Nature of Organization

We are a rapidly growing auto dealership group. We are in the transitional phase where we are beginning to need to fill more technical positions with student workers so we can begin to develop talent to be able to fill future technical positions

Duties and Responsibilities

Help with implementing internal accounting system related controls, processes and procedures. Assist Auditor with any special system related projects or accounting procedure process development issues as assigned. Assist Financial Analyst with any special reporting (budgeting, forecasting) or data mining/database related projects assigned.

Flexible hrs during session (10 - 19 hrs a week)

Full time internship possibility in summer (up to 40 hrs a week)

Minimum Qualifications

The applying students must have at least a 3.25 GPA
Should be an accounting or information systems related major

Educational Benefits

Great opportunity for students to learn their way around an organization's accounting and data management software. This position will help students become more adaptable to new accounting software, teach them a very high learning of excel uses applicable for a mid sized business model and teach them to see an accounting system as an audit and reporting tool instead of just as a data entry system.
