

Work Study Job Description

Job Title	GIS and Remote Sensing Assitant
Department Name	UW Bothell
Job Location	
Pay Rate	\$12 - \$12
Employment Period	Academic Year
Hours Per Week	19 hrs/wk
Contact Supervisor	Santiago Lopez
Phone Number	
Email Address	Slopez@uw.edu
Website	
Box Number	358530

Nature of Organization

UW Bothell provides access to excellence in higher education through innovative and creative curricula, interdisciplinary teaching and research, and a dynamic community of multicultural learning.

Duties and Responsibilities

The student will be responsible of processing and analyzing a large data set of remotely sensed images in a geographic information system (GIS) framework. Some of the tasks will include georegistration, georeferencing, classification, post-classification validation, and database integration.

Minimum Qualifications

Student should have taken at least one GIS or Remote Sensing Course.
Be proficient in Word, Excel, Powerpoint
Have a GPA of 3.5 or higher

Educational Benefits

The student will have the opportunity to gain hands-on experience in the application of remote sensing and geographic information science principles and learn about the linkages between geotechnologies and how they can improve our understanding of land use and land cover change processes.

How to Apply

Please submit an updated CV and a copy of your transcript to clsopez@uw.edu
