Committee Chair Regent Shanahan called the meeting to order at 10:20 a.m.
Committee Members Present: Shanahan (Chair), Blake, and Harrell.
Other Regents Present: Ayer, Jaech, Kritzer, Rice, Riojas, and Simon
Others present at the table: Provost Baldasty, Faculty Senate Chair Norm Beauchamp, and ASUW Seattle President Tyler Wu.

Regent Shanahan outlined goals for the Committee, citing his parents’ influence on him and how they taught him to make the most of limited resources.

1) Put together an effective capital process;
2) Don’t be in a position to react, but rather be intentional;
3) Be accountable for the resources entrusted to the University;
4) Have a vision for the University and develop this into a firm plan.

All these will help to attract more “investors” to fund the gaps to achieving the University’s goals.

Consent Agenda and Approval of Minutes

Hearing no objections, Regent Shanahan said that the minutes from the Committee meeting on October 8, 2015 and items F–1 through F–3 would be approved on the Consent Agenda.

She said there is currently high demand and overcrowding in residence halls. McCarty, Haggett, and McMahon, the existing north campus halls, are reaching the end of their useful lives and will demand extensive capital investment. Phase IV(a) proposes demolition of McCarty and replacement with three new buildings. Phase IV(b) will be demolition of Haggett and replacement with two new buildings. Thirty percent of the new rooms would be offered at lower rate options. At the completion of Phase IV, McMahon Hall will be studied to identify the appropriate options considering strategic needs and available resources and may be converted for academic use, remodeled for continued use as a student residence, or demolished, making the site available for future use. Mr. Wu advocated for student input into the process and decisions.

Bill Starkey, Senior Associate Treasurer, Treasury, was available to address concerns about the funding for the project.

Other Boards and Finance Committees across campus are reviewing their individual pieces. Regent Blake praised Richard Cordova, Executive Director, Internal Audit, for being proactive with an advance draft.

Regent Blake reported the Committee engaged in a discussion regarding internal controls best practices as recommended by NACUBO (National Association of College and University Business Officers) and reviewed an initial comparison of those standards and best practices to the current UW internal controls. The Committee noted that achievement of the standards set by the Sarbanes-Oxley Act (SOX) requires adoption of significantly improved financial reporting systems. The Committee also heard about the Finance Business Transformation project and expects UW to use change management lessons learned from the HR/Payroll project to assist in this project which will focus on the development of standards for business practices and internal controls for UW.
