

Work Study Job Description

Job Title	Student Assistant
Department Name	Biology
Job Location	Hitchcock/Kincaid Halls
Pay Rate	\$10.00 - \$12.00
Employment Period	Academic Year
Hours Per Week	19 hrs/wk
Contact Supervisor	Robert Goff
Phone Number	206-685-3787
Email Address	rwgoff5@uw.edu
Website	http://www.biology.washington.edu/
Box Number	351800

Nature of Organization

The Department of Biology at the University of Washington seeks to advance our understanding of biology at all levels, from molecules to ecosystems, through traditional disciplinary strengths and the unexpected synergies that arise from a uniquely creative and collaborative faculty. The Department fosters interactions among established scientists and provides trainees with the intellectual breadth and skills necessary for rigorous research that often crosses disciplinary boundaries.

Duties and Responsibilities

Operate hand power tools for woodworking, maintenance and modification of departmental equipment (both mechanical and electrical). Preventative maintenance of scientific equipment. Perform administrative duties associated with departmental equipment and facilities as needed.

Minimum Qualifications

This position requires thorough completion of tasks and ability to complete tasks independently after receiving instructions. Experience with basic hand/power tools is required. Certification for UW workstudy positions.

Educational Benefits

Gain familiarity with a range of equipment and organisms used in Biology research and class courses. Gain experience in fabrication of research apparatus.

How to Apply

Provide job/education summary or resume. 3 references
