<b>Website</b>	<a href="http://www.systemsbiology.org/">http://www.systemsbiology.org/</a>

### Nature of Organization

ISB is a premier, nonprofit research organization located in the heart of Seattle emerging biotech sector in South Lake Union, in Seattle, WA. Established as a non-traditional, multidisciplinary environment, ISB was co-founded in 2000 by Dr. Leroy Hood, a world-renowned systems biologist who was recently awarded the National Medal of Science, and two other eminent scientists. ISB pioneered systems biology, which harnesses and integrates the respective insights of biologists, geneticists, computer scientists, chemists, engineers, mathematicians, immunologists and others to answer some of society's most challenging questions related to health and the environment.

### Duties and Responsibilities

The Facilities group is currently seeking Work Study eligible students to assist the Lab Support Services Team in routine laboratory operations, such as media and buffer preparation, glassware washing and preparation, autoclaving, instrumentation set-up and QC, inventory maintenance, restocking, decontamination, laboratory waste management, and administrative duties.

### Minimum Qualifications

Applicants should have coursework in a hard science, computer science, environmental studies, occupational health, or related fields.

### Educational Benefits

Participants will acquire and in depth knowledge of laboratory best practices concerning aseptic and hygienic techniques, quality control, and supply chain management.
