Job Location	Kincaid 438
Pay Rate	\$10 - \$12
Employment Period	Summer, Academic Year
Hours Per Week	19 hrs/wk
Contact Supervisor	Melanie Harsch
Phone Number	
Email Address	harschm@uw.edu
Website	http://protist.biology.washington.edu/oikos/Index.html
Box Number	351800

Nature of Organization

The Hille Ris Lambers lab studies a diversity of topics related to plant community ecology.

Duties and Responsibilities

Students will work in the lab and the greenhouse on tasks such as: processing plant samples (e.g., seeds, tissue, etc.), assisting with greenhouse experiments (e.g., planting, watering, etc.), insect identification, collecting trait data from published literature, and data management and entry.

Minimum Qualifications

We are looking for undergraduates who are enthusiastic, hard-working, and interested in gaining research experience in community ecology and climate change biology.

Educational Benefits

Students will gain research experience in the field of community ecology, including with sample processing and prep, greenhouse tasks, data management, and specialized software.
