Working with Emotional Intelligence,
by Daniel Goleman

“Nothing serves a leader better than a knack for narrative. Stories and role models, impart values, and show how to execute indescribably complex tasks.”

Fortune magazine, 1998

“Narrative helps us cope with a future that is evolving unpredictably. Conventional management techniques miss the fact that we cannot measure tomorrow when we don’t know what it will involve.”

“The Leader's Guide to Storytelling”

Steve Denning

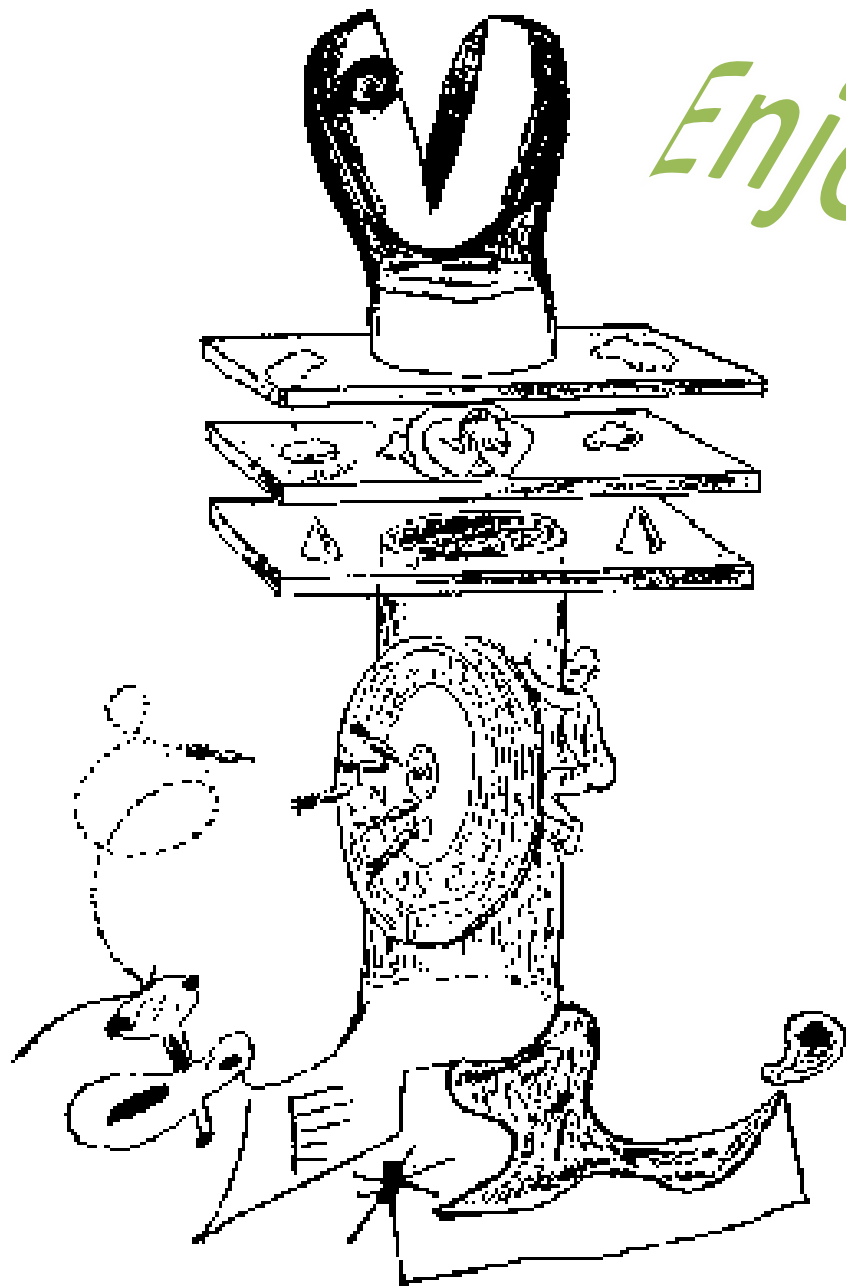

Pure psychic automatism, by which one to express, either verbally, in writing, or by any other manner, the real functioning of thought. **Dictation of thought in the absence of all control exercised by reason**, outside of all aesthetic and moral preoccupation.
