Pre-Health Information—Dental School

Explore

Motivation for medicine/personal characteristics

A qualified applicant to dental school must have not only a general understanding of the profession, but also a demonstrated interest in and awareness of dental/medical and social issues. Prospective applicants should be prepared to answer the question, “Why do you want to be a dentist?” with a response that goes beyond “I want to help people.”

Experience

Desirable qualifications are a well rounded academic background, a knowledge of and exposure to the needs of individuals and society, and an awareness of current health care delivery systems. Diversity and cross-cultural competency are critical. Further, motivation for dental careers can be measured in part by the candidate’s exposure to health-care environments.

Choosing a Major

While a bachelor’s degree is necessary to be a competitive applicant to dental school, **dental schools do not give preference to any particular major**. You should be considering majors that align your interests, passions, and abilities. Your departmental adviser, in partnership with your pre-health adviser, can help ensure you take the appropriate pre-requisite courses for dental school as part of your coursework.

Prepare

An excellent dental school applicant will have a strong grade point average, both overall and in the pre-requisite coursework. Additionally, a strong applicant will have competitive DAT scores. Beyond grades and test scores, dental schools will look for ample time spent shadowing a dentist, experience volunteering in a clinical setting, and both research and leadership experiences.

Prerequisite courses for most dental schools are listed below; you should review the admissions information for each of your desired schools to be sure you are meeting all coursework and other requirements.

Other Important Activities

Freshman Year

- Meet with your general adviser
- Consider taking GEN ST 297, "Pre-Health 101"
- Consider joining a pre-health RSO
- Begin establishing relationships with faculty for future letters of recommendation
- Identify summer volunteer, research, and/or leadership opportunities related to dental field
- Review pre-health website

Sophomore Year

- Meet with your general adviser
- Check in with a pre-health adviser
- Continue involvement with pre-health or other RSO
- Pursue meaningful clinical experiences (paid, volunteer, and/or research)
- Begin researching dental schools and DAT on ADA, ADEA and other sites

Junior Year

- Meet with your departmental adviser
- Meet with a pre-health adviser to strategize coursework, DAT, and application(s) timing
- Consider taking GEN ST 297, "Pre-Health Application Class" in winter or spring quarter
- Seek leadership position(s) in RSO or other activity
- Continue meaningful clinical experiences
- Finalize list of 10-15 dental schools
- Familiarize yourself with application to dental schools (AADSAS)
- Request recommendation letters

Spring quarter:

- Take DAT by mid-April or earlier
- Apply to dental schools beginning June 1

Senior Year

- Meet with your departmental adviser
- Meet with a pre-health adviser to prepare secondary application materials
- Prepare for campus visits and interviews
- Receive acceptances!
- Notify schools you will not be attending
- Complete UG coursework and graduate!
- Apply for financial aid as early as possible

Sample Schedule 2: Gap year
