Nature of Business or Organization:

Epigenomics is a molecular diagnostics company focusing on the development, licensing and commercialization of in vitro diagnostic (IVD) tests for cancer screening, and cancer specialty diagnostics applications based on DNA methylation. In our product development efforts, we are focused on developing novel molecular diagnostics tests, i.e. products that shall provide significant benefit to patients in terms of accuracy, convenience and ultimately acceptance of these tests.

Duties and Responsibilities:

Stocking clinical sites with preferred supplies to include tracking, ordering, assembling and shipping
Track number of patients enrolled
Check in samples (blood, urine, tissue, etc)
Miscellaneous inventory management tasks
Data entry or checking data entry
Stocking labs with supplies, freezer maintenance and other tasks as assigned

Minimum Qualifications:

Position requires physical activity including bending, reaching, pushing, pulling, or lifting up to 30 lbs. This position requires working with human samples and possible blood borne pathogens.

Educational Benefits:

Biology, nursing and science background a plus
