Website	http://depts.washington.edu/relab/
Box Number	354115

Nature of Organization

The Terrestrial Restoration Ecology Lab (<http://depts.washington.edu/relab/>) seeks answers to basic and applied ecological questions. We are based in Merrill Hall at the UW Botanic Gardens.

Duties and Responsibilities

1. Lab work processing tree samples (cookies).
2. Computer work scanning and analyzing tree cookies to identify and date fire scars.
3. Lab work processing plant and soil samples, as needed.
4. Data entry from various ecological experiments, as needed.
5. Assist with field work throughout the region, as needed.

Minimum Qualifications

1. Self-motivated; able to work independently after instruction to accomplish required tasks.
2. Experienced with safe operation of woodshop tools.
3. Detail-oriented, enthusiastic, and interested in applied ecology.
4. Ability to learn specialized WinDENDRO software.
4. Working knowledge of Microsoft Excel.

Educational Benefits

1. Experience doing various research-related activities.
2. Participation in an active lab group (faculty, graduate and undergraduate students).
3. Exposure to current research related to restoration ecology and ecology.

How to Apply

Email a PDF containing a cover letter, resume, and unofficial transcripts.
