Nature of Organization

Earth Economics is a non-profit organization located in Tacoma, Washington, dedicated to researching and applying the economic solutions of tomorrow, today. Earth Economics provides robust, science-based, ecologically sound economic analysis, policy recommendations and tools to positively transform regional, national and international economics, and asset accounting systems. Working with leading ecologists, economists and modelers, we serve a large circle of businesses, non-profits, government agencies, policy makers and media channels with research, reports, presentations, workshops and investigations. Our goal is to help communities shift away from the failed economic policies of the past, towards an approach that is both economically viable and environmentally sustainable.

Duties and Responsibilities

Tasks may include, but are not limited to, assisting staff with economics research with an emphasis on ecological issues, sustainable development and progressive economic theory, event planning and coordination, report writing, editing, layout and design, support in the areas of communication and publicity, media, internet, phone, website, campus, etc. Flexible hours between 9 to 5:30, Monday to Friday. Some work may be completed outside of the office.

Minimum Qualifications

Must be able to work independently and be self motivated. Candidate should possess strong communication skills, have basic economics background including some ecological economics, some background in finance and trade, strong computer skills & proficient research ability. Must have interest in learning how NGOs work as well as experience or interest in environmental and social justice issues.

Educational Benefits

How to Apply

Please submit by e-mail a cover letter, resume, letter of reference and recent writing sample (i.e. school paper) to: Ms. Tedi Dickinson, Business Manager , at tdickinson@eartheconomics.org
