<b>Box Number</b>	354115

### Nature of Organization

The Terrestrial Restoration Ecology Lab (<http://depts.washington.edu/relab/>) actively studies a range of basic and applied ecological questions. We are based at the UW Botanic Gardens.

### Duties and Responsibilities

1. Data entry from various ecological experiments.
2. Lab work processing plant and soil samples (e.g., drying and weighing samples).
3. (optional) Assist with field work throughout the region.

### Minimum Qualifications

1. Working knowledge of Microsoft Excel or Access.
2. Ability to enter data efficiently and accurately.
3. Self-motivated; able to work independently after instruction to accomplish required tasks.
4. Detail-oriented, enthusiastic, and interested in applied ecology.

### Educational Benefits

1. Experience doing various research-related activities.
2. Participation in an active lab group (faculty, graduate and undergraduate students).
3. Exposure to current research related to restoration ecology and ecology.

### How to Apply

Email a PDF containing a cover letter, resume, and unofficial transcripts.
