PRESIDENT'S MESSAGE

A university is a community of scholars and artists, a place where faculty and students communicate with each other to enrich human understanding. Universities have played an essential role in societies for hundreds of years, promoting learning and culture, generating new knowledge, and training professionals in specialized callings. The University of Washington is one of the finest universities in the world.

It is also an exciting place to be, with a lively interplay of teaching, research, and public service. Its contributions to the state, the nation, and the world will continue to grow as we face the challenges of the coming twenty-first century.

Richard L. McCormick

Richard L. McCormick, President

UW Homepage:
<http://www.washington.edu>

The University of Washington reaffirms its policy of equal opportunity regardless of race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam era veteran. This policy applies to all programs and facilities including, but not limited to, admissions, educational programs, employment, and patient and hospital services.

Any discriminatory action can be a cause for disciplinary action. Discrimination is prohibited by Presidential Executive Order 11246 as amended; Washington State Gubernatorial Executive Orders 89-01 and 93-07; Titles VI and VII of the Civil Rights Act of 1964; Washington State Law Against Discrimination RCW 49.60; Title IX of the Education Amendments of 1972; State of Washington Gender Equity in Higher Education Act of 1989; Sections 503 and 504 of the Rehabilitation Act of 1973; Americans with Disabilities Act of 1990; Age Discrimination in Employment Act of 1967 as amended; Age Discrimination Act of 1975; Vietnam Era Veterans' Readjustment Act of 1972 as amended; other federal and state statutes, regulations, and University policy. Coordination of the compliance efforts of the University of Washington with respect to all of these laws and regulations is under the direction of the Assistant Provost for Equal Opportunity, Dr. Helen Remick, University of Washington, Equal Opportunity Office, Box 354560, 4045 Brooklyn Avenue Northeast, Seattle, WA 98195, telephone (206) 685-3263/V or 543-6452/TTY.

Additional information concerning the equal opportunity and affirmative action policies and procedures, including complaint procedures, is in the *Operations Manual*, D46.1, D46.2, D46.3, and D46.4, and the *UW Handbook*, Vol. IV, p. 44.

Information on reasonable accommodation for students with disabilities is available from the following offices: for classroom and academic-related accommodation, call Disabled Student Services at 543-8924/V, 543-8925/TTY, or email at uwds@u.washington.edu; for other non-academic related information and accommodation, call Disability Services Office at 543-6450/V, 543-6452/TTY, or email at access@u.washington.edu.

Copies may be purchased from the University Book Store, 4326 University Way Northeast, Seattle, Washington 98105, telephone (206) 634-3400.

Postmaster: Send address changes to University of Washington, Box 355835, Seattle, Washington 98195.

Dates in this calendar are subject to change without notice. A detailed calendar with the latest information on registration is printed in each issue of the quarterly *Time Schedule*.

USING THE GENERAL CATALOG

The material in this catalog has been compiled and organized to provide the reader with a comprehensive overall view of the programs and courses at the University of Washington. It includes academic requirements and procedures necessary for admission and graduation. Information on programs, faculty, and courses is usually arranged in alphabetical order following departmental structure within each school or college.

Because curriculum revisions and program changes usually occur during the two-year period the *General Catalog* is in circulation, students should assume the responsibility of consulting the appropriate academic unit or adviser for more current or specific information. The quarterly *Time Schedule* gives information on courses offered, class hours, and classroom locations, and has the latest calendar dates, fees, and details on registration.

All announcements in the *General Catalog* are subject to change without notice and do not constitute an agreement between the University of Washington and the student.

Founded in 1861, the University of Washington is the oldest state-assisted institution of higher education on the Pacific coast. From its original site on a 10-acre tract of wooded wilderness that is now located in downtown Seattle, the campus has grown to comprise 703 acres of trees, landscape, and buildings. Located between the shores of Lake Washington and Lake Union, it is in a residential section of the city that long has been considered one of the most attractive in the nation.

Enrollment at the University in autumn quarter 1995 was 33,996, of which 24,838 were undergraduates and the balance were in professional and graduate programs. Approximately 90 percent of the undergraduates enter as freshmen from Washington high schools or as transfer students from Washington community colleges or other colleges and universities in the state. The grade-point average for the regularly admitted freshman class entering in autumn quarter 1995 was 3.60. In 1995, the full-time teaching faculty of the University numbered 2,700 members.

The University recognizes as one of its highest educational priorities the need to increase the number of qualified minorities in certain academic fields and professions to which they have been historically denied access or have been traditionally underrepresented. Special educational support services are provided through the Office of Minority Affairs and the Graduate School's Minority Education Division to facilitate the entry of persons from underrepresented minorities and to enhance their likelihood of success while attending the University.

Academic Assessment

As part of an ongoing effort to assure the quality of the education received by its students, the UW has instituted a comprehensive assessment program designed to measure student learning outcomes. This assessment program conforms with guidelines established by the state's Higher Education Coordinating Board. From time to time, students may be asked to participate in outcomes assessment by completing satisfaction surveys, sitting for achievement examinations, compiling portfolios of their academic work, or providing other academic performance indicators. The purpose of all such activities is to monitor the quality of our academic programs.

While it is a University requirement that students participate in these assessment activities when asked to do so, participants can be assured that assessment results will be treated in the strictest professional confidentiality. Whenever those results appear in University assessment reports or other public documents, they will be presented anonymously and in aggregate fashion.

Academic Sessions

University instruction is offered during autumn, winter, and spring quarters, each lasting approximately 11 weeks. The 9-week summer quarter is divided into two 4½-week terms.

Accreditation

The University is accredited by the Northwest Association of Schools and Colleges and is a member of the Association of American Universities. Individual schools and colleges are members of the various accrediting associations in their respective fields. Currently enrolled or prospective students should contact the Office of the Registrar to review accreditation documents for the University and the respective department to review programmatic accreditation documents.

Academic Programs

The University offers a wide range of undergraduate, graduate, and professional degree programs. In addition to these programs, the following educational opportunities are available.

Certificate Programs

UW Extension offers more than 50 carefully planned credit and noncredit certificate programs of study in several areas. Some certificate programs address such personal interest areas as film, writing, and sound production. Other programs focus on specific careers in business, industry, and technology, offering specialized training that supplements other education and work experience. Students are prepared to enter new fields or to grow professionally in areas ranging from accounting to C programming to project management. All certificate programs and instructors have been approved by the appropriate academic units. Programs are designed by advisory boards consisting of leading professionals in the field and UW faculty. To accommodate working professionals, UW Extension schedules most classes to meet evenings or week-ends. Course fees and admission requirements vary, and enrollment in all certificate programs is limited. More information may be obtained by consulting the quarterly UW Extension catalog, available by telephone, (206) 543-2320.

Evening Classes

Opportunities for evening study at the University are varied to serve individual student interests and academic goals. Matriculated students may enroll in day or evening courses listed in the quarterly *Time Schedule*. For nonmatriculated (not formally admitted) students, UW Extension offers hundreds of evening credit and noncredit courses, which are described in the UW Extension section of this catalog. Matriculated students enrolling in courses listed only in the UW Extension catalog pay course fees in addition to regular tuition.

Evening Degree Program

Students can complete a bachelor's or a graduate degree in the evening through the UW Evening Degree Program on the Seattle campus. A wide variety of courses are scheduled for the convenience of evening degree students.

Evening students can earn baccalaureate degrees offered by the College of Arts and Sciences in anthropology, communications, English, general studies, history, humanities, political science, psychology, social sciences, and sociology. The School of Business Administration offers the Bachelor of Arts in Business Administration degree in the evening. Graduate level programs include a Master of Science in Construction Management, the Master of Social Work (M.S.W.), the Master of Professional Accounting (M.P.Acc.), and the Master of Public Administration (M.P.A.). Beginning in autumn 1996, evening degree students can enroll in degree programs leading to the Master of Business Administration (M.B.A.), and the Master of Education (M.Ed.) and the Doctor of Education (Ed.D.) in educational leadership and policy studies with an emphasis on higher education. For more information on this program call (206) 543-6160 or 543-0898 (TDD).

Summer Quarter

During summer quarter, more than 2,000 courses in most major fields are available to graduate and undergraduate students pursuing degree programs on a year-round basis as well as to summer-only students seeking to broaden, intensify, or refresh their subject-matter competence. Summer-only students can apply for admission as nonmatriculated students, and can earn credits which may apply toward a degree at another college. This status also accommodates teachers and school administrators who take special interest courses to earn additional university credits and postbaccalaureate students who do not desire formal admission to a graduate, or second undergraduate, program. Freshman students entering from high school are encouraged to begin their college work

THE UNIVERSITY

in the summer in the Freshman Summer Start Program. Through the Office of Admissions, enrollment in summer courses may be arranged for specifically qualified students who have not yet completed high school.

Credits earned during summer quarter are evaluated as residence credits; and, with the exception of separate fee schedules for medical and dental students, summer quarter fees closely parallel those of the other quarters. Nonresidents and residents pay the same fees during the summer.

A complete listing of summer quarter courses is published in the Summer Quarter bulletin, available on request from the University of Washington, Office of Summer Quarter, Box 354224, Seattle, WA 98195, telephone (206) 543-2320 or 1-800-543-2320.

UW Bothell and UW Tacoma

The University offers bachelor's and master's degree programs at the Bothell and Tacoma campuses designed to provide additional educational opportunities principally for residents of the Central Puget Sound region. The campuses are located in Bothell, 20 miles to the north of the Seattle campus, and in Tacoma, 35 miles to the south. Undergraduate programs at Bothell and Tacoma are offered at the upper-division level, for students who have already completed the first two years (90 credits) of undergraduate study. At the present time the following degree programs are available at both campuses: Bachelor of Arts in Liberal Studies, with concentrations in U.S. studies and international studies; Bachelor of Arts in Business Administration, with concentrations in marketing and management; Bachelor of Science in Nursing (designed for registered nurses) and Master of Nursing; and the Master of Education. In addition, a Teaching Certificate Program is available at both campuses for students preparing to teach at the K-8 grade levels. Further information is provided in the University of Washington, Bothell and University of Washington, Tacoma sections of this catalog.

Resources and Facilities

Burke Museum

The Thomas Burke Memorial Washington State Museum serves both the University and the public in its mission to encourage understanding of, and appreciation for, the natural and cultural heritage of Washington State, the Pacific Northwest, and the Pacific Rim. The Burke has three scientific divisions—anthropology, geology, and zoology—holding over three million specimens. Collections of national and international ranking include those of Northwest Indian art, Northwest archaeology, vertebrate and invertebrate paleontology, mammals, and birds. Other noteworthy collections include Asian and Pacific ethnography, minerals and gems, paleobotany, mammals, arachnids, lepidoptera, and micropaleontology.

The collections are accessible for research by UW faculty, students, and visiting scientists. The museum's public galleries feature an active schedule of special exhibits, as well as long-term exhibits of Northwest Coast Native art and highlights from the geology and zoology collections. Hours are 10 a.m. to 5 p.m. daily except July 4th, Thanksgiving, December 25th, and January 1st. Admission is free to UW staff and students.

Computing & Communications

The diverse computing needs of instructional and research groups on campus are served by centralized organizations as well as individual schools, colleges, and departments. Together these provide a variety of computers, facilities, and support services to members

of the UW community. Computing & Communications (C&C) is the central UW organization for computing and networking, and it offers an array of computing options and services.

Students, faculty, and staff members can create their own Uniform Access accounts on multi-user computers provided by C&C, which give them access to tools for teaching, learning, and research. They can use Internet resources and the World Wide Web, including a Web server where they can create their own Web pages. They can browse the UW course catalog and *Time Schedule*, use electronic mail to communicate with classmates and colleagues; get lists of campus events; research term papers; search library catalogs; use software for statistics, graphics, programming, and text formatting; and use their own computer and modem to dial in to their accounts from off campus.

Two C&C drop-in computer labs are ideal places to explore computer resources. These labs offer PC and Macintosh computers and X terminals (terminals using a graphical windowing system) connected to the campus network and computers with special adaptive equipment to assist people with motor, visual, hearing, or learning impairments. In addition, resources are available in the Locke Visualization Lab (located in the Health Sciences Center) to help faculty, staff, and students doing research to prepare presentations, publications, teaching tools, or Web pages.

C&C, in association with the UW Libraries, has developed extensive information resources including library catalogs and bibliographic databases that are available on the campus network via the UW Web page at <http://www.washington.edu> or the UW Information Navigator (UWIN). C&C provides other computing-associated services, such as telecommunications services; UWTV programming, individual consulting, microcomputer and workstation support, training, administrative systems support, publications, and online documentation.

For details about the computing resources available on campus through C&C (including how to get started and how to find free or low-cost training), see the Computing & Information Technologies Web page at http://www.washington.edu/tech_home/ or look in UWIN under Computing & Information Technologies. Other questions can be answered by sending email to: help@cac.washington.edu or by calling 543-5970.

Early Entrance Program

A unique UW program provides early University entry to exceptionally bright, highly motivated adolescents who are ready for college-level work by age fourteen, the usual age of entering high school. A transition school provides an intensive, one-year bridge to regular, full-time University enrollment; counseling support and a "home base" are also provided to full-time students. Information is available from the Halbert Robinson Center for the Study of Capable Youth, Guthrie Annex II, 543-4160.

Office of Educational Assessment

Testing and educational evaluative services for University departments and individual students are available at the Office of Educational Assessment. Of particular interest to prospective and entering students are the office's programs for admissions testing, including the Scholastic Aptitude Test (SAT), and for placement testing in mathematics and foreign languages. For the University student approaching graduation, the Office administers tests required for admission to graduate, law, medical, and other professional schools, as well as those tests often requested by prospective governmental or private employers. The Office is located on the fourth floor of Schmitz Hall.

English As A Second Language Department

The English As A Second Language Department offers a variety of courses to nonnative speakers of English from many different countries. Additional information appears in the University Extension section of this catalog.

Hall Health Primary Care Center

The University provides outpatient health and medical care for students through the Hall Health Primary Care Center. Located on campus, the Center is staffed by physicians and nurse practitioners and is accredited by the Accreditation Association for Ambulatory Health Care.

Services include preventive care, health education, and diagnosis and treatment of illness or injury.

The following specialties are represented: dermatology, family planning, family practice, pediatrics and prenatal services, minor out-patient surgery, gynecology, internal medicine, orthopaedics, physical therapy, psychiatry, and sports medicine. Common conditions in other specialties also may be treated. The Health Education staff offer a variety of health promotion services including providing learning resources, assistance with self-care, and educational programs.

All regularly enrolled UW students are eligible for health service upon presentation of a current University student identification card. Most office visits are subsidized through the student activities fee. Modest fees are charged for x-rays, laboratory tests, physical examinations, mental-health visits, physical therapy, travel consultations, allergy injections, and a few other services. Students must pay for outside laboratory and medical services and for prescriptions filled at the pharmacy.

Dependents of students are welcome at Hall Health Primary Care Center and are eligible for care on a fee for service basis. Fees are comparable to community rates and insurance companies are billed whenever possible.

Hall Health Primary Care Center is a provider of most managed care plans including the Basic Health Plan and Healthy Options.

Student health insurance, available through the UW, should not be confused with services through Hall Health Center. A student may use Hall Health Center services without having student insurance. For major

surgery and the occasional illness of exceptional severity that requires treatment elsewhere, the student should protect himself or herself against the expense by obtaining student health insurance. A low-cost medical-surgical-hospital policy, designed to meet those specific needs, may be purchased at the time of registration.

Hall Health Primary Care Center is open Monday, Thursday, and Friday from 8 a.m. to 5 p.m.; Tuesday from 9 a.m. to 5 p.m.; Wednesday from 8 a.m. to 8 p.m.; Saturday from 9 a.m. to 3 p.m.

Additional information may be obtained from Hall Health Primary Care Center, Box 354410, University of Washington, Seattle, WA 98195, (206) 685-1011.

Henry Art Gallery

The Henry Art Gallery, the art museum of the University, brings to the campus and the community special exhibitions of contemporary and historical work in all media. The offerings include exhibitions, lectures, symposia, and an active publishing program. The University's permanent collection includes a large research collection of ethnic textiles and Western dress as well as a small but distinguished collection of European and American paintings, prints, drawings, photographs, and contemporary American ceramics and Japanese folk pottery.

The Henry is in the midst of a major expansion project which will quadruple the size of the museum when it reopens in early 1997. Renovation and expansion design is by internationally acclaimed architect Charles Gwathmey and will result in increased access to exhibitions and collections for students, classes, and researchers.

The Henry Gallery Association offers membership to students, faculty members, and the community for the purpose of supporting the museum's programs. UW students are admitted free at all times. Please call the Henry at 543-2281 for details.

Intercollegiate Athletics

The Department of Intercollegiate Athletics operates an integrated program for men and women. Intercollegiate competition is limited to full-time students.

There are 12 women's teams: cross-country, soccer, volleyball, gymnastics, basketball, swimming, indoor track, tennis, golf, softball, outdoor track and field, and crew. Women's competition is in the ten-team Pacific-10 Conference (Pac-10).

Eleven sports are offered for men's competition: baseball, basketball, crew, cross-country, football, golf, soccer, swimming, tennis, indoor track, and outdoor track and field. Men's teams compete on a full Pacific-10 Conference schedule, as well as with other institutions locally, regionally, and nationally. The University is a member of the National Collegiate Athletic Association.

Facilities available to intercollegiate athletic teams are Hec Edmundson Pavilion, Pavilion Addition, Husky Stadium, Graves Baseball Field, Husky Softball Field, Conibear Shellhouse and other crew facilities on Lake Washington at the eastern boundary of the campus, the Lloyd Nordstrom Tennis Center, and a variety of golf courses throughout the greater Seattle area.

Office of International Programs and Exchanges

The Office of International Programs and Exchanges (OIPE) administers and cooperates in more than 40 international study programs in Latin America, Europe, the Middle East, Africa, and Asia. Qualified undergraduate and graduate students are enrolled concurrently at the University and abroad, earning UW credit and maintaining residency and financial aid eligibility. Quarter, semester, and academic year programs are offered. Opportunities for study include language and

liberal arts courses in Avignon, Cologne, Guadalajara, Jerusalem, London, and Siena; advanced language programs requiring two to three years college-level language preparation in Beijing, Cairo, Granada, St. Petersburg, Mexico City, and Rennes; and specialized professional programs in such sites as Denmark, England, Finland, and Japan. The University also has reciprocal exchange agreements with major research institutions abroad, including universities in Tokyo, Mexico City, Montpellier, and Tübingen and the Institut d'Études Politiques in Paris. These arrangements allow qualified UW students to enroll in regular courses at the foreign university and maintain full UW standing.

Many overseas programs are supported by scholarships from private endowments. Additional scholarship support is available to undergraduate students and special consideration is given to underrepresented minority students.

Program information and counseling are available in the Office of International Programs and Exchanges, 516 Schmitz, Box 355815; telephone (206) 543-9272; email: oipec@u.washington.edu.

Language Learning Center

The Language Learning Center (LLC), located in the daylight basement of Denny Hall, provides support and services to the university community for the teaching, learning, and researching of languages and cultures. Available services include: audio cassette listening/recording facilities; duplication of audio cassettes onto user cassettes; sale of pre-recorded audio cassettes; facilities for viewing video tape, CD-ROM, laserdisc, and satellite materials; and access to foreign telecasts via satellite. The LLC has recording facilities and several electronic classrooms equipped with audio, video, and cable television equipment. Instructors can reserve the electronic classrooms for speaking/listening practice, viewing of foreign video tapes and satellite programming, and informal conversation practice. Computer-Assisted Language Learning (CALL), integrated with

digital multimedia, is available to students enrolled in targeted UW language classes for which programs have been developed.

University Libraries

The University Libraries, with more than five million volumes, consists of the Suzzallo and the Allen Libraries, Odegaard Undergraduate Library, Health Sciences Library and Information Center, East Asia Library, 15 branch libraries, and the UW Bothell and UW Tacoma Libraries. The University Libraries maintains nationally-ranked collections in fisheries, forestry, East Asian languages and literature, Scandinavian studies, and Slavic and South Asian area studies. In addition to books and periodicals, the libraries' holdings include archival materials and manuscripts, maps, newspapers, microforms, research reports, media materials, CD-ROMs, government publications, photographs, and architectural drawings. The UW Libraries Catalog is a fully integrated, computerized system that provides bibliographic information and circulation status for the cataloged holdings of the University Libraries. The University Libraries and Computing & Communications are working together to provide electronic access to a multitude of information sources—online catalogs, journal databases, the daily news, the weather, an encyclopedia, the Internet—through UWIN, the University of Washington Information Navigator.

The Suzzallo and Allen Libraries, a combined facility, houses the major social sciences and humanities collections. The Suzzallo Library serves as the central acquisitions and processing unit of the campus libraries' system and contains the interlibrary borrowing service, fee-based document delivery service (Library Express), fee-based research service (Research Express), and the public service divisions of Government Publications, Microform and Newspaper Collections, Reference and Research Services, Periodicals, and International Studies (Near East, Slavic and Eastern Europe, South Asia, and Southeast Asia). Reference

assistance is available most hours the library is open. The Allen Library houses the Natural Sciences Library, the Special Collections and Preservation Division, which includes the Pacific Northwest Collection, and Manuscripts and University Archives. The Libraries' administrative offices are also located in Allen.

The Odegaard Undergraduate Library (OUGL) collection supports the undergraduate curriculum and is interdisciplinary, with an emphasis on materials in the social sciences and the humanities. The primary reserve unit for non-health sciences classes is in OUGL. Media services and materials for course-related usage are provided in the University Libraries Media Center in OUGL. Many of the study materials needed by undergraduates may be found in this library. OUGL librarians also offer classes on how to use the library, including computerized indexes and search strategies for term papers.

The Health Sciences Library and Information Center (HSLIC) collection houses the largest and most comprehensive collection of health sciences materials in the Pacific Northwest. The library supports education, research, and patient care in the fields of dentistry, medicine, nursing, pharmacy, public health, and social work, as well as in the related behavioral, biological, and quantitative sciences. In addition to a print collection of almost 350,000 volumes, the library offers access to a wide range of non-print resources and provides extensive user services, including curriculum-based microcomputer instructional support; interlibrary loan services for health sciences personnel; and document delivery services for affiliates and non-affiliates. Services to faculty and students at Harborview Medical Center are provided through the K. K. Sherwood Library in Harborview Hall. Services to the School of Social Work are provided through a library located in the School of Social Work Building. HSLIC serves as headquarters for the National Network of Libraries of Medicine/Pacific Northwest Region (NN/LM, PNR), with responsibility for promoting access to biomedical information resources in Alaska, Idaho, Montana, Oregon, and Washington. The library houses administrative offices for the UW Health Sciences Center IAIMS (Integrated Advanced Information Management System) program and the HSLIC/School of Medicine's Research Funding Service.

The East Asia Library is one of the major resource centers of its kind in the United States and is an international leader in the provision and development of automated services for its subject areas. The collections are especially strong in anthropology, archaeology, economics, history, art, languages, literature, law, music, political science, religion, and sociology with respect to the histories and cultures of China (including Taiwan and Hong Kong), Japan, Korea, Inner Asia, and Tibet.

University Research Facilities

In addition to the campus facilities described in this section, the University has numerous educational and cultural resource centers. Academic or research activities and facilities that are of general significance in all or many fields of knowledge throughout the University are listed in the Research section of this catalog; others are described in individual school or college sections.

University Theatres

The School of Drama operates three theatres: the Playhouse, with a thrust stage; the Penthouse Theatre, the first theatre-in-the-round built in America; and Meany Studio Theatre, which seats approximately 300 and contains a proscenium stage. Faculty- and student-directed plays drawn from the full range of world dramatic literature are presented throughout the year.

The School also mounts annual productions in the two theatres of Meany Hall, and it gives technical and design support to opera and dance productions of the School of Music.

Women's Center

The Women's Center, located in Imogen Cunningham Hall, promotes the advancement of women on campus and in the community by offering a wide variety of non-credit workshops and classes including college success classes (GRE preparation courses, computer, and writing classes); career and financial classes; and fitness, health, and creativity classes. The Center provides services for women reentering the University and houses a modest library with a job board and scholarship information as well as the Cunningham Gallery which features fine arts and crafts for viewing or purchase.

Housing and Food Service

University-Owned Housing

Students with disabilities that require special accommodations receive first priority for assignment to University Housing.

Residence Halls

The UW provides housing for about 4,000 students in seven residence halls. All are located within easy walking distance of classrooms and other campus facilities. Food service is available to residence hall students at locations throughout the campus through the use of *À La Carte Plus*™, a debit card system. Students live in an environment of responsible freedom, and a residential life staff enhances the University experience through a variety of educational, cultural, and social programs.

Interest houses in the residence halls are available for students seeking a particular learning experience. These special living environments include Freshman House, Outdoor House, International House, and Russian House.

To obtain more information and applications for residence halls, call (206) 543-4059 or write to the Student Services Office, 301 Schmitz, Box 355842, Seattle, WA 98195.

Single-Student Apartments

The University also has apartments available for 520 single students, 20 years of age or older. Stevens Court provides four- and six-bedroom apartments, that have private bedrooms, a common kitchen and living room, and bathrooms.

An application form or additional information on single-student apartments may be obtained by writing to the Student Services Office, 301 Schmitz, Box 355842, Seattle, WA 98195, or calling (206) 543-4059.

Family Housing

Convenient and economical apartment housing is available for about 500 student families. Community programs for adults and children are presented by the Family Housing and Single Student Apartments Resident Services Office. To obtain information about family housing facilities, eligibility requirements, and application procedures, write to the Student Services Office, 301 Schmitz, Box 355842, Seattle, WA 98195, or call (206) 543-4059.

Food Service

University Food Services operates dining facilities throughout the campus. The diverse schedules and dietary preferences of the campus community are accommodated by providing full meal service, *à la carte* menu items, and catering services as well as convenient hours of operation.

Food may be purchased through the *À La Carte*™ program at all University Food Services facilities and two on-campus convenience stores. This program, available to the entire campus community, offers pre-paid meal service through use of a debit card. The *À La Carte*™ program provides the flexibility for purchase of food at many locations on campus. For more information on the *À La Carte*™ program, call (206) 543-7222.

Transportation and the U-PASS

The U-PASS transportation program makes numerous commute options available at a deeply discounted price. With a U-PASS sticker, you gain access to unlimited rides on all Metro and Community Transit routes, carpool parking, and the Night Ride (a night van service to nearby neighborhoods)—all for the price of the pass. In addition, the U-PASS subsidizes a vanpool program, and a number of local merchants offer discounts to pass holders. U-PASS funds have also provided bicycle improvements, including more secure racks, lockers, the East Campus bike route, and other safety improvements around campus.

Student parking is available for a daily fee in the E1 lot on Montlake Boulevard NE, on the east side of campus. Two-person carpools may park free in the E1 lot by arriving between 7:00 a.m. and 9:30 a.m. Student carpools with three U-PASS holders may park free on main campus. A few parking permits are available from Parking Services to commuter students on a first-come, first-served basis the first day of each quarter.

For more information, visit a staffed Commuter Center at Parking Services, 3901 University Way; South Campus Parking, T-466A Health Sciences; or the HUB information desk. Unstaffed Commuter Centers, which contain brochures and bus timetables, are located at By George, Schmitz Hall, the Visitors Information Center, E Court Cafe (Health Sciences Center), South Campus Center, and the UW Medical Center main entrance.

Student Services

Office of the Vice President for Student Affairs

The Division of Student Affairs assists the University in fulfilling its academic mission by providing a broad range of services and programs designed to further the educational and personal development of students. The Division consists of ten units: Admissions and Records, Center for Career Services, Student Counseling Center, Disabled Student Services, Housing and Food Services, International Services Office, Recreational Sports Programs, Student Financial Aid, Student Publications, and Student Activities and Union Facilities.

Students are encouraged to contact the Office of the Vice President for Student Affairs, 543-4972, 476 Schmitz, for information concerning various aspects of extra-class life at the University.

Center for Career Services

The University's Center for Career Services, which includes a Minority Job Placement Program, offers career information and services to assist undergraduates, graduate students, and degree- or certificate-holding alumni (1) to make a viable connection between their academic backgrounds and their career or long-range employment objectives, (2) to develop effective job-seeking strategies, and (3) to find suitable employment upon leaving the University or to change employment thereafter.

A variety of programs are offered and include individual and group career counseling, job search seminars, career-related internships, an annual career fair, employer and alumni career panels, mock interviews, a résumé database, campus interviews, and summer employment listings. A 24-hour telephone jobline to access internship and noncareer-related jobs is also available.

Students are encouraged to begin using the services of the Center early in their academic careers. This is best accomplished by visiting the Center at 301 Loew Hall or calling 543-0535 to make an appointment with a career counselor.

Childcare Program

The Childcare Program provides eligible student-parents with direct financial assistance to purchase services at licensed childcare facilities in the Seattle-King County area. To apply, students must submit the Free

Application for Federal Student Aid (FAFSA) to the designated processor and a Childcare Request Application to the Childcare Office, 466 Schmitz. Brochures describing the program are available at 466 Schmitz, 543-1041.

Student Counseling Center

All matriculated students at the University may make use of the services of the Student Counseling Center and its staff of psychologists and counselors to discuss educational progress, personal concerns, or career goals. Individual, couples, and group counseling is provided for a variety of issues including academic, career, personal, and social. Psychological tests, when necessary, are provided as part of the Center's counseling service. The video, *Where There's A Will, There's An A*, is a component of academic counseling. Workshops on special topics such as test anxiety, time management, test taking, note taking, and stress management are also available. There is a small fee for services.

Students are not charged for the first assessment appointment, which is provided to determine if the Student Counseling Center's services are appropriate. Individual appointments after the first visit currently cost \$16 each. Fees for participation in the group program range from \$40 to \$80. For students financially unable to pay the fee, efforts are made to find other alternatives. The Center is located on the fourth floor of Schmitz Hall.

Treatment for substance abuse and long term therapy (beyond 15 sessions) is not provided.

Disabled Student Services

The University provides program access to students with either permanent or temporary disabilities through a variety of services and equipment. The Disabled Student Services (DSS) Office coordinates academic accommodations for enrolled students with disabilities. Accommodations may include classroom relocation, sign language interpreters, recorded course materials, notetaking, and priority registration. DSS also provides needs assessment, mediation, and referrals.

Services must be arranged in advance and require documentation of the disability.

Technical and adaptive equipment is available through both DSS and Computing & Communications. Information and equipment locations on campus may be obtained from DSS. Publications include: *Access Guide*, (showing classroom access, elevator locations, ramps, parking, and restrooms), *Campus Mobility Map*, *Adaptive Equipment List*, and a quarterly newsletter.

To the maximum extent possible, students with disabilities are integrated into the general student population and their problems are solved through the usual channels. Various other departments offer additional services: Transportation Department provides free on-campus transportation with wheelchair lifts through Dial-a-Ride, (telephone 685-1511), UW Night Ride (after 6 p.m., telephone 799-4151).

Additional information is available from Disabled Student Services, 448 Schmitz, Box 355839, 543-8925 (Voice/TT).

Student Health Insurance Program

An accident and sickness insurance plan is available to matriculated University students (Seattle campus) and their dependents on a voluntary basis. A student may enroll in the plan at the time of registration each quarter. The appropriate premium must be paid by the quarterly tuition due date. Brochures describing the insurance eligibility, coverage, and costs are available at the Student Insurance Office, 466 Schmitz, telephone (206) 543-6202, Hall Health Center, HUB, and information window in Schmitz Hall.

The University also sponsors a field-trip accident insurance plan. Application forms may be requested from the Risk Management Office, 22 Gerberding, Box 351276, telephone (206) 543-3419.

Insurance for Foreign Students

All students from foreign countries are required to have a health-and-accident insurance policy in force while registered at the University. This may be achieved by purchasing either the student accident and sickness insurance offered through the University or other coverage, of which proof must be furnished to the International Services Office and for which an insurance waiver must be obtained. To avoid cancellation of registration, international students must pay tuition and either pay for the University-sponsored insurance or have a waiver on file by the tuition due date.

International Services Office

The International Services Office provides assistance to international students, scholars, and faculty in meeting United States Immigration and Naturalization Service regulations dealing with such matters as maintaining lawful status, extensions of stay, transfers of schools/programs, and working authorizations. The Office also provides a formal orientation to the campus and community for new international students and visiting faculty; advice and counsel for educational, financial, and personal problems; dissemination of important and timely information through newsletters and workshops. The Office is located in 459 Schmitz, 543-0841.

Office of Special Services

The Office of Special Services, 460 Schmitz, assists students eligible for veterans' educational benefits, including tuition or fee reductions; advises and monitors students who must meet English As A Second Language requirements; and administers other tuition reduction programs (see Procedures and Fees section below).

THE UNIVERSITY

Office of Student Financial Aid

The Office of Student Financial Aid, 105 Schmitz, administers federal, state, and private financial aid programs designed to help students pay for their education. Assistance is offered in the form of grant aid, scholarships, long-term loans that must be repaid after leaving school, and work opportunities. An information packet describing the different programs, eligibility criteria, and application procedures may be obtained by telephoning, (206) 543-6101.

Both undergraduate and graduate students may apply for aid through the Office of Student Financial Aid; graduate student assistance is generally limited to long-term loans and work opportunities. Information on graduate fellowships, scholarships, and teaching and research assistantships may be obtained from the graduate program coordinator in the individual department or program (see Graduate School section of this catalog).

To be eligible for financial aid, an individual must be a citizen or permanent resident of the United States and be admitted to the University as a matriculated, degree-seeking student. Priority consideration is given to students who apply before the University's financial aid application deadline of February 28 (e.g., February 28, 1997 for the academic year beginning in September 1997).

The Office of Student Financial Aid also administers a short-term emergency loan program for full-time students who find themselves in temporary, severe financial difficulty. University students may take advantage of the short-term emergency loan program without applying for financial aid.

Student Legal Services

Student Legal Services provides legal advice, counseling, negotiating, and court representation in many legal matters. All currently enrolled undergraduate and graduate students are eligible for a free initial consultation. If additional services are needed, there is an hourly charge of \$10, plus a minimal supply fee and court costs, if any. The Office is staffed by third-year

law students supervised by licensed attorneys, including a staff attorney. Students may telephone 543-6486 or visit the Office, 31 Brooklyn Building, Box 354563, 4045 Brooklyn Avenue NE, to make an appointment or to learn more about the Office's services.

Student Publications

Student publications at the University include the *Daily* and the *Student Directory*. The *Daily* is published Monday-Friday mornings throughout the academic year and is distributed on campus without charge. During summer quarter, the *Daily* is published once a week. Any student with an interest in journalism may serve on the *Daily* staff.

Student Union Facilities

The Husky Union Building and the South Campus Center are the principal centers of student activities and programs on the campus.

Student Union Building

The Husky Union Building (HUB) houses a variety of facilities and services for students, faculty and staff members. These include a 478-seat auditorium, a multipurpose ballroom, a barber and hair styling shop, a branch of the University Book Store, several retail food operations, a recreation and amusement games area, a lost-and-found office, a ticket sales office, a newsstand, a self-service post office, and a limited-service bank, three cash machines, three lounges, and a number of student organization offices. Meeting rooms accommodating from 10 to 175 persons are available for registered student organizations.

South Campus Center

The South Campus Center, located at the southern end of campus, offers services and activities similar to those in the HUB. In addition to a student office, conference rooms, and recreation facilities, the center offers indoor and outdoor dining. A newsstand, a University Book Store branch, a barber and hair styling shop, an espresso bar, and a 24-hour cash machine are also available.

Student Activities and Organizations

Student Activities Office

The services provided by the Student Activities Office (SAO) staff include assisting students in understanding University policies and procedures, providing technical help in the planning and conduct of student events, and furnishing information and assistance to student groups or organizations in order that they may represent themselves and their interests in an effective manner. Advisers are available to assist students involved in group activities with budget and program planning, advertising, orientation to campus resources, and leadership and organizational skill development. Underlying the SAO service functions is a desire to provide an environment in which students can learn from their experiences in extracurricular activities as a supplement to their classroom experiences. Additional information about the services is available from the Student Activities Office, 207 HUB, telephone 543-2380.

Student Organizations

Students at the University are encouraged to become active in at least one of the campus's approximately 300 voluntary student organizations, which include honorary, professional, and social organizations; service and coordinating clubs; activity groups; and religious and fraternal organizations. Voluntary student organizations that register with the University receive various benefits and services to assist their respective activities. Additional information is available from the Student Activities Office, 207 HUB, telephone 543-2380.

Associated Students, University of Washington

The Associated Students, University of Washington (ASUW), is a voluntary, nonprofit association of students designated by the University Board of Regents to carry out a variety of student activities and to represent student interests. In order to vote in ASUW elections, hold ASUW office, or be employed by the ASUW, a student must be a member of the ASUW. Membership is open to all students by providing an affirmative answer on the University registration form each quarter.

The ASUW has an annual budget of approximately \$1.3 million, supported by the services and activities fee paid as part of tuition and from program revenue. The government of the ASUW is headed by an eleven-member board of control elected by the student body each year, and one representative from the Graduate and Professional Student Senate. The ASUW maintains agencies and service groups to provide students with a varied program of activities during the school year and nominates students for service on a number of University committees. ASUW services include lecture notes, a poster printing service, Experimental College, bicycle repair shop, and an ongoing film and entertainment series. Questions regarding the ASUW and its services should be directed to either the ASUW Office, 204L HUB, telephone 543-1780, or the Student Activities Office, 207 HUB, telephone 543-2380.

Graduate and Professional Student Senate

The Graduate and Professional Student Senate (GPSS) serves primarily as an advocate for the academic welfare of graduate and professional students. It is composed of representatives elected from each graduate and professional degree-granting unit. Funded from student services and activities fees, GPSS dedicates a portion of its budget each year to direct allocations for departmental student groups and for special programs benefiting students from many

departments. GPSS publishes informational bulletins, monitors legislative issues of impact to graduate students, maintains graduate student representation on University administrative committees, assists with personal or academic grievances and, in general, seeks to represent graduate student issues and concerns within the University community. Questions regarding the GPSS should be directed to either the GPSS Office, 300 HUB, 543-8576, or the Student Activities Office, 207 HUB, 543-2380.

Recreational Sports

The Department of Recreational Sports Programs provides a comprehensive program of over 60 sports and fitness activities designed to meet the diverse needs and interests of students. To provide this service, the Department manages recreation facilities that include the Intramural Activities (IMA) Building, Golf Driving Range, Waterfront Activities Center, outdoor facilities (Denny Field and tennis courts), swimming pool and locker rooms at Hutchinson Hall, and the Practice Climbing Rock. A varied program of intramural sports, co-recreational activities, sports skill classes, club sports, special events, and general recreation is open to every student with a valid student identification card. For more information call the IMA, 543-4590, the Golf Range, 543-8759 or the Waterfront Activities Center, 543-9433.

Non-credit instruction is offered in aerobics, step aerobics, archery, body conditioning, dance (jazz), fencing, first aid and CPR, golf, gymnastics, hydro-aerobics, in-line skating, judo, karate, lifeguard training, racquetball, rock climbing, roller skating, scuba diving, ski conditioning, skiing (dry land), soccer, springboard diving, squash, swimming, tae kwon do, tennis, volleyball, water safety instruction, and weight training. Call 543-2571 for more information.

Club sports exist for aikido, climbing, cycling, fencing, gymnastics, ice hockey, judo, karate, kayaking, kendo, kung fu, lacrosse, rowing, rugby, sailing, scuba diving, skiing, soccer, squash, synchronized swimming, tae kwon do, volleyball, water polo, and water skiing. Call 543-9499 for more information.

Intramural sports are offered for men, women, and men and women combined (Co-Rec) in a variety of activities, including basketball, bowling, flag football, innertube basketball, soccer, softball, swimming, tennis, track and field, ultimate frisbee, and volleyball, as well as a variety of special events. Call 543-8558 for more information.

Student Rights and Responsibilities

Student Conduct Code

The University Board of Regents has adopted a *Student Conduct Code*, which applies to both academic and nonacademic conduct for students while in attendance at the University. The code specifies standards of conduct, jurisdiction for hearing disciplinary matters, and due process. Interested students may obtain copies through either their advisers or the Office of the Vice President for Student Affairs, 476 Schmitz.

Computer Use and Software Copyright Policy

All faculty, staff, and students who use any computer at the University are responsible for using computer resources in an ethical and legal manner. For detailed information see "Staying Out of Trouble" on either the Computing & Information Technologies Web page at http://www.washington.edu/tech_home/ or in UWIN under Computing & Information Technologies; or contact Computing & Communications at 543-5970.

University Policy on Student Education Records

A copy of the University's policy on a student's right to inspect his or her education records and the University's responsibility to maintain the confidentiality of such records is located at each departmental reference station. The policy is filed under the Washington Administrative Code 478-140-010. Copies of the policy are available at the Registration Office, 225 Schmitz.

Sexual Harassment Complaint Procedure

Students, staff, members of the faculty, and other users of University services who have a concern or complaint regarding sexual harassment may contact either the Ombudsman for Sexual Harassment, 543-0283, or the University Complaint Investigation and Resolution Office, 616-2028. Personnel in these offices provide assistance in resolving concerns and complaints.

Office of Minority Affairs

The Office of the Vice President for Minority Affairs provides a variety of services to underrepresented minority students and to students from economically and educationally disadvantaged backgrounds.

These services include statewide recruitment, admissions counseling, tutorial and instructional assistance, and a counseling service that offers academic advising and help with financial aid, housing and other issues related to life on campus. The Office of Minority Affairs (OMA) also maintains three outreach programs: Upward Bound, Early Scholars Outreach, and Educational Talent Search. Upward Bound is a precollege assistance program for low-income and first-generation high school students in the Seattle area; the Early Scholars Outreach Program engages staff and UW students in work that encourages middle school students to begin their preparation for college before they reach high school; Educational Talent Search offers encouragement and assistance to middle and high school students in preparation for education beyond high school.

OMA's Instructional Center (IC) offers extensive academic assistance to students in the Educational Opportunity Program and to others as staffing, time, and space permit. The Instructional Center maintains drop-in centers for mathematics, writing, reading/study skills, physics/engineering, chemistry, biology/natural sciences, and foreign languages. Services are provided in a variety of settings such as group instructional workshops, review sessions, adjunct courses, credit and noncredit classes, and one-on-one tutorials.

Student Support Services (SSS) is a Department of Education sponsored program which provides advising and tutorial support for selected University undergraduates who meet the program's economic and educational eligibility requirements.

The Early Identification Program (EIP) is a graduate school preparation program for minority students interested in earning postbaccalaureate degrees. It particularly encourages students to aim for the doctorate and faculty careers. EIP provides enrichment opportunities, including exposure to research processes, faculty mentors, seminars, and advising, as well as assistance with the graduate school admissions process.

The Ethnic Cultural Center (ECC) is a facility for student-organized events and activities. Twenty-two of the University's minority student organizations use the ECC as their center of activity. The staff of the Center offers students opportunities for the development of organization and leadership skills through the planning and implementation of cultural, social, student government, and career development programs. The Ethnic Cultural Center complex also maintains a theatre and offers opportunities for students interested in creating on-stage productions and other programs.

The Office of the Vice President for Minority Affairs is located on the third floor of Schmitz Hall.

Procedures and Fees

The University and its colleges and schools reserve the right to change the fees, the rules, and the calendar regulating admission and registration; the instruction in, and the graduation from, the University and its various divisions; and any other regulations affecting the student. The University also reserves the right to withdraw courses and programs at any time.

It is the University's expectation that all students will follow the University regulations and procedures as they are stated in the *General Catalog*. Appeals may be filed with the student's Dean or with the Vice President for Student Affairs in nonacademic matters.

Registration

The University provides registration services through STAR (Student Telephone Assisted Registration), a touchtone telephone registration system. This system allows students to register at the University from any touchtone telephone.

Detailed information and procedures pertaining to registration and withdrawal are outlined in the quarterly *Time Schedule*.

Registration Period I

Designed to accommodate currently registered matriculated students and students eligible to register under the Quarter Off Eligibility Policy. Registration Period I occurs during the latter half of the quarter preceding the quarter for which the student is registering. However, currently enrolled students registering for autumn quarter do so in spring quarter.

Registration Period II

Registration occurs after Registration Period I closes and is intended primarily to accommodate new and returning students. Continuing students who fail to register during Registration Period I may register during this phase.

Registration Period III

Students who have been admitted may register late, but are charged a late registration fee.

Registration Period IV

Period IV is open for dropping courses through the seventh week of the quarter. No adds or registrations are accepted. A \$20 change fee will be assessed for all registration changes occurring during the same day.

Credits Required for Full- or Half-Time Status Requirements

Some agencies require that a student have full-time status to receive maximum benefits. To be classified as a full-time student by the University, an undergraduate or professional student must register for and complete at least 12 credits per quarter and a graduate student must register for and complete at least 9 credits per quarter. To be classified as a half-time student by the University, an undergraduate or professional student must register for at least 6 credits per quarter and a graduate student must enroll for at least 5 credits per quarter.

Restrictions on Attending Classes

No person, other than a faculty member attending informally with the approval of the instructor, may attend a University course in which that person has not been registered.

An instructor may allow a student to attend his or her class only if the student's name is on the official class list from the Office of the Registrar.

Change of Registration to Drop or Add Courses

1. Registered students may add and drop classes during Registration Periods I, II, or III. Instructions are available in the quarterly *Time Schedule*.

2. All students may add and drop courses through the second week of the quarter and drop courses through the seventh week of the quarter by following instructions in the quarterly *Time Schedule*. A \$20 change fee is assessed for any number of add, drop, or change transactions processed during a given day beginning the eighth calendar day of the quarter. No adds are accepted after the twelfth calendar day of the quarter.

Adding Courses/Permission Guidelines

For reasons of public safety and instructional quality, it is important to limit course enrollment to the approved classroom capacity. The Office of the Registrar monitors course enrollment and accepts student registration in fully enrolled courses according to the following guidelines:

1. Through the second week of the quarter, departments may choose to overload courses up to 115% of the room capacity to offset anticipated student course drops and withdrawals as demonstrated by past registration activity.

Students must secure entry codes from instructors or departments and use STAR for adding closed courses.

However, if enrollment is at 115% of room capacity, registration requests are denied. Students should be informed when receiving entry codes to overload courses, that registration is not guaranteed if enrollment exceeds 115% of room capacity.

If centralized room capacity records do not correctly reflect the actual seating capacity, notification should be made to Room Assignments in the Office of the Registrar.

2. Generally, course adds are not accepted after the second week of the quarter. However, situations may arise that necessitate an exception, such as a student needing a course to graduate in the current quarter. In this case, students must complete a "Late Add Petition" form and obtain the signatures of both the instructor and the department chair. Forms are turned in to the Registration Office, and if approved, the course is added to the student's schedule within two working days. Department chairs should in no case approve a late add after the second week of the quarter if the class is enrolled at 100% of room capacity.

3. An audited course may not be changed to credit registration after the first two weeks of the quarter. Credit courses may be changed to audit through the seventh week of the quarter. A change to audit after the second week of the quarter is treated as a course drop. See below for transcript entry.

Dropping a Course

Undergraduates dropping a course during the first two weeks of a quarter shall have no entry on their permanent academic transcript. If all courses are dropped, then a complete withdrawal date is recorded on the transcript.

A course drop made during the third through the seventh week of the quarter is recorded on an undergraduate student's transcript with a W grade and a number designating the week of the quarter in which the course drop was transacted. A W grade only is recorded on the transcript of graduate or professional students.

A student who does not drop a course officially through STAR or the offering department is given a grade of 0.0.

Students receiving or applying for financial aid should check with the Office of Student Financial Aid, 105 Schmitz, telephone 543-6101, before dropping a class because it may affect their eligibility.

Students receiving veterans' benefits should contact the Office of Special Services when dropping courses.

Complete Withdrawal From the University for a Registered Quarter

Once registered, a student must officially withdraw if he or she later chooses not to attend the University for the registered quarter. Official withdrawal must be made by the fifth day of the quarter for the student to avoid further financial obligation (see Tuition, Fees, and Special Charges for refund information on withdrawals).

1. To withdraw from a quarter, students may complete a Withdrawal Card and submit it in person to the Registration Office, 225 Schmitz or write to the Registration Office, Box 355850, Seattle, WA 98195-5850. Withdrawal forms are available at advising offices and the Registration Office. An official withdrawal is effective the day it is received in the Registration Office, or if submitted by mail, the date of the postmark.

2. Students who drop the last course on their schedules on STAR will be considered withdrawn for the quarter. Students who drop courses beginning the eighth calendar day of the quarter are charged \$20 per day for any course drops.

3. Submission of a graduate On-Leave application does not constitute official withdrawal from the University.

4. Refer to grading section in the Undergraduate Study or the Graduate School: Graduate Study sections.

5. Students receiving veterans' benefits should immediately notify the Office of Special Services of withdrawal.

6. Students with a scholarship or loan awarded through the University should notify the Student Accounts and Scholarships Office or the Student Loan Office.

7. Students who withdraw due to conscription into the armed forces or who are called to active duty military service may be entitled to either a full refund of tuition and fees or academic credit, depending on when in the quarter official withdrawal occurs. Students should contact the Registration Office for complete information.

Additional Information

Address Change

Students are responsible for notifying the Office of the Registrar when their address changes. Call the Address Change Telephone Service at (206) 543-3868 anytime or visit the Registration Office in 225 Schmitz to keep your address current. *The mailing of notices to the last address on record constitutes official notification.*

Residence Classification Requirements

Residence classification information is available from the Graduation and Academic Records Office, 264 Schmitz.

Student Identification Cards

All new students should come to the Student ID Card Center, 229 Schmitz, to be issued a permanent student identification card. Photo identification (such as a driver's license, state ID card, or passport) is required to obtain a student ID card. Returning students who have not retained their previous ID card should obtain

a new one. A quarterly validation sticker is mailed with the registration confirmation to each registered student. The student ID card and attached validation sticker is used for a variety of campus services. It is the student's means of identifying his or her status as a student at the University.

Registered students whose ID cards have been lost or stolen can have them replaced at the Student ID Card Center. Students who request such replacement are charged a nonrefundable fee. Replacement of cards made invalid by changes in a student's name or rendered unusable by normal wear and tear is provided without charge upon return of the original card to the Student ID Card Center. Two pieces of identification (one with a photo) are required to obtain a replacement card.

Cards that have been tampered with or misused may be confiscated by the University agency or department involved, and the incident may be referred to the Office of the Vice President for Student Affairs for appropriate University action.

Transcripts

Official copies of student academic records at the UW must bear the official seal of the University, the signature of the Registrar, and the date of issue.

Transcript Fee

A charge of \$4, payable to the Transcript Office in advance, is required for each transcript.

Transcripts From Other Schools

A transcript covering a student's previous secondary and college education that has been submitted to the University as a requirement for admission becomes part of the official file and is not returned to the student. Any student who desires transcripts of his or her course work undertaken elsewhere must order official transcripts from the institution. The University does not issue or certify copies of transcripts from other institutions.

Veterans and Children of Totally Disabled Veterans and Personnel in the Armed Forces

Information on educational benefits and tuition reduction programs for veterans and their dependents is available from the Office of Special Services, 460 Schmitz.

Veterans and members of the armed forces who apply for admission to the University are subject to the same minimum requirements as regular students and are expected to enroll in accordance with University requirements.

The University's academic programs of study are approved by the Washington State Higher Education Coordinating Board's State Approving Agency (HECB/SAA) for enrollment of persons eligible to receive educational benefits under Title 38 and Title 10 USC.

Tuition, Fees, and Special Charges

Estimated Expenses

The cost of a student's education at the University varies, the amount depending on his or her classification, status as resident or nonresident, and field of study. In computing college costs, a student should consider such additional expenses as insurance coverage, books, and laboratory supplies. Personal expenses (e.g., clothing, laundry, recreation, and transportation), which vary with each individual, as well as between-quarter expenses, should not be overlooked.

The following figures are prepared and updated each year by the Office of Student Financial Aid and reflect modest, but adequate, probable costs for students attending the University during the nine-month academic year. They should be used only as a guide in determining the year's expenses.

	Lives with parents		Traditional		Non- traditional
	Under- graduate	Graduate	Under- graduate	Under- graduate	Graduate
Books	\$ 756	\$ 876	\$ 756	\$ 756	\$ 876
Room and Board	2,211	2,211	5,265	7,458	7,458
Transportation	396	747	396	747	747
Miscellaneous personal expenses	1,893	1,893	1,893	1,893	1,893
Total	\$5,256	\$5,727	\$8,310	\$10,854	\$10,974

Traditional budget: All single undergraduates, without dependents (spouse or children), who are living away from parent's home; married undergraduates, without children, whose spouses are also students.

Nontraditional budget: All graduate and professional students; undergraduates who have children; married undergraduates whose spouses are not students.

	Resident tuition and fees	Nonresident tuition and fees
Undergraduates	\$ 3,138	\$ 9,753
Graduate students	4,932	12,363
Medical and dental students	8,058	20,472

Tuition and fees are subject to change.

PROCEDURES AND FEES

Enrollment Confirmation Deposit

A new or returning former student or a continuing student in a new classification (e.g., undergraduate, postbaccalaureate [fifth-year], graduate) is required to confirm his or her intention to enroll by paying a nonrefundable \$100 Enrollment Confirmation Deposit (not required of students admitted summer quarter). The \$100 is applied toward tuition and fees assessed for the quarter for which the student is determined to be admissible and subsequently enrolls. A student who pays the fee for a given quarter but does not register in that quarter is not entitled to refund except by petition in the situations listed below:

1. A new or returning matriculated student who is unable to obtain courses required for the completion of the degree or certificate program, or courses which are determined by an appropriate academic adviser to be acceptable alternate courses. A written verification from the appropriate academic adviser must be attached to this petition. Such requests for refund must be submitted by Friday of the second week of the quarter.

2. A new or returning matriculated student who, after meeting with an appropriate academic adviser, determines that the program for which admission was granted differs substantially from what the student was led to expect based upon earlier available information, is eligible for a refund of the Enrollment Confirmation Deposit. This petition for refund must be submitted before the student registers for courses and in no case later than the first day of the quarter for which admission has been granted. A written verification from the appropriate academic adviser must be included.

3. A new or returning student who applies by the prescribed deadline for financial aid administered by the University's Office of Student Financial Aid, and who cannot be awarded financial aid adequate to his or her needs as determined by that office, and who is therefore unable to attend the University, is eligible for a refund of the Enrollment Confirmation Deposit. This petition and a copy of the Notice of Award and Acceptance must be submitted no later than two weeks after receipt of notice of the financial aid award.

4. A new or returning student who is unable to attend the University because of pregnancy, disability, or death, or because of being called involuntarily into the military service of the United States or into civil duty, may be refunded the Enrollment Confirmation Deposit. Documentation is required.

Fee Payment

An obligation to pay tuition and fees in United States dollars is incurred when a student registers. A fee statement is mailed to the student's address on file in the Registrar's Office.

Payment of this obligation is due by Friday of the third week of the quarter. Nonpayment of tuition and fees by the due date results in: (1) charge of \$10 to \$30 for late payment, if payment is received within the one-week late payment period; (2) cancellation of registration, if payment is not made by the eighth Wednesday of the quarter. One-half of tuition is assessed when registration is canceled for nonpayment of tuition and fees. The Summer Quarter Bulletin and *Time Schedules* should be consulted for fees and fee payment schedule applicable to summer quarter only.

When the payment is not in conformance with the tuition and fee billing, specific instructions on how the payment is to be applied must accompany the payment. In the absence of instructions, the University makes a reasoned interpretation of the student's intent and accounts for the funds accordingly. The student number must be specified on all payments.

Quarterly Tuition Rates Effective Autumn Quarter 1996

Undergraduate

(including nonmatriculated and fifth-year)

	Resident	Nonresident
2 credits (minimum)	\$ 206	\$ 651
3 credits	311	976
4 credits	416	1,301
5 credits	521	1,626
6 credits	626	1,951
7 credits	731	2,276
8 credits	836	2,601
9 credits	941	2,926
10-18 credits	1,046	3,251
Technology Fee*	40	40
Additional fee per credit for more than 18 credits	96	316

Graduate and Law

2 credits (minimum)	469	1,176
3 credits	704	1,765
4 credits	939	2,354
5 credits	1,174	2,943
6 credits	1,409	3,532
7-18 credits	1,644	4,121
Technology Fee*	40	40
Additional fee per credit for more than 18 credits	222	576

Medical and Dental

2 credits (minimum)	409	1,049
3 credits	616	1,574
4 credits	823	2,099
5 credits	1,030	2,624
6 credits	1,237	3,149
7 credits	1,444	3,674
8 credits	1,651	4,199
9 credits	1,858	4,724

11 credits	2,272	5,774
12 credits	2,479	6,299
More than 12 credits	2,686	6,824
Technology Fee*	40	40

*Prorated for part-time students

†Does not apply to first professional law students.

Fees are subject to change without notice.

Tuition rates for resident and nonresident students apply to the academic year (autumn, winter, and spring quarters). Summer quarter tuition is listed in the Summer Quarter Bulletin and *Time Schedule*. Except for students in the Schools of Dentistry or Medicine, nonresident students are charged resident tuition during summer quarter.

Tuition charges are based on student classification, e.g., undergraduate, graduate, or professional, and not on course level.

Fees listed above do not apply to students registered through UW Extension. See the UW Extension Bulletin for their fee structure.

Special Course and Laboratory Fees

The amounts listed above cover normal University charges for course registration. Some courses, however, have extraordinary expenses associated with them, and in such cases the University may charge additional fees in amounts that approximate the added instructional or laboratory costs.

Other Fees

Auditors: There is no reduction in fees for auditors.

Admission Application Fees: Undergraduate, \$35; Graduate, \$45; Medicine, Dentistry, \$35; Law, \$50. Former students returning in the same classification, \$35.

On-Leave Registration Fee: This fee of \$35, charged graduate students only, provides for a maximum On-Leave period of four successive academic quarters or any part thereof and is not refundable.

Late Registration/Reregistration Fees: A late registration service charge of \$25 is assessed when a student registers for the first time after the last scheduled day of Period II registration and through the tenth day. Students registering after the tenth day pay a \$75 late registration fee. A student who must reregister as a result of a cancellation for nonpayment of tuition must also pay a \$75 fee. Waiver or refund of the registration service charge may be petitioned in the Registration Office. Waiver or refund of the \$75 reregistration fee may be petitioned in the Student Accounts and Cashiers Office.

Change of Registration Fee: A charge of \$20 is made for any number of add, drop, or change transactions processed during a given day beginning the eighth calendar day of the quarter.

Transcript Fees: A charge of \$4, payable to the University's Transcript Office in advance, is required for each transcript.

Thesis and Dissertation Fees: Publication binding fee, \$25; dissertation microfilming fee, \$52; abstract-only microfilming fee, \$50; optional copyright service fee, \$35.

Replacement Fees: Duplicate diploma, \$10; student identification card, \$5 (non-photo), \$10 (photo).

Credit by Examination Fee: In order to obtain credit for independent study, a regularly admitted and currently enrolled student may take an examination prepared by the department concerned. The fee is \$25 per examination. Appropriate forms must be obtained from the Graduation and Academic Records Office, 264 Schmitz.

U-PASS Fee: A U-PASS validation sticker is mailed quarterly with a student's registration confirmation. The U-PASS is valid on all Metro and Community Transit routes at all times and provides parking privileges to carpools, riding privileges to vanpool and Night Ride passengers, and merchant discounts. The quarterly fee of \$27 is included on the tuition bill. Students who do not wish to participate in the U-PASS program must return the validation sticker to the University by the tuition payment deadline. The sticker can be returned by mail in the return envelope provided, or mailed with the tuition payment, or returned in person at the Student Accounts and Cashiers Office. For further information consult the quarterly *Time Schedule*.

All fees are subject to change without notice.

Cancellation of Tuition

Registered students must pay full tuition and fees. Tuition may be canceled or reduced if a student makes an official withdrawal or drops a course during the period specified by state statute. Refunds are given when a cancellation or reduction results in an overpayment.

Continuing Students

1. A student who withdraws on or before the seventh calendar day of the quarter does not pay tuition.
2. A student who withdraws after the seventh calendar day through the thirtieth calendar day of the quarter must pay one-half tuition.
3. A student who withdraws after the thirtieth calendar day must pay full tuition.

New and Returning Students

1. A student who withdraws on or before the seventh calendar day forfeits the \$100 Enrollment Confirmation Deposit but does not pay the regular tuition.
2. A student who withdraws after the seventh calendar day through the thirtieth calendar day of the quarter must pay one-half tuition. The \$100 Enrollment Confirmation Deposit is applied toward payment of tuition.
3. A student who withdraws after the thirtieth calendar day of the quarter must pay full tuition. The \$100 Enrollment Confirmation Deposit is applied toward payment of tuition.

Fee Forfeiture

A student who does not completely withdraw but is dropping one or more courses may be eligible for lower tuition, depending on the total number of credits remaining after the course drop and on the time period when the drop was made. Tuition for students making a course drop on or before the seventh calendar day of the quarter is determined by the total credits remaining. Tuition for students making a course drop after the seventh calendar day through the thirtieth calendar day of the quarter is computed on the total credits remaining plus one-half the difference between the old tuition and the new tuition. There is no cancellation or reduction in tuition for courses dropped after the thirtieth calendar day of the quarter.

Fee Refund

When a fee payment is made by check, a waiting period is required before a refund can be authorized. An application for refund may be refused, unless it is made during the quarter in which the fees apply. A student who withdraws for disciplinary reasons forfeits all rights to refund or cancellation of any portion of his or her fees.

Financial Obligations

The Comptroller is authorized to place a hold (administrative) on the records of any student who fails to pay amounts due the University.

Until this hold is cleared, the University (1) does not release the student's record or any information based upon the record, (2) does not prepare transcripts or certified statements, and (3) denies registration.

In cases of serious financial delinquency, the Comptroller, with the consent of the Registrar, may order that a student's registration be canceled and that privileges of attendance be withdrawn.

Tuition and fees not paid by the end of the academic quarter are subject to an interest charge of 1 percent per month, or a fraction thereof (12 percent APR), beginning the month following the end of the quarter.

An administrative hold or cancellation also may occur when a student has not complied with other University rules, procedures, or obligations. The hold may be placed on the student's record by the authorized University office responsible for enforcement of the rule, procedure, or obligation involved. The student is not permitted to register for any subsequent quarter or to obtain a transcript of his or her record or a certified statement except on the written release of the office that placed the hold.

Tuition Exemptions or Reductions

Faculty/Staff and Washington State Classified Employee Tuition Exemption Programs

Eligible faculty, staff, and state classified employees admitted to the University may enroll for up to 6 credits each quarter under these tuition exemption programs. Because such students are registered on a space-available basis, they must register after other students. The quarterly *Time Schedule* lists registration dates when students enrolling under these exemption programs may register. Eligibility information may be obtained from either the Staff Training and Development Office or the Registration Office.

"Access" Program for Older Adults

The UW allows Washington residents 60 years of age or older to audit certain courses on a space-available basis. Students who attend the University under the Access Program are limited to two courses per quarter. There is a nominal registration fee. As auditors, students do not receive credit, participate in discussions, complete laboratory work, or take examinations.

Tuition Reductions

The following categories of students may be eligible for reduced tuition and fees. Students in these categories may contact the offices shown either for information on the reduction or to obtain the appropriate form to apply for the reduction. Most of the reductions must be renewed before the beginning of each quarter. The various categories of reductions are established by legislative mandate and may be revoked by the legislature at any time.

Orientation Program

Orientation is the opportunity to get ready for life at the University of Washington before classes actually begin. Along with their new classmates, incoming students come onto campus for one or two days and are introduced to campus life by student orientation leaders. Students have found that orientation offers them the opportunity to hear firsthand about the experiences of current students at the UW, as well as about strategies to help them make the most of their college experience. In addition, students register for classes, hear about different majors, make connections with other students, and begin to explore the wealth of campus resources and opportunities available at such a large institution.

Freshman Interest Groups

Directors

Michaelann Jundt
Ken Etzkorn

Freshman Interest Groups (FIGs) make the University smaller and less imposing by providing incoming freshmen a chance to meet, discuss, and study with other freshmen who have similar interests. The program is offered only autumn quarter of a student's freshman year.

Each FIG consists of 20 to 24 students who share a cluster of two or three courses organized around a common theme, such as pre-engineering, international relations, or the ancient world. In addition to sharing these classes, students in each FIG attend a weekly proseminar led by a peer adviser, who is a junior or senior with a similar academic background. These weekly meetings create a learning community, introducing students to campus resources, computing and technology, and social issues encountered by new students. Of equal importance, FIGs help with adjustment to college by providing a support group of other freshmen as well as a resource in the knowledge and experience of a peer adviser.

Freshman Seminars

A Freshman Seminar is a one-credit course taught by a senior UW faculty member. The seminar topics cover a

vast range of disciplines and are based on each faculty member's area of research or specialty study. The course's limited enrollment of only 12-15 students gives freshmen the opportunity to participate in a small, discussion-oriented class. This allows first-year students the opportunity to make connections with faculty early in their college careers, and to explore topics of interest in a casual environment. Students can enroll in a Freshman Seminar every quarter of their freshman year.

Edward E. Carlson Leadership and Public Service Office

34 Communications

Director

Kim Johnson-Bogart

The Carlson Leadership and Public Service Office coordinates service and service-learning programs that enable students to volunteer with community-based human service or environmental agencies. Opportunities include tutoring or mentoring school children individually, in small groups, or as part of a course.

The Internship program provides students with information about local, national, and international internships; how to obtain an internship; and how to arrange credit.

A collaborative effort of the UW Office of Research and Undergraduate Education, the Undergraduate Research Program pairs undergraduate students with faculty to work in one-to-one mentorships on a research project. Students have the option to enroll for credit. Students and faculty compete for stipends.

Scholarship Program

34 Communications

Coordinator

Lori Colliander

The Undergraduate Scholarship Program provides information to current UW-undergraduates about various merit-based scholarships, including quarterly newsletters, scholarship workshops, and applications and information.

Beret Kischner
Lindsay Michimoto
Kelli Jayn Nichols
Deborah Prince
Jeanne Sauvage

Students who do not make a definite choice of major when entering the University are designated premajor students. An adviser in the Undergraduate Advising Center will assist them in designing a program of studies that will meet general requirements and provide them with information about possible major fields. The Undergraduate Advising Center also provides the following: assistance in exploring academic options; information about degree programs; preprofessional advising for such areas as medicine, dentistry, law; options for students on academic probation; preliminary career counseling; a wide range of information on registration, course offerings, degree requirements, and administrative procedures. Premajor students normally select a major by the time they have earned 105 credits. Transfer to a department major from premajor status sometimes requires completion of prerequisite courses, attainment of a minimum specified GPA, or selection by the department from among a group of prospective majors.

University Honors Program

B102 Padelford

Director

John S. Edwards

Associate Director

Randolph Y. Hennes
B102 Padelford

The four-year Honors Program features special counseling, honors courses, honors sections of regular courses, faculty/student colloquia, and opportunities for independent study. It provides expanded opportunities for undergraduate education to those students who show exceptional intellectual promise.

Admission Requirements: To be considered for admission to the University Honors Program at entrance, students must apply during their final high school semester to the Director of Honors. Selection is based on high school records, test scores, and recommendations from the secondary school. Students also may seek admission based on superior academic performance during their freshman year at the University.

Graduation Requirements: The University Honors curriculum consists of two parts: a general education component and a component in the student's major department. The general education component, which satisfies Areas of Knowledge requirements, consists of three sequences of courses, each lasting three quarters. One of these sequences is taken in Western Civilization, one in World Civilization, and one in the Natural Sciences. Each sequence carries 15 credits total. In addition, students complete 4 additional credits of honors seminars.

The second component begins when a student, usually by the junior year, is accepted into a department that offers an honors curriculum. Such a student is graduated "With College Honors" in the appropriate discipline. A student who is not a member of the University Honors Program but who demonstrates superior abilities in a particular field of study may, at the invitation of that department, participate in a departmental honors curriculum and receive a degree "With Distinction" in the major field.

An honors degree can be earned through the following departments and programs within the College of Arts and Sciences: Anthropology; Art History; Asian Languages and Literature; Atmospheric Sciences; Biology; Botany; Chemistry; Classics; Comparative History of Ideas; Comparative Literature; Comparative Religion; Computer Science; Economics; English; General Studies; Geography; Geological Sciences; Germanics; History; International Studies; Japan Studies; Linguistics; Mathematics; Microbiology; Music; Near Eastern Languages and Civilization; Philosophy; Physics; Political Science; Psychology; Romance Languages and Literature; Russian, East European, and Central Asian Studies; Scandinavian Languages and Literatures; Slavic Languages and Literatures; Sociology; Speech and Hearing Sciences; Speech Communication; Women Studies; Zoology.

An honors degree may also be earned through the College of Engineering.

UNDERGRADUATE STUDY

By special arrangement, it is possible for students to complete a degree "With College Honors" in departments not offering a formal honors option.

Interdisciplinary Undergraduate Programs

General Studies

9 Communications

General Studies provides students an opportunity to obtain an interdisciplinary degree. Students may pursue an individually designed "atypical major" or one of several organized interdisciplinary programs.

Requirements for the Bachelor of Arts or Bachelor of Science degree are shown in the Arts and Sciences section of this catalog. Also offered under General Studies are the following: a course in university learning skills (GEN ST 101); independent fieldwork (GEN ST 350); and a general Evening Degree Program through UW Extension with options in the humanities and social sciences.

Comparative History of Ideas

B102 Padelford

Director

John E. Toews

Associate Director

James D. Clowes

Comparative History of Ideas provides for the interdisciplinary study of intellectual history by bringing together thematically related courses from such fields as literature, history, anthropology, philosophy, the arts, and religious studies. Courses within the program have been chosen and designed to explore the history of specific ideas or themes, to examine the history of particular intellectual cultures (Western and non-Western), or to study comparatively the underlying assumptions and attitudes of different intellectual worlds. As a unique approach to liberal humanistic studies, the program provides a solid basis for postgraduate study in, for example, law, administration, medicine, education, journalism, or area studies.

Requirements for the Bachelor of Arts degree are shown in the Arts and Sciences section of this catalog.

Community and Environmental Planning

410 Gould

Director

Dennis M. Ryan

The Bachelor of Arts degree in Community and Environmental Planning (CEP) provides a multi-disciplinary study of several contemporary academic fields and areas of research. These include the study of communities, the analysis of natural and built environments, and the investigation of the theory and practice of planning. The CEP program is designed to foster both student- and community-based undergraduate learning experiences.

Requirements for the Bachelor of Arts degree and course descriptions are shown in the Architecture and Urban Planning section of this catalog.

College Studies Program

B103 Padelford

Director

Keith Benson

Students may fulfill all or part of the general education requirement, in certain schools or colleges of the University, by selecting sequences from the College Studies Program.

(1) A 15-credit College Studies sequence may substitute for a regular 20-credit Areas of Knowledge requirement in one or more of the following:

Visual, Literary, & Performing Arts; Individuals & Societies; the Natural World.

(2) Students who satisfy all three Areas of Knowledge requirements by taking College Studies sequences may then complete their general education requirement by taking an additional College Studies sequence, or any 15 credits of general education courses, in any area.

All individual courses included in College Studies sequences will count for general education credit. Students who are unable to complete a College Studies sequence will thus receive regular general education credit for the courses they do complete.

A list of College Studies Program sequences may be found in the College Studies brochure, available in 9 Communications and in the College Studies Program, B103 Padelford.

Undergraduate Majors

To graduate from the UW, students must complete one of the majors listed below. In many cases, the student need not make a final choice until the beginning of the junior year, although programs with considerable mathematics and science (e.g., engineering and premedicine) include lock-step requirements that are best started early on.

Students can enter some majors directly (e.g., those in Forest Resources, in Ocean and Fishery Sciences, and some in Arts and Sciences), but most students start out as premajors. As premajors, they take courses to fulfill general requirements and admission requirements for the major. Most majors require one or two years of pre-admission course work, although a few require more. Admission to many majors is competitive, which means students may not be accepted even if they complete all the prerequisite course work, depending on their grades and other factors.

The *General Catalog* shows requirements for all majors, but students should see an adviser to ask about changes, course sequences, or new options.

Satisfactory Progress

Students admitted to the University to pursue baccalaureate degrees are expected to make satisfactory progress toward the attainment of the degree and are expected to enter a major and to graduate after completion of a reasonable number of credits.

By the time undergraduate students have completed 105 credits, they must either be accepted in their major or have their premajor status extended temporarily by an adviser.

Students who do not either declare a major or have their premajor status extended by the time they have earned 105 credits will have a "hold" placed against registration beginning the following quarter.

Students must normally graduate with their first baccalaureate degree by the time they have completed 30 credits beyond the credits required for the first degree or concurrent degrees. Departmental advisers may grant extensions beyond the 30-credit limit.

Postbaccalaureate students are expected to be either preparing for admission into a degree program, seeking an additional baccalaureate degree, or working toward a certificate. Students admitted as "postbaccalaureate undeclared" must declare a major by the time they have earned 30 credits beyond their last degree, and once a degree objective has been declared, must make progress toward that degree as evidenced by the courses they have completed satis-

factorily. Advisers may grant extensions beyond the 30-credit limit.

The Committee on Admissions and Academic Standards may terminate a student's enrollment if the student demonstrates lack of academic progress as evidenced by excessive course repeats, course drops, or University withdrawals and cancellations. The student may be reinstated with the approval of the student's college and the committee. EOP students may be reinstated in consultation with the Office of Minority Affairs.

‡ Major has selective admission based on such factors as number of credits earned, prerequisite courses completed, and GPA.

Undergraduate Minors

Undergraduate students have the option of completing a minor. Minors require the completion of at least 25 credits, 15 of which must be taken in residence at the UW. A cumulative GPA of 2.00 is required for courses within the minor. Some departments do not offer minors. Requirements for minors established as of spring 1996 are shown in the academic programs section of this catalog. A list of currently offered minors is available at the Undergraduate Advising Center, 9 Communications.

Undergraduate Degrees

The UW grants the following degrees upon satisfactory completion of appropriate programs of study in the departments, schools, and colleges:

Bachelor of Arts	B.A.	Bachelor of Science in Medical Technology	B.S.Med.Tech.
Bachelor of Arts in Business Administration ..	B.A.B.A.	Bachelor of Science in Metallurgical Engineering	B.S.Met.E.
Bachelor of Clinical Health Services	B.C.H.S.	Bachelor of Science in Nursing	B.S.Nurs.
		Bachelor of Science in Occupational Therapy	B.S.Occ.Therapy
		Bachelor of Science in Physical Therapy	B.S.Phys.Therapy
		Bachelor of Science in Technical Communication	B.S.T.C.
Bachelor of Fine Arts	B.F.A.		
Bachelor of Landscape Architecture	B.L.Arch.		
Bachelor of Music	B.Mus.		
Bachelor of Science	B.S.		
Bachelor of Science in Aeronautical and Astronautical Engineering	B.S.A.&A.		
Bachelor of Science in Building Construction ..	B.S.B.C.		
Bachelor of Science in Ceramic Engineering	B.S.Cer.E.		
Bachelor of Science in Chemical Engineering	B.S.Ch.E.		
Bachelor of Science in Civil Engineering	B.S.C.E.		
Bachelor of Science in Computer Engineering	B.S.Comp.E.		
Bachelor of Science in Electrical Engineering ..	B.S.E.E.		
Bachelor of Science in Engineering	B.S.E.		
Bachelor of Science in Fisheries	B.S.Fish.		
Bachelor of Science in Forest Resources	B.S.F.		
Bachelor of Science in Industrial Engineering ..	B.S.I.E.		
Bachelor of Science in Mechanical Engineering ..	B.S.M.E.		

Admission

The Office of Undergraduate Admissions is responsible for admitting to the University matriculated freshmen, transfer, and postbaccalaureate students, including U.S. and international students. Non-matriculated summer-only students also apply through the Admissions Office. Applications and information, including admissions counseling, are available at the Office of Admissions, 320 Schmitz Hall, 1410 NE Campus Parkway, Box 355840, Seattle, WA 98195-5840; telephone: (206) 543-9686. See section below for Graduate School admission.

Other admission categories such as nonmatriculated students, auditors, and returning former students should contact those program offices, listed under Special Categories of Admission, for further information.

Campus Visits

Students and their parents are encouraged to call, write, or visit the campus. Free campus tours are available without reservations every weekday, except holidays. Tours leave 320 Schmitz Hall at 2:30 p.m. Additionally, the Office of Admissions Student Visitation Program offers prospective freshmen and transfer students the opportunity to be a student for a day, stay overnight in a residence hall with a student host, meet with an admissions counselor and take a guided tour of the campus. Contact the Student Visitation Program at (206) 543-5429 at least four weeks in advance for further details.

Information Sessions

Freshman Information Sessions are held for prospective freshmen and their families every Friday (except holidays) at 1:30 p.m. in the Admissions Office, 320 Schmitz Hall. The information sessions consist of a 20- to 30-minute presentation by an admissions staff member, followed by questions and discussion. Reservations are not required.

General Admission Policy

Eligibility for admission is determined by University faculty and Washington State regulations. In general, admission is competitive, which means that there are more qualified applicants than the University can accommodate. Applicants are evaluated on two principal criteria:

- completion of high school subject requirements and
- academic performance as measured by grade-point average (GPA) and test scores.

Although exceptions are made (see below, Special Admissions and the Appeal of Admission Decisions), the University's policy is to offer admission to those applicants who have completed the subject requirements and who rank the highest in academic performance. A complete discussion of each admission criterion follows.

High School Core Subject Requirements

The first major admission criterion ensures that freshmen and transfer students entering the University have an introduction to the liberal arts and are adequately prepared to succeed in their college careers. The UW faculty and the State of Washington Higher Education Coordinating Board have determined that all applicants are required to complete a minimum level of preparation in six subject areas, known as the high school core subject requirements. Almost all applicants satisfy these requirements through high school courses. Because these are *admission*—not graduation—requirements, they must be completed before enrolling at the University.

The chart on the next page summarizes the number of years of high school study required in each core subject. If a student's high school preparation was insufficient in any subject, there are several ways to make up a high school core requirement before enrolling at the University. Students may present college equivalents or may combine course work at the high school and college level to satisfy a core requirement. *In general, five quarter credits (or three semester credits) at the college level count as the equivalent of one year of high school study.*

If you have taken or are planning to take a course in high school that is not mentioned here but you believe may apply to one of the core requirements, contact the Office of Admissions for advice.

English Core Subject Requirements for Students from Non-English-Speaking Countries

Immigrant, refugee, or international students from non-English speaking countries must satisfy the same core subject requirements as other applicants. In certain cases, however, a native language other than English can be used to satisfy the foreign-language requirement. For more information about alternative routes for satisfying the English requirement, contact the Office of Admissions and request *Undergraduate Admissions Pamphlet #3: Guidelines for Applicants Whose First Language Is Not English.*

Academic Performance

The second major admission criterion is the applicant's academic performance on grades earned in courses and scores on national admission tests. To be *considered* for admission, applicants must have achieved a minimum, cumulative GPA of 2.00. While there is no minimum GPA that will guarantee admission, applicants should note that admission is competitive and, therefore, a GPA *well above* a 2.00 will be required.

Admission Index

To determine an applicant's competitive standing for admission, the University uses a system based on a student's probability of academic success, to calculate an Admission Index (AI) which is used to rank each student. The AI is based on two factors—GPA and test scores—with GPA being the predominant factor.

Freshman Admission

Although the Admission Index ranges from a low of 0 to a high of 100, the state-mandated minimum to qualify for routine freshman admission to the UW is a 28 AI. The UW typically uses a higher AI as its minimum for admission because the number of qualified applicants exceeds the number of spaces available for new students at the UW.

Transfer Admission

There is no state-mandated minimum for routine transfer admission, and the minimum AI ranking required for admission varies from quarter to quarter, depending on the number of applicants and the University's enrollment. Applicants needing more information are encouraged to obtain a *Transfer Application Packet* from the Office of Admissions or contact the office for a counseling appointment.

UNDERGRADUATE STUDY

High School Core Subject Requirements

If taken in high school:

If made up through college course work:*

ENGLISH	<p>4</p> <p>Four years of study are required, at least three of which must be in composition and literature. <i>One</i> of the four years may be satisfied by courses in drama as literature, public speaking, debate, journalistic writing, business English, or English as a Second Language (ESL). (English courses taken in foreign countries are considered ESL, except those taken in Australia, Canada, Ireland, New Zealand, and the United Kingdom.) Courses that are generally not acceptable include those identified as remedial or applied (e.g., developmental reading, remedial English, basic English skills, review English, yearbook/annual, newspaper staff, acting, library).</p>	<p>For the composition/literature component, generally any course with an English or Writing prefix is acceptable. (However, courses such as developmental or speed reading, vocabulary, or remedial English are not acceptable.) <i>One</i> of the four years may be satisfied by a college course in speech, drama as literature, journalistic writing, business English, ESL, or engineering/technical writing.</p>
MATHEMATICS	<p>3</p> <p>The mathematics admission requirement stipulates that applicants attain a minimum level of study in mathematics, <i>in addition</i> to completing the specified number of years. Three years of mathematics study are required, at least at the level of algebra, geometry, and advanced (second-year) algebra. (Preferably, the second year of algebra included a component of introductory trigonometry, but this is not mandatory.) More advanced mathematics courses are recommended, such as trigonometry, mathematical analysis, elementary functions, and calculus. Arithmetic, pre-algebra, business mathematics, and statistics courses will not count toward the requirement. An algebra course taken in the eighth grade may satisfy one year of the requirement if second-year algebra is completed in high school.</p>	<p>If your high school preparation in mathematics was insufficient, you must complete <i>one</i> of the courses listed below:</p> <ul style="list-style-type: none"> • A course in intermediate algebra. At UW Extension, as well as at many community colleges in Washington, MATH 101 is the necessary course. The course must be completed with a grade of 'C' (2.0) or better, <i>even though it does not transfer to the UW as college credit and the grade earned in the course is not used in computing the transfer GPA.</i> • MATH 104 (Trigonometry) or its equivalent. The course must be completed with a grade of 'C' (2.0) or better. • MATH 107 (Mathematics: A Practical Art) or its equivalent. The course must be completed with a grade of 'C' (2.0) or better. • Mathematics courses with intermediate algebra as a prerequisite (except statistics courses). This includes any higher-level math course such as elementary functions, calculus, and beyond.
SOCIAL SCIENCE	<p>3</p> <p>Three years of study are required in history or in any of the social sciences, e.g., anthropology, contemporary world problems, economics, geography, government, political science, psychology, sociology. Credit awarded for student government, leadership, community service, or other applied or activity courses will not count toward the requirement.</p>	<p>Courses in the social sciences—e.g., anthropology, economics, ethnic studies, history, philosophy, political science, psychology, sociology—will count toward the requirement.</p>
SCIENCE	<p>2</p> <p>Two years of science are required, of which one full year—both semesters in the same field—must be completed in the basic principles of biology, chemistry, or physics, with a laboratory experience. The second year of science may be completed in any course that satisfies your high school's graduation requirement in science. Two years of agricultural science is equivalent to one year of science.</p>	<p>College science courses with a lab will count toward the laboratory science portion of the requirement. Any course in astronomy, atmospheric science, biological structure, biology, botany, chemistry, environmental science (but not environmental studies), genetics, geology, oceanography, physical anthropology, physical geography, physics, or zoology will count toward the second-year requirement, as will introductory courses in biological or physical science.</p>
FOREIGN LANGUAGE	<p>2</p> <p>Two years of study are required. The two years must be devoted to a single foreign language and must be in sequence, with no repetition of any prior term of study and without a reduction in what would normally be a full, second year of study. Any natural language that has been formally studied may be used to satisfy this requirement, including American Sign Language (ASL, the language of the deaf community), and languages no longer spoken, such as Latin and ancient Greek. However, neither computer "languages" nor forms of deaf signing aside from ASL are acceptable. A foreign language course taken in the eighth grade may satisfy one year of the requirement if the second-year course is completed in high school.</p> <p><i>Note: The foreign-language admission requirement will be considered satisfied for students from non-English-speaking countries who entered the United States educational system at the eighth grade or later.</i></p>	<p>For purposes of admission, each standard language course in college is considered equivalent to one year in high school. Applicants who have never studied a foreign language will need to complete ten quarter credits (two terms) of a single foreign language. However, an applicant who studied French for one year in high school needs to complete only the second quarter (e.g., FRENCH 102) or the second semester of a first-year language sequence. Of course, a student may prefer to begin with 101 to refresh his/her memory. (The UW's Summer Quarter offers intensive foreign language programs to enable students to complete ten to fifteen credits in one quarter, but these programs are not normally recommended for students with little background in languages.)</p> <p>A student who believes s/he has acquired sufficient knowledge of a foreign language without formal study should contact the Office of Admissions to arrange for an examination.</p>
THE ARTS	<p>1/2</p> <p>One-half year or one trimester of study is required in the fine, visual, or performing arts, to be chosen from art appreciation, band, ceramics, choir, dance, dramatic performance and production, drawing, fiber arts, graphic arts, metal design, music appreciation, music theory, orchestra, painting, photography, print making, and sculpture. Courses generally not acceptable include architecture, color guard, creative writing, drafting, fashion design, interior design, sewing, and woodworking.</p>	<p>Two quarter credits (2 semester credits) chosen from any of the following subjects will satisfy the requirement: art, art history, cinema/filmmaking, dance, music, or photography; any course in drama except drama as literature courses. Courses in architecture are generally not acceptable, except for those in architectural history.</p>
ELECTIVES	<p>1/2</p> <p>Electives are courses in the six subject areas (defined above) in which you have completed more than the minimum number of years. One-half year of study is required, to be chosen from the six subject areas defined above.</p>	<p>Two quarter credits or 1.5 semester credits chosen from the six subject areas described above count toward this requirement.</p>

*In general, 5 quarter credits (or 3 semester credits) at the college level count as the equivalent of one year of high school study.

Freshman Admission

In general, a freshman is anyone who has not attempted college course work *after leaving high school*. In addition, see information below on the Running Start Program.

See the General Admission Policy section above regarding high school core subject requirements and the Admission Index.

GPA and Test Scores

GPA: A GPA based on a 4.0 scale is calculated for every applicant.

Test scores: Applicants for freshman admission are required to submit scores from one of the following tests:

- Scholastic Assessment Test (SAT I)
- American College Test (ACT).

If an applicant submits more than one set of scores from the same test, or scores from different tests, the *highest combined score from a single test date* will be used. (In other words, the best mathematics score from one test date will not be combined with the best verbal score from another test date.)

Supplemental Admission Factors

The University seeks to admit students with outstanding academic preparation and therefore encourages students to enroll in rigorous courses throughout high school. Applicants with excellent grades and admission test scores are the most competitive for admission; however, the University recognizes that other factors—such as a significant improvement in the GPA from freshman to senior year of high school—can be important in assessing a student's likelihood of success in college, even though they are not reflected in the overall GPA.

The Office of Admissions looks for such evidence of academic strength by examining the files of resident applicants whose Admission Index rankings fall within the range of approximately mid-40s through the mid- to upper-50s. These applicants receive an in-depth review of their course work along with an evaluation of supplemental factors such as documented artistic talent.

In considering the applicants falling within the designated AI range, the Admissions Office looks for:

- completion of a substantial number of academic courses beyond the required minimum;
- enrollment in Advanced Placement, International Baccalaureate, Running Start (college course work), or honors courses;
- a pattern of GPA improvement during the high school years;
- persistent evidence of an unusually competitive grading system in the high school; and
- documentation showing exceptional academic achievement or artistic talent.

Using these criteria, admission is offered to the applicants deemed to be the best qualified.

Running Start Program

The Running Start Program was authorized by the Washington legislature as part of the governor's "educational choice" program. The program allows 11th and 12th grade students to enroll in certain colleges for college credit.

There are no arrangements for high school students to take courses at the UW as Running Start participants.

The policies described on this page concern only admission and the transfer of credit as they affect Running Start participants coming to the UW from other colleges.

A Running Start applicant is someone who applies to the UW while participating in the Washington State Running Start Program. Students who matriculate (enroll to earn a degree) at another institution after leaving high school are not considered Running Start applicants.

Admission: High School Core Subject Requirements

Each applicant must satisfy UW high school core subject requirements for admission by completing the appropriate high school or college courses. See pages 23-24 for a complete discussion of these requirements.

Transfer Credit Policy

The UW grants full transfer credit for college-level Running Start courses recorded on a college transcript. All UW restrictions on transfer credit apply, as listed in the Academic Credit section of this catalog.

Scholarships

Running Start students are eligible for freshman scholarships, no matter how many college credits they have or will have completed. The only requirement is that they must enter the UW with their high school class.

Application Filing Dates

Running Start participants seeking admission for autumn or summer/autumn:

- Apply by February 1 if they will have taken **fewer than 40** college credits by the freshman deadline (February 1) of their senior year.
- Apply by April 15 if they will have taken **40 or more** credits by the freshman deadline of their senior year.

Transfer Admission

In general, a transfer applicant is someone who has attempted college credit *after leaving high school*. In addition, please see the section directly above regarding Running Start.

Transfer applicants are required to complete the high school core subject requirements described above under General Admission Policy.

Admission Index

Except for those qualifying for admission under the Direct Transfer Agreement (see below, Direct Transfer Agreement with Washington State Community Colleges), admission is based on the Admission Index (see above, under General Admission Policy).

Test Scores

Applicants for transfer admission, except for those qualifying under the Direct Transfer Agreement, are required to submit scores from one of the following tests:

- Scholastic Assessment Test (SAT)
- American College Test (ACT)
- Washington Pre-College Test (WPCT). WPCT must have been taken by June 1, 1989 to be used for admission purposes.

Although it is sometimes possible to be admitted to the UW without submitting test scores (see the chart below), it is advisable for all applicants to submit scores. Because minimum admission criteria vary from quarter to quarter, it is not possible to predict exactly what college GPA may result in admission. Submitting test scores will not hinder someone's chances for gaining admission, but neglecting to submit scores may hurt an applicant's chances for admission.

When students submit scores from more than one test or multiple scores from the same test, the Office of Admissions always uses the *highest combined score from a single test date*. (The best mathematics score from one test date will not be combined with the best verbal score from another test date.)

The UW's Office of Educational Assessment (OEA) offers a locally-scored Institutional SAT and ACT for applicants who did not take a pre-college test while in high school or those who wish to improve their score. The test schedule is published annually and is available upon request from the Office of Educational Assessment (543-1170). Space is limited and students are urged to register early for the desired test date. The nonrefundable test fee is \$35.

Two caveats are offered: (1) the OEA will not forward scores to institutions besides the UW, and (2) students who expect to participate in intercollegiate athletics may *not* use locally-scored tests to qualify for NCAA eligibility. If one of these situations applies, an applicant must take the SAT or ACT on a national testing date.

UNDERGRADUATE STUDY

"How Many Credits Do I Need to Transfer to the UW?"

Transfer students often want to know if they must complete a minimum number of credits before transferring. As the chart below demonstrates, they can transfer with any number of credits, but the basis for the admission decision will vary with the number of transfer credits completed.

If an applicant has, by the application closing date, submitted transcripts showing the completion of:	Then an admission decision will be based on:
0-14 transferable ¹ quarter credits	the applicant's high school record. High school GPA + test scores must meet minimum Admission Index for freshmen. Student must achieve minimum cumulative GPA of 2.00 for transferable college course work, but college GPA is not otherwise considered.
15-39 transferable ¹ quarter credits	the applicant's high school and college record. High school GPA + test scores must meet minimum Admission Index for freshmen and college GPA + test scores must meet minimum Admission Index for transfers.
40-74 transferable ¹ quarter credits (30 credits must be graded ²)	the applicant's college record. College GPA + test scores must meet minimum Admission Index for transfers. High school GPA not considered.
75 or more transferable ¹ quarter credits (60 credits must be completed and graded ²)	the applicant's college record. College GPA + test scores must meet minimum Admission Index for transfers. High school GPA not considered. Although test scores are required to complete the application file, an admission decision is sometimes possible without scores for applicants in this category with high GPAs. As a rough guideline, applicants with a cumulative GPA below 3.00 should definitely expect to be required to submit test scores while applicants with a GPA of 3.65 or higher have often not needed to submit scores. However, because the Admission Index (and therefore the minimum college GPA) varies from quarter to quarter, all applicants are urged to submit scores to ensure that their application will be considered.
academic associate degree from a Washington community college	terms of the Direct Transfer Agreement with Washington Community Colleges for residents of the State.

¹ Transferable quarter credits: credits earned for college-level academic courses completed at regionally accredited colleges and universities. Quarter credits are those earned at institutions on a quarter system; one semester credit = 1.5 quarter credits. Transferable college credit includes credits attempted but not satisfactorily completed, i.e., those for which a grade of "F" (0.0) was earned. Beginning summer quarter 1996, the UW will transfer up to 15 credits earned in vocational-technical/occupational programs only if they are included as part of a Washington community college academic associate degree. These credits will not be used in the calculation of the transfer GPA.

² Graded credit: Credit taken for a grade (not pass/fail or satisfactory/not satisfactory) in college-level academic courses at regionally accredited institutions. Credits earned in vocational-technical programs do not count as graded credit.

The Transfer GPA

What follows are general guidelines for understanding how the Admissions Office arrives at the transfer admission GPA, which is used in computing both the Admission Index and the cumulative GPA for Direct Transfer applicants. It must be emphasized, however, that these guidelines cannot address the differences in grading practices that the Admissions staff encounters when reviewing transcripts. In addition, it should be remembered that these policies pertain only to the transfer GPA for purposes of determining general admission to the University. Some undergraduate programs at the University, such as business administration or engineering, have selective admission policies. When transcripts are reviewed for entrance to their program, they may calculate the GPA differently; for example, some departments use only courses in the major field or the GPA earned in the last 45 credits.

In calculating the transfer admission GPA, the Office of Admissions uses:

- All transferable academic courses, from all colleges the student has attended, in which the student has received grades between 0.0 and 4.0 on a 4.0 grading scale. Within this grading scale, Admissions uses the grade assignments of the home institution, whether 3.1 or 3.0 for "B." Although the UW uses a decimal scale for grading students in its own courses, transfer grades are not converted to a uniform decimal scale.
- Repeated courses. Beginning winter 1983, UW policy states that any course may be repeated once and both grades are used in the GPA. Grades earned in subsequent repeats are not considered.
- All transferable academic credit from two-year colleges, even if the student has earned more than 90 transferable credits from two-year colleges. (See Transfer Credit, Notable Restrictions on Transfer Credit.)

The Office of Admissions does not include in the transfer GPA:

- Courses considered to be below college level
- Math courses equivalent to MATH 101 (intermediate algebra)
- Certain religion courses that teach from a particular doctrinal perspective or that teach preparation for a ministry
- Developmental or remedial courses
- Courses in study skills
- Lower-division military science courses
- English as a Second Language
- Vocational/technical courses
- Courses recorded with a grade of "incomplete" (unless changed to "F" at home institution)
- Courses recorded with a grade of "Pass" or "Satisfactory"
- PE activity credits in excess of 3 quarter credits.

Direct Transfer Agreement with Washington State Community Colleges

The Direct Transfer Agreement is an admission policy for residents of the state attending Washington community colleges.

The Direct Transfer Agreement ensures admission only to premajor status in the College of Arts and Sciences but does not promise admission to any other school or college nor to any particular major or professional field of study within the University. (See below, Transfer Credit, Associate Degree Agreement with Washington Community Colleges.)

If the spaces available for students under this agreement are exhausted for a particular quarter before all eligible Transfer Agreement students have been ad-

- the applicant *matriculates* at another four-year institution or in another UW degree program (e.g., UW-Bothell, UW-Tacoma, UW-Evening Degree Program) after obtaining the associate degree,
- the GPA is below 2.75 at the time the associate degree is completed, or
- the GPA drops below 2.75 for transfer work taken after obtaining the associate degree.

Postbaccalaureate Admission

Postbaccalaureate is a matriculated status reserved for students who are working toward a second bachelor's degree, or preparing for entrance to graduate or professional school. Only a small number of applicants are admitted every quarter as postbaccalaureate (fifth-year) students because the University's primary commitment is to undergraduates who are completing their first bachelor's degree. A student who is inadmissible as a postbaccalaureate may still take advantage of many educational opportunities at the UW by enrolling as a *nonmatriculated* student through University Extension (see the section of the catalog entitled UW Extension).

Admissions Policy

All postbaccalaureate applicants must submit a supplemental statement (discussed below) at the time of application to the University. A small number of applicants may be admitted in summer/autumn and autumn quarters on the basis of GPA alone, but the supplemental statement is required regardless of GPA. *An application submitted without the statement will be considered incomplete and will not be reviewed.*

Admission by GPA

When a minimum GPA is established for routine admissions, it will be in the range of 3.40 to 3.80. In calculating the cumulative undergraduate GPA, the Office of Admissions uses all grades earned at accredited four-year colleges and universities prior to the completion of the first bachelor's degree. Grades from community college course work are not included.

If a postbaccalaureate applicant applies for a department that uses selective admission criteria and is denied admission to the program, the applicant will also be denied admission to the University.

Admission in Winter and Spring Quarters

Because admission to the University may be more strictly limited in winter and spring quarters than in summer/autumn and autumn quarters, there is no guarantee that any postbaccalaureate applicants will be admitted on the basis of GPA alone for winter or spring.

Supplemental Statements

Supplemental statements are reviewed by the Postbaccalaureate Review Committee (PRC). Decisions are made on a rolling basis: the earlier an applicant's supplemental file is complete, the earlier the file will be reviewed. Supplemental statements should be typed or written on stationery or plain paper; there is no special form. The applicant will be notified in writing of the final decision after evaluation of transcripts and the supplemental statement. A complete discussion of the supplemental statement is included in the *Postbaccalaureate Admission Packet* available from the Office of Admissions.

Special Categories of Admission

Special Admissions and the Appeal of Admission Decisions

The University's admission policies must comply with Washington State regulations and faculty-authorized requirements. It is the responsibility of the Office of Admissions to apply these standards consistently and fairly. The faculty recognizes, however, that exceptions should be granted, when appropriate, for students in unusual situations. Applicants who do not meet the University's requirements for admission may write a petition requesting special admission consideration. Such requests for special consideration are reviewed by the Committee on Admissions and Academic Standards. Applicants do not need to be denied before they petition. Applicants planning to submit petitions should request from the Office of Admissions *Undergraduate Admissions Pamphlet #2*, which provides specific guidelines on the petitioning process.

To request disability accommodation in the application process, contact the Office of Admissions at (206) 543-9686 (Voice) or 1-800-833-6388 (Washington State Relay Service TDD).

Office of Minority Affairs Educational Opportunity Program

The Office of Minority Affairs (OMA) is responsible for fostering diversity at the University by providing outreach and support services to underrepresented ethnic minority and economically disadvantaged students within the undergraduate program. Admission to the EOP is limited to applicants who are U.S. citizens or permanent residents, with priority given to Washington state residents.

Students admitted into the EOP are provided special services such as counseling, placement testing, academic tutoring, and special instruction. For more information, contact the Office of Minority Affairs (206) 543-5715.

Nonresident Applicants

As a state-supported university, the UW gives priority to residents and expects nonresident applicants to meet admission standards significantly higher than those required for residents. Under Washington State residency laws, students are defined as either financially independent of parents or as financially dependent on parents.

For financially dependent students to be classified as residents, one or both parents or legal guardians must claim the student as a dependent, and one must be a resident of the state for at least one year before the quarter for which the student is intending to enroll.

Students who are financially independent must establish a permanent residence in Washington for at least twelve consecutive months before the quarter of application, establish all ties with Washington upon moving here (obtain Washington driver's license, voter registration, and other means), be financially independent of parents for the current and previous calendar years, and cannot be claimed as a dependent on federal income tax returns.

Applicants whose residency status is unclear will be asked to submit documentation. Questions about residency status should be directed to the Registrar's Office, Graduation and Academic Records, at (206) 543-4188.

International Students

The University believes its greatest contribution to international education can be made in the area of graduate study.

mitted, remaining applicants may choose to be placed on a priority list for admission to the earliest subsequent quarter for which sufficient spaces are available.

To qualify for admission under the Direct Transfer Agreement, an applicant must:

- be a resident of Washington State,
- transfer directly from a Washington community college,
- complete all core subject requirements by the time of matriculation at the UW (i.e., the point at which the student enrolls for the purpose of earning a degree),
- complete an approved academic associate degree at a Washington community college prior to matriculating at the UW, and
- have a cumulative 2.75 GPA in all transferable academic course work at the time the associate degree was completed and/or at the time of admission. The GPA includes course work completed at all colleges attended. Admission test scores are not required or used.

If the associate degree is projected to be completed prior to matriculation at the UW, no more than one quarter of course work may be outstanding. For example, an applicant for autumn quarter 1997 who expects to complete the associate degree in spring 1997 must submit transcripts through winter 1997. If the applicant in January 1997 submits an application and an initial set of transcripts showing grades through autumn 1996, an updated transcript showing winter 1997 grades will have to be sent to Admissions in March or early April. Nonetheless, early application is encouraged.

If an applicant continues to enroll at a community college or enrolls at a four-year college or university as a *nonmatriculated* student after the associate degree is completed, the Direct Transfer Agreement requires that the student's GPA in transferable course work does not drop below 2.75.

An applicant will not qualify for admission under the Direct Transfer Agreement if:

- the applicant fails to complete the associate degree before matriculation at the University,

UNDERGRADUATE STUDY

Because of limited University facilities and departmental restrictions, only a small number of international undergraduate applicants are accepted each year. International undergraduate applicants are considered for admission only for summer/autumn quarter or autumn quarter and must present academic records well above the average to be competitive for admission.

To be considered for admission, international students:

- must complete the same high school core subject requirements as other students, as described on pages 23-24 above.
- must attain a minimum score of 540 on the Test of English as a Foreign Language (TOEFL) or 85 on the MLT.
- must submit all documents by the posted deadline (see chart on page 29).

International students seeking matriculated (degree-seeking) undergraduate admission should request an International Undergraduate Preliminary Application from the Office of Admissions. It should be completed and returned by November 1. There is no application fee for submitting the Preliminary Application. Students meeting minimum requirements will be sent an Undergraduate International Admission Application which must be completed by February 1.

Specific information on admission of international undergraduates accompanies the special application form for international applicants.

Non-native Speakers of English

In addition to the English core subject requirement, immigrants and international students who are non-native speakers of English must present evidence of English language proficiency by providing scores from the Test of English as a Foreign Language (TOEFL). The only exceptions are native-born citizens of Australia, Canada, United Kingdom, Ireland, and New Zealand.

Applicants from non-English-speaking countries may demonstrate their English proficiency also by examination. Any one of the following scores will meet this requirement:

Test of English as a Foreign Language (TOEFL)	580
UW-administered MLT	90
SAT I Verbal (taken April 1995 or later)	490
SAT I Verbal (taken before April 1995)	410
ACT English	20

Admitted applicants who do not score high enough on one of these tests will be required to take remedial courses in English as a Second Language (ESL) when they first enroll at the University. An additional fee is charged for each ESL course a student is required to take. Specific information on this requirement may be obtained from the Office of Admissions or, for admitted students, from the Office of Special Services.

More information on the TOEFL appears under English As A Second Language (ESL) Department in the UW Extension section of this catalog.

Returning Former Students

A returning undergraduate or professional student who has not been enrolled for a quarter or more and who did not complete the preceding quarter, or a graduate student returning from Official On-Leave status is required to complete and file a Returning Student Reenrollment Application by the application deadline. A student is eligible to apply as a returning former student only when returning in the same classification

as when previously enrolled. Students applying for a new category (e.g., postbaccalaureate, professional, or graduate) must complete the appropriate application for that category. A returning undergraduate or professional student is required to pay a \$35 application fee by the closing date. Returning former students who have been away from the University less than two quarters have the highest priority for readmission. A student previously enrolled in an academic program with restricted enrollment and/or special admission requirements should consult his or her adviser about procedures for readmission. Returning nonmatriculated students are enrolled only for summer quarter.

The closing dates for returning former student applications are: autumn, July 1; winter, November 1; spring, February 1; summer, June 1.

A returning student must pay a nonrefundable enrollment confirmation deposit of \$100 by the date indicated in the offer of readmission.

The Procedures and Fees section of this catalog contains additional information about registration, tuition, and fees.

Nonmatriculated Students

Many students find their educational needs met through nonmatriculated (non-degree) enrollment. Matriculated status is reserved for students who have met competitive admission standards and who are enrolled primarily for the purpose of earning a degree. For more information about nonmatriculated enrollment, consult the UW Extension section of this catalog.

Auditors

Individuals who wish only to audit University courses should apply for admission with nonmatriculated standing. (See UW Extension section of this catalog.) Attendance in courses as an auditor is by consent of the instructor involved and is conditioned by the extent to which space is available. Permission to audit is ordinarily granted for lecture classes only. An auditor may not participate in class discussion or laboratory work, and his or her registration may be canceled at the discretion of the instructor. No record of audited courses is kept. Regular tuition and fees are charged. To receive credit for an audited course, the student must register for the class for credit in a subsequent quarter.

Filing an Application

Prospective students may obtain the University of Washington undergraduate application form from the Office of Admissions by calling the application request line at (206) 543-5150 or by writing to the Office of Admissions. Departmental applications for programs with special admission requirements (see page 29, Admission to the Major) must be obtained directly from the department.

The University accepts applications transmitted electronically, either through the College Board's ExPAN program or through CollegeLink. Contact your high school counselor for more information. An electronic application on the World Wide Web is under development as this catalog goes to press. Visit the University's home page at <http://www.washington.edu>.

Applicants in all categories are advised to apply early since limited availability of space may necessitate closure of admission prior to the closing dates. In addition, many departments have earlier closing dates. High school and international applicants are encouraged to apply in November for summer or autumn quarters. Transfer and postbaccalaureate applicants should plan to submit required documents at least six weeks before the published closing date or departmental

deadline; applicants for autumn quarter often begin applying in January/February (see Application Closing Dates table on the next page).

A complete application file consists of the following materials:

- **Application**
- **Application fee of \$35 (U.S. funds).** This fee is nonrefundable and must be submitted with each application.
- **Official high school transcript (Freshmen and transfer applicants only including international students).** This record is required of all freshman and transfer applications for the purpose of verifying completion of core subject requirements. For applicants with 40 or more graded transferable quarter credits, high school performance (GPA) will not be considered in determining admissibility.

Applicants are responsible for contacting any high school(s) they have attended and requesting appropriate documents. The Office of Admissions will keep for one calendar year any transcripts or other credentials it receives.

For freshman applicants, a high school transcript must show grades at least through the junior year (grades 9-11).

For transfer applicants, a high school transcript must be a final transcript, showing all courses completed, beginning with grade 9 and through the highest grade completed, regardless of whether the student graduated. Preferably, mathematics and foreign language courses completed in the 8th grade will also be recorded on the high school transcript, but this is not required.

A transcript is official if it bears the official seal and authorizing signature of the issuing institution and is:

- sent directly by the school to the Office of Admissions or
- sealed by the school and mailed or delivered to Admissions by the applicant. If the envelope is opened, the transcript is no longer official.
- **Official test scores from SAT I or ACT (Freshman and transfer applicants only):** Scores from WPCT are acceptable if the applicant took the exam by June 1, 1989.

Test scores are official if they are:

- sent directly from the testing agency to the UW or
- sent directly from the high school (handwritten scores are not acceptable).

Test scores sent directly from the testing agency will enable the Office of Admissions to process an application more quickly.

- **Two official transcripts from each regionally accredited college attended.**

Applicants may not exclude or omit any colleges, regardless of how many credits they earned there or the nature of the program in which they were enrolled.

An application file that is incomplete on the application closing date is not considered further unless space availability permits an extension of the deadline. The application fee will not be returned or applied to a future application. To be considered for a future quarter, it is necessary to submit a new application, an application fee and current documents. Any documents that were submitted in support of an application are retained for twelve months and are transferred to a new application if they are the most current records available.

An application is good only for the specific quarter requested.

Application Closing Dates

Quarter	Freshmen	Transfers and Post- baccalaureates	International Students ³	
			Preliminary Application	International Application
Autumn	February 1	April 15	November 1	February 1
Winter	October 15	October 15	Applications not accepted	
Spring	January 15	January 15	Applications not accepted	
Summer/Autumn ¹	February 1	April 15	November 1	February 1
Summer Only ²	June 1 is the closing date for mail-in application and registration. In-person registration required after June 1.			

¹Begin summer, continue into autumn as a matriculated (degree-seeking) student. Failure to enter summer cancels autumn admission and any registration.

²Nonmatriculated status only; cannot continue into autumn.

³Use *International Undergraduate Preliminary Application*.

Applicants may not delay or defer enrollment. Applicants will have to reapply and pay another application fee if (1) the applicant is accepted but would like to enroll for a later quarter, (2) applicant was not accepted and wishes to apply for a future quarter, or (3) applicant submitted an application and application fee but does not complete application file.

Other Application Forms

Financial Aid

Application for financial aid is a process entirely separate from application for admission. Interested students should contact the University's Office of Student Financial Aid, 105 Schmitz Hall; telephone: (206) 543-6101, or the counselors at their own school for information about financial aid availability. International students are not eligible for financial aid.

University Housing

Admission to the University does not automatically reserve residence hall space. Additional information on student housing appears in The University section of this catalog.

Admission to the Major

Transfer applicants are strongly urged to begin academic planning early in their college career and to contact directly the program(s) they are interested in well before applying for admission to the University. All of the majors available at the UW are listed on page 21, organized by school/college. Majors marked with a ‡ symbol have admission requirements beyond those required for admission to the University.

There are three types of departmental admission policies at the UW:

- **Open.** These majors are open to applicants at the time of admission to the UW or any time thereafter. Examples: oceanography, philosophy.
- **Minimum Requirements.** These majors have minimal admission requirements, such as completing 10 credits of introductory courses with a cumulative GPA of 2.50. Majors in this category generally admit all applicants who meet the minimum requirements, without any further screening or selection. However, some of these majors may make exceptions, depending on the number of applicants they receive for a given quarter. Many of the majors with minimum requirements also require that new students enroll at the UW before applying to their program. Examples: English, history, political science.
- **Competitive.** These majors have competitive admission standards, which fluctuate from quarter to quarter depending on the number of applicants. Fulfilling Uni-

versity admission requirements does not guarantee admission to a specific department or program. The degree of competitiveness varies greatly from major to major. In addition, some of these majors require that new students enroll at the UW before applying to their program. An applicant who declares one of these majors on the admission application but is not admissible to it may be required to enter the UW as a premajor to complete the college courses required for admission to the major of choice. Examples: business, communications, engineering, nursing.

Applicants to majors marked with a ‡ symbol on page 21 should file a University application and submit all other necessary materials at least six weeks before the departmental deadline, to allow time for the department to request any supplementary information from the applicant. In most cases, applicants must also file a separate application with the department. Complete information on departmental admission requirements and procedures may be obtained from the appropriate department.

Academic Credit

Credit

The basic rule for determining academic credit is: 1 credit represents a total student time commitment of 3 hours each week in a 10-week quarter, or a total of 30 hours in a quarter. Total time includes time spent in class, if any; time devoted to individual conference with instructors; time devoted to reading or other study, problem solving, writing, laboratory work, exercises, or any other activity required of the student. A specified number of credits must be earned for a degree.

There are three basic types of credit:

Residence credit is academic credit earned in courses offered by the UW through the quarterly *Time Schedule* and other approved courses offered by UW Extension. To gain residence credit, students must register for such courses during the official registration period.

Extension credit or credit earned through examination is credit earned by completing courses offered as extension courses or credit earned through special examinations. Such courses are not included in the UW grade-point average.

No more than 90 UW extension credits may be counted toward the baccalaureate degree. No more than 45 credits earned in extension courses at other institutions may be counted toward the baccalaureate degree. Ordinarily, extension and independent (correspondence) study credits may not be applied toward the final year.

Transfer credit is credit earned at another institution that is accepted by the University as being applicable toward satisfaction of degree requirements.

Quarter Credit Versus Semester Credit

Colleges and universities that operate on a semester basis (i.e., divide the academic year into two parts, exclusive of a summer session) award semester credit. Quarter credits multiplied by two-thirds equal semester credits. Semester credits multiplied by one and one-half equal quarter credits. For example, a student attending the University who earns 45 quarter credits during an academic year would have earned 30 semester credits at an institution operating on the semester plan.

Credit for Courses Completed in Unaccredited Institutions

Course work completed at unaccredited institutions may be validated or certified through examination described under Earning Credit by Special Examination below.

Transfer Credit

The Office of Admissions awards transfer credit using the guidelines listed below. *It reserves the right to accept or reject credits earned at other institutions of higher education.* In general, it is University policy to accept credits earned at institutions fully accredited by their regional accrediting association, provided that such credits have been earned in university-level courses (see some exceptions below) appropriate to the student's degree program at the University. UW course equivalencies are assigned based on transfer course content when taken, subject to university transfer policies in effect at the time of admission to the UW.

Transfer Credit Evaluation

After the student confirms enrollment—usually by paying a \$100 enrollment confirmation deposit—and shortly before the student's orientation or registration date, the Office of Admissions completes a course-by-course evaluation of transfer credit. (The enrollment confirmation deposit is deducted from the first quarter's tuition but is not refundable if the student does not enroll; students admitted for summer/autumn quarter are not required to pay an enrollment confirmation deposit and, therefore, automatically receive the evaluation in the mail.) One copy of the evaluation is sent to the student; a second copy is sent to the student's academic advising office.

The information recorded on the transfer credit evaluation—including the transfer GPA—becomes a part of the student's permanent record at the University. If a student applies to an academic program with special admission requirements, transfer course work and the transfer GPA will be considered. The official UW transcript—which the student may request sent to other institutions—will not include the transfer GPA or a detailed listing of the transfer credit the UW awarded; it merely lists other colleges the student has attended and the total number of transfer credits awarded. After the student enrolls at the UW, transfer grades are not included in the University GPA.

Postbaccalaureate students are not routinely awarded transfer credit; they received no transfer credit evalua-

UNDERGRADUATE STUDY

tion from the Admissions Office. Students working toward a second baccalaureate degree should consult with their academic adviser to learn how credit from other universities may apply toward their UW degree.

Notable Restrictions on Credit

College-Level Examination Program (CLEP) Credit

The University does not accept or award credit for CLEP general or subject examinations. Any such credit awarded by other institutions, or through independent testing, will not be transferred to the University.

Community College Credit

A maximum of 90 credits from community college course work may be applied toward the credits required for the bachelor's degree. All of the courses transferred from two-year colleges may be used toward graduation requirements, but a student must still complete at least 90 credits of course work at a baccalaureate granting institution (see senior residency requirement, below). Think of transfer courses as a "bank" from which to draw. All of a student's transferable courses remain in the bank to be applied toward specific degree requirements, but 90 additional credits must be earned.

Courses with Overlapping Content

If a department considers two of its courses to have overlapping content, credit will be awarded for only one. For example, credit is granted for either PHYS 114 or PHYS 121. Other departments in which such overlapping courses occur include Astronomy, Computer Science, Economics, Genetics, Geological Sciences, Linguistics, Psychology, and Statistics. Restrictions of this kind are noted in this catalog, generally as part of the course description.

Extension Credit from Other Schools

Extension credit earned at other schools may not exceed 45 credits. AP credit and Military credit, discussed below, is included in the 45 extension credit limit.

Language of Admission

Students who completed two or more years of a high school foreign language receive no college credit for an entry-level course (e.g., FREN 101) in the same language when that course is completed after matriculation at the University. Transfer students who complete such a course before matriculation are eligible to receive transfer credit.

Limitation on ROTC Credits

Credit earned in first- and second-year military training courses may not be counted in the basic 180 credits that are required for graduation. Some third- and fourth-year courses may count, depending on the student's college or school.

Military Credit

Credit earned in Armed Forces Training Schools (AFTS) and through USAFI and DANTES may not exceed 30 credits and are included in the 45 extension credit limit. Official transcripts or DD-214 or DD-295 forms must be submitted, and credit will not be awarded until after the student has enrolled. Scores received in such course work are not included in the transfer GPA.

Native Language

First-year (elementary) or second-year (intermediate) foreign-language credit is not granted either by examination or by course completion in a student's native language. "Native language" is defined as the lan-

guage spoken in the student's home during the first six years of his or her life and in which he or she received instruction through the seventh grade.

Out-of-Sequence Courses

Credit is not awarded for prerequisite courses taken after a more advanced-level course has been completed. For example, students will not be awarded credit for SPAN 102 if taken after SPAN 103.

Physical Education

No more than 3 quarter credits will be allowed for physical education activity courses.

Vocational-Technical Courses

Transfer credit will not generally be awarded for vocational or technical courses. However, a maximum of 15 quarter credits will be awarded in transfer for college-level vocational-technical courses when they have been allowed as electives within the 90 credits comprising an academic associate degree from a Washington community college. Courses in this category are those which would ordinarily provide specialized training for an occupation (e.g., allied health, bookkeeping, electronics, physical therapy assistant). When allowed, these credits will apply only toward the elective credit component of a baccalaureate degree.

Courses Receiving No Credit

The University reserves the right to deny credit for courses which are not compatible with those offered in its baccalaureate degree programs. Some general categories of courses never receive transfer credit. Examples include:

- courses below college level (usually numbered below 100)
- repeated courses or courses with duplicate subject content
- course work earned at an institution that did not hold at least candidacy status with its regional accrediting association when the course work was taken
- courses that provide instruction in a particular religious doctrine
- mathematics courses considered below college level, including basic math, business math, and beginning and intermediate algebra
- courses offered for non-credit continuing education units
- remedial English (e.g., reading, vocabulary development, grammar, speed reading or any courses that are preparatory to an institution's first Freshman Composition course)
- remedial courses in any academic discipline (100-level and above)
- lower division military science courses*
- non-academic/vocational-technical courses*

* Credit may be awarded for these courses if included within the 15 credits allowed for vocational-technical courses completed as part of an academic associate degree as described in the preceding section.

Appeal Procedure

If not all courses transfer as the student had anticipated, and the academic adviser cannot explain the discrepancy, the student should consult an admission specialist in the Office of Admissions. Further appeal can be directed to the UW Transfer Officer in the Admissions Office.

Class Standing

A student's class standing is determined by the total number of transfer credits awarded by the UW, not by the number of years of college study or completion of an associate degree.

The following table lists the required credits for each class:

Freshman	0-44
Sophomore	45-89
Junior	90-134
Senior	135 or more

Satisfying UW graduation requirements depends not only on the number of credits completed (a minimum of 180) but also on completion of all college and major requirements.

Applicability of Transfer Credit to Degree Requirements

Before a student first registers for classes at the University, he/she will meet with an academic adviser to plan a program of study. The adviser will determine how transfer credits shown on the evaluation may be applied to UW degree requirements. Although Admissions may award a student 100 transfer credits, for example, only 70 of those credits might apply toward the various graduation requirements for a student's degree program.

The Associate Degree Agreement with Washington Community Colleges

Many community college students who plan to transfer to the University ask about the advantage of earning an associate degree before they transfer. There are two separate agreements that may benefit such students. Both agreements apply only to students with academic-transfer (as opposed to vocational/technical) associate degrees, and only to those whose degrees are from community colleges in Washington.

One of these, the **Direct Transfer Agreement**, assures students of priority consideration for admission to the UW. (See above for a complete discussion). Admission under the Direct Transfer Agreement does not guarantee admission to any specific program within the University.

The other agreement, called the **Associate Degree Agreement**, affects how courses from the community college apply toward graduation requirements from some colleges/schools at UW. To qualify for the agreement, a student must complete all the requirements for the associate degree before regular admission to UW; earlier enrollment as a nonmatriculated student in summer quarter, UW Extension, or UW correspondence courses, however, is allowed. Unlike the Direct Transfer Agreement, the Associate Degree Agreement may also apply to students who have matriculated at another four-year institution between earning the associate degree and transferring to the UW.

Benefits of the Associate Degree

The primary benefit is that students may count transfer courses toward Areas of Knowledge (formerly distribution) requirements if the community college counted them, even if the courses are not listed as counting for Areas of Knowledge in the UW Transfer Guide. Humanities courses will count for Visual, Literary, & Performing Arts; Social Science courses for Individuals & Societies; and Natural Science courses for the Natural World. (Note: Completing the Areas of Knowledge requirement does not automatically mean that an applicant has fulfilled the high school core subject requirements. See pages 23-24 for the discussion of admission core subject requirements.) There are three possible pitfalls, however:

- no more than 15 credits in the student's major department may be counted for Areas of Knowledge;

- some courses will not be counted for both Areas of Knowledge and proficiency (e.g., for a student in the College of Arts and Sciences who has only one foreign language, the first year of that foreign language would not count for Visual, Literary, & Performing Arts, because it must be used for the foreign-language proficiency requirement instead); and

- a course that does not transfer for credit (e.g., intermediate algebra) does not count toward graduation requirements.

Many students with associate degrees have earned fewer than the required credits in each of the three Areas of Knowledge (the Natural World, Individuals & Societies, and the Visual, Literary, & Performing Arts), and thus will be completing the requirements at the UW. Students are *not* exempted from other specific general education requirements of their UW school/college.

1994 Requirements

The schools and colleges of the University implemented new general education requirements, effective autumn of 1994.

Bachelor Degree Planning

Students often assume that work on a major does not begin until the junior year. It is important to investigate the requirements of any intended major. Some community colleges have associate-degree options that allow students to earn the A.A. while fulfilling the requirements of specific UW majors. Lacking those options (and depending on the likelihood of being admitted without recourse to the Direct Transfer Agreement), students may sometimes be better off not earning the associate degree, particularly for programs outside the College of Arts and Sciences, such as engineering or business, that have very specific prerequisites. In some cases, it may even be better to transfer with fewer than 90 credits. For example, students planning to major in certain languages may need to start earlier

than their junior year if course work is available only at the UW. Students in some preprofessional programs such as premedicine or predentistry will probably not need to transfer early, but they should talk with an adviser at the UW late in their freshman year.

Transferring from Washington Community Colleges

The UW subscribes to the statewide Policy on Inter-College Transfer and Articulation Among Washington Public Colleges and Universities endorsed by the public colleges and universities of Washington and the State Board for Community and Technical College Education, and adopted by the Higher Education Coordinating Board. The policy deals with the rights and responsibilities of students and the review and appeal process in transfer credit disputes.

Earning Credit by Special Examination

With departmental approval, regularly admitted and currently enrolled students may "challenge a course," by special examination to gain credit without being enrolled in specific courses.

1. For independent study.
2. For work completed with private teachers.
3. For work completed in unaccredited institutions if a formal examination is deemed necessary by the Chair of the concerned department(s). (In some cases, credit may be validated without an examination. Students who wish to validate credit should inquire at the Office of Admissions.)

The following restrictions apply:

- a. No one may take a credit examination for a course in which he or she has previously registered.
- b. All credits earned by examination are counted as extension credit and if earned at the UW, are included

in the 90-extension-credit maximum that may be applied toward the baccalaureate degree. (Transfer extension credit is limited to 45 quarter credits.) No credit is allowed by examination if the grade earned is less than 2.0. Grades earned are not included in the GPA.

- c. No student shall receive credit by examination for a course for which the student would not be eligible to receive credit if the course were taken in residence, i.e., SPAN 202 if credit already awarded for SPAN 203.

- d. No student is permitted to repeat any examination for credit.

- e. No student shall receive credit by examination for lower-division courses in the student's native language. (Some language departments have more restrictive policies. Consult the individual language department for details.)

- f. Credit by examination is not acceptable for application toward an advanced degree in the Graduate School.

A student who wishes to qualify for credit by examination must apply to the Graduation and Academic Records Office for a certificate of eligibility no later than Friday of the second week of the quarter. The student presents the form to the instructor and Chair and/or Dean for signed approval. It is then returned to the Graduation and Academic Records Office. Signed forms and payment of \$25 for each course to be challenged must be submitted by Friday of the second week of the quarter.

Examinations are administered by the Office of Educational Assessment during the fifth week of the quarter.

No student is permitted to take more than two examinations in 3-, 4-, or 5-credit courses, or more than three examinations in 1- or 2-credit courses in one day. If the student plans to take more examinations in a given quarter, an additional day may be permitted and arrangements made with the Office of Educational Assessment.

Credit for Beginning College Study at an Advanced Level

A student who begins college study in the third quarter of the second-year University language sequence may receive 5 credits for the second quarter of the second-year course, provided the third-quarter course is successfully completed. Similarly, a student who begins college study with an upper-division course in a language (other than courses in English translation or in conversational practice) may be granted 10 credits for the second- and third-quarter courses of the second-year sequence, provided that course is successfully completed.

A student who is placed by examination at the level of MATH 125 or higher receives additional credits upon completion of the advanced course. If the student's first University mathematics course is MATH 125, credit for MATH 124 is given. A student whose first mathematics course is MATH 126 is given credit for both MATH 124 and 125.

A student who is placed by examination at the level of CSE 143, may upon successfully completing the course, receive credit for CSE/ENGR 142.

A student must apply for advanced standing credits at the Graduation and Academic Records Office after having completed the advanced course.

UNDERGRADUATE STUDY

Advanced Placement Program (College Board)

Students who complete college-level work in high school may receive credit or placement, or both, at the University on the basis of performance on an Advanced Placement examination.

Listed below are departmental policies on granting placement or credit for AP examinations. Scores range from a high of 5 to a low of 1; in most departments, credit and/or placement is awarded for scores of 3 or higher. In some cases, the student must consult the appropriate departmental adviser after arriving at the University.

Art

Art History AP-5 ART H X (10 credits). See departmental adviser for placement. Credits may apply to Visual, Literary, & Performing Arts requirement.

AP-4 ART H X (5 credits). See departmental adviser for placement. Credits may apply to Visual, Literary, & Performing Arts requirement.

Studio Art No credit. See departmental adviser for placement.

Biology AP-5
AP-4 BIOL 101-102 (10 credits). May be evaluated as credit for two quarters of BIOL 201, 202, 203 sequence. See biology adviser.

Chemistry No credit is given. Engineering students who are exempt should consult engineering departmental advisers.

AP-5 Exemption from CHEM 140, 141, 150, 151, 160, 161 granted upon successful completion of CHEM 237 or 335; consult chemistry adviser.

AP-4 Exemption from CHEM 140, 141, 150, 151 granted upon successful completion of CHEM 160 or 165; consult chemistry adviser.

AP-3 Exemption from CHEM 140, 141 granted upon successful completion of CHEM 150, 151; consult chemistry adviser.

Classics

Latin Lyric AP-5
AP-4 LATIN 305, 306 (10 credits)

AP-3 LATIN 103 (5 credits)

Vergil AP-5
AP-4 LATIN 305, 307 (10 credits)

AP-3 LATIN 103 (5 credits)

Latin Lyric and Vergil AP-5
AP-4 LATIN 305, 306, 307 (15 credits)

AP-3 LATIN 103 (5 credits)

Computer Science

A Exam AP-5 or
AP-4 CSE 142 or ENGR 142 (4 credits)

AB Exam AP-5,
AP-4, or
AP-3 CSE 142 or ENGR 142 (4 credits)

With permission of CSE 143 instructor, students scoring 5 or 4 may also receive credit for CSE 143.

Economics No credit will be given. See departmental adviser for placement.

English AP-5
AP-4
AP-3 ENGL 111 (5 credits) For students with AP-5, 4, or 3 scores on either the language and composition examination or the composition and literature examination.

AP-5
AP-4
AP-3 ENGL 111, 131 (10 credits). For students with AP-5, 4, or 3 scores on both the language and composition examination and the composition and literature examination.

German

Language AP-5 GERMAN 201, 202, 203 (15 credits)

AP-4 GERMAN 201, 202 (10 credits)

AP-3 GERMAN 201 (5 credits)

Literature AP-5 GERMAN X (12 credits)

AP-4 GERMAN X (9 credits)

AP-3 GERMAN X (6 credits)

See departmental adviser for exact courses and placement. Any 3, 4, or 5 score satisfies the College of Arts and Sciences foreign language requirement.

Government and Politics

American No credit will be given.

Comparative No credit will be given.

History

American AP-5
AP-4 HSTAA 201 (5 credits)

European AP-5

International Baccalaureate

Students may receive college credit at the University for International Baccalaureate Higher Level subjects. In general, five (5) quarter credits are granted for each Higher Level subject in which a score of 5 or higher is earned.

Language	Language A1 or B
Individuals & Societies	History, Geography, Philosophy, Social Anthropology, Business & Organization
Experimental Sciences	Physical Science, Experimental Psychology, Environmental Systems
Mathematics	Mathematics, Mathematical Methods, Mathematical Studies, Mathematics with Further Mathematics
Electives	Latin, Classical Greek, Computing Studies

For the following exams, different policies pertain:

Art/Design	No credit; see art adviser for placement.
Biology	Credit varies; see biology adviser.
Chemistry	No credit; see chemistry adviser for possible exemption from course work.
Economics	No credit; see economics adviser for placement.
Music	Credit varies; see music adviser.
Physics	No credit; consult physics adviser for possible exemption from course work.

University Placement Tests

Information concerning mathematics, chemistry, and foreign language placement tests is included with the offer of admission or in the leaflet on registration instructions, which is mailed to applicants upon receipt of their enrollment confirmation. Additional information on recommended tests may be obtained from the appropriate college or departmental advising office. Testing information is also available at the Office of Educational Assessment, 453 Schmitz.

B-	2.8-2.6	
C+	2.4-2.2	
C	2.1-1.9	
C-	1.8-1.5	
D+	1.4-1.2	
D	1.1-0.9	
D-	0.8-0.7	Lowest passing grade.
E	0.0	Failure or Unofficial Withdrawal. No credit earned.

Additional information on grades and scholarship rules may be obtained from the Graduation and Academic Records Office, 264 Schmitz.

The following letter grades also may be used:

N No grade. Used only for hyphenated courses (courses not completed in one quarter) and courses numbered 600, 601, 700, 750, and 800.

I Incomplete. An incomplete is given only when the student has been in attendance and has done satisfactory work until within two weeks of the end of the quarter and has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other circumstances beyond the student's control. To obtain credit for the course, an undergraduate student must convert an incomplete into a passing grade no later than the last day of the next quarter. *The student should never reregister for the course as a means of removing the incomplete.* An incomplete grade not made up by the end of the next quarter is converted to the grade of 0.0 by the Registrar unless the instructor has indicated, when assigning the incomplete grade, that a grade other than 0.0 should be recorded if the incomplete work is not completed. The original incomplete grade is not removed from the permanent record.

An instructor may approve an extension of the incomplete removal deadline by writing to the Graduation and Academic Records Office no later than the last day of the quarter following the quarter in which the incomplete grade was assigned. Extensions, which may be granted for up to three additional quarters, must be received before the incomplete has been converted into a failing grade.

In no case can an Incomplete received by an undergraduate be converted to a passing grade after a lapse of one year.

S Satisfactory grade for courses taken on a satisfactory/not satisfactory basis. An S grade is automatically converted from a numerical grade of 2.0 or above for undergraduates. The grade S may not be assigned directly by the instructor, but is a grade conversion by the Office of the Registrar. Courses so graded can only be used as free electives and cannot be used to satisfy a University, college, or department course requirement. S is not computed in GPA calculations.

NS Not-satisfactory grade for courses taken on a satisfactory/not satisfactory basis. A grade less than 2.0 for undergraduates is converted to NS. NS is not included in GPA calculations. No credit is awarded for courses in which an NS grade is received.

CR Credit awarded in a course offered on a credit/no credit basis only or in courses numbered 600, 601, 700, 750, and 800. The minimum performance level required for a CR grade is determined, and the grade is awarded directly, by the instructor. CR is not computed in GPA calculations.

NC Credit not awarded in a course offered on a credit/no credit basis only or in courses numbered 600, 601, 700, 750, and 800. The grade is awarded directly by the instructor and is not included in GPA calculations.

W Official withdrawal or drop from a course from the third through the seventh week of the quarter for undergraduates. A number designating the week of the quarter is recorded with the W when a course is dropped. It is not computed in GPA calculations.

HW Grade assigned when an undergraduate is allowed a hardship withdrawal from a course after the seventh week of the quarter. It is not computed in GPA calculations.

Nontraditional Grading Options

Credit/No Credit-Only as a Course Option

With appropriate departmental review and approval, a course may be offered on a credit/no credit-only basis. The standard for granting credit in credit/no credit-only

Grading System

The UW uses a numerical grading system with certain exceptions in the schools of Dentistry, Law, and Medicine. Instructors may report grades from 4.0 to 0.7 in 0.1 increments and the grade 0.0. The number 0.0 is assigned for failing work or unofficial withdrawal. Grades in the range 0.6 to 0.1 may not be assigned. Grades reported in this range are converted by the Office of the Registrar to 0.0. Numerical grades may be considered equivalent to letter grades as follows:

A	4.0-3.9
A-	3.8-3.5
B+	3.4-3.2
B	3.1-2.9

UNDERGRADUATE STUDY

courses under this option is the demonstration of competence in the material of the course to the instructor's satisfaction.

Satisfactory/Not Satisfactory Grading Option

Certain students are eligible to choose that a limited number of their courses be graded satisfactory/not satisfactory rather than with regular numerical grades. Any student who wishes to register for a course on a satisfactory/not-satisfactory basis should check first with his or her adviser to determine restrictions and eligibility, because colleges and departments vary in their rules concerning this grading option (e.g., students in the College of Arts and Sciences may not take courses S/NS until they have earned 45 or more college credits). In no case is a student allowed to register for more than 6 credits (or for one course, if that course is offered for more than 6 credits) on a satisfactory/not-satisfactory basis in a given quarter. No more than 25 satisfactory/not-satisfactory credits may be applied to a four-year undergraduate degree. Such courses may not be used to satisfy University, college, or departmental course requirements (i.e., may be applied only to the elective component of a degree).

Generally, a student may not switch to or from satisfactory/not-satisfactory grading for a particular course after the second week of the quarter. Only students in good academic standing (i.e., not on academic warning or probation) are eligible for the S/NS grading option. Veterans receiving benefits should check with the Office of Special Services regarding nontraditional grading options.

It should be noted that the possibility of future objective evaluation of the student's total academic record is reduced by the extent to which the record includes course work that is evaluated by a grading system other than the numerical system. A student should be aware that he or she may jeopardize future educational opportunities, particularly for graduate or postbaccalaureate study, when other systems of performance evaluation are used.

Grade-Point Average (GPA)

The University's cumulative GPA is based solely on courses taken in residence at the UW; this includes some, but not all, courses taken through UW Extension. The UW transcript also reflects grades for UW Extension course work that is not residence credit, and the grades for credit by examination. These latter grades do not affect the University cumulative GPA.

Computation of GPA

The GPA for graduation is computed by dividing the total cumulative grade points by the total graded credits attempted for courses taken in residence at the University. Grade points are calculated by multiplying the number of credits by the numeric value of the grade for each course. The sum of the grade points is then divided by the total graded credits attempted. Courses elected on an S/NS basis are counted as follows: Satisfactory grades are printed on the permanent record as an S and do not count in the quarterly or cumulative GPA, but they do count as credits earned toward graduation. Not-satisfactory grades, NS, do not count in the quarterly and cumulative GPA and do not count as credits earned toward graduation.

EXAMPLE 1

Course	Credits	Grade	Grade points
CLAS 205	3	CR	
OCEAN 101	5	2.7	= 13.5
HIST 111	5	4.0	= 20.0
SCAND 100	2	3.3	= 6.6
Total credits earned toward graduation	15		
Total graded credits attempted	12		40.1
GPA = $40.1 \div 12 = 3.34$			

The total graded credits attempted, not the credits earned toward graduation, are used in computing the GPA.

EXAMPLE 2

Course	Credits	Grade	Grade points
ENGL 121	5	2.3	= 11.5
OCEAN 101	5	0.0	= 0.0
SPHSC 100	3	2.7	= 8.1
ART 121	5	I	= 0.0
Total credits earned toward graduation	8		
Total graded credits attempted	13		19.6
GPA = $19.6 \div 13 = 1.51$			

The student attempted 18 credits, but only 13 are graded, because the incomplete (I) is not computed in the GPA. The 0.0 for OCEAN 101 is computed in the GPA, but no credit is awarded toward graduation.

If the work in ART 121 is not made up by the end of the next quarter, the I is converted to a numeric grade and the GPA is recomputed.

Repeating Courses

With the approval of the academic department offering the course, an undergraduate may repeat a course once. Both the original grade and the second grade are computed in the GPA but credit is allowed only once. Veterans receiving benefits must receive approval from the Office of Special Services before a course is repeated.

Grading Procedures

Change of Grade

Except in case of error, no instructor may change a grade that he or she has turned in to the Registrar. A student who finds administrative omissions or errors in a grade report must make application to the Registrar for a review not later than the last day of the student's next quarter in residence, but in no case after a lapse of two years. Grades used to meet graduation requirements cannot be changed after the degree has been granted. Time spent in military service is not counted as part of the two-year limitation. Students are not automatically notified of grade changes posted after the first of the quarter.

Grade Appeal Procedure

A student who believes he or she has been improperly graded first discusses the matter with the instructor. If the student is not satisfied with the instructor's explanation, the student may submit a written appeal to the Chair of the department, or in a nondepartmental college, to the Dean, with a copy of the appeal also sent to the instructor. The Chair, or Dean, consults with the instructor to ensure that the evaluation of the student's performance has not been arbitrary or capricious. Should the Chair believe the instructor's conduct to be

arbitrary or capricious and the instructor declines to revise the grade, the Chair (or the Dean in a nondepartmentalized school or college), with the approval of the voting members of his or her faculty, shall appoint an appropriate member, or members, of the faculty of that department to evaluate the performance of the student and assign a grade. The Dean and Provost should be informed of this action.

Once a student submits a written appeal, this document and all subsequent actions on this appeal are recorded in written form for deposit in a department or college file.

Grade Reports

Grade reports are mailed to all students, except those in the School of Medicine, at the close of each quarter. The grade reports are sent to the mailing address on file with the Registration Office. To ensure delivery of grades, changes in the mailing address should be reported in-person to the Registration Office, 225 Schmitz, or by telephone on the Address Change Telephone Service, 543-3668, by the last day of instruction. Copies of the quarterly grade reports are also sent to each student's Dean and major department.

Scholarship

Low Scholarship

Academic Warning

An undergraduate student whose GPA falls below 2.00 in his or her first quarter at the University receives an academic warning. If a cumulative GPA of at least 2.00 for courses earned in residence at the University is not achieved by the end of the next quarter, he or she is placed on academic probation.

Probation and Dismissal for Low Scholarship

An undergraduate student is placed on academic probation at the end of any quarter (except for the first quarter at the University, when an academic warning is issued) in which his or her cumulative GPA falls below 2.00. The student remains on probation until the cumulative GPA is raised to a 2.00. If this requires more than one quarter's work, the student must maintain a quarterly GPA of at least 2.50 each succeeding quarter or the student is dropped for low scholarship.

Reinstatement

A student who has been dropped under low-scholarship rules is readmitted to the University only at the discretion of the Dean of the school or college to which readmission is sought. A student readmitted after being dropped under these rules reenters on academic probation. The student's GPA is the same as when dropped from the University, and the student may not use grades from other colleges or universities to raise his or her UW GPA. A readmitted student is dropped if he or she fails to attain either a 2.50 GPA for the following quarter's work or a cumulative UW GPA of 2.00 at the end of that quarter. The student is removed from probation at the end of the quarter in which a cumulative GPA of 2.00 or better is reached.

Senior in Final Quarter

A senior who has completed the required number of credits for graduation, but whose work in what would normally be his or her final quarter places him or her on probation, does not receive a degree until removed from probation. A senior who has completed the required number of credits for graduation, but whose work in his or her last quarter results in his or her being dropped for low scholarship, does not receive a degree until readmitted and removed from probation.

Dean's List

Quarterly Dean's List

The quarterly Dean's List includes the names of matriculated undergraduate students who have attained a quarterly GPA of 3.50 in the final grades for at least 12 graded credits. Appropriate entries regarding inclusion on the Dean's List are made on the student's permanent academic record.

Yearly Dean's List

The yearly Dean's List high scholarship award is recorded on the academic transcript of students who have achieved the following:

A quarterly GPA of 3.50 in 12 or more numerically graded credits each quarter for three quarters of the academic year (summer, autumn, winter, spring).

Students enrolled for four quarters of the academic year (summer through spring) must satisfy the conditions outlined above and attain a quarterly GPA of 3.50 or better in the fourth quarter, if enrolled for 10 or more credits.

Students who are on the yearly Dean's List receive a certificate.

Baccalaureate Honors

Baccalaureate honors (*summa cum laude*, *magna cum laude*, *cum laude*) are awarded only to recipients of a first baccalaureate degree. These honors are earned by those students who have completed no fewer than 90 residence credits at this institution. At least 60 of the 90 credits must have been acquired on a graded basis.

The University's Honors Committee determines annually the grade-point requirement for each baccalaureate honor. In recent years, approximately ten percent of the students have been awarded baccalaureate honors. Credits earned by correspondence courses are not counted toward honors eligibility.

Freshman Medal, Sophomore Medal, Junior Medal, President's Medal

The Freshman Medal is awarded to the sophomore having the highest scholastic standing for the first year of his or her course. To be eligible, students must have completed at least 36 graded credits in residence at the University.

The Sophomore Medal is awarded to the junior having the highest scholastic standing for the first two years of his or her course. To be eligible, students must have completed at least 40 credits in residence at the University.

The Junior Medal is awarded to the senior having the highest scholastic standing for the first three years of his or her course. To be eligible, students must have completed at least 40 credits in residence at the University.

The President's Medal, which is conferred at commencement, recognizes the graduating senior who has the most distinguished academic record. Only students who have earned at least 90 credits in residence at the University may be considered.

Honorary Societies

In addition to the honors discussed above, students with distinguished academic records may participate in several University-wide honorary societies, de-

scribed below, and specific college or school honorary societies. Information concerning specific college or school honorary societies appears in the respective sections of this catalog.

Golden Key National Honor Society. A national, non-profit academic honors organization founded in 1977 for the purpose of recognizing and encouraging scholastic achievement among students from all academic fields. Membership is by invitation only.

Mortarboard. A national college senior honor society whose membership is based on scholarship, leadership, and service. The local Tolo chapter was first founded in 1909 and became part of the national organization in 1925. Students of junior standing apply winter quarter for selection in spring quarter.

Phi Beta Kappa. A national collegiate honorary society, founded in 1776, with the Washington Alpha Chapter established in 1914. Phi Beta Kappa recognizes distinguished scholarship, especially in the acquisition of an education in the liberal arts and sciences. Students are elected to membership on the basis of GPA and breadth of education.

Additional information on honorary societies may be obtained from academic advisers and the respective campus representatives.

Graduation

Graduating Senior Priority

Graduating seniors or postbaccalaureate students with a degree application on file in the Graduation and Academic Records Office may register on the first day of Period I for their final two quarters. Students who postpone their graduation may save their priority quarters by not registering before their regular senior or postbaccalaureate priority day. When students have used their Graduating Senior Priority for two quarters, their registration priority reverts to the regular senior or postbaccalaureate schedule. See the quarterly *Time Schedule* for current information.

Filing an Application for Baccalaureate Degree

A student should file a written application for his or her degree with the Graduation and Academic Records Office, 264 Schmitz, two to three quarters before the expected date of graduation. The absolute deadline for filing an application is Friday of the third week of the quarter in which the student intends to graduate.

It is the student's responsibility to apply for a degree and/or certificate, because degrees are not automatically awarded when requirements have been satisfied. Application forms and diploma cards are available at the Graduation and Academic Records Office and in the major departments.

The signature of the department head or of an authorized adviser must appear on the application in the space provided for "Signature of major adviser." If the student's major is in a college other than Arts and Sciences, the signature of the dean or a designated representative is required. The student is also required to sign the application.

After the application is reviewed, the second and third copies are sent to the department or college office and the original is retained in the Graduation and Academic Records Office. If a problem regarding the application arises, the Graduation and Academic Records Office notifies the student. Departmental advisers should notify the Graduation and Academic Records Office of any changes made to the courses and credits listed on the application.

If an applicant is ineligible to graduate because of a deficiency, the Graduation and Academic Records Office notifies the student.

University Requirements for Baccalaureate Degree

To graduate, a student must meet University, college or school, and departmental requirements. Only University requirements are listed in this section. Requirements of colleges, schools, and departments appear in the section pertaining to the college, school, or department concerned.

Scholastic Standards Required

To be eligible for the baccalaureate degree, a student must earn a cumulative GPA of 2.00 for all work done in residence at the University.

The *graduation* GPA is computed when the student has completed all work for the degree and includes only credits earned while in residence at the University.

Credits Required

To be eligible for graduation from the University with the baccalaureate degree, a student must satisfy all other specific requirements and must offer a minimum of 180 academic credits.

University General Education and Proficiency Requirements

The University has adopted minimum general education and proficiency requirements. Individual schools and colleges may establish general education and proficiency requirements in excess of University requirements. Consult the undergraduate program section of each school or college for specific graduation requirements.

Limitation on ROTC Credits

Credits earned in first- and second-year military training courses cannot be counted in the basic 180 credits required for graduation. Some third- and fourth-year courses may count, depending on the student's college or school.

Limitation on Physical Education Activity Credits

No more than 3 physical education activity credits can apply toward a degree.

Final-Year Residence Requirement

To be recommended for a first or subsequent baccalaureate degree, a student must complete the final 45 credits as a matriculated student in residence at the University. The granting of exceptions to this rule is the responsibility of the Dean of the college or school awarding the degree. If an exception is granted, the student still must present a minimum of 45 credits taken in residence as a matriculated student to be awarded a UW degree.

Effective Date for Graduation Requirements

If fewer than ten years have elapsed since a student's admission into her or his major program, she or he may choose to graduate under the major program requirements in effect at the time of admission, or under any subsequent requirements. The choice shall be subject to approval of the student's departmental chair and dean, according to the procedures established in Section 23-48 of the Faculty Code.

If the student wishes to obtain a degree after a lapse of more than ten years from the date of admission to the major program, she or he must meet the requirements in effect at the time of graduation unless permission to use earlier requirements is granted, either as a general policy or expressly for the individual student, by the department, school, or college whose requirements are in question.

These provisions do not apply to the requirements for teaching certificates, which are prescribed by the College of Education at the time the certificate is to be granted.

Waiver of Graduation Requirements

A request for waiver of college or University graduation requirements is petitioned to the college graduation committee, which refers the petition to the Committee

on Admissions and Academic Standards if an all-University requirement is involved. These petition forms are available at the Graduation and Academic Records Office or the advisory office. A student should see his or her academic adviser to initiate a petition. Because the Committee on Admissions and Academic Standards meets only quarterly, petitions involving University requirements should be filed early in the quarter.

An exemption from an all-University graduation requirement that is granted by the Committee on Admissions and Academic Standards becomes void at the end of two calendar years from the date such exemption is granted if all degree requirements have not been completed within that period.

Graduation Requirements for ROTC Students

As a prerequisite for graduation from the University, students accepted for the third- and fourth-year advanced ROTC program must complete the advanced program unless excused or dismissed from this requirement by regulations prescribed by the Secretary of the Army, the Navy, or the Air Force, whoever has the authority in the individual case.

Two Majors or Two Degrees

Second Baccalaureate Degree

A second baccalaureate degree may be granted, but a student must earn a minimum of 45 credits beyond the number required for the first baccalaureate degree. These credits usually must be earned in residence, with the granting of exceptions to the residency rule being the responsibility of the college or school awarding the degree. Students working for a second baccalaureate degree are not registered in the Graduate School. The student must achieve no less than a 2.00 cumulative GPA in the credits required for the second degree.

Degrees with Two Majors

Some colleges allow a baccalaureate degree with two majors. The student's application for such a degree must show both majors and be approved by the advis-

ers of both departments. Both majors appear on the transcript and both must be either Bachelor of Arts or Bachelor of Science degrees.

Two Baccalaureate Degrees Concurrently

Two baccalaureate degrees, associated with different majors, may be granted at the same time, but the total number of academic credits earned must be at least 45 credits in excess of the number required for the first baccalaureate degree.

Academic Minors

Degrees with Minor: departments, schools, and colleges are authorized to provide a course of study leading to an undergraduate academic minor. Requirements are within the purview of the department, school, or college. The minor shall consist of no fewer than 25 credits. Interdisciplinary minors are acceptable. Completion of the minor will appear on the permanent record.

Requirements for Teaching Certification

The College of Education offers professional programs approved by the State Board of Education leading to teaching and other certificates. Additional information appears in the College of Education section of this catalog, or the student may write to the Office of Teacher Education, 211 Miller, Box 353600.

Commencement

Formal commencement exercises are conducted at the close of spring quarter. During April of each year, commencement information is sent to each student entitled to participate the following June (i.e., those who graduated the previous August, December, or March and those who anticipate graduating in the current June and August).

Diploma Distribution

Diplomas are available 12 weeks after the end of the quarter in which they are earned.

THE GRADUATE SCHOOL: GRADUATE STUDY

Director, Graduate Admissions

Joan W. Abe

In 1885, the University of Washington awarded its first graduate degree, a Master of Arts in the field of classical languages. In 1914, the University awarded its first Doctor of Philosophy degree, in the field of chemistry. The University has conferred more than 65,000 master's degrees and 14,000 doctoral degrees, exclusive of medical, dental, and first legal doctorates.

The Graduate School was created in 1899 and was established permanently in 1910. Its purposes are to define and support excellence in graduate education, and the research and scholarly activities associated with it. Through graduate programs, the University fulfills several functions vital to a healthy society: by fostering research, it advances human knowledge; by educating scholars and teachers and by training professionals, it makes information and help available to the various sectors of the public; and, by virtue of all of these, it contributes to the resolution of the problems and needs of society.

Graduate study is guided by the Dean of the Graduate School and a Graduate Faculty of over 2,700 members, selected for their scholarly and research qualifications and their concern with graduate education. Eight thousand graduate students are now in residence, working toward master's or doctoral degrees. Programs in the Graduate School leading to master's and doctoral degrees are offered in 84 departments or other organizational units of the University. The Graduate School directly sponsors 11 interdisciplinary graduate degree programs by organizing Graduate School groups of interested faculty members and assisting them in developing such programs. This includes a small Special Individual Ph.D. program for approved uniquely interdisciplinary dissertations. It also is the administrative home of the Graduate School of Library and Information Science and its degree program.

Acting through an elected council that advises the Dean, the Graduate Faculty establishes Graduate School policies. Each degree-offering unit within the University appoints a graduate program coordinator, who serves as an important link between the unit and the Graduate School. Students are advised to seek the help of the graduate program coordinator about questions concerning Graduate School and departmental degree requirements.

The Graduate School also has a number of responsibilities that relate to its primary ones, such as graduate program review, the administration of the Graduate School Fund and certain fellowship programs, as well as such central facilities as the University of Washington Press, and the Walker-Ames and the Jessie and John Danz distinguished visiting professorships.

The University is committed to providing greater opportunities for advanced study by women and members of ethnic minority groups. Within the Graduate School, the Minority Education Division actively solicits applications for admission, facilitates their review, and helps with various procedures related to the enrollment of minority graduate students. The division offers financial aid to students who need such help. In addition to a special appropriation of funds by the Washington State Legislature to encourage the recruitment and retention of ethnic minority students in areas of underrepresentation, the division administers several federal and private scholarship programs which provide financial aid and contribute to the overall environment of support for minority graduate students.

Graduate Degree Programs

Graduate degree programs are reviewed by the Graduate School on a ten-year cycle, or at predetermined shorter intervals. For further information, see Graduate School Memorandum No. 7, Periodic Review of Existing Degree Programs, or contact the Academic Programs Office in the Graduate School.

Graduate Admissions

The Office of Graduate Admission
98 Gerberding, Box 351280
University of Washington
Seattle, WA 98195-1280
(206) 543-5929; FAX (206) 543-8798
email: uwgrad@u.washington.edu (U.S. citizens and residents) or
intlgrad@u.washington.edu (international).
Additional program information is available on the World Wide Web at <http://www.washington.edu>.

The UW provides equal opportunity in education without regard to race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled or Vietnam era veteran in accordance with UW policy and applicable federal and state statutes and regulations. In addition, sustained efforts are made to include qualified students who are members of groups that have been subject to discrimination or who are underrepresented in certain disciplines.

You may apply to the UW through the Office of Graduate Admissions in three ways. It is important to understand the distinctions between the categories.

• A **graduate student** is a person working toward a master's or doctoral degree or earning a school administrator's credential. Students must be admitted to this status in order to earn a degree. The Application for Admission to the Graduate School is obtained from the program to which you wish to apply.

• A **visiting graduate student** is a person who plans to transfer graduate credits earned at the UW to another institution where he or she is actively pursuing a graduate degree. Admission is based in part on availability of resources. Visiting graduate applicants must have been admitted to another recognized graduate school, be currently pursuing a graduate degree, and in good standing. Although transcripts need not be provided with the application, a Certificate of Status signed by the home institution is required. The Application and Certificate should be obtained directly from the Office of Graduate Admissions at the address above.

• Some graduate programs have chosen to offer admission to **graduate nonmatriculated students**. These students are not presently seeking a graduate degree but may wish to apply a maximum of 9 credits earned in this category to degree requirements should they later be accepted into a graduate program. Applicants should meet minimum Graduate School admission requirements but admission as a graduate nonmatriculated student does not imply admission to a graduate degree program. The Application to Graduate Nonmatriculated Status must be obtained from the program to which you wish to apply. Official sealed transcripts from all collegiate institutions previously

attended must be sent to the Graduate Nonmatriculated Office, Box 351280, University of Washington, Seattle, WA 98195-1280. (Refer to Graduate School Memorandum #37 for further information.)

Admission to the UW is necessarily a selective process. The prospective student must hold a baccalaureate degree from an accredited college or university in this country or its equivalent from a foreign institution. The student's record should be a strong one with an average grade of B or a 3.00 grade-point, or better. The primary criterion and the priority for admission of new applicants into a graduate program is the applicant's ability, as decided by the appropriate faculty, to complete the graduate program expeditiously with a high level of achievement. One aspect of meeting this criterion is the matching of interests between applicants and faculty. Also to be considered is maintenance of a diverse student body within the Graduate School and the individual programs.

Factors which may be considered during the admissions process include:

- Undergraduate grades, especially for subjects in or closely related to the field of the proposed graduate study.
- Consistency in completing an undergraduate degree program.
- Required test scores.
- Personal interviews.
- Career objectives and the ability of the graduate program to prepare a student for them.
- Degree objectives.
- Written and oral recommendations from those qualified to evaluate the applicant's academic record and promise.

Importance given to these factors will vary among degree programs.

Most Graduate School admissions are for summer or autumn quarters. Admissions for winter and spring quarters may be severely restricted due to considerations of space. The following are graduate admissions closing dates. *It is important to remember that individual departments often have much earlier deadlines which supersede those listed below, particularly for autumn quarter.*

- Autumn Quarter—July 1
- Winter Quarter—November 1
- Spring Quarter—February 1
- Summer Quarter—May 15

Each academic program at the UW has a Graduate Program Coordinator who is responsible for providing advice, guidance, and assistance to applicants as well as to students working toward graduate degrees. Prospective graduate students are urged to contact the Graduate Program Coordinator in their program of interest for information about any aspect of graduate study, including research, curriculum, faculty, and financial support in the form of teaching and research assistantships, grants, and scholarships.

Admission Process

The application forms for both graduate and graduate nonmatriculated status must be obtained from the Graduate Program Coordinator. Visiting graduate applications are available from the Office of Graduate Admissions. *It is very important to submit all application documents in time to meet departmental deadlines as these will supersede graduate admissions deadlines.*

Required Examinations

The Graduate Record Examination (GRE) is required for admission as a graduate student except in the following circumstances:

- Applicants to Art, Dance, Drama, and to the Master of Music and Doctor of Musical Arts degree in Music.
- Applicants holding earned doctorates (such as Ph.D., D.D.S., M.D., Ed.D., J.D.) from U.S. institutions.
- Applicants to the M.B.A. or M.P.Acc. degrees in the School of Business Administration, who must submit scores from the Graduate Management Admission Test (GMAT).

Scores must be received directly from the Educational Testing Service.

For further information you may write to:
Graduate Record Examinations
Educational Testing Service
P.O. Box 6000
Princeton, NJ 08541-6000
(609) 771-7670 or (510) 654-1200

International Applicants

The international division email address is: intlgrad@u.washington.edu (international). You may also refer to the World Wide Web at <http://www.washington.edu> for further information.

In addition to the other requirements for all applicants, a minimum score of 500 on the Test of English as a Foreign Language (TOEFL) must be presented by applicants who are not citizens of the United States unless they meet one of the following exceptions:

THE GRADUATE SCHOOL: GRADUATE STUDY

• Citizens of Australia, Canada, Ireland, New Zealand, or the United Kingdom.

• Applicants holding bachelor's or advanced degrees from accredited institutions in the U.S. or in one of the countries listed above.

Applicants offered admission with TOEFL scores between 500 and 580 will be required to fulfill an English as a Second Language (ESL) requirement.

With the exception of citizens of the countries listed above, all international and immigrant status applicants who intend to apply for teaching assistantships must also take the Test of Spoken English (TSE).

Due to the time required for evaluation of applications, overseas applicants for autumn quarter are strongly encouraged to submit the application and transcripts to the Office of Graduate Admissions no later than the prior December 1. Applications received after this date will be processed as soon as possible but significant delays may result.

Registration

After successful applicants have been offered admission, the Registration Office sends a request for a \$100 Enrollment Confirmation Deposit to indicate the intent to register. This nonrefundable fee will apply toward the first quarter's tuition.

The University provides registration services through STAR (Student Telephone Assisted Registration), a touchtone telephone registration system. See the quarterly *Time Schedule* for detailed information and procedures.

Once admitted, graduate students are expected to maintain registered or on-leave status until the degree is conferred. (See section on Continuous Enrollment.)

Financial Aid for Graduate Students

Students applying for fellowships, traineeships, and assistantships or associateships must make certain that complete transcripts and other credentials are on file by February 15 (earlier submission of applications and supporting documents is urged by all departments and required by some). Awards and appointments are usually made about April 1. Application forms may be obtained by writing to the graduate program coordinator of the appropriate department.

Fellowships, Traineeships, and Scholarships

A limited number of fellowships, traineeships, and scholarships are available through the Graduate School or through individual departments to outstanding students in fields of study leading to advanced degrees. Application forms may be obtained from the graduate program coordinators in the departments or from the Fellowship and Assistantship Division in the Graduate School.

The Graduate School also provides computer searches to assist enrolled graduate students, faculty, and staff in locating fellowships, grants, and other sources of funding. The data base contains over 3,000 awards from foundations, government agencies, associations, and other non-University organizations. These awards are made on a national competitive basis, and application must be made directly to these foundations or organizations.

Graduate Student Service Appointments

The University provides for the employment of many graduate students as teaching, research, and staff assistants, predoctoral associates, predoctoral instruc-

tors, and predoctoral lecturers. Approximately 2,000 such appointments were made during the past year.

The University's policy regarding these appointments is set forth in detail in Executive Order 28. Copies of this statement are available from the graduate program coordinator or the Graduate School. Some of the information is provided below.

Appointments are granted only to graduate students who have carefully defined educational goals and who exhibit the highest intellectual competence and attainment. Succeeding appointments may be made if the student maintains high scholarship and continues to make satisfactory progress toward the degree.

Graduate appointments are granted to graduate students only. An initial appointment may be offered to a student before being admitted formally to the Graduate School, but the appointment is contingent upon admission to graduate status before the beginning of the appointment.

1995-96 Graduate Student Service Appointments

Students holding these appointments for at least 20 hours per week and for five of the six pay periods of an academic quarter will receive a waiver of the operating fee portion of "tuition and fees" and will be required to pay approximately \$130 tuition per quarter.

*Salary for Half-time Service
(20 hours per week)*

Effective September 16, 1995—September 15, 1996

Title	Monthly Academic salary	year salary
Teaching Assistant	\$1,046	\$ 9,414
Predocutorial Teaching Associate I	1,121	10,089
Predocutorial Teaching Associate II	1,208	10,872
Predocutorial Instructor*	1,208	10,872
Predocutorial Lecturer*	1,208	10,872
Research Assistant	1,046	9,414
Predocutorial Research Associate I	1,121	10,089
Predocutorial Research Associate II	1,208	10,872
Predocutorial Researcher*	1,208	10,872
Graduate Staff Assistant	1,046	9,414
Predocutorial Staff Associate I	1,121	10,089
Predocutorial Staff Associate II	1,208	10,872
* Minimum		

Graduate students appointed to the beginning level of graduate teaching appointments are not permitted to be in overall charge of a course, but are given an appropriate degree of responsibility and supervision of laboratory or classroom work so that they may be introduced to teaching activities gradually and effectively. Student appointees may also serve as assistants in research activities for which a faculty member is responsible.

Two special categories for teaching appointments and one for research appointments are provided above the predoctoral associate level: predoctoral instructor, for the graduate student who has achieved Candidate status and is ready for increased teaching responsibility; predoctoral lecturer, for a mature and competent graduate student who, though he or she need not be a Candidate, has had exceptional previous teaching or other professional experience; and predoctoral researcher, for the student who has special skills or qualities obtained outside of his or her experience as a graduate student or who carries major responsibilities in relation to research activities. For the 1995-96 academic year these appointments carry a minimum stipend of \$1,208 per month (half-time) with no designated maximum so that the stipend may be adjusted to a level appropriate to the appointee's experience and his or her teaching and research responsibilities.

International students with teaching appointments (teaching assistant, predoctoral teaching associate I

and II, predoctoral instructor, predoctoral lecturer) must meet a spoken-English requirement before they may be given classroom duties.

An additional series of appointments titled Graduate Staff Assistant and Predocutorial Staff Associates I and II is provided for University service activities that are not appropriately described as teaching or research but are closely related to the student's field of advanced study. Appointments of specific graduate students to these positions may not be made until after the position itself has been specifically approved.

Students who hold any of the above appointments are required to render 20 hours of service per week to the University. The appointments may be on a 9-month basis and ordinarily cover the period from September 16 through June 15. Some of these appointments may be extended to 11 or 12 months. Graduate student appointments do not provide for paid vacations or sick leave. Students who accept these University service appointments normally confine their employment to such appointments.

A graduate student service appointee must register for, and carry throughout each quarter except summer quarter, a minimum of 9 credits in formal courses or in research, thesis, or dissertation work. These credits must be in courses that are applicable toward an advanced degree.

Work Study Graduate Assistantships

Graduate students who are eligible for the need-based college work study program may qualify for work study graduate assistantships in teaching or research. Students must submit financial aid applications to the Office of Student Financial Aid by the February 28 deadline to be considered for these positions. Information is available from the Office of Student Financial Aid.

Employment Opportunities

The campus offers other job opportunities for graduate students. Students may apply directly to the chair of the department in which they hope to work or to the Student Employment Office. Students seeking part-time employment must be enrolled and on campus before they may obtain jobs.

Advisory positions in University residence halls paying room and board are available for single graduate students, both men and women. Additional information may be obtained from the Director of Residence Halls Programs, 301 Schmitz.

Spouses of married students also may apply for regular full- and part-time University employment. These positions cover a wide range of occupations and offer pay comparable to the prevailing salaries in the community. Some carry such fringe benefits as vacations, sick leave, and opportunities to enroll in University courses. Inquiries may be directed to the Staff Employment Office, 1320 Northeast Campus Parkway, Seattle.

Loans

Long-term educational loans are available to graduate students through the Federal Perkins Student Loan and the Federal Direct Loan programs.

The Federal Perkins Student Loan Program usually provides a maximum annual loan to graduate students of \$3,000 and bears an interest rate of five percent. There are certain cancellation provisions in the Federal Perkins Student Loan Program for combat-zone service and teachers of special-need or disadvantaged students. Application forms for this program (the Free Application for Federal Student Aid, or FAFSA) are available in the Office of Student Financial Aid, Box 355850, 105 Schmitz, telephone (206) 543-6101. The application deadline is February 28 for the following autumn quarter.

Students should meet the application deadline even if they have not yet been admitted to the Graduate School.

The Federal Direct Loan Programs (Federal Direct Stafford Loan and Federal Direct Unsubsidized Stafford Loan) are borrowed directly from the federal government. The University will coordinate all eligibility paperwork; students must complete the FAFSA to be considered. The subsidized Federal Direct Stafford Loan is awarded to students who demonstrate financial need. Students who do not qualify for need-based assistance may qualify for Federal Direct Unsubsidized Stafford Loans. The principal of both types of loans must be repaid, generally beginning 6-9 months after the student leaves school. Subsidized Stafford Loans are interest-free until repayment actually begins. The unsubsidized Stafford Loan is not interest-free. The borrower may make interim interest payments or may request that interest be added to the principal of the loan (this is called "capitalization"). The interest rate on both loans is variable, but capped at 8.25%. Graduate and professional students may borrow up to \$8,500 in subsidized and/or unsubsidized loans per year; up to an additional \$10,000 per year may be available in unsubsidized loans (based on cost of attendance and other assistance received).

Short-term emergency loan funds also are available through the Office of Student Financial Aid. Several different types of short-term loans are possible, from \$500 interest-free loans to approximately \$1,000 loans at 6% interest. In an emergency, students may also borrow the amount equal to resident graduate tuition or may borrow against their next aid disbursement. Students may have no more than \$2,400 in short-term loans outstanding at any time. More information is available from the Office of Student Financial Aid, Short-Term Loans, 172 Schmitz, 685-1282.

Financial Aid for Ethnic Minority Graduate Students

The Minority Education Division of the Graduate School administers a variety of fellowships and assistantships based on need and on merit. Financial support is open to men and women whose ethnic origin is either Black/African American, American Indian/Alaskan Native, Asian American/Pacific Islander, or Hispanic/Mexican American. These awards are generally made through the nomination and support of the department in which the student is enrolled. Students must be U.S. citizens or permanent residents to be eligible. Supplemental awards ranging from \$250 to \$1,000 are based upon an evaluation of the student's need as established by the Free Application for Federal Student Aid (FAFSA) and the University's Office of Student Financial Aid. A limited number of tuition scholarships are also available.

Financial assistance from individual departments may also be available, and students should apply directly to the chair of their department.

Further information may be obtained by writing the University of Washington, Graduate School, Minority Education Division, Box 351240, Seattle, WA 98195-1240

All awards are contingent upon the student's admission to the UW Graduate School.

Graduate Degree Policies

Usually focused on a specific field of knowledge, graduate study is conducted through a variety of means, including lectures, seminars, independent advanced study, special reading courses, internships, and participation in research. Graduate programs leading to the Master of Arts, Master of Science, or Doctor of Philosophy degrees emphasize the development of the student's ability for independent scholarly work and the creation of new knowledge through research. Practice-oriented programs, which ordinarily lead to the degree of master or doctor in a particular professional field,

emphasize preparation of the student for professional practice at the frontiers of existing knowledge.

Many master's and all doctoral programs culminate in the presentation of a thesis or dissertation conveying the results of the independent study and research carried out by the student. A master's thesis contributes to knowledge, reviews or critiques the state of knowledge in a field, creates a new design or composition, or represents some other appropriate kind of independent contribution. A doctoral dissertation must set forth a significant contribution to knowledge or understanding in the student's field, be presented in scholarly form, and demonstrate that the student is competent to engage independently in the pursuit of solutions to important problems. The student must defend the doctoral dissertation in a Final Examination conducted by a faculty committee and open to all other Graduate Faculty members. A member of the Graduate Faculty from some other discipline participates as an official representative of the entire Graduate Faculty in all aspects of the student's program, including various major evaluations such as the General Examination and Final Examination.

Graduate Program Coordinator

The graduate student's initial work at the University is guided by the graduate program coordinator in his or her field. The coordinator must be a senior tenured member of the Graduate Faculty and is the official representative of the academic unit that offers the graduate degree program. The graduate program coordinator maintains familiarity with policies and procedures of the Graduate School and provides overall coordination of graduate activities within the unit.

Graduate Courses

Graduate courses are intended for, and ordinarily restricted to, either students enrolled in the Graduate School or graduate nonmatriculated students, and are given numbers from 500 through 800. Some courses at the 300 and 400 levels are open both to graduates and to upper-division undergraduates. Such courses, when acceptable to the supervisory committee and the Graduate School, may be part of the graduate program. The Graduate School accepts credit in approved 300-level courses for the minor or supporting fields only. Courses at the 300 level are not included in the calculation of grade-point average (GPA) and will not apply toward the minimum Graduate School requirement of 18 graded credits for the master's or doctoral degree. Approved 400-level courses are ac-

cepted as part of the major as well as minor or supporting fields. Courses numbered 498 and entitled Special Topics or Special Projects normally are not applicable to a graduate degree program if addressed primarily to introductory content and undergraduate students. Undergraduate research (499) is not accepted as part of the graduate program. Graduate School Memorandum No. 36 offers additional information on graduate courses. With the exception of summer, students are limited to a maximum of 9 credits per quarter of any combination of courses numbered 600, 700, or 800.

Repeating Courses

Graduate students may repeat any course. Both the first and second grades will be included in the cumulative GPA. Subsequent grades will not be included, but will appear on the permanent record. The number of credits earned in the course will apply toward degree requirements only once.

Grading System for Graduate Students

In reporting grades for graduate students, units that offer graduate degrees use the system described herein. Grades are entered as numbers, the possible values being 4.0, 3.9, ... and decreasing by one-tenth until 1.7 is reached. Grades below 1.7 are recorded as 0.0 by the Registrar and do not count toward residency, total credit count, or grade and credit requirements. A minimum of 2.7 is required in *each course* that is counted toward a graduate degree. A minimum GPA of 3.00 is required for graduation.

Correspondence between number grades and letter grades is as follows:

Numeric grade-point equivalent	Letter grade	Numeric grade-point equivalent	Letter grade
4.0	A	2.8	B-
3.9		2.7	
3.8	A-	2.6	
3.7		2.5	
3.6		2.4	C+
3.5		2.3	
3.4	B+	2.2	
3.3		2.1	
3.2		2.0	C
3.1		1.9	
3.0	B	1.8	
2.9		1.7	
		1.6-0.0	E

THE GRADUATE SCHOOL: GRADUATE STUDY

The following letter grades also may be used:

I Incomplete. An Incomplete may be given only when the student has been in attendance and has done satisfactory work to within two weeks of the end of the quarter and has furnished proof satisfactory to the instructor that the work cannot be completed because of illness or other circumstances beyond the student's control. A written statement giving the reason for the incomplete and indicating the work required to remove it must be filed by the instructor with the head of the unit in which the course is offered.

To obtain credit for the course, a student must successfully complete the work by the last day of the next quarter in residence. This rule may be waived by the Dean of the college in which the course is offered. In no case may an incomplete be converted into a passing grade after a lapse of two years or more. An incomplete received by a graduate student does not automatically convert to a 0.0 but will remain a permanent part of the student's record.

N No grade. Used only for hyphenated courses and courses numbered 600 (Independent Study or Research), 601 (Internship), 700 (Master's Thesis), 750 (Internship), or 800 (Doctoral Dissertation). An N grade indicates that satisfactory progress is being made, but evaluation depends on completion of the research, thesis, internship, or dissertation, at which time the instructor or supervisory committee chair should change the N grade(s) to one reflecting the final evaluation.

S/NS Satisfactory/not satisfactory. A graduate student, with the approval of the graduate program coordinator or supervisory committee chair, may elect to be graded S/NS in any numerically graded course for which he or she is eligible. The choice must be indicated at the time of registration or by the tenth day of the quarter. (As with all registration changes, a \$20 change fee will be charged beginning the second week of the quarter.) Only in very unusual cases may S/NS grades be converted to numeric grades or vice versa. The instructor submits a numeric grade to the Registrar's Office for conversion to S (numeric grades of 2.7 and above) or NS (grades lower than 2.7).

CR/NC Credit/no credit. With the approval of the faculty in the academic unit, any course may be designated for grading on the credit/no credit basis by notice in the appropriate *Time Schedule*. For such courses, the instructor submits a grade of CR or NC to be recorded by the Registrar's Office for each student in the course at the end of the quarter. All courses numbered 600, 601, 700, 750, and 800 may be graded with a decimal grade, a CR/NC, or N at the instructor's option.

W Withdrawal. Official withdrawal from a course may be done by calling STAR through the seventh week of the quarter. During the first two weeks of the quarter no entry is made on the permanent academic record. The third week through the seventh week of the quarter, a W is recorded on the transcript. Refer to the *Time Schedule* after the seventh week of the quarter.

HW Hardship withdrawal. Grade assigned when a graduate student is allowed a hardship withdrawal from a course after the seventh week of the quarter.

Unofficial withdrawal from a course shall result in a grade of 0.0.

The grades of W and HW count neither as completed credits nor in computation of the GPA.

Of the minimum number of credits required for a graduate degree, a graduate student must show numerical grades in at least 18 quarter hours of course work taken at the UW. These numerical grades may be earned in approved 400-level courses and 500-level courses.

The student may petition the Dean of the Graduate School to modify the procedures described above. The petition should be accompanied by comments and

recommendations from the graduate program coordinator or supervisory committee chair.

Scholarship

A cumulative GPA of 3.00 or above is required to receive a degree from the Graduate School. A graduate student's GPA is calculated entirely on the basis of numeric grades in 400- and 500-level courses. The grades of S, NS, CR, NC, and N are excluded, as are all grades in courses numbered 600, 601, 700, 750, and 800, and in courses at the 100, 200, and 300 levels.

Failure to maintain a 3.00 GPA, either cumulative or for a given quarter, constitutes low scholarship and may lead to a change-in-status action by the Graduate School. Failure to maintain satisfactory performance and progress toward a degree may also result in a change-in-status action by the Graduate School.

(See Graduate School Memorandum No. 16 for additional information.)

Withdrawal Policy

1. During the first two weeks of the quarter, graduate students may withdraw from all courses for any reason, by filing an appropriate form with the Registration Office either in person or by mail, or by calling STAR. The date of complete withdrawal is recorded on the student's transcript.

2. Starting the third week of the quarter, a grade of W is recorded when graduate students drop any course or withdraw completely.

3. Graduate students have until the end of each quarter to withdraw completely from all courses.

4. The withdrawal schedule shown above applies to quarters of the regular academic year. The deadlines for summer quarter are established by the Dean of Summer Quarter.

5. Unofficial withdrawal from a course results in a grade of 0.0.

Language Competence Requirements and Examinations

Competence in one or more languages in addition to English is desirable for all fields of advanced study and is often required, especially in the scholarly and research-oriented programs leading to the degrees of Master of Arts, Master of Science, and Doctor of Philosophy.

Requirements for foreign-language competence are established by the Graduate Faculty in the unit offering the graduate program. Language competence in certain languages other than English (i.e., languages that may have special significance to the field) may be specified as helpful or desirable or may be required. Students should consult the graduate program coordinator for information and advice about desirable or required competence in foreign languages.

When appropriate, students are urged to establish foreign-language competence as undergraduates before entering the Graduate School or as early as possible in their graduate careers. The University's language competence requirements in French, German, and Spanish may be satisfied by successful completion of the standardized examinations given by the Educational Testing Service (ETS). These examinations are given at the University and elsewhere throughout the United States. For other foreign languages, examinations are given at the UW.

It is assumed that students from English-speaking countries who are admitted to the Graduate School are competent in the English language; students from non-English-speaking countries must demonstrate a satisfactory command of English, both for admission and for appointment as teaching assistants.

Residence

The residence requirement for the master's degree is one year (three full-time quarters). Students registered for fewer than 9 credits per quarter may add part-time quarters together to achieve the equivalent of one full-time quarter (9 or more credits) to be applied toward fulfilling residence requirements. However, excess credits beyond 9 may not be subtracted from one quarter and added to another.

For the doctoral degree, the residence requirement is three years (nine full-time quarters), two of them at the UW. One of the two years must be spent in continuous full-time residence (three full-time quarters out of any four consecutive quarters). The residence requirement for the doctoral degree cannot be met solely with summer or part-time study. With the approval of the degree-granting unit, an appropriate master's degree from an accredited institution may be applied toward one year of resident study other than the continuous full-time year of study.

Once a student is admitted to a graduate degree program, a full quarter of residence is granted for any quarter in which at least 9 credits in graduate course, research, thesis, internship, or dissertation work are satisfactorily completed.

With the exception of the continuous full-time year of study requirement for the doctoral degree, students registered for fewer than 9 credits per quarter may add part-time quarters together to achieve the equivalent of one full-time quarter (9 or more credits) to be applied toward fulfilling residence requirements. However, excess credits beyond 9 may not be subtracted from one quarter and added to another.

Only courses numbered 400, 500, 600, 700, and 800 can be applied to residence or course credit in the major field for advanced degrees (please see Graduate Courses earlier in this section regarding courses numbered 498 and 499). Courses numbered 300 are not applicable to residence or course credit toward advanced degrees except when applied by permission of the graduate program coordinator or supervisory committee toward the graduate minor or supporting courses. Courses numbered below 300 are not applicable to residence or course credit for advanced degrees.

Final Quarter Registration

A student must maintain registration as a full- or part-time graduate student at the University for the quarter the master's degree, the Candidate certificate, or doctoral degree is conferred.

A student who does not complete all degree requirements by the last day of the quarter must be registered for the following quarter.

Continuous Enrollment and Official On-Leave Requirement

Policy

To maintain graduate status, a student must be enrolled on a full-time, part-time, or On-Leave basis from the time of first enrollment in the Graduate School until completion of all requirements for the graduate degree. This includes applying for the master's degree, the passing of the master's final examination or doctoral general or doctoral final examinations, the filing of the thesis or dissertation, and the receiving of the degree. Summer quarter On-Leave enrollment is automatic for all graduate students who were either registered or On-Leave the prior spring quarter. Failure to maintain continuous enrollment constitutes evidence that the student has resigned from the Graduate School.

A student's petition for On-Leave status must be approved by the departmental graduate program coordinator or alternate and submitted to the Registrar's

office no later than the fifth day of the quarter. To be eligible for On-Leave status, the student must have registered for, and completed, at least one quarter in the UW Graduate School and have been registered or On-Leave for the immediate past quarter (excepting summer). An On-Leave student is entitled to use the University Libraries and to sit for foreign-language competence examinations, but is not entitled to any of the other University privileges of a regularly enrolled and registered full- or part-time student. The student pays a nonrefundable fee to obtain On-Leave student status covering four successive academic quarters or any part thereof. An On-Leave student returning to the University on or before the termination of the period of the leave must file a Former Student Enrollment Application (available at 225 Schmitz) by the deadline stated on the form and register in the usual way as a full- or part-time student (see Graduate School Memorandum No. 9 for procedures). A student who returns before the termination of the On-Leave period and maintains registration for any part of a quarter cancels On-Leave status. Please note: Periods spent On-Leave are included as part of the maximum time periods allowed for completion of a graduate degree.

Readmission

A student previously registered in the Graduate School who has failed to maintain graduate student status but who wishes later to resume studies must file an application in person or by mail for readmission to the Graduate School by the regularly published closing dates. If the student is readmitted, registration will occur during the usual registration period. If the student has attended any other institution during the period when not registered at the UW, official transcripts in duplicate of the student's work must be submitted. An application for readmission carries no preference and is treated in the same manner as an application for initial admission, including the requirement of payment of the application fee.

The Graduate School normally allows six years to complete requirements for a master's degree and ten years for a doctoral degree. Periods spent On-Leave or out of status are included.

Concurrent Degree Programs

Concurrent programs are defined as a pair of programs that may be taken at the UW by a postbaccalaureate student resulting in the satisfaction of the requirements for either two graduate degrees or a graduate and a professional degree. Rather than

sequentially completing first one and then the other degree, the student's time and the University's resource allocations may sometimes be conserved by providing arrangements that permit the student to proceed in a coordinated way toward completion of the degree objectives.

To earn two master's degrees, a student must complete two separate sets of minimum Graduate School degree requirements of 36 credits each for a total of 72 credits. If a program requires more than 36 credits for the master's degree, a graduate student, with prior approval of both graduate programs, may apply a maximum of 12 credits beyond 36 earned in one program toward the master's degree in the second program. Thus, the minimum number of additional credits for the second degree, with these 12 approved credits, is 24. Up to 12 credits earned toward a Ph.D. degree may be counted toward a master's degree in another program with the approval of both degree-granting units.

Graduate School Memorandum No. 35, Concurrent Degree Programs (revised October, 1994), contains additional information and is available from the Academic Programs office in the Graduate School.

Master's Degree

Summary of Requirements

It is the responsibility of each master's candidate to meet the following Graduate School minimum requirements:

1. Under a thesis program, a minimum of 36 or more quarter credits (27 course credits and a minimum of 9 credits of thesis) must be presented. Under a nonthesis program, a minimum of 36 or more quarter credits of course work is required.
2. At least 18 of the minimum 36 quarter credits for the master's degree must be for work numbered 500 and above. (In a thesis program, 9 of the 18 must be course credits and 9 may be for 700, Master's Thesis.)
3. Numerical grades must be received in at least 18 quarter credits of course work taken at the UW. The Graduate School accepts numerical grades (a) in approved 400-level courses accepted as part of the major, and (b) in all 500-level courses. A minimum cumulative GPA of 3.00 is required for a graduate degree at the University.

4. A minimum of three full-time quarters of residence credit must be earned. Part-time quarters may be accumulated to meet this requirement (see detailed information under Residence).

5. In a thesis degree program, a thesis, approved by the supervisory committee, must be submitted to the Graduate School. A student must register for a minimum of 9 credits of thesis (700). With the exception of summer, students are limited to a maximum of 9 credits per quarter of thesis (700).

6. A final master's examination, either oral or written, as determined by the student's supervisory committee, must be passed, if it is a departmental requirement.

7. Any additional requirements imposed by the graduate program coordinator in the student's major department or by the student's supervisory committee must be satisfied. A master's degree student usually takes some work outside the major department. The graduate program coordinator in the major department or the student's supervisory committee determines the requirements for the minor or supporting courses.

8. The graduate student must apply for the master's degree at the Graduate School within the first two weeks of the quarter in which he or she expects the degree to be conferred, in accordance with Application for the Master's Degree, as described below.

9. The graduate student must maintain registration as a full- or part-time graduate student at the University for the quarter in which the degree is conferred (see detailed information under Final Quarter Registration).

10. All work for the master's degree must be completed within six years. This includes quarters spent On-Leave or out of status and applicable work transferred from other institutions (see detailed information under Transfer Credit).

11. A student must satisfy the requirements for the degree that are in force at the time the degree is to be awarded.

A second master's degree may be earned at the UW by completing an additional set of requirements. Please refer to Concurrent Degree Programs later in this section and to Graduate School Memorandum No. 35 (revised October, 1994) for more specific information.

Transfer Credit

A student working toward the master's degree may petition the Dean of the Graduate School for permission to transfer to the UW the equivalent of a maximum of 9 quarter credits of graduate level course work taken while a registered graduate student in another recognized graduate school. These credits may not have been used to satisfy requirements for another degree. The petition must include a written recommendation from the graduate program coordinator and an official transcript indicating completion of the course work. Transfer credits are not entered on the UW transcript.

Approved transfer credits are applied toward the total credit count for the master's degree only. (Transfer credits are not applicable toward a doctoral degree.) The minimum residence requirement of three quarters at the UW, the 18 quarter credits of numerically graded course work, and the 18 quarter credits of 500-level-and-above course work may not be reduced by transfer credit.

UW students who are within 6 credits of completing their undergraduate degree and who have met the requirements for admission to the Graduate School may register the quarter immediately preceding admission to Graduate School for up to 6 credits in 500-level courses in addition to the last 6 credits they require of undergraduate work. The graduate program which has admitted the student must approve registration for the courses. The student, after admission to the Graduate School, must file a petition with the Dean of the Graduate School to transfer the 6 credits.

THE GRADUATE SCHOOL: GRADUATE STUDY

Credit taken as a nonmatriculated student or postbaccalaureate student at the UW may not be transferred into a graduate program. Credit by either independent study through correspondence or advanced credit examinations is not transferable.

Thesis Program

The master's thesis should be evidence of the graduate student's ability to carry out independent investigation and to present the results in clear and systematic form. Two copies of the thesis, normally written in the English language, along with the appropriate forms signed by the members of the supervisory committee from the student's graduate program, must be submitted to the Graduate School by the end of the quarter in which degree requirements are completed. The faculty in the graduate program may require that the student present an additional copy for its own use. The Graduate School publishes a booklet, *Style and Policy Manual for Theses and Dissertations*, which outlines format requirements. This manual should be obtained from the Graduate School and read thoroughly before the student begins writing the thesis. The thesis must meet all format requirements before being accepted by the Graduate School. Thesis advisers are available in the Graduate School for consultation during the thesis preparation process.

A \$25 binding fee is payable at 129 Schmitz before the thesis is submitted to the Graduate School.

Nonthesis Programs

The faculty in some graduate programs has arranged programs of study for the master's degree that do not require the preparation of a thesis. These nonthesis programs normally include a more comprehensive plan of course work for more extensive examinations than are required in thesis programs, or they may include some approved research activity in lieu of a thesis.

Final Examination for Master's Degree

As soon as is appropriate, the faculty in the student's graduate program appoints a supervisory committee, consisting of two to four members, and the majority, including the chair, must be members of the Graduate Faculty (see Graduate School Memorandum No. 13). The committee chair arranges the time and place of the final examination, the results of which must be reported to the Graduate School by the last day of the quarter in which degree requirements are met. The examination may be oral or written, and all members of the supervisory committee must certify its results. At least two members of the committee must sign the Master's Application (warrant). If the examination is not satisfactory, the committee may recommend to the Dean of the Graduate School that the student be allowed to take another examination after a period of further study.

Application for Master's Degree

The student must apply for the master's degree at the Graduate School within the first two weeks of the quarter in which he or she expects to complete degree requirements. The filing of the application is the responsibility solely of the student. When the application is received, the student's record is reviewed in the Graduate School. All requirements for the degree must be met by the end of the current quarter if the application is to be approved. If this is not possible, the applicant is notified of deficiencies by the Graduate School. Once approved, the application is forwarded to the appropriate graduate program. Registration must be maintained for the entire quarter in which application for the degree is made. If a student should withdraw during the quarter, the application becomes void and a new one must be submitted at the appropriate time.

Master's degree applications are valid for two consecutive quarters, and if requirements for the degree are not completed during the quarter of the initial application, the student's application may be retained by the graduate program coordinator for the quarter immediately following (e.g., autumn to winter, winter to spring, spring to summer, summer to autumn) and returned to the Graduate School by the end of the second quarter. Thereafter, the application is void and the student must file a new application for the degree in the Graduate School during the first two weeks of the quarter in which work for the degree is to be completed.

Upon completion of departmental requirements, the master's degree application is signed by the Supervisory Committee and returned to the Graduate School. It must be received by the last day of the quarter if the degree is to be conferred that quarter. If all requirements are completed after this deadline, registration for the following quarter is required.

The student and the graduate program coordinator should be thoroughly acquainted with the requirements for the particular degree.

Master of Arts for Teachers

Master's degree programs for experienced teachers, which focus upon the fields of knowledge normally taught in the common school and the community college, have been established at the University. These programs provide alternatives to the research-oriented Master of Arts and Master of Science degree programs, which emphasize particular fields of knowledge. Programs leading to the M.A.T. degree are offered in Biology Teaching and English.

Doctoral Degree

The doctoral degree is by nature and tradition the highest certificate of membership in the academic community. As such, it is meant to indicate the presence of superior qualities of mind and intellectual interests and of high attainments in a chosen field. It is not conferred merely as a certificate to a prescribed course of study and research, no matter how long or how faithfully pursued. All requirements and regulations leading to the doctoral degree are devices whereby the student may demonstrate present capacities and future promise for scholarly work.

Summary of Requirements

In order to qualify for the doctoral degree, it is the responsibility of the student to meet the following Graduate School minimum requirements:

1. Completion of a program of study and research as planned by the graduate program coordinator in the student's major department or college and the Supervisory Committee. Half of the total program, including dissertation credits, must be in courses numbered 500 and above. At least 18 credits of course work at the 500 level and above must be completed prior to scheduling the General Examination.
2. Presentation of a minimum of three years (nine full-time quarters) of resident study, two of them being at the UW with at least one year in continuous full-time residence. (See detailed information under Residence). The continuous year may be satisfied by completing three full-time quarters out of any four consecutive quarters at the UW and must be completed prior to the General Examination. Residence requirement for the doctoral degree cannot be met solely by part-time study. A minimum of two academic years of resident study must be completed prior to scheduling the General Examination.
3. Numerical grades must be received in at least 18 quarter credits of course work taken at the UW prior to scheduling the General Examination. The Graduate

School accepts numerical grades in approved 400-level courses accepted as part of the major, and in all 500-level courses. A minimum cumulative GPA of 3.00 is required for a graduate degree at the University.

4. Creditable passage of the General Examination. Registration as a graduate student is required the quarter the exam is taken and candidacy is conferred.

5. Preparation of and acceptance by the Dean of the Graduate School of a dissertation that is a significant contribution to knowledge and clearly indicates training in research. Credit for the dissertation ordinarily should be at least one-third of the total credit. *The Candidate must register for a minimum of 27 credits of dissertation over a period of at least three quarters.* At least one quarter must come after the student passes the General Examination. With the exception of summer, students are limited to a maximum of 9 credits per quarter of dissertation (800).

6. Creditable passage of a Final Examination, which is usually devoted to the defense of the dissertation and the field with which it is concerned. The General and Final Examinations cannot be scheduled during the same quarter. Registration as a graduate student is required the quarter the exam is taken and the degree is conferred.

7. Completion of all work for the doctoral degree within ten years. This includes quarters spent On-Leave or out of status as well as applicable work from the master's degree from the UW or a master's degree from another institution, if applied toward one year of resident study other than the continuous full-time year of study.

8. Registration maintained as a full- or part-time graduate student at the University for the quarter in which the degree is conferred (see detailed information under Final Quarter Registration).

9. *A student must satisfy the requirements that are in force at the time the degree is to be awarded.*

Appointment of Doctoral Supervisory Committee

A *Supervisory Committee* is appointed by the Dean of the Graduate School to guide and assist a graduate student working toward an advanced degree and is expected to evaluate the student's performance throughout the program. The Supervisory Committee must be appointed no later than four months prior to the General Examination. Appointment of the Supervisory Committee indicates that the Graduate Faculty in the student's field finds the student's background and achievement a sufficient basis for admission into a program of doctoral study and research. "Preliminary" examinations, if required, should be completed prior to the request for appointment of the Supervisory Committee. If "preliminary" examinations are not an academic unit's requirement, it is appropriate to request appointment of the Supervisory Committee during the student's first year of study (see Graduate School Memorandum No. 13, Supervisory Committees for Graduate Students).

Admission to Candidacy for Doctoral Degree

At the end of two years of graduate study, the chair of the Supervisory Committee may present to the Dean of the Graduate School, for approval, a warrant permitting the student to take the General Examination for admission to candidacy for the doctoral degree. This means that, in the opinion of the committee, the student's background of study and preparation is sufficient to justify the undertaking of the examination. The warrant is approved by the Dean of the Graduate School only after the prescribed requirements of residence and study have been met and any specified language requirement has been fulfilled. The warrant must be received at least three weeks prior to the proposed

examination date. Written and other examinations prior to the oral are the responsibility of the graduate program and do not need Graduate School approval. During the oral examination, the chair, the Graduate School representative, and at least two additional examining committee members must be present. Registration as a graduate student is required the quarter the exam is taken and candidacy is conferred.

If the student's performance is judged by the Supervisory Committee to be satisfactory, the signed warrant certifying successful completion of the General Examination is filed in the Graduate School. If the General Examination is unsatisfactory, the Supervisory Committee may recommend that the Dean of the Graduate School permit up to a maximum of two additional reexaminations, after a further period of study. Any members of the committee who do not agree with the majority opinion are encouraged to submit a minority report to the Dean of the Graduate School.

Thereafter, the student is identified and designated as a *Candidate* for the appropriate doctoral degree and is awarded the Candidate's certificate. After achieving Candidate status, the student ordinarily devotes his or her time primarily to the completion of research, writing of the dissertation, and preparation for the Final Examination.

The Candidate certificate and the doctoral degree may not be awarded the same quarter.

Candidate's Certificate

The Candidate's certificate gives formal recognition of the successful completion of a very significant step toward the doctoral degrees awarded through the Graduate School: Doctor of Philosophy, Doctor of Education, and Doctor of Musical Arts. Students who have passed the Graduate School General Examination and who have completed all requirements for the degree except the dissertation and the Final Examination are awarded the Candidate certificate.

Dissertation and Final Examination

The Candidate must present a dissertation demonstrating original and independent investigation and achievement. The dissertation should reflect not only mastery of research techniques but also ability to select an important problem for investigation and to deal with it competently. Normally the dissertation is written in the English language. However, if there are circumstances that warrant the dissertation be written in a foreign language, approval must be received from the Dean of the Graduate School. The Graduate School publishes a booklet, *Style and Policy Manual for Theses and Dissertations*, which outlines format requirements. This manual should be obtained from the Graduate School and read thoroughly before the student begins writing the dissertation. The dissertation must meet all format requirements before being accepted by the Graduate School. Thesis advisers are available in the Graduate School, and students are encouraged to consult with them throughout the dissertation preparation process.

When the Supervisory Committee agrees that the doctoral Candidate is prepared to take the Final Examination, the Dean of the Graduate School should be informed of the decision and asked to designate a Reading Committee from among the members of the Supervisory Committee.

Once the Reading Committee is established officially with the Graduate School, a Request for Final Examination (signed by the Supervisory Committee chair and the members of the Reading Committee) is presented to the Graduate School three weeks prior to the Final Examination date, and if the Candidate has met all other requirements, a warrant authorizing the Final Examination is issued by the Graduate School.

The Reading Committee prepares a report briefly summarizing the distinctive achievements of the research, the methods used, and the results. One copy of the report with the original signatures of the Reading Committee must be submitted to the Graduate School after the Final Examination.

If the Final Examination is satisfactory, the Supervisory Committee signs the warrant and returns it to the Graduate School by the last day of the quarter in which the degree requirements are completed. Any members of the committee who do not agree with the majority opinion are encouraged to submit a minority report to the Dean of the Graduate School. If the examination is unsatisfactory, the Supervisory Committee may recommend that the Dean of the Graduate School permit a second examination after a period of additional study.

After the Final Examination, the doctoral Candidate has 60 days in which to submit the dissertation to the Graduate School. Registration as a graduate student is required the quarter the dissertation is submitted and the degree is conferred.

Publication of Doctoral Dissertations

Part of the obligation of research is publication of the results, and in the case of doctoral research, this means microfilm publication of the dissertation and/or abstract. This is a Graduate School requirement in addition to any previous or planned publication of any or all of the dissertation and provides worldwide distribution of the work. The Candidate signs the publication agreement when the dissertation is presented to the Graduate School. Publication in microfilm does not preclude other forms of publication.

The following fees for microfilming the doctoral dissertation are paid at the Cashier's Office, 129 Schmitz (all fees are subject to change): microfilming the entire dissertation, \$52; optional copyright fee (applicable only when the entire dissertation is microfilmed), \$35; or microfilming of only the abstract, \$50. These fees are in addition to the \$25 binding fee.

Special Individual Ph.D. Program

The Graduate School maintains the Special Individual Ph.D. (SIPh.D.) Program for exceptionally able students whose objectives for study are of an interdisciplinary nature that cannot be met within one of the University units authorized to grant the Ph.D. degree. The program is intended for dissertation topics that require supervision from two or more of the disciplines in which the University offers the Ph.D. degree. It is not intended as a mechanism for offering the Ph.D. degree within units that do not have their authorized own Ph.D. programs.

A graduate student may apply to the SIPh.D. Program when he or she has completed the master's degree, or has been admitted to the Graduate School and has completed at least three quarters of full-time work at the UW, and has carefully planned an appropriate program of studies.

Proposals, including GRE scores, are due by December 15 of each year, and decisions on admission are made by May 15 of the following year. Graduate School Memorandum No. 25, Special Individual Ph.D. Programs (revised August, 1994), contains additional information, proposal forms, and instructions and may be obtained from the Graduate School.

Special Programs and Facilities

Graduate School Support for Interdisciplinary Units and Graduate Student Recruitment

The objective of the *Graduate School Fund* (GSF) is to support the overall goals of graduate education through funding in the following areas: (1) program support for interdisciplinary units on campus, (2) graduate student recruitment support to all Ph.D.-degree granting units on campus, (3) honoraria and colloquia support for the dissemination of research, (4) graduate student travel to present their research at professional meetings, and (5) book publication subsidies for faculty.

GSF revenues come from various sources including, but not limited to: (1) state funds provided in the University's biennial budget, (2) private donations, (3) institutional allowances provided with fellowships and traineeships, (4) patent, invention, and copyright royalties accruing to the University, and (5) various special, short-term and renewable awards from the Provost's Office for maintenance of certain unique needs; e.g., tuition short-falls.

GSF policies and procedures are available from the Graduate School, 213 Gerberding, Box 351240, telephone 685-2628.

Related to its primary responsibilities for graduate education, the Graduate School has responsibility for the following programs:

Special Professorships and Lectureships

The *Walker-Ames Fund* was established in the 1930s through a bequest from the estates of Maud Walker Ames and her husband, Edwin Gardner Ames. Its stated purpose is to enable the University of Washington "to guarantee to the state of Washington the scholarly and educational services of the most distinguished minds available in this and other countries."

Chaired by the Dean of the Graduate School, a committee of University faculty members considers nominations from their colleagues and makes recommendations to the President for the appointment to Walker-Ames Professorships of distinguished scholars of national and international reputation.

Since 1936, when the first Walker-Ames Visiting Professor was appointed, over 300 scholars and members of the professions have come to the University as temporary members of the faculty, enriching the intellectual life of the University community and the state.

The *Jessie and John Danz Fund* was established in 1961 by a gift and bequest from John Danz; an additional gift was made to the Danz fund in 1969 by his wife, Jessie Mohr Danz. The Danz fund is intended primarily to enable the University to bring to the campus each year two "distinguished scholars of national and international reputation who have concerned themselves with the impact of science and philosophy on man's perception of a rational universe."

Nominations and appointments for the Danz lectureships are made in the same manner as the Walker-Ames professorships. Since 1961 when the lectureship was established there have been 82 appointed lectureships. Other arrangements compatible with the Danz bequest (e.g., the publicizing of the Danz Lectures) may be made upon approval of the committees involved.

Questions pertaining to the Walker-Ames Fund and the Jessie and John Danz Fund may be directed to the Dean of the Graduate School.

In addition to regular academic offerings, the University maintains a wide range of programs and facilities that provide special opportunities for graduate study and research. The following units are administered by the Graduate School:

Center for Law and Justice

Joseph G. Weis, Director
117 and 119 Savary, Box 353340

The Center for Law and Justice is a multidisciplinary research center established in 1975. Its goals are to engage in research, to contribute to the education and training of students, to offer consultation, and to provide liaison to the community in the areas of law and justice. To achieve these goals the Center: (1) apprises faculty members of research opportunities and assists in the development of proposals, (2) involves students from different disciplines in research training and education and sponsors biweekly colloquia, and (3) provides consultation to the criminal justice system and responds to the broader informational needs of the community.

University of Washington Press

Donald R. Ellegood, Director
1326 Fifth Avenue, Suite 555, Box 359120

The University of Washington Press, the book-publishing division of the University, has over a thousand titles in print, with special emphasis on art, anthropology, Asian-American studies, Asian studies, environmental studies, ethnology, history, literary criticism and linguistics, international studies, and regional subjects. The Press publishes about 50 new books each year, including reprints and imports. Authors include both members of the University faculty and scholars outside the University. Nonbook publications include diagnostic tests and audiovisual materials. In addition to its own publishing program, the Press distributes art books and catalogues for numerous museums.

Vice Provost for Research

Alvin L. Kwiram

Assistant Provost for Research

Donald R. Baldwin

Associate Vice Provost for Research

George D. Nelson

Director, Grant & Contract Services

Donald W. Allen

Associate Vice Provost for Research and Director, Office of Technology Transfer

Robert C. Miller

The Office of Research provides a range of services in support of scholarly and scientific inquiry at the University of Washington. The Vice Provost for Research works with faculty to establish appropriate research policies, develop research-related initiatives, increase resources available for research, and guarantee that the successes of faculty and the public benefits of research programs are widely known and understood. The Office of Research cooperates with the Graduate School and other units within the University that depend on or are affected by the research and graduate education activities of UW faculty. The Office of Research also serves as a point of contact with the public and private sectors on issues relating to research, the transfer of research discoveries, and the University's role in economic development. The two main service organizations within the Office of Research are the Office of Grant and Contract Services and the Office of Technology Transfer.

The Office of Grant and Contract Services (GCS) reviews and approves all proposals to outside agencies for support of UW research. The Director of GCS is responsible for negotiating the terms and conditions for grants and contracts in consultation with the principal investigator and appropriate UW administrators. All grant and contract awards received by the University are communicated to GCS which tracks the UW's cumulative funding totals. GCS is also responsible, through its Human Subjects Division, for managing the human subjects review process at the University in cooperation with University's Human Subjects Review Committees.

The Office of Technology Transfer (OTT) works with UW faculty, staff, and students to identify commercially viable research discoveries. OTT seeks legal protection for inventions through patenting and other means and negotiates contracts with companies interested in developing UW intellectual property. The revenues derived from OTT's activities are channeled back to the inventors, the UW units where the discovery originated, and the centrally administered Royalty Research Fund which supports UW research on a campus-wide basis.

Funding for UW Research

External Support for Research and Training is fundamental to the UW's established role as one of the nation's leading research institutions. During the past several years, the University has received more than \$400 million annually in grant and contract support for a wide array of research and training programs. Since the late 1960s, the University has ranked among the top five institutions in the United States in the receipt of federal research awards. About 80 percent of the University's grant and contract funds comes from federal agencies, most of the remainder coming from foundations, industry, and other private sources. These funds are awarded in response to faculty-initiated, University-approved proposals for funds to sup-

port specific projects in accord with the University's research, education, and public service goals. Grant and contract funding, which is received in addition to legislative appropriations for the basic operation of the University, funds about 5,400 FTE employees and provides significant opportunities for graduate students who work with faculty members in the conduct of research as a vital component of graduate education.

In addition to federal research funding, corporations provide an increasing amount of funding for research. Currently the UW receives about \$30 million per year in corporate research awards, and this amount is expected to grow as University-Industry collaborations continue to expand. Private gifts to the University total more than \$60 million per year and also add significantly to the opportunities of students and faculty to pursue research interests.

Internal Support for Research at the UW is based in part on the principle of directing revenue that arises from UW research discoveries back into the University's research enterprises. The Office of Research administers the Royalty Research Fund (RRF), which is derived from the UW's central share of royalty and licensing income negotiated by OTT and the Washington Research Foundation with companies that commercialize University technologies. The goal of the RRF is to stimulate additional scholarly initiatives, to encourage faculty to explore new directions in research and scholarship, and to improve the environment for intellectual endeavors at the University. Pro-

posals must demonstrate a high probability of generating important new scholarly materials or resources, significant data or information, or essential instrumentation resources that are likely to lead to external funding or that might lead to a new technology. The RRF guidelines, procedures, and application forms are available from the Office of Research.

Special Facilities

In support of scholarship, research activities, and regular academic offerings, the University maintains a wide range of special facilities that provide unique educational opportunities. The following list is illustrative of the range and diversity of special facilities at the UW.

Academic Computer Center

Provides instructional and research computing services for the University.

Applied Physics Laboratory

A research and development organization within the College of Ocean and Fishery Sciences, APL is one of four university research centers in the United States affiliated with the U.S. Navy. APL conducts a program of fundamental research, technology development, engineering, and education, emphasizing naval applications of ocean and polar science, acoustics, and

engineering. APL has a \$30 million per year research and development budget and employs approximately 250 staff members, including 145 scientists and engineers (26 with faculty appointments) who conduct research for the Navy, NSF, NASA, NOAA, ARPA, and other federal agencies.

Burke Memorial Washington State Museum

An educational and cultural center whose function is to collect, preserve, research, exhibit, and interpret the natural and cultural objects of the human environment, particularly the Pacific Ocean, its islands, and mainland shores.

Henry Art Gallery

The art museum of the University of Washington.

Friday Harbor Laboratories

The Friday Harbor Laboratories facility is the principal marine science field station of the University of Washington. Its faculty is drawn from various academic units of the University, including botany, fisheries, oceanography, and zoology, as well as visiting faculty members from many other U.S. and foreign institutions.

The Laboratories, located approximately 80 miles north of Seattle near the town of Friday Harbor on San Juan Island, offers a biological preserve of nearly 500 acres of wooded land with about two miles of shoreline. The island is one of the largest of the 172 that make up the San Juan Archipelago, located in the northwest section of the state of Washington between Vancouver Island and the United States mainland. In addition to the Friday Harbor site, the Laboratories' administration has the responsibility for overseeing biological preserves leased or owned by the University on San Juan Island (False Bay and Argyle Lagoon), Shaw Island (uplands adjacent to Point George and Parks Bay; Cedar Rock Biological Preserve), and Lopez Island (Point Colville and Iceberg Point). Goose and Deadman islands, biological preserves owned by the Nature Conservancy, are also under the stewardship of the Laboratories.

The Laboratories are close to seawaters that range from oceanic to those highly diluted by streams, some with depths to 1,000 feet, others with bottoms varying from mud to rock, and water movements ranging from those of quiet bays and lagoons to those of swift tideways. The waters about the San Juan Archipelago abound in varied marine flora and fauna.

The Laboratories offer opportunities for independent and supervised research, as well as a varied program of instruction for graduate and undergraduate students. Throughout the year, use of the Laboratories' facilities for research in various areas of marine science is encouraged.

Nuclear Magnetic Resonance Facility

The UW has one of the most advanced facilities for Nuclear Magnetic Resonance (NMR) using high field superconductivity magnets capable of investigating biomolecules, macromolecules, and solid state samples at frequencies of 500 MHz for protons. A new state-of-the-art 750 MHz spectrometer was installed at the end of 1995.

Nuclear Physics Laboratory

Houses a Van de Graaff accelerator and a cyclotron for research in physics, chemistry, cancer therapy, nuclear medicine, radiation biology, and related fields.

Oceanographic Research Vessels

Operated for field study and research in Puget Sound and the Pacific Ocean.

Speech and Hearing Clinic

Serves as a center for research in speech science, speech and language pathology, and audiology, and provides services to the public.

University of Washington Medical Center/Harborview Medical Center

The University operates two major teaching hospitals: its own 450-bed University of Washington Medical Center and, under contract with King County, the 413-bed Harborview Medical Center.

University Libraries

With more than five million volumes, an equal number of microforms, several million items in other formats, and more than 50,000 serial titles, the University of Washington Libraries houses one of the top research collections in the country and form a part of one of the most innovative electronic campus information networks in the world. The fully integrated, computerized UW Libraries Catalog provides bibliographic information and circulation status for the cataloged holdings of the Libraries. The UW Libraries Catalog and an increasing number of other databases (ERIC, MEDLINE, INSPEC, PsychINFO, MLA Bibliography, etc.) may be searched by author, title, subject, publisher, keyword, and various numbers, including call number, International Standard Book Number (ISBN), International Standard Serial Number (ISSN), and Superintendent of Documents Number. Publication date and date ranges are among the limit options available. These databases are available through a multiple-window, graphical interface (Willow) or a text-based interface (Wilco).

The UW Libraries maintains an active homepage on the World Wide Web. A full description of the library system, its services and resources, along with unique databases, graphics, annotated bibliographies and other resources developed by library subject specialists, are all available at <http://www.lib.washington.edu/>

The Libraries offers a broad array of online databases and CD-ROM products directly available to library users. An increasing number of these bibliographic

and fulltext resources are available on the UW Campus Network via UWIN and Wilco (accessible from terminals in the Libraries and from campus uniform access accounts) or on local area networks located in public service units and branches. For more information concerning electronic databases, call Reference and Research Services, 543-0242, or consult the Libraries homepage at <http://www.lib.washington.edu/>.

The Libraries also offer an extensive array of services in each of its 22 units. The Suzzallo and Allen Libraries, the Odegaard Undergraduate Library, the Health Sciences Library and Information Center, the East Asia Library, and the 15 branch libraries each provide reference services and offer instruction in the use of library resources.

X-Ray Beamline Facility

Located at the Advanced Photon Source of the Argonne National Laboratory in Argonne, Illinois, this facility is operated by a Pacific Northwest consortium which the UW leads. It enables the investigation of the properties of x-rays and their interaction with matter. The Advanced Photon Source uses synchrotron radiation to provide the most brilliant source of x-rays currently available. It is anticipated that instrumentation will be operational by 1997 to fully utilize this remarkable resource.

Centers, Institutes, and Other Research Organizations

Nearly a hundred centers, institutes and other organizations operate at the UW in support of faculty research activity. In many cases, centers and institutes are created to facilitate interdisciplinary research or to coordinate research involving many participants, some from outside the UW community. Additional information about the organizations listed below is available in *Centers and Research Organizations*, a booklet available from the Office of Research.

Addictive Behaviors Research Center
Aerospace & Energetics Research Program
Alcohol and Drug Abuse Institute

Alzheimer's Disease Research Center
Arrhythmia Service
Bone and Joint Center
Center for AIDS and STD
Center for AIDS Research
Center for Educational Renewal
Center for Effective Schools
Center for Health Promotion in Older Adults
Center for the Humanities
Center for Imaging Systems Optimization (CISO)
Center for Instructional Development and Research (CIDR)
Center for International Business Education and Research (CIBER)
Center for International Trade in Forest Products (CINTRAFOR)
Center for Law and Justice
Center for Law Science and Technology
Center for Quantitative Science in Forestry Fisheries and Wildlife
Center for Social Science Computation and Research
Center for Spatial Statistics
Center for Streamside Studies
Center for Studies in Demography and Ecology
Center for Studies in Social Psychology
Center for the Care of Older Adults
Center for the Study and Teaching of At-Risk Students
Center for the Study of the Pacific Northwest
Center for Urban Horticulture
Center for Urban Water Resources Management
Center for Vascular Biology
Center for Women's Health Research
Center on Human Development and Disability
Clinical Nutrition Research Unit
Diabetes Endocrinology Research Center
Diagnostic Imaging Sciences Center
Fisheries Research Institute
Fred Hutchinson Cancer Research Center
Friday Harbor Laboratories
General Clinical Research Center
Halbert Robinson Center for the Study of Capable Youth
Harborview Injury Prevention and Research Center
Health Policy Analysis Program
Institute for Economic Research

Institute for Environmental Studies
Institute for Ethnic Studies in the United States
Institute for Food Science and Technology
Institute for Nuclear Theory
Institute for Public Policy and Management
Institute for the Study of Educational Policy
Joint Institute for Study of Atmosphere and Ocean (JISAO)
Markey Molecular Medicine Center
Metabolism and Cystic Fibrosis
Middle East Center
Multidisciplinary Pain Center
National ESCA and Surface Analysis Center for Biomedical Problems
National Park Service Cooperative Park Studies Unit
National Resource Center in International Studies
National Science Foundation Industry - University Cooperative Research Center for Design of Analog-Digital Integrated Circuits (CDADIC)
National Science Foundation Industry - University Cooperative Research Center for Process Analytical Chemistry (CPAC)
National Simulation Resource Facility in Circulatory Mass Transport and Exchange
Northwest Center for Research on Women
Northwest Lipid Research Laboratories
Northwest Regional Spinal Cord Injury System
Olympic Natural Resources Center
Pacific Rim Education Program
Pharmacoeconomics and Drug Policy Program
Polar Science Center
Population Center for Research in Reproduction
Puget Sound Blood Center
Quaternary Research Center
Regional Epilepsy Center
Regional Primate Research Center at the University of Washington
Research and Training Center on Traumatic Brain Injury
Research Center in Oral Biology
Resource Facility for Kinetic Analysis
Robert Wood Johnson Clinical Scholars Program
School Law Division
SCOR in Coronary and Vascular Diseases
Sexually Transmitted Diseases Cooperative Research Center

South Asian Studies Program/South Asia National Resource Center
Southeast Asian Studies Program
Transportation Northwest (TransNow)
Treaty Research Center
University of Washington Center for the Humanities
Virginia Merrill Bloedel Hearing Research Center
W.M. Keck Center for Advanced Studies in Neural Signaling
WAMI Rural Health Research Center
Warren G. Magnuson Institute for Biomedical Research and Health Professions Training
Washington Cooperative Fish and Wildlife Research Unit
Washington Sea Grant Program
Washington State Transportation Center (TRAC)
Western Regional Aquaculture Consortium

Field Stations

Field work is an essential component of research and instructional programs in many academic disciplines, and access to appropriate field sites is vital and necessary for research universities. Detailed information about each of the University's research sites is available in *University of Washington Field Stations*, an inventory available from the Office of Research. The following list of 26 sites represents a broad spectrum of types and locations.

Apache Point Observatory, Archaeology Field Station, Big Beef Creek, Blue Glacier, Calkins Aircraft Hangar, Cheeka Peak Atmospheric Research Station, Chignik Lake, Clifford A. Barnes Research Vessel, Energy Test Homes, Friday Harbor Laboratories, Joe E. Monahan Findlay Lake Preserve, Lake Ilamna and Porcupine Island, Lee Forest, Manastash Ridge Observatory, Olympic Natural Resources Center, Organization for Tropical Studies, Pack Forest, Regional Primate Research Center, Rome Center, Seismic Network, Seward Park Hatchery, Thomas G. Thompson Research Vessel, Thompson Research Site, Urban Horticulture Ecological Research Area, Washington Park Arboretum, Westport House, Wood River System.

The Impact of UW Research

Research programs at the UW benefit students, the state, and the nation. Over the last decade, these programs have produced life-saving advances in medical technology, support for key state and regional industries, research and analysis on critical public policy issues, patented technologies, training for more than 8,000 graduate and professional students each year, as well as contributions to scholarly literature in virtually all major fields of the arts, sciences and humanities. The following sections contain brief descriptions of a few of the many interesting research projects currently underway at the UW.

Earth, Ocean, and Atmospheric Sciences

UW earth scientists have a long tradition of concentrating on regional studies to learn more about the forces that continue to shape the Pacific Northwest. Recent evidence now suggests that great earthquakes of magnitude 7 or 8 have occurred in the Pacific Northwest in the not-to-distant past, and are likely to recur at some time in the future. Data gathered from a network of seismic stations throughout the Pacific Northwest are permitting new faults in the region to be mapped and characterized. The first three-dimensional images of structures within the earth in this region are being generated. Lessons learned from seismic studies since the eruption of Mount St. Helens are being applied to eruptive activity around the globe, from Alaska to Mount Pinatubo in the Philippines. Additionally, extreme conditions deep inside the earth are simulated in the UW High Pressure Mineral Physics Lab in order to understand the geologic processes that shape our planet.

New underwater observing platforms are being installed to monitor volcanic activity on the sea floor more than a mile and a half below the surface of the Pacific Ocean off the coast of Washington State. These under-sea volcanoes and hydrothermal vents spew out heated, mineral-laden waters that nourish exotic life forms and form rich metal deposits. The heat-loving organisms, capable of existing without light from the sun, may be among the most ancient forms of life on earth.

UW scientists have long been interested in polar research, including both the Arctic and the Antarctic. The University is one of the major centers in the world for studies of ocean currents, ice formation, ice movement, and air-sea-ice interaction in these regions. UW personnel have developed unusual expertise for operating in polar regions. Through the Applied Physics Laboratory, UW investigators regularly conduct studies from bases sited on Arctic pack ice and have deployed a series of weather buoys on the ice and in Arctic waters that form part of a worldwide weather-forecasting system.

An ice core containing an unprecedented record of climate conditions in a near-coastal area of Antarctica has been obtained by scientists in the UW Quaternary Research Center. The ice sample, which goes back 140,000 years through a complete ice age cycle, was taken at Taylor Dome, the site of major changes in glacier cover that affected sea level at the end of the last ice age.

Work by UW atmospheric scientists has established the role of sulfate aerosol in global climate change. Other studies are shedding light on past and future El Niño weather events—intervals of especially warm ocean temperature that periodically appear around December in the equatorial Pacific and that disrupt weather patterns around the globe. UW researchers have developed a theoretical understanding of the mechanisms that give rise to the El Niño phenomenon. Cores obtained from coral formations in the Pacific provide a record of past El Niño events and may lead to

more accurate forecasts of these weather changes in the future.

UW atmospheric scientists have pioneered the study of clouds and weather systems by flying into the heart of storms approaching the Washington coast. Using one of the best-equipped research airplanes in the country, they have developed techniques for examining the structure of these storms in detail. Their expanding base of knowledge, coupled with advanced computer modeling and prediction tools, is producing weather forecasts with greater precision than previously possible.

A unique scientific resource exists in the UW's Friday Harbor Laboratories. Located on one of the larger islands of the San Juan Archipelago, the Laboratories draw researchers from all over the world, who use the pristine Puget Sound water pumped into the laboratories for sensitive studies of reproduction, physiology, and development of marine life.

The School of Fisheries, renowned for the Donaldson salmon as well as for its contributions to the High Seas Salmon Program and Alaska Salmon Program, also has made many important contributions to the development of shellfish aquaculture in Puget Sound and around the world. The triploid oyster, prized for its superior characteristics, was developed by UW fisheries researchers.

The Columbia River Salmon Passage model, or CRISP, is a computer model that relates the number of juvenile salmon that survive their journey through reservoirs and dams on the Columbia River to various parameters such as hatchery release dates, reservoir levels, and water flow rates. The model may help fishery biologists and planners to understand the complex implications of river management decisions.

Physical and Chemical Sciences

Extremely high precision measurements of atomic properties are the forte of a strong atomic physics group, which has brought recognition in the form of a Nobel Prize awarded to Professor Hans Dehmelt in 1989. Later that year, a Department of Energy competition for its first Nuclear Theory Institute was won by the University. Since that time, a distinguished staff and an international visitor program have made the University a center for research in fundamental nuclear physics and associated problems in astrophysics and particle physics.

One of four Department of Energy-supported nuclear physics laboratories located at American universities is found at the University. This laboratory is equipped with a superconducting booster to a tandem Van de Graaff accelerator, placing the nuclear physics research facility on a par with the best in the world in its energy range. The Particle Physics Group and the Visual Techniques Laboratory are engaged internationally in research at the frontiers of knowledge relating to high-energy particles created both in the laboratory and by nature.

The University has been a leader in the development and use of XAFS, a sophisticated x-ray tool for determining the structure of materials. Physicists studying condensed matter are engaged in the development of the Advanced Photon Source, a high energy x-ray source that will be the most intense in the world. With this source it will be possible to carry out detailed studies of topics such as the growth and structure of liquid crystal films; the structure on an atomic scale of proteins and new, specially-tailored drugs; and the structure of thin films, ranging from one atom thick to multiple-layered heterostructures with many layers of atoms.

Astronomers at the University conduct research in a wide variety of astronomical subjects, from the study of solar system bodies to the nature of the universe as a whole. The UW's Interplanetary Dust Laboratory has pioneered the discovery and study of cometary and asteroidal dust. The Stardust mission led by UW astronomer Don Brownlee will gather and return samples of interstellar dust from a comet called Wild-2 in January 2004. Stardust, which was selected by NASA as the fourth flight mission in its Discovery program, will be launched on an expendable launch vehicle in February 1999. The return capsule carrying the comet dust samples will parachute to Earth in January 2006.

The University is part of a consortium that has constructed a 3.5-meter optical telescope of innovative design. The facility is located at Apache Point in the high, clear New Mexico mountains. One of the largest university-operated telescopes in the country, it is accessed by faculty and students remotely from a laboratory in the new Astronomy-Physics Building on the UW campus.

UW astronomers have also used the Hubble Space Telescope to probe the secrets of stellar evolution, deriving a fresh understanding of the way that stars are

born, change, and die. Scientists explore the nature of galaxies and their mysterious content of "dark matter." Other studies range from the nature of cosmic black holes to mergers and violent collisions of galaxies, and quasar phenomena.

Basic research in the chemical sciences is aided by exceptional research tools. The Department of Chemistry is collaborating with Pacific Northwest National Laboratory, Richland, Washington in an effort to construct a 1,000-megahertz nuclear magnetic resonance (NMR) spectrometer which will provide an instrument of unprecedented power for probing molecular structure. The University has acquired state-of-the-art equipment for studies involving magnetic resonance imaging (MRI), used by health researchers studying complex biological processes.

The Center for Process Analytical Chemistry is a joint University/industry effort to develop novel sensors and instrumentation for continuous monitoring of chemical processes used in the manufacturing and environmental settings. Projects range from fiber optic sensors and spectrometric methods to data analysis and process control algorithms. Research results from the Center transferred to industrial sponsors have led, for example, to a commercial, online, near-infrared spectrometer for determining quality parameters of hydrocarbon fluids.

Engineering and Applied Sciences

A group of UW engineering researchers working in the field of biomimetics are taking their inspiration from nature in designing new materials. They are probing the secrets of such natural substances as slug mucus, spider webs, and abalone shells in order to produce man-made materials that are stronger, lighter, less expensive, and more environmentally benign to manufacture than conventional materials.

The Washington Technology Center (WTC) is a state resource, established in 1983 with funding from the combined Department of Community and Economic Development. It was created to encourage collaborative industry-university research and development in new and emerging technologies to benefit the economic vitality of the state of Washington. Current research areas include advanced materials and manufacturing, biotechnology, computer systems and software, microelectronics, and human interface technology. The WTC promotes faculty collaborations with industry within the state, and co-sponsors applied research at the state's research universities directed toward the needs and interests of state industries. Its state-wide headquarters are located in Fluke Hall at the UW.

The Center for Bioengineering is the home of pioneering work in diagnostic ultrasound, which enables physicians to image in detail the internal features of a patient without having to perform surgery. In addition, important strides continue to be made in understanding how to design man-made materials that are compatible with the human body.

Multidisciplinary research efforts relating to image processing—from picture archiving and communications systems and telemedicine to multimedia and computer graphics—are focused in the Department of Electrical Engineering. UW researchers are working with military and federal medical treatment facilities throughout the Puget Sound area to establish a telemedicine network, allowing physicians to be linked over a computer network and enabling them to share, analyze, and interact with medical data such as charts, x-rays, and other medical images. The heart of the telemedicine demonstration is the MediaStation 5000, an ultrafast, high-resolution multimedia computing system, which uses the Texas Instruments (TI) Multimedia Video Processor chip, developed by UW researchers in collaboration with TI.

The Department of Computer Science and Engineering is known for its catalytic role in bringing tools for designing microchips to engineers and industrial firms in the Pacific Northwest, and for its pioneering work to address critical safety issues in software systems. Recently, UW researchers have been recognized for work leading to a 3-dimensional photography system as well as for the development of Internet and World Wide Web searching tools, called software robots ("softbots").

The tremendous flexibility and power of Geographic Information Systems are being brought to bear on a wide range of research activities across the campus. In a fusion of GIS, computer-aided design, and virtual reality, efforts are underway to link GIS capabilities with visualization tools to allow users to display and move around in a virtual three-dimensional representation of a GIS database. For example, city planners may be able to use their GIS systems to navigate through a cityscape to visualize key features or to evaluate different planning options. This is the focus of the new Community and Environmental Design and Simulation Laboratory at the University, a partnership between the College of Architecture and Urban Planning and the Human Interface Technology (HIT) Lab of the WTC.

In another project at the HIT Lab, researchers are working on a process to display electronic images directly on the human retina. Researchers anticipate the retina display may replace computer screens and video monitors in the future.

Civil engineers are studying problems of air pollution and the technology to detect, analyze, and prevent it; problems of water pollution, acid rain, and lake restoration; methods of predicting the effects of earthquakes on man-made structures; transportation systems that take advantage of the latest computing and communications technologies, among other topics. Mechanical engineering research focuses in part on technology to improve product design and develop advanced automated manufacturing systems.

Biological Sciences

Research programs in the biological and zoological sciences take research teams to sites in the Pacific Northwest region and beyond, to remote corners of the world. Research in zoology has focused on the neurological basis of behavior and the origin of circadian rhythms, the physiology of insect development and the

role of hormones in metamorphosis, and the ecology of intertidal communities. Pioneering field studies of the male red-winged blackbird conducted by UW zoologists have helped to explain the phenomenon of territorial dominance in animals.

A multidisciplinary team of UW scientists has been intensely involved in the study of the recovery of life in the blast zone that resulted from the eruption of Mount St. Helens in 1980. Findings from that effort are changing how scientists understand and study the recovery of volcanic sites around the world.

Forest nutrition studies initiated decades ago by UW researchers have produced one of the largest databases in the world on the growth characteristics of Douglas fir and western hemlock, and spawned a highly successful research cooperative comprising over 35 organizations. Today, the Stand Management Cooperative integrates research in forest nutrition, silviculture, wood quality, and modeling.

UW microbiologists have pioneered genetic engineering techniques for plants. Recently, a UW group has applied the latest gene mapping techniques to the problem of how much genetic change is required in order for a new species to evolve, one of the central mysteries of evolutionary biology. Investigators from the College of Forest Resources, Biochemistry, and Botany have teamed up in this effort.

Researchers in the Department of Genetics in the College of Arts and Sciences have conducted basic research in yeast genetics that has led to a vaccine against Hepatitis B.

Health Sciences

Since its establishment many decades ago, the UW Health Sciences Center has become well known for its teaching, research, and patient care. University physicians and staff members pioneered the first successful long-term kidney dialysis techniques, which have led to lifesaving treatments for tens of thousands of people. Continuing research is leading to the production of simpler and more portable devices for patients suffering from kidney failure.

Medic One, a system of rapid response for victims of accidents and heart attacks, is based at Harborview Medical Center, one of the University's two teaching hospitals. It has provided a national model for emergency medical care.

University physicians have been leaders in the development of bone-marrow transplantation, which offers the hope of curing several forms of leukemia. E. Donnall Thomas, former head of medical oncology at the University, now professor emeritus, received the Nobel Prize in 1990 for developing bone marrow grafting techniques.

Fundamental research in biochemistry is unlocking the secrets of life processes at the molecular and cellular level. The discovery of protein phosphorylation—the reactions that regulate energy use, growth, and transformation of cells—by UW scientists Edmond Fischer and Edwin Krebs was recognized with the Nobel Prize for Medicine in 1992.

Building on work over the past three decades to understand the structures of ion channels in the cellular membrane, new efforts are directed toward the relationship between ion channel abnormalities and various diseases such as cystic fibrosis, certain bacterial infections, and forms of muscular dystrophy.

UW scientists have made important progress in understanding the causes of atherosclerosis; in understanding and isolating blood growth and blood clotting factors; and in studying the processes involved when white blood cells engulf and destroy bacteria. On another front, a UW team has developed a novel method to measure bone loss and to monitor the effectiveness of therapies to treat osteoporosis; the technology is being commercialized by a Seattle company.

THE OFFICE OF RESEARCH

A major effort in molecular biotechnology under the direction of Leroy Hood is helping to map the Human Genome. Hood played an instrumental role in launching and promoting the Human Genome Project, the 15-year, \$3-billion effort to map the roughly 100,000 genes that provide the blueprint for the human body. Recently completed was the sequence analysis of the beta T Cell receptor family. The work has yielded the longest stretch of human genetic sequence analyzed to date and is changing how scientists study human T Cell receptor genes.

A new center in ecogenetics explores the genetic basis for cellular responses to environmental insults or other stresses. Research programs at the UW in the study of heart disease, diabetes, and sexually transmitted diseases have achieved international recognition.

Genetic engineering techniques leading to the transgenic mouse and the use of transgenic animals in the study of new treatments for disease have been pioneered at the University.

The School of Pharmacy has a strong program in pharmacokinetics, the study of how drugs are metabolized and the rate at which they affect target organs and are eliminated by the body. Research is aimed at the analysis and prediction of dangerous drug interactions.

The University's Child Development and Mental Retardation Center is recognized for its pioneering work in the causes, prevention, and treatment of diseases and disorders leading to mental retardation.

The UW School of Dentistry is renowned for its work in periodontology, the study of infectious diseases of the tissues surrounding the teeth. The School has the largest clinical service in the world dedicated to the challenges of treating patients with dental fears and phobias. A UW dentistry team has developed the first diagnostic criteria for temporomandibular disorders—chronic pain in the ear, jaw, or muscles of the face, conditions which affect some 12 percent of the population. University faculty recently participated in a landmark survey of children's dental health in Washington State.

Social Sciences

Interactions among individuals and groups determine the texture of society. The study of these interactions is the province of social scientists, whose work ranges from basic research on perception to the effect of interest groups on public policy.

Nationwide attention has been given to the work of UW investigators studying couples and the common factors that underlie successful relationships. In related research, several investigators are examining the processes of interaction in small groups, from families to work teams.

Important research in leadership and motivation, in human memory, and in alcoholism and addictive behavior is being carried on in a number of academic disciplines. Alcoholism studies range from physiological experiments to model counseling programs for pregnant women to participant-observer studies of addictive behavior. The focus for this effort is the Alcohol and Drug Abuse Institute.

Social scientists have performed provocative studies on the changing role of urban neighborhood organiza-

tions. Another group has concentrated on deviant behavior, including juvenile delinquency and possible prevention strategies. Their work is part of a larger effort by faculty members and graduate students to explore the ways that society's institutions react to deviant behavior.

Anthropologists are studying the changes in fertility, medical history, and cultural adaptation of the Japanese-American community in the Pacific Northwest, and the challenges faced by immigrants from Vietnam and Laos. Other faculty members are pursuing problems in distant locales and times, such as the beginning of agriculture in the Nile Valley.

Geographers are studying regional issues, such as the economic linkages between the Pacific Northwest and other parts of the country, the design and financing of efficient and equitable transit systems, the recent surge in population of nonmetropolitan areas and its policy implications, and the geography of access to health care.

Economists continue working on models to predict the results of federal monetary and fiscal policy. A group of researchers is breaking ground in a relatively unexplored area, the economics of natural resources, comparing the costs and benefits of different patterns of usage. These investigations are designed to help policy makers evaluate alternatives.

Social scientists at the University have a special interest in international relations. The University has been a pioneer in research concerning the Near and Far East, and this important role was emphasized with the establishment of the School of International Studies in 1978 (now the Henry M. Jackson School of International Studies), the culmination of more than 60 years of scholarly activity in area studies and international relations. Scholars in political science, anthropology, sociology, and the humanities study the role of culture in international affairs. Economists and geographers study development, resource management, and international economics. Historians complement the work of social scientists in exploring the basis of current thought, and scholars in languages and literature provide essential knowledge of original texts and the relationship of language to culture.

Humanities and the Arts

Research in the humanities often fulfills a primary mission of humanistic study—the preservation of the literary and artistic achievements of mankind. One aspect of this research is textual scholarship, involving the identification and authentication of original texts and artifacts. New knowledge is also generated through reassessment of earlier texts and works of art.

Texts that form part of Egypt's Nag Hammadi Library, found more than a quarter of a century ago but only recently translated from Coptic, may lead to a reinterpretation of early Christianity. Located near the upper Nile, the library contains documents from little-known monastic groups, previously unknown Christian gospels, and both familiar and unfamiliar sayings of Jesus. A UW scholar studying these texts expects them to have as great an impact as the discovery of the Dead Sea Scrolls. The texts also will shed more light on the heretical Gnostic movement, which offers a radically different interpretation of Genesis.

A faculty member in the Department of English, working in the British Library, discovered several issues of a

previously unknown periodical written by Henry Fielding, the famous eighteenth-century novelist. He has prepared annotated facsimiles of the issues, which shed new light on aspects of Fielding's life, as well as adding some important material to the history of journalism.

Research often is meant to describe exclusively the generation of new knowledge, but in the humanities a growing number of faculty members explore the theoretical basis underlying our knowledge and the means of transmitting it. The focus for these studies has been a colloquium in theory involving faculty members and graduate students. Discussions on problems in the theory of narrative, for instance, may span literature, history, science, and psychoanalysis—in fact, wherever the written word is used. The colloquia have acted as catalysts for several scholarly articles and may lead to an expanded program encompassing other disciplines.

Theoretical studies also form an important component of research in the arts. Some faculty in the School of Music conduct extensive research in the scientific analysis of sound, known as systematic musicology. Studies in this field include the influence of vibrato on judgments of vocal blend; context and time in musical perception; and rhythmic responses of preschool children. Other faculty members are exploring new ways of creating music, including the use of computers.

The concept of scholarly achievement in the arts often is synonymous with performance or exhibition. The UW School of Music has on its faculty a number of nationally recognized composers, including two longtime recipients of research funds from the American Society of Composers, Authors, and Publishers (ASCAP). The awards are designed to encourage and assist writers of serious music. The School of Music also is home to one of the finest opera programs in the country.

The School of Art faculty includes nationally and internationally known artists and scholars in nearly every one of its ten studio, art history, and design disciplines. Studio artists carry on the age-old quest for aesthetic quality but also pursue stylistic innovation, as well as developing new techniques in such diverse areas as non-toxic water-soluble printing and computer-generated imagery. Many of the School's art historians have helped reshape this young discipline through their studies of art as cultural expression.

The UW School of Drama houses the famous Professional Actors' Training Program, which, besides teaching basic acting skills, provides an intensive introduction to the practice of the theater arts. The program attracts dedicated students who work for demanding, scrupulous visiting directors from the commercial stage as well as for permanent faculty members with extensive professional experience. Graduate research in the history and practice of theater forms an integral part of the School's diverse program.

The University's program in creative writing is one of the oldest in the country. It achieved prominence in the 1950s and 1960s, when its faculty included Theodore Roethke, winner of the Pulitzer Prize in 1953. The tradition of excellence continues, with current University poets and authors receiving critical acclaim throughout the nation, including the 1990 National Book Award for Fiction. This concentration of talent has made the University a center for literary activity in the Pacific Northwest.

UW Extension

Vice Provost, Office of Educational Outreach (UW Extension, Summer Quarter, Evening Degree, and Distance Learning)

Richard L. Lorenzen

Associate Vice Provost

David P. Szatmary

Established in 1912, UW Extension brings the University's resources to the community by providing access to quality educational programs which meet ongoing professional and personal needs.

This section describes the various programs currently part of UW Extension. The quarterly UW Extension catalog contains details of the program offerings. It is mailed without charge to residents of western Washington, who may receive it by telephoning (206) 543-2320 or by writing to UW Extension, Box 354224, Seattle, WA 98105-4190.

Evening Credit Program

Many credit courses are offered each quarter for those who are not formally admitted to the University. The classes are intended for non-traditional degree seekers as well as for postbaccalaureate individuals pursuing new skills and knowledge. All evening credit courses are taught by University faculty members and lecturers, approved by the appropriate academic units. UW credit is awarded and the grades earned are included in GPA calculations. Matriculated students enrolling in these courses pay course fees in addition to regular tuition.

Graduate Nonmatriculated Program

Individuals not admitted to a graduate program who wish to enroll in a graduate-level course may apply for graduate nonmatriculated student (GNM) status. Credits earned as a GNM may be applicable toward a degree upon subsequent admission to a graduate program. Application forms are available from participating departments. The Graduate School: Graduate Study section of this catalog offers more details.

UW Distance Learning

UW Distance Learning offers approximately 130 credit courses. Courses are delivered by print, video or computer and typically consist of assigned texts, study guides, assignments and examinations. Most courses use email and voice mail to enhance interactions with instructors as well as other students. Many new online and video courses are being developed. Certain non-credit courses required for University entrance are available to those who wish to qualify for admission. Other courses provide subject matter for professional continuing education.

Courses are open to persons who, because of distance, work schedule, physical disability or educational preference, require an alternative to on-campus classroom meetings. Matriculated University students often find Distance Learning a convenient way to earn credits during summers or leaves of absence or a way of taking courses that would otherwise be unavailable due to schedule conflicts.

Formal admission to the University is not required for enrollment in Distance Learning. Students may register at any time for most courses and have between three months and one year in which to complete their work. As many as 90 credits earned through Distance Learning may be applied to a University baccalaureate de-

gree. Upon successfully completing a course, the grade and number of credits earned are recorded on an official University transcript. Grades earned, however, are not computed in the University GPA, which is based solely on courses taken in residence.

UW Distance Learning catalogs may be obtained by telephone, (206) 543-2350 or 1-800-543-2320; by writing to UW Distance Learning, UW Extension, Box 354223, Seattle, WA 98105-4190; by sending email to instudy@u.washington.edu (include name, address, and social security number).

English As A Second Language Department

The English As A Second Language (ESL) Department provides nonnative speakers of English who are interested in improving language skills with the following services and resources:

1. Academic ESL courses for UW students. English is the language of instruction at the University, and many international students need additional English training to facilitate participation in regular University programs.

International students (whose native language is not English) admitted with TOEFL scores of at least 500 but below 580, or Michigan Proficiency Test scores of at least 80 but below 90, are required to take the University's ESL diagnostic test before matriculating. Students whose test results show their English to be adequate for full-time University study are excused from ESL course work. Others must take those ESL courses designated as required each quarter until the language requirement is completed.

During the academic year, the courses offered are designed for international students officially enrolled in a degree program at the University as either undergraduate or graduate students. These students take ESL courses along with their regular programs of study. English As A Second Language courses count

as the equivalent of 5 credits each for the purposes of satisfying visa requirements but do not count toward graduation. Special fees are charged for these courses instead of tuition.

2. UW Extension ESL courses for all nonnative speakers. The ESL Department offers a separate series of noncredit courses that are open year-round to any adult nonnative speaker who would like to study English. These courses do not require formal admission to the University. Application may be made to the address below.

Additional information about ESL services, including complete listings and descriptions of current ESL course offerings at the University, is available from the ESL Department, Box 354232, Seattle, WA 98195-4232, telephone (206) 543-6242.

Noncredit Classes

UW Extension offers a broad range of courses, certificate programs, institutes, conferences and seminars for adults, students and children. Noncredit classes offer opportunities for professional development and personal enrichment. Specific programs are announced quarterly in the UW Extension catalog. To receive a catalog, call (206) 543-2320.

Client Relations and Advising

UW Extension is committed to providing needed resources and skills to the Puget Sound community. Through its Department of Client Relations and Advising, companies are contacted and customized training programs are provided. Information meetings on various courses are held at companies, on campus and in downtown Seattle. Advisers are available to answer questions on any of UW Extension's credit or noncredit courses or certificate programs.

University of Washington, Bothell

The University of Washington, Bothell (UW Bothell) admitted its first students in autumn quarter 1990 and has grown rapidly. UW Bothell is fully accredited as part of the University of Washington and awards a University of Washington degree. In addition, professional programs are accredited by their respective accrediting bodies.

All programs give particular attention to the development of skills appropriate to an advanced level of study, to writing and oral communication, to the analysis and assessment of information, and to collaborative work with other students. At present the following programs are offered: Bachelor of Arts in Liberal Studies, Bachelor of Arts in Business Administration, Bachelor of Science in Nursing, Master of Education, and a postbaccalaureate Teacher Certification Program for elementary school teachers. As state funding permits, concentrations will be added in existing programs and additional undergraduate and graduate degree programs will be considered.

UW Bothell is committed to increased access to higher education for residents of north, northwest, and northeast Puget Sound. To serve a diverse student population, most programs offer part- and full-time study options, with both day, late afternoon, and evening classes. The teacher certification program requires full-time study. With the exception of the nursing and teacher certification programs, students may enter any quarter. Financial aid and a tuition installment plan are available.

UW Bothell is temporarily located in the Canyon Park Business Center, near the intersection of Interstate 405 and State Route 527. The future location of UW Bothell will be at the Truly Farms site, at the intersection of Interstate 405 and 195th Avenue, where Cascadia Community College will also be located.

Degree Programs

Detailed descriptions of the academic programs offered at UW Bothell may be obtained by calling the Office of Admissions at (206) 685-5000 or 1-800-736-6650. A brief overview of the programs is provided below. Undergraduate programs are offered at the upper-division level; students are expected to have completed their first two years (90 quarter credits) of college study prior to entry, and then to complete 90 additional credits at the upper-division level to earn the bachelor's degree. The teacher certification program is offered as a postbaccalaureate program. The Master of Education degree requires a minimum of 45 credits.

Liberal Studies: The liberal studies program is an innovative and interdisciplinary program combining the methods, materials, and intellectual tools of the humanities, social sciences, and sciences. Because the ability to think, write, and speak effectively is a vital part of a liberal studies education, the program is designed to improve competence in these essential skills. The program leads to a Bachelor of Arts with concentrations in: American studies; society, ethics, and human behavior; culture, literature, and the arts; international political economy and comparative cultures; and science, technology, and the environment.

Business Administration: The business administration program offers an integrated approach to the study of business. The curriculum focuses on essential busi-

ness core courses and currently offers concentrations in both marketing or management. The program emphasizes effective oral and written communication, teamwork in a diverse workforce, entrepreneurial management, high technology and the global business environment. With close ties to the greater Seattle business community, a "real world, hands on" approach is offered. In addition, business students complete courses in liberal studies to better understand the larger social and cultural context in which business functions. The program offers a Bachelor of Arts in Business Administration which is accredited by the American Assembly of Collegiate Schools of Business (AACSB).

Nursing: The Bachelor of Science in Nursing program at UW Bothell is specifically designed for registered nurses who have at least 90 transferable college credits. Through a credit by examination mechanism, nursing students may earn their junior year credits. The program prepares professionals for the broader scope of current nursing practices and evolving future opportunities. Critical thinking, decision making, and oral and written communication are emphasized. The Bachelor of Science in Nursing program at UW Bothell is accredited by the National League for Nursing and is affiliated with the UW School of Nursing. The program begins annually in summer quarter; electives may be taken prior to summer quarter. As state funding permits, a Master of Science in Nursing will be initiated in autumn quarter 1997.

Education: The UW Bothell teacher certification program leads to Washington State teacher certification for grades K-8. It is a full-time, 12 month postbaccalaureate program designed for those who already hold a bachelor's degree. Through collaborative partnerships with area schools, the program integrates courses and structured field experiences in a variety of school settings. This unique program incorporates the most current and thoughtful perspectives on preparing dedicated professionals for classrooms and schools. UW Bothell also offers an interdisciplinary Master of Education degree designed for educators who want to build on their knowledge and skills to create class-

rooms, schools, and communities that support the growth and development of all students. Advanced study is offered in four study options: integrated curriculum; bridges and barriers to school success; multicultural education; and a self-designed option. Critical reflectivity, leadership, and the generation and use of research to improve classrooms and schools are emphasized throughout the program.

University of Washington, Tacoma

The University of Washington, Tacoma (UW Tacoma) opened its doors in 1990. As an upper-level institution, UW Tacoma provides access to a diverse student population through a combination of day, evening, and weekend classes. Undergraduate programs have been created for students who have previously completed two years of college. Undergraduate degrees offered include the Bachelor of Arts in Liberal Studies and in Business Administration, and the Bachelor of Science in Nursing. At the graduate level the Master of Education and the Master of Nursing are available. Additionally, a postbaccalaureate Teacher Certification Program is offered. As state funding permits concentrations will be added to existing programs, and additional options in areas such as social work, management and administration, engineering, science, and society and justice will be considered.

UW Tacoma's location is in an urban center that is redefining the City of Tacoma. The temporary campus is located in two buildings in downtown Tacoma: the Perkins Building at 11th and A Streets, and the Tacoma Security Building on Pacific Avenue. The permanent campus is under construction, and utilizes some of the grand warehouses of old Tacoma which are being remodeled into classroom, office, and library space.

Degree Programs

Detailed descriptions of the academic programs offered can be obtained by calling the Office of Admissions at 1-800-736-7750, and requesting a copy of the current campus catalog. A brief overview of the programs is provided below. All undergraduate programs are offered at the upper-division level; students are expected to have completed their first two years (90 quarter credits) of college study prior to entry, and then to complete 90 additional credits at the upper-division level to earn the bachelor's degree. All programs give particular attention to the development of skills appropriate to an advanced level of study, in writing and oral communication, in the analysis and assessment of information, and in collaborative work with other students in project teams. Graduate programs require a minimum of 45 credits to earn the master's degree.

Liberal Studies: An undergraduate course of study leading to the Bachelor of Arts, with concentrations in United States studies and international studies. The liberal studies program is an innovative, interdisciplinary program combining the methods, materials, and intellectual tools of a number of disciplines devoted to study of the liberal arts and of human beings both as individuals and in societies—disciplines traditionally known as the humanities and social sciences. Students engage in comparative studies of the beliefs, philosophies, arts, and social and economic characteristics of diverse social and cultural groups in the United States and selected regions of the world.

Business Administration: An undergraduate program that leads to a Bachelor of Arts in Business Administration with a concentration in management, marketing, international business, or accounting. The degree is fully accredited by the American Assembly of Collegiate Schools of Business (AACSB). An important element in the program is the emphasis and integration of the traditional business components with interdisciplinary studies. The goal is to prepare students to learn to operate comfortably in a variety of environments and to take a proactive approach to the philosophy of continuous and lifelong learning. The interdisciplinary program emphasizes critical competencies needed to

prepare students to succeed in the business environment of the 21st century. The curriculum is designed around the competencies of teamwork, communication, problem solving, flexibility, strategic thinking, and personal development.

Nursing: An undergraduate course of studies designed for experienced registered nurses, leading to the Bachelor of Science in Nursing; this program is accredited by the National League for Nursing (NLN) and is affiliated with the UW School of Nursing. Through a credit by examination mechanism, nursing students validate learning attained during their professional experience to earn their junior year credits. Full-time students complete the program in four quarters; part-time options are available and are encouraged for students working full-time. Required coursework begins summer quarter; electives may be taken prior to summer quarter. Courses prepare students for professional practice and roles in the complex, changing arena of health care. The Master of Nursing degree program is accredited by NLN and is affiliated with the UW School of Nursing. The program provides advanced study in selected areas of nursing science, professional foundations, scientific and systematic inquiry/research, and related fields of study. Students are provided with opportunities to explore individual interests within the context of the program. The course of study prepares students for advanced and specialized practice. Additional course offerings and opportunities for specialization are planned and will be provided as the campus continues to develop and expand.

Education: a postbaccalaureate course of studies and field experience that leads to Washington State teacher certification for grades K-8. This field-intensive program admits students in the spring to begin the program summer quarter. The program emphasizes preparation for teaching in economically impacted schools and requires one full year of study and practice to complete. The Master of Education degree is a graduate course of studies for experienced teachers at all levels of education, pre-school through adult education. This program emphasizes advanced studies designed to enhance teaching abilities and professional mastery. Four study options and one extended endorsement area are available: integrated curriculum; multicultural education; at-risk youth, with an option of an endorsement in special education; and an individually designed course of study.

Further information may be obtained by contacting the appropriate program office, or the Office of Admissions and Student Services—1-800-736-7750. Academic program numbers are as follows (all 206 area codes): Liberal Studies—552-4450, Business Administration—552-5630, Nursing—552-4470, Education—552-4430.

KEY TO SYMBOLS AND ABBREVIATIONS

KEY TO SYMBOLS AND ABBREVIATIONS

The symbols and abbreviations below are used in the listings of faculty members and course descriptions. Colleges, schools, and departments are presented in alphabetical order. If you are unable to locate the department or program of your choice, consult the Index.

Faculty

Entries include appointment to the Graduate School faculty (indicated by *); year of appointment to the University; graduate or professional degree, date, and institution. Entries also may indicate Acting, Adjunct, Affiliate, Clinical, Emeritus, or Research faculty; and area(s) of interest.

Course Descriptions

Each course listing includes prefix, course number, title, and credits. Each listing also may include general education designator(s), names of instructor(s), description of the course, prerequisite(s), and quarter(s) offered.

Specific information on courses offered in a particular quarter, including descriptions of courses approved since the publication of this catalog, appears in the quarterly *Time Schedule*.

Course Numbers

100-299 Lower-division courses primarily for freshmen and sophomores.

300-499 Upper-division courses primarily for juniors, seniors, and postbaccalaureate (fifth-year) students. Graduate students may enroll in 300- and 400-level courses. When acceptable to the major department and the Graduate School, approved 400-level courses may be applied as graduate credit in the major field and approved 300-level courses may be applied in the supporting field(s).

500- Restricted to graduate students. (Courses numbered in the 500 and 600 series with *P* suffix denote professional courses for students in the schools of Dentistry and Medicine, and such courses may not be applied as graduate credit in the Graduate School.) Undergraduate, postbaccalaureate, and nonmatriculated students who wish to register for 500-level courses must obtain permission from the instructor of the class, departmental Chair, or other designated person.

Graduate courses numbered 600, 601, 700, 750, or 800 are restricted to students in the Graduate School. They appear by number and title only where applicable under the departmental course listings in this catalog. Descriptions for these courses are listed below.

(PREFIX) 600 Independent Study or Research (*)

Individual readings or study, including independent study in preparation for doctoral examinations, research, etc. Prerequisite: permission of Supervisory Committee chair or graduate program adviser.

(PREFIX) 601 Internship (3-9, max. 9)

Internship required of students in a graduate degree program. Permission of Supervisory Committee chair or graduate program adviser is a prerequisite.

(PREFIX) 700 Master's Thesis (*)

Research for the master's thesis, including research preparatory or related thereto. Limited to premaster graduate students (i.e., those who have not yet completed the master's degree in their major field at the University of Washington). Prerequisite: permission of Supervisory Committee chair or graduate program adviser.

(PREFIX) 750 Internship (*)

Internship required of all graduate students in the Doctor of Arts degree program.

(PREFIX) 800 Doctoral Dissertation (*)

Research for the doctoral dissertation and research preparatory or related thereto. Limited to graduate students who have completed the master's degree or the equivalent, or Candidate-level graduate students. Premaster students initiating doctoral dissertation research should register for 600. Prerequisite: permission of Supervisory Committee chair or graduate program adviser.

Credit Designation

ART 100 (5) 5 credits are received for the quarter.

ART 101-102 (5-5) Hyphenated course. Credit is earned, but may not be applied toward graduation until the entire sequence is completed. (An *N* grade may be given the first quarter and the final grade the second quarter.)

ART 100- (5-) Course may take longer than one quarter to complete. Repeated registration may be necessary. An *N* grade is received until the final grade is submitted.

ART 100 (2, max. 8) 2 credits per quarter; course may be repeated up to four times to earn a maximum of 8 credits.

ART 100 (1-5) Up to 5 credits may be taken in a given quarter. Specific number is determined in consultation with instructor or adviser. When a maximum is not stated, the limit of the credit range is also the maximum allowable credit for the course. Compare below for courses with stated maximum credits.

ART 100 (1-5, max. 15) Up to 5 credits may be taken in a given quarter. Course may be repeated to a maximum of 15 credits.

ART 100 (*, max. 10) Credit to be arranged per quarter; course may be repeated to a maximum of 10 credits.

ART 100 (3/5) 3 or 5 credits are earned in a given quarter. Specific amount is determined by school or college offering the course. The *Time Schedule* may indicate 3 credits, 5 credits, or 3 or 5 credits. Credits may vary by section.

ART 100 (3/5, max. 15) 3 or 5 credits are earned in a given quarter. Course may be repeated to earn a maximum of 15 credits.

ART 700 (*) Credit is to be arranged with school or college offering the course. No maximum stated. Only 600-, 700-, and 800-level courses do not require a maximum.

Undergraduate General Education Requirement Designators

VLPA Visual, Literary, & Performing Arts (Areas of Knowledge requirement).

I&S Individuals & Societies (Areas of Knowledge requirement).

NW The Natural World (Areas of Knowledge requirement).

QSR Quantitative, Symbolic, or Formal Reasoning.

C English Composition.

Courses marked **C** may be used for the English Composition requirement or the additional-writing (*W*-course) requirement, but not both; none may count for the Areas of Knowledge requirements. Courses marked **QSR** may be used for both the QSR requirement and an Areas of Knowledge requirement, if one is listed. Courses marked with more than one Areas of Knowledge designator (**VLPA**, **I&S**, and/or **NW**) may be used for any one of the areas indicated, but not for more than one.

Background Required

Prerequisites Courses to be completed or conditions to be met before a student is eligible to enroll in a specific course.

Quarters Offered

A,W,Sp,S Indicates the quarter(s) the course is offered. A = Autumn, W = Winter, Sp = Spring, S = Summer.

Examples:

ART 100 AWSp ART 100 offered Autumn, Winter, and Spring quarters.

ART 100, 101 A,W ART 100 offered Autumn Quarter. ART 101 offered Winter Quarter.

ART 100, 101 AW,WSp ART 100 offered Autumn and Winter quarters. ART 101 offered Winter and Spring quarters.

ACADEMIC PROGRAMS, FACULTY, AND COURSES

College of Architecture and Urban Planning

224 Gould

Dean

Jerry Finrow

Associate Deans

Katrina Deines
James Donnette
Anne Vernez Moudon

The College of Architecture and Urban Planning (CAUP) comprises four departments that are directly concerned with the design and development of the physical environment: Architecture, Building Construction, Landscape Architecture, and Urban Design and Planning.

The College offers a variety of programs and degrees focusing on the environmental design disciplines within a liberal arts education. The undergraduate programs of the departments of Building Construction and Landscape Architecture lead to the professional degrees that serve as the educational credentials for careers in their respective fields. The preprofessional undergraduate degree in architectural studies prepares students for professional programs as well as related roles in society. Master's degrees are also offered in the College: Master of Architecture, Master of Science in Construction Management (evening degree), Master of Urban Planning, and Master of Landscape Architecture. Master's students may elect to work toward the Certificate in Urban Design or the Certificate in Preservation Planning and Design. An interdisciplinary doctoral program in urban design and planning is available through the Graduate School. All curricula encompass an appropriate level of design and technical understanding and include broader social, economic, and cultural issues fundamental to understanding, preserving, and enriching our built and natural environments.

As part of a major university and metropolis in the Pacific Northwest, the College is able to reinforce its program by using its setting as a laboratory for study. It works closely with its various professional communities to build curricula and a faculty attuned to the understanding and creation of an appropriate physical environment.

Cascadia Community and Environment Institute

410 Gould

Anne Vernez Moudon, Director

Cascadia Institute emphasizes interdisciplinary education and applied research in community and environment. Research activities are shaped by the needs

of clients in the community. Areas of emphasis are flexible, reflecting current planning and design issues.

Housed in the University's College of Architecture and Urban Planning, Cascadia Institute draws upon College disciplines—architecture, building construction, landscape architecture, and urban design and planning—as well as other University disciplines such as public policy, law, business, and social work.

Interdisciplinary Research Centers include:

- Center for Real Estate and Community Development
- Center for Architecture and Education:
- Design of Learning Environments
- Center for Sustainable Communities

Educational programs include:

- Certificate Programs
- Urban design
- Preservation planning and design
- Continuing Education/Extension Programs
- Architecture
- Facilities management
- Real estate

Preservation Planning and Design Certificate Program

410 Gould

Gail L. Dubrow, Director
Neile Graham, Program Coordinator

The College of Architecture and Urban Planning administers a special graduate-level program that leads to the Certificate of Achievement in Preservation Planning and Design. This 45-50 credit interdisciplinary program is available to students accepted for graduate work by the departments of Architecture, Landscape Architecture, or Urban Design and Planning. There are two tracks in this program: one for students in architecture and the other for students in landscape architecture and urban planning. The curriculum offered by the 15-member faculty, which is drawn from the College along with visiting lecturers from the preservation community, provides students with a grounding in the history, theories, methods, and practices of historic preservation planning and design.

Urban Design Certificate Program

410 Gould

George Rolfe, Director
Neile Graham, Program Coordinator

The College of Architecture and Urban Planning administers a special graduate-level program that leads to the Certificate of Achievement in Urban Design. Since 1968, this interdisciplinary program has provided a collective framework that allows students to specialize in the study and design of the urban environment as part of their professional education.

The 14-member faculty offers backgrounds in urban design as well as in architecture, landscape architecture, and urban planning. In addition, the communities of the Puget Sound region provide a unique learning laboratory for students to experience the issues and professional activities of urban design. A core curriculum and mandatory course work in four substantive areas provide the student with a firm grounding in theory, methods, and practical skills. The program is normally seven quarters in length, concurrent with the master's program.

Students accepted for graduate work by the departments of Architecture, Landscape Architecture, or Urban Design and Planning are eligible for the program if they possess the necessary design abilities prior to enrollment in advanced studios.

International Programs

224 Gould

The departments of the College offer many opportunities for foreign study in which participants earn academic credit while studying abroad. Programs in Rome, the Italian Hill Towns, and Mexico are sponsored on a regular basis. In addition, various study and exchange opportunities exist in such locations as Germany, the Scandinavian countries, Colombia (South America), Mexico, and Japan. Faculty exchanges with foreign institutions occur regularly.

University of Washington Rome Center

95 Piazza del Biscione, Rome, Italy

The College maintains a permanent year-round facility in Rome. Studio and classroom spaces, a library, administrative offices, and housing accommodations for faculty are located in the Palazzo Pio on the Campo de' Fiori. The Rome Center is used by UW programs in Classics, Romance Languages, Art, Art History, and Comparative History of Ideas, as well as by the Departments of the College of Architecture and Urban Planning. The Rome Center fosters interaction among students from the University and other institutions, together with practicing professionals residing in or visiting Rome. Several major universities regularly share studio critics and lecturers.

Remote Sensing Applications Laboratory

12 Gould

Frank Westerlund, Director

The Remote Sensing Applications Laboratory (RSAL) is a facility for teaching, research, and public service applications of remote sensing and geographic information technologies in environmental planning and design. Remote sensing includes aerial photography and satellite systems such as Landsat for recording earth surface data in image or digital form for subsequent interpretation by visual or computer techniques and incorporation into geographic information systems. Research applications have included land-use mapping, urban form analyses, growth management studies, development siting, natural resource inventories, and environmental analysis. The RSAL houses an extensive collection of air photo, satellite data, map, and documentary resources. In addition to optical photo interpretation equipment, the laboratory utilizes UNIX workstation-based software systems such as ERDAS for digital image processing and the ARC/INFO geographic information system.

Facilities

Computing

A wide variety of computers, software, networks, computing facilities, and support services are available to CAUP students through UW Computing & Communications and College-operated labs for studies and research in Computer Aided Design (CAD) and Geographic Information Systems (GIS).

UW Computing & Communications (C&C) offers faculty, staff, and students free accounts on C&C Uniform Access computers, which provide a variety of computing resources and information technologies such as email and UWIN. Establishing a Uniform Access account allows attachment to the campus network, and, in turn, connection to a vast national and international collection of networks, computer users, computers, and bibliographic and other library resources. C&C

also offers computer labs where you can find software tools running on PC and Macintosh computers, NetXtend workstations, and X terminals.

CAUP facilities, composed of both Macintosh and PC computers, are connected in a College network which, in turn, is connected to the Internet. UW computing and data resources are available through these machines. The College employs one full-time Computer Resources Manager and several student consultants, also known as the Motley Crew or Mots.

General purpose labs are available to all CAUP students. They are networked to file servers, plotters, and laser printers. A wide variety of software is available including spreadsheets, word processors, CAD, GIS, 2D and 3D graphics, rendering, animation, scheduling, estimating, bid analysis, project management, modeling, and design programs. Furthermore, all labs support email. Hours of access to these labs generally parallel those of the College library except when classes are in progress.

For advanced course work, research, and certain independent studies, the College operates specialized labs such as the Multimedia Lab with its high-performance PowerMac workstations along with peripherals including CD-ROM drives, scanners, and a video digitizing (capturing) system. Also, a SUN Workstation located in the Remote Sensing Applications Lab (see above) supports advanced research applications of GIS, remote sensing/image processing, and visual and other simulation modeling.

Lighting Applications Laboratory

The Lighting Applications Laboratory includes a variety of facilities for use by students and faculty members in conjunction with lighting classes, design studio courses, and research work. Equipment in the lighting workshop includes lamps and lighting fixtures, sample models and model-building materials, a mirror-box artificial sky, a direct-beam sunlight simulator, assorted light meters and data loggers, cameras, and demonstration displays.

The Department of Architecture is a cosponsor of the Lighting Design Lab. This lab, a 10,000-square-foot, half-million dollar facility, was designed to demonstrate the energy conservation potential of state-of-the-art architectural lighting technology. It is operated by Seattle City Light in downtown Seattle. Students can take various positions in the lab as interns. It is also available to assist in their lighting design and testing, as it does with regional architectural offices.

Photography Laboratory

A large photography laboratory is provided with studio and darkroom facilities for use by photography classes, design studio classes, special instruction, and independent activity.

Shop

A fully staffed and equipped wood-, plastic-, and metal-working shop provides students with an opportunity to design and build selected projects. The shop is used as an instructional facility in conjunction with studio, structures, and materials classes. Thesis and other individual activity also can be accommodated.

Library

The Architecture-Urban Planning Library, 334 Gould, is a branch of the UW Libraries. It is the primary location for materials on architecture, building construction, landscape architecture, and urban design and planning. The collection numbers 38,150 volumes, 7,500 microforms, and 300 currently received serial subscriptions. Computer terminals connect to the Libraries' Online Public Catalog and a number of databases on the campus network including Avery Index to Architectural Periodicals, Business Index, ERIC, Expanded Academic Index, INSPEC, PAIS, and PsycINFO. Library terminals also provide a linkage to other libraries on the Internet via the campus network. Art Index, Applied

Science and Technology Index and NTIS Index on CD-ROM are accessible through a local area network connection in the library. This network is also a pathway to the World Wide Web.

Slide Collection

The slide collection consists of approximately 100,000 images covering architectural, landscape, design and planning, and construction subject matter, supporting the curricular and research needs of the College. New materials for lectures and projects are continually added.

Student Organizations

Chapters of American Institute of Architects Students, American Society of Landscape Architects, Associated General Contractors, Planning Students Association, and the Historic Preservation Association provide opportunities for undergraduate and graduate students to meet informally and to participate in a variety of projects and events.

College Bachelor of Arts Programs

Bachelor of Arts in Architectural Studies, *see Architecture*.

Bachelor of Arts in Community and Environmental Planning, *see below*.

Community and Environmental Planning

410 Gould

Undergraduate Program

Bachelor of Arts

The Bachelor of Arts degree program with a major in community and environmental planning is offered through the College as one of the University's Interdisciplinary Undergraduate Programs (IUP). It is administered by the Community and Environmental Planning Advisory Committee.

The Community and Environmental Planning (CEP) program provides a multi-disciplinary study of several contemporary academic fields and areas of research. These include: the study of communities, the analysis of natural and built environments, and the investigation of the theory and practice of planning. The CEP program is designed to foster both student- and community-based undergraduate learning experiences.

Students in the major form learning groups of seventeen. Each group comprises a community of mutual learning that requires commitment, personal investment, and strong teamwork strategies from each individual for the duration of the major. Collaboratively, students engage the core content of the program—community, environment, and planning—through six interconnected seminars. The junior-year seminars emphasize the development of a broad knowledge base and a strong theoretical grounding in these areas. The senior-year sequence has an experiential, practice-based focus in which students pursue an independent internship in their communities. With guidance from peers and faculty, each student designs an individual learning plan of courses drawn from a rich array of undergraduate offerings at the UW. The Edward E. Carlson Leadership and Public Service Office provides guidance for the student's community involvement and field experience. Scholarly and logistic support from the Carlson Office gives students the explicit and necessary connection between theoretical and experiential learning. Students explore how to work together constructively to anticipate and address

critical issues facing the complex communities and world they inhabit.

The CEP major represents an intersection; it is a "crossroads" of theoretical, applied, and participatory learning. Specifically, students combine their breadth of knowledge with depth in methods from their cross-disciplinary course work and field experiences to explore their research interests and pursue their professional goals. It is a pathway to vocational accomplishment by which each student develops conceptual understandings and practices. The program supplies the student with a toolbox of invaluable knowledge and skills that they will find crucial in the changing work place. CEP prepares students to become effective citizens, capable of acting with a conceptually broad and ethically responsible vision in a diverse and dynamic society. CEP education creates understanding, qualifications, and readiness for careers in interdisciplinary fields such as social education, planning, ecology, community and environmental activism, community organization and development, and government-community negotiation and interaction. CEP also promotes strong preparation for graduate and professional education in fields such as law, public policy, urban design and planning, social analysis, media arts, environmental regulation, and advocacy. CEP prepares individuals to assume important roles in the difficult public issues that define the present era.

The major is open to students with varied interests and capacities who apply in the spring quarter of their sophomore year. Students admitted begin in autumn quarter.

Admission Requirements: Junior standing (90 or more credits completed), including successful completion of a liberal arts background and acceptance by the program admissions committee. The liberal arts requirements for the degree, normally taken prior to admission, include English Composition (5 credits); Visual, Literary, & Performing Arts (20 credits); Individuals & Societies (20 credits), from recommended courses in social sciences and environment, environmental values and perceptions, and environmental conflict management and law; Natural World (20 credits), from recommended courses in physical environmental sciences and problem-solving, environmental chemistry, ecology and biosphere, conservation biology, environmental systems design and analysis, and MATH 124 or 157; Quantitative and symbolic reasoning (5 credits) from any area above; and general electives (25 credits), with CEP 120 recommended. For alternative recommended courses, visit the CEP Office in 410 Gould. Ten credits of writing-intensive courses are to be included in the 90 credits. While the cumulative GPA is an important admissions evaluation factor, the committee will place emphasis on the student's statement of intent, an autobiographical statement, written responses to three selected questions, previous academic work, and the results of an informal interview with faculty and students in the program. Applicants will be notified of the results by the end of spring quarter. Due to the nature of the major's learning group structure, admission will be limited to space available in the core seminars.

The application deadline is May 1 for admission the following autumn quarter. Applications are available in 410 Gould, 543-4190.

Graduation Requirements: Satisfactory completion of 180 credits of course work, including 90 credits of liberal arts and 90 credits within the major (30 credits of core seminars, 5 credits of internship, 25 credits of selected methods courses, and 30 credits of electives). Methods courses may cover ways of knowing, of thinking, and of solving problems and issues. Courses which fulfill this requirement include qualitative and quantitative methods from the social, natural, and physical sciences; quantitative reasoning; interpretation; critical theory and analysis; computer applications; group dynamics and facilitation; ethics and philosophy; organizational theory; speech communication; writing; and research methods.

Advising: Advising for program premajors is available in the Undergraduate Advising Center, 9 Communications, 543-2551. Advising for CEP majors is available in 410 Gould, 543-4190.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

CEP 120 Introduction to Community and Environmental Planning (5) I&S Introduction to central themes of major. Opportunities to engage in community action and planning process, while developing ecological literacy. Lectures, discussions, community service learning, and critical writing exercises combine to increase knowledge and interest in these fields. Emphasis on developing community of learners in and out of classroom setting. Offered: ASP

CEP 301 The Idea of Community (5) I&S Theories of community and communal rights and responsibilities. Experience building a learning community within major. Explores struggles for community in every sector of life. Witnessing essentials of community through service and field experiences, students construct individual curriculum and learning plans for major, selecting cross-disciplinary work. Credit/no credit only. Offered: A.

CEP 302 Environmental Response (5) I&S Explores issues of environmental crisis and societal responses. Readings and reflective analysis from broad selection of authoritative sources to develop grounded perspective in ecological literacy and consciousness. Concurrently, experiential education in challenges and practical responses to building sustainable society through participation in community-based environmental effort. Credit/no credit only. Offered: W.

CEP 303 Social Structures and Processes (5) I&S Investigates use of formal and informal social structures and processes within context of community and environment. Looks culturally at patterns and institutions of social organization and relationships among different sectors. Issues of interrelatedness, citizenship, knowledge, and communication. Participation in local community service organization. Credit/no credit only. Offered: Sp.

CEP 448 Internship (5) Connects core and individual courses with field work. Group and individual readings develop understanding of how students' internships and field placements constitute particular element of community and environmental planning. Explores how what we do for a living is part of our lives as citizens and public service. Credit/no credit only. Offered: AWSp.

CEP 460 Planning in Context (5) I&S Examines theory against backdrop of practice for broad, historical understanding of social, political, environmental planning. Critique from viewpoints, e.g., planning history, ethics, ecofeminism, environmental justice, class and capitalism, planning and global economy. Develop personalized history reflecting individual experience, professional experience, and philosophical heritage of planning profession. Credit/no credit only. Offered: A.

CEP 461 Ethics and Identity (5) I&S Examination of personal, societal, vocational, environmental, planning ethics. Readings and discourse on ethical foundations for public life. Individual and group readings on values, human potential. Develops understanding of ecological content, moral responsibility, self-awareness. Constructs positive, diverse view of humanity, environment regardless of race, gender, ethnicity, beliefs. Credit/no credit only. Offered: W.

CEP 462 Community and Environment (5) I&S Capstone quarter merges core seminars, disciplinary

courses in major, community field experiences for mastery of personal knowledge and skills. Reflection and synthesis of themes in major; engagement with contemporary issues. Compares theoretical definitions of community and environment with individual philosophies and knowledge within thoughtful, applied context. Credit/no credit only. Offered: Sp.

CEP 499 Undergraduate Independent Study or Research (1-5, max. 10) Individual reading, research, fieldwork, other special project approved and supervised by faculty adviser most appropriate for the project proposed. Report on the purposes, procedures, and results of study is required. Prerequisite: senior standing in CEP major and permission of supervising instructor. Credit/no credit only. Offered: AWSpS.

Architecture

208 Gould

The Department of Architecture offers two degrees: the Master of Architecture (M.Arch.) degree, an accredited professional architectural degree, and the Bachelor of Arts degree in architectural studies. The professional program is based on the architect's need to be a generalist well-rounded in the liberal arts, with a full command of the discipline of architecture, who can assume an enlightened, responsible, and creative role in society. The B.A. in architectural studies is a preprofessional degree preparing candidates for admission to professional architectural programs with advanced standing, as well as for other roles in society—in research, government, development, management, planning, etc. While most of these occupations do not require a professional license, they do require an understanding of and exposure to a professional education.

The curriculum embodies a range of both broad and focused courses that cover the many and various aspects of architecture: design, graphics, structural engineering, building sciences, history, theory, ecology, sociology, psychology, law, and professional practice. The faculty comprises a large and diverse group of teachers, practitioners, scholars, and researchers, who represent a wide spectrum of background, experience, and viewpoints. Thirty-five permanent faculty members are supplemented by dozens of part-time professional practitioners from the region and around the country, as well as by exchange scholars from foreign institutions.

Priorities stressed by the faculty reflect changing notions of architecture. Studios are sequenced, providing greater option or specialization and demanding an increasingly independent attitude at the advanced level. The studio sequence not only helps to clarify the student's experience, but also insures that students get a broad and coherent cross-section of design problems and instructors.

Architectural education at the University of Washington requires a minimum of six years of higher education to attain the first professional degree, Master of Architecture. The curriculum is divided into three two-year segments of course work. The first two-year segment is taken prior to admission to the College of Architecture and Urban Planning. It includes 20 credits of preparatory architectural course work, which must be taken at the UW, in addition to a broad liberal arts foundation in humanities, social sciences, natural sciences (including mathematics), and electives to provide for some free exploration. These liberal arts courses may be taken at the UW or at any other institution, as long as they meet the transfer equivalent standards of the UW.

Upon admission to the College of Architecture and Urban Planning, students may elect a major in architectural studies administered by the Department of Architecture. This second two-year segment, consisting of upper-division courses, offers basic

preprofessional studies in architectural design, theory, and technology, with an appropriate balance of upper-division electives taken within the disciplines of the College and the University. The College of Architecture and Urban Planning awards a Bachelor of Arts with a major in architectural studies upon completion of this second segment.

The professional degree, Master of Architecture, is awarded only upon completion of the third segment. The curriculum of the graduate program is composed of two years of course work emphasizing the development of skills and knowledge required by the practicing architect. Students must also complete a master's thesis, extending over one or more additional quarters, on a research topic or design problem of their choice. Successful completion of this nationally accredited program fulfills the educational requirement to qualify as an applicant for licensing (registration) as an architect. Admission to the professional program requires admission to the Graduate School of the University of Washington.

Undergraduate Program

Bachelor of Arts

The College of Architecture and Urban Planning offers a Bachelor of Arts degree program with a major in architectural studies administered by the Department of Architecture. Building on a firm liberal arts foundation, the undergraduate curriculum provides a broadly based general education with a focus on architecture and the built environment that prepares the student for professional level graduate work in architecture or an allied discipline. In addition, it provides a general education to prepare students for a wide variety of study and career opportunities in business, government, and other professions.

Years 1 and 2 of the curriculum have three basic educational objectives: (1) to increase the student's ability to understand, evaluate, and communicate ideas; (2) to prepare students to make informed decisions regarding their academic and career choices; and (3) to provide a broad academic foundation of principles in subject areas considered essential to subsequent study in architecture.

The objectives of years 3 and 4 are: (1) to provide a firm foundation in the vocabularies, principles, and interrelationships of a broad range of environmental design influences essential to professional work in architecture; and (2) to provide opportunities for students to develop their basic skills, knowledge, perceptions, and insights in areas related to the built environment.

Before applying to the College of Architecture and Urban Planning program (the second two-year segment), students must take 20 credits of preparatory architectural course work at the UW. These courses can be taken through UW Extension prior to gaining admission to the University proper, or can be taken during the sophomore year on campus. Application to the architectural studies major is made at the junior level. After acceptance to the architectural studies major, students must complete 90 additional credits before receiving the Bachelor of Arts degree.

Admission Requirements: Admission for autumn quarter only. Application filed by May 15. Prerequisite courses must be completed by autumn quarter. Admission course prerequisites are: 5 credits English Composition, 20 credits each in Areas of Knowledge, 5 credits of electives for a total of 70 credits. Pre-CAUP to include CAUP 200 (3 credits); ARCH 350, 351, 352 (9 credits); and ARCH 210, 211 (8 credits) for a total of 20 credits.

Graduation Requirements: Satisfactory completion of 180 credits of course work in the following three categories: 70 credits of liberal arts course work, 20 credits of preparatory architectural course work, 69 credits of preprofessional course work, and 21 credits

of approved upper-division electives. The final 45 credits must be completed as a matriculated student in residence at the UW. To be eligible for graduation, students must maintain a minimum 2.50 cumulative GPA for all work done in residence.

Advising: Advising for program premajors is done the Undergraduate Advising Center, 9 Communications, 543-2551. Advising for architectural studies majors is provided by the program faculty adviser in the College of Architecture and Urban Planning, 208 Gould, 543-4217.

Minor

Minor requirements: 25 credits to include a minimum of 20 credits in architecture courses (at least 9 credits at the upper-division level) and 5 additional upper-division credits from courses in the College.

Graduate Program

Master of Architecture

The Master of Architecture degree is the only professional degree offered by the Department of Architecture. Completion of the requirements of this nationally accredited degree program satisfies the usual educational requirement for licensing (registration) as an architect. The program accommodates three groups of undergraduate-degree holders: (1) persons holding a preprofessional four-year degree, such as the College's Bachelor of Arts with a concentration in architectural studies, (2) persons holding an undergraduate degree in a field other than architecture, (3) persons holding a professional degree such as a five-year Bachelor of Architecture. The program varies in duration and specific course work required, depending on the student's prior academic and professional experience and whether the student elects to pursue a Certificate of Achievement in Urban Design or Preservation Planning and Design.

Candidates with a preprofessional four-year degree, such as Bachelor of Arts (in architecture) or the equivalent, usually undertake six full-time quarters of study plus completion of a thesis for the M.Arch. degree. This program typically requires 99 credits of course work, including 36 of design studio, 36 of approved core courses, 9 of thesis, and 18 of electives. Special interests and certificate programs often can be accommodated within the 18 credits of electives and design studio options.

Persons holding degrees in other fields normally undertake three quarters of preparatory course work to develop knowledge and skills equivalent to those of students who enter the program from undergraduate architecture programs. Upon completion of preparatory course work, the students merge with students in the two-year program described above.

Candidates holding an accredited architectural degree, such as the five-year Bachelor of Architecture, may undertake postprofessional study culminating in the Master of Architecture degree. For these candidates the program represents a specialization or in-depth study of a specific area or interest in the field. Each student's program is developed on an individual basis in consultation with faculty advisers. The approved program of study becomes the student's curriculum, which must be completed for award of the degree. Typically this program involves a minimum of 45 credits of required course work, including a thesis, and may be completed in four or five quarters.

Students are admitted to the program in architecture only in autumn quarter. All application materials should be received by the department no later than the preceding January 15. Notices of admission are mailed in early April. The prospective applicant should note that in addition to Graduate Record Examination general test scores, transcripts of previous degree programs and of additional academic study, with a 3.00 grade point requirement, three letters of recommendation, a

statement of intent, and a portfolio of work in some field or aspect of art, craft, or design are required as part of the application. Incomplete applications and those received after January 15, are not considered by the admissions committee.

Graduate students may elect to participate in the College-wide certificate programs in urban design and preservation planning and design. See program descriptions in the preceding College section.

The department offers the Architecture in Rome program at the University of Washington Rome Center. Students may study for one or two quarters in Rome with departmental faculty members and guests. Other programs include study in Mexico, Italian Hill Towns, and numerous exchanges including Scandinavia, England, Germany, Hong Kong, Bogota, Japan, and Australia.

Financial Aid

Each spring quarter, the department awards scholarships and assistantships that apply to the following academic year. These are more typically available to students already enrolled in the program in architecture at the time of the awarding, although some financial aid is offered to newly entering students. Other financial aid and assistantship possibilities may be found through the Graduate School Fellowship Division and the Office of Student Financial Aid in Schmitz Hall.

Chair

Douglas Zuberbuhler

Professors

Bonsteel, David * 1963, (Emeritus); MArch, 1964, University of Washington; design process, computer applications, research.

Bosworth, Thomas L. * 1968; MA, 1954, Oberlin College; MArch, 1960, Yale University; design process, history, professional practice.

Ching, Francis D. K. 1985; BArch, 1966, University of Notre Dame; design graphics.

Clausen, Meredith L. * 1979; PhD, 1975, University of California (Berkeley); aesthetics and twentieth-century architecture.

Dietz, Robert H. * 1947, (Emeritus); MArch, 1944, Massachusetts Institute of Technology; design, housing.

Emery, Ashley F. * 1961, (Adjunct); MS, 1958, PhD, 1961, University of California (Berkeley); bioengineering, energy conservation in buildings and air conditioning.

Finrow, Gunilla Kristina 1995; MArch, 1967, University of California (Berkeley); architecture, interior architecture.

Finrow, Jerry V. * 1995; MArch, 1968, University of California (Berkeley); housing architecture.

Grey, Arthur L. * 1963, (Emeritus); PhD, 1954, University of California (Berkeley).

Hildebrand, Grant * 1948; MArch, 1964, University of Michigan; history, preservation design.

Jacobson, Phillip L. * 1962, (Emeritus); MArch, 1969, Finnish Institute of Technology; design, professional practice.

Johnston, Norman J. * 1960, (Emeritus); PhD, 1964, University of Pennsylvania; urban design, history.

Kelbaugh, Douglas S. * 1985; MArch, 1972, Princeton University; design, energy conservation, professional practice, theory.

Kiyak, H. Asuman * 1972, (Adjunct); MA, 1974, PhD, 1977, Wayne State University; geriatric dentistry, behavioral aspects of health care.

Kolb, Keith R. * 1952, (Emeritus); MArch, 1950, Harvard University; design, professional practice.

Lovett, Wendell H. * 1948, (Emeritus); MArch, 1948, Massachusetts Institute of Technology; architecture.

Nyberg, Folke E. * 1969; MArch, 1960, Yale University; theory, urban design, professional practice.

Pundt, Hermann G. * 1968; PhD, 1969, Harvard University; history, historical preservation.

Pyatok, Michael * 1990; MArch, 1967, Harvard University; design of affordable housing for lower income communities - urban and suburban regions.

Schneider, Raymond C. * 1964, (Emeritus); EdD, 1955, Stanford University; educational facilities design.

Seligmann, Claus * 1964; Diprch, 1950, London Polytechnic (UK); design, design process, theory.

Small, Robert * 1965, (Emeritus); MArch, 1955, University of Oregon; design, community practice, barrier-free design, housing, site planning, design process.

Staub, Christian 1967, (Emeritus); Certificate, 1944, Swiss Institute for Industrial Design, Arts & Crafts; photography.

Streatfield, David C. * 1974, (Adjunct); MLA, 1965, University of Pennsylvania; regional landscape planning; landscape, architectural and environmental history.

Streissguth, Daniel M. * 1955, (Emeritus); MArch, 1949, Massachusetts Institute of Technology; design process.

Thiel, Philip * 1961, (Emeritus); MS, 1948, University of Michigan; visual design, design process, person-environment relations, experiential notation.

Vernez Moudon, Anne * 1980; DSc, 1987, Ecole Polytechnique Federale de Lausanne (Switzerland); urban design, city form and neighborhood studies, design research.

Zarina, Astra * 1970; MArch, 1955, University of Massachusetts; design, foreign studies.

Associate Professors

Albrecht, Robert G. * 1960; MSCE, 1960, University of Massachusetts; structures.

Bentli, Kwaku K. * 1991, (Adjunct); PhD, 1990, University of Florida; project management, safety, robotics, affordable housing, construction site waste and recycling.

Curtis, J. William * 1962, (Emeritus); MA, 1969, University of Washington; design process, professional studies.

Deines, Katrina * 1985; MA, 1975, University of Minnesota; MArch, 1979, University of Washington; design theory and foreign studies, history.

Donnette, James J. * 1966; MArch, 1969, University of Washington; graphics, design.

Dubrow, Gail Lee * 1989, (Adjunct); MA, 1979, University of Oregon; PhD, 1991, University of California (Los Angeles).

Goldblatt, Steven M. 1982, (Adjunct); JD, 1977, Golden Gate University; construction accounting, labor relations, and construction law.

Heerwagen, Dean Reese * 1975; MS, 1967, University of Massachusetts; environmental controls (passive and active).

Hill, Warren * 1959, (Emeritus); MA, 1961, New York University; interior design, design, history.

Kasprisin, Ronald J. * 1989, (Adjunct); MUP, 1968, University of Washington; community design studios, town planning, planning/design communications, urban design principles.

La Tourelle, Elaine Day * 1975; MArch, 1964, Yale University; design, professional practice.

Lebert, Edgar A. 1965; MS, 1967, University of Washington; structures.

Loveland, Joel E. * 1986; MArch, 1980, University of California (Los Angeles); energy conservation, design, research.

Miller, David E. * 1989; MArch, 1972, University of Illinois; design development, design.

Millet, Marietta * 1976; MArch, 1972, Massachusetts Institute of Technology; illumination, environmental controls.

Minah, Galen F. * 1970; MArch, 1968, University of Pennsylvania; design process, design, professional practice.

Mohler, Richard Ernest J. * 1986; MArch, 1984, University of Pennsylvania; architecture and community, design of housing and urban public open space.

Norton, Thomas J. * 1968, (Emeritus); MUP, 1960, University of Washington; urban community facilities, planning administration.

Ochsner, Jeffrey K. * 1987; MArch, 1976, Rice University; history, preservation design, urban design.

Rohrer, John * 1948, (Emeritus); BArch, 1937, University of Washington; graphics, design.

Rolfe, George R. * 1984, (Adjunct); MArch, 1968, MCP, 1968, University of Pennsylvania; urban development process, finance, feasibility and market analysis, urban design processes.

Rosner, Arnold S. * 1966, (Emeritus); MSCE, 1949, California Institute of Technology; design process, building technology, computers.

Ryan, Dennis M. * 1974; PhD, 1976, University of Pennsylvania; community planning, design, and identity; public processes; urban design, change, and continuity.

Sasanoff, Robert * 1963; MCP, 1968, University of California (Berkeley); design process, person-environment relations.

Assistant Professors

Heerwagen, Judith * 1981, (Research); PhD, 1982, University of Washington; behavioral ecology.

Palleroni, Sergio A. * 1992; MS, 1987, Massachusetts Institute of Technology; the relationship between cultures, their histories, and the production of architecture.

Senior Lecturers

Onouye, Barry S. * 1967; MSCE, 1969, University of Washington; integration of structural technology into architectural design education.

Vanags, Andris 1969; BFA, 1968, University of Washington; building science, design.

Zuberbuhler, Douglas * 1967; MArch, 1968, University of Washington; graphics, design, building technology.

Lecturers

Dee, Jennifer 1982; MArch, 1984, University of Washington; theory, design.

Johnson, Brian Robert 1978; MArch, 1981, University of Washington; computer applications.

Lawrence, J. Gary 1994; MPA, 1976, University of Georgia.

Nicholls, James Keith 1995; BArch, 1986, University of British Columbia (Canada); design, industrial design, construction technology.

Courses for Undergraduates

ARCH 150, 151 Appreciation of Architecture I, II (2/3, 2/3) VLPA *Bosworth, Deines* Historical survey of the architecture of Western civilization. For nonmajors.

ARCH 200 Introduction to Environmental Design and Planning (3) VLPA/I&S Lectures, demonstrations introducing basic curricular elements. Development of basic skills in methods and graphic expression of design and planning process-analysis, synthesis, evaluation in building technology; simulation, modeling; person-environment relations; history; theory; policy; professional roles. Prerequisites: ENV S 203 and 205 or permission of program director.

ARCH 210 Design Drawing I (4) VLPA *Ching* Projects, lectures, demonstrations, and exercises to develop skill in freehand drawing and an understanding of drawing as a vital means to see, analyze, and represent essential aspects of the visual environment.

ARCH 211 Design Drawing II (4) VLPA *Ching* Projects, lectures, demonstrations, and exercises to introduce the language of architectural drawing, with emphasis on freehand drawing as the primary means to imagine, explore, and develop design ideas.

ARCH 250 American Architecture and Urban Environments (2) VLPA *Pundt* Study and critical investigation of architecture and the problems of urban design in North America from colonial times to the present. For nonmajors.

ARCH 300, 301, 302 Introduction to Architectural Design I, II, III (6, 6, 6) Studio problems to develop awareness, knowledge, and basic skills needed in the synthesis of building form. Concurrent registration in 315 required for 300. Prerequisite: architecture major.

ARCH 303-304-305 Introduction to Design Studio I, II, III (6-6-6) Studio problems to develop initial awareness, knowledge, and basic skills needed in synthesis of building form and integrative aspects of architectural design with emphasis on the dwelling place. Limited to students entering the graduate program in architecture with baccalaureate degrees in other fields. Prerequisite: first-year student standing in three-year Master of Architecture program.

ARCH 310, 311, 312 Architectural Design Drawing I, II, III (3, 3, 3) Lectures, demonstrations, and exercises to develop skill in graphic visualization and representation as used in architecture. Concepts, conventions, and techniques of both freehand and technical drawing are used as a vital means to imagine, develop, and represent design ideas. Course material coordinated with 303, 304, 305 studios to integrate drawing in all phases of the design process. Prerequisite: first-year student standing in three-year Master of Architecture program.

ARCH 313 Introduction to Architectural Photography (3) VLPA Basic elements and processes of architectural photography to include camera controls, exposure technique, photo processing, and fundamental principles of photographing architecture. Student must provide own 35 mm (or larger) camera with manual operating controls.

ARCH 314 Introduction to Architectural Drawing (2) Skill development in conceptualization of forms and their relationships through observation and recording in freehand graphic manner. Proportion, scales, light effect, value, texture, and various perspective techniques.

ARCH 315 Design Drawing III (2) Projects, lectures, demonstrations, and exercises coordinated with studio projects to integrate drawing in all phases of the design process. Lessons in diagramming of design concepts and planning and presenting design solutions. Concurrent registration in 300 required. Prerequisites: 211.

ARCH 320 Introduction to Structures I (3) *Lebert, Onouye* Statics and strength of materials.

ARCH 321 Introduction to Structures II (3) Design of structural elements in timber and steel.

ARCH 322 Introduction to Structures III (3) Building framing systems; wind and seismic loads, long-span structures.

ARCH 331 Environmental Control Systems (3) NW *Heerwagen, Loveland* Description of thermal comfort needs and the means by which buildings can be designed to satisfy those needs. Consideration of how climate determines building forms, site analysis and planning vis-a-vis the local climate, basic heat transfer mechanisms, and design strategies for overcoming heat loss through the building envelope.

ARCH 332 Construction Materials and Assemblies I (3) Lectures and readings pertaining to a survey of residential and light-commercial construction materials, assemblies, and techniques of assembly.

ARCH 340 People-Environment Interactions (3) I&S Lecture and discussion on the dynamics of people-environment interactions. A spectrum of environmental scales and cultural contexts addressed. Builds on the theoretical and empirical work in the field and relates to studio design work in 303.

ARCH 350 Architecture of the Ancient World (3) VLPA *Bosworth* Architectural history in the Western world from beginnings to AD 550.

ARCH 351 Romanesque, Gothic, and Renaissance Architecture (3) VLPA *Hildebrand* Architectural history in the Western world from AD 550 to 1750.

ARCH 352 History of Modern Architecture (3) VLPA *Ochsner* Architectural history in the Western world from 1750 to the present.

ARCH 360 Introduction to Architectural Theory (3) VLPA/I&S Function of architectural theory in comprehending and ordering various human purposes in architecture, types of architectural purpose, and types of theories. Current concerns.

ARCH 370 Computers in Architecture (3) Laboratories, lecture, and demonstrations to introduce computing in environmental design and planning. Prerequisite: ENV S 203 and 205 or permission of program director.

ARCH 400, 401 Architectural Design IV, V (6, 6) Offers studio problems in non-residential building design to advance student's understanding of the ideas and technologies of architecture. Prerequisite: 302.

ARCH 402 Architectural Design VI (6) Selection of studio sections that introduce advanced architectural design theories and methods. Focus and format vary. Prerequisite: 401.

ARCH 403 Architectural Problems (6)

ARCH 411 Computer Graphics Applications (3) *Johnson* Lectures and weekly exercises focus on understanding and applying the underlying principles of 3D computer graphics and rendering software. Topics include user-interface, data creation and modeling, lighting models, smoothing, texture mapping, ray tracing, radiosity, animation, and solid modeling. Prerequisite: 370 or permission of instructor.

ARCH 412 Architectural Illustration and Presentation (3) Issues, conventions, and techniques used in architectural renderings, including line drawings, shaded drawings, use of color, composition, organization, advanced perspective, scale figures, entourage, reflections, and media. Prerequisite: 311.

ARCH 413 Architectural Photography Projects (3) Students develop in-depth photo essays relating to architecture, the urban movement, or landscape design following the principles introduced in ARCH 313. Lectures, seminar, and discussion. Prerequisite: 313.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

ARCH 415 Architectural Sketching (3) Exercises in freehand representational drawing using charcoal, graphite, and conte crayon with emphasis on line, proportion, values, and composition. Studies progress from geometric to nongeometric forms.

ARCH 418 Watercolor Drawing (3) Introduction to the principles and practice of using transparent watercolor for the naturalistic representation of objects, people, and interior and exterior space.

ARCH 420 Structural Design I (4) Reinforced concrete fundamentals. Prerequisite: 322.

ARCH 421 Structural Design II (4) Design of steel structures.

ARCH 422 Structural Design III (4) Design of reinforced concrete structures.

ARCH 426 Structural Unit Masonry (3) *Lebert* Structural behavior and design of reinforced brick, tile, and unit masonry structures. Offered: jointly with CIVE 455.

ARCH 430 Materials and Processes (3) *Vanags* Lectures, field trips, and laboratory sessions directed toward the nature, potentials, and limitations of a variety of materials (wood, metal, plastics, inorganic cementing materials, minerals, rocks, and clay) and the processes involved with their production, fabrication, and system compatibility.

ARCH 432 Construction Materials and Assemblies II (3) *Schneider* Lectures and readings pertaining to a survey of materials, assemblies, and techniques of assembly of concrete and steel frame, commercial exterior envelope, and interior partitioning building construction systems. Prerequisite: 332.

ARCH 433 Active Control Systems for Building Operation (3) *NW Heerwagen* Electrical, mechanical (HVAC), plumbing, and fire safety systems for buildings. Descriptions of what these systems do, where they are used, how they are integrated into the overall building design; rules of thumb, design strategies, and short cuts for anticipating system design and use. Prerequisite: 331.

ARCH 434 Color and Light (3) *Millet* Lectures, demonstrations, exercises, and projects focusing on the use of color applied to the three-dimensional architectural context. Color theory is explored with the multiple effects of changing light.

ARCH 435 Principles and Practices of Environmental Lighting (3) *Millet* Perception-based approach to principles of natural and artificial lighting. Practical considerations of lighting involving environmental evaluations, calculations and the use of lamps and fixtures. Sketch and model studies for applications. Impact of lighting design on energy conservation. Relation of lighting design process to architectural design concepts. Prerequisite: 331.

ARCH 436 Building Acoustics (3) *NW Heerwagen* Description of principles and practices for manipulating and enhancing sound in buildings. Information about sound behavior and the organization of architectural elements (deployment of design features, including various geometries and materials) for the control of sound in enclosed spaces and between adjacent spaces.

ARCH 437 Passive Thermal Controls (3) *NW Heerwagen* Devices for achieving energy-efficient buildings, analytic methods for evaluating likely thermal performances of buildings and building envelopes, resistance and capacitance of building materials, air flow through and around buildings, energy codes and industry standards, and strategies for integrating analytic techniques and guidelines into the architectural design process. Prerequisite: 331.

ARCH 439 Light Frame Building Assemblies (3) *Vanags* Fundamentals of light-frame construction from soils examination, foundation systems to framing

systems, and the integration of electrical, plumbing, and heating/cooling into the structure. Prerequisite: College of Architecture and Urban Planning major or permission of instructor.

ARCH 447 Physical Structure and Human Interaction (3) *I&S Kiyak* Effect of physical structure on human interaction.

ARCH 451 Traditional Chinese Architecture (3) *VLPA/I&S* Introduction to Chinese architecture (palaces, homes, temples, tombs), urban planning, and gardens; each area examined in terms of techniques of production, visual styles, historical development, and relationship to traditional Chinese cultural values. Offered: jointly with ART H 411.

ARCH 452 Characteristics of Puget Sound Architecture and Towns (3) *I&S Hildebrand* Puget Sound architectural and town environment in terms of its historical development, but specifically including recent and pending changes affecting this environment in significant ways.

ARCH 453 Japanese Architecture (3) *VLPA* Survey of Japanese architecture from its origins to modern times. Although Shinto architecture, tea houses, gardens, and modern developments are discussed, the primary focus is on the development of Japanese Buddhist architecture. Offered: jointly with ART H 419.

ARCH 454 Greek Architecture (3) *VLPA Langdon* Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with ART H and CL AR 446.

ARCH 455 Special Studies in Gothic Art and Architecture (3) *VLPA Hildebrand* Detailed study of Gothic architecture and its accompanying sculpture and stained glass, with special emphasis on the twelfth and thirteenth centuries in France and England. Offered: jointly with ART H 455.

ARCH 456 Nineteenth-Century Architecture (3) *VLPA* From late eighteenth-century French rationalists, Neoclassicists, to fin de siècle Vienna and Paris. Includes theorists such as Ruskin, Viollet-le-Duc, and Semper; major movements, such as the Arts & Crafts, and the French Ecole des Beaux-Arts method of design. Prerequisite: some background in architectural history. Offered jointly with ART H 490.

ARCH 457 Twentieth-Century Architecture (3) *VLPA* Architecture in the twentieth-century, mainly in Europe and the United States. Traces roots of Modernism in Europe in the 1920's, its demise (largely in the United States) in the 1960's and recent trends such as Post-Modernism and Deconstructivism. Prerequisite: some background in architectural history. Offered jointly with ART H 491.

ARCH 459 Architecture Since 1945 (3) *VLPA* Theories and forms in architecture from the end of World War II to present. Includes new wave Japanese architects, recent Native American developments, and non-Western as well as Western trends. Prerequisite: some background in architectural history. Offered: jointly with ART H 493.

ARCH 460 Design Theory and Analysis (3) *VLPA/I&S Dee, Minah, Seligmann* Problematical nature of philosophies of architecture; interaction of philosophical concepts and architectural form and expression. Fundamentals of architectural criticism.

ARCH 461 Recent Developments in Architectural Theory (3) *VLPA/I&S* Concentrates particularly on developments that spring from recent work in the epistemology of science and in philosophy.

ARCH 476 Design and the Uniform Building Code (3) Lectures, case studies, and exercises to provide a detailed review of non-structural sections of the Uniform Building Code (UBC) including designer responsibility, code background, purpose, and requirements

based on occupancy, construction type, and building design features.

ARCH 478 Architectural Computer Aided Design Systems (4) *Johnson* Lectures and exercises in use of two-dimensional CAD as a tool to create working drawings (WD). CAD topics include data, accuracy, layering, symbols, 3D, customization, data exchange. WD topics include set organization, plans, building sections, elevation, wall sections, schedule, detail. Prerequisites: 370 or permission of instructor.

ARCH 488 American Architecture (3) *VLPA Clausen* American architecture from indigenous native American traditions to the present. Prerequisite: some background in architectural history. Offered: jointly with ART H 488.

ARCH 493 Rome Preparation Seminar (2) Seminar dealing with history, culture, topography, and customs of Rome, Italy. Required for students enrolling in 495, 496, or 497.

ARCH 495 Architectural Studies Abroad (9) Urban history and development of the city of Rome through first-hand studies of its topography and morphology. City's more recent quarters become subject of group research relative to problems and potentials of growth and future development. Students may be registered concurrently in an appropriate studio section. Prerequisite: 493.

ARCH 496 Architectural Studies Abroad (9) Studio-oriented projects and application of experience gained during preceding program. Seminars held in collaboration with Italian students, professionals, and educators. Prerequisite: 495.

ARCH 497 Italian Hilltowns (9) *I&S Zarina* Introduction to origins and development of built forms prevalent in the hilltowns of central Italy, a comparative analysis of domestic architecture in the agricultural context of the confluence zone of Tuscany, Umbria, and Latium and a historical survey of fortresses, castles, palaces, villas, and gardens of upper Latium. Prerequisite: 493.

ARCH 498 Special Projects (1-12) Instructor-initiated and department-approved systematic study and offering of specialized subject matter. Topics vary and are announced in preceding quarter.

ARCH 499 Undergraduate Research (1-6)

Courses for Graduates Only

ARCH 500-501-502 Architectural Design Studio (6-6-6) Architectural design, with emphasis on development of professional skills in design synthesis. Specific focus on preservation design (500), urban design (501), and design development (502). Majors only.

ARCH 503-504-505 Architectural Design Studio Options (6-6-6) Advanced architectural studios in general architectural design, in special projects examining particular architectural determinants, and in architectural research. Focus and format vary with instructor. Prerequisite: 502.

ARCH 506 Advanced Architectural Studies (6) Advanced experimental studies dealing with significant architectural relationships that involve scholarly investigation, development, and presentation of results.

ARCH 520 Advanced Wood Structures Design (3) *Aibrecht* Design methods related to wood structures. Nature of wood as a building material, plywood, glued laminated wood structures, timber piles and pile foundations, pole buildings, and conventional wood building framing.

ARCH 529 Seminar in American Architecture (6) *Clausen* Topics vary. Offered: jointly with ART H 592.

ARCH 535 Graduate Seminar, Study Topics in Environmental Lighting (3) *Millet* Focus on individual

student projects involving research and design for lighting.

ARCH 540 Evolution and Aesthetics (2) *Hildebrand* Exploration of new views toward the theory and philosophy of architectural aesthetics in which responses are seen as driven, in part, by predilections contributive to biological survival and evolution.

ARCH 551 Scandinavian Architecture of the Nineteenth and Twentieth Centuries (3) *Nyberg* Introduction to the contribution of Scandinavian architecture to early functionalism with emphasis on its relationship to neoclassicism and vernacular architecture.

ARCH 553 Special Studies in Architecture in the Ancient World (3) *Bosworth* Study and critical analysis of a selected topic from classical or preclassical periods. Prerequisite: 350.

ARCH 554 Special Studies in Modern Architecture (3) *Pundt* Study and critical analysis of a selected number of distinguished professionals (architects, planners, educators, critics) and their contributions to the evolution of modern and contemporary architectural practice and thought.

ARCH 556 History of Chicago School Architecture (3) *Pundt* Study and critical investigation of the contribution of major architects in Chicago, the Midwest, and the West Coast from circa 1870 to 1920.

ARCH 557 Neoclassicism and Romanticism in Europe and America (3) *Pundt* Study and critical investigation of European and American architecture and urban design from 1750 to 1850.

ARCH 558 Seminar in Twentieth-Century Architecture (3/5) *Clausen* Specific focus changes from quarter to quarter. Prerequisite: graduate standing with background in architecture, architectural history, or permission of instructor. Offered: jointly with ART H 591.

ARCH 559 American Utilitarian Architecture (3) *Hildebrand* Significant American environmental design efforts arising from utilitarian needs, e.g., factories, bridges, skyscrapers, and associated technical building innovations.

ARCH 560 Graduate Seminar on Architectural Theories (3) *Dee, Nyberg, Seligmann* Recent developments in architectural theory, urban design theory, criticism, and the methodology of criticism.

ARCH 561 Urban Design Theory (3) Study of development of nineteenth- and twentieth-century urban design theories and parallel developments in architecture and urban planning. Theoretical premises are related to current practices of urban design in various sociopolitical contexts, European as well as American. Evolutionary nature of theory emphasized. Prerequisite: URBDP 479 or permission of instructor.

ARCH 562 Regionalism (3) *Nyberg* Exploration of design ideas that address the cultivation of regional character by acknowledging the commonplace, including both the landscape and its buildings. The many disruptive forces that threaten the possibilities of local culture are also considered from a political, social, and economic point of view.

ARCH 570 Design Development (3) *Miller* Lectures and case studies emphasizing the design development phase of architectural practice.

ARCH 571 Project Feasibility (3) *Wright* Social, political, and economic factors affecting the location, design, financing, construction, and marketing of buildings.

ARCH 572 Specifications and Contracts (3) *Brown* Detailed organization and composition of contracts, specifications, and related contract documents.

ARCH 573 Professional Practice (3) *Fees* Operation of an architectural office and professional practice.

ARCH 574 Law for Architects and Engineers (3) *Goldblatt* Legal issues facing architects and engineers, focusing on liability avoidance. Topical areas include basic doctrines, the design professional/client relationship, the construction process, and professional practice problems.

ARCH 581 Historic Preservation of Architecture, USA (3) *Pundt* American achievements in historic preservation and restoration of architecture. Prerequisite: specialization in preservation design or permission of instructor.

ARCH 582 Technical Issues in Preservation Design (3) *Sivinski* Issues, practices, and procedures involved in preservation and reuse of old and historic buildings. Technical and esthetic means by which practicing professionals approach the analysis, interpretation, and resolution of problems such work raises. Emphasis on recent and local projects and related experiences.

ARCH 583 History of Historic Preservation in Europe (3) *Pundt* European achievements in historic preservation and restoration of architecture. Prerequisite: specialization in preservation design or permission of instructor.

ARCH 590 Urban Issues in Design (3) Theory and practice of urban design, primarily in North American settings. Lecture and readings in recent design theory and case studies of recent urban projects at a variety of scales.

ARCH 593 Residential Design: Methods and Practices (3) Review of approaches to housing people in growing metropolises and cities, nineteenth century to present. Emphasis on Western Europe, North and South America. Focus on selected contemporary issues in neighborhood and dwelling design, methods, and practices. Offered: jointly with URBDP 574.

ARCH 596 Fieldwork in Professional Practice (* max. 9) On-location study under the supervision of a practicing professional involved in an aspect of environmental design. Credit/no credit only.

ARCH 598 Special Topics for Graduate Students (1-6) Systematic study and offering of specialized subject matter. Topics vary and are announced in the preceding quarter. May be repeated for credit.

ARCH 600 Independent Study or Research (*) Credit/no credit only.

ARCH 700 Masters Thesis (*) Credit/no credit only.

Building Construction

116 Architecture

The construction industry requires highly qualified professionals to manage its increasingly complex technical and management operations. The Department of Building Construction offers high quality education and training to meet this demand. The interdisciplinary curriculums contain a mix of technical, managerial, and business courses to provide graduates with the essential skills needed to be successful in the construction industry. Oral and written communication skills are strengthened through written requirements and student presentations.

Building Construction is one of four departments within the College of Architecture and Urban Planning. The department was originally established as a Building Technology and Administration program in 1964; it began offering a Bachelor of Science in Building Construction degree in 1968 and a Master of Science in

Construction Management degree in 1994. The mission of the Department of Building Construction is to offer a high quality education in building construction and to conduct construction-related research.

The major objectives of the department's educational programs are:

1. Provide a valuable education that can prepare individuals to assume technical and management level positions in the construction industry.
2. Serve society and the construction industry by graduating students who can obtain employment in the construction or related industries.
3. Provide a learning environment where students can acquire the technical skills and knowledge necessary for solving practical construction problems and managing the construction process.
4. Remain in full accreditation status by the American Council for Construction Education.
5. Ensure that the construction and related industries who employ graduates of the programs are satisfied with their performance.

Emphasis is on course work that enables graduates to develop: (1) technical skills necessary to define and solve practical construction problems; (2) self-discipline, analytical and reasoning skills; (3) managerial skills necessary to make and implement sound and timely decisions in a prudent and professional manner; (4) broader perspectives of the humanities and social and natural sciences; and (5) the ability to effectively communicate verbally and in writing.

Graduates of the programs can find entry-level management or supervisory positions throughout the country with private construction firms (general and specialty contractors), public agencies, or can establish their own firms after acquiring the appropriate expertise in industry.

The department's faculty consists of a mix of permanent full-time professors and part-time lecturers. The full-time faculty members have prior construction industry experience. The part-time lecturers are mostly industry practitioners and include general contractors, specialty contractors, architects, engineers, attorneys, and others.

Undergraduate Program

Bachelor of Science in Building Construction

The undergraduate program in building construction provides the knowledge and skills to prepare graduates for entry-level supervisory or managerial positions in the construction industry. When course work is combined with work experience, graduates find employment as construction estimators, superintendents, project managers, construction managers, or in founding their own firms.

Because the number of applicants is large and the department's resources are limited, the process of admission is very selective. Admission decisions are based on an applicant's academic performance and potential, extent and quality of relevant experience, apparent aptitude, and personal motivation.

The core curriculum is concentrated in the upper division during a typical student's junior and senior years. The first two years can be completed at the UW (or other four-year institutions) as a premajor in the College of Arts and Sciences or at a community college.

Admission Requirements: Applicants must contact the department to obtain its individual application form and prospectus, which contain details of requirements for admission. Closing date for receipt of applications by the department is April 1; however, the UW admissions

application form and its accompanying material must be filed separately at the Office of Admissions much earlier than the department's closing date. Selection for acceptance into the program, which begins autumn quarter, is made each year by early May, and all applicants are notified of the admissions committee's decision shortly thereafter. Because each application is valid only once, a student whose application for admission is denied must reapply if consideration is desired in any subsequent year. Preference is given to those applicants who have successfully completed the lower-division requirements (prerequisites), and who are, in the judgment of the department, best qualified and prepared to undertake its curriculum. The department strongly urges ethnic minorities and women to apply for admission.

In order to meet the lower division requirements, the program requires the satisfactory completion of a minimum of 90 credits of course work in the following categories (courses should be completed by prospective applicants prior to applying for admission to the department, and must be completed by the beginning of the autumn quarter to be eligible for admission): *Construction Sciences*: F E 340 (4 credits); ENGR 123 (4); *Business and Management*: ACCTG 210 (3); ACCTG 220 (3); O E 200 (5); *Individuals and Societies* (I & S): ECON 100, 200, or 201 (5); 6 additional I & S credits (from UW Areas of Knowledge list). *Natural World (NW)*: PHYS 114, 117 (5); PHYS 115, 118 (5); MATH 111 or 120 (5); MATH 112 or 124 (5); GEOL 101 (5); QMETH 201 (4); 5 additional NW credits (chemistry recommended). *Language Skills*: ENGL 111, 131, 197, 198, 199, or 251 (10); *Visual Literary & Performing Arts (VLPA)*: SP CMU 220 (5); 6 additional VLPA credits (from UW Areas of Knowledge list). *Computer Skills*: Introduction to Microcomputers course which must be taken at a community college (5 credits).

Graduation Requirements: The Bachelor of Science in Building Construction degree program requires completion of the four-year curriculum with (1) a minimum of 181 approved credits including 15 credits of upper-division business courses, (2) a minimum 2.50 cumulative GPA in required upper-division core courses, and (3) a minimum 2.30 cumulative GPA in a student's final six quarters. The last 45 credits must be earned as a matriculated student in residence at the UW. Consult the departmental prospectus for details.

Internship: An internship is required for completion of the degree program. Every student is encouraged to seek summer employment in the construction industry. The main objective is to provide students with a taste of "real-world" experience by giving them the opportunity to work at a construction site or in a construction firm's office, and exposing them to as many facets of the construction process as possible. Monetary compensation, if any, is negotiated between the student and the employer. While the department makes every effort (through a selection and interview process) to place students in a number of unfilled positions usually offered by participating firms, most students seek internships on their own initiative during the winter and spring quarters of their junior year. Students participating in the summer internship program register for B CON 412 for the following autumn quarter and acquire three upper-division credits upon completion of the summer internship, submission of a required written report, attendance in class during autumn quarter, and an oral class presentation.

Dual-Degree Program: The Department of Building Construction, in conjunction with the Department of Architecture, offers a five-year dual-degree program to provide students education in both the design and construction disciplines. Students must consult an adviser and concurrently apply to both the Departments of Architecture and Building Construction at the end of their second year of study to gain entry into the program. The five-year curriculum is a blending of the Architecture and Building Construction programs. Graduates of the dual-degree program receive both a Bachelor of Science in Building Construction degree and a Bachelor of Arts degree in Architectural Studies.

Students interested in the dual-degree program are encouraged to consult undergraduate advisers in both departments.

Graduate Program

Master of Science in Construction Management

The Evening Master of Science in Construction Management degree program makes high-quality graduate education accessible to working professionals. All graduate courses are offered during the evening to accommodate people who work during the day. The curriculum was developed with industry input to provide graduates with the skills desired by the construction industry. The graduate curriculum has been structured to build upon the educational foundation gained in an undergraduate building construction or construction management curriculum. Students with different educational backgrounds will need to take prerequisite courses, as discussed later. Admission is competitive, and students are admitted in autumn, winter, and spring quarters. Applications must be submitted by July 1 for autumn quarter, November 1 for winter quarter, and February 1 for spring quarter.

Admission Requirements: Admission to the Graduate School is granted by the Dean of the Graduate School. Application for admission is made to the Office of Graduate Admissions. The prospective student must hold a baccalaureate degree from an accredited college or university in the United States or its equivalent from a foreign institution. The applicant must submit a completed UW graduate application form and official transcripts from all previously attended colleges, universities, and institutes. A prospective student must present recent scores (within the past five years) from the Graduate Record Examination (GRE) that indicates a potential for successful completion of a Master of Science in Construction Management degree. The applicant should have at least a 3.00 GPA in the last 90 graded quarter hours, or last 60 graded semester hours. International applicants should refer to the Graduate School section of this catalog for English language testing requirements. In addition, the Department of Building Construction requires a statement of personal goals and three letters of reference. All applications are reviewed by the department's Graduate Admissions Committee who make a recommendation regarding each applicant to the Dean of the Graduate School.

Prerequisite Requirements: All students admitted to the program who do not possess an undergraduate degree in building construction or construction management must complete the following prerequisite courses prior to admission into the graduate program or during their graduate studies: B CON 333, 410, 411, 421, 422. All these prerequisite courses are offered during the day on a space-available basis with undergraduate students, or during the evening in the Construction Management Certificate Program offered by UW Extension. Three of the 400-level prerequisites may be counted toward elective requirements, if the student has been admitted to the graduate program prior to taking the prerequisites.

All students who do not have undergraduate degrees in building construction, construction management, engineering, or architecture must take the following prerequisites in addition to those previously listed: ARCH 320, 321, 322; B CON 310, 313, 320, 321, 322, 323, 331, 332. Most of these prerequisites must be completed prior to admission into the graduate program.

Prerequisite courses may be validated if similar courses are reflected on the student's undergraduate transcript or if the student desires to take a validation examination. Students desiring to take a validation examination should contact the department's Graduate Program Coordinator.

Graduation Requirements: The Master of Science in Construction Management degree program requires completion of a minimum of 45 credits of course work with at least a 3.00 cumulative GPA and satisfactory completion of either a thesis or report/project. A maximum of 6 credits may be earned for a report/project, and a maximum of 9 credits may be earned for a thesis.

Financial Aid

The department has information regarding undergraduate scholarships available for juniors enrolled in the Building Construction program. Some scholarships are administered by the department, while others are administered by professional organizations and private firms in the construction industry.

Computer Facilities

The department uses a state-of-the-art computer laboratory that is located on the second floor of Gould Hall. This laboratory contains 26 networked IBM-compatible computers that contain current construction management software. Students are encouraged to use the facility to supplement their classroom instruction.

Correspondence and Information

Faculty

Chair

Kweku K. Bentil

Professor

Hinze, Jimmie W. * 1984, (Adjunct); PhD, 1976, Stanford University; construction engineering and management.

Associate Professors

Bentil, Kweku K. * 1991; PhD, 1990, University of Florida; project management, safety, robotics, affordable housing, construction site waste and recycling.

Donnette, James J. * 1966; MArch, 1969, University of Washington; graphics, design.

Goldblatt, Steven M. 1982; JD, 1977, Golden Gate University; construction accounting, labor relations, and construction law.

Rolle, George R. * 1984; MArch, 1968, MCP, 1968, University of Pennsylvania; urban development process, finance, feasibility and market analysis, urban design processes.

Torrence, Gerard R. 1954, (Emeritus); MS, 1950, Massachusetts Institute of Technology; structures.

Assistant Professors

Fredley, John P. 1992; MSBC, 1992, University of Florida; computer applications, estimating, scheduling, construction methods.

Pace, Clark B. 1994, (Acting); MS, 1989, Colorado State University; MEng, 1991, University of California (Berkeley); productivity improvement, innovative affordable housing, process of new technology development.

Riley, David R. 1995; PhD, 1994, Pennsylvania State University; planning and managing space for construction work, digital image databases, multimedia teaching aids.

Schaufelberger, John E. 1994; MSCE, 1970, PhD, 1971, University of Illinois; construction practices, international project management, contract procurement and administration.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

B CON 310 Introduction to the Construction Industry (3) *Bentil* Introduction to the construction process, including general overview of organization, relationships, practices, terminology, project types, procurement methods, industry standards, contract documents, and career opportunities. Open to nonmajors on space-available basis. Offered: AS

B CON 312 Construction Accounting (3) *Goldblatt* Introduction to accounting for the contractor, placing emphasis on the analysis and use of financial statements and a job cost accounting system. Open to nonmajors on space-available basis. Offered: A.

B CON 313 Construction Methods and Materials I (4) *Riley* Review of basic building materials, with emphasis on techniques for assembly and utilization in residential and light construction, including materials such as concrete, brick, and wood. Offered: AS.

B CON 320 Construction Contract Documents (3) *Vrable* Introduction to working drawings, specifications, and other documents designed to enable the student to read and interpret complete set of contract documents for residential and light commercial projects. Emphasis on the organization and uses of architectural/engineering drawings and specifications in the construction process. Prerequisites: ENGR 123 or equivalent. Offered: WS.

B CON 321 Building Technology I (3) *Kommers* Introduction to building heating, cooling, plumbing, and fire protection systems including aspects of design, construction, estimating, and problem solving. Prerequisites: PHYS 115, 118. Offered: W.

B CON 322 Building Technology II (3) *Gutkunst* Introduction to electrical construction including electrical distribution from generation to consumption, terminology, equipment and applications, electrical contract documents and estimating, and electrical project management theory and practice. Offered: W.

B CON 323 Construction Methods and Materials II (5) *Riley* Analysis of building methods for structural, non-structural, and design and use of temporary structures including method selection, sequencing, and coordination of specialty trades in commercial and industrial construction. Offered: W.

B CON 331 Construction Estimating I (4) *Pace* Introduction to the basic principles and techniques of quantity take-off and estimating with emphasis on residential construction. Offered: Sp.

B CON 332 Construction Equipment Management (3) *Schaeffelberger* Study of the basic principles, practices, and techniques used in the construction industry for selecting and managing construction equipment. Focuses on understanding the time value of money, estimating equipment ownership and operating costs, selecting the proper equipment for specific construction tasks, and estimating equipment production. Offered: Sp.

B CON 333 Construction Safety (3) *Bentil* Explanation of requirements of the Occupational Safety and Health Act and other related federal and state legislation as applied to the building construction industry. Standards for accident prevention and responsibility for compliance emphasized. Offered: Sp.

B CON 350 History of Building (3) *Rolfe* Historical survey of building techniques and materials as conditioned by environment, technical, economic, and social influences. Open to nonmajors. Offered: A.

B CON 410 Construction Estimating II (4) *Fredley* Principles and techniques for the estimating of commercial construction projects including a mock bid day exercise on a commercial construction project. Prerequisite: 331. Offered: A.

B CON 411 Project Planning and Control (3) *Pace* Introduction to the basic principles, techniques, and practices used as tools by contractors to plan and schedule building construction projects. Prerequisites: 310, 313, 320, 321, 322, 331, and 332 or equivalent or permission of department. Offered: A.

B CON 412 Construction Practice (3) *Bentil* Integration of classroom theory with practical experience through a direct, on-the-job internship and industry guest speakers. For majors in building construction with 135 credits completed. Offered: A.

B CON 421 Project Management I (3) *Bentil* Introduction to the organization, management, and administrative functions on construction projects including a hands-on and extensive case study of a commercial construction project, cost control, and introduction to the concepts of Value Engineering, partnering, and Total Quality Management. Prerequisites: 312, 410, 411, and 412. Offered: W.

B CON 422 Computer Applications in Construction (3) *Fredley* Introduction to microcomputer applications in construction industry. Discussion of available hardware and software is combined with practical assignments using estimating and scheduling programs designed for contractors, architects, and developers. Prerequisites: 312, 331, 410, 411, 412, 421 and graduating senior. Offered: W.

B CON 432 Soils and Foundations (3) *Twelker* Origin, classification, and physical properties of soil as used in engineering and construction applications, together with loads and stresses of soil on, and from, the more common types of engineering structures. Prerequisites: GEOL 101, ARCH 320, 321, 322, and 420. Offered: Sp.

B CON 498 Special Topics (1-10, max. 20)

B CON 499 Undergraduate Research (* max. 12) Individual or small-group studies in which students may select topics with approval of faculty sponsor and department.

Courses for Graduates Only

B CON 505 Advanced Integrated Computer Applications (3) *Fredley* Study of management information systems used in the construction industry. Emphasis on the utilization of current state-of-the-art computer hardware and software and the integration of Computer Aided Design (CAD), scheduling, and estimating techniques. Offered: SpS.

B CON 510 Advanced Construction Techniques (3) *Riley* Study of techniques and practices used in complex construction projects, including industrial and high-rise structures, building renovation, and tenant improvements. Offered: A.

B CON 515 Innovative Project Management Concepts (3) *Bentil* Study of innovative concepts and trends in project management such as partnering, construction automation, and their application to construction projects. Total Quality Management, effective communication principles, leadership and team building, and robotics also examined. Offered: Sp.

B CON 520 Construction Procurement Systems (3) *Schaeffelberger* Study of the different methods used in the procurement and delivery of projects in the construction industry including lump sum, unit price, cost-plus, design-build, and construction management contracts. Offered: A.

B CON 525 Cost Analysis and Management (3) *Pace* Study of cost management procedures applicable to the building process from the conceptual

phase through owner operations, including conceptual estimating, project cost analysis and control, and value engineering and life-cycle costing. Offered: W.

B CON 550 Residential Project Development (3) *Rolfe* Study of the financial, technical, and management activities and environmental impact regulations and studies associated with the development of residential projects, including business and construction practices and marketing strategies for continued profitable operation of a residential construction firm. Offered: A.

B CON 555 Construction Firm Management I (3) *Schaeffelberger* Management of construction company including organization, corporate structure, operation procedures, marketing, and human resources management. Emphasis on safety and loss prevention management, insurance and risk management, financing, accounting, marketing construction services, and bonding requirements for construction company. Other topics include individual and corporate planning and process of strategic planning. Offered: W.

B CON 560 Construction Firm Management II (3) Examination of the business practices, including market feasibility studies, related to use of Management Information Systems (MIS) in a construction company.

B CON 565 Managing International Projects (3) *Schaeffelberger* Study of processes involved in the selection, acquisition, and management of international construction projects. Emphasis is placed on examining common problems associated with managing construction projects outside the United States, identifying risks involved, and discussing possible solutions. Offered: Sp.

B CON 600 Independent Study or Research (* max. 6) An in-depth independent investigation of some facet of construction management. Offered: AWSpS.

B CON 700 Master's Thesis (* max. 9) Offered: AWSpS.

Landscape Architecture

348 Gould

Undergraduate Program

Bachelor of Landscape Architecture

The Bachelor of Landscape Architecture (B.L.A.) program is a professional program accredited by the American Society of Landscape Architects. It is a five-year undergraduate sequence of lecture and studio courses which introduces students to historic and contemporary concepts in landscape architecture and teaches principles of landscape design for a wide variety of design situations, from urban to rural. Course work recognizes the effect of human interaction with the landscape and upon natural resources.

Program goals are to provide students with a strong design education, foster creativity, develop graphic and verbal communication skills, facilitate cognitive abilities, and encourage computer proficiency. Departmental courses include design studios, history of landscape architecture, design theory and practice, construction, graphics, and professional practice. Required courses from other departments include urban horticulture, soils, geology, botany, and ecology.

Course work is given practical application in design studios led by departmental faculty and members of the professional community. Studio topics include planting design, planning for large undeveloped ar-

eas, land planning and housing design for communities, urban landscape design, and design for natural and semi-natural areas. Course work develops an understanding of the functioning of natural systems and an awareness of the cultural and sociological forces that influence the landscape architect's work. Individual as well as team-oriented projects encourage the development of strong interactive, verbal, and evaluative skills.

Students with prior course work which meets departmental prerequisites and University requirements for graduation, may enter the three-year program which comprises the focused area of the program. In addition to required course work, the program encourages students to pursue personal interests through directed research and independent study within the department and in other departments. The program is structured to permit students to explore design-related areas which allow them to realize their creative potential and professional growth.

Satisfactory completion of University requirements in English composition, Reasoning and Writing in Context, and Areas of Knowledge is a prerequisite for entry into the program. Undergraduate students currently enrolled at the UW may apply for admission to the department after completion of a minimum of 60 credits of general education requirements. Major status is normally granted upon completion of 90 credits and after formal application to the department has been reviewed and accepted. The five-year B.L.A. program requires completion of 225 credits.

Transfer students from other academic institutions must satisfy University admission requirements. Students applying to the program for a second bachelor's degree are assumed to have completed the University's general education requirements.

Admission to the B.L.A. program is competitive and based on academic record, evidence of creative potential, as well as graphic and verbal fluency. Completion of prerequisite courses is required prior to admission. All students must submit their application forms and materials to the department by February 15 to be considered for admission the following autumn quarter.

Please contact the department for application materials and detailed information on admission, prerequisites, and required course work.

Graduate Program

Master of Landscape Architecture

The Master of Landscape Architecture program, accredited by the American Society of Landscape Architects, is a professional program that offers training in design and research. The program's diverse courses allow students to experience a range of project scales and to develop a specialty under professional guidance. The department curriculum emphasizes the following:

Design Education. The faculty are designers interested in social and ecological issues and in interdisciplinary design work. Most classroom investigations result in design proposals that foster the strong physical design tradition associated with landscape architecture. Landscape design is holistically defined in the classroom and could include the development of policies or standards leading to positive physical change, the detailed siting of elements such as roads or buildings in a landscape, and the development of maintenance or rehabilitation procedures.

Complex Landscape Issues. The core courses of study focus on complex landscape issues that balance political, ecological, social, or physiographic considerations. These issues are generally people-oriented and involve urbanization, land conversion, or restoration of existing environments.

Design Scholarship. Students are expected to advance their skills by exploring various research methods and techniques. The design studios are a testing ground for the development and exploration of different research perspectives. Students complete their studies with a thesis.

The graduate program accommodates persons with or without a design background and encourages applications from persons with diverse backgrounds, or from those who seek a career change. The faculty is experienced in teaching mature students and seeks a mix of student ages, backgrounds, and interests. Through elective courses students can tailor course work to their particular needs and the faculty will assist in maximizing the potentials of this multi-faceted University.

Graduate students may elect to participate in the College-wide inter-disciplinary Certificate Programs in Urban Design and Preservation Planning and Design. See program descriptions in the preceding College section.

Program Requirements

The program is tailored to each student's background. Students follow a specific course path based on their previous education, experience, and individual educational goals. Students with a B.L.A. degree begin with the "Required Graduate Curriculum," while students with no design or science background begin with the "Basic Core" and take science, design, or art courses for preparation for the final two years in the "Required Graduate Curriculum." The two-year "Required Graduate Curriculum" requires completion of a minimum of 72 approved credits.

The typical program for students with a limited design or science background varies and course work depends on the entrance proficiency of the applicant.

A scholarly thesis is required of all candidates, except for those who hold a Ph.D. The thesis allows students to select a subject for investigation, develop an appropriate research methodology, and analyze the subject for presentation in written and graphic form. The faculty places considerable importance on the thesis, and graduates have produced significant results.

Admission Requirements

Candidates applying to the Master of Landscape Architecture program must apply both to the Graduate Admissions Office and the Department of Landscape Architecture by January 15 to be considered for admission the following autumn quarter.

Admission to the Graduate School requires: 1) a baccalaureate degree from an accredited U.S. college or university, or its equivalent in a foreign institution, 2) a GPA of 3.00 or higher in the last 90 graded quarter hours or the last 60 graded semester hours, and 3) a Graduate Record Examination (GRE) score taken within the last five years.

Admission to the Master of Landscape Architecture program is a competitive process with priority given to applicants whose abilities, as determined by the department's M.L.A. Admission Committee, will enable them to complete the program expeditiously and with a high level of achievement. Contact the department for additional information.

Faculty

Chair

David C. Streatfield

Professors

Bradley, Gordon A. * 1972, (Adjunct); PhD, 1986, University of Michigan; forest land use planning, recreation site planning and design.

Buchanan, Robert T. * 1970, (Emeritus); MLA, 1956, Harvard University; design, graphic communications, landscape aesthetics, environmental art.

Haag, Richard 1958; MLA, 1952, Harvard University; theory and perception of landscapes, master planning, urban recreation, recycling landscapes.

Johnston, Norman J. * 1960, (Emeritus); PhD, 1964, University of Pennsylvania; urban design, history.

Streatfield, David C. * 1974; MLA, 1965, University of Pennsylvania; regional landscape planning; landscape, architectural and environmental history.

Untermann, Richard K. * 1971, (Emeritus); MLA, 1967, Harvard University; urban design and site planning, housing, recreation, nonmotorized circulation.

Associate Professors

Dubrow, Gail Lee * 1989, (Adjunct); MA, 1979, University of Oregon; PhD, 1991, University of California (Los Angeles).

Horner, Richard R. * 1981, (Research); PhD, 1978, University of Washington; wetlands, conservation and storm water management.

Robertson, Iain M. * 1982; MLA, 1975, University of Pennsylvania; designing with plants, planning and design of botanical gardens/arborescences.

Schauman, Sally * 1979; MS, 1971, University of Michigan; visual resource analysis and evaluation, resource planning and conservation of stressed landscapes.

Assistant Professors

Booth, Derek B. 1980, (Research); PhD, 1984, University of Washington, geomorphology, environmental geology.

Heerwagen, Judith * 1981, (Adjunct Research); PhD, 1982, University of Washington; behavioral ecology.

Johnson, Julie M. 1995; MCP, 1988, Massachusetts Institute of Technology; design and use of urban parks, neighborhood and community design, cultural expressions in landscape.

Winterbottom, Daniel M. 1993; MLA, 1988, Harvard University; urban design, construction, cultural landscapes, public art and therapeutic landscapes.

Witherspoon, Boykin 1990; MLA, 1990, Louisiana State University; computer applications in landscape architecture, urban planning, GIS, resource management.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

L ARCH 200 Landscape Architecture Field Trips (2) VLPA/MS Five field trips introduce typical landscape architecture projects and demonstrate scope of the landscape architecture field. Visits to major projects in the Puget Sound region include city and county parks, river parks, harbors, downtown redevelopment, streetscapes, campus headquarters, and others. Open to nonmajors.

L ARCH 300 Introductory Landscape Architecture Design Studio (6) VLPA Introduction to history and environmental influences in field while developing design and graphic skills. Site analyses and drawing to convey design concepts. Relationship of visual perception to drawing, role of values in design, verbal communication, and behavioral analysis of design process. Required for admission to Bachelor of Landscape Architecture program.

LARCH 301 Site Planning Studio (8) Introduction to site planning and landscape design, covering the factors of site analysis and planning, resource utilization, site suitability related to specific programs and activities; and planning, design, and behavioral studies for selected case study projects. Includes design graphics and issues relating to professional awareness.

LARCH 302 Site Design in Urban Context (5) Design of public use areas in the urban area. Project types for this course are waterfront development, commercial areas, campus and cultural centers, plazas and historical sites; recommendation for policy to be established as part of the design solution.

LARCH 303 Natural Processes Studio (5) Project design studies related to natural systems. Computer applications are introduced.

LARCH 310 Landscape Architecture Field Sketching (2) Introductory level sketching of landscape subjects: natural and urban sites, plants, animals, architectural elements. Emphasis on perspective. Various media, including pencil, charcoal, markers, ink wash, water color.

LARCH 311 Introduction to Design Graphics (2) Introduction to communication techniques for various phases of the design process. Many techniques are introduced and their suitability and appropriateness for different purposes explored.

LARCH 322 Introduction to Planting Design (3) VLPA Traditional ways plants are used in landscape design. Composition and design characteristics of plant materials. Technical considerations for selection, climate, cultural suitability, availability, costs, and maintenance. Open to nonmajors.

LARCH 331 Landscape Construction (4) Basic course in site engineering, correlating the design and technical aspects of site development and suitability. Grading, drainage, circulation requirements and alignment, organization concepts relative to landscape resources, site evaluation, utilization and protection, and building and site program analysis and coordination.

LARCH 332 Landscape Construction (4) Materials and structures in landscape construction. Design criteria and construction techniques for detail elements of landscape architecture. Working drawings, specifications, cost estimates, and procedures. Prerequisite: 331.

LARCH 341 Site Planning (3) Introduction to site planning and landscape design, covering the factors of site analysis and planning; resource utilization; site suitability related to specific programs and activities; and planning, design, construction, and behavioral studies for selected case study projects. Open to nonmajors.

LARCH 352 History of Landscape Architecture (3) VLPA/I&S Survey of the development of landscape architecture as an art form from Mesopotamia to the present. Relationships to physical landscape, climate, culture, religion, and other arts. Open to nonmajors.

LARCH 353 History of Modern Landscape Architecture (3) VLPA/I&S Development of profession and art of landscape architecture in the United States, Europe, South America, and Japan in relation to prevailing social, economic, political, and cultural factors. Relationships with other professions, especially architecture and urban planning, and other arts, such as painting and sculpture. Open to nonmajors.

LARCH 361 Theory and Perception of Landscape Architecture (3) VLPA/I&S Reciprocal relationships of man/nature are explored, with particular attention given to the cultural variations and interpretations of esthetics, landscape materials, and human behavior and their effects on site planning and project design. Landscape architecture philosophy related to the

physical design problems and potentials of the Pacific Northwest. Open to nonmajors.

LARCH 362 Landscape Design in Urban Contexts (3) VLPA Introductory lecture course relating methods, procedures, and rationale for use of natural processes information in planning and site design. Discussion covering environmental constraints and landscape sensitivity. Open to nonmajors.

LARCH 363 Natural Processes as Planning and Design Determinants (3) NW Introductory lecture course relating methods, procedures, and rationale for use of natural process information—soils, vegetation, hydrology, physiography, wildlife, and geology. The planning/design process covers areas of critical concern, environmental constraints, natural systems, landscape character, and capacity of site to recover from human intervention. Open to nonmajors.

LARCH 401 Urban Recreation Design (6) VLPA/I&S Special studies in metropolitan, urban, and neighborhood recreation areas; the design, policies, and behavioral studies of existing parks, playgrounds, public places, and commercial areas. Design projects dealing with the play environment for all ages. Open to nonmajors.

LARCH 402 Site Design/Cluster Housing (6) Large-scale site planning and design. Generally related to housing, new communities, and institutional development. Identification of landscape character, resources, and problems of site, cost factors, design alternatives and implications for architectural direction, policy for land acquisition. Program development to maximize site utilization and preservation of natural attributes.

LARCH 403 Cultural Landscape Studio (6) Studies of the landscape at various scales and in diversified contexts. Offers better understanding of visual components of landscapes, designer's capacity to evaluate and change these components, and resultant interaction with, and effect on, landscape user.

LARCH 408 Individual Design Studio (6) Senior projects in landscape architecture; projects vary according to the student's particular emphasis and needs.

LARCH 411 Landscape Graphics (3) Delineation techniques for landscape perspectives, sections, rendering of plant materials. Historical and contemporary examples of landscape drawing.

LARCH 412 Landscape Communications (2) Multimedia and video production techniques and presentation methods suitable for public hearings; citizen groups, design commissions, and private clients. Individual projects and case-study examples.

LARCH 423 Planting Design Studio (3) Utilization of plants as design elements to manipulate space and modify the landscape for various activities and resolutions of site problems. Factors that determine the appropriate use and arrangement of plant materials in an urban context. Composition, plant selection, planting techniques, and maintenance requirements are major components of this class. Prerequisites: 322 and BOTANY 331 or equivalent.

LARCH 424 Advanced Planting Design Seminar (2) Analyzes the complex relationship between plants, man, and environment and affords opportunity to explore methods of utilizing these relationships to plant and to design more responsive landscapes.

LARCH 425 Advanced Planting Design Studio (6) Advanced seminar/studio in planting design. Provides opportunity to explore ecological, technical, and esthetic principles for selecting plants to meet specific site conditions. Project types include historical sites, multifamily housing projects, plazas, landfills, and reclamation sites.

LARCH 433 Large-Scale Site Construction (4) Includes studies of natural determinants and restraints

on large-scale construction, development affected by service and utility systems, physiographic suitability of site, cost-benefit analysis, and critical path methodology for site construction projects. Prerequisites: 331, 332, and GEOL 313.

LARCH 440 Computers in Landscape Architecture (3) Laboratory, lecture, and demonstration classes to introduce software applications specific to required landscape architecture courses. Credit/no credit only.

LARCH 450 History of Environmental Design in the Pacific Northwest (3) VLPA Development of landscape architecture, architecture, and urban planning in the Pacific Northwest from nineteenth century to the present, with major emphasis on twentieth century. Open to nonmajors.

LARCH 451 History of Environmental Design on the West Coast (3) VLPA Development of the environmental arts of landscape architecture, architecture, and urban planning from the eighteenth century to the present, with major emphasis on the twentieth century. Open to nonmajors.

LARCH 463 Urban Recreational Design (3) VLPA/I&S Special recreational studies in metropolitan, urban, and neighborhood areas; the design, policies, and behavioral studies of existing parks, playgrounds, public places, and commercial areas. Design projects dealing with the play environment for all ages. Open to nonmajors.

LARCH 470 Landscape Architecture Tutorial (2, max. 6) Various aspects of project organization, programming, scheduling of work loads, graphic and verbal communication problems, data collection methods and interpretation, methodologies for landscape planning and design. Prerequisites: fourth- or fifth-year standing and one quarter advance permission of instructor.

LARCH 473 Professional Practice (3) Professional practice in private office, academic institutions, and public agencies. Evolution of landscape architecture as a profession, possible scenarios for future, variety of practice types and their relationships, ethical and legal/contractual responsibilities of a professional.

LARCH 474 Project Design (6) Detailed design studies of small-to-medium-scale projects. General focus on public landscape areas and social/psychological uses of site. Specific focus on design development and professional office presentation. Prerequisite: fifth-year standing in the Bachelor of Landscape Architecture program.

LARCH 476 Professional Operations (3-6) Practicum course for landscape architecture majors for internship and exposure to the profession with working experiences at various levels of professional endeavor. Student apprenticeship in selected private offices and public agencies. Credit/no credit only.

LARCH 477 Landscape Architecture Consultancy Studio (3-6) Simulation of the professional relationship of the landscape architect as a consultant to University students in other design planning and management disciplines. Focus is on site analysis, master planning, schematic designs and detailed design, working drawings, and planting plans associated with student projects. Prerequisite: fourth- or fifth-year standing in the department.

LARCH 485 Landscape Architectural Studies Abroad (1-10, max. 30) Studies conducted under faculty supervision in various locations outside the United States. Prerequisite: permission of instructor.

LARCH 488 Special Projects (1-10, max. 30) Special projects as arranged. Open to nonmajors.

LARCH 499 Undergraduate Research (1-6) Individual or small-group studies pertaining to special problems, theories, or issues of landscape architecture.

ture and environmental issues. Prerequisite: approval of a faculty sponsor.

Courses for Graduates Only

LARCH 501 Landscape Design and Planning I (6) Enhances perceptual awareness and design sensitivity to natural and man-made landscapes. Basic skills necessary for more advanced course work required in the Master of Landscape Architecture degree program. Examination of landscape environment through problem-solving techniques that acknowledge holistic approach to the environment.

LARCH 503 Landscape Design of Communities (6) Methods and techniques for developing physical design solutions and implementation strategies in neighborhoods and small communities. Social, economic, political, and individual forces affecting community development and growth. Comparison of several communities, identifying pertinent landscape issues, potential design solutions, and methods for achieving design goals through the political process.

LARCH 504 Regional Landscape Planning (6) Studio in applied regional landscape planning in metropolitan regions to examine conflicting land-use pressures of urban/rural fringe. Ecosystematic approach emphasizes maintenance of landscape quality. Computer applications in design.

LARCH 505 Regional Landscape Design (6) Theory/techniques of regional design to analyze, evaluate, plan, design, and manage the resources of the regional landscape continuum.

LARCH 506 Landscape Visual Resources (6) Survey of existing theory/techniques and the generation of new methods to analyze, evaluate, plan, design, and manage the visual resources of the landscape.

LARCH 507 Landscape Art (6) Public art placed in, or developed for, specific landscape settings. Various aspects and benefits of public art, including materials, technologies, philosophies of landscape imagery and meaning. General planning criteria for location for maximum public benefit and identification of objectives for a specific site and artwork.

LARCH 511 Visual Learning (3) Seminar/laboratory to develop visual learning processes and skills for applying these processes to landscape architecture. Related visualization concepts.

LARCH 523 Landscape Technology (6) Studio on application of technologies and their appropriateness for rehabilitation, restoration, and creation of landscapes at site-specific scale. Examination of maintenance programs, implementation problems, and public policy. Open to nonmajors.

LARCH 550 History and Theory of Modern Landscape Architecture (3) Lecture/seminar on history and theory of landscape architecture from the eighteenth century to the present. Relation to theory in related environmental design disciplines such as architecture and urban planning and other disciplines such as geography.

LARCH 561 Regional Landscape Planning and Design (2) Seminar on objectives, philosophy, history, and theory of regional landscape planning and design. Overview of the context of regional landscape planning, examination of critical issues in the Pacific Northwest, and opportunities and role of the landscape architect in addressing these issues.

LARCH 562 Landscape Art (2) Process of developing and placing artwork in specific landscape settings. Types of artwork and landscape settings; ways for artist and site designer to interpret, alter, and incorporate factors of landscape; viewer's perception and experience; examples of public and private support.

LARCH 570 Scholarship and Research in Landscape Architecture (3) Seminar on the trends and

results of research related to landscape architecture. Introduction to important scholars and researchers. Open to nonmajors with permission of instructor.

LARCH 571 Seminar on Landscape Architecture Research (3) Introduction and exploration of problems and opportunities of several basic research methods currently employed in landscape architecture research. Emphasis on how researchers identify research topics and develop appropriate research methods. Introduce analysis and interpretation of research results.

LARCH 590 Seminar in Landscape Architecture (1-3, max. 12) Advanced topics in landscape architecture with focus on unpublished areas of research.

LARCH 598 Special Topics (1-6, max. 9) Systematic study of specialized regional landscape subject matter, including history, technology, implementation, and other topics depending on current interest/needs. Topics vary and are announced in the preceding quarter.

LARCH 600 Independent Study or Research (*)

LARCH 801 Internship (3-9) Credit/no credit only.

LARCH 700 Masters Thesis (*)

Urban Design and Planning

410 Gould

Urban planning deals with critical issues of human settlement and urban development. It requires special knowledge, skills, and vision to provide communities with an informed basis for coordinated action. Urban design and planning constitute a professional field of growing complexity, responding to the urban complexities of this century and the next. The Department of Urban Design and Planning fosters an integrative approach to education and research in planning the physical environment. The academic program includes: the social, behavioral, and cultural relationships between people and the form and quality of their built environment; the financial, administrative, political, and participatory dimensions of planning, design, and development; and the informational base for making deliberate decisions to shape urban areas, bringing analysis together with vision.

Departmental faculty are active participants in the College's Cascadia Community and Environment Institute including the Center for Sustainable Communities and the Center for Community Development and Real Estate. The department also administers the Remote Sensing Applications Laboratory (RSAL), concerned with teaching, research, and public service applications in urban planning for information produced by remote sensing technology, including aerial photography and satellite systems such as Landsat and SPOT. RSAL also conducts related research in applications of geographic information systems (GIS). The lab houses a SUN UNIX workstation hosting ARC/INFO and other GIS and image processing software. In addition, the College has a wide array of facilities for computer-based instruction related to design, including CAD, GIS, and hypermedia. The Institute also runs a joint program in advanced computer technology and virtual reality with the Human Interface Technology Laboratory of the Washington Technology Center.

Minor

Minor Requirements: 30 credits to include URBDP 300 (5 credits); 3 credits chosen from URBDP 460, 461, or 471; minimum 10 additional credits in URBDP-prefix courses, and 12 additional credits in planning-related courses. A 2.0 minimum grade required for each course counted toward the minor. See departmental adviser for recommended courses.

Graduate Program

Frank V. Westerlund, Graduate Program Coordinator, M.U.P. Program

Gary E. Pivo, Graduate Program Coordinator, Ph.D. Program

The Department offers the Master of Urban Planning (M.U.P.) degree and its faculty participate in the interdisciplinary Doctor of Philosophy (Ph.D.) in Urban Design and Planning. The M.U.P. is the professional degree, and the Ph.D. is primarily for students planning to enter research and teaching positions in urban planning and design. A concurrent degree program is possible with the J.D. in the School of Law.

The graduate program focuses on planning the physical environment and its socioeconomic and political determinants. Advanced students are encouraged to conduct research and studies in one of the following specializations:

- urban design dealing with physical form, character, and quality issues
- community development and real estate including public/private development processes, public policy, physical development and design, and finance
- preservation planning and design
- land-use planning, including its environmental, socioeconomic, legal, information systems, and administrative aspects.

Graduate students may elect to participate in the College-wide Certificate Programs in Urban Design and Preservation Planning and Design. See program descriptions in the preceding College section.

Master of Urban Planning

The Master of Urban Planning degree is the usual educational qualification for professional practice of city and regional planning, including generalist planning, research, urban design, and administrative positions in a wide variety of public agencies and private consulting firms. It is a two-year, or six-quarter program, requiring a minimum of 72 credits.

Requirements for graduate-level study include a satisfactory academic record and undergraduate training in one of a variety of disciplines, including urban planning and environmental design or in other appropriate fields, such as geography, economics, or other social sciences; English and other humanities; civil engineering and environmental studies; or architecture and landscape architecture. Students planning to enter the program should have completed at least one college-level course in each of the following areas: economics, mathematics, statistics, American government, environmental systems, and cultural diversity. Students without sufficient background must take these prerequisite courses concurrently with their graduate studies.

The primary objective is to educate professional planners with a broad range of competence in planning and design; a second objective is to provide opportunities for individual studies in selected professional areas. Core course requirements include 31 credits covering the history and theory of planning and urban design, resources for planning in the local context, urban form, communication methods, quantitative methods, processes and methods of land use planning, planning law, research methods, and a first-year planning studio. 14 credits of restricted electives are required, including a course in advanced methods and a second studio; both may be in an area of specialization. In addition, a course in land-use planning and in urban development economics is required. A 9 credit thesis or professional project is required upon completion of all other degree course work. 18 credits of the 72 minimum required for the degree may be in open electives.

The core provides a foundation in urban design and planning for all students. An internship is required for those without previous professional experience. A specialization in one area of planning is encouraged. Four major specialized areas offered in the department include physical land-use planning and growth management, community development and real estate, urban design, and preservation. Other opportunities include transportation planning with Civil Engineering, public policy and management with Public Affairs, environmental resource planning with Forest Resources, environmental planning with Landscape Architecture, and coastal planning with Marine Affairs.

Students are admitted to the M.U.P. program primarily in autumn quarter and all application material should be received by the department no later than the preceding February 1. Graduate Record Examination general test scores, three letters of recommendation, transcripts of previous degree programs and any additional academic study, and a statement of purpose are required.

Doctor of Philosophy

Some of the departmental faculty are part of an interdisciplinary faculty group which offers doctoral study in urban design and planning. The program is located administratively within the Graduate School. For a description of the program, see the Interdisciplinary Graduate Degree Programs section of the catalog.

Schneider, Jerry * 1967, (Emeritus); PhD, 1966, University of Pennsylvania; metropolitan area and regional planning, transportation and other urban models.

Streitfield, David C. * 1974; MLA, 1965, University of Pennsylvania; regional landscape planning; landscape, architectural and environmental history.

Untermann, Richard K. * 1971, (Emeritus); MLA, 1967, Harvard University; urban design and site planning, housing, recreation, nonmotorized circulation.

Vernaz Moudon, Anne * 1980; DSc, 1987, Ecole Polytechnique Fédérale de Lausanne (Switzerland); urban design, city form and neighborhood studies, design research.

Wong, Shawn H. * 1984, (Adjunct); MA, 1974, San Francisco State; creative writing, Chinese-American area studies.

Associate Professors

Dubrow, Gail Lee * 1989; MA, 1979, University of Oregon; PhD, 1991, University of California (Los Angeles).

Kasprisin, Ronald J. * 1989; MUP, 1968, University of Washington; community design studios, town planning, planning/design communications, urban design principles.

Norton, Thomas J. * 1968, (Emeritus); MUP, 1960, University of Washington; urban community facilities, planning administration.

Pivo, Gary E. * 1987; PhD, 1987, University of California (Berkeley); land use and physical planning, environmental planning, growth management.

Rolle, George R. * 1984; MArch, 1968, MCP, 1968, University of Pennsylvania; urban development process, finance, feasibility and market analysis, urban design processes.

Ryan, Dennis M. * 1974; PhD, 1976, University of Pennsylvania; community planning, design, and identity; public processes; urban design, change, and continuity.

Westerlund, Frank * 1971; PhD, 1977, University of Washington; remote sensing applications, energy development and conservation, regional environmental planning.

Lecturer

Lawrence, J. Gary 1994; MPA, 1976, University of Georgia.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

URBDP 300 Introduction to Urban Planning (5) I&S Principles and theories of urban structure and institutions. Concepts and logic of planning as a community process and a professional activity. Evolution of planning ideas in response to changing social, economic, and environmental conditions within the American political framework. Complementary nature of public and private responsibilities. Major procedures used by planners. Prerequisite: junior standing or permission of instructor.

URBDP 370 Reading the City (3-5) VLPA/I&S Hancock, Moudon Comprehending cities as reflections of individuals and societies. Students trained to read and analyze everyday, visible evidence of the city. Addresses interests of travelers as well as students wanting to become active participants in decisions affecting the quality of the urbanized environment. Field trips, readings, lectures, visual learning techniques.

URBDP 407 Urban Planning Studio (5) VLPA/I&S Ryan Synthesis of urban design and planning problems and methods in a laboratory section. Prerequisites: 300 or permission of instructor.

URBDP 420 Database Systems and Planning Analysis (3) Applications of relational database management systems in urban design and planning. Emphasis on practical aspects of database design and use. Design, create, and modify databases and database applications, including spatial databases. Introduction to GIS. Use of personal computers linked

to desktop mapping packages and relational database management systems.

URBDP 422 Geographic Information Systems in Planning (5) Principles of GIS applied to problems in urban design and planning, landscape architecture, and environmental and resource studies. Practical problem-solving approaches using contemporary desktop mapping packages and vector and raster GIS systems. Siting, environmental evaluation and inventories, and modeling. Prerequisite: 420 and GEOG 460 or 461 or permission of instructor.

URBDP 429 Computer-Aided Planning of Urban Systems (3) Survey of on-line planning applications; use of various on-line systems to solve urban systems design problems; investigation of hardware/software trade-offs; human factors in man-computer systems design theory as it relates to problem-solving activity. Offered: jointly with CIVE 418.

URBDP 446 Practical Experience (4, max. 8) Ryan Off-campus internship under academic supervision in situations useful to the education of planners, such as public/private planning and design offices, projects related to the environment, cross-cultural matters, and decision making. Assistance in identifying appropriate projects. Prerequisite: permission of instructor.

URBDP 451 Housing (3) I&S Ludwig Survey of housing and redevelopment problems, theories, standards, and practice. Development of public policies, finance, technological considerations, social factors, and priorities. Prerequisite: 300 or permission of instructor.

URBDP 452 Urban Development and Spatial Structure (3) I&S Miller Physical and functional structure of urban areas, with major focus on locational decision making in households, firms, and other organizations, and space demands of these urban activities. Selected land-use models illustrating use of this theoretical understanding for forecasting competition, land-use conflicts, and the land-conversion process.

URBDP 453 Introduction to Urban Economics and Development (4) I&S Introduction to urban economics and impacts on real estate development with emphasis on land allocation, location theory, rent/value theory, factors affecting growth and decline of cities, and the role of governmental regulation/policy/finance in controlling real estate development. Offered: jointly with B CON 453.

URBDP 454 Introduction to Real Estate Development Processes (4) Rolle Introduction and survey of processes and people involved in developing real estate, including issues of site control, public/private approvals, feasibility analysis, project financing, design/construction, marketing, and asset management. Recommended: completion of 453. Offered: jointly with B CON 454.

URBDP 455 Introduction to Real Estate Finance (4) Rolle Introduction to the financing of real estate development projects, including a survey of capital markets, banking regulations, interest/discounting theories, debt instruments, and project financing. Recommended: 454. Offered: jointly with B CON 455.

URBDP 456 Real Estate Investment Seminar (3) Rolle Analysis of private and public real estate investment decisions using case studies of individual development projects. Focuses on application of principles introduced in 453, 454, and 455. Prerequisites: 454 and 455. Offered: jointly with B CON 456.

URBDP 457 Housing in Developing Countries (3) Ludwig Emphasis on role of the design and planning professional in housing delivery in developing countries. Exploration of issues of culture, political environment, social context, economic circumstances, and other factors which define and limit the manner in which the professional planner and designer can and should function. A

URBDP 460 History of City Development (3) *VLPA/IAS Dubrow, Hancock* Analysis of city forms and designs, emphasizing their relation to the culture of each period.

URBDP 461 History of Urban Planning in the United States (3) *IAS Hancock* Seminar in origins, development, and significance of the American planning movement and the profession that emerged from it, as defined by some of its seminal innovators, theories, practices, and achievements, and as evaluated by cultural realities thereby served.

URBDP 465 Land Use (3) *IAS Westerlund* Substantive presentation of land use as a focus for planning issues. Development of problems: consideration of analysis, programming, and implementation methods. Seminar and group project sections.

URBDP 466 Infrastructure and Community Facilities (4) *Pivo, Rolfe* Issues and methods associated with planning for parks, schools, drainage, sewerage, utilities, libraries, solid waste and transportation. Covers their relationship to comprehensive plans, project permitting and impact assessment. Financing, regulating, and relationships to social, environmental, and economic goals are discussed.

URBDP 467 Urban Planning Uses of Remote Sensing (3) *Westerlund* Using aerial photographs, related data, and maps in urban planning. Urban change analysis, land-use classification systems, other planning applications. Scale and resolution considerations. Development of proficiency through laboratory exercises. Prerequisite: 300 or equivalent. Recommended: 465.

URBDP 468 Land Use From Satellite Data (3) *Westerlund* Digital data from Landsat and other sources used to determine land-use and land-cover classification in urban and rural areas. Hands-on exercises on computer. Photo interpretation, statistics, land-use classification, and verification are incorporated. Prerequisite: 465, 467, or permission of instructor.

URBDP 470 Introduction to Urban Design (3) *VLPA/IAS Kasprisin, Ryan* Definitions and examples of urban design; heritage of urban design; theories of city building; the role of urban design in the fields of architecture, landscape architecture, and urban planning.

URBDP 471 History of Urban Design (3) *VLPA/IAS Streafeld* Aspects of form, pattern, and space that mark efforts of individuals and groups to express their values and goals in the design of their cities. Special attention given to both historical and modern examples.

URBDP 472 Creativity and Culture in Design (3) *Kasprisin* Exploration of creativity in design from a system theory perspective. Theoretical readings in physics, biology, and behavioral science balanced with practical approaches and case studies in urban design and architecture literature. Offered: A.

URBDP 479 The Urban Form (3) *VLPA Moudon, Nyberg* Elements, patterns, and evolution of urban form. The forces that shaped cities in history. Contemporary trends. Methods of urban morphological analysis as related to urban design and planning practices. Required for MUP graduate students.

URBDP 481 Metropolitan Planning and Development in Developing Countries (3) *Ludwig* Examination of the nature and causes of urban planning and management problems in developing countries and exploration of alternative approaches to solve some of these problems. Offered: W.

URBDP 482 Politics and Planning (3) *IAS Hancock* Explores the need to understand the crucial role of politics in the planned development of American communities, to think critically and constructively about the relationship of politics and development and

ways to make it as democratic and equitable as possible, and to strengthen analytical and writing skills. Sp.

URBDP 494 Alaska Field Study (3) *Kasprisin, Westerlund* Travel to communities within the Southeast Alaska bioregion for interpretation of natural systems, history, cultures, settlement patterns, and current issues of planning and economic development. Meetings with community leaders and planners. Students either select topic for field and documentary research or participate in intensive charrette-type project in one community. Offered: Sp.

URBDP 498 Special Topics (1-8, max. 15) Systematic study of specialized subject matter. Topics for each quarter vary, depending upon current interest and needs, and are announced in the preceding quarter. Prerequisite: permission of instructor.

URBDP 499 Special Projects (* max. 6) Independent/tutorial study for undergraduates. Individual reading, research, fieldwork, or other special project, outlined in advance, approved by, and under the direction of, the faculty adviser most appropriate for the project proposed. A report on the purposes, procedures, and results of the study is required. Prerequisites: senior standing and permission of supervising instructor.

Courses for Graduates Only

URBDP 500 Survey of Urban Planning (3) *Dubrow, Miller* Concepts and logic of planning as a professional activity. Evolution of guiding ideas in relation to changing social, economic, and environmental conditions within the American political framework. Major procedures used by planners. Critical appraisal. Open to graduate students in urban design and planning and to graduate students in architecture seeking the urban design certificate.

URBDP 501 Resources for Urban Planning (2) Introduction to areas of specialized study in environmental planning and policy programming. Organization for planning in the Seattle region; range of activities and emphases, established and changing roles.

URBDP 503 Communications and Analysis (4) *Kasprisin* Development of communication skills understanding within the planning and design process. Presentation of communications as a design process with mental, visual, oral, written, and kinesthetic cognitive actions combined to form communications thinking. Offered: W.

URBDP 507 General Urban Planning Laboratory (5) Laboratory exercise in applied professional planning, utilizing a local study area to examine the realities of problem solving in situations of functional and normative conflict. Integration of analysis, programming, implementation, and presentation phases of the planning process.

URBDP 508 Specialized Planning Laboratory (5, max. 10) Several options are offered each year, such as regional-environmental planning, housing, metropolitan planning, and urban design. Prerequisites: 500 and 507. Additional prerequisite for some sections: urban planning seminar or lecture courses.

URBDP 510 Theories and Methodologies of Planning I (4) Survey of the philosophy, methods, and analytical techniques used in planning public actions and policies, with emphasis on the logic and assumptions upon which these are based. Various planning surveys and methods. Open to graduate students in urban design and planning and to graduate students seeking the urban design certificate. Prerequisite: 500.

URBDP 511 Theories and Methodologies of Planning II (4)

URBDP 512 Research Seminar (2) *Dubrow, Hancock* Development and presentation of advanced topics of individual investigation.

URBDP 520 Quantitative Methods in Urban Design and Planning (4) Methods of statistical and

mathematical analysis in design and planning. Emphasizes the use of computer packages for analyzing urban data. Regression, matrix methods, cohort-survival populations models with examples solved on microcomputers. Prerequisite: college mathematics and basic course in probability and statistics.

URBDP 525 Evaluation in Urban Planning (3) *Miller* Methods and techniques for a priori assessment of physical improvement plans, program designs, public policies. Includes cost effectiveness and matrix or goal achievement, as well as more conventional cost-benefit and cost-revenue forms of analysis. Emphasis on understanding the reasoning and issues in evaluation, and gaining a working competence in at least one of the methods treated.

URBDP 529 Urban Region Geocoding and Land-Based Information Systems (3) *Bell, Westerlund* Multipurpose street network and land-based information systems. The U.S. census geocoding system, automated map overlay systems, and cadastral file information use. Applications to land surveying, urban and transportation planning, and geographic analysis. Offered: jointly with CETS/GEOS 529.

URBDP 530 Land-Use/Transportation Models (3) Review of theoretical basis of several existing models used to forecast urban growth patterns and their associated land-use, transportation, and energy requirements. Model validation studies in relation to empirical studies of urban growth and change. Environmental implications of alternative urban growth patterns. Offered: jointly with CETS 570.

URBDP 537 Open Space Land Uses (3) *Westerlund* Exploration of public and private values of open space; its aesthetic, environmental, recreational, natural resource uses from development sites to metropolitan regions. Methods of open space inventory, analysis; legal and administrative tools for preserving; managing open space; development of multipurpose open space programs in local governments. Prerequisites: 500 and 510.

URBDP 546 Practicum (4, max. 8) Off-campus experience under academic supervision in situations useful to the education of planners, such as planning offices, public bureaucracies, projects related to the environment, cross-cultural matters, and decision making. Assistance in identifying appropriate projects. Credit/no credit only. Prerequisite: permission of instructor.

URBDP 547 Professional Project (1-8) Independent development of client oriented project involving application of professional planning/design methods and approaches. Professional-quality report relates project to larger professional context, addresses alternative approaches/methods and includes an evaluation of the project. Master of Urban Planning students only, taken in lieu of 700. Not recommended for those continuing into Ph.D. program. Credit/no credit only.

URBDP 552 Urban Development and the Real Estate Market (3) Topical survey of urban development. Provides substantive information, methodology, theory, and base for additional courses and seminars in area. Includes urban economy and determinants of land use, capital investment in urban development, land tenure, urban functions and public sector, urban development policy and strategy. Prerequisite: permission of instructor.

URBDP 553 Urban Real Estate Finance and Investment (3) Develops principles for evaluating opportunities to invest in urban real estate, discusses the question of determining the cost of capital for such investments, investigates some problems in the application of an appropriate investment criterion to specific types of opportunities, and explores some aspects of the urban renewal problem. Prerequisite: 552 or permission of instructor.

URBDP 570 Urban Design Process (3) *Kasprisin* The study of concepts, methods, and processes basic

to planning, design, and effectuation. Credit/no credit only. Prerequisite: specialization in urban design or permission of instructor.

URBDP 571 Research and Analytical Methods for Urban Design (3) *Moudon* Conceptual framework for an epistemology of urban design and physical planning. Review of relevant research in related fields and disciplines. Prerequisite: specialization in urban design or permission of instructor.

URBDP 572 Case Studies in Urban Design and Development (3) Wide range of urban design and development projects recently completed. Effective urban design implementation, including design process, decision making, administration, management. Tools and techniques such as design analysis, policy making, regulation, design review, taxation, financing. Prerequisites: 510 and 580 and/or permission of instructor.

URBDP 574 Residential Design: Methods and Practices (3) *Moudon* Review of approaches to housing people in growing metropolises and cities, nineteenth century to present. Emphasis on Western Europe, North and South America. Focus on selected contemporary issues in neighborhood and dwelling design, methods and practices. Offered: jointly with ARCH 593.

URBDP 580 Legal and Administrative Framework for Planning (4) Political, legal, and administrative institutions closely related to the planning process. Issues of devolution of authority and public representation and participation. Legal basis for planning and associated regulation.

URBDP 585 Introduction to Historic Preservation Planning (3) *Dubrow* Theories, methods, and practices associated with historic preservation planning. Overview of preservation planning programs at federal, state, and local levels. Introduction to tools and methods needed to identify, document, evaluate, and plan for protection of historic properties. Provides opportunity to learn fundamentals of preservation planning through practical experience. Offered: Sp.

URBDP 586 Implementation in Preservation Planning and Urban Design (3) Analysis of recent case studies in implementation of preservation planning and urban design in terms of planning and design products and related processes, decision making, administration, management. Tools and techniques include design analysis, policy-making, regulation, design review, taxation, financing, public participation. Prerequisite: introductory course in preservation or urban design.

URBDP 587 Implementation in Preservation Planning and Urban Design (4) Exploration of theoretical, methodological, and practical issues related to the preservation of vernacular architecture and cultural landscapes in the United States. Offered: W.

URBDP 591-592-593 Doctoral Seminar I, II, III (4-4-4) Researchable issues and research methodology. Discussion and critique of selected pieces of recent research work. Presentation and critique of research proposed by members of the seminar. Prerequisite: masters degree or equivalent in a planning discipline.

URBDP 597 Pacific Northwest Bioregion Forum (1) *Kasprisin* Exchange between universities of Pacific Northwest to share ideas and information on planning related ecological issues within the bioregion. Offered: AW.

URBDP 598 Special Topics (1-6, max. 15) Systematic study of specialized subject matter. Topics vary for each quarter, depending upon current interest and needs, and are announced in the preceding quarter. Prerequisite: permission of instructor.

URBDP 700 Masters Thesis (*)

URBDP 800 Doctoral Dissertation (*)

College of Arts and Sciences

Dean

John B. Simpson

50 Communications

Divisional Deans

Richard J. Dunn—Humanities

Arthur Grossman—Arts

David Hodge—Computing, Facilities, and Research

Susan Jeffords—Social Sciences

Gary Christian—Natural Sciences

The departments and schools of the College of Arts and Sciences offer nearly 100 curricula leading to the degree of Bachelor of Arts, Bachelor of Fine Arts, Bachelor of Music, or Bachelor of Science, as well as graduate study leading to master's and doctoral degrees.

Undergraduate Study

Graduation Requirements

A liberal arts education entails mastery of certain basic skills, exposure to a broad range of academic disciplines, and concentration on a particular field of knowledge.

To be awarded a baccalaureate degree, therefore, a student in the College must fulfill requirements in the following areas: Language Skills, Reasoning and Writing in Context, Areas of Knowledge, and a Major. All required courses must be taken for a numerical grade. In addition, the student must present at least 90 credits outside the major department and must meet minimum GPA requirements as specified below. Detailed information on graduation requirements is provided in the *Bachelor's Degree Planbook*, available from the Undergraduate Advising Center, 9 Communications.

Language Skills

To receive a degree from the College of Arts and Sciences, students whose first enrollment in college (whether at the UW or elsewhere) was in autumn of 1985 or later are required to complete 5 credits of English composition with a minimum grade of 2.0. They must also complete course work through the end of the first-year college sequence in a foreign language, with at least a 2.0 in the third-quarter course, or demonstrate equivalent proficiency by passing an examination. Credits used for these two requirements (including the entire first year of foreign language, if taken) cannot also be applied to the Areas of Knowledge requirements described below.

Reasoning and Writing in Context

Students who first entered college autumn quarter 1985, or thereafter, must complete a minimum of 5 credits in Quantitative and Symbolic Reasoning (Q/SR) and 10 credits of courses that emphasize the development of writing skills in the context of an academic discipline. Q/SR and writing courses, if they apply, may

also count toward Areas of Knowledge or major requirements. The writing requirement is in addition to the English composition requirement mentioned in the preceding paragraph.

Areas of Knowledge

The Areas of Knowledge requirement is the means by which the student develops a breadth of knowledge. Undergraduate courses are currently divided into three large fields of knowledge: Visual, Literary, & Performing Arts; Individuals & Societies; and the Natural World. Each student must select at least 20 credits in courses from each of the three fields and an additional 15 credits from any courses in the three fields. Of the 75 total credits required, 15 may be from courses in the student's major department. As an alternative, students may fulfill all or part of this requirement by taking sequences in the College Studies Program. For a description of this program, see the Undergraduate Study section of this catalog.

Course Designators

The following symbols, included in course descriptions in this catalog, indicate which, if any, of the above requirements may be fulfilled by certain courses:

VLPA	Visual, Literary, and Performing Arts (Area of Knowledge requirement)
I & S	Individuals and Societies (Area of Knowledge requirement)
NW	The Natural World (Area of Knowledge requirement)
QSR	Quantitative, Symbolic, or Formal Reasoning
C	English composition

Courses that meet the foreign-language requirement and the additional-writing requirement are not marked. The third-quarter (or second-semester) course in any language meets the language requirement, so long as the entire first-year sequence totals at least 12 credits (regardless of whether the student earned credit for the earlier parts of the sequence). Consult the quarterly *Time Schedule* for writing-intensive courses that meet the additional-writing requirement.

For further explanation see *Undergraduate General Education Requirement Designators* on page 56 of this catalog.

Major

In fulfilling the requirements for a major, the student engages in thorough study of a discipline or subject, aimed at developing knowledge in depth. This part of the student's program is determined by the department, school, or faculty committee with which the major study is pursued. Measured in academic credits, the "major" required of each student consists of 50 or more prescribed credits in a department of the College or a closely related group of departments. Descriptions of major programs are printed below.

Minor

Completion of a minor, available through many departments, is optional. Requirements are shown under individual department undergraduate programs, below, or in a minors handout available in the Undergraduate Advising Center, 9 Communications.

Credits Required Outside Major Department

So that the student will not be tempted to overspecialize, the College limits to 90 the number of credits from a single department that the student may elect to count in the 180 credits required for the baccalaureate degree. A department itself may require no more than 70 credits from courses within the department, and no more than 90 credits from within the department and related fields combined, as constituting its major pro-

gram for the baccalaureate degree. Exceptions to these restrictions may be granted by the Dean.

GPA Required for Graduation

To be eligible to receive the baccalaureate degree, the student must achieve at least a 2.00 cumulative GPA in the major (some departments prescribe a higher minimum GPA for the major), as well as a 2.00 cumulative GPA for all work done in residence at the University.

Applying for Graduation

Students should apply for the baccalaureate degree no later than the first quarter of their final year. Seniors who apply by announced quarterly deadlines will receive Graduating Senior Registration Priority (GSP), allowing them to register first for the following quarter.

All students may graduate under the College requirements published in this catalog. Students may use the department requirements in effect at the time they are admitted to the major, if they graduate within 10 years of that time. Otherwise, the department may insist on more recent requirements. Students wishing to fulfill a previous set of requirements should see an adviser for details and options. All responsibility for fulfilling graduation requirements rests with the student concerned.

Limits on Physical Education and ROTC Courses Allowed Toward Graduation

A student graduating from the College of Arts and Sciences may count a maximum of three credits of 100-level physical education courses taken at the University of Washington, or their equivalents at other collegiate institutions, as elective credits toward graduation. At present, physical education courses are not offered at the University. Up to 18 credits in upper-division ROTC courses also may be counted as elective credits toward graduation, but no lower-division ROTC credits may be counted.

Evening Degree Program

Students may earn a degree in anthropology, business administration, communications, English, history, humanities, political science, psychology, social sciences, or sociology through the Evening Degree Program. Admission to the Program requires the following: 75 college credits, normally to include Arts and Sciences language skills requirements (English composition, one year of a single foreign language), the reasoning-in-context requirement (quantitative and symbolic reasoning), and a substantial portion of the writing-in-context and general education requirements. Students who have only a few remaining prerequisite courses to complete may, under certain circumstances, be admitted as premajors. Admission requirements for departmental majors in the Evening Degree Program—anthropology, business administration, communications (only the media studies option is offered), English, history, political science, psychology, sociology—are identical to requirements for the day programs, shown under departmental listings, below.

Major Requirements

Minimum 2.00 GPA for all courses taken in residence at the UW and minimum 2.25 GPA for courses taken to satisfy the major requirements.

Humanities—60 credits as follows: at least 30 credits from one of the following three tracks: communication and critical thinking; literature and culture; ideas and beliefs in social history; 5-credit senior seminar; remaining credits from courses outside the principal track.

Social Sciences—60 credits as follows: 15 credits of social science survey courses (e.g., ANTH 202, SOC 271, POL S 202); 25 credits from one of the following four tracks: social and ethical theory; law, politics, and

the state; culture and ethnicity; economy and ecology; 15 credits track electives (selected from courses outside the principal track); 5-credit senior seminar.

Major requirements are to include at least 40 credits in 300- and 400-level courses. For course lists, consult the Evening Degree Program adviser (at Evening Degree Program, 5001 25th Avenue NE) or the Undergraduate Advising Center (9 Communications).

Departmental Options—Requirements are the same as for day-school majors and are shown below in the undergraduate program section for each department.

Graduate Study

Students who intend to work toward advanced degrees must apply for admission to the Graduate School and must meet the general requirements outlined in the Graduate School section of this catalog, as well as the requirements established by the graduate faculty in the department or unit offering the degree program. Graduate students must satisfy the requirements for an advanced degree that are in force at the time the degree is to be awarded.

Afro-American Studies

See American Ethnic Studies.

American Ethnic Studies

B504 Padelford

The primary focus of the American Ethnic Studies major is to expose students to key content, methodologies, and theories in the comparative and interdisciplinary study of African Americans, Asian American, and Chicanos in the United States. The department also prepares students for entry into graduate and professional schools.

Undergraduate Program

Adviser
Marguerite Cook
A511 Padelford

Bachelor of Arts

Major Requirements: 55 credits to include 30 credits of core courses and 25 credits in a concentration. **Core:** 15 credits (AES 150, 151, 112). 10 credits (two courses from AFAM 201, AIS 201 or 203, AAS 205, CHSTU 201, to include one in the concentration and one outside the concentration. For Comparative American Ethnic Studies concentration, choose any two.) 5 credits (AES 495). **Concentration:** 25 credits in one of the following: Afro-American Studies, Asian American Studies, Comparative American Ethnic Studies. See department for list of concentration courses.

Faculty

Chair
James K. Morishima

Professors

Bereano, Philip L. * 1975, (Adjunct); JD, 1965, Columbia University; MPP, 1971, Cornell University; technol-

ogy assessment, social values, public policy technology: social values, citizen participation.

Butler, Johnella E. * 1987; EdD, 1979, University of Massachusetts.

Cauce, Ana Mari * 1986, (Adjunct); PhD, 1984, Yale University; social support and networks, at-risk adolescents, community psychology, minority populations.

Mizokawa, Donald T. * 1973; PhD, 1974, Indiana University; human development and cognition.

Morishima, James K. * 1960; PhD, 1967, University of Washington; human development and cognition.

Scott, Joseph W. * 1985; PhD, 1963, Indiana University; political sociology, family sociology, race/ethnic relations.

Walter, John C. * 1989; PhD, 1972, University of Maine; African American history, American women's history, the New Deal.

Associate Professors

Gamboa, Erasmo * 1976; MA, 1973, PhD, 1984, University of Washington; history, Chicano experience, Pacific Northwest.

Kashima, Tetsuden * 1976; PhD, 1975, University of California (San Diego); sociology.

Root, Maria P. P. 1990; MA, 1979, Claremont Graduate School; PhD, 1983, University of Washington; psychology of Asian Americans/multiracial couples.

Salas, Elizabeth 1987; MA, 1977, California State University, Los Angeles; PhD, 1987, University of California (Los Angeles); United States women's history, Chicano history.

Vasquez, James A. * 1975, (Adjunct); PhD, 1973, University of California (Los Angeles); learning (minority youth)/bilingual education.

Yee, Shirley J. * 1988, (Adjunct); PhD, 1987, Ohio State University; U.S. women's history, African-American history, nineteenth-century U.S. social history.

Assistant Professors

Feam-Banks, Kathleen A. 1990, (Adjunct); MS, 1965, University of California (Los Angeles); public affairs, risk communications.

Friaz, Guadalupe M. 1989; PhD, 1989, University of California (Berkeley).

Ginorio, Angela B. * 1981, (Adjunct); PhD, 1979, Fordham University; women and science, violence against women, sexual harassment, racial identity among Latinos.

Guerra, Juan C. 1990, (Adjunct); MA, 1983, PhD, 1992, University of Illinois; rhetoric and composition.

Twine, Frances Winddance 1994, (Adjunct); MA, 1990, PhD, 1994, University of California (Berkeley); racism/antiracism, multiracial/transracial identities, critical theory, Brazil, Britain and U.S.

Lecturer

Maulana, Seyed M. 1984; MUP, 1988, University of Washington.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

American Ethnic Studies

AES 150 Introductory History of American Ethnic Groups (5) I&S Gamboa, Salas Survey of the history of African Americans, Asian Americans, Chicanos, and American Indians in the United States.

AES 151 Introduction to the Cultures of American Ethnic Groups (5) I&S Survey of the cultures of

Chicano, African American, Asian American, and American Indian communities of the United States. Each group's culture is examined in its isolation and in its interaction with mainstream culture.

AES 212 Comparative American Ethnic Literature (5) VLPAI&S Butler Selected texts from the African American, American Indian, Asian American, Chicano/Latino, and Euro-American traditions of American literature. Examines the American Dream, identity, community, conformity, individualism, and family. Explores themes of assimilation, double consciousness, *mestiza* consciousness, and wholeness as an introduction to multiple American voices in literary expression.

AES 250 Race in the American University (5) I&S Racial integration in American institutions of higher education. Entry to, and impact on, American universities by people of color. History of ethnic studies and its relation to other disciplines. Recommended: 150, 151.

AES 251 Politics of Institutional Change (5) I&S Survey of ideologies, values, and structures of political and educational institutions. Emphasis on student experience in conceptualizing, designing, and implementing reforms in American political and educational institutions.

AES 275 Civil Rights (5) I&S Walter Examines the history of civil rights in the United States, focusing on efforts of the dispossessed to gain those rights. What are Civil Rights? How is the content of civil rights determined? What actions are open to groups excluded from those rights?

AES 321 Comparative American Fiction: Race and Ethnicity (5) VLPAI&S Butler Ethnic literature of the United States. Covers themes such as the immigrant experience, the migrant experience, becoming an American, and straddling several worlds, as we define self, wholeness, family, community, and nation. Explains how myths sustain us and images guide us as we encounter and express our American identity in literature.

AES 322 Race and Gender: Historical Perspectives (5) I&S The intersection of race and gender in the lives of women of color in the United States from historical and contemporary perspectives. Topics include racism, sexism, activism, sexuality, and interracial dynamics between women of color groups. Offered: jointly with WOMEN 322.

AES 333 Minorities in the Military (5) I&S Salas The experiences of racial minorities in the military. Topics include segregation of units, desegregation of military, career limitations and opportunities, minority women, military families, racism and role of veterans in civil rights struggles after service.

AES 350 Ethnic Minority Group Life in America (5) I&S Examines the sociological characteristics of ethnic minority group life in America. Covers American ethnic minorities, such as Japanese, Chinese, Filipino, Pacific Islander, Black Americans, Mexican Americans, and Native Americans.

AES 360 Political Economy of Race in the United States (5) I&S Asks the question, "Why do people accept unequal status?" Introduces explanations of the political and economic inequality of third world people in the United States, the accuracy of these explanations, and how they help or hinder efforts of these communities to improve their condition.

AES 361 Ethnicity, Business, Unions, and Society (5) I&S Scott Interrelationships of ethnicity, business, unions, and the larger society. Examines how the business and manufacturing sector is structured financially and sociologically, how this sector performs, and the consequences of these performances for selected ethnic groups in the United States. Prerequisites: introductory course in ethnic studies and either economics or sociology.

AES 363 Intellectual Foundations of Ethnic Studies (5) I&S Seeks to define the essence of a "discipline" and to locate ethnic studies on the spectrum of disciplines.

AES 364 American Ethnicity in the Twenty-first Century (5) I&S Through analysis of past and present literature and trends, examines the potential for extinction and/or preservation of ethnicity and ethnic American culture in twenty-first century America.

AES 461 Comparative Ethnic Race Relations in the Americas (5) I&S Sketches the ethnoracial systems operating in American society. Studies these systems as systems and examines their institutional and interpersonal dynamics. Compares ethnoracial systems in order to arrive at empirical generalizations about race/ethnic relations in the Americas. Offered: jointly with SOC 461.

AES 462 Comparative Race and Ethnic Relations (5) I&S Scott Race and ethnicity are examined as factors of social differentiation in a number of Western and non-Western societies in Europe, Africa, Asia, and the Americas. Recommended: AES/SOC 362. Offered: jointly with SOC 462.

AES 469 Ethnicity, Gender, and Media (5) I&S Media portrayal of women and people of color; creation of alternative media systems by women and people of color in the United States. Offered: jointly with CMU/WOMEN 469.

AES 494 Community Practicum and Internship (3-5, max. 10) Faculty supervised practicum and internship experience in variety of settings and agencies, e.g., ethnic specific agencies, government and civic community-based offices. Students contribute skills and knowledge to respective communities and gain experience by working with professionals and community organizers. Credit/no credit only. Recommended: AES major with junior or senior standing.

AES 495 Senior Seminar: Senior Thesis (5) I&S Focuses on the individual research topics of senior American Ethnic Studies majors. All students focus on a central comparative theme.

AES 498 Special Topics in American Ethnic Studies (1-5, max. 15) I&S Designed to provide the student an opportunity to concentrate on one specific aspect of American Ethnic Studies through a comparative, interdisciplinary approach.

AES 499 Independent Study or Research (1-5, max. 10) Independent readings and/or research under the supervision of a faculty member. Open to qualified students by permission of instructor.

Afro-American Studies

AFRAM 150 Afro-American History (5) I&S Introductory survey of topics and problems in Afro-American history with some attention to Africa as well as to America. Basic introductory course for sequence of lecture courses and seminars in Afro-American history. Offered: jointly with HSTAA 150.

AFRAM 200 Proseminar in Afro-American Studies (5) I&S Interdisciplinary survey of Afro-American Studies, presenting the unique Black perspective on the relevant disciplines in arts and sciences.

AFRAM 201 Introduction to Black Studies (5) I&S History, culture, religion, institutions, politics, economics, arts, and psychology of peoples of African descent as developed from experience in both the old and new worlds. Multidisciplinary analysis of social life from a Black perspective as illustrated in selected historical and contemporary writings.

AFRAM 211 Perspectives on African American Language (5) VLPA Aspects of the dialect spoken by the majority of Americans of African descent. History, linguistic description, and exploration of its artistic uses. Recommended: introduction to linguistics, Afro-American literature, and/or African literature.

AFRAM 212 Creative Expression for African-American Children (5) VLPA/I&S New and developing theories and practices of creative expression for African-American children. Students demonstrate techniques and practices learned.

AFRAM 214 Survey of Afro-American Literature (5) VLPA Butler A chronological survey of Afro-American literature in all genres from its beginnings to the present day. Emphasizes Afro-American writing as a literary art; the cultural and historical context of Afro-American literary expression and the aesthetic criteria of Afro-American literature. Offered: jointly with ENGL 258.

AFRAM 250 The Afro-American and the United States Supreme Court (5) I&S Laws passed by Congress, and the Constitution as interpreted by the Supreme Court, dealing with the conditions of Afro-Americans in the United States.

AFRAM 260 Black Male/Female and Family Relationships (5) I&S The Black family in the United States as a social institution. Effects of residence in a race-conscious society on interpersonal relationships between Black men and women. Exploration of proposals for strengthening the Black family in the United States. Offered: jointly with SOC 260.

AFRAM 261 The African American Experience Through Literature (5) VLPA/I&S Scott Instructs students in hermeneutical and sociological methods of analyses. Analyzes selected novels, essays, poems, short stories, and plays with the purpose of understanding the structures and functions of both society and personality. Offered: jointly with SOC 261.

AFRAM 270 The Jazz Age (5) I&S Walter Interdisciplinary study of the period after World War I to the Great Crash. Afro-American and Anglo-American currents and impulses that flowed together in the Roaring Twenties. Covers politics of normalcy, economics of margin, literature of indulgence and confusion, transformation of race relations, and cultural influence of jazz.

AFRAM 272 History of the South Since the Civil War (5) I&S Walter Reconstruction and its aftermath, the Agrarian (Populist) revolt, disfranchisement and segregation, the effects of urbanization and subsequent depression, desegregation, and the struggle for civil rights. Examines the New South, the conflict of ideology with structural and material change, and the place of the South in contemporary America.

AFRAM 306, 307, 308 Basic Swahili (5, 5, 5) Maulana Structure of spoken and written Swahili. Concentration on the acquisition of elemental conversational skill and an introduction to written texts of graded difficulty. Prerequisites: 306 for 307; 307 for 308.

AFRAM 309 Intensive Basic Swahili (15) Maulana First-year Kiswahili language. Introduces students to Kiswahili and allows them to explore and understand not only the language but also the diverse cultures and customs of the people of East Africa. Provides a basic foundation in speaking, reading, and writing. Primary emphasis on basic structure of Kiswahili and its operation. Offered: S.

AFRAM 320 Black Women in Drama (5) VLPA Character types of Black women as represented in plays by Black women. Some Black male playwrights are juxtaposed with Black female writers for comparative analysis. Playwrights include Georgia Douglas Johnson, Angelina Grimké, Alice Childress, Lorraine Hansberry, Ira Aldridge, LeRoi Jones. Prerequisites: 200, 212 or permission of instructor.

AFRAM 321 History of Afro-American Women and the Feminist Movement (5) I&S "Feminist Movement" from early nineteenth century to present. Treats relationship between Black and White women in their struggle for independence, at times together and at times apart. Discusses the reasons, process, and re-

sults of collaboration as well as opposition. Examines recent and contemporary attempts at cooperation. Offered: jointly with WOMEN 321.

AFRAM 323 African-American Women's History (5) I&S Yee Survey of African-American women's experience in United States, 1600 to present. Includes: social, political, economic status of Black women in slavery, freedom, education, activism, Civil Rights, women's rights, other social movements. Explores individual and collective interactions with African-American men, white men and women, other people of color. Offered: jointly with WOMEN 323.

AFRAM 330 The Social Psychology of the Black Community (5) I&S Internal dynamics of the African American community. Sociocultural factors influencing psychological development of African Americans; social origins, institutional formation, and impact of white racism; social stratification in, and the political economy of, the African American community; structural and psychological characteristics of domination; social determinants for social transformations.

AFRAM 334 The Sixties in America: Conflict, Confrontation, and Concession (5) I&S Walter Politico-cultural movements that collided in "The Elvis Decade," 1960-1972. Includes politics of confrontation and civil disobedience, economics of "guns and butter," literature of conflict and angst, polarization of the arts, transformation of race relations, role of Rock, and influence of domestic politics on foreign relations. Recommended: 150/HSTAA 150 and 270.

AFRAM 340 The Harlem Renaissance: A Literary Study (5) VLPA Highlights Harlem Renaissance—1912 through mid-1930's—as establishing a role for twentieth-century African American writer, encompassing literature, politics, and decolonization of the image of Africa, and solidifying integrationist and nationalist schools of thought. Examines images, themes, and characterizations in creating a literary aesthetic simultaneously American and African American.

AFRAM 358 Literature of Black Americans (5) VLPA Butler, Moody Selected writings—novels, short-stories, plays, poems—by Afro-American writers. The historical and cultural context within which they evolved. Differences between Afro-American writers and writers of the European-American tradition. Emphasis varies. Offered: jointly with ENGL 358.

AFRAM 370 Afro-American Political Thought (5) I&S Political ideologies and philosophies of pivotal Afro-American historical figures and the conditions under which these ideologies are developed, rejected, and transformed. How ideologies relate to solution of Afro-American political problems. Prerequisites: SOC 362 and PHIL 110 or permission of instructor.

AFRAM 401, 402, 403 Intermediate Swahili (5, 5, 5) VLPA Readings from prose to traditional poetry. Emphasis on acquiring an ability to manipulate ideas in Swahili. Review of structure. Prerequisites: 308 or equivalent for 401; 401 for 402; 402 for 403.

AFRAM 437 Blacks in American Law (5) I&S Walter Historical continuity for changing relationship between American jurisprudence and Black Americans, 1640-1986. Statutory and case law which determined role of Blacks in American society, and use of law by Blacks to gain civil and personal rights. Prerequisite: 271, 334, or upper level HSTAA. Recommended: junior, senior, or appropriate graduate standing.

AFRAM 480 Contemporary Issues in Afro-American Studies (5) I&S Five issues selected for their contemporary importance in Afro-American studies. Synthesis of different perspectives and approaches to the study of the Black experience. Prerequisites: senior standing and 201 or completion of Afro-American Studies core courses.

AFRAM 490 Research in the Black Community (1-5, max. 10) Identification and investigation of the

problems and needs of the Black community. Methods and alternatives of approaching these problems and needs. Students designate their areas of interest and subsequently pursue research and problem solving. Prerequisite: permission of instructor.

AFRAM 492 Special Topics in Afro-American Studies (3-6, max. 15) I&S Topics in which students and faculty have developed an interest as a result of work done in other classes or as a result of the need to investigate in greater depth Afro-American Studies issues. Topics vary. Prerequisite: 200 or permission of instructor.

Asian American Studies

AAS 205 Asian American Cultures (5) I&S Asian American subcultures; evolution of Asian American cultures in the United States from 1850 to 1950—immigration patterns, evolution of subcultures, evacuation, interracial relations, assimilation, and signs of social disorganization.

AAS 206 Contemporary Problems of Asian Americans (5) I&S Recent Asian American issues from 1950 to the present. Topics include ghetto communities, civil rights, identity problems and ethnicity, social organizations, political movements, and recent immigration.

AAS 210 Asian American Identity (5) I&S Examines the nature of Asian American identity from a multidisciplinary approach. Explores influences and manifestations of Asian American identity, using literature, history, and other texts. Topics to include gender issues, interracial relationships, and Amerasians. Prerequisites: 205, 206.

AAS 220 Asian American Stereotypes in the Media (5) I&S Asian stereotypes popularized by American literature, film, radio, and television and their effects on Asian American history, psychology, and community.

AAS 305 Asian American Cultures for Teachers (5) I&S Specially designed for teachers who wish to learn more about the history, culture, and current concerns of Asians in the United States. Implications for elementary and secondary school are considered. Prerequisite: permission of instructor.

AAS 350 Chinese American History and Culture (5) I&S Experience of the Chinese in America from 1850 to the present. Transformation from an immigrant to Chinese American community: immigration patterns, anti-Chinese movements, ethnic sociopolitical and economic institutions, community issues, Chinese American culture. Recommended: 205.

AAS 360 Filipino American History and Culture (5) I&S *Revilla* History and culture of the Filipino in America and the influence of an admixture of Filipino, Spanish, and American traditions on the Filipino immigrant and his or her descendants. Recommended: 205.

AAS 370 Japanese American History and Culture (5) I&S Historical roots and subsequent changes in the Japanese American group examined through an interdisciplinary approach. Topics include historical events, culture, values, social and community structures, institutions, occupations, and future orientations. Recommended: 205.

AAS 372 Internment Camps in North America: United States and Canada (6) I&S Comparative study of United States and Canadian internment camps incarcerating Japanese Americans and Japanese Canadians during World War II. Focuses on early history, dislocation and internment, effects (disorganization and adjustments), effects on the internees and society, and present situation.

AAS 375 The United States Supreme Court and Asian America (5) I&S Covers relevant decisions of the United States Supreme Court related to Asian Americans, examines the effects of those decisions on

that ethnic group. Includes evolving notions of equal protection, due process and relevant statutes such as the 1964 Civil Rights Act. Prerequisites: 205, 206, 370.

AAS 380 Asian American Communities and Social Policies (5) I&S History, culture, social organization, leadership patterns and interethnic relations of Asian American (Chinese, Filipino, Japanese, and Korean) communities. Origins and impact of social policies relevant to Asian American communities. Prerequisite: 205 or equivalent or permission of instructor.

AAS 385 Asian Americans: The Law and Immigration (5) I&S Traces the evolution of United States immigration law and policy from the nineteenth century to modern day, from free immigration to immigration restriction, through the elimination of race as a criterion, and culmination in the passage of the Simpson-Mazzoli bill. Prerequisites: 205, 206.

AAS 390 Asian American Family and Personality (5) I&S Examines the changes of Asian American family patterns through successive generations from the late 1800s to the present. The influence of Asian culture, Asian American experience, family patterns, and racial discrimination examined to understand their impact on the personality of Asian Americans. Prerequisite: 205 or 206.

AAS 392 Asian American Women (5) I&S History of and contemporary issues related to Asian American women in the United States. Prerequisite: 205 or 206. Offered: jointly with WOMEN 392.

AAS 395 Southeast Asian Americans: History and Culture (5) I&S **AAS 401 Asian American Literature to the 1940's (5) VLP** Asian American literature from nineteenth-century immigrants to the 1940's. Emphasis on Chinese, Japanese, and Filipino writings detailing the experience and sensibility of first generation immigrants. Early twentieth-century writing focus on the development not only of Asian American community, but also of second generation American-born Asian American writers.

AAS 402 Contemporary Asian American Literature (5) VLP Asian American literature from the 1940s to the present. Emphasis on the development of attitudes and identities in contemporary Asian American literature, the role of the writer in a minority culture, and the relationship of literature to self and society. Recommended: 401.

AAS 403 Survey of Asian American Poetry (5) VLP Asian American poetry, nineteenth century to present. Readings include poetry of the early immigrant to America, cultural imperatives transferred from old world to new world, and establishment of an Asian American identity in poetry from 1870's through 1890's. Prerequisites: ENGL 104-105 or either ENGL 111, 121, or 131.

AAS 488 Special Topics (5, max. 10) I&S Prerequisite: 205 or permission of instructor.

AAS 489 Undergraduate Independent Study (1-6, max. 10) Prerequisites: 205 or equivalent and permission of instructor.

Chicano Studies

CHSTU 200 Latinos in the United States (5) I&S *Gamboa, Salas* Historical, social, and economic experience of Latinos in the United States. Major themes include education, labor, class, and gender identity. Analyzes rapid growth of old and newly established Latino communities, based on emigration from Latin America.

CHSTU 201 Introduction to Chicano Studies (5) I&S *Friaz, Gamboa, Salas* Selected themes in Chicano experience; studies in Chicano politics and Chicano socioeconomic concerns.

CHSTU 202 Intermediate Chicano Studies (3) I&S *Gamboa* Follows 201. Further understanding of selected themes in Chicano experience; studies in

Chicano politics and Chicano socioeconomic concerns.

CHSTU 207 Chicano Consumer: Past and Present (3) I&S Coordinates Chicano economic history with contemporary economic problems of Chicanos; emphasizing social, psychological, and financial aspects that deprive the Chicanos of their economic freedom.

CHSTU 254 History of Chicanos in Washington State (5) I&S *Gamboa* History, extent, and results of the Chicano presence from earliest Spanish explorations to the present; contemporary problems of Chicanos in a broader national context.

CHSTU 255 Mexican Women: Past and Present (5) I&S *Salas* Survey of women in Mexican society from Meso-American times to the 1940s.

CHSTU 256 Chicanas: Gender and Race Issues (5) I&S *Salas* Contemporary issues in the Chicana movement since the 1940s. Issues range from feminism and Chicana political, educational, and social organizations, to work, family, health, and the arts.

CHSTU 260 Introduction to Chicano Politics (5) I&S Surveys the political position and activities of Mexican-American peoples in the United States from two perspectives: (1) Chicanos as objects of the political process of United States life, (2) contributions of the Chicano people to United States politics.

CHSTU 330 Chicanos Themselves (5) I&S Explores the issue of Chicano, or Mexican-American, identity. Examines statements of selfhood by Chicanos, studied in order to understand the relationship between individual and society in creating identity.

CHSTU 352 Mexican Immigration: A Comparative Analysis (5) I&S *Gamboa, Salas* Examines and compares constant Mexican immigration with that of other immigrants to the United States as one of the most important issues confronting Chicanos and other Americans in the United States.

CHSTU 354 Latinos in the United States Labor Market (5) I&S Role of Mexican American, Puerto Rican, Cuban American, Central and South American wage earners in United States labor market. Institutional approach to study of markets. Analyzes effects of educational system, market discrimination, labor unions on economic outcomes for Latino men and women. Prerequisite: 201, 200, 260, or AES 350.

CHSTU 356 The Chicano Family (5) I&S *Salas* The historical, psycho-social, and sociocultural role of the Chicano family from Meso-American times to the present.

CHSTU 391 Independent Study (1-6, max. 10) *Friaz, Gamboa, Olguin, Salas* Students work individually or in teams. Prerequisite: permission of instructor.

CHSTU 405 Advanced Chicano Studies (5) I&S *Gamboa* Chicano culture as related to current values and health practices, Mexican labor and immigration in both historical and contemporary setting. Chicano politics 1848 to present. Recurrent problems of Chicanos in society; social movement for acceptance and for self-determination.

CHSTU 484 Chicana Expressive Culture (5) VLP/I&S Expressive culture of Mexican women in United States. Cultural and artistic practices in home, film, literary, performing, and visual arts. Focuses on ways Chicana visual artists re-vision traditional iconography. Prerequisites: 303, 322, and one additional 300-level course beyond 303 or permission of instructor. Offered: jointly with SPAN 484/WOMEN 484.

CHSTU 491 Special Topics in Chicano Studies (3-6, max. 10) I&S *Friaz, Gamboa, Olguin, Salas* Interdisciplinary course concentrating on one or more aspects of the Chicano experience.

CHSTU 494 Community Practicum and Internship (3-5, max. 10) Faculty-supervised practicum and internship experience in variety of settings and agencies, e.g., ethnic specific agencies, Higher Education Coordinating Board, government and civic community based offices. Students contribute newly acquired skills and knowledge to respective communities and gain experience working with professionals and community organizers. Recommended: junior or senior AES major.

American Indian Studies

C514 Padelford

The American Indian Studies Center, affiliated with the Department of Anthropology, offers courses focusing on American Indian cultures, perspectives, and problems, with the goal of enriching the liberal education of the general student. The curriculum offers courses in the humanities and social sciences. A diversity of courses surveys Indian cultural developments in art, music, language, and literature and offers performance and studio experience. Other courses explore the historical and contemporary interaction of Indians in American society and the application of social science theories to Indian societies and institutions. Since American Indians have been such an integral part of the historical, cultural, and legal development of this country, these courses provide students with an opportunity to broaden their understanding of their ethnic origins.

Major requirements: A major emphasizing American Indian Studies is available through the Department of Anthropology. All AIS courses except AIS 102 may count toward that major. No more than 6 credits of any combination of AIS 253 and AIS 350 may be counted toward the major.

Minor

Minor Requirements: Minimum 25 credits to include 10 credits of introductory course work in American Indian studies; 9-15 credits of course work on Native American ethnology, archaeology, history, or governmental relations; and 6-10 credits of course work in art, art history, music, or literature. See adviser for approved course options. Students majoring in anthropology may also minor in American Indian studies, so long as no credits are counted for both.

Faculty

Director

James Nason

Professors

Findlay, John M. * 1987; PhD, 1982, University of California (Berkeley); history of the American West.

Hunn, Eugene S. * 1972; PhD, 1973, University of California (Berkeley); cognitive anthropology, ethnobiology, cultural ecology and evolution, North American Indians.

Hutterer, Karl L. * 1990; PhD, 1973, University of Hawaii; prehistory, ethnology of Southeast Asia, East Asia.

Nason, James * 1970; PhD, 1970, University of Washington; sociocultural anthropology, museology, material culture, cultural heritage, Micronesia, North America.

Smith, Eric A. * 1980; PhD, 1980, Cornell University; ecology, evolutionary theory, hunter-gatherers, demography, Native Americans, Canadian Inuit.

Stein, Julie K. * 1980; MA, 1976, PhD, 1980, University of Minnesota; New World archaeology, Northwest coast archaeology, geoarchaeology, shell middens.

White, Richard * 1990; PhD, 1975, University of Washington; American West, American Indian, environmental history.

Witherspoon, Gary J. * 1987; PhD, 1970, University of Chicago; language, art and history of the Southwest.

Associate Professors

Hollow, Walter B. 1978; MD, 1975, University of Washington; Native Americans: health issues, health services research, role of traditionalism in chronic disease.

Oliver, Marvin E. 1974; MFA, 1973, University of Washington; Northwest coast Indian art, Native American art, wood design, glass, metals.

Assistant Professors

Bending, Raymond L. 1987; PhD, 1992, University of Washington; American Indian child welfare practice and policy, social work in American Indian communities.

Harmon, Alexandra J. 1991; JD, 1972, Yale University; MA, 1990, PhD, 1995, University of Washington; American Indian history and law, history of American West and Pacific Northwest.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

AIS 110 Musical Traditions of Native North America (3) VLPA Diverse musical traditions of Native North America. Examines historical and contemporary music related traditions within the following areas: Northwest Coast, Arctic, Southwest, Great Basin, Plateau, Plains, and Eastern Woodlands. Emphasis on listening, identification, and exploration of the relationships between music and culture.

AIS 113, 114, 115 American Indian Language: Navajo (5, 5, 5) Witherspoon Conversation, reading, and writing in Navajo. Oral literature and other aspects of Navajo culture integrated into language study. Prerequisites: 113 for 114; 114 for 115.

AIS 151 Indian Art of Northwest Coast (3) VLPA Oliver Studio course on Pacific Northwest coast Indian/Eskimo art. Traditional and contemporary forms; principles of form, style, and techniques; values that influence Indian/Eskimo art styles.

AIS 170 Survey of North American Indian Art (5) VLPA Major Indian art traditions of North America. Precontact and early-contact-era traditions and the evolution of Indian art forms in contemporary times. Design and techniques in Indian art.

AIS 201 Introduction: Ethnohistory of Native North America (5) I&S Survey of Native American cultural origins/histories from archaeological, historical, and native perspectives: presents traditional creation accounts and oral histories, archaeological and ethnohistorical evidence. Focus on cultural dynamics-change and continuity through prehistoric, proto-historic, colonial, and American periods.

AIS 202 Introduction to Contemporary Experience in Indian America (5) I&S Survey of contemporary Native American people, cultures, and issues. Focus on modern experiences through readings from Native American autobiographies, contemporary narratives and literature, and reports of important topical issues, e.g., water rights, Indian gaming, treaty law.

AIS 203 Introduction: Philosophical and Aesthetic Universes (5) I&S Social constructions of reality, aesthetic as well as imaginative, as conceptualized by approximately five traditional American Indian cultures from different regions of North America.

AIS 240 Native North American Women (5) I&S Bentz Indian women in the social structure; historical and contemporary roles; changes in male-female relationships; problems and opportunities of contemporary women; the feminist movement and Indian rights.

AIS 253 Wood Design (3, max. 9) VLPA Oliver Studio course in wood sculpture utilizing Pacific Northwest Indian hand tools. Properties of woods and their uses.

AIS 311 North American Indians: Pacific Northwest (5) I&S Traditional societies of the Pacific Northwest from southern Alaska to northern California; significant areal features, such as rank, totemic crests, guardian spirits, the potlatch, fishing, and foraging illustrated by comparisons and by selected ethnographic sketches. Continuity between past and present. Prerequisite: ANTH 100 or 202 or permission of instructor.

AIS 312 North American Indians: The Intermountain West (5) I&S Traditional cultures of Columbia and Fraser Plateau region and Great Basin: Interior Salish, Sahaptin and Nez Perce, Paiute, and their neighbors. Regional features of language, ecology, social life, myth, religion. Contemporary issues of reservation life, government, ethnic conflict in historical perspective. Recommended: ANTH 100 or 202.

AIS 316 North American Indians: The Southeast to 1850 (5) I&S Emphasis on prehistory, social organization, belief system, political alliances. European contact, effects of plantation slavery and slave trade on Indians, issues of ethnicity, and consequences of removal policies.

AIS 317 North American Indians: The Southwest (5) I&S Witherspoon Overview of history and ethnography of the Southwest with emphasis on Apacheans, Pueblos, and Pimans/Yumans. Social organization, religion, worldview, and expressive culture of such specific groups as Navajo, Hopi, Zuni, Tewa, and Papago. Prerequisite: ANTH 100 or 202.

AIS 330 United States-Indian Relations (5) I&S Witherspoon Trends in interrelations of native Americans and European immigrants since 1500. Current problems in Indian-White relationships examined in historical context. Development of Indian policy and consequences of major legislative acts, including the Allotment Act, Indian Reorganization Act, termination and relocation. Implications for contemporary Indian education, religion, and health.

AIS 335 Legal Problems of the American Indian (5) I&S Legal status of the American Indian with emphasis on the reservation; heirship, land ownership and use; mineral, water, fishing, and hunting rights; and problems related to self-determination.

AIS 340 Indian Children and Families (5) I&S Bentz Cross-cultural survey of Indian child rearing, family structure, and related social issues. Includes historical changes in family structure, value orientation and adaptation to a bicultural environment, education, child welfare, health problems, and aging.

AIS 350 Two-Dimensional Art of the Northwest Coast Indians (3, max. 9) VLPA Oliver Studio course emphasizes principles of structure and style of two-dimensional art which can be found on many old, traditional Northwest Coast pieces, such as painted storage boxes and chests, house panels, and ceremonial screens. Students apply these principles in creating a variety of graphic projects.

AIS 377 Contemporary American Indian Literature (5) VLPA Creative writings-novels, short stories, poems-of contemporary Indian authors; the traditions out of which these works evolved. Differences between Indian writers and writers of the dominant European/American mainstream. Offered: jointly with ENGL 359.

AIS 431 History of American Indian Education (5) I&S Traditional and European-introduced methods of

schooling, the federal role in Indian education, and contemporary Indian education issues. Special attention to Indian concepts of learning; boarding school education; the role of the Bureau of Indian Affairs; current trends in bilingual and bicultural education for Indians.

AIS 450 American Indian Song and Dance Tradition: Performance (3) VLPA Performance of various American Indian social dances, songs, and games. In-depth study of various American Indian vocal styles.

AIS 466 Special Studies in American Indians (3, max. 6) I&S Delineation and analysis of a specific problem or related problems in American Indian Studies. Offered occasionally by visitors or resident faculty. Prerequisite: permission of instructor.

AIS 475 Special Topics in Indian Studies (1-5, max. 15) I&S Current research and readings in American Indian Studies content areas.

AIS 499 Independent Study (1-5, max. 15) Readings and/or research under faculty supervision.

Anthropology

M32 Denny

Anthropology is the study of the physical, cultural, and social development; comparative biology; and variation in the customs and beliefs of human beings. The primary fields within the discipline include archaeology, biocultural anthropology, and sociocultural anthropology, with anthropological linguistics being included in the latter. All of these fields are represented in the department's curriculum and in the faculty's research.

Undergraduate Program

Director of Student Services
Diane Guerra
243 Denny

Bachelor of Arts

Major Requirements: BIO A 201, any two ANTH-prefix courses numbered 200 through 210, ARCHY 205; one of the following: STAT 220, STAT 311, Q SCI 381, BIOS 472; 30 additional credits in anthropology selected from both upper- and lower-division courses, but excluding ANTH 100, AIS 102, ARCHY 105, and BIO A 100, which may not be counted toward the major. No more than 6 credits from any combination of AIS 253 and AIS 350 may be counted toward the major. At least 25 credits in the major must be with the grade of 3.0 or above. Courses in which a grade of 1.9 or less is received may not be counted toward the 55 credits required. Transfer students must complete a minimum of 15 upper-division credits in anthropology at the UW. Required courses in anthropology taken by transfer and returning students more than 10 years past must be repeated; in limited circumstances, this requirement may be waived by petition to the departmental undergraduate adviser. Students who plan to undertake graduate work should elect one foreign language.

Minor

Minor Requirements: 30 credits (at least 15 credits at upper-division level) from courses with the following prefixes: ANTH, ARCHY, BIO A, and AIS. ANTH 100 can be counted but is not required. Minimum grade of 2.0 required in each course. Students majoring in anthropology may also minor in American Indian Studies, so long as no course credits are counted for both.

Graduate Program

David H. Spain, Graduate Program Coordinator

The department recognizes three principal subfields of anthropology within its faculty, programs, and curriculum: archaeology, biocultural anthropology, and sociocultural anthropology (including anthropological linguistics). The department offers three distinct Ph.D. programs within the subdisciplines and an M.A. program in biocultural anthropology. A Ph.D. program in sociocultural anthropology with emphasis in ethnomusicology is offered in cooperation with the School of Music. The M.A. degree may be earned within the Ph.D. programs as a thesis or nonthesis degree. Graduate students are admitted to, and specialize in, their chosen subfields from the beginning of their graduate studies.

Admission Requirements

Applicants are admitted to begin study only during autumn quarter and are advised to have their application materials completed by the beginning of the prior January. A complete application file includes the Graduate School Application, two official transcripts, the Supplementary Information Form, three recommendations, a statement of purpose, and scores from the Graduate Record Examination (GRE). Foreign students (except for those from English-speaking countries) are required to take the TOEFL exam as well as the GRE.

Program Requirements

For each of the respective graduate programs, completion of the core requirements and a reading knowledge of one foreign language are required. Under the guidance of a supervisory committee selected from his/her subfield, the student shapes an individual program. The major areas emphasized in the faculty and curriculum are: North America, Africa, Japan, China, Southeast Asia, and Oceania. The M.A. programs usually require two years of graduate study; the Ph.D. programs usually require at least three years beyond the master's level, including a year of independent field research and a year to organize field materials and write a doctoral dissertation.

Financial Aid

Fellowships are awarded to a few outstanding entering students. A limited number of teaching and research assistantships and hourly positions are offered primarily to advanced students. Some students may be qualified for a few National Resource Fellowships for Language Studies. The Ronald J. Olson Fellowship provides resident tuition for three quarters to an entering student with interests in Native North America. Work study positions are also available for eligible graduate students.

Chair

Stevan Harrell

Professors

Chrisman, Noel J. * 1973, (Adjunct); Ph.D. 1966, University of California (Berkeley); community partnership research, clinical cultural competence, ethnic health beliefs and practices.

Dunnell, Robert C. * 1967; Ph.D. 1967, Yale University; archeological theory, field method, eastern North America.

Grayson, Donald K. * 1975; Ph.D. 1973, University of Oregon; North American prehistory, paleoecology, vertebrate faunal analysis, history of archaeology.

Harrell, Stevan * 1974; Ph.D. 1974, Stanford University; family systems, demography, social evolution, religion, China, Taiwan.

Hunn, Eugene S. * 1972; Ph.D. 1973, University of California (Berkeley); cognitive anthropology, ethnobiology, cultural ecology and evolution, North American Indians.

Hutterer, Karl L. * 1990; Ph.D. 1973, University of Hawaii; prehistory, ethnology of Southeast Asia, East Asia.

Keyes, Charles F. * 1965; Ph.D. 1965, Cornell University; ethnic group relations, sociology of Theravada Buddhism, mainland Southeast Asia.

Lockard, Joan S. * 1974, (Adjunct); Ph.D. 1963, University of Wisconsin; primate social behavior, animal behavior, sociobiology, human ethology, neurobehavior.

Nason, James * 1970; Ph.D. 1970, University of Washington; sociocultural anthropology, museology, material culture, cultural heritage, Micronesia, North America.

Newell, Laura L. * 1957; Ph.D. 1967, University of Washington; primatology growth and development, human biology, evolutionary aspects of dermatoglyphics.

Nute, Peter E. * 1970, (Emeritus); Ph.D. 1969, Duke University; genetics and evolution.

Sakata, Hiromi L. * 1977, (Adjunct); MA, 1968, Ph.D. 1976, University of Washington; ethnomusicology.

Smith, Eric A. * 1980; Ph.D. 1980, Cornell University; ecology, evolutionary theory, hunter-gatherers, demography, Native Americans, Canadian Inuit.

Spain, David H. * 1968; Ph.D. 1969, Northwestern University; psychocultural anthropology, African studies, research methods.

Stein, Julie K. * 1980; MA, 1976, Ph.D. 1980, University of Minnesota; New World archaeology, Northwest coast archaeology, geoarchaeology, shell middens.

van den Berghe, Pierre L. * 1965; Ph.D. 1960, Harvard University; comparative sociology, stratification, race and ethnic relations, kinship, sociobiology.

Wenke, Robert J. * 1975; Ph.D. 1975, University of Michigan; archaeology of Egypt, the Middle East, and quantitative methods.

Winans, Edgar V. * 1957; Ph.D. 1959, University of California (Los Angeles); politics, economics and law, Africa, the developing world.

Witherspoon, Gary J. * 1987; Ph.D. 1970, University of Chicago; language, art and history of the Southwest.

Associate Professors

Anagnost, Ann S. * 1990; Ph.D. 1985, University of Michigan; ethnography of the state, ideology and popular culture, peasant society; China.

Eck, Gerald G. * 1974; Ph.D. 1977, University of California (Berkeley); primate paleontology, especially African Pliocene-Pleistocene monkeys and hominids.

Ellingson, Terry J. * 1983, (Adjunct); Ph.D. 1979, University of Wisconsin; MA, 1979, University of Chicago; ethnomusicology.

Horn, Beverly M. * 1976, (Adjunct); Ph.D. 1975, University of Washington; cross-cultural research in maternal-child nursing.

Ivy, Marilyn J. * 1992; Ph.D. 1988, Cornell University; contemporary critical theory, anthropology of modernity, Japanese culture, politics and history.

Jacobs, Sue-Ellen * 1974, (Adjunct); Ph.D. 1970, University of Colorado (Boulder); anthropological studies of women, applied anthropology, ethnohistory, Native North America.

Kahn, Miriam * 1986; PhD, 1980, Bryn Mawr College; museology, ecology, agricultural development, food symbolism, gender relations, Malaysia and Oceania.

Leonetti, Donna * 1978; PhD, 1976, University of Washington; biological and sociocultural interactions in population adaptation, epidemiology, Japanese Americans.

Oliver, Marvin E. 1974; MFA, 1973, University of Washington; Northwest coast Indian art, Native American art, wood design, glass, metals.

Rhodes, Lorna A. * 1983; PhD, 1973, Cornell University; medical anthropology, symbolic anthropology, South Asia, religion, psychiatry.

Sorensen, Clark W. * 1989, (Adjunct); PhD, 1981, University of Washington; Korea, social change in East Asia, development, ethnic identity.

Waterman, Christopher * 1985, (Adjunct); PhD, 1986, University of Illinois; ethnomusicology.

Assistant Professors

Close, Angela E. 1995; MA, 1974, PhD, 1976, Cambridge University (UK); archaeology of North Africa.

Fox, Aaron A. 1994; PhD, 1995, University of Texas (Austin); linguistic anthropology, ethnomusicology, working-class culture, rural U.S.

Hagstrum, Melissa 1991; PhD, 1989, University of California (Los Angeles); New World complex societies, household archaeology, craft specialization, ceramics.

Harmon, Alexandra J. 1991; JD, 1972, Yale University; MA, 1990, PhD, 1995, University of Washington; American Indian history and law, history of American West and Pacific Northwest.

Pemberton, John * 1992; PhD, 1989, Cornell University; colonial/postcolonial historiography, cultural politics, Indonesian studies.

Shell-Duncan, Bettina 1995; MS, 1988, University of Wisconsin; PhD, 1994, Pennsylvania State University; determinates of child survival.

Tracer, David * 1991; PhD, 1991, University of Michigan; biological anthropology, human ecology, fertility, nutrition, adaptation, Melanesia.

Twine, Frances Winddance 1994, (Adjunct); MA, 1990, PhD, 1994, University of California (Berkeley); racism/antiracism, multiracial/transracial identities, critical theory, Brazil, Britain and U.S.

Senior Lecturer

Green, James W. * 1975; PhD, 1972, University of Washington; cross cultural, mental health, comparative aging, religion, West Indies, Pakistan, Islam.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

General

ANTH 100 Introduction to Anthropology (5) I&S Introduction to the subfields of archaeology, biocultural anthropology, and sociocultural anthropology through the examination of selected problems in human physical, cultural, and social evolution. Not recommended for students who have had other courses in anthropology, archaeology, or biocultural anthropology. May not be counted toward the 55 credits required for the major in anthropology. Offered: AWSp.

Sociocultural Anthropology

ANTH 202 Principles of Sociocultural Anthropology (5) I&S Comparison of lifeways of various non-

Western and Western peoples. Introduction to basic theories and methods used in the field.

ANTH 203 Introduction to Anthropological Linguistics (5) VLPA/I&S Linguistic methods and theories used within anthropology. Descriptive and theoretical linguistics compared; historical linguistics and comparative method; sociolinguistics; language and culture; human language and animal communication compared; survey of history of anthropological linguistics in North America. Offered: jointly with LING 203.

ANTH 208 The Cultural Animal (5) I&S/NW Examination of the interaction between biology and culture in shaping human social behavior. Basic principles of natural selection, gene-environment interaction, cultural transmission, learning, and cultural evolution; application of these to various topics, including gender, violence, politics, kinship, and religion.

ANTH 216 Oceania (3) I&S Contemporary and traditional life in the Pacific Basin.

ANTH 230 Comparative Tribal Religion (5) I&S World's "folk" or "little traditions" of religious belief and practice. Cosmologies, eschatologies, notions of causality and of human nature. "Little traditions" as examples of man's imaginative attempts to create a relatively closed, knowable, and more-or-less manageable cosmos.

ANTH 301 Human Nature and Culture (3) I&S Comparison of various anthropological perspectives on the sources of variation in customs, values, and beliefs of human groups, including non-Western peoples and contemporary Americans.

ANTH 305 Anthropology of the Body (5) I&S Biosociocultural approach to the human body as universal object—and agency—for human minds. How cross-cultural contrasts in ways of construing the body affect self-regard and social interaction. Body shapes, sizes, colors, exordia, signals, symbolism, aesthetics, metaphysics, rituals, lore, and politics.

ANTH 306 Representations of the Pacific Islands and Islanders (3) VLPA/I&S Kahn Explores written texts and visual images about the Pacific Islands and Islanders in an effort to understand the power of representation and its relationship to the construction of knowledge. Examples drawn from early explorers, artists, novelists, anthropologists, the tourist industry, and Pacific Islanders.

ANTH 310 Native North American Societies (5) I&S Smith Traditional cultures of America north of Mexico, emphasizing diversity of North American Indian and Eskimo societies. Origins of Native American culture areas and language groupings; subsistence systems; levels of social organization; European conquest and colonialism; and description of representative cultures from the ten culture areas. Recommended: 100.

ANTH 313 Peoples of Africa (5) I&S Survey of the many cultures of pre- and post-colonial sub-Saharan Africa. Appreciation of the adaptability, strength, and creativity of African peoples. Recommended: 100.

ANTH 314 Civilization of Island Southeast Asia (5) I&S Pemberton Cultural, political, economic traditions of insular Southeast Asia, Indonesia, Malaysia, the Philippines. Early Indianized states; growing influence of Islam; Western European conquests; developed colonial societies, their legacies; modern nationalism, problems faced by newly independent states; important cultural continuities. Prerequisite: one 200-level International Studies or anthropology course, or permission of instructor. Offered: jointly with SISSE 314.

ANTH 315 Southeast Asian Civilization: Buddhist and Vietnamese (5) I&S Keyes Civilizations of Theravada Buddhist societies in Burma, Thailand, Cambodia, and Laos and in Vietnamese societies of Southeast Asia. Culture of tribal peoples who live on peripheries of these societies. Cultural transformations

consequent upon the war in Indochina and resettlement of Indochinese refugees in United States. Offered: jointly with SISSE 315.

ANTH 318 Peoples and Cultures of the Islamic Middle East (3) I&S Survey of cultures and peoples of Islamic Middle East and North Africa. First half of the course emphasizes the integration of peasant, urban, and nomadic societies in the traditional culture and economy; the second half concentrates on the transformation of the traditional life styles through the process of westernization and modernization.

ANTH 321 Introduction to the Anthropological Study of Religion (3) I&S Comparative study of religion as approached by anthropologists. Primarily for non-anthropology majors. Recommended: RELIG 201 or 202.

ANTH 322 Comparative Study of Death (5) I&S Death analyzed from a cross-cultural perspective. Topics include funerary practices, concepts of the soul and afterlife, cultural variations in grief, cemeteries as folk art, and medical and ethical issues in comparative context. American death practices compared to those of other cultures.

ANTH 325 Anthropology of Japanese Religion (5) I&S Introduction to major themes in Japanese religion, emphasizing contemporary social contexts in urban and rural Japan. Topics include Shinto and Buddhist practices, the place of nature, ancestors, magic, shamans and mediums, gender and religion, religion and nationalism, new religions.

ANTH 331 Northwest Coast Indian Art (5) VLPA/I&S Native American art of the Pacific Northwest Coast from precontact to the present, from the Columbia River in the south to Southeast Alaska in the north. Differences in tribal styles and social functions; changes occurring over time as the result of sharing between tribal groups and the impact of the arrival of Europeans. Offered: jointly with ART H 331.

ANTH 350 Cultural Evolution (3) I&S Evolution of culture and society with emphasis on ecology. Development of urban life in light of common and distinctive character of cities, peasantries, and tribal groups or bands. Process of urbanization, disappearance of truly primitive peoples, emergence of peasant, rise of a world system. Selected case studies, past and present.

ANTH 351 Women of the African Diaspora (5) I&S Twine Cross-cultural comparative analysis of African descent women in an international context. Topics include racism, post-colonialism, immigration, occupational segregation, transnational identities, and media representations. Prerequisites: 200 and 205. Offered: jointly with WOMEN 351.

ANTH 352 Buddhism and Society: The Theravada Buddhist Tradition in South and Southeast Asia (5) I&S Introduction to the religious tradition of Theravada Buddhism (as practiced in Sri Lanka, Burma, Thailand, Laos, and Cambodia) and examination of the variations in ethical orientations developed through Theravada Buddhist ideas. Recommended: RELIG 202 or knowledge of one Eastern religious tradition. Offered: jointly with RELIG 350.

ANTH 353 Anthropological Studies of Women (5) I&S Cross-cultural and comparative survey of the varieties of women's cultural experiences, statuses, and roles in cultural context and the anthropological theories used to account for them. Topics include: biological factors, studies of primates, woman the gatherer, work in preindustrial and industrial societies, patriarchy and matrilineal kinship, childbirth, and women's roles in economic development. Prerequisites: 200 or permission of instructor. Offered: jointly with WOMEN 353.

ANTH 354 The Comparative Study of Societies (5) I&S Compares entire societies at various levels of technological complexity to explore problems of their

development and structural organization. Examines both historical and contemporary, and Western and non-Western societies. Prerequisite: SOC 110. Offered: jointly with SOC 354.

ANTH 355 Aging in Crosscultural Perspective (3) I&S Survey of strategies for dealing with the fact of aging in various sociocultural systems. Relates the varieties of cultural solutions to the theories on aging, drawn from psychology and medicine, with emphasis on non-Western societies. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 356 Visual Anthropology (3) I&S The place of photography and films in ethnography; their use in the documentation and interpretation of cultural and social systems.

ANTH 357 Text and Performance in Island Southeast Asia (5) VLPS/I&S Poetics and politics of narrative practice and aesthetic form in Indonesia, the Philippines, Malaysia, and Singapore. Introduction to a range of performance scenes (theatrical, magical, musical, cinematic) and textual sources (religious inscription, epic poetry, traditional literature, modern fiction) informing the extraordinarily diverse cultural histories of these countries.

ANTH 358 Culture and Cognition (5) I&S/NW Surveys anthropological theories and research on the relationship between language, thought, and behavior. Examines the influence of cultural inheritance on perception, classification, inference, and choice. Describes relevant cross-cultural research methods and evaluates theoretical models used by cognitive anthropologists. Prerequisite: 203 or PSYCH 355 or permission of instructor.

ANTH 359 Linguistic Ethnography (5) I&S Language use in cultural contexts. How language reflects world view. Language use in culturally significant settings. Analyzes sets of culturally specific terms in semantic domains. Includes projects demonstrating application of theory and method to data addressing specific problems. Workshop format.

ANTH 371 Political Anthropology (3) I&S Theories of the development of political forms and of the social structural analysis of political organization. Authority, power, and concepts of politics and administration.

ANTH 372 Anthropology of Law (3) I&S Major theories and studies in legal anthropology. Dispute settlement, juridical processes, and concepts of law and legal activities.

ANTH 373 Stateless Societies: An Ethnographic Approach to Noncentralized Political Systems (5) I&S Comparative examination of modes of governance in noncentralized societies. Forms of decision making, competition for supports, resolution of conflicts, and boundary maintenance with adjacent groups. Cases discussed in the context of alternative theories of the development of politics. Prerequisites: POL S 273.

ANTH 375 Comparative Systems of Healing (3) I&S Introduction to the anthropological study of healing. Examines four healing traditions and addresses their similarities and differences. Includes anthropological theories of healing and religion.

ANTH 399 Junior Honors Seminar (5) I&S Teaches skills required to write senior honors thesis, including evaluation of academic and scientific writing, formulation of problem, collection of bibliographic and other resources, evaluation of research proposals, and research proposal preparation. Final product is a formal thesis prospectus. Prerequisite: junior or senior standing in departmental honors program.

ANTH 401: West African Societies (3) I&S Social and cultural features of coastal and interior West African societies, including the Western Sudan. Detailed study of selected societies. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 402 Societies of Eastern and Southern Africa (5) I&S Historical background and contemporary life of cultural groups in eastern and southern Africa with special study of selected cases of political and economic organization and cultural change. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 404 South America (5) I&S Survey of anthropological research among the traditional peoples of South America. Historical background and contemporary life of cultural groups of the Amazonian Basin. Transformation of traditional life-styles through the process of European conquest and the aftermath of colonialism. Detailed study of selected societies. Prerequisite: 100.

ANTH 405 Peoples of Russia (5) I&S Traditional cultural and social organizations of the various nationalities in Russia. Particular emphasis on peoples of Siberia. Role of traditional culture in shaping contemporary lifestyles in a multiethnic, diversified setting. Prerequisite: one 200-level ANTH course or permission of instructor. Offered: jointly with SISRE 405.

ANTH 408 New Guinea Societies (5) I&S Peoples and cultures of coastal and interior New Guinea and adjacent islands. Deals intensively with selected general problems of ethnographic method and ethnological and sociological interpretation. Character of small autonomous societies in Melanesia: ecology, economics, gender, systems of exchange, social organization, magic and ritual, warfare. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 408 Micronesian Societies (3) I&S Comparative social anthropology of the social systems of high islands and coral atolls of Micronesia. Intensive treatment of the kinship, religion, ecology, and politics in both traditional and contemporary periods. Prerequisites: either 216 or permission of instructor.

ANTH 412 South Asian Social Structure (5) I&S Caste dynamics, political control, economic organization, and religion in Hindu-village India. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 415 Applied Ethnography (3) I&S Examines the social context of applied cultural anthropology and prepares students for nontraditional uses of anthropological theory, knowledge, and training. Rationale for applied ethnographic research, professional training, the research proposal/contract, social change, applied anthropology, the research product.

ANTH 418 Indian Heritage of Mexico and Central America (5) I&S Indian civilization of Mexico and Guatemala, their origins and ecological foundations. Contemporary communities of Mexico and Guatemala, focusing on creative adaptation of pre-Columbian traditions to modern national realities. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 419 Islamic Peoples of Southwest and South Asia (5) I&S Analysis of ethnographic issues in the study of Islamic peoples of India, Pakistan, Afghanistan and Iran, with attention as appropriate to contiguous areas of the Middle East. Topics include ethnic diversity, family patterns, gender, folk expressions of Islam, and recent social change. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 420 Psychoanalysis and the Study of Culture (3) I&S *Spain* Anthropological use of theories developed by Freud to understand culture. Reviews psychoanalytic theory as a foundation for examining the work of Roheim, LaBarre, Devereaux, Kardiner, and Spiro, among others. Topics covered include the universality of oedipality and the utility of psychoanalysis in non-Western cultures.

ANTH 421 Belief, Ritual, and the Structure of Religion (5) I&S Systematic survey of concepts, models, and theories that characterize the anthropological study of religion. Consideration of the human universal

basis of religion and of diverse ways in which religions are constructed and related to social experience. Prerequisites: 321 or RELIG 201 and 202.

ANTH 424 Hunter-Gatherer Societies (4) I&S Comparative examination of human foraging societies, emphasizing ethnographic cases and socioecological analysis. Foraging and human evolution; rationality of foraging societies; population and reproductive strategies; variability in social organization and land use; power relations between the sexes; ritual and belief; contemporary status of hunter-gatherer populations. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 425 Ethnicity and Nationality in the USSR and its Successor States (5) I&S Creation of the Soviet Union: Leninist and Stalinist approaches to the "national question." Contemporary processes of ethnic assimilation and dissimulation. Formation of national elites, rise of various forms of nationalism, position of religion in national cultures. Specific cases include Russian nationalism, Islam in Central Asia. Offered: jointly with SISRE 425.

ANTH 426 Peasant Culture and Society (5) I&S Place of peasants in state, civilization, and global economy, especially as seen from peasants' perspective. Consideration of cases drawn from anthropological studies. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 427 Anthropology in Urban Settings (3) I&S Cross-cultural examination of theoretical issues in anthropology as studied in urban places. Focuses on ethnic identity and the formation of urban ethnic groups; migration and its rural and urban consequences; family and kinship organization as an adaptation to urban complexity; the nature of urban voluntary associations; law and politics; and the developments in anthropological method. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 428 Anthropological Perspectives on Ethnicity (5) I&S Anthropological approaches to ethnicity and ethnic group relations with reference to other models including race, caste, class, regional groupings, nations, religion, and stratification. Data drawn from precolonial, colonial, and postcolonial periods. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 429 Expressive Culture (5) VLPA Anthropological view of one expressive aspect of culture: plastic and graphic arts, myth and folklore, music, dance, humor and tragedy, or play and games. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 430 The Anthropology of Music (3) VLPA/I&S Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation, e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with MUSIC 480; alternate years.

ANTH 431 Oral Traditions (5) VLPA Oral traditions and verbal expression, examined anthropologically and in relation to student interests. Critical examination of relevant theories and methods of analysis. Prerequisite: 100.

ANTH 432 Sociolinguistics (3) VLPA/I&S Social variation in phonology, morphology, syntax, lexicon of languages and dialects. Nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, the ethnography of speaking, pragmatics, and language attitudes. Prerequisite: LING 400. Recommended: concurrent registration in LING 451 or permission of instructor. Offered: jointly with LING 432.

ANTH 434 Comparative Morals and Value Systems (3) I&S Moral basis of human society and com-

parison of value systems based on anthropological studies. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 435 Economic Anthropology (5) I&S Chief features of nonmonetary and simple monetary economics. Impact of central or metropolitan market economy and industrial technology as peripheral systems, especially of small-scale and limited monetary circulation. Development and application in anthropology of economic concepts, including Marxian. Prerequisites: permission of instructor.

ANTH 436 Comparative Family Organization (5) I&S Function and structure of family developmental processes in band, tribal, peasant, and modern societies. Illustrates inter- and intrasocietal variation and provides data for construction of formal models of process and variation in family systems.

ANTH 437 Political Anthropology and Social Change (5) I&S Anthropological studies of local-level politics in colonial, modernizing, and encapsulated societies. Processual approaches to the study of political change. Prerequisites: 371 or permission of instructor.

ANTH 438 The Analysis of Kinship Systems (5) I&S Data, theories, and analytical technique used in the study of kinship systems, including our own, from around the world. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 439 Law in Changing Societies (5) I&S Anthropological viewpoints on legal aspects of colonial, modernizing, and encapsulated societies. Problems of plural legal systems and of conflicts in judicial systems. Prerequisites: 372 or permission of instructor.

ANTH 440 Child-Rearing, Culture, and Health (3) I&S Cross-cultural study of the child-rearing practices, cultural norms, and health behavior of children and adolescents in different societies. Comparative approaches, diverse theoretical postures, and empirical research findings are used. Recommended: courses in child development or introductory anthropology. Offered: jointly with NURS 495.

ANTH 441 Psychological Anthropology (5) I&S Assessment of mutual relevance of cultural and psychological variables in anthropology. Historical development of principal topics, e.g., cognition, national character, enculturation, personality and social change, cross-cultural psychiatry, sex and temperament, deviance, and psychoanalytic studies of culture. Prerequisite: introductory psychology or personality theory or permission of instructor.

ANTH 442 Anthropological Aspects of Communication (5) I&S Introduction to communicational aspects of culture.

ANTH 443 Anthropology of Modern Japan (5) I&S Examines the problem of modernity in Japan since the late nineteenth century, with emphasis on contemporary Japan. Critically addresses previous anthropological work concerning patterns of Japanese "culture". Particular focus on the influence of modern forms of power, media, and exchange in the construction of present-day Japan. Offered: jointly with SISEA 447.

ANTH 447 Religion in China (5) I&S Place of religion in Chinese society, examining the doctrines, practices, and social consequences of the eclectic folk religion, the elite Confucian, Taoist, and Buddhist traditions, syncretistic sects, and imported Christianity. Prerequisite: one course in Chinese society, politics, or history or permission of instructor. Offered: jointly with SISEA 445.

ANTH 448 Modern Korean Society (5) I&S Social organization and values of twentieth-century Korea. Changes in family and kinship, gender relations, rural society, urban life, education, and industrial organization since 1900. Differences between North and South

Korea since 1945. Prerequisites: SISEA 212 or permission of instructor. Offered: jointly with SISEA 448.

ANTH 449 Social Transformation of Modern East Asia (5) I&S Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Prerequisites: two courses on East Asian history or society. Offered: jointly with SIS 449.

ANTH 451, 452, 453 Phonology I, II, III (4, 4, 4) VLP&I&S Speech sounds, mechanism of their production, and structuring of sounds in languages; generative view of phonology. Prerequisite: LING 200 or 400, either of which may be taken concurrently with 451. Offered: jointly with LING 451, 452, 453.

ANTH 454 Women, Words, Music, and Change (5) VLP&I&S Comparative analysis of use of myths, tales, music, and other forms of expressive culture to account for, reinforce, and change women's status and roles; cross-cultural analysis of planned change and development. Prerequisite: 353 or permission of instructor. Offered: jointly with WOMEN 454.

ANTH 455 Areal Linguistics (3, max. 6) VLP&I&S Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Borrowing vocabulary specialization, lexical change, and language death and revival. Offered: jointly with LING 455.

ANTH 456 Contemporary Ethnography (5) I&S Techniques and theories of ethnographic description for the anthropological analysis of contemporary life. Materials drawn from the contemporary United States, with a focus on issues and events in the Seattle area. Includes fieldwork projects. Prerequisite: permission of instructor.

ANTH 457 Ecological Anthropology (5) I&S Survey of anthropological research on interaction between human societies and their environments. Logic of different subsistence systems; intensification and transformation of subsistence strategies; population regulation; ecological aspects of human nutrition, disease, spatial organization, ethnicity, social stratification, conflict, and cooperation; historical roots of current ecological crisis. Prerequisite: permission of instructor.

ANTH 458 Ethnobiology: Plants, Animals, and People (5) I&S *Hunn* Culturally mediated relationships between human and natural environment studied in a comparative and evolutionary framework. How do peoples in diverse cultures recognize and name plants and animals and understand their relationship with nature? How is this traditional ecological knowledge applied in people's daily lives? Prerequisite: 203, BIO A 201, or ARCHY 205. Offered: Sp.

ANTH 460 History of Anthropology (5) I&S Sources and development of leading concepts, issues, and approaches in anthropology. Findings of anthropology in relation to scientific and humanistic implications and to practical application. Main contributors to field; their work and influence. Past, present, and future perspectives, including anthropology of modern life. Prerequisites: 15 credits in anthropology.

ANTH 461, 462, 463 Syntax I, II, III (4, 4, 4) VLP&I&S Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 200 or 400, which may be taken concurrently, or permission of instructor. Offered: jointly with LING 461, 462, 463.

ANTH 464 Language Policy and Cultural Identity (3) VLP&I&S Decision making regarding language in sociopolitical contexts. Language and ethnicity, educational policy, and use of language in developing nations. Plans to modernize, purify, standardize, reform, and revive language. Language loyalty and mo-

tives for second-language acquisition. Prerequisite: LING 200 or 400. Offered: jointly with LING 433.

ANTH 465 Critical Anthropology of Mass Culture (5) I&S *Ivy* Critical overview of theories of mass culture and their relationship to current anthropological practice. Analyses of the historical interconnections among capitalism and commodity fetishism, modernity and representation, and media and consumption. Prerequisite: upper-division standing or permission of instructor.

ANTH 466- Anthropology Honors Thesis (1-9), max. 18) I&S Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

ANTH 469 Special Studies in Anthropology (3-5, max. 15) I&S Delineation and analysis of a specific problem or related problems in anthropology. Offered occasionally by visitors or resident faculty. Prerequisite: one 200-level ANTH course or permission of instructor.

ANTH 470 Minority Peoples of China (5) I&S Interaction between China and the peoples of its periphery, including inner Asia, Tibet, northern mainland Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state. Prerequisites: one 200-level ANTH course or HSTAS 454 or ANTH 370. Offered: jointly with SISEA 470.

ANTH 471 Colonialism and Culture (5) I&S *Pemberton* Explores the cultural, political, and historical implications of the power to colonize. Readings include ethnographic, historical, and literary works on colonialism, nationalist responses, and postcolonial positions.

ANTH 475 Perspectives in Medical Anthropology (5) I&S Introduction to medical anthropology. Explores the relationships among culture, society, and medicine. Examples from Western medicine as well as from other medical systems, incorporating both interpretive and critical approaches. Offered: jointly with HSERV 475.

ANTH 476 Culture, Medicine, and the Body (5) I&S Explores the relationship between the body and society, with emphasis on the role of medicine as a mediator between them. Case study material, primarily from contemporary bio-medicine, as well as critical, postmodern, and feminist approaches to the body introduced within a general comparative and anthropological framework.

ANTH 480 Introduction to Museology (3) I&S Museum history, philosophy, and basic operations, including organization, income, collection management, conservation, exhibition, security, education, research, and ethics. Prerequisite: upper-division standing or permission of instructor. Offered: jointly with MUSEUM 480.

ANTH 481 Museum Collection Management: Ethnology (3) I&S Lecture and work experience in museum collection management in the ethnology collections of the Burke Memorial Washington State Museum, including identification, cataloging, fumigation, storage, cleaning, inventory, and specimen preparation for exhibition of archival and nonarchival museum specimens from North America, the Pacific, and Pacific Rim areas. Prerequisite: 480 or permission of instructor. Offered: jointly with MUSEUM 481.

ANTH 482 Museum Conservation (3) I&S Lecture and demonstrations in the recognition and treatment of museum conservation problems for specimens of all types. Application of basic principles to specific preventive and active conservation and restoration problems encountered by curatorial personnel. Prerequisites: 480 and 481 or permission of instructor. Offered: jointly with MUSEUM 482.

ANTH 483 Women in Evolutionary Perspective (5) I&S/NW Critical appraisal of major theories accounting for evolution of sex and gender roles and status differences; cross-cultural testing for sociobiological, biocultural, cultural materialist, structural, and symbolic explanations for "female power and male dominance." Prerequisite: 353 or permission of instructor.

ANTH 484 Ideologies and Technologies of Motherhood (5) I&S Examines how motherhood is culturally constituted, regulated, and managed within various ideological and technological milieus. Uses ethnographies from anthropology and case studies from feminist legal theory. Topics include slave mothers, surrogate mothers, lesbian mothers, transracial mothers, co-mothers, and teen mothers. Prerequisites: WOMEN 200 and any 300-level women studies course. Offered: jointly with WOMEN 458.

ANTH 486 Human Family Systems: Biological and Social Aspects (5) I&S Biological bases for human mating and reproduction and an examination of the range of cross-cultural variability in human systems of kinship and marriage; comparisons among a wide range of human and nonhuman species and between Western and non-Western human societies; interplay of biological, ecological, and sociocultural factors in determining the structure and function of human family systems. Prerequisite: 100 or BIO A 201 or SOC 110. Offered: jointly with SOC 486.

ANTH 489 Anthropology Practicum (3-9, max. 15) Faculty-supervised off-campus internships in organizations utilizing anthropological skills in nonacademic settings. Establishing educationally valuable individual projects for internships with faculty sponsor. Organizations include museums, social service and other governmental agencies, and private nonprofit service agencies. Prerequisites: major in anthropology and permission of instructor.

ANTH 491 Honors Colloquium (2, max. 12) I&S Introduction to anthropological research. Students read original articles and papers and discuss them with authors. Research presenters include department faculty, visiting faculty, and advanced graduate students. Credit/no credit only. Prerequisite: students in the departmental honors program, or other social science or biological science honors programs. Offered: AWSp.

ANTH 492 Anthropology of Refugees (3) I&S The refugee phenomenon, its emergence in the postcolonial world, and the structure of the life history of refugees. Ethnic change, involuntary deculturation, and acculturation as they occur in refugee life histories. Prerequisite: one 200-level ANTH course or permission of instructor. Offered: jointly with NURS 492.

ANTH 493 Advanced Topics in Expressive Culture (3, max. 6) VLP Analysis and testing of special domains of esthetic expression, such as graphic arts, oral literature, dance, and humor among non-Western peoples. Prerequisites: 429 or permission of instructor.

ANTH 495 Advanced Problems in Ethnology (3, max. 6) I&S Current problems in ethnology. Seminar format. Prerequisites: 25 credits in anthropology and permission of instructor.

ANTH 499 Undergraduate Research (* max. 12) Prerequisite: permission of instructor.

Archaeology

ARCHY 105 World Prehistory (5) I&S Prehistoric human ancestors from three million years ago: their spread from Africa and Asia into the Americas, survival during ice ages, development of civilizations. Well-known archaeological finds, e.g., Olduvai Gorge; Neanderthals; Jericho; Egyptian pyramids; Mexican temples; Mesa Verde; Ozeite, Washington. May not be counted toward the 55 credits required for the major in anthropology.

ARCHY 205 Principles of Archaeology (5) I&S Techniques, methods, and goals of archaeological

research. Excavation and dating of archaeological materials. General problems encountered in explaining archaeological phenomena. Offered: AWSpS.

ARCHY 270 Field Course in Archaeology (12) I&S Introduction to field acquisition of archaeological data through survey and excavation. On-going field projects; recovery and recording techniques. Prerequisite: permission of department. Offered: S.

ARCHY 299 Archaeological Laboratory Techniques (1-3, max. 12) I&S Laboratory procedures geared to one specific archaeological research project. Archaeological collection, its processing and curation, how archaeological materials are processed, and how significance is determined. No more than 5 credits may be used toward an Anthropology Major. Prerequisite: 105 or 205.

ARCHY 303 Old World Prehistory (3) I&S Old World prehistory from beginnings of human culture to rise of civilizations. First tools made by humans, spread of humans out of Africa, origins of agriculture, rise of state society. Africa, Near East, Egypt, China, India, Europe.

ARCHY 304 New World Archaeology (3) I&S History of earliest Americans, beginning with crossing of land bridge between Asia and North America and eventual spread over the Americas. Highlights prehistory and best examples of western hemisphere's civilizations. Mexico, Yucatan, Peru, southwestern and eastern United States, Washington.

ARCHY 312 The Archaeology of Egypt (3) I&S Wenke A survey of ancient Egyptian culture history between about 6000 BC and AD 400, based on a synthesis of archaeological and textual evidence. Focuses on the origins and evolution of the Egyptian state and the elements of pharaonic religion, society, economy, art, architecture, and science.

ARCHY 320 Prehistory of the Northwest Coast (5) I&S Origin, development, and variation of Pacific Northwest cultures from early migrations to nineteenth century. Adaptation to maritime and interior environments; artifacts and art.

ARCHY 371 Analysis of Archaeological Data (5) I&S Analyzing archaeological data by measuring and describing such artifacts as stone tools and ceramics. Analysis of such environmental data as bones, plant remains, and sediments. Prerequisite: 205 or permission of instructor.

ARCHY 465 Issues in Cultural Resource Management (3) I&S Examines practical application of archaeology to cultural resource management. Topics include role in environmental permitting, inventory and significance evaluation of resources, project impacts and design of mitigation measures, consultation with government agencies and Indian tribal organizations, and practical aspects of cultural resource management business operation. Offered: even years; Sp.

ARCHY 466- Archaeology Honors Thesis ([1-6], max. 18) I&S Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

ARCHY 468 Issues in Cultural Resource Management (1) I&S Review of federal and state cultural resource management policies and the effects of these policies on the conduct of projects that may impact cultural resources on public lands. Survey of related issues in museum management. Prerequisites: 205 and ANTH 202 or permission of instructor. Credit/no credit only.

ARCHY 469 Special Studies in Archaeology (3-6, max. 18) I&S Consideration in detail of specific archaeological topics, either methodological or substantive in content, of current interest. Offered occasionally by resident, new, or visiting faculty. For advanced undergraduates and graduate students. Prerequisites: 205 and permission of instructor.

ARCHY 475 Maya Prehistory (3) I&S Considers prehistoric cultural developments throughout the Central American region occupied by the prehistoric Maya. Temporal focus spans the late Preclassic, Classic, and Postclassic periods, from 300 BC to 1530 AD. Contrasts traditional and contemporary models of ancient Maya civilization. Prerequisites: 205, 304, or permission of instructor.

ARCHY 476 New World States and Empires (3) I&S Hagstrum Considers theoretical and methodological scholarship on complex societies in Mesoamerica and the Andes. Highlights current research emphasizing roles of populations dynamics, subsistence strategies, economic foundations, and political processes in development of states and empires. Considers archaeological evidence and native and European documents. Prerequisites: 205 and 304 or permission of instructor.

ARCHY 478 Prehistoric Cultures of North America: Western North America (5) I&S Ecological account of prehistoric cultural developments in North America west of the Rocky Mountains. Cultural and environmental change from appearance of people in New World to collapse of indigenous cultural systems. Prerequisite: 304 or permission of instructor.

ARCHY 479 Prehistoric Cultures of North America: Eastern North America (5) I&S Ecological and evolutionary account of prehistoric cultural developments in North America east of the Rocky Mountains. Cultural and environmental change from appearance of people in New World to collapse of indigenous cultural systems. Prerequisite: 304 or permission of instructor.

ARCHY 480 Advanced Archaeological Analysis: Tools (6) I&S Combination of lecture and practical laboratory instruction in the presentation of archaeological data for analysis, emphasizing stylistic and functional analyses of lithic, ceramic, and other artifacts, attribute recognition, and standard techniques for data manipulation. Theoretical bases for techniques and their uses and limitations in cultural, historical, and processual accounts. Prerequisite: 371 or permission of instructor.

ARCHY 481 Advanced Archaeological Analysis: Faunal Remains (6) I&S Seminar on techniques and methods employed in analysis of faunal remains from a wide range of Pleistocene and Holocene settings, including archaeological sites, coupled with a laboratory focusing on identification of faunal remains from these settings. Prerequisite: 371 or permission of instructor.

ARCHY 482 Advanced Archaeological Analysis: Geoarchaeology (6) I&S Identification, analysis, and interpretation of sediments and soils associated with archaeological remains. Laboratories deal with sediment description and chemical analysis; field trips and student projects focus on archaeological applications of these subjects. Prerequisite: 371 or permission of instructor.

ARCHY 495 Quantitative Archaeological Analytic Techniques (5) I&S Introduction to quantitative approaches to archaeological problems; data screening, numeric methods of classification and identification, graphical and computer-based seriation techniques, and the analysis of spatial patterning in artifact distributions.

ARCHY 497 Archaeological Method and Theory I: Formal Theory (5) I&S Examination of theoretical constructs in the analysis of archaeological data. Terminology, typologies, and interregional comparisons. Prerequisites: 205 and 20 additional credits in anthropology and permission of instructor.

ARCHY 498 Archaeological Method and Theory II: Explanatory Theory (5) I&S Conceptual frameworks employed by archaeologists in obtaining explanation in the three major areas of culture history, cultural reconstruction, and explanatory prehistory, considering the nature of explanation as conceived in these areas, the basic assumptions employed in achieving

these aims, and an introduction to the methods employed. Prerequisites: 205, 497.

ARCHY 499 Undergraduate Research (* max. 12) Prerequisite: permission of instructor.

Biocultural Anthropology

BIO A 100 Evolution and Human Behavior (3) NW Introduction to evolution by natural selection, examining the light it can throw on human biology and behavior in such areas as the nature of sex differences, sexual conflict, and conflict between parents and children. Does not fulfill major requirements. Offered: jointly with ZOOL 100.

BIO A 201 Principles of Biological Anthropology (5) NW Evolution and adaptation of the human species. Evidence from fossil record and living populations of monkeys, apes, and humans. Interrelationships between human physical and cultural variation and environment; role of natural selection in shaping our evolutionary past, present, and future. Offered: AWWSpS.

BIO A 370 Introduction to Primates (5) NW Origins, major evolutionary trends, and modern taxonomic relationships of the nonhuman primates. Their distribution and habitat in relation to behavioral and morphological adaptations and their status as endangered species. Prerequisite: 201.

BIO A 371 Evolutionary Perspectives on the Human Condition (4) I&S/NW The human species—past, present, and future. Biological uniqueness of the human species; its role in biological and cultural extinctions. Conceptions and misconceptions of species behavior. Evidence for ongoing human evolution evaluated in relation to present population redistribution and reorganization.

BIO A 372 Uses and Abuses of Evolutionary Views of Human Behavior (5) I&S/NW Newell Interaction of human behavior and biology as it has been interpreted within an evolutionary framework. Discusses various challenges to Darwinian theory, particularly Lamarckism and creationism. Topics include biological determinism as exemplified by racism, myths of human origins, the clash between biological and cultural determinism, and modern genetics and behavior.

BIO A 375 Biology of Human Race (3) NW World-wide distribution of variation in human biology: shape, size, skin color, body composition, human performance. Natural selection, historical factors, random biological events. History of attempts to classify people into racial groups and problems associated with such efforts. Prerequisite: 201 or permission of instructor.

BIO A 382 Human Population Biology (3) NW Human population biology with reference to capacity for growth in population size. Interaction of human biology, population structure, and culture in promoting such growth. Effects of economic, demographic, medical, and ecological factors.

BIO A 387 Ecological Perspectives on Environmental Stress, Adaptation, and Health (5) NW Leonetti How human populations respond to environmental stressors in biological-behavioral terms and the relationship of this adaptational process to health. Nutritional, climatic, and sociocultural stress and associated patterns of birth, disease, and death throughout human history in hunting, gathering, farming, pre-industrial, and industrial societies. Prerequisite: 201 or permission of instructor.

BIO A 388-389 Human Fossils and Evolution (5-5) NW Evolution of human anatomy and behavior as adaptations to changing environments. Human fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Prerequisite: 201 or BIOL 201, 202, 203.

BIO A 466- Biocultural Anthropology Honors Thesis (1-8), max. 18) NW Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

BIO A 469 Special Topics in Biocultural Anthropology (3, max. 6) NW Delineation and analysis of a specific problem or a more general area in biocultural anthropology. Offered occasionally by visitors or resident faculty. Prerequisite: permission of instructor.

BIO A 473 Biological Adaptability of Human Populations (5) NW Mechanisms enabling humans to maintain homeostasis in extreme environments: high altitude, heat, cold, nutritional deficiency, radiation. Adaptive process operating at levels of physiology, metabolism, and population, including the strategies of fertility and birth spacing. Prerequisites: 201 and physiology or permission of instructor.

BIO A 476 Sociocultural Ecology and Health (3) NW Sociocultural ecology of health/disease, focusing on humans as bioculturally integrated beings and on populations as biocultural units of adaptation. Examples of research on disease, both infectious and chronic, and patterns of morbidity and mortality, infant, maternal, old age, with particular attention to situations of sociocultural changes.

BIO A 482 Human Population Genetics (5) NW, QSR Micro-evolutionary changes in human populations. Effects of mutation, selection, inbreeding, gene flow, and genetic drift as causes of evolutionary change. Mathematics beyond high school not required. Prerequisite: 201 or permission of instructor.

BIO A 483 Human Genetics, Disease, and Culture (5) NW Considers relationships among genetic aspects of human disease, cultural behavior, and natural habitat for a wide variety of conditions. Also considers issues of biological versus environmental determinism, adaptive aspects of genetic disease, and the role of cultural selection. Prerequisite: 201 and a general background in biology.

BIO A 484 Human Life Cycle (5) NW Human growth and physical/social development: fetal life to old age. Cultural, ecological, and evolutionary aspects of the life cycle. Population differences in age and sex related to morbidity and mortality. Prerequisite: 201 or permission of instructor.

BIO A 485 Research in Growth and Development (2, max. 8) NW Discussion and research on topics relating to primate growth and development, using either published materials or data from on-going studies at this university. Prerequisites: 484 which may be taken concurrently and permission of instructor.

BIO A 488 Primate Socioecology (3) NW Focus on the variety of social systems exhibited by nonhuman primates and adaptive significance of these societies; social systems in terms of the present ecology and evolutionary past of the species; the function of communicatory gestures and vocalizations, tradition, kinship, and social roles in maintaining and structuring groups over generations; the relationship among mating systems, foraging strategies, ranging patterns, and ecological separation/resource partitioning and their contribution to species-typical social organization. Prerequisite: 201.

BIO A 487 Human and Comparative Osteology (3) NW Introduction to the vertebrate skeleton. The skeleton is described in detail and various methods of determining age and sex, as well as osteometry and modern statistical methods for handling such data, are presented. Prerequisite: permission of instructor.

BIO A 489 Early Evolution of the Hominidae (5) NW Data and interpretations basic to the Pliocene and early Pleistocene evolution of the family Hominidae. Presentation of the geological contexts, ages, faunal associations, and fossil and cultural remains of the hominid lineages. Practical experience

with the hominid fossil material and explanation of the morphological and contextual similarities and differences. Prerequisite: 201 or permission of instructor.

BIO A 490 Later Evolution of the Hominidae (3) NW Data and interpretations basic to the middle and late Pleistocene evolution of the family Hominidae. Presentation of the geological contexts, ages, faunal associations, fossil and cultural remains of the hominid images. Practical experience with the hominid fossil material and explanation of the morphological and contextual similarities and differences. Prerequisite: 201 or permission of instructor.

BIO A 499 Undergraduate Research (* max. 12) Prerequisite: permission of instructor.

Courses for Graduates Only

General

ANTH 600 Independent Study or Research (*)

ANTH 700 Master's Thesis (*) Credit/no credit only.

ANTH 800 Doctoral Dissertation (*) Credit/no credit only.

Sociocultural Anthropology

ANTH 500 Preceptorial Reading (6) For beginning graduate students who have not had adequate training in the problems, principles, and methods involved in the analysis and comparison of social and cultural systems. Not open to graduate students in the sociocultural anthropology program.

ANTH 503 Preceptorial Reading in Linguistic Anthropology (6) For beginning graduate students who have not had prior training in the problems, principles, and methods involved in linguistic anthropology. See also course description for 203. Not open to graduate students in the linguistics program.

ANTH 507-508 Current Issues in Sociocultural Anthropology (2-2) Biweekly presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to social, cultural, and linguistic anthropology. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty. Credit/no credit only.

ANTH 509 Sociocultural Anthropology Problem Paper (4) All first year graduate students in sociocultural anthropology select a topic for independent research, conduct that research, and prepare a paper of about 25-50 pages on the topic chosen. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

ANTH 510 Seminar on North American Indians (3) Advanced comparative treatment of selected aspects of the Indian cultures and societies of North America.

ANTH 514 Regional Seminar (3, max. 12) Comparative treatment of selected aspects of cultures and societies of a particular region or area.

ANTH 517 Seminar on South Asia (3) Advanced analysis of selected problems in South Asian ethnology and social structure. Prerequisite: 412.

ANTH 520 Ecology, Evolution, and Anthropological Theory (3-5) Critical examination of models and theories from evolutionary ecology, sociobiology, and ecological anthropology. Potential and actual utility of such models in explaining aspects of human social behavior, cultural evolution, and cross-cultural variation in strategies of production and reproduction.

ANTH 521 Seminar on the Anthropological Study of Religion (3, max. 9) Advanced seminar in the anthropological study of religion designed for students who have a background in the theory and applications of theory developed in the anthropological study of religion. Seminar topics vary each quarter. Prerequisite:

sites: 422 and graduate standing; permission of instructor for graduate students in Comparative Religion.

ANTH 522 Seminar on South American Indians (3) Advanced comparative treatment of selected aspects of the Indian cultures and societies of South America.

ANTH 525 Seminar in Culture Processes (3, max. 6) The concept of process and its application to the study of culture.

ANTH 527 Acculturation and Ethnicity (3) Systematic analysis of psychological, social, and cultural implications of the contact of peoples.

ANTH 528 Seminar in Expressive Culture (3) Detailed study of selected topics in expressive culture from an anthropological point of view. Prerequisite: 429 or permission of instructor.

ANTH 530 Dialectology (3) Principles of dialect deviation as related to linguistic structure and usage. Prerequisite: 452 or permission of instructor. Offered: jointly with LING 530.

ANTH 536 Seminar in Visual Anthropology (3) Significance of anthropological cinema and photography placed in historical perspective. Screening of films to determine the role of the anthropologist as filmmaker, as well as the role of the filmmaker as anthropologist.

ANTH 537 Political Anthropology and Law (3, max. 6) Seminar on special topics in politics and law and their interrelationships. Prerequisites: 437, 439, or permission of instructor.

ANTH 538 Politics of Representation (3) *Pemberton* Representations of power and the powers of representation. Critical approaches to representation in colonial and postcolonial worlds. Divine kings, exemplary centers, the New World Order, voting subjects, and the possibilities of transgression.

ANTH 540 Anthropology and the Subject (3) Seminar on recent theories of the "subject" and their importance for current anthropology. Work on the "self" and "person" distinguished from emphasis on the "subject." Analysis of various theories of language, translation, psychoanalysis, ideology, and power for a general reconsideration of the "subject" and anthropology. Prerequisite: graduate standing.

ANTH 541 Seminar in Psychological Aspects of Culture (3, max. 9) Selected problems in the relation of culture and personality types. Prerequisite: 441 or permission of instructor.

ANTH 542 Seminar in Cognitive Anthropology (3) Examines the intellectual history of cognitive anthropology; assesses its major findings in kinship, folk biology, color classification, and decision and planning theory. Replicates key studies, using cognitive anthropological methods. Evaluates influences from linguistics, psychology, and artificial intelligence research. Practical applications and future prospects.

ANTH 550 Field Techniques in Ethnography (5) Techniques of collecting, ordering, and utilizing ethnographic data in the field. Problems of rapport, elicitation, observation, interpretation, and ethics. Credit/no credit only.

ANTH 551 Research Design (3) Principles of research design, including problem delineation and selection of appropriate methods, as applied to current issues in sociocultural anthropology. Prerequisite: permission of instructor.

ANTH 552 Practicum in Ethnographic Research (3) Techniques of data recording, analysis, and writing for the field ethnographer. Not recommended for non-anthropology graduate students. Prerequisites: 550 and 551.

ANTH 553 Analysis of Linguistic Structures (3, max. 6) Syntactic, semantic, or phonological analy-

sis. Languages to be analyzed vary. Prerequisite: permission of instructor. Offered: jointly with LING 553.

ANTH 555 Discourses in Feminist Anthropology Seminar (5) *Jacobs* Exploration of feminist anthropological theories and the works of their critics. Ways of using feminist anthropology in preparation for and conducting fieldwork. Topics include foundations in feminist anthropology, grand theories, variation in feminist theoretical foci within the "four fields," responses to critics. Prerequisite: graduate standing. Offered: jointly with WOMEN 553.

ANTH 558 The Evolution of the Family (3) Biological evolution of species—specific behaviors and forms of sociality linked to human mating, reproduction, and parenting. Cultural evolution of human systems of kinship and marriage as fitness-maximizing adaptations to a wide range of habitats. Prerequisite: upper-division course in evolutionary theory, population genetics, behavioral ecology, primatology, or animal behavior. Offered: jointly with SOC 556.

ANTH 558 Types and Techniques of Transcription (3) Analysis of aims and problems in the written symbolization of structured data. Emphasis on field transcription of human movement, music, and language. Prerequisite: 202 or permission of instructor.

ANTH 559 Seminar in Language and Culture (3, max. 9) Theoretical and methodological problems in language and culture.

ANTH 561 Seminar in Methods and Theories (3, max. 9)

ANTH 562 Clinically Applied Anthropology (3) Anthropology as it relates to interdisciplinary delivery of health care. Cultural variation in illness beliefs and behavior, types of healing practice, illness prevention, and social support networks. Prerequisites: graduate standing and permission of instructor. Offered: jointly with CHCS 562.

ANTH 565, 566, 567 Theory of Sociocultural Anthropology (6, 5, 5) Core course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisites: graduate standing in anthropology or permission of instructor for 565; 565 for 566; 566 for 567.

ANTH 571 Communicational Anthropology (3-9) Introduction to communicational aspects of culture. Prerequisite: permission of instructor.

ANTH 575 Cultural Construction of Illness: Seminar in Medical Anthropology (5) Historical and comparative examination of depression, neurasthenia, somatization, hypochondriasis, and hysteria. Anthropology of psychosomatics and psychiatry, including cultural analysis of selected biomedical, indigenous folk medical, and popular common-sense conceptualizations of illness.

ANTH 584 Ways of Speaking (5) Theory and literature of the ethnography of communication, with special emphasis on the descriptive-comparative approach to culturally patterned styles of communicative conduct. Offered: jointly with SP CMU 584.

ANTH 590 Seminar in Museum Theory (3) Fundamental theoretical issues involved in current museum administrative and operations work, including administrative structure, organizational conflicts, museum-community relations, and museum educational programming. Prerequisite: permission of instructor. Offered: jointly with MUSEUM 590.

ANTH 591 Seminar in Museum Operations (3) Designing hypothetical museums and creating a first year of operations. Design elements include architectural plan, staffing plan, initial and recurring budgets, security system, records system, educational plan, and policy making. Prerequisite: 590 or permission of instructor. Offered: jointly with MUSEUM 591.

ANTH 592 Seminar in Museum Specimen Documentation (3) Seminar discussion of museum specimen documentation research approaches, including technological and raw material analyses, contextual studies, and esthetic studies. Documentation of a collection and reference work. Prerequisites: 590 and 591 or permission of instructor. Offered: jointly with MUSEUM 592.

ANTH 599 Effective Teaching of Anthropology (1) Class required of all graduate students who accept teaching assistantships: instruction in teaching methods and issues, e.g., professional ethics, preparing and delivering lectures, leading discussion groups, test writing and grading, diversity in the classroom. Credit/no credit only.

Archaeology

ARCHY 501 Preceptorial Reading (6) For beginning graduate students who have not had adequate training in the problems, principles, and methods involved in the reconstruction of prehistory. Not open to graduate students in the archaeology program.

ARCHY 520 Principles of Archaeological Theory (5) Review of principles of archaeological theory. Student presentation of research on archaeological theory and seminar discussion or presentations. Open only to first-year graduate students in anthropology.

ARCHY 560 Seminar in Archaeological Methods (5, max. 20) Basis, limitations, and applications of a particular archaeological analytical method, or closely related set of methods. Prerequisite: permission of instructor.

ARCHY 570 Seminar in Archaeological Theory (3, max. 12) Detailed consideration of a particular archaeological theory or closely related set of theories, including their methodological and epistemological bases. Prerequisites: 497, 498.

ARCHY 571 Field Course in Archaeology (5) Introduction to field acquisition of archaeological data through survey and excavation. Ongoing field projects; instructional emphasis on recovery and recording techniques and on management of field projects. Prerequisite: permission of department.

ARCHY 572 Seminar in North American Archaeology (3, max. 6) Selected problems in the archaeology of America north of Mexico. Prerequisite: permission of instructor.

ARCHY 575 Archaeological Field Research Design (6) Nature of the archaeological record, and methods and techniques of field research, to illustrate range of data sources and modern techniques of general applicability. Practical experience in mapping, map interpretation, sampling design, remote sensing, photogrammetry, and research proposal writing. Prerequisite: permission of instructor.

ARCHY 576 Designing Grant Proposals (5) Design and writing of grant proposals for archaeological research at both dissertation and senior investigator levels, with particular emphasis on National Science Foundation structure and requirements. Prerequisites: upper-level graduate standing and permission of instructor.

ARCHY 591 Advanced Field Course in Archaeology (6-9) For students with previous field experience and graduate work in archaeology. Emphasis on decision making in field and project management. Prerequisites: 497, 498, 571, and 575 or permission of instructor.

ARCHY 600 Independent Study or Research (*) Prerequisite: permission of instructor.

ARCHY 601 Internship (3-9) Credit/no credit only.

Biocultural Anthropology

BIO A 502 Preceptorial Reading (6) For beginning graduate students who have not had adequate training

in the study of primate principles and methods involved in the study of evolution, human genetics, and the evolution of modern populations. Not open to graduate students in the biocultural anthropology program.

BIO A 510, 511 Theory and Human Evolution (3, 3) Extensive discussion of evolutionary theory from the views of Darwin through those of contributors to the modern synthesis. Human evolution is stressed, as are controversial aspects of human evolutionary history. Prerequisite: graduate standing or permission of instructor for 510; 510 or permission of instructor for 511.

BIO A 550 Skeletal Biology (5) *Newell* Composition and structure of skeletal tissue. Principles of growth, development, and remodeling applied to the interpretation of microstructure. Various techniques used to analyze bone are covered including histomorphometry and isotope analysis as is their contribution to interpretation of the archaeological record.

BIO A 568 Human Reproductive Ecology (3) A consideration of the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, nuptiality, duration of birth intervals, and reproductive senescence. Prerequisite: permission of instructor.

BIO A 569 Demographic Analysis in Biological and Social Anthropology (5) *Leonetti* Demographic analysis relevant to anthropological research on small populations. Use of data collected through local surveys, genealogical methods, and from other sources. Focuses on the use of demography to analyze social and biological processes with adaptive and/or cultural-historical significance. Theoretical approaches to these processes are emphasized.

BIO A 583 Topics in Growth and Development (3, max. 9) Seminar on various topics of human or non-human primate growth and physical/behavioral development. Subject matter varies by quarter. Prerequisite: 484 or permission of instructor.

BIO A 584 Topics in Ecology and Adaptation (3, max. 9) Seminar dealing with various aspects of ecology and adaptation. Topics vary each quarter. Prerequisite: permission of instructor.

BIO A 588 Topics in Primate Evolution (3) Emphasis on fossil taxa and their importance in understanding the morphologies and distributions of members of modern taxa. Prerequisites: 488 and permission of instructor.

BIO A 589 Topics in Hominid Evolution (3) Emphasis on the fossil taxa and their importance in understanding the evolutionary history of the modern genus. Prerequisites: 489 and permission of instructor.

BIO A 590 Current Issues in Human and Non-Human Primate Evolution (2, max. 18) Biweekly presentation by participants and guest lecturers of current literature and ongoing research in topics pertaining to human and nonhuman primate evolution, biology, anatomy, genetics variation, and behavior. Prerequisite: graduate standing in biocultural anthropology or permission of instructor. Credit/no credit only.

BIO A 600 Independent Study or Research (*) Prerequisite: permission of instructor.

students in the University, as well as degree programs for graduate students in applied mathematics.

Minor

Minor Requirements: 30 credits to include AMATH 351, 352, 353, 381, 382, 383, 401, 402, 403. Minimum grade of 2.0 required in each course.

Graduate Program

The Department of Applied Mathematics offers graduate programs of study leading to the degrees of Master of Science and Doctor of Philosophy. These programs involve (1) broad training in those mathematical methods and techniques that have been found useful in applications, (2) in-depth study in at least one field of application, and (3) opportunities to explore various specialized aspects of applied mathematics.

Master of Science, Doctor of Philosophy

Admission Requirements: Prospective students for the Master of Science program should hold an undergraduate degree either in mathematics with a strong background in applications or in physical, engineering, biological, or social science with a strong background in applications-oriented mathematics. Students who wish to apply to the doctoral program need to show evidence of completion of course work equivalent to that described for the master's degree, with at least a 3.40 GPA. In addition, admission to the doctoral program is contingent upon passing a qualifying examination and indication of the ability or potential to perform independent research.

It is required that the Graduate Record Examination be taken and the results sent to Graduate Admissions. Three letters of recommendation are required in support of each application and they should be sent directly to the department. After receiving notification of admission to the Graduate School and a registration appointment, the student should contact the department. (On the Application for Graduate School Admission form, the student should be sure to indicate the desire to enter the Department of *Applied Mathematics*, rather than *Mathematics*.)

Master of Science

The M.S. degree program is designed to provide the student with a working knowledge of several basic areas of applied mathematics, together with exposure to at least one specific area of application. The applied mathematics areas include complex variables, ordinary and partial differential equations, applied linear algebra, numerical analysis, calculus of variations or optimization, and applied probability and statistics. In addition, M.S. students must take the department course offering in mathematical modeling and must acquire some experience in high-speed computation before receiving a degree. The specific area of application is chosen by the student from a broad range of outside fields, including engineering, the physical, biological, and certain areas of medical science. After fulfilling the basic course requirements, the student can obtain the M.S. degree by additional course work to complete the required 40 credits for the degree. Students may elect to do an M.S. thesis in lieu of a maximum of 6 additional course credits. Detailed requirements for the M.S. degree are listed in the applied mathematics graduate program guidelines.

Doctor of Philosophy

The Doctor of Philosophy degree in applied mathematics is primarily a research degree, not conferred as a result of course work alone. The granting of the degree is based on general proficiency and attainment in applied mathematics, together with a demonstrated ability to carry out an independent investigation which is described in a doctoral dissertation. Proficiency and attainment in applied mathematics is demonstrated by

passing the General Examination which tests the student's ability to probe a new area of research and to exercise critical judgment on a technical issue of current importance in the chosen field of research. The doctoral dissertation must exhibit original mathematical contributions in a significant area of application. The Final Examination and defense of the dissertation is a research seminar presentation open to the public. The detailed requirements for the doctoral degree are listed in the applied mathematics graduate program guidelines.

Financial Aid

Both research and teaching assistantships are available to full-time students who qualify. In addition, fellowship funds for the study of applied mathematics are available and awarded on a competitive basis.

Research Facilities

Students in applied mathematics have access to a departmental computing lab equipped with a DEC Alpha server, Alpha/AXP workstations, and X-terminals, with centralized file storage. Software for scientific visualization, numerical analysis, symbolic mathematics, programming, and document preparation is available. The lab is connected to the campus network and the global Internet, providing access to supercomputing facilities and other resources.

Professors

Baker, Marcia * 1980, (Adjunct); MS, 1960, Stanford University; PhD, 1971, University of Washington; cloud physics, atmospheric geophysics.

Criminale, William O. * 1968; PhD, 1960, Johns Hopkins University; fluid dynamics, mathematical physics, nonlinear mechanics, stability theory.

Ishimaru, Akira * 1953, (Adjunct); PhD, 1958, University of Washington; electromagnetics, optics, acoustics, applied mathematics, scattering theory.

Kevorkian, Jirair * 1964; PhD, 1961, California Institute of Technology; partial differential equations, perturbation theory.

Kosáry, George * 1980, (Adjunct); PhD, 1974, Eotvos Lorand University (Hungary); DSc, 1979, Hungarian Academy of Sciences; applications of stochastic processes in engineering, reacting turbulent flows.

Miura, Robert M. 1988, (Affiliate); PhD, 1966, Princeton University.

Murray, James D. * 1988; PhD, 1956, DSc, 1968, Oxford University (UK); mathematical biology, biological pattern formation, wound healing, spread of epidemics.

Nazareth, John L. 1991, (Affiliate); PhD, 1973, University of California (Berkeley).

O'Malley, Robert E. Jr. * 1990; PhD, 1966, Stanford University; singular perturbations and asymptotic methods.

Pearson, Carl E. * 1967, (Emeritus); PhD, 1949, Brown University; wave propagation, fluid dynamics, numerical analysis, optimization.

Riley, James J. * 1983, (Adjunct); PhD, 1971, Johns Hopkins University; fluid mechanics, especially turbulent flows.

Applied Mathematics

408 Guggenheim

The Department of Applied Mathematics is concerned with mathematical modeling and analysis of problems from the physical, biological, and social sciences and from engineering. The department offers upper-level undergraduate and graduate courses for all interested

Rockafellar, R. T. * 1966; PhD, 1963, Harvard University; variational analysis and optimization.

Tung, Ka Kit * 1988; PhD, 1977, Harvard University; atmospheric and geophysical fluid dynamics.

Vagners, Juris * 1967; PhD, 1967, Stanford University; dynamics, controls and optimization.

Wan, Frederic Y. * 1983, (Affiliate); PhD, 1965, Massachusetts Institute of Technology; solid mechanics and mathematical modeling.

Watkins, David S. 1989, (Affiliate); PhD, 1974, University of Calgary (Canada); linear algebra, numerical computation.

Yeh, Harry H. * 1983, (Adjunct); PhD, 1983, University of California (Berkeley); fluid mechanics, water wave motions, coastal and hydraulic engineering.

Associate Professors

Adams, Loyce M. * 1985; PhD, 1983, University of Virginia; numerical algorithms for parallel computers.

Bretherton, Christopher S. * 1984; PhD, 1984, Massachusetts Institute of Technology; convective cloud systems, mesoscale meteorology, climate theory.

Kot, Mark * 1989; PhD, 1987, University of Arizona; mathematical ecology, nonlinear dynamics, and population biology.

Schmid, Peter J. * 1993; PhD, 1993, Massachusetts Institute of Technology; computational fluid dynamics, hydrodynamic stability theory, transition to turbulence.

Storti, Duane W. * 1983, (Adjunct); PhD, 1983, Cornell University; nonlinear dynamics and vibrations, dynamical systems, perturbations and bifurcations.

Assistant Professors

Lewis, Mark A. 1991, (Affiliate); PhD, 1990, Oxford University (UK).

Pearson, Erik W. 1986, (Affiliate); PhD, 1983, Harvard University.

Winters, Craig B. * 1984, (Affiliate); PhD, 1989, University of Washington.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

AMATH 301 Beginning Scientific Computing (4) Introduction to use of computers to solve scientific and engineering problems. Application of mathematical judgment in selecting tools to solve problems and to communicate results. MATLAB, MATHEMATICA/MAPLE, and NETLIB software used for numerical computation and symbolic manipulation. Prerequisite: MATH 126 or one year of calculus. Offered: AWSp.

AMATH 351 Quantitative Methods I (3) NW Applications of mathematical techniques to problems in the sciences and engineering. Emphasis on formulation, solution, and interpretation of results. Introductory survey of differential equations. Prerequisites: MATH 126. Offered: jointly with MATH/OCEAN 351; A.

AMATH 352 Quantitative Methods II (3) NW Development and application of numerical methods and algorithms to problems in the applied sciences and engineering. Applied linear algebra and introduction to numerical methods. Emphasis on use of conceptual methods in engineering, mathematics, and science. Prerequisites: MATH 126 and any programming language. Offered: jointly with MATH/OCEAN 352; WSp.

AMATH 353 Quantitative Methods III (3) NW Applications of mathematical techniques to problems in the sciences and engineering. Emphasis on formulation, solution, and interpretation of results. Introductory survey of partial differential equations. Examples in

physical and biological sciences and engineering. Prerequisite: 351 or MATH 307. Offered: jointly with MATH/OCEAN 353; WSp.

AMATH 381, 382, 383 Introduction to Mathematical Modeling (3, 3, 3) NW Simple discrete and continuous models of diverse natural and social phenomena with particular reference to the unity of the tools of mathematical analysis useful in their study. 381—discrete methods; 382—a mixture of discrete and continuous methods; 383—continuous methods. Mathematical topics and phenomena. Prerequisites: MATH 126 and 308 for 381; 351 or MATH 307 for 382; 351 and 352 or MATH 324 and 382 for 383. Offered: jointly with MATH 381, 382, 383; A, W, Sp.

AMATH 400 Methods of Engineering Analysis (3) NW Applications of mathematics to problems in chemical engineering; vector calculus; properties and methods of solution of first and second order partial differential equations; similarity transforms, separation of variables, Laplace and Fourier transforms. Prerequisites: MATH 205, MATH 307 or AMATH 351, MATH 324 or permission of instructor. Offered: jointly with CHEM E 400; A.

AMATH 401 Methods in Applied Mathematics I (4) NW Emphasis on acquisition of solution techniques; ideas illustrated with specific example problems arising in science and engineering. Applications of vector differential calculus, complex variables. Line-surface integrals; integral theorems: Taylor and Laurent series, contour integration. Prerequisites: MATH 205; MATH 324 and AMATH 351 or MATH 307 or permission of instructor. Offered: jointly with ENGR 401.

AMATH 402 Methods in Applied Mathematics II (4) NW See 401. Applications of ordinary differential equations; review of elementary concepts for first and second order equations; power series and Frobenius solutions. Laplace transforms; systems of differential equations, eigenvalues. Prerequisites: MATH 205; MATH 324 and AMATH 351 or MATH 307 or permission of instructor. Offered: jointly with ENGR 402.

AMATH 403 Methods in Applied Mathematics III (4) NW See 401. Applications of partial differential equations; linear and quasilinear first order equations, characteristics; classification of linear second order equations; basic solution techniques for parabolic, elliptic, and hyperbolic equations; Green's functions and integral methods. Prerequisite: 402 or permission of instructor. Offered: jointly with ENGR 403.

AMATH 422 Introduction to Mathematical Biology (3) NW Mathematical modeling in biology and medicine. Introduction to chaos and nonlinear dynamics, population models (predator-prey and competition systems), epidemic models with applications to sexually transmitted diseases and dynamic diseases, enzyme kinetics, biological oscillators and switches. Prerequisite 351 or equivalent. Offered: W.

AMATH 423 Mathematical Biology: Spatial Models (3) NW Modeling a variety of spatial problems in the biomedical sciences. Topics chosen from: spatial spread of populations, traveling wave phenomena, pattern formation in biology, spread of cancer tumors, spatial spread and control of epidemics. Prerequisite: 353 or equivalent. Offered: Sp.

AMATH 441 Introduction to Fluid Dynamics (3) Eulerian equations of mass and motion. Surface forces. Vorticity and vortex dynamics. Water waves and interfacial waves; concept of phase and group velocities. Linear instability theory. Simple viscous flows; boundary layer theory. Low Reynolds-number flows, application to biological fluid flows. Prerequisites: 351 and 353.

Courses for Graduates Only

AMATH 500 Special Studies in Applied Mathematics (* max. 12) Lectures and discussions of topics of current interest in applied mathematics. May not be offered every quarter; content may vary from one offering to another. Prerequisite: permission of instructor.

AMATH 501 Seminar in Applied Mathematics (1, max. 6) Special topics and selected problems of current interest in applied mathematics. Credit/no credit only. Offered: AWSp.

AMATH 502 Applied Mathematics Clinic (1-2) The clinic provides consulting service for problems from different academic units requiring assistance in formulation, analysis, and interpretation of mathematical models. Students learn to delineate sources of difficulties, identify or devise a method of solution, and effectively communicate it to clients. Credit/no credit only. Prerequisites: 568, 569, and 584. Offered: AWSp.

AMATH 503 Mathematical Biology I (3) Mathematical modeling in biomedical sciences (mainly ecology, epidemiology, physiology, and zoology). Topics covered include modeling (continuous and discrete), population interactions, dynamic diseases, reaction kinetics, biological oscillators, oscillator generated wave phenomena, epidemics, and the dynamics of infectious diseases. Prerequisites: 402 or equivalent knowledge of ordinary differential equations. Offered: A.

AMATH 504 Mathematical Biology II (3) Mathematical modeling in the biomedical sciences (mainly ecology, epidemiology, and zoology). Topics include spatial spread of populations, traveling wave phenomena in biology, reaction diffusion theory, biological pattern formation mechanisms, mechanochemical theory of morphogenesis, spatial spread of epidemics. (May be taken independently of 503.) Prerequisites: 402, 403 or equivalents; ordinary, partial differential equations. Offered: W.

AMATH 505 Introduction to Fluid Dynamics (4) Eulerian equations for mass-motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress-strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high-low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisites: 403 or permission of instructor. Offered: jointly with ATM S 505; A.

AMATH 506 Applied Probability Models (4) Overview of probability models, random variables, independence and conditional probability. Markov chains, stationary time series. Prerequisite: some advanced calculus and linear algebra; familiarity with elementary discrete probability models. Offered: jointly with STAT 506; Sp.

AMATH 507, 508 Calculus of Variations I, II (5, 3) Necessary and sufficient conditions for a weak and strong extremum. Legendre transformation, Hamiltonian systems. Constraints and Lagrange multipliers. Space-time problems with examples from elasticity, electromagnetics, and fluid mechanics. Sturm-Liouville problems. Approximate methods. Prerequisites: 351 or MATH 307; MATH 324, 325 for 507; 507 for 508. Recommended: 402 and 403 or MATH 428 and 429. Offered: jointly with MATH 507, 508.

AMATH 509 Theory of Optimal Control (3) Trajectories obtained from ordinary differential equations with control variables. Controllability, optimality, the maximum principle. Relaxation and the existence of solutions. Techniques of nonsmooth analysis. Prerequisites: real analysis on the level of MATH 426; background in optimization corresponding to 507 or 515. Offered: jointly with MATH 509; even years.

AMATH 510 Applications of Optimization in Engineering Design (3) Discussion of issues arising in applications of optimization to engineering design. Emphasis on formulating problems and selecting appropriate solution techniques. Random search methods for problems otherwise computationally intractable. Individual projects in engineering optimal design. Prerequisites: AMATH/MATH/IND E 515 and MATH 324 or permission of instructor. Offered: jointly with IND E 510.

AMATH 514 Networks and Combinatorial Optimization (3) Networks and directed graphs. Paths and

troes. Feasible and optimal flows and potentials. Transportation problems, matching and assignment problems. Algorithms and applications. Prerequisites: MATH 308 and 324 or equivalents. Offered: jointly with MATH 514.

AMATH 515 Fundamentals of Optimization (5) Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisites: MATH 309, 324, or equivalents. Offered: jointly with IND E 515/MATH 515.

AMATH 516 Numerical Optimization (3) Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Prerequisite: 515. Offered: jointly with MATH 516.

AMATH 517 Optimization Under Uncertainty (3) Sequential optimization problems involving random variables. Dynamic programming, stochastic programming. Control of uncertain dynamic systems in finite, discrete time. Risk, feedback, adaptivity. Problems with imperfect state information. Applications to optimal stopping, inventory control, resource management. Prerequisites: 506 (or an introduction to basic concepts of probability such as STAT 390 or 394, 395), MATH 308 and 324. Offered: jointly with MATH 517.

AMATH 518 Topics In Applied Optimization (3) Problems and techniques in special areas of optimization, such as engineering design, resource management, stochastic programming, games, variational inequalities, and parameter identification in mathematical modeling. Prerequisite: 515 or permission of instructor. Offered: jointly with MATH 518; odd years.

AMATH 519 Tensor Analysis (3) Cartesian tensors; motivation, manipulation, applications. Riemannian space; Christoffel symbols, geodesics, covariant differentiation. Curvature tensor, geodesic deviations, flat space. Special local coordinate systems. Applications to classical mechanics, continuum mechanisms, electromagnetism, relativity. Special topics. Prerequisite: 401 or MATH 324, or permission of instructor. Offered: jointly with MATH 519; odd years.

AMATH 520 Mathematical Modeling (3) Processes used in physical, biological, and economic sciences, as well as in engineering, for providing mathematical descriptions of various problems pertinent to these disciplines. Emphasis on the modeling rather than on the solution. Students must have an undergraduate background in one or more mentioned areas. Offered: W.

AMATH 521 Mathematical Ecology (4) Emphasis on the dynamics of populations. Topics include single-species deterministic and stochastic models, delays, discrete systems, bifurcations, multiple-species interactions (competition, predation, mutualism), oscillations and chaos, optimal control theory, resource management, age-structured models, and multi-sex models. Prerequisite: 402 or equivalent. Offered: Sp.

AMATH 530 Parallel Numerical Algorithms (3) Characteristics of parallel architectures, design and complexity analysis of parallel algorithms (communication, speedup, execution time, problem decomposition, problem ordering, problem mapping issues), parallel methods for elliptic PDEs, parallel methods for parabolic and hyperbolic PDEs, case studies of applications on current parallel machines. Prerequisite: 584 or equivalent.

AMATH 544 Water Wave Mechanics (3) Theory of water waves. Classical water wave problem and ap-

proximate solution techniques. Evolution equations and their solutions for wave systems. Viscous damping effects and mass transport. Nonlinear shallow-water waves and the Korteweg-deVries equation. Waves on beaches. Recommended: graduate-level course in fluid mechanics. Offered: jointly with CEWA 544.

AMATH 550 Mathematical Topics In Analytical Dynamics (3) In-depth study of one or more aspects of current interest in analytical dynamics, such as the stability of many body systems, resonance and passage through resonance, exact and adiabatic invariants. Prerequisites: 403, others depending on topics. Recommended: basic graduate course in analytical dynamics.

AMATH 551 Mathematical Topics In Solid Mechanics (3) Topics vary and include: foundations of plate theories; structure of linear shell theory; static-geometric duality; asymptotic solutions for nonlinear plate and shell problems; bifurcation theory and solution methods; wave propagation and stability problems in random environments. Prerequisites: 403; graduate-level course in mechanics; and others, depending on topics.

AMATH 552 Mathematical Topics In Fluid Dynamics (3) Mathematical development and foundations in fluid dynamics; topics selected from boundary layers, stability theory, turbulence, rotating-stratified fluid motion, gas dynamics. Prerequisites: 403, others depending on topics. Recommended: graduate-level course in fluid dynamics.

AMATH 563, 564 Methods of Partial Differential Equations II, III (3, 3) First-order partial differential equations: characteristics, conservation laws, shocks, applications to geometrical optics and Hamilton-Jacobi theory. Elliptic equations: fundamental solution, Green's functions, conformal mapping, boundary-value problems. Parabolic equations. Hyperbolic equations: characteristics, shocks, examples from fluid dynamics, approximate methods. Post-master's sequence. Prerequisite: 569. Offered: odd years.

AMATH 567 Analysis In Engineering and Science I (3) Complex variable and associated topics. Branch cuts, series and product expansions. Contour integration, numerical implications. Harmonic functions. Complex potential (and singularities) in physical problems. Conformal mapping; applications and examples. Fourier and Laplace transforms and applications. Recommended: 401 or equivalent. Offered: jointly with A A 567; A.

AMATH 568 Analysis In Engineering and Science II (3) Survey of practical solution techniques for ordinary differential equations. Linear systems of equations including nondiagonalizable case. Nonlinear systems; stability phase plane analysis. Poincaré maps. Asymptotic expansions. Regular and singular perturbations. Recommended: 402 or equivalent. Offered: jointly with A A 568; W.

AMATH 569 Partial Differential Equations (3) Analytical solution techniques for linear partial differential equations, discussion of how these arise in engineering and science. Transform and Green's function methods. Classification of second-order equations, theory and applications of method of characteristics. Prerequisite: 403, 568 or MATH 428 or permission of instructor. Offered: jointly with A A 569/MATH 569; Sp.

AMATH 574 Nonlinear Dynamics and Chaos (3) Overview of ways in which complex dynamics arise in nonlinear dynamical systems. Topics include bifurcation theory, difference equations, universality, Poincaré maps, routes to chaos, horseshoe maps, Hamiltonian chaos, fractal dimensions, Liapunov exponents, and the analysis of time series. Examples from biology, mechanics, and other fields. Prerequisite: 568 or equivalent.

AMATH 577, 578 Perturbation Theory I, II (3, 3) Basic concepts of asymptotic expansions with applications to linear partial differential equations. Singular perturbations: matched asymptotic expansions, boundary layers, shock layers, uniformly valid solutions, the methods of multiple scales and averaging, weakly nonlinear wave propagation problems and resonance phenomena, nonlinear wave propagation in fluid, solid and particle mechanics. Post-master's sequence. Prerequisites: 567, 568, 569, or equivalent. Offered: even years.

AMATH 581 Mathematical Problem Solving using Computers (4) Unified mathematical-computational approach to solving problems in applied mathematics. Presents student with challenging scientific problems requiring use of computers, numerical and symbolic software packages (NAG, MATLAB, NETLIB, MATHEMATICA, MAPLE), graphical techniques for data presentation and communication of scientific results. Prerequisites: 402 and 403 or equivalent. Offered: A.

AMATH 584 Applied Linear Algebra and Introductory Numerical Methods (3) Applied linear algebra: matrix operations, linear systems, matrix factorization, eigenvalues, numerical methods, applications to optimization, circuits, differential equations. Survey of numerical methods: nonlinear systems, curve fitting, ordinary differential equations, quadrature, basic ideas in partial differential equations. Offered: jointly with A A 584; A.

AMATH 585, 586 Approximate and Numerical Analysis II, III (3, 3) Advanced topics in numerical analysis. More detailed consideration of topics in 584. Emphasis on methods for partial differential equations, integral equations, finite elements, stability and accuracy, mesh generation, adaptive meshes, sparse matrices, variational methods. Post-master's sequence. Prerequisite: 584, which may be taken concurrently. Offered: jointly with A A 585, 586.

AMATH 587 Asymptotics and Special Functions (3) Origin and properties of higher transcendental functions; theoretical basis and applications of Laplace, Fourier, Bessel, Mellin transforms; asymptotic analysis, including methods of steepest descent and stationary phase, WKB. Prerequisite: 567, 568, 569, or equivalent. Offered: jointly with MATH 587.

AMATH 588 Green's Functions and Integral Equations (3) Review of Sturm-Liouville theory. Green's functions and integral representation of solution of PDE. Applications in science and engineering. Integral equations. Fredholm and Hilbert-Schmidt theories. Dual integral equations. Prerequisites: 567, 568, 569, or equivalent.

AMATH 589 Advanced Topics of Applied Analysis (3) Numerical treatment of Fredholm and Volterra equations. Singular integral equations: transform approach and complex variables methods; Wiener-Hopf and other special techniques; the Hilbert problem. Nonlinear integral equations. Prerequisite: 588 or permission of instructor.

AMATH 594, 595, 596 Special Topics in Numerical Analysis (2-3, max. 15, 2-3, max. 15, 2-3, max. 15) Such topics as linear systems, approximation theory, or the numerical solution of differential equations are covered. Offered: jointly with MATH 594, 595, 596.

AMATH 600 Independent Research or Study (*) Credit/no credit only.

AMATH 700 Master's Thesis (*) Credit/no credit only.

AMATH 800 Doctoral Dissertation (*) Credit/no credit only.

Art

102 Art

The School of Art serves a dual role within the educational structure of the University of Washington. It is both a professional school and an academic department. As a professional school it trains students for active careers in the graphic and plastic arts; as a school of the College of Arts and Sciences it offers studio and lecture courses which are open to all students. All of its course offerings and its curriculum requirements are based on the underlying philosophy that an awareness and understanding of the visual arts are necessary to a liberal education, and that liberal education is necessary to the training of a professional artist.

Undergraduate Program

Advisers

Cynthia G. Caci
Judith W. Clark
104 Art

Admission Policy for Initial-Degree-Seeking Applicants

All entering freshmen must meet with a School of Art adviser prior to being admitted as a major. Currently enrolled UW and transfer students with a minimum GPA of 2.50 may declare a major during the first meeting with a School of Art adviser. Students declaring their intention to pursue a B.A. in Interdisciplinary Visual Arts will be admitted directly into the major and may continue through the degree without review. Students who wish to pursue any of the nine B.F.A. programs (Ceramics, Fibers, Graphic Design, Industrial Design, Metals, Painting, Photography, Printmaking, Sculpture) will be admitted as premajors within the School. Continuation with full major status is competitive and based on work completed in appropriate studio classes.

Entering students who have not taken college-level studio courses do not need a portfolio. They will be expected to begin the major by completing all Studio Foundation courses. Transfer students with college-level studio art experience may submit a portfolio (photo or slide examples of studio work) in order to establish a level of proficiency in their desired major. Portfolios should be submitted to the Art Advising Office two weeks prior to the student's appointment with an art adviser.

Admission Policy for Postbaccalaureate Applicants

Postbaccalaureate art applicants must file an application through the Office of Admissions by the regular quarterly deadlines.

Subsequently applicants will receive a supplementary information form from the School of Art Advising Office. At that time, studio applicants will be asked to submit slides of their work for faculty review. Following the review, applicants will be notified by the Office of Admissions regarding their admissibility.

Postbaccalaureate applicants who hope to transfer to art from other schools, departments, or colleges on the campus may pick up a supplementary information form from the School of Art advising office. This supplementary form, a complete academic record, and slides of studio work are required and may be submitted to the School of Art advising office at any time.

Bachelor of Arts

Major Requirements

Interdisciplinary Visual Art: ART 120, 121, 122, 123, 124 and one course chosen from 131, 132, 133, 134; ART H 203 plus 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits in non-Western art; 43 credits chosen from the following optional fields so that one option includes no more than 20 credits and the others no more than 15 credits each. These credits to be drawn from undergraduate courses in art history, ceramics, drawing, fibers, metals, painting, photography, printmaking, or sculpture, but not to duplicate the above foundations courses.

Bachelor of Fine Arts

A minimum of 198 credits is required for graduation with a Bachelor of Fine Arts degree.

Major Requirements

Ceramics: ART 120, 121, 122, 123, 124, 201, 202, 353 (15 credits), 485 (15 credits), 486 (10 credits); 15 credits selected from the following: ART 252, 255, 258, 272, 335, 337, 357; 21 studio art or related elective credits to include one course from 131, 132, 133, 134; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits of non-Western art; 3 elective art history credits.

Fibers: ART 120, 121, 122, 123, 124, 215, 224, 226, 227, 324, 326, 327; 5 additional credits from 324, 326, or 327; 15 credits of ART 428; 31 studio art or related elective credits to include one course from 131, 132, 133, 134; ART 251; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits of non-Western art.

Graphic Design: ART 120, 121, 122, 123, 124, 205, 206, 207, 366, 367, 368, 376, 377, 378, 466, 467, 468, 478, 479, 480; 13 studio art or related elective credits to include one course from 131, 132, 133, 134; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits in non-Western art; 3 elective art history credits.

Industrial Design: ART 120, 121, 122, 123, 124, 254, 261, 262, 263, 316, 317, 318, 321, 322, 422, 445, 446, 447; 19 studio art or related elective credits to include one course from 131, 132, 133, 134. ARCH 210, 211, 370; SP CMU 220; 10 credits from PHYS 110, 111, 214, 215, 216. ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits in non-Western art; 3 elective art history credits.

Metals: ART 120, 121, 122, 123, 124, 258, 357, 358, 359, 457, 458, 460 (15 credits); 15 credits from 201, 202, 252, 255, 272, 335, 337; 26 studio art or related elective credits to include one course from 131, 132, 133, 134; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits in non-Western art; 3 elective art history credits.

Painting: ART 120, 121, 122, 123, 124, 132, 256, 257, 265 (10 credits), 307 (10 credits), 325, 360 (10 credits), 463 (15 credits); 21 studio art or related elective credits; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits in non-Western art; any twentieth-century art history course.

Photography: ART 120, 121, 122, 123, 124, 230, 370, 371, 372, 411 (15 credits), 10 credits from 412, 413, 414; 415 (10 credits); 31 studio art or related elective credits to include one course from 131, 132, 133, 134; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits in non-Western art; ART H 232.

Printmaking: ART 120, 121, 122, 123, 124, 247, 248, 249; 15 credits from 307, 345, 350, 355; 450 (15 credits), 455; 20 credits from 245, 256, 257, 260, 265; 16 studio art or related elective credits to include one course from 131, 132, 133; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a mini-

mum 5 credits in non-Western art; any twentieth-century art history course.

Sculpture: ART 120, 121, 122, 123, 124, 232, 253, 272, 274, 332 (10 credits), 335, 337, 436 (15 credits); 31 studio art or related elective credits to include one course from 131, 132, 133, 134; ART H 203; 10 credits from ART H 201, 202, 204, 205, 206, 330, 331 with a minimum 5 credits in non-Western art; 3 elective art history credits.

Graduate Program

Louise Cabeen, Graduate Program Coordinator

The School of Art offers nine art and design programs leading to the Master of Fine Arts degree: ceramics, fibers, graphic design, industrial design, metals, painting, photography, printmaking, and sculpture. Students are required to enroll for two years of full-time study (six quarters, excluding summer), earning a minimum of 63 credits of scheduled class work and 9 credits of thesis for a total of 72 credits. Individual programs have specific requirements.

The thesis consists of a studio project representing a body of work, a written thesis statement, and documentation in the form of slides of the work. A selection of thesis work is exhibited at the annual studio masters' exhibition of the School of Art.

Admission Requirements

Applicants for admission to the Master of Fine Arts program are required to have a Bachelor of Fine Arts degree or equivalent (determined by the quality of the applicant's work and equivalent experience, based upon the UW B.F.A. requirements of 108 studio and 18 art history quarter credit hours) with a minimum GPA of 3.00 in the undergraduate art major.

The Graduate Record Examination is *not* required. Admission is on a competitive basis. Annual deadline for applications is February 1, for admission the following autumn quarter.

Scholarships and Teaching Assistantships

School of Art scholarships are awarded annually to new and returning students, based on merit. Applicants admitted to the M.F.A. program may be offered School of Art scholarships for the coming year on an individual merit basis.

The School of Art offers a limited number of teaching assistantships to incoming graduate students on an individual merit basis, as determined by each program. Graduate students may apply for a limited number of additional, competitive teaching assistantships, which are awarded to students after the first quarter in residence.

Professors

Aips, Glen E. * 1945, (Emeritus); MFA, 1947, University of Washington; printmaking.

Anderson, Judy M. * 1988; MA, 1977, University of California (Berkeley); graphic and informational design for business and institutions, book artist.

Berger, Paul E. * 1978; MFA, 1973, State University of New York (Buffalo); photography.

Carragher, Ronald G. * 1967; MA, 1961, San Jose State College; photography.

Celentano, Francis * 1966, (Emeritus); MA, 1957, New York University; painting, drawing.

Dahn, Richard F. * 1965; MFA, 1959, Yale University; graphic design.

Dailey, Michael D. * 1963; MFA, 1963, University of Iowa; painting, drawing.

Du Pen, Everett 1945, (Emeritus); MFA, 1937, Yale University; sculpture.

Erickson, John W. 1956, (Emeritus); MFA, 1951, University of Illinois; painting.

Goldsmith, Layne * 1983; MA, 1975, San Jose State College; MFA, 1979, Cranbrook Academy of Art; fiber arts and related historic and contemporary textile structures and processes.

Hixson, William J. * 1950, (Emeritus); MFA, 1950, University of Oregon; painting.

Hu, Mary L. * 1980; MFA, 1967, Southern Illinois University; metal design.

Hurley, Denzil 1994; MFA, 1979, Yale University; painting, drawing, theory.

Jones, Robert C. * 1960, (Emeritus); MS, 1959, Rhode Island School of Design; painting, drawing.

Kehl, Richard L. * 1962; MA, 1961, MFA, 1961, Kansas City Art Institute; painting.

Lawrence, Jacob A. * 1971, (Emeritus); DFA (Hon.), 1981, Carnegie-Mellon University; painting, drawing.

Lundin, Norman K. * 1964; MFA, 1963, University of Cincinnati; painting, drawing.

Marshall, John C. * 1970; MFA, 1968, Syracuse University; metal design.

Mason, Aiden 1946, (Emeritus); MFA, 1947, University of Washington; painting.

Moseley, Spencer A. * 1948, (Emeritus); MFA, 1952, University of Washington; painting, drawing.

Ozubko, Christopher * 1981; MFA, 1981, Cranbrook Academy of Art; graphic design.

Pennington, Ruth E. 1926, (Emeritus); MFA, 1929, University of Washington; metal design.

Pizzuto, Eugene * 1957, (Emeritus); MFA, 1951, Cranbrook Academy of Art; painting, drawing.

Smith, Charles W. * 1948, (Emeritus); MFA, 1956, Cranbrook Academy of Art; sculpture.

Solberg, Ramona L. * 1967, (Emeritus); MFA, 1957, University of Washington; art education, metal design.

Spafford, Michael C. * 1969, (Emeritus); MA, 1960, Harvard University; painting, drawing.

Sperry, Robert H. * 1954, (Emeritus); MFA, 1955, University of Washington; ceramics.

Taylor, Norman J. * 1968; MFA, 1967, MA, 1967, University of Iowa; sculpture.

Tsutakawa, George 1947, (Emeritus); MFA, 1950, University of Washington; sculpture.

Wadden, Douglas J. * 1970; MFA, 1970, Yale University; graphic design, photography.

Warashina, M. Patricia * 1970, (Emeritus); MFA, 1964, University of Washington; ceramics.

Whitehill-Ward, John * 1975; MS, 1974, Illinois Institute of Technology; graphic design.

Young, John T. * 1984; MFA, 1978, Rhode Island School of Design; sculpture, conceptual art.

Associate Professors

Fuller, Steven 1946, (Emeritus); MFA, 1948, University of Washington; art education.

Govedare, Philip B. * 1991; MFA, 1984, Tyler School of Art; painting and drawing.

Koenig, Hazel L. * 1967, (Emeritus); MFA, 1950, University of Washington; fiber arts.

Labitzke, Curt W. * 1984; MFA, 1984, University of Notre Dame; printmaking; intaglio and lithography emphasizing hand drawn techniques.

Pawula, Kenneth J. * 1965; MA, 1962, University of California (Berkeley); painting, drawing.

Praczkowski, Edward * 1965, (Emeritus); MFA, 1965, Cranbrook Academy of Art; painting, drawing.

Proctor, Richard M. * 1957, (Emeritus); MA, 1962, Michigan State University; fiber arts.

Scheier, Shirley E. * 1986; MFA, 1985, University of Wisconsin; printmaking.

Takamori, Akio * 1988; MFA, 1978, New York State College of Ceramics; ceramic sculpture.

Walker, Jamie * 1989; MFA, 1983, Rhode Island School of Design; ceramic arts.

Welman, Valentine S. * 1954, (Emeritus); MFA, 1954, University of Colorado (Boulder); painting, drawing.

Assistant Professors

Brixey, Shawn A. 1994; MS, 1988, Massachusetts Institute of Technology; synthesis of advanced technology with visual arts and its impact on the creation of new art forms.

Cabeen, Louise * 1993; MFA, 1989, Chicago, School of Art Institute; socially critical art with research specialties in textile history and techniques.

Celentano, Denyce M. 1995; MFA, 1990, East Carolina University; painting and drawing.

Gale, Ann E. 1995; MFA, 1991, Yale University; figure painting.

Garvens, Ellen J. 1994; MA, 1983, MFA, 1987, University of New Mexico; mixed-media photography.

Scott, George W. 1995; MFA, 1993, Cranbrook Academy of Art; industrial design/design education.

St. Pierre, Louise M. 1995; BFA, 1983, University of Alberta (Canada); industrial design.

Lecturer

Nicholls, James Keith 1995; BArch, 1986, University of British Columbia (Canada); design, industrial design, construction technology.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

ART 104 Introduction to Drawing (3, max. 6) VLPA. Perspective, use of tone, line, texture. Abstract and descriptive composition. For nonmajors. Offered: AWP.

Foundation Courses

ART 120 Issues and Influences (2) VLPA. Introduction to the contemporary concerns of the various disciplines and fields of thought represented by the School of Art. Lectures from the School's ten programs regarding historical, contemporary, and future issues and directions from each of the School's ten programs. Credit/no credit only. Prerequisite: art major.

ART 121 Drawing I (5) VLPA. Drawing studied as the means of creating a coherent visual and expressive statement. Development of ability in the fundamentals of drawing: line, tone, and gesture, theory and practice of linear and aerial perspective, and basic concepts of composition. Prerequisite: art major. Offered: AWP.

ART 122 Drawing II (5) VLPA. Introduction of new materials and processes and varied conceptual approaches with greater individualization of expression and treatment of subject. Emphasis on abstract thinking as a factor in interpreting the visual world. Prerequisite: 121. Offered: AWP.

ART 123 Two-dimensional Design: Structure and Color (5) VLPA. Exploration of fundamental visual phenomena as defined by relationship and context. Compositional studies that allow for analysis of line, form, mass, tonality, and color. Exercises begin with subject interpretation and translation, progress to abstraction, and conclude with a series of variations on a visual theme. Prerequisite: art major. Offered: AWP.

ART 124 Three-dimensional Design Fundamentals (5) VLPA. Through use of a variety of materials, three-dimensional fundamentals are investigated for formal and conceptual concerns as they apply to the visual arts. Prerequisite: art major. Offered: AWP.

Foundation Electives

ART 131 Alternative Approaches to Art and Design (5) VLPA. Presentation of process through which artists discover and translate ideas, feelings, and concerns into images or objects. Use of a wide variety of methods and approaches, from traditional to technological, to promote visual expression. Discussion and critiques leading toward better understanding the creative process. Prerequisites: foundation courses.

ART 132 Introduction to Figure Drawing (5) VLPA. Introduction to the human figure as historically traditional subject matter as well as an important component in self expression. Covers proportion, foreshortening, and composition. Prerequisites: foundation courses.

ART 133 Color Theory and Practice (5) VLPA. Examination of color as distinct visual phenomenon with investigations of its practical, theoretical, and illusionary aspects. Various media and materials employed in exercises and compositions that demonstrate properties of color structure, symbolism, and perception and their potential applications to art and design. Prerequisites: foundation courses.

ART 150 Three-dimensional Design Fundamentals (5) VLPA. Introduction to fundamentals of three-dimensional design process. Both practical and conceptual skills explored and demonstrated through assigned project or projects. Prerequisites: art major and permission of instructor.

ART 201 Ceramic Art: Handbuilding (5) VLPA. Introduction to handbuilding; kiln firing and glazing processes. Examination of contemporary sculpture in clay. Prerequisites: foundation courses.

ART 202 Ceramic Art: Wheel Throwing (5) VLPA. Introduction to wheel throwing, glazing, and kiln firing processes. Examination of contemporary vessel form in clay. Prerequisites: foundation courses.

ART 205 Graphic Design (5) VLPA. Basic graphic design problem solving. Prerequisites: foundation courses and pre-graphic design major.

ART 206 Graphic Design (5) VLPA. Basic graphic design problem solving. Prerequisite: 205.

ART 207 Typographic Design: Methods and Processes (5) VLPA. Investigates operational typographic and reproduction methods as a foundation for two-dimensional design and laboratory assignments. Primary objective is understanding computerized photo-typesetting, offset lithography, and photomechanical techniques as they relate to the design process. Prerequisite: 206.

ART 215 Principles of Dyes and Dyeing (5) VLPA. History of dyes and dyed textiles from ancient world use through current industrial practices. Emphasis on dye studio practices and practical application of vari-

ous dyes for accuracy and safety. Fiber preparation, dye fixation, and record-keeping of dye tests. Prerequisites: art major.

ART 224 Introduction to Fibers (5, max. 10) VLPA Exploration of the development of cloth as a basis for study of the relationship between materials, meaning, and process. Technical skills acquisition designed to follow sequential evolution of clothmaking from found to built to embellished. Prerequisite: art major.

ART 226 Weaving I (5) VLPA Basic techniques and processes of four-harness loom woven structures. Fundamentals of drafting and loom design and operation, including study of fiber technology and dye chemistry. Prerequisite: foundation courses.

ART 227 Surface Design I (5, max. 15) VLPA Printing and dyeing of textiles. Techniques include block printing, batik, tie and dye, discharging. Prerequisites: foundation courses.

ART 230 Introductory Photography (5) VLPA Introduction to theory, techniques, and processes of still photography. Emphasis on darkroom procedures and camera use. Projects stress the visual and creative potential of the medium. Students must provide a camera with lens, shutter, and aperture controls. Prerequisite: foundation courses and permission of adviser.

ART 232 Conceptual Art Studio (5) VLPA Beginning level conceptual art sculpture studio focusing on non-traditional formats, idea oriented artworks, and performance art. Prerequisite: foundation courses.

ART 245 Concepts in Printmaking (5) VLPA Introduction to contemporary printing methods such as monotype, monoprint, stencil, and photocopy. Survey of historical and current approaches to the art of printmaking. Prerequisites: foundation courses.

ART 247 Intaglio (5) VLPA Monotype, collage, dry point, etching, engraving, and aquatint. Photographic and hand-drawn methods. Black and white and color work. Historical overview with emphasis on contemporary developments. Prerequisites: foundations courses.

ART 248 Lithography (5) VLPA Metal plate lithography, photographic, and hand-drawn methods. Traditional stone lithography. Black and white and simple color printing. Historical overview with emphasis on contemporary developments. Prerequisites: foundation courses.

ART 249 Serigraphy (5) VLPA Water-based silk screen printing. Paper stencil, photographic process, and hand-drawn methods. Emphasis on color printing on a wide range of surfaces and materials. Historical overview with emphasis on contemporary developments. Prerequisites: foundation courses.

ART 251 History of Textiles (3) VLPA Overview of Western textiles from Coptic tapestry through industrialization. Discussion of textiles not only in aesthetic terms but also as cultural documents arising from, and reflecting, a broad range of societal pressures and concerns. Special topics in contemporary issues and non-Western textiles with emphasis on holdings in the University collection.

ART 253 Design and Materials: Wood (5) VLPA Shaping and forming of wood. Lamination and fabricating techniques. Use of hand and power tools. Prerequisites: foundation courses.

ART 254 Design and Materials: Metal (5) VLPA Basic techniques in manipulation and construction of metals. Prerequisites: foundation courses.

ART 256 Painting (5) VLPA Beginning oil painting. Prerequisites: foundation courses.

ART 257 Painting (5) VLPA Oil painting. Prerequisite: 256.

ART 258 Jewelry Design (5) VLPA Introduction to jewelry design and construction through techniques of

sawing, filing, soldering, forging, and casting in silver, copper, bronze, and brass, as well as simple stone setting. Prerequisites: foundation courses.

ART 259 Water-Soluble Media (5, max. 15) VLPA Prerequisites: foundation courses.

ART 260 Art Works on Paper (5, max. 15) VLPA Experiments and projects in various techniques of drawing, assemblage, and painting on paper. Prerequisite: 257.

ART 261, 262, 263 Introduction to Industrial Design (5, 5, 5) VLPA Fundamentals of three-dimensional design. Form studies in relation to geometry, structure, value, production, meaning, and context. Prerequisites: foundation courses and permission of instructor for 261; 261 for 262; 262 for 263.

ART 265 Intermediate Drawing (5, max. 15) VLPA Prerequisites: foundation courses.

ART 272 Beginning Sculpture Composition (5) VLPA Fundamentals of composition in the round and relief. Prerequisites: foundation courses.

ART 275 A World History of Art in Public Places (5) VLPA Historical introduction to, and overview of, the placement of art in the public domain, examining major visual and conceptual developments in the history of art. Examples of how various public artworks have manifested or been affected by elements of these developments.

ART 276 Contemporary Directions: Art in Public Places (5) VLPA Contemporary directions in public art focusing on innovative public artworks, artists, and art programs of Washington State. Prerequisite: 275.

ART 280 Media, Time, and Technology Arts (5) VLPA Develops a "new genre" attitude towards exploration and research in contemporary visual arts, based on computer/ human interface and electronic technology. Includes performance art, environmental art, sound art, light art, video art, interactive installation, kinetic art, conceptual art. Prerequisites: foundation courses and 131.

ART 307 Intermediate Painting (5, max. 10) VLPA Prerequisite: 257.

ART 309 Portrait Painting (5, max. 10) VLPA Prerequisite: 10 credits in 307.

ART 316, 317, 318 Design for Industry (5, 5, 5) VLPA Product design, working drawings, models, presentation drawings, product analysis, display, marketing. Prerequisites: junior standing in industrial design for 316; 316 for 317; 317 for 318.

ART 321 Furniture Design (5) VLPA Design of a furniture piece. Methodologies and construction, types of hardware, special shop techniques, scale modeling and full-scale functional designs.

ART 322 Presentation for Industrial Design I (5) VLPA Introduction to presentation skills, from quick sketching of design concepts to refined representation of the finished design in a two-dimensional format. Emphasis on accuracy and development of an individual style. Prerequisite: industrial design major.

ART 323 Presentation for Industrial Design II (5) VLPA Techniques to progress from design control drawings to three-dimensional models, including both study models and finished appearance models, in order to communicate design concepts in a professional, effective manner.

ART 324 Alternative Approaches: Fiber Arts (5, max. 10) VLPA Constructed, patterned, embellished, and found textiles used as a basis for challenging underlying assumptions about cloth. Uses alternative methods of pattern development and surface enhancement to interpret, invent, or discover a vocabulary of visual expression.

ART 325 Advanced Drawing (5, max. 15) VLPA Study at an advanced level involving history, practice, and theory of drawing as an art form. Prerequisite: 15 credits in 265.

ART 326 Weaving II (5) VLPA Introduction to weaver-controlled structures and tapestry weaving. Alternative weaving tools and loom construction; studio dyeing processes. Prerequisite: 226.

ART 327 Design for Printed Fabrics (5, max. 15) VLPA Hand-block and silk-screen printing; mass-production design. Prerequisite: 227.

ART 332 Intermediate Sculpture Composition (5, max. 15) VLPA Advanced work in various media and techniques. Prerequisite: 272.

ART 335 Metal Casting (5, max. 15) VLPA Introduction to foundry techniques as applied to fine arts casting of ferrous and nonferrous material. Prerequisite: 272.

ART 337 Metal Fabrication (5, max. 10) VLPA Study and application of metal fabrication methods as they apply to sculpture techniques, making use of oxyacetylene, electric arc, and heliarc. Prerequisite: 272.

ART 345 Intermediate Printmaking (5, max. 15) VLPA Development of mature and personal statement within context of the print form through studio practice and group discussion and critique. Processes and media emphasis varies on a revolving basis. Prerequisites: art major and 247, 248, or 249.

ART 350 Printmaking Special Projects (5, max. 15) VLPA Revolving topics of special interest to printmaking students beyond basic technical instruction found in beginning level courses. Prerequisite: foundation courses.

ART 352 Images on Paper (5, max. 10) VLPA Combines traditional printmaking with drawing and painting. Experimental in nature. Student works with various media and, in translating an image from one medium to another, deals with the unique characteristics of each. Prerequisites: foundation courses.

ART 353 Intermediate Ceramic Art (5, max. 15) VLPA Advanced work in forming, decorating, and glazing. Prerequisites: 201, 202, and permission of adviser.

ART 355 Rendering and Presentation: Metal Smith (5) VLPA Rendering and presentation for the metal smith. Prerequisites: major standing and permission of adviser.

ART 356 Project Design for Industrial Processes (5) VLPA Machine techniques for the design artist. Students learn to use lathe, shaper, and vertical and horizontal mills through a series of design problems. Prerequisite: foundation courses and permission of adviser.

ART 357 Holloware (5) VLPA Processes of raising, soldering, forging in copper, pewter, silver. Prerequisites: foundation courses.

ART 358 Jewelry Design (5) VLPA Etching, reticulation, makume, electroforming, repousse, and chasing as well as advanced stone setting methods. Prerequisite: 258.

ART 359 Enameling (5) VLPA Enamel design for metal work or jewelry, champleve, plique-a-jour, Limoges, cloisonne on copper, silver, or gold. Prerequisite: permission of instructor.

ART 360 Life (5, max. 10) VLPA Drawing and painting from the model. Prerequisites: 257 and 15 credits in 265.

ART 361 Art Techniques (5, max. 15) VLPA Study of materials and techniques of the artist and their application to painting and drawing. Prerequisite: 257.

ART 366, 367, 368 Graphic Design (5, 5, 5) VLPA 366: visualizations; 367: basic three-dimensional design; 368: persuasive communications. To be taken concurrently with 376, 377, 378. Prerequisites: 207 for 366; 366 for 367; 367 for 368.

ART 370 Intermediate Photography I (5) VLPA Projects in photography. Assignments combine technical and conceptual objectives. Prerequisites: 230 and permission of adviser.

ART 371 Intermediate Photography II (5) VLPA Creative application of extended photographic processes such as non-continuous tone films, electrostatic materials, photo montage, and collage. Emphasis on sequencing in time-based or book formats. Prerequisites: 370 and permission of adviser.

ART 372 Intermediate Photography III (5) VLPA Introduction to photographic color theory and processes with emphasis on color printing on type C darkroom printing. Additional traditional and experimental color materials explored. Prerequisites: 370 and permission of adviser.

ART 376, 377, 378 Graphic Design (5, 5, 5) VLPA 376: fundamentals of typography; 377: two-dimensional composition; 378: intermediate visual communications. To be taken concurrently with 366, 367, 368. Prerequisites: 207 for 376; 376 for 377; 377 for 378.

ART 380 Video Art and Video Installation (5) VLPA Exposes students to broad range of high-end video industry equipment, terminology and production/post skills while viewing art works and creating alternative activities and ideas. Work in electronic image gathering, digital A/B roll editing, motion control, video as related to performance and environmental art. Prerequisite: foundation courses, 131, and 280. Offered:

ART 411 Advanced Photography (5, max. 15) VLPA Topics in advanced photography, including: color printing, large-format photography, artificial lighting, and photography image transformation. Prerequisites: 371, 372, and permission of adviser.

ART 412 Contemporary Issues in Photography (5) VLPA An in-depth survey of contemporary artists and issues in photography. Students produce art works that respond, react, and perhaps contradict these developments and trends. Prerequisites: 371, 372, and permission of adviser.

ART 413 Digital Imaging I (5) VLPA Creative approach to image manipulation and transformation in two-dimensional space on both IBM and Macintosh platforms. A variety of program, procedures, hardware, input, and output considered and employed. Prerequisites: 371, 372, and permission of adviser.

ART 414 Digital Imaging II (5) VLPA Berger Digital imaging on both IBM and Macintosh platforms. Emphasis on creative art approach to 2-D collaging and morphing with introduction to 3-D modeling and rendering. Prerequisites: 413.

ART 415 Senior Thesis in Photography (5, max. 10) VLPA Development of a coherent photographic theme or topic evolved over two consecutive quarters resulting in a finished thesis portfolio. Prerequisites: 411 and permission of adviser.

ART 422 Industrial Design Computer Graphics (3) VLPA Prerequisite: senior standing in industrial design.

ART 426 Advanced Weaving (5, max. 10) VLPA Loom- and weaver-controlled structures. Topics may include warp patterning, warp painting, printing and dyeing, ikat, and multiple-harness weaves. Prerequisite: 326.

ART 428 Senior Thesis in Fiber Arts (5, max. 15) VLPA Specialized investigation involving surface design and/or fabric structures. Prerequisite: permission of instructor.

ART 436 Sculpture Composition (5, max. 15) VLPA Individual compositions in various media in large scale. Prerequisites: 15 credits in 332 and permission of adviser.

ART 445, 446, 447 Advanced Industrial Design (5, 5, 5) VLPA Market analysis and selected professional problems in industrial design. Consultation techniques; psychological, sociological, and economic factors involved in designing for consumer acceptance. Prerequisites: 318 for 445; 445 for 446; 446 for 447.

ART 450 Individual Projects in Printmaking (6, max. 15) VLPA Individual media study within the context of group discussion and critique. Prerequisite: art major and 247 or permission of instructor.

ART 455 Advanced Printmaking (5) VLPA In-depth work and critical discussion for senior printmaking students. Prerequisites: successful completion of BFA review and permission of instructor.

ART 456 Wire Construction (5) VLPA The use of wire to create both jewelry-scale and larger sculptural forms. Translation of textile processes such as coiling, knitting, braiding, and weaving into metal and into development of chains, chain mail, and mesh systems. Prerequisites: 258, 357, and permission of instructor.

ART 457 Advanced Holloware (5) VLPA Individual problems in metal design and construction. Prerequisite: 357.

ART 458 Advanced Jewelry Design (5) VLPA Individual problems in jewelry design and construction. Prerequisite: 358.

ART 459 Advanced Enameling (5) VLPA Individual problems in enameling. Prerequisite: 359.

ART 460 Advanced Metal Design (5, max. 15) VLPA Advanced individual projects in metal design. Prerequisite: permission of instructor.

ART 481 History of Body Adornment (3) VLPA Covers jewelry and other body adornment from Neolithic times to the present, worldwide. Discusses social and cultural relevance of forms, uses, and materials. Emphasis on today's studio craftspeople who make jewelry as a form of aesthetic expression outside the fashion mainstream.

ART 483 Advanced Painting (5, max. 15) VLPA Development of individuality in painting through creative exercises. Prerequisites: 10 credits in 307 and 10 credits in 360.

ART 484 Advanced Painting/Drawing (5, max. 15) VLPA Advanced problems in composition. Prerequisite: 15 credits of 463.

ART 466, 467, 468 Graphic Design (5, 5, 5) VLPA 466: advanced two-dimensional design; 467: exhibition design; 468: independent study. To be taken concurrently with 478, 479, 480. Prerequisites: 368 and 378 for 466; 466 for 467; 467 for 468.

ART 478, 479, 480 Graphic Design (5, 5, 3) VLPA 478: information design I; 479: information design II; 480: design programs. To be taken concurrently with 466, 467, 468. Prerequisite: 368 and 378 for 468; 468 for 479; 479 for 480.

ART 485 Advanced Ceramic Art (5, max. 15) VLPA Pottery design and construction, stoneware, clay bodies, glazes. Prerequisites: 15 credits in 353 and permission of instructor.

ART 486 Individual Projects in Ceramics (3-5, max. 15) VLPA Advanced individual projects in ceramics with emphasis on pottery, sculpture, kiln building, presentation, and historical and contemporary directions in clay. Prerequisite: 15 credits in 485 and permission of instructor.

ART 496 Undergraduate Internship (2-5, max. 10) Faculty supervised fieldwork in art related activities.

Credit/no credit only. Prerequisites: upper-division standing in art and permission of adviser.

ART 497 Study Abroad—Studio Individual Projects (3-10, max. 20) VLPA Prerequisite: permission of adviser.

ART 498 Individual Projects—Painting/Sculpture (3/5, max. 15) Prerequisite: permission of instructor.

ART 499 Individual Projects—Design (3/5, max. 15) Prerequisite: permission of instructor.

Courses for Graduates Only

ART 512 Graduate Seminar (3, max. 9)

ART 513 Contemporary Studio Theories and Problems (3)

ART 515 Photography (3-15, max. 60)

ART 520 Seminar in Painting (3, max. 18) Designed as a forum for the presentation and criticism of student work as well as for discussion of contemporary directions in visual art. Credit/no credit only.

ART 522 Sculpture (3-15, max. 60)

ART 540 Fiber Arts (3-15, max. 60)

ART 547 Industrial Design (3-15, max. 60)

ART 550 Printmaking (3-15, max. 60)

ART 553 Ceramic Art (3-15, max. 60)

ART 558 Metal Design (3-15, max. 60)

ART 563 Painting (3-15, max. 60)

ART 580 Graphic Design (3-15, max. 60)

ART 595 Master of Fine Arts Research Project (2-5, max. 9) An independent research project related to and informed by the MFA student's studio work. Final project form may be a lecture, slide presentation, or paper.

ART 600 Independent Study or Research (*)

ART 700 Master's Thesis (1, max. 9)

Art History

209 Art

Art history is the study of the creation, style, and meaning of works of art in relation to the artists and societies that created them. The history of art involves the interaction of styles, techniques, concepts, individual personalities, and social values from many places over long periods of time. This discipline is comparative in nature and requires many different skills, derived from the study of history and culture, foreign languages and literature, iconography, stylistic analysis, and connoisseurship.

Undergraduate Program

Adviser
Judith W. Clark
104 Art

Bachelor of Arts

Admission Requirements: All entering freshmen must meet with a School of Art adviser prior to being admitted as a major. Currently enrolled UW and transfer students with a minimum GPA of 2.00 may declare a major during the first meeting with a School of Art adviser.

Postbaccalaureate applicants must file an application through the Office of Admissions by the regular quarterly deadlines. Subsequently applicants will receive a

supplementary information form from the School of Art Advising Office. Following School of Art review of the form, applicants will be notified by the Office of Admissions regarding their admissibility.

Major Requirements: 55 credits in art history, including four core courses covering art history in a variety of cultural contexts—ART H 201, 202, 290, 340, 341, 342, 343, 351, 352, or 373; 204, 306, 311, 315, 316, or 321; 205, 206, 230, 330, 331, or 337; 203, 232, 380, 381, 382, or 384; and three 400-level art history courses.

One of the following options: (1) 15 credits from ART 121, 122, 123, or 124; or (2) 15 upper-division credits in one of the following areas (exclusive of courses offered jointly with art history): Ancient and Medieval History, Anthropology, Asian Languages and Literature, Classics, Comparative Literature, Comparative Religion, English Literature, French and Italian Studies, Germanics, History of the Americas, History of Asia, Modern European History, Near Eastern Languages and Civilization, Philosophy, Scandinavian Languages and Literature, Slavic Languages and Literature, or Spanish and Portuguese Studies.

Graduate Program

Robin Wright, Graduate Program Coordinator

Master of Arts

Admission Requirements: (1) Bachelor of Arts degree with major in the history of art, or equivalent course work; (2) two copies of all academic transcripts; (3) three letters of recommendation; (4) statement of professional objectives in the field; and (5) samples of the applicant's written work. Taking the Graduate Record Examination is required.

Graduation Requirements: (1) 55 credits in the thesis track or 65 credits in the nonthesis track. Of these credits, a minimum of 45 credits in the thesis track or 55 credits in the nonthesis track must be numerically graded art history courses numbered 400 and above, exclusive of thesis or practicum credits. A maximum of 10 credits in related fields, in numerically graded courses numbered 300 and above, may be approved for credit in place of art history courses. No more than 12 credits of ART H 600 may be counted toward the minimum credit requirement for the Master of Arts degree; (2) a minimum of 5 numerically graded credits must be taken in four of five major areas: 1) African, Native American, and Oceanic, 2) East Asian, 3) Ancient, Classical, and Medieval, 4) Italian and Northern Renaissance, Baroque, and Rococo, 5) late eighteenth–twentieth-century Western; (3) a minimum of 15 credits must be taken in 500-level seminars, in addition to ART H 500, *Methods of Art History*, which must be taken within the first year of residence. At least one seminar each in a Western and a non-Western area is required; (4) a reading knowledge of German or French, or of Chinese or Japanese if appropriate, as well as a research capability in a second language adjudged appropriate to the student's area of study. Language requirements may be satisfied either by passing the Graduate School Foreign Language Test (available in German, French, Spanish, and Russian only) with a minimum score of 550, or by completing the third quarter of second-year French, German, Chinese, Japanese, or other appropriate language as a graduate student at the UW with a minimum grade of 3.0; (5) students in the thesis track must take 10 thesis credits in ART H 700 in preparation for the written presentation and oral defense of a thesis that demonstrates the ability to conduct rigorous research, familiarity with relevant sources, and a capacity for synthesis and critical evaluation; students in the nonthesis track must take 10 practicum credits in ART H 598, a practical or theoretical program designed in conjunction with the faculty and defended by means of a final written report and oral examination.

Doctor of Philosophy

Admission Requirements: (1) Prior sound preparation in art history at a general level, which usually means having acquired the Master of Arts degree in the history of art; (2) two copies of all academic transcripts; (3) three letters of recommendation; (4) statement of professional objectives in the discipline; and (5) samples of written research work in art history. Taking the Graduate Record Examination is required.

Graduation Requirements: Minimum of 90 credits, which include: (1) 60 credits in art history courses numbered 400 and above, beyond the Master of Arts degree or equivalent, and exclusive of dissertation credits; a maximum of 20 credits in related fields in numerically graded courses numbered 300 and above may be approved for credit in place of art history courses; a minimum of 10 credits must be in areas other than those tested by the General Examination; at least 30 credits must be in 500-level seminars; (2) a reading knowledge of German or French, or of Chinese or Japanese if appropriate; a research capability in a second language adjudged appropriate to the student's area of study; a knowledge of any other languages considered necessary by the faculty. Language requirements may be satisfied by passing the Graduate School Foreign Language Test (available in German, French, Spanish, and Russian only) with a minimum score of 550, or by completing the third quarter of second-year French, German, Chinese, Japanese, or other appropriate language as a graduate student at the University of Washington with a minimum grade of 3.0; (3) a General Examination, written and oral, taken prior to enrollment for dissertation credits; this examination covers three specific fields of art history chosen from the following general areas: African; Native American; Chinese; Japanese; Ancient; Medieval; Renaissance; Baroque and eighteenth century; Modern; no more than two fields may be selected from the same area; (4) 30 dissertation credits in ART H 800 taken after the General Examination in preparation and defense of the dissertation. These credits must be distributed over a minimum of three quarters; (5) a dissertation demonstrating original and independent investigation and achievement.

Financial Aid

The Art History division offers certain scholarship funds, as well as teaching assistantships, for art history graduate students. A limited number of grants are awarded to outstanding entering students, but it is otherwise a policy to award financial aid and assistantships only to students who have completed at least one year of graduate study.

Faculty

Professors

Bliquez, Lawrence J. * 1969; PhD, 1968, Stanford University; Greek oratory, Greek historiography and historians, Greek and Roman medicine.

Bravmann, René A. * 1972; PhD, 1971, Indiana University; African art, Oceanic.

Christofides, Constantine * 1966, (Emeritus); PhD, 1956, University of Michigan; medieval, seventeenth-century, Romanesque.

Clausen, Meredith L. * 1979; PhD, 1975, University of California (Berkeley); aesthetics and twentieth-century architecture.

Hildebrand, Grant * 1948; MArch, 1964, University of Michigan; history, preservation design.

Holm, Bill * 1968, (Emeritus); MFA, 1951, University of Washington; Northwest coast Indians.

Kartsonis, Anna D. * 1983; PhD, 1982, New York University; Byzantine and medieval art.

Kingsbury, Martha * 1968; PhD, 1969, Harvard University; nineteenth and twentieth centuries.

Opperman, Hal N. * 1967, (Emeritus); PhD, 1972, University of Chicago; seventeenth- and eighteenth-century European.

Pundt, Hermann G. * 1968; PhD, 1969, Harvard University; history, historical preservation.

Silbergeld, Jerome * 1975; PhD, 1974, Stanford University; Chinese art.

Snow-Smith, Joanne * 1981; PhD, 1976, University of California (Los Angeles); Italian Renaissance.

Associate Professors

Falling, Patricia A. * 1982; MA, 1974, University of California (Berkeley); contemporary art and criticism.

Langdon, Merle K. * 1976; PhD, 1972, University of Pennsylvania; Greek archaeology, epigraphy, topography, and history.

Oliver, Marvin E. 1974, (Adjunct); MFA, 1973, University of Washington; Northwest coast Indian art, Native American art, wood design, glass, metals.

Wright, Robin K. * 1983; PhD, 1985, University of Washington; Native American art, particularly Northwest coast Indian art.

Assistant Professors

Collins, Jeffrey L. 1994; MA, 1989, Yale University; MA, 1992, Cambridge University (UK); PhD, 1994, Yale University; European Baroque art and architecture with an emphasis on Italy; American material culture.

Hallett, Christopher * 1993; PhD, 1993, University of California (Berkeley); Egyptian, Greek, Roman arts and archaeology.

Reed, T. Gervais 1950, (Emeritus); BA, 1949, Yale University; American, film.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

200-level courses in the history of art are intended for nonmajors, although they are also open to majors. They are designed to give an introduction to the subject matter of broad areas and to the history of art as a humanistic study. There are no prerequisites; each course is completely independent.

ART H 201 Survey of Western Art—Ancient (5) VLPA Major achievements in painting, sculpture, architecture, and the decorative arts in Europe, the Near East, and North Africa, from prehistoric times to the beginnings of Christianity. Offered: A.

ART H 202 Survey of Western Art—Medieval and Renaissance (5) VLPA The arts of the Byzantine Empire, Islam, and Western Christendom through 1520 AD. Offered: W.

ART H 203 Survey of Western Art—Modern (5) VLPA Western art from 1520 to the present. Offered: Sp.

ART H 204 Survey of Asian Art (5) VLPA Origins and interplay of major movements of South and East Asian art.

ART H 205 Survey of Tribal Art (5) VLPA/IS Arts of Sub-Saharan Africa and Oceania from prehistoric times to the present and to the pre-Columbian arts of the Americas.

ART H 206 Survey of Native American Art (5) VLPA/IS Introduction to Native American art north

of Mexico, prehistory through the twentieth century. Regional examination of types and styles, with emphasis on aesthetics, cultural function, and factors of change.

ART H 230 African-American Art (3) VLPA/I&S History of African-American art from colonial times until the present, the African background and its extensions into the West Indies, Brazil, and Surinam.

ART H 232 Photography: Theory and Criticism (3) VLPA/I&S Art traditions of photography from its origins in the nineteenth century to the present. Emphasis on photographic traditions and photographers of the twentieth century.

ART H 290 History of Architecture (5) VLPA/I&S Introduction to the history of architecture across a broad range of cultural contexts.

300-level courses cover narrower times, spaces, and types of art than 200-level surveys and constitute the core curriculum for majors (although most enrollees come from other majors). Good basic university preparation (equivalent to upper-division standing) is needed. Relevant 200-level courses, although not required, may provide helpful background.

ART H 306 Indian Art of South Asia (5) VLPA Development of Indian art from its origins to the medieval period. Spread of Indian religions and related art forms in Tibet and Southeast Asia briefly introduced.

ART H 309 Topics in Art History (5, max. 15) VLPA Topics vary.

ART H 311 Chinese Art (5) VLPA/I&S Overview of the arts of China. Emphasis on the role of the arts in Chinese culture and on the traditional styles and techniques associated with each of the major media—painting, ceremonial bronzes, architecture, sculpture.

ART H 315 The Buddhist Art of East Asia (5) VLPA Buddhist painting and sculpture of China, Korea, and Japan. Its religious meaning, artistic development, and historical significance. Examples from the sixth to the seventeenth centuries, along with paintings and contemporary carvings.

ART H 316 Japanese Painting (5) VLPA Japanese painting traditions from earliest times to the present. Examples illustrated and discussed in the context of Japanese cultural history. Analysis of painting styles as well as of the roles artists have played and the meaning their works have had in Japanese society.

ART H 317 Chado—Japanese Esthetics (4) VLPA History, theory, and practice of chado, or Way of Tea, a Zen-inspired art that has had notable effects on Japanese society. Lectures on esthetics and cultural history supplemented by participation in chado, with the goal of developing sufficient understanding and skill to continue chado as a discipline.

ART H 321 Arts of Japan (5) VLPA/I&S The spectrum of Japanese art from prehistory to modern times. Examines the interrelationship of the major media for each historical period. Central theme: the appreciation of the varied aesthetics active in the development of Japanese painting, architecture, sculpture, and ceramics.

ART H 330 Tribal Art and Philosophy (5) VLPA/I&S Philosophical inquiry and thought in African, Ameri-Indian, and Pacific island societies as expressed through the visual, musical, choreographic, and oral arts. Natural, moral, and ethical ideas as expressed in the arts.

ART H 331 Northwest Coast Indian Art (5) VLPA/I&S Native American art of the Pacific Northwest Coast from precontact to the present, from the Columbia River in the south to Southeast Alaska in the north. Differences in tribal styles and social functions; changes occurring over time as the result of sharing between tribal groups and the impact of the arrival of Europeans. Offered: jointly with ANTH 331.

ART H 337 African Art and Society (5) VLPA/I&S Explores the ideas and notions expressed visually in sculpture, painting, ceramics, textiles, and architecture and describes their relationships to man and culture in Africa.

ART H 340 Pre-Classical Art and Archaeology (3) VLPA Art and the other material remains of the civilizations in the Aegean from the Neolithic period to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece; illustrated by slides. The history, techniques, and results of significant excavations. Offered: jointly with CL AR 340.

ART H 341 Greek Art and Archaeology (3) VLPA Material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the Geometric to the Hellenistic periods; illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct the material culture of antiquity. Offered: jointly with CL AR 341.

ART H 342 Roman Art and Archaeology (3) VLPA Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with CL AR 342.

ART H 343 Hellenistic Art and Archaeology (3) VLPA Art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting, mosaics, and minor arts examined in lectures with slides. Offered: jointly with CL AR 343.

ART H 350 The City of Cairo (3) VLPA/I&S Development of Fustat and Cairo, 600-1800, with special emphasis on art and architecture. Economic, social, and geographic influences on the creation of the distinctive Egyptian styles of Islamic art. Offered: jointly with NEAR E 350.

ART H 351 Early Medieval and Byzantine Art (5) VLPA/I&S Christian art and architecture of the Roman and Byzantine empires and of western Europe through the eighth century.

ART H 352 High and Late Medieval Art (5) VLPA VLPA/I&S Art and architecture of western Christendom from the time of Charlemagne to the Renaissance.

ART H 361 Italian Renaissance Art (5) VLPA Sculpture, painting, and architecture from 1300 to 1600.

ART H 366 Northern Renaissance Art (5) VLPA An overview of Dutch, Flemish, and German art in the context of religious, historical, and stylistic developments during the Renaissance in Northern Europe (c. 1400-1570).

ART H 372 Rococo to Romanticism (5) VLPA Mainstream of European art and architecture from about 1710 to about 1830. Attention is also given to central and eastern Europe, Scandinavia, and the colonial Americas.

ART H 373 Southern Baroque Art (3) VLPA Art of Italy and Spain, circa 1590 to circa 1710.

ART H 374 Northern Baroque Art (3) VLPA Art of France, England, and the Low Countries, circa 1590 to circa 1710.

ART H 380 Nineteenth- and Twentieth-Century Art (5) VLPA Arts and architecture of Europe and America from Romanticism to the present.

ART H 381 Art Since World War II (5) VLPA/I&S Art of Europe and the United States in the decades since World War II: painting, sculpture, and architecture, multiplication of new forms (video, performance pieces, land and installation pieces), changing context of patronage, publicity, and marketing.

ART H 382 Theory and Practice of Art Criticism (3) VLPA Major issues in art and architectural criticism: nature of art criticism, aims of the critic, differences between art and architectural criticism. Works by major critics and artists, mostly twentieth century.

ART H 384 American Art (5) VLPA/I&S Achievements and issues in painting, architecture, sculpture, and other arts in the United States from the colonial era to the present.

ART H 399 Study Abroad: Art History Individual Projects (3-10, max. 20) VLPA For participants in Study Abroad programs. Prerequisite: permission of undergraduate adviser.

400-level courses are intensive, quite narrow in scope, and addressed to current scholarly problems. A relatively high level of sophistication is needed. In general, sound prior humanistic training and knowledge of at least one of the following are required: art of the period or region at a general level (such as that provided by the relevant 200- or 300-level course); social or cultural history of the subject area; literature and thought of the area; or an appropriate foreign language. 400-level courses are available for both undergraduate and graduate credit. Each 400-level course is accompanied by two units of ART H 599, required of graduate majors.

ART H 400 Art History and Criticism (2-5, max. 15) VLPA Courses on special topics, frequently by visiting faculty, which cannot be offered on a continuing basis. Consult Art History office for subjects offered.

ART H 411 Traditional Chinese Architecture (3) VLPA/I&S Introduction to Chinese architecture (palaces, homes, temples, tombs), urban planning, and gardens; each area examined in terms of techniques of production, visual styles, historical development, and relationship to traditional Chinese cultural values. Offered: jointly with ARCH 451.

ART H 412 Chinese Painting in the Twentieth Century (3) VLPA Modern Chinese painting and art theories, seen in relation to China's twentieth-century struggles over nationalism and Westernization, traditionalism and modernization, individualism and the Maoist "mass line."

ART H 413 Selected Topics in Chinese Art (3, max. 9) VLPA Specific theme or area of Chinese art, such as the art of bronze age China or Chinese painting under Communist rule.

ART H 414 Early Chinese Painting: Neolithic Period to Five Dynasties (3) VLPA/I&S Emergence and development of Chinese painting, its styles, esthetic theories, and cultural content, from earliest times through the tenth century AD.

ART H 415 Chinese Painting: The Sung Period (3) VLPA/I&S Golden age of Chinese painting, emphasizing the monumental, romantic, and Zen Buddhist landscape painting traditions of the tenth through thirteenth centuries.

ART H 416 Chinese Painting: The Yuan Period (3) VLPA/I&S Chinese painting under Mongol rule, in the fourteenth century: a period of political and social crisis that gave rise to a revolution in painting styles.

ART H 417 Later Chinese Painting: Ming, Ch'ing, and Modern Periods (3) VLPA/I&S Major masters and traditions, esthetic attitudes, and social role of Chinese painting from the fifteenth century to the present day.

ART H 418 Political Aspects of Chinese Painting (3) VLPA Examination of the close link between painting and politics in China, focusing on such aspects as imperial patronage and propaganda, paintings by Chinese courtiers and the arts of political protest and lament, Chinese painting under Communist rule.

ART H 419 Japanese Architecture (3) VLPA Survey of Japanese architecture from its origins to modern times. Although Shinto architecture, tea houses, gardens, and modern developments are discussed, the primary focus is on the development of Japanese Buddhist architecture. Offered: jointly with ARCH 453.

ART H 420 Art of the Japanese Print (3) VLPA Foundations of Ukiyo-e in Japanese genre from the twelfth through mid-seventeenth centuries; woodblock technique from the Heian period through the early Edo period. Emphasis on the changing styles and subject matter in Ukiyo-e Hanga from Moronobu through Kuniyoshi.

ART H 421 Early Japanese Painting (3) VLPA Survey of the development of Japanese painting from the earliest times to the end of the Muromachi period in 1567. The Shinto, Buddhist, Yamato-e, and Tosa schools of painting are discussed prior to an overview of Muromachi suibokuga painting.

ART H 422 The Kan-ga Tradition (3) VLPA Ink paintings of Japanese Zen priests from the fourteenth century onward, and the works of professional artists belonging to those families (Kano, Hasegawa, Unkoku, and Kaiho) in which Chinese academic painting has been the principal inspiration, from the sixteenth century to the present.

ART H 423 Later Japanese Painting (3) VLPA Survey of the development of Japanese painting from the Momoyama period to the present (1568 on). The relation of the traditional schools of painting concludes with the development of modern Japanese and Western styles in the twentieth century.

ART H 424 The Nanga Tradition (3) VLPA Works of painting and calligraphy by Japanese artists who have been part of the Chinese scholar-painting tradition from the late seventeenth century to the present.

ART H 425 Modern Japanese Painting (3) VLPA Painting of the Meiji, Taisho, and Showa eras (1868 to the present) by artists working in the modern idiom of either Yoga or Nihonga.

ART H 426 Japanese Sculpture (3) VLPA Survey of Japanese sculpture from prehistory to modern times. Although the main theme is Buddhist sculpture, Shinto sculpture, folk sculpture, and modern trends are also introduced. Examines style, religious meaning, construction techniques, and placement within architectural settings.

ART H 427 Japanese Ceramics (3) VLPA Discusses Japanese ceramics from prehistory to the twentieth century with regard to manufacturing process and differing sense of design. Relation of form to use also considered, especially in connection with tea ceramics.

ART H 428 East Asian Calligraphy (3, max. 9) VLPA Classical calligraphy tradition of China and Japan in history and practice. Prerequisite: permission of undergraduate adviser.

ART H 429 Japanese Cinema (3) VLPA Eleven masterpieces of Japanese cinema, studied in the context of what they reveal about Japanese culture and the art of the film.

ART H 431 Pre-Columbian Art (3) VLPA Arts of pre-Columbian cultures of Central and South America from prehistoric times to European contact.

ART H 432 Oceanic Art (3) VLPA/I&S Arts of Oceania, studied through cultures of Polynesia, Micronesia, Melanesia, and Australia.

ART H 433 Northern Northwest Coast Native American Art: Methodologies in Stylistic Analysis (3) VLPA Stylistic and historical analysis of northern Northwest Coast art (Haida, Tlingit, Tsimshian, Northern Wakashan). Intensive analysis of formline rules;

stylistic variation through time and between tribal and individual artists' styles.

ART H 434 Native American Art and Ceremony of the Southern and Central Northwest Coast (3) VLPA/I&S Examination of the role of the visual arts in the ceremonial life of the Native American people of the central and southern Northwest Coast. Emphasis on the traditional social and religious aspects of ceremonialism, contrasts between tribal traditions, and continuing twentieth-century traditions.

ART H 435 Thematic Studies in Native American Art (3, max. 9) VLPA/I&S Wright Approach to Native American art through themes and issues. Focus varies from year to year (e.g. Shamanism in Native American art, gender identity in Native American art, social and political aspects of Native American art, issues in contemporary Native American art).

ART H 436 Arts of Sub-Saharan Africa I (3) VLPA/I&S Traditional arts of the Western Sudan and the Western Guinea coast with their archaeological antecedents.

ART H 437 Arts of Sub-Saharan Africa II (3) VLPA/I&S Traditional arts of the Central Guinea coast, Nigeria, Cameroon, and Gabon, from precontact times to the present.

ART H 438 Arts of Sub-Saharan Africa III (3) VLPA/I&S Arts of Zaire, Angola, the Swahili coast, and southern Africa.

ART H 442 Greek and Roman Painting (3) VLPA Painted decoration on Greek vases, and Roman wall painting, with emphasis on the historic and stylistic development of each. Offered: jointly with CL AR 442.

ART H 444 Greek and Roman Sculpture (3) VLPA History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC. Offered: jointly with CL AR 444.

ART H 446 Greek Architecture (3) VLPA Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with CL AR 446/ARCH 454.

ART H 448 The Archaeology of Italy (3) VLPA Harmon Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with CL AR 448.

ART H 451 Topics in Early Christian and Byzantine Art and Architecture (3, max. 9) VLPA Specific theme or area of early Christian and Byzantine art and architecture, such as early Christian and Byzantine mosaics or the art of Constantinople.

ART H 452 Art, Religion, and Politics in the Early Christian Period, 300-700 AD (3) VLPA/I&S Kartsonis Evolution of the art of the early Christian period (300-700 AD) in the context of contemporary religious, political, and cultural developments. Offered: jointly with RELIG 442.

ART H 453 Art, Religion, and Politics in Byzantium, 700-1453 AD (3) VLPA/I&S Kartsonis Evolution of the art of Byzantium (700-1453 AD) in the context of contemporary religious, political, and cultural developments. Offered: jointly with RELIG 443.

ART H 454 Romanesque Art (3) VLPA Western European art in the eleventh and twelfth centuries, focusing on monuments along the pilgrimage roads to Compostela in France and Spain.

ART H 455 Special Studies in Gothic Art and Architecture (3) VLPA Detailed study of Gothic architecture and its accompanying sculpture and stained

glass, with special emphasis on the twelfth and thirteenth centuries in France and England. Offered: jointly with ARCH 455.

ART H 456 Art of the Medieval West: Carolingian and Ottonian Art, 750-1050 AD (3) VLPA Kartsonis Examines the development of the arts during the Carolingian and Ottonian periods in the Medieval West.

ART H 461 Early Renaissance Painting in Italy (3) VLPA Painting of the fourteenth and fifteenth centuries in central and northern Italy.

ART H 462 High Renaissance Painting in Italy (3) VLPA Painting in central and northern Italy, from about 1480 to about 1530: Leonardo, Raphael, the early Michelangelo, Sarto, Correggio, Bellini, Giorgione, and the early Titian.

ART H 463 Italian Renaissance Sculpture (3) VLPA From Nicola Pisano to Giambologna.

ART H 464 Late Renaissance Painting in Italy (3) VLPA Painting in central and northern Italy, from about 1515 to about 1580: Pontormo, Rosso, Parmigianino, Beccafumi, the later Michelangelo, Vasari, Bronzino, Salviati, the later Titian, Tintoretto, and Veronese.

ART H 465 Italian Renaissance Architecture (3) VLPA From the cathedral of Florence to St. Peter's in Rome: the style, symbolism, and theory of architecture.

ART H 466 High Renaissance Painting in Venice (3) VLPA Painting in Venice, circa 1480 to circa 1580: Bellini, Carpaccio, Giorgione, Titian, Lotto, del Piombo, Tintoretto, and Veronese.

ART H 470 English Art: 1500-1800 (3) VLPA English art, principally painting, and, to a lesser extent, architecture. Emphasis on patronage, on the conditions that produced the decided peculiarities of English art, and on the final triumph of the native tradition.

ART H 471 Rome in the Seventeenth Century (3) VLPA Painting, sculpture, and architecture; concentration on Caravaggio, Bernini, Poussin, and Borromini.

ART H 481 Romanticism (3) VLPA Romantic tendencies of the late eighteenth and early nineteenth centuries, with emphasis on stylistic and iconographic study of painting in Spain, England, Germany, France, and the United States to about 1830.

ART H 482 Realism and Impressionism (3) VLPA Art and the world, 1830-80: high Romanticism through Realism and Impressionism, with emphasis on painting in France.

ART H 483 Post-Impressionism to 1918 (3) VLPA Post-Impressionism and the great revolution of early twentieth-century art, with emphasis on painting. From the first revisions of Impressionism around 1880 to Fauvism, Cubism, Futurism, the Blaue Reiter, and Dadaism.

ART H 484 Topics in Modern Art (3, max. 9) VLPA Approach to art of the nineteenth and twentieth centuries through particular themes, genres, contexts, or other issues. Focus varies from year to year.

ART H 485 Italian Futurism, Dada, Surrealism (5) VLPA Failing Survey of three European early modern art movements whose ultimate objective was the collapse of bourgeois culture. Central issues: the role of art and artists in catalyzing social change, strategies for destroying public faith in logic, integration of verbal and visual signs and nonaesthetic conceptions of art.

ART H 486 Abstract Expressionism: History and Myth (3) VLPA Thematic and chronological survey of abstract expressionism, including major genres of critical interpretation, social and art-historical context, and revisionist scholarship. Recommended: 381.

ART H 488 American Architecture (3) VLPA American architecture from indigenous native American traditions to the present. Prerequisite: some back-

ground in architectural history. Offered: jointly with ARCH 488.

ART H 490 Nineteenth-Century Architecture (3) VLPA From late eighteenth-century French rationalists, Neoclassicists, to fin de siècle Vienna and Paris. Includes theorists such as Ruskin, Viollet-le-Duc, and Semper; major movements, such as the Arts & Crafts, and the French Ecole des Beaux-Arts method of design. Prerequisite: some background in architectural history. Offered jointly with ARCH 456.

ART H 491 Twentieth-Century Architecture (3) VLPA Architecture in the twentieth-century, mainly in Europe and the United States. Traces roots of Modernism in Europe in the 1920's, its demise (largely in the United States) in the 1960's and recent trends such as Post-Modernism and Deconstructivism. Prerequisite: some background in architectural history. Offered jointly with ARCH 457.

ART H 493 Architecture Since 1945 (3) VLPA Theories and forms in architecture from the end of World War II to present. Includes new wave Japanese architects, recent Native American developments, and non-Western as well as Western trends. Prerequisite: some background in architectural history. Offered: jointly with ARCH 459.

ART H 496 Art and Sexual Imagery (3) VLPA Themes and symbols of sexuality in art in a range of world cultures and time periods investigated through readings that illumine the contextual meaning of the works. Religious, political, psychological, and economic interpretations employed to understand the widespread existence and importance of these topics.

ART H 498 Individual Projects, Undergraduate Practicum (2-5, max. 10) Fieldwork or internships in art-related areas in the community. Practical experience in areas such as arts administration, gallery and museum operations, collection cataloging, curatorial responsibilities, and art education. Credit/no credit only. Prerequisite: permission of departmental undergraduate adviser.

ART H 499 Individual Projects (2-5, max. 10) Prerequisite: permission of undergraduate adviser.

Courses for Graduates Only

Most 500-level courses are specialized seminars oriented to new research, intended for graduate students in art history, but open to others who possess the necessary qualifications. Since specific content varies, all students must obtain the permission of the instructor or the art history graduate coordinator.

ART H 500 Methods of Art History (5) Introduction to the specialized bibliography of art historical research and to the wide variety of approaches to art historical problems of all periods and regions.

ART H 501 Seminar in the General Field of Art (5, max. 15)

ART H 509 Seminar in Special Topics in Art History (5, max. 15) Specific focus changes from quarter to quarter.

ART H 511 Seminar in Chinese Art (5, max. 15) Critical appraisal of the principal research methods, theories, and types of literature dealing with the art of China.

ART H 515 Seminar in Japanese Art (5, max. 15) Critical appraisal of the principal research methods, theories, and types of literature dealing with the art of Japan.

ART H 531 Seminar in Tribal Art (5, max. 15) Methodological and cross-disciplinary problems in the visual arts of precolonial Africa, Oceania, and America. Specific content varies.

ART H 533 Seminar in North American Indian Art (5, max. 15) Problems in North American Indian visual arts. Content varies.

ART H 541 Seminar in Greek and Roman Art (5) Langdon In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with CL AR 541.

ART H 551 Seminar in Early Christian, Byzantine, and/or Medieval Art and Architecture (5, max. 15) Problems in early Christian, Byzantine, and medieval art and architecture. Content varies. Prerequisite: permission of instructor.

ART H 561 Seminar in Italian Renaissance Art (5, max. 15) Problems and in-depth study of selected topics of the art of the Italian Renaissance.

ART H 565 Seminar in Museum Studies (5, max. 10) Using the fourteenth- to twentieth-century paintings at the Seattle Art Museum, student learn to look at paintings as physical objects, considering working methods and changing techniques and the impact of time and intervention on the way we see them today. Prerequisite: permission of instructor.

ART H 568 Seminar in North European Art (5, max. 15) Deals with problems of style and iconography of the northern European masters of the fourteenth through seventeenth centuries.

ART H 577 Seminar in Baroque Art (5, max. 15) Iconographic and stylistic problems of the art of the Baroque period, with emphasis on the principal research methods, theories, and types of literature dealing with the art of the seventeenth and eighteenth centuries in Europe.

ART H 581 Seminar in Modern Art (5, max. 15) Art historical problems of the nineteenth and twentieth centuries.

ART H 590 Seminar in Criticism of Contemporary Art (5, max. 15) Contemporary art and appropriate critical methodology.

ART H 591 Seminar in Twentieth-Century Architecture (3/5) Specific focus changes from quarter to quarter. Prerequisites: graduate standing with background in art history, architecture, architectural history, or permission of instructor. Offered: jointly with ARCH 558.

ART H 592 Seminar in American Architecture (5) Clausen Topics vary. Offered: jointly with ARCH 529.

ART H 598 Master's Practicum (* max. 15) Credit/no credit only.

ART H 599 Reading and Writing Projects (2) Art historical issues, methods, and materials. Required of all graduate majors registered in 400-level art history courses. Open also to graduate nonmajors.

ART H 600 Independent Study or Research (*)

ART H 700 Master's Thesis (*) Credit/no credit only.

ART H 800 Doctoral Dissertation (*) Credit/no credit only.

Asian Languages and Literature

223 Gowen

The Department of Asian Languages and Literature offers instruction in the principal languages and literatures of Asia, including East, Southeast, Central, and South Asia. Emphasis is placed on the roles of these languages within the cultures they serve as well as on linguistic, textual, and literary analysis. Courses on Asian literature in English are offered for majors and nonmajors alike.

Undergraduate Program

Adviser
Lauren J. Hussey
225 Gowen

Bachelor of Arts

Admission Requirements: Minimum 20 credits college-level course work or department-approved equivalent in intended primary language of concentration. The most recent course taken in the primary language must be completed at the UW with a grade of 2.5 or higher. Completion of one writing (W-prefix) course taught in English with a grade of 2.0 or higher. Admission is possible with a cumulative GPA of 2.00, but the department strongly recommends that prospective majors present a cumulative GPA of 2.50 or higher. Applicants may submit materials in addition to transcripts clarifying any aspect of past course work. Denied applicants may appeal.

Major Requirements

Chinese: 55 credits in the language, 10 beyond third-year level, including CHIN 451; 10 credits in Chinese literature, excluding 499; 3 credits in Chinese linguistics; 5 credits in area-related humanities or social science courses.

Japanese: 45 credits in the language, 15 beyond second-year level; 30 credits in area-related humanities or social science courses at the 300 level or above, including a designated sequence in either Japanese literature or linguistics.

Korean: 45 credits in the language, 15 beyond second-year level; 30 credits in literature and area-related humanities or social science courses.

South Asian languages: 60 credits in languages, of which 45 are in the major language, 15 in the minor language; 15 credits in area-related humanities or social science courses to be chosen in consultation with adviser, including HSTAS 201 and ASIAN 401. If Tibetan is the major language: 42 major language credits, 15 minor language credits; 18 credits in area-related humanities or social science courses to be chosen in consultation with adviser, including HSTAS 201 and ASIAN 401.

Thai: 45 credits in the language, 15 beyond second-year level; 20 credits in area-related humanities or social science courses to be chosen in consultation with adviser.

Minors

Minor Requirements

Chinese: 30 credits to include minimum 15 language credits from the following: CHIN 311, 312, 313; 411, 412, 413; 451, 452, 453; 470, 482. 15 credits in area-related humanities courses from the following: ASIAN 201, 204, 263 (when topic is China), CHIN 293, 342, 373, 374, 380, 381, 461, 462, 463, 482. (CHIN 482 may count as language or area-related humanities credit, but not both.)

Hindi: 30 credits to include 15 language credits at the second-year level (HINDI 321, 322, 323) or above. 15 credits in area-related humanities courses to include either ASIAN 203 or 206 and any of the following: ART H 306; HSTAS 201, 202, 401, 402, 403, 404; PHIL 386, 412; RELIG 352, 354.

Japanese: 30 credits to include 15 language credits at the third-year level (JAPAN 311, 312, 313) or above. 15 credits in additional language or literature/culture courses. Acceptable courses include, but are not limited to: JAPAN 321, 322, 323, 431; 432, 433, 440, 471, 472, 473; ART H 316, 317; ART 321; ECON 494; GEOG 313, 437; HSTAS 421, 422, 423; MUSIC 494, 495; POL S 435; SISEA 440, 441, 442, 451, 473, 475, 476, 478. Acceptable language courses include those offered by the Technical Japanese program, the Jackson School of International Studies, the School of Law, and the School of Business Administration. At least half of the credits for the minor must be taken at the UW.

Sanskrit: 30 credits to include 15 language credits at the second-year level (SNKRT 401, 402, 403) or above. 15 credits in area-related humanities courses to include either ASIAN 203 or 206 and any of the following: ART H 306; HSTAS 201, 202, 401, 402, 403, 404; PHIL 386, 412; RELIG 352, 354.

Tibetan: 30 credits to include 18 language credits (TIB 311, 312, 313, 411, 412, 413). 12 credits in area-related humanities courses to include RELIG 354 and either RELIG 450 or 452 and any of the following: ASIAN 203; HSTAS 201, 211, 401, 431; PHIL 418.

Graduate Program

William G. Boltz, Graduate Program Coordinator

The Department of Asian Languages and Literature offers programs of study leading to the Master of Arts and Doctor of Philosophy degrees with specializations in a) the languages and literatures of China, subsuming Chinese, Manchu, Mongolian, and Tibetan (in the context of the close linguistic and historical links between China and Tibet); b) the language and literature of Japan; c) the languages and literatures of South Asia, subsuming Sanskrit, Hindi, Tamil, and Tibetan (here in the context of Tibet's close cultural affinity with South Asia). All graduate students in the department must affiliate themselves with one of these three programs. The department does not offer degrees or specializations in language pedagogy.

Financial aid for graduate students newly entering the department is very limited and is awarded on a competitive basis. Since some financial aid is wholly or partially determined by need, all prospective students are urged to submit the Free Application for Federal Student Aid (FAFSA) with the College Scholarship Service in New Jersey, and to apply for other forms of aid mentioned in the department's cover letter to prospective students.

A full range of courses in other disciplines and aspects of Asian cultures and civilizations is available from other departments and schools of the University, such as the Departments of Anthropology, History, Linguistics, Comparative Literature, and Political Science, and the Henry M. Jackson School of International Studies. Students in the Department of Asian Languages and Literature are encouraged to avail themselves of these offerings to complement and supplement their language and literature studies.

Admission Requirements

Applicants for admission should present an undergraduate major in the language and literature of specialization (three years of language training for admission to the Chinese and Japanese programs; fewer years of language acquisition may be acceptable in South Asian languages), or the background and training equivalent to such a major. Students without such a background may be qualified for admission, but will

need to acquire the program prerequisites during the earliest stages of their graduate study.

Besides an application and one original set of transcripts of prior postsecondary education (a second original set of which should be sent directly to the Office of Graduate Admissions), the department requires a statement of academic goals, and three letters of recommendation addressed to the Graduate Program Coordinator.

Degree Requirements

The research component of the Master of Arts degree may be satisfied by the writing of either a thesis or two research papers. The Doctor of Philosophy degree requires a dissertation. In addition to the language of specialization, reading knowledge of a second (usually Western) language is required for the Master of Arts degree, and of a third (usually Asian) language for the Doctor of Philosophy degree. Neither English nor, usually, the student's native language may be used to fulfill these additional requirements.

Chair

Michael Shapiro

Professors

Cirtautas, Ilse D. * 1968, (Adjunct); PhD, 1958, University of Hamburg (Germany); Turkic languages and literatures.

Gething, Thomas W. 1995, (Affiliate); PhD, 1966, University of Michigan, Thai and Lao language and linguistics.

Knechtges, David R. * 1972; PhD, 1968, University of Washington; Han and Six Dynasties literature.

Norman, Jerry * 1971; PhD, 1969, University of California (Berkeley); Chinese language and linguistics, Altaic linguistics.

Potter, Karl H. * 1970, (Adjunct); PhD, 1955, Harvard University; South Asia, Indian philosophy, epistemology.

Salomon, Richard G. * 1981; PhD, 1975, University of Pennsylvania; Sanskrit language and literature.

Schiffman, Harold F. * 1967, (Affiliate); PhD, 1969, University of Chicago; Dravidian language and literature, sociolinguistics, Tamil, language policy.

Serruys, Paul L. M. 1965, (Emeritus); PhD, 1956, University of California (Berkeley); classical Chinese.

Shapiro, Michael * 1970; PhD, 1973, University of Chicago; Indo-Aryan languages and linguistics.

Shih, Vincent Y. 1945, (Emeritus); MA, 1930, Yenching (China); PhD, 1939, University of Southern California; Chinese.

Treat, John W. * 1983; PhD, 1982, Yale University; Japanese language and literature.

Wang, Ching-Hsien * 1971; PhD, 1971, University of California (Berkeley); Chinese poetry and comparative literature.

Yue-Hashimoto, Anne O. * 1981; PhD, 1966, Ohio State University; Chinese language, linguistics and dialectology.

Associate Professors

Boltz, William * 1981; PhD, 1974, University of California (Berkeley); classical Chinese.

Brandauer, Frederick P. * 1973; PhD, 1973, Stanford University; traditional Chinese vernacular fiction and modern Chinese literature.

Cooke, Joseph R. * 1967, (Emeritus); PhD, 1965, University of California (Berkeley); Thai language and literature.

Cox, Collett D. * 1985; PhD, 1983, Columbia University; Buddhist studies (East and South Asian), Indian philosophy and religion, comparative religion.

Kano, Tamako-Niwa * 1962, (Emeritus); PhD, 1958, Radcliffe; Japanese language.

Lukoff, Fred 1964, (Emeritus); MA, 1948, PhD, 1954, University of Pennsylvania; Korean language and linguistics.

Tsutsui, Michio * 1990, (Adjunct); PhD, 1984, University of Illinois; technical Japanese, international technical communication, linguistics, computer-aided instruction.

Assistant Professors

Kobayashi, Motoo 1994; MA, 1988, PhD, 1994, University of Washington; modern and contemporary Japanese literature, comparative literature.

Ohta, Amy 1995; MA, 1990, PhD, 1993, University of California (Los Angeles); applied linguistics, acquisition of Japanese as a second language, sociolinguistics.

Ohta, Kaoru 1995; MA, 1987, PhD, 1994, University of California (Los Angeles); Japanese linguistics, syntax, morphology.

Senior Lecturers

Hsie, Huang-Yi 1973; BS, 1953, National Taiwan University; Chinese language.

Nguyen, Kim O. 1984; PhD, 1973, University of California (Los Angeles); Vietnamese language and literature.

Norman, Stella Chen 1984; MA, 1957, National Taiwan University; Chinese language.

Lecturers

Budiman, Achmad 1992; BA, 1991, University of Brawijaya (Indonesia); Indonesian language and literature.

Hasegawa, Mitsuko 1987; MAT, 1979, Augustana College; Japanese language.

Hines, Naseem A. 1981; MA, 1983, University of Washington; Hindi and Urdu language and literature.

Kesavatana-Dohrs, Wiworn 1989; PhD, 1989, University of Michigan; Thai language and literature.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Altaic

ALTAI 401, 402, 403 Written Mongolian (3, 3, 3) Norman Introduction to Mongolian written in the vertical script. Texts of different periods and genres. Prerequisite: permission of instructor. Offered: alternate years; A, W, Sp.

ALTAI 405, 406, 407 Manchu (3, 3, 3) Norman Introduction to Manchu, with principal focus on the structure of the language. Reading of texts of different genres. Prerequisite: permission of instructor. Offered: alternate years; A, W, Sp.

ALTAI 415, 416, 417 Spoken Mongolian (5, 5, 5) Norman Introduction to the modern spoken language of Mongolia. Emphasis on correct pronunciation and oral skills. Offered: A, W, Sp.

Asian Languages and Literature

ASIAN 201 Literature and Culture of Ancient and Classical China (5) VLP/MS Knechtges Intro-

duction to ancient and classical Chinese literature in its cultural context. Texts in English translation. Offered: alternate years; A.

ASIAN 202 Literature and Culture of Traditional Japan (5) VLPA/I&S *Treat* Introduction to traditional Japanese literature in its cultural context. Texts in English translation. Offered: alternate years; W.

ASIAN 203 Literature and Culture of Ancient and Classical India (5) VLPA/I&S *Salomon, Shapiro* Introduction to ancient and classical India literature in its cultural context. Texts in English translation. Offered: alternate years; Sp.

ASIAN 204 Literature and Culture of China from Tradition to Modernity (5) VLPA/I&S *Brandauer* Introduction to modern Chinese literature in its cultural context. Texts in English translation. Offered: alternate years; A.

ASIAN 205 Literature and Culture of Japan from Tradition to Modernity (5) VLPA/I&S *Treat* Introduction to Japanese literature of the nineteenth and twentieth centuries in its cultural context. May also include some Korean literature. Texts in English translation. Offered: alternate years; W.

ASIAN 206 Literature and Culture of South Asia from Tradition to Modernity (5) VLPA/I&S *Shapiro* Introduction to medieval and modern South Asian literature in its cultural context. Texts in English translation. Offered: alternate years; Sp.

ASIAN 207 Special Topics in Literature and Culture of Asia (5) VLPA/I&S Introduction to the literature of one or more Asian traditions considered in its cultural context. Content varies depending on the specialization and interest of instructor. Texts in English translation. Offered: W.

ASIAN 401 Introduction to Asian Linguistics (5) VLPA *K Ohta, Shapiro* Linguistic analysis, with emphasis on languages of east, southeast, south, and central Asia. Includes phonetics, phonemics, morphology, syntax, historical reconstruction, linguistic typology, comparative grammar. Survey of major languages and language families of Asia. Diverse Asian languages as subjects of linguistic analysis. Prior knowledge of linguistics not required. Prerequisite: two years of one Asian language or permission of instructor. Offered: A.

ASIAN 404 Writing Systems (3) VLPA *Boltz, Salomon* Origin, nature, and development of writing systems. Alphabets, syllabaries, and logographic systems; relation of writing systems to spoken languages; decipherment of previously undeciphered scripts. Prerequisite: 401 or equivalent or permission of instructor. Offered: alternate years.

ASIAN 405 Advanced Problems in Asian Linguistics (3) VLPA *K Ohta, Shapiro* Advanced problems in the analysis of the languages of east, southeast, south, and central Asia. Includes phonology, morphology, syntax, lexicography, historical reconstruction, linguistic typology, and comparative grammar. Prerequisite: 401 or equivalent or permission of instructor. Offered: alternate years.

ASIAN 498 Special Topics (1-5, max. 15) VLPA Offered occasionally by permanent or visiting faculty members. Topics vary. Offered: AWSp.

Chinese

CHIN 111, 112, 113 First-Year Chinese (5, 5, 5) S *Norman* Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Cannot be taken for credit in combination with 134. Offered: A, W, Sp.

CHIN 121 Accelerated Chinese (10) S *Norman* Covers same material as 111 and 112. In conjunction with 222 and 223, allows completion of two years' language study in one academic year. Cannot be

taken for credit in combination with 111 or 112. Offered: A.

CHIN 134 First-Year Intensive Chinese (15) Equivalent of 111, 112, 113. Introduction to the standard language; correct pronunciation and basic structure; drill in oral use of the language. Especially recommended for students (particularly graduate students) who plan to devote more time to other subjects during the regular academic year. Cannot be taken for credit in combination with 111, 112, or 113. Offered: S.

CHIN 211, 212, 213 Second-Year Chinese (5, 5, 5) VLPA *Hsia* Continuation of 111, 112, 113. Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. Cannot be taken for credit in combination with 234. Prerequisite: 113 or equivalent. Offered: A, W, Sp.

CHIN 222 Accelerated Chinese (10) VLPA *S Norman* Covers same material as 113 and 211. In conjunction with 121 and 223, allows completion of two years' language study in one academic year. Cannot be taken for credit in combination with 113 or 211. Prerequisite: 121 or equivalent. Offered: W.

CHIN 223 Accelerated Chinese (10) VLPA *S Norman* Covers same material as 212 and 213. In conjunction with 121 and 222, allows completion of two years' language study in one academic year. Cannot be taken for credit in combination with 212 or 213. Prerequisite: 222 or equivalent. Offered: Sp.

CHIN 234 Second-Year Intensive Chinese (15) VLPA Equivalent of 211, 212, 213. Cannot be taken for credit in combination with 211, 212, or 213 taken. Prerequisite: 113 or equivalent. Offered: S.

CHIN 311, 312, 313 Third-Year Chinese (5, 5, 5) VLPA *Hsieh* Concentrated practice in the use of Chinese as spoken in everyday life. Listening comprehension and speaking skills emphasized. Readings selected to broaden the student's understanding of modern Chinese culture and to spark discussion of contemporary issues. Cannot be taken for credit in combination with 334. Prerequisite: 213 or permission of instructor. Offered: A, W, Sp.

CHIN 333 Intensive Business Chinese (15) VLPA Introduction to oral Chinese as employed in business contexts, illustrates the level of language common to a wide range of Sino-American business communication situations and to general situations in international trade. Prerequisite: 213 or equivalent.

CHIN 334 Third-Year Intensive Chinese (15) VLPA Equivalent of 311, 312, 313. Reading of unedited texts—newspaper articles, essays, short stories. Oral practice and structural drill. Cannot be taken for credit in combination with 311, 312, or 313. Prerequisites: 213 or equivalent and permission of instructor.

CHIN 342 The Chinese Language (3) VLPA *Norman, Yue-Hashimoto* Nature and structure of the Chinese language, covering structural characteristics, genetic and typological affinity with other groups, sound system of standard Mandarin, Chinese writing system and language reforms, brief survey of the history of the Chinese language, and aspects of language in relation to culture. Prerequisite: 213 or equivalent. Offered: A.

CHIN 344 Intensive Chinese in Beijing (15) VLPA *Beijing University Teaching Staff* Eight weeks of intensive instruction in modern Chinese, including readings in modern Chinese texts, oral conversation drill, introduction to past and present Chinese culture, and weekly lectures on such topics as Chinese literature, art, economics, politics, and history. Informal visits with artists, writers, and scholars; weekend excursions to cultural and historic sites in and around Beijing; and a final two-week study tour of selected cities of north and east China. Prerequisite: permission of department.

CHIN 345 Spoken Chinese in Beijing (6, max. 18) VLPA *Beijing University Teaching Staff* Designed

to increase active vocabulary, to enhance the student's understanding of Chinese grammar, to further the student's control of idiomatic Chinese, and, in general, to develop oral skills. Prerequisite: 313 or 344.

CHIN 346 Chinese Readings in Beijing (6, max. 18) VLPA *Beijing University Teaching Staff* General readings in textbooks prepared by Beijing University and selected readings in modern or traditional vernacular literature or in the social sciences. Prerequisite: 313 or 344.

CHIN 374 Chinese Prose (5) VLPA *Knechtges* Offered: see under "Courses in English".

CHIN 411, 412, 413 Fourth-Year Chinese (5, 5, 5) VLPA *Yue-Hashimoto* Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Prerequisites: 313 or equivalent for 411; 411 or equivalent for 412; 412 or equivalent for 413. Offered: A, W, Sp.

CHIN 443 Structure of Chinese (5) VLPA *Yue-Hashimoto* Outline of the major syntactic structures of Chinese. Focus on learning and teaching problems. Prerequisite: 313 or equivalent. Offered: W.

CHIN 451, 452, 453 First-Year Classical Chinese (5, 5, 5) VLPA *Boltz* Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. To be taken in sequence. Prerequisite: 213 or equivalent for 451; 451 for 452; 452 for 453. Offered: A, W, Sp.

CHIN 461, 462, 463 History of Chinese Literature (5, 5, 5) VLPA *Brandauer, Knechtges* 461-Chinese literature from earliest times to the end of the Six Dynasties; 462-Chinese literature from the T'ang to the end of the Song; 463-Chinese literature from the Yuan to recent times. Prerequisite: 453 or equivalent. Offered: A, W, Sp.

CHIN 470 Advanced Readings in Modern Chinese (5) VLPA *Norman* Reading and translation of scholarly articles and selections in the humanities and social sciences. Prerequisite: 414 or permission of instructor. Offered: A.

CHIN 482 Advanced Readings in Modern Chinese (5) VLPA *Brandauer* Modern texts in the original, mainly works published since the beginning of the twentieth century. Focus on literature, primarily short story and essay. Offered: W.

CHIN 496 Special Studies in Chinese (5, max. 15) VLPA Topics vary.

CHIN 499 Undergraduate Research (3-5, max. 15) For Chinese language and literature majors. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSpS.

Hindi

HINDI 311, 312, 313 Elementary Hindi (5, 5, 5) *Hines, Shapiro* Modern literary Hindi. Reading, writing, and conversation. Introduction to Devanagari script. Offered: A, W, Sp.

HINDI 321, 322, 323 Intermediate Hindi (5, 5, 5) VLPA *Hines, Shapiro* Systematic expansion of vocabulary and grammar. Intermediate-level prose and poetry readings. Oral drills. Prerequisite: 313 or equivalent. Offered: AS, WS, SpS.

HINDI 401, 402, 403 Advanced Hindi (5, 5, 5) VLPA *Hines, Shapiro* Rapid reading of contemporary Hindi prose, poetry, and drama. Advanced conversation and composition. Prerequisite: 323 or equivalent. Offered: A, W, Sp.

HINDI 404 Derivational Morphology of Hindi/Urdu (3) VLPA *Shapiro* A systematic introduction to the derivational morphology of Hindi/Urdu. Sanskrit, Persian, Arabic, and English elements in Hindi/Urdu. Treatment of derivational prefixes and suffixes, stem

alternations, and methods of compound formation. Prerequisite: 403 or equivalent, or permission of instructor. Offered: alternate years; W.

HINDI 421, 422, 423 Survey of Modern Hindi Literature (3, 3, 3) VLPA *Hines, Shapiro* Survey of Hindi literature from the late nineteenth century to the present. Readings from representative short stories (421), poems (422), and novels (423). Prerequisites: 403 or equivalent for 421; 421 or equivalent for 422; 422 or equivalent for 423.

HINDI 431 Advanced Conversational Hindi (2, max. 8) VLPA Conversational practice in contemporary Hindi. Prerequisite: 323 or equivalent or permission of instructor. Offered: Sp.

HINDI 451 Advanced Hindi Readings (3, max. 9) VLPA Readings in Modern Standard Hindi prose texts drawn from diverse disciplines. Prerequisite: 403 or equivalent. Offered: W.

HINDI 499 Undergraduate Research (3-5, max. 15) Primarily for Hindi language and literature majors. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSpS.

Indian

INDN 400 Practicum in South Asian Languages (3, max. 18) VLPA Introduction to any one of various South Asian languages (e.g., Kannada, Nepali, Punjabi, Sinhala, Marathi, Telugu, Urdu) not taught on a regular basis. Students may receive credit for more than one such language. Prerequisite: permission of instructor.

INDN 401, 402 Pali (3, 3) VLPA *Cox* Introduction to Pali language and literature. Prerequisite: SNKRT 403 or equivalent or permission of instructor.

INDN 403 Introduction to Written Urdu (3) VLPA *Hines* Modern written Urdu for students with at least elementary knowledge of Hindi. Prerequisite: HINDI 313 or equivalent. Offered: A.

INDN 404 Readings in Urdu Literature (3, max. 18) VLPA *Hines* Readings in Urdu prose and poetry. Urdu prose composition. Prerequisite: 403 or equivalent. Offered: AWSp.

INDN 410 Prakrit (3, max. 6) VLPA *Salomon* Introduction to the various Prakrit or Middle Indo-Aryan dialects (Gandhari, Magadhi, Maharashtri, Sauraseni) from literary, canonical, and inscriptional sources. Prerequisite: SNKRT 303 or equivalent

INDN 411 First-Year Intensive Bengali (15) C *Salomon* Study of modern Standard Bengali, including reading, writing, and conversation. Introduction to Bengali script.

INDN 499 Undergraduate Research (3-5, max. 15) Primarily for South Asian language and literature majors. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSp.

Indonesian

INDON 111, 112, 113 Elementary Indonesian (5, 5, 5) Budiman Introduction to modern standard Indonesian-Malay. Emphasis on grammar and conversational drills. Practice with basic phonological, morphological, and syntactic structures. Prerequisites: 111 for 112, 112 for 113. Offered: A, W, Sp.

INDON 211, 212, 213 Intermediate Indonesian (5, 5, 5) VLPA *Budiman* Continuation of 111, 112, 113. Review/expansion of fundamental grammatical patterns: morphological and syntactic structures, development of conversational skills, reading literary and cultural materials, writing compositions. Prerequisite: 113 or permission of instructor. Offered: A, W, Sp.

INDON 311, 312, 313 Advanced Indonesian (5, 5, 5) VLPA *Budiman* Continuation of 211, 212, 213. Expanding vocabulary; preparing for research work us-

ing original sources; improving reading fluency in modern standard written Indonesian using novels, short stories, newspapers, and other authentic material. Conversation practice centers on discussion of readings. Writing compositions. Prerequisite: 213 or equivalent. Offered: A, W, Sp.

INDON 499 Undergraduate Research (3-5, max. 15) Primarily for Southeast Asian language program majors. Prerequisite: permission of instructor and undergraduate adviser.

Japanese

JAPAN 111, 112, 113 First-Year Japanese (5, 5, 5) Elementary speaking, listening, reading, and writing skills in modern Japanese. No initial knowledge of Japanese presumed. Enrollment in 111 not open to students with prior background. Such students must take placement test. Offered: A, W, Sp.

JAPAN 134 First-Year Intensive Japanese (15) Equivalent of 111, 112, 113. Satisfies requirements for entry to 211, but recommended primarily for those going to Japan shortly upon completion. Offered: S.

JAPAN 211, 212, 213 Second-Year Japanese (5, 5, 5) VLPA Development of further skills in the spoken and written languages. Prerequisite: 113 or placement by examination. Offered: A, W, Sp.

JAPAN 234 Second-Year Intensive Japanese (15) VLPA Equivalent of 211, 212, 213. Satisfies requirements for entry to 311, but recommended primarily for those going to Japan shortly upon completion. Prerequisite: 113 or placement by examination. Offered: S.

JAPAN 311, 312, 313 Third-Year Japanese (5, 5, 5) VLPA *Hasegawa* Intermediate-level skills in both spoken and written languages. Some introduction to unedited materials. Prerequisite: 213 or placement by examination. Offered: A, W, Sp.

JAPAN 342 The Japanese Language (5) VLPA *K Ohta* Survey of the nature and structure of the Japanese language, covering genetic and typological affiliations, writing systems, lexicon, and features of Japanese sentence structures. Prerequisites: 213 or equivalent and LING 200.

JAPAN 343 Japanese Language in Society (5) VLPA/MS Survey of issues in Japanese language use. Areas covered include dialectal variation, language attitudes, gender differences, and pragmatics. Prerequisites: 213, or equivalent, and 342.

JAPAN 405-406 History of the Japanese Language (3-3) VLPA *K Ohta* Introduction to the history of Japanese, including phonology, morphology, syntax, and lexicon. Prerequisite: ASIAN 401. Offered: alternate years.

JAPAN 421, 422, 423 Fourth-year Japanese for Professional and Academic Purposes I, II, III (5, 5, 5) VLPA/MS Class discussion, oral presentations, reading, and composition on topics related to the Japanese language and present-day Japan. Includes readings from Japanese newspapers and magazines. Conducted in Japanese. Prerequisite: 313 for 421, 421 for 422, 422 for 423 or permission.

JAPAN 431, 432, 433 Readings in Modern Japanese Literature (5, 5, 5) VLPA Reading and discussion of selected modern literary texts in the original language, concentrating on the short story and novel. Close attention to grammar and syntax. Prerequisite: 313 or equivalent.

JAPAN 440 Introduction to Japanese Linguistics (5) VLPA *AS Ohta, K Ohta* Overview of major topics in the linguistic description of Japanese: phonology, morphology, syntax, history, dialects, sociolinguistics, and the writing system. Elementary training in phonological, morphological, and syntactic analysis of Japanese. Prerequisite: 313 or equivalent. Recommended: an introductory course in linguistics. Offered: Sp.

JAPAN 442 Morphology and Syntax of Japanese (5) VLPA *K Ohta* Morphological and syntactic analysis of the Japanese language. Reading of research literature, training in analysis of Japanese language data, and contrastive analysis of Japanese with other languages. Prerequisites: 313 or equivalent, 440, and LING 400 or permission of instructor.

JAPAN 443 Japanese Sociolinguistics (5) Methodology and theory of sociolinguistic analysis. Reading of research literature and training in analysis of Japanese language data. Prerequisites: 313 or equivalent and 342 or permission of instructor.

JAPAN 471, 472 Classical Japanese Grammar (5, 5) VLPA Introduction to classical grammatical forms and translation of classical literary texts. Prerequisites: 313 or equivalent for 471; 471 or equivalent for 472. Offered: A, W.

JAPAN 473 Readings in Classical Japanese Literature (5) VLPA Readings in prose, poetry, and drama, antiquity to nineteenth century. Prerequisite: 472 or equivalent. Offered: Sp.

JAPAN 499 Undergraduate Research (3-5, max. 15) For Japanese language and literature majors. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSpS.

Korean

KOREAN 301, 302, 303 Introduction to Korean (5, 5, 5) Fundamentals of the Korean language. Emphasis on Korean alphabet and spelling, pronunciation, and basic grammar. Offered: A, W, Sp.

KOREAN 304 Spoken Korean (10) VLPA The Korean language as spoken in ordinary conversational situations. Phonetic accuracy and appropriateness of idiom. May be taken any summer after completion of first-year Korean. Prerequisite: 303 or permission of instructor. Offered: irregularly.

KOREAN 311, 312, 313 Introduction to Korean Writing in Mixed Script (5, 5, 5) VLPA Chinese characters as used in Korean mixed script. Systematic expansion of vocabulary and grammatical forms of standard Korean. Prerequisite: 303 or equivalent. Offered: A, W, Sp.

KOREAN 411, 412, 413 Readings in Contemporary Korean (5, 5, 5) VLPA 411 completes the introduction to Korean writing in mixed script of 311, 312, 313. 412 and 413 provide experience in reading a variety of contemporary styles. Materials from published works include informal essays, short stories, one-act plays, academic essays, and newspaper editorials. Prerequisite: 313 or equivalent. Offered: A, W, Sp.

KOREAN 415 Social Science Literature in Korean (3) VLPA Readings in selections from contemporary Korean publications in social science topics. Prerequisite: 413 or equivalent. Offered: A.

KOREAN 416 Korean Narrative and Dramatic Literature (3) VLPA Linguistic features rather than purely literary qualities of modern Korean literature. Includes figures of speech and sophisticated linguistic expression. Prerequisite: 413 or equivalent. Offered: W.

KOREAN 417 Readings in Korean Journals (3) VLPA Selections from Korean newspapers, news magazines, and other journals. Topics from international and domestic affairs, including politics, business, and problems of everyday life. Prerequisite: 413 or equivalent. Offered: Sp.

KOREAN 499 Undergraduate Independent Study (3-5, max. 15) For students who have completed 417 or equivalent. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSpS.

Sanskrit

SNKRT 301, 302, 303 Introduction to Sanskrit (5, 5, 5) *Cox, Salomon* Basic grammar and vocabulary of the classical language. Reading of elementary texts from the epic or Puranic literature. Offered: A, W, Sp.

SNKRT 401, 402, 403 Intermediate Sanskrit (5, 5, 5) *VLPA Cox, Salomon* Further study of classical grammar; introduction to classical literature and Vedic language and texts. Prerequisite: 303 or permission of instructor. Offered: A, W, Sp.

SNKRT 411, 412, 413 Advanced Sanskrit (5, max. 15, 5, max. 15, 5) *VLPA Cox, Salomon* Reading and analysis of classical texts, chosen according to students' interests. Prerequisite: 403 or permission of instructor. Offered: A, W, Sp.

SNKRT 491, 492, 493 Vedic Studies (3, 3, 3) *VLPA Salomon* Readings of selected Vedic texts, with linguistic, religious, and historical analyses. Includes background material on Vedic religion, literature, and culture. Prerequisite: 303 or equivalent.

SNKRT 494 Readings in Religious Classics of India (5) *VLPA Potter, Salomon* Introduction to the older religious literature, with emphasis on the Upanisads, the Dharmasutras, and the Bhagavad Gita. Rapid reading of the texts, plus content analysis of the developing religious forms. Prerequisite: 402.

SNKRT 495 Studies in Indian Thought (3, max. 9) *VLPA Cox* Religious and philosophical traditions in South Asia. The original documents studied vary from year to year. Prerequisite: 402 or permission of instructor.

SNKRT 499 Undergraduate Research (3-5, max. 15) Primarily for Sanskrit language and literature majors. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSp.

Thai

THAI 301, 302, 303 Basic Thai (5, 5, 5) *Kesavathana-Dohrs* Introduction to modern spoken and written Thai. Emphasis on spoken language competence with additional skills in elementary reading and spelling. Offered: A, W, Sp.

THAI 401, 402, 403 Intermediate Thai (5, 5, 5) *VLPA Kesavathana-Dohrs* Short stories; articles on Thai history, geography, culture, politics, economics. Primary emphasis on reading, translation, comprehension, and grammar. Prerequisite: 303. Offered: A, W, Sp.

THAI 411, 412, 413 Readings in Thai (5, 5, 5) *VLPA Kesavathana-Dohrs* Advanced reading and translation of selections from various Thai authors, with occasional practice in conversation and composition. Prerequisite: 403. Offered: A, W, Sp.

THAI 499 Undergraduate Research (3-5, max. 25) For Thai language and literature majors. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSp.

Tibetan

TIB 304, 305, 306 Colloquial Tibetan (5, 5, 5) *Norman* Introduction to phonology, morphology, and syntax of spoken Tibetan, Lhasa dialect. Offered: alternate years; A, W, Sp.

TIB 307, 308, 309 Intermediate Colloquial Tibetan (5, 5, 5) *VLPA Norman* Instruction and drill in advanced colloquial sentence patterns and syntactical constructions. Prerequisite: 306 or equivalent. Offered: alternate years; A, W, Sp.

TIB 311, 312, 313 Literary Tibetan (3, 3, 3) Introduction to the phonology, grammar, and syntax of written Tibetan. Materials selected for rapid development of reading knowledge. Offered: A, W, Sp.

TIB 411, 412, 413 Readings in Tibetan (3, 3, 3) *VLPA* Selections from various Tibetan materials. Prerequisite: 313 or equivalent. Offered: A, W, Sp.

TIB 415, 416, 417 Readings in Tibetan Literature (3, 3, 3) *VLPA* Reading of selections from Tibetan philosophical literature. May be taken in any sequence. Prerequisite: 413 or permission of instructor. Offered: A, W, Sp.

TIB 499 Undergraduate Research (3-5, max. 15) For Asian languages and literature majors. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSp.

Vietnamese

VIET 111, 112, 113 First-year Vietnamese (5, 5, 5) *Nguyen* Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. Offered: A, W, Sp.

VIET 211, 212, 213 Second-year Vietnamese (5, 5, 5) *VLPA Nguyen* Continuation of 113. Development of conversation skills, reading for comprehension, and writing short compositions. Prerequisite: 113. Offered: A, W, Sp.

VIET 214 Accelerated Vietnamese Reading and Writing (5) *VLPA Nguyen* Accelerated course for fluent speakers who do not read or write Vietnamese. Emphasis on reading and writing through second-year level. Cannot be taken for credit in combination with any formal Vietnamese course. Credit/no credit only. Offered: A.

VIET 490 Special Topics in Vietnamese (5, max. 15) *VLPA Nguyen* Content varies. Prerequisite: permission of instructor. Credit/no credit only.

VIET 498 Special Studies in Vietnamese (3-5, max. 15) *Nguyen* Topics vary. Offered: AWSp.

Courses in English

ASIAN 263 Great Works of Asian Literature (5) *VLPA* Selected major works of Asian literature. Taught on a rotational basis with the literary traditions of China, Japan, India covered in successive years. Content varies depending on specialization and interest of instructor. Primary emphasis on literary values of works and their tradition; attention also given to historical and social contexts and the thought and value systems of the culture involved.

CHIN 373 Chinese Poetry (5) *VLPA Wang* Introduction to Chinese poetry. A study of its origins, forms, major themes, and relevant conventions. All readings in English. No knowledge of Chinese required. Offered: W.

CHIN 374 Chinese Prose (5) *VLPA Knechtges* Survey of great works of Chinese prose, including philosophical writings, historical works, short narratives, essays, and rhyme-prose. All readings in English. No knowledge of Chinese required. Offered: Sp.

CHIN 380 The Chinese Novel in English (5) *VLPA Brandauer* The Chinese novel from the Ming dynasty to the present. Readings in English translation. Literary values of works and their tradition. Historical and social contexts and thought and value systems of the Chinese. Offered: Sp.

CHIN 381 Literature in Modern China (5) *VLPA Brandauer* Literature in China from the 1911 revolution to the present. May Fourth literature, Taiwan literature, and People's Republic of China literature. Readings in English translation.

JAPAN 321 Japan in Literature and Film: I (5) *VLPA* Literary history of Japan from the eighth to the late twelfth centuries, with readings in *The Tale of Genji* and other works of the imperial court, with visual aids reflecting the architecture, life, and natural milieu of classical Japan. Offered: A.

JAPAN 322 Japan in Literature and Film: II (5) *VLPA Kobayashi, Treat* Literary history of Japan from the thirteenth to early nineteenth centuries, with readings from court and warrior culture, Edo townsman culture, and films on the no, bunraku puppet, and kabuki theaters. Recommended: 321. Offered: W.

JAPAN 323 Japan in Literature and Film: III (5) *VLPA Kobayashi, Treat* Literary history of Japan in the modern period, with readings in the major novelists on the clash of cultures, the generational struggle, and war, plus films that portray these themes and reflect the variety of modern Japanese life. Recommended: 321, 322. Offered: Sp.

Courses for Graduates Only

Altaic

ALTAI 579 Comparative Altaic Linguistics (3) *Norman* Comparative phonology and morphology of Mongolian, Turkic, and other Altaic languages. Prerequisite: permission of instructor. Offered: jointly with LING 579.

Asian Languages and Literature

ASIAN 503 Seminar in Asian Linguistics (1-5, max. 15) *A Ohta* Topics vary. Prerequisite: permission of instructor. Offered: AWSp.

ASIAN 518 Foreign Language Teaching Methodology (2) *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with GERMAN 518/NEAR E 518/SCAND 518/SLAV 518.

ASIAN 585 Seminar in Buddhism (3, max. 27) *Cox* Systems and history of Buddhist thought. Original and secondary sources are used. Combines the methods of specialists in south, central, and east Asian Buddhism with those of historians of religion and philosophy. Prerequisite: permission of instructor. Offered: AWSp.

ASIAN 600 Independent Study or Research (*) Offered: AWSpS.

ASIAN 700 Master's Thesis (*) Offered: AWSpS.

ASIAN 800 Doctoral Dissertation (*) Offered: AWSpS.

Chinese

CHIN 531, 532, 533 Studies in Chinese Phonology (3, 3, 3) *Norman* Sources and methods in the study of Chinese phonology; 531: modern standard Chinese; 532: medieval period; 533: advanced topics in Chinese historical phonology. Prerequisite: ASIAN 401. Offered: A, W, Sp.

CHIN 540 Seminar on Chinese Linguistics (3, max. 9) *Norman, Yue-Hashimoto* Advanced topics in Chinese linguistics. Subject emphasis varies from year to year. Offered: Sp.

CHIN 541 Seminar in Chinese Grammar (3, max. 9) *Boltz, Norman, Yue-Hashimoto* Problems of theory and analysis of Chinese grammar, both synchronic and diachronic, modern and classical. Prerequisites: ASIAN 401 and permission of instructor.

CHIN 542 Chinese Historical Phonology (3) *Norman* Introduction to Chinese historical phonology; emphasis on the Middle Chinese period. Prerequisites: ASIAN 401 and permission of instructor.

CHIN 544 Chinese Dialectology (3, max. 9) *Norman, Yue-Hashimoto* Methodology and theory of studying Chinese dialects. Among areas covered are fieldwork methods, dialect classification, and dialectal grammar. Prerequisites: 542, ASIAN 401, and permission of instructor.

CHIN 551, 552 Second-Year Classical Chinese (5, 5) *Knechtges, Wang* Problems of grammar, rhetoric, and textual criticism. 551: early literary texts. 552: later literary texts. Offered: A, W.

CHIN 553 Second-Year Classical Chinese (5) *Boltz* Continuation of 551, 552. Intermediate level readings in Han and pre-Han historical and philosophical texts. Prerequisites: 551 and 552. Offered: Sp.

CHIN 554, 555, 556 Readings in Chinese Prose (5, 5, 5) *Knechtges* 554: selected readings in the fu of the Han, Wei, Chin, and North-South Dynasties period. 555: selected readings in parallel prose (*pianti wen*). 556: selected readings in *guwen* prose of the T'ang and Sung periods. Recommended: 551, 552. Offered: alternate years.

CHIN 557 Introduction to Chinese Philology and Textual Criticism (5) *Boltz* Principles and methods of textual criticism and philological analysis of ancient Chinese texts. Study of both manuscripts and transmitted texts. Emphasis on Han and pre-Han documents; specific texts vary. Prerequisites: two years of classical Chinese and ASIAN 401. Offered: alternate years; W.

CHIN 558 Seminar in Chinese Lexicology and Grammatonymy (3) *Boltz* Study of the Chinese script, lexicographical history, and lexicological and etymological analysis. Prerequisites: two years of classical Chinese, ASIAN 401. Offered: alternate years.

CHIN 559 Methods and Materials (5) *Knechtges* Introduction to the basic reference works and methods of research in Chinese language and literature. Includes a history of Sinology, survey of basic bibliographies, dictionaries, atlases, catalogs, journals, literary collections, concordances, and other sources. Prerequisites: 551, 552. Offered: alternate years; A.

CHIN 560 Proseminar in Chinese (3-5) *Boltz, Knechtges* Methods and materials in the study of Chinese texts. Problems in textual analysis and Chinese literary history. Prerequisites: 553 and one of 554, 555, and 556.

CHIN 561, 562, 563 Studies in Chinese Literature (5, 5, 5) *Wang* 561: literature before Ch'in; 562: poetry of the T'ang and Sung periods; 563: literary theory and criticism. Prerequisite: permission of instructor. Offered: 561 W; 562 Sp.

CHIN 573 Seminar in Chinese Poetry (5, max. 15) *Wang* Directed study of selected works of poetry. Subject emphasis varies each year. Prerequisite: permission of instructor. Offered: alternate years; W.

CHIN 574 Seminar in Six Dynasties Literature (5, max. 15) *Knechtges* Directed study of selected works of Six Dynasties. Subject emphasis varies each year. Prerequisite: permission of instructor. Offered: alternate years; Sp.

CHIN 575 Studies in Chinese Drama (5, max. 15) *Wang* Readings and discussion of Chinese drama. Subject emphasis varies. Prerequisite: permission of instructor. Offered: alternate years.

CHIN 577 Advanced Readings in Chinese Opera (4) *Hsia* Introduction to the dialogue and verses frequently used in Chinese opera. Comparisons between language spoken daily and languages used in Chinese opera. Prerequisite: 553 or permission of instructor. Offered: A.

CHIN 578 Advanced Readings in Classical Chinese (4) *S Norman* Study of texts from all periods. Prerequisite: 553 or permission of instructor. Offered: W.

CHIN 580 Readings in Vernacular Chinese Fiction (5, max. 15) *Brandauer* Readings and discussion of traditional vernacular texts. Emphasis on Sung, Yuan, and Ming short stories and on Ming and Ch'ing full-length novels. Prerequisite: permission of instructor. Offered: A.

CHIN 582 Seminar in Chinese Fiction (5, max. 15) *Brandauer* Directed study of selected works of fiction, focusing on the vernacular short story and novel. Prerequisite: permission of instructor. Offered: W.

CHIN 583 Seminar in Modern Chinese Literature (5) *Brandauer* Directed study of selected works of modern Chinese literature. Primary focus on the novel, short story, and essay. Recommended: 381, 482. Offered: Sp.

CHIN 590 Readings in the Thirteen Classics (5) *Boltz* Selected readings from the Thirteen Classics, and from their associated exegetic and hermeneutic traditions. Readings and emphases vary from year to year. Prerequisite: two years of Classical Chinese and 557. Offered: alternate years.

CHIN 591, 592, 593 Studies in the History of Chinese Thought (5, 5, 5) *Knechtges* Directed readings in selected traditional philosophical texts. 591: Han through T'ang; 592: Sung and Yuan; 593: Ming and Ch'ing. Prerequisite: permission of instructor.

Hindi

HINDI 501 Studies in Medieval Braj Literature (3, max. 9) Introduction to the Braj dialect of Hindi and its literature. Prose readings and selected poetry by Surdas, Raskhan, Bihari, and others. Prerequisites: 403 or equivalent. Offered: A.

HINDI 502 Studies in Medieval Avadhi Literature (3, max. 9) Introduction to the Avadhi dialect of Hindi and its literature. Readings from Ramcaritmanas of Tulsidas and Padmavat of Muhammad Malik Jayasi. Prerequisite: 403 or equivalent. Offered: W.

HINDI 503 Studies in Medieval Sant Literature (3, max. 9) *Shapiro* Introduction to the language and literature of Sant poets. Readings include Guru Nanak's Japuji and excerpts from Kabir's Granthavali. Prerequisite: 403 or equivalent.

HINDI 504 Studies in Medieval Rajasthani Literature (3) Introduction to the literary language of Rajasthan. Reading of extracts from the prose chronicle (Khyat) of Nainasi followed by a representative selection of bardic poetry. Prerequisite: 403 or equivalent.

HINDI 510 Structure of Hindi (3) *Shapiro* Grammatical analysis of Hindi, phonology, syntax, and semantics. Readings from both Western and native grammarians. Prerequisite: 403 or permission of instructor. Recommended: course in linguistics.

Indian

INDN 530 Readings in Pali Literature (3, max. 18) *Cox* Reading and interpretation of intermediate and advanced texts in Pali. Prerequisite: 402 or equivalent.

INDN 590 Special Topics in Indology (1-5, max. 12) Studies in selected research topics in South Asian languages and literatures. Prerequisite: graduate standing and permission of instructor. Offered: Sp.

Japanese

JAPAN 501 Readings in Bibliographic Materials (5)

JAPAN 510 Teaching Assistant Training Workshop (3) *AS Ohta* Introduction to issues and methods in teaching Japanese in the American college classroom. Required for all new Japanese teaching assistants. Must be taken in conjunction with ASIAN 518. Prerequisite: Permission of instructor. Offered: A.

JAPAN 531, 532, 533 Advanced Readings in Modern Japanese Literature (5, 5, 5) *Kobayashi* Rapid reading of modern literary and critical texts. Prerequisite: 433 or equivalent. Offered: A, W, Sp.

JAPAN 540 Seminar on Japanese Linguistics (3, max. 9) *K Ohta*. Problems in the history and struc-

ture of the Japanese language. Topics vary each quarter, according to the needs and interests of the students. Prerequisites: 440 or permission of instructor. Offered: W.

JAPAN 561 No and Kyogen (5, max. 15) Close reading and analysis of no texts in Japanese, with some attention to kyogen. Discussion of categorization, structure, imagery, style, mode, theme, authorship, source material, theory, and problems of translation. Prerequisites: 472 or equivalent and permission of instructor.

JAPAN 571, 572, 573 Advanced Readings in Classical Japanese Literature (5, 5, 5) Continued readings in classical literary texts. Prerequisite: 473 or permission of instructor.

JAPAN 580 Development of Modern Japanese Fiction (5, max. 15) *Treat* Reading and translation of major works of modern fiction, with emphasis on the chronological development of modern prose style and practice in literary translation. Prerequisite: permission of instructor. Offered: A.

JAPAN 590 Seminar in Japanese Literature (5, max. 15) Close examination of selected periods, writers, or genres, including problems of literary criticism in Japanese literature. Prerequisite: permission of instructor. Offered: Sp.

Korean

KOREAN 501, 502, 503 Seminar in Korean Linguistics (3-5, 3-5, 3-5) Topics in Korean linguistics. For majors in Korean language and literature or linguistics. Prerequisites: background in linguistics and permission of instructor.

Sanskrit

SNKRT 550 Seminar on Sanskrit Literature (3, max. 9) *Salomon* Detailed study of selected authors, periods, or traditions, within the context of Indian literary history. Prerequisite: 403 or permission of instructor.

SNKRT 555 Seminar on Sanskrit Grammar (3, max. 6) *Salomon* Reading and critical study of traditional literature on grammar and language, including texts of Paninian and other schools. Offered: A.

SNKRT 560 Readings in Philosophical Sanskrit (3, max. 9) *Cox, Potter, Salomon* Intensive reading and analysis of Hindu or Buddhist philosophical texts. Prerequisite: 494 or permission of instructor. Offered: AWSp.

SNKRT 570 Seminar in Indian Epigraphy and Palaeography (3, max. 6) *Salomon* Introduction to the study of inscriptions and other original documents in Sanskrit and Prakrit languages and in Kharosthi, Brahmi, and derived scripts. History of writing in India and development of Indic scripts. Methods of critical evaluation of inscriptions as sources of political and cultural history. Prerequisite: 403.

SNKRT 581, 582 Readings in Buddhist Texts (3, max. 9, 3, max. 9) *Cox* Interpretation of original sources. Texts vary from year to year. Prerequisites: ability to study sources in the original languages, an introduction to Buddhist thought, and permission of instructor. Offered: 581 W.

Tibetan

TIB 511, 512, 513 Advanced Literary Tibetan (3, max. 9; 3, max. 9; 3, max. 9) Reading of manuscripts and xylographs with emphasis on biographical, historical, and geographical material. Prerequisite: 413 or equivalent.

TIB 531, 532, 533 Buddhist Tibetan (3, max. 9; 3, max. 9; 3, max. 9) Reading and analysis of Tibetan Buddhist texts and associated literature. Selections vary each quarter and may be taken out of sequence. Prerequisite: 413 or permission of instructor. Offered: A, W, Sp.

TIB 541 Introduction to Tibetan Philology (3) Philological methods in the study of Tibetan texts, blockprints as well as hand-written manuscripts. Specific examples taken from historical, biographical, and autobiographical writings. Emphasis on historical philology and semantics. Prerequisites: 413 or 417 and permission of instructor.

Astronomy

C319 Physics-Astronomy

Modern research in astronomy and astrophysics encompasses a large number of disciplines and specialties, and the faculty members of the Department of Astronomy are active in many of these areas. Research areas of the department include planetary astronomy, stellar structure and evolution, interstellar matter, x-ray sources, galactic structure, extragalactic astronomy, galactic dynamics, quasars and galactic nuclei, and theoretical and observational cosmology. The department is part of a consortium of universities which operates a 3.5-meter optical/infrared telescope located on Sacramento Peak, New Mexico, and is a partner in the innovative Sloan Digital Sky Survey. Students also have access to a variety of national facilities, such as the Kitt Peak and Cerro Tololo observatories and the Very Large Array. A variety of research is conducted with satellite instruments such as the Hubble Space Telescope. The department operates a well-instrumented 30-inch telescope at the Manastash Ridge Observatory, near Ellensburg. Data analysis and theoretical research are conducted on the department's cluster of SUN and SGI computers, and on a variety of UW and national supercomputer facilities. Undergraduate majors often assist faculty members in acquisition, reduction, and interpretation of data.

Undergraduate Program

Adviser
Woodruff Sullivan
C318 Physics-Astronomy

Bachelor of Science

Major Requirements: 321, 322, 323; 421, 422, 423, or 9 credits of other astronomy 400-level courses; PHYS 121/131, 122/132, 123/133; 224, 225, 227, 228; 321, 322, 334, 335; MATH 124, 125, 126; 307, 324; 9 additional credits in courses at the 300 level or above in physics (chosen from 323, 324, 327, 328, 331, 421, 422, 423, 424, 425, 426, 431, 432, 433, 434) or engineering as approved by adviser. Junior year (survey) and senior year (research) papers recommended as ASTR 499 projects, with emphasis on the senior paper for students planning graduate work. No grade lower than 2.0 is acceptable in courses fulfilling the above requirements. Undergraduates interested in advanced work in astronomy are advised to take a double major in astronomy and physics. Undergraduates interested in immediate employment at an observatory or other scientific institution should include computing and electronics courses as part of their program.

Graduate Program

Bruce Balick, Graduate Program Coordinator

Master of Science, Doctor of Philosophy

A series of graduate courses in solar system, stellar, galactic, and extragalactic astrophysics is offered.

The heart of the graduate program is the collaboration of student and faculty members in research at the frontiers of astronomy. Students work collaboratively with members of the faculty to develop the techniques and insight necessary for successful research, and,

subsequently, to define a thesis topic. The student's thesis research may be purely theoretical or use observational material (obtained through the facilities of either the University of Washington or one of the national observatories) or a combination. Active research programs are being carried out in the area of stellar interiors, stellar atmospheres, planetary atmospheres and surfaces, x-ray sources, interplanetary dust, extragalactic astronomy, gravitation, interstellar matter, dark matter, cosmology, relativistic astrophysics, and computational astrophysics.

Admission Qualifications

Entering students are not required to have a background in astronomy, although some knowledge of general astronomy is expected of those to whom a teaching assistantship is to be offered. Undergraduates interested in a graduate program in astronomy are urged to concentrate on preparation in physics and mathematics before entering.

Assistantships

Normally all students making satisfactory academic progress receive financial support. Over half of the department's graduate students hold fellowships or research assistantships. A number of teaching assistantships are available, primarily in the elementary astronomy courses.

Faculty

Chair

Craig J. Hogan

Professors

Adams, John B. * 1975, (Adjunct); MS, 1958, PhD, 1961, University of Washington; planetology, remote sensing.

Balick, Bruce * 1975; PhD, 1971, Cornell University; radio astronomy, ionized nebulae, peculiar galaxies.

Bardeen, James M. * 1976, (Adjunct); PhD, 1985, California Institute of Technology; general relativity, theoretical astrophysics.

Bohm, Karl-Heinz * 1967, (Emeritus); PhD, 1954, University of Kiel (Germany); stellar atmospheres, star formation.

Bohm-Vitense, Erika H. * 1968, (Emeritus); PhD, 1951, University of Kiel (Germany); stellar atmospheres, pulsating stars.

Boynton, Paul * 1970; PhD, 1967, Princeton University; high-energy astrophysics, astronomy.

Brownlee, Donald E. * 1971; PhD, 1971, University of Washington; origin of the solar system, comets, interplanetary dust.

Haxton, Wick C. * 1984, (Adjunct); PhD, 1976, Stanford University; theoretical physics, nuclear physics.

Hodge, Paul W. * 1965; PhD, 1960, Harvard University; extragalactic astronomy, interplanetary dust.

Hogan, Craig J. * 1990; PhD, 1980, Cambridge University (UK); astrophysical cosmology, especially the origin of astronomical structures in the expanding universe.

Jacobsen, Theodor S. 1928, (Emeritus); PhD, 1926, University of California (Berkeley); astronomy.

Lake, George Russell * 1985; PhD, 1980, Princeton University; stellar dynamics, galaxy structure and formation, cosmology, computational astrophysics.

Leovy, Conway B. * 1967, (Adjunct); PhD, 1964, Massachusetts Institute of Technology; planetary atmospheres, middle atmosphere meteorology, remote sensing.

Margon, Bruce H. * 1980; PhD, 1973, University of California (Berkeley); galactic and extragalactic x-ray astronomy, optical counterparts of x-ray sources.

Sullivan, Woodruff T. III * 1973; PhD, 1971, University of Maryland; radio astronomy, galactic and extragalactic structure, history of astronomy.

Szkody, Paula * 1975; PhD, 1975, University of Washington; cataclysmic variables, photometry, spectroscopy.

Wallerstein, George * 1965; PhD, 1958, California Institute of Technology; chemical composition of stars, peculiar stars, interstellar matter.

Associate Professors

Anderson, Scott F. * 1988, (Research); PhD, 1985, University of Washington; quasars and active galaxies, x-ray astronomy.

Nelson, George D. * 1989; PhD, 1978, University of Washington; stellar atmospheres, radiative transfer, hydrodynamics.

Stubbs, Christopher 1994; PhD, 1988, MSc, 1988, University of Washington.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

ASTR 101 Astronomy (5) NW, QSR Introduction to the universe, with emphasis on conceptual, as contrasted with mathematical, comprehension. Modern theories, observations; ideas concerning nature, evolution of galaxies; quasars, stars, black holes, planets, solar system. Not open for credit to students who have taken 102 or 201; not open to upper-division students majoring in physical sciences or engineering.

ASTR 102 Introduction to Astronomy (5) NW, QSR Subject matter similar to 101 but designed for students who have had high school physics or the equivalent introduction to physics at the college level. Cannot be taken for credit in combination with 101, 201, or 301. Prerequisites: one year of high school physics or PHYS 101-102 or PHYS 110, 111, 112.

ASTR 150 The Planets (5) NW, QSR For liberal arts and beginning science students. Survey of the planets of the solar system, with emphases on recent space exploration of the planets and on the comparative evolution of the Earth and the other planets.

ASTR 190 Modern Topics in Astronomy for Non-Science Majors (3) NW Topics of current interest, such as origin of chemical elements, novae and supernovae, white dwarfs, neutron stars, black holes, active galaxies, quasars, or interstellar medium and astrochemistry. Choice of topics depends on instructor and class interest. Prerequisite: 5 credits of astronomy courses at the 100 or 200 level or permission of instructor.

ASTR 201 The Universe and the Origin of Life (5) NW, QSR Sequel to 101 or 102, emphasizing modern views of the atomic and molecular evolution of the universe from the initial "big bang" through the formation of the solar system and the emergence of biological forms on the earth. The latter part of the course considers questions about the existence of, and communication with, extraterrestrial intelligent life, and finally the ultimate fate of the cosmos. Prerequisite: 101 or 102, or PHYS 110 or 114 or 121.

ASTR 210 Distance and Time: Size and Age in the Universe (5) NW, QSR Space and time as basic concepts in physical science. How we define and

measure them, how the concepts have developed over the centuries, and how modern measurements allow us to determine the size and age of the universe.

ASTR 211 The Universe and Change (5) NW, QSR Gravity as central to the form and evolution of the universe. Conceptual formulation of gravity from the Renaissance to Einstein. Its consequences from the falling of an apple to the slowing of the expansion of the universe. Prerequisite: 210.

ASTR 212 Life in the Universe (5) NW, QSR Nature and origin of cosmic large numbers. Steps to the formation of life, formation of planets (stars, galaxies, a long-lived universe), the anthropic principle. Searches for other planetary systems and extraterrestrial life. Prerequisite: 101 or 211.

ASTR 301 Astronomy for Scientists and Engineers (3) NW Introduction to astronomy for students in the physical sciences or engineering. Topics similar to 101, but the approach uses more mathematics and physics. Prerequisite: PHYS 123.

ASTR 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with HIST 313.

ASTR 321 The Solar System (3) NW Solar system; planetary atmospheres, surfaces and interiors, the moon, comets. The solar wind and interplanetary medium. Formation of the solar system. Prerequisites: PHYS 224, which may be taken concurrently.

ASTR 322 The Contents of Our Galaxy (3) NW Introduction to astronomy. Basic properties of stars, stellar systems, interstellar dust and gas, and the structure of our galaxy. Prerequisites: PHYS 224, 225, which may be taken concurrently.

ASTR 323 Extragalactic Astronomy and Cosmology (3) NW Galaxies, optical and radio morphology and properties. Clusters of galaxies, radio sources, and quasars. Observational cosmology. Prerequisites: 322 and PHYS 224, 225, 227, which may be taken concurrently.

ASTR 421 Stellar Observations and Theory (3) NW Observations and theory of the atmospheres, chemical composition, internal structure, energy sources, and evolutionary history of stars. Prerequisites: 322, and PHYS 224, 225, 227, 228.

ASTR 422 Interstellar Material (3) NW Description and physics of the matter between the stars. Physical conditions, distribution, evolution, and motions of interstellar atoms, molecules, and dust grains. Exchange of energy and matter between stars and interstellar material. Prerequisites: 322, and PHYS 224, 225, 227, 228.

ASTR 423 High-Energy Astrophysics (3) NW High-energy phenomena in the universe. Includes supernova, pulsars, neutron stars, x-ray and gamma-ray sources, black holes, cosmic rays, quasi stellar objects, active galactic nuclei, diffuse background radiations. Radiative emission, absorption processes, and models derived from observational data. Prerequisites: PHYS 224, 225, 227, 228, or equivalent, or permission of instructor.

ASTR 480 Introduction to Astronomical Data Analysis (3) NW Hands-on experience with electronic imaging devices (CCDs) and software for image reduction and analysis. Introduction to operating systems, reduction software, and statistical analysis with applications to CCD photometry.

ASTR 481 Introduction to Astronomical Observation (3) NW Theory and practice of obtaining optical data at a telescope. Preparation, obtaining data with a CCD on a telescope, and subsequent data analysis for completion of a research project. Prerequisite: 480.

ASTR 497 Topics in Current Astronomy (1-3) NW Recent developments in one field of astronomy or astrophysics. Prerequisite varies according to the subject matter.

ASTR 499 Undergraduate Research (* max. 15) Special astronomical problems and observational projects, by arrangement with instructor. Prerequisite: permission of instructor.

Courses for Graduates Only

ASTR 500 Seminar in Elementary Astronomy Instruction (1, max. 5) Seminar in the preparation of lecture and workshop materials with emphasis on demonstration, visual aids, and the evaluation of students' progress. Credit/no credit only.

ASTR 507 Physical Foundations of Astrophysics I (3) Thermodynamics from an astronomer's point of view: black body radiation, basic radiative transfer, equation of state, degenerate gases, crystallization at high density.

ASTR 508 Physical Foundations of Astrophysics II (3) Introduction to astronomical hydrodynamics and magnetohydrodynamics, basic theorems and application to stellar and interstellar magnetic fields. Introduction to plasma physics, waves in a plasma.

ASTR 509 Physical Foundations of Astrophysics III (3) Potential theory as applied to astrophysical systems. Orbits. Integrals of motion. Equilibrium and stability of stellar systems. Encounters of Stellar Systems. Kinetic theory of collisional systems. Applications of stellar dynamics to star clusters, galaxies, and large-scale structure.

ASTR 511 Galactic Structure (3) Kinematics, dynamics, and contents of the galaxy. Spiral structure. Structure of other galaxies. Evolution of galaxies.

ASTR 512 Extragalactic Astronomy (3) Types of galaxies. Integrated properties, content, and dynamics. Extragalactic distance scale, groups and clusters. Radio sources. Observational cosmology.

ASTR 513 Cosmology (3) Homogeneous isotropic models. Microwave and x-ray background radiation. Nucleosynthesis, baryosynthesis, inflation, and galaxy formation. Dark matter.

ASTR 521, 522 Stellar Atmospheres (3, 3) Theory of continuous radiation and spectral line formation. Applications to the sun and stars. Prerequisite: PHYS 421 or equivalent.

ASTR 523 Solar Physics (3) Sun as a star, solar photosphere and outer convection zone, granulation and related phenomena, solar chromosphere, and corona, solar activity (especially sunspots and solar flares), sun's radio emission, solar-terrestrial relations.

ASTR 531 Stellar Interiors (4) Physical laws governing the temperature, pressure, and mass distribution in stars. Equation of state, opacity, nuclear energy generation, computational methods. Models of main sequence stars. Prerequisite: PHYS 421 or equivalent.

ASTR 532 Stellar Evolution (3) Theoretical and observational approaches to stellar evolution. Structure of red giants, supernovae and white dwarfs. Observations of star clusters and the chemical composition of stars as the relate to the theory of stellar structure. Prerequisite: 531.

ASTR 541 Interstellar Matter (3) Physical conditions and motions of neutral and ionized gas in interstellar space. Interstellar dust, magnetic fields, formation of grains, clouds, and stars. Prerequisite: modern physics or permission of instructor.

ASTR 555 Planetary Atmospheres (3) Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter,

and other solar system objects in the context of comparative planetology. Offered: jointly with ATM /S/ GPHYS 555.

ASTR 556 Planetary Surfaces (3) Comparison of surface processes and conditions on Mercury, Venus, Earth, moon, Mars, asteroids, and satellites of the great planets. Emphasis on understanding how and why planetary surfaces differ from one another and the implied course of solar-system evolution. Analysis of data from Earth-based telescopes and manned and unmanned space missions. Offered: jointly with GEOL/ GPHYS 556.

ASTR 557 Origin of the Solar System (3) Nebular and nonnebular theories of the solar system origin; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; physical and chemical evidence upon which the ideas concerning the origin of the solar system are based. Offered: jointly with GEOL/GPHYS 557.

ASTR 561 High Energy Astrophysics (3) Observed properties of supernovae, x-ray stars, radio sources, quasars. Theories explaining such objects. Origin of cosmic rays.

ASTR 575 Seminar in Astronomy (1-2, max. 20) Discussion of recent research in astronomy and astrophysics. Credit/no credit only. Prerequisite: permission of department.

ASTR 576 Astronomy Colloquium (1, max. 20) Current research topics in astronomy and astrophysics. Credit/no credit only. Prerequisite: permission of department.

ASTR 581 Techniques in Optical Astronomy (5) Theory and practice of obtaining optical data. Astronomical photoelectric photometers, spectrographs, interferometers, CCDs, and infrared equipment. Data-reduction techniques with emphasis on statistical analysis using digital computers. Observations with MRO thirty-inch telescope.

ASTR 597 Topics in Observational Astrophysics (1-5, max. 20) Credit/no credit only.

ASTR 598 Topics in Theoretical Astrophysics (1-5, max. 20) Credit/no credit only.

ASTR 599 Advanced Astronomy Seminar (1-3, max. 6) Practical exercises in astrophysics. Emphasis on methods and techniques of simulation, acquisition, evaluation, and analysis of observational data and its interpretation using models of astrophysical systems. Prerequisite: permission of instructor.

ASTR 600 Independent Study or Research (*)

ASTR 700 Master's Thesis (1, max. 9)

ASTR 800 Doctoral Dissertation (*)

Atmospheric Sciences

408 Atmospheric Sciences-Geophysics

At the undergraduate level, the department provides a curriculum that covers both theoretical and applied aspects of the field. Courses offered include dynamical meteorology, cloud physics, radiative transfer, turbulence, atmospheric chemistry, and weather analysis and prediction. The Bachelor of Science degree qualifies students for professional employment in weather forecasting, air-quality control and monitoring, and other areas of atmospheric sciences and related fields. The baccalaureate degree also is appropriate preparation for graduate study in atmospheric sciences. Students majoring in physical science, mathematics,

or engineering who plan to pursue graduate study in atmospheric sciences may take a subset of the undergraduate courses (listed below) to aid in their preparation. Special arrangements are made for students opting for an honors curriculum. A degree in mathematical sciences with an atmospheric sciences option is offered by the Department of Mathematics.

Undergraduate Program

Adviser
408B Atmospheric Sciences-Geophysics

Bachelor of Science

Admission Requirements: MATH 124, 125, 126; PHYS 121/131, 122/132, 123/133; with a grade of at least 2.5 in each of these courses. Special circumstances will be reviewed on a case-by-case basis.

Major Requirements: 301, 302, 321, 340, 350, 370, 431, 441, 442, 451, 452 and either 358 or 458; CSE/ENGR 142; MATH 124, 125, 126; AMATH 351, 353; MATH 324; PHYS 121/131, 122/132, 123/133; CHEM 140. MATH 307, 308, 309 may be taken in place of AMATH 351, 353. The following courses are recommended: AMATH 352; PHYS 224, 225; CHEM 150, 160. A grade of 2.0 or better in each of the required courses in atmospheric sciences, mathematics, physics, engineering, and chemistry; and an overall GPA in these courses of 2.50.

Pregraduate Program for Physical Science, Mathematics, and Engineering Majors

The following elective course sequence is suitable preparation for students interested in pursuing graduate study in atmospheric sciences: ATM S 301, 340, 441.

Minor

Minor Requirements: ATM S 301, 302 and other approved courses to total not less than 25 credits. Suggested tracks include: (1) Atmospheric Chemistry—ATM S 340, 431, 458 and 480; (2) Synoptic/Dynamic Meteorology—ATM S 370, 441, 442, 452; (3) Physical Meteorology—ATM S 340, 370, 431, 441. Minors may include a maximum of 6 credits of independent study. 2.0 minimum grade required in each course.

Graduate Program

Graduate Program Coordinator
408B Atmospheric Sciences-Geophysics

Master of Science, Doctor of Philosophy

Admission to the graduate program requires a baccalaureate degree in physical science, engineering, or mathematics, or its equivalent, as well as the Graduate Record Examination. The program of graduate study varies with each individual.

During the first year of graduate study, most students concentrate on developing a strong background in the fundamentals that underlie the atmospheric sciences and on getting a broad understanding of the wide range of problems encountered in the atmosphere. A qualifying examination is given toward the end of the first year of graduate study as soon as possible after the student has completed 24 credits, including 12 credits in courses numbered 500 and above. All students desiring to proceed toward the Ph.D. degree must take this examination, and students desiring the Master of Science degree may elect to take it. This examination tests understanding of the fundamental aspects of the atmospheric sciences and of the relevant mathematics and physics. Physical reasoning, rather than factual information, is stressed. Those who pass the examination with distinction are encouraged

to work toward the Ph.D. degree; those who pass continue toward the Master of Science degree. Students whose objective is the Master of Science degree may elect to submit a written thesis proposal in lieu of the qualifying examination.

Research assistantships and a few teaching assistantships are available to full-time students. Applications are made through the department office.

Faculty

Chair

Norbert Untersteiner

Professors

Badgley, Franklin * 1953, (Emeritus); MS, 1948, PhD, 1951, New York University; atmospheric turbulence and diffusion.

Baker, Marcia * 1980; MS, 1960, Stanford University; PhD, 1971, University of Washington; cloud physics, atmospheric geophysics.

Brown, Robert A. * 1970, (Research); PhD, 1969, University of Washington; planetary boundary layers, air-sea interaction, turbulence, remote sensing.

Businger, Joost A. * 1958, (Emeritus); PhD, 1954, University of Utrecht (Netherlands); boundary layer meteorology, atmosphere-ocean interaction.

Charlson, Robert J. * 1965; PhD, 1964, University of Washington; atmospheric chemistry, aerosol physics, aerosol/cloud/climate interaction, instrumentation.

Durrant, Dale R. * 1987; PhD, 1981, Massachusetts Institute of Technology; atmospheric dynamics, mesoscale meteorology, numerical modeling.

Fleagle, Robert G. * 1948, (Emeritus); PhD, 1949, New York University; air-sea interaction, science policy.

Grenfell, Thomas C. * 1980, (Research); PhD, 1972, University of Washington; radiative transfer, remote sensing, sea-ice optics, microwave theory.

Harrison, Don Edmunds * 1985, (Affiliate); PhD, 1977, Harvard University; ocean circulation modeling, air-sea interaction, ocean and climate dynamics.

Hartmann, Dennis L. * 1977; PhD, 1975, Princeton University; climate theory, dynamic meteorology, radiation and remote sensing.

Hegg, Dean A. * 1980, (Research); PhD, 1979, University of Washington; atmospheric chemistry, cloud physics.

Hobbs, Peter V. * 1963; PhD, 1963, University of London; Imperial College; aerosol/cloud/precipitation physics, atmospheric chemistry, air pollution, mesoscale meteorology.

Holton, James Reed * 1965; PhD, 1964, Massachusetts Institute of Technology; dynamic meteorology, middle atmosphere meteorology.

Houze, Robert A. * 1972; PhD, 1972, Massachusetts Institute of Technology; mesoscale meteorology, cloud physics and dynamics, tropical meteorology.

Katsaros, Kristina * 1969; PhD, 1969, University of Washington; air-sea interaction, radiative surface fluxes, remote sensing.

LaChapelle, Edward * 1955, (Emeritus); ScD, 1967, University of Puget Sound; snow-cover geophysics.

Leovy, Conway B. * 1967; PhD, 1964, Massachusetts Institute of Technology; planetary atmospheres, middle atmosphere meteorology, remote sensing.

Mass, Clifford F. * 1981; PhD, 1978, University of Washington; synoptic and mesoscale meteorology.

Maykut, Gary * 1969, (Research); PhD, 1969, University of Washington; polar air-sea-ice interaction, radiative transfer in ice and snow.

Overland, James E. * 1983, (Affiliate); PhD, 1973, New York University; arctic, coastal and marine meteorology, sea ice.

Parks, George K. * 1971, (Adjunct); PhD, 1966, University of California (Berkeley); particles and waves in auroral, magnetospheric, and interplanetary space plasma phenomena.

Plant, William J. 1992, (Affiliate); PhD, 1972, Purdue University; remote sensing, atmosphere-ocean interaction.

Radke, Lawrence F. * 1968, (Affiliate); PhD, 1968, University of Washington; cloud and aerosol physics, remote sensing, airborne instrumentation and application.

Reed, Richard J. * 1954, (Emeritus); DSc, 1949, Massachusetts Institute of Technology; weather analysis and prediction, numerical modeling.

Rhines, Peter B. * 1984; PhD, 1967, Cambridge University (UK); the circulation of the oceans and evolution of climate.

Sarachik, Edward * 1984; PhD, 1966, Brandeis University; large scale ocean/atmosphere interaction, equatorial dynamics, climate change.

Tillman, James E. 1972, (Research); MS, 1961, Massachusetts Institute of Technology; Mars meteorology, humidity and temperature instrumentation, planetary boundary layer.

Tung, Ka Kit * 1988, (Adjunct); PhD, 1977, Harvard University; atmospheric and geophysical fluid dynamics.

Untersteiner, Norbert * 1962; PhD, 1950, University of Innsbruck (Austria); air-sea-ice interaction, polar climatology, sea ice physics.

Wallace, John M. * 1966; PhD, 1966, Massachusetts Institute of Technology; atmospheric dynamics, large-scale motions.

Warren, Stephen G. * 1981; PhD, 1973, Harvard University; atmospheric radiation, climatology, glaciology.

Zoller, William H. * 1984, (Adjunct); PhD, 1969, Massachusetts Institute of Technology; analytical, environmental, and nuclear chemistry.

Associate Professors

Bates, Timothy S. * 1990, (Affiliate); PhD, 1988, University of Washington; oceanic and atmospheric chemistry, atmosphere-ocean interaction, aerosols and climate.

Battisti, David S. * 1990; PhD, 1988, University of Washington; large-scale atmosphere-ocean dynamics, climate dynamics, tropical circulation.

Breidenthal, Robert E. * 1980, (Adjunct); PhD, 1979, California Institute of Technology; turbulence, mixing, combustion, vorticity.

Bretherton, Christopher S. * 1984; PhD, 1984, Massachusetts Institute of Technology; convective cloud systems, mesoscale meteorology, climate theory.

Covert, David S. * 1975, (Research); PhD, 1974, University of Washington; atmospheric chemistry, aerosol physics and instrumentation.

Ferek, Ronald * 1985, (Research); PhD, 1982, Florida State University; atmospheric chemistry, global tropospheric chemistry, acid precipitation.

Ghan, Steven J. 1993, (Affiliate); MS, 1981, PhD, 1988, Massachusetts Institute of Technology; clouds/aerosol/tropospheric chemistry, climate modeling.

Harrison, Halstead * 1971; PhD, 1960, Stanford University; atmospheric chemistry, dispersion modeling, radiative transfer.

Locatelli, John D. 1976, (Research); BS, 1967, University of Washington, cloud and precipitation physics, synoptic and mesoscale meteorology.

Smull, Bradley F. 1996, (Research); PhD, 1986, University of Washington, mesoscale and radar meteorology, tropical meteorology, atmosphere-ocean interaction.

Assistant Professors

Alexander, M. Joan 1992, (Research); PhD, 1992, University of Colorado (Denver); middle atmosphere gravity waves, upper atmosphere of Earth, Venus, Mars.

Yin, Fenglin 1990, (Research); PhD, 1990, Columbia University, large-scale ocean circulation, climate variability, geophysical fluid dynamics.

Zhang, Chidong 1991, (Research); PhD, 1989, Pennsylvania State University, climate dynamics, large-scale atmosphere-ocean interaction, tropical convection.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

ATM S 101 Weather (5) NW The earth's atmosphere, with emphasis on weather observations and forecasting. Daily weather map discussions. Highs, lows, fronts, clouds, storms, jet streams, air pollution, and other features of the atmosphere. Physical processes involved in weather phenomena. Intended for nonmajors. Offered: AWPSP.

ATM S 211 Climate and Climate Change (5) NW The nature of the global climate system. Factors influencing climate including interactions among the atmosphere, oceans, solid earth, and biosphere. Stability and sensitivity of climate system. Global warming, ozone depletion, and other human influences. Intended for non-majors. Offered: AWPSP.

ATM S 301 Introduction to Atmospheric Sciences (5) NW Composition and structure of the atmosphere. Clouds and weather phenomena. Thermodynamic processes. Solar and terrestrial radiation. Air motions. Daily weather discussions and forecasts. For majors and nonmajors. Prerequisites: PHYS 121, 122, 123 and MATH 124, 125, 126. Offered: A.

ATM S 302 Computer Applications for Atmospheric Sciences (2) NW Basic computer programming for the analysis of meteorological data. Introduction to UNIX, editors, and FORTRAN. Brief introduction to DOS/Windows systems. Prerequisite: concurrent registration in 301. Offered: A.

ATM S 321 Physical Climatology (3) NW Evolution and present state of earth's climate. Emphasis on physical processes determining the climate of the earth's atmosphere and surface: radiative transfer, energy balance, hydrologic cycle, atmospheric and oceanic energy transport. Factors controlling climate change. Prerequisite: 301. Offered: Sp.

ATM S 340 Introduction to Thermodynamics and Cloud Processes (5) NW Thermodynamics and hydrostatics. Cloud and precipitation processes with emphasis on the microphysics. Prerequisite: MATH 126 or permission of instructor. Offered: W.

ATM S 350 Atmospheric Data Analysis (3) NW Statistical and other methods employed in atmospheric data analysis. Frequency distributions, sampling theory, elementary time-series, and spectral analysis. Prerequisites: 301. Offered: W.

ATM S 358 Fundamentals of Atmospheric Chemistry (3) NW Review of basic principles of physical chemistry; evolution and chemical composition of

earth's atmosphere; half-life, residence and renewal time; sources, transformation, transport and sinks of gases in the troposphere; atmospheric aerosols; chemical cycles; air pollution; stratospheric chemistry. Prerequisite: CHEM 140. Offered: Sp.

ATM S 370 Atmospheric Structure and Analysis (5) NW Structure and evolution of extratropical cyclones, fronts and convective systems. Surface and upper air analysis techniques. Radar and satellite data. Real-world applications of basic dynamical principles. Introduction to operational products and forecasting. Prerequisite: 301. Offered: W.

ATM S 390 Honors Tutorial in Atmospheric Sciences (* max. 6) Review and discussion of selected problems in atmospheric sciences. Introduction to research methods. Presentation of a research paper. Recommended: MATH 126 and PHYS 123. Offered: AWPSP.

ATM S 406 Geophysics: The Atmosphere (3) NW Phenomena of the lower atmosphere: simple applications of the principles of classical thermodynamics, fluid dynamics, and radiative transfer to the atmospheric hydrological cycle, global energy balance, and atmospheric dynamics and climate. Prerequisite: GPHYS 404 or permission of instructor. Offered: jointly with GPHYS 406; Sp.

ATM S 431 Atmospheric Physics (5) NW Energy transfer processes: solar and atmospheric radiation, turbulence, and boundary layer structure. Applications. Prerequisite: 340 or PHYS 224. Offered: A.

ATM S 441 Atmospheric Motions I (3) NW Basic equations governing atmospheric motions and their elementary applications; circulation and vorticity; dynamics of midlatitude disturbances. Prerequisites: AMATH 353. Offered: A.

ATM S 442 Atmospheric Motions II (5) NW Wave dynamics, numerical prediction, development of midlatitude synoptic systems, and general circulation. Includes laboratory exercises. Prerequisite: 441. Offered: W.

ATM S 451 Instruments and Observations (5) NW Principles of operating instruments for measuring basic atmospheric parameters such as pressure, temperature, humidity, wind, radiation, aerosol concentration, and trace gas concentrations. Concepts of sensitivity, accuracy, representativeness, and time response. Manipulation of output data including digitizing and signal processing. Prerequisites: 302 and 350. Offered: W.

ATM S 452 Weather Forecasting and Advanced Synoptic Meteorology (5) NW Basic forecasting techniques. Application of numerical modeling and statistical approaches. Structure, evolution, and forecasting of convective systems. Radar applications. Diurnal and topographically-forced circulations. Aviation meteorology. Laboratories include extensive practice in forecasting and surface map analysis. Prerequisites: 350, 370, and 442. Offered: Sp.

ATM S 458 Global Atmospheric Chemistry (4) NW Global atmosphere as chemical system. Physical factors and chemical processes. Natural variabilities and anthropogenic change. Cycling of trace substances. Global issues such as climate change, acidic deposition, influences on biosphere. Prerequisites: CHEM 140 and either ATM S 358 or CHEM 352 or 456, or permission of instructor. Offered: jointly with CHEM 458; A.

ATM S 462 Sea-Air Transfer Processes (* max. 6) NW Classroom work and field observations relating to the physical processes occurring at the ocean-atmosphere boundary. Transfer of energy, momentum, and moisture and their effects on small- and large-scale phenomena, including fog formation, convection, modification of air masses. Prerequisite: 442 or permission of instructor. Offered: alternate years; S.

ATM S 480 Air-Quality Modeling (3) NW Evaluation of air-quality models relating air pollution emis-

sions to environmental concentrations. Topics include meteorological dispersion models and various "receptor" models based on chemical "fingerprinting" of sources. Emphasizes current problems. Prerequisite: 458 or CHEM 458 or CIVE 490 or permission of instructor. Offered: jointly with CIVE 480; W.

ATM S 492 Readings in Meteorology or Climatology (*) Credit/no credit only. Prerequisite: permission of instructor. Offered: AWPSP.

Courses for Graduates Only

ATM S 501 Fundamentals of Physical Meteorology (5) Fundamentals of hydrostatics, thermodynamics, radiative transfer with application to planetary atmospheres, cloud physics, and atmospheric chemistry. Offered: A.

ATM S 502 Introduction to Synoptic Meteorology (3) Overview of weather systems; atmospheric observations and data assimilation. Elementary manual and computer-aided synoptic analysis techniques. Interpretation of satellite and ground-based observations. Kinematics. Fronts and frontogenesis; life cycles of extratropical cyclones; related mesoscale phenomena. Numerical weather prediction; interpretation of forecast products. Offered: Sp.

ATM S 505 Introduction to Fluid Dynamics (4) Eulerian equations for mass, motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress, strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high, low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisites: AMATH 403 or permission of instructor. Offered: jointly with AMATH 505; A.

ATM S 508 Geochemical Cycles (4) Descriptive, quantitative aspects of earth as biogeochemical system. Study of equilibria, transport processes, chemical kinetics, biological processes; their application to carbon, sulfur, nitrogen, phosphorus, other elemental cycles. Stability of biogeochemical systems; nature of human perturbations of their dynamics. Prerequisites: CHEM 150, 350, MATH 307, 308. Offered: jointly with GPHYS 508; Sp.

ATM S 509 Geophysical Fluid Dynamics I (3) Large-scale dynamics of rotating stratified fluids, introductory fluid mechanics. Observed properties of oceanic, atmospheric flow, thermal-wind balance, velocity spirals. Potential vorticity, instability of large-scale flows, Ekman layers. Gravity, inertia, Rossby waves; ray theory, equatorial waveguide. Action, energy principles. Offered: jointly with OCEAN 512; W.

ATM S 510 Physics of Ice (3) Structure of the water molecule. Crystallographic structures of ice. Electrical, optical, thermal, and mechanical properties of ice. Growth of ice from the vapor and liquid phases. Physical properties of snow. Prerequisite: permission of instructor. Offered: jointly with GPHYS 510; alternate years; W.

ATM S 511 Formation of Snow and Ice Masses (3) Snow and ice climatology. Formation of the ice crystals in clouds. Snow metamorphism. Transfer of radiative, sensible, and latent heat at snow and ice surfaces. Remote sensing of snow and ice. Growth and melt of sea ice. Climatic records from ice. Prerequisite: permission of instructor. Offered: jointly with GPHYS 511; alternate years; A.

ATM S 512 Dynamics of Snow and Ice Masses (3) Rheology of snow and ice. Sliding and processes at glacier beds. Thermal regime and motion of seasonal snow, glaciers, and ice sheets. Avalanches and glacier surges. Deformation and drift of sea ice. Response of natural ice masses to change in climate. Prerequisite: permission of instructor. Offered: jointly with GPHYS 512; alternate years; Sp.

ATM S 513 Structural Glaciology (3) Physical and chemical processes of snow stratigraphy and meta-

morphism. Interpretation of ice sheet stratigraphy in terms of paleoenvironment. Dynamic metamorphism from ice flow. Structures formed at freezing interfaces. Structure of river, lake, and sea ice. Relationship between structures and bulk physical properties. Prerequisite: permission of instructor. Offered: jointly with GPHYS 513; alternate years; W.

ATM S 514 Ice and Climate Modeling (3) Principles of global climate modeling. Modeling seasonal cycles of snow cover and sea ice. Ice-sheet mass balance and flow. Solar radiation anomalies due to changes in earth's orbit. Climate/ice-sheet models of Pleistocene ice ages. Prerequisite: permission of instructor. Offered: jointly with GPHYS 514; alternate years; A.

ATM S 520 Atmospheric Sciences Colloquium (1, max. 15) Seminars on current research in advanced topics related to atmospheric sciences, conducted by faculty and visiting professors/scientists. Includes presentation of doctoral dissertations by department graduate students. For Atmospheric Sciences graduate students only. Credit/no credit only. Prerequisite: permission of department. Offered: AWSp.

ATM S 521 Seminar in Atmospheric Dynamics (*) Directed at current research in the subject. For advanced students. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

ATM S 523 Seminar in Clouds and Precipitation (*) Directed at current research in the subject. For advanced students. Credit/no credit only. Prerequisite: permission of instructor. Offered: ASp.

ATM S 524 Seminar in Energy Transfer and Remote Sensing (*) Directed at current research in the subject. For advanced students. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

ATM S 525 Seminar Topics in Atmospheric Chemistry (1-3, max. 6) Seminar for atmospheric scientists, chemists, and engineers in problems associated with the chemical composition of the atmosphere. Topics range from the natural system to urban pollution and global atmospheric change. Faculty lectures and student participation. Prerequisite: 301 or permission of instructor. Offered: jointly with CEWA 525; W.

ATM S 532 Atmospheric Radiation: Shortwave (3) Principles of radiative transfer in planetary atmospheres with emphasis on single and multiple scattering of visible and infrared radiation. Applications to atmosphere and surface energy balance and remote sensing. Prerequisite: PHYS 323 or permission of instructor. Offered: jointly with GPHYS 532; alternate years; W.

ATM S 533 Atmospheric Radiation: Longwave (3) Principles of radiative energy exchange in planetary atmospheres with emphasis on emission and absorption of infrared and microwave radiation. Applications to atmospheric and surface energy balance and remote sensing. Prerequisite: PHYS 225 or permission of instructor. Offered: jointly with GPHYS 533; Sp.

ATM S 534 Remote Sensing of the Atmosphere and Climate System (3) Satellite systems for sensing the atmosphere and climate system. Recovery of atmospheric and surface information from satellite radiance measurements. Applications to research. Prerequisites: 532 or 533. Offered: jointly with GPHYS 534; alternate years; W.

ATM S 535 Cloud Microphysics and Dynamics (3) Basic concepts of cloud microphysics, water continuity in clouds, cloud dynamics, and cloud models. Prerequisite: 501 or permission of instructor. Offered: jointly with GPHYS 535; W.

ATM S 536 Mesoscale Storm Structure and Dynamics (3) Techniques of observing storm structure and dynamics by radar and aircraft, observed structures of precipitating cloud systems, comparison of observed structures with cloud models. Prerequisite: 535 or GPHYS 535. Offered: Sp.

ATM S 542 Synoptic and Mesoscale Dynamics (3) Quasi-geostrophic theory, baroclinic instability, symmetric instability, tropical disturbances, frontogenesis, orographic disturbances, convective storms. Prerequisite: 509 or OCEAN 512 and AMATH 402 or equivalents. Offered: Sp.

ATM S 545 General Circulation of Atmosphere (3) Requirements of the global angular momentum, heat, mass, and energy budgets upon atmospheric motions as deduced from observations. Study of the physical processes through which these budgets are satisfied. Prerequisite: 509 or OCEAN 512, or permission of instructor. Offered: A.

ATM S 547 Atmospheric Turbulence (3) Turbulent flux of heat, momentum, and moisture in the layer of the atmosphere next to the earth; Richardson's stability criterion; free convection. Prerequisites: 505 or AMATH 505 or OCEAN 511 or permission of instructor. Offered: alternate years; Sp.

ATM S 551 Atmospheric Structure and Analysis I: Synoptic Scale Systems (4) Extratropical cyclones and cyclogenesis. Jet streams. Upper waves in the westerlies. Diagnosis of vertical motions. Fronts and frontogenesis. Prerequisite: 502, 509 or OCEAN 512. Offered: alternate years; A.

ATM S 552 Objective Analysis (3) Review of objective analysis techniques commonly applied to atmospheric problems; examples from the meteorological literature and class projects. Superposed epoch analysis, cross-spectrum analysis, filtering, eigenvector analysis, optimum interpolation techniques. Prerequisite: FORTRAN programming. Offered: alternate years; W.

ATM S 553 Atmospheric Structure and Analysis II: Non-Convective Mesoscale Circulation (3) Thermally forced circulation systems, including sea/land breezes and mountain/valley winds. Topographic deflection, channeling and blocking in mesoscale flows. Analysis and forecasting of local mesoscale phenomena. Offered: alternate years; W.

ATM S 555 Planetary Atmospheres (3) Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar system objects in the context of comparative planetology. Offered: jointly with ASTR/GPHYS 555; alternate years.

ATM S 556 Planetary-Scale Dynamics (3) Zonally symmetric circulations, planetary waves, equatorial waves, dynamics of the middle atmosphere, trace constituent transport, nonlinear aspects of atmospheric flows. Prerequisites: 542 or permission of instructor. Offered: alternate years; Sp.

ATM S 558 Atmospheric Chemistry (3) Photochemistry of urban, rural, and marine tropospheric air, and of the natural and perturbed ozone in the middle atmosphere. Unity of the chemistries in these apparently different regimes. Prerequisite: 458 or 501 or CHEM 457 or permission of instructor. Offered: alternate years; Sp.

ATM S 564 Atmospheric Aerosol and Multiphase Atmospheric Chemistry (3) Physics and chemistry of particles and droplets in the atmosphere. Statistics of size distributions, mechanics, optics, and physical chemistry of atmospheric aerosols. Brownian motion, sedimentation, impaction, condensation, and hydroscopic growth. Prerequisite: permission of instructor. Offered: alternate years; W.

ATM S 571 Advanced Physical Climatology (3) Physical processes that determine the climate of Earth and its past and future changes. Greenhouse effect. Climate modeling. Radiative and dynamical feedback processes. Orbital parameter theory. Critical analysis of climate change predictions. Prerequisite: permission of instructor. Offered: A.

ATM S 575 Large Scale Dynamics of the Tropical Atmosphere (3) Observations and underlying dynamics of large-scale tropical circulations. Factors that determine regions of large-scale persistent precipitation in the tropics, thermal forcing of atmospheric circulations by these regions, and temporal variability of the forcing and response. Credit/no credit only. Prerequisites: 509 or OCEAN 512, 542. Offered: alternate years; W.

ATM S 581 Numerical Modeling of Atmospheric Flows I (3) Numerical methods for initial value problems of atmospheric science and fluid dynamics. Finite difference methods, spectral and pseudo-spectral methods, finite element methods. Stability, accuracy, numerical dispersion and numerical dissipation. Computer models constructed to illustrate behavior of each method. Prerequisite: familiarity with partial differential equations and FORTRAN.

ATM S 582 Numerical Modeling of Atmospheric Flows II (3) Topics of current interest including: efficient time differencing, semi-implicit and multiple time-step techniques. Semi-lagrangian schemes. Treatment of poorly resolved gradients. Flux-corrected transport. Positive definite advection schemes. Aliasing error and nonlinear instability. Wave permeable boundary conditions. Credit/no credit only. Prerequisite: 581. Offered: alternate years; Sp.

ATM S 591 Special Topics (1-4, max. 9) Lecture series on topics of major importance in the atmospheric sciences. Prerequisite: permission of instructor. Offered: AWSp.

ATM S 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSp.

ATM S 700 Master's Thesis (*) Offered: AWSp.

ATM S 800 Doctoral Dissertation (*) Offered: AWSp.

Biochemistry

109 Bagley

Biochemistry is the study of the living organism at the molecular level. It draws on the techniques of analytical, organic, inorganic, and physical chemistry in determining the molecular basis of vital processes. Since the study of any chemistry-based field requires an understanding of mathematics and physics, the Bachelor of Science degree in biochemistry requires introductory courses in mathematics, physics, chemistry, and biology as well as intermediate-level courses in chemistry. These courses prepare the student for junior and senior studies in biochemistry, molecular genetics, and molecular biology. Since the subject requires a very broad scientific foundation, the program requires 200 credits. At the advanced level the student has a choice of a wide range of courses in a variety of science departments.

Undergraduate Program

Adviser
Lari Stone
109C Bagley
email: stone@chem.washington.edu
(206) 543-9343 or 1-800-869-2436

Bachelor of Science

Admission Requirements: Recommended high school preparation includes four years of college preparatory mathematics, one year of physics, one year of chemistry, and one year of biology.

Major Requirements: MATH 124, 125, 126 (or 134, 135, 136); PHYS 114, 115, 116 (121/131, 122/132, 123/133 recommended); CHEM 145, 155, 165 (or 140, 141, 150, 151, 160, 161); CHEM 335, 336, 337, 346, 347 (or

237, 238, 239, 241, 242); CHEM 455, 456, 457 (or 452, 455); BIOL 201, 202; BIOC 440, 441, 442, 426 (minimum GPA of 2.20 in 440, 441, 442); GENET 371 or 372; 11 credits from among the following: MATH 307 and either 205 or 308 (not if 134, 135, 136 taken); AMATH 351, 353 (credit not granted for both courses in the following combinations: MATH 205/308; MATH 307/AMATH 351; MATH 205/AMATH 353; MATH 308/AMATH 353); BIOL 203, 401, 402; MICROM 402, 410; CHEM 312, 317, 321, 410, 414, 416, 419, 426, 427, 429, 433, 435, 436, 437, 460, 461, 462, 463, 464, 465, 471; GENET 455; ZOOL 455, 456; up to 9 credits of advanced-level undergraduate research. For all chemistry, biochemistry, and biology courses required by the major program, a minimum grade of 1.7 and a GPA of 2.80. For graduation 200 credits are required with a cumulative GPA of 2.80 or better.

For faculty listing see *Chemistry in the College of Arts and Sciences* and *Biochemistry in the School of Medicine*. For course descriptions, see the appropriate department.

Biology

318 Hitchcock

Undergraduate Program

Advisers
Joyce Fagel,
Peg Powell,
Clay Swennen
318 Hitchcock

The undergraduate program in biology offers two alternative interdisciplinary tracks leading to a baccalaureate degree. The emphasis of Track 1 is on cell and molecular biology while the emphasis of Track 2 is on ecology, evolution, and conservation biology. Track 1 is particularly well-suited for students who wish to pursue graduate studies or immediate entry-level employment in genetics, biochemistry, microbiology, cell biology, or developmental biology, as well as for candidates for professional schools such as medicine. Track 2 is designed for students who wish to pursue graduate studies or immediate employment in ecology, evolution, conservation biology, or mathematical biology, as well as for students preparing themselves for related areas of law or public policy.

A number of other academic units offer degrees in biological fields or with strong biological orientations. These include, but are not limited to, the Departments of Biochemistry, Botany, Microbiology, Psychology, and Zoology; and the Colleges of Forest Resources and of Ocean and Fishery Sciences.

Bachelor of Science

Major Requirements: For both tracks the following basic course work is required: one year of mathematics (calculus and/or statistics); four to six quarters of chemistry covering general and organic chemistry; two quarters of physics; and one year of introductory biology. Track 1 requires one quarter of physical chemistry.

The two tracks diverge substantially in their requirements for advanced course work. Track 1 requires GENET 371 or 372; and either option 1, BIOC 440, 441, 442 or option 2, BIOC 405, 406 and either BIOL 401 or BIOC 442. Track 2 requires BIOL 454, 472, and 476. Additional upper-division work in both tracks is selected from course lists designed to ensure both breadth and depth of coverage.

Because of the differing specific requirements and options for each track, it is extremely important for students to work closely with the program advisers.

Faculty

Director

John M. Palka

Professor

Palka, John M. * 1969; PhD, 1965, University of California (Los Angeles); neurophysiology, sensory physiology, developmental neurobiology.

Senior Lecturer

Nicotri, Mary E. 1977; PhD, 1974, University of Washington; marine ecology, evolution and introductory biology teaching.

Lecturers

Mehary, Tekie 1988; MSc, 1976, Washington State University; PhD, 1981, University of Washington; applied entomology and environmental health.

O'Connor, Eileen 1975; MS, 1976, University of Washington; ecology and evolution.

Paul, Anne S. 1980; BS, 1980, MA, 1993, University of Washington; molecular biology.

Rudkin, Alison H. 1974; MS, 1973, University of Washington; physiology and development.

Russell, Millie L. 1974; MS, 1979, EdD, 1988, University of Washington; health science careers.

Waland, Susan D. 1990; PhD, 1969, University of California (Berkeley); algology and plant physiology.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

The courses in biology listed below are administered by several departments. Other courses in biology are listed under such headings as *Biochemistry, Biological Structure, Botany, Microbiology, and Zoology*.

BIOL 100 Introductory Biology (5) NW Develops an awareness of science by studying basic biological principles and their application to problems of humans and society. Autumn Quarter concentrates on the organism; Winter on the cell; and Spring on ecology and the environment. For nonscience majors only. Credit allowed for only three of the following: 100, 150, 151, 152. Offered: AWSpS.

BIOL 101-102 General Biology (5-5) NW Living systems viewed from the subcellular to the community level, emphasizing the diversity, functioning, and interaction of whole organisms. Topics covered include: cell structure and function, energy, genetics, animal physiology and development in 101; plant and animal diversity, plant structure and function, general ecology and evolution in 102. Emphasizes the position of humans in the biological world. For nonmajors and majors in biology-related fields who need a thorough two-quarter introduction to biology. Prerequisite: 101 for 102. Offered: A-W.

BIOL 103 Introduction to Biology (5) NW Mehary Basic biological concepts within the context of human biology. For students in the Educational Opportunity Program. Cannot be taken for credit if 100 previously taken. Credit/no credit only. Prerequisite: permission of instructor. Offered: ASp.

BIOL 104 Biology for Elementary School Teachers (5) NW Butner Basic concepts of biology, with emphasis on background needed for confident use of the new science curriculum materials in the elementary school. Prerequisite: permission of instructor. Offered: AW.

BIOL 110 Elementary Biology for Health Professions I (2) NW Russell Elementary biomedical concepts. For Equal Opportunity Program students only. Credit/no credit only. Prerequisite: permission of instructor. Offered: A.

BIOL 111 Elementary Biology for Health Professions II (2) NW Russell Elementary human anatomy and physiology, including selected areas in laboratory medicine. For Equal Opportunity Program students only. Credit/no credit only. Prerequisite: 110. Offered: W.

BIOL 112 Elementary Biology for Health Professions III (1-4) NW Russell Field experience in a health profession. For Equal Opportunity Program students only. Credit/no credit only. Prerequisite: 111. Offered: Sp.

BIOL 113 Biology Tutorial (1-3, max. 6) NW Mehary Independent study. Topics related to material taken in ZOOL 118, BIOL 201 and BIOL 202. For Equal Opportunity Program students only. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp

BIOL 150 Biology: The Organism (5) NW Fundamentals of living systems, with emphasis on organisms. Selected organisms, both animal and plant, examined in detail to explore how structure is related to function and how the whole is integrated into a successful individual. Open only to nonscience majors who want more than one quarter of introductory biology. Offered: A.

BIOL 151 Biology: The Cell (5) NW Fundamentals of living systems, with emphasis on cells. Cellular and molecular biology studied through concern for human health ecology, including AIDS as a virus, DNA, and cellular replication. Open only to nonscience majors who want more than one quarter of introductory biology. Offered: W.

BIOL 152 Biology: Ecology and Evolution of Organisms (5) NW Fundamentals of living systems, with emphasis on the ecology and evolution of organisms. Considers diversity of organisms and the ways they are adapted to live in specific habitats. Studies forces which direct the evolution of organisms. Open only to nonscience majors who want more than one quarter of introductory biology. Offered: Sp.

BIOL 201, 202, 203 Introductory Biology (5, 5, 5) NW Introduction to biology for students intending to take advanced courses and preprofessional programs. Emphasis on features common to all living things: molecular phenomena, cell structure, metabolism, energetics, genetic basis of inheritance in 201; animal structure, function, and development in 202; plant structure and function, general ecology, and evolution in 203. Prerequisites: CHEM 140, 150, and 160; 201 for 202, 202 for 203. Offered: AWSp, AWSpS, ASpS.

BIOL 206 Laboratory in Environmental Problems (5) NW Leopold Processes and structure of ecosystems and conflicting uses made of these environments. Role and application of science. Field trips to natural and human-modified ecosystems; weekend field trips required. Offered: jointly with BOTANY 206; A.

BIOL 213 Scientific Illustration (3) VLPA/NW Practical course designed to acquaint the science student with the techniques of illustrating. Accurate and selective interpretation of shape, texture, and consistency of biological materials, working in black and white and using a variety of illustration techniques. Students may choose objects of special interest to them. Offered: through University Extension; W.

BIOL 214 Scientific Illustration (3) VLPA/NW Continuation of 213. Further training techniques: tone, color, and working from the live animal. Exploration of specifications for ultimate use in projection or print. Offered: through University Extension; Sp.

BIOL 313, 314, 315 Advanced Scientific Illustration (3, 3, 3) VLPANW Sweeney Intensive treatment of techniques. 313: five continuous-tone techniques, lighting, form, and texture rendition; 314: seven black-and-white techniques, reproduction, typesetting, pasteup, and layout; 315: color illustration techniques. Each includes historical perspective on the techniques under study and critique of published material. Prerequisites: 213, 214, and introductory biology. Offered: through University Extension.

BIOL 333 Plant Communities: Resilience and Restoration (5) NW Leopold Ecological impacts by humans on native plant communities. Effects of grazing, timber removal, habitat draining and filling, fire control, application of chemicals. Potential for ecological restoration of plant communities. Three required weekend field trips. Prerequisite: 113 and BIOL 102 or BIOL 203 or equivalent. Offered: jointly with BOTANY/ESC 333; Sp.

BIOL 401 Cell Biology (5) NW Bakken, Hille, Wakimoto, Wright Selected topics in molecular cell biology. Strong emphasis on understanding original experiments that describe the functions of the cell. Prerequisites: 201, 202. Recommended: one upper-division course in related area.

BIOL 402 Cell Biology Laboratory (3) NW Shellenbarger Practice in modern methods (restriction enzyme digestion, blotting, hybridization, immunochemistry, density gradient centrifugation, electrophoresis) and other methods currently used to study plant and animal cells, nucleic acids, and proteins. Includes practice in scientific style writing. Prerequisite: 401 which may be taken concurrently.

BIOL 454 Evolutionary Mechanisms (4) NW Kingsolver, Schemske Evolutionary change as determined by mutation, recombination, selection. Effects of the genetic system, isolating mechanisms, hybridization, polyploidy on speciation. Examples of microevolutionary and macroevolutionary changes from plant and animal kingdoms. For advanced undergraduate and graduate students in biological sciences. Prerequisites: 201, 202, 203 or 101-102 or permission of instructor.

BIOL 460 Biology of Eukaryotic Microorganisms (5) NW Whisler Introduction to comparative biology of the algae, fungi, and protozoa. Emphasis on the life history, physiology, and structure of protists most commonly used in contemporary biological research. Prerequisites: 201, 202, 203 or 101-102 or introductory microbiology. Offered: alternate years; Sp.

BIOL 472 Principles of Ecology (5) NW Kareiva, Odell, Orians, Paine Population biology, interactions between species in biological communities, relationship of community to environment, physiological ecology, principles of natural selection. Prerequisites: 15 credits in biological sciences and upper-division standing or permission of instructor. Offered: W.

BIOL 473 Limnology (3) NW Biological, physical, and chemical features of lakes and other inland waters. Prerequisites: 15 credits in biological sciences, 10 credits in college chemistry, and upper-division standing, or permission of instructor.

BIOL 476 Conservation Biology (5) NW Boersma, Orians Explores biological, managerial, economic, and ethical concepts affecting survival of species. Applications of ecology, biogeography, population genetics, and social sciences for the preservation of species in the face of widespread global habitat modification, destruction, and other human activities. Prerequisite: 472 or ENV S 204 or equivalent.

BIOL 491 Special Topics in Biological Science for Teachers (3-9) NW Study of selected areas of biology. Designed to enhance the skills and background of K-12 teachers. Credit/no credit only. Prerequisite: teaching experience or permission of instructor.

BIOL 492 The Teaching of Biology (2) Basic course in the teaching of biology in the secondary school. Designed to help preservice teachers identify useful laboratory techniques, materials, and content for the teaching of pre-college biology. Special attention to current issues in biology education. Required for biology student in Teacher Certification Program. Prerequisite: admission to Teacher Certification Program or permission of instructor.

BIOL 498 Peer Teaching Assistants in Biology (1-5, max. 10) Direct experience in the classroom, typically teaching a lab section of BIOL 100. Peer Teaching Assistants attend lectures and weekly preparation meetings and gain in-depth background on the subject material as well as training in teaching techniques and approaches. Credit/no credit only. Prerequisites: 201, 202, 203 or 101-102, several upper division courses, and permission of instructor. Offered: AWSp.

BIOL 499 Independent Studies in Biology (1-5, max. 15) Individual laboratory or library explorations of selected topics. Prerequisite: permission of instructor.

Course for Graduates Only

BIOL 501 Advanced Cytology (1-5, max. 5) Detailed study of the structure and function of the cell. Prerequisite: permission of instructor.

BIOL 508 Cell Biology (3, max. 6) Four to five topics of current interest in cell biology selected by the enrollees. Prerequisite: permission of instructor.

BIOL 520 Computers in Biology Instruction (2) Palka Review and evaluation of software for undergraduate instruction in biology. Discussions on usefulness of different types of programs, e.g., simulations and interactive tutorials. Generation of new ideas and approaches for increasing use of computers in biology instruction. Credit/no credit. Credit/no credit only. Prerequisite: graduate student in biological or biomedical sciences or permission of instructor.

BIOL 578 Megareserve Management (5) Field course held on Olympic Peninsula, Washington, and Tempisque Basin, Costa Rica, in alternate years. Provides graduate students with practical, hands-on experience in megareserve design and management, including: developing objectives, establishing boundaries, determining compatibility of proposed uses, funding and political feasibility. Prerequisite: 476.

BIOL 577 Problem Solving in Conservation Biology (5) In-depth analyses of current issues in conservation biology and sustainable development. Emphasis on multidisciplinary efforts to address specific problems in both temperate and tropical regions.

BIOL 578 Species Preservation, Captive Propagation, and Reintroductions (5) Offered with Woodland Park Zoo. Explores topics relevant to management of endangered species through lectures, seminars, and workshops. Focuses on the role of zoos in contributing to species survival plans; addresses techniques for decision analysis and conflict assessment! Captive propagation, reintroductions, translocation efforts evaluated.

BIOL 581 Biology of Drosophila Seminar (1, max. 12) Weekly presentation by participants of classical literature, current literature, and research in the molecular biology, developmental biology, neurobiology, and genetics of *Drosophila*. Prerequisite: permission of instructor. Offered: AWSp.

BIOL 585 Methods and Problems in Development (3) Schubiger, Cornal, Kimelman Special topics in development. Integrates classical and current approaches. Developmental genetics, experimental embryology, molecular mechanisms of developmental regulation, and gene function in cell determination and differentiation in developing systems. Prerequisites: 455 or equivalent.

BIOL 586 Analysis of Development (3, max. 6) Analysis of structural, physiological, and molecular levels of developmental processes, including gametogenesis, fertilization, cell and tissue movements, induction, and cytodifferentiation. Prerequisites: ZOOL 456 and BIOC 442 or permission of instructor.

BIOL 587 Analysis of Development Laboratory (1-5) Series of intensive workshops in developmental biology, each extending over three to five days. Each is based on problems under study in the laboratory of the instructors involved, using materials, methods, and approaches characteristic of that laboratory. Credit/no credit only. Prerequisite: permission of instructor.

Botany

430 Hitchcock

Botany is concerned with the structure, ecology, physiology, classification, genetics, and evolution of plants, algae, fungi, and related organisms, with emphasis on organismal as well as cellular and molecular biology. Special courses and programs in botany of the Pacific Northwest are shared with related departments.

Undergraduate Program

Advisers

318 Hitchcock

Program Information

430 Hitchcock

The Department of Botany offers two undergraduate degrees. The Bachelor of Arts degree is designed for students who wish to obtain a broad training in the biology of plants and plant-like organisms, but who do not plan to continue with further graduate training in the biological sciences. The Bachelor of Science degree includes a more extensive training in mathematics and chemistry and is designed for students who are planning to continue with graduate training in botany or other areas of biology.

Bachelor of Arts

Major Requirements: Minimum of 65 credits as follows: BIOL 101-102 and GENET 371 (or BIOL 201, 202, 203); CHEM 120 and 220 or CHEM 140, 150, 160; BOTANY 113, 354, 371, 372, 441, and one of the following: BOTANY 446 or BOTANY 461 or BIOL 460. Minimum of 15 credits of upper-division courses (excluding courses without prerequisites) in botany, zoology, microbiology, genetics, biology, and certain courses in forest resources, oceanography, and fisheries.

Bachelor of Science

Major Requirements: Minimum of 87 credits as follows: BIOL 101-102 and GENET 371 (or BIOL 201, 202, 203 and GENET 371 or 372). CHEM 120, 220, 221 (or CHEM 140, 141, 150, 160, and either CHEM 223, 224 or 237, 238, 239). One of the following sequences: MATH 124, 125; Q SCI 291, 292; or Q SCI 381, 482; or one quarter of calculus and one quarter of statistics. BOTANY 113, 354, 371, 372, 428, 441; BIOL 454, and one of the following: BOTANY 446 or BOTANY 461 or BIOL 460. Minimum of 15 credits of upper-division courses (excluding courses without prerequisites) in botany, zoology, microbiology, genetics, biology, and certain courses in forest resources, oceanography, and fisheries.

Graduate Program

The Department of Botany offers programs of graduate study leading to the Master of Science and Doctor of Philosophy degrees. Each program of study is planned individually and takes into consideration the background and interests of the student.

Research Facilities

Special departmental facilities include a herbarium containing vascular plants, bryophytes, algae and fungi; greenhouse, algae and fungal culture collections, growth chambers and growing rooms, instruments for molecular analysis, and a fully-equipped scanning electron microscope center. The Friday Harbor Laboratories on San Juan Island offer opportunities for the study of marine botany, and the great variety of habitats in the Pacific Northwest provide excellent opportunities for field investigations.

Special Requirements

A prospective graduate student is expected to have had the equivalent of an undergraduate major in biological science, with training in chemistry (at least through organic chemistry), general botany, plant physiology, and genetics. Calculus and/or statistics is recommended.

Financial Aid

Teaching assistantships are awarded to selected applicants in March of each year. Students should inquire about other sources of support.

Faculty

Chair

Joseph F. Ammirati

Professors

Ammirati, Joseph F. * 1979; MA, 1967, San Francisco State; PhD, 1972, University of Michigan; mycology, taxonomy and ecology of fungi.

Bendich, Arnold J. * 1970; PhD, 1969, University of Washington; mitochondrial and chloroplast genome structure.

Bliss, Lawrence C. * 1978, (Emeritus); PhD, 1956, Duke University; physiological plant ecology and ecosystem development and function, arctic, alpine environments.

Cattolico, Rose A. * 1975; PhD, 1973, State Univ of New York (Stony Brook); plastid replication, nucleic acid biochemistry in synchronized unicellular algae.

Cleland, Robert E. * 1964; PhD, 1957, California Institute of Technology; physiology, plant hormones, cell wall.

del Moral, Roger * 1968; PhD, 1968, University of California (Santa Barbara); plant ecology, community structure, succession.

Hall, Benjamin D. * 1963; MA, 1956, PhD, 1959, Harvard University; molecular genetics and evolution of plants and lower eukaryotes.

Halperin, Walter * 1968, (Emeritus); PhD, 1965, University of Connecticut; plant physiology, developmental anatomy, embryogenesis.

Haskins, Edward F. * 1966, (Emeritus); PhD, 1965, University of Minnesota; cytology, ultrastructure of microorganisms, especially slime molds.

Kruckeberg, Arthur R. * 1950, (Emeritus); PhD, 1950, University of California (Berkeley); evolution, flora of PNW, edaphic ecology, conservation.

Leopold, Estella B. * 1976; PhD, 1955, Yale University; paleoecology, pollen and seed analysis, late Cenozoic environment.

Mease, Bastiaan J. D. * 1952, (Emeritus); Dr., 1943, University of Leyden (Netherlands); plant physiology, algal physiology, metabolism, plant biochemistry.

Schemske, Douglas W. * 1989; PhD, 1977, University of Illinois; evolutionary biology, plant population biology and coevolution.

Tsukada, Matsuo * 1969; PhD, 1961, Osaka City University (Japan); interpretation of Quaternary events from palynological and kindred data.

Waaland, J. Robert * 1969; PhD, 1969, University of California (Berkeley); biology of marine algae.

Walker, Richard B. * 1948, (Emeritus); PhD, 1948, University of California (Berkeley); plant physiology, mineral nutrition, water relations.

Whisler, Howard C. * 1963; PhD, 1961, University of California (Berkeley); mycology, aquatic fungi, slime-molds and phycocomycetes, development.

Associate Professors

Comai, Luca * 1989; PhD, 1980, University of California (Davis); chromatin and gene regulation, polyploidy, axil development.

Van Volkenburgh, Elizabeth * 1987; PhD, 1980, University of Washington; leaf growth and development, photobiology and electrophysiology.

Assistant Professor

Olmstead, Richard G. 1996; PhD, 1988, University of Washington; plant molecular systematics/plant phylogeny and macroevolution.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

BOTANY 110 Introductory Plant Biology (5) NW Ammirati, Bliss, del Moral, Haskins, Waaland Basic concepts in plant biology for nonmajors, with emphasis on plant diversity and how plants grow and reproduce. Modern ideas concerning biotechnology, ecology, agriculture, medicine, practical gardening, and conservation and environmental issues discussed. Laboratories include greenhouse studies. Offered: AWSp.

BOTANY 113 Plant Identification and Classification (5) NW Olmstead Plant classification and diversity of seed plants; field study and laboratory identification of the common plant families and the conspicuous flora of western and central Washington. Two full-day field trips. Offered: SpS.

BOTANY 206 Laboratory in Environmental Problems (5) NW Leopold Processes and structure of ecosystems and conflicting uses made of these environments. Role and application of science. Field trips to natural and human-modified ecosystems; weekend field trips required. Offered: jointly with BIOL 206; A.

BOTANY 331 Landscape Plant Recognition (3) NW Hamilton, Tsukada Field recognition of important groups of woody and herbaceous landscape plants, emphasizing diversity at the genus and family levels. Cultivated plant nomenclature. Plant descriptive characters evident in the field with eye and hand lens. Hardiness and landscape applications. Recommended: 113. Offered: jointly with UHF 331; SpS.

BOTANY 333 Plant Communities: Resilience and Restoration (5) NW Leopold Ecological impacts by humans on native plant communities. Effects of grazing, timber removal, habitat draining and filling, fire control, application of chemicals. Potential for ecological restoration of plant communities. Three required weekend field trips. Prerequisite: 113 and BIOL 102 or BIOL 203 or equivalent. Offered: jointly with BIOL/ESC 333; Sp.

BOTANY 350 Introduction to Plant Geography (4) NW Tsukada Patterns of world vegetation distributions; the relationships between vegetation and climate; introduction to general theories of plant distribu-

tion. Emphasis on the affinities within vegetation in different parts of the world. Offered: W.

BOTANY 354 Introduction to Plant Ecology (5) NW del Moral Basic concepts of plant ecology, including studies of the environment, plant-environment interactions, populations, communities, and ecosystems. Laboratory includes one weekend field trip, laboratory and greenhouse experiments, and an introduction to ecological problem solving. Prerequisite: ten credits of biological sciences or permission of instructor. Offered: Sp.

BOTANY 371 Elementary Plant Physiology (3) NW Cleland, Van Volkenburgh Nutrition, assimilation, transport, growth, photosynthesis, and cellular respiration in plants. Prerequisite: BIOL 203 or equivalent or permission of instructor. Offered: W.

BOTANY 372 Plant Physiology Laboratory (2) NW Cleland, Van Volkenburgh Laboratory experiments on the growth, nutrition, and metabolism of plants. Prerequisite: 371 which may be taken concurrently. Offered: W.

BOTANY 380 Economic Botany (3) NW Tsukada Plants useful or harmful to man; their taxonomic and morphological characteristics and chemical constituents; history, distribution, production, usage, and roles in prehistoric and modern cultures and civilization. Prerequisite: 110 or 113 or 10 credits in biological sciences. Offered: even years; A.

BOTANY 426 Plant Genetic Engineering (2) NW Comai Theory, strategy, and methods of genetic engineering, focusing on applications to plant biology. Includes the isolation, characterization, and cloning of nucleic acids, the use of bacterial and plant vectors, and the introduction and expression of genes in plants. Prerequisites: concurrent registration in 427 and permission of instructor. Offered: on demand; W.

BOTANY 427 Plant Genetic Engineering Laboratory (4) NW Comai Methods and techniques in plant genetic engineering, with applications to plant biology. Emphasis on laboratory procedures and experiments. Prerequisites: concurrent registration in 426 and permission of instructor. Offered: on demand; W.

BOTANY 428 Molecular and Cellular Biology of Plants (3) NW Bendich, Cattolico, Comai Structure and function of the nucleus, the organelles, and their genomes. Review of the techniques used in cellular and molecular biology such as tissue culture, cell fractionation, nucleic acid characterization, genetic engineering, and genome mapping. Offered: W.

BOTANY 429 Plant Nuclear and Cytoplasmic Genetics (3) NW Bendich, Comai Covers genetic aspects specific to plants and algae, including chromosome structure, genome mapping, transposon biology, genes for floral and vegetative development, genetic engineering, ploidy levels, and cytoplasmic genetics. Prerequisite: BIOL 101 or 203, and GENET 371 or 372. Offered: Sp.

BOTANY 441 Morphology and Anatomy of Land Plants (5) NW Halperin Comparative morphology and anatomy of land plants. Derivation of morphological structures and basis for current classification schemes examined using living and fossil organisms. Laboratories emphasize live plants native to the Pacific Northwest. Prerequisite: ten credits of biological sciences (must include some plant science) or permission of instructor. Offered: A.

BOTANY 443 Origins of Our Modern Floras (5) NW Leopold Evolution and biogeographic development of modern forest taxa and associations. Late Cenozoic forests (last 60 million years) of western North American environments, emphasizing geologic and climatic shifts that have shaped temperate and tropical vegetation. Three required weekend field trips. Prerequisite: 113 and BIOL 102 or 203 or equivalent. Recommended 354. Offered: A.

BOTANY 445 Marine Botany (8) NW Survey of plants represented in marine environments; natural history; ecology, distribution, habitat, adaptation, and trophic interrelationships. Prerequisites: appropriate credits in biological sciences, generally BIOL 101-102 or 201, 202, 203; concurrent registration in ZOOL 430; and permission of the Director of Friday Harbor Laboratories. Offered: at Friday Harbor Laboratories. Sp.

BOTANY 446 Phycology (5) NW *Cattolico, Waaland* Study of major algal groups emphasizing form, function, reproduction, and distribution. Topics include evolution, phylogeny, and classification. Economically useful and ecologically important algae emphasized. Prerequisite: ten credits of biological science or permission of instructor. Offered: Sp.

BOTANY 448 Marine Algal Ecology (3) NW *Waaland* Marine environment in relation to requirements for algal life. Intertidal, subtidal, geographical, and seasonal distribution of marine algae. Functional aspects of algal form, structure, productivity, and energy economy of marine algal communities. Algal utilization and aquaculture. Prerequisite: 445 or 446 or permission of instructor. Offered: on demand.

BOTANY 455 Vegetation of Western Washington (5) NW *del Moral* Vegetation of western Washington, including mature, seral, and weedy vegetation. Recognition of landscape patterns, sight identification of common and indicator species, classification of major community types, and uses of native species in landscape design. Two weekend field trips required. Recommended: 113 or 354 or L ARCH 463. Offered: odd years; A.

BOTANY 456 Plant Community Ecology (5) NW *del Moral* Development of plant community theory; theory of vegetation structure and typal identification; numerical methods for vegetation description and pattern analysis; gradient analysis; competition and allelopathy in complex systems; vegetation dynamics; niche theory. Laboratory emphasizes sampling design and field and computer methods. Two weekend field trips required. Prerequisite: 354 or permission of instructor. Offered: even years; A.

BOTANY 458 Alpine Plant Ecology (5) NW Structure of plant communities in alpine regions of the Pacific Northwest. Characteristics of physical environment which influence species adaptation and distribution. Influence, impact of humans and criteria for preservation and/or management of alpine areas. Three weekend field trips required. Prerequisite: 10 credits in biological sciences or permission of instructor. Offered: S.

BOTANY 461 General Mycology (5) NW *Ammirati, Whisler* General survey of the fungi with emphasis on life cycles, structure, physiology, economic importance. Prerequisite: 10 credits in biological science or permission of instructor. Offered: A.

BOTANY 485 Microscopy and Photography for Biologists (3) NW *Waaland* Principles and practice of light microscopy, photomicrography, and scientific photography. Illumination systems, bright field, phase-contrast, dark field, fluorescence and other microscopic techniques. Photographic and video image recording of microscopic and macroscopic scientific specimens. Prerequisites: advanced standing in biological sciences and permission of instructor. Offered: on demand; A.

BOTANY 490 Undergraduate Seminar (1-3, max. 6) NW Presentation and discussion of undergraduate research, including honors projects, and selected topics in botany and related biological sciences. Credit/no credit only. Prerequisite: 20 credits in biological sciences. Offered: AWSp.

BOTANY 496 Peer Teaching Assistantships in Botany (1-5) *Ammirati, Bliss, del Moral, Haskins, Olmstead, Waaland* Direct experience in the classroom, typically teaching a lab section of an undergraduate course. Peer TA's attend lectures and weekly

preparation meetings and gain in-depth background in the subject material as well as training in teaching techniques and approaches. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 498 Special Problems in Botany (1-15) Students with suitable background in botany may enroll for special study in phycology, anatomy, ecology, mycology, morphology, paleobotany, physiology, or taxonomy. Prerequisite: permission of instructor. Offered: AWSp.

Courses for Graduates Only

BOTANY 501 Tutorial in Botany (1-5, max. 10) Small-group study and discussion of a specified topic in the plant sciences, largely in fields not covered by courses and existing special area seminars. Impetus for registration would come from two or more graduate students finding a faculty member who shares with them an interest in the topic. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 502 Teaching Assistant Orientation (3) Laboratory and lecture preparation, organization, and presentation for incoming botany graduate students. Two student presentations required: to be self-, instructor-, and peer evaluated. Credit/no credit only. Offered: A.

BOTANY 505 Introduction to Modern Botany (2, max. 4) For incoming graduate students in botany and certain interdisciplinary programs. Reviews recent advances in modern botany, covering molecular, cellular, organismal, and community areas.

BOTANY 511 Scanning Electron Microscopy and Energy Dispersive Spectroscopy (2/3) *Reine* Principles and practice of scanning electron microscopy and energy dispersive spectroscopy applied to biological and non-biological materials. Includes sample preparation, critical point drying, sputter coating, SEM operation, photomicrography, backscattered electron imaging, SEM alignment and performance maximization, x-ray microanalysis, x-ray dot maps, and quantitative x-ray microanalysis. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 520 Seminar (1, max. 18) Credit/no credit only. Offered: AWSp.

BOTANY 521 Topics in Plant Physiology (1-3, max. 10) *Cleland, Van Volkenburgh* Modern trends and methods in plant physiology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 522 Seminar in Morphology and Taxonomy (1-3, max. 10) *Olmstead* Current research and trends in morphology and taxonomy of higher plants. Prerequisite: permission of instructor. Credit/no credit only. Offered: AWSp.

BOTANY 523 Selected Topics in Mycology (1-3, max. 10) *Ammirati, Whisler* Selected topics from all phases of mycology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 524 Topics in Phycology (1-3, max. 10) *Cattolico, Waaland* Topics from all phases of phycology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 525 Topics in Plant Ecology (1-3, max. 10) *Bliss, del Moral, Leopold* Selected topics from various phases of plant ecology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 526 Topics in Paleocology (1-3, max. 6) *Leopold, Tsukada* Discussion and review of literature on soil and leaf architecture in deposition sediments, and paleocology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 527 Advanced Topics in Plant Molecular Systematics and Evolution (1-3, max. 10) *Bendich, Cattolico* In-depth discussion of topics which emphasize molecular level systematics and evolution.

Credit/no credit only. Prerequisite: permission of instructor. Offered: on demand.

BOTANY 529 Topics in Plant Molecular Biology (1-3, max. 10) *Bendich, Cornal* Discussions of recent trends in plant molecular biology, genetics, and development. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 530 Topics in Plant Population Ecology (1-3, max. 10) *Schemske* Discussions of recent developments in plant population biology and ecology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 545 Marine Phycology (9) - Waaland Morphology, life histories, systematics, and ecology of marine algae, with emphasis on the local flora. Prerequisite: ten credits of biological sciences or permission of the Director of Friday Harbor Laboratories. Offered: at Friday Harbor; S.

BOTANY 549 Advanced Phycology (9) *Waaland* Varied marine algal flora of the San Juan region. Topic changes from year to year. Individual research projects. Prerequisites: 545 or equivalent and permission of the Director of Friday Harbor Laboratories. Offered: at Friday Harbor.

BOTANY 551 Plant Population Biology (3) *Schemske* An overview of the current conceptual issues in plant population biology, including modes of evolution, population structure, sex and the mating system, life-history evolution, demography, and speciation. Prerequisites: BIOL 203 and 454 or permission of instructor. Offered: odd years; Sp.

BOTANY 552 Vegetation of North America (5) *Bliss* Detailed analysis of the biomes of America north of Columbia, including principles of plant geography, floristics, climate, soils, ecophysiology, paleobotany, vegetation structure, and community patterns. Prerequisite: 350 and 354 or equivalent. Offered: even years; W.

BOTANY 554 Palynology and Quaternary Phytogeography (5) *Tsukada* Study of former vegetation and environments by relating the fossil pollen record to ecological principles; fundamentals and applications of pollen-spore morphology and pollen analysis. Two full-day (Friday and Saturday) field trips required. Prerequisites: 113 and BIOL 472 or permission of instructor.

BOTANY 565 Marine Mycology (9) *Whisler* Taxonomy and morphology of aquatic fungi with emphasis on marine forms. Prerequisites: 461 or 20 credits in biology and permission of the Director of Friday Harbor Laboratories. Offered: S.

BOTANY 575 Transport Processes in Plants (3) *Van Volkenburgh* Analysis of pathways and mechanisms of water, ion, and sugar transport in higher plants, from abiophysical understanding of membrane properties, water potential, and electrophysiology to whole plant control of water status, nutrient transport, and carbon allocation. Prerequisites: 371 and 372 or permission of instructor. Recommended: 441. Offered: on demand.

BOTANY 577 Plant Growth and Development (3) *Cleland* Control of growth, development, and differentiation in higher plants by hormones. Prerequisite: permission of instructor. Offered: on demand.

BOTANY 579 Environmental Control of Plant Growth and Development (3) *Cleland* Effects of light, temperature, and water stress on the growth, development, and metabolism of higher plants. Prerequisite: 371 or permission of instructor. Offered: on demand.

BOTANY 597 Advanced Reading in Botany (1-3, max. 12) Reading and evaluation of subject matter in plant, algal, and fungal biology. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 598 Field Studies in Botany (1-6, max. 12) Field studies of plants, algae or fungi. Emphasis on methods and techniques for gathering and evaluating field data. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 599 Laboratory Studies in Botany (1-6, max. 12) Laboratory studies of plants, algae, and/or fungi. Emphasis on methods, procedures, and evaluating research results. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

BOTANY 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSp.

BOTANY 700 Master's Thesis (*) Credit/no credit only. Offered: AWSp.

BOTANY 800 Doctoral Dissertation (*) Credit/no credit only. Offered: AWSp.

Canadian Studies

See International Studies.

Chemistry

109 Bagley

Chemistry is a branch of natural science that deals principally with the properties of substances, the changes they undergo, and the natural laws that describe these changes.

Undergraduate Program

Adviser
Lani Stone
109C Bagley
email: stone@chem.washington.edu
(206) 543-9343 or 1-800-869-2436

Bachelor of Science

Admission Requirements: Recommended high school preparation includes four years of college preparatory mathematics, one year of physics, one year of chemistry, and one year of biology.

Major Requirements: MATH 124, 125, 126 and two courses above 200 (recommended: MATH 307 or AMATH 351, and MATH 308 or AMATH 353; MATH 205 can substitute for MATH 308 or AMATH 353); (alternative MATH requirement: 134, 135, 136); one year of physics including at least 1 credit of laboratory (PHYS 114, 115, 116, 118; or PHYS 121/131, 122/132, 123/133, with the 121/131 sequence recommended); CHEM 145 (or 140); CHEM 155, 165 (or 150, 160, 312); CHEM 141, 151, 161; CHEM 317 and 321; CHEM 335, 336, 337, 346, 347 (or 237, 238, 239, 241, 242 with a GPA of 3.00 or higher in 237, 238, and 239 or a passing score in the standard American Chemical Society examination); CHEM 416, 455, 456, 457; 14 credits of numerically graded CHEM 400 courses (not previously listed), which must include CHEM 461 and two more courses with laboratory (currently 426, 462, 463, 464, 465); strongly recommended, research credits in CHEM 399 and 499. Minimum GPA of 2.80 in chemistry courses and a minimum grade of 1.7 in all required chemistry courses. For graduation 192 credits are required with a cumulative GPA of 2.80 or better.

Bachelor of Arts

Admission Requirements: Same as for the Bachelor of Science degree.

Major Requirements: MATH 124, 125, 126 (or MATH 134, 135, 136); one year of physics, including 1 credit

of laboratory; CHEM 140 (or 145); CHEM 150, 160, 312 (or 155, 165); CHEM 141, 151, 161; CHEM 321; CHEM 237, 238, 239, 241, 242 (or 335, 336, 337, 346, 347) [or (223, 224 or 237, 238), 241, 317, 416]; CHEM 455; CHEM 456, 457 (or 350, 351), (or 452); 5 credits of numerically graded CHEM 400 courses (not previously listed), which must include CHEM 461; minimum GPA of 2.00 in chemistry courses, and a minimum grade of 1.7 in all required chemistry courses.

The maximum number of credits which may be earned combining CHEM 399 and 499 is 24. Individual degree programs may impose separate credit limits.

Minor

Minor Requirements: Option A: 28-43 credits in chemistry to include CHEM 120, 250, 312 (13 credits); or 140, 141, 150, 151, 160, 161, 312, 452 (23 credits); or 145, 155, 165, 352 (19 credits); and CHEM 220, 221 (10 credits); or 223, 224, 241 (11 credits); or 237, 238, 239, 241 (14 credits); or 335, 336, 337, 346 (15 credits); and CHEM 321 (5 credits).

Option B: 37 credits in chemistry to include CHEM 120, 220, 221, 250, 312, 321.

Options A and B: MATH 124 and PHYS 114 (or 121/131) (9-10 credits). Minimum GPA of 2.00, and a minimum grade of 1.7 for all courses presented for the minor.

Graduate Program

Director of Student Services
Nancy J. Cooper
109E Bagley
email: cooper@chem.washington.edu
(206) 543-4791 or 1-800-869-2436

The Master of Science and Doctor of Philosophy programs are designed to lead to positions of leadership and independent investigation in research institutes, industrial laboratories, and government agencies, and as teachers, researchers, or administrators in colleges and universities in chemistry or in fields having substantial chemistry content.

Students can pursue research in the following areas of chemistry: analytical, bioinorganic, bioorganic, biophysical, environmental, inorganic, medicinal, nuclear, organic, organometallic, physical, polymer, process analytical, and theoretical.

Thesis research for the Master of Science degree and dissertation research for the Doctor of Philosophy degree should constitute an original contribution to knowledge worthy of report in the scientific literature.

Master of Science

Admission Requirements: Baccalaureate degree with major in chemistry or allied sciences; Graduate Record Examination.

Graduation Requirements: *With Thesis*—36 approved credits with 18 in courses at the 500 level or above; 21 in courses at the 400 or 500 level taken for numerical grade; 9 credits in thesis research. *Without Thesis*—Same as with thesis, except that additional course work may be substituted for the required research. GPA of 3.00 required for both degrees.

Doctor of Philosophy

Admission Requirements: Same as for the Master of Science degree.

Graduation Requirements: 18-27 credits of approved courses at the 400 or 500 level, with a total GPA of 3.00; candidacy examinations covering area of specialization; dissertation.

Faculty

Chair

Paul B. Hopkins

Professors

Andersen, Niels H. * 1968; PhD, 1967, Northwestern University; peptide conformations and protein folding, biophysical NMR, biorecognition, helix/coil theory.

Anderson, Arthur * 1946, (Emeritus); MS, 1942, PhD, 1944, University of Michigan; chemistry of nonclassical aromatic compounds and novel heterocycles.

Borden, Weston T. * 1972; PhD, 1968, Harvard University; molecular orbital theory of organic molecules and reactions, synthesis of unnatural products.

Callis, James B. * 1973; PhD, 1970, University of Washington; instrumentation development, process analytical chemistry, non-invasive clinical chemistry.

Campbell, Charles T. * 1989; PhD, 1979, University of Texas (Austin); physical chemistry of solid surfaces, chemisorption, catalysis, and surface analysis.

Charlson, Robert J. * 1965, (Adjunct); PhD, 1964, University of Washington; atmospheric chemistry, aerosol physics, aerosol/cloud/climate interaction.

Christian, Gary D. * 1972; PhD, 1964, University of Maryland; electroanalysis, flow injection analysis, process control.

Drobny, Gary P. * 1981; PhD, 1981, University of California (Berkeley); two-dimensional and multiple quantum studies in nuclear magnetic resonance.

Engel, Thomas * 1980; PhD, 1969, University of Chicago; surface chemistry and catalysis.

Epiotis, Nicholas * 1972; PhD, 1972, Princeton University; applied quantum chemistry.

Floss, Heinz G. * 1987; PhD, 1961, Technical University of Munich (Germany); bioorganic and natural products chemistry.

Gammon, Richard H. * 1985; PhD, 1970, Harvard University; atmospheric, marine, and environmental chemistry; biogeochemical cycles, global climate change.

Gelb, Michael H. * 1985; PhD, 1982, Yale University; mechanistic enzymology, bioorganic and medicinal chemistry.

Gouterman, Martin * 1966; PhD, 1958, University of Chicago; electronic spectra and luminescence of porphyrins, oxygen pressure sensing by luminescence quenching.

Gregory, Norman W. * 1946, (Emeritus); PhD, 1943, Ohio State University; structure and thermodynamic properties of inorganic substances, vaporization reactions.

Hakomori, Sen-Itiroh * 1967, (Adjunct); MD, 1951, DMedSc, 1956, Tohoku Imperial University (Japan); role of glycosphingolipids in defining antigenicity, cellular interaction.

Halsey, George D. * 1951, (Emeritus); PhD, 1948, Princeton University; surface absorption/interaction of rare gases, solid solutions of rare gases, catalysis, colloids.

Heinekey, Dennis M. * 1991; PhD, 1982, University of Alberta (Canada); organometallic chemistry of the transition metals.

Hopkins, Paul B. * 1982; PhD, 1982, Harvard University; organic synthesis, bioorganic and nucleic acid chemistry.

Kowalski, Bruce * 1973; PhD, 1969, University of Washington; analytical chemometrics, computerized instrumentation for process monitoring and control.

Krohn, Kenneth A. * 1981, (Adjunct); PhD, 1971, University of California (Davis); chemistry, radiation oncology.

Kwiram, Alvin L. * 1970; PhD, 1963, California Institute of Technology; molecular structure/dynamics in the solid state with emphasis on excited states, magnetic resonance.

Lingafelter, Edward C. * 1939, (Emeritus); PhD, 1939, University of California (Berkeley); crystal and molecular structure of coordination compounds.

Mayer, James M. * 1984; PhD, 1982, California Institute of Technology; inorganic/organometallic chemistry, synthesis/mechanism of reactions of transition metal compounds.

Parson, William W. * 1971, (Adjunct); PhD, 1965, Case Western Reserve University; bioenergetics, with particular emphasis on photosynthesis, picosecond spectroscopy.

Pocker, Yeshayau * 1961; PhD, 1953, University College, London (UK); DSc, 1960, University of London (UK); organic reaction mechanisms, chemical and enzymatic catalysis, metalloenzymes.

Rabinovitch, B. Seymour * 1948, (Emeritus); PhD, 1942, McGill University (Canada); chemical dynamics, energy relaxation, properties of silver surfaces.

Raucher, Stanley * 1975; PhD, 1973, University of Minnesota; new methods in synthetic organic chemistry, total synthesis of natural products.

Reid, Brian R. * 1980; PhD, 1965, University of California (Berkeley); biophysical chemistry.

Reinhardt, William P. * 1991; PhD, 1968, Harvard University; theoretical and computational chemistry with applications in chemistry and biophysics.

Robinson, Bruce H. * 1980; PhD, 1975, Vanderbilt University; magnetic resonance, molecular dynamics, polymer dynamics, nonlinear response theory.

Rose, Norman J. * 1966; PhD, 1960, University of Illinois; design, synthesis, and study of coordination compounds of transition metals, including lanthanides.

Ruzicka, Jaromir * 1984; PhD, 1963, Technical University of Prague (Czech); analysis via flow injection for clinical research and industrial applications.

Schomaker, Verner * 1965, (Emeritus); PhD, 1938, California Institute of Technology; crystal structures by x-ray diffraction, molecular-sieve catalysts.

Schubert, Wolfgang M. * 1947, (Emeritus); PhD, 1947, University of Minnesota; mechanism/steric course of organic reactions, substituent and solvent effects, acid-base catalysis.

Schurr, J. Michael * 1966; PhD, 1965, University of California (Berkeley); dynamics, structures, and energetics of linear and supercoiled DNAs; laser optical and nmr methods.

Slutsky, Leon J. * 1961; PhD, 1957, Massachusetts Institute of Technology; lattice dynamics, kinetics of conformational change, physical absorption.

Stuve, Eric M. * 1985, (Adjunct); PhD, 1984, Stanford University; catalytic and electrochemical surface science.

Trager, William F. * 1972, (Adjunct); PhD, 1965, University of Washington; medicinal chemistry, bioanalytical chemistry drug metabolism.

Turecek, Frantisek * 1990; PhD, 1977, Charles University Czechoslovakia; mass spectrometry and organic structural analysis.

Vandenbosch, Robert * 1963; PhD, 1957, University of California (Berkeley); nuclear fission and nuclear reaction mechanisms, atomic and molecular clusters, C_{60} .

Watts, Robert O. * 1986; PhD, 1968, Australian National University; properties of small molecular clusters by theoretical and experimental investigations.

Yager, Paul * 1987, (Adjunct); PhD, 1980, University of Oregon; physical chemistry and applications of biomembranes.

Zoller, William H. * 1984; PhD, 1969, Massachusetts Institute of Technology; analytical, environmental, and nuclear chemistry.

Associate Professors

Crittenden, Alden L. * 1947, (Emeritus); PhD, 1947, University of Illinois; mass spectra, solid electrode polarography.

Jónsson, Hannes * 1988; PhD, 1985, University of California (San Diego); computer simulations and scattering calculation in materials and surface science.

Klevit, Rachel E. * 1983, (Adjunct); DPhil, 1981, Oxford University (UK); molecular recognition, protein NMR.

Kovacs, Julia A. * 1988; PhD, 1986, Harvard University; synthesis, structure, and reactivity of biologically relevant transition-metal complexes.

Macklin, John W. * 1968; PhD, 1969, Cornell University; spectroscopic studies of materials in condensed phase and in solutions.

Olmstead, Marjorie A. * 1991, (Adjunct); PhD, 1985, University of California (Berkeley); experimental condensed-matter physics, surface and interface physics.

Sasaki, Tomikazu * 1989; PhD, 1985, Kyoto University (Japan); design and synthesis of functional proteins and protein mimetics.

Stenkamp, Ronald E. * 1978, (Adjunct); PhD, 1975, University of Washington; crystallography, metalloprotein, protein engineering, blood clotting protease.

Synovec, Robert E. * 1986; PhD, 1986, Iowa State University; laser-based liquid chromatography detectors, separation theory, analytical instrumentation.

Woodman, Darrell J. * 1985; PhD, 1965, Harvard University; peptide synthesis, heterocyclic compounds, chemistry of ketoketenimines.

Assistant Professors

Goldberg, Karen 1995; PhD, 1988, University of California (Berkeley); synthetic and mechanistic organometallic chemistry.

Haile, Sossina M. * 1993, (Adjunct); PhD, 1992, Massachusetts Institute of Technology; ion transport in solids, crystal growth, x-ray diffraction.

Reid, Philip J. 1995; PhD, 1992, University of California (Berkeley); chemical reaction dynamics in solution.

Senior Lecturers

Nyasulu, Frazier W. 1991; PhD, 1985, University of Salford (UK); chemical education, electroanalytical chemistry.

Selke, Sara 1983; PhD, 1983, University of Washington; chemical education, retention of underrepresented minorities and women in science and mathematics.

Wiegand, Deborah H. 1990; PhD, 1990, Northern Illinois University; chemical education, electrochemistry on liquid/liquid interfaces.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

No more than the number of credits indicated can be counted toward graduation from the following course groups: 140, 141, 145 (5 credits); 145, 155, 160, 161 (10 credits); 145, 155, 250 (10 credits); 165, 312 (5 credits); 220, 223, 237, 335 (5 credits); 238, 336 (4 credits); 221, 224, 239, 337 (5 credits); 241, 346 (3

credits); 242, 347 (3 credits); 452, 456 (4 credits). If a course is completed before a prerequisite is taken, credit will not later be allowed for the prerequisite course.

CHEM 115 Chemistry for Life (5) NW Introduction to chemistry covering selected principles and their effect on ourselves and our environment. Includes scientific investigations conducted outside the laboratory with full class participation. Intended for non-science majors wishing to improve their science literacy and develop a long-term interest in science. Offered: Sp.

CHEM 120 Introduction to General Chemistry (5) NW, QSR. One quarter introduction to chemistry for students with little or no chemistry background. Atoms and molecules, including structure of atoms, chemical bonding, chemical reactions, phases of matter, solutions, equilibrium, and reaction rates. Includes laboratory. Can stand alone or be followed by 140 or 220. Offered: AWS.

CHEM 140 General Chemistry (4) NW, QSR For science and engineering majors. Atomic nature of matter, stoichiometry, periodic table, quantum concepts, gas laws. Prerequisites: high school algebra and chemistry or 120 and MATH 111 or 120. Recommended: high school physics and concurrent registration in 141 and MATH 124. Offered: AWSpS.

CHEM 141 General Chemistry Laboratory (1) NW Introduction to laboratory work, including experiments to illustrate analytic techniques, stoichiometry, and gas laws. Designed to complement 140. Credit/no credit only. Prerequisite: prior completion of, or concurrent registration in, 140. Offered: AWSpS.

CHEM 145 Honors General Chemistry (5) NW, QSR For science, engineering, and other majors with strong mathematics and science background in high school. Includes integrated computer and chemistry laboratory experiments. Together 145 and 155 cover material in 140, 141, 150, 151, 160, and 161. Familiarity with differential calculus encouraged. Prerequisite: MATH 124 which may be taken concurrently. Offered: A.

CHEM 150 General Chemistry (4) NW Chemical bonding and structure, elementary organic and polymer chemistry, inorganic Lewis acids and bases. Prerequisite: 140 or 145. Recommended: concurrent registration in 151. Offered: AWSpS.

CHEM 151 General Chemistry Laboratory (1) NW Experiments to include absorption and emission spectroscopy, separations and elementary organic synthesis. Designed to complement 150. Credit/no credit only. Prerequisites: 120 or 141 and prior completion of, or concurrent registration in, 150. Offered: AWSpS.

CHEM 155 Honors General Chemistry (5) NW Continuation of 145. Includes integrated computer and chemistry laboratory experience. Together 145 and 155 cover material in 140, 141, 150, 151, 160, and 161. Prerequisite: 145. Offered: W.

CHEM 160 General Chemistry (4) NW Introduction to chemical thermodynamics (first and second laws), equilibrium, electrochemistry and kinetics. Prerequisite: 150. Recommended: concurrent registration in 161. Offered: AWSpS.

CHEM 161 General Chemistry Laboratory (2) NW Introductory experiments in acid-base equilibrium, electrochemistry, thermochemistry, chemical kinetics. Designed to complement 160. Prerequisite: 151 and prior completion of, or concurrent registration in, 160. Offered: AWSpS.

CHEM 165 Honors General Chemistry (6) NW Introduction to systematic inorganic chemistry: representative elements, metals, and nonmetals. Includes coordination complexes, geochemistry, and metallurgy. Additional material on environmental applications of basic chemistry presented. Prerequisite: 155 or permission of instructor. Offered: Sp.

CHEM 197 Science Outreach Training (1) Training for participation in science-related outreach activities to the community. Emphasis on support for K-12 education and environmental community efforts. Not applicable toward chemistry degree requirements. Credit/no credit only. Offered: AWSp.

CHEM 199 Special Problems (1-6) Research in chemistry. Credit/no credit only. Prerequisites: permission of chemistry adviser and chemistry grade-point average above 3.00. Offered: AWSpS.

CHEM 203 Chemistry and the Environment (5) NW, QSR Role of small amounts (traces) of chemicals in our bodies and in global, regional, and local environments. Traces of certain chemicals influence events leading to acid rain, smog, nuclear waste management, and wastewater treatment. Intended for nonscience majors. Prerequisite: 120 or equivalent.

CHEM 220 Introduction to Organic and Biochemistry (5) NW Structure and properties of organic compounds: hydrocarbons, alcohols, aldehydes, ketones, carboxylic acids, carbohydrates, lipids, and proteins. Includes laboratory. Prerequisite: 120 or advanced placement in chemistry. Offered: AWSpS.

CHEM 221 Introduction to Biochemical Processes (5) NW Enzymes, nucleic acids and protein synthesis, natural products, drugs and drug metabolism, nutrition and bioenergetics, vitamins and cofactors, hormones, body fluids, biosynthetic pathways. Includes laboratory. Prerequisite: 120. Offered: Sp.

CHEM 223 Organic Chemistry—Short Program (4) NW First of a two-quarter lecture series in organic chemistry, for majors in biology and related fields who elect not to complete the full year sequence. Introduction to structure, nomenclature, reactions, and synthesis of the main functional group families of organic compounds. Prerequisite: 155 or 160. No organic laboratory accompanies this course.

CHEM 224 Organic Chemistry—Short Program (4) NW Continuation of the abbreviated coverage of the main functional group families of organic compounds. Short introduction to biomolecules: lipids, carbohydrates, amino acids, proteins, and nucleic acids. Prerequisite: 223.

CHEM 237 Organic Chemistry (4) NW First course for students planning to take three quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of the main types of organic compounds. Prerequisite: 155 or 160. No organic laboratory accompanies this course. Offered: AWSpS.

CHEM 238 Organic Chemistry (4) NW Second course for students planning to take three quarters of organic chemistry. Further discussion of physical properties and transformations of organic molecules, especially aromatic and carbonyl compounds. Prerequisite: 237. Offered: WSpS.

CHEM 239 Organic Chemistry (3) NW Third course for students planning to take three quarters of organic chemistry. Polyfunctional compounds and natural products, lipids, carbohydrates, amino acids, proteins, and nucleic acids. Prerequisite: 238. Offered: ASpS.

CHEM 241 Organic Chemistry Laboratory (3) NW Introduction to organic laboratory techniques. Preparation of representative compounds. Designed to be taken with 224 or 238. Prerequisites: 155 or 161; 223 or 237. Offered: WSpS.

CHEM 242 Organic Chemistry Laboratory (3) NW Preparations and qualitative organic analysis. Designed to be taken with 239. Prerequisites: 224 or 238; 241. Offered: ASpS.

CHEM 250 Introduction to Physical Chemistry (5) NW Thermodynamic discussion of chemical equilibrium with application to phase change, acid-base, precipitation, and electrochemistry. First, second, and third laws of thermodynamics including definition and

discussion of enthalpy, entropy, and free energy; also reaction rates. Includes laboratory. Prerequisites: 140, 141, 150, 151 or 120, 220; MATH 124, PHYS 114 or 121 and 131. Offered: A.

CHEM 297 Science Outreach Participation (1-2) Continuation of 197. Work with K-12 schools or community organizations. May include scientific presentations, K-12 curriculum support, or involvement in a community project. Not applicable toward chemistry degree requirements. Credit/no credit only. Prerequisite: 197. Offered: AWSp.

CHEM 299 Special Problems and Report Writing (1-6) Research in chemistry and/or study in the chemical literature. Requires writing a scientific report. Credit/no credit only. Prerequisites: permission of chemistry adviser and a chemistry grade-point average above 3.00. Offered: AWSpS.

CHEM 312 Inorganic Chemistry (3) NW The periodic table: chemistry of representative and transition elements. Aqueous chemistry, solid state chemistry, and everyday aspects of inorganic chemistry emphasized. Not intended for students who have completed 165. Prerequisites: one of 155, 160, or 250 and one of 221, 223, 237 or 335. Offered: A.

CHEM 317 Inorganic Chemistry Laboratory (3) NW Experimental exploration of the periodic table. Techniques of preparation and characterization of inorganic compounds. Handling of air-sensitive materials and gases. Prerequisites: 165 or 312; 161; 242 or 347. Offered: W.

CHEM 321 Quantitative Analysis (5) NW Introduction to chemical analysis, including gravimetric, volumetric, spectrophotometric, and potentiometric analyses. Laboratory computer use included. Prerequisites: 155 or 160; 161. Offered: AWS.

CHEM 335, 336, 337 Honors Organic Chemistry (4, 4, 4) NW For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. Prerequisites: 160 or 155 for 335; 335 for 336; 336 for 337. No organic laboratory accompanies 335. Offered: A, W, Sp.

CHEM 346 Organic Chemistry Honors Laboratory (3) NW To accompany 336. Prerequisites: 155 or 161; 336, which may be taken concurrently. Offered: W.

CHEM 347 Organic and Qualitative Organic Honors Laboratory (3) NW Continuation of 346. To accompany 337. Prerequisites: 337, which may be taken concurrently, and 346. Offered: Sp.

CHEM 350, 351 Elementary Physical Chemistry (3, 3) NW Survey of some major topics in physical chemistry with emphasis on thermodynamics and kinetics. Equilibrium systems, solutions, electrochemistry, phase diagrams, and transport properties. Prerequisites: 155 or 160, PHYS 116, and MATH 125 (126 recommended) or MATH 112 for 350; 350 for 351.

CHEM 397 Science Outreach Mentors (1) Mentoring of beginning outreach participants. Includes presentations for 197, training of outreach students, and evaluation of outreach activities. Not applicable toward chemistry degree requirements. Credit/no credit only. Prerequisite: 197. Offered: AWSp.

CHEM 399 Undergraduate Research (* max. 12) Research in chemistry. Credit/no credit only. Prerequisites: permission of chemistry adviser, chemistry grade-point average above 3.00, and junior standing. Offered: AWSpS.

CHEM 410 Radiochemistry Laboratory (2) NW Introductory general service course for students planning further work in nuclear or tracer applications. Safety procedures, detection and measurement of nuclear radiation, radiochemical and tracer tech-

niques. Prerequisite: one year of laboratory science. Recommended: 418. Offered: alternate years.

CHEM 414 Chemistry of the Main Group Elements (3) NW The elements and their compounds in relation to the periodic system. Prerequisites: 165 or 312; 455; 351, 452, or 457, which may be taken concurrently. Offered: alternate years.

CHEM 415 The Chemical Bond (3) NW Nature of the chemical bond. Simple bonding theories, molecular orbital methods, symmetry, and group theory. Includes computer exercises in which students perform ab initio calculations. Prerequisite: 455. Offered: W.

CHEM 416 Transition Metals (3) NW Survey of selected key topics in the chemistry of the transition metals, including emphasis on the structure, bonding, and reactivity of major classes of compounds. Prerequisites: 164 or 312; 455, which may be taken concurrently. Offered: A.

CHEM 417 Organometallic Chemistry (3) NW Chemistry of the metal-carbon bond for both main group and transition metals. Structure and reactivity with applications to organic synthesis and catalysis. Prerequisites: 165 or 312; 224, 239, or 337. Recommended: 416. Offered: W.

CHEM 418 Nuclear Chemistry (3) NW Natural radioactivity, nuclear systematics and reactions, radioactive decay processes, stellar nucleosynthesis, applications of radioactivity. Prerequisite: 350, 452, or 455. Offered: alternate years.

CHEM 419 Bioinorganic Chemistry (3) NW Description of transition metal-containing systems found in biology. Structural and electronic properties and reactivity of metalloproteins, metalloenzymes, and metal cofactors. Methods used to probe and model metal sites by spectroscopic and synthetic techniques. Prerequisites: 165 or 312; 224, 239, or 337. Recommended: 416. Offered: Sp.

CHEM 426 Instrumental Analysis (3) NW Introduction to modern instrumental methods of chemical analysis, including chromatography, optical and mass spectroscopy, electrochemistry and flow injection analysis. Basic concepts of transducers, spectrometers, mass analysis, separation sciences, and computerized data acquisition and reduction. Prerequisite: 321. Offered: Sp.

CHEM 427 Principles of Modern Wet Analysis (3) NW Sampling and sample dissolution, multiple chemical equilibria, pH and electrochemical measurement, reagent-based kinetic enzyme assays and immunoassays. Principles of process, environmental, clinical, and biotechnological assays. Separations and flow injection. Prerequisites: 223 or 237 or 335; 321. Offered: W.

CHEM 429 Chemical Separation Techniques (3) NW Introduction to modern separation techniques such as gas chromatography, high-performance liquid chromatography, electrophoresis, and field flow fractionation. Prerequisites: 224, 239, or 337; 241 or 346. Recommended: 321. Offered: W.

CHEM 433 Theoretical Organic Chemistry—Predictions and Experimental Tests (3) NW Molecular orbital theory in organic chemistry. Woodward-Hoffmann rules, aromaticity, concerted reactions, photochemical transformations, and reactions of electron-deficient species. Prerequisite: 337 or permission of instructor. Offered: alternate years.

CHEM 435 Introductory Biophysical Chemistry (3) NW Survey of the statics and dynamics of biophysical and biochemical processes. Prerequisites: 224, 239, or 337; 351, 452, or 456, which may be taken concurrently. Recommended: BIOC 405 or 440. Offered: alternate years; W.

CHEM 436 Bioorganic Chemistry—Enzymes and Natural Products (3) NW Enzyme chemistry and inhibition, including modes of biological catalysis, ste-

reochemistry, enzyme characterization and kinetics, and design and principles of enzyme inhibitors. Also major classes of natural products, their chemistry, biological activity, biosynthesis, physiological role, and ecological significance. Prerequisite: 224, 239, or 337. Recommended: BIOC 405 or 440. Offered: alternate years; Sp.

CHEM 437 Organic and Bioorganic Chemistry of Nucleic Acids in Proteins (3) NW Chemistry of DNA, RNA, peptides, and proteins. Solid phase chemical synthesis. Manual and automated sequencing. Conformational analysis. Peptide mimetics and protein design. Interaction of DNA with drugs and toxins. Triple helices and antisense oligonucleotides. Prerequisite: 239 or equivalent. Offered: Sp.

CHEM 452 Physical Chemistry for Biologists (4) NW General equilibrium thermodynamics and aspects of the theory of transport properties, reaction kinetics, and electrochemical phenomena of particular relevance in the biological sciences. Prerequisites: 155, 160, or 250, MATH 125, and PHYS 115 or 122. Offered: A/WSp.

CHEM 455 Physical Chemistry (3) NW Introduction to quantum chemistry and spectroscopy. Theory of quantum mechanics presented at an elementary level and applied to the electronic structure of atoms and molecules and to molecular spectra. Prerequisites: 155 or 160, MATH 126, and college physics. Recommended: MATH 308. Offered: ASpS.

CHEM 456 Physical Chemistry (3) NW Chemical thermodynamics. Laws of thermodynamics presented with applications to phase equilibria, chemical equilibria, and solutions. Prerequisites: 155 or 160, MATH 126, and college physics. Recommended: MATH 307 and 308. Offered: WS.

CHEM 457 Physical Chemistry (3) NW Introduction to statistical mechanics, kinetic theory, and chemical kinetics. Prerequisites: 455 and 456. Offered: WSp.

CHEM 458 Global Atmospheric Chemistry (4) NW Global atmosphere as chemical system. Physical factors and chemical processes. Natural variabilities and anthropogenic change. Cycling of trace substances. Global issues such as climate change, acidic deposition, influences on biosphere. Prerequisites: ATM S 358 or CHEM 452 or 456 or permission of instructor. Offered: jointly with ATM S 458; A.

CHEM 460 Spectroscopic Molecular Identification (3) NW Basic theory of spectral techniques—Infrared and ultraviolet/visible spectroscopy, NMR, and mass spectrometry—with emphasis on spectral interpretation skills needed for the elucidation of structure, conformation, and dynamics in organic and biological chemistry. Prerequisites: 224 or 239 or 337. Recommended: 455. Offered: ASp.

CHEM 461 Physical Chemistry Laboratory (2-3) NW Physical measurements in chemistry. Vacuum techniques, calorimetry, spectroscopic methods, electrical measurements. Prerequisites: 161 or PHYS 132 or a higher-level laboratory; two courses from the following list: 455; 456 (or 452 or CHEM E 326), and 457 (which may be taken concurrently). Offered: A/WSpS.

CHEM 462 Techniques of Synthetic Organic Chemistry (2-3) NW Techniques of synthetic organic chemistry. Vacuum distillation, multistep synthesis, air sensitive reagents, photochemistry, chromatography, and separation techniques. Prerequisite: 347 or 242; 460, which may be taken concurrently. Offered: A.

CHEM 463 Spectroscopic Techniques for Structural Identification (2) NW Laboratory techniques of spectroscopic analysis for structural determination using UV, IR, NMR, mass spectroscopy. Prerequisite: 460, which may be taken concurrently. Offered: ASp.

CHEM 464 Computers in Data Acquisition and Analysis (3) NW Introduction to use of the computer in the chemistry laboratory. Principles of microcomputers and their use for such problems as data acquisition,

noise reduction, and instrument control. Prerequisites: 455, MATH 307 and 308 or equivalent. Offered: W.

CHEM 485 Computations in Chemistry (3) NW Computer calculations on color graphics workstations applied to problems in chemistry. Numerical methods and algorithms for calculating classical dynamics, quantum wavefunctions, wavepacket propagation, chemical kinetics. Use of computer programs for calculating electronic wavefunctions, molecular conformations, simulations of liquids and solids. Prerequisites: 455 and 456; 457, which may be taken concurrently. Offered: Sp.

CHEM 471 Physical Chemistry of Macromolecules (3) NW Classical hydrodynamic methods, and modern optical correlation and pulse techniques for studying dynamical motions and conformations of macromolecules, especially biopolymers, in solution. Cooperative thermal transitions, optical properties, and polyelectrolyte effects. Prerequisites: 457 or 351 or 452, and 455. Offered: alternate years; W.

CHEM 473 Workshop in the Teaching of Chemistry (* max. 15) NW Individual or group study project on the improvement of instruction in chemistry for K-6 teachers. Credit/no credit only. Prerequisites: 120 or 140. Offered: S.

CHEM 488 Teaching Chemistry (3) NW Training in teaching chemistry laboratory and quiz sections. For chemistry and biochemistry majors, especially those planning graduate work or secondary education. Covers teaching strategies, student diversity, learning styles, grading, and interaction with students and faculty. Credit/no credit only. Prerequisites: 2.8 GPA in chemistry and permission of instructor. Offered: A/WSp.

CHEM 499 Undergraduate Research and Report Writing (* max. 12) Research in chemistry and/or study in the chemical literature. Credit/no credit only. Prerequisites: permission of chemistry adviser, chemistry grade-point average above 3.00, and junior standing. Offered: A/WSpS.

Courses for Graduates Only

CHEM 502 Practical NMR Methods for Biological and Organic Structure Elucidation (4) Theory of NMR (rotating frame formalism, multi-pulse experiments, relaxation phenomena, 2D experiments) as applied to structural and dynamic problems in organic and biological chemistry. Provides basis for experiment selection and spectrum interpretation. A more advanced treatment of NMR than 460. Prerequisites: 224, 239, or 337. Recommended: 460 or equivalent, 435 or 455. Offered: W.

CHEM 508 Advanced Inorganic Chemistry (3, max. 9) Discussion of selected applications of physical techniques to the study of inorganic molecules. Topics include group theory, magnetic resonance spectroscopy (NMR and ESR), vibrational spectroscopy (IR and Raman), electronic spectroscopy, magnetism, and electrochemistry. Offered: Sp.

CHEM 510 Current Problems in Inorganic Chemistry (3, max. 12) Primarily for doctoral candidates in inorganic chemistry. Current topics (e.g., bioinorganic, advanced organometallic, materials and solid state, advanced inorganic spectroscopy). See department for instructor and topics during any particular quarter. Offered: Sp.

CHEM 520 Current Problems in Analytical Chemistry (2, max. 12) Primarily for doctoral candidates in analytical chemistry. Current topics (e.g., flow injection analysis, mass spectrometry, and advanced radiochemistry). See department for instructor and topics during any particular quarter. Offered: ASp.

CHEM 521 Analytical Electrochemistry (3) Theory and practice of modern electrochemistry with emphasis on instrumentation and applications in chemical analysis. Offered: alternate years.

CHEM 522 Atomic and Molecular Analytical Spectroscopy (3) Quantitative analysis of atomic and molecular species, using all forms of electromagnetic radiation, electrons, and gaseous ions. Offered: alternate years.

CHEM 525 Process Analytical Chemistry (3) Chemical sensors and systems approach to chemical analysis as an integral part of monitoring and controlling chemical, biological, and medical processes. Offered: alternate years.

CHEM 526 Chemometrics (3, max. 9) Mathematical and statistical methods for experimental design, calibration, signal resolution, and instrument control and optimization. Offered: alternate years.

CHEM 530 Advanced Organic Chemistry (3) Fundamental aspects of organic structures and transformations. Structure and basicity of carbanions, substitution reactions, elimination reactions, nucleophilic addition and addition/elimination reactions, condensation reactions, structure and rearrangements of carbocations, electrophilic addition, electrophilic substitutions, neighboring group effects. Prerequisite: 337. Offered: A.

CHEM 531 Advanced Organic Chemistry (3) Structure, mechanism, acidity and basicity, stereochemistry, kinetics and equilibria, reactive intermediates, and catalysis. Prerequisite: 530. Offered: W.

CHEM 532 Advanced Organic Chemistry (3) Synthetic organic chemistry. Discussion of practical methods for the synthesis of complex organic molecules with an emphasis on synthetic strategy and the control of stereochemistry. Prerequisite: 530 and 531. Offered: Sp.

CHEM 540 Current Problems in Organic Chemistry (3, max. 18) Primarily for doctoral candidates in organic chemistry. Discussions of topics of current interest and importance. See department for instructor and topic during any particular quarter.

CHEM 550 Introduction to Quantum Chemistry (3) Origins and basic postulates of quantum mechanics, solutions to single-particle problems, angular momentum and hydrogenic wave functions, matrix methods, perturbation theory, variational methods. Prerequisite: 455. Offered: A.

CHEM 551 Introduction to Quantum Chemistry (3) Electronic structure of many-electron atoms and molecules, vibration and rotation levels of molecules, effects of particle exchange, angular momentum and group theory, spectroscopic selection rules. Prerequisite: 550. Offered: W.

CHEM 552, 553 Statistical Mechanics (3, 3) General theorems of statistical mechanics, relation of the equilibrium theory to classical thermodynamics, quantum statistics, theory of imperfect gases, lattice statistics and simple cooperative phenomena, lattice dynamics and theory of solids, liquids, solutions, and polymers, time-dependent phenomena and mechanisms of interaction. Prerequisites: 455 and 456 (concurrent registration permitted) or equivalent for 552; 552 for 553. Offered: Sp, A.

CHEM 560 Current Problems in Physical Chemistry (3, max. 9) Primarily for doctoral candidates in physical chemistry. A discussion of topics selected from active research fields. See department for instructor and the topic during any particular quarter. Offered: W.

CHEM 561 Macromolecules (3, max. 9) Physical chemistry of macromolecules and biopolymers. Topics include solution thermodynamics, hydrodynamic properties, molecular weight distributions, optical and electro-optic techniques, chain configuration statistics, cooperative phenomena, theory of rubber elasticity, and polyelectrolytes. Offered: alternate years.

CHEM 570 Topics in Biotechnology (1, max. 9) Lectures reflecting faculty research in biotechnology.

Topics from botany, biochemistry, microbiology, genetics, chemistry, bioengineering, molecular biotechnology, pathology, and biological structure. Offered: A.

CHEM 581 Topics in Inorganic Chemistry (3, max. 18) Open only to students accepted for doctoral work in chemistry. Credit/no credit only. Offered: AWSp.

CHEM 582 Topics in Analytical Chemistry (3, max. 18) Open only to students accepted for doctoral work in chemistry. Credit/no credit only. Offered: AWSp.

CHEM 583 Topics in Organic Chemistry (3, max. 18) Open only to students accepted for doctoral work in chemistry. Credit/no credit only. Offered: AWSp.

CHEM 585 Topics in Physical Chemistry (3, max. 18) Open only to students accepted for doctoral work in chemistry. Credit/no credit only. Offered: AWSp.

CHEM 590 Seminar in General Chemistry (1, max. 18) For chemistry graduate students only. Credit/no credit only. Offered: AWSpS.

CHEM 591 Seminar in Inorganic Chemistry (1, max. 18) For chemistry graduate students only. Credit/no credit only. Offered: AWSpS.

CHEM 592 Seminar in Analytical Chemistry (1, max. 18) For chemistry graduate students only. Credit/no credit only. Offered: AWSpS.

CHEM 593 Seminar in Organic Chemistry (1, max. 18) For chemistry graduate students only. Credit/no credit only. Offered: AWSpS.

CHEM 595 Seminar in Physical Chemistry (1, max. 18) For chemistry graduate students only. Credit/no credit only. Offered: AWSpS.

CHEM 596 Seminar in Biotechnology (1, max. 6) Seminar presentations for doctoral students and faculty on biotechnology research by speakers from industry and academia. Offered: Sp.

CHEM 600 Independent Study or Research (*) Prerequisite: permission of coordinator. Offered: AWSpS.

CHEM 700 Master's Thesis (*) Prerequisite: permission of coordinator. Offered: AWSpS.

CHEM 800 Doctoral Dissertation (*) Prerequisite: permission of coordinator. Offered: AWSpS.

Classics

218 Denny

Classics embraces the ancient Greek and Roman civilizations from prehistoric times to the Middle Ages. The department is concerned with both the Greek and Latin languages and their literatures, including poetry, drama, history, philosophy, rhetoric, and political theory, as well as with classical art and archaeology.

Classical Seminar in Rome: During spring quarter, the department offers instruction in classics for advanced

undergraduate majors and graduate students at the University of Washington Rome Center, located in the Palazzo Pio on the Campo de' Fiori.

Undergraduate Program

Bachelor of Arts

Major Requirements

Classical Studies: Greek or Latin through 307 or the equivalent; 36 additional credits chosen with department approval from courses in Greek and Latin at the 300 or 400 level (including 1 to 3 credits of CLAS 495, but excluding LATIN 300, 301, or GREEK 300, 301), classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science. Classical studies is especially suited to students not preparing for graduate study in classics but wishing to explore the literature, history, art, archaeology, and philosophy of classical antiquity primarily through English translations.

Classics: 18 approved credits in Greek at the 400 level and 18 approved credits in Latin at the 400 level; 1 to 3 credits of CLAS 495, which may substitute for either Greek or Latin 400-level credit.

Greek: 27 approved credits in Greek at the 400 level plus 9 credits chosen with department approval from courses in Latin, Greek at the 400 level, classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science. The major must include 1 to 3 credits of CLAS 495.

Latin: 27 approved credits in Latin at the 400 level plus 9 credits chosen with department approval from courses in Greek, Latin at the 400 level, classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science. The major must include 1 to 3 credits of CLAS 495.

CLAS 101, 102, 205, and HIST 111 may not be offered in fulfillment of major requirements for baccalaureate degrees in the Department of Classics.

Minors

Minor Requirements

Classical Studies: 25 approved credits from classics in English, classical art and archaeology, ancient history, the history of ancient philosophy, and the history of ancient science.

Greek: Minimum 25 credits in Greek, including at least 6 credits at the 400 level (excluding 490).

Latin: Minimum 25 credits in Latin, including at least 6 credits at the 400 level (excluding 490).

Classics and Ancient History: 30 credits from the following list, including at least 20 upper-division credits (15 of which must be taken at the UW). 100-level credit is not accepted. Minimum 10 credits from each department (Classics and History). 2.0 minimum grade required in each course. Not available to students pursuing majors or other minors in classics.

Courses: CLAS 210, 320, 322, 324, 326, 328, 424, 427, 428, 430, 435, 445, 496 (except when topic is medieval); CLAR 340, 341, 342, 343, 442, 446, 448; GREEK (all upper-division courses except 300 and 301); LATIN (all upper-division courses except 300, 301, 401, and 402); HSTAM 201, 202, 205, 301, 336, 401, 402, 403, 405, 411, 412, 413, 414; HIST 498 (when topic is ancient).

Graduate Program

Stephen E. Hinds, Graduate Program Coordinator

The Department of Classics offers programs of graduate study leading to the Master of Arts and Doctor of Philosophy degrees. The M.A. degree may be in Greek, Latin, or Classics (a combination of Greek and Latin). The Ph.D. degree requires both Greek and Latin.

The program of formal instruction has been designed to ensure comprehensive and thorough training in the basic disciplines needed for teaching and research. The department offers courses in the major writers and periods of literature, philosophy, and history, in classical art and archaeology, and in Greek and Latin linguistics. The courses in Greek and Latin literature include many works on the Ph.D. degree reading list. Seminars introduce research techniques through the study of more specialized topics, which vary from quarter to quarter. Students may include in their programs courses and seminars given by other departments in such subjects as ancient philosophy, ancient and medieval history, comparative literature, and linguistics. A brochure, *The Graduate Program in Classics*, available from the department, gives additional information.

The Suzzallo Library has an extensive classics collection. The department's seminar room in Denny Hall, which is available to graduate students for their study and research, contains an excellent noncirculating library with such reference works as Pauly-Wissowa, *L'Année Philologique*, the *Thesaurus Linguae Latinae*, the *Müller Handbuch* series, the Teubner and Oxford texts, commentaries on the classical authors, standard collections of inscriptions and fragments, and a number of important serials. The department also possesses an Ibycus scholarly computer and a license for the *Thesaurus Linguae Graecae*, *Thesaurus Linguae Latinae*, and other data bases.

Applicants for admission to the M.A. program should present an undergraduate major or its equivalent in Greek, Latin, or Classics. Prospective aspirants for the Ph.D. degree should have had two years of upper-division study in both languages, but may be admitted with less preparation in one language if their preparation in the other language is exceptionally strong. Admission to the Ph.D. program may be granted after completion of the requirements for the M.A. degree.

M.A. degree requirements are a minimum of 27 credits in courses or seminars in Greek or Latin or both, and in related subjects approved by the department; a reading knowledge of French, German, or Italian; either an acceptable thesis or 9 additional credits in approved graduate courses and seminars and a research paper.

Doctor of Philosophy degree requirements are a minimum of 72 credits in courses or seminars in Greek, Latin, and related subjects approved by the department; a reading knowledge of German and either French or Italian; Greek and Latin prose composition; translation examinations on Greek and Latin; examinations in two special authors and one field of classical studies; an oral General Examination; dissertation and Final Examination. Graduate students must have teaching experience before completing requirements for their terminal degree.

A number of teaching assistantships are available. Assistants teach sections of elementary Latin and Greek, a course in Latin and Greek derivatives, hold discussion sections in classical literature in translation, or assist faculty members with other courses. The teaching load is four to six hours a week throughout the academic year.

Faculty

Chair

Michael R. Halleran

Professors

Bliquez, Lawrence J. * 1969; PhD, 1968, Stanford University; Greek oratory, Greek historiography and historians, Greek and Roman medicine.

Halleran, Michael R. * 1983; PhD, 1981, Harvard University; Greek literature, especially tragedy; Greek intellectual history.

Harmon, Daniel P. * 1967; PhD, 1968, Northwestern University; Greek and Roman religion, Latin poetry, archaic Rome, classical linguistics.

MacKay, Pierre A. * 1966, (Emeritus); PhD, 1964, University of California (Berkeley); Greek literature, post-classical and Byzantine Greek literature, numismatics.

McDiarmid, John B. * 1949, (Emeritus); PhD, 1940, Johns Hopkins University; Greek literature and philosophy.

Pascal, Paul * 1953, (Emeritus); PhD, 1953, University of North Carolina; Latin literature and paleography, medieval Latin.

Associate Professors

Blundell, Mary Whitlock * 1985; PhD, 1984, University of California (Berkeley); Greek and Roman philosophy and literature.

Clauss, James J. * 1984; PhD, 1983, University of California (Berkeley); Latin poetry and prose, Hellenistic literature, Latin literature of the Empire.

Gowing, Alain M. * 1988; PhD, 1988, Bryn Mawr College; Latin and Greek historiography, Latin literature of the Empire.

Hinds, Stephen E. * 1992; PhD, 1985, St Johns College (Cambridge); Latin poetry, especially elegy and epic; literary criticism and theory.

Langdon, Merle K. * 1976; PhD, 1972, University of Pennsylvania; Greek archaeology, epigraphy, topography, and history.

Assistant Professors

Colwell, Sheila M. * 1990; PhD, 1992, Princeton University; archaic Greek literature, mythology, epic tradition.

Connors, Catherine M. * 1990; PhD, 1989, University of Michigan; Roman epic, ancient novel, women in Greek and Roman antiquity.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Classical Archaeology

CL AR 340 Pre-Classical Art and Archaeology (3) VLPA Langdon Survey of the art and the other material remains of the civilizations in the Aegean from the Neolithic Age to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece, illustrated by slides. The history, techniques, and results of significant excavations are examined. Offered: jointly with ART H 340.

CL AR 341 Greek Art and Archaeology (3) VLPA Bliquez, Langdon Survey of the material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the geometric to the Hellenistic periods, illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct

the material culture of antiquity. Offered: jointly with ART H 341.

CL AR 342 Roman Art and Archaeology (3) VLPA Harmon Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with ART H 342.

CL AR 343 Hellenistic Art and Archaeology (3) VLPA Langdon Survey of the art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting, mosaics, and minor arts examined in lectures illustrated with slides. Offered: jointly with ART H 343.

CL AR 442 Greek and Roman Painting (3) VLPA Langdon Study of painted decoration on Greek vases, and Roman wall painting, with emphasis on the historical and stylistic development of each. Offered: jointly with ART H 442.

CL AR 444 Greek and Roman Sculpture (3) VLPA Langdon History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC. Offered: jointly with ART H 444.

CL AR 446 Greek Architecture (3) VLPA Langdon Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with ARCH 454/ART H 446.

CL AR 448 The Archaeology of Italy (3) VLPA Harmon Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with ART H 448.

Classics Courses in English

Upper-division classics courses in English (300 and 400 level) in the Department of Classics do not generally have prerequisites. Most 400-level courses deal with a single genre of literature or with a limited area of classical studies. The 300-level courses deal with broader subjects at a relatively advanced level. Both are primarily for juniors and seniors, but they are open to freshmen and sophomores with an interest or background in the subject of the course.

CLAS 101 Latin and Greek in Current Use (2) VLPA Designed to improve and increase English vocabulary through a study of the Latin and Greek elements in English, with emphasis on words in current literary and scientific use. No auditors. Knowledge of Latin or Greek is not required. Credit/no credit only. Offered: AWPSP.

CLAS 102 Grammar and Syntax through Latin (3) VLPA Improve familiarity with basic grammar, syntax, logic through study of mechanics of the Latin language. For Educational Opportunity Program students only. No auditors. Knowledge of Latin or Greek not required. Credit/no credit only.

CLAS 205 Bioscientific Vocabulary Building From Latin and Greek (3) VLPA Designed to help the student master the scientific vocabulary of his or her particular field by a study of the Latin and Greek roots that are used to create the majority of scientific terms. No auditors. Knowledge of Latin or Greek is not required. Credit/no credit only. Offered: AWPSP.

CLAS 210 Greek and Roman Classics in English (5) VLPA Bliquez, Blundell, Clauss, Colwell, Connors, Gowing, Halleran, Harmon, Hinds, Langdon, MacKay Introduction to classical literature through a study of the major Greek and Latin authors in modern translation. Offered: AWPSP.

CLAS 320 Greek and Roman Private and Public Life (5) VLPA/I&S Bliquez Study of the civic and social practices and institutions of everyday Greek and Roman private and public life, including the family, social classes, the courts and legal systems, military service and war, technology and the trades, money and banking, agriculture and rural life. Many lectures illustrated by slides. Offered: A.

CLAS 322 Intellectual History of Classical Greece (5) VLPA/I&S Blundell Uses Plato's Republic as a core text to explore a range of issues of ancient and contemporary interest, such as justice, political theory, male attitudes toward women, and the nature of the soul. Besides the Republic and other works of Plato, readings are taken from Homer, tragedy, comedy, Aristotle, and others. Offered: Sp.

CLAS 324 Greek and Roman Athletics (3) I&S Langdon Greek and Roman athletic festivals and events, and the place of athletes and sport in ancient society.

CLAS 326 Women in Antiquity (3) VLPA/I&S Colwell, Connors A broad survey of primary sources in medicine, law, philosophy, religious ritual, myth, history, and ethnography, informed by perspectives from literature, art, and archaeology. Provides students the tools to analyze the social roles of women in ancient Greece and Rome.

CLAS 328 Sex, Gender, and Representation in Greek and Roman Literature (3) VLPA/I&S Hinds Affirmation and inversion of gender roles in Greek and Roman literature, myths of male and female heroism; marginalization of female consciousness; interaction of gender, status, and sexual preference in love poetry. Readings from epic, drama, historiography, romance, and lyric.

CLAS 330 The Age of Augustus (5) VLPA/I&S Gowing Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14). Includes readings in Augustan authors such as Virgil, Ovid, and Horace as well as the study of Augustan art and architecture. Offered: jointly with HSTAM 330.

CLAS 399 Study Abroad: Classics (3-15, max. 20) VLPA For participants in Classics overseas study programs. Specific course content determined by assigned faculty member. Credit not applicable to majors in the Classics Department without approval Prerequisite: permission of department Chair.

CLAS 424 The Epic Tradition (5) VLPA Clauss, Halleran, MacKay Ancient and medieval epic and heroic poetry of Europe in English: the Iliad, Odyssey, and Aeneid; the Roland or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies according to instructor's preference. Offered: jointly with C LIT 424.

CLAS 427 Greek and Roman Tragedy in English (5) VLPA Halleran Study of the development of Greek and Roman tragedy, with extensive readings in representative plays of Aeschylus, Sophocles, Euripides, and Seneca.

CLAS 428 Greek and Roman Comedy in English (3) VLPA Colwell Readings from the comedies of Aristophanes, Plautus, and Terence.

CLAS 430 Greek and Roman Mythology (3/5) VLPA Clauss, Colwell, Connors, Gowing, Halleran, Hinds Principal myths found in classical and later literature. Offered: AWPSP.

CLAS 432 Classical Mythology in Film (3/5) VLPA Clauss Comparison and discussion of classical myths and modern films inspired by them. Promotes access to the reading of classical mythology. Analyzes significant differences between ancient literary and modern cinematographic representations of the myth.

CLAS 435 The Ancient Novel (3) VLPA *Connors* Study of the origins and growth of fiction and the novel in the Latin tradition.

CLAS 445 Greek and Roman Religion (3) VLPA/ I&S *Harmon, Langdon* Religion in the social life of the Greeks and Romans, with emphasis placed on their public rituals and festivals. Attention is given to the priesthoods, personal piety, rituals of purification and healing, and the conflict of religions in the early Roman Empire. Many lectures illustrated by slides. Prerequisite: one course in ancient history, or classics, or religious studies; RELIG 201 preferred. Offered: jointly with RELIG 445.

CLAS 495 Senior Essay (1-3) VLPA Usually written in conjunction with another course in the final year of study in the major.

CLAS 496 Special Topics (2-5, max. 15) VLPA Offered occasionally by visitors or resident faculty.

Greek

GREEK 101, 102, 103 Elementary Greek (5, 5, 5) 101, 102: an intensive study of grammar, with reading and writing of simple Attic prose; 103: reading of selections from classical Greek literature. Prerequisites: 101 for 102, 102 for 103. Offered: A, W, Sp.

GREEK 300, 301 Greek Language, Accelerated (5, 5) Intensive introduction to Attic Greek. Not accepted as upper-division credit toward a major in Greek or classics. Does not satisfy foreign language proficiency requirement. Prerequisites: some previous experience in, or study of, a foreign language for 300; 300 for 301. Offered: W, Sp.

GREEK 305, 306 Attic Prose (5, 5) VLPA Translation of selections from Attic prose; elementary exercises in Attic prose composition. Prerequisites: 103, 301, or equivalents.

GREEK 307 Homer (5) VLPA Translation of selections from the Iliad or the Odyssey; Attic prose composition, metrics. Prerequisite: 306 or equivalent. Offered: Sp.

GREEK 308 Introduction to Koine Greek Texts (3) VLPA *Williams* Reading and discussion of selected religious and philosophical texts from Koine Greek. Prerequisite: 306.

Prerequisite for the following 400-level Greek courses: four years of high school Greek or 307 or permission of undergraduate adviser.

GREEK 413 The Pre-Socratic Philosophers (3) VLPA *Blundell* See above.

GREEK 414 Plato (3) VLPA *Blundell, MacKay* See above. Offered: alternate years; W.

GREEK 415 Aristotle (3) VLPA *Blundell, MacKay* See above. Offered: alternate years; Sp.

GREEK 422 Herodotus and the Persian Wars (3) VLPA *Bliquez, Langdon, MacKay* See above. Offered: alternate years; A.

GREEK 424 Thucydides and the Peloponnesian War (3) VLPA *Bliquez, Langdon* See above. Offered: alternate years; W.

GREEK 426 Attic Orators (3) VLPA *Bliquez, Langdon, MacKay* See above. Offered: alternate years; Sp.

GREEK 442, 443, 444 Greek Drama (3, 3, 3) VLPA *Halleran* See above. Offered: alternate years.

GREEK 449 Greek Epic (3) VLPA *Colwell, Halleran, MacKay* See above. Offered: alternate years; A.

GREEK 451 Lyric Poetry (3) VLPA *Blundell, Colwell, Halleran* See above. Offered: alternate years; W.

GREEK 453 Pindar: The Epinician Odes (3) VLPA *Colwell, Halleran* See above. Offered: alternate years; Sp.

GREEK 461 Early Greek Literature (3-5, max. 15) VLPA Readings and discussion of selected authors of the early Greek period.

GREEK 462 Literature of Classical Athens (3-5, max. 15) VLPA Readings and discussion of selected authors of classical Athens.

GREEK 463 Hellenistic Greek Literature (3-5, max. 15) VLPA *Clauss* Readings and discussion of selected authors of the Hellenistic Age.

GREEK 490 Supervised Study (* max. 18) Special work in literary and philosophical texts for graduates and undergraduates. Prerequisite: permission of undergraduate adviser.

Latin

LATIN 101, 102, 103 Elementary Latin (5, 5, 5) 101, 102: an intensive study of grammar, with reading and writing of simple Latin prose; 103: reading of selections from classical Latin literature. Prerequisites: 101 for 102, 102 for 103. Offered: A, W, Sp.

LATIN 300, 301 Latin Language, Accelerated (5, 5) Intensive introduction to classical Latin. Not accepted as upper-division credit toward a major in Latin or classics. Does not satisfy foreign language proficiency requirement. Prerequisites: some previous experience in, or study of, a foreign language for 300; 300 for 301. Offered: W, Sp.

LATIN 305 Introduction to Latin Literature (5) VLPA Readings in prose and poetry from various Latin authors; elementary exercises in Latin prose composition. Prerequisite: 103 or 301 or equivalent. Offered: A.

LATIN 306 Cicero and Ovid (5) VLPA Readings from the orations of Cicero and the poetry of Ovid; elementary exercises in Latin prose composition. Prerequisite: 305 or equivalent. Offered: W.

LATIN 307 Vergil (5) VLPA Selections from the first six books of the Aeneid; elementary exercises in Latin prose composition or metrics. Prerequisite: 306 or equivalent. Offered: Sp.

LATIN 401 Medieval Latin Literature to 1200 (3) VLPA *Hinds* Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or renaissance Latin texts in their research. Prerequisite: permission of instructor. Offered: alternate years; Sp.

LATIN 402 Later Medieval and Renaissance Latin Literature (3) VLPA *Hinds* Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or renaissance Latin texts in their research. Prerequisite: permission of instructor. Offered: alternate years; Sp.

Prerequisite for the following 400-level Latin courses: four years of high school Latin, or 307, or permission of undergraduate adviser.

LATIN 412 Lucretius (3) VLPA *Blundell* Offered: alternate years.

LATIN 414 Seneca (3) VLPA *Blundell* Offered: alternate years.

LATIN 422 Livy (3) VLPA *Clauss, Gowing* Offered: alternate years; A.

LATIN 423 Cicero and Sallust (3) VLPA *Clauss, Gowing* Offered: alternate years; W.

LATIN 424 Tacitus (3) VLPA *Clauss, Gowing* Offered: alternate years; Sp.

LATIN 447 Roman Lyric (3) VLPA *Clauss, Harmon* Offered: alternate years; A.

LATIN 449 Roman Elegy (3) VLPA *Harmon, Hinds* Offered: alternate years; W.

LATIN 451 Roman Satire (3) VLPA *Connors* Offered: alternate years; Sp.

LATIN 457 Roman Drama (3) VLPA *Blundell, Connors* Offered: alternate years; A.

LATIN 458 Roman Epic (3) VLPA *Clauss, Harmon, Hinds* Offered: alternate years; W.

LATIN 461 Latin Literature of the Republic (3-5, max. 15) VLPA Readings and discussion of selected authors from the era of the Roman Republic.

LATIN 462 Latin Literature of the Augustan Age (3-5, max. 15) VLPA Readings and discussion of selected authors from the Augustan era.

LATIN 463 Latin Literature of the Empire (3-5, max. 15) VLPA Readings and discussion of selected authors from the Roman Empire.

LATIN 465 Roman Topography and Monuments (5, max. 10) VLPA *Clauss, Gowing, Harmon* Study of the material remains of ancient Rome from the archaic period through the imperial age. Reading of source materials and inscriptions in Latin. Conducted in Rome. Offered: Sp.

LATIN 475 Improvement of Teaching: Latin (5) VLPA *Clauss, Gowing* Examination and evaluation of the various methods of teaching Latin; audiovisual aids; testing materials; textbooks; relation of Latin to other languages; Latin derivatives in English vocabulary. Offered: jointly with EDC&I 438; S.

LATIN 476 Caesar and Vergil for High School Teachers (5) VLPA *Clauss, Gowing* Interpretation of the works of Caesar and Vergil, with special reference to the problems of high school teaching. Offered: jointly with EDC&I 439.

LATIN 480 Supervised Study (* max. 18) Special work in literary and philosophical texts for graduates and undergraduates. Prerequisite: permission of undergraduate adviser.

Courses for Graduates Only

Classical Archaeology

CL AR 513 Athenian Topography (5) *Langdon* Detailed consideration of the topography and monuments of ancient Athens from the beginning through the Roman period.

CL AR 541 Seminar in Greek and Roman Art (3) *Langdon* In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with ART H 541.

Classics

CLAS 700 Master's Thesis (*)

CLAS 800 Doctoral Dissertation (*)

Classical Linguistics

CL LI 501 Comparative Phonology of Greek and Latin (5) *Harmon* Phonological developments of Greek and Latin from Indo-European to the classical periods of both languages.

CL LI 503 History of the Greek Language (5) Morphological and syntactical development of the Greek language from Homer through the New Testament; the development of prose and poetic style.

CL LI 505 History of the Latin Language (5) *Harmon* Morphological and syntactical development of the Latin language; the development of Latin as a literary language.

CL LI 506 Italic Dialects (5) *Harmon* Principal remains of the non-Latin languages and dialects of ancient Italy.

Greek

GREEK 500 Grammar and Composition (5) *Bliquez, Blundell, MacKay* Translation of passages from English to Greek for the purpose of acquiring advanced knowledge of the grammar and the style of the classical tongue.

GREEK 501 Homer (5) *Colwell, Halleran* Readings from the *Iliad* or the *Odyssey*.

GREEK 503 Aristophanes (5) *Bliquez* Select comedies.

GREEK 504 Plato (5) *Blundell* The Republic or other dialogues.

GREEK 506 Aristotle (5) *Blundell* Politics and/or Ethics.

GREEK 508 Lysias and Demosthenes (5) *Bliquez, MacKay* Select speeches, oratorical theory, historical questions.

GREEK 510 Greek Historians (5, max. 10) *Bliquez, MacKay* Selections from Herodotus, Thucydides, and/or Xenophon.

GREEK 512 Greek Tragedy (5, max. 10) *Halleran* Aeschylus, Sophocles, and/or Euripides.

GREEK 515 Greek Epigraphy (5) *Langdon* Selected inscriptions from various Greek states and sanctuaries and evidence they provide for religious and social practices, literature, and political history. Classification and editing of inscriptions, and epigraphical techniques.

GREEK 520 Seminar (5, max. 45) *Bliquez, Blundell, Clauss, Colwell, Halleran, Harmon, MacKay*

GREEK 590 Supervised Study (* max. 18) Prerequisite: permission of graduate program coordinator.

GREEK 600 Independent Study or Research (*)

Latin

LATIN 500 Grammar and Composition (5) *Clauss, Gowing, Hinds* Translation of passages from English to Latin for the purpose of acquiring advanced knowledge of the grammar and style of the classical tongue.

LATIN 501 Vergil (5) *Clauss, Harmon, Hinds* The *Aeneid*.

LATIN 502 Horace (5) *Clauss, Harmon* Odes and/or Epistles.

LATIN 503 Plautus and Terence: Early Republican Literature (5) *Blundell, Connors*

LATIN 504 Philosophy at Rome (5) *Blundell* Selected philosophical works of Cicero and other sources for Hellenistic and Roman philosophy.

LATIN 506 Cicero (5) *Gowing* Select speeches, with attention to rhetorical theory and/or letters.

LATIN 508 Silver Latin Literature (5) *Connors, Hinds* Selections from Martial, Lucan, and Petronius.

LATIN 510 Roman Historians (5, max. 10) *Clauss, Gowing* Caesar, Livy, and/or Tacitus.

LATIN 512 Augustan Poetry (5, max. 10) *Clauss, Harmon, Hinds* Vergil's Eclogues and Georgics, Roman elegaic poetry, and/or Ovid's *Metamorphoses* and *Amores*.

LATIN 520 Seminar (5, max. 45) *Blundell, Clauss, Connors, Gowing, Halleran, Harmon, Hinds*

LATIN 565 Seminar in Rome (5, max. 10) *Clauss, Gowing, Harmon* Study of selected topics and authors in Latin literature. Conducted in Rome.

LATIN 590 Supervised Study (* max. 18) Prerequisite: permission of graduate program coordinator.

LATIN 600 Independent Study or Research (*)

Communications

102 Communications

Undergraduate Program

Adviser
118 Communications

The School of Communications offers undergraduate instruction in four fields: new media technologies and policy; international communication; journalism; and institutions and effects.

Bachelor of Arts

Admission Requirements: Sophomore standing (completion of a minimum of 45 college credits). Admission is competitive based on GPA, completion of CMU 200, and application. A 2.50 GPA guarantees consideration, but not acceptance. Students are admitted quarterly; applications and additional information are available in 118 Communication.

Major Requirements: 50 credits in communications, including (1) CMU 200, (2) 30 credits in a primary field, and (3) 15 credits in a secondary field. (Journalism is available only as a primary field.) Each field has additional requirements, listed below.

Primary Fields

New Media Technologies and Policy: CMU 300 and 301. Remaining credits from 400, 401, 402, 403, 404, 427, 440, 445, 451, 463, 489.

International Communication: CMU 320 or 321. Remaining credits from 420, 421, 422, 423, 424, 425, 426, 427, 428, 429, 489. Approval for substitute courses taken outside the department (e.g., in area studies) is given on a case by case basis.

Journalism: (Admission to this field requires the successful completion of a proctored written exam.) CMU 360, 361, 362, 440, and 468. One course from 452, 460, 462, 463, 465, 467, 469, 489. One course each in (a) economics, (b) American government, and (c) U. S. history.

Institutions and Effects: 5 credits from CMU 340, 341, 342, 343. Remaining credits from 400, 404, 424, 425, 426, 427, 440, 441, 442, 443, 444, 445, 447, 448, 449, 450, 451, 452, 453, 454, 489.

Secondary Fields

5 credits at the 300 level and 10 credits at the 400 level, all to be selected from the same primary field (excluding journalism and the student's own primary field).

Minor

Minor requirements: A minimum of 25 credits, including CMU 200, one 300-level course, and two 400-level courses.

Graduate Program

Richard B. Kielbowicz, Graduate Program Coordinator

The School of Communications offers programs leading to the degrees of Master of Arts, Doctor of Philosophy, and Master of Communications.

The Master of Arts degree program provides training in research and scholarship and can be either preparation for doctoral study or a terminal degree. A thesis is required.

The Doctor of Philosophy degree program is designed to develop conceptual and methodological capabilities in a substantive area of communication. (Substantive scholarly interests represented in the School may be found in the faculty listing below.) Doctoral students are expected to apply these capabilities as apprentice scholars in the teaching and research functions of the School.

The Master of Communications degree program offers the practicing professional journalist an opportunity to develop a substantive specialty in conjunction with the academic study of communication.

A foreign language, if appropriate to the student's program of study, may be required in the M.A. and Ph.D. programs.

Special Requirements

Full-time students are admitted to programs in the autumn quarter only. All foreign and Ph.D. students must attend full time. February 15 is the deadline for all applicants who wish to be considered for financial support. All required application materials must be received by that date. The deadline for initiating applications for autumn quarter admission is April 1.

Applicants for all programs must submit: official transcripts of all previous study; results of the Graduate Record Examination (from a test taken within the past five years); a letter of intent linking the applicant's vocational objectives to an available graduate program; three letters of recommendation and, where applicable, evidence of fluency in English. The minimum acceptable TOEFL score is 580. Elementary statistics is a prerequisite for all M.A. and Ph.D. students.

Financial Aid

Applications for teaching and research assistantships should be submitted to the School by February 15. Notices of financial aid are sent in most cases on or about April 1.

Research Facilities

The Communications Research Center facilitates the research of the School's graduate students and faculty.

Five laboratories offer word-processing, text-editing, and computing capabilities to facilitate research and computer-assisted instruction. Three of the labs are connected to the University's mainframe computers and Internet for statistical analysis, data-base management, document preparation, and access to worldwide information sources and email. The School has its own closed-circuit television laboratory.

Director

Edward P. Bassett

Professors

Bassett, Edward P. * 1989; PhD, 1967, University of Iowa; telecommunication technologies and information dissemination, public opinion, environment.

Carter, Richard Fremont * 1967; PhD, 1957, University of Wisconsin; communications theory, methodology, behavioral analysis.

Edelstein, Alex S. * 1955, (Emeritus); PhD, 1958, University of Minnesota; comparative communication research, public opinion, propaganda, international communication.

Giffard, Charles A. * 1978; PhD, 1968, University of Washington; international news systems, news flow, editing and reporting.

Lang, Gladys Engel * 1984, (Emeritus); PhD, 1954, University of Chicago; political effects of mass media, sociology of art, political movements and crowd behavior.

Lang, Kurt * 1984, (Emeritus); PhD, 1953, University of Chicago; political and social effects of the media on mass communication.

Pember, Don R. * 1969; PhD, 1969, University of Wisconsin; mass media law, First Amendment history.

Shadel, Willard F. 1963, (Emeritus); MA, 1953, University of Michigan; broadcasting.

Stamm, Keith R. * 1973; PhD, 1968, University of Wisconsin; communities and newspapers, new media technology, dynamic models of communication behavior.

Yerxa, Fendall Winston * 1965, (Emeritus); BA, 1936, Hamilton College; editorial journalism.

Associate Professors

Baldasty, Gerald J. * 1974; MA, 1974, University of Wisconsin; PhD, 1978, University of Washington; communications history and law, government-press relations, First Amendment philosophy and theory.

Bowen, Lawrence * 1973; PhD, 1974, University of Wisconsin; commercial communications, media research, consumer information-seeking and -processing behaviors.

Bowes, John E. * 1974; PhD, 1971, Michigan State University; man-machine communication, public opinion, international communication.

Chan, Anthony B. * 1990; PhD, 1980, York University (Canada); history and politics of Pacific Rim communication systems, Canadian studies.

Cranston, Patricia * 1954, (Emeritus); MA, 1954, University of Texas (Austin); broadcast journalism, history, writing and production of docudramas.

Jackson, Kenneth M. * 1974, (Emeritus); PhD, 1970, University of Washington; institutional communications, media research, mass media and public policy, cultural communications.

Kielbowicz, Richard B. * 1984; PhD, 1984, University of Minnesota; communication history/law, impact of technology on press and society, Canadian media.

Samuelson, Merrill * 1962, (Emeritus); PhD, 1960, Stanford University; research methods, processes of reading, patterns in reader selection of new stories.

Simpson, Roger A. * 1968; PhD, 1973, University of Washington; communication history, law of communication, media economics, editorial journalism.

Underwood, Douglas M. 1987; MA, 1974, Ohio State University; editorial journalism, legislative affairs, literature of journalism.

Assistant Professors

Fearn-Banks, Kathleen A. 1990; MS, 1965, University of California (Los Angeles); public affairs, risk communications.

Gromala, Diane J. 1994; MFA, 1990, Yale University; interface design, interactive multimedia, cyberspace and cultural theory.

Heintz-Knowles, Katharine * 1991; PhD, 1991, University of Illinois; influence of family environment on children's uses and interpretations of television content.

Rivenburgh, Nancy * 1989; MS, 1982, Boston University; PhD, 1991, University of Washington; international

communications, the construction of media images of other cultures.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

CMU 200 Introduction to Mass Communication (5) I&S Examines the role mass communication systems play in our society, including their history, structure, processes, and effects. Strong emphasis on major issues in the media today such as violence, stereotyping of images, political campaigns, and other ethical issues.

CMU 300 Basic Concepts of New Media (5) I&S Provides a comprehensive examination of the effects of new, digital media on interpersonal communication, media industries, and media culture. Emphasis on economic, social, political, and aesthetic implications. Provides limited experience with computer-based media. No prior technical computer experience assumed.

CMU 301 Navigating Information Networks for Mass Media (5) Builds familiarity with computer-mediated information networks. Introduces and compares network search engines, agents, browsing/viewing tools and retrieval/transfer software for use by reporters and other media workers. Instruction and practice with searching/acquiring information, its analysis and interpretation, illustration, and write-up. No prior computer or network experience assumed.

CMU 304 The Press and Politics in the United States (5) I&S Journalist's role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Offered: jointly with POL S 304.

CMU 320 Global Communication (5) I&S Introduction to the history, purpose, channels, content, technologies, policy, and regulation of international communications systems. Issues covered include disparities in media development between post-industrial and developing nations, imbalances in international news and information flow, and the emergence of global communications.

CMU 321 Communications in International Relations (5) I&S Looks at communications in relations between international groups and states. Examines the range of functions and roles communication media play in international affairs, global issues, and inter-group relations. Also examines the strategic use of communications by various groups.

CMU 340 History of Mass Communication (5) I&S History and development of communication from prehistoric times; rise of mass media; political and economic context of newspapers, radio, film; and television.

CMU 341 Government and Mass Communications (5) I&S Survey of the contemporary relationship between the American press and the government. After an initial exploration of the development of the First Amendment, specific problems resulting from the intersection of the press and the government are examined, including both legal and political issues.

CMU 342 Media Structure (5) I&S Industrial organization and culture; consumer and producer decisions; public policy toward media; workforce and unions. Media role in culture and political economy.

CMU 343 Effects of Mass Communication (5) I&S Effects of mass communication on individuals and society. Relevant theories applied to research evidence, addressing such topics as effects of stereotypes, violent and sexual imagery, and persuasive messages on our knowledge, attitudes, and behaviors.

CMU 360 Beginning Newswriting and Reporting (4) I&S Introduction to newswriting and reporting for print media. Focus on defining news, general writing skills, constructing leads, preparing a variety of basic journalism news stories, interviewing techniques, covering beats, and journalistic style. Prerequisite: communications major or permission of instructor.

CMU 361 Advanced Reporting and Newswriting (5) I&S In-depth training in the development of advanced-level reporting and newswriting skills. Practice in information gathering, interviewing, use of sources, database analysis, and investigative reporting techniques. Prerequisite: 360.

CMU 362 News Laboratory (5) I&S Newswriting-skills course. Students gain real-world experience by producing news and feature stories for client papers in the Puget Sound Region. Involves considerable one-on-one work with the lecturer/editor. Requires writing and reporting skills.

CMU 363 Communication Internship (2-6, max. 6) Supervised academic work done in connection with editorial internship. Designed to extend the student's knowledge of professional perspectives. Does not apply to required 50 credits in communications. Open only to majors. Credit/no credit only. Prerequisites: permission of instructor.

CMU 382 Introduction to Communication Research (5) I&S Comprehensive introduction to research methods employed in basic and applied communication research, including sample surveys, content analysis, experimentation, and elementary statistics. Offered: jointly with SP CMU 382.

CMU 400 History of Media Technology and Regulation (5) I&S Impact of pre-1980's media technologies—printing, telecommunications, broadcasting, photography, and more—on individuals and institutions, especially government, business, and the mass media. How laws and policies have changed to govern new media forms.

CMU 401 Telecommunication Policy and Convergent Media (5) I&S Examines contemporary media and telecommunications industries since 1980 and their accelerating convergence. Attention given to economic, policy, and mass use issues. Review of major industry leaders, promising technologies, and new services. Social issues, government initiatives, and new legislation covered for both North American and international markets.

CMU 402 New Media as Virtual Communities (5) I&S Technologically-mediated virtual communities considered through analysis of historical precedents and influences and through an exploration of the concept of community. Issues include a focus on social interactions: the social, political, economic, and technological contexts of virtual communities and the limits for their sustenance.

CMU 403 Visual Literacy for Mass Communication (5) I&S Overview of how we apprehend, interpret, and understand visual content of traditional and evolving media forms. Emphasis on analytic methods, the aesthetic characteristics of media forms and how visual are utilized and understood. Several perspectives considered, including historical, cultural, and critical.

CMU 404 New Media Criticism (5) I&S Examines critically the content of new media forms, contrasting them with traditional media. Stresses influences of social, economic, political, and technological forces on content and developing strategies for critical analysis. Prerequisite: 301 or permission of instructor.

CMU 418 Issues in Mass Communication (5, max. 10) I&S Topics vary. Recommended: background in social sciences.

CMU 420 Comparative Media Systems (5) I&S Provides students an understanding of policies that

shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with SIS 419.

CMU 421 Intercultural Communication (5) I&S Investigates intercultural communication theory and its application for varying levels of human interaction: interpersonal, intergroup, and international. Recommended: SP CMU 384. Offered: jointly with SP CMU 478.

CMU 422 Culture in International Communications Research (5) I&S Examines research that deals with or compares data from different countries, cultures, or sub-cultures. For methodological issues and potential pitfalls due to variability in language, culture, geo-political orientation.

CMU 423 Communications and Development (5) I&S Examines both theory and application involved in using communications media as a tool for addressing political, social, and economic development issues. Utilizes a case study approach to look at localized applications of traditional and new communications tools in the pursuit of sustainable development.

CMU 424 Canadian Media Systems (5) I&S Structure and operation of Canadian mass media and telecommunications industries. Impact of United States media on Canadian culture. Role of domestic media in lives of minorities. Laws and policies governing communications. Offered: jointly with SISCA 424.

CMU 425 European Media Systems (5) I&S Examines media systems in selected countries in Europe and policy issues that link (or divide) members of the European Union and other major media producers. Media studied in context of the contemporary economic, social, political, and cultural milieu in which they operate. Offered: jointly with EURO 425.

CMU 426 International Media Images (5) I&S Ways in which media construct images of international peoples and events. Develops a set of critical tools for assessing media portrayals of international affairs and cultures.

CMU 427 International Communications Law and Policy (5) I&S Examines the international and comparative aspects of traditional press law, broadcast regulation, and telecommunications policy. Also examines freedom of the press in international reporting and the efforts of countries to limit foreign media influences within their borders.

CMU 428 Asian Media Systems (5) I&S Examines the media systems and communication policies in selected Asian countries. Identifies and analyzes the cultural, economic, historical, and political parameters that influence these media.

CMU 429 Chinese Communications Systems (5) I&S Analyzes the economic, historical, intellectual, social, and political foundations of communications systems in the region of Chinese Asia: China, Hong Kong, Singapore, and Taiwan. Focus primarily on print and broadcast journalism.

CMU 440 Mass Media Law (5) I&S Survey of laws and regulations that affect the print and broadcast media. Includes material on First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation, and matters relating to press coverage of the judicial system.

CMU 441 United States Media History (5) I&S Development of mass communication in the United States with emphasis on role of mass media in politics, economics, gender, and race.

CMU 442 Public Opinion and the Mass Media: Processes and Methods (5) I&S Considers public

opinion in the United States as formed and affected by the mass media. Two themes stressed are historical and institutional use of public opinion and the political influence of the media. Attention given to public opinion measurement by the mass media, political candidates, and governmental institutions.

CMU 443 Advertising and Society (5) I&S Examination of the social and economic role of advertising as an institution in contemporary society with special attention to controls over advertising. Emphasis placed on current ethical issues such as the portrayal of women and minorities in advertising, cigarette and alcohol advertising, and political advertising.

CMU 444 Public Relations and Society (5) I&S Overview of issues, strategies, and role of public relations professionals in various areas of American society, including media relations, government relations, community affairs, and consumer relations.

CMU 445 Communication Theory (5) I&S Centrality of communication and mass communication in behavior and society. Problems of, and questions about, communicative effectiveness. Theoretical principles applicable to communicative effectiveness. Communication's six contributions to effective behavior.

CMU 447 Theory and Criticism of Broadcasting (5) I&S Application of critical standards to the sociological functions and esthetic elements of broadcast media. Recommended: relevant courses in the social sciences or humanities.

CMU 448 Advertising Process and Effects (5) I&S Examines the history, structure, operations, and impacts of advertising in self-service marketplace economies.

CMU 449 Public Information Campaigns (5) I&S Examines the theory and design of public communications campaigns. Analyzes current campaign research and practice and reviews policy implications.

CMU 450 Communications and Consumer Behavior (5) I&S Examines conceptual and empirical relationships between consumer information processing/choice behaviors and mass communications.

CMU 451 Mass Media and Culture (5) I&S Empirical and theoretical framework for analyzing role of mass media in cultural change. Historical and contemporary cases consider ethnic, gender, class, and urban-rural conflicts and cultural roles of sports, elections, and national rituals. Focus on visual electronic media.

CMU 452 Crisis Communications (5) I&S Study of the functions of communications professionals during crises. Covers public relations professionals as advocates for organizations and companies in crisis and the news media as advocates of the mass public. Discussion of cases.

CMU 453 Children and Electronic Media (5) I&S Examines research on children and electronic media (television, video games, computers). Topics include regulation of children's media, developmental differences in children's processing of mediated information, impact of violent content on aggressive behavior, impact of advertising on consumer socialization, stereotypes and self-image, commercialization of children's culture.

CMU 454 Problems in Communication Research (5) I&S Communication theory and research methods applied to solving significant societal problems, e.g., effectiveness of democratic government, poverty, pollution, overpopulation.

CMU 460 Special Reporting Topics (4) I&S Topics vary. Prerequisite: communications major and 361.

CMU 462 Magazine Writing (5) I&S Techniques of writing and marketing the full-length magazine article.

CMU 463 Copy Editing and Design (5) I&S Focus on editing copy for publications, covering grammar and style, production methods, news criteria, use of wire services, headlines, make-up and design, pagination, and online publication.

CMU 467 Journalism and Literature (5) I&S Explores the relationship between journalism and fiction writing in the United States. Examines writers who began their careers as journalists and forged a fiction-writing philosophy related to what they learned in journalism. Readings in fiction and journalism.

CMU 468 Journalism Ethics (5) I&S *Simpson* Provides a method and substantive context based on ethical theory, media history, and value systems analysis for analyzing and resolving dilemmas raised by journalistic practices.

CMU 469 Intellectual Foundations of American Journalism (5) I&S Examines the thinkers and philosophers who have influenced modern journalism. Studies the main ideas in the development of world thought and their impact on today's journalists. Explores the role communications systems have played in the creation of the world's cultures.

CMU 489 Ethnicity, Gender, and Media (5) I&S Media portrayal of women and people of color; creation of alternative media systems by women and people of color in the United States. Offered: jointly with AES/WOMEN 489.

CMU 498 Problems of Communications (1-5, max. 10) Research and individual study. Prerequisite: permission of instructor.

Courses for Graduates Only

CMU 500 Seminar in Theory of Communication (5) Procedures for analyzing concepts and theoretical material to provide basis for one's research. How to make productive use of the literature. Procedures for theorizing about empirical findings and generalizations. Typologies, models, theories, laws, and working hypotheses. Prerequisite: permission of instructor.

CMU 501 Development of Mass Communication (5) Institutions of mass communication. Political and social roles.

CMU 502 Mass Communication Process and its Effects (5) Analytic approach to conceptualization and research in the field since 1900.

CMU 503 Research Methods (5) Introduces and compares basic methods of research in communications.

CMU 505 Communication and Politics (3) Primary literature dealing with communication and American political behavior. Prerequisite: 421.

CMU 506 Critical Theory Applications in Mass Communication (5) Major approaches in critical theory: Marxism, psychoanalysis, structuralism, and semiology. Synthesizes these approaches by viewing the "cultural studies" tradition. Assesses critical theory through empirical study of network television in the United States and the United Kingdom.

CMU 507 Computer Applications in Communication Research (3) Potential of the computer for use in behavioral science. Prerequisites: elementary programming, elementary statistics.

CMU 508, 509 Communication Research (5, 5) Basic methodological questions in communication research. Foundations in history and philosophy of science. Prerequisite: permission of instructor.

CMU 511 Seminar in Communication Research (3, max. 15) Individual research projects undertaken collectively within a given area of study, under direction of faculty member. Prerequisite: permission of instructor.

CMU 512 Content Analysis (5) Content analysis as a technique for making inferences from texts, including traditional, manual methods of analysis and computer coding.

CMU 513 Survey Research Methods in Communications (5) Faculty-directed project in survey research in which basic principles of survey design, including sampling, observation, measurement, data analysis, and data interpretation, are all applied. Prerequisite: elementary statistics or permission of instructor.

CMU 515 Field Seminar in Communication History (5) Readings in communications history.

CMU 516 Communications History Research Methods (5) Development of the historical approach to communications research. Study of historical methods, bibliography, and criticism.

CMU 517 Seminar in Communications History (5) Topical research seminar in communications history.

CMU 518 Seminar in Special Topics in Mass Communications (5, max. 10)

CMU 519 Seminar in Government and Mass Communications (5) Legal problems of mass communication, institutions, and media operations.

CMU 521 Seminar in Media Structure (5) Directed independent research into structural aspects of American mass communications. Prerequisite: graduate standing.

CMU 543 Seminar in Advertising in Society (3) Interacting historical, social, economic, and legal influences shaping institutional character. Prerequisite: permission of instructor.

CMU 547 Seminar in Communication and Consumer Behavior (3) Directed reading and research in communication and consumer behavior. Emphasis on conceptualization and original research. Prerequisite: permission of instructor.

CMU 550 Advanced Communication Methods (1-3) Directed individual projects at a level acceptable by print or broadcast media. Advanced techniques of research and production analyzed and applied. Open only to students seeking the Master in Communications degree.

CMU 570 Seminar in the Theory and Criticism of Broadcasting (3) Criticism of the function and performance of broadcasting. Use of primary sources, including systematic data gathering and analysis. Prerequisite: 470.

CMU 571 Seminar in Regional Communication Systems (5) Communication as a factor in economic, sociocultural, and political relations among nations of a region. Focus varies with specialization of instructor. Consult graduate secretary for details. Interdisciplinary focus.

CMU 575 Seminar in International Communication Systems (3) International communications and contemporary issues that affect the functioning of global communication systems. Interdisciplinary focus.

CMU 577 Seminar in International Communications Research (5) Methodological issues particular to the design or analysis of research that deals with data from different countries, cultures, or sub-cultures. Prerequisite: 503 or equivalent.

CMU 579 Seminar in Media and Foreign Policy (5) The role of communications media in how nations interact. The media as source, actor, and catalyst in international affairs. Interdisciplinary focus.

CMU 581 Seminar in Public Opinion and Communication (5) Conceptual and methodological approaches to public opinion and communication as historical and behavioral phenomena. United States

and international perspectives. Recommended: appropriate background in the social sciences.

CMU 586 Telecommunications Structure and Policies (3) Structures and policies governing the functioning of communication technologies and data flow: United States and international perspectives. Interdisciplinary approach.

CMU 596 Effective Teaching of Communications (1) Development of effective teaching and professional skills. Emphasizes interactive teaching, leading discussions, lecturing, planning courses, evaluating resource materials, grading and evaluation, teaching philosophies, and effective classroom management and communications. Required of all graduate students who accept teaching assistantships.

CMU 597 Practicum in Communication Research (1-3, max. 6) Student participation in faculty-directed research projects.

CMU 598 Selected Readings (1-5, max. 10) Prerequisite: permission of supervisory committee chairperson.

CMU 600 Independent Study or Research (*) Prerequisite: permission of supervisory committee chairperson.

CMU 700 Master's Thesis (*)

CMU 800 Doctoral Dissertation (*)

Comparative History of Ideas

B102D Padelford

Comparative history of ideas provides for the interdisciplinary study of intellectual history by bringing together thematically related courses from such fields as literature, history, anthropology, philosophy, the arts, and religious studies. Courses within the program have been chosen and designed to explore the history of specific ideas or themes, to examine the history of particular intellectual cultures (Western and non-Western), or to study comparatively the underlying assumptions and attitudes of different intellectual worlds. As a unique approach to liberal humanistic studies, the program provides a solid basis for postgraduate study in, for example, law, administration, medicine, education, journalism, or area studies.

Undergraduate Program

Bachelor of Arts

Major Requirements: 55 credits with a 2.50 GPA to include colloquium in the history of ideas, six core courses distributed in three areas, and the remaining credits chosen among approved electives. At least half the credits presented for the major must be at the upper-division level. An optional senior thesis requiring an additional 15 credits is available.

Minor

Minor Requirements: 30 credits to include 5 credits in Group A; 5 credits in Group B, subgroup 1; 5 credits in Group B, subgroup 2; 5 credits in Group C; CHID 390 (5 credits); CHID 498 (5 credits). See department for current lists of Group A, B, and C courses.

Faculty

Chair

John E. Toews

Professors

Behler, Ernst H. * 1965; PhD, 1951, University of Munich (Germany); romanticism, literary theory, history of criticism.

Posnock, Ross * 1983; PhD, 1980, Johns Hopkins University; American literature.

Toews, John E. * 1979; PhD, 1973, Harvard University; modern European intellectual history.

Webb, Eugene * 1966; PhD, 1965, Columbia University; modern English, French, and German literature, comparative religion.

Associate Professors

Blundell, Mary Whitlock * 1985; PhD, 1984, University of California (Berkeley); Greek and Roman philosophy and literature.

Collins, Douglas P. * 1980; PhD, 1978, University of Missouri; twentieth-century French literature.

Mish'alani, James K. * 1963; PhD, 1961, Brown University; ethics, philosophical anthropology, contemporary continental philosophy.

Searle, Leroy F. * 1977; MA, 1968, PhD, 1970, University of Iowa; twentieth-century literature, critical theory, American studies.

Lecturers

Clowes, James E. 1994; MA, 1988, University of Montana; modern European intellectual history, early German Romanticism, pedagogy.

Shabetal, Karen J. 1984; MA, 1982, PhD, 1984, University of California (San Diego); eighteenth-century literature, romanticism.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

CHID 110 The Question of Human Nature (5)
VLPA/ISS Clowes Considers the relationship between the individual and his/her culture. Traces the evolution of the notion of human nature in Europe and the United States and compares this tradition with representations of the human being from other cultural traditions.

CHID 205 Method, Imagination, and Inquiry (5)
VLPA Examines ideas of method and imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with ENGL 205.

CHID 207 Introduction to Intellectual History (5)
I&S Ideas in historical context. Comparative and developmental analysis of Western conceptions of "community," from Plato to Freud. Offered: jointly with HIST 207.

CHID 380 The Nature of Religion and Its Study (5)
I&S Jaffee, Webb Study of religion as a general human phenomenon. Manner in which different methods of inquiry (phenomenology, anthropology, sociology, psychology, literary criticism, archaeology, philosophy, theology) illuminate different aspects of religion and shape our conceptions of its nature. Recommended: RELIG 201 or 202 or other courses in history of religious traditions. Offered: jointly with RELIG 380.

CHID 390 Colloquium in the History of Ideas (5)
I&S Basic theoretical issues in the comparative history of ideas as a disciplined mode of inquiry; examination of representative historical figures and problems. Primarily for majors; open to nonmajors by permission of program adviser.

CHID 491-492-493 Senior Thesis (5-5-5) I&S 491-493: critical and methodological issues. 492-493: research and writing of thesis under supervision of a faculty member. Required of candidates for an honors degree; available to others with permission of program adviser. Prerequisite: 390.

CHID 496 Focus Groups (1-2 max. 4) - Credit/no credit only.

CHID 497 Peer Facilitators (5)

CHID 488 Special Colloquia (1-5 max. 20) I&S Each colloquium examines a different subject or problem from a comparative framework. A list of topics is available from the CHID office.

CHID 489 Undergraduate Independent Study or Research (1-5 max. 10) Supervised independent study for students who wish to pursue topics not available in regular course offerings. Prerequisite: permission of program adviser.

Comparative Literature

B531 Padelford

The comparative literature program transcends the confines of a national literature and explores the relationships among several literatures. In addition, the program is concerned with the relationship of literature to the arts and to such fields of knowledge as philosophy, religion, and political thought. Typical areas of inquiry include literary traditions and periods, motifs, genres; patterns of influence and reception of literary works among national cultures; and the general principles of literary theory and criticism.

Undergraduate Program

Adviser
Willis Konick
B524 Padelford

Bachelor of Arts

Major Requirements: 50 credits, to include C LIT 300, 400, and one course from among C LIT 320, 321, 322, and 323, and three additional courses in comparative literature at the 300 or 400 level; and at least one course in a literature, studied in the original tongue, other than the student's native language. Remaining credits are to be earned, with few exceptions, in 300- and 400-level courses from among the offerings of Comparative Literature and the following participating departments: Asian Languages and Literature, Classics, English, French and Italian Studies, Germanics, Near Eastern Languages and Civilization, Scandinavian Languages and Literature, Slavic Languages and Literature, and Spanish and Portuguese Studies. Departmental courses in foreign literature in translation are listed under the respective departments.

Minor

Minor Requirements: 30 credits to include C LIT 300, 400, and one course from among C LIT 320, 321, 322, and 323; an upper-division literature course in a language other than the student's native language; and the remaining credits in upper-division literature courses offered through Comparative Literature and the participating departments above.

Graduate Program

The Department of Comparative Literature offers a program of study with faculty members from the following participating departments: Asian Languages and Literature, Classics, English, French and Italian Studies,

Germanics, Near Eastern Languages and Civilization, Scandinavian Languages and Literature, Slavic Languages and Literature, and Spanish and Portuguese Studies. Study in this program leads to a Master of Arts or Doctor of Philosophy degree. Students concentrate on graduate courses in comparative literature and specialize in two or more national literatures of major interest to them, studied in the original language. With permission, a Ph.D. aspirant may choose as a third area of study a field outside of literature (e.g., philosophy, religion, art, political thought). On receiving the advanced degree, the student is qualified for teaching and research in comparative and general literature, as well as the language and literature of his or her specialization.

Special Requirements

Applicants for the M.A. program are required to have a B.A. degree in comparative literature, English, or any foreign literature, or an equivalent background; applicants for the Ph.D. program are required to have an M.A. in one of the above. M.A. students are required to demonstrate advanced competence in one foreign language and a basic reading knowledge of a second. Ph.D. students are required to demonstrate advanced competence in two foreign languages and a basic reading knowledge of a third. Advanced competence usually must be demonstrated upon admission to the program, and the reading knowledge is required before M.A. or Ph.D. examinations are administered. Language competence is evaluated by comparative literature faculty through departmental examinations or by evidence of completion of satisfactory advanced (400- or 500-level) course work in the language.

Ph.D. Program in Critical Theory

This is a joint-doctoral program with ten participating doctoral programs (Asian Languages and Literature; Classics; Comparative Literature; Drama; English; Germanics; French and Italian Studies; Scandinavian Languages and Literature; Slavic Languages and Literature; Spanish and Portuguese Studies; and Speech Communication). The program combines the doctoral program in one of the participating departments with an *additional* set of courses in critical theory into an integrated course of study. The purpose is to broaden a student's perspective and to increase awareness of different critical approaches to literature and related fields. Study in this program leads to a Ph.D. in the respective major field and critical theory.

Admission Requirements

Applicants must have been admitted to one of the participating departments and have received a Master's degree in a subject represented by these departments or in a related field.

Degree Requirements

(1) Continued satisfactory work in the student's home department; (2) completion of six graduate courses from the program in critical theory; (3) completion of one colloquium in critical theory; (4) reading knowledge of two foreign languages, ancient or modern; (5) passage of the written Ph.D. examinations in the student's home department; (6) passage of the oral Ph.D. examination in the student's home department; (7) acceptance of a dissertation prospectus by the dissertation committee, which should have two faculty members from the program in critical theory; (8) completion and acceptance of a Ph.D. dissertation and passage of the oral defense before the dissertation committee.

Financial Aid

Students working for advanced degrees in comparative literature are eligible to apply for teaching assistantships in the department(s) of language and literature relevant to their specialization. Comparative literature has a very limited number of teaching assistantships available and they are usually awarded to advanced students.

Jaeger, C. Stephen * 1985; PhD, 1970, University of California (Berkeley); medieval German and Latin literature, medieval intellectual history, comparative literature.

Leiner, Jacqueline * 1963, (Emeritus); Dr ès Lettres, 1969, University of Strasbourg (France); modern French literature.

Leiner, Wolfgang * 1963, (Emeritus); PhD, 1955, University of Saarland; seventeenth- and twentieth-century French and Italian literature.

MacKay, Pierre A. * 1966, (Emeritus); PhD, 1964, University of California (Berkeley); Greek literature, post-classical and Byzantine Greek literature, numismatics.

Modiano, Raimonda * 1978; PhD, 1973, University of California (San Diego); romanticism.

Reinert, Otto * 1956, (Emeritus); PhD, 1952, Yale University; comparative literature, eighteenth-century literature.

Shapiro, Steven * 1984; PhD, 1981, Yale University; literary theory, romantic poetry, post-modernism.

Steene, Birgitta * 1973, (Emeritus); PhD, 1960, University of Washington; Scandinavian drama and film, children's literature, comparative literature.

Vance, Eugene * 1990; PhD, 1964, Cornell University; medieval literature, the history of criticism, and discourse analysis.

Wang, Ching-Hsien * 1971; PhD, 1971, University of California (Berkeley); Chinese poetry and comparative literature.

Webb, Eugene * 1966; PhD, 1965, Columbia University; modern English, French, and German literature, comparative religion.

Ziaqeh, Farhat J. * 1966, (Emeritus); LLB, 1940, University of London (UK); Arabic language and literature, Islamic law, Islamic institutions.

Associate Professors

Ammerlaan, Heilmut H. * 1968; MA, 1960, University of Vermont; PhD, 1965, University of Texas (Austin); Goethe, eighteenth to early twentieth century, comparative literature.

Collins, Douglas P. * 1980; PhD, 1978, University of Missouri; twentieth-century French literature.

Elrich, Robert J. * 1964, (Emeritus); PhD, 1960, Harvard University; eighteenth-century French literature.

Geist, Anthony L. * 1987; PhD, 1978, University of California (Berkeley); twentieth century Spanish literature: ideology and literary form.

Handwerk, Gary J. * 1984; PhD, 1984, Brown University; literary theory, English and Irish nineteenth- and twentieth-century narrative.

Konick, Willis * 1950; PhD, 1964, University of Washington; Russian literature, nineteenth-century European literature.

Kramer, Karl D. * 1970; PhD, 1964, University of Washington; Russian literature.

McLean, Sammy K. * 1967, (Emeritus); PhD, 1963, University of Michigan; Western drama, twentieth-century poetry, psychoanalysis and literature, translation.

Searle, Leroy F. * 1977; MA, 1968, PhD, 1970, University of Iowa; twentieth-century literature, critical theory, American studies.

Vaughan, Miceal F. * 1973; PhD, 1973, MA, 1973, Cornell University; medieval language and literature.

Warne, Lars G. * 1975, (Emeritus); PhD, 1974, University of California (Berkeley); Swedish language and literature, Scandinavian novel, comparative literature.

Senior Lecturer

Dornbush, Jean M. * 1980; PhD, 1976, Princeton University; medieval period, symbolist poetry, modern literary theory.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

All Comparative Literature courses are taught in English unless otherwise indicated. It is recommended that students enrolling in 300- or 400-level courses have taken 10-15 credits in literature or general humanities courses. Content of many courses varies from quarter to quarter.

C LIT 200 Introduction to Literature (3/5) VLPA Reading, understanding, and enjoying literature from various countries, in different forms of expression (e.g., dramatic, lyric, narrative, rhetorical) and of representative periods. Emphasis on the comparative study of themes and motifs common to many literatures of the world. Offered: A.

C LIT 210 Literature and Science (5, max. 15) VLPA Introduces the rich and complex relationship between science and literature from the seventeenth century to the present day. Students examine selected literary, scientific, and philosophical texts, considering ways in which literature and science can be viewed as forms of imaginative activity.

C LIT 211 Literature and Culture (5, max. 15) VLPA Study of literature in its relation to culture. Focuses on literature as a cultural institution, directly related to the construction of individual identity and the dissemination and critique of values.

C LIT 230 Introduction to Folklore Studies (5) VLPA/IS Comprehensive overview of the field of folkloristics, focusing on verbal genres, customs, belief, and material culture. Particular attention to the

issues of community, identity, and ethnicity. Offered: jointly with SCAND 230.

C LIT 240 Writing in Comparative Literature (5, max. 15) C Comparative approach to literature and a workshop in writing comparative papers in English. Emphasis on cross-cultural comparison of literary works. Readings in English with an option to read selected texts in the original languages Offered: AWSp.

C LIT 270 The Visual Text: How to Read a Film (5) VLPA Introduction to film form, style, and techniques. Examples from silent film and from contemporary film. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

C LIT 271 The Visual Text: Authors of Film (5) VLPA Introduction to authorship in the cinema. The work of a major director or directors. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

C LIT 272 The Visual Text: Genre in Film (5) VLPA Introduction to study of film genre. Literary, mythic, and historic aspects of film genre. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

C LIT 280, 281 The Medieval World: Social, Religious, Intellectual Life in the Middle Ages (5, 6) VLPA A broadly comparative introduction to medieval culture drawing on literature, philosophy, history, art, and music. Varying topics and faculty.

C LIT 300 The Scope of Literary History (5) VLPA Raises the issue of literary history by discussing, through historical examples and theoretical issues, such questions as: What is the scope of written literary history? How do we set up the canon of literary history? How do we account for periodization and epochal change? Offered: W.

C LIT 320 Studies in European Literature (5, max. 15) VLPA Examination of the development of European literature in a variety of genres and periods. Possible areas of study include literature from romantic fiction of early nineteenth century through great realist classics of second half of the century or from symbolism to expressionism and existentialism.

C LIT 321 Studies in Literature of the Americas (5, max. 15) VLPA Emphasizes connections between twentieth century literature of the United States and Canada and current literature of Latin America. Emphasizes that, despite obvious differences, much is shared in terms of culture and national sensibility across the two continents.

C LIT 322 Studies in Asian and Western Literatures (5) VLPA Topics designated by individual instructors.

C LIT 323 Studies in the Literature of Emerging Nations (5, max. 15) VLPA Novels and short stories, from Africa, the Middle East, and South Asia. Discusses relationship of Western literary genres to an oral literary tradition, as well as issues like colonialism, gender relations, narrative technique, native and non-native languages.

C LIT 330 The European Fairy Tale (5) VLPA An introduction to folktales and literary tales from various traditions and periods. A discussion of their origin, special characteristics, dissemination, and relevance to the contemporary reader.

C LIT 331 Folk Narrative (5) VLPA Survey of various genres of folk narratives studied in performance contexts to reveal their socio-cultural functions in a variety of milieu. Theory and history of folk narrative study, taxonomy, genre classification, and interpretative approaches. Recommended: 230/SCAND 230 or equivalent. Offered: jointly with SCAND 331.

C LIT 332 Folk Belief and World View (5) VLPA Study of folk belief and world view expressed in

memorata, legends, magic formulas, and other examples of oral tradition. Analysis of forms and origins of belief genres, their esthetic and social functions, and the role of oral tradition as a tool of social control and change. Offered: jointly with SCAND 332.

C LIT 333 Folklife and Material Culture (5) VLPA Material culture in traditional and contemporary Scandinavia. Comprehensive examination of nonverbal genres (including vernacular architecture, settlement, textile foodways) with an emphasis on broad theoretical issues such as: community, identity, ethnicity. Recommended: 230/C LIT 230 or equivalent. Offered: jointly with SCAND 333.

C LIT 350 Themes in World Literature: Parents and Children (5) VLPA World literature, from the Renaissance to modern times, based upon the theme of "parents and children." Selections drawn from European, English, and American literature, not limited to period and genre. Focus upon the motive of generational conflict. Offered: A.

C LIT 351 Themes in World Literature: Love, Sex, and Murder (5) VLPA World literature, from the Renaissance to modern times, based upon the theme of "love, sex, and murder." Selections drawn from European, English, and American literature, not limited to period and genre. Focus upon the human potential for both great violence and extraordinary compassion. Offered: W.

C LIT 352 Themes in World Literature: Death and Transfiguration (5) VLPA Theme of death, transfiguration, and new life in world literature. Selections from Tolstoy, D. H. Lawrence, Celine, E. M. Forster, and other major writers. Offered: Sp.

C LIT 357 Literature and Film (3-5, max. 10) VLPA The film as an art form, with particular reference to the literary dimension of film and to the interaction of literature with the other artistic media employed in the form. Films are shown as an integral part of the course. Content varies.

C LIT 371 Literature and the Visual Arts (5) VLPA Focuses on specific theoretical problems. Examines the relationship between text and image in a variety of art forms including poetry, novels, paintings, photography, essays, comic strips, film, and advertisement. Readings, in English, from a wide variety of national literatures.

C LIT 375 Images of Women in Literature (5, max. 15) VLPA Comparative study of the ways women's image, social role, and psychology have been portrayed by writers of various nationalities and literary periods. Selection of theme varies from quarter to quarter. Works are read in English translation.

C LIT 398 Special Studies in Comparative Literature (3-5, max. 10) VLPA Offered by visitors or resident faculty. Content varies.

C LIT 400 Introduction to the Theory of Literature (5) VLPA A selection of major theoretical statements in the history of literary theory, with emphasis on fundamental issues of lasting concern and with attention to some recent emphases. Offered: Sp.

C LIT 410 Studies in Literary History (5, max. 15) VLPA Introduction to a major figure or movement associated with the development of literary history. Through the study of one aspect of literary history students gain a thorough understanding of a particular point of view, while exploring the breadth of contemporary approaches to literature.

C LIT 421 Studies in Connections: Literature and other Disciplines (5, max. 15) VLPA Examines the links between literature and other disciplines or art forms. Literature and history, literature and philosophy, literature and music, literature and the visual arts are all appropriate topics. Selection of focus depends on instructor.

C LIT 422 Studies in Genre (5) VLPA Major genres of world literature: poetry, fiction, drama. Readings, in English from a wide selection of national literatures.

C LIT 424 The Epic Tradition (5) VLPA Ancient and medieval epic and heroic poetry of Europe in English: the Iliad, Odyssey, and Aeneid; the Roland or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies. Literary background recommended. Offered: jointly with CLAS 424.

C LIT 430 Readings in Folklore (5) VLPA Exploration of theoretical and methodological issues in folklore studies through independent reading of journal articles published during the last five years. Prerequisite: C LIT/SCAND 230 or equivalent. Offered: jointly with SCAND 430.

C LIT 470 Senior Seminar in Folklore (5) VLPA Investigates ethnic and several American folk traditions in the Pacific Northwest through extensive fieldwork. Prerequisite: C LIT/SCAND 230 or equivalent. Offered: jointly with SCAND 470.

C LIT 490 Directed Study or Research (1-5, max. 10) Individual study of topics in comparative literature by arrangement with the instructor and the Comparative Literature office.

C LIT 493 Comparative Literature Honors Seminar (5, max. 15) VLPA Special topics in comparative literature. Required of honors students in comparative literature. Prerequisite: permission of honors adviser.

C LIT 495 Honors Thesis (4) VLPA Preparation of an honors thesis under the direction and supervision of a faculty member. Prerequisites: 493 and permission of honors adviser.

C LIT 496 Special Studies in Comparative Literature (3-5, max. 15) VLPA Offered occasionally by visitors or resident faculty. Content varies.

Courses for Graduates Only

Consult the Comparative Literature office for information on the quarter and year the courses below will be offered. Graduate-level course numbers merely distinguish courses and do not indicate ascending level of knowledge required to take the course. Reading knowledge of at least one foreign language recommended.

C LIT 500 The Theory of Literature I: The Literary Text (5, max. 15) An investigation into the nature of literature in contrast to other forms of writing and into essential features of literature such as genres, imagery, modes of communication, and structure.

C LIT 501 The Theory of Literature II: History of Literature (5, max. 15) An exploration of topics of literary history such as periods, traditions, the writing of literary history, and literary history in contrast to other histories.

C LIT 502 The Theory of Literature III: Special Topics (5, max. 15) Offerings vary to cover topics such as individual theorists, theoretical movements, or the intersection of literary theory with other disciplines or arts (psychoanalysis, structuralism, ethics, aesthetics).

C LIT 507 History of Literary Criticism and Theory I (5, max. 15) A general introduction to the major issues in the history of criticism followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with ENGL 507.

C LIT 508 History of Literary Criticism and Theory II (5, max. 15) Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with ENGL 508.

teenth century to, but not including, Kant. Offered: jointly with ENGL 508.

C LIT 509 History of Literary Criticism and Theory III (5, max. 15) Literary Criticism and theory from Kant's Critique of Judgment to the mid-twentieth century and the work of Northrop Frye. Offered: jointly with ENGL 509.

C LIT 510 History of Literary Criticism and Theory IV (5, max. 15) A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with ENGL 510.

C LIT 511 Literary Translation (5, max. 15) Lectures on principles of translating literary works into readable English. Students present and comment on translations made by them and write seminar papers on problems of translation in theory and practice.

C LIT 516 Colloquium in Criticism (5, max. 15) Recent trends in literary criticism, taught by representatives from various literature departments, covering critical trends such as structuralism, poststructuralism, hermeneutics, reception theory, and sociological approaches to literature.

C LIT 517 Colloquium in Folklore (5) Recent trends in folklore studies, taught by representatives from various literature departments and disciplines in the social sciences.

C LIT 518 Colloquium in Medieval Studies (5) Salient literary aspects of the European Middle Ages, taught by representatives from various literature departments as well as from related disciplines, such as philosophy, art history, history, and comparative religion.

C LIT 530 Cultural Criticism and Ideology Critique I (5, max. 15) A study of the main attempts to come to an understanding of the humanities and the nature of historical interpretation in a cultural context.

C LIT 535 Cultural Criticism and Ideology Critique II (5, max. 15) Offerings vary to cover individual theorists and particular manifestations of cultural criticism and ideology critique.

C LIT 545 Medieval Studies (3/5, max. 15)

C LIT 546 Studies in Renaissance and Baroque (3-5, max. 10) Aspects of Western European literature during the Renaissance and Baroque period. Course content varies.

C LIT 547 Studies in Eighteenth-Century Literature (3-5, max. 10) Examination of various trends in eighteenth-century literature including the Enlightenment, Rationalism, Pre-Romanticism, and Neo-Classicism. Course content varies with instructor.

C LIT 548 Studies in Nineteenth-Century Literature (3-5, max. 10) Examination of various trends in nineteenth-century literature including Romanticism, Realism, Naturalism, and Symbolism.

C LIT 549 Twentieth-Century Literature (3-5, max. 10) Selected movements, schools, and trends of significance in twentieth-century literature of Europe and Americas. Symbolism, surrealism, dada, expressionism, neorealism, existentialism, nouveau roman, and absurd may be considered. Texts in English, French, and German figure most prominently, but Spanish, Italian, Russian, and other materials may be examined. Content and emphasis vary.

C LIT 570 The Novel: Theory and Practice (3-5, max. 15) Study of the novel as a genre, examining two or more novels of varying national literatures. Course content varies.

C LIT 571 The Lyric: Theory and Practice (3-5, max. 15) Examination of central questions in the study of the lyric genre as approached from an international point of view. Course content varies.

C LIT 572 The Epic: Theory and Practice (3-5, max. 15) Examination of epic literature as exemplified by selected works chosen from various cultures and periods (e.g., French and German medieval courtly epic, the epic in Renaissance and baroque Europe, traditions of the mock epic). Course content varies.

C LIT 573 The Drama: Theory and Practice (3-5, max. 15) Examination of various aspects of the drama as a major literary genre, as approached from international and multilingual points of view. Course content varies.

C LIT 576 Seminar in East-West Literary Relations (3-5, max. 15) Comparative investigation of literary topics requiring the study of both Eastern and Western documents. Explores parallels and contradictions between the two, in concepts, ideas, and specific topics. A comparative paper on a chosen topic with qualified conclusions is required. Emphasis varies. Prerequisite: at least one East Asian language.

C LIT 596 Special Studies in Comparative Literature (3-5, max. 15) Offered occasionally by visiting or resident faculty. Course content varies.

C LIT 599 Special Seminar or Conference (1-9, max. 30) Group seminars or individual conferences scheduled to meet special needs. Prerequisite: permission of graduate program adviser.

C LIT 600 Independent Study or Research (*)

C LIT 700 Master's Thesis (*)

C LIT 800 Doctoral Dissertation (*)

Comparative Religion

Computer Science

See also Computer Science and Engineering in the College of Engineering section.

114 Sieg

A Bachelor of Science degree in computer science is offered by the Department of Computer Science and Engineering, and is administered through the College of Arts and Sciences. The department also offers a Bachelor of Science in Computer Engineering degree, administered through the College of Engineering, and graduate degrees in computer science. While the department offers both computer science and computer engineering, the computer science major is more appropriate for students who want to have a double major with another College of Arts and Sciences program (for example, mathematics or economics), who want the additional flexibility of the computer science requirements (the computer engineering major has more required courses and fewer electives), or who are more interested in software systems and computation than in hardware. The computer engineering major is more appropriate for students who are interested in building systems that include both custom hardware and software components, who have strong interests in electrical engineering, or who specifically want an engineering degree. More information concerning these programs can be found under Computer Science and Engineering in the College of Engineering section of this catalog.

Computer science is the study of information and algorithms within the context of real and abstract computing devices. Computer scientists are interested in such topics as the representation and storage of information, algorithms to access, display, edit, and transfer information, programming languages to express algo-

gorithms, and hardware and software processors to execute algorithms. These concerns lead to practical developments in computer systems software, such as operating systems and compilers, in application areas, such as artificial intelligence and computer graphics, and to theoretical investigations of computers, algorithms, and data.

The objective of undergraduate education in computer science is to develop broadly educated and competent graduates for professional careers or graduate studies. Especially important is a foundation that will endure as technology advances and changes.

The computer field has a broad base of industrial and governmental jobs suitable for the Bachelor of Science graduate: systems analyst, systems programmer, technical salesperson, and hardware or software engineering specialist. In addition, there are jobs for which graduate education may be appropriate: producers and developers of computer systems, and teachers and researchers.

Undergraduate Programs

Bachelor of Science In Computer Engineering

See Computer Science and Engineering in the College of Engineering section.

Bachelor of Science

Adviser
Heidi Mair
114 Sieg
email: ugrad-cs-advisor@cs.washington.edu

Admission Requirements: 45 credits completed, including MATH 124, 125, 126; PHYS 121/131; CSE/ENGR 142 and CSE 143. A minimum 3.00 GPA for all courses at this or other universities. These conditions guarantee consideration, but not acceptance.

Major Requirements: (1) Mathematics and Science Component (39 credits): MATH 124, 125, 126 and three courses selected from MATH 307, 308, 309, STAT 311, or any approved senior elective mathematics or statistics courses (shown in the undergraduate handbook available in 114 Sieg); PHYS 121/131, 122/132, 123/133. (2) Inner Core Component (32 credits): CSE/ENGR 142, CSE 143, 321, 322, 326, 341, 370, 378. (3) Outer Core Component (minimum of four courses): 401, 403, 421, 431, 444, 451, 457, 471, and 473 (if more than 12 credits are taken, excess credits may count toward senior electives). (4) Elective Component (minimum of 7 credits): 400-level CSE courses (not including those used to satisfy the Outer Core), up to 6 credits of 498, and courses chosen from the approved senior elective course list. (5) Recommended: 10 credits of natural science, business, or engineering beyond the requirements listed in (1) through (4), above.

Graduate Program

See Computer Science and Engineering in the College of Engineering section.

For faculty listing and course descriptions see Computer Science and Engineering in the College of Engineering section.

Dance

258 Meany

The dance program is designed as part of a liberal arts curriculum and provides students with a foundation for future advanced work in performance or movement-related work. It is recommended that majors supple-

ment their dance studies with work that will provide a foundation for later specialization in dance ethnology, dance history and criticism, performance art, education, movement therapy, or movement science.

Undergraduate Program

Adviser
Susanne Recordon
258 Meany, Box 351150

Bachelor of Arts

Admission Requirement: Admission to the dance major is twice yearly: autumn for winter quarter admission, and spring for autumn quarter admission. Applicants should have completed or be currently enrolled in a dance technique course. Applications must be made by the fifth week of the quarter. Transfer students and out-of-town freshmen should consult the department for audition arrangements.

Major Requirements: Minimum 70 credits in dance to include 166, 234, 230 or 262, 266, 270 (2 credits, one crew minimum), 344, 345, 354, 366, 390, 420, 480, 493; technique (12 credits minimum at the 200 level; 6 credits minimum in both ballet and modern dance). Minimum 10 credits from the following: ART H 203, 300; DRAMA 250, 251, 252, 253; MUSIC 270, 316, 317, 318, 331, 386; PSYCH 306, 310; B STR 301.

Students must demonstrate consistent and acceptable progress in technique, performance, and academic areas toward the attainment of a degree.

Minor

Minor Requirements: Minimum 25 credits to include 10 credits from DANCE 166, 234, 344, 345, 493; and 15 credits from DANCE 201, 202, 203, 204, 205, 206, 301, 302, 303, 304, 305, 306.

Graduate Program

Hannah C. Wiley, Graduate Program Coordinator

The dance program offers graduate study leading to a Master of Fine Arts degree. This program is designed specifically for professional dance performers who are anticipating retirement and wish to prepare for a transition into college teaching careers. All graduate students will comprise the Chamber Dance Company and will hold teaching assistantships.

During the two-year program, a student must complete at least 73 credits, of which a minimum of 21 must be in an area of specialization, e.g., choreography/production, history/research/criticism, ethnology, Laban Movement Analysis, or Individually Designed Specialization (IDS). The master's project may be artistic or scholarly in nature.

Admission Requirements

(1) A letter of application and résumé; (2) an undergraduate degree; (3) a minimum of eight years of professional performing experience; (4) the ability to demonstrate movement skills at a professional level in at least one idiom; an in-person audition or performance video tape; (5) three letters of reference verifying success and responsibility in the professional dance arena. Neither a foreign language nor the Graduate Record Examination is required. Application deadline is January 15.

Financial Aid

All graduate students will receive tuition waivers and teaching assistant stipends.

Correspondence and Information

Faculty

Director

Hannah Wiley

Professors

Boris, Ruthanna 1965, (Emeritus); DTR, 1946; ballet technique and dance therapy.

Knapp, Joan S. * 1981, (Emeritus); MA, 1964, University of Illinois; dance composition, improvisation, kinesthetic training.

Russell, Francia 1988, (Affiliate); ballet.

Wiley, Hannah * 1984; MA, 1981, New York University; ballet, scientific aspects of dance, choreography, dance in higher education.

Associate Professor

Lepore, James M. * 1991; MFA, 1989, Temple University; movement studies and choreography, modern and ethnic dance.

Assistant Professors

Novak, Marsha 1990, (Affiliate); MS, 1982, University of Washington, physical therapy.

Parker, Rip 1989; MFA, 1992, University of Washington; modern, jazz, and ethnic dance; dance history; choreography.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

DANCE 101, 102, 103 Introduction to Dance (5, max. 10; 5, max. 10; 5, max. 10) **VLPA** Introduction to dance as an art form. Lectures in dance appreciation. Studio experience in ballet and modern dance techniques. Attendance required at outside events. Prerequisite: 101 for 102; 102 for 103.

DANCE 104, 105, 106 Modern Technique (* max. 8; * max. 8; * max. 8) **VLPA** Advanced beginning. Continued development of all beginning areas and expansion of movement vocabulary. Prerequisites: 103 or permission of instructor for 104; 104 or permission of instructor for 105; 105 or permission of instructor for 106.

DANCE 107, 108, 109 Ballet Technique I (* max. 8, * max. 8, * max. 8) **VLPA** Advanced beginning. Continued development of all beginning areas. Expansion of ballet vocabulary. Prerequisites: 103 or permission of instructor for 107; 107 or permission of instructor for 108; 108 or permission of instructor for 109.

DANCE 110, 111, 112 Jazz Technique I (2, max. 4; 2, max. 4; 2, max. 4) **VLPA** Introduction to jazz technique. Dance performance attendance required. Prerequisites: 110 or permission of instructor for 111; 111 or permission of instructor for 112.

DANCE 166 Dance Composition I (5) **VLPA** Introduction to the principles of dance composition through improvisation. Prerequisite: permission of instructor. Offered: alternate years.

DANCE 201, 202, 203 Ballet Technique II (* max. 8, * max. 8, * max. 8) **VLPA** Intermediate. Expansion of ballet vocabulary. Prerequisites: 109 or permission of instructor for 201; 201 or permission of instructor for 202; 202 or permission of instructor for 203.

DANCE 204, 205, 206 Modern Dance Technique II (* max. 8, * max. 8, * max. 8) **VLPA** Intermediate. Expansion of movement vocabulary. Prerequisites: 109 or permission of instructor for 204; 204 or permis-

sion of instructor for 205; 205 or permission of instructor for 206.

DANCE 210, 211, 212 Jazz Technique II (2, max. 4; 2, max. 4; 2, max. 4) VLPA Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary. Dance performance attendance required. Prerequisite: 112 or permission of instructor for 210; 210 or permission of instructor for 211; 211 or permission of instructor for 212.

DANCE 230 Kinesthetic Training (3) VLPA Skinner Knowledge gained through direct perceptual experience. Uses imagery to facilitate efficient functioning of the mind/body complex in an artistic task. Offered: alternate years.

DANCE 234 Selected Idioms as Ethnic Dance (5) VLPA/I&S Survey course presenting selected dance idioms as they relate to ethnicity in their performance, aesthetics, and history. May have studio component. Offered: alternate years; W.

DANCE 262 Contact Improvisation (3) VLPA Lepore Interactive dancing based on weight sharing. Emphasis on proprioceptive and tactile sensibilities as they relate to movement improvisation. Techniques for supporting weight studied and practiced. Prerequisite: one year of dance technique. Offered: alternate years.

DANCE 266 Dance Composition II (5) VLPA Dance composition in relation to music. Emphasis on solos and small groups. Prerequisites: 166. Offered: alternate years.

DANCE 270 Dance Performance Activities (1-3, max. 9) VLPA Performance in a dance or work on a crew for a dance production, either a studio showing or public performance, conducted under faculty supervision. Prerequisite: permission of instructor. Credit/no credit only.

DANCE 301, 302, 303 Ballet Technique III (* max. 8; * max. 8; * max. 8) VLPA Advanced-intermediate level: continued development and expansion in all areas of technique. Prerequisites: permission of instructor for 301; 301 or permission of instructor for 302; 302 or permission of instructor for 303.

DANCE 304, 305, 306 Modern Dance Technique III (1-8, 1-8, 1-8) VLPA Intermediate-advanced. Dance sequences of greater complexity. Prerequisites: permission of instructor for 304; 304 or permission of instructor for 305; 305 or permission of instructor for 306.

DANCE 310, 311, 312 Jazz Technique III (2, max. 4; 2, max. 4; 2, max. 4) VLPA Advanced-level jazz technique. Investigation of jazz styles such as Afro-Caribbean, Luigi, and musical theatre. Dance performance attendance required. Prerequisites: 212 or permission of instructor for 310; 310 or permission of instructor for 311; 311 or permission of instructor for 312.

DANCE 324 Partnering Techniques (1, max. 6) VLPA Study and practice in supported dance work.

DANCE 344 Early Dance History (5) VLPA/I&S Development of Western theatrical dance through the nineteenth century. Offered: alternate years.

DANCE 345 Late History of Dance (5) VLPA/I&S Twentieth-century Western theatrical dance. Offered: alternate years; Sp.

DANCE 354 Laban Movement Analysis (5) VLPA Lepore Introduction to the movement theories of Rudolf Laban and his protégés. Coursework includes Effort/Shape, Space Harmony, symbology, and an introduction to Labanotation. Prerequisite: one year movement or dance technique training. Offered: alternate years; A.

DANCE 366 Dance Composition III (5) VLPA Lepore, Wellborn Dance composition in relation to

production. Emphasis on larger group works. Prerequisite: 266 and dance major or permission of instructor. Offered: alternate years; Sp.

DANCE 385 Pointe Techniques (1, max. 6) VLPA Pointe technique for intermediate and advanced dancers.

DANCE 390 Dance Teaching Methodologies (5) VLPA Wiley Introduction to dance pedagogy, including educational theory, motor learning, and biomechanical principles, and to music as it relates to the teaching of dance. Prerequisite: dance major or permission of instructor. Offered: alternate years.

DANCE 420 Dance Aesthetics (3) VLPA/I&S Skinner Philosophical investigation of the expressive elements of dance. Reading and discussion of the concepts of beauty, style, and aesthetic theory.

DANCE 466 Advanced Dance Composition (3) VLPA Explores a variety of approaches to personal creative process in dance composition. Prerequisites: 365, 366, and 367 or permission of instructor.

DANCE 480 Senior Seminar (5) VLPA Lepore, Wiley Culminating project emphasizing a synthesis of experiences in the Dance Program with a focus on individual interests. Prerequisite: senior dance major.

DANCE 490 Special Studies in Dance (1-3, max. 10) VLPA Special studies designed to address contemporary and historical concerns in the field of dance. Prerequisite: permission of instructor.

DANCE 493 Anatomy for Dance (5) VLPA/NW Lepore, Wiley Anatomy of the musculoskeletal system and its applications in dance movement. Exploration of movement principles based on Bartenieff Fundamentals. Prerequisite: dance major or permission of instructor. Offered: alternate years.

DANCE 499 Undergraduate Independent Study (* max. 9)

Courses for Graduates Only

DANCE 510 Chamber Dance Production (3, max. 9) Dance production in the university environment. Publicity, programming, budgeting. Rehearsal, rehearsal direction, and performance of Chamber Dance Company repertoire. Credit/no credit only.

DANCE 515 Dance Research Methods (3) Seminar in problem identification and definition, theory development, research design, data analysis, and interpretation. Examples of various types of dance research.

DANCE 520 Dance in Higher Education (3) Readings, discussion, and observation of teaching methods. Students assist faculty in the instruction of lower-level classes. Selected anatomical, historical, and aesthetic concepts as they relate to dance pedagogy. Development of a personal teaching style appropriate for university-level dance courses.

DANCE 521 Dance Administration (3) Readings and discussion relating to dance administration in college and professional settings. Topics include: curricular development, academic advising, budgetary procedures, personnel issues, and problems related to dance as a performing art within the university structure.

DANCE 522 Applications of Dance Education (3) Readings, lecture, and discussion relating to the role of dance in the community, the university, and other social contexts. Guest lecturers in dance professions and related arts address the topic of interdisciplinary potentials and responsibilities.

DANCE 544 Early Dance History (3) Study of the evolution of dance from ritual to a theatre art form. Offered: alternate years.

DANCE 545 Late Dance History (3) Roots of contemporary dance as an art form and its relationship to

developments in ballet since the turn of the century. Offered: alternate years.

DANCE 590 Dance Teaching Methodologies (3) Wiley Introduction to dance pedagogy with an emphasis on motor learning skills and biomechanics. Practical teaching experience. Offered: alternate years.

DANCE 595 Master's Project (3) Culminating project in area of interest developed in consultation with faculty advisor and supported by elective courses. Full faculty approval of proposed project by end of first year. Formal presentation, appropriate to project's content, presented to full faculty during second year. Projects may range from creative to scholarly.

DANCE 600 Independent Study or Research (* max. 9)

Drama

101 Hutchinson

The School of Drama is concerned with the whole continuum of acting, directing, designing, theatre history/theory, and dramatic forms through which the human dramatic imagination finds expression.

The School uses four theatres including the Playhouse, with a thrust stage; and the Penthouse Theatre, the first theatre-in-the-round built in America. Faculty- and student-directed plays drawn from the full range of world dramatic literature are presented throughout the year. Additional productions are mounted in the two theatres of Meany Hall. Technical and design support is provided for opera productions of the School of Music and for programs of the dance division.

Undergraduate Program

Adviser
129 Hutchinson

Bachelor of Arts

Major Requirements: A minimum of 61 credits in drama courses. Three quarters of acting: 251, 252, 253 or 351, 352, 353 (with 350 series, 3 credits of 298 or 498 also required). Three quarters of technical theatre: 210, 211, 212, 290, 291, 292. 25 credits in theatre history, dramatic literature, and criticism: 302, 371; one of 372, 373, 374, 377, 378, 472; one of 473, 475, 476; one of 416, 494 (or substitution of additional course from two previously listed series). Electives at the 300-400 level to complete the balance. Majors are required to register for 401 each quarter they are in residence.

Minor

Minor Requirements: 34 credits consisting of DRAMA 101, 210, 211, 212, 251, 252, 253, 371. (DRAMA 290, 291, and 292 recommended.)

Graduate Program

The School of Drama offers programs of graduate study leading to the Master of Fine Arts and Doctor of Philosophy degrees. Areas of study for the M.F.A. degree are acting, stage direction, scene design, lighting design, and costume design. Most students should expect to spend three years to complete requirements for the M.F.A. degree.

The Ph.D. program provides students with training for scholarly research in theatre history, dramatic literature, theory, and criticism. Students are also encouraged to do interdisciplinary work with such allied programs as the Ph.D. program in critical theory.

Admission Requirements

Students may enter only in autumn quarter. Since admission requirements vary for each of the graduate programs, applicants should contact the School for current application information and deadlines.

Faculty

Director

Sarah N. Gates

Professors

Clay, Jack D. * 1986, (Emeritus); MA, 1956, Northwestern University; acting.

Comtois, Mary Elizabeth * 1985, (Emeritus); PhD, 1970, University of Colorado (Boulder); playwriting.

Crider, James R. * 1952, (Emeritus); MA, 1950, University of Washington; costume design.

Dahlstrom, Robert A. * 1971; MA, 1967, University of Illinois; scene design.

Haaga, Agnes M. 1947, (Emeritus); MA, 1952, Northwestern University; child drama.

Hostetler, Paul S. * 1974, (Emeritus); PhD, 1965, Louisiana State University; theatre history, directing.

Loper, Robert B. * 1967, (Emeritus); PhD, 1957, University of Birmingham (UK); acting, directing.

Siks, Geraldine B. 1949, (Emeritus); MA, 1940, Northwestern University; child drama.

Sydow, John D. 1970, (Emeritus); MFA, 1950, Yale University; directing.

Witham, Barry B. * 1979; PhD, 1968, Ohio State University; theatre history.

Associate Professors

Forrester, William D. * 1972; MFA, 1969, Yale University; scene design.

Gates, Sarah N. * 1983; MA, 1974, University of California (Santa Barbara); MFA, 1983, Boston University; costume design.

Hunt, Robyn * 1988; MFA, 1978, University of California (San Diego); actor training, cross cultural performances, techniques, and script writing.

Lorenzen, Richard L. * 1970; PhD, 1968, Ohio State University; theatre history.

Lounsbury, Warren C. 1948, (Emeritus); MA, 1953, University of Washington; technical direction.

Valentinetti, Aurora 1943, (Emeritus); MA, 1949, University of Washington; puppetry.

Assistant Professors

Bryant-Bertail, Sarah * 1990; PhD, 1986, University of Minnesota; dramatic criticism, semiotics, feminist theatre.

Geiger, Mary L. * 1993; MFA, 1985, Yale University; lighting design.

Schneider, Sara K. * 1995; MA, 1988, PhD, 1992, New York University; interdisciplinary arts, American culture, performance.

Wolcott, John R. * 1967; PhD, 1967, Ohio State University; theatre history, computing in theatre research.

Senior Lecturer

Walker, Milton B. * 1988; MA, 1970, University of Washington; new American plays and the classical repertoire, directing.

Lecturers

Burke, Thomas D. 1994; MFA, 1988, University of Washington; CAD, technical theatre.

Shahn, Judith * 1990; BFA, 1977, Carnegie-Mellon University; voice production for the theatre, dialects, Shakespeare and modern text.

Trout, Deborah L. 1994; MFA, 1994, Yale University; costume design.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

DRAMA 101 Introduction to the Theatre (5) VLPA *Schneider* The theatre as an art form with emphasis on the play in production. The role of the various theatre artists: actors, directors, designers, and playwrights. Required attendance at one or more performances. Lecture and discussion groups. For nonmajors. Offered: AWSp.

DRAMA 102 Text and Performance (5) VLPA Play analysis for the theatre. Dramatic text as scenario for production. A consideration of how theatre practitioners use text as a source of inspiration for acting, directing, and design. The relationship between dramatic forms and theatrical production illustrated through film and study of historic productions.

DRAMA 201 Dramatic Action (5) VLPA Play structure through analysis of one-act plays in all genres, with special attention to plotting and the various means used to achieve a unity of action as the basis of all drama.

DRAMA 210, 211, 212 Theatre Technical Practice (4, 4, 4) VLPA *Burke, Geiger, Trout* Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. 210: technical procedures; 211: costumes; 212: stage lighting.

DRAMA 250 Acting Skills for Everyday Life (4) VLPA Introduction to acting techniques as tools for nonactors. Effective communication, relaxation, and stress reduction. Role playing, goal identification and achievement in public speaking, marketing presentations, courtroom persuasion, teaching situations. Skill development through theatre games, role playing, improvisation.

DRAMA 251, 252, 253 Acting (4, 4, 4) VLPA Theory and practice of fundamentals of American method, based on principles of Stanislavsky and their American evolution. 251: development of basic acting skills through monologue work. 252: direct application of methodology through scene work. 253: preparation of audition material and scene work within the context of entire play. Prerequisites: 251 for 252; 252 for 253. Offered: A, W, Sp.

DRAMA 259 Performance Practicum (2-6, max. 12) VLPA Special work in various aspects of performance technique.

DRAMA 280, 291, 292 Theatre Technical Practices Laboratory (1-3, 1-3, 1-3) VLPA Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Prerequisites: 210 for 290 or concurrent registration; 211 for 291 or concurrent registration; 212 for 292 or concurrent registration.

DRAMA 298 Theatre Production (1-2, max. 9) VLPA Laboratory course for students participating in School of Drama minor productions and projects. Credit/no credit only. Prerequisite: being cast in a production or receiving a crew assignment. Offered: AWSp.

DRAMA 302 Play Analysis (5) VLPA *Bryant-Bertail, Schneider* Analyses of plays, based on leading critical traditions. Illustrates variety of approaches to a play, criteria for choosing best approach for a given play, and ways in which criticism aids in understanding dramatic effect, for both reader and practitioner.

ner. Prerequisite: some theatre background. Offered: ASp.

DRAMA 305 Computers in the Theatre (5) VLPA *Wolcott* Computing and information systems as problem solving tools for the theatre. Analysis of problems in theatre production and scholarship, with approaches to solutions through computing. Database, spreadsheet and CAD system applications in the practice and study of lighting and scenic design, theatre management, and research in theatre history and criticism. Offered: A.

DRAMA 312 Lighting Technology (3) VLPA *Geiger* Student functions as master electrician for one production during the quarter.

DRAMA 313 Scenery Construction (3) VLPA *Burke* Survey of materials, processes, and equipment in the fabrication, assembly, painting, rigging, and installation of stage scenery and properties. Prerequisite: 210 or permission of instructor.

DRAMA 314 Introduction to Design for the Performing Arts (3) VLPA Survey of the role of design (scenery, costume, lighting, and sound) in the contemporary performing arts. Consideration of communicative mission and limitations of each of the design areas. Prerequisites: 210, 211, 212.

DRAMA 316 Theatrical Makeup (2) VLPA Basic principles, with intensive practice in application of makeup for use on proscenium and arena stages. Open to nonmajors.

DRAMA 351, 352, 353 Advanced Acting (4, 4, 4) VLPA *Hunt* Centers on a strong physical approach, developing practical skills for expressing thoughts, playing action, and exploring character conviction in powerful ways. Addresses the challenge of integrating mental homework (script analysis, physiological motivation) with clarity of physical expression. Prerequisites: audition for 351; 351 for 352; 352 for 353. Offered: A, W, Sp.

DRAMA 371 Theatre and Society (5) VLPA/IAS Introduction to the history of the theatre from the Greeks to the present day. Development of the theatre as a social institution. Reading of major texts from each period. Offered: A.

DRAMA 372 Actors, Scenes, and Machines (5) VLPA Examines past and present productions of plays, musicals, operas, and related performances to understand the relationship between the performer, the playhouse, and scenic spectacle. Readings include selected plays and theoretical works. Prerequisite: 302 and 371.

DRAMA 373 Women in Theatre (5) VLPA *Bryant-Bertail* Examines both the inclusion and exclusion of women by the cultural practice of theatre. Has two primary aims: to provide an historical overview of women in playwriting, acting, directing and criticism, and to apply contemporary social issues to the practice, texts, and criticism of the stage. Prerequisite: 302 and 371.

DRAMA 374 History of the Greek Theatre and Its Drama (5) VLPA *Wolcott* Examination of the relationship of the physical theatre and the productions that took place within that theatre, with particular emphasis on the text performed, styles of acting, scenic elements, and the critical theories that influenced the theatre of the period. Prerequisite: 302 and 371.

DRAMA 377 History of the European Renaissance Theatre and Its Drama (5) VLPA *Wolcott* See 374 for course description. Prerequisite: 302 and 371.

DRAMA 378 History of the English Theatre and Its Drama: 1500-1700 (5) VLPA See 374 for course description. Prerequisite: 302 and 371.

DRAMA 391 Beginning Technical Practices (1-3, max. 9) VLPA Laboratory course involving specific production assignments, either in-shop or in-theatre, or

both. Prerequisites: 290, 291, 292 or receiving a production assignment.

DRAMA 395 Creative Classroom Computing (5)
VLPA Wolcott Innovative uses of computers in the classroom. Survey of learning styles and teaching strategies, and ways to use the computer as a non-traditional teaching tool. Students develop short course software demonstrations responsive to instructional needs in their individual disciplines. Teaching and computing experience helpful, but not required.

DRAMA 401- Drama Colloquium (0-0-1, max. 3)
VLPA Weekly lectures by guest artists, presentations by faculty or students of works in progress. Required of all undergraduate and graduate drama majors each quarter in residence. Offered: AWSp.

DRAMA 410 Advanced Theatre Technical Practices (2-4, max. 20) **VLPA** Production-related apprenticeship, in the areas of scene construction, scene painting, costume, or lighting. Prerequisites: 210, 211, 212, 418, or permission of instructor. Offered: AWSp.

DRAMA 413 Advanced Scene Construction (3)
VLPA Special problems in scene construction materials and rigging. Prerequisites: 210, 212, 290, 292, 410 or equivalent practical experience, and 420.

DRAMA 414 Scene Design (3, max. 6)
VLPA Dahlstrom, Forrester Theory, practice, and rendering of scene designs. Repeat of course involves intermediate designs and models. Prerequisites: 210, ART H 203, or equivalent.

DRAMA 415 Stage Costume Design (3, max. 6)
VLPA Gates Theory, practice, and rendering of costume designs for the theatre. Repeat of course involves intermediate designs. Prerequisites: 211, ART 109 and ART H 203 or equivalent or permission of instructor; 416 for repeat of course.

DRAMA 416 History of Western Dress (5) VLPA
Gates Survey history of Western dress. Emphasis on use of this information by theatrical costume designers. Includes development of costume for drama, ballet, and opera. Recommended: 371, 372, or background in history, or permission of instructor.

DRAMA 417 Stage Costume Patternmaking and Construction (3, max. 6) VLPA Techniques of costume construction, including study of fabrics; emphasis on creating patterns by draping. Prerequisites: 211, 416, or permission of instructor.

DRAMA 418 Scene Painting (3, max. 6) VLPA
Forrester Lecture-laboratory with focus on techniques and principles of scene painting. Uses of various media and types of equipment as applicable to varied scenic pieces. Prerequisite: 210 or permission of instructor.

DRAMA 419 Advanced Stage Lighting Design (3, max. 9) VLPA **Geiger** Development of a working process consistent with current professional practice. Includes drafting, worksheets, study of color. Students read plays and develop analytical skills. Prerequisite: senior standing and permission of instructor.

DRAMA 420 Design and Technical Drafting (2, max. 4) VLPA Laboratory and project critique covering stage design graphics and technical drawing; specifically: designer's elevations, ground plans, sections, detail drawing, transposition of design drawing information to technical drawings. Prerequisite: 210.

DRAMA 421 Drawing and Rendering Techniques for the Theatre (2, max. 4) VLPA **Forrester, Gates** Weekly figure-drawing laboratories with live model and weekly field trips for laboratories in drawing natural phenomena and architectural detail. Studies in historical drawing styles. Practice in use of several media and techniques of expression. Prerequisites: 210, 211.

DRAMA 441 Beginning Playwriting (5, max. 10)
VLPA Writing exercises and drafts of a one-act play

provide first experience in writing for performance. Readings of representative one-act plays introduce genres and writing styles. Prerequisites: 253 or 353; 210, 211, 212; or practical theatre experience.

DRAMA 450 Rehearsal Laboratory (2, max. 6)
VLPA Acting in projects directed by graduate directing students. Prerequisite: one year of acting and audition.

DRAMA 454 Projects in Acting (3, max. 9) VLPA Rehearsal and classroom performance of dramatic literature of various periods and styles. Prerequisite: audition.

DRAMA 460 Introduction to Directing (3) VLPA
Walker Student is introduced to the art of the stage director. Prerequisites: 302; 253 or 353; 210, 211, 212; and permission of instructor. Offered: A.

DRAMA 461, 462 Elementary Directing (3, 3)
VLPA Walker Elementary study of the art of the stage director. Prerequisites: 460 and permission of instructor for 461; 461 and permission of instructor for 462.

DRAMA 466 Stage Management (2-5, max. 15)
VLPA Study and practice of stage management. Prerequisites: 210, 211, 212, 290, 291, 292, or permission of instructor.

DRAMA 472 History of the English Theatre and Its Drama: 1700-1900 (5) VLPA **Witham** Examination of the relationship of the physical theatre and the productions that took place within that theatre. Particular emphasis on the text performed, styles of acting, scenic elements, and the critical theories that influenced the theatre of the period. Prerequisite: 302 and 371.

DRAMA 473 Modern European Theatre and Drama (5) VLPA **Witham** See 472 for course description. Prerequisite: 302 and 371.

DRAMA 475 Modern English Theatre and Drama (5) VLPA **Witham** Major trends in contemporary English theatre, post-World War II to the present. Performers, dramatists, and designers who shaped the course of the theatre following the "angry young rebellion" of the 1950s. Prerequisite: 302 and 371.

DRAMA 476 Modern American Theatre and Drama (5) VLPA **Witham** Major forces shaping modern American theatre, Eugene O'Neill to the present. Leading dramatists, directors, and designers of the post-World War II era. Experiments such as the federal theatre project, group theatre, and living theatre. Prerequisite: 302 and 371.

DRAMA 490 Special Studies in Acting-Directing (1-6) VLPA Prerequisite: permission of instructor.

DRAMA 491 Special Studies in Design-Technical (1-6) VLPA Prerequisite: permission of instructor.

DRAMA 494 Special Studies in Theatre and Drama (5, max. 20) VLPA **Bryant-Bertail, Schneider, Witham, Wolcott** Topics in drama, history, and criticism. See Time Schedule for specific topic. Prerequisites: 302, 473, 476, or permission of instructor.

DRAMA 495 Practicum in Design and Technical Theatre (2-6, max. 15) VLPA Emphasis on developing design and technology problem-solving skills through laboratory and project evaluation. Prerequisites: 210, 211, 212, 313, or permission of instructor.

DRAMA 496 Stage Costume Problems (2, max. 8)
VLPA Specific research problems of stage costume design and execution: accessories, masks, wigs, fabric modification, millinery or construction analysis for specialized costumes. Topics vary. Prerequisites: 211, 416, and permission of instructor.

DRAMA 497 Theatre Organization and Management (3) VLPA Theoretical and practical examination of the professional theatre organization and management: legal structures, funding, business practice,

unions, and operational procedures. Open to nonmajors.

DRAMA 498 Theatre Production (1-2, max. 9)
VLPA Laboratory course for students participating in School of Drama major productions. Credit/no credit only. Prerequisite: being cast in a production or receiving a crew assignment. Offered: AWSp.

DRAMA 499 Undergraduate Research (1-5, max. 15) Prerequisite: permission of instructor.

Courses for Graduates Only

DRAMA 502 Designer-Director Analysis (4)
Dahlstrom, Walker Methods of examining plays to make the collaboration of director and designer productive. Attempts to create a structural whole from visual and verbal approaches to analysis. Prerequisite: graduate standing in drama.

DRAMA 510 Design Studio (3, max. 18)
Dahlstrom, Forrester, Gates, Geiger Investigation of space, form, light, texture, and color in total theatre design, stressing mastery of the media, methods of presentation and execution, and intelligent and appropriate visual reaction to a dramatic text. Prerequisites: graduate standing in drama.

DRAMA 512 Lighting Design Seminar (1/4, max. 18)
Geiger Forum for graduate lighting students to further explore the art of lighting design. Assignments include paper projects, School of Drama production, and field trips to local theatres. Prerequisites: graduate standing.

DRAMA 513 Technical Direction (3, max. 9) Practical experience in mounting scenery for a current production; study of materials, techniques, management, and equipment of technical theatre; theatre planning and programming. Prerequisites: 413 and permission of instructor.

DRAMA 514 Design and Technical Theatre Colloquium (2, max. 18) Discussion of work in progress or completed in production, centering on the conceptual work of the designer/director on the production and the methods of execution in the shops and on stage. Offered: AWSp.

DRAMA 515 Structures Analysis for the Theatre (3) Principles of engineering statics as applied to scenery construction problems.

DRAMA 516 Stage Rigging (3) Theory and practice of hemp, counterweight, and motorized rigging systems for the stage.

DRAMA 518, 519 Studies in Historic Design (3, 3)
Dahlstrom, Forrester, Gates Investigation of artistic principles and modes that influenced the art, architecture, furniture, and decor of selected historic periods. Prerequisite: 518 for 519, or permission of instructor.

DRAMA 520 Advanced Theatre Practicum (1-5, max. 15) Professional student internship with professional theatres: scenery, lighting, scene painting, costume, acting, directing, stage management, theatre management. Prerequisite: permission of instructor.

DRAMA 551, 552, 553 Teaching of Acting (3, 3, 3) Seminar discussion on problems in teaching acting to undergraduate students in 251, 252, and 253. Prerequisites: permission of instructor and being a teaching assistant in acting.

DRAMA 555 Studies in Acting (2-6, max. 18) Individual or group work on special skills for the actor. Topics vary. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

DRAMA 557 Studio I (12, max. 36) **Pearson, Shahn** Skill development in acting, voice, speech, and movement necessary for professional training in acting. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

DRAMA 558 Studio II (12, max. 36) *Pearson, Shahn* Continuation of 457. Prerequisites: 457 and completion of the first year of the Professional Actor Training program. Offered: AWSp.

DRAMA 559 Studio III (6, max. 18) *Pearson, Shahn* Specialized and individualized work relating to the main curriculum of the third year of the Professional Actor Training Program. Prerequisites: 458 and completion of the second year of the Professional Actor Training Program. Offered: AWSp.

DRAMA 560 Directing Apprenticeship (4, max. 12) Student works in close association with faculty and visiting directors for the entire rehearsal period in major productions of the School of Drama. Prerequisites: admission to the graduate directing program and permission of the instructor. Credit/no credit only.

DRAMA 561 Directing Projects (3-5, max. 24) *Walker* Directing practicum. One-act plays, scenes, or acts from full-length plays. Contemporary, experimental American and European drama. Prerequisite: graduate standing in the directing program.

DRAMA 562 Directing Workshops (1-3, max. 12) Workshops in specialized areas of use to the advanced director, including, but not limited to, stage combat, improvisation, physical comedy, and mask work.

DRAMA 563 Seminar in Directing (2, max. 18) *Walker* Seminar discussion of current productions; focused readings and discussion in specific areas of dramatic literature and problems related to stage direction. Prerequisites: graduate standing in drama and permission of instructor.

DRAMA 564 Advanced Rehearsal Laboratory (4, max. 8) *Walker* Rehearsal techniques that can be used in defining style in a variety of contemporary and historical plays. Prerequisite: completion of first year of graduate directing program.

DRAMA 565 Advanced Directing Projects (4-5, max. 10) Projects, including the development of theatrical events from non-dramatic texts, for third-year students in MFA directing program.

DRAMA 566 Special Studies in Directing (2, max. 12) Focus readings and text analysis of plays from specific areas of dramatic literature and problems related to their staging.

DRAMA 571, 572, 573 Problems in Theatre History Research (5, 5, 5) *Witham, Wolcott* Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

DRAMA 575, 576, 577 Seminar in Theatre History (5, 5, 5) *Witham, Wolcott* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

DRAMA 581, 582, 583 Analysis of Dramatic Texts (5, 5, 5) *Bryant-Bertail, Schneider* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

DRAMA 585, 586, 587 Seminar in Dramatic Theory (5, 5, 5) *Bryant-Bertail, Schneider* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

DRAMA 599 Advanced Studies in Theatre Arts (1-5, max. 10) Independent projects or group study of specialized aspects of theatre arts. Prerequisite: permission of instructor.

DRAMA 600 Independent Study or Research (*)

DRAMA 700 Master's Thesis (*)

DRAMA 800 Doctoral Dissertation (*)

Economics

302 Savery

The Department of Economics is concerned with the analysis of the ways in which societies organize the production of goods and services and the distribution of these among groups and individuals. Applied fields of study available to the student include: money and banking, industrial organization, natural resource economics, labor economics, public finance, economic history, comparative systems and development, international trade, and econometrics.

Undergraduate Program

Director of Undergraduate Studies
Michelle Turnovsky
229 Savery

Advisers
304 Savery

Bachelor of Arts

Admission Requirements: (1) A minimum of 45 transferable credits, including ECON 200, 201, 311 (or STAT 311), MATH 124 (or MATH 112), and one 5 credit course in English composition; (2) a cumulative GPA for all prior college work of at least 2.80; (3) GPA for the five courses required for entrance must be at least 2.80 with a minimum of 2.0 for each course (students who have repeated any of these five courses starting winter quarter 1983 must include both grades in the average); (4) transfer students must be enrolled at the UW before they may apply.

Major Requirements: (1) Admission to the major; (2) a minimum of 50 credits in economics, including ECON 200, 201, 300, 301, 311 (or STAT 311), and at least five other upper-division courses in economics, at the 400 level, excluding ECON 496, 497, and 499; (3) grades of 2.0 or better in ECON 300 and 301; (4) one calculus course (MATH 124, 134, 112, or equivalent); (5) transfer students are required to complete a minimum of 25 upper-division economics credits in residence at the UW.

Bachelor of Science

The program is under review (1996). Consult department adviser about requirements.

The department offers two certificates for students interested in specializing in *International Economics* or in *Economic Theory and Quantitative Methods*. Students who wish to pursue these certificates should consult with an economics adviser. The department also offers an honors curriculum for students participating in the University Honors Program and for students invited by the department to pursue departmental honors.

Graduate Program

Philip Brock, Graduate Adviser

The department offers programs of study leading to the Master of Arts and the Doctor of Philosophy degrees. The academic programs in economics are designed to develop trained economists for careers in teaching, private industry, government, and international agencies. Frequent seminars—led by U.S. and foreign visitors as well as by faculty and students—are conducted as an integral element of the department's graduate program.

Special Requirements

An undergraduate major in economics is not required for admission to the graduate program, but students should have taken intermediate-level courses in

microeconomics and macroeconomics. Applicants should also have taken at least one year of calculus, one term of linear algebra, and one term of statistics. Applicants are required to take the Graduate Record Examination General Test and are encouraged to take the Subject Test in Economics.

Graduate requirements for the M.A. degree include ECON 500, 501, 502, 503, 508, 580, 581, and 582. In addition to this core program, M.A. students must take at least seven elective courses in economics at the graduate level. At least two of these courses must be in the same area (the field of specialization), and at least three of the courses must be in applied areas. M.A. students also must complete 6 credits of a supervised internship. Well-prepared students should be able to complete the M.A. program in two years.

Graduate requirements for the Ph.D. degree include ECON 500, 501, 502, 503, 508, 509, 580, 581, and 582. Ph.D. students are required to pass core examinations in microeconomics and macroeconomics. In addition to this core program, Ph.D. students must take eight other courses in economics at the graduate level. Each Ph.D. student must satisfy the requirements for two fields of specialization. The fields of specialization include advanced macroeconomic theory, advanced microeconomic theory, comparative systems and development, econometrics, health economics, industrial organization, international trade, labor economics, natural resource economics, and public finance.

Doctoral students must complete a doctoral dissertation. A foreign language is not required. A student with the recommended background can complete the doctoral program in four years, but most students take about five years.

Financial Aid

A number of teaching assistantships are awarded each year to incoming and continuing graduate students.

Research Facilities

The Institute for Economic Research provides support for graduate student and faculty research. The Center for Social Science Computation and Research maintains an extensive set of computer programs specifically designed for economic research.

Faculty

Chair

Richard Startz

Professors

Barzel, Yoram * 1961; MA, 1956, Hebrew University (Israel); PhD, 1961, University of Chicago; price theory, political economy.

Brown, Gardner * 1965; PhD, 1964, University of California (Berkeley); resource and environmental economics.

Bruce, Neil * 1990; PhD, 1975, University of Chicago; public finance (economics of the public sector) especially taxation.

Cartwright, Philip W. * 1947, (Emeritus); PhD, 1950, Stanford University; macroeconomics, state and local fiscal policy.

Crutchfield, James A. * 1960, (Emeritus); PhD, 1954, University of California (Berkeley); natural resources economics, policy and management, especially marine and environmental resources.

Engel, Charles M. * 1991; PhD, 1983, University of California (Berkeley); international monetary economics.

Gillingham, J. Benton 1947, (Emeritus); MA, 1941, University of Wisconsin; economics.

Halvorsen, Robert F. * 1972; PhD, 1973, Harvard University; natural resources, public finance.

Hartman, Richard C. * 1971; PhD, 1971, University of California (Berkeley); economic theory.

Lardy, Nicholas R. * 1983, (Adjunct); PhD, 1975, University of Michigan; international economics and Chinese economic development and trade.

Lundberg, Shelly J. * 1984; PhD, 1981, Northwestern University; labor economics.

Madden, Carolyn Watts * 1984, (Adjunct); MA, 1974, PhD, 1976, Johns Hopkins University; health economics and policy.

Mah, Feng-Hwa * 1961, (Emeritus); PhD, 1959, University of Michigan; Chinese economy and foreign trade.

McCaffree, Kenneth M. * 1949, (Emeritus); PhD, 1950, University of Chicago; labor economics and the economics of medicine.

McGee, John S. * 1966, (Emeritus); PhD, 1952, Vanderbilt University; industrial organization.

Morris, Morris D. 1949, (Emeritus); PhD, 1954, University of California (Berkeley); economic history and the economy of India.

Nelson, Charles R. * 1975; PhD, 1969, University of Wisconsin; time series analysis, economic statistical analysis, advanced macroeconomic theory.

North, Douglas C. 1950, (Emeritus); PhD, 1952, University of California (Berkeley); economic history.

Parks, Richard * 1970; PhD, 1966, University of California (Berkeley); microeconomics, econometrics, finance.

Plotnick, Robert D. * 1984, (Adjunct); MA, 1973, PhD, 1976, University of California (Berkeley); economics of poverty, labor and social welfare policy.

Silberberg, Eugene * 1967; PhD, 1964, Purdue University; price theory.

Startz, Richard * 1984; PhD, 1978, Massachusetts Institute of Technology; macroeconomics, econometrics, finance.

Thornton, Judith Ann * 1961; PhD, 1966, Radcliffe; comparative systems, Soviet economics.

Turnovsky, Stephen J. * 1987; PhD, 1968, Harvard University; macro and monetary economics; international economics; theory of economic stabilization.

Worcester, Dean A. * 1969, (Emeritus); PhD, 1943, University of Minnesota; comparative systems, policy related to income distribution.

Yamamura, Kozo * 1972, (Adjunct); PhD, 1964, Northwestern University; economic development and economic history of Japan, comparative economic history.

Associate Professors

Brock, Philip L. * 1991; PhD, 1982, Stanford University; economic liberalization with emphasis on financial markets and capital accumulation.

Deolalikar, Anil B. * 1989; PhD, 1981, Stanford University; economic development, economics of human capital, economics of population, technology transfer.

Hadjimichalakis, Michael * 1969; PhD, 1970, University of Rochester; monetary theory and policy, macroeconomics, growth.

Huppert, Daniel D. * 1987, (Adjunct); PhD, 1975, University of Washington; economics and management of natural resources, especially marine fisheries.

Kochin, Levis A. * 1972; PhD, 1975, University of Chicago; macroeconomics, industrial organization.

Leffler, Keith B. * 1978; PhD, 1977, University of California (Los Angeles); industrial organization, microeconomics.

Thomas, Robert P. * 1968; PhD, 1964, Northwestern University; economic history.

Wong, Kar-Yiu * 1983; PhD, 1983, Columbia University; international trade and commercial policy.

Assistant Professors

Eicher, Theo S. * 1994; MA, 1991, MPhil, 1993, PhD, 1994, Columbia University; international development and macroeconomics with emphasis on economic growth.

Ellis, Gregory M. * 1988; BS, 1982, Oregon State University; PhD, 1992, University of California (Berkeley); environmental economics, economics of natural resources, industrial organization.

Khalil, Fahad A. * 1991; PhD, 1991, Virginia Polytechnic Inst. & State Univ; information economics and the theory of contracts.

Lawarree, Jacques P. * 1990; PhD, 1990, University of California (Berkeley); industrial organization, contract theory, game theory.

Ross, Elaine 1993; PhD, 1993, University of Pennsylvania; labor, development, applied microeconomics.

Zivot, Eric W. * 1993; PhD, 1992, Yale University; time series, econometrics, applied macroeconomics, empirical finance.

Senior Lecturers

Hayne, Paul T. * 1976; PhD, 1963, University of Chicago; evolution of economic theory and commercial society.

Salehi-Esfahani, Haideh 1990; PhD, 1985, University of Pennsylvania; international economics, economic development.

Turnovsky, Michelle H. L. 1987; MBA, 1965, Harvard University; PhD, 1978, Australian National University; international economics, economics of the European Union.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

ECON 100 Principles of Economics (5) I&S, QSR Fundamental concepts of economic analysis with application to contemporary problems. Cannot be taken for credit if 200 or 201 previously taken.

ECON 150 Quantitative Preparation for Economics and Business (5) I&S, QSR Introduces students to the kinds of quantitative analysis used in economics and business courses. Uses practical examples to build skills in graphical analysis, use of algebra, basic probability, introductory computer use, and quantitative reasoning.

ECON 200 Introduction to Microeconomics (5) I&S, QSR Analysis of markets: consumer demand, production, exchange, the price system, resource allocation, government intervention. Recommended: 1.5 years of high school algebra and passing score on placement test for MATH 111, or equivalent. Offered: AWSpS.

ECON 201 Introduction to Macroeconomics (5) I&S, QSR Analysis of the aggregate economy: national income, inflation, business fluctuations, unemployment, monetary system, federal budget, international trade and finance. Prerequisite: 200. Recommended: 1.5 years of high school algebra and passing score on placement test for MATH 111 or equivalent. Offered: AWSpS.

ECON 260 Economic History of the Western World (5) I&S Analysis of sources of long-run economic change from Neolithic times to the present. Develops basic analytical concepts of economic change and applies them to human history. First half of course addresses economic development up to settlement of American colonies and last half deals with American economic development.

ECON 299 Study Abroad: Economics (5, max. 10) I&S For participants in the Study Abroad program. Specific course content determined by assigned faculty member and announced in Study Abroad bulletins.

ECON 300 Intermediate Microeconomics (5) I&S Analysis of decisions by individuals and by firms and of outcomes in factor and product markets. Policy issues and applications. Prerequisites: 200, MATH 112 or 124, or equivalent. Offered: AWSpS.

ECON 301 Intermediate Macroeconomics (5) I&S Analysis of the determinants of the aggregate level of employment, output, prices, and income of an economy. Policy issues and applications with special reference to current monetary and fiscal policy. Prerequisites: 201, 300. Offered: AWSpS.

ECON 306 Topics in Economics (1-5, max. 10) I&S Provides undergraduates the opportunity to apply tools learned in introductory economics courses to topics of interest outside the standard curriculum. Topics vary. Prerequisites: 200, 201 or permission of instructor.

ECON 310 Microeconomics for Scientists and Engineers (5) I&S Analysis of consumers, firms, and industries using calculus of several variables. Examination of logical and mathematical basis of modern economic analysis. Prerequisites: 200, MATH 126 which may be taken concurrently.

ECON 311 Introduction to Economic Statistics (5) NW, QSR Statistical concepts and their application in economics. Students may receive credit for only one of 311 and STAT 220, 301, 311. Prerequisites: 200, MATH 111 or 120.

ECON 316 Urban Economics (5) I&S Application of economic analysis to urban trends, problems, and prescriptions, such as changing urban form and function, urban public finance, housing and renewal, poverty and race, transportation, and environmental problems. Prerequisite: 200 or equivalent. Offered: jointly with GEOG 316.

ECON 340 Labor Economics (5) I&S Introduction to analysis of labor markets; factors determining size, composition, and skill of labor force, demand for labor services, the pattern of wages including discrimination, impact of labor unions on wages and resource allocations. Analysis of public policy. Cannot be taken for credit if 443 or 444 previously taken. Prerequisite: 200, 201.

ECON 346 Economics of Health Care (5) I&S Economic analysis of the health-care sector of economy: organization, demand and supply factors, pricing practices, financing mechanisms—public versus private, impact of third party, insurance and prepayment, health and economic development. Prerequisite: 200 or equivalent.

ECON 347 Introduction to Population and Economic Dynamics (5) I&S Relationship between population and economics. Historical record, focusing on Europe and Japan and developing countries since World War II; consequences of population growth with respect to income per capita and other measures of economic welfare; ways in which economic factors affect fertility, migration, and mortality; population policy. Prerequisites: 200, 201.

ECON 350 Public Finance (5) I&S Elementary treatment of the theory of public finance. Theory of social welfare maximization, externalities and public goods, benefit-cost analysis, and evaluation of the

distributional and allocational effects of alternative types of taxes. Cannot be taken for credit if 450 or 451 previously taken. Prerequisites: 200, 201 or equivalent.

ECON 370 Introduction to International Economics (5) I&S International trade theory and commercial policy. Balance of payments and foreign exchange markets. World monetary arrangements and policy issues. Applications. Cannot be taken for credit if 471 or 472 previously taken. Prerequisites: 200, 201.

ECON 391 Economic Development (5) I&S Study of major factors contributing to the economic problems of developing countries and discussion of possible solutions. Includes applications of theories in economic development and international trade. Cannot be taken for credit if 491 previously taken. Prerequisites: 200, 201.

ECON 400 Advanced Topics In Microeconomics (5) NW Application of calculus to microeconomics. Development of comparative statics used in production and consumption theory, including derivation of the Slutsky equation and duality results. Prerequisites: 300, MATH 124. Recommended: MATH 126.

ECON 401 Advanced Topics In Macroeconomics (5) NW Application of mathematics to macroeconomics. Possible topics include economic dynamics and growth, rational expectations, real business cycle models, and New Keynesian approach. Prerequisites: 300, 301, and one year of calculus or permission of instructor.

ECON 403 The Economics of Property Rights (5) I&S Property rights as an economic concept. Delineation of rights as a subject of optimization. Formation of contracts to maximize the value of personal property. Formation of organizations to induce efficient use of resources and minimize losses to public domain. Prerequisites: 300. Recommended: two 400-level microeconomics courses.

ECON 404 Industrial Organization and Price Analysis (5) I&S Analysis of firm behavior in imperfectly competitive markets. Topics include monopoly, oligopoly, product differentiation, entry deterrence, and the role of asymmetric information. Game theoretic tools and empirical evidence used to analyze topics. Prerequisite: 300.

ECON 406 Undergraduate Seminar In Economics (5, max. 10) I&S Provides undergraduate student an opportunity to apply the tools of economic analysis in a critical examination of theoretical and empirical work. A list of topics is available in the departmental office. Prerequisites: 200 and permission of instructor.

ECON 407 Development of Economic Thought (5) I&S From the early modern period to the present. The main subjects treated are Adam Smith and the classical school, Karl Marx, the neoclassical reformulation and its critics, the impact of J. M. Keynes, and the evolution of economics in the twentieth century. Prerequisites: 200, 201, or equivalent.

ECON 409 Undergraduate Seminar In Political Economy (5, max. 10) I&S Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Prerequisites: 300, POL S 270 and permission of instructor. Offered: jointly with POL S 409.

ECON 421 Money, Credit, and the Economy (5) I&S Role of money and the banking system in the United States economy. Relation of money to inflation, interest rates, and business fluctuations. Monetary policy and Federal Reserve System. Prerequisites: 300, 301 or equivalent.

ECON 422 Investment, Capital, and Finance (5) I&S Intertemporal optimization: consumption and portfolio allocation decisions of households, investment and financing decisions of firms. Introduction to

financial decisions under uncertainty. Portfolio theory, asset pricing, options, and futures. Financial market institutions and efficiency. Prerequisite: 300, 311.

ECON 431 Government and Business (5) I&S Economic effects of various governmental regulatory agencies and policies. Antitrust legislation as a means of promoting desired market performance. Observed economic effects of policies intended to regulate business practices, control prices, conserve resources, or promote competition. Prerequisite: 300 or equivalent.

ECON 435 Natural Resource Economics (5) I&S Survey of the economics of renewable and non-renewable resources including fisheries, forest, minerals, and fuels. Optimal trade-offs between benefits and costs of resource use, including trade-offs between current and future use. Effects of property rights on resource use. Prerequisite: 300 or permission of instructor.

ECON 436 Economics of the Environment (5) I&S Microeconomic analysis of environmental regulation. The problem of social cost, policy instrument choice, enforcement of regulations, methods for damage assessment, and estimating benefits of environmental improvement. Prerequisite: 300 or instructor permission.

ECON 437 Economics of Biological Resources (5) I&S Application of economic concepts to biology and biological concepts to economics. Examination of theory of species maximization, parallels in behavior between humans and other biota, animal choices among alternative food sources, games animals play, evidence of risk aversion in animals. Prerequisite: 300 or permission of instructor.

ECON 443 Labor Market Analysis (5) I&S Determinants of employment and incomes in the United States: analysis of individual and firm decisions and of equilibrium in the labor market. Topics include decisions to work and retire, education and occupation choices, compensation, discrimination, poverty, unemployment and unions. Examination of policy issues affecting the labor market. Prerequisite: 300.

ECON 444 Topics In Labor Market Analysis (5) I&S In-depth analysis of special topics in the operation of labor markets and public policies affecting incomes and employment. Course content varies by instructor. Prerequisite: 300.

ECON 445 Income Distribution and Public Policy (5) I&S Income distribution implications and economic effects of public policies toward unemployment, illness, industrial accidents, old age, poverty, and age, sex, or race discrimination. Prerequisites: 200, 201.

ECON 447 Economics of Gender (5) I&S Microeconomic analysis of the sources of gender differences in earnings, labor force participation, occupational choice, education, and consumption. Economic theories of discrimination, human capital, fertility and intrahousehold resource allocation. Economics of the family in developed and developing countries. Prerequisite: 300 or permission of instructor. Offered: jointly with WOMEN 447.

ECON 450 Public Finance: Expenditure Policy (5) I&S Application of normative microeconomic theory to analysis of government expenditures. Rationale for government economic activity, collective choice, public goods, and externalities, income redistribution, public sector pricing, and specific expenditure programs. Prerequisite: 300.

ECON 451 Public Finance: Tax Policy (5) I&S Microeconomics of taxation: efficiency, incidence, effect on distribution of income, personal and corporate income taxes, sales and consumption taxes, taxation of property and estates. Prerequisite: 300.

ECON 452 Economic Theory as Applied to the Political System (5) I&S Explanation and evaluation of political system, using elementary economics

theory. Alternative voting rules, political effectiveness of various types of groups, causes and consequences of logrolling, and bureaucratic organizations. Prerequisite: 200 or equivalent. Offered: jointly with POL S 416.

ECON 453 State and Local Public Finance (5) I&S Analysis of Washington state taxes. Considers equity and efficiency in recent tax changes. Examines major budgeted Washington state programs to determine beneficiaries, who bears the costs, and the income transfers that occur in these programs. Prerequisite: 300 or equivalent.

ECON 454 Cost-Benefit Analysis (5) I&S Theory and practice of cost-benefit analysis of public sector projects and policies. Welfare criteria, investment criteria, shadow prices, social discount rate, marginal-willingness-to-pay for non-market goods, social risk, and special topics. Prerequisite: 300.

ECON 460 Economic History of Europe (5) I&S Origins of the modern European economy; historical analysis of economic change and growth from medieval times that stresses the preconditions and consequences of industrialization. Recommended: 200, 201. Offered: jointly with HIST 481.

ECON 462 Economic History of the United States to the Civil War (5) I&S Systematic study of the changing pre-Civil War economic conditions and the consequences of these changes for the American society. Prerequisites: 200, 201, or equivalent.

ECON 463 Economic History of the United States From the Civil War to the Present (5) I&S Systematic study of the changing economic conditions since the Civil War and the consequences of these changes for the American society. Prerequisites: 200, 201, or equivalent.

ECON 466 Economic History of China: 1840-1949 (5) I&S Study of the post-1840 Chinese economy, with a brief introduction to the socioeconomic background of the earlier period. Explanations of China's long economic stagnation, and analyses of the impact of external factors and the role of the government in China's economic development before 1949. Recommended: 200, 201.

ECON 468 China's Economic Reforms—Integration Into World Economy (5) I&S Systematic survey of China's economic reforms since 1978, including China's increasing integration into the world economy. Prerequisite: 466 or 490 or permission of instructor. Offered: jointly with SISEA 468.

ECON 471 International Trade (5) I&S Theory of comparative advantage and different models of international trade. Trade and welfare. Factor mobility and trade flows. Economic integration. Theory and practice of commercial policy. Prerequisites: 300, 301.

ECON 472 International Macroeconomics (5) I&S International monetary theory and open economy macroeconomics. Balance of payments and foreign exchange markets. Different exchange rate arrangements and their adjustment mechanisms. Money and international capital movements. Policy issues. The international monetary system. Prerequisites: 300, 301.

ECON 473 Topics In International Trade (5) I&S Advanced theory of trade and analysis of government trade policies. International trade and factor mobility. Theory of commercial policy. Prerequisite: 471.

ECON 475 Economics of the European Union (5) I&S Analysis of economic issues relating to the European union. Explores the institutional aspects, the attempt to coordinate social and economic policies—welfare, employment, commercial, fiscal, and monetary—and the economic linkages between the European Union and the rest of the world. Prerequisites: 300 and 301.

ECON 481 Introduction to Mathematical Statistics (5) NW Probability, generating functions, method,

Jacobians, Bayes theorem, maximum likelihoods, Neyman-Pearson efficiency, decision theory, regression, correlation, bivariate normal. Students receiving credit for either STAT 341 or 390 may not receive credit for 481. Prerequisites: 311, STAT 311, or equivalent; MATH 124, 125, 126; and a course in linear algebra, which may be taken concurrently. Offered: jointly with STAT 481.

ECON 482 Econometric Methods (5) NW Application of statistical modeling to empirical work in economics. A mixture of theory and applied computer work. Primary focus is regression analysis. Prerequisites: 300, 311, or STAT 311.

ECON 483 Applied Econometric Modeling (5) NW Provides undergraduates the opportunity to learn econometric model building for a particular problem while applying the theory learned in various courses to specific economic cases. Students estimate, test, and forecast economic models. Extensive use of the computer and econometric programs. Prerequisites: 300, 301, and 311.

ECON 485 Game Theory with Applications to Economics (5) NW Introduction to the main concepts of game theory: strategy, solution concepts for games, strategic behavior, commitment, cooperation, and incentives. Application to economics oligopoly theory, bargaining theory, and contract theory. Prerequisites: MATH 112 or 124, junior standing. Recommended: 300, 404.

ECON 490 Comparative Economic Systems (5) I&S Study of resource allocation, growth, and income distribution in capitalist, market socialist, and centrally planned economies. Prerequisites: 300, 301.

ECON 491 Issues in Economic Development (5) I&S Examines factors contributing to the economic problems of developing countries and possible solutions. Theory and applications in economic development and international trade. Prerequisites: 300, 301.

ECON 494 Economy of Japan (5) I&S Analysis of the economic growth of Japan since about 1850 to the present. The reasons for rapid industrialization, various effects of sustained economic growth, and significant contemporary issues are investigated. Prerequisites: 200 and 201, or permission of instructor.

ECON 495 Economic Transformation of Russia and Eastern Europe (5) I&S Analytical survey of the economic institutions and economic structures of the transforming socialist economies. Socialist resource allocation. Market institutions. Structural change and the sequencing of economic reform. Primary focus on Russia and Eastern Europe. Prerequisite: 300, 301, or permission of instructor.

ECON 496 Honors Seminar (5) I&S Honors and other students in high standing have the opportunity to develop research techniques, to pursue topics in breadth and depth, and to apply tools of economic analysis to selected topics in economic theory and current issues of national and international economic policy. For seniors only. Prerequisite: permission of undergraduate adviser.

ECON 497 Honors Directed Study (5) Students write their honors thesis on the topic chosen in the Honors Seminar working under the previously arranged supervision of an economics faculty adviser. Prerequisite: 496.

ECON 498 Senior Seminar (5) I&S Advanced undergraduate research in economics. Students formulate some underlying economic issue, organize its study, gather necessary information, and analyze results. Does not satisfy graduation requirement for the major. Prerequisites: 300, 301, and at least two 400-level ECON classes.

ECON 499 Undergraduate Research (1-5, max. 10) May not be applied toward an advanced degree. Prerequisite: permission of undergraduate adviser.

Courses for Graduates Only

ECON 500 Microeconomic Analysis I (4) Duality and comparative statics analysis. Consumer and firm behavior. Prerequisite: 300 or permission of instructor.

ECON 501 Microeconomic Analysis II (4) Theory of markets and general equilibrium; welfare economics. Prerequisite: 500.

ECON 502 Macroeconomic Analysis I (4) An introduction to advanced macroeconomics. Theories of income, employment, inflation, and growth. Prerequisites: 300 and 301 or permission of instructor.

ECON 503 Macroeconomic Analysis II (4) Rational expectations in macroeconomic models. Dynamic optimizing models under uncertainty. Empirical examination of consumption, asset-pricing, and real business cycles.

ECON 505 Microeconomic Theory: Problems and Applications (3) Seminar for graduate students who have completed the basic core sequence in price theory. Designed to extend the student's analytic and problem-solving abilities by working systematically through a programmed set of readings and problems. The material includes both formal analytical techniques and applications of economic theory. Prerequisite: 501.

ECON 507 History of Economic Thought (3) Classical and neoclassical economics with emphasis on alternative conceptions of the nature and significance of economic science.

ECON 508 Microeconomic Analysis III (4) The role of strategic behavior and uncertainty in microeconomic analysis. Introduction to game theory and information economics. Prerequisites: 500, 501.

ECON 509 Macroeconomics III (4) Modern macroeconomic dynamics, presenting a range of approaches based on intertemporal optimization. Representative agent models with special emphasis on the analysis of government policy. More advanced discussion of economic growth. Prerequisite: 502, 503 or equivalent.

ECON 511 Advanced Microeconomic Theory: Selected Topics (3, max. 12) Seminar in advanced microtheory. Selected topics of special interest and significance. Prerequisites: 500, 501.

ECON 512 Advanced Macroeconomic Theory: Selected Topics (3, max. 12) Seminar in advanced macrotheory. Selected topics of special interest and significance.

ECON 514 General Equilibrium Analysis (3) Study of the existence, uniqueness, and stability of general equilibrium models under the assumptions of competition. Emphasis is on recent developments in the literature with consideration given to both positive and normative economics.

ECON 515 Special Topics in Mathematical Economics (3, max. 12)

ECON 516 Introduction to Noncooperative Game Theory (3) Study of both pure game theory and its applications to such problems as oligopoly pricing, non-cooperative bargaining, entry deterrence, reputation phenomena. Focus on game theory as a modeling tool as opposed to a body of known results. Prerequisite: 508.

ECON 520 The Economics of Property Rights (3) Application of standard economic theory to analyze various forms of property rights as constraints of competition; the costs associated with delineation and enforcement of rights; the costs of negotiating and enforcing contracts for right transfers; resource allocation and income distribution implied by different property right and transaction cost constraints. Prerequisites: 500 and 501, or permission of instructor.

ECON 530 Government Regulation of Business (3) Public policy in the United States with respect to industrial organization and business conduct. Economic issues in antitrust policy emphasized. Prerequisites: 500, 501.

ECON 531 Theory of Industrial Organization I (3) Analysis of the monopolist's problem in different choice variables. Topics include the theory of the firm; pricing; choice of quality and advertising; price discrimination; and vertical control. Prerequisites: 500, 501.

ECON 532 Theory of Industrial Organization II (3) The application of game theory to problems of strategic behavior that arise in the study of imperfectly competitive markets. Topics include vertical integration, short- and long-run price competition, folk theorems, empirical tests of oligopoly pricing models, entry deterrence, research and development, and product differentiation. Prerequisites: 500, 501.

ECON 533 Economic Theory of Regulation (3) Incentive mechanisms and rate designs for promoting optimal production and pricing from natural monopolies. Role of asymmetric information, auditing, and monitoring is emphasized. Competing theories of regulatory behavior examined. Prerequisites: 500, 501.

ECON 535 Economics of Natural Resources I (3) First half of integrated two-course sequence. Non-renewable resource extraction and exploration, including effects of market structure, uncertainty, and taxation. Externality theory and pollution-control policies. Prerequisites: 500, 501, or permission of instructor.

ECON 536 Economics of Natural Resources II (3) Second half of integrated two-course sequence. Renewable resources, including fisheries and forests. Valuation of environmental amenities. Prerequisite: 535.

ECON 537 Economic Aspects of Marine Policy I (3) Development of pertinent economic concepts and their application to selected topics in marine policy decision making. Prerequisite: SMA 500 or permission of instructor. Offered: jointly with SMA 537.

ECON 538 Economic Aspects of Marine Policy II (3) Development of pertinent economic concepts and their application to selected topics in marine policy. Prerequisite: 537 or permission of instructor. Offered: jointly with SMA 538.

ECON 539 Economics of Natural Resources Seminar III (3) Selected advanced topics in the economics of natural resources and environmental regulation. Topics may include environmental regulation as a problem in optimal mechanism design, enforcement of regulations, regulatory regimes for common property resources, and the measurement of market power in nonrenewable resource industries. Prerequisites: 536.

ECON 541, 542 Labor Economics (3, 3) Theoretical and empirical analysis of the labor market. The determinants of labor supply and demand, human capital investment, the pattern of compensation, employment contracts and incentives, unemployment and labor market dynamics.

ECON 543 Population Economics (3) Economic determinants and consequences of population growth; emphasis on formal theoretical models and on empirical analysis. Introduction to: formal demography; welfare economics of population change, including analyses of population effects on consumption, savings, investment, and technical change; and determinants of mortality, fertility, and migration. Prerequisites: 500, 501, or permission of instructor.

ECON 548 Health Economics (3) Theoretical and empirical models of the demand for health and health care; supply of health care from physicians and hospitals; government programs that subsidize health care; occupational health; cost-benefit analyses of preventive health care and new medical technologies. Prerequisites: graduate-level microeconomics, HSERV 585, or permission of instructor.

ECON 547 Health Policy Economics (3) Selected topics in health economics, including risk and insurance, medical malpractice, the market for physician services, and industry regulation. Prerequisite: a course in intermediate microeconomics or permission of instructor. Offered: jointly with HSERV 587.

ECON 550 Public Finance: Expenditure Policy (3) Theory of public finance with emphasis on public expenditures. Social welfare maximization, public goods and externalities, decreasing cost industries, theory of collective choice, second-best analysis. Prerequisite: 500, 501, or permission of instructor.

ECON 551 Public Finance: Tax Policy (3) Theory of public finance with emphasis on taxation. Second-best analysis, optimal taxation, general equilibrium incidence analysis, issues in personal income taxation and corporate income taxation. Prerequisite: 500, 501 or permission of instructor.

ECON 554 Advanced Cost-Benefit Analysis (3) Techniques of, and theoretical foundation for, cost-benefit analysis as applied to the public sector. Prerequisite: 500, 501, or PB AF 553. Offered: jointly with PB AF 554.

ECON 556 Seminar in Urban Economics (3) Use of economic theory to explain land-use trends, transportation, housing and renewal, the ghetto, and the public economy in urban areas. Prerequisites: 300, 301, or equivalent. Offered: jointly with GEOG 556.

ECON 571 International Trade Theory (3) Comparative advantage, resource allocation, income distribution, and foreign trade. Different theories of trade, with or without perfect competition and constant returns. International factor mobility. Prerequisites: 500, 501.

ECON 572 International Financial and Monetary Economics (3) Analysis of open economy macro models with emphasis on exchange rates and balance of payments determination. Prerequisites: 502, 503.

ECON 573 International Commercial Policy (3) Analysis of welfare aspects of international trade and factor mobility. Costs and benefits of protection; implications of different government policies. Import competition and response. Prerequisite: 571 or permission of instructor.

ECON 574 International Macroeconomics (3) Surveys recent developments in international macroeconomics, placing particular emphasis on the dynamic aspects. One sector, multisector, and two-country international models discussed. Fiscal issues treated in depth. Stochastic aspects introduced and related to the literature on international real business cycles. Prerequisite: 509 or equivalent. Offered:

ECON 580, 581, 582 Econometrics I, II, III (4, 4, 4) Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Prerequisite: 580 for 581; 581 for 582.

ECON 583 Econometric Theory I (3) Estimation and testing in linear and nonlinear regression models. Asymptotic theory, bootstrapping. Theoretical developments are reinforced with a variety of empirical examples and applications. Prerequisites: 580, 581, 582 or equivalent.

ECON 584 Econometric Theory II (3) Continuation of 583. Analysis of stationary and nonstationary, univariate, and multivariate time series models. Emphasis on empirical applications. Prerequisite: 583.

ECON 585 Applied Microeconomics (3) Econometric issues that arise in applied microeconomic research. Topics include the use of panel data and models with limited and qualitative dependent variables. Prerequisite: 582 or equivalent.

ECON 590 Theory and Practice of Economic Planning (3) Analysis of incentives for, and methods of, government intervention in socialist and developing countries, with a focus on microeconomic issues.

ECON 591 Theoretical Issues in Economic Development (3) Analysis of issues in economic development with application to the less-developed countries of the world today. Prerequisites: 500, 501, or permission of instructor.

ECON 592 Development Policy (3) Theoretical and empirical analysis of macroeconomic policies pursued by developing countries. Topics include the determination of exchange rates and relative prices in small economies; the examination of government spending, taxation, banking, trade, and labor market policies; and the evaluation of market-oriented economic reform programs. Prerequisites: 503. Recommended: 591.

ECON 595 Analysis of the Transforming Socialist Economies (3) Applications of economic analysis to the economic problems of transforming socialist economies. Economic institutions. The role of the state. Privatization and the behavior of decentralized organizations. Integration into the world market. Prerequisite: micro- and macroeconomic theory and permission of instructor.

ECON 600 Independent Study or Research (*) Credit/no credit only.

ECON 601 Internship (3-9, max. 9) Credit/no credit only.

ECON 602 Teaching Introductory Economics (1) Examines problems encountered in preparing and presenting courses in introductory economics. Credit/no credit only.

ECON 800 Doctoral Dissertation (*) Credit/no credit only.

English

A101 Padelford

Undergraduate Program

Director, Undergraduate Programs
Malcolm Griffith
A11 Padelford

Advisers
A2B Padelford

The Department of English offers courses in English, American, and related literatures; literary history and criticism; expository and creative writing; and related subjects. Courses in the English curriculum cover a wide range of interests in the study of cultural and intellectual history, pertinent to many vocations and careers, on the premise that a knowledge of language and literature is fundamental to a university education. Department programs include a study abroad program in London each spring quarter, an honors program, and an internship program.

Bachelor of Arts

Admission Requirements: 45 quarter-hour credits (or equivalent) completed with at least a 2.00 overall GPA; 2.50 overall English GPA; either 10 credits from ENGL 210, 211, 212, 213, or 10 credits from ENGL 228, 229, 230, 250. Admission is competitive; completion of these requirements does not guarantee admission. Students apply to the English Advising Office, A2B Padelford, during the first two weeks of autumn, winter, and spring quarters.

Major Requirements

No credits in 100-level courses and only 20 credits in 200-level courses may be counted toward the major. Lists of approved courses referred to in the following descriptions are available from the English Advising Office, A2B Padelford.

Language and Literature: A minimum of 63 credits: 30 credits in approved literary period courses [including at least 5 credits in each of the following five periods and an additional 5 credits in period (1) or (2)]: (1) early period, (2) seventeenth- and eighteenth-century English literature, (3) nineteenth-century English literature, (4) American literature to 1917, (5) twentieth-century British and American literature; one approved literature course taught in another department, including courses jointly listed with English, either in English translation or in the original language; 25 elective credits in English courses; 5 credits for senior seminar (ENGL 498). No more than 5 credits in expository or creative writing courses may be counted toward the major.

Creative Writing: A minimum of 63 credits: 25 credits in creative or expository writing courses, at least 15 of which must be at the 300-400 levels and must include course work in at least two forms (i.e., poetry, drama, short story, novel, expository writing); 30 credits distributed in approved literary period courses (see above under Language and Literature); one approved literature course taught in another department, including courses jointly listed with English, either in English translation or in the original language; 5 credits for senior seminar (ENGL 498).

Graduate Program

John Coldewey, Graduate Program Coordinator

The Department of English offers a complete program of graduate courses and seminars designed to provide aspirants for the Master of Arts and Doctor of Philosophy degrees with a knowledge of English literature and language and the necessary scholarship for training in literary criticism and theory, literary history, and English language study, including rhetoric and composition. It is possible to pursue a literature or language study emphasis. The Master of Fine Arts program in creative writing emphasizes projects in imaginative writing in fiction and poetry, supported by courses in criticism and literary periods and types. A special degree program, the Master of Arts for Teachers, is offered for English teachers in secondary schools and community colleges and a Master of Arts for Teachers (English as a Second Language) for those interested in teaching English to speakers of other languages. The graduate program permits completion of master's degree requirements in four to six quarters and doctoral degree requirements in five years (including the master's degree). In a typical five-year program, a student is encouraged to complete course requirements (75 credits) during the first three years, the General Examination for the doctorate in the fourth year, and the dissertation in the fifth year. Those admitted with a master's degree from another university can complete the doctorate in four years: two years of course work, exam year, dissertation year.

Financial Aid

The department annually awards 20 or more new teaching assistantships. To be considered for the following autumn, applicants must submit an assistantship application and supporting materials for admission to the graduate program by January 15. A statement of purpose, three recommendations, the GRE general test, the GRE subject test (literature in English) [except M.F.A., M.A.T. (E.S.L.)] and a critical writing sample are required [except M.A.T. (E.S.L.)].

Master of Arts

Admission Requirements: Bachelor of Arts degree. Major in English equivalent to that awarded by the UW preferred. Graduate Record Examination general test and subject test (literature in English). Three letters of recommendation, statement of purpose, and a critical writing sample.

Graduation Requirements: Intermediate-level proficiency in a language other than English. 40 credits, including 30 credits in graduate English seminars. For students continuing to the doctoral program, a 10-credit master's essay. For a terminal master's degree, students may substitute 10 additional credits in graduate English seminars for the master's essay. A maximum of 10 credits may be transferred from an accredited graduate program elsewhere.

Master of Fine Arts

Admission Requirements: Bachelor of Arts degree. Graduate Record Examination general test, three letters of recommendation, statement of purpose, a critical writing sample, and a creative writing sample.

Graduation Requirements: Intermediate-level proficiency in a language other than English. 55 credits, including 20 credits in creative writing, 15 credits in graduate English seminars (5 credits must be from an approved course in criticism), 5 elective credits, 15 thesis credits, M.F.A. essay. Final oral examination.

Master of Arts for Teachers

Admission Requirements: Same as for the Master of Arts degree, but usually including prior teaching experience.

Graduation Requirements: 45 credits, of which 25 must be in courses numbered 500 or above; including at least one course each in English language or linguistics, rhetoric and/or composition, literary criticism or critical theory, and literature; three courses must have a stated orientation on teaching English; 5 credits of M.A.T. essay. In addition to the 45 credits, a student with no regular or formal teaching experience is required to complete at least 6 credits of ENGL 601 (Internship). 15 of these may be taken outside the department in courses related to the teaching of English, subject to approval. A maximum of 10 credits may be transferred from an accredited graduate program elsewhere.

Master of Arts for Teachers (English as a Second Language)

Admission Requirements: Bachelor of Arts degree, Graduate Record Examination general test, statement of purpose, three letters of recommendation. Students without training in linguistic method and theory must take LING 400 as a prerequisite for 400-level linguistics courses.

Graduation Requirements: 45-54 credits, including ENGL 571, 572, 574, 576; LING 448 or 451, 445 or 461; three courses from ENGL 441, 465, 466, 499, 560, 561, 562, 563, 564, 567, 569, 575, LING 433/ANTH 464, LING 447/PSYCH 457, LING 452, 462; one elective course; 3-6 credits of ENGL 570. Intermediate-level proficiency in a language other than English.

Doctor of Philosophy

Admission Requirements: By petition to Graduate Studies Committee upon completion of the M.A. degree option in literature. Students with recent master's degrees from other institutions are admitted at the post-master's level following the guidelines for admission to the M.A. option and must complete two quarters before petitioning the Graduate Studies Committee for admission to the doctoral program. Students transferring with a master's degree from other institutions may be required to submit an equivalent to the master's essay. Students with M.F.A., M.A.T., or M.A.T. (E.S.L.) degrees from the University must complete course work and language requirements for the M.A. degree option and submit an equivalent to the master's essay.

Graduation Requirements: 75 graded credits of electives in graduate English seminars as advised by the student's Supervisory Committee. Students with a recent master's degree from another university may count up to 30 credits from the master's program, upon approval of the Director of Graduate Studies. Students with a master's degree from the UW may count up to 40 credits in courses taken before admission to the doctoral program. Doctoral students may count up to three graduate courses taken in other departments toward fulfilling degree requirements. Fluency in at least one language other than English, plus whatever additional language study the Supervisory Committee advises. Written examinations for literature emphasis: (1) historical period, (2) specialized field of study, (3) second period or genre; written examinations for language emphasis: (1) major approach to English language study, (2) second approach to language study, (3) textual focus—can be literary period; an oral General Examination on an individualized topic; 27 credits of ENGL 800 (Dissertation) and a Final Examination based on the dissertation.

Faculty

Chair

Thomas Frank Lockwood

Professors

Alexander, Edward * 1962; MA, 1959, PhD, 1963, University of Minnesota; romantic and Victorian literature.

Blake, Kathleen * 1971; PhD, 1971, University of California (San Diego); Victorian literature, children's literature, women's studies.

Brown, Marshall J. * 1988; PhD, 1972, Yale University; 18th and 19th-century literature, literary theory, music and literature.

Burns, Wayne 1948, (Emeritus); MA, 1940, Harvard University; PhD, 1946, Cornell University; Victorian literature.

Butler, Johnella E. * 1987, (Adjunct); EdD, 1979, University of Massachusetts.

Coldewey, John C. * 1972; PhD, 1972, University of Colorado (Boulder); Renaissance literature, medieval drama.

Dillon, George L. * 1986; PhD, 1969, University of California (Berkeley); rhetoric, composition.

Dunn, Richard J. * 1967; PhD, 1964, Case Western Reserve University; Victorian literature, English novel.

Fowler, David C. * 1952, (Emeritus); PhD, 1949, University of Chicago; medieval literature, comparative religion.

Frey, Charles Hubbard * 1976; PhD, 1971, Yale University; Renaissance literature, Shakespeare.

Gerstenberger, Donna * 1960, (Emeritus); PhD, 1958, University of Oklahoma; twentieth-century literature, Anglo-Irish literature, feminist criticism.

Harris, Markham 1946, (Emeritus); MA, 1931, Williams College; fiction writing.

Heilman, Robert B. 1948, (Emeritus); MA, 1930, Ohio State University; MA, 1931, PhD, 1935, Harvard University; drama.

Irmscher, William F. * 1960, (Emeritus); PhD, 1950, Indiana University; rhetoric and theory of composition.

Jeffords, Susan E. * 1985; MA, 1977, PhD, 1981, University of Pennsylvania; feminist theory, American popular culture, and the representation of Vietnam.

Johnson, Charles R. * 1976; MA, 1973, Southern Illinois University; fiction writing.

Jones, Frank W. 1955, (Emeritus); PhD, 1941, University of Wisconsin; MA, 1955, Oxford University (UK); translation, twentieth-century theatre, poetry.

Kaplan, Sydney J. * 1971; PhD, 1971, University of California (Los Angeles); twentieth-century literature, women writers, feminist criticism.

Kenney, Richard L. * 1987; BA, 1970, Dartmouth College; poetry writing.

Korg, Jacob * 1955, (Emeritus); PhD, 1952, Columbia University; Victorian, twentieth-century literature.

Lockwood, Thomas Frank * 1967; PhD, 1967, Rice University; eighteenth-century literature.

Matchett, William H. * 1954, (Emeritus); PhD, 1957, Harvard University; Renaissance literature, Shakespeare.

McCracken, J. David * 1966; PhD, 1966, University of Chicago; eighteenth-century literature.

McElroy, Colleen W. * 1972; PhD, 1973, University of Washington; Black literature, women writers, poetry writing.

McHugh, Heather * 1982; MA, 1973, University of Denver; writing and close reading of poetry, form in nature and art.

Modiano, Raimonda * 1978; PhD, 1973, University of California (San Diego); romanticism.

Posnock, Ross * 1983; PhD, 1980, Johns Hopkins University; American literature.

Reinert, Otto * 1956, (Emeritus); PhD, 1952, Yale University; comparative literature, eighteenth-century literature.

Russ, Joanna * 1977, (Emeritus); MFA, 1960, Yale University; fiction writing.

Sale, Roger H. * 1962; PhD, 1957, Cornell University; Renaissance literature.

Shavero, Steven * 1984; PhD, 1981, Yale University; literary theory, romantic poetry, post-modernism.

Shulman, Robert * 1961; PhD, 1959, Ohio State University; American literature.

Sliberstein, Sandra V. * 1982; PhD, 1982, University of Michigan; TESL, critical theory, discourse analysis, sociolinguistics, language and culture.

Simonson, Harold P. * 1967, (Emeritus); PhD, 1958, Northwestern University; American literature.

Stevick, Robert D. * 1962; PhD, 1956, University of Wisconsin; medieval language and literature.

Streitberger, William R. * 1973; PhD, 1973, University of Illinois; Renaissance literature, textual criticism, paleography.

Tollefson, James W. * 1984; PhD, 1978, Stanford University; English as a second language, language planning.

Wagoner, David R. * 1957; MA, 1949, Indiana University; twentieth-century literature, fiction and poetry writing.

Wong, Shawn H. * 1984; MA, 1974, San Francisco State; creative writing, Chinese-American area studies.

Associate Professors

Abrams, Robert * 1979; PhD, 1973, Indiana University; American literature.

Allen, Carolyn * 1972; MA, 1966, Claremont Graduate School; PhD, 1972, University of Minnesota; twentieth-century literature, women writers, contemporary critical theory.

Altieri, Joanne S. * 1977; PhD, 1969, University of North Carolina; Shakespeare studies, including early seventeenth-century theatre more generally.

Bosworth, David L. * 1984; BA, 1969, Brown University; fiction writing, modern fiction and poetry, American Puritans.

Brenner, Gerald J. * 1966; PhD, 1969, University of New Mexico; American literature, fiction writing.

Butwin, Joseph M. * 1978; PhD, 1971, Harvard University; Victorian literature.

Cummings, Katherine * 1985; PhD, 1985, University of Wisconsin; feminist, psychoanalytical, and literary theory, modern and contemporary literature.

Duckett, Margaret R. 1947, (Emeritus); MA, 1941, University of North Carolina; American literature.

Dunlop, William M. * 1962; MA, 1965, Cambridge University (UK); Shakespeare, nineteenth-century literature, poetry writing.

Fisher, Alan S. * 1968; PhD, 1969, University of California (Berkeley); Renaissance, seventeenth- and eighteenth-century literature, history of literary criticism.

Griffith, John W. * 1968; PhD, 1969, University of Oregon; American literature.

Handwerk, Gary J. * 1984; PhD, 1984, Brown University; literary theory, English and Irish nineteenth- and twentieth-century narrative.

Hudson, Lois Phillips * 1969, (Emeritus); LittD, 1965, North Dakota State University; fiction writing.

LaGuardia, Eric Henry * 1961; PhD, 1961, University of Iowa; Renaissance literature.

Longyear, Christopher R. * 1972; PhD, 1961, University of Michigan; linguistics.

Mussetter, Sally Ann * 1978; PhD, 1975, Cornell University; medieval language and literature.

Palomo, Dolores J. * 1971, (Emeritus); PhD, 1972, State University of New York (Buffalo); Renaissance literature, women writers.

Patterson, Mark R. * 1981; PhD, 1981, Princeton University; American literature.

Remley, Paul G. * 1988; PhD, 1990, Columbia University; Old and Middle English, medieval languages and literatures, critical theory.

Searle, Leroy F. * 1977; MA, 1968, PhD, 1970, University of Iowa; twentieth-century literature, critical theory, American studies.

Shields, David * 1988; MFA, 1980, University of Iowa; fiction writing, screen writing, 20th century literature, autobiography, mass media, film.

Smith, Eugene H. * 1958, (Emeritus); PhD, 1963, University of Washington; rhetoric and theory of composition.

Stanton, Robert B. * 1956, (Emeritus); PhD, 1953, Indiana University; American literature.

Toolan, Michael J. * 1986; PhD, 1981, Oxford University (UK); the linguistic analysis of discourse in English.

Vandenberg, Sara J. * 1980; PhD, 1969, Yale University; Renaissance and seventeenth-century literature.

Vaughan, Miceal F. * 1973; PhD, 1973, MA, 1973, Cornell University; medieval language and literature.

Wald, Priscilla B. 1995; MA, 1981, MPhil, 1983, PhD, 1989, Columbia University; concept of authorship in modern American literature.

Webster, John M. * 1972; PhD, 1974, University of California (Berkeley); Renaissance literature.

Yaggy, Elinor M. 1940, (Emeritus); MA, 1939, University of Idaho; PhD, 1946, University of Washington; American literature, expository and fiction writing.

Assistant Professors

Crane, Gregg David 1995; MA, 1981, University of California (Los Angeles); JD, 1986, University of California (San Francisco); PhD, 1995, University of California (Berkeley); American literature.

Dean, Timothy J. 1994; MA, 1992, PhD, 1994, Johns Hopkins University; modernism/postmodernism, literary and cultural theory, gender studies, poetry.

Doyle, Anne E. * 1987; PhD, 1990, University of Illinois; composition, rhetoric.

Goodlad, Lauren M. E. 1994; MA, 1986, New York University; MPhil, 1989, PhD, 1994, Columbia University; Victorian literature and culture, contemporary culture, cross-disciplinary literary/cultural theory.

Griffith, Malcolm A. * 1966; PhD, 1966, Ohio State University; twentieth-century literature, modern criticism, American literature.

Guerra, Juan C. 1990; MA, 1983, PhD, 1992, University of Illinois; rhetoric and composition.

Moody, Jocelyn K. 1991; MA, 1980, University of Wisconsin; PhD, 1993, University of Kansas; nineteenth-century American, African-American, and women's literature, autobiography.

Riggenbach, Heidi R. * 1989; PhD, 1989, University of California (Los Angeles); teaching English as a second language, discourse analysis, sociolinguistics.

Simpson, Caroline Chung 1994; MA, 1989, University of Houston; PhD, 1994, University of Texas (Austin); Asian American literature and culture, postwar fiction and film.

Sonenberg, Maya * 1993; MA, 1984, Brown University; fiction writing, twentieth-century fiction, postmodern fiction, women writers.

Stygall, Gail * 1990; PhD, 1989, Indiana University; rhetoric and composition, English language linguistics, law and literature.

Senior Lecturers

Beyer, Catharine H. 1984; MA, 1970, University of Michigan; expository and interdisciplinary writing.

Graham, Joan Adelle 1974; MA, 1972, University of Washington; expository and interdisciplinary writing.

Hatch, Deborah 1979; MA, 1976, PhD, 1981, University of Massachusetts; expository and interdisciplinary writing.

Lecturers

George, E. Laurie 1991; PhD, 1984, University of Oregon; expository/computer-aided writing, American literature, feminist linguistics, pedagogy.

McNamara, Robert J. 1985; PhD, 1985, University of Washington; expository and interdisciplinary writing.

Shabetai, Karen J. 1984; MA, 1982, PhD, 1984, University of California (San Diego); eighteenth-century literature, romanticism.

Simmons-Onell, Elizabeth 1985; PhD, 1988, University of Washington; expository and interdisciplinary writing, service learning, education and tutoring.

Wacker, Norman J. 1989; MA, 1976, PhD, 1986, University of Washington; expository and interdisciplinary writing.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

ENGL 100 Intermediate ESL for International Students (5) Offered as two separate sections: one for reading and written grammar, sentence patterns, and paragraph coherence; the other for basic listening and conversation management skills related to academic situations. Sections may be taken concurrently. Special fee required. Prerequisite: placement examination. Credits averaged in GPA but do not count toward graduation.

ENGL 101 High Intermediate ESL for International Students (5) Offered as two separate sections: one for reading and essay-writing skills, particularly developing controlling idea and support; the other for listening and speaking skills related to academic lectures and class discussions. Sections may be taken concurrently. Special fee required. Prerequisite: placement

examination. Credits averaged in GPA but do not count toward graduation.

ENGL 102 Advanced ESL for International Students (5) Offered as two separate sections: one for writing research papers, including library research skills and research paper format and organization; the other for speaking skills for international teaching assistants: language behaviors related to lecturing, classroom management, and teacher-student interaction. Special fee required. (No special fee for international teaching assistants section.) Prerequisite: placement examination. Credits averaged in GPA but do not count toward graduation.

ENGL 103 Introduction to Writing for EOP/SSS Students (5) Development of writing skills necessary to produce college-level short and medium-length essays. Sequence of five essays designed to develop personal voice and competence in writing for academic disciplines. Prerequisite: placement examination or permission of instructor.

ENGL 104-105 Introductory Composition (5-5) C Development of writing skills: sentence strategies and paragraph structures. Expository, critical, and persuasive essay techniques based on analysis of selected readings. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs.

ENGL 106 Practical Forms of Writing (5) C Instruction in writing essay examinations, reports, reviews, and research papers. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs. Prerequisites: 104-105, or special placement.

ENGL 111 Composition: Literature (5) C Study and practice of good writing; topics derived from reading and discussing stories, poems, essays, and plays.

ENGL 121 Composition: Social Issues (5) C Study and practice of good writing; topics derived from reading and discussing essays and fiction about current social and moral issues.

ENGL 131 Composition: Exposition (5) C Study and practice of good writing; topics derived from a variety of personal, academic, and public subjects.

ENGL 182 The Research Paper (5) C Includes study of library resources, the analysis of reading materials, and writing preparatory papers as basic to writing a reference or research paper. Open to all undergraduates. Prerequisite: one of 111, 121, 131, or equivalent.

ENGL 197 Interdisciplinary Writing/Humanities (5, max. 15) C Expository writing based on material presented in a specified humanities lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

ENGL 198 Interdisciplinary Writing/Social Science (5, max. 15) C Expository writing based on material presented in a specified social science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytic prose. Concurrent registration in specified course required.

ENGL 199 Interdisciplinary Writing/Natural Science (5, max. 15) C Expository writing based on material presented in a specific natural science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

ENGL 200 Reading Literature (5) VLP Techniques and practice in reading and enjoying literature. Examines some of the best works in English and American literature and considers such features of literary meaning as imagery, characterization, narration, and

patterning in sound and sense. Emphasis on literature as a source of pleasure and knowledge about human experience.

ENGL 205 Method, Imagination, and Inquiry (5) VLPA Examines ideas of method and imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with CHID 205.

ENGL 207 Introduction to Cultural Studies (5) VLPA Asks three questions. What is Cultural Studies? How does one read from a Cultural Studies perspective? What is the value of reading this way? Provides historical understanding of Cultural Studies, its terms and its specific way of interpreting a variety of texts, i.e. literature, visual images, music, video, and performance.

ENGL 210 Literature and the Ancient World (5) VLPA Introduction to literature from a broadly cultural point of view, focusing on major works that have shaped the development of literary and intellectual traditions to the Middle Ages.

ENGL 211 Medieval and Renaissance Literature (5) VLPA Introduction to literature from a broadly cultural point of view, focusing on major works that have shaped the development of literary and intellectual traditions from the Middle Ages to the eighteenth century.

ENGL 212 Literature of Enlightenment and Revolution (5) VLPA Introduction to eighteenth- and nineteenth-century literature from a broadly cultural point of view, focusing on representative works that illustrate literary and intellectual developments of the period.

ENGL 213 Modern and Postmodern Literature (5) VLPA Introduction to twentieth-century literature from a broadly cultural point of view, focusing on representative works that illustrate literary and intellectual developments since 1900.

ENGL 225 Shakespeare (5) VLPA Survey of Shakespeare's career as dramatist. Study of representative comedies, tragedies, romances, and history plays.

ENGL 228 English Literary Culture: To 1600 (5) VLPA British literature from Middle Ages to end of sixteenth century. Study of literature in its cultural context, with attention to changes in language, form, content, and style.

ENGL 229 English Literary Culture: 1600-1800 (5) VLPA British literature in seventeenth and eighteenth centuries. Study of literature in its cultural context, with attention to changes in form, content, and style.

ENGL 230 English Literary Culture: After 1800 (5) VLPA British literature in the nineteenth and twentieth centuries. Study of literature in its cultural context, with attention to changes in form, content, and style.

ENGL 242 Reading Fiction (5) VLPA Critical interpretation and meaning in fiction. Different examples of fiction representing a variety of types from the medieval to modern periods.

ENGL 243 Reading Poetry (5) VLPA Critical interpretation and meaning in poems. Different examples of poetry representing a variety of types from the medieval to modern periods.

ENGL 244 Reading Drama (5) VLPA Critical interpretation and meaning in plays. Different examples of drama representing a variety of types from the medieval to modern periods.

ENGL 250 Introduction to American Literature (5) VLPA Survey of the major writers, modes, and themes in American literature, from the beginnings to the present. Specific readings vary, but often included are: Taylor, Edwards, Franklin, Poe, Hawthorne, Melville, Emerson, Thoreau, Whitman, Dickinson,

Twain, James, Eliot, Stevens, O'Neill, Faulkner, Hemingway, Ellison, and Bellow.

ENGL 251 Introduction to American Political Culture (5) VLPA/IS Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Offered: jointly with POL S 281.

ENGL 258 African American Literature: 1745 to Present (5) VLPA A chronological survey of Afro-American literature in all genres from its beginnings to the present day. Emphasizes Afro-American writing as a literary art; the cultural and historical context of Afro-American literary expression and the aesthetic criteria of Afro-American literature. Offered: jointly with AFRAM 214.

ENGL 264 Literature and Science (5) VLPA Explores the relationships between literature and science as ways of comprehending humanity's interaction with the world we inhabit. As a course in criticism, explores how literature and science structure and are structured by social, religious, political, and economic factors in culture.

ENGL 270 Cultural Issues in English (5) VLPA Survey of the assumptions, methodologies, and major issues of English in its cultural settings. Designed to connect English Language study with the study of literature, orality and literacy, education, ethnicity, gender, and public policy.

ENGL 281 Intermediate Expository Writing (5) C Writing papers communicating information and opinion to develop accurate, competent, and effective expression.

ENGL 283 Beginning Verse Writing (5) VLPA Intensive study of the ways and means of making a poem.

ENGL 284 Beginning Short Story Writing (5) VLPA Introduction to the theory and practice of writing the short story.

ENGL 300 Reading Major Texts (5) VLPA Intensive examination of one or a few major works of literature. Classroom work to develop skills of careful and critical reading. Book selection varies, but reading consists of major works by important authors and of selected supplementary materials.

ENGL 302 Critical Practice (5) VLPA Exercise in interpretive practices: a consideration of their powers and limits. Survey of the varieties of critical and interpretive practice from the earliest interpreters of scripture and myth to present-day critics.

ENGL 303 History of Literary Criticism and Theory I (5) VLPA Literary criticism and theory from its beginnings in Plato through the early twentieth century. Philosophical and theoretical grounds for critical practice put forward by philosophers and critics.

ENGL 304 History of Literary Criticism and Theory II (5) VLPA Contemporary criticism and theory and its background in the New Criticism, structuralism, and phenomenology.

ENGL 305 Theories of Imagination (5) VLPA/IS Survey of theories of imagination since the seventeenth century. Focuses on the uses of the concept in literature, criticism, science, and society.

ENGL 307 Cultural Studies: Literature and the Age (5) VLPA Problems of literary periodization. Works by major and minor authors in the context of cultural history; critical and theoretical approaches that have led to the idea of periodization. Emphasis varies. Recommended: 300-level English course in the literary period being studied.

ENGL 310 The Bible as Literature (5) VLPA Introduction to the development of the religious ideas and institutions of ancient Israel, with selected read-

ings from the Old Testament and New Testament. Emphasis on reading *The Bible* with literary and historical understanding.

ENGL 311 Modern Jewish Literature in Translation (5) VLPA Survey of Jewish experience and its literary expression since 1880. Includes such Yiddish writers as Sholom Aleichem, Peretz, and I. B. Singer; such Israeli writers as Agnon, Hazaz, and Appelfeld; and such writers in non-Jewish languages as Primo Levi and Kafka.

ENGL 313 Modern European Literature in Translation (5) VLPA Fiction, poetry, and drama from the development of modernism to the present. Works by such writers as Mann, Proust, Kafka, Gide, Hesse, Rilke, Brecht, Sartre, and Camus.

ENGL 315 Literary Modernism (5) VLPA Various modern authors, from Wordsworth to the present, in relation to such major thinkers as Kant, Hegel, Darwin, Marx, Nietzsche, Bergson, and Wittgenstein, who have helped create the context and the content of modern literature. Recommended: 305 or other 300-level course in nineteenth- or twentieth-century literature.

ENGL 317 Literature of the Americas (5) VLPA Examines writings by and about people of the Americas, with a focus on intersections of gender, colonialism, race, sexuality, and ethnicity.

ENGL 320 English Literature: The Middle Ages (5) VLPA Literary culture of Middle Ages in England, as seen in selected works from earlier and later periods, ages of Beowulf and of Geoffrey Chaucer. Read in translation, except for a few later works, which are read in Middle English.

ENGL 321 Chaucer (5) VLPA Chaucer's *Canterbury Tales* and other poetry, with attention to Chaucer's social, historical, and intellectual milieu.

ENGL 322 English Literature: The Age of Queen Elizabeth (5) VLPA The golden age of English poetry, with poems by Shakespeare, Spenser, Sidney, and others; drama by Marlowe and other early rivals to Shakespeare; prose by Sir Thomas More and the great Elizabethan translators.

ENGL 323 Shakespeare to 1603 (5) VLPA Shakespeare's career as dramatist before 1603 (including *Hamlet*). Study of history plays, comedies, and tragedies.

ENGL 324 Shakespeare After 1603 (5) VLPA Shakespeare's career as dramatist after 1603. Study of comedies, tragedies, and romances.

ENGL 325 English Literature: The Late Renaissance (5) VLPA A period of skepticism for some, faith for others, but intellectual upheaval generally. Poems by John Donne and the "metaphysical" school; poems and plays by Ben Jonson and other late rivals to Shakespeare; prose by Sir Francis Bacon and other writers.

ENGL 326 Milton (5) VLPA Milton's early poems and the prose: *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes*, with attention to the religious, intellectual, and literary contexts.

ENGL 327 English Literature: Restoration and Early Eighteenth Century (5) VLPA Selections from wits and satirists; poems by John Dryden and Alexander Pope; plays by Dryden, William Congreve, and other wits; the great satires of Jonathan Swift, and the first stirring of the novel.

ENGL 328 English Literature: Later Eighteenth Century (5) VLPA Classic age of English prose. Essays, biography, and criticism by Samuel Johnson, Oliver Goldsmith, and others; comedies by Goldsmith and Richard Brinsley Sheridan; fiction by Henry Fielding and others; poetry by a variety of writers.

ENGL 329 Rise of the English Novel (5) VLPA Study of the development of this major and popular

modern literary form in the eighteenth century. Readings of the best of the novelists who founded the form, and some minor ones, from Defoe to Fielding, Richardson, and Sterne, early Austen, and the gothic and other writers.

ENGL 330 English Literature: The Romantic Age (5) VLPA Literary, intellectual, and historical ferment of the period from the French Revolution to the 1830s. Readings from major authors in different literary forms; discussions of critical and philosophical issues in a time of change.

ENGL 331 Romantic Poetry I (5) VLPA Blake, Wordsworth, Coleridge, and their contemporaries.

ENGL 332 Romantic Poetry II (5) VLPA Byron, Shelley, Keats, and their contemporaries.

ENGL 333 English Novel: Early and Middle Nineteenth Century (5) VLPA Studies in the novel in one of its classic phases. Authors include Austen, the Brontës, Dickens, Thackeray.

ENGL 334 English Novel: Later Nineteenth Century (5) VLPA Studies in the novel as it passes from a classic format to formats more experimental. Authors include George Eliot, Thomas Hardy, Joseph Conrad, and others.

ENGL 335 English Literature: The Age of Victoria (5) VLPA Literature in an era of revolution that also sought continuity, when culture faced redefinition as mass culture and found in the process new demands and creative energies, new material and forms, and transformations of old ones. Readings range from works of Tennyson, Browning, Arnold, Shaw, to Dickens, Eliot, Hardy.

ENGL 336 English Literature: The Early Modern Period (5) VLPA Experiments in fiction and poetry. Novels by Joyce, Woolf, Lawrence, and others; poetry by Eliot and Yeats and others.

ENGL 337 The Modern Novel (5) VLPA The novel on both sides of the Atlantic in the first half of the twentieth century. Includes such writers as Joyce, Woolf, Lawrence, Stein, Hemingway, Faulkner, and others.

ENGL 338 Modern Poetry (5) VLPA Poetry in the modernist mode, including such poets as Yeats, Eliot, Pound, Auden, and Moore.

ENGL 339 English Literature: Contemporary England (5) VLPA Return to more traditional forms in such writers as Bowen, Orwell, Waugh, Caryl Phillips, Leavis, and others.

ENGL 340 Modern Anglo-Irish Literature (5) VLPA Principal writers in English of the modern Irish literary movement—Yeats, Joyce, Synge, Gregory, and O'Casey among them—with attention to traditions of Irish culture and history.

ENGL 342 Contemporary Novel (5) VLPA Recent efforts to change the shape and direction of the novel by such writers as Murdoch, Barth, Hawkes, Fowles, and Atwood.

ENGL 343 Contemporary Poetry (5) VLPA Recent developments by such poets as Hughes, Heaney, Rich, Kinnell, and Hugo.

ENGL 344 Twentieth-Century Dramatic Literature (5) VLPA Modern and contemporary plays by such writers as Shaw, Synge, O'Casey, O'Neill, Yeats, Eliot, Beckett, Pinter, and Albee.

ENGL 345 Studies in Film (5) VLPA Types, techniques, and issues explored by filmmakers. Emphasis on narrative, image, and point of view.

ENGL 346 Studies in Short Fiction (5) VLPA The American and English short story, with attention to the influence of writers of other cultures. Aspects of the short story that distinguish it, in style and purpose, from longer fiction.

ENGL 347 The Art of Prose (5) VLPA Techniques and varieties of prose—autobiography, biography, personal essay, reflective and meditative writing, social and scientific inquiry, and persuasive writing. Special attention to use of poetic, fictional, and dramatic devices. Recommended: introductory literature course.

ENGL 348 Studies in Drama (5) VLPA Investigation of one of the major types of drama: tragedy or comedy. Emphasis on drama prior to the twentieth century.

ENGL 349 Fantasy (5) VLPA Nonnaturalistic literature, selected folktales, fairytales, fables, nonsense, ghost stories, horror stories, science fiction, and utopian literature—the supernatural and surreal, the grotesque, the fantastical. Readings and emphasis vary.

ENGL 350 Traditions in American Fiction (5) VLPA A literary form in which America has found its distinctively American expression. Selected readings among important novelists from the beginnings until 1900, including Cooper, Hawthorne, Melville, Twain, Chopin, James, and Wharton.

ENGL 351 American Literature: The Colonial Period (5) VLPA Responses to the New World and literary strategies in the literature of the colonies and the early republic. Works by Taylor, Edwards, Franklin, and others.

ENGL 352 American Literature: The Early Nation (5) VLPA Conflicting visions of the national destiny and the individual identity in the early years of America's nationhood. Works by Emerson, Thoreau, Hawthorne, Melville, and such other writers as Poe, Cooper, Irving, Whitman, Dickinson, and Douglass.

ENGL 353 American Literature: Later Nineteenth Century (5) VLPA Literary responses to an America propelled forward by accelerating and complex forces. Works by Twain, James, and such other writers as Whitman, Dickinson, Adams, Wharton, Howells, Crane, Dreiser, DuBois, and Chopin.

ENGL 354 American Literature: The Early Modern Period (5) VLPA Literary responses to the disillusionment after World War I, experiments in form and in new ideas of a new period. Works by such writers as Anderson, Toomer, Cather, O'Neill, Frost, Pound, Eliot, Cummings, Hemingway, Fitzgerald, Faulkner, Stein, Hart Crane, Stevens, and Porter.

ENGL 355 American Literature: Contemporary America (5) VLPA Works by such writers as Ellison, Williams, O'Connor, Lowell, Barth, Rich, and Hawkes.

ENGL 356 Classic American Poetry (5) VLPA Poetry by Taylor, Whitman, Dickinson, and such others as Poe, Bradstreet, Crane, Robinson. The lineage and characteristics of lyric and epic in America.

ENGL 358 Literature of Black Americans (5) VLPA Selected writings, novels, short stories, plays, poems by Afro-American writers. Study of the historical and cultural context within which they evolved. Differences between Afro-American writers and writers of the European-American tradition. Emphasis varies. Offered: jointly with AFRAM 358.

ENGL 359 Contemporary American Indian Literature (5) VLPA Creative writings—novels, short stories, poems—of contemporary Indian authors; traditions out of which they evolved. Differences between Indian writers and writers of the dominant European/American mainstream. Offered: jointly with AIS 377.

ENGL 360 American Political Culture: To 1865 (5) VLPA/IS American literature in its political and cultural context from the Puritan origins to the Civil War. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Prerequisite: 251.

ENGL 361 American Political Culture: After 1865 (5) VLPA/IS American literature in its political and

cultural context from the Civil War to the present. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Prerequisite: 251.

ENGL 363 Literature and the Other Arts and Disciplines (5, max. 10) VLPA Relationships between literature and other arts, such as painting, photography, architecture, and music, or between literature and other disciplines, such as science. Content varies.

ENGL 364 Literature and Medicine (5) VLPA/IS How changing concepts of doctor-patient relationship and of body depicted in literary texts affect decisions throughout the human life cycle. Medicine and disease as metaphors for personal experience and social analysis.

ENGL 367 Women and the Literary Imagination (5, max. 15) VLPA Study of women writers or ways various writers have portrayed woman's image, social role, and psychology.

ENGL 368 Women Writers (5, max. 15) VLPA Study of the work of women writers in English and American literature.

ENGL 370 English Language Study (5) VLPA Wide-range introduction to the study of written and spoken English. The nature of language; ways of describing language; the use of language study as an approach to English literature and the teaching of English.

ENGL 371 English Syntax (5) VLPA Description of sentence, phrase, and word structures in present-day English. Prerequisite: 370 or LING 200 or equivalent.

ENGL 372 Language Variation in Current English (5) VLPA Examination of geographical, social, and occupational varieties of American English. Relationship between societal attitudes and language use.

ENGL 373 History of the English Language (5) VLPA Evolution of English sounds, forms, structures, and word meanings from Anglo-Saxon times to the present. Prerequisite: 370 or LING 200 or equivalent.

ENGL 374 The Language of Literature (5) VLPA Roles of explicitly describable language features in the understanding and appreciation of various verbal forms. Emphasis on literature, but attention also may be given to nonliterary prose and oral forms.

ENGL 381 Advanced Expository Writing (5) VLPA Concentration on the development of prose style for experienced writers. Recommended: sophomore standing.

ENGL 383 Intermediate Verse Writing (5, max. 10) VLPA Intensive study of the ways and means of making a poem. Further development of fundamental skills. Emphasis on revision. Recommended: 283.

ENGL 384 Intermediate Short Story Writing (5, max. 10) VLPA Exploring and developing continuity in the elements of fiction writing. Methods of extending and sustaining plot, setting, character, point of view, and tone. Recommended: 284.

ENGL 407 Special Topics in Cultural Studies (5) VLPA Advanced work in Cultural Studies.

ENGL 411 Introduction to the Folktale Among Literate Peoples (3) VLPA Techniques of classification, geographic-historical distribution, theories of origin and interpretations, and related areas of investigation of the oral prose folk narrative of literate peoples.

ENGL 422 Arthurian Legends (5) VLPA Medieval romance in its cultural and historical setting, with concentration on the evolution of Arthurian romance.

ENGL 430 British Writers: Studies in Major Authors (5, max. 15) VLPA Concentration on one writer or a special group of British writers.

ENGL 431 Topics in British Literature (5, max. 15) VLPA Themes and topics of special meaning to British literature.

ENGL 440 Special Studies in Literature (3/5, max. 10) VLPA Themes and topics offering special approaches to literature.

ENGL 442 The Novel: Special Studies (5, max. 10) VLPA Readings may be English or American and drawn from different periods, or they may concentrate on different types—gothic, experimental, novel of consciousness, realistic novel. Special attention to the novel as a distinct literary form. Specific topic varies from quarter to quarter.

ENGL 443 Poetry: Special Studies (5, max. 10) VLPA A poetic tradition or group of poems connected by subject matter or poetic technique. Specific topics vary, but might include poetry as a geography of mind, the development of the love lyric, the comic poem.

ENGL 444 Dramatic Literature: Special Studies (5, max. 10) VLPA Study of a particular dramatic tradition (such as expressionism or the absurd theatre) or character (the clown) or technique (play-within-a-play, the neoclassical three unities). Topics vary.

ENGL 451 American Writers: Studies in Major Authors (5, max. 15) VLPA Concentration on one writer or a special group of American writers.

ENGL 452 Topics in American Literature (5, max. 15) VLPA Exploration of a theme or special topic in American literary expression.

ENGL 453 Introduction to American Folklore (5) VLPA Study of different kinds of folklore inherited from America's past and to be found in America today.

ENGL 457 Pacific Northwest Literature (5) VLPA Concentrates in alternate years on either prose or poetry of the Pacific Northwest. Prose works examine early exploration, conflicts of native and settlement cultures, various social and economic conflicts. Pacific Northwest poetry includes consideration of its sources, formative influences, and emergence into national prominence.

ENGL 466 Gay and Lesbian Studies (5) VLPA/I&S Examination of ways gays and lesbians are represented in literature, film, performance, and popular culture and how these representations are interpreted in mainstream, gay/lesbian, and academic writing.

ENGL 470 Literature, Literary Study, and Society (5) VLPA/I&S Relationship of literature to society with particular emphasis on literary education. What social values determine the educational importance of literature, what segments of society are trained to read and to write literature, and how literature is institutionalized as part of pedagogical methodology. Emphasis varies.

ENGL 471 The Composition Process (5) VLPA Consideration of psychological and formal elements basic to writing and related forms of nonverbal expression and the critical principles that apply to evaluation.

ENGL 472 Language Learning (5) VLPA Consideration of how an individual achieves psychological and esthetic grasp of reality through language; relates language development to reading skills, literary interpretation, grammar acquisition, oral fluency, discursive and imaginative writing.

ENGL 473 Current Developments in English Studies: Conference (5) VLPA

ENGL 474 Special Topics in English for Teachers (1-10) VLPA

ENGL 475 Colloquium in English for Teachers (1-5, max. 10) VLPA

ENGL 476 Puget Sound Writing Program Institute (1-9) VLPA Focus on the writing process and the teaching of writing, accomplished through research,

writing, reflection, and demonstration of writing instruction. Affiliated with the National Writing Project. Prerequisite: teaching certification and permission of instructor.

ENGL 477 Children's Literature (5) VLPA An examination of books that form a part of the imaginative experience of children, as well as a part of a larger literary heritage, viewed in the light of their social, psychological, political, and moral implications.

ENGL 478 Language and Social Policy (5) VLPA/I&S Examines the relationship between language policy and social organization; the impact of language policy on immigration, education, and access to resources and political institutions; language policy and revolutionary change; language rights.

ENGL 479 Language Variation and Language Policy in North America (5) VLPA/I&S Surveys basic issues of language variation: phonological, syntactic, semantic, and narrative/discourse differences among speech communities of North American English; examines how language policy can affect access to education, the labor force, and political institutions.

ENGL 481 Special Studies in Expository Writing (5) VLPA Individual projects in various types of non-fictional prose, such as biographical sketches, informational reports, literary reviews, and essays. Recommended: sophomore standing.

ENGL 483 Advanced Verse Writing (5, max. 15) VLPA Intensive study of ways and means of making a poem. Recommended: 383.

ENGL 484 Advanced Short Story Writing (5, max. 10) VLPA Experience with the theory and practice of writing the short story. Recommended: 384.

ENGL 485 Novel Writing (5, max. 15) VLPA Experience in planning, writing, and revising a work of long fiction, whether from the outset, in progress, or in already completed draft.

ENGL 486 Playwriting (5, max. 10) VLPA Experience in planning, writing, and revising a play, whether from the outset, in progress, or in already completed draft.

ENGL 487 Screenwriting (5) VLPA Students read screenwriting manuals and screenplays, analyze exemplary films, and write synopses, treatments, and first acts of their own screenplays.

ENGL 490 Study Abroad Program (5) VLPA This course, for students in the Study Abroad program, relates major works of literature to the landscape and activities of its setting.

ENGL 491 Internship (1-6, max. 12) Supervised experience in local businesses and other agencies. Open only to upper-division English majors. Credit/no credit only. Prerequisite: 25 credits in English.

ENGL 492 Advanced Expository Writing Conference (3-5, max. 10) Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken. Prerequisite: permission of program director.

ENGL 493 Advanced Creative Writing Conference (3-5, max. 10) Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken. Prerequisite: permission of program director.

ENGL 494 Honors Seminar (5) VLPA Survey of current issues confronting literary critics today. Readings begin with work in the New Criticism that followed World War II and move forward to consider issues such as changing student population and role of the critic, revisions of the past, emergent technologies, and rise of interdisciplinary teaching and research.

ENGL 495 Major Conference for Honors in Creative Writing (5) Special projects available to honors students in creative writing. Required of, and limited to, honors students in creative writing.

ENGL 496 Major Conference for Honors (5) Individual study (reading, papers) by arrangement with the instructor. Required of, and limited to, honors seniors in English.

ENGL 497 Honors Senior Seminar (5) VLPA Seminar study of special topics in language and literary study. Limited to honors students majoring in English.

ENGL 498 Senior Seminar (5) VLPA Seminar study of special topics in language and literary study. Limited to seniors majoring in English.

ENGL 499 Independent Study (3-5, max. 10) Individual study by arrangement with instructor. Prerequisite: permission of director of undergraduate education.

Courses for Graduates Only

ENGL 500 Reading Medieval Literature (5) Special problems involved in the study and interpretation of medieval texts, selected examples drawn from the beginnings of English literature to 1500.

ENGL 501 The Renaissance and Literary Tradition (5) Examination of selected texts from 1500 to 1660, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the Renaissance.

ENGL 502 English Literary Culture: 1660-1800 (5) Examination of selected texts of the Restoration and eighteenth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

ENGL 503 English Literary Culture: 1800-1900 (5) Examination of selected texts from the nineteenth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

ENGL 504 Backgrounds of Modern Literature (5) Examination of selected texts from the twentieth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

ENGL 505 Theories of American Literature (5) Examination of selected texts in American Literature, concentrating on the specific problems of interpretation and scholarship characteristic of the study of works in this field.

ENGL 506 Critical Approaches to Literary Texts (5) Examination of a range of critical theories and practices appropriate to the study of literature.

ENGL 507 History of Literary Criticism and Theory I (5, max. 15) A general introduction to the major issues in the history of criticism followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with C LIT 507.

ENGL 508 History of Literary Criticism and Theory II (5, max. 15) Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with C LIT 508.

ENGL 509 History of Literary Criticism and Theory III (5, max. 15) Literary criticism and theory from Kant's Critique of Judgment to the mid-twentieth century and the work of Northrop Frye. Offered: jointly with C LIT 509.

ENGL 510 History of Literary Criticism and Theory IV (5, max. 15) A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with C LIT 510.

- ENGL 512** Introductory Reading in Old English (5)
- ENGL 513** Old English Language and Literature (5, max. 15)
- ENGL 514** Middle English (5, max. 15)
- ENGL 515** Chaucer (5, max. 15)
- ENGL 516** Topics in Medieval English Literature (5, max. 15)
- ENGL 517** Sixteenth-Century Literature (5, max. 15)
- ENGL 518** Shakespeare (5, max. 15)
- ENGL 520** Seventeenth-Century Literature (5, max. 15)
- ENGL 521** Milton (5, max. 15)
- ENGL 522** Topics in the English Renaissance, 1485-1660 (5, max. 15)
- ENGL 524** Restoration and Eighteenth-Century Literature (5, max. 15)
- ENGL 525** Topics in Restoration and Eighteenth-Century Studies (5, max. 15)
- ENGL 527** Romanticism (5, max. 15)
- ENGL 528** Victorian Literature (5, max. 15)
- ENGL 529** Topics in Nineteenth-Century Studies (5, max. 15)
- ENGL 531** Early American Literature (5, max. 15)
- ENGL 532** Nineteenth-Century American Literature (5, max. 15)
- ENGL 533** Modern American Literature (5, max. 15)
- ENGL 535** American Culture and Criticism (5, max. 15)
- ENGL 537** Topics in American Studies (5, max. 15)

- ENGL 546** Topics in Twentieth-Century Literature (5, max. 15)
- ENGL 550** Studies in Narrative (5, max. 15)
- ENGL 551** Studies in Poetry (5, max. 15)
- ENGL 552** Studies in Drama (5, max. 15)
- ENGL 554** Theories of Structure, Genre, Form, and Function (5, max. 15)
- ENGL 555** Feminist Theories (5, max. 15)
- ENGL 556** Cultural Studies (5, max. 15)
- ENGL 559** Literature and Other Disciplines (5, max. 15)
- ENGL 560** The Nature of Language: History and Theory (5)
- ENGL 561** Stylistics (5)
- ENGL 562** Discourse Analysis (5)
- ENGL 563** Comparative Grammars (5)
- ENGL 564** Current Rhetorical Theory (5) Prerequisite: teaching experience.
- ENGL 567** Approaches to Teaching Composition (1-5, max. 10) Readings in composition theory and

discussion of practical classroom applications. Prerequisite: previous experience or concurrent assignment in teaching writing.

ENGL 569 Topics in Language and Rhetoric (5, max. 15)

ENGL 570 Practicum in Teaching English as a Second Language (3, max. 6) Discussion and practice of second-language teaching techniques. Three hours per week teaching required in addition to regular class meetings. Credit/no credit only. Prerequisite: 571 or permission of instructor.

ENGL 571 Theory and Practice on Teaching English to Speakers of Other Languages (5) Topics include second language reading, aural/oral skills, critical pedagogy, program administration, and language policy.

ENGL 572 Methods and Materials for Teaching English as a Second Language (5) Prerequisite: LING 445 or permission of instructor.

ENGL 574 Research Methods in Second-Language Acquisition (5) Prerequisite: 572, LING 449, or permission of instructor.

ENGL 575 Pedagogy and Grammar in Teaching English as a Second Language (5)

ENGL 576 Testing and Evaluation in English as a Second Language (5) Evaluation and testing of English language proficiency, including testing theory, types of tests, and teacher-prepared classroom tests. Prerequisites: 571 and 572 or permission of instructor.

ENGL 578 Colloquium in Teaching English to Speakers of Other Languages (5, max. 10) Overview of major issues in second-language acquisition, teaching methodology, and classroom practice with special emphasis on links between theories of language learning and practical aspects of teaching English to speakers of other languages.

ENGL 581 The Creative Writer as Critical Reader (5)

ENGL 584 Advanced Fiction Workshop (5, max. 15) Prerequisite: graduate standing.

ENGL 585 Advanced Poetry Workshop (5, max. 15) Prerequisite: graduate standing.

ENGL 586 Graduate Writing Conference (5)

ENGL 590 Master of Arts Essay (5/10, max. 10) Research and writing project under the close supervision of a faculty member expert and with the consultation of a second faculty reader. The field of study is chosen by the student. Work is independent and varies. The model is an article in a scholarly journal. Prerequisite: graduate standing in English.

ENGL 591 Master of Arts for Teachers Essay (5) Research and writing project under the close supervision of a faculty member expert in the field of study chosen by the student within the MAT degree orientation towards the teaching of English, and with the consultation of a second faculty reader. The model is an article in a scholarly journal.

ENGL 592 Graduate English Studies (1-5, max. 10)

ENGL 593 Textual Criticism (5) Introduction to paleography, codicology, analytical and descriptive bibliography; examination of the major contributions to textual theory in the nineteenth and twentieth centuries; practice in applying textual theory in editing literary works.

ENGL 595 Topics in Teaching Literature (5, max. 15)

ENGL 597 Directed Readings (* max. 18) Intensive reading in literature or criticism, directed by members of doctoral supervisory committee. Credit/no credit only.

ENGL 598 Colloquium in English (1-5, max. 10) Lectures and seminars presented by visiting scholars or a range of local scholars relevant to English graduate studies.

ENGL 599 Special Studies in English (5, max. 15)

ENGL 600 Independent Study or Research (*)

ENGL 601 Internship (3-9, max. 9) Credit/no credit only.

ENGL 700 Master's Thesis (*)

ENGL 800 Doctoral Dissertation (*)

General Studies

9 Communications

A General Studies major is a special interdisciplinary major designed by an individual student.

Undergraduate Program

Bachelor of Arts, Bachelor of Science

Admission Requirements: A written statement including the theme of the major, a brief essay describing the major, and a proposed course list. (Guidelines are available at the General Studies office.) Approval of two faculty supervisors and the General Studies committee. Prospective majors should submit proposals to the General Studies committee for review at least three quarters prior to graduation.

Major Requirements: Completion of the approved curriculum and a 5-credit required senior study (minimum 2.7 grade required for senior study). Awarding of the Bachelor of Arts or Bachelor of Science degree depends on the content of each student's program.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

GEN ST 101 University Learning Skills (2-3) Introduction to university culture. Practice in skills necessary for academic success, including note-taking, test-taking, writing, active learning, and time and stress management. Academic planning. Introduction to university resources.

GEN ST 110 Introduction to the Environment (5) I&S/NW Natural history and human modifications of the natural world. Evolutionary biology, physical geography, toxicology, energy, economics, law, public policy. Offered: ASP.

GEN ST 197 Freshman Seminar (1 max. 3) Small-group discussion with faculty representing a wide spectrum of academic disciplines. Topics and approaches vary. Instructor may introduce research techniques or findings, concentrate on readings in his/her area of interest, or illustrate problems and alternatives related to the study of a particular academic discipline. Credit/no credit only. Offered: AWSp.

GEN ST 199 University Resources, Information, and Technology (1-2) Introduces Freshman Interest Group participants to University resources, information

retrieval and dissemination, and academically related technology. Credit/no credit only. Offered: A.

GEN ST 350 Independent Fieldwork (1-6 max. 18) Independent fieldwork in community agencies, apprenticeships, internships, as approved for College of Arts and Sciences credit. Faculty supervisor is required. Credit/no credit only. Prerequisites: permission of faculty supervisor and General Studies adviser. Offered: AWSpS.

GEN ST 391 Supervised Study in Selected Fields (* max. 15) Special supervised study in a field represented in the College of Arts and Sciences. Prerequisites: permission of faculty supervisor and General Studies adviser. Credit/no credit only. Offered: AWSpS.

GEN ST 470 Peer Advising (2-3 max. 12) Provides instruction in group leadership and promotion of values and methods of learning within a liberal arts setting. For peer advisers in the Freshman Interest Group Program. Credit/no credit only. Offered: AWSpS.

GEN ST 480 Senior Seminar: Humanities (5) Seminar examining the relationships and parallels in languages, literature, and culture. Each student required to complete a project or research paper on a topic appropriate to a humanities track. Prerequisites: senior standing, General Studies Humanities major (Evening Degree program).

GEN ST 481 Senior Seminar: Social Sciences (5) Historic and contemporary issues related to tracks considered. Each student required to complete a project or research paper on a topic appropriate to the major track. Prerequisites: senior standing, General Studies Social Science major (Evening Degree Program).

GEN ST 493 Senior Study (5) For General Studies majors only. Prerequisites: permission of faculty supervisor and General Studies adviser. Offered: AWSpS.

Genetics

J205 Health Sciences

An undergraduate degree is not offered. Students who desire an undergraduate curriculum emphasizing subject matter in genetics are advised to refer to the cellular and molecular biology listing under Biology.

Graduate Program

Colin C. Manoil, Graduate Program Coordinator

The Department of Genetics offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy. A student may choose among a wide variety of research areas, while, at the same time, receiving broad training in genetics. New graduate students join a research project in one of the faculty laboratories during each of the first three quarters in residence. New students thereby become acquainted with several different experimental approaches in research in genetics, and the projects help them choose an adviser for their thesis work at the end of the first year. In addition to graduate courses offered by the Department of Genetics, students can choose among a large number of courses in related departments to broaden their perspective. Graduate students also participate in undergraduate teaching after gaining expertise in pertinent areas. A General Examination is taken during the second year to gain formal admittance to candidacy for the Ph.D. degree.

Applications for graduate work are invited from students who have emphasized biology, the physical sciences, or mathematics in their undergraduate careers. Applicants are asked to submit Graduate

Record Examination scores and three letters of recommendation.

Financial Aid

The Department of Genetics offers financial support to promising students who wish to work toward the doctoral degree.

Research Facilities

The department is housed in a modern, well-equipped building shared with the Department of Biochemistry and the Howard Hughes Medical Institute. Students benefit from interdisciplinary research and teaching programs in collaboration with departments having related interests.

Faculty

Chair

Breck E. Byers

Professors

Bendich, Arnold J. * 1970, (Adjunct); PhD, 1969, University of Washington; mitochondrial and chloroplast genome structure.

Brewer, Bonita J. * 1982; PhD, 1979, University of Washington; replication of chromosomes, plasmids, and mitochondrial DNA in yeast.

Byers, Breck E. * 1970; PhD, 1967, Harvard University; cell biology; mitosis and meiosis, mechanisms of nuclear division and crossing-over in yeast.

Deeb, Samir S. * 1983, (Adjunct Research); PhD, 1964, University of Illinois; genetic factors predisposing to hyperlipidemia and coronary artery disease.

Elsen, Harvey * 1986, (Affiliate); PhD, 1967, University of Toronto (Canada); host-parasite interactions, generation of genetic diversity.

Fangman, Walton L. * 1967; PhD, 1965, Purdue University; molecular genetics: control of replication of yeast chromosomes, plasmid and mitochondrial DNA.

Felsenstein, Joseph * 1968; PhD, 1968, University of Chicago; evolution and population genetics.

Fields, Stanley 1995; MA, 1978, PhD, 1981, Cambridge University (UK); molecular genetics.

Furlong, Clement E. * 1977, (Research); PhD, 1968, University of California (Davis); human biochemical genetics in biochemistry of membrane transport systems.

Gallant, Jonathan A. * 1961; PhD, 1961, Johns Hopkins University; molecular genetics, control mechanisms in bacteria, accuracy of translation.

Gartler, Stanley M. * 1957, (Emeritus); PhD, 1952, University of California (Berkeley); mammalian somatic cell genetics with emphasis on the mechanism of x-chromosome inactivation.

Hall, Benjamin D. * 1983; MA, 1956, PhD, 1959, Harvard University; molecular genetics and evolution of plants and lower eukaryotes.

Hartwell, Leland H. * 1968; PhD, 1964, Massachusetts Institute of Technology; genetic analysis of chromosome transmission and of the control of division by hormones in yeast.

Hawthorne, Donald C. * 1980, (Emeritus); PhD, 1955, University of Washington; yeast genetics, chromosome mapping, suppressors.

King, Mary-Claire 1995; PhD, 1973, University of California (Berkeley); human genetics.

Laird, Charles D. * 1971, (Adjunct); PhD, 1966, Stanford University; cell and developmental biology, human genetics.

Martin, George * 1957, (Adjunct); MD, 1953, University of Washington; somatic cell genetics, pathobiology of aging, Alzheimer's disease, Werner's syndrome.

Motulsky, Arno G. * 1953, (Emeritus); MD, 1947, University of Illinois; medical genetics.

Olson, Maynard V. 1992, (Adjunct); PhD, 1970, Stanford University; large-scale genome mapping and sequencing.

Pious, Donald A. * 1964, (Adjunct); MD, 1956, University of Pennsylvania; antigen processing, function of nonclassical MHC genes, MHC gene regulation.

Schubiger, Gerold A. * 1972, (Adjunct); PhD, 1968, University of Zurich (Switzerland); developmental genetic control of *Drosophila* embryos, pattern formation in imaginal disks.

Sibley, Carol Hopkins * 1976; PhD, 1974, University of California (San Francisco); mammalian cell genetics and molecular parasitology.

Smith, Gerald R. * 1983, (Affiliate); PhD, 1970, Massachusetts Institute of Technology; molecular biology of genetic recombination and regulation of gene expression.

Stadler, David R. * 1956, (Emeritus); PhD, 1952, Princeton University; mutation and genetic repair in *Neurospora*.

Stamatoyannopoulos, George 1965; MD, 1958, DMedSc, 1960, University of Athens (Greece); medical genetics.

Trask, Barbara J. * 1992, (Adjunct Research); PhD, 1985, University of Leiden (Netherlands); in situ hybridization, analytical cytogenetics, analysis of large-scale DNA polymorphism.

Young, Elton * 1969, (Adjunct); PhD, 1967, California Institute of Technology; regulation of gene activity in the yeast *Saccharomyces cerevisiae*.

Associate Professors

Braun, Robert Elmer * 1986; PhD, 1985, Tufts University; mouse molecular genetics and male germ cell development.

Manoil, Colin C. * 1986; PhD, 1979, Stanford University; molecular genetics, protein localization in bacteria.

Monnat, Raymond J. Jr. * 1982, (Adjunct); MD, 1976, University of Chicago; somatic mutation, somatic cell and molecular genetics, and human genetic disease.

Reid, Brian J. 1983, (Adjunct); PhD, 1979, MD, 1980, University of Washington; gastroenterology.

Thomas, James H. * 1988; PhD, 1985, Massachusetts Institute of Technology; genetics of development and the nervous system in nematodes.

Wakimoto, Barbara T. * 1984, (Adjunct); PhD, 1981, Indiana University; developmental genetics, gene expression and chromosome organization in eukaryotes.

Assistant Professors

Berg, Celeste A. * 1990; PhD, 1986, Yale University; *drosophila* developmental genetics: cell communication and cell migration during oogenesis.

Ruohola-Baker, Hannele * 1993, (Adjunct); PhD, 1989, Helsinki University (Finland); oogenesis, developmental genetics.

Wright, Robin L. * 1990, (Adjunct); PhD, 1985, Carnegie-Mellon University; membrane dynamics and regulation of sterol biosynthesis in yeast.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

GENET 351 Human Genetics: The Individual and Society (4) NW Principles of Mendelian inheritance as illustrated by human traits and diseases; chromosomes and sex determination; distribution of genes in populations; natural selection and evolution; counseling and genetic engineering; ethical issues. Appropriate for nonscience majors. Offered: ASP.

GENET 371 Introductory Genetics (5) NW Explores gene transmission, chromosome mapping, quantitative traits, population genetics, genetic analysis of biological processes. Emphasizes formal genetic mechanisms but includes some molecular techniques, such as restriction mapping, cloning, RFLP analysis. For biological sciences majors. Prerequisite: CHEM 150. Recommended: BIOL 201. Offered: AWS.

GENET 372 Gene Structure and Function (5) NW Explores the structure of genes and chromosomes, the mechanisms and control of transcription and translation, and the molecular mechanisms of mutation, recombination, transposition, and development. Intended for majors in biological sciences. Prerequisite: 371 or BIOL 201. Offered: WSp.

GENET 411 Gene Action (5) NW Molecular genetics: description of fundamental genetics processes such as mutation, repair, genetic exchange, recombination, and gene expression. Use of genetic strategies to analyze complex biological processes. Focus is on prokaryotic organisms. Prerequisites: 371 or 372 or MICROM 410; CHEM 237. Offered: jointly with MICROM 411; W.

GENET 453 Genetics of the Evolutionary Process (3) NW *Felsenstein* Contributions of genetics to the understanding of evolution. Processes of mutation, selection, and random genetic events as they affect the genetic architecture of natural populations and the process of speciation. Emphasis on experimental data and observation, rather than mathematical theory. Prerequisite: 371 or 372.

GENET 454 The Origins of Genetics (4) NW Discovery and eventual triumph of Mendelism in the early twentieth century. Concepts of heredity from ancient times to the nineteenth century. Mendel's work and its rediscovery. Evidence contributing to cornerstone of classical genetics—the chromosome theory of heredity. Prerequisite: 351 or 371 or 372 or 10 credits in biological sciences. Offered: A.

GENET 455 Molecular Genetics (3) NW The structure of genes and molecular mechanisms of gene expression. First part of the course draws upon information obtained with viruses and bacterial cells and serves as background for a study of eukaryotic cells in the second part. Prerequisites: 371 or 411, CHEM 237, or permission of instructor.

GENET 490 Undergraduate Seminar (1) NW Seminar for advanced undergraduate students engaged in individual research projects or those who wish to gain an understanding of genetic research by analysis of the primary literature. Assignments emphasize the rationale for research projects and the presentation and interpretation of research findings. Offered: AWSpS.

GENET 499 Undergraduate Research (* max. 30) Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

Courses for Graduates Only

GENET 501 Introduction to Research Materials (3, max. 9) The student undertakes a research project in one of the research groups within the department for a

quarter at a time. Credit/no credit only. Prerequisite: graduate standing in the Department of Genetics or permission of graduate program coordinator. Offered: AWSpS.

GENET 520 Seminar (1, max. 15) Credit/no credit only. Prerequisite: graduate standing in the Department of Genetics or permission of graduate program coordinator. Offered: AWSp.

GENET 525 Current Literature in Human Genetics (1) Topics from current literature in human genetics. Students and faculty each present one topic per quarter. Credit/no credit only. Prerequisite: graduate or postdoctoral status. Offered: AWSp.

GENET 531 Human Genetics (3) *Fields, Hartwell* Modern approaches to the identification of human disease genes permitted by their isolation. Functional conservation of proteins throughout eukaryotic evolution as an approach to their function in model systems such as somatic cell culture, transgenic mice, nematodes, *Drosophila*, and yeast. Prerequisite: second-year graduate student. Offered: alternate years.

GENET 550 Methods and Logic in Genetics (3) Critical reading and detailed discussion of genetics-related scientific research papers. Material emphasizes methodological and logical themes of importance in modern genetics, for example: origin of mutants, genetic epistasis, pulse labelling, and in vivo gene function. Prerequisite: first year genetics graduate students only. Offered: A.

GENET 551 Basics of Genetic Analysis (3) First course in a three-quarter sequence in formal, molecular, and microbial genetics. Offered: A.

GENET 552 Nature and Consequences of Mutation (3) Origin of mutations and their analysis in human and other genomes. Prerequisite: 551 or permission of instructor. Offered: W.

GENET 553 Chromosome Structure and Mechanisms (3) Chromosome structure and DNA replication; molecular basis of recombination and transposition. Prerequisite: 552 or permission of instructor. Offered: Sp.

GENET 554 Topics in Genetics (2, max. 6) Current problems and research methods. Credit/no credit only. Prerequisite: permission of instructor.

GENET 562 Population Genetics (4) *Felsenstein* Mathematical and experimental approaches to the genetics of natural populations, especially as they relate to evolution. Emphasis on theoretical population genetics. Prerequisite: permission of instructor. Offered: Sp.

GENET 564 Molecular Cytogenetics (3) *Byers* Cellular processes of gene transfer in mitosis, meiosis, and gametogenesis, with emphasis on ultrastructure and macromolecular mechanisms. Prerequisite: permission of instructor. Offered: alternate years.

GENET 575 Developmental Genetics (3) Genetic control of early development in a range of organisms, emphasizing systems in which cellular, genetic, and molecular approaches have combined to make significant contributions to understanding. Prerequisite: permission of instructor. Offered: W.

GENET 581 Seminar in *Drosophila* Genetics (1) *erg* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of *Drosophila* development. Credit/no credit only. Offered: AWSp.

GENET 582 Seminar in Mouse Genetics (1) *Braun* Discussion of contemporary research in and novel methods for genetic, cell biological, and molecular analysis of mammalian development, with utilization of transgenic techniques. Credit/no credit only. Offered: AWSp.

GENET 583 Seminar in Molecular Cytology (1) *Byers* Discussions of contemporary research in and

novel methods for genetic, cell biological, and molecular biological analysis of spindle behavior in the mitotic cell cycle of budding yeast. Credit/no credit. Offered: AWSp.

GENET 584 Seminar in DNA Replication (1) *Brewer, Fangman* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of budding yeast, with emphasis on the mechanisms and control of DNA replication. Credit/no credit only. Offered: AWSp.

GENET 585 Seminar in Bacterial Genetics (1) *Manoil* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of bacterial assembly mechanisms, with emphasis on the topogenesis of membrane proteins. Credit/no credit only. Offered: AWSp.

GENET 586 Seminar in Mammalian Genetics (1) *Sibley* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of mammalian genetics, with emphasis on lymphoblast development. Credit/no credit only. Offered: AWSp.

GENET 587 Seminar in Nematode Genetics (1) *Thomas* Discussions of contemporary research in and novel methods for genetic, cell biological, and molecular biological analysis of nematode development, with emphasis on neurogenesis and other developmental processes. Credit/no credit only. Offered: AWSp.

GENET 590 Population Genetics Seminar (1) *Felsenstein* Weekly presentation by participants of current literature and ongoing research in evolution, molecular evolution, evolutionary genetics of natural populations, human population genetics, and quantitative genetics applied to animal and plant breeding. Credit/no credit only. Prerequisite: 562 or permission of instructor.

GENET 600 Independent Study or Research (*) Credit/no credit only. Offered: AWSpS.

GENET 700 Master's Thesis (*) Offered: AWSpS.

GENET 800 Doctoral Dissertation (*) Offered: AWSpS.

Geography

408A Smith

Geography is a lively discipline providing a distinctive spatial approach to many of today's societal problems and issues: regional inequality, growth of service activities, residential and educational segregation, health-care delivery, urban growth management, transportation efficiency, environmental and pollution problems, economic impacts of major investments or technological changes, spatial efficiency of industrial production, and the activities of international corporations and political states. Geography is the study of how individuals, groups, and societies interact with their environments. Geography seeks to understand the complex processes that result in observed patterns of settlement, location of economic activities, patterns of development, political organization, and the linkages and direction of trade and communication. Geographers also construct analytical tools, models of information representation, and graphic portrayals (notably maps) to aid the cognitive process of understanding.

Individual undergraduate and graduate programs are built around four concentrations and program options. Students are encouraged to develop a specific, individualized focus of study within their chosen concentration.

1. *Urban, social, and political processes and patterns.* Human population distribution, migration, settlement

systems, and organization. Geographic facets of ethnicity, race, and gender; wealth and poverty; and health and disease. Cultural landscapes; politics, nationalism, and identity-formation; geopolitics. Location of urban services, including health-care systems, urban transportation, land use and housing, and neighborhoods. Urban spatial policies. Courses include: 230, 277, 280, 308, 330, 342, 350, 371, 375, 380, 430, 431, 440, 442, 443, 445, 478.

2. Economic geography. Location, spatial-organizational structures, interrelationships between the economy and the environment, and economic interdependencies of industrial and commercial activities. Analysis and implications of resource distribution and use, market areas, and patterns of technological change. Domestic and international trade; land, air, and water transportation networks and systems. Regional and international economic development. Economics of resource use and land use. Related policies, policy conflicts, regulations, and management. Courses include: 207, 230, 302, 330, 336, 349, 350, 366, 370, 371, 430, 433, 435, 440, 443, 447, 448, 449, 450, 478, 498.

3. Regional geography and international development studies. Continental and global patterns of international relations and development. Political economy of development; development theory and practice; globalization. Analysis of geographic concepts in the regional context, especially on such topics as: population growth and migration; development history, theory, and practice; hunger, resources, and poverty; and interconnections in the global economy. Special emphasis on East Asia, Russia and the former Soviet republics, Africa, Latin America, Canada, and the United States. Courses include: 230, 302, 304, 308, 313, 330, 333, 335, 336, 349, 371, 375, 401, 404, 430, 431, 432, 433, 434, 435, 437, 466.

4. Geographic Information Systems (GIS). Role, design, and use of geographic information systems for research and planning. Use of computers in the collection, manipulation, analysis, and presentation of geographically related data. Courses include: 360, 370, 426, 443, 447, 458, 460, 461, 463, 465, 471.

Special Research and Teaching Facilities

A Map Center in Suzzallo Library houses atlases, sheet maps, and aerial photographs. Departmental facilities include the Edward L. Ullman Geography Collaboratory and the John C. Sherman Cartographic Laboratory, which houses a variety of computer workstations connected to the campus computer network. The Department of Geography is a member of the Center for Social Science Computation and Research, which maintains an extensive data archive and offers many statistical and software consulting services.

Undergraduate Program

Advisers
Lucy Jarosz, Richard Roth
Box 353550
email: rroth@u.washington.edu

Bachelor of Arts

Admission Requirements (15 credits): 10 credits in 100- and 200-level geography courses, with no more than one course at the 100 level; 5 lower-division, credits in an adviser-approved environmental processes/earth sciences course (GEOG 205 or equivalent); a minimum grade of 2.0 in each course and a cumulative GPA of 2.50 for the three courses presented for admission.

Major Requirements (60 credits, including 15 for admission requirements): (1) Foundation Courses (10 credits): GEOG 326 (5) or equivalent research methods/statistical analysis course; GEOG 360 (5) or

equivalent; both courses must be completed within two quarters of admission to the major. (2) Tutorial for Majors, GEOG 397 (1 credit): Within two quarters of admission to the major all students must complete the major's tutorial. (3) Concentration (15 credits): three upper-division, 5-credit geography courses, including two at the 400 level. (4) Electives (15 credits): 10 credits must be at the 300 or 400 level. 100-level geography courses may not count toward this requirement. (5) Capstone Experience (4 credits minimum): May include senior essays, seminars, workshop courses, or other arrangements.

Other requirements: (1) Transfer students must complete a minimum of 25 upper-division geography credits in residence at the UW; (2) Minimum grade of 2.0 in each course and minimum cumulative GPA of 2.50 for all geography courses; (3) Students are encouraged to take elective courses outside geography in fields which support their concentration. Consult advisers for lists of appropriate courses. (4) Certificates are offered for students with interests in areas such as location studies or trade and transportation.

Minor

Minor Requirements: 30 credits in geography, including 15 upper-division credits with at least 5 credits at the 400 level. 2.0 minimum grade for each course counted toward the minor. At least 15 credits of upper-division geography courses must be taken at the UW.

Graduate Program

William Beyers, Graduate Program Coordinator

The Department of Geography has flexible programs of graduate study leading to the Master of Arts and Doctor of Philosophy degrees.

The aspirant to the master's degree is expected to complete all work for the degree in four to six quarters. The aspirant to the doctoral degree is expected to undertake two years of post-master's study and must take a departmental diagnostic examination upon entry, pass the General Examination, attain an appropriate level of competence in a foreign language or cognate field, and successfully complete a dissertation. Normally, doctoral program students complete all degree requirements in three to four years.

Admission Requirements

Admission to the graduate program normally requires a minimum GPA of 3.00 (on a 4.00 scale), or B. Students holding a master's degree must meet this minimum scholastic requirement, but also should have achieved a GPA higher than 3.00 for graduate studies completed. All applicants must take the Graduate Record Examination. Specific information regarding application procedures may be obtained by writing to the graduate program adviser.

Financial Aid

The department usually awards approximately 10 to 15 teaching assistantships for the academic year. Most of the assistantships are for teaching quiz sections for a larger lecture class. A few of the more advanced doctoral candidates may teach a class. Normally, several research assistantships are also available.

Chair

David C. Hodge

Professors

Beyers, William B. * 1962; PhD, 1967, University of Washington; economic geography, regional analysis, regional development.

Fleming, Douglas K. * 1963, (Emeritus); PhD, 1965, University of Washington; transportation geography (especially ocean and air), regional organization of western Europe.

Guest, Avery * 1972, (Adjunct); MS, 1964, Columbia University; MA, 1967, PhD, 1970, University of Wisconsin; demography, ecology, stratification.

Hodge, David C. * 1975; MS, 1973, PhD, 1975, Pennsylvania State University; urban geography, urban transportation geography, equity, gender.

Jackson, W. A. Douglas * 1955, (Emeritus); PhD, 1953, University of Maryland; Canada, political systems, nature and culture.

Krumme, Gunter * 1970; PhD, 1966, University of Washington; economic, organizational and marketing geography, location theory, regional development.

Marts, Marion E. * 1934, (Emeritus); PhD, 1950, University of Washington; water resources, conservation, resource policy.

Mayer, Jonathan D. * 1977; PhD, 1977, University of Michigan; medical geography, clinical applications, philosophy.

Morrill, Richard L. * 1955; PhD, 1959, University of Washington; spatial organization, migration, population, diffusion, regional planning/development, inequality.

Sherman, John C. * 1939, (Emeritus); PhD, 1947, University of Washington; cartography, graphics communication, remote sensing.

Thomas, Morgan D. * 1959; PhD, 1954, Queen's University (UK); regional economics, regional planning and development, technical innovation.

Velikonja, Joseph * 1964, (Emeritus); PhD, 1948, State University (Italy); social and political geography, international migration, immigrants in America, eastern Europe.

ZumBrunnen, Craig * 1977; PhD, 1973, University of California (Berkeley); resource analysis, Russia and NIS, environment, mathematical programming.

Associate Professors

Chan, Kam Wing * 1991; PhD, 1988, University of Toronto (Canada); economic development, urbanization, migration, China, Hong Kong.

Chang, Kuei-Sheng * 1966, (Emeritus); PhD, 1955, University of Michigan; economic geography of China, historical geography of exploration, Third World development.

Chrisman, Nicholas R. * 1987; PhD, 1982, University of Bristol (UK); geographic information systems, spatial error analysis.

Kakiuchi, George H. * 1957, (Emeritus); PhD, 1957, University of Michigan; Japan, agriculture, internal migration, regional geography.

Lawson, Victoria A. * 1986; PhD, 1986, Ohio State University; Latin America, political economy of development, feminist theory in development.

Nyerges, Timothy L. * 1985; PhD, 1980, Ohio State University; GIS, spatial decision support, urban, transportation, environment, groupware.

Assistant Professors

Jarosz, Lucy A. * 1990; PhD, 1990, University of California (Berkeley); political economy of development, food and agriculture, feminist geography, political ecology.

Mitchell, Katharyne 1993; PhD, 1993, University of California (Berkeley); urban, cultural and economic geography, Pacific Rim.

Sparke, Matthew 1995, (Acting); MA, 1991, PhD, 1996, University of British Columbia (Canada); human geography.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

GEOG 100 Introduction to Geography (5) I&S Jarosz, Mitchell, Sparke Introduction to the study of human geography and the major themes of the discipline. Topics include: human-environment interactions, migration and human mobility, patterns of health and nutrition, industrialization and urbanization, and the geography of culture and politics. Offered: AWSpS.

GEOG 102 World Regions (5) I&S Spatial study of world regions, based on historical, cultural, political, economic, and other factors. An attempt to understand the underlying forces that have led to the formation of regions and regional patterns.

GEOG 205 Introduction to Physical Sciences and the Environment (5) NW ZumBrunnen Major atmospheric, hydrologic, and geomorphic processes used to interpret the character, distribution, and human significance of different natural and human-altered environments. Includes laboratory exercises for science and nonscience majors, geography majors and nonmajors. Offered: AS.

GEOG 207 Economic Geography (5) I&S Beyers, Krumme The changing locations and spatial patterns of economic activity, including: production in agriculture, manufacturing, and services; spatial economic principles of trade, transportation, communications, and corporate organization; regional economic development, and the diffusion of technological innovation. Offered: AWS.

GEOG 230 Urbanization in Developing Nations (5) I&S Lawson Cities in their cultural and economic contexts, geographical patterns of cities, and internal city structure. Problems facing these rapidly growing cities and selected policy solutions. Offered: Sp.

GEOG 258 Maps and Map Reading (3) I&S Categories of maps and aerial photographs and their special uses; map reading and interpretation.

GEOG 277 Geography of Cities (5) I&S Hodge Study of 1) systems of cities—their location, distribution, functions, and competition; and 2) their internal structure—the location of activities within urban areas. Particular emphasis on current urban problems—sprawl, housing, segregation, economic growth, and metropolitan transportation. Offered: W.

GEOG 280 Introduction to the Geography of Health and Health Care (5) I&S Mayer Concepts of health from a geographical viewpoint, including human-environment relations, development, geographical patterns of disease, and health systems in developed and developing countries. Offered: Sp.

GEOG 301 Cultural Geography (5) I&S Jackson Analysis of the role of culture in the formation of landscape patterns; components of culture that contribute not only to a "sense of place", but also to the mosaic of settlement patterns and occupancy that can be traced to culture. Recommended: 100 or equivalent.

GEOG 302 The Pacific Northwest (3) I&S Beyers Settlement pattern in the Pacific Northwest, emphasizing economic and historical factors, including the location of resource-oriented industries, policies regarding the use of public lands, and bases of the development of major urban areas in the region. Offered: W.

GEOG 304 Western Europe (5) I&S Physical and socioeconomic characteristics of western Europe. Contemporary political and economic integration trends in their regional context.

GEOG 308 Canada: A Geographic Interpretation (5) I&S Sparke Study of Canada; emergence of a political-geographic and cultural entity and identity in North America that presents significant contrasts to the United States. Components that have helped shape Canadian earth-space and landscape. Offered: jointly with SISCA 308; Sp.

GEOG 313 East Asia (5) I&S Chan Introduction to the contemporary geography of East Asia, including China, Hong Kong, Taiwan, Japan, and Korea. Topics include: physical geography, historical settings, general development patterns, agriculture, population, industry, and trade. Focuses on major geographic issues in development. Case studies from different countries used to illustrate various themes.

GEOG 316 Urban Economics (5) I&S Application of economic analysis to urban trends, problems, and prescriptions, such as changing urban form and function, urban public finance, housing and renewal, poverty and race, transportation, and environmental problems. Prerequisite: ECON 201 or equivalent. Offered: jointly with ECON 316.

GEOG 326 Introduction to Geographic Research (5) I&S, QSR Chan Introduction to the tools of geographic research. Topics include defining problems, designing research, and methods for gathering and operationalizing statistics. Provides experience defining a geographic research problem, collecting and analyzing data, and drawing conclusions from that endeavor. Offered: AWS.

GEOG 330 Latin America: Landscapes of Change (5) I&S Lawson Examines operation of economic, social, and political processes across countries of Latin America—on international, national, and local scales—to understand common issues facing the region and different impacts in particular countries. Topics include internationalization of Latin American economies; agrarian and urban change; popular movements. Offered: W.

GEOG 333 Russia's Changing Landscape (5) I&S The Russian landscape as it has been affected by Soviet planning, migration and settlement, urbanization, industrialization, the results of collectivization in agriculture, and the growth of a transport network.

GEOG 335 Geography of the Developing World (5) I&S Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Prerequisite: 100 or equivalent. Offered: jointly with SIS 335; W.

GEOG 336 China (5) I&S Chan China's environmental and historical settings. Human response to varied geographical conditions. Pattern and process of development in agriculture, industry, and urbanization. Offered: W.

GEOG 342 Geography and Inequality in the United States (5) I&S Morrill Geography of social and economic inequality. Spatial distribution of wealth and poverty and the possible causes. Geographic and other aspects of the alleviation of poverty. The geography of racial and ethnic discrimination, from Indian reservations to ghettos, as well as religious, gender, and age discrimination. Offered: Sp.

GEOG 349 Geography of International Trade (5) I&S Mitchell Examines international production and the circulation of commodities. Resource extraction and the international division of labor established during colonialism; production and trade during the period of empire and subsequent core-periphery relations; contemporary movement of commodities; role of the state in different economic, and growing Pacific Rim influence. Offered: A.

GEOG 350 Local Economies and Market Areas (5) I&S Krumme Intermediate economic geography.

Methods and concepts for analysis of small regional economies, market areas, and their development. Tools for population, employment, and consumer profiles. Locations, trading and transportation patterns, commodity flows, industrial linkages. Spatial constraints on producers, consumers. Economic impact analysis. E-mail access required. Offered: Sp.

GEOG 360 Principles of Cartography (5) I&S, QSR Chrisman, Nyerges Origins, development, and methods of cartography. Principles of data representation and map design for thematic and topographic mapping. Introduction to the use of computers for mapping. Offered: ASpS.

GEOG 366 Regional Development (3/5) I&S Thomas The process of regional economic development. Theories and conceptualizations of economic growth and structural change, technological change and industrial development, spatial variation in economic activities and government policies. Prerequisite: 207 or ECON 200 or equivalent. Offered: W.

GEOG 370 Problems in Resource Management (5) I&S ZumBrunnen Principles and practices of effective conservation and utilization of natural resources. Role of technology in resource use. Physical, political, and economic aspects of resource management for food, population, land, water, air, energy, and timber resources. Recommended: 100 or equivalent. Offered: Sp.

GEOG 371 World Hunger and Resource Development (5) I&S Jarosz Addresses issues of hunger and poverty in their relationship to resource development, population, and environmental change in Africa, Asia, and Latin America. Examines various approaches to the problem of world hunger such as population growth, agricultural development and modernization, and issues in sustainable resource development. Offered: A.

GEOG 375 Geopolitics (5) I&S Sparke Spatial aspects of international politics, with attention to the history of geopolitical concepts, perceptions of national space, the organization of territory, and the strategic use of geography to advance state goals. Offered: jointly with SIS 375.

GEOG 380 Geographical Patterns of Health and Disease (4) I&S Mayer Geography of infectious and chronic diseases at local, national, and international scales; environmental, cultural, and social explanations of those variations; comparative aspects of health systems. Prerequisite: 100 or equivalent. Offered: A.

GEOG 397 Tutorial for Majors (1) Lawson Overview of the discipline of geography including faculty research interests, teaching philosophies, and course offerings as well as essential study and research skills and career development strategies. Students meet concurrently with faculty adviser to identify academic interests and devise plan of studies. Credit/no credit only. Offered: ASp.

GEOG 401 Culture, Capital, and the City (5) I&S Mitchell Examines current themes in social theory as they apply to the urban landscape. Includes the interconnections of cultural and economic processes and the spatial patternings of race, class, and gender in the modern urban context.

GEOG 426 Quantitative Methods in Geography (5) I&S Hodge Quantitative methods for empirical research in geography. Emphasis on statistical analysis; use of geographic data bases like the United States Census; understanding special issues and problems associated with geographically ordered data; verbal and graphic presentation in a computer environment. Prerequisites: 326, a course in statistics, or permission of instructor. Offered: Sp.

GEOG 430 Contemporary Development Issues in Latin America (5) I&S Lawson Contemporary development issues in Latin America, seen from a spatial

perspective. Concept of development; competing theories as related to various Latin American states. Economic structural transformation, migration, urbanization, regional inequality, and related policies. Offered: A.

GEOG 431 Geography and Gender (5) I&S Jarosz Examines theories and case studies across international, national, and regional scales in order to illustrate the impacts of social and economic processes upon the construction of gender in particular places. Offered: W.

GEOG 432 Population and Urbanization Problems of Russia and the Newly Independent States (5) I&S ZumBrunnen Historical background and evolution of Soviet/Russian population and urbanization processes and problems. Distinguishing demographic characteristics and recent trends in the growth and migration of rural and urban populations. Analysis of problems associated with ethnicity and nationality, regional-temporal labor demand and supply issues, and spatial-temporal well-being. Offered: odd years; Sp.

GEOG 433 Resource Use and Management in Russia and the Newly Independent States (5) I&S Jackson, ZumBrunnen Geographic and historical perspectives on Soviet natural resource use and management in theory and practice. Implications of the breakup of the USSR for natural resource use and management. Offered: odd years; W.

GEOG 434 Southeast Asia: Conflict and Development (5) I&S Mitchell Study of complexity of ethnic, cultural, and socioeconomic background in relation to division and rivalry in past; conflict and development in contemporary southeast Asia. Recommended: 100.

GEOG 435 Industrialization and Urbanization in China (5) I&S Chan Examines the impacts of industrialization strategies adopted by the Peoples Republic of China on urbanization and rural-urban relations. Topics include: economic development strategies, industrial geography, rural industrialization, urban development patterns, migration, and urbanization policies. Prerequisite: one course on contemporary China or permission of instructor. Offered: Sp.

GEOG 440 Regional Analysis (5) I&S Beyers Regional industrial structures and economic change. Application of shift-share, cohort, multiplier, input/output, and programming models to the analysis and projection of regional population and employment patterns, regional growth differentials, and regional impact analysis. Recommended: 207 and introductory macroeconomics. Offered: Sp.

GEOG 441 Technology and Industrial Change (5) I&S Thomas The "technology factor" in the process of industrial change in a turbulent contemporary world. Restructuring the world economy, transnational corporations, industry strategies and government policies. Prerequisite: 207 or permission of adviser.

GEOG 442 Social Geography (5) I&S Review of concepts and methods of postwar social geography: historical roots and present orientations. Study of social spatial systems, their structures and functioning. Recommended: 200.

GEOG 443 Location and Movement Models (5) I&S Morrill Application of models of optimum location and allocation; assignment, transportation, and spatial equilibrium; spatial interaction; geographic simulation; and spatial diffusion.

GEOG 445 Population Distribution and Migration (5) I&S Morrill Relation of population distribution to environment, economic development, and culture. Frontier and rural settlement, urbanization, and suburbanization. Regional variation in age, ethnicity, fertility, and mortality. Causes and effects of migration from the world to the local scale. Recommended: 100 or 200 or SOC 331. Offered: A.

GEOG 447 The Geography of Air Transportation (5) I&S Geographic analysis of world air routes, passenger and cargo flows, and airport activities; consideration of physical, economic, political, and institutional determinants of routes and flows.

GEOG 448 Geography of Transportation (5) I&S Mayer Circulation geography, principles of spatial interaction emphasizing commodity flow, the nature and distribution of rail and water transport, the role of transport in area development.

GEOG 449 Geography of Ocean Transportation (5) I&S Geographic analysis of ocean trade routes, cargo and passenger flows, and port activities. Evaluation of the role of the transportation carrier in international trade.

GEOG 450 Theories of Location (5) I&S Krumme Neoclassical and modern theories of location, land use, and spatial structure. Decision and organizational concepts. Location principles, patterns, and processes in the context of rural, commercial, industrial, residential, and recreational activities focusing on the effects of transportation, communication, uncertainty, and other factors. Prerequisite: 207 and ECON 200 or permission of instructor. Offered: A.

GEOG 458 Map Sources and Errors (5) I&S Chrisman Analysis and appraisal of source materials for maps, production constraints of mapping agencies, coverage and quality. Focus on errors inherent in maps and map derived data; judgment of fitness for specific applications. Prerequisite: 360 or permission of instructor. Recommended: CIVE 316 or CETS 414.

GEOG 460 Geographic Information Systems Analysis (5) I&S Chrisman Methods of Analysis provided by geographic information systems (GIS). Operations on map information including map overlay, aggregation/disaggregation, and other spatial and attribute procedures. Exposure to raster and vector software. Review of capabilities of current available GIS software. Prerequisite: 360 or permission of instructor. Offered: A.

GEOG 461 Urban Geographic Information Systems (5) I&S Nyerges Use of geographic information systems to investigate urban/regional issues; focus on transportation, land-use issues; all urban change problems considered. GIS processing strategies. Problem definition for GIS processing. Data collection, geocoding issues. Data structuring strategies. Prerequisites: 277 or equivalent, 360 or equivalent; familiarity with computers. Offered: W.

GEOG 463 Geographic Information Systems Workshop (5) I&S Nyerges Practical experience applying geographic information system (GIS) tools to analyze spatial data. Workshop format requires student-motivated projects; diverse principles encouraged. Prerequisite: 460 or 461 or permission of instructor. Offered: Sp.

GEOG 465 Analytical Cartography (5) I&S Chrisman Algorithms and data structures for selected topics in computer-assisted cartography. Emphasis on point, line, area, and surface data representation, map design, generalization, and data transformations. Prerequisites: 360, CSE 142 and 143 or equivalent, or permission of instructor. Offered: odd years; W.

GEOG 471 Methods of Resource Analysis (5) I&S ZumBrunnen Economic and noneconomic criteria for resource analysis. Theory and methods of linear models of natural resource analysis. Includes materials-balance modelling, residuals management, constrained system optimization approaches to water quality analysis, land-use patterns and interregional energy use, and multiple objective planning techniques applied to natural resource problems. Prerequisite: 370 or permission of instructor.

GEOG 478 Intraurban Spatial Patterns (5) I&S Hodge, Morrill Geographic patterns and processes

within metropolitan areas. Economic land-use patterns (commercial and industrial location), social land-use patterns (segregation, housing, and neighborhood change), urban political geography, analysis of urban infrastructure, and assessment of contemporary and future trends in urban development. Offered: A.

GEOG 490 Field Research: The Seattle Region (6) I&S Hodge, Morrill Field methods for contemporary urban research. Survey designs used in the analysis of transportation, land use, location of employment, shopping and housing, political fragmentation, and environmental degradation. Field report required, based on field work in the Seattle region.

GEOG 492 Library Research in Geography (2) I&S Introduction to library research methods in geography. Review and assessment of geographical bibliographies and abstract services for monographs, periodicals, gazetteers, dictionaries, encyclopedias, government publications, and statistical sources. Credit/no credit only.

GEOG 494 Senior Essay (3) I&S Supervised individual research and writing of major paper during senior year. Prerequisites: senior standing and permission of faculty sponsor. Offered: AWSp.

GEOG 495 Special Topics (* max. 10) I&S Topics vary and are announced in the preceding quarter. Offered: AWSp.

GEOG 496 Internship in Geography (3/5, max. 12) Internship in the public or private sector, supervised by a faculty member. Credit/no credit only. Prerequisites: sophomore standing or above in geography and permission of faculty sponsor and undergraduate adviser. Offered: AWSpS.

GEOG 497 Tutorial in Geography (1-3, max. 6) I&S Mayer Intensive directed study and tutoring. Literature reviews, formulations of project outlines and research designs, orientation in contemporary geographic thought and trends. Directed writing. Required for honors students. Prerequisite: permission of instructor. Offered: AWSp.

GEOG 498 Undergraduate Seminar in Economic Geography and Regional Science (3) I&S Krumme Selected advanced topics and current problems in economic geography, including location, transportation, trade, marketing, international investment, regional analysis, technological change, and economic development. Emphasis on critical examinations of theoretical and empirical work. Opportunity for the development of conceptual frameworks for undergraduate (e.g., senior essay) research. Offered: A.

GEOG 499 Special Studies (* max. 15) Supervised reading programs, undergraduate and graduate library and field research; special projects for undergraduate honors students. Prerequisite: permission of instructor or department adviser. Offered: AWSpS.

Courses for Graduates Only

GEOG 500 Contemporary Geographic Thought (4, max. 8)

GEOG 502 Professional Writing in Geography (* max. 6)

GEOG 505 Research Seminar: China and North-east Asia (3, max. 6) Chan Offered: A.

GEOG 506 Research Seminar: Southeast Asia (3, max. 6)

GEOG 507 Research Seminar: Canadian Problems (3, max. 6) Consideration of the spatial dimensions of Canadian socioeconomic, cultural, and political development, with emphasis on resource potentials and relations with the United States, Japan, and other important trading partners. Prerequisite: 308 or permission of instructor. Offered: jointly with SISCA 507.

GEOG 511 Contemporary Methodologies and Philosophies in Geography (4) Overview of major philosophies and methodologies of contemporary geographic research; historical roots of contemporary geography; roles of positivism, behaviorism, and other philosophical schools in geography; the role of space and regions as unifying and explanatory concepts in geography. Offered: A.

GEOG 520 Geographic Information Representation (3) *Nyerges* Current issues in geographic information representation for cartography and geographic information systems. Includes representations for visualization and databases. Prerequisite: graduate standing and one course in GIS or permission of instructor.

GEOG 526 Advanced Quantitative Methods in Geography (4) *Morrill*

GEOG 531 Latin American Development Seminar (3) *Lawson* Evolution of development theory in Latin America from a spatial perspective. Theories and development issues, using case studies from Latin America. How geographers have conceptualized development problems and solutions. Prerequisite: 430. Offered: W.

GEOG 532 Rural Development Seminar (3) Contemporary issues in rural development theory related to regional and agrarian change. Offered: Sp.

GEOG 533 Research Seminar: Soviet Union (3, max. 6) *ZumBrunnen*

GEOG 538 Research Seminar: Geography of Transportation (3, max. 6) *Mayer*

GEOG 540 Research Seminar: Industrial Geography (3, max. 6) *Byers* Offered: W.

GEOG 542 Research Seminar: Social and Population Geography (3, max. 6) *Morrill* Offered: W.

GEOG 550 Research Seminar in Location Theory (3) *Krumme*

GEOG 553 Cultural Critique and the Landscape (4) *Mitchell* Focuses on important contemporary topics in cultural geography. Examines current theoretical debates in anthropology, sociology, geography, feminist criticism, and cultural studies as they relate to the landscape. Include critical questions surrounding issues of representation and ethnography. Designed to help student prepare for advanced fieldwork. Offered: Sp.

GEOG 556 Seminar in Urban Economics (3) Use of economic theory to explain land-use trends, transportation, housing and renewal, the ghetto, and the public economy in urban areas. Prerequisites: ECON 300, 301, or equivalent. Offered: jointly with ECON 556.

GEOG 580 Geographic Information and Analysis (3, max. 6) *Chrisman* Current research topics in geographic information systems. Particular emphasis on analytical methods, and their use in practical circumstances. Prerequisite: graduate status in GIS or related field. Offered: W.

GEOG 561 Geographic Information Systems Management (3) *Nyerges* Geographic information system specification, design, and implementation in an institutional context. Focus on use and value of geographic information as related to system design and decision-making requirements. Systems integration issues. Standards and geographic data sharing. Prerequisites: 460 or 461 or equivalent and permission of instructor, or 465.

GEOG 563 Algorithms and Data Structures for Geographic Information Systems (5) *Chrisman* Anatomy of a software package for geographic information processing. Emphasis on analysis of algorithmic complexity and software design techniques. Presents dynamic data structures, persistence of temporal data, and data flow algorithms. Prerequisites: 460,

465, and CSE 326 or 373.

GEOG 566 Regional Development Seminar (3) *Thomas* Regional economic development theories and methodologies. The dynamic roles of social, economic, technical, and institutional factors in the process of regional development. Impacts of industry and firm strategies and government policies.

GEOG 567 Research Seminar: Geography and Industrial Development (3, max. 6) *Thomas* Spatial and economic dimensions of contemporary restructuring of world economy. Explanatory roles of such factors as governments, technical change, complex corporations, capital markets, information costs, transfer costs, and international trade in this process of global restructuring.

GEOG 570 Research Seminar: Natural Resources Analysis (3, max. 6) *ZumBrunnen*

GEOG 575 Research Seminar: Geography in Politics and World Affairs (3, max. 6) *Sparke* Literature in political geography and related fields pertaining to state and interstate relationships. Prerequisites: 375, 475. Offered: A.

GEOG 576 Geography in Politics (3, max. 6) *Sparke* Literature in political geography and related fields pertaining to state and interstate relationships. Offered: jointly with SIS 575.

GEOG 577 Research Seminar: Internal Spatial Structure of Cities (4, max. 8) *Hodge* Offered: A.

GEOG 580 Medical Geography (3) *Mayer* Geography of disease, consideration in health systems planning. Analysis of distributions, diffusion models, migration studies. Application of distance, optimal location models to health systems planning; emergency medical services; distribution of health professionals; cultural variations in health behavior. Prerequisites: familiarity with social science research; health-related issues. Offered: jointly with HSERV 586; W.

GEOG 581 Seminar in Medical Geography (3) *Mayer* Research and methodologies in medical geography; critical analysis of readings in medical geography; interrelations of medical geography with (1) other geographical specialties, (2) other health sciences. Prerequisite: 580. Offered: odd years; W.

GEOG 598 Geography Colloquium (1, max. 3) Participation in, and critique of, student thesis and dissertation research, faculty research, and visitor contributions. Offered: AWSp.

GEOG 599 Effective Teaching of Geography (1) Designed for the ongoing development of effective teaching and professional skills. Topics/activities include micro-teaching, communications and presentation skills; course organization, time management, personal and small group dynamics; design of geography curricula using simulations and computer-assisted instruction in the classroom, and fostering of creative thinking. Credit/no credit only. Offered: A.

GEOG 600 Independent Study or Research (*) Offered: AWSp.

GEOG 700 Master's Thesis (*) Offered: AWSp.

GEOG 800 Doctoral Dissertation (*) Offered: AWSp.

of the department provides a base of required courses for the undergraduate and contains a wide variety of more specialized upper-division courses that reflect the diversity of the geological sciences.

The department is well equipped with modern analytical, computational, and experimental facilities and has sizable research/teaching collections of rock, minerals, and fossils.

Undergraduate Program

Adviser
George Bergantz

The Department of Geological Sciences offers two undergraduate degrees. The Bachelor of Arts degree is designed for students who wish to obtain a broad understanding of the history, composition, and dynamics of the earth, either for personal enrichment or as training for careers such as science journalism, environmental law, or secondary school teaching. The Bachelor of Science degree, which requires more credits in mathematics and physical sciences, is designed for students who intend eventually to enter a graduate program in earth science and pursue a professional career. The Biology Option allows B.S. students interested in paleontology and paleobiology to substitute certain biology courses for mathematics and physical sciences.

Courses are also offered for nonmajors interested in understanding the processes responsible for the distribution of continents, landscapes, the availability of natural resources, and the occurrence of such natural hazards as earthquakes and volcanoes.

Bachelor of Science

Major Requirements: GEOL 101 or 205, 306, 311, 320, 321, 340, 401 plus 9 credits at the 400 level in geological sciences, excluding GEOL 401, 490, 498, and 499. General Option: MATH 124, 125, 126; CHEM 140 or 145, 141, 150 or 155; PHYS 121/131, 122/132; PHYS 123/133 or CHEM 160; and one course from the following five: CHEM 237, 350; MATH 307, 308; STAT 311. Biology Option: MATH 124, 125, 126; PHYS 121/131; CHEM 140 or 145, 141, 150 or 155; two courses from BIOL 201, 202, 203; PHYS 122/132 or CHEM 160 or STAT 311 or 3-5 credits of upper-division courses in biological sciences. All required courses must be completed with grades not lower than 2.0.

Bachelor of Arts

Major Requirements: GEOL 101 or 205, 306, 311, 320, 321, 340, plus 19 credits at the 300 or 400 level (minimum of 10 credits at the 400 level), excluding GEOL 490, 498, and 499; MATH 124, 125; PHYS 121/131; CHEM 140 or 145; 13 credits from the following: MATH 126; PHYS 122/132, 123/133; CHEM 150 or 155, 160; BIOL 101-102, 201, 202, 203; CSE/ENGR 142; STAT 311. All required courses must be completed with grades not lower than 2.0.

Graduate Program

Bruce Nelson, Graduate Program Coordinator

The Department of Geological Sciences offers graduate programs leading to the degrees of Master of Science and Doctor of Philosophy. The department emphasizes a rigorous quantitative approach to significant problems in the geological sciences. Study in virtually all branches of geology is possible; any emphasis on field, laboratory, or theoretical work is largely dictated by the nature of the research problem selected.

Research Facilities

Analytical, experimental, and computational research facilities include a wet chemistry laboratory, a Finnigan SOLA ICP-MS for elemental and isotopic analyses of

Geological Sciences

63 Johnson

The geological sciences include the collection and interpretation of field data as well as the application of principles of physics, chemistry, biology, and mathematics to the study of the earth, its environment, its origin, and the processes by which it has been transformed and reconstituted through time. The curriculum

rocks and fluids, a JEOL 733 Superprobe with EDS/WDS for mineral analysis, a thermal-ionization mass spectrometer and clean laboratory for separation of radiogenic and trace elements (Rb/Sr, Sm/Nd, U, Pb), two fully-automated single-crystal X-ray diffractometers for crystal-structure studies at high temperature, a computer laboratory, a remote-sensing laboratory with an image-processing system with LANDSAT tape library and spectral reflectance equipment, and gas-atmosphere-controlled furnaces. Additional facilities are provided by the Burke Memorial Washington State Museum with paleontological laboratory and collections (extensive reference collections of invertebrate, vertebrate, and plant fossils; mineralogic collections) and the Quaternary Research Center (scanning and transmission electron microscopes, radiocarbon and stable-isotope research, palynology, snow and ice research, and periglacial laboratory).

Master of Science

Graduation Requirements: With Thesis—36 credits, of which 18 must be in courses at the 500 level or above and up to 9 may be for thesis (GEOL 700). Final examination consists of oral presentation and defense of thesis. Without Thesis—45 credits, of which 18 must be in courses at the 500 level or above, which includes a 5-credit research paper (GEOL 600). Final examination is oral and is administered by the supervisory committee. All students must present approved field courses or other approved field experience.

Doctor of Philosophy

Admission Requirements: Either Master of Science or Master of Arts degree in geological sciences or related field.

Graduation Requirements: Credits variable; one-half total program, including dissertation, must be in courses at the 500 level or above; a minimum of 27 credits for thesis (GEOL 800); at least 18 credits completed with numerical grade in courses numbered 400 and 500. Completion of two years of graduate study, passage of the Ph.D. entrance requirement which includes the defense of a proposal, General Examination, and admission to candidacy; completion of acceptable dissertation and passage of Final Examination.

Financial Aid

The department awards annually a number of teaching assistantships, endowed fellowships and scholarships, and research assistantships. Industry-sponsored grants are also available. Qualified students are strongly encouraged to apply for National Science Foundation and other fellowships available through national and private agencies.

Faculty

Chair

Mark S. Ghiorso

Professors

Atwater, Brian F. 1986, (Affiliate); MS, 1974, Stanford University, PhD, 1980, University of Delaware; paleoseismology, neotectonics, regional geology.

Adams, John B. * 1975; MS, 1958, PhD, 1961, University of Washington; planetology, remote sensing.

Bostrom, Robert C. * 1964, (Emeritus); MA, 1952, PhD, 1961, Oxford University (UK); geotectonics, geophysics.

Brown, J. Michael * 1984, (Adjunct); PhD, 1980, University of Minnesota; experimental and theoretical mineral and rock physics.

Cowan, Darrel S. * 1974; PhD, 1972, Stanford University; structural geology and regional tectonics.

Creager, Joe S. * 1958, (Emeritus); PhD, 1958, Texas A&M University; geological oceanography, sedimentology.

Crosson, Robert S. * 1966, (Adjunct); PhD, 1966, Stanford University; seismology, structure and tectonics, earthquake hazards.

Delaney, John R. * 1977, (Adjunct); PhD, 1977, University of Arizona; geological oceanography, origin of oceanic crust, igneous petrology.

Dunne, Thomas * 1973, (Affiliate); PhD, 1969, Johns Hopkins University; geomorphology and hydrology.

Evans, Bernard W. * 1969; PhD, 1959, Oxford University (UK); petrology and mineralogy.

Ghiorso, Mark S. * 1980; MA, 1978, PhD, 1980, University of California (Berkeley); geochemistry.

Ghose, Subrata * 1972; PhD, 1959, University of Chicago; mineralogy.

Gillespie, Alan R. * 1985, (Research); PhD, 1982, California Institute of Technology; landscape evolution, paleoclimate, geochronology, and applications of remote sensing.

Grootes, Pieter M. * 1977, (Affiliate); PhD, 1977, University of Groningen (Netherlands); paleoenvironments, glaciology, and global change from ice core isotope records.

Hallet, Bernard * 1980; PhD, 1975, University of California (Los Angeles); glaciology, permafrost studies, geomorphology.

Johnson, Harlan Paul * 1976, (Adjunct); PhD, 1972, University of Washington; paleomagnetism and marine geophysics.

Leopold, Estella B. * 1976, (Adjunct); PhD, 1955, Yale University; paleoecology, pollen and seed analysis, late Cenozoic environment.

Mallory, V. Standish * 1952, (Emeritus); PhD, 1952, University of California (Berkeley); biostratigraphy, micropaleontology, paleoecology.

McCallum, Ian S. * 1970; PhD, 1968, University of California; petrology.

Merrill, Ronald T. * 1967; PhD, 1967, University of California (Berkeley); geomagnetism, geophysics of solids, rock magnetism.

Newhall, Christopher 1994, (Affiliate); PhD, 1980, Dartmouth College.

Porter, Stephen C. * 1962; PhD, 1962, Yale University; Quaternary geology and geomorphology.

Raymond, Charles F. * 1969, (Adjunct); PhD, 1969, California Institute of Technology; glaciology, glacier and ice sheet dynamics.

Rensberger, John M. * 1966; PhD, 1967, University of California (Berkeley); Cenozoic mammalian evolution, taxonomy, and biostratigraphy.

Sack, Richard O. * 1993, (Affiliate); PhD, 1979, Harvard University; petrology, thermochemistry of rock-forming minerals.

Smith, J. Dungan * 1967, (Affiliate); PhD, 1968, University of Chicago; geophysical fluid dynamics, sediment transport mechanics.

Smith, Stewart W. * 1970, (Emeritus); PhD, 1961, California Institute of Technology; seismology, earthquake risk, seismotectonics.

Stüiver, Minze * 1969; PhD, 1958, University of Groningen (Netherlands); geochronology, isotope geology.

Swanson, Donald A. * 1992, (Affiliate); PhD, 1964, Johns Hopkins University; volcanology.

Tsukada, Matsuo * 1969, (Adjunct); PhD, 1961, Osaka City University (Japan); interpretation of Quaternary events from palynological and kindred data.

Ward, Peter D. * 1984; PhD, 1976, McMaster University (Canada); invertebrate paleontology, paleobiology.

Associate Professors

Anderson, Patricia M. 1994, (Research); MA, 1976, PhD, 1982, Brown University; Quaternary palynology, paleoecology, paleoclimatology.

Bergantz, George W. * 1988; PhD, 1988, Johns Hopkins University; physical petrology, heat and mass transfer, geophysics.

Bourgeois, Joanne * 1980; PhD, 1980, University of Wisconsin; sedimentology, sedimentary geology.

Boyer, Steven E. * 1987, (Research); PhD, 1978, Johns Hopkins University; structural geology.

Cheney, Eric S. * 1964; PhD, 1964, Yale University; economic geology, sequence stratigraphy.

Iverson, Richard M. * 1990, (Affiliate); PhD, 1984, Stanford University; geomorphology.

Montgomery, David R. * 1991, (Research); PhD, 1991, University of California (Berkeley); earth surface processes, especially those occurring in mountain drainage basins.

Nelson, Bruce K. * 1986; PhD, 1985, University of California (Los Angeles); isotopic and geochemical investigations.

Stewart, Richard J. * 1969; PhD, 1970, Stanford University; sedimentary petrology, diagenesis of sediment.

Vance, Joseph A. * 1957, (Emeritus); PhD, 1957, University of Washington; igneous and metamorphic petrology, general geology.

Assistant Professors

Booth, Derek D. 1980, (Adjunct Research); PhD, 1984, University of Washington; geomorphology, environmental geology.

Brazlunas, Thomas F. 1990, (Research); MS, 1975, State University of New York (Stony Brook); PhD, 1989, University of Washington.

Bruner, William M. * 1983, (Affiliate); PhD, 1980, University of California (Los Angeles); geomechanics.

McTigue, David F. * 1993; PhD, 1979, Stanford University; mechanics of geological materials and processes, sediment transport, porous media.

Senior Lecturer

Chernicoff, Stanley E. 1981; PhD, 1980, University of Minnesota; geomorphology.

Lecturer

Swanson, Terry W. 1991; MA, 1989, University of California (Davis); PhD, 1994, University of Washington; cosmogenic isotopes, Quaternary studies.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

GEOL 100 Dinosaurs (2) NW Rensberger Biology, behavior, ecology, evolution, and extinction of dinosaurs, and a history of their exploration. With dinosaurs as focal point, course also introduces the student to how hypotheses in geological and paleobiological science are formulated and tested. Offered: A.

GEOL 101 Introduction to Geological Sciences (5) NW Chernicoff Survey of the physical systems that give the earth its form. Emphasizes the dynamic nature of interior and surface processes and their relevance to mankind and stresses the value of rocks and earth forms in the understanding of past events. A course with laboratory for nonscience majors. Not open for

credit to students who have taken 205. Field trips. Offered: AWSp.

GEOL 205 Physical Geology (5) NW Introduction to the physical and chemical processes of the earth's surface and interior. Plate tectonics, earthquakes, volcanism, glaciation. Optional field trips to Cascades and Olympics. Background in geology not required but science background desirable. Not open for credit to students who have taken 101. Offered: AW.

GEOL 300 Geology of the National Parks (5) NW Review of fundamental geological processes, using North American parks and monuments as examples of natural laboratories. Includes volcanism, glaciation, water and wind erosion, plate-tectonic forces as preserved in geologic exposures of National Parks. Specific topics explored in laboratory sessions and field trips. Prerequisite: 101 or 205 or equivalent.

GEOL 302 Great Ice Age (5) NW Chemicoff Growth of mile-thick ice sheets, worldwide lowering of sea level, and other changes that accompany the harsh environments of a global ice age. Geology of the last three million years, focusing on the geological and ecological impact of our current ice age. Prerequisite: 101 or 205.

GEOL 303 Geologic Hazards (5) NW Geological forces dramatically alter the earth's surface, devastating communities, taking human lives. Uses lectures and field work to examine geological hazards affecting civilizations around the world. Northwest examples illustrate causes and effects of many catastrophic geological processes, including: earthquakes, volcanoes, floods, glaciers, landslides. Prerequisite: 101 or 205 or permission of instructor.

GEOL 304 Earthscapes (5) NW Introduction to study of landforms and geomorphic processes. Topics include weathering, soils, erosion, mass wasting, rivers, glaciers, coastal landscapes, and arid landscapes. Laboratory analysis of landforms, with the writing of scientific abstracts, is included. Optional weekend field trips introduce students to geomorphic landscapes found in western Washington. For non-majors.

GEOL 306 Evolution of the Earth (5) NW Bourgeois Earth and its physical and biological aspects through time. Origin of earth, its early history, and development of continents and ocean basins as chronicled by the rock and fossil record. Field trips required. Prerequisite: 101 or 205. Offered: W.

GEOL 308 Geology of the Northwest (5) NW Chemicoff Geologic history of Washington, Oregon, and Idaho. Emphasis on use of geologic principles in interpreting evidence found in landscapes and rocks. Two day-long weekend field trips required. Prerequisite: 101 or 205 or equivalent.

GEOL 310 Planetary Geology (5) NW Irving Up-to-date survey of geological features and processes on and within planets and their moons deduced from sampling, remote sensing, spacecraft imagery, and theory. Comparative discussion of volcanism, tectonics, surface processes, and thermal evolution. Examination of moon rocks and meteorites. Prerequisite: 101 or 205.

GEOL 311 Introductory Geomorphology (5) NW Hallet Processes that generate landscapes. Two one-day field trips. Prerequisites: 101 or 205, and prior or concurrent enrollment in PHYS 121. Offered: A.

GEOL 312 Volcanoes and Glaciers of the Pacific Northwest (3) NW Irving Introduction to volcanic and glacial processes, emphasizing examples in the Pacific Northwest. Volcanic products, landforms, hazards, prediction, and history. Relationship to tectonics. Nature and distribution of present and former glaciers in Washington. Two all-day Saturday field trips to Cascade volcanoes required.

GEOL 313 Environmental Geology (4) NW Analysis of geologic constraints upon human activity and the

environmental consequences of such activity. Topics include hillslope processes, fluvial processes, earthquake and volcanic hazards, and environmental aspects of the development of water resources. Prerequisites: 101, 205, or upper division standing in engineering or landscape architecture or permission of instructor. Recommended: MATH 120. Offered: A.

GEOL 320 Mineralogy (5) NW Ghiorso Introduction to mineralogy, including elementary crystallography (lattice types, external morphology, stereographic projection), elementary crystal physics (relationship of physical properties, including tensor properties to crystal symmetry), and elementary crystal chemistry (structures, bonding), especially of the silicates. Prerequisites: CHEM 140, MATH 124. Offered: W.

GEOL 321 Principles of Petrology (5) NW McCallum Description, classification, and origin of igneous, metamorphic, and sedimentary rocks, with laboratory hand specimen study of rock specimens. Two one-day field excursions. Prerequisite: 320 or equivalent. Offered: Sp.

GEOL 340 Structural Geology (5) NW Mechanics of rock deformation; description, classification, origin, and tectonic significance of common structures. Emphasizes interpretation and analysis of geologic maps and cross-sections. Prerequisites: MATH 124, PHYS 121. Offered: Sp.

GEOL 401 Field Geology (10) NW Geologic mapping in diverse areas in the western United States. Development of skills in mapping, field interpretation, and report writing. Students are responsible for their own living expenses while in the field. Prerequisites: 321 and 340. Recommended: 306 and 311. Offered: S.

GEOL 403 Principles of Paleobiology (4) NW Ward Fossil record and methods of analysis. Biologic systems in geologic time, including preservation, variation, population structure, adaptation, functional morphology, biostratigraphy, paleoecology, evolution, and biogeography. Prerequisites: 101 or 205, and 306.

GEOL 405 Geophysical Methods and the Earth's Interior (3) NW Bergantz General introduction to geophysical methods with application to geological features at a variety of scales from ore deposits and sedimentary basins to the large scale structure of the core and mantle. Topics include the characterization of the earth's gravity, heat flow, seismic, and magnetic features. Prerequisite: MATH 124. Recommended: 321, 340. Offered: A.

GEOL 409 Great Geological Issues (3) NW Bourgeois History and development of geological and paleontological theories and controversies; philosophy and methodology that have driven scientific inquiry in the earth sciences. Prerequisite: advanced standing in geological sciences or course work in history of science (e.g., HIST 311, 312), or permission of instructor. Offered: alternate years.

GEOL 410 Introduction to Geological Remote Sensing (4) NW Adams Principles of image interpretation for geologists. Study of land forms, structure, lithology, surface processes using aircraft and satellite data. Use of digital multispectral images and radar images for geological mapping. Prerequisite: 311. Offered: A.

GEOL 412 Fluvial Geomorphology (5) NW Hydraulic, sedimentologic, and morphological characteristics of streams and valley floors. Landscape evolution by stream erosion and deposition. Interpretation of fluvial sedimentary environments. Five field exercises emphasize the quantitative analysis of fluvial processes and channel forms and the acquisition of various skills, such as mapping, topographic surveying, and report writing. Prerequisites: 311, MATH 125, PHYS 121. Offered: alternate years; Sp.

GEOL 413 Hillslope Geomorphology (5) NW Theoretical, laboratory, and field study of hillslope evolution by mass wasting and water erosion. Five field

exercises emphasize the quantitative analysis of geomorphic processes and the acquisition of various skills, such as mapping, topographic surveying, and report writing. Prerequisites: 311, MATH 125, PHYS 121. Offered: alternate years; Sp.

GEOL 414 Image Interpretation (4) NW Adams Image interpretation in geological remote sensing. Analysis of aircraft and satellite images to solve field problems. Aerial stereo photography, digital multispectral images, thermal IR, radar images. Prerequisite: 410. Offered: W.

GEOL 415 Principles of Glaciology (3) NW Hallet, Porter, Raymond, Stuiver, Warren Snow deposition and metamorphism, avalanches, heat and mass balance at snow and ice surfaces, glacier flow, ice sheets, sea ice, permafrost, methods of paleoclimate reconstruction, Ice Age theories. Prerequisite: permission of instructor. Offered: jointly with GPHYS 415; A.

GEOL 416 Glacial Geology (3) NW Porter Interpretation of glacial environments and history through study of sediments and landforms; stratigraphic approaches, chronology, reconstructions, applications. Recommended: 311, 415.

GEOL 417 Quaternary Glacial Ages (3) NW Porter Physical, biological evidence of climatic change during Quaternary Period; stratigraphy, chronology. Impact of alternating glacial/interglacial cycles on earth's terrestrial, marine environments. Theories on causes of climatic variation. Prerequisite: introductory course in earth science and biological science. Offered: jointly with QUAT 417.

GEOL 419 Glacial Landscapes and Deposits (3) NW Hallet Development of steep-sided valleys, turquoise lakes, deep cirques, craggy peaks. Physics of glacial erosion and deposition. Geological and geotechnical properties of glacial sediments. Prerequisites: 311, 415.

GEOL 423 Optical Mineralogy (2) NW Evans Petrographic microscopy and recognition of common minerals in thin section. Prerequisite: 320. Offered: A.

GEOL 424 Petrography and Petrology of Igneous Rocks (5) NW McCallum Systematic study of igneous rocks and their origin, using the petrographic microscope. Prerequisite: 423. Offered: W.

GEOL 425 Petrography and Petrology of Metamorphic Rocks (5) NW Evans Mineralogy, textures, and origins of metamorphic rocks; metamorphic facies and metamorphic phase equilibria; controls of metamorphism. Prerequisite: 424 or equivalent. Offered: Sp.

GEOL 426 Petrology and Petrography of Sedimentary Rocks (5) NW Stewart Mineralogy, textures, and origin of sedimentary rocks, using petrographic microscope. Prerequisite: 320 or equivalent.

GEOL 430 Invertebrate Paleontology (5) NW Ward Important larger invertebrate groups; morphology, classification, stratigraphic distribution, evolution, paleoecology. Prerequisite: 306 or permission of instructor.

GEOL 432 Paleocology of Invertebrates (5) NW Properties of fossil populations and interpretation of habit and habitat in the geologic past; applications to interpretation of the stratigraphic record.

GEOL 435 Seismic Exploration (5) NW Brown Introduction to theory and practice of seismic exploration. Application of refraction and reflection techniques to problems in engineering geology and mineral exploration. Constraints in the interpretation of subsurface structure. Prerequisites: 340, MATH 126, PHYS 123. Offered: jointly with GPHYS 435.

GEOL 437 Fossil Vertebrates (5) NW Rensberger Highlights in evolutionary history of the fossil vertebrates, from early Paleozoic fishes through late Cenozoic mammals. Morphology, adaptations, relationships

of the major groups. Bone structures and systematic relationships. Field trip. Prerequisite: 100 or BIOL 101 or equivalent.

GEOL 438 Fossil Mammals (5) NW Rensberger Evolutionary relationships of fossil mammals, from mammal-like reptiles of late Paleozoic to diverse Cenozoic groups. Morphology, adaptations, extinctions, evolutionary patterns. Structures and relationships of most major groups. Field trip. Prerequisite: 100 or BIOL 101 or 437.

GEOL 443 Tectonics (3) NW Development of orogenic belts in space and time; critical evaluation of large-scale zones of deformation as geological expressions of plate interactions; characteristics of modern and ancient convergent plate boundaries. Prerequisite: 340.

GEOL 452 Principles of Sediment Transport by Turbulent Flow (3) NW Theoretical and experimental techniques used in studying erosion, transportation, and deposition of sediment. Initial motion of sediments, bed-load motion, suspension of sediment by turbulent flows, erosion and deposition of sediments, and applications of sediment transport theory to problems of geological interest. Prerequisite: 455. Offered: jointly with GPHYS 452/OCEAN 452.

GEOL 455 Introduction to Geomechanics (4) NW Basic principles of continuum mechanics, their application to flow of water, mud, magma; deformation of soil, rock, ice. Emphasis on sound physical understanding of these principles and use of elementary mathematics in their application to earth sciences problems. Prerequisites: MATH 126, PHYS 123, or equivalent.

GEOL 461 Stratigraphy (4) NW Bourgeois Systematic study of stratified rocks and space-time implications. Principles of stratigraphy, including biostratigraphy, magnetostratigraphy, seismic stratigraphy, subsurface analysis. Basin analysis, evolution of sedimentary basins and continental margins. Prerequisites: 306, 321, or equivalents. Offered: A.

GEOL 462 Depositional Environments (4) NW Bourgeois Principles of sedimentary facies analysis, including survey of modern processes that produce sedimentary sequences. Recognition of various depositional environments represented in the geologic record, including terrestrial, marine terrigenous, and carbonate environments. Two field trips required. Prerequisite: 306 or equivalent historical geology. Recommended: 311, 321. Offered: Sp.

GEOL 472 Introduction to Geochemistry (4) NW Nelson Thermodynamics; practical application of thermodynamic data to geologic problems. Crystal chemistry. Phase equilibria and phase diagrams. Aqueous geochemistry. Organic geochemistry. Systematics of radiometric dating. Stable isotope equilibria. Prerequisites: 320, 321, CHEM 150 or 155, or permission of instructor. Offered: A.

GEOL 474 Introduction to X-ray Crystallography (3) NW Ghose Point groups and space groups. Reciprocal lattice. Theory of x-ray diffraction from single crystals. Powder diffraction; identification of unknowns and determination of precise cell dimensions. Single crystal camera (precession and Weissenberg) techniques; determination of cell dimensions and space groups; study of exsolution and phase transformation in rock-forming silicates. Structure factor formula and the use of three-dimensional Fourier and Patterson series in the determination of crystal structures. Prerequisites: 320, PHYS 123.

GEOL 476 Isotope Geology (3) NW Stuiver Methods involving the application of radioactive isotopes in age dating (radiocarbon, ionium, potassium-argon dating), and of stable isotope variations in nature in determining the temperature history of the earth and igneous rock formations. Applications of global aspects of the hydrologic cycle, age dating in archaeol-

ogy, and geochemical cycling of elements. Prerequisite: background in introductory mathematics.

GEOL 477 Isotope Geology: Lithosphere (3) NW Nelson Radiogenic isotopes as petrogenetic indicators; isotopic evolution of earth's major geochemical reservoirs; application to problems in igneous, metamorphic, sedimentary petrology; stable isotope geothermometry; nucleosynthesis, origin and chronology of solar system formation; U-Th disequilibrium series; short-lived cosmogenic nuclides. Prerequisites: 320, 321, CHEM 150 or 155, or permission of instructor.

GEOL 485 Principles of Economic Geology (5) NW Cheney Principles of economic geology and exploration as illustrated by selected types of metallic and nonmetallic ore deposits and coal. Prerequisites: 321, 340, and senior standing in geological sciences.

GEOL 488 Economic Field Geology (5) NW Cheney Identification of hydrothermally altered rocks, oxidation, and supergene enrichment; principles of exploration, geochemistry and remote sensing. Four- to eight-day field trip to mining districts for field inspection of ore deposits. Two weekends (three days each) mapping mineral deposits. Prerequisites: 485 or equivalent and permission of instructor. Offered: Sp.

GEOL 490 Special Topics (2-10, max. 20) NW

GEOL 498 Undergraduate Thesis (5) NW The thesis must be submitted at least one month before graduation. Prerequisite: permission of department.

GEOL 499 Undergraduate Research (* max. 15) Prerequisite: permission of department.

Courses for Graduates Only

GEOL 509 Great Geological Issues (3) Bourgeois History and development of geological and paleontological theories and controversies; philosophy and methodology that have driven scientific inquiry in the earth sciences. Requires a term paper analyzing primary material. Prerequisites: 409 and graduate standing in earth sciences, or in history of science, or permission of instructor.

GEOL 511 Seminar in Geomorphology and Hydrology (* max. 3) Hallet, Porter Credit/no credit only. Prerequisite: graduate status and permission of instructor.

GEOL 512 Seminar in Quaternary Research (2) Porter Seminar with advanced readings and discussion stressing current problems in Quaternary research. Prerequisite: permission of instructor.

GEOL 518 Periglacial Geology (3) Hallet Geomorphic features and fundamental processes active in areas subjected to subfreezing temperatures. Geotechnical and environmental problems characteristic of periglacial areas. Prerequisites: 311 and prior or concurrent enrollment in 455. Recommended: CHEM 350.

GEOL 519 Advanced Geological Remote Sensing (4) Adams Critical examination of remote sensing methods that are used to determine chemistry, mineralogy, and structure of the earth's surface and the surfaces of solar system bodies. Photographic and digital multispectral imagery, reflectance spectroscopy, thermal infrared spectroscopy, gamma ray spectroscopy, radar imagery, and other techniques. Emphasis on the application of satellite and aircraft measurements to terrestrial geologic problems. Prerequisite: 410 or equivalent.

GEOL 520 Advanced Mineralogy (3) Ghose Crystal symmetry: point groups, space groups. Mathematical description of crystal structures; group theory, irreducible representations; tensor description of physical properties: stress, strain, piezoelectricity, elasticity; structural and magnetic phase transitions, Landau theory, deformation and creep crystals; elastol-

viscous properties of earth's mantle, crystal chemistry, solid state reactions. Offered: jointly with MSE 518.

GEOL 521 Metamorphic Minerals (5) Evans Structures, compositions, optical properties, stability, occurrence, and paragenetic associations of rock-forming metamorphic minerals. Significance of these observations in the determination of metamorphic environments. Laboratory study using the polarizing microscope. Prerequisite: 425 or equivalent. Offered: alternate years.

GEOL 524 Petrogenesis of Igneous Rocks (3) McCallum Origin of one or more of the major groups of igneous rocks. Selected petrogenetic problems in light of tectonic setting, petrography, geochemistry, and experimental studies. Prerequisite: 424 or equivalent. Offered: alternate years.

GEOL 525 Theoretical Metamorphic Petrology (4) Evans Theoretical treatment of metamorphic mineral assemblages and metamorphic processes. Prerequisites: 425, CHEM 456, or equivalent.

GEOL 526 Theoretical Igneous Petrology (4) McCallum Review of thermodynamics, with emphasis on solutions. Crystal-liquid equilibria. Physical properties of silicate melts. Oxidation states of magmas. Magmatic gases. Quantitative treatment of fractionation, assimilation, and magma mixing. Trace elements and isotope ratios. Stable isotopes as tracers. Nucleation and crystal growth. Diffusion in melts. Cooling and crystallization models. Elementary fluid dynamics applied to magma flow. Prerequisites: 424, CHEM 456, or equivalents. Offered: alternate years.

GEOL 527 Phase Equilibria in Silicate Systems (4) McCallum Phase equilibria in 1-, 2-, 3-, 4-, and multi-component systems appropriate to igneous rocks. Geometrical aspects stressed. Effect of H_2O , CO_2 , and variable oxidation states on phase equilibria. Application to the petrogenesis of common igneous rocks. Prerequisite: 424 or equivalent. Offered: alternate years.

GEOL 531 Seminar in Paleontology (2-4) Advanced topics in paleontology and biostratigraphy, including paleobiology and evolution.

GEOL 533 Seminar in Vertebrate Paleontology (3, max. 9) Rensberger Advanced topics in vertebrate evolution, morphology, classification, function, ecology, and stratigraphy. Subject to be chosen by class at beginning of quarter. Prerequisite: advanced standing in paleontology, vertebrate zoology, or biocultural anthropology.

GEOL 548 Tectonic Evolution of Western North America (4) Cowan Survey of each of the major Mesozoic and Cenozoic tectonic provinces in western North America, emphasizing structural styles, tectonic framework, and plate-tectonic setting. Provinces include: Laramide, Rocky Mountain thrust belt, Basin and Range, Cordilleran core complexes, San Andreas, Sierran-Klamath, Franciscan-Great Valley, Vancouver Island-San Juan Islands-North Cascades. Prerequisites: 340.

GEOL 549 Small-Scale Structures in Deformed Rocks (5) Cowan Origin, geometry, tectonic significance of small-scale structures, including foliation, lineations, folding and boudinage, brittle and ductile fault zones; qualitative strain analysis and principles of structural analysis. Includes work with deformed rocks in the field. Prerequisites: 340, 423.

GEOL 556 Planetary Surfaces (3) Comparison of surface processes and conditions on Mercury, Venus, Earth, moon, Mars, asteroids, and satellites of the great planets. Emphasis on understanding how and why planetary surfaces differ from one another and on the implied course of solar-system evolution. Analysis of data from Earth-based telescopes and from manned and unmanned space missions. Offered: jointly with ASTR 556/GPHYS 556; alternate years.

GEOL 557 Origin of the Solar System (3) Nebular and nonnebular theories of the origin of the solar system; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; examination of the physical and chemical evidence upon which the ideas concerning the origin of the solar system are based. Offered: jointly with ASTR 557/GPHYS 557.

GEOL 560 Mechanics of Erosion and Sediment Transport (3) Physics of transportation of sediment by turbulent flows. Use of theoretical fluid mechanics to formulate and solve problems of bed-load and suspended-load transport. Prerequisites: 455 or MATH 329, and 452. Offered: jointly with OCEAN 560.

GEOL 561 Seminar in Geological Fluid Mechanics (3) Reading and discussion of topics of current interest in geological fluid mechanics. Course work includes a report on a specialized topic. Prerequisite: permission of instructor. Offered: jointly with OCEAN 561.

GEOL 564 Sedimentology of Carbonate Rocks (2-4) *Bourgeois* Petrographic and environmental interpretation of carbonate sediments and rocks. Hand-specimen and thin-section studies, with references to modern and ancient carbonate environments. Offered: alternate years.

GEOL 565 Interpretation of Sedimentary Structures (2-4) Physical and environmental analysis of sedimentary structures, including biogenic sedimentary structures. Clastic sediments and rocks. Field trips required. Recommended: 452.

GEOL 571 Transport Theory and Applications in Geology (3) *Bergantz* Introduction to the quantitative treatment of transport phenomena with applications to igneous processes and metamorphism, magma and mantle convection, flow and reaction in regional and contact metamorphism. Emphasis on the governing equations of heat transfer, fluid and porous media flow, rheology, and analytical, numerical, and scaling solutions. Prerequisite: AMATH 402.

GEOL 572 Solution Geochemistry (4) *Ghiorsio* Solution chemistry and thermodynamics as applied to solid and liquid silicates and aqueous fluids. Modeling configurational entropies in solids, activity coefficients and complexes in aqueous solution, and modeling chemical mass transfer in geologic systems. Prerequisite: 472 or equivalent.

GEOL 573 Electron Beam Microanalysis (4) *Kuehner* Materials analysis using electron beams, including electron-target interactions, wave and energy dispersive x-ray analysis, scanning electron microscopy, and applications of these and related techniques to geological problems. Credit/no credit only.

GEOL 574 Advanced X-ray Crystallography (4) *Ghose* Theory of x-ray diffraction; determination of crystal structures with special emphasis on minerals and inorganic compounds, through the application of three-dimensional Patterson function, Fourier series, and direct methods; structure refinement; determination of cation distribution, exsolution, and antiphase domain structure through x-ray diffraction. Prerequisite: 474 or permission of instructor.

GEOL 575 Physics and Chemistry of the Earth's Interior (3) *Booker, Brown, Creager, Irving, Merrill* Emphasizes current issues in global tectonics and mantle dynamics. Examples include global seismic tomography and its bearing on geodynamics, the fate of subducted lithosphere and geochemical constraints on mantle convection. Prerequisite: permission of instructor. Offered: jointly with GPHYS 575.

GEOL 579 Magma Physics (3) *Bergantz* The quantitative treatment of magmatic processes: thermomechanical state of the lithosphere, solidification, convection, conjugate heat transfer, crystal settling, magma mixing, diapirism and melt extraction, hydro-

thermal convection. Emphasis on continental lithosphere. Prerequisites: 571, AMATH 403.

GEOL 582 Seminar in Sedimentology (2-4) *Bourgeois* Selected problems of current interest; extended field trips to classic sedimentologic localities.

GEOL 586 Economic Geology of Sedimentary Rocks (5) *Cheney* Description and origin of metallic and nonmetallic ore deposits indigenous to regoliths, sediments, and sedimentary rocks. Prerequisite: 485 or equivalent or permission of instructor. Offered: alternate years.

GEOL 587 Economic Geology of Igneous and Metamorphic Rocks (5) *Cheney* Description and origin of metallic and nonmetallic ore deposits formed in igneous and metamorphic rocks or by igneous and metamorphic processes. Prerequisite: 485 or equivalent or permission of instructor. Offered: alternate years.

GEOL 590 Special Topics (2-10, max. 20)

GEOL 600 Independent Study or Research (*) Credit/no credit only.

GEOL 700 Master's Thesis (*)

GEOL 800 Doctoral Dissertation (*)

Geophysics

202 Atmospheric Sciences-Geophysics

Geophysics is an interdisciplinary physical science concerned with the makeup, behavior, and planetary environment of the earth. The techniques of physics, mathematics, and chemistry are applied to the structure and dynamic behavior of the earth and other planets. Included in this interdisciplinary area are a large number of complex and interrelated natural processes ranging from processes in the earth's core to processes in the atmosphere and magnetosphere. An undergraduate degree is not offered.

Graduate Program

The Geophysics Program offers graduate study leading to the Master of Science and Doctor of Philosophy degrees. These degrees cover a broad range of topics in which the analytic techniques of physics and mathematics are brought to bear on problems of the earth and its environment. Major areas of interest are the internal and surface structures of planets, dynamical processes within the earth, oceans, and atmosphere, the associated environmental applications of these processes, and the interactions of the earth, ice, ocean, and atmosphere in the climate system.

The required curriculum is flexible so as to permit pursuit of the wide variety of scientific disciplines that may be necessary for approaching a specific geophysical problem. However, a core curriculum of basic physics and mathematics and a sequence of courses dealing with some of the important problems encountered in space, the atmosphere, the oceans, and the solid earth are required. Additional specialized course work necessary before a student embarks on a thesis project is identified by the student and a faculty committee.

Special Requirements

Qualification for the Ph.D. program is a process that considers course and research performance together with the result of an oral exam that is based on a research proposition and is normally given to students at the beginning of their second year. Students who do not qualify for the Ph.D. program by means of this process may be reconsidered following completion of an M.S. program.

Financial Aid

Most financial aid is provided through graduate research assistantships that enable students to work with individual faculty members on research projects. However, two teaching assistantships also are awarded each year.

Research Facilities

Research facilities include field equipment for electromagnetic induction studies; a high-pressure/temperature laboratory, including x-ray machine, ruby fluorescence pressure measuring system, laser-induced phonon spectrometer and diamond anvil cells for studying such rock and mineral properties as compression, sound velocities, and thermal conductivity; a permanent statewide seismic network; a portable telemetered seismic network for studying volcanoes and active faults in western North America; geodetic quality global positioning system receivers; a cold laboratory for studying problems in snow-cover geophysics, glaciology, and sea-ice research; a geophysical fluids laboratory; a space physics laboratory for preparing balloon, rocket, and satellite experiments; and a laboratory for the development of high-resolution optical instrumentation. Computer facilities include a local area network linking a high speed, large storage server with various laboratory workstations and peripheral devices via ethernet. This local net is connected to a campus-wide fiber-optic ring that provides access to other campus computers and national networks. Many of the geophysics faculty members also have laboratories or access to laboratories in other departments, thus making possible a wide diversity of research opportunities. This is particularly valuable in such fields as aeronomy, tropospheric aerosols, radioactive age dating, and geophysical fluid mechanics. In addition to laboratory work, field programs are carried out at a number of remote sites, particularly in the Washington Cascades and Olympics, and Antarctica. In marine geophysics, joint geophysics/oceanography projects provide opportunities for studying the earth's structure and tectonic processes on the sea floor. Facilities for reflection profiling, long-range seismic refraction, and magnetic and paleomagnetic measurements are available.

Faculty

Chair

John R. Booker

Professors

Baker, Marcia * 1980; MS, 1960, Stanford University; PhD, 1971, University of Washington; cloud physics, atmospheric geophysics.

Booker, John R. * 1971; PhD, 1968, University of California (San Diego); geomagnetic induction, magnetotellurics, inverse theory, geophysical fluid dynamics.

Brown, J. Michael * 1984; PhD, 1980, University of Minnesota; experimental and theoretical mineral and rock physics.

Businger, Joost A. * 1958, (Emeritus); PhD, 1954, University of Utrecht (Netherlands); boundary layer meteorology, atmosphere-ocean interaction.

Charlson, Robert J. * 1965; PhD, 1964, University of Washington; atmospheric chemistry, aerosol physics, aerosol/cloud/climate interaction.

Clark, Kenneth C. * 1948, (Emeritus); PhD, 1947, Harvard University; optical spectroscopy, upper atmosphere.

Criminale, William O. * 1968; PhD, 1960, Johns Hopkins University; fluid dynamics, mathematical physics, nonlinear mechanics, stability theory.

Crosson, Robert S. * 1966; PhD, 1966, Stanford University; seismology, structure and tectonics, earthquake hazards.

Ghose, Subrata * 1972, (Adjunct); PhD, 1959, University of Chicago; mineralogy.

Hernandez, Gonzalo * 1988, (Research); PhD, 1962, University of Rochester; optical interference phenomena, with application to remote sensing of atmospheres.

Hobbs, Peter V. * 1963, (Adjunct); PhD, 1963, University of London; Imperial College; aerosol/ cloud/precipitation physics, atmospheric chemistry, air pollution, mesoscale meteorology.

Holzworth, Robert * 1982; PhD, 1977, University of California (Berkeley); experimental space plasma physics, atmospheric/magnetospheric electric fields, thunderstorms.

Leovy, Conway B. * 1967; PhD, 1964, Massachusetts Institute of Technology; planetary atmospheres, middle atmosphere meteorology, remote sensing.

Lewis, Brian T. * 1970; PhD, 1970, University of Wisconsin; marine geophysics, marine seismology, gravity, magnetics, and computer modeling of those processes.

Maione, Stephen * 1972, (Research); PhD, 1972, University of Nevada; seismicity of Cascade volcanoes and eastern Washington, computers in seismic network analysis.

Maykut, Gary * 1969, (Research); PhD, 1969, University of Washington; polar air-sea-ice interaction, radiative transfer in ice and snow.

Merrill, Ronald T. * 1967; PhD, 1967, University of California (Berkeley); geomagnetism, geophysics of solids, rock magnetism.

Parks, George K. * 1971; PhD, 1966, University of California (Berkeley); particles and waves in auroral, magnetospheric, and interplanetary space plasma phenomena.

Raymond, Charles F. * 1969; PhD, 1969, California Institute of Technology; glaciology, glacier and ice sheet dynamics.

Smith, Stewart W. * 1970, (Emeritus); PhD, 1961, California Institute of Technology; seismology, earthquake risk, seismotectonics.

Untersteiner, Norbert * 1962; PhD, 1950, University of Innsbruck (Austria); air-sea-ice interaction, polar climatology, sea ice physics.

Warren, Stephen G. * 1981; PhD, 1973, Harvard University; atmospheric radiation, climatology, glaciology.

Associate Professors

Creager, Kenneth C. * 1986; PhD, 1984, University of California (San Diego); global seismology and geophysical inverse theory.

Harrison, Halstead * 1971, (Adjunct); PhD, 1960, Stanford University; atmospheric chemistry, dispersion modeling, radiative transfer.

Jay, David A. * 1983, (Research); PhD, 1987, University of Washington; wave processes, sediment transport and physical oceanography of coastal waters.

McCarthy, Michael P. 1989, (Research); PhD, 1988, University of Washington; magnetospheric and space plasma physics.

Mercer, James A. * 1968, (Research); PhD, 1983, University of Washington; ocean acoustic tomography, global climate measurements, and ocean dynamic modeling.

Qamar, Anthony * 1983, (Research); PhD, 1971, University of California (Berkeley); earthquakes associ-

ated with volcanoes and glaciers, earth-structure and earthquake hazards.

Waddington, Edwin D. * 1984, (Research); PhD, 1981, University of British Columbia (Canada); glacier and ice sheet modeling, interpretation of ice sheet stratigraphy.

Assistant Professors

Conway, Howard B. * 1987, (Research); PhD, 1986, University of Canterbury (New Zealand); glaciology with emphasis on physical process in snow and ice.

DeCosmo, Janice M. 1994, (Research); PhD, 1991, University of Washington.

Odom, Robert I. 1993, (Research); PhD, 1980, University of Washington.

Sahr, John D. * 1991, (Adjunct); PhD, 1990, Cornell University; radar remote sensing, ionospheric physics; signal processing; wireless communications.

Unsworth, Martyn J. * 1993, (Research); PhD, 1991, Cambridge University (UK); geomagnetic induction, magnetotellurics, electromagnetic geophysics.

Wilcock, William S. D. 1993, (Adjunct); PhD, 1992, Massachusetts Institute of Technology; marine seismology, dynamics of mid-ocean ridges, geological fluid dynamics.

Winglee, Robert M. * 1991; PhD, 1984, University of Sydney (Australia); energetic phenomena in sun/earth plasmas, excitation of waves, high energy particle acceleration.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

GPYS 401 Geophysical Continuum Mechanics (3) NW Analysis of stress and strain. Measurement and interpretation of strain in geological materials. Elasticity applied to determine stress in the earth's lithosphere. Creep of solids and flow of geological materials. Prerequisites: MATH 307 and 308 or equivalent. Offered: A.

GPYS 402 Seismology (3) NW Introduction to theoretical and observational seismology. Elastic plane wave propagation through stratified media. Surface waves, eigenvibrations, ray theory. Structure of the Earth's mantle and core. Seismicity distributions, earthquake focal mechanisms and relationship to tectonics. Prerequisite: 401 or permission of instructor. Recommended: concurrent registration in 432. Offered: W.

GPYS 403 Geophysics: The Earth (3) NW The earth and its interior: gravity, magnetism, heat flow, seismology. Earth's outer structure, studied through the unifying concepts of plate tectonic theory. Quantitative approaches to problems, using techniques of classical physics. Prerequisites: 402 and PHYS 322 or permission of instructor. Offered: Sp.

GPYS 404 Geophysics: Fluids (3) NW Introduction to geophysical fluid dynamics. An overview of fluids in geophysics with emphasis on the oceans. A nonrigorous development of the equations of motion with examples drawn from oceanography and solid earth geophysics. Prerequisites: MATH 307 and 308 or equivalent and PHYS 323 or permission of instructor. Offered: A.

GPYS 405 Space and Plasmas (3) NW Survey of various phenomena occurring in outer regions of Earth's atmosphere, ionosphere, magnetosphere, and Van Allen radiation belts. Laboratory applications include plasma thrusters and fusion. Concepts include charged particles in magnetic fields, drift motion, plasma, magnetohydrodynamic waves. Prerequisite:

PHYS 321 or equivalent or permission of instructor. Offered: jointly with A A 405; W.

GPYS 406 Geophysics: The Atmosphere (3) NW Phenomena of the lower atmosphere: some simple applications of the principles of classical thermodynamics, fluid dynamics, and radiative transfer to the atmospheric hydrological cycle, global energy balance, and atmospheric dynamics and climate. Prerequisite: 404 or permission of instructor. Offered: jointly with ATM S 406; Sp.

GPYS 415 Principles of Glaciology (3) NW Hallet, Maykut, Porter, Raymond, Stuiver, Warren Snow deposition and metamorphism, avalanches, heat and mass balance at snow and ice surfaces, glacier flow and erosion, ice sheets, sea ice, frozen ground, methods of paleoclimate reconstruction, ice age theories. Prerequisite: permission of instructor. Offered: jointly with GEOL 415; A.

GPYS 425 NASA Science and Engineering Research Seminar (1, max. 4) NW DeCosmo Review of current space science-related research. Emphasis varies, but topics may include global change, the solar system, aeronautical engineering, and remote sensing. Credit/no credit only. Offered: Sp.

GPYS 431 Seismology and Earthquake Engineering (3) NW Evans, S. Smith Overview of earthquake processes and details of the characteristics of destructive ground motion; effects of such motion on engineering structures; current practice in estimating earthquake hazards for important structures such as nuclear power plants. Prerequisite: MATH 307 and 308 or permission of instructor. Offered: jointly with CIVE 431; A.

GPYS 432 Applied Seismology (2) NW Interpretation methods in seismology. Seismogram interpretation, including body and surface waves. Seismic instrumentation. Earthquake location, magnitude, and fault-plane solutions. Seismic reflection and refraction methods. Measurement and interpretation of strong ground motion near the epicenter of large earthquakes. Prerequisite: concurrent registration in 402, or permission of instructor. Offered: W.

GPYS 435 Seismic Exploration (5) NW Brown Introduction to theory and practice of seismic exploration. Application of refraction and reflection techniques to problems in engineering geology and mineral exploration. Constraints in the interpretation of subsurface structure. Prerequisites: MATH 126, PHYS 123, GEOL 340. Offered: jointly with GEOL 435; Sp.

GPYS 452 Principles of Sediment Transport by Turbulent Flow (3) NW Theoretical and experimental techniques in studying erosion, transportation, and deposition of sediment. Initial motion of sediments, bed-load motion, suspension of sediment by turbulent flows, erosion and deposition of sediments, applications of sediment transport theory to problems of geological interest. Prerequisite: 455. Offered: jointly with GEOL 452/OCEAN 452; Sp.

GPYS 480 Special Topics in Geophysics (2-6, max. 12) NW Intensive treatment of a selected geophysical topic presented through faculty lectures, guest lectures, and student reports. For students in geophysics and related fields. Subject varies from year to year. Prerequisite: permission of instructor. Offered: S.

GPYS 499 Independent Study for Undergraduates (1-5, max. 10) Prerequisite: permission of instructor. Offered: A/W/Sp.

Courses for Graduates Only

GPYS 501 Geophysical Continuum Mechanics (3) Analysis of stress and strain. Measurement and interpretation of strain in geological materials. Elasticity applied to determine stress in the earth's lithosphere. Creep of solids and flow of geological materials. Includes advanced, research-oriented problems. Pre-

requisites: MATH 307 and 308 or equivalent. Offered: A.

GPYS 502 Seismology (3) Theoretical and observational seismology. Elastic plane wave propagation through stratified media. Surface waves, eigenvibrations, ray theory. Structure of Earth's mantle and core. Seismicity distributions, earthquake focal mechanisms and relationship to tectonics. Advanced, research-oriented problems. Prerequisite: 501. Recommended: concurrent registration in 432. Offered: W.

GPYS 503 Geophysics: The Earth (3) Study of gravity, magnetism, heat flow, seismology. Earth's outer structure studied through unifying concepts of plate tectonic theory. Quantitative approaches to problems, using techniques of classical physics. Includes advanced, research-oriented problems. Prerequisites: 502 and PHYS 322. Offered: Sp.

GPYS 504 Geophysics: Fluids (3) Geophysical fluid dynamics. Fluids in geophysics with emphasis on the oceans. Development of the equations of motion with examples drawn from oceanography and solid earth geophysics. Includes advanced, research-oriented problems. Prerequisites: PHYS 323, MATH 307 and 308 or equivalent. Offered: A.

GPYS 505 Geophysics: Space (3) Various phenomena occurring in outer regions of Earth's atmosphere, ionosphere, magnetosphere, and Van Allen radiation belts. Laboratory applications include plasma thrusters and fusion. Concepts include charged particles in magnetic fields, drift motion, plasma, magnetohydrodynamic waves. Includes advanced, research-oriented problems. Prerequisite: PHYS 321 or equivalent. Offered: W.

GPYS 506 Geophysics: The Atmosphere (3) Phenomena of the lower atmosphere: some simple applications of the principles of classical thermodynamics, fluid dynamics, and radiative transfer to the atmospheric hydrological cycle, global energy balance, and atmospheric dynamics and climate. Includes advanced, research-oriented problems. Prerequisite: 504. Offered: Sp.

GPYS 508 Geochemical Cycles (4) Descriptive and quantitative aspects of the earth as a biogeochemical system. Fundamental methods for study of equilibria, transport processes, chemical kinetics and biological processes and their application to the carbon, sulfur, nitrogen, phosphorus, and other elemental cycles. Stability of biogeochemical systems and the nature of human perturbations of their dynamics. Prerequisites: CHEM 150, 350, MATH 307 and 308. Offered: jointly with ATM S 508; Sp.

GPYS 510 Physics of Ice (3) *Raymond* Structure of the water molecule. Crystallographic structures of ice. Electrical, optical, thermal, and mechanical properties of ice. Growth of ice from the vapor and liquid phases. Physical properties of snow. Prerequisite: permission of instructor. Offered: jointly with ATM S 510; odd years; W.

GPYS 511 Formation of Snow and Ice Masses (3) *Warren* Snow and ice climatology. Formation of the ice crystals in clouds. Snow metamorphism. Transfer of radiative, sensible, and latent heat at snow and ice surfaces. Remote sensing of snow and ice. Growth and melt of sea ice. Climatic records from ice. Prerequisite: permission of instructor. Offered: jointly with ATM S 511; alternate years; A.

GPYS 512 Dynamics of Snow and Ice Masses (3) *Raymond* Rheology of snow and ice. Sliding and processes at glacier beds. Thermal regime and motion of seasonal snow, glaciers, and ice sheets. Avalanches and glacier surges. Deformation and drift of sea ice. Response of natural ice masses to change in climate. Prerequisite: permission of instructor. Offered: jointly with ATM S 512; odd years; Sp.

GPYS 513 Structural Glaciology (3) *Raymond* Physical and chemical processes of snow stratigraphy

and metamorphism. Interpretation of ice sheet stratigraphy in terms of paleoenvironment. Dynamic metamorphism from ice flow. Structures formed at freezing interfaces. Structure of river, lake, and sea ice. Relationship between structures and bulk physical properties. Prerequisite: permission of instructor. Offered: jointly with ATM S 513; even years; W.

GPYS 514 Ice and Climate Modeling (3) *Warren* Principles of global climate modeling. Modeling seasonal cycles of snow cover and sea ice. Ice-sheet mass balance and flow. Solar radiation anomalies due to changes in earth's orbit. Climate/ice-sheet models of Pleistocene ice ages. Prerequisite: permission of instructor. Offered: jointly with ATM S 514; alternate years; A.

GPYS 518 Introduction to Geophysical Research (1-2, max. 4) Introduces research of faculty and advanced graduate students to first-year graduate students and provides experience for the formulation, oral presentation, and defense of research proposals and results. Offered: AWSp.

GPYS 519 Geophysical Research Methods (2, max. 12) Current research methodology and results based on recent literature and on faculty and student research. Designed to develop student perspective on observational and theoretical methods and on relation of specific research to broader developments in geophysics and interdisciplinary aspects of geophysics through faculty-guided presentations and discussion by students. Offered: A, W, Sp.

GPYS 520 Seminar (1, max. 15) Review of current literature in geophysics and graduate student research with faculty participation. Credit/no credit only. Offered: AWSp.

GPYS 522 Atmospheric Electrical Dynamics (3) *Holzworth* Global and local dynamical electric field models, including upper atmospheric and tropospheric sources as modified by propagation delays, orographic features, and transient phenomena. Radiation and plasma waves along with microphysics of corona discharge and charge separation mechanisms. Prerequisites: 406 and 405, or permission of instructor. Offered: A.

GPYS 523 Introduction to Solar-Terrestrial Physics (3) *Holzworth* Introduces the student to several areas of space physics, the physical principles that apply therein, and the methods by which significant observations are made. Covers electromagnetic and plasma processes from the center of the sun to the surface of the earth. Prerequisites: PHYS 321, 322, 323 or permission of instructor. Offered: Sp.

GPYS 532 Atmospheric Radiation: Shortwave (3) *Warren* Principles of radiative transfer in planetary atmospheres with emphasis on single and multiple scattering of visible and infrared radiation. Applications to atmospheric and surface energy balance and remote sensing. Prerequisite: PHYS 323 or permission of instructor. Offered: jointly with ATM S 532; alternate years; W.

GPYS 533 Atmospheric Radiation: Longwave (3) *Leovy, Warren* Principles of radiative energy exchange in planetary atmospheres with emphasis on emission and absorption of infrared and microwave radiation. Applications to atmospheric and surface energy balance and remote sensing. Prerequisite: PHYS 225 or permission of instructor. Offered: jointly with ATM S 533; Sp.

GPYS 534 Remote Sensing of the Atmosphere and Climate System (3) *Katsaros, Leovy, Warren* Satellite systems for sensing the atmosphere and climate system. Recovery of atmospheric and surface information from satellite radiance measurements. Applications for research. Prerequisites: 532 and 533. Offered: jointly with ATM S 534; Sp.

GPYS 535 Cloud Microphysics and Dynamics (3) *Baker, Hobbs* Basic concepts of cloud micro-

physics, water continuity in clouds, cloud dynamics, and cloud models. Prerequisite: ATM S 501 or permission of instructor. Offered: jointly with ATM S 535; W.

GPYS 537 Space and Laboratory Plasma Physics (3) *Parks* Discussion of waves, equilibrium and stability, diffusion and resistivity, basic plasma kinetic theory, and wave-particle interactions. Prerequisite: 405 or equivalent or permission of instructor. Offered: jointly with A A 556; Sp.

GPYS 538 Advanced Space Plasma Physics (3) *Parks* Formation by the interaction of solar wind with geomagnetic field. Trapped particles. Electromagnetic waves in anisotropic plasma. Dynamic disturbances and plasma instabilities. Prerequisite: 405 or permission of instructor. Offered: A.

GPYS 539 Kinetic Theory and Simulation of Space Plasmas (3) *Winglee* Wave-particle interactions in space plasmas. Generation of different wave modes, electrostatic and electromagnetic, Langmuir waves to Alfvén waves. Beam, Weibel, and maser instabilities, heavy ion interactions. Particle simulations, electrostatic and electromagnetic, for non-linear wave evolution and particle heating. Offered: W.

GPYS 540 Observational Seismology (1, max. 18) *Creager, Crosson, Malone, Qamar* Quarterly research themes introduce students to a variety of digital and analog seismograms and techniques for their interpretation. Students present results of short investigations in an informal seminar setting. Credit/no credit only. Prerequisite: 402 or permission of instructor. Offered: AWSp.

GPYS 541, 542 Theoretical Seismology I, II (3, 3) *Creager, Crosson, Smith* Advanced theoretical seismology. Attenuation and physical dispersion. Waves in anisotropic media. Moment-tensor source representation. Lamb's problem. Waves in stratified media: propagator methods, asymptotic ray theory, WKBJ seismograms. Inverse methods and analysis of seismological data. Prerequisites: 401, 402, and PHYS 424, or permission of instructor for 541; 541 for 542. Offered: even years; Sp, A.

GPYS 543 Low-Frequency Seismology (3) *Creager* Represent seismic displacement field, including surface and body waves, as superposition of normal modes. Rigorous development of equations of motion, their solution, energy integrals, Rayleigh's Principle, perturbation theory, attenuation, and excitation formulae. Moment-tensor representation of seismic sources. Prerequisites: 401, 402, and PHYS 424 or permission of instructor. Offered: odd years; Sp.

GPYS 555 Planetary Atmospheres (3) *Leovy* Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all planetary atmospheres; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar-system objects in the context of comparative planetology. Offered: jointly with ASTR 555/ATM S 555; even years; A.

GPYS 556 Planetary Surfaces (3) *Adams* Comparison of surface processes and conditions on Mercury, Venus, Earth, moon, Mars, asteroids, and satellites of the great planets. Emphasis on understanding how and why planetary surfaces differ from one another and the implied course of solar-system evolution. Analysis of data from earth-based telescopes and manned and unmanned space missions. Offered: jointly with ASTR 556/GEOL 556; odd years; Sp.

GPYS 557 Origin of the Solar System (3) *Brownlee* Nebular and nonnebular theories of solar system origin; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; the physical and chemical evidence upon which the ideas concerning

the origin of the solar system are based. Offered: jointly with ASTR 557/GEOL 557; W.

GP HYS 561, 562 Computational Methods and Modeling in Geophysics I, II (3, 3) *Winglee* Solution of complex dispersion equations including multiple root finding. Data analysis, fitting, smoothing, fast integration. Ray tracing and particle tracking in 2-D and 3-D. Computer simulation of fluid interactions, unmagnetized and magnetized, compressible and incompressible, and flow around objects. Offered: W, Sp.

GP HYS 563 Geophysical Data Collection and Analysis (3) *Crosson* Theory and practical application of data collection and analysis applied to geophysical problems. Digital processing of signals; filtering and spectral analysis. Laboratory sessions include problem solving on computer-based processing system. Offered: A.

GP HYS 564 Geophysical Inverse Theory (3) *Booker* Introduction to the mathematical techniques for estimating properties of physical systems, such as the earth or atmosphere, from data that is insufficient for a precise specification of the system. Emphasis is on the concept of the resolving power of data sets. The ideas developed are quite general and have a wide range of applicability in the field of data interpretation. Prerequisites: 563 and permission of instructor. Offered: odd years; Sp.

GP HYS 571 Geodynamics (3) Advanced study of various aspects of the dynamics of the solid Earth. Topics may include plate tectonics, mantle convection, rotational dynamics, post-glacial rebound, fault mechanics, and geodetic measurement of crustal deformation. Offered: odd years; A.

GP HYS 572 Geomagnetism (3) *Merrill* Advanced aspects of earth magnetism intended for specialists in this field. Extensive discussion of origin theories and their implications; physical basis and theories of magnetism in rocks; paleomagnetic techniques and results. Prerequisite: permission of instructor. Offered: even years.

GP HYS 573 Mineral Physics (3) *Brown, Merrill* Applications of solid-state physics to various geophysical problems. Topics vary, but usually include the thermal properties of relevant geophysical materials, the equation of state for the earth's mantle and core, defects in solids and their roles in tectonophysics. Prerequisite: permission of instructor. Offered: alternate years; W.

GP HYS 574 Electromagnetic and Potential Field Methods (3) Development of equations of electromagnetic fields in conducting media. Solution of forward and inverse problems with natural and controlled sources: magnetotelluric and related methods. Includes the special case of static fields: DC resistivity, gravity, and magnetic interpretation. Prerequisites: 403 or 503, 563 and PHYS 323 or permission of instructor. Offered: even years W.

GP HYS 575 Physics and Chemistry of the Earth's Interior (3) *Brown, Creager, Irving, Merrill* Emphasizes current issues in global tectonics and mantle dynamics. Examples include global seismic tomography and its bearing on geodynamics, the fate of subducted lithosphere and geochemical constraints on mantle convection. Prerequisite: permission of instructor. Offered: jointly with GEOL 575; A.

GP HYS 580 Special Topics in Geophysics (2-6, max. 12) Intensive treatment of a selected topic in geophysics presented by lectures or seminars for students in geophysics and related special fields. Subject is selected from all areas in geophysics and varies from year to year. Prerequisite: permission of instructor. Offered: AWSp.

GP HYS 600 Independent Study or Research (*) Offered: AWSpS.

GP HYS 700 Master's Thesis (*) Offered: AWSpS.

GP HYS 800 Doctoral Dissertation (*) Offered: AWSpS.

Germanics

340C Denny

The Department of Germanics is concerned with the language, literature, and civilization of the German-speaking countries, with the role of their history, literature, and philosophy in Western civilization, and with linguistic analysis, especially historic, of the Germanic languages. The department offers several courses conducted in English on well-known authors and topics, designed especially for the nonmajor.

Undergraduate Program

Adviser
Hellmut Ammerlahn
331 Denny

Bachelor of Arts

Major Requirements

German Language and Literature: 53 credits: (1) 15 credits to include: 311; 312; 322 or 323; (2) 15 credits from the group 411, 412, 421, 422, or 423; (3) one course from 333, 334, 401, 403; (4) 20 credits in upper-division Germanics (which may include 210, but not more than 4 credits of 395 and/or 396). Specialization in linguistics: Students must take 451 and 452 as part of the 53 credits and may, with the adviser's permission, count relevant courses outside Germanics among electives.

German Area Studies: 50 credits: (1) 15 credits to include 322; 323; 311 or 312; (2) 15 credits from the group 210, 411, 412, 421, 422, 423; (3) 20 credits in upper-division Germanics and/or, with the permission of the adviser, courses relevant to German culture and civilization offered by other departments. Not more than 4 credits of 395 and/or 396 may be counted.

For both options above, a grade of at least 2.0 must be earned in every upper-division German course; a 2.50 GPA must be maintained in these courses.

Minor

Minor Requirements

Minimum 30 credits from one of the following three areas:

Area Studies: GERMAN 322 and 323; 311 or 312; at least one 300-level Germanics course offered in English (210 also accepted); at least 10 upper-division elective credits in Germanics or other related courses.

Language and Literature: GERMAN 311 and 312; 322 or 323; at least one upper-division language course beyond 302; at least 12 elective credits in upper-division Germanics courses.

Linguistics: GERMAN 451 and 452; at least two courses beyond 302 in the language series; one course from 311, 312, 322, or 323; at least 9 upper-division elective credits in Germanics or other departments offering linguistics.

Graduate Program

Jane K. Brown, Graduate Program Coordinator

The Department of Germanics offers a closely integrated program leading to the Master of Arts and to the Doctor of Philosophy degrees. The doctoral curriculum serves the needs of the future professors at universities

and colleges, stressing scholarship and research. The master's curriculum requires a minimum of 40 credits, a final comprehensive examination, and a master's thesis or two papers. The study period of the doctoral program is two years (minimum number of post-master's credits is 60). The completion of the necessary course work is followed by general written and oral examinations. A third doctoral year is reserved for the writing of the dissertation.

The M.A. and Ph.D. programs concentrate on German literature, civilization, and philosophical traditions, with an option to include Germanic linguistics and courses outside the department. The doctoral dissertation must be an original contribution to scholarship and must demonstrate mastery of the pertinent methods of investigation.

The Department of Germanics also participates in the joint-doctoral program in literature and critical theory. Study in this program leads to a Ph.D. in Germanics and Critical Theory. For details see the program description under Comparative Literature.

Special Requirements

Aspirants for advanced degrees in German must have the equivalent of an undergraduate major in German. A reading knowledge of one foreign language (usually German) is a prerequisite for the M.A. degree. Reading knowledge of a second language is required before the student is admitted to the Ph.D. General Examination. The languages chosen are subject to approval by the department.

Financial Aid

A limited number of teaching assistantships are available. The teaching load consists of a five-hour course on the first- or second-year level. The teaching assistants are supervised by experienced faculty members.

Faculty

Chair

Richard T. Gray

Professors

Behler, Diana I. * 1971; MA, 1966, PhD, 1970, University of Washington; romanticism, nineteenth century, comparative literature.

Behler, Ernst H. * 1965; PhD, 1951, University of Munich (Germany); romanticism, literary theory, history of criticism.

Brown, Jane K. * 1988; PhD, 1971, Yale University; seventeenth, eighteenth and nineteenth century, comparative literature.

Gray, Richard T. * 1991; PhD, 1981, University of Virginia; eighteenth, nineteenth and early twentieth-century literature, literary sociology, critical theory.

Hertling, Gunter H. * 1961; PhD, 1963, University of California (Berkeley); eighteenth- and nineteenth-century literature.

Hruby, Antonin F. * 1961, (Emeritus); PhD, 1946, Charles University (Czechoslovakia); medieval literature, comparative literature.

Jaeger, C. Stephen * 1985; PhD, 1970, University of California (Berkeley); medieval German and Latin literature, medieval intellectual history, comparative literature.

Ray, William H. 1950, (Emeritus); PhD, 1937, University of Frankfurt (Germany); nineteenth and twentieth century German literature.

Voyles, Joseph B. * 1965; PhD, 1965, Indiana University; Germanics and linguistics.

Associate Professors

Ammerlahn, Hellmut H. * 1968; MA, 1960, University of Vermont; PhD, 1965, University of Texas (Austin); Goethe, eighteenth to early twentieth century, comparative literature.

Bansleben, Manfred * 1988; PhD, 1979, University of Vienna (Austria); German language and methodology, history, culture studies.

Barrack, Charles M. * 1968; MA, 1966, PhD, 1969, University of Washington; Germanic linguistics.

McLean, Sammy K. * 1967, (Emeritus); PhD, 1963, University of Michigan; Western drama, twentieth-century poetry, psychoanalysis and literature, translation.

Rabura, Horst M. * 1961, (Emeritus); MA, 1966, University of Washington; German language and methodology.

Sauerlander, Anne M. 1971, (Emeritus); MA, 1930, State University of New York (Buffalo); PhD, 1936, Cornell University; Germanics.

Wilke, Sabine * 1988; PhD, 1986, University of Mainz (Germany); critical theory, contemporary theater and film, literature and philosophy.

Assistant Professors

Ostmeier, Dorothee 1993; PhD, 1993, Johns Hopkins University; eighteenth and twentieth century literature and philosophy, critical theory, German studies.

Pruttl, Brigitte * 1991; DPhil, 1988, University of Graz; eighteenth-century literature, twentieth-century Austrian literature, theory and history of drama.

Wiedmer, Caroline 1993; PhD, 1994, Princeton University; German and Swiss literatures of the twentieth-century, Holocaust, film, cultural studies.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Lists of names under various literature courses indicate the kind of material covered but are neither comprehensive nor exclusive of other significant figures. Detailed descriptions of courses are published by the Department of Germanics prior to registration each quarter.

GERMAN 100 Intensive First-Year German (15) Accelerated first-year German. Speaking and listening. Secondary objectives are reading and writing. Offered: S.

GERMAN 101, 102, 103 First-Year German (5, 5, 5) The methods and objectives are primarily audiolingual, with emphasis on speaking and listening. Secondary objectives are reading and writing. (See credit note following 104.) Offered: AWS, AWSp, AWSPs.

GERMAN 104 Individualized First-Year German (1-15) Individualized approach to elementary German instruction. Students progress at their own pace. Credits vary. Depending upon amount of material mastered, any number of credits up to 15 may be earned per quarter. Credit/no credit only.

Credit Restrictions: Students may receive credit for only one course in each of the following: 101, 111, and the first 5 credits of 104; 102, 111, and the second 5 credits of 104; 103 and the last 5 credits of 104. They may, however, receive credit for courses in different first-year sequences if the courses are taken in progressively more advanced order (e.g., the first 5 credits of 104 followed by 102 and 103). 100 is the equivalent of 101, 102, 103, or 15 credits of 104.

GERMAN 111 Basic German Review (5) Combines in one quarter the contents of 101 and 102. Designed for students with background in German who however feel unprepared to take 102. Highly motivated beginners are also encouraged to take the course. Offered: A.

GERMAN 121, 122 First-Year Reading German (5, 5) Special beginning course devoted exclusively to the reading objective; 122 continuation of 121. Offered: AS, WS.

GERMAN 150 Conversational German Through Films (2, max. 6) Conversational practice in small groups based on films. Because series progresses through the year, beginners may enroll only Autumn Quarter. May be taken concurrently with other Germanics courses. Cannot be taken for credit if 250 previously taken. Offered: AWSp.

GERMAN 200 Intensive Second-Year German (15) VLP Accelerated second-year German. Systematic review of German grammar. Intensive practice in conversation, reading and writing. Prerequisite: 103 or equivalent. Offered: S.

GERMAN 201, 202, 203 Second-Year German (5, 5, 5) VLP Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Prerequisites: 103 for 201; 201 for 202; 202 for 203; or equivalent. Offered: AWSp, AWSp, AWSp.

GERMAN 221 The German Express: Second Year (10) VLP Intensive version of 201 and 202. Stresses development of reading and speaking skills. Limited to students who have demonstrated exceptional skills in first year German. Offered: A.

GERMAN 230 Conversational German (5) VLP Intensive conversational German. Prerequisite: 103 or equivalent. Offered: S.

GERMAN 250 Advanced Conversational German Through Films (2, max. 6) VLP Conversational practice in small groups based on films. May be taken concurrently with other Germanics courses. Offered: AWSp.

GERMAN 293 Introduction to Contemporary German Culture (5) VLP/ISS Introduction to culture of today's German-speaking world through readings from various media and discussion of diverse manifestations of both high and popular culture, its underlying beliefs and values, and its institutions and historical background. Readings and discussions in English.

GERMAN 299 Supervised Study (1-5, max. 10) VLP Prerequisite: permission of department adviser.

GERMAN 300 Studies in Germanics (3/5) VLP Topics or figures of German literature or language. German texts. Prerequisite: 15 credits in second-year German or equivalent.

GERMAN 301, 302, 303 Conversation and Writing Skills (3-6; 3-5; 3-5) VLP Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Prerequisite: 203 or diagnostic exam. Offered: AW, WSp, Sp.

GERMAN 311 Critical Approaches to German Literature (3-5) VLP Introduction to literary terminology. Diverse interpretive strategies, ranging from close reading to biographical and sociological approaches. Characteristics of different genres (poetry, prose, drama). Readings primarily from twentieth-century literature. Prerequisite: second-year German or equivalent or permission of instructor. Offered: A.

GERMAN 312 Historical Approaches to German Literature (3-5) VLP German literature from the Middle Ages to the present: Medieval Courtly period, Baroque, Enlightenment, Sturm und Drang, Classicism, Romanticism, Realism, Neoromanticism, Expres-

sionism. Prerequisite: reading knowledge of German. Offered: W.

GERMAN 313 Major Figures of German Literature (3-5) VLP Focus on major figure such as Goethe, Schiller, Kleist, Fontane, Thomas Mann, Kafka. Emphasis on his/her cultural and sociopolitical contexts. Literary and nonliterary texts, including film, art, political, historical, and philosophical texts. Prerequisite: second-year German or equivalent or permission of instructor. Offered: Sp.

GERMAN 322 Introduction to German Studies (3-5) VLP German quest for national identity and the conflict of unity and division. Readings from literature, history, politics, and anthropology. Prerequisite: reading knowledge of German. Offered: W.

GERMAN 323 Institutions and Their Ideas (3-5) VLP/ISS Analysis of central institutions of contemporary Germany in their historical development. Prerequisite: reading knowledge of German. Offered: Sp.

GERMAN 333 Business German I (5) VLP Introduction to the language and practices of German business. Covers marketing, finance, accounting, economic theory, stock exchange, shipping, and production. Prerequisite: two years college-level German. Offered: A.

GERMAN 334 Business German 2 (5) VLP Introduction to the language and practices of German business. Covers industry, accounting, banking, and international trade. Prerequisite: 333 or equivalent. Offered: W.

GERMAN 395 Proctoring of First-Year German Film Course (1-2, max. 6) VLP Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in 150. Leaders may participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in 3 quarters. Credit/no credit only. Offered: AWSp.

GERMAN 396 Proctoring of Second-Year German Film Course (1-2, max. 6) VLP Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in 250. Leaders may participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in 3 quarters. Credit/no credit only. Offered: AWSp.

GERMAN 397 Foreign Studies in German Literature (1-6, max. 15) VLP

GERMAN 398 Foreign Studies in German Language (1-6, max. 15) VLP

GERMAN 399 Foreign Studies in German Culture (1-6, max. 15) VLP/ISS

GERMAN 401, 402, 403 Advanced Writing and Conversation (3-5; 3-5; 3-5) VLP Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Prerequisite: 303 or diagnostic exam. Offered: AWSp.

GERMAN 411 Studies in Medieval Literature and Culture (5) VLP Rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems.

GERMAN 412 Studies in Renaissance and Baroque Literature and Culture (5) VLP Rotating special topics in literature and culture of the Renaissance and Baroque, such as particular movements, authors, genres, themes, or problems.

GERMAN 421 Studies in Eighteenth-Century Literature and Culture (5) VLP Rotating special topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 422 Studies in Nineteenth-Century Literature and Culture (5) VLPA Rotating special topics in literature and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 423 Studies in Twentieth-Century Literature and Culture (5) VLPA Rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 444 Undergraduate Thesis in Germanics (5) VLPA Supervised research leading to the writing of a research thesis.

GERMAN 445 Undergraduate Honors Thesis in Germanics VLPA (5) Supervised research for honors students leading to the writing of an honors thesis.

GERMAN 451 Linguistic Analysis of German (3-5) VLPA Prerequisite: third-year German or permission of instructor. Offered: A.

GERMAN 452 History of the German Language (3-5) VLPA From early Germanic to the present. Prerequisite: third-year German or permission of instructor. Offered: W.

GERMAN 490 Contemporary German Literature (3-5) VLPA Interpretation of selected works by contemporary German authors.

GERMAN 493 Special Topics in German Culture (3-5) VLPA/I&S

GERMAN 494 Studies in German Poetry (3-5) VLPA Introduction to various methods of interpretation and to their practical application.

GERMAN 495 Proseminar in German Literature (3-5, max. 15) VLPA Special topics, the subject matter and depth of which are not included in other literature courses, arranged through consultation among students and faculty members. Prerequisite: 15 credits in third-year German or permission of instructor.

GERMAN 496 History of Germanic Philology (3-5) VLPA Introduction to the works of outstanding scholars in the field of Germanics.

GERMAN 497 Studies in German Literature (1-6, max. 15)

GERMAN 498 Studies in the German Language (1-6, max. 15)

GERMAN 499 Studies in German Culture (1-6, max. 15)

Courses in English

GERMAN 210 Classics of German Literature and Thought (5) VLPA Introduction to major figures of German culture from the Reformation to the present, their contribution to the intellectual life of the Western world. Luther, Kant, Goethe, Schopenhauer, Marx, Freud, Nietzsche, Kafka, Brecht, and Mann.

GERMAN 340 Friedrich Nietzsche in English (3-5) VLPA/I&S Analysis of Friedrich Nietzsche's chief works and the discussion of his position within modern German literature and thought.

GERMAN 341 Franz Kafka in English (3-5) VLPA Short stories and novels of Franz Kafka; emphasis on philosophical relevance and esthetic significance.

GERMAN 342 Thomas Mann in English (3-5) VLPA

GERMAN 345 Bertolt Brecht in English (3-5) VLPA Brecht's life and work, particularly his plays and writings on theatre, and some poems and short prose pieces to provide additional perspective on his life and work as a whole. The development of his writing and of his ideas and attitudes.

GERMAN 346 The Contemporary German Novel in English (3-5) VLPA Major novels of the postwar

period (1945 to present), discussed in their historical context. Contrasts between West and East German writers, such as Mann, Frisch, Grass, Boll, Lenz, Wolf, and Plenzdorf.

GERMAN 349 Goethe in English (3-5) VLPA Selected major works (especially *Faust*) of Goethe, whose literary, philosophical, and scientific achievements are examined as integral parts of his quest for meaning, wholeness, and universality, and whose impact on Western thinking is traced up to Thomas Mann and C. G. Jung.

GERMAN 350 The German Drama in English (3-5) VLPA German drama from the eighteenth to the twentieth centuries. German history and culture as reflected in the plays. Discussion of major themes.

GERMAN 351 Vienna 1900 in English (3-5) VLPA/I&S Interdisciplinary study of Vienna at the turn of the century. Discussion of literary texts with emphasis on other intellectual and cultural trends of this very rich and complex period.

GERMAN 352 Literature and Society in Weimar and National Socialist Germany in English (3-5) VLPA/I&S Literature, theater, and film, with adjunct consideration of art and architecture, in relation to the German social and cultural situation circa 1918 to circa 1947.

GERMAN 353 Postwar Germany (3-5) VLPA/I&S Postwar development and present-day character of cultural, social, and political life in Germany. Readings include literary and nonliterary texts devoted to culture and everyday life.

GERMAN 355 German Literature and Film in English (3-5) VLPA Relationship between literature and film in the German tradition. Content varies; focus may be on a particular time period, director, or theme. Special attention paid to critical and analytical skills required for interpreting the two mediums.

GERMAN 356 Pagan Germany: Myth, Religion, Folklore in English (3-5) VLPA/I&S *Jaeger* History and culture of the German peoples before and during the conversion to Christianity. Readings include Tacitus's *Germania* and other historical sources, *Beowulf*, *Nibelungenlied*, Grimm's Fairy Tales, and German legends. Treatment of archaeological finds and a variety of materials that bear on religion, prophecy, magic, folk customs, and festivals.

GERMAN 360 Women in German Literature in English (5) VLPA Investigates the changing social roles of women in German society on the example of various literary texts from different periods.

GERMAN 390 Germanic Studies in English (3/5, max. 15) VLPA Topics or figures of German literature or language.

Courses for Graduates Only

GERMAN 500 Literary Theory, Methodology, and Bibliography (5) Historical survey and analysis of criticism (*Methodengeschichte*) and modern trends in contemporary theory. Methods of research and bibliography, as well as theoretical aspects of practical interpretation.

GERMAN 501 Proseminar in Methods and Writing (5) Introduction to research methods, presentation of research, scholarly writing, and general poetological issues. Each year a different special topic is chosen as a focus for students' research in the course.

GERMAN 503 Contemporary German Literature (3-5, max. 15) Seminar analyzing the esthetic movements and thought of contemporary West, as well as East German literature, the social and political problems dealt with in the works of representative authors, and major experimental concepts. Some previous exposure to the German literature and civilization after 1945 is expected.

GERMAN 504 Special Studies in Literary Criticism and Theory (3-5, max. 15) Literary criticism and theory, focusing on special topics proposed by the instructor. Taught in English. Prerequisite: 500 or equivalent.

GERMAN 510 Studies in Medieval Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems.

GERMAN 511 Studies in Renaissance and Baroque Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the Renaissance and Baroque, such as particular movements, authors, genres, themes, or problems.

GERMAN 512 Studies in Eighteenth-Century Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 514 Studies in Nineteenth-Century Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 516 Studies in Twentieth-Century Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 518 Foreign Language Teaching Methodology (2) *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with ASIAN 518/NEAR E 518/SCAND 518/SLAV 518.

GERMAN 525 Seminar in Romanticism (3-5, max. 15)

GERMAN 526 Seminar in Nineteenth-Century Drama (3-5, max. 15)

GERMAN 527 Seminar in Nineteenth-Century Prose (3-5, max. 15)

GERMAN 528 Nineteenth-Century Poetry (3-5, max. 15) Representative selections from Hölderlin, the late Goethe, and from prevalent trends in nineteenth-century poetry, such as romanticism, "Young Germany," poetic realism, and the experimental poetry of naturalism.

GERMAN 529 Studies in Literature 1870-1920 (5, max. 15) Seminar on rotating special topics drawn from the period 1870-1920, such as particular movements, authors, genres, themes, or problems.

GERMAN 533 Seminar in Eighteenth-Century Literature (3-5, max. 15) Study of one or more of the literary movements: Enlightenment, sentimentalism, anacreontics, storm and stress, classicism, early romanticism, and works by principal authors such as Gothsched, Bodmer, Gellert, Lessing, Wieland, Klopstock, Herder, Lenz, Goethe, Schiller, Jean Paul.

GERMAN 534 Storm and Stress (3-5, max. 15) Extensive investigation of poetological and esthetic concepts advanced by initiators and exponents of German storm and stress. Analyses of narrative and dramatic works of storm and stress reveal reflections and implementations of the new theoretical concepts.

GERMAN 535 Classicism: Goethe, Schiller (3-5, max. 15)

GERMAN 537 Studies in Literature 1770-1830 (5, max. 15) Seminar on rotating special topics drawn from the period 1770-1830, such as particular movements, authors, genres, themes, or problems.

GERMAN 540 Twentieth-Century Poetry (3-5, max. 15) Development of German poetry from Rilke, Hofmannsthal, and George through Trakl, Benn, the Expressionists and the Dadaists, Brecht, and Enzensberger, to such contemporaries as Eich, Heissenbüttel, the concrete poets, Celan, and Bachmann.

GERMAN 541 Twentieth-Century German Drama (3-5, max. 15) Selection from modern German drama representative of the concern with the human condition, of social criticism, and of experimentation with the new dramatic forms.

GERMAN 542 Twentieth-Century Prose (3-5, max. 15) Selected modern German novels, short novels, and short stories by representative authors dealing with the social and political problems of Germany as well as with individual problems of existence and identity.

GERMAN 550 Gothic (3-5)

GERMAN 551 Seminar in Germanic Philology and Linguistics (3-5, max. 15) Topics vary. Prerequisites: basic knowledge of German and at least one elementary linguistics course.

GERMAN 552 Old High German (3-5)

GERMAN 555 Old Saxon (3-5)

GERMAN 556 Middle High German (3-5)

GERMAN 558 Middle High German Literature (3-5)

GERMAN 560 Modern Dialects (3-5)

GERMAN 565 Seminar in Courtly Epic (3-5) Aspects and methods of literary analysis pertaining to the study of medieval courtly epics.

GERMAN 566 Late Middle High German Narrative (3-5)

GERMAN 567 Minnesang (3-5) In-depth study of medieval German lyrics in the context of German and European literary and intellectual development. Poems of the period from Kurenberger through Walther are analyzed with stress on grammatical, formal, stylistic, and ideological interpretation. Prerequisite: adequate knowledge of Middle High German.

GERMAN 568 Seminar in Heroic Epic (5) Literary and historic problems of the German heroic epic, with special emphasis on the Nibelungenlied and the Dietrichsepik.

GERMAN 575 Teaching of German Literature and Civilization (3) Teaching of German language and literature on the advanced level in secondary schools and colleges. Credit/no credit only.

GERMAN 576 Modern Methods and Materials in Teaching German (3) The audiolingual method and its application; current developments in foreign-language teaching; evaluation of teaching materials. Credit/no credit only.

GERMAN 577 Principles of Second Language Learning (2)

GERMAN 580 Seminar in German Literature (3/5, max. 15) Open topics seminar with varying content.

GERMAN 581 Seminar in Poetry (3/5, max. 15) Open topics seminar with varying content.

GERMAN 582 Seminar in Drama (3/5, max. 15) Open topics seminar with varying content.

GERMAN 583 Seminar in Prose (3/5, max. 15) Open topics seminar with varying content.

GERMAN 590 Philosophical Issues in German Culture (5, max. 15) Seminar on rotating special topics dealing with the impact of particular thinkers, movements, or philosophical problems in German culture.

GERMAN 591 Studies in German Intellectual History (5, max. 15) Seminar on rotating special topics dealing with interactions of history, literature, and culture in the German tradition.

GERMAN 592 Cultural Studies (5, max. 15) Seminar on rotating special topics dealing with periods, themes, or particular problems in German life and culture.

GERMAN 700 Master's Thesis (*)

GERMAN 800 Doctoral Dissertation (*)

History

315 Smith

History undertakes the study of human affairs in a manner that seeks to understand change and development rather than the state of things at a given moment, taking into account societies in diverse parts of the world from the earliest times for which written records exist to the present.

Undergraduate Program

Advisers
203 Smith

Bachelor of Arts

Admission Requirements: 2.00 overall GPA; 10 credits in history with minimum 2.50 GPA; 10 credits composition/writing with minimum 2.0 grade in each course. For the history and science emphasis, HIST 311 and 312 constitute the 10 required credits of history with minimum 2.50 GPA; 10 credits of college-level science are also required.

Major Requirements

History: 55 credits in history with minimum GPA of 2.25 in all history courses and minimum 2.0 grade in all history courses taken to fulfill requirements for the major. At least 5 credits each of ancient, medieval, modern European, and United States history (HIST 111, 112, 113, and HSTAA 201 or upper-division courses in the same subject areas; adviser must approve substitutions for the basic courses) plus an additional 5 credits in the history of some area or nation outside Europe, the United States, and Canada. At least 25 upper-division credits. One undergraduate seminar or colloquium is required, with a major paper. Beyond the required subjects, the student may or may not specialize, depending upon personal interests and career plans. In addition to all courses with the prefix HIST, the history major may include approved courses offered outside the Department of History. A short list of these courses is maintained by undergraduate advisers. Transfer students are required to complete a minimum of 25 upper-division credits in history taken in residence at the UW.

History and Science Emphasis: 55 credits in history with minimum GPA of 2.25 in all history courses and minimum 2.0 grade in all history courses taken to fulfill requirements for the major. Requirements include 15 credits of HIST 311, 312 and one additional approved course in the history of science, technology, and medicine; 5 credits for junior colloquium; 10 credits for senior thesis; of the remaining 25 credits in history at least 20 must be in courses outside the history of science and must include at least one course each in European history, American history, and an area or nation outside Europe, the United States, and Canada; 35 credits of Natural World courses to include at least 20 credits above the 100 level in the same Natural World department. Natural World courses are to be chosen from astronomy, atmospheric sciences, biology, botany, chemistry, computer science, environmental studies, geological sciences, mathematics, physics, psychology, and zoology.

ogy, botany, chemistry, computer science, environmental studies, geological sciences, mathematics, physics, psychology, and zoology.

Minors

Minor Requirements

History: 30 credits of history, of which 20 must be upper-division, with a minimum grade of 2.0 in each course applied toward the minor. A minimum of 15 of the 20 upper-division credits must be completed in residence at the UW.

History of Science: 25 credits, including HIST 311, 312, 390, and 490; plus one course from HIST 215, 310, 313, 315, 316, 317, 318, 412, 498 (when topic is relevant), MHE 401, 422, 424. 2.0 minimum grade required in each course.

Graduate Program

Raymond A. Jonas, Graduate Program Coordinator

The Department of History offers graduate training leading to the Master of Arts and Doctor of Philosophy degrees in a large number of fields within the discipline. Students in the programs prepare for careers as college teachers who combine teaching with scholarship and professional writing. A few graduates enter government service, college administration, or publishing. The M.A. program is normally completed in four or five full-time academic quarters or their equivalent. The Ph.D. program requires at least three years of full-time work beyond the M.A. degree. Graduate training at both levels includes (1) course work and independent study leading to examinations in special historical fields, and (2) sustained investigation and interpretation of historical problems in seminars involving the writing of essays. A dissertation must be prepared for the Ph.D.

Special Requirements

Admission to the graduate program requires a sound undergraduate major in history or in one of the basic disciplines related to history completed within a college of liberal arts and sciences. The department also requires evidence of the applicant's ability to write cogently and lucidly and to interpret historical data.

Financial Aid

Beginning graduate students may qualify for a limited number of fellowships, readerships, and work study assistantships. Students with, or who expect to receive, the M.A. degree by the time they begin their duties may apply for teaching assistantships and may, with continued satisfactory scholarly progress, expect reappointment for a total of three years, provided adequate funds are available.

Professors

Alden, Dauril * 1959; MA, 1952; PhD, 1959, University of California (Berkeley); Latin American history, comparative colonial history.

Bacharach, Jere L. * 1967; MA, 1962, Harvard University; PhD, 1967, University of Michigan; history of the Middle East, Islamic.

Benson, Keith R. * 1981, (Adjunct); MA, 1973, PhD, 1979, Oregon State University; history of modern American biology, marine biology, and evolutionary biology.

Bergquist, Charles W. * 1989; MA, 1968, PhD, 1973, Stanford University; modern Latin American history, comparative labor history, Third World development.

Bridgman, Jon M. * 1961; PhD, 1960, Stanford University; modern European history (especially military).

Burke, Robert E. * 1957, (Emeritus); PhD, 1950, University of California (Berkeley); American political and social history in the twentieth century.

Butow, Robert J. C. * 1960, (Emeritus); PhD, 1953, Stanford University; East Asian diplomatic history.

Conlon, Frank F. * 1968; PhD, 1969, University of Minnesota; history of India.

Ellison, Herbert J. * 1968; PhD, 1955, University of London (UK); modern Russian history.

Ferrill, Arthur L. * 1964; PhD, 1964, University of Illinois; Ancient Rome, military history.

Findlay, John M. * 1987; PhD, 1982, University of California (Berkeley); history of the American West.

Fowler, Wilton B. * 1969; PhD, 1966, Yale University; American history (especially diplomatic).

Gil, Carlos * 1974; PhD, 1975, University of California (Los Angeles); Latin America and history of the Chicano people.

Griffiths, Gordon 1959, (Emeritus); PhD, 1942, University of California (Berkeley); MA, 1946, Oxford University (UK); Renaissance and Reformation.

Hankins, Thomas L. * 1964; PhD, 1964, Cornell University; history of science.

Hanley, Susan B. * 1970, (Adjunct); PhD, 1971, Yale University; premodern Japan.

Johnson, Richard R. * 1972; PhD, 1972, University of California (Berkeley); United States colonial history.

Kirkendall, Richard S. * 1988; PhD, 1958, University of Wisconsin; recent United States history.

Lebsock, Suzanne D. * 1995; MA, 1973, PhD, 1977, University of Virginia; history of women, American social history, history of the South.

Levy, Fred J. * 1960; PhD, 1960, Harvard University; history of England in the sixteenth- and seventeenth-centuries, English historiography.

McCormick, Richard L. 1995; PhD, 1976, Yale University; U.S. political history.

Palais, James B. * 1968; PhD, 1968, Harvard University; modern Korean history.

Pease, Otis A. * 1966, (Emeritus); PhD, 1954, Yale University; United States in the twentieth century.

Pressly, Thomas J. * 1949, (Emeritus); PhD, 1949, Harvard University; nineteenth-century U.S., Civil War and Reconstruction.

Pyle, Kenneth B. * 1964; PhD, 1965, Johns Hopkins University; modern Japanese history.

Ramet, Sabrina P. * 1983, (Adjunct); PhD, 1981, University of California (Los Angeles); politics and history of former Yugoslavia, East European religion and culture.

Rorabaugh, William J. * 1976; PhD, 1976, University of California (Berkeley); United States social history.

Saum, Lewis O. * 1965; PhD, 1962, University of Missouri; American intellectual history.

Stacey, Robert C. * 1988; PhD, 1983, Yale University; medieval England, medieval Judaism, political and legal history.

Sugar, Peter * 1959, (Emeritus); PhD, 1959, Princeton University; political and economic history of eastern Europe and Near East since the eighteenth-century.

Sullivan, Woodruff T. III * 1973, (Adjunct); PhD, 1971, University of Maryland; radio astronomy, galactic and extragalactic structure, history of astronomy.

Thomas, Carol G. * 1964; PhD, 1965, Northwestern University; ancient Greece.

Toews, John E. * 1979; PhD, 1973, Harvard University; modern European intellectual history.

Ullman, Joan Connolly * 1966, (Emeritus); PhD, 1963, Bryn Mawr College; modern Spain.

Walter, John C. * 1989, (Adjunct); PhD, 1972, University of Maine; African American history, American women's history, the New Deal.

White, Richard * 1990; PhD, 1975, University of Washington; American West, American Indian, environmental history.

Whorton, James C. * 1970, (Adjunct); PhD, 1969, University of Wisconsin; history of American medicine, public health, alternative healing, pharmacy and biochemistry.

Williams, Michael A. * 1976, (Adjunct); PhD, 1977, Harvard University; early Christianity and religions of antiquity.

Associate Professors

Barlow, Tani E. 1994, (Adjunct); MA, 1979, PhD, 1985, University of California (Davis); gender politics, modernity, women in China.

Behlmer, George K. * 1979; MA, 1972, PhD, 1977, Stanford University; modern English history.

Felak, James R. * 1989; PhD, 1989, Indiana University; modern East European history.

Gamboa, Erasmo * 1976, (Adjunct); MA, 1973, PhD, 1984, University of Washington; history, Chicano experience, Pacific Northwest.

Glenn, Susan A. * 1993; PhD, 1983, University of California (Berkeley); twentieth-century U.S. social history including women's history, immigration, labor, popular culture.

Gowing, Alain M. * 1988, (Adjunct); PhD, 1988, Bryn Mawr College; Latin and Greek historiography, Latin literature of the Empire.

Gregory, James N. * 1993; PhD, 1983, University of California (Berkeley); U.S. social and political history since 1865, labor, the West.

Guy, R. Kent * 1980; PhD, 1981, Harvard University; modern Chinese history.

Hevly, Bruce W. * 1989; PhD, 1987, Johns Hopkins University; history of technology and history of modern physics.

Jonas, Raymond A. * 1985; PhD, 1985, University of California (Berkeley); modern France.

Kieval, Hillel J. * 1985; PhD, 1981, Harvard University; modern Jewish history, modern European history (Central and Eastern Europe).

Leiren, Terje I. * 1977, (Adjunct); PhD, 1978, North Texas State University; Scandinavian history, nationalism, immigration, ethnicity, Norwegian language.

McKenzie, Robert T. * 1988; PhD, 1988, Vanderbilt University; nineteenth-century U.S., U.S. economic.

O'Neil, Mary R. * 1983; PhD, 1982, Stanford University; Renaissance/Reformation, early modern Europe, social history, Italy before 1700.

Sears, Laurie J. * 1989; PhD, 1986, University of Wisconsin; Southeast Asian social and cultural history.

Stacey, Robin C. * 1988; PhD, 1986, Yale University; early and high medieval history, tribal law, Celtic/Anglo-Saxon literature, heresy.

Waugh, Daniel Clarke * 1972; PhD, 1972, Harvard University; medieval Russian history.

Wineburg, Samuel S. * 1989, (Adjunct); PhD, 1990, Stanford University; educational psychology, cognitive psychology of school subjects, historical cognition.

Yee, Shirley J. * 1988, (Adjunct); PhD, 1987, Ohio State University; U.S. women's history, African-American history, nineteenth-century U.S. social history.

Assistant Professors

Poiger, Uta G. 1995; MA, 1990, PhD, 1995, Brown University; modern German history.

Young, Glennys J. * 1992; PhD, 1989, University of California (Berkeley); late Imperial and early Soviet Russia.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Upper-division courses (300 and 400 levels) in the Department of History do not generally require prerequisites. Most 400-level courses deal with a single nation during a limited period. The 300-level courses deal with broader subjects at a relatively advanced level. Both are primarily for juniors and seniors, but they are open to freshmen and sophomores with an interest or background in the subject of the course.

History

HIST 111 The Ancient World (5) I&S Origins of Western civilization to the fall of Rome.

HIST 112 The Medieval World (5) I&S Political, economic, social, and intellectual history of the Middle Ages. Cannot be taken for credit toward a history major if HISTAM 331 or 332 or 333 previously taken.

HIST 113 The Modern World (5) I&S Political, economic, social, and intellectual history of modern Europe. Cannot be taken for credit toward a history major if HISTEU 302 or 303 previously taken.

HIST 140 Russia from the Tenth Century to the Present (5) I&S - Waugh Russian political, social, and economic history from the tenth century to the present. Offered: jointly with SISRE 140.

HIST 192 The Historian as Detective (5) I&S Examples illustrate how "clues" from the past are used by historians to build inferential "cases"; collection, analysis, and interpretation of evidence as a historical method. Open to all students.

HIST 199 Foreign Study (3-5, max. 10) I&S Lower-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

HIST 204 Europe and America in the Era of the World Wars (5) I&S Bridgman Declining role of Europe in the world and rise of the United States from 1914 to 1945.

HIST 207 Introduction to Intellectual History (5) I&S Toews Ideas in historical context. Comparative and developmental analysis of Western conceptions of "community", from Plato to Freud. Offered: jointly with CHID 207.

HIST 211 Introduction to the History of Science (5) I&S Hankins, Hevly Introduction to major themes in the history of science. Investigation of historical and scientific methods through the study of particular historical cases.

HIST 215 The History of the Atomic Bomb (5) I&S Hankins History of the atomic bomb from the beginning of nuclear physics to the security hearing of J. Robert Oppenheimer. Includes a study of the scientific achievements that made the bomb possible, the deci-

sion to deploy the bomb, the moral misgivings of the scientists involved.

HIST 249 Introduction to Labor Studies (5) I&S Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with POL S 249/SOC 266.

HIST 250 The Jews in Western Civilization (5) I&S Kieval History of the Jews from late antiquity to the present. Examines the relationship between Jewish communities and the larger societies in which they are found.

HIST 261 Survey of the Muslim Near East (5) I&S Bacharach The Middle East (the Arab countries, Israel, Turkey, Iran, and Afghanistan) from the emergence of Islam in AD 622 to the present: culture, economics, politics.

HIST 283 Introduction to Women's History (5) I&S Yee Includes units on American, European, and Third World women that examine centers of women's activities (convents, women's clubs), women's place in male-dominated spheres (politics), women's impact on culture (health, arts), and the effect of larger changes on women's lives (technology, colonization). Offered: jointly with WOMEN 283.

HIST 294 Honors Historiography (5) I&S Levy Readings in the great historians, from the earliest time to the beginning of the twentieth century. Investigates how perception of the human past has altered our times.

HIST 307 History of Christianity (5) I&S Christian religion, including doctrine, practice, church organization, and culture, from the time of Jesus Christ to the present. No attempt to avoid the controversial aspects of the topic is made, but the necessity of founding argument on knowledge is stressed.

HIST 309 Marx and Nietzsche: The Assault on Bourgeois-Christian Civilization (5) I&S Toews Major dilemmas and conflicts of modern Western consciousness through historical analysis of Marx, Nietzsche, and the movements they spawned. Emphasis on the relationship between sociocultural change, biography, and ideological innovation. Recommended: 113 or 207.

HIST 310 Science and Religion in Historical Perspective (5) I&S Hankins Scientific and religious ideas have been two of the major forces shaping our modern view of the world. Often regarded as being in conflict, they can equally well be seen as complementary and interdependent. Study of the relationship between scientific and religious ideas with focus on particular episodes of history from ancient to modern times.

HIST 311 Science in Civilization: Antiquity to 1600 (5) I&S Hankins, Hevly From preclassical antiquity to the end of the Middle Ages, stressing the growth of scientific ideas, the cultural context in which they take shape, and their relationship to other movements of thought in the history of civilization.

HIST 312 Science in Civilization: Science in Modern Society (5) I&S Hankins Growth of modern science since the Renaissance, emphasizing the scientific revolution of the seventeenth century, the development of methodology, and the emergence of new fields of interest and new modes of thought.

HIST 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW Hankins, Hevly, Sullivan Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with ASTR 313.

HIST 314 The Psychoanalytic Revolution in Historical Perspective (5) I&S Toews Genesis and

evolution of Freudian theory in context of the crisis of liberal-bourgeois culture in central Europe and parallel developments in philosophy, literature, and social theory. Emergence and division of the psychoanalytic movement. Transformation of psychoanalysis as it was absorbed into British, French, and especially American cultural traditions. Recommended: 207 and 113 or HSTEU 303.

HIST 315 History of Technology to 1940 (5) I&S Hevly Technology since the Middle Ages, in its social and historical contexts. From the medieval foundations of metal working, its social consequences and the establishment of a class of engineering practitioners, to the transformation of American rural life, domestic technology, and industry before World War II.

HIST 318 History of American Science (5) I&S Benson, Hevly History of science in the United States, including migration of European science, development in colonial America, growth of an American scientific community, and expansion of American science in the twentieth century. Issues of scientific attitudes to the natural world, race, ethnicity, and gender are included.

HIST 335 The United States and Vietnam (5) I&S Fowler American involvement in Vietnam, including: the complex of negotiations; strategies and objectives of both sides; military, political, and economic operations of the United States; efforts at pacification; impact of Vietnam on American affairs.

HIST 345 War and Society (5) I&S Bridgman Analysis of the techniques of war from the Renaissance to the present with consideration of the social, political, and economic consequences of war in the Western world.

HIST 346 Images of War in History, Literature, and Media (5) VLPA/I&S Sears Explores images of war generated by historians, writers, artists, filmmakers, television producers, and journalists, analyzing the perspectives on war adopted by various observers to see what motivates their representations. Focuses on ways in which various media shape images of war and the effect of this shaping on human consciousness.

HIST 361 Slavery in History: A Comparative Study (5) I&S Bacharach Slavery as a universal historical phenomenon lending itself to a comparative analysis is studied in terms of its philosophical justifications, economic importance, and local practices. The following historical periods are surveyed: the ancient Near East, Greece, Rome, Islam, Africa, Latin America, and North America.

HIST 363 Wars in the Modern Near East (3) I&S Bacharach The Middle East, scene of some of the most significant military events in modern world history, with focus on the repercussions for participants in terms of political and psychological changes. Resident military specialists supplement the historical approach by analyzing the battles and wars on these terms.

HIST 370 History of the Expansion of Islam (5) I&S Bacharach, Conlon Comparative perspective on the expansion of the religion and community of Islam from its origins to the modern age. Patterns and processes of expansion, conversion, and social and cultural assimilation in a number of world regions (e.g., the Arab World, Iberia, Anatolia, West Africa, Iran, India, and Southeast Asia). Specific case studies of Islam in its regional setting (e.g., South Asia).

HIST 390 Colloquium in History and Science (5) I&S Hankins Study in the history of science to bridge the gap between the natural sciences and the humanities. Students should have a strong background both in history and in a natural science. Prerequisite: permission of instructor or adviser.

HIST 395 Modern Historical Writing, Honors Seminar (5) I&S McKenzie New types of problems examined by historians and new techniques that have evolved for solution. Brief historiographical introduc-

tion, reaching back to the "scientific" historians of the mid-nineteenth century, then continues by examining the impact on historians of new disciplines such as psychology, sociology, and economics, and of new techniques such as statistics and prosopography. Readings are in the theorists and in those who followed their lead. Admission by departmental invitation only.

HIST 398 Advanced Historical Detection (5) I&S Examination of varieties of historical evidence and analysis by contemporary historians; discussion of weekly readings, some in common, others individually assigned; preparation of three short papers, one based upon original research in University of Washington manuscript holdings. For honors students, upper division. Prerequisites: 10 credits history or equivalent, and permission of instructor.

HIST 399 Advanced Foreign Study (3-5, max. 15) I&S Upper-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

HIST 412 Science and the Enlightenment (5) I&S Hankins The role of science in relation to intellectual, social, economic, and religious forces in the eighteenth century, and growth of the international community in science during the same period.

HIST 425 History of the British Empire and Commonwealth Since 1783 (5) I&S Britain in the Caribbean, Africa, India, Southeast Asia, and the Pacific; and the settlement, economic development, and political evolution of Canada, Australia, New Zealand, and South Africa.

HIST 449 Issues in Comparative Labor History (5) I&S Role of labor in the modern world. Emphasis on the centrality of workers' struggles in the evolution of national societies on the conceptual, research, and expository strategies of contemporary students of the labor movement and on differences and relationships between labor in developed and underdeveloped countries.

HIST 461 History of the Middle East: 622-1300 (5) I&S Bacharach Political and economic analysis of the period circa AD 600, preliminary to rise of Islam, to arrival of the Turks. Muhammad's teaching and impact; Islamization and Arabization.

HIST 462 History of the Middle East: 1258-1798 (5) I&S Bacharach Conquests by successors of Ghengis Khan; creation in Egypt, Syria, and Iran of cavalry-based states; domination of political, social, and economic history by Ottoman and Safavid empires. The Napoleonic invasion.

HIST 463 History of the Middle East Since 1798 (5) I&S Bacharach Critical issues and themes in the changing Middle East, including Westernization, growth of nationalism, Arab-Israeli dispute, Iranian revolution, and the role of Islam.

HIST 467 Nations and States in the Modern World (5) I&S Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by new nationalism, spreading into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with SIS 467.

HIST 470 History of the Jews in the Twentieth Century (5) I&S Kieval Historical experience of the Jews since World War I in Europe, North America, and the Middle East under the impact of three developments: growth of mass-based American Jewish community, destruction of Jewish life in Central and Eastern Europe, and creation of the State of Israel. Offered: jointly with SISJE 470.

HIST 481 Economic History of Europe (5) I&S R. Thomas Origins of the modern European economy; historical analysis of economic change and growth from medieval times that stresses the preconditions and consequences of industrialization. Recom-

mended: ECON 200, 201. Offered: jointly with ECON 460.

HIST 490 Senior Thesis (5, max. 10) I&S Benson Preparation of the senior thesis for the History and Science emphasis.

HIST 491-492 Honors Historical Method (5-5) I&S The purposes, materials, and techniques of historical scholarship. Theory, practice, and criticism. For honors students. By permission only.

HIST 495 History Internship (1-5, max. 10) Off-campus independent fieldwork with a community agency in an apprenticeship or internship situation. Work to be jointly supervised by a member of the History Department and an on-site field supervisor.

HIST 496-497 Public and Local History (5-5) I&S Findlay Reviews the nonacademic applications of history (museums, parks, business, archives, planning, policy-making, popular media). Includes directed research and writing on local topics in one applied setting. Students ordinarily undertake a lengthy research project in an internship-like role. Prerequisite: permission of instructor.

HIST 498 Colloquium In History (3-5, max. 15) I&S Each seminar examines a different subject or problem. A quarterly list of the seminars and their instructors is available in the Department of History undergraduate advising office. Permission of instructor required.

HIST 499 Undergraduate Research (1-5, max. 15) Permission required.

History of the Americas

HSTAA 135 The American People and Their Culture in the Modern Era: A History of the United States Since 1940 (5) I&S Kirkendall Through study of documents, personal testimony, and other source materials, through written reports on historical problems, and through discussions, lectures, films, and audiovisual presentations, students are encouraged to examine evidence and to think "historically" about persons, events, and movements within the memory of their own generation and that immediately preceding theirs. Primarily for first-year students.

HSTAA 150 Afro-American History (5) I&S Walter Introductory survey of topics and problems in Afro-American history with some attention to Africa as well as to America. Provides some general knowledge and serves as a basic introductory course for a sequence of lecture courses and seminars in Afro-American history. Offered: jointly with AFFAM 150.

HSTAA 180 History of the Chicano People to 1848 (5) I&S Gil Historical survey of the Chicano people from pre-Hispanic times to the war between the United States and Mexico.

HSTAA 181 History of the Chicano People Since 1848 (5) I&S Gil Historical survey of the Chicano people since the war between the United States and Mexico. Recommended: 180.

HSTAA 200 The Peoples of the United States (5) I&S Gregory Surveys American diversity since 1500. Repeopling of America through conquest and immigration by Native Americans, Europeans, Africans, Asians, and Latin Americans. Contributions of various peoples and the conflicts between them, with special attention to changing constructions of race and ethnicity and evolving understandings of what it means to be American.

HSTAA 201 Survey of the History of the United States (5) I&S Fowler, McKenzie, Saum Supplies the knowledge of American history that any intelligent and educated American citizen should have. Objective is to make the student aware of his or her heritage of the past and more intelligently conscious of the present.

HSTAA 202 Makers of American Foreign Policy, 1776 to the Present (5) I&S Fowler Survey of the

history of American foreign relations. Focus on the individuals responsible for initiating new foreign policies or for realigning old ones.

HSTAA 212 The Military History of the United States From Colonial Times to the Present (5) I&S Hennes Development of American military policies, organizational patterns, tactics, and weaponry, from beginnings as a seventeenth-century frontier defense force to the global conflicts and military commitments of the twentieth century. Interaction and tension between need for an effective military force and concept of civilian control of that force.

HSTAA 281 Introduction to Latin American History: From Columbus to Castro (5) I&S Survey of political, economic, and social history of Latin America from the Iberian conquest to the present. Lectures, discussions, and films focus on developing understanding of Latin America's current problems through study of their historical roots. Designed for the beginning student and the nonspecialist.

HSTAA 285 Latin American History Through Film (5) VLP/I&S Bergquist Critical analysis of Latin American films as historical documents. Subjects include Iberian conquest and colonialism, the struggle for independence in the nineteenth century, social revolutions of the twentieth century, and problems of contemporary development. Readings and lectures place each film in the context of the historiography of the subject matter.

HSTAA 301 Foundations of American Civilization (5) I&S Johnson Early America from the sixteenth century to the end of the American Revolution: the founding years, social and religious development, race relations, development of the Atlantic world, origins and legacy of American independence.

HSTAA 302 American Civilization: The First Century of Independence (5) I&S McKenzie, Rorabaugh, Saum Establishment of the constitutional system; national expansion; intellectual and cultural development; internal conflicts, the Civil War, and Reconstruction.

HSTAA 303 Modern American Civilization From 1877 (5) I&S Emergence of modern America, after the Civil War; interrelationships of economic, social, political, and intellectual developments.

HSTAA 333 The American South Since the 1920s (5) I&S Fowler Political, social, and economic developments in the eleven states of the former Confederacy. Special attention to the questions of race relations, civil rights, and cultural distinctiveness. Recommended: 201.

HSTAA 351 American Constitutional History: From Colonial Times to the Present (5) I&S Johnson European origins; the constitution-making of the American Revolution; the growth of government; Civil War and Reconstruction as constitutional crises; reform and the new federalism; the Supreme Court and civil rights; Congress, the presidency, and modern American constitutionalism.

HSTAA 365 The History of the American Film (5) VLP/A American films and film-making technology; the film industry and its financing and marketing strategies. Cultural, social, political, and economic impact of films upon American society.

HSTAA 370 Consumer Culture in the Modern United States (5) I&S Studies the American attempt in this century to create, sustain, and organize the world's first consumer-oriented industrial society. Topics to be considered include: the economy of mass consumption, how a culture of consumption was created, and the ideas of social critics who have rejected consumerism.

HSTAA 373 Social History of American Women (5) I&S Yee Multi-racial, multi-cultural study of United States' women. Sixteenth century to present: emphasis

on women's unpaid work; participation in paid labor force; charitable, reform activities; feminist movements of nineteenth, twentieth centuries. Use of primary materials, i.e., diaries, letters, speeches, artifacts. Prerequisite: 201, WOMEN 200 or 283, or permission of instructor. Offered: jointly with WOMEN 383.

HSTAA 377 History of Canada (5) I&S General survey and analysis of political, economic, social, and cultural aspects of Canadian history from the foundation of New France to present; Canadian-American relations, the rise of Quebec nationalism, and the development of the Canadian West.

HSTAA 381 Latin America: The Early Colonial Period (5) I&S Alden Discovery and founding of Spanish and Portuguese empires in the New World and their development until the eighteenth-century reorganizations.

HSTAA 382 Latin America: Late Colonial and Early National Periods (5) I&S Alden Imperial reforms, the struggle for independence; the founding of new nations.

HSTAA 383 Modern Latin America (5) I&S Bergquist Analysis of economic problems, political and social changes, and intellectual trends in major Latin American republics since the late nineteenth century.

HSTAA 384 Latin America: Inter-American and Intra-Continental Relations (5) I&S Bergquist, Gil Inter-American relations, focusing on the United States' diplomatic and military responses to the problems of Latin America since 1776. Intra-Latin American relations and regional organizations (e.g., the Organization of American States).

HSTAA 401 American Revolution and Confederation (5) I&S Johnson Causes of separation of the United States from the British empire; political theory of the Revolution; its military history; diplomacy of the Revolution; the Revolution as a social movement; intellectual aspects; readjustment after independence; the formation of the American union; the Constitution.

HSTAA 404 New England: From the Foundings to the Civil War (5) I&S Johnson New England from colonial beginnings to the region's emergence to national leadership in the mid-nineteenth century. Emphasis on Puritanism, the New England town, adjustment to empire, revolution and constitution making, the growth of party, abolitionism, the flowering of a regional culture, and the personalities who embodied these key themes and periods.

HSTAA 409 American Social History: The Early Years (5) I&S Rorabaugh Survey of American society and institutions from the colonial era through the Civil War, with special attention to reform, labor, immigration, education, law enforcement and the city.

HSTAA 410 American Social History: The Modern Era (5) I&S Rorabaugh Survey of American society and institutions from Reconstruction to the present with special attention to reform, poverty, social mobility, immigrant and ethnic groups, the city and law enforcement.

HSTAA 411 The United States During the Era of Civil War and Reconstruction (5) I&S McKenzie Conflicting interests, ideologies, and ways of life in the United States from the 1840s to the 1870s.

HSTAA 412 The Westward Movement, 1700-1850 (5) I&S Findlay Anglo-American advance into interior of continental United States culminating in occupation of Far West. Rivalry with New France and New Spain in colonial period; role of federal government in westward expansion; land policy and land distribution; migration, settlement, and the pioneering experience; federal Indian policies and implementation; political evolution, urbanization, and economic development of trans-Appalachian West; shaping of national character and institutions.

HSTAA 413 History of the Trans-Mississippi West (5) I&S Findlay Anglo-American exploration, conquest, occupation, and exploitation of the trans-Mississippi West, with emphasis on economic development into the twentieth century. Considers wide range of developmental themes (social, political, cultural) in historiography of American West. Recommended: 412.

HSTAA 416 American Law and the American Indian (3) I&S Relationship between Indians and the United States from 1789 to the present. Significant constitutional, legislative, and judicial actions. Legal events explored within their political, military, social, and cultural contexts. Comparisons with other minority-group experiences. Offered: jointly with LAW 467.

HSTAA 420 Farmers in United States History (5) I&S Kirkendall From pre-colonial practices to the modern agricultural system with emphasis on the demographic, geographic, and technological dimensions and their social, economic, and political implications. Prerequisite: a basic course in United States history.

HSTAA 426 American Urban History Since 1870 (3/5) I&S Development of American cities for the past century. Topics include physical development, immigration, politics, and changes in society and culture.

HSTAA 431 American Politics and Society Since 1920 (5) I&S Kirkendall Political, social, economic, and intellectual developments in the United States from 1920 to the present.

HSTAA 432 History of Washington and the Pacific Northwest (5) I&S Findlay, Saum, White Exploration and settlement; economic development; growth of government and social institutions; statehood.

HSTAA 436 American Jewish History Since 1885 (5) I&S Kieval Political, social, economic, and religious history of the American Jewish community from the period of the great eastern European migration until the present. The integration of the immigrant community into the general American community; the rise of nativism; the development of American socialism; World War I and World War II; and the reactions of the American Jews to these events.

HSTAA 445 Economic History of the United States (5) I&S McKenzie Growth and development of the United States economy from the colonial period to the present. Follows the course of economic change, examines contemporary reactions, and analyzes implications for

HSTAA 451 Constitution Making in America, 1776-89 (5) I&S Johnson Intensive study of the framing of the Articles of Confederation, the state constitutions, the territorial ordinances, the United States Constitution of 1787, and the Bill of Rights. Class discussions and term paper, in addition to required attendance at lectures offered in 351, which cover the English and colonial backgrounds and developments to 1840. Credit cannot be received for both 351 and 451.

HSTAA 454 The Intellectual History of the United States (5) VLPA/I&S Saum Lectures and discussions devoted to the development of the American mind, from historical beginnings to the present.

HSTAA 456 The American Character (5) I&S Explores prevailing explanations for the American character and tries to assess its historical consequences. Lectures, discussion, reading, reports. Recommended: two college-level courses in history, including study of the American people and of the people of at least one other modern nation or society.

HSTAA 458 History of American Education to 1865 (3) I&S Development of American education in cultural context: colonial period, influence of enlightenment, and common school movement. Offered: jointly with EDLPS 458.

HSTAA 469 History of American Education Since 1865 (3) I&S Development of American education in cultural context: progressive education, recent criticism, continuing issues and trends. Offered: jointly with EDLPS 459.

HSTAA 461 Diplomatic History of the United States, 1776-1901 (5) I&S Fowler Foreign policy of the United States government prior to the twentieth century. Emphasis on international wars, territorial expansion, and the peculiarities of the American position in world politics. Prerequisite: 202 or graduate standing.

HSTAA 462 Diplomatic History of the United States, 1901-Present (5) I&S Fowler Foreign policy of the United States government during the twentieth century. International wars and the other major episodes in diplomacy are emphasized. Prerequisite: 202 or graduate standing.

HSTAA 470 Colloquium in American History: the Progressive Era, 1900-1917 (5) I&S Glenn The principal problems and themes of the Progressive Era, emphasizing political, economic, social, and cultural aspects. Permission of instructor required.

HSTAA 471 Colloquium in American History: the 1920s in America (5) I&S Achievements and issues of the New Era; causes and consequences of the stock-market crash and Great Depression, with emphasis on political, economic, social, and cultural analysis. Permission of instructor required.

HSTAA 472 Colloquium in American History: Franklin D. Roosevelt and the New Deal (5) I&S Analysis of the key political, economic, social, and cultural factors in the New Deal, including the role played by President Roosevelt. Permission of instructor required.

HSTAA 473 Colloquium in History: the American Experience in World War II (5) I&S Pease Problems and policies of the people of the United States and their government in World War II; the role of the United States in winning the war; impact of the war on American society. Permission of instructor required.

HSTAA 480 Labor and Popular Movements in Latin America (5) I&S Bergquist Interdisciplinary approach to origins and trajectory of labor movement from late nineteenth century to present. Emphasis in contemporary period on popular movements, including neighborhood associations, religious base communities, women's movement, and ethnic mobilization for democratic social and political reform. Recommended: at least two non-English language Latin American Studies courses. Offered: jointly with SISLA 480.

HSTAA 482 The History of Brazil: Colonial Period to the Present (5) I&S Alden Colonial foundations; the first and second empires; the old and new republics; current problems; prospects for the future.

HSTAA 483 Southern South America (5) I&S History of the four countries that form southern South America: Argentina, Uruguay, Paraguay, and Chile, focusing on economic, social, and political change in the nineteenth and twentieth centuries. Governments of Juan Perón in Argentina and Salvador Allende in Chile. Relations of the four countries with Europe and the United States.

HSTAA 486 History of Mexico: Colonial Origins to 1822 (5) I&S Gil Political, social, and economic history of Mexico from its discovery by the Spanish to its independence from Spain.

HSTAA 487 History of Mexico: 1822 to the Present (5) I&S Gil Political, social, and economic history of Mexico from its independence from Spain to the present. Recommended: 486.

HSTAA 488 History of the Caribbean and Central America (5) I&S Gil Political, social, and economic

history of principal countries in the Caribbean and Central America from their discovery to the present.

Ancient and Medieval History, Including Byzantine

HSTAM 201 Ancient History (5) I&S Ferrill, C. Thomas Development and characteristics of ancient Greek civilization from the Bronze Age to the Roman conquest. Emphasizes interaction of cultures of the eastern Mediterranean.

HSTAM 202 Ancient History (5) I&S Ferrill, C. Thomas Political, social, economic, and cultural development of Rome from the beginnings in the eighth century BC to the beginning of the Middle Ages.

HSTAM 203 Introduction to the Middle Ages: Medieval People (5) I&S Stacey Introduction to the Western Middle Ages through a study of social roles and statuses as seen through documents and imaginative literature. The groups studied are rulers, aristocracy, peasants, townspeople, clergy, outcasts, and outsiders.

HSTAM 205 Military History of the Ancient World (5) I&S Ferrill Military history from prehistoric times to the fall of the Roman Empire, with special emphasis on the Greco-Roman period and the campaigns of Alexander the Great, Hannibal, Scipio Africanus, and Julius Caesar.

HSTAM 301 Greek History: 7000 BC to 1000 AD (5) I&S Thomas Ancient Greece from its Neolithic village origins through the Bronze Age civilization and that of the Classical period, continuing with developments during the battles of Alexander's successors, Greece's incorporation into the Roman Empire, and its new form in the Byzantine Empire.

HSTAM 330 The Age of Augustus (5) VLPA/I&S Gowing Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14). Includes readings in Augustan authors such as Virgil, Ovid, and Horace as well as the study of Augustan art and architecture. Offered: jointly with CLAS 330.

HSTAM 331 Early Middle Ages (5) I&S Stacey The Dark Ages, feudalism, emergence of the medieval order of civilization, and the development of Romanesque culture.

HSTAM 332 Central Middle Ages (5) I&S R. Stacey Europe in the central Middle Ages: culture of cathedrals and universities, formation of national states, development of urban society.

HSTAM 333 Late Middle Ages (5) I&S B. Stacey Disintegration of the medieval order under the impact of the national state, the secularization of society, and the decline of the church. Movements of reform and revolution. The culture of late gothic Europe.

HSTAM 336 The Humanist Ideal: From the Greeks to the Renaissance (3) I&S Ferrill, O'Neil, C. Thomas Students read certain ancient, medieval, and Renaissance texts, selected to show the continuity and the transformations of the humanistic tradition, and write periodic essays on their reading as well as a term paper. Intended to supplement courses on the history of the respective periods.

HSTAM 340 Medieval Women (5) I&S Stacey The experiences of women in medieval society: public and private power, changing concepts of family and the domestic sphere, ideal and reality in courtly love, women in religious life, women in the workplace, the querelle des femmes and the beginnings of "feminist" thought.

HSTAM 342 Celtic Britain and Ireland (5) I&S Stacey Ireland, Scotland, and Wales in the early Middle Ages: Celtic religion and mythology, interaction between Christian culture and native traditions, sacred kingship and the formation of "nations,"

Arthurian fact and fiction, Celtic art, the Norman conquests of the Celtic "fringe."

HSTAM 351 Medieval Italy (5) I&S *O'Neil* Italy, from the barbarian invasions to the Renaissance, considered in the framework of European and Mediterranean cultures.

HSTAM 360 Medieval Christianity (5) I&S *Stacey* Development of Christianity in the medieval west circa 400 to 1500. Emphasis on the forms of religious life: monasticism, the papacy, friars, hermits, mystics, and reformers; and on the emergence of new modes of piety, both lay and clerical.

HSTAM 401 Early Greece (5) I&S *Ferrill, C. Thomas* Bronze and Dark Age Greece: realities of the heroic age of ancient Greece.

HSTAM 402 Classical Greece (5) I&S *Ferrill, C. Thomas* The classical civilization of ancient Greece, with special emphasis on the legacy of Greece to Western civilization.

HSTAM 403 Alexander the Great and the Hellenistic Age (5) I&S *Ferrill, C. Thomas* Rise of Macedonia, conquest of Near East by Alexander, and division into lesser kingdoms after Alexander's death. Special emphasis on fusion of cultures and change from city-state to world-state.

HSTAM 405 Topics in Ancient History (3, max. 6) I&S *Ferrill, C. Thomas* An umbrella course that makes it possible to treat a special topic in the history of the ancient world during the period from the Bronze Age to the fall of the Roman Empire. One topic is studied in depth during the quarter. Prerequisite: permission of instructor.

HSTAM 411 The Early Roman Republic (3) I&S *Ferrill* Political, social, economic, and cultural history, with emphasis on the development of the constitution and territorial expansions.

HSTAM 412 The Late Roman Republic (3) I&S *Ferrill* Political, social, and cultural history, with special emphasis on the period of Cicero and Caesar.

HSTAM 413 The Early Roman Empire (3) I&S *Ferrill* Political, social, economic, and cultural history, with emphasis on the Julio-Claudians.

HSTAM 414 The Late Roman Empire (3) I&S *Ferrill* Political, social, economic, and cultural history, with emphasis on the decline of ancient civilization.

HSTAM 421 The Byzantine Empire (5) I&S *Waugh* Political, social, economic, and cultural history of the eastern Roman Empire from the fourth to fifteenth centuries.

HSTAM 431 Topics in Medieval History, 500-1000 (5) I&S *Stacey* Study in depth of one or more topics in the history of Europe during the early Middle Ages. Prerequisite: a course in medieval history.

HSTAM 443 Kievan and Muscovite Russia: 850-1700 (5) I&S *Waugh* Development of Russia from earliest times to the reign of Peter the Great.

HSTAM 446 Medieval Russian Chronicles (5) I&S *Waugh* History of Russian chronicle writing; study of the chronicles as literature and as historical sources, with emphasis on the latter. Prerequisites: reading knowledge of Russian and permission of instructor. Recommended: 443.

HSTAM 460 Medieval England, 1042-1485 (5) I&S *Stacey* Upper level survey of English history from the Norman conquest until 1485. Emphasis on political, social, and economic history, with special attention to the peculiarities of English development as these had emerged by 1485.

HSTAM 472 Intellectual and Religious History of the Later Middle Ages (5) I&S *Stacey* Selected topics in intellectual and religious history, 1250 to 1550. Concentration on Europe north of the Alps and

on philosophical and theological issues rather than on "humanism" and the history of scholarship. Most reading in original sources in translation. Prerequisite: appropriate background in medieval history or intellectual history.

History of Asia

HSTAS 201 Ancient Indian Civilization (5) I&S *Conlon* Religions, literature, philosophy, politics, arts, and history of India from earliest times to the Mughal empire.

HSTAS 202 Modern Indian Civilization (5) I&S *Conlon* The Islamic impact, British conquest, and contemporary India. Emphasis on the rise of nationalism, social organization, and contemporary life and history.

HSTAS 211 History of Chinese Civilization (5) I&S Intensive survey of Chinese civilization from earliest times to today. Introduces all students, including East Asian history majors, to the general sweep of Chinese history. Social, cultural, and intellectual developments.

HSTAS 212 History of Korean Civilization (5) I&S *Palais* From earliest times to the present. Development of Korean society and culture in terms of government organization, social and economic change, literature, and art. Offered: jointly with SISEA 212.

HSTAS 221 History of Southeast Asia (5) I&S *Sears* Surveys Southeast Asian civilizations at the outset of Western colonial rule; the colonial impact on the traditional societies of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, and the Philippines; nineteenth- and twentieth-century nationalist and revolutionary movements; emergence of Southeast Asia as a region in the modern world. Offered: jointly with SISSE 221.

HSTAS 341 Japanese Civilization (5) I&S *Hanley* Japan's civilization, including its origins, government, literature, economic institutions, material culture, social organization, and religions in relation to the development of Japan as a society and nation. Offered: jointly with SISEA 341.

HSTAS 348 Alternative Routes to Modernity (5) I&S *Guy* Routes to modernity followed by non-Western societies between 1600 and 1900. Historical experiences of non-Western societies seen in the contexts of European history and of development theory. Primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with SIS 348.

HSTAS 401 History of Ancient India (5) I&S *Conlon, Salomon* India in ancient times; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

HSTAS 402 History of Medieval and Mughal India (5) I&S *Conlon* Medieval India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

HSTAS 403 History of Modern India to 1900 (5) I&S *Conlon* Modern India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

HSTAS 404 History of Twentieth-Century India (5) I&S *Conlon* Analysis of the problems in the fields of social life, international and domestic politics, education, economics, and other areas that confront India today.

HSTAS 422 History of Tokugawa Japan (5) I&S *Hanley* Background to the unification of Japan in 1600; establishment of the Tokugawa political structure; and the social, economic, and cultural history of the period 1600-1868.

HSTAS 423 History of Modern Japan (5) I&S *Pyle* Political, social, economic, and cultural development of Japan from the late Tokugawa period to the

present with special emphasis on the cultural impact of the West.

HSTAS 424 The Emergence of Postwar Japan (5) I&S *Pyle* The making of modern Japan; World War II and surrender; American occupation; postoccupation rebuilding; emergence as an industrial power. Offered: jointly with SISEA 440.

HSTAS 431 Tibetan History (3) I&S *Van Der Kuip* Tibet from earliest times to the present. Emphasis on the status and relations of Tibet in Asian affairs and on the evolution of the political institutions of a lama-ruler state. Recommended: 211 or equivalent.

HSTAS 441 Economic and Social History of Japan to 1900 (5) I&S *Hanley, Yamamura* Lecture-seminar on Japanese economic and social history from 700 to 1900. Analyses of the rise and decline of the shoen system, the rise of commerce, social change, changes in the living standard, demographic changes, and the early phases of industrialization. Political and cultural developments as related to economic and social change. Offered: jointly with SISEA 441.

HSTAS 451 Chinese History: Earliest Times to 221 BC (5) I&S Preimperial China.

HSTAS 452 Chinese History: 221 BC to AD 906 (5) I&S Development of the imperial Chinese state.

HSTAS 453 Chinese History: AD 906 to 1840 (5) I&S *Chan*, The Wu, Tai, Sung, Yuan, Ming, and early Ch'ing periods.

HSTAS 454 History of Modern China (5) I&S *Guy* Political, economic, social, and intellectual history of China from 1800 to the present. Processes of modernization and revolution and relationship between them.

HSTAS 456 Topics in Chinese Social History (5) I&S *Guy, Thompson* Surveys major issues and approaches to the study of the role of the Chinese people in China's historical development. Historical focus of course varies with instructor. Prerequisite: appropriate 400-level course in Chinese history or permission of instructor. Offered: jointly with SISEA 456.

HSTAS 462 Southeast Asian History to 1800 (5) I&S *Sears* Absorption and modification of cultures (Indian and Chinese), religions (Islam, Buddhism, Catholicism), and peoples (northern European) by island and mainland-Southeast Asians. Main themes are cultural contact and the growth of states and peoples.

HSTAS 463 Southeast Asian History from 1800 to the Present (5) I&S *Sears* Post-eighteenth-century history of the present countries of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Singapore, Brunei, Indonesia, and the Philippines. Deals with colonial rule, emerging nationalism, and political independence. Investigates broad themes of social, economic, and cultural history.

HSTAS 465 The Vietnam Wars (5) I&S *Sears* Analyzes Vietnamese, Cambodian, and Laotian wars fought in Southeast Asia from 1946 to present. Examines how the Vietnamese managed to defeat both the French and Americans. Questions whether these wars were wars of independence, civil wars, or "proxy wars" in which local forces served the interests of great powers.

HSTAS 469 Topics in Southeast Asian History (5) I&S Introduces major issues within the history and culture of one country of Southeast Asia. Content varies. Topics may include religion, economics, colonialism, perspectives on gender, labor history, literatures, popular culture, and performing arts. Focuses on a different Southeast Asian country each time offered. Offered: jointly with SISSE 469.

HSTAS 481 History of Traditional Korea: Earliest Times to the Nineteenth Century (5) I&S *Palais* Korean history from earliest times to the modern period.

HSTAS 482 History of Modern Korea: 1860 to the Present (5) I&S *Palais* Traditional institutions and society, Japanese colonial rule, liberation and the Korean War, early Korean communist movement, and North Korea and South Korea since 1945.

Modern European History

HSTEU 220 Introduction to East European Studies (5) I&S *Felak* Introduction to the history of post-1945 Eastern Europe focusing on political, economic, social, cultural, and diplomatic issues. Countries surveyed include Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Romania, and Yugoslavia. Offered: jointly with SISRE 220.

HSTEU 273 Women and Gender in Modern Europe (5) I&S Examines European women's changing social role and competing views of femininity from the Enlightenment to the end of the cold war. Special focus on the relationship of gender and politics and on the female body in bourgeois society, industrialization, imperialism, the welfare state, fascism, and the cold war.

HSTEU 275 Life in England (5) I&S *Behlmer, Levy* Social history of England from the Norman conquest to the present, seen through letters, autobiographies, novels, and plays of the time. Life of the ordinary inhabitant in the village and the manor house.

HSTEU 276 Celtic Civilizations of the European Middle Ages (5) I&S *Stacey* Introduction to the history and pseudo-history of medieval Ireland, Wales, Scotland, and Gaul. Topics include "Celtic" religion, mythology, social institutions, nationalism, and the relationship between history and myth. Particular attention to how historians "do" history in the absence of straightforward historical sources.

HSTEU 301 Early Modern European History: 1450-1648 (5) I&S *Bridgman, Levy, O'Neil* Political, social, economic, and cultural history from the late Renaissance to the Peace of Westphalia.

HSTEU 302 Modern European History: 1648-1815 (5) I&S *Bridgman, Hankins, O'Neil* Political, social, economic, and cultural history from the Peace of Westphalia to the fall of Napoleon.

HSTEU 303 Contemporary European History Since 1815 (5) I&S *Bridgman* Political, social, economic, and cultural history from the fall of Napoleon to the present.

HSTEU 304 Cultural History of Renaissance Europe (5) VLP/AI&S *Levy* Examination of Medicean Florence, late sixteenth-century France, Elizabethan England, and the baroque courts of the early seventeenth century as cultural centers. Includes analysis of painters such as Botticelli and Rubens; poets such as Ronsard and Donne; philosophers such as Pico and Montaigne; and playwrights such as Marlowe, Shakespeare and Lope de Vega.

HSTEU 305 European Witch Trials (5) I&S *O'Neil* Witchcraft and magical beliefs in Europe considered as a problem in intellectual, social, and legal history. Medieval background, systematization of witchcraft theory in fifteenth century; comparison of learned and popular beliefs; mechanisms of witch trials and inquisitorial procedure; the Faust legend; growth of skepticism and decline of witchcraft in seventeenth century.

HSTEU 369 The Destruction of European Jewry, 1933-45 (5) I&S *Kieval* History of anti-Semitism; dimensions of the Holocaust; the Holocaust organization and the victims' responses; reactions of world to events in Europe, allied policies, refugee policy, and American actions. Legal, historical, and sociological questions raised by these events. Offered: jointly with SISJE 369.

HSTEU 370 The Vikings (5) VLP/AI&S *Leiren* The Vikings at home in Scandinavia and abroad, with particular emphasis on their activities as revealed in

archaeological finds and in historical and literary sources. Offered: jointly with SCAND 370.

HSTEU 378 The Making of Contemporary France (5) I&S *Jonas* Historical origins and subsequent development of nine contemporary problems and characteristics of French government and politics, economy, and society. Prerequisite: FRENCH 203 or equivalent.

HSTEU 380 History of Scandinavia to 1720 (5) I&S *Leiren* Scandinavian history from the Viking Age to 1720, with an emphasis on the political, social, and economic development of Denmark, Norway, Sweden, Finland, and Iceland from the Middle Ages to the Enlightenment. Offered: jointly with SCAND 380.

HSTEU 381 History of Scandinavia since 1720 (5) I&S *Leiren* Scandinavian history from the Enlightenment to the Welfare State with emphasis on the political, social, and economic development of the modern Scandinavian nations of Denmark, Norway, Sweden, Finland, and Iceland. Offered: jointly with SCAND 381.

HSTEU 401 The Reformation (5) I&S *O'Neil* Origins of the disunity of Europe in the crisis of the sixteenth century with emphasis on the relations between religion and politics.

HSTEU 405 European Intellectual History: Eighteenth Century (5) VLP/AI&S *Toews* Development of the social sciences, moral theory, political theory, and religious thought in eighteenth-century Europe. Rationalism, empiricism, utilitarianism, and the sources of idealism.

HSTEU 406 European Intellectual History: Nineteenth Century (5) VLP/AI&S *Toews* Selected topics in intellectual history up to 1890. The philosophical consequences of the French Revolution, the development of idealism, conservatism, romanticism, and early socialist theory; positivism, the problems of historicism, new forms of Christian apologetics, utilitarianism in decline, liberalism as philosophy, the early Marx.

HSTEU 407 European Intellectual History: Twentieth Century (5) VLP/AI&S *Toews* Selected topics in the intellectual history of the late nineteenth and early twentieth centuries. The aftermath of Darwinism, the problems of methodology in modern social science, historicism and moral relativism, irrationalism in philosophy and social theory, revisionism in secular and orthodox religions.

HSTEU 410 The Renaissance: 1300-1580 (5) I&S *O'Neil* Conditions of Renaissance culture: Italian republics and despots, humanism, the classical ideal of the arts, Machiavelli and the foundations of modern political thought; the end of an era. Prerequisite: 301 or HIST 112.

HSTEU 411 Europe: 1814-70 (5) I&S *Bridgman* Development of Europe during the age of Metternich, the revolutions of 1848, and the emergence of new national states.

HSTEU 412 Europe: 1870-1914 (5) I&S *Bridgman* Impact of population increase and technological change on European society; stresses and strains in European life and outlook.

HSTEU 413 Europe: 1914-45 (5) I&S *Bridgman* Politics and society of Europe in the age of the concentration camp.

HSTEU 414 Europe Since 1945 (5) I&S Political, economic, and military developments in Europe under the impact of the Cold War.

HSTEU 415 Europe in the Six Years' War: 1939-45 (5) I&S *Bridgman* Inquiry to discover what the war of 1939-45 was about and what it did to more than five hundred million Europeans.

HSTEU 421 France: 1429-1789 (5) I&S *Jonas, O'Neil* Political and cultural history, from Joan of Arc

to the eve of the French Revolution. Villon, Rabelais, Montaigne, Molière, Voltaire, Rousseau, de Tocqueville.

HSTEU 422 The French Revolution and Napoleon: 1789-1815 (5) I&S *Jonas* Transformation of France under the Revolution of 1789; the Reign of Terror and Napoleon; the impact of the revolution and Napoleon upon Europe.

HSTEU 423 France Since 1814 (5) I&S *Jonas* Political, economic, and social history since the Congress of Vienna. Special emphasis upon the continuity of the revolutionary tradition.

HSTEU 431 Germany: 1648-1914 (5) I&S *Bridgman* Culture(s) and politics in central Europe from the end of the Thirty Years' War to the formation of the first German national state. Emphasis on the self-perception of societies and on the variety of interpretations of this period's history that are offered by different "schools" of historians.

HSTEU 432 Germany: 1914-1945 (5) I&S *Bridgman* Politics and society from the collapse of the Bismarckian empire to the collapse of Hitler's empire.

HSTEU 433 Central Europe: the Habsburg Monarchy, 1740-1918 (5) I&S *Kieval* Social, political, cultural history of Europe's second-largest state, from the reign of Maria Theresa to the dissolution of the empire at the end of World War I. Topics include: state formation, nineteenth-century revolutions, nationality conflicts, political radicalism and anti-Semitism, and literature and the arts.

HSTEU 434 Germany 1871-1989 (5) I&S *Society* and politics from Germany's first unification to its reunification; domestic and foreign policy; political, economic, social, and cultural developments; high emphasis on German society's self-perception and on the variety of interpretations of this period's history offered by different "schools" of historians.

HSTEU 435 World War I (5) I&S *Bridgman* European society on the eve of the war. War experience of the Europeans. Long term consequences of the war on European social, political, and economic institutions. Impact of the war on non-European world. The war in European literature.

HSTEU 439 Soviet Union Since World War II (5) I&S *Ellison* Domestic and foreign policy; political, economic, social, and cultural developments.

HSTEU 440 History of Communism (5) I&S *Ellison, Ramet* Communism from its origins in the Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Prerequisites: two courses in modern European history or politics. Offered: jointly with SIS 440.

HSTEU 444 Imperial Russia: 1700-1900 (5) I&S *Waugh* Development of Russia from Peter the Great to Nicholas II.

HSTEU 445 Twentieth-Century Russia (5) I&S *Ellison* Russia and the USSR from Nicholas II to the present.

HSTEU 451 East-Central Europe Since 1342 (5) I&S *Felak* Focus on the lands of today's Poland, Czechoslovakia, Hungary, and Germany from the time they were great powers to the present. Traces the major changes in the fortunes of these lands in both local and international settings.

HSTEU 452 Eastern Europe Since 1918 (5) I&S *Felak* Poland, Czechoslovakia, Hungary, Romania, Yugoslavia, Bulgaria, and Albania, from the end of World War I to the present. Prerequisite: 451 or permission of instructor.

HSTEU 453 History of the Balkans, 1400 to the Present (5) I&S *Felak* Centuries of Ottoman rule

that produced a new basis for the reemergence of independent states in the nineteenth and twentieth centuries; history of these new states until the present.

HSTEU 454 Baltic History (5) I&S Overview of the history of the area occupied by the Baltic countries of Latvia, Lithuania, and Estonia. Emphasizes their emergence as modern European nation-states. Era from World War I to present treated in depth, including the historical role and present situation of non-Baltic peoples, particularly Russians.

HSTEU 461 Formation of the Spanish Nation: to 1700 (5) I&S Major political, economic, and cultural events leading to the creation of the Spanish nation under Ferdinand and Isabel.

HSTEU 462 Spain: 1700 to the Present (5) I&S Political, economic, and cultural attempts of Spain to adjust to capitalism, liberalism, and secularism.

HSTEU 464 The Jews in Spanish History (5) I&S Sephardic Jews in Spanish politics, economy, and culture, emphasizing the medieval Golden Age and the Inquisition. Offered: jointly with SISJE 464.

HSTEU 465 The Jews of Eastern Europe (5) I&S Kievan Jewish society in Poland, Russia, the Hapsburg Lands, and Romania from the late Middle Ages to the Holocaust. Recommended: introductory course in European or Jewish history. Offered: jointly with SISJE 465.

HSTEU 467 Medieval Jewish History (5) I&S Stacey Social and intellectual history of the Jews in western Europe to the fifteenth century. Jews under Islam and Christianity; the church and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with SISJE 467.

HSTEU 468 Early Modern Jewish History, 1492-1789 (5) I&S Kieval Jews in the early-modern period. The Spanish expulsion in 1492 to the onset of political and social emancipation in western Europe and America. Recommended: introductory course in European or Jewish history. Offered: jointly with SISJE 468.

HSTEU 469 Enlightenment, Emancipation, Antisemitism: History of the Jews, 1770-1914 (5) I&S Kieval The Jewish experience in the modern world from the European Enlightenment to the First World War. Focus on the debates surrounding Jewish emancipation, the reception of Jews within European society, modern antisemitism, nationalist movements, mass migration, and war. Offered: jointly with SISJE 469.

HSTEU 470 The Jacobethan Age: England 1580-1630 (5) I&S Levy Emphasis on arts and society instead of the traditional kings, battles, and politics; the way people at all levels of society lived, in towns and in the countryside, within the bounds of the royal court or outside in the political wilderness. Classes on poetry, drama, music, architecture, painting, interior decoration, and some of the minor arts, as well as on demography and some of the traditional historical subjects. Not open for credit to students who have taken 471 or 472.

HSTEU 471 England in the Sixteenth Century (5) I&S Levy Political, administrative, and social history from Henry VII to Elizabeth I, with emphasis on the Reformation and its effects and on conditions of life in Elizabethan England. Not open to students who have taken 470.

HSTEU 472 England in the Seventeenth Century (5) I&S Levy Political, administrative, and social history from the accession of James I to the Glorious Revolution. Not open to students who have taken 470.

HSTEU 474 England in the Nineteenth Century (5) I&S Behlmer Political, social, and cultural development; the agrarian, industrial, and French revolutions; the rise of parliamentary democracy; the Victorian age;

political thought from utilitarianism to Fabianism; Irish home rule.

HSTEU 475 England in the Twentieth Century (5) I&S Behlmer From the Boer War to the present; conservatism, liberalism, and socialism; England in two world wars; the decline of British imperialism.

HSTEU 476 Modern Irish History (5) I&S Behlmer Political and social history from 1800 to the present; the Irish Question after the Act of Union; development of Irish nationalism in the Home Rule and Sinn Féin periods; the Irish Free State and Northern Ireland since 1921; current problems in Northern Ireland.

HSTEU 480 European Socialism (5) I&S Jonas Origins and development of socialist theory and practice in Europe since the French Revolution. Socialism as a political movement. Prerequisite: at least one course in the history of Europe since 1789.

HSTEU 482 Fascism in Europe (5) I&S History of the fascist era in modern Europe from 1919 to 1945. A study of the principal examples of national fascism and fascist-like movements coupled with a general theoretical consideration of the phenomenon. Recommended: introductory course in the history of modern Europe.

Courses for Graduates Only

History

HIST 501 Ancient Greece and Rome: Writings and Interpretations (3-6) Thomas Study of historians, development of historical study as a distinct pursuit, focus of attention in historical scholarship in the ancient world and comparison with modern interpretation of antiquity.

HIST 502 Medieval Europe: Writings and Interpretations (3-6) O'Neil, Stacey, Stacey, Waugh Study of historians, schools of history, and interpretations of medieval European history.

HIST 504 Comparative Ethnicity and Nationalism (3) Kieval Theoretical approaches to, and historical case studies of, the phenomena of ethnicity, nationalism, and ethnic conflict in the modern world. Emphasis on Europe and Asia.

HIST 511 History of Science (3-6) Hankins

HIST 512-513-514 Seminar in the History of Science ([3-6]-[3-6]-[3-6]) Benson, Hankins

HIST 515 Field Course in the History of Technology (3) Hevly Introduces students to the literature, methodology, and problems of the history of technology, and prepares them for independent study in the field.

HIST 561 Islamic History (3-6) Bacharach Field course. Introduction to advanced study in the major periods and problems of Islam. Bibliographical guidance is stressed.

HIST 562 Ottoman History (3-6) Field course. Introduction to the major periods and problems of Ottoman history, 1300-1914, by acquainting the student with the major works in at least two languages. An attempt is made to teach some use of Ottoman materials. A minor problem is investigated in detail by every student. Prerequisite: knowledge of at least one major language besides English (French, German, Russian, or other).

HIST 563 Modern Near East (3-6) Bacharach Field course introducing the student to the major periods and problems of Near Eastern history, 1798 to the present. Prerequisite: permission of instructor.

HIST 571 Orientation to an Academic Career in History (3) Course for prospective college and university history instructors, preparing them for the non-academic aspects of their duties. Prerequisite: Master of Arts degree in history or permission of instructor.

HIST 580 Topics in History (3, max. 9) Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

HIST 598 Methods of Historical Research (5) Exploration of new historical and scholarly techniques employed in historical research. Use of social science methodology and literary theory in the evaluation and interpretation of historical sources. Use of feminist theory, deconstruction, critical theory, and orality/literacy studies. Student research paper is based upon a chosen theoretical approach.

HIST 600 Independent Study or Research (*)

HIST 700 Master's Thesis (*)

HIST 800 Doctoral Dissertation (*)

History of the Americas

HSTAA 501 American History: Early (3-6) Johnson

HSTAA 503-504 Seminar in American History, Early ([3-6], max. 12)-[3] Rorabaugh Research seminar in early American history, 1600-1875.

HSTAA 512 American History: Western (3-6)

HSTAA 516 Hispanics of the United States (3-6, max. 6) Gil

HSTAA 521 American History: Writings and Interpretations, 1770-1870 (4-6) McKenzie, Rorabaugh

HSTAA 522 American History: Writings and Interpretations Since 1870 (4-6) Fowler, Glenn, Gregory, Kirkendall, Pease

HSTAA 524 American Social History Before 1860 (3-6) Field course. Survey of major problems and literature in American social history before 1860.

HSTAA 525 American Social History After 1860 (3-6) Glenn Field course. Survey of major problems and literature in American social history after 1860.

HSTAA 531 American History: Twentieth Century (3-6) Gregory

HSTAA 532-533-534 Seminar in American History: Recent Period ([3-6], max. 12)-[3-6], max. 12]-[3-6, max. 12])

HSTAA 550 African American History to Reconstruction (5) Comprehensive introduction to the major topics and writings in African American history from the colonial era to 1900, including the inception of slavery, free Blacks, slave revolts, Black abolition, Blacks in the Civil War and Reconstruction, and the Black female role in the struggle for freedom.

HSTAA 551 African American History Since Reconstruction (5) Comprehensive introduction to the major topics and writings in African American history in the twentieth century, including Jim Crow era, Black Women's Movement, Harlem Renaissance, legal origins of Civil Rights Revolution, Second Reconstruction, and Politics of Cultural Pluralism.

HSTAA 552-553 Graduate Seminar in African American History (3-3) Walter Research experiences and opportunities in African American history. Provides students with skills and methodology to pursue advanced research in the field.

HSTAA 554 American History: Intellectual (3-6) Saum

HSTAA 555-556 Seminar: American Intellectual History ([3-6]-[3-6]) Saum Develops research and writing competence in American intellectual history. Prerequisite: permission of instructor or graduate program coordinator.

HSTAA 561 History of American Foreign Policy (3-6) Fowler

HSTAA 562-563 Seminar in American Diplomatic History ([3-6]-[3-6]) *Fowler*

HSTAA 581 Latin American History: Colonial Period (3-6) *Alden*

HSTAA 582 Latin American History: National Period (3-6) *Alden, Bergquist, Gil*

HSTAA 583-584-585 Seminar in Latin American History ([3-6, max. 12]-[3-6, max. 12]-[3-6, max. 12]) *Alden, Bergquist, Gil* Problems of historical research in the history of Latin America from colonial beginnings to the present.

HSTAA 590 Topics in American History (3, max. 9) Seminar on selected topics in American history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

Ancient and Medieval History

HSTAM 501 Greek History (3-6) *Thomas* Problems in the history of the Athenian constitution.

HSTAM 511 Roman History (3-6) *Ferrill* Roman history, 31 B.C.-A.D. 37.

HSTAM 512-513 Seminar in Ancient History ([3-6]-[3-6]) *Ferrill, Thomas* Detailed study of special topics in ancient history. Prerequisite: permission of instructor or graduate program coordinator.

HSTAM 530 Early Middle Ages (3-6) *Stacey* Field course. Survey of early European history through the times of tribal migrations and invasions from Asia. Problems and methods of research. Prerequisite: permission of instructor.

HSTAM 531 Medieval European History (3-6) *B. Stacey*

HSTAM 532, 533 Medieval European Seminar (3-6, 3-6) *Stacey, Stacey* Prerequisite: reading knowledge of French or German or Latin.

HSTAM 535 Later Medieval Europe (3) *B. Stacey* Field course. Surveys European history from ca. 1250 to 1500, with particular attention to historiography. Prerequisite: permission of instructor. Recommended: reading knowledge of French or German.

HSTAM 536 Topics in Early Medieval History (3) *Stacey, Stacey* Graduate level study of specific topics in early medieval history. Topics vary from quarter to quarter; for information, please see instructor. Prerequisite: admission by permission of instructor.

HSTAM 590 Topics in Ancient and Medieval History (3, max. 9) Seminar on selected topics in ancient and medieval history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

History of Asia

HSTAS 501 Indian History (3-6) *Conlon* Prerequisite: permission of instructor.

HSTAS 502, 503 Seminar: History of India (3-6, max. 12; 3-6, max. 12) *Conlon* Seminar on selected topics and problems in the history of medieval and modern India. Prerequisites: 501 and permission of instructor.

HSTAS 520 Premodern Japanese History (5) *Hanley* Field course; Japanese history prior to 1868. Prerequisites: 421 and 422, or SISEA 441 and 541, or permission of instructor.

HSTAS 521 Modern Japanese History (3-6) *Pyle* Field course. Prerequisites: 422, 423, or permission of instructor.

HSTAS 530 Field Course in Southeast Asian History (3) *Sears* Introduction to major English-language works on Southeast Asian history and to the

major historiographical issues of the era.

HSTAS 541 Economic and Social History of Japan to 1900 (5) *Hanley, Yamamura* Analyses of land-holding systems, the rise of commerce, demographic changes, urbanization, early industrialization, and social change. Prerequisite: previous course work in Japanese history or economic history, or permission of instructor. Not open to students who have taken 441. Offered: jointly with SISEA 541.

HSTAS 532 Seminar in Southeast Asian History (3) *Sears* Selected topics in Southeast Asian history and historiography. Preparation for theses and doctoral dissertations on Southeast Asian History.

HSTAS 551 Field Course in Chinese History: Pre-Sung Period (3-6) Introduces Western language materials on traditional China in order to give the students bibliographical and other assistance in preparing for examinations in this field of history.

HSTAS 552-553-554 Seminar in Chinese History: Pre-Sung Period ([3-6, max. 12]-[3-6, max. 12]-[3-6, max. 12]) Prerequisite: reading knowledge of Chinese.

HSTAS 560- Field Course in Chinese History, Sung to Early Ch'ing ([3-6]-) First quarter of a two-quarter field course in Chinese history. Covers the Sung to Yuan period, 960-1368. Introduces Western materials on the history of this period to prepare graduate students for examinations in this field.

HSTAS 561 Field Course in Chinese History, Sung to Early Ch'ing (3-6) Second quarter of a two-quarter field course in Chinese history. Covers the Ming to the early Ch'ing period, 1368 circa seventeenth century. Introduces Western materials on the history of this period to prepare graduate students for examinations in this field.

HSTAS 562-563-564 Seminar in Chinese History: Sung to Modern ([3-6]-[3-6]-[3-6]) Professional writing seminar in Chinese history from Sung to modern times. Prerequisite: reading knowledge of Chinese.

HSTAS 571-572 Chinese History: Modern Period ([3-6]-[3-6]) *Guy* Field course in modern Chinese history, emphasizing extensive reading in the secondary literature on modern China.

HSTAS 573-574-575 Seminar in Chinese History: Modern Period ([3-6, max. 12]-[3-6, max. 12]-[3-6, max. 12]) *Guy* Research seminar in modern Chinese history. Training in the materials and methods of research, and preparation of extended research papers. Prerequisites: 571-572 or permission of instructor and reading knowledge of Chinese.

HSTAS 581 Modern Korean History (3-6) *Palais* Field course. Prerequisite: permission of instructor.

HSTAS 582-583-584 Seminar in Korean History ([3-6]-[3-6]-[3-6]) *Palais* Selected topics in Korean history and historiography.

HSTAS 590 Topics in Asian History (3, max. 9) Seminar on selected topics in Asian history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

Modern European History

HSTEU 501 Renaissance Field Course (3-6) *O'Neil* Topics in the cultural, political, and social history of the Renaissance era.

HSTEU 502 Reformation Field Course (3-6) *O'Neil* Topics in the religious, political, and social history of the Reformation era.

HSTEU 510-511-512 Core Seminar in the History of Modern Europe (3-3-3) An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of

the seminar choose research topics and present the results of their research to the seminar.

HSTEU 515 Modern European Intellectual History (3-6) *Toews*

HSTEU 516-517 Seminar: European Intellectual History ([3-6]-[3-6]) *Toews*

HSTEU 521 Modern European History: France (3-6) *Jonas*

HSTEU 531 Modern European History: Germany (3-6) *Poiger*

HSTEU 532-533-534 Seminar in Modern European History: Germany ([3-6]-[3-6]-[3-6]) *Poiger*

HSTEU 544 Modern Russian History (3-6) *Young*

HSTEU 545-546-547 Seminar in Modern Russian History ([3-6]-[3-6]-[3-6]) *Ellison, Young* Prerequisite: reading knowledge of Russian and either French or German.

HSTEU 548 Field Course in Soviet History (3-6) *Ellison* Specialized course for graduate history students in the scholarly literature of Russian history since 1917. Intended for graduate students preparing for MA or Ph.D. field examination in Russian history of the Soviet period.

HSTEU 551 History of Eastern Europe: 1772-1939 (5) *Felak* Study of the east-central European region: Poland, Czechoslovakia, Hungary, Romania, and the Balkan countries, from their rebirth to World War II. Prerequisite: reading knowledge of German, French, Russian, or one East European language.

HSTEU 552 History of Eastern Europe: 1939 to the Present (5) *Felak* Prerequisite: reading knowledge of one major European or one East European language.

HSTEU 553-554-555 Seminar in Modern East European History ([3-6]-[3-6]-[3-6]) *Felak* Study and research involving special methods dealing with the histories of the East European countries in the modern period.

HSTEU 571 English History: Tudor and Stuart (3-6) *Levy*

HSTEU 572 English History (3-6) *Behlmer*

HSTEU 573-574 Seminar in Modern English History ([3-6]-[3-6]) *Behlmer*

HSTEU 575-576 Seminar in Tudor-Stuart History ([3-6]-[3-6]) *Levy* History of England under the Tudors and the Stuarts. Prerequisite: 571 or permission of instructor.

HSTEU 590 Topics in European History (3, max. 9) Seminar on selected topics in European history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

Honors

B102 Padelford

The honors program offers outstanding undergraduate students a special curriculum featuring small classes, challenging instruction, and close contact with faculty and other honors students. An emphasis on writing is incorporated into the honors core curriculum and honors seminars. Directed and independent study are particularly encouraged for upper-division students, commonly leading to a senior honors thesis or project.

For a description of honors program requirements, see the Undergraduate Study section of this catalog.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

H A&S 220, 221, 222 Science for Honors Students I,II,III (5, 5, 5) Evolution of an idea or concept central to the natural sciences. Intended for non-science majors. Content varies from year to year. For university honors students only. Offered: A, W, Sp.

H A&S 251, 252, 253 Western Civilization I,II,III (5, 5, 5) Introduction to ideas and society in Western Civilization. For university honors students only. Offered: A, W, Sp.

H A&S 261, 262, 263 World Civilization I,II,III (5, 5, 5) Introduction to ideas and society of civilization other than the Western. Specific civilization (Chinese, Japanese, Middle Eastern, South Asian) differs from year to year and section to section. For university honors students only. Offered: A, W, Sp.

H A&S 300 Introduction to the Professions (2-5, max. 15) Studies oriented toward professional work (law, medicine, public affairs). For university honors students only. Prerequisite: permission of honors office.

H A&S 350 Honors Seminar (2, max. 20) Discussion of selected topics in a variety of subject-matter fields. Topics and reading material vary from year to year. For university honors students only. Credit/no credit only. Prerequisite: permission of honors office.

H A&S 386 Interdisciplinary Special Topics—Natural Science (1-5, max. 10) Special courses drawn from interdisciplinary groups in the natural sciences. Content varies. Prerequisite: one sequence of honors core courses.

H A&S 397 Interdisciplinary Special Topics—Social Science (1-5, max. 10) Special courses drawn from interdisciplinary groups in the social sciences. Content varies. Prerequisite: one sequence of honors core courses.

H A&S 398 Interdisciplinary Special Topics—Humanities (1-5, max. 10) Special courses drawn from interdisciplinary groups in the humanities. Content varies. Prerequisite: one sequence of honors core courses.

International Studies

401 Thomson

The Henry M. Jackson School of International Studies organizes and supports interdisciplinary teaching and research in international affairs. The school consists of a group of interdisciplinary language and area studies programs on major world regions, as well as topical and comparative programs of study that transcend national and regional boundaries.

Undergraduate Program

Advisers

James Donnen, Linda Itlis
111 Thomson

Students may concentrate on a major world area within the context of the humanities and social sciences, specialize in topical studies, or pursue a more general course of study in international studies. For all the programs listed below, the student receives a Bachelor of Arts degree. Some programs also offer a minor. See adviser for requirements.

Canadian Studies

Anthony B. Chan, Chair

Canadian Studies offers a program that provides a broad understanding of Canadian society, culture and communications, historical development, and contemporary problems.

Bachelor of Arts

Major Requirements: 30 credits or second-year equivalent French language training; SIS 200, 201, 202; ECON 200, 201; SISCAS 356, 498; minimum 18 credits from approved Canadian Studies elective course list.

China Studies

David Bachman, Chair

China Studies offers a program that provides a broad understanding of the Chinese people and their culture, historical development, and contemporary problems. The program has particular strength in history and the social sciences.

Bachelor of Arts

Admission Requirements: Two quarters Chinese language; HSTAS 211; one upper-division course applicable to the major; 10 credits applicable to the major taken at the UW; minimum 2.00 overall GPA. Admission is competitive, based on GPA (emphasis on grades in courses related to program) and writing sample. Application deadline is the third Friday of each quarter; students are notified by the sixth Friday of the quarter in which they apply.

Major Requirements: 30 credits or second-year equivalent Chinese language training; additional training recommended. HSTAS 211; SISEA/HSTAS 212; SISEA/HSTAS 341; SISEA 455; 25 credits in 300- and 400-level courses on China include HSTAS 454, one course in premodern China, one course in Chinese arts and literature, and a 10-credit specialization in one of the three fields of modern China, premodern China, and Chinese arts and literature. Minimum 25 credits in upper-division required courses, including HSTAS 454, taken at the UW. Minimum 2.0 grade for all required courses.

Comparative Religion

Martin S. Jaffee, Chair

The Comparative Religion major introduces students to broad theoretical issues in the academic study of religion, and encourages them to explore these issues through mastering details of the textual canons, historical traditions, social contexts, and cultural forms of religion.

Bachelor of Arts

Major Requirements: RELIG 201, 202; RELIG/CHID 380; 35 supplementary credits in RELIG or non-RELIG prefix courses, of which at least 15 must be at the 300 level or above, selected from the three rubrics of *textual canons, historical traditions, and social contexts and cultural forms*. The distribution must include at least 5 credits and no more than 20 credits in any particular rubric.

European Studies

Eugene Webb, Chair

The curriculum in European Studies prepares students to pursue careers requiring an understanding of all the forces, both material and cultural, contemporary and historical, that are shaping Europe today (north, south, east, and west), taking into account transitions involved in the post-Soviet era and the movement toward greater political, economic, and cultural integration among the various nations involved.

Bachelor of Arts

Major Requirements: 10 credits of a foreign language at the third-year level or beyond; 15 credits of core courses, including EURO 301 (5 credits), a survey course in modern Europe (5), and a cross-cultural or cross-disciplinary case study (5); one quarter (10 credits minimum) of foreign study; 15 credits from approved list of electives; EURO 490-491, Senior Research Seminar (10 credits). See adviser for specific course options.

Minor

Minor Requirements: Foreign language through the sixth quarter; 15 credits of core courses including EURO 301 (5 credits), a survey course in modern Europe (5), and a cross-cultural or cross-disciplinary case study (5); 10 credits from approved list of electives.

International Studies

Resat Kasaba, Chair

The general program in International Studies gives students a comprehensive and interdisciplinary perspective on world problems, plus an ability to analyze the subtle interactions of politics, economics, and culture within the global system.

Bachelor of Arts

Admission Requirements: Admission is competitive, based on overall GPA, grades in the social sciences, a written statement of goals, language background, and any international experience. Before applying, students must complete either ECON 200 or 201; and either SIS 200 or 201. Grades in these courses will be given special consideration. Application deadline is the third Friday of each quarter; students are notified by the sixth Friday of the quarter in which they apply. Sophomore standing is preferred.

Major Requirements: Foreign-language competency through the second-year college level; ECON 200, 201; SIS 200, 201, 202, 401, 495, 498; three or four upper-division courses in an approved track; three upper-division interdisciplinary courses in international studies; a major paper of approximately 25 pages to be completed in one of the courses in the student's approved track or in one of the approved interdisciplinary courses. Majors are required to maintain a GPA of at least 2.50, both overall and in the program, and to earn a minimum 2.0 grade in all required SIS-prefixed courses.

Japan Studies

Susan B. Hanley, Chair

The Japan program combines language training with interdisciplinary study. Courses are offered in interdisciplinary studies, economics, business, political science, anthropology, all periods of Japanese history, art, law, literature, and language.

Bachelor of Arts

Admission Requirements: Two quarters Japanese language; SISEA/HSTAS 341; one upper-division course applicable to the major; 10 credits applicable to the major taken at the UW; minimum 2.00 overall GPA. Admission is competitive, based on GPA (emphasis on grades in courses related to program) and writing sample. Application deadline is the third Friday of each quarter; students are notified by the sixth Friday of the quarter in which they apply.

Major Requirements: 30 credits or second-year equivalent Japanese language training; additional training recommended. HSTAS 211; SISEA/HSTAS 341; HSTAS 423; SISEA 451; 20 credits of 300- and 400-level courses in Japan studies from approved list. One additional background course (5 credits) in a field other than Japan studies, to be approved by the adviser. Minimum 25 credits in upper-division required courses, including SISEA 451, taken at the UW. Mini-

mum 2.0 grade for language and all other required courses.

Jewish Studies

Robert C. Stacey, Chair

Jewish Studies brings the major disciplines of the humanities and the social sciences to bear on the history and culture of the Jewish people. Courses in history, both modern and premodern, comparative religion, and Near Eastern languages and civilization enable the student to study the history of the Jewish people, their rich and varied culture, and the influence of this culture upon world civilizations.

Bachelor of Arts

Major Requirements: Second-year equivalent Hebrew language training; up to 15 credits of Hebrew language study may be applied toward the 55 minimum credits required for the major. RELIG 210 (5 credits); SISJE/HIST 250 (5); SISJE 495, Majors Seminar (5); 25 credits of other courses in the Jewish studies curriculum.

Minor

Minor Requirements: RELIG 210 (5 credits); SISJE/HIST 250 (5); 20 additional credits from HEBR 473 or any upper-division SISJE course except 495 and 499. 15 credits of the minor must be taken at the UW.

Korea Studies

James B. Palais, Chair

The Korea program combines language instruction with history, society, and interdisciplinary area training for students interested in the culture and history of Korea. The program focuses on Korea within the broader context of East Asia.

Bachelor of Arts

Major Requirements: 30 credits or second-year equivalent Korean language training; additional training recommended. HSTAS 211; SISEA/HSTAS 212; SISEA/HSTAS 341; HSTAS 481, 482, and SISEA/ANTH 448; 20 credits in 300- and 400-level courses on East Asia.

Latin American Studies

Cynthia Steele, Chair

The Latin American Studies major combines language study in Spanish and Portuguese with work in history, the humanities, and the social sciences. It provides a comprehensive, interdisciplinary understanding of this major world region, emphasizing themes such as economic development, popular movements, cultural analysis, and hemispheric relations. At the same time, it gives students the option to develop their own particular disciplinary and thematic interests.

Bachelor of Arts

Major requirements: 45 credits (or equivalent) foreign language training, to include either two years of Spanish and one year of Portuguese or two years of Portuguese and one year of Spanish; 30 credits from an approved list, to include 10 each from the following: history; literature and arts; economic, political, and social/cultural development; 10 elective credits from approved list; 5-credit interdisciplinary seminar, and 5 credits for SISLA 493, Senior Thesis.

Russian, East European, and Central Asian Studies

James D. West, Chair

The Russian, East European, and Central Asian program is designed for students who wish to pursue concentrated study of these regions within an interdisciplinary framework. The curriculum covers most aspects of the historical and contemporary development of Russia, the newly independent states of the former Soviet Union, East Europe, and Central Asia.

Bachelor of Arts

Major Requirements: A minimum of two years (30 credits, or equivalent proficiency—more is strongly recommended) of a relevant language, to be completed before taking the seminars in which the senior thesis is written; 15-20 credits of core courses including relevant surveys (for Russian focus, SISRE 243, 324; for Eastern Europe, SISRE/HSTEU 220; for Central Asia, SISRE 324 and SISRE/NEAR E 375 or equivalent) and a two-quarter sequence (SISRE 343, 457) leading to the writing of a senior thesis in which the relevant foreign language is to be used; 30-35 credits in 300- and 400-level courses in social sciences and humanities, approved by the program adviser. The normal pattern is for majors to focus on one of the major geographic regions covered by the program (i.e., Russia, East Europe, or Central Asia), but in consultation with the adviser, alternative combinations of courses may be approved.

South Asian Studies

Frank F. Conlon, Chair

The South Asian Studies program combines language instruction with history and interdisciplinary area training for students interested in Bangladesh, India, Nepal, Pakistan, Sri Lanka, or Tibet.

Bachelor of Arts

Major Requirements: 30 credits or second-year equivalent in one of the languages of South Asia (Hindi, Sanskrit, or Tibetan); 10 credits in the history of India; SISSA 498; 30 credits in the area from the following disciplines—anthropology, art history, Asian literature, comparative religion, economics, geography, history, linguistics, music, philosophy, or political science.

Southeast Asian Studies

John E. Butler, Chair

The Southeast Asian Studies program provides interdisciplinary area training and language instruction for students interested in the countries of Thailand, Vietnam, Indonesia, Malaysia, the Philippines, Burma, Laos, Cambodia, Singapore, and Brunei. The program emphasizes social science approaches to the study of Southeast Asian history, culture and society.

Bachelor of Arts

Major Requirements: 30 credits or second-year equivalent in a Southeast Asian language; 15 credits in required topic courses, including at least two from different disciplinary fields, chosen from SISSE/HSTAS 221, HSTAS 482; 463, SISSE/ANTH 314, 315, ANTH 352/RELIG 350, SISSE/POL S 343, SISSE 490; 5 credits from SIS 200, 201, 202; 25 additional credits in approved elective courses.

Graduate Program

The Jackson School offers six area studies programs that lead to a Master of Arts in International Studies degree. These include China Studies; Japan Studies; Korea Studies; Middle East Studies; Russian, East European, and Central Asian Studies; and South Asia Studies. Specific requirements vary from one program to another, but all stress interdisciplinary study within the context of the historical cultures, contemporary situations, and languages of the world areas. In addition, the Jackson School offers a program in Comparative Religion for the Master of Arts in International Studies.

The Jackson School also offers a general program in International Studies that concentrates on the interaction of international economic, political, and cultural processes with states and societies around the world. This program was developed in conjunction with several professional schools and is designed as a concurrent degree program.

Admission Requirements: Applicants must meet the requirements of the Graduate School: a 3.00 GPA in the last 90 quarter (60 semester) graded credits and a baccalaureate degree from an accredited university. Submission of the scores of the general Graduate Record Examination is required. Applicants must also meet the requirements of the specific Jackson School program to which they are applying. Most of them require or strongly recommend previous study of an appropriate foreign language.

Graduation Requirements: Students must meet Graduate School requirements for the Master of Arts, as well as individual Jackson School program requirements. Programs are designed to be completed in two years.

Financial Aid: Financial support is available in the form of Title VI Foreign Language and Area Studies Fellowships. Some Jackson School programs have additional fellowships available for specific areas of study. Graduate students are also eligible for a limited number of teaching or research assistantships and reader-ships.

Research Facilities (East Asia): Research and training facilities include the East Asia Library, with a comprehensive collection of manuscripts, books, and serials on China, Japan, and Korea. In addition, the University is affiliated with the Inter-University Program for Chinese Language Studies in Taipei, language programs in the People's Republic of China sponsored by the Council on International Educational Exchange, and the Inter-University Center for Japanese Language Studies in Yokohama, which provide intensive language training for advanced undergraduate and graduate students. The School has ongoing projects on China, Japan, and Korea in which advanced graduate students and recognized scholars from the United States and foreign institutions regularly participate.

See also descriptions of research facilities on Russia, East Europe, and Central Asia as well as South Asia under the appropriate headings below.

Correspondence and Information

Graduate Program Assistant
111 Thomson

China Studies

David Bachman, Chair

The China Studies program provides a broad understanding of the Chinese people and their culture, historical development, and contemporary problems. The curriculum emphasizes the attainment of facility in Chinese language, a grounding in history, and a familiarity with the approaches of the social sciences to China studies. The cultural aspects of China are covered through offerings of several departments, with special strengths in art history and literature. The breadth of offerings allows students to select courses to meet career goals in business, government, and other professions, or to prepare for further graduate study in an academic discipline.

Admission Requirements: See above under Graduate Program. While not required for admission, some previous study of Chinese language is highly recommended.

Graduation Requirements: Chinese language training through the third year; two seminars: SISEA 521-522 (5 credits each) plus 26 credits in discipline study related to China from at least two different disciplines; two seminar papers or a thesis; comprehensive oral examination.

Comparative Religion

Martin S. Jaffee, Chair

The Comparative Religion program leading to the Master of Arts in International Studies offers an interdisciplinary curriculum in the study of religion, with several choices for areas of concentration. The required core

seminars focus on methodology and comparative perspective in the study of religion. For the remaining course requirements, primary and secondary curricular concentrations are available in: Buddhism, Hinduism, Judaism, Islam, Christianity, and religion and culture; further secondary curricular concentrations are available in Greco-Roman religions, East Asian indigenous traditions, and African religious traditions. Most students should expect the program to require two years, due to language requirements.

Admission Requirements: See above under Graduate Program. The Comparative Religion faculty reserve the right to determine in each case whether an applicant has sufficient language preparation and background in the study of religion for acceptance into the program.

Graduation Requirements: Completion of the third year in a language of the primary sources in the chosen concentration, and first-year reading proficiency in a secondary foreign language necessary for reading published research (e.g., German, French); certification of basic competency in the history of world religions; RELIG 501-502; one course focused on historical relations between religious traditions; at least four courses in a major concentration and two in a minor; one or two final research paper(s); and a comprehensive examination including both oral and written segments.

International Studies

Resat Kasaba, Chair

The general program in International Studies provides students with broad knowledge and skills in analyzing international affairs. Designed for students entering a variety of professional fields, the program trains them in international and comparative studies in a multidisciplinary setting. Students are prepared to undertake sophisticated analyses of international affairs and typically will hold positions after graduation with the international divisions of federal and state governments, international divisions of banks, trading companies, policy study institutes, corporations with international operations, and international development and educational organizations. The program usually entails concurrent enrollment in a graduate professional degree program and adds approximately one year to the student's course of study.

Admission Requirements: See above under Graduate Program. Those applying concurrently to a professional program (Business Administration, Public Affairs, Marine Affairs, Forest Resources, Law, or Public Health and Community Medicine) must first be accepted by the professional school. For non-concurrent applicants, preference is given to those who have a professional interest, or previous professional experience or education. Prior study of a foreign language and preparation in intermediate-level microeconomics and macroeconomics are highly recommended.

Graduation Requirements: Japanese or Chinese language through the third year or any other modern foreign language through the second year; SIS 500, 501, and 502 (3 credits each); SIS 511-512 (3 credits each); SIS 591, 592, and 593 (1 credit each); courses in two of the following three fields: a regional studies field, a professional field, or a special topics field (minimum three classes—9 credits—for each field); two seminar papers and an oral examination. Students in concurrent graduate degree programs also must meet Graduate School requirements for the second degree.

Japan Studies

Susan B. Hanley, Chair

The graduate program in Japan Studies gives students in-depth knowledge of many facets of Japan and familiarity with Japanese society and culture. Course work helps students prepare for careers in business, government, journalism, teaching, and a wide variety of

professional fields. The program is specifically designed for students with bachelor's degrees in a discipline, who need language and interdisciplinary training on Japan to pursue their career goals, and as preparation for doctoral work in an academic discipline involving Japan for students who have had little or no training on Japan or in the language.

Admission Requirements: See above under Graduate Program. At least one year of prior training in Japanese language is strongly recommended.

Graduation Requirements: Japanese language training through the third year (15 credits minimum training at this university); SISEA 555 (6 credits) and SISEA 558-559 (5 credits each); 20 credits in discipline study of Japan to include at least one history course and one social science course; two seminar papers or a thesis and an oral examination.

Korea Studies

James B. Palais, Chair

The graduate program in Korea Studies offers courses in Korean language, history, and society. Regular offerings are supplemented by visiting faculty from political science, economics and economic development, folklore, and literature. The program emphasizes the study of Korea in the context of East Asian civilization and the modern world economy, not simply as a single country in isolation from its neighbors. The objective of the program is to provide students with a broad background which will be of use for further graduate study, or in a variety of professions such as teaching, business, and government.

Admission Requirements: See above under Graduate Program. Previous language training is recommended.

Graduation Requirements: Korean language through the third year of instruction (through the second year of instruction if the student is admitted with no previous language training); HSTAS 481-482, SISEA/ANTH 448 (5 credits each), and SISEA 585 (6 credits); 15 credits in discipline study of East Asia or international studies; two seminar papers; comprehensive oral examination.

Middle Eastern Studies

Ellis Goldberg, Chair

The Middle East program is designed for students who wish to study the region within an interdisciplinary framework, focusing especially on the social, political, economic, and legal structure of the Middle East. Students interested in an M.A. degree emphasizing literature and other humanistic aspects of the Middle East should inquire about the program in the Department of Near Eastern Languages and Civilization.

Admission Requirements: See above under Graduate Program. Although knowledge of a Near Eastern language is not a prerequisite for admission, applicants are generally expected to have had at least the equivalent of one year's study of the language in which they plan to concentrate. Students with no language training may wish to begin their language program in an intensive summer program.

Graduation Requirements: Three 3-credit or two 5-credit Middle Eastern language courses beyond the second year (native speakers as well as non-native speakers); a core undergraduate course such as NEAR E 210, Introduction to Islamic Civilization, or a survey of the Muslim Near East; three courses on the modern Middle East, in at least two of the following disciplines: history, political science, or international studies; an advanced course in Middle East literature, culture, or religious developments; one approved Jackson School course; two courses in one social science discipline or in one professional school other than courses taken for preceding requirements; advanced reading courses on the Middle East; a thesis or two seminar papers and a four-hour written examination.

Russian, East European, and Central Asian Studies

James D. West, Chair

Designed primarily for students with B.A. degrees in a discipline, the programs offer a background for professional pursuits in government, journalism, business, or teaching, or for those who plan to take advanced graduate study leading to the Ph.D. degree in a discipline. The program includes language training, a concentration of study in a chosen discipline, and a combination of courses in other disciplines that focus on the region. Students usually focus on one of the specific regions (Russia, Eastern Europe, Central Asia), although they may, with permission of the adviser, take courses on more than one region.

Admission Requirements: See above under Graduate Program. A prerequisite for all applicants is two years of college-level language courses or the equivalent; for Russian Studies the language must be Russian; for other regions of the former Soviet Union and East Europe, two years of a language of the region, or other relevant language.

Graduation Requirements: Including the two years required for entry, four years of a language of the region being studied or two years each of two relevant languages (four years of Russian required for Russian focus); SISRE 500, 501, and 502 (3 credits each); 30 credits in disciplines other than language, with 15-20 credits in a discipline of concentration and 10-15 credits in at least two additional disciplines; a thesis (9 credits of SISRE 700); a written examination in the discipline of concentration and an oral interdisciplinary examination.

Research Facilities

The University of Washington is a major center for research on Eastern Europe, Russia, and the other newly independent states of the former Soviet Union, notably the countries of Central Asia. In addition to extensive holdings in Russian and East European language materials, the library has one of the best Central Asian language collections in the country. The strengths of the program are complemented by strengths in East Asian and Middle Eastern Studies.

South Asian Studies

Frank F. Conlon, Chair

The South Asian Studies program has been designed for students whose career objectives involve teaching and research in a traditional discipline with geographical interests within South Asia (i.e., India, Pakistan, Sri Lanka (Ceylon), Bangladesh, Nepal, and Tibet); those planning to enter professional training programs (e.g., education, business administration, journalism, law, or public affairs); or students planning a career in government service (e.g., the foreign service) who wish to acquire a special understanding of the South Asia area.

Admission Requirements: See above under Graduate Program.

Graduation Requirements: Completion of the third year of a South Asian language to include at least 7 credits at the 400 level or above; SISSA 510 and 511 (5 credits each); 28 credits in discipline course work other than language, of which 18 must be directly related to South Asia; two seminar papers and a comprehensive oral examination.

Research Facilities

The University of Washington library holds an extensive collection of books and serials relating to South Asia. The library participates in the U.S. Library of Congress Public Law 480 program, which supplies current publications from India, Pakistan, and Sri Lanka (Ceylon); and is a member of the South Asian Microfilm Program of the Center for Research Libraries, providing access to a large collection of microfilm newspapers, journals, and documents on South Asia.

Professors

Alden, Dauril * 1959; MA, 1952, PhD, 1959, University of California (Berkeley); Latin American history, comparative colonial history.

Augerot, James E. * 1960; MA, 1959, New Mexico Highlands University; PhD, 1968, University of Washington; Slavic linguistics, Romanian, Bulgarian.

Bacharach, Jere L. * 1967; MA, 1962, Harvard University; PhD, 1967, University of Michigan; history of the Middle East, Islamic.

Brass, Paul R. * 1965; PhD, 1964, University of Chicago; comparative politics (South Asia).

Butow, Robert J. C. * 1960, (Emeritus); PhD, 1953, Stanford University; East Asian diplomatic history.

Chirot, Daniel * 1974; PhD, 1973, Columbia University; modernization, political sociology, Eastern Europe.

Conlon, Frank F. * 1969; PhD, 1969, University of Minnesota; history of India.

Ellison, Herbert J. * 1968; PhD, 1955, University of London (UK); modern Russian history.

Haley, John O. * 1974; LL.B., 1969, Yale University; LL.M., 1971, University of Washington; comparative law (Japan).

Haney, Jack V. * 1965; DPhil, 1971, Oxford University (UK); medieval Russian literature, Slavic folklore.

Hanley, Susan B. * 1970; PhD, 1971, Yale University; premodern Japan.

Harrell, Stevan * 1974; PhD, 1974, Stanford University; family systems, demography, social evolution, religion, China, Taiwan.

Hellmann, Donald C. * 1967; PhD, 1964, University of California (Berkeley); Japanese politics and international relations.

Jackson, W. A. Douglas * 1955, (Emeritus); PhD, 1953, University of Maryland; Canada, political systems, nature and culture.

Jaffee, Martin S. * 1987; PhD, 1980, Brown University; rabbinic religion and literature in late antiquity.

Keyes, Charles F. * 1965; PhD, 1965, Cornell University; ethnic group relations, sociology of Theravada Buddhism, mainland Southeast Asia.

Lardy, Nicholas R. * 1983; PhD, 1975, University of Michigan; international economics and Chinese economic development and trade.

Legters, Lyman H. * 1966, (Emeritus); PhD, 1958, Freie University of Berlin (Germany); Russian and East European Studies.

Mah, Feng-Hwa * 1961, (Emeritus); PhD, 1959, University of Michigan; Chinese economy and foreign trade.

Micklesen, Lew R. * 1966, (Emeritus); PhD, 1951, Harvard University; Slavic linguistics.

Migdal, Joel S. * 1980; MA, 1968, PhD, 1972, Harvard University; state and society in the Third World; Middle East politics.

Palais, James B. * 1968; PhD, 1968, Harvard University; modern Korean history.

Pempel, T. J. * 1995; PhD, 1972, Columbia University; comparative politics in Japan.

Potter, Karl H. * 1970; PhD, 1955, Harvard University; South Asia, Indian philosophy, epistemology.

Pyle, Kenneth B. * 1964; PhD, 1965, Johns Hopkins University; modern Japanese history.

Ramet, Sabrina P. * 1983; PhD, 1981, University of California (Los Angeles); politics and history of former Yugoslavia, East European religion and culture.

Stacey, Robert C. * 1988; PhD, 1983, Yale University; medieval England, medieval Judaism, political and legal history.

Steele, Cynthia * 1986; PhD, 1980, University of California (San Diego); Latin American literature and society, narrative and feminist theory.

Sugar, Peter * 1959, (Emeritus); PhD, 1959, Princeton University; political and economic history of eastern Europe and Near East since the eighteenth-century.

Taylor, George E. 1939, (Emeritus); MA, 1928, LittD, 1957, University of Birmingham (UK); East Asian studies.

Townsend, James R. * 1968, (Emeritus); PhD, 1965, University of California (Berkeley); comparative government (China), politics of development.

Webb, Eugene * 1966; PhD, 1965, Columbia University; modern English, French, and German literature, comparative religion.

Williams, Michael A. * 1976; PhD, 1977, Harvard University; early Christianity and religions of antiquity.

Yamamura, Kozo * 1972; PhD, 1964, Northwestern University; economic development and economic history of Japan, comparative economic history.

Associate Professors

Anchordoguy, Marie C. * 1989; PhD, 1986, University of California (Berkeley); Japan's political economy; East Asian economic development.

Bachman, David M. * 1991; PhD, 1984, Stanford University; Chinese politics and foreign policy and China's political economy (1949-present); US-China relations.

Butler, John E. * 1985; PhD, 1985, New York University; entrepreneurship, technology and innovation, strategic management.

Chan, Anthony B. * 1990; PhD, 1980, York University (Canada); history and politics of Pacific Rim communication systems, Canadian studies.

Coats, Herbert S. * 1968; PhD, 1970, University of Illinois; Slavic linguistics, Russian phonology, Russian syntax, Slavic accentuation.

Goldberg, Ellis * 1985; PhD, 1983, University of California (Berkeley); political economy of the Middle East, comparative politics.

Guy, R. Kent * 1980; PhD, 1981, Harvard University; modern Chinese history.

Jones, Christopher D. * 1984; PhD, 1975, Harvard University; post-Cold War security issues in Europe and East Asia, political economy.

Kaczynski, Włodzimierz M. * 1977, (Adjunct); PhD, 1972, University of Gdansk (Poland); fishery economics, international joint ventures in marine fisheries, international fisheries policy.

Kasaba, Resat * 1985; PhD, 1985, State University of New York (Binghamton); historical sociology, world systems, social change in the Middle East.

Keeler, John T. * 1980; PhD, 1978, Harvard University; comparative politics (Western Europe), international relations.

Kievel, Hillel J. * 1985; PhD, 1981, Harvard University; modern Jewish history, modern European history (Central and Eastern Europe).

Konick, Willis * 1950; PhD, 1964, University of Washington; Russian literature, nineteenth-century European literature.

Lavelly, William R. * 1985; PhD, 1982, University of Michigan; social demography of China.

Lukoff, Fred 1964, (Emeritus); MA, 1948, PhD, 1954, University of Pennsylvania; Korean language and linguistics.

Poznanski, Kazimierz * 1987; PhD, 1974, University of Warsaw (Poland).

Sorensen, Clark W. * 1989; PhD, 1981, University of Washington; Korea, social change in East Asia, development, ethnic identity.

Waugh, Daniel Clarke * 1972; PhD, 1972, Harvard University; medieval Russian history.

West, James D. * 1972; PhD, 1970, Cambridge University (UK); modern Russian literature, art and philosophy.

Assistant Professors

Sparke, Matthew 1995, (Acting); MA, 1991, PhD, 1996, University of British Columbia (Canada); human geography.

Whiting, Susan H. 1994; PhD, 1995, University of Michigan; international relations (China).

Young, Glennys J. * 1992; PhD, 1989, University of California (Berkeley); late Imperial and early Soviet Russia.

Lecturer

Engelmann, Kurt E. 1986; MA, 1988, PhD, 1993, University of Washington; geography of central Asia, human-environment interactions in the former Soviet Union.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

International Studies

SIS 200 States and Capitalism: The Origins of the Modern Global System (5) I&S *Kasaba, Migdal* Origins of the modern state system and of the world market in Europe. Interacting forces of politics and economics around the globe from the sixteenth century until World War II.

SIS 201 Introduction to International Political Economy (5) I&S *Jones, Migdal* International political economy through the examination of major facets of the post-World War II era. Analyzes the new postwar economic order and its crises in the 1970s and 1980s, North-South relations, the postwar political order and its East-West rivalry. Recommended: ECON 200.

SIS 202 Cultural Interactions in an Interdependent World (5) I&S *Guy* Cultural interaction among societies and civilizations, particularly Western versus non-Western. Intellectual, cultural, social, and artistic aspects; historical factors.

SIS 301 War (5) I&S *Chirot* Origins and conduct of war; readings from anthropology, political science, economics, and history, as well as novels and some recent works on the arms-control controversy. Modern forms of warfare, including guerrilla war, world war, and nuclear war. Offered jointly with SOC 301.

SIS 302 Intercultural Relations (5) I&S *Webb* Perspectives on foreign cultures through literary example. Interdisciplinary approaches to the study of culture as such and problems of intercultural relations. Prerequisite: 202 or ANTH 202.

SIS 330 Political Economy of Development (5) I&S *Poznanski* Growth, income distribution, and economic development in less-developed countries today. Policies concerning trade, industrialization, the agricultural sector, human resources, and financing of development. Prerequisites: ECON 200, 201.

SIS 332 Political Economy of International Trade and Finance (5) I&S *Poznanski* Theoretical and historical analysis to explore the causes and effects of the rise and decline of four major international trade

and monetary regimes. Foundations and emerging features of the new international trade and monetary regime and its implications for the world economy.

SIS 335 Geography of the Developing World (5) I&S Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization, and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Offered: jointly with GEOG 335.

SIS 340 Comparative Communism and Post-Communism (5) I&S Ramet Nature of politics in communist and post-communist systems, focusing on Soviet (Russian), Chinese, Yugoslav, and East German (German) cases. Relates communism to the broader subject of revolutionary transformation. Prerequisite: one previous course in international studies, political science, or history.

SIS 342 Social Theory in International Context (5) I&S Comparative, historical introduction to the foundations of modern social theory in the work of Max Weber, Sigmund Freud, and Claude Lévi-Strauss. Focus on tensions between universalist claims, European origins, and non-European applications of models of cultural formation and development.

SIS 348 Alternative Routes to Modernity (5) I&S Routes to modernity followed by non-Western societies between 1600 and 1900. Historical experiences of non-Western societies seen in the context of European history and of development theory. Emphasizes primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with HSTAS 348.

SIS 360 Technology, Growth, and Competition (5) I&S Poznanski Discusses theoretical accounts of empirical findings on technological change (invention, innovation, diffusion) and factors behind technological change, e.g., market structure, business cycle, state policies. Analyzes the impact of technology on economic growth, i.e., productivity. Discusses the role of technology in foreign trade, particularly in the United States.

SIS 365 World Cities (5) I&S Factors that have propelled New York, London, and Tokyo into key positions in the organization of the late twentieth century international system. Asks historical and comparative questions and discusses the reasons behind the diminished position of cities such as Venice, Vienna, and Istanbul in that system.

SIS 375 Geopolitics (5) I&S Spatial aspects of international politics, with attention to perceptions of national space, the way states organize territory, and the strategic use of geography to advance state goals. Prerequisite: GEOG 100 or an introductory course in International Studies. Offered: jointly with GEOG 375.

SIS 390 Political Economy of Industrialized Nations (5) I&S Ingebritsen Theoretical bases of various political economic systems of industrialized nations. Several major issues these political economies currently face; usefulness and limits of economic analyses within broader perspective of political economy. Prerequisites: ECON 200, 201.

SIS 397 Junior Honors Seminar (5) I&S Designed to facilitate writing of honors thesis through methodological and bibliographical research. Required of honors candidates. Prerequisite: admission to Jackson School honors program.

SIS 399 Study Abroad—International Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

SIS 401 International Political Economy (5) I&S Poznanski Establishment, maintenance, and decay of the post-1945 international economic order. Political economy of international trade, monetary relations,

inflation, and North-South relations. Prerequisites: 201 and ECON 200 and 201.

SIS 405 Political Economy of Religious Institutions (5) I&S Comparative study of Buddhist, Taoist, Christian, and Islamic religious institutions as political and economic phenomena. Impact of wealth and power on religious institutions or religious ideas. Temporal coverage from the formative period to the present. Prerequisite: one course on China, Japan, Middle East, or Europe.

SIS 406 Political Islam and Islamic Fundamentalism (5) I&S Study of resurgence, since mid-1970's, of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with POL S 432.

SIS 419 Comparative Media Systems (5) I&S Giffard, Rivenburgh Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with CMU 420.

SIS 421 National Security and International Affairs (5) I&S Jones Major military aspects of contemporary international politics. Uses and limitations of military capabilities for sustaining a stable international order and national security. Processes by which states detect and assess threats to their security; practice of deterrence; transfer of arms among states; pursuit of arms control. Recommended: course work in international relations.

SIS 422 The United States in the Contemporary International System (5) I&S Hellmann United States in the world: ways in which international circumstances shape the political-strategic, economic, and cultural dimensions of America's policy. Case studies from post-1945 period. Recommended: background course work in international relations or American foreign policy.

SIS 423 Practicing American Foreign Policy (5) I&S Develops familiarity with tools available to promote international objectives of the United States. International case studies selected to illustrate the diverse considerations inherent in the policy process and evaluate the strengths and weaknesses of the national institutions involved. Prerequisite 200, 201, and 202.

SIS 426 World Politics (5) I&S Caporaso, Modelski Nation-state system and its alternatives; world distributions of preferences and power; structures of international authority; historical world societies and their politics. Offered: jointly with POL S 426.

SIS 432 Population and Modernization (3) I&S Hirschman, Lavelly Examines role of demographic factors in process of social modernization and economic growth. Approach is historical, focusing on populations of developed countries since 1700, and analytic, stressing attempts made by different disciplines to model demographic relationships, with attention to less developed regions. Prerequisite: SOC 331 or permission of adviser. Offered: jointly with SOC 432.

SIS 438 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S Brass Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Prerequisite: junior standing. Offered: jointly with POL S 436.

SIS 440 History of Communism (5) I&S Ellison, Ramet Communism from its origins in Bolshevik fac-

tion of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Prerequisites: two courses in modern European history or politics. Offered: jointly with HSTEU 440.

SIS 444 Peasants in Politics (5) I&S Young Interdisciplinary study of peasants, with special attention to questions of rural transformation. Peasant involvement in an increasingly independent world. Rebellion and revolution, impact of the international market, agricultural development. Offered: jointly with POL S 446.

SIS 449 Social Transformation of Modern East Asia (5) I&S Sorensen Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Prerequisites: two courses on East Asian history or society. Offered: jointly with ANTH 449.

SIS 450 Political Economy of Women and Family in the Third World (5) I&S Neuhauser Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with SOC 450.

SIS 455 Industry and the State (5) I&S Builds on states and markets approach of 200 and 201 through specific examination of effects of industry and industrial structure on political outcomes and roles of state. Emphasis on late-developing and newly developing economies. Prerequisites: 200, 201.

SIS 456 State-Society Relations in Third World Countries (5) I&S Bachman, Kasaba, Townsend Relationships among political, social, and economic changes in Asia, Africa, and Latin America. Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with POL S 450.

SIS 465 Deeply Divided Societies (5) I&S Migdal Ethnic conflict seen from two perspectives: 1. the study of theoretical approaches as a means of understanding deeply divided societies; 2. a focus on one or more specific conflicts. Prerequisite: 201 or POL S 204.

SIS 467 Nations and States in the Modern World (5) I&S Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by the new nationalism and its spread into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with HIST 467.

SIS 476 Comparative International Political Economy (5) I&S Comparative analysis of four major approaches to international political economy: mercantilism, Marxism, liberalism, and evolutionary approach. Focus on international cooperation, social change, and economic institutions. Theoretical analysis of the four paradigms and applications to historic and current issues in international political economy: hegemonic cycle, post-communist transition, and cross-national income inequality.

SIS 480 The Catholic Church in World Politics (5) I&S Ramet Acquaints students with the self-identity, theology, ecclesiology, and political role of the Catholic Church in the contemporary era, with emphasis on its role in the United States, the USSR, China, Eastern Europe, and Latin America. Prerequisites: two courses in either world politics or comparative religion.

SIS 490 Special Topics (1-5, max. 15) I&S Content varies from quarter to quarter.

SIS 491- Senior Honors Seminar (5) I&S Study of issues related to students' thesis topics. Develops thesis-writing skills. Open only to Jackson School honors students.

SIS 482 Senior Honors Seminar (-5) I&S Students write a senior thesis working with their individual writing advisers.

SIS 495 Task Force (5) I&S Small-group seminars address current problems in international affairs, each focusing on one specific policy question and producing a joint task force report. Restricted to senior majors in International Studies. Prerequisites: 200, 201, 202, 401.

SIS 498 Readings in International Studies (5) I&S Reading and discussion of selected works of major importance in interdisciplinary international studies. Restricted to majors in International Studies.

SIS 499 Undergraduate Research (1-5, max. 15) Prerequisite: permission of instructor.

African Studies

SISAF 444 African Studies Seminar (3, max. 9) I&S Interdisciplinary seminar focusing upon one particular aspect of the African continent. Emphasis may be humanistic, social scientific, or historical. African Studies faculty and visiting scholars lecture on areas of their own expertise.

SISAF 499 Undergraduate Research (1-5, max. 15) Prerequisite: permission of instructor.

Canadian Studies

SISCA 308 Canada: A Geographic Interpretation (5) I&S Study of Canada; emergence of political-geographic and cultural entity and identity in North America that presents significant contrasts to the United States. Components that have helped shape Canadian earth-space and landscape. Offered: jointly with GEOG 308.

SISCA 341 Government and Politics of Canada (5) I&S Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered: jointly with POL S 341.

SISCA 356 Canadian Society (5) I&S Origins to the present in its North American setting; political development, cultural evolution, and emergence of multinationalism; economic base; arts and literature; problems of the environment; Canadian foreign relations.

SISCA 399 Study Abroad—International Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

SISCA 424 Canadian Media Systems (5) I&S Structure and operation of Canadian mass media and telecommunications industries. Impact of United States media on Canadian culture. Role of domestic media in lives of minorities. Laws and policies governing communications. Offered: jointly with CMU 424.

SISCA 441 Québecois Literature (5) VLPA Readings of novels, plays, and occasionally, poetry. Special attention paid to how Québecois authors represent in their works the complex socio-political reality of their culture. Conducted in French. French majors required to read and write in French; all others may read and write in English. Prerequisites: FRENCH 303 and 306 or permission of instructor. Offered: jointly with FRENCH 441.

SISCA 490 Special Topics (1-5, max. 15) Content varies.

SISCA 495 Multiculturalism in Canada (5) I&S History of the multi-racial and multi-ethnic character of Canadian society. Impact of federal policy of bilingualism and multiculturalism. Current issues of language rights, retention of cultural heritage, self-government for aboriginal peoples, and improving race and ethnic relations.

SISCA 498 Seminar: Canadian Problems (5) I&S Major issues pertaining to Canadian society, government, and economic development.

SISCA 499 Undergraduate Research (1-5, max. 15) Prerequisite: permission of instructor.

China Studies

SISEA 101 Contemporary China (5) I&S Survey of the land and peoples, history, politics and foreign relations, economy, society, and culture of the People's Republic of China. Particular emphasis on current issues and policies. Designed for students with little or no background on China.

SISEA 399 Study Abroad—International Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

SISEA 424 Perspectives on East Asia for Teachers (3, max. 6) I&S Substantive concepts, resources, and materials employed in teaching about East Asia. Requirements may vary in relation to the background of participants.

SISEA 434 Demographic Issues in Asia (3-5) I&S *Hirshman, Lavelly* Contemporary Asian countries face a number of issues with demographic components, including environmental and resource issues, ethnic rivalries, international migration, and public health. Addresses a set of these issues by focusing on the demography of one or more countries in Asia. Offered: jointly with SOC 434.

SISEA 445 Religion in China (5) I&S *Harrell* Religion in Chinese society, doctrines, practices, and social consequences of the eclectic folk religion, the elite Confucian, Taoist, and Buddhist traditions, syncretistic sects, and imported Christianity. Prerequisite: one course in Chinese society, politics, or history or permission of instructor. Offered: jointly with ANTH 447.

SISEA 446 Political Development in East Asia (5) I&S Comparative examination of political development in Japan and China from the nineteenth century to the present. Emphasis on theories of development and their applicability to the East Asian context. Prerequisite: one course in Chinese or Japanese history or in political development, or permission of instructor.

SISEA 449 Government and Politics of China (5) I&S Post-1949 government and politics, with emphasis on problems of political change in modern China. Prerequisite: junior standing. Offered: jointly with POL S 442.

SISEA 455 Undergraduate Colloquium on China (5) I&S Topics and readings vary but are usually drawn from interdisciplinary studies of modern China. Required for senior majors in Chinese regional studies, but open to other students with comparable backgrounds with approval of instructor.

SISEA 456 Topics in Chinese Social History (5) I&S *Guy* Surveys major issues and approaches to the study of the role of the Chinese people in China's historical development. Historical focus of course varies with instructor. Prerequisite: appropriate 400-level course in Chinese history or permission of instructor. Offered: jointly with HSTAS 456.

SISEA 464 Contemporary Society in the People's Republic of China (5) I&S Separate development of rural and urban social institutions in the People's Republic of China since 1949 from a sociological perspective. Family and marriage, social control, educational institutions. Dilemmas of contemporary China and reasons for institutional change. Offered: jointly with SOC 464.

SISEA 468 China's Economic Reforms: Integration Into World Economy (5) I&S *Lardy* A systematic survey of China's economic reforms since 1978,

including China's increasing integration into world economy. Prerequisite: ECON 493 or permission of instructor. Offered: jointly with ECON 468.

SISEA 470 Minority Peoples of China (5) I&S *Harrell* Interaction between China and the peoples of its periphery, including Inner Asia, Tibet, Northern Mainland, Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state. Prerequisite: one 200-level ANTH course or HSTAS 454 or ANTH 370. Offered: jointly with ANTH 470.

SISEA 490 Special Topics (1-5, max. 15) I&S Course content varies.

SISEA 499 Undergraduate Research (1-5, max. 15)

Comparative Religion

RELIG 201 Introduction to World Religions: Western Traditions (5) I&S *Jaffee, Webb, Williams* History of religions, concentrating on religious traditions that have developed west of the Indus. Primary attention to the Semitic religions (Judaism, Christianity, Islam) and to their ancient world background with emphasis on basic conceptual and symbolic structures.

RELIG 202 Introduction to World Religions: Eastern Traditions (5) I&S *Conlon, Cox* History of religions, concentrating on religions that have developed in South Asia and East Asia. Primary attention to Hinduism and Buddhism; other important Asian religions are discussed in relation to them, with emphasis on basic conceptual and symbolic structures.

RELIG 210 Introduction to Judaism (5) I&S *Jaffee* Basic ideas and motifs of Judaism: God, Covenant, Law, Life Cycle (birth, marriage, family life, sexual laws, role of women, death); Cycle of the Year (Sabbath, holidays, festivals); Holy Land, prayer, Messianism.

RELIG 211 Islam (5) VLPA/I&S Religious and cultural milieu of Arabia before Muhammad; Muhammad's call and struggles to establish the new faith; Qur'anic content and style; Western and Muslim scholarship and the Qur'an; place of traditions in the Islamic edifice; Muslim political and religious thought; sources of Muslim religious law; and modern Muslim movements. In English. Offered: jointly with NEAR E 211.

RELIG 212 Qur'an in English (3) VLPA/I&S Survey of the contents of the sacred scripture of Islam, regarded by Muslims throughout the world as the literal word of God. Treats Qur'anic narrative, law, theology, and ethics. Some attention also given to the Qur'an as an historical document and to Qur'anic scholarship by non-Muslims. Offered: jointly with NEAR E 212.

RELIG 220 Introduction to the New Testament (5) VLPA/I&S *Williams* Modern scholarly methods of research and analysis in dealing with New Testament books and their interpretation. Genres of various books (gospel, epistle, sacred history, apocalypse); problems of the relationships among author, material, and intended audience; relationships between theme and image.

RELIG 240 Introduction to the Bible: Old Testament (5) VLPA/I&S *Jaffee* Introduction to the Hebrew Bible in English. Results of modern critical studies on the Bible and the ancient Near East. Concentrates on the meaning of Biblical records in their own time and environment. Offered: jointly with NEAR E 240.

RELIG 301 Religious Thought Since the Middle Ages (5) I&S *Webb* Development of religious thought in the West from the Middle Ages to the twentieth century. History of focal ideas: God, man, knowledge, and authority during this period and the relation of changes in these ideas to the ways in which basic issues in religious thought have been conceived. Recommended: 201.

RELIG 322 The Gospels and Jesus of Nazareth (5) I&S *Williams* Gospel material from early Christian-

ity, including both canonical and noncanonical gospels. Relation of gospels to analogous literature from the Hellenistic-Roman period. Recommended: 220 or ENGL 310.

RELIG 324 The Emergence of Christianity (5) I&S Williams Studies stages in the development of Christianity as a new religion, during the first to fifth centuries CE, as the classical forms and institutions of Christian "orthodoxy" gradually achieved definition, and as this emerging Christian tradition became a dominant cultural and socio-political force. Recommended: 201, 220, or HIST 307.

RELIG 327 Eastern Christian Traditions (5) I&S Webb Eastern Christian traditions, with principal focus on Eastern Orthodox tradition in Byzantium and Russia from time of the Council of Nicea to the twentieth century. Considers significant differences between eastern and western Christianity and their doctrinal and cultural origins; explores distinctive features of eastern tradition. Prerequisite: 201 or HIST 307.

RELIG 350 Buddhism and Society: The Theravada Buddhist Tradition in South and Southeast Asia (5) I&S Keyes Religious tradition of Theravada Buddhism (as practiced in Sri Lanka, Burma, Thailand, Laos, and Cambodia). Variations in ethical orientations developed through Theravada Buddhist ideas. Recommended: 202 or knowledge of one Eastern religious tradition. Offered: jointly with ANTH 352.

RELIG 352 Hinduism (5) I&S Varieties of Hindu religious practice; the diverse patterns of religious thought and action among contemporary Hindus. Includes ritual behavior, village Hinduism, tantrism, sadhus, yoga, sects, the major gods and their mythologies, religious art, and the adjustments of Hinduism to modernity. Recommended: 202 or other study of South Asian culture.

RELIG 354 Buddhism (5) I&S Cox Buddhism as a religious way and as a way of thinking; the forms of Buddhism known in South Asia (India, Sri Lanka) and those introduced from there to Tibet and other parts of Central Asia. Includes the "Three Jewels" (i.e., the Buddha or Awakened Person, the Teaching [Dharma], and Community [Sangha]) around which Buddhism is traditionally articulated. Recommended: 202 or other study of Asian culture.

RELIG 380 The Nature of Religion and Its Study (5) I&S Jaffee, Webb Study of religion as a general human phenomenon. Manner in which different methods of inquiry (phenomenology, anthropology, sociology, psychology, literary criticism, archaeology, philosophy, theology) illuminate different aspects of religion and help to shape our conceptions of its nature. Recommended: 201 or 202 or other course in the history of religious traditions. Offered: jointly with CHID 380.

RELIG 399 Study Abroad—Comparative Religion (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

RELIG 400 The Jewish Mystical Tradition (5) I&S Jaffee Jewish esoteric thought from antiquity to early modern times. Emergence of Spanish Kabbalah. The thought of Isaac Luria and its immense influence in Jewish history through other movements—specifically the mystical messiah, Sabbetai Sevi, and the rise of Hasidism. Recommended: 201 or 210.

RELIG 405 Scripture in Judaism (5) I&S Jaffee Explores the phenomenon of religious interpretation of sacred books by attending to the destiny of the Bible as read within Judaism. Begins with the canonization of the biblical text itself and continues into the rationalist and mystical interpretive innovations of the Middle Ages. Recommended: 201, 210 and/or SISJE 250.

RELIG 410 Law in Jewish Experience (5) I&S Jaffee Place and function of law in Jewish social and

personal experience. Discusses the various ideological justifications of the law in biblical and rabbinic literature, examines representative texts, and explores theological reflection on law by medieval and modern thinkers. Prerequisite: 210. Recommended: 310 or 313.

RELIG 415 Modern Jewish Thought (5) I&S Jaffee, Kieval Major trends in Jewish religious thought since the European Enlightenment, focusing on encounters between Judaism and the modern world. Includes Haskalah; varieties of religious reform and accommodation; Zionism; socialism; the philosophy of Rosenzweig, Buber, and Kaplan; and theological responses to the Holocaust. Prerequisite: 210 or HIST/SISJE 250 or HSTEU/SISJE 469.

Culture of tribal peoples who live on peripheries of these societies. Cultural transformations consequent upon the war in Indochina and resettlement of Indochinese refugees in United States. Offered: jointly with ANTH 315.

SISSE 399 Study Abroad—International Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

SISSE 343 Politics and Change in Southeast Asia (5) I&S Government and politics in the countries of Southeast Asia, with attention given to the nature of the social and economic environments that condition them. Offered: jointly with POL S 343.

SISSE 469 Topics in Southeast Asian History (5) I&S Introduces major issues within the history and culture of one country of Southeast Asia. Content varies. Topics may include religion, economics, colonialism, perspectives on gender, labor history, literatures, popular culture, and performing arts. Focuses on a different Southeast Asian country each time offered. Offered: jointly with HSTAS 469.

SISSE 490 Special Topics in Southeast Asian Studies (2-5, max. 15) I&S Content varies.

SISSE 499 Undergraduate Research (1-5, max. 15) Prerequisite: permission of instructor.

Courses for Graduates Only

International Studies

SIS 500 Seminar: Origins of the Modern Global System (3) Kasaba, Migdal Development of global interdependence from the fifteenth century to World War II. Interrelationship of politics and economics. International political economy from contextual, institutional, and historical perspectives.

SIS 501 Seminar: International Political Economy (3) Poznanski, Yamamura Institutional and historical perspective on the international political economy, focusing on the developing interrelationship of politics and economics. Prerequisites: ECON 200, 201.

SIS 502 Seminar: Change and Stability in International Affairs (3) Jones Examines major differences in the nature of cultural and economic adaptation to the challenge of the West, as well as the tensions these differences have generated within particular societies. Regional phenomena in the context of powerful international forces.

SIS 511-512 Practicum: Methods in International Studies (3-3) Chiot Assumptions underlying leading methodologies for comparative study of societies and other large-scale social entities. Quantitative and nonquantitative methods illustrated by recent research. Recommended: course in introductory statistics.

SIS 522 Special Topics in Ethnicity and Nationalism (3, max. 6) Topics vary, but always focus on ethnic group relations and nationalism viewed from a broad, comparative, interdisciplinary perspective. Emphasis is heavily cross-cultural, and the geographical coverage world-wide. Prerequisite: graduate standing in any social science or education, or by permission of instructor.

SIS 534 International Affairs (3) Provides a broad understanding of international issues and United States policy. Students explore U.S. foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, development assistance, and the environment. Offered: jointly with PB AF 534/POL S 534.

SIS 542 Seminar: State and Society (5) Migdal Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with POL S 542.

SIS 551 Comparative Administrative Systems (3) Methodological problems of research in comparative administration. Theoretical and substantive aspects of administrative systems in urban-industrial and developing nations. Offered: jointly with PB AF 551.

SIS 575 Geography in Politics (3, max. 6) Sparke Literature in political geography and related fields pertaining to state and interstate relationships. Offered: jointly with GEOG 576.

SIS 580 Teaching International Studies (2, max. 4) Migdal For current and prospective teaching assistants. Includes teaching writing, leading effective discussions, the art of evaluation, and teaching critical reading skills; videotaping of actual teaching sessions of participants in class. Credit/no credit only.

SIS 590 Special Topics (2-5, max. 10) Seminar. Course content varies. Offered occasionally by visiting or resident faculty.

SIS 591-592-593 Colloquium in International Studies (1-1-1) Migdal, Kasaba Required colloquium for first-year Master in International Studies (MAIS) students. Informal introduction to the faculty and major avenues of research in international studies. Credit/no credit only.

SIS 600 Independent Study or Research (*)

Canadian Studies

SISCA 507 Research Seminar: Canadian Problems (3, max. 6) Consideration of the spatial dimensions of Canadian socioeconomic, cultural, and political development, with emphasis on resource potentials and relations with the United States, Japan, and other important trading partners. Prerequisite: GEOG 308 or permission of instructor. Offered: jointly with GEOG 507.

SISCA 550 Special Topics (2-5, max. 10) Offered occasionally by visitors or resident faculty. Course content varies.

China Studies

SISEA 521-522 Seminar: Introduction to the Interdisciplinary Study of China (5-5) Harrell, Thompson, Townsend

SISEA 530 Seminar on China (3, max. 6) Chan, Harrell Problems of Chinese history. Prerequisite: permission of instructor.

SISEA 531 Chinese History: Research Methods and Bibliographic Guides (3, max. 6) Chan Introductory research seminar dealing with the methodological and bibliographical problems concerning all periods and aspects of Chinese history from the earliest times to the nineteenth century. Prerequisite: two years of classical or modern Chinese.

SISEA 532 The Chinese Political System (3) Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Prerequisite: permission of instructor. Offered: jointly with POL S 532.

SISEA 533 Seminar on Contemporary Chinese Politics (3) Research on selected problems in contemporary Chinese politics. Prerequisite: 532 or permission of instructor. Offered: jointly with POL S 533.

SISEA 535 International Relations of Modern China (3-5) Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a course on contemporary Chinese politics or history, or permission of instructor. Offered: jointly with POL S 535.

SISEA 543 Law in East Asia: China (3) Clarke Introduction to the basic institutions and processes of the Chinese legal system. Development and role of law

in both the traditional and contemporary periods. Offered: jointly with LAW B 541.

SISEA 553 Chinese Legal Tradition (3) Chan, Haley, Liu Concepts and principles of the legal tradition in China. Draws on primary and secondary sources in English and, for students with Chinese language competence, traces the concept and development of Chinese law as well as legal institutions in Chinese society. Offered: jointly with LAW B 553.

SISEA 590 Special Topics (5, max. 10) Seminar. Course content varies. Offered occasionally by visiting or resident faculty.

SISEA 600 Independent Study or Research (*)

SISEA 700 Master's Thesis (*)

Comparative Religion

RELIG 501 Approaches to the Study of Religion (5) Cox, Jaffee, Williams Major approaches employed by modern scholarship in the study of religion, including historical, phenomenological, anthropological, sociological, and psychological. Prerequisite: admission to the comparative religion MA track or permission of instructor.

RELIG 502 Religion in Comparative Perspective (5) Ellingson, Jaffee, Keyes Analysis of selected theme or symbols in relation to several different religious traditions. Topics vary. Prerequisite: admission to the comparative religion MA track or permission of instructor.

RELIG 520 Seminar On Early Christianity (5) Williams Problems in the history and literature of early Christianity.

RELIG 528 Christian Theology (5) Study of exemplary figures in the history of Christian religious thought. Prerequisite: 428.

RELIG 570 Religion and Literature (5) Webb The relation of religious thought to the study of imaginative literature. Includes both critical theory and practical criticism of exemplary texts.

RELIG 590 Special Topics (2-5, max. 10) Offered occasionally by visitors or resident faculty. Course content varies.

RELIG 600 Independent Study or Research (*)

Japan Studies

SISEA 540 Law in East Asia: Japan (4) Foote, Haley Basic institutions and processes of the Japanese legal system. Historical development and traditional role of law, reception of Western law, and cultural and structural factors that influence the function of law and legal institutions. Offered: jointly with LAW B 540.

SISEA 541 Economic and Social History of Japan to 1900 (5) Hanley, Yamamura Analyses of landholding systems, the rise of commerce, demographic changes, urbanization, early industrialization, and social change. Prerequisite: previous course work in Japanese history or economic history, or permission of instructor. Not open to students who have taken 441. Offered: jointly with HSTAS 541.

SISEA 548 Japanese Administrative Law (3) Haley Japanese public law system. Organization and role of bureaucracy in formulating, carrying out national policy; legal principles governing procedural, decision-making aspects; role of judiciary, judicial review. Introduces students with Japanese to basic sources for legal research. Open to students without Japanese. Offered: jointly with LAW B 548.

SISEA 549 Government Regulation of Business in Japan (3) Offered: jointly with LAW B 549.

SISEA 551 International Relations of Northeast Asia (5) Hellmann Comprehensive survey of con-

temporary international relations of Northeast Asia with emphasis on Russia, Japan, China, and the United States. A multidisciplinary approach placing contemporary problems in historical context, drawing on modern social science theories. In particular, the connections between defense and economics are examined. Prerequisite: permission of instructor.

SISEA 555 Introduction to Modern Japanese Studies (3-6) *Hanley* Interdisciplinary introduction to the study of Japan, with emphasis on historical development. Required seminar for first-year graduate students.

SISEA 558 Readings on Japan in the Social Sciences (5) *Yamamura* Seminar discussing articles in Japanese in economics, history, political science, and other social sciences. Assignments from major Japanese monthlies and academic works. Prerequisites: JAPAN 313 or equivalent and permission of instructor.

SISEA 559 Interdisciplinary Seminar on Japan (6) *Yamamura* Advanced readings in history and the social sciences. Prerequisite: permission of instructor.

SISEA 575 Seminar on Japanese Society (5) *Hanley* Interdisciplinary seminar with class-led discussions on readings from anthropology, history, sociology, and nondiscipline-specific articles on Japanese society. Prerequisite: background on Japan. Not open to students who have taken 475.

SISEA 590 Special Topics (5, max. 10) Seminar. Course content varies. Offered occasionally by visiting or resident faculty.

SISEA 600 Independent Study or Research (*)

SISEA 700 Master's Thesis (*)

Korea Studies

SISEA 585 Research Seminar: Modern Korea (3-6) *Palais* Advanced instruction in problems and methods of research in Korean history. Foreign language not required. Prerequisite: permission of instructor.

SISEA 600 Independent Study or Research (*)

SISEA 700 Master's Thesis (*)

Middle Eastern Studies

SISME 530, 531, 532 Reading Seminar on Middle East Studies (2, 2, 2) Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no credit only.

SISME 590 Special Topics (3-5, max. 10) Content varies.

SISME 600 Independent Study or Research (*)

SISME 700 Master's Thesis (*)

Russian, East European, and Central Asian Studies

SISRE 500 Interdisciplinary Seminar (3) Contemporary problems in the societal, political, and economic development of Russia and East Europe. Seminars are devoted to specific topics, such as comparative cultures and ethnic minorities; economic development and environmental degradation; comparative communism; problems of a similar interdisciplinary nature. Prerequisite: permission of instructor. Required of all first-year MA students.

SISRE 501, 502 Bibliography and Research Methods (3, 3) Introduction to bibliographic and other scholarly resources in field; development of research techniques. Some use of relevant language required. Required of all first-year MA students. Credit/no credit only.

SISRE 504 Approaches to East European Politics (3-5) Selected concepts and methodologies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered jointly with POL S 537.

SISRE 505 Seminar: Problems of Social and Political Development in Eastern Europe (3-6) Research seminar dealing with selected problems of continuity and change in eastern Europe. Prerequisite: some previous course work on eastern Europe.

SISRE 555 Russian Ocean Policy (3) *Kaczynski* Russian ocean policy following perestroika and disintegration of Soviet empire. Discusses Russian navy, fishery industry, merchant marine, ocean research fleet, in light of international agreements, and joint ventures and new political, economic, and social environments. Prerequisite: knowledge of Soviet/Russian socio-economic problems or permission of instructor. Offered jointly with SMA 555.

SISRE 590 Special Topics (5, max. 10) Course content varies. Offered occasionally by visitors or resident faculty.

SISRE 600 Independent Study or Research (*)

SISRE 700 Master's Thesis (*)

South Asian Studies

SISSA 510 Introduction to Interdisciplinary Study of South Asia (5) *Salomon* Examines work done in the various disciplines focusing on South Asia.

SISSA 511 Seminar on South Asia (5) Interdisciplinary seminar for graduate students in which research and writing on individual research topics are critically developed. Designed to provide each student with an opportunity to synthesize his or her studies on South Asia. Prerequisite: 510 or permission of graduate program coordinator.

SISSA 590 Special Topics (5, max. 10) Seminar. Course content varies. Offered occasionally by visitors or resident faculty.

Labor Studies

Minor

The Labor Studies minor brings together a series of courses on labor in core social science departments. It provides students with an interdisciplinary program of study focusing on the importance of labor to the economic, social, political, and cultural evolution of modern societies.

Minor Requirements: 30 credits, including HIST 249/ POL S 249/ SOC 266 (5 credits). Additional 25 credits (no more than 10 from any one department) from the following: HIST 449, HSTAA 450, HSTAA 480, POL S 405, POL S 447, SOC 447, SOC 466, AES 361, CHSTU 354, ECON 443, ECON 444, HRMOB 420. 2.0 minimum grade required in all courses applied toward the minor.

Latin American Studies

See International Studies

Linguistics

A210 Padelford

Linguistics is the scientific study of language, which is one of the most characteristic human attributes. In contrast with other language-related disciplines, linguistics deals with languages from the point of view of their internal structure as cognitive systems. Courses provide training in the method and theory of language analysis and description, as well as studies of language change and language acquisition.

Undergraduate Program

Adviser
A211 Padelford
email: lingadv@u.washington.edu

Bachelor of Arts

Admission Requirements—Romance Linguistics: Two college years (or equivalent) of study in each of two Romance languages.

Major Requirements

General Linguistics: LING 200 or other introductory course in linguistics; 451, 452, 461, 462, 442, 453, 463 or 481; at least one year of each of two languages, one of which must belong to a different family of languages than the student's native language; 20 additional credits of departmentally approved courses in linguistics.

Romance Linguistics:

1) **Comparative**—LING 200 or 400 (4-5 credits); ROLING 402 (5 credits); three courses from LING 451, 452, 461, 462 (12 credits); 15 credits of language structure (from FRENCH and/or SPAN 400 through 409); either FRENCH or SPAN 301, 302 and 303 or equivalent (15 credits); completion of first-year program (103 or beyond) in a second Romance language; an approved 5-credit elective at the 400 level in FRENCH, ITAL, SPAN, LING or ROLING.

2) **Spanish Structure**—LING 200 or 400 (4-5 credits); three courses from LING 451, 452, 461, 462 (12 credits); 15 credits of Spanish structure (from SPAN 400 through 409); SPAN 301, 302 and 303 or equivalent (15 credits); 25 credits of approved electives in additional upper-division course work in SPAN, LING, ROLING.

3) **French Structure**—LING 200 or 400 (4-5 credits); three courses from LING 451, 452, 461, 462 (12 credits); 15 credits of French structure (from FRENCH 400 through 409); FRENCH 301, 302 and 303 or equivalent (15 credits); 25 credits of approved electives in additional upper-division course work in FRENCH, LING, ROLING.

Minor

Minor Requirements: 28 credits to include LING 400 or other introductory course in linguistics; three courses from LING 442, 451, 452, 461, 462, or 481; 12 additional

tional credits from a list of departmentally approved courses in linguistics.

Graduate Program

Heles Contreras, Graduate Program Coordinator
A210F Padelford

The Department of Linguistics offers programs of studies for graduate students leading to the degrees of Master of Arts and Doctor of Philosophy. The program is administered by the departmental faculty.

The major interest of the core faculty lies in theoretical linguistics: syntax, semantics, phonology, and Romance linguistics. Courses are also offered within the department in historical linguistics, field methods, and theory of second language learning.

Some course work is also available in various cooperating departments. Among those fields represented outside the department are anthropological linguistics; applied linguistics; speech and phonetics; philosophy of language; and the structure and history of a number of individual languages and language families.

Admission Requirements: At least one previous course in linguistics is highly recommended, as is proficiency in one language other than the student's native language. Three letters of recommendation and Graduate Record Examination scores are required for all applicants. Doctoral degree applicants should send the department a copy of their master's thesis or a paper of high quality, or both.

Master of Arts

Two courses each in syntax and phonology, one each in semantics and historical linguistics. Three more courses at the 400 or 500 level in other areas. At least three of the nine courses must be at the 500 level. Demonstrated ability to read the linguistic literature in some language other than English. An M.A. exam in areas in which the GPA is below 3.30. A short M.A. thesis.

Doctor of Philosophy

Direct admission to the Ph.D. program will be considered on an individual basis for applicants holding a degree from a comparable M.A. thesis program in linguistics or a closely related field. Some applicants may be granted admission directly into the Ph.D. program, with the stipulation that they make up one or more M.A.-level deficiencies.

Requirements for the Ph.D. degree are: 27 credits of course work beyond the M.A., at least 18 credits of which must be at the 500 level and be completed before the General Examination. A year's study of an "exotic" language. Two linguistics papers delivered at a colloquium or conference. A General Examination, involving the writing of two papers in different areas of linguistics and an oral examination, in which the candidate is questioned on the papers. A dissertation suitable for publication and a Final Examination, in which the candidate defends the dissertation.

Faculty

Chair

Frederick J. Newmeyer

Professors

Brame, Michael K. * 1974; PhD, 1970, Massachusetts Institute of Technology; syntax, phonology, structure of Arabic and English.

Coachman, Marina * 1984, (Research); PhD, 1976, Moscow Institute of Foreign Languages; theory of translation, theory of versification, second language acquisition, semantics.

Contreras, Heles * 1964; PhD, 1961, Indiana University; Spanish linguistics, syntax and semantics.

Dale, Philip S. * 1968, (Adjunct); PhD, 1968, University of Michigan; psycholinguistics, language and cognitive development in normal and exceptional children.

Kaisse, Ellen * 1976; PhD, 1977, Harvard University; phonology, historical linguistics, ancient and modern Greek/Spanish, syntax-phonology interface.

Klausenburger, Jürgen * 1969; PhD, 1969, University of Michigan; Romance linguistics.

Micklesen, Lew R. * 1966, (Emeritus); PhD, 1951, Harvard University; Slavic linguistics.

Newmeyer, Frederick J. * 1969; PhD, 1969, University of Illinois; theoretical and English syntax, language and society, history of linguistics.

Shapiro, Michael * 1970, (Adjunct); PhD, 1973, University of Chicago; Indo-Aryan languages and linguistics.

Silberstein, Sandra V. * 1982, (Adjunct); PhD, 1982, University of Michigan; TESL, critical theory, discourse analysis, sociolinguistics, language and culture.

Tollefson, James W. * 1984, (Adjunct); PhD, 1978, Stanford University; English as a second language, language planning.

Voyles, Joseph B. * 1965, (Adjunct); PhD, 1965, Indiana University; Germanics and linguistics.

Associate Professors

Coats, Herbert S. * 1968, (Adjunct); PhD, 1970, University of Illinois; Slavic linguistics, Russian phonology, Russian syntax, Slavic accentuation.

Hargus, Sharon Louise * 1985; PhD, 1985, University of California (Los Angeles); phonology, morphology, northwestern Native American languages, lexicography, phonetics.

Strozer, Judith R. * 1987; PhD, 1976, University of California (Los Angeles); comparative Romance syntax, second language acquisition, foreign language teaching.

Zagona, Karen T. * 1987; PhD, 1982, University of Washington; syntactic theory and Spanish syntax.

Assistant Professors

Herschensohn, Julia R. * 1985; PhD, 1976, University of Washington; romance linguistics, French syntax, second language acquisition.

Kim, Soowon 1992; PhD, 1991, Brandeis University; syntactic theory and syntax-semantics interface, structure of Korean and Japanese.

Ogihara, Toshiyuki * 1991; PhD, 1989, University of Texas (Austin); semantic theory, mathematical linguistics, structure of Japanese.

Riggenbach, Heidi R. * 1989, (Adjunct); PhD, 1989, University of California (Los Angeles); teaching English as a second language, discourse analysis, sociolinguistics.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Linguistics

Credit is allowed for only one of the following: LING 200, 201, 203. Ordinarily students who have taken one of these courses should not then take LING 400, although credit for both is allowed.

LING 100 Fundamentals of Grammar (5) VLPA Introduction to basic grammatical concepts and terminology. Specifically intended for students planning to take a foreign language or linguistics.

LING 200 Introduction to Linguistic Thought (5) VLPA/ISS, QSR Language as the fundamental characteristic of the human species; diversity and complexity of human languages; phonological and grammatical analysis; dimensions of language use; language and writing; impact of historical linguistics on contemporary theory.

LING 201 Introduction to Linguistic Theory and Analysis (5) VLPA/ISS, QSR Background and scope of modern linguistics; behaviorist versus rationalist theories of language; universal and cognitive aspects of language structure; interplay of genetic and social factors in language formation; linguistic analysis.

LING 203 Introduction to Anthropological Linguistics (5) VLPA/ISS Hargus, Hunn, Palmer Linguistic methods, theories used within anthropology. Descriptive and theoretical linguistics compared; historical linguistics, comparative method; sociolinguistics; language, culture; human language and animal communication compared; survey of history of anthropological linguistics in North America. Offered: jointly with ANTH 203.

LING 242 Introduction to Meaning (5) VLPA Tarinskaja Non-technical introduction to meaning in language and how it functions in communication and thinking. Discussion of how and why meanings of words change through time. Prerequisite: 200 or 201.

LING 300 Introduction to the Languages of the World (5) VLPA Brame A survey of the world's languages, focusing on their syntactic, phonological, and morphological properties. Prerequisites: 200, 201, or 203.

LING 333 Linguistics and Society (3) VLPA/ISS Interaction of language, culture, and society, and the relationship of linguistic theory to societal problems. Ethical and political considerations involved in the application of linguistic theory.

LING 347 Psychology of Language I (5) VLPA/ISS Dale, Corina, Osterhout Introduction to the study of language, including language structure, speech perception, language acquisition, psychological processes underlying comprehension and production of language, the relation between brain and language, and the question of the species-specificity of human language. Prerequisites: 200 or 201 or PSYCH 101 or 102. Offered: jointly with PSYCH 347.

LING 372 Language and Translation (5) VLPA Tarinskaja Role of linguistic concepts in the process of translation from one language to another. Attention to both language universals and language particulars. Prerequisite: 200 or 201.

LING 400 Survey of Linguistic Method and Theory (4) VLPA, QSR Major linguistic theories in phonology, syntax and semantics; linguistic analysis and argumentation. Intended for students who plan to pursue further linguistic or language-related study.

LING 401 The Linguistic, Philosophical, and Political Thought of Noam Chomsky (3) VLPA/ISS Relation of current work in Chomskyan linguistics to philosophical, psychological, political, and educational thought.

LING 402 Survey of the History of Linguistics (3) VLPA/ISS Newmeyer Main trends in linguistic theory and philosophy of linguistics from ancient times through advent of transformational-generative grammar. Includes nineteenth-century comparative and historical grammar, Prague school grammar, American structuralist grammar, major concerns of linguistics today. Prerequisite: 451 or permission of instructor.

LING 404, 405, 406 Indo-European (3, 3, 3) VLPA Voyles Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested

ancient and modern Indo-European languages, selected according to the interests of the students.

LING 411 Native Languages and Language Families of Washington State (3) VLPA *Hargus* Survey of linguistic structures of Washington native languages. Language families consist of Salish, Wakashan, Chemakuan, Athabaskan, Chinookan, Sahaptian, Cayuse. Structure and origin of Chinook jargon. Prerequisites: 451 and 461 or 481.

LING 419 The Development of the Italian Language (5) VLPA Historical survey of Italian phonology, morphology, and syntax. Evolution of the language is illustrated with study of pertinent documents from various periods. Prerequisites: 301, 302, 303, LING 400, or ROLING 401 or permission of instructor. Offered: jointly with ITAL 400.

LING 432 Sociolinguistics (3) VLPA/I&S Social variation in the phonology, morphology, syntax, lexicon of languages and dialects. Nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: 400. Recommended: prior or concurrent registration in 451 or permission of instructor. Offered: jointly with ANTH 432.

LING 433 Language Policy and Cultural Identity (3) VLPA/I&S Decision making regarding language in sociopolitical contexts. Language and ethnicity, educational policy, use of language in developing nations. Plans to modernize, purify, standardize, reform, and revive language. Language loyalty and motives for second-language acquisition. Prerequisite: 200 or 400. Offered: jointly with ANTH 464.

LING 442 Introduction to Semantics (4) VLPA/NW *Ogihara* Semantic analysis and theory of meaning and interpretation of language. Relation of semantics to syntax and phonology, psycholinguistics, and language acquisition. Comparison of various linguistic theories of meaning. Prerequisite: 200 or 400.

LING 443 Philosophy and Linguistics (3) VLPA/I&S Philosophical problems that arise in the attempt to understand current linguistic theories and the implications of linguistics for philosophy. Offered: jointly with PHIL 443.

LING 444 Philosophy of Language—Pragmatics (3) VLPA/I&S *Potter* Language as communicative activity. Speech act theory in Austin, Grice, and contemporary writings. Applications to problems of reference, presupposition, metaphor, relativism. Offered: jointly with PHIL 444.

LING 445 Descriptive Aspects of English as a Foreign Language (3) VLPA Linguistic analysis as a basis for the teaching of English as a foreign language; language as rule-governed behavior. Prerequisite: 200 or 400 or permission of instructor.

LING 446 Descriptive Aspects of English: Phonology and Morphology (3) VLPA *Hargus, Kaisse* Descriptively oriented analysis of English phonology and morphology; dialect differences. Prerequisites: 451.

LING 447 Psychology of Language II (5) VLPA/I&S *Corina, Dale, Osterhout* Psychological principles applied to linguistic development and organization; language in both its stimulus and response aspects. Prerequisite: PSYCH 101 or 102 or equivalent. Offered: jointly with PSYCH 447.

LING 449 Second-Language Learning (3) VLPA *Tarlinckaja* Issues related to the psychological aspects of second-language learning. Prerequisite: 200 or 400 or permission of instructor.

LING 450 Introduction to Linguistic Phonetics (3) VLPA/NW Introduction to the articulatory and acoustic correlates of phonological features. Issues covered include the mapping of dynamic events to static repre-

sentations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Prerequisites: 200, 201, or 400.

LING 451, 452, 453 Phonology I, II, III (4, 4, 4) VLPA/I&S *Hargus, Kaisse* Speech sounds, mechanism of their production, and structuring of sounds in languages; generative view of phonology; autosegmental and metrical phonology. Prerequisite: 200 or 400, either of which may be taken concurrently with 451. Offered: jointly with ANTH 451, 452, 453.

LING 454 Methods in Comparative Linguistics (3) VLPA *Klausenburger, Shapiro, Voyles* Method and theory of historical and comparative linguistics. Problems of phonological, morphological, syntactic, and semantic change and reconstruction. Prerequisite: 400 or permission of instructor, undergraduate adviser, or graduate program coordinator.

LING 455 Areal Linguistics (3, max. 6) VLPA/I&S Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Processes such as borrowing, vocabulary specialization, lexical change, and language death and revival. Offered: jointly with ANTH 455.

LING 457 Language Development (5) VLPA/I&S *Dale* First-language acquisition and use by children. Emphasis on theoretical issues and research techniques. Prerequisite: 400 or PSYCH 306 and junior or senior standing. Offered: jointly with PSYCH 457.

LING 461, 462, 463 Syntax I, II, III (4, 4, 4) VLPA/I&S *Brame, Contreras, Kim, Newmeyer* Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: 200 or 400 or permission of instructor. Offered: jointly with ANTH 461, 462, 463.

LING 471 Survey of Linguistic Theories (5) VLPA *Brame* A comparative study of alternative models of grammatical description.

LING 472 Introduction to Computational Linguistics (3) VLPA *Hoard* Introduction to computer applications of linguistic theory, including syntactic processing, semantic and pragmatic interpretation, and natural language generation. Prerequisite: 461 or permission of instructor. Offered: jointly with CSE 472.

LING 476 Philosophy of Language (5) VLPA/I&S Current theories of meaning, reference, predication, and related concepts. Recommended: PHIL 120. Offered: jointly with PHIL 453.

LING 479 Formal Semantics and Natural Language (3) VLPA/I&S *Ogihara* Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Typical topics: Tarskian definitions of truth; "truth theory" and theory of meaning; possible world semantics; Montague semantics; generative semantics; Chomsky on syntax and semantics. Recommended: PHIL 120 or 470. Offered: jointly with PHIL 479.

LING 480 Topics in Linguistics (3, max. 12) VLPA Introduction to an area of linguistic study not covered by the regular departmental course offerings.

LING 481 Introduction to Morphology (4) VLPA *Brame, Hargus, Kaisse, Newmeyer* Structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisites: 451 and 461.

LING 499 Undergraduate Research (1-5) Credit/ no credit only.

Romance Linguistics

ROLING 401 Comparative Romance Linguistics (5) VLPA *Klausenburger, Zagana* Descriptive analysis of the phonological, morphological, and syntactical structures of the modern Romance languages. Prerequisite: the equivalent of two college years of a Romance language or permission of instructor.

ROLING 402 Historical Romance Linguistics (5) VLPA *Klausenburger, Zagana* Comparative historical survey of the development of the principal Romance tongues. Prerequisite: 401 or permission of instructor.

ROLING 490 Senior Essay (2) Essay on linguistic problem of student's choice written with faculty consultant.

French Linguistics

FRLING 400 The Syntactic Structure of French (5) VLPA Scientific study of the syntax of French: phrase structures and transformations (emphasis on passives, relativization, pronominalization, reflexive structures). Prerequisites: FRENCH 323 or ROLING 401 or permission of instructor. Offered: jointly with FRENCH 400.

FRLING 401 The Morphological Structure of French (5) VLPA Linguistic study of French morphology. Prerequisite: FRENCH 323 or ROLING 401 or permission of instructor. Offered: jointly with FRENCH 401.

FRLING 402 The Phonological Structure of French (5) VLPA The phonological component of the generative grammar of French: representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisites: FRENCH 323 or ROLING 401 or permission of instructor. Offered: jointly with FRENCH 402.

FRLING 403 Background of Modern French (5) VLPA *Klausenburger* Linguistic analysis of the important developments in the history of the French language from its Latin origin to contemporary speech. Prerequisite: FRENCH 323 or ROLING 401 or permission of instructor. Offered: jointly with FRENCH 403.

FRLING 405 Linguistics and the Teaching of French (5) VLPA Areas of linguistics that can be particularly helpful to the French teacher. Prerequisites: FRENCH 323 or ROLING 401 or permission of instructor. Offered: jointly with FRENCH 405.

FRLING 406 Advanced French Grammar (5) VLPA Problems of French grammar. Differences between forms and structures of French and English. Problems of effective teaching of French. For students with at least three years of college French and for beginning teaching assistants. Prerequisites: FRENCH 303 or permission of instructor. Offered: jointly with FRENCH 406.

FRLING 409 The Phonetics of French (5) VLPA Scientific study of the French sound system with special emphasis on "lower level" phonetic rules, with integral values. Focus on data from standard French as well as socioeconomic and geographic variations. Prerequisites: FRENCH 323 or ROLING 401 or LING 200 or 400 and two years of college-level French. Offered: jointly with FRENCH 409.

Spanish Linguistics

SPLING 400 The Syntactic Structure of Spanish (5) VLPA *Strozer, Zagana* Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisites: SPAN 302 and 323. Offered: jointly with SPAN 400.

SPLING 401 The Morphological Structure of Spanish (5) VLPA *Strozer, Zagana* Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisite:

sites: SPAN 302 and 323. Offered: jointly with SPAN 401.

SPLING 402 The Phonological Structure of Spanish (5) VLP *Strozer, Zagana* Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisites: SPAN 302 and 323. Offered: jointly with SPAN 402.

SPLING 403 The Evolution of the Spanish Language (5) VLP *Zagana* Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Prerequisites: SPAN 302 and 323. Offered: jointly with SPAN 403.

SPLING 406 Advanced Spanish Grammar (5) VLP *Anderson, Strozer* Problems of Spanish grammar. Difference from English grammar. Techniques for the effective teaching of Spanish. Prerequisites: SPAN 302 and 323. Offered: jointly with SPAN 406.

SPLING 409 Spanish Phonetics (5) VLP *Anderson* Analysis of sounds: training in pronunciation, intonation, and close transcription of Spanish language in its modalities. Prerequisite: SPAN 302 or graduate standing. Offered: jointly with SPAN 409.

Courses for Graduates Only

Linguistics

LING 501, 502, 503 Linguistic Analysis Laboratory (3, 3, 3) Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisites: 453, 462, or permission of instructor.

LING 507 Syntactic Theory I (4) Introduction to the principles and parameters model of syntactic theory. The lexicon and its relation to syntactic representations. Syntactic modules and principles. Problem solving.

LING 508 Syntactic Theory II (4) Historical antecedents of the principles-and-parameters theory. Lexicalism versus transformationalism. The unification of transformational operations and conditions. Origins of subtheories. Extensive reading list of primary sources. Practical training in syntactic argumentation. Prerequisites: 507 or permission of instructor.

LING 509 Syntactic Theory III (4) Current issues in syntactic theory, including logical form, empty categories, the range of parametric variation, barriers, minimality, and the status of functional categories. Training in the methodology of syntactic research. Prerequisites: 508 or permission of instructor.

LING 514 Seminar in Comparative Linguistics (3) *Kaisse* Nineteenth- and twentieth-century theories of phonological change. Prerequisite: 404 or permission of instructor.

LING 519 Mathematical Models of Grammar (3) *Brame, Ogihara* Study of some mathematical models of language recognition, emphasizing context-free and context-sensitive grammars. Prerequisite: graduate standing in mathematics, linguistics, or psychology, or permission of instructor.

LING 522 Topics in the History of Linguistics (3) *Newmeyer* Intensive investigation of the main trends in the history of linguistics, concentrating on the development of nineteenth-century historical linguistics, the various schools of structural linguistics, and transformational-generative grammar. Prerequisites: 451, 461.

LING 524 Seminar in Theoretical Linguistics (4, max. 8) Individual and joint research on selected topics in theoretical linguistics. Topics change each quarter. Typical topics are semantics, generative grammar, phonological theories. Prerequisites: 453, 463.

LING 525 Seminar in Theoretical Phonology (4, max. 12) Individual and joint research on selected topics in theoretical phonology. Topics vary. Typical offerings include phonology and the lexicon, syntax and phonology, phonological representations. Prerequisite: 453.

LING 530 Dialectology (3) The principles of dialect deviation as related to linguistic structure and usage. Prerequisite: 452 or permission of instructor. Offered: jointly with ANTH 530.

LING 531 Problems in Romance Linguistics (2-5, max. 15) *Contreras, Klausenburger, Zagana* Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator. Offered: jointly with ROLING 531.

LING 540 Phonological Development (3) *Stoel-Gammon* Selected topics in the developmental sequence of phonological systems in normal-speaking children. Relationships between possible phonological inventories and rule systems in different languages. Prerequisites: 451, 452, or permission of instructor. Offered: jointly with SPHSC 540.

LING 541 Syntactic and Semantic Development (3) *Dale* Selected topics in the study of child language (e.g., cognitive basis of language, early semantic systems, development in language-handicapped children). Topics vary. Prerequisites: one course in child language development and permission of instructor. Offered: jointly with SPHSC 541.

LING 550, 551, 552 Advanced Phonology (2-3, 2-3, 2-3) *Hargus, Kaisse* Problems in phonological theory, generative phonology, phonological change. Theories of prosody. Prerequisites: 451, 452, 453.

LING 553 Analysis of Linguistic Structures (3, max. 8) Syntactic, semantic, and/or phonological analysis. Languages to be analyzed vary. Prerequisite: permission of instructor. Offered: jointly with ANTH 553.

LING 561, 562, 563 Advanced Syntax (2-3, max. 9, 2-3, max. 9, 2-3, max. 9) Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisites: 461, 462, 463.

LING 565 Contrastive Linguistics (3) The attempt to look across linguistic systems for comparable and contrastive classes and subclasses. Problems of subcategorization and universal grammar. Three conceptually distinct models: structural, transfer grammar, generative. Prerequisites: 452, 463.

LING 579 Comparative Altaic Linguistics (3) Comparative phonology and morphology of Mongolian, Turkic, and other Altaic languages. Prerequisite: permission of instructor. Offered: jointly with ALTAI 579.

LING 580 Problems in Linguistics (2-3, max. 12) Advanced study in current theories of syntax, semantics, phonology, or morphology.

LING 589 Linguistics Colloquium (1, max. 6) Seminar attended by faculty and graduate students to discuss research in progress and topics of general interest. Presentation of two seminars is required for doctoral students. Prerequisite: permission of instructor.

LING 600 Independent Study or Research (*)

LING 700 Master's Thesis (*)

LING 800 Doctoral Dissertation (*)

Romance Linguistics

ROLING 505, 506 Advanced Romance Linguistics (5, 5) *Klausenburger, Zagana* Advanced problems in the phonological, morphological, and syntactical analysis of the Romance languages. Descriptive, com-

parative, and historical considerations. Prerequisites: FRENCH 401, 402, or SPAN 400, or FRENCH 541, 542, or SPAN 541, 542.

ROLING 518 Foreign Language Teaching Methodology (2) *Brandt* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology.

ROLING 521, 522 Seminar in Romance Linguistics (5, 5) *Contreras, Klausenburger, Zagana* Specific problems in linguistic analysis of the Romance languages. Prerequisites: 401, 402.

ROLING 531 Problems in Romance Linguistics (2-5, max. 15) *Contreras, Klausenburger, Zagana* Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator. Offered: jointly with LING 531.

ROLING 551 Romance Linguistics: History, Methodology, and Bibliography (5) For new graduate students in the Romance linguistics program. History of Romance linguistics and linguistic science in the nineteenth and twentieth centuries as it relates to Romance studies. Comparative and descriptive methods used in contemporary scholarship. Prerequisite: 401 or LING 200 or equivalent.

ROLING 590 Special Seminar and Conference (1-10, max. 20) Group seminars, or individual conferences, are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator.

ROLING 600 Independent Study or Research (*)

Mathematics

C138 Padelford

Mathematics is the basic language of physical science, with applications in engineering and business as well as the natural and social sciences. The department has a Mathematical Sciences option in its Bachelor of Science degree program for those students who want to prepare for careers in industry, business, or graduate study in applied mathematics or natural science. For students who want to study mathematics as a discipline in its own right, the department continues to offer the Pure Mathematics option of the B.S. degree. The Bachelor of Arts degree is intended for those students who plan to pursue a secondary teaching career or want to obtain a more general background in mathematics, not for those students who wish to pursue graduate studies in either mathematics or the mathematical sciences.

Undergraduate Program

Thomas Duchamp, Director
Brooke Miller, Director of Student Services
Julie Martinson, Adviser
C36 Padelford

In all options, a grade of 2.0 or higher must be obtained in all mathematics courses presented to satisfy the mathematics requirement, and in required related courses. A GPA of 2.00 or higher must be obtained in all mathematics courses taken at the UW. At least 18 credits of graded mathematics courses numbered 301 or higher must be taken in residence at the UW.

Bachelor of Arts

Admission Requirements: MATH 124, 125, 126 (or MATH 134, 135, 136) and at least one 200- or 300-level mathematics course required for the degree. A mini-

minimum grade of 2.0 in each course to be offered as part of the major; a minimum overall GPA of 2.00 for all mathematics courses. Application to the program should be made at the end of the sophomore year.

Major Requirements

Liberal Arts Option: A minimum of 50 approved credits in mathematics, including MATH 124, 125, 126; 307; 205 or 308; 324 and 26 additional credits at the 300 level and above. Minimum 2 credits of computer courses chosen from CSE/ENGR 142, MATH 187, 387, 464, 487.

Teacher Preparation Option: 50 approved credits in mathematics, including MATH 124, 125, 126; 307; 205 or 308; 324; 411, 412; 444, 445; either STAT 341, 342 or MATH 394, 395 or MATH 354, 355; 6-8 credits of mathematics electives at the 200 level or above; minimum 2 credits of computer courses chosen from CSE/ENGR 142, MATH 187, 387, 464, 487.

Bachelor of Science

Admission Requirements: A minimum of 45 credits completed, including MATH 124, 125, 126 (or MATH 134, 135, 136); 307 and one other 300-level mathematics course and PHYS 121/131, 122/132, 123/133. A minimum grade of 2.0 in each course to be offered as part of the major; a minimum overall GPA of 2.00 for all mathematics courses. Application to the program should be made at the end of the sophomore year.

Major Requirements

Mathematical Sciences Option: Option has two components, mathematics and science. **Mathematics Component** (minimum of 54 credits): must include the core (30 credits), a track (12 credits), and electives (12 credits). [1] Core: must include MATH 124, 125, 126 (or 134, 135, 136); 307 (or 351), 308, 309 (or 353); 324, 326 (or 334, 335, 336). [2] Track: any two of the following sequences: MATH 394, 395 Probability; 402, 403 Modern Algebra; 424, 425 Fundamental Concepts of Analysis; 427, 428 Topics in Applied Analysis. [3] Electives: 12 credits of mathematics courses numbered 301 or higher, excluding 351, 353, 398, 411, 412, 420, 444, 445, 498, and including at least one two-quarter sequence separate from the sequences taken for the track and core requirements. **Science Component:** must include [1] PHYS 121/131, 122/132, 123/133 (15 credits); [2] minimum 2 credits of computer courses chosen from CSE/ENGR 142, MATH 187, 387, 464, 487; [3] 15 approved credits (at the 300 level or above) in the student's chosen area of concentration (must be in an area of natural or social science). Areas of concentration may include, but are not limited to, applied mathematics, astronomy, atmospheric sciences, physics, physical chemistry, and statistics. If computer science is the chosen area of concentration, then the following courses must be completed: CSE/ENGR 142 (4), CSE 143 (5), 373 (3), 410 (3), and either 413 (3), or 415 (5). If applied mathematics is the chosen area, then MATH/AMATH 352 (3), AMATH 401 (4), 402 (4), and 403 (4) are required. If the computing requirement is satisfied by taking both CSE/ENGR 142 and CSE 143, then 12, rather than 15 credits (at the 300 level or above) in an area of natural or social science are required. Students contemplating the mathematical sciences option should seek academic advice in C36 Padelford early in the sophomore year or immediately upon transferring to the University. In particular, students who plan to continue with graduate studies will need advice.

Pure Mathematics Option: (1) A minimum of 66 credits in mathematics. Courses must include MATH 124, 125, 126, 307, 308 (or 134, 135, 136); 324, 326, 327, 328, 427 (or 334, 335, 336); 15 credits from 402, 403, 404, 424, 425, 426; 15 credits of mathematics courses numbered 301 or higher, excluding 351, 352, 353, 398, 411, 412, 420, 444, 445, 498. (2) PHYS 121/131, 122/132, 123/133. (3) Minimum 2 credits of computer

courses chosen from CSE/ENGR 142, MATH 187, 387, 464, 487.

Minor

Minor Requirements: 33 credits to include core (21-25 credits): MATH 124, 125, 126, 307, and 308 (21 credits) or MATH 134, 135, 136 (25 credits, including 10 advanced-placement credits); and electives (8-12 credits): mathematics courses numbered 301 or higher, excluding MATH 351, 352, and 353. 9 credits of courses numbered 301 or higher must be taken at the UW. Minimum grade of 2.0 required for each course offered as part of the minor.

Graduate Program

David H. Collingwood, Director
Brooke Miller, Director of Student Services
C36 Padelford

The degrees of Master of Arts, Master of Science, and Doctor of Philosophy are offered. Opportunities are available within the department for study of pure and applied mathematics for each of these degree programs. The Master of Arts degree is appropriate for students who need a broad background in advanced mathematics and who expect to continue working with mathematics of approximately the same level in their careers. The Master of Science degree is appropriate for students who expect to be working with more specialized mathematics of increasing order of complexity in their careers. The Doctor of Philosophy degree is the highest professional degree in mathematics. It is appropriate for students who plan on a career of research and/or teaching of mathematics at the highest levels.

Of the master's degrees, the M.S. non-thesis program has the most demanding course requirements and most closely matches the early stages of the Ph.D. program. The majority of students who enroll in the department begin their studies with the Ph.D. or M.S. non-thesis program in mind. The M.S. programs with options in numerical analysis or optimization provide more focused training in these directions, which can be useful for students seeking employment in certain industries; however, students intending to do research in these areas would normally follow the requirements of the Ph.D. program. Note that the department does not offer a master's degree in mathematics education.

Master of Arts

Admission Requirement: Bachelor of Arts degree with major in mathematics or equivalent background (minimum of 45 quarter credits, or 30 semester credits of mathematics beyond college algebra).

Graduation Requirements: With Thesis—A minimum of nine one-quarter courses numbered 400 or above, at least three of which are numbered 500, plus 9 thesis credits (700). The total must include at least two courses in each of algebra, analysis, and one other field. Thesis is defended in an oral examination.

Without Thesis—A minimum of twelve approved one-quarter courses numbered 400 or above, at least six of which are numbered 500. The six courses at the 500 level should be distributed over no more than three sequences. The total must include at least two courses in each of algebra, analysis, and one other field. Oral examination in area of specialization in a topic agreed upon by the student and the chair of the examining committee.

Master of Science

Admission Requirement: Bachelor of Science degree with major in mathematics, Bachelor of Arts degree with strong major in mathematics or equivalent background. In particular, at least two of these senior level courses are expected: abstract algebra, real analysis, complex analysis.

Graduation Requirements: With Thesis—A minimum of nine approved one-quarter courses numbered 400 or above, at least six of which are numbered 500, plus 9 thesis credits (700). The total must include at least two courses in each of analysis, algebra, and one other field. Thesis, which is defended in an oral examination, should contain original research.

Without Thesis—Total of twelve numerically-graded one-quarter courses from MATH 402, 403, 404; 424, 425, 426; 427, 428, 429; any 500-level mathematics course, AMATH 584, 585, 586; 569. Courses to include at least two quarters from each of three designated first-year graduate courses, and in addition one three-quarter sequence of 500-level mathematics courses in an area of specialization approved by the graduate program coordinator and the chair of the student's examining committee. Oral examination in the area of specialization in a topic agreed upon by the student and the chair of the examining committee, or the General Examination for the Ph.D. degree.

Numerical Analysis/Optimization Option—Total of twelve one-quarter courses, at least six of which are at the 500 level, chosen from 424, 425, 426; 427, 428, 429; 438, 439; 461, 462; 491, 492; any 500-level mathematics course; AMATH 584, 585, 586; 569. Courses to include four from AMATH 584-586 and MATH 594-599 (numerical analysis option) or four from 507, 509 514-518; (optimization option). Oral examination in a special topic agreed upon by the student and the chair of the student's examining committee. There is no language requirement.

Doctor of Philosophy

Admission Requirement: Mathematical training equivalent to a master's degree in mathematics.

Graduation Requirements: Completion of Graduate School requirements to include satisfactory performance in six sequences numbered 500 or above, including three sequences from the department's list of designated first-year courses; passing of three preliminary exams; demonstration of proficiency in two of three languages: French, German, or Russian; General Examination on a special topic; dissertation that is an original piece of work; and Final Examination.

Research Facilities

An excellent library and computing facilities are located in the same building as the department. The mathematics research library has an outstanding collection of over 33,000 monographs and subscribes to nearly all journals of significance to the mathematics community. The departmental computing facilities in Padelford include networked UNIX workstations serving more than 90 X-terminals and X-compatible PC-RTs. There are five 300 dpi Postscript printers, one of which is color. The Primary document preparation software is TeX (AMSTeX, AMSLaTeX, LamsTeX, LaTeX, and LaTeX2e). Mathematics software includes Maple, Mathematica, Matlab, and Splius. HP and DEC color and grayscale UNIX workstations and Macintosh computers are available to students and faculty in two computer laboratories open 24 hours a day, seven days a week. Other computer facilities outside the department include Macintosh, IBM-PC, and NeXT computer laboratories as well as mainframe computers, high resolution printers, and plotters.

Financial Support

Most graduate students in mathematics are supported by fellowships and teaching assistantships. The workload of teaching assistants allows ample time for graduate courses and thesis work.

Correspondence and Information

grads@math.washington.edu

Faculty

Chair

Douglas A. Lind

Professors

Arsove, Maynard G. * 1951, (Emeritus); MS, 1948, PhD, 1950, Brown University; potential theory, complex function theory, theory of bases.

Bass, Richard * 1977; PhD, 1977, University of California (Berkeley); probability theory.

Beaumont, Ross A. * 1940, (Emeritus); MS, 1937, University of Michigan; PhD, 1940, University of Illinois; algebra (Abelian groups, ring theory).

Blmbaum, Z. W. * 1939, (Emeritus); PhD, 1929, John Casimir State University (Poland); probability, mathematical statistics (distribution-free statistics, reliability theory).

Blumenthal, Robert M. * 1956; PhD, 1956, Cornell University; probability theory (Markov processes).

Bube, Kenneth P. * 1986; PhD, 1978, Stanford University; numerical analysis, partial differential equations.

Burduz, Krzysztof * 1988; PhD, 1984, University of California (Berkeley); probability theory.

Collingwood, David * 1987; PhD, 1983, University of Utah; representation theory.

Curjel, Caspar R. * 1964; DSc, 1960, Eidgenossche Technische Hochschule, Zurich; algebraic topology.

Curtis, Edward B. * 1970; PhD, 1962, Harvard University; graph theory, networks.

Duchamp, Thomas E. * 1976; PhD, 1976, University of Illinois; differential geometry, computer graphics.

Erickson, Kent B. * 1973; PhD, 1970, University of Wisconsin; probability theory.

Folland, Gerald Budge * 1973; PhD, 1971, Princeton University; harmonic analysis and differential equations.

Gangolli, Ramesh A. * 1962; PhD, 1961, Massachusetts Institute of Technology; probability theory, harmonic analysis on Lie groups.

Goerss, Paul G. * 1989; PhD, 1983, Massachusetts Institute of Technology; algebraic topology.

Goldstein, Allen A. * 1964, (Emeritus); PhD, 1954, Georgetown University; approximation theory, nonlinear programming, control theory, calculus of variations.

Graham, C. Robin * 1984; PhD, 1981, Princeton University; partial differential equations, differential geometry, invariant theory.

Greenberg, Ralph * 1978; PhD, 1970, Princeton University; number theory.

Grunbaum, Branko * 1966; PhD, 1957, Hebrew University (Israel); geometry.

Hewitt, Edwin * 1948, (Emeritus); PhD, 1942, Harvard University; harmonic analysis on groups, measure theory functional analysis.

Irving, Ronald S. * 1980; PhD, 1977, Massachusetts Institute of Technology; representations of Lie algebras and Lie groups, ring theory.

Jans, James P. * 1957, (Emeritus); PhD, 1955, University of Michigan; ring structure and homological algebra.

Klee, Victor * 1953; PhD, 1949, University of Virginia; convex sets, functional analysis, analysis of algorithms, optimization, combinatorics.

Koblitz, Neal I. * 1979; PhD, 1974, Princeton University; number theory and cryptography.

LeVeque, Randall J. * 1985; PhD, 1982, Stanford University; numerical analysis, hyperbolic conservation laws, computational fluid dynamics.

Lind, Douglas A. * 1975; PhD, 1973, Stanford University; ergodic theory.

Marshall, Donald E. * 1976; PhD, 1976, University of California (Los Angeles); complex analysis.

Michael, Ernest A. * 1953, (Emeritus); PhD, 1951, University of Chicago; topology.

Mitchell, Stephen A. * 1985; PhD, 1981, University of Washington; algebraic topology.

Morrow, James Allen * 1969; PhD, 1967, Stanford University; complex singularities, inverse problems.

Namioka, Isaac * 1963; PhD, 1956, University of California (Berkeley); functional analysis.

Nunke, Ronald * 1958, (Emeritus); PhD, 1955, University of Chicago; category theory, Abelian groups.

Osborne, Mason S. * 1975; PhD, 1972, Yale University; representation theory.

Phelps, Robert R. * 1962; PhD, 1958, University of Washington; convexity, functional analysis, geometry of Banach spaces, optimization.

Pyke, Ronald * 1960; PhD, 1956, University of Washington; probability - Brownian and empirical processes.

Ragozin, David * 1969; PhD, 1967, Harvard University; approximation theory, splines, wavelets, numerical analysis, harmonic analysis.

Rockafellar, R. T. * 1966; PhD, 1963, Harvard University; variational analysis and optimization.

Segal, Jack * 1960; PhD, 1960, University of Georgia; topology and shape theory.

Shorack, Galen * 1965, (Adjunct); PhD, 1965, Stanford University; empirical processes, robustness, nonparametric statistics, reliability, large sample theory.

Smith, S. Paul * 1986; PhD, 1981, University of Leeds (UK); algebra.

Stout, Edgar L. * 1969; PhD, 1964, University of Wisconsin; complex analysis.

Sullivan, John B. * 1973; PhD, 1971, Cornell University; representations of classical groups.

Sylvester, John * 1987; PhD, 1980, New York University; partial differential equations.

Tuncel, Selim * 1986; PhD, 1982, University of Warwick (UK); ergodic theory, symbolic dynamics.

Uhlmann, Gunther A. * 1984; PhD, 1976, Massachusetts Institute of Technology; partial differential equations.

Wan, Frederic Y. * 1983, (Affiliate); PhD, 1965, Massachusetts Institute of Technology; solid mechanics and mathematical modeling.

Warner, Garth * 1966; PhD, 1966, University of Michigan; algebraic topology.

Westwater, Michael J. * 1970; PhD, 1967, Cambridge University (UK); mathematical physics.

Associate Professors

Arms, Judith M. * 1980; MA, 1974, PhD, 1977, University of California (Berkeley); geometric analysis of Hamiltonian systems with symmetry.

Burke, James V. * 1985; PhD, 1983, University of Illinois; optimization, nonsmooth analysis.

King, James Richard * 1974; PhD, 1969, University of California (Berkeley); complex manifolds, instructional computing in geometry.

Kingston, J. Maurice * 1940, (Emeritus); PhD, 1939, University of Toronto (Canada); math education (secondary).

Lee, John M. * 1986; PhD, 1982, Massachusetts Institute of Technology; differential geometry and partial differential equations.

McGovern, William M. * 1990; PhD, 1987, Massachusetts Institute of Technology; representation theory.

Monk, George Stephen * 1964; PhD, 1966, University of Minnesota; mathematics education.

Moore, Robert T. * 1968; PhD, 1964, Princeton University; operator theory, group representation, mathematical software and experimental mathematics.

Smith, Hart F. * 1991; PhD, 1989, Princeton University; partial differential equations, Fourier analysis.

Tseng, Paul Yun * 1990; PhD, 1986, Massachusetts Institute of Technology; optimization.

Assistant Professors

Devinatz, Ethan S. * 1991; PhD, 1985, Massachusetts Institute of Technology; algebraic topology.

Ozols, Vilnis * 1968; PhD, 1967, University of California (Berkeley); Lie groups, Riemannian geometry.

Rush, Jason A. * 1990; PhD, 1988, University of California (San Diego); packing and covering, coding theory, geometry of numbers.

Solomyak, Boris 1992; PhD, 1986, Leningrad University (USSR); ergodic theory, symbolic dynamics.

Zhang, Jian James 1994; MS, 1985, Fudan University (China); PhD, 1991, Massachusetts Institute of Technology; algebra and algebraic geometry.

Senior Lecturer

Warfield, Virginia 1973; MA, 1965, PhD, 1971, Brown University; probability and the teaching of mathematics.

Lecturer

Plochinski, Kenneth 1991; MA, 1983, University of Michigan.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

MATH 100, 102 Algebra (5, 5) Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Offered: AW, AWSp.

MATH 101 Intermediate Algebra (0) Intermediate algebra equivalent to third semester of high school algebra. Instruction provided by community colleges on UW campus. Extra fee required. Offered: AWSp.

MATH 103 Introduction to Elementary Functions (5) Continues the study of algebra begun in 100 and 102 with emphasis on functions (polynomial, rational, logarithmic, exponential, and trigonometric). Open only students who have completed 102. Offered: AWSp.

MATH 107 Mathematics: A Practical Art (5) NW, QSR For students not planning to take additional mathematics. The exponential function; how it applies to a wide variety of phenomena. Elementary probability and statistics; their use in a variety of applications. Prerequisites: 1.5 years high school algebra and placement test, or equivalent. Offered: WSp.

MATH 111 Algebra with Applications (5) NW, QSR Use of graphs and algebraic functions as found in business and economics. Algebraic and graphical manipulations to solve problems. Exponential and logarithmic functions; various applications to growth of money. Prerequisites: one and a half years of high

school algebra and placement test, or equivalent. Offered: AWS.

MATH 112 Application of Calculus to Business and Economics (5) NW, QSR Rates of change, tangent, derivative, accumulation, area, integrals in specific contexts, particularly economics. Techniques of differentiation and integration. Application to problem solving. Optimization. Credit does not apply toward a mathematics major. Prerequisite: 111. Offered: AWSpS.

MATH 120 Precalculus (5) NW Polynomial, rational, exponential, and trigonometric functions. For students needing preparation for 124; not advised for students who will not take 124. Does not satisfy natural science distribution or Q/SR proficiency requirement. Prerequisites: two years high school algebra and placement test or equivalent. Offered: AWSpS.

MATH 124 Calculus with Analytic Geometry I (5) NW, QSR Differentiation, applications of derivative, integration. Calculus for natural sciences and engineering students. Prerequisites: four years of college preparatory mathematics or equivalent (normally including precalculus or mathematical analysis with grades of B or better) and placement test or grade of 2.5 in 120, or equivalent. Offered: AWSpS.

MATH 125 Calculus with Analytic Geometry II (5) NW Applications of integration, transcendental functions, methods of integration and improper integrals, introduction to first order ordinary differential equations. Prerequisite: 124. Offered: AWSpS.

MATH 126 Calculus with Analytic Geometry III (5) NW Vectors and vector functions in space, functions of several variables and applications, multiple integrals. Prerequisite: 125. Offered: AWSpS.

MATH 134, 135, 136 Accelerated [Honors] Calculus (5, 5, 5) NW, QSR Covers the material of 124, 125, 126; 307, 308. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for 124 after taking 134, and for 125 after taking 135. May not receive credit for both 126 and 136. For students with above average preparation, interest, and ability in mathematics. Prerequisites: one year of high school calculus and AP score of 4 or more, or equivalent. Offered: A, W, Sp.

MATH 170, 171 Mathematics for Elementary School Teachers (3, 3) NW Basic concepts of numbers and operations (170) and of geometry (171). Emphasizes problem solving, communication of mathematical ideas, and analysis of sources of difficulty in learning/teaching these concepts. Credit may not apply toward a mathematics major. 170 required for elementary education students. Credit/no credit only. Prerequisites: 3 years of high school math. Offered: AWS, Sp.

MATH 187 Elementary Mathematics Computer Laboratory (1, max. 3) NW Laboratory activities designed to introduce computing as a tool for doing mathematics, to be taken jointly with a designated section of a 100-level mathematics course. Credit/no credit only. Prerequisite: concurrent registration in a designated 100-level mathematics course. Offered: AWSp.

MATH 197 Problem Solving in Mathematics (2, max. 4) NW Lectures and problem sessions in mathematics with applications. Enrollment restricted to EOP students only. Credit/no credit only. Offered: AWSp.

MATH 198 Special Topics in Mathematics (1-5, max. 15) NW Independent reading in math. Does not count as credit toward a math major. Credit/no credit only. Prerequisites: concurrent or previous enrollment in 124; approval of Director of Undergraduate Math Program, and supervision of regular faculty member. Offered: AWSpS.

MATH 205 Elementary Linear Algebra (3) NW Systems of equations, vector spaces, matrices, linear transformations, characteristic vectors. Not open for

credit to students who have taken 308. Prerequisite: 124 or 112. Offered: S.

MATH 301 Elementary Number Theory (3) NW Brief introduction to some of the fundamental ideas of elementary number theory. Prerequisite: 126 or 136. Offered: AWS.

MATH 307 Introduction to Differential Equations (3) NW Taylor series, first and second order ordinary differential equations. Prerequisite: 125. Recommended: 126. Offered: AWSpS.

MATH 308 Linear Algebra with Applications (3) NW Systems of linear equations, vector spaces, matrices, subspaces, orthogonality, least squares, eigenvalues, eigenvectors, applications. For students in engineering, mathematics, and the sciences. Prerequisite: 126. Offered: AWSpS.

MATH 309 Linear Analysis (3) NW First order systems of linear differential equations, Fourier series and partial differential equations, the phase plane and/or Laplace transforms. Prerequisites: 307, 308. Offered: AWSpS.

MATH 324 Advanced Multivariable Calculus I (3) NW Vector and scalar fields, line integrals, surface and volume integrals, theorems of Green, Gauss, and Stokes. Prerequisite: 126. Offered: AWSpS.

MATH 326 Advanced Multivariable Calculus II (3) NW Elementary topology, general theorems on partial differentiation, maxima and minima, differentials, Lagrange multipliers, implicit function theorem, inverse function theorem and transformations, change of variables formula. Prerequisites: 308 and 324. Offered: AWSp.

MATH 327, 328 Introductory Real Analysis I, II (3, 3) NW Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on continuous functions, theory of the Riemann integral. Prerequisites: 126 and 307 for 327, 327 for 328. Offered: AWS, WSp.

MATH 334, 335, 336 Accelerated [Honors] Advanced Calculus (5, 5, 5) NW Introduction to proofs and rigor, uniform convergence; Fourier series and partial differential equations, vector calculus, complex variables. Covers essentially the same material as 309, 324, 325, 326, 427, but with a higher level of rigor. Second year of an accelerated two-year sequence which prepares students for senior level mathematics courses. Prerequisites: either 136 or 126, 307 and either 308 or 205. Offered: A, W, Sp.

MATH 340 Abstract Linear Algebra (3) NW Linear algebra from a theoretical point of view. Abstract vector spaces and linear transformations, bases and linear independence, matrix representations. Jordan canonical form, linear functionals, dual space, bilinear forms, and inner product spaces. Prerequisite: 308 or 205. Offered: Sp.

MATH 351 Quantitative Methods I (3) NW Applications of mathematical techniques to problems in the sciences and engineering. Emphasis on formulation, solution, and interpretation of results. Introductory survey of differential equations. Prerequisites: 126. Offered: jointly with AMATH/OCEAN 351; A.

MATH 352 Quantitative Methods II (3) NW Development and application of numerical methods and algorithms to problems in the applied sciences and engineering. Applied linear algebra and introduction to numerical methods. Emphasis on use of conceptual problems in engineering, mathematics, and science. Prerequisites: 126 and any programming language. Offered: jointly with AMATH/OCEAN 352; W.

MATH 353 Quantitative Methods III (3) NW Applications of mathematical techniques to problems in the sciences and engineering. Emphasis on formulation, solution, and interpretation of results. Introductory survey of partial differential equations. Examples in physi-

cal and biological sciences and engineering. Prerequisite: 307 or 351. Offered: jointly with AMATH/OCEAN 353; Sp.

MATH 354, 355 Special Topics in Math for Teachers (5, 5) NW Map and graph coloring, spanning trees, dominating sets, cryptography, interpretation of graphs, circular motion, statistics that mislead, other topics. Focus on middle school level, with sixth or seventh grade classroom visits lasting all Tuesday morning in alternate weeks. Discussion of readings on math education reform. Offered: A, W.

MATH 381, 382, 383 Introduction to Mathematical Modeling (3, 3, 3) NW Simple discrete and continuous models of diverse natural and social phenomena with particular reference to the unity of the tools of mathematical analysis useful in their study. 381—discrete methods; 382—a mixture of discrete and continuous methods; 383—continuous methods. Mathematical topics and phenomena. Prerequisites: 126 and 308 for 381; 309 or AMATH 351 for 382; 324 and 382 or AMATH 351 and 352 for 383. Offered: jointly with AMATH 381, 382, 383; A, W, Sp.

MATH 387 Intermediate Mathematics Computer Laboratory (1/2, max. 6) NW Laboratory activities in the use of computing as tool for doing mathematics, to be taken jointly with a designated section of a 300-level mathematics course. Credit/no credit only. Prerequisite: concurrent registration in a designated 300-level math course.

MATH 390 Probability and Statistics in Engineering and Science (4) NW Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may not receive credit for both 390 and STAT 481. Prerequisites: 307 or 324, and 205 or 308. Offered: jointly with STAT 390; AWSpS.

MATH 394 Probability I (3) NW Sample spaces; basic axioms of probability; combinatorial probability; conditional probability and independence; binomial, Poisson, and normal distributions. Prerequisite: 126. Offered: jointly with STAT 394; AWS.

MATH 395 Probability II (3) NW Random variables; expectation and variance; laws of large numbers; normal approximation and other limit theorems; multidimensional distributions and transformations. Recommended: 324 or 325. Prerequisite: 394. Offered: jointly with STAT 395; WSpS.

MATH 396 Probability III (3) NW Characteristic functions and generating functions; recurrent events and renewal theory; random walk. Prerequisite: 395 or STAT 511. Offered: jointly with STAT 396; Sp.

MATH 398 Special Topics in Mathematics (1-5, max. 15) Independent reading in math. Does not count as credit toward a math major. Credit/no credit only. Prerequisites: approval of Director of Undergraduate Math Program, and supervision of regular faculty member. Prerequisite: 126. Offered: AWSpS.

MATH 402, 403, 404 Introduction to Modern Algebra (3,3,3) NW Algebraic systems; elementary theory of groups, rings, and fields; polynomials; topics in linear algebra; reductions of forms. Prerequisites: 136 or 327 or 340 for 402; 402 for 403; 403 for 404. Offered: AS, WS, Sp.

MATH 407 Linear Optimization (3) NW Maximization and minimization of linear functions subject to constraints consisting of linear equations and inequalities; linear programming and mathematical modeling. Simplex method, elementary games and duality. Prerequisite: 308. Offered: AWS.

MATH 408 Nonlinear Optimization (3) NW Maximization and minimization of nonlinear functions, constrained and unconstrained; nonlinear programming problems and methods. Lagrange multipliers; Kuhn-

Tucker conditions, convexity. Quadratic programming. Prerequisites: 325 or 336; 407 and CSE 142 or equivalent programming experience. Offered: W.

MATH 409 Discrete Optimization (3) NW Maximization and minimization problems in graphs and networks (shortest paths, minimum spanning trees, maximum flows, minimum cost flows); transportation and trans-shipment problems, NP-completeness. Prerequisite: 407. Offered: Sp.

MATH 411, 412 Introduction to Modern Algebra for Teachers (3, 3) NW Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Designed for teaching majors; not open for credit to students who have taken 402, 403. Prerequisites: 205 or 308 for 411; 411 for 412. Offered: AS, WS.

MATH 414, 415 Number Theory (3, 3) NW Congruences, arithmetic of quadratic fields, binary quadratic forms, Dirichlet's theorem on primes in an arithmetic progression, Chebyshev's theorem on distribution of primes, the partition function, equations over finite fields. Prerequisites: 301 for 414; 414 for 415. Offered: even years; W, Sp.

MATH 420 History of Mathematics (3) NW Survey of the development of mathematics from its earliest beginnings through the first half of the twentieth century. Prerequisite: 402 or 411, which may be taken concurrently. Offered: S.

MATH 424, 425, 426 Fundamental Concepts of Analysis (3,3,3) NW Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Prerequisites: 327 and either 328 or 336 or permission of instructor for 424; 326 and 424 for 425; 425 for 426. Offered: A, W, Sp.

MATH 427, 428, 429 Topics in Applied Analysis (3,3,3) NW Elementary functions of a complex variable; Cauchy integral formula. Taylor and Laurent series; conformal mapping. Fourier series; orthogonal functions; boundary value problems; applications. Prerequisites: 327 for 427; 309 and 327 for 428; 427 and 428 for 429. Recommended: 328 for 427. Offered: AWS, WSpS, SpS.

MATH 435, 436 Introduction to Dynamical Systems (3, 3) NW Examples of dynamical systems in mathematics and in natural phenomena. Iterated functions, phase portraits, fixed and periodic points. Hyperbolicity, bifurcations. Chaos. Interval maps; quadratic families. Fractals; iterated function systems. Elements of higher dimensional dynamics. Julia sets, the Mandelbrot set. Prerequisites: 325 and either 309 or 352 and 353.

MATH 438 Introduction to Partial Differential Equations (3) NW Integral curves and surfaces of vector fields, initial value problems for first-order linear and quasi-linear equations, Cauchy-Kovalevsky theorem, general Cauchy problem characteristics, special equations. Prerequisites: 309 and 326. Offered: odd years; A.

MATH 439 Introduction to Partial Differential Equations (3) NW Continuation of 438. Laplace's equation and general elliptic equations, wave equation and general hyperbolic equations, heat equation and general parabolic equations. Initial value problems and Dirichlet problems. Green's functions. Maximum principle. Prerequisite: 438. Offered: odd years; W.

MATH 441, 442 Advanced Geometry (3, 3) NW Selected topics from among projective geometry, differential geometry, advanced analytic geometry, algebraic geometry, algebraic topology, and the geometry of convex bodies. Prerequisites: 308 and 326 for 441; 441 for 442. Offered: even years; A, odd years; W.

MATH 444, 445 Geometry for Teachers (3, 3) NW Concepts of geometry from multiple approaches; dis-

covery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Designed for teaching majors. Prerequisites: 126 or 136; 205 or 308 for 444; 444 for 445.

MATH 461, 462 Combinatorial Theory (3, 3) NW Selected topics from among: block designs and finite geometries, coding theory, generating functions and other enumeration methods, graph theory, matroid theory, combinatorial algorithms, applications of combinatorics. Prerequisites: at least one 300-level course in mathematics, statistics, or computer science for 461; 461 for 462. Offered: odd years; W, Sp.

MATH 464, 465, 466 Numerical Analysis I, II, III (4, 4, 4) NW Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisites: 308 and 325 or 336, CSE 142 or equivalent programming experience for 464; 464 for 465; 307 and 465 for 466. Offered: A, W, Sp.

MATH 487 Advanced Mathematics Computer Laboratory (1/2, max. 6) NW Laboratory activities in the use of computing as a tool for doing mathematics, to be taken jointly with a designated section of a 400-level mathematics course. Credit/no credit only. Prerequisite: concurrent registration in a designated 400-level math course.

MATH 491, 492 Introduction to Stochastic Processes (3, 3) NW Random walks, Markov chains, branching processes, Poisson process, point processes, birth and death processes, queueing theory, stationary processes. Prerequisites: 396 for 491; 491 for 492. Offered: jointly with STAT 491, 492; A, W.

MATH 496 Honors Seminar (* max. 9) NW Problem seminar for senior honors students and first-year graduate students. Prerequisite: permission of instructor. Offered: AWSp.

MATH 497 Special Topics in Mathematics for Teachers (2-8) NW Study of selected areas of mathematics. Designed for the improvement of teachers of mathematics. Offered: jointly with EDC&I 478.

MATH 498 Special Topics in Mathematics (1-5, max. 15) Reading and lecture course intended for special needs of advanced students. Prerequisite: permission of instructor. Offered: AWSpS.

Courses for Graduates Only

Every year, additional courses are offered, and some of the courses listed are not offered every year. Inquiries about the currently offered courses should be addressed to the Graduate Program, Department of Mathematics.

MATH 504, 505, 506 Modern Algebra (5, 5, 5) Theory of groups, rings, integral domains, and fields; polynomials; vector spaces, Galois theory, and theory of ideals. Prerequisites: 404 or equivalent for 504; 504 for 505; 505 for 506.

MATH 507, 508 Calculus of Variations I, II (5, 3) Necessary and sufficient conditions for a weak and strong extremum. Legendre transformation, Hamiltonian systems. Constraints and Lagrange multipliers. Space-time problems with examples from elasticity, electromagnetics, and fluid mechanics. Sturm-Liouville problems. Approximate methods. Prerequisites: 307 or AMATH 351, MATH 324, 325 for 507; 507 for 508. Recommended 428, 429 or AMATH 402, 403. Offered: jointly with AMATH 507, 508.

MATH 509 Theory of Optimal Control (3) Trajectories from ordinary differential equations with control variables. Controllability, optimality, maximum principle. Relaxation and existence of solutions. Techniques of nonsmooth analysis. Prerequisites: real analysis on the level of 426; background in optimization corresponding to 515. Offered: jointly with AMATH 509; even years.

MATH 510 Seminar in Algebra (2-5, max. 5) Credit/no credit only. Prerequisite: permission of graduate program coordinator.

MATH 511, 512, 513 Special Topics in Algebra (2-3, max. 15; 2-3, max. 15; 2-3, max. 15) In recent years the following subjects have been covered: Abelian groups, algebraic function fields, algebraic number theory, classical groups, game theory, group extensions, lattice theory, Lie algebras, number theory, and structure of rings.

MATH 514 Networks and Combinatorial Optimization (3) Networks and directed graphs. Paths and trees. Feasible and optimal flows and potentials. Transportation problems, matching and assignment problems. Algorithms and applications. Prerequisites: 308 and 324, or equivalent. Offered: jointly with AMATH 514.

MATH 515 Fundamentals of Optimization (5) Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisites: MATH 309, 328, or equivalents. Offered: jointly with AMATH 515/IND E 515.

MATH 516 Numerical Optimization (3) Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Prerequisite: 515. Offered: jointly with AMATH 516.

MATH 517 Optimization Under Uncertainty (3) Sequential optimization problems involving random variables. Dynamic programming, stochastic programming. Control of uncertain dynamic systems in finite, discrete time. Risk, feedback, adaptivity. Problems with imperfect state information. Applications such as to optimal stopping, inventory control, resource management. Prerequisites: 308, 324 and an introduction to basic concepts of probability, such as 390 or 394, 395. Offered: jointly with AMATH 517.

MATH 518 Topics in Applied Optimization (3) Problems and techniques in special areas of optimization, such as engineering design, resource management, stochastic programming, games, variational inequalities and parameter identification in mathematical modeling. Prerequisite: 515 or permission of instructor. Offered: jointly with AMATH 518; odd years.

MATH 519 Tensor Analysis (3) Cartesian tensors; motivation, manipulation, applications. Riemannian space; Christoffel symbols, geodesics, covariant differentiation. Curvature tensor, geodesic deviations, flat space. Special local coordinate systems. Applications to classical mechanics, continuum mechanics, electromagnetism, relativity. Special topics. Prerequisite: 324 or AMATH 401, or permission of instructor. Offered: jointly with AMATH 519.

MATH 521, 522, 523 Advanced Probability (3, 3, 3) Measure theory and integration, independence, laws of large numbers, Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: 426. Offered: jointly with STAT 521, 522, 523.

MATH 524, 525, 526 Real Variable (5, 5, 5) Metric spaces; general measures and integration; differentia-

tion of set functions; real valued functions on the line; Banach spaces. Prerequisites: 426 or equivalent for 524; 524 for 525; 525 for 526.

MATH 527, 528, 529 Functional Analysis (3, 3, 3) Review of Banach, Hilbert, and L_p spaces. Locally convex spaces (duality and separation theory, distributions, and function spaces). Operators on locally convex spaces (adjoints, closed graph/open mapping and Banach-Steinhaus theorems). Banach algebras (spectral theory, elementary applications). Spectral theorem for Hilbert space operators. Additional topics chosen by instructor. A working knowledge of real variables, general topology, and complex variables is assumed.

MATH 530 Seminar in Analysis (2-5, max. 5) Prerequisite: permission of graduate program coordinator. Credit/no credit only.

MATH 531, 532, 533 Special Topics in Analysis (2-3, max. 15, 2-3, max. 15, 2-3, max. 15) In recent years the following subjects have been covered: functional analysis, abstract harmonic analysis, linear operators in Hilbert space, group representations, Fourier series and integrals, topological linear spaces, potential theory, and numerical analysis.

MATH 534, 535, 536 Complex Variables (5, 5, 5) Complex numbers, analytic functions, contour integration, power series, analytic continuation, sequences of analytic functions, conformal mapping of simply connected regions. Prerequisites: 426 for 534; 534 for 535; 535 for 536.

MATH 537, 538, 539 Several Complex Variables (3, 3, 3) Weierstrass preparation theorem and its immediate consequences. Analytic continuation, domains of holomorphy, pseudoconvexity, Cartan-Oka theory of coherence, embedding theorems; CR-equations. Connections with algebraic geometry. Prerequisites: 534, 535.

MATH 541, 542, 543 Special Topics in Applied Mathematics (2-3, max. 15, 2-3, max. 15, 2-3, max. 15) Such topics as mathematical quantum theory, fluid mechanics, optimization and operations research, and control theory.

MATH 544, 545, 546 Topology and Geometry of Manifolds (5, 5, 5) Introduction to manifolds: point-set topology, the fundamental group, covering spaces, topological and differentiable manifolds, differential forms, Stokes' theorem, deRham cohomology, vector fields, flows, the Frobenius theorem, Lie groups, homogeneous spaces. Prerequisite: 426.

MATH 547, 548, 549 Geometric Structures (3, max. 9, 3, max. 9, 3, max. 9) Introduction to differential-geometric structures on manifolds. 547: Riemannian metrics, geodesics, covariant differentiation, curvature, Jacobi fields, Gauss-Bonnet theorem. 548, 549: Selected topics, such as connections in vector bundles and principal bundles, symplectic geometry, Riemannian comparison theorems, symmetric spaces, symplectic geometry, complex manifolds, Hodge theory. Prerequisite: 546.

MATH 550 Seminar in Geometry (2-5, max. 5) Credit/no credit only. Prerequisite: permission of graduate program coordinator.

MATH 551, 552, 553 Special Topics in Geometry (2-3, max. 15, 2-3, max. 15, 2-3, max. 15) In recent years, the following subjects have been covered: Riemannian geometry, differentiable manifolds, complex manifolds, geometry of convex bodies.

MATH 554-555-556 Linear Analysis (5-5-5) Advanced linear algebra and matrix analysis, ordinary differential equations (existence and uniqueness theory, linear systems, numerical approximations), Fourier analysis, introductions to functional analysis and partial differential equations, distribution theory. Prerequisites: 426 and familiarity with complex analysis at the level of 427 (the latter may be obtained concurrently.)

MATH 557, 558, 559 Introduction to Partial Differential Equations (3, 3, 3) Theory of distributions and the Fourier transform. Detailed study of main linear equations: wave equation, Laplace's equation, and the heat equation. Sobolev spaces and regularity of solutions of elliptic equations. Theory of pseudodifferential operators. Initial value problem for hyperbolic equations and methods of geometrical optics. Fourier integral operators. The Dirichlet problem and eigenfunction expansions for elliptic equations. Prerequisites: 424, 425, 426, or equivalent, including notion of Lebesgue integral.

MATH 564, 565, 566 Algebraic Topology (3, 3, 3) Classical and modern approaches; complexes and their homology theory; applications. Fixed points, primary obstruction; products and Poincaré duality; axiomatic approach, covering spaces. Prerequisites: 506 for 564; 564 for 565; 565 for 566.

MATH 569 Partial Differential Equations (3) Analytical solution techniques for linear partial differential equations, discussion of how these arise in engineering and science. Transform and Green's function methods. Classification of second-order equations, theory and applications of method of characteristics. Prerequisites: A A 403, A A 568 or 428 or permission of instructor. Offered: jointly with A A 569/AMATH 569.

MATH 570 Seminar in Topology (2-5, max. 5) Prerequisite: permission of graduate program coordinator. Credit/no credit only.

MATH 571, 572, 573 Special Topics in Topology (2-3, max. 15, 2-3, max. 15, 2-3, max. 15) Special topics from general and algebraic topology.

MATH 577, 578, 579 Lie Groups and Lie Algebras (3, max. 9, 3, max. 9, 3, max. 9) Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisites: 506; 526 or 548.

MATH 587 Asymptotics and Special Functions (3) Origin and properties of higher transcendental functions; theoretical basis and applications of Laplace, Fourier, Bessel, Mellin transforms; asymptotic analysis, including methods of steepest descent and stationary phase, WKB. Prerequisite: AMATH 567, 568, 569, or equivalent. Offered: jointly with AMATH 587.

MATH 590 Seminar in Probability (2-6, max. 5) Credit/no credit only. Prerequisite: permission of instructor.

MATH 591, 592, 593 Special Topics in Probability (2-3, max. 15, 2-3, max. 15, 2-3, max. 15) In recent years, the following subjects have been covered: advanced probability theory, stochastic processes, distribution-free inference, game and decision theory, advanced theory of estimation (including sequential estimation).

MATH 594, 595, 596 Special Topics in Numerical Analysis (2-3, max. 15, 2-3, max. 15, 2-3, max. 15) Such topics as linear systems, approximation theory, or the numerical solution of differential equations are covered. Offered: jointly with AMATH 594, 595, 596.

MATH 597 Seminar on Teaching Math (1, max. 3) Issues in the teaching and learning of college mathematics, such as discovering and working with student background and expectations, increasing student engagement with course material, and evaluating student achievement. For graduate students who are, or soon will be, teaching mathematics courses on their own. Credit/no credit only.

MATH 598 Seminar on Technology (1, max. 3) Explores the use of computer technology in teaching and research in mathematics. Develops the basic skills required for using computer mathematics software.

MATH 600 Independent Study or Research (*)

MATH 700 Master's Thesis (*)

MATH 800 Doctoral Dissertation (*)

Microbiology

G315 Health Sciences

Microbiology is a natural science that deals with cellular and acellular forms of life, including bacteria, fungi, protozoa, algae, and viruses. It is concerned with the nature and properties of these entities, their effects on humans and the environment, and how they can be exploited to provide useful products.

Undergraduate Program

Adviser
Sarah Mears
G315 Health Sciences

Bachelor of Science

Admission Requirements: Minimum 75 credits applicable to graduation, with an overall GPA of 2.25 in prerequisite chemistry and biology courses. Students should complete departmental requirements in biology and chemistry (inorganic and organic) before applying for admission.

Major Requirements: Minimum 90 credits in the biological, physical, and mathematical sciences, to include: BIOL 201, 202, 203 or equivalent (15 credits/one year); MICROM 402, 410, 411, 412, 431, 441, 442, 443, 496, and 445 or 450, and approved microbiology electives (36 credits, not to include MICROM 301, 302, 319, 331); CHEM 140, 150, 160 (12 credits) (CHEM 141 recommended) (or CHEM 145, 155); CHEM 223, 224 (8 credits) (or 237, 238, 239; or 335, 336, 337); PHYS 114, 115 (8 credits) (or 121/131, 122/132) (PHYS 116 or 123/133 recommended); either MATH 112 or 124 or Q SCI 381 or STAT 311 (5 credits); BIOC 405, 406 (6 credits) (or 440, 441, 442). In all required and elective microbiology courses used toward graduation, a minimum 2.25 cumulative GPA and a minimum grade of 1.8 in each course. Transfer students must complete at least 20 of the required and elective microbiology credits at the UW.

Minor

Minor Requirements: 30 credits to include 15 credits in biology and chemistry (BIOL 201 or 101-102 or equivalent; CHEM 237 or 220, 221 or equivalent) and 15 credits in 400-level, graded microbiology courses, including at least one lab course (MICROM 402 or 431 or 443; 302 also acceptable), and both MICROM 410 and 496. Minimum 2.00 GPA for all courses.

For faculty listing and course descriptions, see School of Medicine section.

Middle Eastern Studies

See International Studies.

Music

102 Music

The School of Music prepares students for careers as composers, performers, teachers, or researchers. It also offers general courses to nonmajors, designed to enhance the student's understanding of the art of music.

Undergraduate programs include: four-year programs leading to either the Bachelor of Arts or Bachelor of Music and five-year programs leading to the concurrent Bachelor of Arts and Bachelor of Music double degrees. A minor in music is also offered.

An undergraduate music-related degree program in ethnomusicology is offered through General Studies. See music or general studies adviser for details.

Graduate programs lead to the degrees of Master of Arts, Master of Music, Doctor of Musical Arts, and Doctor of Philosophy.

Undergraduate Program

Adviser
Box 353450
email: musicadv@u.washington.edu

Minor

Minor Requirements: A minimum of 25 credits of music courses, i.e., courses with the following prefixes: MUSIC, MUHST, MUSEN, MUSAP, MUSED. No more than 10 credits of 100-level courses may count toward the minor.

Major

Admission Requirements

All students must audition and qualify at the 300 level or better in their principal performance areas in order to be admitted as music majors and to receive private instruction. Major status in performance areas is accorded when, after admission to the College of Arts and Sciences is acknowledged and the required School of Music audition is successfully completed, the student commences applied music study in a performance medium (e.g., voice) with an approved faculty member of the School of Music. Subsequent juries are required for additional qualification for specific performance program emphases and for the Bachelor of Music performance programs. In Music History, Music Education, and Composition, additional entrance requirements apply, and the faculty members of the particular divisions determine the status of individuals accepted.

Continuation of Major Status

Performance studies should begin after audition and acceptance, and continue each subsequent quarter of registration until the minimum program requirements for applied music lessons have been met. Applied music study should continue as long as the student is registered and in residence until the final approved recital is given. In order to retain major standing, the student must make and demonstrate consistent and acceptable progress at the annual required jury. Concurrent enrollment or participation in at least one School of Music ensemble is required during each quarter in which a student receives "MUSAP" applied music instruction. Also, basic piano proficiency is required for all majors. Non-keyboard majors must enroll in the MUSAP 133-235 series until appropriate proficiency is attained.

Any departure from the above requirements must have the recommendation of the appropriate divisional chair and the written consent of the Director of the School of Music.

Grade Point Requirements

In all options, undergraduate music majors are required to earn a minimum grade of 2.0 in each course (core and elective) counted toward music degree requirements. An overall minimum GPA in music course work required for graduation is 2.50 for the B.A. or B.A.-B.Mus. double degree programs, and 3.20 for the B.Mus. program.

Pre-Core Preparation

In preparation for beginning the music core course work, all students must be evaluated by placement test to determine their levels in music theory and music history. Students who have minimal background in these areas may be required to take MUSIC 119 and 120 before beginning the music core.

Music Core Requirements

The music core (36 credits), required in each of the undergraduate program tracks, is as follows: MUSIC 201/204, 202/205, 203/206 (12 credits); MUSIC 301/304, 302/305, 303/306 (12 credits); MUHST 210, 211, 212 (9 credits); an approved 3 credit ethnomusicology course.

Bachelor of Arts

General Requirements: A minimum of 180 credits, of which 90 must be taken in departments other than the School of Music. All College of Arts and Sciences graduation requirements must be met. A cumulative GPA of 2.50 for all music courses and a 2.0 minimum grade for each music course is required for graduation.

Major Requirements

Music Theory-History Option: Music core, plus 6 credits of 300-level MUHST electives, 6 credits of 400-level MUSIC or MUHST electives, 10 credits of MUSAP vocal or instrumental private applied instruction, 5 credits of MUSEN (ensembles), for a minimum of 63 credits.

Vocal or Instrumental Option: Music core, plus 6 credits of approved upper-level MUSIC or MUHST electives, 18 credits of MUSAP vocal or instrumental private applied instruction, and 9 credits in ensembles, for a minimum of 69 credits.

Bachelor of Music

Admission Requirements: The Bachelor of Music majors are intended for specially qualified students who wish to emphasize professional training in performance or composition within a four-year program. Students should see the undergraduate adviser regarding special admission procedures for this program. Admission to the B.Mus. degree programs is accomplished by jury and special recommendation during the sophomore year.

General Requirements: A minimum of 180 credits, of which at least 60 must be taken in departments other than the School of Music. All College of Arts and Sciences degree requirements must be met (including Language Skills and Reasoning and Writing in Context), except that students need take only 55 credits in Areas of Knowledge, to include at least 20 credits each in two of the following three areas: Visual, Literary, & Performing Arts; Individuals & Societies; the Natural World. Of the 120 credits allowed in the School of Music, 100 may be in the major, but the additional 20 must be outside the primary area of the major (e.g., for applied music majors, 20 credits in non-performance areas).

Piano proficiency at MUSAP 235 level, a minimum grade of 2.0 in each music course counted toward the major, and a GPA of 3.20 in all music courses are required for graduation.

Applied Music Major Requirements

Guitar, Orchestral Instruments, Organ, Piano, Strings, and Voice: Music core (36 credits) plus: 9-15 credits of division-approved upper-level MUSIC or MUHST electives; 36 credits of MUSAP applied instruction; 1-2

credits of recitals; and 10-12 credits of MUSEN ensembles. Total major credits are 117-120. See the music undergraduate adviser for additional specific requirements in each area.

Composition: Music core (36 credits) plus: 9 credits of Division-approved upper-level electives; MUSIC 380, 381, 382, 395, 490, 471 or 472 (12 credits); 36 credits of private instruction in composition, 18 credits of MUSAP private applied music instruction, and 9 credits of MUSEN ensembles.

Jazz Studies: Music core (36 credits) plus: 9 credits of Division-approved upper-level electives; MUSIC 331 or 319, 425, 336, 436, 467, 468, 469, 379, 479 (15-18 credits); 6 credits of MUSIC 464, 10-12 credits of approved MUSIC electives; 30 credits of MUSAP private applied music instruction, 12 credits of MUSEN ensembles. See the music undergraduate adviser for special requirements in this program.

Bachelor of Arts and Bachelor of Music (Concurrent)

General Requirements: A minimum of 225 credits, of which 90 must be in areas other than music; all College of Arts and Sciences graduation requirements must be met. Of the remaining 135 credits, 115 may be in the major within the School of Music, but the additional 20 must be outside the primary area of the major (e.g., for applied music majors, in non-performance music areas).

Major Requirements: 2.50 GPA in all music courses, minimum grade of 2.0 in each music course counted toward the major, and piano proficiency at MUSAP 235 level are required for graduation. See the music undergraduate adviser for special requirements in ensembles, and for approved electives lists for each option.

Performance Options

Composition

Music core (36 credits) plus 15 credits of Division-approved upper-level electives; MUSIC 380, 381, 382, 395, 490, 471 or 472 (12 credits); 36 credits of private instruction in composition, 18 credits of MUSAP applied music instruction, and 12 credits of MUSEN ensembles.

Guitar

Music core (36 credits) plus 9 credits of Division-approved upper-level electives; MUSIC 380, 381, 382, 326, 327, 328, 434, 435, 436, 487 (or 438), 379, 479 (20 credits); 45 credits of MUSAP 338/438 applied instruction in guitar; 12 credits of MUSEN ensembles; 6 credits of additional music electives.

Jazz Studies

Music core (36 credits) plus 9 credits of Division-approved upper-level electives; MUSIC 331 or 319, 425, 336, 436, 467, 468, 469, 379, 479 (15-17 credits); 6 credits of MUSAP 233, 234, 235 or 301; 6 credits of MUSIC 464; 4-6 credits of approved MUSIC electives; 39 credits of MUSAP applied music instruction, 15 credits of MUSEN ensembles.

Orchestral Instrument

Music core (36 credits) plus 12 credits of Division-approved upper-level electives; MUSIC 380, 381, 382, 379, 479 (5 credits); 6 credits of MUSAP 233, 234, 235 or 301; 45 credits of MUSAP applied instruction on an orchestral instrument; 21 credits of MUSEN ensembles.

Organ

Music core (36 credits) plus 9 credits of Division-approved upper-level electives to include 6 cr. of MUHST at 300-level; MUSIC 350, 351, 352, 454, 458, 459, 473, 474, 487, 479, and one 3 cr. advanced analysis course (25 credits); 45 credits of MUSAP 322/422 applied instruction in organ; 15 credits of MUSEN ensembles; 5 credits of additional music electives;

Piano proficiency at MUSAP 321 level or 6 cr. of MUSAP 301. An optional junior recital is encouraged in preparation for senior recital.

Piano

Music core (36 credits) plus 9 credits of Division-approved upper-level electives to include 6 cr. of MUHST at the 300-level; MUSIC 326, 327, 328, 434, 435, 436, 487, 479, and one 3 cr. advanced analysis course (19 credits); 45 credits of MUSAP 321/421 applied instruction in piano; 15 credits of MUSEN ensembles; 11 credits of electives other than performance. An optional junior recital is encouraged in preparation for senior recital.

String Instrument

Music core (36 credits) plus 15 credits of Division-approved upper-level electives to include 6 cr. of MUHST at the 300-level; MUSIC 326, 327, 328, 329, 380, 434, 435, 436, 379, 479 (18 credits); 45 credits of MUSAP applied instruction on string instrument; 15-21 credits of MUSEN ensembles.

Voice

The voice faculty strongly recommends emphasis in languages, especially Italian, which may be used for the Language Skills requirement. SPHSC 300 is strongly recommended for 5 credits of the Natural World, and some course work in acting is also strongly recommended (e.g., MUSIC 465).

Music core (36 credits) plus 12 credits of Division-approved upper-level electives; MUSIC 307, 308, 309, 326, 327, 379, 479 (12 credits); 8 credits of advanced vocal repertoire; 45 credits of MUSAP applied instruction in voice; 13 credits of MUSEN ensembles; and 6 credits of music electives.

Academic Options

Music History

Admission Requirements: Formal application to music history division, to include verified completion of music core, 3.00 GPA in music core courses, 3.00 overall GPA, and a sample of writing. Completion of minimum entrance requirements does not guarantee admission. The program of study and preparation of senior thesis is developed in consultation with a music history faculty adviser. Students who intend to pursue graduate studies are strongly advised to establish proficiency in German or French and to acquire some acquaintance with one or two additional foreign languages.

Major Requirements: Music core (36 credits) plus 6 credits of 300-level MUHST electives, 36 credits of 400-level MUSIC or MUHST (minimum 12 courses); a 3 credit 400-level course in ethnomusicology; 3 credits of MUSIC 498; 18 credits of MUSAP applied instruction (3 years); 9 credits of MUSEN ensembles; and 24 credits of music electives.

Music Education

Instrumental or Choral General Emphasis leading to K-12 certification

Admission Requirements: Acceptance to program is by both performance audition and basic musicianship audition. Choral emphasis requires additional piano proficiency at MUSAP 235 level. Application to the Music Teacher Education Program is made to the music education faculty two quarters before part-time student teaching.

Major Requirements: Music core (36 credits) plus 5-8 credits of Division-approved upper-level electives; MUSIC 350, 351, 352 (or 380, 381, 382), MUSED 301, 302, 303, 340, 403, 440, 443, 452, 464, 465 (28 credits); 6 credits from a combination of MUSED 304, 305, 306 and 442 or 432 or both 442 and 432; 18 credits of applied techniques classes including MUSAP 220 (see adviser for list); 18 credits of MUSAP applied instruction;

tion; 12 credits of MUSEN ensembles; 2 credits of MUSIC or MUSAP 389; EDLPS 479, EDPSY 304, EDC&I 494 (9 credits).

(15 credits of MUSED 404, full-time student teaching is required for certification, but not graduation. Due to changes in state-mandated requirements, additional courses may be required for certification. For current certification requirements, always consult the music adviser and members of the music education faculty.)

Graduate Program

Graduate programs in the School of Music take into consideration the dual nature of music's subject matter. First, it is one of the creative arts, requiring constant renewal through the efforts of composers, performers, and teachers. Second, it is a branch of the humanities, subject to scholarly study and interpretation of its theoretical concepts and historical development. Advanced study presupposes an emphasis in one or the other direction without entirely neglecting the alternate aspect.

Special Requirements

Before admission to the Graduate School as a music major, the student must further qualify for a specific area of specialization. See below.

Financial Aid

A limited number of teaching and staff assistantships are available. Accompanists are also employed at hourly rates. Competitive auditions for performance scholarships for new and returning students are held each year. The School of Music office may be contacted for details.

Research Facilities

The Music Building contains the music library, an electronic composition laboratory, a listening center, ethnomusicology archives, and the usual studio, practice, and classroom facilities of a modern music department. Ensembles available for student participation include Opera, Contemporary Group, Collegium Musicum, and several non-Western ensembles among the many traditional large and small choral and instrumental groups.

Master of Music, Doctor of Musical Arts

The programs with more creative emphasis lead to the degrees of Master of Music and Doctor of Musical Arts. Areas of specialization: performance (piano, organ, harpsichord, voice, strings, other orchestral instruments), instrumental conducting, choral conducting, composition, and opera production. Except for composition, the Graduate Record Examination is not required for application to these graduate programs. All graduate students must maintain a GPA of at least 3.00, and a minimum grade of 3.0 in courses used to fulfill School of Music graduation requirements.

Master of Music

Admission Requirements: Audition required for entrance to performance and composition. Entrance to other areas by permission. Details of requirements for each of the areas of specialization are available from the School of Music Office of Graduate and Undergraduate Advising.

Graduation Requirements: 45 credits, of which 18 must be in courses at the 500 level or above. Demonstration of proficiency in one language from French, German, Italian, and Latin. *With thesis*—Program to include 9 credits in thesis. *Without thesis*—A final oral examination is required.

Doctor of Musical Arts

Admission Requirements: Audition required for performance and composition. Entrance to other areas by permission. Details of requirements for each of the

areas of specialization are available from the School of Music Office of Graduate and Undergraduate Advising.

Graduation Requirements: Three academic years of study; dissertation: in lieu of a full-length dissertation, a thesis in three parts may be substituted, of which one must be a research paper and two may be additional research papers, or musical compositions, or documented public performances, or documented lecture demonstrations. Demonstration of proficiency in one language (two languages for voice) from among French, German, Italian, and Latin, as soon as possible, but, in any case, before taking the General Examination.

Master of Arts, Doctor of Philosophy

The research-oriented programs lead to the degrees of Master of Arts and Doctor of Philosophy. Areas of specialization: music theory, music history, ethnomusicology, and music education. The Graduate Record Examination is required for application to some of these graduate programs. Check individual program requirements. All graduate students must maintain a GPA of at least 3.00, and a minimum grade of 3.0 in courses used to fulfill School of Music graduation requirements.

Master of Arts

Admission Requirements: Requirements vary for the different areas of specialization. Details of requirements for each of the areas of specialization are available from the School of Music Office of Graduate and Undergraduate Advising.

Graduation Requirements: 45 credits, of which 18 must be in courses at the 500 level or above and 9 in thesis. Except for music education, demonstration of proficiency in one language from among French, German, Italian, and Latin or another language as is necessary for research.

Doctor of Philosophy

Admission Requirements: Requirements vary for the different areas of specialization. Details of requirements for each of the areas of specialization are available from the School of Music Office of Graduate and Undergraduate Advising.

Graduation Requirements: Three academic years of study; dissertation. Except for music education, demonstration of foreign language proficiency as soon as possible, but, in any case, before taking the General Examination. Details of the General Examination requirements for each of the areas of specialization are available from the School of Music graduate program coordinator.

Faculty

Director

Robin L. McCabe

Professors

Beale, James M. * 1948, (Emeritus); MMus, 1947, Yale University; theory/composition.

Becker, Howard S. * 1991, (Adjunct); PhD, 1951, University of Chicago; sociology of art, sociology of science, qualitative methods.

Bernard, Jonathan W. * 1987; MA, 1973, MPhil, 1975, PhD, 1977, Yale University; theory and analysis of twentieth-century music.

Brown, Marshall J. * 1988, (Adjunct); PhD, 1972, Yale University; eighteenth- and nineteenth-century literature, literary theory, music and literature.

Campbell, Patricia S. * 1989; MM, 1975, University of Akron; PhD, 1981, Kent State University; music and child development, multicultural music education, comparative music education.

Carlsen, James C. * 1967, (Emeritus); MA, 1958, Washington University; PhD, 1962, Northwestern University; systematic musicology, psychomusicology, research methodology, theories of music instruction.

Chaloupka, Vladimir * 1981, (Adjunct); PhD, 1975, University of Geneva (Switzerland); experimental elementary-particle physics.

Curtis-Verna, Mary * 1969, (Emeritus); BA, 1943, Hollins College, Virginia; voice.

Dahlstrom, Robert A. * 1971, (Adjunct); MA, 1967, University of Illinois; scene design.

Dempster, Stuart R. * 1968; MA, 1967, San Francisco State; trombone, contemporary music.

Eichinger, Walter A. 1936, (Emeritus); MM, 1933, Northwestern University; organ.

Erös, Peter S. * 1989; Diploma, 1956, Franz Liszt Academy; orchestra and opera, works of Richard and Siegfried Wagner.

Gangoli, Ramesh A. * 1962, (Adjunct); PhD, 1961, Massachusetts Institute of Technology; probability theory, harmonic analysis on Lie groups.

Grossman, Arthur * 1968; Diploma, 1955, Curtis Institute of Music; bassoon.

Harman, R. Alexander 1966, (Emeritus); BM, 1949, University of Durham (UK); music history and literature.

Heinitz, Eva M. 1948, (Emeritus); studied at State Academy of Music (Berlin); violoncello.

Hokanson, Randolph H. * 1949, (Emeritus); studied with Dame Myra Hess, Howard Ferguson (London); piano.

Kaplan, Abraham * 1977; Diploma, 1957, Juilliard School; choral conducting.

Kappy, David L. * 1979; MM, 1971, University of Wisconsin; French horn performance, chamber music, and theory.

Kechley, Gerald * 1955, (Emeritus); MA, 1950, University of Washington; theory/composition.

Kind, Silvia E. 1969, (Emeritus); Konzert-Reife-Prüfung, 1934, Hochschule für Musik (Berlin); harpsichord.

Lundquist, Barbara R. * 1973, (Emeritus); MS, 1959, Montana State University; DMA, 1973, University of Washington; music education, sociomusicology, ethnomusicology in schools.

McCabe, Robin L. 1987; MMus, 1973, DMA, 1976, Juilliard School; concert piano performance, communication skill, pedagogy.

McColi, William D. * 1968; Diploma, 1955, State Academy of Music (Austria); clarinet.

Moore, John T. 1948, (Emeritus); MM, 1941, University of Illinois; piano.

O'Doan, Neal D. * 1966; MM, 1961, University of the Pacific; piano.

Rahn, John * 1975; MFA, 1972, PhD, 1974, Princeton University; theory/composition.

Sakata, Hiromi L. * 1977; MA, 1968, PhD, 1976, University of Washington; ethnomusicology.

Saks, Toby * 1976; MS, 1966, Juilliard School; performance and teaching of violoncello and chamber music.

Siki, Bela * 1985, (Emeritus); Diploma, 1948, Conservatoire De Musique (Switzerland); piano literature with special interest in interpretation and performance.

Skowronek, Felix E. * 1968; BMus, 1956, Curtis Institute of Music; flute.

Smith, William O. * 1966, (Emeritus); MA, 1952, University of California (Berkeley); theory/composition.

Sokol, Vilem 1961, (Emeritus); BMus, 1938, MMus, 1946, Oberlin College; violin, viola, conducting.

Starr, Lawrence * 1977; PhD, 1973, University of California (Berkeley); music history and literature.

Staryk, Steven S. * 1987; studied at the Royal Conservatory of Music (Toronto); violin.

Storch, Laila * 1968, (Emeritus); BA, 1964, Wilkes College, Pennsylvania; oboe.

Terry, Carole R. * 1979; MM, 1973, University of Rochester; DMA, 1977, Stanford University; organ, harpsichord.

Terry, Miriam 1930, (Emeritus); MA, 1948, University of Washington; music history and literature.

Thome, Diane * 1977; MA, 1966, University of Pennsylvania; PhD, 1973, Princeton University; theory/composition.

Tufts, Paul Dewitt 1961, (Emeritus); MA, 1951, University of Washington; theory/composition.

Verrall, John 1948, (Emeritus); BA, 1934, University of Minnesota; theory/composition.

Zsigmondy-Liedemann, Denes 1972, (Emeritus); BA, 1940, Gymnasium, Budapest; violin.

Associate Professors

Benshoof, Kenneth 1963, (Emeritus); MA, 1963, San Francisco State; theory/composition.

Berendsen-Bloch, Emilie * 1988; MA, 1963, University of Washington; performance and instruction of nineteenth- and twentieth-century vocal music.

Bozarth, George S. Jr. * 1982; MFA, 1973, PhD, 1978, Princeton University; music history and literature.

Collins, Douglas P. * 1980, (Adjunct); PhD, 1978, University of Missouri; twentieth-century French literature.

Dunlop, William M. * 1962, (Adjunct); MA, 1965, Cambridge University (UK); Shakespeare, nineteenth-century literature, poetry writing.

Ellingson, Terry J. * 1983; PhD, 1979, University of Wisconsin; MA, 1979, University of Chicago; ethnomusicology.

Geissmar, Else J. 1947, (Emeritus); MM, 1944, University of Michigan; piano.

Goolsby, Thomas W. * 1991; EdD, 1987, University of Illinois; music education: research in evaluation in the arts (specifically tests and measurements).

Jacobs, Sue-Ellen * 1974, (Adjunct); PhD, 1970, University of Colorado (Boulder); anthropological studies of women, applied anthropology, ethnohistory, Native North America.

Jussila, Clyde F. 1971, (Emeritus); MS, 1951, Kansas State University; music education.

Karpen, Richard S. * 1989; DMA, 1989, Stanford University; composition, computer music, and music theory.

Michaelian, Patricia * 1984; Diploma, 1970, Curtis Institute of Music; concert pianist: orchestral soloist, recitalist, and chamber musician.

Rosinbum, Ralph 1942, (Emeritus); MA, 1948, University of Washington; opera production.

Salzman, Timothy O. * 1987; MM, 1979, Northern Illinois University; wind ensemble conducting, pedagogy and repertoire.

Taricani, Jo Ann * 1980; PhD, 1986, University of Pennsylvania; music history and literature.

Waterman, Christopher * 1985; PhD, 1986, University of Illinois; ethnomusicology.

Assistant Professors

Demorest, Steven M. * 1993; MM, 1983, Westminster Choir College; PhD, 1989, University of Wisconsin; music education, choral ensembles.

Duisberg, Robert A. * 1988, (Research); MM, 1977, DMA, 1980, PhD, 1986, University of Washington; computer music, composition.

Durand, Joel-Francois * 1991; PhD, 1988, State University of New York (Stony Brook); composition.

Larson, Steven L. 1994; MA, 1981, University of Oregon; PhD, 1987, University of Michigan; Schenkerian theory, analysis and performance, expressive meaning in music, artificial intelligence.

Pelton, Carmen 1992; BMus, 1977, University of Wisconsin; voice.

Seales, Marc A. 1987; BA, 1978, Western Washington University; jazz studies, keyboard.

Will, Richard J. 1993; MA, 1989, PhD, 1994, Cornell University; music history.

Senior Artists in Residence

Patrick, Julian 1990; BA, 1950, Cincinnati Conservatory; voice.

Sheppard, Craig * 1993; MSc, 1971, Juilliard School; piano.

Artists in Residence

Bergman, Lisa E. 1988; BA, 1978, University of Washington; MM, 1980, State University of New York (Stony Brook); MM, 1982, Juilliard School; piano.

Crusoe, Michael 1990; BMus, 1974, University of Missouri; tympani.

Lieberman, Barry 1991; BA, 1971, Cleveland Institute of Music; string bass.

Tindemans, Margaretha E. 1987; Diploma, 1972, Conservatorium (Netherlands); viola da gamba, recorder.

Lecturers

Brockman, Michael S. 1987; MMus, 1982, New England Conservatory of Music; saxophone.

Collier, Thomas W. 1980; BMus, 1971, BA, 1971, University of Washington; percussion.

Cummings, Roy M. 1970; BA, 1961, University of Washington; trumpet, jazz.

Herbolzheimer, Bern H. 1984; MMus, 1973, University of Washington; vocal coaching.

McDavid, J. Brad 1994; MM, 1990, Arizona State University; music education, marching band.

Miller, Douglas 1993; BA, 1990, Antioch College; jazz bass.

Novacek, Steven A. 1984; BMus, 1975, California State University (Northridge); guitar.

Vokolek, Pamela C. 1968; MM, 1965, Cleveland Institute of Music; harp.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Music

Courses for Undergraduates

MUSIC 116, 117, 118 Elementary Music Theory (2, 2, 2) VLPA For nonmusic majors. 116: For people with no hands-on music experience. Rudiments of music; notation of time, small pitch structures (e.g., some scales, chords, rhythmic patterns), some analysis. 117: For students who can read music, having some performance experience. 118: For students who read music, have some performance experience, are familiar with scales, chords, intervals. Includes analysis composition in various styles. Prerequisites: some music training including ability to read music or 116 for 117; familiarity with scales, chords, intervals or 117 for 118.

MUSIC 119 Introduction to Music Theory and Musicianship (4) VLPA Durand, Karpen, Larson Basic elements of music theory: major and minor

scales, modes, keys, triads, and seventh chords. Introduction to acoustics, four-part writing, functional harmony, simple forms, and jazz notation. Includes concurrent, intensive aural training in lab sections. Prerequisite: placement by examination. Offered: A.

MUSIC 120 Survey of Music (5) VLPA Studies in listening, with emphasis on the changing components of Western art music. Illustrated lectures, laboratory section meetings, and presentations by guest artists.

MUSIC 121 The Orchestra (2) VLPA Development of the orchestra and its literature.

MUSIC 122 The Opera (2) VLPA An introduction to opera through selected masterworks, from Monteverdi to the present. Primarily for non-majors.

MUSIC 137, 138, 139 Class Instruction: Voice (1, 1, 1) VLPA Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Designed primarily for Music Education majors. Prerequisites: audition and ability to sight read.

MUSIC 180 Anglo-American Folk Music (5) VLPA Genres and styles from earliest roots to the 1960s; Anglo-American ballads, dance music, French and other European immigrant groups.

MUSIC 161 American Musical Theater (5) VLPA Historical and stylistic study of the development of the American musical theater. European roots in opera and operetta. Contributions from jazz and popular music. Selected musicals studied.

MUSIC 162 American Popular Song (5) VLPA Historical, social, and stylistic study of popular idioms from the late nineteenth century to the present. Most attention to contemporary idioms (rock, country-western, soul, disco). Various facets of the industry examined to learn how they influence taste and musical style.

MUSIC 185 The Concert Season (2) VLPA Performances from the School of Music concert season, supplemented by lecture topics related to concert repertoire. Analysis of applicable musical topics appropriate for enhanced appreciation of historical and cultural contexts of works performed. Attendance at ten concerts required.

MUSIC 191 Composition (3, max. 9) VLPA One-hour private instruction and one-hour laboratory session each week. Intended to develop skill in creative musical expression. For composition majors only.

MUSIC 200 Music, Child, and Family (3) VLPA Campbell Study of music in childhood as part of socialization and enculturation of the child within family and community. Emphasis given to songs and music listening experiences provided by parents to nurture the child's musical, social, and intellectual development from infancy through middle childhood. For nonmajors.

MUSIC 201, 202, 203 First-Year Theory I, II, III (3, 3, 3) VLPA *Durand, Karpen, Larson* Core theory sequence for majors. 201: introduction to modal counterpoint and 16th-century polyphony through the species. 202: instruction in tonal harmony and counterpoint. 203: further instruction in total harmony and counterpoint; introduction to canon, modulation, and classical dance forms. Concurrent enrollment in 204 for 201, 205 for 202, 206 and MUHST 210 for 203. Prerequisites: 119 or equivalent and placement by examination for 201. Offered: W, Sp, A.

MUSIC 204, 205, 206 First-Year Ear Training (1, 1, 1) VLPA *Durand, Karpen, Larson* Core ear-training sequence for majors. Concurrent enrollment in 201 for 204, 202 for 205, 203 and MUHST 210 for 206. Prerequisite: placement by examination. Offered: W, Sp, A.

MUSIC 216, 217, 218 Introductory Composition (2, 2, 2) VLPA For students not majoring in composition. Prerequisite: 112.

MUSIC 237 Secondary Class Instruction: Voice (2, max. 6) VLPA Continuation of basic fundamentals of good singing: breathing, diction, voice focus and repertoire. Designed for students not yet prepared for private instruction. For music majors only. Prerequisites: audition or jury; 139.

MUSIC 270 World Popular Music (5) VLPA/ I&S *Waterman* A global survey of popular music, including Latin America, Africa, Eastern Europe, the Middle East, Asia, and the Pacific. Emphasis on students' ability to recognize styles and to analyze the social and historical processes that have shaped them.

MUSIC 291 Composition (3, max. 9) VLPA One-hour private instruction and one-hour laboratory session per week. Prerequisite: 191.

MUSIC 300 Music of Greater Mexico (3) VLPA/I&S Regional styles of Mexico; consideration of pre-Hispanic Indian origins and the music of Chicanos in the American Southwest.

MUSIC 301, 302, 303 Second-Year Theory (3, 3, 3) VLPA *Durand, Karpen, Larson* Core theory sequence for majors. 301: further study of form and modulation; introduction to chromaticism. 302: further study of chromaticism, including jazz usages; song form. 303: introduction to the theory and analysis of 20th-century music. Concurrent enrollment in 304 and MUHST 211 for 301, 305 and MUHST 212 for 302, 306 for 303. Prerequisites: 203, 206 and MUHST 210 for 301. Offered: W, Sp, A.

MUSIC 304, 305, 306 Second-Year Ear-Training I, II, III (1, 1, 1) VLPA *Durand, Karpen, Larson* Core ear-training sequence for majors. Concurrent enrollment in 301 and MUHST 211 for 304, 302 and MUHST 212 for 305, 303 and MUHST 213 for 306. Prerequisites: 206 and MUHST 210 for 304. Offered: W, Sp, A.

MUSIC 307, 308, 309 Diction for Singers (2, 2, 2) VLPA Application of basic rules of diction, enunciation, and articulation in Italian (302), German (303), and French (304). Materials include texts from the basic vocal repertoire. Primarily for the voice majors at freshman and sophomore levels; non-majors on a space-available basis.

MUSIC 310 Medieval/Renaissance Counterpoint (3) VLPA *Bernard, Durand, Karpen, Thome* Intensive study in the discipline of some contrapuntal style from the Medieval or Renaissance periods. Prerequisites: 212 and MUHST 215 or equivalent; to be taken concurrently with MUHST 313.

MUSIC 311 Tonal Counterpoint (3) VLPA *Bernard, Durand, Karpen, Thome* Basic techniques of baroque counterpoint and introduction to the fugue. Prerequisites: 212 and MUHST 215; to be taken concurrently with MUHST 314.

MUSIC 312 Twentieth-Century Techniques (3) VLPA Practical writing and analytical study of twentieth-century composition techniques from Debussy to the present.

MUSIC 313 Piano Technology (3) VLPA Evolution of the piano; intonation and temperament theory; principles of tuning, voicing, regulating, and evaluating pianos. Credit/no credit only. Prerequisite: permission of instructor.

MUSIC 316, 317, 318 Music Cultures of the World (5, 5, 5) VLPA/I&S 316: Near East, Central Asia, Far East, South and southeast Asia, Indonesia, and the Philippines. 317: Music of sub-Saharan Africa, Americas, and Oceania. 318: Folk and popular music in western and eastern Europe and the Americas.

MUSIC 319 Afro-American Music (5) VLPA/I&S Centers on Black music in the United States, but also clarifies the relationship of this music to the musics of other Afro-American cultures as well as to their African roots.

MUSIC 326, 327, 328 Repertoire (2, 2, 2) VLPA For music majors.

MUSIC 331 History of Jazz (3) VLPA Survey of the major periods and styles of jazz, New Orleans jazz to the avant-garde, and popular jazz of today. Studies the main characteristics of each style.

MUSIC 334 Band Arranging (2) VLPA Prerequisite: 212.

MUSIC 336 Jazz Arranging (2) VLPA Writing in jazz style for various instrumental combinations. To be able to arrange for modern jazz orchestra. Prerequisite: 212.

MUSIC 338 Baroque Ornamentation (2) VLPA *Terry* Musical ornamentation in France, Spain, England, Italy, and Germany from 1608 to 1800, with special reference to the harpsichord.

MUSIC 350, 351, 352 Choral Conducting (1, 1, 1) VLPA *Kaplan* Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: 212 for 350; 350 for 351; 351 for 352, or permission of instructor; to be taken concurrently with MUSEN 307, 507.

MUSIC 366 Cylinders to Platters—A Survey of Recorded Music Since 1888 (3) VLPA Music as reflected through the influences of the recording industry and the development of related technologies. Examines social and artistic impacts that the recording age has brought to American and European musical cultures. Recommended: 120 and/or 162.

MUSIC 367, 368, 369 Beginning Jazz Improvisation I, II, III (1, 1, 1) VLPA Beginning jazz improvisation techniques used in the performance of basic jazz styles such as the blues. Primarily for music majors. Prerequisite: 212 or permission of instructor.

MUSIC 379 Junior Recital (1) VLPA For participants in the Bachelor of Music degree program only. Prerequisite: permission of instructor.

MUSIC 380, 381, 382 Instrumental Conducting (1, 1, 1) VLPA *Salzman* Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques and score study. Prerequisites: 212 or permission of the instructor.

MUSIC 384 Ideas in Music (5) VLPA/I&S *Taricani* Examines selected sources and compositions of music from the Western tradition (from the tenth through the twentieth centuries), in relation to the intellectual background of the periods and countries that produced them. Musical studies accompanied by assigned readings in philosophical, religious, literary, and artistic texts in addition to the primary readings in musical history.

MUSIC 388 Jazz Pedagogy (2) VLPA Stylistic and esthetic developments in the performance of jazz. Key musical ingredients in the evolution of jazz as an art form and the skills commensurate with teaching these. Designed for music majors

MUSIC 390 Special Topics in Music (5) VLPA (5) Starr Topics vary.

MUSIC 391 Composition (3, max. 9) VLPA One-hour private instruction and one-hour laboratory session each week. Prerequisite: 291.

MUSIC 395 Compositions with Synthesizers (3, max. 9) VLPA *Karpen* Musical composition using special-purpose hardware music synthesizers, which may be interfaced to microcomputers in a music workstation system. Prerequisite: permission of instructor.

MUSIC 401 Computer Music Seminar 1 (3) VLPA *Karpen* Use of computers in musical composition, software digital sound synthesis, score generation, theoretical investigations. Prerequisites: 212 or 456 or

PHYS 207 or programming experience; permission of instructor.

MUSIC 402 Computer Music Seminar 2 (3) VLPA *Karpen* Use of computers in musical composition, digital sound synthesis, digital signal processing. Hardware used includes NeXT computers, digital recorders. Software used includes CSound, Common LISP, UNIX. Prerequisite: 401 or permission of instructor.

MUSIC 403 Computer Music Seminar 3 (3) VLPA *Karpen* Advanced use of computers for musical composition, digital sound synthesis, digital signal processing. Advanced synthesis techniques such as LPC for speech and vocal synthesis, phase vocoders, reverb, and spatial location. Hardware used includes NeXT computers and peripherals. Software includes CSound, Common Lisp, C, and UNIX. Prerequisite: 402 or permission of instructor.

MUSIC 425 Jazz History and Analysis (3) VLPA *Collier* Major eras and styles of jazz with emphasis on technical aspects of jazz music: composition, arranging, improvisation practices. Prerequisite: music major or permission of instructor.

MUSIC 426 Advanced Jazz Arranging (2) VLPA *Brockman* Advanced arranging techniques for jazz ensembles of various sizes, exploring methods employed by Duke Ellington, Gil Evans, and others. Assignments include one original arrangement each for small-combo and full-jazz ensemble. Prerequisite: 336 or permission of instructor. Offered: Sp.

MUSIC 427 Music of Africa (3) VLPA/I&S Music cultures of sub-Saharan Africa. Traditional styles and more recent developments. Open to all students with an interest in the area. Prerequisite: 317 or permission of instructor.

MUSIC 428 Music of North India (3) VLPA/I&S Classical music of North India, the Hindustani tradition with emphasis on the Dhrupad and Khayal styles. Recommended: some background in either ethnomusicology or South Asian Studies.

MUSIC 430 Organology (3) VLPA Systematic study of musical instruments, involving the history, acoustical phenomena, and physical topologies of instruments from around the world, with emphasis on non-Western music. Prerequisite: ethnomusicology major or permission of instructor.

MUSIC 433 Music of Latin America (3) VLPA/I&S The Indian, African, and European music of the Spanish-, French-, and Portuguese-speaking New World countries. Prerequisite: 318 or permission of instructor.

MUSIC 434, 435, 436 Pedagogy (2, 2, 2) VLPA Principles of effective studio teaching; survey and evaluation of teaching materials.

MUSIC 438 Problems in Contemporary Music Performance (3, max. 9) VLPA *Kappy* An active course examining and solving problems relevant to the successful performance of twentieth-century music. Preparation for complex rhythms, odd groupings, new notation, and extended performing techniques. Prerequisite: permission of instructor.

MUSIC 439 Music of Indonesia and the Philippines (3) VLPA/I&S Includes the gong culture traditions of Sumatra, Sunda, Java, Bali, Sunda Islands, and the Philippines. Open to students in music and to students with an interest in the area. Prerequisite: 316 or permission of instructor.

MUSIC 444 Music of the Near East (3) VLPA/I&S *Sakata* Classical and folk musical traditions of Iran, Turkey, and the Arab world. Prerequisite: 316 or permission of instructor.

MUSIC 445 Selected Topics in Ethnomusicology (3, max. 9) VLPA/I&S Deals with topics not covered by regular courses in ethnomusicology. Frequently

taught by visiting lecturers. Content varies with different instructors. Prerequisite: permission of instructor.

MUSIC 447 Music of Southern India (3) VLPA/I&S Classical music of South India, the Karnatic tradition, with emphasis on the concert repertoire. Recommended: background in either ethnomusicology or South Asian Studies.

MUSIC 448 Music of China (3) VLPA/I&S Confucian philosophies that relate to music, theory, scale systems, cosmology. Development of instrumental styles, vocal and dramatic regional forms from early historical periods to the present. Recommended: background in either ethnomusicology or East Asian Studies.

MUSIC 450 Percussion Education Institute (2) VLPA *Collier, Crusoe* Intensive four-week institute focusing on techniques in percussion, timpani, and mallet performance. Intended for music educators with little or no percussion experience desiring additional training to enhance their careers as music teachers. Includes private instruction, master classes, and percussion ensemble participation. Prerequisite: MUSAP 217 or permission of instructor.

MUSIC 451 Summer Jazz Institute (1) VLPA *Brockman, Collier, Cummings, Seales* Intensive one-week institute designed for the serious jazz student as well as for music educators. Six hours of daily instruction in jazz theory, ear-training, improvisation, arranging, as well as emphasis on rehearsal and performance techniques through sectional workshops and small group "jam sessions." Prerequisite: permission of instructor.

MUSIC 454 Organ Pedagogy (3) VLPA *Terry* Pedagogical approaches to organ techniques and performance practice, provides opportunity for practical application by means of student teaching.

MUSIC 455 Choral Arranging (3) VLPA Primarily for choral conductors who need to modify, arrange or compose material to suit the capabilities of specific choral groups and performance situations. Prerequisite: senior standing or permission of instructor.

MUSIC 458 Organ Repertoire: Middle Ages through Baroque (3) VLPA *Terry* Analysis and performance practices of organ literature, Middle Ages through baroque period. Development of the organ as musical instrument. Prerequisites: one 400-level history course, pre-1750, in addition to history core.

MUSIC 459 Organ Repertoire: Bach to Present (3) VLPA *Terry* Analysis and performance practices of organ literature, classical period through the twentieth century. Development of the organ as a musical instrument. Prerequisites: one 400-level history course, post 1750, in addition to history core.

MUSIC 460 Advanced Vocal Repertoire: Pre-Nineteenth-Century Art Songs (2, max. 6) VLPA Professional preparation of pre-nineteenth-century songs with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: 326, 327, 328 or permission of instructor.

MUSIC 461 Advanced Vocal Repertoire: Nineteenth-Century Art Songs (2, max. 6) VLPA Professional preparation of works from the literature of nineteenth-century German lieder, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: 326, 327, 328 or permission of instructor.

MUSIC 462 Advanced Vocal Repertoire: Twentieth-Century Art Songs (2, max. 6) VLPA Preparation of works from the twentieth-century repertoire of French, German, Italian, Spanish, and English songs, with a view to total artistic-musical realization in

performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: 326, 327, 328 or permission of instructor.

MUSIC 464 Jazz Laboratory (1, max. 9) VLPA *Seales* Forum for testing new technical skills, improvisational techniques, and jazz compositions and/or arrangements in a formal laboratory setting. Prerequisite: concurrent enrollment in MUSAP 400 or higher, or permission of instructor.

MUSIC 465 Acting for Singers (2, max. 6) VLPA Workshop designed specifically for the singing actor, focusing on character analysis, movement, and audition department skills.

MUSIC 467, 468, 469 Advanced Jazz Improvisation I, II, III (1, 1, 1) VLPA *Collier, Seales* Performance techniques in jazz improvisation for the advanced student. Prerequisite: 369, 467 for 468; 468 for 469; or permission of instructor.

MUSIC 470 Contemporary Theories I: Tonal Music (3) VLPA Recent tonal theories, including an introduction to the various developments of the theories of Heinrich Schenker; not restricted to music written before 1900. Prerequisites: 312 and MUHST 215, or permission of instructor.

MUSIC 471 Contemporary Theories II: Non-Tonal Music, 1900-1950 (3) VLPA Includes both "free atonal" and "classical serial" music. Systematic analysis of works of Schoenberg, Webern, Berg and others. Prerequisites: 312 and MUHST 215, or permission of instructor.

MUSIC 472 Contemporary Theories III: Seminar in New Music (3, max. 6) VLPA Continuation of 471. Emphasis on the many organizational systems aspiring to extend or replace tonality: late Stravinsky and other semiserial matrix systems; "total serialism" and "systematic serialism" developed by and from Milton Babbitt; recent developments in non-serial "pitch-centric" and "set-centric" systems. Prerequisite: 471 or permission of instructor.

MUSIC 473, 474 Keyboard Harmony and Transposition (3, 3) VLPA *Terry* Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: 312 for 473; 473 for 474, or permission of instructor. Offered: alternate years.

MUSIC 475 Figured Bass Realization (3) VLPA *Terry* Various styles of continuo realization for keyboardists, emphasizing Bach cantatas, Haydn symphonies, and Mozart operas. Prerequisite: 473 or permission of instructor. Offered: alternate years.

MUSIC 476 Advanced Vocal Repertoire: Seventeenth and Eighteenth Centuries (2) VLPA Opera repertoire, 1600 to the Bel Canto era (Bellini, Rossini, Donizetti); style, traditions, embellishments in Italian, French, and German arias. Prerequisites: 326, 327, 328 or permission of instructor.

MUSIC 477 Advanced Vocal Repertoire: Nineteenth Century (2) VLPA Opera repertoire, the post Bel Canto era through Verdi, Puccini and verismo, and significant German, French, and Slavic repertoire. Prerequisites: 326, 327, 328 or permission of instructor.

MUSIC 478 Advanced Vocal Repertoire: Twentieth Century (2) VLPA Opera repertoire, twentieth-century opera literature (Barber, Menotti, Bartok, Dvorak); understanding of style, character and overall artistic and musical needs of the present. Prerequisites: 326, 327, 328 or permission of instructor.

MUSIC 479 Senior Recital (1) VLPA Prerequisite: permission of instructor.

MUSIC 480 The Anthropology of Music (3) VLPA/I&S Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation.

tion, e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Prerequisite: ethnomusicology major or permission of instructor. Offered: jointly with ANTH 430.

MUSIC 481 Choral Repertoire: Sixteenth and Seventeenth Centuries (3) VLPA Sacred and secular choral literature from the Renaissance through the early baroque, covering Europe and England. Various genres and styles of major composers, including performance practice, rehearsals, and conducting. Prerequisite: senior standing or above, or permission of instructor.

MUSIC 482 Choral Repertoire: Eighteenth Century (3) VLPA Sacred and secular choral literature of the baroque, covering mainland Europe and England. Choral works of Bach, his predecessors, and contemporaries. Stylistic analysis and study of performance practice. Prerequisite: senior standing or above or permission of instructor.

MUSIC 483 Choral Repertoire: Nineteenth Century (3) VLPA Sacred and secular choral literature of the nineteenth century, covering mainland Europe and England. Analysis of accompanied and a cappella choral works by major composers with implications for conducting and programming of literature. Prerequisite: senior standing or above or permission of instructor.

MUSIC 484 Choral Repertoire: Twentieth Century (3) VLPA Choral literature of the twentieth century, covering America, England, and mainland Europe. Various genres and styles, including score study and teaching strategies. Prerequisite: senior standing or above or permission of instructor.

MUSIC 487 Tonal Counterpoint (3) VLPA Durand, Karpen, Rahn Evaluation of fugue practices from the baroque era to the present. Prerequisite: 311.

MUSIC 488 Computer Applications to Music (3, max. 9) VLPA Music workstation applications using microcomputers, music synthesizers, and analog-to-digital converters: music editing and score production, transcription, waveform and spectral analysis, and introduction to programming.

MUSIC 489 Special Topics in Music Theory (3, max. 9) VLPA Prerequisites: 312, MUHST 314.

MUSIC 490 Orchestration (3) VLPA Study of the instruments of the orchestra and practical experience in combining them; to enable the student to score for various instrumental combinations. Ideally to be taken before band arranging or jazz arranging, but is not a prerequisite. Prerequisite: music major or permission of instructor.

MUSIC 491 Composition (3, max. 18) VLPA One-hour private instruction and one-hour laboratory session each week. Prerequisite: 391.

MUSIC 492, 493 Opera Direction and Production (4, 4) VLPA Practical experience with problems of the theater. Prerequisite: permission of instructor.

MUSIC 495 Music of Japan (3) VLPA/I&S Sakata Instrumental and dramatic forms including Gagaku, Sankyoku, Noh, and Kabuki, as well as regional and popular styles. Open to students in music and East Asian area studies. Prerequisite: 316 or permission of instructor.

MUSIC 498 Senior Thesis (3-, max. 9) VLPA Design and completion of an individual research project and writing of a thesis under supervision of a faculty member. Required of students in the pre-Systematic Musicology major; available to others with the permission of the appropriate program adviser. Prerequisite: permission of instructor.

MUSIC 499 Undergraduate Research (* max. 8)

Courses for Graduates Only

MUSIC 501, 502, 503 Seminar in Musical Analysis (3, 3, 3) 501: Chant to middle baroque. 502: High baroque through nineteenth century. 503: Impressionists to present.

MUSIC 511 Seminar in Field and Laboratory Methods (3) Methodology of research in ethnomusicology along with practical experience in recording and processing field and laboratory materials. Prerequisite: graduate student standing in ethnomusicology or permission of instructor.

MUSIC 512 Seminar in Ethnomusicology (3, max. 18) Study of methodological procedures in ethnomusicology applied to specific research problems. Prerequisite: graduate student standing in ethnomusicology or permission of instructor.

MUSIC 526, 527, 528 History of Theory (3, 3, 3) 526: Ancient, medieval, early Renaissance. 527: Renaissance, baroque, early classic. 528: Classic, romantic, twentieth century.

MUSIC 529 Aural Analysis (3) Formal structural and stylistic analysis of music based on the aural rather than the printed form of music. Develops and uses a vocabulary of stylistic features for identification of musical examples, which are drawn from various parts of the world.

MUSIC 531 Proseminar in Ethnomusicology (3) Theoretical and methodological practices in ethnomusicology based on existing major writings. Critical evaluations of works with a broad view toward developing ethnomusicological research. Prerequisite: permission of instructor.

MUSIC 532 Opera Direction and Production (4/6, max. 12) Practical experience with problems of the opera theatre.

MUSIC 533, 534, 535 Preceptorial Readings in Ethnomusicology (5, 5, 5) Significant ethnomusicological literature on the major music cultures. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

MUSIC 536 Transcription and Analysis (3) Study of practice in different notational analytical systems used in non-Western music. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

MUSIC 551 Practicum in Music Instruction (3, max. 9) Practical application and validation of results of investigation in curriculum, music teaching and learning, performance and theoretical studies. Prerequisite: teaching experience or permission of instructor.

MUSIC 559 Master's Recital (3, max. 9) Public performance for students in the Master of Music degree program. Prerequisite: permission of instructor and Master of Music program standing.

MUSIC 570 Seminar in Tonality (3, max. 9) Bernard, Larson, Rahn Advanced theoretical and analytical work in tonal music and related systems. Prerequisite: 470.

MUSIC 571 Seminar in Serialism (3, max. 9) Bernard, Larson, Rahn Advanced theoretical and analytical work in serialism and other nontonal systems. Prerequisite: 471 or equivalent.

MUSIC 572 Advanced Topics in Computer Music (3) Karpen, Rahn Topics vary. Offered: AWSps.

MUSIC 575 Seminar in Theory (3, max. 18) Bernard, Larson, Rahn Development and discussion of current student and faculty research in compositional/analytical theory and metatheory.

MUSIC 576 Critical Theory of Music (3, max. 18) Philosophical foundations of the criticism of music, including relevant contemporary thought in the criticism of literature and the other arts.

MUSIC 580, 581, 582 Advanced Conducting (3, max. 9; 3, max. 9; 3, max. 9) Eros, Karpen

MUSIC 583 Advanced Choral Conducting (3, max. 27) Kaplan

MUSIC 589 World Music Laboratory (3, max. 18) World music traditions taught by visiting artists with emphasis on cultural pedagogy and traditional theory. The particular culture studied changes from year to year. Required of all graduate students in ethnomusicology. Credit/no credit only.

MUSIC 590 Doctoral Recital (2-6, max. 18) Public performance for students in the Doctor of Musical Arts degree program. Prerequisite: permission of instructor.

MUSIC 591 Graduate Composition (* max. 30) Bernard, Durand, Karpen, Rahn, Thome

MUSIC 599 Advanced Selected Topics (1-3, max. 27) Selected readings on current issues and problems in music. Prerequisite: permission of a supervising music faculty member.

MUSIC 600 Independent Study or Research (*)

MUSIC 700 Master's Thesis (*)

MUSIC 800 Doctoral Dissertation (*)

Music History

Courses for Undergraduates

Courses 400 through 424—Prerequisite: 314.

MUHST 210, 211, 212 Introduction to the History of Western Music I, II, III (3, 3, 3) VLPA Bozarth, Starr, Introduction to the critical study of Western music history including representative composers, works, and genres as well as significant concepts and issues. 210: Origins of Western Music. 211: Baroque and Classical Periods. 212: Nineteenth and Twentieth Centuries. Concurrent enrollment in MUSIC 203 and 206 for 210, MUSIC 301 and 304 for 211, MUSIC 302 and 305 for 212. Prerequisite: MUSIC 120 or equivalent, music major, and placement by examination for 210. Offered: A, W, Sp.

MUHST 260 Orchestral Music (5) VLPA Orchestral music from its beginnings in the seventeenth century through recent developments; evolution of the symphony.

MUHST 261 Mozart (5) VLPA Introduction to Mozart's music and to musical life in Habsburg Austria during the Enlightenment. Mozart's musical personality studied through masterpieces in all genres, with principal emphasis on listening. Ability to read music not required.

MUHST 262 Introduction to Twentieth-Century Music (3) VLPA Starr Listener's survey of important composers and trends from Debussy through electronic music. Prerequisite: 120 or permission of instructor.

MUHST 263 Opera (5) VLPA Contributions of music, text, and staging; study of representative works concentrating on problems of combining these elements into a composite work of art.

MUHST 313, 314 Music Before 1750 (3, 3) VLPA 313: Sacred and secular music of the Middle Ages and Renaissance; 314: Music in the Baroque era, from Monteverdi to Bach, and its relationship to contemporary artistic, cultural, and political trends. Prerequisites: 215 and MUSIC 212 for 313; 313 for 314; to be taken concurrently with MUSIC 310, 311.

MUHST 330 Music in the United States (5) VLPA Contribution of music to the development of American culture.

MUHST 332 Music in European Society: Antiquity to 1700 (5) VLPA/I&S Music and its relationship to

aspects of European culture and society—philosophy, politics, social conditions, and the visual arts from antiquity to 1700. Prerequisite: MUSIC 120 or equivalent background.

MUHST 333 Music in European Society: 1700 to Present (5) VLPA/IS Music as related to other aspects of modern European culture and society—philosophy, politics, social conditions, and the visual arts. Prerequisite: MUSIC 120 or equivalent.

MUHST 400 Medieval Music: To 1400 (3) VLPA Taricani Gregorian chant through Machaut and Landini.

MUHST 401 Early British Music: 1300-1700 (3) VLPA Taricani Examines the history of British music from its earliest polyphony through the music of Purcell. Stylistic features of English music studied, including medieval polyphony, Tudor music, Elizabethan music, and seventeenth-century music through Purcell.

MUHST 402 Late Renaissance Secular Music: 1525-1630 (3) VLPA Taricani The madrigal in Italy, England, and Germany. The Chanson, Jannequin through Lassus.

MUHST 403 Late Renaissance Sacred and Instrumental Music: 1525-1630 (3) VLPA Taricani Latin church music. Willaert through G. Gabrieli; early Reformation church music, Walther through Gibbons; instrumental music, Cabezon, the English virginal school, and Sweelinck.

MUHST 404 Baroque Keyboard Music (3) VLPA Forms and styles: Frescobaldi through J.S. Bach and C.P.E. Bach.

MUHST 405 Orchestral Music: 1620-1760 (3) VLPA Corelli through the Mannheim School

MUHST 406 Baroque Choral Music (3) VLPA Monteverdi through Handel.

MUHST 407 Baroque Opera (3) VLPA Opera of the Baroque period.

MUHST 408 Keyboard Music: 1760-1830 (3) VLPA Haydn through Schumann.

MUHST 409 Chamber Music: 1760-1830 (3) VLPA Haydn through Schubert.

MUHST 410 Orchestral Music: 1760-1830 (3) VLPA Haydn through Berlioz.

MUHST 411 Art Song, 1760-1830 (3) VLPA The art song in European culture during the classical and early romantic periods.

MUHST 412 Choral Music: 1750-1830 (3) VLPA Large works for chorus and orchestra. Haydn through Berlioz.

MUHST 413 Opera: 1750-1830 (3) VLPA Gluck through Bellini.

MUHST 414 Keyboard Music: 1830-1915 (3) VLPA Liszt through Debussy.

MUHST 415 Chamber Music: 1830-1915 (3) VLPA Schumann through Ravel.

MUHST 416 Orchestral Music: 1830-1915 (3) VLPA Liszt and Brahms through early Schoenberg and Stravinsky.

MUHST 417 Art Song: 1830-1915 (3) VLPA Bozarth The Lieder of Schumann, Brahms, Wolf, Strauss, Mahler, and Schoenberg.

MUHST 418 Choral Music: 1830-1915 (3) VLPA Selected choral masterpieces. Brahms through Britten.

MUHST 419 Opera: 1830-1915 (3) VLPA Wagner through Puccini.

MUHST 420 Authenticity and Performance (3) VLPA The practical and philosophical issues raised by historically informed performance of early music on period instruments.

MUHST 421 Music Criticism (3) VLPA Starr Study of the various forms of music criticism, with an emphasis on the writing of valid examples and evaluation of one's own work along with that of others—classmates, journalists, and academic critics.

MUHST 423 Twentieth-Century Music: to 1945 (3) VLPA Starr Intensive study of selected composers and works exemplifying the new vocabularies, grammars, and styles of the early part of this century.

MUHST 424 Music Since 1945 (3) VLPA Starr Diversity of the contemporary musical scene. Vocabularies appropriate for the description and understanding of the new music, developed through study of representative composers and works, and appropriate readings.

MUHST 426 American Popular Music (3) VLPA Starr An in-depth consideration of American popular music styles and repertory from about 1920 to the present day. Analysis of representative pieces; consideration of critical and aesthetic issues relating to popular music; relationship of popular music to "art" music and to American culture and society. Prerequisites: 314 and MUSIC 312.

MUHST 429 Music, Literature, and the Arts (3) VLPA Literary and visual art works that include musical subject matter and forms; musical genres that incorporate such other arts as opera and ballet. Related philosophical writings. Includes works of a particular time period or investigation of a specific problem in comparative arts. Prerequisite: major in one of the arts, comparative arts, or related humanities field, or permission of instructor.

MUHST 497 Special Topics in Music History (1-3, max. 6) VLPA Topics vary each quarter.

Courses for Graduates Only

MUHST 500 Seminar in Methods of Music Research (3) Taricani Explores various critical approaches to research in music at the graduate level, examining specialized bibliographical resources, controversial arguments about musical issues, and other matters of musical criticism required to begin advanced study of music. Prerequisite for all graduate music history courses except 515.

MUHST 503 Readings in Medieval and Renaissance Music (5) Taricani Musical styles, genres, and forms of the middle ages and Renaissance. Focuses upon musicological problems and controversy related to music composed between ca. 1000 and 1600. Prerequisite: permission of instructor.

MUHST 504 Seminar in Medieval Music (3, max. 6) Taricani Prerequisite: 500.

MUHST 505 Seminar in Renaissance Music (3, max. 6) Taricani Prerequisite: 500.

MUHST 506 Seminar in Baroque Music (3, max. 6) Bozarth Prerequisite: 500.

MUHST 508 Seminar in the Viennese Classical Period: 1760-1830 (3, max. 6) Starr Prerequisite: 500.

MUHST 509 Seminar in Nineteenth-Century Music: 1830-1890 (3, max. 6) Bozarth Prerequisite: 500.

MUHST 510 Seminar in Music Since 1890 (3, max. 6) Starr Prerequisite: 500.

MUHST 515 Seminar in Medieval and Renaissance Notation (5) Taricani Gregorian chant through sixteenth-century prints.

MUHST 519 Seminar in Modern Editorial Procedures (5) Bozarth Study of modern procedures for preparing critical editions. Related areas of study may include analysis of musical style and historical and performance problems inherent in works being edited.

MUHST 520 Seminar in American Music (3, max. 6) Starr Research in the life, works, and times of composers in the United States from colonial days to the present. Prerequisite: 500 and undergraduate work in the history and analysis of twentieth century music.

MUHST 537 Seminar on Opera (3, max. 6) Starr in music history, providing a complement to history of opera series (MUHST 407, 413, 419). Prerequisite: MUHST 500.

Music Education

Courses for Undergraduates

MUSED 301, 302, 303 Musicianship for Teachers I, II, III (1, 1, 1) VLPA Applied experience for prospective music teachers in sight-singing, error detection, and keyboard skills relevant to the teaching of K-12 choral/vocal/general music. Performance techniques on the recorder (301), barred instruments (302), and guitar (303) as classroom instruments (with relevant literature). Prerequisite: 212, MUSAP 135.

MUSED 304, 305, 306 Elementary Instrumental Methods I, II, III (1, max. 3, 1, max. 3, 1, max. 3) VLPA Comprehensive examination of materials for training beginning instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to young players on string, wind, percussion instruments. To be taken concurrently with MUSAP 205, 210 and/or 217.

MUSED 340 Music in Education (3) VLPA Campbell, Demorest Goolsby An orientation to the broad scope of issues regarding music in the schools (K-12), including curriculum, the development of instructional strategies, and evaluation techniques. Prerequisite: music major.

MUSED 401 Tin Pan Alley: Concepts and Teaching Strategies for Music Educators (1) VLPA Overview of Tin Pan Alley phenomenon that dominated the American popular music industry for nearly 70 years. For music educators. Focuses on cooperative learning strategies and performance considerations in the school environment. Recommended: MUSIC 162.

MUSED 402 Rock and Roll Roots for Music Educators (1) VLPA Overview of the musical and cultural roots of American Rock & Roll for music educators. Explores teaching strategies and performance possibilities in the school environment. Recommended: MUSIC 162.

MUSED 403 Part-Time Student Teaching in Music (6) VLPA Campbell, Demorest, Goolsby Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Offered: AWSp.

MUSED 404 Full-Time Student Teaching in Music (15) VLPA Campbell, Demorest, Goolsby Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Offered: AWSp.

MUSED 405 Marching Band Technique (2) VLPA Basics of marching and maneuvering discussed and used to write drill. Covers selection of music; use of marching procession, and show design. Students complete a drill for their own band or for an instrumentation determined by the instructor.

MUSED 410 Instrumental Rehearsal Techniques (3) VLPA Salzman Includes score preparation, rehearsal formats, and error detection. Prerequisite: basic conducting skills.

MUSED 431 Curriculum in Music Education (3, max. 6) VLPA *Campbell, Demorest, Goolsby* Principles and practices of curriculum design applied to the development of the music curriculum. Individual or group work on elementary and secondary school music curriculum projects. Prerequisite: music teaching, student teaching, or permission of instructor.

MUSED 432 Comprehensive Music in the Secondary School (3) VLPA *Campbell* The teaching of music and its literature in music classes other than traditional ensembles from grade four through adults.

MUSED 440 Music for Children (3) VLPA *Campbell* Identification and selection of appropriate objectives, materials, teaching strategies and evaluation techniques used in teaching music from birth through grade 3, with consideration of various approaches (e.g., Delcroze, Kodaly, Orff) for early childhood development in music.

MUSED 442 Instrumental Curriculum: Methods and Materials (3) VLPA *Goolsby* Study of the organization and administration of school instrumental music; the selection and use of materials and teaching strategies from beginning to advanced levels of instrumental instruction.

MUSED 443 Choral Curriculum: Methods and Materials (3) VLPA *Lundquist* Study of the organization and administration of school choral music; the selection and use of materials and teaching strategies from beginning to advanced levels of choral instruction. Prerequisites: 340 and permission of instructor.

MUSED 452 Ethnomusicology in the Schools (3) VLPA *Campbell* Issues, teaching materials, and techniques involved in incorporating music cultures of United States and related world music repertoires in K-12 classroom instruction.

MUSED 453 Approaches to Classroom Instruction: K-12 (3) VLPA *Campbell* Examines such major instructional approaches as MMCP, Orff, Kodaly, and Delcroze. Included are the philosophy of each and the methods, materials, and instructional skills needed for classroom application. Prerequisite: 340 or permission of instructor.

MUSED 464 Classroom Management (2) VLPA *Demorest* Provides future teachers with strategies and techniques for classroom management and discipline, and an opportunity to observe their usage in actual teaching and learning settings. Minimum 12 hours observation in public school music classrooms before student teaching. Offered: W.

MUSED 465 Evaluation of Music Education Programs (2) VLPA *Goolsby* Surveys standardized and alternative assessment techniques for placement, diagnostic, formative, and summative evaluation in music. Techniques include assessment and evaluation procedures for various areas of music education. Covers program as well as teacher evaluation.

MUSED 475 Teaching the Music of Selected Cultures (1, max. 6) VLPA *Campbell* Music and culture of a specific world region with particular attention to songs, stories, and instrumental pieces applicable to the teaching of music and the arts in elementary and secondary schools.

MUSED 480 Music Methods for Classroom Teachers (3) VLPA Addresses the basic fundamentals of music and methods for teaching K-6 school children. Topics include repertoire appropriate for different age levels, world music songs for children, and methods and materials for integrating music into the K-6 curriculum. Offered: Sp.

MUSED 496 Special Topics in Music Education (1-3, max. 10) VLPA Special studies designed to reflect contemporary emphases and concerns in the music education profession.

Courses for Graduates Only

MUSED 501 Introduction to Research in Music Education (3) *Campbell* Seminar in research design and method with emphasis on identification of problems in music instruction, interpretation of data, and application of findings to classroom settings.

MUSED 502 Quantitative Research in Music Education (3) *Campbell, Demorest, Goolsby* Seminar in quantitative research utilizing experimental, quasi-experimental, and descriptive design, with emphasis on the pursuit of solutions to pedagogical problems through appropriate research procedures, analysis, and interpretation of findings. Prerequisite: 501.

MUSED 503 Ethnographic and Historical Research in Music Education (3) *Campbell, Demorest, Goolsby* Examination of ethnographic and historical modes of inquiry relevant to music instruction in classroom, studio, and community settings. Prerequisite: 502.

MUSED 523 Tests and Measurement (3) *Goolsby* Examination of currently published aptitude and achievement tests in music and their uses in music education. Explores the basic methods for constructing classroom tests and their use in evaluation. Selected readings include researching test construction and application of tests and measurement to program evaluation.

MUSED 524 Seminar in Music Education (3) Special problems in the teaching and supervision of music in the elementary grades. Prerequisite: one year of teaching experience.

MUSED 525 Seminar in Music Education (3) Special problems in the teaching and administration of music in the secondary school and community college. Prerequisite: one year of teaching experience.

MUSED 530 Administration and Supervision in Music Education (3) *Goolsby* Survey of issues in policy and systems for facilities, student/personnel, technology, school/community relations, and special programs in music education. Focuses on evaluating and improving existing programs. Includes supervision of student teachers.

MUSED 535 Seminar in Musical Development (3) *Demorest* Critical review of theories, methods of inquiry, designs, and conclusions of research in musical development from early childhood through adolescence. Emphasis on evaluating theories and methods of studying musical development and exploring their relationship to theories of general intellectual development; adult music cognition research; and curriculum and practice in music education. Offered: W.

MUSED 540 History of American Music Education (3) *Goolsby* A chronological examination of individual, social, and political events, and educational philosophies, that characterized the development of music instruction in American schools from colonial times to the present.

MUSED 542 Comparative Music Education (3) *Campbell* A transcultural examination of philosophy and practice of music instruction.

MUSED 550 Proseminar in Music Education (3) Examination of the major literature in the philosophy, history, psychology, and sociology of formal school music instruction.

MUSED 560 Contemporary Issues in Music Education (1-3, max. 6) *Campbell, Demorest, Goolsby* Seminar focusing on review of literature on psychological and sociological aspects of music education, including historical and philosophical foundations of music education in the United States. Appropriate for MA students seeking guidance in preparation of topic for examinations. Prerequisite 24 credits towards the MA.

MUSED 561 Seminar in Theories of Music Instruction (3, max. 9) *Campbell, Demorest, Goolsby* Theories of music instruction, with special attention to curriculum, instructional procedures, and assessment of learning. Prerequisite: 555 or permission of instructor.

MUSED 575 Seminar in Research Applications (1-3, max. 6) *Campbell* Seminar in music education to discuss problems and issues facing American music teachers; to distinguish research-based music instruction and pedagogy from "common wisdom"; and to provide a venue for guest speakers. Offered: A.

Music Ensemble

Courses for Graduates and Undergraduates

Courses 100 and 302 are open to all students without audition. All other ensembles are open to majors and nonmajors with an audition or permission of instructor. Graduate students should register for the 500-level ensemble courses.

MUSEN 100 University Singers (1, max. 15) VLPA Credit/no credit only.

MUSEN 300, 500 University Symphony Orchestra (1, max. 15; 1, max. 9) VLPA

MUSEN 301, 501 Wind Ensemble (1, max. 15; 1, max. 9) VLPA *Salzman*

MUSEN 302, 502 Symphonic Band (1, max. 10; 1, max. 6) VLPA *Salzman*

MUSEN 303, 503 Marching Band (2, max. 10; 2, max. 6) VLPA Credit/no credit only.

MUSEN 304, 504 Percussion Ensemble (1, max. 12; 1, max. 9) VLPA *Collier*

MUSEN 305, 505 Brass Ensemble (1, max. 12; 1, max. 9) VLPA *Kappy*

MUSEN 306, 506 Woodwind Ensemble (1, max. 12; 1, max. 9) VLPA *Skowronek*

MUSEN 307, 507 University Oratorio Chorus (1, max. 15; 1, max. 9) VLPA *Kaplan* Credit/no credit only.

MUSEN 325, 525 Accompanying (2, max. 30; 2, max. 18) VLPA *Bergman*

MUSEN 340, 540 Vocal Jazz Ensemble (1, max. 6; 1, max. 9) VLPA Credit/no credit only.

MUSEN 345, 545 Jazz Workshop (1, max. 12; 1, max. 9) VLPA *Collier, Seales*

MUSEN 346, 546 Studio Jazz Ensemble (1, max. 6; 1, max. 9) VLPA *Cummings* **MUSEN 347, 547 Opera Chorus (1, max. 12; 1, max. 9) VLPA** *Kaplan*

MUSEN 350, 550 University Chorale (1, max. 12; 1, max. 9) VLPA Credit/no credit only.

MUSEN 351, 551 Madrigal Singers (1, max. 15; 1, max. 9) VLPA Credit/no credit only.

MUSEN 361, 561 Piano Ensemble (1, max. 3; 1, max. 9) VLPA *O'Doan* Study and performance of works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability. Prerequisite: permission of instructor.

MUSEN 368, 568 Harp Ensemble (1, max. 12; 1, max. 9) VLPA *Vokolek*

MUSEN 369, 569 Baroque Chamber Ensemble (1, max. 9) VLPA *Terry, Tindemans* Prerequisite: permission of instructor.

MUSEN 375, 575 Opera Workshop (1, max. 6; 1, max. 9) VLPA Preparation of music theatre reper-

toire. Intended for the mature voice student. Prerequisite: permission of instructor.

MUSEN 380, 580 Sinfonietta (1, max. 6; 1, max. 9) VLPA

MUSEN 381, 581 Chamber Music (1, max. 18; 1, max. 9) VLPA Prerequisite: student is at MUSAP 300 level or above.

MUSEN 382, 582 Opera Theatre (2, max. 6; 2, max. 18) VLPA Public performance of roles in opera.

MUSEN 383, 583 Collegium Musicum (1, max. 6; 1, max. 9) VLPA Tindemans

MUSEN 384, 584 Contemporary Group (1, max. 6; 1, max. 9) VLPA Dempster Exploration of notation and performance problems in today's music; preparation for public performance. Credit/no credit only.

MUSEN 448 Advanced Studio Jazz Ensemble (1, max. 9) VLPA Cummings Preparation and performance of material appropriate to large jazz ensemble concerts, clinics, and radio and television broadcasts. Prerequisite: permission of instructor. Recommended: three quarters of 346.

MUSEN 465, 466, 467 Duo-Sonata Repertoire (2, 2, 2) VLPA 465: the classical period; 466: the romantic period; 467: the twentieth century. Prerequisite: undergraduate piano performance degree or permission of instructor.

Music Applied

Open to majors and nonmajors by audition. Courses 300-319 are private instruction for nonmajors. Courses 500-519 are private instruction for graduate nonmajors and graduate performance majors who have not yet been formally admitted by jury examination to the 520-539 level. (Please note that graduate students must advance to the 520-539 level within the first three quarters of study or withdraw from the program.)

MUSAP 133, 134, 135 Basic Keyboard (2, 2, 2) VLPA Michaelian Keyboard harmony and simple keyboard pieces. Class instruction. Prerequisites: ability to read notes (treble and bass clefs).

MUSAP 136 Basic Jazz Keyboard (2, max. 6) VLPA Seales Basics of jazz and pop chord voicings, reading lead sheets, basic accompanying in various jazz and pop styles. Prerequisites: audition and basic knowledge of music theory.

MUSAP 205 String Techniques (2, max. 12) VLPA Designed to prepare music education students to teach beginning and intermediate strings in the public schools.

MUSAP 210 Wind Techniques (2, max. 12) VLPA Designed to prepare music education students to teach beginning and intermediate woodwinds and brass in the public schools.

MUSAP 217 Percussion Techniques (2, max. 4) VLPA Collier The study of basic percussion techniques as they apply to music in the public schools. Acquaints the prospective music education major with percussion performance and teaching techniques. Prerequisite: music education major.

MUSAP 218 Guitar Techniques (1, max. 3) VLPA Novacek Includes exercises to develop a good basic technique emphasizing correct position and movement of both hands, basic folk song accompaniments including a variety of strums, finger picking patterns, hammering on and bass runs, reading guitar music, classical pieces, special effects, and access to other styles.

MUSAP 220 Musical Instrumental Digital Interface Systems Techniques (2) VLPA Overview of MIDI (Musical Instrumental Digital Interface) technology and practical applications of other music technologies in the school environment. Primarily for music education majors.

MUSAP 221 Secondary Musical Instrumental Digital Interface Systems Techniques (2) VLPA Explores further applications in the use of MIDI technology in the school environment. Focuses on editing and performance techniques involving a complex MIDI workstation. Primarily for music education majors. Prerequisite 220.

MUSAP 233, 234, 235 Secondary Piano (2, 2, 2) VLPA Focus is on advanced keyboard skills and piano repertoire. Prerequisite: 135 for 233; 233 for 234; 234 for 235. Consists of a half-hour private lesson every week.

MUSAP 239 Secondary Piano (2, max. 8) VLPA Intermediate level keyboard repertoire. Private instruction. Prerequisite: 235.

MUSAP 300, 500 Private Instruction: Voice (2-3, max. 45; 2-3, max. 45) VLPA Berendsen, Patrick, Pelton

MUSAP 301, 501 Private Instruction: Piano (2-3, max. 45; 2-3, max. 45) VLPA Herman, McCabe, Michaelian, O'Doan, Seales, Sheppard

MUSAP 302, 502 Private Instruction: Organ (2-3, max. 45; 2-3, max. 45) VLPA Terry

MUSAP 303, 503 Private Instruction: Harpsichord (2-3, max. 45; 2-3, max. 45) VLPA Terry

MUSAP 304, 504 Private Instruction: Violin-Viola (2-3, max. 45; 2-3, max. 45) VLPA Staryk

MUSAP 305, 505 Private Instruction: Violoncello (2-3, max. 45; 2-3, max. 45) VLPA Saks

MUSAP 306, 506 Private Instruction: Double Bass (2-3, max. 45; 2-3, max. 45) VLPA Lieberman

MUSAP 307, 507 Private Instruction: Flute (2-3, max. 45; 2-3, max. 45) VLPA Skowronek

MUSAP 308, 508 Private Instruction: Oboe (2-3, max. 45; 2-3, max. 45) VLPA

MUSAP 309, 509 Private Instruction: Clarinet (2-3, max. 45; 2-3, max. 45) VLPA McColl

MUSAP 310, 510 Private Instruction: Bassoon (2-3, max. 45; 2-3, max. 45) VLPA Grossman

MUSAP 311, 511 Private Instruction: Saxophone (2-3, max. 45; 2-3, max. 45) VLPA Brockman

MUSAP 312, 512 Private Instruction: Horn (2-3, max. 45; 2-3, max. 45) VLPA Kappy

MUSAP 313, 513 Private Instruction: Trumpet (2-3, max. 45; 2-3, max. 45) VLPA Cummings

MUSAP 314, 514 Private Instruction: Trombone (2-3, max. 45; 2-3, max. 45) VLPA Dempster

MUSAP 315, 515 Private Instruction: Tuba (2-3, max. 45; 2-3, max. 45) VLPA Salzman

MUSAP 316, 516 Private Instruction: Harp (2-3, max. 45; 2-3, max. 45) VLPA Vokolek

MUSAP 317, 517 Private Instruction: Percussion (2-3, max. 45; 2-3, max. 45) VLPA Crusoe

MUSAP 318, 518 Private Instruction: Guitar (2-3, max. 45; 2-3, max. 45) VLPA Novacek

MUSAP 319, 519 Private Instruction: Viola da Gamba (2-3, max. 45; 2-3, max. 45) VLPA Tindemans

Courses 320-339, 420-439 are private instruction for undergraduate music majors.

MUSAP 320, 420 Private Instruction: Voice (2-3, max. 27; 2-3, max. 27) VLPA Berendsen, Patrick, Pelton

MUSAP 321, 421 Private Instruction: Piano (2-3, max. 27; 2-3, max. 27) VLPA Herman, McCabe, Michaelian, O'Doan, Seales, Sheppard

MUSAP 322, 422 Private Instruction: Organ (2-3, max. 27; 2-3, max. 27) VLPA Terry

MUSAP 323, 423 Private Instruction: Harpsichord (2-3, max. 27; 2-3, max. 27) VLPA Terry

MUSAP 324, 424 Private Instruction: Violin-Viola (2-3, max. 27; 2-3, max. 27) VLPA Staryk

MUSAP 325, 425 Private Instruction: Violoncello (2-3, max. 27; 2-3, max. 27) VLPA Saks

MUSAP 326, 426 Private Instruction: Double Bass (2-3, max. 27; 2-3, max. 27) VLPA Lieberman

MUSAP 327, 427 Private Instruction: Flute (2-3, max. 27; 2-3, max. 27) VLPA Skowronek

MUSAP 328, 428 Private Instruction: Oboe (2-3, max. 27; 2-3, max. 27) VLPA

MUSAP 329, 429 Private Instruction: Clarinet (2-3, max. 27; 2-3, max. 27) VLPA McColl

MUSAP 330, 430 Private Instruction: Bassoon (2-3, max. 27; 2-3, max. 27) VLPA Grossman

MUSAP 331, 431 Private Instruction: Saxophone (2-3, max. 27; 2-3, max. 27) VLPA Brockman

MUSAP 332, 432 Private Instruction: Horn (2-3, max. 27; 2-3, max. 27) VLPA Kappy

MUSAP 333, 433 Private Instruction: Trumpet (2-3, max. 27; 2-3, max. 27) VLPA Cummings

MUSAP 334, 434 Private Instruction: Trombone (2-3, max. 27; 2-3, max. 27) VLPA Dempster

MUSAP 335, 435 Private Instruction: Tuba (2-3, max. 27; 2-3, max. 27) VLPA Salzman

MUSAP 336, 436 Private Instruction: Harp (2-3, max. 27; 2-3, max. 27) VLPA Vokolek

MUSAP 337, 437 Private Instruction: Percussion (2-3, max. 27; 2-3, max. 27) VLPA Collier, Crusoe

MUSAP 338, 438 Private Instruction: Guitar (2-3, max. 27; 2-3, max. 27) VLPA Novacek

MUSAP 339, 439 Private Instruction: Viola da Gamba (2-3, max. 27; 2-3, max. 27) VLPA Tindemans

MUSAP 340, 440 Timpani (2-3, max. 27; 2-3, max. 27) VLPA Crusoe

MUSAP 341, 441 Mallet Percussion (2-3, max. 27; 2-3, max. 27) VLPA Collier

MUSAP 389 World Music (2-3, max. 18) VLPA/ I&S World music traditions taught by visiting native artists. Consult ethnomusicology staff for current offerings. Credit/no credit only.

MUSAP 442 Jazz and Non-Western Drumming Techniques (2/3) VLPA Collier Focused study of American jazz drumming and/or hand drumming techniques of various world music cultures to broaden the skills of percussion students, preparing them for new demands of contemporary musical styles. Designed primarily for music majors enrolled in the percussion program.

Courses 520-539 are private instruction for graduate performance majors in the Masters of Music degree program. Courses 570-589 are private instruction for graduate performance majors who have been formally admitted by jury examination to the DMA degree program.

MUSAP 520, 570 Private Instruction: Voice (3, max. 18; 3, max. 27) VLPA Berendsen, Patrick, Pelton

MUSAP 521, 571 Private Instruction: Piano (3, max. 18; 3, max. 27) McCabe, Michaelian, O'Doan, Sheppard

MUSAP 522, 572 Private Instruction: Organ (3, max. 18; 3, max. 27) Terry

MUSAP 523, 573 Private Instruction: Harpsichord (3, max. 18; 3, max. 27) Terry

MUSAP 524, 574 Private Instruction: Violin-Viola (3, max. 18; 3, max. 27) Staryk

MUSAP 525, 575 Private Instruction: Violoncello (3, max. 18; 3, max. 27) Saks

MUSAP 526, 576 Private Instruction: Double Bass (3, max. 18; 3, max. 27) Lieberman

MUSAP 527, 577 Private Instruction: Flute (3, max. 18; 3, max. 27) Skowronek

MUSAP 528, 578 Private Instruction: Oboe (3, max. 18; 3, max. 27)

MUSAP 529, 579 Private Instruction: Clarinet (3, max. 18; 3, max. 27) McColl

MUSAP 530, 580 Private Instruction: Bassoon (3, max. 18; 3, max. 27) Grossman

MUSAP 531, 581 Private Instruction: Saxophone (3, max. 18; 3, max. 27) Brockman

MUSAP 532, 582 Private Instruction: Horn (3, max. 18; 3, max. 27) Kappy

MUSAP 533, 583 Private Instruction: Trumpet (3, max. 18; 3, max. 27) Cummings

MUSAP 534, 584 Private Instruction: Trombone (3, max. 18; 3, max. 27) Dempster

MUSAP 535, 585 Private Instruction: Tuba (3, max. 18; 3, max. 27) Salzman

MUSAP 536, 586 Private Instruction: Harp (3, max. 18; 3, max. 27) Vokolek

MUSAP 537, 587 Private Instruction: Percussion (3, max. 18; 3, max. 27) Collier, Crusoe

MUSAP 538, 588 Private Instruction: Guitar (3, max. 18; 3, max. 27) Novacek

MUSAP 540, 590 Timpani (3, max. 18; 3, max. 27) Crusoe

MUSAP 541, 591 Mallet Percussion (3, max. 18; 3, max. 27) Collier

MUSAP 542, 592 Private Instruction: Viola da Gamba (3, max. 18; 3, max. 27) Tindemans

MUSAP 589 World Music Laboratory (2-3, max. 18) World music traditions taught by visiting artists with emphasis on cultural pedagogy and traditional theory. The particular culture studied changes from year to year. Required of all graduate students in ethnomusicology. Credit/no credit only.

Near Eastern Languages and Civilization

229B Denny

Undergraduate Program

The program focuses on the languages and civilizations of the Islamic Near and Middle East and the Semitic Near East, with an emphasis on the ancient and medieval roots of these civilizations as well as

more recent cultural developments. Each of the languages offered represents a major literary tradition. Arabic, Persian, Turkish, and Central Asian Turkic are the languages of the most significant literary manifestations of Islamic civilization, while Hebrew is the language of the Old Testament and Judaism. The languages are taught in conjunction with their sociocultural context, so that linguistic skills will be formed and enhanced by a broad and sympathetic understanding, and a firm foundation will be laid for both intellectual exploration and practical experience.

Bachelor of Arts

Major Requirements

Near Eastern Languages and Civilization: An approved program of 30 credits, excluding elementary and intermediate language courses, in courses offered by the department or courses on the Near East offered by other departments, or both, plus at least 9 credits in literature or text courses at the 400 level in the major language. Usually intermediate language courses are a prerequisite for these advanced courses. All majors are required to take N E 210 and one of the following: N E 211, N E 240, or RELIG 210. Study opportunities in the Near East and in Central Asia are available on a competitive basis for a limited number of students.

Near Eastern Civilization: Two years of one Near Eastern language or its equivalent as evidenced by examination; N E 210; one of the following: N E 211, N E 240, or RELIG 210; 20 credits in Near Eastern courses including at least one course from each of the following areas: Near Eastern civilization, Near Eastern religion, Near Eastern literature in translation; 8 credits in non-language, upper-division courses related to the Near East in the department or in other departments; a senior essay on a topic of Near Eastern civilization (5 credits).

Minor

Minor Requirements: 25 credits including N E 210; one course from N E 211, 240, RELIG 210; additional credits from Near Eastern civilization or language courses (may not include language courses at the beginning or intermediate level).

Graduate Program

Master of Arts

The Department of Near Eastern Languages and Civilization offers a graduate program of studies leading to the Master of Arts degree. The program is designed to provide students with advanced training in at least one Near Eastern language and in a specific field of specialization. Students may concentrate in Arabic, Hebrew, Persian, Turkish, or Central Asian Turkic and may choose as their field of specialization a civilization or literature related to their language of concentration. The program is intended not only for those students who wish to continue their studies at the doctoral level but also for students who wish to pursue careers in government or business.

Admission Requirements: Statement of purpose; a sample of written work; three letters of recommendation, of which at least two must attest to scholarly ability. Although knowledge of a Near Eastern language is not a prerequisite for admission, applicants are generally expected to have had the equivalent of two years' study of the language in which they plan to concentrate.

Graduation Requirements: Departmental requirements, in addition to those required by the Graduate School for the Master of Arts degree, include a reading knowledge of French or German, or, with the prior approval of the student's M.A. Committee, any other language pertinent to the research in the student's field of study; a seminar paper representing the student's best work; a written examination consisting of four

parts: (1) on the general culture of the Near East, (2) on the student's field of specialization, (3) on the student's language of concentration, (4) on a second Near Eastern language related to the language of concentration.

Fulfillment of these requirements normally entails the completion of at least two years of study.

Doctor of Philosophy

Some of the department faculty are part of an interdisciplinary faculty group which offers doctoral study in Near and Middle Eastern Studies. The program is located administratively within The Graduate School. For a description of the program, see the Interdisciplinary Graduate Degree Programs section of this catalog.

Correspondence and Information

The Graduate School, Box 351240
(206) 365-9051

Summer Programs

The department offers Summer Intensive Language programs in Arabic, Hebrew, and Central Asian languages (Uzbek, Kazakh, Tajik, and others).

Research Facilities

The University of Washington libraries hold an extensive collection of books and materials in the languages of the Near East, the Turkic regions of Central Asia, and in European languages on Near Eastern and Central Asian Turkic subjects. Candidates for the master's degree as well as doctoral students will find in the collection adequate resources for their research.

Currently, the library participates in the Library of Congress Middle East Cooperative program for the acquisition of Arabic serials, and the Library of Congress Cooperative program for Pakistan for the purchase of Persian books and serials.

The library staff includes Near East and Central Asia specialists responsible for acquiring and cataloging the collection.

The library maintains book exchanges with the Central Asian Republics, some of these beginning as early as 1961. They are handled through the Near East Section of the University's Suzzallo Library. Among its staff are an exchange librarian and a specialist trained in Central Asian Turkic languages. A book exchange with Xinjiang is administered through the East Asia Library.

Financial Aid

Teaching assistantships are available for graduate students in the department who are fluent in speaking and writing a Near Eastern language. A limited number of graduate fellowships are also available.

Exchange Agreements

The University of Washington and the Department of Near Eastern Languages and Civilization maintain exchange agreements for graduate students and faculty with the following universities and institutions: American University in Cairo, Egypt; Hebrew University of Jerusalem—Israel; Tashkent University—Uzbekistan. In addition the department maintains a direct exchange agreement with Xinjiang University, Urumchi, People's Republic of China; established exchanges and cooperation with the Oriental Institute at the Tajik Academy of Sciences, Dushanbe; and participates in an agreement of scholarly exchanges and cooperation with the Uzbek Writers' Union, the Uzbek Academy of Sciences, and the Kazakh Academy of Sciences.

The department is an institutional member of the following organizations which also offer opportunities for study and research abroad: Center for Arabic Study Abroad in Cairo (CASA), American Research Center in Egypt, and the American Research Institute in Turkey.

Silay, Kemal * 1993; PhD, 1993, Indiana University; Turkish language and literature, Ottoman philology and literature, Turkish folklore.

Senior Lecturer

Stilo, Donald L. 1988; PhD, 1971, University of Michigan; Iranian and Middle Eastern linguistics.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Arabic

ARAB 401 Intensive Elementary Arabic (15) Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 411, 412, 413 taken.) Offered: S.

ARAB 411, 412, 413 Elementary Arabic (5, 5, 5) Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 401 taken.) Prerequisites: 411 for 412, 412 for 413.

ARAB 414, 415, 416 Spoken Arabic (3, 3, 3) Study of grammar with emphasis on oral drill in modern spoken Arabic (Western or Eastern).

ARAB 421, 422, 423 Intermediate Arabic (5, 5, 5) **VLPA** Reading of selected texts in standard Arabic,

with continuing emphasis on grammar and syntax. Prerequisites: 401 or 413 for 421, 421 for 422, 422 for 423 or equivalent.

ARAB 431, 432, 433 Advanced Arabic (3, 3, 3) **VLPA** Designed to impart to the student an active knowledge of Arabic structure and syntax and to increase his or her vocabulary power through supervised composition, translation into Arabic, and precis of expository writings. Particular emphasis is placed on journalistic articles and editorials. Prerequisite: 423 or equivalent for 431, 431 for 432, 432 for 433.

ARAB 451 Adab Prose: Jahiz (3) VLPA Readings in early Arabic prose, especially the writings of Jahiz. Prerequisite: 423 for 431, 431 for 432, 432 for 433.

ARAB 452 Maqamat: Hamadhani, Hariri (3) VLPA **MacKay** Reading of several maqamat (essays in rhymed prose) of al-Hamadhani and al-Hariri. Examination of the maqamat genre as a whole. Prerequisite: 423 or equivalent.

ARAB 453 Historians: Tabari (3) VLPA/I&S Readings in Arab historians with particular reference to al-Tabari and his school of historical writing. Prerequisite: 423 or equivalent.

ARAB 454 Qur'an and Tafsir (3) VLPA Reading of various sections from the Qur'an with the relevant exegetical writings on religious, philological, and grammatical points. Prerequisite: 423 or equivalent.

ARAB 455 Hadith and Law (3) VLPA Selected readings from the traditions (hadith) of Muhammad, and from works on jurisprudence and law based on the holy texts. Prerequisite: 423 or equivalent.

ARAB 456 Islamic Political Theorists (3) VLPA/I&S Readings from the main political theorists: al-Baghdadi, al-Mawardi, and Ibn Khaldun. Prerequisite: 423 or equivalent.

ARAB 457 Arabic Grammatical Texts (3) VLPA Introduction to the concepts and terminology of traditional Arabic grammar. Readings in the grammatical literature supplemented by instructor's lectures and written exercises. Prerequisites: good command of Arabic and permission of instructor.

ARAB 458 Modern Poetry (3) VLPA **DeYoung** Neoclassical poetry of the nineteenth and twentieth centuries, and the development of modern verse. Prerequisite: 423 or equivalent.

ARAB 459 Islamic Philosophical Literature (3) VLPA/I&S Reading of selected texts by representative Islamic philosophers. Prerequisite: 423 or equivalent.

ARAB 460 Islamic Theological and Mystical Literature (3) VLPA Reading of selected texts representative of Islamic theological and mystical schools. Prerequisite: 423 or equivalent.

ARAB 461 Modern Prose (3) VLPA **DeYoung** Modern essays, fiction, and ideological writings. Prerequisite: 423 or equivalent.

ARAB 490 Supervised Study (1-6 max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: 423 or equivalent and permission of instructor.

ARAB 499 Undergraduate Research (1-6 max. 18) Prerequisite: permission of instructor.

Coptic

COPTC 411 Introduction to Coptic (3) **Williams** Elements of grammar of the Sahidic dialect of the Coptic language.

COPTC 422, 423 Readings in Coptic (3, 3) VLPA **Williams** Readings from ancient Coptic Christian literature, with emphasis on the Nag Hammadi Gnostic texts. Prerequisite: 411 or equivalent.

Hebrew

HEBR 401 Intensive Elementary Modern Hebrew (15) Intensive study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 411, 412, 413 taken.) Offered: S.

HEBR 411, 412, 413 Elementary Modern Hebrew (5, 5, 5) **Sokoloff** Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if 401 taken.) Prerequisites: 411 for 412, 412 for 413 or equivalent.

HEBR 421, 422, 423 Intermediate Modern Hebrew (5, 5, 5) VLPA **Sokoloff** Readings of selected texts in modern Hebrew with continuing emphasis on grammar and syntax. Prerequisites: 401 or 413 for 421, 421 for 422, 422 for 423 or equivalent.

HEBR 451, 452, 453 Introduction to Hebrew Literature (3, 3, 3) VLPA **Sokoloff** Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts—short poetry, fiction, and essays—with some selections as well from biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: 423 or permission of instructor.

HEBR 454 Hebrew Poetry (3) VLPA **Sokoloff** Selections of poetry by prominent twentieth-century Hebrew poets whose texts comment or elaborate on biblical texts. Original source considered side-by-side with modern poetry, to examine ways recent literature models itself on, draws upon, and revises traditional sources. Prerequisite: 423 or permission of instructor.

HEBR 455 Hebrew Fiction (3) VLPA **Sokoloff** Selections of fiction by prominent modern Hebrew writers, including S.Y. Agnon, Aharon Appelfeld, David Shahar, Aharon Megged, and others. Prerequisite: 423 or permission of instructor.

HEBR 490 Supervised Study (1-6 max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: 423 or equivalent and permission of instructor.

HEBR 499 Undergraduate Research (1-6 max. 18) Prerequisite: permission of instructor.

Persian

PRSAN 401 Intensive Elementary Tajik (15) Intensive study of grammar with oral and written drill and reading of selected texts in Tajik, the literary language spoken and written in the Central Asian Republic of Tajikistan. Offered: S.

PRSAN 411, 412, 413 Elementary Persian (5, 5, 5) Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Prerequisites: 411 for 412, 412 for 413 or equivalent.

PRSAN 421, 422, 423 Intermediate Persian (5, 5, 5) VLPA Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Prerequisites: 413 for 421, 421 for 422, 422 for 423 or equivalent.

PRSAN 431, 432, 433 Advanced Persian (3, 3, 3) VLPA Designed to improve reading and writing skills. Graded reading and writing and exposure to the writing system, textual history, newspaper reading, and translation. Cultural materials presented as appropriate. The art of calligraphy introduced. For students with a degree of proficiency in spoken Persian. Prerequisite: 423 or equivalent.

PRSAN 451 Introduction to Persian Literature (3) VLPA **Karimi-Hakkak** Selected texts from modern and classical Persian poetry and prose. Provides insights into Iranian culture and its past and present.

achievements in literature. Prepares the student for a more comprehensive and critical study of Persian literature. Prerequisite: 423 or equivalent.

PRSAN 452 Modern Persian Literature: A Survey (3) VLPA *Karimi-Hakkak* Development of poetry and prose after Iran fell and absorbed the impact of Western cultures. Periods and genres. Works of such authors as Jamalzadeh, Hedayat, Dehkoda, Al-e Ahmad, Nima, Sepehri, and Forugh. Prerequisite: 423 or equivalent.

PRSAN 453 Classical Persian Literature: A Survey (3) VLPA *Karimi-Hakkak* History of Persian literature from Rudaki to Hafiz. Studies epic, lyric, and mystic traditions placed in historical settings. Covers the most important genres such as the Qasida, the Ghazal, the Ruba'i and the Masnavi. Prerequisite: 423 or equivalent.

PRSAN 454 The Epic Tradition in Iran (3) VLPA *Karimi-Hakkak* Focuses on the Shahnameh of Ferdowsi: explores the ancient legends that gave rise to it and follows the fortunes of epic poetry after Ferdowsi, touching on the rise, development, and decline of romance in classical Persian literature. Prerequisite: 441 or equivalent.

PRSAN 455 The Persian Ghazal (3) VLPA *Karimi-Hakkak* The Ghazal as the leading medium for lyrical expression in classical Persian tradition. Follows this genre from conception to culmination in the poetry of Hafiz. Conventions and devices of the Ghazal. Development placed in historical and social context. Prerequisite: 441 or equivalent.

PRSAN 456 Sufism: Thought and Expression (3) VLPA/IS *Karimi-Hakkak* Dynamics of mystical thought and expression as evolved in the writings of the great Sufi masters and reflected in the poetry of Sana'i, Attar, Rumi, and others. The fundamental unity of the mystical vision, with special attention to the peculiarities of individual style and expression. Prerequisite: 441 or equivalent.

PRSAN 490 Supervised Study (1-6 max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: 423 or equivalent and permission of instructor.

PRSAN 499 Undergraduate Research (1-6 max. 18) Prerequisite: permission of instructor.

Turkic

TKIC 401 Intensive Elementary Uzbek (15) Intensive study of grammar, with oral and written drill and reading of simple texts in Uzbek. Covers first year Uzbek. Cannot be taken for credit if 411, 412, 413 taken. Offered: S.

TKIC 402 Intensive Elementary Kazakh (15) Intensive study of grammar, with oral and written drill and reading of simple texts in Kazakh. Covers first year Kazakh. Cannot be taken for credit if 414, 415, 416 taken. Offered: S.

TKIC 403 Intensive Elementary Kirghiz (15) Intensive study of grammar with oral and written drill of selected texts. Offered: S.

TKIC 404 Intensive Intermediate Uzbek (15) VLPA Allows students to complete second year Uzbek in one quarter. Reading of selected texts in Uzbek, with continuing emphasis on oral and written practice, grammar, and advanced readings. Cannot be taken for credit if 421, 422, 423 taken. Prerequisite: 401 or 413 or equivalent. Offered: S.

TKIC 405 Intensive Intermediate Kazakh (15) VLPA Allows students to complete second year Kazakh in one quarter. Reading of selected texts in modern literary Kazakh, with emphasis on grammar, syntax, and oral practice. Prerequisite: 402 or 416 or equivalent. Offered: S.

TKIC 411, 412, 413 Elementary Uzbek (5, 5, 5) *Cirtautas* Introduction to the modern written and spoken language. Cannot be taken for credit if 401 taken.

TKIC 414, 415, 416 Introduction to Kazakh (3, 3, 3) *Cirtautas* Position of Kazakh within the community of other Turkic languages; alphabets used for Kazakh; reading of texts from Kazakhstan and China (Xinjiang); oral and written exercises. Cannot be taken for credit if 402 taken.

TKIC 417, 418, 419 Introduction to Uighur (3, 3, 3) *Cirtautas* Phonology, morphology, and syntax of Uighur.

TKIC 421, 422, 423 Intermediate Uzbek (3, 3, 3) *VLPA* *Cirtautas* Continuation of elementary Uzbek. Oral work, grammar, and readings in Uzbek literature. Prerequisites: 402 or 413 for 421, 421 for 422, 422 for 423.

TKIC 451 Introduction to Turkic Studies (3) VLPA *Cirtautas* Bibliography, problems, and methods of research in the field of Turkic studies for advanced students of Turkish/Turkic languages, including readings in those languages on the languages, literatures, and ethnography of past and present Turkic peoples. Prerequisite: permission of instructor.

TKIC 454, 455, 456 Introduction to Uzbek Literature (3, 3, 3) VLPA *Cirtautas* Readings from selected Uzbek writers. Content varies. Prerequisite: permission of instructor.

TKIC 490 Supervised Study (1-6 max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: 404, 405, or 423 or equivalent and permission of instructor.

TKIC 499 Undergraduate Research (3-5 max. 15) For Turkic language and literature majors. Prerequisite: permission of instructor.

Turkish

TKISH 411, 412, 413 Elementary Turkish (5, 5, 5) Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout.

TKISH 421, 422, 423 Intermediate Turkish (5, 5, 5) *VLPA* Introduction to modern Turkish literature. Prerequisite: 413 for 421, 421 for 422, 422 for 423 or equivalent.

TKISH 451 Readings in Turkish Literary History I: Modern (3) VLPA The development of modern Turkish literature and its ties to, and divergence from, the Ottoman tradition. Readings in modern and Tanzimat poetry, short story, drama, and novel. Prerequisite: permission of instructor.

TKISH 452 Readings in Turkish Literary History II: Literature of the Ottoman Empire (3) VLPA The parallel development of the classical high-culture literature and the popular literatures of the Ottoman Empire. Readings in poetry, history, travel literature, drama, and popular narrative forms. Prerequisite: 423 or equivalent.

TKISH 453 Ottoman Travelers and Geography (3) VLPA *MacKay* Introduction to the geographic literature of Ottoman Turkish: readings from traditional cosmographies, travel journals, sailing instructions (portulans), ambassadorial and secret service reports. Prerequisite: 456 or permission of instructor.

TKISH 454 Turkish Literary Genres: Prose (3) VLPA Major genres, styles, and themes of Turkish art-prose from Ottoman times to present; creation of stylistic and critical norms. Prerequisite: 423 or equivalent.

TKISH 455 Turkish Literary Genres: Poetry (3) VLPA Poetic traditions of Turkey with a focus on the development of peculiarly Turkish aspects of style and structure. Social functions of poetry and the poetic milieu. Prerequisite: 423 or equivalent.

TKISH 456 Introduction to Ottoman Turkish (3) VLPA Introduction to Turkish in Arabic characters to cover the peculiar grammatical and syntactical problems of Ottoman. Prerequisite: permission of instructor.

TKISH 490 Supervised Study (1-6 max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: 423 or equivalent and permission of instructor.

TKISH 499 Undergraduate Research (1-6 max. 18) Prerequisite: permission of instructor.

Near Eastern Languages and Civilization

Courses in English

NEAR E 210 Introduction to Islamic Civilization (5) VLPA/IS Major developments in Islamic civilization from advent of Islam in seventh century to present. Islamic history, law, theology, and mysticism, as well as the politics, cultures, and literatures of the various Islamic societies. Offered: jointly with SISME 210.

NEAR E 211 Islam (5) VLPA/IS Religious and cultural milieu of Arabia before Muhammad; Muhammad's call and struggle to establish the new faith; Qur'anic content and style; Western and Muslim scholarship and the Qur'an; place of traditions in the Islamic edifice; Muslim political and religious thought; sources of Muslim religious law; and modern Muslim movements. Offered: jointly with RELIG 211.

NEAR E 212 Qur'an in English (3) VLPA/IS Survey of the contents of the sacred scripture of Islam, regarded by Muslims throughout the world as the literal word of God. Treats Qur'anic narrative, law, theology, and ethics. Some attention also given to the Qur'an as an historical document and to Qur'anic scholarship by non-Muslims. Offered: jointly with RELIG 212.

NEAR E 230 Themes in Near Eastern Literature (5) VLPA, IS Significant and interesting aspects of Near Eastern culture and society as represented by literary themes. Aspects of Near Eastern life and art such as women, minority groups, mysticism, and modern literature. Content varies.

NEAR E 240 Introduction to the Bible: Old Testament (5) VLPA *Jaffee* Introduction to the Hebrew Bible in English. Results of modern critical studies on the Bible and the ancient Near East. Concentrates on the meaning of Biblical records in their own time and environment. Offered: jointly with RELIG 240.

NEAR E 242 Cultural History of Turkey: From Empire to Nation (5) VLPA/IS *Silay* Topics include: social, economic, and political structures of Ottoman and Turkish Anatolia; language, literature, and artistic tradition; social status of women, literacy and illiteracy, the secular enterprise of Kemal Ataturk; Islamic fundamentalism, educational institutions, Kurdish nationalism. Offered: W.

NEAR E 250 Iranian Culture and Civilization (3) VLPA/IS *Karimi-Hakkak* Explores the culture and civilization of this Middle Eastern society through a multi-disciplinary approach that includes such manifestations as architecture, carpet-weaving, story-telling, and the composition of poetry.

NEAR E 251 Jewish Life in Literature and Film (3) VLPA/IS Major themes of Jewish life treated in modern narrative and cinema. Topics include religious tradition and modernity, Jewish immigration to America, responses to the Holocaust and Zionism.

NEAR E 260 The Middle East in Film (3) VLPA/IS *Albright* The cinema of Egypt, Iran, Israel, Turkey, and other Middle Eastern nations; compares and contrasts the films with Middle Eastern literature from the twentieth century. Both films and literature illustrate how Middle Easterners view the world: their concepts of self versus society, religion, art, and politics.

NEAR E 310 Modern Near Eastern Literatures in English Translation (3) VLPA Contemporary cultures of the Middle East studied through exposure to a representative sample of their literary work. Texts selected address major issues in Middle Eastern societies, e.g. tradition versus modernity, national identity and the challenge of the West, Arab-Israeli conflict.

NEAR E 325 Modern Hebrew Literature in English (3) VLPA Sokoloff Major developments in Hebrew literature from the Enlightenment to the current Israeli literature. Examines the development of modern Hebrew thought and literary style.

NEAR E 350 The City of Cairo (3) VLPA/IS MacKay Development of Fustat and Cairo, 600-1800, with special emphasis on art and architecture. Consideration of the economic, social, and geographical influences on the creation of the distinctive Egyptian styles of Islamic art. Offered: jointly with ART H 350.

NEAR E 363 Oral Literature of the Turkic Peoples of Central Asia I: the Heroic Epos (3) VLPA Cirtautas Representative heroic poems of Central Asian Turkic peoples now living in the Central Asian Republics and China. Origin of the heroic epos, its relation to the romantic epos and other oral literary genres. Art of the singer and his role in nomadic Turkic society. Emphasis on Manas, the monumental epos of Kirghiz. Offered: jointly with TKIC 363.

NEAR E 375 Turkic Peoples of Central Asia (3) I&S Cirtautas History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with SISRE 375.

NEAR E 402 Classical Arabic Literature in Translation (3) VLPA DeYoung Examines development of Arabic literature from its beginnings through the fall of the Abbasid dynasty to the Mongols. Coincides with period when Arabic language and literature were dominant forces in Islamic civilization. Topics include: impact of Islam on the literature, courtly love, mystical poetry, the Thousand-and-One Nights, and Hispano-Arabic literature.

NEAR E 420 Islamic Theological Literature in English (3) VLPA Readings from Mu'tazilite and Ash'arite works and from traditionalist works opposed to theology.

NEAR E 421 Islamic Mystical Literature in English (3) VLPA Readings from the works of principal Sufi writers and poets.

NEAR E 422 Islamic Philosophical and Scientific Literature in English (3) VLPA Readings in philosophy, the physical sciences, and medicine.

NEAR E 423 Persian Literature in Translation (3) VLPA Karimi-Hakkak Designed to familiarize students with an expanding collection of works translated from Persian literature, both classical and modern, into English. Focuses on a few representative texts and offers interpretations of the culture through close readings. Prior acquaintance with Iranian culture not required.

NEAR E 425 Current Trends in Modern Near Eastern Literature and Criticism (3) VLPA Modern literary tradition of the Near East with emphasis on major literary movements and/or genres and literary criticism in the modern period. The literatures of the Arab world, Persia, Turkey, and Israel are considered in alternate quarters.

NEAR E 432 Islamic Literature on Jurisprudence and Law in English (3) VLPA/IS The origins of the *shari'ah*, its development throughout the Islamic period, and the modern reform of this law.

NEAR E 440 Calligraphy in Islamic Culture (3) VLPA Survey of the esthetics, uses, interpretations of artistic writing in Islamic culture with a "hands on"

approach to recognizing, appreciating, and creating Arabic script calligraphy. Students need not know Arabic script nor have calligraphic talents, although some familiarity with Islamic civilization is helpful.

NEAR E 442 Turkish Literature in Translation (3) VLPA Silay Covers major theoretical issues concerning Ottoman court literature and Turkish epic and troubadour poetry. Major writers and works of modern Turkish literature read and analyzed in their social, political, and theoretical contexts. Previous study of Turkish literature not required. Prerequisite: upper division or graduate standing.

NEAR E 450 Survey of the Cultures of the Turkic Peoples of Central Asia (3) VLPA/IS Cirtautas Nomadic and sedentary cultures of the Turkic peoples of Central Asia. Emphasis on language, literature, and adherence to traditional modes of life. Offered: jointly with SISRE 450.

NEAR E 490 Supervised Study (1-6, max. 18) Special work in Near Eastern studies for graduates and undergraduates. Prerequisite: permission of instructor.

NEAR E 495 Trends in the Contemporary Middle East (3) I&S Bacharach, De Young Perspectives on cultural, political, and other aspects of Middle Eastern societies. Focuses on background complexities rather than immediate political-military confrontations. Topics vary. Recommended: previous course work on Middle East. Offered: jointly with SISRE 495.

NEAR E 496 Special Studies in Near Eastern Languages and Civilization (3-5, max. 15) VLPA Offered occasionally by visitors or resident faculty. Content varies.

NEAR E 499 Undergraduate Research (1-6, max. 18) Prerequisite: permission of instructor.

TKISH 600 Independent Study or Research (*)

Near Eastern Languages and Civilization

NEAR E 518 Foreign Language Teaching Methodology (2) Brandl Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with ASIAN 518/GERMAN 518/SCAND 518/SLAV 518.

NEAR E 520 Seminar on Near Eastern Civilization and Thought (3, max. 27) Content varies.

NEAR E 521 Research Methods (3) Introduction to research in Islamic civilization. Research methods, primary sources, evidence and documentation, reference works, transliteration systems, scholarly writing style.

NEAR E 522 Islamic Theology (3) Various schools of Islamic theology.

NEAR E 523 Islamic Philosophy (3) Various topics and problems dealt with by the Islamic philosophers.

NEAR E 524 Islamic Law (3) Selected topics in Islamic law that highlight major aspects of Islamic civilization.

NEAR E 525 Islamic Institutions (3) Islamic institutions of the caliphate, the sultanate, the bureaucracy, taxation, mosques, and madrasahs, as well as theories of government.

NEAR E 530 Seminar on Near Eastern Literature (3, max. 27) Prerequisite: reading knowledge of at least one Near Eastern language. Content varies.

NEAR E 531 Proseminar in Literary Analysis (3, max. 9) Introduction to the theory and techniques of the study of literature in general and Near Eastern literatures in particular. Content varies. Prerequisite: reading knowledge of at least one Near Eastern language.

NEAR E 532 Theory and Practice in Modern Near Eastern Literature (3) Application of literary theory to works of modern Near Eastern literature. Concentrates on one major theory each year. Content varies.

NEAR E 533 Islamic Poetry and Poetics (3) Karimi-Hakkak Detailed introduction to prosody and rhyme in classical Arabic and Persian, followed by critical analysis of selected texts. Prerequisite: advanced level of Arabic or Persian; some knowledge of the other recommended.

NEAR E 596 Special Studies in Near Eastern Languages and Civilization (3-5, max. 15) Offered occasionally by visitors or resident faculty. Content varies.

NEAR E 600 Independent Study or Research (*)

Peace and Strategic Studies

9 Communications

The program in Peace and Strategic Studies enhances the student's understanding of the problem of war and also contributes to society's capacity for coping with this problem. Students have access to the experience of those working both with peace and conflict studies and with strategic studies. Offered as an option under General Studies, the program is intended to serve primarily as part of a double major with, for example, political science, psychology, or physics. See a General Studies adviser for requirements.

Philosophy

345 Savery

Philosophy is the study of the most fundamental issues concerning reality, knowledge, and value, and of the basic concepts, principles, and arguments of the major intellectual disciplines. Its fields include metaphysics, epistemology, logic, ethics, history of philosophy, political philosophy, aesthetics, philosophy of science, philosophy of mind, philosophy of language, philosophy of law, and philosophy of religion.

Undergraduate Program

Bachelor of Arts

Admission Requirements: There are no prerequisites to declaring a philosophy major.

Major Requirements: 50 credits in philosophy which must include: (1) at least 25 credits at the UW; (2) at least four courses at the 400 level or above, excluding transfer credits and PHIL 484, which normally cannot be used to satisfy this requirement; (3) PHIL 120 or an upper-division course in logic; and (4) PHIL 320 and 322 (or 400-level courses in the same areas; undergraduate adviser must approve substitutions).

Minor

Minor Requirements: 30 credits in philosophy to include PHIL 115 or 120 or an upper-division course in logic; at least 15 credits at the 300 level or above, excluding transfer credits and PHIL 484.

Graduate Program

Master of Arts, Doctor of Philosophy

The Department of Philosophy offers programs of study leading to the Master of Arts and Doctor of Philosophy degrees, the M.A. program option serving as the initial stage of the Ph.D. program.

The Master of Arts program option is a two-year nonthesis program which may be extended to three years depending on the outcome of the spring research papers. The student must take twelve courses in philosophy, satisfy a logic requirement, and, at the end of the second year, submit three research papers for evaluation by the graduate faculty of the department. The courses and the papers must satisfy a distribution requirement. The departmental evaluation of the student's papers and course work determines whether an M.A. degree is awarded and also whether admission to the Ph.D. program is granted. The Ph.D. program, which normally requires at least two years of study beyond the M.A., has three general requirements: (1) General Examination, (2) dissertation, and (3) Final Examination.

Doctor of Philosophy (Philosophy and Medical Ethics)

Students who have completed the Master of Arts in medical history and ethics or who have satisfied the written portion of the General Examination requirement for a Ph.D. in philosophy may be admitted to this program after submitting an application for review by the Interdisciplinary Program Committee. A sample of written work is required from both philosophy and medical history and ethics applicants. Following admission to the program, students from medical history and ethics are required to submit three research papers (in the areas of history of philosophy, metaphysics/epistemology, and ethics) for evaluation by the graduate faculty of the Department of Philosophy in fulfillment of the written portion of the General Examination. The ethics paper requirement will be waived if the

master's thesis of medical history and ethics students is judged by the committee to be an acceptable alternative. Additional requirements for all students include: completion of nine philosophy courses (satisfying a distribution requirement) and six specified medical history and ethics courses; an oral examination devoted at least in part to the student's dissertation proposal; a doctoral dissertation; and a final examination. The student's supervisory committee must include representatives from both the Department of Philosophy and the Department of Medical History and Ethics. The committee may also include individuals from other departments in the University and other schools.

Special Requirements

An undergraduate major in philosophy is recommended, although not required, for admission to the M.A. program. An applicant's philosophical potential is assessed primarily on the basis of a sample of his or her written work in philosophy and secondarily on the basis of his or her undergraduate record, Graduate Record Examination scores, and letters of recommendation. A reading knowledge of at least one foreign language is strongly recommended.

Financial Aid

A number of teaching assistantships are available each year to new graduate students. At present, fifteen students of a total enrollment of thirty-nine hold assistantships.

Chair

John F. Boler

Professors

Boler, John F. * 1960; PhD, 1960, Harvard University; medieval philosophy.

BonJour, Laurence A. * 1977; PhD, 1969, Princeton University; epistemology, contemporary philosophy.

Coburn, Robert C. * 1971; PhD, 1958, Harvard University; metaphysics and ethics.

Cohen, S. Marc * 1973; PhD, 1967, Cornell University; ancient Greek philosophy, metaphysics, philosophy of mind.

Dietrichson, Paul * 1961, (Emeritus); PhD, 1955, Yale University; philosophy of religion, ethics, metaphysics.

Keyt, David * 1957; PhD, 1955, Cornell University; ancient philosophy and logic.

Marks, Charles * 1975; PhD, 1972, Cornell University; philosophy of mind, British empiricism and continental rationalism.

Potter, Karl H. * 1970; PhD, 1955, Harvard University; South Asia, Indian philosophy, epistemology.

Richman, Robert J. * 1961, (Emeritus); PhD, 1953, Harvard University; ethics, epistemology.

Associate Professors

Clatterbaugh, Kenneth C. * 1966; PhD, 1966, Indiana University; philosophy of science, modern philosophy, social philosophy.

Jecker, Nancy A. S. * 1982, (Adjunct); MA, 1982, Stanford University; MA, 1984, PhD, 1986, University of Washington; philosophical and ethical aspects of health care delivery and policy.

Mish'alani, James K. * 1963; PhD, 1961, Brown University; ethics, philosophical anthropology, contemporary continental philosophy.

Moore, Ronald M. * 1979; PhD, 1971, Columbia University; philosophy of law, esthetics.

Roberts, Jean Valerie * 1991; PhD, 1982, University of Pittsburgh; ancient Greek philosophy, history of ethics and political theory, feminist philosophy.

Assistant Professors

Talbott, William J. * 1989; PhD, 1976, Harvard University; epistemology, ethics, political philosophy, game theory, and decision theory.

Washington, Corey * 1991; PhD, 1993, Stanford University; philosophy of language, philosophy of mind.

Senior Lecturer

Baker, Ann Michelle 1981; MA, 1983, PhD, 1990, University of Washington; metaphysics, epistemology, philosophy of mind.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

PHIL 100 Introduction to Philosophy (5) I&S Coburn, Marks, Roberts Major philosophical questions relating to such matters as ethics, the existence of God, the foundations of knowledge, and the nature of reality. Problems studied and works read vary. Offered: AWWSpS.

PHIL 101 Philosophical Classics (5) I&S Coburn. Selected works of some of the major philosophers, such as Plato, Aristotle, Descartes, Hume, Kant. The philosophers studied vary.

PHIL 102 Contemporary Moral Problems (5) VLP/I&S BonJour, Roberts, Talbott, Washington Philosophical consideration of some of the main moral problems of modern society and civilization, such as abortion, euthanasia, war, sexual morality, governmental paternalism, reverse discrimination, and capital punishment. Topics vary.

PHIL 110 Introduction to Social and Political Philosophy (5) I&S Clatterbaugh, Coburn Examination of such ideals as liberty, distributive justice, democracy, peace, and human survival. Problems involved in achieving social change also considered. Content varies.

PHIL 114 Philosophical Issues in the Law (5) I&S Moore Analysis and critical assessment of various philosophical issues in law and legal reasoning. Material drawn from actual law cases, as well as writings by contemporary philosophers of law and lawyers. Topics include criminal responsibility, civil disobedience, abortion, reverse discrimination, enforcement of morals. Special legal or philosophical training not required.

PHIL 115 Practical Reasoning (5) I&S, QSR Introduction to logic emphasizing concepts and methods useful for practical analysis of arguments in everyday contexts. Meaning, syllogisms, logical diagrams, inductive and statistical inference, informal fallacies, argument structure, perhaps some beginning symbolic logic. A wide variety of examples, including logical puzzles, considered. Offered: AWWSpS.

PHIL 120 Introduction to Logic (5) I&S/NW, QSR Cohen, Keyt, Washington Elementary symbolic logic. The development, application, and theoretical properties of an artificial symbolic language designed to provide a clear representation of the logical structure of deductive arguments. Offered: AWWSpS.

PHIL 160 A Historical Introduction to the Philosophy of Science (5) I&S Clatterbaugh Study of how

scientific theories are justified and why they are accepted, using selected examples from the history of science.

PHIL 200 Types of Philosophy (3-5) I&S Coburn, Mish'alani Introductory philosophy. The content of the course is entirely at the discretion of the instructor.

PHIL 206 Philosophy of Feminism (5) I&S Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with POL S 212/WOMEN 206.

PHIL 230 Philosophic Issues in World Affairs (3) I&S Coburn Moral problems that arise in connection with such topics as affluence, hunger, and overpopulation; global environmental degradation; war and weaponry; restructuring the international order.

PHIL 240 Introduction to Ethics (5) VLPA/I&S Roberts, Talbott Critical introduction to various philosophical views of the basis and presuppositions of morality and moral knowledge. Critical introduction to various types of normative ethical theory, including utilitarian deontological, and virtue theories.

PHIL 241 Topics in Ethics (5) VLPA/I&S Mish'alani Introduction to ethics through in-depth study of one or more selected topics (e.g., limits of moral community, moral education, conscience, shame and guilt, virtue and vice, purity, saintliness and heroism, friendship, veracity, manners and morals, freedom, rights, collective responsibility). Topics vary.

PHIL 267 Introduction to Philosophy of Religion (5) I&S Coburn, Mish'alani Consideration of the sources of religious ideas and practices, the main kinds of religious views and the problems they raise, and the different forms that spirituality can take. Issues concerning the relations of religion to science and morality also treated.

PHIL 320 Ancient Philosophy (5) I&S Cohen, Keyt, Roberts Survey of ancient Greek philosophy, beginning with the pre-Socratics and proceeding on through Plato to Aristotle.

PHIL 321 Medieval Philosophy (5) I&S Boler Development of main lines of philosophical thought in the Latin West from 400 to 1400, with emphasis on Augustine, Anselm, Abailard, Aquinas, and Ockham. Recommended: 320.

PHIL 322 Modern Philosophy (5) I&S BonJour, Clatterbaugh, Coburn Examination of metaphysical and epistemological problems from the works of Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

PHIL 325 Nineteenth-Century Philosophy (5) I&S Coburn Examination of post-Kantian thinkers through the end of the nineteenth century considering such major themes as idealism, romanticism, positivism, historicism, naturalism, existentialism, and pragmatism.

PHIL 327 American Philosophy (5) I&S Boler, Potter Study of several of the major American philosophers: Peirce, Royce, Dewey, William James, C. I. Lewis, Goodman, Quine. Recommended: at least one course in philosophy.

PHIL 330 History of Ancient Political Philosophy (4) I&S Keyt Political philosophy of fourth- and fifth-century Greece, especially the Sophists, Plato, and Aristotle, stressing the connection between the political philosophy and the underlying philosophical system of each philosopher. Recommended: at least one course in philosophy.

PHIL 331 History of Medieval Political Philosophy (4) I&S Boler Political philosophy in the Middle Ages, especially the major figures (Augustine, Aquinas, Ockham), with special emphasis on the setting of their political thought in the context of their general philosophical positions. Recommended: at least one course in philosophy.

ting of their political thought in the context of their general philosophical positions. Recommended: at least one course in philosophy.

PHIL 332 History of Modern Political Philosophy (5) I&S Clatterbaugh Examination of major political philosophies from the sixteenth century to the nineteenth century, with attention to the underlying philosophical methods and foundations.

PHIL 334 Philosophy of Marxism (3) I&S Clatterbaugh Philosophy of Marx and the Marxist tradition with attention to the philosophical method and foundation of Marxism.

PHIL 338 Philosophy of Human Rights (3) I&S Coburn Theories of human rights and the bearing of these theories on such issues of public policy as the legitimacy of war and terrorism, whether people have rights to a clean environment or a welfare floor, and whether future generations have rights.

PHIL 340 History of Ancient Ethics (5) VLPA/I&S Keyt, Roberts Development of moral thought from Socrates through the Stoics. Particular emphasis on the ethical writings of Plato and Aristotle. Recommended: one course in philosophy.

PHIL 342 History of Modern Ethics (5) VLPA/I&S Development of moral thought from Hobbes through Nietzsche, with particular emphasis on the ethical writings of Hume, Kant, and John Stuart Mill. Recommended: one course in philosophy.

PHIL 344 History of Recent Ethics (5) VLPA/I&S Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition. Recommended: one course in philosophy.

PHIL 345 Moral Issues of Life and Death (5) VLPA/I&S Coburn Examination of such topics as war and murder, famine relief, capital punishment, high-risk technologies, abortion, suicide, and the rights of future generations. Prerequisite: one course in philosophy or junior standing.

PHIL 346 Personal Values and Human Good (3) I&S Coburn Examination of the ideas of a good human life. Emphases differ from year to year. Typical topics include happiness and prudence, rationality and life plans, personal values and the meaning of life, autonomy and false consciousness, self-respect and self-esteem, honesty and self-deception, faith and "vital lies." Prerequisites: two previous courses in philosophy.

PHIL 347 Philosophy in Literature (5) VLPA/I&S Marks, Mish'alani Study of philosophical ideas expressed in works of literature.

PHIL 350 Introduction to Epistemology (4) I&S BonJour, Talbott Theory of knowledge. Nature, definition, and possibility of knowledge. Problems about our knowledge of the external world, the past, other minds, mathematics. Prerequisites: two previous courses in philosophy.

PHIL 353 Introduction to the Philosophy of Language (5) I&S Washington Philosophical theories about the nature of language. Topics include meaning, reference, truth, propositions, relations between language and thought and between language and logic, relation of philosophy of language to linguistics and psychology. Recommended: 120.

PHIL 363 Introduction to the Philosophy of Mind (5) I&S Marks, Washington Various theories of the nature of mind, the relationship between mind and body, the self, memory, the unconscious, introspection, and knowledge of other minds. Recommended: one course in philosophy.

PHIL 372 Introduction to Set Theory (5) I&S Historical development and basic concepts of set theory. Set theoretical paradoxes and their proposed solutions.

PHIL 386 Introduction to the Philosophical Systems of India (5) I&S Potter The fundamental views of classical Indian philosophical schools on epistemology and metaphysics through readings in translation of basic works. Nyaya, Vaisheshika, Samkhya, Yoga, Jain philosophy, Vijnanavada and Madhyamika Buddhism, Advaita Vedanta and later developments. Prerequisite: SISSA 210 or one course in philosophy. Offered: jointly with SISSA 386.

PHIL 406 Philosophical Topics in Feminism (5) I&S Roberts Detailed examination of questions raised by recent feminist scholarship in particular areas of philosophy, such as political theory, ethics, epistemology, or philosophy of science. Emphasis varies.

PHIL 410 Social Philosophy (5) I&S Coburn, Talbott Examination of social ideals such as liberty and justice, and of social problems associated with current and prospective technological developments. Emphases vary each year.

PHIL 411 Justice in Health Care (5) VLPA/I&S Jecker Examination of the ethical problem of allocating scarce medical resources. Emphasis on fundamental principles of justice that support alternative health policies. Recommended: some previous background in philosophy or medical ethics. Offered: jointly with MHE 474.

PHIL 412 Indian Philosophy (5) I&S Potter Historical survey of the major systems and the traditional problems of philosophy in India. Readings in Buddhism, Nyaya, Samkhya, and Vedanta. Recommended: 100 or 386.

PHIL 413 Studies in Indian Philosophy (3, max. 9) I&S Potter One or more individual figures or problems in Indian philosophy selected by the instructor. Prerequisite: 412.

PHIL 414 Philosophy of Law (3) I&S BonJour, Moore Nature and function of law. Relation of law to morality. Legal rights, judicial reasoning. Recommended: 110 or 114 or 240.

PHIL 418 Indian Buddhist Philosophy (3) I&S Topics from Buddhist thought, both Sravakayanist and Mahayanist, touching on the following areas: epistemology, theory of liberation, metaphysics and the theory of the absolute, cosmology, and ethics. Readings in translation. At least one course in Indian philosophy or Hinduism or Buddhism recommended.

PHIL 421 Studies in Medieval Philosophy (3, max. 9) I&S Boler Detailed study of an individual figure or problem in medieval philosophy (of the Latin West) selected by the instructor. Recommended: 321.

PHIL 422 Studies in Continental Rationalism (3, max. 9) I&S Clatterbaugh, Coburn, Marks Study of one or more of the major continental Rationalists: Descartes, Spinoza, Leibniz. Recommended: 322.

PHIL 426 Twentieth-Century Philosophy (5) I&S Birth and development of contemporary analytic philosophy, the revolt against idealism and the linguistic turn in philosophy. Topics and authors include: common sense philosophy and the rejection of British idealism; Frege's conceptual notation and the analysis of language; logical positivism; the logical atomism of Russell and Wittgenstein.

PHIL 430 Hellenistic Philosophy (3) I&S Survey of the Epicurean, Stoic, and Sceptic philosophy of the Hellenistic period. Emphasis varies.

PHIL 431 Philosophy of Plato (3, max. 6) I&S Cohen, Keyt, Roberts Study of selected middle and late dialogues. Recommended: 320.

PHIL 433 Philosophy of Aristotle (3, max. 6) I&S Cohen, Keyt, Roberts Study of several major Aristotelian treatises. Recommended: 320.

PHIL 434 Philosophy of Thomas Aquinas (3) I&S *Boier* Examination of the major philosophical positions of Thomas Aquinas in the theory of knowledge, metaphysics, and ethics. Recommended: 321.

PHIL 436 British Empiricism (3) I&S *BonJour, Marks* Examination of the metaphysical and epistemological views of Locke and Berkeley, with perhaps some attention also to Hume. Recommended: 322.

PHIL 437 Philosophy of Hume (3) I&S *Marks* Study of the principles and methods employed by Hume in his analyses of knowledge, the passions, and morals. Recommended: 322.

PHIL 438 Philosophy of Kant (5) I&S *BonJour* Systematic study of The Critique of Pure Reason or of one or more other major works of Kant. Recommended: one course in philosophy (other than logic) beyond the introductory level.

PHIL 439 The Later Philosophy of Wittgenstein (3) I&S *Coburn* Detailed study of topics in the later philosophy of Wittgenstein, with particular attention to the Philosophical Investigations. Recommended: 322.

PHIL 440 Ethics (3) I&S *Coburn, Roberts, Talbott* Critical examination of the concepts and judgments of value, including an analytical treatment of the notions of good and bad, right and wrong, and obligation. Emphasis varies from quarter to quarter. Recommended: 240.

PHIL 443 Philosophy and Linguistics (3) VLP&I&S *Washington* Study of philosophical problems that arise in the attempt to understand current linguistic theories and of the implications of linguistics for philosophy. Offered: jointly with LING 443.

PHIL 444 Philosophy of Language—Pragmatics (3) VLP&I&S *Potter, Washington* Language as communicative activity. Speech act theory in Austin, Grice, and contemporary writings. Applications to problems of reference, presupposition, metaphor, relativism. Offered: jointly with LING 444.

PHIL 445 Philosophy of Art (5) VLP&I&S *Moore* Critical examination of various accounts of the nature of art, artistic activity, the aesthetic experience. Problems in interpretation and evaluation of works of art.

PHIL 446 Development of Aesthetic Theory (5) VLP&I&S *Moore* Historical development of aesthetics, emphasizing such major figures as Plato, Aristotle, Hume, Kant, Hegel, and Goodman. Recommended: 100 or 445.

PHIL 447 Philosophy of Literature (3) VLP&I&S *Mish'alani* Investigation of philosophical questions about literature: What is literature? Why write? Must literature be interpreted? What is interpretation? Literature and ideology; criticism of literature and society.

PHIL 450 Epistemology (5) I&S *BonJour, Talbott* Systematic study of some of the main problems of the theory of knowledge, such as: the definition of "knowledge"; a priori knowledge; perception and knowledge of the external world; memory knowledge; theoretical knowledge; knowledge of other minds; and whether knowledge has or requires a foundation. Emphasis varies from quarter to quarter. Recommended: 350 or 322.

PHIL 453 Philosophy of Language (5) VLP&I&S *Washington* Current theories of meaning, reference, predication, and related concepts. Recommended: 120. Offered: jointly with LING 476.

PHIL 456 Metaphysics (5) I&S *Coburn* Examination of issues and problems that arise in connection with such topics as freedom of the will, the nature of persons and personal identity, the existence of God, time, necessary truth, and universals. The emphases vary from year to year. Recommended: 120 and 322 or equivalents.

PHIL 458 Phenomenology (5) I&S *Mish'alani* The contribution of phenomenology to selected topics in the theory of meaning, philosophy of mind, ontology, and epistemology.

PHIL 459 Philosophy of Medicine (5) I&S *Jecker* Familiarizes students with central issues in the philosophy of medicine. Focuses on the nature of medical knowledge, the connection between theory and observation, the meaning of medical concepts, and the relationship between theories and the world. Prerequisites: some prior course work in philosophy, the history of science, or the history of medicine. Offered: jointly with MHE 440.

PHIL 460 Philosophy of Science (5) I&S/NW *BonJour, Clatterbaugh* Critical study of different theories about the nature of scientific theory. Topics include the relation of theory to observation, the use of mathematics, how theories change, the requirements for the meaningfulness of a theory, and the relation between theory and methodology.

PHIL 461 Philosophical Anthropology (5) I&S *Mish'alani* Investigation of the question, "What is human reality?" Philosophical significance of this question and its relation to the human sciences. Typical answers. Implications of those answers for culture, religion, morals, and politics. Recommended: 100, 206, 240, or 410.

PHIL 463 Philosophy of Mind (3) I&S *Marks, Washington* Examination of current theories of the nature of the mind and mental processes. Recommended: 363 or permission of instructor.

PHIL 464 Philosophical Issues in the Cognitive Sciences (5) I&S/NW *Marks, Washington* Philosophical problems connected with research in psychology, artificial intelligence, and other cognitive sciences. Topics vary. Readings from both philosophical and scientific literature. Accessible to nonphilosophers with suitable interests and backgrounds.

PHIL 465 Philosophy of History (3) I&S *Mish'alani* Analyses of basic concepts employed in historical interpretation, and study of some of the principal philosophers of history, such as Plato, Saint Augustine, Hegel, Marx, Spengler, Toynbee.

PHIL 466 Philosophy of the Social Sciences (5) I&S *Talbott* Examination of fundamental issues in the foundations, methodology, and interpretation of the social sciences. Topics include value orientation and objectivity, methodological individualism, functionalism, reductionism, and the status of idealized models, including models involving idealized conceptions of individual rationality. Emphasis varies from quarter to quarter. Recommended: 120 or 160 or 460.

PHIL 467 Philosophy of Religion (5) I&S *BonJour* Study of selected topics and problems in the philosophy of religion, such as: arguments for the existence of God; the problem of evil; atheism; faith; religious experience and revelation; the attributes of God; miracles; immortality; and the relation between religion and morality. Readings from historical and contemporary authors. Recommended: one course in philosophy, other than logic, beyond the introductory level.

PHIL 469 Existentialist Philosophy (3) I&S *Mish'alani* Critical examination of major ideas in Kierkegaard's philosophy and in Sartre's or Heidegger's philosophy. Recommended: one course in philosophy, other than logic, beyond the introductory level.

PHIL 470 Intermediate Logic (5) I&S/NW, QSR *Keyl* An introduction to the concepts and methods of metatheory and their application to the sentential calculus. Recommended: 120.

PHIL 471 Advanced Logic (5) I&S/NW *Keyl* Study of the first-order predicate calculus with identity and function symbols. Consistency, soundness, completeness, compactness. Skolem-Löwenheim theo-

rem, Formalized theories. Recommended: 470 or permission of instructor.

PHIL 472 Axiomatic Set Theory (5) I&S/NW Development of axiomatic set theory up to and including the consistency of the Axiom of Choice and Continuum Hypothesis with the Zermelo-Fraenkel Axioms. Recommended: 470 or permission of instructor.

PHIL 473 Philosophy of Mathematics (5) I&S/NW Traditional accounts of the nature of mathematical entities and mathematical truth given by logicism, intuitionism, and formalism, and the impact of Gödel's incompleteness theorems on these accounts. Recommended: some background in mathematics and formal logic.

PHIL 474 Modal Logic (5) I&S/NW Notions of necessity and possibility, using the classical systems T, S4, and S5, and the syntax and the semantics (Kripke models) of these systems. Recommended: 470.

PHIL 479 Formal Semantics and Natural Language (3) VLP&I&S *Washington* Introduction to formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and its relation to formal syntax. Typical topics: Tarskian definitions of truth; "truth theory" and theory of meaning; possible world semantics; Montague semantics; generative semantics; Chomsky on syntax and semantics. Recommended: 120 or 470. Offered: jointly with LING 479.

PHIL 484 Reading in Philosophy (1-5, max. 15) Reading of approved philosophical works. Prerequisite: permission of instructor.

Courses for Graduates Only

PHIL 500 Proseminar in Philosophy (5) Development of oral skills in the presentation, criticism, and discussion of philosophical problems and arguments. Student presentations and responses to criticism on a variety of basic philosophical issues. Credit/no credit only.

PHIL 510 Seminar in Social Philosophy (5) Topics vary. Generally offers either an in-depth examination of the writings of a particular social philosopher or an examination of some contemporary problem in social philosophy. Prerequisite: 410 or equivalent.

PHIL 514 Seminar in Legal Philosophy (5, max. 20) *Moore*

PHIL 520 Seminar in Ancient Philosophy (5, max. 20) *Cohen, Keyl, Roberts*

PHIL 521 Seminar in Medieval Philosophy (5, max. 20) *Boier*

PHIL 522 Seminar in Modern Philosophy (5, max. 20) *Clatterbaugh*

PHIL 525 Seminar in Nineteenth-Century Philosophy (5, max. 20) *Mish'alani*

PHIL 526 Seminar in Recent Philosophy (5, max. 20) *Keyl, Mish'alani*

PHIL 540 Seminar in Ethics (5, max. 20) *Coburn, Keyl, Roberts, Talbott*

PHIL 545 Seminar in the Philosophy of Art (5, max. 20) *Moore*

PHIL 550 Seminar in Epistemology (5, max. 20) *BonJour, Talbott*

PHIL 553 Seminar in Philosophy of Language (5, max. 20) *Washington* Topics may vary, but emphasis on contemporary research in field. Sample topics: truth; intensionality and actuality; treatments of quantification; semantics for psychological verbs.

PHIL 556 Seminar in Metaphysics (5, max. 20) *BonJour, Coburn*

PHIL 560 Seminar in the Philosophy of Science (5, max. 20) *BonJour, Clatterbaugh*

PHIL 563 Seminar in the Philosophy of Mind (5, max. 20) *Marks, Washington*

PHIL 565 Seminar in the Philosophy of History (5, max. 20) *Mish'alani*

PHIL 566 Seminar in Philosophy of the Social Sciences (5)

PHIL 567 Seminar in the Philosophy of Religion (5, max. 20) *Coburn*

PHIL 570 Seminar in Logic (5, max. 20) *Key*

PHIL 584 Reading in Philosophy (1-5, max. 12) Intensive reading in philosophical literature. Prerequisite: permission of graduate program coordinator.

PHIL 586 Seminar in Indian Philosophy (5, max. 20) *Potter* Prerequisite: 412.

PHIL 587 Contemporary Analytic Philosophy (5, max. 20)

PHIL 600 Independent Study or Research (*) Prerequisite: permission of graduate program coordinator.

PHIL 700 Master's Thesis (*)

PHIL 800 Doctoral Dissertation (*)

Physics

C121 Physics-Astronomy

Physics is the study of the fundamental structure of matter and the interaction of its constituents, with the goal of providing a quantitative description of nature based on a limited number of physical principles.

Undergraduate Program

Bachelor of Science

Admission Requirements: Recommended preparation includes four years of college preparatory mathematics, one year of physics, and one year of chemistry.

Major Requirements: (1) Core courses—PHYS 121/131, 122/132, 123/133, 224, 225, 227, 228, 321, 322, 334, 335; (2) 3 credits selected from upper-division lecture courses in modern physics; (3) 3 credits selected from upper-division physics laboratory courses; (4) 3 credits in PHYS 491, 492, 493 or 494, 495, 496; (5) 5 credits selected from approved upper-division physics courses or approved courses in cognate subjects; (6) MATH 124, 125, 126, 307, 324 or MATH 134, 135, 136, 334, 335, 336; (7) 9 credits selected from physical or biological sciences other than physics or mathematics, or from the history or philosophy of science, in addition to any courses in these fields taken to satisfy requirement (5); (8) at least 12 credits of the physics courses presented to satisfy requirements (1) through (5) shall be in physics courses numbered 300 or above taken at the UW. Grades of 2.0 or better are required in all courses presented in fulfillment of requirements (1) through (5). Students who plan graduate study in physics are strongly advised to complete, in addition to courses listed in requirement (1), the following: PHYS 323, 324, 325, 328, 331, 421, 422, 423, 424, 425, 426, 431, 432, 433, and AMATH 401, 402, 403.

Progress Requirement: In each academic year, every undergraduate physics major who either has completed the required 200-level courses in physics or has begun physics courses beyond the 200 level must (1) complete at least 15 credits of course work acceptable in fulfillment of the departmental degree requirements

exclusive of credits earned by repeating courses in which acceptable credit has been earned previously, or (2) complete satisfactorily an approved part-time program of study. Students who do not satisfy the above requirement will be dropped as physics majors unless exempted explicitly by the Physics Undergraduate Committee. Students dropped for this reason may petition the committee for readmission to the major.

Graduate Program

The Department of Physics offers studies leading to the degrees of Master of Science and Doctor of Philosophy. The department has a permanent faculty of 45 members, about 25 research faculty, and about 40 adjunct, affiliate, and emeritus faculty. An average of 13 Ph.D. and 25 M.S. degrees in physics have been awarded annually in recent years.

Research Facilities

The department is well equipped, both in staff and facilities, for instruction and research in a discipline that emphasizes fundamental problems in the understanding of the physical universe. Areas of research available to the Ph.D. student within the department include atomic physics, astrophysics, condensed-matter physics, elementary-particle physics, nuclear physics, and physics education. In addition, students may do research in physics with adjunct faculty members whose primary appointment is in another department such as Geophysics, Chemistry, or Electrical Engineering. Experimental work in atomic physics is concentrated on the measurement of fundamental properties of atomic particles through laser, electromagnetic trap, and radiofrequency techniques. The emphasis on fundamental measurements is continued in experiments on the gravitational force, carried out by faculty and students in atomic, nuclear, and astrophysics. Condensed-matter research is concentrated on the study of surfaces and interfaces, but includes materials as varied as high-temperature superconductors and ice. Synchrotron radiation from facilities at the Stanford Linear Accelerator Center, the Brookhaven National Laboratory, and the Advanced Photon Light Source under construction at Argonne National Laboratory, as well as local X-ray generators, are used to study solids and surfaces. The properties of matter at very high pressures and low temperatures are investigated on campus. Members of high-energy experimental groups are heavily engaged in experiments with accelerators at the Brookhaven National Laboratory, the European Center for Nuclear Research, the Fermi National Laboratory, and the Stanford Linear Accelerator Center. Faculty and students of the nuclear physics group use the on-campus accelerators of the Nuclear Physics Laboratory (NPL), as well as major facilities in the U.S., Canada, and Europe. The on-campus NPL facility provides beams of light and heavy ions with an 11 megavolt tandem accelerator injecting a superconducting linac. On the theoretical side, members of the department are concerned with problems in the theories of elementary particles and quantum fields, nuclear and high-energy reactions, phase transitions and statistical mechanics; condensed-matter physics from localization in disordered systems to electron transport in mesoscopic systems, atomic physics, general relativity, and astrophysics. The Institute for Nuclear Theory, a Department of Energy-funded national facility, is closely associated with the department and offers a unique opportunity for students to pursue research with distinguished permanent and visiting staff. Students in physics have the opportunity to obtain a physics degree in selected interdisciplinary and applied physics areas through research with faculty members in other departments.

Department facilities are housed in the new Physics-Astronomy Building and the Nuclear Physics Laboratory.

Master of Science (Applications of Physics)

Admission Requirements: This option is designed for students who are currently employed and whose backgrounds are in physical science, engineering, or mathematics. Admission is based on course grades in physics and related fields, adequacy of preparation in physics, and interest in areas of specialization offered in the physics department.

Graduation Requirements: In addition to the standard Graduate School requirements, students are expected to complete the sequence of core courses PHYS 441, 541, and 543 and to select appropriate specialized courses. Students are expected to undertake an independent study project in consultation with a faculty member. This project may be carried out at the University or at the student's place of employment. A written report as well as an oral presentation of the project is required. Students must take at least 3 credits of PHYS 600 and at least 12 credits in other physics graduate courses. No thesis is required.

Master of Science, Doctor of Philosophy

Admission Requirements: Undergraduate preparation to include upper-division courses in mechanics; electricity and magnetism; statistical physics and thermodynamics; modern physics, including an introduction to quantum mechanics; and advanced laboratory work. Preparation in mathematics to include vector analysis, complex variables, ordinary differential equations, Fourier analysis, boundary-value problems, and special functions. Admissibility is determined by the applicant's undergraduate program, undergraduate grades, Graduate Record Examination aptitude and advanced physics scores, letters of recommendation, and a statement of educational and professional objectives.

Master of Science

Graduation Requirements: Department requirements include standard Graduate School requirements. In addition, 3 credits must be in PHYS 600 and at least 12 other credits in physics graduate courses. A final examination is required. No thesis is required.

Doctor of Philosophy

Graduation Requirements: The student is expected to obtain here, or elsewhere with a master's degree, a background in physics equivalent to that contained in the following sequences of basic graduate courses: PHYS 505, 506, 513, 514, 515, 517, 518, 519, 520, 521, and 524; and in specialized courses appropriate to each student's interests. The student is required to pass, successively, a written qualifying examination (in the autumn of the second year), an oral General Examination for admission to candidacy, and an oral Final Examination. In order to take the General Examination, the student must have been accepted by a graduate faculty member as a research student and have completed the graduate studies outlined above. This examination covers the area in which the dissertation research is planned. Teaching experience is required of all candidates. Students holding Teaching Assistantships are required to take PHYS 501-503, courses in teaching techniques in physics.

Financial Aid

Most graduate students are supported by fellowships and assistantships. Application for these should be made along with the application for admission.

Faculty

Chair

Stephen D. Ellis

Professors

- Adelberger, Eric G. * 1972; PhD, 1967, California Institute of Technology; experimental nuclear physics.
- Alberg, Mary Ann 1974, (Affiliate); PhD, 1974, University of Washington; theoretical nuclear physics.
- Arons, Arnold B. 1968, (Emeritus); MS, 1940, Stevens Institute of Technology; PhD, 1943, Harvard University; physical oceanography, physics education.
- Baker, Marcia * 1980, (Adjunct); MS, 1960, Stanford University; PhD, 1971, University of Washington; cloud physics, atmospheric geophysics.
- Baker, Marshall * 1962; PhD, 1958, Harvard University; field theory, theoretical elementary-particle physics.
- Bardeen, James M. * 1976; PhD, 1965, California Institute of Technology; general relativity, theoretical astrophysics.
- Bertsch, George F. * 1992; PhD, 1965, Princeton University; theoretical physics, nuclear and atomic cluster physics.
- Bichsel, Hans 1992, (Affiliate); PhD, 1951, University of Basel (Switzerland); experimental nuclear physics.
- Bodansky, David * 1954, (Emeritus); PhD, 1950, Harvard University; experimental nuclear physics.
- Boulware, David G. * 1965; PhD, 1962, Harvard University; field theory, theoretical elementary-particle physics, general relativity.
- Bowles, Thomas J. 1995, (Affiliate); PhD, 1978, Princeton University; experimental nuclear physics.
- Boynton, Paul * 1970; PhD, 1967, Princeton University; high-energy astrophysics, astronomy.
- Brown, Frederick C. * 1987; PhD, 1950, Harvard University; use of synchrotron radiation in experimental solid state physics.
- Brown, Lowell S. * 1968; PhD, 1961, Harvard University; field theory, theoretical elementary-particle physics.
- Burnett, Thompson H. * 1979; PhD, 1968, University of California (San Diego); experimental elementary-particle physics.
- Cahn, John Werner 1984, (Affiliate); PhD, 1953, University of California (Berkeley); theoretical condensed-matter physics.
- Campbell, Charles T. * 1989, (Adjunct); PhD, 1979, University of Texas (Austin); physical chemistry of solid surfaces, chemisorption, catalysis, and surface analysis.
- Chaloupka, Vladimir * 1981; PhD, 1975, University of Geneva (Switzerland); experimental elementary-particle physics.
- Clark, Kenneth C. * 1948, (Emeritus); PhD, 1947, Harvard University; optical spectroscopy, upper atmosphere.
- Cook, Victor * 1963; PhD, 1962, University of California (Berkeley); experimental high-energy physics.
- Cramer, John G. * 1964; PhD, 1961, Rice University; experimental nuclear physics.
- Dash, J. Gregory * 1961, (Emeritus); PhD, 1951, Columbia University; low-temperature condensed-matter physics.
- Dehmelt, Hans G. * 1955; PhD, 1950, University of Göttingen (Germany); experimental atomic physics.
- Den Nijs, Marcel P. * 1981; PhD, 1979, Katholieke University (Netherlands); theoretical condensed-matter physics.
- Doe, Peter J. 1994, (Research); MSc, 1974, PhD, 1977, University of Durham (UK); experimental nuclear physics.
- Drobny, Gary P. * 1981, (Adjunct); PhD, 1981, University of California (Berkeley); two-dimensional and multiple quantum studies in nuclear magnetic resonance.
- Efimov, Vitaly 1990, (Affiliate); PhD, 1966, Physico-Technical Institute (USSR); theoretical nuclear physics.
- Ellis, Stephen D. * 1975; PhD, 1971, California Institute of Technology; theoretical elementary-particle physics.
- Engel, Thomas * 1980, (Adjunct); PhD, 1969, University of Chicago; surface chemistry and catalysis.
- Fain, Samuel C. * 1970; PhD, 1969, University of Illinois; experimental condensed-matter physics, surface physics.
- Farwell, George W. * 1948, (Emeritus); PhD, 1948, University of Chicago; experimental nuclear physics.
- Fortson, E. Norval * 1963; PhD, 1964, Harvard University; experimental atomic physics.
- Geballe, Ronald * 1946, (Emeritus); PhD, 1943, University of California (Berkeley); atomic and molecular collisions, physics education.
- Gerhart, James B. * 1956; PhD, 1954, Princeton University; physics education.
- Halpern, Isaac * 1953, (Emeritus); PhD, 1948, Massachusetts Institute of Technology; experimental nuclear physics.
- Haxton, Wick C. * 1984; PhD, 1976, Stanford University; theoretical physics, nuclear physics.
- Heckel, Blayne * 1983; PhD, 1981, Harvard University; experimental neutron and atomic physics.
- Hein, Robert A. 1990, (Affiliate); PhD, 1967, Catholic University of America; theoretical condensed-matter physics.
- Henley, Ernest M. * 1954, (Emeritus); PhD, 1952, University of California (Berkeley); theoretical nuclear physics, theoretical elementary-particle physics.
- Henyey, Frank S. * 1991, (Affiliate); PhD, 1967, California Institute of Technology; theoretical ocean hydrodynamics and theoretical ocean acoustics.
- Hogan, Craig J. * 1990; PhD, 1980, Cambridge University (UK); astrophysical cosmology, especially the origin of astronomical structures in the expanding universe.
- Holzworth, Robert * 1982, (Adjunct); PhD, 1977, University of California (Berkeley); experimental space plasma physics, atmospheric/magnetospheric electric fields, thunderstorms.
- Ingalls, Robert L. * 1966; PhD, 1962, Carnegie-Mellon University; experimental condensed-matter physics.
- Jarboe, Thomas R. * 1989, (Adjunct); PhD, 1974, University of California (Berkeley); plasma physics and controlled fusion, magnetic reconnection and relaxation.
- Lake, George Russell * 1985, (Adjunct); PhD, 1980, Princeton University; stellar dynamics, galaxy structure and formation, cosmology, computational astrophysics.
- Lord, Jere J. * 1952, (Emeritus); PhD, 1950, University of Chicago; cosmic rays, experimental elementary-particle physics.
- Lubatti, Henry J. * 1969; PhD, 1966, University of California (Berkeley); experimental elementary-particle physics.
- Margon, Bruce H. * 1980, (Adjunct); PhD, 1973, University of California (Berkeley); galactic and extragalactic x-ray astronomy, optical counterparts of x-ray sources.
- McDermott, Lillian C. * 1971; PhD, 1959, Columbia University; physics education.
- McDermott, Mark N. * 1962; PhD, 1959, Columbia University; experimental atomic physics.
- Miller, Gerald * 1975; PhD, 1972, Massachusetts Institute of Technology; theoretical nuclear physics.
- Mockett, Paul M. * 1972, (Research); PhD, 1965, Massachusetts Institute of Technology; experimental elementary-particle physics.
- Odyniec, Grazyna 1994, (Affiliate); PhD, 1978, University of Warsaw (Poland); experimental nuclear physics.
- Parks, George K. * 1971, (Adjunct); PhD, 1966, University of California (Berkeley); particles and waves in auroral, magnetospheric, and interplanetary space plasma phenomena.
- Pearsall, Thomas P. * 1989, (Adjunct); PhD, 1973, Cornell University; physics of semiconductors and the technology of semiconductor devices.
- Puff, Robert D. * 1962; PhD, 1960, Harvard University; many-body theory, statistical physics.
- Rehr, John J. * 1974; PhD, 1972, Cornell University; theoretical condensed-matter physics.
- Riedel, Eberhard K. * 1975, (Affiliate); PhD, 1966, Technical University of Munich (Germany); theoretical condensed-matter physics.
- Robertson, R. G. Hamish * 1994; MA, 1965, Oxford University (UK); PhD, 1971, McMaster University (Canada); experimental nuclear physics.
- Rothberg, Joseph E. * 1969; PhD, 1963, Columbia University; experimental high-energy physics.
- Schick, Michael * 1969; PhD, 1967, Stanford University; theoretical condensed-matter physics.
- Sharpe, Stephen R. * 1986; PhD, 1983, University of California (Berkeley); theoretical particle physics: lattice gauge theory and strong interaction phenomenology.
- Snover, Kurt Albert * 1972, (Research); PhD, 1969, Stanford University; experimental nuclear physics.
- Sorensen, Larry B. * 1983; PhD, 1980, University of Illinois; experimental condensed-matter physics.
- Spivak, Boris * 1991; PhD, 1970, Leningrad Polytech Institute (Russia); theoretical condensed-matter physics.
- Stern, Edward A. * 1965; PhD, 1955, California Institute of Technology; experimental condensed-matter physics.
- Storm, Derek * 1979, (Research); PhD, 1970, University of Washington; nuclear physics, especially medium energy, accelerator physics.
- Streib, John F. * 1947, (Emeritus); PhD, 1941, California Institute of Technology; experimental nuclear physics.
- Thouless, David * 1980; PhD, 1958, Cornell University; theoretical condensed-matter physics.
- Van Dyck, Robert S. Jr. * 1971; PhD, 1971, University of California (Berkeley); experimental atomic physics.
- Vandenbosch, Robert * 1963, (Adjunct); PhD, 1957, University of California (Berkeley); nuclear fission and nuclear reaction mechanisms, atomic and molecular clusters, C_{60} .
- Vilches, Oscar E. * 1968; PhD, 1966, National University of Cuyo (Argentina); low-temperature condensed-matter physics.
- Weitkamp, William G. * 1987, (Emeritus); PhD, 1965, University of Wisconsin; experimental nuclear physics.
- Wilets, Lawrence * 1958, (Emeritus); PhD, 1952, Princeton University; theoretical nuclear and atomic physics.
- Wilkerson, John F. * 1994; MS, 1979, PhD, 1982, University of North Carolina; experimental nuclear physics.
- Wilkes, Richard Jeffrey * 1974, (Research); PhD, 1974, University of Wisconsin; experimental cosmic ray and elementary particle physics.

Williams, Robert W. * 1959, (Emeritus); PhD, 1948, Massachusetts Institute of Technology; experimental high-energy physics, cosmic rays.

Yaffe, Laurence G. * 1988; PhD, 1980, Princeton University; quantum field theory, elementary particle theory.

Young, Kenneth Kong * 1967; PhD, 1965, University of Pennsylvania; experimental high-energy physics.

Associate Professors

Jay, David A. * 1983, (Adjunct Research); PhD, 1987, University of Washington; wave processes, sediment transport and physical oceanography of coastal waters.

Jonsson, Hannes * 1988, (Adjunct); PhD, 1985, University of California (San Diego); computer simulations and scattering calculation in materials and surface science.

Kaplan, David B. * 1994; PhD, 1985, Harvard University; theoretical nuclear and elementary-particle physics.

Lamoreaux, Steve K. 1991, (Research); PhD, 1986, University of Washington; experimental atomic physics.

Nagourney, Warren * 1977, (Research); PhD, 1972, Columbia University; experimental atomic physics, high resolution laser spectroscopy of atoms.

Nelson, Ann E. * 1994; MA, 1981, PhD, 1984, Harvard University; theoretical elementary-particle physics.

Oberem, Graham E. * 1990, (Research); PhD, 1987, University of Rhodesia; physics education.

Olmstead, Marjorie A. * 1991; PhD, 1985, University of California (Berkeley); experimental condensed-matter physics, surface and interface physics.

Schwinberg, Paul B. 1991, (Research); PhD, 1979, University of Washington; experimental atomic physics.

Stubbs, Christopher 1994; PhD, 1988, MSc, 1988, University of Washington.

Trainor, Thomas A. * 1973, (Research); PhD, 1973, University of North Carolina; experimental nuclear physics.

Zhao, Tianchi 1990, (Research); PhD, 1987, Columbia University; experimental high-energy physics.

Assistant Professors

Arnold, Peter B. 1992, (Research); PhD, 1986, Stanford University; theoretical elementary-particle physics.

Bulgac, Aurel * 1993; PhD, 1977, Leningrad Nuclear Physics Institute; many body theory, molecular dynamics, classical and quantum chaos.

De Braeckeleer, Ludwig 1990, (Research); PhD, 1989, Catholic University of Louvain (Belgium); experimental nuclear physics.

Elliott, Steven R. 1995, (Research); PhD, 1987, University of California (Irvine); experimental nuclear physics.

Gundlach, Jens 1990, (Research); PhD, 1990, University of Washington; experimental nuclear physics.

Lestone, John P. 1994, (Research); PhD, 1991, Australian National University; experimental nuclear physics.

Ma, Yanjun 1988, (Research); PhD, 1987, University of Washington; experimental condensed-matter physics.

Mittleman, Richard K. 1987, (Research); PhD, 1987, University of Chicago; experimental atomic physics.

Shaffer, Peter S. 1993, (Research); PhD, 1993, University of Washington; physics education.

Vogel, Viola * 1990, (Adjunct); PhD, 1987, Johann Wolfgang Goethe University (Germany); molecular assemblies and Langmuir-Blodgett films, liquid interfaces, non-linear optics, microscopy.

Vokos, Stamatios P. 1992, (Research); PhD, 1990, University of California (Berkeley); physics education.

Wasserbaech, Steven R. * 1993, (Research); PhD, 1989, Stanford University; experimental high-energy physics.

Wettlaufer, John S. 1995, (Affiliate); PhD, 1991, University of Washington; ice physics.

Wilen, Larry A. 1991, (Research); PhD, 1986, Princeton University; low-temperature condensed-matter physics.

Winglee, Robert M. * 1991, (Adjunct); PhD, 1984, University of Sydney (Australia); energetic phenomena in sun/earth plasmas, excitation of waves, high energy particle acceleration.

Yu, Nan 1988, (Research); PhD, 1988, University of Arizona; experimental atomic physics.

Senior Lecturer

Robertson, Charles E. 1990; MS, 1981, University of Washington; physics education.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

PHYS 101-102, 103 Physical Science by Inquiry I (5-5, 5) NW, QSR Laboratory-based development of concepts and reasoning skills. Helps prepare preservice teachers to teach science by inquiry. Liberal arts students gain experience in the scientific process. Useful for students with weak science preparation before taking standard science courses. Forms foundation for scientific literacy. No 101 credit without 102. Prerequisites: 101- for -102; -102 for 103. Offered: A-W, Sp.

PHYS 104 Introduction to Mechanics (3) NW Problem-solving techniques applicable to elementary Newtonian mechanics. Prerequisite: concurrent registration in 103.

PHYS 110, 111 Liberal Arts Physics (5, 5) NW, QSR Basic concepts of physics presented with emphasis on their origin and their impact on society and the Western intellectual tradition. Primarily for students in the arts, humanities, and social sciences. Prerequisites: 110 for 111. Offered: S, W.

PHYS 114, 115, 116 General Physics (4, 4, 4) NW, QSR Basic principles of physics presented without use of college-level mathematics. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Concurrent registration in 117, 118, 119 strongly recommended. 114: mechanics and sound. 115: heat and electromagnetism. 116: light and modern physics. Prerequisites: working knowledge of algebra and trigonometry, one year of high school physics; 114 for 115; 115 for 116. Offered: AWSpS, AWSpS, AWSpS.

Credit is not given for both 114 and 121, 115 and 122, 116 and 123, 117 and 131, 118 and 132, 119 and 133.

PHYS 117, 118, 119 General Physics Laboratory (1, 1, 1) NW 117: mechanics laboratory, to be taken concurrently with 114. 118: heat and electromagnetism laboratory, to be taken concurrently with 115. 119: sound, light, and modern physics laboratory, to be taken concurrently with 116. Credit/no credit only. Offered: AWSpS, AWSpS, AWSpS.

The courses 121, 122, 123, 224, 225 plus appropriate laboratory together make up the general physics sequence for science and engineering students.

PHYS 121 Mechanics (4) NW, QSR Basic principles of mechanics. Concurrent registration in 131 required. Prerequisites: one year of high school physics

or permission of physics academic adviser, concurrent or previous MATH 124 or 134. Offered: AWSpS.

PHYS 122 Electromagnetism and Oscillatory Motion (4) NW Basic principles of electromagnetism, the mechanics of oscillatory motion. Concurrent registration in 132 required. Prerequisites: 121; concurrent or previous MATH 125 or 135. Offered: AWSpS.

PHYS 123 Waves (4) NW Electromagnetic waves, optics, and waves in matter. Concurrent registration in 133 required. Prerequisites: 122, concurrent or previous MATH 126 or 136. Offered: AWSpS.

PHYS 131, 132, 133 Experimental Physics (1, 1, 1) NW Experimental topics in physics for science and engineering majors. Prerequisites: concurrent or previous enrollment in 121 for 131; 122 for 132; 123 for 133. Offered: AWSpS, AWSpS, AWSpS.

PHYS 205 Concepts of Physical Science (3) NW The nature, origin, and use of selected concepts of the physical sciences.

PHYS 207 The Physics of Music (3) NW The nature of sound; vibrations; traveling and standing waves; response of the ear to sound; production of musical sounds.

PHYS 208 The Physics of Sports (3) NW Record performances of top athletes shown close to limits imposed by physical laws. Studies the science of motion, forces, momentum, collisions, energy, and power. Emphasizes application of these ideas to human physiology and human experience such as sprinting, high jumping, baseball, tennis, football, and other sports. Offered: Sp.

PHYS 210, 211, 212 Physics by Inquiry I (5, 5, 5) NW Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics and physical science as a process of inquiry. Prerequisites: permission of instructor and three quarters of 100-level physics for 210; 210 for 211; 211 for 212. Offered: A, W, Sp.

PHYS 214 Light and Color (5) NW, QSR Compares past explanation of certain familiar natural phenomena with present understandings. Lamps and lighting, outdoor light, optical devices, color vision, perspective, paints, and pigments. Quantitative comparison critical to the course, but college-level mathematics background not required. Intended for nonscience students. Offered: A.

PHYS 215 Order and Disorder (5) NW, QSR Includes symmetry in biological systems and in inanimate nature, relation of structure to size, and micro- and macrostructure of universe, systems in chaos. Quantitative comparison critical to course, but college-level mathematics background not required. 214, 215, 216 may be taken independently or in any order. Intended for nonscience students. Offered: W.

PHYS 216 Time and Change (5) NW, QSR Includes miracles and magic, how and why things move, basic forces in nature, quantum mechanics, relativity, past and future of the universe. Quantitative comparison critical to course, but college-level mathematics background not required. 214, 215, 216 may be taken independently or in any order. Intended for nonscience students. Offered: Sp.

PHYS 224 Thermal Physics (3) NW Introduction to heat, thermodynamics, elementary kinetic theory, and the physics of continuous media. Prerequisites: 122, which may be taken concurrently, and MATH 126. Offered: AWSpS.

PHYS 225 Modern Physics (3) NW Special theory of relativity; phenomena of modern physics with emphasis on photons, electrons, and atoms; introduction to quantum physics. Prerequisites: 123, concurrent or previous MATH 126 or 136. Offered: AWSpS.

PHYS 227, 228 Elementary Mathematical Physics (3, 3) NW Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Prerequisites: 123, MATH 307; 227 for 228. Offered: W, Sp.

PHYS 311 Relativity and Gravitation (3) NW Special theory of relativity, Newtonian gravity, and relativistic effects of gravitation, including black holes, gravitational waves, and applications to cosmology. Prerequisite: 123, MATH 126.

PHYS 321, 322, 323 Electromagnetism (3, 3, 3) NW Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisites: 123, 228, MATH 324, which may be taken concurrently, for 321; 321 for 322; 322 for 323. Offered: A, W, Sp.

PHYS 324, 325 Quantum Mechanics (3, 3) NW Introduction to nonrelativistic quantum mechanics. Prerequisites: 225, 228, MATH 324 for 324; 324 for 325. Offered: A, W.

PHYS 327 Introduction to Nuclear Physics (3) NW Nuclear structure, including nuclear reactions, fission; particle accelerators, and nuclear instrumentation; applications of nuclear phenomena in atomic energy and astrophysics. Prerequisite: 225 or permission of instructor. Offered: W.

PHYS 328 Statistical Physics (3) NW Elements of statistical mechanics and their applications. Prerequisites: 224, 225, 227, 324 or a similar introduction to quantum mechanics; MATH 324. Offered: Sp.

PHYS 331 Optics Laboratory (3) NW Optical and spectroscopic measurements. Prerequisites: 123 and 227. Offered: Sp.

PHYS 334, 335 Electric Circuits Laboratory (3, 3) NW Basic elements of DC, AC, and transient circuits; electronic devices; electrical measurements. Prerequisites: 123, MATH 126 or 136 for 334; 334 for 335. Offered: W, Sp.

PHYS 341 Energy: Consumption Patterns, Fossil Fuels, and Conservation (3) NW Survey of energy use, especially in the United States. Fossil fuels with emphasis on resource availability and on greenhouse effects and other environmental consequences. Methods for reducing consumption through conservation. Offered: jointly with ENGR 341; A.

PHYS 342 Energy: Nuclear and Solar Power (3) NW Technology of nuclear power, especially fission power, and of the major forms of solar power, including hydroelectric power, wind power, and biomass. Consideration given to the factors limiting the utilization of these sources. Offered: jointly with ENGR 342; W.

PHYS 343 Environmental Radioactivity (3) NW Sources of radioactivity in the environment, including both natural sources, especially radon, and manmade sources, especially nuclear power and nuclear explosions. Emphasis given to methods for determining radiation doses from the significant sources. Offered: jointly with ENGR 343/ENV H 343; Sp.

PHYS 401, 402, 403 Special Problems (* max. 30, * max. 30, * max. 30) Supervised individual study. Offered: AWSpS, AWSpS, AWSpS.

PHYS 405-406 Physical Science by Inquiry II (5-5) NW Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops scientific literacy. Prerequisite: permission of instructor. Offered: A-W.

PHYS 407, 408, 409 Physics by Inquiry II (5, 5, 5) NW Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required.

Prerequisites: permission of instructor; 407 for 408, 408 for 409. Offered: A, W, Sp.

PHYS 410 Physics by Inquiry for In-service Teachers (1-2, max. 10) NW A "hands-on" inquiry-oriented approach designed to train in-service teachers in the use of the physical science content for any of several science programs selected by a school or school district. Credit/no credit only. Prerequisite: permission of instructor.

PHYS 411, 412, 413 Physics by Inquiry for Lead Teachers (1-4, max. 4; 1-4, max. 4; 1-4, max. 4) NW Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Prerequisite: at least two of 405, 406, 407, 408, 409 or equivalent and permission of instructor. Offered: A, W, Sp.

PHYS 421 Atomic and Molecular Physics (3) NW Survey of the principal phenomena of atomic and molecular physics. Prerequisites: 323 and 325, or permission of instructor. Offered: A.

PHYS 422 Nuclear and Elementary-Particle Physics (3) NW Survey of the principal phenomena of nuclear and elementary-particle physics. Prerequisites: 323 and 325, or permission of instructor. Offered: W.

PHYS 423 Solid-State Physics (3) NW Survey of the principal phenomena of solid-state physics. Prerequisites: 323 and 325, or permission of instructor. Offered: Sp.

PHYS 424, 425, 426 Mathematical Physics (3, 3, 3) NW 424: advanced classical mechanics. 425, 426: mathematical techniques of particular use in physics, including partial differential equations. Prerequisites: 323 and 325, or permission of instructor for 424 or 425; 425 for 426. Offered: A, W, Sp.

PHYS 427 Applications of Physics (1-3, max. 12) NW Current applications of physics to problems in the sciences and technology.

PHYS 428 Selected Topics in Physics (1-3, max. 12) NW

PHYS 431, 432, 433 Modern Physics Laboratory (3, 3, 3) NW 431, 432: measurement in modern atomic, molecular, and solid-state physics. 433: techniques in nuclear and elementary-particle research. Prerequisites: 30 credits in physics or permission of instructor for 431, 432; 327 or 422 or permission of instructor for 433. Offered: A, W, Sp.

PHYS 434 Application of Computers to Physical Measurement (3) NW Laboratory giving specific instruction and experience in interfacing laboratory equipment to computers. Prerequisite: 335 or permission of instructor. Offered: A.

PHYS 436 Nonlinear Dynamics and Chaos (4) NW Variational Principle, Lagrangian and Hamiltonian Mechanics, phase space, nonlinear dynamics, approach to chaos, Lyapunov exponents, applications to physical systems. Numerical exercises to illustrate phenomena. Prerequisites: 126 and MATH 309 or equivalents.

PHYS 441 Quantum Physics (4) NW Methods of quantum mechanics and applications to physical systems. Examples from atomic and molecular systems, nuclear physics, solid-state physics. Typical preparation: 30 credits in physical science or engineering. Offered: W.

PHYS 485, 486, 487 Senior Honors Seminar (1, 1, 1) NW Offered: A, W, Sp.

PHYS 491, 492, 493 Independent Research (1-3, max. 3, 1-3, max. 3, 1-3, max. 3) Supervised, independent study requiring written and oral presentations summarizing work accomplished. Prerequisites: 12 credits in physics above 200-level or permission of instructor. Offered: A, W, Sp.

PHYS 494, 495, 496 Seminar on Current Problems in Physics (1-3, max. 3, 1-3, max. 3, 1-3, max. 3) NW Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentation summarizing work accomplished are required. Prerequisites: 12 credits in physics above 200-level or permission of instructor. Offered: A, W, Sp.

Courses for Graduates Only

PHYS 501, 502, 503 Tutorials in Teaching Physics (1, max. 2, 1, max. 2, 1, max. 2) McDermott Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no credit only. Offered: A, W, Sp.

PHYS 505 Mechanics (3) Lagrangian and Hamiltonian dynamics, with applications to various topics such as coupled oscillators, parametric resonance, anharmonic oscillations, chaos. Offered: A.

PHYS 506 Numerical Methods (3) Integration, solution of differential equations, Monte Carlo methods; function minimization, data analysis, modern computing techniques, computation in experimental physics. Offered: W.

PHYS 507 Physical Applications of Group Theory (3) Applications of finite and continuous groups, representation theory, symmetry, and conservation laws to physical systems. Offered: Sp.

PHYS 511 Topic in Contemporary Physics (1) Topics of current experimental, theoretical, or technological interest in modern physics. Offered: Sp.

PHYS 513, 514, 515 Electromagnetism and Relativity (4, 3, 4) Principles of electrostatics, complex variable techniques, boundary value problems and their associated mathematical techniques, Green's functions. Electric and magnetic fields in free space and material media, wave guides and cavity resonators. Special relativity, electromagnetic radiation from accelerated charges, synchrotron radiation, Cerenkov radiation, radiation reaction. Offered: A, W, Sp.

PHYS 517, 518, 519 Quantum Mechanics (4, 4, 4) The uncertainty principle and the interpretation of quantum mechanics; solutions of the Schrodinger equation in three dimensions; Dirac notation and matrix formulation; angular momentum; Wigner-Eckart theorem; elementary collision theory; density matrix; approximation methods; atomic structure; semiclassical radiation theory; introduction to group theory and symmetry. Offered: A, W, Sp.

PHYS 520, 521 Advanced Quantum Mechanics: Introduction to Quantum Field Theory (3) Multi-particle systems, second quantization, diagrammatic perturbation theory, radiation, correlation functions and multi-particle scattering, relativistic theories, renormalizability, basic quantum electrodynamics, and other applications. Offered: A, W.

PHYS 522 Advanced Quantum Mechanics: Introduction to Modern Quantum Field Theory (3) Functional integrals, symmetry breaking, critical phenomena and continuum limits, and non-perturbative methods. Offered: Sp.

PHYS 524 Thermodynamics and Statistical Mechanics (4) Statistical mechanical basis of the fundamental thermodynamical laws and concepts; classical and quantum statistical distribution functions; applications to selected thermodynamic processes and examples of Bose and Fermi statistics. Offered: W.

PHYS 525 Statistical Mechanics (3) Introduction to equilibrium and non-equilibrium aspects of many-body systems; scale invariance and universality at phase transitions and critical phenomena; exactly soluble models; Markov processes, master equations and Langevin equation in non-equilibrium stochastic processes. Prerequisite: 524. Offered: A.

PHYS 527, 528 Current Problems in Physics (1, 1) Introduction to current research topics for beginning graduate students. Credit/no credit only. Offered: A, W.

PHYS 530 Laser Physics (4) Physics underlying laser design and operation in the context of common laboratory systems. Topics may include continuous and pulsed lasers; solid, liquid, and gas gain media; Q-switching, mode-locking, resonator theory, nonlinear optics, and others. Prerequisites: basic quantum mechanics, electromagnetism, and optics. Recommended: 541.

PHYS 531 Fluid Mechanics (4) Mechanics of ideal and viscous fluids. Topics may include turbulence, thermal conduction and diffusion, shock waves, and others.

PHYS 532 Liquid Crystal Devices (4) Physics of liquid crystals and applications to practical display devices. Phases, phase transitions, optical and dielectric properties, molecular and device "engineering," future prospects.

PHYS 541 Applications of Quantum Physics (4) Techniques of quantum mechanics applied to lasers, quantum electronics, solids, and surfaces. Emphasis on approximation methods and interaction of electromagnetic radiation with matter. Prerequisite: 421 or 441 or equivalent. Offered: Sp.

PHYS 542 Numerical Methods in Physics (4) Numerical methods for analysis and computation in physics. Topics include: interpolation, approximation, integration, differential and difference equations, transcendental equations, optimization. Emphasis on physical applications, eigenvalue and scattering problems, modeling.

PHYS 543 Electromagnetic Waves (4) Principal concepts of electromagnetism. Boundary-value problems. Electromagnetic waves with applications in materials, optics, wave guides. Prerequisite: 30 credits in physical sciences or engineering. Offered: A.

PHYS 544 Electromagnetic Theory and Plasma Physics (4) Review of electromagnetic theory in terms of Maxwell's equations. Basic fluid mechanics and kinetic theory. Magnetohydrodynamics and plasma physics with the aim of providing an understanding of the principles underlying fusion reactors and other applications. Prerequisite: 543 or equivalent.

PHYS 545 Contemporary Optics (4) Coordinated lecture and laboratory treatment of topics in contemporary optics. Subjects include Fourier optics, lens systems, interferometry, laser optics, holography, polarization, crystal optics, birefringence, laser and conventional light sources, optical detectors. Prerequisite: 543 or equivalent.

PHYS 546 Condensed-Matter Physics (4) Experimental techniques for investigating surface geometrical and electronic structure, surface composition, and surface thermodynamics. Auger electron spectroscopy, photo-electron spectroscopy, low-energy electron diffraction, ion sputtering. Prerequisite: 441 or equivalent.

PHYS 547 Electronics for Physics Research (4) Electronic techniques as applied in physics research. Topics include noise, control-system analysis, operational amplifiers, lock-in amplifiers, precision power supplies and metering, data transmission, microprocessors. Several integrated measurement systems are examined in the context of specific research problems. Prerequisite: elementary electronics.

PHYS 548 Nuclear Instrumentation (4) Techniques of nuclear particle detection and radiation detection; position detection; signal preparation and amplification; signal transmission and termination; noise suppression; pulse height discrimination; analog signal processing; fast logic; fast and slow timing; time-to-amplitude conversion; pile-up rejection; singles pulse

height analysis; multiparameter pulse height analysis; computer-based data collection; interfacing. Prerequisites: 334 and 335 or equivalents.

PHYS 549 Low-Temperature Physics and Cryogenics (4) Condensed-matter physics at low and ultralow temperatures. Production of low temperatures; liquefaction of gases, dilution refrigeration, magnetic and compressional cooling. Macroscopic quantum effects: superconductivity, superfluidity. Applications of superconductors. The ultralow temperature frontier.

PHYS 550, 551 Atomic Physics (3, 3) Theory of atomic structure and spectra; atomic and molecular beams; resonance techniques; atomic collisions; topics of current interest. Prerequisite: 519.

PHYS 552 Introduction to Cosmic Ray Physics (3) The nature and cosmological significance of cosmic ray photons and particles. The motion and confinement of particles in the geophysical, interplanetary, and interstellar medium. Theories of the processes involved in the high-energy interaction of cosmic rays, including shower theory. Methods of measurement and current problems. Prerequisite: introductory quantum mechanics.

PHYS 557, 558, 559 High Energy Physics (3, 3, 3) High-energy kinematics; phenomenology of high-energy collisions. Second quarter is devoted to strong interactions, and the third quarter discusses weak interactions. Experimental results are emphasized. Prerequisite: 519. Offered: A, W, Sp.

PHYS 560, 561, 562 Theoretical Nuclear Physics (3, 3, 3) Nuclear structure, scattering, reactions, and decays in terms of elementary properties of nucleons and current theoretical models. Prerequisite: 519. Offered: A, W, Sp.

PHYS 564, 565 General Relativity (3, 3) General covariance and tensor analysis, the relativistic theory of gravitation as given by Einstein's field equations, experimental tests and their significance, and applications of general relativity, particularly in the areas of astrophysics and cosmology. Prerequisite: 515.

PHYS 567, 568, 569 Theory of Solids (3, 3, 3) A three-quarter course covering the fundamentals of solid-state physics. Various topics in solid-state physics are covered in considerable detail, bringing knowledge up to the current literature. Prerequisite: 519. Offered: A, W, Sp.

PHYS 570, 571 Quantum Field Theory (3, 3) Emphasis varies in different years between relativistic quantum field theory and the many-body problem. Prerequisite: 522.

PHYS 572 Modern Quantum Field Theory (3) Advanced topics in quantum field theory. Prerequisites: 570, 571.

PHYS 576 Selected Topics in Experimental Physics (* max. 30)

PHYS 578 Selected Topics in Theoretical Physics (* max. 30)

PHYS 580 Physics Colloquium (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 581 Seminar in High-Energy Physics (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 582 Seminar in Particle Theory (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 583 Seminar in Relativistic Astrophysics (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 584 Seminar in Atomic Physics and Coherent Spectroscopy (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 585 Seminar in Experimental Nuclear Physics (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 586 Seminar in Condensed Matter Physics (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 587 Seminar in Nuclear Theory (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 588 Seminar in Cosmic Ray Physics (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 589 Seminar in Problems of Physics Education (* max. 30) Credit/no credit only. Offered: AWSp.

PHYS 590 Seminar in Statistical Physics (1, max. 30) Credit/no credit only. Offered: AWSp.

PHYS 600 Independent Study or Research (*) Study or research under the supervision of individual faculty members. Prerequisite: permission of supervisor. Credit/no credit only. Offered: AWSpS.

PHYS 800 Doctoral Dissertation (*) Prerequisite: permission of Supervisory Committee chairperson. Credit/no credit only. Offered: AWSpS.

Political Science

101 Gowen

Students of political science examine the theory and practice of government and politics. They acquire knowledge of political institutions and processes and learn to think critically about public policies and their consequences. They learn how to evaluate individual, group, and mass behavior in political settings. Because of their understanding and interest in political systems, students who major in political science enter such career fields as government service, law, business, journalism, politics, public policy analysis, and education.

The department is organized into four major fields of study: political theory, American government and politics, international relations, and comparative politics. Several subfields—public law, law and public policy, political culture, and political economy—cut across these main areas and provide focused specializations for both undergraduate and graduate students. The department has long been renowned in comparative and international politics, especially in the study of Asian political phenomena, in public law, and in American government and politics. The department has also augmented its faculty strength in political and feminist theory as well as in political economy.

Undergraduate Program

Students begin their concentration by choosing three basic courses that define the discipline and its major fields of interest, then advance to more specialized study in the field areas. The undergraduate program is designed to provide broad knowledge of the discipline, to emphasize the acquisition of research skills for students who will seek advanced degrees, and to offer practical experience through internships and fieldwork courses for students who will seek employment after completing the baccalaureate degree.

Bachelor of Arts

Admission Requirements: (1) Sophomore standing (completion of minimum 45 college credits); (2) minimum 2.00 UW cumulative GPA; (3) three introductory courses in the discipline, either completed or in the process of being completed, from among POL S 101, 201, 202, 203, 204, and 205 (or equivalents). Students are admitted all quarters; applications and additional information available from advisers in 115 Gowen.

Major Requirements: 50 credits in political science, including (1) three courses (15 credits) in introductory political science field courses from POL S 101, 201, 202, 203, 204, 205; (2) three courses (15 credits) in

field courses numbered POL S 212 and above—at least one course in each of three different areas of political science study: the five areas from which to select this requirement are political theory, comparative government, international relations, American government, and research methods; (3) 20 credits of elective political science course work numbered POL S 212 and above; (4) minimum cumulative GPA of 2.25 in political science courses at graduation. Transfer and postbaccalaureate students must meet all the above requirements and complete a minimum of 10 upper-division political science credits at the UW.

Political Economy: The department also offers a political economy focus, a specialized program of study that combines political science and economics, emphasizing rational choice theory. Students who wish to pursue this interdisciplinary concentration should consult with a political science adviser. A list of recommended course work is available.

Internships: In order to prepare students for career opportunities, the department offers three internship programs that range from part-time, 5-credit assignments to full-time, 15-credit programs. Students can elect to work in local agencies (POL S 496), in the state legislature during winter quarter (POL S 497), and in Washington, D.C. (POL S 498). Students in all majors may apply for the Washington Center Program, which places students in Washington, D.C., during every academic quarter. Additional information is available from departmental advisers in 115 Gowen.

Minor

Minor Requirements

30 credits from one of the following options (see department for course lists and suggested course tracks):

American Government: POL S 202; 20 credits Group D electives; 5 credits Group D 400-level elective.

Comparative Politics: POL S 204; 20 credits Group B electives; 5 credits Group B 400-level elective.

International Relations: POL S 203; 20 credits Group C electives; 5 credits 400-level Group C elective.

Political Science (General): One from POL S 101, 201, 202, 203, 204, 205; 20 credits POL S electives; 5 credits 400-level POL S elective.

Political Theory: POL S 201; 20 credits Group A electives; 5 credits 400-level Group A elective.

Graduate Program

Graduate study in political science integrates traditional education in political science's primary fields with other fields in the social sciences allowing an eclectic, interdisciplinary approach.

Graduate work in political science is organized primarily as preparation for the Doctor of Philosophy degree. The Master of Arts program option serves as the initial stage of the Ph.D. program.

A bachelor's degree is required for admission to the M.A. program. M.A. aspirants must submit and orally defend an essay of distinction (POL S 598), and complete course requirements in two fields. One of these fields must be chosen from four general fields: political theory, international relations, comparative politics, and American politics. The second field may be a second general field or one of the specialized fields (including, but not limited to): area study, public law, or political economy. The M.A. degree requires the completion of 46 credits, of which 23 must be at the 500 level or above. Two courses in foundations of political analysis are required.

For admission to the Ph.D. program, students are expected to have completed an M.A. degree in political science (or an equivalent program) in this department

or elsewhere. The doctoral student must prepare a total of three fields—a minimum of one general field; a second general field and/or one or more specialized fields, and/or at most one non-designated field. Two courses in quantitative political analysis and an elective methodology course are required. Competence in a foreign language is required only if deemed appropriate by the student's Supervisory Committee. The doctoral degree requires the completion of 124 graduate credits, of which at least 58 must be at the 500 level or above; 36 credits are allowed for the dissertation. To be advanced as a doctoral candidate, a student must complete all of the above, and a second essay of distinction (POL S 599), a written examination in each of the three fields, and a comprehensive oral examination. Once advanced to candidacy, students must write, and orally defend, their dissertation thesis.

The department has long been outstanding in comparative and international politics, especially in the study of Asian political phenomena. The department has augmented its faculty strength in American politics, Western European politics, political theory, international relations, political economy, public policy, public law, and methodology. Graduate students can pursue studies in other campus units, such as the School of Marine Affairs, the Graduate School of Public Affairs, the Henry M. Jackson School of International Studies, the School of Communications, and the School of Law.

Research Facilities

The University library system, the largest research library in the Pacific Northwest, has a collection of five million volumes, with specialized collections for the Pacific Northwest, Near East, South Asia, and Slavic and East European areas. A political science reference librarian is available in the Suzzallo and Allen Libraries to assist graduate students and the specialized needs of the department. Specialized access to computing facilities and extensive data holdings is available through the Center for Social Science Computation and Research. The University is a member of the Inter-University Consortium for Political and Social Research.

Admission

The department admits for autumn quarter only. January 15 is the application deadline. Admission and financial aid decisions are based on the applicant's academic transcript, Graduate Record Examination general test scores (no subject test is required), three letters of reference, a statement of purpose, and a writing sample. Foreign students are required to submit TOEFL scores.

Financial Aid

Fellowships, research assistantships, and teaching assistantships are available to qualified graduate students including those in their first year of study.

Faculty

Chair

W. Lance Bennett

Professors

Bennett, W. Lance * 1974; MPhil, 1973, PhD, 1974, Yale University; American politics, comparative politics, political communication, mass media, political culture.

Brass, Paul R. * 1965; PhD, 1964, University of Chicago; comparative politics (South Asia).

Burstein, Paul * 1985, (Adjunct); PhD, 1974, Harvard University; political sociology, social stratification, public policy, law.

Caporaso, James A. * 1988; PhD, 1968, University of Pennsylvania; international political economy, comparative politics, European community, research methodology.

Cassinelli, Charles W. * 1960, (Emeritus); PhD, 1953, Harvard University; comparative government (Latin America).

Gerberding, William P. * 1979; PhD, 1959, University of Chicago; American government and politics, public policy.

Gore, William J. * 1966; (Emeritus); PhD, 1952, University of Southern California; public policy, public administration.

Hellmann, Donald C. * 1967; PhD, 1964, University of California (Berkeley); Japanese politics and international relations.

Lang, Gladys Engel * 1984, (Emeritus); PhD, 1954, University of Chicago; political effects of mass media, sociology of art, political movements and crowd behavior.

Lev, Daniel S. * 1970; PhD, 1964, Cornell University; comparative politics (Southeast Asia).

Levi, Margaret Anne * 1974; PhD, 1974, Harvard University; comparative politics, political economy.

Matthews, Donald Rowe * 1976, (Emeritus); PhD, 1953, Princeton University; American government and politics, comparative politics (Norway, U.K.).

May, Peter J. * 1979; PhD, 1979, University of California (Berkeley); policy analysis, quantitative methods, federal disaster policy.

McCann, Michael W. * 1982; MA, 1976, PhD, 1983, University of California (Berkeley); American government and politics, public law, political theory.

McCrone, Donald J. * 1979; PhD, 1966, University of North Carolina; American politics, political economy, methodology.

Migdal, Joel S. * 1980, (Adjunct); MA, 1968, PhD, 1972, Harvard University; state and society in the Third World; Middle East politics.

Modelski, George * 1967, (Emeritus); PhD, 1954, University of London (UK); international relations, international political economy.

Olson, David J. * 1974; PhD, 1971, University of Wisconsin; American government and politics (urban, state, and labor relations).

Reshetar, John S. Jr. * 1957, (Emeritus); PhD, 1950, Harvard University; comparative government (Soviet Union), international relations.

Scheingold, Stuart A. * 1969; PhD, 1963, University of California (Berkeley); American politics (public law).

Taylor, Michael John * 1985; PhD, 1976, University of Essex (UK); political theory, political economy.

Townsend, James R. * 1968, (Emeritus); PhD, 1965, University of California (Berkeley); comparative government (China), politics of development.

Associate Professors

Bachman, David M. * 1991, (Adjunct); PhD, 1984, Stanford University; Chinese politics and foreign policy and China's political economy (1949-present); US-China relations.

Di Stefano, Christine * 1985; PhD, 1984, University of Massachusetts; political theory (modern and contemporary), feminist theory, political culture.

Goldberg, Ellis * 1985; PhD, 1983, University of California (Berkeley); political economy of the Middle East, comparative politics.

Gottfried, Alex 1951, (Emeritus); MA, 1948, PhD, 1952, University of Chicago; American government and politics.

Hartsock, Nancy C. M. * 1984; PhD, 1972, University of Chicago; feminist theory, Marxism, contemporary political theory.

Horowitz, Ruth L. * 1971; PhD, 1972, Washington University; political theory and methodology.

Keeler, John T. * 1980; PhD, 1978, Harvard University; comparative politics (Western Europe), international relations.

Majeski, Stephen J. * 1984; PhD, 1981, Indiana University; international relations, foreign policy, peace and conflict resolution.

Pool, Jonathan Robert * 1977; PhD, 1971, University of Chicago; political theory, (political economy of language).

Riley, Walter 1946, (Emeritus); MA, 1935, PhD, 1957, Stanford University; political science.

Rohn, Peter H. * 1962, (Emeritus); PhD, 1958, University of Washington; international relations, international law.

Thomson, Janice E. * 1988; MA, 1983, Arizona State University; PhD, 1988, Stanford University; international relations theory, state sovereignty, and international political economy.

Assistant Professors

Eliaison, Leslie Carol * 1988, (Adjunct); MA, 1985, PhD, 1988, Stanford University; comparative politics, European public policy, comparative education and health care policy.

Gill, Anthony J. * 1994; MA, 1989, PhD, 1994, University of California (Los Angeles); comparative politics, Latin America, political economy, methodology.

Hanson, Stephen E. * 1990; MA, 1986, PhD, 1991, University of California (Berkeley); Soviet, post-Soviet and comparative politics.

Ingebritsen, Christine * 1992, (Adjunct); PhD, 1993, Cornell University; Scandinavian domestic and foreign policies, European community integration and Scandinavia.

Litfin, Karen T. * 1991; PhD, 1992, University of California (Los Angeles); international environmental politics, globalization processes, technology and politics.

Mayerfeld, Jason * 1991; MA, 1988, PhD, 1992, Princeton University; political theory, ethics.

Simpson, Andrea Y. 1993; PhD, 1993, Emory University; American government and politics, minority politics.

Whiting, Susan H. 1994; PhD, 1995, University of Michigan; international relations (China).

Wilkerson, John D. * 1990; MA, 1989, PhD, 1991, University of Rochester; American government and politics, quantitative methodology.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Most upper-division courses (300- and 400-level) do not require prerequisites. However, because these courses generally offer more advanced subject matter, they are recommended for juniors and seniors. Freshmen or sophomores who wish to enroll in upper-division courses may do so, but they should consult with the instructor or the departmental adviser first.

POL S 101 Introduction to Politics (5) I&S Political problems that affect our lives and shape the world around us. Recommended for nonmajors, for students who are thinking about political science as a major,

and for political science majors who haven't decided on an area of specialization. Offered: AWSpS.

POL S 201 Introduction to Political Theory (5) I&S Philosophical bases of politics and political activity. Provides an introduction to the study of politics by the reading of a few books in political philosophy. Organized around several key political concepts, such as liberty, equality, justice, authority, rights, and citizenship. Offered: AWSpS.

POL S 202 Introduction to American Politics (5) I&S Institutions and politics in the American political system. Ways of thinking about how significant problems, crises, and conflicts of American society are resolved politically. Offered: AWSpS.

POL S 203 Introduction to International Relations (5) I&S The world community, its politics, and government. Offered: AWSpS.

POL S 204 Introduction to Comparative Politics (5) I&S Political systems in a comparative framework. Traditional and contemporary approaches to the study of governments and societies in different countries. Offered: WSp.

POL S 205 Political Science as a Social Science (5) I&S Methodological perspectives of the various social science disciplines: commonalities and differences in assumptions, values, and paradigms. Current issues from the multiple perspective of social sciences; limits of the social sciences in resolving key social issues. Recommended: introductory course in one or more social science. Offered: W.

POL S 212 Philosophy of Feminism (5) I&S Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with PHIL 206/WOMEN 206.

POL S 249 Introduction to Labor Studies (5) I&S Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with HIST 249/SOC 266

POL S 270 Introduction to Political Economy (5) I&S Political economy as a tool for understanding and evaluating the political world. Combines theory, methods, and insights derived from economics and political science and applies them to a range of substantive issues.

POL S 273 The Concept of Political Power (5) I&S How to understand and explain relationships of power. Readings from Marxism, Weberian sociology, anarchism, classical political philosophy, and contemporary political science. May also include works of fiction.

POL S 281 Introduction to American Political Culture (5) VLP&I&S Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Offered: jointly with ENGL 251.

POL S 301 Special Topics in Political Theory (5, max. 10) I&S Selected contemporary political issues. Political principles as reflected in concrete political problems. Topics might include: women's rights, civil disobedience, national health care, affirmative action, environmental protection, privacy, human rights, and redistribution of property. Recommended: introductory course in political science at the 100 or 200 level.

POL S 303 Public Policy Formation in the United States (5) I&S Policy decision making with emphasis on: how issues arise, the way they become part of the policy agenda of the executive and the legislature, how these institutions organize to handle policy issues, and the roles of the legislature, the executive, and the

bureaucracy. Public policy literature and familiarization with key aspects of policy decision making at the national, state, and local levels.

POL S 304 The Press and Politics in the United States (5) I&S Journalists' role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Extensive off-campus experience included. Offered: jointly with CMU 304.

POL S 305 The Politics of Mass Communication in America (5) I&S Role of mass audiences in politics from the standpoint of the communication strategies used to shape their political involvement. Topics include: social structure and political participation, political propaganda and persuasion, the political uses of public opinion, and the mass media and politics.

POL S 308 The Western Tradition of Political Thought, Ancient and Medieval (5) I&S Origin and evolution of major political concepts from ancient Greece to the medieval period, from Thales through Aquinas. Recommended: 201.

POL S 309 The Western Tradition of Political Thought, Pre-Modern (5) I&S Continuation of 308, treating materials from the fifteenth through eighteenth centuries, Machiavelli through Rousseau. Recommended: 201.

POL S 310 The Western Tradition of Political Thought, Modern (5) I&S Continuation of 308 and 309, focusing on material from the eighteenth through twentieth centuries, from Rousseau through Lenin. Recommended: 201.

POL S 311 Individual and the State (5) I&S Individualism and communitarian critics. Political and ethical implications of both. Nature of the state, liberty, responsibility, cooperation. Important individualist and collectivist literature, dealing with market institutions and citizen politics, critically assessed.

POL S 313 Women in Politics (5) I&S Theoretical, historical, and empirical studies of women's participation in political and social movements. Women's diverse efforts to improve their political, social, and economic status. Policy issues of particular concern to women. Women's political experiences in household, local, regional, national, and international arenas Offered: jointly with WOMEN 313.

POL S 316 African-American Political and Social Thought (5) I&S Race relations in U.S. politics as defined by the struggle of African-Americans for economic, political, and social equality. Studies of African-American political and social thought; expands and clarifies our understanding of the strengths and weaknesses of American democratic ideals.

POL S 317 The Politics of Race in the United States (5) I&S Political and social dilemma created by the attempt to reconcile ethnic and national identity. Effort of African-Americans to resolve this dilemma examined through the writings of contemporary political scholars.

POL S 318 American Political Thought I (5) I&S Major thinkers and themes in American political and cultural development from Puritan origins to the Civil War.

POL S 319 American Political Thought II (5) I&S Major thinkers and themes in American political and cultural development from the Civil War to the present.

POL S 321 American Foreign Policy (5) I&S Constitutional framework; major factors in formulation and execution of policy; policies as modified by recent developments; the principal policymakers—President, Congress, political parties, pressure groups, and public opinion. Recommended: 101 or 202.

POL S 324 Europe in World Politics (5) I&S Independent and coordinated efforts of Britain, France, and

West Germany to adapt to the post-World War II global system. Creation and development of the Atlantic alliance. Relations with the Soviet bloc. Decolonization and the evolution of relations with the Third World. The movement for European integration. Prerequisite: 203 or equivalent.

POL S 325 The Arab-Israeli Conflict (5) I&S The politics of conflicting ideologies: Zionism and Arab nationalism; formation of the state of Israel; development of Palestinian nationalism; Arab-Israeli wars. Re-emergence of Palestinian activism; domestic sources of foreign policy; the role of the superpowers.

POL S 326 Scandinavia In World Affairs (5) I&S Introduction to the foreign relations of Scandinavia with a focus on Nordic security, international economic pressures, and global conflict resolution. Survey of the national settings for international involvements and highlights the dilemmas for industrial societies exposed to the pressure of interdependence. Offered: jointly with SCAND 326.

POL S 328 International Organizations (5) I&S Explores historical, theoretical, and empirical aspects of the United Nations, its specialized agencies, and other international organizations, both governmental and nongovernmental. Prerequisite: 203.

POL S 331 Government and Politics In the Middle East and North Africa (5) I&S Breakdown of traditional society and the problems of building modern political systems.

POL S 340 Government and Politics of South Asia (5) I&S Comparison of problems of national integration and political development in India, Pakistan, and Ceylon. Offered: jointly with SISSA 340.

POL S 341 Government and Politics of Canada (5) I&S Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered: jointly with SISCA 341.

POL S 342 Government and Politics of Latin America (5) I&S Analysis of the political dynamics of change in Latin America comparing various national approaches to the political problems of modernization, economic development, and social change.

POL S 343 Politics and Change In Southeast Asia (5) I&S Government and politics in the countries of Southeast Asia, with attention given to the nature of the social and economic environments that condition them. Offered: jointly with SISSE 343.

POL S 346 Governments of Western Europe (5) I&S Modern government and politics of Great Britain, France, Germany, and Italy.

POL S 350 Government and Interest Groups In the United States (5) I&S Agrarian, labor, professional, business, and ethnic interest in politics; impact on representative institutions and governmental processes. Recommended: 101.

POL S 351 The American Democracy (5) I&S Democratic theory; constitutional theory; the Presidency; Congress; the Supreme Court; civil rights and civil liberties. Designed for nonmajors. Recommended: 202 or equivalent.

POL S 352 American Political Parties (5) I&S Theories of American parties, campaigns and voting behavior; party leadership; political socialization and participation. Recommended: 101 or 202.

POL S 353 United States Congress (5) I&S Organization and procedure of Congress, state legislative politics, lobbying, legislative roles, theory and practice of representative government. Prerequisite: 101 or 202.

POL S 354 Elections and Voting In the United States (5) I&S Electoral institutions and processes of the United States: the idea and practice of elections, the electoral system, individual voting behavior, collec-

tive voting behavior, and the impact of elections on policy. Recommended: 101 or 202.

POL S 355 The American Presidency (5) I&S The American presidency; its evolution, its occupants, and its place within the American system. Topics include presidential character, war, elections, Watergate, the economy, and the Constitution.

POL S 356 Society and Politics (5) I&S Focus on the causes of political change in democratic countries, including public opinion, social movements, interest group activity, and party organization. Offered: jointly with SOC 356.

POL S 360 Introduction to United States Constitutional Law (5) I&S Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects.

POL S 361 United States Courts and Civil Liberty (5) I&S Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937.

POL S 363 Law in Society (5) I&S Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Offered: jointly with SO JU 363.

POL S 365 Lawyers in American Politics (5) I&S Influence of lawyers on American politics. Official and unofficial political roles, lawyers as lobbyists, as legislators, in the bureaucracy, politics of the American Bar Association. Includes study of legal education, professional values, and avenues of political access.

POL S 382 State Government (5) I&S Focus on the structures, processes, and policy outputs of state governments in the United States.

POL S 383 Environmental Politics and Policy In the United States (5) I&S Interrelation between technological and environmental change and policy formation. Consideration of political behavior related to these phenomena and the capacity of urban public organizations to predict change and to formulate policies that can take future states into account.

POL S 398 Honors Seminar (5, max. 15) I&S Intensive and advanced studies in various aspects of political science. Open only to participants in the departmental honors program.

POL S 401 Advanced Special Topics In Political Theory (5, max. 10) I&S Topics can include, but are not limited to, analytical theory pertaining to justice, exploitation, and freedom; revolution and social changes; collective choice and action; sexuality and politics; critical theory; Marxist theory; post-structuralism. Content varies. Prerequisite: 201.

POL S 403 Advanced Special Topics In International Relations (5, max. 10) I&S Examination of contemporary developments in the field of international relations. Content varies according to the nature of developments and research interests of the instructor.

POL S 405 American Politics Seminar (5, max. 10) I&S Intensive reading and research in selected problems or fields of political analysis. Recommended: 202.

POL S 406 Marxian Political Economy (5) I&S Explores the relationship between social classes, the state, and political power in advanced capitalist societies. Investigates this relationship primarily by means of the tools of Marxian political economy and, in the process, evaluates these tools. Emphasis on theoretical perspectives, although the reading list has a few empirical applications as well. Prerequisite: 201.

POL S 407 International Conflict (5) I&S Many forms of international conflict, including global wars, local wars, antiregime wars, military interventions, and

international crises. Several political, social, and anthropological explanations for conflicts and examination of alternative world futures.

POL S 408 Political Conflict Theory (5) I&S Verbal and mathematical models designed to explain, win, prevent, and resolve conflicts. Search for a unified theory of political conflict applicable to all issues (environmental, industrial, ethnic, territorial, moral) and all processes (negotiation, voting, arbitration, strikes, lawsuits, arms races, war, terrorism). Recommended: 290 or 300.

POL S 409 Undergraduate Seminar In Political Economy (5, max. 10) I&S Seminar in political economy with focus on Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Prerequisites: 270, ECON 300, and permission of instructor. Offered: jointly with ECON 409.

POL S 410 Technology, Politics, and the State (5) I&S Relationships between politics, technological change, and development of multinational corporations. Considers whether the relations between political and economic systems of industrial societies have been fundamentally altered by the increased importance and interdependence of government, experts, and new technological possibilities for intervention in social life.

POL S 411 Theories of the State (5) I&S Topics may include origins and development of the state; arguments about the necessity, desirability, and proper role of the state; the nature and operation of modern states and the international state system; the legitimacy of modern state power.

POL S 413 Contemporary Political Theory (5) I&S Analysis of political theorists, exploring contemporary theories of humanity and society that form the basis for differing political ideas.

POL S 414 Politics and Culture (5) I&S How people interpret and shape the political world around them through the use of such cultural resources as language, symbolism, myth, and ritual. The various uses of these cultural elements establish the place of the individual in society, influence the perception of political events, and create opportunities for individual and mass political responses. Prerequisite: junior or senior standing.

POL S 416 Economic Theory as Applied to the Political System (5) I&S Explanation and evaluation of the political system, using elementary economics theory. Topics include alternative voting rules, the political effectiveness of various types of groups, causes and consequences of logrolling, and bureaucratic organizations. Prerequisite: ECON 200 or 400 or equivalent. Offered: jointly with ECON 452.

POL S 417 Political Economy of India (5) I&S Relationships among processes of economic change, political institutions, and structures of political power in contemporary India. Contrasting approaches of Indian economic development, land reform, radical and agrarian political movements, and role of foreign aid. Offered: jointly with SISSA 417.

POL S 418 Multinationals and World Order (5) I&S Multinational corporations as a problem for world order. MNCs and the global political economy; theories of multinational activity; governance and regulation; international organizations, world politics, and MNCs. Prerequisites: introductory courses in international relations and international studies.

POL S 420 Foreign Relations of the Soviet Union (5) I&S Ideological, historical, and strategic components of Soviet foreign policy; Comintern, Cominform, and international communist movement; Soviet policy in foreign trade, in international law and organization, and in specific geographic areas.

POL S 421 Relations Among Communist States (5) I&S Major disputes and types of relationships among different communist states and ruling parties, attempts at integration and methods of alliance maintenance, tensions and contradictions in relations. Nature of the socialist commonwealth and the communist state system.

POL S 422 International Environmental Politics Seminar (5) I&S Study of the practical and theoretical challenges associated with global ecological interdependence. Examination of international treaties and institutions, state, and nonstate actors with an emphasis on the emerging concept of sustainability.

POL S 423 International Law (5) I&S Origin and present status of efforts to make rules of conduct for sovereign states; simulation of a treaty-drafting conference, with students playing roles of legal advisers to foreign governments. Recommended mainly for seniors with prior courses in international relations.

POL S 424 International Courts (5) I&S Earlier models, establishment, and operation to date of the World Court in the context of international law and politics; simulation of a court case, with students playing roles of judges and attorneys. Recommended mainly as a sequel to 423.

POL S 425 International Law Seminar (5) I&S Team research on a student-selected topic in international law; quantitative methods, computer applications, and writing skills. Prerequisite: 423 or 424 or permission of instructor.

POL S 426 World Politics (5) I&S The nation-state system and its alternatives, world distributions of preferences and power, structure of international authority, historical world societies and their politics. Offered: jointly with SIS 426.

POL S 427 International Political Economy (5) I&S Examines major theoretical problems, substantive issues, and school of thought in international political economy (IPE), including issues of trade, production, and finance. Preparation for critical analysis of dilemmas entailed in establishing and maintaining an instrumentally effective and ethically acceptable IPE system.

POL S 428 Military Intervention (5) I&S Historical and theoretical analysis of military intervention in the post-World War II era. Considers how and why interventions occur and evaluates intervention as a foreign-policy response.

POL S 431 International Relations in the Middle East (5) I&S Study of domestic sources of foreign policy in the Middle East; politics of oil; the East-West rivalry in the arena; and conflict and collaboration among the local powers.

POL S 432 Political Islam and Islamic Fundamentalism (5) I&S Study of resurgence, since mid-1970's of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with SIS 406.

POL S 433 International Relations in Southeast Asia (5) I&S Analysis of the problems affecting relations among the countries of Southeast Asia. Prerequisites: 101, 343, or permission of instructor.

POL S 434 International Relations of South Asia (5) I&S Interrelationships of domestic, interstate, and extraregional forces and their effects upon the resolution or expansion of interstate conflicts in South Asia. Offered: jointly with SIS 434.

POL S 435 Japanese Government and Politics (5) I&S Government and politics of Japan with emphasis on the period since 1945.

POL S 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S Provides a broad

theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Prerequisite: junior standing. Offered: jointly with SIS 436.

POL S 437 Politics in Scandinavia (5) I&S Twentieth-century politics in Scandinavia. How Scandinavian countries have been governed. Costs and consequences of their governmental style and its uncertain future. Optimal size of politics, problems of mature welfare states, process of leadership and representation in multiparty systems, decline of political parties. Offered: jointly with SCAND 437.

POL S 438 Politics in France (5) I&S Study of contemporary France. Structures of government in the Fifth Republic; nature of French voting behavior and evolution of the bipolarized political party system; behavior of political interest groups; training of France's administrative elite and functioning of the state bureaucracy; dynamics of policy-making.

POL S 439 Politics of Korea (5) I&S Korean politics in the twentieth century, treating political legacy of ancient regime, colonial period, Korean War, and the politics of North and South Korea. Comparative treatment of both Koreas in light of the Chinese and Japanese experience. Includes the America-Korea relationship. Offered: jointly with SISEA 439.

POL S 440 European Fascism (5) I&S Analysis of fascism as revolutionary movement and type of political system in post-World War I Europe: Hitler's Third Reich, Mussolini's Italy, and Vichy France. Consideration of dynamics of resistance, policies that produced Holocaust, and questions raised at trials of fascist leaders in Nuremberg and elsewhere. Prerequisite: permission of instructor.

POL S 441 Government and Politics of the Soviet Union (5) I&S Ideological and historical bases of Soviet politics, Leninism-Stalinism, Communist Party structure and functions, administrative agencies, the police and military, law and the judiciary, Soviet federalism and nationality policy.

POL S 442 Government and Politics of China (5) I&S Post-1949 government and politics, with emphasis on problems of political change in modern China. Prerequisite: junior standing. Offered: jointly with SISEA 449.

POL S 443 Comparative Political Societies (5) I&S Analyses of modern and premodern types of stable political society; special attention to contemporary representative democracy.

POL S 444 Revolutionary Regimes (5) I&S Analysis of the several types of political regimes concerned with effecting fundamental social change; emphasis on the twentieth century.

POL S 445 Politics and Society in Eastern Europe (5) I&S Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all communist states of Eastern Europe and their successors. Prerequisite: one previous course in European politics or history. Offered: jointly with SISRE 445.

POL S 446 Peasants in Politics (5) I&S Interdisciplinary study of peasants, with special attention to questions of rural transformation. Peasant involvement in an increasingly interdependent world. Rebellion and revolution, impact of the international market, agricultural development. Offered: jointly with SIS 444.

POL S 447 Comparative Politics Seminar (5, max. 10) I&S Selected comparative political problems, political institutions, processes, and issues in comparative perspective. Strongly recommended: 204.

POL S 448 Politics of the European Community (5) I&S Examines the origins, structures, and political

dynamics of the European Community. Attention given to theories of integration, to relations between the European Community and member states, and to the role of the European Community in world politics.

POL S 449 Politics of Developing Areas (5) I&S Comparative study of problems of national integration and political development in the new states of Asia and Africa. Prerequisite: junior standing.

POL S 450 State-Society Relations in Third World Countries (5) I&S Relationships among political, social, and economic changes in Asia, Africa, and Latin America: Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with SIS 456.

POL S 452 Political Processes and Public Opinion in the United States (5) I&S The foundations and environment of opinion; organization and implementation of opinion in controlling government and public opinion as a force in the development of public policy; public relations activities of government agencies.

POL S 453 The State Legislature (5) I&S Study of American state legislatures, with special reference to Washington State Legislature. Student must spend several Fridays in Olympia when the legislature is in session. Those desiring a more extensive involvement with the legislature should enroll in the political internship. Prerequisites: upper-division standing and permission of instructor.

POL S 462 The Supreme Court in American Politics (5) I&S Introductory public law course that examines the interplay of constitutional law and American politics with particular attention to the role of the Supreme Court in the formulation and implementation of public policy in such matters as criminal-law enforcement, civil rights political expression, and economic regulation.

POL S 483 Political Analysis of United States Social Programs (5) I&S Social problems in the United States and policy responses. National policies concerning poverty, health, welfare, manpower, and the Social Security system. Examination of subgovernments that cluster around each policy area.

POL S 484 The Politics of American Criminal Justice (5) I&S Political forces and value choices associated with the enforcement of criminal law. Distribution of resources among participants in the criminal justice system (e.g., police, attorneys, defendants, and judges). Understanding and evaluation of the interaction of criminal justice processes with the political system. Prerequisite: junior or senior standing.

POL S 485 Law and Public Policy in the United States (5) I&S Relationship between law and public policy, with particular attention to problems of social, economic, and political change. Considers legal and constitutional processes as they relate to such problems of public policy as race relations, the environment, and the economy. Prerequisite: junior or senior standing.

POL S 486 Feminist Legal Studies: Theory and Practice (5) I&S Examines feminist theoretical analyses of the law. Engages in current debate on the study of critical race, gender, and class theory. Includes: women in prison, public assistance, the sex industry, women and health care, and immigration law. Prerequisites: WOMEN 200, one upper division women studies course, or permission of instructor. Offered: jointly with SO JUMWOMEN 410.

POL S 487 Comparative Law in Society (5) I&S Legal systems around the world as they actually work in their respective political, social, and economic contexts. Emergence and development of European legal systems, legal customs at variance with those of Europe, problems of legal processes in the modern state.

POL S 470 Public Bureaucracies in the American Political Order (5) I&S Growth, power, and roles of

governmental bureaucracies in America: conflict and conformity with American political thought, other political institutions, and the public.

POL S 474 Government and the Economy (5) I&S Interaction between politics and the economy. Impact of policy makers on economic performance. Models of partisan and political business cycles. Concepts of economic voting. Marxist theories of modern capitalist economics. Prerequisite: ECON 201. Recommended: MATH 124.

POL S 475 Public Choice (5) I&S Problems and prospects for collective action in a political democracy. Designing rules and institutions for effective central authority and effective constraints on governmental power. Social choice theory and game theory. Prerequisite: 270 or 474.

POL S 476 Strategy in Politics (5) I&S Explores the problem of finding fair methods for making social decisions, and examines alternative methods of social choice. Emphasis on the importance of agenda control for outcomes, and the implications of theories of social choice for common interpretations of concepts such as democracy and the general will. Prerequisite: 202 or 270.

POL S 481 Big City Politics (5) I&S Contemporary big city politics, focusing on Seattle and the largest twenty-five cities. Social, economic, and political trends that have shaped characteristics of large American cities. Distribution and use of economic and political power among parties and groups. Future of large cities and politics of change. Recommended: 202.

POL S 485 Urban Politics Seminar (5) I&S Advanced undergraduate course in urban politics. Opportunity for more independent and intensive analysis of particular problems or lines of inquiry. Prerequisites: 101 or 202 and 481.

POL S 488-489 Honors Senior Thesis (5-5) I&S Students individually arrange for independent study of selected topics under the direction of a faculty member. Research paper is student's senior thesis. Students meet periodically as a group to discuss research in progress. Prerequisites: 15 credits in 398, senior honors standing, and permission of instructor.

POL S 490 Foundations of Political Analysis (5) I&S Fundamental issues pertaining to research in political science: "logics of inquiry," problems of concept formation, and development of research methods. Positivist, postempiricist, and other arguments about the nature of scientific knowledge.

POL S 491 Political Research Design and Analysis (5) I&S Major quantitative methods of empirical research in political science. Primary emphasis on research design, data collection, data analysis, and use of computers. Prerequisite: 290 or equivalent or graduate standing or permission of instructor.

POL S 492 Advanced Political Research Design and Analysis (5) I&S Third methods course in political research. Testing theories with empirical evidence. Examines current topics in research methods and statistical analysis in political science. Content varies according to recent developments in the field and with interests of instructor. Recommended: 490, 491.

POL S 493 Language and Politics (5) I&S Language as a political phenomenon, a tool of political power, and a source of political problems. Includes the effects of "public doublespeak," the role of language in racism and sexism, and the search for ways to overcome national and international language barriers in several parts of the world. Primarily for students in political science, languages, and area studies. Prerequisite: permission of instructor.

POL S 495 Study Abroad—Political Science (3-5, max. 15) I&S For participants in the study abroad program. Specific course content determined by assigned faculty member and announced in study

abroad bulletin. Politics, political culture, and institutions related to their national setting.

POL S 496 Undergraduate Internship (5, max. 15) Students serving in approved internships. Prerequisites: sophomore standing or above and permission of undergraduate adviser.

POL S 497 Political Internship in State Government (5, max. 20) Students serving in approved internship program with state government agencies. Prerequisites: junior standing or above and permission of undergraduate adviser.

POL S 498 The Washington Center Internship (15) Full-time academic internship with the Washington Center in Washington, DC Includes internship activities, academic seminar, assemblies, and related activities. Credit/no credit only. Prerequisites: 202, junior standing or above; one year at this university; application and acceptance into program; permission of undergraduate adviser.

POL S 499 Individual Conference and Research (2-5, max. 20) Intensive study with faculty supervision. No more than one registration in 499 under same instructor. Prerequisites: junior or higher standing and permission of undergraduate adviser.

Courses for Graduates Only

POL S 501 Survey of American Government (3) Conceptual perspectives toward American government. Alternative ways of considering policy issues. Focuses on such models as legal-constitutional, pluralistic competition, political economy, public interest, and conflict resolution. For graduate students outside political science.

POL S 505 Comparative Politics (5) Core course. Modern theories, approaches, and methods in the study of comparative politics.

POL S 509 Philosophical Political Theory (5) One of two political theory core courses. Introduction to the works of major political theorists, past and present. Enduring controversies in political thought and on contemporary political theory literature.

POL S 510 Analytical Political Theory (5) One of two political theory core courses. Reasoned argument as a tool of normative and explanatory political enquiry in Aristotelian, Contractarian, Marlin, ordinary-language, public choice, and other traditions. Analytical approach to theories of justice, freedom, obligation, cooperation, the state and other fundamental political problems.

POL S 511 Seminar in Ethical and Political Theory (5) Ethical writings of major political philosophers. Coherent themes arising from these works and assessment of their impact on concepts of politics. Recommended: background in political philosophy.

POL S 512 Seminar in Nationalism and Political Theory (3) Nationalism, republics, impact of mass democracy. Growth of internationalism. Role of political philosophy in probing institutions, moral perspectives, and assessing significance of nation-state, international order.

POL S 513 Issues in Feminist Theory (5) Contemporary issues in feminist theory as they affect studies of women, politics, and society.

POL S 514 Selected Topics in Political Theory (3-5) Selected topics, historical and conceptual, national, regional, and universal. Prerequisite: permission of instructor.

POL S 515 Scope and Methods in Political Science (5)

POL S 516 Special Topics in American Political Thought (3/5) Special topics or themes in the development of American political culture.

POL S 517 Marxism and Critical Theory (5) Works of Marx and Engels as well as selected works of twentieth-century Marxist and critical theorists. Themes such as Marx's method, twentieth-century interpretations of Marx, and relationship of twentieth-century theorists to their eighteenth- and nineteenth-century forebears.

POL S 519 Modern Scandinavian Politics (5) Analyzes the political, economic, and historical development of Sweden, Norway, Denmark, Iceland, and Finland from World War II to the present. Readings focus on domestic and foreign policies that distinguish these countries from other advanced industrial societies. Offered: jointly with SCAND 519.

POL S 520 Seminar on the Foreign Policy of the Soviet Union (3) Selected topics in the development, methods, and objectives of the foreign policy of the Soviet Union. Prerequisite: permission of instructor.

POL S 521 International Relations I: Theory and Method (5) Part one of the core course in the field of international relations. Reviews contemporary theory, research, and methodology in the study of world politics.

POL S 522 International Political Economy (3-6) Theories of international political economy. Focuses on the emergence and development of the modern world system, the transition from feudalism to capitalism, and the institution of the nation-state system. Also examines the political economy of trade, investment, and the international division of labor from a variety of theoretical perspectives. Prerequisite: 521.

POL S 523 World System Analysis (4) Evolution of the world system. Historical-structural approaches to world politics: neo-realism; long cycles; world economy. Prerequisite: 521.

POL S 525 International Law—Policy (3) Inputs of international law into the decisional process in foreign policy. Effect of policy on law. Relevant roles of individuals and institutions in routine and crisis situations. Prerequisite: 423 or permission of instructor.

POL S 527 Special Topics in International Relations Research (3, max. 9) Examination of current topics in the theory and practice of world politics. Content varies according to recent developments in the field and research interests of the instructor.

POL S 528 Advanced International Relations Theory (5) Covers advanced works in international relations theory. e.g., realism, neorealism, game theory, and theories of cooperation and conflict. Includes some classic works (Thucydides, Hobbes, E. H. Carr) to show continuity of debates in the present. Modern theories of war, conflict, cooperation, and international institutions also explored. Prerequisite: 521.

POL S 529 Problems of American Foreign Policy (3) Critical analysis of the historical foundations and contemporary problems of foreign-policy making, with attention given to selected foreign-policy decisions. Prerequisite: 321 or permission of instructor.

POL S 532 The Chinese Political System (3) Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Prerequisite: permission of instructor. Offered: jointly with SISEA 532.

POL S 533 Seminar on Contemporary Chinese Politics (3) Research on selected problems in contemporary Chinese politics. Prerequisite: 532 or permission of instructor. Offered: jointly with SISEA 533.

POL S 534 International Affairs (3) Provides a broad understanding of international issues and United States policy. Students explore US foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, development assistance, and the environment. Offered: jointly with PB AF 534/SIS 534.

POL S 535 International Relations of Modern China (3-5) Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a course on contemporary Chinese politics or history, or permission of instructor. Offered: jointly with SISEA 535.

POL S 536 Ethnic Politics and Nationality Formation (3) Seminar on analysis and theoretical understanding of two interrelated processes: ethnic group persistence and change over time; and the transformation of ethnic groups into politically self-conscious and influential nationalities. The readings and discussions deal with these two processes in the contexts of both developing societies and advanced industrial societies.

POL S 537 Approaches to East European Politics (3-6) Selected concepts and methodologies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered: jointly with SISRE 504; alternate years.

POL S 538 Government and Politics in the Middle East and North Africa (3) Political change in the area within the context of comparative politics; breakdown of traditional political systems; new range of choice expressed in competing ideologies; governmental and nongovernmental instrumentation of change; and problems of international relations and regional conflict and integration.

POL S 540 Problems in South Asian Politics (3) Research problems in contemporary Indian politics.

POL S 541 The Soviet Political System (4) Critical appraisal of the principal research methods, theories, and types of literature dealing with the government and politics of the Soviet Union. Prerequisite: permission of instructor.

POL S 542 Seminar: State and Society (5) Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with SIS 542.

POL S 544 Problems in Comparative Government (3, max. 9) Selected problems in the comparative analysis of political institutions, organizations, and systems.

POL S 545 Seminar on Japanese Government and Diplomacy (3, max. 8)

POL S 546 Seminar on Problems of Soviet Politics (3) Selected problems of Soviet domestic politics. Prerequisite: 541 or permission of instructor.

POL S 547 Politics of Reform (3) Examines cases of reform in democratic political systems, e.g., Roosevelt's New Deal, Allende's Chilean "revolution", Mitterrand's socialist experiment in France, and the Thatcher government in Britain.

POL S 548 Comparative Political Parties (3) Role of political parties in the modern state. Similarities and differences in origins and development of political parties and functions they perform, both in established democracies and in developing countries.

POL S 549 Problems of Political Development (5) Concepts of development and modernization, with particular attention to their political dimensions and their application to various historical and contemporary cases.

POL S 550 American Politics—Core (5) Core course in American government and politics. Systematic survey of the literature; focuses on national politics. Prerequisites: undergraduate courses in American government and politics.

POL S 553 Public Opinion (3) Selected problems in opinion formation, characteristics, and role of public opinion in policy-making process. Prerequisite: 452.

POL S 554 Legislative Politics (3, max. 6) Selected problems in legislative processes and leadership, state and national.

POL S 561 Law and Politics (5) Points and levels at which law and politics intersect. What is distinctive about legal forms; how these legal forms influence, and are influenced by, politics. Conceptions of law, courts and public policy, law and bureaucracy, civil and criminal justice, and the legal profession.

POL S 562, 563, 564 Public Law (3, 3, 3) Constitutional and legal concepts governing governmental authority and institutions and the conduct of governmental activities.

POL S 566 Problems in Comparative Legal Institutions (3) Social science inquiry in comparative legal institutions. Worldwide scope, with attention to both theory of law in society and development and practice of legal institutions.

POL S 567 Public Policy, Administration, and Political Theory (3) Meaning of democracy in the context of American public policies and administration. Perspective of individual and group participation in the policy process, individual's role in organizations, functions of the public servant in the making of policy decisions, and realities of policy formulation in relation to political values. Offered: jointly with PB AF 556.

POL S 570 Bureaucratic Politics (3) Emerging literature on bureaucratic politics (e.g., principal-agent theories) and its relevance to policy processes at national or subnational levels. Offered: jointly with PB AF 501.

POL S 572 Administrative and Executive Leadership (3) Nature of executive life in the public sector, the function of leadership in implementing, making, and changing policy. Leadership styles, the relation of leadership to its constituencies and communities. Offered: jointly with PB AF 503.

POL S 573 Topics in Public Policy (3-6, max. 10) Specialized research topics with a policy process or related theoretical content.

POL S 575 Public Policy Processes (5) Political science frameworks, approaches, and theories concerning development and implementation of public policies within American political systems. Governmental behaviors and processes, including rational, political, and bureaucratic models of governmental decision making; agenda-building processes; and normative perspectives concerning role of governmental entities. Offered: jointly with PB AF 575.

POL S 576 Political Culture (5) Values, beliefs, and rituals that guide political action in society. Some approaches emphasize symbolic sphere of value and belief over material conditions of power and economic production. Other approaches emphasize material relations. Reconciliation of symbolic and materialist approaches that explain intervention of the modern state in cultural processes.

POL S 577 The Politics of Social Movements (3-5) Theoretical inquiry directed to questions of collective action and political tactics by social movement groups. Case studies include labor, civil rights, women's, environmental, and other movements in twentieth-century United States.

POL S 581 Politics of Economic Policy Making (4) Determinants of American economic policy with particular attention paid to competing theories of government growth, to political business cycle theory, to incrementalist and other budgetary theories, to effects of party control, and to theories of class control. Interrelationships of monetary, tax, and expenditure policies.

POL S 582 The Political Economy of Social Change (3/5) Social change and property rights theory. Exploration of long-term secular change through works whose approaches derive from neo-classical economics and analytical Marxism. Evolution and transformation of property rights over land, labor, and capital and the consequences of the property rights structure for political and economic institutions.

POL S 583 Economic Theories of Politics (3-5) Problems of public goods provision and collective action. Collective action theories and applications as well as critical review of the concept of rationality.

POL S 584 Approaches to Subnational Government (3) Analysis of current approaches and concepts in the study of subnational government—urban, state, and regional public organization.

POL S 587 Politics of Urban Reform (3) Interpretations of urban reformers at turn of this century and during 1960s and 1970s. Historical and political science literature on the subject. Prerequisites: graduate student standing and permission of instructor.

POL S 589 Special Topics in Political Economy (3, max. 9) Evaluating research in political economy as well as developing research problems. Topics vary with instructor and with current problems in the literature. Prerequisites: 406, 416, ECON 400, and permission of instructor.

POL S 590 Seminar in Political Behavior (3, max. 6) Analysis of behavioral research in selected fields of political science.

POL S 593 Theories of Decision Making (5) Explanation of political decisions using models of such theoretical processes as preference formation, learning, heuristics, noncooperative games, collective action, agenda manipulation, and coalition formation. Examination of competing notions of political rationality and irrationality and criteria for their evaluation. Strategies for design of decision research. Prerequisite: 491 or permission of instructor.

POL S 595 College Teaching of Political Science (1)

POL S 597 Directed Readings (* max. 9) Intensive reading in the literatures of political science, directed by the chair of the doctoral supervisory committee. Credit/no credit only.

POL S 598 Independent Writing I (3-5) Supervised research and writing for graduate students completing the MA essay of distinction.

POL S 599 Independent Writing II (3-5) Supervised research and writing for graduate students completing the Ph.D. essay of distinction.

POL S 600 Independent Study or Research (*)

POL S 700 Master's Thesis (*)

POL S 800 Doctoral Dissertation (*)

Psychology

119 Guthrie

Psychology involves the scientific study of behavior and its causes and the understanding of human behavior in a variety of settings. Psychology is studied either as a natural science, which stresses physical and biological causes of behavior, or as a social science, which stresses the effects of the social setting on human behavior. Major areas of emphasis are human cognition, animal behavior, physiological and sensory bases of behavior, quantitative techniques, personality and clinical psychology, developmental psychology, and social psychology. The department does not have formal programs in educational, school, or counseling psychology (see the College of Education section of

this catalog), engineering psychology, or industrial psychology.

Undergraduate Program

Advisers
114 Guthrie
Box 351525
email: psyadvise@u.washington.edu

Admission Requirements: (1) One English composition course completed; (2) MATH 111, or 112, or 120, or 124 completed; (3) the following psychology courses completed: 101 or 102; 209; one core course from 200, 222, 333, or equivalent; one course from 205, 305, 306, 345, 355, or equivalent; (4) minimum 2.50 GPA in all psychology courses listed in (3), with a minimum grade of 2.0 in each psychology course; (5) minimum 2.00 UW cumulative GPA.

Admission is competitive. Meeting the above criteria does not guarantee admission to the department. The Admissions Committee reviews all applicants based on the following criteria: preparation for a major in psychology as indicated by grades earned in courses required for admission; GPA; personal statement reflecting an interest in and commitment to psychology; and other evidence of a commitment to becoming a psychology major.

The application deadline is the first Friday of autumn, winter, and spring quarters. Applications and additional information are available in 114 Guthrie.

Bachelor of Science

The Bachelor of Science program is intended to prepare students for doctoral programs in psychology, leading to careers in teaching, research, or clinical psychology. It may also provide desirable preparation for some health-related professions. The program emphasizes laboratory/research experience, a strong background in related fields and mathematics, and requires a 3.30 psychology GPA.

Major Requirements: 60 credits in psychology courses—101 or 102; 209; 217 and 218; 231 or 361; one course from 232, 233, 417, 418, or 419; one course from 200, 222, or 333; one course from 205 or 305; one course from 306, 345, or 355; 3 credits minimum of 499; three graded upper-division elective courses (excluding 496 through 499) with at least one course at the 400-level; and additional psychology electives at the 200 level or above to total 60 credits (9 credits maximum for 496 through 499). 30 credits in other disciplines, to include MATH 120 and 124, or 111 and 112; 5 credits of biology, zoology, or genetics; and 15 additional credits selected from computer science, upper-division biology, zoology, genetics, sociology, anthropology, political science, women studies, ethnic studies, speech communications, and adviser-approved departments. 3.00 cumulative GPA in courses completed at the UW and 3.30 GPA in all psychology courses (UW and transfer), with a minimum grade of 2.0 in each course presented for the major. Transfer students must meet all the above requirements and are required to complete at least 15 graded credits in psychology at the 300 and 400 level at the UW.

Bachelor of Science—Speech and Hearing Sciences Concentration

The Bachelor of Science with speech and hearing sciences concentration represents an interdisciplinary introduction to the study of sensory, perceptual, and cognitive sciences. It provides a basic foundation in the scientific study of behavior with an emphasis on human speech, language, and hearing.

Major requirements: 60 credits in psychology and speech and hearing sciences concentration courses—PSYCH 101 or 102; 209; 217 and 218; 200 or 222 or 333; 205 or 305; 306 or 345 or 355; PSYCH 231 or 232 or 233 or 361 or 417 or 418 or 419; SPHSC 310

or 311; PSYCH 496 through 499 or SPHSC 499 (9 credits maximum); 15 graded credits from the following with minimum two courses from SPHSC: PSYCH 347, 416, 447, 457; SPHSC 307, 401, 410, 411, 416, 310 or 311 (depending on laboratory selection). Required related fields: 30 credits in other disciplines, to include MATH 120 and 124, or 111 and 112; 5 credits in biological sciences; and 15 credits from computer science, upper-division biology, zoology, genetics, anthropology, or linguistics. 3.00 cumulative GPA in courses completed at the UW and 3.30 GPA in psychology and speech and hearing sciences courses, excluding courses numbered 496 through 499 (UW and transfer), with a minimum grade of 2.0 in each course presented for the major. Transfer students must meet all the above requirements and are required to complete at least 15 graded credits of psychology and speech and hearing sciences electives at the 300 and 400 level at the UW.

Bachelor of Arts

The Bachelor of Arts program is intended to provide a general background in psychology for students seeking employment at the baccalaureate level, wanting to apply the principles of psychology in other disciplines, or preparing for many master's-level graduate programs.

Major requirements: 50 credits in psychology courses—101 or 102; 209; 213 (or 217 and 218); one lab course from 231, 232, 233, 361, 417, 418, or 419; one course from 200, 222 or 333; one course from 205, 305, 306, 345, or 355; one additional course from 200, 205, 222, 305, 306, 333, 345, or 355; three graded upper-division elective courses (excluding 496 through 499) with at least one course at the 400 level; additional psychology electives at the 200 level or above to total 50 credits (6 credits maximum for 496 through 499); and MATH 111 or 112 or 120 or 124; 2.00 cumulative GPA in all courses completed at the UW; 2.50 cumulative GPA in all psychology courses (UW and transfer), with a minimum grade of 2.0 in each course presented for the major. Transfer students must meet all the above requirements and are required to complete at least 15 graded credits in psychology at the 300 and 400 level at the UW.

A student may earn either a Bachelor of Science or a Bachelor of Arts degree in psychology, but not both.

Graduate Program

Graduate work in psychology is organized primarily as preparation for the Doctor of Philosophy degree. The optional Master of Science degree is taken by some doctoral students in the course of their work toward the doctorate.

For graduate instruction, the department is organized into six major areas of study: animal behavior, adult and child clinical, cognition and perception, developmental, physiological, and social psychology and personality. Specializations also exist in the subareas of community, health, law, sport, and quantitative psychology.

The program in clinical psychology is accredited by the American Psychological Association and provides scientific and professional training.

The Behavioral Neuroscience Interdisciplinary Group of the Graduate School, composed of faculty from the departments of Psychology and of Physiology and Biophysics, offers an interdisciplinary program leading to the Doctor of Philosophy degree in behavioral neuroscience.

Admissions Qualifications

Undergraduate degree in psychology is desirable, but not required. Some preparation in biological, social, or quantitative sciences is strongly advised. Applicants are judged on a number of criteria, including their

academic and research backgrounds, Graduate Record Examination scores, and written evaluations submitted by former professors or supervisors. Students with little training in psychology may be required to complete preliminary work in undergraduate courses. Admission of new students occurs in autumn quarter. The deadline for receipt of admissions material is December 31.

Master of Science (Optional)

A master's degree *only* program is not available. Doctoral students have the option of obtaining a master's degree while working toward the Ph.D.

Graduation Requirements: Completion of first-year graduate program (see Doctor of Philosophy degree requirements below) and an appropriate research program, including a research thesis.

Doctor of Philosophy

Graduation Requirements: Completion of course work in major and minor areas and breadth requirements in two other areas; completion of required course work in statistics and general methodology; independent research; General Examination; dissertation; Final Examination. Minimum 3.00 GPA overall must be maintained; 3.0 grade required for all courses used to satisfy breadth and minor requirements. *First-year requirements:* Demonstrate competence in statistics and experimental design; complete at least 3 credits of independent predoctoral research and report that research at the department's annual Research Festival.

Special Research Facilities

Facilities for research and graduate instruction include: teaching laboratories; machine, electronic, and carpentry shops; microprocessor room; animal vivarium; darkroom; remote-access console to computer center; and approximately 60 small, specialized laboratory research rooms.

Assistantships, Fellowships, or Traineeship Opportunities

Research and teaching assistantships are available to qualified graduate students. Additional traineeships and fellowships are also available.

Faculty

Chair

Michael D. Beecher

Professors

Barash, David P. * 1973; MA, 1968, PhD, 1970, University of Wisconsin; sociobiology, psychological aspects of nuclear war, peace studies, animal behavior and evolution.

Barnard, Kathryn E. * 1972, (Adjunct); MS, 1962, Boston University; PhD, 1972, University of Washington; ecological factors of child development.

Becker, Joseph * 1965, (Emeritus); PhD, 1958, Duke University; clinical personality psychopathology.

Beecher, Michael D. * 1978; MA, 1965, PhD, 1970, Boston University; animal communication, animal behavior, sensory processes.

Bernstein, Ilene L. * 1978; MA, 1967, Columbia University; PhD, 1972, University of California (Los Angeles); behavioral neuroscience, mechanisms affecting appetite and taste preference.

Booth, Cathryn L. * 1980, (Adjunct Research); PhD, 1974, Ohio State University; mother-infant interaction,

- observational methodology, child birth experiences and attachment.
- Butterfield, Earl C. * 1981, (Adjunct); PhD, 1963, George Peabody College; cognitive development, metacognition.
- Carr, John E. * 1963; PhD, 1963, Syracuse University; clinical psychology, cross-cultural psychopathology.
- Cauce, Ana Mari * 1986; PhD, 1984, Yale University; social support and networks, at-risk adolescents, community psychology, minority populations.
- Chapman, C. Richard * 1971, (Adjunct); PhD, 1969, University of Denver; human pain measurement, psychophysiology, sensation and perception, chronic pain.
- Curry, Susan J. * 1985, (Adjunct); MA, 1979, PhD, 1981, University of New Hampshire; health behavior change.
- Dale, Philip S. * 1968; PhD, 1968, University of Michigan; psycholinguistics, language and cognitive development in normal and exceptional children.
- Dawson, Geraldine * 1985; PhD, 1979, University of Washington; developmental disabilities, autism, and neuropsychology.
- Diaz, Jaime * 1978; PhD, 1975, University of California (Los Angeles); brain development, developmental psychopharmacology, neuropsychology.
- Doerr, Hans O. * 1967, (Emeritus); PhD, 1965, Florida State University; psychophysiology of central and autonomic nervous systems, neuropsychology.
- Donovan, Dennis 1981, (Adjunct); MA, 1972, Western Washington University; PhD, 1980, University of Washington; cognitive-behavioral factors in substance abuse and addictive behaviors.
- Fiedler, Fred E. * 1969, (Emeritus); PhD, 1949, University of Chicago; leadership and group effectiveness, social, industrial, and organizational psychology.
- Fields, Paul E. 1953, (Emeritus); MA, 1927, Ohio Wesleyan; PhD, 1930, Ohio State University; teaching of psychology, psychology examinations.
- Fuchs, Albert F. * 1969, (Adjunct); PhD, 1966, Johns Hopkins University; oculomotor physiology.
- Gist, Marilyn Elaine * 1987, (Adjunct); PhD, 1985, University of Maryland; cognitive processes involved in motivation training and work task performance.
- Gottman, John M. * 1986; PhD, 1971, University of Wisconsin; development of children's friendships, marriage and family, observational research techniques.
- Greenberg, Mark T. * 1977; PhD, 1978, University of Virginia; developmental psychopathology, prevention of mental disorders in childhood.
- Greenwald, Anthony G. * 1986; PhD, 1963, Harvard University; social cognition, attitudes, self and self-esteem, methodology, unconscious cognition.
- Guralnick, Michael J. 1986; MS, 1964, PhD, 1967, Lehigh University; developmental disabilities, peer relations, social and language development, evaluation systems.
- Heiman, Julia R. * 1980, (Adjunct); PhD, 1975, State University of New York (Stony Brook); sexuality and sexual relationships, prevention and treatment of family abuse.
- Horst, A. Paul 1947, (Emeritus); PhD, 1931, University of Chicago; prediction of personal adjustment, factor analysis, measurement techniques.
- Hunt, Earl B. * 1966; PhD, 1960, Yale University; individual differences in cognition, cognition in education and the workplace.
- Jacobson, Neil S. * 1979; PhD, 1977, University of North Carolina; behavior marital therapy, depression, family therapy.
- Keating, John P. * 1972, (Affiliate); PhD, 1972, Ohio State University; social psychology, media effect on attitude, psychology and religion, emergency behavior psychology.
- Kiyak, H. Asuman * 1972, (Adjunct); MA, 1974, PhD, 1977, Wayne State University; geriatric dentistry, behavioral aspects of health care.
- Kuhl, Patricia K. * 1976, (Adjunct); MA, 1971, PhD, 1973, University of Minnesota; speech perception.
- Linehan, Marsha M. * 1977; PhD, 1971, Loyola University (Chicago); personality disorders, including borderline; suicidal behaviors, cognitive and behavior therapies.
- Lockard, Joan S. * 1974; PhD, 1963, University of Wisconsin; primate social behavior, animal behavior, sociobiology, human ethology, neurobehavior.
- Loftus, Elizabeth F. * 1973; PhD, 1970, Stanford University; cognition, long-term memory, eye-witness testimony, psychology and law.
- Loftus, Geoffrey R. * 1972; PhD, 1971, Stanford University; perception, cognitive processes and information processing, computer control of experimentation.
- Lunneborg, Clifford E. * 1962, (Emeritus); PhD, 1959, University of Washington; psychometrics, multivariate models, individual differences in cognition.
- Marlatt, G. Alan * 1972; PhD, 1968, Indiana University; health psychology and addictive behaviors (relapse prevention and harm reduction).
- Martin, Joan C. * 1972, (Adjunct); PhD, 1965, Florida State University.
- Meltzoff, Andrew N. * 1984; PhD, 1976, Oxford University (UK); cognitive and social development of human infants.
- Mitchell, Terence R. * 1969; PhD, 1969, University of Illinois; organizational behavior.
- Robinson, Nancy M. * 1969, (Adjunct); PhD, 1958, Stanford University; psychology.
- Rubel, Edwin W. * 1986, (Adjunct); PhD, 1969, Michigan State University; developmental neurobiology, with special emphasis on vertebrate auditory system development.
- Sackett, Gene P. * 1970; PhD, 1963, Claremont Graduate School; primate behavior, early experience and development.
- Sarason, Barbara R. * 1976, (Research); PhD, 1956, Indiana University; social support, stress, anxiety, cognitive coping skills, personality variables.
- Sarason, Irwin G. * 1956; PhD, 1955, Indiana University; personality, social support, stress and anxiety.
- Sax, Gilbert * 1965, (Emeritus); PhD, 1958, University of Southern California; measurement, statistics and research design.
- Simpson, John B. * 1975; MA, 1972, PhD, 1973, Northwestern University; central autonomic regulation, body fluid homeostasis, behavioral endocrinology.
- Smith, Ronald E. * 1969; PhD, 1968, Southern Illinois University; clinical psychology, personality, stress and coping, sport psychology.
- Smoll, Frank L. * 1984; PhD, 1970, University of Wisconsin; sport psychology, leadership behavior in youth sports, psychological correlates of motor development.
- Streissguth, Ann P. 1972, (Adjunct); MA, 1959, University of California (Berkeley); PhD, 1964, University of Washington; psychology.
- Strother, Charles R. 1947, (Emeritus); MA, 1932, University of Washington; PhD, 1935, University of Iowa; mental retardation, psychopathology, speech pathology.
- Teller, Davida Y. * 1965; PhD, 1965, University of California (Berkeley); vision, color vision, development of vision in infants.
- Teri, Linda 1984, (Adjunct); PhD, 1980, University of Vermont; clinical psychology.
- Townes, Brenda D. * 1961, (Adjunct); PhD, 1970, University of Washington; psychology.
- Vitaliano, Peter P. * 1978, (Adjunct); PhD, 1975, Syracuse University.
- Woods, Stephen C. * 1972; PhD, 1970, University of Washington; physiological psychology, regulatory behavior, conditioned drug effects.

Associate Professors

- Armstrong, Hubert E. 1966, (Adjunct); PhD, 1963, Syracuse University; clinical psychology.
- Baer, John S. * 1986, (Research); PhD, 1986, University of Oregon; clinical psychology, addictive behaviors, early intervention.
- Bell, Cecil H. Jr. * 1968, (Adjunct); MA, 1959, PhD, 1970, Boston University; organizational behavior and administrative theory.
- Bowen, Deborah J. * 1986, (Affiliate); PhD, 1986, Uniformed Services University of the Health Sciences; health psychology.
- Brenowitz, Eliot A. * 1987; PhD, 1982, Cornell University; animal behavior, neuroethology, neuroendocrinology, animal communication.
- Broedel, John W. * 1967, (Emeritus); EdD, 1958, University of Illinois; counseling, early adulthood, object relationship theory.
- Brown, Jonathon D. * 1989; PhD, 1986, University of California (Los Angeles); self-concept and social behavior; stress and physical health.
- Buck, Steven L. * 1983; PhD, 1976, University of California (San Diego); human visual psychophysics, perception, human and animal learning.
- Burns, Edward M. * 1984, (Adjunct); PhD, 1977, University of Minnesota; psychoacoustics.
- Clatterbaugh, Kenneth C. * 1966, (Adjunct); PhD, 1966, Indiana University; philosophy of science, modern philosophy, social philosophy.
- Craft, Suzanne 1996 (Adjunct Research); PhD 1985, University of Texas (Austin).
- Culbert, Sidney S. * 1951, (Emeritus); PhD, 1950, University of Washington; perception, psycholinguistics, intercultural communication.
- Douglas, Robert J. * 1968; PhD, 1964, University of Michigan; neuropsychology of learning and memory, aging and inhibition.
- Filts, Douglas A. * 1981, (Research); PhD, 1978, Washington State University; neurobiology, salt/water regulation, thirst.
- George, William H. * 1991; PhD, 1982, University of Washington; alcohol effects on social/sexual behavior, treatment and cultural issues in addiction.
- Gillmore, Gerald M. * 1973, (Affiliate); PhD, 1970, Michigan State University; measurement theory, assessment of student performance, program evaluation.
- Gonzalez, Richard D. * 1990; PhD, 1990, Stanford University; judgement and decision making, measurement, statistics, group dynamics, psychology and law.
- Kenney, Nancy J. * 1976; PhD, 1974, University of Virginia; neural and endocrine controls of food and fluid intake, physiological basis of motivation.
- Kerr, F. Beth * 1974; PhD, 1974, University of Oregon; cognition, human motor control and learning, attention.
- Kivlahan, Daniel R. * 1983, (Adjunct); PhD, 1983, University of Missouri; evaluating assessment, prevention, and treatment approaches for addictive behaviors.
- Kohlenberg, Robert J. * 1968; PhD, 1968, University of California (Los Angeles); clinical behavior modification, learning, clinical psychophysiology, behavioral medicine.

Lee, Thomas W. * 1983, (Adjunct); PhD, 1984, University of Oregon; administrative theory and organizational behavior, human resources management.

McCauley, Elizabeth 1979, (Adjunct); PhD, 1973, State University of New York (Buffalo); clinical and developmental psychology.

Miller, Margaret A. 1981, (Adjunct); PhD, 1984, University of Washington.

Miyamoto, John M. * 1984; PhD, 1985, University of Michigan; mathematical models of mental processes, inductive reasoning and decision making.

Morrison, Diane M. * 1980, (Adjunct Research); PhD, 1982, University of Washington; sexual decision-making, attitudes and behavior, teen pregnancy.

Olavarria, Jaime F. * 1990; MD, 1974, State University of Chile; PhD, 1984, University of California (Berkeley); visual system: anatomy and physiology, comparative and developmental studies.

Ramsay, Douglas S. * 1983, (Adjunct); DMD, 1983, University of Pennsylvania; PhD, 1988, University of Washington; behavioral medicine/dentistry, physiological psychology, orthodontics, pediatric dentistry.

Root, Maria P. P. 1990, (Adjunct); MA, 1979, Claremont Graduate School; PhD, 1983, University of Washington; psychology of Asian Americans/multiracial couples.

Rose, Richard M. * 1966, (Emeritus); PhD, 1964, University of Pennsylvania; stochastic models, psychophysics, sleep.

Shaklee, Harriet * 1985, (Affiliate); PhD, 1976, University of Oregon; causal reasoning, social cognition, children's thinking.

Speltz, Matthew L. 1981, (Adjunct); MA, 1975, Western Washington University; PhD, 1980, University of Missouri; developmental psychotherapy, family therapy, pediatric behavioral medicine.

Spieker, Susan J. * 1983, (Adjunct Research); PhD, 1982, Cornell University; developmental psychology, infant security, mother-infant interaction.

Assistant Professors

Corina, David P. * 1993; PhD, 1991, University of California (San Diego); cognitive neuropsychology, psycholinguistics, computational modeling.

Ginorio, Angela B. * 1981, (Adjunct); PhD, 1979, Fordham University; women and science, violence against women, sexual harassment, racial identity among Latinos.

Jones, Theresa A. 1996; PhD, 1992, University of Texas (Austin); synaptic plasticity and recovery from brain damage.

Osterhout, Lee E. * 1991; PhD, 1990, Tufts University; psycholinguistics, cognitive psychophysiology.

Robinson, Elizabeth A. * 1987, (Affiliate); PhD, 1977, University of South Carolina; child-clinical, personality, family interaction.

Senior Lecturers

Fagan, Corey N. 1989; PhD, 1988, University of Massachusetts; clinical psychology, individual and family therapy for adults and adolescents.

McDermott, Lois J. 1986; PhD, 1979, University of Chicago; human sexuality and reproductive physiology.

Passer, Michael W. * 1990; MA, 1972, PhD, 1977, University of California (Los Angeles); social psychology, organizational psychology, teaching of psychology.

Lecturer

Mangelsdorf, Carolyn 1990; MA, 1984, Wake Forest University; PhD, 1993, University of Minnesota.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

PSYCH 101 Psychology as a Social Science (5) I&S McDermott, Osterhout, Passer Examines behavior from a social science viewpoint. Emphasizes human social behavior and influence, personality, learning, behavior disorders, and treatment. Includes related aspects of cognition, states of consciousness, motivation and emotion, perception, development, biological influences, and research methods. Offered: AWSpS.

PSYCH 102 Psychology as a Natural Science (5) NW Bernstein, Douglas, Sackett Behavior from a biological-science viewpoint. Emphasizes sensation and perception, brain and behavior, evolution, and animal behavior. Includes related aspects of cognition, behavior disorders, states of awareness, motivation and emotion, learning, development, and research methods. Offered: AWSpS.

PSYCH 200 Comparative Animal Behavior (5) NW Barash, Beecher, Brenowitz Research methods and findings of comparative animal behavior and their importance to an understanding of human behavior; rationale for study of behavioral differences and similarities between animal species, behavior viewed as part of the adaptation of each species to its natural habitat. Prerequisite: 102 or BIOL 201. Offered: AWSpS.

PSYCH 201 Human Performance Enhancement (3) I&S Smith, Smoll Applications of psychological theories, research, and intervention strategies to performance enhancement in variety of life settings. Self-regulation models and techniques; stress and emotional control; attention control and concentration; mental rehearsal; time management; goal-setting; memory enhancement; communication and interpersonal conflict resolution. Participation in various psychological training procedures. Prerequisite: 101 or 102. Offered: WS.

PSYCH 205 Introduction to Personality and Individual Differences (4) I&S Cauce, Linehan, Marlatt, B. Sarason, Smith Overview of the major theories, research findings, and applications in the scientific study of personality. Research methods and approaches to measuring personality variables also covered. Prerequisite: 101 or 102 or equivalent. Offered: AWSpS.

PSYCH 206 Psychosocial Aspects of Nuclear War (3) I&S Barash Introduction to basic issues of nuclear war, including its effects, weaponry, and history of the arms race. Primary focus on the psychological underpinnings of deterrence, relations between nations, and the personal and social forces operative in the arms race and peace movements.

PSYCH 207 Psychology of Peace (5) I&S Barash Examination of the psychological aspects of peace in the modern world. Topics include theories of individual aggressiveness and violence, leadership personalities, crisis decision making, nuclear psychology, images of the enemy, and psychological opportunities and obstacles to the establishment of a peaceful society. Offered: A.

PSYCH 209 Fundamentals of Psychological Research (4) Buck, Kerr, Passer, Smoll Psychological research methodology and techniques. Topics include the logic of hypothesis testing, experimental design, research strategies and techniques, fundamentals of scientific writing, search and evaluation of research literature in psychology, and ethical issues in psychological research. Required for all psychology majors. Prerequisite: 101 or 102 or equivalent. Offered: AWSpS.

PSYCH 210 Human Sexuality (5) I&S McDermott Broad survey of biological, psychological, and social determinants of human sexuality and sexual behavior. Topics include cultural diversity, sexual development (physical and psychological), sexual health, reproduction (pregnancy, contraception, abortion), development of sex, gender and orientation, adult sexual bonding, sexual abuse and assault.

PSYCH 213 Elementary Psychological Statistics (6) QSR Miyamoto Statistics for psychological research. Elementary probability theory, hypothesis testing, and estimation. Satisfies the statistics requirement for majors registered in the Psychology Bachelor of Arts degree program. Prerequisites: MATH 111 or 120 Offered: AWSpS.

PSYCH 217 Introduction to Probability and Statistics for Psychology (4) QSR Flitts, Ha, G. Loftus Probability theory as a model for scientific inference. Probabilistic variables and experimental outcomes, conditional probability, binomial and related distributions, experiments as samples, statistics and sampling distributions, the normal distribution, problems of estimation from experiments. Prerequisites: 209 and MATH 112 or 124, or permission of instructor. Offered: AWSpS.

PSYCH 218 Statistical Inference in Psychological Research (4) QSR Flitts, Ha, G. Loftus Hypothesis testing and its probabilistic and statistical basis. Development and application of statistical inference techniques employed in psychological research: t-test, analysis of variance, correlation and regression, and nonparametric statistics. Nature and control of experimental and inferential error in research. Required for majors in the psychology Bachelor of Science degree program or in the psychology honors or distinction programs. Prerequisite: 217. Offered: AWSpS.

PSYCH 222 Survey of Physiological Psychology (3) NW Douglas, Olavarria, Woods The nervous system and how it works. Learning, memory, sleep, the senses, and the emotions. For students who do not intend to specialize in physiological psychology. Prerequisite: major standing in a biological science or either 101 or 102. Offered: AWSpS.

PSYCH 231 Laboratory in Human Performance (3) I&S Selected aspects of human cognition, perception, and performance. Prerequisites: 209 and 213 or 217. Offered: AWSpS.

PSYCH 232 Laboratory in Animal Learning (3) NW Buck Selected aspects of animal learning emphasizing operant techniques with the rat. Prerequisite: 209. Offered: AWSpS.

PSYCH 233 Laboratory in Animal Behavior (5) NW Brenowitz Experience with a variety of animal species and experimental procedures and instrumentation. Prerequisites: 101 or 102, 209, 213 or 217, and 200 or BIOL 202, or equivalents. Offered: AWSpS.

PSYCH 240 Behavior Modification (4) I&S Jacobson, Kohlenberg, Linehan, Marlatt, R. Smith Survey of behavior modification application for students who plan careers in human services. Behavioral approach and associated research on such topics as sexual dysfunction, stress, athletic performance, phobias and anxieties, depression, marital discord, weight control, energy conservation, pollution, health, addictions, interpersonal relationships, creativity, industrial safety. Prerequisite: introductory psychology. Offered: S.

PSYCH 250 Racism and Minority Groups (4) I&S Barrett Overview of the causes, contexts, and consequences of racism and its effects upon minority groups and society. Emphasis on cultural history, cultural politics, and current issues facing African American, Native American, Hispanic American, and Asian-Pacific Islander American groups. Offered: odd years; Sp.

PSYCH 257 Psychology of Gender (5) I&S Kenney Major psychological theories of sex-role de-

velopment; biological and environmental influences that determine and maintain sex differences in behavior; roles in children, sex differences in aggression, cognitive abilities, achievement motivation, affiliation, and sexuality. Recommended: 101 or 102. Offered: jointly with WOMEN 257; AS.

PSYCH 304 Issues and Concepts in Community Psychology (4) I&S Community mental health, epidemiology, program evaluation, and social ecology; research, theory, and practice in community settings; the influence of community-environmental factors in individual functioning and their utilization to promote mental health. Prerequisite: 10 credits in psychology.

PSYCH 305 Abnormal Psychology (5) I&S Duncan, George, Kohlenberg, Linehan, McMahon, I. Sarason, Smith An overview of major categories of psychopathology, including description and classification, theoretical models, and recent research on etiology and treatment. Prerequisites: 10 credits in psychology, to include 101 or 102 or equivalent. Offered: AWSpS.

PSYCH 306 Developmental Psychology (5) I&S Barrett, Dale, Greenberg, Gunderson, Meltzoff Analysis of child development in relation to biological, physical, and social interactions from infancy to adolescence. Prerequisite: 101 or 102, or equivalent. Offered: AWSpS.

PSYCH 310 Motor Development (4) NW Small Analysis of motor development from prenatal origins through adolescence with emphasis on relations between biophysical and psychosocial development of children and youth. Prerequisite: 101 or 102 or equivalent. Offered: WSp.

PSYCH 322 Introduction to Drugs and Behavior (3) NW Diaz Basic concepts of drug action emphasizing the behavioral consequences of the intake of a variety of drugs. Prerequisite: 222. Offered: SpS.

PSYCH 333 Sensory and Perceptual Processes (4) NW Beecher, Buck, Olavarria Perception and processing by each of the senses with emphasis on behavioral studies and their relationship to underlying structure. Prerequisite: 101 or 102 or equivalent, or permission of instructor. Offered: SpS.

PSYCH 335 Human Factors Psychology (4) I&S Kerr Consideration of human performance factors in the design of tools/equipment, tasks/jobs, and work and living environments. Emphasis on the importance of human perception, memory, attention, and motor control for understanding ways to optimize the relationship between people and technology. Prerequisite: 101 or 102 and 209 or equivalent. Offered: SpS.

PSYCH 345 Social Psychology (5) I&S Brown, Greenwald Effects of the social environment upon the formation of individual attitudes, values, and beliefs, and upon individual and group behavior; major theoretical approaches; field and experimental research findings. Prerequisite: 101 or 102, or equivalent. Offered: AWSpS.

PSYCH 347 Psychology of Language I (5) VLPA/ I&S Dale, Corina, Osterhout Introduction to the study of language, including language structure, speech perception, language acquisition, psychological processes underlying comprehension and production of language, the relation between brain and language, and the question of the species-specificity of human language. Prerequisites 101 or 102 or LING 200 or 201. Offered: jointly with LING 347 A.

PSYCH 350- Honors Research Seminar in Psychology (2-, max. 6) Teller Presentations by professors and advanced honors or distinction students concerning the rationale, methodology, and progress of their research project. Four credits required for all junior honors and distinction candidates in conjunction with 498 and 499. Prerequisite: permission of departmental honors adviser. Offered: AWSp.

PSYCH 355 Survey of Cognitive Psychology (5) I&S Hunt, E. Loftus Current theory and research in perception, attention, memory and learning, attitudes, thinking and decision making, and language. For the student who wishes a survey or who intends additional work in any of the above content areas. Prerequisite: 101 or 102. Offered: AWSp.

PSYCH 357 Psychobiology of Women (5) NW Kenney Physiological and psychological aspects of women's lives; determinants of biological sex; physiological and psychological events of puberty, menopause; sexuality; contraception, pregnancy, childbirth, and lactation; role of culture in determining psychological response to physiological events. Prerequisite: 101 or 102 or 257 or WOMEN 257 or WOMEN 200. Offered: jointly with WOMEN 357; WS.

PSYCH 381 Laboratory in Social Psychology (6) I&S Greenwald Methods of systematic observation, content analysis, laboratory and field research on social behavior; individual research projects. Prerequisites: 345 and either 213 or 217, any of which may be taken concurrently. Offered: AWSp.

PSYCH 400 Learning (5) I&S/NW Experimental research and basic theories primarily in animal learning. Prerequisite: 101 or 102.

PSYCH 402 Infant Behavior and Development (3/ 5) I&S Meltzoff Psychological development in the first two years of life. Basic and advanced techniques for assessing psychological development in infancy. Classic theories of human infancy and examination of a wide range of new experiments about infant behavior and development. Prerequisite: 306 or 414 and junior or senior standing. Offered: A.

PSYCH 403 Motivation (5) I&S/NW Theory and research on reinforcement, punishment, frustration, preference, instinctual mechanisms, and other factors controlling animal behavior. Prerequisite: 101 or 102. Offered: S.

PSYCH 405 Advanced Personality: Theory and Research (5) I&S B. Sarason, I. Sarason Intensive survey of theoretical concepts and detailed review of experimental methods and experiments in the field of personality. Prerequisite: 205 or equivalent. Offered: W.

PSYCH 407 History of Psychology (5) I&S Historical and theoretical background of the basic assumptions of modern psychology, including such doctrines as behaviorism, determinism, and associationism and the scientists who developed them. Prerequisite: 400 or equivalent.

PSYCH 408 Mechanisms of Animal Behavior (4) NW Beecher, Brenowitz Comparative exploration of physiological and perceptual mechanisms that control behaviors necessary for survival and reproduction in animals. Model systems discussed include animal communication, mate choice, escape behavior, learning and memory, orientation, biological rhythms, foraging behavior. Prerequisites: 200 or BIOL 101 and 102 or permission of instructor. Offered: jointly with ZOOL 408; W.

PSYCH 409 Sociobiology (5) NW Beecher, Rohwer Biological bases of social behavior, emphasizing evolution as a paradigm. Topics are: individual versus group selection, kin selection, altruism, group versus individual living, mating systems, parental care of offspring, and competitive strategies. Prerequisites: 200 or BIOL 202 and 203 or equivalent. Offered: jointly with ZOOL 409.

PSYCH 410 Child and Adolescent Behavior Disorders (5) I&S McMahon Introduction to psychopathology in children and adolescents, and an overview of principal modes of intervention. Particularly for students interested in advanced work in clinical psychology, social work, or special education. Prerequisites: 305, 306, or equivalents. Offered: WS.

PSYCH 414 Cognitive Development (5) I&S Dale, Gunderson Key theoretical approaches to cognitive development from infancy through adolescence. Sensorimotor development, language development, imitation, number concepts, logical reasoning, memory, cognition in adolescents, intelligence, and the role of biology, environment, and experience. Prerequisite: 209 and 306 and junior or senior standing. Offered: A.

PSYCH 415 Personality Development of the Child (5) I&S Greenberg Socialization theory and research, infant attachment and social relationships, development of aggressive and altruistic behaviors, sex-role development, moral development, parent and adult influences. Applied issues in social development and policy. Prerequisite: 306. Offered: WS.

PSYCH 416 Animal Communication (5) NW Beecher, Brenowitz Evolution and mechanisms of animal communication and related processes of perception, thinking, and social behavior. Prerequisite: 200 or 233 or 10 credits in biology or zoology.

PSYCH 417 Human Behavior as a Natural Science (5) I&S/NW Lockard Evolution of human social behavior and the adaptive significance of communication systems from a sociobiological and anthropological perspective. Prerequisite: 102 or an introductory zoology or anthropology course. Offered: WS.

PSYCH 418 Primate Social Behavior (5) NW Lockard Social behavior, ecology, and group structure of monkeys and apes from an evolutionary, sociobiological, and anthropological perspective. Prerequisite: 102 or an introductory zoology or anthropology course. Offered: Sp.

PSYCH 419 Behavioral Studies of Zoo Animals (5, max. 10) NW Lockard Observational studies of behavior of zoo animals to expand basic knowledge of animal behavior, conservation of endangered species, and research methodology with discussions and tours focusing on zoo philosophy and operations. Offered in cooperation with Woodland Park Zoo. Recommended: 200; or 231, 232, 233; or 361; or equivalent. Offered: AS.

PSYCH 420 Drugs and Behavior (3) NW Diaz Animal and clinical research on the behavioral consequences of drug intake. Prerequisite: 322 or permission of instructor.

PSYCH 421 Neural Basis of Behavior (5) NW Diaz Anatomical and physiological principles and resultant behavior involved in the integrative action of the nervous system. 431 recommended but not required to follow 421. Prerequisites: 101 or 102, and 10 credits in biology or zoology. Offered: AS.

PSYCH 422 Physiological Psychology (5) NW Douglas Physiological mechanisms in behavior, including those basic to emotion, fatigue and sleep, learning, and memory. Prerequisite: 101 or 102, or equivalent. Offered: Sp.

PSYCH 423 Sensory Basis of Behavior (5) NW Olavarria Study of sensory mechanisms as a way to understand behavior. Basic properties of neurons, anatomy, and physiology of sensory systems, with some emphasis on the visual system. Prerequisite: 222 or 333 or permission of instructor. Offered: Sp.

PSYCH 424 Vision and Its Physiological Basis (5) NW Teller Behavioral neurobiology of human vision: color vision, acuity and spatial vision, light and dark adaptation, visual development. Correlation of visual functioning with known optical, biochemical, physiological, and anatomical substrates. Recommended: some background in physical or biological science or engineering. Offered: jointly with P BIO 424; W.

PSYCH 425 Surgical and Histological Techniques (5) NW Woods Practicum in basic and advanced surgical and histological techniques used in psychophysiological experimentation. Prerequisites: 421 and permission of instructor. Offered: A.

PSYCH 427 Behavioral Endocrinology (5) NW Woods The endocrine system and how its secretions influence and are influenced by behavior; relationships between the nervous and endocrine systems. Prerequisites: 421 and two quarters of zoology, or permission of instructor. Offered: Sp.

PSYCH 428 Human Motor Control and Learning (5) I&S/NW Kerr Current theory and research in human motor performance and skill acquisition. Prerequisite: 101 or 102 and 209 or equivalent. Offered: W.

PSYCH 429 Brain Anatomy for the Behavioral Scientist (1) NW Diaz Detailed review of the neuroanatomical features of the sheep brain with laboratory demonstrations. Prerequisites: 421 or equivalent, or concurrent registration in 421, and permission of instructor. Offered: A.

PSYCH 431 Neural Basis of Behavior (5) NW Diaz Anatomical and physiological mechanisms in behavior, including those basic to emotion, fatigue and sleep, learning, and memory. Prerequisite: 421. Offered: W.

PSYCH 433 Regulatory Behavior (4) NW Neural and endocrine mechanisms in the control of food and water intake and the regulation of body weight and fluid balance. Prerequisite: 421 or 427 or permission of instructor.

PSYCH 434, 435 Laboratory in Vision (2, 3) NW Buck Techniques of research in visual psychophysics: alignment and calibration of basic optical systems; replication of some classical vision experiments and/or design and completion of original vision experiments. Prerequisites: 424 and permission of instructor for 434; 434 and permission of instructor for 435.

PSYCH 436 Developmental Aspects of Sport Competition (4) I&S Small Biophysical and psychosocial influences of sport participation on growth and development of children and youth. Competition readiness, injuries, stress, aggression, roles and responsibilities of parents and coaches. Prerequisite: 101 or 102 or equivalent and 15 additional credits in psychology. Offered: AS.

PSYCH 438 Social Psychology of Sport I (4) I&S Smith, Small Reciprocal effects of interpersonal and group influence processes, e.g., social facilitation, behavior modification, observational learning, individual versus group performance, group cohesion, leadership, aggression. Prerequisite: 101.

PSYCH 439 Social Psychology of Sport II (4) I&S Smith, Small Current issues and research, e.g., anxiety and arousal, competition, motivation, personality, attitudes, individual differences in motor performance. Prerequisite: 438 or permission of instructor. Offered: Sp.

PSYCH 441 Perceptual Processes (5) I&S/NW Theory and findings in perception with a focus on visual perception in humans. Discrimination and constancy for simple judgments, segregation and identification of visual objects, and specific areas of investigation such as reading and computer vision. Prerequisite: 333 or equivalent.

PSYCH 445 Theories of Social Psychology (5) I&S Brown, Gonzalez Evaluation of the major theories of human social behavior supported by the empirical literature; theories of social cognition and thought; major theories of social interaction, group processes, and social learning. Prerequisites: 345 or equivalent.

PSYCH 446 Objective Assessment of Personality (3) I&S R. Smith Measurement of personality variables in personality research, social psychology, and clinical psychology. Theoretical conceptions underlying various clinical and experimental scales and an assessment of their construct validity and behavioral correlates. Planning of research involving the use of objective measures of personality.

PSYCH 447 Psychology of Language II (4) VLPA/I&S Osterhout Psychological principles applied to linguistic development and organization; language in both its stimulus and response aspects. Prerequisite: 101 or 102 or equivalent. Offered: jointly with LING 447; W.

PSYCH 448 Seminar in Psychology (1-15) Selected research topics of contemporary interest. Quarterly listings of specific offerings are available at departmental advisory office. Prerequisites: some sections require major standing or permission of instructor. Offered: AWSpS.

PSYCH 449 Organizational and Industrial Psychology (3) I&S Passer Examines research on human behavior in industrial and organizational environments. Topics include research methods, job analysis, the prediction of workplace performance, personnel selection and training, performance appraisal, group influences, job satisfaction, job motivation, leadership, and human factors. Prerequisite: one course in elementary statistics or equivalent. Offered: S.

PSYCH 450- Honors Research Seminar in Psychology (2-, max. 8) Teller Design, execution, and writing of honors thesis, supervised by faculty sponsor and departmental honors adviser. Four credits required for all senior honors and distinction candidates in conjunction with 498 and 499. Prerequisite: permission of departmental honors adviser. Offered: AWSp.

PSYCH 451 Health Psychology (5) I&S/NW Bowen Overview of the psychological and behavioral factors in health and disease. Includes research on both psychological causes and treatments. Topics include stress, risky behaviors, patient-provider interactions, pain, behavioral/medical treatments, and lifestyle interventions. Prerequisites: 101 or 102 or equivalent; 209 or equivalent; one from 205, 222, 305, or 345. Offered: S.

PSYCH 452 Psychology of the Self-Concept (4) I&S Brown Examines psychological theory and research on the role of the self-concept in regulating behavior. Topics include the development of the self-concept; self-awareness; and self-esteem maintenance. Prerequisites: 345; upper division or graduate standing.

PSYCH 455 Developmental Social Psychophysiology (2-5) I&S/NW Gottman Fundamentals of psychophysiology, emotion, and social interaction in developmental research. Laboratory and lectures emphasize skills in the study of basic biological process in the social context of the developing person. Prerequisites: 101 or 102, 213, 306, 422, upper-division standing, or permission of instructor.

PSYCH 457 Language Development (5) VLPA/I&S Dale First-language acquisition and use by children. Emphasis on theoretical issues and research techniques. Prerequisite: 306 or LING 400 and junior or senior standing. Offered: jointly with LING 457; Sp.

PSYCH 461 Cognitive Neuropsychology (4) NW Corina, Osterhout Discussion of neural systems underlying cognitive behavior with particular focus on breakdown of cognition following brain damage. Topics include object and space perception, language, voluntary movement, attention, and memory. Examination of contributions from related areas of neuroimaging, visual perception, linguistics, physiology, and neuroscience. Prerequisite: 222, 333, or 355. Offered: A.

PSYCH 462 Human Memory (5) I&S Joslyn Current theoretical and experimental literature. Prerequisite: 209.

PSYCH 463 The Pathology of Human Memory (5) NW Effects of brain damage on human memory; comparison of observed kinds of losses with current theories of memory: amnesia and other impairment of intellectual functions (aphasia, agnosia, apraxia) as

they relate to memory. Prerequisite: 421. Recommended: 461 or 462.

PSYCH 464 Metacognition (5) I&S Self-monitoring and self-control of an individual's own cognitive processes. Metacognitive aspects of memory and judgment under uncertainty. Methodology and findings of empirical research on metacognition. Prerequisite: 462 or PHIL 460. Recommended: 462.

PSYCH 465 Intelligence in Psychology (3) I&S Hunt Historical and contemporary treatments of the concept of intelligence by psychology, evolution and validity of techniques for assessment, biological and environmental issues in assessment, intelligence and personality, experimental and psychometric indicators of the future role of intelligence in psychology. Prerequisite: 15 credits in psychology, including one statistics course. Offered: A.

PSYCH 466 Psychology of Judgment and Decision Making (5) I&S Gonzalez, Miyamoto Human information processing in judgment and decision making, especially the interface between cognitive theories and normative and prescriptive theories of decision making. Prerequisites: introductory statistics and either 209, 231, 355, or 361 or permission of instructor. Offered: S.

PSYCH 467 Eyewitness Testimony (3) I&S E. Loftus Perception, memory, and retrieval of real world events. The eyewitness in the legal system. Psychologists as expert witnesses regarding eyewitness accounts. Prerequisites: introductory psychology plus eight additional credits in psychology. Offered: W.

PSYCH 468 Information Processing (4) I&S Hunt Human thought as a phenomenon to be described by formal models. Current theories and experimental studies of rational information processing; emphasis on how man notices, recognizes, remembers, and recalls information used in rational problem solving; theoretical models of attention, memory, and recall; cognitive models of rational problem solving. Prerequisite: 231 or 355, or equivalent.

PSYCH 469 Psychology of Reasoning (4) I&S Miyamoto Cognitive processes in deductive and inductive reasoning and in problem solving. Relations between descriptive and normative theories of inference. Prerequisites: introductory statistics and either 231, 354, or 355 or graduate standing. Offered: Sp.

PSYCH 470 Psychology and Music (5) VLPA/I&S Introduction to the scientific study of musical behavior. An overview of current topics in the psychology of music from the areas of musical perception and cognition, musical development, music therapy, musical performance, and composition. Includes psychoacoustical and neuropsychological foundations, research methods, and some basic material in music theory. Prerequisite: 101 or 102.

PSYCH 489 Clinical Psychology (3) I&S Basic issues, methods, and research: professional issues, psychological assessment, and approaches to psychotherapy and behavioral change. Prerequisites: 205 and 305, and upper-division major standing.

PSYCH 480 Stress Management (3) I&S/NW Nature of stress. Physiological responses to stress and relaxation. Techniques of stress management with training in relaxation, biofeedback, meditation, cognitive restructuring, exercise, nutrition, interpersonal communication skills, and time management. Credit/no credit only. Prerequisite: 101 or 102 or equivalent. Offered: S.

PSYCH 485 Introduction to Law: A Social Science Perspective (4) I&S Loh Uses and limits of social science in the law-making process on appeal and the fact-finding process at trial. Critical perspectives on the role of social science, especially social psychology, in adjudication. Instruction by use of case method, Socratic questioning, and discussion. Readings in judicial opinions, jurisprudential essays, and

empirical research reports. Prerequisite: upper-division or graduate standing. Offered: jointly with LAW 495.

PSYCH 496 Undergraduate Teaching Experience in Psychology (2-3, max. 6) Students are trained as assistants in quiz sections or as supplemental tutors for undergraduate psychology courses. Designed especially for those students planning graduate work or education certification. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree. Prerequisites: upper division major standing and permission of instructor. Offered: AWSpS.

PSYCH 497 Undergraduate Fieldwork (1-3, max. 18) Individual consultation with faculty member and supervised practicum experience in a broad range of community settings and agencies dealing with psychological problems. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree. Prerequisites: junior or senior major standing and permission of instructor.

PSYCH 498 Directed Reading in Psychology (1-3, max. 18) Readings in special interest areas under supervision of departmental faculty. Discussion of reading in conference with the instructor. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree. Prerequisite: permission of a supervising psychology faculty member. Offered: AWSpS.

PSYCH 499 Undergraduate Research (1-3, max. 18) Design and completion of individual research projects. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree. Prerequisites: 213 or 217, and permission of a supervising psychology faculty member. Offered: AWSpS.

Courses for Graduates Only

PSYCH 500 Laboratory in Statistical Computation I (2) *Miyamoto* Techniques of computation using statistical software on personal computers. Organization of data files, transformations of variables, graphical representations of data, descriptive statistics, elementary inferential statistical analyses. Prerequisite: concurrent enrollment in 513 or permission of instructor. Offered: A.

PSYCH 501 Laboratory in Statistical Computation II (2) *Gonzalez* Techniques of statistical computation using statistical software on personal computers and mainframe computers. Multiple regression, analysis of variance and covariance. Planned and post hoc comparisons and confidence intervals. Data analytic diagnostics for violations of regression assumptions. Prerequisites: 500 and 513, concurrent enrollment in 514, or permission of instructor. Offered: W.

PSYCH 503 Advanced Social Psychology (4) *Brown* Historical overview of the fundamental principles underlying social psychological research on attitudes, interpersonal perception, and social relations; small-group and leadership processes; attribution theory. Open to advanced undergraduates with permission of instructor. Prerequisites: 213 and 345 or equivalent and some background in social science. Offered: A.

PSYCH 504 Biological Basis of Development (4) *Bernstein* Embryological, genetic, physiological, and evolutionary perspectives of human development; biological development in infancy; sensory development and its influence on the development of perception; primate models for human development. First quarter of a three-quarter proseminar required for graduate majors in developmental psychology. Prerequisite: graduate standing or permission of instructor. Offered: A.

PSYCH 505 Early Cognitive and Linguistic Development (4) *Meltzoff* Focus on the origins and early development of thought and language. Piagetian

theory and modern-day revisions of it emphasized. In depth examination of historical and philosophical bases for current empirical research. Second quarter of a three-quarter proseminar, required for graduate majors in developmental psychology. Prerequisite: graduate standing or permission of instructor. Offered: W.

PSYCH 506 Personality and Social Development (4) *Greenberg* Theories and empirical literature in personality and social development throughout infancy, childhood, and adulthood. Third quarter of a three-quarter proseminar required for graduate majors in developmental psychology. Prerequisite: graduate standing or permission of instructor. Offered: Sp.

PSYCH 508 Research Methods in Social Psychology (4, max. 8) *Greenwald* Examination of methodological, practical, and communication problems associated with research on human behavior. Topics include: selecting research problems, use of theory, types of validity, common sense about statistics, when to replicate, dealing with unpredicted results, strategies for presentation and publication. Prerequisite: graduate standing or permission of instructor.

PSYCH 509 Leadership and Organizational Effectiveness (3) A critical evaluation of current theories of leadership and management, and their implications for selection, assessment, performance, evaluation, training, task design, and the management of groups and organizations. Prerequisite: 213 or equivalent course in statistics; advanced undergraduates by permission of instructor.

PSYCH 510 Advanced Attitude Theory (5) *Greenwald* Theoretical, methodological, and empirical work on the concept of attitude and its practical applications. Topics include: definition of attitude, measurement of attitudes, information processing theories, functional theories, cognitive structure theories, the self as attitude object, unconscious attitudinal processes. Prerequisites: 444, 445, 503, and 514 or equivalent; or permission of instructor. Offered: A.

PSYCH 511 Personality: Motivation and Psychodynamics (3) *Sarason* Review of personality research. Roles of cognitive, motivational, and psychodynamic processes. Critical evaluation of current personality research as it relates to concepts of personality, its antecedents, and influences over behavior. Attention to role of personality variables in social relationships. Prerequisite: graduate or professional standing or permission of instructor.

PSYCH 512 Personality Disorders (4) Examines theoretical, research, and clinical literature on personality disorders. Critical review of current diagnostic criteria, assessment instruments, validation strategies, biological and psychological research relevant to epidemiology, longitudinal course, family genetics, developmental antecedents, correlates, personality disorder treatment. Prerequisite: graduate or professional standing or permission of instructor.

PSYCH 513 Introduction to Statistics and Data Analysis (4) *Miyamoto* Basic concepts of statistical theory and methods of data analysis. Emphasis on the integration of statistical theory, statistical computation, and psychological research methods. Required of all first-year graduate students in psychology. Prerequisite: concurrent enrollment in 500 and graduate standing or permission of instructor. Offered: A.

PSYCH 514 Linear Models and Data Analysis (4) *Gonzalez* Analysis of data in the behavioral sciences. Required of all first-year graduate majors. Prerequisites: 500, 513; concurrent registration in 501, or permission of instructor. Offered: W.

PSYCH 515 Modeling Experimental and Observational Data (4) *Gonzalez, Lunneborg* An introduction to statistical modeling; interactive data analyses; use of regression, ANOVA, logistic regression, and log-linear models in explanatory studies. Prerequisite: 514. Offered: SpS.

PSYCH 516 Latent Variables and Measurement Error (4) *Gonzalez, Greenwald* Analyses techniques to assess effects of latent variables in presence of error in observed data. Provides experience with statistical tools for confirmatory structural equation modeling and testing of hypotheses concerning causal and other relations among latent variable. Prerequisite: 515 or permission of instructor.

PSYCH 517 Psychophysics and Fundamental Measurement (3) Application of mathematics (drawn from set theory, finite mathematics, and probability theory) in the areas of measurement and psychophysics. Open to undergraduates with permission of instructor. Prerequisite: 514 or equivalent.

PSYCH 518 Single Subject Design and Research (3) *Kohlenberg* Single subject designs (reversal, multiple baseline, changing criterion) and their application to clinical cases. Prerequisite: graduate major standing in clinical psychology or permission of instructor. Offered: W.

PSYCH 519 Statistical Methods in Longitudinal Research (3) *Sackett* Those aspects of statistics and experimental design unique to, or heavily used in, developmental research; behavioral observation methods, analysis of variance and nonparametric techniques, time series and survival, analysis and repeated measure techniques for studying change over time. Prerequisites: 514 or equivalent, and graduate standing.

PSYCH 520 Theory of Educational and Psychological Measurement (3) *Sax* Theory of measurement; examination of assumptions involved in test theory; errors of measurement, factors affecting reliability and validity, and norms and their use and development. Prerequisites: 213 or 217, and permission of instructor.

PSYCH 522 Cognitive Perception (3) *G. Loftus* Current topics in perception; psychophysics, sensory memory, pattern recognition, letter and word perception, and visual masking. Prerequisites: 441 and 517, or permission of instructor. Offered: Sp.

PSYCH 523 Cognition (5) *Hunt* Problem solving, concept learning, individual differences in cognition, attention, and pattern recognition; computer simulation and mathematical models of cognitive phenomena. Prerequisites: graduate standing and completion of departmental mathematical and statistical requirement through 514.

PSYCH 524 Cognitive Approaches to Human Memory (3) *Loftus* Examination of current topics in human memory from the perspective of cognitive psychology. Prerequisites: 355 and graduate standing or permission of instructor. Offered: Sp.

PSYCH 525 Assessment of Intelligence (5) Current theory and research on intelligence and intelligence testing; training in administration, scoring, and interpretation of major intelligence tests; ethical issues in assessment. Prerequisite: graduate major standing in child clinical or clinical psychology, or graduate minor standing in child clinical psychology. Offered: Sp.

PSYCH 526 Psychological Assessment of Children (5) *Dawson* Assessment techniques appropriate to children, including those for infants, special problems of preschool and school-age children; projective tests, family interviews, and target observational assessment; training in administration of selected techniques. Prerequisites: 525 and permission of instructor.

PSYCH 527 Psychological Assessment of Adults (3) *Broedel* Training in adult assessment and development of skills in administration, scoring, and interpretation of the Rorschach with some attention to other projective techniques. Prerequisites: 525 and permission of instructor. Offered: W.

PSYCH 528 Emotional Development (4) Current theory and research on emotional development in in-

fants, children and adolescents. Reviews work on emotional recognition, expression, and understanding. Special emphasis on family and social influences on emotional development, as well as links to psychopathology. Prerequisite: graduate standing or permission of instructor.

PSYCH 533 Teaching of Psychology (3) *Passer* Examines issues concerning the teaching of psychology, including goals of education, course development, instructional methods, T.A.-student and T.A.-faculty relations, grading, student diversity, and ethics. Readings and assignments are designed to enhance students' organizational, presentational, and problem-solving skills. Credit/no credit only. Prerequisite: graduate standing in the Department of Psychology.

PSYCH 534 Foundations of Psychological Research (3) Interpretation of psychological research results, related issues from the philosophy of science, and nonstatistical pitfalls in psychological research. Prerequisite: 513, which may be taken concurrently.

PSYCH 535 Approaches to Psychological Assessment (4) Problem-solving approach to psychological assessment; review of psychological tests and procedures and presentation of approaches to their clinical interpretation and use. Required for all graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical psychology. Offered: Sp.

PSYCH 536 Behavioral Assessment (4) *Linehan* Research, theory, and technique in behavioral assessment. Emphasis on assessing for change and relationship between assessment and therapy. Interviewing, observational techniques, self-monitoring, simulated environments, and physiological, self-report, and imaginal procedures. Prerequisites: clinical psychology graduate standing and permission of instructor.

PSYCH 538 Systems of Psychotherapy (3) *George, Marlatt* Theory and research of major systems of psychotherapy, including the psychodynamic, behavioral, cognitive, and family systems approaches as an introduction to subsequent practice in clinical psychology. Required for all graduate students majoring in clinical psychology. Prerequisites: graduate major standing in clinical psychology and permission of instructor. Offered: A.

The content of each graduate seminar (numbered 540 through 560) offered by the department changes from quarter to quarter. A list of offerings is published each quarter and can be obtained from the Department of Psychology.

PSYCH 540 Seminar in Clinical Psychology (2) *Baer, Broedel, Cauce, Dawson, George, Jacobson, Kohlenberg, Linehan, Marlatt, McMahon, Sarason, Smith* Prerequisite: permission of instructor.

PSYCH 541 Seminar in Cognitive Processes (2) *Hunt, E. Loftus, G. Loftus* Prerequisite: permission of instructor.

PSYCH 542 Seminar in Animal Behavior (2) *Barash, Beecher, Brenowitz, Lockard* Prerequisite: permission of instructor.

PSYCH 543 Seminar in Developmental Psychology (2) *Dale, Greenberg, Meltzoff, Sackett* Prerequisite: permission of instructor.

PSYCH 546 Seminar in Learning (2) Prerequisite: permission of instructor.

PSYCH 547 Seminar in Motivation (2) Prerequisite: permission of instructor.

PSYCH 548 Seminar in Perceptual Processes (2) Prerequisites: 441 and permission of instructor.

PSYCH 549 Seminar in Physiological Psychology (2) *Bernstein, Diaz, Douglas, Kenney, Simpson, Teller, Woods* Prerequisite: permission of instructor.

PSYCH 550 Seminar in Psycholinguistics (2) *Dale, Osterhout* Prerequisites: 447 and permission of instructor.

PSYCH 551 Seminar in Psychophysics (2) *Buck, Teller* Prerequisite: permission of instructor.

PSYCH 552 Seminar in Quantitative Techniques (2) *Hunt, Lunneborg, Nelson, Rose* Prerequisite: permission of instructor.

PSYCH 553 Seminar in Social Psychology (2) *Brown, Gonzalez, Greenwald* Prerequisite: permission of instructor.

PSYCH 554 Seminar in Decision Processes (2) *Gonzalez, Miyamoto* Prerequisite: permission of instructor.

PSYCH 555 Seminar in Metacognition (2) Prerequisite: permission of instructor.

PSYCH 559 Seminar in Current Research in Vision (1) *Buck, Olavarria, Teller* Prerequisite: permission of instructor.

PSYCH 560 Seminar (* max. 30) Prerequisite: permission of instructor. Offered: AWSPS.

PSYCH 570 Child Clinical Psychology (4) Issues and content of child clinical psychology, promotion of student's beginning work in research. Prerequisite: graduate major or minor standing in child-clinical psychology.

PSYCH 571 Child Psychopathology (5) *McMahon* Broad survey of major categories of child and adolescent disorders. Emphasis on scientific, empirical approach to description, classification, and research literature on these disorders. Required for all graduate students majoring in child clinical psychology. Prerequisite: graduate standing in psychology or permission of instructor. Offered: W.

PSYCH 572 Approaches to Child Treatment (4) *Barrett, Dawson* Major approaches to child psychotherapy, including specific applications, issues in treatment, and research. Prerequisites: graduate major standing in child-clinical psychology or permission of instructor. Offered: Sp.

PSYCH 574 Community Psychology (4) *Cauce* Overview of key issues and concepts in the field of community psychology. History of field and overview of different models used to conceptualize system-level mental health issues and delivery systems. Emphasizes theory and research rather than intervention. Prerequisite: psychology graduate student or permission of instructor. Offered: alternate years.

PSYCH 575 Minority Mental Health (3) *Barrett, George* Surveys topics on mental health and treatment of racial and ethnic minorities. Theory emphases include: models addressing ethnic identity, cross-cultural differences, models of culturally sensitive intervention. Practices emphases include unique psychotherapy strategies for: African-, Asian-, and Latino-Americans, and American Indians. Prerequisite: graduate clinical major standing in psychology or permission of instructor.

PSYCH 576 Intervention Techniques With Families (3) Theory and practice of principal methods of therapeutic intervention with families. Attention to clinical problems arising in a family context and use of family members and processes by the clinician. Prerequisites: 575, 592 and 593 or equivalent and permission of instructor.

PSYCH 578 Affective Disorders: Theory and Research (2) *Jacobson* Causes, sustainers, correlates, and consequences of affective disorders, including biological and psychosocial factors. Credit/no credit only. Prerequisite: graduate or professional student standing or permission of instructor. Recommended: graduate course in psychopathology and personality.

PSYCH 579 Treatment of Affective Disorders: Methods and Evaluation (2) *Jacobson* Differential diagnosis of depression and depressive subtypes; emphasis on psychodynamic, cognitive-behavioral, and combined forms of psychological treatment of less severely incapacitated patients; biological approaches (electroconvulsive therapy) as alternative or adjunctive treatments in severe, psychotic, and endogenous-like depressions. Credit/no credit only. Prerequisites: 578, graduate or professional student standing or permission of instructor. Recommended: graduate course in psychopathology and personality.

PSYCH 585 Research in Psychotherapy (5) *Marlatt* Research in psychotherapy, including process and outcome. Experience in research design. Prerequisites: graduate major standing and permission of instructor.

PSYCH 586 Clinical Personality Assessment (3) *R. Smith* Use of objective personality inventories in the description of normal and abnormal personality and use of such information in case conceptualization and treatment planning. Minnesota Multiphasic Personality Inventory, Millon Clinical Multiaxial Inventory. Credit/no credit only. Prerequisite: clinical psychology graduate standing. Offered: S.

PSYCH 587 Clinical Methods: Interviewing (2) *Fagan* Provides the foundation for developing good clinical skills. Enables students to conduct an initial clinical interview and generate a diagnostic formulation, problem list, and treatment plan after taking a complete history. Limited to and required of all second year clinical psychology graduate students. Credit/no credit only. Offered: A.

PSYCH 588 Clinical Methods: Ethics (2) *Fagan* Enables students to acquire a thorough working knowledge of the American Psychological Association's Ethical Standards for Psychologists; an awareness of Washington State law as it affects psychologists and a knowledge of how to identify and solve ethical dilemmas. Limited to and required of all second year clinical psychology graduate students. Credit/no credit only. Offered: W.

PSYCH 589 Advanced Clinical Practicum (4) *Cauce, Dawson, George, Jacobson, Kohlenberg, Marlatt, McMahon, Smith* Supervised psychotherapy involving several individual clients. Separate consultations with instructor for intensive supervision of each case. Occasional meetings in small groups of instructors and students to discuss case material. Assigned readings appropriate to each case with opportunities to discuss these with instructor. Prerequisites: clinical psychology graduate standing and permission of instructor. Credit/no credit only. Offered: AWSPS.

PSYCH 590 Practicum in Psychological Assessment (2) Demonstration and practice of selected psychological test procedures and interviewing skills. Concurrent registration in 535 required. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Prerequisites: graduate major standing in clinical or child-clinical psychology and permission of instructor. Offered: Sp.

PSYCH 591 Issues in Clinical Psychology (1, max. 3) *Cauce* Personal and professional issues in clinical psychology. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Credit/no credit only. Prerequisite: graduate major standing in clinical psychology. Offered: AW.

PSYCH 592 Clinical Proseminar (1, max. 3) Introduces major theoretical areas in clinical psychology. Emphasis on applied theory. Students conceptualize a clinical case from theoretical perspective presented and develop an understanding of salient forms of intervention representative of that theoretical orientation. Limited to and required of all second year clinical psychology graduate students. Credit/no credit only.

PSYCH 593 Clinical Colloquium and Clinic Practicum (1-6, max. 24) Required of all clinical

psychology graduate students seeing clients in the clinic. Clinical colloquium required of all second-year students, optional for others. Credit/no credit only. Offered: AWSpS.

PSYCH 594 Advanced Personality Theory (5) *Linehan* Conceptual models of behavioral functioning, cognition, emotion, and environment as organizers of behavior and other critical issues in personality theory. Opportunity to integrate previous courses, research, and practice, and arrive at coherent theoretical framework. Required for graduate majors in clinical psychology. Prerequisite: graduate or professional standing or permission of instructor. Offered: W.

PSYCH 595 Behavior Disorders (5) *I. Sarason* Major types of behavior disorders, with emphasis on clinical manifestations, relevant research, and theoretical perspectives. Required for all graduate students majoring in clinical psychology. Prerequisite: graduate major standing in clinical psychology or permission of instructor. Offered: W.

PSYCH 596 Psychology of Behavior Change (5) *Jacobson, Kohlenberg* Behavioral theory and behavioral approaches to treatment. Prerequisites: 595 and permission of instructor. Offered: Sp.

PSYCH 597 Fieldwork in Clinical Psychology (1-5, max. 38) *Baer, Broedel, Cauce, Dawson, George, Jacobson, Kohlenberg, Linehan, Marlatt, McMahon, N. Robinson, I. Sarason, R. Smith* Prerequisites: second-year graduate major standing and permission of departmental faculty.

PSYCH 598 Directed Reading in Psychology (*) (max. 30) Selected topics. Prerequisite: permission of a supervising psychology faculty member.

PSYCH 599 Directed Research in Psychology (1-3, max. 24) Supervised participation in research. Prerequisite: permission of a supervising psychology faculty member.

PSYCH 600 Independent Study or Research (*) Offered: AWSpS.

PSYCH 700 Master's Thesis (*) Offered: AWSpS.

PSYCH 800 Doctoral Dissertation (*) Offered: AWSpS.

Romance Languages and Literature

C104 Padelford

The department consists of two divisions: *French and Italian Studies* and *Spanish and Portuguese Studies*. The divisions offer programs designed to develop competence in the reading, speaking, and writing of the languages and in the study of the literatures and cultures.

French and Italian Studies

C258 Padelford

Undergraduate Program

Adviser
C252 Padelford

Bachelor of Arts

Major Requirements

French: 54 credits beyond 203, to include 301, 302, 303 (or 313); 304, 305, 306, 323. Five 400-level courses chosen to satisfy the requirements for an emphasis on literature/culture. Transfer credits at the 400 level are accepted only by petition to the Faculty Studies Committee.

Italian: 50 credits in courses at the 300 and 400 levels, including 301, 302, 303, 401, 402, 403; 15 additional credits in literature courses at the 400 level. Consult Italian adviser about courses in translation.

Minor

Minor Requirements: Italian—30 credits in courses at the 300 and 400 levels, including ITAL 301, 302, 303, and 401, 402, 403 (or equivalent 400-level courses).

Graduate Program

The Division of French and Italian Studies offers programs of graduate study leading to the degrees of Master of Arts in French or Italian and Doctor of Philosophy in French. Students who wish to complete their doctoral studies in Italian may do so through the Department of Comparative Literature.

The Master of Arts degree may be with thesis or without thesis in the main area specialization of language and literature.

Students enrolled in the doctoral program of French language and literature should devote at least two-thirds of their course work to the field specialization. Some training in the history of language is required.

Information on specific requirements for the various degree programs is available upon request from the office of the graduate program adviser.

Financial Aid

The department awards annually a number of teaching assistantships. The assistant normally participates in teaching three classes during the academic year. Each class is limited to approximately 25 students and meets 5 hours a week for the 10 weeks of the quarter.

Faculty

Chair

Eugene Vance

Professors

Borch-Jacobsen, Mikkel * 1986; Doct, 1981, University of Strasbourg (France); French twentieth-century literature, modern philosophy, psycho-analysis.

Creore, A. Emerson 1940, (Emeritus); MA, 1936, University of Rochester; PhD, 1939, Johns Hopkins University.

Friedman, Lionel J. 1961, (Emeritus); PhD, 1950, Harvard University.

Keller, Abraham C. * 1948, (Emeritus); PhD, 1948, University of California (Berkeley); sixteenth-century French literature.

Leiner, Jacqueline * 1963, (Emeritus); Dr ès Lettres, 1968, University of Strasbourg (France); modern French literature.

Nostrand, Howard L. 1982, (Emeritus); MA, 1933, Harvard University; Docteur, 1934, University of Paris (France); French culture and civilization.

Pace, Antonio 1980, (Emeritus); MA, 1937, Syracuse University; PhD, 1943, Princeton University; Italian language and literature.

Vance, Eugene * 1990; PhD, 1964, Cornell University; medieval literature, the history of criticism, and discourse analysis.

Wilson, Clotilde 1926, (Emeritus); MA, 1927, PhD, 1931, University of Washington; French language and literature.

Associate Professors

Collins, Douglas P. * 1980; PhD, 1978, University of Missouri; twentieth-century French literature.

Dale, Robert C. * 1963, (Emeritus); PhD, 1963, University of Wisconsin; nineteenth-century French literature, cinema.

Ellrich, Robert J. * 1964, (Emeritus); PhD, 1960, Harvard University; eighteenth-century French literature.

Friedrich, Pia * 1965, (Emeritus); PhD, 1946, University of Turin (Italy); pedagogy and twentieth-century Italian literature.

Wortley, W. Victor * 1955, (Emeritus); PhD, 1964, University of Oregon; seventeenth-century French theatre and prose (nonfiction).

Assistant Professors

Delcourt, Denyse * 1990; PhD, 1987, University of Montreal (Canada); French Middle Ages, French Renaissance, French women writers and Quebecois literature.

Hanafi, Zakiya A. J. * 1991; PhD, 1991, Stanford University; early modern French and Italian intellectual history and twentieth-century literary theory.

Sbragia, Albert J. * 1989; PhD, 1988, University of California (Berkeley); modern and contemporary Italian literature and cinema.

Sugano, Marian Z. * 1987; PhD, 1987, University of California (Berkeley); nineteenth- and twentieth-century French literature.

Senior Lecturer

Yowell, Donna Lynne * 1988; PhD, 1987, University of California (Berkeley); medieval Italian literature, Dante, Occitan lyric.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

French

Credit: The sequence 121, 122, 123 is parallel to 101, 102, 103; students can receive credit for 101 and 121 but not for 102 and 122 or 103 and 123. 101 or 121 cannot be taken for credit after 102, 103, 122, or 123. 134 is a 15-credit intensive course exactly equivalent to 121, 122, 123; a maximum of fifteen credits are allowed for 134 and any of 102, 103, 121, 122, and 123. A student who completes 134 cannot later take 101 for credit, but a student who earns credit for 101 first can take 134 for fifteen additional credits.

FRENCH 101, 102, 103 Elementary (5, 5, 5) Methods and objectives are primarily oral-aural. Oral practice in the language laboratory is required. Prerequisite for 102: 101 or college equivalent, or placement; for 103: 102 or equivalent, or placement.

FRENCH 110 Basic French Review (5) Combines in one quarter the contents of 101 and 102. Designed for students who have studied French in high school but who do not feel ready for 102. Highly motivated beginners with background in other languages also encouraged to take the course.

FRENCH 121, 122, 123 French Immersion (5, 5, 5) This "planned immersion" approach covers the equivalent of elementary French (101, 102, 103) through an alternative method with video as the central medium of presentation.

FRENCH 134 First-year Intensive French (15) Equivalent of 121, 122, 123. Not open for credit to students who have taken 102, 103, 121, 122, 123. Offered: S.

FRENCH 199 Foreign Study—Elementary (4-16) Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through 103.

FRENCH 201, 202, 203 Intermediate (5, 5, 5) VLPA Systematic review of French grammar. Intensive practice in writing and conversation. Readings in literature, culture, and the sciences. Prerequisites: 103 or college equivalent or placement for 201; 201 or college equivalent or placement for 202; 202 or college equivalent or placement for 203.

FRENCH 221, 222, 223 Second Year French Immersion (5, 5, 5) VLPA Cover the equivalent of second year French (FRENCH 201, 202, 203) through an alternative "planned immersion" method with video as the central medium of presentation. Prerequisites: 103, 123, 134 or equivalent for 201, 201 or 221 for 222, 222 for 223.

FRENCH 234 Intermediate French Immersion (15) VLPA Covers the equivalent of second year French (FRENCH 201, 202, 203) through an alternative "planned immersion" method with video as the central medium of presentation. Prerequisites: 103, 123, 134 or equivalent.

FRENCH 237 Foreign Study Conversational French (2-8) VLPA For participants in the Foreign Study Program. Prerequisites: 103 or college equivalent and permission of Foreign Study Office.

FRENCH 297 Foreign Study French Civilization (3/6) VLPA For participants in the Foreign Study Program. Literary tradition, social and cultural values as reflected in literature. Paper (in English) and higher degree of participation for 6 credits. In English. Prerequisites: two years of college-level French and permission of Foreign Study Office.

FRENCH 299 Foreign Study—Intermediate (4-16) VLPA Intermediate instruction in approved foreign study program. Evaluation by departmental adviser required to establish proficiency. Further study at 200-level subject to departmental evaluation.

FRENCH 301, 302, 303 Advanced French (5, 5, 5) VLPA Prerequisites: 203 or college equivalent or placement for 301; 301 for 302; 302 for 303.

FRENCH 304 Survey of French Literature: Origins to 1800 (3) VLPA Thematic and formal developments in literature of the period with emphasis on movements and texts in relation to cultural background. Prerequisites: 301.

FRENCH 305 Survey of French Literature: 1600-1789 (3) VLPA Emphasis on literary movements and texts in relation to cultural background. Prerequisites: 301.

FRENCH 306 Survey of French Literature: 1789 to the Present (3) VLPA Development of modern literature through its most important writers and movements. Prerequisites: 301.

FRENCH 308 Foreign Study Composition (3-5, max. 10) VLPA For participants in the Foreign Study Program. Compositions on topical subjects of intermediate difficulty relating to the civilization of the French-speaking countries of Europe. Grammar review as needed. Prerequisites: 203 or college equivalent and permission of Foreign Study Office.

FRENCH 313 Business Communication in French (5) VLPA Offers students the opportunity to develop French language skills (reading, writing, speaking, and listening) within the context of the French-speaking business world. Business-specific culture emphasized. Prerequisite: 301 and 302 or permission of instructor. May be taken in lieu of, or in addition to, 303.

FRENCH 323 Introduction to French Linguistics (5) VLPA Herschensohn, Klausenburger Synchronic and diachronic linguistic analysis of French, including French phonetics and phonology, morphology, syntax, and evolution of the language. Prerequisite: two years of college French.

FRENCH 327 Advanced Conversation (2, max. 8) VLPA Not open to students whose native language is French. Prerequisite: 203 or college equivalent or placement.

FRENCH 337 Foreign Study Conversational French (2-8) VLPA For participants in the Foreign Study Program. Prerequisite: 203 or college equivalent.

FRENCH 378 The Making of Contemporary France, Studied in French (5) VLPA/IS Study of the historical origins and subsequent development of contemporary problems and characteristics of French government and politics, economy, and society. Prerequisite: 203 or equivalent.

FRENCH 390 Supervised Study (2-6, max. 20) Prerequisites: permission of the instructor and the undergraduate French adviser.

FRENCH 397 Foreign Study French Civilization (3/6) VLPA For participants in the Foreign Study Program. Literary tradition, social and cultural values as reflected in literature. Paper (in French) and higher degree of participation for 6 credits. In French. Prerequisites: two years of college-level French and permission of Foreign Study Office.

FRENCH 400 The Syntactic Structure of French (5) VLPA Scientific study of the syntax of French: phrase structures and transformations (emphasis on passives, relativization, pronominalization, reflexive structures). Prerequisites: 323 or ROLING 401 or permission of instructor. Offered: jointly with FRLING 400.

FRENCH 401 The Morphological Structure of French (5) VLPA Linguistic study of French morphology. Prerequisite: 323 or ROLING 401 or permission of instructor. Offered: jointly with FRLING 401.

FRENCH 402 The Phonological Structure of French (5) VLPA The phonological component of the generative grammar of French: representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisites: 323 or ROLING 401 or permission of instructor. Offered: jointly with FRLING 402.

FRENCH 403 Background of Modern French (5) VLPA Klausenburger Linguistic analysis of the important developments in the history of the French language from its Latin origin to contemporary speech. Prerequisite: 323 or ROLING 401 or permission of instructor. Offered: jointly with FRLING 403.

FRENCH 404 Old French (5) VLPA Designed for acquisition of reading facility in Old French through intensive study of selected texts. Prerequisite: 323 or ROM 401 or permission of instructor.

FRENCH 405 Linguistics and the Teaching of French (5) VLPA Areas of linguistics that can be particularly helpful to the French teacher. Prerequisites: 323 or ROLING 401 or permission of instructor. Offered: jointly with FRLING 405.

FRENCH 406 Advanced French Grammar (5) VLPA Problems of French grammar. Differences between forms and structures of French and English. Problems of effective teaching of French. For students with at least three years of college French and for

beginning teaching assistants. Prerequisites: 303 or permission of instructor. Offered: jointly with FRLING 406.

FRENCH 409 The Phonetics of French (5) VLPA Scientific study of the French sound system with special emphasis on "lower level" phonetic rules, with integral values. Focus on data from standard French as well as socioeconomic and geographic variations. Prerequisites: 323 or ROLING 401 or LING 200 or 400 and two years of college-level French. Offered: jointly with FRLING 409.

Most of the following 400-level courses require as prerequisites FRENCH 303; 304, 305, 306. See adviser for exceptions.

FRENCH 411 Topics in the Middle Ages (5) VLPA Sixteenth-century literature with emphasis on poetry and the general artistic ambiance. Prerequisites: see note above.

FRENCH 412 Topics in Sixteenth Century French Literature (5) VLPA An introduction to major French literary texts of the Sixteenth Century. Prerequisites: 303 and 304.

FRENCH 413 Topics in Seventeenth Century (5) VLPA Seventeenth-century literature, with emphasis on the development of classicism. Prerequisites: see note above.

FRENCH 414 French Literature of the Eighteenth Century: Enlightenment (5) VLPA Eighteenth-century literature, with emphasis on the development of the Enlightenment ideology. Prerequisites: see note above.

FRENCH 415 French Literature of the Eighteenth Century: Post-Enlightenment (5) VLPA Eighteenth-century literature, with emphasis on the "dark side of the Enlightenment" and nascent romanticism. Prerequisites: see note above.

FRENCH 416 French Literature of the Nineteenth Century: Romanticism (5) VLPA Nineteenth-century literature, with emphasis on romanticism and the early manifestations of realism. Prerequisites: see note above.

FRENCH 418 French Literature of the Early Twentieth Century (5) VLPA Twentieth-century literature, with emphasis on the period 1900-1939. Prerequisites: see note above.

FRENCH 419 French Literature Since World War II (5) VLPA Twentieth-century literature, with emphasis on the period 1939 to the present. Prerequisites: see note above.

FRENCH 420 Interdisciplinary Approaches to Literature (5) VLPS Sugano Interdisciplinary studies in French literature and culture, focusing on the complex interactions of literature and other disciplines, i.e. philosophy, psychoanalysis, anthropology, architecture. Prerequisite: 303, 304, and 306.

FRENCH 421 Psychoanalysis and Literature (5) VLPA Borch-Jacobsen Readings from Freud and French critical writers regarding the relationship between psychoanalysis and literature. Prerequisites: 303 and 306.

FRENCH 422 Literature and the Other Arts (5) VLPA Examines the relationship between text and image in a variety of art forms. Prerequisites: 303.

FRENCH 424 Fiction: 1800-1850 (5) VLPA Prerequisites: see note above.

FRENCH 425 Fiction: 1850-1900 (5) VLPA Prerequisites: see note above.

FRENCH 427 Fiction: Twentieth Century (5) VLPA Prerequisites: see note above.

FRENCH 431 Critical Approaches to French Poetry (5) VLPA Interdisciplinary approaches to

French poetry focusing on the intersection of fine art, cultural movements, and the production of literature in the Second Empire and the Third Republic.

FRENCH 432 Critical Approaches to French Fiction (5) VLPA Addresses theory and practice of fiction within the context of a given century or movement. Content varies. Prerequisites: 303.

FRENCH 435 Topics in Non-Fiction (5) VLPA Content varies. Prerequisite: 303.

FRENCH 441 Québécois Literature (5) VLPA Readings of novels, plays, and occasionally, poetry. Special attention paid to how Québécois authors represent in their works the complex socio-political reality of their culture. Conducted in French. French majors required to read and write in French; all others may read and write in English. Prerequisites: 303 and 306 or permission of instructor. Offered: jointly with SISCA 441.

FRENCH 444 Poetry: Romantic (5) VLPA Prerequisites: see note above.

FRENCH 445 Women Writers and Feminist Theory (5) VLPA Focus on French women writers from different periods and places. Gender issues addressed in critical fashion, considering the different historical and ideological contexts in which each of the works were produced. Prerequisites: 303.

FRENCH 446 Poetry: Twentieth Century (5) VLPA Prerequisites: see note above.

FRENCH 450 Themes in French Literature and Culture (5) VLPA Interdisciplinary studies in French literature and culture, focusing on the construction and representation of gender roles in the French novel from the early eighteenth century. Prerequisites: 303, 304, 305, 306.

FRENCH 451 History and Literature of the French Religious Wars (5) VLPA/ISS Major political, social, and religious movements and events of, and related to, the French religious wars of 1560 to the end of the century, along with the treatment of these in the prose, poetry, and drama of the period. For students receiving French credit, readings must be done in French. Prerequisites: see note above.

FRENCH 454 Nonfiction of the Classic Period (5) VLPA Prerequisites: see note above.

FRENCH 455 One Author in French Literature/Culture (5, max. 15) VLPA In depth focus on the works of one author in French Literature or Culture. Prerequisites: 303.

FRENCH 457 One Decade in French Literature and Culture (5, max. 15) VLPA Content varies. Prerequisite: 303.

FRENCH 461 Seventeenth-Century Drama (5) VLPA Prerequisites: see note above.

FRENCH 463 Nineteenth-Century Drama (5) VLPA Prerequisites: see note above.

FRENCH 465 Twentieth-Century Drama (5) VLPA Prerequisites: see note above.

FRENCH 470 Cinema (5) VLPA Major films and figures of French cinema from the beginnings to the present. Prerequisites: see note above.

FRENCH 490 Honors Seminar (2-5, max. 10) VLPA Special studies in French literature. Required of candidates for honors and distinction in French. Open to others by permission of French honors adviser.

FRENCH 498 Poetry and Song as Elements in French Civilization (5) VLPA Relationship of poetry and music as expressed in the chanson in several

periods of French culture. Emphasis on twentieth-century poet-composer-performers. Attention given to the medieval troubadours and to poet-musician collaboration in the Renaissance and later periods. Prerequisites: see note above.

FRENCH 499 Special Topics (1-5, max. 10) Topics to meet special needs. Prerequisites: see note above.

Italian

ITAL 101, 102, 103 Elementary (5, 5, 5) Methods and objectives are primarily oral-aural. Language laboratory is required. Prerequisites: 101 or college equivalent or placement for 102; 102 or college equivalent or placement for 103.

ITAL 108 Intensive Italian Grammar and Reading (5) Intensive two-quarter presentation of Italian grammar with emphasis on reading Italian texts. For persons who require solid reading knowledge of Italian or who plan to study in Italy. Prerequisite: undergraduates—a cumulative 3.3 GPA; graduates—competence in another foreign language.

ITAL 134 Intensive First Year Italian (15) An intensive language course equivalent to 101, 102, 103, designed for highly motivated students. Not open for credit to students who have taken 102 and 103. Offered: S.

ITAL 199 Foreign Study—Elementary (4-16) Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through 103.

ITAL 201, 202, 203 Intermediate (5, 5, 5) VLPA Intensive speaking, reading, and writing. Functional review of grammar. Prerequisites: 103 or college equivalent or placement for 201; 201 or college equivalent or placement for 202; 202 or college equivalent or placement for 203.

ITAL 208 Intensive Italian Grammar and Reading (5) VLPA Intensive two-quarter presentation of Italian grammar with emphasis on reading Italian texts. For persons who require solid reading knowledge of Italian or who plan to study in Italy. Prerequisite: 108.

ITAL 234 Intensive Second-Year Italian (15) VLPA Intensive language course designed for highly motivated students. Equivalent to 201, 202, 203. Prerequisites: 103 or 134 or equivalent. Offered: S.

ITAL 299 Foreign Study—Intermediate (4-16) VLPA Intermediate instruction in approved foreign study program. Evaluation by departmental adviser required to establish proficiency. Further study at 200-level subject to departmental evaluation.

ITAL 301, 302 Advanced Syntax and Composition (5, 5) VLPA Prerequisites: 203 or college equivalent or placement for 301; 301 for 302.

ITAL 303 Italian Stylistics (5) VLPA Functional grammar review; creative written and oral composition and reading, with special attention to problems of style. Prerequisite: 302.

ITAL 327 Advanced Conversation (2, max. 8) VLPA Not open to students whose native language is Italian. Prerequisite: 203 or college equivalent or placement.

ITAL 390 Supervised Study (2-6, max. 20) Prerequisites: permission of the instructor and the undergraduate Italian adviser.

ITAL 400 The Development of the Italian Language (5) VLPA Historical survey of Italian phonology, morphology, and syntax. Evolution of the language is illustrated with study of pertinent documents

from various periods. Prerequisites: 301, 302, 303, LING 400, or ROLING 401 or permission of instructor. Offered: jointly with LING 419.

ITAL 401 Readings in Italian: Medieval (5) VLPA Exploration of medieval Italian cultural history through a broad variety of literary and other textual traditions. Prerequisite: undergraduate student with good reading knowledge of Italian.

ITAL 402 Readings in Italian: Early Modern (5) VLPA Exploration of early modern Italian cultural history through a variety of literary and other textual traditions. Prerequisite: undergraduate student with good reading knowledge of Italian.

ITAL 403 Readings in Italian: Modern (5) VLPA Exploration of modern Italian cultural history through a board variety of literary and other textual traditions. Limited to undergraduate students. Prerequisite: good reading knowledge of Italian.

ITAL 404, 405, 406 Survey of Italian Literature (5, 5, 5) VLPA Prerequisite: 203 or college equivalent or placement test.

ITAL 413 Literature of the Renaissance: Quattrocento (5) VLPA The early Renaissance. Humanism; writings of Lorenzo de' Medici, Poliziano, Belcari, Alberti, Masuccio, Sannazzaro, Pulci, Boiardo.

ITAL 414 Literature of the Renaissance: Cinquecento (5) VLPA The high Renaissance. Bembo and the Petrarchans, Machiavelli, Guicciardini, Castiglione, Ariosto, Guarini, Tasso.

ITAL 423 Seventeenth-Century Italian Literature (5) VLPA New sciences and new poetics: Campanella, Sarpi, Della Valle, Marino, Tesauro, Bartoli, Galileo, Redi.

ITAL 424 Eighteenth-Century Italian Literature (5) VLPA Survey of eighteenth-century literature—the melodrama, drama and poetry: Metastasio, Goldoni, Alfieri, Parini, Monti, and Foscolo. Prerequisite: 303.

ITAL 431 Italian Theater (5) VLPA The development of Italian theater from the Renaissance to the twentieth century. Prerequisite: 303.

ITAL 450 The Romantic Movement (5) VLPA Sbragia Beginning with an examination of the pre-romantic works of Ugo Foscolo, focuses on the literary and critical writings of Alessandro Manzoni and Giacomo Leopardi. Discusses the Romantic movement in Italy within the context of European Romanticism. Reference made to later variations on Romantic themes. Prerequisite: 303 or permission of instructor.

ITAL 460 Verismo (5) VLPA The development of Verismo with extensive readings from its main exponents—Capuana; Verga, Serao, Deledda, Fucini, and d'Annunzio.

ITAL 465 Contemporary Italian Narrative (5) VLPA Critical reading of selected modern exponents of the short story and novel.

ITAL 470 Dante (5) VLPA Introduction to Dante's *Commedia* and minor works, conducted in Italian. Prerequisite: 303 or permission of instructor.

ITAL 480 Proseminar in Italian Literature (3-5) VLPA Intended to help the student achieve a mature critical mastery of Italian literature. Required of Italian majors; others by permission of instructor.

ITAL 499 Special Topics (1-5, max. 10) Topics to meet special needs. Prerequisites: permission of the instructor and the undergraduate or graduate program adviser.

Courses in English

These courses are recommended as appropriate supporting studies for students majoring in other departments. Courses in English translation are not usually applicable toward undergraduate or graduate major programs in French and Italian. Majors may take any of these courses for credit as one of their electives.

French

FRENCH 458 French Art and Literature: Period Studies (5) VLPA Comparative studies of theme and technique in art and literature to illustrate major concerns of a particular period as expressed in these two media. Prerequisite: background in French literature or art history (the appropriate 300-level course in art history or the appropriate 400-level survey course in French literature).

FRENCH 481 Twentieth-Century French Novel in English (5) VLPA

FRENCH 482 French Poetry From Baudelaire to the Present in English (5) VLPA Analysis in English of the major trends and movements in modern French poetry with representative works, from Baudelaire to the poets of the 1950s.

FRENCH 483 Trends in Twentieth-Century Theatre in English (5) VLPA Study of the evolution of the French theatre from the turn of the century to the present. Special emphasis is given the French theatrical scene since World War II.

FRENCH 484 Rabelais and Montaigne in English (5) VLPA Reading and discussion of selected passages from the works of Rabelais and the essays of Montaigne. Background information through informal lectures and outside reading on the two figures as illustrative of the Renaissance in France.

FRENCH 485 Racine and Molière in English (5) VLPA

FRENCH 486 Literature of the Enlightenment in English (5) VLPA

FRENCH 487 Nineteenth-Century Fiction in English (5) VLPA

FRENCH 488 Women in French Literature in English (5) VLPA Masterpieces of French literature are read in an attempt to understand French attitudes toward women. From the sixteenth century, with a concentration on the twentieth century.

Italian

ITAL 318 Italian Literature in English (5) VLPA

ITAL 319 The Italian Short Story in English (5) VLPA The short story from the Novellino and Boccaccio to modern masters of the form. The translations are studied both as examples of narrative technique and as reflections of particular moments in Italian cultural history. Prerequisite: at least sophomore standing.

ITAL 384 Renaissance Literature of Italy in English (3) VLPA

ITAL 480 Dante's Inferno in English (5) VLPA Introduction to Dante's Inferno. Considers formal, structural, linguistic, literary, historical, cultural, philosophical, and theological issues raised by the text. Discusses the main currents of twentieth-century Dante criticism.

ITAL 481 Dante's Purgatory and Paradise in English (5) VLPA Second half of a two-quarter series. Close study of Dante's Purgatory and Paradise and retrospective reading of Inferno. Explores Dante's concept of art, both human and divine, as it is developed in and defines the poem. Prerequisite: 408 or equivalent.

ITAL 482 The Decameron in English (5) VLPA An integral reading of the Decameron, with some consid-

eration of its place in world literature and as an expression of the culture of its time. Prerequisite: upper-division standing.

Courses for Graduates Only

French

FRENCH 510 Methodology of French Language Teaching (3) Herschensohn Theoretical and practical foundation of teaching French. Major topics include modern theories of language and language acquisition which underlie modern methods of foreign language teaching, teaching techniques, testing, and classroom relations with emphasis on the multiple-approach direct method. Required for beginning French Teaching Assistants. Credit/no credit only.

FRENCH 515 French Literature of the High Middle Ages (5, max. 10) Old French literature, from the beginning to 1315. Prerequisite: permission of instructor.

FRENCH 516 Middle French Literature (5, max. 10) French literature from 1315 to 1500. Prerequisite: permission of instructor.

FRENCH 520 Renaissance Prose: Rabelais (5)

FRENCH 521 Renaissance Prose: Montaigne (5)

FRENCH 523 Studies in Fiction: 1680-1800 (5, max. 10)

FRENCH 525 Studies in Fiction: 1850-1900 (5, max. 10)

Spanish and Portuguese Studies

C104 Padelford

Undergraduate Program

Adviser
C201 Padelford

Bachelor of Arts

Admission Requirements

Spanish: 201, 202, 203, with a minimum GPA of 2.70 and no individual grade below 2.5; 10 credits English composition with a minimum 2.5 in each course. Admission is competitive, based on the following minimum qualifications: (1) preparation for the major as indicated by student's grades in courses required for application, (2) overall scholastic record, and (3) personal statement, in English or Spanish, of interest in and commitment to the major. Other evidence reflecting the student's interest may be appended. Application deadline is the first Friday of autumn, winter, and spring quarters, for admission in the fifth week of the same quarter. Applicants denied admission may submit written petitions requesting reconsideration. Applications are available in C201 Padelford.

Major Requirements

Spanish: Minimum 53 credits above 203, including 301, 302, 303, 321, 322, 323 (LING 200 may substitute for SPAN 323); three 300-level elective courses (maximum of two from film series); four 400-level courses (one from 400 through 409). Other than 400 through 409, only one course whose instructional materials are primarily in English may apply toward the major.

Graduate Program

The Division of Spanish and Portuguese Studies offers programs of graduate study leading to the degrees of Master of Arts and Doctor of Philosophy. The Master of Arts degree normally requires two years of course work and successful completion of a comprehensive examination.

The doctorate normally requires one to two years of course work beyond the M.A., successful completion of a series of comprehensive examinations, and a dissertation.

Information on specific requirements for the various degree programs is available upon request from the office of the graduate program adviser.

Financial Aid

The department awards annually a number of teaching assistantships. The assistant normally participates in teaching three classes during the academic year. Each class is limited to approximately 25 students and meets 5 hours a week for the 10 weeks of the quarter.

Faculty

Chair

Farris Furman Anderson

Professors

Anderson, Farris Furman * 1967; MA, 1962, Duke University; PhD, 1968, University of Wisconsin; nineteenth- and twentieth-century Spanish literature.

Steele, Cynthia * 1986; PhD, 1980, University of California (San Diego); Latin American literature and society, narrative and feminist theory.

Associate Professors

Flores, Lauro H. * 1980; PhD, 1980, University of California (San Diego); Chicano literature, contemporary Latin-American literature (narrative).

Geist, Anthony L. * 1987; PhD, 1978, University of California (Berkeley); twentieth century Spanish literature: ideology and literary form.

O'Hara, Edgar * 1989; PhD, 1989, University of Texas (Austin); Spanish, Latin American poetry, writing poetry and essays.

Petersen, Suzanne Helen * 1973; PhD, 1976, University of Wisconsin; medieval Spanish literature.

Shipley, George A. * 1967; PhD, 1968, Harvard University; Spanish Golden Age.

Assistant Professor

Penna, Camillo * 1992; PhD, 1992, University of California (Berkeley); Brazilian women writers, Latin American nationalism, philosophy, literary theory, film.

Lecturer

Tamburo, Carolyn R. 1993; PhD, 1986, University of California (Los Angeles); foreign language pedagogy

and teacher training; director of second year language program.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Portuguese

PORT 101, 102, 103 Elementary (5, 5, 5) Methods and objectives are primarily oral-aural. Covers all major elements of Portuguese grammar. Prerequisites: 101 or college equivalent or placement for 102; 102 or college equivalent or placement for 103.

PORT 105 Intensive Portuguese for Spanish Speakers (6) Covers the verbal system and major grammatical points. Does not satisfy Foreign Language Requirement. Prerequisite: two college years of Spanish or equivalent.

PORT 201, 202, 203 Intermediate (5, 5, 5) VLPA Modern texts, composition, conversation, and a systematic review of grammar. Prerequisites: 103 or equivalent or permission of instructor for 201; 201 for 202; 202 for 203.

PORT 301, 302 Grammar and Lexicon (5, 5) VLPA Prerequisites: 203 for 301; 301 for 302.

PORT 310 Introduction to Lusophone Literature (3) VLPA Introduction to the studies of Lusophone literature and culture.

PORT 335 Twentieth Century Brazilian Fiction in English (5, max. 10) VLPA Penna Reading texts in connection with cultural and theoretical issues.

Spanish

Credit: The sequence 121, 122, 123 is parallel to 101, 102, 103; students can receive credit for 101 and 121 but not for 102 and 122 or 103 and 123. 101 or 121 cannot be taken for credit after 102, 103, 122, or 123. 134 is a 15-credit intensive course exactly equivalent to 121, 122, 123; a maximum of fifteen credits are allowed for 134 and any of 102, 103, 121, 122, and 123. A student who completes 134 cannot later take 101 for credit, but a student who earns credit for 101 first can take 134 for fifteen additional credits.

SPAN 101, 102, 103 Elementary (5, 5, 5) Methods and objectives are primarily oral-aural. Language laboratory is required. Prerequisites: 101 or college equivalent or placement for 102; 102 or college equivalent or placement for 103.

SPAN 104 Spanish Grammar—Intensive (5) Thorough review of the basics of Spanish grammar. Not open to students who have taken 102 or 103. Prerequisite: one year pre-university Spanish, or 101, or permission of instructor.

SPAN 121, 122, 123 Spanish Immersion (5, 5, 5) Covers the equivalent of elementary Spanish (SPAN 101, 102, 103) through an alternative "planned immersion" method with video as the central medium of presentation. Prerequisites: 101 or 121 for 122, 122 for 123.

SPAN 134 Intensive First-Year Spanish (15) Equivalent of 121, 122, 123. Employs "planned immersion" method with video as the central medium of presentation. Not open for credit to students who have taken 121, 122, 123 or 102, 103. Offered: S.

SPAN 199 Foreign Study—Elementary (4-16) Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through 103.

SPAN 201, 202, 203 Intermediate (5, 5, 5) VLPA Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. Prerequisites: 103 or college equivalent or placement for 201; 201 or college equivalent or placement for 202; 202 or college equivalent or placement for 203.

SPAN 204 Intensive Spanish Review—Intermediate (5) VLPA Intensive review of grammar, reading composition. For highly motivated students with at least one year of college Spanish, or equivalent. Synthesis of 201, 202, 203, and preparation for third-year work in language and literature. Prerequisites: 103, 104, or 201; or four years of high school Spanish.

SPAN 299 Foreign Study—Intermediate (4-16) VLPA Intermediate instruction in approved foreign study program. Evaluation by departmental adviser required to establish proficiency. Further study at 200-level subject to departmental evaluation.

SPAN 301, 302 Grammar and Lexicon (5, 5) VLPA Prerequisites: 203 for 301; 301 for 302.

SPAN 303 Introduction to Stylistics Through Composition (5) VLPA Prerequisite: 302.

SPAN 304 Survey of Spanish Literature: 1140-1498 (3) VLPA Masterpieces of Spanish literature from origins to 1498. Prerequisites: 301 which may be taken concurrently.

SPAN 305 Survey of Spanish Literature: 1498-1681 (3) VLPA Prerequisites: 301 which may be taken concurrently.

SPAN 306 Survey of Spanish Literature: 1681 to the Present (3) VLPA Prerequisites: 301 which may be taken concurrently.

SPAN 307 Introduction to Latin American Literature (3) VLPA Study of selected works of twentieth-century Latin American literature and their sociohistorical context. Development of reading and writing skills. Prerequisites: 301 which may be taken concurrently.

SPAN 313 Business Communication in Spanish (5) VLPA This intermediate level course offers students the opportunity to develop their Spanish language skills (reading, writing, speaking, and listening) within the context of the Spanish-speaking business world. Business-specific culture emphasized. Prerequisites: 301 which may be taken concurrently.

SPAN 321 Introduction to Hispanic Literary Studies (3) VLPA Acquaints the third-year student with elementary techniques of literary analysis, as applied to examples of narrative, poetry and theater, within the context of the Spanish and Latin American literary traditions. Prerequisite: 301 which may be taken concurrently.

SPAN 322 Introduction to Hispanic Cultural Studies (3) VLPA Introduces students to elite, mass, and folk cultures of Spain, Latin America, and Hispanic peoples of the United States. Readings vary according to the faculty member's expertise and interests. Prerequisites: 301 which may be taken concurrently.

SPAN 323 Introduction to Spanish Linguistics (3) VLPA Synchronic and diachronic linguistic analysis of Spanish, including Spanish phonetics and phonology, morphology, syntax, and evolution of the language. Prerequisites: 301 which may be taken concurrently.

SPAN 331 Themes in Mexican-American Studies (5) VLPA Flores Examination of significant historical and cultural themes of the Mexican-American experience. Prerequisite: speaking knowledge of Spanish.

SPAN 332 Chicano Film and Narrative (5) VLPA Flores Historical overview of the evolution of Chicano culture through film. Critical examination of the por-

trayal and self-portrayal of Chicanos in film and selected works of narrative. Prerequisite: 301 which may be taken concurrently or equivalent.

SPAN 334 Latin American Film (5) VLPA Cultural studies through fictional films, documentaries, and literature. Theories of representation and subjectivity; cinema and underdevelopment. Prerequisite: 301 which may be taken concurrently or equivalent.

SPAN 337 Foreign Study Conversational Spanish (2-6) VLPA For participants in the Foreign Study Program. Prerequisites: 203 or equivalent and permission of Foreign Study Office.

SPAN 350 Drama (3) VLPA Generic study of Spanish drama. Prerequisites: 301 which may be taken concurrently.

SPAN 351 Poetry (3) VLPA Generic study of Spanish poetry. Prerequisites: 301 which may be taken concurrently.

SPAN 352 Fiction (3) VLPA Generic study of Spanish fiction. Prerequisite: 301 which may be taken concurrently.

SPAN 376 Introduction to Latin American Poetry (3) VLPA *O'Hara* Traces the oral, musical, and written traditions of Latin American poetry. Prerequisite: 301 which may be taken concurrently.

SPAN 390 Supervised Study (2-6, max. 20) Prerequisites: permission of the instructor and undergraduate Spanish adviser.

SPAN 393 Foreign Study (2-10, max. 20) VLPA Study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. Prerequisites: 301, 302, and approval of Foreign Study Office or undergraduate adviser.

SPAN 400 The Syntactic Structure of Spanish (5) VLPA *Strozer, Zagana* Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisites: 303 and 323. Offered: jointly with SPLING 400.

SPAN 401 The Morphological Structure of Spanish (5) VLPA *Strozer, Zagana* Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisites: 303 and 323. Offered: jointly with SPLING 401.

SPAN 402 The Phonological Structure of Spanish (5) VLPA *Strozer, Zagana* Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisites: 303 and 323. Offered: jointly with SPLING 402.

SPAN 403 The Evolution of the Spanish Language (5) VLPA *Zagana* Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Prerequisites: 303 and 323. Offered: jointly with SPLING 403.

SPAN 406 Advanced Spanish Grammar (5) VLPA *Anderson* Problems of Spanish grammar. Differences from English grammar. Techniques for the effective teaching of Spanish. Prerequisites: 303 and 323. Offered: jointly with SPLING 406.

SPAN 408 Spanish Translation Workshop (5) VLPA *Anderson* Intensive practice in translation to and from Spanish. Texts include literary prose, poetry, expository writing, newspaper and magazine articles. Problems of standard versus colloquial language, transposition of cultural references, concept of fidelity in translation. Prerequisites: 303 and 323. Recommended: 406.

SPAN 409 Spanish Phonetics (5) VLPA Analysis of sounds: training in pronunciation, intonation, and close transcription of Spanish language in its modalities.

Prerequisite: 302 or graduate standing. Offered: jointly with SPLING 409.

Spanish majors must complete 303, 321, 322 and at least two 300-level electives beyond 303 before taking 400-level Spanish literature courses (SPAN 415-493).

SPAN 415 Spanish Literature: Nineteenth Century (5) VLPA *Anderson* Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 416 Spanish Literature: 1900-1936 (5) VLPA Spanish literature of the twentieth century prior to the Civil War (1900-1936). Concentration on Generations of 1898 and 1927. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 417 Spanish Literature From 1940 to the Present (5) VLPA Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 420 Spanish Poetry: Origins Through the Fifteenth Century (5) VLPA Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 423 Spanish Poetry: The Golden Age, Sixteenth Through Seventeenth Centuries (5) VLPA Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 424, 425, 426 Hispanic Poetry (5, 5, 5) VLPA *Geist* Modern lyric poetry of the Hispanic world. The period studied extends from 1870 to 1936 and deals with thirteen major poets, from Becquer to Hernandez. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 433 Golden Age Prose (5) VLPA *Shipley* Representative, and outstanding, prose works of sixteenth- and seventeenth-century Spain. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 436 Spanish Novel of the Nineteenth Century (5) VLPA *Anderson* Representative works of Galdos, Clarin, Pereda, Valera, and Blasco Ibanez. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 437 Spanish Novel: 1900-1936 (5) VLPA Spanish novel from the generation of 1898 to the beginning of the Civil War (1936). Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 438 Spanish Novel: 1939 to the Present (5) VLPA Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 439 Women Writers (5) VLPA/I&S Feminist analysis of selected texts by Chicana/Latina writers in the United States as well as by Spanish-American, Luso-Brazilian and/or Spanish women writers in their specific socio-historical contexts. Prerequisites: 303, 322, and one additional 300-level course beyond 303, or permission of instructor. Offered: jointly with WOMEN 439.

SPAN 440 Spanish Drama: 1150-1600 (5) VLPA From the beginning to Lope de Vega. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 441 Spanish Drama: 1600-1835 (5) VLPA Spanish theatre of the seventeenth century, with emphasis on Lope de Vega. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 445 The Modern Theatre in Spain, 1700-1900 (5) VLPA *Anderson* Literature and historical context of Spain's theatre in the eighteenth and nineteenth centuries. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 446 The Modern Theatre in Spain, 1900-1936 (5) VLPA *Anderson* Major currents and literature of Spain's theatre in this century, up to the Spanish Civil War in 1936. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 447 Spanish Theatre Since the Civil War (5) VLPA Works of Spain's major dramatists of the post-war period. Special attention given to the social and political context of the theatre in Spain under the Franco regime. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 449 Spanish Drama and Play Production (5, max. 10) VLPA *Anderson* Prerequisite: permission of instructor.

SPAN 453 Cervantes and His Times (5) VLPA *Shipley* Study of Cervantes and his moment in Spanish history, with special attention to his cultural and artistic environment. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 461 Cultural Background of Latin American Literature (5) VLPA Survey of ideas and art forms and their relationship to literature in four periods: pre-Columbian, colonial, early independence, and twentieth century. Prerequisites: 303, 322, plus one additional 300-level course beyond 303.

SPAN 462 Early Spanish Civilization (5) VLPA Development of Spanish society and art forms from early times to 1700. Prerequisites: 303, 322, plus one additional 300-level course beyond 303.

SPAN 463 Spanish Civilization Since 1700 (5) VLPA Spanish civilization and its major artistic products since 1700. Major moments in the development of Spanish society and intellectual life as reflected in music, painting, and especially literature. Prerequisites: 303, 322, plus one additional 300-level course beyond 303.

SPAN 464 Chicana Expressive Culture (5) VLPA/I&S Expressive culture of Mexican women in United States. Cultural and artistic practices in home, film, literary (print, oral) performing and visual arts. Focuses on ways Chicana visual artists re-vision traditional iconography. Prerequisites: 303, 322, one additional 300-level course beyond 303 or permission of instructor. Offered: jointly with CHSTU 464/WOMEN 464.

SPAN 465 Contemporary Chicano Literature (5) VLPA Examination of one or more problems, themes, and/or figures in the developing body of Chicano literature. Prerequisites: 303, 322, plus one additional 300-level course beyond 303.

SPAN 468 Chicano Literature: Fiction (5) VLPA Nineteenth- and early twentieth-century fiction, as well as contemporary works, are examined in attempts to trace the development of Chicano fiction in the proper historical trajectory. Prerequisites: 303, 321 or 322, plus one additional 300-level course beyond 303.

SPAN 467 Spanish Women (5) VLPA/I&S Women's culture in Spain, focusing on women's experience during Civil War; persecution and censorship of women activists, artists, intellectuals during Franco years; changes in women's culture brought about by reintroduction of democracy; major issues addressed by contemporary Spanish feminists. Prerequisites: 303, 322, and one additional 300-level course beyond 303, or permission of instructor. Offered: jointly with WOMEN 467.

SPAN 468 Latin American Women (5) VLPA/I&S Issues in women's culture from various Latin American countries, social classes, ethnic groups. Includes female creativity, relationship between female artists and the male tradition, women's exploitation of women, relationship of middle-class to popular feminism, connections between feminism and social change. Prerequisites: 303, 322, and one additional 300-level course beyond 303. Offered: jointly with WOMEN 468.

SPAN 473 Latin American Fiction: Nineteenth Century (5, max. 15) VLPA Study of prose fiction in Latin America in the nineteenth century. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 474 Latin American Fiction: Twentieth Century (5) VLPA Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 475 Latin American Poetry: Colonial Through Nineteenth Century (5) VLPA Poetic movements of the seventeenth, eighteenth, and nineteenth centuries in Spanish American, Renaissance, baroque, neoclassicism, romanticism, and modernism. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 476 Contemporary Latin American Poetry (5) VLPA Evolution of Latin American poetry, from postmodernism and vanguardism to the most recent poetic expression. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 477 Latin American Essay (5) VLPA Literary expression of ideas in Latin American countries, nineteenth and twentieth centuries. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 478 Modern Latin American Theater (5) VLPA Study of the origin, development, and achievements of Latin American theater with an overview of its history prior to the twentieth century. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 480 Spanish Medieval Literature (5) VLPA Principal literary works of the Spanish Middle Ages in the context of evolving intellectual, spiritual, and artistic climates of the period. Covers the evolution of narrative and lyric prose and verse in both their traditional and learned manifestations. Prerequisites: 303, 321, and one additional 300-level course beyond 303.

SPAN 481 Sixteenth- and Seventeenth-Century Spanish Literature (5) VLPA Spanish literature of the sixteenth and seventeenth centuries. Close study of key texts from all genres as well as their socio-historical contexts. Prerequisites: 303, 321, and one additional 300-level course beyond 303.

SPAN 482 Eighteenth- through Twentieth-Century Spanish Literature (5) VLPA Survey of Spanish literature since 1700, and its historical context. Prerequisites: 303, 321, and one additional 300-level course beyond 303.

SPAN 483 Latin American Literature: Origins to Independence (5) VLPA Principal literary movements of Latin America, fifteenth through nineteenth centuries; native American cultures, chronicles of the Spanish conquest and resistance, colonial Baroque, Independence movement, romanticism and naturalism. Includes the definition of genres and of American cultural identity within a dependent context. Prerequisites: 303, 321, and one additional 300-level course beyond 303.

SPAN 484 Latin American Literature: Modernismo to the Present (5) VLPA Principal literary movements of Latin America, late nineteenth century to the present, with particular emphasis on poetry and narrative: modernismo, postmodernismo, the vanguard, nueva and novísima narrativa. Includes essays and autobiographical writings to help place the literary works in socio-historical perspective. Prerequisites: 303, 321, and one additional 300-level course beyond 303.

SPAN 485 Cultural Studies of Latin America (5) VLPA/IS Interdisciplinary exploration of connections among culture, identity, and power, and among popular, mass, and elite cultures in one or more regions of Latin America. Specific topics vary, but may include such problems as tradition, modernity, and postmodernism or national and resistance cultures. Offered: jointly with SISLA 485.

SPAN 486 Photography and Cultural Studies in Latin America (5) VLPA/IS Interdisciplinary explo-

ration of the connections between visual anthropology (ethnography through photography and film), documentary and art photography, and colonial and post-colonial discourse in Latin America during the twentieth century. Prerequisite: permission of departmental adviser. Offered jointly with SISLA 486.

SPAN 490 Honors Seminar (2-5, max. 10) VLPA Special studies in Spanish literature. Required of candidates for Honors and Distinction in Spanish.

SPAN 491 Individual Authors and Special Topics in Spanish Literature (5, max. 10) VLPA Focus on an individual Spanish author or a special problem in Spanish literature. Prerequisites: 303, 321, plus one additional 300-level course beyond 303.

SPAN 493 Foreign Study (2-10, max. 20) VLPA Advanced study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. Prerequisites: 303, 321, and one 300-level course above 303.

SPAN 495 Study in Spain (12) VLPA One-quarter study group in Spain. Course content varies from year to year. Consult the Department of Romance Languages and Literature for availability and further requirements.

SPAN 499 Special Topics (1-5, max. 10) Topics to meet special needs. Prerequisites: permission of instructor and undergraduate adviser or graduate program coordinator.

Courses in English

These courses are recommended as appropriate supporting studies for students majoring in other departments. Courses in English translation are not usually applicable toward undergraduate or graduate major programs in the Department of Romance Languages and Literature. Majors may take any of these courses for credit as one of their electives.

SPAN 317 Spanish Masterworks in English Translation (5) VLPA Spanish literary masterpieces of the twelfth to sixteenth centuries, in English translation, with consideration of their background and influence.

SPAN 318 Spanish Masterworks in English Translation (5) VLPA Spanish literary masterpieces of the seventeenth to twentieth centuries, in English translation, with consideration of their background and influence.

SPAN 320 Contemporary Latin American Literature in English Translation (3) VLPA Flores, Steele Selected texts of contemporary Latin American literature, including examples of magical realism, the New Novel, and Central American poetry, in their socio-historical context.

SPAN 339 Women Writers in English Translation (3) VLPA Feminist analysis of selected contemporary texts in English or English translation by Chicana/Latina writers in the United States; or by Spanish-American, Luso-Brazilian and/or Spanish women writers, in their specific socio-historical context. Offered: jointly with WOMEN 339.

SPAN 353 Cervantes' Don Quixote in English (5) VLPA Shipley Cervantes's Don Quixote de la Mancha: close study of this comic masterpiece, and the life, times, and works of its author. Consideration of the work's enduring influence and vitality.

Courses for Graduates Only

Romance Literature

ROMAN 593 Literary Problems: Early Modern Period (5)

ROMAN 596 Problems in Comparative Contemporary Literary Studies (5) Seminar exploring contem-

porary literary thought through theoretical and/or creative literature. A selection of texts from at least two Romance languages and literary traditions. Prerequisites: competence in at least two Romance languages; completion of several upper division literature courses; some familiarity with critical methodologies.

ROMAN 600 Independent Study or Research (*) Credit/no credit only.

ROMAN 700 Master's Thesis (*) Credit/no credit only.

ROMAN 800 Doctoral Dissertation (*) Credit/no credit only.

Spanish

SPAN 510 Methodology of Spanish Language Teaching (3) Theoretical and practical foundation for teaching Spanish. Major topics include modern theories of language and language acquisition which underlie modern methods of foreign language teaching, teaching techniques, testing, classroom relations. Emphasis on the multiple-approach direct method. Required for beginning Spanish Teaching Assistants. Credit/no credit only.

Scandinavian Languages and Literature

318 Raitt

The Department of Scandinavian Languages and Literature is concerned with the study of languages, literature, history, politics, and cultures of Denmark, Finland, Iceland, Norway, and Sweden. Emphasis is placed both on contemporary literature and culture and on their historical development. Although most courses designed for majors are taught in the original languages, a broad spectrum of courses designed primarily for nonmajors is offered in English.

Undergraduate Program

Adviser
Lotta Gavel Adams
305P Raitt

email: lotta@u.washington.edu

Bachelor of Arts

Major Requirements

Danish, Norwegian, or Swedish: At least 65 credits, of which 35 are in upper-division courses. The 65 credits include 30 credits in first- and second-year language training, 15 credits in literature courses in the chosen language, one course in Scandinavian area studies, a course in the history of Scandinavian languages, a course in Scandinavian literature in translation, and a senior essay.

Scandinavian Area Studies: 65 credits, of which 35 are in upper-division courses. The 65 credits include 30 credits in the chosen Scandinavian language (normally first and second year), a minimum of one course from each of four area studies fields (Scandinavian folklore and popular culture, literature, history, society and politics), and a senior essay.

Minor

Minor Requirements

Danish, Norwegian, or Swedish: 35 credits to include 15 credits of second-year language; 10 credits in literature courses in the chosen language; 10 credits of additional course work (minimum 5 credits at the 300 level or above) from the fields of Scandinavian folklore and popular culture, literature, history, society and politics.

Finnish: 35 credits to include 20 credits of language training; SCAND 340 (or approved substitute); and 10 credits of additional course work at the 300 level or above from the fields of Scandinavian folklore and popular culture, literature, history, society and politics.

Scandinavian Area Studies: 35 credits to include 15 credits of second-year language courses in Danish, Finnish, Norwegian, or Swedish; 20 credits of additional course work (minimum 15 credits at the 300 level or above) in two of the following fields: Scandinavian folklore and popular culture, literature, history, society and politics.

Graduate Program

Thomas DuBois, Graduate Program Coordinator
543-6099
email: tdubois@u.washington.edu

The Department of Scandinavian Languages and Literature offers graduate programs of study leading to the Master of Arts and Doctor of Philosophy degrees. For the M.A. degree, the emphasis may be placed on Old Icelandic (Old Norse), Danish, Norwegian, Swedish, or Scandinavian area studies. Each aspirant for the Ph.D. degree must complete one year's study of Old Icelandic and concentrate his or her studies primarily within one of four areas: Danish language and literature, Norwegian language and literature, Swedish language and literature, or Scandinavian philology and linguistics.

For the graduate student, the programs in Scandinavian languages and literature open several interesting areas of study: medieval, with extensive study of Old Scandinavian languages and literature, particularly Old Icelandic; modern, including (1) the eighteenth century, represented by writers such as Holberg and Bellman; (2) romanticism; (3) Ibsen, Strindberg, and their contemporaries; and (4) the twentieth century, represented by such figures as Dinesen, Hamsun, and Lagerkvist. Major attention is paid to the history of the Scandinavian languages, prose fiction, drama, and poetry. Opportunities for supervised study and specialization also exist in such areas as Scandinavian history, politics, mythology, and folklore. There are also opportunities for comparative literature study.

Master of Arts

For the M.A. degree, two options are available, each allowing the student to emphasize a target language while pursuing courses in Scandinavian languages, literature, or area studies.

1. An emphasis on Scandinavian languages and literature includes acquisition of a working knowledge of the methods of philology and literary history, theory and analysis, plus study of one secondary area.

2. An emphasis on Scandinavian area studies includes the study of Scandinavian folklore, mythology, history, politics, and society, with an emphasis in one of these areas.

Admission Requirement: Bachelor of Arts degree with major in Danish, Finnish, Norwegian, Swedish, or Scandinavian area studies, or equivalent background.

Graduation Requirements: Minimum of 40 credits in courses or seminars in Scandinavian and related subjects approved by the department, of which at least 20 credits must be in courses numbered 500 and above; reading knowledge of French or German (another non-Scandinavian language may be substituted with faculty approval); written and oral examination; option between thesis and nonthesis program. Candidates in Scandinavian languages and literature must satisfy the departmental requirements in Old Icelandic.

Doctor of Philosophy

For the Ph.D. degree, the student concentrates primarily on one of two areas: Scandinavian languages and literature or Scandinavian philology and linguistics, with an emphasis on the student's chosen target language. Major attention is given to the history of the Scandinavian languages, literary theory and genre study, and Scandinavian literary history. Opportunities for graduate work also exist in such areas as Scandinavian history, politics, mythology, and folklore.

Admission Requirement: Master of Arts degree with major in Scandinavian languages and literature or equivalent background.

Graduation Requirements: 36 credits beyond the master's degree in courses or seminars in Scandi-

nian languages and literature and related subjects approved by the department; one year's study of Old Icelandic; a reading knowledge of French and German (other non-Scandinavian languages may be substituted with faculty approval); General Examination for admission to candidacy; 27 credits of SCAND 800 (Dissertation) taken over at least three quarters and a Final Examination on the dissertation.

Financial Aid

Teaching assistantships in Danish, Norwegian, and Swedish are available, as well as occasional research assistantships.

navian novel, Isak Dinesen (Karen Blixen), H.C. Anderson.

Lecturer

Brandl, Klaus K. * 1991; PhD, 1991, University of Texas (Austin); foreign language pedagogy, computer assisted language learning, applied linguistics.

Course Descriptions

See page 56 for explanation of course numbers, symbols, and abbreviations.

Courses for Undergraduates

Danish

DANISH 101, 102, 103 Elementary Danish (5, 5, 5) Fundamentals of oral and written Danish.

DANISH 201, 202, 203 Second Year Danish (5, 5, 5) VLPA Intensive practice in speaking, reading, and writing. Review of grammar. Introduction of modern literary texts. Discussion of culture and current events in Denmark. Prerequisite: 103 or equivalent.

DANISH 310 The Danish Short Story (5) VLPA Tales and stories by H. C. Andersen and Karen Blixen as well as Blicher, Jacobsen, Pontoppidan, Bang, Seeborg, and Sørensen. Prerequisite: 203 or equivalent.

DANISH 311 Topics in Danish Literature and Culture (5) VLPA Selected topics in modern Danish literature and culture, such as women's literature, Danish identity and the European Union, contemporary drama and film, or children's literature. Prerequisite: 203 or equivalent.

DANISH 312 The Danish Novel (5) VLPA Selected Danish novels since the Modern Breakthrough. Works by Jacobsen, Bang, Jensen, Kirk, Blixen, Scherfig, Ditlevsen, and Riibjerg. Prerequisite: 203 or equivalent.

DANISH 490 Supervised Reading (* max. 10) Readings in a selected area of Danish language, literature, or related fields. Prerequisite: permission of instructor.

Finnish

FINN 101, 102, 103 Elementary Finnish (5, 5, 5) Fundamentals of oral and written Finnish.

FINN 200 Continuing Finnish (5, max. 15) VLPA Focuses on a rotating topic, e.g., Finnish folklore, minorities, literature, history, with strong emphasis on reading, writing and discussion. Prerequisite: 103 or equivalent.

Lithuanian

LITH 101, 102, 103 Elementary Lithuanian (5, 5, 5) Fundamentals of oral and written Lithuanian.

Norwegian

NORW 101, 102, 103 Elementary Norwegian (5, 5, 5) Fundamentals of oral and written Norwegian.

NORW 201, 202, 203 Second-Year Norwegian (5, 5, 5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Prerequisites: 103 or equivalent.

NORW 310 The Norwegian Short Story (5) VLPA Generic study of the Norwegian short story. Prerequisite: 203 or equivalent.

NORW 311 Drama After Ibsen (5) VLPA Prerequisite: 203 or equivalent.

NORW 312 Topics in Norwegian Literature and Culture (5, max. 15) VLPA Topics related to Norwegian literature, life, and civilization. Prerequisite: 203 or equivalent.

NORW 321 The Plays of Henrik Ibsen (5) VLPA Study of selected plays of Ibsen. Prerequisite: 203 or equivalent.

NORW 490 Supervised Reading (* max. 10) Readings in a selected area of Norwegian language, literature, or related fields. Prerequisite: permission of instructor.

Swedish

SWED 101, 102, 103 Elementary Swedish (5, 5, 5) Fundamentals of oral and written Swedish.

SWED 150 Intensive First-year Swedish (15) Fundamentals of oral and written Swedish. Intensive practice in speaking, reading, and writing. Interactive classroom, computer-assisted learning, language and reading laboratories. Emphasis on contemporary Swedish culture and society.

SWED 201, 202, 203 Second-year Swedish (5, 5, 5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Prerequisites: 103 or equivalent.

SWED 300 Swedish Women Writers (5) VLPA Readings from works by Swedish women writers. Prerequisite: 203 or equivalent.

SWED 301 Topics in Swedish Literature and Culture (5, max. 15) VLPA Topics in Swedish literature, life, and civilization. Prerequisite: 203 or equivalent.

SWED 302 The Swedish Novel (5) VLPA Selected works by novelists of the nineteenth and twentieth centuries. Prerequisite: 203 or equivalent.

SWED 352 Strindberg and His Works (5) VLPA Representative short stories, dramas, autobiographical works, poems, and one novel. Prerequisite: 203 or equivalent.
