

# University of Washington Work Study Job Description

Work Study Administration, Office of Student Financial Aid

**Name of Organization:** Seattle Biomedical Research Institute

Job Location: 307 Westlake Avenue N, Suite 500

City: Seattle

State: WA

Zip: 98109

Metro Route Serving this Location: 17-26-28-73

Job Title of This Position: Biomedical Laboratory Assistant

Number of Positions Available: Several

## Nature of Business or Organization:

For more than 25 years, Seattle Biomedical Research Institute (SBRI) researchers have harnessed innovative science and the latest technologies to tackle some of the world's deadliest killers, including malaria, HIV/AIDS, and tuberculosis. The impact of SBRI's work can be measured by discoveries that have led to diagnostic tools, drugs, and drug targets, promising leads for vaccines, and published research that provides a foundation for studies by scientists throughout the world. Our mission is to conduct target research leading to the prevention, diagnosis, and cure of infectious diseases, which are responsible for more than 13 million deaths worldwide each year. For more information about SBRI, please visit [www.sbri.org](http://www.sbri.org).

## Duties and Responsibilities:

Perform biomedical support in a research laboratory setting. This includes working with scientific personnel and assisting all and/or specific research projects in infectious disease. Work will include training with chemicals and biological materials, and sterile and other general scientific techniques. Routine tasks include solution making, sterilizing, library research, materials inventory, etc. Work on specific projects may include tissue culture, gel electrophoresis, DNA preps, bacterial cultures, and computer work.

## Minimum Qualifications:

Course and/or practical experience in biology and chemistry desirable but not required.

## Educational Benefits:

Experience will help prepare students interested in careers related to the biosciences.
