Nature of Organization

Urban Studies is an academic program located on the Tacoma campus of the University of Washington system. The program offers two undergraduate degrees and a certificate in Geographic Information Systems.

Duties and Responsibilities

Minimum Qualifications

The Student Lab Assistant will need to be either a graduate of the UW Tacoma's GIS Certificate Program or currently enrolled in it.

Educational Benefits

In addition to supporting the operation of the student GIS lab, the benefits will be to apply learned GIS concepts to help students with their GIS lab assignments. Other benefits include learning how to maintain an equipment inventory, coordinate work schedule for other student assistants, and communicate to the GIS Coordinator about the overall functioning of the lab.

How to Apply

Submit resume and cover letter to uwturban@uw.edu.
