NOTES:

1. The total represented is the total bridge funding distribution less returned funds
2. Does not include awards currently in extension
3. Average

Human Subjects Division (HSD)

These two graphs show incoming submissions for HSD’s full IRBs to be relatively stable. However, submission types have not been weighted to show the different amount of work each submission type represents for researchers and for HSD staff. For example, a new study application that needs full IRB review requires significantly more work and time on the part of both HSD staff and researchers than does a closure request.

HSD Minimal Risk Submissions Incoming Volume by Type and Month* - Last 13 Months

* For the purposes of this chart, this category includes Medical Records Review and Use of Non-Identifiable Biological Specimens/Data Review Determination.

**These totals reflect the type of form initially submitted and do not reflect any subsequent transfers (e.g., full IRB initial application later determined to qualify for expedited review).

HSD Minimal Risk Submissions Incoming Volume by Type and Month* - Last 5 Calendar Years

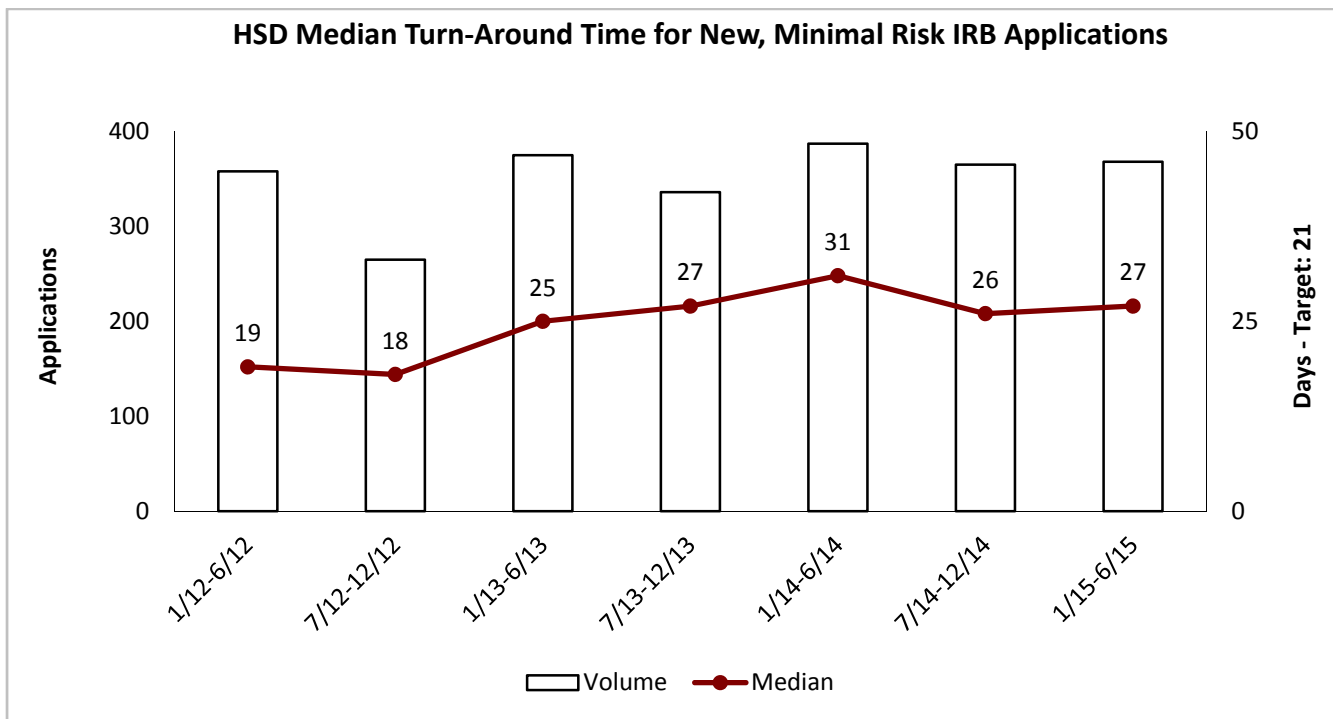

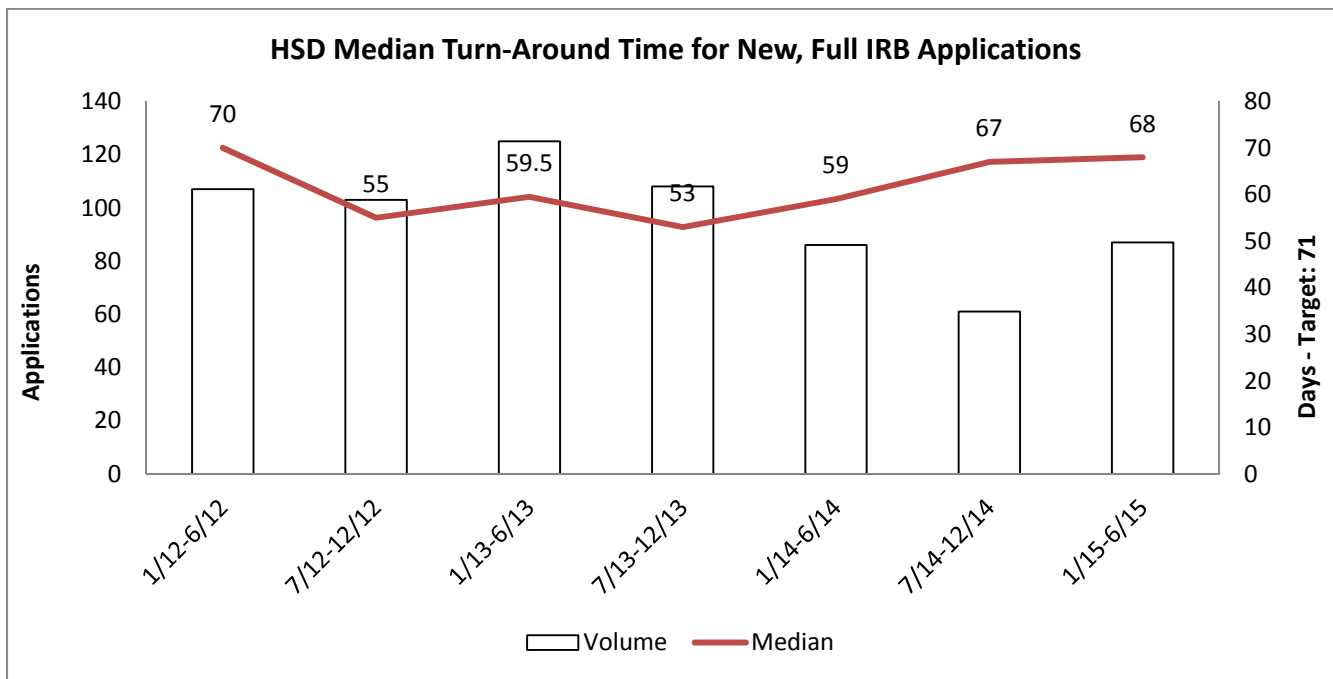

*For the purposes of this chart, this category includes Medical Records Review and Use of Non-Identifiable Biological Specimens/Data Review Determination.

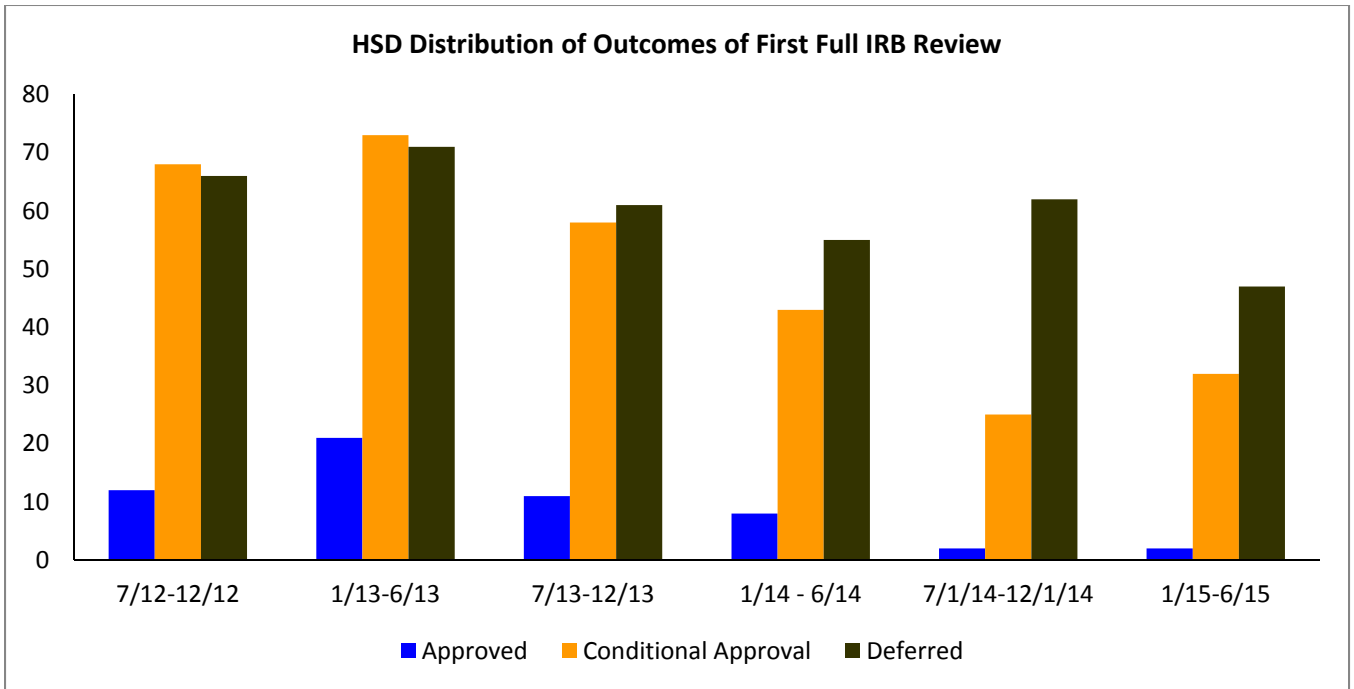

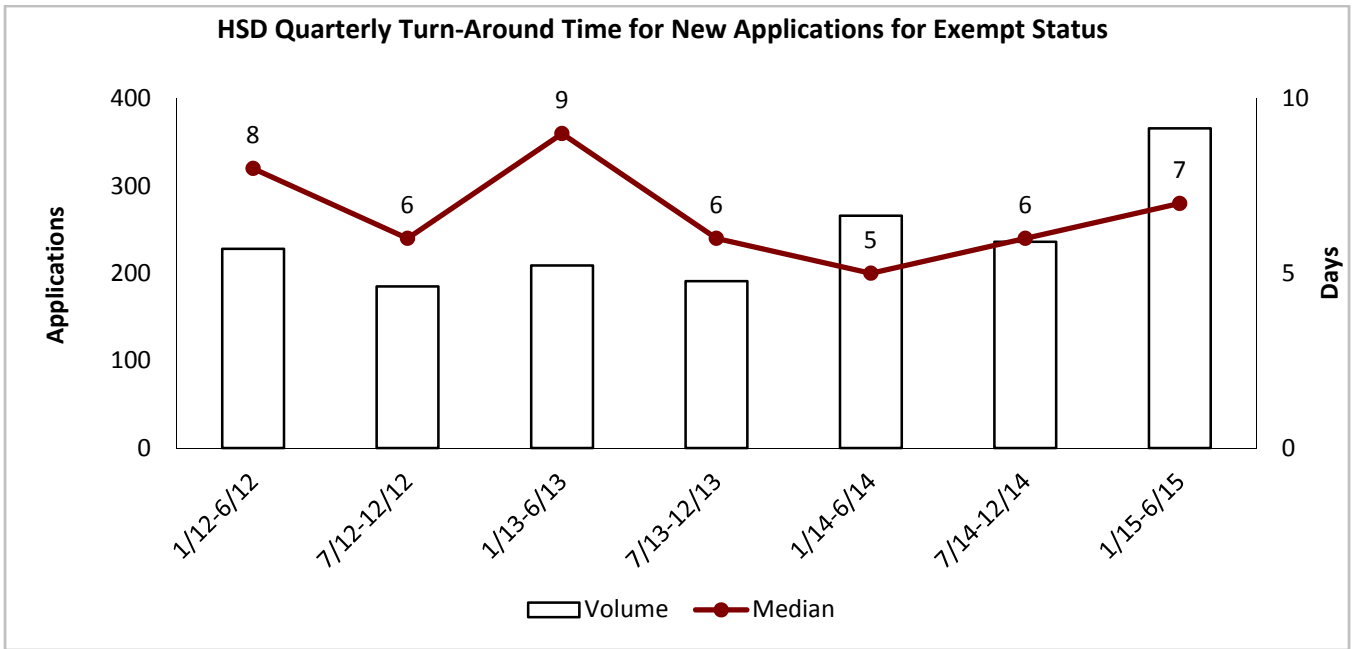

**These totals reflect the type of form initially submitted and do not reflect any subsequent transfers (e.g., full IRB initial application later determined to qualify for expedited review).

*** Initial Applications (Exempt) were included in Initial Applications (Expedited) for 2009 and 2010.

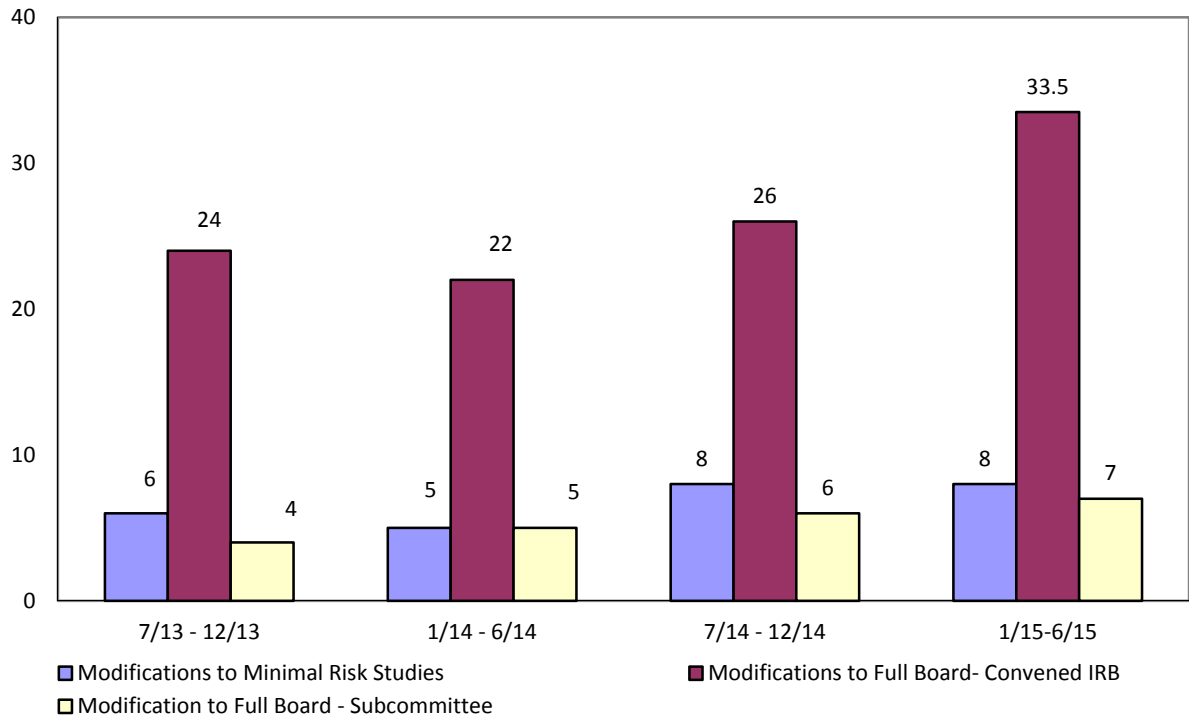

We believe the decrease in new expedited applications and new requests for Exempt status in the above graph is a reflection of recent HSD process improvement efforts. We have focused on taking advantage of flexibility in Federal regulations which allows us to eliminate work efforts where the risk to human subjects is low, decreasing our need to review some items.

***NOTE:** HSD is no longer calculating Turn-Around Times (TAT), distribution of IRB outcomes, or modification frequencies on a quarterly basis. As of Jan 2013, Turn-Around Time metrics will be available in early Feb each year for the period of July-December of the year prior, and in early August for the period of January-June of that year. However, HSD HAS added target Turn-Around Times for full board and expedited applications and ranges.

Median Turn-Around Time for Modifications (in Business Days)

External Trainings

Unit	Session Title	Action (Training/Outreach)	Sessions Within the Last 3 Months	Total Attendees Within the Last 3 Months

Guidance, Training and Outreach - Development & Updating

Unit	Name	Action (Development / Update)	Description
HSD	CORE Training Group	Development	Representatives from HSD, ORIS, and OSP are working together to create a centralized OR training website and supporting materials
HSD	Training Program for New Staff	Development	Continued developing materials and modules for training of new HSD staff
HSD	Compass Training Project	Development and Delivery	Intensive development of a training program for HSD staff around the changes with the Compass portfolio projects. Executive Training Committee met bi-weekly to oversee development. 18 comprehensive training modules were developed and implemented. Modules 1-11 were delivered during this reporting period.
