophy (1–5, max. 12)** Intensive reading in philosophical literature. Prerequisite: permission of graduate program coordinator.

**PHIL 587 Contemporary Analytic Philosophy (5, max. 20)** Baker

**PHIL 600 Independent Study or Research (\*)** Prerequisite: permission of graduate program coordinator.

**PHIL 800 Doctoral Dissertation (\*)**

## Values

**VALUES 495 Ethics in Practice (2)** Blake, Gardiner, Goering, Schellenberg Culmination of the Values in Society minor. Synthesizes training in the ethics with primary discipline. Includes a project of positive social engagement (service learning or research project with fieldwork). Limited to undergraduates completing the minor in Values and Society. Credit/no credit only.

**VALUES 511 Ethics Matters: An Exploration of Some Moral Qualities (5)** Goering, Schellenberg Asks what we fundamentally require of ourselves and others if we are to live together in morally acceptable ways by discussing moral qualities as they appear in various arenas. Topics include: autonomy, respect, integrity, and trust.

**VALUES 512 Justice Matters: An Exploration of Justice as a Social Ideal (5)** Gardiner, A. Moore Asks what makes social policies and institutions morally acceptable, primarily through a discussion about justice and injustice. Topics include: relativism, the sources of competing conceptions of justice and equality, cost-benefit analysis, distributive justice and beneficence.

**VALUES 513 Capstone Workshop (2)** Blake, Gardiner, Goering, A. Moore, Schellenberg Collaborative research workshop. Capstone course for the Values in Society graduate certificate program. Prerequisite: VALUES 511 and VALUES 512. Offered: Sp.

## Physics

### DEPARTMENT OVERVIEW

C121 Physics-Astronomy Building

Physics is the study of the fundamental structure of matter and the interaction of its constituents, with the goal of providing a quantitative description of nature based on a limited number of physical principles.

### UNDERGRADUATE PROGRAM

#### Adviser

C139A Physics-Astronomy, Box 351560

206-543-2772

The Department of Physics offers the following programs of study:

- The Bachelor of Science degree with a major in physics
- A minor in physics

### Bachelor of Science

Suggested First- and Second-Year College Courses: MATH 124, MATH 125, MATH 126 (or MATH 144, MATH 145, MATH 146), MATH 308, MATH 324; PHYS 121, PHYS 122, PHYS 123, PHYS 224, PHYS 225, PHYS 227, PHYS 228. (Note: MATH 134, MATH 135, and MATH 136 can be used in place of MATH 124, MATH 125, MATH 126, and MATH 308.)

These physics and mathematics courses are required prerequisites for junior-level work in physics, not only at the

UW, but also at most colleges and universities in the United States. Students who do not complete them during the first two years in college will either need to take more than four years to earn a degree or will be limited to a minimal course of study for graduation in four years.

### Department Admission Requirements

Students in good academic standing may declare the major at any time by visiting the department advising office to complete the necessary paperwork.

### Major Requirements

Minimum 86–87 credits, including the following:

- Core courses (38 credits): PHYS 121, PHYS 122, PHYS 123, PHYS 224, PHYS 225, PHYS 227, PHYS 228, PHYS 321, PHYS 322, PHYS 334.
- Upper-division lecture course in modern physics (3–4 credits): Either PHYS 315 or PHYS 324.
- Upper-division physics laboratory courses (6 credits): Two courses from PHYS 331, PHYS 335, PHYS 431, PHYS 432, PHYS 433, or PHYS 434.
- Research and seminars (3 credits): Choices include PHYS 401, PHYS 402, PHYS 403; or PHYS 485, PHYS 486, PHYS 487; or PHYS 491, PHYS 492, PHYS 493; or PHYS 494, PHYS 495, PHYS 496; or ASTR 480. 1–3 credits of independent research that has significant physics content in a cognate subject (astronomy, chemistry, etc.) may be substituted for 1–3 credits of the above choices with approval of the adviser.
- Upper-division lecture courses: Two courses from an approved list of upper-division lecture courses in physics or cognate subjects.
- Mathematics (21 credits): MATH 124, MATH 125, MATH 126, MATH 324, and one from MATH 308, MATH 318, or AMATH 352.
- Related sciences (9 credits): Selected from physical or biological sciences (other than physics, mathematics, or computer science) or from the history or philosophy of science, in addition to any courses in these fields taken to satisfy the upper-division lecture course requirement above.
- At least 12 credits of the physics courses presented to satisfy the first five requirements, above, shall be in physics courses numbered 300 or above taken at the UW.
- A minimum grade of 2.0 is required in all courses presented in fulfillment of the first five requirements above.
- Students who plan graduate study in physics are strongly advised to complete PHYS 323, PHYS 324, PHYS 325, PHYS 328, as well as several of the following: PHYS 231, PHYS 232, PHYS 331, PHYS 421, PHYS 422, PHYS 423, PHYS 424, PHYS 425, PHYS 426, PHYS 431, PHYS 432, PHYS 433, and AMATH 401, AMATH 402, AMATH 403.

### Minor

Minor Requirements: 30–36 physics credits as follows:

- Core courses: PHYS 121, PHYS 122, PHYS 123, PHYS 224, and PHYS 225
- One of the following options:
  - Physics Education: PHYS 407, PHYS 408, PHYS 409 (total 36 physics credits)
  - Experimental Physics: PHYS 231, PHYS 334, and one course from PHYS 331, PHYS 335, PHYS 431, PHYS 432, PHYS 433, or PHYS 434 (total 30 physics credits)
  - Mathematical Physics: PHYS 227, PHYS 228 (MATH 308 required), and one course from PHYS 321 or PHYS 324 (MATH 324 required) (total 30 physics credits)

- Minimum grade of 2.0 required for each physics course counted toward the minor.

### Student Outcomes and Opportunities

- Learning Objectives and Expected Outcomes: The program is one of the largest in the nation, with approximately 60 majors graduating every year. Graduates may join the work force in a variety of technical occupations where analytical, computational, and problem-solving skills are highly valued, both in government and the private sector. They may also continue further studies in physics or in other fields (such as astronomy, medicine, law, business, biology, or engineering).
- Instructional and Research Facilities: The Physics and Astronomy departments share a modern building which contains excellent instructional and research facilities. Undergraduate students are strongly encouraged to participate in ongoing research in the department.
- Honors Options Available: With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- Research, Internships, and Service Learning: Most undergraduate physics majors participate in a research experience, either on campus or off. Research internships in physics and related departments are available for both pay and course credit. Many students participate in national programs, typically the summer after their junior year. The department also maintains an exchange program with Universitat Justus-Leibig in Geissen, Germany.
- Department Scholarships: None available
- Student Organizations/Associations: Society of Physics Students, [www.phys.washington.edu/~sps/](http://www.phys.washington.edu/~sps/); Career Development Organization for Physicists and Astronomers [students.washington.edu/cdophys/CAREER/](http://students.washington.edu/cdophys/CAREER/)

#### Of Special Note:

- One year of high school physics is strongly recommended before taking PHYS 121.
- Progress Requirement: In each academic year, every undergraduate physics major who either has completed the required 200-level courses in physics or has begun physics courses beyond the 200 level must (1) complete at least 15 credits of coursework acceptable in fulfillment of the departmental major requirements, exclusive of credits earned by repeating courses in which acceptable credit has been earned previously, or (2) satisfactorily complete an approved part-time program of study. Students who do not satisfy the above requirement will be dropped as physics majors unless exempted explicitly by the Physics Undergraduate Majors Committee. Students dropped for this reason may petition the committee for readmission to the major.

## GRADUATE PROGRAM

### Graduate Program Coordinator

C139 B Physics-Astronomy, Box 351560

206-543-2488

The Department of Physics offers studies leading to the degrees of Master of Science and Doctor of Philosophy. The department has a permanent faculty of 46 members, about 14 research faculty, and about 56 adjunct, affiliate, and emeritus faculty. An average of twenty Ph.D. and thirty M.S. degrees in physics have been awarded annually in recent years.

### Research Facilities

The department is well equipped, both in staff and facilities, for instruction and research in a discipline that emphasizes fundamental problems in the understanding of

the physical universe. Areas of research available to the Ph.D. student within the department include atomic physics, astrophysics, condensed-matter physics, elementary-particle physics, nuclear physics, and physics education. In addition, students may do research in physics with adjunct faculty members whose primary appointment is in another department such as Aeronautics and Astronautics, Astronomy, Biochemistry, Bioengineering, Chemistry, Earth and Space Sciences, Materials Science and Engineering, or Physiology and Biophysics.

Experimental work in atomic physics is concentrated on the measurement of fundamental physical properties through laser, ion trap, and radiofrequency techniques. The emphasis on fundamental measurements is continued in experiments on the gravitational force, carried out by faculty and students in atomic physics, nuclear physics, and astrophysics. Condensed-matter experiment includes research on surfaces, interfaces, nanotubes, lower-dimensional and bulk matter, with materials as diverse as high-temperature superconductors and low-temperature hydrogen monolayers. Facilities used range from synchrotron radiation and neutron sources in the United States and abroad to on-campus laboratories with low-temperature, high-pressure, scanning-probe microscopy, x-ray and light scattering, and surface-physics equipment.

Members of the high-energy and particle astrophysics experimental groups are heavily engaged in experiments at the European Center for Nuclear Research in Geneva, Kamiokande, KEK in Japan, and Fermilab in Illinois. Faculty and students of the nuclear physics group are involved in a broad spectrum of research including studies of neutrino properties, relativistic heavy ions, fundamental symmetries and nuclear astrophysics. Researchers use the on-campus accelerators of the Center for Experimental Physics and Astrophysics (CENPA), as well as major facilities in the United States, Canada, and Europe.

Theorists in the department are concerned with problems in the theories of elementary particles and quantum fields, string theory, nuclear and high-energy reactions from the very lowest to the very highest energies, phase transitions and statistical mechanics, condensed-matter physics from localization in disordered systems to electron transport in mesoscopic systems, atomic physics, general relativity, and astrophysics. The Institute for Nuclear Theory, a national facility closely associated with the department, offers a unique opportunity for students to pursue research with distinguished permanent and visiting staff. Students in physics have the opportunity to obtain a physics degree in a number of interdisciplinary and applied physics areas through research with faculty members in other departments.

Department facilities are housed in the Physics-Astronomy Building and the Center for Experimental Physics and Astrophysics (CENPA).

## Master of Science (Applications of Physics)

### Admission Requirements

This option is designed for students who are currently employed and whose background is in physical science, engineering, mathematics, or computer science. Admission is based on course grades in physics and related fields, adequacy of preparation in physics, and interest in areas of instruction offered in the physics department. Entering students are expected to have an undergraduate background equivalent to a B.S. degree in physical science, engineering, mathematics, or computer science. This program is part time, with classes offered evenings.

### Degree Requirements

As part of the standard Graduate School requirements, students are expected to complete the sequence of core courses PHYS 441, PHYS 541, and PHYS 543, and to se-

lect appropriate elective courses. In addition, students must complete an independent-study project in consultation with a faculty member. This project may be carried out at the University or at the student's place of employment. A written report as well as an oral presentation of the project are required. Students must take at least 3 credits of PHYS 600 while completing the project, and must complete a total of 36 credits of work at the 400 level or above, with at least 18 of those credits at the 500 level or above. Of the 36 credits, at least 18 credits must be from numerically graded courses. No thesis is required.

## Master of Science, Doctor of Philosophy

### Admission Requirements

Undergraduate preparation should include upper-division courses in mechanics; electricity and magnetism; statistical physics and thermodynamics; modern physics, including an introduction to quantum mechanics; and advanced laboratory work. Preparation in mathematics should include vector analysis, complex variables, ordinary differential equations, Fourier analysis, boundary-value problems, and special functions. Admission is determined by the applicant's undergraduate program, undergraduate grades, Graduate Record Examination aptitude and advanced physics scores, letters of recommendation, and a statement of educational and professional objectives.

## Master of Science

### Degree Requirements

Students must take at least 3 credits of PHYS 600 while completing the project, and must complete a total of 36 credits of work at the 400 level or above, with at least 18 of those credits at the 500 level or above. Of the 36 credits, at least 18 credits must be from numerically graded courses. A qualifying examination is required. No thesis is required.

## Doctor of Philosophy

### Degree Requirements

The student is expected to obtain here, or elsewhere with a master's degree, a background in physics equivalent to that contained in the following basic graduate courses: PHYS 505, PHYS 506, PHYS 511, PHYS 513, PHYS 514, PHYS 515, PHYS 517, PHYS 518, PHYS 519, PHYS 520, and PHYS 524; specialized courses appropriate to each student's interests; and two advanced elective courses outside the student's area of research. The student is required to pass, successively, a written qualifying examination (typically at the beginning of the second year), an oral general examination for admission to candidacy, and an oral final examination. In order to take the general examination, the student must have been accepted by a graduate faculty member as a research student and have completed the graduate studies outlined above. This examination concentrates on the area in which the dissertation research is planned. Teaching experience is required of all candidates. Courses in teaching techniques in physics, PHYS 501–PHYS 503, are required of students holding teaching assistantships.

## Financial Aid

Most graduate students are supported by fellowships and assistantships. Applications for the Ph.D. program are automatically considered for these fellowships and assistantships.

## COURSE DESCRIPTIONS

See page 5 for an explanation of course numbers, symbols, and abbreviations. For complete undergraduate course descriptions, see the online course catalog at [www.uw.edu/students/crscat/](http://www.uw.edu/students/crscat/).

**PHYS 101 Physical Science by Inquiry I (5-) NW, QSR** Laboratory-based development of concepts and reasoning skills. Helps prepare preservice teachers to teach science by inquiry. Liberal arts students gain experience in the scientific process. Useful for students with weak science preparation before taking standard science courses. Forms foundation for scientific literacy. Offered: AW.

**PHYS 102 Physical Science by Inquiry I (5) NW, QSR** Laboratory-based development of concepts and reasoning skills. Helps prepare preservice teachers to teach science by inquiry. Liberal arts students gain experience in the scientific process. Useful for students with weak science preparation before taking standard science courses. Forms foundation for scientific literacy. Prerequisite: PHYS 101. Offered: Sp.

**PHYS 103 Physical Science by Inquiry I (5) NW, QSR** See PHYS 101–102. Prerequisite: PHYS 102.

**PHYS 104 Facilitated Group Inquiry I (2) NW** Laboratory-based development of concepts and reasoning skills. Develops problem solving techniques and scientific method in a large group setting. Corequisite: PHYS 114. Offered: A.

**PHYS 105 Facilitated Group Inquiry II (2) NW** Laboratory-based development of concepts and reasoning skills. Develops problem solving techniques and scientific method in a large group setting. Corequisite: PHYS 115. Offered: W.

**PHYS 106 Facilitated Group Inquiry III (2) NW** Laboratory-based development of concepts and reasoning skills. Develops problem solving techniques and scientific method in a large group setting. Corequisite: PHYS 116. Offered: Sp.

**PHYS 107 Physics Concepts for Non-Scientists (5) NW** Wilkes Overview of physical science, from subatomic particles to cosmology. Intended to help students understand the importance of scientific research in society with emphasis on basic ideas about how the Universe operates. Readings from popular books by leading scientists for non-science majors. For students without high school physics or with limited mathematics background. Offered: W.

**PHYS 110 Liberal Arts Physics (5) NW, QSR** Basic concepts of physics presented with emphasis on their origin and their impact on society and the Western intellectual tradition. Primarily for students in the arts, humanities, and social sciences. Offered: AS.

**PHYS 114 General Physics (4) NW, QSR** Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Mechanics. Credit is not given for both 114 and 121. Recommended: working knowledge of algebra and trigonometry; one year high school physics; concurrent registration in PHYS 117. Offered: AWSpS.

**PHYS 115 General Physics (4) NW, QSR** Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Heat and electromagnetism. Credit is not given for both 115 and 122. Prerequisite: PHYS 114 or 121; recommended: concurrent registration in PHYS 118. Offered: AWSpS.

**PHYS 116 General Physics (4) NW, QSR** Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Sound, light, and modern physics. Credit is not given for both 116 and 123. Prerequisite: PHYS 115 or 122; recommended: concurrent registration in PHYS 119. Offered: AWSpS.

**PHYS 117 General Physics Laboratory (1) NW** Mechanics laboratory. Credit/no credit only. Credit is not given for both 117 and the 121 lab. Prerequisite: PHYS 114 which may be taken concurrently. Offered: AWSpS.

**PHYS 118 General Physics Laboratory (1) NW** Heat and electromagnetism laboratory. Credit/no credit only. Credit is not given for both 118 and the 122 lab. Prerequisite: PHYS 115 which may be taken concurrently. Offered: AWSpS.

**PHYS 119 General Physics Laboratory (1) NW** Sound, light, and modern physics laboratory. Credit/no credit only. Credit is not given for both 119 and the 123 lab. Prerequisite: PHYS 116 which may be taken concurrently. Offered: AWSpS.

*The courses 121, 122, 123, 224, 225 plus appropriate laboratory together make up the general physics sequence for science and engineering students.*

**PHYS 121 Mechanics (5) NW, QSR** Basic principles of mechanics and experiments in mechanics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 114 and PHYS 121. Prerequisite: MATH 124, MATH 127, MATH 134, or MATH 145, any of which may be taken concurrently; recommended: one year high school physics. Offered: AWSpS.

**PHYS 122 Electromagnetism and Oscillatory Motion (5) NW** Basic principles of electromagnetism, the mechanics of oscillatory motion, and experiments in these topics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 115 and PHYS 122. Prerequisite: MATH 125, MATH 128, MATH 134, or MATH 146, any of which may be taken concurrently; PHYS 121. Offered: AWSpS.

**PHYS 123 Waves (5) NW** Electromagnetic waves, optics, waves in matter, and experiments in these topics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 116 and PHYS 123. Prerequisite: MATH 126, MATH 129, or MATH 134, any of which may be taken concurrently; PHYS 122. Offered: AWSpS.

**PHYS 204 Radiation: Nature, Technology, and Society (3) NW** Introduction to the science and implications of nuclear physics and radiation for non-science students. Emphasis on qualitative rather than quantitative understanding. Physics of the nucleus, types of radiation, technological uses, and human exposure. Critical evaluation of current issues, including food irradiation, depleted uranium, nuclear power, and nuclear weapons.

**PHYS 207 The Physics of Music (3) NW** The nature of sound; vibrations; traveling and standing waves; response of the ear to sound; production of musical sounds.

**PHYS 210 Physics by Inquiry I (5) NW** Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: either PHYS 103, PHYS 116, or PHYS 123. Offered: A.

**PHYS 211 Physics by Inquiry I (5) NW** Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: PHYS 210. Offered: W.

**PHYS 212 Physics by Inquiry I (5) NW** Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: PHYS 211. Offered: Sp.

**PHYS 214 Light and Color (5) NW, QSR** Compares past explanation of certain familiar natural phenomena with present understandings. Lamps and lighting, outdoor light, optical devices, color vision, perspective, paints, and pigments. Quantitative comparison critical to the course, but college-level mathematics background not required. Intended for non-science students.

**PHYS 216 Science and Society (5) NW, QSR** *Chaloupka* Investigation of the relationship between science, technology and society. Nuclear physics and molecular biology serves as concrete examples of fields with significant impact on society. Offered jointly with SIS 216; Sp.

**PHYS 224 Thermal Physics (3) NW** Introduction to heat, thermodynamics, elementary kinetic theory, and the physics of

continuous media. Prerequisite: MATH 126, MATH 129, or MATH 136, any of which may be taken concurrently; PHYS 122 which may be taken concurrently. Offered: AWSpS.

**PHYS 225 Introduction to Quantum Mechanics (3) NW** Emphasizes two-state systems. Spin and applications in nuclear magnetic resonance serve as an introduction to advanced quantum mechanics, relativity, particles, and symmetry. Prerequisite: PHYS 123; PHYS 227 which may be taken concurrently. Offered: WSpS.

**PHYS 226 Particles and Symmetries (3) NW** Introduction to the fundamental constituents of matter and the symmetries which characterize their interactions. Topics include special relativity; strong, weak, and electromagnetic interactions; quarks and leptons; baryons and mesons; and neutrinos and nuclei. Prerequisite: PHYS 225, PHYS 227; recommended: PHYS 228.

**PHYS 227 Elementary Mathematical Physics (4) NW** Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: either MATH 134, MATH 135, MATH 136, or MATH 308 any of which may be taken concurrently, or MATH 318; 2.0 in PHYS 123. Offered: AWS.

**PHYS 228 Elementary Mathematical Physics (4) NW** Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: PHYS 227. Offered: AW.

**PHYS 231 Introductory Experimental Physics (3) NW** Introduction to data acquisition and analysis using experiments which measure fundamental constants or properties of nature (Planck's constant, Boltzmann's constant, speed of light, charge of electron). Prerequisite: 2.0 in PHYS 123. Offered: A.

**PHYS 232 Introduction to Computational Physics (3) NW** Computational techniques applied to physics and data analysis in laboratory setting. Emphasis on numerical solutions of differential equations, least square data fitting, Monte Carlo methods, and Fourier Analysis. A high-level language taught and used; no previous computing experience required. Prerequisite: PHYS 227.

**PHYS 248 Introductory Selected Topics (1–5, max. 15) NW**

**PHYS 294 Introduction to Research: Frontiers of Physics (1) NW** Provides a survey of contemporary research in experimental and theoretical physics, with an emphasis on subfields seeing revolutionary changes in understanding. Recommended: PHYS 123. Offered: W.

**PHYS 311 Relativity and Gravitation (3) NW** Special theory of relativity, Newtonian gravity, and relativistic effects of gravitation, including black holes, gravitational waves, and applications to cosmology. Prerequisite: 2.0 in PHYS 123.

**PHYS 321 Electromagnetism (4) NW** First of a three-quarter sequence. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: either MATH 324 which may be taken concurrently, MATH 334, MATH 335, or MATH 336; minimum grade of 2.0 in PHYS 228. Offered: AW.

**PHYS 322 Electromagnetism (4) NW** Continuation of PHYS 321. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: PHYS 321. Offered: WSp.

**PHYS 323 Electromagnetism (4) NW** Continuation of PHYS 322. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: PHYS 322.

**PHYS 324 Quantum Mechanics (4) NW** First part of a two-quarter sequence. Introduction to nonrelativistic quantum mechanics: need for quantum theory, Schrödinger equation, operators, angular momentum, the hydrogen atom, identical particles, and the periodic table. Prerequisite: either MATH 324, MATH 334, MATH 335, or MATH 336; minimum grade of 2.0 in PHYS 225; minimum grade of 2.0 in PHYS 228. Offered: ASu.

**PHYS 325 Quantum Mechanics (4) NW** Continuation of PHYS 324. Introduction to nonrelativistic quantum mechanics: perturbation theory, the variational principle, radiation; application of quantum mechanics to atomic physics, magnetic resonance, scattering, and various special topics. Prerequisite: PHYS 324. Offered: W.

**PHYS 328 Statistical Physics (3) NW** Elements of statistical mechanics and their applications. Prerequisite: PHYS 224; PHYS 324. Offered: Sp.

**PHYS 331 Optics Laboratory (3) NW** Measurements of interference and diffraction, optical properties of matter, image processing, interferometry, holography. Prerequisite: PHYS 228. Offered: Sp.

**PHYS 334 Electric Circuits Laboratory (3) NW** Basic elements of DC, AC, and transient circuits; electronic devices; electrical measurements. Prerequisite: either MATH 126, MATH 129, or MATH 136; 2.0 in PHYS 123. Offered: WSpS.

**PHYS 335 Electric Circuits Laboratory (3) NW** Electrical measurements, data management, digital electronics of microprocessor systems. Building a microprocessor application. Prerequisite: PHYS 334. Offered: SpS.

**PHYS 329 Mathematical Methods and Classical Mechanics (3) NW** Mathematical methods applied to classical mechanics, including Lagrangian mechanics. Prerequisite: 2.0 in PHYS 228. Offered: Sp.

**PHYS 401 Special Problems (\*, max. 30)** Supervised individual study. Offered: AWSpS.

**PHYS 402 Special Problems (\*, max. 30)** Supervised individual study. Offered: AWSpS.

**PHYS 403 Special Problems (\*, max. 30)** Supervised individual study. Offered: AWSpS.

**PHYS 405 Physical Science by Inquiry II (5-) NW** Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops scientific literacy. Offered: A.

**PHYS 406 Physical Science by Inquiry II (5) NW** Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops scientific literacy. Offered: W.

**PHYS 407 Physics by Inquiry II (5) NW** Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 123. Offered: A.

**PHYS 408 Physics by Inquiry II (5) NW** Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 407. Offered: W.

**PHYS 409 Physics by Inquiry II (5) NW** Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 408. Offered: Sp.

**PHYS 410 Physics by Inquiry for In-Service Teachers (1–2, max. 30) NW** A “hands-on” inquiry-oriented approach designed to train in-service teachers in the use of the physical science content for any of several science programs selected by a school or school district. Credit/no credit only.

**PHYS 411 Physics by Inquiry for Lead Teachers (1–4, max. 4) NW** Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Credit/no credit only. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Offered: A.

**PHYS 412 Physics by Inquiry for Lead Teachers (1–4, max. 4) NW** Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Credit/no credit only. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Offered: A.

**PHYS 413 Physics by Inquiry for Lead Teachers (1–4, max. 4) NW** Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Credit/no credit only. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Offered: A.

**PHYS 421 Contemporary Atomic Physics (3) NW** Survey of the principal phenomena of atomic and molecular physics. Prerequisite: PHYS 323; PHYS 325. Offered: W.

**PHYS 422 Contemporary Nuclear and Particle Physics (3) NW** Survey of the principal phenomena of nuclear and elementary-particle physics. Prerequisite: PHYS 323; PHYS 325. Offered: Sp.

**PHYS 423 Contemporary Condensed Matter Physics (3) NW** Survey of the principal phenomena of solid-state physics. Prerequisite: a minimum grade of 2.0 in either PHYS 315 or PHYS 324. Offered: A.

**PHYS 424 Mathematical Physics (3) NW** Advanced classical mechanics. Prerequisite: PHYS 323; PHYS 325. Offered: A.

**PHYS 427 Applications of Physics (1–3, max. 12) NW** Current applications of physics to problems in the sciences and technology.

**PHYS 428 Selected Topics in Physics (1–5, max. 12) NW**

**PHYS 429 Biophysics (3)** Application of the concepts and methods of physics to biological systems. Prerequisite: PHYS 123; PHYS 224; PHYS 227.

**PHYS 431 Modern Physics Laboratory (3) NW** Measurement in modern atomic, molecular, and solid-state physics. Recommended: 30 credits in physics. Offered: W.

**PHYS 432 Modern Physics Laboratory (3) NW** Measurement in modern atomic, molecular, and solid-state physics. Recommended: 30 credits in physics. Offered: Sp.

**PHYS 433 Modern Physics Laboratory (3) NW** Techniques in nuclear and elementary-particle research. Offered: A.

**PHYS 434 Application of Computers to Physical Measurement (3) NW** Laboratory giving specific instruction and experience in interfacing laboratory equipment to computers. Prerequisite: PHYS 334. Offered: A.

**PHYS 436 Nonlinear Dynamics and Chaos (4) NW** Variational Principle, Lagrangian and Hamiltonian Mechanics, phase space, nonlinear dynamics, approach to chaos, Lyapunov exponents, applications to physical systems. Numerical exercises to illustrate phenomena. Prerequisite: MATH 309.

**PHYS 441 Quantum Physics (4) NW** Introduction to concepts and methods of quantum physics: wave mechanics (de Broglie wavelength, uncertainty principle, Schrodinger equation), one-dimensional examples (tunneling, harmonic oscillator), formalism of quantum physics, angular momentum and the hydrogen atom. Recommended: 30 credits in physical science or engineering. Offered: W.

**PHYS 451 Issues for Ethnic Minorities and Women In Science and Engineering (3/5) I&S** Addresses issues faced by women and ethnic minorities in physical sciences and engineering. Focuses on participation, barriers to participation, and solutions to those issues for women and ethnic minorities in physical sciences and engineering. Offered: jointly with WOMEN 485.

**PHYS 460 Water in the Environment (3) NW** Baker, Raymond, Waddington, Warren Discusses the unique physical and chemical properties of the water molecule in relation to the atmospheric greenhouse effect, precipitation formation, oceanic circulations, infiltration of water through soils, geyser eruptions, and glacier and sea ice thickness. Prerequisite: either MATH 124, MATH 126, MATH 129, or MATH

136; PHYS 123. Offered: jointly with ATM S 460/ESS 424. Offered: A.

**PHYS 485 Senior Honors Seminar (1, max. 3) NW** Offered: A.

**PHYS 486 Senior Honors Seminar (1, max. 3) NW** Offered: W.

**PHYS 487 Senior Honors Seminar (1, max. 3) NW** Offered: Sp.

**PHYS 491 Independent Research (1–3, max. 3)** Supervised, independent study requiring written and oral presentations summarizing work accomplished. Recommended: 12 credits in physics above 200 level. Offered: A.

**PHYS 492 Independent Research (1–3, max. 3)** Supervised, independent study requiring written and oral presentations summarizing work accomplished. Recommended: 12 credits in physics above 200 level. Offered: W.
