Nature of Organization

Community, Environment, and Planning (CEP) is a unique and small upper-division undergraduate program in the College of Built Environments. As CEP's Program Assistant, you will work with the Program Manager to support program operations and students

Duties and Responsibilities

Academic Support:

You will work with students - including, but not limited to:

- Supporting portfolio work
- Academic skill development
- Attending and assisting with Friday morning governance

You can expect to work with students in informal group settings, one-on-one, and more formal workshop settings.

Program Support:

You will be involved in brainstorming, design, implementation, management, and evaluation of some new projects including but not limited to:

- Website Management (Wordpress Platform)
- Alumni Networking Initiatives
- Prospective Student Outreach
- Community and UW Departmental Partnerships
- Fundraising

Minimum Qualifications

Minimum Qualifications:

- Work Study eligible
- Graduate student
- Excellent writing, communication, and interpersonal skills
- Demonstration of project management (academic or community-based)
- Ability to work collaboratively
- Demonstration of patience, initiative, leadership and dependability

Preferred:

- At least one year tutoring or teaching experience
- Tech Savvy
- Socially-conscious student with diverse interests
- Interested in working in an alternative and democratic student-led pro

Educational Benefits

Educational Benefits: You will gain experience as an educator and facilitator in an exciting and alternative learning environment. In this position you will get to collaborate with both staff and students, and develop communication, leadership, planning, and interpersonal skills. Parts of the position are flexible to build long-term projects around your skill set or skills that you want to develop.
