Website	

Nature of Organization
Seattle Biomedical Research Institute
Duties and Responsibilities
The Lab Assistant will perform biomedical support in a research laboratory setting. This includes training with chemicals, biological materials and general scientific techniques. Routine tasks include making stock solutions, sterilizing, pouring plates, monitoring lab materials inventory and purchasing. The lab assistant may also assist in genotyping our mouse colony, which involves extracting DNA from mouse samples, PCR, gel electrophoresis and maintaining an electronic record of the mouse census.
Minimum Qualifications
At least 6 months of laboratory experience or 1 year of coursework in biology, chemistry or closely related field or equivalent combination of related education and experience
