**AFRAM 321 History of Afro-American Women and the Feminist Movement (5) I&S** "Feminist Movement" from early nineteenth century to present. Treats relationship between Black and White women in their struggle for independence, at times together and at times apart. Discusses the reasons, process, and results of collaboration as well as opposition. Examines recent and contemporary attempts at cooperation. Offered: joint with WOMEN 321.

**AFRAM 323 African-American Women's History (5) I&S *Yee*** Survey of African-American women's experience in United States, 1600 to present. Includes: social, political, economic status of Black women in slavery, freedom, education, activism, Civil Rights, women's rights, other social movements. Explores individual and collective interactions with African-American men, white men and women, other people of color.

**AFRAM 334 The Sixties in America: Conflict, Confrontation, and Concession (5) I&S *Walter*** Politico-cultural movements that collided in the sixties. Includes politics of confrontation and civil disobedience, economics of "guns and butter," literature of conflict and angst, polarization of arts, transformation of race relations, role of Rock, and influence of domestic politics on foreign relations. Recommended: AFRAM 150; AFRAM 270. Offered: jointly with HSTAA 334.

**AFRAM 337 Music and Social Change in the Sixties Era (5) I&S/VLPA *Walter*** Introduction of popular music and social change in 1950s and

1960s. How this interaction effects significant change. Considers political activism for civil rights and against the Vietnam War as they intersect with the development of rock and roll, R&B, acoustic and political folk music, and post-bop jazz.

**AFRAM 340 The Harlem Renaissance: A Literary Study (5) VLPA** Highlights Harlem Renaissance — 1912 through mid-1930s — as establishing a role for twentieth-century African-American writer, encompassing literature, politics, and decolonization of the image of Africa, and solidifying integrationist and nationalist schools of thought. Examines images, themes, and characterizations in creating a literary aesthetic simultaneously American and African-American.

**AFRAM 350 The Black Aesthetic (3) I&S/VLPA**

**AFRAM 358 Literature of Black Americans (5) VLPA *Butler, Moody*** Selected writings—novels, short-stories, plays, poems—by Afro-American writers. The historical and cultural context within which they evolved. Differences between Afro-American writers and writers of the European-American tradition. Emphasis varies. Offered: jointly with ENGL 358.

**AFRAM 370 Afro-American Political Thought (5) I&S** Political ideologies and philosophies of pivotal Afro-American historical figures and the conditions under which these ideologies are developed, rejected, and transformed. How ideologies relate to solution of Afro-American political problems.

**AFRAM 401 Intermediate Swahili (5) VLPA** Readings from prose to traditional poetry. Emphasis on acquiring an ability to manipulate ideas in Swahili. Review of structure. Prerequisite: either AFRAM 308 or AFRAM 309.

**AFRAM 402 Intermediate Swahili (5) VLPA** Readings from prose to traditional poetry. Emphasis on acquiring an ability to manipulate ideas in Swahili. Review of structure. Prerequisite: AFRAM 401.

**AFRAM 403 Intermediate Swahili (5) VLPA** Readings from prose to traditional poetry. Emphasis on acquiring an ability to manipulate ideas in Swahili. Review of structure. Prerequisite: AFRAM 402.

**AFRAM 437 Blacks in American Law (5) I&S *Walter*** Historical continuity for changing relationship between American jurisprudence and Black Americans, 1640-1986. Statutory and case law which determined role of Blacks in American society, and use of law by Blacks to gain civil and personal rights.

**AFRAM 498 Special Topics in African American Studies (3-5, max. 15) I&S** Topics in which students and faculty have developed an interest as a result of work done in other classes or as a result of the need to investigate in greater depth Afro-American Studies issues. Topics vary.

**AFRAM 499 Independent Study and Research (1-5, max. 10)** Identification and investigation of the problems and needs of the Black community. Methods and alternatives of approaching these problems and needs. Students designate their areas of interest and subsequently pursue research and problem solving.

## American Ethnic Studies

**AES 150 Introductory History of American Ethnic Groups (5) I&S *Gamboa, Salas*** Survey of the history of African Americans, Asian Americans, Chicanos, and American Indians in the United States.

**AES 151 Introduction to the Cultures of American Ethnic Groups (5) I&S** Survey of the cultures of Chicano, African-American, Asian-American, and American-Indian communities of the United States. Each group's culture is examined in its isolation and in its interaction with mainstream culture.

**AES 212 Comparative American Ethnic Literature (5) I&S/VLPA *Butler*** Selected texts from the African-American, American-Indian, Asian-American, Chicano/Latino, and Euro-American traditions of American literature. Examines the American Dream, identity, community, conformity, individualism, and family. Explores themes of assimilation, double consciousness, *mezziza* consciousness, and wholeness as an introduction to multiple American voices in literary expression.

**AES 250 Race in the American University (5) I&S** Racial integration in American institutions of higher education. Entry to, and impact on, American universities by people of color. History of ethnic studies and its relation to other disciplines. Recommended: AES 150; AES 151.

**AES 310 Women of Color as Cross-Cultural Artists (5) I&S/VLPA *Habell-Pallan*** Provides a historical context for artistic forms produced by racialized women. Examines the cultural production of Chicanas and Latinas in relation to that Native American, African American, East and South Asian American, and Arab American women as well as those women of mixed heritage in the U.S. Offered: jointly with WOMEN 351.

**AES 322 Race and Gender: Historical Perspectives (5) I&S** The intersection of race and gender in the lives of women of color in the United States from historical and contemporary perspectives. Topics include racism, sexism, activism, sexuality, and inter-racial dynamics between women of color groups. Offered: jointly with WOMEN 322.

**AES 330 Beyond Civil Rights: Law, Culture, and Change (5) I&S** Assessment of the contemporary politics of civil rights as shaped by an identity politics that is both significant and *passee*. Recommended: LSJ 363 or one course in either AES or WOMEN. Offered: jointly with LSJ 330.

**AES 333 Race and Ethnicity in the U.S. Military (5) I&S *Salas*** The experiences of racial minorities in the military. Topics include segregation of units, desegregation of military, career limitations and opportunities, minority women, military families, racism and role of veterans in civil rights struggles after service.

**AES 335 Sports and Social Change in the Twentieth Century (5) I&S *Walter*** Development of sport in the US and its importance for US culture and society. Covers increased centrality of athletic competition as part of the new leisure time in the late-19th century, revival of the Olympic movement, racial segregation/integration, today's American notions of celebrity and social style.

**AES 340 Race, Ethnicity, and Education (5) I&S** Focuses on critical social and political dimensions of race and ethnicity as they relate to issues and practices of pedagogy and power in American education. Considers schooling as sites at which contemporary politics of diversity play out amidst increasingly diverse demographics of students, teachers, and parents.

**AES 361 Ethnicity, Business, Unions, and Society (5) I&S** *Scott* Interrelationships of ethnicity, business, unions, and the larger society. Examines financial and sociological structure of business and manufacturing sector, how this sector performs, and consequences of performance for selected ethnic groups in United States. Offered: jointly with SOC 363.

**AES 389 Race, Gender, and Sexuality in the Media (5) I&S** Introduction to media representations of gender, race, and sexuality. Offered: jointly with COM 389/WOMEN 389.

**AES 404 Critical Pedagogies of Social Change (5) I&S** Examines theories of critical pedagogy as developed in struggles against race, class, and gender oppression in the U.S. and transnationally. Topics include the relation between theory and practice, the position of educators in struggles for social change, and the role of the arts in movement-building. Offered: jointly with WOMEN 404.

**AES 446 Music in American Cultures (3) I&S/ VLPA** Compares musical history and experience of selected American cultures that have fed into the American musical mainstream or had significant popularity on its periphery. Case studies may include African Americans, Latino/a Americans, Jewish Americans, Asian Americans, or European Americans. Considerations of social identity as well as musical styles. Offered: jointly with MUSIC 446.

**AES 461 Comparative Ethnic Race Relations in the Americas (5) I&S** Sketches the ethnoracial systems operating in American society. Studies these systems as systems and examines their institutional and interpersonal dynamics. Compares ethnoracial systems in order to arrive at empirical generalizations about race/ethnorelations in the Americas. Offered: jointly with SOC 461.

**AES 462 Comparative Race and Ethnic Relations (5) I&S** *Scott* Race and ethnicity are examined as factors of social differentiation in a number of Western and non-Western societies in Europe, Africa, Asia, and the Americas. Offered: jointly with SOC 462.

**AES 487 Cultures and Politics of Environmental Justice (5) I&S** *Pena* Comparative survey of environmental justice movements in the world with focus on critical studies of environmental racism, risk, and sustainable development. Provides theoretical knowledge and research methods incorporating the study of equity and autonomy in environmental impact and risk assessment and other aspects of environmental policy politics. Offered: jointly with ANTH 487.

**AES 490 Representing Beyond the Binaries: Mixing Race, Gender, and Sexuality in the Media (5) I&S** *Joeseeph* Cultural studies approach to examining the mixed formations that race, sexuality, and gender take in the contemporary United States media. Draws upon multi-disciplinary scholarship in examination of the media. Offered: jointly with COM 490/WOMEN 486.

**AES 494 Community Practicum and Internship (3-5, max. 10)** Faculty supervised practicum and internship experience in variety of settings and agencies, e.g., ethnic specific agencies, government and civic community-based offices. Students contribute skills and knowledge to respective communities and gain experience by working with professionals and community organizers. Credit/no credit only.

**AES 495 Senior Seminar (5) I&S** Focus on a central comparative theme for individual research topics.

**AES 496 Senior Thesis (5-10) I&S** Supervised individual and independent/tutorial study for seniors involving research, writing, and completion of major 20-30 page paper. Offered: AWPpS.

**AES 498 Special Topics in American Ethnic Studies (1-5, max. 15) I&S** Designed to provide the student an opportunity to concentrate on one specific aspect of American Ethnic Studies through a comparative, interdisciplinary approach.

**AES 499 Independent Study or Research (1-5, max. 10)** Independent readings and/or research under the supervision of a faculty member.

## Asian-American Studies

**AAS 101 Introduction to Asian American Cultures (5) I&S** Asian-American subcultures; evolution of Asian-American cultures in the United States from 1850 to 1950-immigration patterns, evolution of subcultures, evacuation, interracial relations, assimilation, and signs of social disorganization.

**AAS 206 Contemporary Problems of Asian Americans (5) I&S** Recent Asian-American issues from 1950 to the present. Topics include ghetto communities, civil rights, identity problems and ethnicity, social organizations, political movements, and recent immigration.

**AAS 210 Asian-American Identity (5) I&S** Examines the nature of Asian-American identity from a multidisciplinary approach. Explores influences and manifestations of Asian-American identity, using literature, history, and other texts. Topics to include gender issues, interracial relationships, and Amerasians. Recommended: AAS 101; AAS 206.

**AAS 220 Asian-American Stereotypes in the Media (5) I&S** Asian stereotypes popularized by American literature, film, radio, and television and their effects on Asian American history, psychology, and community.

**AAS 300 U.S. Pacific Islander Contemporary Culture (5) I&S** *McGrath* Examines U.S. Pacific Islander culture as informed by Pacific history, social and cultural organization. Emphasis on understanding contemporary experience in the U.S. and other diaspora communities. Major themes include post-colonialism, migration, family, religion, politics, gender, education, and transnational identity. Recommended: either ANTH 202 or AES 151. Offered: jointly with ANTH 307. Offered: Sp.

**AAS 306 Basic Tagalog (5)** Structure of spoken and written Tagalog. Concentration on the acquisition of elemental conversational skill and introduction to written texts of graded difficulty. Offered: A.

**AAS 307 Basic Tagalog (5)** Structure of spoken and written Tagalog. Concentration on the acquisition of elemental conversational skill and introduction to written texts of graded difficulty. Prerequisite: AAS 306. Offered: W.

**AAS 308 Basic Tagalog (5)** Structure of spoken and written Tagalog. Concentration on the acquisition of elemental conversational skill and introduction to written texts of graded difficulty. Prerequisite: AAS 307. Offered: Sp.

**AAS 314 Ethnography, Transnationalism, and Community in Island Southeast Asia/Asian American (5) I&S** *Lowe* Ethnographic exploration of the transformative processes of transnationalism in relation to identity and community formation in Southeast Asia and among Southeast Asian Americans. Experiential learning format concentrates on mini-ethnographic projects, field trips, and group presentations. Prerequisite: either one 200-level ANTH course or one AAS/AES course. Offered: jointly with ANTH 314.

**AAS 320 Hawaii's Literatures (5) VLPA** *Sumida* Prose fiction, historical narratives, and poetry (including lyrics and songs) of Hawaii by Native Hawaiian and multicultural local writers and composers of the nineteenth and twentieth centuries. Analyses of colonization and its consequences frame the literary studies.

**AAS 330 Asian American Theater (5) VLPA** *Sumida* Explores works of Asian American plays in historical, interpretive, and artistic contexts and dimensions. Includes students' performances of dramatic readings.

**AAS 350 Chinese American History and Culture (5) I&S** Experience of the Chinese in America from 1850 to the present. Transformation from an immigrant to Chinese American community: immigration patterns, anti-Chinese movements, ethnic sociopolitical and economic institutions, community issues, Chinese American culture. Recommended: AAS 205.

**AAS 360 Filipino-American History and Culture (5) I&S** *Revilla* History and culture of the Filipino in America and the influence of an admixture of Filipino, Spanish, and American traditions on the Filipino immigrant and his or her descendants. Recommended: AAS 205.

**AAS 370 Japanese-American History and Culture (5) I&S** Historical roots and subsequent changes in the Japanese-American group examined through an interdisciplinary approach. Topics include historical events, culture, values, social and community structures, institutions, occupations, and future orientations. Recommended: AAS 205.

**AAS 372 Internment Camps in North America: United States and Canada (5) I&S** Comparative study of United States and Canadian internment camps incarcerating Japanese Americans and Japanese Canadians during World War II. Focuses on early history, dislocation and internment, effects (disorganization and adjustments), effects on the internees and society, and present situation.

**AAS 380 Asian-American Communities and Social Policies (5) I&S** History, culture, social organization, leadership patterns and interethnic relations of Asian-American (Chinese, Filipino, Japanese, and Korean) communities. Origins and impact of social policies relevant to Asian-American communities. Recommended: AAS 205

**AAS 385 Asian Americans: The Law and Immigration (5) I&S** Traces the evolution of United States immigration law and policy from the nineteenth century to modern day, from free immigration to immigration restriction, through the elimination of race as a criterion, and culmination in the passage of the Simpson-Mezzoli bill. Recommended: AAS 205 or AAS 206.

**AAS 392 Asian-American Women (5) I&S** History of and contemporary issues related to Asian-American women in the United States. Recommended: AAS 205 or AAS 206. Offered: jointly with WOMEN 392.

**AAS 395 Southeast-Asian Americans: History and Culture (5) I&S**

**AAS 401 Asian-American Literature to the 1940s (5) VLPA** Asian-American literature from nineteenth-century immigrants to the 1940s. Emphasis on Chinese, Japanese, and Filipino writings detailing the experience and sensibility of first generation immigrants. Early twentieth-century writing focus on the development not only of Asian-American community, but also of second generation American-born Asian-American writers. Recommended: AAS 205 or AAS 206.

**AAS 402 Contemporary Asian-American Literature (5) VLPA** Asian-American literature from the 1940s to the present. Emphasis on the development of attitudes and identities in contemporary Asian-American literature, the role of the writer in a minority culture, and the relationship of literature to self and society.

**AAS 403 Survey of Asian-American Poetry (5) VLPA** Asian-American poetry, nineteenth century to present. Readings include poetry of the early immigrant to America, cultural imperatives transferred from old world to new world, and establishment of an Asian-American identity in poetry from 1870s through 1890s.

**AAS 406 Asian American Activism (5) I&S** Explores the multiple political traditions forged by Asian Americans, from the earliest challenges to racist laws and unequal wages to the latest debates over affirmative action and racial profiling. Examines Asian American communities organized to oppose and to perpetuate social inequalities. Offered: jointly with HSTAA 406.

**AAS 416 Intermediate Tagalog (5) VLPA** Readings from prose to traditional poetry. Emphasis on acquiring an ability to manipulate ideas in Tagalog. Review of structure. Prerequisite: AAS 308. Offered: A.

**AAS 417 Intermediate Tagalog (5) VLPA** Readings from prose to traditional poetry. Emphasis on acquiring an ability to manipulate ideas in Tagalog. Review of structure. Prerequisite: AAS 416. Offered: W.

**AAS 418 Intermediate Tagalog (5) VLPA** Readings from prose to traditional poetry. Emphasis on acquiring an ability to manipulate ideas in Tagalog. Review of structure. Prerequisite: AAS 417. Offered: Sp

**AAS 426 Advanced Tagalog (5) VLPA** Reading of contemporary Filipino (Tagalog) prose, poetry, and drama. Advanced conversation and composition. Prerequisite: AAS 418. Offered: A.

**AAS 427 Advanced Tagalog (5) VLPA** Reading of contemporary Filipino (Tagalog) prose, poetry,

and drama. Advanced conversation and composition. Prerequisite: AAS 426. Offered: W.

**AAS 428 Advanced Tagalog (5) VLPA** Reading of contemporary Filipino (Tagalog) prose, poetry, and drama. Advanced conversation and composition. Prerequisite: AAS 427. Offered: Sp.

**AAS 498 Special Topics (5, max. 10) I&S .**

**AAS 499 Undergraduate Independent Study (1-5, max. 10)**

## Chicano Studies

**CHSTU 101 Introduction to Chicano Studies (5) I&S** *Gamboa, Salas* Selected themes in Chicano experience; studies in Chicano politics and Chicano socioeconomic concerns.

**CHSTU 180 History of the Chicano People to 1848 (5) I&S** *Gil* Historical survey of the Chicano people from pre-Hispanic times to the war between the United States and Mexico. Offered: jointly with HSTAA 283.

**CHSTU 200 Latinos in the United States (5) I&S** *Gamboa, Salas* Historical, social, and economic experience of Latinos in the United States. Major themes include education, labor, class, and gender identity. Analyzes rapid growth of old and newly established Latino communities, based on emigration from Latin America.

**CHSTU 254 Northwest Latinos: History, Community, Culture (5) I&S** *Gamboa* Traces the history, extent, and development of the Chicano/Latino presence from the early Spanish period to the present. Examines the major contemporary political, social, and economic issues affecting Northwest Chicano/Latinos in a broader national and international context.

**CHSTU 255 Mexican Women: Past and Present (5) I&S** *Salas* Survey of women in Mexican society from Meso-American times to the 1940s.

**CHSTU 256 Chicanas: Gender and Race Issues (5) I&S** *Salas* Contemporary issues in the Chicana movement since the 1940s. Issues range from feminism and Chicana political, educational, and social organizations, to work, family, health, and the arts.

**CHSTU 260 Introduction to Chicano Politics (5) I&S** Surveys the political position and activities of Mexican-American peoples in the United States from two perspectives: (1) Chicanos as objects of the political process of United States life, (2) contributions of the Chicano people to United States politics.

**CHSTU 330 Chicano/Chicana Autobiography (5) I&S** Explores the issue of Chicano, or Mexican-American, identity. Examines statements of selfhood by Chicanos, studied in order to understand the relationship between individual and society in creating identity.

**CHSTU 340 Latina/Latino Theater (5) VLPA** *Habell-Pallan* Explores the contextual, theoretical, thematic, and formal dimensions of U. S. Latina and Latino theater and performance art in the contemporary period. Examines performances and play scripts as a way of analyzing innovations in form, language, and content produced by Chicano/Latino teatro and performance art.

**CHSTU 352 Mexican Immigration: A Comparative Analysis (5) I&S** *Gamboa, Salas* Examines and compares constant Mexican immigration with that of other immigrants to the United States as one of the most important issues confronting Chicanos and other Americans in the United States.

**CHSTU 356 The Chicano Family (5) I&S** *Salas* The historical, psycho-social, and sociocultural role of the Chicano family from Meso-American times to the present.

**CHSTU 405 Advanced Chicano Studies (5) I&S** *Gamboa* Chicano culture as related to current values and health practices, Mexican labor and immigration in both historical and contemporary setting. Chicano politics 1848 to present. Recurrent problems of Chicanos in society; social movement for acceptance and for self-determination.

**CHSTU 410 Latina Cultural Production (5) I&S/VLPA** Explores the expressive culture of Chicana/Mexican American/Latina women in the United States. Cultural and artistic practices in home and in literary, music, film, spoken word, performing and visual arts. Focuses on how Chicana/Latina writers and artists re-envision traditional iconography. Offered: jointly with WOMEN 451.

**CHSTU 416 Comparative Social Movements: Mexico and the United States (5) I&S** *Pena* Historical, ethnographic, and theoretical perspectives in the study of Mexican-origin communities in social movements in Mexico and the United States with a focus on workers, immigrants, peasants, women, indigenous peoples, and students as forces of collective mobilization and social, cultural, and political change. Offered: jointly with ANTH 416.

**CHSTU 498 Special Topics in Chicano Studies (3-5, max. 10) I&S** *Gamboa, Olguin, Salas* Interdisciplinary course concentrating on one or more aspects of the Chicano experience.

**CHSTU 499 Independent Study and Research (1-6, max. 10)** *Gamboa, Olguin, Salas* Students work individually or in teams.

---

## American Indian Studies

**AIS 102 Survey of American Indian Studies (5) I&S** Explores basic issues of American Indian Studies including theories about American Indian origins and demography; the impact of European disease and colonialism, the formation of American Indian stereotypes, the resistance of native peoples to racism and oppression, and the treaty status and continuing challenges for Indian nations. Introduces American Indian Studies faculty and their research and teaching specialties.

**AIS 110 Musical Traditions of Native North America (3) VLPA** Utilizes historical and contemporary sources to survey the music and music-related traditions of Native North America. Examines traditional music and context from the Northwest Coast, Arctic, Southwest, Great Basin, Plains, Plateau, California, and Eastern Woodlands music-style areas, as well as contemporary neo-traditional and popular genres of American Indian music.

**AIS 113 American Indian Language: Navajo (5)** *Witherspoon* Conversation, reading, and

writing in Navajo. Oral literature and other aspects of Navajo culture integrated into language study.

**AIS 114 American Indian Language: Navajo (5) *Witherspoon*** Conversation, reading, and writing in Navajo. Oral literature and other aspects of Navajo culture integrated into language study. Prerequisite: AIS 113.

**AIS 115 American Indian Language: Navajo (5) *Witherspoon*** Conversation, reading, and writing in Navajo. Oral literature and other aspects of Navajo culture integrated into language study. Prerequisite: AIS 114.

**AIS 151 Indian Art of Northwest Coast (3) VLPA *Oliver*** Studio course on Pacific Northwest coast Indian/Eskimo art. Traditional and contemporary forms; principles of form, style, and techniques; values that influence Indian/Eskimo art styles.

**AIS 170 Survey of North American Indian Art (5) VLPA** Major American Indian art traditions of North America. Precontact and early-contact-era traditions and the evolution of Indian art forms in contemporary times. Design and techniques in Indian art.

**AIS 201 Introduction to American Indian Histories (5) I&S *Harmon*** Survey of histories of Indians in the U. S. from native perspectives. Presents traditional creation accounts and oral histories, archaeological, and historical evidence. Focus is cultural dynamics, considering change and continuity through prehistoric, protohistoric, colonial, and American periods.

**AIS 202 Introduction to Contemporary Experience in Indian America (5) I&S** Survey of contemporary Native-American people, cultures, and issues. Focus on modern experiences through readings from Native-American autobiographies, contemporary narratives and literature, and reports of important topical issues, e.g., water rights, Indian gaming, treaty law.

**AIS 203 Introduction: Philosophical and Aesthetic Universes (5) I&S** Social constructions of reality, aesthetic as well as philosophic, as conceptualized by approximately five traditional American Indian cultures from different regions of North America.

**AIS 230 Contemporary Indian Gaming and Casinos (5) I&S *Wright*** Overview of the contemporary \$18.5 billion Indian Tribal gaming industry (with a focus on the Pacific Northwest), which is heavily regulated, is an economic engine for non-Indian communities, and funds economic, social and cultural revitalization of Indian Reservations, yet often generates intense political discussions. Offered: .W.

**AIS 240 Native North American Women (5) I&S** Indian women in the social structure; historical and contemporary roles; changes in male-female relationships; problems and opportunities of contemporary women; the feminist movement and Indian rights.

**AIS 253 Wood Design (5) VLPA *Oliver*** Studio course in wood sculpture utilizing Pacific Northwest Indian hand tools. Properties of woods and their uses.

**AIS 270 Native Peoples of the Pacific Northwest (5) I&S** Examines indigenous societies on the Pacific Northwest's western

slope, from southeast Alaska to California, including social structures and relations, subsistence strategies, belief systems, and changes over time, both before and after non-Natives' arrival.

**AIS 271 Native Peoples of the Intermountain West (5) I&S** Examines societies of the Columbia and Fraser River Plateau and Great Basin, including social structures and relations, subsistence strategies, belief systems, and changes over time, both before and after non-Natives' arrival.

**AIS 272 Native Peoples of the Southeast (5) I&S** Examines indigenous societies of North America's southeastern sector, including social structures and relations, subsistence strategies, belief systems, and changes over time, both before and after non-Natives' arrival.

**AIS 317 North American Indians: The Southwest (5) I&S *Witherspoon*** Overview of history and ethnography of the Southwest with emphasis on Apacheans, Pueblos, and Pimans/Yumans. Social organization, religion, worldview, and expressive culture of such specific groups as Navajo, Hopi, Zuni, Tewa, and Tohono O'odham.

**AIS 330 United States-Indian Relations (5) I&S *Harmon*** History of relations between American Indians and non-Indians in the U. S. with emphasis on national laws and policies. Examines origins and impacts of Indians' and non-Indians' strategies for dealing with each other, historical reasons for Indians' contemporary conditions and status.

**AIS 331 American Indian History I: European Discovery to 1840 (5) I&S *Harmon*** History of Indigenous peoples and their descendants in the area that now constitutes the United States, from the eve of European discovery of the Americas to 1840. Emphasis on relations between Indigenous peoples and immigrants. Offered jointly with HSTAA 331.

**AIS 332 American Indian History II: 1840 to Present (5) I&S *Harmon*** History of American Indians in the United States from 1840 to the present. Emphasis on relations between Indians and non-Indians, government policies, and Indian strategies of survival. Offered jointly with HSTAA 332.

**AIS 335 American Indians and the Law (5) I&S *Harmon*** History of laws governing American Indians: aboriginal law systems, U. S. laws, and contemporary tribal laws. Effects of laws and legal institutions on contemporary Indian identity and tribal status, self-government, land ownership and use, natural resources, religion, family life, cultural and spiritual practices, crimes and punishment, and federal responsibilities for Indians.

**AIS 340 Indian Children and Families (5) I&S** Cross-cultural survey of Indian child rearing, family structure, and related social issues. Includes historical changes in family structure, value orientation and adaptation to a bicultural environment, education, child welfare, health problems, and aging.

**AIS 341 Native Women in the Americas (5) I&S** Historiography, sociology, biography, autobiography, and fiction about native women in the United States and Canada. Offered: jointly with WOMEN 341. Offered: AWSpS.

**AIS 350 Two-Dimensional Art of the Northwest Coast Indians (5) VLPA *Oliver*** Studio course emphasizes principles of structure and style of two-dimensional art which can be found on many old, traditional Northwest Coast pieces, such as painted storage boxes and chests, house panels, and ceremonial screens. Students apply these principles in creating a variety of graphic projects.

**AIS 360 American Indians in Cinema (5) VLPA/ I&S *Colonnese*** representations of American Indians in American films from 1900 to present. Examines the foundations of American Indian stereotypes and how Hollywood helped create and perpetuate those stereotypes. Activities include reading critical materials, and viewing, discussing, and writing critically about films by non-native directors. Offered: ASpS.

**AIS 370 Researching Indians' History (5) I&S *Harmon*** Finding and interpreting sources of information about American Indians' history. Offered: jointly with HSTAA 315.

**AIS 376 First Nations Literature (5) VLPA *Cote*** Literature written by First Nations Canadian authors as a form of cultural resistance and a reasserting of identity. Offered: S.

**AIS 377 Contemporary American Indian Literature (5) VLPA *Colonnese*** Creative writings—novels, short stories, poems—of contemporary Indian authors; the traditions out of which these works evolved. Differences between Indian writers and writers of the dominant European/American mainstream. Offered: jointly with ENGL 359.

**AIS 378 Contemporary American Indian Literature: A Northwest Focus (5) VLPA** Literature and poetry of the Pacific Northwest (Coast and Plateau) Native peoples. Contemporary literature and discussion of social and cultural issues raised by American Indian writers and writing. Offered: AW.

**AIS 379 Powwow: Tradition and Innovation (5) VLPA/I&S** Explores the historical and cultural roots of powwow. Discusses the ways this Indigenous Native art form has adapted since prehistoric times. Includes planning and staging of the annual UW First Nations Powwow.

**AIS 425 Indians in Western Washington History (5) I&S *Harmon*** Relations of Indians and non-Indians in the Puget Sound region, from the 1790s to the present, with emphasis on evolving ideas about Indian identity. Offered: jointly with HSTAA 417.

**AIS 431 History of American Indian Education (5) I&S** Traditional and European-introduced methods of schooling, the federal role in Indian education, and contemporary Indian education issues. Special attention to Indian concepts of learning; boarding school education; the role of the Bureau of Indian Affairs; current trends in bilingual and bicultural education for Indians.

**AIS 435 Spiritual Encounters: Native Spirituality in the Contact Era (5) I&S *Wright*** Explores North American Indigenous interaction with, resistance to, and syncretization with Christianity, the European colonizers' religious system. Focuses on Native revitalization movements and new forms of religious expression such as the Indian Shaker Church and the Peyote Road, as well as the legal, social, and cultural issues of Native freedom of religion. Offered: W.

**AIS 440 Reading Native American Women's Lives (5, max. 10) I&S** Ross Seminar based on social science writings, autobiographies, biographies, and fiction written by, with, or about indigenous women of the United States and Canada. Offered: jointly with WOMEN 440.

**AIS 441 Gender in Native American Societies (5) I&S** Cote\*f Examines gender roles, identity, and relations in Native American pre- and post-contact societies. Analyzes how contact with European gender customs influenced and altered traditional gender practices, especially in regards to women's social position and the roles of the third/fourth genders in Native American communities.

**AIS 442 Images of Natives in the Cinema and Popular Cultures (5) I&S/VLPA** Ross Cultural examination of images of native people in cinema and popular culture based on social science writings and films by or about natives in the United States and Canada. Offered: jointly with WOMEN 442.

**AIS 443 Indigenous Films, Sovereign Visions (5) VLPA/I&S** Cote\*f, Hart, Ross Explores fiction, documentary, experimental film, and digital media from indigenous artists from around the world. Focuses on personal, political, and cultural expression. Issues include media and sovereignty movements, political economy, language revitalization, the politics of decolonization, and indigenous aesthetics. Offered jointly with COM 443.

**AIS 444 Criminality and "Deviance" in Native Communities (5) I&S** Seminar based on social science writings and biographies written by and about incarcerated natives and "deviance" in Native communities in the United States and Canada. Prerequisite: AIS 330; WOMEN 200; WOMEN 310. Offered: jointly with WOMEN 444.

**AIS 446 American Indian Economic History (5) I&S** Harmon Surveys and analyzes the history of American Indians' economic challenges and strategies. Topics include the economic cultures of Indigenous North American societies, the impacts of European colonization and U.S. government policies, and tribal strategies aimed at improving Indians' economic circumstances. Offered: jointly with HSTAA 446.

**AIS 450 American Indian Song and Dance Tradition: Performance (3) VLPA** Performance of various American Indian social dances, songs, and games. In-depth study of various American Indian vocal styles.

**AIS 451 Critical Conversations in American Indian Studies (5, max 10)** Critical issues in American Indian Studies. Topics vary. Offered: Sp.

**AIS 461 First Nations Government and Politics in Canada (5) I&S** Cote\*f Focuses on First Nations government and politics in Canada. Examines development of First Nations political governing structures with an introduction to the values, perspectives, concepts, and principles in Native political cultures. Explores federal Indian policy in context of First Nations strategies to become self-governing.

**AIS 465 First Nations Filmmaking in Canada (5) VLPA** Cote\*f Examines First Nations video production in Canada; how film is utilized as a medium for addressing issues significant to First Nations. First Nations filmmakers "decolonize"

the screen by providing real and positive images of First Nations people that correspond to their cultural and social experiences.

**AIS 466 Producing the Documentary Short (5) VLPA** Cote\*f, Gibbons, Hart, Ross Explores documentary theory, methods, and aesthetics. From humanities, social science, and Indigenous studies perspectives, students critique a self-produced documentary, looking at methodology, perspective, and ethics. Students also explore pre-production, production, and post-production documentary techniques.

**AIS 469 Special Studies in American Indians (3, max. 6) I&S** Delineation and analysis of a specific problem or related problems in American Indian Studies. Offered occasionally by visitors or resident faculty.

**AIS 475 Special Topics in Indian Studies (1-5, max. 15) I&S** Current research and readings in American Indian Studies content areas.

**AIS 498 Senior Project (5)** Intensive research and presentation on a selected issue. For students majoring in American Indian Studies or other advanced students by permission. Offered: AWSp.

**AIS 499 Independent Study (1-5, max. 15)** Readings and/or research under faculty supervision.

**AIS 501 Documentary Film/Video Research Methods in Native Communities (5)** Seminar exploring theoretical, methodological, and aesthetic issues when research documentary film and video projects in Native American communities. Utilizes readings, screening, discussions, and a major research project to explore issues of documentary representation, ethics, and historiography. First part of a two-quarter documentary production sequence. Offered: AWSpS.

**AIS 503 Documentary Theory, Form, and Practice (5)** Explores documentary theory and practice, utilizing readings and documentary filmmaking exercises. Students create short documentary sequences while investigating traditional and more experimental ideas about the non-fiction form; theories of representation, subject ethics, documentary authenticity, the intersection of fiction and non-fiction forms, documentary and performance, documentary and historiography.

**AIS 590 Special Topics (1-5, max. 15)** Offered by visitors or resident faculty as a one-time, in-depth study of special interest.

---

## Anthropology

### Anthropology

**ANTH 100 Introduction to Anthropology (5) I&S** Introduction to the subfields of archaeology, biocultural anthropology, and sociocultural anthropology through the examination of selected problems in human physical, cultural, and social evolution. Not recommended for students who have had other courses in anthropology, archaeology, or biocultural anthropology. May not be counted toward the 55 credits required for the major in anthropology. Offered: AWSp.

**ANTH 101 Exploring Sociocultural Anthropology (5) I&S** Chapman, Hoffman, Lowe, Taylor Introduces perspectives from sociocultural anthropology on the diversity and the dynamics of collective human life. Examines how individual lives are shaped by broader social and cultural contexts, how people make meaning, and how power relations work. Introduces ethnography as a method for documenting and understanding social and cultural life. Offered: AWSp.

**ANTH 150 Culture and Rights: Exploring the Meaning and Practice of Human Rights (5) I&S** Examines social justice issues with the aim of obtaining deeper understanding of human rights. Analyzes historical and theoretical foundations and introduces international and regional institutions designed to implement and enforce human rights. Case studies in sovereignty, war crimes, ethnic cleansing, genocide, torture, truth commissions, and forgiveness.

**ANTH 202 Principles of Sociocultural Anthropology (5) I&S** Comparison of lifeways of various non-Western and Western peoples. Introduction to basic theories and methods used in the field.

**ANTH 203 Introduction to Anthropological Linguistics (5) I&S/VLPA** Linguistic methods and theories used within anthropology. Basic structural features of language; human language and animal communication compared; evidence for the innate nature of language. Language and culture: linguistic relativism, ethnography of communication, sociolinguistics. Language and nationalism, language politics in the U.S. and elsewhere. Offered: jointly with LING 203.

**ANTH 204 Reading Ethnography (5) I&S** Introduction to the descriptive and analytic literature of cultural anthropology. Extended examination of representative accounts of the lifeway of peoples from selected areas of the world with an emphasis on methods of observation and analysis.

**ANTH 206 The Cultural Animal (5) I&S/NW** Examination of the interaction between biology and culture in shaping human social behavior. Basic principles of natural selection, gene-environment interaction, cultural transmission, learning, and cultural evolution; application of these to various topics, including gender, violence, politics, kinship, and religion.

**ANTH 207 Class and Culture in America (5) I&S** Anthropological view of the contemporary United States with emphasis on social class. Through ethnographic readings examines education, work, political economy, working class experience and the ideology of the middle class, and relations between class and race, gender, ethnicity, language, place, sexuality, and culture.

**ANTH 208 The Culture Concept (5) I&S** History of the culture concept and its use in the field of cultural anthropology. History of its emergence in European colonial expansion and contemporary debates about its place as the central concept defining the field of anthropology.

**ANTH 209 Anthropology Through Visual Media (5) I&S/VLPA** Theories of culture and cultural variation, as seen and understood through visual media such as films, video, and photography.

**ANTH 210 Introduction to Environmental Anthropology (5) I&S** Introduction to human/

environment interactions from various anthropological perspectives. Intellectual history of anthropological approaches to environment, emphasizing the mutual interconnectedness of people and nature. Survey of evolutionary models; cultural ecology; systems approaches; indigenous knowledge; ethnoecology; nature and the state; political ecology; ecofeminism; and environmentalism.

**ANTH 228 Identities: Race, Class, Gender, and Sexuality in Anthropology (5) I&S** An introduction to the study of race, class, gender, and sexuality in anthropology. Through ethnographic and theoretical readings, students are introduced to the concept of identity as intersectional construction and social performance.

**ANTH 269 Special Topics in Anthropology (3-5, max, 10)** Delineation and analysis of a specific problem or related problems in anthropology. Offered: occasionally.

**ANTH 289 Identities: Service Learning (3) I&S** . Engages students in volunteer activities in order to explore the process of social change around intersections of race, class, gender, and sexuality. A service learning companion course to ANTH 228. Students must be enrolled in ANTH 228 in order to enroll in ANTH 289

**ANTH 301 Human Nature and Culture (3) I&S** Comparison of various anthropological perspectives on the sources of variation in customs, values, and beliefs of human groups, including non-Western peoples and contemporary Americans.

**ANTH 305 Anthropology of the Body (5) I&S** Surveys classic anthropological literature examining the relationship between culture and the body. Examines Euroamerican body culture historically. Explores how the body is represented in mass media and the effects this has on everyday body ideologies.

**ANTH 306 Representations of the Pacific Islands and Islanders (3) I&S/VLPA** *Kahn* Explores written texts and visual images about the Pacific Islands and Islanders in an effort to understand the power of representation and its relationship to the construction of knowledge. Examples drawn from early explorers, artists, novelists, anthropologists, the tourist industry, and Pacific Islanders.

**ANTH 307 U.S. Pacific Islander Contemporary Culture (5) I&S** *McGrath* Examines U.S. Pacific Islander culture as informed by Pacific history, social and cultural organization. Emphasis on understanding contemporary experience in the U.S. and other diaspora communities. Major themes include post-colonialism, migration, family, religion, politics, gender, education, and transnational identity. Recommended: either ANTH 202 or AES 151. Offered: jointly with AAS 300. Offered: Sp.

**ANTH 308 Anthropology of Women's Health and Reproduction (5) I&S** *Chapman* Introduction to anthropological approaches to women's health, addressing women's health status and participation in healthcare. Topics include reproductive health, women's bodies and sexuality, social policy in relation to gender, race, ethnicity, and class. Emphasis on how the politics of gender shapes women's experiences of health care institutions in the U.S.

**ANTH 310 Native North American Societies (5) I&S** *Smith* Traditional cultures of America north

of Mexico, emphasizing diversity of North American Indian and Eskimo societies. Origins of Native-American culture areas and language groupings; subsistence systems; levels of social organization; European conquest and colonialism; and description of representative cultures from the ten culture areas. Recommended: ANTH 100.

**ANTH 312 Pacific Islands Literature (5) I&S/VLPA** Focuses on works written by Pacific Islanders (novels, short stories, plays, and poetry) since the 1970s. Explores colonialism and its effects on indigenous peoples. Examines discourses of gender, class, and cultural identity within the Pacific Islands region.

**ANTH 313 Peoples of Africa (5) I&S** Survey of the many cultures of pre- and post-colonial sub-Saharan Africa. Appreciation of the adaptability, strength, and creativity of African peoples. Recommended: ANTH 100.

**ANTH 314 Ethnography, Transnationalism, and Community in Island Southeast Asia/Asian American (5) I&S** *Low* Ethnographic exploration of the transformative processes of transnationalism in relation to identity and community formation in Southeast Asia and among Southeast Asian Americans. Experiential learning format concentrates on mini-ethnographic projects, field trips, and group presentations. Prerequisite: either one 200-level ANTH course or one AAS/AES course. Offered: jointly with AAS 314.

**ANTH 315 Southeast Asian Civilization: Buddhist and Vietnamese (5) I&S** *Keyes* Civilizations of Theravada Buddhist societies in Burma, Thailand, Cambodia, and Laos and in Vietnamese societies of Southeast Asia. Culture of tribal peoples who live on peripheries of these societies. Cultural transformations consequent upon the war in Indochina and resettlement of Indochinese refugees in United States. Offered: jointly with SISSE 315.

**ANTH 316 Modern South Asia (5) I&S** Twentieth-century history and society of Indian subcontinent. Topics include nationalism, rural and urban life, popular culture, gender, and environmental politics. Offered: jointly with SISSA 316.

**ANTH 317 Anthropology of Tibetan Civilization (5) I&S** Introduces the basic features of Tibetan society and culture, exploring how the global debate over Tibet's past, present, and future relates to contemporary concerns in anthropology, through the examination of Tibetan history, social and political organization, religion, and other cultural themes in both traditional and contemporary contexts.

**ANTH 318 Peoples and Cultures of the Islamic Middle East (3) I&S** Survey of cultures and peoples of Islamic Middle East and North Africa. First half of the course emphasizes the integration of peasant, urban, and nomadic societies in the traditional culture and economy; the second half concentrates on the transformation of the traditional life styles through the process of westernization and modernization.

**ANTH 320 Game Theory, Evolution, and Behavior (4) I&S, QSR** *Bergstrom, Smith* Introduction to the logic and basic techniques of modern game theory, and exemplary applications to understand behavioral variation and social interaction in humans and other species. Emphasizes non-mathematical representations

of fundamental concepts and processes, with considerable use of computer-based exercises and experiments. Offered: jointly with BIOL 320.

**ANTH 321 Comparative Religion (3) I&S** Anthropological approaches to religious experience and belief with emphasis on conceptual issues such as ritual, symbolism, identify, ecstatic experience, and revitalization movements in the context of globalization. Also addresses the diversity of religious expression in American culture and how that compares with other societies. Offered: jointly with RELIG 321.

**ANTH 322 Comparative Study of Death (5) I&S** Death analyzed from a cross-cultural perspective. Topics include funerary practices, concepts of the soul and afterlife, cultural variations in grief, cemeteries as folk art, and medical and ethical issues in comparative context. American death practices compared to those of other cultures. Offered: jointly with RELIG 320.

**ANTH 323 Human Rights Law in Culture and Practice (5) I&S** Introduces the complexities of issues surrounding human rights. Examines human rights concerns through critical analyses, taking into account legal, social, economic, and historical variables. Offered: jointly with LSJ 321.

**ANTH 324 Culture and Politics of Africa (5) I&S** *Hoffman* Introduction to African cultural responses to the slave trade, European colonialism, and globalization. Topics include an examination of Euro-American representations of Africa and how they are often at odds with African realities.

**ANTH 330 Religion, Identity, and Cultural Pluralism (5) I&S** The role of religion in shaping personal and communal identity in a pluralistic society. Themes include current dimensions of American pluralism, effects of ethnicity, immigration, and electronic communication on building religious communities, and issues of conflict, violence, and reconciliation. Offered: jointly with RELIG 330.

**ANTH 331 Native Art of the Pacific Northwest Coast (5) I&S/VLPA** Survey of the indigenous arts of the Pacific Northwest Coast from the Columbia River in the south to Southeast Alaska in the north. Overview of ancient through contemporary times, focusing on the historical and cultural contexts of the arts and the stylistic differences between tribal and individual artists' styles. Offered: jointly with ART H 331.

**ANTH 339 Social Movements in Contemporary India (5) Ramamurthy, Sivaramakrishnan** Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with WOMEN 339/SISA 339.

**ANTH 341 Political Violence and the Post-Colonial State in South Asia (5) I&S** Examines theoretical approaches to the analysis of collective, state, and anti-state violence in post-colonial South Asia through the study of specific cases of political violence in modern India, Pakistan, Sri Lanka, and Nepal. Offered: jointly with SISSA 341.

**ANTH 345 Women and International Economic Development (5) I&S** *Ramamurthy*

Questions how women are affected by economic development in Third World and celebrates redefinitions of what development means. Theoretical perspectives and methods to interrogate gender and development policies introduced. Current processes of globalization and potential for changing gender and economic inequalities assessed. Offered: jointly with SIS 345/WOMEN 345.

**ANTH 352 Buddhism and Society: The Theravada Buddhist Tradition in South and Southeast Asia (5) I&S** Introduction to the religious tradition of Theravada Buddhism (as practiced in Sri Lanka, Burma, Thailand, Laos, and Cambodia) and examination of the variations in ethical orientations developed through Theravada Buddhist ideas. Recommended: RELIG 202 or one eastern religions course. Offered: jointly with RELIG 350.

**ANTH 353 Anthropological Studies of Women (5) I&S** Critical examination of the intersections between anthropology, research on gender issues, and feminism. Readings and class discussions examine the ways women have been represented in the field of anthropology and the repercussions of these anthropological images of women on contemporary understandings of gender. Offered: jointly with WOMEN 353.

**ANTH 356 Visual Anthropology (3) I&S** The place of photography and films in ethnography; their use in the documentation and interpretation of cultural and social systems.

**ANTH 358 Culture and Cognition (5) I&S/NW** Surveys anthropological theories and research on the relationship between language, thought, and behavior. Examines the influence of cultural inheritance on perception, classification, inference, and choice. Describes relevant cross-cultural research methods and evaluates theoretical models used by cognitive anthropologists. Prerequisite: either ANTH 203, LING 203, or PSYCH 355.

**ANTH 359 Linguistic Ethnography (5) I&S** Language use in cultural contexts. How language reflects world view. Language use in culturally significant settings. Analyzes sets of culturally specific terms in semantic domains. Includes projects demonstrating application of theory and method to data addressing specific problems. Workshop format.

**ANTH 360 Anthropology of Popular Culture (5) I&S** *Bilaniuk* Analysis of the forces that shape popular culture. Examination of the local meanings of global trends in music, clothing, and leisure activities through case studies around the world. Students learn ethnographic methods and conduct an original research project. Prerequisite: one 200-level ANTH course.

**ANTH 361 Anthropology of Food (5) I&S** Explores how foods reproduce social relations, the meanings food acquire within culture, how food systems are intertwined with structures of power and economic inequality, national cuisines and restaurant cultures, the global marketing of foods, controversies surrounding GMO foods, and alternative food communities. Prerequisite: one 200-level ANTH course.

**ANTH 362 Anthropology of Tourism (5) I&S** *Kahn* Anthropological approaches to tourism. Debates about cultural encounters and cultural change, authenticity, economic development, social inequalities, identity, gender, ethnicity,

nationality, and cultural representation. Prerequisite: one 200-level ANTH course.

**ANTH 370 Han Chinese Society and Culture (5) I&S** *Anagnost, Harrell* Themes in the society and culture of the Han Chinese people. Concepts of self; personal interaction; family, gender, and marriage; communities and the state; religion and ritual; class, social categories, and social mobility; culturalism, nationalism, and patriotism. Offered: jointly with SISEA 370.

**ANTH 371 Anthropology of Development (5) I&S** *Sivaramakrishnan* Development refers to social, economic, cultural, political transformations viewed as progress. Studied from anthropological perspectives. Historical, social context for emergence of ideas of development. Role of development in promoting national cultures. Impact of development on individual citizenship, families, rural-urban relations, workers, business, environment. Prerequisite: one 200-level ANTH course. Offered: jointly with ENVIR 371.

**ANTH 374 Narrative, Literature, and Medical Anthropology (5) I&S** *Taylor* Introduces anthropological perspectives on the workings of narrative in illness, healing, and medicine. Considers writings in medical anthropology alongside other genres of writing about similar topics. Readings include memoirs and fiction as well as scholarly articles.

**ANTH 375 Comparative Systems of Healing (3) I&S** Introduction to the anthropological study of healing. Examines four healing traditions and addresses their similarities and differences. Includes anthropological theories of healing and religion.

**ANTH 379 Prisons in Anthropological Perspective (5) I&S** *Rhodes* An introduction to prisons from an anthropological point of view, with focus on prisons as total institutions. Topics include the experiences of prisoners and staff, prison history, issues of race and gender associated with incarceration, and the imprisonment of the mentally ill. Offered: jointly with LSJ 379.

**ANTH 399 Junior Honors Seminar (5) I&S** Teaches skills required to write senior honors thesis, including evaluation of academic and scientific writing, formulation of problem, collection of bibliographic and other resources, evaluation of research proposals, and research proposal preparation. Final product is a formal thesis prospectus.

**ANTH 404 South America (5) I&S** Survey of anthropological research among the traditional peoples of South America. Historical background and contemporary life of cultural groups of the Amazonian Basin. Transformation of traditional life-styles through the process of European conquest and the aftermath of colonialism. Detailed study of selected societies. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 406 China's Environment (5) I&S** Analysis of contemporary environmental problems in China, including population, food, water supply, pollution, biodiversity, and environmental activism. Combines natural science and social science perspectives. Prerequisite: either ANTH 210, ENVIR 201, SIS 200, SIS 201, or SIS 202. Offered: jointly with SISEA 406.

**ANTH 407 Global Futures in East Asia (5) I&S** *Anagnost* Explores interlinked modernity projects in China, Japan, Korea, and Taiwan and how the education of youth figures in projects of national development and international economic competition. Recommended: prior courses in socio-cultural anthropology and East Asian studies. Offered: jointly with SISEA 407; AWSpS.

**ANTH 412 South Asian Social Structure (5) I&S** Caste class, and community in modern India. Transitions from colonial typology to analysis of social change, diversity, stability, and caste hierarchy in rural society. Current debates on class and community in Indian society, rural and urban, explored through themes of identity, structure, and mobility. Prerequisite: one 200-level ANTH course. Offered: jointly with SISSA 412.

**ANTH 416 Comparative Social Movements: Mexico and the United States (5) I&S** *Pena* Historical, ethnographic, and theoretical perspectives in the study of Mexican-origin communities in social movements in Mexico and the United States with a focus on workers, immigrants, peasants, women, indigenous peoples, and students as forces of collective mobilization and social, cultural, and political change. Offered: jointly with CHSTU 416.

**ANTH 418 Indian Heritage of Mexico and Central America (5) I&S** Indian civilization of Mexico and Guatemala, their origins and ecological foundations. Contemporary communities of Mexico and Guatemala, focusing on creative adaptation of pre-Columbian traditions to modern national realities. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 420 Psychoanalysis and the Study of Culture (3) I&S** *Spain* Anthropological use of theories developed by Freud to understand culture. Reviews psychoanalytic theory as a foundation for examining the work of Roheim, LaBarre, Devereaux, Kardiner, and Spiro, among others. Topics covered include the universality of oedipality and the utility of psychoanalysis in non-Western cultures.

**ANTH 421 Belief, Ritual, and the Structure of Religion (5) I&S** Systematic survey of concepts, models, and theories that characterize the anthropological study of religion. Consideration of the human universal basis of religion and of diverse ways in which religions are constructed and related to social experience. Prerequisite: either ANTH 321 or RELIG 201; RELIG 202.

**ANTH 423 Traffic Across Cultural Boundaries (5) I&S** Focuses on the movement of cultural patterns and processes across boundaries, examining the "contact zones" in colonial encounters, moving to borrowing and blendings along ethnic and national borders. Examines border crossing of immigration and diasporas. Ethnographic examples from the Americas and Africa. Prerequisite: one 200-level ANTH course.

**ANTH 424 Hunter-Gatherer Societies (4) I&S** Comparative examination of human foraging societies, emphasizing ethnographic cases and socioecological analysis. Foraging and human evolution; rationality of foraging societies; population and reproductive strategies; variability in social organization and land use; power relations between the sexes; ritual and belief; contemporary status of hunter-gatherer

populations. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 425 Anthropology of the Post-Soviet States (5) I&S** Analysis of Soviet and post-Soviet culture and identity. Historical transformations in Soviet approaches to ethnicity and nationality; contemporary processes of nationbuilding and interethnic conflict. Examination of culture through the intersection of social ritual, government policies, language, economic practices, and daily life. Regional focus will vary. Offered: jointly with SISRE 425.

**ANTH 427 Anthropology in Urban Settings (3) I&S** Cross-cultural examination of theoretical issues in anthropology as studied in urban places. Focuses on ethnic identity and the formation of urban ethnic groups; migration and its rural and urban consequences; family and kinship organization as an adaptation to urban complexity; the nature of urban voluntary associations; law and politics; and the developments in anthropological method. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 428 Anthropological Perspectives on Ethnicity (5) I&S** Anthropological approaches to ethnicity and ethnic group relations with reference to other models including race, caste, class, regional groupings, nations, religion, and stratification. Data drawn from precolonial, colonial, and postcolonial periods. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 429 Expressive Culture (5) VLPA** Anthropological view of one expressive aspect of culture: plastic and graphic arts, myth and folktale, music, dance, humor and tragedy, or play and games. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 430 The Anthropology of Music (3) I&S/ VLPA** Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation, e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with MUSIC 480; alternate years.

**ANTH 432 Sociolinguistics I (5) I&S/VLPA** Social variation in the phonology, morphology, syntax, lexicon of languages and dialects. Nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: either LING 200 or LING 400; recommended: prior or concurrent registration in ANTH 451 or LING 450. Offered: jointly with LING 432.

**ANTH 433 Sociolinguistics II (5) I&S/VLPA** *Wassink* Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Offered: jointly with LING 433.

**ANTH 435 Economic Anthropology (5) I&S** Chief features of nonmonetary and simple monetary economics. Impact of central or metropolitan market economy and industrial technology as peripheral systems, especially of small-scale and limited monetary circulation. Development and application in anthropology of economic concepts, including Marxian.

Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 436 Comparative Family Organization (5) I&S** Function and structure of family developmental processes in band, tribal, peasant, and modern societies. Illustrates inter- and intrasocietal variation and provides data for construction of formal models of process and variation in family systems. Prerequisite: either one 200-level ANTH course, LING 203, or SOC 352.

**ANTH 437 Political Anthropology and Social Change (5) I&S** *Sivaramakrishnan* Study of politics from different anthropological perspectives, specially processual approaches to political change. Focused examination of cultural aspects of modern state formation in local and regional contexts. Themes: colonialism and nationalism, regime and transitions, local politics and global processes, social construction of bureaucracy. Prerequisite: one 200-level ANTH course.

**ANTH 438 The Analysis of Kinship Systems (5) I&S** Data, theories, and analytical technique used in the study of kinship systems, including our own, from around the world. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 439 Pidgin and Creole Languages (5) VLPA/I&S** *Wassink* Explores aspects of the linguistic structure, history, and social context of pidgin and creole languages. Creolization as one possible outcome of language contact. Examines theories of creole genesis, similarities and differences between creole and non-creole languages. Prerequisite: either ANTH 203, LING 200, LING 201, LING 203, or LING 400. Offered: jointly with LING 430.

**ANTH 440 Child Rearing, Culture, and Health (3) I&S** Cross-cultural study of the child-rearing practices, cultural norms, and health behavior of children and adolescents in different societies. Comparative approaches, diverse theoretical postures, and empirical research findings are used. Offered: jointly with NURS 495.

**ANTH 441 Psychological Anthropology (5) I&S** Assessment of mutual relevance of cultural and psychological variables in anthropology. Historical development of principal topics, e.g., cognition, national character, enculturation, personality and social change, cross-cultural psychiatry, sex and temperament, deviance, and psychoanalytic studies of culture. Prerequisite: either PSYCH 101 or PSYCH 205.

**ANTH 442 GLOBAL ASIA (5) I&S** *Welland* Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with SISA 442/WOMEN 446; W.

**ANTH 444 Politics of Representation in Modern China (5) I&S** Focuses on issues of representation and power in twentieth century China. Combines substantive information on modern Chinese society and culture with recent debates in social theory and the politics of representation. Major themes include Chinese nationalism, body politics, popular culture, and everyday practice. Offered: jointly with SISEA 444.

**ANTH 445 Literature and Society in Southeast Asia (5, max. 10) I&S/VLPA** Focus on either Vietnam or Thailand. Provides students with opportunity to explore how those living in Southeast Asia have reflected on the radical social changes their societies have undergone through novels, short stories, and poetry. Prerequisite: either one 200-level ANTH course or LING 203. Offered: jointly with SISSE 445.

**ANTH 446 Class and Culture in East Asia (5) I&S** Examines the nexus between culture and systems of social stratification/class in East Asia, with an emphasis on Taiwan, Korea, Japan, and China. Topics include class formation, mechanisms of social mobility and reproduction, markers of status and hierarchy, resistance, and the formation of class identity. Offered: jointly with SISEA 443.

**ANTH 447 Anthropology of Chinese Religion (5) I&S** Chinese religions, including folk, popular, and new religions, viewed from an anthropological perspective. Prerequisite: either ANTH 202, 204, 208, 321, 421, 370, or RELIG 202, or SISEA 370, 454.

**ANTH 448 Modern Korean Society (5) I&S** Social organization and values of twentieth-century Korea. Changes in family and kinship, gender relations, rural society, urban life, education, and industrial organization since 1900. Differences between North and South Korea since 1945. Recommended: HSTAS/SISEA 212. Offered: jointly with SISEA 448.

**ANTH 449 Social Transformation of Modern East Asia (5) I&S** Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Recommended: two history or anthropology of East Asia courses. Offered: jointly with SIS 449.

**ANTH 450 Language and Gender (5) I&S, VLPA** *Bilaniuk* Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with WOMEN 450/LING 458.

**ANTH 451 Comparative Historical and Social Ecology of the Tropics (5) I&S** *Sivaramakrishnan* Historical and social aspects of tropical environmental change. Comparative analysis of resource management, conservation, and environmental regulation issues in Asia, Africa, and Latin America from cultural and political economic perspectives. Special focus on issues of state policy, expert knowledge, social conflict, and international politics. Prerequisite: ANTH 210. Offered: jointly with ENVIR 451.

**ANTH 454 Women, Words, Music, and Change (5) I&S/VLPA** Comparative analysis of use of myths, tales, music, and other forms of expressive culture to account for, reinforce, and change women's status and roles. Recommended: WOMEN 353. Offered: jointly with WOMEN 454.

**ANTH 455 Areal Linguistics (3, max. 6) I&S/ VLPA** Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different

purposes. Borrowing vocabulary specialization, lexical change, and language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with LING 455.

**ANTH 456 Contemporary Ethnography (5) I&S** Techniques and theories of ethnographic description for the anthropological analysis of contemporary life. Materials drawn from the contemporary United States, with a focus on issues and events in the Seattle area. Includes fieldwork projects. Prerequisite: either one 200-level ANTH course or LING 203.

**ANTH 457 Ecological Anthropology (5) I&S** Survey of anthropological research on interaction between human societies and their environments. Logic of different subsistence systems; intensification and transformation of subsistence strategies; population regulation; ecological aspects of human nutrition, disease, spatial organization, ethnicity, social stratification, conflict, and cooperation; historical roots of current ecological crisis.

**ANTH 458 Ethnobiology: Plants, Animals, and People (5) I&S** *Hunn* Culturally mediated relationships between human and natural environment studied in a comparative and evolutionary framework. How do peoples in diverse cultures recognize and name plants and animals and understand their relationship with nature? How is this traditional ecological knowledge applied in people's daily lives? Prerequisite: either BIO A 201, ARCHY 205, or one 200-level ANTH course.

**ANTH 459 Culture, Ecology, and Politics (5) I&S** *Pena* Critical studies of class, gender and race differences in environmental politics. The political-economic dimensions of ecological change. Contemporary environmental movements including the varieties of bioregionalism, deep ecology, ecofeminism, ecosocialism, environmental justice, and social ecology. Offered: jointly with ENVIR 459.

**ANTH 460 History of Anthropology (5) I&S** Sources and development of leading concepts, issues, and approaches in anthropology. Findings of anthropology in relation to scientific and humanistic implications and to practical application. Main contributors to field; their work and influence. Past, present, and future perspectives, including anthropology of modern life.

**ANTH 464 Language Politics and Cultural Identity (3) I&S/LPA** *Bilaniuk* Theories and case studies of the power of language and how it is manipulated. Multilingualism, diglossia. Role of language and linguistics in nationalism. Standardization, educational policy, language and ethnicity. World languages, language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with LING 464

**ANTH 465 Critical Anthropology of Mass Culture (5) I&S** Critical overview of theories of mass culture and their relationship to current anthropological practice. Analyses of the historical interconnections among capitalism and commodity fetishism, modernity and representation, and media and consumption.

**ANTH 466 Anthropology Honors Thesis ([1-9]-, max. 18) I&S** Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

**ANTH 467 Anthropology of Education (5) I&S** Uses a wide range of social theory and philosophy to investigate mechanisms which reproduce inequality and asymmetry in American education.

**ANTH 469 Special Studies in Anthropology (3-5, max. 15) I&S** Delineation and analysis of a specific problem or related problems in anthropology. Offered occasionally by visitors or resident faculty.

**ANTH 470 Minority Peoples of China (5) I&S** Interaction between China and the peoples of its periphery, including inner Asia, Tibet, northern mainland Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state. Prerequisite: one 200-level ANTH course; LING 203; either ANTH/SISEA 370 or HSTAS 454. Offered: jointly with SISEA 470.

**ANTH 471 Colonialism and Culture (5) I&S** Explores the cultural, political, and historical implications of the power to colonize. Readings include ethnographic, historical, and literary works on colonialism, nationalist responses, and postcolonial positions.

**ANTH 473 Anthropology of Science and Technology (5) I&S/NW** *Lowe, Taylor* Introduces the study of science and technology as social and cultural phenomena. Considers both theoretical and methodological questions. Readings include key texts from interdisciplinary field of science studies as well as selected ethnographic texts. Examples taken from U.S. society and other local contexts. Prerequisite: one 200-level ANTH course.

**ANTH 474 Social Difference and Medical Knowledge (5) I&S** *Taylor* Explores relations between medical and social categories: how social differences become medicalized; how medical conditions become associated with stigmatized social groups; and how categories become sources of identity and bases for political action. Considers classifications (race, gender, sexuality, disability) and how each has shaped and/or been shaped by medical science/practice

**ANTH 475 Perspectives in Medical Anthropology (5) I&S** Introduction to medical anthropology. Explores the relationships among culture, society, and medicine. Examples from Western medicine as well as from other medical systems, incorporating both interpretive and critical approaches. Offered: jointly with HSERV 475.

**ANTH 476 Culture, Medicine, and the Body (5) I&S** Explores the relationship between the body and society, with emphasis on the role of medicine as a mediator between them. Case study material, primarily from contemporary biomedicine, as well as critical, postmodern, and feminist approaches to the body introduced within a general comparative and anthropological framework.

**ANTH 477 Medicine in America: Conflicts and Contradictions (3) I&S** Introduction to the pragmatic and theoretical dilemmas of current biomedical practice with emphasis on social and cultural context. Case studies in technological intervention, risk management, and other health-related issues used to explore connections among patients' experiences, medical practices, and the contemporary social context.

**ANTH 478 Introduction to the Anthropology of Institutions (5) I&S** *Rhodes* Historical, theoretical, and ethnographic perspectives on the study of total institutions, with an emphasis on prisons and psychiatric facilities. Includes issues of subjection and subjectivity, institutional social dynamics, and social justice concerns.

**ANTH 479 Advanced Topics in Medical Anthropology (3-5, max. 15) I&S** *Chapman, Rhodes, Taylor* Explores theoretical and ethnographic advanced topics in medical anthropology. Prerequisite: permission of instructor.

**ANTH 480 Introduction to Museology (5) I&S** Museum history, philosophy, and basic operations, including organization, income, collection management, conservation, exhibition, security, education, research, and ethics.

**ANTH 481 Museum Collection Management (5) I&S** Lecture and demonstration of fundamental principles of collection management issues, emphasizing collection management needs of museum collection of all types. Application of principles through integrated collection management lab experiences addressing concerns of artifact handling, cataloging, photo-documentation, storage, and registration.

**ANTH 482 Museum Conservation (5) I&S** Lecture and demonstrations in the recognition and treatment of museum conservation problems for specimens of all types. Application of basic principles to specific preventive and active conservation and restoration problems encountered by curatorial personnel.

**ANTH 484 Motherhood: Ideologies and Technologies (5) I&S** *Twine* Examines how motherhood is culturally constituted, regulated, and managed within various ideological and technological milieus. Uses ethnographies from anthropology and case studies from feminist legal theory. Topics include slave mothers, surrogate mothers, lesbian mothers, transracial mothers, co-mothers, teen mothers. Prerequisite: WOMEN 200. Offered: jointly with WOMEN 458.

**ANTH 485 Cultural Property: Legal and Ethical Issues (3) I&S** Examines the complex history of legal and ethical issues affecting the acquisition, ownership, and disposition of cultural property, with special attention to modern indigenous peoples' requests for repatriation of collections from museums, as well as concerns with intellectual property rights, national patrimony policies, and related trade issues.

**ANTH 486 Human Family Systems: Biological and Social Aspects (5) I&S** Biological bases for human mating and reproduction and an examination of the range of cross-cultural variability in human systems of kinship and marriage; comparisons among a wide range of human and nonhuman species and between Western and non-Western human societies; interplay of biological, ecological, and sociocultural factors in determining the structure and function of human family systems. Offered: jointly with SOC 486.

**ANTH 487 Cultures and Politics of Environmental Justice (5) I&S** *Pena* Comparative survey of environmental justice movements in the world with focus on critical studies of environmental racism, risk, and sustainable development. Provides theoretical knowledge

and research methods incorporating the study of equity and autonomy in environmental impact and risk assessment and other aspects of environmental policy politics. Offered: jointly with AES 487.

**ANTH 488 Agroecology (5) I&S** *Pena* Cross-cultural survey of agroecological research methods, theoretical problems, policy issues, and ethical debates. Local knowledge and ethnoscientific bases of alternative agriculture. Comparative political ecology of agroecosystems with a focus on indicators of social equity and ecological sustainability.

**ANTH 489 Anthropology Practicum (2-9, max. 15)** Faculty-supervised internships, either on or off campus, in organizations utilizing anthropological skills in nonacademic settings. Settings may include museums, academic journals, social service or other governmental agencies, and private nonprofit service agencies.

**ANTH 491 Honors Colloquium (2, max. 12) I&S** Introduction to anthropological research. Students read original articles and papers and discuss them with authors. Research presenters include department faculty, visiting faculty, and advanced graduate students. Credit/no credit only.

**ANTH 495 Advanced Problems in Ethnology (3-5, max. 10) I&S** Current problems in ethnology. Seminar format.

**ANTH 497 Domesticating International Human Rights: Perspectives on U.S. Asylum and Refugee Law (5) I&S** Examines the creation, production, and proliferation of law and legal categories relating to the status of refugees and asylum-seekers in the United States. Integrates anthropological perspectives of law's ability to create meaning in the examination of deeper implications of asylum and refugee law in American society. Offered: jointly with LSJ 425.

**ANTH 498 Women's Rights and Politics in Islamic Society (5) I&S** Human rights theory with women's legal rights and practice within context of the Islamic state. Introduction to debates regarding universality of human rights through examination of women's rights in Muslim context. Considers journalistic notions of homogeneity among Muslims, political nature of the Islamic state, and its mobilization of human rights. Offered: jointly with LSJ 421.

**ANTH 499 Undergraduate Research (\*, max. 12)** .

**ANTH 500 Preceptorial Reading (6)** For beginning graduate students who have not had adequate training in the problems, principles, and methods involved in the analysis and comparison of social and cultural systems. Not open to graduate students in the sociocultural anthropology program.

**ANTH 503 Preceptorial Reading in Linguistic Anthropology (6)** For beginning graduate students who have not had prior training in the problems, principles, and methods involved in linguistic anthropology. See also course description for 203. Not open to graduate students in the linguistics program.

**ANTH 507 Current Issues in Sociocultural Anthropology (2-)** Biweekly presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to social, cultural, and linguistic

anthropology. Credit/no credit only. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

**ANTH 508 Current Issues in Sociocultural Anthropology (-2)** Biweekly presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to social, cultural, and linguistic anthropology. Credit/no credit only. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

**ANTH 509 Sociocultural Anthropology Problem Paper (4)** All first-year graduate students in sociocultural anthropology select a topic for independent research, conduct that research, and prepare a paper of about 25-50 pages on the topic chosen. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

**ANTH 510 Seminar on North American Indians (3)** Advanced comparative treatment of selected aspects of the Indian cultures and societies of North America.

**ANTH 514 Regional Seminar (3-5, max. 15)** Comparative treatment of selected aspects of cultures and societies of a particular region or area.

**ANTH 517 Seminar on South Asia (3)** Advanced analysis of selected problems in South Asian ethnology and social structure. Prerequisite: ANTH 412.

**ANTH 521 Seminar on the Anthropological Study of Religion (3, max. 9)** Advanced seminar in the anthropological study of religion designed for students who have a background in the theory and applications of theory developed in the anthropological study of religion. Seminar topics vary each quarter. Prerequisite: ANTH 422 and graduate standing; permission of instructor for graduate students in Comparative Religion.

**ANTH 523 Seminar on Religious and Political Violence (5) Robinson** Employs ethnographic studies and anthropological theory to examine the relationships between culture and power in the analysis of religious and political violence. Topics include modernity; secularisms and fundamentalisms; ritual, sacrifice, and martyrdom; law, rights, and subject-making. Offered: jointly with SIS 523.

**ANTH 525 Seminar in Culture Processes (3, max. 6)** The concept of process and its application to the study of culture.

**ANTH 527 Ethnicities, Nations, and Cultural Identities (3)** Exploration of how cultural differences have been represented in ethnic and national narratives and how these narratives have shaped identities and social relations.

**ANTH 533 Law, Liberalism, and Modernity (5)** Examines relationships between law, culture, and power through post-structuralist theories that consider subjectivity, agency, and identity. Explores connections between modern liberal law and the body, possessive individualisms, and discourses of rights. Topics include rights-talk, globalization, biopolitics, subject-making, modern nation-states, the rule of law, neo-liberalism, and legal cultures.

**ANTH 535 Research Issues in Demography and Population Studies (1-2, max. 7)**

Interdisciplinary seminar on current research issues in demography and population studies. Critical analysis and discussion of readings drawn from anthropological, economic, geographic, and sociological approaches. Credit/no credit only. Offered: AWP.

**ANTH 536 Seminar in Visual Anthropology (3-5)** Significance of anthropological cinema and photography placed in historical perspective. Screening of films to determine the role of the anthropologist as filmmaker, as well as the role of the filmmaker as anthropologist.

**ANTH 537 Political Anthropology and Law (3, max. 6)** Seminar on special topics in politics and law and their interrelationships.

**ANTH 539 Social Movements in Contemporary India (5) Ramamurthy, Sivaramakrishnan** Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with SISSA 539/ WOMEN 539.

**ANTH 540 Anthropology of Place (5) Kahn, Pena** Explores a variety of ways that "place" has been studied and theorized. Attention paid to places as they are sensed, inscribed, practiced, narrated, scripted, created, and reclaimed. "Place" also discussed in relation to issues of the environment, travel, diaspora, race, class, and gender.

**ANTH 541 Cultural Aspects of International Development (3) Sivaramakrishnan** Emergence of development as an aspect of late colonialism and the decolonization process. Ways in which development came to visualize social change in sectoral terms like rural land use, cities, and education, while objectifying people in target groups. Relationships between development and modernity, and development and globalization.

**ANTH 542 Seminar in Cognitive Anthropology (3)** Examines the intellectual history of cognitive anthropology; assesses its major findings in kinship, folk biology, color classification, and decision and planning theory. Replicates key studies, using cognitive anthropological methods. Evaluates influences from linguistics, psychology, and artificial intelligence research. Practical applications and future prospects.

**ANTH 550 Field Techniques in Ethnography (5)** Techniques of collecting, ordering, and utilizing ethnographic data in the field. Problems of rapport, elicitation, observation, interpretation, and ethics. Credit/no credit only.

**ANTH 551 Research Design (3)** Principles of research design, including problem delineation and selection of appropriate methods, as applied to current issues in sociocultural anthropology. Prerequisite: permission of instructor.

**ANTH 552 Practicum in Ethnographic Research (3)** Techniques of data recording, analysis, and writing for the field ethnographer. Not recommended for non-anthropology graduate students. Prerequisite: ANTH 550; ANTH 551.

**ANTH 553 Analysis of Linguistic Structures (3, max. 6)** Syntactic, semantic, or phonological analysis. Languages to be analyzed vary.

Prerequisite: permission of instructor. Offered: jointly with LING 553.

**ANTH 555 Discourses in Feminist Anthropology Seminar (5)** *Jacobs* Exploration of feminist anthropological theories and the works of their critics. Ways of using feminist anthropology in preparation for and conducting fieldwork. Topics include foundations in feminist anthropology, grand theories, variation in feminist theoretical foci within the "four fields," responses to critics. Prerequisite: graduate standing. Offered: jointly with WOMEN 553.

**ANTH 556 The Evolution of the Family (3)** Biological evolution of species-specific behaviors and forms of sociality linked to human mating, reproduction, and parenting. Cultural evolution of human systems of kinship and marriage as fitness-maximizing adaptations to a wide range of habitats. Prerequisite: upper-division course in evolutionary theory, population genetics, behavioral ecology, primatology, or animal behavior. Offered: jointly with SOC 556.

**ANTH 559 Seminar in Language and Culture (3, max. 9)** Theoretical and methodological problems in language and culture.

**ANTH 560 Discourse and Culture (5)** Exploration of discourse and narrative as culturally constitutive activities. Critical examination of the social implications of cultural variation in discourse. Techniques of discourse analysis in anthropological research.

**ANTH 561 Seminar in Methods and Theories (3, max. 9)**

**ANTH 562 Clinically Applied Anthropology (3)** Anthropology as it relates to interdisciplinary delivery of health care. Cultural variation in illness beliefs and behavior, types of healing practice, illness prevention, and social support networks. Prerequisite: graduate standing and permission of instructor. Offered: jointly with NURS 562.

**ANTH 565 Theory of Sociocultural Anthropology (5)** First core course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: graduate standing in anthropology or permission of instructor.

**ANTH 566 Theory of Sociocultural Anthropology (5)** Second core course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: ANTH 565.

**ANTH 567 Theory of Sociocultural Anthropology (5)** Third core course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: ANTH 566.

**ANTH 569 Special Topics in Sociocultural Anthropology (3-5, max.15)** Delineation and analysis of a specific topic or set of related topics in sociocultural anthropology.

**ANTH 570 Environmental Anthropology (5)** Current issues in the study of human environ-

ment interaction from a cross-cultural perspective: ecological adaptation and maladaptation; ethnoecology and indigenous knowledge; anthropogenic environmental change; political ecology of "development;" interrelations of cultural and biological diversity; conflicts over indigenous land use and property rights, environmental justice, resource conservation, and sustainability.

**ANTH 572 Environmental Anthropology Research Methodology Colloquium (2, max. 10)** Environmental anthropology research methodology and practice. Presentations by faculty and advanced students, hands-on exercises, and extensive discussion. Students at various stages in the program learn practical details of current methods. Limited to environmental anthropology PhD students. Credit/no credit only.

**ANTH 573 Current Issues in Environmental Anthropology (2, max. 10)** Presentation and discussion of current research and scholarly literature in environmental anthropology and related fields. Credit/no credit only. Prerequisite: graduate standing in any field of anthropology or permission of instructor.

**ANTH 574 Culture, Society, and Genomics (3)** Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with NURS 582/PHG 521.

**ANTH 575 Cultural Construction of Illness: Seminar in Medical Anthropology (5)** Historical and comparative examination of depression, neurasthenia, somatization, hypochondriasis, and hysteria. Anthropology of psychosomatics and psychiatry, including cultural analysis of selected biomedical, indigenous folk medical, and popular common-sense conceptualizations of illness.

**ANTH 578 Special Topics in the Anthropology of Institutions (5)** Explores theoretical issues.

**ANTH 580 Presenting Research Effectively (2)** Designed to help advanced graduate students develop the ability to present research projects effectively in a variety of formats relevant to the academic job-search process (c.v., job letter, interview, etc.). Faculty and alumni speakers share information, advice, and guidance regarding the job-search and the various paths toward meaningful employment.

**ANTH 581 Dissertation Writing (3)** Students experiment with different styles of anthropological writing. They apply writing techniques and styles to their own material. Students peer review for one another. Credit/no credit only.

**ANTH 584 Ways of Speaking (5)** Theory and literature of the ethnography of communication, with special emphasis on the descriptive-comparative approach to culturally patterned styles of communicative conduct. Offered: jointly with COM 584.

**ANTH 590 Seminar in Museum Theory and Administration (5)** Examination of principles of administrative theory and museum operations. Administrative structures and policies, management theory, board issues, organizational conflicts, planning issues, collection concerns, financial constructs, professional standards, and

museum/community relations from an organizational and management perspective. Recommended: MUS 480. Offered: jointly with MUSEUM 590.

**ANTH 591 Seminar in Museum Operations (5)** Designing hypothetical museums and creating a first year of operations. Design elements include architectural plan, staffing plan, initial and recurring budgets, security system, records system, educational plan, and policy making. Recommended: 590. Offered: jointly with MUSEUM 591.

**ANTH 599 Effective Teaching of Anthropology (1)** Class required of all graduate students who accept teaching assistantships: instruction in teaching methods and issues, e.g., professional ethics, preparing and delivering lectures, leading discussion groups, test writing and grading, diversity in the classroom. Credit/no credit only.

**ANTH 600 Independent Study or Research (\*)**

**ANTH 700 Master's Thesis (\*)** Credit/no credit only.

**ANTH 800 Doctoral Dissertation (\*)** Credit/no credit only.

## Archaeology

**ARCHY 101 Exploring Archaeology (5) I&S** *Lape* Introduces perspectives from archaeology on the long term history of the diversity and the dynamics of human life. Examines how archaeologists gather and use data and how that information is relevant to contemporary society. Concepts and methods introduced through readings focus around a theme that varies such as environmental issues, warfare, and migration. Offered: AWSp.

**ARCHY 105 The Human Past (5) I&S** Explores human cultural and biological evolution: how ancestors 2,500,000 years ago were like us but still different, Neanderthals and their extinction, social/economic revolutions from foraging to farming to "civilized" ? progress, setbacks, failures, relationships with social and natural environments, and the role of technology. Examines the astonishing variety of adaptations humans have made.

**ARCHY 205 Principles of Archaeology (5) I&S** Techniques, methods, and goals of archaeological research. Excavation and dating of archaeological materials. General problems encountered in explaining archaeological phenomena. Offered: AWSpS.

**ARCHY 212 The Archaeology of Egypt (5) I&S** *Wenke* A survey of ancient Egyptian culture history between about 6000 BC and AD 400, based on a synthesis of archaeological and textual evidence. Focuses on the origins and evolution of the Egyptian state and the elements of pharaonic religion, society, economy, art, architecture, and science.

**ARCHY 270 Field Course in Archaeology (12) I&S** Introduction to field acquisition of archaeological data through survey and excavation. On-going field projects; recovery and recording techniques. Offered: S.

**ARCHY 272 Short Field Course in Archaeology (5)** *Fitzhugh, Grayson, Lape, Stein* Learn how archaeologists detect human occupation on the landscape by surveying, excavating, and crating evidence of the past. Students learn

from start to finish the process of archaeological field investigation. The location for this course may change from year to year. Recommended: ARCHY 205. Offered: A.

**ARCHY 299 Archaeological Laboratory Techniques (1-3, max. 12) I&S** Laboratory procedures geared to one specific archaeological research project. Archaeological collection, its processing and curation, how archaeological materials are processed, and how significance is determined. No more than 5 credits may be used toward an anthropology major. Prerequisite: either ARCHY 105 or ARCHY 205.

**ARCHY 303 Old World Prehistory (5) I&S** Old World prehistory from beginnings of human culture to rise of civilizations. First tools made by humans, spread of humans out of Africa, origins of agriculture, rise of state society. Africa, Near East, Egypt, China, India, Europe.

**ARCHY 304 New World Prehistory (5) I&S** History of earliest Americans, beginning with crossing of land bridge between Asia and North America and eventual spread over the Americas. Highlights prehistory and best examples of western hemisphere civilizations. Mexico, Yucatan, Peru, southwestern and eastern United States, Washington.

**ARCHY 320 Prehistory of the Northwest Coast (5) I&S** Origins, development, and variation of Pacific Northwest cultures, focusing particularly on Washington. Adaptations to maritime and interior environments. Artifacts from a variety of archaeological sites. Technological, functional, and historical significance of Northwest artifacts.

**ARCHY 325 Archaeology of Island Southeast Asia and the Pacific (5) I&S** History of the human occupation of the South Pacific Islands, especially Indonesia, Philippines, Micronesia, Melanesia, and Polynesia. Focus on current debates about human migrations, long distance maritime trade, political structures, culture contact, and colonialism. Emphasis on the analysis of the primary archaeological and documentary data. Prerequisite: ARCHY 205.

**ARCHY 371 Analysis of Archaeological Data (5) I&S** Analyzing archaeological data by measuring and describing such artifacts as stone tools and ceramics. Analysis of such environmental data as bones, plant remains, and sediments. Prerequisite: ARCHY 205.

**ARCHY 401 Archaeology of Human Origins (5) I&S** *Close* Early part of the prehistoric archaeological record in Africa and Eurasia, from >2,000,000 years ago until the spread of modern human beings; development of stone and bone technologies; ways of making a living; cultural adaptations; intellectual and social development. Prerequisite: ARCHY 205. Offered: Sp.

**ARCHY 402 Archaeology and Social Difference (5) I&S** *Close* Examines case studies in prehistoric archaeological record for intersections of socially constructed differences including age, gender, and class. Contrasts past perceptions of difference with projection of modern differences backward to validate the present. Prerequisite: ARCHY 205; either ARCHY 105, ARCHY 303, or ARCHY 401.

**ARCHY 403 The Archaeology of Landscapes (5) I&S/NW** *Llobera* Study of landscapes in archaeology. Methods for landscape research: historic maps, diaries, aerial photographs, geophysical and satellite imagery, etc.

Archaeological landscape surveys: principles and limitations. Review of various theoretical approaches. Examination of key case studies, Issues on landscape heritage and indigenous landscapes. Prerequisite: ARCH 205.

**ARCHY 465 Public Archaeology (5) I&S** Examines archaeology as practiced, regulated, represented, and paid for in the world outside of academia. Reviews the development of cultural resource management laws in the context of other social changes, investigates archaeology job opportunities outside of academia, and discusses how the public learns about and funds archaeology. Prerequisite: ARCHY 205.

**ARCHY 466 Archaeology Honors Thesis ([1-9]-, max. 18) I&S** Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

**ARCHY 468 Issues in Cultural Resource Management (1) I&S** Review of federal and state cultural resource management policies and the effects of these policies on the conduct of projects that may impact cultural resources on public lands. Survey of related issues in museum management. Credit/no credit only. Prerequisite: ARCHY 205; either one 200-level ANTH course or LING 203.

**ARCHY 469 Special Studies in Archaeology (3-6, max. 18) I&S** Consideration in detail of specific archaeological topics, either methodological or substantive in content, of current interest. Offered occasionally by resident, new, or visiting faculty. For advanced undergraduates and graduate students. Prerequisite: ARCHY 205.

**ARCHY 470 The Archaeology of Extinction (5) I&S** *Grayson* Uses archaeological and paleoecological data to examine the argument that prehistoric peoples caused vertebrate extinction, from the late Ice Age extinction of ground sloths and saber-toothed cats in North America to the extinction of moas in New Zealand some 500 years ago. Offered: even years; A.

**ARCHY 475 Maya Prehistory (3) I&S** Considers prehistoric cultural developments throughout the Central American region occupied by the prehistoric Maya. Temporal focus spans the late Preclassic, Classic, and Postclassic periods, from 300 BC to 1530 AD. Contrasts traditional and contemporary models of ancient Maya civilization. Prerequisite: ARCHY 205; ARCHY 304.

**ARCHY 476 New World States and Empires (5) I&S** Considers theoretical and methodological scholarship on complex societies in Meso-America and the Andes. Highlights current research on population dynamics, subsistence strategies, economic foundations, and political processes in the development of states and empires. Considers archaeological evidence and texts of native and European documents. Prerequisite: ARCHY 205; ARCHY 304.

**ARCHY 477 Archaeology of the North (5) I&S** *Fitzhugh* Archaeological history of the circumpolar arctic and subarctic from Pleistocene to the 19th century. Variability in human adaptation and social evolution in some of the world's most extreme environments such as Eurasian tundra, North Pacific rim, Beringia, and North American high arctic. Prerequisite: ARCHY 205. Offered: Sp.

**ARCHY 478 Prehistory of the Arid West (5) I&S** Archaeology of arid western North America, with particular emphasis on the earliest peoples of this region (and on the peopling of the New World in general), and on the prehistoric hunter-gatherers of the Great Basin and Southwest. Prerequisite: ARCHY 205.

**ARCHY 479 Prehistoric Cultures of North America: Eastern North America (5) I&S** Ecological and evolutionary account of prehistoric cultural developments in North America east of the Rocky Mountains. Cultural and environmental change from appearance of people in New World to collapse of indigenous cultural systems. Prerequisite: ARCHY 304.

**ARCHY 480 Advanced Archaeological Analysis: Ceramics (6) I&S** Human technology in traditional societies. Ceramic tools as evidence for technological innovation, continuity, and change; and as evidence for ancient economic systems involving production, consumption, and distribution. Examines variety of approaches to the study of material culture — especially ceramics — including archaeological, ethnographic, experimental, and technical. Prerequisite: ARCHY 371.

**ARCHY 481 Advanced Archaeological Analysis: Faunal Remains (6) I&S** Seminar on techniques and methods employed in analysis of faunal remains from a wide range of Pleistocene and Holocene settings, including archaeological sites, coupled with a laboratory focusing on identification of faunal remains from these settings. Prerequisite: ARCHY 205.

**ARCHY 482 Advanced Archaeological Analysis: Geoarchaeology (6) I&S** Identification, analysis, and interpretation of sediments and soils associated with archaeological remains. Laboratories deal with sediment description and chemical analysis; field trips and student projects focus on archaeological applications of these subjects.

**ARCHY 483 Analyses of Stone Artifacts (6) I&S** *Close* Current approaches to lithic analysis, including types of information obtainable (technological, functional, social, ideological) and constraints affecting the formation and analysis of lithic assemblages. Lectures interspersed with application of methods under discussion to individual artifacts and to assemblages. Prerequisite: ARCHY 371.

**ARCHY 489 Archaeology Practicum (2-9, max. 15) I&S** Faculty-supervised internships either on or off campus in organizations utilizing archaeological skills in academic or non-academic settings. Includes cultural resource management companies, government agencies, private non-profit organizations, tribal governments, and museums.

**ARCHY 490 Museum Curation Practicum: Archaeology (1-5, max. 15)** Application of museological training in curation of archeological collections including ethnographic, geological, or zoological collection materials in the Burke Museum. Supervised work ranges from fundamental collection documentation and research to preventive conservation, storage, and other special curation projects: Recommended: MUS 481. Offered: jointly with MUSEUM 490.

**ARCHY 495 Quantitative Archaeological Analytic Techniques (5) I&S** Introduction to quantitative approaches to archaeological

problems; data screening, numeric methods of classification and identification, graphical and computer-based seriation techniques, and the analysis of spatial patterning in artifact distributions.

**ARCHY 497 Archaeological Method and Theory I: Formal Theory (5) I&S** Examination of theoretical constructs in the analysis of archaeological data. Terminology, typologies, and interregional comparisons. Prerequisite: ARCHY 205.

**ARCHY 498 Archaeological Method and Theory II: Explanatory Theory (5) I&S** Conceptual frameworks employed by archaeologists in obtaining explanation in the three major areas of culture history, cultural reconstruction, and explanatory prehistory, considering the nature of explanation as conceived in these areas, the basic assumptions employed in achieving these aims, and an introduction to the methods employed. Prerequisite: ARCHY 205; ARCHY 497.

**ARCHY 499 Undergraduate Research (\*, max. 12).**

**ARCHY 501 Preceptorial Reading (6)** For beginning graduate students who have not had adequate training in the problems, principles, and methods involved in the reconstruction of prehistory. Not open to graduate students in the archaeology program.

**ARCHY 520 Principles of Archaeological Theory (5)** Review of principles of archaeological theory. Student presentation of research on archaeological theory and seminar discussion or presentations. Open only to first-year graduate students in anthropology.

**ARCHY 525 Archaeology of Island Southeast Asia and the Pacific (5)** History of the human occupation of the South Pacific Islands, especially Indonesia, Philippines, Micronesia, Melanesia, and Polynesia. Focus on current debates about human migrations, long distance maritime trade, political structure, culture contact, and colonialism. Emphasis on the analysis of the primary archaeological and documentary data.

**ARCHY 530 Prehistory of the Northwest Coast (5)** Origins, development, and variation of Pacific Northwest cultures, focusing particularly on Washington. Adaptations to maritime and interior environments. Artifacts from a variety of archaeological sites. Technological, functional, and historical significance of Northwest artifacts.

**ARCHY 560 Seminar in Archaeological Methods (5, max. 20)** Basis, limitations, and applications of a particular archaeological analytical method, or closely related set of methods. Prerequisite: permission of instructor.

**ARCHY 561 Dating Methods in Archaeology (6)** *Feathers* Theory and method of dating in archaeology. How archaeologists determine time, in both relative and absolute senses. Methodology of stratigraphy, seriation, radiocarbon dating, dendrochronology, obsidian hydration dating and other methods. Special emphasis on, and laboratory experience in, luminescence dating.

**ARCHY 570 Seminar in Archaeological Theory (3-6, max. 18)** Detailed consideration of a particular archaeological theory or closely related

set of theories, including their methodological and epistemological bases. Prerequisite: ARCHY 497, ARCHY 498.

**ARCHY 571 Field Course in Archaeology (5)** Introduction to field acquisition of archaeological data through survey and excavation. Ongoing field projects; instructional emphasis on recovery and recording techniques and on management of field projects. Prerequisite: permission of department.

**ARCHY 572 Seminar in North American Archaeology (3, max. 6)** Selected problems in the archaeology of America north of Mexico. Prerequisite: permission of instructor.

**ARCHY 574 Meta-archaeology: Philosophy and Archaeology (4)** *Wylie* Examines philosophical issues raised in and by archaeology, including theories of explanation and model building, analyses of evidential reasoning and hermeneutic interpretation, debates about ideals of objectivity and about science and values. Recommended: ARCHY 570 Text Offered: jointly with PHIL 574; Sp.

**ARCHY 575 Archaeological Field Research Design (6)** Nature of the archaeological record, and methods and techniques of field research, to illustrate range of data sources and modern techniques of general applicability. Practical experience in mapping, map interpretation, sampling design, remote sensing, photogrammetry, and research proposal writing. Prerequisite: permission of instructor.

**ARCHY 576 Designing Grant Proposals (5)** Design and writing of grant proposals for archaeological research at both dissertation and senior investigator levels, with particular emphasis on National Science Foundation structure and requirements. Prerequisite: upper-level graduate standing and permission of instructor.

**ARCHY 591 Advanced Field Course in Archaeology (6-9)** For students with previous field experience and graduate work in archaeology. Emphasis on decision making in field and project management. Prerequisite: ARCHY 497, ARCHY 498, ARCHY 571, and ARCHY 575 or permission of instructor.

**ARCHY 600 Independent Study or Research (\*)** Prerequisite: permission of instructor.

**ARCHY 601 Internship (3-10, max. 10)** Credit/no credit only.

## Biocultural Anthropology

**BIO A 100 Evolution and Human Behavior (3) NW** Introduction to evolution by natural selection, examining the light it can throw on human biology and behavior in such areas as the nature of sex differences, sexual conflict, and conflict between parents and children. Does not fulfill major requirements. Offered: jointly with BIOL 108.

**BIO A 101 Human Biological Diversity (5) NW** *Kramer* Exploration of human biological variation, including skin color, body form, blood groups, genetics, and reproductive strategies. Introduction to the theory of evolution through natural selection. Offered: A.

**BIO A 201 Principles of Biological Anthropology (5) NW** Evolution and adaptation of the human species. Evidence from fossil record and

living populations of monkeys, apes, and humans. Interrelationships between human physical and cultural variation and environment; role of natural selection in shaping our evolutionary past, present, and future. Offered: AWSpS.

**BIO A 370 Introduction to Primates (5) NW** *Newell* Origins, major evolutionary trends, and modern taxonomic relationships of the nonhuman primates. Their distribution and habitat in relation to behavioral and morphological adaptations and their status as endangered species. Prerequisite: BIO A 201. Offered: A.

**BIO A 372 Uses and Abuses of Evolutionary Views of Human Behavior (5) I&S/NW** *Newell* Interaction of human behavior and biology as it has been interpreted within an evolutionary framework. Discusses various challenges to Darwinian theory, particularly Lamarckism and creationism. Topics include biological determinism as exemplified by racism, myths of human origins, the clash between biological and cultural determinism, and modern genetics and behavior.

**BIO A 382 Human Population Biology (3) NW** Explores human fertility and mortality, and their relationships to the size and structure of populations through time. Emphasizes the biological and cultural determinants of these life course events in evolutionary perspective. Introduces the quantitative tools needed to understand these phenomena, including formal demography, epidemiology, and population genetics. Prerequisite: either BIO A 201, BIOL 101, BIOL 180, or BIOL 201.

**BIO A 387 Ecological Perspectives on Environmental Stress, Adaptation, and Health (5) NW** *Leonetti* How human populations respond to environmental stressors in biological-behavioral terms and the relationship of this adaptational process to health. Nutritional, climatic, and sociocultural stress and associated patterns of birth, disease, and death throughout human history in hunting, gathering, farming, pre-industrial, and industrial societies. Prerequisite: BIO A 201.

**BIO A 388 Human Fossils and Evolution (5-) NW** *Eck* First of a two-part series. Evolution of human anatomy and behavior as adaptations to changing environments. Human fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Prerequisite: either BIO A 201, or BIOL 201, BIOL 202, and BIOL 203, or both BIOL 101 and BIOL 102, or both BIOL 180 and BIOL 200. Offered: W.

**BIO A 389 Human Fossils and Evolution (5-) NW** *Eck* Second of two-part series. Evolution of human anatomy and behavior as adaptations to changing environments. Human fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Prerequisite: BIO A 388. Offered: S.

**BIO A 450 Biodemography Seminar (5) I&S/NW** Introduction to theory, methods, and literature of biodemography. Examines biological mechanisms underlying patterns of aging, mortality, fertility, and population growth and decline. Includes readings from anthropology, sociology, demography, evolutionary biology, molecular biology, and epidemiology. Covers prehistoric, historic, and modern human populations, and non-human model systems. Offered: W.

**BIO A 455 Reproductive Ecology Laboratory Seminar (5) NW** Introduction to the theory and methods of laboratory-based research in reproductive ecology. Covers lab methods for reproductive hormone assays, and their application in anthropological, biodemographic, and epidemiological research. Prerequisite: BIO A 201. Offered: Sp.

**BIO A 465 Nutritional Anthropology (3) I&S/NW** Concerns interrelationships between biomedical, sociocultural, and ecological factors, and their influence on the ability of humans to respond to variability in nutritional resources. Topics covered include diet and human evolution, nutrition-related biobehavioral influences on human growth, development, and disease resistance. Prerequisite: BIO A 201. Offered: jointly with NUTR 465.

**BIO A 466 Biocultural Anthropology Honors Thesis ([1-9]-, max. 18) NW** Individual research under the direction of a thesis advisor, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

**BIO A 469 Special Topics in Biocultural Anthropology (3-5, max. 15) NW** Delineation and analysis of a specific problem or a more general area in biocultural anthropology. Offered occasionally by visiting or resident faculty.

**BIO A 470 Evolution of Human Social Behavior (5) I&S,QSR** *Smith* Key concepts, research strategies, and debates concerning the processes and outcomes of human behavioral evolution. Emphasizes the complementarity of various methods and theories for understanding human biocultural evolution, including behavioral ecology, dual transmission theory, phylogenetic analysis, and evolutionary psychology. Prerequisite: BIO A 201.

**BIO A 473 Biological Adaptability of Human Populations (5) NW** *Shell-Duncan* Mechanisms enabling humans to maintain homeostasis in extreme environments: high altitude, heat, cold, nutritional deficiency, radiation. Adaptive process operating at levels of physiology, metabolism, and population, including the strategies of fertility and birth spacing. Prerequisite: BIO A 201.

**BIO A 475 Environmental Impacts of Small Scale Societies (5) I&S/NW** *Grayson, Smith* Examines the environmental impacts (positive and negative) among prehistoric and historic/ethnographic small-scale (hunter-gatherer and horticultural) societies worldwide, and debates these impacts, within a theoretical framework provided by evolutionary ecology and biogeography. Offered: jointly with ENVIR 475.

**BIO A 476 Sociocultural Ecology and Health (3) NW** *Leonetti* Sociocultural ecology of health/disease, focusing on humans as bioculturally integrated beings and on populations as biocultural units of adaptation. Examples of research on disease, both infectious and chronic, and patterns of morbidity and mortality, infant, maternal, old age, with particular attention to situations of sociocultural changes. Prerequisite: BIO A 201.

**BIO A 477 Evolutionary Perspectives on Sex and Gender Roles (3) I&S/NW** Critical examination of theories explaining the evolution of sex differences and associated gender roles. Consideration of gender differences in mate preferences, parental investment, subsistence, aggressiveness, and risk-taking. Stresses

interactions between biology and culture. Prerequisite: BIO A 201.

**BIO A 482 Human Population Genetics (5) NW, QSR** *Holman* Micro-evolutionary changes in human populations. Effects of mutation, selection, inbreeding, gene flow, and genetic drift as causes of evolutionary change. Prerequisite: BIO A 201.

**BIO A 483 Human Genetics, Disease, and Culture (5) NW** Considers relationships among genetic aspects of human disease, cultural behavior, and natural habitat for a wide variety of conditions. Also considers issues of biological versus environmental determinism, adaptive aspects of genetic disease, and the role of cultural selection. Prerequisite: BIO A 201.

**BIO A 484 Human Life Cycle (5) NW** *Newell* Human growth and physical/social development: fetal life to old age. Cultural, ecological, and evolutionary aspects of the life cycle. Population differences in age and sex related to morbidity and mortality. Prerequisite: BIO A 201.

**BIO A 485 Research in Growth and Development (2, max. 8) NW** Focus on topics relating to primate growth and development. Prerequisite: either BIO A 484, BIO A 495, or BIO A 496, any of which may be taken concurrently.

**BIO A 486 Primate Socioecology (3) NW** Focus on the variety of social systems exhibited by nonhuman primates and adaptive significance of these societies; social systems in terms of the present ecology and evolutionary past of the species; the function of communicatory gestures and vocalizations, tradition, kinship, and social roles in maintaining and structuring groups over generations; the relationship among mating systems, foraging strategies, ranging patterns, and ecological separation/resource partitioning and their contribution to species-typical social organization. Prerequisite: either BIO A 370 or PSYCH 418.

**BIO A 487 Human and Comparative Osteology (3) NW** Introduction to the vertebrate skeleton. The skeleton is described in detail and various methods of determining age and sex, as well as osteometry and modern statistical methods for handling such data, are presented.

**BIO A 488 Primate Evolution (5) NW** *Eck* Major trends in nonhominid primate evolution through the Cenozoic. Discussion of the specimens, geological context, and age of the fossil taxa and their relationship to modern taxa. Practical experience in analyzing fossil material. Prerequisite: BIO A 201.

**BIO A 491 Issues in Human Paleontology (5) NW** *Eck* Addresses five major unanswered questions concerning human evolution as represented by the fossil record. Prerequisite: BIO A 389.

**BIO A 495 Growth and Development: Infancy (5) NW** *Newell* Genetic and environmental influences on growth and development from prenatal life through infancy. Includes exploration of methods for assessing development and comparisons of development in non-human primates with human development. Prerequisite: BIO A 370.

**BIO A 496 Growth and Development: Adolescence and Reproductive Maturity (5) NW** *Newell* Genetic and environmental

influences on growth and development during adolescence. Emphasis on the interaction of biological and social factors in attainment of reproductive maturity. Compares conditions of non-human primates with human conditions. Prerequisite: BIO A 370.

**BIO A 499 Undergraduate Research (\*, max. 12) .**

**BIO A 502 Preceptorial Reading (6) F** For beginning graduate students who have not had adequate training in the study of primate principles and methods involved in the study of evolution, human genetics, and the evolution of modern populations. Not open to graduate students in the biocultural anthropology program. Offered: AWS.

**BIO A 520 Human Behavioral Ecology (3-5) Smith** Principles and methods of evolutionary behavioral ecology, and critical examination of their application to human behavior in such areas as resource utilization, mating, parenting, life history, cooperation, and competition.

**BIO A 525 Biocultural Research Methods and Study Design (5) Shell-Duncan** Survey of basic conceptual issues in the design of empirical research, with special attention to problems that arise during anthropological fieldwork. Topics include defining data needs, sampling strategies, problems with co-funding, proposal writing, human subjects approval, and basic ethical issues in human biocultural research.

**BIO A 526 Quantitative Methods and Modeling for Biocultural Anthropology (5)** Surveys the concepts, tools, and methods for developing quantitative models based on underlying biocultural processes. Introduces methods of testing models from observations collected in anthropological field studies. Oriented toward longitudinal research of fertility, mortality, disease dynamics, population genetics, and other biocultural processes.

**BIO A 550 Skeletal Biology and Prehistoric Demography (5) O'Connor** Composition and structure of calcified tissue. Analytical techniques and their contribution to interpretation of the archaeological record.

**BIO A 568 Human Reproductive Ecology (3) A** consideration of the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, nuptiality, duration of birth intervals, and reproductive senescence.

**BIO A 569 Demographic Analysis in Biological and Social Anthropology (5) Leonetti** Demographic analysis relevant to anthropological research on small populations. Use of data collected through local surveys, genealogical methods, and from other sources. Focuses on use of demography to analyze social and biological processes with adaptive and/or cultural-historical significance. Theoretical approaches emphasized.

**BIO A 584 Topics in Ecology and Adaptation (3, max. 9)** Seminar dealing with various aspects of ecology and adaptation. Topics vary each quarter.

**BIO A 588 Topics in Primate Evolution (3)** Emphasis on fossil taxa and their importance in understanding the morphologies and distributions of members of modern taxa. Prerequisite: BIO A 488 and permission of instructor.

**BIO A 590 Current Issues in Human and Non-Human Primate Evolution (2, max. 18)**

Biweekly presentation by participants and guest lecturers of current literature and ongoing research in topics pertaining to human and nonhuman primate evolution, biology, anatomy, genetics variation, and behavior. Credit/no credit only.

**BIO A 600 Independent Study or Research (\*)**

---

## Applied Mathematics

**AMATH 301 Beginning Scientific Computing (4) NW**

Introduction to the use of computers to solve problems arising in the physical, biological and engineering sciences. Application of mathematical judgment, programming architecture, and flow control in solving scientific problems. Introduction to MATLAB routines for numerical programming, computation, and visualization. Prerequisite: either MATH 125, Q SCI 292, MATH 128, or MATH 135. Offered: AWSpS.

**AMATH 351 Introduction to Differential Equations and Applications (3) NW**

Introductory survey of ordinary differential equations. Linear and nonlinear equations. Taylor series. Laplace transforms. Emphasis on formulation, solution, and interpretation of results. Examples from physical and biological sciences and engineering. Introduction to MATLAB as a tool for solving differential equations. Prerequisite: MATH 125. Offered: AWSpS.

**AMATH 352 Applied Linear Algebra and Numerical Analysis (3) NW**

Analysis and application of numerical methods and algorithms to problems in the applied sciences and engineering. Applied linear algebra, including eigenvalue problems. Emphasis on use of conceptual methods in engineering, mathematics, and science. Extensive use of MATLAB package for programming and solution techniques. Prerequisite: either MATH 126 or Q SCI 293.

**AMATH 353 Fourier Analysis and Partial Differential Equations (3) NW**

Heat equation, and Laplace's equation. Separation of variables. Fourier series in context of solving heat equation. Fourier sine and cosine series; complete Fourier series. Fourier and Laplace transforms. Solution of partial differential equations on infinite domains. D'Alembert's solution for wave equation. Prerequisite: either AMATH 351 or MATH 307. Offered: AWSp.

**AMATH 383 Introduction to Continuous Mathematical Modeling (3) NW**

Introductory survey of applied mathematics with emphasis on modeling of physical and biological problems in terms of differential equations. Formulation, solution, and interpretation of the results. Prerequisite: either AMATH 351 or MATH 307. Offered: AWSpS.

**AMATH 401 Vector Calculus and Complex Variables (4) NW**

Emphasis on acquisition of solution techniques; ideas illustrated with specific example problems arising in science and engineering. Applications of vector differential calculus, complex variables. Line-surface integrals; integral theorems; Taylor and Laurent series, contour integration. Prerequisite: MATH 126. Offered: A.

**AMATH 402 Introduction to Dynamical Systems and Chaos (4) NW**

Overview of methods to describe the qualitative behavior of solutions of nonlinear differential equations. Phase space analysis of fixed points and periodic orbits. Bifurcation methods. Description of strange attractors and chaos. Introductions to maps. Applications from engineering, physics, chemistry and biology. Prerequisite: either AMATH 351 or MATH 307. Offered: W.

**AMATH 403 Methods for Partial Differential Equations (4) NW**

See 401. Applications of partial differential equations; linear and quasilinear first order equations, characteristics, shocks; classification of linear second order equations; basic solution techniques for parabolic, elliptic, and hyperbolic equations; Green's functions and integral transform methods. Prerequisite: AMATH 402.

**AMATH 410 Computational Biology and Chemistry (4)**

Introduction to computational methods in biology and chemistry. Applications focus on statistical models, equilibrium models, discrete- and continuous- time deterministic models, and stochastic models arising in the biological and life sciences, and chemistry. Uses MATLAB for numerical computation and data analysis. Teaches tools in parallel with their computational implementation.

**AMATH 422 Introduction to Mathematical Biology (3) NW**

Mathematical modeling in biology and medicine. Introduction to chaos and nonlinear dynamics, population models (predator-prey and competition systems), epidemic models with applications to sexually transmitted diseases and dynamic diseases, enzyme kinetics, biological oscillators and switches. Prerequisite: either AMATH 351, MATH 136, or MATH 307. Offered: A.

**AMATH 423 Mathematical Biology: Stochastic Models (3) NW**

Introduction to the basics of stochastic models. Applications are taken from the biomedical sciences such as random movement of cells and molecules, activation of neurons, cancer growth and spread, population dynamics, kinetics of unimolecular reactions. Prerequisite: either AMATH 351 or MATH 307, MATH/STAT 390. Offered: W.

**AMATH 441 Introduction to Fluid Dynamics (3) NW**

Eulerian equations of mass and motion. Surface forces. Vorticity and vortex dynamics. Water waves and interfacial waves; concept of phase and group velocities. Linear instability theory. Simple viscous flows; boundary layer theory, potential theory. Low Reynolds-number flows, application to biological fluid flows. Prerequisite: AMATH 353.

**AMATH 490 Special Topics (1-5, max. 15)**

Topics of current interest in applied mathematics not covered by other undergraduate courses.

**AMATH 498 Senior Project or Thesis (1-6, max. 6)**

Intended for Honors students and other advanced undergraduates completing a special project or senior thesis in applied mathematics. Offered: AWSpS.

**AMATH 499 Undergraduate Reading and Research (1-6, max. 6)**

Credit/no credit only. Offered: AWSpS.

**AMATH 500 Special Studies in Applied Mathematics (\*, max. 12)**

Lectures and discussions of topics of current interest in applied mathematics. May not be offered every

quarter; content may vary from one offering to another. Prerequisite: permission of instructor.

**AMATH 501 Seminar in Applied Mathematics (1, max. 6)**

Special topics and selected problems of current interest in applied mathematics. Credit/no credit only. Offered: AWSp.

**AMATH 502 Applied Mathematics Clinic (1)**

The clinic provides consulting service for problems from different academic units requiring assistance in formulation, analysis, and interpretation of mathematical models. Students learn to delineate sources of difficulties, identify or devise a method of solution, and effectively communicate it to clients. Credit/no credit only. Prerequisite: AMATH 568, AMATH 569, and AMATH 584. Offered: AWSp.

**AMATH 503 Mathematical Biology I (3)**

Mathematical modeling in biomedical sciences (mainly ecology, epidemiology, physiology, and zoology). Topics covered include modeling (continuous and discrete), population interactions, dynamic diseases, reaction kinetics, biological oscillators, oscillator generated wave phenomena, epidemics, and the dynamics of infectious diseases. Prerequisite: AMATH 402 or equivalent knowledge of ordinary differential equations. Offered: A.

**AMATH 504 Mathematical Biology II (3)**

Mathematical modeling in the biomedical sciences (mainly ecology, epidemiology, and zoology). Topics include spatial spread of populations, traveling wave phenomena in biology, reaction diffusion theory, biological pattern formation mechanisms, mechanochemical theory of morphogenesis, spatial spread of epidemics. (May be taken independently of 503.) Prerequisite: AMATH 402, AMATH 403 or equivalents; ordinary, partial differential equations. Offered: W.

**AMATH 505 Introduction to Fluid Dynamics (4)**

Eulerian equations for mass-motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress-strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high-low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisite: AMATH 403 or permission of instructor. Offered: jointly with ATM S 505/OCEAN 511; A.

**AMATH 506 Applied Probability Statistics (4)**

Discrete and continuous random variables, independence and conditional probability, central limit theorem, elementary statistical estimation and inference, linear regression. Emphasis on physical applications. Prerequisite: some advanced calculus and linear algebra. Offered: jointly with STAT 506.

**AMATH 507 Calculus of Variations (5)**

Necessary and sufficient conditions for a weak and strong extremum. Legendre transformation, Hamiltonian systems. Constraints and Lagrange multipliers. Space-time problems with examples from elasticity, electromagnetics, and fluid mechanics. Sturm-Liouville problems. Approximate methods. Prerequisite: AMATH 351 or MATH 307; MATH 324, 327; recommended: AMATH 402 and AMATH 403 or MATH 428 and 429.

**AMATH 509 Theory of Optimal Control (3)**

Trajectories obtained from ordinary differential equations with control variables. Controllability, optimality, the maximum principle. Relaxation

and the existence of solutions. Techniques of nonsmooth analysis. Prerequisite: real analysis on the level of MATH 426; background in optimization corresponding to AMATH 507 or AMATH 515. Offered: jointly with MATH 509; even years.

**AMATH 510 Applications of Optimization in Engineering Design (3)** *Zabinsky* Discussion of issues arising in applications of optimization to engineering design. Emphasis on formulating problems and selecting appropriate solution techniques. Random search methods for problems otherwise computationally intractable. Individual projects in engineering optimal design. Prerequisite: AMATH/MATH/IND E 515 and MATH 328 or permission of instructor. Offered: jointly with IND E 516.

**AMATH 512 Methods of Engineering Analysis (3)** Applications of mathematics to problems in chemical engineering; vector calculus; properties and methods of solution of first and second order partial differential equations; similarity transforms, separation of variables, Laplace and Fourier transforms. Offered: jointly with CHEM E 512; A.

**AMATH 514 Networks and Combinatorial Optimization (3)** Networks and directed graphs. Paths and trees. Feasible and optimal flows and potentials. Transportation problems, matching and assignment problems. Algorithms and applications. Prerequisite: MATH 308 or AMATH 352 and MATH 324. Offered: jointly with MATH 514.

**AMATH 515 Fundamentals of Optimization (5)** Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisite: linear algebra and advanced calculus. Offered: jointly with IND E 515/MATH 515.

**AMATH 516 Numerical Optimization (3)** Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Prerequisite: AMATH 515. Offered: jointly with MATH 516.

**AMATH 517 Optimization Under Uncertainty (3)** Sequential optimization problems involving random variables. Dynamic programming, stochastic programming. Control of uncertain dynamic systems in finite, discrete time. Risk, feedback, adaptivity. Problems with imperfect state information. Applications to optimal stopping, inventory control, resource management. Prerequisite: AMATH 506 (or an introduction to basic concepts of probability such as STAT 390 or 394, 395), MATH 308 and 324. Offered: jointly with MATH 517.

**AMATH 520 Special Topics in Mathematical Applications (5, max. 15)** In-depth study of an application topic in applied mathematics. Topics may include special studies in geophysical fluid dynamics, hydrodynamic stability, turbulence, analytic dynamics, solid mechanics, applied optimization, tensor analysis, stochastic analysis, and nonlinear optics and lasers. Offered: W.

**AMATH 521 Special Topics in Mathematical Biology (5, max. 15)** DNA-folding, patterning systems, stochastic analysis. Prerequisite: AMATH 402 or equivalent. Offered: Sp.

**AMATH 563 Methods of Partial Differential Equations II (3)** Nonlinear first-order partial differential equations: characteristics, applications to geometrical optics and Hamilton-Jacobi theory. Linear and quasilinear hyperbolic equations: conservation laws, characteristics, shocks, examples from fluid dynamics. Approximate solution methods: regular, singular, and multiple-scale perturbations. Prerequisite: AMATH 569. Offered: odd years.

**AMATH 564 Methods of Partial Differential Equations III (3)** Nonlinear first-order partial differential equations: characteristics, applications to geometrical optics and Hamilton-Jacobi theory. Linear and quasilinear hyperbolic equations: conservation laws, characteristics, shocks, examples from fluid dynamics. Approximate solution methods: regular, singular, and multiple-scale perturbations. Prerequisite: AMATH 569. Offered: odd years.

**AMATH 567 Complex Variables (5)** Complex variable and associated topics. Branch cuts, series and product expansions. Contour integration, numerical implications. Harmonic functions. Complex potential (and singularities) in physical problems. Conformal mapping; applications and examples. Fourier and Laplace transforms and applications. Recommended: 401 or equivalent. Offered: A.

**AMATH 568 Advanced Methods for Ordinary Differential Equations (5)** Survey of practical solution techniques for ordinary differential equations. Linear systems of equations including nondiagonal case. Nonlinear systems; stability phase plane analysis. Asymptotic expansions. Regular and singular perturbations. Recommended: 402 or equivalent. Offered: W.

**AMATH 569 Advanced Methods for Partial Differential Equations (5)** Analytical solution techniques for linear partial differential equations. Discussion of how these arise in science and engineering. Transform and Green's function methods. Classification of second-order equations, characteristics. Conservation laws, shocks. Prerequisite: AMATH 403, AMATH 568 or MATH 428 or permission of instructor. Offered: Sp.

**AMATH 570 Asymptotic and Perturbation Methods (5)** Asymptotics for integrals, perturbation and multiple-scale analysis. Singular perturbations: matched asymptotic expansions, boundary layers, shock layers, uniformly valid solutions. Prerequisite: AMATH 567, AMATH 568, AMATH 569, or permission of instructor. Offered: A.

**AMATH 571 Spectral Methods (5)** Analysis and application of spectral methods for the numerical solution of differential equations. Fourier methods and the FFT; collocation methods; polynomial interpolation and Chebyshev series; approximation theory and spectral accuracy; boundary conditions. Prerequisite: AMATH 584, AMATH 585, AMATH 586, or permission of instructor. Offered: W.

**AMATH 572 Introduction to Applied Stochastic Analysis (5)** Introduction to the theory of probability and stochastic processes based on differential equations with applications to science

and engineering. Poisson processes and continuous-time Markov processes, Brownian motions and diffusion. Prerequisite: AMATH/STAT 506, AMATH 402, or equivalent knowledge of probability and ordinary differential equations. Offered: Sp.

**AMATH 573 Solitons and Nonlinear Waves (5)** Methods for integrable and near-integrable nonlinear partial differential equations such as the Korteweg-de Vries equation and the Nonlinear Schrödinger equation; symmetry reductions and solitons; soliton interactions; infinite-dimensional Hamiltonian systems; Lax pairs and inverse scattering; Painlevé analysis. Prerequisite: AMATH 569, or permission of instructor. Offered: A.

**AMATH 574 Conservation Laws and Finite Volume Methods (5)** Theory of linear and nonlinear hyperbolic conservation laws modeling wave propagation in gases, fluids, and solids. Shock and rarefaction waves. Finite volume methods for numerical approximation of solutions; Godunov's method and high-resolution TVD methods. Stability, convergence, and entropy conditions. Prerequisite: AMATH 586 or permission of instructor. Offered: W.

**AMATH 575 Dynamical Systems (5)** Overview of ways in which complex dynamics arise in nonlinear dynamical systems. Topics include bifurcation theory, universality, Poincaré maps, routes to chaos, horseshoe maps, Hamiltonian chaos, fractal dimensions, Liapunov exponents, and the analysis of time series. Examples from biology, mechanics, and other fields. Prerequisite: AMATH 568 or equivalent.

**AMATH 577 Perturbation Theory I (3)** Regular perturbations. Singular perturbations: matched asymptotic expansions, boundary layers, shock layers, uniformly valid solutions. The methods of multiple scales and averaging, weakly nonlinear wave propagation problems and resonance phenomena, homogenization, nonlinear wave propagation in fluid, solid, and particle mechanics. Prerequisite: AMATH 567, AMATH 568, AMATH 569, or equivalent. Offered: even years.

**AMATH 578 Perturbation Theory II (3)** Regular perturbations. Singular perturbations: matched asymptotic expansions, boundary layers, shock layers, uniformly valid solutions. The methods of multiple scales and averaging, weakly nonlinear wave propagation problems and resonance phenomena, homogenization, nonlinear wave propagation in fluid, solid, and particle mechanics. Prerequisite: AMATH 567, AMATH 568, AMATH 569, or equivalent. Offered: even years.

**AMATH 581 Scientific Computing (5)** Project-oriented computational approach to solving problems arising in the physical/engineering sciences, finance/economics, medical, social and biological sciences. Problems requiring use of advanced MATLAB routines and toolboxes. Covers graphical techniques for data presentation and communication of scientific results. Prerequisite: Proficiency in basic MATLAB or AMATH 301, or permission of instructor.

**AMATH 584 Applied Linear Algebra and Introductory Numerical Analysis (5)** Numerical methods for solving linear systems of equations, linear least squares problems, matrix eigen value problems, nonlinear systems of equations, interpolation, quadrature, and initial value ordinary differential equations. Offered: jointly with MATH 584; A.

**AMATH 585 Numerical Analysis of Boundary Value Problems (5)** Numerical methods for steady-state differential equations. Two-point boundary value problems and elliptic equations. Iterative methods for sparse symmetric and non-symmetric linear systems: conjugate-gradients, preconditioners. Prerequisite: AMATH 581 or MATH 584 which may be taken concurrently. Offered: jointly with MATH 585; W.

**AMATH 586 Numerical Analysis of Time Dependent Problems (5)** Numerical methods for time-dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence theory. Spectral and pseudospectral methods. Prerequisite: AMATH 581 or AMATH 584. Offered: jointly with ATM S 581/MATH 586; Sp.

**AMATH 587 Asymptotics and Special Functions (3)** Origin and properties of higher transcendental functions; theoretical basis and applications of Laplace, Fourier, Bessel, Mellin transforms; asymptotic analysis, including methods of steepest descent and stationary phase, WKB. Prerequisite: AMATH 567, AMATH 568, AMATH 569, or equivalent.

**AMATH 588 Green's Functions and Integral Equations (3)** Review of Sturm-Liouville theory. Green's functions and integral representation of solution to PDEs. Fredholm and Volterra integral equations. Hilbert-Schmidt theory. Singular integral equations of Cauchy type. Applications to science and engineering. Prerequisite: AMATH 567, AMATH 568, AMATH 569, or equivalent.

**AMATH 592 Special Topics in Stochastic Analysis and Modeling (5)** Stochastic techniques and models with applications. Markov process and diffusion, stochastic differential equations, randomly perturbed dynamical systems, and statistical mechanics. Prerequisite: AMATH 572, or permission of instructor.

**AMATH 594 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing, such as iterative methods, eigenvalue computations, approximation theory, finite element methods, inverse problems, nonlinear conservation laws, computational fluid dynamics. Prerequisite: AMATH 584, 585, 586, or equivalent. Offered: jointly with MATH 594.

**AMATH 595 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing. See the description for 594 for sample topics. Prerequisite: AMATH 584, 585, 586, or equivalent. Offered: jointly with MATH 595.

**AMATH 596 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing. See the description for 594 for sample topics. AMATH 584, 585, 586, or equivalent. Offered: jointly with MATH 596.

**AMATH 600 Independent Research or Study (\*)** Credit/no credit only.

**AMATH 700 Master's Thesis (\*)** Credit/no credit only.

**AMATH 800 Doctoral Dissertation (\*)** Credit/no credit only.

## Art

**ART 120 Influences in Contemporary Art (5) VLPA** Introduction to recurring themes and practices in the visual arts. Moves beyond medium-based categories, surveying a diverse range of issues that motivate artists and create content in contemporary art. Examines the importance and influence of the visual arts in the larger context of contemporary culture and society.

**ART 121 Drawing (5) VLPA** Drawing studied as the means of creating a coherent visual and expressive statement. Development of ability in the fundamentals of drawing: line, tone, and gesture, theory and practice of linear and aerial perspective, and basic concepts of composition. Offered: AWSp.

**ART 124 Three-Dimensional Design Fundamentals (5) VLPA** Through use of a variety of materials, three-dimensional fundamentals are investigated for formal and conceptual concerns as they apply to the visual arts. Offered: AWSp.

**ART 126 Topics in Studio Art (5) VLPA** Studio-based class introducing students, through particular studio practice of individual instructors, to methods of visual awareness, principles of organization, and approaches to visual and conceptual observation. Relationship between art history and contemporary art practice. Artistic medium in each class varies with instructor expertise. Offered: AWSpS.

**ART 131 Alternative Approaches to Art and Design (5, max. 20) VLPA** Presentation of process through which artists discover and translate ideas, feelings, and concerns into images or objects. Use of a wide variety of methods and approaches, from traditional to technological, to promote visual expression. Discussion and critiques leading toward better understanding the creative process.

**ART 133 Color Theory and Practice (5) VLPA** Examination of color as distinct visual phenomenon with investigations of its practical, theoretical, and illusionary aspects. Various media and materials employed in exercises and compositions that demonstrate properties of color structure, symbolism, and perception and their potential applications to art and design.

**ART 134 Concepts in Three-dimensional Art (5) VLPA** Exploration, study, and application of thematic concepts not generally associated with traditional three-dimensional art forms. Investigation of themes such as installation, performance, public, and socio-political art.

**ART 140 Basic Photography (5) VLPA** Introduction to theory, techniques, and processes of still photography. Projects stress the visual and creative potential of the medium. (Students must provide a camera with lens, shutter, and aperture controls.) Offered: AWSpS.

**ART 150 Three-Dimensional Design Fundamentals (5) VLPA** Introduction to fundamentals of three-dimensional design process. Both practical and conceptual skills explored and demonstrated through assigned project or projects.

**ART 166 Design Foundations (5) VLPA** The rudiments of visual structure and organization in

two-dimensional design. Covers formal principles of composition with an emphasis on design processes and serves as the groundwork for subsequent design courses. Required for application to the Visual Communication Design major. Offered: A.

**ART 190 Introduction to Drawing (5) VLPA** Builds basic drawing skills, develops understanding of primary concepts which relate to drawing and develops an understanding of the grammar or syntax of two-dimensional language. Students move beyond their current knowledge and abilities and link new skills, concepts, and understandings to creative expressing. Offered: AWSp.

**ART 201 Ceramic Art: Handbuilding (5) VLPA** Introduction to handbuilding; kiln firing and glazing processes. Examination of contemporary sculpture in clay.

**ART 202 Ceramic Art: Wheel Throwing (5) VLPA** Introduction to wheel throwing, glazing, and kiln firing processes. Examination of contemporary vessel form in clay.

**ART 206 Photographic Visualizations (5, max. 15) VLPA** Explores photography as a means of visualizing ideas in the context of learning in the field of documentary photography. Includes a series of assignments that consider technical and formal issues, critical thinking, concept development, and experimentation. Offered: S.

**ART 207 Drawing for Design Communication (5) VLPA** Concentrates on developing skills used to communicate ideas that exist in the imagination. Focuses on study of design drawing history and development of basic skills necessary for ideation, exploration, communication, explanation. Prepares students to visualize and discuss ideas rapidly and professionally. For design majors only. Offered: A.

**ART 208 Survey of Design History (5) VLPA** Comprehensive survey of the ideas, events, and individuals that determined the design of information, objects, culture, and commerce across societies. Examines the social, political and cultural contexts that shape graphic design and the ideologies and relationships of similar movement in art and architecture. Late 19th Century - contemporary issues.

**ART 209 Fundamentals of Typography (5) VLPA** Develops understanding of and sensibility to typographic details used to create effective communication. Focus moves from understanding letter forms that make up words to the complexities of developing phrases, sentences, and short paragraphs with multiple levels of hierarchical meaning. Prerequisite: ART 207. Offered: W.

**ART 210 Collaboration and Improvisation (5) VLPA** Introduces key factors in the theory and practice of creating and participating in collaborative projects. Focuses on creating and participating in effective teams, understanding strengths and roles within teams, working through team issues, developing techniques for interdisciplinary problem solving. Prerequisite: ART 207.

**ART 211 Image Methodology (5) VLPA** Imagery as essential to visual communication. Ways that meaning and representation in images profoundly impact understanding. Focus on expanding image making, ideation skills, developing experimental visual processes to

create meaning, finding engaging and imaginative solutions. Exploration of symbolism, abstraction, metaphors. Prerequisite: ART 207. Offered: Sp.

**ART 212 Human-Centered Design (5) VLPA** Introduces design methodologies including ergonomics, participatory design, user research, ethnography, inclusive design, usability testing. Focuses on design methods leading to more humane technology, providing platforms for innovation, reframing problems in unique ways, explaining complex information, exploring alternatives, visualizing and communicating solutions. Prerequisite: ART 207. Offered: .

**ART 226 Introduction to Structure (5) VLPA** Explores the structure of two- and three-dimensional textile forms. Students work with floor looms, computer-aided looms, as well as working directly with materials.

**ART 227 Introduction to Surface (5) VLPA** Basic techniques of dying, printing, and embellishing, with emphasis on their conceptual uses in art making.

**ART 234 History of Public Art and Public Space (5) VLPA** *Young* Survey of the melding of public art, architecture, and landscape architecture through the ages, starting with Stonehenge, the Pyramids, and Gothic cathedrals, and ending with contemporary earthworks, public art, and twenty-first century performance art. Offered: W.

**ART 241 Intermediate Photography I (5) VLPA** Studio projects examining the expressive and conceptual uses of alternative photographic materials and techniques. Prerequisite: ART 140. Offered: A.

**ART 245 Concepts in Printmaking (5) VLPA** Introduction to contemporary printing methods such as monotype, monoprint, stencil, and photocopy. Survey of historical and current approaches to the art of printmaking.

**ART 246 Works on Paper/Monotype (5) VLPA** Introduces contemporary imaging methods, expands traditional drawing methods, and encourages relationship of content to structure. Introduces relationship of printmaking and painting to drawing through monotype methods.

**ART 259 Water-Soluble Media (5, max. 15) VLPA**

**ART 260 Art Works on Paper (5, max. 15) VLPA** Experiments and projects in various techniques of drawing, assemblage, and painting on paper.

**ART 272 Beginning Sculpture — Casting (5) VLPA** *Taylor* Fundamentals of composition in the round and relief with an emphasis on non-metal casting.

**ART 273 Beginning Sculpture — Wood and Metal (5) VLPA** *Lynn* Introduction to sculpture, focusing on the use of wood and metal. Investigations center on a wide variety of methods and approaches, from traditional to technical, to promote visual expression. Class discussions and critiques focus on better understanding of the creative process.

**ART 290 Beginning Drawing: The Figure (5) VLPA** Introduction to the human figure as historically traditional subject matter as well as an important component in self expression.

Covers proportion, foreshortening, and composition. Prerequisite: ART 190. Offered: AWSpS.

**ART 291 Beginning Drawing Topics (5) VLPA** Revolving topics in the study of drawing at the beginning level Prerequisite: ART 190. Not open for credit to students having taken ART 290.

**ART 292 Beginning Painting (5) VLPA** Beginning oil painting. Prerequisite: ART 290.

**ART 293 Beginning Painting Topics (5) VLPA** Revolving topics in the study of painting at the beginning level. Prerequisite: ART 292.

**ART 316 Introduction to Industrial Design (5) VLPA** Product design, working drawings, models, presentation drawings, product analysis, display, marketing. Prerequisite: ART 211; ART 212.

**ART 317 Intermediate ID Studio 1 (5) VLPA** Product design, working drawings, models, presentation drawings, product analysis, display, marketing. Prerequisite: ART 211; ART 212.

**ART 318 Intermediate ID Studio 2 (5) VLPA** Product design, working drawings, models, presentation drawings, product analysis, display, marketing. Prerequisite: ART 211; ART 212.

**ART 320 Industrial Design Special Projects (5, max. 15) VLPA** Progressive industrial design methodology and criticism introduced through projects corresponding to major international design competitions, visiting critics and lecturers, corporate sponsored projects, or faculty design research. Independent or group work on projects to expand students' visual research, drawing, modelmaking, presentation, and literacy skills. Includes contemporary manufacturing and information technologies.

**ART 321 Furniture Design (5) VLPA** Design of a furniture piece. Methodologies and construction, types of hardware, special shop techniques, scale modeling and full-scale functional designs.

**ART 322 Presentation for Industrial Design I (5) VLPA** Introduction to presentation skills, from quick sketching of design concepts to refined representation of the finished design in a two-dimensional format. Emphasis on accuracy and development of an individual style. Prerequisite: ART 211; ART 212.

**ART 328 Intermediate Fiber Studio (5, max. 15) VLPA** Explores more advanced techniques used in the basic fiber media, weaving and surface design. Technical focus of each class varies. Covers pattern development, expanded scale, visual clarity, and conceptual depth. Prerequisite: either ART 226 or ART 227.

**ART 329 Topics in Fiber Art (5, max. 15) VLPA** Explores a range of special topics in fibers, including non-traditional materials and processes and interdisciplinary areas of interest within the field, while offering specific technical, hands-on training when appropriate. Emphasizes the development of the thematic content of the individual's work.

**ART 330 History of Textiles (5) VLPA** Overview of Western textiles from Coptic tapestry through industrialization. Discussion of textiles not only in aesthetic terms but also as cultural documents arising from, and reflecting, a broad range of societal pressures and concerns. Special topics in contemporary issues and non-Western

textiles with emphasis on holdings in the University collection.

**ART 332 Intermediate Sculpture Composition — Public Art (5, max. 15) VLPA** Intermediate work in various media and techniques with an emphasis on the creation of public art. .

**ART 333 New Materials and Processes (5, max. 15) VLPA** Exploration of the process through which artists discover and translate ideas, feelings, and concerns into images or objects. Introduction of new ways of thinking, new materials and processes in the investigation of a variety of sculpture methods and approaches.

**ART 334 Public/Professional Art Issues (5, max. 15) VLPA** *Young* Topics vary, centering on issues of public art and professional practices.

**ART 335 Metal Casting (5, max. 15) VLPA** Introduction to foundry techniques as applied to fine arts casting of ferrous and nonferrous material. Prerequisite: ART 272.

**ART 338 Photography: Theory and Criticism (5) I&S/VLPA** Art traditions of photography from its origins in the nineteenth century to the present. Emphasis on photographic traditions and photographers of the twentieth century, and investigations of and research into local collections.

**ART 339 Intermediate Photography: Color (5) VLPA** Introduction to photographic color theory and processes with emphasis on color printing on type-C darkroom printing. Additional traditional and experimental color materials explored. Offered: Sp.

**ART 340 Digital Imaging I (5) VLPA** Introduction to the creative use of 2-D image manipulation and transformation of photographic and non-photographic imagery on the computer. Variety of programs, procedures, hardware (Macintosh platform), input, and output considered and employed. Previous computer experience not required. Prerequisite: ART 241. Offered: W.

**ART 341 Digital Imaging II (5) VLPA** *Berger* Advanced topics in 2-D imaging, with emphasis on creative exploration of both software tools and possible integration with traditional art media. Prerequisite: ART 340.

**ART 342 Contemporary Issues in Photography (5) VLPA** An in-depth survey of contemporary artists and issues in photography. Prerequisite: ART 241; ART 340. Offered: S.

**ART 343 Advanced Photography (5, max. 15) VLPA** Topics in advanced photography, including: color printing, large-format photography, artificial lighting, and photography image transformation. Prerequisite: ART 340. Offered: AWSpS.

**ART 345 Intermediate Printmaking (5, max. 25) VLPA** Development of mature and personal statement within context of the print form through studio practice and group discussion and critique. Processes and media emphasis varies on a revolving basis.

**ART 350 Printmaking Special Projects (5, max. 15) VLPA** Approaches to water based printmaking. Introduces serigraphy, collagraph and relief printing through lecture, critique, class discussion, and creative practice.

**ART 353 Intermediate Ceramic Art (5, max. 20) VLPA** Advanced work in forming, decorating, and glazing. Prerequisite: ART 201; ART 202.

**ART 354 History of Body Adornment (5) VLPA** Covers jewelry and other body adornment from Neolithic times to the present, worldwide. Discusses social and cultural relevance of forms, uses, and materials. Emphasis on today's studio craftspeople who make jewelry as a form of aesthetic expression outside the fashion mainstream.

**ART 357 Interdisciplinary Concepts in Metal (5, max. 25) VLPA** *Hu* Variable topics, introducing concepts that cross traditional studio definitions and address interdisciplinary approaches to artistic investigation. Topics include textile/metal processes, printmaking/metal processes, color and metal, chemical, electrical, and mechanical processes in sculpture.

**ART 358 Topics in Metal (5, max. 25) VLPA** *Hu* Variable topics introducing issues and practices in metal smithing and jewelry, and their application to contemporary artmaking. Topics include casting and stone setting, ancient techniques, forming metal, production and business practices.

**ART 360 Topics in Studio Art and Practice (5, max. 20) VLPA** Examines a variety of cutting edge, emerging, and interdisciplinary approached in studio art and practice. Topics vary.

**ART 366 Editorial Visualizations (5) VLPA** Builds on skills developed in ART 206 while expanding the focus on design process through a broad variety of image production techniques. Emphasizes concept development through assignments that address the communication of editorial and/or persuasive content. Prerequisite: ART 211; ART 212. Offered: A.

**ART 367 Communications Programs (5) VLPA** Investigation of strategies and graphic interpretations using typography, images, and diverse applications of design. Emphasis on development of conceptual themes, graphically implemented across an array of communications media. Prerequisite: ART 366, ART 376. Offered: W.

**ART 368 Case Studies in Corporate Identity (5) VLPA** Research and analysis of visual identity systems for complex institutional and corporate entities. Focuses on issues that concern how design programs function across diverse application and media and how they engage various audiences. Prerequisite: ART 211, ART 212. Offered: Sp.

**ART 370 Drawing for Motion (5) VLPA** *Stevens* Draws connections between freehand work and the visual capacities engaged in conceptualization, modeling, and rendering in computer graphics-based animation. Recommended: drawing experience. Offered: W.

**ART 376 Typography (5) VLPA** Explores how meaning, hierarchy, and legibility are affected by typographic contrast, organization and composition. Prerequisite: ART 211; ART 212.

**ART 377 Marks and Symbols (5) VLPA** Investigation of semiotics in the context of visual communication design through the study of symbolic representation. Students complete a quarter-long project in symbol design that emphasizes research analysis, design process,

translation, and abstraction. Prerequisite: ART 366, ART 376.

**ART 378 Information Architecture and Web Design (5) VLPA** Fundamental issues in web design, including site planning, information architecture, navigation, visual hierarchy, and interactivity. Emphasis on understanding the unique functional limitations of designing for the web while building an awareness of contemporary design practice. Design a simple site and produce a working a prototype. Prerequisite: ART 211; ART 212. Offered: Sp.

**ART 381 Design Case Studies (5) VLPA** History, theory, and practice of ways design functions in society and culture. Emphasis on developing broad understanding of design production while working collaboratively and individually on a quarter-long research project concerned with producing a comprehensive conceptual map of the design discipline. Prerequisite: ART 211; ART 212.

**ART 383 Fundamentals of Interaction Design (5) VLPA** Focus on human-to-product interaction and ways we perceive, understand, and experience the world regards to objects, environments, or on-screen controls/information. Prerequisite: ART 211; ART 212.

**ART 390 Intermediate Drawing (5, max. 10) VLPA** Prerequisite: ART 290.

**ART 391 Intermediate Drawing Topics (5) VLPA** Revolving topics in the study of drawing at the intermediate level. Prerequisite: either ART 290 or ART 291.

**ART 392 Intermediate Painting (5, max. 10) VLPA** Prerequisite: ART 293, ART 390. Offered: AWSp.

**ART 393 Intermediate Painting Topics (5) VLPA** Revolving topics in the study of painting at the intermediate level. Prerequisite: ART 292.

**ART 400 Interdisciplinary Visual Arts Senior Studio (5, max. 10) VLPA** *Labitzke* Focuses on the development of exhibition quality artwork and culminating in a group show. Covers curatorial issues, installation, and presentation. Assignments are designed to strengthen oral presentation skills, artist's written statement, critiquing abilities, and ability to place work within a larger art historical framework.

**ART 421 Video Art (5, max. 15) VLPA**

**ART 422 Computer Aided Industrial Design (5) VLPA**

**ART 428 Senior Thesis in Fiber Arts (5, max. 20) VLPA** Specialized investigation involving surface design and/or fabric structures. Prerequisite: ART 328; ART 329.

**ART 436 Sculpture Composition (5, max. 15) VLPA** Individual compositions in various media in large scale. Prerequisite: either ART 332, ART 333 or ART 335.

**ART 440 Senior Thesis in Photography (5, max. 20) VLPA** Development of a coherent photographic theme or topic evolved over two consecutive quarters resulting in a finished thesis portfolio. Prerequisite: ART 343. Offered: AWSp.

**ART 445 Advanced Industrial Design (5) VLPA** Market analysis and selected professional

problems in industrial design. Consultation techniques; psychological, sociological, and economic factors involved in designing for consumer acceptance. Prerequisite: ART 318.

**ART 446 Advanced Industrial Design (5) VLPA** Market analysis and selected professional problems in industrial design. Consultation techniques; psychological, sociological, and economic factors involved in designing for consumer acceptance. Prerequisite: ART 211; ART 212.

**ART 447 Advanced Industrial Design (5) VLPA** Market analysis and selected professional problems in industrial design. Consultation techniques; psychological, sociological, and economic factors involved in designing for consumer acceptance. Prerequisite: ART 446.

**ART 450 Individual Projects in Printmaking (5, max. 15) VLPA** Individual media study within the context of group discussion and critique.

**ART 457 Artist Handmade Books (5) VLPA** The creative and structural development of an artist's book. Focuses on issues of sequential imagery, conceptual development, and the relationship between work and image.

**ART 458 Alternative Approaches to Drawing (5) VLPA** Advanced works-on-paper class. Focuses on drawing issues such as formal process, working methods, conceptual development, and practical working applications.

**ART 460 Advanced Metal Design (5, max. 25) VLPA** Advanced individual projects in metal design. Prerequisite: either ART 357 or ART 358.

**ART 466 Publication Design (5) VLPA** Stresses the research, development, organization, design, and presentation of a complex printed document, such as a journal, annual report, or large publication. Addresses all aspects of design, content, image creation, and production through a quarter-long project. Prerequisite: ART 368; ART 378. Offered: A.

**ART 467 Environmental Design (5) VLPA** Working with 3-dimensional space, students explore the integration and presentation of graphic images and typographic messages sequenced in a given space. Explores the possibilities and multi-disciplinary character of exhibition planning and design. Prerequisite: ART 466, ART 478. Offered: W.

**ART 478 Information Design (5) VLPA** Exploration of strategies for enhancing and visually presenting complex statistics and data. Various information subjects are select and formed into charts, diagrams, graphs, tables, directories and maps. Identify, through personal investigations, the principles which provide the most successful means for presentation of information. Prerequisite: ART 368; ART 378.

**ART 479 Interaction Design (5) VLPA** Exploration of design issues unique to user-centered interaction in digital media. Explore a range of formal and conceptual issues including user interface, organization, narrative, motion, time, and sound. Prerequisite: ART 466, ART 478. Offered: W.

**ART 480 Senior Project/Presentation (5) VLPA** Presents an opportunity for advanced, individualized design research and study. Complete a unique capstone project based on individual design interests and prior experiences

in the VCD program. Public exhibition of this project is required in the BFA Graduation Exhibition. Prerequisite: ART 467, ART 479. Offered: W.

**ART 481 Design Field Studies (5) VLPA** Students develop an understanding of significant theoretical models related to design through a series of readings, lectures, discussions, and assignments. Prerequisite: ART 211; ART 212.

**ART 482 Capstone Design Project (5, max. 10) VLPA** Two-quarter sequence capstone for students in the design studies program. Develop individual projects that address issues of theory and practice in the design field. Students present their projects in a public forum. Prerequisite: ART 381; ART 481.

**ART 483 Fundamentals of Interface Design (5) VLPA** Highlights the role visual interface designers play in the multi-disciplinary attempt to achieve functionality and usability. Introduces the unique challenges of designing within the realm of a digital and interactive medium to create products that humans find usable, useful, and desirable. Prerequisite: ART 211; ART 212.

**ART 484 Projects in Interaction Design (5) VLPA** Project-based course gives students the opportunity to explore key issues and theories in the field of interaction design. Multi-disciplinary studio requiring collaboration between students from a variety of backgrounds including design, engineering, and computer science. Prerequisite: ART 383; ART 483.

**ART 485 Advanced Ceramic Art (5, max. 20) VLPA** Pottery design and construction, stoneware, clay bodies, glazes. Prerequisite: ART 353.

**ART 488 Senior Source Presentation, Ceramics (5) VLPA** Designed to allow ceramics majors to explore and define the primary sources of inspiration for their interest in art and why they make it.

**ART 490 Advanced Drawing (5, max. 15) VLPA** Study at an advanced level involving history, practice, and theory of drawing as an art form. Prerequisite: either ART 265 or ART 390. Offered: AWSp.

**ART 491 Advanced Drawing Topics (5) VLPA** Revolving topics in the study of drawing at the advanced level. Prerequisite: either ART 390 or ART 391. Not open for credit to students having taken ART 490.

**ART 492 Advanced Painting: The Figure (5, max. 10) VLPA** Drawing and painting from the model. Prerequisite: ART 390; ART 392. Offered: AWSp.

**ART 493 Advanced Painting Topics (5) VLPA** Revolving topics in the study of painting at the advanced level. Prerequisite: either ART 390 or ART 391; either ART 392 or ART 393.

**ART 494 Senior Seminar in Painting and Drawing (5, max. 15) VLPA** Development of individuality in painting through creative exercises. Prerequisite: ART 492. Offered: AWSp.

**ART 496 Undergraduate Internship (2-5, max. 10)** Faculty supervised fieldwork in art related activities. Credit/no credit only.

**ART 497 Study Abroad-Studio Individual Projects (3-10, max. 20) VLPA**

**ART 498 Individual Projects-Painting/ Sculpture (2-5, max. 15)**

**ART 499 Individual Projects-Design (2-5, max. 15)**

**ART 512 Graduate Seminar (3, max. 9)**

**ART 513 Contemporary Studio Theories and Problems (3)**

**ART 515 Photography (3-15, max. 60)**

**ART 522 Sculpture (3-15, max. 60)**

**ART 540 Fiber Arts (3-15, max. 60)**

**ART 550 Printmaking (3-15, max. 60)**

**ART 553 Ceramic Art (3-15, max. 60)**

**ART 558 Metal Design (3-15, max. 60)**

**ART 581 Graduate Seminar in Design (5, max. 30)** Critical issues in design. Topics vary. Offered: AWSp.

**ART 582 Design Graduate Studio (5, max. 40)** Topics vary.

**ART 590 Interdisciplinary Graduate Seminar in Contemporary Practices (5, max. 25)** Constructive forum for developing dialogue and critique in practicum-based setting. Professional development highlights the student's experience.

**ART 591 Graduate Studio: Drawing (3, max. 15)** Supervised studio for advanced-level students from various media-based disciplines designed to develop an interest in and familiarity with aspects of drawing. Utilization of various media. Discussion of historical and contemporary issues concerning drawing.

**ART 592 Graduate Studio: Painting (3-15, max. 60)** Offered: AWSp.

**ART 594 Graduate Seminar in Painting and Drawing (3, max. 18)** Designed as a forum for the presentation and criticism of student work as well as for discussion of contemporary directions in visual art. Credit/no credit only.

**ART 595 Master of Fine Arts Research Project (2-5, max. 9)** An independent research project related to and informed by the MFA student's studio work. Final project form may be a lecture, slide presentation, or paper.

**ART 600 Independent Study or Research (\*)**

**ART 700 Master's Thesis (\*)**

---

## Art History

**ART H 201 Survey of Western Art—Ancient (5) VLPA** Major achievements in painting, sculpture, architecture, and the decorative arts in Europe, the Near East, and North Africa, from prehistoric times to the beginnings of Christianity.

**ART H 202 Survey of Western Art—Medieval and Renaissance (5) VLPA** The arts of the Byzantine Empire, Islam, and Western Christendom through 1520 AD.

**ART H 203 Survey of Western Art—Modern (5) VLPA** Western art from 1520 to the present.

**ART H 204 Survey of Asian Art (5) I&S/VLPA** Origins and interplay of major movements of South and East Asian art.

**ART H 205 Survey of Tribal Art (5) I&S/VLPA** Arts of Sub-Saharan Africa and Oceania from prehistoric times to the present and to the pre-Columbian arts of the Americas.

**ART H 206 Survey of Native-North American Art (5) I&S/VLPA** Survey of the indigenous arts of North America north of Mexico from ancient through contemporary times. Focuses on the historical and cultural contexts of the arts and the stylistic differences between tribal and individual artists' styles.

**ART H 230 The African-American Tradition: A Transatlantic View of Art and Culture (5) I&S/VLPA** Assesses the diversity of art by individuals of African descent in Brazil, the Caribbean, and the United States. Examines questions of form meaning, and symbolic and ritual behavior. Considers formal and conceptual relationships between art forms and their African sources; assesses their role in the construction of new African-American identities.

**ART H 290 History of Architecture (5) I&S/VLPA** Introduction to the history of architecture across a broad range of cultural contexts.

**ART H 250 Rome (5) I&S/VLPA** Focuses on Rome as an historical, intellectual, and artistic world center. Literary and historic documents, visual arts, architecture, film, and opera used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with ITAL 250 and HSTEU 250.

**ART H 300 Ideas in Art (5) VLPA** Selected monuments of art and architecture in the Western tradition, from the Greeks to the twentieth century, studied in relation to the intellectual background of the ages and civilizations that produced them. Slide lectures accompanied by discussion of assigned readings in philosophical, religious, scientific, political, literary, and artistic texts. Offered: jointly with CHID 300.

**ART H 306 Indian Art of South Asia (5) VLPA** Development of Indian art from its origins to the medieval period. Spread of Indian religions and related art forms in Tibet and Southeast Asia are briefly introduced.

**ART H 309 Topics in ART History (5, max. 15) VLPA** Topics vary.

**ART H 311 Chinese Painting (5) I&S/VLPA** An introduction to the role of painting in Chinese cultural history, with attention to regional geography, social structure, gender, traditional philosophies, twentieth-century socialism, and the patterns of Chinese history.

**ART H 312 Chinese Art and Visual Culture (5) I&S/VLPA** Introduction to Chinese art and visual culture from the ancient period to the present day. Examines the visual traits of important monuments of architecture, calligraphy, film, furniture, ceramics, bronze, painting, and sculpture. Emphasizes how different artistic styles are tied to different historical, social, and cultural contexts.

**ART H 313 East Asian Art: Arts in China, Japan, and Korea (5) I&S/VLPA** East Asian art and visual culture introduced through examples of art in China, Japan, and Korea from ancient

times to present day. Emphasizes how artistic styles were tied to different social and cultural contexts, and how arts were transformed and exchanged within the larger cultural geographical circle of East Asia.

**ART H 315 Buddhist Art and Material Culture of East Asia (5, max. 15) VLPA** Buddhist painting and sculpture of China, Korea, and Japan. Explores religious meaning, artistic development, and historical significance. Examples from the sixth to the seventeenth centuries, along with paintings and contemporary carvings.

**ART H 317 Chado-Japanese Esthetics (4) VLPA** History, theory, and practice of chado, or *Way of Tea*, a Zen-inspired art that has had notable effects on Japanese society. Lectures on esthetics and cultural history supplemented by participation in chado, with the goal of developing sufficient understanding and skill to continue chado as a discipline.

**ART H 318 Japanese Prints 1600-Present (5) VLPA** *Bogel* Introduction to Japanese printmaking practices, style, and themes. Examines concerns related to gender, issues of representation, explicit sexual imagery, cultural and artistic practice, and the function of prints.

**ART H 321 Arts of Japan (5, max. 15) I&S/VLPA** The spectrum of Japanese art from prehistory to modern times. Examines the interrelationship of the major media for each historical period. Central theme: the appreciation of the varied aesthetics active in the development of Japanese painting, architecture, sculpture, and ceramics.

**ART H 330 Tribal Art and Philosophy (5) I&S/VLPA** Philosophical inquiry and thought in African, Ameri-Indian, and Pacific island societies as expressed through the visual, musical, choreographic, and oral arts. Natural, moral, and ethical ideas as expressed in the arts.

**ART H 331 Native Art of the Pacific Northwest Coast (5) I&S/VLPA** Survey of the indigenous arts of the Pacific Northwest Coast from the Columbia River in the south to Southeast Alaska in the north. Overview of ancient through contemporary times, focusing on the historical and cultural contexts of the arts and the stylistic differences between tribal and individual artists' styles. Offered: jointly with ANTH 331.

**ART H 337 African Art and Society (5) I&S/VLPA** Explores the ideas and notions expressed visually in sculpture, painting, ceramics, textiles, and architecture and describes their relationships to man and culture in Africa.

**ART H 340 Pre-Classical Art and Archaeology (3) VLPA** Art and the other material remains of the civilizations in the Aegean from the Neolithic period to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece; illustrated by slides. The history, techniques, and results of significant excavations. Offered: jointly with CL AR 340.

**ART H 341 Greek Art and Archaeology (3) VLPA** Material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the Geometric to the Hellenistic periods; illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct the material culture of antiquity. Offered: jointly with CL AR 341.

**ART H 342 Roman Art and Archaeology (3) VLPA** Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with CL AR 342.

**ART H 343 Hellenistic Art and Archaeology (3) VLPA** Art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting, mosaics, and minor arts examined in lectures with slides. Offered: jointly with CL AR 343.

**ART H 350 The City of Cairo (3) I&S/VLPA** Development of Fustat and Cairo, 600-1800, with special emphasis on art and architecture. Economic, social, and geographic influences on the creation of the distinctive Egyptian styles of Islamic art. Offered: jointly with NEAR E 350.

**ART H 351 Early Medieval and Byzantine Art (5) I&S/VLPA** Christian art and architecture of the Roman and Byzantine empires and of western Europe through the eighth century.

**ART H 352 High and Late Medieval Art (5) I&S/VLPA** Art and architecture of western Christendom from the time of Charlemagne to the Renaissance.

**ART H 361 Italian Renaissance Art (5) VLPA** Sculpture, painting, and architecture from 1300 to 1600.

**ART H 366 Northern Renaissance Art (5) VLPA** An overview of Netherlandish, French, and German art in the context of cultural developments circa 1400-1570.

**ART H 372 Rococo to Romanticism (5) VLPA** Mainstream of European art and architecture from about 1710 to about 1830. Attention is also given to central and eastern Europe, Scandinavia, and the colonial Americas.

**ART H 373 Southern Baroque Art (5) VLPA** Art of Italy and Spain, circa 1590 to circa 1710.

**ART H 374 Northern Baroque Art (5) VLPA** The art of northern Europe, circa 1590 to circa 1710.

**ART H 380 Nineteenth- and Twentieth-Century Art (5) VLPA** Arts and architecture of Europe and America from Romanticism to the present.

**ART H 381 Art Since World War II (5) I&S/VLPA** Art of Europe and the United States in the decades since World War II: painting, sculpture, and architecture, multiplication of new forms (video, performance pieces, land and installation pieces), changing context of patronage, publicity, and marketing.

**ART H 382 Theory and Practice of Art Criticism (3) VLPA** Major issues in art and architectural criticism: nature of art criticism, aims of the critic, differences between art and architectural criticism. Works by major critics and artists, mostly twentieth century.

**ART H 384 American Art (5) I&S/VLPA** Achievements and issues in painting, architecture, sculpture, and other arts in the United States from the colonial era to the present.

**ART H 397 Art in Rome: Augustus to Mussolini (10) VLPA** Survey of art in Rome; studies from original monuments. Offered in Italy as part of the Art History Seminar in Rome. Focuses on representative works from the most important periods of Italian art:

Ancient, Medieval, Renaissance, Baroque, Modern. Site visits, field trips, individual research projects.

**ART H 399 Study Abroad: Art History Individual Projects (3-10, max. 20) VLPA** For participants in Study Abroad programs.

**ART H 400 ART History and Criticism (2-5, max. 15) VLPA** Courses on special topics, frequently by visiting faculty, which cannot be offered on a continuing basis. Consult art history office for subjects offered.

**ART H 411 Chinese Painting Experiences, 900-1800 (3) VLPA** Examines issues of style, theme, and function in Chinese painting from the tenth to the nineteenth century. Discusses painting practice, patronage, regional diversity, the relationship of word and image, amateurism vs. professionalism, and the introduction of foreign elements.

**ART H 413 Selected Topics in Chinese Art (3, max. 9) VLPA** Specific theme or area of Chinese art, such as the art of bronze age China or Chinese painting under Communist rule. Recommended: some background in Chinese art, history, language, or literature.

**ART H 414 Song China: Painting Production and Cultural Encounters (5) VLPA** Examines diverse regional development of painting production and cultural exchange by Song China (960-1279) and its neighbors, Japan, Korea, Khitan/Liao, Jurchen/Jin, Tangut/Xi Xia. Focuses on well-known masterpieces, newly excavated material from tombs and archaeological sites, and little-studied anonymous works preserved in Japan.

**ART H 419 Japanese Architecture (3) VLPA** Survey of Japanese architecture from its origins to modern times. Although Shinto architecture, tea houses, gardens, and modern developments are discussed, the primary focus is on the development of Japanese Buddhist architecture. Recommended: some background in Japanese art, history, language, or literature. Offered: jointly with ARCH 453.

**ART H 420 Art of the Japanese Print (3) VLPA** Foundations of Ukiyo-e in Japanese genre from the twelfth through mid-seventeenth centuries; woodblock technique from the Heian period through the early Edo period. Emphasis on the changing styles and subject matter in Ukiyo-e Hanga from Moronobu through Kuniyoshi. Recommended: some background in Japanese art, history, language, or literature.

**ART H 430 Chinese Cinema (5) I&S/VLPA** Chinese film, 1930s to the present, studied as a visual art form, set in relation to traditional and modern Chinese arts and literature, modern history, gender, and other social issues. Recommended: some background in Chinese art, history, language, or literature.

**ART H 432 Oceanic Art (3) I&S/VLPA** Arts of Oceania, studied through cultures of Polynesia, Micronesia, Melanesia, and Australia.

**ART H 433 Northern Northwest Coast Native-American Art: Methodologies in Stylistic Analysis (3) VLPA** Stylistic and historical analysis of northern Northwest Coast art (Haida, Tlingit, Tsimshian, Northern Wakashan). Intensive analysis of formal rules; stylistic variation through time and between tribal and individual artists' styles. Recommended: some

background in Native American art, history, languages, or literature.

**ART H 434 Native-American Art and Ceremony of the Southern and Central Northwest Coast (3) I&S/VLPA**

Examination of the role of the visual arts in the ceremonial life of the Native-American people of the central and southern Northwest Coast. Emphasis on the traditional social and religious aspects of ceremonialism, contrasts between tribal traditions, and continuing twentieth-century traditions. Recommended: some background in Native American art, history, languages, or literature.

**ART H 435 Thematic Studies in Native-American Art (3, max. 9) I&S/VLPA**

*Wright* Approach to Native-American art through themes and issues. Focus varies from year to year (e.g. Shamanism in Native-American art, gender identity in Native-American art, social and political aspects of Native-American art, issues in contemporary Native-American art). Recommended: some background in Native American art, history, languages, or literature.

**ART H 436 Arts of Sub-Saharan Africa I (3) I&S/VLPA**

Traditional arts of the Western Sudan and the Western Guinea coast with their archaeological antecedents. Recommended: some background in African art, history, languages, or literature.

**ART H 437 Arts of Sub-Saharan Africa II (3) I&S/VLPA**

Traditional arts of the Central Guinea coast, Nigeria, Cameroon, and Gabon, from precontact times to the present. Recommended: some background in African art, history, languages, or literature.

**ART H 438 Arts of Sub-Saharan Africa III (3) I&S/VLPA**

Arts of Zaire, Angola, the Swahili coast, and southern Africa. Recommended: some background in African art, history, languages, or literature.

**ART H 442 Greek Painting (3) VLPA**

Study of painted decoration on Greek vases, with emphasis on stylistic developments and cultural and historical influences. Painting on other media also examined as evidence allows. Offered: jointly with CL AR 442.

**ART H 443 Roman Painting (3) VLPA**

Study of surviving painting from the Roman World, with emphasis on wall paintings from Pompeii and Herculaneum. Principal topics for discussion: the four styles of Pompeian painting; the dependence of Roman painters on Greek prototypes, and the significance of various kinds of painting as domestic decoration. Offered: jointly with CL AR 443.

**ART H 444 Greek and Roman Sculpture (3) VLPA**

History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC. Offered: jointly with CL AR 444.

**ART H 446 Greek Architecture (3) VLPA**

Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with CL AR 446/ARCH 454.

**ART H 447 The Archaeology of Early Italy (3) VLPA**

*Harmon* Study of the principal archaeological sites of early Italy, including Etruria, Sicily, southern Italy, and archaic Rome up to the Republican period. Attention given to the

material remains and their relationship to the Etruscan, ancient Sicilian, and early Roman civilizations. Offered: jointly with CL AR 447.

**ART H 448 The Archaeology of Italy (3) VLPA**

*Harmon* Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with CL AR 448.

**ART H 451 Topics in Early Christian and Byzantine Art and Architecture (3, max. 9) VLPA**

Specific theme or area of early Christian and Byzantine art and architecture, such as early Christian and Byzantine mosaics or the art of Constantinople.

**ART H 452 Art, Religion, and Politics in the Early Christian Period, 300-700 AD (3) I&S/VLPA**

*Kartsonis* Evolution of the art of the early Christian period (300-700 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with RELIG 442.

**ART H 453 Art, Religion, and Politics in Byzantium, 700-1453 AD (3) I&S/VLPA**

*Kartsonis* Evolution of the art of Byzantium (700-1453 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with RELIG 443.

**ART H 455 Special Studies in Gothic Art and Architecture (3) VLPA**

Detailed study of Gothic architecture and its accompanying sculpture and stained glass, with special emphasis on the twelfth and thirteenth centuries in France and England. Offered: jointly with ARCH 455.

**ART H 457 Flemish Art 1585-1700 (3) VLPA**

*Goettler* History of art in the southern Netherlands during the so-called Counter-Reformation period. Discusses works by Antwerp's major painters (Rubens, van Dyck, Jordaens); new specializations in the various genres (portraiture, genre, landscape, and still-life painting); and developments of northern Baroque sculpture, architecture, and the decorative arts.

**ART H 458 The Imagery of Heaven, Hell, and Purgatory (1300-1800) (3) VLPA**

*Goettler* Interdisciplinary approach to the aspects of devotional and visionary art that links art history with religious studies, literary history, and gender studies. Focuses on the media and pictorial genres created for different social groups of worshippers and viewers, from humble devotional objects to sophisticated artifacts of aesthetic and intellectual delight.

**ART H 460 Topics in Northern European Art (3-5, max. 9) VLPA**

*Goettler* Approaches to the art of northern Europe through particular themes, genres, contexts, or other issues. Focus varies from year to year.

**ART H 461 Early Renaissance Painting in Italy (3) VLPA**

Painting of the fourteenth and fifteenth centuries in central and northern Italy. Recommended: some background in Italian Renaissance art or history.

**ART H 462 High Renaissance Painting in Italy (3) VLPA**

Painting in central and northern Italy,

from about 1480 to about 1530: Leonardo, Raphael, the early Michelangelo, Sarto, Correggio, Bellini, Giorgione, and the early Titian. Recommended: some background in Italian Renaissance art or history.

**ART H 463 Italian Renaissance Sculpture (3) VLPA**

From Nicola Pisano to Giambologna. Recommended: some background in Italian Renaissance art or history.

**ART H 464 Late Renaissance Painting in Italy (3) VLPA**

Painting in central and northern Italy, from about 1515 to about 1580: Pontormo, Rosso, Parmigianino, Beccafumi, the later Michelangelo, Vasari, Bronzino, Salviati, the later Titian, Tintoretto, and Veronese. Recommended: some background in Italian Renaissance art or history.

**ART H 466 High Renaissance Painting in Venice (3) VLPA**

Painting in Venice, circa 1480 to circa 1580: Bellini, Carpaccio, Giorgione, Titian, Lotto, del Piombo, Tintoretto, and Veronese. Recommended: some background in Italian Renaissance art or history.

**ART H 470 English Art: 1500-1800 (3) VLPA**

English art, principally painting, and, to a lesser extent, architecture. Emphasis on patronage, on the conditions that produced the decided peculiarities of English art, and on the final triumph of the native tradition. Recommended: some background in English history.

**ART H 471 Rome in the Seventeenth Century (3) VLPA**

Painting, sculpture, and architecture; concentration on Caravaggio, Bernini, Poussin, and Borromini. Recommended: some background in the art or history of the period.

**ART H 476 French Art: Eighteenth Century (3) VLPA**

Painting, sculpture, and prints; emphasis on the successive phases of Rococo style and iconography and the emergence of Neoclassicism.

**ART H 481 Romanticism (3) VLPA**

Romantic tendencies of the late eighteenth and early nineteenth centuries, with emphasis on stylistic and iconographic study of painting in Spain, England, Germany, France, and the United States to about 1830. Recommended: some background in the art or history of the period.

**ART H 482 Realism and Impressionism (3) VLPA**

Art and the world, 1830-80: high Romanticism through Realism and Impressionism, with emphasis on painting in France. Recommended: some background in the art or history of the period.

**ART H 483 Post-Impressionism to 1918 (3) VLPA**

Post-Impressionism and the great revolution of early twentieth-century art, with emphasis on painting. From the first revisions of Impressionism around 1880 to Fauvism, Cubism, Futurism, the Blaue Reiter, and Dadaism. Recommended: some background in the art or history of the period.

**ART H 484 Topics in Modern Art (3, max. 9) VLPA**

Approach to art of the nineteenth and twentieth centuries through particular themes, genres, contexts, or other issues. Focus varies from year to year. Recommended: some background in the art or history of the period.

**ART H 485 Italian Futurism, Dada, Surrealism (5) VLPA**

*Failing* Survey of three European early modern art movements whose ultimate objective

was the collapse of bourgeois culture. Central issues: the role of art and artists in catalyzing social change, strategies for destroying public faith in logic, integration of verbal and visual signs and nonaesthetic conceptions of art. Recommended: some background in the art or history of the period.

**ART H 486 Abstract Expressionism: History and Myth (5) VLPA** Thematic and chronological survey of abstract expressionism, including major genres of critical interpretation, revisionist scholarship, and the relationship of artistic production to a larger context of visual production. Recommended: some background in the art or history of the period.

**ART H 488 American Architecture (3) VLPA** American architecture from indigenous native American traditions to the present. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 488.

**ART H 490 Nineteenth-Century Architecture (3) VLPA** From late eighteenth-century French rationalists, Neoclassicists, to *fin de siècle* Vienna and Paris. Includes theorists such as Ruskin, Viollet-le-Duc, and Semper; major movements, such as the Arts and Crafts, and the French Ecole des Beaux-Arts method of design. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 456.

**ART H 491 Twentieth-Century Architecture (3) VLPA** Architecture in the twentieth century, mainly in Europe and the United States. Traces roots of Modernism in Europe in the 1920s, its demise (largely in the United States) in the 1960s and recent trends such as Post-Modernism and Deconstructivism. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 457.

**ART H 492 Alternative Art Forms Since 1960 (5) VLPA** Survey of "post-studio" art forms developed in the 1960s by artists who did not equate artmaking with painting, sculpture, or other traditional forms. Topics include: happenings, Fluxus, land projects, artists' video, artists' books, performance, site works, and art made for distribution on CD-ROM and on the World Wide Web.

**ART H 493 Architecture Since 1945 (3) VLPA** Theories and forms in architecture from the end of World War II to present. Includes new wave Japanese architects, recent Native-American developments, and non-Western as well as Western trends. Recommended: some background in the art, architecture, or history of the period. Offered: jointly with ARCH 459.

**ART H 494 Paris: Architecture and Urbanism (3/5) I&S/VLPA** Spans the architectural history of Paris, from its Gallic, pre-roman origins in the 2nd century BCE through the work of 21st century architects. Focuses on changing patterns of the physical fabric of the city and its buildings, as seen within the context of the broader political, social, economic, and cultural history. Offered: jointly with EURO 496.

**ART H 495 Italian Fascism: Architecture and Power (5) I&S/VLPA** *Clausen, Sbragia* Fascism in Italy as studied within the broader European context of nationalism, imperialism, and modernization, with particular emphasis on the

arts — literature, film, architecture, and urbanism. Offered: jointly with ITAL 475; A.

**ART H 497 Special Topics in Art in Rome (5, max. 10) VLPA** Topics in art and architecture in Rome and environs, studied from original works. Offered in Italy as part of the art history Seminar in Rome. Topics vary. Site visits, field trips, and individual research projects.

**ART H 498 Individual Projects, Undergraduate Practicum (2-5, max. 10)** Fieldwork or internships in art-related areas in the community. Practical experience in areas such as arts administration, gallery and museum operations, collection cataloguing, curatorial responsibilities, and art education. Credit/no credit only.

**ART H 499 Individual Projects (2-5, max. 10)**

**ART H 500 Methods of ART History (5)** Introduction to the specialized bibliography of art historical research and to the wide variety of approaches to art historical problems of all periods and regions.

**ART H 501 Seminar in the General Field of Art (5, max. 15)**

**ART H 504 Methods of Art History: Faculty Research (2)** Discussion and analysis of methodological issues posed in faculty research. Credit/no credit only. Offered: W.

**ART H 509 Seminar in Special Topics in ART History (5, max. 15)** Specific focus changes from quarter to quarter.

**ART H 511 Seminar in Chinese Art (5, max. 15)** Critical appraisal of the principal research methods, theories, and types of literature dealing with the art of China.

**ART H 515 Seminar in Japanese Art (5, max. 15)** Critical appraisal of the principal research methods, theories, and types of literature dealing with the art of Japan.

**ART H 531 Seminar in Tribal Art (5, max. 15)** Methodological and cross-disciplinary problems in the visual arts of precolonial Africa, Oceania, and America. Specific content varies.

**ART H 533 Seminar in North American Indian Art (5, max. 15)** Problems in North American Indian visual arts. Content varies.

**ART H 541 Seminar in Greek and Roman Art (5)** In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with CL AR 541.

**ART H 551 Seminar in Early Christian, Byzantine, and/or Medieval Art and Architecture (5, max. 15)** Problems in early Christian, Byzantine, and medieval art and architecture. Content varies. Prerequisite: permission of instructor.

**ART H 561 Seminar in Italian Renaissance Art (5, max. 15)** Problems and in-depth study of selected topics of the art of the Italian Renaissance.

**ART H 566 Seminar in North European Art (5, max. 15)** Deals with problems of style and iconography of the northern European masters of the fourteenth through seventeenth centuries.

**ART H 577 Seminar in Baroque Art (5, max. 15)** Iconographic and stylistic problems of the

art of the Baroque period, with emphasis on the principal research methods, theories, and types of literature dealing with the art of the seventeenth and eighteenth centuries in Europe.

**ART H 581 Seminar in Modern Art (5, max. 15)** Art historical problems of the nineteenth and twentieth centuries.

**ART H 590 Seminar in Criticism of Contemporary Art (5, max. 15)** Contemporary art and appropriate critical methodology.

**ART H 591 Seminar in Twentieth-Century Architecture (3/5)** Specific focus changes from quarter to quarter. Prerequisite: graduate standing with background in art history, architecture, architectural history, or permission of instructor. Offered: jointly with ARCH 558.

**ART H 592 Seminar in American Architecture (5) Clausen** Topics vary. Offered: jointly with ARCH 529.

**ART H 597 Graduate Internship (2-5, max. 5)** Internship in the field of art history with a museum, gallery, or other faculty-approved art or architectural institution that can offer the student substantial research or curatorial experience. Credit/no credit only.

**ART H 598 Master's Practicum (\*, max. 15)** Credit/no credit only.

**ART H 599 Reading and Writing Projects (2)** Art historical issues, methods, and materials. Required of all graduate majors registered in 400-level art history courses. Open also to graduate nonmajors.

**ART H 600 Independent Study or Research (\*)**

**ART H 700 Master's Thesis (\*)** Credit/no credit only.

**ART H 800 Doctoral Dissertation (\*)** Credit/no credit only.

---

## Asian Languages and Literature

### Asian Languages and Literature

**ASIAN 201 Literature and Culture of China: Ancient and Classical (5) I&S/VLPA** Introduction to ancient and classical Chinese literature in its cultural context. Texts in English translation. Offered: alternate years; A.

**ASIAN 202 Literature and Culture of Japan: Traditional Japan (5) I&S/VLPA** Introduction to traditional Japanese literature in its cultural context. Texts in English translation. Offered: alternate years; W.

**ASIAN 203 Literature and Culture of Ancient and Classical India (5) I&S/VLPA** Introduction to ancient and classical Indian literature in its cultural context. Texts in English translation. Offered: alternate years; Sp.

**ASIAN 204 Literature and Culture of China from Tradition to Modernity (5) I&S/VLPA** Introduction to modern Chinese literature in its cultural context. Texts in English translation. Offered: alternate years; A.

**ASIAN 205 Literature and Culture of Japan from Tradition to Modernity (5) I&S/VLPA** Introduction to Japanese literature of the nineteenth and twentieth centuries in its cultural context. May also include some Korean literature. Texts in English translation.

**ASIAN 206 Literature and Culture of South Asia from Tradition to Modernity (5) I&S/VLPA** *Pauwels, Shapiro* Introduction to medieval and modern South Asian literature in its cultural context. Texts in English translation. Offered: alternate years; Sp.

**ASIAN 207 Special Topics in Literature and Culture of Asia (5) I&S/VLPA** Introduction to the literature of one or more Asian traditions considered in its cultural context. Content varies depending on the specialization and interest of instructor. Texts in English translation. Offered: AWSp.

**ASIAN 211 Languages and Cultures of China (5) I&S/VLPA** Provides a general survey of the languages and language-families in China, emphasizing the rich linguistic diversity found there today. Languages compared with English, from linguistic and cultural perspectives, to demonstrate not only characteristics but also mutual dependence throughout their development.

**ASIAN 263 Great Works of Asian Literature (5) VLPA** Selected major works of Asian literature. Taught on a rotational basis with the literary traditions of China, Japan, India covered in successive years. Content varies depending on specialization and interest of instructor. Primary emphasis on literary values of works and their tradition; attention also given to historical and social contexts and the thought and value systems of the culture involved.

**ASIAN 401 Introduction to Asian Linguistics (5) VLPA** *Handel, K. Ohta, Shapiro* Linguistic analysis, with emphasis on languages of east, southeast, south, and central Asia. Includes phonetics, phonemics, morphology, syntax, historical reconstruction, linguistic typology, comparative grammar. Survey of major languages and language families of Asia. Diverse Asian languages as subjects of linguistic analysis. Prior knowledge of linguistics not required. Recommended: two years of any Asian language.

**ASIAN 404 Writing Systems (3) VLPA** *Boltz, Salomon* Origin, nature, and development of writing systems. Alphabets, syllabaries, and logographic systems; relation of writing systems to spoken languages; decipherment of previously undeciphered scripts. Prerequisite: ASIAN 401. Offered: alternate years.

**ASIAN 411 Buddhist Literature (5) VLPA/I&S** Overview of major Buddhist literary traditions of India, China, and Tibet from antiquity to the end of the first millennium CE. Special focus on Indian Mahayana literature and the historical factors that accompanied its introduction and preservation in China and Tibet. Prerequisite: either RELIG 202, or RELIG 354. Offered: W.

**ASIAN 405 Advanced Problems in Asian Linguistics (3) VLPA** *Handel, K. Ohta, Shapiro* Advanced problems in the analysis of the languages of east, southeast, south, and central Asia. Includes phonology, morphology, syntax, lexicography, historical reconstruction, linguistic typology, and comparative grammar. Prerequisite: ASIAN 401. Offered: alternate years.

**ASIAN 494 Ramayana in Comparative Perspective (5) VLPA** *Pauwels* Examines and compares different versions (mainly South Asian) of the Ramayana, including the widely popular television version. Focuses on some famous and controversial passages, with special attention to gender issues. Incorporates background readings from the most recent research. Offered: jointly with SISSA 494.

**ASIAN 498 Special Topics (1-5, max. 15) VLPA** Offered occasionally by permanent or visiting faculty members. Topics vary. Offered: AWSp.

**ASIAN 503 Seminar in Asian Linguistics (1-5, max. 15)** *Handel, A. Ohta, K. Ohta* Topics vary. Prerequisite: permission of instructor. Offered: AWSp.

**ASIAN 510 Teaching Assistant Training Workshop (3)** *A. Ohta* Introduction to issues and methods of teaching Asian languages in American college classrooms. Recommended for all new teaching assistants. Prerequisite: concurrent registration in ASIAN 518 and permission of instructor. Offered: A.

**ASIAN 518 Foreign Language Teaching Methodology (2)** *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with GERMAN 518/NEAR E 518/SCAND 518/SLAV 518.

Examines major problems currently addressed in the academic study of Hinduism and the methods used. Provides a historical perspective on past scholarship. Offered: jointly with RELIG 580.

**ASIAN 585 Seminar in Buddhism (5)** *Cox* Systems and history of Buddhist thought. Original and secondary sources are used. Combines the methods of specialists in south, central, and east Asian Buddhism with those of historians of religion and philosophy. Prerequisite: permission of instructor. Offered: AWSp.

**ASIAN 600 Independent Study or Research (\*)** Offered: AWSpS.

**ASIAN 700 Master's Thesis (\*)** Offered: AWSpS.

**ASIAN 800 Doctoral Dissertation (\*)** Offered: AWSpS.

## Bengali

**BENG 311 Elementary Bengali (5)** Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary level texts. Offered: W.

**BENG 312 Elementary Bengali (5)** Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary level texts. Prerequisite: BENG 311. Offered: W.

**BENG 313 Elementary Bengali (5)** Offers a balance of all four skills: speaking, reading,

listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary level texts. Prerequisite: BENG 312. Offered: Sp.

**BENG 321 Intermediate Bengali (5) VLPA** *Salomon* Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. Prerequisite: BENG 313. Offered: A.

**BENG 322 Intermediate Bengali (5) VLPA** *Salomon* Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. Prerequisite: BENG 321. Offered: W.

**BENG 323 Intermediate Bengali (5) VLPA** *Salomon* Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. Prerequisite: BENG 322. Offered: Sp.

**BENG 401 Advanced Bengali (5) VLPA** *Salomon* Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. Prerequisite: BENG 323. Offered: A.

**BENG 402 Advanced Bengali (5) VLPA** *Salomon* Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. Prerequisite: BENG 401. Offered: W.

**BENG 403 Advanced Bengali (5) VLPA** *Salomon* Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. Prerequisite: BENG 402. Offered: Sp.

**BENG 499 Independent Study (3-5, max. 15)** For Bengali language and literature majors. Offered: AWSpS.

## Chinese

**CHIN 101 First-Year Chinese for Non-Heritage Learners (5)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese.

Cannot be taken for credit in combination with CHIN 134. Offered: A.

**CHIN 102 First-Year Chinese for Non-Heritage Learners (5)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. Prerequisite: minimum grade of 2.0 in CHIN 101. Offered: W.

**CHIN 103 First-Year Chinese for Non-Heritage Learners (5)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. Prerequisite: minimum grade of 2.0 in CHIN 102. Offered: Sp.

**CHIN 111 First-Year Chinese for Heritage Learners (5)** Intended for students who have some formal or home training in listening and speaking Mandarin. Focuses on reading comprehension and writing characters in context. Offered: A.

**CHIN 112 First-Year Chinese for Heritage Learners (5)** Intended for students who have some formal or home training in listening and speaking Mandarin. Focuses on reading comprehension and writing characters in context. Prerequisite: minimum grade of 2.0 in CHIN 111. Offered: W.

**CHIN 113 First-Year Chinese for Heritage Learners (5) VLPA** Intended for students who have some formal or home training in listening and speaking Mandarin. Focuses on reading comprehension and writing characters in context. Prerequisite: minimum grade of 2.0 in CHIN 112. Offered: Sp.

**CHIN 121 Accelerated Chinese (10)** Covers same material as 111 and 112. In conjunction with 222 and 223, allows completion of two years' language study in one academic year. Cannot be taken for credit in combination with 111 or 112. Offered: A.

**CHIN 134 First-Year Intensive Chinese for Non-Heritage Learners (15)** Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 101, 102, or 103. Offered: S.

**CHIN 138 First-Year Intensive Chinese for Heritage Learners (15)** Intended for students who have some formal or home training in listening and speaking Chinese. Focuses on reading, comprehension, and writing characters in context. Cannot be taken for credit in combination with CHIN 111, CHIN 112, or CHIN 113. Offered: S.

**CHIN 145 Foreign Study: First-Year Chinese (1-15, max. 20)** Modern 100-level Chinese language studied abroad. Evaluation by department/faculty required.

**CHIN 201 Second-Year Chinese for Non-Heritage Learners (5) VLPA** Continuation of CHIN 103. Advanced grammar and vocabulary expansion stressed. Aural and oral practice and structural drills continued. Cannot be taken for

credit in combination with CHIN 234. Prerequisite: minimum grade of 2.0 in either CHIN 103 or CHIN 134. Offered: A.

**CHIN 202 Second-Year Chinese for Non-Heritage Learners (5) VLPA** Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. Prerequisite: minimum grade of 2.0 in CHIN 201. Offered: W.

**CHIN 203 Second-Year Chinese for Non-Heritage Learners (5) VLPA** Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. Prerequisite: minimum grade of 2.0 in CHIN 202. Offered: Sp.

**CHIN 211 Second-Year Chinese for Heritage Learners (5) VLPA** Continuation of 111, 112, 113. Stresses advanced grammar and vocabulary expansion. Continues Aural and oral practice. Cannot be taken for credit in combination with 234. Prerequisite: 2.0 in either CHIN 113 or CHIN 138. Offered: A.

**CHIN 212 Second-Year Chinese for Heritage Learners (5) VLPA** Continuation of CHIN 211. Stresses advanced grammar and vocabulary expansion. Cannot be taken for credit in combination with CHIN 234. Prerequisite: 2.0 in CHIN 211. Offered: W.

**CHIN 213 Second-Year Chinese for Heritage Learners (5) VLPA** Continuation of CHIN 212. Stresses advanced grammar and vocabulary expansion. Emphasizes reading and writing. Continues aural and oral practice. Cannot be taken for credit in combination with CHIN 234. Prerequisite: 2.0 in CHIN 212. Offered: Sp.

**CHIN 222 Accelerated Chinese (10) VLPA** Covers same material as 113 and 211. In conjunction with 121 and 223, allows completion of two years' language study in one academic year. Cannot be taken for credit in combination with 113 or 211. Prerequisite: CHIN 121. Offered: W.

**CHIN 223 Accelerated Chinese (10) VLPA** Covers same material as 212 and 213. In conjunction with 121 and 222, allows completion of two years' language study in one academic year. Cannot be taken for credit in combination with 212 or 213. Prerequisite: CHIN 222. Offered: Sp.

**CHIN 234 Second-Year Intensive Chinese for Non-Heritage Learners (15) VLPA** Continuation of first-year non-heritage Chinese. Stresses advanced grammar and vocabulary expansion. Continues aural and oral practice and structural drills. Cannot be taken for credit in combination with 201, 2202, or 203 taken. Prerequisite: minimum grade of 2.0 in either CHIN 103 or CHIN 134. Offered: S.

**CHIN 245 Foreign Study: Second-Year Chinese (1-15, max. 20) VLPA** Modern 200-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 301 Third-Year Chinese for Non-Heritage Learners (5) VLPA** Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. Prerequisite: 2.0 in CHIN 203.

**CHIN 302 Third-Year Chinese for Non-Heritage Learners (5) VLPA** Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. Prerequisite: 2.0 in CHIN 301.

**CHIN 303 Third-Year Chinese for Non-Heritage Learners (5) VLPA** Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. Prerequisite: 2.0 in CHIN 302.

**CHIN 311 Third-Year Chinese for Heritage Learners (5) VLPA** Designed for students at the advanced third-year level who wish to improve their speaking, reading, writing, and comprehension skills while increasing knowledge of the culture and the society in which the Chinese language is spoken. Focuses on Chinese as spoken in day-to-day life. Offered: A.

**CHIN 312 Third-Year Chinese for Heritage Learners (5) VLPA** Designed for students at the advanced third-year level who wish to improve their speaking, reading, writing, and comprehension skills while increasing knowledge of the culture and the society in which the Chinese language is spoken. Focuses on Chinese as spoken in day-to-day life. Offered: W.

**CHIN 313 Third-Year Chinese for Heritage Learners (5) VLPA** Designed for students at the advanced third-year level who wish to improve their speaking, reading, writing, and comprehension skills while increasing knowledge of the culture and the society in which the Chinese language is spoken. Focuses on Chinese as spoken in day-to-day life. Offered: Sp.

**CHIN 342 The Chinese Language (5) VLPA** *Handel* Nature and structure of the Chinese language, covering structural characteristics, genetic and typological affiliation, standard Mandarin and Chinese dialects, Chinese writing system, history of the Chinese language, and cultural aspects. Prerequisite: either CHIN 103, CHIN 113 or CHIN 134; recommended: either CHIN 201, CHIN 211 or CHIN 234. Offered: W.

**CHIN 345 Foreign Study: Third-Year Chinese (1-15, max. 20) VLPA** Modern 300-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 373 Chinese Poetry (5) VLPA** Introduction to Chinese poetry. A study of its origins, forms, major themes, and relevant conventions. All readings in English. No knowledge of Chinese required. Offered: W.

**CHIN 374 Chinese Prose (5) VLPA** *Knechtges* Survey of great works of Chinese prose, including philosophical writings, historical works, short narratives, essays, and rhyme-prose. All readings in English. No knowledge of Chinese required. Offered: Sp.

**CHIN 380 Premodern Chinese Narrative in Translation (5) VLPA** Premodern Chinese fiction in English translation. Historical and cultural contexts of narrative traditions. Emphasis on the Ming and Ch'ing periods; works and topics vary from year to year. Offered: Sp.

**CHIN 381 Literature in Modern China (5) VLPA** Twentieth-century Chinese literature in English translation. Introduces the historical and cultural context of modern Chinese writing, as well as various critical approaches to its study.

**CHIN 385 Popular Culture in Twentieth-Century China (5) I&S/VLPA** Introduction to Chinese popular culture from the turn-of-the-century to the present. Topics include cinema, popular music, and popular fiction; emphasis varies from year to year.

**CHIN 395 Foreign Study: Intermediate Chinese Literature or Linguistics (1-15, max. 15) VLPA** Intermediate Chinese literature or linguistics studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 411 Fourth-Year Chinese (5) VLPA** *Yue-Hashimoto* Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Prerequisite: minimum grade of 2.0 in either CHIN 213 or CHIN 303. Offered: A.

**CHIN 412 Fourth-Year Chinese (5) VLPA** *Yue-Hashimoto* Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Prerequisite: minimum grade of 2.0 in CHIN 411. Offered: W.

**CHIN 413 Fourth-Year Chinese (5) VLPA** *Yue-Hashimoto* Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Prerequisite: minimum grade of 2.0 in CHIN 412. Offered: Sp.

**CHIN 421 Business Chinese I (5) VLPA** *Chang* Focus on international trade issues of Greater China in the contemporary world. Subjects include international business activities such as trade, banking, marketing, finance, and investment. Prerequisite: CHIN 313. Offered: A.

**CHIN 422 Business Chinese II (5) VLPA** *Chang* Focus on international trade issues of Greater China in the contemporary world. Subjects include international business activities such as trade, banking, marketing, finance, and investment. Prerequisite: CHIN 421. Offered: W.

**CHIN 423 Business Chinese III (5) VLPA** *Chang* Focus on international trade issues of Greater China in the contemporary world. Subjects include international business activities such as trade, banking, marketing, finance, and investment. Prerequisite: CHIN 422. Offered: Sp.

**CHIN 442 The Chinese Language (5) VLPA** Covers the same topics as CHIN 342 (students attend CHIN 342 lectures), with additional readings and assignments. Provides necessary background for 500-level courses in Chinese linguistics and textual study. Intended for graduate students or advanced undergraduates. Required: Reading ability in Chinese. Offered: W.

**CHIN 443 Structure of Chinese (5) VLPA** *Yue-Hashimoto* Outline of the major grammatical structures of Chinese. Focus on learning and teaching problems. Prerequisite: either CHIN 313 or CHIN 334. Offered: W.

**CHIN 445 Foreign Study: Fourth-Year Chinese (1-15, max. 20) VLPA** Modern 400-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 451 First-Year Classical Chinese (5) VLPA** *Boltz* Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. To be taken in sequence. Prerequisite: either CHIN 203 or CHIN 213. Offered: A.

**CHIN 452 First-Year Classical Chinese (5) VLPA** *Boltz* Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. To be taken in sequence. Prerequisite: CHIN 451. Offered: W.

**CHIN 453 First-Year Classical Chinese (5) VLPA** *Boltz* Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. To be taken in sequence. Prerequisite: CHIN 452. Offered: Sp.

**CHIN 461 History of Chinese Literature (5) VLPA** *Knechtges* Chinese literature from earliest times to the end of the Six Dynasties. Offered: A.

**CHIN 462 History of Chinese Literature (5) VLPA** *Knechtges* Chinese literature from the T'ang to the end of the Song. Prerequisite: CHIN 461. Offered: W.

**CHIN 463 History of Chinese Literature (5) VLPA** *Knechtges* Chinese literature from the Yuan to recent times. Offered: Sp.

**CHIN 470 Advanced Readings in Modern Chinese (5) VLPA** Reading and translation of scholarly articles and selections in the humanities and social sciences. Prerequisite: either CHIN 213 or CHIN 303. Offered: A.

**CHIN 482 Advanced Readings in Modern Chinese (5) VLPA** Modern texts in the original, mainly works published since the beginning of the twentieth century. Focus on literature, primarily short story and essay. Offered: W.

**CHIN 495 Foreign Study: Advanced Chinese Literature or Linguistics (1-5, max. 15) VLPA** Advanced Chinese literature or linguistics studied abroad in approved programs. Evaluation by department/faculty required.

**CHIN 496 Special Studies in Chinese (5, max. 15) VLPA** Topics vary.

**CHIN 499 Undergraduate Research (3-5, max. 15)** For Chinese language and literature majors. Offered: AWSpS.

**CHIN 531 Studies in Chinese Phonology (3) Handel** Sources and methods in the study of Chinese phonology; modern standard Chinese. Prerequisite: ASIAN 401. Offered: A.

**CHIN 532 Studies in Chinese Phonology (3) Handel** Sources and methods in the study of Chinese phonology; medieval period. Offered: W.

**CHIN 533 Studies in Chinese Phonology (3) Handel** Sources and methods in the study of Chinese phonology; advanced topics in Chinese historical phonology. Offered: Sp.

**CHIN 540 Seminar in Chinese Linguistics (3, max. 9) Handel, Yue-Hashimoto** Advanced topics in Chinese linguistics. Subject emphasis varies from year to year. Offered: Sp.

**CHIN 541 Seminar in Chinese Grammar (3, max. 9) Boltz, Yue-Hashimoto** Problems of theory and analysis of Chinese grammar, both synchronic and diachronic, modern and classical. Prerequisite: CHIN 443.

**CHIN 542 Chinese Historical Phonology (3) Handel** Introduction to Chinese historical phonology; emphasis on the Middle Chinese period. Prerequisite: ASIAN 401 and permission of instructor.

**CHIN 544 Chinese Dialectology (3, max. 9) Yue-Hashimoto** Methodology and theory of studying Chinese dialects. Among areas covered are fieldwork methods, dialect classification, and dialectal grammar. Prerequisite: CHIN 542, ASIAN 401, and permission of instructor.

**CHIN 551 Second-Year Classical Chinese (5) Knechtges** Problems of grammar, rhetoric, and textual criticism. Early literary texts. Offered: A.

**CHIN 552 Second-Year Classical Chinese (5) Knechtges** Problems of grammar, rhetoric, and textual criticism. Later literary texts. Offered: W.

**CHIN 553 Second-Year Classical Chinese (5) Boltz** Continuation of 551, 552. Intermediate level readings in Han and pre-Han historical and philosophical texts. Prerequisite: CHIN 551 and CHIN 552. Offered: Sp.

**CHIN 554 Readings in Chinese Prose (5) Knechtges** Selected readings in the fu of the Han, Wei, Chin, and North-South Dynasties period. Offered: alternate years.

**CHIN 555 Readings in Chinese Prose (5) Knechtges** Selected readings in parallel prose (*pian wen*). Offered: alternate years.

**CHIN 556 Readings in Chinese Prose (5) Knechtges** Selected readings in *guwen* prose of the T'ang and Sung periods. Offered: alternate years.

**CHIN 557 Introduction to Chinese Philology and Textual Criticism (5) Boltz** Principles and methods of textual criticism and philological analysis of ancient Chinese texts. Study of both manuscripts and transmitted texts. Emphasis on Han and pre-Han documents; specific texts vary. Prerequisite: two years of classical Chinese and ASIAN 401. Offered: alternate years; W.

**CHIN 558 Seminar in Chinese Lexicology and Grammatonymy (3) Boltz** Study of the Chinese script, lexicographical history, and lexicological and etymological analysis. Prerequisite: two years of classical Chinese, ASIAN 401. Offered: alternate years.

**CHIN 559 Methods and Materials (5) Knechtges** Introduction to the basic reference works and methods of research in Chinese language and literature. Includes a history of Sinology, survey of basic bibliographies, dictionaries, atlases, catalogs, journals, literary collections, concordances, and other sources. Prerequisite: CHIN 551, CHIN 552. Offered: alternate years; A.

**CHIN 560 Proseminar in Chinese (3-5, max. 15) Boltz, Knechtges** Methods and materials in the study of Chinese texts. Problems in textual analysis and Chinese literary history. Prerequisite: CHIN 553 and one of CHIN 554, CHIN 555, and CHIN 556.

**CHIN 561 Studies in Chinese Literature (5)** *Knechtges* Literature before Ch'in. Prerequisite: permission of instructor. Offered: W.

**CHIN 562 Studies in Chinese Literature (5)** *Knechtges* Poetry of the T'ang and Sung periods. Prerequisite: permission of instructor. Offered: Sp.

**CHIN 563 Studies in Chinese Literature (5)** *Knechtges* Literary theory and criticism. Prerequisite: permission of instructor.

**CHIN 573 Seminar in Chinese Poetry (5, max. 15)** Directed study of selected works of poetry. Subject emphasis varies each year. Prerequisite: permission of instructor. Offered: alternate years; W.

**CHIN 574 Seminar in Six Dynasties Literature (5, max. 15)** *Knechtges* Directed study of selected works of Six Dynasties. Subject emphasis varies each year. Prerequisite: permission of instructor. Offered: alternate years; Sp.

**CHIN 575 Studies in Chinese Drama (5, max. 15)** Readings and discussion of Chinese drama. Subject emphasis varies. Prerequisite: permission of instructor. Offered: alternate years.

**CHIN 577 Advanced Readings in Chinese Opera (4)** Introduction to the dialogue and verses frequently used in Chinese opera. Comparisons between language spoken daily and languages used in Chinese opera. Prerequisite: CHIN 553 or permission of instructor. Offered: A.

**CHIN 578 Advanced Readings in Classical Chinese (4)** Study of texts from all periods. Prerequisite: CHIN 553 or permission of instructor. Offered: W.

**CHIN 580 Readings in Vernacular Chinese Fiction (5, max. 15)** Directed study of selected works of premodern vernacular Chinese narrative, with an emphasis on Ming and Ch'ing fiction. Introduction to various critical approaches to the study of Chinese narrative. Offered: A.

## Indonesian

**INDON 111 Elementary Indonesian (5)** Introduction to modern standard Indonesian-Malay. Emphasis on grammar and conversational drills. Practice with basic phonological, morphological, and syntactic structures. Offered: A.

**INDON 112 Elementary Indonesian (5)** Introduction to modern standard Indonesian-Malay. Emphasis on grammar and conversational drills. Practice with basic phonological, morphological, and syntactic structures. Prerequisite: INDON 111. Offered: W.

**INDON 113 Elementary Indonesian (5)** Introduction to modern standard Indonesian-Malay. Emphasis on grammar and conversational drills. Practice with basic phonological, morphological, and syntactic structures. Prerequisite: INDON 112. Offered: Sp.

**INDON 211 Intermediate Indonesian (5) VLPA** Continuation of 111, 112, 113. Review/expansion of fundamental grammatical patterns: morphological and syntactic structures, development of conversational skills, reading some literary and cultural materials, writing compositions. Prerequisite: INDON 113. Offered: A.

**INDON 212 Intermediate Indonesian (5) VLPA** Continuation of 111, 112, 113. Review/expansion of fundamental grammatical patterns: morphological and syntactic structures, development of conversational skills, reading some literary and cultural materials, writing compositions. Prerequisite: INDON 211. Offered: W.

**INDON 213 Intermediate Indonesian (5) VLPA** Continuation of 111, 112, 113. Review/expansion of fundamental grammatical patterns: morphological and syntactic structures, development of conversational skills, reading some literary and cultural materials, writing compositions. Prerequisite: INDON 212. Offered: Sp.

**INDON 311 Advanced Indonesian (5) VLPA** Continuation of 211, 212, 213. Expanding vocabulary; preparing for research work using

original sources; improving reading fluency in modern standard written Indonesian using novels, short stories, newspapers, and other authentic materials. Conversation practice centers on discussion of readings. Writing compositions. Prerequisite: INDON 211. Offered: A.

**INDON 312 Advanced Indonesian (5) VLPA** Continuation of 211, 212, 213. Expanding vocabulary; preparing for research work using original sources; improving reading fluency in modern standard written Indonesian using novels, short stories, newspapers, and other authentic materials. Conversation practice centers on discussion of readings. Writing compositions. Prerequisite: INDON 311. Offered: W.

**INDON 313 Advanced Indonesian (5) VLPA** Continuation of 211, 212, 213. Expanding vocabulary; preparing for research work using original sources; improving reading fluency in modern standard written Indonesian using novels, short stories, newspapers, and other authentic materials. Conversation practice centers on discussion of readings. Writing compositions. Prerequisite: INDON 312. Offered: Sp.

**INDON 499 Undergraduate Research (3-5, max. 15)** Primarily for Southeast Asian studies majors.

## Japanese

**JAPAN 111 First-Year Japanese (5)** Elementary speaking, listening, reading, and writing skills in modern Japanese. Recommended: score of 0-5 on JP 100A placement test if Japanese is language of admission. Offered: A.

**JAPAN 112 First-Year Japanese (5)** Elementary speaking, listening, reading, and writing skills in modern Japanese. Prerequisite: either JAPAN 111 or score of 6-20 on JP 100A placement test. Offered: AW.

**JAPAN 113 First-Year Japanese (5)** Elementary speaking, listening, reading, and writing skills in modern Japanese. Prerequisite: either JAPAN 112 or score of 21-40 on JP 100A placement test. Offered: AWSp.

**JAPAN 134 First-Year Intensive Japanese (15)** Fundamentals of the modern Japanese language. Oral communication skills, basic grammar, and reading/writing of hiragana, katakana, and basic kanji. No initial knowledge of Japanese is presumed. Equivalent of 111, 112, 113. Satisfies requirement for entry to 211. Students with prior background must take placement test. Offered: S.

**JAPAN 145 Foreign Study: Elementary Japanese (1-15, max. 20)** For participants in study abroad programs in Japan who complete 100-level language courses in approved programs in Japan. Evaluation by department/faculty required.

**JAPAN 211 Second-Year Japanese (5) VLPA** Development of further skills in the spoken and written languages. Students must enroll in both a lecture and quiz section to receive credit. Prerequisite: either JAPAN 113, JAPAN 134. Offered: A.

**JAPAN 212 Second-Year Japanese (5) VLPA** Development of further skills in the spoken and written languages. Students must enroll in both a

lecture and quiz section to receive credit. Prerequisite: JAPAN 211. Offered: W.

**JAPAN 213 Second-Year Japanese (5) VLPA** Development of further skills in the spoken and written languages. Students must enroll in both a lecture and quiz section to receive credit. Prerequisite: JAPAN 212. Offered: Sp.

**JAPAN 234 Second-Year Intensive Japanese (15) VLPA** Equivalent of 211, 212, 213. Satisfies requirements for entry to 311, but recommended primarily for those going to Japan shortly upon completion. Prerequisite: either JAPAN 113 or JAPAN 134. Offered: S.

**JAPAN 245 Foreign Study: Intermediate Japanese (1-15, max. 20) VLPA** For participants in study abroad programs in Japan who complete 200-level language courses in approved programs in Japan. Evaluation by department/faculty required.

**JAPAN 311 Third-Year Japanese (5) VLPA** Intermediate-level skills in both spoken and written languages. Some introduction to unedited materials. Prerequisite: a minimum grade of 2.0 in either JAPAN 213 or JAPAN 234. Offered: AS.

**JAPAN 312 Third-Year Japanese (5) VLPA** Intermediate-level skills in both spoken and written languages. Some introduction to unedited materials. Prerequisite: JAPAN 311. Offered: WS.

**JAPAN 313 Third-Year Japanese (5) VLPA** Intermediate-level skills in both spoken and written languages. Some introduction to unedited materials. Prerequisite: JAPAN 312. Offered: SpS.

**JAPAN 321 Japanese Literature I (5) VLPA** *Atkins* Introduction to the literature and culture of Japan before 1600. Close readings of tales, poems, plays, or essays with an emphasis on understanding cultural and historical contexts. In English. Offered: A.

**JAPAN 322 Japanese Literature II (5) VLPA** Introduction to the major works of 19th-early 20th century Japan in English translation, with readings of representative fiction, poetry, and criticism, plus films of selected works. In English. Offered: W.

## Korean

**KOREAN 145 Foreign Study: Elementary Korean (1-15, max. 20)** For participants in study abroad programs who complete elementary language courses in approved programs in Korea. Evaluation by department/faculty required.

**KOREAN 245 Foreign Study: Intermediate Korean (1-15, max. 20) VLPA** For participants in study abroad programs who complete intermediate language courses in approved programs in Korea. Evaluation by department/faculty required.

**KOREAN 301 First-Year Korean for Novice Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with no formal or informal background in the language. Offered: A.

**KOREAN 302 First-Year Korean for Novice Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with no formal or informal background in the language. Prerequisite: KOREAN 301. Offered: W.

**KOREAN 303 First-Year Korean for Novice Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with no formal or informal

background in the language. Prerequisite: KOREAN 302. Offered: Sp.

**KOREAN 304 Spoken Korean (10) VLP** The Korean language as spoken in ordinary conversational situations. Phonetic accuracy and appropriateness of idiom. May be taken any summer after completion of first-year Korean. Prerequisite: KOREAN 303. Offered: irregularly.

**KOREAN 305 First-Year Korean for Heritage Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with formal or informal background in the language or to students with Korean heritage. Prerequisite: score of 30-60 on KR100A placement test. Offered: A.

**KOREAN 306 First-Year Korean for Heritage Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with formal or informal background in the language or to students with Korean heritage. Prerequisite: KOREAN 305. Offered: W.

**KOREAN 307 First-Year Korean for Heritage Learners (5)** Elementary speaking, listening, reading, and writing skills in modern Korean. Open only to students with formal or informal background in the language or to students with Korean heritage. Prerequisite: KOREAN 306. Offered: Sp.

**KOREAN 311 Second-Year Korean for Novice Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with no formal or informal background in the language prior to first-year Korean at UW. Prerequisite: KOREAN 303 or placement test. Offered: A.

**KOREAN 312 Second-Year Korean for Novice Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with no formal or informal background in the language prior to first-year Korean at UW. Prerequisite: KOREAN 311 or placement test. Offered: W.

**KOREAN 313 Second-Year Korean for Novice Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with no formal or informal background in the language prior to first-year Korean at UW. Prerequisite: KOREAN 312 or placement test. Offered: Sp.

**KOREAN 315 Second-Year Korean for Heritage Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with formal or informal background in the language prior to first-year Korean at the UW. Prerequisite: either score of 0-41 on KR200A placement test or KOREAN 307. Offered: A.

**KOREAN 316 Second-Year Korean for Heritage Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with formal or informal background in the language prior to first-year Korean at the UW. Prerequisite: KOREAN 315. Offered: W.

**KOREAN 317 Second-Year Korean for Heritage Learners (5) VLP** Development of further skills in the spoken and written languages. Open only to students with formal or informal background in the language prior to first-year Korean at the UW. Prerequisite: KOREAN 316. Offered: Sp.

**KOREAN 345 Foreign Study: Advanced Korean (1-15, max. 20) VLP** For participants in study abroad programs who complete advanced language courses in approved programs in Korea. Evaluation by department/faculty required.

**KOREAN 411 Readings in Contemporary Korean (5) VLP** Completes the introduction to Korean writing in mixed script of 311, 312, 313. Prerequisite: either minimum score of 42 on KR200A placement test or KOREAN 313. Offered: A.

**KOREAN 412 Readings in Contemporary Korean (5) VLP** Provide experience in reading a variety of contemporary styles. Materials from published works include informal essays, short stories, one-act plays, academic essays, and newspaper editorials. Offered: W.

**KOREAN 413 Readings in Contemporary Korean (5) VLP** Provide experience in reading a variety of contemporary styles. Materials from published works include informal essays, short stories, one-act plays, academic essays, and newspaper editorials. Offered: Sp.

**KOREAN 415 Social Science Literature in Korean (3) VLP** Readings in selections from contemporary Korean publications in social science topics. Prerequisite: KOREAN 413. Offered: A.

**KOREAN 416 Readings in Korean Literature (3) VLP** Reading of various literary texts which may include pre-modern Korean narrative and poetry as well as modern literature and drama. Prerequisite: KOREAN 413. Offered: W.

**KOREAN 417 Readings in Korean Journals (3) VLP** Selections from Korean newspapers, news magazines, and other journals. Prerequisite: KOREAN 413. Offered: Sp.

**KOREAN 445 Foreign Study: Korean Literature (1-15, max. 20) VLP** For participants in study abroad programs who complete course work Korean literature.

**KOREAN 499 Undergraduate Independent Study (3-5, max. 15)** For students who have completed 417 or equivalent. Offered: AWSpS.

**KOREAN 501 Seminar in Korean Linguistics (3-5)** Topics in Korean linguistics. Prerequisite: background in linguistics and permission of instructor.

**KOREAN 502 Seminar in Korean Linguistics (3-5)** Topics in Korean linguistics. Prerequisite: background in linguistics and permission of instructor.

**KOREAN 503 Seminar in Korean Linguistics (3-5)** Topics in Korean linguistics. Prerequisite: background in linguistics and permission of instructor.

**KOREAN 531 Advanced Readings in Modern Korean Literature (5)** Literature and literary criticism in Korean. Prerequisite: fourth-year Korean or equivalent. Offered: alternate years.

**KOREAN 532 Advanced Readings in Traditional Vernacular Korean Literature (5)** Readings in traditional Korean vernacular literature, including poetry, sung narrative, and fiction. Prerequisite: fourth-year Korean or equivalent. Offered: alternate years.

## Sanskrit

**SNKRT 301 Introduction to Sanskrit (5) Cox, Salomon** Basic grammar and vocabulary of the classical language. Reading of elementary texts from the epic or Puranic literature. Offered: A.

**SNKRT 302 Introduction to Sanskrit (5) Cox, Salomon** Basic grammar and vocabulary of the classical language. Reading of elementary texts from the epic or Puranic literature. Prerequisite: SNKRT 301. Offered: W.

**SNKRT 303 Introduction to Sanskrit (5) Cox, Salomon** Basic grammar and vocabulary of the classical language. Reading of elementary texts from the epic or Puranic literature. Prerequisite: SNKRT 302. Offered: Sp.

**SNKRT 401 Intermediate Sanskrit (5) VLP** Cox, Salomon Further study of classical grammar; introduction to classical literature and Vedic language and texts. Prerequisite: SNKRT 303. Offered: A.

**SNKRT 402 Intermediate Sanskrit (5) VLP** Cox, Salomon Further study of classical grammar; introduction to classical literature and Vedic language and texts. Offered: W.

**SNKRT 403 Intermediate Sanskrit (5) VLP** Cox, Salomon Further study of classical grammar; introduction to classical literature and Vedic language and texts. Offered: Sp.

**SNKRT 411 Advanced Sanskrit (3, max. 9) VLP** Cox, Salomon Reading and analysis of classical texts, chosen according to students' interests. Prerequisite: SNKRT 403. Offered: A.

**SNKRT 412 Advanced Sanskrit (3, max. 9) VLP** Cox, Salomon Reading and analysis of classical texts, chosen according to students' interests. Offered: W.

**SNKRT 413 Advanced Sanskrit (3, max. 9) VLP** Cox, Salomon Reading and analysis of classical texts, chosen according to students' interests. Offered: Sp.

**SNKRT 491 Vedic Studies (3) VLP** Salomon Readings of selected Vedic texts, with linguistic, religious, and historical analyses. Includes background material on Vedic religion, literature, and culture. Prerequisite: SNKRT 303.

**SNKRT 492 Vedic Studies (3) VLP** Salomon Readings of selected Vedic texts, with linguistic, religious, and historical analyses. Includes background material on Vedic religion, literature, and culture.

**SNKRT 493 Vedic Studies (3) VLP** Salomon Readings of selected Vedic texts, with linguistic, religious, and historical analyses. Includes background material on Vedic religion, literature, and culture.

**SNKRT 494 Readings in Religious Classics of India (5) VLP** Reading and analysis of the older religious brahmanical texts. Prerequisite: SNKRT 402.

**SNKRT 495 Studies in Indian Thought (3, max. 9) VLP** Cox Religious and philosophical traditions in South Asia. The original documents studied vary from year to year. Prerequisite: SNKRT 402.

**SNKRT 499 Undergraduate Research (3-5, max. 15)** Primarily for Sanskrit language and literature majors. Offered: AWSp.

**SNKRT 550 Seminar on Sanskrit Literature (3, max. 9)** *Salomon* Detailed study of selected authors, periods, or traditions, within the context of Indian literary history. Prerequisite: SNKRT 403 or permission of instructor.

**SNKRT 555 Seminar on Sanskrit Grammar (3, max. 6)** *Salomon* Reading and critical study of traditional literature on grammar and language, including texts of Paninian and other schools. Offered: A.

**SNKRT 560 Readings in Philosophical Sanskrit (3, max. 9)** *Cox, Potter, Salomon* Intensive reading and analysis of Hindu or Buddhist philosophical texts. Prerequisite: SNKRT 494 or permission of instructor. Offered: AWP.

**SNKRT 570 Seminar in Indian Epigraphy and Paleography (3, max. 6)** *Salomon* Introduction to the study of inscriptions and other original documents in Sanskrit and Prakrit languages and in Kharosthi, Brahmi, and derived scripts. History of writing in India and development of Indic scripts. Methods of critical evaluation of inscriptions as sources of political and cultural history. Prerequisite: SNKRT 403.

**SNKRT 581 Readings in Buddhist Texts (3, max. 9)** *Cox* Interpretation of original sources. Texts vary from year to year. Prerequisite: ability to study sources in the original languages, an introduction to Buddhist thought, and permission of instructor.

**SNKRT 582 Readings in Buddhist Texts (3, max. 9)** *Cox* Interpretation of original sources. Texts vary from year to year. Prerequisite: ability to study sources in the original languages, an introduction to Buddhist thought, and permission of instructor.

## Thai

**THAI 145 Foreign Study: Elementary Thai (1-15, max. 20)** For participants in study abroad programs who complete elementary language courses in approved programs in Thailand. Evaluation by department faculty required.

**THAI 245 Foreign Study: Intermediate Thai (1-15, max. 20)** *VLPA* For participants in study abroad programs who complete intermediate language courses in approved programs in Thailand. Evaluation by department faculty required.

**THAI 301 Beginning Thai (5)** *Kesavatana-Dohrs* Introduction to modern spoken and written Thai. Emphasis on spoken language competence with additional skills in elementary reading and writing. Designed for students with no prior knowledge of Thai. Offered: A.

**THAI 302 Beginning Thai (5)** *Kesavatana-Dohrs* Introduction to modern spoken and written Thai. Emphasis on spoken language competence with additional skills in elementary reading and writing. Designed for students with no prior knowledge of Thai. Prerequisite: THAI 301. Offered: W.

**THAI 303 Beginning Thai (5)** *Kesavatana-Dohrs* Introduction to modern spoken and written Thai. Emphasis on spoken language competence with additional skills in elementary reading and writing. Designed for students with no prior knowledge of Thai. Prerequisite: THAI 302. Offered: Sp.

**THAI 345 Foreign Study: Advanced Thai (1-15, max. 20)** *VLPA* For participants in study abroad programs who complete 300-level language courses in approved programs in Thailand. Evaluation by department faculty required.

**THAI 401 Intermediate Thai (5) VLPA** *Kesavatana-Dohrs* Continuation of 303. Expands students' abilities in the four language skills of listening, speaking, reading, and writing. Prerequisite: THAI 303. Offered: A.

**THAI 402 Intermediate Thai (5) VLPA** *Kesavatana-Dohrs* Expands students' abilities in the four language skills of listening, speaking, reading, and writing. Prerequisite: THAI 401. Offered: W.

**THAI 403 Intermediate Thai (5) VLPA** *Kesavatana-Dohrs* Expands students' abilities in the four language skills of listening, speaking, reading, and writing. Prerequisite: THAI 402. Offered: Sp.

**THAI 410 Accelerated Reading and Writing (5) VLPA** *Kesavatana-Dohrs* Accelerated Thai for fluent speakers who do not read or write Thai. Emphasis on reading and writing through Intermediate Thai. Credit/no credit only.

**THAI 411 Readings in Thai (3-5, max. 15) VLPA** *Kesavatana-Dohrs* Advanced reading and translation of selections from various Thai authors, with occasional practice in conversation and composition. Prerequisite: THAI 403. Offered: A.

**THAI 412 Readings in Thai (3-5, max. 15) VLPA** *Kesavatana-Dohrs* Advanced reading and translation of selections from various Thai authors, with occasional practice in conversation and composition. Prerequisite: THAI 411. Offered: W.

**THAI 413 Readings in Thai (3-5, max. 15) VLPA** *Kesavatana-Dohrs* Advanced reading and translation of selections from various Thai authors, with occasional practice in conversation and composition. Prerequisite: THAI 412. Offered: Sp.

**THAI 499 Undergraduate Research (3-5, max. 25)** For Thai language and literature majors. Offered: AWP.

## Urdu

**URDU 311 Elementary Urdu (5)** Modern literary Urdu. Reading, writing, conversation, and listening comprehension. Introduction to Perso-Arabic script.

**URDU 312 Elementary Urdu (5)** Modern literary Urdu. Reading, writing, conversation, and listening comprehension. Introduction to Perso-Arabic script. Prerequisite: URDU 311.

**URDU 313 Elementary Urdu (5)** Modern literary Urdu. Reading, writing, conversation, and listening comprehension. Introduction to Perso-Arabic script. Prerequisite: URDU 312.

**URDU 321 Intermediate Urdu (5)** Systematic expansion of vocabulary and grammar. Intermediate level prose and poetry readings. Expansion of skills in reading, writing, speaking, and listening comprehension. Prerequisite: URDU 313.

**URDU 322 Intermediate Urdu (5)** Systematic expansion of vocabulary and grammar.

Intermediate level prose and poetry readings. Expansion of skills in reading, writing, speaking, and listening comprehension. Prerequisite: URDU 321.

**URDU 323 Intermediate Urdu (5)** Systematic expansion of vocabulary and grammar. Intermediate level prose and poetry readings. Expansion of skills in reading, writing, speaking, and listening comprehension. Prerequisite: URDU 322.

**URDU 401 Advanced Urdu (5)** Rapid reading of contemporary Urdu prose and poetry. Advanced conversation and composition. Prerequisite: URDU 323.

**URDU 402 Advanced Urdu (5)** Rapid reading of contemporary Urdu prose and poetry. Advanced conversation and composition. Prerequisite: URDU 401.

**URDU 403 Advanced Urdu (5)** Rapid reading of contemporary Urdu prose and poetry. Advanced conversation and composition. Prerequisite: URDU 402.

**URDU 499 Independent Study (3-5, max. 15)** For Urdu language and literature majors. Offered: AWP.

## Vietnamese

**VIET 111 First-Year Vietnamese (5)** *Nguyen* Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. Offered: A.

**VIET 112 First-Year Vietnamese (5)** *Nguyen* Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. Prerequisite: VIET 111. Offered: W.

**VIET 113 First-Year Vietnamese (5)** *Nguyen* Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. Prerequisite: VIET 112. Offered: Sp.

**VIET 145 Foreign Study: Elementary Vietnamese (1-15, max. 20)** For participants in study abroad programs who complete elementary language courses in approved programs in Vietnam. Evaluation by department faculty required.

**VIET 211 Second-Year Vietnamese (5) VLPA** *Nguyen* Continuation of 113. Development of conversation skills, reading for comprehension, and writing short compositions. Prerequisite: VIET 113. Offered: A.

**VIET 212 Second-Year Vietnamese (5) VLPA** *Nguyen* Development of conversation skills, reading for comprehension, and writing short compositions. Prerequisite: VIET 211. Offered: W.

**VIET 213 Second-Year Vietnamese (5) VLPA** *Nguyen* Development of conversation skills, reading for comprehension, and writing short compositions. Prerequisite: VIET 212. Offered: Sp.

**VIET 214 Accelerated Vietnamese Reading and Writing (5) VLPA** *Nguyen* Accelerated

course for fluent speakers who do not read or write Vietnamese. Emphasis on reading and writing through second-year level. Cannot be taken for credit in combination with any formal Vietnamese course. Credit/no credit only. Offered: AWSp.

**VIET 245 Foreign Study: Intermediate Vietnamese (1-15, max. 20) VLPA** For participants in study abroad programs who complete intermediate language courses in approved programs in Vietnam. Evaluation by department faculty required.

**VIET 345 Foreign Study: Advanced Vietnamese (1-15, max. 20) VLPA** For participants in study abroad programs who complete 300-level language courses in approved programs in Vietnam. Evaluation by department faculty required.

**VIET 496 Special Studies in Vietnamese (3-5, max. 15) VLPA** *Nguyen* Topics vary. Emphasizes improving language skills for research. Primarily for Southeast Asian Studies majors. Offered: AWSp.

---

## Astrobiology

**ASTBIO 115 Astrobiology: Life in the Universe (5) NW** Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with ASTR/BIOL/ESS/OCEAN 115.

**ASTBIO 501 Astrobiology Disciplines (4)** Review of research and subject matter relevant to astrobiology from within the disciplines of biology, astronomy, oceanography, atmospheric science, chemistry, planetary science, and geology.

**ASTBIO 502 Astrobiology Topics (4)** Investigation in detail of research topics of current interest.

---

## Astronomy

**ASTR 101 Astronomy (5) NW, QSR** Introduction to the universe, with emphasis on conceptual, as contrasted with mathematical, comprehension. Modern theories, observations; ideas concerning nature, evolution of galaxies; quasars, stars, black holes, planets, solar system. Not open for credit to students who have taken 102 or 201; not open to upper-division students majoring in physical sciences or engineering.

**ASTR 102 Introduction to Astronomy (5) NW, QSR** Emphasis on mathematical and physical comprehension of nature, the sun, stars, galaxies, and cosmology. Designed for students who have had algebra and trigonometry and high school or introductory level college physics. Cannot be taken for credit in combination with ASTRO 101 or ASTRO 301.

**ASTR 115 Astrobiology: Life in the Universe (5) NW** Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors.

Offered: jointly with ASTBIO/ESS/OCEAN 115/BIOL 114.

**ASTR 150 The Planets (5) NW, QSR** For liberal arts and beginning science students. Survey of the planets of the solar system, with emphases on recent space exploration of the planets and on the comparative evolution of the Earth and the other planets.

**ASTR 190 Modern Topics in Astronomy for Non-Science Majors (3/5, max. 10) NW** Topics of current interest, such as origin of chemical elements, novae and supernovae, white dwarfs, neutron stars, black holes, active galaxies, quasars, or interstellar medium and astrochemistry. Choice of topics depends on instructor and class interest. Prerequisite: either one 100- or one 200-level ASTR course.

**ASTR 192 Pre-Major in Astronomy Research Seminar (3) NW** Introduction to astronomical computing and research methods for students interested in Astronomy and in the Pre-Major in Astronomy Program. Co-requisite: ASTR 102. Offered: A.

**ASTR 201 The Universe and the Origin of Life (5) NW, QSR** Sequel to 101 or 102, emphasizing modern views of the atomic and molecular evolution of the universe from the initial "big bang" through the formation of the solar system and the emergence of biological forms on the earth. The latter part of the course considers questions about the existence of, and communication with, extraterrestrial intelligent life, and finally the ultimate fate of the cosmos.

**ASTR 210 Distance and Time: Size and Age in the Universe (5) NW, QSR** Space and time as basic concepts in physical science. How we define and measure them, how the concepts have developed over the centuries, and how modern measurements allow us to determine the size and age of the universe.

**ASTR 211 The Universe and Change (5) NW, QSR** Gravity as central to the form and evolution of the universe. Conceptual formulation of gravity from the Renaissance to Einstein. Its consequences from the falling of an apple to the slowing of the expansion of the universe.

**ASTR 212 Life in the Universe (5) NW, QSR** Nature and origin of cosmic large numbers. Steps to the formation of life, formation of planets (stars, galaxies, a long-lived universe), the anthropic principle. Searches for other planetary systems and extraterrestrial life.

**ASTR 270 Public Outreach in Astronomy (3) NW/VLPA** Emphasis is on giving effective scientific presentations, developing and giving educational programs to school-age groups, and communicating your knowledge of astronomy to others. Give talks at the Jacobsen Observatory on campus and presentations in the Astronomy Department's planetarium. Learn to operate a telescope and the planetarium equipment. Prerequisite: one astronomy course at either the 100-, 200-, or 300-level.

**ASTR 300 Introduction to Programming for Astronomical Applications (2) QSR** *Smith* Introduction to programming needed for astronomical applications: Linux operating systems, PERL, IDL. Recommended for astronomy majors planning to take 400-level astronomy courses, to pursue individual research projects, or to apply for research

experience for undergraduate appointments. Prerequisite: PHYS 121 which may be taken concurrently. Offered: W.

**ASTR 301 Astronomy for Scientists and Engineers (3) NW** Introduction to astronomy for students in the physical sciences or engineering. Topics similar to 101, but the approach uses more mathematics and physics. Prerequisite: PHYS 123.

**ASTR 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW** Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with HIST 313.

**ASTR 321 The Solar System (3) NW** Solar system; planetary atmospheres, surfaces and interiors, the moon, comets. The solar wind and interplanetary medium. Formation of the solar system. Prerequisite: PHYS 224 which may be taken concurrently. Offered: A.

**ASTR 322 The Contents of Our Galaxy (3) NW** Introduction to astronomy. Basic properties of stars, stellar systems, interstellar dust and gas, and the structure of our galaxy. Prerequisite: PHYS 224 which may be taken concurrently; PHYS 225 which may be taken concurrently. : W.

**ASTR 323 Extragalactic Astronomy and Cosmology (3) NW** Galaxies, optical and radio morphology and properties. Clusters of galaxies, radio sources, and quasars. Observational cosmology. Prerequisite: ASTR 322 which may be taken concurrently. : Sp.

**ASTR 421 Stellar Observations and Theory (3) NW** Observations and theory of the atmospheres, chemical composition, internal structure, energy sources, and evolutionary history of stars. Prerequisite: ASTR 322.

**ASTR 423 High-Energy Astrophysics (3) NW** High-energy phenomena in the universe. Includes supernova, pulsars, neutron stars, x-ray and gamma-ray sources, black holes, cosmic rays, quasi stellar objects, active galactic nuclei, diffuse background radiations. Radiative emission, absorption processes, and models derived from observational data. Prerequisite: PHYS 224; PHYS 225.

**ASTR 425 Cosmology (3) NW, QSR** *Agol, Quinn* Studies the universe as a whole. Overview of fundamental observations of cosmology and an introduction to general relativity. Examines theories of the past and future history of the universe, the nature of dark matter and dark energy, and the origin of ordinary matter on the large-scale structure. Prerequisite: PHYS 224; PHYS 225. Offered: W.

**ASTR 480 Introduction to Astronomical Data Analysis (5) NW** Hands-on experience with electronic imaging devices (CCDs) and software for image reduction and analysis. Introduction to operating systems, reduction software, and statistical analysis with applications to CCD photometry. Prerequisite: ASTR 323, which may be taken concurrently; recommended: ASTR 300 if student does not have a strong UNIX background.. Offered: Sp.

**ASTR 481 Introduction to Astronomical Observation (5) NW** Theory and practice of obtaining optical data at a telescope. Prepara-

tion, obtaining data with a CCD on a telescope, and subsequent data analysis for completion of a research project. Prerequisite: ASTR 480. Offered: S.

**ASTR 482 Writing Scientific Papers (2)** *Szkody* Principles of organizing, developing, and writing resumes, scientific research papers for journals and astronomy articles for general public interest. Prerequisite: ASTR 481, ASTR 499, PHYS 491, PHYS 492, or PHYS 493, any of which may be taken concurrently. Offered: A.

**ASTR 497 Topics in Current Astronomy (1-3, max. 9)** NW Recent developments in one field of astronomy or astrophysics.

**ASTR 499 Undergraduate Research (\*, max. 15)** Special astronomical problems and observational projects, by arrangement with instructor.

**ASTR 500 Practical Methods for Teaching Astronomy (1-3)** Seminar in the preparation of lecture and workshop materials with emphasis on demonstration, visual aids, and the evaluation of students' progress. Credit/no credit only.

**ASTR 507 Physical Foundations of Astrophysics I (3)** Thermodynamics from an astronomer's point of view: black body radiation, basic radiative transfer, equation of state, degenerate gases, crystallization at high density.

**ASTR 508 Physical Foundations of Astrophysics II (3)** Introduction to astronomical hydrodynamics and magnetohydrodynamics, basic theorems and application to stellar and interstellar magnetic fields. Introduction to plasma physics and waves in a plasma.

**ASTR 509 Physical Foundations of Astrophysics III (3)** Potential theory as applied to astrophysical systems. Orbits. Integrals of motion. Equilibrium and stability of stellar systems. Encounters of stellar systems. Kinetic theory of collisional systems. Applications of stellar dynamics to star clusters, galaxies, and large-scale structure.

**ASTR 510 Nuclear Astrophysics (3)** Big bang nucleosynthesis; nuclear reactions in stars; solar neutrinos and neutrino oscillations; core-collapse supernovae; nucleosynthesis in stars, novae, and supernovae; neutron stars; composition and sources of cosmic rays; gamma ray bursts; atmospheric neutrinos. Offered: jointly with PHYS 554; A.

**ASTR 511 Galactic Structure (3)** Kinematics, dynamics, and contents of the galaxy. Spiral structure. Structure and evolution of galaxies.

**ASTR 512 Extragalactic Astronomy (3)** Types of galaxies. Integrated properties, content, and dynamics. Extragalactic distance scale, groups and clusters. Radio sources. Observational cosmology.

**ASTR 513 Cosmology and Particle Astrophysics (3)** Big bang cosmology; relativistic world models and classical tests; background radiation; cosmological implications of nucleosynthesis; baryogenesis; inflation; galaxy and large-scale structure formation; quasars; intergalactic medium; dark matter.

**ASTR 519 Radiative Processes in Astrophysics (3)** Theory and applications of astrophysical radiation processes: transfer theory; thermal radiation; theory of radiation fields and radiation

from moving charges; bremsstrahlung; synchrotron; Compton scattering; plasma effects.

**ASTR 521 Stellar Atmospheres (3)** Theory of continuous radiation and spectral line formation. Applications to the sun and stars. Prerequisite: PHYS 421 or equivalent.

**ASTR 531 Stellar Interiors (4)** Physical laws governing the temperature, pressure, and mass distribution in stars. Equation of state, opacity, nuclear energy generation, computational methods. Models of main sequence stars and star formation. Prerequisite: PHYS 421 or equivalent.

**ASTR 532 Stellar Evolution (3)** Theoretical and observational approaches to stellar evolution. Structure of red giants, supernovae, and white dwarfs. Observations of star clusters and the chemical composition of stars as they relate to the theory of stellar structure. Prerequisite: ASTR 531.

**ASTR 541 Interstellar Matter (3)** Physical conditions and motions of neutral and ionized gas in interstellar space. Interstellar dust, magnetic fields, formation of grains, clouds, and stars. Prerequisite: modern physics or permission of instructor.

**ASTR 555 Planetary Atmospheres (3)** Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar system objects in the context of comparative planetology. Offered: jointly with ATM S 555/ESS 581.

**ASTR 556 Planetary Surfaces (3)** Comparison of surface processes and conditions on Mercury, Venus, Earth, moon, Mars, asteroids, and satellites of the great planets. Emphasis on understanding how and why planetary surfaces differ from one another and the implied course of solar-system evolution. Analysis of data from Earth-based telescopes and manned and unmanned space missions.

**ASTR 557 Origin of the Solar System (3)** Nebular and nonnebular theories of the solar system origin; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; physical and chemical evidence upon which the ideas concerning the origin of the solar system are based. Offered: jointly with ESS 583.

**ASTR 561 High Energy Astrophysics (3)** Observed properties of supernovae, x-ray stars, radio sources, quasars. Theories explaining such objects. Origin of cosmic rays.

**ASTR 575 Seminar in Astronomy (1-2, max. 20)** Discussion of recent research in astronomy and astrophysics. Credit/no credit only. Prerequisite: permission of department.

**ASTR 576 Astronomy Colloquium (1, max. 20)** Current research topics in astronomy and astrophysics. Credit/no credit only. Prerequisite: permission of department.

**ASTR 581 Techniques in Optical Astronomy (5)** Theory and practice of obtaining optical data. Astronomical photoelectric photometers, spectrographs, interferometers, CCDs, and

infrared equipment. Data-reduction techniques with emphasis on statistical analysis using digital computers. Observations with MRO thirty-inch telescope.

**ASTR 597 Topics in Observational Astrophysics (1-5, max. 20)** .

**ASTR 598 Topics in Theoretical Astrophysics (1-5, max. 20)**

**ASTR 599 Advanced Astronomy Seminar (1-3, max. 6)** Practical exercises in astrophysics. Emphasis on methods and techniques of simulation, acquisition, evaluation, and analysis of observational data and its interpretation using models of astrophysical systems. Prerequisite: permission of instructor.

**ASTR 600 Independent Study or Research (\*)**

**ASTR 700 Master's Thesis (\*)**

**ASTR 800 Doctoral Dissertation (\*)**

---

## Atmospheric Sciences

**ATM S 101 Weather (5) NW** The earth's atmosphere, with emphasis on weather observations and forecasting. Daily weather map discussions. Highs, lows, fronts, clouds, storms, jet streams, air pollution, and other features of the atmosphere. Physical processes involved in weather phenomena. Intended for nonmajors. Offered: AWSp.

**ATM S 111 Global Warming: Understanding the Issues (5) NW** *Ackerman, Anderson, Bitz, Fu, Jaegle, Thornton* Includes a broad overview of the science of global warming. Discusses the causes, evidence, future projections, societal and environmental impacts, and potential solutions. Introduces the debate on global warming with a focus on scientific issues. Offered: AWSp.

**ATM S 211 Climate and Climate Change (5) NW** The nature of the global climate system. Factors influencing climate including interactions among the atmosphere, oceans, solid earth, and biosphere. Stability and sensitivity of climate system. Global warming, ozone depletion, and other human influences. Intended for nonmajors. Offered: AWSp.

**ATM S 212 Air Pollution: From Urban Smog to the Ozone Hole (5) NW** *Alexander, Jaegle, Thornton* Introduction to air pollution on local, regional, and global scales, with focus on the sources, transformation, and dispersion of pollutants responsible for urban smog, acid rain, climate change, and the ozone hole. Health and environmental effects of air pollutants, technological solutions, and international policy regulations. Offered: varies.

**ATM S 301 Introduction to Atmospheric Sciences (5) NW** Composition and structure of the atmosphere. Clouds and weather phenomena. Thermodynamic processes. Solar and terrestrial radiation. Air motions. Daily weather discussions and forecasts. For majors and nonmajors. Prerequisite: 2.0 in each of MATH 124; MATH 125; MATH 126; PHYS 121; PHYS 122; and PHYS 123. Offered: A.

**ATM S 321 The Science of Climate (3) NW** Evolution and present state of earth's climate.

Emphasis on physical processes determining the climate of the earth's atmosphere and surface: radiative transfer, energy balance, hydrologic cycle, and atmospheric and oceanic energy transport. Factors controlling climate change. Prerequisite: minimum of grade of 2.0 each of MATH 124; MATH 125; MATH 126; PHYS 121; PHYS 122; PHYS 123. Offered: Sp.

**ATM S 340 Introduction to Thermodynamics and Cloud Processes (5) NW** Thermodynamics and hydrostatics. Cloud and precipitation processes with emphasis on the microphysics. Prerequisite: either MATH 126, MATH 129, or MATH 136. Offered: W.

**ATM S 358 Fundamentals of Atmospheric Chemistry (3) NW** Review of basic principles of physical chemistry; evolution and chemical composition of earth's atmosphere; half-life, residence and renewal time; sources, transformation, transport and sinks of gases in the troposphere; atmospheric aerosols; chemical cycles; air pollution; stratospheric chemistry. Recommended: CHEM 142; MATH 126; PHYS 123. Offered: Sp.

**ATM S 370 Atmospheric Structure and Analysis (5) NW** Structure and evolution of extratropical cyclones, fronts and convective systems. Surface and upper air analysis techniques. Radar and satellite data. Real-world applications of basic dynamical principles. Introduction to operational products and forecasting. Prerequisite: ATM S 301. Offered: W.

**ATM S 390 Honors Tutorial in Atmospheric Sciences (\*, max. 6)** Review and discussion of selected problems in atmospheric sciences. Introduction to research methods. Presentation of a research paper. Offered: AWSpS.

**ATM S 431 Atmospheric Physics (5) NW** Energy transfer processes: solar and atmospheric radiation, turbulence, and boundary layer structure. Applications. Prerequisite: either ATM S 340 or PHYS 224. Offered: A.

**ATM S 441 Atmospheric Motions I (3) NW** Basic equations governing atmospheric motions and their elementary applications; circulation and vorticity; dynamics of midlatitude disturbances. Prerequisite: either AMATH 353 or MATH 309; MATH 324. Offered: A.

**ATM S 442 Atmospheric Motions II (5) NW** Wave dynamics, numerical prediction, development of midlatitude synoptic systems, and general circulation. Includes laboratory exercises. Prerequisite: ATM S 441. Offered: W.

**ATM S 451 Instruments and Observations (5) NW** Principles of operating instruments for measuring important atmospheric parameters (e.g., temperature, humidity, aerosol concentration). Concepts of sensitivity, accuracy, representativeness, time response. Manipulation of output data including signal processing and statistical analysis. Experimental design and implementation of the design in actual field experiments is included. Prerequisite: ATM S 370; ATM S 442; STAT 311. Offered: Sp.

**ATM S 452 Weather Forecasting and Advanced Synoptic Meteorology (5) NW** Basic forecasting techniques. Application of numerical modeling and statistical approaches. Structure, evolution, and forecasting of convective systems. Radar applications. Diurnal and topographically-forced circulations. Aviation

meteorology. Laboratories include extensive practice in forecasting and surface map analysis. Prerequisite: ATM S 370; ATM S 442; STAT 311. Offered: Sp.

**ATM S 458 Global Atmospheric Chemistry (4) NW** Global atmosphere as a chemical system. Physical factors and chemical processes. Natural variability and anthropogenic change. Cycling of trace substances. Global issues such as climate change, acidic deposition, influences on biosphere. Prerequisite: either ATM S 358 or CHEM 456. Offered: jointly with CHEM 458; A.

**ATM S 460 Water in the Environment (3) NW Baker, Raymond, Waddington, Warren** Discusses the unique physical and chemical properties of the water molecule in relation to the atmospheric greenhouse effect, precipitation formation, oceanic circulations, infiltration of water through soils, geyser eruptions, and glacier and sea ice thickness. Prerequisite: either MATH 124, MATH 126, MATH 129, or MATH 136; PHYS 123. Offered: jointly with ESS 424/PHYS 460. Offered: A.

**ATM S 480 Air-Quality Modeling (3) NW** Evaluation of air-quality models relating air pollution emissions to environmental concentrations. Topics include meteorological dispersion models and various "receptor" models based on chemical "fingerprinting" of sources. Emphasizes current problems. Offered: jointly with CEE 480; W.

**ATM S 490 Current Weather Analysis (1, max. 6) NW** Reviews and analyzes current weather situations and forecasts. Promotes active discussion between the leader and attendees, and provides exposure to practical aspects of forecasting, the structure of synoptic and local weather phenomena, and applications of basic meteorological concepts. Offered: AWSp.

**ATM S 492 Readings in Meteorology or Climatology (\*)** Credit/no credit only. Offered: AWSpS.

**ATM S 501 Fundamentals of Physics and Chemistry of the Atmosphere (5)** Fundamentals of hydrostatics, thermodynamics, radiation, cloud physics, and atmospheric chemistry. Offered: A.

**ATM S 502 Introduction to Synoptic Meteorology (3)** Overview of weather systems; atmospheric observations and data assimilation. Elementary manual and computer-aided synoptic analysis techniques. Interpretation of satellite and ground-based observations. Kinematics. Fronts and frontogenesis; life cycles of extratropical cyclones; related mesoscale phenomena. Numerical weather prediction; interpretation of forecast products. Offered: Sp.

**ATM S 503 Atmospheric Motions I (3)** Basic equations governing atmospheric motions and their elementary applications; circulation and vorticity; dynamics of midlatitude disturbances. Offered: A.

**ATM S 504 Atmospheric Motions II (5)** Wave dynamics, numerical prediction, development of midlatitude synoptic systems, and general circulation. Prerequisite: either ATM S 441 or ATM S 503. Offered: W.

**ATM S 505 Introduction to Fluid Dynamics (4)** Eulerian equations for mass, motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress, strain relations; Kelvin's

theorem, vortex dynamics; potential flows, flows with high, low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisite: AMATH 403 or permission of instructor. Offered: jointly with AMATH 505/OCEAN 511; A.

**ATM S 508 Geochemical Cycles (4)** Descriptive, quantitative aspects of earth as biogeochemical system. Study of equilibria, transport processes, chemical kinetics, biological processes; their application to carbon, sulfur, nitrogen, phosphorus, other elemental cycles. Stability of biogeochemical systems; nature of human perturbations of their dynamics. Prerequisite: permission of instructor. Offered: jointly with OCEAN 523/CHEM 523; Sp.

**ATM S 509 Geophysical Fluid Dynamics I (4)** Dynamics of rotating stratified fluid flow in the atmosphere/ocean and laboratory analogues. Equations of state, compressibility, Boussinesq approximation. Geostrophic balance, Rossby number. Poincare, Kelvin, Rossby waves, geostrophic adjustment. Ekman layers. Continuously stratified dynamics: Inertia-gravity waves, potential vorticity, quasigeostrophy. Prerequisite: ATM S/AMATH 505/OCEAN 511. Offered: jointly with OCEAN 512; W.

**ATM S 510 Physics of Ice (3)** Structure of the water molecule. Crystallographic structures of ice. Electrical, optical, thermal, and mechanical properties of ice. Growth of ice from vapor and liquid phases. Offered: jointly with ESS 531; alternate years; W.

**ATM S 511 Formation of Snow and Ice Masses (3)** Snow and ice climatology. Formation of the ice crystals in clouds. Snow metamorphism. Transfer of radiative, sensible, and latent heat at snow and ice surfaces. Remote sensing of snow and ice. Growth and melt of sea ice. Climatic records from ice. Prerequisite: permission of instructor. Offered: jointly with ESS 532; alternate years; A.

**ATM S 512 Dynamics of Snow and Ice Masses (3)** Rheology of snow and ice. Sliding and processes at glacier beds. Thermal regime and motion of seasonal snow, glaciers, and ice sheets. Avalanches and glacier surges. Deformation and drift of sea ice. Response of natural ice masses to change in climate. Prerequisite: permission of instructor. Offered: jointly with ESS 533; alternate years; Sp.

**ATM S 513 Structural Glaciology (3)** Physical and chemical processes in snow, stratigraphy, and metamorphism. Interpretation of ice sheet stratigraphy in terms of paleoenvironment. Dynamic metamorphism of ice from flow. Structures formed at freezing interfaces. Structure of river, lake, and sea ice. Relationship between structures and bulk physical properties. Prerequisite: permission of instructor. Offered: jointly with ESS 534; alternate years; W.

**ATM S 514 Ice and Climate (3)** Examines the role of ice and snow in climate. Polar climate dynamics. Polar-global interactions. Modeling snow cover, sea ice, and ice-sheet balance, and flow in the climate system. Prerequisite: permission of instructor. Offered: jointly with ESS 535; alternate years.

**ATM S 520 Atmospheric Sciences Colloquium (1, max. 15)** Seminars on current research in advanced topics related to atmospheric

sciences, conducted by faculty and visiting professors/scientists. Includes presentation of doctoral dissertations by department graduate students. For Atmospheric Sciences graduate students only. Credit/no credit only. Prerequisite: permission of department. Offered: AWSp.

**ATM S 521 Seminar in Atmospheric Dynamics (\*)** Directed at current research in the subject. For advanced students. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSp.

**ATM S 523 Seminar in Clouds and Precipitation (\*)** Directed at current research in the subject. For advanced students. Credit/no credit only. Prerequisite: permission of instructor. Offered: AW.

**ATM S 524 Seminar in Climate Dynamics and Energy Transfer (\*)** Directed at current research in the subject. For advanced students. Credit/no credit only. Prerequisite: permission of instructor. Offered: A.

**ATM S 525 Seminar Topics in Atmospheric Chemistry (1-3, max. 6)** Seminar for atmospheric scientists, chemists, and engineers in problems associated with the chemical composition of the atmosphere. Topics range from the natural system to urban pollution and global atmospheric change. Faculty lectures and student participation. Prerequisite: CEE 301 or permission of instructor. Offered: jointly with CEE 553; W.

**ATM S 532 Atmospheric Radiation: Introductory (3)** Fundamentals of radiative transfer; absorption and scattering by atmospheric gases; elementary applications to constraints on the thermal structure, photochemistry, and remote sensing. Prerequisite: PHYS 225 or permission of instructor. Offered: jointly with ESS 571; Sp.

**ATM S 533 Atmospheric Radiation: Advanced (3)** Optical properties and particle absorption and scattering; solutions of radiative transfer equation in multiple scattering atmospheres; applications to atmospheric and surface energy balance and remote sensing. Prerequisite: ATM S 532/ESS 571 or permission of instructor. Offered: jointly with ESS 572; A.

**ATM S 534 Remote Sensing of the Atmosphere and Climate System (3)** Satellite systems for sensing the atmosphere and climate system. Recovery of atmospheric and surface information from satellite radiance measurements. Applications to research. Prerequisite: ATM S 532 or ATM S 533. Offered: jointly with ESS 521; alternate years.

**ATM S 535 Cloud Microphysics and Dynamics (3)** Basic concepts of cloud microphysics, water continuity in clouds, cloud dynamics, and cloud models. Prerequisite: ATM S 501 or permission of instructor. Offered: jointly with ESS 573; Sp.

**ATM S 536 Mesoscale Storm Structure and Dynamics (3)** Techniques of observing storm structure and dynamics by radar and aircraft, observed structures of precipitating cloud systems, comparison of observed structures with cloud models. Prerequisite: either ATM S 535 or ESS 573. Offered: alternate years; Sp.

**ATM S 542 Synoptic and Mesoscale Dynamics (3)** Quasi-geostrophic theory, baroclinic instability, symmetric instability, tropical disturbances, frontogenesis, orographic disturbances, convective storms. Prerequisite:

ATM S 509/OCEAN 512 and AMATH 402 or equivalents. Offered: Sp.

**ATM S 545 General Circulation of Atmosphere (3)** Requirements of the global angular momentum, heat, mass, and energy budgets upon atmospheric motions as deduced from observations. Study of the physical processes through which these budgets are satisfied. Prerequisite: ATM S 509/OCEAN 512 or permission of instructor. Offered: A.

**ATM S 547 Boundary Layer Meteorology (3)** Turbulence, turbulent fluxes, averaging. Convection and shear instability. Monin-Obukhov similarity theory, surface roughness. Wind profiles. Organized large eddies. Energy fluxes at ocean and land surfaces, diurnal cycle. Convective and stably stratified boundary layers. Cloud-topped boundary layers. Remote sensing. Boundary layer modeling and parameterization. Prerequisite: ATM S 505, AMATH 505, or OCEAN 511. Offered: alternate years; Sp.

**ATM S 551 Atmospheric Structure and Analysis I: Synoptic Scale Systems (4)** Extratropical cyclones and cyclogenesis. Jet streams. Upper waves in the westerlies. Diagnosis of vertical motions. Fronts and frontogenesis. Prerequisite: ATM S 502 and ATM S 509/OCEAN 512. Offered: alternate years; A.

**ATM S 552 Objective Analysis (3)** Review of objective analysis techniques commonly applied to atmospheric problems; examples from the meteorological literature and class projects. Superposed epoch analysis, cross-spectrum analysis, filtering, eigenvector analysis, and optimum interpolation techniques. Offered: W.

**ATM S 555 Planetary Atmospheres (3)** Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar system objects in the context of comparative planetology. Offered: jointly with ASTR 555/ESS 581; alternate years.

**ATM S 556 Planetary-Scale Dynamics (3)** Zonally symmetric circulations, planetary waves, equatorial waves, dynamics of the middle atmosphere, trace constituent transport, nonlinear aspects of atmospheric flows. Prerequisite: ATM S 542 or permission of instructor. Offered: alternate years; Sp.

**ATM S 558 Atmospheric Chemistry (3)** Photochemistry of urban, rural, and marine tropospheric air, and of the natural and perturbed ozone in the middle atmosphere. Unity of the chemistries in these apparently different regimes. Prerequisite: ATM S 458 or ATM S 501 or CHEM 457 or permission of instructor. Offered: Sp.

**ATM S 559 Climate Modeling (3)** *Bitz, Thompson* Principles of Earth system modeling. Emphasis on atmosphere, ocean sea ice, and land-surface components. Climate forcing. Appropriate use of models. Topics of current interest including carbon cycle, atmosphere chemistry, and biogeochemistry. Prerequisite: either ATM S/OCEAN/ESS 587, ATM S 504 or ATM S 505. Offered: jointly with ESS 559/OCEAN 558; Sp; alternate years.

**ATM S 560 Atmosphere/Ocean Interactions (3)** Observations and theory of phenomena of the

coupled atmosphere-ocean system. El Niño/Southern Oscillation; decadal tropical variability; atmospheric teleconnections; midlatitude atmosphere-ocean variability. Overview of essential ocean and atmospheric dynamics, where appropriate. Credit/no credit only. Prerequisite: ATM S 509/OCEAN 512. Offered: jointly with OCEAN 560; alternate years; Sp.

**ATM S 564 Atmospheric Aerosol and Multiphase Atmospheric Chemistry (3)** Physics and chemistry of particles and droplets in the atmosphere. Statistics of size distributions, mechanics, optics, and physical chemistry of atmospheric aerosols. Brownian motion, sedimentation, impaction, condensation, and hygroscopic growth. Prerequisite: permission of instructor. Offered: alternate years; W.

**ATM S 571 Advanced Physical Climatology (3)** Physical processes that determine the climate of Earth and its past and future changes. Greenhouse effect. Climate modeling. Radiative and dynamical feedback processes. Orbital parameter theory. Critical analysis of climate change predictions. Prerequisite: permission of instructor. Offered: A.

**ATM S 575 Large Scale Dynamics of the Tropical Atmosphere (3)** Observations and underlying dynamics of large-scale tropical circulations. Factors that determine regions of large-scale persistent precipitation in the tropics, thermal forcing of atmospheric circulations by these regions, and temporal variability of the forcing and response. Credit/no credit only. Prerequisite: ATM S 509/OCEAN 512, ATM S 542. Offered: alternate years; W.

**ATM S 581 Numerical Analysis of Time Dependent Problems (5)** Numerical methods for time-dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence theory. Spectral and pseudospectral methods. Prerequisite: AMATH 581 or AMATH 584. Offered: jointly with AMATH 586/MATH 581; Sp.

**ATM S 582 Advanced Numerical Modeling of Geophysical Flows (3)** Topics of current interest including: efficient time differencing, semi-implicit and multiple time-step techniques. Semi-lagrangian schemes. Treatment of poorly resolved gradients. Flux-corrected transport. Positive definite advection schemes. Aliasing error and nonlinear instability. Wave permeable boundary conditions. Prerequisite: ATM S 581 and AMATH 586 or MATH 586. Offered: alternate years.

**ATM S 585 Climate Impacts on the Pacific Northwest (4)** *Mantua, Snover* Knowledge of past/future patterns of climate to improve Pacific Northwest resource management. Topics include the predictability of natural/human-caused climate changes; past societal reactions to climate impacts on water, fish, forest, and coastal resources; how climate and public policies interact to affect ecosystems and society. Offered: jointly with ESS/ENVIR/SMA 585; Sp.

**ATM S 586 Current Research in Climate Change (2, max. 20)** Weekly lectures focusing on a particular aspect of climate (topic to change each year) from invited speakers (both UW and outside), plus one or two keynote speakers, followed by class discussion. Offered: jointly with ESS 586/OCEAN 586.

**ATM S 587 Climate Dynamics (3)** *Hartman, Thompson* Examines Earth's climate system; distribution of temperature, precipitation, wind ice, salinity, and ocean currents; fundamental processes determining Earth's climate; energy and constituent transport mechanisms; climate sensitivity; natural climate variability on interannual to decadal time scales; global climate models; predicting future climate. Offered: jointly with ESS 587/OCEAN 587; A

**ATM S 588 The Global Carbon Cycle and Climate (3)** *Quay* Oceanic and terrestrial biogeochemical processes controlling atmospheric CO<sub>2</sub> and other greenhouse gases. Records of past changes in the earth's carbon cycle from geological, oceanographic and terrestrial archives. Anthropogenic perturbations to cycles. Develop simple box models, discuss results of complex models. Offered: jointly with OCEAN 588/ESS 588; W.

**ATM S 589 Paleoclimatology: Data, Modeling and Theory (3)** *Battisti, Emerson, Steig* Evidence for past changes in land and sea surface temperature, in precipitation and atmospheric dynamics, and in ocean circulation: both long and interannual timescales. Paleoclimate modeling and theory. Time series analysis and climate noise. Rapid climate change. Statistical reconstruction of interannual variability. Offered: jointly with ESS 589/OCEAN 589; Sp.

**ATM S 591 Special Topics (1-4, max. 9)** Lecture series on topics of major importance in the atmospheric sciences. Prerequisite: permission of instructor.

**ATM S 600 Independent Study or Research (\*)** Credit/no credit only. Offered: AWSpS.

**ATM S 700 Master's Thesis (\*)** Offered: AWSpS.

**ATM S 800 Doctoral Dissertation (\*)** Offered: AWSpS.

---

## Biology

The courses in biology listed below are administered by several departments. Other courses in biology are listed under such headings as Biochemistry, Biological Structure, and Microbiology.

**BIOL 100 Introductory Biology (5) NW** Develops an awareness of science by studying basic biological principles and their application to problems of humans and society in the contexts of special topics or themes, which vary quarter to quarter. For non-science majors only. Offered: AW.

**BIOL 103 Plants in the Human Environment (5) NW** *del Moral* Plant biology in human affairs: biodiversity, evolution, agricultural and conservation ecology, and climate change. Life cycles, plant growth and function, how plants interact with their environment and with other organisms, and how ecosystems recover from disturbance. Offered: W.

**BIOL 104 Biology for Elementary School Teachers (5) NW** *Buttner* Basic concepts of biology, with emphasis on background needed for confident use of the new science curriculum materials in the elementary school. Offered: AW.

**BIOL 106 Introductory Biology Seminar (1/3, max 6) NW** Focuses on current topics in biology. Topics vary from quarter to quarter. Designed to enhance learning skills of students who intend to take BIOL 161-162 or BIOL 180/200/220 and major in one of the biological sciences. Intended for HHMI Fellows. Recommended: high school chemistry and biology, or one quarter of college chemistry.

**BIOL 108 Evolution and Human Behavior (3) NW** Introduction to evolution by natural selection, examining the light it can throw on human biology and behavior in such areas as the nature of sex differences, sexual conflict, and conflict between parents and children. Does not fulfill major requirements. Offered: jointly with BIO A 100.

**BIOL 110 Freshman Discovery Seminar in Biology (5) NW** Introduces incoming freshman to research basics and scholarly inquiry skills used in the study of biology.

**BIOL 113 Introduction to Biosciences (1-3, max. 6) NW** Independent study/topics related to material taken in BIOL 180, BIOL 200, and BIOL 220. Credit/no credit only. Offered: AWSp

**BIOL 114 Astrobiology: Life in the Universe (5) NW** Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with ASTR/ASTBIO/ESS/OCEAN 115.

**BIOL 115 Evolution (2) NW** Evolutionary biology for nonmajors. Evolutionary history of the earth and various theories of evolution.

**BIOL 117 Plant Identification and Classification (5) NW** *Olmstead* Plant classification and diversity of seed plants; field study and laboratory identification of the common plant families and the conspicuous flora of western and central Washington. One full-day weekend field trip (optional). For non-majors. Offered: SpS.

**BIOL 118 Survey of Physiology (5) NW** Human physiology, for nonmajors and health sciences students. Offered: AWSpS.

**BIOL 119 Elementary Physiology Laboratory (1) NW** Prerequisite: BIOL 118 which may be taken concurrently. Offered: ASp.

**BIOL 120 Current Controversies in Biology (2-5, max. 6) NW** Explores a current controversial topic in biology, stressing information needed by the general public to make informed personal, political, and ethical decisions relating to this topic.

**BIOL 161 General Biology (5-) NW** Living systems viewed from the subcellular to the community level, emphasizing the diversity, functioning, and interaction of whole organisms. Topics covered include cell structure and function, energy, genetics, animal physiology and development. Emphasizes the position of humans in the biological world. For nonmajors and majors in biology-related fields who need a thorough two-quarter introduction to biology. Recommended: high school chemistry; high school biology. Offered: A.

**BIOL 162 General Biology (-5) NW** Living systems viewed from the subcellular to the

community level, emphasizing the diversity, functioning, and interaction of whole organisms. Topics covered include plant and animal diversity, plant structure and function, general ecology and evolution. Emphasizes the position of humans in the biological world. For nonmajors and majors in biology-related fields who need a thorough two-quarter introduction to biology. Prerequisite: either BIOL 101 or BIOL 161. Offered: W.

**BIOL 179 Learning to Learn in the Sciences (2)** Explores how to learn in the sciences. Develops various learning strategies, study skills, and personalized study plans to meet the new challenges of the BIOL 180 series through weekly in-class workshops and organized study sessions. Credit/no credit only. Corequisite: BIOL 180.

**BIOL 180 Introductory Biology (5) NW** For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Mendelian genetics, evolution, biodiversity of life forms, ecology, conservation biology. First course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220). Cannot be taken for credit if BIOL 203 has already been taken. Prerequisite: either CHEM 150, CHEM 152, CHEM 155, CHEM 220, CHEM 223, or CHEM 237. Offered: AWSpS.

**BIOL 200 Introductory Biology (5) NW** For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Metabolism and energetics, structure and function of biomolecules, cell structure and function, animal development. Second course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220). Cannot be taken for credit if BIOL 201 has already been taken. Prerequisite: 1.5 in BIOL 180; either CHEM 150, CHEM 152, CHEM 155, CHEM 220, CHEM 223, or CHEM 237. Offered: AWSpS.

**BIOL 220 Introductory Biology (5) NW** For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Animal physiology, plant development and physiology. Final course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220). Cannot be taken for credit if BIOL 202 has already been taken. Prerequisite: 1.5 in BIOL 200; either CHEM 150, CHEM 152, CHEM 155, CHEM 220, CHEM 223, or CHEM 237. Offered: AWSpS.

**BIOL 250 Marine Biology (3/5, max. 5) I&S, NW** Lecture-laboratory course in Marine Biology focusing on physical, biological, and social aspects of the marine environment. Topics include oceanography, ecology, physiology, behavior, conservation, fisheries, exploration, and activism. Evening marine biology movies and weekend field trip. Honors section research project. Offered: jointly with FISH/OCEAN 250.

**BIOL 293 Study Abroad — Biology (1-10, max. 10) NW** For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements without approval.

**BIOL 302 Laboratory Techniques in Cell and Molecular Biology (4) NW** *Martin-Morris* Explores the use of various cell and molecular laboratory techniques, such as PCR, cloning, gel electrophoresis, and bacterial transformation through hands-on experiments. Students produce a portfolio of techniques they have learned. Writing credit. Prerequisite: BIOL 355. Offered: Sp.

**BIOL 311 Biology of Fishes (3/5) NW** Lecture and laboratory, of the morphological, physiological, behavioral, and ecological diversity of fishes of the world; designed to provide a basic foundation for advanced courses in all areas of finfish fisheries. 3-credit option does not include laboratory. Recommended: 10 credits biological science. Offered: jointly with FISH 311; W.

**BIOL 317 Plant Classification and Identification (5) NW** *Olmstead* Classification and diversity of seed plants; concepts and principles of classification, lab and field study of common plant families in Washington, and skill development for identification of species. Cannot be taken for credit if BIOL 117 or BOTANY 113 taken. One weekend field trip. Offered: concurrently with BIOL 117; SpS.

**BIOL 330 Natural History of Marine Invertebrates (5) NW** Field and laboratory course emphasizing the habits, habitats, adaptations, and interrelationships of marine animals. Weekend field trips required. Offered: S.

**BIOL 331 Landscape Plant Recognition (3) NW** Field recognition of important groups of woody landscape plants, emphasizing diversity at the genus and family levels. Cultivated plant nomenclature. Plant descriptive characters evident in the field with eye and hand lens. Hardiness and landscape applications. Recommended: either BIOL 117 or BOTANY 113. Offered: jointly with ESRM 331; Sp.

**BIOL 340 Genetics and Molecular Ecology (5) NW** Application of molecular markers to ecology, evolution, and the management of living resources. Emphasis on understanding the strengths and weaknesses of the approach based on case studies. Offered: jointly with FISH 340. Prerequisite: either BIOL 102, BIOL 162, or BIOL 200.

**BIOL 350 Foundations in Physiology (3) NW** Physiology core course for biological sciences majors. Analysis of basic principles of animal and plant physiology, with emphasis on cellular processes that mediate organismic processes. Serves as gateway to upper-division courses in physiology. Prerequisite: either BIOL 202 or BIOL 220; recommended: either PHYS 115 or PHYS 122. Offered: AWSpS.

**BIOL 354 Foundations in Evolution and Systematics (3) NW** Evolution and systematics core course for biological sciences majors. Emphasizes patterns, processes, and consequences of evolutionary change. Serves as gateway to 400-level courses and seminars in evolution, population genetics, sociobiology, conservation biology, phylogenetics, and systematics. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or BIOL 203. Offered: WSp.

**BIOL 355 Foundations in Molecular Cell Biology (3) NW** Cell biology core course for biological sciences majors. Emphasis on molecular approaches to understand cell structure, function, and regulation, and the analysis of experimental design and data interpretation. Serves as a prerequisite to advanced 400-level cell, molecular, and developmental biology courses and seminars. Prerequisite: either BIOL 200 or BIOL 201. Offered: AWSpS.

**BIOL 356 Foundations in Ecology (3) NW** Ecology core course for biological sciences majors. Emphasizes understanding species

interactions in biological communities and relationships of communities to environment. Serves as a prerequisite to 400-level courses and senior seminars in ecology, population and conservation biology. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or BIOL 203. Offered: AW.

**BIOL 390 Undergraduate Internship Seminar (1) NW** *Crowe* Weekly workshop to prepare students for off-campus research internships. Required for students planning to take BIOL 399. Prerequisite: BIOL 220. Offered: AWSpS.

**BIOL 396 Peer Facilitation ? Teaching in Biology (1-2, max. 4) NW** *Martin-Morris* For students concurrently serving as peer facilitators in biology courses. Students received instruction in teaching as well as supplemental information on material they teach others. Credit no credit only. Prerequisite: either BIOL 100 or BIOL 180. Offered: AWSp.

**BIOL 399 Biology Internship Program (3-5, max. 15) NW** *Crowe* Coordinated internship in a biology-related field. Registration restricted to students already matched with an internship opportunity in BIOL 390 or by instructor approval. Students must complete at least a combined 10 credits in BIOL 399 over consecutive quarters. Credit/no credit only. Prerequisite: BIOL 390. Offered: AWSpS.

**BIOL 401 Advanced Cell Biology (3) NW** Selected topics in molecular cell biology. Strong emphasis on reading and interpreting primary research literature. Writing intensive course. Prerequisite: either BIOL 355 or BIOC 442.

**BIOL 402 Cell Biology Laboratory (4) NW** Investigative projects using modern molecular methods (restriction enzyme digestion, blotting, hybridization, immunochemistry, density gradient centrifugation, electrophoresis) and other methods currently used to study plant and animal cells, nucleic acids, and proteins. Includes practice in scientific style writing. Prerequisite: BIOL 401, which may be taken concurrently. Offered: AWSp.

**BIOL 404 Animal Physiology: Cellular Aspects (3) NW** *de la Inglesia* Examines the physiology of membrane transport, nervous signaling, sensory systems, behavioral modulation, muscle, neuronal and endocrine integration, and circadian rhythms. Emphasis on the cellular and tissue level. Prerequisite: BIOL 220; either CHEM 224 or CHEM 239; either PHYS 115 or PHYS 122. Offered: A.

**BIOL 405 Cellular and Molecular Biology of Human Disease (3) NW** Concepts of cellular and molecular biology as applied to human disease. Emphasis on current experimental approaches to investigate disease mechanisms and the contributions of model systems. Selected topics in cancer biology, viral induced disease, gene therapy. Prerequisite: either BIOL 202 or BIOL 220; either BIOC 405, BIOC 440, BIOL 355, BIOL 401, GENET 371, or GENET 372.

**BIOL 406 Insect Behavior (4) NW** *O'Donnell* Explores complexity and diversity of behavior in insects and related invertebrate animals. Overview of important lineages of insects and major behavioral traits. Examines how insect biology both constrains behavior and provides evolutionary opportunities. Prerequisite: either 2.0 in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300. Offered: jointly with PSYCH 406.

**BIOL 408 Mechanisms of Animal Behavior (4) NW** *Beecher, Brenowitz* Comparative exploration of physiological and perceptual mechanisms that control behaviors necessary for survival and reproduction in animals. Model systems discussed include animal communication, mate choice, escape behavior, learning and memory, orientation, biological rhythms, foraging behavior. Prerequisite: either 2.0 in BIOL 180, or 3.5 in PSYCH 200, or 2.0 in PSYCH 300. Offered: jointly with PSYCH 408.

**BIOL 409 Sociobiology (5) NW** Biological bases of social behavior, emphasizing evolution as a paradigm. Emphasizes how to think like evolutionary biologist, especially with regard to interest conflict. Topics are individual versus group selection, kin selection, altruism, mating systems, sexual conflict, alternate reproductive strategies, and parent/offspring conflict. Prerequisite: either 3.5 in PSYCH 200, 2.0 in PSYCH 300, 2.0 in BIOL 162, or 2.0 in BIOL 180. Offered: jointly with PSYCH 409.

**BIOL 411 Developmental Biology (4) NW** Embryology and subsequent development of vertebrate and invertebrate animals, including *Xenopus*, mammals, chicks, *Drosophila*, echinoderms. Morphological changes in developing animals; experimental analysis of developing systems; underlying genetic and biochemical regulation of development. Prerequisite: either BIOL 355, BIOL 401, or BIOC 442. Offered: AW.

**BIOL 413 Methods and Problems in Development (3) NW** *Schubiger* Special topics in development. Integrating classical and current approaches. Developmental genetics, experimental embryology, molecular mechanisms of developmental regulation, and gene function in cell determination and cell differentiation in animal systems. Prerequisite: BIOL 411. Offered: irregularly.

**BIOL 414 Molecular Evolution (5) NW** Survey of empirical approaches to the study of molecular evolution and ecology, drawing on examples from a variety of taxa and the recent literature. Topics include DNA sequencing and systematics, fingerprinting approaches in behavioral ecology, and adaptive evolution at the molecular level. Prerequisite: BIOL 354. Offered: jointly with GENOME 414; alternate years.

**BIOL 415 Evolution and Development (3) NW** *Parichy, Swalla* Analysis of intertwined developmental and evolutionary processes studied through evolution of developmental genes, proteins, and expression patterns in different organisms. Includes reading and analyzing implications for ecology evolution, and human disease. Prerequisite: either BIOL 354, BIOL 355, or BIOC 442.

**BIOL 416 Molecular Genetics of Plant Development (3) NW** *Torii* Plant growth and development examined in molecular-genetic terms. Covers mutation, dominance, redundancy, epistasis, and key technologies for discovery of gene function as well as embryogenesis, meristem formation, flower development, and other problems in plant development. Prerequisite: BIOL 220, GENOME 371.

**BIOL 418 Biological Clocks and Rhythms (3) NW** *de la Inglesia* Examines circadian rhythms and other forms of biological rhythmicity, including annual and tidal rhythms. Includes

theoretical background as well as aspects that range from the molecular and cellular basis to the ecological and evolutionary implications of biological rhythms. Prerequisite: BIOL 350 or BIOL 355.

**BIOL 423 Marine Physiological Ecology (3) NW** *Carrington* Explores how physiology and local environment interact to influence distribution and abundance of marine organisms in a variety of habitats (rocky shore, salt marsh, coral reef), and how physiological adaptations develop. Emphasized benthic organisms that structure coastal communities (bivalves, corals, macroalgae, etc.). Prerequisite: BIOL 220; BIOL 356. Offered: alternate years.

**BIOL 424 Plant Eco-Physiology (5) NW** *Ford* Explores physiological mechanisms that underlie ecological observations, including how above- and below-ground microclimates develop and affect plant physiological processes. Discusses acclimation to environmental change along with species differences in physiological processes and plant's occupation of heterogeneous environments. Laboratories emphasize field measurement techniques. Prerequisite: either BIOL 102, BIOL 162, or BIOL 220. Offered: jointly with ESRM 478; W.

**BIOL 425 Advanced Plant Physiology and Development (3) NW** Expanded coverage of plant growth, nutrition, metabolism, and development. Cannot be taken for credit if BIOL 325 already taken. Prerequisite: either BIOL 102, BIOL 162, BIOL 203, or BIOL 220. Offered: W.

**BIOL 426 Advanced Plant Physiology Laboratory (3) NW** Expanded laboratory experiments on the growth, nutrition, metabolism, and development of plants. Cannot be taken for credit if BIOL 326 already taken. Prerequisite: BIOL 325 or BIOL 425, which may be taken concurrently. Offered: Sp.

**BIOL 427 Biomechanics (4) NW** *Daniel* Physical biology emphasizing a mechanical approach to ecological, evolutionary, and physiological questions. Basic principles underlying fluid and solid mechanics to explore responses of animals to flows, loads, and motions. Recommended: either BIOL 102, BIOL 162, BIOL 202, or BIOL 220; either MATH 125 or Q SCI 292; either PHYS 114 or PHYS 121.

**BIOL 429 Models in Biology (4) NW** Explores use of models in biology in a wide range of topics, including morphogenesis, nerve signals, ecological interactions, population biology, and evolutionary theory. Emphasis on the biological insights models can provide rather than mathematical techniques. Prerequisite: either MATH 146, MATH 390, MATH 395, STAT 342, or STAT 391.

**BIOL 430 Marine Zoology (5) NW** Survey of groups of invertebrate animals represented in the San Juan Archipelago; natural history, functional morphology, ecology, distribution, habitat, adaptation, trophic interrelationships, and evolution. Permission of Director, Friday Harbor Laboratories required for registration. Recommended: 20 credits in biological sciences; corequisite: BIOL 445. Offered: at Friday Harbor Laboratories; Sp.

**BIOL 432 Marine Invertebrate Zoology (9) NW** Comparative morphology and biology of marine invertebrates with emphasis on field and laboratory studies. Representatives of all major and most minor phyla are collected, observed

alive, and studied in detail. Not open for credit to students who have taken 433 or 434. Recommended: 20 credits in biological sciences. Offered: at Friday Harbor Laboratories; S.

**BIOL 433 Marine Ecology (5) NW** *Ruesink* Study of marine ecological processes such as recruitment, disturbance, competition, and predation, and their effects on the structure and diversity of marine communities. Weekend field trips to local intertidal habitats required. Prerequisite: either BIOL 356, BIOL 472, or a minimum grade of 3.4 in BIOL 180. Offered: Sp, odd years.

**BIOL 434 Invertebrate Zoology (5) NW** Comparative biology and morphology of invertebrates. Laboratory work emphasizes structures and functions. Emphasizes annelids and related worms, mollusks, and arthropods. Not open to students who have taken 430 or 432. Prerequisite: either BIOL 102, BIOL 202, or BIOL 220.

**BIOL 440 General Mycology (5) NW** *Ammirati* General survey of the fungi with emphasis on life cycles, structure, physiology, economic importance. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or BIOL 203. Offered: W.

**BIOL 441 Morphology and Anatomy of Land Plants (5) NW** Comparative morphology and anatomy of land plants. Derivation of morphological structures and basis for current classification schemes examined using living and fossil organisms. Laboratories emphasize live plants native to the Pacific Northwest. Prerequisite: either BIOL 102, BIOL 162, BIOL 203, or BIOL 220; recommended BIOL 317. Offered: A.

**BIOL 442 Mushrooms and Related Fungi (5) NW** *Ammirati* General biology, ecology, and classification of mushrooms, polypores, puffballs, and other related basidiomycetes. Emphasis on Pacific Northwest species. Prerequisite: either BIOL 102, BIOL 162, BIOL 203, or BIOL 220; recommended BIOL 440. Offered: S.

**BIOL 443 Evolution of Mammals and their Ancestors (5) NW** Highlights the evolutionary history and systematics of mammals and their ancestors. Examines fossil and modern mammal specimens from the Burke Museum collections. Required field trip. Prerequisite: either BIOL 354, BIOL 453, or ESS 100. Offered: A.

**BIOL 444 Natural History of Birds (5) NW** Field, lecture, and laboratory study of birds framed in biological theory rather than taxonomy. Breeding systems, brood parasitism, appearance, molt, migration, orientation, social behavior, song, and flight are emphasized. Includes Saturday and weekend field trips for which students are required to share a portion of transportation costs. Prerequisite: BIOL 220; recommend BIOL 350 or BIOL 356. Offered: irregularly.

**BIOL 445 Marine Botany (5) NW** Survey of plants represented in marine environments; natural history; ecology, distribution, habitat, adaptation, and trophic interrelationships. Prerequisite: either BIOL 102, BIOL 162, BIOL 203, or BIOL 220; BIOL 430/ZOOL 430, which may be taken concurrently. Offered: at Friday Harbor Laboratories; Sp.

**BIOL 446 Biology of Algae (5) NW** *Cattolico, Waaland* Study of major algal groups emphasize-

ing form, function, reproduction, distribution, biodiversity, and ecological roles in coastal, oceanic, and global ecosystems. Topics include classification, cellular and organismal features, phylogeny, and evolution of major algal groups. Emphasizes economically useful and ecologically important algae. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or BIOL 203. Offered: Sp.

**BIOL 448 Marine Algal Ecology (3) NW** *Waaland* Marine environment in relation to requirements for algal life. Intertidal, subtidal, geographical, and seasonal distribution of marine algae. Functional aspects of algal form, structure, productivity, and energy economy of marine algal communities. Algal utilization and aquaculture. Offered: A.

**BIOL 450 Vertebrate Paleontology (4) NW** *Sidor* Examines vertebrate life as seen in the fossil record, focusing first on fish lineages, and then on amniote (reptile, bird, and early mammal relatives) systematics and morphology. Examines fossil and modern vertebrates from the Burke Museum collection in the lab. One required weekend field trip. Prerequisite: either BIOL 453 or ESS 100. Offered: jointly with ESS 452; alternate years.

**BIOL 451 Invertebrate Paleontology (5) NW** *Ward* Important larger invertebrate groups; morphology, classification, stratigraphic distribution, evolution, paleoecology. Offered: jointly with ESS 451; W.

**BIOL 452 Vertebrate Biology (5) NW** The biology of vertebrate animals, emphasizing their diversity, adaptations, and evolutionary history. Introduces aspects of behavior, physiology, morphology, and ecology that emerge from the comparative study of vertebrates. Laboratory includes local field trips, films, and introduction to regional vertebrate fauna. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or both BIOL 202 and BIOL 203. Offered: SpS.

**BIOL 453 Comparative Anatomy of Vertebrates (5) NW** Comparison of the structure of vertebrate organ systems: integument, skeletal, muscle, digestive, respiratory, cardiovascular, urinary, and reproductive, with an emphasis on evolutionary trends. Prerequisite: BIOL 350. Offered: W.

**BIOL 454 Entomology (3) NW** Biology of terrestrial arthropods, with emphasis on insects. Structure, classification, physiology, and ecology of insects. Interrelationships of insects and man. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or both BIOL 202 and BIOL 203.

**BIOL 455 Entomology Laboratory (3) NW** Structure and function of arthropods, with emphasis on insects. Field studies and taxonomy of important insect groups. Students may be required to share a portion of the transportation costs of field trips. Prerequisite: BIOL 454 which may be taken concurrently. Offered: Sp.

**BIOL 456 Vegetation of Western Washington (5) NW** *del Moral* Vegetation of western Washington, including mature, seral, and weedy vegetation. Recognition of landscape patterns, sight identification of common and indicator species, classification of major community types, and uses of native species in landscape design. Four weekend field trips required. Prerequisite: either BIOL 117 or BIOL 317.

**BIOL 458 Behavioral Genetics (4) NW** *O'Donnell* Role of genetics in determining variation in human and animal behavior and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects, and gene expression. Prerequisite: either 3.5 in PSYCH 200, 2.0 in PSYCH 300, or 2.0 in BIOL 161, or 2.0 in BIOL 180. Offered: jointly with PSYCH 458.

**BIOL 459 Developmental Neurobiology (3) NW** *Bosma* Invertebrate and vertebrate examples illustrate the mechanisms used in constructing nervous systems. Focus on the cellular and molecular mechanisms that underlie questions about the basis of neuronal diversity, axonal pathfinding and target recognition, synaptogenesis, and activity-dependent plasticity. Prerequisite: BIOL 220. Offered: Sp.

**BIOL 460 Mammalian Physiology (3) NW** Principles of mammalian physiology with special emphasis on the cardiac, respiratory, renal systems taught at the organ and organ systems level. Prerequisite: BIOL 350.

**BIOL 461 Neurobiology (3) NW** *Bosma, Perkel* Broad examination of integrative mechanisms in central nervous system function, with emphasis on sensory processing, plasticity, and control of behavior. Examples are taken from a variety of animal groups. Prerequisite: BIOL 220; either PHYS 115 or PHYS 122. Offered: W.

**BIOL 462 Advanced Animal Physiology (3) NW** *Huey, Wenderoth* Physiology at levels of organisms and behavior, organ systems, and cells — an evolutionary and integrative perspective. Organismal physiology: metabolism, temperature, locomotion, osmoregulation, respiration, circulation, digestion. Prerequisite: either BIOL 202 or BIOL 220; either BIOL 350 or BIOL 460; either CHEM 152, CHEM 155, CHEM 160, CHEM 162, CHEM 164, CHEM 165, or CHEM 220; either PHYS 114 or PHYS 121. Offered: A.

**BIOL 463 Advanced Animal Physiology Lab (3) NW** *Huey, Wenderoth* Experimental design and techniques, data analysis, written reports. Original project labs and experiments in physiology. Prerequisite: BIOL 462, which may be taken concurrently. Offered: A.

**BIOL 470 Biogeography (4) NW** Analysis of historical and ecological determinants of current and past distributions of organisms. Integrates techniques developed by taxonomists, paleontologists, geologists, evolutionists, ecologists, and biogeographers to elucidate relationships between geographical distributions and continental drift, ecological interactions, climate, and dispersal abilities of organisms. Not available for credit if credit has previously been given for ZOO 475. Recommended: one year college biology; background in ecology and evolution. Offered: irregularly.

**BIOL 471 Plant Ecology (5) NW** *del Moral* Basic concepts of plant ecology, including studies of the environment, plant-environment interactions, populations, communities, and ecosystems. Laboratory includes one weekend field trip, laboratory and greenhouse experiments, and an introduction to ecological problem solving. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or BIOL 203. Offered: alternative years; Sp.

**BIOL 472 Community Ecology (4) NW** Explores the complexity of biological communities and interactions of plant, animal, and

microbes in marine, freshwater, and terrestrial ecosystems. Promotes synthetic and integrative thinking in the environmental sciences through the study of theoretical and empirical issues and original research data. Prerequisite: BIOL 356; recommended: solid foundation in math and physics.

**BIOL 473 Limnology (3) NW** *Schindler* Ecology, conservation and management of inland aquatic ecosystems. Explores interactions among biological, chemical and physical features of lakes and other aquatic habitats. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or BIOL 203. Offered: jointly with FISH 473; A.

**BIOL 474 Limnology Laboratory (2) NW** *Schindler* Examination of biota of fresh waters, survey of limnological methods, analysis of data, and writing of scientific papers. Prerequisite: BIOL 473/FISH 473/CEE 462, which may be taken concurrently. Offered: jointly with FISH 474/CEE 463; A.

**BIOL 476 Conservation Biology (5) NW** *Boersma, Tewksbury* Explores biological, managerial, economic, and ethical concepts affecting survival of species. Applications of ecology, biogeography, population genetics, and social sciences for the preservation of species in the face of widespread global habitat modification, destruction, and other human activities. Prerequisite: either BIOL 102, BIOL 162, BIOL 180, or BIOL 203.

**BIOL 478 Topics in Sustainable Fisheries (3, max. 9) I&S/NW** *Parrish* Seminar series featuring local, national and internationally known speakers in fisheries management and conservation. Case studies. Conservation/restoration in practice. Pre-seminar discussion section focusing on select readings. Final paper. Topics may include harvest management, whaling, by-catch, salmon, marine protected areas, introduced species, citizen action, co-management, and marine ethics. Offered: jointly with ENVIR/FISH 478; odd years; W.

**BIOL 480 Field Ecology (4) NW** *Boersma* Field projects examining ecological and behavioral topics such as foraging and social behavior, species interactions, and structure of terrestrial and aquatic communities. Two weekend fieldtrips required. Prerequisite: either BIOL 356 or BIOL 472. Offered: Sp.

**BIOL 481 Experimental Evolutionary Ecology (5) NW** *Bradshaw, Kerr, Tewksbury* Explores experimentally approachable questions in ecology and evolution through lectures, lab, and field experiments. Topics may include evolution of bacterial antibiotic resistance, the evolution of virulence, seed predation, plant biodiversity, and others. Prerequisite: BIOL 180. Offered: A.

**BIOL 482 Advanced Experimental Evolutionary Ecology (2-5, max. 15) NW** *Bradshaw, Kerr, Tewksbury* Working in pairs or independently, students pursue supervised original field or lab research projects. Projects span three academic quarters, with project development beginning in autumn, research continuing in winter, and culminating in spring with production of a scientific paper. Prerequisite: BIOL 481, which may be taken concurrently. Offered: A/WSp.

**BIOL 484 Senior Seminar in Evolution and Systematics (1-3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 354.

**BIOL 485 Senior Seminar in Cellular, Molecular and Developmental Biology (1-3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 355.

**BIOL 486 Senior Seminar in Ecology (1-3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 356.

**BIOL 487 Senior Seminar in Conservation Biology (1-3, max. 9) NW** Supervised readings and group discussion. Recommended: one upper division course in ecology or conservation biology.

**BIOL 488 Senior Seminar in Physiology (1-3, max. 9) NW** Supervised readings and group discussion. Prerequisite: BIOL 350.

**BIOL 489 Senior Seminar in Plant Biology (1-3, max. 9) NW** Supervised readings and group discussion. Recommended: one upper division course emphasizing plant biology

**BIOL 490 Undergraduate Seminar (1-3, max. 6) NW** Supervised readings and group discussion of selected topics of broad biological significance. Prerequisite: BIOL 102, BIOL 162, BIOL 203, or BIOL 220.

**BIOL 491 Special Topics in Biological Science for Teachers (1-9, max. 9) NW** Study of selected areas of biology. Designed to enhance the skills and background of K-12 teachers. Credit/no credit only. Recommended: teaching experience.

**BIOL 492 The Teaching of Biology (2)** Basic course in the teaching of biology in the secondary school. Designed to help preservice teachers identify useful laboratory techniques, materials, and content for the teaching of pre-college biology. Special attention to current issues in biology education. Required for biology students in Teacher Certification Program.

**BIOL 493 Study Abroad — Advanced Biology (1-15, max. 15) NW** For participants in UW study abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements without approval.

**BIOL 496 Peer Teaching Assistants in Biology (1-5, max. 10)** Direct experience in the classroom, typically teaching a lab section of BIOL 100. Peer Teaching Assistants attend lectures and weekly preparation meetings and gain in-depth background on the subject material as well as training in teaching techniques and approaches. Credit/no credit only. Prerequisite: either BIOL 102, BIOL 162, BIOL 220, or both BIOL 202 and BIOL 203. Offered: A/WSp.

**BIOL 497 Special Topics in Biology (1-5, max. 10) NW**

**BIOL 498 Library Research (1-5, max. 10)**

**BIOL 499 Undergraduate Research (1-20, max. 20)**

**BIOL 500 Topics in Biology (1-3, max. 16)** . Offered: Sp.

**BIOL 505 Problems in Biological Instruction (1-3, max. 3)**

**BIOL 510 Seminar in Mathematical Biology (1-3, max. 15)** *Bergstrom, Daniel, Grunbaum, Kot, Odell, Thompson* Seminar on a topic of current

interest in mathematical biology. Graduate status required, or permission of instructor for undergraduates.

**BIOL 511 Topics in Mathematical Biology (1-3, max. 15)** Discussion of current topics in mathematical biology. Graduate status required, or permission of instructor for undergraduates.

**BIOL 520 Departmental Seminar (1, max. 18)** Credit/no credit only. Offered: AWSp.

**BIOL 533 Advanced Invertebrate Zoology (9)** Invertebrate fauna of the San Juan Archipelago. Topic changes from year to year. Individual research projects are emphasized. Prerequisite: course in invertebrate zoology and permission of Director of Friday Harbor Laboratories. Offered: at Friday Harbor Laboratories; SpS.

**BIOL 536 Comparative Invertebrate Embryology (9)** Diversity in developmental patterns in major marine taxa. Analysis of evolutionary changes in development. Emphasis on observation of live embryos and larvae. Prerequisite: permission of Director of Friday Harbor Laboratories; recommended: courses in invertebrate zoology and developmental biology. Offered: at Friday Harbor Laboratories; SpS.

**BIOL 539 Marine Phycology (9)** Field and laboratory studies of marine algae of the San Juan Archipelago with emphasis on seaweed diversity, identification, and the role of algae in marine ecosystems. Offered at Friday Harbor Laboratories.

**BIOL 540 Seminar in Molecular, Cellular, and Developmental Biology (1-3, max. 15)** Weekly discussions of past and current scientific literature in cell, molecular, and/or developmental biology, review of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 541 Topics in Molecular, Cellular, and Developmental Biology (1-3, max. 15)** Focused discussion of on-going cell, molecular, or developmental biology research occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 542 Analysis of Development (1-3, max. 15)** Analysis of structural, physiological, and molecular levels of developmental processes, including gametogenesis, fertilization, cell and tissue movements, induction, and cytodifferentiation. Graduate standing or permission of instructor.

**BIOL 543 Biology of Drosophila Seminar (1, max. 12)** Weekly presentation by participants of classical literature, current literature, and research in the molecular biology, developmental biology, neurobiology, and genetics of *Drosophila*. Prerequisite: permission of instructor. Offered: AWSp.

**BIOL 546 Experimental Design in Cell Biology (1.5)** Focuses on experimental design in cell biology. A topic of current research interest is covered in depth in order to follow a line of investigation and critically evaluate the strengths and limitations of various experimental strategies. Offered: jointly with CONJ 536.

**BIOL 550 Seminar in Evolution and Systematics (1-3, max. 15)** Weekly discussions

of past and current scientific literature in evolution and/or systematics, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor of undergraduates.

**BIOL 551 Topics in Evolution and Systematics (1-3, max. 15)** Focused discussion of on-going research in evolution and/or systematics occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 552 Advanced Evolution (3)** Successful analytical approaches to understanding evolutionary patterns and the processes that generate them, examined by using a wide array of empirical and theoretical tools. Survey of how theory, modeling, and statistics can be applied to observations and experiments in evolutionary biology. Graduate standing required.

**BIOL 560 Seminar in Ecology (1-3, max. 15)** Weekly discussions of past and current scientific literature in ecology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 561 Topics in Ecology (1-3, max. 15)** Focused discussion of on-going research in ecology occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 562 Advanced Ecology (3)** Successful analytical approaches to understanding ecological patterns and the mechanisms that generate them, examined by using a wide array of empirical and theoretical tools. Applying theory, modeling, and statistics to empirically derived data to providing insight and solutions to key environmental problems. Graduate standing required.

**BIOL 563 Experimental Evolutionary Ecology (5) NW Bradshaw, Kerr, Tewksbury** Explores experimentally approachable questions in ecology and evolution through lectures, lab, and field experiments. Topics may include evolution of bacterial antibiotic resistance, the evolution of virulence, seed predation, plant biodiversity, and others. Offered: A; concurrent with BIOL 481.

**BIOL 564 Advanced Experimental Evolutionary Ecology (2-5, max, 15) NW Bradshaw, Kerr, Tewksbury** Working independently or paired with an undergraduate in BIOL 482, students pursue supervised original field or lab research projects. Projects span three academic quarters, with project development beginning in autumn, research continuing in winter, and culminating in spring with production of a scientific paper. Prerequisite: BIOL 563, which may be taken concurrently. Offered: AWSp.

**BIOL 570 Seminar in Conservation Biology (1-3, max. 15)** Weekly discussions of past and current scientific literature in conservation biology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 571 Topics in Conservation Biology (1-3, max. 15)** Focused discussion of on-going research in conservation biology occurring in the instructor's laboratory. Graduate status required, or permission on the instructor for undergraduates.

**BIOL 572 Science and Environmental Policy (3-5, max. 5) Boersma**

**BIOL 580 Seminar in Physiology (1-3, max. 15)** Weekly discussions of past and current scientific literature in physiology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Graduate status required, or permission of instructor for undergraduates.

**BIOL 581 Topics in Physiology (1-3, max. 15)** Focused discussion of on-going research in physiology occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates.

**BIOL 590 Seminar in Organismal Biology (1-3, max. 15)** Weekly discussions of past and current scientific literature in organismal biology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics. Prerequisite: graduate standing, or permission of instructor for undergraduates.

**BIOL 591 Topics in Organismal Biology (1-3, max. 15)** Focused discussion of on-going research in organismal biology occurring in the instructor's laboratory. Prerequisite: graduate standing, or permission of instructor for undergraduates.

**BIOL 600 Independent Study or Research (1-10)** Credit/no credit only.

**BIOL 700 Master's Thesis (\*)** Credit/no credit only. Offered: AWSpS.

**BIOL 800 Doctoral Dissertation (\*)** Credit/no credit only. Offered: AWSpS.

---

## Center for Statistics and Social Sciences

**CS&SS 320 Evaluating Social Science Evidence (5) I&S, QSR** A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with SOC 320/STAT 320; A.

**CS&SS 321 Case-Based Social Statistics I (5) I&S, QSR Handcock** Introduction to statistical reasoning for social scientists. Built around cases representing in-depth investigations into the nature and content of statistical and social-science principles and practice. Hands-on approach: weekly data-analysis laboratory. Fundamental statistical topics: measurement, exploratory data analysis, probabilistic concepts, distributions, assessment of statistical evidence. Offered: jointly with SOC/STAT 321; W.

**CS&SS 322 Case-Based Social Statistics II (5) I&S, QSR Handcock** Continuation of CS&SS/

SOC/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods. Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory. Prerequisite: CS&SS/SOC/STAT 321, or permission of instructor. Offered: jointly with SOC/STAT 322; Sp.

**CS&SS 481 Introduction to Mathematical Statistics (5) NW** Probability, generating functions; the d-method, Jacobians, Bayes theorem; maximum likelihoods, Neyman-Pearson, efficiency, decision theory, regression, correlation, bivariate normal. (Credit allowed for only one of 390, 481, and ECON 580.) Prerequisite: STAT/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. Recommended: MATH 324. Offered: jointly with ECON/STAT 481; A.

**CS&SS 501 Advanced Political Research Design and Analysis (5) I&S** Third methods course in political research. Testing theories with empirical evidence. Examines current topics in research methods and statistical analysis in political science. Content varies according to recent developments in the field and with interests of instructor. Offered: jointly with POL S 501.

**CS&SS 503 Advanced Quantitative Political Methodology (5) Quinn, Ward** Theory and practice of likelihood inference. Topics covered include probability modeling, maximum likelihood estimation, models for binary responses, count models, sample selection, and basis time series analysis. Prerequisite: POL S 500; POL S 501. Offered: jointly with POL S 503.

**CS&SS 504 Applied Regression (4)** Least squares estimation. Hypothesis testing. Interpretation of regression coefficients. Categorical independent variables. Interactions. Assumption violations: outliers, residuals, robust regression; nonlinearity, transformations, ACE, CART; nonconstant variance. Variable selection and model averaging. Prerequisite: either STAT 342, STAT/MATH 390, STAT 421, STAT/ECON 481, or SOC 505; recommended: MATH 308. Offered: jointly with STAT 504.

**CS&SS 505 Review of Mathematics for Social Scientists (1)** Reviews basic mathematical skills needed for a meaningful understanding of elementary statistics, data analysis, and social science methodology. Overview of core knowledge required for graduate courses in quantitative methods in social sciences. Topics include discrete mathematics, differential and integral calculus, review of matrix algebra, and basic probabilistic and statistical concepts. Offered: Sp.

**CS&SS 506 Computer Environments for the Social Sciences (1)** Familiarizes graduate students in the social sciences with modern environments for statistical computing. Provides an overview of available resources and a description of fundamental tools used in quantitative courses and doctoral research. Topics include interfaces to Web-based resources, UNIX-based computing, and major statistical packages (R, SPLUS, SAS, and SPLUS). Offered: W.

**CS&SS 507 Methodology: Quantitative Techniques in Sociology (3) I&S** Applied regression analysis with emphasis on interactive computer graphics techniques and interpretation.

Application to typical sociological problems. Offered: jointly with SOC 506; A.

**CS&SS 508 Introduction to R for Social Scientists (1) Hancock** Familiarizes students with the R environment for statistical computing (<http://www.r-project.org>). R is a freely available, multi-platform, and powerful program for analysis and graphics similar to S-PLUS. Covers the basics of organizing, managing, and manipulating social science data; basic applications; introduction to programming; links to other major statistical packages. Offered: A.

**CS&SS 510 Maximum Likelihood Methods for the Social Sciences (5) Adolph, Wardy** Introduces maximum likelihood, a more general method for modeling social phenomena than linear regression. Topics include discrete, time series, and spatial data, model interpretation, and fitting. Prerequisite: POL S/CS&SS 501; POL S/CS&SS 503. Offered: jointly with POL S 510; W.

**CS&SS 526 Structural Equation Models for the Social Sciences (3)** Structural equation models for the social sciences, including specification, estimation, and testing. Topics include path analysis, confirmatory factor analysis, linear models with latent variables, MIMIC models, non-recursive models, models for nested data. Emphasizes applications to substantive problems in the social sciences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with SOC 529.

**CS&SS 527 Survey Research Methods (4)** Provides students with skills in questionnaire development and survey methods. Develops a questionnaire and design a survey research proposal on a health-related or social topic. Prerequisite: either HSERV 511-513, BIOSTAT 517-518, EPI 512-513, which may be taken concurrently or permission of the instructor is required, and students should have a survey project in mind. Offered: jointly with HSERV 527.

**CS&SS 529 Sample Survey Techniques (3)** Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BIOST 511, or BIOST 517, or equivalent; or permission of instructor. Offered: jointly with BIOST 529/STAT 529.

**CS&SS 536 Analysis of Categorical and Count Data (3) Rafferty** Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 424, SOC 425, SOC 426, or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with SOC 536/STAT 536; annually.

**CS&SS 544 Event History Analysis for the Social Sciences (5) Holman** Examines life course research using event-history analysis with applications to the substantive areas of household dynamics, family formation and dissolution, marriage, cohabitation, and divorce, migration histories, residential mobility, and

housing careers. Examines continuous- and discrete-time longitudinal models during practical laboratory sessions.

**CS&SS 560 Hierarchical Modeling for the Social Sciences (4)** Explores ways in which data are hierarchically organized, such as voters nested within electoral districts that are in turn nested within states. Provides a basic theoretical understanding and practical knowledge of models for clustered data and a set of tools to help make accurate inferences. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505-506 or equivalent. Offered: jointly with STAT 560.

**CS&SS 564 Bayesian Statistics for the Social Sciences (4)** Statistical methods based on the idea of probability as a measure of uncertainty. Topics covered include subjective notion of probability, Bayes' Theorem, prior and posterior distributions, and data analysis techniques for statistical models. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505; CS&SS 506. Offered: jointly with STAT 564.

**CS&SS 565 Inequality: Current Trends and Explanations (3) Morris** Discussion of recent growth in economic inequality in the U.S. and competing explanations for these new trends through examination of labor market demographics, industrial composition and restructuring, and the broader political context that impacts policies like minimum wage, strength of unions, and foreign trade. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with SOC 565.

**CS&SS 566 Causal Modeling (4) Richardson** Construction of causal hypotheses. Theories of causation, counterfactuals, intervention vs. passive observation. Contexts for causal inference: randomized experiments; sequential randomization; partial compliance; natural experiments, passive observation. Path diagrams, conditional independence and d-separation. Model equivalence and causal underdetermination. Prerequisite: course in statistics, SOC 504-505-506 or equivalent; recommended: CS&SS 505-506 or equivalent. Offered: jointly with STAT 566.

**CS&SS 567 Statistical Analysis of Social Networks (4) Hancock** Statistical and mathematical descriptions of social networks. Topics include graphical and matrix representations of social networks, sampling methods, statistical analysis of network data, and applications. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505; CS&SS 506. Offered: jointly with STAT 567.

**CS&SS 568 Game Theory for Social Scientists (5) Sirakaya** Studies non-cooperative game-theory and provides tools to derive appropriate statistical models from game-theoretic models of behavior. Equilibrium concepts, learning, repeated games and experimental game theory. Prerequisite: MATH 112, MATH 124, or MATH 134; STAT/ECON 311 or equivalent. Offered: jointly with ECON 568; W.

**CS&SS 569 Visualizing Data (4) Adolph** Explores techniques for visualizing social science data to complement graduate training methods. Emphasis on principles and perception of visualization, novel exploration and presentation of data and statistical models, and implementation of recommended techniques in statistics packages. Prerequisite: SOC 504,

SOC 505 and SOC 506. Recommended: CS&SS 505 and CS&SS 506.

**CS&SS 589 Multivariate Data Analysis for the Social Sciences (3, max. 6)** *Erosheva* Provides social scientists with an introduction to multivariate analysis techniques and the knowledge to carry them out. Focuses on statistical methods that explore relationships between observed variables. Topics include principal components, cluster, factor, latent class analysis. Prerequisite: SOCWL 587, 588, or equivalent. Offered: jointly with SOC WL 589; A.

**CS&SS 590 CSSS Seminar (1, max. 20)** Presentations of ongoing social science research involving cutting edge statistical methods. Credit/no credit only. Offered: AWSp.

**CS&SS 594 Special Topics in Social Science and Statistics (1-5, max. 30)** Topics vary. Prerequisite: permission of instructor. Offered: AWSp.

---

## Center for Studies in Demography and Ecology

**CSDE 501 Population Studies Seminar Series (1)** CSDE affiliates and visitors present current research projects. Credit/no credit only. Offered: AWSp.

**CSDE 502 Population Studies Proseminar (1)** Professional training in demography and population studies. Includes ethics in population research, human subjects review, proposal application and writing. DSDE faculty research specialization, and research preparation and presentation. Credit/no credit only. Offered: Asp.

**CSDE 513 Demography and Ecology (3)** *Hirschman* Theories and research on human fertility, mortality, mobility, migration, and urbanization in social/economic context. Comparative and historical materials on Europe, the United States, and the Third World. Offered: jointly with SOC 513.

**CSDE 555 Population Metrics in Global Health (4)** *Clark* Presents a conceptual framework in which to understand and assess the health of populations. Appropriate methodological tools and techniques from Demography, Epidemiology, and related disciplines are presented together in this broader context. Offered: Sp.

**CSDE 595 Special Topics in Population Studies (3)** Examination of current substantive and methodological topics in demography. Content varies according to recent developments in the field and interest of the instructor.

---

## Humanities

**HUM 200 Issues in the Humanities (1-5, max. 15) I&S/VLPA** Topics and issues of current interest in the humanities and the study of the arts. Features numerous guest lecturers from the U.W. faculty together with distinguished visiting teachers, scholars, and artists.

**HUM 204 Special Topics: Interdisciplinary Studies in the Humanities (5, max. 25) VLPA/I&S** Focuses on interdisciplinary study in the humanities through the study of human thought, values, beliefs, creativity, and culture. Team-taught faculty from diverse disciplines, topic change quarterly, discussion sections, open to undergraduates. Continuation of Danz series. Offered: AWSp.

**HUM 205 Religion, Violence, and Peace: Patterns Across Time and Tradition (5) I&S** Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with RELIG/NEAR E 205; W.

**HUM 206 American Sabor/American Flavor: Latinos Shaping U.S. Popular Music (5) VLPA/I&S** Addresses problems of cultural representation that concern an increasingly visible and influential community in the United States. Highlights the roles of U.S. Latino musicians as interpreters of Latin American genres and their roles as innovators within genres normally considered indigenous to the United States.

**HUM 208 Violence, Myth, and Memory: Southeast Asia at the Crossroads of Modernity (5) VLPA/I&S** Built around films and readings. Explores ideas of violence, narrative, and global modernity in U.S. relations with Vietnam, the Philippines, and Indonesia. Examines the ways these films evoke founding myths of Southeast Asian societies.

**HUM 210 Texts in Context (5, max. 15) I&S/VLPA** Links a single, major work from any medium, or a narrowly bounded group of closely related, smaller works, to the cultural, intellectual, and historical circumstances of its creation and interpretation. Emphasizes close-reading and careful writing.

**HUM 220 Themes in Time and Culture (5, max. 15) I&S/VLPA** Traces the articulation and development of a single overarching idea in different idioms, cultures and eras. Asks how, and if, notions that are fundamental to one era or culture find expression in other times and places. Emphasizes comparative analysis and careful writing.

**HUM 411 Applications of Digital Technologies to Humanities Research (5) VLPA** Hands-on project-based approach to imaging, new media, text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research. Offered: jointly with DXARTS 411.

**HUM 498 Special Topics in the Humanities (1-6, max. 15) I&S/VLPA** Intensive research opportunity, for work on project of independent and/or original design in the cultural disciplines. Mentored by UW and visiting faculty in the arts, humanities, and qualitative social sciences, by arrangement only. Offered: S

**HUM 520 Seminar in Textual Theory (5)** Introduction to the theoretical perspectives that have shaped the emerging interdisciplinary field of Textual Studies. Included in curriculum of Textual Studies Program.

**HUM 521 Seminar in Scribal Texts (5)** Relationship between oral and written texts and of the social and cultural systems which enable their production, transmission, and preservation. Included in curriculum of Textual Studies Program.

**HUM 522 Seminar in Printed Texts (5)** Study of printing as a means of textual transmission in the ages of the hand press, machine press, and electronic press; of current theories of editing; and of preparing critical editions of printed texts.

**HUM 523 Seminar in Hypertext and Textual Studies (5)** Several views of hypertext conceptually explored as a basis for research and evaluation of selected hypertext works. Includes initiating the construction of a World Wide Web hypertext of resources for the study of oral, graphical, hand-written, and printed texts. Included in curriculum of Textual Studies Program.

**HUM 596 Humanities Research Seminar (1-5, max. 15)** Exploration of current research in the Humanities and the study of the arts. Offered by specially selected U.W. faculty and visiting scholars in the arts and humanities.

**HUM 597 Special Topics in the Humanities (1-2, max. 10)** Offered by short-term visiting scholars at the leading edge of their fields, invited at the nomination of Humanities and Social Science faculty. Topics vary based on field of expertise. Credit no credit only.

**HUM 598 Teachers as Scholars (1, max. 10)** Small-scale seminars on selected topics in the liberal arts, designed to renew and enhance the subject matter/field knowledge of practicing K-12 educators. Offered: AWSpS.

---

## Chemistry

No more than the number of credits indicated can be counted toward graduation from the following course groups: 120, 142, 145 (5 credits); 152, 155 (5 credits); 145, 155, 160, 162 (11 credits); 162, 165 (6 credits); 165, 312 (5 credits); 220, 223, 237, 335 (5 credits); 238, 336 (4 credits); 221, 224, 239, 337 (5 credits); 241, 346 (3 credits); 242, 347 (3 credits); 355, 452 (3 credits); 452, 456 (3 credits). If a course is completed before a prerequisite is taken, credit will not later be allowed for the prerequisite course.

**CHEM 110 Introduction to General Chemistry (3) NW** Introduction to general chemistry with an emphasis on developing problem solving skills. Covers basic concepts of chemistry along with the mathematics required for quantitative problem solving. For students without high school chemistry or with limited mathematics background. Successful completion of CHEM 110 prepares students to enroll in CHEM 142. Credit/no credit only. Offered: A.

**CHEM 120 Principles of Chemistry I (5) NW, QSR** First course in a three-quarter overview of chemistry. Not for students majoring in biochemistry, chemistry, or engineering. Includes matter and energy, chemical nomenclature, chemical reactions, stoichiometry, modern atomic theory, chemical bonding. Laboratory. Only 5 credits can be counted toward graduation from the following: CHEM 120, 142, 145. Offered: AS.

**CHEM 142 General Chemistry (5) NW, QSR** For science and engineering majors. Atomic nature of matter, stoichiometry, acids and bases, chemical equilibrium, and gas laws. Includes laboratory. Recommended: high school chemistry and placement into MATH 120 or higher. No more than the number of credits indicated can be counted toward graduation from the following course groups: 142, 145 (5 credits). Cannot be taken for credit if CHEM 120 already taken. Offered: AWSpS.

**CHEM 145 Honors General Chemistry (5) NW, QSR** 145 and 155 cover material in 142, 152, and 162. Includes laboratory. Prerequisite: either MATH 124 or MATH 134, either of which may be taken concurrently; score of 66% on HCHEMC placement test, score of 4 or 5 on AP Chemistry exam, or IB score of 5, 6, or 7 on high level chemistry exam. No more than the number of credits indicated can be counted toward graduation from the following course groups: 142, 145 (5 credits); 145, 155, 162 (10 credits). Offered: A.

**CHEM 152 General Chemistry (5) NW** Energy, enthalpy and thermochemistry, spontaneity, entropy and free energy, electrochemistry, quantum mechanics and atomic theory, general concepts of bonding. Includes laboratory. Prerequisite: either 1.7 in CHEM 142 or 1.7 in CHEM 145. No more than the number of credits indicated can be counted toward graduation from the following course groups: 152, 155 (5 credits). Offered: AWSpS.

**CHEM 155 Honors General Chemistry (5) NW** Continuation of 145. Includes laboratory. Together 145 and 155 cover material in 142, 152, and 162. No more than the number of credits indicated can be counted toward graduation from the following course groups: 152, 155 (5 credits); 145, 155, 162 (10 credits). Prerequisite: 2.2 in CHEM 145. Offered: W.

**CHEM 162 General Chemistry (5) NW** Covalent bonding, chemical kinetics, liquids and solids, properties of solutions, the elements in groups 1A-4A, the elements in groups 5A-8A, transition metals and coordination chemistry, and organic chemistry. Includes laboratory. Prerequisite: 1.7 in CHEM 152. Offered: AWSpS.

**CHEM 165 Honors General Chemistry (5) NW** Introduction to systematic inorganic chemistry: representative elements, metals, and nonmetals. Includes coordination complexes, geochemistry, and metallurgy. Additional material on environmental applications of basic chemistry presented. Includes laboratory. No more than the number of credits indicated can be counted toward graduation from the following course groups: 162, 165 (5 credits); 165, 312 (5 credits). Prerequisite: 2.2 in CHEM 155. Offered: Sp.

**CHEM 197 Science Outreach Training (1-2, max. 2)** Training for participation in science-related outreach activities to the community. Emphasis on support for K-12 education and environmental community efforts. Not applicable toward chemistry degree requirements. Credit/no credit only. Offered: AWSp.

**CHEM 198 Tutorial Study (2, max. 6) NW** Credit/no credit only.

**CHEM 199 Special Problems (1-6, max. 6)** Research in chemistry. Credit/no credit only. Offered: AWSpS.

**CHEM 220 Principles of Chemistry II (5) NW, QSR** Second course in a three-quarter overview of chemistry. Not for students majoring in biochemistry, chemistry, or engineering. Includes gases/liquids/solids, solutions, acids and bases, equilibrium, oxidation-reduction, electrochemistry, organic compounds, hydrocarbons, aromaticity, stereochemistry. Prerequisite: either 1.7 in CHEM 120 or 1.7 in CHEM 142. Offered: W.

**CHEM 221 Principles of Chemistry III (5) NW, QSR** Third course in a three-quarter overview of chemistry. Not for students majoring in biochemistry, chemistry, or engineering. Includes alcohols, phenols, ethers, aldehydes, ketones, carboxylic acids, amines, and structural determination. Only 5 credits can be counted toward graduation from the following: CHEM 221, CHEM 223, CHEM 237, CHEM 335. Prerequisite: 1.7 in CHEM 220. Offered: Sp.

**CHEM 223 Organic Chemistry — Short Program (4) NW** First of a two-quarter lecture series in organic chemistry, for those who elect not to complete the CHEM 237, CHEM 238, CHEM 239 sequence. Introduction to structure, nomenclature, properties, and reactions of the main functional families of organic compounds. Stereochemistry and spectroscopy. No more than 5 credits can be counted toward graduation from the following course group: CHEM 221, CHEM 223, CHEM 237, CHEM 335. Prerequisite: either 1.7 in CHEM 155 or 1.7 in CHEM 152; recommended: CHEM 162. Offered: AS.

**CHEM 224 Organic Chemistry — Short Program (4) NW** Continuation of CHEM 223. Structure, nomenclature, properties, and reactions of aldehydes, ketones, carboxylic acid derivatives, amines, carbohydrates, lipids, amino acids, peptides, proteins, and nucleic acids. No laboratory accompanies this course, but CHEM 241 laboratory may be taken concurrently. No more than 4 credits can be counted toward graduation from the following course group: CHEM 224, CHEM 239, CHEM 337. Prerequisite: 1.7 in CHEM 223. Offered: WS.

**CHEM 237 Organic Chemistry (4) NW** First course for students planning to take three quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of the main types of organic compounds. No organic laboratory accompanies this course. No more than 5 credits can be counted toward graduation from the following course groups: CHEM 221, CHEM 223, CHEM 237, CHEM 335. Prerequisite: either 1.7 in CHEM 155 or 1.7 in CHEM 162. Offered: AWS.

**CHEM 238 Organic Chemistry (4) NW** Second course for students planning to take three quarters of organic chemistry. Further discussion of physical properties and transformations of organic molecules, especially aromatic and carbonyl compounds. No more than the number of credits indicated can be counted toward graduation from the following course groups: 238, 336 (4 credits). Prerequisite: either 1.7 in CHEM 237 or 1.7 in CHEM 335. Offered: WSp.

**CHEM 239 Organic Chemistry (3) NW** Third course for students planning to take three quarters of organic chemistry. Polyfunctional compounds and natural products, lipids, carbohydrates, amino acids, proteins, and nucleic acids. Includes introduction to membranes, enzyme mechanisms, prosthetic groups,

macromolecular conformations and supramolecular architecture. No more than 4 credits can be counted toward graduation from the following course groups: CHEM 224, CHEM 239, CHEM 337. Prerequisite: either 1.7 in CHEM 238 or 1.7 in CHEM 336. Offered: ASpS.

**CHEM 241 Organic Chemistry Laboratory (3) NW** Introduction to organic laboratory techniques. Preparation of representative compounds. Designed to be taken with 224 or 238. No more than the number of credits indicated can be counted toward graduation from the following course groups: 241, 346 (3 credits). Prerequisite: either 1.7 in CHEM 223, 1.7 in CHEM 237, or 1.7 in CHEM 335; either CHEM 224, CHEM 238 or CHEM 336, any of which may be taken concurrently. Offered: WSpS.

**CHEM 242 Organic Chemistry Laboratory (3) NW** Preparations and qualitative organic analysis. Designed to be taken with 239. No more than the number of credits indicated can be counted toward graduation from the following course groups: 242, 347 (3 credits). Prerequisite: either 1.7 in CHEM 224 or CHEM 239 which may be taken concurrently or CHEM 337 which may be taken concurrently; either 1.7 in CHEM 241 or 1.7 in CHEM 346. Offered: ASpS.

**CHEM 291 Study Abroad - Chemistry (1-15, max. 15) NW** For student in the UW study abroad program. Content varies and is individually evaluated. Credit does not apply to major degree requirements without departmental approval.

**CHEM 297 Science Outreach Participation (1-2, max. 6)** Continuation of 197. Work with K-12 schools or community organizations. May include scientific presentations, K-12 curriculum support, or involvement in a community project. Not applicable toward chemistry degree requirements. Credit/no credit only. Prerequisite: CHEM 197. Offered: AWSp.

**CHEM 299 Special Problems and Report Writing (1-6, max. 6)** Research in chemistry and/or study in the chemical literature. Requires writing a scientific report. Credit/no credit only. Offered: AWSpS.

**CHEM 312 Inorganic Chemistry (3) NW** The periodic table: chemistry of representative and transition elements. Aqueous chemistry, solid state chemistry, and everyday aspects of inorganic chemistry emphasized. Not intended for students who have completed 165. No more than the number of credits indicated can be counted toward graduation from the following course groups: 165, 312 (5 credits). Prerequisite: either CHEM 155 or CHEM 162; either CHEM 224, CHEM 238, or CHEM 336. Offered: AWS.

**CHEM 317 Inorganic Chemistry Laboratory (4) NW** Experimental exploration of the periodic table. Techniques of preparation and characterization of inorganic compounds. Handling of air-sensitive materials and gases. Prerequisite: either CHEM 165 or CHEM 312; either CHEM 242 or CHEM 347. Offered: WSp.

**CHEM 321 Quantitative Analysis (5) NW** Introduction to chemical analysis, including gravimetric, volumetric, spectrophotometric, and potentiometric analyses. Laboratory computer use included. Prerequisite: either CHEM 155 or CHEM 162. Offered: AWS.

**CHEM 335 Honors Organic Chemistry (4) NW** For chemistry majors and otherwise qualified

students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. No organic laboratory accompanies this course. No more than 5 credits can be counted toward graduation from the following course groups: 221, 223, 237, 335. Prerequisite: either CHEM 155 or CHEM 162. Offered: A.

**CHEM 336 Honors Organic Chemistry (4) NW** For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. No more than 4 credits can be counted toward graduation from the following course groups: CHEM 238, CHEM 336. Prerequisite: 2.2 in CHEM 335. Offered: W.

**CHEM 337 Honors Organic Chemistry (4) NW** For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. Includes introduction to membranes, enzyme mechanisms, prosthetic groups, macromolecular conformations, and supramolecular architecture. No more than 4 credits can be counted toward graduation from the following course groups: CHEM 239, CHEM 337. Prerequisite: 2.2 in CHEM 336. Offered: Sp.

**CHEM 346 Organic Chemistry Honors Laboratory (3) NW** To accompany 336. No more than the number of credits indicated can be counted toward graduation from the following course groups: 241, 346 (3 credits). Prerequisite: 1.7 in CHEM 335; CHEM 336 which may be taken concurrently. Offered: W.

**CHEM 347 Organic and Qualitative Organic Honors Laboratory (3) NW** Continuation of 346. To accompany 337. No more than the number of credits indicated can be counted toward graduation from the following course groups: 242, 347 (3 credits). Prerequisite: CHEM 337 which may be taken concurrently; 2.2 in CHEM 346. Offered: Sp.

**CHEM 397 Science Outreach Mentors (1-2, max. 6)** Mentoring of beginning outreach participants. Includes presentations for 197, training of outreach students, and evaluation of outreach activities. Not applicable toward chemistry degree requirements. Credit/no credit only. Prerequisite: CHEM 197. Offered: AWSp.

**CHEM 399 Undergraduate Research (\*, max. 12)** Research in chemistry. Credit/no credit only. Offered: AWSpS.

**CHEM 410 Radiochemistry Laboratory (2) NW** Introductory general service course for students planning further work in nuclear or tracer applications. Safety procedures, detection and measurement of nuclear radiation, radiochemical and tracer techniques. Prerequisite: either 1.7 in CHEM 155 or 1.7 in CHEM 162; recommended: CHEM 418. Offered: alternate years.

**CHEM 415 The Chemical Bond (3) NW** Nature of the chemical bond. Simple bonding theories, molecular orbital methods, symmetry, and group theory. Includes weekly computer exercises in which students perform ab initio calculations. Prerequisite: either CHEM 453, CHEM 455, or CHEM 475. Offered: alternate years.

**CHEM 416 Transition Metals (3) NW** Survey of selected key topics in the chemistry of the transition metals, including emphasis on the structure, bonding, and reactivity of major classes of compounds. Prerequisite: either CHEM 165 or CHEM 312; either CHEM 453, CHEM 455, or CHEM 475, which may be taken concurrently. Offered: A.

**CHEM 417 Organometallic Chemistry (3) NW** Chemistry of the metal-carbon bond for both main group and transition metals. Structure and reactivity with applications to organic synthesis and catalysis. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; CHEM 416. Offered: W.

**CHEM 418 Nuclear Chemistry (3) NW** Natural radioactivity, nuclear systematics and reactions, radioactive decay processes, stellar nucleosynthesis, applications of radioactivity. Prerequisite: either CHEM 453, CHEM 455, or CHEM 475. Offered: alternate years.

**CHEM 419 Bioinorganic Chemistry (3) NW** Description of transition metal-containing systems found in biology. Structural and electronic properties and reactivity of metalloproteins, metalloenzymes, and metal cofactors. Methods used to probe and model metal sites by spectroscopic and synthetic techniques. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; CHEM 416. Offered: Sp, even years.

**CHEM 426 Instrumental Analysis (3) NW** Introduction to modern instrumental methods of chemical analysis, including chromatography, optical and mass spectroscopy, electrochemistry and flow injection analysis. Basic concepts of transducers, spectrometers, mass analysis, separation sciences, and computerized data acquisition and reduction. Includes laboratory. Prerequisite: CHEM 321. Offered: W.

**CHEM 428 Bioinstrumental Analysis (3) NW** Modern instrumental methods of bioanalysis of DNA and proteins, including agarose gel electrophoresis, PCR, Sanger sequencing for nucleic acid analysis and ELISA, SDS-PAGE, and LC/MS-MS analysis of proteins. Mass analysis, separation sciences, and bioinformatics tools. Includes laboratory. No credit allowed if BIOC 426 taken. Prerequisite: CHEM 239; either CHEM 317, CHEM 321, CHEM 461 or BIOC 440. Offered: Sp.

**CHEM 429 Chemical Separation Techniques (3) NW** Introduction to modern separation techniques such as gas chromatography, high-performance liquid chromatography, electrophoresis, and field flow fractionation. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; either CHEM 241, CHEM 321, or CHEM 346. Offered: Sp.

**CHEM 433 Theoretical Organic Chemistry — Predictions and Experimental Tests (3) NW** Molecular orbital theory in organic chemistry. Woodward-Hoffmann rules, aromaticity, concerted reactions, photochemical transformations, and reactions of electron-deficient species. Prerequisite: either CHEM 239 or CHEM 337. Offered: alternate years.

**CHEM 436 Molecular Enzymology (3) NW** Enzyme structure, function, chemistry and inhibition, including modes of biological catalysis, stereochemistry, enzyme characterization and kinetics, and design and principles of enzyme inhibitors. Also major classes of natural

products, their chemistry, biological activity, biosynthesis, physiological role, and ecological significance. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; recommended: either BIOC 405 or BIOC 440. Offered: alternate years; Sp.

**CHEM 452 Physical Chemistry for Biochemists I (3) NW** General equilibrium thermodynamics emphasizing biochemical applications: ligand binding, biological oxidation-reduction reactions, membranes, active transport, colligative properties, and surface tension. No more than the number of credits indicated can be counted toward graduation from the following course groups: 355, 452 (4 credits); 452, 456 (3 credits). Prerequisite: either CHEM 155 or CHEM 162; either MATH 125 or MATH 134; either PHYS 115 or PHYS 122. Offered: AWS.

**CHEM 453 Physical Chemistry for Biochemists II (3) NW** Continuation of 452. Includes transport properties, enzyme kinetics, introduction to quantum mechanics, spectroscopy, and classical statistical mechanics. Prerequisite: either CHEM 452 or CHEM 456; either MATH 126 or MATH 135; either PHYS 116 or PHYS 123. Recommended: MATH 307; MATH 308. Offered: WSp.

**CHEM 455 Physical Chemistry (3) NW** Introduction to quantum chemistry and spectroscopy. Theory of quantum mechanics presented at an elementary level and applied to the electronic structure of atoms and molecules and to molecular spectra. Prerequisite: either CHEM 155 or CHEM 162; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123; recommended: MATH 307; MATH 308. Offered: ASp.

**CHEM 456 Physical Chemistry (3) NW** Chemical thermodynamics. Laws of thermodynamics presented with applications to phase equilibria, chemical equilibria, and solutions. No more than the number of credits indicated can be counted toward graduation from the following course groups: 452, 456 (3 credits). Prerequisite: either CHEM 155 or CHEM 162; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123; recommended: MATH 307. Offered: WS.

**CHEM 457 Physical Chemistry (3) NW** Introduction to statistical mechanics, kinetic theory, and chemical kinetics. Prerequisite: either CHEM 455 or CHEM 475; either CHEM E 326 which may be taken concurrently, CHEM 456 or CHEM 476. Offered: Sp.

**CHEM 458 Global Atmospheric Chemistry (4) NW** Global atmosphere as chemical system. Physical factors and chemical processes. Natural variabilities and anthropogenic change. Cycling of trace substances. Global issues such as climate change, acidic deposition, influences on biosphere. Prerequisite: either ATM S 358 or CHEM 456. Offered: jointly with ATM S 458.

**CHEM 460 Spectroscopic Molecular Identification (3) NW** Basic theory of spectral techniques-infrared and ultraviolet/visible spectroscopy, NMR, and mass spectrometry-with emphasis on spectral interpretation skills needed for the elucidation of structure, conformation, and dynamics in organic and biological chemistry. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; recommended: either CHEM 455 or CHEM 475. Offered: A.

**CHEM 461 Physical Chemistry Laboratory (3) NW** Physical measurements in chemistry.

Vacuum techniques, calorimetry, spectroscopic methods, electrical measurements. Prerequisite: either CHEM 453, or both CHEM 455 and CHEM 456, or both CHEM 456 and CHEM 475; recommended CHEM 457. Offered: A/SpS.

**CHEM 462 Techniques of Synthetic Organic Chemistry (2-3) NW** Laboratory techniques of synthetic organic chemistry. Vacuum distillation, multistep synthesis, air sensitive reagents, photochemistry, chromatography, and separation techniques. Prerequisite: either CHEM 242 or CHEM 347; CHEM 460 which may be taken concurrently. Offered: A.

**CHEM 463 Spectroscopic Techniques for Structural Identification (2) NW** Laboratory techniques of spectroscopic analysis for structural determination using UV, IR, NMR, mass spectroscopy. Prerequisite: CHEM 460. Offered: W.

**CHEM 464 Computers in Data Acquisition and Analysis (3) NW** Introduction to use of the computer in the chemistry laboratory. Principles of microcomputers and their use for such problems as data acquisition, noise reduction, and instrument control. Prerequisite: either CHEM 453, CHEM 455, or CHEM 475; MATH 136, or both MATH 307 and MATH 308. Offered: Sp.

**CHEM 465 Computations in Chemistry (3) NW** Computer calculations on color graphics workstations applied to problems in chemistry. Numerical methods and algorithms for calculating classical dynamics, quantum wavefunctions, wavepacket propagation, chemical kinetics. Use of computer programs for calculating electronic wavefunctions, molecular conformations, simulations of liquids and solids. Prerequisite: either CHEM 455 or CHEM 475, either of which may be taken concurrently. Offered: W.

**CHEM 475 Honors Physical Chemistry (3) NW** Introduction to quantum chemistry, spectroscopy. Theory of quantum mechanics applied more rigorously than in CHEM 455. Application of quantum mechanics to electronic structure of atoms and molecules. Computer software used to solve problems. Prerequisite: either CHEM 155 or CHEM 162; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123; recommended: MATH 307; MATH 308. Offered: A.

**CHEM 484 Materials Chemistry (3) NW** Overview of basic principles, techniques, and applications associated with solid materials. Topics include description of crystals, examples of crystal structures, structural analysis, band structures of solid materials, preparation of materials, materials for microelectronics, and materials for information technology. Prerequisite: CHEM 453 or CHEM 455. Offered: jointly with MSE 484; A.

**CHEM 491 Study Abroad ? Advanced Chemistry (1-15, max. 15) NW** For students in the UW study abroad program. Content varies and is individually evaluated. Credit does not apply to major degree requirements without departmental approval.

**CHEM 498 Teaching Chemistry (3) NW** Training in teaching chemistry laboratory and quiz sections. For chemistry and biochemistry majors, especially those planning graduate work or secondary education. Covers teaching strategies, student diversity, learning styles, grading, and interaction with students and faculty. Credit/no credit only. Offered: A.

**CHEM 499 Undergraduate Research and Report Writing (\*, max. 12)** Research in chemistry and/or study in the chemical literature. Credit/no credit only. Offered: A/W/SpS.

**CHEM 501 Readings in Chemistry (1, max. 9)** Individual meetings with faculty to discuss readings (journal articles, book chapters, proceedings) in the chemical sciences. Credit/no credit only. Offered: A/W/SpS.

**CHEM 502 Practical NMR Methods for Biological and Organic Structure Elucidation (4)** Theory of NMR (rotating frame formalism, multi-pulse experiments, relaxation phenomena, 2D experiments) as applied to structural and dynamic problems in organic and biological chemistry. Provides basis for experiment selection and spectrum interpretation. A more advanced treatment of NMR than 460. Prerequisite: CHEM 224, CHEM 239, or CHEM 337; recommended: CHEM 460 or equivalent, CHEM 435 or CHEM 455. Offered: W.

**CHEM 508 Advanced Inorganic Chemistry (3, max. 9)** Discussion of selected applications of physical techniques to the study of inorganic molecules. Topics include group theory, magnetic resonance spectroscopy (NMR and ESR), vibrational spectroscopy (IR and Raman), electronic spectroscopy, magnetism, and electrochemistry. Offered: A.

**CHEM 510 Current Problems in Inorganic Chemistry (3, max. 9)** Primarily for doctoral candidates in inorganic chemistry. Current topics (e.g., bioinorganic, advanced organometallic, materials and solid state, advanced inorganic spectroscopy). See department for instructor and topics during any particular quarter. Offered: Sp.

**CHEM 520 Current Problems in Analytical Chemistry (3, max. 9)** Primarily for doctoral candidates in analytical chemistry. Current topics (e.g., flow injection analysis, mass spectrometry, and advanced radiochemistry). See department for instructor and topics during any particular quarter. Offered: A/W/Sp.

**CHEM 522 Atomic and Molecular Analytical Spectroscopy (3)** Quantitative analysis of atomic and molecular species, using all forms of electromagnetic radiation, electrons, and gaseous ions. Offered: alternate years.

**CHEM 530 Advanced Organic Chemistry (3)** Fundamental aspects of organic structures and transformations. Structure and basicity of carbanions, substitution reactions, elimination reactions, nucleophilic addition and addition/elimination reactions, condensation reactions, structure and rearrangements of carbocations, electrophilic addition, electrophilic substitutions, neighboring group effects. Prerequisite: CHEM 337. Offered: A.

**CHEM 531 Advanced Organic Chemistry (3)** Synthetic organic chemistry. Discussion of practical methods for the synthesis of complex organic molecules with an emphasis on strategy and the control of stereochemistry. Prerequisite: CHEM 530. Offered: W.

**CHEM 532 Advanced Organic Chemistry (3)** Chemical Biology. Application of chemical methods to the study of biological processes that occur in cells. Prerequisite: CHEM 530 and CHEM 531. Offered: Sp.

**CHEM 540 Current Problems in Organic Chemistry (1-3, max. 12)** Primarily for doctoral candidates in organic chemistry. Discussions of topics of current interest and importance. See department for instructor and topic during any particular quarter.

**CHEM 550 Introduction to Quantum Chemistry (3)** Origins and basic postulates of quantum mechanics, solutions to single-particle problems, angular momentum and hydrogenic wave functions, matrix methods, perturbation theory, variational methods. Prerequisite: CHEM 455. Offered: A.

**CHEM 551 Introduction to Quantum Chemistry (3)** Electronic structure of many-electron atoms and molecules, vibration and rotation levels of molecules, effects of particle exchange, angular momentum and group theory, spectroscopic selection rules. Prerequisite: CHEM 550. Offered: W.

**CHEM 552 Statistical Mechanics (3)** General theorems of statistical mechanics, relation of the equilibrium theory to classical thermodynamics, quantum statistics, theory of imperfect gases, lattice statistics and simple cooperative phenomena, lattice dynamics and theory of solids, liquids, solutions, and polymers, time-dependent phenomena and mechanisms of interaction. Prerequisite: CHEM 455 and CHEM 456 (concurrent registration permitted) or equivalent. Offered: W.

**CHEM 553 Statistical Mechanics (3)** General theorems of statistical mechanics, relation of the equilibrium theory to classical thermodynamics, quantum statistics, theory of imperfect gases, lattice statistics and simple cooperative phenomena, lattice dynamics and theory of solids, liquids, solutions, and polymers, time-dependent phenomena and mechanisms of interaction. Prerequisite: CHEM 552. Offered: Sp.

**CHEM 560 Current Problems in Physical Chemistry (1-3, max. 12)** Primarily for doctoral candidates in physical chemistry. A discussion of topics selected from active research fields. See department for instructor and the topic during any particular quarter.

**CHEM 564 Organic Electronic and Photonic Materials/Polymers (3)** Physical and material concepts determining properties of organic electronic and photonic materials. Discusses electronic structure, physico-chemical characterization, and device application. Includes introduction of electronic band structure of polymers, electrically conducting polymers; organic nonlinear optical electroluminescent materials; polymer optical fibers; tow-photon absorption materials for 3-D microfabrication. Offered: jointly with MSE 560.

**CHEM 575 Molecular Modeling Methods (4)** Introduction to theory and practice of computer simulation studies of molecules with emphasis on applications to biological molecules and complexes. Discussion of background theory, implementation details, capabilities and practical limitations of these methods. Prerequisite: previous coursework in biochemistry and physical chemistry and/or permission of instructor. Offered: jointly with BIOEN 575; A.

**CHEM 581 Preparation for Second-Year Exam (3, max. 9)** Preparation for examination. Open only to students accepted for doctoral work in chemistry, in their second year of study. Credit/no credit only. Offered: A/W/Sp.

**CHEM 590 Seminar in General Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 591 Seminar in Inorganic Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 592 Seminar in Analytical Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 593 Seminar in Organic Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 595 Seminar in Physical Chemistry (1, max. 18)** For chemistry graduate students only. Credit/no credit only. Offered: AWSp.

**CHEM 597 Nanotechnology Seminar (1, max. 18)** Emphasizes frontier research in nanoscience and nanotechnology and on intellectual interactions within the nanotechnology community. Presented by experts in the field, with most being from other institutions. Prerequisite: graduate standing and permission of instructor. Credit/No Credit only. Offered: jointly with BIOEN 518; AWSp.

**CHEM 600 Independent Study or Research (\*)** Prerequisite: permission of coordinator. Offered: AWSpS.

**CHEM 700 Master's Thesis (\*)** Prerequisite: permission of coordinator. Offered: AWSpS.

**CHEM 800 Doctoral Dissertation (\*)** Prerequisite: permission of coordinator. Offered: AWSpS.

---

## Classics

### Classical Archaeology

**CL AR 340 Pre-Classical Art and Archaeology (3) VLPA** Survey of the art and the other material remains of the civilizations in the Aegean from the Neolithic Age to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece, illustrated by slides. The history, techniques, and results of significant excavations are examined. Offered: jointly with ART H 340.

**CL AR 341 Greek Art and Archaeology (3) VLPA Bliquez** Survey of the material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the geometric to the Hellenistic periods, illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct the material culture of antiquity. Offered: jointly with ART H 341.

**CL AR 342 Roman Art and Archaeology (3) VLPA Harmon** Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with ART H 342.

**CL AR 343 Hellenistic Art and Archaeology (3) VLPA** Survey of the art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting,

mosaics, and minor arts examined in lectures illustrated with slides. Offered: jointly with ART H 343.

**CL AR 442 Greek Painting (3) VLPA** Study of painted decoration on Greek vases, with emphasis on stylistic developments and cultural and historical influences. Painting on other media also examined as evidence allows. Offered: jointly with ART H 442.

**CL AR 443 Roman Painting (3) VLPA** Study of surviving painting from the Roman World, with emphasis on wall paintings from Pompeii and Herculaneum. Principal topics for discussion: the four styles of Pompeian painting the dependence of Roman painters on Greek prototypes, and the significance of various kinds of painting as domestic decoration. Offered: jointly with ART H 443.

**CL AR 444 Greek and Roman Sculpture (3) VLPA** History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC. Offered: jointly with ART H 444.

**CL AR 446 Greek Architecture (3) VLPA** Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with ARCH 454/ART H 446.

**CL AR 447 The Archaeology of Early Italy (3) VLPA Harmon** Study of the principal archaeological sites of early Italy, including Etruria, Sicily, southern Italy, and archaic Rome up to the Republican period. Attention given to the material remains and their relationship to the Etruscan, ancient Sicilian, and early Roman civilizations. Offered: jointly with ART H 447.

**CL AR 448 The Archaeology of Italy (3) VLPA Harmon** Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with ART H 448.

**CL AR 513 Athenian Topography (5)** Detailed consideration of the topography and monuments of ancient Athens from the beginning through the Roman period.

**CL AR 541 Seminar in Greek and Roman Art (3)** In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with ART H 541.

### Classical Linguistics

**CL LI 501 Comparative Phonology of Greek and Latin (5) Harmon, Levaniouk** Phonological developments of Greek and Latin from Indo-European to the classical periods of both languages.

**CL LI 503 History of the Greek Language (5) Levaniouk** Morphological and syntactical development of the Greek language from Homer through the New Testament; the development of prose and poetic style.

**CL LI 505 History of the Latin Language (5) Harmon, Levaniouk** Morphological and syntactical

development of the Latin language; the development of Latin as a literary language.

**CL LI 506 Italic Dialects (5) Harmon, Levaniouk** Principal remains of the non-Latin languages and dialects of ancient Italy.

**CL LI 508 Greek Dialects (5) Levaniouk** The non-Attic dialects of ancient Greek, based on a study of inscriptions and the literary remains.

## Classics

Upper-division classics courses in English (300 and 400 level) in the Department of Classics do not generally have prerequisites. Most 400-level courses deal with a single genre of literature or with a limited area of classical studies. The 300-level courses deal with broader subjects at a relatively advanced level. Both are primarily for juniors and seniors, but they are open to freshmen and sophomores with an interest or background in the subject of the course.

**CLAS 101 Latin and Greek in Current Use (2) VLPA** Designed to improve and increase English vocabulary through a study of the Latin and Greek elements in English, with emphasis on words in current literary and scientific use. No auditors. Knowledge of Latin or Greek is not required. Offered: AWSpS.

**CLAS 102 Grammar and Syntax through Latin (3) VLPA** Improve familiarity with basic grammar, syntax, logic through study of mechanics of the Latin language. For Educational Opportunity Program students only. No auditors. Knowledge of Latin or Greek not required.

**CLAS 122 Gateway to the Ancient Greco-Roman World (5) VLPA** Introduces students to aspects of Ancient Greek and/or Roman literature and culture. Develop understanding of the nature and process of critical thinking and basic research techniques.

**CLAS 205 Bioscientific Vocabulary Building From Latin and Greek (3) VLPA** Designed to help the student master the scientific vocabulary of his or her particular field by a study of the Latin and Greek roots that are used to create the majority of scientific terms. No auditors. Knowledge of Latin or Greek is not required. Offered: AWSpS.

**CLAS 210 Greek and Roman Classics in English (5) VLPA Bliquez, Blondell, Claus, Connors, Gowing, Harmon, Hinds, Kamen, Levaniouk, Power, Stroup** Introduction to classical literature through a study of the major Greek and Latin authors in modern translation. Offered: AWSp.

**CLAS 320 Greek and Roman Private and Public Life (5) I&S/VLPA Bliquez** Study of the civic and social practices and institutions of everyday Greek and Roman private and public life, including the family, social classes, the courts and legal systems, military service and war, technology and the trades, money and banking, agriculture and rural life. Many lectures illustrated by slides. Offered: A.

**CLAS 322 Intellectual History of Classical Greece (5) I&S/VLPA Blondell** Uses Plato's *Republic* as a core text to explore a range of issues of ancient and contemporary interest, such as justice, political theory, male attitudes toward women, and the nature of the soul. Besides the *Republic* and other works of Plato,

readings are taken from Homer, tragedy, comedy, Aristotle, and others. Offered: Sp.

**CLAS 324 Greek and Roman Athletics (3) I&S**  
Greek and Roman athletic festivals and events, and the place of athletes and sport in ancient society.

**CLAS 326 Women in Antiquity (3) I&S/VLPA**  
*Connors, Levaniouk* A broad survey of primary sources in medicine, law, philosophy, religious ritual, myth, history, and ethnography, informed by perspectives from literature, art, and archaeology. Provides students the tools to analyze the social roles of women in ancient Greece and Rome.

**CLAS 328 Sex, Gender, and Representation in Greek and Roman Literature (3) I&S/VLPA**  
*Hinds, Stroup* Affirmation and inversion of gender roles in Greek and Roman literature, myths of male and female heroism; marginalization of female consciousness; interaction of gender, status, and sexual preference in love poetry. Readings from epic, drama, historiography, romance, and lyric.

**CLAS 330 The Age of Augustus (5) I&S/VLPA**  
*Gowing* Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14). Includes readings in Augustan authors such as Vergil, Ovid, and Horace as well as the study of Augustan art and architecture. Offered: jointly with HSTAM 330.

**CLAS 399 Study Abroad: Classics (3-15, max. 20) VLPA** For participants in Classics overseas study programs. Specific course content determined by assigned faculty member. Credit not applicable to majors in the Classics Department without approval.

**CLAS 401 Undergraduate Seminar in Classics (3-5) VLPA** Seminar on a broadly defined topic in classics. Includes reading in Latin or Greek as appropriate for individual students. Additional readings of works in English translation and works of scholarship chosen to give undergraduate majors familiarity with research methods and perspective on the discipline.

**CLAS 424 The Epic Tradition (5) VLPA** *Clauss, Levaniouk* Ancient and medieval epic and heroic poetry of Europe in English: the *Iliad*, *Odyssey*, and *Aeneid*; the *Roland* or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies according to instructor's preference. Offered: jointly with C LIT 424.

**CLAS 427 Greek and Roman Tragedy in English (5) VLPA** *Stroup* Study of the development of Greek and Roman tragedy, with extensive readings in representative plays of Aeschylus, Sophocles, Euripides, and Seneca.

**CLAS 428 Greek and Roman Comedy in English (3) VLPA** *Stroup* Readings from the comedies of Aristophanes, Plautus, and Terence.

**CLAS 430 Greek and Roman Mythology (3/5) VLPA** Principal myths found in classical and later literature. Offered: A/WSp.

**CLAS 432 Classical Mythology in Film (3/5) VLPA** *Clauss* Comparison and discussion of classical myths and modern films inspired by them. Promotes access to the reading of classical mythology. Analyzes significant

differences between ancient literary and modern cinematographic representations of the myth.

**CLAS 435 The Ancient Novel (3) VLPA** *Connors* Reading and discussion of the principal Greek and Roman novels, the earliest European prose fiction, with attention to earlier literature and to imperial culture.

**CLAS 445 Greek and Roman Religion (3) I&S/VLPA** *Harmon, Hollmann, Levaniouk* Religion in the social life of the Greeks and Romans, with emphasis placed on their public rituals and festivals. Attention is given to the priesthoods, personal piety, rituals of purification and healing, and the conflict of religions in the early Roman Empire. Many lectures illustrated by slides. Recommended: RELIG 201. Offered: jointly with RELIG 445.

**CLAS 495 Senior Essay (1-3, max. 4) VLPA** Usually written in conjunction with another course in the final year of study in the major.

**CLAS 496 Special Topics (2-5, max. 15) VLPA** Offered occasionally by visitors or resident faculty.

**CLAS 520 Seminar (5, max. 45)** Advanced comparative work on Greek and Latin materials studied in both original languages.

**CLAS 525 Proseminar (5)** Introduces graduate students to the chief subfields, together with their various methodologies and resources, of the broad discipline of classical studies.

**CLAS 540 Topics in Greek and Latin Literary History (5, max. 25)** Reading of a range of Greek and Latin texts by various authors.

**CLAS 700 Master's Thesis (\*)**

**CLAS 800 Doctoral Dissertation (\*)**

## Greek

**GREEK 101 Elementary Greek (5)** An intensive study of grammar, with reading and writing of simple Attic prose. Offered: A.

**GREEK 102 Elementary Greek (5)** An intensive study of grammar, with reading and writing of simple Attic prose. Prerequisite: GREEK 101. Offered: W.

**GREEK 103 Elementary Greek (5)** Reading of selections from classical Greek literature. Prerequisite: GREEK 102. Offered: Sp.

**GREEK 300 Greek Language, Accelerated (5)** Intensive introduction to Attic Greek. Not accepted as upper-division credit toward a major in Greek or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if GREEK 101 already taken. Offered: W.

**GREEK 301 Greek Language, Accelerated (5)** Intensive introduction to Attic Greek. Not accepted as upper-division credit toward a major in Greek or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if GREEK 101 already taken. Prerequisite: GREEK 300. Offered: Sp.

**GREEK 305 Attic Prose (5) VLPA** Translation of selections from Attic prose; elementary exercises in Attic prose composition. Recommended: GREEK 103, GREEK 301, or equivalent.

**GREEK 306 Attic Prose (5) VLPA** Translation of selections from Attic prose; elementary exercises in Attic prose composition. Prerequisite: GREEK 305.

**GREEK 307 Homer (5) VLPA** Translation of selections from the *Iliad* or the *Odyssey*; Attic prose composition, metrics. Prerequisite: GREEK 306. Offered: Sp.

**GREEK 308 Introduction to Koine Greek Texts (3) VLPA** *Williams* Reading and discussion of selected religious and philosophical texts from Koine Greek.

**GREEK 413 The Pre-Socratic Philosophers (3) VLPA** *Blondell* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 414 Plato (3) VLPA** *Blondell* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 415 Aristotle (3) VLPA** *Blondell* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 422 Herodotus and the Persian Wars (3) VLPA** *Bliquez, Hollmann, Kamen, Levaniouk* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 424 Thucydides and the Peloponnesian War (3) VLPA** *Bliquez, Kamen* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 426 Attic Orators (3) VLPA** *Bliquez, Kamen* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 428 Imperial Greek Literature (3-5, max. 15) VLPA** *Clauss, Gowing, Hollmann* Readings in imperial Greek prose and poetry from the first century CE onward, including Dio Chrysostom, Appian, Plutarch, Aelius Aristides, Lucian, Athenaeus, and New Testament Koine. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 442 Greek Drama (3) VLPA** *Blondell, Levaniouk* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 443 Greek Drama (3) VLPA** *Blondell, Levaniouk* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 444 Greek Drama (3) VLPA** *Blondell, Levaniouk* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 449 Greek Epic (3) VLPA** *Levaniouk* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 451 Lyric Poetry (3) VLPA** *Blondell, Levaniouk* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 453 Pindar: The Epinician Odes (3)**  
**VLPA** *Levaniouk* Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 461 Early Greek Literature (3-5, max. 15)** **VLPA** Readings and discussion of selected authors of the early Greek period. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 462 Literature of Classical Athens (3-5, max. 15)** **VLPA** Readings and discussion of selected authors of classical Athens. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 463 Hellenistic Greek Literature (3-5, max. 15)** **VLPA** *Clauss* Readings and discussion of selected authors of the Hellenistic Age. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 490 Supervised Study (\*, max. 18)**  
Special work in literary and philosophical texts for graduates and undergraduates. Recommended: minimum of two years of ancient Greek language study at college level (or equivalent).

**GREEK 500 Grammar and Composition (5)**  
*Bliquez, Blondell* Translation of passages from English to Greek for the purpose of acquiring advanced knowledge of the grammar and the style of the classical tongue.

**GREEK 501 Homer (5)** *Levaniouk* Readings from the *Iliad* or the *Odyssey*.

**GREEK 503 Aristophanes (5)** *Bliquez* Select comedies.

**GREEK 504 Plato (5)** *Blondell* The Republic or other dialogues.

**GREEK 506 Aristotle (5)** *Blondell* .

**GREEK 508 Lysias and Demosthenes (5)**  
*Bliquez, Kamen* Select speeches, oratorical theory, historical questions.

**GREEK 510 Greek Historians (5, max. 10)**  
*Bliquez, Hollmann* .

**GREEK 512 Greek Tragedy (5, max. 10)**  
Aeschylus, Sophocles, and/or Euripides.

**GREEK 515 Greek Epigraphy (5)** *Kamen*  
Selected inscriptions from various Greek states and sanctuaries and evidence they provide for religious and social practices, literature, and political history. Classification and editing of inscriptions, and epigraphical techniques.

**GREEK 520 Seminar (5, max. 45)**

**GREEK 540 Topics in Greek Literary History (5, max. 25)** Reading of a range of Greek texts by various authors.

**GREEK 590 Supervised Study (\*, max. 18)**  
Prerequisite: permission of graduate program coordinator.

**GREEK 600 Independent Study or Research (\*)**

## Latin

**LATIN 101 Elementary Latin (5)** An intensive study of grammar, with reading and writing of simple Latin prose. Offered: A.

**LATIN 102 Elementary Latin (5)** An intensive study of grammar, with reading and writing of simple Latin prose. Prerequisite: LATIN 101. Offered: W.

**LATIN 103 Elementary Latin (5)** Reading of selections from classical Latin literature. Prerequisite: LATIN 102. Offered: Sp.

**LATIN 300 Latin Language, Accelerated (5)**  
Intensive introduction to classical Latin. Not accepted as upper-division credit toward a major in Latin or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if LATIN 101 already taken. Offered: W.

**LATIN 301 Latin Language, Accelerated (5)**  
Intensive introduction to classical Latin. Not accepted as upper-division credit toward a major in Latin or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if LATIN 101 already taken. Prerequisite: LATIN 300. Offered: Sp.

**LATIN 305 Introduction to Latin Literature (5)**  
**VLPA** Readings in prose and poetry from various Latin authors; elementary exercises in Latin prose composition. Recommended: LATIN 103, LATIN 301, or equivalent. Offered: A.

**LATIN 306 Cicero and Ovid (5)** **VLPA** Readings from the orations of Cicero and the poetry of Ovid; elementary exercises in Latin prose composition. Prerequisite: LATIN 305. Offered: W.

**LATIN 307 Vergil (5)** **VLPA** Selections from the first six books of the *Aeneid*; elementary exercises in Latin prose composition or metrics. Prerequisite: LATIN 306. Offered: Sp.

**LATIN 401 Medieval Latin Literature to 1200 (3)** **VLPA** *Hinds* Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or renaissance Latin texts in their research. Recommended: LATIN 306. .

**LATIN 402 Later Medieval and Renaissance Latin Literature (3)** **VLPA** *Hinds* Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or renaissance Latin texts in their research. Recommended: LATIN 306.

Recommended background for the following 400-level Latin courses is four years of high-school Latin, LATIN 307, or permission of instructor.

**LATIN 412 Lucretius (3)** **VLPA** *Blondell, Clauss* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 414 Seneca (3)** **VLPA** *Blondell, Stroup* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 422 Livy (3)** **VLPA** *Clauss, Gowing* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 423 Cicero and Sallust (3)** **VLPA** *Clauss, Gowing, Stroup* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 424 Tacitus (3)** **VLPA** *Clauss, Gowing* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 447 Roman Lyric (3)** **VLPA** *Clauss, Harmon* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 449 Roman Elegy (3)** **VLPA** *Harmon, Hinds* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 451 Roman Satire (3)** **VLPA** *Connors, Stroup* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 457 Roman Drama (3)** **VLPA** *Connors* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 458 Roman Epic (3)** **VLPA** *Clauss, Connors, Harmon, Hinds* Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 461 Latin Literature of the Republic (3-5, max. 15)** **VLPA** Readings and discussion of selected authors from the era of the Roman Republic. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 462 Latin Literature of the Augustan Age (3-5, max. 15)** **VLPA** Readings and discussion of selected authors from the Augustan era. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 463 Latin Literature of the Empire (3-5, max. 15)** **VLPA** Readings and discussion of selected authors from the Roman Empire. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 465 Roman Topography and Monuments (5, max. 10)** **VLPA** *Clauss, Gowing, Harmon, Stroup* Study of the material remains of ancient Rome from the archaic period through the imperial age. Reading of source materials and inscriptions in Latin. Conducted in Rome. Recommended: minimum of two years of Latin language study at college level (or equivalent). Offered: Sp.

**LATIN 490 Supervised Study (\*, max. 18)**  
Special work in literary and philosophical texts for graduates and undergraduates. Recommended: minimum of two years of Latin language study at college level (or equivalent).

**LATIN 500 Grammar and Composition (5)**  
*Clauss, Gowing, Hinds, Stroup* Translation of passages from English to Latin for the purpose of acquiring advanced knowledge of the grammar and style of the classical tongue.

**LATIN 501 Vergil (5)** *Clauss, Harmon, Hinds*

**LATIN 502 Horace (5)** *Clauss, Harmon*

**LATIN 503 Plautus and Terence: Early Republican Literature (5)** *Blondell, Connors, Stroup*

**LATIN 504 Philosophy at Rome (5)** *Blondell, Stroup* Selected philosophical works of Cicero and other sources for Hellenistic and Roman philosophy.

**LATIN 506 Cicero (5)** *Gowing, Stroup* Select speeches, with attention to rhetorical theory and/or letters.

**LATIN 508 Silver Latin Literature (5)** *Connors, Hinds* .

**LATIN 510 Roman Historians (5, max. 10)** *Clauss, Gowing* .

**LATIN 512 Augustan Poetry (5, max. 15)** .

**LATIN 520 Seminar (5, max. 45)**

**LATIN 540 Topics in Latin Literary History (5, max. 25)** Reading of a range of Latin texts by various authors. Offered: AWWSpS.

**LATIN 565 Seminar in Rome (5, max. 10)** *Clauss, Gowing, Harmon, Stroup* Study of selected topics and authors in Latin literature. Conducted in Rome.

**LATIN 590 Supervised Study (\*, max. 18)**  
Prerequisite: permission of graduate program coordinator.

**LATIN 600 Independent Study or Research (\*)**

---

## Communication

**COM 201 Introduction to Communication I (5) I&S** Introduces students to four core principles that undergird the study and practice of communication — communication literacy, research inquiry, theories and concepts, and community engagement. Principles discussed and developed in the context of international communication, political communication, and communication technology and society.

**COM 202 Introduction to Communication II (5) I&S/VLPA** Introduces students to four core principles that undergird the study and practice of communication — communication literacy, research inquiry, theories and concepts, and community engagement. Principles discussed and developed in the context of social interaction, rhetoric and critical studies, and communication and culture.

**COM 210 Introductory Communication Topics (5, max. 10)** Introduction to a specified area of communication scholarship.

**COM 220 Introduction to Public Speaking (5) I&S/VLPA** Designed to increase competence in public speaking and the critique of public speaking. Emphasizes choice and organization of material, sound reasoning, audience analysis, and delivery.

**COM 222 Speech Communication in a Free Society (3) I&S/VLPA** Problems and arguments related to freedom of speech; early English writers on freedom of expression; background of freedom of speech in the United States; contemporary freedom of speech issues.

**COM 234 Public Debate (5) I&S/VLPA** Examines public debate in a democracy by developing a rhetorical perspective of public argument and skills to evaluate debates

critically. Develops an understanding of rhetoric, values, audiences, tests of reasoning, and sources of information. Sharpens critical skills and applies them to contemporary controversies in the public sphere.

**COM 270 Interpersonal Communication (5) I&S/VLPA** Emphasizes analyzing and understanding communication variables affecting human relationships, such as person perception, feedback, idea development, nonverbal cues. Focus on informal communication settings.

**COM 273 Parliamentary Procedure (3) I&S/VLPA** Principles and practice: a study of the historical bases and contemporary uses of parliamentary procedure; methods and practice in organizing and conducting public meetings.

**COM 300 Basic Concepts of New Media (5) I&S/VLPA** Provides a comprehensive examination of the effects of new, digital media on interpersonal communication, media industries, and media culture. Emphasis on economic, social, political, and aesthetic implications. Provides limited experience with computer-based media. No prior technical computer experience assumed.

**COM 301 Navigating Information Networks for Mass Media (5) I&S** Builds familiarity with computer-mediated information networks. Introduces and compares network search engines, agents, browsing/viewing tools and retrieval/transfer software for use by reporters and other media workers. Instruction and practice with searching/acquiring information, its analysis and interpretation, illustration, and write-up. No prior computer or network experience assumed.

**COM 302 The Cultural Impact of Information Technology (5) I&S/VLPA** Utilizing approaches from the history of technology, cultural studies, and literary theory, seeks to analyze the cultural and social impact of information technology. Considers how information technologies impact our relationships with others, our concept(s) of self, and the structure of the communities to which we belong. Offered: jointly with CHID 370.

**COM 304 The Press and Politics in the United States (5) I&S** Journalist's role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Offered: jointly with POL S 304.

**COM 305 The Politics of Mass Communication in America (5) I&S** Role of mass audiences in politics from the standpoint of the communication strategies used to shape their political involvement. Topics include: social structure and political participation, political propaganda and persuasion, the political uses of public opinion, and the mass media and politics. Offered: jointly with POL S 305.

**COM 306 Media, Society and Political Identity (5) I&S** Explores how society and culture are both represented in and shaped by communication technologies and media content. Media include film, advertising, news, entertainment television, talk shows, and the Internet. Explores how media represent and affect individual identity, values, and political engagement. Offered: jointly with POL S 306.

**COM 320 Public Speaking (5) I&S/VLPA** Practice in preparation and presentation of a

variety of types of public speeches based on study of their structure and form; emphasis on organization and delivery. Prerequisite: COM 220.

**COM 321 Communications in International Relations (5) I&S** Looks at communications in relations between international groups and states. Examines the range of functions and roles communication media play in international affairs, global issues, and intergroup relations. Also examines the strategic use of communications by various groups. Offered: jointly with POL S 330.

**COM 322 Global Communication (5) I&S** Introduction to the history, purpose, channels, content, technologies, policy, and regulation of international communications systems. Issues covered include disparities in media development between post-industrial and developing nations, imbalances in international news and information flow, and the emergence of global communications. Offered: jointly with POL S 329.

**COM 329 Rhetoric of Social and Political Movements (5) I&S/VLPA** Inquiry into the rhetoric of social and political movements; emphasis on investigation of persuasive discourse; examination of the nonverbal symbols of persuasion.

**COM 331 The Rhetorical Tradition in Western Thought (5) I&S/VLPA** Analysis of the major theories that prescribe and describe the use of symbols to change attitudes and behavior. Principal emphasis is placed upon defining the nature and scope of rhetoric and upon analyzing the art's underlying assumptions about human beings as symbol users. Some background in history, philosophy, and literature is desirable.

**COM 334 Essentials of Argument (5) I&S/VLPA** Argument as a technique in the investigation of social problems; evidence, proof, refutation, persuasion; training in argumentative speaking.

**COM 340 History of Mass Communication (5) I&S** History and development of communication from prehistoric times; rise of mass media; political and economic context of newspapers, radio, film, and television.

**COM 342 Media Structure (5) I&S** Industrial organization and culture; consumer and producer decisions; public policy toward media; workforce and unions. Media role in culture and political economy.

**COM 343 Effects of Mass Communication (5) I&S** Effects of mass communication on individuals and society. Relevant theories applied to research evidence, addressing such topics as effects of stereotypes, violent and sexual imagery, and persuasive messages on our knowledge, attitudes, and behaviors.

**COM 351 Interviewing Principles and Practices (5) I&S/VLPA** Interviewing principles and practices, with emphasis on information gathering, selection, and persuasive interviews. Purposes and types of interviews, structure of interviews, and influence of communication patterns on interview outcomes.

**COM 359 Writing for Mass Media (5) I&S** Training in gathering information through interviews and observation and from written record and other public sources. Practice in organizing and writing this information for

presentation in a mass medium such as a newspaper, newsletter, or magazine. Offered: AWSpS.

**COM 360 Beginning Newswriting and Reporting (4) I&S** Introduction to newswriting and reporting for print media. Focus on defining news, general writing skills, constructing leads, preparing a variety of basic journalism news stories, interviewing techniques, covering beats, and journalistic style.

**COM 361 Advanced Reporting and Newswriting (4) I&S** In-depth training in the development of advanced-level reporting and newswriting skills. Practice in information gathering, interviewing, use of sources, database analysis, and investigative reporting techniques. Recommended: COM 360.

**COM 362 Community Journalism: News Lab (5) I&S** Newswriting-skills course. Students gain real-world experience by producing news and feature stories for client papers in the Puget Sound Region. Involves considerable one-on-one work with the lecturer/editor. Requires writing and reporting skills. Recommended: COM 361.

**COM 373 Communication in Small Groups (5) I&S/VLPA** Discussion as an everyday community activity, with emphasis on the informal cooperative decision-making methods of committee, conference, and roundtable groups.

**COM 374 Perspectives on Language (5) I&S/VLPA** Study of language and meaning, and survey of several influential modern approaches, including the semantic, general semantic, behavioral, and analytic philosophical. Relates theories of language and meaning to the study of speech communication.

**COM 375 Communication Ethics (5) I&S/VLPA** Ethical problems in interpersonal and public speech communication. Alternative ways of evaluating and responding to moral problems in a variety of communication situations.

**COM 376 Nonverbal Communication (5) I&S/VLPA** Reviews the nature of nonverbal communication as part of the human message system. Discusses research on the types of cues that are part of the nonverbal system, reviews some communicative functions allowed by nonverbal cues (e.g., emotional expressions, relational messages, deception, coordination, or interaction), and ties nonverbal communication to language.

**COM 378 Social Approaches to Interpersonal Communication (5) I&S/VLPA** Exploration of several social approaches to interpersonal communication, emphasizing the theorists' philosophical orientations and practical applications.

**COM 382 Social Scientific Approaches to Communication Research (5) I&S** Comprehensive introduction to research methods employed in basic and applied communication research, including sample surveys, content analysis, experimentation, and elementary statistics.

**COM 389 Race, Gender, and Sexuality in the Media (5) I&S** Introduction to media representations of gender, race, and sexuality. Offered: jointly with AES 389/WOMEN 389.

**COM 395 Communication Internship (2-5, max. 5)** Faculty-supervised study of communi-

cation principles in internship contexts. Readings to aid students in observations of communication concepts combined with individualized reading structured around topics of interest for each student.

**COM 401 Telecommunication Policy and Convergent Media (5) I&S** Examines contemporary media and telecommunications industries since 1980 and their accelerating convergence. Attention given to economic, policy, and mass use issues. Review of major industry leaders, promising technologies, and new services. Social issues, government initiatives, and new legislation covered for both North American and international markets. Recommended: COM 301.

**COM 402 New Media as Virtual Communities (5) I&S** Technologically-mediated virtual communities considered through analysis of historical precedents and influences and through an exploration of the concept of community. Issues include a focus on social interactions; the social, political, economic, and technological contexts of virtual communities and the limits for their sustenance.

**COM 405 New Media Criticism (5) I&S/VLPA** Examines critically the content of new media forms, contrasting them with traditional media. Stresses influences of social, economic, political, and technological forces on content and developing strategies for critical analysis.

**COM 406 Public Discourse on the Internet (5) I&S/VLPA** Study of public advocacy and persuasion in internet environments, including public interest advocacy sites, political campaigns, advertisements, editorials, and essays. Various critical models applied to analyze narratives, style, argument structure, and credibility of internet discourse. Recommended: COM 331, COM 435, or COM 436.

**COM 407 Communication Technology and Politics (5) I&S** Employs some core concepts of political communication and theories of democracy to examine the emerging role of information and communication technologies in candidate and issue campaigning; online voting; protest and advocacy movements; law-making and electronic governance in the United States and internationally. Offered: jointly with POL S 451.

**COM 411 Political Communication Seminar (5, max. 10) I&S** Contemporary topics studying how communication affects citizen engagement with public life. Offered: jointly with POL S 454.

**COM 414 Mass Media and Public Opinion (5) I&S** Examines the foundations of the idea of public opinion in a democratic environment and the role of mass communication in the organization, implementation, and control of that opinion. Considers these relationships from the perspectives of societal elites, media, and citizens. Offered: jointly with POL S 452.

**COM 417 Political Deliberation (5) I&S** Exploration of philosophical and empirical writings on political deliberation in small groups, campaigns, and other public settings. Contemporary deliberative theory. Participation in face-to-face discussions on current issues. Recommended: either COM 273 or COM 373. Offered jointly with POL S 455.

**COM 418 Communications and the Environment (5) I&S** Examines the role of mass media

in the resolution of environmental problems. Topics include strengths and weaknesses of media coverage, use of media by environmental groups and government agencies, media effects on public opinion, and mass communication and social movements. Offered: jointly with ENVIR 418.

**COM 420 Comparative Media Systems (5) I&S** Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with SIS 419/POL S 468.

**COM 423 Communication and Social Change (5) I&S** Examines both theory and application involved in using communications media as a tool for addressing political, social, and economic development issues. Utilizes a case study approach to look at localized applications of traditional and new communications tools in the pursuit of sustainable development.

**COM 425 European Media Systems (5) I&S** Examines media systems in selected countries in Europe and policy issues that link (or divide) members of the European Union and other major media producers. Media studied in context of the contemporary economic, social, political, and cultural milieu in which they operate. Offered: jointly with EURO 425.

**COM 426 International Media Images (5) I&S** Ways in which media construct images of international peoples and events. Develops a set of critical tools for assessing media portrayals of international affairs and cultures.

**COM 427 International Communications Law and Policy (5) I&S** Examines the international and comparative aspects of traditional press law, broadcast regulation, and telecommunications policy. Also examines freedom of the press in international reporting and the efforts of countries to limit foreign media influences within their borders.

**COM 428 Asian Media Systems (5) I&S** Examines the media systems and communication policies in selected Asian countries. Identifies and analyzes the cultural, economic, historical, and political parameters that influence these media.

**COM 429 Chinese Communications Systems (5) I&S** Analyzes the economic, historical, intellectual, social, and political foundations of communications systems in the region of Chinese Asia: China, Hong Kong, Singapore, and Taiwan. Focus primarily on print and broadcast journalism.

**COM 430 Canadian Documentary Film Traditions (5) I&S/VLPA** History and development of non-fiction film documentary traditions, especially in Canada, the first institutionally defined area in which documentaries became prominent through the National Film Board and the Canadian Broadcasting Corporation. Discussion of Flaherty, Greirson, and independent network producers who developed present-day style of documentaries. Offered: jointly with SISCA 430.

**COM 431 Rhetorical Criticism (5) I&S/VLPA** Study of approaches to rhetorical inquiry that aid in the description, analysis, interpretation, and evaluation of discourse. Applies various critical models to a chosen artifact.

**COM 433 Speech Composition (5) I&S/VLPA** Preparation and delivery of public speeches with emphasis on style, thought organization, and proof. Analysis of model speeches. Recommended: SP COM 220.

**COM 434 Argumentation Theory (5) I&S/VLPA** Theory and research on the structure and properties of argument, argument fields, argument modeling, the influence of audience, argument criticism, and related topics. Prerequisite: either COM 220 or COM 334.

**COM 435 Historic American Public Discourse (5) I&S/VLPA** Rhetorical criticism of historical public speeches, essays, and declarations. Includes readings of public texts in their historical and political context to increase understanding of those texts, their rhetorical construction, and the culture from which they arose. Covers the beginnings of the nation to the middle of the 20th century.

**COM 436 Contemporary American Public Discourse (5) I&S/VLPA** Rhetorical criticism of contemporary public messages. Includes reading of public texts in their context to increase understanding of those texts, their rhetorical construction, and the culture from which they arose. Covers mid-20th century to the present.

**COM 437 Rhetorical Perspectives in Intellectual Revolutions (5) I&S/VLPA** Rhetorical investigation of selected major writings. Examines the rhetorical dimension in the progress of ideas through analysis of documents of major intellectual revolutions as persuasive works. Relates principal revolutions in Western thought to contemporary controversy. Examines Rights of Man, Communist Manifesto, The Origin of Species.

**COM 440 Mass Media Law (5) I&S** Survey of laws and regulations that affect the print and broadcast media. Includes material on First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation, and matters relating to press coverage of the judicial system. Offered: jointly with POL S 461.

**COM 441 United States Media History (5) I&S** Development of mass communication in the United States with emphasis on role of mass media in politics, economics, gender, and race.

**COM 442 History of Media Technology and Regulation (5) I&S** Impact of pre-1980s media technologies — printing, telecommunications, broadcasting, photography, and more — on individuals and institutions, especially government, business, and the mass media. How laws and policies have changed to govern new media forms.

**COM 443 Indigenous Film, Sovereign Visions (5) VLPA/I&S** *Cote\*, Hart, Ross* Explores fiction, documentary, experimental film, and digital media from indigenous artists from around the world. Focuses on personal, political, and cultural expression. Issues include media and sovereignty movements, political economy, language revitalization, the politics of decolonization, and indigenous aesthetics. Offered jointly with AIS 443.

**COM 444 Public Relations and Society (5) I&S** Overview of issues, strategies, and role of public relations professionals in various areas of American society, including media relations, government relations, community affairs, and consumer relations.

**COM 445 Journalism and Literature (5) I&S/VLPA** Explores the relationship between journalism and fiction writing in the United States. Examines writers who began their careers as journalists and forged a fiction-writing philosophy related to what they learned in journalism. Readings in fiction and journalism.

**COM 451 Mass Media and Culture (5) I&S/VLPA** Empirical and theoretical framework for analyzing role of mass media in cultural change. Historical and contemporary cases consider ethnic, gender, class, and urban-rural conflicts and cultural roles of sports, elections, and national rituals. Focus on visual electronic media.

**COM 452 Crisis Communications (5) I&S** Study of the functions of communications professionals during crises. Covers public relations professionals as advocates for organizations and companies in crisis and the news media as advocates of the mass public. Discussion of cases.

**COM 459 Narrative Journalism (5) VLPA/I&S** *Kaplan* Introduces the rigorous reporting and literary writing techniques involved in narrative journalism. Concentrates on producing three narrative articles for publication in the online, reader-interactive magazine, *Narrative Journalist*. Offered: jointly with CHID 459.

**COM 460 Special Reporting Topics (4, max. 8) I&S** Topics vary. x

**COM 461 Computer-Assisted Journalism (5) I&S** Introduction to computer-assisted journalism and other advanced reporting techniques. Includes hands-on electronic data analysis, exploration of on-line investigative tools, and the fashioning of electronically-retrieved information into news stories. Students examine ethical and technical challenges these tools present to media and society.

**COM 463 Copy Editing and Design (5) I&S** Focus on editing copy for publications, covering grammar and style, production methods, news criteria, use of wire services, headlines, make-up and design, pagination, and online publication.

**COM 464 Opinion Writing (5) VLPA** Combines the teaching expertise of a Department of Communication faculty member with the professional expertise of an opinion-writing journalist. Students learn about and practice writing newspaper editorials, columns, and various forms of criticism in order to gain an understanding of the differences between news and opinion content in print journalism. Prerequisite: com 361.

**COM 465 Legislative Reporting (12) I&S** Coverage of Washington legislature for a daily newspaper. Selected students live in Olympia, interview legislative delegations, report on committee and floor sessions, and attend and report on gubernatorial and other press conferences.

**COM 466 Digital Journalism (5) I&S** *A. Chan* Introduction to digital journalism. Integrates Web design, video, still, and sound to develop an Internet Webcast called DIA (Digital Interactive) News. Students serve as sole initiator of DIA news, utilizing journalistic standard of storytelling, video production, and editing and design. Prerequisite: COM 300.

**COM 467 Feature Writing (5) VLPA** Focuses on the many types of newspaper and magazine articles that do not fall into the category of hard news, including histories and backgrounders, how-to and explanatory, consumer information, statistical pieces, first-person, and participatory. Includes practice in writing these forms. How to market freelance manuscripts.

**COM 468 Journalism Ethics (5) I&S** *Simpson* Provides a method and substantive context based on ethical theory, media history, and value systems analysis for analyzing and resolving dilemmas raised by journalistic practices.

**COM 469 Intellectual Foundations of American Journalism (5) I&S** Examines the thinkers and philosophers who have influenced modern journalism. Studies the main ideas in the development of world thought and their impact on today's journalists. Explores the role communications systems have played in the creation of the world's cultures.

**COM 470 Discourse: Analyzing Talk and Texts (5) I&S/VLPA** A critical and practical introduction to contemporary theories/methods in discourse analysis: how verbal communication (together with visual communication) is used in conversational talk and mediatized texts to construct identities and relationships; and how power and ideology are reproduced through these everyday social interactions. Offered: jointly with LING 470.

**COM 471 Persuasion (5) I&S/VLPA** Analysis of the ways in which beliefs, values, attitudes, and behavior are deliberately influenced through communication.

**COM 472 Empirical Approaches to Interpersonal Communication (5) I&S** Examination of theories and research on the development and deterioration of interpersonal relationships. Emphasis on the nature of interpersonal interaction, the role of language and nonverbal communication in relationships, functional and dysfunctional interaction patterns, and the dynamics of interpersonal networks.

**COM 473 Problems of Discussion Leadership (3) I&S/VLPA** Critical analysis of leadership in committee and conference, with emphasis on the development of speech effectiveness in the cooperative achievement of goals. Prerequisite: COM 373.

**COM 474 Communication, Conflict, and Cooperation (5) I&S/VLPA** Role of communication in resolving informal conflicts and in facilitating interpersonal and intergroup cooperation. Review of empirical literature. In-class simulations and exercises.

**COM 475 Organizational Communication (5) I&S/VLPA** Role of communication in organizations, the types of problems arising, and approaches to their resolution. Communication in the human relations and productivity of organizations. Applying communication skills in various organization roles.

**COM 476 Models and Theories in Communication (5) I&S** Examination of selected theories and models of speech communication as well as of criteria applicable to them. Emphasis on the nature and function of theories and models, especially as these relate to basic principles underlying the scientific, interpretive, and critical study of speech communication phenomena.

**COM 478 Intercultural Communication (5) I&S**

Investigates intercultural communication theory and its application for varying levels of human interaction: interpersonal, intergroup, and international. .

**COM 479 Communication in Children's Environments (5) I&S/VLPA**

Study of the communication capacity of children with emphasis on the analysis of the communication process in formal and informal learning environments. Includes examination of communication-based educational approaches and instructional strategies.

**COM 480 Communication in Adolescent Environments (5) I&S/VLPA**

Study of the communication process in youth environments with a primary focus on formal and informal learning. Includes critical analysis of communication in contemporary instructional settings and the development of communication strategies for teaching and learning.

**COM 482 Computer-Mediated Interpersonal Communication (5) I&S**

Examination of relationships and groups formed through computer-mediated interpersonal communication. Focus on how people manage interactions and identities, develop interpersonal relationships, engage in collaboration and conflict, and develop communities in virtual environments. Involves both the study and use of network-based computer-mediated systems.

**COM 484 Cultural Codes in Communication (5) I&S/VLPA**

Social and cultural codes in interpersonal communication, with special reference to contemporary American subcultural groups and their communication patterns.

**COM 485 Fieldwork in Communication Studies (5) I&S/VLPA**

Theory and practice of participant observation, intensive interviewing, and discourse analysis in the study of communicative practices. Prerequisite: COM 484.

**COM 488 Race, Gender, and Power in Asian American Media (5) I&S**

Examines the cultural, political, and social facets of Asian American media since 1915 within such key issues as racial and sexist stereotypes, white privilege and hegemony, identity, and agency and empowerment. Informed by critical theories of race and ethnicity.

**COM 490 Representing Beyond the Binaries: Mixing Race, Gender, and Sexuality in the Media (5) I&S**

*Joseph* Cultural studies approach to examining the mixed formations that race, sexuality, and gender take in the contemporary United States media. Draws upon multi-disciplinary scholarship in examination of the media. Offered: jointly with AES 490/WOMEN 486.

**COM 495 Special Topics in Communication (2-5, max. 15)**

Lecture, seminar, and/or team study. Topics vary.

**COM 496 Honors Seminar (5) I&S/VLPA**

Preparation for researching and writing senior honors thesis.

**COM 497 Honors Thesis (5, max. 15) I&S/VLPA**

Researching and writing honors thesis.

**COM 498 Independent Research (1-5, max. 10)**

Work on research projects designed and conducted by undergraduate students.

**COM 499 Directed Research (1-5, max. 10)**

Work on research projects designed by faculty members.

**COM 500 Communication Theory Development (5)**

Covers the philosophy behind theory development, discusses the basic components of theories, and reviews significant theoretical contributions in communication from social scientific and humanistic traditions. Introduces students to the process of conceptualization and theory design through reading and discussion of relevant bodies of communication scholarship.

**COM 501 Methods of Inquiry (5)**

Overviews some of the most important methods of inquiry used to investigate communication phenomena. Includes textual criticism, content analysis, ethnography, experimentation, survey research, and historical approaches. Explores the utility of different methods for investigating research topics, defining and measuring concepts, reading texts, and investigating theories.

**COM 502 Communication Scholarship and Public Life (5)**

Examines potential connections between communication scholarship and government, markets, civil society, and the general public.

**COM 507 Interdisciplinary Communication Theory (5)**

Introduces students to challenges, benefits, and processes of interdisciplinary research. Explores formation of disciplinary boundaries. Considers significant theories that have influenced communication research. Considers how synthetic theoretical arguments are made and how to integrate work from fields with different epistemologies.

**COM 509 Collaboration and Scholarship (5)**

Examines the collaborative research process. Students identify and conceptualize a group project, carry it out, and present findings. Topic varies. Prerequisite: COM 501 or equivalent.

**COM 511 Content Analysis (5)**

Content analysis as a technique for making inferences from texts. Includes quantitative, qualitative, and computer-assisted approaches to analysis.

**COM 512 Critical, Social, and Practice-Based Approaches (5)**

Explores approaches to communication research developed from understandings of human communication as inherently social, grounded in tool-mediated action, and interwoven with power relations. Covers a range of theories that are associated with these approaches, and the implications of these theories for methods of data collection and analysis.

**COM 513 Fieldwork Research Methods (5-, max. 10)**

Methods of fieldwork research in communication studies, with emphasis on participant observation, ethnography, and discourse analysis.

**COM 514 Critical Discourse Analysis (5)**

Introduction to systematic analysis of linguistic and visual discourse in face-to-face and mediated talk and texts; critical examination of the reproduction of power, control, and ideology through linguistic and related semiotic practices of everyday life.

**COM 515 Rhetorical Criticism (5)**

History and method of rhetorical criticism. Application of critical standards to various rhetorical artifacts.

**COM 516 Descriptive and Analytic Communication Research Methods (5)**

Development of the historical approach to communications research. Study of historical methods, bibliography, and criticism.

**COM 517 Survey Research (5)**

Faculty-directed project in survey research in which basic principles of survey design, including sampling, observation, measurement, data analysis, and data interpretation, are all applied. Prerequisite: elementary statistics or permission of instructor.

**COM 520 Statistical Methods in Communication (5)**

Reviews the steps taken in social scientific research on communication, with emphasis on the conceptualization, operationalization, and analysis of quantifiable variables. Highlights understanding of computer application of univariate and bivariate statistics, focusing on both parametric and nonparametric tests.

**COM 521 Advanced Statistical Methods in Communication (4)**

Discusses complexities in quantitative research on communication. Focus on multivariate data design and analysis, including multiple and logistic regression, ANOVA and MANOVA, and factor analysis. Prerequisite: COM 520.

**COM 527 International Communication Research Methods (5)**

Methodological issues particular to the design or analysis of research that deals with data from different countries, cultures, or sub-cultures. Prerequisite: COM 501 or equivalent.

**COM 528 Designing Internet Research (5)**

Focuses on designing Internet research, assessing the adaptation of proven methods to Internet tools and environments, and developing new methods in view of particular capacities and characteristics of Internet applications. Legal and ethical aspects of Internet research receive ongoing consideration.

**COM 529 Research Strategies and Methodologies in Digital Media (5)**

Introduces and compares methods of inquiry into digital media industries, practitioners, and consumers. Develops theories and skills applicable in business decision-making processes, as well as in scholarly research.

**COM 530 Philosophical Issues in Rhetorical and Communication Theory (5)**

Survey of selected philosophical controversies among speech communication theorists, and analysis of one philosopher's approach to communication. Topics include paradigm descriptions of communication, rhetoric and knowledge, linguistic analysis and communication, hermeneutics and dialogue.

**COM 531 Rhetoric in Society (5)**

Selected works of major rhetorical theorists such as Aristotle, Cicero, Augustine, Campbell, Whately, Perelman, and Burke. Examines how rhetorical themes are responsive to and symptomatic of societal conditions and values.

**COM 532 Classical Rhetoric (5)**

Development of the classical tradition in rhetorical theory, criticism, and pedagogy from the sophists to Augustine; analysis of the contributions of major figures and works to that tradition.

**COM 534 Studies in Contemporary Rhetoric (5)**

Critical analysis of theories of twentieth-century rhetoric.

**COM 535 Critical Theory Applications in Communication (5)** Major approaches in critical theory: Marxism, psychoanalysis, structuralism, and semiology. Synthesizes these approaches by viewing the "cultural studies" tradition. Assesses critical theory through empirical study of network television in the United States and the United Kingdom.

**COM 538 Theories and Criticism of Communication Technologies (5)** Potential of the computer for use in behavioral science. Prerequisite: elementary programming, elementary statistics.

**COM 540 The Rhetoric of Science (5)** Examines selected topics in the rhetoric of science, underscoring the interplay of language, situation, culture, and prior tradition in the quest for exact knowledge of the natural world. Scrutinizes scientific communication in intradisciplinary, interdisciplinary, and extradisciplinary contexts.

**COM 542 Readings in Communication History (5)** Selected readings on the history of communication.

**COM 543 Research Seminar in Historic and Contemporary Communication (5)** Topical research seminar in historic and contemporary communication.

**COM 545 Development of Mass Communication (5)** Institutions of mass communication. Political and social roles.

**COM 546 Evolution and Trends in Digital Media (5)** Examines the past, present, and future of digital communication from diverse disciplinary and theoretical perspectives. Offered: A.

**COM 547 Telecommunications Policy and Convergent Media (5)** Structures and policies governing the functioning of communication technologies and data flow: United States and international perspectives. Interdisciplinary approach.

**COM 549 Mass Communication Process and Effects (5)** Analytic approach to conceptualization and research in the field since 1900.

**COM 550 European Union Information Society Policy (5)** *Giffard* Analysis of European Union policy and regulatory documents relating to cultural, economic, political, social, and technological aspect of the new information society, including efforts to promote transborder flows of television programs in Europe.

**COM 551 Political Communication (5)** Surveys classic works and new directions in political communication, including functionalist, structuralist, constructivist, network, and comparative approaches, reflecting a range of methods. Examines political organizing, electoral and legislative processes, civic (dis)engagement, media and politics, public deliberation and opinion formation, political identity and discourse. Offered: jointly with POL S 551.

**COM 553 Public Opinion and Communication (5)** Conceptual and methodological approaches to public opinion and communication as historical and behavioral phenomena. United States and international perspectives.

**COM 554 Discourse and the Politics of Resistance (5)** Examines how disciplines theorize and empirically study discourse in the politics of resistance. Examines the discursive turn in U.S. and European "new" social movement theory. Ranges across disciplines, such as political sociology, cultural anthropology and human geography, to discover ways in which discourse is conceptualized and studied for its role in seeding social change. Offered: jointly with POL S 567.

**COM 555 Political Deliberation (5)** *VLPA I&S Gastil* Exploration of deliberative theories of democracy and research on political discussion in campaigns, face-to-face meetings, on-line forums, and informal conversations. Presents different uses and understandings of deliberation and its role in democratic governance. Recommended: COM 577, POL S 551/COM 551. Offered jointly with POL S 558.

**COM 556 Political Communication Research Practicum: Community, Communication, and Civic Engagement (5)** Overview of the research process, including literature review, hypothesis generation, data gathering, empirical analysis, and writing for publication. Topics vary with instructor, but generally address questions of how communication affects democracy and citizen engagement in national or international contests. Offered: jointly with POL S 594.

**COM 557 Government and Mass Communication (5)** Legal problems of mass communication, institutions, and media operations.

**COM 558 U. S. Digital Media Law and Policy (5)** Examines the conceptual framework and social application of existing regulations and policies on digital media, with the aim of helping professionals address the changing legal and policy environments.

**COM 559 Media and Foreign Policy (5)** The role of communications media in how nations interact. The media as source, actor, and catalyst in international affairs. Interdisciplinary focus.

**COM 561 Regional Communication Systems (5)** Communication as a factor in economic, sociocultural, and political relations among nations of a region. Focus varies with specialization of instructor. Consult graduate secretary for details. Interdisciplinary focus.

**COM 562 International Communication Systems (5)** International communications and contemporary issues that affect the functioning of global communication systems. Interdisciplinary focus.

**COM 564 Media, Myth, and Ritual (5)** *Douglas* Examines the way media operate in a secular society with many of the characteristics that traditionally have been imputed to spirituality and religion. Analyzes media's mythological and ritualistic function in society by taking an interdisciplinary approach informed by religious studies, cultural studies, journalism, and communication theory.

**COM 565 Mass Media Structure (5)** Research on the structural aspects of mass communication.

**COM 566 Discourse and Sex/uality (5)** Seminar-based analysis of discourse and social construction of eroticism/desire in face-to-face/mediatized talk and texts; examination of the

reproduction of power, control and ideology through the linguistic and semiotic realization of sex/uality. Offered: jointly with WOMEN 566.

**COM 567 Gender, Race, and Communication (5)** Analysis of the role of media in the construction of reality, production processes, and their influence on media representation of women and people of color. Offered: jointly with WOMEN 589.

**COM 570 Organizational Communication (5)** Examination of social scientific theory and research on communication in organizations. Topics include quantitative and qualitative approaches to process of organizational communication, function and structure of macro networks, superior-subordinate relationships, and the role of communication in organizational change, development, and effectiveness.

**COM 576 Interpersonal Communication (5)** Social scientific research and theory on the role of communication in developing and maintaining interpersonal relationships. Nature of interpersonal communication, relationship change processes, interpersonal control through communication, and personal communication networks.

**COM 577 Communication in Small Groups (5)** Reviews major small group communication theories and the history of research on small groups. Topics include structuration, democratic decision making, symbolic convergence, and the influence of personality, gender, and ethnicity on group communication. Involves students in original research projects on communication in small group settings.

**COM 578 Intercultural Communications (5)** *Manusov, Rivenburgh* Focuses on the nature of communication between different cultures, including the processes as they occur on sojourns, immigration, negotiations, and conversations across national boundaries. Specific topics include identity formation and expression, intercultural relationships, stereotyping, prejudice, and group affiliation.

**COM 580 Nonverbal Communication (5)** Reviews primary theories and research on nonverbal communication. Focus on developmental and social aspects of nonverbal cues, including review of communicative functions served by nonverbal channels. Topics include paralinguistic systems, relational messages, deception, acquisition of cue use, and emotional expression. Emphasizes research methods and influences of culture and context.

**COM 581 Social Production and Distribution of Digital Content (5)** *Hosein* Explores theoretical and applied analysis of "user-generated" digital and distribution, as well as their economic cultural impact. Examines specific issues related to monetization and messaging, particularly in storytelling, advertising, campaigning, advocacy, and entertainment.

**COM 582 Communication Education Research (5)** Communication in instructional environments. Nature of instructional communication, paradigms for instructional communication research, quantitative and qualitative approaches to instructional communication, verbal and nonverbal classroom interaction.

**COM 584 Ways of Speaking (5)** Theory and literature of the ethnography of communication, with special emphasis on the descriptive-

comparative approach to culturally patterned styles of communicative conduct. Offered: jointly with ANTH 584.

**COM 585 Digital Media Message Design and Content Creation (5)** Applies communication theory to the identification, creation, and evaluation of digital media message design to meet needs of the target audience. Introduces the theory and practice of hypertext and project management techniques needed to organize digital assets, allocate resources, and meet deadlines.

**COM 586 Writing and Presentation for Digital Media (5)** Applies communication theory and research tools to rhetorical and design choices in web page creation. Examines the emergence of digital media story-telling techniques, as well as ethical and technical challenges these tools present to media and society.

**COM 587 Digital Media Economics and Management (5)** Emphasizes communication theory to analyze effective management of digital media enterprises, with practical application of economic theory to entrepreneurial strategies. Topics include analysis of the total business process, patterns of ownership, merger and acquisitions, finance and accounting, human resources development, sales and marketing, and ethics.

**COM 588 Digital Media Branding and Marketing (5)** Critically examines the role of advertising, marketing, and other promotional efforts in establishing the branding of digital media companies. By using communication theory to analyze successful cases of established and start-up digital media companies, participants identify practicable and effective strategies for brand building and enhancement.

**COM 589 Global Digital Media Law, Policy, and Ethics (5)** Examines the legal, social, political, and policy environments of digital media laws, policies and ethics around the world. Offers a comparative perspective, which prepares digital media managers to expand into other markets outside their home bases.

**COM 590 Selected Readings (1-5, max. 10)** Selected readings assigned by faculty.

**COM 591 Independent Research (1-5, max. 10)** Research projects designed and led by students with faculty supervision.

**COM 592 Directed Research (1-5, max. 10)** Student participation in faculty-directed research projects.

**COM 593 Communication Internship (1-5, max 15)** Provides students an opportunity to connect their scholarship with communities outside academia by engaging in a project that uses communication theory to inform practical work.

**COM 594 Professional Proseminar (1, max. 6)** Helps students develop a range of professional competencies. Focuses on a particular topic such as computer-assisted research, technology in the classroom, obtaining funding for research, writing for academic publication, career choices after graduate school, and ethics in research and teaching.

**COM 595 Public Speaking Pedagogy (1, max. 5)** Content and effective teaching skills for

public speaking course. Emphasizes the rhetorical tradition, grading speeches, and facilitating oral critiques. Required for all COM 220 TAs; recommended for those who want to teach COM 220. Only 3 credits count toward degree. Credit/no credit only.

**COM 596 Communication Pedagogy (1, max. 3)** Development of effective teaching and professional skills. Emphasizes interactive teaching, leading discussions, lecturing, planning courses, evaluating resource materials, grading and evaluation, teaching philosophies, and effective classroom management and communications. Required of all graduate students who accept teaching assistantships. Credit/no credit only.

**COM 597 Special Topics in Communication (5, max. 10)**

**COM 600 Independent Study or Research Project (\*)** Prerequisite: permission of supervisory committee chairperson. Credit/no credit only.

**COM 700 Master's Thesis (\*)**

**COM 800 Doctoral Dissertation (\*)**

---

## Comparative History of Ideas

**CHID 110 The Question of Human Nature (5) I&S/VLPA Merrell** Considers the relationship between the individual and his/her culture. Traces the evolution of the notion of human nature in Europe and the United States and compares this tradition with representations of the human being from other cultural traditions.

**CHID 205 Method, Imagination, and Inquiry (5) VLPA Searle** Examines ideas of method and imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with ENGL 205.

**CHID 207 Introduction to Intellectual History (5) I&S Toews** Ideas in historical context. Comparative and developmental analysis of Western conceptions of "community," from Plato to Freud. Offered: jointly with HIST 207.

**CHID 210 The Idea of the University: Ways of Learning, Exploring, and Knowing (5) I&S** Considers different ways of learning, exploring, and knowing in the context of the historical development, social context, and impact of universities in general and of the University of Washington in particular. Includes reflective workshops on choosing areas of study (majors) in collaboration with Undergraduate Advising.

**CHID 250 Special Topics: Introduction to the History of Ideas (5, max. 15) I&S Thurtle** Examines a different subject or problem from a comparative framework. Satisfies the Group A major/minor requirement. Offered: AWSp.

**CHID 260 Re-Thinking Diversity (5) I&S Bushnell** Considers the notion of diversity from many scholarly perspectives and from personal engagements. Critically visits historical thinking about diversity and examines contemporary issues such as racism and other oppressions.

**CHID 270 Special Topics (5, max. 15) I&S** Each special topics course examines a different subject or problem from a comparative framework.

**CHID 298 Pre-Departure Seminars (2) I&S Barrett, Pitchford, Warren** Prepares students to participate in CHID International Programs. Prerequisite: students must be accepted to an International Program prior to registration. Offered: AWSpS.

**CHID 300 Ideas in Art (5) VLPA Opperman** Selected monuments of art and architecture in the Western tradition, from the Greeks to the twentieth century, studied in relation to the intellectual background of the ages and civilizations that produced them. Slide lectures accompanied by discussion of assigned readings in philosophical, religious, scientific, political, literary, and artistic texts. Offered: jointly with ART H 300.

**CHID 309 Marx and Nietzsche: The Assault on Bourgeois-Christian Civilization (5) I&S** Major dilemmas and conflicts of modern Western consciousness through historical analysis of Marx, Nietzsche, and the movements they spawned. Emphasis on the relationship between sociocultural change, biography, and ideological innovation. Offered: jointly with HIST 309.

**CHID 314 The Psychoanalytic Revolution in Historical Perspective (5) I&S** Genesis and evolution of Freudian theory in context of the crisis of liberal-bourgeois culture in central Europe and parallel developments in philosophy, literature, and social theory. Emergence and division of the psychoanalytic movement. Transformation of psychoanalysis in British, French, and especially American cultural traditions. Offered: jointly with HIST 314.

**CHID 332 Disability and Society: Introduction to Disability Studies (5) I&S** Introduction to the field of disability studies. Focuses on theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in social creation/construction (framing) of disability and effects on those claiming and/or labeled as disabled. Offered: jointly with LSJ 332.

**CHID 350 Women in Law and Literature (5) I&S/VLPA** Representations of women in American law and literature. Considers how women's political status and social roles have influenced legal and literary accounts of their behavior. Examines how legal cases and issues involving women are represented in literary texts and also how law can influence literary expression. Offered: jointly with WOMEN 350.

**CHID 370 The Cultural Impact of Information Technology (5) I&S/VLPA Thurtle** Utilizing approaches from the history of technology, cultural studies, and literary theory, seeks to analyze the cultural and social impact of information technology. Considers how information technologies impact our relationships with others, our concept(s) of self, and the structure of the communities to which we belong. Offered: jointly with COM 302.

**CHID 380 The Nature of Religion and its Study (5) I&S Jaffee, Webb** Study of religion as a general human phenomenon. Manner in which different methods of inquiry (phenomenology, anthropology, sociology, psychology, literary

criticism, archaeology, philosophy, theology) illuminate different aspects of religion and shape our conceptions of its nature. Recommended: RELIG 201 or RELIG 202. Offered: jointly with RELIG 380.

**CHID 390 Colloquium in the History of Ideas (5) I&S** *Thurtle, Toews* Basic theoretical issues in the comparative history of ideas as a disciplined mode of inquiry; examination of representative historical figures and problems. Primarily for majors.

**CHID 433 Disability Law, Policy, and the Community (5) I&S** Seminar addressing legal rights of disabled people, history of disability policy in the United States, and the role of community activism and other forces in policy development and systems change. Introduction to the existing social service systems that affect disabled people. Recommended: LSJ 332. Offered: jointly with LSJ 433.

**CHID 434 Civil and Human Rights Law for Disabled People (5) I&S** Designed for students interested in expanding their knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Recommended: LSJ 332. Offered: jointly with LSJ 434; A.

**CHID 444 Eye and Mind (5) VLPA/I&S/NW** *Thurtle* Investigates life as an emergent phenomenon across the disciplines of biophilosophy, art, art history, literary criticism, and information studies with an emphasis on interdisciplinary methods. Addresses key issues in phenomenology, social theory, contemporary bioart, and complexity studies.

**CHID 459 Narrative Journalism (5) VLPA/I&S** *Kaplan* Introduces the rigorous reporting and literary writing techniques involved in narrative journalism. Concentrates on producing three narrative articles for publication in the online, reader-interactive magazine, *Narrative Journalist*. Offered: jointly with COM 459.

**CHID 470 CHID Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 471 Europe Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 472 Latin America Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 473 Africa Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 474 Asia Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 475 East Asia Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 476 South Pacific Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 477 Middle East Study Abroad (5, max. 15) I&S** For participants in study-abroad program. Specific course content varies.

**CHID 480 Special Topics: Advanced Study of the History of Ideas (5, max. 15) I&S** *Thurtle* Examines a different subject or problem from a comparative framework with an interdisciplinary perspective. Offered: AWSp.

**CHID 484 Colonial Encounters (5) I&S** History of European colonialism, focusing on British, French, and Dutch colonial encounters from 1750s to 1950s. Units on colonial law, medicine, religion, sexuality, and commodity culture. Offered: jointly with HSTEU 484.

**CHID 490 Research Seminar (5) VLPA/I&S** *Thurtle, Toews* Intensive readings in specific topic. Students complete individual research projects. Satisfies the CHID senior thesis requirement. Prerequisite: CHID 390.

**CHID 491 Senior Thesis (5-) I&S** Critical and methodological issues. Required of candidates for an honors degree.

**CHID 492 Senior Thesis (-5-) I&S** Critical and methodological issues. Required of candidates for an honors degree.

**CHID 493 Senior Thesis (-5) I&S** Research and writing of thesis under supervision of a faculty member. Required of candidates for an honors degree.

**CHID 495 Close Readings in Theory (5) I&S** Close readings of a specific work, author, artist, or body of work.

**CHID 496 Focus Groups (1-2, max. 4) Credit/ no credit only.**

**CHID 497 Peer Facilitators (5)**

**CHID 498 Special Colloquia (1-5, max. 20) I&S** Each colloquium examines a different subject or problem from a comparative framework. A list of topics is available from the CHID office.

**CHID 499 Undergraduate Independent Study or Research (1-5, max. 10)** Supervised independent study for students who wish to pursue topics not available in regular course offerings.

---

## Comparative Literature

**C LIT 200 Introduction to Literature (3/5) VLPA** Reading, understanding, and enjoying literature from various countries, in different forms of expression (e.g., dramatic, lyric, narrative, rhetorical) and of representative periods. Emphasis on the comparative study of themes and motifs common to many literatures of the world.

**C LIT 210 Literature and Science (5, max. 15) VLPA** Introduces the rich and complex relationship between science and literature from the seventeenth century to the present day. Students examine selected literary, scientific, and philosophical texts, considering ways in which literature and science can be viewed as forms of imaginative activity.

**C LIT 211 Literature and Culture (5, max. 15) I&S/VLPA** Study of literature in its relation to culture. Focuses on literature as a cultural institution, directly related to the construction of individual identity and the dissemination and critique of values.

**C LIT 230 Introduction to Folklore Studies (5) I&S/VLPA** Comprehensive overview of the field of folkloristics, focusing on verbal genres, customs, belief, and material culture. Particular attention to the issues of community, identity, and ethnicity. Offered: jointly with SCAND 230.

**C LIT 240 Writing in Comparative Literature (5, max. 15) C** Comparative approach to literature and a workshop in writing comparative papers in English. Emphasis on cross-cultural comparison of literary works. Readings in English with an option to read selected texts in the original languages Offered: AWSp.

**C LIT 270 Perspectives on Film: Introduction (5) VLPA** Introduction to film form, style, and techniques. Examples from silent film and from contemporary film. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

**C LIT 271 Perspectives on Film: Great Directors (5) VLPA** Introduction to authorship in the cinema. The work of a major director or directors. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

**C LIT 272 Perspectives on Film: Genre (5) VLPA** Introduction to study of film genre. Literary, mythic, and historic aspects of film genre. 270, 271, 272 are designed to be taken as a sequence, but may be taken individually.

**C LIT 300 Introduction to Comparative Literature: Forms, Genres, History (5) VLPA** An introduction to comparative literary study designed for departmental majors. Examines how literary forms and genres shape our reading of texts; how these forms and genres change over time; and how literary forms and genres manifest themselves in different cultural traditions. Includes theoretical readings and substantial writing.

**C LIT 301 Theory of Film: Analysis (5) VLPA** Introduction to the analysis of film. Covers major aspects of cinematic form: mise en scene, framing and camera movement, editing, and sound and color. Considers how these elements are organized in traditional cinematic narrative and in alternative approaches.

**C LIT 302 Theory of Film: Critical Concepts (5) VLPA** Overview of the main conceptual problems in film criticism such as: "what is a film?", "what is the relationship between film and reality?", "does a film have a language?", "what is the connection between image and sound?" Follows a historical timeline within five individual sections.

**C LIT 303 Theory of Film: Genre (5) VLPA** Introduction to the history and significance of film genres from the early days of film to the present. Examines a selection of several genres, drawn from a list including western, melodrama, musical, thriller, road odyssey, film noir, and documentary. Topics include form, ideology, authority, history, innovation, and parody.

**C LIT 310 History of Film: 1895-1929 (5) VLPA** Film history from its beginnings in the 1890s through the golden era of silent film in the 1920s. Topics include the invention of major film techniques, the creation of Hollywood and the studios, and movements such as expressionism, constructivism, and surrealism.

**C LIT 311 History of Film: 1930-1959 (5) VLPA** Film history from the introduction of sound

through the late 1950s. Focuses mostly on the golden age of the Hollywood studios and on alternative developments after World War II in Italy (Neo-Realism), France (the New Wave), and Japan.

**C LIT 312 History of Film: 1960 - 1988 (5) VLPA** Covers the vast changes in filmmaking since 1960. Topics include the continuing influence of the French New Wave, the New German Cinema of the 70s and the "New Hollywood" of the 70s, American independent film of the 80s, and the resurgence of Chinese filmmaking since 1980.

**C LIT 313 History of Film: 1989-Present (5) VLPA** Addresses the latest trends in international filmmaking typically with an emphasis on world cinema and issues of globalization and diaspora. Sometimes taught in conjunction with the Seattle International Film Festival.

**C LIT 315 National Cinemas (3-5, max. 15) VLPA** Examines the cinema of a particular national, ethnic or cultural group, with films typically shown in the original language with subtitles. Topics reflect themes and trends in the national cinema being studied. .

**C LIT 320 Studies in European Literature (5, max. 15) VLPA** Examination of the development of European literature in a variety of genres and periods. Possible areas of study include literature from romantic fiction of early nineteenth century through great realist classics of second half of the century or from symbolism to expressionism and existentialism.

**C LIT 321 Studies in Literature of the Americas (5, max. 15) VLPA** Emphasizes connections between twentieth century literature of the United States and Canada and current literature of Latin America. Emphasizes that, despite obvious differences, much is shared in terms of culture and national sensibility across the two continents.

**C LIT 322 Studies in Asian and Western Literatures (5, max. 15) VLPA** Topics designated by individual instructors.

**C LIT 323 Studies in the Literature of Emerging Nations (5, max. 15) VLPA** Novels and short stories, from Africa, the Middle East, and South Asia. Discusses relationship of Western literary genres to an oral literary tradition, as well as issues like colonialism, gender relations, narrative technique, native and non-native languages.

**C LIT 330 The European Fairy Tale (5) VLPA** An introduction to folktales and literary tales from various traditions and periods. A discussion of their origin, special characteristics, dissemination, and relevance to the contemporary reader.

**C LIT 331 Folk Narrative (5) VLPA** Survey of various genres of folk narratives studied in performance contexts to reveal their socio-cultural functions in a variety of milieu. Theory and history of folk narrative study, taxonomy, genre classification, and interpretative approaches. Recommended: SCAND 230 or C LIT 230. Offered: jointly with SCAND 331.

**C LIT 334 Immigrant and Ethnic Folklore (5) I&S/VLPA** Survey of verbal, customary, and material folk traditions in ethnic context. Theories of ethnic folklore research applied to the traditions of American communities of Scandinavian, Baltic, or other European

ancestry. Recommended: SCAND 230 or C LIT 230. Offered: jointly with SCAND 334.

**C LIT 350 Themes in World Literature: Parents and Children (5) VLPA** World literature, from the Renaissance to modern times, based upon the theme of "parents and children." Selections drawn from European, English, and American literature, not limited to period and genre. Focus upon the motive of generational conflict.

**C LIT 351 Themes in World Literature: Love, Sex, and Murder (5) VLPA** World literature, from the Renaissance to modern times, based upon the theme of "love, sex, and murder." Selections drawn from European, English, and American literature, not limited to period and genre. Focus upon the human potential for both great violence and extraordinary compassion.

**C LIT 352 Themes in World Literature: Death and Transfiguration (5) VLPA** Theme of death, transfiguration, and new life in world literature. Selections from Tolstoy, D. H. Lawrence, Celine, E. M. Forster, and other major writers.

**C LIT 357 Literature and Film (3-5, max. 10) VLPA** The film as an art form, with particular reference to the literary dimension of film and to the interaction of literature with the other artistic media employed in the form. Films are shown as an integral part of the course. Content varies.

**C LIT 371 Literature and the Visual Arts (5) VLPA** Focuses on specific theoretical problems. Examines the relationship between text and image in a variety of art forms including poetry, novels, paintings, photography, essays, comic strips, film, and advertisement. Readings, in English, from a wide variety of national literatures.

**C LIT 375 Images of Women in Literature (5, max. 15) VLPA** Comparative study of the ways women's image, social role, and psychology have been portrayed by writers of various nationalities and literary periods. Selection of theme varies from quarter to quarter. Works are read in English translation.

**C LIT 376 Violence, Myth, and Memory (5) VLPA/I&S Benitez, Sears** Explores how images and ideas of power, violence, and global modernity circulate in films and novels, memories and discourses about U.S. relations with Vietnam, the Philippines, and Indonesia. Topics include foundational myths, colonial and post-colonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with SISSE 376.

**C LIT 396 Special Studies in Comparative Literature (3-5, max. 10) VLPA** Offered by visitors or resident faculty. Content varies.

**C LIT 397 Special Topics in Cinema Studies (3-5, max. 10) I&S/VLPA** Varying topics relating to film in social contexts. Offered by resident or visiting faculty.

**C LIT 400 Introduction to Theory and Criticism (5) VLPA** A selection of major theoretical statements in the history of literary theory and criticism, with texts drawn from such fields as literary studies, aesthetic theory, film studies, philosophy, and cultural studies.

**C LIT 410 Studies in Literary History (5, max. 15) VLPA** Introduction to a major figure or movement associated with the development of

literary history. Through the study of one aspect of literary history students gain a thorough understanding of a particular point of view, while exploring the breadth of contemporary approaches to literature.

**C LIT 421 Studies in Connections: Literature and Other Disciplines (5, max. 15) VLPA** Examines the links between literature and other disciplines or art forms. Literature and history, literature and philosophy, literature and music, literature and the visual arts are all appropriate topics. Selection of focus depends on instructor.

**C LIT 422 Studies in Genre (5, max. 15) VLPA** Major genres of world literature: poetry, fiction, drama. Readings, in English from a wide selection of national literatures.

**C LIT 424 The Epic Tradition (5) VLPA** Ancient and medieval epic and heroic poetry of Europe in English: the Iliad, Odyssey, and Aeneid; the Roland or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies. Literary background recommended. Offered: jointly with CLAS 424.

**C LIT 430 Readings in Folklore (5) VLPA** Exploration of theoretical and methodological issues in folklore studies through independent reading of journal articles published during the last five years. Recommended: SCAND 230 or C LIT 230. Offered: jointly with SCAND 430.

**C LIT 431 The Northern European Ballad (5) VLPA** Integrative study of the Northern European Ballad, with an emphasis on texts, performance, context, history, theory, genre classification, and interpretive approaches. Offered: jointly with SCAND 431.

**C LIT 432 Technology and Culture in the Making of Contemporary Empires (5) I&S Benitez, Rodriguez-Silva** Explores the struggles that shaped organization of the U.S. empire at the turn of the 20<sup>th</sup> century, focusing on how empire's materials, cultural, and ideological boundaries were drawn. Topics include race, gender, and class as colonial formations; technologies of imperial governance such as public health, citizenship and territory; and popular culture. Offered: jointly with SISSE 432.

**C LIT 490 Directed Study or Research (1-5, max. 10)** Individual study of topics in comparative literature by arrangement with the instructor and the Comparative Literature office.

**C LIT 491 Internship (1-5, max. 5)** Supervised experience in local businesses and other agencies. Open to upper-division Comparative Literature and Cinema Studies majors. Recommended: 25 credits of C LIT courses.

**C LIT 493 Comparative Literature Honors Seminar (5, max. 15) VLPA** Special topics in comparative literature. Required of honors students in comparative literature.

**C LIT 495 Honors Thesis (5) VLPA** Preparation of an honors thesis under the direction and supervision of a faculty member.

**C LIT 496 Special Studies in Comparative Literature (3-5, max. 15) VLPA** Offered occasionally by visitors or resident faculty. Content varies.

**C LIT 497 Special Topics in Cinema Studies (3-5, max. 10) VLPA** Varying topics in Cinema Studies. Offered by resident or visiting faculty.

**C LIT 500 The Theory of Literature I: The Literary Text (5, max. 15)** An investigation into the nature of literature in contrast to other forms of writing and into essential features of literature such as genres, imagery, modes of communication, and structure.

**C LIT 501 The Theory of Literature II: History of Literature (5, max. 15)** An exploration of topics of literary history such as periods, traditions, the writing of literary history, and literary history in contrast to other histories.

**C LIT 502 The Theory of Literature III: Special Topics (5, max. 15)** Offerings vary to cover topics such as individual theorists, theoretical movements, or the intersection of literary theory with other disciplines or arts (psychoanalysis, structuralism, ethics, aesthetics).

**C LIT 507 History of Literary Criticism and Theory I (5, max. 15)** A general introduction to the major issues in the history of criticism followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with ENGL 507.

**C LIT 508 History of Literary Criticism and Theory II (5, max. 15)** Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with ENGL 508.

**C LIT 509 History of Literary Criticism and Theory III (5, max. 15)** Literary Criticism and theory from Kant's *Critique of Judgment* to the mid-twentieth century and the work of Northrop Frey. Offered: jointly with ENGL 509.

**C LIT 510 History of Literary Criticism and Theory IV (5, max. 15)** A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with ENGL 510.

**C LIT 511 Literary Translation (5, max. 15)** Lectures on principles of translating literary works into readable English. Students present and comment on translations made by them and write seminar papers on problems of translation in theory and practice.

**C LIT 516 Colloquium in Criticism (5, max. 15)** Recent trends in literary criticism, taught by representatives from various literature departments, covering critical trends such as structuralism, poststructuralism, hermeneutics, reception theory, and sociological approaches to literature.

**C LIT 517 Colloquium in Folklore (5)** Recent trends in folklore studies, taught by representatives from various literature departments and disciplines in the social sciences.

**C LIT 518 Colloquium in Medieval Studies (5)** Salient literary aspects of the European Middle Ages, taught by representatives from various literature departments as well as from related disciplines, such as philosophy, art history, history, and comparative religion.

**C LIT 530 Cultural Criticism and Ideology Critique I (5, max. 15)** A study of the main attempts to come to an understanding of the humanities and the nature of historical interpretation in a cultural context.

**C LIT 535 Cultural Criticism and Ideology Critique II (5, max. 15)** Offerings vary to cover individual theorists and particular manifestations of cultural criticism and ideology critique.

**C LIT 545 Medieval Studies (3/5, max. 15)** Literature, intellectual history, and sociology of the Middle Ages, 500-1200. Topics may include "renaissance" of the twelfth century; the educational ideal; rise of universities; philosophical concepts.

**C LIT 546 Studies in Renaissance and Baroque (3-5, max. 10)** Aspects of Western European literature during the Renaissance and Baroque period. Course content varies.

**C LIT 547 Studies in Eighteenth-Century Literature (3-5, max. 10)** Examination of various trends in eighteenth-century literature including the Enlightenment, Rationalism, Pre-Romanticism, and Neo-Classicism. Course content varies with instructor.

**C LIT 548 Studies in Nineteenth-Century Literature (3-5, max. 10)** Examination of various trends in nineteenth century literature including Romanticism, Realism, Naturalism, and Symbolism.

**C LIT 549 Twentieth-Century Literature (3-5, max. 10)** Selected movements, schools, and trends of significance in twentieth-century literature of Europe and Americas. Symbolism, surrealism, dada, expressionism, neorealism, existentialism, nouveau roman, and absurd may be considered. Texts in English, French, and German figure most prominently, but Spanish, Italian, Russian, and other materials may be examined. Content and emphasis vary.

**C LIT 570 The Novel: Theory and Practice (3-5, max. 15)** Study of the novel as a genre, examining two or more novels of varying national literatures. Course content varies.

**C LIT 571 The Lyric: Theory and Practice (3-5, max. 15)** Examination of central questions in the study of the lyric genre as approached from an international point of view. Course content varies.

**C LIT 572 The Epic: Theory and Practice (3-5, max. 15)** Examination of epic literature as exemplified by selected works chosen from various cultures and periods (e.g., French and German medieval courtly epic, the epic in Renaissance and baroque Europe, traditions of the mock epic). Course content varies.

**C LIT 573 The Drama: Theory and Practice (3-5, max. 15)** Examination of various aspects of the drama as a major literary genre, as approached from international and multilingual points of view. Course content varies.

**C LIT 576 Seminar in East-West Literary Relations (3-5, max. 15)** Comparative investigation of literary topics requiring the study of both Eastern and Western documents. Explores parallels and contradictions between the two, in concepts, ideas, and specific topics. A comparative paper on a chosen topic with qualified conclusions is required. Emphasis varies. Prerequisite: at least one East Asian language.

**C LIT 590 Master of Arts Essay (5/10, max. 10)** Research and writing project under the supervision of a faculty member.

**C LIT 596 Special Studies in Comparative Literature (3-5, max. 15)** Offered occasionally by visiting or resident faculty. Course content varies.

**C LIT 599 Special Seminar or Conference (1-9, max. 30)** Group seminars or individual conferences scheduled to meet special needs. Prerequisite: permission of graduate program adviser.

**C LIT 600 Independent Study or Research (\*)**

**C LIT 700 Master's Thesis (\*)**

**C LIT 800 Doctoral Dissertation (\*)**

---

## Dance

**DANCE 101 Introduction to Dance (5) VLPA** Introduction to dance as an art form. Lectures in dance appreciation. Studio experience in ballet and modern dance techniques and composition. Attendance required at outside events.

**DANCE 102 Introduction to Dance (5, max. 10) VLPA** Introduction to dance as an art form. Lectures in dance appreciation. Studio experience in ballet or modern dance techniques, may include experience in both techniques. Attendance required at outside events. Prerequisite: DANCE 101.

**DANCE 103 Introduction to Dance (5, max. 10) VLPA** Introduction to dance as an art form. Lectures in dance appreciation. Studio experience in ballet or modern dance techniques, may include experience in both techniques. Attendance required at outside events. Prerequisite: DANCE 102.

**DANCE 104 Modern Technique (1-8, max. 8) VLPA** Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: either DANCE 101 or DANCE 102.

**DANCE 105 Modern Technique (1-8, max. 8) VLPA** Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: DANCE 104.

**DANCE 106 Modern Technique (1-8, max. 8) VLPA** Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: DANCE 105.

**DANCE 107 Ballet Technique (1-8, max. 8) VLPA** Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: either DANCE 101 or DANCE 102.

**DANCE 108 Modern Technique (1-8, max. 8) VLPA** Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: DANCE 107.

**DANCE 109 Ballet Technique I (1-8, max. 8) VLPA** Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: DANCE 108.

**DANCE 110 Jazz Technique I (1-4, max. 4) VLPA** Introduction to jazz technique. Dance performance attendance required.

**DANCE 111 Jazz Technique I (1-4, max. 4) VLPA** Introduction to jazz technique. Dance performance attendance required.

**DANCE 112 Jazz Technique I (1-4, max. 4)**

**VLPA** Introduction to jazz technique. Dance performance attendance required.

**DANCE 166 Dance Composition I (5) VLPA**

Introduction to the principles of dance composition through improvisation.

**DANCE 201 Ballet Technique II (1-8, max. 8)**

**VLPA** Advanced-beginning level. Continued development of all beginning areas. Expansion of ballet vocabulary. Prerequisite: DANCE 109.

**DANCE 202 Ballet Technique II (1-8, max. 8)**

**VLPA** Advanced-beginning level. Continued development of all beginning areas. Expansion of ballet vocabulary. Prerequisite: DANCE 201.

**DANCE 203 Ballet Technique II (1-8, max. 8)**

**VLPA** Advanced-beginning level. Continued development of all beginning areas. Expansion of ballet vocabulary. Prerequisite: DANCE 202.

**DANCE 204 Modern Dance Technique II (1-8, max. 8) VLPA**

Advanced-beginning level technique. Continued development of all beginning areas and expansion of movement vocabulary. Prerequisite: DANCE 106.

**DANCE 205 Modern Dance Technique II (1-8, max. 8) VLPA**

Advanced-beginning level technique. Continued development of all beginning areas and expansion of movement vocabulary. Prerequisite: DANCE 204.

**DANCE 206 Modern Dance Technique II (1-8, max. 8) VLPA**

Advanced-beginning level technique. Continued development of all beginning areas and expansion of movement vocabulary. Prerequisite: DANCE 205.

**DANCE 210 Jazz Technique II (1-4, max. 4) VLPA**

Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary. Dance performance attendance required.

**DANCE 211 Jazz Technique II (1-4, max. 4) VLPA**

Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary. Dance performance attendance required.

**DANCE 212 Jazz Technique II (1-4, max. 4) VLPA**

Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary. Dance performance attendance required.

**DANCE 230 Alternative Movement Studies (1-3, max. 9) VLPA**

Introduction to an alternative approach to movement study. Topics vary.

**DANCE 231 Folk-Social Dance Forms (1-2, max. 6) VLPA**

Studio course in folk dance and social dance forms. Topics vary, and may include salsa or swing. Prerequisite: one year of previous dance experience.

**DANCE 232 Intermediate Alternative Movement Studies (1-3, max. 9) VLPA**

Study of an alternative approach to movement at the intermediate level. Topics vary.

**DANCE 233 Advanced Alternative Movement Studies (3) VLPA**

Study of an alternative approach to movement at the advanced level. Topics vary. Prerequisite: DANCE 232.

**DANCE 324 Partnering Techniques (1-2, max. 6) VLPA**

Studio course in partnering techniques

used in social dance and contemporary dance practices, or classical dance. Prerequisite: intermediate level technique.

**DANCE 235 Integrated Dance: Training and Composition (3, max. 9) VLPA/I&S Koch**

Investigates and explores ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses composition and movement technique utilized by integrated dance. Culminates in performance in Faculty Dance Concert. Offered: W.

**DANCE 242 Music in Relation to Dance (3) VLPA**

**Moore** Provides students with music skills necessary to the areas of dance pedagogy, performance, choreography, dance analysis/criticism, and production. Includes an introduction to music theory, compositional and rhythmic analysis, music for dance class, and training on music/sound editing equipment. Offered: W.

**DANCE 250 Cross-Cultural Dance Studies (1-5, max. 8) I&S/VLPA Cooper**

Gateway course for dance major. Examines dance as a universal activity and expression of cultural identity. Offers a cross-cultural and historical view of a variety of theatrical, vernacular, and sacred dance forms, and investigates the myriad ways that dance functions across societies. Offered: A.

**DANCE 266 Dance Composition II (3-5, max. 10) VLPA**

Dance composition in relation to music. Emphasis on solos and small groups. Prerequisite: DANCE 166. Offered: W.

**DANCE 270 Dance Performance Activities (1-3, max. 9) VLPA Bracilano**

May include performance, choreography, production crew, or stage management in Dance program produced concerts under faculty supervision. Credit/no credit only.

**DANCE 301 Ballet Technique III (1-8, max. 8) VLPA**

Intermediate level. Expansion of ballet vocabulary. Prerequisites: DANCE 203.

**DANCE 302 Ballet Technique III (1-8, max. 8) VLPA**

Intermediate level. Expansion of ballet vocabulary. Prerequisites: DANCE 301.

**DANCE 303 Ballet Technique III (1-8, max. 8) VLPA**

Intermediate-level. Expansion of ballet vocabulary. Prerequisite: DANCE 302.

**DANCE 304 Modern Dance Technique III (1-8, max. 8) VLPA**

Intermediate-level technique. Expansion of movement vocabulary. Prerequisite: DANCE 206.

**DANCE 305 Modern Dance Technique III (1-8, max. 8) VLPA**

Intermediate-level technique. Expansion of movement vocabulary. Prerequisite: DANCE 304.

**DANCE 306 Modern Dance Technique III (1-8, max. 8) VLPA**

Intermediate-level technique. Expansion of movement vocabulary. Prerequisite: DANCE 305.

**DANCE 336 Integrated Dance: History, Methodology, and Praxis (3, max. 9) VLPA/I&S Koch**

Investigates and practices ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses the history, background and varying practices of integrated dance. Offered: W/Sp.

**DANCE 344 Early Dance History (3-5, max. 5) I&S/VLPA Cooper**

Explores Western theatre dance history from Renaissance court dance to development in ballet history through the mid-20th century. Examines dance practices in cultural/historical context. Assigned readings, in-depth analyses of dances on video guide a discussion of form, content, interpretation, and critical reception. Offered: A; alternative years.

**DANCE 345 Late Dance History (3-5, max. 5) I&S/VLPA Salk**

Examines the development of social and performance-based dance from the beginning of the 20<sup>th</sup> century to the present with particular emphasis on major international stylistic trends, cultural influences, and principal artists and their work. Offered: A; alternative years.

**DANCE 350 Dance/Performance Ethnography (5) VLPA/I&S**

Explores theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses primarily on dance. Also discusses methods and theories applicable to other physical practices such as music, theatre, sports, and performance arts.

**DANCE 366 Dance Composition III (3-5, max. 10) VLPA**

Dance composition in relation to production, including elements of technology. Emphasis on larger group works. Prerequisite: DANCE 166. Offered: Sp.

**DANCE 371 Choreographic Workshop (2-5, max. 12) VLPA**

Performing experience for students in pieces choreographed by faculty members and guest choreographers.

**DANCE 420 Dance Aesthetics (3) I&S/VLPA Woody**

Philosophical investigation of the expressive elements of dance. Reading and discussion of the concepts of beauty, style, and aesthetic theory.

**DANCE 480 Senior Seminar (3) VLPA**

Culminating project emphasizing a synthesis of experiences in the Dance Program with a focus on individual interests.

**DANCE 490 Special Studies in Dance (1-3, max. 10) VLPA**

Special studies designed to address contemporary and historical concerns in the field of dance.

**DANCE 493 Anatomy for Dance (3-5) NW/VLPA Wiley**

Anatomy of the musculoskeletal system and its applications in dance movement.

**DANCE 494 Dance Teaching Methodologies (3-5) VLPA Salk**

Introduction to dance pedagogy, including educational theory, motor learning, and biomechanical principles and music as it relates to the teaching of dance. Prerequisite: DANCE 242, DANCE 493, and a minimum of one quarter of ballet and/or modern technique at the 300 level or above.

**DANCE 499 Undergraduate Independent Study (\*, max. 10)**

**DANCE 510 Chamber Dance Production (3, max. 12) Wiley** Rehearsal and performance of significant choreography from the modern dance canon. Credit/no credit only.

**DANCE 515 Dance Research Methods (3) McMains**

Survey of the theoretical modes of inquiry in current dance scholarship. Offered: Sp.

**DANCE 516 Research Methods II (3)** Focuses on designing an original research project, conducting research, and writing a scholarly paper suitable for publication in a juried journal or conference presentation. Practice in conference presentation. Offered: S.

**DANCE 520 Dance in Higher Education (3)** *Wiley* Discussion, writing, and observation of dance in higher education. Offered: A.

**DANCE 521 Dance Administration (3)** Readings and discussion relating to dance administration in college and professional settings. Topics include: curricular development, academic advising, budgetary procedures, personnel issues, and problems related to dance as a performing art within the university structure.

**DANCE 530 Choreographer/Composer Collaboration (2, max. 6)** Addresses creative process, pedagogy, performance, directing, and critical analysis in dance composition. Alternate years offer models and creative workshop projects toward a concert of collaborative work with students from DXARTS. Offered: A.

**DANCE 531 MFA Concert Production (3, max. 9)** Public performance of MFA choreography. On alternative years this is a collaborative concert between MFA choreographers and artists working in experimental media and digital arts. Offered: Sp.

**DANCE 536 Integrated Dance: History, Methodology, and Praxis (3, max. 9)** *Koch* Investigates and practices ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses the history, background and varying practices of integrated dance. Offered: Sp.

**DANCE 544 Early Dance History (3-5, max. 5)** *Cooper* Explores Western theatre dance history from Renaissance court dance to development in ballet history through the mid-20th century. Examines dance practices in cultural/historical context. Assigned readings, in-depth analyses of dances on video guide a discussion of form, content, interpretation, and critical reception. Offered: A; alternative years.

**DANCE 545 Late Dance History (3-5, max. 5)** *Salk* Examines the development of social and performance-based dance from the beginning of the 20<sup>th</sup> century to the present with particular emphasis on major international stylistic trends, cultural influences, and principal artists and their work. Offered: A; alternative years.

**DANCE 550 Dance Performance Ethnography (3) VLP/IA&S McMains** Theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses on dance-methods and theories discussed also applicable to other physical practices such as music, theatre, sports and performance art. Offered: W.

**DANCE 570 Dance Production Seminar (3)** *Bracilano* Surveys the process of dance production from audition to performance. Managing design, technology, and personnel to support the creative process from conceptual stages to production. Offered: S.

**DANCE 590 Dance Teaching Methodologies (3-5)** *Salk* Introduction to dance pedagogy with

an emphasis on motor learning skills and biomechanics. Practical teaching experience. Offered: W.

**DANCE 595 Master's Project (3)** Project in area of interest developed in consultation with faculty advisor and supported by elective courses. Full faculty approval of proposed project by end of first year. Formal presentation, appropriate to project's content, presented to full faculty during second year. Project culminates in the teaching of an undergraduate dance course.

**DANCE 600 Independent Study or Research (\*)**

---

## Digital Arts and Experimental Media

**DXARTS 198 Digital Arts Seminar (5, max. 10) VLP/PA** Topics vary and are announced during the preceding quarter. Taught by UW faculty and visiting artists, engineers, scientists, and humanities scholars.

**DXARTS 200 Digital Art and New Media: History, Theory, and Practice (3) VLP/PA** Provides a historical and critical overview of artists and scientists pioneering the digital arts. Discusses important digital media issues from aesthetics, creative strategies, emerging trends, and socio-cultural aspirations.

**DXARTS 201 Fundamentals of Digital and Experimental Art I (5) VLP/PA** Principles of digital media creation through a combination of lectures, practical assignments, and studio seminars. All resources, assignments, and reviews are web-based. Requires access to a fast, networked computer outside of class. Prerequisite: DXARTS 200.

**DXARTS 202 Fundamentals of Digital and Experimental Art II (5) VLP/PA** Server-based art course. Introduces principles of digital media creation. All resources, assignments, and reviews are web-based. Requires access to a fast, networked computer outside of class. Prerequisite: DXARTS 201.

**DXARTS 400 Undergraduate Research Studio (2, max. 6) VLP/PA** Covers recent advances and current trends in digital arts and experimental media research. Topics may include in-depth examination of new artwork and research by pioneering figures in the field.

**DXARTS 411 Applications of Digital Technologies to Humanities Research (5) VLP/PA** Hands-on project-based approach to imaging, new media, text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research. Offered: jointly with HUM 411.

**DXARTS 430 Algorithmic Processes in the Arts (5) VLP/PA** Basics of computer programming and algorithmic thinking in digital arts. Emphasis on experimental art forms where building of custom software is integral to realizing an artistic vision.

**DXARTS 440 Fundamentals of Interactive 3D Art (5) VLP/PA Andrews** Introduction to fundamental techniques for the creation of interactive graphics-based three-dimensional digital art. Concepts and techniques include the use of scripting and modeling as methods for designing

spaces. Strong emphasis on interactivity, aesthetics, and the exploration of time-based art. Contextualizes navigable digital environments within the history of the visual arts.

**DXARTS 441 3D Space I: Computer Modeling and Environments (5) VLP/PA Andrews** Introduction to 3D graphics for experimental artists. Utilizes sophisticated software tools to explore object modeling, environment construction, surface texturing, and image rendering. Through lectures, viewings, tutorials, and projects, students develop a multi-purpose skill set that can be used for innovative content creation, visualization, project planning, documentation, and cross-media integration. Offered: A.

**DXARTS 442 3D Space II: Computer Motion and Advanced Techniques (5) VLP/PA Andrews** Further investigation into 3D visualization for experimental artists. Building on foundations established DXARTS 441, introduces methods for orchestrating movement, including deformation, dynamics, and rigging. Also covers techniques such as particle systems, simulation, and scripting, giving students experience using advanced tools for envisioning and creating original artwork. Prerequisite: DXARTS 441. Offered: W.

**DXARTS 443 3D Space III: Special Topics in 3D Computer Arts (5) VLP/PA Andrews** In-depth exploration of topics in advanced 3D arts research, specific subjects vary. Students integrate skill developed in DXARTS 441 and DXARTS 442 to realize ambitious art projects related to particular class focus. Sample topics include virtual reality, interactive 3D, networked environments, and rapid prototyping. Prerequisite: DXARTS 442. Offered: Sp.

**DXARTS 450 Digital Video Foundations (5) VLP/PA Brixey** Digital video studio designed towards the individual creation of experimental short films and video art. Emphasis on art-making, conceptual thinking, and experimentation. Focuses on core generative processes of digital film, including preproduction, production, and presentation. Students work individually and in small teams.

**DXARTS 451 Introduction to Experiments in Digital Video: The Architecture of Time I (5) VLP/PA** Introduction to the skills and concepts used in digital video production. Includes exposure to industry standard equipment, terminology, and digital video production skills in experimental arts context. Basic research areas include field production and electronic image gathering, field and studio lighting, basic non-linear editing. Offered: A.

**DXARTS 452 Experiments in Digital Video: The Architecture of Time II (5) VLP/PA** Nonlinear and nondestructive editing methods used in digital video are defining new architectures of time for cinematic creation. Continues previous digital video research with intermediate nonlinear editing, digital audio, compositing, and digital effects. Focuses specifically on student research with alternative cinematic strategies in an experimental arts context. Prerequisite: DXARTS 451. Offered: W.

**DXARTS 453 Experiments in Digital Video: The Architecture of Time III (5) VLP/PA** Further skills and concepts taught in DXARTS 450 and 451. Emphasizes development of advanced research interests. Research topics include interactive video installation, web-based e-

cinema projects, anamorphic image research, video and electronics as support systems for installation, CCTV research, basic D D authoring, and live keying techniques. Prerequisite: DXARTS 452. Offered: Sp.

**DXARTS 460 Digital Sound (5) VLPA**

Foundations of digital sound for digital arts applications. Digital sound theory; transducers; audio signals; mixer architectures; field recording strategies. Multi-track editing for recording, analysis, editing, montage, mixing, synchronization, and mastering. Problem-solving for innovative applications in video, multi-media, and installation art.

**DXARTS 461 Digital Sound Synthesis (5) VLPA**

Introduction to software sound synthesis techniques. Includes acoustics and psychoacoustics; virtual synthesizers and unit generators; table-lookup oscillators and wavetable synthesis; additive synthesis; modulation synthesis; ring amplitude, phase and frequency; granular synthesis; noise; subtractive synthesis and filters. Offered: jointly with MUSIC 401; A.

**DXARTS 462 Digital Sound Processing (5) VLPA**

Introduction to digital sound processing techniques. Includes sampling techniques and time-domain transformation of samples sound; sample-rate conversion; sound granulation and time stretching; delay lines; introduction to digital filtering; FIR and IIR filters; digital effects; reverberation; virtual-room acoustics and dynamic sound location. Prerequisite: DXARTS 461/MUSIC 401. Offered: jointly with MUSIC 402; W.

**DXARTS 463 Advanced Digital Sound Synthesis and Processing (5) VLPA**

Advanced sound processing and synthesis techniques. Includes sound time warping; analysis-synthesis techniques; linear predictive coding; the phase vocoder; frequency-domain sound transformations; introduction to physical modeling. Prerequisite: DXARTS 462/MUSIC 402. Offered: jointly with MUSIC 403; Sp.

**DXARTS 470 Sensing and Control Systems for Digital Arts (5) VLPA**

Software- and hardware-based tools and approaches to real-time I/O and electromechanical control in performance, art installations, and other digital arts applications. Focus on prepackaged but flexible tools. Real-time systems programming and design.

**DXARTS 471 Mechatronic Art, Design, and Fabrication I (5) VLPA**

A systems based approach to design and fabrication of functional experimental art devices. Combines principles of mechanical, electronic, electrical, software engineering, robotics, motion control, sensors, actuators, and other control devices. Integrated review of new hardware and software components. Offered: A.

**DXARTS 472 Mechatronic Art, Design, and Fabrication II (5) VLPA**

Continues the systems based approach to the design and fabrication of functional experimental art devices. Combines principles of mechanical, electronic and electrical engineering, software engineering, robotics and motion control, application of sensors, actuators, and other control devices. Prerequisite: DXARTS 471. Offered: W.

**DXARTS 473 Mechatronic Art, Design, and Fabrication (5) VLPA**

Continues systems based approach to the design and fabrication of

functional experimental art devices. Combines principles of mechanical, electronic and electrical engineering, software engineering, robotics and motion control, application of sensors, actuators, and other control devices. Prerequisite: DXARTS 472. : Sp.

**DXARTS 490 Special Topics in Digital Arts and Experimental Media (3-5, max. 15)**

Taught by UW faculty and visiting artists, engineers, scientists, and humanities scholars.

**DXARTS 491 Senior Thesis I (5) VLPA**

Introductory course of the senior thesis sequence. Includes weekly seminars, selection of a thesis topic, and contract with an appropriate faculty advisor. Majors and senior standing only. Offered: A.

**DXARTS 492 Senior Thesis II (5) VLPA**

Second course of the senior thesis sequence. Majors and senior standing only Prerequisite: DXARTS 491. Offered: W.

**DXARTS 493 Senior Thesis III (5) VLPA**

Third course of the senior thesis sequence. Completion and presentation of final project. Majors and senior standing only Prerequisite: DXARTS 492. Offered: Sp.

**DXARTS 495 DXARTS Production Studio (3-15, max 30) VLPA**

Intensive, large-scale, collaborative, experimental media-based art projects. Examples include major interactive art installations, cinematic works, live computer music performances, and mechatronic or telematic collaborations. Topic vary. Offered: A.

**DXARTS 499 Undergraduate Research (1-5, max. 12)**

Supervised independent work on projects and research. Offered: AWSpS.

**DXARTS 500 Research Studio (3, max. 30)**

Covers recent advances and current trends in digital arts and experimental media research. Students discuss and demonstrate their own ongoing research and creative projects. In-depth examination of new artwork and research by pioneering figures in the field. Prerequisite: DXARTS graduate student.

**DXARTS 505 Research Techniques in Digital Arts (3)**

Digital arts research resources; structuring and strategizing research as part of artistic development; standards for writing and publishing; ethics and approach to technology transfer, and issues such as patenting. Prerequisite: DXARTS doctoral student.

**DXARTS 511 Applications of Digital Technologies to Humanities Research (5)**

Hand-on project based approach to imaging, new media, electronic text, metadata and accessibility, rights management, and other issues central to contemporary humanities research.

**DXARTS 517 Psychology of Audio and Visual Perception in the Arts (5)**

Processes behind sound and image perception, with emphasis on cognition and practical applications for artists. Includes cross-modal theory and synaesthesia. Prerequisite: DXARTS graduate student.

**DXARTS 528 Real-Time Digital Image Processing (5)**

Theory, aesthetics, and practice of real-time video manipulation/performance systems. Theory and high-level programming of image synthesis and processing. Prerequisite: DXARTS 450; DXARTS 531.

**DXARTS 545 Digital Stereoscopic Cinema (5)**

Andrews Exploration of stereoscopic cinema focusing on depth perception as an element in artistic practice. Introduces history, theory, and methods of production for 3D time-based imagery. Students have access to equipment and opportunities to produce work in this format. Prerequisite: DXARTS 442, DXARTS 452, or permission of instructor.

**DXARTS 552 Advanced Topics in Digital Video (5)**

Covers recent advances and current trends in digital video research. May include in-depth examination of new artwork and research by faculty, students, and visiting professionals. Prerequisite: DXARTS 450; and either DXARTS 451 or 452.

**DXARTS 565 Spectral Modeling of Sound (5)**

Theory and practice of sound modeling in the spectral domain. Custom-designed software for spectral modeling and re-synthesis. Implementation of software tools for spectral analysis, transformation, and synthesis. Prerequisite: DXARTS 463.

**DXARTS 567 Sound in Space (5)**

Theory and practice of spatial sound. Custom-designed software for spatial location of sound. Soundfield microphones used for team-based location recording sessions. Prerequisite: DXARTS 463.

**DXARTS 569 Real-time Digital Sound Processing (5)**

Introduction to real-time digital sound processing techniques. Includes: foundation of real-time systems; integration; reactive environments in performance and installation work; interfaces; communication protocols (MIDI, TCP); feature detection; pitch tracking; transient detection; time-domain processing techniques; frequency-domain processing techniques; algorithmic processes. Prerequisite: DXARTS 463.

**DXARTS 598 Advanced Topics in Digital Arts and Experimental Media (3-5, max 21)**

Covers recent advances and current trends in digital arts and experimental media research. Various topics may include in-depth examination of new art work and research by faculty, students, and visiting professions.

**DXARTS 600 Independent Study or Research (1-9) .**

**DXARTS 800 Doctoral Dissertation (\*)** At least 27 hours of dissertation credit is required for the award of a Ph.D. in Digital Arts and Experimental Media. No more than 10 credits may be taken in any quarter, except summer. Credit/no credit only.

---

## Drama

**DRAMA 101 Introduction to the Theatre (5) VLPA**

The theatre as an art form with emphasis on the play in production. The role of the various theatre artists: actors, directors, designers, and playwrights. Required attendance at one or more performances. Lecture and discussion groups. For nonmajors. Offered: AWSp.

**DRAMA 201 Plays and Styles (5) VLPA**

Introduces theatre practitioners to the principles of play construction, to the process of reading and conceiving plays for production, and to the basic vocabulary of artistic styles through which plays are produced.

**DRAMA 210 Theatre Technical Practice (4)**

**VLPA** Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Technical procedures.

**DRAMA 211 Theatre Technical Practice (4)**

**VLPA** *Trout* Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Costumes.

**DRAMA 212 Theatre Technical Practice (4)**

**VLPA** Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Stage lighting.

**DRAMA 213 Introduction to Sound Design for Theatre (4) VLPA**

Explores the how and why of sound and music for theatre. Includes different uses for audio in plays; choosing sounds and pieces of music; basic editing of music, environments, and effects; designing a cohesive world of sound.

**DRAMA 214 Design for Performance (5, max. 10) VLPA**

Introduction to basic concepts of designing for the performing arts. Emphasis on text analysis, collaboration, and on how the visual and aural development of character and environment relate to a written or musical source. Requires tools and materials used in the creation of collages, models, and mini-performances.

**DRAMA 251 Acting (5) VLPA**

Explores theory and practice of fundamentals of American "method," based on principles of Stanislavsky and their American evolution. Development of basic acting skills through monologue work. Offered: A.

**DRAMA 252 Acting (4) VLPA**

Explores theory and practice of fundamentals of American "method," based on principles of Stanislavsky and their American evolution. Preparation of audition material and scene work within the context of entire play. Recommended: DRAMA 251. Offered: W.

**DRAMA 255 UWOnCue (1-4, max. 12) VLPA**

Improvisational, physical, and vocal training. Approach based on Viola Spolin Improvisation, Michael Chekhov acting method. Suzuki physical training, Anne Bogart's Viewpoints training, and Kristin Linklater's vocal training. Enrollment by audition.

**DRAMA 259 Performance Practicum (2-6, max. 12) VLPA**

Special work in various aspects of performance technique.

**DRAMA 290 Theatre Technical Practices Laboratory (1-3, max. 3) VLPA**

Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

**DRAMA 291 Theatre Technical Practices Laboratory (1-3, max. 3) VLPA**

Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

**DRAMA 292 Theatre Technical Practices Laboratory (1-3, max. 3) VLPA**

Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

**DRAMA 298 Theatre Production (1-2, max. 9) VLPA**

Laboratory course for students participating in School of Drama minor productions and projects. Credit/no credit only. Offered: AWSp.

**DRAMA 302 Critical Analysis of Theatre (5)**

**VLPA** *Bryant-Bertail*, Analyses of plays, based on leading critical traditions. Illustrates variety of approaches to a play, criteria for choosing best approach for a given play, and ways in which criticism aids in understanding dramatic effect, for both reader and practitioner. Prerequisite: DRAMA 201. Offered: AWSp.

**DRAMA 305 Computers in the Theatre (5)**

**VLPA** Computing and information systems as problem solving tools for the theatre. Analysis of problems in theatre production and scholarship, with approaches to solutions through computing. Database, spreadsheet, and CAD system applications in the practice and study of lighting and scenic design, theatre management, and research in theatre history and criticism.

**DRAMA 313 Scenery Construction (3) VLPA**

Survey of materials, processes, and equipment in the fabrication, assembly, painting, rigging, and installation of stage scenery and properties. Recommended: DRAMA 210.

**DRAMA 314 Introduction to Design for the Performing Arts (3) VLPA**

*Forrester* Survey of the role of design (scenery, costume, lighting, and sound) in the contemporary performing arts. Consideration of communicative mission and limitations of each of the design areas. Recommended: DRAMA 210; DRAMA 211; DRAMA 212.

**DRAMA 316 Theatrical Makeup (2) VLPA**

Basic principles, with intensive practice in application of makeup for use on proscenium and arena stages. Open to nonmajors.

**DRAMA 350 Introduction to Acting Methods (4) VLPA**

Advanced scene study from three actor-training viewpoints. Approach based in the American "method" through such proponents as Adler, Strasberg, Hagen, Meisner. Exposure to more physically-based systems such as Alexander and Suzuki included. Recommended: DRAMA 252 or equivalent.

**DRAMA 351 Intermediate Acting-Scene Study (4) VLPA**

Actor-training methodologies of Stanislavsky, Meyerhold, Michael Chekov, and other physically-based approaches. Increases understanding of psychological motivation, concentration, focus of attention, clarity of physical expressiveness. Perform three scenes. Recommended: one of DRAMA 210, DRAMA 211, DRAMA 212; two of DRAMA 290, DRAMA 291, DRAMA 292; DRAMA 253; audition; and 2 credits of DRAMA 466 within two quarters. Offered: A

**DRAMA 352 Intermediate Acting-Verse (4) VLPA**

*Parker* Addresses character motivation within classical verse of Shakespeare, Moliere, Racine, etc. Sonnets, monologues, scenes in iambic pentameter and rhyming couplet, exploring rhythm, music, and how these relate to character psychology, motivation. Recommended: one of DRAMA 210, DRAMA 211, DRAMA 212; two of DRAMA 290, DRAMA 291, DRAMA 292; DRAMA 253; audition; and 2 credits of 466 within two quarters. Offered: A

**DRAMA 353 Intermediate Acting — Production (4) VLPA**

Explores the ten-minute play. Focus shifts to full-length play script, developing ensemble playing, sustained concentration, focus of attention, character motivation, and extended through-line. Culminates in public performance. Recommended: one of DRAMA 210, DRAMA 211, DRAMA 212; two of DRAMA

290, DRAMA 291, DRAMA 292; audition; and 2 credits of 466 within two quarters. Offered: Sp.

**DRAMA 365 Ethnic Studies in Drama (3-5, max. 15) I&S/VLPA**

*Curtis-Newton* Theatre and plays, post-World War II to the present. Style, content, and context explored. Emphasis on social, political, and economic milieu from which theatre arose. Playwrights studied may include Alice Childress, August Wilson, Lynn Nottage, Percy Mtwa, Luis Valdez, and Maria Fornes.

**DRAMA 371 Theatre and Society (5) I&S/VLPA**

Introduction to the history of the theatre from the Greeks to the present day. Development of the theatre as a social institution. Reading of major texts from each period.

**DRAMA 373 Women in Theatre (5) VLPA**

Examines both the inclusion and exclusion of women by the cultural practice of theatre. Has two primary aims: to provide an historical overview of women in playwriting, acting, directing and criticism, and to apply contemporary social issues to the practice, texts, and criticism of the stage. Prerequisite: DRAMA 302.

**DRAMA 374 History of Greek and Roman Theatre (5) VLPA**

*Johnson* Survey of Classical and Hellenistic Greek and Roman theatre culture, including texts, architecture, iconography, scenic practices, and conventions of performance from the Festival of Dionysus to the bloodsports of the Roman arenas. Prerequisite: DRAMA 302.

**DRAMA 377 History of Medieval and Renaissance Theatre (5) VLPA**

*Johnson* Survey of the rise of theatre from the early liturgical drama through the High Middle Ages to the Reformation and the great flowering of secular drama in Elizabethan England and the Golden Age of Spain. Prerequisite: DRAMA 302.

**DRAMA 378 History of European Theatre, Renaissance to Revolution (5) VLPA**

*Johnson* Survey of the drama, theatre, and theatre culture from the Italian Renaissance through the French Revolution. Examines the rise of court culture, opera, French neo-classicism, as well as the popular commedia dell'Arte. Prerequisite: DRAMA 302.

**DRAMA 391 Beginning Technical Practices (1-3, max. 9) VLPA**

Laboratory course involving specific production assignments, either in-shop or in-theatre, or both. Recommended: DRAMA 290; DRAMA 291; DRAMA 292.

**DRAMA 401 Senior Seminar (1, max. 2) VLPA**

*Gates* A professional seminar featuring guest artists and career development specialists. Credit/no credit only. Offered: A.

**DRAMA 405 Computer Graphics Systems (3) VLPA**

Introduction to CAD applications in theatre design and technology. Focus on learning to use general purpose graphics software for CAD. Discussion of available hardware and software. Recommended: DRAMA 420. .

**DRAMA 410 Advanced Theatre Technical Practices (2-4, max. 20) VLPA**

Production-related apprenticeship, in the areas of scene construction, scene painting, costume, or lighting. Recommended: DRAMA 210; DRAMA 211; DRAMA 212; DRAMA 418. Offered: AWSp.

**DRAMA 413 Advanced Scene Construction (3) VLPA**

Special problems in scene construction materials and rigging. Recommended: DRAMA

210; DRAMA 212; DRAMA 290; DRAMA 292; DRAMA 410; DRAMA 420.

**DRAMA 414 Scene Design (3, max. 6) VLPA**  
Theory, practice, and rendering of scene designs. Repeat of course involves intermediate designs and models. Recommended: ART H 203; DRAMA 210.

**DRAMA 415 Stage Costume Design (3, max. 6) VLPA** *Trout* Theory, practice, and rendering of costume designs for the theatre. Repeat of course involves intermediate designs. Recommended: ART H 203; DRAMA 211; DRAMA 416 if repeating.

**DRAMA 416 History of Western Dress (5) VLPA** *Gates* Survey history of Western dress. Emphasis on use of this information by theatrical costume designers. Includes development of costume for drama, ballet, and opera. Prerequisite: DRAMA 302.

**DRAMA 417 Stage Costume Patterning and Construction (3, max. 6) VLPA** Techniques of costume construction, including study of fabrics; emphasis on creating patterns by draping. Recommended: DRAMA 211; DRAMA 416.

**DRAMA 418 Scene Painting (3, max. 6) VLPA**  
Lecture-laboratory with focus on techniques and principles of scene painting. Uses of various media and types of equipment as applicable to varied scenic pieces. Recommended: DRAMA 210.

**DRAMA 419 Advanced Stage Lighting Design (3, max. 9) VLPA** Development of a working process consistent with current professional practice. Includes drafting, worksheets, study of color. Students read plays and develop analytical skills. Recommended: DRAMA 212.

**DRAMA 420 Design and Technical Drafting (2, max. 4) VLPA** *Forrester* Laboratory and project critique covering stage design graphics and technical drawing; specifically: designer's elevations, ground plans, sections, detail drawing, transposition of design drawing information to technical drawings. Recommended: DRAMA 210.

**DRAMA 421 Drawing and Rendering Techniques for the Theatre (2, max. 10) VLPA**  
Weekly figure-drawing laboratories with live model and weekly field trips for laboratories in drawing natural phenomena and architectural detail. Studies in historical drawing styles. Practice in use of several media and techniques of expression. Recommended: DRAMA 210; DRAMA 211.

**DRAMA 441 Beginning Playwriting (1-6, max. 12) VLPA** Writing exercises and drafts of a one-act play provide first experience in writing for performance. Readings of representative one-act plays introduce genres and writing styles. Recommended: DRAMA 253 or DRAMA 353; DRAMA 210; DRAMA 211; DRAMA 212.

**DRAMA 450 Rehearsal Laboratory (2, max. 6) VLPA** Acting in projects directed by graduate directing students. Recommended: DRAMA 253.

**DRAMA 451 Advanced Acting — Production Workshop (4) VLPA** Improvisation skills. Methodology employed develops one five-minute solo work, using either original or adaptations of non-dramatic texts. Culminates in two public showings of the five-minute one-person works. Offered: A.

**DRAMA 452 Advanced Acting — Scene Study (4) VLPA** Invites actor to create a role. Script reading for action and consequence. Use and employment of five senses to express a character's life, presenting a coherent and alive person to the stage. Culminates in public performance. Offered: W.

**DRAMA 453 Advanced Acting — Physical Training (4) VLPA** Introduction to physical training methods of Tadashi Suzuki, Kenji Suzuki, and the relationship of their methodologies to Constantin Stanislavsky. Contemporary monologues analyzed for psychological motivation, while exploring the physical analog of "action" as expressed and accessed by the new physical training. Offered: Sp.

**DRAMA 454 Projects in Acting (3, max. 9) VLPA** Rehearsal and classroom performance of dramatic literature of various periods and styles.

**DRAMA 455 Alexander Technique (3) VLPA** *Madden* A practical and theoretical introduction to the Alexander Technique, a psychophysical re-education process developed by F. M. Alexander (1869-1955). Studio application of this work improves physical/vocal coordination, enhances creativity, and clarifies thinking.

**DRAMA 456 Topics in Theatre for Youth (3-5, max. 10) VLPA** Topics in rehearsal and performance of theatre for young audiences; basic principles and techniques for using drama in the classroom; and creating original work for young audiences.

**DRAMA 460 Introduction to Directing (4) VLPA** *Curtis-Newton* Student is introduced to the art of the stage director. Recommended: DRAMA 210; DRAMA 211; DRAMA 212; DRAMA 253 or DRAMA 353; DRAMA 302. Offered: A.

**DRAMA 461 Elementary Directing (4) VLPA** *Curtis-Newton* Elementary study of the art of the stage director. Recommended: DRAMA 460.

**DRAMA 462 Elementary Directing (4) VLPA** Elementary study of the art of the stage director. Recommended: DRAMA 461.

**DRAMA 466 Stage Management (2-5, max. 15) VLPA** *Stewart* Study and practice of stage management. Recommended: DRAMA 210; DRAMA 211; DRAMA 212; DRAMA 290; DRAMA 291; DRAMA 292.

**DRAMA 471 History of the English Restoration and 18th Century Theatre (5) VLPA** *Johnson* Examination of the relationship of the physical theatre and the productions that took place within that theatre. Particular emphasis on the text performed, styles of acting, scenic elements, and the critical theories that influenced the theatre of the period. Prerequisite: DRAMA 302.

**DRAMA 472 European and American Theatre, Revolution to Modernism (1780-1920) (5) VLPA** *Johnson* Survey of the drama, theatre, and theatre culture from the French Revolution into the beginnings of Modernism; social and political aspects of theatre, rise of Romanticism, melodrama, and variety entertainment through the 19th century to the artistic revolution that paved the way for modern theatre. Prerequisite: DRAMA 302.

**DRAMA 473 Modern European Theatre and Drama (5) VLPA** *Witham* Major movements and figures in contemporary European theatre from

French absurdism to the present. Prerequisite: DRAMA 302.

**DRAMA 475 Modern English Theatre and Drama (5) VLPA** *Witham* Major trends in contemporary English theatre, post-World War II to the present. Performers, dramatists, and designers who shaped the course of the theatre following the "angry young rebellion" of the 1950s. Prerequisite: DRAMA 302.

**DRAMA 476 Modern American Theatre and Drama (5) VLPA** *Witham* Major forces shaping modern American theatre, Eugene O'Neill to the present. Leading dramatists, directors, and designers of the post-World War II era. Experiments such as the Federal Theatre Project, Group Theatre, and Living Theatre. Prerequisite: DRAMA 302.

**DRAMA 490 Special Studies in Acting-Directing (1-6, max. 12) VLPA .**

**DRAMA 491 Special Studies in Design-Technical (1-6, max. 6) VLPA .**

**DRAMA 493 Drama Internship (1-6, max. 6)** Supervised experiences in an off campus venue.

**DRAMA 494 Special Studies in Theatre and Drama (5, max. 20) VLPA** *Bryant-Bertail, Johnson, Witham* Topics in drama, history, and criticism. See Time Schedule for specific topic. Prerequisite: DRAMA 302.

**DRAMA 495 Practicum in Design and Technical Theatre (2-6, max. 15) VLPA** Emphasis on developing design and technology problem-solving skills through laboratory and project evaluation. Recommended: DRAMA 211, DRAMA 212, DRAMA 313.

**DRAMA 496 Stage Costume Problems (2, max. 8) VLPA** Specific research problems of stage costume design and execution: accessories, masks, wigs, fabric modification, millinery or construction analysis for specialized costumes. Topics vary. Recommended: DRAMA 211; DRAMA 416.

**DRAMA 498 Theatre Production (1-2, max. 9) VLPA** Laboratory course for students participating in School of Drama major productions. Credit/no credit only. Offered: AWSp.

**DRAMA 499 Undergraduate Research (1-5, max. 15) .**

**DRAMA 502 Designer-Director Analysis (4)** Methods of examining plays to make the collaboration of director and designer productive. Attempts to create a structural whole from visual and verbal approaches to analysis. Prerequisite: graduate standing in drama.

**DRAMA 510 Design Studio (3, max. 18) Korf, Lynch, Trout** Investigation of space, form, light, texture, and color in total theatre design, stressing mastery of the media, methods of presentation and execution, and intelligent and appropriate visual reaction to a dramatic text. Prerequisite: graduate standing in drama.

**DRAMA 512 Lighting Design Seminar (1/4, max. 18)** Forum for graduate lighting students to further explore the art of lighting design. Assignments include paper projects, School of Drama production, and field trips to local theatres. Prerequisite: graduate standing.

**DRAMA 514 Design and Technical Theatre Colloquium (2, max. 18)** Korf, Lynch, Trout Discussion of work in progress or completed in production, centering on the conceptual work of the designer/director on the production and the methods of execution in the shops and on stage. Offered: AWSp.

**DRAMA 518 Studies in Historic Design (3)** *Dahlstrom* Investigation of artistic principles and modes that influenced the art, architecture, furniture, and decor of selected historic periods.

**DRAMA 519 Studies in Historic Design (3)** *Dahlstrom* Investigation of artistic principles and modes that influenced the art, architecture, furniture, and decor of selected historic periods. Prerequisite: DRAMA 518, or permission of instructor.

**DRAMA 520 Advanced Theatre Practicum (1-5, max. 15)** Professional student internship with professional theatres: scenery, lighting, scene painting, costume, acting, directing, stage management, theatre management. Prerequisite: permission of instructor.

**DRAMA 551 Teaching of Acting (1-3, max. 3)** Seminar discussion on problems in teaching acting to undergraduate students in 251, 252, and 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

**DRAMA 552 Teaching of Acting (1-3, max. 3)** Seminar discussion on problems in teaching acting to undergraduate students in 251, 252, and 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

**DRAMA 553 Teaching of Acting (1-3, max. 3)** Seminar discussion on problems in teaching acting to undergraduate students in 251, 252, and 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

**DRAMA 555 Studies in Acting (2-6, max. 18)** Individual or group work on special skills for the actor. Topics vary. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

**DRAMA 557 Studio I (12, max. 36)** *Jenkins, Jory, Madden, Shahn* Skill development in acting, voice, speech, and movement necessary for professional training in acting. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

**DRAMA 558 Studio II (12, max. 36)** *Jenkins, Jory, Madden, Shahn* Continuation of 557. Prerequisite: DRAMA 557 and completion of the first year of the Professional Actor Training program. Offered: AWSp.

**DRAMA 559 Studio III (6, max. 18)** *Jenkins, Jory, Madden, Shahn* Specialized and individualized work relating to the main curriculum of the third year of the Professional Actor Training Program. Prerequisite: DRAMA 558 and completion of the second year of the Professional Actor Training Program. Offered: AWSp.

**DRAMA 560 Managing the Rehearsal and Production Process (2)** Introduction to graduate-level directing. Play analysis, research, performance theory, and concept development as it relates to process-acting and rehearsal, design, staging techniques, and production management. Reading and writing assignments augmented by faculty and professional guests in performance, design, production, and dramaturgy.

**DRAMA 561 Directing Projects (2-3, max. 12)** Rehearsal techniques and staging skills in a variety of spatial configurations. One-act and full-length plays which follow a prescribed sequence. Prerequisite: graduate standing in the directing program.

**DRAMA 562 Performance Studio (1-3, max. 12)** Performance techniques in specialized areas of importance to the professional director, including stage combat, speech and dialect, mask, physical comedy, improvisation, and puppetry.

**DRAMA 563 Seminar in Directing (2, max. 18)** Seminar discussion of current productions; focused readings and discussion in specific areas of dramatic literature and problems related to stage direction. Prerequisite: graduate standing in drama and permission of instructor.

**DRAMA 564 Theatre Studies: History, Theory, Criticism (3, max. 15)** Special topics in history, theory, and criticism.

**DRAMA 565 Verse Workshop (4)** Techniques necessary to direct and perform plays of Shakespeare, Moliere, and other verse playwrights: scansion and imagery; period and style using verse text; crowd scenes, transformations of time and space, and other staging exercises; direction of scenes or acts from verse plays.

**DRAMA 566 Directing for the Camera (3)** Story-boarding, setting up camera shots, improvisation, and rehearsal techniques for directing actors on camera (both in studio and on location). Students direct one- and two-camera scenes; and write, direct, and edit a short screenplay.

**DRAMA 567 Acting Process (1-3, max. 12)** Development of acting skills necessary for the professional director. Emphasis on physical training, playing action, strong internal technique, imagination and clarity of expression.

**DRAMA 568 Writing for the Stage (3, max. 6)** Focus on adaptation for the stage of non-dramatic sources, such as literature, poetry, history, and contemporary events. Emphasis on structure, dialogue, dramatic action, rhythm, characterization. Writing exercises using fictive and non-fictive sources, biographical sources, and found objects. For MFA Directing students only.

**DRAMA 569 Directing/Teaching Apprenticeship (3)** Assisting faculty or professional guest director in production for the entire rehearsal period, or assisting faculty in performance training.

**DRAMA 571 Problems in Theatre History Research (5)** *Johnson, Postlewait, Witham* Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

**DRAMA 572 Problems in Theatre History Research (5)** *Johnson, Postlewait, Witham* Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

**DRAMA 573 Problems in Theatre History Research (5)** *Johnson, Postlewait, Witham* Methods and techniques of research, interpretation, and writing in theatre history. Relationship

of theatre arts to culture in diverse periods and places.

**DRAMA 575 Seminar in Theatre History (5)** *Johnson, Witham* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

**DRAMA 576 Seminar in Theatre History (5)** *Johnson, Witham* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

**DRAMA 577 Seminar in Theatre History (5)** *Johnson, Witham* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

**DRAMA 581 Analysis of Dramatic Texts (5)** *Bryant-Bertail, Mezur* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

**DRAMA 582 Analysis of Dramatic Texts (5)** *Bryant-Bertail, Mezur* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

**DRAMA 583 Analysis of Dramatic Texts (5)** *Bryant-Bertail, Mezur* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

**DRAMA 585 Seminar in Dramatic Theory (5)** *Bryant-Bertail* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

**DRAMA 586 Seminar in Dramatic Theory (5)** *Bryant-Bertail* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

**DRAMA 587 Seminar in Dramatic Theory (5)** *Bryant-Bertail* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

**DRAMA 599 Advanced Studies in Theatre Arts (1-5, max. 10)** Independent projects or group study of specialized aspects of theatre arts. Prerequisite: permission of instructor.

**DRAMA 600 Independent Study or Research (\*)**

**DRAMA 700 Master's Thesis (\*)**

**DRAMA 800 Doctoral Dissertation (\*)**

---

## Earth and Space Sciences

**ESS 100 Dinosaurs (2) NW** Biology, behavior, ecology, evolution, and extinction of dinosaurs, and a history of their exploration. With dinosaurs as focal point, course also introduces the student to how hypotheses in geological and paleobiological science are formulated and tested.

**ESS 101 Introduction to Geological Sciences (5) NW** Survey of the physical systems that give the earth its form. Emphasizes the dynamic nature of interior and surface processes and their relevance to mankind and stresses the value of rocks and earth forms in the understanding of past events. A course with laboratory for non-science majors. Not open for

credit to students who have taken ESS 105, or ESS 210. Field trips. Offered: AWSp.

### **ESS 102 Space and Space Travel (5) NW**

Explores powering the sun, making of space weather conditions, observations from space and from Earth, Earth's space environment, radiation belts and hazards, plasma storms and auroras, electron beams, spacecraft requirements, tooling up for manned exploration. Open to non-science majors.

### **ESS 103 Minerals and Gems (3) NW**

Introduction to the nature of minerals: composition, structure, physical properties, and origins, with emphasis on gem minerals. Focuses on topics of particular interest in gemology, such as mechanisms of color, history and lore of gems, and uses of gems. Hands-on laboratories using about one hundred representative gems and minerals.

**ESS 104 Prehistoric Life (3) NW** Fossils and how they are preserved. What fossils tell us about past life and environments. How the history of life unfolded and what caused the great events in biological evolution. Open to non-science majors, but also lays a foundation for higher-level geobiology courses.

**ESS 105 The Earth: Its Processes and Hazards (5) NW** Introduction to physical and environmental geology. Focuses on both large-scale tectonics forces that create Earth's continents and oceans, and surficial forces that shape Earth's landscapes. Emphasizes processes that endanger human populations (such as earthquakes, volcanic eruptions, and floods). Not open for credit to students who have taken ESS 101.

**ESS 106 Living with Volcanoes (3) I&S/NW** Explores volcanoes and volcanic eruptions on Earth and in the solar system. Examines how volcanoes work and how they affect the environment, life, and human societies. Illustrates principles using local examples of recent volcanism and ancient examples of mega-eruptions. Evaluates the possibility of predicting future eruptions.

**ESS 107 Environments of Washington Through Geologic Time (5) NW** Introduces students to the geologic and paleontologic history of our region. Students collect data from field studies and museum collections of fossils and rock to reconstruct ancient environments, creating paleogeographic and paleoclimatic maps through geologic sequences of time. Includes three, one-day field trips on weekdays.

**ESS 115 Astrobiology: Life in the Universe (5) NW** Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with ASTBIO/ASTR/OCEAN 115/BIOL 114.

**ESS 201 The Earth System and Climate (5) NW** Earth's dynamic environment, global energy balance, interplay of chemical, physical, and biological processes shaping the Earth's surface and climate. Emphasis on quantitative methods for measuring, evaluating, and understanding contemporary changes relative to the last several thousand years. Prerequisite: either MATH 124, MATH 144, or Q SCI 291.

**ESS 202 Earthquakes (5) NW** Earthquakes of the Pacific Northwest and around the world —

their cause and relationship to plate tectonics; why, where, and when they occur. How earthquakes affect human life: shaping landscape, hazards. Laboratory explores physical processes associated with earthquakes. One field trip. Open to non-science majors.

**ESS 203 Glaciers and Global Change (5) NW** Glaciers in Washington and the world. The ancient atmosphere inside of glaciers. Changes in glaciers now and ice-age cycles. Glaciers, global sea level and climate in the future. Open to non-science majors.

**ESS 204 Geology of the National Parks (5) NW** Review of fundamental geological processes, using North American parks and monuments as examples of natural laboratories. Includes volcanism, glaciation, water and wind erosion, plate-tectonic forces as preserved in geologic exposures of National Parks. Specific topics explored in laboratory sessions and field trips. Prerequisite: either ESS 101, ESS 105, ESS 210, or ESS 211.

**ESS 205 Access to Space (5) NW** Group development of student experiments to the outer rim of our atmosphere and the beginning of space; investigation of stratosphere, mesosphere, thermosphere, magnetosphere, development of exploration packages; basic electronic fabrication, global positioning, radio tracking, expectations at high altitudes. Open to all disciplines. No previous experience of electronics required.

**ESS 209 Interdisciplinary Earth Sciences Field Seminar (3-12, max. 12) NW** Miscellaneous field-based and experiential learning activities in Earth and Space Sciences.

**ESS 210 Physical Geology (5) NW** Introduction to the physical and chemical processes of the earth's surface and interior. Plate tectonics, earthquakes, volcanism, glaciation. Optional field trips to Cascades and Olympics. Background in geology not required but science background desirable. Not open for credit to students who have taken 101.

**ESS 211 Physical Processes of the Earth (5) NW** Overview of Earth. Deformation of soil, sediment, and rock. Erosional and depositional processes and landforms. Seismicity and plate-tectonics. Structural, geomorphic, and climatic interactions in major tectonic regimes. Use of stereonet, air photos, geologic maps, and cross sections. Two one-day field excursions. Prerequisite: either MATH 124 or Q SCI 291, either of which may be taken concurrently; either both PHYS 114 and PHYS 117 or PHYS 121. Offered: A.

**ESS 212 Earth Materials and Processes (5) NW** Crystallography, crystal chemistry, and characteristics of rock-forming and ore minerals. Description, phase equilibria, origin, and associations of igneous, sedimentary, and metamorphic rocks. Laboratory study of hand specimens. Two one-day field excursions. Prerequisite: CHEM 142. Offered: W.

**ESS 213 Evolution of the Earth (5) NW** Introduction to paleontology, types of stratigraphy, and radiometric dating. The physical, chemical, biological, and plate tectonic evolution of the earth's crust, seawater, and atmosphere. Comparison with other planets. Climate changes and man as a geologic agent. Two one-day field excursions. Prerequisite: ESS 211. Offered: Sp.

### **ESS 230 Rivers and Beaches (3/5) NW**

Introduction to Earth surface environments, the processes that shape them, how humans affect them and are affected by them. Weekend field trips examine mountains, rivers, deltas/estuaries, beaches, and environments beyond. Focus on linkages between these environments to illustrate coupling between landscapes and seascapes. Offered: jointly with OCEAN 230.

**ESS 301 Geology of the Northwest (5) NW** Geologic history of Washington, Oregon, and Idaho. Emphasis on use of geologic principles in interpreting evidence found in landscapes and rocks. Weekend field trips optional. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211.

**ESS 302 Great Ice Age (5) NW** Growth of mile-thick ice sheets, worldwide lowering of sea level, and other geological and paleoclimatological changes that accompany the harsh environments of a global glaciation. Geology of the last three million years, focusing on the causes and effects of global glaciation and future climate change. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211..

**ESS 303 Geologic Hazards (5) NW** Geological forces dramatically alter the earth's surface, devastating communities, taking human lives. Uses lectures and field work to examine geological hazards affecting civilizations around the world. Northwest examples illustrate causes and effects of many catastrophic geological processes, including: earthquakes, volcanoes, floods, glaciers, landslides. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211.

**ESS 304 Volcanoes and Glaciers of the Pacific Northwest (5) NW** Introduction to volcanic and glacial processes, emphasizing examples in the Pacific Northwest. Volcanic products, landforms, hazards, prediction, and history. Relationship to tectonics. Nature and distribution of present and former glaciers in Washington. Two all-day Saturday field trips to Cascade volcanoes required.

**ESS 311 Geomechanics (5) NW** Introduction to continuum mechanics: elasticity, fluid dynamics, diffusion, porous flow, multiphase flow, dimensional analysis, and natural convection. Example applications: earthquakes and rock mechanics, flow of glaciers, slope stability, debris flows, groundwater flow, contaminant transport, flow in rivers and channels, mantle and magma convection. Prerequisite: either MATH 125 or Q SCI 292; either PHYS 114/117 or PHYS 121. Offered: W.

**ESS 312 Geochemistry (5) NW** Geochemical concepts essential to earth science studies. Crystal chemistry and elemental affinities, thermodynamics of geologic processes, trace element and isotopic fractionation, weathering, cosmochemistry, and exploration of basic global geochemical cycles. Laboratory exercises explore the dynamics of geochemical processes. Prerequisite: CHEM 142; either MATH 125 or Q SCI 292; ESS 212. Offered: Sp.

**ESS 313 Geobiology (5) NW** Introduction to the early record of life on earth. Environmental factors leading to life's diversification. The role of life in biomineralization. The history of biodiversity. The role of life in landform and soil formation. Laboratory exercises demonstrate specimens and techniques. Prerequisite: CHEM 142; either PHYS 114/117 or PHYS 121. Offered: A.

**ESS 314 Geophysics: Expedition to Planet Earth (5) NW** Survey of fundamental geophysics using an investigative approach. Examines how a future expedition of extraterrestrial humanoids could use geophysical data, physical principles, and mathematical techniques to decide whether they should colonize Earth and understand why the indigenous civilization became extinct. Prerequisite: MATH 126; either PHYS 115/118 or PHYS 122. Offered: A.

**ESS 315 Environmental Earth Science (5) NW** Analysis of geologic constraints upon human activity and the environmental consequences of such activity. Topics include hillslope processes, fluvial and groundwater processes, earthquake and volcanic hazards, and environmental aspects of deforestation and atmospheric pollution. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211. Offered: jointly with ENVIR 313.

**ESS 326 Geomorphology (5) NW** Introduction to landforms and surficial deposits. Emphasis on landscape-forming processes. Intended for students who wish to take additional courses in geomorphology. Prerequisite: either PHYS 114 or PHYS 121. Offered: W.

**ESS 345 The Environment of Fuel and Mineral Deposits (3) I&S/NW** Fuels and nonmetallic ores as the substrate of industrial civilization. Provides non-majors with sufficient information about these resources to allow for informed decisions of related geological, environmental, and societal issues. Prerequisite: either ESS 101, ESS 105, ESS 210, ESS 211.

**ESS 400 Field Geology (12) NW** Six weeks of geologic mapping in a variety of rock types in the western United States. Enhances students' knowledge of geologic phenomena and processes. Development of skills in mapping, field interpretation, and report writing. Students responsible for own living expenses while in the field. Prerequisite: ESS 211; ESS 212; ESS 213; one course selected from ESS 311, ESS 312, ESS 313, or 314.

**ESS 401 Regional Geology of the Pacific Northwest (3) NW** Explores the geological diversity of the Pacific Northwest temporally (Archean to Pleistocene), tectonically (craton, terranes, and cover sequences), and lithologically (ophiolites to coal). Three weekend field trips required.

**ESS 402 International Field Geology (3-12, max. 12) NW** Supervised geological field work in classic, instructive international sites. Venue varies from year to year. Work may include geologic mapping, construction of cross sections, measurement and analysis of stratigraphic sections, field excursion, and supervised individual research projects.

**ESS 403 Plate Tectonics (4) NW** Introduction to the principles and methods of plate tectonics, including motions on a sphere, polar-wander paths, plate-boundary seismicity, and focal mechanisms. Also includes modern observations and theories of plate deformation and continental dynamics. Prerequisite: PHYS 121.

**ESS 406 Earth Sciences for Middle and High School Science Teachers: Solid Earth (3) NW** Topics of contemporary interest selected to meet state academic standards. Topics include Pacific Northwest earthquakes and volcanoes, global and regional plate tectonics, history of the Earth, the Earth's interior, planetary geology, and

surface processes on the Earth. Does not count toward the ESS degree. Prerequisite: ESS 101.

**ESS 408 Great Geological Issues (3) NW** History and development of geological and paleontological theories and controversies; philosophy and methodology that have driven scientific inquiry in the earth sciences. Recommended: HIST 311; HIST 312. Offered: alternate years.

**ESS 410 Marine Geology and Geophysics (4) NW** Sedimentological and petrologic processes that determine the geologic record. Prerequisite: either ESS 101 or ESS 210. Offered: jointly listed with OCEAN 410.

**ESS 411 Geophysical Continuum Mechanics (3) NW** Analysis of stress and strain. Measurement and interpretation of strain in geological materials. Elasticity applied to determine stress in the earth's lithosphere. Creep of solids and flow of geological materials. Prerequisite: either MATH 136 or both MATH 307 and MATH 308.

**ESS 412 Seismology (3) NW** Introduction to theoretical and observational seismology. Elastic plane wave propagation through stratified media. Surface waves, eigenvibrations, ray theory. Structure of the Earth's mantle and core. Seismicity distributions, earthquake focal mechanisms and relationship to tectonics. Prerequisite: either ESS 411; recommended: concurrent registration in ESS 466.

**ESS 413 Geophysics: The Earth (3) NW** The earth and its interior; gravity, magnetism, heat flow, seismology. Earth's outer structure, studied through the unifying concepts of plate tectonic theory. Quantitative approaches to problems, using techniques of classical physics. Prerequisite: either ESS 412; PHYS 322.

**ESS 414 Geophysics: Fluids (3) NW** Introduction to geophysical fluid dynamics. An overview of fluids in geophysics with emphasis on the oceans. A nonrigorous development of the equations of motion with examples drawn from oceanography and solid earth geophysics. Prerequisite: either MATH 136 or both MATH 307 and MATH 308; PHYS 322.

**ESS 415 Space and Plasmas (3) NW** Survey of various phenomena occurring in outer regions of Earth's atmosphere, ionosphere, magnetosphere, and Van Allen radiation belts. Laboratory applications include plasma thrusters and fusion. Concepts include charged particles in magnetic fields, drift motion, plasma, magnetohydrodynamic waves. Prerequisite: PHYS 321.

**ESS 416 Geophysics: The Atmosphere (3) NW** Phenomena of the lower atmosphere: some simple applications of the principles of classical thermodynamics, fluid dynamics, and radiative transfer to the atmospheric hydrological cycle, global energy balance, and atmospheric dynamics and climate. Prerequisite: ESS 414.

**ESS 421 Introduction to Geological Remote Sensing (4) NW** Principles of image interpretation for geologists. Study of land forms, structure, lithology, surface processes using aircraft and satellite data. Use of digital multispectral images and radar images for geological mapping.

**ESS 422 Intermediate Spectral Remote Sensing (4) NW** Explores spectral image processing with ENVI software, used in individualized projects involving satellite or

aircraft images. Emphasis on integration of remote sensing and field measurement using process models and Geographic Information Systems (GIS). Recommended: introductory courses in physics, chemistry, calculus, geology, and field geology. Prerequisite: ESS 421.

**ESS 424 Water in the Environment (3) NW** Discusses the unique physical and chemical properties of the water molecule in relation to the atmospheric greenhouse effect, precipitation formation, oceanic circulations, infiltration of water through soils, geyser eruptions, and glacier and sea ice thickness. Prerequisite: either MATH 124, MATH 126, MATH 129, or MATH 136; PHYS 123. Offered: jointly with ATM S 460/PHYS 460.

**ESS 426 Fluvial Geomorphology (5) NW** Hydraulic and morphological characteristics of streams and valley floors. Landscape evolution by stream erosion and deposition. Field exercises emphasize quantitative analysis of fluvial processes, channel forms, acquisition of various skills, such as mapping, topographic surveying, report writing. Prerequisite: either ESS 311, or ESS 326.

**ESS 427 Hillslope Geomorphology (5) NW** Theoretical, laboratory, and field study of hillslope evolution by mass wasting and water erosion. Prerequisite: either ESS 311, or ESS 326.

**ESS 431 Principles of Glaciology (4) NW** Snow deposition and metamorphism, avalanches, heat and mass balance at snow and ice surfaces, glacier flow, ice sheets, sea ice, permafrost, methods of paleoclimate reconstruction, Ice Age theories. Prerequisite: PHYS 121.

**ESS 432 Glacial Geology (5) NW** Interpretation of glacial environments and history through study of sediments and landforms. The laboratory component is largely field based and visits some spectacular glaciated landscapes. Provides students an experiential learning approach to the field as well as an opportunity to conduct independent research.

**ESS 433 Environmental Change in the Glacial Ages (3) NW** Physical, biological evidence of climatic change during Quaternary Period; emphasizing stratigraphy, chronology. Impact of alternating glacial/interglacial cycles on earth's terrestrial, marine environments. Theories on causes of climatic variation. Offered: jointly with QUAT 417.

**ESS 437 Mineralogy (5) NW** Symmetry of crystals and crystal structures. Rules of crystal chemistry. Microscopic, diffraction, and spectroscopic techniques of mineral characterization. Transformation processes in minerals: order-disorder, phase transition, and exsolution. Crystal chemistry and phase relations. Reactions on mineral surfaces. Physical properties, deformation, and creep. Prerequisite: CHEM 142; ESS 212; ESS 312.

**ESS 439 Petrology of Igneous Rocks (5) NW** Systematic study of the major families of volcanic and plutonic igneous rocks with emphasis on tectonic setting, phase relations, geochemistry, and models of their origin and evolution throughout geologic time. Laboratory emphasizes thin-section study of rocks using transmitted and reflected light. Prerequisite: ESS 312.

**ESS 440 Petrography and Petrology of Metamorphic Rocks (5) NW** Mineralogy,

textures, and origins of metamorphic rocks; metamorphic facies and metamorphic phase equilibria; controls of metamorphism. Prerequisite: ESS 312.

**ESS 441 Petrology and Petrography of Sedimentary Rocks (5) NW** Mineralogy, textures, and origin of sedimentary rocks, using petrographic microscope. Prerequisite: ESS 312.

**ESS 445 Geology of Ore Deposits (5) NW** The geologic principles, environmental aspects, and exploration strategies of selected types of metallic and nonmetallic ore deposits and coal. Prerequisite: ESS 312.

**ESS 450 Paleobiology (3) NW** Biological evolution over the past 500 million years, considering how the reciprocal interactions between environment and evolution have influenced the major episodes in life's history and providing a background for assessing the evolutionary impact of modern environmental change.

**ESS 451 Invertebrate Paleontology (5) NW** Important larger invertebrate groups; morphology, classification, stratigraphic distribution, evolution, paleoecology. Offered: jointly with BIOL 451.

**ESS 452 Vertebrate Paleontology (4) NW** *Sidor* Examines vertebrate life as seen in the fossil record, focusing first on fish lineages, and then on amniote (reptile, bird, and early mammal relatives) systematics and morphology. Examines fossil and modern vertebrates from the Burke Museum collection in the lab. One required weekend field trip. Prerequisite: either BIOL 453 or ESS 100. Offered: jointly with BIOL 450; Sp.

**ESS 453 Fossil Mammals (5) NW** Evolutionary relationships of fossil mammals, from mammal-like reptiles of late Paleozoic to diverse Cenozoic groups. Morphology, adaptations, extinctions, evolutionary patterns. Structures and relationships of most major groups. Field trip. Prerequisite: either BIOL 101, ESS 100, or ESS 452.

**ESS 455 Stratigraphy (4) NW** Systematic study of stratified rocks and space-time implications. Principles of stratigraphy, including biostratigraphy, magnetostratigraphy, seismic stratigraphy, subsurface analysis. Basin analysis, evolution of sedimentary basins and continental margins. Prerequisite: ESS 213.

**ESS 456 Depositional Environments (4) NW** Principles of sedimentary facies analysis, including survey of modern processes that produce sedimentary sequences. Recognition of various depositional environments represented in the geologic record, including terrestrial, marine terrigenous, and carbonate environments. Two field trips required. Prerequisite: ESS 213.

**ESS 457 Environmental Geochemistry (4) NW** Examines the geochemistry of natural waters, emphasizing applications in geological and soil sciences. Topics include soil/ground water composition; weathering and the carbon cycle; equilibrium computer modeling; colloids and clay minerals; organic geochemistry of water and soil; and groundwater quality. Experience with geochemical instrumentation. Prerequisite: ESS 312, CHEM 152, or CHEM 155.

**ESS 459 Environmental Isotope Geology (3) NW** The geochemistry of stable isotopes. Topics

include the theory of isotope fractionation, application of isotopes in earth surface processes, climate, and biogeochemical cycles. Includes extensive laboratory experience. Prerequisite: ESS 312.

**ESS 460 Cosmogenic Nuclides in Geomorphology (3) NW** Use of cosmic-ray-produced nuclides to date rock surfaces and analyze geomorphic processes. Nuclide production by cosmic radiation above and below ground; tracer methods; exposure dating; coupling of cosmogenic nuclide data to geomorphic models. Open to undergraduate students only. Prerequisite: either ESS 311 or ESS 312.

**ESS 461 Geological Time (3) NW** Principles of radiometric dating. Methods applicable to Earth history from planetary formation to the recent past. Radiocarbon dating; geological dating with long-lived isotopes; uranium series, trapped charge and cosmogenic isotope techniques. Applications in archaeology, climate change, geomorphology, tectonics, and Earth evolution.

**ESS 462 Volcanic Processes (4) NW** Pre-eruption, eruption, and post-eruption processes. Examines triggers of magma ascent, controls on volatile build-up and loss, magma fragmentation, magma-groundwater interaction, eruption column dynamics, gravity-controlled eruptive phenomena, syn- and post-eruption lahars and other reworking of deposits. Prerequisite: either ESS 311 or ESS 312.

**ESS 463 Structure and Tectonics (5) NW** Geometry, kinematics, and tectonic setting of major types of structures, including those in contractional fold-and-thrust belts; extended crust; strike-slip-dominated regimes; and shear zones. Laboratory exercises develop basic tools of structural geology. Prerequisite: ESS 213.

**ESS 465 Seismology and Earthquake Engineering (3) NW** Overview of earthquake processes and details of the characteristics of destructive ground motion; effects of such motion on engineering structures; current practice in estimating earthquake hazards for important structures such as nuclear power plants. Prerequisite: either MATH 126 or both MATH 307 and MATH 308. Offered: jointly with CEE 431.

**ESS 467 Seismic Exploration (5) NW** Introduction to theory and practice of seismic exploration. Application of refraction and reflection techniques to problems in engineering geology and mineral exploration. Constraints in the interpretation of subsurface structure. Prerequisite: ESS 311; either MATH 126, MATH 129, or MATH 136; PHYS 123.

**ESS 471 Introduction to Space Physics (3) NW** Introduces several areas of space physics, the physical principles that apply therein, and the methods by which significant observations are made. Covers electromagnetic and plasma processes from the center of the sun to the surface of the earth. Prerequisite: PHYS 123.

**ESS 472 High Altitude Research Projects (5) *McCarthy*** Students launches of science payloads to high altitude, providing design, fabrication, test, integration, and management experience; covers science motivation, instrumentation, payloads, and delivery systems. One field excursion required for launch. Project may vary from year to year. Prerequisite: PHYS 122; either PHYS 334 or ESS 205. Offered: S.

**ESS 489 Honors Seminar (3) *Bourgeois*** Covers current scientific topics in Earth and Space Sciences; philosophy and methodology of science strategies for developing research projects; scientific education and career planning. May require colloquium or local conference attendance. Offered: A.

**ESS 490 Special Topics (2-10, max. 20) NW**

**ESS 492 Undergraduate Teaching Experience and Outreach (1-2, max. 2) NW** Designed to help undergraduate majors acquire effective teaching skills at the college and public school level. Teaching experience gained through assisting graduate student teaching assistant or K-12 public school outreach. Involves classroom teaching experience and improving communications and presentation skills.

**ESS 495 NASA Science and Engineering Research Seminar (1, max. 4) NW** Review of current space science-related research. Emphasis varies, but topics may include planetary geology, astronomy, global change, aeronautical engineering, and remote sensing. Credit/no credit only.

**ESS 498 Undergraduate Thesis (5) NW** The thesis must be submitted at least one month before graduation.

**ESS 499 Undergraduate Research (\* max. 15)**

**ESS 501 Geochemical Systems (3) *Nelson*** Geochemical systems through time, from solar system origin to present. Explores fundamental geochemical concepts using current research issues and discussion. Concepts include radiogenic and stable isotope systematic, thermodynamics, high and low temperature chemistry of rocks and water, geochemical cycles through Earth's history. Prerequisite: graduate student standing or instructor permission. Offered: W.

**ESS 502 The Solid Earth (3)** Concepts of internal earth processes: Earth as heat engine and chemical processor, style of mantle convection, origin and evolution of the Earth's magnetic field, Cascadia subduction and hazards. Introduces seismology, fluid dynamics, heat flow, gravity, and geomagnetism. Focuses on the analysis, critique, and communication of ideas from scientific literature.

**ESS 503 Introduction to Solar Terrestrial Physics (3)** Introduces several areas of space physics, the physical principles that apply therein, and the methods by which significant observations are made. Covers electromagnetic and plasma processes from the center of the sun to the surface of the earth. Prerequisite: PHYS 123.

**ESS 504 The Earth Surface (3)** Investigates the coupled tectonic and geomorphic processes that shape the surface of the Earth, creates the surface environment that sustains humanity and other life systems, and produces natural hazards. Introduces modern tools, techniques, and theories applicable to analysis of this coupled dynamic system. Offered: A.

**ESS 508 Great Geological Issues (3)** History and development of geological and paleontological theories and controversies; philosophy and methodology that have driven scientific inquiry in the earth sciences. Requires a term paper analyzing primary material. Prerequisite:

graduate standing in earth sciences, or in history of science, or permission of instructor.

**ESS 511 Geophysical Continuum Mechanics (3)** Analysis of stress and strain. Measurement and interpretation of strain in geological materials. Elasticity applied to determine stress in the earth's lithosphere. Creep of solids and flow of geological materials. Includes advanced, research-oriented problems. Prerequisite: MATH 307 and MATH 308 or equivalent.

**ESS 512 Seismology (3)** Theoretical and observational seismology. Elastic plane wave propagation through stratified media. Surface waves, eigenvibrations, ray theory. Structure of Earth's mantle and core. Seismicity distributions, earthquake focal mechanisms and relationship to tectonics. Advanced, research-oriented problems. Prerequisite: ESS 511; recommended: concurrent registration in ESS 466.

**ESS 513 Geophysics: The Earth (3)** Study of gravity, magnetism, heat flow, seismology. Earth's outer structure studied through unifying concepts of plate tectonic theory. Quantitative approaches to problems, using techniques of classical physics. Includes advanced, research-oriented problems. Prerequisite: ESS 512; PHYS 322.

**ESS 514 Geophysics: Fluids (3)** Geophysical fluid dynamics. Fluids in geophysics with emphasis on the oceans. Development of the equations of motion with examples drawn from oceanography and solid earth geophysics. Includes advanced, research-oriented problems. Prerequisite: PHYS 322, MATH 307 and MATH 308 or equivalent.

**ESS 515 Geophysics: Space (3)** Various phenomena occurring in outer regions of Earth's atmosphere, ionosphere, magnetosphere, and Van Allen radiation belts. Laboratory applications include plasma thrusters and fusion. Concepts include charged particles in magnetic fields, drift motion, plasma, magnetohydrodynamic waves. Includes advanced, research-oriented problems. Prerequisite: PHYS 321 or equivalent.

**ESS 516 Geophysics: The Atmosphere (3)** Phenomena of the lower atmosphere: some simple applications of the principles of classical thermodynamics, fluid dynamics, and radiative transfer to the atmospheric hydrological cycle, global energy balance, and atmospheric dynamics and climate. Includes advanced, research-oriented problems. Prerequisite: ESS 514.

**ESS 517 Early Earth Evolution (3)** Geological, biological, and environmental evolution of the Earth over the first 4 billion years of its history, as an analogue for the development of other habitable planets.

**ESS 521 Remote Sensing of the Atmosphere and Climate System (3)** Satellite systems for sensing the atmosphere and climate system. Recovery of atmospheric and surface information from satellite radiance measurements. Applications for research. Prerequisite: ESS 571; ESS 572. Offered: jointly with ATM S 534.

**ESS 522 Geophysical Data Collection and Analysis (3)** Theory and practical application of data collection and analysis applied to geophysical problems. Digital processing of signals; filtering and spectral analysis. Laboratory sessions include problem solving on computer-based processing system.

**ESS 523 Geophysical Inverse Theory (3)** Introduction to the mathematical techniques for estimating properties of physical systems, such as the earth or atmosphere, from data that is insufficient for a precise specification of the system. Emphasis is on the concept of the resolving power of data sets. The ideas developed are quite general and have a wide range of applicability in the field of data interpretation. Prerequisite: ESS 522, or permission of instructor.

**ESS 526 Sediment Dynamics and Boundary-Layer Physics (4)** Theoretical descriptions of sediment transport processes constrained by laboratory demonstrations. The physics of boundary layers, initiation of motion, suspended load, bedload, bedforms, and continua transport (turbidity currents, debris flows, and suspensions) and its application to the geological record. Offered: jointly with OCEAN 542.

**ESS 527 Continental-Margin Sedimentation (3)** Detailed evaluation of recent studies into processes forming strata on continental margins, including the diverse time scales ranging from sediment transport to sequence stratigraphy. Highlights the linkages with physical oceanographic processes, the fates of geochemical components, and the relationship to biological communities. Offered: jointly with OCEAN 546.

**ESS 528 Interpretation of Sedimentary Structures (2-4, max. 4)** Physical and environmental analysis of sedimentary structures, including biogenic sedimentary structures. Clastic sediments and rocks. Field trips required.

**ESS 529 Principles of Fluid Dynamics, Heat, and Mass Transfer in Earth Sciences (3)** Introduction to the quantitative treatment of transport phenomena with applications to mantle and magma convection, volcanic eruptions, landslides, porous flow, and reaction. Emphasis on the governing equations of fluid dynamics including porous and multiple flow, chaotic convection, mixing, heat transfer, rheology, analytical, numerical, and scaling solutions.

**ESS 531 Physics of Ice (3)** Structure of the water molecule. Crystallographic structures of ice. Electrical, optical, thermal, and mechanical properties of ice. Growth of ice from vapor and liquid phases. Prerequisite: permission of instructor. Offered: jointly with ATM S 510.

**ESS 532 Formation of Snow and Ice Masses (3)** Snow and ice climatology. Formation of the ice crystals in clouds. Snow metamorphism. Transfer of radiative, sensible, and latent heat at snow and ice surfaces. Remote sensing of snow and ice. Growth and melt of sea ice. Climatic records from ice. Prerequisite: permission of instructor. Offered: jointly with ATM S 511.

**ESS 533 Dynamics of Snow and Ice Masses (3)** Rheology of snow and ice. Sliding and processes at glacier beds. Thermal regime and motion of seasonal snow, glaciers, and ice sheets. Avalanches and glacier surges. Deformation and drift of sea ice. Response of natural ice masses to change in climate. Prerequisite: permission of instructor. Offered: jointly with ATM S 512.

**ESS 535 Ice and Climate (3)** Examines the role of ice and snow in climate. Polar climate dynamics. Polar-global interactions. Modeling snow cover, sea ice, and ice-sheet balance, and flow in the climate system. Prerequisite:

permission of instructor. Offered: jointly with ATM S 514; alternate years.

**ESS 537 Advanced Mineralogy (3)** Crystal symmetry: point groups, space groups. Mathematical description of crystal structures; group theory, irreducible representations; tensor description of physical properties: stress, strain, piezoelectricity, elasticity; structural and magnetic phase transitions, Landau theory, deformation and creep crystals; elasto-viscous properties of earth's mantle, crystal chemistry, solid state reactions. Offered: jointly with MSE 518.

**ESS 538 Petrogenesis of Igneous Rocks (3)** Origin of one or more of the major groups of igneous rocks. Selected petrogenetic problems in light of tectonic setting, petrography, geochemistry, and experimental studies. Prerequisite: ESS 439 or equivalent.

**ESS 540 Advanced Igneous Petrology (4)** Crystal-liquid-vapor equilibria in magmatic systems. Physical properties of silicate melts. Geothermometry and geobarometry in igneous rocks. Models of fractionation, assimilation, and magma mixing. Trace elements, radiogenic isotopes, and stable isotopes as tracers in magmatic processes. Nucleation, crystal growth, and diffusion in melts. Prerequisite: ESS 312; ESS 439.

**ESS 545 Economic Geology of Sedimentary Rocks (5)** Description and origin of metallic and nonmetallic ore deposits indigenous to regoliths, sediments, and sedimentary rocks. Prerequisite: ESS 445, or equivalent or permission of instructor.

**ESS 550 Electromagnetic and Potential Field Methods (3)** Development of equations of electromagnetic fields in conducting media. Solution of forward and inverse problems with natural and controlled sources: magnetotelluric and related methods. Includes the special case of static fields: DC resistivity, gravity, and magnetic interpretation. Prerequisite: either ESS 413, or ESS 513, ESS 522, PHYS 323; or permission of instructor.

**ESS 551 Mineral Physics (3)** Applications of condensed matter physics to various geophysical problems. Topics vary, but usually include the thermal properties of relevant geophysical materials, the equation of state for the earth's mantle and core, defects in solids and their roles in tectonophysics. Prerequisite: permission of instructor. Offered: alternate years.

**ESS 552 Solution Geochemistry (4)** Solution chemistry and thermodynamics as applied to solid and liquid silicates and aqueous fluids. Modeling configurational entropies in solids, activity coefficients and complexes in aqueous solution, and modeling chemical mass transfer in geologic systems. Prerequisite: ESS 312, or equivalent.

**ESS 553 Electron Beam Microanalysis (4)** Materials analysis using electron beams, including electron-target interactions, wave and energy dispersive x-ray analysis, scanning electron microscopy, and applications of these and related techniques to geological problems.

**ESS 555 Physics and Chemistry of the Earth's Interior (3)** Emphasizes current issues in global tectonics and mantle dynamics. Examples include global seismic tomography and its bearing on geodynamics, the fate of

subducted lithosphere and geochemical constraints on mantle convection. Prerequisite: permission of instructor.

**ESS 559 Climate Modeling (3)** *Bitz, Thompson* Principles of Earth system modeling. Emphasis on atmosphere, ocean sea ice, and land-surface components. Climate forcing. Appropriate use of models. Topics of current interest including carbon cycle, atmosphere chemistry, and biogeochemistry. Prerequisite: either ATM S/OCEAN/ESS 587, ATM S 504 or ATM S 505. Offered: jointly with ATM S 559/OCEAN 558; Sp; alternate years.

**ESS 560 Cosmogenic Nuclides in Geomorphology (3)** *NW* Use of cosmic-ray-produced nuclides to date rock surfaces and analyze geomorphic processes. Nuclide production by cosmic radiation above and below ground; tracer methods; exposure dating; coupling of cosmogenic nuclide data to geomorphic models. Prerequisite: either AMATH 301, AMATH 351, or permission of instructor.

**ESS 562 Observational Seismology (1, max. 18)** Quarterly research themes introduce students to a variety of digital and analog seismograms and techniques for their interpretation. Students present results of short investigations in an informal seminar setting. Credit/no credit only. Prerequisite: either ESS 412, ESS 512, or permission of instructor.

**ESS 563 Theoretical Seismology I (3)** Advanced theoretical seismology. Attenuation and physical dispersion. Waves in anisotropic media. Moment-tensor source representation. Lamb's problem. Waves in stratified media: propagator methods, asymptotic ray theory, WKBJ seismograms. Inverse methods and analysis of seismological data. Prerequisite: either ESS 412, ESS 512, or permission of instructor.

**ESS 564 Theoretical Seismology II (3)** Advanced theoretical seismology. Attenuation and physical dispersion. Waves in anisotropic media. Moment-tensor source representation. Lamb's problem. Waves in stratified media: propagator methods, asymptotic ray theory, WKBJ seismograms. Inverse methods and analysis of seismological data. Prerequisite: ESS 563.

**ESS 568 Physics of the Oceanic Lithosphere (3)** Basic principles of elasticity, fluid flow, and heat transport with specific applications to the formation and evolution of the oceanic lithosphere. Includes deformation of the earth, flow in porous media, heat transport, and marine seismological and potential field techniques. Prerequisite: OCEAN 540. Offered: jointly with OCEAN 545.

**ESS 571 Atmospheric Radiation: Introductory (3)** Fundamentals of radiative transfer; absorption and scattering by atmospheric gases; elementary applications to constraints on the thermal structure, photochemistry, and remote sensing. Prerequisite: PHYS 225 or permission of instructor. Offered: jointly with ATM S 532.

**ESS 572 Atmospheric Radiation: Advanced (3)** Optical properties and particle absorption and scattering; solutions of radiative transfer equation in multiple scattering atmospheres applications to atmospheric and surface energy balance and remote sensing. Prerequisite: ATM S 532/ESS 571 or permission of instructor. Offered: jointly with ATM S 533.

**ESS 573 Cloud Microphysics and Dynamics (3)** Basic concepts of cloud microphysics, water continuity in clouds, cloud dynamics, and cloud models. Prerequisite: ATM S 501 or permission of instructor. Offered: jointly with ATM S 535.

**ESS 576 Space and Laboratory Plasma Physics (3)** Discussion of waves, equilibrium and stability, diffusion and resistivity, basic plasma kinetic theory, and wave-particle interactions. Prerequisite: ESS 415, or equivalent or permission of instructor. Offered: jointly with A A 556.

**ESS 577 Advanced Space Plasma Physics (3)** Formation by the interaction of solar wind with geomagnetic field. Trapped particles. Electromagnetic waves in anisotropic plasma. Dynamic disturbances and plasma instabilities. Prerequisite: ESS 415, or permission of instructor.

**ESS 578 Kinetic Theory and Simulation of Space Plasmas (3)** Wave-particle interactions in space plasmas. Generation of different wave modes, electrostatic and electromagnetic, Langmuir waves to Alfvén waves. Beam, Weibel, and maser instabilities, heavy ion interactions. Particle simulations, electrostatic and electromagnetic, for non-linear wave evolution and particle heating.

**ESS 579 Computational Methods and Modeling in Geophysics I (3)** Solution of complex dispersion equations including multiple root finding. Data analysis, fitting, smoothing, fast integration. Ray tracing and particle tracking in 2-D and 3-D. Computer simulation of fluid interactions, unmagnetized and magnetized, compressible and incompressible, and flow around objects.

**ESS 583 Origin of the Solar System (3)** Nebular and nonnebular theories of the origin of the solar system; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; examination of the physical and chemical evidence upon which the ideas concerning the origin of the solar system are based. Offered: jointly with ASTR 557.

**ESS 585 Climate Impacts on the Pacific Northwest (4)** Knowledge of past/future patterns of climate to improve Pacific Northwest resource management. Topics include the predictability of natural/human-caused climate changes; past societal reactions to climate impacts on water, fish, forest, and coastal resources; how climate and public policies interact to affect ecosystems and society. Offered: jointly with ATM S/ENVIR/SMA 585.

**ESS 586 Current Research in Climate Change (2, max. 20)** Weekly lectures focusing on a particular aspect of climate (topic to change each year) from invited speakers (both UW and outside), plus one or two keynote speakers, followed by class discussion. Offered: jointly with ATM S 586/OCEAN 586.

**ESS 587 Climate Dynamics (3)** Examines Earth's climate system; distribution of temperature, precipitation, wind ice, salinity, and ocean currents; fundamental processes determining Earth's climate; energy and constituent transport mechanisms; climate sensitivity; natural climate variability on interannual to decadal time scales; global climate models; predicting future climate. Offered: jointly with ATM S 587/OCEAN 587.

**ESS 588 The Global Carbon Cycle and Climate (3)** Oceanic and terrestrial biogeochemical processes controlling atmospheric CO<sub>2</sub> and other greenhouse gases. Records of past changes in the earth's carbon cycle from geological, oceanographic and terrestrial archives. Anthropogenic perturbations to cycles. Develop simple box models, discuss results of complex models. Offered: jointly with ATM S 588/OCEAN 588.

**ESS 589 Paleoclimatology: Data, Modeling and Theory (3)** Evidence for past changes in land and sea surface temperature, in precipitation and atmospheric dynamics, and in ocean circulation: both long and interannual timescales. Paleoclimate modeling and theory. Time series analysis and climate noise. Rapid climate change. Statistical reconstruction of interannual variability. Offered: jointly with ATM S 589/OCEAN 589.

**ESS 590 Special Topics (2-10, max. 20)**

**ESS 594 Introduction to Earth and Space Sciences Research (1-2, max. 4)** Introduces research of faculty and advanced graduate students to first-year graduate students and provides experience for the formulation, oral presentation, and defense of research proposals and results.

**ESS 595 Earth and Space Sciences Research Methods (2, max. 12)** Current research methodology and results based on recent literature and on faculty and student research. Designed to develop student perspective on observational and theoretical methods and on relation of specific research to broader developments in geophysics and interdisciplinary aspects of geophysics through faculty-guided presentations and discussion by students.

**ESS 599 Seminar (1, max. 15)** Review of current literature in geophysics and graduate student research with faculty participation. Credit/no credit only.

**ESS 600 Independent Study or Research (\*)** Credit/no credit only.

**ESS 700 Master's Thesis (\*)**

**ESS 800 Doctoral Dissertation (\*)**

---

## Economics

**ECON 200 Introduction to Microeconomics (5) I&S, QSR** Analysis of markets: consumer demand, production, exchange, the price system, resource allocation, government intervention. Recommended: MATH 111. Offered: AWPoS.

**ECON 201 Introduction to Macroeconomics (5) I&S, QSR** Analysis of the aggregate economy: national income, inflation, business fluctuations, unemployment, monetary system, federal budget, international trade and finance. Prerequisite: ECON 200; recommended: MATH 111. Offered: AWPoS.

**ECON 235 Introduction to Environmental Economics (5) I&S/NW** Introduces non-economics majors to environmental and natural resource economics. Discussion of fundamental economic concepts, including markets and

private property. Students learn basic tools used in the economic assessment of environmental problems and apply these methods to key environmental issues. Offered: jointly with ENVIR 235

**ECON 299 Study Abroad: Economics (5, max. 10) I&S** For participants in the Study Abroad program. Specific course content determined by assigned faculty member and announced in Study Abroad bulletins.

**ECON 300 Intermediate Microeconomics (5) I&S** Analysis of decisions by individuals and by firms and of outcomes in factor and product markets. Policy issues and applications. Prerequisite: ECON 200; either MATH 112, MATH 124, MATH 127, MATH 134, or MATH 145. Offered: AWSpS.

**ECON 301 Intermediate Macroeconomics (5) I&S** Analysis of the determinants of the aggregate level of employment, output, prices, and income of an economy. Policy issues and applications with special reference to current monetary and fiscal policy. Prerequisite: 2.0 in ECON 201; 2.0 in ECON 300. Offered: AWSpS.

**ECON 396 Honors Research Seminar (2) I&S** Different members of the Economics faculty present and discuss their research work. Exposes students to ideas about potential topics for their thesis. For Honors students only. Does not satisfy graduation requirement for the major. Credit/no credit only. Offered: Sp.

**ECON 399 Economics Internship (1-5, max. 10)** Academic work completed in conjunction with an economics-related internship. Faculty supervision required. Does not apply toward major.

**ECON 400 Advanced Microeconomics (5) NW** Application of calculus to microeconomics. Development of comparative statics used in production and consumption theory, including derivation of the Slutsky equation and duality results. Prerequisite: 2.0 in ECON 300; MATH 126; recommended: 2.5 in ECON 300.

**ECON 401 Advanced Macroeconomics (5) NW** Application of mathematics to macroeconomics. Possible topics include economic dynamics and growth, rational expectations, real business cycle models, and New Keynesian approach. Prerequisite: 2.0 in ECON 301; either MATH 126, MATH 129, or MATH 136; recommended: 2.5 in ECON 301.

**ECON 402 Microeconomics: Methods and Applications (5) I&S** Generalizations and extensions of the course models of competition and monopoly taught in ECON 300. Topics include: factor markets and effects of monopoly power; game theory and oligopoly theory; decision making over time; uncertainty and under asymmetric information; contracts and incentives. Prerequisite: 2.0 in ECON 300.

**ECON 403 The Economics of Property Rights (5) I&S** Property rights as an economic concept. Delineation of rights as a subject of optimization. Formation of contracts to maximize the value of personal property. Formation of organizations to induce efficient use of resources and minimize losses to public domain. Prerequisite: 2.0 in ECON 300; recommended: two 400-level microeconomics classes.

**ECON 404 Industrial Organization and Price Analysis (5) I&S** Analysis of firm behavior in imperfectly competitive markets. Topics include

monopoly, oligopoly, product differentiation, entry deterrence, and the role of asymmetric information. Game theoretic tools and empirical evidence used to analyze topics. Prerequisite: 2.0 in ECON 300; recommended: ECON 485.

**ECON 406 Undergraduate Seminar in Economics (5, max. 10) I&S** Provides undergraduate student an opportunity to apply the tools of economic analysis in a critical examination of theoretical and empirical work. A list of topics is available in the departmental office. Prerequisite: ECON 200.

**ECON 409 Undergraduate Seminar in Political Economy (5, max. 10) I&S** Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Recommended: ECON 300; POL S 270. Offered: jointly with POL S 409.

**ECON 421 Money, Credit, and the Economy (5) I&S** Role of money and the banking system in the United States economy. Relation of money to inflation, interest rates, and business fluctuations. Monetary policy and Federal Reserve System. Prerequisite: 2.0 in ECON 301.

**ECON 422 Investment, Capital, and Finance (5) I&S** Intertemporal optimization: consumption and portfolio allocation decisions of households, investment and financing decisions of firms. Introduction to financial decisions under uncertainty. Portfolio theory, asset pricing, options, and futures. Financial market institutions and efficiency. Prerequisite: 2.0 in ECON 300; either ECON 311, STAT 311, MATH 390, STAT 390, or QMETH 201

**ECON 423 Topics in Financial Economics (5) I&S** Topics of current interest such as regulation of securities markets and valuation of stocks. Allows students to apply tools of economics to real world problems in finance. Prerequisite: 2.0 in ECON 301; ACCTG 215. Offered: AWSpS.

**ECON 424 Computational Finance and Financial Econometrics (5) NW** Covers probability models, data analysis, quantitative, and statistical methods using applications in finance. Prerequisite: 2.0 in ECON 300; either ECON/STAT 311, STAT 341, MATH/STAT 390, or QMETH 300; either MATH 112, MATH 124, MATH 127, MATH 134, or MATH 145. Offered: AWSpS.

**ECON 425 Topics in Monetary Economics (5) I&S** Topics include monetary policy and financial markets, two transmission mechanisms, dynamics of monetary policy, targeting interest rates versus targeting the quantity of money, monetary policy under fixed versus flexible exchange rates, inflation targeting, and practices of central banks, i.e., Fed, ECB, BOJ and PBOC. Prerequisite: 2.0 in ECON 301.

**ECON 431 Government and Business (5) I&S** Economic effects of various governmental regulatory agencies and policies. Antitrust legislation as a means of promoting desired market performance. Observed economic effects of policies intended to regulate business practices, control prices, conserve resources, or promote competition. Prerequisite: 2.0 in ECON 300.

**ECON 435 Natural Resource Economics (5) I&S** Survey of the economics of renewable and

nonrenewable resources including fisheries, forest, minerals, and fuels. Optimal trade-offs between benefits and costs of resource use, including trade-offs between current and future use. Effects of property rights on resource use. Prerequisite: ECON 300.

**ECON 436 Economics of the Environment (5) I&S** Microeconomic analysis of environmental regulation. The problem of social cost, policy instrument choice, enforcement of regulations, methods for damage assessment, and estimating benefits of environmental improvement. Prerequisite: 2.0 in ECON 300.

**ECON 437 Economics of Biological Resources (5) I&S** Application of economic concepts to biology and biological concepts to economics. Examination of theory of species maximization, parallels in behavior between humans and other biota, animal choices among alternative food sources, games animals play, evidence of risk aversion in animals. Prerequisite: 2.0 in ECON 300.

**ECON 442 Economics of Human Resource Management (5) I&S** Analyzes the relationship between personnel practices and organizational performance. Economic analysis of compensation policy emphasized. Topics include hiring and retention strategies; incentive pay; relative performance evaluation; teams; promotions; seniority; and organization design. Examines human capital accumulation and labor legislation. Prerequisite: minimum grade of 2.0 in ECON 300.

**ECON 443 Labor Market Analysis (5) I&S** Determinants of employment and incomes in the United States: analysis of individual and firm decisions and of equilibrium in the labor market. Topics include decisions to work and retire, education and occupation choices, compensation, discrimination, poverty, unemployment and unions. Examination of policy issues affecting the labor market. Prerequisite: 2.0 in ECON 300.

**ECON 444 Topics in Labor Market Analysis (5) I&S** In-depth analysis of special topics in the operation of labor markets and public policies affecting incomes and employment. Course content varies by instructor. Prerequisite: 2.0 in ECON 300.

**ECON 446 Economics of Education (5) I&S** Examines formal education as an investment industry, the economics of human capital investment, and competition among government owned schools and the non-profit sector. Prerequisite: 2.0 in ECON 300. Offered: AWSpS.

**ECON 447 Economics of Gender (5) I&S** Microeconomic analysis of the sources of gender differences in earnings, labor force participation, occupational choice, education, and consumption. Economic theories of discrimination, human capital, fertility and intrahousehold resource allocation. Economics of the family in developed and developing countries. Prerequisite: 2.0 in ECON 300. Offered: jointly with WOMEN 447.

**ECON 448 Population and Development (5) I&S** Survey of topics in population economics, including history of thought, demographic experience of currently developing countries, household production models, fertility demand, quantity-quality models of fertility, mortality, health and nutrition, migration, macroeconomic-demographic linkages. Prerequisite: 2.0 in ECON 300.

**ECON 450 Public Finance: Expenditure Policy (5) I&S** Application of normative microeconomic theory to analysis of government expenditures. Rationale for government economic activity, collective choice, public goods, and externalities, income redistribution, public sector pricing, and specific expenditure programs. Prerequisite: 2.0 in ECON 300.

**ECON 451 Public Finance: Tax Policy (5) I&S** Microeconomics of taxation: efficiency, incidence, effect on distribution of income, personal and corporate income taxes, sales and consumption taxes, taxation of property and estates. Prerequisite: 2.0 in ECON 300.

**ECON 454 Cost-Benefit Analysis (5) I&S** Theory and practice of cost-benefit analysis of public sector projects and policies. Welfare criteria, investment criteria, shadow prices, social discount rate, marginal-willingness-to-pay for non-market goods, social risk, and special topics. Prerequisite: 2.0 in ECON 300.

**ECON 455 Microeconomics of Public Policy (5) I&S** Topics include general equilibrium analysis of efficiency and equity, income and substitution effects, analysis of alternative welfare programs, intergovernmental grants, price discrimination, price controls, rationing, industry regulation, and public goods. Prerequisite: 2.0 in ECON 300.

**ECON 464 Financial Crisis (5) I&S** Causes, effects, and cures for financial crisis traced through history from the Tulip Bubble, to the Great Depression, to the East Asian Crisis of 1997, and beyond. Explores the original work of Fisher, Keynes, Friedman, and Krugman, among others. Prerequisite: 2.0 in ECON 301. Offered: AWSpS.

**ECON 471 International Trade (5) I&S** Theory of comparative advantage and different models of international trade. Trade and welfare. Factor mobility and trade flows. Economic integration. Theory and practice of commercial policy. Prerequisite: 2.0 in ECON 301.

**ECON 472 International Macroeconomics (5) I&S** International monetary theory and open economy macroeconomics. Balance of payments and foreign exchange markets. Different exchange rate arrangements and their adjustment mechanisms. Money and international capital movements. Policy issues. The international monetary system. Prerequisite: 2.0 in ECON 301.

**ECON 473 Topics in International Trade (5) I&S** Advanced theory of trade and analysis of government trade policies. International trade and factor mobility. Theory of commercial policy. Prerequisite: 2.0 in ECON 301; ECON 471.

**ECON 475 Economics of the European Union (5) I&S** Analysis of economic issues relating to the European union. Explores the institutional aspects, the attempt to coordinate social and economic policies-welfare, employment, commercial, fiscal, and monetary-and the economic linkages between the European Union and the rest of the world. Prerequisite: 2.0 in ECON 301.

**ECON 481 Introduction to Mathematical Statistics (5) NW** Probability, generating functions; the d-method, Jacobians, Bayes theorem; maximum likelihoods, Neyman-Pearson, efficiency, decision theory, regression, correlation, bivariate normal. (Credit allowed for

only one of 390, 481, and ECON 580.) Prerequisite: STAT/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. Recommended: MATH 324. Offered: jointly with CS&SS/STAT 481; A.

**ECON 482 Economic Theory and Practice (5) NW Ellis, Startz** Applies statistical modeling to empirical work in economics. Focuses on regression analysis; derivations of regression estimators and their properties; and applied computer work in estimating multiple regression models. Prerequisite: 2.0 in ECON 300; either ECON 311/STAT 311 or MATH 390/STAT 390; recommended: MATH 124

**ECON 483 Econometric Applications (5) NW Kim** Provides opportunity to learn econometric model building for a particular problem while applying the theory learned in various courses to specific economic cases. Estimate, test, and forecast economic models. Extensive use of the computer and econometric programs. Prerequisite: 2.0 in ECON 301; either ECON/STAT 311, STAT 341, MATH/STAT 390, or QMETH 300.

**ECON 485 Game Theory with Applications to Economics (5) NW** Introduction to the main concepts of game theory: strategy, solution concepts for games, strategic behavior, commitment, cooperation, and incentives. Application to economics oligopoly theory, bargaining theory, and contract theory. Prerequisite: either MATH 112, MATH 124, MATH 127, MATH 134, or MATH 145; 2.0 in ECON 300.

**ECON 486 Economics of Information (5) I&S, QSR Khalil, Lawarree** Basic models of decision making and strategic interaction in the presence of imperfect and incomplete information. Information issues in market exchange and in hierarchical settings. Includes adverse selection, moral hazard, signaling, and screening. Recommended: ECON 404 or ECON 485. Prerequisite: 2.0 in ECON 300.

**ECON 490 Comparative Economic Systems (5) I&S** Study of resource allocation, growth, and income distribution in capitalist, market socialist, and centrally planned economies. Prerequisite: 2.0 in ECON 301.

**ECON 491 Issues in Economic Development (5) I&S** Examines factors contributing to the economic problems of developing countries and possible solutions. Theory and applications in economic development and international trade. Prerequisite: 2.0 in ECON 301.

**ECON 492 Economic Issues of Contemporary Latin America (5) I&S** Covers economic issues of current interest to policymakers in Latin America. Topic areas include trade policy, external capital flows to the region, macroeconomic instability, fiscal and monetary institutions, income inequality, and globalization. Prerequisite: minimum grade of 2.0 in ECON 301.

**ECON 495 Economic Transformation of Russia and Eastern Europe (5) I&S** Analytical survey of the economic institutions and economic structures of the transforming socialist economies. Socialist resource allocation. Market institutions. Structural change and the sequencing of economic reform. Primary focus on Russia and Eastern Europe. Prerequisite: 2.0 in ECON 301.

**ECON 496 Honors Seminar (5) I&S** Honors and other students in high standing have the

opportunity to develop research techniques, to pursue topics in breadth and depth, and to apply tools of economic analysis to selected topics in economic theory and current issues of national and international economic policy. For seniors only.

**ECON 497 Honors Directed Study (5)** Students write their honors thesis on the topic chosen in the Honors Seminar working under the previously arranged supervision of an economics faculty adviser. Prerequisite: ECON 496

**ECON 498 Senior Seminar (5) I&S** Advanced undergraduate research in economics. Students formulate some underlying economic issue, organize its study, gather necessary information, and analyze results. Does not satisfy graduation requirement for the major. Prerequisite: ECON 301; one 400-level ECON course; recommended: two 400-level ECON courses.

**ECON 499 Undergraduate Research (1-5, max. 10)** May not be applied toward an advanced degree.

**ECON 500 Microeconomic Analysis I (4)** Duality and comparative statics analysis. Consumer and firm behavior. Uncertainty. Prerequisite: permission of instructor.

**ECON 501 Microeconomic Analysis II (4)** General equilibrium and welfare economics. Introduction to game theory. Prerequisite: ECON 500.

**ECON 502 Macroeconomic Analysis I (4)** Topics include theories of business cycles, dynamics of price adjustments, consumption theory, dynamic programming, introduction to numerical techniques, and open economy macroeconomics. Prerequisite: permission of instructor.

**ECON 503 Macroeconomic Analysis II (4)** Rational expectations in macroeconomic models. Dynamic optimizing models under uncertainty. Empirical examination of consumption, asset-pricing, and real business cycles. Prerequisite: ECON 502.

**ECON 508 Microeconomic Analysis III (4)** Information economics. Prerequisite: ECON 500; ECON 501.

**ECON 509 Macroeconomic Analysis III (4)** Modern macroeconomic dynamics, presenting a range of approaches based on intertemporal optimization. Representative agent models with special emphasis on the analysis of government policy. More advanced discussion of economic growth. Prerequisite: ECON 502; ECON 503, or equivalent.

**ECON 511 Advanced Microeconomic Theory: Selected Topics (3, max. 12)** Seminar in advanced microtheory. Selected topics of special interest and significance. Prerequisite: ECON 500; ECON 501.

**ECON 512 Advanced Macroeconomic Theory: Selected Topics (3, max. 12)** Seminar in advanced macrotheory. Selected topics of special interest and significance.

**ECON 515 Special Topics in Mathematical Economics (3, max. 12)**

**ECON 516 Introduction to Noncooperative Game Theory (3)** Study of both pure game

theory and its applications to such problems as oligopoly pricing, non-cooperative bargaining, entry deterrence, reputation phenomena. Focus on game theory as a modeling tool as opposed to a body of known results. Prerequisite: ECON 508.

**ECON 518 Contract Theory (3)** Basic contract theory models, including hidden action and hidden information models. Current developments in contract theory. Prerequisite: ECON 508; ECON 516 or permission of instructor.

**ECON 519 Economics of Contracts and Organizations: Empirics (3)** *Shi* Critically reviews empirical literature on contracts and organization. Topics include multi-tasking; incentives and risk sharing; relative and subjective performance evaluation; team production; tournament and promotion; efficiency wage; career concern; relational contracts; asset specificity and asset ownership; complexity, uncertainty, asset ownership; adverse selection. Prerequisite: ECON 518; ECON 582, or permission of the instructor.

**ECON 520 The Economics of Property Rights (3)** Application of standard economic theory to analyze various forms of property rights as constraints of competition; the costs associated with delineation and enforcement of rights; the costs of negotiating and enforcing contracts for right transfers; resource allocation and income distribution implied by different property right and transaction cost constraints. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 523 Emergence of the State (3)** Using tools of property rights, industrial organization, and game theory, explores the emergence of the state. Specifies conditions conducive to constitutional rule. Analyzes circumstances amenable to state-promoted exchange as opposed to self-enforced agreements. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 525 Computational Economics (3)** *Sirakaya* Develops a basic understanding of computational techniques used in the economic literature. Demonstrates, with economic examples, when and how these techniques are used and why and how they work. Prerequisite: ECON 580; ECON 581; ECON 582.

**ECON 527 Empirics and Theory in Macroeconomics (3)** *Startz* Explores the integration of empirical and theoretical methods central to macroeconomic research. Exposes students to frontier areas of research to help them learn substantive material and transition to conducting their own independent research. Prerequisite: ECON 502; ECON 503; ECON 509; ECON 581; ECON 582; recommended: ECON 584.

**ECON 535 Natural Resource Economics (3)** Half of integrated two-course sequence in environmental and natural resource economics. Dynamic optimization. Nonrenewable resource extraction and exploration, including effects of market structure, uncertainty, and taxation. Renewable resources, including fisheries and forests. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 536 Environmental Economics (3)** Half of integrated two-course sequence in environmental and natural resource economics. Theory of externalities. Normative and positive analysis

of policy instruments for environmental management. Theory and methods of measuring environmental and resource values. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 537 Economic Aspects of Marine Policy (3)** *Huppert* Development of pertinent economic concepts and their application to selected topics in marine policy decision making, including maritime policy, OCS oil and gas development, and wetlands management. Prerequisite: SMA 500 or permission of instructor. Offered: jointly with SMA 537; W.

**ECON 538 Economics of Living Marine Resources (3)** *Huppert* Develops pertinent economic concepts and applications for conservation, regulation, and restoration of fisheries and other living resources. Gives special attention to fishery management, including harvest regulation and enforcement, recreational fisheries evaluation, property rights regimes, contemporary issues, and marine protected area management. Offered: jointly with SMA 538; Sp.

**ECON 539 Economics of Natural Resources Seminar III (3)** Selected advanced topics in the economics of natural resources and environmental regulation. Topics may include environmental regulation as a problem in optimal mechanism design, enforcement of regulations, regulatory regimes for common property resources, and the measurement of market power in nonrenewable resource industries. Prerequisite: ECON 536.

**ECON 541 Labor Economics (3)** Theoretical and empirical analysis of the labor market, focusing on the time allocation and labor supply decisions of individuals and households and the determinants of wages and wage differentials.

**ECON 542 Labor Economics (3)** Theoretical and empirical analysis of the labor market. The determinants of labor supply and demand, human capital investment, the pattern of compensation, employment contracts and incentives, unemployment and labor market dynamics.

**ECON 543 Population Economics (3)** Analysis of population issues from an economic perspective. Focuses on the study of household behavior in both developed and developing countries. Studies areas including fertility decisions, health and mortality, investment in education, the intra-household allocation of resources, and household structure and marriage. Prerequisite: ECON 501.

**ECON 550 Public Finance: Expenditure Policy (3)** Theory of public finance with emphasis on public expenditures. Social welfare maximization, public goods and externalities, decreasing cost industries, theory of collective choice, second-best analysis. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 551 Public Finance: Tax Policy (3)** Theory of public finance with emphasis on taxation. Second-best analysis, optimal taxation, general equilibrium incidence analysis, issues in personal income taxation and corporate income taxation. Prerequisite: ECON 500; ECON 501, or permission of instructor.

**ECON 554 Cost-Benefit Analysis (3)** Covers the theoretical foundations of cost-benefit

analysis using graduate microeconomics. Stresses both the conceptual and practical problems encountered in the subject. Emphasis on problem solving and term project. Prerequisite: ECON 500; ECON 501.

**ECON 568 Game Theory for Social Scientists (5)** *Quinn* Studies non-cooperative game-theory and provides tools to derive appropriate statistical models from game-theoretic models of behavior. Equilibrium concepts, learning, repeated games and experimental game theory. Prerequisite: MATH 112, MATH 124, or MATH 134; STAT/ECON 311 or equivalent. Offered: jointly with CS&SS 568; W.

**ECON 571 International Trade Theory (3)** Comparative advantage, resource allocation, income distribution, and foreign trade. Different theories of trade, with or without perfect competition and constant returns. International factor mobility. Prerequisite: ECON 500; ECON 501.

**ECON 572 International Financial and Monetary Economics (3)** Analysis of open economy macro models with emphasis on exchange rates and balance of payments determination. Prerequisite: ECON 502; ECON 503.

**ECON 573 International Commercial Policy (3)** Analysis of welfare aspects of international trade and factor mobility. Costs and benefits of protection; implications of different government policies. Import competition and response. Prerequisite: ECON 500; ECON 502.

**ECON 574 International Macroeconomics (3)** Surveys recent developments in international macroeconomics, placing particular emphasis on the dynamic aspects. One sector, multisector, and two-country international models discussed. Fiscal issues treated in depth. Stochastic aspects introduced and related to the literature on international real business cycles. Prerequisite: ECON 509 or equivalent.

**ECON 580 Econometrics I (4)** Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Students may receive credit for only one of MATH/STAT 390, ECON/STAT 481, and ECON 580.

**ECON 581 Econometrics II (4)** Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Prerequisite: ECON 580.

**ECON 582 Econometrics III (4)** Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Prerequisite: ECON 581.

**ECON 583 Econometric Theory I (3)** Estimation and testing in linear and nonlinear regression models. Asymptotic theory, bootstrapping. Theoretical developments are reinforced with a variety of empirical examples and applications. Prerequisite: ECON 580, ECON 581, ECON 582 or equivalent.

**ECON 584 Econometric Theory II (3)** Continuation of 583. Analysis of stationary and

nonstationary, univariate, and multivariate time series models. Emphasis on empirical applications. Prerequisite: ECON 583.

**ECON 585 Applied Microeconometrics (3)**

Econometric issues that arise in applied microeconomic research. Topics range from standard methods to recent developments. Focus varies yearly to reflect interests of instructors and students. Prerequisite: ECON 582 or equivalent.

**ECON 586 Advanced Applied Time Series Analysis (3)**

Time series and empirical macroeconomics with focus on applications of time series analysis to various topics in macroeconomics and finance. Topics include: state-space models and Kalman filter; Markov-switching models and their extensions; Bayesian Gibbs sampling; randomization; and measurement of volatility.

**ECON 591 Microeconomics of Development (3)**

Portner Theoretical and empirical analysis of the microeconomics of development. Focuses on the study of household behavior in developing countries and how households respond to missing/imperfect markets. Topics include land access, nutrition and productivity, responses to risks and shocks, credit markets, micro-finance, and program evaluation. Prerequisite: ECON 501.

**ECON 592 Development Policy (3)**

Theoretical and empirical analysis of macroeconomic policies pursued by developing countries. Topics include the determination of exchange rates and relative prices in small economies; the examination of government spending, taxation, banking, trade, and labor market policies; and the evaluation of market-oriented economic reform programs. Prerequisite: ECON 503; recommended: ECON 591.

**ECON 594 Economic Growth (3)**

*Turnovsky* Studies various theoretical approaches to the question of why some countries are richer than others using generalizations and extensions of contemporary macroeconomic theory. Discusses the implications of various macroeconomic policies for economic growth. Prerequisite: ECON 502; ECON 503; ECON 509.

**ECON 595 Analysis of the Transforming Socialist Economies (3)**

Applications of economic analysis to the economic problems of transforming socialist economies. Economic institutions. The role of the state. Privatization and the behavior of decentralized organizations. Integration into the world market. Prerequisite: micro- and macroeconomic theory and permission of instructor.

**ECON 599 Research Issues in Demography and Population Studies (1-2, max. 7)**

Interdisciplinary seminar on current research issues in demography and population studies. Critical analysis and discussion of readings drawn from anthropological, economic, geographic, and sociological approaches. Credit/no credit only. Offered: AWSp.

**ECON 600 Independent Study or Research (\*)**

Credit/no credit only.

**ECON 601 Internship (1-9, max. 9)**

Credit only.

**ECON 602 Teaching Introductory Economics (1)**

Examines problems encountered in preparing and presenting courses in introductory economics. Credit/no credit only.

**ECON 800 Doctoral Dissertation (\*)** Credit/no credit only.

## English

**ENGL 100 Language Structure I (5)**

The first course in an academic writing sequence for non-native speakers of English, focusing on improving accuracy at the word, phrase and clause levels. Instruction provides repeated exposure to and engagement with practical formal vocabulary in academic contexts. ENGL 100, 101, and 102 must be taken consecutively. Offered: AWSpS.

**ENGL 101 Language Structure II (5)**

The second course in an academic writing sequence for non-native speakers of English, focusing on improving accuracy at the word, phrase, and sentence level, and across phrase and clause boundaries. Instruction provides repeated exposure to and engagement with practical formal vocabulary in academic contexts. ENGL 100, 101, and 102 must be taken consecutively. Offered: AWSpS.

**ENGL 102 Language Structure III (5)**

The third course in an academic writing sequence for non-native speakers of English, focusing on improving accuracy and style in complex sentences and paragraphs. Students continue to expand their ability to effectively express, combine and link ideas using sentence structure and vocabulary appropriate to different academic writing tasks. Course must be taken consecutively. Offered: AWSpS.

**ENGL 103 Writing About Sources (5)**

Students learn to comprehend, analyze, synthesize, and evaluate authentic academic readings, and to use the basic rhetorical structures commonly found in academic writing: summary, definition, comparison/contrast, cause/effect, and problem solution. Emphasis placed on producing well-formed, accurate, and comprehensible written responses that meet the standards and conventions of academic style. Offered: AWSpS.

**ENGL 104 Listening to Academic Lectures (5)**

Students learn to actively listen to and comprehend academic lectures and to take, use and access notes on those lectures. This entails the ability to recognize spoken rhetorical cues and organizational patterns, and to analyze and synthesize content, viewpoint and inferences critically. Offered: AWSpS.

**ENGL 105 English for International Teaching Assistants (5)**

Develops language production skills, lesson planning and presentation skills, and TA-student interaction skills related to classroom teaching for international teaching assistants. Requires speak exam.

**ENGL 106 Practical Forms of Writing (5)**

Instruction in writing essay examinations, reports, reviews, and research papers. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs.

**ENGL 109 Introductory Composition (5)**

Development of writing skills: sentence strategies and paragraph structures. Expository, critical, and persuasive essay techniques based on analysis of selected readings. For Educational Opportunity Program students only, upon

recommendation by the Office of Minority Affairs.

**ENGL 110 Introductory Composition (5)**

Development of writing skills: sentence strategies and paragraph structures. Expository, critical, and persuasive essay techniques based on analysis of selected readings. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs.

**ENGL 111 Composition: Literature (5)**

Study and practice of good writing; topics derived from reading and discussing stories, poems, essays, and plays.

**ENGL 121 Composition: Social Issues (5)**

Study and practice of good writing; topics derived from reading and discussing essays and fiction about current social and moral issues.

**ENGL 131 Composition: Exposition (5)**

Study and practice of good writing; topics derived from a variety of personal, academic, and public subjects.

**ENGL 182 The Research Paper (5)**

Includes study of library resources, the analysis of reading materials, and writing preparatory papers as basic to writing a reference or research paper. Open to all undergraduates. Prerequisite: either ENGL 111, ENGL 121, or ENGL 131.

**ENGL 197 Interdisciplinary Writing/Humanities (5, max. 15)**

Expository writing based on material presented in a specified humanities lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

**ENGL 198 Interdisciplinary Writing/Social Science (5, max. 15)**

Expository writing based on material presented in a specified social science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytic prose. Concurrent registration in specified course required.

**ENGL 199 Interdisciplinary Writing/Natural Science (5, max. 15)**

Expository writing based on material presented in a specific natural science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

**ENGL 200 Reading Literature (5)**

VLPA Techniques and practice in reading and enjoying literature. Examines some of the best works in English and American literature and considers such features of literary meaning as imagery, characterization, narration, and patterning in sound and sense. Emphasis on literature as a source of pleasure and knowledge about human experience.

**ENGL 202 Introduction to the Study of English Language and Literature (5)**

Gateway course designed for English pre-majors and majors. Introduces critical, historical, and theoretical frameworks important to studying the literature, language, and cultures of English. Concurrent registration with ENGL 197 required.

**ENGL 205 Method, Imagination, and Inquiry (5)**

VLPA Examines ideas of method and

imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with CHID 205.

**ENGL 207 Introduction to Cultural Studies (5) VLPA** Asks three questions: What is Cultural Studies? How does one read from a Cultural Studies perspective? What is the value of reading this way? Provides historical understanding of Cultural Studies, its terms and its specific way of interpreting a variety of texts, i.e. literature, visual images, music, video, and performance.

**ENGL 210 Literature and the Ancient World (5) VLPA** Introduction to literature from a broadly cultural point of view, focusing on major works that have shaped the development of literary and intellectual traditions to the Middle Ages.

**ENGL 211 Medieval and Renaissance Literature (5) VLPA** Introduction to literature from a broadly cultural point of view, focusing on major works that have shaped the development of literary and intellectual traditions from the Middle Ages to the eighteenth century.

**ENGL 212 Literature of Enlightenment and Revolution (5) VLPA** Introduction to eighteenth- and nineteenth-century literature from a broadly cultural point of view, focusing on representative works that illustrate literary and intellectual developments of the period.

**ENGL 213 Modern and Postmodern Literature (5) VLPA** Introduction to twentieth-century literature from a broadly cultural point of view, focusing on representative works that illustrate literary and intellectual developments since 1900.

**ENGL 225 Shakespeare (5) VLPA** Survey of Shakespeare's career as dramatist. Study of representative comedies, tragedies, romances, and history plays.

**ENGL 228 English Literary Culture: To 1600 (5) VLPA** British literature from Middle Ages to end of sixteenth century. Study of literature in its cultural context, with attention to changes in language, form, content, and style.

**ENGL 229 English Literary Culture: 1600-1800 (5) VLPA** British literature in seventeenth and eighteenth centuries. Study of literature in its cultural context, with attention to changes in form, content, and style.

**ENGL 230 English Literary Culture: After 1800 (5) VLPA** British literature in the nineteenth and twentieth centuries. Study of literature in its cultural context, with attention to changes in form, content, and style.

**ENGL 242 Reading Fiction (5) VLPA** Critical interpretation and meaning in fiction. Different examples of fiction representing a variety of types from the medieval to modern periods.

**ENGL 243 Reading Poetry (5) VLPA** Critical interpretation and meaning in poems. Different examples of poetry representing a variety of types from the medieval to modern periods.

**ENGL 244 Reading Drama (5) VLPA** Critical interpretation and meaning in plays. Different examples of drama representing a variety of types from the medieval to modern periods.

**ENGL 250 Introduction to American Literature (5) VLPA** Survey of the major writers, modes, and themes in American literature, from the beginnings to the present. Specific readings vary, but often included are: Taylor, Edwards, Franklin, Poe, Hawthorne, Melville, Emerson, Thoreau, Whitman, Dickinson, Twain, James, Eliot, Stevens, O'Neill, Faulkner, Hemingway, Ellison, and Bellow.

**ENGL 251 Introduction to American Political Culture (5) I&S/VLPA** Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Offered: jointly with POL S 281.

**ENGL 257 Introduction to Asian-American Literature (5) VLPA** Introductory survey of Asian-American literature provides introduction to Chinese, Japanese, Filipino, Korean, Hawaiian, South-Asian, and Southeast-Asian American literatures and a comparative study of the basic cultural histories of those Asian-American communities from the 1800s to the present.

**ENGL 258 African-American Literature: 1745 to Present (5) VLPA** A chronological survey of Afro-American literature in all genres from its beginnings to the present day. Emphasizes Afro-American writing as a literary art; the cultural and historical context of Afro-American literary expression and the aesthetic criteria of Afro-American literature. Offered: jointly with AFRAM 214.

**ENGL 264 Literature and Science (5) VLPA** Explores the relationships between literature and science as ways of comprehending humanity's interaction with the world we inhabit. As a course in criticism, explores how literature and science structure and are structured by social, religious, political, and economic factors in culture.

**ENGL 270 Cultural Issues in English (5) VLPA** Survey of the assumptions, methodologies, and major issues of English in its cultural settings. Designed to connect English Language study with the study of literature, orality and literacy, education, ethnicity, gender, and public policy.

**ENGL 281 Intermediate Expository Writing (5) C** Writing papers communicating information and opinion to develop accurate, competent, and effective expression.

**ENGL 282 Composing for the Web (5)** Introduces the writing of nonfiction narrative and expository pieces for publication on the Web. Analysis and criticism of on-line work.

**ENGL 283 Beginning Verse Writing (5) VLPA** Intensive study of the ways and means of making a poem.

**ENGL 284 Beginning Short Story Writing (5) VLPA** Introduction to the theory and practice of writing the short story.

**ENGL 285 Writers on Writing (5) *Bosworth, Kenney, Shields, Sonenberg*** Experiencing literature from the inside. Members of the creative writing faculty and other practicing writers discuss their poetry, fiction, and literary nonfiction, literary inspiration, artistic practice, and the writer's life.

**ENGL 300 Reading Major Texts (5) VLPA** Intensive examination of one or a few major works of literature. Classroom work to develop

skills of careful and critical reading. Book selection varies, but reading consists of major works by important authors and of selected supplementary materials.

**ENGL 302 Critical Practice (5) VLPA** Intensive study of, and exercise in, applying important or influential interpretive practices for studying language, literature, and culture, along with consideration of their powers/limits. Focuses on developing critical writing abilities. Topics vary and may include critical and interpretive practice from scripture and myth to more contemporary approaches, including newer interdisciplinary practices.

**ENGL 303 History of Literary Criticism and Theory I (5) VLPA** Literary criticism and theory from its beginnings in Plato through the early twentieth century. Philosophical and theoretical grounds for critical practice put forward by philosophers and critics.

**ENGL 304 History of Literary Criticism and Theory II (5) VLPA** Contemporary criticism and theory and its background in the New Criticism, structuralism, and phenomenology.

**ENGL 305 Theories of Imagination (5) I&S/VLPA** Survey of theories of imagination since the seventeenth century. Focuses on the uses of the concept in literature, criticism, science, and society.

**ENGL 307 Cultural Studies: Literature and the Age (5) VLPA** Problems of literary periodization. Works by major and minor authors in the context of cultural history; critical and theoretical approaches that have led to the idea of periodization. Emphasis varies. Recommended: one 300-level ENGL course in the literary period being studied.

**ENGL 310 The Bible as Literature (5) VLPA** Introduction to the development of the religious ideas and institutions of ancient Israel, with selected readings from the Old Testament and New Testament. Emphasis on reading *The Bible* with literary and historical understanding.

**ENGL 311 Modern Jewish Literature in Translation (5) VLPA** Survey of Jewish experience and its literary expression since 1880. Includes such Yiddish writers as Sholom Aleichem, Peretz, and I. B. Singer; such Israeli writers as Agnon, Hazaz, and Appelfeld; and such writers in non-Jewish languages as Primo Levi and Kafka.

**ENGL 312 Jewish Literature: Biblical to Modern (5) I&S/VLPA** A study of Jewish literature from Biblical narrative and rabbinic commentary to modern prose and poetry with intervening texts primarily organized around major themes: martyrdom and suffering, destruction and exile, messianism, Hasidism and Enlightenment, Yiddishism and Zionism. Various critical approaches; geographic and historic contexts. Offered: jointly with SISJE 312.

**ENGL 313 Modern European Literature in Translation (5) VLPA** Fiction, poetry, and drama from the development of modernism to the present. Works by such writers as Mann, Proust, Kafka, Gide, Hesse, Rilke, Brecht, Sartre, and Camus.

**ENGL 315 Literary Modernism (5) VLPA** Various modern authors, from Wordsworth to the present, in relation to such major thinkers as Kant, Hegel, Darwin, Marx, Nietzsche, Bergson,

and Wittgenstein, who have helped create the context and the content of modern literature. Recommended: ENGL 230 or one 300-level course in 19th or 20th century literature.

**ENGL 316 Postcolonial Literature and Culture (5, max. 10) VLPA** Readings of major texts and writers in postcolonial literature and culture. Surveys some of the most important questions and debates in postcolonial literature, including issues of identity, globalization, language, and nationalism. The cultural focus may vary, so students should check with the professor for specific details.

**ENGL 317 Literature of the Americas (5) VLPA** Examines writings by and about people of the Americas, with a focus on intersections of gender, colonialism, race, sexuality, and ethnicity.

**ENGL 320 English Literature: The Middle Ages (5) VLPA** Literary culture of Middle Ages in England, as seen in selected works from earlier and later periods, ages of *Beowulf* and of Geoffrey Chaucer. Read in translation, except for a few later works, which are read in Middle English.

**ENGL 321 Chaucer (5) VLPA** Chaucer's *Canterbury Tales* and other poetry, with attention to Chaucer's social, historical, and intellectual milieu.

**ENGL 322 English Literature: The Age of Queen Elizabeth (5) VLPA** The golden age of English poetry, with poems by Shakespeare, Spenser, Sidney, and others; drama by Marlowe and other early rivals to Shakespeare; prose by Sir Thomas More and the great Elizabethan translators.

**ENGL 323 Shakespeare to 1603 (5) VLPA** Shakespeare's career as dramatist before 1603 (including *Hamlet*). Study of history plays, comedies, and tragedies.

**ENGL 324 Shakespeare After 1603 (5) VLPA** Shakespeare's career as dramatist after 1603. Study of comedies, tragedies, and romances.

**ENGL 325 English Literature: The Late Renaissance (5) VLPA** A period of skepticism for some, faith for others, but intellectual upheaval generally. Poems by John Donne and the "metaphysical" school; poems and plays by Ben Jonson and other late rivals to Shakespeare; prose by Sir Francis Bacon and other writers.

**ENGL 326 Milton (5) VLPA** Milton's early poems and the prose; *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes*, with attention to the religious, intellectual, and literary contexts.

**ENGL 327 English Literature: Restoration and Early Eighteenth Century (5) VLPA** Selections from wits and satirists; poems by John Dryden and Alexander Pope; plays by Dryden, William Congreve, and other wits; the great satires of Jonathan Swift, and the first stirring of the novel.

**ENGL 328 English Literature: Later Eighteenth Century (5) VLPA** Classic age of English prose. Essays, biography, and criticism by Samuel Johnson, Oliver Goldsmith, and others; comedies by Goldsmith and Richard Brinsley Sheridan; fiction by Henry Fielding and others; poetry by a variety of writers.

**ENGL 329 Rise of the English Novel (5) VLPA** Study of the development of this major and popular modern literary form in the eighteenth century. Readings of the best of the novelists who founded the form, and some minor ones, from Defoe to Fielding, Richardson, and Sterne, early Austen, and the gothic and other writers.

**ENGL 330 English Literature: The Romantic Age (5) VLPA** Literary, intellectual, and historical ferment of the period from the French Revolution to the 1830s. Readings from major authors in different literary forms; discussions of critical and philosophical issues in a time of change.

**ENGL 331 Romantic Poetry I (5) VLPA** Blake, Wordsworth, Coleridge, and their contemporaries.

**ENGL 332 Romantic Poetry II (5) VLPA** Byron, Shelley, Keats, and their contemporaries.

**ENGL 333 English Novel: Early and Middle Nineteenth Century (5) VLPA** Studies in the novel in one of its classic phases. Authors include Austen, the Brontes, Dickens, Thackeray.

**ENGL 334 English Novel: Later Nineteenth Century (5) VLPA** Studies in the novel as it passes from a classic format to formats more experimental. Authors include George Eliot, Thomas Hardy, Joseph Conrad, and others.

**ENGL 335 English Literature: The Age of Victoria (5) VLPA** Literature in an era of revolution that also sought continuity, when culture faced redefinition as mass culture and found in the process new demands and creative energies, new material and forms, and transformations of old ones. Readings range from works of Tennyson, Browning, Arnold, Shaw, to Dickens, Eliot, Hardy.

**ENGL 336 English Literature: The Early Modern Period (5) VLPA** Experiments in fiction and poetry. Novels by Joyce, Woolf, Lawrence, and others; poetry by Eliot and Yeats and others.

**ENGL 337 The Modern Novel (5) VLPA** The novel on both sides of the Atlantic in the first half of the twentieth century. Includes such writers as Joyce, Woolf, Lawrence, Stein, Hemingway, Faulkner, and others.

**ENGL 338 Modern Poetry (5) VLPA** Poetry in the modernist mode, including such poets as Yeats, Eliot, Pound, Auden, and Moore.

**ENGL 339 English Literature: Contemporary England (5) VLPA** Return to more traditional forms in such writers as Bowen, Orwell, Waugh, Caryl Phillips, Drabble.

**ENGL 340 Modern Anglo-Irish Literature (5) VLPA** Principal writers in English of the modern Irish literary movement — Yeats, Joyce, Synge, Gregory, and O'Casey among them — with attention to traditions of Irish culture and history.

**ENGL 342 Contemporary Novel (5) VLPA** Recent efforts to change the shape and direction of the novel by such writers as Murdoch, Barth, Hawkes, Fowles, and Atwood.

**ENGL 343 Contemporary Poetry (5) VLPA** Recent developments by such poets as Hughes, Heaney, Rich, Kinnell, and Hugo.

**ENGL 344 Twentieth-Century Dramatic Literature (5) VLPA** Modern and contemporary plays by such writers as Shaw, Synge, O'Casey, O'Neill, Yeats, Eliot, Beckett, Pinter, and Albee.

**ENGL 345 Studies in Film (5) VLPA** Types, techniques, and issues explored by filmmakers. Emphasis on narrative, image, and point of view.

**ENGL 346 Studies in Short Fiction (5) VLPA** The American and English short story, with attention to the influence of writers of other cultures. Aspects of the short story that distinguish it, in style and purpose, from longer fiction.

**ENGL 347 The Art of Prose (5) VLPA** Techniques and varieties of prose — autobiography, biography, personal essay, reflective and meditative writing, social and scientific inquiry, and persuasive writing. Special attention to use of poetic, fictional, and dramatic devices. Recommended: one introductory literature course.

**ENGL 348 Studies in Drama (5) VLPA** Investigation of one of the major types of drama: tragedy or comedy. Emphasis on drama prior to the twentieth century.

**ENGL 349 Science Fiction and Fantasy (5) VLPA** The study of the development of and specific debates in the related genres of fantasy and science fiction literatures

**ENGL 350 Traditions in American Fiction (5) VLPA** A literary form in which America has found its distinctively American expression. Selected readings among important novelists from the beginnings until 1900, including Cooper, Hawthorne, Melville, Twain, Chopin, James, and Wharton.

**ENGL 351 American Literature: The Colonial Period (5) VLPA** Responses to the New World and literary strategies in the literature of the colonies and the early republic. Works by Taylor, Edwards, Franklin, and others.

**ENGL 352 American Literature: The Early Nation (5) VLPA** Conflicting visions of the national destiny and the individual identity in the early years of America's nationhood. Works by Emerson, Thoreau, Hawthorne, Melville, and such other writers as Poe, Cooper, Irving, Whitman, Dickinson, and Douglass.

**ENGL 353 American Literature: Later Nineteenth Century (5) VLPA** Literary responses to an America propelled forward by accelerating and complex forces. Works by Twain, James, and such other writers as Whitman, Dickinson, Adams, Wharton, Howells, Crane, Dreiser, DuBois, and Chopin.

**ENGL 354 American Literature: The Early Modern Period (5) VLPA** Literary responses to the disillusionment after World War I, experiments in form and in new ideas of a new period. Works by such writers as Anderson, Toomer, Cather, O'Neill, Frost, Pound, Eliot, Cummings, Hemingway, Fitzgerald, Faulkner, Stein, Hart Crane, Stevens, and Porter.

**ENGL 355 American Literature: Contemporary America (5) VLPA** Works by such writers as Ellison, Williams, O'Connor, Lowell, Barth, Rich, and Hawkes.

**ENGL 356 Classic American Poetry (5) VLPA** Poetry by Taylor, Whitman, Dickinson, and such others as Poe, Bradstreet, Crane, Robinson. The lineage and characteristics of lyric and epic in America.

**ENGL 358 Literature of Black Americans (5) VLPA** Selected writings, novels, short stories, plays, poems by Afro-American writers. Study of the historical and cultural context within which they evolved. Differences between Afro-American writers and writers of the European-American tradition. Emphasis varies. Offered: jointly with AFRAM 358.

**ENGL 359 Contemporary American Indian Literature (5) VLPA** Creative writings — novels, short stories, poems — of contemporary Indian authors; traditions out of which they evolved. Differences between Indian writers and writers of the dominant European/American mainstream. Offered: jointly with AIS 377.

**ENGL 360 American Political Culture: To 1865 (5) I&S/VLPA** American literature in its political and cultural context from the Puritan origins to the Civil War. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media.

**ENGL 361 American Political Culture: After 1865 (5) I&S/VLPA** American literature in its political and cultural context from the Civil War to the present. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media.

**ENGL 363 Literature and the Other Arts and Disciplines (5, max. 10) VLPA** Relationships between literature and other arts, such as painting, photography, architecture, and music, or between literature and other disciplines, such as science. Content varies.

**ENGL 364 Literature and Medicine (5) I&S/VLPA** How changing concepts of doctor-patient relationship and of body depicted in literary texts affect decisions throughout the human life cycle. Medicine and disease as metaphors for personal experience and social analysis.

**ENGL 367 Gender Studies in Literature (5, max. 15) VLPA** The study of contemporary approaches to analyzing the gender politics of literature and culture. Examines special topics in the history and development of the major theoretical trends, including the relationship of certain theories of gender to relevant works of literature.

**ENGL 368 Women Writers (5, max. 15) VLPA** Study of the work of women writers in English and American literature.

**ENGL 370 English Language Study (5) VLPA** Wide-range introduction to the study of written and spoken English. The nature of language; ways of describing language; the use of language study as an approach to English literature and the teaching of English.

**ENGL 371 English Syntax (5) VLPA** Description of sentence, phrase, and word structures in present-day English. Prerequisite: ENGL 370, LING 200 or LING 400.

**ENGL 372 Language Variation in Current English (5) VLPA** Examination of geographical, social, and occupational varieties of American English. Relationship between societal attitudes and language use.

**ENGL 373 History of the English Language (5) VLPA** Evolution of English sounds, forms, structures, and word meanings from Anglo-Saxon times to the present. Prerequisite: either ENGL 370 or LING 200.

**ENGL 374 The Language of Literature (5) VLPA** Roles of explicitly describable language features in the understanding and appreciation of various verbal forms. Emphasis on literature, but attention also may be given to nonliterary prose and oral forms.

**ENGL 381 Advanced Expository Writing (5) VLPA** Concentration on the development of prose style for experienced writers.

**ENGL 382 Writing for the Web (5) C** Writing substantial Web essays on topics of current concern. Extensive analysis and criticism of on-line essays. Prerequisite: ENGL 282.

**ENGL 383 The Craft of Verse (5) VLPA** Intensive study of various aspects of the craft verse. Readings in contemporary verse and writing using emulation and imitation. Prerequisite: ENGL 283; ENGL 284.

**ENGL 384 The Craft of Prose (5) VLPA** Intensive study of various aspects of the craft of fiction or creative nonfiction. Readings in contemporary prose and writing using emulation and imitation. Prerequisite: ENGL 283; ENGL 284.

**ENGL 407 Special Topics in Cultural Studies (5) VLPA** Advanced work in cultural studies.

**ENGL 411 Introduction to the Folktale Among Literate Peoples (3) VLPA** Techniques of classification, geographic-historical distribution, theories of origin and interpretations, and related areas of investigation of the oral prose folk narrative of literate peoples.

**ENGL 422 Arthurian Legends (5) VLPA** Medieval romance in its cultural and historical setting, with concentration on the evolution of Arthurian romance.

**ENGL 430 British Writers: Studies in Major Authors (5, max. 15) VLPA** Concentration on one writer or a special group of British writers.

**ENGL 431 Topics in British Literature (5, max. 15) VLPA** Themes and topics of special meaning to British literature.

**ENGL 440 Special Studies in Literature (3/5, max. 10) VLPA** Themes and topics offering special approaches to literature.

**ENGL 442 The Novel: Special Studies (5, max. 10) VLPA** Readings may be English or American and drawn from different periods, or they may concentrate on different types — gothic, experimental, novel of consciousness, realistic novel. Special attention to the novel as a distinct literary form. Specific topic varies from quarter to quarter.

**ENGL 443 Poetry: Special Studies (5, max. 10) VLPA** A poetic tradition or group of poems connected by subject matter or poetic technique. Specific topics vary, but might include poetry as a geography of mind, the development of the love lyric, the comic poem.

**ENGL 444 Dramatic Literature: Special Studies (5, max. 10) VLPA** Study of a particular dramatic tradition (such as expressionism or the

absurd theatre) or character (the clown) or technique (play-within-a-play, the neoclassical three unities). Topics vary.

**ENGL 451 American Writers: Studies in Major Authors (5, max. 15) VLPA** Concentration on one writer or a special group of American writers.

**ENGL 452 Topics in American Literature (5, max. 15) VLPA** Exploration of a theme or special topic in American literary expression.

**ENGL 453 Introduction to American Folklore (5) VLPA** Study of different kinds of folklore inherited from America's past and to be found in America today.

**ENGL 457 Pacific Northwest Literature (5) VLPA** Concentrates in alternate years on either prose or poetry of the Pacific Northwest. Prose works examine early exploration, conflicts of native and settlement cultures, various social and economic conflicts. Pacific Northwest poetry includes consideration of its sources, formative influences, and emergence into national prominence.

**ENGL 466 Gay and Lesbian Studies (5) I&S/VLPA** Examination of ways gays and lesbians are represented in literature, film, performance, and popular culture and how these representations are interpreted in mainstream, gay/lesbian, and academic writing.

**ENGL 470 Literature, Literary Study, and Society (5) I&S/VLPA** Relationship of literature to society with particular emphasis on literary education. What social values determine the educational importance of literature, what segments of society are trained to read and to write literature, and how literature is institutionalized as part of pedagogical methodology. Emphasis varies.

**ENGL 471 The Composition Process (5) VLPA** Consideration of psychological and formal elements basic to writing and related forms of nonverbal expression and the critical principles that apply to evaluation.

**ENGL 472 Language Learning (5) VLPA** Consideration of how an individual achieves psychological and esthetic grasp of reality through language; relates language development to reading skills, literary interpretation, grammar acquisition, oral fluency, discursive and imaginative writing.

**ENGL 473 Current Developments in English Studies: Conference (5) VLPA**

**ENGL 474 Special Topics in English for Teachers (1-10, max. 10) VLPA**

**ENGL 475 Colloquium in English for Teachers (1-5, max. 10) VLPA**

**ENGL 476 Puget Sound Writing Program Institute (10) VLPA** Focus on the writing process and the teaching of writing, accomplished through research, writing, reflection, and demonstration of writing instruction. Affiliated with the National Writing Project.

**ENGL 477 Children's Literature (5) VLPA** An examination of books that form a part of the imaginative experience of children, as well as a part of a larger literary heritage, viewed in the light of their social, psychological, political, and moral implications.

**ENGL 478 Language and Social Policy (5) I&S/VLPA** Examines the relationship between language policy and social organization; the impact of language policy on immigration, education, and access to resources and political institutions; language policy and revolutionary change; language rights.

**ENGL 479 Language Variation and Language Policy in North America (5) I&S/VLPA** Surveys basic issues of language variation: phonological, syntactic, semantic, and narrative/discourse differences among speech communities of North American English; examines how language policy can affect access to education, the labor force, and political institutions.

**ENGL 481 Special Studies in Expository Writing (5) VLPA** Individual projects in various types of nonfictional prose, such as biographical sketches, informational reports, literary reviews, and essays.

**ENGL 483 Advanced Verse Workshop (5, max. 15) VLPA** Intensive verse workshop. Emphasis on the production and discussion of student poetry. Prerequisite: ENGL 383; ENGL 384.

**ENGL 484 Advanced Prose Workshop (5, max. 10) VLPA** Intensive prose workshop. Emphasis on the production and discussion of student fiction and/or creative nonfiction. Prerequisite: ENGL 383; ENGL 384.

**ENGL 485 Novel Writing (5, max. 15) VLPA** Experience in planning, writing, and revising a work of long fiction, whether from the outset, in progress, or in already completed draft. Prerequisite: ENGL 384.

**ENGL 486 Playwriting (5, max. 10) VLPA** Experience in planning, writing, and revising a play, whether from the outset, in progress, or in already completed draft.

**ENGL 487 Screenwriting (5) VLPA** Students read screenwriting manuals and screenplays, analyze exemplary films, and write synopses, treatments, and first acts of their own screenplays.

**ENGL 490 Study Abroad Program (5, max. 15) VLPA** This course, for students in the Study Abroad program, relates major works of literature to the landscape and activities of their settings.

**ENGL 491 Internship (1-6, max. 12)** Supervised experience in local businesses and other agencies. Open only to upper-division English majors. Credit/no credit only.

**ENGL 492 Advanced Expository Writing Conference (1-5, max. 10)** Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken.

**ENGL 493 Advanced Creative Writing Conference (1-5, max. 10)** Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken.

**ENGL 494 Honors Seminar (5, max. 10) VLPA** Survey of current issues confronting literary critics today, based on revolving themes and topics. Focuses on debates and developments affecting English language and literatures,

including questions about: the relationship of culture and history; the effect of emergent technologies on literary study; the rise of interdisciplinary approaches in the humanities.

**ENGL 495 Major Conference for Honors in Creative Writing (5)** Special projects available to honors students in creative writing. Required of, and limited to, honors students in creative writing.

**ENGL 496 Major Conference for Honors (5)** Individual study (reading, papers) by arrangement with the instructor. Required of, and limited to, honors seniors in English.

**ENGL 497 Honors Senior Seminar (5) VLPA** Seminar study of special topics in language and literary study. Limited to honors students majoring in English.

**ENGL 498 Senior Seminar (5) VLPA** Seminar study of special topics in language and literary study. Limited to seniors majoring in English.

**ENGL 499 Independent Study (1-5, max. 10)** Individual study by arrangement with instructor.

**ENGL 500 Reading Medieval Literature (5)** Special problems involved in the study and interpretation of medieval texts, selected examples drawn from the beginnings of English literature to 1500.

**ENGL 501 The Renaissance and Literary Tradition (5)** Examination of selected texts from 1500 to 1660, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the Renaissance.

**ENGL 502 English Literary Culture: 1660-1800 (5)** Examination of selected texts of the Restoration and eighteenth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

**ENGL 503 English Literary Culture: 1800-1900 (5)** Examination of selected texts from the nineteenth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

**ENGL 504 Backgrounds of Modern Literature (5)** Examination of selected texts from the twentieth century, concentrating on specific problems of interpretation and scholarship characteristic of the study of works written during the period.

**ENGL 505 Theories of American Literature (5)** Examination of selected texts in American Literature, concentrating on the specific problems of interpretation and scholarship characteristic of the study of works in this field.

**ENGL 506 Modern and Contemporary Critical Theory (5)** Engages ongoing critical conversations that inform English studies, including: language, textual production, disciplinarity, the university, capital, nation formation, postcolonialism, the environment, race, gender, class, and sexuality. The historical focus is contemporary, with attention to foundational modern theorists.

**ENGL 507 History of Literary Criticism and Theory I (5, max. 15)** A general introduction to the major issues in the history of criticism

followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with C LIT 507.

**ENGL 508 History of Literary Criticism and Theory II (5, max. 15)** Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with C LIT 508.

**ENGL 509 History of Literary Criticism and Theory III (5, max. 15)** Literary criticism and theory from Kant's *Critique of Judgment* to the mid-twentieth century and the work of Northrop Frye. Offered: jointly with C LIT 509.

**ENGL 510 History of Literary Criticism and Theory IV (5, max. 15)** A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with C LIT 510.

**ENGL 512 Introductory Reading in Old English (5)**

**ENGL 513 Old English Language and Literature (5, max. 15)**

**ENGL 514 Middle English (5, max. 15)**

**ENGL 515 Chaucer (5, max. 15)**

**ENGL 516 Topics in Medieval English Literature (5, max. 15)**

**ENGL 517 Sixteenth-Century Literature (5, max. 15)**

**ENGL 518 Shakespeare (5, max. 15)**

**ENGL 520 Seventeenth-Century Literature (5, max. 15)**

**ENGL 521 Milton (5, max. 15)**

**ENGL 522 Topics in the English Renaissance, 1485-1660 (5, max. 15)**

**ENGL 524 Restoration and Eighteenth-Century Literature (5, max. 15)**

**ENGL 525 Topics in Restoration and Eighteenth-Century Studies (5, max. 15)**

**ENGL 527 Romanticism (5, max. 15)**

**ENGL 528 Victorian Literature (5, max. 15)**

**ENGL 529 Topics in Nineteenth-Century Studies (5, max. 15)**

**ENGL 531 Early American Literature (5, max. 15)**

**ENGL 532 Nineteenth-Century American Literature (5, max. 15)**

**ENGL 533 Modern American Literature (5, max. 15)**

**ENGL 535 American Culture and Criticism (5, max. 15)**

**ENGL 537 Topics in American Studies (5, max. 15)**

**ENGL 540 Modern Literature (5, max. 15)**

**ENGL 541 Contemporary Literature (5, max. 15)**

**ENGL 543 Anglo-Irish Literature (5, max. 15)**

**ENGL 544 World Literature in English (5, max. 15)**

**ENGL 546 Topics in Twentieth-Century Literature (5, max. 15)**

**ENGL 550 Studies in Narrative (5, max. 15)**

**ENGL 551 Studies in Poetry (5, max. 15)**

**ENGL 552 Studies in Drama (5, max. 15)**

**ENGL 554 Theories of Structure, Genre, Form, and Function (5, max. 15)**

**ENGL 555 Feminist Theories (5, max. 15)**

**ENGL 556 Cultural Studies (5, max. 15)**

**ENGL 559 Literature and Other Disciplines (5, max. 15)**

**ENGL 560 The Nature of Language: History and Theory (5)**

**ENGL 561 Stylistics (5)**

**ENGL 562 Discourse Analysis (5)**

**ENGL 563 Comparative Grammars (5)**

**ENGL 564 Current Rhetorical Theory (5)**  
Prerequisite: teaching experience.

**ENGL 567 Approaches to Teaching Composition (1-5, max. 10)** Readings in composition theory and discussion of practical classroom applications. Prerequisite: previous experience or concurrent assignment in teaching writing.

**ENGL 569 Topics in Language and Rhetoric (5, max. 15)**

**ENGL 570 Practicum in Teaching English as a Second Language (3, max. 6)** Discussion and practice of second-language teaching techniques. Three hours per week teaching required in addition to regular class meetings. Credit/no credit only. Prerequisite: ENGL 571 or permission of instructor.

**ENGL 571 Theory and Practice on Teaching English to Speakers of Other Languages (5)** Topics include second language reading, aural/oral skills, critical pedagogy, program administration, and language policy.

**ENGL 572 Methods and Materials for Teaching English as a Second Language (5)** Prerequisite: LING 445 or permission of instructor.

**ENGL 574 Research Methods in Second-Language Acquisition (5)** Prerequisite: ENGL 572, LING 449, or permission of instructor.

**ENGL 575 Pedagogy and Grammar in Teaching English as a Second Language (5)**

**ENGL 576 Testing and Evaluation in English as a Second Language (5)** Evaluation and testing of English language proficiency, including testing theory, types of tests, and teacher-prepared classroom tests. Prerequisite: ENGL 571 and ENGL 572 or permission of instructor.

**ENGL 578 Colloquium in Teaching English to Speakers of Other Languages (5, max. 10)** Overview of major issues in second-language

acquisition, teaching methodology, and classroom practice with special emphasis on links between theories of language learning and practical aspects of teaching English to speakers of other languages.

**ENGL 581 The Creative Writer as Critical Reader (5)**

**ENGL 584 Advanced Fiction Workshop (5, max. 20)** Prerequisite: graduate standing.

**ENGL 585 Advanced Poetry Workshop (5, max. 20)** Prerequisite: graduate standing.

**ENGL 586 Graduate Writing Conference (5)**

**ENGL 587 Topics in the Teaching of Creative Writing (3/5) VLP** The theory and practice of teaching fiction, poetry, and creative nonfiction writing.

**ENGL 590 Master of Arts Essay (5/10, max. 10)** Research and writing project under the close supervision of a faculty member expert and with the consultation of a second faculty reader. The field of study is chosen by the student. Work is independent and varies. The model is an article in a scholarly journal. Prerequisite: graduate standing in English.

**ENGL 591 Master of Arts for Teachers Essay (5)** Research and writing project under the close supervision of a faculty member expert in the field of study chosen by the student within the MAT degree orientation toward the teaching of English, and with the consultation of a second faculty reader. The model is an article in a scholarly journal.

**ENGL 592 Graduate English Studies (1-5, max. 10)**

**ENGL 593 Textual Criticism (5)** Introduction to paleography, codicology, analytical and descriptive bibliography; examination of the major contributions to textual theory in the nineteenth and twentieth centuries; practice in applying textual theory in editing literary works.

**ENGL 595 Topics in Teaching Literature (5, max. 15)**

**ENGL 597 Directed Readings (\*, max. 18)** Intensive reading in literature or criticism, directed by members of doctoral supervisory committee. Credit/no credit only.

**ENGL 598 Colloquium in English (1-5, max. 10)** Lectures and seminars presented by visiting scholars or a range of local scholars relevant to English graduate studies.

**ENGL 599 Special Studies in English (5, max. 15)**

**ENGL 600 Independent Study or Research (\*)**

**ENGL 601 Internship (3-10, max. 10)** Credit/no credit only.

**ENGL 700 Master's Thesis (\*)**

**ENGL 800 Doctoral Dissertation (\*)**

skills necessary for academic success, including note-taking, test-taking, writing, active learning, and time and stress management. Academic planning. Introduction to university resources.

**GEN ST 105 Introduction to Liberal Studies (1-10, max. 10)** Designed to increase the academic proficiencies of new freshmen entering the University. Includes coursework in the liberal arts and sciences and related work in writing, speaking, and mathematics. Introduces students to computing and campus culture. Credit/no credit only.

**GEN ST 197 Freshman Seminar (1-3, max. 3)** Small-group discussion with faculty representing a wide spectrum of academic disciplines. Topics and approaches vary. Instructor may introduce research techniques or findings, concentrate on readings in his/her area of interest, or illustrate problems and alternatives related to the study of a particular academic discipline. Credit/no credit only. Offered: AWSp.

**GEN ST 199 The University Community (1-2, max. 2)** Introduces students to various aspects of the University of Washington community. Includes exploration of university resources and opportunities, and academically related skill development. Credit/no credit only. Offered: A.

**GEN ST 300 Colloquium on Education, Learning, and Society (1, max. 3) I&S** Creates a learning community among Education minor students and their instructors. Students learn from researchers and practicing educators about current pedagogical projects and theories. Fosters self-reflexive projects to build understanding of learning pathways.

**GEN ST 340 Community Fieldwork: Law (1-5, max. 5)** Credit/no credit only.

**GEN ST 341 Community Fieldwork: Law (1-5, max. 5)** Credit/no credit only.

**GEN ST 342 Community Fieldwork: Health (1-5, max. 5)** Credit/no credit only.

**GEN ST 343 Community Fieldwork: Health (1-5, max. 5)** Credit/no credit only.

**GEN ST 344 Community Fieldwork: Social Services (1-5, max. 5)** Credit/no credit only.

**GEN ST 345 Community Fieldwork: Social Services (1-5, max. 5)** Credit/no credit only.

**GEN ST 346 Community Fieldwork: Education (1-5, max. 5)** Credit/no credit only.

**GEN ST 347 Community Fieldwork: Education (1-5, max. 5)** Credit/no credit only.

**GEN ST 348 Community Fieldwork: Special Topics (1-5, max. 5)** Credit/no credit only.

**GEN ST 349 Community Fieldwork: Special Topics (1-5, max. 5)** Credit/no credit only.

**GEN ST 350 Independent Fieldwork (1-6, max. 18)** Independent fieldwork in community agencies, apprenticeships, internships, as approved for College of Arts and Sciences credit. Faculty sponsor and internship supervisor are required. Credit/no credit only. Offered: AWSpS.

**GEN ST 391 Supervised Study in Selected Fields (\*, max. 15)** Special supervised study in

---

## General Studies

**GEN ST 101 University Learning Skills (1-3)** Introduction to university culture. Practice in

a field represented in the College of Arts and Sciences. Faculty supervisor required. Credit/no credit only. Offered: AWSpS.

**GEN ST 470 Undergraduate Peer Instructor Practicum (1-3, max. 12)** Provides instruction in group leadership and promotion of values and methods of learning within a university setting. For Peer Instructors in the FIG and TRIG programs. Credit/no credit only. Offered: AWSpS.

**GEN ST 493 Senior Study (5)** For General Studies majors only. Faculty supervisor required. Offered: AWSpS.

---

## Geography

**GEOG 100 Introduction to Geography (5) I&S** Introduction to the study of human geography and the major themes of the discipline. Topics include: human-environment interactions, migration and human mobility, patterns of health and nutrition, industrialization and urbanization, and the geography of culture and politics. Offered: AWSpS.

**GEOG 102 World Regions (5) I&S** Spatial study of world regions, based on historical, cultural, political, economic, and other factors. An attempt to understand the underlying forces that have led to the formation of regions and regional patterns.

**GEOG 123 Introduction to Globalization (5) I&S Sparke** Provides an introduction to the debates over globalization. Focuses on the growth and intensification of global ties. Addresses the resulting inequalities and tensions, as well as the new opportunities for cultural and political exchange. Topics include the impacts on government, finance, labor, culture, the environment, health, and activism. Offered: jointly with SIS 123.

**GEOG 195 Special Topics in Geography (1-5, max. 10) I&S**

**GEOG 200 Introduction to Human Geography (5) I&S Withers** Patterns and systems of human occupancy of the world. Emphasis on cultural processes, dynamic change, functional relations, networks, and diffusion models.

**GEOG 205 Introduction to Physical Sciences and the Environment (5) NW ZumBrunnen** Major atmospheric, hydrologic, and geomorphic processes used to interpret the character, distribution, and human significance of different natural and human-altered environments. Includes laboratory exercises for science and non-science majors, geography majors and nonmajors.

**GEOG 207 Economic Geography (5) I&S Beyers, Harrington** The changing locations and spatial patterns of economic activity, including: production in agriculture, manufacturing, and services; spatial economic principles of trade, transportation, communications, and corporate organization; regional economic development, and the diffusion of technological innovation. Offered: AWS.

**GEOG 208 Geography of the World Economy: Regional Fortunes and the Rise of Global Markets (5) I&S Ellis** Examines the relationship between the globalization of

economic activity and regional development. Topics include international trade, colonialism, industrial capitalism, advanced capitalism, and the globalization of labor markets.

**GEOG 230 Urbanization and Development: Geographies of Global Inequality (5) I&S Lawson** Examines global to local interactions of economic, political, and social forces shaping urbanization and development processes across the globe. Provides an introduction to critical development studies, focusing on Latin America, Africa, and Asia. Also examines debates over the causes and geographic patterns of social inequality worldwide.

**GEOG 236 Development and Challenge in Greater China (5) I&S Chan** Studies the geography of development processes, patterns, and problems in "Greater China": mainland China, Taiwan, and Hong Kong. Covers physical geography, history, and economic and political systems, with major focus on geographical issues in China's development: agriculture, population, industry and trade, and relations with Hong Kong and Taiwan. Offered: jointly with SISEA 236.

**GEOG 245 Geographic Perspectives on U.S. Population Diversity (5) I&S Withers** Introduction to population geography. Offers a practical understanding of population processes (fertility, mortality, and migration); knowledge of geographic variation in population structures and characteristics; knowledge of data sources for demographic research; experience using formal demographic methods for geographic research; and an appreciation for the demographic underpinnings of contemporary social issues. Offered: W

**GEOG 258 Maps and GIS (5) I&S** Explores how people represent the world with maps and geographic information systems (GIS). Trains students in map use for basic navigation, urban management, and environmental analysis. Considers role of spatial databases in commerce, decision-making, and analysis. Helps map readers better determine quality, usefulness, and representation of information.

**GEOG 270 Geographies of International Development and Environmental Change (5) I&S Jeffrey** Considers the meaning of development and how debates over international development link to environmental concerns. Examines how the globalization of agricultural production and debates over genetically modified food alter ideas about development, nature, and the environment. Addresses fair trade policies and practices and the obligations of multinational corporations. Offered: A.

**GEOG 271 Geography of Food and Eating (5) I&S Jarosz** Examines food production, distribution, and consumption issues across geographic scales. Focus ranges from the microcosm of the individual body to food and eating at the national and global scales. Explores the political, social, cultural, and economic dimensions of food and eating in particular spaces, places, environments, contexts, and regions. Offered: Sp.

**GEOG 276 Introduction to Political Geography (5) I&S Brown** Examines both the geography of politics and the politics of geography at a variety of spatial scales and in different global locations. Typical topics include: geographies of the state and state power; geopolitics and globalization; national and local

politics, and other politics of culture, health, nature, and the body.

**GEOG 277 Geography of Cities (5) I&S England, Withers** Study of (1) systems of cities—their location, distribution, functions, and competition; and (2) their internal structure—the location of activities within urban areas. Particular emphasis on current urban problems—sprawl, housing, segregation, economic growth, and metropolitan transportation.

**GEOG 280 Introduction to the Geography of Health and Health Care (5) I&S Mayer** Concepts of health from a geographical viewpoint, including human-environment relations, development, geographical patterns of disease, and health systems in developed and developing countries.

**GEOG 295 Special Topics in Geography (1-5, max. 10) I&S**

**GEOG 301 Cultural Geography (5) I&S** Analysis of the role of culture in the formation of landscape patterns; components of culture that contribute not only to a "sense of place," but also to the mosaic of settlement patterns and occupancy that can be traced to culture.

**GEOG 302 The Pacific Northwest (3) I&S Beyers** Settlement pattern in the Pacific Northwest, emphasizing economic and historical factors, including the location of resource-oriented industries, policies regarding the use of public lands, and bases of the development of major urban areas in the region. Offered: W.

**GEOG 308 Canada: A Geographic Interpretation (5) I&S Sparke** Examines the overlapping economic, cultural, and political geographies shaping life in contemporary Canada. Topics include: free trade, constitutional crisis, feminism in Canada, aboriginal politics, and border region phenomena. Attention paid to how specific geographic interpretations of Canada by Canadians actually play a part in national life. Offered: jointly with SISCA 308; Sp.

**GEOG 310 Immigrant America: Trends and Policies from a Geographic Perspective (5) I&S Ellis** Examines U.S. immigration trends and policies from a geographic perspective. Topics include where immigrants come from, where they settle in the United States, immigrant employment enclaves, the effects of U.S. immigration policy on immigrant settlement and employment patterns, illegal immigration, citizenship, and barriers to immigrant success in the United States.

**GEOG 313 East Asia (5) I&S Chan** Introduction to the contemporary geography of East Asia, including China, Hong Kong, Taiwan, Japan, and Korea. Topics include: physical geography, historical settings, general development patterns, agriculture, population, industry, and trade. Focuses on major geographic issues in development. Case studies from different countries used to illustrate various themes.

**GEOG 315 Explanation and Understanding in Geography (5) I&S Brown** Covers the beginning steps in the research process. Introduces the discipline of geography, the department, and current faculty through the research aims of explanation and understanding that frame social scientific inquiry. Students develop basic library and writing skills as preparation for future research methods classes and independent research.

**GEOG 316 Urban Economics (5) I&S**

Application of economic analysis to urban trends, problems, and prescriptions, such as changing urban form and function, urban public finance, housing and renewal, poverty and race, transportation, and environmental problems. Prerequisite: ECON 200. Offered: jointly with ECON 316.

**GEOG 326 Quantitative Methods in Geography (5) I&S** *Chan* Introduction to quantitative methods in geography, with a primary focus on statistical techniques. Examines the basic concepts, reasoning, and procedures geographers use in developing, analyzing, applying, and presenting quantitative methods. Topics include: generating and describing data; elementary probability, hypothesis testing, comparative tests; finding relationships; and using and misusing statistics. Offered: A.

**GEOG 330 Latin America: Landscapes of Change (5) I&S** *Lawson* Examines operation of economic, social, and political processes across countries of Latin America-on international, national, and local scales-to understand common issues facing the region and different impacts in particular countries. Topics include internationalization of Latin American economies; agrarian and urban change; popular movements. Offered: W.

**GEOG 333 Russia's Changing Landscape (5) I&S** *ZumBrunnen* The Russian landscape as it has been affected by Soviet planning, migration and settlement, urbanization, industrialization, the results of collectivization in agriculture, and the growth of a transport network.

**GEOG 335 Geography of the Developing World (5) I&S** Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Recommended: GEOG 100 or GEOG 230. Offered: jointly with SIS 335.

**GEOG 336 Development and Challenge in China (5) I&S** *Chan* Examines the geography of China's development since 1949. Introduces China's physical geography, history, and economic and political system. Emphasizes China's uneven development in agriculture, population, industry, and trade. Also examines problems China faces in meeting its internal food demand, as well as the external processes of globalization. Offered: W.

**GEOG 342 Geography of Inequality (5) I&S** *England* Geographies of social, political, and economic inequality. Focus is usually on North American cities. Examines the theoretical underpinning of inequality. Explores topics such as the spatial distribution of wealth and poverty, the geographies of exclusion, and discrimination in paid employment and housing.

**GEOG 343 Comparative Geographies of Youth (5) I&S** *Jeffrey* Examines how three key global processes - rising levels of formal education, changing health regimes, and environmental transformation - are shaping youth in the US and South Asia. Examines ways young people rework broader structures, paying particular attention to their economic livelihoods, cultural practices, and political engagements. Offered: jointly with SISSA 343; A.

**GEOG 344 Migration in the Global Economy (5) I&S** *Mitchell* Analyzes the relationship between human mobility in the late 20th century and changes in the global economy. Allows the students to gain familiarity with scholarly research on international migration from a diversity of approaches and methods. Offered: jointly with SIS 344; W.

**GEOG 349 Geography of International Trade (5) I&S** *Harrington* Introduces the theories and practice of international trade and foreign direct investment. Topics include: trade theory and policy; economic integration; currency markets and foreign exchange; trade operations and logistics; the international regulatory environment; and marketing, location and entry, and finance, accounting, and taxation. Offered: W.

**GEOG 350 Local Economies and Market Areas (5) I&S** Intermediate economic geography. Methods and concepts for analysis of economic and business patterns, processes, and problems at regional and local levels. Tools for collecting, organizing, and analyzing data for investigating local economic issues. Recommended: GEOG 207. Offered: Sp.

**GEOG 360 Principles of GIS Mapping (5) I&S, QSR** *Elwood, Nyerges* Origins, development, and methods of cartographic mapping. Principles of data representation and map design for thematic mapping and spatial analysis. Introduction to principles of geographic information systems. Offered: ASp.

**GEOG 366 Introduction to Regional Economic Development (3/5) I&S** *Harrington* The process of regional economic development. Theories and conceptualizations of economic growth and structural change, technological change and industrial development, spatial variation in economic activities and government policies. Recommended: GEOG 207; ECON 201.

**GEOG 367 Economic Uses of Geographic Information (5) I&S** *Harrington* Uses of area data and the geographic information systems (GISs) that handle them in routing, marketing, service-area assessment, and site location. Considers key economic-geography concepts, marketing approaches, questions of data availability and suitability, and GIS. Prerequisite: GEOG 360.

**GEOG 370 Problems in Resource Management (5) I&S** *ZumBrunnen* Principles and practices of effective conservation and utilization of natural resources. Role of technology in resource use. Physical, political, and economic aspects of resource management for food, population, land, water, air, energy, and timber resources. Recommended: GEOG 100. Offered: Sp.

**GEOG 371 World Hunger and Resource Development (5) I&S** *Jarosoz* Addresses issues of hunger and poverty in their relationship to resource development at the local, national, and global levels. Examines various approaches to the problem of world hunger rooted in critical development studies. Recommended: GEOG 230, GEOG 330, or GEOG 335.

**GEOG 372 Asian Sustainable Development (5) I&S** Examines the contemporary relationship between environmental protection and development paths in Asia. Inquires into the forces driving both environmental change and societal responses (state and local regulations, social movements, etc.) to that change, at

many geographical scales. Asian concepts of nature-society relations also explored. Offered: jointly with SISA 372; W.

**GEOG 375 Geopolitics (5) I&S** *Sparke* An introduction to both political geography and geopolitics, addressing the fundamental links between power and space. Topics covered include: theories of power, space, and modernity; the formation of modern states; international geopolitics in the aftermath of the Cold War; the post-colonial nation-state; and the geopolitics of resistance. Offered: jointly with SIS 375.

**GEOG 377 Urban Political Geography (5) I&S** *Brown* Examines how the spatial structure of cities and towns affects and is affected by political processes. Considers both traditional and newer forms of politics, as global and local issues. Special attention paid to where politics take place within local contexts across state, civil society, home, and the body. Offered: Sp.

**GEOG 378 Policing the City (5) I&S** *Herbert* Investigates how and why formal and informal order is established in urban areas, how this order produces advantages and disadvantages, and possibilities of alternative visions of order. Topics include formal means of control (zoning, laws, policing, building codes) and informal means of control (gossip, ostracism, peer pressure, local politics). Offered: jointly with LSJ 378; A.

**GEOG 380 Geographical Patterns of Health and Disease (4) I&S** *Mayer* Geography of infectious and chronic diseases at local, national, and international scales; environmental, cultural, and social explanations of those variations; comparative aspects of health systems. Offered: W.

**GEOG 395 Special Topics in Geography (1-5, max. 10) I&S**

**GEOG 401 Culture, Capital, and the City (5) I&S** Examines current themes in social theory as they apply to the urban landscape. Includes the interconnections of cultural and economic processes and the spatial patterning of race, class, and gender in the modern urban context. Offered: A.

**GEOG 403 Modern European-Islamic Migration, Integration, and Citizenship (5) I&S** *Mitchell* Offers a theoretical and empirical understanding of migration processes and patterns in Europe, with a focus on Muslim immigration in the post WWII period. Analyzes the impact of European Union mandates, globalization processes, and international, national, and urban policies on Muslim immigrant rights and identity formation. Offered: A; jointly with EURO 403.

**GEOG 425 Qualitative Methodology in Geography (5) I&S** *Jarosoz* Historical and philosophical overview of qualitative methodology in design of geography research strategies. Techniques of interviewing, participant observation, and archival research. Forms of analyses such as textual interpretation, discourse analysis and computer-aided analyses of interview transcriptions and ethnography. Questions of ethics, field notes and write-up. Offered: W.

**GEOG 426 Advanced Quantitative Methods (5) I&S, QSR** *Withers* Quantitative methods for empirical research in geography. Emphasis on

statistical analysis; use of geographic data bases like the United States Census; understanding special issues and problems associated with geographically ordered data; verbal and graphic presentation in a computer environment. Recommended: GEOG 326. Offered: A.

**GEOG 430 Contemporary Development Issues in Latin America (5) I&S Lawson** Contemporary development issues in Latin America, seen from a spatial perspective. Concept of development; competing theories as related to various Latin American states. Economic structural transformation, migration, urbanization, regional inequality, and related policies. Offered: A.

**GEOG 431 Geography and Gender (5) I&S Brown, Jarosz** Examines theories and case studies across international, national, and regional scales in order to illustrate the impacts of social and economic processes upon the construction of gender in particular places. Offered: Sp.

**GEOG 432 Population and Urbanization Problems of Russia and the Newly Independent States (5) I&S ZumBrunnen** Historical background and evolution of Soviet/Russian population and urbanization processes and problems. Distinguishing demographic characteristics and recent trends in the growth and migration of rural and urban populations. Analysis of problems associated with ethnicity and nationality, regional-temporal labor demand and supply issues, and spatial-temporal well-being. Offered: odd years; Sp.

**GEOG 433 Resource Use and Management in Russia and the Newly Independent States (5) I&S ZumBrunnen** Geographic and historical background of the natural resource base of Russia and the Newly Independent States. Geographic and historical perspectives on Soviet natural resource use and management in theory and practice. Implications of the breakup of the USSR for natural resource use and management. Offered: odd years; W.

**GEOG 435 Industrialization and Urbanization in China (5) I&S Chan** Examines the impacts of industrialization strategies adopted by the Peoples Republic of China on urbanization and rural-urban relations. Topics include: economic development strategies, industrial geography, rural industrialization, urban development patterns, migration, and urbanization policies. Recommended: GEOG 336. Offered: Sp.

**GEOG 436 Social and Political Geographies of South Asia (5) I&S Jeffrey** Introduces the social and political geographies of South Asia through reference to agrarian change in India. Outlines key concepts related to the reproduction of inequality in the region, particularly theories of caste, class, gender, and religious communalism, and examines the mechanisms through which these inequalities are reproduced in South Asia. Offered: jointly with SISSA 436, Sp.

**GEOG 438 Cities of East Asia: Geography and Development (5) I&S Chan** Examines urban development in East Asia from a geographic and comparative perspective focusing on issues in development, and the interaction of geography, history, politics, and economics. Major topics include economic development and urbanization; regions and urban systems; migration; urban social and spatial structures; globalization and governance. Offered: Sp.

**GEOG 439 Gender, Race, and the Geography of Employment (5) I&S Ellis** Focuses on the geography of employment for men and women of different racial and ethnic backgrounds in American cities. Presents evidence on labor market inequality for different groups and explanations of these differences. Emphasizes the importance of a spatial perspective in understanding employment outcomes for women and minorities.

**GEOG 440 Regional Analysis (5) I&S Beyers** Regional industrial structures and economic change. Application of shift-share, cohort, multiplier, input/output, and programming models to the analysis and projection of regional population and employment patterns, regional growth differentials, and regional impact analysis. Recommended: GEOG 207. Offered: Sp.

**GEOG 443 Location and Movement Models (5) I&S Morrill** Application of models of optimum location and allocation; assignment, transportation, and spatial equilibrium; spatial interaction; geographic simulation; and spatial diffusion.

**GEOG 445 Geography of Housing (5) I&S Withers** Focuses on the geography of housing, especially in the United States. Topics include: the American dream of home ownership; housing affordability and differential access to home ownership; homelessness; the history of public housing; housing demography; residential mobility and neighborhood change, and discrimination in the housing market. Offered: Sp.

**GEOG 447 The Geography of Air Transportation (5) I&S** Geographic analysis of world air routes, passenger and cargo flows, and airport activities; consideration of physical, economic, political, and institutional determinants of routes and flows.

**GEOG 448 Geography of Transportation (5) I&S** Circulation geography, principles of spatial interaction emphasizing commodity flow, the nature and distribution of rail and water transport, the role of transport in area development.

**GEOG 449 Geography of Ocean Transportation (5) I&S** Geographic analysis of ocean trade routes, cargo and passenger flows, and port activities. Evaluation of the role of the transportation carrier in international trade.

**GEOG 451 Cultural Geography of Latin America (5) I&S** Interdisciplinary senior seminar examining how physical and social geographies are culturally constructed and interconnected with subjectivities and power in Latin America. Topics include identity formation grounded in particular territories and the social constitution of space via an interplay of material and cultural forces. Offered: jointly with SISLA 451.

**GEOG 458 Map Sources and Errors (5) I&S** Analysis and appraisal of source materials for maps, production constraints of mapping agencies, coverage and quality. Focus on errors inherent in maps and geographic information; metadata resources; judgment of fitness for specific applications. Prerequisite: 2.0 in GEOG 360. Offered: odd years; W.

**GEOG 460 Geographic Information Systems Analysis (5) I&S Nyerges** Methods of Analysis provided by geographic information systems (GIS). Operations on map information including map overlay, aggregation/disaggregation, and other spatial and attribute procedures. Exposure

to raster and vector software. Review of capabilities of current available GIS software. Prerequisite: 2.0 in GEOG 360. Offered: A.

**GEOG 461 Urban Geographic Information Systems (5) I&S Nyerges** Use of geographic information systems to investigate urban/regional issues; focus on transportation, land-use and environmental issues; all urban change problems considered. GIS data processing strategies. Problem definition for GIS processing. Data collection, geocoding issues. Data structuring strategies. Prerequisite: 2.0 in GEOG 360; recommended: GEOG 277. Offered: W.

**GEOG 462 Coastal Geographic Information Systems (5) QSR Nyerges** Combines lectures about fundamental concepts in geographic information systems with hands-on computer lab assignments about coastal environment-society issues. Coastal feature data measurement, characterization, and movement related to the land-water and environment society dynamic. Prerequisite: GEOG 360; may not be taken if credit received in GEOG 460. Offered: A.

**GEOG 463 Geographic Information Systems Workshop (5) I&S Nyerges** Practical experience applying geographic information system (GIS) tools to analyze spatial data. Workshop format requires student-motivated projects; diverse backgrounds encouraged. Prerequisite: either 2.0 in GEOG 460 or 2.0 in GEOG 461. Offered: Sp.

**GEOG 465 GIS Database and Programming (5) I&S** Explores GIS database models, database development, and database management systems used in GIS. Uses programming languages most applicable to GIS database work, particularly related to extending current commercial GIS such as ArcGIS. Prerequisite: GEOG 360; recommended: either GEOG 461, GEOG 462, or GEOG 464. Offered: odd years; W.

**GEOG 466 Regional Economic Development (5) I&S Harrington** Provides a theoretical overview of sub-national, regional economic growth and structural change, including the roles of interregional interaction and international trade, technological change, social, and legal institutions. Emphasizes inter-regional disparities in the context of relatively wealthy countries. Explores the constraints and effectiveness of government (and other organizations') policy. Offered: W.

**GEOG 471 Methods of Resource Analysis (5) I&S ZumBrunnen** Economic and noneconomic criteria for resource analysis. Theory and methods of linear models of natural resource analysis. Includes materials-balance modeling, residuals management, constrained system optimization approaches to water quality analysis, land-use patterns and interregional energy use, and multiple objective planning techniques applied to natural resource problems. Recommended: GEOG 370.

**GEOG 472 Ecoscapes: Nature, Culture, and Place (5) I&S** Relationship between nature, culture, and place as the heart of geographic inquiry. Examines how perceptions of nature are influenced by changing political-economic, cultural, and scientific practices. Uses cultural studies of ecological science as a primary method of analysis. Offered: Sp.

**GEOG 474 Geography and the Law (5) I&S Herbert** Examines the relationship between geography, law, and socio-legal analysis;

reviews significant instances where law and geography intersect, such as the regulation of public space, the regulation of borders and mobility, and disputes over property and land use. Offered: jointly with LSJ 474.

**GEOG 476 Women and the City (5) I&S** *England* Explores the reciprocal relations between gender relations, the layout of cities, and the activities of urban residents. Topics include: feminist theory and geography (women, gender, and the organization of space); women and urban poverty, housing and homelessness; gender roles and labor patterns; geographies of childcare; and women and urban politics. Offered: jointly with WOMEN 476.

**GEOG 477 Advanced Urban Geography (5)** *Brown* Geographic patterns and social processes within metropolitan areas. Canvases current research topics, methods, and theoretical debates in urban geography. Issues covered range across urban economic, political, and cultural geography. Recommended: GEOG 277. Offered: Sp.

**GEOG 478 Intraurban Spatial Patterns (5) I&S** *Mitchell* Intraurban patterns and processes within metropolitan areas. Economic land-use patterns (commercial and industrial location), social land-use patterns (segregation, housing, and neighborhood change), urban political geography, analysis of urban infrastructure, and assessment of contemporary and future trends in urban development. Recommended: GEOG 277. Offered: Sp.

**GEOG 479 Race, Ethnicity, and the American City (5) I&S** *Ellis* Explores America's cities as sites where ethnic and racial interaction have generated specific patterns of opportunity and disadvantage in housing and labor markets; how ethnic identities and racial formations are changed by living and working in cities, and questions of assimilation, multiculturalism, and America's ethno-racial future.

**GEOG 480 Environmental Geography, Climate, and Health (5) I&S** *Mayer* Demonstrates and investigates how human-environment relations are expressed in the context of health and disease. Local and global examples emphasize the ways medical geography is situated at the intersection of the social, physical, and biological sciences. Examines interactions between individual health, public health, and social, biological, and physical phenomena. Offered: W.

**GEOG 486 Problem Analysis in Urban Ecology (5) I&S/NW** *Alberti, Bradley, Hill, Marzluff, Ryan, ZumBrunnen* Investigates pressing local and regional issues in urban ecology and develops each into a researchable project proposal. Examines and evaluates how different disciplines study environmental issues, explores criteria for conducting and evaluating quality research, develops skills in problem formulation, and sharpens proposal writing skills. Offered: jointly with ENVIR 474/ESRM 486/URBDP 443; A.

**GEOG 487 Applied Theory and Methods in Urban Ecology (5) I&S/NW** *Alberti, Bradley, Hill, Marzluff, Ryan, ZumBrunnen* Discusses broad perspectives in urban ecology and how to analyze data relevant to urban ecology problems. Students write objectives and methods for a selected urban ecology problem that critiques different methodological approaches and reviews/synthesizes literature.

Prerequisite: either GEOG 486, CFR 474, or ENVIR 486. Offered: jointly with CFR 475/ENVIR 487; W.

**GEOG 488 Research in Urban Ecology (5) I&S/NW** *Alberti, Bradley, Hill, Marzluff, Ryan, ZumBrunnen* Teams analyze, present, and begin to interpret data that is relevant to addressing issues in urban ecology. Write and orally present revised objectives and methods sections of interdisciplinary project and present results section. Prerequisite: either GEOG 487, CFR 475, or ENVIR 487. Offered jointly with CFR 476/ENVIR 488; Sp.

**GEOG 490 Field Research: The Seattle Region (6) I&S** *Morrill* Field methods for contemporary urban research. Survey designs used in the analysis of transportation, land use, location of employment, shopping and housing, political fragmentation, and environmental degradation. Field report required, based on field work in the Seattle region.

**GEOG 492 Library Research in Geography (3) I&S** Introduction to library research methods in geography. Review and assessment of geographical bibliographies and abstract services for monographs, periodicals, gazetteers, dictionaries, encyclopedias, government publications, and statistical sources. Credit/no credit only.

**GEOG 493 Assessing Geographic Learning (2)** *Withers* Enables graduating geography majors to articulate and assess their academic development and professional readiness by examining ways of representing geographic skills and capabilities. Offered: Sp.

**GEOG 494 Senior Essay (3) I&S** Supervised individual research and writing of major paper during senior year. Offered: AWSp.

**GEOG 495 Special Topics (\*, max. 15) I&S** Topics vary and are announced in the preceding quarter. Offered: AWSpS.

**GEOG 496 Internship in Geography (3/5, max. 12)** Internship in the public or private sector, supervised by a faculty member. Credit/no credit only. Offered: AWSpS.

**GEOG 497 Tutorial in Geography (1-5, max. 15) I&S** *Withers* Intensive directed study and tutoring. Literature reviews, formulations of project outlines and research designs, orientation in contemporary geographic thought and trends. Directed writing. Required for honors students. Offered: AWSp.

**GEOG 498 Seminar in Economic Geography (5) I&S** *Harrington* Themes and debates within and between economic geography and regional science. Offered: Sp.

**GEOG 499 Special Studies (\*, max. 15)** Supervised reading programs, undergraduate and graduate library and field research; special projects for undergraduate honors students. Offered: AWSpS.

**GEOG 500 Contemporary Geographic Thought (4, max. 8)**

**GEOG 502 Professional Writing in Geography (\*, max. 6)**

**GEOG 505 Research Seminar: China (5, max. 10)** *Chan* Offered: A.

**GEOG 507 Research Seminar: Canadian Problems (5, max. 10)** Consideration of the spatial dimensions of Canadian socioeconomic, cultural, and political development, with emphasis on resource potentials and relations with the United States, Japan, and other important trading partners. Prerequisite: GEOG 308 or permission of instructor. Offered: jointly with SISCA 507.

**GEOG 512 History of Geographic Thought (5)** Historical development of modern geography. Emphasis on various philosophical and methodological debates in geography and the contexts from which they emerged. Investigates geography's foundational concepts and institutions; how they have responded to — and influenced — the world around them. Offered: A.

**GEOG 513 Research Grant Workshop (5, max. 10)** Writing research proposals. Participants learn to identify and approach sponsors; practice the peer-review process; develop a competitive research proposal. Prerequisite: GEOG 512 or GEOG 515 or equivalent; training and experience with quantitative, qualitative, or cartographic analysis; an already-formulated research project.

**GEOG 515 Evidence and Explanation in Geography (5)** *Sparke* Introduces the main strands of philosophical debate shaping the discipline of human geography, including description, prediction, explanation, abstraction, structuration, representation, and institutionalization. Focuses on ways "theories" from outside the discipline have shaped the questions and concerns of geographers, and the ways geography reworks such theories. Offered: Sp.

**GEOG 520 Research Seminar: Geographic Information Representation (5)** *Nyerges* Current issues in geographic information representation for geographic information systems (GIS). Includes representation for visualization, databases, and analyses. Prerequisite: one course in GIS.

**GEOG 526 Advanced Quantitative Methods in Geography (5)** *Morrill, Withers*

**GEOG 531 Latin American Development Seminar (5, max. 10)** *Lawson* Evolution of development theory in Latin America from a spatial perspective. Theories and development issues, using case studies from Latin America. How geographers have conceptualized development problems and solutions. Prerequisite: GEOG 430.

**GEOG 532 Rural Development Seminar (5, max. 10)** *Jarosz* Contemporary issues in international development theory related to regional and agrarian change, with emphasis on Africa.

**GEOG 533 Research Seminar: Russia and the Newly Independent States (5, max. 10)** *ZumBrunnen*

**GEOG 536 Advanced Research Seminar on South Asian Geographies (5)** *Jeffrey* Examines geographies of social inequality in South Asia through reference to how space, place, and the environment are shaping practices of political struggle in the region. Considers how liberalization, democratization and religious communalization are changing the political geography of South Asia. Offered jointly with SISSA 536, Sp.

**GEOG 540 Research Seminar: Industrial Geography (5, max. 10)** *Beyers* Offered: W.

**GEOG 541 Research Seminar: Feminist Geographies (5)** *England* Explores major research themes in feminist geographies. Particular attention to the concept that gendered identities and spaces are discursively (re)produced. Emphasizes recent feminist scholarship that emphasizes difference, as well as the intersections between gender, "race," ethnicity, sexuality, age, nationality, class, and other social identities and divisions. Offered: jointly with WOMEN 541; W.

**GEOG 542 Research Seminar: Social and Population Geography (5, max. 10)** *Withers*

**GEOG 543 Research Seminar: Topics in Immigration, Ethnicity, and Race (5)** *Ellis* Employment patterns and outcomes for immigrants and ethnic minorities. Emphasis is on the U.S. experience and topics covered include labor market segmentation, theories of discrimination, job/labor queues, networks, ethnic niches and enclaves, skills and spatial mismatches. Specific focus changes annually.

**GEOG 544 Event History Analysis of Social and Spatial Change (5)** *Withers* Examines life course research using event-history analysis with applications to the substantive areas of household dynamics, family formation and dissolution, marriage, cohabitation, and divorce, migration histories, residential mobility, and housing careers. Examines continuous- and discrete-time longitudinal models during practical laboratory sessions.

**GEOG 553 Advanced Topics in Cultural Geography (5, max. 10)** *Mitchell* Focuses on important contemporary topics in cultural geography. Examines current theoretical debates in anthropology, sociology, geography, feminist criticism, and cultural studies as they relate to the landscape. Include critical questions surrounding issues of representation and ethnography. Designed to help student prepare for advanced fieldwork. Offered: Sp.

**GEOG 560 Principles of GIS Mapping (5)** Origins, development, and methods of cartographic mapping. Principles of data representation and map design for thematic mapping and spatial analysis. Introduction of principles of geographic information systems (GIS).

**GEOG 566 Research Seminar on Regional Economic Geography (5)** *Harrington* Provides the opportunity to read and discuss key articles on the theory and study of subnational, regional economic development in industrial and "post-industrial" settings, to develop a research program, and to get feedback on research and writing.

**GEOG 567 Research Seminar: Geography and Economic Development (5, max. 10)** *Harrington* Explores ways in which economic and social changes affect the well-being and development of subnational, regional economies. Explanatory roles of such factors as labor and labor institutions, governments, technical change, corporations, capital markets, information costs, and international trade in the process of global restructuring. Specific focus changes annually.

**GEOG 570 Research Seminar: Natural Resources Analysis (3, max. 6)** *ZumBrunnen*

**GEOG 571 Research Seminar: Critical and Normative Ecologies (5)** Engages in an

ecocritique of mainstream managerial environmentalisms by unearthing their ideological bases, and delves into the ethical underpinnings of ecological resistance struggles or green utopias such as ecofeminist, deep and social ecology, and environmental justice movements.

**GEOG 573 Urban Political Geography: Research Seminar (5)** *Brown* Covers both classic and contemporary theoretical debates and research on the relation between power, place, and the local scale. Considers both conventional sites (e.g., the local state) as well as new forms and locations of city politics (e.g., sexuality and the body).

**GEOG 574 Research Seminar: Geography, Law, and Social Control (5)** *Herbert* Explores relationship between the construction and enforcement of law and the landscape of lived experience; reviews major approaches in socio-legal analysis and seeks to augment these with insights from contemporary human geography research; explores various ways in which geographical variance shapes legal behavior. .

**GEOG 575 Advanced Political Geography (5)** *Sparke* Provides resources for theorizing how politics shapes and is shaped by geographical relationships. Examines how politics are situated in complex material and discursive geographies that are partly reproduced through political negotiations. Examines interrelationships of contemporary capitalism with other complex systems of social and political power relations. Offered: jointly with SIS 575.

**GEOG 577 Research Seminar: Internal Spatial Structure of Cities (4, max. 8)** *Brown* Offered: A.

**GEOG 578 Research Seminar: Theorizing the City (5)** *Ellis* Considers classic and contemporary writings in urban theory in the twentieth century, including social ecology (Chicago School), political economy, and contemporary theoretical debates in poststructuralism, deconstructionism, and culture as they relate to cities and space. Offered: W.

**GEOG 580 Medical Geography (3)** *Mayer* Geography of disease, consideration in health systems planning. Analysis of distributions, diffusion models, migration studies. Application of distance, optimal location models to health systems planning; emergency medical services; distribution of health professionals; cultural variations in health behavior. Prerequisite: familiarity with social science research; health-related issues. Offered: jointly with HSERV 586; W.

**GEOG 581 Seminar in Medical Geography (5, max. 10)** *Mayer* Intensive research seminar dealing with new and promising research themes in medical geography and public health. Offered: jointly with HSERV 585; A.

**GEOG 588 Advanced Urban Ecology (5)** *Alberti, Bradley, Hill, Marzluff, Ryan, ZumBrunnen* Discussion of current and important theoretical and empirical papers in urban ecology. Students continue to research interdisciplinary urban ecology projects while developing publishable manuscripts and oral presentations. Offered: jointly with CFR 588; AWSp.

**GEOG 597 Tutorial for Graduate Students (2)** Introduces beginning geography students to the main research agendas of the faculty; identifies

the range of current discourse communities formed by current faculty and graduate students; establishes a process of mentoring and long-term planning for each new graduate student. Credit/no credit only. Offered: A.

**GEOG 598 Geography Colloquium (1, max. 3)** Participation in, and critique of, student thesis and dissertation research, faculty research, and visitor contributions. Offered: AWSp.

**GEOG 599 Effective Teaching of Geography (1)** Designed for the ongoing development of effective teaching and professional skills. Topics/activities include micro-teaching, communications and presentation skills; course organization, time management, personal and small group dynamics; design of geography curricula using simulations and computer-assisted instruction in the classroom, and fostering of creative thinking. Credit/no credit only. Offered: A.

**GEOG 600 Independent Study or Research (\*)** Offered: AWSpS.

**GEOG 700 Master's Thesis (\*)** Offered: AWSpS.

**GEOG 800 Doctoral Dissertation (\*)** Offered: AWSpS.

---

## Germanics

Detailed descriptions of courses are published by the Department of Germanics prior to registration each quarter.

**Credit Restrictions:** Students may receive credit for only one course in each of the following: 101, 111, and the first 5 credits of 104; 102, 111, and the second 5 credits of 104; 103 and the last 5 credits of 104. They may, however, receive credit for courses in different first-year sequences if the courses are taken in progressively more advanced order (e.g., the first 5 credits of 104 followed by 102 and 103). 100 is the equivalent of 101, 102, 103, or 15 credits of 104.

**GERMAN 100 Intensive First-Year German (15)** Accelerated first-year German. Speaking and listening. Secondary objectives are reading and writing. Offered: S.

**GERMAN 101 First-Year German (5)** The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. (Can not be taken for credit if German is language of admission) Prerequisite: score of 0-11 on GER TL placement test if German is language of admission. Offered: AWS.

**GERMAN 102 First-Year German (5)** The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. Prerequisite: either GERMAN 101 or score of 12-35 on German placement test. Offered: AWSp.

**GERMAN 103 First-Year German (5)** The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. Prerequisite: either GERMAN 102, GERMAN 111, or score of 36-56 on German placement test. Offered: AWSpS.

**GERMAN 111 Basic German Review (5)**

Includes the curriculum of GERMAN 102, preceded by a review of GERMAN 101.

Designed for students with a background in German. Awards credits for GERMAN 102. Cannot be taken for credit if student has already taken GERMAN 102, 103, or more advanced courses. Offered: A.

**GERMAN 121 First-Year Reading German (5)**

Special beginning course devoted exclusively to the reading objective. Offered: AS.

**GERMAN 122 First-Year Reading German (5)**

Special beginning course devoted exclusively to the reading objective; 122 continuation of 121. Offered: WSp.

**GERMAN 150 Conversational German**

**Through Films (2, max. 6) VLPA** Conversational practice in small groups based on films. Because series progresses through the year, beginners may enroll only Autumn Quarter. May be taken concurrently with other Germanics courses. Cannot be taken for credit if 250 previously taken. Offered: AWSp.

**GERMAN 190 Crime Scenes: Investigating the**

**Cinema and Its Cultures (5) VLPA** *Ames, Nestingen* Teaches how to analyze film by closely studying crime scenes from historical and contemporary German and Scandinavian cinema. Directors studied include Fritz Lang, Carl Th. Dreyer, Billy Wilder, and Lars von Trier. Offered jointly with SCAND 190.

**GERMAN 199 Supervised Study (1-10, max.**

**10) Study in German language and culture.**

**GERMAN 200 Intensive Second-Year German**

**(15) VLPA** Accelerated second-year German. Systematic review of German grammar. Intensive practice in conversation, reading and writing. Recommended: GERMAN 103. Offered: S.

**GERMAN 201 Second-Year German (5) VLPA**

Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Recommended: GERMAN 103. Offered: AWSp.

**GERMAN 202 Second-Year German (5) VLPA**

Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Recommended: GERMAN 201. Offered: AWSp.

**GERMAN 203 Second-Year German (5) VLPA**

Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Recommended: GERMAN 202. Offered: AWSp.

**GERMAN 210 Classics of German Literature**

**and Thought (5) VLPA** Introduction to major figures of German culture from the Reformation to the present, their contribution to the intellectual life of the Western world. Luther, Kant, Goethe, Schopenhauer, Marx, Freud, Nietzsche, Kafka, Brecht, and Mann. In English.

**GERMAN 220 Origins of the Germanic**

**Languages (5) VLPA** Introduction to basic grammatical concepts, terminology, and linguistics with emphasis on German-English relationship. Overview of phonology, morphology, syntax, and history of Germanic languages and people, both ancient and modern. Languages covered include Old, Middle, and New High German; English, Frisian, Dutch, Old Saxon, and

Gothic. Taught in English. Offered: jointly with LING 220; AWSpS.

**GERMAN 221 The German Express: Second**

**Year (10) VLPA** Combines in one quarter the contents of 201 and 202, with special emphasis on reading and speaking skills. Limited to students who have demonstrated exceptional skills in first-year German. Recommended: GERMAN 103. Offered: A.

**GERMAN 230 Conversational German (5)**

**VLPA** Recommended: GERMAN 103. Offered: S.

**GERMAN 243 Fairy Tale and Fantasy (5) VLPA**

Studies of the Grimm brothers' fairy tales, their reception in different cultural frameworks, and their influence on fantasy literature from the nineteenth century to the present, including discussions of their sociological, psychological, and psychoanalytical implications and gender issues. In English.

**GERMAN 250 Advanced Conversational**

**German Through Films (2, max. 6) VLPA** Conversational practice in small groups based on films. May be taken concurrently with other Germanics courses. Recommended: GERMAN 103 and GERMAN 150. Offered: WSp.

**GERMAN 293 Introduction to Contemporary**

**German Culture (5) I&S/VLPA** Introduction to culture of today's German-speaking world through readings from various media and discussion of diverse manifestations of both high and popular culture, its underlying beliefs and values, and its institutions and historical background. Readings and discussions in English.

**GERMAN 295 The Contributions of German**

**Jews to German Culture (5) I&S/VLPA** Contribution, assimilation and alienation of German-speaking Jews — such as Karl Marx, Sigmund Freud and Franz Kafka — emphasizing the multi-cultural nature of that which is understood as "German culture."

**GERMAN 299 Supervised Study (1-5, max. 10)**

.

**GERMAN 300 Studies in Germanics (5, max.**

**15) VLPA** Topics or figures of German literature or language.

**GERMAN 301 Conversation and Writing**

**Skills (3-5) VLPA** Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Recommended: GERMAN 203. Offered: AW.

**GERMAN 302 Conversation and Writing**

**Skills (3-5) VLPA** Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Recommended: GERMAN 301. Offered: WSp.

**GERMAN 303 Conversation and Writing**

**Skills (3-5) VLPA** Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Recommended: GERMAN 302. Offered: Sp.

**GERMAN 304 Contemporary German Play (5,**

**max. 15) VLPA** Reading, analysis, and performance of one play by a contemporary German author. Taught in German. Performance

scheduled for last week of quarter. Prerequisite: GERMAN 203.

**GERMAN 311 Critical Approaches to German**

**Literature (5) VLPA** Introduction to literary terminology. Diverse interpretive strategies, ranging from close reading to biographical and sociological approaches. Characteristics of different genres (poetry, prose, drama). Readings from eighteenth- to twentieth-century literature. Recommended: GERMAN 203. Offered: A.

**GERMAN 312 Historical Approaches to**

**German Literature (5) VLPA** German literature from the Middle Ages to the present: Medieval Courtly period, Baroque, Enlightenment, *Sturm und Drang*, Classicism, Romanticism, Realism, Neoromanticism, Expressionism. Recommended: GERMAN 311. Offered: W.

**GERMAN 313 Major Figures of German**

**Literature (5) VLPA** Focus on major figure such as Goethe, Schiller, Kleist, Fontane, Thomas Mann, Kafka. Emphasis on his/her cultural and sociopolitical contexts. Literary and nonliterary texts, including film, art, political, historical, and philosophical texts. Recommended: GERMAN 203; either GERMAN 311 or GERMAN 312. Offered: Sp.

**GERMAN 322 Introduction to German Studies**

**(5) VLPA** What is "German culture"? How has it been defined and contested? How and why do we study it? Interdisciplinary methods and readings.. Recommended: GERMAN 203; either GERMAN 311 or GERMAN 312. Offered: W.

**GERMAN 323 Institutions and Their Ideas (5)**

**I&S/VLPA** Analysis of central institutions of contemporary Germany in their historical development. Recommended: GERMAN 203; either GERMAN 311 or GERMAN 312; GERMAN 322. Offered: Sp.

**GERMAN 330 Conversational German (3-5)**

**VLPA** For participants in special summer programs only.

**GERMAN 333 Business German 1 (5) VLPA**

Introduction to the language and practices of German business. Recommended: GERMAN 203. Offered: A.

**GERMAN 334 Business German 2 (5) VLPA**

Introduction to the language and practices of German business. Recommended: GERMAN 203. Offered: W.

**GERMAN 340 Friedrich Nietzsche in English**

**(5) I&S/VLPA** Analysis of Friedrich Nietzsche's chief works and the discussion of his position within modern German literature and thought.

**GERMAN 341 Franz Kafka in English (5) VLPA**

Short stories and novels of Franz Kafka; emphasis on philosophical relevance and esthetic significance.

**GERMAN 342 Thomas Mann in English (5) VLPA****GERMAN 345 Bertolt Brecht in English (5) VLPA**

**GERMAN 346 The Contemporary German Novel in English (5) VLPA** Major novels of the postwar period (1945 to present) discussed in their historical context.

**GERMAN 349 Goethe in English (5) VLPA**

Selected major works (especially *Faust*) of

Goethe, whose literary, philosophical, and scientific achievements are examined as integral parts of his quest for meaning, wholeness, and universality, and whose impact on Western thinking is traced up to Thomas Mann and C. G. Jung.

**GERMAN 350 The German Drama in English (5) VLP** German drama from the eighteenth to the twentieth centuries. German history and culture as reflected in the plays. Discussion of major themes.

**GERMAN 351 Vienna 1900 in English (5) I&S/VLPA** Interdisciplinary study of Vienna at the turn of the century. Discussion of literary texts with emphasis on other intellectual and cultural trends of this very rich and complex period.

**GERMAN 352 Literature and Society in Weimar and National Socialist Germany in English (5) I&S/VLPA** Literature, theater, and film, with adjunct consideration of art and architecture, in relation to the German social and cultural situation *circa* 1918 to *circa* 1947.

**GERMAN 353 Postwar Germany (5) I&S/VLPA** Study of culture, society, and politics in Germany since 1945. Readings include literary and nonliterary texts devoted to culture and everyday life. In English.

**GERMAN 355 German Literature and Film in English (5) VLP** Relationship between literature and film in the German tradition. Content varies; focus may be on a particular time period, director, or theme. Special attention paid to developing critical and analytical skills.

**GERMAN 356 Pagan Germany: Myth, Religion, Folklore in English (5) I&S/VLPA** History and culture of the German peoples before and during the conversion to Christianity. Readings include Tacitus's *Germania* and other historical sources, *Beowulf*, *Nibelungenlied*, *Grimm's Fairy Tales*, and German legends. Treatment of archaeological finds and a variety of materials that bear on religion, prophecy, magic, folk customs, and festivals.

**GERMAN 360 Women in German Literature in English (5) I&S/VLPA** Investigates the changing social roles of women in German society on the example of various literary texts from different periods.

**GERMAN 370 History of German Cinema (5) I&S/VLPA** History of German cinema emphasizing the cultural and political contexts. Films by Lang, Murnau, Riefenstahl, and Fassbinder, among others. Readings and discussions in English.

**GERMAN 371 Special Topics: German Cinema (5, max. 10) VLP** Covers one or more German film directors, a specific genre, or a chosen theme. Topics vary. Readings and discussions in English.

**GERMAN 390 Germanic Studies in English (5, max. 15) VLP** Topics or figures of German literature or language.

**GERMAN 395 Proctoring of First-Year German Film Course (2, max. 6) VLP** Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in 150. Leaders may participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in 3 quarters. Credit/no

credit only. Recommended: GERMAN 203. Offered: AWSp.

**GERMAN 396 Proctoring of Second-Year German Film Course (2, max. 6) VLP** Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in 250. Leaders may participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in three quarters. Credit/no credit only. Recommended: GERMAN 303; either GERMAN 322 or GERMAN 323. Offered: WSp.

**GERMAN 397 Foreign Studies in German Literature (1-6, max. 15) VLP**

**GERMAN 398 Foreign Studies in German Language (1-6, max. 15) VLP**

**GERMAN 399 Foreign Studies in German Culture (1-6, max. 15) I&S/VLP**

**GERMAN 401 Advanced Writing and Conversation (3-5) VLP** Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Recommended: GERMAN 303. Offered: AWSp.

**GERMAN 402 Advanced Writing and Conversation (3-5) VLP** Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Recommended: GERMAN 303. Offered: AWSp.

**GERMAN 403 Advanced Writing and Conversation (3-5) VLP** Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Recommended: GERMAN 303. Offered: AWSp.

**GERMAN 406 Intensive Elementary Yiddish (5-15, max. 15)** Intensive study of Yiddish grammar, with oral and written drills and reading of selected texts. Offered: S.

**GERMAN 411 Studies in Medieval Literature and Culture (5) VLP** Rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 412 Studies in Renaissance and Baroque Literature and Culture (5) VLP** Rotating special topics in literature and culture of the Renaissance and Baroque, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 421 Studies in Eighteenth-Century Literature and Culture (5) VLP** Rotating special topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 422 Studies in Nineteenth-Century Literature and Culture (5) VLP** Rotating

special topics in literature and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 423 Studies in Twentieth-Century Literature and Culture: (5) VLP** Rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems. Recommended: GERMAN 303; either GERMAN 311, GERMAN 312, GERMAN 322, or GERMAN 323.

**GERMAN 430 Advanced Conversational German (3-5, max. 10) VLP** For participants in special summer programs only. Cannot be taken for credit to those who have already taken 401, 402, or 403.

**GERMAN 444 Undergraduate Thesis in Germanics (5) VLP** Supervised research leading to the writing of a research thesis.

**GERMAN 446 Internship in German (2-5, max. 10)** Prerequisite: 6 credits of upper-level German language courses. Credit/no credit only.

**GERMAN 447 Undergraduate Research (1-5, max. 15)** Supervised research with faculty member. Offered: AWSpS.

**GERMAN 451 Linguistic Analysis of German (5) VLP** Recommended: GERMAN 203 Offered: A.

**GERMAN 452 History of the German Language (5) VLP** Traces the history of the German language from early Germanic to the present. Recommended: LING 200 and GERMAN 203 Offered: jointly with LING 415.

**GERMAN 479 Special Topics in the Teaching of Foreign Languages (3, max. 9) VLP** Intensive workshop for in-service and pre-service teachers of all foreign languages on some aspect of foreign-language teaching methodology.

**GERMAN 490 Contemporary German Literature (5) VLP** Interpretation of selected works by contemporary German authors. Recommended: GERMAN 303; either GERMAN 311 or GERMAN 312.

**GERMAN 493 Special Topics in German Culture (5) I&S/VLP** Recommended: GERMAN 303; either GERMAN 322 or GERMAN 323.

**GERMAN 494 Studies in German Poetry (5) VLP** Introduction to various methods of analysis and interpretation. Recommended: GERMAN 303; either GERMAN 311 or GERMAN 312.

**GERMAN 495 Proseminar in German Literature (5, max. 15) VLP** Special topics, the subject matter and depth of which are not included in other literature courses, arranged through consultation among students and faculty members.

**GERMAN 496 History of Germanic Philology (5) VLP** Introduction to the works of outstanding scholars in the field of Germanics.

**GERMAN 497 Studies in German Literature (1-6, max. 15)**

**GERMAN 498 Studies in the German Language (1-6, max. 15)**

**GERMAN 499 Studies in German Culture (1-6, max. 15)**

**GERMAN 500 Literary Theory, Methodology, and Bibliography (5)** Historical survey and analysis of criticism (*Methodengeschichte*) and modern trends in contemporary theory. Methods of research and bibliography, as well as theoretical aspects of practical interpretation.

**GERMAN 501 Proseminar in Methods and Writing (5)** Introduction to research methods, presentation of research, scholarly writing, and general poetological issues. Each year a different special topic is chosen as a focus for students' research in the course.

**GERMAN 503 Contemporary German Literature (5, max. 15)** Seminar analyzing the esthetic movements and thought of contemporary German literature, the social and political problems dealt with in the works of representative authors, and major experimental concepts. Some previous exposure to the German literature and civilization after 1945 is expected.

**GERMAN 504 Special Studies in Literary Criticism and Theory (5, max. 15)** Literary criticism and theory, focusing on special topics proposed by the instructor. Taught in English. Prerequisite: GERMAN 500 or equivalent.

**GERMAN 510 Studies in Medieval Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems.

**GERMAN 511 Studies in Renaissance and Baroque Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the Renaissance and Baroque, such as particular movements, authors, genres, themes, or problems.

**GERMAN 512 Studies in Eighteenth-Century Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems.

**GERMAN 514 Studies in Nineteenth-Century Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems.

**GERMAN 516 Studies in Twentieth-Century Literature and Culture (5, max. 15)** Seminar on rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems.

**GERMAN 518 Foreign Language Teaching Methodology (2)** *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with NEAR E 518/SCAND 518/SLAV 518.

**GERMAN 525 Seminar in Romanticism (5, max. 15)**

**GERMAN 526 Seminar in Nineteenth-Century Drama (5, max. 15)**

**GERMAN 527 Seminar in Nineteenth-Century Prose (5, max. 15)**

**GERMAN 528 Nineteenth-Century Poetry (5, max. 15)** Representative selections from Holderlin, the late Goethe, and from prevalent trends in nineteenth-century poetry, such as romanticism, "Young Germany," poetic realism, and the experimental poetry of naturalism.

**GERMAN 529 Studies in Literature 1870-1920 (5, max. 15)** Seminar on rotating special topics drawn from the period 1870-1920, such as particular movements, authors, genres, themes, or problems.

**GERMAN 533 Seminar in Eighteenth-Century Literature (5, max. 15)** Study of one or more of the literary movements: Enlightenment, sentimentalism, anacronisms, storm and stress, classicism, early romanticism, and works by principal authors such as Gottsched, Bodmer, Gellert, Lessing, Wieland, Klopstock, Herder, Lenz, Goethe, Schiller, Jean Paul.

**GERMAN 534 Storm and Stress (5, max. 15)** Extensive investigation of poetological and esthetic concepts advanced by initiators and exponents of German storm and stress. Analyses of narrative and dramatic works of storm and stress reveal reflections and implementations of the new theoretical concepts.

**GERMAN 535 Classicism: Goethe, Schiller (5, max. 15)**

**GERMAN 537 Studies in Literature 1770-1830 (5, max. 15)** Seminar on rotating special topics drawn from the period 1770-1830, such as particular movements, authors, genres, themes, or problems.

**GERMAN 540 Twentieth-Century Poetry (5, max. 15)** Development of German poetry from Rilke, Hofmannsthal, and George through Trakl, Benn, the Expressionists and the Dadaists, Brecht, and Enzensberger, to such contemporaries as Eich, Heissenbuttel, the concrete poets, Celan, and Bachmann.

**GERMAN 541 Twentieth-Century German Drama (5, max. 15)** Selection from modern German drama representative of the concern with the human condition, of social criticism, and of experimentation with the new dramatic forms.

**GERMAN 542 Twentieth-Century Prose (5, max. 15)** Selected modern German novels, short novels, and short stories by representative authors dealing with the social and political problems of Germany as well as with individual problems of existence and identity.

**GERMAN 550 Gothic (5)**

**GERMAN 551 Seminar in Germanic Philology and Linguistics (5, max. 15)** Topics vary. Prerequisite: basic knowledge of German and at least one elementary linguistics course.

**GERMAN 552 Old High German (5)**

**GERMAN 555 Old Saxon (5)**

**GERMAN 556 Middle High German (5)**

**GERMAN 558 Middle High German Literature (5)**

**GERMAN 560 Modern Dialects (5)**

**GERMAN 565 Seminar in Courtly Epic (5)** Aspects and methods of literary analysis pertaining to the study of medieval courtly epics.

**GERMAN 566 Late Middle High German Narrative (3)**

**GERMAN 567 Minnesang (3)** In-depth study of medieval German lyrics in the context of German and European literary and intellectual development. Poems of the period from Kurenberger through Walther are analyzed with stress on grammatical, formal, stylistic, and ideological interpretation. Prerequisite: adequate knowledge of Middle High German.

**GERMAN 568 Seminar in Heroic Epic (5)** Literary and historic problems of the German heroic epic, with special emphasis on the *Nibelungenlied* and the *Dietrichsepik*.

**GERMAN 575 Teaching of German Literature and Civilization (5)** Teaching of German language and literature on the advanced level in secondary schools and colleges. Credit/no credit only.

**GERMAN 576 Modern Methods and Materials in Teaching German (3)** Theory and practice of communicative language teaching; current developments in foreign-language teaching; evaluation of teaching materials. Credit/no credit only.

**GERMAN 577 Principles of Second Language Learning (2)**

**GERMAN 580 Seminar in German Literature (5, max. 15)** Open topics seminar with varying content.

**GERMAN 581 Seminar in Poetry (5, max. 15)** Open topics seminar with varying content.

**GERMAN 582 Seminar in Drama (5, max. 15)** Open topics seminar with varying content.

**GERMAN 583 Seminar in Prose (5, max. 15)** Open topics seminar with varying content.

**GERMAN 590 Philosophical Issues in German Culture (5, max. 15)** Seminar on rotating special topics dealing with the impact of particular thinkers, movements, or philosophical problems in German culture.

**GERMAN 591 Studies in German Intellectual History (5, max. 15)** Seminar on rotating special topics dealing with interactions of history, literature, and culture in the German tradition.

**GERMAN 592 Cultural Studies (5, max. 15)** Seminar on rotating special topics dealing with periods, themes, or particular problems in German life and culture.

# History

## History

**HIST 111 The Ancient World (5) I&S** Origins of Western civilization to the fall of Rome.

**HIST 112 The Medieval World (5) I&S** Political, economic, social, and intellectual history of the Middle Ages. Cannot be taken for credit toward a history major if HSTAM 331 or 332 or 333 previously taken.

**HIST 113 Europe and the Modern World (5) I&S** Political, economic, social, and intellectual history of modern Europe. Cannot be taken for credit toward a history major if HSTEU 302 or 303 previously taken.

**HIST 140 Russia from the Tenth Century to the Present (5) I&S** Russian political, social, and economic history from the tenth century to the present. Offered: jointly with EURO 140.

**HIST 151 Introduction to African History, c. 1000-1880 (5) I&S** Examines Africa's past from approximately 1000 to 1880. Through the theme of the politics of wealth, explores the history of precolonial states and societies, religious movements that combined local beliefs with Islam and Christianity, the Atlantic and Indian Ocean slave trades, and the origins of American and European colonialism.

**HIST 152 Introduction to African History, c. 1880 - Present (5) I&S** Examines Africa's pasts from approximately 1880 to the present. Through the theme of the politics of wealth, explores the history of European colonization, African social and cultural life under colonial rule, anti-colonial movements and decolonization, and the changes and challenges of the postcolonial present.

**HIST 161 Survey of the Muslim Near East (5) I&S** The Middle East (the Arab countries, Israel, Turkey, Iran, and Afghanistan) from the emergence of Islam in AD 622 to the present: culture, economics, politics.

**HIST 199 Foreign Study (3-5, max. 10) I&S** Lower-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

**HIST 200 Ten Events that shook the World (5) I&S** Offers introduction to history by examining ten events of great importance for both past and present. The ten events, which vary from quarter to quarter, come from diverse times and places, thereby encouraging a sweeping view of world history. (See department advisor for the current quarterly list of the ten events.)

**HIST 204 Europe and America in the Era of the World Wars (5) I&S** Declining role of Europe in the world and rise of the United States from 1914 to 1945.

**HIST 205 Filipino Histories (5) I&S** Explores the histories, cultures, and politics of Filipinos in the Philippines and in the Diaspora, including Filipino Americans. Examines pre-colonial societies, Spanish and American colonial rule, nationalism, decolonization, and post-war political movements. Includes the histories of Filipino peoples in Europe and the United States. Offered: jointly with SISSE 205.

**HIST 207 Introduction to Intellectual History (5) I&S** Ideas in historical context. Comparative and developmental analysis of Western conceptions of "community," from Plato to Freud. Offered: jointly with CHID 207.

**HIST 209 History of Christianity (5) I&S** Twenty centuries of the history, thought, and culture of Christianity.

**HIST 211 Introduction to the History of Science (5) I&S** Introduction to major themes in the history of science. Investigation of historical and scientific methods through the study of particular historical cases.

**HIST 215 The History of the Atomic Bomb (5) I&S** History of the atomic bomb from the beginning of nuclear physics to the security hearing of J. Robert Oppenheimer. Includes a study of the scientific achievements that made the bomb possible, the decision to deploy the bomb, the moral misgivings of the scientists involved.

**HIST 217 The Space Age (5) I&S** Explores the history of ideas, events, and practices associated with the Space Age from the late nineteenth century through the twentieth. Emphasizes intellectual, cultural, and political/military history in the development of rockets and space technology in the United States, Germany, and the Soviet Union.

**HIST 219 Science and the Arts in Early Modern Europe (5) I&S** Explores the role of artisanal craft practice and knowledge in the Scientific Revolution. Examines the artisanal world and its traditions of craft knowledge and follows the transmission of artisanal practice into the scholarly world of natural philosophy in the seventeenth century. Assesses the consequences for scientists and artisans.

**HIST 221 Information Research Strategies in History (3) I&S** Information research and problem solving in the context of history. Focuses on identifying information, need, information seeking, evaluation and presentation, and selection of the appropriate sources. Offered: jointly with INFO 221.

**HIST 222 Understanding Photographs as Historic Documents (3) I&S** Introduction to understanding how to view and interpret information contained in photographs. Examines the photograph as artifact, intent of the photographer, photographic codes and meanings; how such information is used, misused, and manipulated for various purposes and how to navigate archival institutions in search of photographs. Offered: jointly with INFO 222.

**HIST 225 The Silk Road (5) I&S** *Waugh* History of cultural and economic exchange across Eurasia from the early Common Era to modern times. Spread of religions such as Islam and Buddhism, overland trade in rare commodities, interaction between nomadic and sedentary cultures, role of empires, culture of daily life, and the arts. Offered: jointly with SIS 255.

**HIST 245 Exploration and Empire: Science, Art, and Power, 1300-1800 (5) I&S** Explores key moments in the history of exploration and empire, 1300-1800. Taking an interdisciplinary approach, focuses on scientific and artistic aspects of exploration, their implications for imperialism, and legacies in the postcolonial world.

**HIST 249 Introduction to Labor Studies (5) I&S** Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with POL S 249/SOC 266.

**HIST 250 Introduction to Jewish Cultural History (5) I&S** Introductory orientation to the settings in which Jews have marked out for themselves distinctive identities as a people, a culture, and as a religious community. Examines Jewish cultural history as a production of Jewish identity that is always produced in conversation with others in the non-Jewish world. Offered: jointly with SISJE 250.

**HIST 258 Slavery and Slave Trading in the 21st Century (5) I&S** Examines the forms that slavery and slave trading have taken in contemporary times.

**HIST 260 Slavery in History: A Comparative Study (5) I&S** Slavery as a universal historical phenomenon lending itself to a comparative analysis is studied in terms of its philosophical justifications, economic importance, and local practices. The following historical periods are surveyed: the ancient Near East, Greece, Rome, Islam, Africa, Latin America, and North America.

**HIST 261 The Crusades: Middle Eastern Perspectives (5) I&S** Examines the impact of European Christians on the Middle East, from the establishment of the County of Edessa (1097) to the fall of Acon (1291). Explores how Muslims understood, reacted, and adapted to the crusades and how the close encounter with the "Franks" transformed medieval Middle Eastern societies.

**HIST 263 The Modern Middle East (5) I&S** *Lopez* Explores the social, political, and cultural changes that have occurred in the Middle East during the past two centuries. Covers the main social, economic, and intellectual currents that have transformed this region, starting with Napoleon's conquest of Egypt in 1798 and ending with the present moment in history. Offered: Sp.

**HIST 265 Modern Revolutions Around the World (5) I&S** Introduces the causes, processes, and legacies of modern revolutions. Cases included the American, French, Mexican, Russian, and Chinese Revolutions. Special attention given to how these and other revolutions have shaped the modern world.

**HIST 269 The Holocaust: History and Memory (5) I&S** Explores the Holocaust as crucial event of the twentieth century. Examines the origins of the Holocaust, perpetrators and victims, and efforts to come to terms with this genocide in Europe, Israel, and the United States. Offered: jointly with SISJE 269.

**HIST 283 Introduction to Women's History (5) I&S** Includes units on American, European, and Third World women that examine centers of women's activities (convents, women's clubs), women's place in male-dominated spheres (politics), women's impact on culture (health, arts), and the effect of larger changes on women's lives (technology, colonization). Offered: jointly with WOMEN 283.

**HIST 290 Topics in History (5, max. 10) I&S** Examines special topics in history.

**HIST 309 Marx and Nietzsche: The Assault on Bourgeois-Christian Civilization (5) I&S** Major dilemmas and conflicts of modern Western consciousness through historical analysis of Marx, Nietzsche, and the movements they spawned. Emphasis on the relationship between sociocultural change, biography, and ideological innovation. Offered: jointly with CHID 309.

**HIST 310 Science and Religion in Historical Perspective (5) I&S** Scientific and religious ideas have been two of the major forces shaping our modern view of the world. Often regarded as being in conflict, they can equally well be seen as complementary and interdependent. Study of the relationship between scientific and religious ideas with focus on particular episodes of history from ancient to modern times.

**HIST 311 Science in Civilization: Antiquity to 1600 (5) I&S** From preclassical antiquity to the end of the Middle Ages, stressing the growth of scientific ideas, the cultural context in which they take shape, and their relationship to other movements of thought in the history of civilization.

**HIST 312 Science in Civilization: Science in Modern Society (5) I&S** Growth of modern science since the Renaissance, emphasizing the scientific revolution of the seventeenth century, the development of methodology, and the emergence of new fields of interest and new modes of thought.

**HIST 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW** Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with ASTR 313.

**HIST 314 The Psychoanalytic Revolution in Historical Perspective (5) I&S** Genesis and evolution of Freudian theory in context of the crisis of liberal-bourgeois culture in central Europe and parallel developments in philosophy, literature, and social theory. Emergence and division of the psychoanalytic movement. Transformation of psychoanalysis in British, French, and especially American cultural traditions. Offered: jointly with CHID 314.

**HIST 315 History of Technology to 1940 (5) I&S** Technology since the Middle Ages, in its social and historical contexts. From the medieval foundations of metal working, its social consequences and the establishment of a class of engineering practitioners, to the transformation of American rural life, domestic technology, and industry before World War II.

**HIST 320 Greek History: 7000 BC to Present (5) I&S** History of Greece from its Neolithic village origins to the present. Examines the different forms of one of the most resilient cultures in the human story. Offered: jointly with EURO 320.

**HIST 345 War and Society (5) I&S** Analysis of the techniques of war from the Renaissance to the present with consideration of the social, political, and economic consequences of war in the Western world.

**HIST 346 Images of War in History, Literature, and Media (5) I&S/VLPA** Explores images of war generated by historians, writers, artists, filmmakers, television producers, and journalists, analyzing the perspectives on war adopted by various observers to see what

motivates their representations. Focuses on ways in which various media shape images of war and the effect of this shaping on human consciousness.

**HIST 358 Slavery in the Atlantic World (5) I&S** Comparative examination of slavery in North and South America, the Caribbean, and Africa from 1450-1800. Central concerns include: development of the Atlantic slave trade; diverse uses of slave labor in the Atlantic world; slave cultures that developed in the Americas; and ways Africans and African-Americans resisted their bondage.

**HIST 361 Middle Eastern History, 1453-1800 (5) I&S Schwarz** Introduction to the early modern period in the Middle East, including an exploration of the political, economic, and cultural dominance of the Ottoman Empire and Safavid Iran. Explores the political and social dynamics and economic transformations of the two empires. Offered: A.

**HIST 367 Southeast Asian Activism and Social Engagement (5) I&S Rafael** Investigates how Southeast Asian activism is tied to the histories of political struggle within Southeast Asia and to questions of diasporic Asian American identity. Engages in group research projects exploring the meaning of social activism within local communities. Offered: jointly with SISSE 367; Sp.

**HIST 369 The Jewish Twentieth Century in Film (5) I&S Stein** Surveys twentieth-century Jewish history in its European, American, and Middle Eastern contexts by examining films produced in these settings. Considers central events that shaped modern Jewish culture: the changing geography of Europe and the Middle East, mass migrations, the Holocaust, shifting meanings of race, culture, and religion. Offered: jointly with SISJE 369.

**HIST 388 Colloquium: Introduction to History (5, max. 10) I&S** Introduction to the discipline of history for new or prospective majors. Emphasizes the basic skills of reading, analysis, and communication (both verbal and written) that are central to the historian's craft. Each seminar discusses a different subject or problem.

**HIST 390 Colloquium in History and Science (5) I&S** Study in the history of science to bridge the gap between the natural sciences and the humanities. Students should have a strong background both in history and in a natural science.

**HIST 395 Modern Historical Writing, Honors Seminar (5) I&S** New types of problems examined by historians and new techniques that have evolved for solution. Brief historiographical introduction, reaching back to the "scientific" historians of the mid-nineteenth century, then continues by examining the impact on historians of new disciplines such as psychology, sociology, and economics, and of new techniques such as statistics and prosopography. Readings are in the theorists and in those who followed their lead. Admission by departmental invitation only.

**HIST 399 Advanced Foreign Study (3-5, max. 15) I&S** Upper-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

**HIST 403 Scandinavian Immigration in History and Literature (5) VLPA/I&S** History and literature of Scandinavian immigration to North America, including immigrant life and culture, community structures and traditions, and the literature about and by immigrants from Denmark, Finland, Iceland, Norway, and Sweden. Offered: jointly with SCAND 403.

**HIST 406 Issues in World History to 1500 (5) I&S** Explores important questions about development of civilizations. Topics include the spread of peoples and languages; the significance of technologies such as agriculture, writing, and the stirrup; links between trade and the spread of religions and diseases; and primary and secondary state formation.

**HIST 412 Science and the Enlightenment (5) I&S** The role of science in relation to intellectual, social, economic, and religious forces in the eighteenth century, and growth of the international community in science during the same period.

**HIST 425 History of the British Empire and Commonwealth Since 1783 (5) I&S** Britain in the Caribbean, Africa, India, Southeast Asia, and the Pacific; and the settlement, economic development, and political evolution of Canada, Australia, New Zealand, and South Africa.

**HIST 449 Issues in Comparative Labor History (5) I&S** Role of labor in the modern world. Emphasis on the centrality of workers' struggles in the evolution of national societies on the conceptual, research, and expository strategies of contemporary students of the labor movement and on differences and relationships between labor in developed and underdeveloped countries.

**HIST 451 Eastern and Central Africa Since 1500 (5) I&S** Explores the history of Eastern and Central Africa from the period prior to the slave trade through European colonialism to the post-colonial present. Focuses on political, economic, and social change and continuity. Emphasis on understanding how various historical actors and historians have interpreted these processes.

**HIST 452 Southern Africa Since 1500 (5) I&S** Explores the history of Southern Africa from pre-colonial social institutions through European colonialism and industrialization to the post-apartheid present. Focuses on the interplay between race, class, ethnicity, and gender in the structuring of political relations. Emphasis on understanding how various historical actors and historians have interpreted these processes.

**HIST 457 Topics in Labor Research (5, max. 10) I&S** Analysis of the post-World War II decline of national labor movements and strategies employed to reverse this trend. Requires a major research project on organizing, bargaining, or another question in labor studies. Prerequisite: either POL S 249, HIST 249, or SOC 266. Offered: jointly with POL S 457.

**HIST 461 History of the Middle East: 622-1300 (5) I&S** Political and economic analysis of the period circa AD 600, preliminary to rise of Islam, to arrival of the Turks. Muhammad's teaching and impact; Islamization and Arabization.

**HIST 462 History of the Middle East: 1258-1798 (5) I&S** Conquests by successors of Ghengis Khan; creation in Egypt, Syria, and Iran of cavalry-based states; domination of political, social, and economic history by Ottoman and Safavid empires. The Napoleonic invasion.

**HIST 463 History of the Middle East Since 1789 (5) I&S** Critical issues and themes in the changing Middle East, including Westernization, growth of nationalism, Arab-Israeli dispute, Iranian revolution, and the role of Islam.

**HIST 465 Iran, Afghanistan and Central Asia, 1750-2001 (5) I&S** Introduction to the modern history of the Islamic republics of Iran and Afghanistan and the secular republics of Central Asia from 1750 to 2001. Includes discussion of colonialism, the role of the U.S., and diaspora and exile in these predominantly Muslim societies.

**HIST 466 Sport and the British Empire in Asia, Africa, and the Middle East (5) I&S** Examines British imperialism in Asia, Africa, and the Middle East through the prism of sport. Explores the rise of sport in Victorian England, its use to discipline and control colonized peoples, and its role in the rise of nationalism throughout the British Empire.

**HIST 467 Nations and States in the Modern World (5) I&S** Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by new nationalism, spreading into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with SIS 467.

**HIST 468 Theatre as a Site of History and Memory (5) VLPA/I&S** *Sears* Explores Asian theatre traditions as sites of memory, testimony, and archive using ethnographic and historiographical approaches. Includes service-learning components and collaborative performance projects. Offered: jointly with SISSE 468; Sp.

**HIST 481 Economic History of Europe (5) I&S** Origins of the modern European economy; historical analysis of economic change and growth from medieval times that stresses the preconditions and consequences of industrialization. Recommended: ECON 201. Offered: jointly with ECON 460.

**HIST 483 Technology and Culture in the Making of Contemporary Empires (5) I&S** *Benitez, Rodriguez-Silva* Explores struggles shaping organization of US empire in the early twentieth century, focusing on sites where empire's material, cultural, and ideological boundaries were drawn and contested. Includes race, gender and class as colonial formation; technologies of imperial governance such as public health, citizenship, and territory. Offered: jointly with SISLA 483; W.

**HIST 485 Comparative Colonialism (5) I&S** *Rafael* Explores the historic roots and practices of colonialism throughout the world, focusing on the roles of nationalism, cosmopolitanism, and imperial domination. Treats colonialism as a world event whose effects continue to be felt and whose power needs to be addressed. Offered: S.

**HIST 490 Topics in History (5, max. 10) I&S** Examines special topics in history.

**HIST 491 Honors Historical Method (5-) I&S** The purposes, materials, and techniques of historical scholarship. Theory, practice, and criticism. For honors students.

**HIST 492 Honors Historical Method (-5) I&S** The purposes, materials, and techniques of historical scholarship. Theory, practice, and criticism. For honors students.

**HIST 493 Senior Thesis in the History of Science (5, max. 10) I&S** Preparation of the senior thesis for the History and Science emphasis.

**HIST 494 Colloquium in Historiography (5, max. 15) I&S** Advanced seminar examining central issues in historiography. Emphasizes reading, discussion, and writing.

**HIST 495 History Internship (1-5, max. 10)** Off-campus independent fieldwork with a community agency in an apprenticeship or internship situation. Work to be jointly supervised by a member of the History Department and an on-site field supervisor.

**HIST 498 Colloquium in History (5, max. 15) I&S** Each seminar examines a different subject or problem. A quarterly list of the seminars and their instructors is available in the Department of History undergraduate advising office.

**HIST 499 Undergraduate Research (1-5, max. 15)**

**HIST 501 Ancient Greece and Rome: Writings and Interpretations (3-6, max. 6)** Study of historians, development of historical study as a distinct pursuit, focus of attention in historical scholarship in the ancient world and comparison with modern interpretation of antiquity.

**HIST 502 Medieval Europe: Writings and Interpretations (3-6, max. 6)** Study of historians, schools of history, and interpretations of medieval European history.

**HIST 503 Modern Europe: Writings and Interpretations (3-6, max. 6)** Study of historians, schools of history, and interpretations of modern European history.

**HIST 504 Comparative Ethnicity and Nationalism (5)** Theoretical approaches to, and historical case studies of, the phenomena of ethnicity, nationalism, and ethnic conflict in the modern world. Emphasis on Europe and Asia.

**HIST 506 Issues in World History to 1500 (5)** Explores important questions about development of civilizations. Topics include the spread of peoples and languages; the significance of technologies such as agriculture, writing, and the stirrup; links between trade and the spread of religions and diseases; and primary and secondary state formation.

**HIST 511 History of Science (3-6, max. 6)**

**HIST 512 Seminar in the History of Science ([3-6, max. 12]-)**

**HIST 513 Seminar in the History of Science (-[3-6, max. 12]-)**

**HIST 514 Seminar in the History of Science (-[3-6, max. 12])**

**HIST 515 Field Course in the History of Technology (5)** Introduces students to the literature, methodology, and problems of the history of technology, and prepares them for independent study in the field.

**HIST 530 Comparative Colonialisms: Methodological and Conceptual Approaches (5)** Introduces students to the historiography of modern European/American colonialisms, focusing on Africa, Asia, and/or the Americas. Addresses methodological and conceptual issues

by examining relationship between capitalism and colonialism; violence and routinization of colonial power; colonial categories of race, ethnicity, class, and gender; and resistance movements and nationalist politics.

**HIST 552 Field Course in African History (5)** Methodological and conceptual issues in African historiography, focusing on 1500 to the present. Examines topics including pre-colonial politics and economics, slavery and the slave trades, European conquest and colonization, resistance movements and nationalist politics, and post-colonial debates and dilemmas. Special attention to issues of gender, race, ethnicity, and class.

**HIST 561 Islamic History (3-6, max. 6)** Field course. Introduction to advanced study in the major periods and problems of Islam. Bibliographical guidance is stressed.

**HIST 562 Ottoman History (3-6, max. 6)** Field course. Introduction to the major periods and problems of Ottoman history, 1300-1914, by acquainting the student with the major works in at least two languages. An attempt is made to teach some use of Ottoman materials. A minor problem is investigated in detail by every student. Prerequisite: knowledge of at least one major language besides English (French, German, Russian, or other).

**HIST 563 Modern Near East (3-6, max. 6)** Field course introducing the student to the major periods and problems of Near Eastern history, 1798 to the present.

**HIST 566 Sport and the British Empire in Asia, Africa, and the Middle East (5)** Examines British imperialism in Asia, Africa, and the Middle East through the prism of sport. Explores the rise of sport in Victorian England, its use to discipline and control colonized peoples, and its role in the rise of nationalism throughout the British Empire.

**HIST 570 Topics in Teaching History (3)** Topics include active learning, teaching writing, assessment, and course design. Designed for history graduate students working or planning to work as TAs or instructors. Students produce a teaching portfolio and conduct peer observations. Credit/no credit only.

**HIST 571 Orientation to an Academic Career in History (3)** Course for prospective college and university history instructors, preparing them for the nonacademic aspects of their duties. Prerequisite: Master of Arts degree in history or permission of instructor.

**HIST 580 Gender and History (5)** Introduction to gender as category of historical analysis, examining the impact of feminist theory within the discipline of history. Course traces historiographical debates in women's and gender history and explores, through cross-cultural comparisons, how scholars have conceived the relationship between gender and categories such as class, race, ethnicity, and sexuality.

**HIST 590 Topics in History (5, max. 15)** Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

**HIST 595 Historical Practices (5)** Emphasizes the interrelatedness of theoretical issues and historical research. Students read works that

encourage the rethinking of sources and their historical meaning and experiment with sources, methods, and questions in a set of practical assignments.

**HIST 598 Methods of Historical Research (5)**

Exploration of new historical and scholarly techniques employed in historical research. Use of social science methodology and literary theory in the evaluation and interpretation of historical sources. Use of feminist theory, deconstruction, critical theory, and orality/literacy studies. Student research paper is based upon a chosen theoretical approach.

**HIST 600 Independent Study or Research (\*)**

**HIST 700 Master's Thesis (\*)**

**HIST 800 Doctoral Dissertation (\*)**

## Ancient and Medieval History

**HSTAM 203 Introduction to the Middle Ages: Medieval People (5) I&S**

Introduction to the Western Middle Ages through a study of social roles and statuses as seen through documents and imaginative literature. The groups studied are rulers, aristocracy, peasants, townspeople, clergy, outcasts, and outsiders.

**HSTAM 205 Military History of the Ancient World (5) I&S**

Military history from prehistoric times to the fall of the Roman Empire, with special emphasis on the Greco-Roman period and the campaigns of Alexander the Great, Hannibal, Scipio Africanus, and Julius Caesar.

**HSTAM 276 Celtic Civilizations of the European Middle Ages (5) I&S**

Introduction to the history and pseudo-history of medieval Ireland, Wales, Scotland, and Gaul. Topics include "Celtic" religion, mythology, social institutions, nationalism, and the relationship between history and myth. Particular attention to how historians "do" history in the absence of straightforward historical sources.

**HSTAM 290 Topics in Ancient/Medieval History (5, max. 10) I&S**

Examines special topics in ancient/medieval history.

**HSTAM 302 Ancient History (5) I&S**

Political, social, economic, and cultural development of Rome from the beginnings in the eighth century BC to the beginning of the Middle Ages.

**HSTAM 312 The Roman Republic (5) I&S**

Political, social, economic, and cultural history, with emphasis on the development of the constitution and territorial expansions.

**HSTAM 313 The Roman Empire (5) I&S**

Political, social, and cultural history, with special emphasis on the period of Cicero and Caesar.

**HSTAM 314 The World of Late Antiquity (5) I&S**

Examines the transformation of the ancient world from the third-century crisis of the Roman Empire to the rise of Islamic civilization. Explores the manifold political, cultural, and social changes that transformed Europe, the Mediterranean, and the Near East between the third and the eighth centuries CE.

**HSTAM 315 The Byzantine Empire (5) I&S**

Political, social, economic, and cultural history of the eastern Roman Empire from the fourth to fifteenth centuries.

**HSTAM 330 The Age of Augustus (5) I&S/VLPA**

Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14). Includes readings in Augustan authors such as Virgil, Ovid, and Horace as well as the study of Augustan art and architecture. Offered: jointly with CLAS 330.

**HSTAM 331 Early Middle Ages (5) I&S**

The Dark Ages, feudalism, emergence of the medieval order of civilization, and the development of Romanesque culture.

**HSTAM 332 Central Middle Ages (5) I&S**

Europe in the central Middle Ages: culture of cathedrals and universities, formation of national states, development of urban society.

**HSTAM 333 Late Middle Ages (5) I&S**

Disintegration of the medieval order under the impact of the national state, the secularization of society, and the decline of the church. Movements of reform and revolution. The culture of late gothic Europe.

**HSTAM 340 Medieval Women (5) I&S**

The experiences of women in medieval society: public and private power, changing concepts of family and the domestic sphere, ideal and reality in courtly love, women in religious life, women in the workplace, the querelle des femmes and the beginnings of "feminist" thought.

**HSTAM 360 Medieval Christianity (5) I&S**

Development of Christianity in the medieval west circa 400 to 1500. Emphasis on the forms of religious life: monasticism, the papacy, friars, hermits, mystics, and reformers; and on the emergence of new modes of piety, both lay and clerical.

**HSTAM 365 Medieval England, 1042-1485 (5) I&S**

Upper level survey of English history from the Norman conquest until 1485. Emphasis on political, social, and economic history, with special attention to the peculiarities of English development as these had emerged by 1485.

**HSTAM 367 Medieval Jewish History (5) I&S**

Social and intellectual history of the Jews in western Europe to the fifteenth century. Jews under Islam and Christianity; the church and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with SISJE 367.

**HSTAM 370 The Vikings (5) I&S/VLPA**

The Vikings at home in Scandinavia and abroad, with particular emphasis on their activities as revealed in archaeological finds and in historical and literary sources. Offered: jointly with SCAND 370.

**HSTAM 401 Early Greece (5) I&S**

Bronze and Dark Age Greece: realities of the heroic age of ancient Greece.

**HSTAM 402 Classical Greece (5) I&S**

The classical civilization of ancient Greece, with special emphasis on the legacy of Greece to Western civilization.

**HSTAM 403 Alexander the Great and the Hellenistic Age (5) I&S**

Rise of Macedonia, conquest of Near East by Alexander, and division into lesser kingdoms after Alexander's death. Special emphasis on fusion of cultures and change from city-state to world-state.

**HSTAM 443 Kievan and Muscovite Russia: 850-1700 (5) I&S**

Development of Russia from

earliest times to the reign of Peter the Great.

Offered: jointly with SISRE 443.

**HSTAM 490 Topics in Ancient/Medieval History (5, max. 10) I&S**

Examines special topics in ancient/medieval history.

**HSTAM 501 Greek History Field Course (3-6, max. 6)**

Examines various topics and themes in Greek history. Content varies.

**HSTAM 511 Roman History Field Course (3-6, max. 6)**

Examines various topics and themes in Roman history. Content varies.

**HSTAM 512 Seminar in Ancient History ([3-6, max. 12]-)**

Detailed study of special topics in ancient history.

**HSTAM 513 Seminar in Ancient History (-[3-6, max. 12])**

Detailed study of special topics in ancient history.

**HSTAM 518 Topics in Late Antiquity (3-6, max. 18)**

Examines various topics in the transformation of the ancient world from the third-century crisis of the Roman Empire to the rise of Islamic civilization. Serves as the field course for masters and Ph.D. students.

**HSTAM 530 Early Middle Ages (3-6, max. 6)**

Field course. Survey of early European history through the times of tribal migrations and invasions from Asia. Problems and methods of research.

**HSTAM 531 Medieval European History (3-6, max. 6)**

Prerequisite: reading knowledge of Latin.

**HSTAM 532 Medieval European Seminar (3-6, max. 12)**

Prerequisite: reading knowledge of Latin.

**HSTAM 534 Medieval European Seminar (3-6, max. 12)**

Prerequisite: reading knowledge of Latin.

**HSTAM 535 Later Medieval Europe (3-6, max. 6)**

Field course. Surveys European history from ca. 1250 to 1500, with particular attention to historiography.

**HSTAM 536 Topics in Early Medieval History (3-6, max. 12)**

Graduate level study of specific topics in early medieval history. Topics vary from quarter to quarter; for information, please see instructor.

**HSTAM 590 Topics in Ancient and Medieval History (5)**

Seminar on selected topics in ancient and medieval history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

**HSTAM 591 Advanced Medieval and Renaissance Seminar (3-6, max. 12)**

**HSTAM 592 Advanced Medieval and Renaissance Seminar (3-6, max. 12)**

**HSTAM 593 Advanced Medieval and Renaissance Seminar (3-6, max. 12)**

## History of Asia

**HSTAS 201 Introduction to South Asian History, pre-history to 1500 (5) I&S** Religions, literature, philosophy, politics, arts, and history of India from earliest times to the Mughal empire.

**HSTAS 202 Introduction to South Asian History, 1500 - present (5) I&S** The Islamic impact, British conquest, and contemporary India. Emphasis on the rise of nationalism, social organization, and contemporary life and history. : jointly with SISSA 202.

**HSTAS 211 History of Chinese Civilization (5) I&S** Intensive survey of Chinese civilization from earliest times to today. Introduces all students, including East Asian history majors, to the general sweep of Chinese history. Social, cultural, and intellectual developments.

**HSTAS 212 History of Korean Civilization (5) I&S** From earliest times to the present. Development of Korean society and culture in terms of government organization, social and economic change, literature, and art. Offered: jointly with SISEA 212.

**HSTAS 221 History of Southeast Asia (5) I&S** Surveys Southeast Asian civilizations at the outset of Western colonial rule; the colonial impact on the traditional societies of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, and the Philippines; nineteenth- and twentieth-century nationalist and revolutionary movements; emergence of Southeast Asia as a region in the modern world. Offered: jointly with SISSE 221.

**HSTAS 241 Japanese Civilization (5) I&S** Japan's civilization, including its origins, government, literature, economic institutions, material culture, social organization, and religions, in relation to the development of Japan as a society and nation. Cannot be taken for credit if SISEA 341 previously taken. Offered: jointly with SISEA 241.

**HSTAS 244 Imperialism and Anti-Colonialism in Asia (5) I&S** Introduction to Western imperialism expansion, conquest, and colonial rule in Asia; the anti-colonial, nationalist resistances they engendered; and the resultant cultural, political, economic, and intellectual transformations in Asian societies. Covers post-1800 violence, racial hierarchies, human rights abuses, post-colonial memories, persistent strategies of domination, and structural inequities. Offered: jointly with SISA 244.

**HSTAS 245 Human Rights in Asia (5) I&S** *Callahan, Giebel* Introduction to recent and ongoing human rights issues in South, Southeast, and East Asia. Focuses on how human rights politics have played out in domestic political arenas. Provides exposure to views/insights into the historical context in which human rights claims, abuses, and debates arise. Offered: jointly with SISA 245.

**HSTAS 265 The Viet Nam Wars (5) I&S** *Giebel* Recent Vietnamese history and struggles for independence and national unification *vis-a-vis* French colonialism, Japanese occupation, American intervention, and internal divisions. Covers historical roots and contemporary contexts of revolution and war, objectives and motivations of participants, and the enormous human costs. Emphasizes socio-cultural changes and wars' legacies. Offered: jointly with SISSE 265.

**HSTAS 290 Topics in Asian History (5, max. 10) I&S** Examines special topics in Asian history.

**HSTAS 303 Divided Lands/Divided Lives: An Environmental History of South Asia (5) I&S** Focuses on the mobilization of South Asian tribal, peasant, and ethnic communities around ecological issues to secure social equity in the colonial and post-colonial period. Examines how the complex interactions of states and peoples have changed the ways in which nature itself is conceptualized. Offered: jointly with SISSA 303.

**HSTAS 348 Alternative Routes to Modernity (5) I&S** Routes to modernity followed by non-Western societies between 1600 and 1900. Historical experiences of non-Western societies seen in the contexts of European history and of development theory. Primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with SIS 348.

**HSTAS 364 Violence, Myth, and Memory (5) VLPA/I&S** *Sears* Explores how images and ideas of power, violence, and global modernity circulate in memories and discourses about US relations with Vietnam, the Philippines, and Indonesia. Topics include foundations myths, colonial and postcolonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with SISSE 346; Sp.

**HSTAS 401 History of Ancient India (5) I&S** India in ancient times; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

**HSTAS 402 History of Medieval and Mughal India (5) I&S** Medieval India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

**HSTAS 403 History of Modern India to 1900 (5) I&S** Modern India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

**HSTAS 404 History of Twentieth-Century India (5) I&S** Analysis of the problems in the fields of social life, international and domestic politics, education, economics, and other areas that confront India today.

**HSTAS 423 History of Modern Japan (5) I&S** Political, social, economic, and cultural development of Japan from the late Tokugawa period to the present with special emphasis on the cultural impact of the West. Offered: jointly with SISEA 423.

**HSTAS 424 The Emergence of Postwar Japan (5) I&S** The making of modern Japan; World War II and surrender; American occupation; postoccupation rebuilding; emergence as an industrial power. Recommended: HSTAS 423 or SISEA 423. Offered: jointly with SISEA 440.

**HSTAS 441 Economic and Social History of Japan to 1900 (5) I&S** Lecture-seminar on Japanese economic and social history from 700 to 1900. Analyses of the rise and decline of the shoen system, the rise of commerce, social change, changes in the living standard, demographic changes, and the early phases of industrialization. Political and cultural developments as related to economic and social change. Prerequisite: either SISEA 241/HSTAS 241 or SISEA 341/HSTAS 341. Offered: jointly with SISEA 441.

**HSTAS 451 Chinese History: Earliest Times to 221 BC (5) I&S** Pre-imperial China.

**HSTAS 452 Chinese History from Earliest Times to 1276(5) I&S** Traces the development of Chinese civilization from earliest times through the Song dynasty. Examines social, cultural, political, and economic history.

**HSTAS 453 Chinese History: AD 906 to 1840 (5) I&S** Political, social, economic, and intellectual history from the time of the Mongol conquest of China to the Sino-Japanese war. Focus on the evolution of the late imperial Chinese state and the "early modern" era in China.

**HSTAS 454 History of Modern China (5) I&S** Social, cultural, political, economic, and intellectual transformations and continuities in China from the end of the imperial period to the present. Offered: jointly with SISEA 454.

**HSTAS 456 Topics in Chinese Social History (5) I&S** Surveys major issues and approaches to the study of the role of the Chinese people in China's historical development. Historical focus of course varies with instructor. Recommended: HSTAS 211, HSTAS 452, HSTAS 453, or HSTAS/SISEA 454. Offered: jointly with SISEA 456.

**HSTAS 457 Women in China to 1800 (5) I&S** Gender in Chinese culture, women's situations in the patrilineal family system, and the ways women's situations changed as other dimensions of China's political system, economy, and culture changed from early times through the nineteenth century. Offered: jointly with WOMEN 457.

**HSTAS 459 Gender Histories of Modern China, 18th to 20th Centuries (5) I&S** Emergence of modernist social, political, intellectual gender formations in social activism, revolutionary writing, scientific ideologies, economic globalization. Stresses gender difference in colonial modernity, revolutionary movement, communism, post-socialist market society. Relates modern Chinese women to global flows, new division of labor, local and regional experience. Offered: jointly with WOMEN 459.

**HSTAS 460 Cities in China: Past and Present (5) I&S** Economic, political, social, and cultural functions of the city in modern Chinese history. Changes in China's urban system. The city as cultural center and focus of literary and cinematic representation. Attention to architecture, commerce, urbanization, the role of capital cities in the power of the state. Offered: jointly with SISEA 460.

**HSTAS 462 Southeast Asian History to 1800 (5) I&S** Absorption and modification of cultures (Indian and Chinese), religions (Islam, Buddhism, Catholicism), and peoples (northern European) by island- and mainland-Southeast Asians. Main themes are cultural contact and the growth of states and peoples.

**HSTAS 463 Southeast Asian History from 1800 to the Present (5) I&S** Post-eighteenth-century history of the present countries of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Singapore, Brunei, Indonesia, and the Philippines. Deals with colonial rule, emerging nationalism, and political independence. Investigates broad themes of social, economic, and cultural history.

**HSTAS 466 Islam, Mysticism, Politics and Performance in Indonesian Culture (5) VLPA/ I&S** Examines how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influences from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with SISSE 446.

**HSTAS 481 History of Traditional Korea: Earliest Times to the Nineteenth Century (5) I&S** Korean history from earliest times to the modern period.

**HSTAS 482 History of Modern Korea: 1860 to the Present (5) I&S** Traditional institutions and society, Japanese colonial rule, liberation and the Korean War, early Korean communist movement, and North Korea and South Korea since 1945.

**HSTAS 490 Topics in Asian History (5, max. 10) I&S**

**HSTAS 501 Indian History (3-6, max. 6)**  
Prerequisite: permission of instructor.

**HSTAS 502 Seminar: History of India (3-6, max. 12)** Seminar on selected topics and problems in the history of medieval and modern India. Prerequisite: HSTAS 501 and permission of instructor.

**HSTAS 503 Seminar: History of India (3-6, max. 12)** Seminar on selected topics and problems in the history of medieval and modern India. Prerequisite: HSTAS 501 and permission of instructor.

**HSTAS 520 Premodern Japanese History (5)** Field course; Japanese history prior to 1868. Prerequisite: HSTAS 421 and HSTAS 422, or SISEA 441 and SISEA 541, or permission of instructor.

**HSTAS 521 Modern Japanese History (3-6, max. 6)** Field course. Prerequisite: HSTAS 422, HSTAS 423, or permission of instructor.

**HSTAS 523 Seminar in Modern Japanese History (3-6, max. 12) HSTAS 524 Seminar in Modern Japanese History (3-6, max. 12)**

**HSTAS 530 Field Course in Southeast Asian History (5)** Introduction to major English-language works on Southeast Asian history and to the major historiographical issues of the era.

**HSTAS 532 Seminar in Southeast Asian History (5)** Selected topics in Southeast Asian history and historiography. Preparation for theses and doctoral dissertations on Southeast Asian History.

**HSTAS 534 Indonesian Histories, Oral Traditions, and Archives (5)** Explores the inscription of Indonesian histories and stories. Focuses on oral traditions, oral testimonies, and archives. Investigates how oral and written testimonies enter historical archives. Explores theoretical work on literary and performance traditions as they relate to nationalism and Islam in Indonesia. Offered: jointly with SISSE 534.

**HSTAS 541 Economic and Social History of Japan to 1900 (5)** Analyses of landholding systems, the rise of commerce, demographic changes, urbanization, early industrialization, and social change. Prerequisite: previous course work in Japanese history or economic history, or

permission of instructor. Not open to students who have taken HSTAS 441. Offered: jointly with SISEA 541.

**HSTAS 546 Gender and Colonialism in Eastern Asia (5)** Economic-political colonialization, post colonialism, and statist-gendered citizenship; intra-Asian subimperialism structuring domestic production, family, and gendered subjectivities; humanism and the New Woman; modern contests over new masculinity and new femininity; and the effect of war, imperialist occupation and colonial modernity on interregional flows of ideas, labor, capital, and jurisprudence. Offered: jointly with WOMEN 546; AWSpS.

**HSTAS 547 Gender and the New International Division of Labor in Asia Pacific (5)** Shift of the dynamic relation of gender, state, and citizens from modernization (national development) to globalization (intraregional development) strategies in Pacific Asia, 1945 to present. Consumption, service provision, migratory labor, intra-Asian investment, localization. Offered: jointly with WOMEN 547.

**HSTAS 551 Field Course in Chinese History: Pre-Sung Period (3-6, max. 6) Ebrey** Introduction to the English-language literature on Chinese history through the Song dynasty. Recommended: HSTAS 452 or equivalent.

**HSTAS 552 Seminar in Chinese History: Earliest Times to 1276 ([3-6, max. 12]-) Ebrey** Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Recommended: HSTAS 452, HSTAS 550, or HSTAS 551, or equivalent.

**HSTAS 553 Seminar in Chinese History: Earliest Times to 1276 (-[3-6, max. 12]-) Ebrey** Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Recommended: HSTAS 452, HSTAS 550, or HSTAS 551, or equivalent.

**HSTAS 554 Seminar in Chinese History: Earliest Times to 1276 (-[3-6, max. 12]) Ebrey** Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Recommended: HSTAS 452, HSTAS 550, or HSTAS 551, or equivalent.

**HSTAS 555 Core Research Seminar in Chinese History (5-)** An introduction to research practices in Chinese history and exemplary recent works.

**HSTAS 556 Core Research Seminar in Chinese History (-5)** An introduction to research practices in Chinese history and exemplary recent works.

**HSTAS 560 Field Course in Chinese History: 1276-1895 ([3-6, max. 6]-) Guy** Introduction to the English-language literature on the Yuan, Min, and Qing dynasties. Recommended: HSTAS 453 or equivalent.

**HSTAS 561 Field Course in Chinese History: 1276-1895 (-[3-6, max. 6]) Guy** Introduction to the English-language literature on the Yuan, Min, and Qing dynasties. Recommended: HSTAS 453 or equivalent.

**HSTAS 562 Seminar in Chinese History: 1268-1895 ([3-6, max. 12]-) Guy** Materials and

methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 563 Seminar in Chinese History: 1268-1895 (-[3-6, max. 12]-) Guy** Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 564 Seminar in Chinese History: 1268-1895 (-[3-6, max. 12]) Guy** Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 572 Seminar in Twentieth Century Chinese History (-[3-6, max. 12]) Dong** Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Recommended: HSTAS 453, HSTAS 560, HSTAS 561, or equivalent.

**HSTAS 573 Seminar in Twentieth Century Chinese History ([3-6, max. 12]-) Dong** Materials and methods for research in twentieth-century Chinese history. Prerequisite: knowledge of Chinese and permission of instructor.

**HSTAS 574 Seminar in Twentieth Century Chinese History (-[3-6, max. 12]-) Dong** Materials and methods for research in twentieth-century Chinese history. Prerequisite: knowledge of Chinese and permission of instructor.

**HSTAS 575 Seminar in Chinese History: Modern Period (-[3-6, max. 12])** Research seminar in modern Chinese history. Training in the materials and methods of research, and preparation of extended research papers. Prerequisite: HSTAS 571-572 or permission of instructor and reading knowledge of Chinese.

**HSTAS 579 Modern Chinese History (5)** Introduction to the major English-language literature on modern Chinese history and to the major historiographical issues of the period. Prerequisite: HSTAS 454 or equivalent, and permission of instructor. Offered: jointly with SISEA 579.

**HSTAS 581 Modern Korean History (3-6, max. 6)** Field course. Prerequisite: permission of instructor.

**HSTAS 582 Seminar in Korean History ([3-6, max. 12]-)** Selected topics in Korean history and historiography.

**HSTAS 583 Seminar in Korean History (-[3-6, max. 12]-)** Selected topics in Korean history and historiography.

**HSTAS 584 Seminar in Korean History (-[3-6, max. 12])** Selected topics in Korean history and historiography.

**HSTAS 590 Topics in History (5, max. 15)** Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

## History of the Americas

**HSTAA 101 Survey of the History of the United States (5) I&S** Supplies the knowledge of American history that any intelligent and

educated American citizen should have. Objective is to make the student aware of his or her heritage of the past and more intelligently conscious of the present.

**HSTAA 105 The Peoples of the United States (5) I&S** Surveys American diversity since 1500. Repeopling of America through conquest and immigration by Native Americans, Europeans, Africans, Asians, and Latin Americans. Contributions of various peoples and the conflicts between them, with special attention to changing constructions of race and ethnicity and evolving understandings of what it means to be American.

**HSTAA 150 Introduction to African-American History (5) I&S** Introductory survey of topics and problems in Afro-American history with some attention to Africa as well as to America. Provides some general knowledge and serves as a basic introductory course for a sequence of lecture courses and seminars in Afro-American history. Offered: jointly with AFRAM 150.

**HSTAA 185 Introduction to Latin American History: From Columbus to Castro (5) I&S** Survey of political, economic, and social history of Latin America from the Iberian conquest to the present. Lectures, discussions, and films focus on developing understanding of Latin America's current problems through study of their historical roots. Designed for the beginning student and the nonspecialist.

**HSTAA 202 Makers of American Foreign Policy, 1776 to the Present (5) I&S** Survey of the history of American foreign relations. Focus on the individuals responsible for initiating new foreign policies or for realigning old ones.

**HSTAA 205 Asian American History (5) I&S** Introductory history of Asian Indians, Chinese, Filipinos, Japanese and Koreans in the United States from the 1840s to the 1960s. Major themes include imperialism, labor migration, racism, community formation, and resistance.

**HSTAA 212 The Military History of the United States From Colonial Times to the Present (5) I&S** Development of American military policies, organizational patterns, tactics, and weaponry, from beginnings as a seventeenth-century frontier defense force to the global conflicts and military commitments of the twentieth century. Interaction and tension between need for an effective military force and concept of civilian control of that force.

**HSTAA 215 American South from the Revolution through the Civil War (5) I&S** *Kleit* Explores the history of the American South from the American Revolution through the Civil War, from a successful revolution to one that met defeat. Attention given to the diversity of people and changes over space and time. Offered: Sp.

**HSTAA 221 Environmental History of the U.S. (5) I&S** Survey of the relationship between nature and human history, including the impact of the non-human environment on American history and the environmental effects of colonization, urbanization, and consumerism; the cultural construction of nature in different eras and its social implications; the sources and limits of modern environmental politics.

**HSTAA 225 American Slavery (5) I&S** Explores the making of American slavery from beginnings on the African coast to the plantations of the southern United States. Includes slave life, proslavery thought, slave management, representa-

tions of slavery then and now, abolitionism, and debates about slavery.

**HSTAA 230 Race and Power in America, 1861-1940 (5) I&S** Explores race and the shaping of American society between the Civil War and World War II. Topics include reconstruction, segregation and lynching, immigration and naturalization, imperialism, and movements for social justice.

**HSTAA 235 The American People and Their Culture in the Modern Era: A History of the United States Since 1940 (5) I&S** Through study of documents, personal testimony, and other source materials, through written reports on historical problems, and through discussions, lectures, films, and audiovisual presentations, students are encouraged to examine evidence and to think "historically" about persons, events, and movements within the memory of their own generation and that immediately preceding theirs. Primarily for first-year students.

**HSTAA 236 How Race Matters: Racial Norms in the Making of U.S. Society and Culture (5) I&S** Confronts U.S. racial history through a series of questions: Is U.S. history a story of increasing tolerance and inclusion, or a story about confronting and reconsolidating racial dominance? How have slavery, segregation, immigration, Indian removal, and imperialism defined national identity? How does racial exclusion intersect with class, gender, and sexuality?

**HSTAA 270 The Jazz Age (5) I&S** Interdisciplinary study of period after World War I to Great Crash. Afro-American and Anglo-American currents and impulses that flowed together in the Roaring Twenties. Covers politics of normalcy, economics of margin, literature of indulgence and confusion, transformation of race relations, and cultural influence of jazz. Offered: jointly with AFRAM 270.

**HSTAA 273 Women of the American West (5) I&S** Women of the Trans-Mississippi West, from the time of European contact to World War II, studied in all their multifarious roles. Explores ethnicity, class, work, family, suffrage, politics, reform, women's groups, arts and entertainment, religion, civilizing and resistance, and gender ideology.

**HSTAA 282 Social History of Mexico (5) I&S** Overview of Mexican history from late Aztec times until the twenty-first century. Emphasizes how women, campesinos, indigenous populations, free and enslaved Afro-Mexicans, and the urban poor experienced the past, challenged colonial and post-colonial rule, and shaped modern Mexican society and culture.

**HSTAA 285 Latin American History Through Film (5) I&S/VLPA** Critical analysis of Latin American films as historical documents. Subjects include Iberian conquest and colonialism, the struggle for independence in the nineteenth century, social revolutions of the twentieth century, and problems of contemporary development. Readings and lectures place each film in the context of the historiography of the subject matter.

**HSTAA 290 Topics in American History (5, max. 10) I&S** Examines special topics in American history.

**HSTAA 301 Foundations of American Civilization (5) I&S** Early America from the

sixteenth century to the end of the American Revolution: the founding years, social and religious development, race relations, development of the Atlantic world, origins and legacy of American independence.

**HSTAA 302 American Civilization: The First Century of Independence (5) I&S** Establishment of the constitutional system; national expansion; intellectual and cultural development; internal conflicts, the Civil War, and Reconstruction.

**HSTAA 303 Modern American Civilization From 1877 (5) I&S** Emergence of modern America, after the Civil War; interrelationships of economic, social, political, and intellectual developments.

**HSTAA 313 African Americans in the American West (5) I&S** Explores pre-1848 Spanish-speaking black settlers, slavery, post-civil war migration, buffalo soldiers. 19th and 20th century black urban settlers, World War II migration, the civil rights movement in the West, the interaction of African Americans with other people of color. Particular focus on Seattle and the Pacific Northwest.

**HSTAA 315 Researching Indians' History (5) I&S** Finding and interpreting sources of information about American Indians' history. Offered: jointly with AIS 370:

**HSTAA 316 History of American Science (5) I&S** History of science in the United States, including migration of European science, development in colonial America, growth of an American scientific community, and expansion of American science in the twentieth century. Issues of scientific attitudes to the natural world, race, ethnicity, and gender are included.

**HSTAA 321 Becoming Black Americans (5) I&S** History of Africans in America from slave trade through the Civil War, with emphasis on how gender informed African-American experience. Topics include slave trade, middle passage, life in plantation south, culture, family structure and resistance, and the experience of free blacks, North and South.

**HSTAA 322 African-American History, 1865 To The Present (5) I&S** African-American experience from Reconstruction to the present, emphasizing the variety of African-American political expression. Gender and class differences closely examined, as well as such constructs as "community," "race," and "blackness."

**HSTAA 331 American Indian History I: European Discovery to 1840 (5) I&S** *Harmon* History of Indigenous peoples and their descendants in the area that now constitutes the United States, from the eve of European discovery of the Americas to 1840. Emphasis on relations between Indigenous peoples and immigrants. Offered jointly with AIS 331.

**HSTAA 332 American Indian History II: 1840 to Present (5) I&S** *Harmon* History of American Indians in the United States from 1840 to the present. Emphasis on relations between Indians and non-Indians, government policies, and Indian strategies of survival. Offered jointly with AIS 332.

**HSTAA 334 The Sixties in America: Conflict, Confrontation, and Concession (5) I&S** Politico-cultural movements that collided in the

sixties. Includes politics of confrontation and civil disobedience, economics of "guns and butter," literature of conflict and angst, polarization of arts, transformation of race relations, role of Rock, and influence of domestic politics on foreign relations. Recommended: AFRAM 150; AFRAM 270. Offered: jointly with AFRAM 334.

**HSTAA 336 American Jewish History Since 1885 (5) I&S** Political, social, economic, religious history of American Jewish community from great eastern European migration to present. Integration of immigrant community into general American community; rise of nativism; development of American socialism; World War I and II; and reactions of American Jews to these events. Offered: jointly with SISJE 336.

**HSTAA 338 The United States and Vietnam (5) I&S** American involvement in Vietnam, including: the complex of negotiations; strategies and objectives of both sides; military, political, and economic operations of the United States; efforts at pacification; impact of Vietnam on American affairs.

**HSTAA 353 Class and Labor in American History (5) I&S** The history of workers and class formation from early industrialization to the present. Emphasizes the interaction of class with race, ethnicity, gender, and political culture within the context of American economic development. Explores the role of unions, labor politics, and radical movements.

**HSTAA 365 The History of the American Film (5) I&S/VLPA** Explores relationship between film and American social and cultural history. Considers films as products of specific periods, individual filmmakers, and developments within film industry. Examines representations of political and social issues on the screen, impact of movies on our understanding of the past, and significance of genres and visual styles.

**HSTAA 370 Consumer Culture in Twentieth Century America (5) I&S** Studies the American attempt in this century to create, sustain, and organize the world's first consumer-oriented industrial society. Topics to be considered include: the economy of mass consumption, how a culture of consumption was created, and the ideas of social critics who have rejected consumerism.

**HSTAA 371 Consumption and Consumerism in the Modern U.S. (5) I&S** Surveys the rise of consumer society in the late-nineteenth-and twentieth-century United States including theories of consumption, the experience of consumer culture by different social groups, the role of the state in fostering consumption, the material impacts of consumer society in the U.S. and beyond, and critiques of consumerism.

**HSTAA 373 Social History of American Women to 1890 (5) I&S** A multi-racial, multicultural study of women in the United States from the 17th century to 1890 emphasizing women's unpaid work, participation in the paid labor force, charitable and reform activities, and 19th century social movements. Uses primary materials such as diaries, letters, speeches, and artifacts. Offered: jointly with WOMEN 383.

**HSTAA 374 Social History of American Women in the 20th Century (5) I&S** Analyzes major themes in the history of women in North America from 1890 through the 1990s. Themes include family and community formation, social activism, education, paid and unpaid labor

patterns, war, migration, and changing conceptions of womanhood and femininity in the 20th century. Offered: jointly with WOMEN 384.

**HSTAA 377 History of Canada (5) I&S** General survey and analysis of political, economic, social, and cultural aspects of Canadian history from the foundation of New France to present; Canadian-American relations, the rise of Quebec nationalism, and the development of the Canadian West. Offered: jointly with SISCA 377.

**HSTAA 384 Latin America: Inter-American and Intra-Continental Relations (5) I&S** Inter-American relations, focusing on the United States' diplomatic and military responses to the problems of Latin America since 1776. Intra-Latin American relations and regional organizations (e.g., the Organization of American States).

**HSTAA 385 Colonial Society and the Negotiation of Rule in Latin America and the Caribbean (5) I&S** Examines the transition to Spanish and Portuguese rule in Latin America and the establishment, and eventual demise, of colonial systems linking Latin America to Europe and Africa. Asks how "colonized" groups mediated forms of colonial oppression and contributed to the development of colonial political culture.

**HSTAA 386 The Challenges of Post-Coloniality in Latin America and the Caribbean (5) I&S** Explores the legacies of, and ruptures from, colonialism and the new challenges Latin American and Caribbean peoples faced throughout the years after their struggles for independence from direct European rule. Emphasis on analysis of the negotiations and challenges entailed in the dynamic processes of national state formation in comparative perspective.

**HSTAA 401 American Revolution and Confederation (5) I&S** Causes of separation of the United States from the British empire; political theory of the Revolution; its military history; diplomacy of the Revolution; the Revolution as a social movement; intellectual aspects; readjustment after independence; the formation of the American union; the Constitution.

**HSTAA 404 New England: From the Foundings to the Civil War (5) I&S** New England from colonial beginnings to the region's emergence to national leadership in the mid-nineteenth century. Emphasis on Puritanism, the New England town, adjustment to empire, revolution and constitution making, the growth of party, abolitionism, the flowering of a regional culture, and the personalities who embodied these key themes and periods.

**HSTAA 406 Asian American Activism (5) I&S** Explores the multiple political traditions forged by Asian Americans, from the earliest challenges to racist laws and unequal wages to the latest debates over affirmative action and racial profiling. Examines Asian American communities organized to oppose and to perpetuate social inequalities. Offered: jointly with AAS 406.

**HSTAA 407 Andrew Jackson's United States (5) I&S** In-depth examination of the U.S. from 1820 to 1850, including changes which affected American politics, society, and culture.

**HSTAA 409 American Social History: The Early Years (5) I&S** Survey of American society and

institutions from the colonial era through the Civil War, with special attention to reform, labor, immigration, education, law enforcement and the city.

**HSTAA 410 American Social History: The Modern Era (5) I&S** Survey of American society and institutions from Reconstruction to the present with special attention to reform, poverty, social mobility, immigrant and ethnic groups, the city and law enforcement.

**HSTAA 411 The United States During the Era of Civil War and Reconstruction (5) I&S** Conflicting interests, ideologies, and ways of life in the United States from the 1840s to the 1870s.

**HSTAA 412 The Westward Movement, 1700-1850 (5) I&S** Anglo-American advance into interior of continental United States culminating in occupation of Far West. Rivalry with New France and New Spain in colonial period; role of federal government in westward expansion; land policy and land distribution; migration, settlement, and the pioneering experience; federal Indian policies and implementation; political evolution, urbanization, and economic development of trans-Appalachian West; shaping of national character and institutions.

**HSTAA 413 History of the Trans-Mississippi West (5) I&S** Anglo-American exploration, conquest, occupation, and exploitation of the trans-Mississippi West, with emphasis on economic development into the twentieth century. Considers wide range of developmental themes (social, political, cultural) in historiography of American West.

**HSTAA 414 The Canadian West, 1670-1990 (5) I&S** Examines the history of colonization and settlement of Canada's four westernmost provinces with emphasis on their economic, social, and Native history.

**HSTAA 415 History of Indian-White Relations in Anglo-America (5) I&S** Explores the wide variety of interactions in North America, ranging from close alliances to outright warfare, between Native Americans and Europeans and their descendants from contact through the removal of most of the remaining eastern Indians to land west of the Mississippi River during the 1830s.

**HSTAA 417 Indians in Western Washington History (5) I&S** Relations of Indians and non-Indians in the Puget Sound region, from the 1790s to the present, with emphasis on evolving ideas about Indian identity. Offered: jointly with AIS 425.

**HSTAA 426 American Urban History Since 1870 (3/5) I&S** Development of American cities for the past century. Topics include physical development, immigration, politics, and changes in society and culture.

**HSTAA 431 American Politics and Society Since 1920 (5) I&S** Political, social, economic, and intellectual developments in the United States from 1920 to the present.

**HSTAA 432 History of Washington and the Pacific Northwest (5) I&S** Exploration and settlement; economic development; growth of government and social institutions; statehood.

**HSTAA 433 A Documentary History of Pacific Northwest Identity (5) I&S** *Findlay* Considers cultural construction of Pacific Northwest region

through more than two centuries of narratives, including Native American stories; travel literature from early explorers to modern tourists; accounts by newcomers from pioneer to modern era; aggressive regionalism of 1890-1945; Northwest literature of the post-war period. Offered: S.

**HSTAA 446 American Indian Economic History (5) I&S** Surveys and analyzes the history of American Indians' economic challenges and strategies. Topics include the economic cultures of Indigenous North American societies, the impacts of European colonization and U.S. government policies, and tribal strategies aimed at improving Indians' economic circumstances. Offered: jointly with AIS 446.

**HSTAA 454 The Intellectual History of the United States (5) I&S/VLPA** Lectures and discussions devoted to the development of the American mind, from historical beginnings to the present.

**HSTAA 461 Diplomatic History of the United States, 1776-1901 (5) I&S** Foreign policy of the United States government prior to the twentieth century. Emphasis on international wars, territorial expansion, and the peculiarities of the American position in world politics.

**HSTAA 462 Diplomatic History of the United States, 1901-Present (5) I&S** Foreign policy of the United States government during the twentieth century. International wars and the other major episodes in diplomacy are emphasized.

**HSTAA 473 Homefront: American Cultures and Society in the 1940s (5) I&S** An exploration of the impact of WWII on American culture and social thought. Topics include the effects of war on civil liberties and civil rights, the uses of nationalism, patriotism, and racial ideology, the internment of Japanese-Americans, responses to the Holocaust, and the effects of war on social life.

**HSTAA 480 Labor and Popular Movements in Latin America (5) I&S** Interdisciplinary approach to origins and trajectory of labor movement from late nineteenth century to present. Emphasis in contemporary period on popular movements, including neighborhood associations, religious base communities, women's movement, and ethnic mobilization for democratic social and political reform. Recommended: two non-English-language Latin American studies courses. Offered: jointly with SISLA 480.

**HSTAA 481 History of Peru and the Andean Region (5) I&S** Traces the history of Peru specifically and the Andean highlands generally, from Inca times to the present, examining the shifting relationship between peasants, indigenous peoples, and the state. Analyzes historically why modern forms of peasant and indigenous political power differs radically between Peru, Bolivia, and Ecuador.

**HSTAA 482 The History of Brazil: Colonial Period to the Present (5) I&S** Colonial foundations; the first and second empires; the old and new republics; current problems; prospects for the future.

**HSTAA 487 History of Mexico: 1822 to the Present (5) I&S** Political, social, and economic history of Mexico from its independence from Spain to the present.

**HSTAA 488 History of the Caribbean and Central America (5) I&S** Political, social, and economic history of principal countries in the Caribbean and Central America from their discovery to the present.

**HSTAA 490 Topics in American History (5, max. 10) I&S** Examines special topics in American history.

**HSTAA 501 American History: Early (3-6, max. 6)**

**HSTAA 503 Seminar in American History, Early (3-)** Research seminar in early American History, 1600-1875.

**HSTAA 504 Seminar in American History, Early (3-6, max. 12)** Research seminar in early American History, 1600-1875.

**HSTAA 506 Slavery in the Americas (5)** Explores the rise of American slavery beginning with the development of the Atlantic slave trade between southern European powers and coastal African traders. Topics include cultures of slavery in the Americas, comparative racial formations, cultural change, and the role of gender in slave societies.

**HSTAA 512 American History: Western (3-6, max. 6)**

**HSTAA 513 Seminar in American History: Western ([3-6, max. 12]-)**

**HSTAA 514 Seminar in American History: Western (-[3-6, max. 12])**

**HSTAA 516 Hispanics of the United States (3-6, max. 6)**

**HSTAA 517 Field Course in American Indian History (5)** Field-reading course. Survey of major problems and literature concerning indigenous peoples of North America and their descendants.

**HSTAA 519 Asian American History (5)** Introduces students to the field of Asian American history, with an emphasis on historiographical shifts and debates. Includes a broad range of topics and methodologies that often cross disciplinary boundaries.

**HSTAA 521 American History: Writings and Interpretations, 1770-1870 (4-6)**

**HSTAA 522 American History: Writings and Interpretations Since 1870 (4-6)**

**HSTAA 524 American Social History Before 1860 (3-6, max. 6)** Field course. Survey of major problems and literature in American social history before 1860.

**HSTAA 525 American Social History After 1860 (3-6, max. 6)** Field course. Survey of major problems and literature in American social history after 1860.

**HSTAA 531 American History: Twentieth Century (3-6, max. 6)**

**HSTAA 532 Seminar in American History: Recent Period ([3-6, max. 12]-)**

**HSTAA 533 Seminar in American History: Recent Period (-[3-6, max. 12]-)**

**HSTAA 534 Seminar in American History: Recent Period (-[3-6, max. 12])**

**HSTAA 540 African American Urban History: 1700-2000 (5)** Examines the growth and evolution of African-American urban communities from the colonial era to the present, with particular emphasis on cities of the West.

**HSTAA 549 Culture, Politics, and Power in Nineteenth-Century Black America (5)** Canonical issues, problems, and topics in nineteenth-century black social history. Traces major developments during the period; engages historiographical debates; and explores methodological questions such as the intersection of social and cultural history, and the challenges and possibilities of writing the history of a people with few written records.

**HSTAA 550 African-American History to Reconstruction (5)** Comprehensive introduction to the major topics and writings in African-American history from the colonial era to 1900, including the inception of slavery, free Blacks, slave revolts, Black abolition, Blacks in the Civil War and Reconstruction, and the Black female role in the struggle for freedom.

**HSTAA 551 African-American History Since Reconstruction (5)** Comprehensive introduction to the major topics and writings in African-American history in the twentieth century, including Jim Crow era, Black Women's Movement, Harlem Renaissance, legal origins of Civil Rights Revolution, Second Reconstruction, and Politics of Cultural Pluralism.

**HSTAA 552 Graduate Seminar in African-American History (5-)** Research experiences and opportunities in African-American history. Provides students with skills and methodology to pursue advanced research in the field.

**HSTAA 553 Graduate Seminar in African-American History (-5)** Research experiences and opportunities in African-American history. Provides students with skills and methodology to pursue advanced research in the field.

**HSTAA 554 American History: Intellectual (3-6, max. 6)**

**HSTAA 555 Seminar: American Intellectual History ([3-6, max. 12]-)** Develops research and writing competence in American intellectual history. Prerequisite: permission of instructor or graduate program coordinator.

**HSTAA 556 Seminar: American Intellectual History (-[3-6, max. 12])** Develops research and writing competence in American intellectual history. Prerequisite: permission of instructor or graduate program coordinator.

**HSTAA 561 History of American Foreign Policy (3-6, max. 6)**

**HSTAA 562 Seminar in American Diplomatic History ([3-6, max. 12]-)**

**HSTAA 563 Seminar in American Diplomatic History (-[3-6, max. 12])**

**HSTAA 570 American Environmental History (5)** Readings in environmental history emphasizing theory, methodology, and principal themes in the field. Readings emphasize the environmental history of North America and the United States.

**HSTAA 581 Latin American History: Colonial Period (3-6, max. 6)**

**HSTAA 582 Latin American History: National Period (3-6, max. 6)**

**HSTAA 583 Seminar in Latin American History ([3-6, max. 12]-)** Problems of historical research in the history of Latin America from colonial beginnings to the present.

**HSTAA 584 Seminar in Latin American History (-[3-6, max. 12]-)** Problems of historical research in the history of Latin America from colonial beginnings to the present.

**HSTAA 585 Seminar in Latin American History (-[3-6, max. 12])** Problems of historical research in the history of Latin America from colonial beginnings to the present.

**HSTAA 586 Seminar in Comparative Colonial History ([3-6, max. 12]-)**

**HSTAA 587 Seminar in Comparative Colonial History (-[3-6, max. 12])**

**HSTAA 590 Topics in American History (5, max. 15)** Seminar on selected topics in American history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

## Modern European History

**HSTEU 210 Paris (5) VLPA/I&S** Provides an introduction to the history, art, architecture, politics, and literature of the City of Light.

**HSTEU 211 France: A Portrait (5) I&S** Thematic approach to the history of France. Abandons the conventional chronological format in favor of a constellation of topics and themes — architecture, science, sex, cities, barricades, etc. — that, taken together and in historical perspective, make up a portrait of France.

**HSTEU 220 Introduction to East European Studies (5) I&S** Introduction to the history of post-1945 Eastern Europe focusing on political, economic, social, cultural, and diplomatic issues. Countries surveyed include Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Romania, and Yugoslavia. Offered: jointly with EURO 220.

**HSTEU 250 Rome (5) I&S/VLPA** Focuses on Rome as an historical, intellectual, and artistic world center. Literary and historic documents, visual arts, architecture, film, and opera used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with ART H 250/ITAL 250.

**HSTEU 273 Women and Gender in Modern Europe (5) I&S** Examines European women's changing social role and competing views of femininity from the Enlightenment to the end of the cold war. Special focus on the relationship of gender and politics and on the female body in bourgeois society, industrialization, imperialism, the welfare state, fascism, and the cold war.

**HSTEU 274 Twentieth Century Europe (5) I&S** Introduction to themes in 20th-century European history (1890s-1900s), including the histories of fascism, world war, communism, decolonization, and the fate of Europe under the European Union.

**HSTEU 275 Life in England (5) I&S** Social history of England from the Norman conquest to

the present, seen through letters, autobiographies, novels, and plays of the time. Life of the ordinary inhabitant-in the village and the manor house.

**HSTEU 290 Topics in European History (5, max. 10) I&S** Examines special topics in European history.

**HSTEU 301 Early Modern European History: 1450-1648 (5) I&S** Political, social, economic, and cultural history from the late Renaissance to the Peace of Westphalia.

**HSTEU 302 Modern European History: 1648-1815 (5) I&S** Political, social, economic, and cultural history from the Peace of Westphalia to the fall of Napoleon.

**HSTEU 303 Contemporary European History Since 1815 (5) I&S** Political, social, economic, and cultural history from the fall of Napoleon to the present.

**HSTEU 304 Cultural History of Renaissance Europe (5) I&S/VLPA** Examination of Medicean Florence, late sixteenth-century France, Elizabethan England, and the baroque courts of the early seventeenth century as cultural centers. Includes analysis of painters such as Botticelli and Rubens; poets such as Ronsard and Donne; philosophers such as Pico and Montaigne; and playwrights such as Marlowe, Shakespeare and Lope de Vega.

**HSTEU 305 European Witch Trials (5) I&S** Witchcraft and magical beliefs in Europe considered as a problem in intellectual, social, and legal history. Medieval background, systematization of witchcraft theory in fifteenth century; comparison of learned and popular beliefs; mechanisms of witch trials and inquisitorial procedure; the Faust legend; growth of skepticism and decline of witchcraft in seventeenth century.

**HSTEU 323 France Since 1814 (5) I&S** Political, economic, and social history since the Congress of Vienna. Special emphasis upon the continuity of the revolutionary tradition.

**HSTEU 334 Germany 1871-1989 (5) I&S** Society and politics from Germany's first unification to its reunification; domestic and foreign policy; political, economic, social, and cultural developments; high emphasis on German society's self-perception and on the variety of interpretations of this period's history Offered: by different "schools" of historians.

**HSTEU 361 Spain and Its Golden Age, 1469-1700 (5) I&S** History and culture of Spain and its empire from the late Middle Ages through the seventeenth century.

**HSTEU 364 Modern Greece: 1821 to the Present (5) I&S** Politics and society of Greece from War of Independence to the present. Emergence and development of the Greek state; Greece in the world wars; civil war and post-war politics; military dictatorship; transition to democracy; recent developments. No prior study of Greece assumed. Offered: jointly with EURO 364.

**HSTEU 368 Modern European Jewish History (5) I&S** Surveys European Jewish history from the Spanish expulsion (1492) to World War I (1914). Considers diversity of European Jewries and the factors that cohered them. Examines how European Jewries ordered their

lives, shaped gender and class norms, and interacted with the societies in which they lived. Offered: jointly with SISJE 368.

**HSTEU 370 J.R.R. Tolkien: A Mythology for England (5) VLPA/I&S** Explores J.R.R. Tolkien in historical context. Influence of the nineteenth-century philosophy and folklore, World War I, Germanic mythology, Oxford Christianity, and the Inklings. Primary themes include language as a source of myth, fate and free will, religion, technology and nature, heroism and war, race and evil.

**HSTEU 376 Modern Irish History (5) I&S** Political and social history from 1800 to the present; the Irish Question after the Act of Union; development of Irish nationalism in the Home Rule and Sinn Fein periods; the Irish Free State and Northern Ireland since 1921; current problems in Northern Ireland.

**HSTEU 378 The Making of Contemporary France (5) I&S** Historical origins and subsequent development of nine contemporary problems and characteristics of French government and politics, economy, and society.

**HSTEU 380 History of Scandinavia to 1720 (5) I&S** Scandinavian history from the Viking Age to 1720, with an emphasis on the political, social, and economic development of Denmark, Norway, Sweden, Finland, and Iceland from the Middle Ages to the Enlightenment. Offered: jointly with SCAND 380.

**HSTEU 381 History of Scandinavia Since 1720 (5) I&S** Scandinavian history from the Enlightenment to the Welfare State with emphasis on the political, social, and economic development of the modern Scandinavian nations of Denmark, Norway, Sweden, Finland, and Iceland. Offered: jointly with SCAND 381.

**HSTEU 401 The Italian Renaissance: (5) I&S** Conditions of Renaissance culture: Italian republics and despots, humanism, the classical ideal of the arts, Machiavelli and the foundations of modern political thought; the end of an era.

**HSTEU 402 The Reformation (5) I&S** Origins of the disunity of Europe in the crisis of the sixteenth century with emphasis on the relations between religion and politics.

**HSTEU 405 European Intellectual History: Eighteenth Century (5) I&S/VLPA** Development of the social sciences, moral theory, political theory, and religious thought in eighteenth-century Europe. Rationalism, empiricism, utilitarianism, and the sources of idealism.

**HSTEU 406 European Intellectual History: Nineteenth Century (5) I&S/VLPA** Selected topics in intellectual history up to 1890. The philosophical consequences of the French Revolution, the development of idealism, conservatism, romanticism, and early socialist theory; positivism, the problems of historicism, new forms of Christian apologetics, utilitarianism in decline, liberalism as philosophy, the early Marx.

**HSTEU 407 European Intellectual History: Twentieth Century (5) I&S/VLPA** Selected topics in the intellectual history of the late nineteenth and early twentieth centuries. The aftermath of Darwinism, the problems of methodology in modern social science, historicism and moral relativism, irrationalism in philosophy and social theory, revisionism in secular and orthodox religions.

**HSTEU 411 Europe: 1814-70 (5) I&S** Development of Europe during the age of Metternich, the revolutions of 1848, and the emergence of new national states.

**HSTEU 412 Europe in the Age of the Masses: 1870-1914 (5) I&S** Impact of population increase and technological change on European society; stresses and strains in European life and outlook.

**HSTEU 413 Europe: 1914-45 (5) I&S** Politics and society of Europe in the age of the concentration camp.

**HSTEU 414 Europe Since 1945 (5) I&S** Political, economic, and military developments in Europe under the impact of the Cold War.

**HSTEU 415 Europe in the Second World War (5) I&S** Inquiry to discover what the war of 1939-45 was about and what it did to more than five hundred million Europeans.

**HSTEU 422 The French Revolution and Napoleon: 1789-1815 (5) I&S** Transformation of France under the Revolution of 1789; the Reign of Terror and Napoleon; the impact of the revolution and Napoleon upon Europe.

**HSTEU 432 Germany: 1914-1945 (5) I&S** Politics and society from the collapse of the Bismarckian empire to the collapse of Hitler's empire.

**HSTEU 435 World War I (5) I&S** European society on the eve of the war. War experience of the Europeans. Long term consequences of the war on European social, political, and economic institutions. Impact of the war on non-European world. The war in European literature.

**HSTEU 440 History of Communism (5) I&S** Communism from its origins in the Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Recommended: two history or politics of Europe courses. Offered: jointly with SIS 440.

**HSTEU 444 Imperial Russia: 1700-1900 (5) I&S** Development of Russia from Peter the Great to Nicholas II. Offered: jointly with SISRE 444.

**HSTEU 445 Twentieth-Century Russia (5) I&S** Russia and the USSR from Nicholas II to the present. Offered: jointly with SISRE 448.

**HSTEU 451 East-Central Europe Since 1342 (5) I&S** Explores the history of the lands and peoples of East Central Europe (Poles, Czechs, Slovaks, and Hungarians).

**HSTEU 452 Eastern Europe Since 1918 (5) I&S** Poland, Czechoslovakia, Hungary, Romania, Yugoslavia, Bulgaria, and Albania, from the end of World War I to the present.

**HSTEU 453 History of the Balkans, 1400 to the Present (5) I&S** Centuries of Ottoman rule that produced a new basis for the reemergence of independent states in the nineteenth and twentieth centuries; history of these new states until the present.

**HSTEU 454 Baltic History (5) I&S** Overview of the history of the area occupied by the Baltic countries of Latvia, Lithuania, and Estonia. Emphasizes their emergence as modern European nation-states. Era from World War I to present treated in depth, including the historical

role and present situation of non-Baltic peoples, particularly Russians. Offered: jointly with SCAND 454.

**HSTEU 464 The Jews in Spanish History (5) I&S** Sephardic Jews in Spanish politics, economy, and culture, emphasizing the medieval Golden Age and the Inquisition. Offered: jointly with SISJE 464.

**HSTEU 465 The Jews of Eastern Europe (5) I&S** Jewish society in Poland, Russia, the Hapsburg Lands, and Romania from the late Middle Ages to the Holocaust. Offered: jointly with SISJE 465.

**HSTEU 466 The Sephardic Diaspora: 1492-Present (5) I&S** Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with SISJE 466.

**HSTEU 470 The Jacobethan Age: England 1580-1630 (5) I&S** Emphasis on arts and society instead of the traditional kings, battles, and politics; the way people at all levels of society lived, in towns and in the countryside, within the bounds of the royal court or outside in the political wilderness. Classes on poetry, drama, music, architecture, painting, interior decoration, and some of the minor arts, as well as on demography and some of the traditional historical subjects. Not open for credit to students who have taken 471 or 472.

**HSTEU 471 England in the Sixteenth Century (5) I&S** Political, administrative, and social history from Henry VII to Elizabeth I, with emphasis on the Reformation and its effects and on conditions of life in Elizabethan England. Not open to students who have taken 470.

**HSTEU 472 England in the Seventeenth Century (5) I&S** Political, administrative, and social history from the accession of James I to the Glorious Revolution. Not open to students who have taken 470.

**HSTEU 474 England in the Nineteenth Century (5) I&S** Political, social, and cultural development; the agrarian, industrial, and French revolutions; the rise of parliamentary democracy; the Victorian age; political thought from utilitarianism to Fabianism; Irish home rule.

**HSTEU 475 England in the Twentieth Century (5) I&S** From the Boer War to the present; conservatism, liberalism, and socialism; England in two world wars; the decline of British imperialism.

**HSTEU 482 Fascism in Europe (5) I&S** History of the fascist era in modern Europe from 1919 to 1945. A study of the principal examples of national fascism and fascist-like movements coupled with a general theoretical consideration of the phenomenon.

**HSTEU 484 Colonial Encounters (5) I&S** History of European colonialism from the 1750s to the present, with an emphasis on British and French colonial encounters. Offered jointly with CHID 484.

**HSTEU 490 Topics in European History (5, max. 10) I&S** Examines special topics in European history.

**HSTEU 501 Renaissance Field Course (3-6, max. 6)** Topics in the cultural, political, and social history of the Renaissance era.

**HSTEU 502 Reformation Field Course (3-6, max. 6)** Topics in the religious, political, and social history of the Reformation era.

**HSTEU 505 Early Modern European History (3-6, max. 18)** Select topics in early modern European history. Topics vary from quarter to quarter. Prerequisite: permission of instructor.

**HSTEU 510 Core Seminar in the History of Modern Europe (5-)** An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

**HSTEU 511 Core Seminar in the History of Modern Europe (5-)** An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

**HSTEU 512 Core Seminar in the History of Modern Europe (5-)** An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

**HSTEU 513 Europe and the Modern World (5)** Provides an acquaintance with some of the themes, problems, and events in the history of modern Europe, including Europe's larger global engagements. Offers foundation for advanced thematic or regional study, a basis for comparative historical study within Europe and beyond, and preparation for teaching entry-level and advanced undergraduate surveys.

**HSTEU 515 Modern European Intellectual History (3-6, max. 6)**

**HSTEU 516 Seminar: European Intellectual History ([3-6, max. 6]-)**

**HSTEU 517 Seminar: European Intellectual History (-[3-6, max. 6])**

**HSTEU 521 Modern European History: France (3-6, max. 6)**

**HSTEU 522 Seminar in French History ([3-6, max. 12]-)**

**HSTEU 523 Seminar in French History (-[3-6, max. 12]-)**

**HSTEU 524 Seminar in French History (-[3-6, max. 12])**

**HSTEU 531 Modern European History: Germany (3-6, max. 6)**

**HSTEU 532 Seminar in Modern European History: Germany ([3-6, max. 12]-)**

**HSTEU 533 Seminar in Modern European History: Germany (-[3-6, max. 12]-)**

**HSTEU 534 Seminar in Modern European History: Germany (-[3-6, max. 12])**

**HSTEU 544 Modern Russian History (3-6, max. 6)**

**HSTEU 545 Seminar in Modern Russian History ([3-6, max. 12]-)** Prerequisite: reading knowledge of Russian and either French or German.

**HSTEU 546 Seminar in Modern Russian History (-[3-6, max. 12]-)** Prerequisite: reading knowledge of Russian and either French or German.

**HSTEU 547 Seminar in Modern Russian History (-[3-6, max. 12])** Prerequisite: reading knowledge of Russian and either French or German.

**HSTEU 548 Field Course in Soviet History (3-6, max. 6)** Specialized course for graduate history students in the scholarly literature of Russian history since 1917. Intended for graduate students preparing for MA or Ph.D. field examination in Russian history of the Soviet period.

**HSTEU 551 History of Eastern Europe: 1772-1939 (5)** Study of the east-central European region: Poland, Czechoslovakia, Hungary, Romania, and the Balkan countries, from their rebirth to World War II. Prerequisite: reading knowledge of German, French, Russian, or one East European language.

**HSTEU 552 History of Eastern Europe: 1939 to the Present (5)** Prerequisite: reading knowledge of one major European or one East European language.

**HSTEU 553 Seminar in Modern East European History ([3-6, max. 6]-)** Study and research involving special methods dealing with the histories of the East European countries in the modern period.

**HSTEU 554 Seminar in Modern East European History (-[3-6, max. 6]-)** Study and research involving special methods dealing with the histories of the East European countries in the modern period.

**HSTEU 555 Seminar in Modern East European History (-[3-6, max. 6])** Study and research involving special methods dealing with the histories of the East European countries in the modern period.

**HSTEU 571 English History: Tudor and Stuart (3-6, max. 6)**

**HSTEU 572 English History (3-6, max. 6)**

**HSTEU 573 Seminar in Modern English History ([3-6, max. 6]-)**

**HSTEU 574 Seminar in Modern English History (-[3-6, max. 6])**

**HSTEU 575 Seminar in Tudor-Stuart History ([3-6, max. 12]-)** History of England under the Tudors and the Stuarts. Prerequisite: HSTEU 571 or permission of instructor.

**HSTEU 576 Seminar in Tudor-Stuart History (-[3-6, max. 12])** History of England under the Tudors and the Stuarts. Prerequisite: HSTEU 571 or permission of instructor.

**HSTEU 590 Topics in History (5, max. 15)** Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

## History and Philosophy of Science

**HPS 210 Issues in the History and Philosophy of Science (5) I&S** Examination of selected topics in the history and philosophy of science at the introductory level. Taught by UW faculty and visiting scholars.

**HPS 400 Colloquium in the History and Philosophy of Science (5) I&S/NW** Examines issues from the perspectives of both history and philosophy. Prerequisite: either HIST 311, HIST 312, HIST 313, HIST 314, HIST 315, HIST 317, HIST 318, or HIST 412; either PHIL 350, PHIL 360, PHIL 450, PHIL 460, PHIL 464, PHIL 466, PHIL 473, PHIL 481, PHIL 482, or PHIL 483.

---

## Honors — Arts and Sciences

**H A&S 100 Honors at the UW ? Knowledge Across the Disciplines (1)** Showcases a wide range of interdisciplinary disciplines, research, faculty, and experimental opportunities at the UW. Topics and approaches vary.

**H A&S 220 Science for Honors Students I (5, max. 10)** Evolution of an idea or concept central to the natural sciences. Intended for non-science majors. Content varies from year to year. For university honors students only. Offered: A.

**H A&S 221 Science for Honors Students II (5, max. 10)** Evolution of an idea or concept central to the natural sciences. Intended for non-science majors. Content varies from year to year. For university honors students only. Offered: W.

**H A&S 222 Science for Honors Students III (5, max. 10)** Evolution of an idea or concept central to the natural sciences. Intended for non-science majors. Content varies from year to year. For university honors students only. Offered: Sp.

**H A&S 251 Western Civilization I (5, max. 10) I&S/VLPA** Introduction to ideas and society in Western Civilization. For university honors students only. Offered: A.

**H A&S 252 Western Civilization II (5, max. 10) I&S/VLPA** Introduction to ideas and society in Western Civilization. For university honors students only. Offered: W.

**H A&S 253 Western Civilization III (5, max. 10) I&S/VLPA** Introduction to ideas and society in Western Civilization. For university honors students only. Offered: Sp.

**H A&S 261 World Civilization I (5, max. 10) I&S/VLPA** Introduction to ideas and society of civilization other than the Western. Specific civilization (Chinese, Japanese, Middle Eastern, South Asian) differs from year to year and section to section. For university honors students only. Offered: A.

**H A&S 262 World Civilization II (5, max. 10) I&S/VLPA** Introduction to ideas and society of civilization other than the Western. Specific civilization (Chinese, Japanese, Middle Eastern, South Asian) differs from year to year and section to section. For university honors students only. Offered: W.

**H A&S 263 World Civilization III (5, max. 10) I&S/VLPA** Introduction to ideas and society of civilization other than the Western. Specific civilization (Chinese, Japanese, Middle Eastern, South Asian) differs from year to year and section to section. For university honors students only. Offered: Sp.

**H A&S 300 Introduction to the Professions (2-5, max. 15)** Studies oriented toward professional work (law, medicine, public affairs). For university honors students only.

**H A&S 350 Honors Seminar (2, max. 20)** Discussion of selected topics in a variety of subject-matter fields. Topics and reading material vary from year to year. For university honors students only. Credit/no credit only.

**H A&S 396 Interdisciplinary Special Topics—Natural Science (1-5, max. 10) NW** Special courses drawn from interdisciplinary groups in the natural sciences. Content varies.

**H A&S 397 Interdisciplinary Special Topics—Social Science (1-5, max. 10) I&S** Special courses drawn from interdisciplinary groups in the social sciences. Content varies.

**H A&S 398 Interdisciplinary Special Topics—Humanities (1-5, max. 10) VLPA** Special courses drawn from interdisciplinary groups in the humanities. Content varies.

**H A&S 499 Honors Independent Study or Research (1-5, max. 10)** Faculty supervised Honors independent study or research for students in areas extending beyond their major departments or along lines not otherwise accommodated by existing Honors courses. Honors students only.

---

## International Studies

### International Studies

**SIS 103 Society and the Oceans (5) I&S/NW** Explores the social and policy dimensions of the ocean environment and ocean management policy. Attention to how human values, institutions, culture, and history shape environmental issues and policy responses. Examines case studies and influential frameworks, such as the ocean as "tragedy of the commons". Offered: jointly with SMA 103

**SIS 123 Introduction to Globalization (5) I&S Sparke** Provides an introduction to the debates over globalization. Focuses on the growth and intensification of global ties. Addresses the resulting inequalities and tensions, as well as the new opportunities for cultural and political exchange. Topics include the impacts on government, finance, labor, culture, the environment, health, and activism. Offered: jointly with GEOG 123.

**SIS 150 Israel: Dynamic Society and Global Flashpoint (5) I&S Barzilai, Migdal, Pianko, Sokoloff** Introduces the people, institutions, and culture of Israel in the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture. Offered: jointly with NEAR E 150.

**SIS 200 States and Capitalism: The Origins of the Modern Global System (5) I&S** *Kasaba, Migdal, Yang* Origins of the modern world system in the sixteenth century and its history until World War I. Interacting forces of politics and economics around the globe, with particular attention to key periods of expansion and crisis. : A.

**SIS 201 The Making of the 21<sup>st</sup> Century (5) I&S** *Bachman, Callahan, Migdal, Radnitz* Provides a historical understanding of the twentieth century and major global issues today. Focuses on interdisciplinary social science theories, methods, and information relating to global processes and on developing analytical and writing skills to engage complex questions of causation and effects of global events and forces. Recommended: SIS 200. Offered: WSp.

**SIS 202 Cultural Interactions in an Interdependent World (5) I&S** *Robinson, Sorensen, Warren, Wellman* Cultural interaction among societies and civilizations, particularly Western and non-Western. Intellectual, cultural, social, and artistic aspects; historical factors. Offered: Sp.

**SIS 216 Science and Society (5) I&S/NW** *Chaloupka* of the relationship between science, technology and society. Nuclear physics and molecular biology serves as concrete examples of fields with significant impact on society. Offered jointly with PHYS 216, Sp.

**SIS 301 War (5) I&S** Origins and conduct of war; readings from anthropology, political science, economics, and history, as well as novels and some recent works on the arms-control controversy. Modern forms of warfare, including guerrilla war, world war, and nuclear war. Offered: jointly with SOC 301.

**SIS 302 Intercultural Relations (5) I&S** *Warren* Perspectives on foreign cultures through literary example. Interdisciplinary approaches to the study of culture as such and problems of intercultural relations. Prerequisite: either one 200-level ANTH course, LING 203 or SIS 202.

**SIS 325 Immigration (5) I&S** *Friedman* Introduces key theoretical debates in international migration. Examines immigrants' political, economic, religious, and social integration into host societies, and continued ties to homelands. Experiences of voluntary and involuntary immigrants, of the second generation, and of incorporation into America and Europe. Designed around interdisciplinary texts and fieldwork in Seattle.

**SIS 330 Political Economy of Development (5) I&S** *Latsch, Poznanski* Growth, income distribution, and economic development in less-developed countries today. Policies concerning trade, industrialization, the agricultural sector, human resources, and financing of development. Prerequisite: either ECON 201, GEOG 123 or SIS 120 any of which may be taken concurrently.

**SIS 332 Political Economy of International Trade and Finance (5) I&S** *Poznanski* Theoretical and historical analysis to explore the causes and effects of the rise and decline of four major international trade and monetary regimes. Foundations and emerging features of the new international trade and monetary regime and its implications for the world economy.

**SIS 333 Gender and Globalization: Theory and Process (5) I&S** *Ramamurthy* Theoretical,

historical, and empirical analysis of how current processes of globalization are transforming the actual conditions of women's lives, labor, gender ideologies, and politics in complex and contradictory ways. Topics include feminist exploration of colonialism, capitalism, economic restructuring policies, resistance in consumer and environmental movements. Offered: jointly with WOMEN 333.

**SIS 335 Geography of the Developing World (5) I&S** Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization, and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Offered: jointly with GEOG 335.

**SIS 337 Collective Violence and the State (5) I&S** Comparative study of collective violence in modern states with emphasis on riots and pogroms. Readings include case materials drawn from Russian pogroms of the nineteenth and twentieth centuries, Hindu-Muslim riots in modern India, and race riots in the United States and Great Britain. Offered: jointly with POL S 337.

**SIS 342 Social Theory in International Context (5) I&S** Comparative, historical introduction to the foundations of modern social theory in the work of Max Weber, Sigmund Freud, and Claude Levi-Strauss. Focus on tensions between universalist claims, European origins, and non-European applications of models of cultural formation and development.

**SIS 344 Migration in the Global Economy (5) I&S** *Mitchell* Analyzes the relationship between human mobility in the late 20th century and changes in the global economy. Allows the student to gain familiarity with scholarly research on international migration from a diversity of approaches and methods. Offered: jointly with GEOG 344; W.

**SIS 345 Women and International Economic Development (5) I&S** *Ramamurthy* Questions how women are affected by economic development in Third World and celebrates redefinitions of what development means. Theoretical perspectives and methods to interrogate gender and development policies introduced. Current processes of globalization and potential for changing gender and economic inequalities assessed. Offered: jointly with ANTH 345/WOMEN 345.

**SIS 348 Alternative Routes to Modernity (5) I&S** Routes to modernity followed by non-Western societies between 1600 and 1900. Historical experiences of non-Western societies seen in the context of European history and of development theory. Emphasizes primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with HSTAS 348.

**SIS 350 Environmental Norms in International Politics (5) I&S** *Ingebriksen* Surveys development of international environmental consciousness from 1960s to present. Models of "green development"; ways in which norms for resource use have entered global politics. Patterns of state compliance with international environmental agreements, and why states fall short of meeting their international obligations. Offered: jointly with ENVIR 360/SCAND 350.

**SIS 362 Law and Justice: An Introduction to Social Theory (5) I&S** *Godoy* Provides conceptual tools for understanding law and its role in society by acquainting students with major currents of social theory. Topics include liberalism, Marxism, critical feminist theory, and critical race theory. Offered: jointly with LSJ 362.

**SIS 365 World Cities (5) I&S** *Kasaba, Sparke* Factors that have propelled New York, London, and Tokyo into key positions in the organization of the late twentieth century international system. Asks historical and comparative questions and discusses the reasons behind the diminished position of cities such as Venice, Vienna, and Istanbul in that system.

**SIS 375 Geopolitics (5) I&S** An introduction to both political geography and geopolitics, addressing the fundamental links between power and space. Topics covered include: theories of power, space, and modernity; the formation of modern states; international geopolitics in the aftermath of the Cold War; the post-colonial nation-state; and the geopolitics of resistance. Offered: jointly with GEOG 375.

**SIS 377 Turkic Peoples of Central Asia (3) I&S** *Cirtautas* History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with NEAR E 375.

**SIS 390 Political Economy of Industrialized Nations (5) I&S** *Ingebriksen* Theoretical bases of various political economic systems of industrialized nations. Several major issues these political economies currently face; usefulness and limits of economic analyses within broader perspective of political economy. Prerequisite: either ECON 201, GEOG 123 or SIS 120 any of which may be taken concurrently.

**SIS 397 Junior Honors Seminar (5) I&S** Designed to facilitate writing of honors thesis through methodological and bibliographical research. Required of honors candidates.

**SIS 399 Study Abroad — International Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SIS 401 International Political Economy (5) I&S** *Ingebriksen, Latsch* Establishment, maintenance, and decay of the post-1945 international economic order. Political economy of international trade, monetary relations, inflation, and North-South relations. Prerequisite: SIS 201 which may be taken concurrently; either ECON 201, GEOG 123 or SIS 120 any of which may be taken concurrently.

**SIS 405 Political Economy of Religious Institutions (5) I&S** Comparative study of Buddhist, Taoist, Christian, and Islamic religious institutions as political and economic phenomena. Impact of wealth and power on religious institutions or religious ideas. Temporal coverage from the formative period to the present. Recommended: one China, Japan, Middle East, or Europe course.

**SIS 406 Political Islam and Islamic Fundamentalism (5) I&S** *Robinson* Study of

resurgence, since mid-1970s, of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with POL S 432.

**SIS 410 Introduction to Global Internet Political Economy (5) I&S** *Hellmann* Impact of the Internet revolution on structure and operating procedures of the international system. Effects of Internet-driven forces on aspects of the global political economy: cultural and political identities; interactions between states and markets; meaning of the boundaries of sovereignty and civil society.

**SIS 419 Comparative Media Systems (5) I&S** Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with COM 420/POL S 468.

**SIS 421 National Security and International Affairs (5) I&S** *Jones* Major military aspects of contemporary international politics. Uses and limitations of military capabilities for sustaining a stable international order and national security. Processes by which states detect and assess threats to their security; practice of deterrence; transfer of arms among states; pursuit of arms control. Recommended: one SIS or international relations course.

**SIS 422 The United States in the Contemporary International System (5) I&S** *United States* in the world: ways in which international circumstances shape the political-strategic, economic, and cultural dimensions of America's policy. Case studies from post-1945 period. Recommended: one international relations or foreign policy course.

**SIS 423 Practicing American Foreign Policy (5) I&S** Develops familiarity with tools available to promote international objectives of the United States. International case studies selected to illustrate the diverse considerations inherent in the policy process and evaluate the strengths and weaknesses of the national institutions involved. Prerequisite: SIS 201.

**SIS 425 International Law and Arms Control (5) I&S** Surveys the political, legal, and technological history of 20th-century arms control agreements with emphasis on the treaties which ended the Cold War. Examines current issues of law, politics, military strategy, and technology in regard to weapons of mass destruction and related topics in international security. Offered: Sp.

**SIS 426 World Politics (5) I&S** *Caporaso, Modelski* Nation-state system and its alternatives; world distributions of preferences and power; structures of international authority; historical world societies and their politics. Offered: jointly with POL S 426.

**SIS 427 Weapons of Mass Destruction: Development, Deployment, and Detection (5) I&S** *Fuller* Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current

arms control agreements and non-proliferation programs.

**SIS 430 International Population (5) I&S** *Lavelly* Demographic situation of the world and of major world regions. The demographic transition. Topics include public health, policies of fertility and mortality control, international migration, relation of population growth to economic development, social change, and resource constraints. Exploration and manipulation of international demographic data.

**SIS 432 Population and Modernization (3) I&S** *Hirschman, Lavelly* Examines role of demographic factors in process of social modernization and economic growth. Approach is historical, focusing on populations of developed countries since 1700, and analytic, stressing attempts made by different disciplines to model demographic relationships, with attention to less developed regions. Offered: jointly with SOC 432.

**SIS 433 Environmental Degradation in the Tropics (5) I&S/NW** *Christie* Considers theories and controversies of environmental degradation in the tropics, ecological and social case studies of Central American rain forests and Southeast Asian coral reefs, and implications of environmental management techniques. Offered: jointly with ENVIR 433/SMA 433.

**SIS 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S** Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Offered: jointly with POL S 436.

**SIS 438 Forced Migrations (5) I&S** *Friedman* Provides an interdisciplinary understanding of the causes, characteristics, and consequences of forced migration experiences across the global system. Explores how international policy makers, humanitarian workers, and scholars have constructed forced migration as a problem for analysis and action, including some of the ethical dilemmas involved. Recommended: SIS 325 or SIS 344.

**SIS 440 History of Communism (5) I&S** *Ellison* Communism from its origins in Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Recommended: two history or politics of Europe courses. Offered: jointly with HSTEU 440.

**SIS 444 Peasants in Politics (5) I&S** *Young* Interdisciplinary study of peasants, with special attention to questions of rural transformation. Peasant involvement in an increasingly independent world. Rebellion and revolution, impact of the international market, agricultural development. Offered: jointly with POL S 446.

**SIS 446 History, Memory, and Justice (5) I&S** *Giebel* Focuses on the complex interactions between history and historical representation, remembrance and commemoration, memory and identity, and notions of justice and reconciliation. Addresses these issues on methodological, theoretical, and practical grounds, drawing on examples from various genres, periods, and world regions. Offered.

**SIS 449 Social Transformation of Modern East Asia (5) I&S** *Sorensen* Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Recommended: two history or anthropology of East Asia courses. Offered: jointly with ANTH 449.

**SIS 450 Political Economy of Women and Family in the Third World (5) I&S** Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with SOC 450.

**SIS 452 Law and Politics of International Trade (5) I&S** *S. Pekkanen* Survey of global trade politics in the context of the World Trade Organization (WTO), with attention to positive and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

**SIS 455 Industry and the State (5) I&S** *Hamilton, Whiting* Builds on states and markets approach of 200 and 201 through specific examination of effects of industry and industrial structure on political outcomes and roles of state. Emphasis on late-developing and newly developing economies. Prerequisite: SIS 200; SIS 201.

**SIS 456 State-Society Relations in Third World Countries (5) I&S** *Bachman, Callahan, Kasaba* Relationships among political, social, and economic changes in Asia, Africa, and Latin America. Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with POL S 450.

**SIS 460 Law, State, and Society (5) I&S** *Migdal* Examination of both state law and non-state law (rules and ways of ordering behavior such as customary law, religious law, and social conventions). Focuses on the ways non-state law interacts with and affects state law and is affected by state law.

**SIS 465 Deeply Divided Societies (5) I&S** *Migdal* Ethnic conflict seen from two perspectives: 1. the study of theoretical approaches as a means of understanding deeply divided societies; 2. a focus on one or more specific conflicts. Recommended: SIS 201 or POL S 204.

**SIS 467 Nations and States in the Modern World (5) I&S** Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by the new nationalism and its spread into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with HIST 467.

**SIS 470 Human Rights in Latin America (5) I&S** *Godoy* Human rights in Latin America, focusing on twentieth century dictatorships and current regional events and their implications for human rights. Cannot be taken for credit if GIS 174 or SISLA 120 previously taken. Offered: jointly with LSJ 410. Prerequisite: either ANTH 323, LSJ 320, LSJ 321, POL S 368, PHIL 338, SIS 200, or SIS 201.

**SIS 476 Comparative International Political Economy (5) I&S** *Ingebritsen, Pozanaski*  
Comparative analysis of four major approaches to international political economy: mercantilism, Marxism, liberalism, and evolutionary approach. Focus on international cooperation, social change, and economic institutions. Theoretical analysis of the four paradigms and applications to historic and current issues in international political economy: hegemonic cycle, post-communist transition, and cross-national income inequality.

**SIS 490 Special Topics (1-5, max. 15) I&S**  
Content varies from quarter to quarter.

**SIS 491 Senior Honors Seminar (5-) I&S**  
Study of issues related to students' thesis topics. Develops thesis-writing skills. Open only to Jackson School honors students.

**SIS 492 Senior Honors Seminar (-5) I&S**  
Students write a senior thesis working with their individual writing advisers.

**SIS 494 Senior Research (2)** Independent research and writing under supervision of a faculty member. Open only to International Studies majors.

**SIS 495 Task Force (5) I&S** Small-group seminars address current problems in international affairs, each focusing on one specific policy question and producing a joint task force report. Restricted to senior majors in International Studies. Prerequisite: SIS 200; SIS 201; SIS 202; SIS 401.

**SIS 497 Internship (1-5, max. 15)** Credit for the completion of an approved internship in international studies. Credit/no credit only.

**SIS 498 Readings in International Studies (5) I&S** Reading and discussion of selected works of major importance in interdisciplinary international studies. Restricted to majors in International Studies.

**SIS 499 Undergraduate Research (1-5, max. 15)** .

**SIS 500 Seminar: Origins of the Modern Global System (3)** *Kasaba, Migdal* Development of global interdependence from the fifteenth century to World War II. Interrelationship of politics and economics. International political economy from contextual, institutional, and historical perspectives.

**SIS 501 Seminar: Comparative International Studies (3)** *Bachman, Kasaba, Poznanski*  
Focuses on comparison across geographical areas including comparative political economy, comparative cultures, and comparative institutions. Provides familiarity with the comparative method of inquiry, an understanding of the interplay between area studies and cross-regional theories, and skills in conducting comparative research and writing. Prerequisite: ECON 200; ECON 201.

**SIS 502 Seminar: Globalization and International Relations (3)** *Jones* Focuses on globalism, including international relations and transnational studies. Provides an understanding of the interplay of area studies with processes that transcend geographical areas and intersect political boundaries, an overview of transnationalism or international relations, and skills in undertaking a major research and writing project.

**SIS 511 Practicum: Methods in International Studies (3)** *Chirot, Curran* Assumptions underlying leading methodologies for comparative study of societies and other large-scale social entities. Quantitative and nonquantitative methods illustrated by recent research. Prerequisite: SIS 502.

**SIS 512 Task Force in International Affairs (3)** *Chirot, Curran* Seminar addressing a current problem in international affairs and resulting in a joint task-force report. Results presented to, and critiqued by, a distinguished outside evaluator at end of term. Prerequisite: SIS 511.

**SIS 520 Introduction to Theories and Quantitative Methods for Social Science Research (5)** Selected social scientific theories and quantitative methods for students in international and area-studies programs. Introduction to methodological neoclassicism, neo-institutional analysis, "developmentalism," rational choice and dynamic institutionalist approaches, and selected theories from political science. Essentials of statistical analysis.

**SIS 522 Special Topics in Ethnicity and Nationalism (3, max. 6)** Topics vary, but always focus on ethnic group relations and nationalism viewed from a broad, comparative, interdisciplinary perspective. Emphasis is heavily cross-cultural, and the geographical coverage worldwide.

**SIS 523 Seminar on Religious and Political Violence (5)** *Robinson* Employs ethnographic studies and anthropological theory to examine the relationships between culture and power in the analysis of religious and political violence. Topics include modernity; secularisms and fundamentalisms; ritual, sacrifice, and martyrdom; law, rights, and subject-making. Offered: jointly with ANTH 523.

**SIS 524 International Security (5)** *Kier, Mercer* Introduces some of the major debates concerning the use of force in international politics. Covers traditional issues in international security such as alliances and the causes of war, as well as some of the new and important questions, such as explaining war outcomes and war termination. Offered jointly with POL S 524.

**SIS 527 Weapons of Mass Destruction: Development, Deployment, and Detection (5)** *Fuller* Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current arms control agreements and non-proliferation programs.

**SIS 534 International Affairs (3)** Provides a broad understanding of international issues and United States policy. Students explore U.S. foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, development assistance, and the environment. Offered: jointly with PB AF 530/ POL S 534.

**SIS 542 Seminar: State and Society (5)** *Migdal* Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with POL S 542.

**SIS 552 Law and Politics of International Trade (5) I&S** *S. Pekkanen* Survey of global trade politics in the context of the World Trade Organization (WTO), with attention to positive and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

**SIS 553 Environment and Health in the World Trade Organization (5)** *S. Pekkanen* Conflicts between global environmental and public health on the one hand and international trade expansion on the other in the World Trade Organization (WTO). Focuses on the state of GAITT/WTO jurisprudence and its interaction with sovereign laws and regulations. Cases include asbestos, reformulated gasoline, beef hormones, shrimp-turtle, and genetically modified organisms.

**SIS 562 Law, Globalization, and Multinational Corporations (3)** An interdisciplinary workshop that examines the role of multinational corporations in a global society. Topics include the legal construct of the multinational corporation, the multinational and the state, the multinational and human rights, and the multinational in the international arena. Offered: jointly with LAW E 512.

**SIS 575 Advanced Political Geography (5)** *Sparke* Provides resources for theorizing how politics shapes and is shaped by geographical relationships. Examines how politics are situated in complex material and discursive geographies that are partly reproduced through political negotiations. Examines interrelationships of contemporary capitalism with other complex systems of social and political power relations. Offered: jointly with GEOG 575.

**SIS 580 Teaching International Studies (2, max. 4)** *Migdal* For current and prospective teaching assistants. Includes teaching writing, leading effective discussions, the art of evaluation, and teaching critical reading skills; videotaping of actual teaching sessions of participants in class. Credit/no credit only.

**SIS 590 Special Topics (2-5, max. 10)** Seminar. Course content varies. Offered occasionally by visiting or resident faculty.

**SIS 600 Independent Study or Research (\*)**

## European Studies

**EURO 110 Introduction to Russian Culture and Civilization (5) I&S/VLPA** Introduction to Russian culture and history from pre-Christian times to the present, as seen through literary texts, music, film, visual art, and historical works. All lectures and written materials in English. No prior knowledge of Russian necessary. Offered: jointly with RUSS 110.

**EURO 111 Elementary Modern Greek (5)** Fundamentals of oral and written modern Greek. Offered: A.

**EURO 112 Elementary Modern Greek (5)** Fundamentals of oral and written modern Greek. Recommended: EURO 111 or GREEK 401. Offered: W.

**EURO 113 Elementary Modern Greek (5)** Fundamentals of oral and written modern Greek.

Recommended: EURO 112 or GREEK 402.  
Offered: Sp.

**EURO 140 Russia From the Tenth Century to the Present (5) I&S** Russian political, social, and economic history from the tenth century to the present. Offered: jointly with HIST 140.

**EURO 211 Second-Year Modern Greek (5) VLPA** Continuation of EURO 111, 112, 113. Intensive practice in speaking, reading, and writing. Recommended: EURO 113 or GREEK 403. Offered: A.

**EURO 212 Second-Year Modern Greek (5) VLPA** Continuation of EURO 111, 112, 113. Intensive practice in speaking, reading, and writing. Recommended: EURO 211. Offered: W.

**EURO 213 Second-Year Modern Greek (5) VLPA** Continuation of EURO 111, 112, 113. Intensive practice in speaking, reading, and writing. Recommended: EURO 212. Offered: Sp.

**EURO 220 Introduction to East European Studies (5) I&S Felak** Introduction to the history of post-1945 Eastern Europe focusing on political, economic, social, cultural, and diplomatic issues. Countries surveyed include Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Romania, and Yugoslavia. Offered: jointly with HSTEU 220.

**EURO 243 Russian Civilization (5) I&S** Russia's civilization, including fine arts, literature, religion, and history; political, social, and legal institutions and thought in relation to the general development of Russian society from early times to 1917.

**EURO 260 Fashion, Nation, and Culture (5) VLPA/I&S Gaylard** Introduction to Italian culture focusing on fashion and manners from the late Middle Ages to today. Explores common assumptions about nation, gender, clothes, make-up, and manners, through literary and visual analysis. In English. Offered: jointly with ITAL 260; W.

**EURO 301 Europe Today (5) I&S Ingebritsen, Lang** A multi-disciplinary approach to contemporary Europe focusing on social, political, cultural, and economic change, with special reference to developments in the countries of the European Union, Scandinavia, and those in Eastern Europe in the post-Soviet era. Offered: A.

**EURO 302 The Politics and Cultures of Europe (5) I&S Lang** Builds upon themes and topics introduced in EURO 301. Provides rigorous and specialized investigation of European political institutions, societies, and cultures in the modern era. Prerequisite: EURO 301.

**EURO 320 Greek History: 7000 BC to Present (5) I&S Thomas** History of Greece from its Neolithic village origins to the present. Examines the different forms of one of the most resilient cultures in the human story. Offered: jointly with HIST 320, A.

**EURO 344 The Baltic States and Scandinavia (5) I&S Smidchens** Survey of the cultures and history of Estonia, Latvia, and Lithuania from the Viking Age to the present, with particular attention to Baltic-Scandinavian contacts. Offered: jointly with SCAND 344.

**EURO 345 Baltic Cultures (5) I&S/VLPA** Cultures and peoples of Estonia, Latvia, and

Lithuania. Baltic literature, music, art, and film in social and historical context. Traditional contacts with Scandinavia and Central and East Europe. Offered: jointly with SCAND 345.

**EURO 351 Scandinavia, the European Union, and Global Climate Change (5) I&S** Reviews the history of climate change, the role of Swedish scientist Svante Arrhenius in defining greenhouse effects, Scandinavian policy response, and the role of the European Union in global climate change. Offered: jointly with SCAND 351; WSp.

**EURO 360 Contemporary Spain (5) I&S/VLPA** Social, political, and cultural developments in Spain since the end of the Franco dictatorship in 1975. Extensive use of Spanish Web sites. Prerequisite: SPAN 302 which may be taken concurrently. Offered: jointly with SPAN 360.

**EURO 364 Modern Greece: 1821 to the Present (5) I&S** Politics and society of Greece from War of Independence to the present. Emergence and development of the Greek state; Greece in the world wars; civil war and post-war politics; military dictatorship; transition to democracy; recent developments. No prior study of Greece assumed. Offered: jointly with HSTEU 364.

**EURO 378 Russia and Asia (3) I&S** Russian expansion into Central Asia. Russian and Soviet policies toward nationalities and relations with adjacent Asian countries.

**EURO 395 Supervised Internship (1-5, max. 5) .**

**EURO 399 Study Abroad (1-5, max. 15) I&S** For participants in Study Abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**EURO 403 Modern European Migration, Integration, and Citizenship (5) I&S Mitchell** Offers a theoretical and empirical understanding of migration processes and patterns in Europe, with a focus on Muslim immigration in the post WWII period. Analyzes the impact of European Union mandates, globalization processes, and international, national, and urban policies on Muslim immigrant rights and identity formation. Offered: A; jointly with GEOG 403.

**EURO 420 The Olympics: The Merging of Old and New in Modern Greece (5) I&S** Explores the role of the Olympic games in the history and culture of Greece, from Bronze Age pre-Olympiads to the 2004 Athens Games. Topics include mythical and historical origins of the Olympics, moral principles and practices in Greek sports, and modern Olympics, 1896 to 2004. Offered: jointly with HIST 420.

**EURO 445 War and Occupation in Northern Europe: History, Fiction, and Memoir (5)** The study of literary representations (fiction, memoirs, and personal narratives) dealing with World War II and the occupation of the Nordic and Baltic countries. Offered: jointly with SCAND 445.

**EURO 480 Kierkegaard and Decadence in European Literature (5) VLPA** Reading and discussion of core texts by Soren Kierkegaard, as well as a consideration of the relationship between Kierkegaardian thought and the literary practice of various writers of Scandinavian and European decadence. Offered: jointly with SCAND 480.

**EURO 481 August Strindberg and European Cultural History (5) I&S/VLPA** Examines the work of Swedish dramatist, novelist, and painter August Strindberg, in the context of European literary movements and history of ideas from 1880 to 1912, and Strindberg's influence on 20th-century drama and film. Offered: jointly with SCAND 481.

**EURO 482 Knut Hamsun and Early European Modernism (5) VLPA** Reading and discussion of significant novels by Knut Hamsun, whose oeuvre is considered in the context of works by other European modernist writers. Offered: jointly with SCAND 482.

**EURO 490 Special Topics (1-5, max. 15) I&S**

**EURO 494 Senior Seminar I (5) I&S** Introduction to research into European topics and to the analysis of problems.

**EURO 495 Senior Seminar II (5) I&S** Writing and discussion of senior thesis. Prerequisite: EURO 494. Offered: Sp.

**EURO 496 Paris: Architecture and Urbanism (3-5, max. 5) I&S/VLPA** Spans the architectural history of Paris, from its Gallic, pre-roman origins in the 2nd century BCE through the work of 21st century architects. Focuses on changing patterns of the physical fabric of the city and its buildings, as seen within the context of the broader political, social, economic, and cultural history. Offered: jointly with ART H 494.

**EURO 499 Undergraduate Research (1-5, max. 15)**

## African Studies

**SISAF 399 Study Abroad: African Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific content varies. Courses do not automatically apply to major/minor requirements.

**SISAF 444 African Studies Seminar (5, max. 15) I&S** Interdisciplinary seminar focusing upon one particular aspect of the African continent. Emphasis may be humanistic, social scientific, or historical. African Studies faculty and visiting scholars lecture on areas of their own expertise.

**SISAF 490 Special Topics (1-5, max. 15) I&S**

**SISAF 499 Undergraduate Research (1-5, max. 15)**

## Asian Studies

**SISA 209 Asian Civilizations: Traditions (5) VLPA Porter** Interdisciplinary introduction to the civilizations of Asia, particularly those of India, China, Japan, and Korea. Explores the religion, philosophy, literature, art, and social and political thought of these civilizations from ancient times to the 17th century.

**SISA 210 Rise of Asia (5) I&S Anchoroguy, Bachman, Giebel, Sorensen** Key themes in the study of Asia, with focus on the present. Topics include: the notion of "Asia;" cultural and religious similarities and differences; comparison of colonial experiences under Western and Asian powers; World War II and liberation; postwar patterns of economic and political development; social patterns and issues. Offered: A.

**SISA 244 Imperialism and Anti-Colonialism in Asia (5) I&S Giebel** Introduction to Western

imperialism expansion, conquest, and colonial rule in Asia; the anti-colonial, nationalist resistances they engendered; and the resultant cultural, political, economic, and intellectual transformations in Asian societies. Covers post-1800 violence, racial hierarchies, human rights abuses, post-colonial memories, persistent strategies of domination, and structural inequities. Offered: jointly with HSTAS 244.

**SISA 245 Human Rights in Asia (5) I&S**  
*Callahan, Giebel* Introduction to recent and ongoing human rights issues in South, Southeast, and East Asia. Focuses on how human rights politics have played out in domestic political arenas. Provides exposure to views/insights into the historical context in which human rights claims, abuses, and debates arise. Offered: jointly with HSTAS 245.

**SISA 265 Globalization and the Transformation Economy and Society in Asia (5) I&S**  
*Hamilton* Examines the rapid and extensive social and economic development throughout Asia since the mid-20th century; the corresponding retail revolution in the American economy; the evolution of characteristic Asian product categories; and the impact of these developments on the social and economic organization of Asian economies. Offered: jointly with SOC 265.

**SISA 372 Asian Sustainable Development (5) I&S** Examines the contemporary relationship between environmental protection and development paths in Asia. Inquires into the forces driving both environmental change and societal responses (state and local regulations, social movements, etc.) to that change, at many geographical scales. Asian concepts of nature-society relations also explored. Offered: jointly with GEOG 372.

**SISA 399 Study Abroad: Asian Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISA 401 Asia and the World (5) I&S** *Bachman* Overview of major issues and developments in the interactions of Northeast and Southeast Asia and the world. Topics include economic development and integration, sources of instability, and historical patterns of relations. Particular focus on major current issues related to the region. : SIS 201, SISA 210.

**SISA 442 GLOBAL ASIA (5) I&S** *Welland* Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 442/WOMEN 446; W.

**SISA 490 Special Topics (1-5, max. 15) I&S**  
Content varies.

**SISA 499 Undergraduate Research (1-5, max. 15)**

**SISA 590 Special Topics (1-5, max. 10) I&S**  
Special topics in Asian Studies. Course content varies by instructor.

## Canadian Studies

**SISCA 308 Canada: A Geographic Interpretation (5) I&S** Examines the overlapping economic, cultural, and political geographies shaping life in contemporary Canada. Topics include: free trade, constitutional crisis, feminism in Canada, aboriginal politics, and border region phenomena. Attention paid to how specific geographic interpretations of Canada by Canadians actually play a part in national life. Offered: jointly with GEOG 308.

**SISCA 341 Government and Politics of Canada (5) I&S** Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered: jointly with POL S 341.

**SISCA 356 Canadian Society (5) I&S** Origins to the present in its North American setting; political development, cultural evolution, and emergence of multinationalism; economic base; arts and literature; problems of the environment; Canadian foreign relations.

**SISCA 377 History of Canada (5) I&S** General survey and analysis of political, economic, social, and cultural aspects of Canadian history from the foundation of New France to present; Canadian-American relations, the rise of Quebec nationalism, and the development of the Canadian West. Offered: jointly with HSTAA 377.

**SISCA 399 Study Abroad: Canadian Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISCA 400 Canadian Values and Symbols (5) I&S** Overview of the ideas, events, and activities which help define Canadians as a people. Examines the "national" expression of these values and symbols, as evidenced in historical experience, a physical environment often harsh and unyielding, a diverse people and cultures, and a pride in achievement that is frequently slow to surface.

**SISCA 430 Canadian Documentary Film Traditions (5) I&S/VLPA** History and development of non-fiction film documentary traditions, especially in Canada, the first institutionally defined area in which documentaries became prominent through the National Film Board and the Canadian Broadcasting Corporation. Discussion of Flaherty, Greison, and independent network producers who developed present-day style of documentaries. Offered: jointly with COM 430.

**SISCA 441 Quebecois Literature (5) VLPA**  
*Delcourt* Readings of novels, plays, and occasionally, poetry. Special attention paid to how Quebecois authors represent in their works the complex socio-political reality of their culture. Conducted in French. French majors required to read and write in French; all others may read and write in English. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307. Offered: jointly with FRENCH 441.

**SISCA 490 Special Topics (1-5, max. 15)**  
Content varies.

**SISCA 495 Multiculturalism in Canada (5) I&S**  
History of the multi-racial and multi-ethnic character of Canadian society. Impact of federal

policy of bilingualism and multiculturalism. Current issues of language rights, retention of cultural heritage, self-government for aboriginal peoples, and improving race and ethnic relations.

**SISCA 498 Seminar: Canadian Problems (5) I&S** Major issues pertaining to Canadian society, government, and economic development.

**SISCA 499 Undergraduate Research (1-5, max. 15) .**

**SISCA 507 Research Seminar: Canadian Problems (5, max. 10)** Consideration of the spatial dimensions of Canadian socioeconomic, cultural, and political development, with emphasis on resource potentials and relations with the United States, Japan, and other important trading partners. Prerequisite: GEOG 308 or permission of instructor. Offered: jointly with GEOG 507.

**SISCA 590 Special Topics (2-5, max. 10)**  
Offered occasionally by visitors or resident faculty. Course content varies.

**SISCA 600 Independent Study (\*)**

## Comparative Religion

**RELIG 201 Introduction to World Religions: Western Traditions (5) I&S** *Wellman* History of religions, concentrating on religious traditions that have developed west of the Indus. Primary attention to the Semitic religions (Judaism, Christianity, Islam) and to their ancient world background with emphasis on basic conceptual and symbolic structures.

**RELIG 202 Introduction to World Religions: Eastern Traditions (5) I&S** *Tokuno* History of religions, concentrating on religions that have developed in South Asia and East Asia. Primary attention to Hinduism and Buddhism; other important Asian religions are discussed in relation to them, with emphasis on basic conceptual and symbolic structures.

**RELIG 205 Religion, Violence, and Peace: Patterns Across Time and Tradition (5) I&S**  
*Noegel, Wellman* Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with HUM/NEAR E 205; W.

**RELIG 210 Introduction to Judaism (5) I&S**  
*Jaffee, Pianko* Basic ideas and motifs of Judaism: God, Covenant, Law, Life Cycle (birth, marriage, family life, sexual laws, role of women, death); Cycle of the Year (Sabbath, holidays, festivals); Holy Land, prayer, Messianism.

**RELIG 211 Islam (5) I&S/VLPA** Introduction to important cultural and historical aspects of Islam, focusing on basic concepts and developments such as prophethood, Quran and Hadith, canon and law, ritual, social theory, Sufism, theology, and sectarianism. Special attention to comparison of varied Muslim practices and beliefs, and their relation to textual and personal authority. Offered: jointly with NEAR E 211.

**RELIG 212 Introduction to the Quran (5) I&S/VLPA** Emphasis on the historical context of the

Quran, the history of the text, its collection, organization, and interpretation. In English. Offered: jointly with NEAR E 212.

**RELIG 220 Introduction to the New Testament (5) I&S/VLPA** *Williams* Modern scholarly methods of research and analysis in dealing with New Testament books and their interpretation. Genres of various books (gospel, epistle, sacred history, apocalypse); problems of the relationships among author, material, and intended audience; relationships between theme and image.

**RELIG 240 Introduction to the Hebrew Bible: Old Testament (5) I&S/VLPA** *Noegel* Examines the Hebrew Bible (Old Testament) in translation and its relationship with literatures of ancient Near East. Comparisons drawn between the biblical text and the literary works of Canaan, Egypt, Greece, and Mesopotamia. Emphasis on the sophisticated literary techniques employed by the biblical writers. Offered: jointly with NEAR E 240.

**RELIG 254 American Religions (5) I&S** *Wellman* Seeks to understand religious diversity in the American context and the varieties of religions in the American historical horizon including religious minorities, American Protestants, public religious expressions, and new American religions.

**RELIG 264 Sacred Music in the European Tradition (5) VLPA** Surveys European and American sacred music from the 12th to 20th centuries, examining the important role of music in religious worship. Considers the means composers used to make musical works sound the way they do to convey the messages of the texts through music. Offered: jointly with MUSIC 264.

**RELIG 301 Religious Thought Since the Middle Ages (5) I&S** Development of religious thought in the West from the Middle Ages to the twentieth century. History of focal ideas: God, man, knowledge, and authority during this period and the relation of changes in these ideas to the ways in which basic issues in religious thought have been conceived. Recommended: RELIG 201

**RELIG 307 Religion and World Politics (5)** *Gill* Explores the intersection of religion and politics in various regions of the world, including the U.S., Europe, Middle East, Latin America, and other regions. Presents a historical perspective on religion alongside contemporary issues in religion, politics, and church-state relations. Offered: jointly with POL S 307.

**RELIG 320 Comparative Study of Death (5) I&S** Death analyzed from a cross-cultural perspective. Topics include funerary practices, concepts of the soul and afterlife, cultural variations in grief, cemeteries as folk art, and medical and ethical issues in comparative context. American death practices compared to those of other cultures. Offered: jointly with ANTH 322.

**RELIG 321 Comparative Religion (3) I&S** Anthropological approaches to religious experience and belief with emphasis on conceptual issues such as ritual, symbolism, identify, ecstatic experience, and revitalization movements in the context of globalization. Also addresses the diversity of religious expression in American culture and how that compares with other societies. Offered: jointly with ANTH 321.

**RELIG 322 The Gospels and Jesus of Nazareth (5) I&S** *Williams* Gospel material from early Christianity, including both canonical and noncanonical gospels. Relation of gospels to analogous literature from the Hellenistic-Roman period. Recommended: ENGL 310 or RELIG 220.

**RELIG 324 The Emergence of Christianity (5) I&S** *Williams* Studies stages in the development of Christianity as a new religion, during the first to fifth centuries CE, as the classical forms and institutions of Christian "orthodoxy" gradually achieved definition, and as this emerging Christian tradition became a dominant cultural and socio-political force. Recommended: HIST 307, RELIG 201, or RELIG 220.

**RELIG 327 Eastern Christian Traditions (5) I&S** Eastern Christian traditions, with principal focus on Eastern Orthodox tradition in Byzantium and Russia from time of the Council of Nicea to the twentieth century. Considers significant differences between eastern and western Christianity and their doctrinal and cultural origins; explores distinctive features of eastern tradition. Recommended: HIST 307 or RELIG 201.

**RELIG 330 Religion, Identity, and Cultural Pluralism (5) I&S** The role of religion in shaping personal and communal identity in a pluralistic society. Themes include current dimensions of American pluralism, effects of ethnicity, immigration, and electronic communication on building religious communities, and issues of conflict, violence, and reconciliation. Offered: jointly with ANTH 330.

**RELIG 350 Buddhism and Society: The Theravada Buddhist Tradition in South and Southeast Asia (5) I&S** Religious tradition of Theravada Buddhism (as practiced in Sri Lanka, Burma, Thailand, Laos, and Cambodia). Variations in ethical orientations developed through Theravada Buddhist ideas. Recommended: RELIG 202 or one eastern religions course. Offered: jointly with ANTH 352.

**RELIG 352 Hinduism (5) I&S** *Novetzke, Pauwels* Varieties of Hindu religious practice; the diverse patterns of religious thought and action among contemporary Hindus. Includes ritual behavior, village Hinduism, tantrism, sadhus, yoga, sects, the major gods and their mythologies, religious art, and the adjustments of Hinduism to modernity. Recommended: RELIG 202 or one South Asian culture course.

**RELIG 354 Buddhism (5) I&S** *Cox, Tokuno* Buddhism as a religious way and as a way of thinking; the forms of Buddhism known in South Asia (India, Sri Lanka) and those introduced from there to Tibet and other parts of Central Asia. Includes the "Three Jewels" (i.e., the Buddha or Awakened Person, the Teaching [Dharma], and Community [Sangha]) around which Buddhism is traditionally articulated. Recommended: RELIG 202 or one Asian cultures course.

**RELIG 380 The Nature of Religion and Its Study (5) I&S** *Jaffee, Wellman* Study of religion as a general human phenomenon. Manner in which different methods of inquiry (phenomenology, anthropology, sociology, psychology, literary criticism, archaeology, philosophy, theology) illuminate different aspects of religion and help to shape our conceptions of its nature. Recommended: RELIG 201 or RELIG 202. Offered: jointly with CHID 380.

**RELIG 399 Study Abroad — Comparative Religion (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**RELIG 400 The Jewish Mystical Tradition (5) I&S** *Jaffee* Jewish esoteric thought from antiquity to early modern times. Emergence of Spanish Kabbalah. The thought of Isaac Luria and its immense influence in Jewish history through other movements—specifically the mystical messiah, Sabbetai Sevi, and the rise of Hasidism. Recommended: RELIG 201 or RELIG 210.

**RELIG 405 Scripture in Judaism (5) I&S** *Jaffee* Explores the phenomenon of religious interpretation of sacred books by attending to the destiny of the Bible as read within Judaism. Begins with the canonization of the biblical text itself and continues into the rationalist and mystical interpretive innovations of the Middle Ages. Recommended: HIST/SISJE 250, RELIG 201, or RELIG 210.

**RELIG 410 Law in Judaic Experience (5) I&S** *Jaffee* Place and function of law in Jewish social and personal experience. Discusses the various ideological justifications of the law in biblical and rabbinic literature, examines representative texts, and explores theological reflection on law by medieval and modern thinkers. Recommended: RELIG 201; RELIG 210; RELIG 400 or RELIG 405.

**RELIG 415 Modern Jewish Thought (5) I&S** *Jaffee, Pianko* Major trends in Jewish religious thought since the European Enlightenment, focusing on encounters between Judaism and the modern world. Includes Haskalah; varieties of religious reform and accommodation; Zionism; socialism; the philosophy of Rosenzweig, Buber, and Kaplan; and theological responses to the Holocaust. Recommended: HIST/SISJE 250, HSTEU/SISJE 469, RELIG 201, or RELIG 210.

**RELIG 420 The World of the Early Church (5) I&S** *Williams* Early Christian church within the context of the Greco-Roman sociopolitical, philosophical, and religious environment. Covers the period from about AD 100 to 300. Christian thinkers and documents studied include both the classical "orthodox" and the "heretical." Recommended: HIST 307, RELIG 220, or RELIG 324.

**RELIG 421 The Age of St. Augustine (5) I&S** Christian church in the fourth and fifth centuries as a major institution in the Roman Empire. Great figures of patristic theology, such as Athanasius, Gregory Nazianzus, Gregory of Nyssa, and Augustine. Recommended: HIST 307, RELIG 320, or RELIG 324.

**RELIG 426 Gnosticism and Early Christianity (5) I&S** *Williams* Impact of Gnosticism on the development of Christianity and several other religious groups of that period. Readings dating from the first through the third centuries AD.

**RELIG 428 Modern Christian Theology (5) I&S** Modern Protestant and Catholic thought since the nineteenth century: Kierkegaard, Barth, Bultmann, Rahner, Lonergan, and other major figures. Recommended: RELIG 301.

**RELIG 430 Scripture and Law in Islam (5) I&S/VLPA** Examines concept and use of scripture in Islam, with special attention to

issues of canon and commentary, heavenly books, talismanic uses, and the place of scripture in ritual. In English. Offered: jointly with NEAR E 430.

**RELIG 432 Ritual and Territory in Islam (5) I&S/VLPA** Comparative study of Islamic ritual practices and related development of jurisprudence and law. Focus on sacrifice, political and social legal theory, pilgrimage, regulation of the body, and the diversity of contemporary practices. In English. Offered: jointly with NEAR E 432.

**RELIG 433 Life of Prophet Muhammad (5) I&S/VLPA** Examines historical and religious traditions associated with the life of the Prophet Muhammad with particular attention to the biography in classical Islam. Focuses on Muhammad as prophet, holy man, law-giver, mystic, and statesman. Comparison with other religious figures such as Jesus and the Buddha. In English. Offered: jointly with NEAR E 433.

**RELIG 442 Art, Religion, and Politics in the Early Christian Period, 300-700 AD (3) I&S/VLPA** *Kartsonis* Evolution of the art of the early Christian period (300-700 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with ART H 452.

**RELIG 443 Art, Religion, and Politics in Byzantium, 700-1453 AD (3) I&S/VLPA** *Kartsonis* Evolution of the art of Byzantium (700-1453 AD) in the context of contemporary religious, political, and cultural developments. Recommended: some background in Byzantine art or history. Offered: jointly with ART H 453.

**RELIG 445 Greek and Roman Religion (3) I&S/VLPA** *Harmon* Religion in social life of Greeks and Romans; emphasis on their public rituals and festivals. Priesthoods, personal piety, rituals of purification and healing, and the conflict of religions in the early Roman Empire. Recommended: RELIG 201. Offered: jointly with CLAS 445.

**RELIG 452 Topics in the Buddhism of Tibet (3) I&S** Topics in the development of Buddhism of Tibet. Includes the relationship between reasoning and religious thought; the concept of a person; the formation of the different schools of Tibetan Buddhism; the notion of lineage; the master-disciple relationship in the tantric tradition. Recommended: ANTH 352, RELIG 202, RELIG 350, or RELIG 354.

**RELIG 454 Perceptions of the Feminine Divine in Hinduism (5) VLPA** *Pauwels* Explores implications of the perception of a feminine divine for gender issues in South Asia. Includes historical overview of goddess worship in South Asia, mythologies, philosophical systems, cults, and rituals associated with the major goddesses, the phenomena of suttee, goddess possession, and women's goddess rituals at the village level.

**RELIG 457 The History of Biblical Interpretation (3) I&S/VLPA** *Noegel* Traces biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a "hands-on" approach to the material and explores various hermeneutics by applying them in class. Offered: jointly with NEAR E 457.

**RELIG 460 Anti-Semitism As a Cultural System (5) I&S** *Jaffee* Comparative study of various anti-Semitic cultural systems from ancient to modern times. Topics include how anti-Semitism can be defined as a cultural phenomenon; the conditions that explain the circulation of anti-Semitic traditions in a given society; the conditions under which social conflict with Jews becomes anti-Semitism.

**RELIG 490 Special Topics (1-5, max. 15) I&S** Topics vary with each offering.

**RELIG 491 Seminar: Topics and Issues in Judaism (5) I&S** *Jaffee* Topics vary. Recommended: RELIG 210; RELIG 400, RELIG 405, or RELIG 410.

**RELIG 492 Seminar: Topics in Early Christianity (5) I&S** *Williams* Topics vary. Recommended: one early Christian history or literature course.

**RELIG 497 Field Archaeology (1-10, max. 20)** Professionally-guided archaeological fieldwork at a recognized archeological dig in the United States or abroad. Offered: S.

**RELIG 498 Honors Thesis (5) I&S** Required course for Comparative Religion honors students.

**RELIG 499 Undergraduate Research (1-5, max. 15)** Primarily for comparative religion majors and majors in the School of International Studies.

**RELIG 501 Approaches to the Study of Religion (5)** Major approaches employed by modern scholarship in the study of religion, including historical, phenomenological, anthropological, sociological, and psychological. Prerequisite: admission to the comparative religion MAIS program or permission of instructor.

**RELIG 502 Religion in Comparative Perspective (5, max. 15)** Analysis of selected theme or symbols in relation to several different religious traditions. Topics vary. Prerequisite: admission to the comparative religion MAIS program or permission of instructor.

**RELIG 504 Religion and Culture (5)** Study of the relations between religion and culture, with attention to the role of religion in defining conceptions of order and grounding socio-political and artistic traditions.

**RELIG 510 Colloquium in Comparative Religion (1, max. 6)** Required colloquium for graduate students in comparative religion program. Introduction to faculty research and to major methods and disciplines in the study of religion. Credit/no credit only.

**RELIG 520 Seminar On Early Christianity (5)** *Williams* Problems in the history and literature of early Christianity.

**RELIG 528 Christian Theology (5)** Study of exemplary figures in the history of Christian religious thought. Prerequisite: RELIG 428.

**RELIG 570 Religion and Literature (5)** The relation of religious thought to the study of imaginative literature. Includes both critical theory and practical criticism of exemplary texts.

**RELIG 580 Seminar in Hinduism Studies (5)** *Pauwels* Introduction to the academic study of Hinduism for graduate students. Examines major problems currently addressed in the academic study of Hinduism and the methods used. Provides a historical perspective on past scholarship. Offered: jointly with ASIAN 580.

**RELIG 590 Special Topics (2-5, max. 10)** Offered occasionally by visitors or resident faculty. Course content varies.

**RELIG 600 Independent Study or Research (\*)**

## East Asian Studies

**SISEA 212 History of Korean Civilization (5) I&S** From earliest times to present. Development of Korean society and culture in terms of government organization, social and economic change, literature, art. Offered: jointly with HSTAS 212.

**SISEA 213 The Korean Peninsula and World Politics (5) I&S** *Ha* Introduces Korean politics, economics, society, and international relations. Overviews the development in politics, economy, and society since the late nineteenth century. Addresses the evolution of Korea in the international society by comparing Korea experience with that of China and Japan. Offered: jointly with POL S 213.

**SISEA 236 Development and Challenge in Greater China (5) I&S** *Chan* Studies the geography of development processes, patterns, and problems in "Greater China": mainland China, Taiwan, and Hong Kong. Covers physical geography, history, and economic and political systems, with major focus on geographical issues in China's development: agriculture, population, industry and trade, and relations with Hong Kong and Taiwan. Offered: jointly with GEOG 236.

**SISEA 241 Japanese Civilization (5) I&S** Japan's civilization, including its origins, government, literature, economic institutions, material culture, social organization, and religions, in relation to the development of Japan as a society and nation. Cannot be taken for credit if SISEA 341 previously taken. Offered: jointly with HSTAS 241.

**SISEA 242 Introduction to Contemporary Japan (5) I&S** *R. Pekkanen* Interdisciplinary social science introduction to various aspects of contemporary Japan, such as its politics, economics, and society. Designed to be taken either as a first course on Japan for majors or as a single-course introduction to Japan., suitable for non-majors. No prior background on Japan is necessary.

**SISEA 370 Han Chinese Society and Culture (5) I&S** *Anagnost, Harrell* Themes in the society and culture of the Han Chinese people. Concepts of self; personal interaction; family, gender, and marriage; communities and the state; religion and ritual; class, social categories, and social mobility; culturalism, nationalism, and patriotism. Offered: jointly with ANTH 370.

**SISEA 399 Study Abroad: East Asian Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISEA 406 China's Environment (5) I&S** *Harrell* Analysis of contemporary environmental problems in China, including population, food, water supply, pollution, biodiversity, and environmental activism. Combines natural science and social science perspectives. Prerequisite: either ANTH 210, ENVIR 201, SIS 200, SIS 201, or SIS 202. Offered: jointly with ANTH 406.

**SISEA 407 Global Futures in East Asia (5) I&S** *Anagnost* Explores interlinked modernity projects in China, Japan, Korea, and Taiwan and how the education of youth figures in projects of national development and international economic competition. Recommended: prior courses in socio-cultural anthropology and East Asian studies. Offered: jointly with ANTH 407; AWSpS.

**SISEA 423 History of Modern Japan (5) I&S** *Pyle* Political, social, economic, and cultural development of Japan from the late Tokugawa period to the present with special emphasis on the cultural impact of the West. Offered: jointly with HSTAS 423.

**SISEA 424 Perspectives on East Asia for Teachers (3, max. 6) I&S** Substantive concepts, resources, and materials employed in teaching about East Asia. Requirements may vary in relation to the background of participants.

**SISEA 434 Demographic Issues in Asia (3-5) I&S** *Hirschman, Lavelly* Contemporary Asian countries face a number of issues with demographic components, including environmental and resource issues, ethnic rivalries, international migration, and public health. Addresses a set of these issues by focusing on the demography of one or more countries in Asia. Offered: jointly with SOC 434.

**SISEA 435 Japanese Government and Politics (5) I&S** *Hellmann* Government and politics of Japan with emphasis on the period since 1945. Offered: jointly with POL S 435.

**SISEA 436 Political Parties in Japan and East Asia (5) I&S** *R. Pekkanen* Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Recommended: either SISEA 242, SISEA 423, SISEA 440, or SISEA 442. Offered: jointly with POL S 429.

**SISEA 437 International Relations of Japan (5) I&S** *S. Pekkanen* Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Offered: jointly with POL S 424.

**SISEA 439 Politics of Divided Korea (5) I&S** Governments, politics, and economy of South and North Korea, the inter-Korea relations, and the two Koreas' relationship with the major powers — especially the United States — with emphasis on the post-cold war period. Offered: jointly with POL S 439.

**SISEA 440 The Emergence of Postwar Japan (5) I&S** *Pyle* The making of modern Japan; World War II and surrender; American occupation; postoccupation rebuilding; emergence as an industrial power. Recommended: HSTAS 423 or SISEA 423. Offered: jointly with HSTAS 424.

**SISEA 441 Economic and Social History of Japan to 1900 (5) I&S** Lecture-seminar on Japanese economic and social history from 700 to 1900. Analyses of the rise and decline of the shoen system, the rise of commerce, social change, changes in the living standard, demographic changes, and the early phases of industrialization. Political and cultural developments as related to economic and social change. Prerequisite: either SISEA 241/HSTAS 241 or SISEA 341/HSTAS 341. Offered: jointly with HSTAS 441.

**SISEA 442 Political Economy of Postwar Japan (5) I&S** *Anchoroguy* Political and economic problems of Japan since 1945. Utility of competing theoretical approaches to analysis of government and economy of Japan. Policy-making processes and effects of policies adopted. Some knowledge of postwar Japan desirable. Recommended: SISEA 440/HSTAS 424.

**SISEA 443 Class and Culture in East Asia (5) I&S** Examines the nexus between culture and systems of social stratification/class in East Asia, with an emphasis on Taiwan, Korea, Japan, and China. Topics include class formation, mechanisms of social mobility and reproduction, markers of status and hierarchy, resistance, and the formation of class identity. Offered: jointly with ANTH 446.

**SISEA 444 Politics of Representation in Modern China (5) I&S** *Anagnost* Focuses on issues of representation and power in twentieth century China. Combines substantive information on modern Chinese society and culture with recent debates in social theory and the politics of representation. Major themes include Chinese nationalism, body politics, popular culture, and everyday practice. Offered: jointly with ANTH 444.

**SISEA 445 Religion in China (5) I&S** *Tokuno* Religion in Chinese society, doctrines, practices, and social consequences of the eclectic folk religion, the elite Confucian, Taoist, and Buddhist traditions, syncretistic sects, and imported Christianity. Prerequisite: either one 200-level ANTH course, ANTH 370, ANTH 403, LING 203, HSTAS 211, HSTAS 454, RELIG 202, SISEA 370, or SISEA 443.

**SISEA 448 Modern Korean Society (5) I&S** *Sorensen* Social organization and values of twentieth-century Korea. Changes in family and kinship, gender relations, rural society, urban life, education, and industrial organization since 1900. Differences between North and South Korea since 1945. Recommended: HSTAS/SISEA 212. Offered: jointly with ANTH 448.

**SISEA 449 Government and Politics of China (5) I&S** *Bachman, Whiting* Post-1949 government and politics, with emphasis on problems of political change in modern China. Offered: jointly with POL S 442.

**SISEA 454 History of Modern China (5) I&S** *Dong* Social, cultural, political, economic, and intellectual transformations and continuities in China from the end of the imperial period to the present. Offered: jointly with HSTAS 454

**SISEA 456 Topics in Chinese Social History (5) I&S** *Ebrey, Guy* Surveys major issues and approaches to the study of the role of the Chinese people in China's historical development. Historical focus of course varies with instructor. Recommended: HSTAS 211, HSTAS

452, HSTAS 453, or HSTAS/SISEA 454. Offered: jointly with HSTAS 456.

**SISEA 459 United States-China Relations (5) I&S** *Bachman* Surveys the history of United States-China relations and examines the evolution of bilateral relations, particularly since 1949. Focus on the period since 1972 and the major issues as they have evolved since that time, including trade, human rights, security, and Taiwan. Offered: jointly with POL S 419.

**SISEA 460 Cities in China: Past and Present (5) I&S** *Dong* Economic, political, social, and cultural functions of the city in modern Chinese history. Changes in China's urban system. The city as cultural center and focus of literary and cinematic representation. Attention to architecture, commerce, urbanization, the role of capital cities in the power of the state. Offered: jointly with HSTAS 460.

**SISEA 462 China and Globalization (5) I&S** *Bachman* Examines the dynamics of the rise of China, its growing interactions with the international system and how it is in turn affected by the processes associated with globalization. Specific areas of examination include flows of resources, people, and information, and conceptions of Chinese identity. Prerequisite: SISA 210.

**SISEA 468 China's Economic Reforms: Integration into World Economy (5) I&S** A systematic survey of China's economic reforms since 1978, including China's increasing integration into world economy. Prerequisite: ECON 201. Offered: jointly with ECON 468.

**SISEA 469 Law, Development, and Transition in East Asia (5) I&S** *Whiting* Examines the role of law and the courts in economic and political change in the developing world. Topics include variations in legal traditions and institutions, economic development, property rights, dispute resolution, democratization, and human rights. Empirical materials focus on East Asia. Offered: jointly with LSJ 469/POL S 469.

**SISEA 470 Minority Peoples of China (5) I&S** *Harrell* Interaction between China and the peoples of its periphery, including Inner Asia, Tibet, Northern Mainland, Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state. Prerequisite: either ANTH/SISEA 370, HSTAS 454, LING 203, or one 200-level ANTH course. Offered: jointly with ANTH 470.

**SISEA 474 Civil Society in Japan and East Asia (5) I&S** *R. Pekkanen* Examines a wide range of nongovernmental organizations (NGOs) nonprofits, and voluntary groups under the unifying rubric of civil society. Theoretical introduction to civil society and ideas of social capital. Investigates general aspects of civil society, focusing on its specific characteristics in Japan and other parts of Asia.

**SISEA 475 Japanese Society (5) I&S** Discusses rapidly changing Japanese society and history of its unique aspects. Readings and lectures in sociology, anthropology, economics, and politics; emphasis on Japanese search for cultural identity and prevalent interpretations of Japanese society and behavior. Recommended: either SISEA 242

**SISEA 478 Readings in the Social Sciences in Japanese (3-5) I&S** Introduction to articles and

short works in economics, history, political science, and other social sciences. Assignments chosen from major Japanese monthlies and academic works. All readings in Japanese. Prerequisite: JAPAN 313.

**SISEA 479 Readings in the Social Sciences in Japanese (3-5) I&S** Introduction to articles and short works in economics, history, political science, and other social sciences. Assignments chosen from major Japanese monthlies and academic works. All readings in Japanese. Prerequisite: JAPAN 313.

**SISEA 480 New Orders in East Asia (5) I&S** *Pyle* Rise and fall of successive international systems in East Asia over the past 150 years: Sino-centric, imperialist, Washington Treaty system, Japan's East Asian order, Yalta system, cold-war system. Post-cold-war search for a new order. Special attention to triangular relations among the United States, China, and Japan.

**SISEA 481 Science, Technology, and Innovation Policies in East Asia (5) I&S** *Anchordoguy* Role of state and technological change in economic development. Analyzes state and corporate technology policies historically. Basic technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores whether conditions for its success will continue. Recommended: SISEA or SISA course. Offered: jointly with I BUS 461.

**SISEA 482 Japanese Business and Technology (5) I&S** *Anchordoguy* Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with I BUS 462.

**SISEA 486 Japanese Trade Politics (5) I&S R.** *Pekkanen* Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Offered: jointly with POL S 418.

**SISEA 490 Special Topics (1-5, max. 15) I&S** Course content varies.

**SISEA 494 Economy of Japan (5) I&S** Analysis of the economic growth of Japan since about 1850 to the present. The reasons for rapid industrialization, various effects of sustained economic growth, and significant contemporary issues are investigated. Prerequisite: ECON 201. Offered: jointly with ECON 494.

**SISEA 499 Undergraduate Research (1-5, max. 15)**

**SISEA 517 Foreign Trade and Investment Law of the People's Republic of China (1-4, max. 4)** Introduction to the regulatory regime governing foreign trade and investment in China and in-depth coverage of key aspects of the regime, with focus on issues faced by U.S. businesses. Covers specific regulations, their implementation in practice, as well as the political and economic background. Offered: jointly with LAW E 517.

**SISEA 521 Seminar: Introduction to the Interdisciplinary Study of China (5-)** *Bachman, Dong, Guy*

**SISEA 522 Seminar: Introduction to the Interdisciplinary Study of China (-5)** *Bachman, Dong, Guy*

**SISEA 526 The Security of China (5)** *Bachman* Examines how the Chinese state conceptualizes its national security interests and how it pursues strategies designed to achieve those interests. Topics include use of force, military modernization, civil-military relations, and defense industrialization. Offered: jointly with POL S 526.

**SISEA 531 Chinese History: Research Methods and Bibliographic Guides (3, max. 6)** *Guy* Introductory research seminar dealing with the methodological and bibliographical problems concerning all periods and aspects of Chinese history from the earliest times to the nineteenth century. Prerequisite: two years of classical or modern Chinese.

**SISEA 532 The Chinese Political System (5)** *Bachman, Whiting* Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Prerequisite: permission of instructor. Offered: jointly with POL S 532.

**SISEA 533 Seminar on Contemporary Chinese Politics (5)** Research on selected problems in contemporary Chinese politics. Prerequisite: SISEA 532 or permission of instructor. Offered: jointly with POL S 533.

**SISEA 535 International Relations of Modern China (5)** *Bachman* Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a course on contemporary Chinese politics or history, or permission of instructor. Offered: jointly with POL S 535.

**SISEA 536 Political Parties in Japan and East Asia (5) R.** *Pekkanen* Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Recommended: either SISEA 242, SISEA 423, SISEA 440, or SISEA 442.

**SISEA 537 International Relations in Japan (5) R.** *Pekkanen* Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Not open to students who have taken SISEA 437.

**SISEA 538 Selected Topics on the Chinese Economy (5)** Introduction to key issues of China's growth; the transition from planned economy; the changing role of the state; central-local relations; macro-management of the economy; income distribution; resources and agriculture; the external sector and the WTO.

**SISEA 540 Japanese Law (4)** *Taylor* Basic institutions and processes of the Japanese legal system. Historical development and traditional role of law, reception of Western law, and cultural and structural factors that influence the

function of law and legal institutions. Offered: jointly with LAW B 540.

**SISEA 541 Economic and Social History of Japan to 1900 (5)** Analyses of landholding systems, the rise of commerce, demographic changes, urbanization, early industrialization, and social change. Prerequisite: previous course work in Japanese history or economic history, or permission of instructor. Not open to students who have taken 441. Offered: jointly with HSTAS 541.

**SISEA 542 Political Economy of Post War Japan (5)** *Anchordoguy* Political and economic problems of Japan since 1945. Utility of competing theoretical approaches to analysis of government and economy of Japan. Policy-making processes and effects of policies adopted. Recommended: some knowledge of postwar Japan.

**SISEA 543 Law in East Asia: China (4)** Introduction to the institutions and processes of the Chinese legal system. Focuses on the contemporary system and its role in relation to political, economic and social developments. Examines legal aspects governing foreign trade and investment in China. Offered: jointly with LAW B 541.

**SISEA 548 National Security of Japan (5) S.** *Pekkanen* Focuses on the changing landscape of Japan's national security concerns-the actors, institutions, and circumstances that have brought issues of defense and rivalry to the center stage of Japanese politics. Topics include nationalism, militarization, pacifism, United States-Japan security alliance, Sino-Japanese competition, constitutional revision, collective defense, and spy satellites.

**SISEA 549 Government Regulation of Business in Japan (3)** Offered: jointly with LAW B 549.

**SISEA 550 Japan, the United States, and New Orders in Asia (5)** *Pyle* Seeks historical understanding of establishment of new order in contemporary East Asia. Analyzes the imperialist, Washington conference, and cold war systems and explores the present post-cold war search for a new order. Prerequisite: one course in modern Japanese history, political economy, or political science.

**SISEA 551 International Relations of Northeast Asia (5)** *Hellmann* Comprehensive survey of contemporary international relations of Northeast Asia with emphasis on Russia, Japan, China, and the United States. Multidisciplinary approach placing contemporary problems in historical context, drawing on modern social science theories. Connections between defense and economics are examined. Prerequisite: permission of instructor. Offered: jointly with POL S 539.

**SISEA 553 Chinese Legal Tradition (3)** Concepts and principles of the legal tradition in China. Draws on primary and secondary sources in English and, for students with Chinese language competence, traces the concept and development of Chinese law as well as legal institutions in Chinese society. Offered: jointly with LAW B 553.

**SISEA 555 Introduction to Japanese Studies (3-6, max. 6)** *Anchordoguy* Interdisciplinary introduction to the study of Japan, with emphasis on historical development. Required seminar for first-year graduate students.

**SISEA 558 Readings on Japan in the Social Sciences (5)** Seminar discussing articles in Japanese in economics, history, political science, and other social sciences. Assignments from major Japanese monthlies and academic works. Prerequisite: JAPAN 313 or equivalent and permission of instructor.

**SISEA 559 Interdisciplinary Seminar on Japan (5)** Advanced readings in history and the social sciences. Prerequisite: permission of instructor.

**SISEA 574 Civil Society in Japan and East Asia (5)** *R. Pekkanen* Examines a wide range of nongovernmental organizations (NGOs), nonprofits, and voluntary groups under the unifying rubric of civil society. Theoretical introduction to civil society and ideas of social capital. Investigates general aspects of civil society, focusing on its specific characteristics in Japan and other parts of Asia. Not open to students who have taken SISEA 474.

**SISEA 575 Seminar on Japanese Society (5)** Interdisciplinary seminar with class-led discussions on readings from anthropology, history, sociology, and nondiscipline-specific articles on Japanese society. Prerequisite: background on Japan. Not open to students who have taken SISEA 475.

**SISEA 577 Readings on Political Economy of Japan and Northeast Asia (5)** *Anchoroguy* Analysis of major issues in Japan and also in Korea and China, such as the state's role in industrial development, trade and investment in Asia, trade and security relations with the U.S., and Asian models of capitalism.

**SISEA 579 Modern Chinese History (5)** *Dong* Introduction to the major English-language literature on modern Chinese history and to the major historiographical issues of the period. Prerequisite: HSTAS 454 or equivalent, and permission of instructor. Offered: jointly with HSTAS 579.

**SISEA 581 Science, Technology, and Innovation Policies in East Asia (5)** *Anchoroguy* Role of state and technological change in economic development. Analyzes state and corporate policies historically. Technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores conditions for its successful continuation. Not open to undergraduates. Recommended: SISEA/SSIA course. Offered: jointly with I BUS 561.

**SISEA 582 Japanese Business and Technology (5)** *Anchoroguy* Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with I BUS 562.

**SISEA 584 Survey of Korean Society (5)** *Sorensen* Introduction to the social and political institutions of North and South Korea with an opportunity to master the most important literature on modern Korea. Focuses on the twentieth century with the major emphasis on the post-1945 period. Offered: A.

**SISEA 585 Research Seminar: Modern Korea (6)** *Nam, Sorensen* Advanced instruction in

problems and methods of research in Korean history. Foreign language not required. Prerequisite: permission of instructor.

**SISEA 586 Japanese Trade Politics (5)** *S. Pekkanen* Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Not open to students who have taken SISEA 486.

**SISEA 590 Special Topics (2-5, max. 10)** Seminar. Course content varies. Offered occasionally by visiting or resident faculty.

**SISEA 600 Independent Study or Research (\*)**

**SISEA 700 Master's Thesis (\*)**

## Jewish Studies

**SISJE 177 The Jewish Community in the United States: Success, Influence, and Prospects (5)** *I&S Burstein* Examines relationship between American society and its ethnic/religious groups through study of the American Jewish community. Focuses on economic success; challenges to religious traditions; relationships between American and Jewish cultures; and impact of Jewish ideas and organizations on American politics. Offered: jointly with SOC 177; S.

**SISJE 250 Introduction to Jewish Cultural History (5)** *I&S Jaffee* Introductory orientation to the settings in which Jews have marked out for themselves distinctive identities as a people, a culture, and as a religious community. Examines Jewish cultural history as a production of Jewish identity that is always produced in conversation with others in the non-Jewish world. Offered: jointly with HIST 250.

**SISJE 269 The Holocaust: History and Memory (5)** *I&S Ploger, Stein* Explores the Holocaust as crucial event of the twentieth century. Examines the origins of the Holocaust, perpetrators and victims, and efforts to come to terms with this genocide in Europe, Israel, and the United States. Offered: jointly with HIST 269.

**SISJE 312 Jewish Literature: Biblical to Modern (5)** *I&S/VLPA* A study of Jewish literature from Biblical narrative and rabbinic commentary to modern prose and poetry with intervening texts primarily organized around major themes: martyrdom and suffering, destruction and exile, messianism, Hasidism and Enlightenment, Yiddishism and Zionism. Various critical approaches; geographic and historic contexts. Offered: jointly with ENGL 312.

**SISJE 336 American Jewish History Since 1885 (5)** *I&S* Political, social, economic, religious history of American Jewish community from great eastern European migration to present. Integration of immigrant community into general American community; rise of nativism; development of American socialism; World War I and II; and reactions of American Jews to these events. Offered: jointly with HSTAA 336.

**SISJE 367 Medieval Jewish History (5)** *I&S Stacey* Social and intellectual history of the Jews in Western Europe to fifteenth century. Jews under Islam and Christianity; the church

and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with HSTAM 367.

**SISJE 368 Modern European Jewish History (5)** *I&S Stein* Surveys European Jewish history from the Spanish expulsion (1492) to World War I (1914). Considers diversity of European Jewries and the factors that cohered them. Examines how European Jewries ordered their lives, shaped gender and class norms, and interacted with the societies in which they lived. Offered: jointly with HSTEU 368.

**SISJE 369 The Jewish Twentieth Century in Film (5)** *I&S Stein* Surveys twentieth-century Jewish history in its European, American, and Middle Eastern contexts by examining films produced in these settings. Considers central events that shaped modern Jewish culture: the changing geography of Europe and the Middle East, mass migrations, the Holocaust, shifting meanings of race, culture, and religion. Offered: jointly with HIST 369.

**SISJE 377 The American Jewish Community (5)** *I&S Burstein* Development and current status of American Jewish community: immigration; changes in religious practice, institutions in response to circumstances in American Society; creation of new types of secular communal organizations; assimilation; confrontation with antisemitism; family life; social, economic mobility; religious, secular education; intermarriage, and future of community. Offered: jointly with SOC 377.

**SISJE 378 Contemporary Jewish American Identities (5)** *I&S Friedman* Introduction to the debates about post-Holocaust Jewish identities in multicultural America. Explores whether a distinctive Jewish community is headed toward assimilation, experiencing revival, or merely transforming the multiple ways Jewish experience is lived. Topics include new Jewish immigrants, the new Orthodox, Black Jews, Jewish feminism, children of Holocaust survivors. Offered: jointly with SOC 378.

**SISJE 399 Study Abroad — Jewish Studies (1-5, max. 15)** *I&S* For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISJE 418 Jewish Philosophy (5)** *I&S Rosenthal* Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period ? e.g., medieval or modern- or on a topic ? e.g., reactions to the Enlightenment or to the Holocaust. Prerequisite: at least one previous course in philosophy. Offered: jointly with PHIL 418.

**SISJE 438 Jewish Women in Contemporary America (5)** *I&S Friedman* Examines how Jewish women's identities are socially constructed and transformed in contemporary America, using social histories, memoirs, and ethnographies to analyze scholars' approaches to Jewish women's lives. Topics include the role of social class, religion, migration, the Holocaust, and race relations in Jewish women's lives. Offered: jointly with WOMEN 438.

**SISJE 452 The Biblical Song of Songs (3)** *VLPA Noegel* Examines the erotic and beautiful Song of Songs within the context of ancient (and medieval) Near Eastern love poetry and correlates close readings of the book with

various interpretations it has received from antiquity until today. No knowledge of Hebrew or the Bible is required. Offered: jointly with NEAR E 452.

**SISJE 453 The Biblical Prophets (3) VLPA I&S** *Noegel* Explores the biblical prophets (in translation) within their Near Eastern contexts. Studies them for their historicity, literary and rhetorical sophistication, and ideological agendas. This course seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible is required. Offered: jointly with NEAR E 453.

**SISJE 454 Israel: The First Six Centuries BCE (3) VLPA I&S** *Noegel* Traces the Israelites, from the Babylonian destruction of the Jerusalemite Temple (586 BCE) to events following the destruction of the second Temple (1st century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible is required. Offered: jointly with NEAR E 454.

**SISJE 455 The Kings of Monarchic Israel (3) VLPA I&S** *Noegel* Examines the biblical accounts (in translation) concerning the formation and collapse of the united Israelite monarchy. Investigates the archaeological and textual evidence for their historicity, the literary sophistication of these accounts, and Israelite kingship within the wider context of the ancient Near East. No knowledge of the Bible is required. Offered: jointly with NEAR E 455.

**SISJE 465 The Jews of Eastern Europe (5) I&S** Jewish society in Poland, Russia, the Habsburg Lands, and Romania from the late Middle Ages to the Holocaust. Offered: jointly with HSTEU 465.

**SISJE 466 The Sephardic Diaspora: 1492-Present (5) I&S** *Stein* Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with HSTEU 466.

**SISJE 469 Enlightenment, Emancipation, Antisemitism: History of the Jews, 1770-1914 (5) I&S** *Stein* The Jewish experience in the modern world from the European Enlightenment to the First World War. Focus on the debates surrounding Jewish emancipation, the reception of Jews within European society, modern antisemitism, nationalist movements, mass migration, and war. Offered: jointly with HSTEU 469.

**SISJE 490 Special Topics (1-5, max. 15) I&S** Content varies.

**SISJE 495 Seminar in Jewish Studies (5) I&S** *Jaffee* History of Jewish Studies as an organized field of academic inquiry. Explores the implications for Jewish Studies of its present setting within the context of the humanities and the social sciences.

**SISJE 497 Field Archaeology (1-10, max. 20)** Professionally-guided archaeological fieldwork at a recognized archeological dig in the United States or abroad. Offered: S.

**SISJE 499 Undergraduate Research (1-5, max. 15)**

## Latin American Studies

**SISLA 120 Introduction to Human Rights in Latin America (5) I&S** *Godoy* Overview of human rights issues and how they have evolved in recent Latin American history, from the military dictatorships of the authoritarian period to contemporary challenges faced in the region's democracies. Credit not allowed if LSJ 470/SIS 410 already taken.

**SISLA 322 International Political Economy of Latin America (5) I&S** Exploration of politics underlying Latin America's economic development. Topics covered include import-substituting industrialization, mercantilism, the debt crisis, neoliberalism, market integration, and poverty. Review of major theoretical perspectives such as modernization theory, dependency, and the new political economy. Offered: jointly with POL S 322.

**SISLA 342 Government and Politics of Latin America (5) I&S** Analysis of the political dynamics of change in Latin America comparing various national approaches to the political problems of modernization, economic development, and social change. Offered: jointly with POL S 342.

**SISLA 355 Social Change in Latin America (5) I&S** *Warren* Explores cultures, identities, political economy, and popular mobilization in Latin America. Examines relations of power and production between social classes and ethnic groups, as well as ideologies and intellectual movements. Offered: jointly with SOC 355.

**SISLA 399 Study Abroad: Latin American Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISLA 451 Cultural Geography of Latin America (5) I&S** Interdisciplinary senior seminar examining how physical and social geographies are culturally constructed and interconnected with subjectivities and power in Latin America. Topics include identity formation grounded in particular territories and the social constitution of space via an interplay of material and cultural forces. Offered: jointly with GEOG 451.

**SISLA 470 Latin American Studies Internship (1-5, max. 10)** Off-campus fieldwork with a community national, or international organization, in an apprenticeship or internship situation. Supervised by on-site field supervisor and Latin American Studies faculty member.

**SISLA 480 Labor and Popular Movements in Latin America (5) I&S** *Bergquist* Interdisciplinary approach to origins and trajectory of labor movement from late nineteenth century to present. Emphasis in contemporary period on popular movements, including neighborhood associations, religious base communities, women's movement, and ethnic mobilization for democratic social and political reform. Recommended: two non-language Latin American studies courses. Offered: jointly with HSTAA 480.

**SISLA 483 Technology and Culture in the Making of Contemporary Empires (5) I&S** *Benitez, Rodriguez-Silva* Explores struggles shaping organization of US empire in the early twentieth century, focusing on sites where empire's material, cultural, and ideological boundaries were drawn and contested. Includes

race, gender and class as colonial formation; technologies of imperial governance such as public health, citizenship, and territory. Offered: jointly with HIST 483; W.

**SISLA 486 Photography and Cultural Studies in Latin America (5) I&S/VLPA** *Steele* Interdisciplinary exploration of the connections between visual anthropology (ethnography through photography and film), documentary and art photography, and colonial and post-colonial discourse in Latin America during the twentieth century. Prerequisite: either SPAN 303 or SPAN 316; SPAN 322; one additional 300-level course beyond 303. Offered: jointly with SPAN 486.

**SISLA 489 The Mexico-U.S. Border in Literature and Film (5) I&S/VLPA** *Doremus, Steele* Analysis of the Mexico-U.S. Border region in literature and film of the 1990s and early 2000s. Includes migration, tourism, NGOs, globalization, transnational commerce, multiculturalism, and politics of gender, sexuality and race. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 321 or SPAN 322; one additional 300-level course above SPAN 303. Offered: jointly with SPAN 489.

**SISLA 490 Special Topics (1-5, max. 15) I&S** Content varies.

**SISLA 492 Latin American Studies Seminar (5, max. 15) I&S**

**SISLA 499 Undergraduate Research (1-5, max. 15)**

## International Studies (Middle Eastern Studies)

**SISME 210 Introduction to Islamic Civilization (5) I&S/VLPA** *De Young* Major developments in Islamic civilization from advent of Islam in seventh century to present. Islamic history, law, theology, and mysticism, as well as the politics, cultures, and literatures of the various Islamic societies. Offered: jointly with NEAR E 210.

**SISME 213 Introduction to the Modern Middle East (5) I&S** Major social and political trends in the Middle East during the 18th, 19th, and 20th centuries. Basic principles of Islam and its diversity, changing balance of power during the early modern period; European colonialism and withdrawal; pan-Arabism, nationalism, feminism and religious resurgence. Offered: jointly with NEAR E 213.

**SISME 399 Study Abroad: Middle Eastern Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISME 400 The Middle East in the Modern World (5) I&S** *Kasaba* Economic, political, and cultural ties between the Middle East and the modern world between the eighteenth century and the present. Particular attention to the transformation of societies, formation of modern states, the relationship between Islam and democracy, and gender and society in the Middle East.

**SISME 420 International Humanitarian Law (5) I&S** *Lorenz* Investigates International Humanitarian Law (sometimes called the Law of Armed Conflict), the field concerned with rules developed by civilized nations to protect the victims of armed conflict, including the Geneva Conventions. Case studies include the conflict

between Israel and the Palestinians, as well as developments in Afghanistan and Iraq.

**SISME 430 Economic Development of the Middle East (5) I&S** *Kasaba* Comparative examination of economic development in the Middle East. Includes population growth, agrarian change, industrialization, foreign trade, capital flows, and fiscal and monetary policies.

**SISME 432 The Middle East and the World Economy (5) I&S** *Kasaba* Early nineteenth century to the 1980s. Production and export of agricultural and raw materials, extension of loans and investments by Europeans, commercial exploitation and export of oil as major phases of economic interaction. These phases and their political repercussions; their significance and consequences.

**SISME 458 Israel: Politics and Society (5) I&S** *Migdal* Examines how parts of the mosaic of Israel's ethnic groups and religions have interacted over time to create today's society. Focus on politics, especially interaction of the state with the mosaic society. The religious divide; the Jewish ethnic divide; Palestinians in Israel; war and its effect on Israel; the long road to peace.

**SISME 490 Special Topics (1-5, max. 15) I&S**  
Content varies.

**SISME 495 Trends in the Contemporary Middle East (3) I&S** Perspectives on cultural, political, and other aspects of Middle Eastern societies. Focuses on background complexities rather than immediate political-military confrontations. Topics vary. Offered: jointly with NEAR E 495.

**SISME 499 Undergraduate Research (1-5, max. 15)**

**SISME 530 Reading Seminar on Middle East Studies (2)** Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no credit only.

**SISME 531 Reading Seminar on Middle East Studies (2)** Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no credit only.

**SISME 532 Reading Seminar on Middle East Studies (2)** Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no credit only.

**SISME 560 Seminar in Turkish Studies (2, max. 12)** Recent research and writings focused on the Ottoman Empire and modern Turkey. Credit /no credit only.

**SISME 590 Special Topics (3-5, max. 10)**  
Content varies.

**SISME 600 Independent Study or Research (\*)**

**SISME 700 Master's Thesis (\*)**

## Russian, East European, and Central Asian Studies

**SISRE 405 Peoples of Russia (5) I&S**  
Traditional cultural and social organizations of the various nationalities in Russia. Particular emphasis on peoples of Siberia. Role of traditional culture in shaping contemporary lifestyles in a multiethnic, diversified setting. Prerequisite: one 200-level ANTH course or LING 203. Offered: jointly with ANTH 405.

**SISRE 410 Writers and Intellectuals of Central Asia (3) I&S/VLPA** Covers modern native writers and intellectuals of Central Asia and compares them with writers educated before the revolution of 1917. Prerequisite: NEAR E/ SISRE 375.

**SISRE 418 Eastern Europe: the Political Economy of the Region (5) I&S** *Poznanski* Focus on the classical command-type economy and the most recent economic and political transition in Eastern Europe. Analysis of current institutional reform, privatization, and trade relations.

**SISRE 424 Security Affairs of Russia and Eurasia (5) I&S** *Jones* Surveys history of Soviet military and Soviet empire from 1917 to 1985, breakup of the USSR during 1985 to 1991, and the emergence of new security issues among those Eurasian states that formally constituted the national components of the USSR and its communist military allies.

**SISRE 425 Anthropology of the Post-Soviet States (5) I&S** *Bilaniuk* Analysis of Soviet and post-Soviet culture and identity. Historical transformations in Soviet approaches to ethnicity and nationality; contemporary processes of nationbuilding and interethnic conflict. Examination of culture through the intersection of social ritual, government policies, language, economic practices, and daily life. Regional focus will vary. Offered: jointly with ANTH 425.

**SISRE 443 Kievan and Muscovite Russia: 850-1700 (5) I&S** *Young* Development of Russia from earliest times to the reign of Peter the Great. Offered: jointly with HSTAM 443.

**SISRE 444 Imperial Russia: 1700-1900 (5) I&S** *Young* Development of Russia from Peter the Great to Nicholas II. Offered: jointly with HSTEU 444.

**SISRE 445 Politics and Society Eastern Europe (5) I&S** Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all communist states of Eastern Europe and their successors. Offered: jointly with POL S 445.

**SISRE 448 Twentieth-Century Russia (5) I&S** *Young* Russia and the USSR from Nicholas II to the present. Offered: jointly with HSTEU 445.

**SISRE 450 Survey of the Cultures of the Turkic Peoples of Central Asia (3) I&S/VLPA** Nomadic and sedentary cultures of the Turkic peoples of Central Asia. Emphasis on languages, literature, and adherence to traditional modes of life. Offered: jointly with NEAR E 450.

**SISRE 455 Marine Business Environment in Russia and Eastern Europe (3) I&S** *Kaczynski* International marine business environment of Russia and the maritime nations of East Europe;

their transition process from communist to free market economic systems. Covers aspects of doing business in marine-related fields such as shipping, fisheries, shipbuilding, ports, and land infrastructures, marine tourism, and water sports. Offered: jointly with SMA 455.

**SISRE 465 Baltic States Since 1991 (5) I&S** *Smidchens* Intensive interdisciplinary survey of social, political and economic developments in Estonia, Latvia, and Lithuania since 1991. Offered: jointly with SCAND 455.

**SISRE 479 Contemporary Central Asian Politics (5) I&S** *Radnitz* Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with POL S 479.

**SISRE 490 Special Topics (1-5, max. 15) I&S**  
Topics vary.

**SISRE 501 Bibliography and Research Methods (5)** Introduction to bibliographic and other scholarly resources in field; development of research techniques. Some use of relevant language required. Required of all first-year MAIS students.

**SISRE 502 Thesis Seminar I (2-)** *Mikkelsen* Review of research techniques: preparation for drafting master's thesis. Required of all second-year MAIS students. Credit/no credit only. Offered: A.

**SISRE 503 Thesis Seminar -II-(2)** *Mikkelsen* Seminar to complete draft of master's thesis. Some use of relevant language required. Required of all second-year MAIS students. Offered: W.

**SISRE 504 Approaches to East European Politics (3-5)** Selected concepts and methodologies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered: jointly with POL S 537.

**SISRE 505 Seminar: Problems of Social and Political Development in Eastern Europe (3-6, max. 6)** Research seminar dealing with selected problems of continuity and change in eastern Europe. Prerequisite: some previous course work on eastern Europe.

**SISRE 555 Comparative Marine Business in the North Pacific (3)** *Kaczynski* Strategies of Russian, Canadian, Japanese, and American enterprises and governments in promotion of marine business in the North Pacific. Socio-economic characteristics of the four powers; role of public and private sectors in foreign trade and investment; Russia's transition to free-market economic system; and business practices in the region. Offered: jointly with SMA 555.

**SISRE 579 Contemporary Central Asian Politics (5) I&S** *Radnitz* Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with POL S 579.

**SISRE 590 Special Topics (2-5, max. 10)**  
Course content varies. Offered occasionally by visitors or resident faculty.

**SISRE 600 Independent Study or Research (\*)**

**SISRE 700 Master's Thesis (\*)**

## South Asian Studies

**SISSA 200 South Asia Today (5) I&S** *Dhavan*  
Interdisciplinary introduction to the field of South Asian Studies. Overview of the topographic, social, and linguistic geography and history of India, Pakistan, Bangladesh, Sri Lanka, and Nepal. Examines politics, economy, social structure, religion, cultural production and the arts, popular culture, and transnationalism.

**SISSA 202 Introduction to South Asian History, 1500 - present (5) I&S**  
The Islamic impact, British conquest, and contemporary India. Emphasis on the rise of nationalism, social organization, and contemporary life and history. : jointly with HSTAS 202.

**SISSA 303 Divided Lands/Divided Lives: An Environmental History of South Asia (5) I&S**  
Focuses on the mobilization of South Asian tribal, peasant, and ethnic communities around ecological issues to secure social equity in the colonial and post-colonial period. Examines how the complex interactions of states and peoples have changed the ways in which nature itself is conceptualized. Offered: jointly with HSTAS 303.

**SISSA 316 Modern South Asia (5) I&S**  
Twentieth-century history and society of Indian subcontinent. Topics include nationalism, rural and urban life, popular culture gender and environmental politics. Offered: jointly with ANTH 316.

**SISSA 339 Social Movements in Contemporary India (5) Ramamurthy**  
Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with WOMEN 339/ANTH 339.

**SISSA 340 Government and Politics of South Asia (5) I&S** *Kale*  
Comparison of problems of national integration and political development in India, Pakistan, and Ceylon. Offered: jointly with POL S 340.

**SISSA 341 Political Violence and the Post-Colonial State in South Asia (5) I&S**  
Examines theoretical approaches to the analysis of collective, state, and anti-state violence in post-colonial South Asia through the study of specific cases of political violence in modern India, Pakistan, Sri Lanka, and Nepal. Offered: jointly with ANTH 341.

**SISSA 343 Comparative Geographies of Youth (5) I&S** *Jeffrey*  
Examines how three key global processes - rising levels of formal education, changing health regimes, and environmental transformation - are shaping youth in the US and South Asia. Examines ways young people rework broader structures, paying particular attention to their economic livelihoods, cultural practices, and political engagements. Offered: jointly with GEOG 343; A.

**SISSA 399 Study Abroad: South Asian Studies (1-5, max. 15) I&S**  
For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISSA 417 Political Economy of India (5) I&S**  
Analysis of relationships among processes of economic change, political institutions, and structures of political power in contemporary India. Includes contrasting approaches to Indian economic development, land reform, radical and agrarian political movements, and role of foreign aid. Offered: jointly with POL S 417.

**SISSA 434 International Relations of South Asia (5) I&S**  
Interrelationships of domestic, interstate, and extraregional forces and their effects upon the resolution or expansion of interstate conflicts in South Asia. Offered: jointly with POL S 434.

**SISSA 436 Social and Political Geographies of South Asia (5) I&S** *Jeffrey*  
Introduces the social and political geographies of South Asia through reference to agrarian change in India. Outlines key concepts related to the reproduction of inequality in the region, particularly theories of caste, class, gender, and religious communalism, and examines the mechanisms through which these inequalities are reproduced in South Asia. Offered: jointly with GEOG 436, Sp.

**SISSA 490 Special Topics (1-5, max. 15) I&S**  
Topics vary.

**SISSA 494 Ramayana in Comparative Perspective (5) VLP** *Pauwels*  
Examines and compares different versions (mainly South Asian) of the Ramayana, including the widely popular television version. Focuses on some famous and controversial passages, with special attention to gender issues. Incorporates background readings from the most recent research. Offered: jointly with ASIAN 494.

**SISSA 498 Undergraduate Colloquium on South Asia (5) I&S**  
Interrelationship of the various social science disciplines in the study of South Asian history and culture.

**SISSA 499 Undergraduate Research (1-5, max. 15)**

**SISSA 510 Interdisciplinary Study of South Asia I (5)**  
Examines key themes and debates about the development of South Asian cultural and political formations. Examines how different scholarly disciplines, particularly those in the humanities, have approved and analyzed the past in South Asia.

**SISSA 511 Interdisciplinary Study of South Asia II (5) Jeffrey, Kale**  
Examination of key themes and debates about the development of South Asian cultural and political formations. Examines how different scholarly disciplines, particularly those in the social sciences, analyze political transitions, social change, and cultural transformations in South Asia through the twentieth century. Offered: W.

**SISSA 512 South Asian Studies Research Design Seminar (5) Robinson**  
Interdisciplinary seminar for graduate students in which research and writing on individual research topics are critically developed. Designed to provide each student with an opportunity to synthesize his or her studies on South Asia. Prerequisite: SISSA

510; SISSA 511 or permission of graduate program coordinator.

**SISSA 536 Advanced Research Seminar on South Asian Geographies (5) Jeffrey**  
Examines geographies of social inequality in South Asia through reference to how space, place, and the environment are shaping practices of political struggle in the region. Considers how liberalization, democratization and religious communalization are changing the political geography of South Asia. Offered jointly with GEOG 536, Sp.

**SISSA 539 Social Movements in Contemporary India (5) Ramamurthy**  
Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with WOMEN 539/ANTH 539.

**SISSE 590 Special Topics (2-5, max. 10) Seminar.**  
Course content varies. Offered occasionally by visitors or resident faculty.

**SISSA 600 Independent Study or Research (\*)**

**SISSA 700 Master's Thesis (\*)**

## Southeast Asian Studies

**SISSE 221 History of Southeast Asia (5) I&S** *Giebel, Sears*  
Surveys Southeast Asian civilizations at the outset of Western colonial rule; the colonial impact on the traditional societies of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, and the Philippines; nineteenth- and twentieth-century nationalist and revolutionary movements; emergence of Southeast Asia as a region in the modern world. Offered: jointly with HSTAS 221.

**SISSE 265 The Viet Nam Wars (5) I&S** *Giebel*  
Recent Vietnamese history and struggles for independence and national unification *vis-a-vis* French colonialism, Japanese occupation, American intervention, and internal divisions. Covers historical roots and contemporary contexts of revolution and war, objectives and motivations of participants, and the enormous human costs. Emphasizes socio-cultural changes and wars' legacies. Offered: jointly with HSTAS 265.

**SISSE 314 Culture, Environment, and Identity in Island Southeast Asia (5) I&S** *Lowe*  
Anthropological study of colonial and post-colonial contexts of Island Southeast Asia. Emphasis on historical legacies, influence of world religions, formation of national and collective identities, revolution and national politics, and modernities. Prerequisite: either one 200-level ANTH course, LING 203, or one SIS course. Offered: jointly with ANTH 314.

**SISSE 315 Southeast Asian Civilization: Buddhist and Vietnamese (5) I&S**  
Civilizations of Theravada Buddhist societies in Burma, Thailand, Cambodia, and Laos and in Vietnamese societies of Southeast Asia. Culture of tribal peoples who live on peripheries of these societies. Cultural transformations consequent upon the war in Indochina and resettlement of Indochinese refugees in United States. Offered: jointly with ANTH 315.

**SISSE 343 Politics and Change in Southeast Asia (5) I&S** *Callahan*  
Government and politics in the countries of Southeast Asia, with attention

given to the nature of the social and economic environments that condition them. Offered: jointly with POL S 343.

**SISSE 364 Violence, Myth, and Memory (5) VLP/IA&S** *Sears* Explores how images and ideas of power, violence, and global modernity circulate in memories and discourses about US relations with Vietnam, the Philippines, and Indonesia. Topics include foundations myths, colonial and postcolonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with HSTAS 346; Sp.

**SISSE 367 Southeast Asian Activism and Social Engagement (5) I&S** *Rafael* Investigates how Southeast Asian activism is tied to the histories of political struggle within Southeast Asia and to questions of diasporic Asian American identity. Engages in group research projects exploring the meaning of social activism within local communities. Offered: jointly with HIST 367; Sp.

**SISSE 376 Violence, Myth, and Memory (5) VLP/IA&S** *Benitez, Sears* Explores how images and ideas of power, violence, and global modernity circulate in films and novels, memories and discourses about U.S. relations with Vietnam, the Philippines, and Indonesia. Topics include foundational myths, colonial and post-colonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with C LIT 376.

**SISSE 399 Study Abroad: Southeast Asian Studies (1-5, max. 15) I&S** For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

**SISSE 420 Southeast Asian Knowledge and the Politics of Information (5) I&S** *Henchy* Overview of information resources in and about Southeast Asia, including evaluation of those sources within various theoretical articulations (scholastic, cultural, and political). Pedagogical implications of the life cycle of information; critique of these implications from various theoretical and cultural viewpoints.

**SISSE 432 Technology and Culture in the Making of Contemporary Empires (5) I&S** *Benitez, Rodriguez-Silva* Explores the struggles that shaped organization of the U.S. empire at the turn of the 20<sup>th</sup> century, focusing on how empire's materials, cultural, and ideological boundaries were drawn. Topics include race, gender, and class as colonial formations; technologies of imperial governance such as public health, citizenship and territory; and popular culture. Offered: jointly with C LIT 432.

**SISSE 445 Literature and Society in Southeast Asia (5, max. 10) I&S/VLPA** Focus on either Vietnam or Thailand. Provides students with opportunity to explore how those living in Southeast Asia have reflected on the radical social changes their societies have undergone through novels, short stories, and poetry. Prerequisite: one 200-level ANTH course or LING 203. Offered: jointly with ANTH 445.

**SISSE 465 The Viet Nam Wars (5) I&S** *Giebel* Recent Vietnamese history and struggles for independence and national unification *vis-a-vis* French colonialism, Japanese occupation, American intervention, and internal divisions. Covers historical roots and contemporary contexts of revolution and war, objectives and

motivations of participants, and the enormous human costs. Emphasizes socio-cultural changes and wars' legacies. Offered: jointly with HSTAS 465.

**SISSE 466 Islam, Mysticism, Politics and Performance in Indonesian Culture (5) I&S/VLPA** *Sears* Shows how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influences from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with HSTAS 446.

**SISSE 468 Theatre as a Site of History and Memory (5) GE** *Sears* Explores Asian theatre traditions as sites of memory, testimony, and archive using ethnographic and historiographical approaches. Includes service-learning components and collaborative performance projects. Offered: jointly with HIST 468; Sp.

**SISSE 469 Topics in Southeast Asian History and Society (5) I&S** Introduces major issues within the history and culture of one country of Southeast Asia. Content varies. Topics may include religion, economics, colonialism, perspectives on gender, labor history, literatures, popular culture, and performing arts. Focuses on a different Southeast Asian country each time offered.

**SISSE 490 Special Topics in Southeast Asian Studies (1-5, max. 15) I&S** Content varies.

**SISSE 499 Undergraduate Research (1-5, max. 15)**

**SISSE 534 Indonesian Histories, Oral Traditions, and Archives (5)** Explores the inscription of Indonesian histories and stories. Focuses on oral traditions, oral testimonies, and archives. Investigates how oral and written testimonies enter historical archives. Explores theoretical work on literary and performance traditions as they relate to nationalism and Islam in Indonesia. Offered: jointly with HSTAS 534.

**SISSE 590 Special Topics (1-5, max. 10) Sears**

**SISSE 600 Independent Study or Research (\*)**

---

## Linguistics

### Linguistics

**LING 100 Fundamentals of Grammar (5) VLP/IA** Introduction to basic grammatical concepts and terminology. Specifically intended for students planning to take a foreign language or linguistics. Does not count toward the linguistics major or minor.

**LING 101 Fundamentals of Pronunciation for Language Learners (5) VLP/IA** *Kaisse* Fundamentals of pronunciation for language learners. Introduces students to systematic characteristics of language sounds through examination of specific languages and their differences from English. Includes a laboratory component developing perceptual and productive skills of non-English sounds.

**LING 200 Introduction to Linguistic Thought (5) I&S/VLPA, QSR** Language as the fundamental characteristic of the human species;

diversity and complexity of human languages; phonological and grammatical analysis; dimensions of language use; language and writing; impact of historical linguistics on contemporary theory. Not open for credit to students who have completed LING 201.

**LING 201 Introduction to Linguistic Theory and Analysis (5) I&S/VLPA, QSR** Background and scope of modern linguistics; behaviorist versus rationalist theories of language; universal and cognitive aspects of language structure; interplay of genetic and social factors in language formation; linguistic analysis. Not open for credit to students who have completed LING 200.

**LING 203 Introduction to Anthropological Linguistics (5) I&S/VLPA** *Hargus, Hunn, Palmer* Linguistic methods, theories used within anthropology. Basic structural features of language; human language and animal communication compared; evidence for the innate nature of language. Language and culture: linguistic relativism, ethnography of communication, sociolinguistics. Language and nationalism, language politics in the U.S. and elsewhere. Offered: jointly with ANTH 203.

**LING 220 Origins of the Germanic Languages (5) VLP/IA** *Barrack, Voyles* Introduction to basic grammatical concepts, terminology, and linguistics with emphasis on German-English relationship. Overview of phonology, morphology, syntax, and history of Germanic languages and people, both ancient and modern. Languages covered include Old, Middle, and New High German; English, Frisian, Dutch, Old Saxon, and Gothic. Taught in English. Offered: jointly with GERMAN 220; AWSpS.

**LING 242 Introduction to Meaning (5) VLP/IA** *Ogihara* Non-technical introduction to meaning in language and how it functions in communication and thinking. Discussion of how and why meanings of words change through time. Prerequisite: either LING 200, LING 201, ANTH/ LING 203, or LING 400.

**LING 270 Introduction to Perl Programming for Linguists (5) Bender** Fundamental programming techniques, including data types, control flow, regular expressions, file handling, GUI design, and CGI interaction. Content relates to a variety of linguistic concepts including syntax, morphology, phonology, lexicon building and foreign language corpora. No previous programming necessary; however, a background in general linguistic theory is assumed. Offered: W.

**LING 333 Linguistics and Society (3) I&S/VLPA** Interaction of language, culture, and society, and the relationship of linguistic theory to societal problems. Ethical and political considerations involved in the application of linguistic theory.

**LING 347 Psychology of Language I (5) I&S/VLPA** *Corina, Osterhout* Introduction to the study of language, including language structure, speech perception, language acquisition, psychological processes underlying comprehension and production of language, the relation between brain and language, and the question of the species-specificity of human language. Prerequisite: 2.0 in either PSYCH 209 or either LING 200 or LING 201. Offered: jointly with PSYCH 347.

**LING 372 Language and Translation (5) VLPA** *Tarlinskaja* Role of linguistic concepts in the process of translation from one language to another. Attention to both language universals and language particulars.

**LING 390 Foreign Studies in Linguistics (3-5, max. 10) I&S** For students who take linguistics courses while participating in a University of Washington study abroad program and for which there is no direct University of Washington equivalent.

**LING 400 Survey of Linguistic Method and Theory (5) I&S/VLPA, QSR** Examines major linguistic theories in phonology, syntax and semantics; linguistic analysis and argumentation. Not available for credit to students who have completed LING 200.

**LING 401 The Linguistic, Philosophical, and Political Thought of Noam Chomsky (3) I&S/VLPA** Relation of current work in Chomskyan linguistics to philosophical, psychological, political, and educational thought.

**LING 402 Survey of the History of Linguistics (3) I&S/VLPA** *Newmeyer* Main trends in linguistic theory and philosophy of linguistics from ancient times through advent of transformational-generative grammar. Includes nineteenth-century comparative and historical grammar, Prague school grammar, American structuralist grammar, major concerns of linguistics today. Prerequisite: LING 451.

**LING 403 Structure of American Sign Language (5) VLPA** *Hargus* Introduction to the phonological, morphological, and syntactic structure of American Sign Language. Topics include acquisition, sociolinguistics, neurolinguistics, lexicography, history, and culture. Knowledge of American Sign Language is not required. Prerequisite: LING 200, 201, 203, or 400.

**LING 404 Indo-European (3) VLPA** *Voyles* Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

**LING 405 Indo-European (3) VLPA** *Voyles* Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

**LING 406 Indo-European (3) VLPA** *Voyles* Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

**LING 407 Languages of the World (5) VLPA** *Brame, Klausenburger* A survey of the world's languages, focusing on their syntactic, phonological, and morphological properties. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 411 Native Languages and Language Families of Washington State (3) VLPA** *Hargus* Survey of linguistic structures of Washington native languages. Language families consist of Salish, Wakashan, Chemakuan, Athabaskan, Chinookan, Sahaptian, Cayuse. Structure and origin of Chinook jargon. Prerequisite: LING 450; either LING 461 or LING 481.

**LING 415 History of the German Language (5) VLPA** Traces the history of the German language from early Germanic to the present. Recommended: LING 200 and GERMAN 203 Offered: jointly with GERMAN 452.

**LING 419 The Development of the Italian Language (5) VLPA** Historical survey of Italian phonology, morphology, and syntax. Evolution of the language is illustrated with study of pertinent documents from various periods. Prerequisite: ITAL 303; either LING 400 or ROLING 401. Offered: jointly with ITAL 400.

**LING 432 Sociolinguistics I (5) I&S/VLPA** *Wassink* Social variation in the phonology, morphology, syntax, lexicon of languages and dialects. Nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: either LING 200 or LING 400; recommended: prior or concurrent registration in LING 450. Offered: jointly with ANTH 432.

**LING 433 Sociolinguistics II (5) I&S/VLPA** *Wassink* Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Offered: jointly with ANTH 433.

**LING 430 Pidgin and Creole Languages (5) VLPA/I&S** *Wassink* Explores aspects of the linguistic structure, history, and social context of pidgin and creole languages. Creolization as one possible outcome of language contact. Examines theories of creole genesis, similarities and differences between creole and non-creole languages. Prerequisite: either ANTH 203, LING 200, LING 201, LING 203, or LING 400. Offered: jointly with ANTH 439.

**LING 441 Linguistics and Poetic Language (3) VLPA** Introduction to the Relationship between linguistic structures, linguistic universals, and the poetic uses of language; linguistic description in the analysis of literature. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 442 Semantics I (5) NW/VLPA** *Ogihara* Introduction to the study of meaning as part of linguistic theory. Relation of semantics to syntax. Emphasis on formal semantics and pragmatics. Discussion of various semantic phenomena in natural language that are theoretically relevant. Prerequisite: LING 461, Syntax 1.

**LING 443 Philosophy and Linguistics (3) I&S/VLPA** Philosophical problems that arise in the attempt to understand current linguistic theories and the implications of linguistics for philosophy. Offered: jointly with PHIL 443.

**LING 445 Descriptive Aspects of English as a Foreign Language (3) VLPA** Linguistic analysis as a basis for the teaching of English as a

foreign language; language as rule-governed behavior. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 446 English Phonology (3) VLPA** *Hargus, Kaisse* Descriptively oriented approach to of English phonology and morphology; dialect differences. Prerequisite: LING 450.

**LING 447 Psychology of Language II (4) I&S/VLPA** *Corina, Osterhout* Psychological principles applied to linguistic development and organization; language in both its stimulus and response aspects. Prerequisite: 2.0 in either PSYCH 347, PSYCH 355, or LING 400. Offered: jointly with PSYCH 447.

**LING 449 Second-Language Learning (5) VLPA** *Herschensohn, Tarlinskaja* Issues related to the linguistic aspects of second-language learning. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 450 Introduction to Linguistic Phonetics (5) NW/VLPA** *Wright* Introduction to the articulatory and acoustic correlates of phonological features. Issues covered include the mapping of dynamic events to static representations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Prerequisite: either LING 200 or LING 400.

**LING 451 Phonology I (5) I&S/VLPA** *Hargus, Kaisse* Speech sounds, mechanism of their production, and structuring of sounds in languages; generative view of phonology; autosegmental and metrical phonology. Prerequisite: LING 450.

**LING 452 Phonology II (5) I&S/VLPA** *Hargus, Kaisse* Speech sounds, mechanism of their production, and structuring of sounds in languages; generative view of phonology; autosegmental and metrical phonology. Prerequisite: LING 451.

**LING 453 Experimental Phonetics (5) I&S/NW/VLPA** *Hargus, Kaisse* Examines phonetic and phonological aspects of spoken language using experimental methods. Focuses on acoustic phonetics and speech perception. Significant time devoted to experimental design and hands-on data analysis techniques. Prerequisite: LING 451.

**LING 454 Methods in Comparative Linguistics (3) VLPA** *Klausenburger, Shapiro, Voyles* Method and theory of historical and comparative linguistics. Problems of phonological, morphological, syntactic, and semantic change and reconstruction. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

**LING 455 Areal Linguistics (3, max. 6) I&S/VLPA** Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Processes such as borrowing, vocabulary specialization, lexical change, and language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 455.

**LING 457 Language Development (5) I&S/VLPA** First-language acquisition and use by children. Emphasis on theoretical issues and research techniques. Prerequisite: 2.0 in either

PSYCH 206, PSYCH 306, LING 200, or LING 400. Offered: jointly with PSYCH 457.

**LING 458 Language and Gender (5) I&S, VLPA Bilaniuk** Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with ANTH 450/WOMEN 450.

**LING 461 Syntax I (5) I&S/VLPA Brame, Contreras, Kim, Newmeyer, Zagona** Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: either LING 200 or LING 400.

**LING 462 Syntax II (5) I&S/VLPA Brame, Contreras, Kim, Newmeyer, Zagona** Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 461.

**LING 463 Syntax III (4) I&S/VLPA Brame, Contreras, Kim, Newmeyer** Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 462.

**LING 464 Language Politics and Cultural Identity (3) I&S/VLPA Bilaniuk** Theories and case studies of the power of language and how it is manipulated. Multilingualism, diglossia. Role of language and linguistics in nationalism. Standardization, educational policy, language and ethnicity. World languages, language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 464.

**LING 470 Discourse: Analyzing Talk and Texts (5) I&S/VLPA** A critical and practical introduction to contemporary theories/methods in discourse analysis: how verbal communication (together with visual communication) is used in conversational talk and mediated texts to construct identities and relationships; and how power and ideology are reproduced through these everyday social interactions. Offered: jointly with COM 470.

**LING 471 Computational Methods for Linguists (5) QSR** Overview of methods for working with linguistic data in electronic form: electronic corpora, linguistic software tools, textual data formats, operating system fundamentals, and basic programming. Prerequisite: either LING 450 or LING 461.

**LING 472 Introduction to Computational Linguistics (5) NW/VLPA Hoard** Introduction to computer applications of linguistic theory, including syntactic processing, semantic and pragmatic interpretation, and natural language generation. Prerequisite: either LING 200 or LING 400; either LING 461 or CSE 321. Offered: jointly with CSE 472.

**LING 473 Basics for Computational Linguistics (3)** Examines computer applications involving automatic processing of natural language speech or text by machines. Intended as preparation for CLMA core courses. Includes concepts from probability and statistics; formal grammars and languages; finite-state automata and transducers; review of algorithms and data structures; and software for using parallel server cluster. Prerequisite: CSE 326; STAT 391; programming in Perl, C, C++, Java, or Python. Offered: S.

**LING 476 Philosophy of Language (5) I&S/VLPA** Current theories of meaning, reference, predication, and related concepts. Offered: jointly with PHIL 453.

**LING 479 Semantics II (3) I&S/ NW/VLPA Oghara** Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Prerequisite: LING 442. Offered: jointly with PHIL 479.

**LING 480 Topics in Linguistics (3, max. 12) VLPA** Introduction to an area of linguistic study not covered by the regular departmental course offerings.

**LING 481 Introduction to Morphology (5) VLPA Brame, Hargus, Kaisse, Newmeyer** Structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisite: either LING 200 or LING 400.

**LING 484 Lexical Semantics and the Lexicon (3) VLPA Kim** Role of the lexicon in syntax and semantics. Topics include the syntax-lexicon mapping; theories of argument structure; complex predicate formation and lexical subordination; the lexicon and language acquisition; the role of the lexicon in linguistic theory; and the lexicon and sentence processing. Prerequisite: LING 461.

**LING 490 Undergraduate Fieldwork (1-3, max. 6)** Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Credit/no credit only. Offered: A/W/SpS.

**LING 499 Undergraduate Research (1-5, max. 10)** Credit/no credit only.

**LING 501 Field Methods (3)** Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

**LING 502 Field Methods (3)** Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

**LING 503 Field Methods (3)** Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 453, LING 462, or permission of instructor.

**LING 507 Syntactic Theory I (4)** Introduction to the principles and parameters model of syntactic theory. The lexicon and its relation to syntactic representations. Syntactic modules and principles. Problem solving.

**LING 508 Syntactic Theory II (4)** Further explorations in principles and parameters syntax. Topics include logical form, island phenomena, locality restrictions, and licensing. Prerequisite: LING 507 or permission of instructor. Offered: W.

**LING 509 Syntactic Theory III (4)** Focus on primary readings in syntactic theory, from classic papers on constraints and the architecture of grammar to recently published articles.

Prerequisite: LING 508 or permission of instructor. Offered: Sp.

**LING 514 Seminar in Comparative Linguistics (3) Kaisse** Nineteenth- and twentieth-century theories of phonological change. Prerequisite: LING 404 or permission of instructor.

**LING 515 Topics in the History of Germanic Languages (5) Barrack, Voyles** Topics in diachronic studies of Germanic languages such as Gothic, Old High German, Old Saxon.

**LING 519 Mathematical Models of Grammar (3) Brame, Oghara** Study of some mathematical models of language recognition, emphasizing context-free and context-sensitive grammars. Prerequisite: graduate standing in mathematics, linguistics, or psychology, or permission of instructor.

**LING 522 Topics in the History of Linguistics (3) Newmeyer** Intensive investigation of the main trends in the history of linguistics, concentrating on the development of nineteenth-century historical linguistics, the various schools of structural linguistics, and transformational-generative grammar. Prerequisite: LING 451.

**LING 524 Seminar in Theoretical Linguistics (4, max. 8)** Individual and joint research on selected topics in theoretical linguistics. Topics change each quarter. Typical topics are semantics, generative grammar, phonological theories. Prerequisite: LING 453, LING 463.

**LING 525 Seminar in Theoretical Phonology (4, max. 12)** Individual and joint research on selected topics in theoretical phonology. Topics vary. Typical offerings include phonology and the lexicon, syntax and phonology, phonological representations. Prerequisite: LING 452.

**LING 530 Dialectology (3)** The principles of dialect deviation as related to linguistic structure and usage. Prerequisite: LING 452, LING 462, LING 508, or permission of instructor. Offered: jointly with ANTH 530.

**LING 531 Problems in Romance Linguistics (2-5, max. 15)** Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator. Offered: jointly with ROLING 531.

**LING 533 Topics and Methods in Sociolinguistic Theory (5) Wassink** Study of urban dialects and contact-induced change. Language attitudes and syntactic variation. Field methods used in socially oriented studies of language variation and change. Sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432.

**LING 534 Sociolinguistic Applications of Social Network Theory (5) Wassink** Examines structure and content of social networks from a linguistic perspective. Reviews applications of graph theory and sociometry in sociolinguistics. Examines how language is embedded in personal networks and how the study of linkages between individuals can elucidate the regularity and direction of language change. Prerequisite: LING 400 and LING 432.

**LING 535 Advanced Sociolinguistics (5, max. 10) Wassink** Explores perspective on language change and its mechanisms, understood in relation to the social context of language use in the speech community. Examines language-

internal and ?external motivations for change; phonological mergers and splits, chain-shifts, and diffusion of change through the lexicon. Prerequisite: LING 432 and LING 533.

**LING 540 Phonological Development (3)** *Stoel-Gammon* Selected topics in the developmental sequence of phonological systems in normal-speaking children. Relationships between possible phonological inventories and rule systems in different languages. Prerequisite: LING 451, LING 452, or permission of instructor.

**LING 550 Advanced Phonology (2-3)** *Hargus, Kaisse* Problems in phonological theory, generative phonology, phonological change. Theories of prosody. Prerequisite: LING 452.

**LING 551 Phonology I: Introduction to Phonological Analysis (5)** *Hargus* Patterns of sounds and signs in human languages; morpheme alterations in generative phonology; autosegmental approach to tone; syllable structure. Prerequisite: LING 550. Offered: WSpS.

**LING 552 Phonology II: Advanced Phonology (5)** *Hargus* Optimality theory; phonetics-phonology interface. Prerequisite: LING 551.

**LING 553 Analysis of Linguistic Structures (3, max. 6)** Syntactic, semantic, and/or phonological analysis. Languages to be analyzed vary. Prerequisite: permission of instructor. Offered: jointly with ANTH 553.

**LING 554 Advanced Linguistic Phonetics (3, max. 9)** *Wright, Wassink* Individual and joint projects on selected topics in theoretical and experimental phonetics. Topics may include articulatory timing, the phonetics phonology interface, and constraints and constraint interaction. Prerequisite: LING 450 or LING 452. Offered: Sp.

**LING 561 Advanced Syntax (2-3, max. 9)** Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

**LING 562 Advanced Syntax (2-3, max. 9)** Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

**LING 563 Advanced Syntax (2-3, max. 9)** Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

**LING 565 Contrastive Linguistics (3)** The attempt to look across linguistic systems for comparable and contrastive classes and subclasses. Problems of subcategorization and universal grammar. Three conceptually distinct models: structural, transfer grammar, generative. Prerequisite: LING 452, LING 463.

**LING 566 Introduction to Syntax for Computational Linguistics (3)** *Bender* Introduction to syntactic analysis and concepts with emphasis on the formally precise encoding in linguistic hypotheses and the design of grammars that can be scaled to practical applications. Coursework progressively builds up a consistent grammar for a fragment of English, while also considering data and phenomena from other languages. Offered: A.

**LING 567 Knowledge Engineering for Deep Natural Language Processing (3)** *Bender* Techniques and theoretical issues relating to the development of knowledge engineering resources required for deep processing (symbolic or hybrid), focusing on grammar engineering and semantic representations.

**LING 570 Shallow Processing Techniques for Natural Language Processing (4)** Techniques and algorithms for associating relatively surface-level structures and information with natural language corpora, including POS tagging, morphological analysis, preprocessing/segmentation named-entity recognition, chunk parsing, and word-sense disambiguation. Examines linguistic resources that can be leveraged for these tasks (e.g., WordNet). Offered: A.

**LING 571 Deep Processing Techniques for Natural Language Processing (4)** Algorithms for associating deep or elaborated linguistic structures with naturally occurring linguistic data (parsing/semantics/discourse), and to produce natural language strings from input semantic representations (generation). Covers various techniques for disambiguation and machine translation. Offered: A.

**LING 572 Advanced Statistical Methods in Natural Language Processing (4)** Statistical approaches to applications such as machine translation, automated lexical acquisition (monolingual and bilingual), information retrieval, and question answering, with components including language modeling, alignment, and document clustering. Prerequisite: LING 570. Offered: W.

**LING 573 Natural Language Processing Systems and Applications (4)** Examines building coherent systems to handle practical applications. Particular topics vary. Possible topics include information retrieval/extraction, natural language query systems, dialogue systems, augmentative and alternative communications, computer-assisted language learning, language documentation, spell/grammar checking, and software localization. Prerequisite: LING 570, LING 571, LING 572. Offered: Sp.

**LING 575 Topics in Computational Linguistics (3, max. 15)** In-depth study of a particular area of computational linguistics, with hands-on experience. Prerequisite: LING 570 and 571, or permission of instructor. Offered: WSp.

**LING 579 Comparative Altaic Linguistics (3)** Comparative phonology and morphology of Mongolian, Turkic, and other Altaic languages. Prerequisite: permission of instructor. Offered: jointly with ALTAI 579.

**LING 580 Problems in Linguistics (2-4)** Advanced study in current theories of syntax, semantics, phonology, or morphology. Can be repeated for credit.

**LING 590 Graduate Fieldwork (1-10, max. 10)** Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Offered: AWSpS.

**LING 599 Linguistics Colloquium (1, max. 6)** Seminar attended by faculty and graduate students to discuss research in progress and topics of general interest. Presentation of two seminars required for doctoral students. Prerequisite: permission of instructor.

**LING 600 Independent Study or Research (\*)**

**LING 700 Master's Thesis (\*)**

**LING 800 Doctoral Dissertation (\*)**  
**American Sign Language**

**ASL 101 American Sign Language I (5)** Introduction to American Sign Language using conversational methods. Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Offered: A.

**ASL 102 American Sign Language II (5)** Focuses on building mastery of American Sign Language grammar skills, increasing vocabulary, and gaining a deeper knowledge and appreciation of deaf culture. Prerequisite: ASL 101. Offered: W.

**ASL 103 American Sign Language III (5)** Focuses on grammatical features such as spatialization, directionality, and non-manual components. Intensive work in vocabulary development and continued study of deaf culture. Prerequisite: AL 102. Offered: Sp.

**ASL 134 Intensive First Year ASL (15)** *Forshav* Intensive introduction to American Sign Language using conversational methods and covering vocabulary, grammatical usage, and culturally appropriate behavior. Also focused on grammatical features such as spatialization, directionality, and non-manual components. Offered: S.

**ASL 305 Deaf Studies (3) I&S** Introduces the language, culture, and community of Deaf people. Covers topics in Deaf history, education, sociology, language, legal issues, art and literature, organizations and services for the Deaf, technological devices, and the nature of Deafhood. Analyzes issues such as methods of Deaf education, biomedical ethics, and the social movements in Deaf community.

## French Linguistics

**FRLING 400 The Syntactic Structure of French (5) VLPA** Scientific study of the syntax of French: phrase structure and movement, with emphasis on passives, relatives, and interrogatives. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 401 The Morphological Structure of French (5) VLPA** *Klausenburger* Linguistic study of French morphology. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 402 The Phonological Structure of French (5) VLPA** *Klausenburger* The phonological component of the generative grammar of French: representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 403 Background of Modern French (5) VLPA** *Klausenburger* Linguistic analysis of the important developments in the history of the French language from its Latin origin to contemporary speech. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 405 Linguistics and the Teaching of French (5) VLPA Herschensohn** Areas of linguistics that can be particularly helpful to the French teacher. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

**FRLING 406 Advanced French Grammar (5) VLPA Herschensohn** Problems of French grammar. Differences between forms and structures of French and English. Problems of effective teaching of French. Prerequisite: FRENCH 303.

**FRLING 409 The Phonetics of French (5) VLPA Klausenburger** Scientific study of the French sound system with special emphasis on "lower level" phonetic rules. Focus on data from standard French as well as socioeconomic and geographic variations. Prerequisite: either FRENCH 203, FRENCH 223, or FRENCH 234; either LING 200 or LING 400.

## Romance Linguistics

**ROLING 402 Historical Romance Linguistics (5) VLPA Klausenburger** Comparative historical survey of the development of the principal Romance tongues. Prerequisite: LING 400.

**ROLING 490 Senior Essay (2) VLPA** Essay on linguistic problem of student's choice written with faculty consultant.

**ROLING 505 Advanced Romance Linguistics (5) Klausenburger, Zagona** Advanced problems in the phonological, morphological, and syntactical analysis of the Romance languages. Descriptive, comparative, and historical considerations. Prerequisite: permission of instructor.

**ROLING 506 Advanced Romance Linguistics (5) Klausenburger, Zagona** Advanced problems in the phonological, morphological, and syntactical analysis of the Romance languages. Descriptive, comparative, and historical considerations. Prerequisite: permission of instructor.

**ROLING 518 Foreign Language Teaching Methodology (2) Brandl** Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology.

**ROLING 521 Seminar in Romance Linguistics (5) Contreras, Klausenburger, Zagona** Specific problems in linguistic analysis of the Romance languages. Prerequisite: permission of instructor.

**ROLING 522 Seminar in Romance Linguistics (5) Contreras, Klausenburger, Zagona** Specific problems in linguistic analysis of the Romance languages. Prerequisite: permission of instructor.

**ROLING 531 Problems in Romance Linguistics (2-5, max. 15)** Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator. Offered: jointly with LING 531.

**ROLING 551 Romance Linguistics: History, Methodology, and Bibliography (5)** For new graduate students in the Romance linguistics program. History of Romance linguistics and linguistic science in the nineteenth and twentieth centuries as it relates to Romance studies.

Comparative and descriptive methods used in contemporary scholarship. Prerequisite: LING 200, LING 400, or equivalent.

**ROLING 600 Independent Study or Research (\*)**

## Spanish Linguistics

**SPLING 400 The Syntactic Structure of Spanish (5) VLPA Strozer, Zagona** Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 400.

**SPLING 401 The Morphological Structure of Spanish (5) VLPA Strozer, Zagona** Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 401.

**SPLING 402 The Phonological Structure of Spanish (5) VLPA Strozer, Zagona** Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 402.

**SPLING 403 The Evolution of the Spanish Language (5) VLPA Zagona** Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 403.

**SPLING 404 Dialects of World Spanish (5)** Introduction to dialectal variants of Spanish. Considers standardization and the real academia; variation and change; pragmatics and politeness; Spanish in contact; sound, word formation, and grammar variation. Taught in Spanish. Prerequisite: either SPAN 301 or SPAN 314; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 404.

**SPLING 405 Spanish Phonetics (5) VLPA** Analysis of sounds: training in pronunciation, intonation, and close transcription of Spanish language in its modalities. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, LING 201, LING 203, LING 400, or SPAN 323. Offered: jointly with SPAN 405.

**SPLING 406 Advanced Spanish Grammar (5) VLPA Basdeo, Diaz** Problems of Spanish grammar. Differences from English grammar. Techniques for the effective teaching of Spanish. Prerequisite: either SPAN 303, SPAN 316 or 330; SPAN 323. Offered: jointly with SPAN 406; AWSp.

## Mathematics

**MATH 098 Intermediate Algebra (0)** Intermediate algebra equivalent to third semester of high school algebra. Includes linear equations and models, linear systems in two variables, quadratic equations, completing the square, graphing parabolas, inequalities, working with roots and radicals, distance formula, functions and graphs, exponential and logarithmic functions. Instruction provided by community colleges on UW campus. Extra fee required. Offered: AWSp.

**MATH 100 Algebra (5)** Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Offered: AWSp.

**MATH 102 Algebra (5)** Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Offered: AWSp.

**MATH 103 Introduction to Elementary Functions (5)** Continues the study of algebra begun in 100 and 102 with emphasis on functions (polynomial, rational, logarithmic, exponential, and trigonometric). Open only to students who have completed 102. Prerequisite: either score of 26-56% on MATHEA placement test or MATH 102. Offered: AWSp.

**MATH 107 Mathematics: A Practical Art (5) NW, QSR** For students who have at least 1.5 years of high school algebra and do not plan to take additional mathematics. The exponential function; how it applies to a wide variety of phenomena. Elementary probability and statistics; their use in a variety of applications. Offered: WSp.

**MATH 111 Algebra with Applications (5) NW, QSR** Use of graphs and algebraic functions as found in business and economics. Algebraic and graphical manipulations to solve problems. Exponential and logarithm functions; various applications to growth of money. Prerequisite: either 2.0 in MATH 098, 2.0 in MATH 102, 2.0 in MATH 103, score of 49% on MATHIA placement test, score of 35% on MATHPC placement test, or score of 56% on MATHEA placement test. Offered: AWS.

**MATH 112 Application of Calculus to Business and Economics (5) NW, QSR** Rates of change, tangent, derivative, accumulation, area, integrals in specific contexts, particularly economics. Techniques of differentiation and integration. Application to problem solving. Optimization. Credit does not apply toward a mathematics major. Prerequisite: 2.0 in MATH 111. Offered: WSpS.

**MATH 120 Precalculus (5) NW** Basic properties of functions, graphs; with emphasis on linear, quadratic, trigonometric, exponential functions and their inverses. Emphasis on multi-step problem solving. Prerequisite: either 2.5 in MATH 098, 3.0 in MATH 103, score of 60% on MATHIA test, score of 40% on MATHPC test, or score of 77% on MATHEA placement test. Offered: AWSpS.

**MATH 124 Calculus with Analytic Geometry I (5) NW, QSR** First quarter in calculus of

functions of a single variable. Emphasizes differential calculus. Emphasizes applications and problem solving using the tools of calculus. Prerequisite: 2.5 in MATH 120, score of 68% on MATHPC placement test, score of 75% on MATHEC placement test, or score of 2 on AP test. Offered: AWSpS.

**MATH 125 Calculus with Analytic Geometry II (5) NW** Second quarter in the calculus of functions of a single variable. Emphasizes integral calculus. Emphasizes applications and problem solving using the tools of calculus. Prerequisite: either 2.0 in MATH 124, score of 3 on AB advanced placement test, or score of 3 on BC advanced placement test. Offered: AWSpS.

**MATH 126 Calculus with Analytic Geometry III (5) NW** Third quarter in calculus sequence. Introduction to Taylor polynomials and Taylor series, vector geometry in three dimensions, introduction to multivariable differential calculus, double integrals in Cartesian and polar coordinates. Prerequisite: either 2.0 in MATH 125, 2.0 in MATH 145, 2.0 in MATH 146, score of 5 on AB advanced placement test, or score of 4 on BC advanced placement test. Offered: AWSpS.

**MATH 134 Accelerated [Honors] Calculus (5) NW, QSR** Covers the material of 124, 125, 126; 307, 308, 318. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for 124 after taking 134. For students with above average preparation, interest, and ability in mathematics. Offered: A.

**MATH 135 Accelerated [Honors] Calculus (5) NW** Covers the material of 124, 125, 126; 307, 308, 318. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for 125 after taking 135. For students with above average preparation, interest, and ability in mathematics. Offered: W.

**MATH 136 Accelerated [Honors] Calculus (5) NW** Covers the material of 124, 125, 126; 307, 308, 318. First year of a two-year accelerated sequence. May not receive credit for both 126 and 136. For students with above average preparation, interest, and ability in mathematics. Offered: Sp.

**MATH 144 Calculus for Life Sciences (5) NW, QSR** *Curtis, Smith, Tuncel* Introduction discrete probability, with examples from the life sciences. Exponential and logarithmic functions: exponential growth and decay. Prerequisite: either 2.5 in MATH 120, score of 68% on MATHPC placement test, score of 75% on MATHEC placement test, or score of 2 on advanced placement test.

**MATH 145 Calculus for Life Sciences (5) NW, QSR** *Curtis, Smith, Tuncel* Differential and integral calculus, with examples from the life sciences. Applications of the derivative to curve sketching; min/max problems. Antiderivatives and the fundamental theorem of calculus with applications. Continuous probability distributions; Normal and Poisson distribution Prerequisite: either 2.0 in MATH 124, 2.0 in MATH 144, 3.2 in MATH 120, score of 75% on MATH PC placement test, or score of 3 on advanced placement test.

**MATH 146 Calculus for Life Sciences (5) NW** *Curtis, Smith, Tuncel* Further applications of integration; elementary differential equations, with examples from the life sciences. Growth

models; Leslie matrices; compartment models. Prerequisite: either 2.0 in MATH 125 or 2.0 in MATH 145.

**MATH 170 Mathematics for Elementary School Teachers (3) NW** Basic concepts of numbers and operations. Emphasizes problem solving, communication of mathematical ideas, and analysis of sources of difficulty in learning/teaching these concepts. Credit may not apply toward a mathematics major. Required for elementary education students. Credit/no credit only. Offered: AWS.

**MATH 171 Mathematics for Elementary School Teachers (3) NW** Basic concepts of geometry. Emphasizes problem solving, communication of mathematical ideas, and analysis of sources of difficulty in learning/teaching these concepts. Credit may not apply toward a mathematics major. Credit/no credit only. Offered: Sp.

**MATH 187 Elementary Mathematics Computer Laboratory (1, max. 3) NW** Laboratory activities designed to introduce computing as a tool for doing mathematics, to be taken jointly with a designated section of a 100-level mathematics course. Credit/no credit only. Offered: AWSp.

**MATH 197 Problem Solving in Mathematics (2, max. 4) NW** Lectures and problem sessions in mathematics with applications. Enrollment restricted to EOP students only. Credit/no credit only. Offered: AWSp.

**MATH 198 Special Topics in Mathematics (1-5, max. 15)** Independent reading in math. Does not count as credit toward a math major. Credit/no credit only. Offered: AWSpS.

**MATH 301 Elementary Number Theory (3) NW** Brief introduction to some of the fundamental ideas of elementary number theory. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 136.

**MATH 307 Introduction to Differential Equations (3) NW** Introductory course in ordinary differential equations. Includes first- and second-order equations and Laplace transform. Prerequisite: either 2.0 in MATH 125 or 2.0 in MATH 145. Offered: AWSpS.

**MATH 308 Matrix Algebra with Applications (3) NW** Systems of linear equations, vector spaces, matrices, subspaces, orthogonality, least squares, eigenvalues, eigenvectors, applications. For students in engineering, mathematics, and the sciences. Credit allowed for only one of MATH 308 or MATH 318. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 146. Offered: AWSpS.

**MATH 309 Linear Analysis (3) NW** First order systems of linear differential equations, Fourier series and partial differential equations, and the phase plane. Prerequisite: either 2.0 in MATH 307 and 2.0 in MATH 308, or 2.0 in MATH 307 and MATH 318, or 2.0 in MATH 136. Offered: AWSpS.

**MATH 318 Linear Algebra (3) NW** Introduction to the mathematical concepts, arguments, and proofs that occur in linear algebra. Vectors and matrices, systems of linear equations, determinants, subspaces, dimension, bases, linear transformations, eigenvalues and eigenvectors. Credit allowed for only one of MATH 308 or MATH 318. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 146; 2.0 in MATH 310.

**MATH 324 Advanced Multivariable Calculus I (3) NW** Topics include double and triple integrals, the chain rule, vector fields, line and surface integrals. Culminates in the theorems of Green and Stokes, along with the Divergence Theorem. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 136. Offered: AWSpS.

**MATH 326 Advanced Multivariable Calculus II (3) NW** Elementary topology, general theorems on partial differentiation, maxima and minima, differentials, Lagrange multipliers, implicit function theorem, inverse function theorem and transformations, change of variables formula. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 318; 2.0 in MATH 324. Offered: AWSp.

**MATH 327 Introductory Real Analysis I (3) NW** Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on continuous functions, theory of the Riemann integral. Prerequisite: either both 2.0 in MATH 126 and 2.0 in MATH 300, or 2.0 in MATH 136. Offered: AWSpS.

**MATH 328 Introductory Real Analysis II (3) NW** Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on continuous functions, theory of the Riemann integral. Prerequisite: 2.0 in MATH 327. Offered: AWSp.

**MATH 334 Accelerated [Honors] Advanced Calculus (5) NW** Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 309, 310, 324, 326, 327, 328, and 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: either 2.0 in MATH 136, or 2.0 in MATH 126; 2.0 in MATH 307; either 2.0 in MATH 205, 2.0 in MATH 308, or 2.0 in MATH 318. Offered: A.

**MATH 335 Accelerated [Honors] Advanced Calculus (5) NW** Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take 309, 324, 326, 327, 328, and 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: 2.0 in MATH 334. Offered: AWSp.

**MATH 336 Accelerated [Honors] Advanced Calculus (5) NW** Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take 309, 324, 326, 327, 328, and 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: 2.0 in MATH 335. Offered: Sp.

**MATH 354 Math Enrichment for the Schools (5) NW** Map and graph coloring, spanning trees, dominating sets, cryptography, interpretation of graphs, circular motion, statistics that mislead, other topics. Focus on middle school level, with sixth or seventh grade classroom visits every week. Discussion of readings on math education reform. Prerequisite: MATH 126. Offered: A.

**MATH 355 Math Enrichment for the Schools (5) NW** Map and graph coloring, spanning trees, dominating sets, cryptography, interpretation of graphs, circular motion, statistics that mislead, other topics. Focus on middle school level, with sixth or seventh grade classroom visits lasting all Tuesday morning in alternate weeks. Discussion of readings on math education reform. Prerequisite: MATH 354. Offered: W.

**MATH 381 Discrete Mathematical Modeling (3) NW** Introduction to methods of discrete mathematics, including topics from graph theory, network flows, and combinatorics. Emphasis on these tools to formulate models and solve problems arising in variety of applications, such as computer science, biology, and management science. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 318.

**MATH 387 Intermediate Mathematics Computer Laboratory (1-2, max. 6) NW** Laboratory activities in the use of computing as tool for doing mathematics, to be taken jointly with a designated section of a 300-level mathematics course. Credit/no credit only.

**MATH 390 Probability and Statistics in Engineering and Science (4) NW** Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may receive credit for only one of 390, STAT/ECON 481, and ECON 580. Prerequisite: either MATH 126 or MATH 136. Offered: jointly with STAT 390; AWSpS.

**MATH 394 Probability I (3) NW** Sample spaces; basic axioms of probability; combinatorial probability; conditional probability and independence; binomial, Poisson, and normal distributions. Prerequisite: either 2.0 in MATH 126 or 2.0 in MATH 136; recommended: MATH 324 or MATH 327. Offered: jointly with STAT 394; AWS.

**MATH 395 Probability II (3) NW** Random variables; expectation and variance; laws of large numbers; normal approximation and other limit theorems; multidimensional distributions and transformations. Prerequisite: 2.0 in STAT/MATH 394. Offered: jointly with STAT 395; WSpS.

**MATH 396 Probability III (3) NW** Characteristic functions and generating functions; recurrent events and renewal theory; random walk. Prerequisite: 2.0 in MATH 395 or 2.0 in STAT 511. Offered: jointly with STAT 396; Sp.

**MATH 398 Special Topics in Mathematics (1-5, max. 15)** Independent reading in math. Does not count as credit toward a math major. Credit/no credit only. Offered: AWSpS.

**MATH 402 Introduction to Modern Algebra (3) NW** Elementary theory of groups: Cosets and Lagrange's theorem. Homomorphisms, normal subgroups, quotient groups, and the fundamental isomorphism theorems. Cyclic and symmetric groups. Orders and Cauchy's theorem. Direct products. Automorphisms. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 327, 2.0 in MATH 336, or 2.0 in MATH 340. Offered: AS.

**MATH 403 Introduction to Modern Algebra (3) NW** Elementary theory of rings and fields: polynomial rings. Ideals, homomorphisms, quotients, and fundamental isomorphism theorems. Fields and maximal ideals. Euclidean

rings. Field extensions. Algebraic extensions. Vector spaces and degrees of extensions. Adjoining roots of polynomials. Finite fields. Straight edge and compass constructions. Prerequisite: 2.0 in MATH 402. Offered: W.

**MATH 404 Introduction to Modern Algebra (3) NW** Topics in algebra chosen from Galois theory, theory of modules, geometric group actions, and the theory of rings and fields. Specific content determined by instructor. Prerequisite: 2.0 in MATH 403. Offered: Sp.

**MATH 407 Linear Optimization (3) NW** Maximization and minimization of linear functions subject to constraints consisting of linear equations and inequalities; linear programming and mathematical modeling. Simplex method, elementary games and duality. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, 2.0 in MATH 318, or 2.0 in AMATH 352. Offered: AWS.

**MATH 408 Nonlinear Optimization (3) NW** Maximization and minimization of nonlinear functions, constrained and unconstrained; nonlinear programming problems and methods. Lagrange multipliers; Kuhn-Tucker conditions, convexity. Quadratic programming. Prerequisite: either 2.0 in MATH 308 or 2.0 in MATH 318; either 2.0 in MATH 327 or 2.0 in MATH 334. Offered: W.

**MATH 409 Discrete Optimization (3) NW** Maximization and minimization problems in graphs and networks (shortest paths, minimum spanning trees, maximum flows, minimum cost flows); transportation and trans-shipment problems, NP-completeness. Prerequisite: 2.0 in MATH 407. Offered: Sp.

**MATH 411 Introduction to Modern Algebra for Teachers (3) NW** Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Designed for teaching majors; not open for credit to students who have taken 402, 403. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: either 2.0 in MATH 205, 2.0 in MATH 308, 2.0 in MATH 318, or 2.0 in MATH 136. Offered: AS.

**MATH 412 Introduction to Modern Algebra for Teachers (3) NW** Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Designed for teaching majors; not open for credit to students who have taken 402, 403. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: 2.0 in MATH 411. Offered: WS.

**MATH 414 Number Theory (3) NW** Congruences, arithmetic of quadratic fields, binary quadratic forms, Dirichlet's theorem on primes in an arithmetic progression, Chebyshev's theorem on distribution of primes, the partition function, equations over finite fields. Prerequisite: either 2.0 in MATH 301 or 2.0 in MATH 402.

**MATH 415 Number Theory (3) NW** Congruences, arithmetic of quadratic fields, binary quadratic forms, Dirichlet's theorem on primes in an arithmetic progression, Chebyshev's theorem on distribution of primes, the partition function, equations over finite fields. Prerequisite: 2.0 in MATH 414.

**MATH 420 History of Mathematics (3) NW** Survey of the development of mathematics

from its earliest beginnings through the first half of the twentieth century. Prerequisite: 2.0 in MATH 126. Offered: S.

**MATH 421 Conceptual Calculus for Teachers (4) NW** In-depth conceptual study of calculus, approached from many points of view, including the study of patterns of physical change, discrete approximation to continuous phenomena, and the historical development of calculus. Intended for future teachers. Cannot be used as elective credit for either BS program in mathematics.

**MATH 422 Conceptual Calculus for Teachers (3) NW** In-depth conceptual study of calculus, approached from many points of view, including the study of patterns of physical change, discrete approximation to continuous phenomena, and the historical development of calculus. Intended for future teachers. Cannot be used as elective credit for either BS program in mathematics.

**MATH 424 Fundamental Concepts of Analysis (3) NW** The real number system; field, order, and LUB axioms. Metric spaces: Euclidean space. Bolzano-Weierstrass property. Sequences and limits of Sequences. Cauchy sequences and completeness. The Heine-Borel Theorem. Uniform continuity. Connected sets and the intermediate value theorem. Prerequisite: either 2.0 in MATH 328 or 2.0 in MATH 335. Offered: A.

**MATH 425 Fundamental Concepts of Analysis (3) NW** One-variable differential calculus: chain rule, inverse function theorem, Rolle's theorem, intermediate value theorem, Taylor's theorem, and intermediate value theorem for derivatives. Multivariable differential calculus: mean value theorem, inverse and implicit function theorems, and Lagrange multipliers. Prerequisite: either 2.0 in MATH 326 or 2.0 in MATH 335; 2.0 in MATH 424. Offered: W.

**MATH 426 Fundamental Concepts of Analysis (3) NW** Lebesgue measure on the reals. Construction of the Lebesgue integral and its basic properties. Monotone Convergence Theorem, Fatou's Lemma, and Dominated Convergence Theorem. Integration of series. Continuity and differentiability theorems for functions defined by integrals. Introduction to general measures and integration. Prerequisite: 2.0 in MATH 425. Offered: Sp.

**MATH 427 Complex Analysis (3) NW** Complex numbers; analytic functions; sequences and series; complex integration; Cauchy integral formula; Taylor and Laurent series; uniform convergence; residue theory; conformal mapping. Topics chosen from: Fourier series and integrals, Laplace transforms, infinite products, complex dynamics; additional topics chose by instructor. Prerequisite: either 2.0 in MATH 327 or 2.0 in MATH 335; recommended: MATH 328. Offered: AS.

**MATH 428 Complex Analysis (3) NW** Continuation of MATH 427. Prerequisite: 2.0 in MATH 427. Offered: W.

**MATH 435 Introduction to Dynamical Systems (3) NW** Examples of dynamical systems in mathematics and in natural phenomena. Iterated functions, phase portraits, fixed and periodic points. Hyperbolicity, bifurcations. *Chaos*. Interval maps; quadratic families. Fractals; iterated function systems. Elements of higher dimensional dynamics. Julia sets, the Mandelbrot set. Prerequisite: 2.0 in MATH 335 or

2.0 in MATH 327; either 2.0 in MATH 309 or 2.0 in AMATH 352 and 2.0 in AMATH 353.

**MATH 436 Introduction to Dynamical Systems**

**(3) NW** Examples of dynamical systems in mathematics and in natural phenomena. Iterated functions, phase portraits, fixed and periodic points. Hyperbolicity, bifurcations. *Chaos*. Interval maps; quadratic families. Fractals; iterated function systems. Elements of higher dimensional dynamics. Julia sets, the Mandelbrot set. Prerequisite: 2.0 in MATH 435.

**MATH 441 Topology (3) NW** Metric and topological spaces, convergence, continuity, finite products, connectedness, and compactness. Prerequisite: either 2.0 in MATH 328 or 2.0 in MATH 335. Offered: A.

**MATH 442 Differential Geometry (3) NW**

Curves in 3-space, continuity and differentiability in 3-space, surfaces, tangent planes, first fundamental form, area, orientation, the Gauss Map. Prerequisite: either 2.0 in MATH 335 or 2.0 in both MATH 326 and 2.0 in MATH 328; 2.0 in either MATH 308 or 2.0 in MATH 318. Offered: W.

**MATH 443 Topics in Topology and Geometry**

**(3) NW** Content selected from such topics as homotopy theory, topological surfaces, advanced differential geometry, projective geometry, hyperbolic geometry, spherical geometry, and combinatorial geometry. Offered: Sp.

**MATH 444 Geometry for Teachers (3) NW**

Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Designed for teaching majors. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: 2.0 in MATH 126; either 2.0 in MATH 136, 2.0 in MATH 205, 2.0 in MATH 308, or 2.0 in MATH 318; 2.0 in MATH 300. Offered: WS.

**MATH 445 Geometry for Teachers (3) NW**

Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Designed for teaching majors. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: 2.0 in MATH 444. Offered: SpS.

**MATH 461 Combinatorial Theory (3) NW**

Selected topics from among: block designs and finite geometries, coding theory, generating functions and other enumeration methods, graph theory, matroid theory, combinatorial algorithms, applications of combinatorics. Prerequisite: either 2.0 in MATH 308 or 2.0 in MATH 318.

**MATH 462 Combinatorial Theory (3) NW**

Selected topics from among: block designs and finite geometries, coding theory, generating functions and other enumeration methods, graph theory, matroid theory, combinatorial algorithms, applications of combinatorics. Prerequisite: 2.0 in MATH 461.

**MATH 464 Numerical Analysis I (3) NW**

Basic principles of numerical analysis, classical interpolation and approximation formulas, finite

differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 335 Offered: A.

**MATH 465 Numerical Analysis II (3) NW**

Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: either 2.0 in MATH 136, 2.0 in MATH 308, or 2.0 in MATH 335. Offered: W.

**MATH 466 Numerical Analysis III (3) NW**

Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: either 2.0 in MATH 136, 2.0 in both MATH 307 and MATH 308, or 2.0 in MATH 335.

**MATH 480 Special Topics in Undergraduate Mathematics (3, max. 12)**

Advanced topics in various areas of undergraduate mathematics.

**MATH 487 Advanced Mathematics Computer Laboratory (1-2, max. 6) NW**

Laboratory activities in the use of computing as a tool for doing mathematics, to be taken jointly with a designated section of a 400-level mathematics course. Credit/no credit only.

**MATH 491 Introduction to Stochastic Processes (3) NW**

Random walks, Markov chains, branching processes, Poisson process, point processes, birth and death processes, queuing theory, stationary processes. Prerequisite: either 2.0 in MATH 395 or STAT 395. Offered: jointly with STAT 491; A.

**MATH 492 Stochastic Calculus for Option Pricing (3) NW**

Introductory stochastic calculus mathematical foundation for pricing options and derivatives. Basic stochastic analysis tools, including stochastic integrals, stochastic differential equations, Ito's formula, theorems of Girsanov and Feynman-Kac, Black-Scholes option pricing, American and exotic options, bond options. Prerequisite: MATH STAT 394-5. Offered: jointly with STAT 492; W.

**MATH 496 Honors Senior Thesis (1-5) NW**

Problem seminar for honors students. Cannot be repeated for credit. Offered: AWSp.

**MATH 497 Special Topics in Mathematics for Teachers (2-9, max. 9) NW**

Study of selected areas of mathematics. Designed for the improvement of teachers of mathematics. Offered: jointly with EDC&I 478.

**MATH 498 Special Topics in Mathematics (1-5, max. 15)**

Reading and lecture course intended for special needs of advanced students. Offered: AWSpS.

**MATH 499 Undergraduate Research (8)**

Summer research opportunity for undergraduates. Credit/no credit only. Offered: S.

**MATH 501 Special Topics in Teaching and Learning Mathematics (2-3, max. 15)**

Selected Topics dealing with issues in the teaching and learning of mathematics.

**MATH 502 Special Topics in Teaching and Learning Mathematics (2-3, max. 15)**

Selected Topics dealing with issues in the teaching and learning of mathematics.

**MATH 503 Special Topics in Teaching and Learning Mathematics (2-3, max. 15)**

Selected Topics dealing with issues in the teaching and learning of mathematics.

**MATH 504 Modern Algebra (5)**

First quarter of a three-quarter sequence covering group theory; field theory and Galois theory; commutative rings and modules, linear algebra, theory of forms; representation theory, associative rings and modules; commutative algebra and elementary algebraic geometry. Prerequisite: MATH 404 or equivalent.

**MATH 505 Modern Algebra (5)**

Continuation of MATH 504. Prerequisite: MATH 504.

**MATH 506 Modern Algebra (5)**

Continuation of MATH 505. Prerequisite: MATH 505.

**MATH 507 Algebraic Geometry (3)**

First quarter of a two-quarter sequence covering the basic theory of affine and projective varieties, rings of functions, the Hilbert Nullstellensatz, localization, and dimension; the theory of algebraic curves, divisors, cohomology, genus, and the Riemann-Roch theorem; and related topics. Prerequisite: MATH 506.

**MATH 508 Algebraic Geometry (3)**

Continuation of MATH 507. Prerequisite: MATH 507.

**MATH 509 Theory of Optimal Control (3)**

Trajectories from ordinary differential equations with control variables. Controllability, optimality, maximum principle. Relaxation and existence of solutions. Techniques of nonsmooth analysis. Prerequisite: real analysis on the level of MATH 426; background in optimization corresponding to MATH 515. Offered: jointly with AMATH 509; even years.

**MATH 510 Seminar in Algebra (2-5, max. 5)**

Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 514 Networks and Combinatorial Optimization (3)**

Networks and directed graphs. Paths and trees. Feasible and optimal flows and potentials. Transportation problems, matching and assignment problems. Algorithms and applications. Prerequisite: MATH 308 or AMATH 352 and MATH 324. Offered: jointly with AMATH 514.

**MATH 515 Fundamentals of Optimization (5)**

Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisite: linear algebra and advanced calculus. Offered: jointly with IND E 515/AMATH 515.

**MATH 516 Numerical Optimization (3)** Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Prerequisite: MATH 515. Offered: jointly with AMATH 516.

**MATH 517 Optimization Under Uncertainty (3)** Sequential optimization problems involving random variables. Dynamic programming, stochastic programming. Control of uncertain dynamic systems in finite, discrete time. Risk, feedback, adaptivity. Problems with imperfect state information. Applications such as to optimal stopping, inventory control, resource management. Prerequisite: MATH 308, MATH 324 and an introduction to basic concepts of probability, such as MATH 390 or MATH 394, MATH 395. Offered: jointly with AMATH 517.

**MATH 521 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers, Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 521.

**MATH 522 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers, Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 522.

**MATH 523 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers, Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 523.

**MATH 524 Real Analysis (5)** First quarter of a three-quarter sequence covering the theory of measure and integration, point set topology, Banach spaces,  $L_p$  spaces, applications to the theory of functions of one and several real variables. Additional topics to be chosen by instructor. Prerequisite: MATH 426 or equivalent.

**MATH 525 Real Analysis (5)** Continuation of MATH 524. Prerequisite: MATH 524.

**MATH 526 Real Analysis (5)** Continuation of MATH 525. Prerequisite: MATH 525.

**MATH 527 Functional Analysis (3)** First quarter of a three-quarter sequence. Review of Banach, Hilbert, and  $L_p$  spaces; locally convex spaces (duality and separation theory, distributions, and function spaces); operators on locally convex spaces (adjoints, closed graph/open mapping and Banach-Steinhaus theorems); Banach algebras (spectral theory, elementary applications); spectral theorem for Hilbert space operators. Additional topics chosen by instructor. A working knowledge of real variables, general topology, and complex variables is assumed.

**MATH 528 Functional Analysis (3)** Continuation of MATH 527. Prerequisite: MATH 527.

**MATH 529 Functional Analysis (3)** Continuation of MATH 528. Prerequisite: MATH 528.

**MATH 530 Seminar in Analysis (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 534 Complex Analysis (5)** First quarter of a three-quarter sequence covering complex numbers, analytic functions, contour integration, power series, analytic continuation, sequences of analytic functions, conformal mapping of simply connected regions, and related topics. Prerequisite: MATH 426.

**MATH 535 Complex Analysis (5)** Continuation of MATH 534. Prerequisite: MATH 534.

**MATH 536 Complex Analysis (5)** Continuation of MATH 535. Prerequisite: MATH 535.

**MATH 537 Several Complex Variables (3)** First quarter of a three-quarter sequence covering Weierstrass preparation theorem and its immediate consequences, analytic continuation, domains of holomorphy, pseudoconvexity, Cartan-Oka theory of coherence, embedding theorems; the CR equations, CR manifolds, connections with algebraic geometry. Prerequisite: MATH 536.

**MATH 538 Several Complex Variables (3)** Continuation of MATH 537. Prerequisite: MATH 537.

**MATH 539 Several Complex Variables (3)** Continuation of MATH 538. Prerequisite: MATH 538.

**MATH 541 Special Topics in Applied Mathematics (2-3, max. 15)** Such topics as mathematical quantum theory, fluid mechanics, optimization and operations research, and control theory.

**MATH 542 Special Topics in Applied Mathematics (2-3, max. 15)** Such topics as mathematical quantum theory, fluid mechanics, optimization and operations research, and control theory.

**MATH 543 Special Topics in Applied Mathematics (2-3, max. 15)** Such topics as mathematical quantum theory, fluid mechanics, optimization and operations research, and control theory.

**MATH 544 Topology and Geometry of Manifolds (5)** First quarter of a three-quarter sequence covering general topology, the fundamental group, covering spaces, topological and differentiable manifolds, vector fields, flows, the Frobenius theorem, Lie groups, homogeneous spaces, tensor fields, differential forms, Stokes's theorem, deRham cohomology. Prerequisite: MATH 404 and MATH 426 or equivalent.

**MATH 545 Topology and Geometry of Manifolds (5)** Continuation of MATH 544. Prerequisite: MATH 544.

**MATH 546 Topology and Geometry of Manifolds (5)** Continuation of MATH 545. Prerequisite: MATH 545.

**MATH 547 Geometric Structures (3, max. 9)** First quarter of a three-quarter sequence covering differential-geometric structures on manifolds, Riemannian metrics, geodesics, covariant differentiation, curvature, Jacobi fields, Gauss-Bonnet theorem. Additional topics to be chosen by the instructor, such as connections in vector bundles and principal

bundles, symplectic geometry, Riemannian comparison theorems, symmetric spaces, symplectic geometry, complex manifolds, Hodge theory. Prerequisite: MATH 546.

**MATH 548 Geometric Structures (3, max. 9)** Continuation of MATH 547. Prerequisite: MATH 547.

**MATH 549 Geometric Structures (3, max. 9)** Continuation of MATH 548. Prerequisite: MATH 548.

**MATH 550 Seminar in Geometry (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 554 Linear Analysis (5)** First quarter of a three-quarter sequence covering advanced linear algebra and matrix analysis, ordinary differential equations (existence and uniqueness theory, linear systems, numerical approximations), Fourier analysis, introductions to functional analysis and partial differential equations, distribution theory. Prerequisite: MATH 426 and familiarity with complex analysis at the level of 427 (the latter may be obtained concurrently).

**MATH 555 Linear Analysis (5)** Continuation of MATH 554. Prerequisite: MATH 554.

**MATH 556 Linear Analysis (5)** Continuation of MATH 555. Prerequisite: MATH 555.

**MATH 557 Introduction to Partial Differential Equations (3)** First quarter of a three-quarter sequence. Review of the theory of distributions and the Fourier transform. Detailed study of main linear equations: wave equation, Laplace's equation, and the heat equation. Sobolev spaces and regularity of solutions of elliptic equations. Theory of pseudodifferential operators. Initial value problem for hyperbolic equations and methods of geometrical optics. Fourier integral operators. The Dirichlet problem and eigenfunction expansions for elliptic equations. Prerequisite: MATH 556.

**MATH 558 Introduction to Partial Differential Equations (3)** Continuation of MATH 557. Prerequisite: MATH 557.

**MATH 559 Introduction to Partial Differential Equations (3)** Continuation of MATH 558. Prerequisite: MATH 558.

**MATH 564 Algebraic Topology (3)** First quarter of a three-quarter sequence covering classical and modern approaches; complexes and their homology theory; applications; fixed points, products and Poincaré duality; axiomatic approach. Prerequisite: MATH 506 and MATH 544, or equivalent.

**MATH 565 Algebraic Topology (3)** Continuation of MATH 564. Prerequisite: MATH 564.

**MATH 566 Algebraic Topology (3)** Continuation of MATH 565. Prerequisite: MATH 565.

**MATH 570 Seminar in Topology (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of graduate program coordinator.

**MATH 574 Fundamental Concepts of Analysis (3)** *Hoffman, Toro* Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in Biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

**MATH 575 Fundamental Concepts of Analysis (3)** *Hoffman, Toro* Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in Biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

**MATH 576 Fundamental Concepts of Analysis (3)** *Hoffman, Toro* Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in Biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

**MATH 577 Lie Groups and Lie Algebras (3, max. 9)** Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

**MATH 578 Lie Groups and Lie Algebras (3, max. 9)** Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

**MATH 579 Lie Groups and Lie Algebras (3, max. 9)** Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

**MATH 580 Current Topics in Mathematics (2, max. 12)** Discussion of current research topics in mathematics, with emphasis on current departmental research projects and interests. Offered: AWP.

**MATH 581 Special Topics in Mathematics (\*, max. 36)** Advanced topics in various areas of mathematics. Offered: AWP.

**MATH 582 Special Topics in Mathematics (\*, max. 36)** Advanced topics in various areas of mathematics. Offered: AWP.

**MATH 583 Special Topics in Mathematics (\*, max. 36)** Advanced topics in various areas of mathematics. Offered: AWP.

**MATH 584 Applied Linear Algebra and Introductory Numerical Analysis (5)** Numerical methods for solving linear systems of equations, linear least squares problems, matrix eigen value problems, nonlinear systems of equations, interpolation, quadrature, and initial value ordinary differential equations. Offered: jointly with AMATH 584. A.

**MATH 585 Numerical Analysis of Boundary Value Problems (5)** Numerical methods for steady-state differential equations. Two-point

boundary value problems and elliptic equations. Iterative methods for sparse symmetric and non-symmetric linear systems: conjugate-gradients, preconditioners. Prerequisite: AMATH 584/MATH 584 which may be taken concurrently. Offered: jointly with AMATH 585; W.

**MATH 586 Numerical Analysis of Time Dependent Problems (5)** Numerical methods for time-dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence theory. Spectral and pseudospectral methods. Prerequisite: AMATH 581 or AMATH 584. Offered: jointly with AMATH 586/ATM S 581; Sp.

**MATH 590 Seminar in Probability (2-5, max. 5)** Credit/no credit only. Prerequisite: permission of instructor.

**MATH 594 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing, such as iterative methods, eigenvalue computations, approximation theory, finite element methods, inverse problems, nonlinear conservation laws, computational fluid dynamics. Prerequisite: AMATH 584, AMATH 585, AMATH 586, or equivalent. Offered: jointly with AMATH 594.

**MATH 595 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing. See the description for 594 for sample topics. Prerequisite: AMATH 584, AMATH 585, AMATH 586, or equivalent. Offered: jointly with AMATH 595.

**MATH 596 Special Topics in Numerical Analysis (2-3, max. 15)** Various advanced topics in numerical analysis and scientific computing. See the description for 594 for sample topics. Prerequisite: AMATH 584, 585, 586, or equivalent. Offered: jointly with AMATH 596.

**MATH 597 Seminar on Teaching Math (1, max. 3)** Issues in the teaching and learning of college mathematics, such as discovering and working with student background and expectations, increasing student engagement with course material, and evaluating student achievement. For graduate students who are, or soon will be, teaching mathematics courses on their own. Credit/no credit only.

**MATH 598 Seminar on Technology (1, max. 3)** Explores the use of computer technology in teaching and research in mathematics. Develops the basic skills required for using computer mathematics software.

**MATH 600 Independent Study or Research (\*)**

**MATH 700 Master's Thesis (\*)**

**MATH 800 Doctoral Dissertation (\*)**

---

## Music

### Music

**MUSIC 113 Pre-Core Ear Training (0/1, max. 1)** VLPA Pre-core course in musicianship. Offered: ASP.

**MUSIC 116 Elementary Music Theory (2) VLPA** For nonmusic majors. For people with no hands-on music experience. Rudiments of music; notation of time, small pitch structures (e.g., some scales, chords, rhythmic patterns), some analysis. Recommended: some music training including ability to read music.

**MUSIC 117 Elementary Music Theory (2) VLPA** For nonmusic majors. For students who can read music, having some performance experience. Prerequisite: MUSIC 116.

**MUSIC 118 Elementary Music Theory (2) VLPA** For nonmusic majors. For students who read music, have some performance experience, are familiar with scales, chords, intervals. Includes analysis composition in various styles. Prerequisite: MUSIC 117.

**MUSIC 119 Introduction to Music Theory and Musicianship (3) VLPA** Basic elements of music theory: introduction to acoustics, major and minor scales, triads and seventh chords, keys, four-part writing, functional harmony, modes, simple forms, and jazz notation. Offered: A.

**MUSIC 120 Survey of Music (5) VLPA** Studies in listening, with emphasis on the changing components of Western art music. Illustrated lectures, laboratory section meetings, and presentations by guest artists.

**MUSIC 121 The Orchestra (2) VLPA** Development of the orchestra and its literature.

**MUSIC 122 The Opera (2) VLPA** An introduction to opera through selected masterworks, from Monteverdi to the present. Primarily for nonmajors.

**MUSIC 160 Anglo-American Folk Music (5) VLPA** Genres and styles from earliest roots to the present; Anglo-American ballads, dance music, French and other European immigrant groups.

**MUSIC 161 American Musical Theater (5) VLPA** Historical and stylistic study of the development of the American musical theater. European roots in opera and operetta. Contributions from jazz and popular music. Selected musicals studied.

**MUSIC 162 American Popular Song (5) VLPA** Historical, social, and stylistic study of popular idioms from the late nineteenth century to the present. Most attention to contemporary idioms (rock, country-western, soul, hip-hop). Various facets of the industry examined to learn how they influence taste and musical style.

**MUSIC 185 The Concert Season (2) VLPA** Performances from the School of Music concert season, supplemented by lecture topics related to concert repertoire. Analysis of applicable musical topics appropriate for enhanced appreciation of historical and cultural contexts of works performed. Attendance at ten concerts required.

**MUSIC 191 Composition (3, max. 9) VLPA** One-hour private instruction and one-hour laboratory session each week. Intended to develop skill in creative musical expression. For composition majors only.

**MUSIC 200 Music, Child, and Family (3) VLPA** *Campbell* Study of music in childhood as part of socialization and enculturation of the child within family and community. Emphasis given to

songs and music listening experiences provided by parents to nurture the child's musical, social, and intellectual development from infancy through middle childhood. For nonmajors.

**MUSIC 201 First-Year Theory I (3) VLPA**

Introduction to tonal harmony and counterpoint; triadic progressions in root position; first and second species counterpoint; analysis of simple works. Prerequisite: 2.0 in MUSIC 119; recommended: concurrent registration in MUSIC 204. Offered: W.

**MUSIC 202 First-Year Theory II (3) VLPA**

Continued instruction in tonal harmony and counterpoint; triadic progressions with inversions; third and fourth species counterpoint; further analysis of basic forms. Prerequisite: 2.0 in MUSIC 201; recommended: concurrent registration in MUSIC 205. Offered: Sp.

**MUSIC 203 First-Year Theory III (3) VLPA**

Further introduction in tonal harmony and counterpoint; seventh chords; modulations to closely related keys; secondary dominants; introduction to chromaticism; emphasis on analysis and writing of four-part chorales in early 18th century style. Prerequisite: 2.0 in MUSIC 202; recommended: concurrent registration in MUSIC 206. Offered: A.

**MUSIC 204 First-Year Ear Training I (0/1, max. 1) VLPA**

Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 113; corequisite: MUSIC 201. Offered: W.

**MUSIC 205 First-Year Ear Training II (0/1, max. 1) VLPA**

Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 204; corequisite: MUSIC 202. Offered: Sp.

**MUSIC 206 First-Year Ear Training III (0/1, max. 1) VLPA**

Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 205; corequisite: MUSIC 203. Offered: AWSp.

**MUSIC 216 Introductory Composition (2) VLPA**

For students not majoring in composition. Prerequisite: MUSIC 202.

**MUSIC 217 Introductory Composition (2) VLPA**

For students not majoring in composition. Prerequisite: MUSIC 216.

**MUSIC 218 Introductory Composition (2) VLPA**

For students not majoring in composition. Prerequisite: MUSIC 217.

**MUSIC 240 Reed-Making Techniques (1, max. 6) VLPA**

Applies basic reed-making principles and techniques. Individualized instruction allows students of all levels to take the course simultaneously.

**MUSIC 250 World Music (3) I&S/VLPA**

Introduction to world musical traditions, including both sound and socio-cultural dimensions of music. Topics include instruments, rhythm, melody, form, composition, improvisation, music in the family and community, politics, economy, religion, and case studies of major world musical traditions. Prerequisite: MUSIC 201; MUSIC 204.

**MUSIC 270 World Popular Music (5) I&S/VLPA**

A global survey of popular music, including Latin America, Africa, Eastern Europe, the Middle East, Asia, and the Pacific. Emphasis on students' ability to recognize styles and to analyze the social and historical processes that have shaped them.

**MUSIC 291 Composition (3, max. 9) VLPA**

One-hour private instruction and one-hour laboratory session per week. Prerequisite: MUSIC 191.

**MUSIC 300 Fundamentals of Music Technology (3) VLPA**

Introduction to the principles of music technology. Exploration of different categories of music software, in terms of their functionality as well as the fundamental basis of these theories. Prerequisite: MUSIC 203; MUSIC 206.

**MUSIC 301 Second-Year Theory (3) VLPA**

Further study of modulation and chromatic harmony; analysis of 18th- and 19th-century short forms; technical exercises; model composition. Prerequisite: 2.0 in MUSIC 203; 2.0 in MUSIC 206; corequisite: MUSIC 304; recommended: concurrent registration in MUSIC 304. Offered: W.

**MUSIC 302 Second-Year Theory (3) VLPA**

More advanced study in mid- to late 19th-century chromaticism and compositional style; analysis of representative works; technical exercises; model composition. Prerequisite: 2.0 in MUSIC 301; 2.0 in MUSIC 304; corequisite: MUSIC 305. Offered: Sp.

**MUSIC 303 Second-Year Theory (3) VLPA**

Core theory sequence for majors. Introduction to the theory and analysis of 20th-century music. Prerequisite: 2.0 in MUSIC 302; 2.0 in MUSIC 305; corequisite: MUSIC 306. Offered: A.

**MUSIC 304 Second-Year Ear-Training I (0/1, max. 1) VLPA**

Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 203; 2.0 in MUSIC 206; corequisite: MUSIC 301. Offered: W.

**MUSIC 305 Second-Year Ear-Training II (0/1, max. 1) VLPA**

Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 301; 2.0 in MUSIC 304; corequisite: MUSIC 302. Offered: Sp.

**MUSIC 306 Second-Year Ear-Training III (0/1, max. 1) VLPA**

Core ear-training sequence for majors. Prerequisite: 2.0 in MUSIC 302; 2.0 in MUSIC 305; corequisite: MUSIC 303. Offered: A.

**MUSIC 307 Diction for Singers (2) VLPA**

Application of basic rules of diction, enunciation, and articulation in Italian. Materials include texts from the basic vocal repertoire. Primarily for the voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

**MUSIC 308 Diction for Singers (2) VLPA**

Application of basic rules of diction, enunciation, and articulation in French. Materials include texts from the basic vocal repertoire. Primarily for the voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

**MUSIC 309 Diction for Singers (2) VLPA**

Application of basic rules of diction, enunciation, and articulation in German. Materials include texts from the basic vocal repertoire. Primarily for the voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

**MUSIC 316 Music Cultures of the World (5) I&S/VLPA**

Near East, Central Asia, Far East, South and southeast Asia, Indonesia, and the Philippines. Content varies.

**MUSIC 317 Music Cultures of the World (5) I&S/VLPA**

Music of Africa, Americas, and Oceania. Content varies.

**MUSIC 318 Music Cultures of the World (5) I&S/VLPA**

Folk and popular music in western and eastern Europe and the Americas. Content varies.

**MUSIC 319 Afro-American Music (5) I&S/VLPA**

Centers on Black music in the United States, but also clarifies the relationship of this music to the musics of other Afro-American cultures as well as to their African roots.

**MUSIC 326 Repertoire (2) VLPA**

For music majors.

**MUSIC 327 Repertoire (2) VLPA**

For music majors.

**MUSIC 328 Repertoire (2) VLPA**

For music majors.

**MUSIC 331 History of Jazz (5) VLPA**

Extensive overview of important musicians, composers, arrangers, and stylistic periods of jazz history from emergence of the first jazz bands at the turn of the 20th century through post-modern bebop era of the 1990s.

**MUSIC 332 Music in European Society: Antiquity to 1700 (5) I&S/VLPA**

Music and its relationship to aspects of European culture and society-philosophy, politics, social conditions, and the visual arts from antiquity to 1700.

**MUSIC 333 Music in Western Culture (5) I&S/VLPA**

Music in Europe and North America, drawn from classical, popular, jazz, opera, and musical theatre traditions. Emphasis on the relationship between musical works and their social, philosophical, political, and other contexts.

**MUSIC 334 Band Arranging (2) VLPA**

Prerequisite: MUSIC 303.

**MUSIC 336 Jazz Arranging (2) VLPA**

Writing in jazz style for various instrumental combinations. To be able to arrange for modern jazz orchestra. Prerequisite: MUSIC 303.

**MUSIC 344 Psychology of Music: Cognition (5) I&S/VLPA**

Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music perception, music performance, musical development, musical affect, musical preference, social psychology, and neuroscience.

**MUSIC 350 Choral Conducting (1) VLPA**

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 302; corequisite: MUSEN 307, 350 or 351.

**MUSIC 351 Choral Conducting (1) VLPA**

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 350; corequisite: MUSEN 307, 350 or 351.

**MUSIC 352 Choral Conducting (1) VLPA**

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline.

Designed for music and music education majors. Prerequisite: MUSIC 351; corequisite: MUSEN 307, 350 or 351.

**MUSIC 366 Cylinders to Platters—A Survey of Recorded Music Since 1888 (3) VLPA** Music as reflected through the influences of the recording industry and the development of related technologies. Examines social and artistic impacts that the recording age has brought to American and European musical cultures. Recommended: MUSIC 120; MUSIC 162.

**MUSIC 367 Beginning Jazz Improvisation I (1) VLPA** Beginning jazz improvisation techniques used in the performance of basic jazz styles such as the blues. Primarily for music majors. Prerequisite: MUSIC 302.

**MUSIC 368 Beginning Jazz Improvisation II (1) VLPA** Beginning jazz improvisation techniques used in the performance of basic jazz styles such as the blues. Primarily for music majors. Prerequisite: MUSIC 367.

**MUSIC 369 Beginning Jazz Improvisation III (1) VLPA** Beginning jazz improvisation techniques used in the performance of basic jazz styles such as the blues. Primarily for music majors. Prerequisite: MUSIC 368.

**MUSIC 379 Junior Recital (1) VLPA** For participants in the Bachelor of Music degree program only.

**MUSIC 380 Instrumental Conducting (1) VLPA** *Salzman* Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques and score study. Prerequisite: either MUSIC 212 or MUSIC 302.

**MUSIC 381 Instrumental Conducting (1) VLPA** *Salzman* Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques and score study. Prerequisite: MUSIC 380.

**MUSIC 382 Instrumental Conducting (1) VLPA** *Salzman* Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques and score study. Prerequisite: MUSIC 381.

**MUSIC 384 Ideas In Music (5) I&S/VLPA** *Taricani* Examines selected sources and compositions of music from the Western tradition (from the tenth through the twentieth centuries), in relation to the intellectual background of the periods and countries that produced them. Musical studies accompanied by assigned readings in philosophical, religious, literary, and artistic texts in addition to the primary readings in musical history.

**MUSIC 388 Jazz Pedagogy (2) VLPA** Stylistic and esthetic developments in the performance of jazz. Key musical ingredients in the evolution of jazz as an art form and the skills commensurate with teaching these. Designed for music majors

**MUSIC 390 Special Topics in Music (3, max. 9) VLPA** *Starr* Topics vary.

**MUSIC 391 Composition (3, max. 9) VLPA** One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 291.

**MUSIC 400 Computer Applications to Music (3, max. 9) VLPA** Music workstation applications using microcomputers, music synthesizers, and

analog-to-digital converters: music editing and score production, transcription, waveform and spectral analysis, and introduction to programming.

**MUSIC 401 Digital Sound Synthesis (5) VLPA** Introduction to software sound synthesis techniques. Includes acoustics and psychoacoustics; virtual synthesizers and unit generators; table-lookup oscillators and wavetable synthesis; additive synthesis; modulation synthesis; ring amplitude, phase and frequency; granular synthesis; noise; subtractive synthesis and filters. Offered: jointly with DXARTS 461; A.

**MUSIC 402 Digital Sound Processing (5) VLPA** Introduction to digital sound processing techniques. Includes sampling techniques and time-domain transformation of samples sound; sample-rate conversion; sound granulation and time stretching; delay lines; introduction to digital filtering; FIR and IIR filters; digital effects; reverbation; virtual-room acoustics and dynamic sound location. Prerequisite: DXARTS 461/MUSIC 401. Offered: jointly with DXARTS 462; W.

**MUSIC 403 Advanced Digital Sound Synthesis and Processing (5) VLPA** Advanced sound processing and synthesis techniques. Includes sound time warping; analysis-synthesis techniques; linear predictive coding; the phase vocoder; frequency-domain sound transformations; introduction to physical modeling. Prerequisite: DXARTS 462/MUSIC 402. Offered: jointly with DXARTS 463; S.

**MUSIC 405 Liturgics and Hymnology: Practical Applications I (2) VLPA** *Butler* Prepares organ majors and other advanced organ students to play hymns in a manner that inspires congregational singing. Includes a study of hymnology as well as instruction on the realization of anthem accompaniments and piano scores at the organ. Prerequisite: MUSIC 302; MUSIC 305; MUHST 212. Offered: A.

**MUSIC 406 Liturgics and Hymnology: Practical Applications II (2) VLPA** *Butler* Survey of church choir repertoire with emphasis on the smaller choir, choir organization and rehearsal techniques, choral conductor's preparation, a brief study of choral styles and editions, and choral arranging for the church choir. Prerequisite: either MUSIC 303, MUSIC 306, MUHST 210, or MUSIC 405. Offered: W.

**MUSIC 407 Liturgics and Hymnology: Practical Applications III (2) VLPA** *Butler* History of Psalm singing, traditional and contemporary liturgics, plainchant, liturgical use of handbells, "contemporary" repertoire for the church, orchestral instruments and their use in worship (arranging for amateur players, basics of string bowing and editing, organizing instrumental ensembles), youth choir organization. Prerequisite: either MUSIC 303, MUSIC 306, MUHST 210, or MUSIC 406. Offered: Sp.

**MUSIC 410 ElectroAcoustic Music: History and Analysis (3) VLPA** Examines the music of major electro-acoustic composers. Emphasis on the relationship between technological resources and compositional advances. Addresses issues raised by the diversity of approaches to musical composition; relates particular creative contributions to the historical, cultural, and technological contexts in which they originated. Prerequisite: MUSIC 303; MUSIC 306; MUHST 210. Offered: Sp.

**MUSIC 418 Baroque Ornamentation and Improvisation (3) VLPA** *Terry* The study of ornamentation and improvisation for keyboard, woodwinds, voice, and strings of selected German, Italian, French, and English repertoire from 1600 to 1800.

**MUSIC 420 Organ Improvisation and Service Playing I (2) VLPA** Prepares students to improvise, especially for the church/synagogue service. Includes a brief study of hymnology, hymn elaboration, altered harmonizations, improvisation based on existing hymn tunes, interludes, chorale preludes, ornamented chorales. Prerequisite: MUSIC 303; MUSIC 306. Offered: A.

**MUSIC 421 Organ Improvisation and Service Playing II (2) VLPA** Continuation of MUSIC 420. Includes brief review of figured bass and functional harmony, free improvisation in simple antecedent/consequent ABA forms and more complex forms (rondo, theme, and variation), improvising partias, interludes, improvisations based on plainchant. A survey of important improvisation texts. Prerequisite: MUSIC 420. Offered: W.

**MUSIC 422 Organ Improvisation and Service Playing III (2) VLPA** Continuation of MUSIC 421. Advanced improvisation: baroque improvisation techniques, fuguetas, baroque preeludias and fantasias, canons, toccatas, duos, trios, and simple fugues. Prerequisite: MUSIC 421. Offered: Sp.

**MUSIC 426 Advanced Jazz Arranging (2) VLPA** *Brockman* Advanced arranging techniques for jazz ensembles of various sizes, exploring methods employed by Duke Ellington, Gil Evans, and others. Assignments include one original arrangement each for small-combo and full-jazz ensemble. Prerequisite: MUSIC 336. Offered: W.

**MUSIC 427 Music of Africa (3) I&S/VLPA** Music cultures of Africa. Traditional styles and more recent developments. Open to all students with an interest in the area. Prerequisite: MUSIC 317.

**MUSIC 428 Music of North India (3) I&S/VLPA** Classical music of North India, the Hindustani tradition with emphasis on the Dhrupad and Khyal styles. Recommended: ethnomusicology or South Asian studies background.

**MUSIC 429 String Orchestral Repertoire (2, max. 18) VLPA** *Lieberman Patterson, Saks, Watras* Intended for undergraduate BA/BM and BM music majors. Offered: biannually; AWSp.

**MUSIC 430 Organology (3) VLPA** Systematic study of musical instruments, involving the history, acoustical phenomena, and physical topologies of instruments from around the world, with emphasis on non-Western music.

**MUSIC 433 Music of Latin America (3) I&S/ VLPA** The music of the Spanish-, French-, and Portuguese-speaking New World countries.

**MUSIC 434 Pedagogy (2) VLPA** Principles of effective studio teaching; survey and evaluation of teaching materials.

**MUSIC 435 Pedagogy (2) VLPA** Principles of effective studio teaching; survey and evaluation of teaching materials.

**MUSIC 436 Pedagogy (2) VLPA** Principles of effective studio teaching; survey and evaluation of teaching materials.

**MUSIC 438 Problems in Contemporary Music Performance (3, max. 9) VLP** *Kappy* An active course examining and solving problems relevant to the successful performance of twentieth-century music. Preparation for complex rhythms, odd groupings, new notation, and extended performing techniques.

**MUSIC 439 Music of Indonesia and the Philippines (3) I&S/VLP** Includes the traditions of Sumatra, Sunda, Java, Bali, Sunda Islands, and the Philippines. Open to students in music and to students with an interest in the area.

**MUSIC 444 Music of the Near East (3) I&S/VLP** Classical and folk musical traditions of Iran, Turkey, and the Arab world. Prerequisite: MUSIC 316.

**MUSIC 445 Selected Topics in Ethnomusicology (3/5, max. 15) I&S/VLP** Deals with areas not covered by other courses in ethnomusicology. Content varies with different instructors.

**MUSIC 446 Music in American Cultures (3) I&S/VLP** Compares musical history and experience of selected American cultures that have fed into the American musical mainstream or had significant popularity on its periphery. Case studies may include African Americans, Latino/a Americans, Jewish Americans, Asian Americans, or European Americans. Considerations of social identity as well as musical styles. Offered: jointly with AES 446.

**MUSIC 447 Music of Southern India (3) I&S/VLP** Classical music of South India, the Karnatic tradition, with emphasis on the concert repertoire. Recommended: ethnomusicology or South Asian studies background.

**MUSIC 448 Music of China (3) I&S/VLP** Confucian philosophies that relate to music, theory, scale systems, cosmology. Development of instrumental styles, vocal and dramatic regional forms from early historical periods to the present; recommended: background in either ethnomusicology or East Asian Studies. Recommended: ethnomusicology or East Asian studies background.

**MUSIC 449 Advanced Piano Repertoire (2, max. 6) VLP** *McCabe, Michaelian, Sheppard* For piano majors who wish an in-depth survey of major areas of the piano repertoire. Prerequisite: MUSIC 328. Offered: AWP.

**MUSIC 450 Percussion Education Institute (2) VLP** *Collier, Crusoe* Intensive four-week institute focusing on techniques in percussion, timpani, and mallet performance. Intended for music educators with little or no percussion experience desiring additional training to enhance their careers as music teachers. Includes private instruction, master classes, and percussion ensemble participation. Prerequisite: MUSAP 217.

**MUSIC 451 Summer Jazz Institute (1) VLP** *Brockman, Collier, Seales* Intensive one-week institute designed for the serious jazz student as well as for music educators. Six hours of daily instruction in jazz theory, ear-training, improvisation, arranging, as well as emphasis on rehearsal and performance techniques through sectional workshops and small group "jam sessions."

**MUSIC 454 Organ Pedagogy (3) VLP** *Terry* Pedagogical approaches to organ techniques and performance practice, provides opportunity for

practical application by means of student teaching.

**MUSIC 455 Choral Arranging (3) VLP** Primarily for choral conductors who need to modify, arrange or compose material to suit the capabilities of specific choral groups and performance situations.

**MUSIC 458 Organ Repertoire: Middle Ages through Baroque (3) VLP** *Terry* Analysis and performance practices of organ literature, Middle Ages through baroque period. Development of the organ as musical instrument. Prerequisite: either MUHST 400, MUHST 401, MUHST 402, MUHST 403, MUHST 406, or MUHST 407.

**MUSIC 459 Organ Repertoire: Bach to Present (3) VLP** *Terry* Analysis and performance practices of organ literature, classical period through the twentieth century. Development of the organ as a musical instrument. Prerequisite: either MUHST 408, MUHST 409, MUHST 410, MUHST 411, MUHST 412, MUHST 413, MUHST 414, MUHST 415, MUHST 417, MUHST 418, MUHST 419, MUHST 423, MUHST 424, or MUHST 426.

**MUSIC 460 Advanced Vocal Repertoire: Pre-Nineteenth-Century Art Songs (2, max. 6) VLP** Professional preparation of pre-nineteenth-century songs with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 328.

**MUSIC 461 Advanced Vocal Repertoire: Nineteenth-Century Art Songs (2, max. 6) VLP** Professional preparation of works from the literature of nineteenth-century German lieder, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 460.

**MUSIC 462 Advanced Vocal Repertoire: Twentieth-Century Art Songs (2, max. 6) VLP** Preparation of works from the twentieth-century repertoire of French, German, Italian, Spanish, and English songs, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 461.

**MUSIC 464 Jazz Laboratory (1, max. 9) VLP** *Seales* Forum for testing new technical skills, improvisational techniques, and jazz compositions and/or arrangements in a formal laboratory setting.

**MUSIC 465 Acting for Singers (2, max. 6) VLP** Workshop designed specifically for the singing actor, focusing on character analysis, movement, and audition department skills.

**MUSIC 467 Advanced Jazz Improvisation I (1) VLP** *Collier, Seales* Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 369.

**MUSIC 468 Advanced Jazz Improvisation II (1) VLP** *Collier, Seales* Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 467.

**MUSIC 469 Advanced Jazz Improvisation III (1) VLP** *Collier, Seales* Performance techniques

in jazz improvisation for the advanced student. Prerequisite: MUSIC 468.

**MUSIC 470 Analysis of Tonal Music: Introduction to Schenker (3) VLP** *Bernard, Kopp, Rahn* Introduction to the theories of Heinrich Schenker and their subsequent development; analysis of music from the common-practice period (1700-1900), with possible excursions into the twentieth century. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215.

**MUSIC 471 Introduction to Atonal Theory and Analysis (3) VLP** *Bernard, Rahn* Theory of atonal music, including the "classical" twelve-tone repertoire. Analysis of works by Schoenberg, Berg, Webern, and others. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215.

**MUSIC 472 Analysis of Twentieth Century Music, 1900-1950 (3, max. 6) VLP** *Bernard, Durand, Karpen, Rahn, Thome* Analytical examination of musical works of the first half of the twentieth century in Europe and the United States, with emphasis on music other than that of the second Viennese school. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215.

**MUSIC 473 Keyboard Harmony and Transposition (3) VLP** *Terry* Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Offered: alternate years.

**MUSIC 474 Keyboard Harmony and Transposition (3) VLP** *Terry* Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: MUSIC 473. Offered: alternate years.

**MUSIC 475 Figured Bass Realization (3) VLP** *Terry* Various styles of continuo realization for keyboardists, emphasizing Bach cantatas, Haydn symphonies, and Mozart operas. Prerequisite: MUSIC 474. Offered: alternate years.

**MUSIC 476 Advanced Vocal Repertoire: Seventeenth and Eighteenth Centuries (2) VLP** Opera repertoire, 1600 to the Bel Canto era (Bellini, Rossini, Donizetti); style, traditions, embellishments in Italian, French, and German arias. Prerequisite: MUSIC 328.

**MUSIC 477 Advanced Vocal Repertoire: Nineteenth Century (2) VLP** Opera repertoire, the post Bel Canto era through Verdi, Puccini and verismo, and significant German, French, and Slavic repertoire. Prerequisite: MUSIC 476.

**MUSIC 478 Advanced Vocal Repertoire: Twentieth Century (2) VLP** Opera repertoire, twentieth-century opera literature (Barber, Menotti, Bartok, Dvorak); understanding of style, character and overall artistic and musical needs of the present. Prerequisite: MUSIC 477.

**MUSIC 479 Senior Recital (1) VLP** .

**MUSIC 480 The Anthropology of Music (3) I&S/VLP** Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation. e.g., evolutionist,

diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with ANTH 430.

**MUSIC 481 Choral Repertoire: Sixteenth and Seventeenth Centuries (3) VLPA** Sacred and secular choral literature from the Renaissance through the early baroque, covering Europe and England. Various genres and styles of major composers, including performance practice, rehearsals, and conducting.

**MUSIC 482 Choral Repertoire: Eighteenth Century (3) VLPA** Sacred and secular choral literature of the baroque, covering mainland Europe and England. Choral works of Bach, his predecessors, and contemporaries. Stylistic analysis and study of performance practice.

**MUSIC 483 Choral Repertoire: Nineteenth Century (3) VLPA** Sacred and secular choral literature of the nineteenth century, covering mainland Europe and England. Analysis of accompanied and a cappella choral works by major composers with implications for conducting and programming of literature.

**MUSIC 484 Choral Repertoire: Twentieth Century (3) VLPA** Choral literature of the twentieth century, covering America, England, and mainland Europe. Various genres and styles, including score study and teaching strategies.

**MUSIC 487 Tonal Counterpoint (3) VLPA** *Bernard, Durand, Rahn* Introduction to tonal counterpoint through exercises in analysis and composition, focusing on 18th-century styles. Study of melody principles of counterpoint in two and three voices, dance forms, inventions, fugue. Prerequisite: either MUSIC 311 or MUSIC 202.

**MUSIC 489 Special Topics in Music Theory (3/5, max. 15) VLPA** Prerequisite: either both MUSIC 303 and MUHST 210 or both MUSIC 312 and MUHST 314.

**MUSIC 490 Orchestration (3) VLPA** Study of the instruments of the orchestra and practical experience in combining them; to enable the student to score for various instrumental combinations. Ideally to be taken before band arranging or jazz arranging, but is not a prerequisite.

**MUSIC 491 Composition (3, max. 18) VLPA** One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 391.

**MUSIC 492 Opera Direction and Production (4) VLPA** Practical experience with problems of the theater.

**MUSIC 493 Opera Direction and Production (4) VLPA** Practical experience with problems of the theater. Prerequisite: MUSIC 492.

**MUSIC 495 Music of Japan (3) I&S/VLPA** Survey of major Japanese musical traditions. Open to students in music and East Asian area studies. Prerequisite: MUSIC 316.

**MUSIC 498 Senior Thesis (3-, max. 9) VLPA** Design and completion of an individual research project and writing of a thesis under supervision of a faculty member. .

**MUSIC 499 Undergraduate Research (\*, max. 6)**

**MUSIC 511 Seminar in Field and Laboratory Methods (3)** Methodology of field research in ethnomusicology along with practical experience. Prerequisite: graduate student standing in ethnomusicology or permission of instructor.

**MUSIC 512 Seminar in Ethnomusicology (3/5, max. 35)** Deals with advanced theoretical and methodological problems in ethnomusicology, and with the relationship of ethnomusicology to allied disciplines. Prerequisite: graduate

**MUSIC 520 Music in Higher Education (3)** *Morrison* Philosophical and practical issues surrounding music within the context of higher education. Topics include mission and structure of music programs, development of teaching expertise, teacher/student evaluation, academic freedom, and job opportunities. Appropriate for all graduate music students and does not require background in teaching or education.

**MUSIC 523 Seminar in Music and Socialization (3, max. 9)** *Lundquist* The socialization process and music, including the interaction whereby music culture is learned. Prerequisite: MUSIC 345 or MUSIC 545 or permission of instructor.

**MUSIC 526 History of Theory (3)** Ancient, medieval, early Renaissance.

**MUSIC 527 History of Theory (3)** Renaissance, baroque, early classic.

**MUSIC 528 History of Theory (3)** Classic, romantic, twentieth century.

**MUSIC 530 Seminar in Music Cognition (3, max. 9)** Study of research literature in cognition and music cognition, particularly as it relates to nonverbal musical experience. Prerequisite: MUSIC 344 or MUSIC 544 or permission of instructor.

**MUSIC 531 Proseminar in Ethnomusicology (3)** Theoretical and methodological issues in ethnomusicology based on historical and contemporary major writings. Critical evaluations of works with a broad view toward developing ethnomusicological research. Prerequisite: permission of instructor.

**MUSIC 532 Opera Direction and Production (4/6, max. 12)** Practical experience with problems of the opera theatre.

**MUSIC 533 Preceptorial Readings in Ethnomusicology (5)** Significant ethnomusicological literature on the music cultures of Asia. Meets with MUSIC 316. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 534 Preceptorial Readings in Ethnomusicology (5)** Significant ethnomusicological literature on the music cultures of Africa, the Americas, and Oceania. Meets with MUSIC 317. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 535 Preceptorial Readings in Ethnomusicology (5)** Significant ethnomusicological literature on the music cultures of Europe and North America. Meets with MUSIC 318. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 536 Transcription and Analysis (3)** Study of the methodological principles of transcription and analysis, together with practical exercises in developing transcription skills. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

**MUSIC 544 Psychology of Music: Music Cognition (5)** Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music performance, musical creativity, musical affect, musical preference, social psychology, and neuroscience. Discusses the role of theory, method, and typical procedures for psychological research.

**MUSIC 551 Practicum in Music Instruction (3, max. 9)** Practical application and validation of results of investigation in curriculum, music teaching and learning, performance and theoretical studies. Prerequisite: teaching experience or permission of instructor.

**MUSIC 553 Advanced Choral Techniques (2, max. 18)** Practical application of technique and pedagogy related to choral music. Surveys major choral repertoire. Concurrent enrollment in MUSIC 583 required.

**MUSIC 559 Master's Recital (3, max. 6)** Public performance for students in the Master of Music degree program. Prerequisite: permission of instructor and Master of Music program standing.

**MUSIC 570 Seminar in Schenkerian Analysis (3, max. 9)** *Bernard, Rahn* Advanced work in Schenkerian analysis. Prerequisite: MUSIC 470.

**MUSIC 571 Seminar in Serialism (3, max. 9)** *Bernard, Kopp, Rahn* Advanced theoretical and analytical work in serialism and other nontonal systems. Prerequisite: MUSIC 471 or equivalent.

**MUSIC 572 Advanced Topics in Computer Music (3)** *Karpen, Rahn* Topics vary. Offered: AWSpS.

**MUSIC 573 Seminar in Tonal Analysis (3, max. 9)** Modern theoretical and analytical methods appropriate to study of western music of the eighteenth and nineteenth centuries, conceived independently of or in response to the work of Heinrich Schenker. Prerequisite: MUSIC 470 or permission of instructor.

**MUSIC 574 Analysis of Twentieth-Century Music: 1950 — Present (3)** *Bernard, Durand, Karpen, Rahn, Thome* Analytical examination of major works of second half of twentieth century. Prerequisite: MUSIC 471; MUSIC 472, or permission of instructor.

**MUSIC 575 Seminar in Theory (3, max. 18)** *Bernard, Rahn* Development and discussion of current student and faculty research in compositional/analytical theory and metatheory.

**MUSIC 576 Critical Theory of Music (3, max. 18)** Philosophical foundations of the criticism of music, including relevant contemporary thought in the criticism of literature and the other arts.

**MUSIC 577 Composers of the Twentieth Century (3, max. 9)** *Bernard, Durand, Karpen, Rahn, Thome* Analytical examination of the work of a major composer of the twentieth century. Prerequisite: MUSIC 574 or permission of instructor.

**MUSIC 580 Advanced Conducting (3, max. 9)**  
*Eros, Salzman*

**MUSIC 581 Advanced Conducting (3, max. 9)**  
*Eros, Salzman*

**MUSIC 582 Advanced Conducting (3, max. 9)**  
*Eros, Salzman*

**MUSIC 583 Advanced Choral Conducting (2, max. 18)**  
*Boers*

**MUSIC 590 Keyboard and Doctoral Lecture Recital or Concerto Recital (6, max. 18)**  
Lecture recital or Concerto recital for students in the Doctor of Musical Arts in Piano Performance, in Harpsichord Performance, and in Organ Performance degree programs.

**MUSIC 591 Graduate Composition (\*, max. 30)**  
*Bernard, Durand, Karpen, Rahn*

**MUSIC 599 Advanced Selected Topics (1-3, max. 27)** Selected readings on current issues and problems in music. Prerequisite: permission of a supervising music faculty member.

**MUSIC 600 Independent Study or Research (\*)**

**MUSIC 700 Master's Thesis (\*)**

**MUSIC 800 Doctoral Dissertation (\*)**

## Music Applied

**MUSAP 133 Basic Keyboard (2) VLPA**  
Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSIC 116.

**MUSAP 134 Basic Keyboard (2) VLPA**  
Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 133.

**MUSAP 135 Basic Keyboard (2) VLPA**  
Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 134.

**MUSAP 136 Basic Jazz Keyboard (2, max. 6) VLPA**  
*Seales* Basics of jazz and pop chord voicings, reading lead sheets, basic accompanying in various jazz and pop styles. Audition required.

**MUSAP 137 Class Instruction: Voice (1) VLPA**  
Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required.

**MUSAP 138 Class Instruction: Voice (1) VLPA**  
Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required. Prerequisite: MUSAP 137.

**MUSAP 139 Class Instruction: Voice (1) VLPA**  
Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required. Prerequisite: MUSAP 139.

**MUSAP 205 String Techniques (2, max. 12) VLPA**  
Designed to prepare music education students to teach beginning and intermediate strings in the public schools.

**MUSAP 210 Wind Techniques (2, max. 12) VLPA**  
Designed to prepare music education students to teach beginning and intermediate woodwinds and brass in the public schools.

**MUSAP 217 Percussion Techniques (2, max. 4) VLPA**  
*Collier* The study of basic percussion techniques as they apply to music in the public schools. Acquaints the prospective music education major with percussion performance and teaching techniques.

**MUSAP 218 Guitar Techniques (2, max. 4) VLPA**  
*Partington* Includes exercises to develop a good basic technique emphasizing correct position and movement of both hands, basic folk song accompaniments including a variety of strums, finger picking patterns, hammering on and bass runs, reading guitar music, classical pieces, special effects, and access to other styles. Offered: W.

**MUSAP 233 Secondary Piano (2) VLPA**  
Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 135.

**MUSAP 234 Secondary Piano (2) VLPA**  
Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 233.

**MUSAP 235 Secondary Piano (2) VLPA**  
Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 234.

**MUSAP 237 Secondary Class Instruction: Voice (2, max. 6) VLPA**  
Continuation of basic fundamentals of good singing: breathing, diction, voice focus and repertoire. Designed for students not yet prepared for private instruction. Audition required. Prerequisite: MUSAP 139.

**MUSAP 239 Secondary Piano (2, max. 8) VLPA**  
Intermediate level keyboard repertory. Private instruction. Audition required. Prerequisite: MUSAP 235.

**MUSAP 300 Private instruction: Voice (2-3, max. 45) VLPA**  
*Eaglen, Guyer, Harper* Intended for undergraduate non-majors. Audition required.

**MUSAP 301 Private Instruction: Piano (2-3, max. 45) VLPA**  
*McCabe, Michaelian, Seales, Sheppard* Intended for undergraduate non-majors. Audition required.

**MUSAP 302 Private Instruction: Organ (2-3, max. 45) VLPA**  
*Terry* Intended for undergraduate non-majors. Audition required.

**MUSAP 303 Private Instruction: Harpsichord (2-3, max. 45) VLPA**  
*Terry* Intended for undergraduate non-majors. Audition required.

**MUSAP 304 Private Instruction: Violin (2-3, max. 45) VLPA**  
Intended for undergraduate non-majors. Audition required.

**MUSAP 305 Private Instruction: Violoncello (2-3, max. 45) VLPA**  
*Saks* Intended for undergraduate non-majors. Audition required.

**MUSAP 306 Private Instruction: Double Bass (2-3, max. 45) VLPA**  
*Lieberman* Intended for undergraduate non-majors. Audition required.

**MUSAP 307 Private Instruction: Flute (2-3, max. 45) VLPA**  
*Shin* Intended for undergraduate non-majors. Audition required.

**MUSAP 308 Private Instruction: Oboe (2-3, max. 45) VLPA**  
Intended for undergraduate non-majors. Audition required.

**MUSAP 309 Private Instruction: Clarinet (2-3, max. 45) VLPA**  
Intended for undergraduate non-majors. Audition required.

**MUSAP 310 Private Instruction: Bassoon (2-3, max. 45) VLPA**  
Intended for undergraduate non-majors. Audition required.

**MUSAP 311 Private Instruction: Saxophone (2-3, max. 45) VLPA**  
*Brockman* Intended for undergraduate non-majors. Audition required.

**MUSAP 312 Private Instruction: Horn (2-3, max. 45) VLPA**  
*Kappy* Intended for undergraduate non-majors. Audition required.

**MUSAP 313 Private Instruction: Trumpet (2-3, max. 45) VLPA**  
*Vizzutti* Intended for undergraduate non-majors. Audition required.

**MUSAP 314 Private Instruction: Trombone (2-3, max. 45) VLPA**  
Intended for undergraduate non-majors. Audition required.

**MUSAP 315 Private Instruction: Tuba (2-3, max. 45) VLPA**  
Intended for undergraduate non-majors. Audition required.

**MUSAP 316 Private Instruction: Harp (2-3, max. 45) VLPA**  
*Lehwald* Intended for undergraduate non-majors. Audition required.

**MUSAP 317 Private Instruction: Percussion (2-3, max. 45) VLPA**  
*Collier, Crusoe* Intended for undergraduate non-majors. Audition required.

**MUSAP 318 Private Instruction: Guitar (2-3, max. 45) VLPA**  
*Partington* Intended for undergraduate non-majors. Audition required.

**MUSAP 319 Private Instruction: Viola da Gamba (2-3, max. 45) VLPA**  
Intended for undergraduate non-majors. Audition required.

**MUSAP 320 Private Instruction: Voice (2-3, max. 27) VLPA**  
*Eaglen, Guyer, Harper* Intended for undergraduate majors. Audition required.

**MUSAP 321 Private Instruction: Piano (2-3, max. 27) VLPA**  
*McCabe, Michaelian, Seales, Sheppard* Intended for undergraduate majors. Audition required.

**MUSAP 322 Private Instruction: Organ (2-3, max. 27) VLPA**  
*Terry* Intended for undergraduate majors. Audition required.

**MUSAP 323 Private Instruction: Harpsichord (2-3, max. 27) VLPA**  
*Terry* Intended for undergraduate majors. Audition required.

**MUSAP 324 Private Instruction: Violin (2-3, max. 27) VLPA**  
*Patterson* Intended for undergraduate majors. Audition required.

**MUSAP 325 Private Instruction: Violoncello (2-3, max. 27) VLPA**  
*Saks* Intended for undergraduate majors. Audition required.

**MUSAP 326 Private Instruction: Double Bass (2-3, max. 27) VLPA**  
*Lieberman* Intended for undergraduate majors. Audition required.

**MUSAP 327 Private Instruction: Flute (2-3, max. 27) VLPA**  
*Shin* Intended for undergraduate majors. Audition required.

**MUSAP 328 Private Instruction: Oboe (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 329 Private Instruction: Clarinet (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 330 Private Instruction: Bassoon (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 331 Private Instruction: Saxophone (2-3, max. 27) VLPA** *Brockman* Intended for undergraduate majors. Audition required.

**MUSAP 332 Private Instruction: Horn (2-3, max. 27) VLPA** *Kappy* Intended for undergraduate majors. Audition required.

**MUSAP 333 Private Instruction: Trumpet (2-3, max. 27) VLPA** *Vizzutti* Intended for undergraduate majors. Audition required.

**MUSAP 334 Private Instruction: Trombone (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 335 Private Instruction: Tuba (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 336 Private Instruction: Harp (2-3, max. 27) VLPA** *Vokolek* Intended for undergraduate majors. Audition required.

**MUSAP 337 Private Instruction: Percussion (2-3, max. 27) VLPA** *Lehwalder* Intended for undergraduate majors. Audition required.

**MUSAP 338 Private Instruction: Guitar (2-3, max. 27) VLPA** *Partington* Intended for undergraduate majors. Audition required.

**MUSAP 339 Private Instruction: Viola da Gamba (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 340 Timpani (2-3, max. 27) VLPA** *Crusoe* Intended for undergraduate majors. Audition required.

**MUSAP 341 Mallet Percussion (2-3, max. 27) VLPA** *Collier* Intended for undergraduate majors. Audition required.

**MUSAP 342 Jazz Drum Set (2-3)** Primarily for jazz studies and percussion majors. Audition required for non-majors.

**MUSAP 343 Private Instruction: Viola (2-3, max. 45) VLPA** *Watras* Intended for undergraduate non-majors. Audition required.

**MUSAP 363 Private Instruction: Viola (2-3, max. 27) VLPA** *Watras* Intended for undergraduate majors. Audition required.

**MUSAP 389 World Music (2-3, max. 18) I&S/ VLPA** World music traditions taught by visiting native artists. Consult ethnomusicology staff for current offerings. Intended for undergraduate majors. Audition required. Credit/no credit only.

**MUSAP 420 Private Instruction: Voice (2-3, max. 27) VLPA** *Eaglen, Guyer, Harper* Intended for undergraduate majors. Audition required.

**MUSAP 421 Private Instruction: Piano (2-3, max. 27) VLPA** *McCabe, Michaelian, Seales, Sheppard* Intended for undergraduate majors. Audition required.

**MUSAP 422 Private Instruction: Organ (2-3, max. 27) VLPA** *Terry* Intended for undergraduate majors. Audition required.

**MUSAP 423 Private Instruction: Harpsichord (2-3, max. 27) VLPA** *Terry* Intended for undergraduate majors. Audition required.

**MUSAP 424 Private Instruction: Violin (2-3, max. 27) VLPA** *Patterson* Intended for undergraduate majors. Audition required.

**MUSAP 425 Private Instruction: Violoncello (2-3, max. 27) VLPA** *Saks* Intended for undergraduate majors. Audition required.

**MUSAP 426 Private Instruction: Double Bass (2-3, max. 27) VLPA** *Lieberman* Intended for undergraduate majors. Audition required.

**MUSAP 427 Private Instruction: Flute (2-3, max. 27) VLPA** *Shin* Intended for undergraduate majors. Audition required.

**MUSAP 428 Private Instruction: Oboe (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 429 Private Instruction: Clarinet (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 430 Private Instruction: Bassoon (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 431 Private Instruction: Saxophone (2-3, max. 27) VLPA** *Brockman* Intended for undergraduate majors. Audition required.

**MUSAP 432 Private Instruction: Horn (2-3, max. 27) VLPA** *Kappy* Intended for undergraduate majors. Audition required.

**MUSAP 433 Private Instruction: Trumpet (2-3, max. 27) VLPA** *Vizzutti* Intended for undergraduate majors. Audition required.

**MUSAP 434 Private Instruction: Trombone (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 435 Private Instruction: Tuba (2-3, max. 27) VLPA** Intended for undergraduate majors. Audition required.

**MUSAP 436 Private Instruction: Harp (2-3, max. 27) VLPA** *Lehwalder* Intended for undergraduate majors. Audition required.

**MUSAP 437 Private Instruction: Percussion (2-3, max. 27) VLPA** *Collier, Crusoe* Intended for undergraduate majors. Audition required.

**MUSAP 438 Private Instruction: Guitar (2-3, max. 27) VLPA** *Partington* Intended for undergraduate majors. Audition required.

**MUSAP 439 Private Instruction: Viola da Gamba (2-3, max. 27) VLPA** *Tindemans* Intended for undergraduate majors. Audition required.

**MUSAP 440 Timpani (2-3, max. 27) VLPA** *Crusoe* Intended for undergraduate majors. Audition required.

**MUSAP 441 Mallet Percussion (2-3, max. 27) VLPA** *Collier* Intended for undergraduate majors. Audition required.

**MUSAP 442 Jazz and Non-Western Drumming Techniques (2/3, max. 18) VLPA** *Collier* Focused study of American jazz drumming and/or hand drumming techniques of various world music cultures to broaden the skills of percussion students, preparing them for new demands of contemporary musical styles. Designed primarily for music undergraduates enrolled in the percussion program. Audition required.

**MUSAP 463 Private Instruction: Viola (2-3, max. 27) VLPA** *Watras* Intended for undergraduate majors. Audition required.

**MUSAP 500 Private instruction: Voice (2-3, max. 45)** *Eaglen, Guyer, Harper* Intended for graduate non-majors. Audition required.

**MUSAP 501 Private Instruction: Piano (2-3, max. 45)** *McCabe, Michaelian, Seales, Sheppard* Intended for graduate non-majors. Audition required.

**MUSAP 502 Private Instruction: Organ (2-3, max. 45)** *Terry* Intended for graduate non-majors. Audition required.

**MUSAP 503 Private Instruction: Harpsichord (2-3, max. 45)** *Terry* Intended for graduate non-majors. Audition required.

**MUSAP 504 Private Instruction: Violin (2-3, max. 45)** *Patterson* Intended for graduate non-majors. Audition required.

**MUSAP 505 Private Instruction: Violoncello (2-3, max. 45)** *Saks* Intended for graduate non-majors. Audition required.

**MUSAP 506 Private Instruction: Double Bass (2-3, max. 45)** *Lieberman* Intended for graduate non-majors. Audition required.

**MUSAP 507 Private Instruction: Flute (2-3, max. 45)** *Shin* Intended for graduate non-majors. Audition required.

**MUSAP 508 Private Instruction: Oboe (2-3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 509 Private Instruction: Clarinet (2-3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 510 Private Instruction: Bassoon (2-3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 511 Private Instruction: Saxophone (2-3, max. 45)** *Brockman* Intended for graduate non-majors. Audition required.

**MUSAP 512 Private Instruction: Horn (2-3, max. 45)** *Kappy* Intended for graduate non-majors. Audition required.

**MUSAP 513 Private Instruction: Trumpet (2-3, max. 45)** *Vizzutti* Intended for graduate non-majors. Audition required.

**MUSAP 514 Private Instruction: Trombone (2-3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 515 Private Instruction: Tuba (2-3, max. 45)** Intended for graduate non-majors. Audition required.

**MUSAP 516 Private Instruction: Harp (2-3, max. 45)** *Lehwalder* Intended for graduate non-majors. Audition required.

**MUSAP 517 Private Instruction: Percussion (2-3, max. 45)** *Collier, Crusoe* Intended for graduate non-majors. Audition required.

**MUSAP 518 Private Instruction: Guitar (2-3, max. 45)** *Partington* Intended for graduate non-majors. Audition required.

**MUSAP 519 Private Instruction: Viola da Gamba (2-3, max. 45)** Audition required.

**MUSAP 520 Private Instruction: Voice (3, max. 18)** *Eaglen, Guyer, Harper* Intended for graduate majors. Audition required.

**MUSAP 521 Private Instruction: Piano (3, max. 18)** *McCabe, Michaelian, Sheppard* Intended for graduate majors. Audition required.

**MUSAP 522 Private Instruction: Organ (3, max. 18)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 523 Private Instruction: Harpsichord (3, max. 18)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 524 Private Instruction: Violin (3, max. 18)** *Patterson* Intended for graduate majors. Audition required.

**MUSAP 525 Private Instruction: Violoncello (3, max. 18)** *Saks* Intended for graduate majors. Audition required.

**MUSAP 526 Private Instruction: Double Bass (3, max. 18)** *Lieberman* Intended for graduate majors. Audition required.

**MUSAP 527 Private Instruction: Flute (3, max. 18)** *Shin* Intended for graduate majors. Audition required.

**MUSAP 528 Private Instruction: Oboe (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 529 Private Instruction: Clarinet (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 530 Private Instruction: Bassoon (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 531 Private Instruction: Saxophone (3, max. 18)** *Brockman* Intended for graduate majors. Audition required.

**MUSAP 532 Private Instruction: Horn (3, max. 18)** *Kappy* Intended for graduate majors. Audition required.

**MUSAP 533 Private Instruction: Trumpet (3, max. 18)** *Vizzuti* Intended for graduate majors. Audition required.

**MUSAP 534 Private Instruction: Trombone (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 535 Private Instruction: Tuba (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 536 Private Instruction: Harp (3, max. 18)** *Lehwalder* Intended for graduate majors. Audition required.

**MUSAP 537 Private Instruction: Percussion (3, max. 18)** *Collier, Crusoe* Intended for graduate majors. Audition required.

**MUSAP 538 Private Instruction: Guitar (3, max. 18)** *Partington* Intended for graduate majors. Audition required.

**MUSAP 540 Timpani (3, max. 18)** *Crusoe* Intended for graduate majors. Audition required.

**MUSAP 541 Mallet Percussion (3, max. 18)** *Collier* Intended for graduate majors. Audition required.

**MUSAP 542 Private Instruction: Viola da Gamba (3, max. 18)** Intended for graduate majors. Audition required.

**MUSAP 543 Private Instruction: Viola (2-3, max. 45)** *Watras* Intended for graduate non-majors. Audition required. Offered: AWSpS.

**MUSAP 563 Private Instruction: Viola (2-3, max. 45)** *Watras* Intended for Master's degree candidates. Audition required. Offered: AWSpS.

**MUSAP 570 Private Instruction: Voice (3, max. 27)** *Eaglen, Guyer, Harper* Intended for graduate majors. Audition required.

**MUSAP 571 Private Instruction: Piano (3, max. 27)** *McCabe, Michaelian, Sheppard* Intended for graduate majors. Audition required.

**MUSAP 572 Private Instruction: Organ (3, max. 27)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 573 Private Instruction: Harpsichord (3, max. 27)** *Terry* Intended for graduate majors. Audition required.

**MUSAP 574 Private Instruction: Violin (3, max. 27)** *Patterson* Intended for graduate majors. Audition required.

**MUSAP 575 Private Instruction: Violoncello (3, max. 27)** *Saks* Intended for graduate majors. Audition required.

**MUSAP 576 Private Instruction: Double Bass (3, max. 27)** *Lieberman* Intended for graduate majors. Audition required.

**MUSAP 577 Private Instruction: Flute (3, max. 27)** *Shin* Intended for graduate majors. Audition required.

**MUSAP 578 Private Instruction: Oboe (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 579 Private Instruction: Clarinet (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 580 Private Instruction: Bassoon (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 581 Private Instruction: Saxophone (3, max. 27)** *Brockman* Intended for graduate majors. Audition required.

**MUSAP 582 Private Instruction: Horn (3, max. 27)** *Kappy* Intended for graduate majors. Audition required.

**MUSAP 583 Private Instruction: Trumpet (3, max. 27)** *Vizzuti* Intended for graduate majors. Audition required.

**MUSAP 584 Private Instruction: Trombone (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 585 Private Instruction: Tuba (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 586 Private Instruction: Harp (3, max. 27)** *Lehwalder* Intended for graduate majors. Audition required.

**MUSAP 587 Private Instruction: Percussion (3, max. 27)** *Collier, Crusoe* Intended for graduate majors. Audition required.

**MUSAP 588 Private Instruction: Guitar (3, max. 27)** *Partington* Audition required.

**MUSAP 589 World Music Laboratory (2-3, max. 18)** World music traditions taught by visiting artists with emphasis on cultural pedagogy and traditional theory. The particular culture studied changes from year to year. Required of all graduate students in ethnomusicology. Credit/no credit only. Audition required.

**MUSAP 590 Timpani (3, max. 27)** *Crusoe* Intended for graduate majors. Audition required.

**MUSAP 591 Mallet Percussion (3, max. 27)** *Collier* Intended for graduate majors. Audition required.

**MUSAP 592 Private Instruction: Viola da Gamba (3, max. 27)** Intended for graduate majors. Audition required.

**MUSAP 593 Private Instruction: Viola (2-3, max. 45)** *Watras* Intended for Doctoral degree candidates. Audition required. Offered: AWSpS.

## Music Education

**MUSED 301 Techniques for Teaching Music to Children (2) VLPA** *Campbell* Exercises and applied experiences in sight-singing and error detection, keyboard skills, record and instruments of the Orff ensemble relevant to the teaching of music to children. Prerequisite: either MUSIC 212 or MUSIC 302; MUSAP 135.

**MUSED 304 Introductory Music Methods (2, max. 4) VLPA** *Demorest, Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, and problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Must be taken concurrently with MUSED 301; MUSED 340. Offered: A.

**MUSED 305 Introductory Music Methods II (2, max. 4) VLPA** *Demorest, Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Offered: W.

**MUSED 306 Introductory Music Methods III (2, max. 4) VLPA** *Demorest, Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing

problems unique to public school ensemble instruction. Offered: Sp.

**MUSED 340 Music in Education (3) VLPA Demorest** An orientation to the broad scope of issues regarding music in the schools (K-12), including curriculum, the development of instructional strategies, and evaluation techniques.

**MUSED 401 Tin Pan Alley: Concepts and Teaching Strategies for Music Educators (1) VLPA** Overview of Tin Pan Alley phenomenon that dominated the American popular music industry for nearly 70 years. For music educators. Focuses on cooperative learning strategies and performance considerations in the school environment. Recommended: MUSIC 162.

**MUSED 402 Rock and Roll Roots for Music Educators (1) VLPA** Overview of the musical and cultural roots of American Rock and Roll for music educators. Explores teaching strategies and performance possibilities in the school environment. Recommended: MUSIC 162.

**MUSED 403 Part-Time Student Teaching in Music (6) VLPA Campbell, Demorest, Morrison** Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Credit/no credit only. Offered: AWSp.

**MUSED 404 Full-Time Student Teaching in Music (15) VLPA Campbell, Demorest, Morrison** Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Credit/no credit only. Prerequisite: MUSED 403. Offered: AWSp.

**MUSED 405 Marching Band Technique (2) VLPA McDavid, Morrison, Salzman** Basics of marching and maneuvering discussed and used to write drill. Covers selection of music, use of marching procession, and show design. Students complete a drill for their own band or for an instrumentation determined by the instructor.

**MUSED 410 Instrumental Rehearsal Techniques (3) VLPA Salzman** Includes score preparation, rehearsal formats, and error detection.

**MUSED 431 Curriculum in Music Education (3) VLPA Campbell, Demorest, Morrison** Principles and practices of curriculum design applied to the development of the music curriculum. Individual or group work on elementary and secondary school music curriculum projects.

**MUSED 432 Comprehensive Music in the Secondary School (3) VLPA Demorest** The teaching of music and its literature in music classes other than traditional ensembles from grade six through adults. Prerequisite: MUSED 340.

**MUSED 440 Music for Children (3) VLPA Campbell** Identification and selection of appropriate objectives, materials, teaching strategies and evaluation techniques used in teaching music from birth through grade five, with consideration of various approaches (e.g., Delcroze, Kodaly, Orff) for the musical development of children. Prerequisite: MUSED 302; MUSED 340

**MUSED 442 Instrumental Curriculum: Methods and Materials (3) VLPA Morrison**

Study of the organization and administration of school instrumental music; the selection and use of materials and teaching strategies from beginning to advanced levels of instrumental instruction. Prerequisite: MUSED 340.

**MUSED 443 Choral Curriculum: Methods and Materials (3) VLPA Demorest** Study of the organization and administration of school choral music; the selection and use of materials and teaching strategies from beginning to advanced levels of choral instruction. Prerequisite: MUSED 340.

**MUSED 452 Ethnomusicology in the Schools (3) VLPA Campbell** Issues, teaching materials, and techniques involved in incorporating music cultures of United States and related world music repertoires in K-12 classroom instruction. Prerequisite: MUSED 340.

**MUSED 453 Approaches to Classroom Instruction: K-12 (3) VLPA Campbell** Examines such major instructional approaches as MMCP, Orff, Kodaly, and Dalcroze. Included are the philosophy of each and the methods, materials, and instructional skills needed for classroom application. Prerequisite: MUSED 403.

**MUSED 465 Classroom Management and Evaluation in Music Education (3) VLPA Morrison** Provides future teachers with strategies and techniques for classroom management, motivation, assessment, and evaluation for applications to K-12 school music programs. Prerequisite: MUSED 340.

**MUSED 475 Teaching the Music of Selected Cultures (1, max. 6) VLPA Campbell** Music and culture of a specific world region with particular attention to songs, stories, and instrumental pieces applicable to the teaching of music and the arts in elementary and secondary schools.

**MUSED 480 Music Methods for Classroom Teachers (3) VLPA Campbell** Addresses the basic fundamentals of music and methods for teaching K-6 school children. Topics include repertoire appropriate for different age levels, methods and materials for integrating music into the K-6 curriculum.

**MUSED 496 Special Topics in Music Education (1-3, max. 10) VLPA** Special studies designed to reflect contemporary emphases and concerns in the music education profession.

**MUSED 501 Introduction to Research in Music Education (3) Campbell, Demorest, Morrison** Seminar in research design and method with emphasis on identification of problems in music instruction, interpretation of data, and application of findings to classroom settings.

**MUSED 502 Quantitative Research in Music Education (3) Campbell, Demorest, Morrison** Seminar in quantitative research utilizing experimental, quasi-experimental, and descriptive design, with emphasis on the pursuit of solutions to pedagogical problems through appropriate research procedures, analysis, and interpretation of findings. Prerequisite: MUSED 501.

**MUSED 503 Qualitative Research in Music Education (3) Campbell, Demorest, Morrison** Examination of qualitative modes of inquiry (including ethnographic, case study, phenomenological, and historical) to music instruction in classroom, studio, and community settings. Prerequisite: MUSED 502.

**MUSED 522 Psychology of Music Learning and Teaching (3) Campbell, Demorest, Morrison** Examines previous research in areas related to music cognition, including music perception, music performance, musical creativity, musical affect, musical preference, and social psychology. Explores how this research relates to curriculum and practice in music education. Role of theory, method, and procedure for psychological research in music education.

**MUSED 523 Tests and Measurement (3) Campbell, Demorest, Morrison** Examination of currently published aptitude and achievement tests in music and their uses in music education. Explores the basic methods for constructing classroom tests and their use in evaluation. Selected readings include researching test construction and application of tests and measurement to program evaluation.

**MUSED 524 Seminar in Music Education (3) Campbell, Demorest, Morrison** Special problems in the teaching and supervision of music in the elementary grades. Prerequisite: one year of teaching experience.

**MUSED 525 Seminar in Music Education (3) Campbell, Demorest, Morrison** Special problems in the teaching and administration of music in the secondary school and community college. Prerequisite: one year of teaching experience.

**MUSED 530 Administration and Supervision in Music Education (3) Campbell, Demorest, Morrison** Survey of issues in policy and systems for facilities, student/personnel, technology, school/community relations, and special programs in music education. Focuses on evaluating and improving existing programs. Includes supervision of student teachers.

**MUSED 535 Seminar in Musical Development (3) Campbell, Demorest, Morrison** Critical review of theories, methods of inquiry, designs, and conclusions of research in musical development from early childhood through adolescence. Emphasis on evaluating theories and methods of studying musical development and exploring their relationship to theories of general intellectual development; adult music cognition research; and curriculum and practice in music education.

**MUSED 540 History of American Music Education (3) Campbell, Demorest, Morrison** A chronological examination of individual, social, and political events, and educational philosophies, that characterized the development of music instruction in American schools from colonial times to the present.

**MUSED 542 Comparative Music Education (3) Campbell, Demorest, Morrison** A transcultural examination of philosophy and practice of music instruction.

**MUSED 550 Proseminar in Music Education (3) Campbell, Demorest, Morrison** Examination of the major literature in the philosophy, history, psychology, and sociology of formal school music instruction.

**MUSED 552 World Music Education (3) Campbell** Seminar on issues of multiculturalism and the world music "movement" as they affect school music curriculum and instruction. Curricular content and cultural context examined in relation to teaching K-12 students, teachers, and undergraduate students in music education programs. Offered: AWSpS.

**MUSED 560 Contemporary Issues in Music Education (1-3, max. 6)** *Campbell, Demorest, Morrison* Seminar focusing on review of literature on psychological and sociological aspects of music education, including historical and philosophical foundations of music education in the United States. Appropriate for MA students seeking guidance in preparation of topic for examinations. Prerequisite: MUSED 501.

**MUSED 561 Seminar in Theories of Music Instruction (3, max. 9)** *Campbell, Demorest, Morrison* Theories of music instruction, with special attention to curriculum, instructional procedures, and assessment of learning. Prerequisite: MUSED 501 or permission of instructor.

**MUSED 575 Seminar in Music Education Research (1-3, max. 6)** *Campbell, Demorest, Morrison* Examines research and research-based issues relevant to music instruction and learning. Doctoral students should register each quarter until successful completion of general examination. Offered: A.

## Music Ensemble

**MUSEN 100 University Singers (1, max. 15)** VLPA Credit/no credit only.

**MUSEN 300 University Symphony Orchestra (1, max. 15)** VLPA

**MUSEN 301 Wind Ensemble (1, max. 15)** VLPA *Salzman*

**MUSEN 302 Symphonic Band (1, max. 10)** VLPA *Salzman*

**MUSEN 303 Marching Band (2, max. 10)** VLPA *McDavid*

**MUSEN 304 Percussion Ensemble (1, max. 12)** VLPA *Collier*

**MUSEN 305 Brass Ensemble (1, max. 12)** VLPA *Kappy*

**MUSEN 306 Woodwind Ensemble (1, max. 12)** VLPA *Shin*

**MUSEN 307 Recital Choir (1, max. 15)** VLPA *Boers* Choir presents two recital programs per quarter, surveying a wide variety of repertoire of all styles and periods. Credit/no credit only.

**MUSEN 308 Guitar Ensemble (1, max. 18)** VLPA *Partington* Study and performance works for two, three, and four guitars and one guitar with various solo instruments or voice. Designed for guitar performance majors. Other instrumentalists may register with instructor's permission. Offered: AWP.

**MUSEN 309 Concert Band (1, max. 10)** VLPA *Salzman* Open for membership without audition to students from any major field of study as well as faculty and community members. This ensemble is also an outstanding forum for music majors to refine skills on primary or secondary instruments. Offered: AWP.

**MUSEN 325 Accompanying (2, max. 30)** VLPA

**MUSEN 340 Vocal Jazz Ensemble (1, max. 6)** VLPA Credit/no credit only.

**MUSEN 345 Jazz Workshop (1, max. 12)** VLPA *Collier, Seales*

**MUSEN 346 Studio Jazz Ensemble (1, max. 6)** VLPA

**MUSEN 347 Opera Chorus (1, max. 12)** VLPA

**MUSEN 350 University Chorale (1, max. 12)** VLPA Credit/no credit only.

**MUSEN 351 Chamber Singers (1, max. 15)** VLPA *Boers*

**MUSEN 361 Piano Ensemble (1, max. 3)** VLPA Study and performance of works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability.

**MUSEN 368 Harp Ensemble (1, max. 12)** VLPA *Lehwalder*

**MUSEN 369 Baroque Chamber Ensemble (1, max. 18)** VLPA *Terry*.

**MUSEN 375 Opera Workshop (1, max. 6)** VLPA *Zahn* Preparation of music theatre repertoire. Intended for the mature voice student.

**MUSEN 381 Chamber Music (1, max. 18)** VLPA

**MUSEN 382 Opera Theatre (2, max. 6)** VLPA *Zahn* Public performance of roles in opera.

**MUSEN 383 Collegium Musicum (1, max. 6)** VLPA

**MUSEN 384 Contemporary Group (1, max. 6)** VLPA *Durand* Exploration of notation and performance problems in today's music; preparation for public performance. Credit/no credit only.

**MUSEN 410 Steelband (1, max. 6)** VLPA Performing and arranging techniques for the steelband, and percussion, in a variety of Caribbean and Latin American music styles, including calypso, soca, reggae, and salsa.

**MUSEN 446 Advanced Studio Jazz Ensemble (1, max. 9)** VLPA Preparation and performance of material appropriate to large jazz ensemble concerts, clinics, and radio and television broadcasts. Recommended: three quarters of MUSEN 346.

**MUSEN 500 University Symphony Orchestra (1, max. 9)**

**MUSEN 501 Wind Ensemble (1, max. 9)** *Salzman*

**MUSEN 503 Marching Band (2, max. 6)** *McDavid*

**MUSEN 504 Percussion Ensemble (1, max. 9)** *Collier*

**MUSEN 505 Brass Ensemble (1, max. 9)** *Kappy*

**MUSEN 506 Woodwind Ensemble (1, max. 9)** *Shin*

**MUSEN 507 Recital Choir (1, max. 9)** VLPA Choir presents two recital programs per quarter, surveying a wide variety of repertoire of all styles and periods. Credit/no credit only.

**MUSEN 508 Guitar Ensemble (1, max. 9)** VLPA *Partington* Study and performance works for two, three, and four guitars and one guitar with various solo instruments or voice. Designed for guitar performance majors. Other instrumental-

ists may register with instructor's permission. Offered: AWP.

**MUSEN 525 Accompanying (2, max. 18)**

**MUSEN 540 Vocal Jazz Ensemble (1, max. 9)** Credit/no credit only.

**MUSEN 545 Jazz Workshop (1, max. 9)** *Collier, Seale, Vu*

**MUSEN 546 Studio Jazz Ensemble (1, max. 9)**

**MUSEN 547 Opera Chorus (1, max. 9)**

**MUSEN 550 University Chorale (1, max. 9)** Credit/no credit only.

**MUSEN 551 Chamber Singers (1, max. 9)** *Boers*

**MUSEN 561 Piano Ensemble (1, max. 9)** Study and performance of works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability.

**MUSEN 568 Harp Ensemble (1, max. 9)** *Lehwalder*

**MUSEN 569 Baroque Chamber Ensemble (1)** *Terry*.

**MUSEN 575 Opera Workshop (1, max. 9)** *Zahn* Preparation of music theatre repertoire. Intended for the mature voice student.

**MUSEN 580 Sinfonietta (1, max. 9)**

**MUSEN 581 Chamber Music (1, max. 9)**

**MUSEN 582 Opera Theatre (2, max. 18)** Public performance of roles in opera.

**MUSEN 583 Collegium Musicum (1, max. 9)**

**MUSEN 584 Contemporary Group (1, max. 9)** *Durand* Exploration of notation and performance problems in today's music; preparation for public performance. Credit/no credit only.

## Music History

**MUHST 210 Introduction to the History of Western Music I (3) VLPA** *Taricani* Introduction to the critical study of Western music history, including representative composers, works, and genres, as well as significant concepts and issues. Origins of Western Music. Prerequisite: 2.0 in MUHST 212. Offered: A.

**MUHST 211 Introduction to the History of Western Music II (3) VLPA** *Rumph, Starr, Taricani* Introduction to the critical study of Western music history, including representative composers, works, and genres, as well as significant concepts and issues. Baroque and Classical Periods. Prerequisite: MUSIC 203, MUSIC 206; either 3.0 in MUSIC 120 or minimum score of 80% on music history placement test. Offered: W.

**MUHST 212 Introduction to the History of Western Music III (3) VLPA** *Starr* Introduction to the critical study of Western music history including representative composers, works, and genres as well as significant concepts and issues. Nineteenth and Twentieth Centuries. Prerequisite: 2.0 in MUHST 211. Offered: Sp.

**MUSIC 260 Orchestral Music (5) VLPA** Orchestral music from its beginnings in the

seventeenth century through recent developments; evolution of the symphony.

**MUSIC 261 Mozart (5) VLPA** Introduction to Mozart's music and to musical life in Habsburg Austria during the Enlightenment. Mozart's musical personality studied through masterpieces in all genres, with principal emphasis on listening. Ability to read music not required.

**MUSIC 262 Introduction to Twentieth-Century Music (3) VLPA Starr** Listener's survey of important composers and trends from Debussy through electronic music.

**MUSIC 263 Opera (5) VLPA Rumph** Contributions of music, text, and staging; study of representative works concentrating on problems of combining these elements into a composite work of art.

**MUSIC 264 Sacred Music in the European Tradition (5) VLPA** Surveys European and American sacred music from the 12th to 20th centuries, examining the important role of music in religious worship. Considers the means composers used to make musical works sound the way they do to convey the messages of the texts through music. Offered: jointly with RELIG 264.

**MUHST 301 Music and the American Experience (3) I&S/VLPA Starr** Survey of American music from the colonial period to the present day, with emphasis on in-depth examination of representative works from both cultivated and vernacular traditions. Prerequisite: MUHST 210; MUSIC 303; MUSIC 306. Offered: WSp.

**MUHST 310 Perspectives in Music History (3, max. 6) I&S/VLPA** Overview of different stylistic periods in music history. Perspectives include music and philosophy, music and gender, and music and text. Students develop an insight into the manner in which similar questions have been approached in diverse cultures and periods. Prerequisite: MUHST 210; MUSIC 303; MUSIC 306. Offered: WSp.

**MUHST 311 Beethoven in Western Culture (3) I&S/VLPA** Comprehensive study of Beethoven's works and their nineteenth- and twentieth-century reception, with consideration of how Western culture has used Beethoven's music in its constructions of subjectivity, genius, and national and other collective identities. Prerequisite: MUSIC 303; MUSIC 306; MUHST 210. Offered: WSp.

**MUHST 330 Music in the United States (5) VLPA Starr** Contribution of music to the development of American culture.

**MUHST 400 Medieval Music: To 1400 (3) VLPA Taricani** Critical readings on issues in medieval music. Works to be studied included repertory from chant, motets, and sacred and secular music of the Middle Ages.

**MUHST 401 Early British Music: 1300-1700 (3) VLPA Taricani** Examines the history of British music from its earliest polyphony through the music of Purcell. Stylistic features of English music studied, including medieval polyphony, Tudor music, Elizabethan music, and seventeenth-century music through Purcell.

**MUHST 402 Late Renaissance Secular Music: 1525-1630 (3) VLPA Taricani** The madrigal in Italy, England, and Germany. The Chanson, Jannequin through Lassus.

**MUHST 403 Late Renaissance Sacred and Instrumental Music: 1525-1630 (3) VLPA Taricani** Latin church music. Willaert through G. Gabrieli; early Reformation church music, Walther through Gibbons; instrumental music, Cabezon, the English virginal school, and Sweelinck.

**MUHST 404 Baroque Keyboard Music (3) VLPA** Forms and styles: Frescobaldi through J.S. Bach and C.P.E. Bach.

**MUHST 405 Orchestral Music: 1620-1760 (3) VLPA Corelli** through the Mannheim School. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 406 Baroque Choral Music (3) VLPA Bozarth** Monteverdi through Handel. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 407 Baroque Opera (3) VLPA** Monteverdi through Handel.

**MUHST 408 Keyboard Music: 1760-1830 (3) VLPA Bozarth** Haydn through Schubert. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 409 Chamber Music: 1760-1830 (3) VLPA** Haydn through Schubert. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 410 Orchestral Music: 1760-1830 (3) VLPA** Haydn through early Berlioz.

**MUHST 411 Art Song, 1760-1830 (3) VLPA** The art song in European culture during the Classical and early Romantic periods. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 412 Choral Music: 1750-1830 (3) VLPA** Large works for chorus and orchestra, Haydn through Beethoven.

**MUHST 413 Opera: 1750-1830 (3) VLPA Rumph** Gluck through Bellini.

**MUHST 414 Keyboard Music: 1830-1915 (3) VLPA Bozarth** Schumann through Debussy. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 415 Chamber Music: 1830-1915 (3) VLPA** Schumann through Ravel. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 416 Orchestral Music: 1830-1915 (3) VLPA** Schumann and Mendelssohn through early Schoenberg and Stravinsky. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 417 Art Song: 1830-1915 (3) VLPA Bozarth** The Lieder of Schumann, Brahms, Wolf, Strauss, Mahler, and Schoenberg. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 418 Choral Music: 1830-1915 (3) VLPA Bozarth** Selected choral masterpieces. Mendelssohn through Schoenberg.

**MUHST 419 Opera: 1830-1915 (3) VLPA Rumph** German, French, and Italian operatic traditions. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 420 Authenticity and Performance (3) VLPA** The practical and philosophical issues raised by historically informed performance of early music on period instruments. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 421 Music Criticism (3) VLPA Starr** Study of the various forms of music criticism, with an emphasis on the writing of valid examples and evaluation of one's own work along with that of others — classmates, journalists, and academic critics. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 422 Gender and Music (3) VLPA Tsou** Investigates how gender issues have shaped the creation and perception of music; introduces women composers and their music. Topics include writing women's biography; creation of the music canon; gender issues in opera; intertwining issues of race, class, and gender, blues women; and popular music. Offered: W. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 423 Twentieth-Century Music to 1945 (3) VLPA Starr** Intensive study of selected composers and works exemplifying the new vocabularies, grammars, and styles of the early part of the twentieth century. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 424 Music Since 1945 (3) VLPA Starr** Diversity of the contemporary musical scene. Vocabularies appropriate for the description and understanding of the new music, developed through study of representative composers and works, and appropriate readings. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 425 Jazz History and Analysis (3) VLPA Collier** Major eras and styles of jazz with emphasis on technical aspects of jazz music: composition, arranging, improvisation practices. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 426 American Popular Music (3) VLPA Starr** An in-depth consideration of American popular music styles and repertory from about 1920 to the present day. Analysis of representative pieces; consideration of critical and aesthetic issues relating to popular music; relationship of popular music to "art" music and to American culture and society. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 429 Music, Literature, and the Arts (3) VLPA** Literary and visual art works that include musical subject matter and forms; musical genres that incorporate other arts such as opera and ballet. Related philosophical writings. Includes works of a particular time period or investigation of a specific problem in comparative arts. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 497 Special Topics in Music History (1-3, max. 6) VLPA Bozarth, Rumph, Taricani, Tsou** Topics vary each quarter. Prerequisite: 2.0 in MUHST 210; 2.0 in MUSIC 303; 2.0 in MUSIC 306.

**MUHST 500 Seminar in Methods of Music Research (3) Rumph, Taricani** Explores various critical approaches to research in music at the

graduate level, examining specialized bibliographical resources, controversial arguments about musical issues, and other matters of musical criticism required to begin advanced study of music. Prerequisite for all graduate music history courses except MUHST 515.

**MUHST 503 Readings in Medieval and Renaissance Music (5)** *Taricani* Musical styles, genres, and forms of the Middle Ages and Renaissance. Focuses upon musicological problems and controversy related to music composed between ca. 1000 and 1600. Prerequisite: permission of instructor.

**MUHST 504 Seminar in Medieval Music (3, max. 6)** *Taricani* Prerequisite: MUHST 500.

**MUHST 505 Seminar in Renaissance Music (3, max. 6)** *Taricani* Prerequisite: MUHST 500.

**MUHST 506 Seminar in Baroque Music (3, max. 6)** *Bozarth* Prerequisite: MUHST 500.

**MUHST 508 Seminar in the Viennese Classical Period: 1760-1830 (3, max. 6)** *Bozarth* Prerequisite: MUHST 500.

**MUHST 509 Seminar in Nineteenth-Century Music: 1830-1890 (3, max. 6)** *Bozarth, Rumph* Prerequisite: MUHST 500.

**MUHST 510 Seminar in Music Since 1890 (3, max. 6)** *Starr* Prerequisite: MUHST 500.

**MUHST 515 Seminar in Medieval and Renaissance Notation (5)** *Taricani* Gregorian chant through sixteenth-century prints.

**MUHST 519 Seminar in Modern Editorial Procedures (5)** *Bozarth* Study of modern procedures for preparing critical editions. Related areas of study may include analysis of musical style and historical and performance problems inherent in works being edited.

**MUHST 520 Seminar in American Music (3, max. 6)** *Starr* Research in the life, works, and times of composers in the United States from colonial days to the present. Prerequisite: MUHST 500.

**MUHST 537 Seminar on Opera (3, max. 6)** Prerequisite: MUHST 500.

---

## Near Eastern Languages and Civilization

### Near Eastern Languages and Civilization

**NEAR E 150 Israel: Dynamic Society and Global Flashpoint (5)** *I&S Barzilai, Migdal, Pianko, Sokoloff* Introduces the people, institutions, and culture of Israel in the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture. Offered: jointly with SIS 150.

**NEAR E 199 Study Abroad (1-12, max. 15)** Credit for 200-level NEAR E courses in an approved study abroad program. Requires credit

evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWPSP.

**NEAR E 205 Religion, Violence, and Peace: Patterns Across Time and Tradition (5)** *I&S Noegel, Wellman* Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with HUM/RELIG 205; W.

**NEAR E 210 Introduction to Islamic Civilization (5)** *I&S/VLPA* Major developments in Islamic civilization from advent of Islam in seventh century to present. Islamic history, law, theology, and mysticism, as well as the politics, cultures, and literatures of the various Islamic societies. Offered: jointly with SISME 210.

**NEAR E 211 Islam (5)** *I&S/VLPA* Introduction to important cultural and historical aspects of Islam, focusing on basic concepts and developments such as prophethood, Quran and Hadith, canon and law, ritual, social theory, Sufism, theology, and sectarianism. Special attention to comparison of varied Muslim practices and beliefs, and their relation to textual and personal authority. Offered: jointly with RELIG 211.

**NEAR E 212 Introduction to the Quran (5)** *I&S/VLPA* Emphasis on the historical context of the Quran, the history of the text, its collection, organization, and interpretation. In English. Offered: jointly with RELIG 212.

**NEAR E 213 Introduction to the Modern Middle East (5)** *I&S* Major social and political trends in the Middle East during the 18th, 19th, and 20th centuries. Basic principles of Islam and its diversity, changing balance of power during the early modern period; European colonialism and withdrawal; pan-Arabism, nationalism, feminism and religious resurgence. Offered: jointly with SISME 213.

**NEAR E 220 Introduction to the Ancient Near East (5)** *I&S/VLPA Noegel* Surveys the peoples, places and events of the ancient Near East. Examines the cultures of Mesopotamia, Egypt, Canaan, and Israel with an eye to each culture's cultural contributions. Pays special attention to shared cultural elements as well as distinguishing characteristics of the peoples of these regions.

**NEAR E 221 Digital Egypt (3)** *I&S/VLPA* Uses technology to explore themes surrounding the study of Egypt, from ancient times through the early Islamic period. Intended as a broad interdisciplinary introduction to Egypt's history and cultural legacy.

**NEAR E 230 Themes in Near Eastern Literature (5)** *VLPA, I&S* Significant and interesting aspects of Near Eastern culture and society as represented by literary themes. Aspects of Near Eastern life and art such as women, minority groups, mysticism, and modern literature. Content varies.

**NEAR E 240 Introduction to the Hebrew Bible: Old Testament (5)** *I&S/VLPA* Examines the Hebrew Bible (Old Testament) in translation and its relationship with literatures of ancient Near East. Comparisons drawn between biblical text and literary works of Canaan, Egypt,

Greece, Mesopotamia. Emphasis on the sophisticated literary techniques employed by biblical writers. Offered: jointly with RELIG 240.

**NEAR E 242 Cultural History of Turkey: From Empire to Nation (5)** *I&S/VLPA* Topics include: social, economic, and political structures of Ottoman and Turkish Anatolia; language, literature, and artistic tradition; social status of women, literacy and illiteracy, the secular enterprise of Kemal Ataturk; Islamic fundamentalism, educational institutions, Kurdish nationalism. Offered: W.

**NEAR E 250 Iranian Culture and Civilization (5)** *I&S/VLPA* Explores the culture and civilization of this Middle Eastern society through a multi-disciplinary approach that includes such manifestations as architecture, carpet-weaving, story-telling, and the composition of poetry.

**NEAR E 251 Jewish Life in Literature and Film (3)** *I&S/VLPA* Major themes of Jewish life treated in modern narrative and cinema. Topics include religious tradition and modernity. Jewish immigration to America, responses to the Holocaust and Zionism.

**NEAR E 310 Modern Near Eastern Literatures in English Translation (3)** *VLPA* Contemporary cultures of the Middle East studied through exposure to a representative sample of their literary work. Texts selected address major issues in Middle Eastern societies, e.g. tradition versus modernity, national identity and the challenge of the West, Arab-Israeli conflict.

**NEAR E 325 Modern Hebrew Literature in English (3)** *VLPA Sokoloff* Major developments in Hebrew literature from the Enlightenment to the current Israeli literature. .

**NEAR E 326 Israeli Identities (5)** *VLPA Sokoloff* Examines fiction and film, as well as selected poetry, popular songs, and essays, to explore diverse groups within contemporary Israeli society. Topics include the sabra ideal, holocaust survivors, Sephardic/Mizrahi communities, religious and secular Jews, Israel's Arab minority, and questions of gender.

**NEAR E 350 The City of Cairo (3)** *I&S/VLPA* Development of Fustat and Cairo, 600-1800, with special emphasis on art and architecture. Consideration of the economic, social, and geographical influences on the creation of the distinctive Egyptian styles of Islamic art. Offered: jointly with ART H 350.

**NEAR E 363 Oral Literature of the Turkic Peoples of Central Asia I: the Heroic Epos (3)** *VLPA Cirtautas* Representative heroic poems of Central Asian Turkic peoples now living in the Central Asian Republics and China. Origin of the heroic epos, its relation to the romantic epos and other oral literary genres. Art of the singer and his role in nomadic Turkic society. Emphasis on *Manas*, the monumental epos of Kirghiz.

**NEAR E 375 Turkic Peoples of Central Asia (3)** *I&S Cirtautas* History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with SIS 377.

**NEAR E 399 Study Abroad (1-12, max. 15)** Credit for NEAR E 200-400 level courses in an approved study abroad program. Requires credit

evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**NEAR E 402 Classical Arabic Literature in Translation (3) VLPA** *DeYoung* Examines development of Arabic literature from its beginnings through the fall of the Abbasid dynasty to the Mongols. Coincides with period when Arabic language and literature were dominant forces in Islamic civilization. Topics include: impact of Islam on the literature, courtly love, mystical poetry, the Thousand-and-One Nights, and Hispano-Arabic literature. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 403 Colonialism, Nationalism, and the Modern Arabic Novel (3) I&S/VLPA** *DeYoung* Examines how representative novels from the modern canon in Arabic have both endorsed and critiqued aspects of nationalism and colonialist ideology. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 411 Digital Media: The Middle East and Central Asia (5) VLPA** *Waters* Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

**NEAR E 420 Islamic Theological Literature in English (3) VLPA** Readings from Mu'tazilite and Ash'arite works and from traditionalist works opposed to theology.

**NEAR E 421 Islamic Mystical Literature in English (3) VLPA** Readings from the works of principal Sufi writers and poets.

**NEAR E 422 Islamic Philosophical and Scientific Literature in English (3) VLPA** Readings in philosophy, the physical sciences, and medicine.

**NEAR E 423 Persian Literature in Translation (3) VLPA** Designed to familiarize students with an expanding collection of works translated from Persian literature, both classical and modern, into English. Focuses on a few representative texts and offers interpretations of the culture through close readings. Prior acquaintance with Iranian culture not required.

**NEAR E 425 Current Trends in Modern Near Eastern Literature and Criticism (3) VLPA** Modern literary tradition of the Near East with emphasis on major literary movements and/or genres and literary criticism in the modern period. The literatures of the Arab world, Persia, Turkey, and Israel are considered in alternate quarters.

**NEAR E 430 Scripture and Law in Islam (5) I&S/VLPA** Examines concept and use of scripture in Islam, with special attention to issues of canon and commentary, heavenly books, talismanic uses, and the place of scripture in ritual. In English. Offered: jointly with RELIG 430.

**NEAR E 432 Ritual and Territory in Islam (5) I&S/VLPA** Comparative study of Islamic ritual practices and related development of jurisprudence and law. Focus on sacrifice, political and social legal theory, pilgrimage, regulation of the body, and the diversity of contemporary practices. In English. Offered: jointly with RELIG 432.

**NEAR E 433 Life of Prophet Muhammad (5) I&S/VLPA** Examines historical and religious traditions associated with the life of the Prophet Muhammad with particular attention to the biography in classical Islam. Focuses on Muhammad as prophet, holy man, law-giver, mystic, and statesman. Comparison with other religious figures such as Jesus and the Buddha. In English. Offered: jointly with RELIG 433.

**NEAR E 435 Major Trends in Modern Arabic Fiction (3) VLPA** *DeYoung* Development of Arabic prose fiction from the end of the nineteenth century to the present. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 436 Arab American Writers (3) I&S/VLPA** *DeYoung* Explores the influence of Arab American writing both in the United States and the Arab world during the nineteenth and twentieth centuries. Discusses issues of emigration to the United States from the Arab world and its impact on the formation of a distinctive Arab American identity. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 437 Thousand and One Nights (3) VLPA** *DeYoung* An examination of the major story cycles of the Thousand and One Nights collection, in its social and historical context. Prerequisite: either NEAR E 211 or NEAR E 212.

**NEAR E 440 Calligraphy in Islamic Culture (3) VLPA** Survey of the esthetics, uses, interpretations of artistic writing in Islamic culture with a "hands on" approach to recognizing, appreciating, and creating Arabic script calligraphy. Students need not know Arabic script nor have calligraphic talents, although some familiarity with Islamic civilization is helpful.

**NEAR E 442 Turkish Literature in Translation (3) VLPA** Covers major theoretical issues concerning Ottoman court literature and Turkish epic and troubadour poetry. Major writers and works of modern Turkish literature read and analyzed in their social, political, and theoretical contexts. Previous study of Turkish literature not required.

**NEAR E 443 The Word and the Empire: Reading Ottoman Literature (3-5) I&S/VLPA** *Kuru* Approaches Ottoman literature through translations and scholarly articles in English. Evaluates this particular literary tradition as an imperial production, through an analysis and critical reading of course materials.

**NEAR E 450 Survey of the Cultures of the Turkic Peoples of Central Asia (3) I&S/VLPA** *Cirtautas* Nomadic and sedentary cultures of the Turkic peoples of Central Asia. Emphasis on language, literature, and adherence to traditional modes of life. Offered: jointly with SISRE 450.

**NEAR E 451 Pharaonic Egypt in the Context of the Ancient Near East (3) I&S/VLPA** *Noegel* Surveys the history, literature, and archaeology of ancient Egypt from the first pharaohs to the conquest of Alexander the Great. Introduces the field of Egyptology, and focuses on the continuity of Egyptian history and culture in context. Slide presentations supplement the readings and in-class lectures.

**NEAR E 452 The Biblical Song of Songs (3) VLPA** *Noegel* Examines the erotic and beautiful Song of Songs within the context of ancient (and medieval) Near Eastern love poetry and correlates close readings of the book with various interpretations it has received from

antiquity until today. No knowledge of Hebrew or the Bible is required. Offered: jointly with SISJE 452.

**NEAR E 453 The Biblical Prophets (3) I&S/VLPA** *Noegel* Explores the biblical prophets (in translation) within their Near Eastern contexts. Studies them for their historicity, literary and rhetorical sophistication, and ideological agendas. This course seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible is required. Offered: jointly with SISJE 453.

**NEAR E 454 Israel: The First Six Centuries BCE (3) I&S/VLPA** *Noegel* Traces the Israelites, from the Babylonian destruction of the Jerusalem Temple (586 BCE) to events following the destruction of the second Temple (1st century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible is required. Offered: jointly with SISJE 454.

**NEAR E 455 The Kings of Monarchic Israel (3) I&S/VLPA** *Noegel* Examines the biblical accounts (in translation) concerning the formation and collapse of the united Israelite monarchy. Investigates the archaeological and textual evidence for their historicity, the literary sophistication of these accounts, and Israelite kingship within the wider context of the ancient Near East. No knowledge of the Bible is required. Offered: jointly with SISJE 455.

**NEAR E 457 The History of Biblical Interpretation (3) I&S/VLPA** *Noegel* Traces biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a "hands-on" approach to the material and explores various hermeneutics by applying them in class. Offered: jointly with RELIG 457.

**NEAR E 490 Supervised Study (1-6, max. 18)** Special work in Near Eastern studies for graduates and undergraduates.

**NEAR E 495 Trends in the Contemporary Middle East (3) I&S** *Bacharach, De Young* Perspectives on cultural, political, and other aspects of Middle Eastern societies. Focuses on background complexities rather than immediate political-military confrontations. Topics vary. Offered: jointly with SISME 495.

**NEAR E 496 Special Studies in Near Eastern Languages and Civilization (3-5, max. 15) VLPA** Offered occasionally by visitors or resident faculty. Content varies.

**NEAR E 498 Senior Essay (5) I&S/VLPA** Supervised individual research and writing of a major paper during the senior year. Offered: AWSp.

**NEAR E 499 Undergraduate Research (1-6, max. 18)**

**NEAR E 511 Digital Media: The Middle East and Central Asia (5) Waters** Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

**NEAR E 518 Foreign Language Teaching Methodology (2)** *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with ASIAN 518/GERMAN 518/SCAND 518/SLAV 518.

**NEAR E 520 Seminar on Near Eastern Civilization and Thought (3, max. 27)** Content varies.

**NEAR E 521 Research Methods (3)** Introduction to research in Islamic civilization. Research methods, primary sources, evidence and documentation, reference works, transliteration systems, scholarly writing style.

**NEAR E 522 Islamic Theology (3)** Various schools of Islamic theology.

**NEAR E 523 Islamic Philosophy (3)** Various topics and problems dealt with by the Islamic philosophers.

**NEAR E 524 Islamic Law (3)** Selected topics in Islamic law that highlight major aspects of Islamic civilization. Offered: jointly with LAW B 556.

**NEAR E 525 Islamic Institutions (3)** Islamic institutions of the caliphate, the sultanate, the bureaucracy, taxation, mosques, and madrasahs, as well as theories of government.

**NEAR E 530 Seminar on Near Eastern Literature (3, max. 27)** Prerequisite: reading knowledge of at least one Near Eastern language. Content varies.

**NEAR E 531 Proseminar in Literary Analysis (3, max. 9)** Introduction to the theory and techniques of the study of literature in general and Near Eastern literatures in particular. Content varies. Prerequisite: reading knowledge of at least one Near Eastern language.

**NEAR E 532 Theory and Practice in Modern Near Eastern Literature (3)** Application of literary theory to works of modern Near Eastern literature. Concentrates on one major theory each year. Content varies.

**NEAR E 533 Islamic Poetry and Poetics (3)** Detailed introduction to prosody and rhyme in classical Arabic and Persian, followed by critical analysis of selected texts. Prerequisite: advanced level of Arabic or Persian; some knowledge of the other recommended.

**NEAR E 595 Modern Methods and Materials in Teaching Near Eastern Languages (3)** *Elkhafai* Theory and practice of communicative language teaching; current developments in foreign-language teaching; evaluation of teaching materials; includes participation at the departmental and university-wide fall orientation; required for beginning teaching assistants of Near Eastern languages; requires enrollment in Near E 518. Credit/no credit only. Offered: A.

**NEAR E 596 Special Studies in Near Eastern Languages and Civilization (3-5, max. 15)** Offered occasionally by visitors or resident faculty. Content varies.

**NEAR E 600 Independent Study or Research (\*)**

## Arabic

**ARAB 199 Study Abroad (1-12, max. 15)** Credit for elementary or intermediate Arabic in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: A/WSpS.

**ARAB 399 Study Abroad (1-12, max. 15)** Credit for elementary or intermediate Arabic in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: A/WSpS.

**ARAB 401 Intensive Elementary Arabic (15)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 411, 412, 413 taken.) If Arabic is the student's language of admission, only 10 credits count towards graduation. Offered: S.

**ARAB 411 Elementary Arabic (5)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 401 taken.)

**ARAB 412 Elementary Arabic (5)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 401 taken.) Prerequisite: ARAB 411.

**ARAB 413 Elementary Arabic (5)** Study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 401 taken.) Prerequisite: ARAB 412.

**ARAB 414 Spoken Arabic (3)** Study of grammar with emphasis on oral drill in modern spoken Arabic (Western or Eastern).

**ARAB 415 Spoken Arabic (3)** Study of grammar with emphasis on oral drill in modern spoken Arabic (Western or Eastern).

**ARAB 416 Spoken Arabic (3)** Study of grammar with emphasis on oral drill in modern spoken Arabic (Western or Eastern).

**ARAB 421 Intermediate Arabic (5) VLPA** Reading of selected texts in standard Arabic, with continuing emphasis on grammar and syntax. Prerequisite: either ARAB 401 or ARAB 413.

**ARAB 422 Intermediate Arabic (5) VLPA** Reading of selected texts in standard Arabic, with continuing emphasis on grammar and syntax. Prerequisite: ARAB 421.

**ARAB 423 Intermediate Arabic (5) VLPA** Reading of selected texts in standard Arabic, with continuing emphasis on grammar and syntax. Prerequisite: ARAB 422.

**ARAB 424 Intensive Intermediate Arabic (15) VLPA** Equivalent to one year of study of standard Arabic at intermediate level. Extension of knowledge in grammar, syntax and vocabulary, and skills in reading, writing, and conversation. May not be taken for credit if ARAB 421, 422, 423 previously taken for credit. Prerequisite: either ARAB 401 or ARAB 413. Offered: S.

**ARAB 431 Advanced Arabic (5) VLPA** Focus on Arabic at the advanced level through in-depth examination of grammar, reading of selected texts, and brief surveys of some major

reference materials. Prerequisite: either ARAB 423 or ARAB 424.

**ARAB 432 Advanced Arabic (5) VLPA** Focus on Arabic at the advanced level through in-depth examination of grammar, reading of selected texts, and brief surveys of some major reference materials. Prerequisite: ARAB 431.

**ARAB 433 Advanced Arabic (5) VLPA** Focus on Arabic at the advanced level through in-depth examination of grammar, reading of selected texts, and brief surveys of some major reference materials. Prerequisite: ARAB 432.

**ARAB 451 Adab Prose: Jahiz (3) VLPA** Readings in early Arabic prose. Prerequisite: ARAB 433.

**ARAB 452 Maqamat: Hamadhani, Hariri (3) VLPA** *MacKay* Reading of several maqamat (essays in rhymed prose) of al-Hamadhani and al-Hariri. Examination of the maqamat genre as a whole. Prerequisite: ARAB 433.

**ARAB 453 Historical Texts (3) I&S/VLPA** Readings in Arab historians with particular reference to scholars such as Tabari, Ibn al-Jawzi, and Ibn al-Athir. Prerequisite: ARAB 433.

**ARAB 454 Quran and Its Interpretation (3) VLPA** Reading of selected passages from the Quran in relation to their interpretation in classical commentaries (tafsir) and in legal texts (ahkam al-Quran). Focus on the various types of classical scholarship applied to the text of the Quran (ulum al-Quran). Prerequisite: ARAB 433.

**ARAB 455 Ritual and Legal Texts (3) VLPA** Selected readings from well-known Islamic legal texts (furu al-fiqh) with attention to the sources of the law and methods of exegesis (usul al-fiqh). Prerequisite: ARAB 433.

**ARAB 456 Islamic Political Theorists (3) I&S/VLPA** Readings from the main political theorists: al-Baghdadi, al-Mawardi, and Ibn Khaldun. Prerequisite: ARAB 433.

**ARAB 457 Grammatical and Lexical Texts (3) VLPA** Introduction to concepts and terminology of Arabic grammar and lexicography through readings from scholars such as Sibawayh, Ibn Aqil, and Ibn Manzur. Prerequisite: ARAB 433.

**ARAB 458 Modern Poetry (3) VLPA** *DeYoung* Neoclassical poetry of the nineteenth and twentieth centuries, and the development of modern verse. Prerequisite: ARAB 433.

**ARAB 459 Islamic Philosophical Literature (3) I&S/VLPA** Reading of selected texts by representative Islamic philosophers. Prerequisite: ARAB 433.

**ARAB 460 Islamic Theological and Mystical Literature (3) VLPA** Reading of selected texts representative of Islamic theological and mystical schools. Prerequisite: ARAB 433.

**ARAB 461 Modern Prose (3) VLPA** *DeYoung* Modern essays, fiction, and ideological writings. Prerequisite: ARAB 433.

**ARAB 462 Sirah and Maghazi Texts (3) I&S/VLPA** Reading and discussion of selected historical texts devoted to the life of the Prophet Muhammad, such as Ibn Ishaq, Ibn Hisham, al-Waqidi, Ibn Sa'd, and al-Bayhaqi. Some attention to related genres and contemporary scholarship. Prerequisite: ARAB 433.

**ARAB 470 Stories of the Prophets (3) I&S/ VLPA** Reading and discussion of Jewish and Islamic exegesis of selected Biblical and Quranic narratives dealing with such figures as Moses, Abraham, Jacob, or Adam and Eve. Prerequisite: either ARAB 432 or HEBR 423. Offered: jointly with HEBR 470.

**ARAB 490 Supervised Study (1-6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: ARAB 423.

**ARAB 496 Special Studies in Arabic (3-5, max. 15) VLPA** Topics vary. Offered occasionally by visiting or resident faculty.

**ARAB 499 Undergraduate Research (1-6, max. 18)** .

**ARAB 596 Special Studies in Arabic (3-5, max. 15)** Topics vary. Offered occasionally by visiting or resident faculty.

**ARAB 600 Independent Study or Research (\*)**

## Aramaic

**ARAMIC 411 Syriac (3)** *Walker* Beginning Syriac including basic grammar and vocabulary with selected readings from simple prose passages and poetry selected from early Christian and other late antique writings. No previous study of Aramaic required. Offered: A.

**ARAMIC 412 Syriac (3)** *Walker* Beginning Syriac including basic grammar and vocabulary with selected readings from simple prose passages and poetry selected from early Christian and other late antique writings. No previous study of Aramaic required. Offered: W.

**ARAMIC 421 Biblical Aramaic (5) VLPA** *Noegel* Fundamentals of Aramaic grammar and the differences that distinguish Aramaic from Hebrew, includes select Aramaic portions of the Bible. Emphasis on grammar and comprehension. Designed for students with some knowledge of Hebrew. Prerequisite: HEBR 333 or HEBR 426.

**ARAMIC 423 Readings in Syriac (3) VLPA** *Walker* Readings from selected passages in Biblical and Christian literature with emphasis on writings of late antique and medieval Christian communities of Syria, Iraq, and Iran until the Mongol invasions. Prerequisite: ARAM 412. Offered: Sp.

## Egyptian

**EGYPT 411 Introduction to Coptic (5)** *Williams* Elements of grammar of the Sahidic dialect of the Coptic language.

**EGYPT 422 Readings in Coptic (3) VLPA** *Williams* Readings from ancient Coptic Christian literature, with emphasis on the *Nag Hammadi* texts. Prerequisite: COPTC 411 or EGYPT 411.

**EGYPT 423 Readings in Coptic (3) VLPA** *Williams* Readings from ancient Coptic Christian literature, with emphasis on the *Nag Hammadi* texts. Prerequisite: COPTC 411 or EGYPT 411.

## Hebrew

**HEBR 199 Study Abroad (1-12, max. 15)** Credit for elementary Hebrew in an approved study

abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**HEBR 399 Study Abroad (1-12, max. 15)** Credit for intermediate Hebrew in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**HEBR 401 Intensive Elementary Modern Hebrew (15)** Intensive study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if 411, 412, 413 taken.) Offered: S.

**HEBR 402 Intensive Elementary Biblical Hebrew (15) VLPA** Intensive study of grammar with oral and written drills and reading of simple texts. Cannot be taken for credit if HEBR 414, HEBR 415, HEBR 426 has been taken previously. Offered: S.

**HEBR 411 Elementary Modern Hebrew (5)** *Sokoloff* Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if 401 taken.)

**HEBR 412 Elementary Modern Hebrew (5)** *Sokoloff* Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if 401 taken.) Prerequisite: HEBR 411.

**HEBR 413 Elementary Modern Hebrew (5)** *Sokoloff* Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if 401 taken.) Prerequisite: HEBR 412.

**HEBR 414 Elementary Biblical Hebrew (5)** *Noegel* Offers an inductive introduction to the biblical Hebrew language. Covers the basics of Hebrew grammar while reading the stories of Joseph in the book of Genesis. No prior knowledge of Hebrew necessary.

**HEBR 415 Elementary Biblical Hebrew (5)** *Noegel* Continues the inductive introduction to the biblical Hebrew language begun in HEBR 414. Moves beyond the textbook and into select portions of the Hebrew Bible. Prerequisite: HEBR 414.

**HEBR 421 Intermediate Modern Hebrew (5) VLPA** *Sokoloff* Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Prerequisite: either HEBR 401 or HEBR 413.

**HEBR 422 Intermediate Modern Hebrew (5) VLPA** *Sokoloff* Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Prerequisite: HEBR 421.

**HEBR 423 Intermediate Modern Hebrew (5) VLPA** *Sokoloff* Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Prerequisite: HEBR 422.

**HEBR 426 Biblical Hebrew Prose (5) VLPA** *Noegel* Explores select prose sections of the

Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: HEBR 415.

**HEBR 427 Biblical Hebrew Poetry (5) VLPA** *Noegel* Explores select poetic sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: either HEBR 402 or HEBR 426.

**HEBR 428 Inscriptions from Biblical Times (5) VLPA** *Noegel* Surveys Northwest Semitic inscriptions that bear significantly on our understanding of Biblical history and ancient Hebrew including the Moabite stone, Israelite ostraca, Siloam engraving, Gezer calendar, Deir Alla (Gilead) inscriptions, the Asherah texts, Ammonite fragments, and Phoenician monuments. Prerequisite: HEBR 402 or HEBR 426.

**HEBR 451 Introduction to Hebrew Literature (3) VLPA** *Sokoloff* Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts-short poetry, fiction, and essays-with some selections as well from biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: HEBR 423.

**HEBR 452 Introduction to Hebrew Literature (3) VLPA** *Sokoloff* Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts-short poetry, fiction, and essays-with some selections as well from biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: HEBR 423.

**HEBR 453 Introduction to Hebrew Literature (3) VLPA** *Sokoloff* Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts-short poetry, fiction, and essays-with some selections as well from biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: HEBR 423.

**HEBR 454 Hebrew Poetry (3) VLPA** *Sokoloff* Selections of poetry by prominent twentieth-century Hebrew poets whose texts comment or elaborate on biblical texts. Original source considered side-by-side with modern poetry, to examine ways recent literature models itself on, draws upon, and revises traditional sources. Prerequisite: HEBR 423.

**HEBR 455 Hebrew Fiction (3) VLPA** *Sokoloff* Selections of fiction by prominent modern Hebrew writers, including S.Y. Agnon, Aharon Appelfeld, David Shahar, Aharon Megged, and others. Prerequisite: HEBR 423.

**HEBR 456 Hebrew Poems and Prayers (3) VLPA** *Sokoloff* Examines modern Hebrew poems side by side with texts from the traditional Jewish liturgy, analyzing how contemporary writers have drawn on classical sources to reflect on matters of faith and the language of prayer. Prerequisite: HEBR 423.

**HEBR 457 Hebrew in Song (3) VLPA** *Sokoloff* Selections of Israeli folksong, pop, rock, children's songs, and musika mizrahit. While building vocabulary and improving dictionary and composition skills, students examine the role of popular song in the construction of modern Hebrew culture and Israeli identity.

**HEBR 470 Stories of the Prophets (3) I&S/ VLPA** Reading and discussion of Jewish and Islamic exegesis of selected Biblical and Quranic narratives dealing with such figures as Moses, Abraham, Jacob, or Adam and Eve. Prerequisite: either ARAB 432 or HEBR 423. Offered: jointly with ARAB 470.

**HEBR 490 Supervised Study (1-6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: HEBR 423.

**HEBR 496 Special Studies in Hebrew (3-5, max. 15)** Topics vary.

**HEBR 499 Undergraduate Research (1-6, max. 18)** .

**HEBR 596 Special Studies in Hebrew (3-5, max. 15)** Topics vary.

**HEBR 600 Independent Study or Research (\*)**

## Persian

**PRSAN 199 Study Abroad (1-12, max. 15)** Credit for elementary Persian in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**PRSAN 399 Study Abroad (1-12, max. 15)** Credit for elementary or intermediate Persian in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**PRSAN 401 Intensive Elementary Persian (15) VLPA** *Papan-Matin* Intensive study of grammar with oral and written drills and reading of simple texts. Cannot be taken for credit if PRSAN 411-413 has been taken previously. Offered: S.

**PRSAN 402 Intensive Elementary Tajik (15)** Intensive study of grammar with oral and written drill and reading of selected texts in Tajik, the literary language spoken and written in the Central Asian Republic of Tajikistan. Offered: S.

**PRSAN 404 Intensive Persian for Native Speakers (15) VLPA** Enables students with a degree of proficiency in spoken Persian to read and write, to translate rudimentary texts, and to conceptualize the use of the formal style of composition. Reading, writing, and comprehension, particularly of handwritten manuscripts of the scribal tradition. Also covers calligraphy, translation, journalistic prose, and other facets of the language and the script. Offered: S.

**PRSAN 411 Elementary Persian (5)** Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words.

**PRSAN 412 Elementary Persian (5)** Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Prerequisite: PRSAN 411.

**PRSAN 413 Elementary Persian (5)** Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading

ability with a vocabulary of about two thousand words. Prerequisite: PRSAN 412.

**PRSAN 421 Intermediate Persian (5) VLPA** Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Prerequisite: PRSAN 413.

**PRSAN 422 Intermediate Persian (5) VLPA** Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Prerequisite: PRSAN 421.

**PRSAN 423 Intermediate Persian (5) VLPA** Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Prerequisite: PRSAN 422.

**PRSAN 431 Advanced Persian (3) VLPA** Designed to improve reading and writing skills. Graded reading and writing and exposure to the writing system, textual history, newspaper reading, and translation. Cultural materials presented as appropriate. The art of calligraphy introduced. For students with a degree of proficiency in spoken Persian. Prerequisite: PRSAN 423.

**PRSAN 432 Advanced Persian (3) VLPA** Designed to improve reading and writing skills. Graded reading and writing and exposure to the writing system, textual history, newspaper reading, and translation. Cultural materials presented as appropriate. The art of calligraphy introduced. For students with a degree of proficiency in spoken Persian. Prerequisite: PRSAN 431.

**PRSAN 433 Advanced Persian (3) VLPA** Designed to improve reading and writing skills. Graded reading and writing and exposure to the writing system, textual history, newspaper reading, and translation. Cultural materials presented as appropriate. The art of calligraphy introduced. For students with a degree of proficiency in spoken Persian. Prerequisite: PRSAN 432.

**PRSAN 451 Introduction to Persian Literature (3) VLPA** Selected texts from modern and classical Persian poetry and prose. Provides insights into Iranian culture and its past and present achievements in literature. Prepares the student for a more comprehensive and critical study of Persian literature. Prerequisite: PRSAN 423.

**PRSAN 452 Modern Persian Literature: A Survey (3) VLPA** Development of poetry and prose after Iran felt and absorbed the impact of Western cultures. Periods and genres. Works of such authors as Jamalzadeh, Hedayat, Dehkoda, Al-e Ahmad, Nima, Sepehri, and Forugh. Prerequisite: PRSAN 423.

**PRSAN 453 Classical Persian Literature: A Survey (3) VLPA** History of Persian literature from Rudaki to Hafiz. Studies epic, lyric, and mystic traditions placed in historical settings. Covers the most important genres such as the Qasida, the Ghazal, the *Ruba'i* and the *Masnavi*. Prerequisite: PRSAN 423.

**PRSAN 454 The Epic Tradition in Iran (3) VLPA** Focuses on the Shahnameh of Firdawsī: explores the ancient legends that gave rise to it and follows the fortunes of epic poetry after Firdawsī, touching on the rise, development, and decline of romance in classical Persian literature. Prerequisite: PRSAN 433.

**PRSAN 455 The Persian Ghazal (3) VLPA** The Ghazal as the leading medium for lyrical expression in classical Persian tradition. Follows this genre from conception to culmination in the poetry of Hafiz. Conventions and devices of the *Ghazal*. Development placed in historical and social context. Prerequisite: PRSAN 433.

**PRSAN 456 Sufism: Thought and Expression (3) I&S/VLPA** Dynamics of mystical thought and expression as evolved in the writings of the great Sufi masters and reflected in the poetry of Sana'i, Attar, Rumi, and others. The fundamental unity of the mystical vision, with special attention to the peculiarities of individual style and expression. Prerequisite: PRSAN 433.

**PRSAN 490 Supervised Study (1-6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: PRSAN 423.

**PRSAN 496 Special Studies in Persian (3-5, max. 15)** Topics vary.

**PRSAN 499 Undergraduate Research (1-6, max. 18)** .

**PRSAN 596 Special Studies in Persian (3-5, max. 15)** Topics vary.

**PRSAN 600 Independent Study or Research (\*)**

## Turkic

**TKIC 199 Study Abroad (1-12, max. 15)** Credit for elementary Turkic in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**TKIC 399 Study Abroad (1-12, max. 15)** Credit for elementary or intermediate Turkic in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

**TKIC 401 Intensive Elementary Uzbek (15)** Intensive study of grammar, with oral and written drill and reading of simple texts in Uzbek. Covers first-year Uzbek. Cannot be taken for credit if 411, 412, 413 taken. Offered: S.

**TKIC 402 Intensive Elementary Kazakh (15)** Intensive study of grammar, with oral and written drill and reading of simple texts in Kazakh. Covers first-year Kazakh. Cannot be taken for credit if 414, 415, 416 taken. Offered: S.

**TKIC 403 Intensive Elementary Kirghiz (15)** Intensive study of grammar with oral and written drill of selected texts. Offered: S.

**TKIC 404 Intensive Intermediate Uzbek (15) VLPA** Allows students to complete second-year Uzbek in one quarter. Reading of selected texts in Uzbek, with continuing emphasis on oral and written practice, grammar, and advanced readings. Cannot be taken for credit if 421, 422,

423 taken. Prerequisite: either TKIC 401 or TKIC 413. Offered: S.

**TKIC 405 Intensive Intermediate Kazakh (15) VLPA** Allows students to complete second-year Kazakh in one quarter. Reading of selected texts in modern literary Kazakh, with emphasis on grammar, syntax, and oral practice. Prerequisite: either TKIC 402 or TKIC 416. Offered: S.

**TKIC 406 Intensive Advanced Uzbek (15) VLPA** Advanced-level instruction in speaking, writing, reading, and listening skills. Students work independently on translation projects. Emphasis on extensive writing practices in Uzbek and student participation in an Uzbek email conversation circle. Prerequisite: TKIC 423. Offered: S.

**TKIC 407 Intensive Elementary Uighur (15) VLPA** Covers all four linguistic skills: reading, writing, speaking, and listening. Offered: S.

**TKIC 411 Elementary Uzbek (5) *Cirtautas*** Introduction to the modern written and spoken language. Cannot be taken for credit if 401 taken.

**TKIC 412 Elementary Uzbek (5) *Cirtautas*** Introduction to the modern written and spoken language. Cannot be taken for credit if 401 taken.

**TKIC 413 Elementary Uzbek (5) *Cirtautas*** Introduction to the modern written and spoken language. Cannot be taken for credit if 401 taken.

**TKIC 414 Introduction to Kazakh (3) *Cirtautas*** Position of Kazakh within the community of other Turkic languages; alphabets used for Kazakh; reading of texts from Kazakhstan and China (Xinjiang); oral and written exercises. Cannot be taken for credit if 402 taken.

**TKIC 415 Introduction to Kazakh (3) *Cirtautas*** Position of Kazakh within the community of other Turkic languages; alphabets used for Kazakh; reading of texts from Kazakhstan and China (Xinjiang); oral and written exercises. Cannot be taken for credit if 402 taken.

**TKIC 416 Introduction to Kazakh (3) *Cirtautas*** Position of Kazakh within the community of other Turkic languages; alphabets used for Kazakh; reading of texts from Kazakhstan and China (Xinjiang); oral and written exercises. Cannot be taken for credit if 402 taken.

**TKIC 417 Introduction to Uighur (5) *Cirtautas*** Designed for students with no prior knowledge of Uighur. Includes acquisition of Uighur Arabic alphabet, general phonological rules, and basic grammar. Basic reading, listening, and oral comprehension practice all offered throughout the course. Offered: A.

**TKIC 418 Introduction to Uighur (5) *Cirtautas*** Continuation of basic modern Uighur: phonological rules, grammar, and vocabulary. Practice in reading, listening, and oral comprehension. Prerequisite: TKIC 417. Offered: W.

**TKIC 419 Introduction to Uighur (5) *Cirtautas*** Continuation of basic modern Uighur: phonological rules, grammar, and vocabulary. Practice in reading, listening, and oral comprehension. Prerequisite: TKIC 418. Offered: Sp.

**TKIC 421 Intermediate Uzbek (3) VLPA *Cirtautas*** Continuation of elementary Uzbek.

Oral work, grammar, and readings in Uzbek literature. Prerequisite: either TKIC 401 or TKIC 413.

**TKIC 422 Intermediate Uzbek (3) VLPA *Cirtautas*** Continuation of elementary Uzbek. Oral work, grammar, and readings in Uzbek literature. Prerequisite: TKIC 421.

**TKIC 423 Intermediate Uzbek (3) VLPA *Cirtautas*** Continuation of elementary Uzbek. Oral work, grammar, and readings in Uzbek literature. Prerequisite: TKIC 422.

**TKIC 427 Intermediate Uighur (5) VLPA** Second-year Uighur. Includes reading, translation, oral comprehension, and composition. Prerequisite: TKIC 419. Offered: A.

**TKIC 428 Intermediate Uighur (5) VLPA** Second-year Uighur. Includes reading, translation, oral comprehension, and composition. Prerequisite: TKIC 427. Offered: W.

**TKIC 429 Intermediate Uighur (5) VLPA** Second-year Uighur. Includes reading, translation, oral comprehension, and composition. Prerequisite: TKIC 428. Offered: Sp.

**TKIC 437 Advanced Uighur (5) VLPA** Focuses on reading, writing, translation, and oral comprehension at an advanced level. Students gain fluency in order to work in social and scientific environments where only the Uighur language is used.. Prerequisite: TKIC 429. Offered: A.

**TKIC 438 Advanced Uighur (5) VLPA** Focuses on reading, writing, translation, and oral comprehension at an advanced level. Students gain fluency in order to work in social and scientific environments where only the Uighur language is used.. Prerequisite: TKIC 437. Offered: W.

**TKIC 439 Advanced Uighur (5) VLPA** Focuses on reading, writing, translation, and oral comprehension at an advanced level. Students gain fluency in order to work in social and scientific environments where only the Uighur language is used.. Prerequisite: TKIC 438. Offered: Sp.

**TKIC 451 Introduction to Turkic Studies (3) VLPA *Cirtautas*** Bibliography, problems, and methods of research in the field of Turkic studies for advanced students of Turkish/Turkic languages, including readings in those languages on the languages, literatures, and ethnography of past and present Turkic peoples.

**TKIC 454 Introduction to Uzbek Literature (3) VLPA *Cirtautas*** Readings from selected Uzbek writers. Content varies.

**TKIC 455 Introduction to Uzbek Literature (3) VLPA *Cirtautas*** Readings from selected Uzbek writers. Content varies.

**TKIC 456 Introduction to Uzbek Literature (3) VLPA *Cirtautas*** Readings from selected Uzbek writers. Content varies.

**TKIC 490 Supervised Study (1-6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: either TKIC 404, TKIC 405, or TKIC 423.

**TKIC 496 Special Studies in Turkic Languages (3-5, max. 15)** Topics vary.

**TKIC 499 Undergraduate Research (3-5, max. 15)** For Turkic language and literature majors.

**TKIC 542 Comparative and Historical Grammar of Turkic Languages (3) *Cirtautas*** Classification of the Turkic languages; alphabets used; phonology, morphology, and syntax; lexical composition; structure changing developments. Prerequisite: TKIC 404.

**TKIC 543 Comparative and Historical Grammar of Turkic Languages (3) *Cirtautas*** Classification of the Turkic languages; alphabets used; phonology, morphology, and syntax; lexical composition; structure changing developments. Prerequisite: TKIC 404.

**TKIC 546 Old Turkic (3) *Cirtautas*** Introduction to Runic script; phonology, morphology, and syntax of the oldest form of Turkic; reading and translation of eighth-century inscriptions of historical and literary importance. Prerequisite: permission of instructor.

**TKIC 547 Old Uighur (3) *Cirtautas*** Introduction to script systems; phonology, morphology, and syntax. Reading and translation of mainly Buddhist texts in Uighur script, eighth through eleventh centuries. Prerequisite: background in a Turkic language or permission of instructor.

**TKIC 561 Middle Turkic (3) *Cirtautas*** Introduction to the phonology, morphology, and syntax of the Middle Turkic languages; reading and translation of texts in Karakhanid, Khorazmian Turkic, Kipchak, and Chagatai. Prerequisite: permission of instructor.

**TKIC 562 Middle Turkic (3) *Cirtautas*** Introduction to the phonology, morphology, and syntax of the Middle Turkic languages; reading and translation of texts in Karakhanid, Khorazmian Turkic, Kipchak, and Chagatai. Prerequisite: permission of instructor.

**TKIC 563 Seminar on Turkic Literature (5) *Cirtautas*** Topics in oral and written literature. Prerequisite: permission of instructor.

**TKIC 596 Special Studies in Turkic Languages (3-5, max. 15)** Topics vary.

**TKIC 600 Independent Study or Research (\*)**

## Turkish

**TKISH 199 Study Abroad (1-12, max. 15)** Credit for elementary Turkish in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWPpS.

**TKISH 399 Study Abroad (1-12, max. 15)** Credit for elementary or intermediate Turkish in an approved study abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWPpS

**TKISH 411 Elementary Turkish (5)** Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. (Cannot be taken for credit if TKISH 401 is taken.)

**TKISH 412 Elementary Turkish (5)** Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. (Cannot be

taken for credit if TKISH 401 is taken.)  
Prerequisite: TKISH 411.

**TKISH 413 Elementary Turkish (5)** Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. (Cannot be taken for credit if TKISH 401 is taken.)  
Prerequisite: TKISH 412.

**TKISH 421 Intermediate Turkish (5) VLPA** Introduction to modern Turkish literature.  
Prerequisite: TKISH 413.

**TKISH 422 Intermediate Turkish (5) VLPA** Introduction to modern Turkish literature.  
Prerequisite: TKISH 421.

**TKISH 423 Intermediate Turkish (5) VLPA** Introduction to modern Turkish literature.  
Prerequisite: TKISH 422.

**TKISH 451 Readings in Turkish Literary History I: Modern (3) VLPA** *Kuru* The development of modern Turkish literature and its ties to, and divergence from, the Ottoman tradition. Readings in modern and Tanzimat poetry, short story, drama, and novel.

**TKISH 452 Readings in Turkish Literary History II: Literature of the Ottoman Empire (3) VLPA** *Kuru* The parallel development of the classical high-culture literature and the popular literatures of the Ottoman Empire. Readings in poetry, history, travel-literature, drama, and popular narrative forms. Prerequisite: TKISH 423.

**TKISH 453 Ottoman Travelers and Geography (3) VLPA** *MacKay* Introduction to the geographic literature of Ottoman Turkish: readings from traditional cosmographies, travel journals, sailing instructions (portulans), ambassadorial and secret service reports. Prerequisite: TKISH 456.

**TKISH 454 Turkish Literary Genres: Prose (3) VLPA** Major genres, styles, and themes of Turkish art-prose from Ottoman times to present; creation of stylistic and critical norms. Prerequisite: TKISH 423.

**TKISH 455 Turkish Literary Genres: Poetry (3) VLPA** Poetic traditions of Turkey with a focus on the development of peculiarly Turkish aspects of style and structure. Social functions of poetry and the poetic milieu. Prerequisite: TKISH 423.

**TKISH 456 Introduction to Ottoman Turkish (3) VLPA** *Kuru* Introduction to Turkish in Arabic characters to cover the peculiar grammatical and syntactical problems of Ottoman.

**TKISH 490 Supervised Study (1-6, max. 18)** Special work in literary texts for graduates and undergraduates. Prerequisite: TKISH 423.

**TRKISH 496 Special Studies in Turkish (3-5, max. 15)** Topics vary.

**TKISH 499 Undergraduate Research (1-6, max. 18)** .

**TRKISH 596 Special Studies in Turkish (3-5, max. 15)** Topics vary.

**TKISH 600 Independent Study or Research (\*)**

## Neurobiology

**NBIO 301 Introduction to Cellular and Molecular Neurobiology (5) NW** *Moody* Introduces students to the physiological and molecular properties of individual nerve cells and the synaptic connections between them, and to principles of nervous system development. Includes weekly laboratory sessions. Prerequisite: either BIOL 202 or BIOL 220. Offered: W.

**NBIO 302 Introduction to Systems and Behavioral Neurobiology (5) NW** *Kennedy, Perkel, Solis* Introduces neuroethology, i.e., the mechanisms by which neurons and the synaptic connections among them produce sensory perceptions and complex behavioral outputs. Includes weekly laboratory sessions. Prerequisite: NBIO 301. Offered: Sp.

**NBIO 401 Systems Neurobiology (3) NW** *Robinson* Introduces students to the anatomical and physiological organization of the major sensory, motor, and associative systems of the mammalian brain. Behavioral data used to stress functional integration of systems. Includes gross brain anatomy demonstration and computer tutorials. Prerequisite: NBIO 302. Offered: A.

**NBIO 402 Neuropathophysiology (3) NW** *Crill* Studies the molecular mechanisms of disease affecting excitable cells, focusing on mechanisms that alter electrical properties. Emphasizes skills in reading current literature. Prerequisite: NBIO 401. Offered: W.

**NBIO 403 Systems and Behavioral Neurobiology (3) NW** Topics include information processing in sensory and motor systems, sensory-motor integration, learning, and memory. Using examples from the field of neuroethology, encourages students to independently work on problems taken from the recent neurobiological research literature. Prerequisite: NBIO 401. Offered: W.

**NBIO 404 Neuropharmacology (3) NW** *Stella* Actions of drugs on the brain at clinical, cellular, and molecular levels. Therapeutic use of drugs in treatment of neurological and psychiatric diseases. Abuse of drugs and the mechanisms of addiction, tolerance, and withdrawal. Prerequisite: NBIO 401. Offered: Sp.

**NBIO 440 Topics in Current Neurobiology Research (2, max. 6) NW** Credit/no credit only. Prerequisite: NBIO 302.

**NBIO 450 Current Research Literature in Neurobiology (2, max. 6) NW** Weekly journal club in neurobiology. Students read and discuss original research articles in neurobiology, centered around a specific topic each quarter. Credit/no credit only. Prerequisite: either BIOL 202 or BIOL 220.

**NBIO 496 Peer Teaching Assistant in Neurobiology (5)** Direct classroom experience teaching in NBIO 301 or 302. Credit/no credit only. Prerequisite: NBIO 302. Offered: WSp.

**NBIO 499 Individual Research in Neurobiology (3-6, max. 18)** Students carry out projects in laboratories of program faculty. Prerequisite: NBIO 302.

## Philosophy

**PHIL 100 Introduction to Philosophy (5) I&S** *Baker, Rosenthal* Major philosophical questions relating to such matters as the existence of God, the foundations of knowledge, the nature of reality, and the nature of morality. Approach may be either historical or topical. Offered: AWSpS.

**PHIL 102 Contemporary Moral Problems (5) I&S/VLPA** *Blake, A. Moore* Philosophical consideration of some of the main moral problems of modern society and civilization, such as abortion, euthanasia, war, and capital punishment. Topics vary.

**PHIL 110 Introduction to Social and Political Philosophy (5) I&S** *Clatterbaugh* An introduction to political theories such as conservatism, liberalism, and socialism and their treatment of select social issues.

**PHIL 114 Philosophical Issues in the Law (5) I&S** *R. Moore* Analysis and critical assessment of various philosophical issues in law and legal reasoning. Material drawn from actual law cases, as well as writings by contemporary philosophers of law and lawyers. Topics include criminal responsibility, civil disobedience, abortion, enforcement of morals. Special legal or philosophical training not required.

**PHIL 115 Practical Reasoning (5) I&S, QSR** Introduction to logic emphasizing concepts and methods useful for practical analysis of arguments in everyday contexts; meaning, syllogisms, logical diagrams, inductive and statistical inference, informal fallacies, argument structure, perhaps some beginning symbolic logic. Offered: AWSpS.

**PHIL 120 Introduction to Logic (5) I&S/NW, QSR** *Cohen, Fine, Weller* Elementary symbolic logic. The development, application, and theoretical properties of an artificial symbolic language designed to provide a clear representation of the logical structure of deductive arguments.

**PHIL 160 Why Do We Believe in Quarks, Evolution, and Other Crazy Things? Perspectives on Science, Reason, and Reality (5) I&S** *Hankinson Nelson* Study of how scientific theories are justified and why they are accepted, using selected examples from the history of science.

**PHIL 199 New Majors Seminar (2) I&S/VLPA** Introduces undergraduates to the field and to the interests of various faculty. Credit/no credit only. Prerequisite: one previous PHIL course.

**PHIL 200 Topics in Philosophy (3-5, max. 10) I&S** A study of philosophical topics at the introductory level. The content of the course is entirely at the discretion of the instructor.

**PHIL 205 Philosophy for Children (5) I&S** Introduction to the methods of "doing" philosophy with young people. Stresses the development of a community of inquiry in which budding philosophers are encouraged to ask their own relevant questions, develop views and articulate reasons for them, and to listen and learn from one another. Credit/no credit only.

**PHIL 206 Philosophy of Feminism (5) I&S** *Wylie* Philosophical analysis of the concepts and assumptions central to feminism. Theoretical

positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with POL S 212/WOMEN 206.

**PHIL 230 Philosophic Issues in World Affairs (3) I&S** Moral problems that arise in connection with such topics as affluence, hunger, and overpopulation; global environmental degradation; war and weaponry; restructuring the international order.

**PHIL 240 Introduction to Ethics (5) I&S/VLPA** *Gardiner, Roberts, Smith, Talbott* Critical introduction to various philosophical views of the basis and presuppositions of morality and moral knowledge. Critical introduction to various types of normative ethical theory, including utilitarian, deontological, and virtue theories.

**PHIL 241 Topics in Ethics (5, max. 10) I&S/VLPA** Introduction to ethics through in-depth study of one or more selected topics (e.g., limits of moral community, animal rights, moral education, and freedom). Topics vary.

**PHIL 242 Introduction to Medical Ethics (5) I&S/VLPA** *Goering, Schellenberg* Introduction to ethics, primarily for first- and second-year students. Emphasizes philosophical thinking and writing through an in-depth study of philosophical issues arising in the practice of medicine. Examines the issues of medical ethics from a patient's point of view.

**PHIL 243 Environmental Ethics (5) I&S** *Light* Focuses on some of the philosophical questions that arise in connection with environmental studies. Topics to be considered include: the ideological roots of current issues, values and the natural world, public policy and risk assessment, intergenerational justice, and social change. Offered: jointly with ENVIR 243.

**PHIL 267 Introduction to Philosophy of Religion (5) I&S** *Clatterbaugh* Consideration of the sources of religious ideas and practices, the main kinds of religious views and the problems they raise, and the different forms that spirituality can take. Issues concerning the relations of religion to science and morality also treated.

**PHIL 301 Intermediate Topics in Philosophy (3-5, max. 10) I&S** Philosophical topics at the intermediate level. Content varies each quarter, depending on instructor.

**PHIL 314 Philosophy of Crime and Punishment (5) I&S** *R. Moore* Examination of philosophical theories regarding criminal habits and punishment and the philosophical problems connected with specific topics in criminal law. Examines proper subject matter of criminal law (drug use, pornography, euthanasia); limits of criminal sanctions; crime and privilege (corporate crime, white-collar crime, blackmail); justifications for punishment; mercy; and execution.

**PHIL 320 Ancient Philosophy (5) I&S** *Cohen, Roberts, Weller* Survey of ancient Greek philosophy, beginning with the pre-Socratics and proceeding on through Plato to Aristotle.

**PHIL 322 Modern Philosophy (5) I&S** *Baker, BonJour, Clatterbaugh, Rosenthal, Weller* Examination of metaphysical and epistemological problems from the works of Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

**PHIL 325 Nineteenth-Century Philosophy (5) I&S** Examination of post-Kantian thinkers through the end of the nineteenth century considering such major themes as idealism, romanticism, positivism, historicism, naturalism, existentialism, and pragmatism.

**PHIL 327 American Philosophy (5) I&S** Study of some of the major American philosophers such as Peirce, Royce, Dewey, William James, C. I. Lewis, Goodman, Quine.

**PHIL 330 History of Ancient Political Philosophy (5) I&S** *Roberts* Political philosophy of fourth- and fifth-century Greece, especially the Sophists, Plato, and Aristotle, stressing the connection between the political philosophy and the underlying philosophical system of each philosopher.

**PHIL 332 History of Modern Political Philosophy (5) I&S** *Blake, BonJour, Clatterbaugh, Talbott* Examination of major political philosophies from the sixteenth century to the nineteenth century, with attention to the underlying philosophical methods and foundations.

**PHIL 334 Philosophy of Marxism (3) I&S** *Clatterbaugh* Philosophy of Marx and the Marxist tradition with attention to key Marxist concepts such as exploitation, alienation, and historical materialism.

**PHIL 335 Plato's Republic (5) I&S/VLPA** *Keyt* Designed especially for philosophy majors, but open to non-majors. Intensive study of Plato's masterpiece. Prerequisite: one PHIL course.

**PHIL 338 Philosophy of Human Rights (5) I&S** *Talbott* Theories of human rights and the bearing of these theories on issues of public policy such as legitimacy of war and terrorism, economic justice, and whether future generations have rights.

**PHIL 340 History of Ancient Ethics (5) I&S/VLPA** *Roberts, Weller* Development of moral thought from Socrates through the Stoics. Particular emphasis on the ethical writings of Plato and Aristotle.

**PHIL 342 History of Modern Ethics (5) I&S/VLPA** *Smith, Weller* Development of moral thought from Hobbes through Nietzsche, with particular emphasis on the ethical writings of Hume, Kant, and John Stuart Mill.

**PHIL 344 History of Recent Ethics (5) I&S/VLPA** Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition.

**PHIL 345 Moral Issues of Life and Death (5) I&S/VLPA** *Goering* Examination of such topics as war and murder, famine relief, capital punishment, high-risk technologies, abortion, suicide, and the rights of future generations.

**PHIL 346 Personal Values and Human Good (3) I&S** *Baker, Goering, Smith* Examination of the idea of a good human life. Emphases differ from year to year. Typical topics include happiness and prudence, rationality and life plans, personal values and the meaning of life, autonomy and false consciousness, self-respect and self-esteem, honesty and self-deception, faith and "vital lies."

**PHIL 347 Philosophy in Literature (5) I&S/VLPA** Study of philosophical ideas expressed in works of literature.

**PHIL 350 Introduction to Epistemology (5) I&S** *Baker, BonJour, Talbott* Nature, definition, and possibility of knowledge.

**PHIL 353 Introduction to the Philosophy of Language (5) I&S** Philosophical theories about the nature of language. Topics include meaning, reference, truth, propositions, relations between language and thought.

**PHIL 356 Introduction to Metaphysics (5) I&S** *Baker* Introductory examination of some of the main problems in metaphysics, such as the nature of truth and reality, the metaphysical status of properties, the existence of free will.

**PHIL 360 Introductory Topics in Philosophy of Science (5, max. 10) I&S** *Fine, Hankinson Nelson, Woody* Study of one or more current topics in philosophy of science such as scientific realism, explanation, confirmation, causation. Prerequisite: one PHIL course; recommended: PHIL 120; PHIL 160.

**PHIL 363 Introduction to the Philosophy of Mind (5) I&S** Various theories of the nature of mind, the relationship between mind and body, the self, introspection, and knowledge of other minds.

**PHIL 399 Foreign Study (2-5, max. 10)** Upper division philosophy studies with no direct UW equivalents, taken through UW foreign study programs.

**PHIL 401 Advanced Topics in Philosophy (3-5, max 10) I&S** *Baker* A study of philosophical topics at the advanced level. Topics vary.

**PHIL 406 Philosophical Topics in Feminism (5) I&S** *Roberts, Hankinson Nelson, Woody* Detailed examination of questions raised by recent feminist scholarship in particular areas of philosophy, such as political theory, ethics, epistemology, or philosophy of science. Emphasis varies.

**PHIL 407 International Justice (5) I&S** *Blake, Gardiner* Examines issues through investigation of the moral foundations of international politics. Issues include: What moral duties constrain the relationships between states? Is international poverty a matter of moral concern? Are we justified in preferring the interest of our fellow nations? Prerequisite: one course in philosophy.

**PHIL 408 Philosophy of Diversity (5) I&S** *Blake* Must a liberal political community respect all claims made on behalf of minority cultural groups? Are there moral limits to the forms of diversity compatible with just governance? Examines modern philosophical writings on these topics. Prerequisite: One philosophy course.

**PHIL 409 Philosophy of Disability (3) I&S** *Goering* Rethinks the non-disabled assumption at the heart of much of western moral and political philosophy. Explores concepts of autonomy, opportunity, personhood, and dependence in regard to disability. Issues may include prenatal testing and reproduction, special education, requirements of accommodation, and social and legal interpretations of disability. Prerequisite: one philosophy course or LSJ/CHID 332, LSJ/CHID 433, or LSJ/CHID or 434.

**PHIL 410 Social Philosophy (5) I&S** *Clatterbaugh, Talbott* An examination of topics pertaining to social structures and institutions such as liberty, distributive justice, and human rights.

**PHIL 411 Justice in Health Care (5) I&S/VLPA**  
*Jecker* Examination of the ethical problem of allocating scarce medical resources. Emphasis on fundamental principles of justice that support alternative health policies. Recommended: prior courses in philosophy or medical ethics. Offered: jointly with MHE 474.

**PHIL 412 Ethical Theory (5) I&S** *Jecker*  
Reviews the principal theories for normative ethical discourse, such as utilitarianism and deontology, and major metaethical commentary on those theories. Illustrated by classical and modern authors. Recommended: one basic course in ethics. Offered: jointly with MHE 402.

**PHIL 413 Metaethical Theory (5) I&S** *Jecker*  
Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition. Recommended: one introductory philosophy course. Offered: jointly with MHE 404.

**PHIL 414 Philosophy of Law (3) I&S** *BonJour, A. Moore, R. Moore* Nature and function of law. Relation of law to morality. Legal rights, judicial reasoning.

**PHIL 415 Advanced Topics in Animal Welfare (5) I&S** *Light* Critical examination of issues in the philosophy of animal welfare and animal rights. Prerequisite: One philosophy course.

**PHIL 416 Ethics and Climate Change (5) I&S** *Gardiner* Critical examination of the ethical issues surrounding climate change. Prerequisite: either one philosophy or one environmental studies course. Offered: jointly with ENVIR 416.

**PHIL 417 Advanced Topics in Environmental Philosophy (5) I&S** *Gardiner, Light* Critical examination of issues in environmental philosophy. Topics vary. Prerequisite: one philosophy course. Offered: jointly with ENVIR 417.

**PHIL 418 Jewish Philosophy (5) I&S** *Rosenthal*  
Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period ? e.g., medieval or modern- or on a topic ? e.g., reactions to the Enlightenment or to the Holocaust. Prerequisite: at least one previous course in philosophy. Offered: jointly with SISJE 418.

**PHIL 422 Studies in Continental Rationalism (3, max. 9) I&S** *Clatterbaugh* Study of one or more of the major continental Rationalists: Descartes, Spinoza, Leibniz.

**PHIL 425 Studies in Nineteenth-Century Philosophy (3) I&S** *Baker* Study of post-Kantian metaphysical theories, with special emphasis on idealism, realism, and/or pragmatism. Typical authors include F. H. Bradley, J. McTaggart, Royce, and Green.

**PHIL 426 Twentieth-Century Philosophy (5) I&S** *Baker, Weller* A study of development of contemporary analytic philosophy, the revolt against idealism, and the linguistic turn in philosophy.

**PHIL 430 Hellenistic Philosophy (3) I&S** *Roberts* Survey of the Epicurean, Stoic, and Skeptic philosophy of the Hellenistic period. Emphasis may vary.

**PHIL 431 Philosophy of Plato (3, max. 6) I&S** *Cohen, Keyt, Roberts, Weller* Study of selected middle and late dialogues.

**PHIL 433 Philosophy of Aristotle (3, max. 6) I&S** *Cohen, Keyt, Roberts, Weller* Study of several major Aristotelian treatises.

**PHIL 434 Philosophy of Thomas Aquinas (3) I&S** Examination of the major philosophical positions of Thomas Aquinas in the theory of knowledge, metaphysics, and ethics.

**PHIL 436 British Empiricism (3) I&S** *Baker, BonJour* Examination of the metaphysical and epistemological views of Locke and Berkeley, with perhaps some attention also to Hume. Prerequisite: either PHIL 322 or PHIL 350.

**PHIL 437 Philosophy of Hume (3) I&S** *Weller* Study Hume's analyses of knowledge, the passions, and morals.

**PHIL 438 Philosophy of Kant (5) I&S** *BonJour, Weller* Systematic study of *The Critique of Pure Reason*.

**PHIL 439 The Later Philosophy of Wittgenstein (3) I&S** Detailed study of topics in the later philosophy of Wittgenstein, with particular attention to the *Philosophical Investigations*.

**PHIL 440 Ethics (5) I&S** *Roberts, Smith, Talbott* Critical examination of the concepts and judgments of value, including an analytical treatment of the notions of good and bad, right and wrong, and obligation. Emphasis varies from quarter to quarter.

**PHIL 443 Philosophy and Linguistics (3) I&S/VLPA** Study of philosophical problems that arise in the attempt to understand current linguistic theories and of the implications of linguistics for philosophy. Offered: jointly with LING 443.

**PHIL 445 Philosophy of Art (5) I&S/VLPA** *R. Moore* Critical examination of various accounts of the nature of art, artistic activity, the aesthetic experience. Problems in interpretation and evaluation of works of art.

**PHIL 446 Development of Aesthetic Theory (5) I&S/VLPA** *R. Moore*, Historical development of aesthetics, emphasizing such major figures as Plato, Aristotle, Hume, Kant, Hegel, and Goodman.

**PHIL 447 Philosophy of Literature (3) I&S/VLPA** Investigation of philosophical questions about literature: What is literature? Must literature be interpreted? What is interpretation? Literature and ideology.

**PHIL 449 Philosophy of Film (5) VLPA/I&S** *Light* Critical examination of topics in the philosophy of film including the nature of film, the distinction between fiction and non-fiction films, whether films have "authors," how films engage our emotions, and whether and how films can present effective arguments on important moral, political, or social questions. Prerequisite: one philosophy course.

**PHIL 450 Epistemology (5) I&S** *Baker, BonJour, Talbott* Systematic study of some of the main problems of the theory of knowledge, such as: the definition of "knowledge;" a priori knowledge; perception and knowledge of the external world; and whether knowledge has or requires a foundation. Emphasis varies from quarter to quarter.

**PHIL 453 Philosophy of Language (5) I&S/VLPA** Current theories of meaning, reference,

predication, and related concepts. Offered: jointly with LING 476.

**PHIL 456 Metaphysics (5) I&S** *Baker* Examination of such topics as freedom of the will, the nature of persons and personal identity, the existence of God, time, necessary truth, and universals. The emphases vary from year to year.

**PHIL 459 Philosophy of Medicine (5) I&S** *Jecker* Familiarizes students with central issues in the philosophy of medicine. Focuses on the nature of medical knowledge, the connection between theory and observation, the meaning of medical concepts, and the relationship between theories and the world. Recommended: prior courses in philosophy, history of science, or history of medicine. Offered: jointly with MHE 440.

**PHIL 460 Philosophy of Science (5) I&S/NW** *Hankinson Nelson, Woody* Critical study of the nature of scientific knowledge. Topics include the relation of theory to observation, the use of mathematics, how theories change, the requirements for the meaningfulness of a theory, and nature of confirmation. Recommended: PHIL 120 or PHIL 160; prerequisite: one PHIL course.

**PHIL 461 Philosophical Anthropology (5) I&S** Investigation of the question, "What is human reality?" Philosophical significance of this question and its relation to the human sciences. Typical answers. Implications of those answers for culture, religion, morals, and politics.

**PHIL 463 Philosophy of Mind (5) I&S** *BonJour* Examination of current theories of the nature of the mind and mental processes.

**PHIL 464 Philosophical Issues in the Cognitive Sciences (5) I&S/NW** Philosophical problems connected with research in psychology, artificial intelligence, and other cognitive sciences. Topics vary. Readings from both philosophical and scientific literature. Accessible to nonphilosophers with suitable interests and backgrounds.

**PHIL 465 Philosophy of History (3) I&S** *Baker* Analyses of basic concepts employed in historical interpretation, and study of some of the principal philosophers of history, such as Plato, Saint Augustine, Hegel, Marx, Spengler, Toynbee.

**PHIL 466 Philosophy of the Social Sciences (5) I&S** *Hankinson Nelson, Talbott* Examination of fundamental issues in the foundations, methodology, and interpretation of the social sciences. Topics include value orientation and objectivity, methodological individualism, functionalism, reductionism, and the status of idealized models, including models involving idealized conceptions of individual rationality. Emphasis varies from quarter to quarter.

**PHIL 467 Philosophy of Religion (5) I&S** *Clatterbaugh, Rosenthal* Study of selected topics and problems in the philosophy of religion, such as: arguments for the existence of God; the problem of evil; atheism; faith; religious experience and revelation; the attributes of God; miracles; immortality; and the relation between religion and morality. Readings from historical and contemporary authors.

**PHIL 470 Intermediate Logic (5) I&S/NW, QSR** *Fine, Keyt* An introduction to the concepts and

methods of metatheory and their application to the sentential calculus.

**PHIL 471 Advanced Logic (5) I&S/NW** *Keyt* Study of the first-order predicate calculus with identity and function symbols. Consistency, soundness, completeness, compactness. Skolem-Lowenheim theorem. Formalized theories. Prerequisite: PHIL 470.

**PHIL 472 Axiomatic Set Theory (5) I&S/NW** *Keyt, Townsend* Development of axiomatic set theory up to and including the consistency of the Axiom of Choice and Continuum Hypothesis with the Zermelo-Fraenkel Axioms.

**PHIL 473 Philosophy of Mathematics (5) I&S/NW** *Fine* Study of the traditional accounts of the nature of mathematical entities and mathematical truth given by logicism, intuitionism, and formalism, and the impact of Gödel's incompleteness theorems on these accounts.

**PHIL 474 Modal Logic (5) I&S/NW** Notions of necessity and possibility, using the classical systems T, S4, and S5, and the syntax and the semantics (Kripke models) of these systems.

**PHIL 479 Semantics II (3) I&S/NW/PLA** *Ogihara* Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Prerequisite: LING 442. Offered: jointly with LING 479.

**PHIL 481 Philosophy of Biology (5) I&S/NW** *Hankinson Nelson* Study of several current topics in philosophy of biology, which may include the logical structure of evolutionary theory, fitness, taxonomy, the concept of a living thing, reductionism, the concept of a biological species, evolutionary explanations, and philosophical consequences of sociology. Recommended: college-level course in biological science; prerequisite: one PHIL course.

**PHIL 482 Philosophy of Physical Science (5, max. 10) I&S/NW** *Fine, Woody* Study of philosophical issues raised by theories in physics or chemistry, such as whether space (time) is a substance, how causation and locality are treated in quantum mechanics, temporal anisotropy and time travel, the nature of a field of force, the reduction of chemistry to physics. Prerequisite: one PHIL course.

**PHIL 483 Induction and Probability (5) I&S/NW** Introduction to current accounts of evidence and observation, the confirmation of scientific theories, the logic of inductive reasoning, and the metaphysics and epistemology of chance. High school-level math used. Specific topics vary from year to year. Prerequisite: PHIL 120.

**PHIL 484 Reading in Philosophy (1-5, max. 15)** Individual study of selected philosophical works.

**PHIL 490 Advanced Topics in Epistemology (5, max. 15) I&S** *BonJour, Talbott* Intensive study of a particular topic or area in epistemology. Prerequisite: either PHIL 350 or PHIL 450.

**PHIL 498 Undergraduate Internship (1-5, max. 10)** *Baker, Clatterbaugh* Independent fieldwork under the supervision of a faculty member. Individual experiences vary but could include an off-campus practicum or being trained as study group leader or tutor. Offered: AWSp.

**PHIL 500 Proseminar in Philosophy (5)** Introduces incoming graduate students to topics

representative of the field and the faculty's interest. Each class session is devoted to a separate topic taught by a different member of the faculty. In addition to reading and short written assignments. Students prepare a term paper on a topic presented. Offered: A.

**PHIL 505 Seminar in Teaching Philosophy (1, max. 10)** *Baker* First quarter: seminar on topics of importance to a graduate student teaching two quiz sections of a large lecture course. Second quarter: focus on helping student prepare to teach own course. Prerequisite: graduate standing in philosophy. Offered: AW.

**PHIL 510 Seminar in Social Philosophy (5, max. 20)** *Talbott*.

**PHIL 514 Seminar in Legal Philosophy (5, max. 20)** *R. Moore*

**PHIL 520 Seminar in Ancient Philosophy (5, max. 20)** *Cohen, Keyt, Roberts, Weller*

**PHIL 522 Seminar in Modern Philosophy (5, max. 20)** *Clatterbaugh, Weller*

**PHIL 525 Seminar in Nineteenth-Century Philosophy (5, max. 20)** *Baker*

**PHIL 526 Seminar in Recent Philosophy (5, max. 20)** *Keyt*

**PHIL 538 Philosophy of Human Rights (5, max. 20)** *Talbott*

**PHIL 540 Seminar in Ethics (5, max. 20)** *Roberts, Smith, Talbott*

**PHIL 545 Seminar in the Philosophy of Art (5, max. 20)** *Moore*

**PHIL 550 Seminar in Epistemology (5, max. 20)** *BonJour, Talbott*

**PHIL 553 Seminar in Philosophy of Language (5, max. 20)**

**PHIL 556 Seminar in Metaphysics (5, max. 20)** *Baker, BonJour*

**PHIL 560 Seminar in the Philosophy of Science (5, max. 20)** *Fine, Woody*

**PHIL 563 Seminar in the Philosophy of Mind (5, max. 20)** *BonJour*

**PHIL 565 Seminar in the Philosophy of History (5, max. 20)**

**PHIL 566 Seminar in Philosophy of the Social Sciences (5, max. 20)**

**PHIL 567 Seminar in the Philosophy of Religion (5, max. 20)**

**PHIL 570 Seminar in Logic (5, max. 20)** *Keyt* Prerequisite: PHIL 470.

**PHIL 574 Meta-archaeology: Philosophy and Archaeology (4)** *Wylie* Examines philosophical issues raised in and by archaeology, including theories of explanation and model building, analyses of evidential reasoning and hermeneutic interpretation, debates about ideals of objectivity and about science and values. Recommended: ARCHY 570 Text Offered: jointly with ARCHY 574.

**PHIL 584 Reading in Philosophy (1-5, max. 12)** Intensive reading in philosophical literature.

Prerequisite: permission of graduate program coordinator.

**PHIL 587 Contemporary Analytic Philosophy (5, max. 20)** *Baker*

**PHIL 600 Independent Study or Research (\*)** Prerequisite: permission of graduate program coordinator.

**PHIL 800 Doctoral Dissertation (\*)**

## Values

**VALUES 495 Ethics in Practice (2)** *Blake, Gardiner, Goering, Light, Roberts* Culmination of the Values in Society minor. Synthesizes training in the ethics with primary discipline. Includes a project of positive social engagement (service learning or research project with fieldwork). Limited to undergraduates completing the minor in Values and Society.

**VALUES 511 Ethics Matters: An Exploration of Some Moral Qualities (5)** *Goering, Roberts* Asks what we fundamentally require of ourselves and others if we are to live together in morally acceptable ways by discussing moral qualities as they appear in various arenas. Topics include: autonomy, respect, integrity, and trust.

**VALUES 512 Justice Matters: An Exploration of Justice as a Social Ideal (5)** *Gardiner, Roberts* Asks what makes social policies and institutions morally acceptable, primarily through a discussion about justice and injustice. Topics include: relativism, the sources of competing conceptions of justice and equality, cost-benefit analysis, distributive justice and beneficence.

**VALUES 513 Capstone Workshop (2)** *Gardiner, Goering, Roberts* Collaborative research workshop. Capstone course for the Values in Society graduate certificate program. Prerequisite: VALUES 511 and VALUES 512. Offered: Sp.

---

## Physics

**PHYS 101 Physical Science by Inquiry I (5-NW, QSR)** Laboratory-based development of concepts and reasoning skills. Helps prepare preservice teachers to teach science by inquiry. Liberal arts students gain experience in the scientific process. Useful for students with weak science preparation before taking standard science courses. Forms foundation for scientific literacy. Offered: AW.

**PHYS 102 Physical Science by Inquiry I (-5) NW, QSR** Laboratory-based development of concepts and reasoning skills. Helps prepare preservice teachers to teach science by inquiry. Liberal arts students gain experience in the scientific process. Useful for students with weak science preparation before taking standard science courses. Forms foundation for scientific literacy. Prerequisite: PHYS 101. Offered: Sp.

**PHYS 103 Physical Science by Inquiry I (5) NW, QSR** See PHYS 101-102. Prerequisite: PHYS 102.

**PHYS 110 Liberal Arts Physics (5) NW, QSR** Basic concepts of physics presented with emphasis on their origin and their impact on society and the Western intellectual tradition.

Primarily for students in the arts, humanities, and social sciences. Offered: AS.

Credit is not given for both 114 and 121.

**PHYS 114 General Physics (4) NW, QSR** Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Mechanics. Credit is not given for both 114 and 121. Recommended: working knowledge of algebra and trigonometry; one year high school physics; concurrent registration in PHYS 117. Offered: AWSpS.

Credit is not given for both 115 and 122.

**PHYS 115 General Physics (4) NW, QSR** Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Heat and electromagnetism. Credit is not given for both 115 and 122. Prerequisite: PHYS 114 or 121; recommended: concurrent registration in PHYS 118. Offered: AWSpS.

Credit is not given for both 116 and 123.

**PHYS 116 General Physics (4) NW, QSR** Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Sound, light, and modern physics. Credit is not given for both 116 and 123. Prerequisite: PHYS 115 or 122; recommended: concurrent registration in PHYS 119. Offered: AWSpS.

**PHYS 117 General Physics Laboratory (1) NW** Mechanics laboratory. Credit/no credit only. Credit is not given for both 117 and the 121 lab. Prerequisite: PHYS 114 which may be taken concurrently. Offered: AWSpS.

**PHYS 118 General Physics Laboratory (1) NW** Heat and electromagnetism laboratory. Credit/no credit only. Credit is not given for both 118 and the 122 lab. Prerequisite: PHYS 115 which may be taken concurrently. Offered: AWSpS.

**PHYS 119 General Physics Laboratory (1) NW** Sound, light, and modern physics laboratory. Credit/no credit only. Credit is not given for both 119 and the 123 lab. Prerequisite: PHYS 116 which may be taken concurrently. Offered: AWSpS.

The courses 121, 122, 123, 224, 225 plus appropriate laboratory together make up the general physics sequence for science and engineering students.

**PHYS 121 Mechanics (5) NW, QSR** Basic principles of mechanics and experiments in mechanics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 114 and PHYS 121. Prerequisite: MATH 124, MATH 127, MATH 134, or MATH 145, any of which may be taken concurrently; recommended: one year high school physics. Offered: AWSpS.

**PHYS 122 Electromagnetism and Oscillatory Motion (5) NW** Basic principles of electromagnetism, the mechanics of oscillatory motion, and experiments in these topics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 115 and

PHYS 122. Prerequisite: MATH 125, MATH 128, MATH 134, or MATH 146, any of which may be taken concurrently; PHYS 121. Offered: AWSpS.

**PHYS 123 Waves (5) NW** Electromagnetic waves, optics, waves in matter, and experiments in these topics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 116 and PHYS 123. Prerequisite: MATH 126, MATH 129, or MATH 134, any of which may be taken concurrently; PHYS 122. Offered: AWSpS.

**PHYS 204 Radiation: Nature, Technology, and Society (3) NW** Introduction to the science and implications of nuclear physics and radiation for non-science students. Emphasis on qualitative rather than quantitative understanding. Physics of the nucleus, types of radiation, technological uses, and human exposure. Critical evaluation of current issues, including food irradiation, depleted uranium, nuclear power, and nuclear weapons.

**PHYS 207 The Physics of Music (3) NW** The nature of sound; vibrations; traveling and standing waves; response of the ear to sound; production of musical sounds.

**PHYS 210 Physics by Inquiry I (5) NW** Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics and physical science as a process of inquiry. Prerequisite: either PHYS 103, PHYS 116, or PHYS 123. Offered: A.

**PHYS 211 Physics by Inquiry I (5) NW** Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics and physical science as a process of inquiry. Prerequisite: PHYS 210. Offered: W.

**PHYS 212 Physics by Inquiry I (5) NW** Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics and physical science as a process of inquiry. Prerequisite: PHYS 211. Offered: Sp.

**PHYS 214 Light and Color (5) NW, QSR** Compares past explanation of certain familiar natural phenomena with present understandings. Lamps and lighting, outdoor light, optical devices, color vision, perspective, paints, and pigments. Quantitative comparison critical to the course, but college-level mathematics background not required. Intended for non-science students.

**PHYS 215 A Way of Knowing (5) NW, QSR** *Boynston* Insight to the character and culture of scientific inquiry through a historical examination of how we have interpreted our experience of the phenomena of gravitation. Specifically for non-science majors. Quantitative reasoning and critical thinking required, but no college-level mathematics.

**PHYS 216 Science and Society (5) NW, QSR** *Chaloupka* of the relationship between science, technology and society. Nuclear physics and molecular biology serves as concrete examples of fields with significant impact on society. Offered jointly with SIS 216; Sp.

**PHYS 224 Thermal Physics (3) NW** Introduction to heat, thermodynamics, elementary kinetic theory, and the physics of continuous media. Prerequisite: MATH 126, MATH 129, or MATH 136, any of which may be taken concurrently; PHYS 122 which may be taken concurrently. Offered: AWSpS.

**PHYS 225 Modern Physics (3) NW** Special theory of relativity; phenomena of modern physics with emphasis on photons, electrons, and atoms; introduction to quantum physics. Prerequisite: 2.0 in PHYS 123 which may be taken concurrently. Offered: WSpS.

**PHYS 227 Elementary Mathematical Physics (4) NW** Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: either MATH 134, MATH 135, MATH 136, MATH 308, or MATH 318; 2.0 in PHYS 123. Offered: AS.

**PHYS 228 Elementary Mathematical Physics (3) NW** Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: PHYS 227. Offered: AW.

**PHYS 229 Mathematical Methods and Classical Mechanics (3) NW** Mathematical methods applied to classical mechanics, including Lagrangian mechanics. Prerequisite: 2.0 in PHYS 228. Offered: Sp.

**PHYS 231 Introductory Experimental Physics (3) NW** Introduction to data acquisition and analysis using experiments which measure fundamental constants or properties of nature (Planck's constant, Boltzmann's constant, speed of light, charge of electron). Prerequisite: 2.0 in PHYS 123. Offered: A.

**PHYS 232 Introduction to Computational Physics (3)** Computational techniques applied to physics and data analysis in laboratory setting. Emphasis on numerical solutions of differential equations, least square data fitting, Monte Carlo methods, and Fourier Analysis. A high-level language taught and used; no previous computing experience required. Prerequisite: PHYS 227.

**PHYS 248 Introductory Selected Topics (1-5, max. 15) NW**

**PHYS 311 Relativity and Gravitation (3) NW** Special theory of relativity, Newtonian gravity, and relativistic effects of gravitation, including black holes, gravitational waves, and applications to cosmology. Prerequisite: 2.0 in PHYS 123.

**PHYS 315 Applications of Modern Physics (3)** Foundations of quantum physics, including Schrodinger equation, tunneling, atoms, spin, and applications. These include semiconductor devices, lasers, magnetic resonance imaging (MRI), quantum cryptography, atomic microscopes. Prerequisite: minimum grade of 2.0 in PHYS 224, minimum grade of 2.0 in PHYS 225, minimum grade of 2.0 in PHYS 227 which may be taken concurrently.

**PHYS 321 Electromagnetism (4) NW** First of a three-quarter sequence. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electro-

magnetism; physical optics. Prerequisite: either MATH 324 which may be taken concurrently, MATH 334, MATH 335, or MATH 336; minimum grade of 2.0 in PHYS 228. Offered: AW.

**PHYS 322 Electromagnetism (4) NW**

Continuation of PHYS 321. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: PHYS 321. Offered: WSp.

**PHYS 323 Electromagnetism (4) NW**

Continuation of PHYS 322. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: PHYS 322.

**PHYS 324 Quantum Mechanics (4) NW** First part of a two-quarter sequence. Introduction to nonrelativistic quantum mechanics: need for quantum theory, Schrodinger equation, operators, angular momentum, the hydrogen atom, identical particles, and the periodic table. Prerequisite: either MATH 324, MATH 334, MATH 335, or MATH 336; minimum grade of 2.0 in PHYS 225; minimum grade of 2.0 in PHYS 228. Offered: ASu.

**PHYS 325 Quantum Mechanics (4) NW**

Continuation of PHYS 324. Introduction to nonrelativistic quantum mechanics: perturbation theory, the variational principle, radiation; application of quantum mechanics to atomic physics, magnetic resonance, scattering, and various special topics. Prerequisite: PHYS 324. Offered: W.

**PHYS 328 Statistical Physics (3) NW** Elements of statistical mechanics and their applications. Prerequisite: PHYS 224; PHYS 324. Offered: Sp.

**PHYS 331 Optics Laboratory (3) NW**

Measurements of interference and diffraction, optical properties of matter, image processing, interferometry, holography. Prerequisite: PHYS 228. Offered: Sp.

**PHYS 334 Electric Circuits Laboratory (3) NW**

Basic elements of DC, AC, and transient circuits; electronic devices; electrical measurements. Prerequisite: either MATH 126, MATH 129, or MATH 136; 2.0 in PHYS 123. Offered: WSpS.

**PHYS 335 Electric Circuits Laboratory (3) NW**

Electrical measurements, data management, digital electronics of microprocessor systems. Building a microprocessor application. Prerequisite: PHYS 334. Offered: SpS.

**PHYS 401 Special Problems (\*, max. 30)**

Supervised individual study. Offered: AWSpS.

**PHYS 402 Special Problems (\*, max. 30)**

Supervised individual study. Offered: AWSpS.

**PHYS 403 Special Problems (\*, max. 30)**

Supervised individual study. Offered: AWSpS.

**PHYS 405 Physical Science by Inquiry II (5-)**

**NW** Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops scientific literacy. Offered: A.

**PHYS 406 Physical Science by Inquiry II (-5)**

**NW** Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops scientific literacy. Offered: W.

**PHYS 407 Physics by Inquiry II (5) NW**

Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 123. Offered: A.

**PHYS 408 Physics by Inquiry II (5) NW**

Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 407. Offered: W.

**PHYS 409 Physics by Inquiry II (5) NW**

Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 408. Offered: Sp.

**PHYS 410 Physics by Inquiry for In-Service**

**Teachers (1-2, max. 30) NW** A "hands-on" inquiry-oriented approach designed to train in-service teachers in the use of the physical science content for any of several science programs selected by a school or school district. Credit/no credit only.

**PHYS 411 Physics by Inquiry for Lead**

**Teachers (1-4, max. 4) NW** Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Credit/no credit only. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Offered: A.

**PHYS 412 Physics by Inquiry for Lead Teachers**

**(1-4, max. 4) NW** Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Credit/no credit only. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Offered: A.

**PHYS 413 Physics by Inquiry for Lead**

**Teachers (1-4, max. 4) NW** Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Credit/no credit only. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Offered: A.

**PHYS 421 Atomic and Molecular Physics (3)**

**NW** Survey of the principal phenomena of atomic and molecular physics. Prerequisite: PHYS 323; PHYS 325. Offered: W.

**PHYS 422 Nuclear and Elementary-Particle**

**Physics (3) NW** Survey of the principal phenomena of nuclear and elementary-particle physics. Prerequisite: PHYS 323; PHYS 325. Offered: Sp.

**PHYS 423 Solid-State Physics (3) NW**

Survey of the principal phenomena of solid-state physics. Prerequisite: a minimum grade of 2.0 in either PHYS 315 or PHYS 324. Offered: A.

**PHYS 424 Mathematical Physics (3) NW**

Advanced classical mechanics. Prerequisite: PHYS 323; PHYS 325. Offered: A.

**PHYS 427 Applications of Physics (1-3, max. 12) NW**

Current applications of physics to problems in the sciences and technology.

**PHYS 428 Selected Topics in Physics (1-5, max. 12) NW**

**PHYS 429 Biophysics (3)** Application of the concepts and methods of physics to biological systems. Prerequisite: PHYS 123; PHYS 224; PHYS 227.

**PHYS 431 Modern Physics Laboratory (3) NW**

Measurement in modern atomic, molecular, and solid-state physics. Recommended: 30 credits in physics. Offered: A.

**PHYS 432 Modern Physics Laboratory (3) NW**

Measurement in modern atomic, molecular, and solid-state physics. Recommended: 30 credits in physics. Offered: W.

**PHYS 433 Modern Physics Laboratory (3) NW**

Techniques in nuclear and elementary-particle research. Offered: Sp.

**PHYS 434 Application of Computers to**

**Physical Measurement (3) NW** Laboratory giving specific instruction and experience in interfacing laboratory equipment to computers. Prerequisite: PHYS 334. Offered: A.

**PHYS 436 Nonlinear Dynamics and Chaos (4)**

**NW** Variational Principle, Lagrangian and Hamiltonian Mechanics, phase space, nonlinear dynamics, approach to chaos, Lyapunov exponents, applications to physical systems. Numerical exercises to illustrate phenomena. Prerequisite: MATH 309.

**PHYS 441 Quantum Physics (4) NW**

Introduction to concepts and methods of quantum physics: wave mechanics (de Broglie wavelength, uncertainty principle, Schrodinger equation), one-dimensional examples (tunneling, harmonic oscillator), formalism of quantum physics, angular momentum and the hydrogen atom. Recommended: 30 credits in physical science or engineering. Offered: W.

**PHYS 451 Issues for Ethnic Minorities and Women In Science and Engineering (3/5) I&S**

Addresses issues faced by women and ethnic minorities in physical sciences and engineering. Focuses on participation, barriers to participation, and solutions to those issues for women and ethnic minorities in physical sciences and engineering. Offered: jointly with WOMEN 485.

**PHYS 460 Water in the Environment (3) NW**

*Baker, Raymond, Waddington, Warren* Discusses the unique physical and chemical properties of the water molecule in relation to the atmospheric greenhouse effect, precipitation formation, oceanic circulations, infiltration of water through soils, geyser eruptions, and glacier and sea ice thickness. Prerequisite: either MATH 124, MATH 126, MATH 129, or MATH 136; PHYS 123. Offered: jointly with ATM S 460/ESS 424. Offered: A.

**PHYS 485 Senior Honors Seminar (1, max. 3)**  
NW Offered: A.

**PHYS 486 Senior Honors Seminar (1, max. 3)**  
NW Offered: W.

**PHYS 487 Senior Honors Seminar (1, max. 3)**  
NW Offered: Sp.

**PHYS 491 Independent Research (1-3, max. 3)**  
Supervised, independent study requiring written and oral presentations summarizing work accomplished. Recommended: 12 credits in physics above 200 level. Offered: A.

**PHYS 492 Independent Research (1-3, max. 3)**  
Supervised, independent study requiring written and oral presentations summarizing work accomplished. Recommended: 12 credits in physics above 200 level. Offered: W.

**PHYS 493 Independent Research (1-3, max. 3)**  
Supervised, independent study requiring written and oral presentations summarizing work accomplished. Recommended: 12 credits in physics above 200 level. Offered: Sp.

**PHYS 494 Seminar on Current Problems in Physics (1, max. 3)** NW Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentation summarizing work accomplished are required. Recommended: 12 credits in physics above 200 level. Offered: A.

**PHYS 495 Seminar on Current Problems in Physics (1, max. 3)** NW Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentation summarizing work accomplished are required. Recommended: 12 credits in physics above 200 level. Offered: W.

**PHYS 496 Seminar on Current Problems in Physics (1, max. 3)** NW Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentation summarizing work accomplished are required. Recommended: 12 credits in physics above 200 level. Offered: Sp.

**PHYS 501 Tutorials in Teaching Physics (1, max. 2)** Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no credit only. Offered: A.

**PHYS 502 Tutorials in Teaching Physics (1, max. 2)** Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no credit only. Offered: W.

**PHYS 503 Tutorials in Teaching Physics (1, max. 2)** Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no credit only. Offered: Sp.

**PHYS 505 Mechanics (3)** Lagrangian and Hamiltonian dynamics, with applications to various topics such as coupled oscillators, parametric resonance, anharmonic oscillations, chaos. Offered: A.

**PHYS 506 Numerical Methods (3)** Integration, solution of differential equations, Monte Carlo methods, function minimization, data analysis, modern computing techniques, computation in experimental physics. Offered: Sp.

**PHYS 507 Physical Applications of Group Theory (3)** Applications of finite and continuous groups, representation theory, symmetry, and conservation laws to physical systems. Offered: Sp.

**PHYS 511 Topics in Contemporary Physics (3, max. 9)** Topics of current experimental, theoretical, or technological interest in modern physics. Offered: Sp.

**PHYS 513 Electromagnetism and Relativity (4)** First of a three-part sequence. Principles of electrostatics, complex variable techniques, boundary value problems and their associated mathematical techniques, Green's functions. Offered: A.

**PHYS 514 Electromagnetism and Relativity (3)** Continuation of PHYS 513. Electric and magnetic fields in free space and material media, wave guides and cavity resonators. Offered: W.

**PHYS 515 Electromagnetism and Relativity (4)** Continuation of PHYS 514. Special relativity, electromagnetic radiation from accelerated charges, synchrotron radiation, Cerenkov radiation, radiation reaction. Offered: Sp.

**PHYS 517 Quantum Mechanics (4)** First of a three-part sequence. Modern non-relativistic quantum mechanics developed, beginning with its basic principles. Dirac and abstract operator notation introduced, starting with simple examples. Offered: A.

**PHYS 518 Quantum Mechanics (4)** Continuation of PHYS 517. Modern non-relativistic quantum mechanics. The character of the theory illustrated both with physical examples and with conceptual problems. Topics include: atomic structure, scattering processes, density operator description of mixed states, and measurement theory. Abstract operator methods emphasized in the exposition of angular momentum, scattering, and perturbation theory. Offered: W.

**PHYS 519 Quantum Mechanics (4)** Continuation of PHYS 518. Modern non-relativistic quantum mechanics. Physical examples and conceptual problems. Topics include: atomic structure, scattering processes, density operator description of mixed states, and measurement theory. Abstract operator methods emphasized in the exposition of angular momentum, scattering, and perturbation theory. Offered: Sp.

**PHYS 520 Advanced Quantum Mechanics — Introduction to Quantum Field Theory (4)** Multi-particle systems, second quantization, diagrammatic perturbation theory, radiation, correlation functions and multi-particle scattering, relativistic theories, renormalizability, basic quantum electrodynamics, and other applications. Offered: A.

**PHYS 521 Advanced Quantum Mechanics — Introduction to Quantum Field Theory (3)** Multi-particle systems, second quantization, diagrammatic perturbation theory, radiation, correlation functions and multi-particle scattering, relativistic theories, renormalizability, basic quantum electrodynamics, and other applications. Offered: W.

**PHYS 522 Advanced Quantum Mechanics: Introduction to Modern Quantum Field Theory (3)** Functional integrals, symmetry breaking, critical phenomena and continuum limits, and non-perturbative methods. Credit/no credit only. Offered: Sp.

**PHYS 524 Thermodynamics and Statistical Mechanics (4)** Statistical mechanical basis of the fundamental thermodynamical laws and concepts; classical and quantum statistical distribution functions; applications to selected thermodynamic processes and examples of Bose and Fermi statistics. Offered: W.

**PHYS 525 Statistical Mechanics (3)** Introduction to equilibrium and non-equilibrium aspects of many-body systems; scale invariance and universality at phase transitions and critical phenomena; exactly soluble models; Markov processes, master equations and Langevin equation in non-equilibrium stochastic processes. Prerequisite: PHYS 524. Offered: A.

**PHYS 527 Current Problems in Physics (1)** Introduction to current research topics for beginning graduate students. Credit/no credit only. Offered: A.

**PHYS 528 Current Problems in Physics (1)** Introduction to current research topics for beginning graduate students. Credit/no credit only. Offered: W.

**PHYS 530 Laser Physics (4)** Physics underlying laser design and operation in the context of common laboratory systems. Topics may include continuous and pulsed lasers; solid, liquid, and gas gain media; Q-switching, mode-locking, resonator theory, nonlinear optics, and others. Prerequisite: basic quantum mechanics, electromagnetism, and optics; recommended: PHYS 541.

**PHYS 532 Liquid Crystal Devices (4)** Physics of liquid crystals and applications to practical display devices. Phases, phase transitions, optical and dielectric properties, molecular and device "engineering," future prospects.

**PHYS 536 Introduction to Acoustics and Digital Signal Processing (4)** *Chaloupka* Introduces mathematical and physics principles of acoustics in digital signal processing applications. Complex analysis and Fourier methods, physics of vibrations and waves, solutions of the wave equation, digital convolution and correlation methods, and Maximum Length Sequence method in signal analysis and spread-spectrum applications. Prerequisite: PHYS 123; MATH 120.

**PHYS 541 Applications of Quantum Physics (4)** Techniques of quantum mechanics applied to lasers, quantum electronics, solids, and surfaces. Emphasis on approximation methods and interaction of electromagnetic radiation with matter. Prerequisite: PHYS 421 or PHYS 441 or equivalent. Offered: Sp.

**PHYS 542 Numerical Methods in Physics (4)** Numerical methods for analysis and computation in physics. Topics may include integration, differential equations, partial differential equations, optimization, data handling, and Monte Carlo techniques. Emphasis is applications in physics. Prerequisite: 30 credits in physical sciences, computer science, or engineering.

**PHYS 543 Electromagnetic Theory (4)** Principal concepts of electromagnetism. Static electric

and magnetic fields. Boundary-value problems. Electric and magnetic properties of materials. Electromagnetic waves and radiation. Prerequisite: 30 credits in physical sciences, computer science, or engineering. Offered: A.

**PHYS 544 Applications of Electromagnetic Theory (4)** Emphasis may vary from year to year. Topics may include electromagnetic waves, radiation, scattering, wave guides, plasma physics, quantum electronics, and accelerator physics. Prerequisite: PHYS 543 or equivalent.

**PHYS 545 Contemporary Optics (4)** Coordinated lecture and laboratory treatment of topics in contemporary optics. Subjects include Fourier optics, lens systems, interferometry, laser optics, holography, polarization, crystal optics, birefringence, laser and conventional light sources, optical detectors. Prerequisite: PHYS 543 or equivalent.

**PHYS 546 Condensed-Matter Physics (4)** Introduction to the theory of solids: crystal structure in real space and reciprocal space, phonons, free electrons, band theory, semiconductor devices. Prerequisite: PHYS 441 or equivalent.

**PHYS 547 Electronics for Physics Research (4)** Electronic techniques as applied in physics research. Topics include noise, control-system analysis, operational amplifiers, lock-in amplifiers, precision power supplies and metering, data transmission, microprocessors. Several integrated measurement systems are examined in the context of specific research problems. Prerequisite: elementary electronics.

**PHYS 549 Low-Temperature Physics and Cryogenics (4)** Condensed-matter physics at low and ultralow temperatures. Production of low temperatures; liquefaction of gases, dilution refrigeration, magnetic and compressional cooling. Macroscopic quantum effects: superconductivity, superfluidity. Applications of superconductors. The ultralow temperature frontier.

**PHYS 550 Atomic Physics (3)** Theory of atomic structure and spectra; atomic and molecular beams; resonance techniques; atomic collisions; topics of current interest. Prerequisite: PHYS 519.

**PHYS 551 Atomic Physics (3)** Theory of atomic structure and spectra; atomic and molecular beams; resonance techniques; atomic collisions; topics of current interest. Prerequisite: PHYS 519.

**PHYS 552 Introduction to Cosmic Ray Physics (3)** The nature and cosmological significance of cosmic ray photons and particles. The motion and confinement of particles in the geophysical, interplanetary, and interstellar medium. Theories of the processes involved in the high-energy interaction of cosmic rays, including shower theory. Methods of measurement and current problems. Credit/no credit only. Prerequisite: introductory quantum mechanics.

**PHYS 554 Nuclear Astrophysics (3)** Big bang nucleosynthesis; nuclear reactions in stars; solar neutrinos and neutrino oscillations; core-collapse supernovae; nucleosynthesis in stars, novae, and supernovae; neutron stars; composition and sources of cosmic rays; gamma ray bursts; atmospheric neutrinos. Offered: jointly with ASTR 510; A.

**PHYS 555 Cosmology and Particle Astrophysics (3)** Big bang cosmology; relativistic world models and classical tests; background radiation; cosmological implications of nucleosynthesis; baryogenesis; inflation; galaxy and large-scale structure formation; quasars; intergalactic medium; dark matter.

**PHYS 557 High Energy Physics (3)** First quarter of a three-quarter series. Emphasis on the experimental foundations of particle physics. Prerequisite: PHYS 519; recommended: PHYS 520, which may be taken concurrently. Offered: A.

**PHYS 558 High Energy Physics (3)** Second quarter of a three-quarter series. Phenomenology of the standard model of strong and electroweak interactions, including an introduction to Feynman diagrams. Prerequisite: PHYS 519; recommended: PHYS 520 and PHYS 521, which may be taken concurrently. Offered: W.

**PHYS 559 High Energy Physics (3)** Third quarter of a three-quarter series. Topics of current interest in high-energy particle physics. Prerequisite: PHYS 519; recommended: PHYS 520 and 521, which may be taken concurrently. Offered: Sp.

**PHYS 560 Theoretical Nuclear Physics (3)** First of a two-part sequence. Nuclear structure, scattering, reactions, and decays in terms of elementary properties of nucleons and current theoretical models. Prerequisite: PHYS 519. Offered: A.

**PHYS 561 Theoretical Nuclear Physics (3)** Continuation of PHYS 560. Nuclear structure, scattering, reactions, and decays in terms of elementary properties of nucleons and current theoretical models. Prerequisite: PHYS 519. Offered: W.

**PHYS 564 General Relativity (3)** First of a two-part sequence. General covariance and tensor analysis, the relativistic theory of gravitation as given by Einstein's field equations, experimental tests and their significance, and applications of general relativity, particularly in the areas of astrophysics and cosmology. Prerequisite: PHYS 515.

**PHYS 565 General Relativity (3)** Continuation of PHYS 564. General covariance and tensor analysis, the relativistic theory of gravitation as given by Einstein's field equations, experimental tests and their significance, and applications of general relativity, particularly in the areas of astrophysics and cosmology. Prerequisite: PHYS 515.

**PHYS 567 Theory of Solids (3)** First quarter of a course on modern solid state and condensed matter physics, aimed at bringing student's knowledge up to the level of current literature. Topics include structural, electronic, and vibrational properties; optical response functions and dynamics; transport theory; and cooperative phenomena. Prerequisite: PHYS 519, PHYS 524. Offered: AW.

**PHYS 568 Theory of Solids (3)** Second quarter of a course on modern solid state and condensed matter physics, aimed at bringing the student's knowledge up to the level of current literature. Additional topics (see PHYS 567) include magnetism, quantum Hall effect, superconductivity. Offered: WSp.

**PHYS 570 Quantum Field Theory (3)** Emphasizes either relativistic quantum field theory or the many-body problem. Normally offered on a Credit/no credit only. Prerequisite: PHYS 522.

**PHYS 571 Quantum Field Theory (3)** Emphasizes either relativistic quantum field theory or the many-body problem. Normally offered on a Credit/no credit only. Prerequisite: PHYS 522.

**PHYS 572 Modern Quantum Field Theory (3)** Advanced topics in quantum field theory. Credit/no credit only. Prerequisite: PHYS 570, PHYS 571.

**PHYS 575 Selected Topics in Applications of Physics (\*, max. 30)**

**PHYS 576 Selected Topics in Experimental Physics (\*, max. 30)**

**PHYS 578 Selected Topics in Theoretical Physics (\*, max. 30)** Credit/no credit only.

**PHYS 580 Physics Colloquium (\*, max. 30)** Credit/no credit only. Offered: AWSp.

**PHYS 581 Seminar in High-Energy Physics (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 582 Seminar in Particle Theory (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 583 Seminar in Relativistic Astrophysics (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 584 Seminar in Recent Developments in Atomic Physics (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 585 Seminar in Experimental Nuclear Physics (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 586 Seminar in Condensed Matter Physics (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 587 Seminar in Nuclear Theory (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 588 Particle Astrophysics Seminar (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 589 Seminar in Problems of Physics Education (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 590 Seminar in Statistical Physics (1-3, max. 20)** Credit/no credit only. Offered: AWSp.

**PHYS 600 Independent Study or Research (\*)** Study or research under the supervision of individual faculty members. Credit/no credit only. Prerequisite: permission of supervisor. Offered: AWSpS.

**PHYS 800 Doctoral Dissertation (\*)** Credit/no credit only. Prerequisite: permission of Supervisory Committee chairperson. Offered: AWSpS.

# Political Science

## Political Science

### **POL S 101 Introduction to Politics (5) I&S**

Political problems that affect our lives and shape the world around us. Offered: AWPSP.

### **POL S 201 Introduction to Political Theory (5) I&S**

Philosophical bases of politics and political activity. Provides an introduction to the study of politics by the reading of a few books in political philosophy. Organized around several key political concepts, such as liberty, equality, justice, authority, rights, and citizenship. Offered: AWPSP.

### **POL S 202 Introduction to American Politics (5) I&S**

Institutions and politics in the American political system. Ways of thinking about how significant problems, crises, and conflicts of American society are resolved politically. Offered: AWPSP.

### **POL S 203 Introduction to International Relations (5) I&S**

The world community, its politics, and government. Offered: AWPSP.

### **POL S 204 Introduction to Comparative Politics (5) I&S**

Political systems in a comparative framework. Traditional and contemporary approaches to the study of governments and societies in different countries. Offered: WSp.

### **POL S 205 Political Science as a Social Science (5) I&S, QSR**

Methodological perspectives of the various social science disciplines: commonalities and differences in assumptions, values, and paradigms. Current issues from the multiple perspective of social sciences; limits of the social sciences in resolving key social issues. Offered: W.

### **POL S 212 Philosophy of Feminism (5) I&S**

Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with PHIL 206/WOMEN 206.

### **POL S 213 The Korean Peninsula and World Politics (5) I&S**

*Ha* Introduces Korean politics, economics, society, and international relations. Overviews the development in politics, economy, and society since the late nineteenth century. Addresses the evolution of Korea in the international society by comparing Korea experience with that of China and Japan. Offered: jointly with SISEA 213.

### **POL S 246 African American Politics (5) I&S**

*P. Rivers* Survey of African Americans within the U.S. socio-political processes. Situates African Americans within a post-civil rights context where there is debate about race's centrality to an African American politics. Recommended: either AES 150, AFRAM 201, or POL S. 202. Offered: jointly with AFRAM 246.

### **POL S 249 Introduction to Labor Studies (5) I&S**

Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with HIST 249/SOC 266

### **POL S 270 Introduction to Political Economy (5) I&S**

Political economy as a tool for understanding and evaluating the political world. Combines theory, methods, and insights derived from economics and political science and applies them to a range of substantive issues.

### **POL S 273 The Concept of Political Power (5) I&S**

How to understand and explain relationships of power. Readings from Marxism, Weberian sociology, anarchism, classical political philosophy, and contemporary political science. May also include works of fiction.

### **POL S 281 Introduction to American Political Culture (5) I&S/VLPA**

Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Offered: jointly with ENGL 251.

### **POL S 299 Special Topics in Political Science (2-5, max. 10) I&S**

Examines a different subject or problem of current interest with the discipline.

### **POL S 301 Special Topics in Political Theory (5, max. 10) I&S**

Selected contemporary political issues. Political principles as reflected in concrete political problems. Topics might include: women's rights, civil disobedience, national health care, affirmative action, environmental protection, privacy, human rights, and redistribution of property. Recommended: POL S 101, POL S 201, POL S 202, POL S 203, POL S 204, or POL S 205.

### **POL S 303 Public Policy Formation in the United States (5) I&S**

Policy decision making with emphasis on: how issues arise, the way they become part of the policy agenda of the executive and the legislature, how these institutions organize to handle policy issues, and the roles of the legislature, the executive, and the bureaucracy. Public policy literature and familiarization with key aspects of policy decision making at the national, state, and local levels.

### **POL S 304 The Press and Politics in the United States (5) I&S**

Journalists' role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Extensive off-campus experience included. Offered: jointly with COM 304.

### **POL S 305 The Politics of Mass Communication in America (5) I&S**

Role of mass audiences in politics from the standpoint of the communication strategies used to shape their political involvement. Topics include: social structure and political participation, political propaganda and persuasion, the political uses of public opinion, and the mass media and politics. Offered: jointly with COM 305.

### **POL S 306 Media, Society and Political Identity I&S (5)**

Explores how society and culture are both represented in and shaped by communication technologies and media content. Media include film, advertising, news, entertainment television, talk shows, and the Internet. Explores how media represent and affect individual identity, values, and political engagement. Offered: jointly with COM 306.

### **POL S 307 Religion and World Politics (5) I&S**

*Gill* Explores the intersection of religion and

politics in various regions of the world, including the U.S., Europe, Middle East, Latin America, and other regions. Presents a historical perspective on religion alongside contemporary issues in religion, politics, and church-state relations. Offered: jointly with RELIG 307.

### **POL S 308 The Western Tradition of Political Thought, Ancient and Medieval (5) I&S**

Origin and evolution of major political concepts from ancient Greece to the medieval period, from Thales through Aquinas.

### **POL S 309 The Western Tradition of Political Thought, Pre-Modern (5) I&S**

Continuation of 308, treating materials from the fifteenth through eighteenth centuries, Machiavelli through Rousseau.

### **POL S 310 The Western Tradition of Political Thought, Modern (5) I&S**

Continuation of 308 and 309, focusing on material from the eighteenth through twentieth centuries, from Rousseau through Lenin.

### **POL S 311 Individual and the State (5) I&S**

Individualism and communitarian critics. Political and ethical implications of both. Nature of the state, liberty, responsibility, cooperation. Important individualist and collectivist literature, dealing with market institutions and citizen politics, critically assessed.

### **POL S 313 Women in Politics (5) I&S**

Theoretical, historical, and empirical studies of women's participation in political and social movements. Women's diverse efforts to improve their political, social, and economic status. Policy issues of particular concern to women. Women's political experiences in household, local, regional, national, and international arenas Offered: jointly with WOMEN 313.

### **POL S 315 Black Identities and Political Power (5) I&S**

*P. Rivers* Related the deployment of political power within institutions to shifting racial identities. Shows how racial identities both reflect and inflect relations of domination and resistance within and between cultures in the black diaspora. Prerequisite: either AES 150, AFRAM 150, AFRAM 201, or POL S 201. Offered: jointly with AFRAM 315.

### **POL S 316 African-American Political and Social Thought (5) I&S**

Race relations in U.S. politics as defined by the struggle of African Americans for economic, political, and social equality. Studies of African-American political and social thought; expands and clarifies our understanding of the strengths and weaknesses of American democratic ideals.

### **POL S 317 The Politics of Race and Ethnicity in the United States (5) I&S**

Introduction to the history and development of racial hierarchy, focusing on how race and ethnicity shape political institutions (e.g., the Constitution, political parties, voting systems). Examination of political relationships between Whites, African Americans, Latinos, and Asian Americans. Case studies of minority representation and the politics of welfare, crime, immigration, and terrorism. Offered: jointly with LSJ 331.

### **POL S 318 American Political Thought I (5) I&S**

Major thinkers and themes in American political and cultural development from Puritan origins to the Civil War.

**POL S 319 American Political Thought II (5) I&S** Major thinkers and themes in American political and cultural development from the Civil War to the present.

**POL S 321 American Foreign Policy (5) I&S** Constitutional framework; major factors in formulation and execution of policy; policies as modified by recent developments; the principal policymakers-President, Congress, political parties, pressure groups, and public opinion.

**POL S 322 International Political Economy of Latin America (5) I&S** Exploration of politics underlying Latin America's economic development. Topics covered include import-substituting industrialization, mercantilism, the debt crisis, neoliberalism, market integration, and poverty. Review of major theoretical perspectives such as modernization theory, dependency, and the new political economy. Offered: jointly with SISLA 322.

**POL S 324 Europe in World Politics (5) I&S** Independent and coordinated efforts of Britain, France, and West Germany to adapt to the post-World War II global system. Creation and development of the Atlantic Alliance. Relations with postcommunist states. Decolonization and the evolution of relations with the Third World. The movement for European integration. Recommended: POL S 203.

**POL S 325 The Arab-Israeli Conflict (5) I&S** The politics of conflicting ideologies: Zionism and Arab nationalism; formation of the state of Israel; development of Palestinian nationalism; Arab-Israeli wars. Re-emergence of Palestinian activism; domestic sources of foreign policy; the role of the superpowers.

**POL S 326 Scandinavia in World Affairs (5) I&S** Introduction to the foreign relations of Scandinavia with a focus on Nordic security, international economic pressures, and global conflict resolution. Survey of the national settings for international involvements and highlights the dilemmas for industrial societies exposed to the pressure of interdependence. Offered: jointly with SCAND 326.

**POL S 327 Women's Rights as Human Rights (5) I&S** Women's rights in comparative perspective, focusing on varying settings that alter the meaning and practical application. Domestic level: areas including abortion politics to trafficking in women. International level: areas including equality claims before European supranational judicial bodies, rape as war crime in international law. Offered: jointly with LSJ 327.

**POL S 328 International Organizations (5) I&S** Explores historical, theoretical, and empirical aspects of the United Nations, its specialized agencies, and other international organizations, both governmental and nongovernmental. Recommended: POL S 203.

**POL S 329 Global Communication (5) I&S** Introduction to the history, purpose, channels, content, technologies, policy, and regulation of international communications systems. Issues covered include disparities in media development between post-industrial and developing nations, imbalances in international news and information flow, and the emergence of global communications. Offered: jointly with COM 322.

**POL S 330 Communications in International Relations (5) I&S** Looks at communications in relations between international groups and

states. Examines the range of functions and roles communication media play in international affairs, global issues, and intergroup relations. Also examines the strategic use of communications by various groups. Offered: jointly with COM 321.

**POL S 331 Government and Politics in the Middle East and North Africa (5) I&S** Breakdown of traditional society and the problems of building modern political systems.

**POL S 337 Collective Violence and the State (5) I&S** Comparative study of collective violence in modern states with emphasis on riots and pogroms. Readings include case materials drawn from Russian pogroms of the nineteenth and twentieth centuries, Hindu-Muslim riots in modern India, and race riots in the United States and Great Britain. Offered: jointly with SIS 337.

**POL S 340 Government and Politics of South Asia (5) I&S** Comparison of problems of national integration and political development in India, Pakistan, and Ceylon. Offered: jointly with SISSA 340.

**POL S 341 Government and Politics of Canada (5) I&S** Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered: jointly with SISCA 341.

**POL S 342 Government and Politics of Latin America (5) I&S** Analysis of the political dynamics of change in Latin America comparing various national approaches to the political problems of modernization, economic development, and social change. Offered: jointly with SISLA 342.

**POL S 343 Politics and Change in Southeast Asia (5) I&S** Government and politics in the countries of Southeast Asia, with attention given to the nature of the social and economic environments that condition them. Offered: jointly with SISSE 343.

**POL S 346 Governments of Western Europe (5) I&S** Modern government and politics of Great Britain, France, Germany, and Italy.

**POL S 350 Government and Interest Groups in the United States (5) I&S** Agrarian, labor, professional, business, and ethnic interest in politics; impact on representative institutions and governmental processes.

**POL S 351 The American Democracy (5) I&S** Democratic theory; constitutional theory; the Presidency; Congress; the Supreme Court; civil rights and civil liberties. Designed for nonmajors.

**POL S 352 American Political Parties (5) I&S** Theories of American parties, campaigns and voting behavior; party leadership; political socialization and participation.

**POL S 353 United States Congress (5) I&S** Organization and procedure of Congress, state legislative politics, lobbying, legislative roles, theory and practice of representative government.

**POL S 354 Elections and Voting in the United States (5) I&S** Electoral institutions and processes of the United States: the idea and practice of elections, the electoral system, individual voting behavior, collective voting behavior, and the impact of elections on policy.

**POL S 355 The American Presidency (5) I&S** The American presidency; its evolution, its occupants, and its place within the American system. Topics include presidential character, war, elections, Watergate, the economy, and the Constitution.

**POL S 356 Society and Politics (5) I&S** Focus on the causes of political change in democratic countries, including public opinion, social movements, interest group activity, and party organization. Offered: jointly with SOC 356.

**POL S 357 Minority Representation and the Voting Rights Act (5) I&S** Explores whether and how African-Americans and Latinos are able to organize effectively and press their demands on the political system. Focuses on minority political behavior, the effect of these groups at the polls, the responsiveness of elected officials, and legal or constitutional obstacles affecting these phenomena.

**POL S 360 Introduction to United States Constitutional Law (5) I&S** Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects. Offered: jointly with LSJ 360.

**POL S 361 United States Courts and Civil Liberty (5) I&S** Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. Offered: jointly with LSJ 361.

**POL S 363 Law in Society (5) I&S** Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Offered: jointly with LSJ 363.

**POL S 365 Lawyers in American Politics (5) I&S** Influence of lawyers on American politics. Official and unofficial political roles, lawyers as lobbyists, as legislators, in the bureaucracy, politics of the American Bar Association. Includes study of legal education, professional values, and avenues of political access.

**POL S 367 Comparative Law and Courts (5) I&S** Introduction to comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as on the functioning of supranational and international legal entities in the international system. Offered: jointly with LSJ 367.

**POL S 368 The Politics and Law of International Human Rights (5) I&S** Studies the international human rights movement in its legal and political context. Focus on institutions which influence, enable, and constrain the international promotion of human rights. Offered: jointly with LSJ 320.

**POL S 382 State Government (5) I&S** Focus on the structures, processes, and policy outputs of state governments in the United States.

**POL S 383 Environmental Politics and Policy in the United States (5) I&S** Interrelation between technological and environmental change and policy formation. Consideration of political behavior related to these phenomena and the capacity of urban public organizations to predict change and to formulate policies that can take future states into account.

**POL S 384 Global Environmental Politics (5) I&S** Examines the globalization of environmental problems, including climate change, ozone depletion, and loss of biodiversity, as well as the globalization of political responses to these problems within the framework of globalization as set of interlinked economic, technological, cultural and political processes. Offered: jointly with ENVIR 384.

**POL S 398 Honors Seminar (5, max. 15) I&S** Intensive and advanced studies in various aspects of political science. Open only to participants in the departmental honors program.

**POL S 401 Advanced Special Topics in Political Theory (5, max. 10) I&S** Topics can include, but are not limited to, analytical theory pertaining to justice, exploitation, and freedom; revolution and social changes; collective choice and action; sexuality and politics; critical theory; Marxist theory; post-structuralism. Content varies. Recommended: POL S 201.

**POL S 403 Advanced Special Topics in International Relations (5, max. 10) I&S** Examination of contemporary developments in the field of international relations. Content varies according to the nature of developments and research interests of the instructor.

**POL S 404 Topics in Public Policy (3-5, max. 6) I&S** Examines selected issues of importance in all areas of public policy. Focus on in-depth analysis of vital public policy issues and the integration of economic, political, and administrative perspectives on them. Offered: jointly with PB AF 499.

**POL S 405 American Politics Seminar (5, max. 10) I&S** Intensive reading and research in selected problems or fields of political analysis.

**POL S 406 Marxian Political Economy (5) I&S** Explores the relationship between social classes, the state, and political power in advanced capitalist societies. Investigates this relationship primarily by means of the tools of Marxian political economy and, in the process, evaluates these tools. Emphasis on theoretical perspectives, although the reading list has a few empirical applications as well. Recommended: POL S 201.

**POL S 407 International Conflict (5) I&S** Examines different theoretical explanations for the causes of war, including the role of international, state, organizational, and individual factors; additional topics vary with instructor. May include the development of warfare, deterring weapons of mass destruction, terrorism, intelligence, and the ethics of warfare.

**POL S 409 Undergraduate Seminar in Political Economy (5, max. 10) I&S** Seminar in political economy with focus on Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Recommended: ECON 300; POL S 270. Offered: jointly with ECON 409.

**POL S 410 Technology, Politics, and the State (5) I&S** Relationships between politics, technological change, and development of multinational corporations. Considers whether the relations between political and economic systems of industrial societies have been fundamentally altered by the increased

importance and interdependence of government, experts, and new technological possibilities for intervention in social life.

**POL S 411 Theories of the State (5) I&S** Topics may include origins and development of the state; arguments about the necessity, desirability, and proper role of the state; the nature and operation of modern states and the international state system; the legitimacy of modern state power.

**POL S 412 Democratic Theory (5) I&S** Explores the concept of democracy and theoretical models purporting to describe its central features: majority rule, participation, and deliberation. Themes also include: representative vs. direct democracy; the rights of minorities; the relationship between democracy and other political theories such as liberalism, socialism, and conservatism. Prerequisite: POL S 201.

**POL S 413 Contemporary Political Theory (5) I&S** Analysis of political theorists, exploring contemporary theories of humanity and society that form the basis for differing political ideas.

**POL S 414 Politics and Culture (5) I&S** How people interpret and shape the political world around them through the use of such cultural resources as language, symbolism, myth, and ritual. The various uses of these cultural elements establish the place of the individual in society, influence the perception of political events, and create opportunities for individual and mass political responses.

**POL S 415 Women's Rights in an Integrated Europe (5) I&S** Examines the transformation in women's rights policy within the European community from the late 1950s through the present. Focuses on the legal rules and bodies that govern not only these policy domains, but also their evolution and impacts. Offered: jointly with LSJ 428.

**POL S 416 Economic Theory as Applied to the Political System (5) I&S** Explanation and evaluation of the political system, using elementary economics theory. Topics include alternative voting rules, the political effectiveness of various types of groups, causes and consequences of logrolling, and bureaucratic organizations. Prerequisite: ECON 300. Offered: jointly with ECON 452.

**POL S 418 Japanese Trade Politics (5) I&S** Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Offered: jointly with SISEA 486.

**POL S 419 United States-China Relations (5) I&S** Surveys the history of United States-China relations and examines the evolution of bilateral relations, particularly since 1949. Focus on the period since 1972 and the major issues as they have evolved since that time, including trade, human rights, security, and Taiwan. Offered: jointly with SISEA 459.

**POL S 420 Soviet and Russian Foreign Policy (5) I&S** Ideological, historical, and strategic components of Soviet foreign policy; Gorbachev's "new thinking" and the collapse of the USSR; redefining post-Soviet "Russia"; Russian military and security policy; Russia and

the West; Russian relations with the Newly-Independent States.

**POL S 421 Relations Among Communist and Post-Communist States (5) I&S** Major disputes and types of relationships among different communist states; international effects of the communist collapse; comparative dynamics of state-building, market reform, and democratic transition; international integration and domestic politics in the former Soviet bloc; ethnic conflict and the problem of state boundaries; redefining security in the post-communist milieu.

**POL S 422 International Environmental Politics Seminar (5) I&S** Study of the practical and theoretical challenges associated with global ecological interdependence. Examination of international treaties and institutions, state, and nonstate actors with an emphasis on the emerging concept of sustainability.

**POL S 423 International Law (5) I&S** Origin and present status of efforts to make rules of conduct for sovereign states; simulation of a treaty-drafting conference, with students playing roles of legal advisers to foreign governments.

**POL S 424 International Relations of Japan (5) I&S** Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Offered: jointly with SISEA 437.

**POL S 425 War and Deterrence (5) I&S** Seminar addresses the strengths and weaknesses of deterrence theory and then applies it to a variety of international security issues. Topics may include deterring the use of nuclear, chemical, and biological weapons, the use of brute force when deterrence fails, and the role for humanitarian intervention.

**POL S 426 World Politics (5) I&S** The nation-state system and its alternatives, world distributions of preferences and power, structure of international authority, historical world societies and their politics. Offered: jointly with SIS 426.

**POL S 427 International Political Economy (5) I&S** Examines major theoretical problems, substantive issues, and school of thought in international political economy (IPE), including issues of trade, production, and finance. Preparation for critical analysis of dilemmas entailed in establishing and maintaining an instrumentally effective and ethically acceptable IPE system.

**POL S 428 Military Intervention (5) I&S** Historical and theoretical analysis of military intervention in the post-World War II era. Considers how and why interventions occur and evaluates intervention as a foreign-policy response.

**POL S 429 Political Parties in Japan and East Asia (5) I&S** Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Recommended: either SISEA 242, SISEA 423, SISEA 440, or SISEA 442. Offered: jointly with SISEA 436.

**POL S 430 Civil-Military Relations in Democracies (5) I&S** E. Kier Explores issues of

civil-military relations in the United States including debates about the garrison state hypothesis; military advice on the use of force; the civil-military "gap"; and issues of race, gender, and sexual orientation in the military.

**POL S 431 International Relations in the Middle East (5) I&S** Study of domestic sources of foreign policy in the Middle East; politics of oil; the East-West rivalry in the arena; and conflict and collaboration among the local powers.

**POL S 432 Political Islam and Islamic Fundamentalism (5) I&S** Study of resurgence, since mid-1970s of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with SIS 406.

**POL S 433 International Relations in Southeast Asia (5) I&S** Analysis of the problems affecting relations among the countries of Southeast Asia.

**POL S 434 International Relations of South Asia (5) I&S** Interrelationships of domestic, interstate, and extraregional forces and their effects upon the resolution or expansion of interstate conflicts in South Asia. Offered: jointly with SISSA 434.

**POL S 435 Japanese Government and Politics (5) I&S** Government and politics of Japan with emphasis on the period since 1945. Offered: jointly with SISEA 435.

**POL S 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S** Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Offered: jointly with SIS 436.

**POL S 437 Politics in Scandinavia (5) I&S** Twentieth-century politics in Scandinavia. How Scandinavian countries have been governed. Costs and consequences of their governmental style and its uncertain future. Optimal size of polities, problems of mature welfare states, process of leadership and representation in multiparty systems, decline of political parties. Offered: jointly with SCAND 437.

**POL S 438 Politics in France (5) I&S** Study of contemporary France. Structures of government in the Fifth Republic; nature of French voting behavior and evolution of the bipolarized political party system; behavior of political interest groups; training of France's administrative elite and functioning of the state bureaucracy; dynamics of policy-making.

**POL S 439 Politics of Divided Korea (5) I&S** Governments, politics, and economy of South and North Korea, the inter-Korea relations, and the two Koreas' relationship with the major powers — especially the United States — with emphasis on the post-cold war period. Offered: jointly with SISEA 439.

**POL S 440 European Fascism (5) I&S** Analysis of fascism as revolutionary movement and type of political system in post-World War I Europe:

Hitler's Third Reich, Mussolini's Italy, and Vichy France. Consideration of dynamics of resistance, policies that produced Holocaust, and questions raised at trials of fascist leaders in Nuremberg and elsewhere.

**POL S 441 Government and Politics of Russia (5) I&S** Ideological and historical bases of Soviet politics; Leninism; Stalinism; Gorbachev's perestroika and the collapse of the USSR; the role of Yeltsin; problems of Russian state-building, market reform, and democratic transition; political parties and civil society; the relationship between the center and the regions; the problem of Russian national identity.

**POL S 442 Government and Politics of China (5) I&S** Post-1949 government and politics, with emphasis on problems of political change in modern China. Offered: jointly with SISEA 449.

**POL S 443 Comparative Political Societies (5) I&S** Analyses of modern and premodern types of stable political society; special attention to contemporary representative democracy.

**POL S 444 Revolutionary Regimes (5) I&S** Analysis of the several types of political regimes concerned with effecting fundamental social change; emphasis on the twentieth century.

**POL S 445 Politics and Society in Eastern Europe (5) I&S** Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all communist states of Eastern Europe and their successors. Offered: jointly with SISRE 445.

**POL S 446 Peasants in Politics (5) I&S** Interdisciplinary study of peasants, with special attention to questions of rural transformation. Peasant involvement in an increasingly interdependent world. Rebellion and revolution, impact of the international market, agricultural development. Offered: jointly with SIS 444.

**POL S 447 Comparative Politics Seminar (5, max. 10) I&S** Selected comparative political problems, political institutions, processes, and issues in comparative perspective. Strongly recommended: POL S 204.

**POL S 448 Politics of the European Union (5) I&S** Examines the origins, structures, and political dynamics of the European Union. Attention given to theories of integration, to relations between the European Union and member states, and to the role of the European Union in world politics.

**POL S 449 Politics of Developing Areas (5) I&S** Comparative study of problems of national integration and political development in the new states of Asia and Africa.

**POL S 450 State-Society Relations in Third World Countries (5) I&S** Relationships among political, social, and economic changes in Asia, Africa, and Latin America. Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with SIS 456.

**POL S 451 Communication Technology and Politics (5) I&S** Employs some core concepts of political communication and theories of democracy to examine the emerging role of information and communication technologies in

candidate and issue campaigning; online voting; protest and advocacy movements; law-making and electronic governance in the United States and internationally. Offered: jointly with COM 407.

**POL S 452 Mass Media and Public Opinion (5) I&S** Examines the foundations of the idea of public opinion in a democratic environment and the role of mass communication in the organization, implementation, and control of that opinion. Considers these relationships from the perspectives of societal elites, media, and citizens. Offered: jointly with COM 414.

**POL S 453 The State Legislature (5) I&S** Study of American state legislatures, with special reference to Washington State Legislature. Student must spend several Fridays in Olympia when the legislature is in session. Those desiring a more extensive involvement with the legislature should enroll in the political internship.

**POL S 454 Political Communication Seminar (5, max. 10) I&S** Contemporary topics studying how communication affects citizen engagement with public life. Offered: jointly with COM 411.

**POL S 455 Political Deliberation (5) I&S** Exploration of philosophical and empirical writings on political deliberation in small groups, campaigns, and other public settings. Contemporary deliberative theory. Participation in face-to-face discussions on current issues. Recommended: either COM 273 or COM 373. Offered jointly with COM 417.

**POL S 457 Topics in Labor Research (5, max. 10) I&S** Analysis of the post-World War II decline of national labor movements and strategies employed to reverse this trend. Requires a major research project on organizing, bargaining, or another question in labor studies. Prerequisite: either POL S 249, HIST 249, or SOC 266. Offered: jointly with HIST 457.

**POL S 460 Political Economy of the European Union (5) I&S** Historical foundation of the European Economic Community; major phases of its development; theoretical explanations for European integration.

**POL S 461 Mass Media Law (5) I&S** Survey of laws and regulations that affect the print and broadcast media. Includes material on First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation, and matters relating to press coverage of the judicial system. Offered: jointly with COM 440.

**POL S 462 The Supreme Court in American Politics (5) I&S** Introductory public law course that examines the interplay of constitutional law and American politics with particular attention to the role of the Supreme Court in the formulation and implementation of public policy in such matters as criminal-law enforcement, civil rights political expression, and economic regulation.

**POL S 463 Political Analysis of United States Social Programs (5) I&S** Social problems in the United States and policy responses. National policies concerning poverty, health, welfare, manpower, and the Social Security system. Examination of subgovernments that cluster around each policy area.

**POL S 464 The Politics of American Criminal Justice (5) I&S** Political forces and value choices associated with the enforcement of

criminal law. Distribution of resources among participants in the criminal justice system (e.g., police, attorneys, defendants, and judges). Understanding and evaluation of the interaction of criminal justice processes with the political system.

**POL S 465 Law and Public Policy in the United States (5) I&S** Relationship between law and public policy, with particular attention to problems of social, economic, and political change. Considers legal and constitutional processes as they relate to such problems of public policy as race relations, the environment, and the economy.

**POL S 466 Feminist Legal Studies: Theory and Practice (5) I&S** Examines feminist theoretical analyses of the law. Engages in current debate on the study of critical race, gender, and class theory. Includes: women in prison, public assistance, the sex industry, women and health care, and immigration law. Recommended: WOMEN 200 or WOMEN 310. Offered: jointly with LSJ 466/WOMEN 410.

**POL S 467 Comparative Law in Society (5) I&S** Legal systems around the world as they actually work in their respective political, social, and economic contexts. Emergence and development of European legal systems, legal customs at variance with those of Europe, problems of legal processes in the modern state.

**POL S 468 Comparative Media Systems (5) I&S** Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with COM 420/SIS 419.

**POL S 469 Law, Development, and Transition in East Asia (5) I&S** Examines the role of law and the courts in economic and political change in the developing world. Topics include variations in legal traditions and institutions, economic development, property rights, dispute resolution, democratization, and human rights. Empirical materials focus on East Asia. Offered: jointly with LSJ 469/SISEA 469.

**POL S 470 Public Bureaucracies in the American Political Order (5) I&S** Growth, power, and roles of governmental bureaucracies in America: conflict and conformity with American political thought, other political institutions, and the public.

**POL S 473 Decision-Making in Politics (5) I&S** Process of decision-making in politics at elite and mass levels, comparison of approaches based on the comprehensive rationality of decision makers with approaches based on limitations on the cognitive capacities of decision makers. Applications to real decision-making situations.

**POL S 474 Government and the Economy (5) I&S** Interaction between politics and the economy. Impact of policy makers on economic performance. Models of partisan and political business cycles. Concepts of economic voting. Marxist theories of modern capitalist economics.

**POL S 475 Public Choice (5) I&S** Problems and prospects for collective action in a political democracy. Designing rules and institutions for effective central authority and effective

constraints on governmental power. Social choice theory and game theory. Recommended: POL S 270 or POL S 474.

**POL S 476 Strategy in Politics (5) I&S** Explores the problem of finding fair methods for making social decisions, and examines alternative methods of social choice. Emphasis on the importance of agenda control for outcomes, and the implications of theories of social choice for common interpretations of concepts such as democracy and the general will. Recommended: POL S 101 or POL S 202; POL S 481.

**POL S 479 Contemporary Central Asian Politics (5) I&S** *Radnitz* Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with SISRE 479.

**POL S 481 Big City Politics (5) I&S** Contemporary big city politics, focusing on Seattle and the largest twenty-five cities. Social, economic, and political trends that have shaped characteristics of large American cities. Distribution and use of economic and political power among parties and groups. Future of large cities and politics of change.

**POL S 488 Honors Senior Thesis (5-) I&S** Students individually arrange for independent study of selected topics under the direction of a faculty member. Research paper is student's senior thesis. Students meet periodically as a group to discuss research in progress. Recommended: 15 credits POL S 398.

**POL S 489 Honors Senior Thesis (-5) I&S** Students individually arrange for independent study of selected topics under the direction of a faculty member. Research paper is student's senior thesis. Students meet periodically as a group to discuss research in progress. Recommended: 15 credits POL S 398.

**POL S 490 Foundations of Political Analysis (5) I&S** Fundamental issues pertaining to research in political science: "logics of inquiry," problems of concept formation, and development of research methods. Positivist, postempiricist, and other arguments about the nature of scientific knowledge.

**POL S 495 Study Abroad-Political Science (3-5, max. 15) I&S** For participants in the study abroad program. Specific course content determined by assigned faculty member and announced in study abroad bulletin. Politics, political culture, and institutions related to their national setting.

**POL S 496 Undergraduate Internship (5, max. 15)** Students serving in approved internships.

**POL S 497 Political Internship in State Government (5, max. 20)** Students serving in approved internship program with state government agencies.

**POL S 498 The Washington Center Internship (15)** Full-time academic internship with the Washington Center in Washington, DC Includes internship activities, academic seminar, assemblies, and related activities. Credit/no credit only. Recommended: POL S 202; 45 UW credits.

**POL S 499 Individual Conference and Research (2-5, max. 20)** Intensive study with faculty supervision. No more than one registration in 499 under same instructor.

**POL S 500 Political Research Design and Analysis (5) I&S** Major quantitative methods of empirical research in political science. Primary emphasis on research design, data collection, data analysis, and use of computers.

**POL S 501 Advanced Political Research Design and Analysis (5) I&S** Third methods course in political research. Testing theories with empirical evidence. Examines current topics in research methods and statistical analysis in political science. Content varies according to recent developments in the field and with interests of instructor. Offered: jointly with CS&SS 501.

**POL S 502 Qualitative Research Methods (5) I&S** Introduction to qualitative methods in political science, emphasizing practical experience with techniques. Readings and exercises cover research design, multiple methods, varieties of qualitative data, measurement and validation, participant observation, interviewing, and content analysis. Research decision-making issues include analytical strategies, presentation of data, ethics, epistemology, and theory-building.

**POL S 503 Advanced Quantitative Political Methodology (5) Quinn, Ward** Theory and practice of likelihood inference. Includes probability modeling, maximum likelihood estimation, models for binary responses, count models, sample selection, and basis time series analysis. . Offered: jointly with CS&SS 503.

**POL S 505 Comparative Politics (5)** Core course. Modern theories, approaches, and methods in the study of comparative politics.

**POL S 509 Political Theory—Core (5, max. 10)** Introduction to central themes in political theory and the works of major political theorists, past and present.

**POL S 510 Maximum Likelihood Methods for the Social Sciences (5) Adolph, Wardy** Introduces maximum likelihood, a more general method for modeling social phenomena than linear regression. Topics include discrete, time series, and spatial data, model interpretation, and fitting. Prerequisite: POL S/CS&SS 501; POL S/CS&SS 503. Offered: jointly with CS&SS 510; W.

**POL S 511 Seminar in Ethical and Political Theory (5)** Ethical writings of major political philosophers. Coherent themes arising from these works and assessment of their impact on concepts of politics.

**POL S 513 Issues in Feminist Theory (5, max. 10)** Contemporary issues in feminist theory as they affect studies of women, politics, and society. Content varies according to recent developments in the field and the research interests of the instructor.

**POL S 514 Selected Topics in Political Theory (5, max. 15)** Selected topics, historical and conceptual, national, regional, and universal. Prerequisite: permission of instructor.

**POL S 515 Political Theory Research Seminar (5)** Survey of paradigmatic research approaches in political theory through the exploration of a

theme (canonical text, theoretical concept, and specific topic). Methods covered may include rational choice, psychoanalytic, Straussian, Marxian, and feminist approaches. Students carry out substantive theoretical research. Recommended: second- or third-year graduate standing.

**POL S 516 Special Topics in American Political Thought (3/5)** Special topics or themes in the development of American political culture.

**POL S 517 Marxism and Critical Theory (5)** Works of Marx and Engels as well as selected works of twentieth-century Marxist and critical theorists. Themes such as Marx's method, twentieth-century interpretations of Marx, and relationship of twentieth-century theorists to their eighteenth- and nineteenth-century forebears.

**POL S 519 Modern Scandinavian Politics (5)** Analyzes the political, economic, and historical development of Sweden, Norway, Denmark, Iceland, and Finland from World War II to the present. Readings focus on domestic and foreign policies that distinguish these countries from other advanced industrial societies. Offered: jointly with SCAND 519.

**POL S 520 Seminar on Russian Foreign Policy (3)** Selected topics in the development and objectives of the foreign policy of the Russian Federation. Prerequisite: permission of instructor.

**POL S 521 International Relations I: Theory and Method (5)** Part one of the core course in the field of international relations. Reviews contemporary theory, research, and methodology in the study of world politics.

**POL S 522 International Political Economy (5)** Theories of international political economy. Focuses on the emergence and development of the modern world system, the transition from feudalism to capitalism, and the institution of the nation-state system. Examines the political economy of trade, investment, and the international division of labor from a variety of theoretical perspectives. Prerequisite: POL S 521.

**POL S 523 World System Analysis (4)** Evolution of the world system. Historical-structural approaches to world politics: neo-realism; long cycles; world economy. Prerequisite: POL S 521.

**POL S 524 International Security (5)** *Kier, Mercer* Introduces some of the major debates concerning the use of force in international politics. Covers traditional issues in international security such as alliances and the causes of war, as well as some of the new and important questions, such as explaining war outcomes and war termination.

**POL S 525 International Law — Policy (5)** Inputs of international law into the decisional process in foreign policy. Effect of policy on law. Relevant roles of individuals and institutions in routine and crisis situations.

**POL S 526 The Security of China ()** *Bachman* Examines how the Chinese state conceptualizes its national security interests and how it pursues strategies designed to achieve those interests. Topics include use of force, military modernization, civil-military relations, and defense industrialization. Offered: jointly with SISEA 526.

**POL S 527 Special Topics in International Relations Research (5, max. 15)** Examination of current topics in the theory and practice of world politics. Content varies according to recent developments in the field and research interests of the instructor.

**POL S 528 Advanced International Relations Theory (5)** Covers advanced works in international relations theory. e.g., realism, neorealism, game theory, and theories of cooperation and conflict. Includes some classic works (Thucydides, Hobbes, E. H. Carr) to show continuity of debates in the present. Modern theories of war, conflict, cooperation, and international institutions also explored. Prerequisite: POL S 521.

**POL S 529 Problems of American Foreign Policy (3)** Critical analysis of the historical foundations and contemporary problems of foreign-policy making, with attention given to selected foreign-policy decisions. Prerequisite: POL S 321 or permission of instructor.

**POL S 530 Transatlantic Relations: The United States and Europe in World Politics (5)** Fulfills required component of "American Module" of Transatlantic Studies program. Addresses political dynamics of relations between United States and Europe from American republic's founding to post-Cold War era. Limited to students in Transatlantic Studies program.

**POL S 532 The Chinese Political System (5)** Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Prerequisite: permission of instructor. Offered: jointly with SISEA 532.

**POL S 533 Seminar on Contemporary Chinese Politics (5)** Research on selected problems in contemporary Chinese politics. Prerequisite: POL S 532 or permission of instructor. Offered: jointly with SISEA 533.

**POL S 534 International Affairs (3)** Provides a broad understanding of international issues and United States policy. Students explore US foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, development assistance, and the environment. Offered: jointly with PB AF 530/SIS 534.

**POL S 535 International Relations of Modern China (5)** Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a course on contemporary Chinese politics or history, or permission of instructor. Offered: jointly with SISEA 535.

**POL S 536 Ethnic Politics and Nationality Formation (3)** Seminar on analysis and theoretical understanding of two interrelated processes: ethnic group persistence and change over time; and the transformation of ethnic groups into politically self-conscious and influential nationalities. The readings and discussions deal with these two processes in the contexts of both developing societies and advanced industrial societies.

**POL S 537 Approaches to East European Politics (3-5)** Selected concepts and methodolo-

gies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered: jointly with SISRE 504; alternate years.

**POL S 538 Government and Politics in the Middle East and North Africa (5)** Political change in the area within the context of comparative politics; breakdown of traditional political systems; new range of choice expressed in competing ideologies; governmental and nongovernmental instrumentation of change; and problems of international relations and regional conflict and integration.

**POL S 539 International Relations of Northeast Asia (5)** Comprehensive survey of contemporary international relations of Northeast Asia with emphasis on Russia, Japan, China, and the United States. Multidisciplinary approach placing contemporary problems in historical context, drawing on modern social science theories. Connections between defense and economics are examined. Prerequisite: permission of instructor. Offered: jointly with SISEA 551.

**POL S 540 Problems in South Asian Politics (3)** Research problems in contemporary Indian politics.

**POL S 541 Institutions and Institutional Change in the Soviet Union, Russia, and the Newly Independent States (5)** Critical appraisal of the principal theories and research methods dealing with the development of the Soviet state from 1917-1991 and the formation of the newly-independent states after the Soviet collapse. Prerequisite: permission of instructor.

**POL S 542 Seminar: State and Society (5)** Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with SIS 542.

**POL S 543 Latin American Politics (5)** Theories of authoritarianism, corporatism, democratization, and revolution in Latin America. Explores role of international and domestic economic factors shaping politics and the affect of politics on economic development. Examines elite behavior and grassroots social movements.

**POL S 544 Problems in Comparative Government (5, max. 15)** Selected problems in the comparative analysis of political institutions, organizations, and systems.

**POL S 547 Politics of Reform (5)** Examines cases of reform in democratic political systems, e.g., Roosevelt's New Deal, Allende's Chilean "revolution," Mitterand's socialist experiment in France, and the Thatcher government in Britain.

**POL S 548 Comparative Political Parties (5)** Role of political parties in the modern state. Similarities and differences in origins and development of political parties and functions they perform, both in established democracies and in developing countries.

**POL S 549 Problems of Political Development (5)** Concepts of development and modernization, with particular attention to their political dimensions and their application to various historical and contemporary cases.

**POL S 550 American Politics — Core (5)** Core course in American government and politics. Systematic survey of the literature; focuses on national politics. Prerequisite: undergraduate courses in American government and politics.

**POL S 551 Political Communication (5)** Surveys classic works and new directions in political communication, including functionalist, structuralist, constructivist, network, and comparative approaches, reflecting a range of methods. Examines political organizing, electoral and legislative processes, civic (dis)engagement, media and politics, public deliberation and opinion formation, political identity and discourse. Offered: jointly with COM 551.

**POL S 552 Special Topics in Political Communication (5, max. 10)** Examination of current topics in the theory and practice of political communication.

**POL S 553 Public Opinion (5)** Selected problems in opinion formation, characteristics, and role of public opinion in policy-making process.

**POL S 554 Legislative Politics (5)** Selected problems in legislative processes and leadership, state and national.

**POL S 555 American Politics Topics (5, max. 10)** Examination of current topics in the theory and practice of American politics. Content varies according to recent developments in the field and research interests of the instructor.

**POL S 556 American Political Development (5)** *Price* Examination of leading works in, and theories of, American political development. Topics include the development approach itself; critical junctures in U.S. political history; key changes in institutions, the American state, the representation of interests and party politics; and the relevance of development studies to current politics.

**POL S 557 United States Party System (5)** Examines the institutional and behavioral foundations of party politics in the United States, emphasizing key historical patterns of party system development and the major scholarly approaches to the study of the American parties and party politics.

**POL S 558 Political Deliberation (5) VLPA I&S *Gastil*** Exploration of deliberative theories of democracy and research on political discussion in campaigns, face-to-face meetings, on-line forums, and informal conversations. Presents different uses and understandings of deliberation and its role in democratic governance. Recommended: COM 577, POL S 551/COM 551. Offered jointly with COM 555.

**POL S 559 Special Topics in Political Methodology (5, max. 10)** Examination of current topics on the theory and practice of political methodology. Course content varies according to recent developments in the field and the research interests of the instructor.

**POL S 561 Law and Politics (5)** Points and levels at which law and politics intersect. What is distinctive about legal forms; how these legal forms influence, and are influenced by, politics. Conceptions of law, courts and public policy, law and bureaucracy, civil and criminal justice, and the legal profession.

**POL S 562 Law, Politics, and Social Control (5)** Explores works of social scientists and lawyers regarding these competing conceptions of social control: as the seamy side of law — reinforcing equitable patterns of domination and disciplining deviants; as law embodying society's basic values, articulating minimum rules for harmonious social interaction.

**POL S 563 Supreme Court in American Politics (5)** Explores the tendency in the United States to turn to the Supreme Court to provide constitutional solutions for some of our biggest social, economic, and political problems. Focuses on the controversies concerning the legitimacy and capacity of the Supreme Court to intervene in American politics and public policy.

**POL S 564 Law and the Politics of Social Change (5)** Explores the many ways that law figures into the politics of social struggle and reform activity. Analyzes law in terms of particular state institutions (courts, agencies), professional elites (lawyers, judges), and especially cultural norms ("rights" discourses) that are routinely mobilized by reform-movement activists.

**POL S 565 Special Topics in Public Law (5, max. 10)** Examination of current topics on the theory and practice of public law. Content varies according to recent developments in the field and the research interests of the instructor.

**POL S 567 Discourse and the Politics of Resistance (5)** Examines how disciplines theorize and empirically study discourse in the politics of resistance. Examines the discursive turn in U.S. and European "new" social movement theory. Ranges across disciplines, such as political sociology, cultural anthropology and human geography, to discover ways in which discourse is conceptualized and studied for its role in seeding social change. Offered: jointly with COM 554.

**POL S 566 Comparative Law and Politics (5)** Study of the interaction between law and politics, at both the macro and micro levels of politics, and discussion of research drawing from a wide array of geographical settings. Examination in comparative context of whether macro-structures are autonomous from underlying social structures of power and interest in the micro-level.

**POL S 570 The American Racial State(5)** Explores the mutually constitutive relationship between race and American political institutions, beginning with theories of race and racial constructions, race-making and nation-making, racial triangulation, and intersectionality. Examines various institutions and public policies as manifestations of the American racial state, focusing on the epistemological challenges of identifying race, racism, and racialization.

**POL S 571 American National Institutions (5)** Answers the question, "Do institutions matter?" Surveys American national institutions from theoretical perspectives, focusing on how they affect the manner in which decisions are made. Employs cross-institutional perspective of American institutions.

**POL S 572 Administrative and Executive Leadership (3)** Nature of executive life in the public sector, the function of leadership in implementing, making, and changing policy. Leadership styles, the relation of leadership to its constituencies and communities.

**POL S 573 Topics in Public Policy (5, max. 10)** Specialized research topics with a policy process or related theoretical content.

**POL S 574 Environmental Regulation Policy (5)** Scholarly and practical aspects of environmental regulation. Examines literature concerning regulatory policy design, policy instruments, federalism, compliance and enforcement. Studies selected federal, state, and other nations' environmental policies. Participants are expected to have a good understanding of American policy processes.

**POL S 575 Public Policy Processes (5)** Covers political science research about policy processes. Research seminar addressing frameworks and perspectives concerning, policy processes as they concern issue emergence, agenda dynamics, policy subsystems, policy learning, and implementation.

**POL S 576 Political Culture (5)** Values, beliefs, and rituals that guide political action in society. Some approaches emphasize symbolic sphere of value and belief over material conditions of power and economic production. Other approaches emphasize material relations. Reconciliation of symbolic and materialist approaches that explain intervention of the modern state in cultural processes.

**POL S 577 The Politics of Social Movements (5)** Theoretical inquiry directed to questions of collective action and political tactics by social movement groups. Case studies include labor, civil rights, women's, environmental, and other movements in twentieth-century United States.

**POL S 578 Health Politics and Policy (5)** Introduces central themes of health- policy research: health is not health care and politics has much to do with why our health-care system works as it does. Investigates how social science helps us understand health issues.

**POL S 579 Contemporary Central Asian Politics (5) I&S *Radnitz*** Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with SISRE 579.

**POL S 582 Institutional Analysis (5)** Social change and property rights theory. Exploration of long-term secular change through works whose approaches derive from neoclassical economics and analytical Marxism. Evolution and transformation of property rights over land, labor, and capital and the consequences of the property rights structure for political and economic institutions.

**POL S 583 Economic Theories of Politics (5)** Problems of public goods provision and collective action. Collective action theories and applications as well as critical review of the concept of rationality.

**POL S 584 Comparative Political Economy (5)** Overview of current developments in comparative political economy. Topics may include globalization, the welfare state, partisan models of economic policymaking, economic development, and trade.

**POL S 587 Politics of Urban Reform (5)** Interpretations of urban reformers at turn of the

century and during 1960s and 1970s. Historical and political science literature on the subject. Prerequisite: graduate student standing and permission of instructor.

**POL S 588 Special Topics in Comparative Political Economy (5, max. 10)** Examination of current topics in the theory and practice of comparative political economy. Content varies according to recent developments in the field and research interests of the instructor.

**POL S 589 Special Topics in Political Economy (3-5, max. 10)** Evaluating research in political economy as well as developing research problems. Topics vary with instructor and with current problems in the literature. Prerequisite: POL S 406, POL S 416, ECON 400, and permission of instructor.

**POL S 590 Seminar in Political Behavior (5, max. 10)** Analysis of behavioral research in selected fields of political science.

**POL S 593 Theories of Decision Making (5)** Explanation of political decisions using models of such theoretical processes as preference formation, learning, heuristics, noncooperative games, collective action, agenda manipulation, and coalition formation. Examination of competing notions of political rationality and irrationality and criteria for their evaluation. Strategies for design of decision research.

**POL S 594 Political Communication Research Practicum: Community, Communication, and Civic Engagement (5)** Overview of the research process, including literature review, hypothesis generation, data gathering, empirical analysis, and writing for publication. Topics vary with instructor, but generally address questions of how communication affects democracy and citizen engagement in national or international contests. Offered: jointly with COM 556.

**POL S 595 College Teaching of Political Science (1)**

**POL S 597 Directed Readings (1-10, max. 10)** Intensive reading in the literatures of political science, directed by the chair of the doctoral supervisory committee. Credit/no credit only.

**POL S 598 Independent Writing I (1-5, max. 5)** Supervised research and writing for graduate students completing the MA essay of distinction.

**POL S 599 Independent Writing II (3-5)** Supervised research and writing for graduate students completing the Ph.C. essay of distinction.

**POL S 600 Independent Study or Research (\*)**

**POL S 800 Doctoral Dissertation (\*)**

## Law, Societies, and Justice

**LSJ 299 Special Topics in Law, Societies, and Justice (2-5, max. 10) I&S** Examines a different subject or problem of current interest within the discipline.

**LSJ 301 Internship (1-5, max. 5)** Participation in an approved internship. Credit/no credit only.

**LSJ 310 Research in Law, Societies, and Justice (1-5, max. 15) I&S** Supervised introductory individual and/or seminar based research on some aspect of society and justice.

**LSJ 320 The Politics and Law of International Human Rights (5) I&S** Studies the international human rights movement in its legal and political context. Focuses on institutions which influence, enable, and constrain the international promotion of human rights. Offered: jointly with POL S 368.

**LSJ 321 Human Rights Law in Culture and Practice (5) I&S** Introduces the complexities of issues surrounding human rights. Examines human rights concerns through critical analyses, taking into account legal, social, economic, and historical variables. Offered: jointly with ANTH 323.

**LSJ 327 Women's Rights as Human Rights (5) I&S** Women's rights in comparative perspective, focusing on varying settings that alter the meaning and practical application. Domestic level: areas including abortion politics to trafficking in women. International level: areas including equality claims before European supranational judicial bodies, rape as war crime in international law. Offered: jointly with POL S 327.

**LSJ 330 Beyond Civil Rights: Law, Culture, and Change (5) I&S** Assessment of the contemporary politics of civil rights as shaped by an identity politics that is both significant and passe. Recommended: LSJ 363 or one course in either AES or WOMEN. Offered: jointly with AES 330.

**LSJ 331 The Politics of Race and Ethnicity in the United States (5) I&S** Introduction to the history and development of racial hierarchy, focusing on how race and ethnicity shape political institutions (e.g., the Constitution, political parties, voting systems). Examination of political relationships between Whites, African Americans, Latinos, and Asian Americans. Case studies of minority representation and the politics of welfare, crime, immigration, and terrorism. Offered: jointly with POL S 317.

**LSJ 332 Disability and Society: Introduction to Disability Studies (5) I&S** Introduction to the field of disability studies. Focuses on theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in social creation/construction (framing) of disability and effects on those claiming and/or labeled as disabled. Offered: jointly with CHID 332.

**LSJ 355 Introduction to the American Court System (5) I&S** Philosophical and structural bases of the American court system; roles of attorneys, judges and the public in that system. Some focus also on current challenges to the courts posed by court congestion and alternative dispute resolution, and on future prospects for the courts.

**LSJ 360 Introduction to United States Constitutional Law (5) I&S** Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects. Offered: jointly with POL S 360.

**LSJ 361 United States Courts and Civil Liberty (5) I&S** Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. Offered: jointly with POL S 361.

**LSJ 362 Law and Justice: An Introduction to Social Theory (5) I&S** *Godoy* Provides conceptual tools for understanding law and its role in society by acquainting students with major currents of social theory. Topics include liberalism, Marxism, critical feminist theory, and critical race theory. Offered: jointly with SIS 362.

**LSJ 363 Law in Society (5) I&S** Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Offered: jointly with POL S 363.

**LSJ 367 Comparative Law and Courts (5) I&S** Introduction to comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as on the functioning of supranational and international legal entities in the international system. Offered: jointly with POL S 367.

**LSJ 375 Crime, Politics, and Justice (5) I&S** Reviews the major components — police, courts, and corrections — of the U.S. criminal justice system; investigates critical factors that shape criminal procedure; considers the relationship between criminal procedure and wider concerns of justice.

**LSJ 376 Drugs and Society (5) I&S** *Beckett* Explores the questions of drug use and abuse, social and political factors that shape response to their use, and the social conditions under which drug use is likely to have adverse consequences. Also covers U.S. drug control policy, the political economy of legal and illegal drugs, and political aspects of drug use. Offered: jointly with SOC 376.

**LSJ 377 Punishment: Theory and Practice (5) I&S** Examines the philosophical reasoning that underlies punishment practices such as sentencing, imprisonment, or capital punishment. Considers policy issues in these areas in light of theories about morality and human nature. Helps students learn how to analyze punishment policies from ethical and philosophical perspectives.

**LSJ 378 Policing the City (5) I&S** *Herbert* Investigates how and why formal and informal order is established in urban areas, how this order produces advantages and disadvantages, and possibilities of alternative visions of order. Topics include formal means of control (zoning, laws, policing, building codes) and informal means of control (gossip, ostracism, peer pressure, local politics). Offered: jointly with GEOG 378; A.

**LSJ 379 Prisons in Anthropological Perspective (5) I&S** *Rhodes* An introduction to prisons from an anthropological point of view, with focus on prisons as total institutions. Topics include the experiences of prisoners and staff, prison history, issues of race and gender associated with incarceration, and the imprisonment of the mentally ill. Offered: jointly with ANTH 379.

**LSJ 380 Contemporary Issues in Law, Societies, and Justice (5, max. 10) I&S** Theoretical, empirical, and comparative aspects of such topics as human rights, socio-legal concepts, justice, and legal policy. Recommended: POL S 101, POL S 202, POL S 204, or SOC 110.

**LSJ 400 Senior Seminar (5, max. 10)** For students in their final year as Law, Societies, and Justice majors. Incorporates material learned in student's primary field of specialization. Includes independent research, oral presentations, and the completion of a substantial paper.

**LSJ 401 Field Experience in Law, Societies, and Justice (5)** Participant observation in a public or private agency relevant to the study of law, justice, human rights, or court systems.

**LSJ 410 Human Rights in Latin America (5) I&S** Human rights in Latin America, focusing on twentieth century dictatorships and current regional events and their implications for human rights. Cannot be taken for credit if GIS 174 or SISLA 120 previously taken. Offered: jointly with SIS 470. Prerequisite: either ANTH 323, LSJ 320, LSJ 321, POL S 368, PHIL 338, SIS 200, or SIS 201.

**LSJ 420 The Politics of Rights (5) M. McCann** Examines rights in practical and social interaction, rights as social conventions, relations of rights practices to official state policies, disputing practices, interest formation, and identify construction at individual and group levels. Explores how rights practices figure into the constellation of contested power relations within modern societies.

**LSJ 421 Women's Rights and Politics in Islamic Society (5) I&S** Human rights theory with women's legal rights and practice within context of the Islamic state. Introduction to debates regarding universality of human rights through examination of women's rights in Muslim context. Considers journalistic notions of homogeneity among Muslims, political nature of the Islamic state, and its mobilization of human rights. Offered: jointly with ANTH 498.

**LSJ 425 Domesticating International Human Rights: Perspectives on U.S. Asylum and Refugee Law (5) I&S** Examines the creation, production, and proliferation of law and legal categories relating to the status of refugees and asylum-seekers in the United States. Integrates anthropological perspectives of law's ability to create meaning in the examination of deeper implications of asylum and refugee law in American society. Offered: jointly with ANTH 497.

**LSJ 428 Women's Rights in an Integrated Europe (5) I&S** Examines the transformation in women's rights policy within the European community from the late 1950s through the present. Focuses on the legal rules and bodies that govern not only these policy domains, but also their evolution and impacts. Offered: jointly with POL S 415.

**LSJ 433 Disability Law, Policy, and the Community (5)** Seminar addressing legal rights of disabled people, history of disability policy in the United States, and the role of community activism and other forces in policy development and systems change. Introduction to the existing social service systems that affect disabled people. Recommended: LSJ 332. Offered: jointly with CHID 433.

**LSJ 434 Civil and Human Rights Law for Disabled People (5) I&S** Designed for students interested in expanding their knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United

Nations' International Human Rights treaties as they relate to disabled people. Recommended: LSJ 332. Offered: jointly with CHID 434.

**LSJ 440 Criminal Law and Procedure (5) I&S** Substantive and procedural criminal law for lay persons; analysis of the philosophy behind the law, with an emphasis on due process in adult and juvenile courts; case-analysis teaching technique.

**LSJ 444 Ethics in Law and Justice (5) I&S** Applies ethical theories, research, and practice to the law and justice system, with the goals of: (1) analyzing the moral dimensions of criminal law, (2) studying ethical issues in law enforcement, adjudications, and corrections, and (3) examining a variety of controversial ethical issues associated with the justice system.

**LSJ 466 Feminist Legal Studies: Theory and Practice (5) I&S** Examines feminist theoretical analyses of the law. Engages in current debate on the study of critical race, gender, and class theory. Includes: women in prison, public assistance, the sex industry, women and health care, and immigration law. Recommended: WOMEN 200 or WOMEN 310. Offered: jointly with POL S 466/WOMEN 410.

**LSJ 469 Law, Development, and Transition in East Asia (5) I&S** Examines the role of law and the courts in economic and political change in the developing world. Topics include variations in legal traditions and institutions, economic development, property rights, dispute resolution, democratization, and human rights. Empirical materials focus on East Asia. Offered: jointly with POL S 469/SISEA 469.

**LSJ 470 Evaluation Research in Criminal Justice (5) I&S** Social science research methods relevant to criminal justice evaluation and operations research. Ethical considerations, formulation of goals and objectives, problem definition and research design, sources and methods of data collection, descriptive statistics, data interpretation, and utilizations of research results.

**LSJ 473 Corrections (5) I&S** Analyzes research on diversionary methods, treatment of convicted offenders. Emphasis on program evaluation. Community treatment, fines, restitution, probation, parole, halfway houses, other alternatives to incarceration; correctional institutions. Organization of state, federal systems. Problems of administration. Subsidies, governmental control. Planning, public participation. Recommended: SOC 371 and SOC 372. Offered: jointly with SOC 473.

**LSJ 474 Geography and the Law (5) I&S Herbert** Examines the relationship between geography, law, and socio-legal analysis; reviews significant instances where law and geography intersect, such as the regulation of public space, the regulation of borders and mobility, and disputes over property and land use. Offered: jointly with GEOG 474.

**LSJ 476 Miscarriages of Justice (5) I&S** Examines legal and social factors that shape criminal case outcomes, analyzing how one type of miscarriage of justice — wrongful conviction — occurs. How can cases of wrongful conviction be explained? Why are some people, against whom there is only weak evidence, convicted—and sometimes even executed? Offered: jointly with SOC 476.

**LSJ 480 The Police (5) I&S** Conceptual and empirical issues concerning multifaceted and changing roles of the American police.

**LSJ 485 Introduction to Organized and White Collar Crime (3) I&S** Overview of organized and white collar crime. Exposure to definitional problems, distinctive characteristics, potential areas of overlap, and barriers to more effective social control. Addresses impediments resulting from inadequate conceptualizations, legal and operational difficulties in pursuing offenders, and effects of corruption and discretion in the justice system.

**LSJ 488 Honors Thesis (5-) I&S** First of a two-course hyphenated sequence. To be completed with LSJ 489.

**LSJ 489 Honors Thesis (-[1-5, max. 5]) I&S** Thesis research honors option. Second of a two-course hyphenated sequence. To be completed with LSJ 488.

**LSJ 490 Special Topics in Law, Societies, and Justice (1-5, max. 15) I&S** Examination of socio-legal topics. Content varies.

**LSJ 495 Study Abroad-Law, Societies, and Justice (3-5, max. 15) I&S** Comparative studies abroad of legal institutions, rights, and justice as related to national settings. Specific course content determined by faculty member.

**LSJ 499 Readings in Law, Societies, and Justice (1-5, max. 10)** Individual readings in law, societies, and justice.

**LSJ 501 Law and Society Studies (5) Beckett, Herbert, McCann** Provides a broad overview of, and introduction to, the interdisciplinary field of Law and Society Studies, including the historical development of law and society studies and an overview of its main concerns and questions.

---

## Psychology

**PSYCH 101 Introduction to Psychology (5) I&S King, McDermott, Osterhout, Passer** Surveys major areas of psychological science. Core topics include human social behavior, personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology. Offered: AWSpS.

**PSYCH 200 Comparative Animal Behavior (5) NW Barash, Beecher, O'Donnell** Research methods and findings of comparative animal behavior, their importance to an understanding of human behavior; rationale for study of behavioral differences/similarities between animal species, behavior viewed as part of adaptation of each species to its natural habitat. Not open for credit to students who have taken PSYCH 300.

**PSYCH 201 Human Performance Enhancement (4) I&S Smith, Smoll** Applications of psychological theories, research, and intervention strategies to performance enhancement in variety of life settings. Self-regulation models and techniques; stress and emotional control; attention control and concentration; mental

rehearsal; time management; goal-setting; memory enhancement; communication and interpersonal conflict resolution. Participation in various psychological training procedures. Prerequisite: PSYCH 101.

**PSYCH 202 Biopsychology (5) NW Kim, Mizumori, Olavarria** Examines the biological basis of behavior, the nervous system, how it works to control behavior and sense the world, and what happens when it malfunctions. Topics include learning and memory, development, sex, drugs, sleep, the senses, emotions, and mental disorders. Prerequisite: PSYCH 101. Offered: AWSpS.

**PSYCH 203 Introduction to Personality and Individual Differences (4) I&S Marlatt, Smith** Overview of the major theories, research findings, and applications in the scientific study of personality. Covers research methods and approaches to measuring personality variables. Not open for credit to students who have taken PSYCH 303. Prerequisite: PSYCH 101.

**PSYCH 206 Human Development (5) I&S** Theoretical perspectives and research methods in child development with an overview of historical and current works. Includes prenatal and biological development, the development of cognitive, linguistic, and social and emotional abilities. Not open for credit to students who have taken PSYCH 306. Prerequisite: PSYCH 101.

**PSYCH 207 Psychology of Peace (5) I&S Barash** Examination of the psychological aspects of peace in the modern world. Topics include theories of individual aggressiveness and violence, leadership personalities, crisis decision making, nuclear psychology, images of the enemy, and psychological opportunities and obstacles to the establishment of a peaceful society.

**PSYCH 209 Fundamentals of Psychological Research (5) Kerr, Leu, Little, Passer** Psychological research methodology and techniques. Topics include the logic of hypothesis testing, experimental design, research strategies and techniques, fundamentals of scientific writing, search and evaluation of research literature in psychology, and ethical issues in psychological research. Required for all psychology majors. Prerequisite: 2.0 in PSYCH 101. Offered: AWSpS.

**PSYCH 210 Human Sexuality (5) I&S McDermott** Broad survey of biological, psychological, and social determinants of human sexuality and sexual behavior. Topics include cultural diversity, sexual development (physical and psychological), sexual health, reproduction (pregnancy, contraception, abortion), development of sex, gender and orientation, adult sexual bonding, sexual abuse and assault.

**PSYCH 245 Introduction to Social Psychology (5) I&S Brown** Overview of major findings of social psychology, emphasizing the relevance for understanding the social behaviors of individuals and groups of individuals and their relationship to social context. Not open for credit to students who have taken PSYCH 345. Prerequisite: PSYCH 101.

**PSYCH 250 Racism and Minority Groups (5) I&S Barrett** Overview of the causes, contexts, and consequences of racism and its effects upon minority groups and society. Emphasis on cultural history, political and socioeconomic

structures that contribute to racism. Examination of current issues in race relations and cultural pluralism in U. S. and selected international topics.

**PSYCH 257 Psychology of Gender (5) I&S Kenney** Major psychological theories of gender-role development; biological and environmental influences that determine and maintain gender differences in behavior; roles in children and adults; topics include aggression, cognitive abilities, achievement motivation, affiliation. Recommended: either PSYCH 101 or WOMEN 200. Offered: jointly with WOMEN 257.

**PSYCH 260 Psychosocial Aspects of Nuclear War (3) I&S Barash** Introduction to basic issues of nuclear war, including its effects, weaponry, and history of the arms race. Primary focus on the psychological underpinnings of deterrence, relations between nations, and the personal and social forces operative in the arms race and peace movements.

**PSYCH 300 Animal Behavior (5) NW Barash, Beecher, O'Donnell, Sisneros** Introduces important concepts and empirical findings in animal behavior. Emphasizes evolutionary and mechanistic approaches to understanding diversity and complexity of behavior. Topics include communication, mating, migration, and sociality. Prerequisite: either BIOL 101, BIOL 118, BIOL 161, BIOL 180, or BIOL 203.

**PSYCH 303 Personality (5) I&S Brown** Overview of major perspectives, scientific issues, applications, and research findings in the area of personality. Direct exposure to scientific literature, writing assignments, and research-based class experiences prepare students for advanced work in personality, social, abnormal, and developmental psychology. Prerequisite: PSYCH 101; PSYCH 202; PSYCH 209; either PSYCH 315 or PSYCH 317.

**PSYCH 305 Abnormal Psychology (5) I&S** An overview of major categories of psychopathology, including description and classification, theoretical models, and recent research on etiology and treatment. Prerequisite: 2.0 in PSYCH 202; 2.0 in PSYCH 209.

**PSYCH 306 Developmental Psychology (5) I&S Barrett, Repacholi, Sommerville** Overview of past and present theoretical and research-based approaches to biological, cognitive, and social development from the prenatal period to early adolescence. Prerequisite: 2.0 in PSYCH 202; 2.0 in PSYCH 209.

**PSYCH 315 Understanding Statistics in Psychology (5) QSR Flaherty, Little** Statistics for psychological research. Elementary probability theory, hypothesis testing, and estimation. Satisfies the statistics requirement for majors registered in the Psychology Bachelor of Arts degree program. Prerequisite: 2.0 in PSYCH 209; 2.0 in either MATH 111, MATH 112, MATH 120, MATH 124, or MATH 144. Offered: AWSpS.

**PSYCH 317 Introduction to Probability and Statistics for Psychology (5) QSR Little, G. Loftus** Probability theory as a model for scientific inference. Probabilistic variables and experimental outcomes, conditional probability, binomial and related distributions, experiments as samples, statistics and sampling distributions, the normal distribution, confidence intervals, problems of estimation from experiments. Prerequisite: 2.5 in PSYCH 209;

2.0 in either MATH 124, MATH 134, or MATH 144. Offered: AW.

**PSYCH 318 Statistical Inference in Psychological Research (5) QSR Little, G. Loftus** Hypothesis testing: probabilistic and statistical basis. Development and application of statistical inference techniques employed in psychological research: confidence intervals, t-test, ANOVA, and correlation and regression. Nature and control of experimental and inferential error in research. Required for majors for psychology BS degree. Prerequisite: 2.0 in PSYCH 317. Offered: WSp.

**PSYCH 322 Introduction to Drugs and Behavior (3) NW Diaz** Basic concepts of drug action emphasizing the behavioral consequences of the intake of a variety of drugs. Prerequisite: either PSYCH 202 or PSYCH 222.

**PSYCH 330 Laboratory in Animal Behavior (5) NW Brenowitz** Experience with a variety of animal species and experimental procedures and instrumentation. Prerequisite: either 2.0 in PSYCH 213, 2.0 in PSYCH 217, 2.0 PSYCH 315, or 2.0 in PSYCH 317; 2.0 in PSYCH 209.

**PSYCH 331 Laboratory in Human Performance (5) I&S Joslyn** Selected aspects of human cognition, perception, and performance. Prerequisite: 2.0 in PSYCH 209; either 2.0 in PSYCH 213, 2.0 in PSYCH 217, 2.0 in PSYCH 315, or 2.0 in PSYCH 317.

**PSYCH 332 Laboratory in Animal Learning (5) NW Buck** Selected aspects of animal learning emphasizing behavioral experiments with the rat. Prerequisite: either 2.0 in PSYCH 213, 2.0 in PSYCH 217, 2.0 in PSYCH 315, or 2.0 in PSYCH 317.

**PSYCH 333 Sensory and Perceptual Processes (5) NW Boynton, Covey, Fine** An overview of each of the major senses with emphasis on the structure and function of sensory systems and the relation of the underlying biology to perceptual processes and behavior. Prerequisite: 2.0 in PSYCH 202; 2.0 in PSYCH 209.

**PSYCH 335 Human Factors Psychology (4) I&S Kerr** Consideration of human performance factors in the design of tools/equipment, tasks/jobs, and work and living environments. Emphasis on the importance of human perception, memory, attention, and motor control for understanding ways to optimize the relationship between people and technology. Prerequisite: 2.0 in PSYCH 202; 2.0 in PSYCH 209.

**PSYCH 345 Social Psychology (5) I&S J.D. Brown, Kaiser** The scientific study of how people's thought, feeling, and action influence, and are influenced by, other people. Prerequisite: 2.0 in either PSYCH 202 or PSYCH 209.

**PSYCH 347 Psychology of Language I (5) I&S/VLPA Osterhout** Introduction to the study of language, including language structure, speech perception, language acquisition, psychological processes underlying comprehension and production of language, the relation between brain and language, and the question of the species-specificity of human language. Prerequisite: either 2.0 in PSYCH 209, 2.0 in LING 200, or LING 201. Offered: jointly with LING 347.

**PSYCH 350 Honors Research Seminar in Psychology (2-, max. 4)** *Bassok* Presentations by professors and advanced students concerning the rationale, methodology, and progress of their research projects; assistance with research projects; preparation of junior paper. Four credits of 350 required for all junior honors and distinction candidates in conjunction with 498 and 499. Offered: AWSp.

**PSYCH 355 Cognitive Psychology (5) I&S** *Joslyn, Miyamoto* Current theory and research in perception, attention, memory and learning, attitudes, thinking and decision making, and language. For the student who wishes a survey or who intends additional work in any of the above content areas. Prerequisite: 2.0 in PSYCH 202; 2.0 in PSYCH 209.

**PSYCH 357 Psychobiology of Women (5) NW** *Kenney* Physiological and psychological aspects of women's lives; determinants of biological sex; physiological and psychological events of puberty; menopause; sexuality; contraception, pregnancy, childbirth, and lactation; role of culture in determining psychological response to physiological events. Recommended: PSYCH/WOMEN 257. Offered: jointly with WOMEN 357.

**PSYCH 361 Laboratory in Social Psychology (5) I&S** *Cheryan* Methodology of laboratory and field research on social behavior; data analysis and report writing; group research projects. Prerequisite: 2.0 in PSYCH 209; a 2.0 in either PSYCH 315, or PSYCH 317; 2.0 in either PSYCH 245 or PSYCH 345.

**PSYCH 361 Laboratory in Social Psychology (5) I&S** *Cheryan* Methodology of laboratory and field research on social behavior; data analysis and report writing; research projects. Prerequisite: 2.0 in PSYCH 209; a 2.0 in either PSYCH 315, or PSYCH 317; 2.0 in either PSYCH 245 or PSYCH 345.

**PSYCH 380 Cross-Cultural Competence (4) I&S** *Barrett* Facilitates development of multicultural competence; focuses on mental health/social service needs of ethnic and linguistic minorities, and developing personal/interpersonal skills to reduce barriers, enhance effective service provision to cross cultural groups, sexual minorities and disabled people. Prerequisite: PSYCH 250; either PSYCH 305 or PSYCH 306.

**PSYCH 399 Foreign Study (3-5, max. 10)** Upper division psychology courses for which there are no direct University of Washington equivalents taken through the University of Washington Foreign Study Program.

**PSYCH 400 Learning (5) I&S/NW** Experimental research and basic theories primarily in animal learning. Prerequisite: 2.0 in PSYCH 202.

**PSYCH 402 Infant Behavior and Development (3/5) I&S** *Meltzoff* Psychological development in the first two years of life. Basic and advanced techniques for assessing psychological development in infancy. Classic theories of human infancy and examination of a wide range of new experiments about infant behavior and development. Prerequisite: 2.0 in either PSYCH 206, PSYCH 306 or PSYCH 414.

**PSYCH 403 Motivation (5) I&S/NW** Theory and research on reinforcement, punishment, frustration, preference, instinctual mechanisms, and other factors controlling animal behavior. Prerequisite: 2.0 in PSYCH 202.

**PSYCH 404 Psychobiology of Motivation (5) I&S/NW** Physiological mechanisms underlying thirst, salt appetite, hunger, reproduction, drug addiction, and fear. Evolutionary and learning processes that influence motivation. Prerequisite: 2.0 in PSYCH 202.

**PSYCH 406 Insect Behavior (4) NW** *O'Donnell* Explores complexity and diversity of behavior in insects and related invertebrate animals. Overview of important lineages of insects and major behavioral traits. Examines how insect biology both constrains behavior and provides evolutionary opportunities. Prerequisite: either 2.0 in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300. Offered: jointly with BIOL 406.

**PSYCH 407 History of Psychology (5) I&S** Historical and theoretical background of the basic assumptions of modern psychology, including such doctrines as behaviorism, determinism, and associationism and the scientists who developed them. Prerequisite: 2.0 in PSYCH 209.

**PSYCH 408 Mechanisms of Animal Behavior (4) NW** *Beecher, Brenowitz, Sisneros* Comparative exploration of physiological and perceptual mechanisms that control behaviors necessary for survival and reproduction in animals. Model systems discussed include animal communication, mate choice, escape behavior, learning and memory, orientation, biological rhythms, foraging behavior. Prerequisite: either 2.0 in BIOL 180, or 3.5 in PSYCH 200, or 2.0 in PSYCH 300. Offered: jointly with BIOL 408.

**PSYCH 409 Sociobiology (5) NW** *Rohwer* Biological bases of social behavior, emphasizing evolution as a paradigm. Emphasizes how to think like evolutionary biologist, especially with regard to interest conflict. Topics are individual versus group selection, kin selection, altruism, mating systems, sexual conflict, alternate reproductive strategies, and parent/offspring conflict. Prerequisite: either 3.5 in PSYCH 200, 2.0 in PSYCH 300, 2.0 in BIOL 162, or 2.0 in BIOL 180. Offered: jointly with BIOL 409.

**PSYCH 410 Child and Adolescent Behavior Disorders (5) I&S** *Barrett* Introduction to psychopathology in children and adolescents, and an overview of principal modes of intervention. Particularly for students interested in advanced work in clinical psychology, social work, or special education. Prerequisite: 2.0 in PSYCH 305; either 2.0 in PSYCH 306 or 2.0 in PSYCH 202, 2.0 in both PSYCH 206 and 2.0 in PSYCH 209.

**PSYCH 411 Perceptual Development (5) I&S/NW** *Meltzoff* Origins and development of perception in human infancy. Object, face, and speech perception; cross-modal relations between touch, vision, audition. Prerequisite: 2.0 in either PSYCH 206, PSYCH 306, or PSYCH 414. Offered: jointly with SPHSC 411.

**PSYCH 413 Adolescent Development (5) I&S** Provides an overview of physical, cognitive, psychosocial, and emotional development of adolescents with an emphasis on understanding the context in which young people grow up. Explores cultural, environmental, and social influences on development. Prerequisite: 2.0 in PSYCH 209; 2.0 in either PSYCH 315 or PSYCH 317.

**PSYCH 414 Cognitive Development (5) I&S** *Sommerville* Key theoretical and research approaches to cognitive development from

infancy through adolescence. Sensorimotor development, language development, imitation, number concepts, logical reasoning, memory, cognition in adolescents, intelligence, and the role of biology, environment, and experience. Prerequisite: either 2.0 in PSYCH 306, or 2.0 in both PSYCH 206 and PSYCH 209.

**PSYCH 415 Personality Development of the Child (5) I&S** *Repacholi* Socialization theory and research, infant attachment and social relationships, development of aggressive and altruistic behaviors, sex-role development, moral development, parent and adult influences. Applied issues in social development and policy. Prerequisite: 2.0 in either PSYCH 206 or PSYCH 306; 2.0 in either PSYCH 315 or PSYCH 317.

**PSYCH 416 Animal Communication (5) NW** *Beecher, Brenowitz, O'Donnell, Sisneros* Evolution and mechanisms of animal communication and related processes of perception, thinking, and social behavior. Prerequisite: either 2.0 in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300.

**PSYCH 417 Human Behavior as a Natural Science (5) I&S/NW** *Lockard* Evolution of human social behavior and the adaptive significance of communication systems from a sociobiological and anthropological perspective. Prerequisite: either PSYCH 200, PSYCH 300, BIO A 201, or BIOL 180.

**PSYCH 418 Primate Social Behavior (5) NW** *Lockard* Social behavior, ecology, and group structure of monkeys and apes from an evolutionary, sociobiological, and anthropological perspective. Prerequisite: either 3.5 in PSYCH 200, 2.0 in PSYCH 300, 2.0 in BIO A 201, 2.0 in BIOL 180, or 2.0 in both BIOL 202 and BIOL 203.

**PSYCH 419 Behavioral Studies of Zoo Animals (5, max. 10) NW** Observational studies of behavior of zoo animals to expand basic knowledge of animal behavior, conservation of endangered species, and research methodology with discussions and tours focusing on zoo philosophy and operations. Offered in cooperation with Woodland Park Zoo. Prerequisite: either 2.0 in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300.

**PSYCH 420 Drugs and Behavior (3) NW** *Diaz* Animal and clinical research on the behavioral consequences of drug intake. Prerequisite: PSYCH 322.

**PSYCH 421 Neural Basis of Behavior (5) NW** *Diaz* Anatomical and physiological principles and resultant behavior involved in the integrative action of the nervous system. 421 recommended but not required to follow 421. Prerequisite: 2.0 in PSYCH 202.

**PSYCH 423 Sensory Basis of Behavior (5) NW** *Olavarria* Study of sensory mechanisms as a way to understand behavior. Basic properties of neurons, anatomy, and physiology of sensory systems, with some emphasis on the visual system. Prerequisite: 2.0 in either PSYCH 202 or PSYCH 333.

**PSYCH 424 Vision and Its Physiological Basis (5) NW** Behavioral neurobiology of human vision: color vision, acuity and spatial vision, light and dark adaptation, visual development. Correlation of visual functioning with known optical, biochemical, physiological, and anatomical substrates. Prerequisite: 2.0 in either PSYCH 333, NBIO 302, or PHIL 160. Offered: jointly with PBIO 424.

**PSYCH 425 Surgical and Histological Techniques (5) NW** Practicum in basic and advanced surgical and histological techniques used in psychophysiological experimentation. Prerequisite: PSYCH 421.

**PSYCH 426 Neurobiology of Learning and Memory (4) NW** *Mizumori* Theory and research on how animals learn and remember, including basic concepts of brain plasticity, how brain areas and neurons adapt to changes in experiences throughout the lifespan, and cellular and structural substrates of a "memory." Prerequisite: 2.0 in either PSYCH 222, PSYCH 322, PSYCH 333, PSYCH 421, PSYCH 422, or PSYCH 423.

**PSYCH 427 Behavioral Endocrinology (5) NW** The endocrine system and how its secretions influence and are influenced by behavior; relationships between the nervous and endocrine systems. Prerequisite: PSYCH 421.

**PSYCH 428 Human Motor Control and Learning (5) I&S/NW** *Kerr* Current theory and research in human motor performance and skill acquisition. Prerequisite: 2.0 in PSYCH 209; 2.0 in PSYCH 202.

**PSYCH 429 Brain Anatomy for the Behavioral Scientist (1) NW** *Diaz* Detailed review of the neuroanatomical features of the sheep brain with laboratory demonstrations. Prerequisite: PSYCH 421 which may be taken concurrently.

**PSYCH 430 Development of Brain Connections (4) NW** *Olavarria* Analysis of innate and environmental factors that play a role in the development of brain connections. Critical review of current literature on the various strategies used by neurons to find their appropriate targets. Prerequisite: 2.0 in either PSYCH 202, PSYCH 333, PSYCH 421, PSYCH 422, or PSYCH 423.

**PSYCH 432 Visual Perception (4) I&S/NW** Surveys current facts/theories about how our brains interpret the images formed by our eyes to create a presentation of the visual environment. Topics include 3-D vision; color, form, motion, and object perception; and visual illusions. Prerequisite: 2.0 in either PSYCH 202, PSYCH 333, or PSYCH 355.

**PSYCH 433 Regulatory Behavior (4) NW** *Kenney* Neural and endocrine mechanisms in the control of food and water intake and the regulation of body weight and fluid balance. Prerequisite: either PSYCH 421 or PSYCH 427.

**PSYCH 435 Human Color Vision (5) I&S/NW** *Buck* Discusses how color does not exist in the physical environment but is instead a creation of our brains. Explores perceptual, physiological, developmental, evolutionary, genetic, and cultural aspects of human color vision, including its role in language, culture, and art. Prerequisite: PSYCH 202; PSYCH 209.

**PSYCH 436 Developmental Aspects of Sport Competition (4) I&S** *Smoll* Biophysical and psychosocial influences of sport participation on growth and development of children and youth. Competition readiness, injuries, stress, aggression, roles and responsibilities of parents and coaches. Prerequisite: 2.0 in PSYCH 209.

**PSYCH 437 Motor Development (4) NW** *Smoll* Analysis of motor development from prenatal origins through adolescence with emphasis on relations between biophysical and psychosocial

development of children and youth. Prerequisite: 2.0 in PSYCH 209.

**PSYCH 438 Social Psychology of Sport (4) I&S** *Smith, Smoll* Reciprocal effects of interpersonal and group influence processes, e.g., social facilitation, behavior modification, observational learning, individual versus group performance, group cohesion, leadership, aggression. Prerequisite: 2.0 in PSYCH 101; 2.0 in PSYCH 202; 2.0 in PSYCH 209.

**PSYCH 441 Perceptual Processes (5) I&S/NW** Theory and findings in perception with a focus on visual perception in humans. Discrimination and constancy for simple judgments, segregation and identification of visual objects, and specific areas of investigation such as reading and computer vision. Prerequisite: 2.0 in PSYCH 333.

**PSYCH 443 Motivational Theories in Social Psychology (5) I&S** Theories of motivation in social psychology. Emphasis on how motivation and cognition mutually influence each other to produce behavior. Explores such topics as persuasion, goal pursuit, self-regulation, achievement, and social comparison. Prerequisite: 2.0 in PSYCH 345.

**PSYCH 445 Theories of Social Psychology (5) I&S** *J.D. Brown* Evaluation of the major theories of human social behavior supported by the empirical literature; theories of social cognition and thought; major theories of social interaction, group processes, and social learning. Prerequisite: PSYCH 345.

**PSYCH 446 Personality Assessment (3) I&S** *R. Smith* Measurement of personality variables in personality research, social psychology, and clinical psychology. Theoretical conceptions underlying various clinical and experimental scales and an assessment of their construct validity and behavioral correlates. Prerequisite: 2.0 in PSYCH 303; 2.0 in PSYCH 315; 2.0 in PSYCH 317.

**PSYCH 447 Psychology of Language II (4) I&S/VLPA** *Osterhout* Psychological principles applied to linguistic development and organization; language in both its stimulus and response aspects. Prerequisite: 2.0 in either PSYCH 347, PSYCH 355, or LING 400. Offered: jointly with LING 447.

**PSYCH 448 Seminar in Psychology (1-15, max. 15)** Selected research topics of contemporary interest. Quarterly listings of specific offerings are available at departmental advisory office.

**PSYCH 450 Honors Research Seminar in Psychology (2-, max. 4)** *Bassok* Senior thesis research; preparation of senior thesis; oral presentation of research. Four credits of 450 required for all senior honors and distinction candidates in conjunction with 498 and 499. Offered: AWWSp.

**PSYCH 451 Health Psychology (5) I&S/NW** Overview of the psychological and behavioral factors in health and disease. Includes research on both psychological causes and treatments. Topics include stress, risky behaviors, patient-provider interactions, pain, behavioral/medical treatments, and lifestyle interventions. Prerequisite: 2.0 in PSYCH 202; 2.0 in PSYCH 209; 2.0 in either PSYCH 303, or PSYCH 345.

**PSYCH 452 Psychology of the Self-Concept (4) I&S** *J.D. Brown* Examines psychological

theory and research on the role of the self-concept in regulating behavior. Topics include the development of the self-concept; self-awareness; and self-esteem maintenance. Prerequisite: 2.0 in either PSYCH 245 or PSYCH 345.

**PSYCH 454 Personality and Social Influence (4) I&S** *Shoda* Survey of various theories and research for analyzing person-situation interactions — how the qualities of persons and situations combine to generate thoughts, feelings, and behaviors of a person in a given social situation. Prerequisite: PSYCH 209; either PSYCH 203, PSYCH 245, PSYCH 303, or PSYCH 345.

**PSYCH 456 Social and Moral Development (5) I&S** *Kahn* Theoretical approaches toward explaining children's social and moral development, including those that are nativistic, sociobiological, behavioristic, psychoanalytic, and constructivist. Use of theory to investigate applied problems related to parenting, education, peer relationships, authority, sexuality, culture, ecology, and technology. Prerequisite: either PSYCH 206 or PSYCH 306.

**PSYCH 457 Language Development (5) I&S/VLPA** First-language acquisition and use by children. Emphasis on theoretical issues and research techniques. Prerequisite: 2.0 in either PSYCH 206, PSYCH 306, LING 200, or LING 400. Offered: jointly with LING 457.

**PSYCH 458 Behavioral Genetics (4) NW** *O'Donnell* Role of genetics in determining variation in human and animal behavior and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects, and gene expression. Prerequisite: either 3.5 in PSYCH 200, 2.0 in PSYCH 300, or 2.0 in BIOL 161, or 2.0 in BIOL 180. Offered: jointly with BIOL 458.

**PSYCH 460 Cognitive Neuroscience (4) NW** *Murray, Osterhout* Discussion of neural systems underlying cognitive behavior with particular focus on breakdown of cognition following brain damage. Topics include object and space perception, language, voluntary movement, attention, and memory. Examination of contributions from related areas of neuroimaging, visual perception, linguistics, physiology, and neuroscience. Prerequisite: 2.0 in either PSYCH 333, PSYCH 355, OR PSYCH 421.

**PSYCH 462 Human Memory (5) I&S** *Joslyn* Research and theory in key areas of memory. Issues covered include information processing theory, the link between memory processes and their biological underpinnings, autobiographical memory, implicit memory, and the effect of emotion on memory. Prerequisite: 2.0 in PSYCH 209; recommended: PSYCH 355.

**PSYCH 465 Intelligence (5) I&S** Analysis of individual differences in cognition. Includes description/use of psychometric ("intelligence test") models, test scores\* relationship to academic and non-academic performance, information processing and biological models of intelligence (including genetic models). Discussion of male-female and demographic group differences in cognition. Prerequisite: either PSYCH 315 or PSYCH 317; PSYCH 355.

**PSYCH 466 Psychology of Judgment and Decision Making (5) I&S** *Miyamoto* Human information processing in judgment and decision

making, especially the interface between cognitive theories and normative and prescriptive theories of decision making. Prerequisite: 2.0 in either PSYCH 315 or PSYCH 317; either PSYCH 331, PSYCH 355, or PSYCH 361.

**PSYCH 469 Psychology of Reasoning (4) I&S** Bassok Cognitive processes in human learning, problem solving, deductive and inductive reasoning. Prerequisite: 2.0 in PSYCH 209; 2.0 in PSYCH 355.

**PSYCH 470 Psychology and Music (5) I&S/ VLPA** Covey Introduction to the scientific study of musical behavior. An overview of current topics in the psychology of music from the areas of musical perception and cognition, musical development, music therapy, musical performance, and composition. Includes psychoacoustical and neuropsychological foundations, research methods, and some basic material in music theory. Prerequisite: 2.0 in either PSYCH 202 or NBIO 302.

**PSYCH 471 Applied Issues in Cognition (4-5, max. 10) I&S** Joslyn Examines cognitive issues in applied settings, such as the workplace and education. Topics include such issues as attention, expertise, problem solving, decision-making, human error, automation, navigation, and individual differences. Prerequisite: 2.0 in PSYCH 209.

**PSYCH 480 Ideas of Human Nature (5) I&S** Barash Reviews various approaches to the nature of human nature, including ideas from ancient philosophy, theories of the soul, empiricism, idealism, conditioning, social constructions, concepts of Freud, Marx, the existentialists, and neo-Darwinism. Prerequisite: PSYCH 101.

**PSYCH 481 Seminar in Advanced Quantitative Methods (3) Little** Examines the role of statistical methods in psychological research. Issues and controversies surrounding null hypothesis significance testing. Review of selected alternative statistical methods in psychology. Prerequisite: 2.0 in either PSYCH 315 or PSYCH 318.

**PSYCH 482 Advanced Research Methods for Behavioral Psychology (4) QSR** Greenwald, Shoda Develops skills of collecting and analyzing behavioral research data, communicating the results orally and in writing, and expressing perspectives on issues of scientific method and practice. Prerequisite: either PSYCH 315 or PSYCH 317; either PSYCH 330, PSYCH 331, PSYCH 332, or PSYCH 350. Offered: Sp.

**PSYCH 485 Primate Conservation Biology and Behavior (5) NW** Kyes Examines the principles and concepts of conservation biology as they apply to the nonhuman primates with special attention to theoretical advances, conservation strategies, and management practices central to primate conservation. Prerequisite: either 3.5 in PSYCH 200 or 2.0 in PSYCH 300 or 2.0 in BIO A 201. .

**PSYCH 488 Stress and Coping (4) I&S/NW** Reviews theories and research concerning stress and its roles in behavior, personality, development, health, and interpersonal relationships. Coping analyzed as a factor in the way people respond to stressful circumstances. Prerequisite: 2.0 in PSYCH 202; 2.0 in PSYCH 209.

**PSYCH 489 Clinical Psychology (3) I&S** Basic issues, methods, and research: professional

issues, psychological assessment, and approaches to psychotherapy and behavioral change. Prerequisite: 2.0 in PSYCH 305.

**PSYCH 490 Stress Management (3) I&S/NW** Nature of stress. Physiological responses to stress and relaxation. Techniques of stress management with training in relaxation, biofeedback, meditation, cognitive restructuring, exercise, nutrition, interpersonal communication skills, and time management. Prerequisite: PSYCH 101.

**PSYCH 494 Field Study in Animal Behavior (2-3, max. 9)** Kyes Field experience in areas relating to animal behavior through participation in seminar discussion and field exercises and training at foreign and domestic field study sites.

**PSYCH 496 Undergraduate Teaching Experience in Psychology (2-3, max. 6)** Students are trained as assistants in quiz sections or as supplemental tutors for undergraduate psychology courses. Designed especially for those students planning graduate work or education certification. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree.

**PSYCH 497 Undergraduate Fieldwork (2-5, max. 10)** Individual consultation with faculty member and supervised practicum experience in a broad range of community settings and agencies dealing with psychological problems. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree.

**PSYCH 498 Directed Reading in Psychology (1-3, max. 18)** Readings in special interest areas under supervision of departmental faculty. Discussion of reading in conference with the instructor. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree.

**PSYCH 499 Undergraduate Research (1-3, max. 18)** Design and completion of individual research projects. An overall maximum of 18 credits in 496, 497, 498, and 499 may apply toward a baccalaureate degree.

**PSYCH 500 Proseminar in Psychology (1, max. 10)** Greenwald Presentations on professionally and practically useful topics by guest faculty presenters designed for first-year and second-year graduate students. Credit/no credit only. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 502 Core Concepts in Animal Behavior (3) Barash, Beecher, O'Donnell, Sisneros** Reading, reports, and discussion on animal behavior, with a focus on topics that lie at the interface of animal behavior, evolutionary science, neurobiology, and psychology. Include social organization, mating systems, foraging, learning, communication, and agonistic behavior. Prerequisite: Graduate standing in Psychology, or permission of instructor.

**PSYCH 503 Core Concepts in Behavior Genetics (4) O'Donnell, Shoda** Overview of current approaches to genetic analysis in Psychology. Role of genetics in behavioral variation, and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects of genes, and patterns of gene expression. Genetic effects on major behavioral differences. Prerequisite:

graduate standing in Psychology, or permission of instructor.

**PSYCH 504 Core Concepts in Behavioral Neuroscience (3) Bernstein, Buck, Covey, Diaz, Kenney, Kim, Mizumori, Olavarria** Historical and contemporary perspectives in behavioral neuroscience. Current methodologies and research strategies. May include sensory processing, genetics, behavioral neuroendocrinology, developmental neural plasticity, neurobiology of learning and memory, lifespan perspectives on behavioral neurobiology, and psychopharmacology. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 506 Core Concepts in Cognitive Neuroscience (3) Murray, Osterhout** Combines psychological models of information processing with research techniques in the biomedical sciences. Topics in vision, attention, memory, motor behavior, and language illustrate this integrative approach. Research methods include behavioral, single unit, lesion and neuro-imaging techniques. Prerequisite: graduate standing in Psychology, or permission instructor.

**PSYCH 507 Core Concepts in Cognitive Psychology (5) Bassok, Miyamoto** Survey of the major topics in human cognition. Discussion of memory, concepts and categories, language, decision-making, and problem solving. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 508 Core Concepts in Perception (3) G. Loftus** Current topics in perception, psychophysics, sensory memory, pattern recognition, letter and word perception, and visual masking. Prerequisite: graduate standing in Psychology, or permission of instructor. Offered: Sp.

**PSYCH 510 Core Concepts in Social Psychology (4) Shoda** An overview of contemporary theories and research in social psychology, focusing on introducing graduate students to the field as practitioners of social psychological research. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 511 Core Concepts in Personality (3) Shoda, R. Smith** Review of personality research. Roles of cognitive, affective, motivational, and psychodynamic processes. Critical evaluation of current personality, its antecedents, and its influences over behavior. Attention to role of personality variables in social relationships. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 513 Core Concepts in Biological Basis of Development (4) Bernstein** Embryological, genetic, physiological, and evolutionary perspectives of human development; biological development in infancy; sensory development and its influence on the development of perception; primate models for human development. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 514 Core Concepts in Early Cognitive and Linguistic Development (4) Meltzoff, Sommerville** Origins and early development of thought and language. Piagetian theory and modern-day revisions. In depth examination of historical and philosophical bases for current empirical research. Prerequisite: graduate standing in Psychology or permission of instructor.

**PSYCH 515 Core Concepts in Personality and Social Development (4)** Theories and empirical literature in personality and social development throughout infancy, childhood. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 517 Core Concepts in Systems of Psychotherapy (3)** *George* Theory and research of major systems of psychotherapy, including the psychodynamic, behavioral, cognitive, and family systems approaches as an introduction to subsequent practica in clinical psychology. Required for all graduate students majoring in clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Offered: A.

**PSYCH 518 Core Concepts in Behavior Disorders (5)** *Zoellner* Major types of behavior disorders, with emphasis on clinical manifestations, relevant research, and theoretical perspectives. Required for all graduate students majoring in clinical psychology. Prerequisite: graduate standing in Psychology or permission of instructor. Offered: W.

**PSYCH 519 Core Concepts in Behavior Change (5)** *Kohlenberg* Behavioral theory and behavioral approaches to treatment. Prerequisite: PSYCH 518 and permission of instructor. Offered: Sp.

**PSYCH 522 Laboratory in Statistical Computation I (2)** *Miyamoto* Techniques of computation using statistical software on personal computers. Organization of data files, transformations of variables, graphical representations of data, descriptive statistics, elementary inferential statistical analyses. Prerequisite: concurrent enrollment in PSYCH 524 or permission of instructor. Offered: A.

**PSYCH 523 Laboratory in Statistical Computation II (2)** Techniques of statistical computation using statistical software on personal computers and mainframe computers. Multiple regression, analysis of variance and covariance. Planned and post hoc comparisons and confidence intervals. Data analytic diagnostics for violations of regression assumptions. Prerequisite: PSYCH 522 and PSYCH 524, concurrent enrollment in PSYCH 525, or permission of instructor. Offered: W.

**PSYCH 524 Introduction to Statistics and Data Analysis (4)** *Miyamoto* Basic concepts of statistical theory and methods of data analysis. Emphasis on the integration of statistical theory, statistical computation, and psychological research methods. Required of all first-year graduate students in psychology. Prerequisite: concurrent enrollment in PSYCH 522 or permission of instructor. Offered: A.

**PSYCH 525 Linear Models and Data Analysis (4)** Analysis of data in the behavioral sciences. Required of all first-year graduate majors. Prerequisite: PSYCH 522, PSYCH 524; concurrent registration in PSYCH 523, or permission of instructor. Offered: W.

**PSYCH 526 Multivariate Statistics (4)** An introduction to statistical modeling; interactive data analyses; use of regression, ANOVA, logistic regression, and log-linear models in explanatory studies. Prerequisite: PSYCH 525.

**PSYCH 527 Mathematical Modeling for Psychology and the Neurosciences (3)** Introduces a collection of mathematical models

increasingly important to research in psychology and neuroscience, including random walks, differential equations, linear systems theory, Fourier analysis, nonlinear systems, and neural modeling. Topics illustrated by examples from recent literature. Prerequisite: undergraduate statistics.

**PSYCH 528 Practical Methods for Behavioral Research (4, max. 8)** *Greenwald, Shoda* Examination of methodological, practical, and communication problems associated with research on human behavior. Topics include: selecting research problems, use of theory, types of validity, common sense about statistics, when to replicate, dealing with unpredicted results, strategies for presentation and publication. Offered: Sp.

**PSYCH 529 Advanced Research Methods (5)** *Beauchaine* Surveys advances clinical research methods not covered in the required statistics sequence. Examples include structural equation modeling, hierarchical linear modeling, growth curve modeling, and taxometric analyses. Hands-on experience gained through weekly assignments using each method. Prerequisite: PSYCH 525.

**PSYCH 530 Introduction to Latent Variables (4)** *Greenwald* Analyses techniques to assess effects of latent variables in presence of error in observed data. Provides experience with statistical tools for confirmatory structural equation modeling and testing of hypotheses concerning causal and other relations among latent variable. Prerequisite: PSYCH 515 or permission of instructor.

**PSYCH 531 Research Methods in Clinical and Community Psychology (4)** *Lengua* Addresses issues concerning the design and implementation of research in clinical and community psychology. Topics include validity; reliability; experimental, quasi-, and non-experimental designs; causal inference; interpretation of data; and research ethics. Provides students with tools to evaluate research, develop hypotheses, and design rigorous empirical studies. Offered: A.

**PSYCH 532 Single Subject Design and Research (3)** *Kohlenberg* Single subject designs (reversal, multiple baseline, changing criterion) and their application to clinical cases. Prerequisite: graduate major standing in clinical psychology or permission of instructor. Offered: W.

**PSYCH 535 Scientific Writing in Psychology (5, max. 10)** Addresses issues in scientific writing and publishing; laboratories assist with writing, and provide feedback on drafts of articles throughout the writing process. Students write a journal article to submit for publication. Other writing projects are also possible with instructor's permission. Credit/no credit only.

**PSYCH 536 Grant Preparation in Psychology (3, max. 6)** *Mizumori*, Prepare and submit an application for a major national fellowship. Joint registration in PSYCH 598 with faculty advisor is required. Credit/no credit only. Prerequisite: graduate standing Psychology, and permission of instructor.

**PSYCH 537 Teaching of Psychology (3)** *Passer* Examines issues concerning the teaching of psychology, including educational goals, course development, instructional methods, T.A.-student and T.A.-faculty relations, grading,

student diversity, and problem situations. Assignments are designed to enhance students'f organizational, presentational, and problem-solving skills. Credit/no credit only. Prerequisite: graduate standing in the Department of Psychology.

**PSYCH 538 Interactive Software for Psychological Research (4)** *Loftus* Introduction to computing concepts and basic programming skills. Includes principles of programming, the MATLAB programming environment, and the psychophysics toolbox. Data collection and management. Design and program experiments. No prior programming experience needed. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 540 Advances in Psychology (3-5, max. 30)** Intensive readings from the current literature on an emerging topic or theoretical perspective in psychology. Student presentations and discussion. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 541 Advances in Animal Behavior (3-5, max. 30)** *Barash, Beecher, Brenowitz, Kyes, O'Donnell, Sisnersos* Intensive readings from the current literature on an emerging topic or theoretical perspective in animal behavior. Student presentations and discussion. Prerequisite: graduate standing in Psychology or permission of instructor.

**PSYCH 542 Advances in Behavioral Neuroscience (3-5, max. 30)** *Buck, Covey, Kim* Intensive readings from the current literature on an emerging topic or theoretical perspective in behavior science. Student presentations and discussion. Prerequisite: graduate standing in Psychology or permission of instructor.

**PSYCH 543 Advances in Child Clinical Psychology (3-5, max. 30)** *Beauchaine, Lengua, McMahon* Intensive readings from the current literature on an emerging topic or theoretical perspective in child clinical psychology. Prerequisite: graduate student in Psychology, or permission of instructor.

**PSYCH 544 Advances in Clinical Psychology (3-5, max. 30)** *Baer, George, Kohlenberg, Linehan, Marlatt, McMahon, Smith, Zoellner* Intensive readings from the current literature on an emerging topic or theoretical perspective in clinical psychology. Student presentations and discussion. Prerequisite: graduate standing in Psychology or permission of instructor.

**PSYCH 545 Advances in Cognition/ Perception(3-5, max. 30)** *G. Loftus* Intensive readings from the current literature on an emerging topic or theoretical perspective in cognition/perception. Prerequisite: graduate standing in Psychology or permission of instructor.

**PSYCH 546 Advances in Developmental Psychology (1-5, max. 30)** *Kahn, Meltzoff, Repacholi, Smoll, Sommerville* Intensive readings from the current literature on an emerging topic or theoretical perspective in Developmental Psychology. Student presentations and discussion. Prerequisite: Graduate standing in Psychology or permission of instructor.

**PSYCH 547 Advances in Social/Personality (3-5, max. 30)** Intensive readings from the current literature on an emerging topic or theoretical perspective in social psychology/personality.

Student presentations and discussion. Prerequisite: graduate standing in Psychology or permission of instructor.

**PSYCH 548 Advances in Quantitative Psychology (3-5, max. 30)** *Flaherty* Intensive readings from the current literature on an emerging topic or theoretical perspective in quantitative psychology. Student presentations and discussion. Prerequisite: graduate standing in Psychology or permission of instructor.

**PSYCH 549 Seminar in Physiological Psychology (2)** *Bernstein, Diaz, Kenney* Prerequisite: permission of instructor.

**PSYCH 550 Seminar in Psychology (1-2, max. 30)** Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 551 Seminar in Animal Behavior (1-2, max. 30)** *Barash, Beecher, Brenowitz, O'Donnell, Sisneros* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 552 Seminar in Behavioral Neuroscience (1-2, max. 30)** *Bernstein, Buck, Covey, Diaz, Kenney, Mizumori, Olavarria* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 553 Seminar in Child Clinical Psychology (1-2, max. 30)** *Beauchaine, King, Lengua, McMahon* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 554 Seminar in Clinical Psychology (1-2, max. 30)** *George, Kohlenberg, Linehan, Marlatt, Simoni, Smith, Zoellner* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 555 Seminar in Cognition/Perception (1-2, max. 30)** *Bassok, Boynton, Buck, Fine, Kerr, Loftus, Murray, Palmer* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 556 Seminar in Developmental Psychology (1-2, max. 30)** *Bernstein, Meltzoff, Repacholi, Small* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 557 Seminar in Social/Personality (1-2, max. 30)** *Brown, Cheryan, Greenwald, Kaiser, Leu, Shoda* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 558 Seminar in Quantitative Psychology (1-2, max. 30)** *Little, Miyamoto* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in Psychology, or permission of instructor.

**PSYCH 560 Research Strategies (2, max. 30)** Group discussions of problems and continuing strategies for ongoing and future research projects. Prerequisite: graduate standing in Psychology, others by permission.

**PSYCH 561 Current Trends in Psychology (\*, max. 30)** Prerequisite: permission of instructor. Offered: AWSpS.

**PSYCH 562 Evolutionary Psychology of Gender, Mating and Reproduction (3)** *Barash, Beecher, O'Donnell, Sisneros* Reviews evidence for biological factors influencing human mating and reproductive behavior, through application of concepts and theory from animal behavior, behavioral genetics, and evolutionary biology. Offered: W.

**PSYCH 563 Developmental Psychology and the Human Relationship with Nature (4)** *Kahn* Theories of development used to investigate the ontogenesis of the human relationship with nature. An emphasis on social cognition, children's environmental moral reasoning, the effects of technology in children's lives, and evolutionary theory. Offered: W.

**PSYCH 564 Advanced Attitude Theory (5)** *Greenwald* Theoretical, methodological, and empirical work on the concept of attitude and its practical applications. Topics include: definition of attitude, measurement of attitudes, information processing theories, functional theories, cognitive structure theories, the self as attitude object, unconscious attitudinal processes. Prerequisite: PSYCH 445; PSYCH 525 or equivalent; or permission of instructor.

**PSYCH 565 Quantifying Brain Analysis (3)** Covers concepts and applications of statistically unbiased methods for quantifying brain structure. Hands-on learning and application of concepts, sampling strategies and calculations for unbiased stereological measure of the size and number of various brain components.

**PSYCH 566 Neural Correlates of Perceptual Cognition (3)** *Olavarria* Contribution of sensory systems to perceptual capabilities. Critical review of literature on the neural correlates of abilities such as sensory discrimination, subjective perception, attention, imagery, object and face recognition, and spatial behavior. Some sensory disabilities reviewed. Offered: W.

**PSYCH 567 Higher Order Cognition (3)** *Bassok* Survey of research on higher-order cognition with an emphasis on theoretical accounts of knowledge representation. Topics include problem solving, inductive and deductive reasoning, hypothesis testing, causal inferences, similarity judgments, and categorization.

**PSYCH 568 Cognitive Approaches to Human Memory (3)** Examination of current topics in human memory from the perspective of cognitive psychology. Prerequisite: PSYCH 355 or permission of instructor. Offered: Sp.

**PSYCH 570 Child Clinical Psychology (4)** Issues and content of child clinical psychology, promotion of student's beginning work in research. Prerequisite: graduate major or minor standing in child-clinical psychology.

**PSYCH 571 Child Psychopathology (5)** *McMahon* Broad survey of major categories of child and adolescent disorders. Emphasis on scientific, empirical approach to description, classification, and research literature on these disorders. Required for all graduate students majoring in child clinical psychology. Prerequisite: graduate standing in psychology or permission of instructor.

**PSYCH 572 Approaches to Child Treatment (4)** *Barrett, Beauchaine* Major approaches to child psychotherapy, including specific applications, issues in treatment, and research. Prerequisite: graduate major standing in child-clinical

psychology or permission of instructor. Offered: Sp.

**PSYCH 573 Psychological Assessment of Children (5)** Assessment techniques appropriate to children, including those for infants, special problems of preschool and school-age children; projective tests, family interviews, and target observational assessment; training in administration of selected techniques. Prerequisite: PSYCH 576 and permission of instructor.

**PSYCH 574 Community Psychology (4)** Overview of key issues and concepts in the field of community psychology. History of field and overview of different models used to conceptualize system-level mental health issues and delivery systems. Emphasizes theory and research rather than intervention. Prerequisite: psychology graduate student or permission of instructor.

**PSYCH 575 Anxiety Disorders (3)** *Zoellner* General topics related to primary anxiety disorders (panic, OCD, GAD, posttraumatic stress disorder, and specific phobias), including diagnosis, theory, and treatment.

**PSYCH 576 Assessment of Intelligence (5)** *Lengua* Current theory and research on intelligence and intelligence testing; training in administration, scoring, and interpretation of major intelligence tests; ethical issues in assessment. Prerequisite: graduate major standing in child clinical or clinical psychology, or graduate minor standing in child clinical psychology. Offered: Sp.

**PSYCH 577 Psychological Assessment of Adults (3)** Training in adult assessment and development of skills in administration, scoring, and interpretation of the Rorschach with some attention to other projective techniques. Prerequisite: PSYCH 576 and permission of instructor.

**PSYCH 578 Approaches to Psychological Assessment (4)** Problem-solving approach to psychological assessment; review of psychological tests and procedures and presentation of approaches to their clinical interpretation and use. Required for all graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical psychology. Offered: Sp.

**PSYCH 579 Behavioral Assessment (4)** *Linehan* Research, theory, and technique in behavioral assessment. Emphasis on assessing for change and relationship between assessment and therapy. Interviewing, observational techniques, self-monitoring, simulated environments, and physiological, self-report, and imaginal procedures. Prerequisite: clinical psychology graduate standing and permission of instructor.

**PSYCH 580 Minority Mental Health (3)** *Barrett, George, Simoni* Surveys topics on mental health and treatment of racial and ethnic minorities. Theory emphases include: models addressing ethnic identity, cross-cultural differences, models of culturally sensitive intervention. Practice emphases include unique psychotherapy strategies for: African-, Asian-, and Latino-Americans, and American Indians. Prerequisite: graduate clinical major standing in psychology or permission of instructor.

**PSYCH 581 Cross-Cultural Competency I (2)** *Barrett, George* Focuses on development of

multicultural competence in the provision of psychological services to meet APA guidelines for ethnic, linguistic, and culturally diverse populations. Students address personal development, increase their knowledge of diverse groups, and study effective models of intervention in working with clients of diverse backgrounds. Prerequisite: PSYCH 575.

**PSYCH 582 Cross-Cultural Competency II (2)** Barrett, George Third in the graduate multicultural-competence sequence. Focuses on American ethnic minorities, multiracial children and families, social action, and organizational development. Prerequisite: PSYCH 581.

**PSYCH 584 Behavioral Methods: Clinical Interventions (3)** Linehan Provides students with basic skills required for competent practice of cognitive and behavioral therapies. Topics include behavioral skills training, cognitive restructuring, contingency management, and exposure-based procedures. Prerequisite: second year of graduate clinical psychology, social work, psychosocial nursing, or psychiatric residency.

**PSYCH 586 Clinical Personality Assessment (3)** R. Smith Use of objective personality inventories in the description of normal and abnormal personality and use of such information in case conceptualization and treatment planning. Minnesota Multiphasic Personality Inventory, Millon Clinical Multiaxial Inventory. Credit/no credit only. Prerequisite: clinical psychology graduate standing.

**PSYCH 587 Clinical Methods: Interviewing (2)** Fagan Provides the foundation for developing good clinical skills. Enables students to conduct an initial clinical interview and generate a diagnostic formulation, problem list, and treatment plan after taking a complete history. Limited to and required of all second-year clinical psychology graduate students. Credit/no credit only. Offered: A.

**PSYCH 588 Clinical Methods: Ethics (3)** Fagan Enables students to acquire a thorough working knowledge of the American Psychological Association's Ethical Standards for Psychologists; an awareness of Washington state law as it affects psychologists and a knowledge of how to identify and solve ethical dilemmas. Limited to and required of all second-year clinical psychology graduate students. Credit/no credit only. Offered: W.

**PSYCH 589 Clinical Supervision (4)** Beauchaine, George, King, Kohlenberg, Lengua, Linehan, Marlatt, McMahon, Simoni, Smith, Zoellner Supervised psychotherapy involving several individual clients. Separate consultations with instructor for intensive supervision of each case. Occasional meetings in small groups of instructors and students to discuss case material. Assigned readings appropriate to each case with opportunities to discuss these with instructor. Credit/no credit only. Prerequisite: clinical psychology graduate standing and permission of instructor. Offered: AWSpS.

**PSYCH 590 Practicum in Psychological Assessment (2)** Demonstration and practice of selected psychological test procedures and interviewing skills. Concurrent registration in PSYCH 576 or PSYCH 578 required. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical or child-clinical psychology and permission of instructor.

**PSYCH 591 Issues in Clinical Psychology (1, max. 3)** Smith Personal and professional issues in clinical psychology. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Credit/no credit only. Prerequisite: graduate major standing in clinical psychology. Offered: AW.

**PSYCH 593 Clinical Practica and Colloquium (1-6, max. 24)** Fagan Required of all clinical psychology graduate students seeing clients in the clinic. Clinical colloquium required of all second-year students, optional for others. Credit/no credit only. Offered: AWS.

**PSYCH 594 Advanced Personality Theory (5)** Linehan Conceptual models of behavioral functioning, cognition, emotion, and environment as organizers of behavior and other critical issues in personality theory. Opportunity to integrate previous courses, research, and practice, and arrive at coherent theoretical framework. Required for graduate majors in clinical psychology.

**PSYCH 596 Advanced Teaching Practicum (2, max. 6)** Supervised participation in graduate teaching. Prerequisite: graduate student in Psychology and permission of instructor. Offered: AWSpS.

**PSYCH 597 Fieldwork in Clinical Psychology (1-5, max. 36)** Baer, Beauchaine, George, King, Kohlenberg, Lengua, Linehan, Marlatt, Simoni, R. Smith, Zoellner Prerequisite: second-year graduate major standing and permission of departmental faculty.

**PSYCH 598 Directed Reading in Psychology (\*, max. 30)** Selected topics. Prerequisite: permission of a supervising psychology faculty member.

**PSYCH 599 Directed Research in Psychology (1-3, max. 24)** Supervised participation in research. Prerequisite: permission of a supervising psychology faculty member.

**PSYCH 600 Independent Study or Research (\*)** Offered: AWSpS.

**PSYCH 700 Master's Thesis (\*)** Offered: AWSpS.

**PSYCH 800 Doctoral Dissertation (\*)** Offered: AWSpS.

---

## Romance Languages and Literature

### Romance Languages and Literature

**ROMAN 411 Critical Approaches to Romance Literature (5)** VLPA Explores theoretical as well as fictional texts in a least two Romance languages.

**ROMAN 593 Literary Problems: Early Modern Period (5)**

**ROMAN 596 Problems in Comparative Contemporary Literary Studies (5)** Seminar exploring contemporary literary thought through theoretical and/or creative literature. A selection of texts from at least two Romance languages and literary traditions. Prerequisite: competence

in at least two Romance languages; completion of several upper division literature courses; some familiarity with critical methodologies.

**ROMAN 600 Independent Study or Research (\*)** Credit/no credit only.

**ROMAN 700 Master's Thesis (\*)** Credit/no credit only.

**ROMAN 800 Doctoral Dissertation (\*)** Credit/no credit only.

## French

*Credit: The sequence 121, 122, 123 is parallel to 101, 102, 103; students can receive credit for 101 and 121, but not for 102 and 122 or 103 and 123. 101 or 121 cannot be taken for credit after 102, 103, 122, or 123. 134 is a 15-credit intensive course exactly equivalent to 121, 122, 123; a maximum of 15 credits are allowed for 134 and any of 102, 103, 121, 122, and 123. A student who completes 134 cannot later take 101 for credit, but a student who earns credit for 101 can take 134 for 15 additional credits.*

**FRENCH 101 Elementary (5)** Development of speaking, listening, reading, and writing skills to a basic level of proficiency. Teaches students to communicate in French and understand the cultural context of the language. Methods and objectives are primarily oral-aural. Oral practice in the language laboratory is required. Prerequisite: score of 0-14 on FR TL placement test if French is language of admission.

**FRENCH 102 Elementary (5)** Development of speaking, listening, reading, and writing skills to a basic level of proficiency. Teaches students to communicate in French and understand the cultural context of the language. Methods and objectives are primarily oral-aural. Oral practice in the language laboratory is required. Prerequisite: either FRENCH 101 or score of 15-30 on FR TL placement test.

**FRENCH 103 Elementary (5)** Development of speaking, listening, reading, and writing skills to a basic level of proficiency. Teaches students to communicate in French and understand the cultural context of the language. Methods and objectives are primarily oral-aural. Oral practice in the language laboratory is required. Prerequisite: either FRENCH 102, FRENCH 110, or score of 31-56 on FR TL placement test.

**FRENCH 110 Basic French Review (5)** Combines in one quarter the contents of 101 and 102. Designed for students who have studied French in high school but who are not ready for 102. Prerequisite: score of 10-30 on FR TL placement test.

**FRENCH 199 Foreign Study — Elementary (4-16, max. 16)** Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through 103.

**FRENCH 201 Intermediate (5)** VLPA Designed to bring students to an intermediate level of proficiency. Emphasis on experiencing the language in context through a multi-media approach. Prerequisite: either FRENCH 103, FRENCH 134, or score of 57-100 on FR TL placement test.

**FRENCH 202 Intermediate (5)** VLPA Designed to bring students to an intermediate level of

proficiency. Emphasis on experiencing the language in context through a multi-media approach. Prerequisite: FRENCH 201.

**FRENCH 203 Intermediate (5) VLPA** Designed to bring students to an intermediate level of proficiency. Emphasis on experiencing the language in context through a multi-media approach. Prerequisite: FRENCH 202.

**FRENCH 207 Second-Year Reading (5) VLPA** Intermediate vocabulary building and reading of literary texts. Students receiving credit for 207 may subsequently earn credit for lower-division French courses involving other skills.

**FRENCH 210 Paris (5) I&S/VLPA** Taught in English. Provides an introduction to the art, architecture, politics, and literature of the City of Light.

**FRENCH 211 Renaissance, Enlightenment, Revolution: Major Works in English (5) VLPA** *Collins* Introduction to major figures of French culture from the Middle Ages to the eighteenth century, their contributions to the intellectual life of the Western world. Readings include Montaigne, Descartes, Rousseau, Voltaire, and Moliere. In English.

**FRENCH 212 French Masterworks: Modern in English (5) VLPA** *Collins* Introduction to major figures of French culture from the nineteenth and twentieth centuries. Readings include Balzac, Flaubert, Proust, Sartre, and Celine. In English.

**FRENCH 214 The French Fairy Tale Tradition in English (5) VLPA** *Delcourt* French fairy tales as a major trend in French literature and a continuing influence on modern fictions and films. Particular attention given to the numerous French women writers of fairy tales at the time of Charles Perrault (seventeenth century) and after. In English.

**FRENCH 227 Intermediate Conversational French (2, max. 8) VLPA** Practice of intermediate-level French conversational skills through class discussion and oral presentations. Topics oriented toward French culture and current events. Prerequisite: FRENCH 103

**FRENCH 234 Intermediate French Immersion (15) VLPA** Covers the equivalent of second-year French (FRENCH 201, 202, 203) through an alternative "planned immersion" method with video as the central medium of presentation. Prerequisite: either FRENCH 103, FRENCH 134, or score of 57-100 on FR TL placement test.

**FRENCH 237 Foreign Study Conversational French (2-8, max. 8) VLPA** For participants in the Foreign Study Program.

**FRENCH 250 History of French Cinema in English (5) VLPA** *V. Collins* History of cinema in France from the birth of film, the seventh art, to the present. Socio-historical context of French cinema explored. In English.

**FRENCH 297 Foreign Study French Civilization (3/6) VLPA** For participants in the Foreign Study Program. Literary tradition, social and cultural values as reflected in literature. Paper (in English) and higher degree of participation for 6 credits. In English.

**FRENCH 299 Foreign Study — Intermediate (4-16, max. 16) VLPA** Intermediate instruction in

approved foreign study program. Evaluation by departmental adviser required to establish proficiency. Further study at 200-level subject to departmental evaluation.

**FRENCH 301 Advanced French (5) VLPA** Designed to bring students to an advanced level of proficiency in grammar and composition. Emphasis on experiencing the language in context through a multi-media approach. 303 prepares students for literature classes. Prerequisite: either FRENCH 203 or FRENCH 234.

**FRENCH 302 Advanced French (5) VLPA** Designed to bring students to an advanced level of proficiency in grammar and composition. Emphasis on experiencing the language in context through a multi-media approach. 303 prepares students for literature classes. Prerequisite: FRENCH 301.

**FRENCH 303 Advanced French (5) VLPA** Designed to bring students to an advanced level of proficiency in grammar and composition. Emphasis on experiencing the language in context through a multi-media approach. 303 prepares students for literature classes. Prerequisite: FRENCH 302.

**FRENCH 304 Survey of French Literature: Origins to 1600 (5) VLPA** Thematic and formal developments in literature of the period with emphasis on movements and texts in relation to cultural background. Prerequisite: FRENCH 303, which may be taken concurrently..

**FRENCH 305 Survey of French Literature: 1600-1789 (5) VLPA** Emphasis on literary movements and texts in relation to cultural background. Prerequisite: FRENCH 303, which may be taken concurrently.

**FRENCH 306 Survey of French Literature: 1789 to the Present (5) VLPA** Development of modern literature through its most important writers and movements. Prerequisite: FRENCH 303, which may be taken concurrently.

**FRENCH 307 Survey of Francophone Literatures and Cultures (5) VLPA** Survey of contemporary Francophone (post) colonial literatures and cultures.. Prerequisite: FRENCH 303, which may be taken concurrently.

**FRENCH 308 Foreign Study Composition (3-5, max. 10) VLPA** For participants in the Foreign Study Program. Compositions on topical subjects of intermediate difficulty relating to the civilization of the French-speaking countries of Europe. Grammar review as needed. Prerequisite: FRENCH 203.

**FRENCH 313 Business Communication in French (5) VLPA** Offers students the opportunity to develop French language skills (reading, writing, speaking, and listening) within the context of the French-speaking business world. Business-specific culture emphasized. May be taken in lieu of, or in addition to, 303. Prerequisite: FRENCH 302.

**FRENCH 327 Advanced Conversation (2, max. 8) VLPA** Not open to students whose native language is French. Prerequisite: FRENCH 203.

**FRENCH 337 Foreign Study Conversational French (2-8, max. 8) VLPA** For participants in the Foreign Study Program. Prerequisite: FRENCH 203.

**FRENCH 376 Culture, Politics, and Society in France from the Religious Wars to Revolutions (5) VLPA/I&S** Studies the development of intellectual, literary, and artistic cultures in the context of the profound political and social evolutions of the Renaissance through the early 19<sup>th</sup> century in France. Taught in English. Prerequisite: FRENCH 203.

**FRENCH 378 The Making of Contemporary France (5) I&S/VLPA** Study of the historical origins and subsequent development of contemporary problems and characteristics of French government and politics, economy, and society. Prerequisite: FRENCH 203.

**FRENCH 390 Supervised Study (2-6, max. 20)**

**FRENCH 397 Foreign Study French Civilization (3/6) VLPA** For participants in the Foreign Study Program. Literary tradition, social and cultural values as reflected in literature. Paper (in French) and higher degree of participation for 6 credits. In French. Prerequisite: FRENCH 203.

**FRENCH 404 Old French (5) VLPA** . Designed for acquisition of reading facility in Old French through intensive study of selected texts. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 406 Advanced French Composition (5) VLPA** Extensive guidance in advanced French composition, emphasizing stylistics and grammar. Prerequisite: FRENCH 303.

**FRENCH 411 Topics in the Middle Ages (5) VLPA** Sixteenth-century literature with emphasis on poetry and the general artistic ambiance. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307..

**FRENCH 412 Topics in Sixteenth Century French Literature (5) VLPA** An introduction to major French literature and culture of the Sixteenth Century, usually with a guiding theme such as travel and the court. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 413 Topics in Seventeenth Century (5) VLPA** Seventeenth-century literature, with emphasis on the development of classicism. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 414 French Literature of the Eighteenth Century: Enlightenment (5) VLPA** Eighteenth-century literature, with emphasis on the development of the Enlightenment ideology. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, FRENCH 307.

**FRENCH 415 French Literature of the Eighteenth Century: Post-Enlightenment (5) VLPA** Eighteenth-century literature, with emphasis on the "dark side of the Enlightenment" and nascent romanticism. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 416 French Literature of the Nineteenth Century: Romanticism (5) VLPA** Nineteenth-century literature, with emphasis on romanticism and the early manifestations of

realism. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306 or FRENCH 307.

**FRENCH 418 French Literature of the Early Twentieth Century (5) VLPA** Twentieth-century literature, with emphasis on the period 1900-1939. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 419 French Literature Since World War II (5) VLPA** Twentieth-century literature, with emphasis on the period 1939 to the present. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 420 Interdisciplinary Approaches to Literature (5) VLPA** Interdisciplinary studies in French literature and culture, focusing on the complex interactions of literature and other disciplines, i.e. philosophy, psychoanalysis, anthropology, architecture. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 421 Psychoanalysis and Literature (5) VLPA** *Borch-Jacobsen* Readings from Freud and French critical writers regarding the relationship between psychoanalysis and literature. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 422 Literature and the Other Arts (5) VLPA** Examines the relationship between text and image in a variety of art forms. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 424 Fiction: 1800-1850 (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 425 Fiction: 1850-1900 (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 427 Fiction: Twentieth Century (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 431 Critical Approaches to French Poetry (5) VLPA** Interdisciplinary approaches to French poetry focusing on the intersection of fine art, cultural movements, and the production of literature in the Second Empire and the Third Republic. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 432 Critical Approaches to French Fiction (5) VLPA** Addresses theory and practice of fiction within the context of a given century or movement. Content varies. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 435 Topics in Non-Fiction (5) VLPA** Content varies. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 441 Quebecois Literature (5) VLPA** Readings of novels, plays, and occasionally, poetry. Special attention paid to how Quebecois authors represent in their works the complex

socio-political reality of their culture. Conducted in French. French majors required to read and write in French; all others may read and write in English. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307. Offered: jointly with SISCA 441.

**FRENCH 444 Poetry: Romantic (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 445 Women Writers (5) VLPA** Focuses on French women writers and writing about women. Chronological and geographic ranges varies. Gender issues addressed in critical fashion, considering the different historical and ideological contexts in which each of the works were produced. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, FRENCH 307.

**FRENCH 446 Poetry: Twentieth Century (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 450 Themes in French Literature and Culture (5) VLPA** Interdisciplinary studies in French literature and culture, focusing on the construction and representation of gender roles in the French novel from the early eighteenth century. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 451 History and Literature of the French Religious Wars (5) I&S/VLPA** Major political, social, and religious movements and events of, and related to, the French religious wars of 1560 to the end of the century, along with the treatment of these in the prose, poetry, and drama of the period. For students receiving French credit, readings must be done in French. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 454 Nonfiction of the Classic Period (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 455 One Author in French Literature/Culture (5, max. 15) VLPA** In depth focus on the works of one author in French Literature or Culture. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 457 One Decade in French Literature and Culture (5, max. 15) VLPA** Content varies. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, FRENCH 307..

**FRENCH 458 French Art and Literature: Period Studies (5) VLPA** Comparative studies of theme and technique in art and literature to illustrate major concerns of a particular period as expressed in these two media. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, FRENCH 307..

**FRENCH 461 Seventeenth-Century Drama (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 463 Nineteenth-Century Drama (5) VLPA** Prerequisite: FRENCH 303; either

FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 465 Twentieth-Century Drama (5) VLPA** Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 470 Cinema (5) VLPA** Major films and figures of French cinema from the beginnings to the present. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 472 French-English/English-French Translation (5) VLPA** Intense practice of translation from English into French and from French into English. Translation issues specific to French and English syntactic, semantic, and grammatical differences with emphasis on the naturalness of the target language and the accuracy of the translation of the source language. Conducted in French. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 481 Twentieth-Century French Novel in English (5) VLPA**

**FRENCH 482 French Poetry From Baudelaire to the Present in English (5) VLPA** Analysis in English of the major trends and movements in modern French poetry with representative works, from Baudelaire to the poets of the 1950s.

**FRENCH 483 Trends in Twentieth-Century Theatre in English (5) VLPA** Study of the evolution of the French theatre from the turn of the century to the present. Special emphasis is given the French theatrical scene since World War II.

**FRENCH 484 Sixteenth-Century Literature in English (5) VLPA** Reading and discussion of selected passages in translation from the works of major 16<sup>th</sup> century writers. Background information through informal lectures and outside reading on the two figures as illustrative of the Renaissance in France.

**FRENCH 485 Racine and Molière in English (5) VLPA**

**FRENCH 486 Literature of the Enlightenment in English (5) VLPA**

**FRENCH 487 Nineteenth-Century Fiction in English (5) VLPA**

**FRENCH 488 Women in French Literature in English (5) VLPA** Significant texts by or about women in French literature, read in translation. Ranges from the sixteenth century through the present day.

**FRENCH 490 Honors Seminar (2-5, max. 10) VLPA** Special studies in French literature. Required of candidates for honors and distinction in French. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 496 Poetry and Song as Elements in French Civilization (5) VLPA** Relationship of poetry and music as expressed in the chanson in several periods of French culture. Emphasis on twentieth-century poet-composer-performers. Attention given to the medieval troubadours and to poet-musician collaboration in the Renaissance and later periods. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 499 Special Topics (1-5, max. 10)**  
Topics to meet special needs. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

**FRENCH 510 Methodology of French Language Teaching (3)** Theoretical and practical foundation of teaching French. Major topics include modern theories of language and language acquisition which underlie modern methods of foreign language teaching, teaching techniques, testing, and classroom relations with emphasis on the multiple-approach direct method. Required for beginning French Teaching Assistants. Credit/no credit only.

**FRENCH 515 French Literature of the High Middle Ages (5, max. 10)** Old French literature, from the beginning to 1315. Prerequisite: permission of instructor.

**FRENCH 516 Middle French Literature (5, max. 10)** French literature from 1315 to 1500. Prerequisite: permission of instructor.

**FRENCH 520 Renaissance Prose: Rabelais (5)**

**FRENCH 521 Renaissance Prose: Montaigne (5)**

**FRENCH 523 Studies in Fiction: 1660-1800 (5, max. 10)**

**FRENCH 525 Studies in Fiction: 1850-1900 (5, max. 10)**

**FRENCH 526 Studies in Fiction: 1900-1950 (5, max. 10)**

**FRENCH 530 Studies in Renaissance Poetry (5, max. 10)**

**FRENCH 532 Studies in Nineteenth-Century Poetry (5, max. 10)**

**FRENCH 534 Studies in Twentieth-Century Poetry (5, max. 10)**

**FRENCH 541 History of the French Language (5)** Survey of the phonological, morphological, and syntactical development of the French language from its origins to the present.

**FRENCH 555 French Nonfiction (5, max. 10)**

**FRENCH 561 Studies in Seventeenth-Century Drama (5, max. 10)**

**FRENCH 565 Studies in French Drama (5, max. 10)** Studies in French drama, sixteenth to twentieth centuries.

**FRENCH 570 Seminar in Cinema (5, max. 10)**  
Prerequisite: permission of instructor.

**FRENCH 575 Literary Criticism (5)**

**FRENCH 576 Critical Methodology (5)** Basic scholarly tools of bibliography; historical review of literary doctrine; an introduction to critical methodology.

**FRENCH 577 Modern Critical Methods (5)**  
Modern critical methodology and theory.

**FRENCH 590 Special Seminar and Conference (1-10, max. 30)** Group seminars, or individual conferences, are scheduled under this number to meet special needs. Prerequisite: permission of the graduate program coordinator.

**FRENCH 591 Literary Problems: Middle Ages (5, max. 10)**

**FRENCH 592 Literary Problems: Renaissance (5, max. 10)**

**FRENCH 593 Literary Problems: Seventeenth Century (5, max. 10)**

**FRENCH 595 Literary Problems: Nineteenth Century (5, max. 10)**

**FRENCH 596 Literary Problems: Twentieth Century (5, max. 10)**

**FRENCH 600 Independent Study or Research (\*)**

**FRENCH 700 Master's Thesis (\*)** Credit/no credit only.

**FRENCH 800 Doctoral Dissertation (\*)** Credit/no credit only.

## Italian

**ITAL 101 Elementary (5)** Methods and objectives are primarily oral-aural. Language laboratory is required. Offered: A.

**ITAL 102 Elementary (5)** Methods and objectives are primarily oral-aural. Language laboratory is required. Prerequisite: either ITAL 101 or score of 15-30 on IT TL placement test. Offered: W.

**ITAL 103 Elementary (5)** Methods and objectives are primarily oral-aural. Language laboratory is required. Prerequisite: either ITAL 102, ITAL 111, or score of 31-56 on IT TL placement test. Offered: Sp.

**ITAL 108 Intensive Italian Grammar and Reading (5)** Intensive two-quarter presentation of Italian grammar with emphasis on reading Italian texts. For persons who require solid reading knowledge of Italian or who plan to study in Italy.

**ITAL 111 Accelerated First-Year Italian (10)** Intensive version of 101 and 102. Designed for highly motivated students. Offered: A.

**ITAL 113 Accelerated First-Year Italian (10)** Intensive version of 102 and 103. Design for highly motivated students. Prerequisite: either ITAL 101 or score of 15-30 on IT TL placement test. Offered: W.

**ITAL 127 Beginning Conversational Italian (2, max. 6)** Practice of beginning-level Italian conversational skills through class discussions and oral presentations. Topics vary. Not open to native speakers.

**ITAL 134 Intensive First-Year Italian (15)** An intensive language course equivalent to 101, 102, 103, designed for highly motivated students. Not open for credit to students who have taken 102 and 103. Offered: S.

**ITAL 199 Foreign Study — Elementary (4-16, max. 16)** Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through 103.

**ITAL 201 Intermediate (5) VLPA** Intensive speaking, reading, and writing. Functional review of grammar. Prerequisite: either ITAL 103, ITAL 113, ITAL 134, or score of 57-100 on IT TL placement test.

**ITAL 202 Intermediate (5) VLPA** Intensive speaking, reading, and writing. Functional review of grammar. Prerequisite: ITAL 201.

**ITAL 203 Intermediate (5) VLPA** Intensive speaking, reading, and writing. Functional review of grammar. Prerequisite: ITAL 202.

**ITAL 208 Intensive Italian Grammar and Reading (5) VLPA** Intensive two-quarter presentation of Italian grammar with emphasis on reading Italian texts. For persons who require solid reading knowledge of Italian or who plan to study in Italy.

**ITAL 227 Intermediate Conversational Italian (2, max. 6) VLPA** Practice of intermediate-level Italian conversational skills through class discussions and oral presentations. Topics vary. Not open to native speakers. Prerequisite: ITAL 103.

**ITAL 234 Intensive Second-Year Italian (15) VLPA** Intensive language course designed for highly motivated students. Equivalent to 201, 202, 203. Prerequisite: either ITAL 103, ITAL 113, ITAL 134, or score of 57-100 on IT TL placement test. Offered: S.

**ITAL 250 Rome (5) I&S/VLPA** Focuses on Rome as an historical, intellectual, and artistic world center. Literary and historic documents, visual arts, architecture, film, and opera will be used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with ART H 250/HSTEU 250.

**ITAL 260 Fashion, Nation, and Culture (5) VLPA/I&S** *Gaylard* Introduction to Italian culture focusing on fashion and manners from the late Middle Ages to today. Explores common assumptions about nation, gender, clothes, make-up, and manners, through literary and visual analysis. In English. Offered: jointly with EURO 260; W.

**ITAL 299 Foreign Study — Intermediate (4-16, max. 16) VLPA** Intermediate instruction in approved foreign study program. Evaluation by departmental adviser required to establish proficiency. Further study at 200-level subject to departmental evaluation.

**ITAL 301 Advanced Syntax and Composition (5) VLPA** Prerequisite: either ITAL 203 or ITAL 234.

**ITAL 302 Advanced Syntax and Composition (5) VLPA** Prerequisite: ITAL 301.

**ITAL 303 Italian Stylistics (5) VLPA** Functional grammar review; creative written and oral composition and reading, with special attention to problems of style. Prerequisite: ITAL 302.

**ITAL 318 Italian Literature in English (5) VLPA**

**ITAL 319 The Italian Short Story in English (5) VLPA** The short story from the Novellino and Boccaccio to modern masters of the form. The translations are studied both as examples of narrative technique and as reflections of particular moments in Italian cultural history.

**ITAL 327 Advanced Conversation (2, max. 8) VLPA** Not open to students whose native

language is Italian. Prerequisite: either ITAL 203 or ITAL 234.

**ITAL 341 Italian and American Poetry in Translation (5) VLPA** Introduction to basic concepts and skills required for Italian-to-English translation. Examines the main aspects of contrastive grammar and stylistics used in translation, providing practical opportunities to incorporate and apply the material. Exposure to a variety of translation fields. Prerequisite: either ITAL 203 or ITAL 234.

**ITAL 342 Advanced Italian Composition and Essay Writing (5) VLPA** Addresses issues of syntax and grammar, register and style, and advanced vocabulary for academic writing. Teaches students to write a cogent, well-structured essay for upper-level literature classes in Italian. Writing intensive. Conducted in Italian (some material in English). Prerequisite: either ITAL 203 or ITAL 234.

**ITAL 351 Contemporary Italian Culture (5)** Italian culture from the 1980s to the present, with discussion of major events of the period and readings from fiction, political manifestos, song lyrics, etc. Emphasis on recent linguistic developments, changed role of women, meaning of multiculturalism in Italy, and the spread of global culture. Conducted in Italian. Prerequisite: either ITAL 203 or ITAL 234.

**ITAL 352 Italian Cultural History (5) I&S** Italian history and culture from the thirteenth to the twentieth century, with discussion of the major historical and cultural events. Readings from selected bibliography and historical documents, literature, etc. Emphasis on the historical context of the most significant aspects of Italian culture through the centuries. Conducted in Italian. Prerequisite: either ITAL 203 or ITAL 234.

**ITAL 366 Italian Society in Film and Literature (5, max. 15) I&S/VLPA** Studies the evolution of Italian postwar society through the analysis of film and literature as well as critical, historical, and sociological readings.

**ITAL 384 Renaissance Literature of Italy in English (3) VLPA**

**ITAL 390 Supervised Study (2-6, max. 20) .**

**ITAL 399 Foreign Study: Advanced (4-16, max. 16) VLPA** Advanced instruction in approved foreign study program.

**ITAL 400 The Development of the Italian Language (5) VLPA** Historical survey of Italian phonology, morphology, and syntax. Evolution of the language is illustrated with study of pertinent documents from various periods. Prerequisite: either ITAL 303; LING 400 or ROLING 401. Offered: jointly with LING 419.

**ITAL 401 Medieval Italian Readings (5) VLPA** Exploration of medieval Italian cultural history through a broad variety of literary and other textual traditions. Prerequisite: ITAL 302.

**ITAL 402 Early Modern Italian Readings I (5) VLPA** Readings in Italian Quattro/Cinquecento, covering the period of the Renaissance. Prerequisite: ITAL 302.

**ITAL 403 Early Modern Italian Readings II (5) VLPA** Readings in Italian Sei/Settecento, covering the periods of Baroque and Enlightenment literature. Prerequisite: ITAL 302.

**ITAL 404 Modern Italian Readings I (5) VLPA** Readings in Italian Ottocento, covering the period of Romanticism. Prerequisite: ITAL 302.

**ITAL 405 Modern Italian Readings II (5) VLPA** Readings in Italian Novecento, covering the work of major Italian twentieth-century authors. Prerequisite: ITAL 302.

**ITAL 413 Literature of the Renaissance: Quattrocento (5) VLPA** The early Renaissance. Humanism; writings of Lorenzo de' Medici, Poliziano, Belcarì, Alberti, Masuccio, Sannazzaro, Pulci, Boiardo. Prerequisite: ITAL 302.

**ITAL 414 Literature of the Renaissance: Cinquecento (5) VLPA** The high Renaissance. Bembo and the Petrarchans, Machiavelli, Guicciardini, Castiglione, Ariosto, Guarini, Tasso. Prerequisite: ITAL 302.

**ITAL 423 Seventeenth-Century Italian Literature (5) VLPA** New sciences and new poetics: Campanella, Sarpi, Della Valle, Marino, Tesauro, Bartoli, Galileo, Redi. Prerequisite: ITAL 302.

**ITAL 424 Eighteenth-Century Italian Literature (5) VLPA** Survey of eighteenth-century literature — the melodrama, drama and poetry: Metastasio, Goldoni, Alfieri, Parini, Monti, and Foscolo. Prerequisite: ITAL 302.

**ITAL 431 Italian Theater (5) VLPA** The development of Italian theater from the Renaissance to the twentieth century. Prerequisite: ITAL 302.

**ITAL 450 The Romantic Movement (5) VLPA** Beginning with an examination of the pre-romantic works of Ugo Foscolo, focuses on the literary and critical writings of Alessandro Manzoni and Giacomo Leopardi. Discusses the Romantic movement in Italy within the context of European Romanticism. Reference made to later variations on Romantic themes. Prerequisite: ITAL 302.

**ITAL 460 Verismo (5) VLPA** The development of Verismo with extensive readings from its main exponents-Capuana, Verga, Serao, Deledda, Fucini, and d'Annunzio. Prerequisite: ITAL 302.

**ITAL 465 Contemporary Italian Narrative (5, max. 15) VLPA** Critical reading of selected modern exponents of the short story and novel. Prerequisite: ITAL 302.

**ITAL 466 Italian Society in Cinema and Literature in Italian (5, max. 15) I&S/VLPA** *Sbragia* Studies the evolution of Italian postwar society through the analysis of film and literature as well as critical, historical, and sociological readings. Offered in Italian. Prerequisite: ITAL 302.

**ITAL 470 Dante (5) VLPA** Introduction to Dante's *Commedia* and minor works, conducted in Italian. Prerequisite: ITAL 302.

**ITAL 475 Italian Fascism: Architecture and Power (5) I&S/VLPA** Fascism in Italy as studied within the broader European context of nationalism, imperialism, and modernization, with particular emphasis on the arts — literature, film, architecture, and urbanism. Offered: jointly with ART H 495; A.

**ITAL 480 Dante's Comedy in English (5) VLPA** Introduction to Dante's *Comedy*.

Considers formal, structural, linguistic, literary, historical, cultural, philosophical, and theological issues raised by the text. Discusses the main currents of twentieth-century Dante criticism.

**ITAL 481 Dante's Comedy in English (5) VLPA** Second half of a two-quarter series. Close study of Dante's *Purgatory* and *Paradiso* and retrospective reading of *Inferno*. Explores Dante's concept of art, both human and divine, as it is developed in and defines the poem. Prerequisite: ITAL 480.

**ITAL 482 The Decameron in English (5) VLPA** An integral reading of the *Decameron*, with some consideration of its place in world literature and as an expression of the culture of its time.

**ITAL 490 Proseminar in Italian Literature (3-5) VLPA** Intended to help the student achieve a mature critical mastery of Italian literature.

**ITAL 499 Special Topics (1-5, max. 10)** Topics to meet special needs. Prerequisite: ITAL 302.

**ITAL 501 Medieval Italian Readings (5)** Exploration of medieval Italian cultural history through a broad variety of literary and other textual traditions.

**ITAL 502 Early Modern Italian Readings I (5)** Readings in Italian Quattro/Cinquecento over the period of the Renaissance. Covers major intellectual, literary, and cultural movements and figures of the period, including humanistic rediscovery of Graeco-Roman models, chivalric poems, comic theater.

**ITAL 503 Early Modern Italian Readings II (5)** Readings in Italian Sei/Settecento, covering the periods of Baroque and Enlightenment literature.

**ITAL 504 Modern Italian Readings I (5)** Readings in Italian Ottocento, covering the period of Romanticism.

**ITAL 505 Modern Italian Readings 2 (5)** Readings in Italian Novecento, covering the work of the major Italian twentieth-century authors.

**ITAL 514 Dante (5, max. 10)**

**ITAL 531 Italian Theater (5)** The development of Italian theater from the Renaissance to the Twentieth Century. Individual conferences with lecturing professor. Prerequisite: graduate students only.

**ITAL 570 Seminar in Cinema (5)** Studies in various areas of Italian cinema, concentrating on major directors, critics, and movements. Prerequisite: permission of instructor.

**ITAL 590 Special Seminar and Conference (1-10, max. 30)** Group seminars, or individual conferences, are scheduled under this number to meet special needs. Prerequisite: permission of instructor.

**ITAL 591 Literary Problems: Middle Ages and Fourteenth Century (5, max. 10)**

**ITAL 592 Literary Problems: Renaissance (5, max. 10)**

**ITAL 593 Literary Problems: Early Modern (5, max. 10)**

**ITAL 594 Literary Problems: Eighteenth Century (5, max. 10)**

**ITAL 595 Literary Problems: Nineteenth Century (5, max. 10)**

**ITAL 596 Literary Problems: Twentieth Century (5, max. 10)**

**ITAL 600 Independent Study or Research (\*)**

## Portuguese

**PORT 101 Elementary (5)** Methods and objectives are primarily oral-aural. Covers all major elements of Portuguese grammar.

**PORT 102 Elementary (5)** Methods and objectives are primarily oral-aural. Covers all major elements of Portuguese grammar. Prerequisite: PORT 101.

**PORT 103 Elementary (5)** Methods and objectives are primarily oral-aural. Covers all major elements of Portuguese grammar. Prerequisite: PORT 102.

**PORT 105 Intensive Portuguese for Spanish Speakers (6)** Covers the verbal system and major grammatical points. Does not satisfy Foreign Language Requirement. Prerequisite: SPAN 203.

**PORT 199 Foreign Study: Elementary (2-16, max. 16)** Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through PORT

**PORT 201 Intermediate (5) VLPA** Modern texts, compositions, conversation, and a systematic review of grammar. Prerequisite: either PORT 103 or PORT 105.

**PORT 202 Intermediate (5) VLPA** Modern texts, compositions, conversation, and a systematic review of grammar. Prerequisite: PORT 201.

**PORT 203 Intermediate (5) VLPA** Modern texts, compositions, conversation, and a systematic review of grammar. Prerequisite: PORT 202.

**PORT 299 Foreign Study: Intermediate (2-16, max. 16) VLPA** Intermediate instruction in approved foreign study program. Further study at 200-level subject to department evaluation.

**PORT 301 Grammar and Lexicon (3) VLPA** Prerequisite: PORT 203.

**PORT 302 Grammar and Lexicon (3) VLPA** Prerequisite: PORT 301.

**PORT 310 Introduction to Lusophone Literature (3) VLPA** Introduction to the studies of Lusophone literature and culture.

**PORT 335 Twentieth Century Brazilian Fiction in English (5, max. 10) VLPA** Reading texts in connection with cultural and theoretical issues.

## Spanish

**SPAN 101 Elementary (5)** Methods and objectives are primarily oral-aural. Language laboratory is required. Prerequisite: score of 0-15 on SP100A placement test if Spanish is language of admission. No credit if Spanish is the language of admission.

**SPAN 102 Elementary (5)** Methods and objectives are primarily oral-aural. Prerequisite:

either SPAN 101, or score of 16-44 on SP100A placement test.

**SPAN 103 Elementary (5)** Methods and objectives are primarily oral-aural. Prerequisite: either SPAN 102, SPAN 110 or score of 45-69 on SP100A placement test.

**SPAN 110 Basic Spanish Review (5)** Covers the equivalent of SPAN 101 and SPAN 102 to prepare for SPAN 103. May not be taken in addition to 101 or 102. Prerequisite: score of 10-44 on SP100A placement test. Offered: AWSp.

**SPAN 121 Spanish Immersion (5)** Covers the equivalent of elementary Spanish (SPAN 101). Uses an alternative "planned immersion" method with video as the central medium of presentation. Prerequisite: no previous Spanish study, or score of 0-15 on SP100A placement test if Spanish is language of admission.

**SPAN 122 Spanish Immersion (5)** Covers the equivalent of elementary Spanish (SPAN 102). Uses an alternative "planned immersion" method with video as the central medium of presentation. Prerequisite: SPAN 121.

**SPAN 123 Spanish Immersion (5)** Covers the equivalent of elementary Spanish (SPAN 103). Uses an alternative "planned immersion" method with video as the central medium of presentation. Prerequisite: SPAN 122.

**SPAN 134 Intensive First-Year Spanish (15)** Equivalent of 121, 122, 123. Employs "planned immersion" method with video as the central medium of presentation. Not open for credit to students who have taken 121, 122, 123 or 102, 103. Offered: S.

**SPAN 199 Foreign Study — Elementary (2-16, max. 16)** Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through 103.

**SPAN 201 Intermediate (5) VLPA** Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. Prerequisite: either SPAN 103, SPAN 123, SPAN 134, score of 70-100 on SP100A placement test, minimum score of 51 on SP TL placement test, or score of 0-75 on SP200A placement test.

**SPAN 202 Intermediate (5) VLPA** Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. Prerequisite: either SPAN 201 or score of 76-145 on SP200A placement test.

**SPAN 203 Intermediate (5) VLPA** Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. Prerequisite: either SPAN 202, SPAN 210, or score of 146-165 on SP200A placement test.

**SPAN 205 Culture of Andalusia (3) I&S/VLPA** Introduction to the culture and society of Andalusia, Southern Spain, regional vs. national identity, syncretism of Arab, Jewish, and Christian cultures, and a variety of contemporary cultural manifestations, among them Carnival, flamenco, the Alhambra, and contemporary literature and cinema. Of particular interest to students considering study abroad in Cadiz.

Prerequisite: either SPAN 202 or SPAN 210; may not be repeated for credit.

**SPAN 206 Arts and Culture of Oaxaca (3) I&S/VLPA** *Gonzalez* Introduction to the contemporary culture of Oaxaca, Mexico, particularly painting, folk arts, and Days of the Dead, in the context of recent Mexican politics and society. Prerequisite: SPAN 103, which may be taken concurrently.

**SPAN 210 Accelerated Intermediate Spanish (10) VLPA** Merges SPAN 201 and SPAN 202. Designed to build listening, speaking, reading, and writing skills and to expand knowledge of culture and literature of the Spanish-speaking world. Combines classroom experience with accelerated Web-enhanced activities provided through Spain's *Instituto Cervantes*. Prerequisite: either SPAN 103, SPAN 123, or SPAN 134.

**SPAN 227 Intermediate Conversation (2, max. 6) VLPA** Focuses on developing intermediate conversation skills ? listening and speaking ? and increasing vocabulary in varying situations. Discussions are based on contemporary Spanish films, current articles, fiction, and essays. Not open to students whose native language is Spanish. Prerequisite: either SPAN 103, SPAN 123, or SPAN 134.

**SPAN 237 Foreign Study Intermediate Conversation (2, max. 6)** For participants in approved foreign study programs. Prerequisite: either SPAN 103, SPAN 123, or SPAN 134.

**SPAN 299 Foreign Study — Intermediate (2-16, max. 16) VLPA** Intermediate instruction in approved foreign study program. Further study at 200 level subject to placement test score.

**SPAN 301 Grammar and Lexicon (5) VLPA** Prerequisite: either SPAN 203 or score of 166-175 on SP200A placement test.

**SPAN 302 Grammar and Lexicon (5) VLPA** Prerequisite: SPAN 301 or 310.

**SPAN 303 Introduction to Stylistics Through Composition (5) VLPA** Prerequisite: either SPAN 302 or SPAN 310.

**SPAN 304 Survey of Spanish Literature: 1140-1498 (3) VLPA** Masterpieces of Spanish literature from origins to 1498. Prerequisite: either SPAN 301, 310 or SPAN 314.

**SPAN 305 Survey of Spanish Literature: 1498-1681 (3) VLPA** *Gilbert* Prerequisite: either SPAN 301, 310 or SPAN 314.

**SPAN 306 Survey of Spanish Literature: 1681 to the Present (3) VLPA** *Boehm, Mercer* Prerequisite: either SPAN 301, 310 or SPAN 314.

**SPAN 307 Introduction to Latin American Literature: Colonial Era through Early Independence (3/5) VLPA** *Donnelly* Study of selected works from the sixteenth through the nineteenth century, with special emphasis on their historical and cultural relevance. Development of reading and writing skills. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314.

**SPAN 308 Introduction to Latin American Literature: Independence to the Present (3) VLPA** Study of selected works of twentieth-century Latin American literature and their sociohistorical context. Development of reading and writing skills. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314.

**SPAN 310 Accelerated Intermediate-Advanced Grammar and Lexicon (10) VLPA** *Gonzalez* Intensive Web-enhanced grammar and writing, combining SPAN 301 and SPAN 302. Designed to develop skills at the intermediate-advanced level in areas of listening, speaking, reading, and writing. Prerequisite: SPAN 203.

**SPAN 311 Spanish for Reading Knowledge I (5) Bensadon** Intended primarily for graduate students. Emphasis on developing reading comprehension of Spanish texts which are pertinent to graduate student's field of research. Credit may not be applied toward Spanish major.

**SPAN 312 Spanish for Reading Knowledge II (5) VLPA Bensadon** Intended primarily for graduate students. Emphasizes developing reading comprehension of Spanish texts which are pertinent to graduate student's field of research. Credit may not be applied toward Spanish major. Prerequisite: SPAN 311.

**SPAN 313 Business Communication in Spanish (5) VLPA Bensadon** This intermediate level course offers student the opportunity develop their Spanish language skills (reading, writing, speaking, and listening) within the context of the Spanish-speaking business world. Business-specific culture emphasized. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314, any of which may be taken concurrently.

**SPAN 314 Spanish for Bilingual/Heritage Students (5) VLPA Gillman** Provides bilingual students whose formal education has primarily been in English with the skills necessary to succeed in upper-division Spanish classes. Intensive review of grammar, readings of literary and journalistic texts, Web-based exercises, writing review, and a play to enhance their verbal skills. Offered: AW.

**SPAN 315 Spanish for Bilingual/Heritage Students (5) VLPA Gillman** Emphasizes reading, with attention to problems particular to Spanish-heritage students. Emphasis on critical reading, vocabulary expansion, and grammar review. Prerequisite: SPAN 314. Offered: WSp.

**SPAN 316 Stylistics and Composition for Heritage Students (5) VLPA Bensadon** Emphasis on the process of writing essays to help students develop a notion of style in Spanish, with attention to problems particular to Spanish heritage students. Prerequisite: SPAN 315 Offered: ASp.

**SPAN 317 Spanish and Latin American Literature in English Translation (5, max. 10) VLPA** Spanish and Latin American literature in English translation, with consideration of their background and influence. Does not fulfill any major or minor requirement.

**SPAN 318 Cervantes' Don Quixote in English (5) VLPA Gilbert** Cervantes's *Don Quixote de la Mancha*: close study of this comic masterpiece, and the life, times, and works of its author. Consideration of the work's enduring influence and vitality. Does not fulfill any major or minor requirement.

**SPAN 319 Mexican Literature (3) VLPA** Analysis of selected works of Mexican literature from the second half of the twentieth century: short stories, poetry, essay, and theatre. Focus on issues such as nationalism and national identity, gender, ethnicity, dependent development, and globalization. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314.

**SPAN 321 Introduction to Hispanic Literary Studies (5) VLPA Geist** Acquaints the third-year student with elementary techniques of literary analysis, as applied to examples of narrative, poetry and theater, within the context of the Spanish and Latin American literary traditions. Prerequisite: SPAN 301, SPAN 310, or SPAN 314, any of which may be taken concurrently. Offered: A.

**SPAN 322 Introduction to Hispanic Cultural Studies (5) I&S/VLPA Mercer** Introduces students to elite, mass, and folk cultures of Latin America, Spain, and Latinos in the United States. Sample topics include transculturation, globalization, border culture, and relations between culture, democratization, and human rights. Prerequisite: SPAN 301, SPAN 310, or SPAN 314, any of which may be taken concurrently. Offered: W.

**SPAN 323 Introduction to Spanish Linguistics (5) VLPA** Synchronic and diachronic linguistic analysis of Spanish, including Spanish phonetics and phonology, morphology, syntax, and evolution of the language. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314, any of which may be taken concurrently. Offered: SpS.

**SPAN 327 Advanced Conversation (2-6, max. 6) VLPA** Focuses on developing advanced conversational skills ? listening and speaking ? to fluency and increasing vocabulary in varying situations. Discussions are based on contemporary Spanish films, current articles, fiction, and essays. Does not fulfill any major or minor requirement. Not open to students whose native language is Spanish. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314, any of which may be taken concurrently.

**SPAN 328 Spanish Cultural Studies (5) I&S/VLPA** Study abroad courses focussing on historical, social, and ideological aspects of modern Spanish culture. Lectures, readings, discussions, and written work in Spanish. For pre-approved study abroad courses only. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314.

**SPAN 329 Latin American Cultural Studies (5) I&S/VLPA** Study abroad courses focussing on historical, social, and ideological aspects of modern Latin American culture. Lectures, readings, discussions, and written work in Spanish. For pre-approved study abroad courses only. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314.

**SPAN 330 Composition and Literary / Cultural Analysis (5) VLPA** Includes writing of critical essays, practicing critical reading, developing promising thesis statements, and training in research methods. Emphasizes critiquing fellow students' work as collaborative activities. Prerequisite: either SPAN 302, SPAN 310 or SPAN 315.

**SPAN 331 Themes in Mexican-American Studies (5) I&S/VLPA** Examination of significant historical and cultural themes of the Mexican-American experience. Prerequisite: SPAN 301, SPAN 310, or SPAN 314, any of which may be taken concurrently.

**SPAN 332 Chicano Film and Narrative (5) I&S/VLPA Flores** Historical overview of the evolution of Chicano culture through film. Critical examination of the portrayal and self-portrayal of Chicanos in film and selected works of

narrative. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314, any of which may be taken concurrently.

**SPAN 333 Hispanic Film Studies (5) I&S/VLPA Mercer** Introduction to major issues in the study of Hispanic cinema from various national contexts. The relationship of film to other types of narrative, and of film to society, specifically relations between class, gender, ethnicity, and artistic production, as well as between cinema and social change. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314, any of which may be taken concurrently.

**SPAN 334 Latin American Film (5) I&S/VLPA** Overview of the history of Latin American cinema, including the new Latin American cinema of the 1960s; the development of strong film industries in Mexico, Cuba, and Brazil; and recent developments in the context of globalization and democratization. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314, any of which may be taken concurrently.

**SPAN 337 Foreign Study Advanced Conversation (2-6, max. 6) VLPA** For participants in foreign study program. Does not fulfill any major or minor requirement. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314, any of which may be taken concurrently.

**SPAN 339 Women Writers (3) VLPA Boehm** Critical analysis of Chicana/Latina writers in the United States; or by Spanish-American, Luso-Brazilian, and Spanish women writers in their specific socio-historical context. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314.

**SPAN 340 Introduction to Latin American Poetry (3) VLPA** Traces the oral, musical, and written traditions of Latin American poetry. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314.

**SPAN 350 Drama (3) VLPA Gilbert** Generic study of Spanish drama. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314.

**SPAN 351 Poetry (3) VLPA O'f Hara** Generic study of Spanish poetry. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314.

**SPAN 352 Fiction (3) VLPA Petersen** Generic study of Spanish fiction. Prerequisite: SPAN 301, SPAN 310, or SPAN 314.

**SPAN 360 Contemporary Spain (5) I&S/VLPA Raneda** Social, political, and cultural developments in Spain since the end of the Franco dictatorship in 1975. Extensive use of Spanish Web sites. Prerequisite: either SPAN 302, SPAN 310 or SPAN 315, any of which may be taken concurrently. Offered: jointly with EURO 360.

**SPAN 390 Supervised Study (2-6, max. 20) .**

**SPAN 392 Experiential Learning in Spanish (1, max. 3) I&S** Experiential learning project in the local Spanish-speaking community. Engages students in ways that supplement/enhance formal in-class language training. Prerequisite: SPAN 203.

**SPAN 393 Foreign Study (2-10, max. 20) VLPA** Study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. Prerequisite: either SPAN 301, SPAN 310 or SPAN 314, any of which may be taken concurrently.

**SPAN 400 The Syntactic Structure of Spanish (5) VLPA Zagona** Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, 201, 203, LING 400, or SPAN 323. Offered: jointly with SPLING 400.

**SPAN 401 The Morphological Structure of Spanish (5) VLPA Zagona** Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, 201, 203, LING 400, or SPAN 323. Offered: jointly with SPLING 401.

**SPAN 402 The Phonological Structure of Spanish (5) VLPA Zagona** Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, 201, 203, LING 400, or SPAN 323. Offered: jointly with SPLING 402.

**SPAN 403 The Evolution of the Spanish Language (5) VLPA Basdeo, Zagona** Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, 201, 203, LING 400, or SPAN 323. Offered: jointly with SPLING 403.

**SPAN 404 Dialects of World Spanish (5) VLPA Fernandez** Introduction to dialectal variants of Spanish. Considers standardization and the real academia; variation and change; pragmatics and politeness; Spanish in contact; sound, word formation, and grammar variation. Taught in Spanish. Prerequisite: either SPAN 301 or SPAN 314; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPLING 404.

**SPAN 405 Spanish Phonetics (5) VLPA** Analysis of sounds: training in pronunciation, intonation, and close transcription of Spanish language in its modalities. Prerequisite: either SPAN 301 or SPAN 314; either ANTH 203, LING 200, 201, 203, LING 400, or SPAN 323. Offered: jointly with SPLING 405.

**SPAN 406 Advanced Spanish Grammar (5) VLPA Basdeo, Diaz** Problems of Spanish grammar. Differences from English grammar. Techniques for the effective teaching of Spanish. Prerequisite: either SPAN 303, SPAN 316 or 330; SPAN 323. Offered: jointly with SPLING 406; AWSp.

**SPAN 408 Spanish Translation Workshop (5) VLPA** Intensive practice in translation to and from Spanish. Texts include literary prose, poetry, expository writing, newspaper and magazine articles. Problems of standard versus colloquial language, transposition of cultural references, concept of fidelity in translation. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 323; recommended: SPAN 406.

**SPAN 410 Creative Writing in Spanish (5) I&S O'Hara** Creative writing in poetry for students undertaking fourth year advanced coursework in Spanish literature. . Prerequisite: either SPAN

303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional literature course above SPAN 303.

**SPAN 414 Spanish Literature: Eighteenth Century (5) VLPA Mercer** Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 415 Spanish Literature: Nineteenth Century (5) VLPA Mercer** Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 416 Spanish Literature: 1900 to the Present (5) VLPA Geist, Mercer** Spanish literature of the twentieth century prior to the Civil War to the present. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 420 Spanish Poetry: Origins Through the Fifteenth Century (5) VLPA Petersen** Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 423 Spanish Poetry: The Golden Age, Sixteenth Through Seventeenth Centuries (5) VLPA Gilbert** Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 424 Hispanic Poetry: 1870 - 1936 (5) VLPA Geist** Modern lyric poetry of the Hispanic world. The period studied extends from 1870 to 1936 and deals with thirteen major poets, from Becquer to Hernandez. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 433 Golden Age Prose (5) VLPA Gilbert** Representative, and outstanding, prose works of sixteenth- and seventeenth-century Spain. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 436 Spanish Novel of the Nineteenth Century (5) VLPA Mercer** Representative works of Galdos, Clarin, Pereda, Valera, and Blasco Ibanez. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 438 Spanish Novel: 1900 - Present (5) VLPA Geist** Spanish novel from the generation of 1898 to the present. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 439 Women Writers (5) I&S/VLPA Boehm** Feminist analysis of selected texts by Chicana/Latina writers in the United States as well as by Spanish-American, Luso-Brazilian and/or Spanish women writers in their specific socio-historical contexts. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 440 Spanish Drama: 1150-1600 (5) VLPA Gilbert** From the beginning to Lope de Vega. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 441 Spanish Drama: 1600-1635 (5) VLPA Gilbert** Spanish theatre of the seventeenth century, with emphasis on Lope de Vega. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 442 Latin American Colonial Theatre and Performance (5) VLPA Donnelly** Study of formal Spanish American theatre, performance, and theatricalization of power in political, religious, and social life. Emphasizing how indigenous and European forms combined to create unique forms of spectacle in the Americas. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 445 The Modern Theatre in Spain, 1700-1900 (5) VLPA Mercer** Literature and historical context of Spain's theatre in the eighteenth and nineteenth centuries. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 446 Modern Spanish Theatre: 1900 to Present (5) VLPA Mercer** Examines works of Spain's major dramatists since 1900 and their relationship to Spain's changing social and political context. . Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 449 Spanish Drama and Play Production (5, max. 10) VLPA Gilbert** Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 453 Cervantes and His Times (5) VLPA Gilbert** Study of Cervantes and his moment in Spanish history, with special attention to his cultural and artistic environment. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course above SPAN 303.

**SPAN 461 Topics in Latin American Cultural Studies (5, max. 10) VLPA Donnelly, O'Hara** Examines Latin American society and its cultural production. Major movements in the development of Latin American society and intellectual life as reflected in music, the visual arts, literature, etc. Specific topics vary. Prerequisite: either SPAN 303, SPAN 316, SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 462 Topics in Spanish Cultural Studies (5, max. 10) I&S/VLPA Gilbert, Petersen** Examines Spanish society and its cultural production. Major movements in the development of Spanish society and intellectual life as reflected in music, the visual arts, literature, etc. Specific topics vary. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 464 Chicana Expressive Culture (5) I&S/VLPA** Expressive culture of Mexican women in United States. Cultural and artistic practices in home, film, literary (print, oral) performing and visual arts. Focuses on ways Chicana visual artists re-vision traditional iconography. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 465 Contemporary Chicano Literature (5) VLPA Flores** Examination of one or more problems, themes, and/or figures in the developing body of Chicano literature. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 466 Chicano Literature: Fiction (5) VLPA Flores** Nineteenth- and early twentieth-century fiction, as well as contemporary works, are examined in attempts to trace the development of Chicano fiction in the proper historical trajectory. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 467 Spanish Women (5) I&S/VLPA** Women's culture in Spain, focusing on women's experience during Civil War; persecution and censorship of women activists, artists, intellectuals during Franco years; changes in women's culture brought about by reintroduction of democracy; major issues addressed by contemporary Spanish feminists. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 468 Latin American Women (5) I&S/VLPA Donnelly** The elaboration of discourses of identity in relation to gender, ethnicity, social class, and nationality, by women writers from South America, Mexico, Central America, and the Caribbean. Testimonial literature, literature and resistance, women's experimental fiction. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; one additional 300-level course above SPAN 303. Offered: jointly with WOMEN 468.

**SPAN 472 Colonial Prose (5) VLPA Donnelly** Study of major genres of prose writing in Spanish America during the 16<sup>th</sup>-18<sup>th</sup> centuries, including history writing, travel writing, historiography, and nascent forms of fictional writing. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 473 Latin American Fiction: Nineteenth Century (5, max. 15) VLPA Donnelly** Study of prose fiction in Latin America in the nineteenth century. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 474 Latin American Fiction: Twentieth Century (5) VLPA O'f Hara** Study of prose fiction in Latin America in the twentieth century. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 475 Latin American Poetry: Colonial Through Nineteenth Century (5) VLPA Donnelly** Poetic movements of the seventeenth, eighteenth, and nineteenth centuries in Spanish American, Renaissance, baroque, neoclassicism, romanticism, and modernism. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN

322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 476 Contemporary Latin American Poetry (5) VLPA O'f Hara** Evolution of Latin American poetry, from postmodernism and vanguardism to the most recent poetic expression. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 477 Latin American Essay (5) VLPA O'f Hara** Literary expression of ideas in Latin American countries, nineteenth and twentieth centuries. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 478 Modern Latin American Theater (5) VLPA** Study of the origin, development, and achievements of Latin American theater with an overview of its history prior to the twentieth century. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 479 The City and Latin American Literature: Points of Departure (5) VLPA/I&S O'Hara** Representations of Latin American, United States, and European cities by Latin American authors, and of Latin American and Latino cities by authors from other literary traditions. The literary relation of urbanization to modernization, globalization, exile, and alienation. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 480 Spanish Medieval Literature (5) VLPA Petersen** Principal literary works of the Spanish Middle Ages in the context of evolving intellectual, spiritual, and artistic climates of the period. Covers the evolution of narrative and lyric prose and verse in both their traditional and learned manifestations. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 481 Sixteenth- and Seventeenth-Century Spanish Literature (5) VLPA Gilbert** Spanish literature of the sixteenth and seventeenth centuries. Close study of key texts from all genres as well as their socio-historical contexts. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 482 Eighteenth- through Twentieth-Century Spanish Literature (5) VLPA Mercer** Survey of Spanish literature since 1700, and its historical context. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 483 Latin American Literature: Origins to Independence (5) VLPA Donnelly** The elaboration of discourses of legitimization by the Spanish conquistadores, and of resistance and accommodation by native and mestizo peoples; the development of a New World Baroque aesthetic; literatures of independence from Spain and of nation-building. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 484 Latin American Literature: Modernism to the Present (5) VLPA O'f Hara** Principal literary movements of Latin America, late nineteenth century to the present, with particular emphasis on poetry and narrative: modernismo, postmodernismo, the vanguard, nueva and novísima narrativa. Includes essays and autobiographical writings to help place the literary works in socio-historical perspective. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 486 Photography and Cultural Studies in Latin America (5) I&S/VLPA** Interdisciplinary exploration of the connections between visual anthropology (ethnography through photography and film), documentary and art photography, and colonial and post-colonial discourse in Latin America during the twentieth century. Prerequisite: either SPAN 303 or SPAN 316; SPAN 322; one additional 300-level course beyond 303. Offered: jointly with SISLA 486.

**SPAN 487 Mexican Cinema (5) I&S/VLPA Steele** Analysis of representative films about post-revolutionary Mexico by directors from both the Golden Age of Mexican Cinema (1940-1960) and the Mexican New Film movement (1975-the present). Revolutionary nationalism, modernization and its discontents; construction of gender, class and ethnicity; migration and globalization. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level course beyond SPAN 303.

**SPAN 488 The Fantastic in Latin American Literature (5) VLPA O'Hara** Introduction to the Fantastic in literature, in contrast to realism, and how the concept has been adapted by Latin American authors. May focus on a particular writer: Augusto Monterroso (Guatemala) or Julio Cortazar (Argentina), or survey various authors. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 489 The Mexico-U.S. Border in Literature and Film (5) I&S/VLPA Doremus, Steele** Analysis of the Mexico-U.S. Border region in literature and film of the 1990s and early 2000s. Includes migration, tourism, NGOs, globalization, transnational commerce, multiculturalism, and politics of gender, sexuality and race. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 321 or SPAN 322; one additional 300-level course above SPAN 303. Offered: jointly with SISLA 489.

**SPAN 490 Honors Seminar (2-5, max. 10) VLPA** Special studies in Spanish literature. Required of candidates for Honors and Distinction in Spanish.

**SPAN 491 Individual Authors and Special Topics in Spanish Literature (5, max. 10)**

**VLPA** Focus on an individual Spanish author or a special problem in Spanish literature. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, or SPAN 376.

**SPAN 492 Individual Authors and Special Topics in Latin American Literature (5, max. 10)**

**VLPA** Focuses on an individual Latin American author or a special problem in Latin American literature. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; one additional 300-level literature course.

**SPAN 493 Foreign Study (2-10, max. 20)**

**VLPA** Advanced study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; one additional 300-level course above SPAN 303.

**SPAN 495 Study in Spain (2-10, max. 20)**

**VLPA** Advanced study in Spain in approved foreign study programs. Prerequisite: either SPAN 303, SPAN 316, SPAN 330; one additional course above SPAN 303.

**SPAN 499 Special Topics (1-5, max. 10)** Topics to meet special needs.

**SPAN 510 Methodology of Spanish Language Teaching (5)**

*Fernandez* Theoretical and practical foundations of current trends in second/foreign language teaching. Emphasis on communicative and task-based approaches to Spanish language teaching. Required for beginning Spanish Teaching Assistants. Credit/no credit only.

**SPAN 521 The Renaissance in Spain (5)**

*Gilbert* Literary creation and the cultural, social, historical context of Spanish literature from La Celestina through the sixteenth century. Extensive study of secondary materials, intensive analysis of representative literary texts.

**SPAN 522 The Renaissance in Spain (5)**

*Gilbert* Literary creation and the cultural, social, historical context of Spanish literature from La Celestina through the sixteenth century. Extensive study of secondary materials, intensive analysis of representative literary texts.

**SPAN 541 History of the Spanish Language (5)**

*Fernandez* Summary of the evolution of Spanish language from the fragmentation of Peninsular Romance to Cantar de Mio Cid. The main work consists of analysis of early Castilian texts.

**SPAN 542 History of the Spanish Language (5)**

*Fernandez* Summary of the evolution of Spanish language from the fragmentation of Peninsular Romance to Cantar de Mio Cid. The main work consists of analysis of early Castilian texts.

**SPAN 561 Spanish-American Novel From 1940 to the Present (5)**

**SPAN 571 The Modern Essay in Spanish America (5)**

**SPAN 572 Twentieth-Century Spanish Poetry (5, max. 10)**

**SPAN 573 Twentieth-Century Spanish-American Poetry (5, max. 10)**

**SPAN 575 Literary Criticism (5)**

**SPAN 577 Contemporary Literary Theory (5)**

Introduction to various structuralist and poststructuralist theories of literary analysis, including those developed by Hispanic theorists, and their application to the study of texts from the Spanish and Latin American traditions.

**SPAN 590 Special Seminar and Conference (1-10, max. 30)**

Group seminars, or individual conferences, are scheduled under this number to meet special needs. Prerequisite: permission of the graduate program coordinator.

**SPAN 591 Literary Problems: Middle Ages (5, max. 10)**

**SPAN 592 Literary Problems: Renaissance (5, max. 10)**

**SPAN 593 Literary Problems: Golden Age (5, max. 10)**

**SPAN 594 Literary Problems: Eighteenth Century (5, max. 10)**

**SPAN 595 Literary Problems: Nineteenth Century (5, max. 10)**

**SPAN 596 Literary Problems: Twentieth Century (5, max. 10)**

**SPAN 597 Literary Problems: Spanish-American Colonial Literature (5, max. 10)**

**SPAN 598 Literary Problems: Latin America (5, max. 10)**

**SPAN 600 Independent Study or Research (\*)**

**SPAN 700 Master's Thesis (\*)** Credit/no credit only.

**SPAN 800 Doctoral Dissertation (\*)** Credit/no credit only.

## Scandinavian Studies

### Scandinavian

**SCAND 100 Introduction to Scandinavian Culture (5)**

*I&S/VLPA* The Scandinavian experience from the Viking Age to the present day; the background for contemporary Scandinavian democracy, with major emphasis on the cultural, political, and religious development of the Scandinavian countries.

**SCAND 150 Norwegian Literary and Cultural History (5)**

*VLPA* A survey of Norwegian literary and cultural history from the Vikings to the present. Authors read include Bjornson, Ibsen, Hamsun, and Ro'lvaag.

**SCAND 151 Finnish Literary and Cultural History (5)**

*VLPA* A survey of Finnish literature and cultural history during the 19th and 20th centuries. Authors studied include Lonnot, Snellmann, Kivi, Sodergran, Linna, Haavikko, and Kaurismaki.

**SCAND 152 Latvian Literary and Cultural History (5)**

*VLPA* *Grinberga* Survey of Latvian literary and cultural history from the nineteenth-

century to the present. Authors include Pumpurs, Rainis, Aspazija, Blaumanis, Nesaule, Bels, and Zalite.

**SCAND 190 Crime Scenes: Investigating the Cinema and Its Cultures (5)**

*VLPA* *Ames, Nestingen* Teaches students how to analyze film by closely studying crime scenes from historical and contemporary German and Scandinavian cinema. Directors studied include Fritz Lang, Carl Th. Dreyer, Billy Wilder, and Lars von Trier. Offered jointly with GERMAN 190.

**SCAND 200 Contemporary Scandinavian Society (5)**

*I&S* Examines the distinctive policies, institutions, and social norms of contemporary Scandinavian societies. Topics include: Nordic geography, the development of a "middle way" between capitalism and socialism, universal social policies, Scandinavia in the international system, and contemporary challenges to Scandinavian societies. Recommended: SCAND 100.

**SCAND 230 Introduction to Folklore Studies (5)**

*I&S/VLPA* Comprehensive overview of the field of folkloristics, focusing on verbal genres, customs, belief, and material culture. Particular attention to the issues of community, identity, and ethnicity. Offered: jointly with C LIT 230.

**SCAND 232 Hans Christian Andersen and the Fairy Tale Tradition (5)**

*VLPA* Influence of Hans Christian Andersen and the fairy tale on modern Scandinavian tales and stories. Investigates the significance of the fairy tale in modern world, with attentions to writers such as Isak Dinesen, Knut Hamsun, Villy Sorensen, William Heinesen.

**SCAND 251 Holberg and His Comedies in English (2)**

*VLPA* Holberg and his major dramas, with attention to the comic tradition in the Scandinavian theatre.

**SCAND 270 Sagas of the Vikings (5)**

*VLPA* Icelandic sagas and poetry about Vikings in the context of thirteenth-century society.

**SCAND 280 Ibsen and His Major Plays in English (5)**

*VLPA* Reading and discussion of Ibsen's major plays.

**SCAND 312 Masterpieces of Scandinavian Literature (5)**

*VLPA* Major works of Scandinavian literature by selected authors.

**SCAND 326 Scandinavia in World Affairs (5)**

*I&S* Introduction to the foreign relations of Scandinavia with a focus on Nordic security, international economic pressures, and global conflict resolution. Includes a survey of the national settings for international involvements and highlights the dilemmas for industrial societies exposed to the pressures of interdependence. Offered: jointly with POL S 326.

**SCAND 327 Women in Scandinavian Society (5)**

*I&S/VLPA* Examines the changing position of women in Norway, Denmark, Finland, and Sweden from the 1880s to the contemporary period. Readings in literature and political science.

**SCAND 330 Scandinavian Mythology (5)**

*VLPA* Integrative study of religious life in the pre-Christian North. Emphasis on source materials, including the *Prose Edda* and *Poetic Edda*. Discussion of historical, archeological, and folkloric evidence.

**SCAND 331 Folk Narrative (5) VLPA** Survey of various genres of folk narratives studied in performance contexts to reveal their socio-cultural functions in a variety of milieus. Theory and history of folk narrative study, taxonomy, genre classification, and interpretative approaches. Recommended: SCAND 230 or C LIT 230. Offered: jointly with C LIT 331.

**SCAND 334 Immigrant and Ethnic Folklore (5) I&S/VLPA** Survey of verbal, customary, and material folk traditions in ethnic context. Theories of ethnic folklore research applied to the traditions of American communities of Scandinavian, Baltic, or other European ancestry. Recommended: SCAND 230 or C LIT 230. Offered: jointly with C LIT 334.

**SCAND 335 Scandinavian Children's Literature (5) VLPA** The history, forms, and themes of Scandinavian children's literature from H. C. Andersen to the present. Exploration of the dominant concerns of authors, adult and non-adult audiences, and the uses to which juvenile and adolescent literature are put. Film adaptations and Scandinavian-American materials included.

**SCAND 340 Kalevala and the Epic Tradition (5) VLPA** An interdisciplinary approach to the Finnish national epic *Kalevala*, Estonian *Kalevipoeg*, and Saami *Peivebarnen suongah jehšanasan maajisn*. Discussion of traditional worldview, cultural revitalization, and emergent nationalism in nineteenth- and twentieth-century Finland, Estonia, and Saamiland.

**SCAND 341 Sami Culture and History (5) I&S/VLPA** An interdisciplinary look at the culture of Sami (Lapp) people in Scandinavia from the earliest archeological and textual evidence to the present day. Focus on indigenous modes of expression and worldview, as well as contemporary cultural and political activism.

**SCAND 344 The Baltic States and Scandinavia (5) I&S** Survey of the cultures and history of Estonia, Latvia, and Lithuania from the Viking Age to the present, with particular attention to Baltic-Scandinavian contacts. Offered: jointly with EURO 344.

**SCAND 345 Baltic Cultures (5) I&S/VLPA** Cultures and peoples of Estonia, Latvia, and Lithuania. Baltic literature, music, art, and film in social and historical context. Traditional contacts with Scandinavia and Central and East Europe. Offered: jointly with EURO 345.

**SCAND 350 Environmental Norms in International Politics (5) I&S** Surveys development of international environmental consciousness from 1960s to present. Models of "green development"; ways in which norms for resource use have entered global politics. Patterns of state compliance with international environmental agreements, and why states fall short of meeting their international obligations. Offered: jointly with ENVIR 360/SIS 350.

**SCAND 351 Scandinavia, the European Union, and Global Climate Change (5) VLPA/I&S** Reviews the history of climate change, the role of Swedish scientist Svante Arrhenius in defining greenhouse effects, Scandinavian policy response, and the role of the European Union in global climate change. Offered: jointly with EURO 351; WSp.

**SCAND 360 Scandinavian Cinema (3/5) VLPA** Major Scandinavian films and film directors from the 1920s to the present.

**SCAND 367 Sexuality in Scandinavia: Myth and Reality (5) I&S/VLPA** Examines selected Scandinavian literary and socio-political texts, films, and art to manifest the reality behind the myths of sexual freedom in Scandinavia.

**SCAND 370 The Vikings (5) I&S/VLPA** Vikings at home in Scandinavia and abroad, with particular emphasis on their activities as revealed in archaeological finds and in historical and literary sources. Offered: jointly with HSTAM 370.

**SCAND 380 History of Scandinavia to 1720 (5) I&S** Scandinavian history from the Viking Age to 1720, with an emphasis on the political, social, and economic development of Denmark, Norway, Sweden, Finland, and Iceland from the Middle Ages to the Enlightenment. Offered: jointly with HSTEU 380.

**SCAND 381 History of Scandinavia Since 1720 (5) I&S** Scandinavian history from the Enlightenment to the Welfare State with emphasis on the political, social, and economic development of the modern Scandinavian nations of Denmark, Norway, Sweden, Finland, and Iceland. Offered: jointly with HSTEU 381.

**SCAND 399 Foreign Study in Scandinavia (1-5, max. 20)** Pan-Scandinavian coursework in Scandinavia, including courses in English.

**SCAND 402 International Political Economy and Scandinavia (5) I&S** Overview of the most prominent theoretical approaches to the study of international political economy. Evaluates competing theories and applies these to explain contemporary problems in International Political Economy. Readings include examples from Scandinavia's experience.

**SCAND 403 Scandinavian Immigration in History and Literature (5) VLPA/I&S** History and literature of Scandinavian immigration to North America, including immigrant life and culture, community structures and traditions, and the literature about and by immigrants from Denmark, Finland, Iceland, Norway, and Sweden. Offered: jointly with HIST 403.

**SCAND 427 Scandinavian Women Writers in English Translation (5) VLPA** Selected works by major Scandinavian women writers from mid-nineteenth-century bourgeois realism to the present with focus on feminist issues in literary criticism. Offered: jointly with WOMEN 429.

**SCAND 430 Readings in Folklore (5) VLPA** Exploration of theoretical and methodological issues in folklore studies through independent reading of journal articles published during the last five years. Recommended: SCAND 230 or C LIT 230. Offered: jointly with C LIT 430.

**SCAND 431 The Northern European Ballad (5) VLPA** Integrative study of the Northern European Ballad, with an emphasis on texts, performance, context, history, theory, genre classification, and interpretive approaches. Offered: jointly with C LIT 431.

**SCAND 437 Politics in Scandinavia (5) I&S** Twentieth-century politics in Scandinavia. How Scandinavian countries have been governed. Costs and consequences of their governmental style and its uncertain future. Optimal size of polities, problems of mature welfare states, process of leadership and representation in multiparty systems, decline of political parties. Offered: jointly with POL S 437.

**SCAND 445 War and Occupation in Northern Europe: History, Fiction, and Memoir (5)** The study of literary representations (fiction, memoirs, and personal narratives) dealing with World War II and the occupation of the Nordic and Baltic countries. Offered: jointly with EURO 445.

**SCAND 450 Scandinavian Literary History (3) VLPA** Survey of Scandinavian literary history. Recommended: DANISH 203, FINN 203, NORW 203, or SWED 203.

**SCAND 454 Baltic History (5) I&S** Overview of the history of the area occupied by the Baltic countries of Latvia, Lithuania, and Estonia. Emphasizes their emergence as modern European nation-states. Era from World War I to present treated in depth, including the historical role and present situation of non-Baltic peoples, particularly Russians. Offered: jointly with HSTEU 454.

**SCAND 455 Baltic States Since 1991 (5) I&S** Intensive interdisciplinary survey of social, political and economic developments in Estonia, Latvia, and Lithuania since 1991. Offered: jointly with SISRE 465.

**SCAND 460 History of the Scandinavian Languages (5) VLPA** Development of languages from common Scandinavian to contemporary Danish, Norwegian, Swedish, Faroese, and Icelandic. Recommended: DANISH 203, FINN 203, NORW 203, or SWED 203.

**SCAND 462 Isak Dinesen and Karen Blixen (5) VLPA** The fiction of Isak Dinesen (pseudonym for Karen Blixen) reevaluated in light of current issues in literary criticism, particularly feminist criticism. Close readings of selected tales, essays, and criticism. Offered: jointly with WOMEN 462.

**SCAND 480 Kierkegaard and Decadence in European Literature (5) VLPA** Reading and discussion of core texts by Soren Kierkegaard, as well as a consideration of the relationship between Kierkegaardian thought and the literary practice of various writers of Scandinavian and European decadence. Offered: jointly with EURO 480.

**DANISH 395 Foreign Study: Danish Area Studies (1-5, max. 10) I&S** Courses in Danish history, society, and/or politics.

**DANISH 399 Foreign Study: Topics in Danish Literature and Culture (1-5, max. 15) VLPA** Topics in Danish literature, life, and civilization.

**DANISH 490 Supervised Reading (1-5, max. 10)** Readings in a selected area of Danish language, literature, or related fields.

## Estonian

**ESTO 101 Elementary Estonian (5)** Fundamentals of oral and written Estonian.

**ESTO 102 Elementary Estonian (5)** Fundamentals of oral and written Estonian.

**ESTO 103 Elementary Estonian (5)** Fundamentals of oral and written Estonian.

**ESTO 150 Intensive Estonian (15)** Fundamentals of oral and written Estonian. Intensive practice in speaking, reading, and writing Estonian. Interactive classroom, computer-assisted learning, language, and reading laboratories. Emphasis on contemporary Estonian culture and society. If Estonian is the student's language of admission, only 10 credits count towards graduation.

**ESTO 201 Second-Year Estonian (5) VLPA** Intensive practice in speaking, reading and writing. Functional review of grammar. Recommended: ESTO 103.

**ESTO 202 Second-Year Estonian (5) VLPA** Intensive practice in speaking, reading and writing. Functional review of grammar. Recommended: ESTO 103.

**ESTO 203 Second-Year Estonian (5) VLPA** Intensive practice in speaking, reading and writing. Functional review of grammar. Recommended: ESTO 103.

**ESTO 250 Intensive Intermediate Estonian (15) VLPA** Accelerated second-year Estonian. Systematic review of Estonian grammar.

Intensive practice in conversation, reading, and writing. Recommended: ESTO 103 or ESTO 150. Offered: S.

**ESTO 490 Supervised Reading (1-5, max. 10)** Readings in a selected area of Estonian language, culture, or society.

## Finnish

**FINN 101 Elementary Finnish (5)** Fundamentals of oral and written Finnish.

**FINN 102 Elementary Finnish (5)** Fundamentals of oral and written Finnish.

**FINN 103 Elementary Finnish (5)** Fundamentals of oral and written Finnish.

**FINN 150 Intensive First-Year Finnish (15)** Fundamentals of oral and written Finnish. Intensive practice in speaking, reading, and writing. Interactive classroom, computer-assisted learning, and language and reading laboratories. Emphasis on contemporary Finnish culture and society. If Finnish is the student's language of admission, only 10 credits count towards graduation.

**FINN 199 Foreign Study: Elementary Finnish (1-15, max. 15)** Fundamentals of oral and written Finnish.

**FINN 201 Second-Year Finnish (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: FINN 103.

**FINN 202 Second-Year Finnish (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: FINN 103.

**FINN 203 Second-Year Finnish (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: FINN 103.

**FINN 299 Foreign Study: Intermediate Finnish (1-15, max. 15) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Discussion of culture and current events in Finland.

**FINN 310 Topics in Finnish Language and Culture (5, max. 15) VLPA** Topics related to Finnish literature, life, and civilization. Recommended: FINN 203.

**FINN 395 Foreign Study: Finnish Area Studies (1-5, max. 10) I&S** Courses in Finnish history, society, and/or politics.

**FINN 399 Foreign Study: Topics in Finnish Literature and Culture (1-5, max. 15) VLPA** Topics in Finnish literature, life, and civilization.

**FINN 490 Supervised Reading (1-5, max. 10)** Readings in a selected area of Finnish language, culture, or society.

## Latvian

**LATV 101 Elementary Latvian (5)** Fundamentals of oral and written Latvian.

**LATV 102 Elementary Latvian (5)** Fundamentals of oral and written Latvian.

**LATV 103 Elementary Latvian (5)** Fundamentals of oral and written Latvian.

**LATV 150 Intensive Latvian (15)** Fundamentals of oral and written Latvian. Intensive practice in speaking, reading, and writing Latvian. Interactive classroom, computer-assisted learning, language, and reading laboratories. Emphasis on contemporary Latvian culture and society. If Latvian is the student's language of admission, only 10 credits count towards graduation.

**LATV 201 Second-Year Latvian (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: LATV 103.

**LATV 202 Second-Year Latvian (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: LATV 103.

**LATV 203 Second-Year Latvian (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: LATV 103.

**LATV 250 Intensive Intermediate Estonian (15) VLPA** Accelerated second-year Latvian. Systematic review of Latvian grammar. Intensive practice in conversation, reading, and writing. Recommended: LATV 103 or LATV 150. Offered: S.

**LATV 310 Topics in Latvian Literature (5, max. 15) VLPA** Topics in Latvian literature, life, and civilization. Recommended: LATV 203.

**LATV 490 Supervised Reading (1-5, max. 10)** Readings in a selected area of Latvian language, culture, or society.

## Lithuanian

**LITH 101 Elementary Lithuanian (5)** Fundamentals of oral and written Lithuanian.

**LITH 102 Elementary Lithuanian (5)** Fundamentals of oral and written Lithuanian.

**LITH 103 Elementary Lithuanian (5)** Fundamentals of oral and written Lithuanian.

**LITH 150 Intensive Lithuanian (15)** Fundamentals of oral and written Lithuanian. Intensive practice in speaking, reading, and writing Lithuanian. Interactive classroom, computer-assisted learning, language, and reading laboratories. Emphasis on contemporary Lithuanian culture and society. If Lithuanian is the student's language of admission, only 10 credits count towards graduation.

**LITH 201 Second-Year Lithuanian (5) VLPA** Intensive practice in speaking, reading and writing. Functional review of grammar. Recommended: LITH 103.

**LITH 202 Second-Year Lithuanian (5) VLPA** Intensive practice in speaking, reading and writing. Functional review of grammar. Recommended: LITH 103.

**LITH 203 Second-Year Lithuanian (5) VLPA** Intensive practice in speaking, reading and writing. Functional review of grammar. Recommended: LITH 103.

**LITH 250 Intensive Intermediate Lithuanian (15) VLPA** Accelerated second-year Lithuanian. Systematic review of Lithuanian grammar. Intensive practice in conversation, reading, and

writing. Recommended: LITH 103 or LITH 150. Offered: S.

**LITH 490 Supervised Reading (1-5, max. 10)** Readings in a selected area of Lithuanian language, culture, or society.

## Norwegian

**NORW 101 Elementary Norwegian (5)** Fundamentals of oral and written Norwegian.

**NORW 102 Elementary Norwegian (5)** Fundamentals of oral and written Norwegian.

**NORW 103 Elementary Norwegian (5)** Fundamentals of oral and written Norwegian.

**NORW 150 Intensive First-Year Norwegian (15)** Fundamentals of oral and written Norwegian. Intensive practice in speaking, reading, and writing. Interactive classroom, computer-assisted learning, language and reading laboratories. Emphasis on contemporary Norwegian culture and society. If Norwegian is the student's language of admission, only 10 credits count towards graduation.

**NORW 199 Foreign Study: Elementary Norwegian (1-15, max. 15)** Fundamentals of oral and written Norwegian.

**NORW 201 Second-Year Norwegian (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: NORW 103.

**NORW 202 Second-Year Norwegian (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: NORW 103.

**NORW 203 Second-Year Norwegian (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: NORW 103.

**NORW 299 Foreign Study: Intermediate Norwegian (1-15, max. 15) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Discussion of culture and current events in Norway.

**NORW 310 The Norwegian Short Story (5) VLPA** Generic study of the Norwegian short story. Recommended: NORW 203.

**NORW 311 Drama After Ibsen (5) VLPA** Recommended: NORW 203.

**NORW 312 Topics in Norwegian Literature and Culture (5, max. 15) VLPA** Topics related to Norwegian literature, life, and civilization. Recommended: NORW 203.

**NORW 321 The Plays of Henrik Ibsen (5) VLPA** Study of selected plays of Ibsen. Recommended: NORW 203.

**NORW 395 Foreign Study: Norwegian Area Studies (1-5, max. 10) I&S** Courses in Norwegian history, society, and/or politics.

**NORW 399 Foreign Study: Topics in Norwegian Literature and Culture VLPA (1-5, max. 15)** Topics in Norwegian literature, life, and civilization.

**NORW 490 Supervised Reading (1-5, max. 10)** Readings in a selected area of Norwegian language, literature, or related fields.

## Swedish

**SWED 101 Elementary Swedish (5)** Fundamentals of oral and written Swedish.

**SWED 102 Elementary Swedish (5)** Fundamentals of oral and written Swedish.

**SWED 103 Elementary Swedish (5)** Fundamentals of oral and written Swedish.

**SWED 150 Intensive First-year Swedish (15)** Fundamentals of oral and written Swedish. Intensive practice in speaking, reading, and writing. Interactive classroom, computer-assisted learning, language and reading laboratories. Emphasis on contemporary Swedish culture and society. If Swedish is the student's language of admission, only 10 credits count towards graduation.

**SWED 199 Foreign Study: Elementary Swedish (1-15, max. 15)** Fundamentals of oral and written Swedish.

**SWED 201 Second-year Swedish (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: SWED 103.

**SWED 202 Second-year Swedish (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: SWED 103.

**SWED 203 Second-year Swedish (5) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Recommended: SWED 103.

**SWED 299 Foreign Study: Intermediate Swedish (1-15, max. 15) VLPA** Intensive practice in speaking, reading, and writing. Functional review of grammar. Discussion of culture and current events in Sweden.

**SWED 300 Swedish Women Writers (5) VLPA** Readings from works by Swedish women writers. Recommended: SWED 203.

**SWED 301 Topics in Swedish Literature and Culture (5, max. 15) VLPA** Topics in Swedish literature, life, and civilization. Recommended: SWED 203.

**SWED 302 The Swedish Novel (5) VLPA** Selected works by novelists of the nineteenth and twentieth centuries. Recommended: SWED 203.

**SWED 352 Strindberg and His Works (5) VLPA** Representative short stories, dramas, autobiographical works, poems, and one novel. Recommended: SWED 203.

**SWED 395 Foreign Study: Swedish Area Studies (1-5, max. 10) I&S** Courses in Swedish history, society, and/or politics.

**SWED 399 Foreign Study: Topics in Swedish Literature and Culture (1-5, max. 15) VLPA** Topics in Swedish literature, life, and civilization.

**SWED 490 Supervised Reading (1-5, max. 10)** Readings in a selected area of Swedish language, literature, or related fields.

## Slavic Languages and Literatures

### Slavic Languages and Literatures

**SLAVIC 498 Senior Honors Thesis ([3-9, max. 9]-) VLPA** Directed research on a topic approved by department for a thesis presented in partial fulfillment of requirement for degrees "with honors" or "with distinction." Offered: AWSpS.

**SLAVIC 600 Independent Study or Research (\*)**

**SLAVIC 800 Doctoral Dissertation (\*)**

### Bosnian, Croatian, Serbian

**BCS 401 First Year Bosnian/Croatian/Serbian (5)** Comprehensive introduction to spoken and written literary Bosnian, Croatian, and Serbian. Offered: A.

**BCS 402 First Year Bosnian/Croatian/Serbian (5)** Comprehensive introduction to spoken and written literary Bosnian, Croatian, and Serbian. Prerequisite: BCS 401, which may be taken concurrently. Offered: W.

**BCS 403 First Year Bosnian/Croatian/Serbian (5)** Comprehensive introduction to spoken and written literary Bosnian, Croatian, and Serbian. Prerequisite: BCS 402, which may be taken concurrently. Offered: Sp.

**BCS 404 Second-Year Bosnian/Croatian/Serbian (5) VLPA** Continuation of BCS 401, BCS 402, BCS 403; reinforces basic grasp of language and enlarges both vocabulary and command of grammatical patterns through the reading of contemporary short stories in Bosnian, Croatian, and Serbian. Prerequisite: 2.0 in BCS 403. Offered: A.

**BCS 405 Second-Year Bosnian/Croatian/Serbian (5) VLPA** Continuation of BCS 401, BCS 402, BCS 403; reinforces basic grasp of language and enlarges both vocabulary and command of grammatical patterns through the reading of contemporary short stories in Bosnian, Croatian, and Serbian. Prerequisite: 2.0 in BCS 404. Offered: W.

**BCS 406 Second-Year Bosnian/Croatian/Serbian (5) VLPA** Continuation of BCS 401, BCS 402, BCS 403; reinforces basic grasp of language and enlarges both vocabulary and command of grammatical patterns through the reading of contemporary short stories in Bosnian, Croatian, and Serbian. Prerequisite: 2.0 in BCS 405. Offered: Sp.

**BCS 410 Intensive Third Year Bosnian-Croatian-Serbian (10) VLPA** *Belic* Advanced grammatical exercises and listening, reading, and writing skills development. Emphasis on strengthening of conversational and presentational competence. Prerequisite: BCS 406. Offered: A.

**BCS 420 Literature, Film, and Culture of the Former Yugoslavia and the Yugoslav Successor States (5, max. 15) VLPA** A travelogue through the intellectual and cultural landscape of the former Yugoslavia and the Yugoslav successor states, studying the select

literary works, films, and other artifacts, with the exploration of both how these phenomena are a part of their intellectual and historical environment, and how they transcend and change it.

## Bulgarian

**BULGR 401 First-Year Bulgarian (5)** Introduction to Bulgarian phonology and grammar in terms of the modern spoken language. Writing conventions of literary Bulgarian. Offered: A.

**BULGR 402 First-Year Bulgarian (5)** Introduction to Bulgarian phonology and grammar in terms of the modern spoken language. Writing conventions of literary Bulgarian. Prerequisite: BULGR 401. Offered: W.

**BULGR 403 First-Year Bulgarian (5)** Reading of modern texts to increase command of grammar and vocabulary. Prerequisite: BULGR 402. Offered: Sp.

**BULGR 404 Second-Year Bulgarian (5) VLPA** Continuation of 401, 402, 403. Selected readings in Bulgarian literature, history, and culture. Reinforces and extends basic knowledge of Bulgarian grammar and vocabulary. Prerequisite: 2.0 in BULGR 403. Offered: A.

**BULGR 405 Second-Year Bulgarian (5) VLPA** Continuation of 401, 402, 403. Selected readings in Bulgarian literature, history, and culture. Reinforces and extends basic knowledge of Bulgarian grammar and vocabulary. Prerequisite: BULGR 404. Offered: W.

**BULGR 406 Second-Year Bulgarian (5) VLPA** Continuation of 401, 402, 403. Selected readings in Bulgarian literature, history, and culture. Reinforces and extends basic knowledge of Bulgarian grammar and vocabulary. Prerequisite: BULGR 405. Offered: Sp.

## Czech

**CZECH 401 First-Year Czech (5)** Introduction to spoken and written Czech. Offered: A.

**CZECH 402 First-Year Czech (5)** Introduction to spoken and written Czech. Prerequisite: CZECH 401. Offered: W.

**CZECH 403 First-Year Czech (5)** Modern Czech prose, leading to a command of the language as a research tool and providing an adequate basis for further study. Prerequisite: CZECH 402. Offered: Sp.

**CZECH 404 Second-Year Czech (5) VLPA** Continuation of 401, 402, 403. Selected readings from the main works of Czech authors of the nineteenth and twentieth centuries. Reinforces and extends basic knowledge of Czech grammar and vocabulary. Prerequisite: 2.0 in CZECH 403. Offered: A.

**CZECH 405 Second-Year Czech (5) VLPA** Continuation of 401, 402, 403. Selected readings from the main works of Czech authors of the nineteenth and twentieth centuries. Reinforces and extends basic knowledge of Czech grammar and vocabulary. Prerequisite: CZECH 404. Offered: W.

**CZECH 406 Second-Year Czech (5) VLPA** Continuation of 401, 402, 403. Selected readings from the main works of Czech authors of the nineteenth and twentieth centuries. Reinforces and extends basic knowledge of Czech grammar

and vocabulary. Prerequisite: CZECH 405.  
Offered: Sp.

## Polish

**POLSH 320 Introduction to Contemporary Polish Culture (5) VLPA/I&S** Overview of contemporary Polish culture: literature (prose, poetry, and drama), film (feature, documentary, and video art), music (classical, jazz, and rock), theatre, art, and architecture, as well as an introduction to the cultural life in Poland in the 21<sup>st</sup> century. Offered: AW.

**POLSH 401 First-Year Polish (5)** Principal morphological and syntactic features of the Polish language through the medium of a basic vocabulary. Cannot be taken for credit if Polish is the student's language of admission. Offered: A.

**POLSH 402 First-Year Polish (5)** Principal morphological and syntactic features of the Polish language through the medium of a basic vocabulary. Prerequisite: POLSH 401. Offered: W.

**POLSH 403 First-Year Polish (5)** Designed to enlarge general vocabulary by the reading of short texts selected from Polish authors of the nineteenth and twentieth centuries. Prerequisite: POLSH 402. Offered: Sp.

**POLSH 404 Second-Year Polish (5) VLPA** Continuation of 401, 402, 403. Selected readings of the main works from nineteenth and twentieth centuries. Reinforces basic knowledge of vocabulary, grammatical patterns, and conversation. Prerequisite: 2.0 in POLSH 403. Offered: A.

**POLSH 405 Second-Year Polish (5) VLPA** Continuation of 401, 402, 403. Selected readings of the main works from nineteenth and twentieth centuries. Reinforces basic knowledge of vocabulary, grammatical patterns, and conversation. Prerequisite: POLSH 404. Offered: W.

**POLSH 406 Second-Year Polish (5) VLPA** Continuation of 401, 402, 403. Selected readings of the main works from nineteenth and twentieth centuries. Reinforces basic knowledge of vocabulary, grammatical patterns, and conversation. Prerequisite: POLSH 405. Offered: Sp.

**POLSH 420 Modern Polish Literature in English (5) VLPA** Representative prose works by leading twentieth-century Polish writers. Polish literature's critique of modern European civilization. The relation of historical memory, collective victimization, and the utopian imagination in Polish literature to political power and national survival.

## Romanian

**ROMN 401 First-Year Romanian (5)** Comprehensive introduction to spoken and literary Romanian. Offered: jointly with RMN 401; A.

**ROMN 402 First-Year Romanian (5)** Comprehensive introduction to spoken and literary Romanian. Prerequisite: ROMN/RMN 401. Offered: jointly with RMN 402; W.

**ROMN 403 First-Year Romanian (5)** Designed to increase vocabulary and enhance knowledge of grammar through readings in modern

Romanian. Prerequisite: ROMN/RMN 402.  
Offered: jointly with RMN 403; Sp.

**ROMN 404 Second-Year Romanian (5) VLPA** Continuation of 401, 402, 403. Introduction to Romanian literature, history, and culture through selected readings. Reinforces and extends basic knowledge of grammar and vocabulary. Prerequisite: 2.0 in ROMN/RMN 403. Offered: jointly with RMN 404; A.

**ROMN 405 Second Romanian (5) VLPA** Continuation of 401, 402, 403. Introduction to Romanian literature, history, and culture through selected readings. Reinforces and extends basic knowledge of grammar and vocabulary. Prerequisite: ROMN/RMN 404. Offered: jointly with RMN 405; W.

**ROMN 406 Second-Year Romanian (5) VLPA** Continuation of 401, 402, 403. Introduction to Romanian literature, history, and culture through selected readings. Reinforces and extends basic knowledge of grammar and vocabulary. Prerequisite: ROMN/RMN 405. Offered: jointly with RMN 406; Sp.

## Russian

**RUSS 101 First-Year Russian (5)** Introduction to Russian. Emphasis on oral communication with limited vocabulary. Short readings and writing exercises. Basic grammar. Conducted mostly in Russian. See credit note above. Offered: A.

**RUSS 102 First-Year Russian (5)** Introduction to Russian. Emphasis on oral communication with limited vocabulary. Short readings and writing exercises. Basic grammar. Conducted mostly in Russian. See credit note above. Prerequisite: RUSS 101. Offered: W.

**RUSS 103 First-Year Russian (5)** Introduction to Russian. Emphasis on oral communication with limited vocabulary. Short readings and writing exercises. Basic grammar. Conducted mostly in Russian. See credit note above. Prerequisite: RUSS 102. Offered: Sp.

**RUSS 110 Introduction to Russian Culture and Civilization (5) I&S/VLPA** Introduction to Russian culture and history from pre-Christian times to the present, as seen through literary texts, music, film, visual art, and historical works. All lectures and written materials in English. No prior knowledge of Russian necessary. Offered: jointly with EURO 110.

**RUSS 120 Topics in Russian Literary and Cultural History (5) VLPA** Introduction to important issues in Russian literary and cultural history. Topics and instructors vary. Offered in English.

**RUSS 150 Intensive First-Year Russian (15)** Covers material of 101, 102, 103 in one quarter. Meets three to four hours daily. For continuation, see 250 or 201, 202, 203. See credit note above. Offered: S.

**RUSS 201 Second-Year Russian (5) VLPA** Comprehensive review of Russian grammar with continuing oral practice and elementary composition. Conducted mostly in Russian. See credit note above. Prerequisite: either 2.0 in RUSS 103 or 2.0 in RUSS 150. Offered: A.

**RUSS 202 Second-Year Russian (5) VLPA** Comprehensive review of Russian grammar with continuing oral practice and elementary

composition. Conducted mostly in Russian. See credit note above. Prerequisite: RUSS 201. Offered: W.

**RUSS 203 Second-Year Russian (5) VLPA** Comprehensive review of Russian grammar with continuing oral practice and elementary composition. Conducted mostly in Russian. See credit note above. Prerequisite: RUSS 202. Offered: Sp.

**RUSS 230 Masterpieces of Russian Literature (5) VLPA** Examines the greatest authors and masterpieces of Russian literature, including Tolstoy, Dostoevsky, and Chekhov. All readings, discussions, and assignments are in English.

**RUSS 250 Intensive Second-Year Russian (15) VLPA** Covers material of 201, 202, 203 in one quarter. Meets three to four hours daily. See credit note above. Prerequisite: either 2.0 in RUSS 103 or 2.0 in RUSS 150. Offered: S.

**RUSS 301 Third-Year Russian (5) VLPA** Extensive practice in spoken and written Russian based on a variety of prose readings. Intensive review and supplementation of strategic grammatical concepts. See credit note above. Prerequisite: either 2.0 in RUSS 203 or 2.0 in RUSS 250. Offered: A.

**RUSS 302 Third Russian (5) VLPA** Extensive practice in spoken and written Russian based on a variety of prose readings. Intensive review and supplementation of strategic grammatical concepts. See credit note above. Prerequisite: RUSS 301. Offered: W.

**RUSS 303 Third-Year Russian (5) VLPA** Extensive practice in spoken and written Russian based on a variety of prose readings. Intensive review and supplementation of strategic grammatical concepts. See credit note above. Prerequisite: RUSS 302. Offered: Sp.

**RUSS 304 Reading and Translation (1, max. 3) VLPA** Translation techniques with emphasis on development of vocabulary and reading skills. Primarily for Russian regional studies majors. Credit/no credit only. Prerequisite: either RUSS 203 or RUSS 250. Offered: AWSp.

**RUSS 313 Business Russian (5) VLPA** Emphasizes the language and practice of business in Russia today. Prerequisite: either RUSS 203 or RUSS 250.

**RUSS 321 Russian Literature and Culture 1700 - 1840 (5) I&S/VLPA** Introduction to literary works, art, and architecture in relation to the development of Russian thought, both secular and religious. Attention given to the influences of Western Europe and what is distinctly Russian, and to the formation of national self-awareness. Offered: A.

**RUSS 322 Russian Literature and Culture 1700-1900 (5) I&S/VLPA** Literature as an element in Russian culture. Art, architecture, music, and philosophy also treated. Periods covered include the age of Peter the Great, romanticism, realism, and impressionism. Offered: W.

**RUSS 323 Russian Literature and Culture of the Twentieth Century (5) I&S/VLPA** Literature as an element in modern Russian culture. Art, architecture, and music also treated. Periods covered include symbolism, revolution, postrevolution, Stalinist, the "thaw," and contemporary. Offered: Sp.

**RUSS 324 Russian Folk Literature in English (5) I&S/VLPA** Russian popular tradition, including paganism and its survival into modern times. Genres of the oral tradition, including the folktale, the epic, spiritual and historical songs, and legends. Special attention to modern theories and western European analogues.

**RUSS 350 Intensive Third-Year Russian (15) VLPA** Covers material of 301, 302, 303 in one quarter. Meets three hours daily. See credit note above. Prerequisite: either 2.0 in RUSS 203 or 2.0 in RUSS 250. Offered: S.

**RUSS 351 Intermediate Russian Phonetics (3) VLPA** Systematic study of the Russian sound system, including phonetic transcription and intonational patterns. Instruction in correcting individual pronunciation errors. Conducted partly in Russian. Prerequisite: either RUSS 203 or RUSS 250.

**RUSS 352 Intermediate Russian Morphology (3) VLPA** Examination of Russian morphology with emphasis on topics that help to prepare the student for advanced courses in Russian. Conducted partly in Russian. Prerequisite: either RUSS 203 or RUSS 250.

**RUSS 401 Fourth-Year Russian (5) VLPA** Class discussion, oral presentations, and composition, based on reading a variety of texts, both literary and non-literary. Advanced grammar. Translation one full course period per week. See credit note above. Prerequisite: either 2.0 in RUSS 303 or 2.0 in RUSS 350. Offered: AWSp.

**RUSS 402 Fourth-Year Russian (5) VLPA** Class discussion, oral presentations, and composition, based on reading a variety of texts, both literary and non-literary. Advanced grammar. Translation one full course period per week. See credit note above. Prerequisite: RUSS 401. Offered: AWSp.

**RUSS 403 Fourth-Year Russian (5) VLPA** Class discussion, oral presentations, and composition, based on reading a variety of texts, both literary and non-literary. Advanced grammar. Translation one full course period per week. See credit note above. Prerequisite: RUSS 402. Offered: AWSp.

**RUSS 420 Topics in Russian Literary and Cultural History (5, max. 20) VLPA** A special topic in the literary and cultural history of Russia. Topics vary.

**RUSS 421 Post-Soviet Literary and Cultural Scene (5, max. 15) VLPA** Russian literature of the second half of the twentieth century. In English.

**RUSS 422 Russian Literature in Emigration and Exile (5) VLPA** Examines writers who left the Soviet Union during the post-Stalin period up to the fall of communism or who, though they resided in the USSR, published through unofficial channels. Discussion of Akhmatova, Siniavsky, Voinovich, Zinoviev, and others.

**RUSS 423 Russian Film (5, max. 15) VLPA** Early Russian, Soviet, and post-Soviet film. Featured filmmakers include Sergei Eisenstein, Dziga Vertov, Vsevolod Pudovkin, and others. Focuses on critical materials pertaining to filmmaking and film theory.

**RUSS 424 Topics in Ethnicity and Cultural Identity (5, max. 15) I&S/VLPA** Issues of cultural and ethnic identities and neo-colonialism.

Special focus on Russian and East European Jewish literature and culture, and central Asian literature, art, and culture. Taught in English.

**RUSS 425 Russian Drama (5, max. 15) VLPA** Analysis of history and development of Russian drama from the 18th century to present times. Playwrights featured include Alexander Griboedev, Alexander Ostrovsky, Anton Chekhov, Vladimir Mayakovsky, and others. Taught in English.

**RUSS 426 Russian Art and Architecture (5) VLPA** West Survey of Russian art and architecture from the middle ages to the twentieth century, covering the place of the visual arts in Russian culture, the relationship between visual and verbal art, and the appropriate reading of works of Russian art of all periods.

**RUSS 430 Major Authors (5, max. 15) VLPA** Major Russian writers of the nineteenth and twentieth centuries. Among authors read are Pushkin, Gogol, Lermontov, Turgenev, Tolstoy, Dostoevsky, Chekhov, Babel, Ilf and Petrov, Olesha. Content varies.

**RUSS 450 Intensive Fourth-Year Russian (15) VLPA** Covers material of 401, 402, 403 in one quarter. Meets three hours daily. See credit note above. Prerequisite: either 2.0 in RUSS 303 or 2.0 in RUSS 350. Offered: S.

**RUSS 451 Structure of Russian (5) VLPA** Descriptive analysis of contemporary standard Russian. Detailed phonetic transcription, discussion of major Great Russian dialects as well as variations in popular speech, examination of common roots and productive derivational elements in Russian words, and elementary principles of syntax. Prerequisite: either RUSS 303 or RUSS 350. Offered: A.

**RUSS 452 Structure of Russian (5) VLPA** Descriptive analysis of contemporary standard Russian. Detailed phonetic transcription, discussion of major Great Russian dialects as well as variations in popular speech, examination of common roots and productive derivational elements in Russian words, and elementary principles of syntax. Prerequisite: RUSS 451. Offered: W.

**RUSS 461 Introduction to Russian Literature in Russian (5) VLPA** Analysis of original Russian literary texts representative of different varieties of Russian writing. Vocabulary of Russian literary analysis; typically Russian approaches to literature, some readings of secondary critical texts; discussion in Russian of passages studied. Prerequisite: RUSS 403 or RUSS 450.

**RUSS 481 Russian Language in Russia (5, max. 15) VLPA** Daily work in phonetics, grammar, conversation, translation, analytical reading, stylistics, newspaper analysis, and advanced syntax. Prerequisite: either RUSS 203 or RUSS 250. Offered: AWSpS.

**RUSS 482 Research Project in Russia (3, max. 15) VLPA** Supervised research in student's selected area of concentration, combined with language instruction tailored to the student's field. Successful completion of course requires a 15-page term paper in Russian. Prerequisite: either RUSS 203 or RUSS 550. Offered: AWSpS.

**RUSS 483 Russian Literature in Russia (3, max. 15) VLPA** Selection of courses on

specialized topics in Russian literature; specific authors or periods. Prerequisite: either RUSS 203 or RUSS 250. Offered: AWSpS.

**RUSS 486 Culture in Russia (3, max. 15) I&S/VLPA** Lectures on education, history, economics, law, the arts, ethnography, architecture; complemented by visits to places of cultural and historical interest and meetings with Russian groups. 4 credits for summer program, 6 for semester program. Prerequisite: either RUSS 203 or RUSS 250. Offered: AWSpS.

**RUSS 490 Studies in Russian Literature (3-5, max. 15) VLPA** In either Russian or English. Topics vary.

**RUSS 499 Directed Study or Research (1-5, max. 15)** Individual study of topics to meet specific needs. By arrangement with the instructor and the Department of Slavic Languages and Literatures office. Offered: AWSpS.

**RUSS 501 Russian Language for Graduate Students (2, max. 10)** Develops skills of particular use to graduate students. Emphasis on rapid assimilation of variety of written materials with sophisticated understanding and maximum retention of vocabulary, and ability to discuss in Russian the more theoretical and abstract kinds of material. Prerequisite: RUSS 403 or equivalent and graduate standing in Russian, East European, and Central Asian Studies.

**RUSS 502 Russian Translation (3)** Introduction to the theory of translation; translation to and from Russian of selected prose passages in a variety of styles, with emphasis on idiomatic accuracy and stylistic compatibility. Prerequisite: two quarters of RUSS 501 or permission of instructor.

**RUSS 512 Russian Literary Criticism (3) A** study of critical positions, problems, and literary values of major Russian literary critics from Belinsky to the present.

**RUSS 520 Topics in Russian Literature and Culture (5, max. 20)** Detailed study of a single author or a movement, theme, or short period in Russian literature or culture.

**RUSS 521 Russian Literature to 1800 (5)** Representative works of East Slavic, Muscovite, and Russian literature from the beginnings to 1800. Studies include a varied selection of primary texts. Intended as an introduction to the study of modern literature for beginning graduate students in Russian literature. Offered: alternate years.

**RUSS 522 Russian Literature of the Nineteenth Century (5)** Survey of nineteenth-century Russian poetry and prose. Representative works of Russia's major and minor authors, literary trends, and genres. Offered: alternate years.

**RUSS 523 Russian Literature of the Twentieth Century (5)** Survey of twentieth-century Russian poetry and prose. Pre-revolutionary, Soviet, and ?migr? authors, trends, and genres. Includes survey of twentieth-century Literary Criticism as well, in particular Russian Formalists and Mikhail Bakhtin. Offered: alternate years.

**RUSS 526 Modern Russian Literary, Cultural, and Film Studies (5, max. 15)** Modern literature and film. Topics include post-colonialism, gender, reflections of social upheavals, artistic

experimentation, issues of commercialism in art, search for new cultural expressions and identity. Readings in both Russian and English. Offered: Sp.

**RUSS 542 Seminar in Russian Poetry (5, max. 20)** One specific problem or theme in Russian poetry, seen in its widest possible dimensions. Students read, in Russian, the literary works involved and become familiar with the social, historical, and philosophical backgrounds that inspire them.

**RUSS 543 Seminar in Contemporary Russian Prose (5, max. 20)** Analysis of Russian prose fiction. Selected authors and topics.

**RUSS 554 History of the Russian Literary Language (5)** Russian literary language from the eleventh through the twentieth centuries, with special attention to syntax and lexicon and to the development of notions of literary styles. Offered in Russian. Prerequisite: RUSS 555 or SLAV 565, or permission of instructor. Offered: alternate years.

**RUSS 570 Research Seminar in Russian Literature (5, max. 40)** *Diment, Haney, Kramer, West* Working in consultation with a faculty adviser, students formulate a topic and prepare a 30-minute oral presentation to be delivered at the seminar and submit a written paper to be read and critiqued. by all participants.

**RUSS 577 Russian Folk Literature (5)** Analysis of representative works of the various genres of folk literature, including the byliny, skazki, historical and lyrical songs, and the spiritual stikhi.

**RUSS 600 Independent Study or Research (\*)**

## Slavic

**SLAV 175 The Slavic Text and Its Context (2) VLPA** A contextual study of a significant work or intellectual movement from a Slavic culture study includes literature, film, music, or art. Credit/no credit only.

**SLAV 223 Russian and East European Cinema (5, max. 20) VLPA** Introduction to Russian and Eastern European film from the origins to present day. Highlights achievements of Russian and Eastern European filmmakers, both in their countries of origin and abroad.

**SLAV 351 History of the Slavic Languages (5) VLPA** External and internal history of Slavic literary languages from the beginnings to the present time, including the development of writing systems, external attempts at reform, and the development of vocabulary.

**SLAV 420 The Other Europe: Contemporary East European Fiction (5, max. 15) VLPA** *Crnkovic* Contemporary fiction by Czech, East German, Hungarian, Polish, Baltic, and Balkan writers. Topics include: history of colonization, the imagination of social utopia, socialism and nationalism, everyday life under communism, cultural identity between East and West, experimental writing, new fiction in post-communist Eastern Europe. All readings in English.

**SLAV 423 East European Film (5, max. 15) VLPA** *Crnkovic* Survey of major East European film makers. Compares East European and Western production of those directors who worked partially in the West, e.g., Polanski,

Forman, Holland, Makavejev. Topics include film in socialist versus market economy, politics, gender, sexuality.

**SLAV 425 Ways of Meaning: Universal and Culture Specific Aspects of Language (5) I&S/ VLPA** *Dziwirek* Social and cultural conditioning of language use. Language as a mirror of culture and national character. Universal and culture/ language specific components in linguistic expression of emotions, courtesy/politeness and rudeness, prejudice and (in)sensitivities, linguistic expression of gender differences in different cultures. Offered: Sp.

**SLAV 426 Ways of Feeling: Expressions of Emotions Across Languages and Cultures (5) I&S/VLPA** *Dziwirek* Universal and culture specific aspects of linguistic expression of emotion. Are there feelings that all people share independent of language, culture, gender, and race? Examination of the meaning and form of emotion words in different languages, facial expressions, cultural attitudes to emotion and emotional behavior, and gender-specific emotional expressions.

**SLAV 470 Special Topics in Slavic Linguistics (3-5, max. 15) VLPA** *Augerot, Belic, Dziwirek* Special topics in Slavic linguistics. Course offerings based on instructor's specialty and student demand. Offered: AWSp.

**SLAV 481 East European Language in Eastern Europe (5, max. 15) VLPA** Daily work in phonetic, grammar, conversation, translation, analytical reading, stylistics, newspaper analysis, and advanced syntax. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

**SLAV 482 Research Project in Eastern Europe (3, max. 15) VLPA** Supervised research in student's selected area of concentration, combined with language instruction tailored to the student's field. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

**SLAV 483 East European Literature in Eastern Europe (3, max. 15) VLPA** Selection of courses on specialized topics in East European literature; specific authors or periods. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

**SLAV 486 East European Culture in Eastern Europe (3, max. 15) VLPA** Lectures on various aspects of Eastern European culture, complemented by visits to places of cultural historical interest. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

**SLAV 490 Studies in Slavic Literatures (3-5, max. 15) VLPA** Topics vary.

**SLAV 499 Directed Study or Research (1-5, max. 15)** Individual study of topics to meet specific needs. By arrangement with the instructor and the Department of Slavic Languages and Literatures office. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSpS.

**SLAV 501 Using Slavic Resources (2)** Introduction to graduate studies in Slavic languages, literatures, and cultures. Discusses field of study and research materials and techniques employed.

**SLAV 518 Foreign Language Teaching Methodology (2)** *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with ASIAN 518/GERMAN 518/ NEAR E 518/SCAND 518.

**SLAV 519 Slavic Language Pedagogy (3, max. 6)** *Augerot, Belic* Introduction to current issues of foreign language pedagogy. Concentrates on the practical classroom application of methodological theory through lectures and micro-teaching presentation. Topics discussed and practiced include testing, proficiency teaching, teaching listening and reading skills, writing, teaching grammar, and computers. Offered: A.

**SLAV 520 New Trends in Literary Theory (5)** *Crnkovic* Explores recent theoretical trends which no longer search for a unified theoretical meta-narrative (i.e., post-structuralism or new historicism), but instead explore various literary genres (such as diary or fictional book reviews) and texts as the primary terrain of theory. Bakhtin, Lem, Bruns, Corradi-Fiumara, Crnkovic, and others.

**SLAV 550 Synchronic Slavic Linguistics (5)** Linguistic analysis of the phonology, morphology, and syntax of Russian and other Slavic languages. Investigation of current theoretical work in these areas.

**SLAV 551 The Introduction to the Study of Slavic Languages (5)** External and internal history of Slavic literary languages from the beginnings to the present time, including the development of writing systems, external attempts at reform, and the development of vocabulary.

**SLAV 560 Diachronic Slavic Linguistics (5)** Development of the phonological and morphological system of Common Slavic from Indo-European. Evolution of Russian and other modern Slavic languages from Common Slavic. Offered: A.

**SLAV 561 History of the East Slavic Languages (5)** Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of the Ukrainian and Byelorussian literary languages. Prerequisite: SLAV 560. Offered: alternate years.

**SLAV 562 History of the West Slavic Languages (5)** Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of literary Polish, Czech, Slovak, and Upper and Lower Sorbian languages. Prerequisite: SLAV 560. Offered: alternate years.

**SLAV 563 History of the South Slavic Languages (5)** Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of the South Slavic languages. Prerequisite: SLAV 560.

**SLAV 565 Old Church Slavic (4)** Rise and development of earliest Slavic literary language and a descriptive study of its orthography, phonology, morphology, and syntax. Readings from normalized texts. Offered: alternate years.

**SLAV 566 Readings in Old Church Slavic (4)** Reading and grammatical interpretation of a selected group of canonical texts, as well as some examples of the various later recensions of Old Church Slavonic. Prerequisite: SLAV 565. Offered: alternate years.

**SLAV 570 Special Topics in Slavic Linguistics (3-5, max. 15)** Investigation and discussion of special topics in Slavic linguistics.

## Ukrainian

**UKR 401 First-Year Ukrainian (5)** Introduction to spoken and written Ukrainian.

**UKR 402 First-Year Ukrainian (5)** Introduction to spoken and written Ukrainian. Prerequisite: UKR 401, which may be taken concurrently.

**UKR 403 First-Year Ukrainian (5)** Introduction to spoken and written Ukrainian. Prerequisite: UKR 402, which may be taken concurrently.

**UKR 420 Literature, Film, and Culture of Ukraine (5) VLP** Representative prose works by leading Ukrainian authors. Shows originality of Ukrainian literature through acquaintance with the peculiar historical and political situation of Ukraine. Offered in English.

---

## Sociology

**SOC 110 Survey of Sociology (5) I&S** Human interaction, social institutions, social stratification, socialization, deviance, social control, social and cultural change. Course content may vary, depending upon instructor.

**SOC 111 American Society (5) I&S** Explores the power of social structures using examples drawn primarily from the American culture. The impact of social institutions, the emergence of concrete patterns of social relations which organize and regulate social life and the inequality inherent in most social structures.

**SOC 177 The Jewish Community in the United States: Success, Influence, and Prospects (5) I&S** *Burstein* Examines relationship between American society and its ethnic/religious groups through study of the American Jewish community. Focuses on economic success; challenges to religious traditions; relationships between American and Jewish cultures; and impact of Jewish ideas and organizations on American politics. Offered: jointly with 177.

**SOC 195 Study Abroad: Sociology (2-5, max. 10) I&S** Lower-division sociology courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

**SOC 212 Evolution and Revolution: An Introduction to the Study of Comparative Social Change (5) I&S** Examines the major aspects of human societies, including political and economic systems, family structure, social stratification, and demographic patterns as influenced by environmental conditions, technology, cultural traditions, and legacies of prior history and relationships to other societies. Not open for credit to students who have taken SOC 112

**SOC 220 Introduction to Sociological Methods (5) I&S, QSR** Familiarizes students with the logic of analysis in social sciences. Students learn to recognize good research design, understand and interpret main arguments employing different methods, and evaluate whether research findings support stated conclusions.

**SOC 222 Sociology of Sport (5) I&S** *Weis* Introduction to the sociological analysis of sport. Issues discussed include the history, definition, and functions of sport; role of sport in the socialization of children; the relationship between sport and values; athletics within the social organization of education; deviance, crime, and violence in sport; the business and economics of sport.

**SOC 240 Introduction to Social Psychology (5) I&S** Introduction to social psychology with an emphasis on sociological perspectives and problems.

**SOC 247 Contemporary Social Movements (5) I&S** Introduction to theory and research on national-level collective mobilizations organized for political change. Emphasis on how political, organizational, and cultural factors shape social movement emergence and development, and individual participation.

**SOC 260 African American Family (5) I&S** *Scott* Explores the structures and functioning of various types of black families. Single-parent families, two-parent families, extended families, and consensual families are explored. Their consequences for male/female relationships are linked and critiqued. Offered: jointly with AFRAM 260.

**SOC 261 The African-American Experience Through Literature (5) I&S/VLP** *Scott* Instructs students in hermeneutical and sociological methods of analyses. Analyzes selected novels, essays, poems, short stories, and plays with the purpose of understanding the structures and functions of both society and personality. Offered: jointly with AFRAM 261.

**SOC 265 Globalization and the Transformation Economy and Society in Asia (5) I&S** *Hamilton* Examines the rapid and extensive social and economic development throughout Asia since the mid-20th century; the corresponding retail revolution in the American economy; the evolution of characteristic Asian product categories; and the impact of these developments on the social and economic organization of Asian economies. Offered: jointly with SISA 265.

**SOC 266 Introduction to Labor Studies (5) I&S** Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with HIST 249/POL S 249.

**SOC 270 Social Problems (5) I&S** Processes of social and personal disorganization and reorganization in relation to poverty, crime, suicide, family disorganization, mental disorders, and similar social problems.

**SOC 271 Introduction to the Sociology of Deviance and Social Control (5) I&S** Examination of deviance, deviant behavior, and social control. Deviance as a social process; types of deviant behavior (e.g., suicide, mental

illness, drug use, crime, "sexual deviance," delinquency); theories of deviance and deviant behavior; nature and social organization of societal reactions; and social and legal policy issues.

**SOC 275 Murder (5) I&S** *Weis* Introduces topics related to the crime of murder, including: laws of homicide; research on the characteristics of victims, killers, and murders; theories of murder and related violence; investigation strategies; and crime and control policies.

**SOC 287 Introduction of the Sociology of Sexuality (5) I&S** Investigates sexuality on the basis of social construction of norms and values, within the context of gender, race, class, and sub-cultures and in the social control of sexuality and why it is so highly regulated. Looks for social, rather than biological or personal explanations for why human sexuality is conceptualized or practiced in a certain way.

**SOC 292 Who Gets Ahead? Public Schooling in America (5) I&S** *LePore* Addresses fundamental questions about the relationship between education and society. Examines why some students learn more and advance further than others; what factors shape how schools are run/organized and which materials are taught; how race/class/gender affect students within schools; how schools maintain our economic system and can become more effective.

**SOC 299 Sociology Interest Group (2) I&S** Provides opportunity for students new to the major, or contemplating the major, to meet twice weekly in a small group to discuss issues relating to two designated five-credit sociology courses. Concurrent enrollment in the two five-credit designated courses required. See department adviser.

**SOC 301 War (5) I&S** Origins and conduct of war, readings from anthropology, political science, economics, and history, as well as two novels and some recent articles on the arms-control controversy. Modern forms of warfare, including guerrilla war, world war, and nuclear war. Offered: jointly with SIS 301.

**SOC 316 Introduction to Sociological Theory (5) I&S** Introduction to sociological theory. Includes classical theorists Adam Smith, Karl Marx, Emile Durkheim, and Max Weber and their influence on contemporary theoretical debate.

**SOC 320 Evaluating Social Science Evidence (5) I&S, QSR** *Morris* A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with CS&SS 320/STAT 320.

**SOC 321 Case-Based Social Statistics I (5) I&S, QSR** *Handcock* Introduction to statistical reasoning for social scientists. Built around cases representing in-depth investigations into the nature and content of statistical and social-science principles and practice. Hands-on approach: weekly data-analysis laboratory. Fundamental statistical topics: measurement, exploratory data analysis, probabilistic concepts, distributions, assessment of statistical evidence. Offered: jointly with CS&SS/STAT 321.

**SOC 322 Case-Based Social Statistics II (5) I&S, QSR** *Handcock* Continuation of CS&SS/

SOC/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods. Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory. Prerequisite: CS&SS/SOC/STAT 321, or permission of instructor. Offered: jointly with CS&SS/STAT 322.

**SOC 328 Methodology of Sociological Research (5-) I&S, QSR** Logic of formulating, testing, and modifying hypotheses. Methods of producing social data (survey research, evaluation research, field observation) and utilizing stored data (census tapes, historical materials). Methods of quantitative data analysis techniques commonly used in contemporary sociological analysis. Not open for credit to students who have taken 320 or 323.

**SOC 329 Methodology of Sociological Research (-5) I&S, QSR** Logic of formulating, testing, and modifying hypotheses. Methods of producing social data (survey research, evaluation research, field observation) and utilizing stored data (census tapes, historical materials). Methods of quantitative data analysis techniques commonly used in contemporary sociological analysis. Not open for credit to students who have taken 320 or 323.

**SOC 330 Human Ecology (5) I&S** Factors and forces that determine the distribution of people and institutions.

**SOC 331 Population and Society (5) I&S** Population growth and distribution, population composition, population theory, urbanization. Determinants and consequences of fertility and mortality trends and migration in economically developed and underdeveloped areas.

**SOC 340 Symbolic Interaction (5) I&S** Examines the role of language, culture, and the symbolic environment in shaping interpersonal processes.

**SOC 341 Tutoring Sociology (2-4, max. 4)** Trains students to serve as tutors in designated courses. Teaches how to assist with writing assignments, explain course material, and lead group discussions. Credit/no credit only.

**SOC 344 Cognitive Social Psychology (5) I&S** Cognitive structures and processes and their antecedents and consequences, both societal and individual. Reciprocal influences of social roles, social institutions, and social cognition.

**SOC 345 Sects and Violence: Cults, Religious Innovation, and Social Conflict (5) I&S** Examines controversial religious groups often called cults. Use sociological lenses to examine cults' occasionally catastrophic conflicts with government authorities, established religious organizations, and anti-cult movements.

**SOC 346 Group Processes (5) I&S** Systematic analysis of social processes in small groups, including conformity, deviance, cooperation, competition, coalition formation, status and role differentiation, inequity, communication, and authority and power. A variety of methods of research are considered: field studies, field experiments, laboratory studies, and the simulation of social processes.

**SOC 347 National Social Movements: Current Trends and Explanations (5) I&S** Introduction to theory and research on a specific form of

social movement: national-level collective mobilizations organized for political change. Emphasizes how political, organizational, and cultural factors shape social movement emergence and development. Focuses on American activism, New Left, women's movements, the abortion conflict, gay/lesbian activism, and Central American Peace movement.

**SOC 352 The Family (5) I&S** The family as a social institution. Historical changes and societal variation in family patterns. Changes over the life cycle. Alternative family forms.

**SOC 353 The Family in Cross-Cultural Perspective (5) I&S** *Scott* Form, content, and functions of families through case studies of different countries. Family organization, including family structure, inheritance, sexual division of labor, and socialization with attention given to life-cycle stages.

**SOC 355 Social Change in Latin America (5) I&S** Explores cultures, identities, political economy, and popular mobilization in Latin America. Examines relations of power and production between social classes and ethnic groups, as well as ideologies and intellectual movements. Offered: jointly with SISLA 355.

**SOC 356 Society and Politics (5) I&S** Causes of political change in democratic countries, including public opinion, social movements, interest group activity, and party organization. Offered: jointly with POL S 356.

**SOC 357 Sociology of Religion (5) I&S** The relations between religion, polity, economy, and social structure; in particular, the political, economic, and social impact of religious beliefs and organizations, as well as the social determination of these beliefs and organizations; the rise of secularism, the rationalization of modern life, and the emergence of political quasi-religions.

**SOC 360 Introduction to Social Stratification (5) I&S** Social class and social inequality in American society. Status, power, authority, and unequal opportunity are examined in depth, using material from other societies to provide a comparative and historical perspective. Sociological origins of recurrent conflicts involving race, sex, poverty, and political ideology.

**SOC 362 Race Relations (5) I&S** Interracial contacts and conflicts.

**SOC 363 Ethnicity, Business, Unions, and Society (5) I&S** *Scott* Interrelationships of ethnicity, business, unions, and the larger society. Examines financial and sociological structure of business and manufacturing sector, how this sector performs, and consequences of performance for selected ethnic groups in United States. Offered: jointly with AES 361.

**SOC 364 Women in the Social Structure (5) I&S** Gender and social institutions; the family, politics, education, medicine, law, the labor force. Intersection of gender with other minority statuses such as race, age, socioeconomic status, and sexual orientation. Structural, ideological, and historical determinants of gender relations.

**SOC 365 Urban Community (5) I&S** *Guest* Comparative and analytic study of organization and activities of urban groups.

**SOC 366 Bureaucracy in Society (5) I&S** The coming of organizational societies; historical causes of bureaucracy; informal relations and work groups; ideologies; authority and the division of labor; social change in bureaucracies; comparative organizations.

**SOC 368 Sociology of Black Americans (5) I&S** Socio-cultural context of the Black person's environment and consequences of interaction with that environment. Not open for credit to students who have taken SOC 105.

**SOC 371 Criminology (5) I&S** *Crutchfield, Matsueda* Survey of legal definitions, types of criminal behavior, trends and patterns, recidivism, characteristics of offenders, environmental influences, diagnostic methods, prediction, theories of crime and delinquency prevention, social policy.

**SOC 372 Introduction to Criminal Justice (5) I&S** Examines role of police, courts, and corrections in criminal justice. Applies sociological theories and perspectives to issues in law enforcement, adjudication, and corrections. Legislative reforms. Innovations in policy.

**SOC 374 Law and Society (5) I&S** Introduces major issues of the sociological foundations and implications of legal institutions; examines social life within legal institutions, the individual and collective justice, the malleability of precedent, and truth and the effects of inequality on legal outcomes. Encompasses legal practice and social science.

**SOC 375 Sociology of Juvenile Justice (5) I&S** *Harris* Overviews the United States juvenile justice system and related societal issues, including racial and ethnic disproportionality, the criminalization of delinquent offenders, and the future of the juvenile justice system.

**SOC 376 Drugs and Society (5) I&S** Explores the questions of drug use and abuse, social and political factors that shape response to their use, and the social conditions under which drug use is likely to have adverse consequences. Also covers U.S. drug control policy, the political economy of legal and illegal drugs, and political aspects of drug use. Offered: jointly with LSJ 376.

**SOC 377 The American Jewish Community (5) I&S** *Burstein* Development and current status of American Jewish community: immigration; changes in religious practice, institutions in response to circumstances in American Society; creation of new types of secular communal organizations; assimilation; confrontation with antisemitism; family life; social, economic mobility; religious, secular education; intermarriage, and future of community. Offered: jointly with SISJE 377.

**SOC 378 Contemporary Jewish American Identities (5) I&S** Introduction to the debates about post-Holocaust Jewish identities in multicultural America. Explores whether a distinctive Jewish community is headed toward assimilation, experiencing revival, or merely transforming the multiple ways Jewish experience is lived. Topics include new Jewish immigrants, the new Orthodox, Black Jews, Jewish feminism, children of Holocaust survivors. Offered: jointly with SISJE 378.

**SOC 379 Environmental Sociology (5) I&S/ NW** Social processes by which environmental conditions are transformed into environmental

problems; scientific claims, popularization of science, issue-framing, problem-amplification, economic opportunism, and institutional sponsorship. Examination of social constructs such as ecosystem, community, and free-market economy. Use of human ecology to assess whether the current framing of environmental problems promotes ecological adaptability. Offered: jointly with ESRM 371/ ENVIR 379; WS

**SOC 395 Study Abroad: Sociology (2-5, max. 15) I&S** Upper-division sociology courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

**SOC 399 Undergraduate Internship (2-5, max. 10)** Students serve in approved internships. Credit/no credit only.

**SOC 401 Special Topics in Sociology (5, max. 15) I&S** Selected topics of contemporary interest taught by a sociologist active in the field. Topics vary and may be substantive, theoretical, or methodological.

**SOC 410 History of Sociological Thought (5) I&S** Contributions of individual theorists (from Comte to the present); emphasis on cumulative development of concepts and principles, emergence of sociology as a science, probable future developments.

**SOC 416 Sociological Theory (5) I&S** Theories of individual action, social order, and institutional change. Cumulative development of solutions rather than on works of given theorists. Theories of social order. How sociological treatments of these issues compare with those offered by economists and other social scientists.

**SOC 430 Urbanism and Urbanization (3) I&S** Human population distribution and migration patterns. Causes and consequences of world urbanization. Spatial and social patterns in the metropolis. Aggregate population movements and selectivity of migrants.

**SOC 431 Fertility and Mortality (3) I&S** Theories of fertility and mortality, demographic transitions, individual variations. Specific analytic approaches. Familiarity with basic fertility and mortality measures, and with the life table, is assumed.

**SOC 432 Population and Modernization (3) I&S** *Hirschman, Lavelly* Examines role of demographic factors in the process of social modernization and economic growth. The approach is both historical, focusing on populations of developed countries since 1700, and analytic, stressing the attempts made by different disciplines to model demographic relationships, with attention to less-developed regions. Offered: jointly with SIS 432.

**SOC 433 Research Methods in Demography (3) I&S** Basic measures and models used in demographic research. Sources and quality of demographic data. Rate construction, standardization, the life table, stable population models, migration models, population estimation and projection, measures of concentration and dispersion, measures of family formation and dissolution.

**SOC 434 Demographic Issues in Asia (3-5) I&S** *Hirschman, Lavelly* Contemporary Asian countries face a number of issues with

demographic components, including environmental and resource issues, ethnic rivalries, international migration, and public health. This seminar addresses a set of these issues by focusing on the demography of one or more countries in Asia. Offered: jointly with SISEA 434.

**SOC 445 Religious Movements: The Sociology of Cults and Sects (5) I&S** Investigates the organizational dynamics of new religious movements. Seeks to understand why •cults•f emerge and how they proliferate or decay. Examines conflicts within established churches, counter-movements, and the state.

**SOC 447 Social Movements (5) I&S** Social movements as collective attempts to change society: why people join; characteristics of successful and unsuccessful movements; consequences of social movement activities.

**SOC 450 Political Economy of Women and Family in the Third World (5) I&S** Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with SIS 450.

**SOC 451 Theory and Process of Social Change (5) I&S** Basic trends in economic and social development; comparative and historical analysis of social and economic changes; the rise of capitalist societies.

**SOC 456 Political Sociology (5) I&S** Relationships between social change and political change. Focus on selected issues, including social bases of democracy, political organization, elections, and consequences of public policy.

**SOC 460 Social Differentiation (5) I&S** Analysis of societal organization based on sex, age, residence, occupation, community, class, caste, and race.

**SOC 461 Comparative Ethnic Race Relations in the Americas (5) I&S** *Scott* Sketches the ethnoracial systems operating in American society. Studies these systems as systems and examines their institutional and interpersonal dynamics. Compares ethnoracial systems in order to arrive at empirical generalizations about race/ethnorelations in the Americas. Offered: jointly with AES 461.

**SOC 462 Comparative Race and Ethnic Relations (5) I&S** Race and ethnicity as factors of social differentiation in a number of Western and non-Western societies in Europe, Africa, Asia, and the Americas. Offered: jointly with AES 462.

**SOC 463 African-American Political Thought (5) I&S** Examines the historical and sociological experiences of African-Americans from slavery, emancipation, mobilization, and organization, to present socioeconomic situation. Reviews the political philosophy of Black leaders from the early Black Conventions to today, the Black experience in the American education system, and origins and evolution of the black middle class.

**SOC 464 Contemporary Society in the Peoples Republic of China (5) I&S** *Lavelly* Separate development of rural and urban social institutions in the Peoples Republic of China since 1949 from a sociological perspective.

Family and marriage, social control, educational institutions. Dilemmas of contemporary China and reasons for institutional change. Offered: jointly with SISEA 464.

**SOC 465 Complex Organizations (5) I&S** Examination of the structure of complex organizations. Attention to developing generalizations applicable to industrial organizations, businesses, hospitals, prisons, labor unions, governments, universities, armies, and similar formally instituted organizations. The major focus is on empirical research, with some attention to methodological problems in studying such organizations.

**SOC 466 Economic Sociology (5) I&S** Changing focus of field; cultural variation, work, and the worker; technology, society, and the evolution of industrial forms; types and forms of industrial organizations; industrial organizations as social and technical systems; issues of control, process, and change; the individual in social and technical systems.

**SOC 467 Immigration and Ethnicity (5) I&S** Focus on contemporary American diversity — the multiethnic, multicultural society created by recent immigrants from Latin America, Asia, and by people of European, African, and American Indian origins; its issues and debates, including ethnic conflict, integration, multiculturalism, and assimilation, as viewed through comparisons with the past and with other societies.

**SOC 468 Sociology of Occupations and Professions (5) I&S** Frameworks for study of occupations and professions; occupational structure and mobility in American society in relation to adult socialization and career development; occupational and professional associations and society.

**SOC 469 Balkan Societies (5) I&S** Examination of the roots of Balkan social problems (economic backwardness, minority-group conflicts, peasant problem), the failure of pre-1945 attempts to solve these problems, the post-1945 communist failures, the causes of the upheavals of 1989, and the prospects for success in the 1990s.

**SOC 470 Contemporary Southeast Asia (5) I&S** Sociological survey of Southeast Asia, including development, demographic changes, family structure, and ethnic relations.

**SOC 472 Juvenile Delinquency (5) I&S** Factors in delinquency, juvenile courts. Programs of treatment and prevention.

**SOC 473 Corrections (5) I&S** Analyzes research on diversionary methods and treatment of convicted offenders. Emphasis on program evaluation. Community treatment, fines, restitution; probation, parole, halfway houses, and other alternatives to incarceration; correctional institutions. Organization of state and federal systems. Problems of administration. Subsidies and governmental control. Planning and public participation. Recommended: SOC 371; SOC 372. Offered: jointly with LSJ 473.

**SOC 476 Miscarriages of Justice (5) I&S** Examines legal and social factors that shape criminal case outcomes, analyzing how one type of miscarriage of justice — wrongful conviction — occur. How can cases of wrongful conviction be explained? Why are some people, against whom there is only weak evidence, convicted —

and sometimes even executed? Offered: jointly with LSJ 476.

**SOC 481 Issues in Analytic Sociology (5, max. 15) I&S** Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

**SOC 482 Issues in Analytic Sociology (3, max. 9) I&S** Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

**SOC 483 Issues in Analytic Sociology (1-3, max. 9) I&S** Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

**SOC 487 Sociology of Gender and Sexuality (5) I&S** Addresses the intersection of gender and sexuality in U.S. society, social institutions and movements, families, and the individual. Topics include the history of sexuality as practiced and politicized since colonial times, major theoretical approaches to sexuality, and how gender and other social status characteristics influence the meanings of sexuality.

**SOC 490 The Urban Underclass (5) I&S** Examines underlying issues which have led to the emergence and perpetuation of an underclass within an affluent society. Explores some of the consequences for these people and for this society. Considers policies that might be used to address problems of the urban underclass.

**SOC 492 Sociology of Education (5) I&S** Emphasizes the ways in which schools and colleges reproduce, reinforce, and challenge prevailing social, economic, and political relationships. Examines the structures, practices, content, and outcomes of schooling and its relationship to the wider society as well as the rise and dynamics of the modern education system.

**SOC 494 Practicum in Sociology (5, max. 15)** Exploration of selected sociological concepts or problems through advanced practical experience in research, internships, or other applications. Topics vary.

**SOC 495 Honors Senior Thesis (1-5, max. 5) I&S** Preparation of senior honors thesis. Sociology majors only.

**SOC 496 Honors Senior Seminar ([3/5]-) I&S** Exploration of selected sociological problems with emphasis on research experience and the interpretation of data. For sociology majors only, primarily for honors students. Offered: A.

**SOC 497 Honors Senior Seminar (-[3/5]-) I&S** Exploration of selected sociological problems with emphasis on research experience and the interpretation of data. For sociology majors only, primarily for honors students. Offered: W.

**SOC 499 Undergraduate Independent Study or Research (2-5, max. 10)** Credit/no credit only.

**SOC 500 Teaching Sociology as a Teaching Assistant (1)** Techniques of quiz section administration, advising of students, and student evaluation important to successful teaching as a Teaching Assistant. Students develop presentations and classroom materials and develop and

grade student examinations. Credit/no credit only. Prerequisite: admission to graduate program in sociology.

**SOC 501 Proseminar (1-3, max. 3)** Introduction for first-year graduate students to substantive areas of sociology, research and information resources, and issues in graduate education and professional socialization. Credit/no credit only. Offered: AWSp.

**SOC 502 Seminar on Teaching Sociology (3)** Techniques of lecturing, leading discussion, evaluating student performance, and other pedagogical skills ancillary to successful teaching. Students develop a course and obtain videotaped feedback of presentations. Prerequisite: completion of MA.

**SOC 503 Seminar on Writing Social Science (3)** Techniques, skills, and strategies helpful for publishing in the social sciences. Includes writing and revision of own work and evaluation of the writing of other students. Also includes social scientific analysis of writing and other forms of academic communication. Prerequisite: completion of MA.

**SOC 504 Applied Social Statistics (3-) I&S** Applications of statistics in sociology and related social sciences. Emphasis on problems of analysis with imperfect data. Probability in statistical inference. Analysis of variance; contingency table analysis, nonparametric procedures; regression analysis in social research.

**SOC 505 Applied Social Statistics (-3) I&S** Applications of statistics in sociology and related social sciences. Emphasis on problems of analysis with imperfect data. Probability in statistical inference. Analysis of variance; contingency table analysis, nonparametric procedures; regression analysis in social research.

**SOC 506 Methodology: Quantitative Techniques in Sociology (3) I&S** Applied regression analysis with emphasis on interactive computer graphics techniques and interpretation. Application to typical sociological problems. Offered: jointly with CS&SS 507.

**SOC 507 Statistical Classification and Measurement (3)** Application of statistical principles and methods to problems of classification and measurement in social research.

**SOC 508 Logic of Social Inquiry (3)** Study design from problem formulation to the analysis and interpretation of data.

**SOC 509 Practicum in Data Analysis (3)** Introduction to selected programs for data analysis and practice in their application. Practice in coordination research problem, data, and mode of analysis into a coherent, interrelated set. Interpretation of results. Offered: A.

**SOC 510 Seminar in Sociological Theory (3)** Macrosociological theories; functionalism and neoevolutionism; conflict and consensus approach; comparative strategies; models and long-range theories; ideology and sociology. From Marx and de Tocqueville to contemporary literature.

**SOC 511 Classical Social Theory (3)** Study of classical masters of social theory: Marx,

Durkheim, and Weber, their precursors, and their immediate successors.

**SOC 513 Demography and Ecology (3)** *Hirschman* Theories and research on human fertility, mortality, mobility, migration, and urbanization in social/economic context. Comparative and historical materials on Europe, the United States, and the Third World. Offered: jointly with CSDE 513.

**SOC 514 Current Theories in Social Psychology (3)** Broad graduate-level introduction to the theories in the field of social psychology.

**SOC 515 Current Research in Social Psychology (3)** *Howard* Broad graduate-level introduction to the research in the field of social psychology.

**SOC 516 Organizations (3)** Broad graduate-level introduction to the theory and research on complex organizations.

**SOC 517 Deviance and Social Control (3)** Survey of current research on deviant behavior and mechanisms of social control; definitions and forms of deviant behavior, causal analysis, and legal or other methods of social control.

**SOC 518 Social Stratification (3)** Intensive preparation in theoretical, methodological, and substantive topics in social stratification.

**SOC 519 Fieldwork: Observation and Interviewing (3) I&S** Perspective, logic, and techniques of qualitative social research and analysis. Nature and uses of intensive interviewing, participant observation, and analytic ethnography. Application of field research principles. Research project required in addition to reading and analysis of classic studies.

**SOC 520 Fieldwork: Observation and Interviewing (-3)** Logic and techniques of qualitative social research and analysis. Intensive interviewing, participant observation, qualitative data analysis (including applications of data base technology, problem reformulation, and techniques of visual documentation). Results of student work reported and discussed in class.

**SOC 526 Causal Approach to Theory Building and Data Analysis (3)** Theory construction and testing from a causal models perspective. Path analysis, standardized versus unstandardized measures, feedback models, identification problems, estimation in overidentified models, difference equations, differential equations, stability conditions. Multiplicative models as alternatives to additive ones. Causal approach to measurement error.

**SOC 527 Measurement of Basic Sociological Concepts (3)** Conceptualization and measurement problems in sociology, using major concepts as illustrations of basic issues. Causal approach to measurement to deal with problems of indirect measurement, cross-level measurement problems, aggregation and disaggregation. Consequences of crude measurement for data analyses. Prerequisite: SOC 504; recommended: SOC 506.

**SOC 528 Seminar on Selected Statistical Problems in Social Research (3)** *Raftery* Prerequisite: SOC 506.

**SOC 529 Structural Equation Models for the Social Sciences (3)** Structural equation models for the social sciences, including specification, estimation, and testing. Topics include path analysis, confirmatory factor analysis, linear models with latent variables, MIMIC models, non-recursive models, models for nested data. Emphasizes applications to substantive problems in the social sciences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with CS&SS 526.

**SOC 535 Research Issues in Demography and Population Studies (1-2, max. 7)** Interdisciplinary seminar on current research issues in demography and population studies. Critical analysis and discussion of readings drawn from anthropological, economic, geographic, and sociological approaches.

**SOC 536 Analysis of Categorical and Count Data (3)** *Raftery* Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with STAT 536/CS&SS 536.

**SOC 537 Modeling Emergence: Social Simulation (3)** Seminar and practicum in computational modeling of social processes with emphasis on using agent-based simulation models to investigate and refine theory.

**SOC 539 Selected Topics in Demography and Ecology (3, max. 9)** Specialized problems in demography or ecology are covered; for example, migration, fertility, mortality, language, race and ethnic relations, metropolitan community. See quarterly announcement for specific problem to be covered.

**SOC 542 Selected Topics in Group Processes (3)** Theories, methodology, and studies in the area of small-group research. Prerequisite: permission of instructor for nonmajors.

**SOC 543 Seminar on Group Solidarity (3)** Interdisciplinary perspectives on solidarity, focusing on member commitment, group structure, and contributions to collective goals.

**SOC 547 Social Cognition and Attribution (3)** Theories and research on social cognition and attribution. Theoretical and methodological debates on cognition. Sociological aspects of attribution. Prerequisite: SOC 514 or equivalent.

**SOC 550 Changing Patterns of Family Organization (3)** History of the family with emphasis on changes in European and American families since 1600. Concomitant changes in other institutions and their relation to changes in the family.

**SOC 551 Family and Gender Relations (3)** Overview of major research findings on marriage, the family, and gender, including demographic trends, the place of children in society, courtship, the internal management of intimate relationships, divorce, and social policy.

**SOC 553 Seminar on Gender and Sexuality (3)** Research seminar considering theoretical and empirical approaches to sexuality, with particular attention to the importance of gender. Examines the social control of sexuality by the state and

by families, as well as social meanings of sexuality within social movements related to various aspects of sexuality.

**SOC 554 Seminar in the Sociology of Religion (3)** Survey of significant and active areas of theory and research in contemporary social scientific studies of religion.

**SOC 555 Methods in Macro, Comparative, and Historical Sociology (3)** Systems of conducting research with qualitative methods brought to bear on broad questions.

**SOC 559 Seminar on Gender Roles (3)** Broad graduate-level introduction to theoretical issues concerning gender and society. Current state of empirical knowledge on the sociology of gender and strategies for research. Cross-cultural variations in conception of gender roles and how gender intersects with social institutions and social interactions.

**SOC 562 Seminar in Comparative Race Relations (3)** Cross-cultural approach to race and ethnic relations, including case studies from Africa and Latin America. Prerequisite: graduate standing in social sciences.

**SOC 565 Inequality: Current Trends and Explanations (3)** Discussion of recent growth in economic inequality in the U.S. and competing explanations for these new trends through examination of labor market demographics, industrial composition and restructuring, and the broader political context that impacts policies like minimum wage, strength of unions, and foreign trade. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with CS&SS 565.

**SOC 566 Seminar in Complex Organizations (3)** Special topic seminars in the field of complex organizations or industrial sociology.

**SOC 567 Seminar in Complex Organizations (3)** Special topic seminars in the field of complex organizations or industrial sociology.

**SOC 568 Social Mobility (3)** Description and measurement of social mobility. Determinants of mobility and cross-national comparisons. Consequences of mobility for social behaviors. Emphasizes movement from the socioeconomic position of family of origin to adult position. Prerequisite: SOC 518.

**SOC 569 Demographic Studies of Stratification (3)** Overview of development of models of socioeconomic achievement ("status attainment" paradigm) in the field of stratification. Begins with work of Blau and Duncan. Covers elaboration of basic models to include race and ethnicity, social psychological variables, class, school and labor market effects, and other structural variables. Prerequisite: SOC 513, SOC 518.

**SOC 570 Seminar on Environmental Sociology (3)** Perspectives on environmental sociology, with emphasis on the social construction of environmental problems. European and American schools of thought and their implications for environmental policy. Examination of global and regional issues in the context of risk society. Offered: jointly with CFR 570; A.

**SOC 574 Seminar in Methods of Criminological Research (3)** Provides training in the

technical analysis of published research in criminology; designs and processes studies in parole prediction, prediction of prison adjustment, and prediction of treatment effect.

**SOC 575 Social Movements: Politics and Organization (3)** Theoretical perspectives and research on the dynamics of national social movements from a macrosociological perspective. Introduces dominant models that stress organizational and political processes, with some examination of approaches that consider the intersection of politics, organization, and culture. Emphasis on the United States.

**SOC 581 Special Topics in Theory and the History of Sociological Thought (3, max. 9)** Examination of current topics in theory and the history of sociological thought. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 582 Special Topics in Research Methods and Statistical Analysis in Sociology (3, max. 9)** Examination of current topics in research methods and statistical analysis in sociology. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 583 Special Topics in Demography and Ecology (3, max. 9)** Examination of current topics in demography and ecology. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 584 Special Topics in Social Psychology (3, max. 9)** Examination of current substantive topics in social psychology. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 585 Special Topics in Marriage and Family (3, max. 9)** Examination of current substantive topics in marriage and the family. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 586 Special Topics in Organization and Industrial Sociology (3, max. 9)** Examination of current substantive topics in organizational and industrial sociology. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 587 Special Topics in Deviance and Social Control (1-3, max. 9)** Examination of current substantive topics in deviance and social control. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 588 Special Topics in Stratification and Race Relations (3, max. 9)** Examination of current substantive topics in stratification and race relations. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 589 Special Topics in Macrosociology (3, max. 9)** Examination of current substantive topics in macrosociology. Content varies according to recent developments in the field and the interests of the instructor.

**SOC 590 Special Topics in Sociology (1-3, max. 9)** Examination of current substantive topics in sociology. Content varies according to recent developments in the field and the interests of the instructor. Topics covered in

courses with this number lie outside those covered by other special topics courses numbered 581 through 589.

**SOC 591 Political Sociology (3)** Introduction to political sociology, considering the rise of the modern state, power, political organization, social movements, and other related topics.

**SOC 600 Independent Study or Research (\*)** Credit/no credit only.

**SOC 700 Master's Thesis (\*)** Credit/no credit only.

**SOC 800 Doctoral Dissertation (\*)** Credit/no credit only.

---

## Speech and Hearing Sciences

**SPHSC 100 Voice and Articulation Improvement (3) VLPA** For native speakers of English only. Voice production and the sound system of standard American speech. Speech standards, regional and social dialects, voice quality and basic language-oriented characteristics. Practice for improving speech style. May not be repeated. Offered: AWSpS.

**SPHSC 111 The American English Sound System (2, max. 4)** For non-native speakers of English only. Speech sounds of American English. Practice in listening and using American speech sounds and intonation patterns. Credit/no credit only. Offered: AWSpS.

**SPHSC 161 The Science of Auditory Space (5) NW Stecker A** hands-on introduction to the scientific method exploring the abilities of human listeners to localize sounds in space. Students will develop questions and hypotheses, design and run experiments, and evaluate evidence for and against candidate explanations of human auditory performance. Activities include classroom experiments and computer exercises. Offered: A.

**SPHSC 250 Human Communication and Its Disorders (5) I&S/NW** Overview of normal and impaired human communication, including speech, language, and hearing disorders. Required for majors, open to nonmajors. Offered: AS.

**SPHSC 261 The Nature of Sound (4) NW** Fundamental principles of sound and vibration with emphasis on examples relevant to the speech and hearing systems. Required for majors; open to nonmajors. Recommended: MATH 101. Offered: W.

**SPHSC 300 Introduction to the Science of Learning: From Biology to Behavior (5) NW Kuhl** Introduction to research on human learning, taking advantage of new findings in neuroscience and behavior to examine learning from early infancy to advanced adulthood. Follows historical descriptions and studies of learning to modern formulations that include how the brain unconsciously reacts to and stores information. Offered: Sp.

**SPHSC 302 Phonetics (3) VLPA** Introduction to the description and classification of speech sounds with a focus on American English. Phonetic analysis of segmental and suprasegmental properties of speech. Practice

using the International Phonetic Alphabet to transcribe normal and disordered speech patterns. Required for majors; open to nonmajors. Prerequisite: either SPHSC 303, LING 200, or LING 400. Offered: W.

**SPHSC 303 Language Science (3) VLPA** Introduction to techniques of linguistic analysis used in the study of phonology, morphology, syntax, and semantics. Required for majors; open to nonmajors. Offered: A.

**SPHSC 304 Developmental Aspects of Communication (5) I&S** Patterns of communicative development in English speaking children and adolescents. Introduction to the study of language and communication from a developmental perspective. Application to children with various types of communication impairments. Required for majors; open to nonmajors. Prerequisite: either SPHSC 303, ANTH 203, LING 200, or LING 400; may not be repeated. Offered: Sp.

**SPHSC 305 Speech and Language Disorders (5) NW** Etiology and nature of developmental and acquired communication disorders across the lifespan. Behavioral characteristics of language delay and disorders, developmental apraxia of speech, phonological disorders, stuttering, acquired aphasia, apraxia of speech and dysarthria, craniofacial anomalies, and voice disorders. Required for majors; open to nonmajors. Prerequisite: SPHSC 302; SPHSC 304; SPHSC 320. Offered: A.

**SPHSC 308 Social-Cultural Aspects of Communication (3) I&S** Introduction to human communication in context. Exploration of ways communication is influenced by context, including situational, social/interpersonal, and cultural variables. Studies systems and cultural practices as they influence communication. Required for majors; open to nonmajors. Offered: WSu.

**SPHSC 320 Anatomy and Physiology of Speech (5) NW** Anatomy and physiology of the respiratory, laryngeal, and articulatory systems. Examples and laboratory work are directed toward clinical issues in Speech-Language Pathology. Required for majors; open to nonmajors. Offered: Sp.

**SPHSC 371 Hearing Disorders (3) I&S/NW** Introduction to abnormal hearing. Pathologies of the ear and their treatments. Audiometric correlates, communicative and social consequences of hearing loss. Overview of management of children and adults. Required for majors; open to nonmajors. Offered: ASpS.

**SPHSC 391 Practicum in Audiology (1-4, max. 10)** Guided experiences in audiological assessment and aural rehabilitation of children and adults. Credit/no credit only. Offered: AWSpS.

**SPHSC 405 Diagnosis of Speech and Language Disorders (3) NW** Principles and procedures for the diagnosis of speech and language disorders. Required for majors. Prerequisite: SPHSC 305. Offered: W.

**SPHSC 406 Treatment of Speech and Language Disorders (4) NW** Principles and procedures for planning, implementing, and evaluating treatment for speech and language disorders. Required for majors. Prerequisite: SPHSC 405; may not be repeated. Offered: SpS.

**SPHSC 411 Perceptual Development (5) I&S/NW Meltzoff** Origins and development of perception in human infancy. Object, face, and speech perception; cross-modal relations between touch, vision, audition. Prerequisite: 2.0 in either PSYCH 206, PSYCH 306, or PSYCH 414. Offered: jointly with PSYCH 411.

**SPHSC 425 Speech, Language, and the Brain (5) NW** Historical perspectives and current research on speech acoustics, speech perception, and brain processing of speech information; speech development; techniques used in speech analysis; machine recognition of speech; brain imaging techniques, animal communication systems; speech evolution; implications for impaired populations. May not be repeated. Offered: A.

**SPHSC 445 Models of Speech Processing (3) NW** Examines models and basic issues concerning how spoken language is processed. Presents current issues, theories, and research relative to the levels of processing entailed in producing and comprehending speech. Required for majors; open to nonmajors. Recommended: SPHSC 302; SPHSC 303; SPHSC 320; SPHSC 425. Offered: SpS.

**SPHSC 449 Special Studies in Speech Pathology and Audiology (\*, max. 30)** Selected special problems in speech pathology and audiology. Offered: S.

**SPHSC 461 Introduction to Hearing Science (5) NW** Basic aspects of hearing and the ear and auditory nervous system. How the auditory system constructs an image of the acoustic environment. How attention and memory influence hearing. Effects of damage to the auditory system. Prerequisite: either SPHSC 261 or PSYCH 333. Offered: Sp.

**SPHSC 462 Hearing Development (3) NW** Description of the changes that occur in human hearing during development. Consideration of the possible explanations for early immaturity. Prerequisite: SPHSC 461; may not be repeated. Offered: even years; A.

**SPHSC 471 Basic Audiometry (5) NW** Theory and practice of the assessment of hearing function, including standard pure-tone audiometry, speech audiometry, and basic impedance audiometry. Required for majors. Prerequisite: SPHSC 371; SPHSC 461; may not be repeated. Offered: AWS.

**SPHSC 481 Management of Hearing Loss (4) NW** Introduction to methods of communicative rehabilitation of person with hearing loss. Remediation principles of auditory and visual perception, amplification, communication strategies, and information counseling. Required for majors. Prerequisite: SPHSC 471; may not be repeated. Offered: WSp.

**SPHSC 491 Audiology Practicum in Schools (2)** Special projects in clinical audiology practicum, offered only in the school setting. Provides an opportunity for students to extend audiology practicum experiences into the school environment. Prerequisite: SPHSC 471. Offered: AS.

**SPHSC 499 Undergraduate Research (1-5, max. 15)** Offered: AWSpS.

**SPHSC 500 Clinical Methodology for Documenting Change (4)** Introduction to clinical methodology for examining efficacy of

treatments for individuals with communication problems. Students consider nature of intervention designed to alter communication disorders and types of accountability questions that need to be raised. They learn methodology for collecting and analyzing data to document effectiveness, effects, and efficiency of treatments.

**SPHSC 501 Neural Bases of Speech, Language, and Hearing (4)** Neuroanatomical and neurophysiological bases of language, hearing, sensory, and motor function. Special emphasis given to brain behavior correlates and behavioral consequences to speech, language, and hearing as a result of neurologic injury or disease.

**SPHSC 502 Advanced Anatomy of Speech and Hearing Structures (2)** Directed independent dissection and study of selected anatomic structures of the speech or hearing mechanisms.

**SPHSC 503 Current Issues in Speech and Hearing Sciences (3)** Application of experimental methods to research in speech and hearing sciences.

**SPHSC 504 Research Methods in Speech and Hearing Sciences (3)** Introduction to empirical methods in the speech and hearing sciences.

**SPHSC 505 Clinical Research in Communication Disorders (3)** Introduction to clinical research. Methodological issues concerning the evaluation of treatment for speech, hearing, and language disorders. Primary emphasis on time series designs. Prerequisite: SPHSC 504 or permission of instructor.

**SPHSC 506 Evidence-based Practice in Speech-Language Pathology I (3)** *Eadie* Examines empirical methods in speech-language pathology research. Included an introduction to principles of evidence-based practice. Includes evaluation and design of different types of research such as descriptive (e.g., case study, developmental, qualitative, surveys), exploratory (e.g., correlational, differential), and experimental (e.g., single-subject designs, randomized control trials, treatment efficacy studies). Offered: A.

**SPHSC 507 Evidence Based Practice II (2)** *Dowden* Examines use of "internal" evidence collected by clinicians for decision-making in Speech-Language Pathology, according to Evidence Based Practice principles. Builds upon SPHSC 500 and 506, preparing student to apply EBP model to treatment of speech/language disorders. Prerequisite: SPHSC status, or permission of instructor. Offered: .W.

**SPHSC 508 Evidence Based Practice III (2)** *Dowden* Develops Critically Appraised Topics (CATs) to examine evidence for clinically relevant questions, issues, and topics. Builds upon SPHSC 500, SPHSC 506, and SPHSC 507, preparing students to apply Evidence Based Practice principles to decision-making in Speech-Language Pathology. Prerequisite: graduate status in SPHSC or permission of instructor. Offered: Sp.

**SPHSC 509 Advanced Hearing Science (3)** *Souza* Consideration of physiological acoustics and psychoacoustics, the pertinent literature, and the experimental techniques related to study in these areas. Offered: A.

**SPHSC 510 Physiological Acoustics (3)** Study of pertinent literature and experimental techniques incident to the physiology of the normal and abnormal auditory system. Prerequisite: SPHSC 461.

**SPHSC 511 Psychoacoustics (3)** Review of significant literature and theory pertinent to normal auditory sensitivity, pitch, loudness, and other attributes of auditory sensation. Prerequisite: SPHSC 461, SPHSC 510.

**SPHSC 514 Speech Physiology (3)** Study of the physiological parameters of acoustic speech production. Prerequisite: SPHSC 320, SPHSC 461.

**SPHSC 515 Speech Acoustics (3)** Study of the acoustical correlates of the distinctive parameters of speech. Prerequisite: SPHSC 320, SPHSC 461, SPHSC 514.

**SPHSC 516 Speech Perception (3)** Study of the perceptual and linguistic parameters of speech perception. Prerequisite: SPHSC 320, SPHSC 461, SPHSC 515.

**SPHSC 519 Seminar in Speech Science (2, max. 6)**

**SPHSC 520 Advanced Instrumentation for Speech and Hearing Sciences (3)** Design and use of electronic and electroacoustic devices in the speech and hearing sciences. Four hours of laboratory required each week.

**SPHSC 521 Instrumentation for Audiology (4)** Introduction to basic instrumentation used in audiology and hearing science; detailed instruction in audiometer calibration including a review of current national and international standards pertinent to audiology; emphasis on use rather than theory. Prerequisite: permission of instructor.

**SPHSC 522 Hearing Instrument Modification/Repair (1)** Minor repair of hearing aids or associated accessories. Includes operation of hand tools and small power tools used in repair. Familiarity with different materials used to make or repair hearing aids/accessories. Troubleshooting damaged, malfunctioning, or inoperative instruments. Interpreting acoustic and electroacoustic test results to aid in troubleshooting or repair.

**SPHSC 523 Special Topics (3)** Applied and theoretical issues related to audiology. Weekly seminar includes guest speakers discussing current and future trends in science that relate to hearing and the practice of audiology.

**SPHSC 525 Speech Signal Processing (3)** Theory, evaluation, and use of speech signal processing algorithms such as sampling, filtering, spectral analysis, autocorrelation, and speech synthesis. Laboratory assignments develop skills in using signal analysis and synthesis software applied to normal and pathological speech.

**SPHSC 526 Assessment and Treatment of Literacy Disorders (4)** *Betz* Examines the principles and procedures used in the assessment and treatment of literacy disorders with an emphasis on childhood literacy disorders as well as the relationship between verbal language impairment and literacy skills. Prerequisite: SPHSC 536. Offered: W.

**SPHSC 529 Assessment and Treatment of Birth-to-4 Communication Disorders (4)** *Coggins* Examination of measurement concepts, standardized reference measures, and non-standardized assessment tools for communication and related skills in young children. Presents theoretical and empirical bases of prelinguistics and early language interventions. Offered: A.

**SPHSC 530 Assessment and Treatment of Adolescent Communication Disorders(3)** Examines the principles and procedures used in the assessment and treatment of adolescent school-aged speech and language disorders. Prerequisite: SPHSC 303 and SPHSC 304, or equivalent.

**SPHSC 532 Assessment and Treatment of Adult Neurogenic Communication Disorders (4)** Examines the principles and procedures used in the assessment and treatment of adult neurogenic communication disorders. Prerequisite: SPHSC 501 or permission of instructor.

**SPHSC 533 Medical Speech Pathology (3)** Nature of speech pathology practiced in medical settings. Prerequisite: SPHSC 501, SPHSC 531, and SPHSC 532, or permission of instructor.

**SPHSC 534 Assessment and Treatment of Dysphagia (4)** Anatomophysiologic bases of function and dysfunction associated with speech-language disorders. Mastication and swallowing problems, their causes, assessments, and management. Prerequisite: SPHSC 501 or permission of instructor.

**SPHSC 535 Assessment and Treatment of Voice Disorders (4)** Physiology, acoustics, and perception of voice quality and speech resonance. Etiology, evaluation, and treatment of voice and resonance disorders.

**SPHSC 536 Assessment and Treatment of Elementary School-Age Communication Disorders (4)** Examines the principles and procedures used in the assessment and treatment of elementary school-aged speech and language disorders.

**SPHSC 537 Fluency Disorders (4)** Characteristics of fluent speech and the nature and treatment of stuttering in children and adults are studied in relation to normal speech production processes, human learning, principal explanations of stuttering, and treatment systems.

**SPHSC 539 Childhood Speech and Phonological Disorders (4)** Examines patterns of normal speech and phonological development and the nature, assessment, and treatment of speech and phonological disorders of childhood.

**SPHSC 540 Augmentative and Alternative Communication - Development (4)** *Dowden* Evaluation and intervention for children and adults with severe congenital speech and language impairments. Examines decision-making and treatment, using multi-modal communication strategies, from low-tech books, and picture exchange to complex voice output systems. Prerequisite: graduate SPHSC, REHAB, or EDSPE students, or permission of instructor. Offered: W.

**SPHSC 541 Augmentative and Alternative Communication: Acquired (4)** *Dowden* Evaluation and intervention for severe acquired speech/language impairments. Covers decision-

making and treatment for individuals who sustained a stroke, traumatic brain injury, or degenerative disease. Solutions include multimodal strategies, from books to voice output systems. Prerequisite: SPHSC 540 or permission of instructor. Offered: Sp.

**SPHSC 542 Counseling and Interactive Skills for Speech-Language Pathologists and Audiologists (3)** Introduction to counseling theory and practice in speech-language pathology, audiology, and related fields. Provides opportunities for learning and practicing counseling skills. Addresses key counseling issues, including professional boundaries, intense emotions, and counselor's feelings and reactions. Prerequisite: graduate standing or permission of instructor.

**SPHSC 543 Assessment and Treatment of Pediatric Dysphasia (3)** *Faherty, Pinder* Examines principles and procedure used in the assessment and treatment of pediatric swallowing and feeding disorders. Covers clinical and instrumental assessment techniques and evidenced-based intervention strategies applicable to the infant/child across different pediatric practice settings. Prerequisite: SPHSC 501; SPHSC 530; SPHSC 534; or permission of instructor. Offered: S.

**SPHSC 545 Assessment and Treatment of Voice Disorders in Medical Settings (4)** *Eadie, Nevdahl* Examines the principles and procedures used in assessment and treatment of voice disorders typically seen in medical settings, with a focus on instrumentation such as use of interpretation of laryngeal imaging, acoustics, and perceptual measures. Prerequisite: SPHSC 535. Offered: A.

**SPHSC 546 Advanced Neurological Language Disorders (4)** Nature, assessment, and treatment of acquired language disorders, including aphasia, alexia, and agraphia. Prerequisite: SPHSC 501; SPHSC 502; or permission of instructor. Offered: Sp.

**SPHSC 547 Management of Acquired Cognitive Disorders (2)** Epidemiology, neuropathology, assessment, and management of acquired cognitive disorders. Focus on traumatic brain injury in adults and children, dementia, and right brain injury. Prerequisite: SPHSC 501 and SPHSC 532.

**SPHSC 549 Clinical Forum (1-3)** Culminating presentation for faculty and staff. Participation in the following activities: review of literature pertinent to patient population, data collection for treatment, data analyses, efficacy analyses. Offered: AWSpS.

**SPHSC 550 Public School Speech-Language Pathology and Audiology (3)** *Sargent, Siva* Explores administrative, legal, ethical, and clinical issues encountered in implementing programs to remediate communication disorders in the school-aged population in the public school setting. Open to non-matriculated students with permission of instructor. Prerequisite: graduate student status in speech and hearing sciences or permission of instructor. Offered: A.

**SPHSC 551 Advanced Practicum in Speech Pathology Evaluation (1-10, max. 10)** Laboratory experience in the evaluation of speech and language disorders. Credit/no credit only. Prerequisite: SPHSC 536 and permission of instructor.

**SPHSC 552 Advanced Practicum in Speech Pathology Management (1-10, max. 10)** Laboratory experience in the management of speech and language disorders. Credit/no credit only. Prerequisite: permission of instructor.

**SPHSC 553 Advanced Practicum in Speech-Language Pathology (2-4)** Clinical practicum experience, completed under the supervision of UW Speech and Hearing Clinic professionals, focused on the evaluation and treatment of speech, language, cognitive-communication and swallowing disorders. Offered: AWSpS.

**SPHSC 554 Advanced Offsite Practicum in Speech-Language Pathology (2-10)** Offsite clinical practicum experience, completed under the supervision of community-based clinical professionals, focused on the evaluation and treatment of speech, language, cognitive-communication and swallowing disorders. Offered: AWSpS.

**SPHSC 555 Preinternship in Speech and Hearing Sciences (1-10, max. 10)** Practicum in speech pathology or audiology designed to teach the clinical regimen of a participating professional center prior to assuming a full internship assignment. Credit/no credit only.

**SPHSC 560 Studies in Speech Science and Disorders (3)** Examines contemporary models and research paradigms in speech science and disorders. Topics include respiratory physiology, laryngeal physiology, aerodynamics of speech production, articulatory dynamics, speech acoustics, and speech perception.

**SPHSC 561 Studies in Hearing Sciences and Disorders (3)** Examines contemporary models and research paradigms in the area of hearing science and disorders. Topics include psychoacoustics; amplification; electrophysiological evaluation; physiological acoustics; and perceptual consequences of hearing loss.

**SPHSC 562 Studies in Language Science and Disorders (3)** Examines research in the area of language science and disorders including word recognition and production; storage of retrieval of word form and meaning; comprehension and production of sentences and discourse; and language in social context. Topics examined relative to development, language impairments, and normal language processing.

**SPHSC 563 Proseminar: Instructional Development Forum (1, max. 3)** *Olswang* Emphasizes instructional techniques and issues as they relate to teaching in the discipline of communication sciences and its disorders. Topics include course development, grading, student-faculty relations, teaching methods, and diversity. Credit/no credit only. Prerequisite: graduate standing in Speech and Hearing Sciences.

**SPHSC 564 Teaching Practicum (1-5, max. 5)** Provides experience in preparing and giving lectures, leading discussions, preparing and grading assignments and tests, and working directly with undergraduate and graduate students. Prerequisite: doctoral student standing and permission of instructor. Credit/no credit only. Offered: AWSpS.

**SPHSC 565 Speech and Language Pathology Proseminar (1, max. 6)** Consideration of professional issues and student and faculty research. Credit/no credit only.

**SPHSC 566 Seminar in Speech-Language Development (2, max. 6)** Prerequisite: permission of instructor.

**SPHSC 567 Research Seminar in Speech and Hearing Sciences (1)** A platform for the presentation and exchange of scientific information (research data, new hardware and hardware development, scientific papers) resulting from ongoing research projects by graduate students and faculty within the Speech and Hearing Sciences department. Credit/no credit only.

**SPHSC 568 Grant Writing in Hearing, Language, and Speech Science (3)** Design and writing of grant proposals in speech, language, and hearing sciences and disorders. Explanation of the funding process at various agencies, particularly the National Institutes of Health. Students prepare a proposal and review the proposals of their peers. Prerequisite: upper-level doctoral standing and permission of instructor.

**SPHSC 569 Seminar in Speech-Language Pathology (2, max. 6)**

**SPHSC 570 Assessment of Auditory Dysfunction I (4-)** Strategies and procedures in the auditory evaluation of hearing-impaired adults. Use of diagnostic tests in the evaluation of auditory pathologies. Laboratory required. Prerequisite: SPHSC 471.

**SPHSC 571 Assessment of Auditory Dysfunction II (-4)** Strategies and procedures in the auditory evaluation of hearing-impaired adults. Use of diagnostic tests in the evaluation of auditory pathologies. Laboratory required. Prerequisite: SPHSC 471.

**SPHSC 572 Pediatric Audiology (3)** Assessment of auditory disorders in infants and young children. Emphasis on behavioral and electrophysiologic techniques and on the role of the audiologist in the clinical management of the young hearing-impaired child. Prerequisite: SPHSC 471 or equivalent.

**SPHSC 574 Assessment of Balance Function (4)** Examines normal anatomy and physiology of the peripheral and central vestibular system. Reviews peripheral and central vestibular disorders and treatment protocols. Major focus of assessment on electronystagmography with associated lab. Provides overview of rotational and posturography measures of balance function. Prerequisite: permission of instructor.

**SPHSC 575 Medical Backgrounds in Audiology (3)** Diseases and injuries of the ear resulting in reduced audition. Prerequisite: SPHSC 571 or permission of instructor.

**SPHSC 576 Otoacoustic Emissions (2)** Consideration of otoacoustic emissions and the physiologic techniques used to record them. Includes interpretation of responses in both the normal and disordered auditory system as well as clinical application of emissions in both adult and infant populations. Laboratory required. Prerequisite: SPHSC 571, SPHSC 572, and SPHSC 573, or permission of instructor.

**SPHSC 577 Industrial and Community Hearing Conservation (2)** Psychophysiological effects of environmental noise on man. Techniques of noise measurement and attenuation, including the planning of hearing conservation programs in industry and in the

community. Prerequisite: SPHSC 471 or permission of instructor.

**SPHSC 578 Hearing Screening (2)** Consideration of hearing screening programs and the statistical techniques used to evaluate them. Includes history, rationale, and technical aspects of hearing screening as well as current models for developing neonatal, school-age, and adult hearing screening programs. Prerequisite: SPHSC 572, SPHSC 573, and SPHSC 576, or permission of instructor.

**SPHSC 579 Geriatric Audiology (2)** Examines the biological, psychological, and social aspects which are normal correlates of the aging process, and those changes which are disorders. Emphasizes the identification and diagnosis of hearing problems associated with the aging process and its rehabilitation. Prerequisite: SPHSC 571.

**SPHSC 580 Rehabilitative Audiology (3)** Explores technology to enhance communication effectiveness of hearing impaired persons. Selection and training in the use of assistive systems and cochlear implants. Advanced perception assessment and training methodology. Discussion and application of aural rehabilitation in different settings. Explores the Americans with Disabilities Act and assistive listening devices. Prerequisite: SPHSC 571 and SPHSC 583.

**SPHSC 581 Management of Hearing-Impaired Children (2)** Management of hearing-impaired children, including identification of target behaviors and methods for modification such as individualized therapy programs and parent and teacher involvement.

**SPHSC 582 Hearing Aid Amplification (4)** Acoustic amplification and methods of determining electroacoustic characteristics. Includes earmold technology. Prerequisite: SPHSC 471 and SPHSC 570 or permission of instructor.

**SPHSC 583 Hearing Aid Selection (4)** Consideration of strategies utilized in selecting acoustic amplification for the hearing impaired, including review of pertinent research literature. Prerequisite: SPHSC 582 or permission of instructor.

**SPHSC 584 Advanced Amplification (3)** Current topics in hearing aids and amplification technology; review of pertinent research articles. Prerequisite: SPHSC 582, 583.

**SPHSC 585 Pediatric Amplification (2)** Consideration of strategies utilized in selecting and verifying acoustic amplification for infants and children, including review of pertinent research literature. Prerequisite: SPHSC 582 or permission of instructor.

**SPHSC 586 Cochlear Implants (2)** Basics of cochlear implant technology and programming strategies. Evaluation of prospective users, monitoring, and coupling with other devices. Rehabilitation techniques and materials.

**SPHSC 587 Ethics (1)** Analysis and discussion of ethical considerations in the clinical practice of audiology, codes of professional organizations, and additional consideration of research ethics and ethics in neonatal hearing screening.

**SPHSC 588 Audiology Proseminar (1, max. 3)** Consideration of professional issues and

student/faculty research in specific areas of interest. Credit/no credit only.

**SPHSC 589 Seminar in Audiology (2, max. 6)** Prerequisite: permission of instructor.

**SPHSC 590 Cerumen Management for Audiologists (1)** Review of anatomy and physiology of the external auditory canal. Examination of the physiology and pathophysiology of cerumen. Instrumentation of examining and cleaning the ear canal. Cerumen management procedures including otoscopy with normal and abnormal findings. Contraindications for cerumen management. Discussion of scope of practice, medical/legal issues, and reimbursement.

**SPHSC 591 Advanced Practicum in Audiology (1-10, max. 10)** Credit/no credit only. Prerequisite: permission of instructor.

**SPHSC 592 Electrophysiologic Assessment I (4)** Consideration of physiologic techniques that may be used to evaluate the normal and disordered auditory system. Outside laboratory required. Prerequisite: SPHSC 461, SPHSC 571.

**SPHSC 593 Electrophysiologic Assessment II (3)** *Tremblay* Examines evoked and event-related potentials including recording techniques, neurophysiological mechanisms, and applications to clinical populations. Offered: Sp.

**SPHSC 595 Cochlear Implants II (2)** *Bierer* Examines cochlear implant fitting procedures, outcomes, and rehabilitation for children and adults. Offered: Sp.

**SPHSC 599 Research Practicum (\*, max. 12)** Supervised laboratory experience in experimental approach to problems in speech and hearing sciences. Prerequisite: permission of instructor.

**SPHSC 600 Independent Study or Research (\*)** Prerequisite: permission of instructor.

**SPHSC 601 Internship (1-10, max. 10)** Supervised field experiences in settings other than public schools. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

**SPHSC 602 Internship in the Schools (3-10, max. 10)** Supervised field experience in a public school setting. Credit/no credit only. Prerequisite: permission of instructor.

**SPHSC 603 Clinical Fellowship (8-12)** Supervised, professional clinical experience. Offered: AWSpS.

**SPHSC 700 Master's Thesis (\*)**

**SPHSC 800 Doctoral Dissertation (\*)**

---

## Statistics

**STAT 111 Lectures in Applied Statistics (1) NW** Weekly lectures illustrating the importance of statisticians in a variety of fields, including medicine and the biological, physical, and social sciences. Contact instructor for information on emphasized fields of applications. Credit/no credit only. Offered: jointly with BIOST 111; Sp.

**STAT 220 Basic Statistics (5) NW, QSR** Objectives and pitfalls of statistical studies.

Structure of data sets, histograms, means, and standard deviations. Correlation and regression. Probability, binomial and normal. Interpretation of estimates, confidence intervals, and significance tests. (Students may receive credit for only one of 220, 311, and ECON 311.) Offered: AWSpS.

**STAT 311 Elements of Statistical Methods (5) NW, QSR** Elementary concepts of probability and sampling; binomial and normal distributions. Basic concepts of hypothesis testing, estimation, and confidence intervals; t-tests and chi-square tests. Linear regression theory and the analysis of variance. (Students may receive credit for only one of 220, 311, and ECON 311.) Prerequisite: either MATH 111, MATH 120, MATH 124, MATH 127, or MATH 144. Offered: AWSpS.

**STAT 316 Design of Experiments and Regression Analysis (4) NW** Introduction to the analysis of data from planned experiments. Analysis of variance for multiple factors and applications of orthogonal arrays and linear graphs for fractional factorial designs to product and process design optimization. Regression analysis with applications in engineering. Prerequisite: IND E 315. Offered: jointly with IND E 316.

**STAT 320 Evaluating Social Science Evidence (5) I&S, QSR** A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with CS&SS 320/SOC 320; A.

**STAT 321 Case-Based Social Statistics I (5) I&S, QSR** Introduction to statistical reasoning for social scientists. Built around cases representing in-depth investigations into the nature and content of statistical and social-science principles and practice. Hands-on approach: weekly data-analysis laboratory. Fundamental statistical topics: measurement, exploratory data analysis, probabilistic concepts, distributions, assessment of statistical evidence. Offered: jointly with CS&SS/SOC 321; W.

**STAT 322 Case-Based Social Statistics II (5) I&S, QSR** Continuation of CS&SS/SOC/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods. Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory. Prerequisite: CS&SS/SOC/STAT 321, or permission of instructor. Offered: jointly with CS&SS/SOC 322; Sp.

**STAT 341 Introduction to Probability and Statistical Inference I (4) NW** Brief review of: sample spaces, random variables, probability. Distribution: binomial, normal, Poisson, geometric. Followed by: expectation, variance, central limit theorem. Basic concepts of estimation, testing, and confidence intervals. Maximum likelihood estimators and likelihood ratio tests, efficiency. Introduction to regression. Prerequisite: STAT/ECON 311; either MATH 126, MATH 129, or MATH 136; STAT/MATH 394. Offered: W.

**STAT 342 Introduction to Probability and Statistical Inference II (4) NW** Brief review of: sample spaces, random variables, probability. Distribution: binomial, normal, Poisson,

geometric. Followed by: expectation, variance, central limit theorem. Basic concepts of estimation, testing, and confidence intervals. Maximum likelihood estimators and likelihood ratio tests, efficiency. Introduction to regression. Prerequisite: STAT 341. Offered: Sp.

**STAT 390 Probability and Statistics in Engineering and Science (4) NW** Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may receive credit for only one of 390, STAT/ECON 481, and ECON 580. Prerequisite: either MATH 126 or MATH 136. Offered: jointly with MATH 390; AWSpS.

**STAT 391 Probability and Statistics for Computer Science (4) NW** Fundamentals of probability and statistics from the perspective of the computer scientist. Random variables, distributions and densities, conditional probability, independence. Maximum likelihood, density estimation, Markov chains, classification. Applications in computer science. Prerequisite: 2.5 in MATH 126; 2.5 in MATH 308; either CSE 326, CSE 373, CSE 417, or CSE 421.

**STAT 394 Probability I (3) NW** Sample spaces; basic axioms of probability; combinatorial probability; conditional probability and independence; binomial, Poisson and normal distributions, central limit theorem. Prerequisite: either 2.0 in MATH 126, or 2.0 in MATH 136; recommended: MATH 324 or MATH 327. Offered: jointly with MATH 394; AWS.

**STAT 395 Probability II (3) NW** Random variables; expectation and variance; laws of large numbers; normal approximation and other limit theorems; multidimensional distributions and transformations. Prerequisite: 2.0 in STAT/MATH 394. Offered: jointly with MATH 395; WSpS.

**STAT 396 Probability III (3) NW** Characteristic functions and generating functions; recurrent events and renewal theory; random walk. Prerequisite: either 2.0 in MATH 395 or 2.0 in STAT 395. Offered: jointly with MATH 396; Sp.

**STAT 403 Introduction to Resampling Inference (4) NW** Introduction to computer-intensive data analysis for experimental and observational studies in empirical sciences. Students design, program, carry out, and report applications of bootstrap resampling, rerandomization, and subsampling of cases. Credit allowed for 403 or 503 but not both. Prerequisite: either STAT 220, STAT 301, STAT/ECON 311, STAT 341, STAT 361, STAT/MATH 390, or STAT/ECON 481. Offered: Sp.

**STAT 421 Applied Statistics and Experimental Design (4) NW** Computer-aided data analyses using comparisons between batches, analysis of variance and regression. Evaluation of assumptions, data transformation, reliability of statistical measures (jackknife, bootstrap). Fisher-Gosset controversy. Prerequisite: either STAT 342, STAT/MATH 390, or STAT/ECON 481; recommended: MATH 308. Offered: A.

**STAT 423 Applied Regression and Analysis of Variance (4) NW** Regression analysis. Problems in interpreting regression coefficients. Estimation, including two-stage least squares. Guided regression: building linear models,

selecting carriers. Regression residuals. Analysis of variance. Nonparametric regression. Factorial designs, response surface methods. Prerequisite: either STAT 342, STAT/MATH 390, STAT 421, or STAT/ECON 481; recommended: MATH 308. Offered: W.

**STAT 425 Introduction to Nonparametric Statistics (3) NW** Overview of nonparametric methods, such as rank tests, goodness of fit tests, 2 x 2 tables, nonparametric estimation. Useful for students with only a statistical methods course background. Prerequisite: STAT/MATH 390. Offered: jointly with BIOST 425; when demand is sufficient.

**STAT 427 Introduction to Analysis of Categorical Data (4) NW** Techniques for analysis of count data. Log-linear models, logistic regression, and analysis of ordered response categories. Illustrations from the behavioral and biological sciences. Computational procedures. Prerequisite: either STAT 342, STAT 362, or STAT 421.

**STAT 428 Multivariate Analysis for the Social Sciences (4) NW** Multivariate techniques commonly used in the social and behavioral sciences. Linear models for dependence analysis (multivariate regression, MANOVA, and discriminant analysis) and for interdependence analysis (principal components and factor analysis). Techniques applied to social science data using computer statistical packages. Prerequisite: either STAT 342, STAT 362, or STAT 421.

**STAT 480 Sampling Theory for Biologists (3) NW** Theory and applications of sampling finite populations including: simple random sampling, stratified random sampling, ratio estimates, regression estimates, systematic sampling, cluster sampling, sample size determinations, applications in fisheries and forestry. Other topics include sampling plant and animal populations, sampling distributions, estimation of parameters and statistical treatment of data. Prerequisite: Q SCI 482; recommended: Q SCI 483. Offered: jointly with Q SCI 480; even years.

**STAT 481 Introduction to Mathematical Statistics (5) NW** Probability, generating functions; the d-method, Jacobians, Bayes theorem; maximum likelihoods, Neyman-Pearson, efficiency, decision theory, regression, correlation, bivariate normal. (Credit allowed for only one of 390, 481, and ECON 580.) Prerequisite: STAT/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. Recommended: MATH 324. Offered: jointly with CS&SS/ECON 481; A.

**STAT 486 Experimental Design (3) NW** Topics in analysis of variance and experimental designs: choice of designs, comparison of efficiency, power, sample size, pseudoreplication, factor structure. Prerequisite: Q SCI 482; recommended: Q SCI 483. Offered: jointly with Q SCI 486.

**STAT 491 Introduction to Stochastic Processes (3) NW** Random walks, Markov chains, branching processes, Poisson process, point processes, birth and death processes, queuing theory, stationary processes. Prerequisite: either 2.0 in MATH 395 or STAT 395. Offered: jointly with MATH 491; A.

**STAT 492 Stochastic Calculus for Option Pricing (3) NW** Introductory stochastic calculus

mathematical foundation for pricing options and derivatives. Basic stochastic analysis tools, including stochastic integrals, stochastic differential equations, Ito's formula, theorems of Girsanov and Feynman-Kac, Black-Scholes option pricing, American and exotic options, bond options. Prerequisite: MATH STAT 394-5. Offered: jointly with MATH 492; W.

**STAT 498 Special Topics (1-5, max. 15) NW** Reading and lecture course intended for special needs of students.

**STAT 499 Undergraduate Research (1-5, max. 15) Offered:** AWSpS.

**STAT 502 Design and Analysis of Experiments (4)** Design of experiments covering concepts such as randomization, blocking, and confounding. Analysis of experiments using randomization tests, analysis of variance, and analysis of covariance. Prerequisite: either STAT 342, MATH/STAT 390, ECON/STAT 481, ECON 580 or equivalent; MATH 308 or equivalent. Offered: A.

**STAT 504 Applied Regression (4)** Least squares estimation. Hypothesis testing. Interpretation of regression coefficients. Categorical independent variables. Interactions. Assumption violations: outliers, residuals, robust regression; nonlinearity, transformations, ACE, CART; nonconstant variance. Variable selection and model averaging. Prerequisite: either STAT 342, STAT/MATH 390, STAT 421, STAT/ECON 481, or SOC 425; recommended: MATH 308. Offered: jointly with CS&SS 504.

**STAT 506 Applied Probability and Statistics (4)** Discrete and continuous random variables, independence and conditional probability, central limit theorem, elementary statistical estimation and inference, linear regression. Emphasis on physical applications. Prerequisite: some advanced calculus and linear algebra. Offered: jointly with AMATH 506.

**STAT 512 Statistical Inference (4)** Review of random variables; transformations, conditional expectation, moment generating functions, convergence, limit theorems, estimation; Cramer-Rao lower bound, maximum likelihood estimation, sufficiency, ancillarity, completeness. Rao-Blackwell theorem. Hypothesis testing: Neyman-Pearson lemma, monotone likelihood ratio, likelihood-ratio tests, large-sample theory. Contingency tables, confidence intervals, invariance. Introduction to decision theory. Prerequisite: STAT 395 and STAT 421, STAT 423, STAT 504, or BIOST 512 (concurrent registration permitted for these three). Offered: A.

**STAT 513 Statistical Inference (4)** Review of random variables; transformations, conditional expectation, moment generating functions, convergence, limit theorems, estimation; Cramer-Rao lower bound, maximum likelihood estimation, sufficiency, ancillarity, completeness. Rao-Blackwell theorem. Hypothesis testing: Neyman-Pearson lemma, monotone likelihood ratio, likelihood-ratio tests, large-sample theory. Contingency tables, confidence intervals, invariance. Introduction to decision theory. Prerequisite: STAT 512. Offered: W.

**STAT 516 Stochastic Modeling of Scientific Data (4-)** Markovian and semi-Markovian models, point processes, cluster models, queuing models, likelihood methods, estimating equations. Prerequisite: STAT 511 or STAT 396. Offered: A.

**STAT 517 Stochastic Modeling of Scientific Data (-4)** Markovian and semi-Markovian models, point processes, cluster models, queuing models, likelihood methods, estimating equations. Prerequisite: STAT 516. Offered: W.

**STAT 518 Stochastic Modeling Project (4)** Supervised, applied project based on stochastic modeling of scientific data. Prerequisite: STAT 517. Offered: Sp.

**STAT 519 Time Series Analysis (3)** Descriptive techniques. Stationary and nonstationary processes, including ARIMA processes. Estimation of process mean and autocovariance function. Fitting ARIMA models to data. Statistical tests for white noise. Forecasting. State space models and the Kalman filter. Robust time series analysis. Regression analysis with correlated errors. Statistical properties of long memory processes. Prerequisite: STAT 513. Offered: A.

**STAT 520 Spectral Analysis of Time Series (4)** Estimation of spectral densities for single and multiple time series. Nonparametric estimation of spectral density, cross-spectral density, and coherency for stationary time series, real and complex spectrum techniques. Bispectrum. Digital filtering techniques. Aliasing, prewhitening. Choice of lag windows and data windows. Use of the fast Fourier transform. The parametric autoregressive spectral density estimate for single and multiple stationary time series. Spectral analysis of nonstationary random processes and for randomly sampled processes. Techniques of robust spectral analysis. Prerequisite: one of STAT 342, STAT 390, STAT 481, or IND E 315. Offered: jointly with E E 520; W.

**STAT 521 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with MATH 521; A.

**STAT 522 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with MATH 522; W.

**STAT 523 Advanced Probability (3)** Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with MATH 523; Sp.

**STAT 524 Design of Medical Studies (3)** Emphasis on randomized controlled clinical trials. Bias elimination, controls, treatment assignment and randomization, precision, replication, power and sample size calculations, stratification, and ethics. Suitable for students in biostatistics and other scientific fields. Prerequisite: BIOST 511 or equivalent, and one of STAT 421, STAT 423, BIOST 513, BIOST 518, or EPI 512; or permission of instructor. Offered: jointly with BIOST 524; even years.

**STAT 529 Sample Survey Techniques (3)** Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster

sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BIOST 511, or BIOST 517, or equivalent; or permission of instructor. Offered: jointly with BIOST 529/CS&SS 529.

**STAT 530 Wavelets: Data Analysis, Algorithms, and Theory (3)** Review of spectral analysis. Theory of continuous and discrete wavelets. Multiresolution analysis. Computation of discrete wavelet transform. Time-scale analysis. Wavelet packets. Statistical properties of wavelet signal extraction and smoothers. Estimation of wavelet variance. Prerequisite: some Fourier theory and linear algebra; Math or STAT 390, ECON or STAT 481, or STAT 513; or IND E 315. Offered: jointly with E E 24; Sp.

**STAT 533 Classical Theory of Linear Models (3)** Introduction to one-, two-way analysis of variance; randomized blocks; fixed, random effects, multiple comparisons. Statistical distribution theory for quadratic forms of normal variables. Fitting of the general linear model by least squares. Prerequisite: STAT 421 or STAT 423; and STAT 513, BIOST 515, and a course in matrix algebra. Offered: jointly with BIOST 533; Sp.

**STAT 534 Statistical Computing (3)** Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with BIOST 534; Sp.

**STAT 535 Statistical Computing (3)** Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with BIOST 535; A.

**STAT 536 Analysis of Categorical and Count Data (3)** Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 424, SOC 425, SOC 426, or equivalent; recommended: CS&SS 505 and CS&SS 506, or equivalent. Offered: jointly with SOC 536/CS&SS 536; annually.

**STAT 538 Statistical Computing (3)** Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with BIOST 538; W.

**STAT 542 Multivariate Analysis (3)** Multivariate normal distribution; partial and multiple correlation; Hotelling's  $T^2$ ; Bartlett's decomposition; various likelihood ratio tests; discriminant analysis; principal components; graphical

Markov models. Prerequisite: STAT 582 or permission of instructor. Offered: alternate years.

**STAT 544 Bayesian Statistical Methods (3)** Statistical methods based on the idea of a probability distribution over the parameter space. Coherence and utility. Subjective probability. Likelihood principle. Conjugate families. Structure of Bayesian inference. Limit theory for posterior distributions. Sequential experiments. Exchangeability. Bayesian nonparametrics. Empirical Bayes methods. Prerequisite: STAT 513 or permission of instructor. Offered: alternate years.

**STAT 547 Derivatives: Theory, Statistics, and Computing (4)** Covers theory, computation, and statistics of options and derivatives pricing, including options on stocks, stock indices, futures, currencies, and interest rate derivatives. Prerequisite: STAT 506 or equivalent, or permission of instructor. Recommended: ECON 424.

**STAT 549 Statistical Methods for Portfolios (4)** Covers the fundamentals of modern statistical portfolio construction and risk measurement, including theoretical foundations, statistical methodology, and computational methods using modern object-oriented software for data analysis, statistical modeling, and numerical portfolio optimization. Prerequisite: ECON 424 or equivalent, or permission of instructor.

**STAT 550 Statistical Genetics I: Mendelian Traits (3)** Mendelian genetic traits. Population genetics; Hardy-Weinberg, allelic variation, subdivision. Likelihood inference, information and power; latent variables and EM algorithm. Pedigree relationships and gene identity. Meiosis and recombination. Linkage detection. Multipoint linkage analysis. Prerequisite: STAT 390 and STAT 394, or permission of instructor. Offered: jointly with BIOST 550; A.

**STAT 551 Statistical Genetics II: Quantitative Traits (3)** Statistical basis for describing variation in quantitative traits. Decomposition of trait variation into components representing genes, environment and gene-environment interaction. Methods of mapping and characterizing quantitative trait loci. Prerequisite: STAT/BIOST 550; STAT 423 or BIOST 515; or permission of instructor. Offered: jointly with BIOST 551; W.

**STAT 552 Statistical Genetics III: Design and Analysis (3)** Overview of probability models, inheritance models, penetrance. Association and linkage. The lod score method. Affected sib method. Fitting complex inheritance models. Design mapping studies; multipoint, disequilibrium, and fine-scale mapping. Ascertainment. Prerequisite: STAT/BIOST 551; GENET 371; or permission of instructor. Offered: jointly with BIOST 552; Sp.

**STAT 560 Hierarchical Modeling for the Social Sciences (4)** Explores ways in which data are hierarchically organized, such as voters nested within electoral districts that are in turn nested within states. Provides a basic theoretical understanding and practical knowledge of models for clustered data and a set of tools to help make accurate inferences. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505-506 or equivalent. Offered: jointly with CS&SS 560.

**STAT 561 Special Topics in Applied Statistics (1-5, max. 15)** Data analysis, spectral analysis

or robust estimation. Prerequisite: permission of instructor.

**STAT 562 Special Topics in Applied Statistics (1-5, max. 15)** Data analysis, spectral analysis or robust estimation. Prerequisite: permission of instructor.

**STAT 564 Bayesian Statistics for the Social Sciences (4)** Statistical methods based on the idea of probability as a measure of uncertainty. Topics covered include subjective notion of probability, Bayes' Theorem, prior and posterior distributions, and data analysis techniques for statistical models. SOC 504-505-506 or equivalent; recommended: CS&SS 505; CS&SS 506. Offered: jointly with CS&SS 564.

**STAT 566 Causal Modeling (4)** Construction of causal hypotheses. Theories of causation, counterfactuals, intervention vs. passive observation. Contexts for causal inference: randomized experiments; sequential randomization; partial compliance; natural experiments, passive observation. Path diagrams, conditional independence and d-separation. Model equivalence and causal under-determination. Prerequisite: course in statistics, SOC 504-505-506 or equivalent; recommended: CS&SS 505-506 or equivalent. Offered: jointly with CS&SS 566.

**STAT 567 Statistical Analysis of Social Networks (4)** Statistical and mathematical descriptions of social networks. Topics include graphical and matrix representations of social networks, sampling methods, statistical analysis of network data, and applications. Prerequisite: SOC 504-505-506 or equivalent; recommended: CS&SS 505; CS&SS 506. Offered: jointly with CS&SS 567.

**STAT 570 Advanced Applied Statistics and Linear Models (3)** Generalized linear models, REML in mixed models for randomized blocks, split plots, longitudinal data. Generalized estimating equations, empirical model building, cross validation, recursive partitioning, generalized additive models, projection pursuit. Prerequisite: STAT 513; STAT 533 or STAT 421 and STAT 423, and a course in matrix algebra for STAT 570. Offered: jointly with BIOST 570; A.

**STAT 571 Advanced Applied Statistics and Linear Models (3)** Generalized linear models, REML in mixed models for randomized blocks, split plots, longitudinal data. Generalized estimating equations, empirical model building, cross validation, recursive partitioning, generalized additive models, projection pursuit. Prerequisite: STAT 570. Offered: jointly with BIOST 571; W.

**STAT 572 Advanced Applied Statistics and Linear Models (3)** Generalized linear models, REML in mixed models for randomized blocks, split plots, longitudinal data. Generalized estimating equations, empirical model building, cross validation, recursive partitioning, generalized additive models, projection pursuit. Prerequisite: STAT 571. Offered: jointly with BIOST 572; Sp.

**STAT 573 Statistical Methods for Categorical Data (3)** Advanced topics in generalized linear models and the analysis of categorical data: overdispersion, quasilielihood, parameters in link and variance functions, exact conditional inference, random effects, saddlepoint approximations. Credit/no credit only. Prerequisite: STAT 571 and STAT 582. Offered: jointly with BIOST 573; alternate years.

**STAT 574 Multivariate Statistical Methods (3)** Use of multivariate normal sampling theory, linear transformations of random variables, one- and two-sample tests, profile analysis, partial and multiple correlation, multivariate ANOVA and least squares, discriminant analysis, principal components, factor analysis, robustness, and some special topics. Some computer use included. Prerequisite: STAT 570 or permission of instructor. Offered: jointly with BIOST 574; alternate years.

**STAT 576 Statistical Methods for Survival Data (3)** Statistical methods for censored survival data. Covers parametric and nonparametric methods, Kaplan-Meier survival curve estimator, comparison of survival curves, log-rank test, regression models including the Cox proportional hazards model, competing risks. Prerequisite: STAT 581 and either STAT 423, BIOST 515, or Q SCI 483, or equivalent. Offered: jointly with BIOST 576; alternate years.

**STAT 577 Advanced Design and Analysis of Experiments (3)** Concepts important in experimental design and analyzing data from planned experiments. Multi-way layouts, randomized block designs, incomplete block designs, Latin and Graeco-Latin squares, factorial and fractional designs, split-plot designs, optimal design theory, response surface experiments. Prerequisite: either BIOST 515, BIOSTAT 533, STAT 502, STAT 504, STAT 533, or permission of instructor. Offered: jointly with BIOST 577.

**STAT 578 Special Topics in Advanced Biostatistics (\*, max. 30)** Advanced-level topics in biostatistics offered by regular and visiting faculty. Prerequisite: permission of instructor. Offered: jointly with BIOST 578; AWSpS.

**STAT 579 Data Analysis and Reporting (2)** Analysis of real data to answer scientific questions. Common data-analytic problems. Sensible approaches to complex data. Graphical and tabular presentation of results. Writing reports for scientific journals, research collaborators, consulting clients. Graduate standing in statistics or biostatistics or permission of instructor. Offered: jointly with BIOST 579; AWSp.

**STAT 581 Advanced Theory of Statistical Inference (3)** Limit theorems, asymptotic methods, asymptotic efficiency and efficiency bounds for estimation, maximum likelihood estimation, Bayes methods, asymptotics via derivatives of functionals, sample-based estimates of variability: (bootstrap and jackknife); robustness; estimation for dependent data, nonparametric estimation and testing. Prerequisite: STAT 513; either MATH 426 or MATH 576. Offered: A.

**STAT 582 Advanced Theory of Statistical Inference (3)** Limit theorems, asymptotic methods, asymptotic efficiency and efficiency bounds for estimation, maximum likelihood estimation, Bayes methods, asymptotics via derivatives of functionals, sample-based estimates of variability: (bootstrap and jackknife); robustness; estimation for dependent data, nonparametric estimation and testing. Prerequisite: STAT 581. Offered: W.

**STAT 583 Advanced Theory of Statistical Inference (3)** Limit theorems, asymptotic methods, asymptotic efficiency and efficiency bounds for estimation, maximum likelihood estimation, Bayes methods, asymptotics via

derivatives of functionals, sample-based estimates of variability: (bootstrap and jackknife); robustness; estimation for dependent data, nonparametric estimation and testing. Prerequisite: STAT 582. Offered: Sp.

**STAT 586 Martingales: Survival Analysis (3)** Theory of counting processes and martingales to provide unified study of survival analysis methods. Focus on survival distribution estimators, censored data rank statistics, regression methods with censored survival data. Development of small samples moments, asymptotic distributions, and efficiencies. Prerequisite: STAT 521 or STAT 583 or permission of instructor; recommended: STAT 576. Offered: jointly with BIOST 586; W.

**STAT 590 Statistics Seminar (\*, max. 15)** Credit/no credit only. Prerequisite: permission of graduate program coordinator. Offered: AWSp.

**STAT 591 Special Topics in Statistics (1-5, max. 15)** Distribution-free inference, game and decision theory, advanced theory of estimation (including sequential estimation), robustness, advanced probability theory, stochastic processes or empirical processes. Prerequisite: permission of instructor. Offered: A.

**STAT 592 Special Topics in Statistics (1-5, max. 15)** Distribution-free inference, game and decision theory, advanced theory of estimation (including sequential estimation), robustness, advanced probability theory, stochastic processes or empirical processes. Prerequisite: permission of instructor. Offered: W.

**STAT 593 Special Topics in Statistics (1-5, max. 15)** Distribution-free inference, game and decision theory, advanced theory of estimation (including sequential estimation), robustness, advanced probability theory, stochastic processes or empirical processes. Prerequisite: permission of instructor. Offered: Sp.

**STAT 598 Techniques of Statistical Consulting (1)** Seminar series covering technical and non-technical aspects of statistical consulting, including skills for effective communication with clients, report writing, statistical tips and rules of thumb, issues in survey sampling, and issues in working as a statistical consultant in academic, industrial, and private-practice settings. Prerequisite: entry code. Offered: jointly with BIOST 598; ASp.

**STAT 599 Statistical Consulting (\*, max. 12)** Consulting experience in data analysis, applied statistics. Student required to provide consulting services to students and faculty three hours per week. Credit/no credit only. Prerequisite: permission of graduate program coordinator. Offered: AWSpS.

**STAT 600 Independent Study or Research (\*)** Prerequisite: permission of graduate program coordinator. Offered: AWSpS.

**STAT 700 Master's Thesis (\*)** Prerequisite: permission of graduate program coordinator. Offered: AWSpS.

**STAT 800 Doctoral Dissertation (\*)** Prerequisite: permission of graduate program coordinator. Offered: AWSpS.

## Women Studies

### **WOMEN 200 Introduction to Women Studies**

**(5) I&S** Feminist analysis of the construction and enforcement of gender differences and gender inequalities in various contexts. Emphasis on the intersection of race, class, sexuality, and nationality in the lives of women. Topics include feminist theory, motherhood, popular culture, sexual autonomy, racism, and activism in the United States, Asia, Latin America. Offered: AWSpS.

### **WOMEN 206 Philosophy of Feminism (5) I&S**

Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with PHIL 206/POL S 212.

### **WOMEN 207 Introduction to Feminist Theories (5) I&S**

Introduction to the multiplicity of feminist theories in both the United States and transnational contexts; examination of the histories of different theoretical positions and their relationship to feminist praxis. Topics include feminist analysis of knowledge production, power, and the categories of gender, race, class, sexualities, ethnicity, and nation.

### **WOMEN 257 Psychology of Gender (5) I&S**

Major psychological theories of gender-role development; biological and environmental influences that determine and maintain gender differences in behavior; roles in children and adults; topics include aggression, cognitive abilities, achievement motivation, affiliation. Recommended: either PSYCH 101, PSYCH 102, or WOMEN 200. Offered: jointly with PSYCH 257.

### **WOMEN 283 Introduction to Women's History (5) I&S**

Includes units on American, European, and Third World women that examine centers of women's activities, women's place in male-dominated spheres (politics), women's impact on culture (health, arts), and the effect of larger changes on women's lives (technology, colonization). Offered: jointly with HIST 283; A.

### **WOMEN 290 Special Topics in Women Studies (2-5, max. 15) I&S**

Exploration of specific problems and issues relevant to the study of women. Offered by visiting or resident faculty members.

### **WOMEN 299 Women Studies Community in Colloquia (2) I&S**

Introduces new majors to the field of women studies. Includes helping students develop a course of study for their major, meeting their departmental advisor and the faculty. Students are encouraged to take this course immediately upon declaring the major. May be linked to service learning. Credit no credit only.

### **WOMEN 302 Research Methods in Women Studies (5) I&S**

Explores appropriate research methodologies for interdisciplinary work in women studies. Examines current debates and issues in feminist methodologies and critiques of methodology. Use of historical documents and theoretical texts. Computer applications in research in women studies. Prerequisite: either WOMEN 200 or WOMEN 206.

### **WOMEN 305 Feminism in an International Context (5) I&S**

Women and feminism from

global theoretical perspectives. Critical theoretical ways of thinking about feminism. How women are differently situated throughout the world. How they are represented affects women's agency. Focus on how race and gender affect one another. Representations of and by women throughout the world.

### **WOMEN 310 Women and the Law (5) I&S**

Examines how law addresses women, how the courts have made attempts to address women of color, poor women, lesbians, and women with disabilities. Topics include constitutional construction of equality, employment discrimination, reproductive rights, regulation of sexuality, families and motherhood, sexual harassment, violence against women and international women and human rights.

### **WOMEN 313 Women in Politics (5) I&S**

*DiStefano* Theoretical, historical, and empirical studies of women's participation in political and social movements. Women's diverse efforts to improve their political, social, and economic status. Policy issues of particular concern to women. Women's political experiences in household, local, regional, national, and international arenas Offered: jointly with POL S 313.

### **WOMEN 321 History of Afro-American Women and the Feminist Movement (5) I&S**

"Feminist Movement" from early nineteenth century to present. Treats relationship between Black and White women in their struggle for independence, at times together and at times apart. Discusses the reasons, process, and results of collaboration as well as opposition. Examines recent and contemporary attempts at cooperation. Offered: joint with AFRAM 321.

### **WOMEN 322 Race, Class, and Gender (5) I&S**

The intersection of race, class, and gender in the lives of women of color in the United States from historical and contemporary perspectives. Topics include racism, classism, sexism, activism, sexuality, and inter-racial dynamics between women of color groups. Offered: jointly with AES 322.

### **WOMEN 323 History of Racial Formation in the United States: 1800-1990 (5) I&S**

*Yee* Traces the development of the concept of race in the United States from the nineteenth century to the late twentieth century. Specific topics include paid and unpaid labor, media, reproduction, migration, social activism, and the processes of identity and community formation.

### **WOMEN 333 Gender and Globalization: Theory and Process (5) I&S**

*Ramamurthy* Theoretical, historical, and empirical analysis of how current processes of globalization are transforming the actual conditions of women's lives, labor, gender ideologies, and politics in complex and contradictory ways. Topics include feminist exploration of colonialism, capitalism, economic restructuring policies, resistance in consumer and environmental movements. Offered: jointly with SIS 333.

### **WOMEN 339 Social Movements in Contemporary India (5) I&S**

*Ramamurthy* Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with ANTH 339/ SISA 339.

### **WOMEN 341 Native Women in the Americas**

**(5) I&S** Historiography, sociology, biography, autobiography, and fiction about native women in the United States and Canada. Offered: jointly with AIS 341; AWSpS.

### **WOMEN 345 Women and International Economic Development (5) I&S**

*Ramamurthy* Questions how women are affected by economic development in Third World and celebrates redefinitions of what development means. Theoretical perspectives and methods to interrogate gender and development policies introduced. Current processes of globalization and potential for changing gender and economic inequalities assessed. Offered: jointly with ANTH 345/SIS 345.

### **WOMEN 350 Women in Law and Literature (5) I&S/VLPA**

Representations of women in American law and literature. Considers how women's political status and social roles have influenced legal and literary accounts of their behavior. Examines how legal cases and issues involving women are represented in literary texts and also how law can influence literary expression. Offered: jointly with CHID 350.

### **WOMEN 351 Women of Color as Cross-Cultural Artists (5) I&S/VLPA**

*Habell-Pallan* Provides a historical context for artistic forms produced by racialized women. Examines the cultural production of Chicanas and Latinas in relation to that Native American, African American, East and South Asian American, and Arab American women as well as those women of mixed heritage in the U.S. Offered: jointly with AES 310.

### **WOMEN 353 Anthropological Studies of Women (5) I&S**

Critical examination of the intersections between anthropology, research on gender issues, and feminism. Readings and class discussions examine the ways women have been represented in the field of anthropology and the repercussions of these anthropological images of women on contemporary understandings of gender. Offered: jointly with ANTH 353; W.

### **WOMEN 355 Men and Masculinity (5) I&S**

Critical study of systematic responses of men to feminist movements, including conservative, pro-feminist, men's rights, mythopoetic, and religious responses. How men of color and gay men view these various men's movements and their issues. Special attention given to philosophical problems such as nature of oppression, human nature, justice, and masculinity. Recommended: WOMEN 200.

### **WOMEN 357 Psychobiology of Women (5) NW**

*Kenney* Physiological and psychological aspects of women's lives: determinants of biological sex; physiological and psychological events of puberty, menstruation, and menopause; sexuality; pregnancy, childbirth; the role of culture in determining the psychological response to the physiological events. Recommended: PSYCH/WOMEN 257. Offered: jointly with PSYCH 357.

### **WOMEN 383 Social History of American Women to 1890 (5) I&S**

*Yee* A multi-racial, multicultural study of women in the United States from the 17th century to 1890 emphasizing women's unpaid work, participation in the paid labor force, charitable and reform activities, and 19th century social movements. Uses primary materials such as diaries, letters, speeches, and artifacts. Offered: jointly with HSTAA 373; W.

**WOMEN 384 Social History of American Women in the 20th Century (5) I&S** Analyzes major themes in the history of women in North America from 1890 through the 1990s. Themes include family and community formation, social activism, education, paid and unpaid labor patterns, war, migration, and changing conceptions of womanhood and femininity in the 20th century. Offered: jointly with HSTAA 374.

**WOMEN 389 Race, Gender, Sexuality in the Ethnicity, Gender in the Media (5) I&S** *Baldasty* Introduction to media representations of gender, race, and sexuality. Offered: jointly with COM 389/AES 389.

**WOMEN 392 Asian-American Women (5) I&S** *Root* History of and contemporary issues related to Asian-American women in the United States. Recommended: AAS 205 or AAS 206. Offered: jointly with AAS 392.

**WOMEN 404 Critical Pedagogies of Social Change (5) I&S** Examines theories of critical pedagogy as developed in struggles against race, class, and gender oppression in the U.S. and transnationally. Topics include the relation between theory and practice, the position of educators in struggles for social change, and the role of the arts in movement-building. Offered: jointly with AES 404.

**WOMEN 405 Comparative Women's Movements and Activism (5) I&S** Comparative cultural, national, and historical study of women's movements and activism. Critically analyzes multiple arenas of women's movements and resistance. Topics include feminist anti-racism, pre-nationalism and nationalism, economics, electoral politics, women's and human rights, and international/transnational feminisms. Prerequisite: either WOMEN 205, WOMEN 305, or SOC 364.

**WOMEN 410 Feminist Legal Studies: Theory and Practice (5) I&S** Examines feminist theoretical analyses of the law. Engages in current debate on the study of critical race, gender, and class theory. Includes: women in prison, public assistance, the sex industry, women and health care, and immigration law. Recommended: WOMEN 200 or WOMEN 310. Offered: jointly with LSJ 466/POL S 466.

**WOMEN 415 Gender and Education (5) I&S** Gender bias, discrimination, and gender-equity efforts in education. Includes curriculum instruction, instructional materials, testing, counseling, athletics, teacher education, educational employment issues, and sexual harassment. Relevant federal and state laws, court decisions, and strategies for promoting gender equity also addressed. Recommended: WOMEN 200 or SOC 110. Offered: jointly with EDC&I 440; S.

**WOMEN 417 The Politics of Talent Development (5) I&S** Investigation of the psychological, cultural, socioeconomic, and political factors that enhance or inhibit the development of exceptional ability, focusing principally, but not exclusively, on women and girls. Pays special attention to issues of race, class, gender, geography, and an individual's orientation to the mainstream of her culture.

**WOMEN 423 Feminism, the State, and Democracy in Indonesia (5) I&S** Questions how women's issues and interests are affected by the history of Indonesia and by changes in the global political economy. Celebrates ways in which Indonesian women, feminists, and

feminisms negotiate their subject positions. Analyzes issues of gender and human rights in national political arenas, and of democratic reform. Offered: AWPoS.

**WOMEN 424 Women in Midlife (5) I&S** Explores women's lives, experiences, and concerns in the middle years. Topics include physical and physiological changes; psychological development; representations and treatment of midlife women in literature, media, and other institutions; economics of aging; crosscultural and subcultural differences in the aging process; the synergistic effects of sexism and ageism on women.

**WOMEN 425 Femininity, Feminism, and Antifeminism in Popular Culture (5) I&S/VLPA** Explores shifting meanings and reconfigurations of femininity, feminism, and antifeminism in United States popular culture. Analyzes the incorporation and transformation of feminist critiques of dominant ideologies into popular culture. Popular forms examined may include television serials, music videos, advertisements, films, and novels. Prerequisite: WOMEN 200.

**WOMEN 427 Women and Violence (5) I&S** *Ginorio* Multi-disciplinary explorations of the continuum of violence which affects women's lives, ranging from experience in personal settings (family violence) to cultural or state policies (prisons, wars). Violence against women explored in the context of societal, political, and state violence. Recommended: WOMEN 200.

**WOMEN 429 Scandinavian Women Writers in English Translation (5) VLPA** *Gavel-Adams* Selected works by major Scandinavian women writers from mid-nineteenth-century bourgeois realism to the present with focus on feminist issues in literary criticism. Offered: jointly with SCAND 427.

**WOMEN 435 Gender and Spirituality (5) I&S** Exploration of ways in which gender informs spiritual teachings and practices of different groups in ancient and contemporary times, with particular attention to the relationship between spiritual beliefs and the construction of social, psychological, and political realities.

**WOMEN 438 Jewish Women in Contemporary America (5) I&S** Examines how Jewish women's identities are socially constructed and transformed in contemporary America, using social histories, memoirs, and ethnographies to analyze scholars' approaches to Jewish women's lives. Topics include the role of social class, religion, migration, the Holocaust, and race relations in Jewish women's lives. Offered: jointly with SISJE 438.

**WOMEN 440 Reading Native American Women's Lives (5) I&S** Seminar based on social science writings, autobiographies, biographies, and fiction written by, with, or about indigenous women of the United States and Canada. Offered: jointly with AIS 440.

**WOMEN 442 Images of Natives in the Cinema and Popular Cultures (5) I&S/VLPA** *Ross* Cultural examination of images of native people in cinema and popular culture based on social science writings and films by or about natives in the United States and Canada. Offered: jointly with AIS 442.

**WOMEN 444 Criminality and "Deviance" in Native Communities (5)** Seminar based on

social science writings and biographies written by and about incarcerated natives and "deviance" in Native communities in the United States and Canada. Offered: jointly with AIS 444.

**WOMEN 446 Global Asia (5) I&S** *Welland* Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 442/SISA 442; W.

**WOMEN 447 Economics of Gender (5) I&S** *Rose* Microeconomic analysis of the sources of gender differences in earnings, labor force participation, occupational choice, education, and consumption. Economic theories of discrimination, human capital, fertility and intrahousehold resource allocation. Economics of the family in developed and developing countries. Prerequisite: 2.0 ECON 300. Offered: jointly with ECON 447.

**WOMEN 450 Language and Gender (5) I&S, VLPA** *Bilaniuk* Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with ANTH 450/LING 458.

**WOMEN 451 Latina Cultural Production (5) I&S/VLPA** Explores the expressive culture of Chicana/Mexican American/Latina women in the United States. Cultural and artistic practices in home and in literary, music, film, spoken word, performing and visual arts. Focuses on how Chicana/Latina writers and artists re-envision traditional iconography. Offered: jointly with CHSTU 410.

**WOMEN 453 Lesbian Lives and Culture (5) I&S** An exploration and overview of lesbianism in historical, social, cultural, and interpersonal contexts. Prerequisite: either WOMEN 200 or WOMEN 206.

**WOMEN 454 Women, Words, Music, and Change (5) I&S/VLPA** Comparative analysis of use of myths, tales, music, and other forms of expressive culture to account for, reinforce, and change women's status and roles. Recommended: WOMEN 353. Offered: jointly with ANTH 454.

**WOMEN 455 Contemporary Feminist Theory (5) I&S** Raises the question of how political contexts condition the way some ideas become theory. Emphasizes the present crises in thinking about a transnational feminism.

**WOMEN 456 Feminism, Racism, and Anti-Racism (5) I&S** Examines meaning of racism and feminism in women's lives in an international context. Building upon an analysis of racial hierarchies and institutionalized racism, explores strategies used by women engaged in feminist and anti-racist activism. Prerequisite: WOMEN 200.

**WOMEN 457 Women in China to 1800 (5) I&S** *Ebrey* Gender in Chinese culture, women's situations in the patrilineal family system, and the ways women's situations changed as other dimensions of China's political system,

economy, and culture changed from early times through the nineteenth century. Offered: jointly with HSTAS 457.

**WOMEN 458 Ideologies and Technologies of Motherhood (5) I&S** Examines how motherhood is culturally constituted, regulated, and managed within various ideological and technological milieus. Uses ethnographies from anthropology and case studies from feminist legal theory. Topics include slave mothers, surrogate mothers, lesbian mothers, transracial mothers, co-mothers, teen mothers. Prerequisite: WOMEN 200. Offered: jointly with ANTH 484.

**WOMEN 459 Gender Histories of Modern China, 18th to 20th Centuries (5) I&S** *Barlow* Emergence of modernist social, political, intellectual gender formations in social activism, revolutionary writing, scientific ideologies, economic globalization. Stresses gender difference in colonial modernity, revolutionary movement, communism, post-socialist market society. Relates modern Chinese women to global flows, new division of labor, local and regional experience. Offered: jointly with HSTAS 459.

**WOMEN 462 Isak Dinesen and Karen Blixen (5) VLPA** *Stecher-Hansen* The fiction of Isak Dinesen (pseudonym for Karen Blixen) reevaluated in light of current issues in literary criticism, particularly feminist criticism. Close readings of selected tales, essays, and criticism. Offered: jointly with SCAND 462.

**WOMEN 468 Latin American Women (5) I&S/ VLPA** *Steele* The elaboration of discourses of identity in relation to gender, ethnicity, social class, and nationality, by women writers from South America, Mexico, Central America, and the Caribbean. Testimonial literature, literature and resistance, women's experimental fiction. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321; one additional 300-level course above SPAN 303. Offered: jointly with SPAN 468.

**WOMEN 474 Trans/Gender Queries (5) I&S** *Swarr* Writings by and about people who fall outside common conceptions of "women" and "men." Looks beyond this dualism in contemporary and historical global concepts, locating the emerging field of transgender studies in feminist studies and asking what the category "transgender" enables and obscures.

**WOMEN 476 Women and the City (5) I&S** *England* Explores the reciprocal relations between gender relations, the layout of cities, and the activities of urban residents. Topics include feminist theory and geography (women, gender, and the organization of space); women and urban poverty, housing and homelessness; gender roles and labor patterns; geographies of childcare; and women and urban politics. Offered: jointly with GEOG 476.

**WOMEN 483 Topics in U.S. Women's History (5, max. 10) I&S** *Yee* Selected topics in United States women's history from the nineteenth and twentieth centuries. Prerequisite: either WOMEN 200, WOMEN 283, or WOMEN 383.

**WOMEN 485 Issues for Ethnic Minorities and Women In Science and Engineering (3/5) I&S** Addresses issues faced by women and ethnic minorities in physical sciences and engineering. Focuses on participation, barriers to participation, and solutions to those issues for women and ethnic minorities in physical sciences and engineering. Offered: jointly with PHYS 451.

**WOMEN 486 Representing Beyond the Binaries: Mixing Race, Gender, and Sexuality in the Media (5) I&S** *Joseph* Cultural studies approach to examining the mixed formations that race, sexuality, and gender take in the contemporary United States media. Draws upon multi-disciplinary scholarship in examination of the media. Offered: jointly with COM 490/AES 490.

**WOMEN 488 Women and/in Science (5) I&S** *Ginorio* Explores science as a method of inquiry and as a profession while also expanding knowledge about women through the use of biographies of women scientists, discipline-based and feminist critiques, and the psycho-social concept of socially defined identities. Recommended: one Women Studies course and one college-level science course.

**WOMEN 490 Special Topics in Women Studies (2-5, max. 15) I&S** Exploration of specific problems and issues relevant to the study of women. Offered by visiting or resident faculty members. Primarily for upper-division and graduate students.

**WOMEN 493 Senior Thesis (2-5, max. 15)** Students conceptualize a topic, conduct primary and secondary research, and write a major paper or project that engages methodologies and theories in interdisciplinary women's studies. Students work independently with a faculty member.

**WOMEN 494 Women Studies Capstone (5) I&S** Provides graduating seniors with the opportunity to demonstrate facility with writing, critical thinking, documentation of scholarly work, research/gathering of information, and the ability to disseminate ideas to intended audiences via the creation of a capstone project. Offered: AWSpS.

**WOMEN 495 Tutoring Women Studies (5)** Students train to serve as tutors in designated courses. Facilitate weekly group discussions, assist with writing assignments, explain course materials. Credit/no credit only.

**WOMEN 496 Global Feminisms: International and Indigenous Communities (5-12, max. 24)** Participation in academic study abroad programs related to Women Studies emphasizing globalization and study in international contexts or indigenous communities within the United States. Prerequisite: WOMEN 200.

**WOMEN 497 Fieldwork in Women Studies (1-15, max. 15)** Internship in local feminist-oriented agencies or projects. Includes a seminar component linking internship to scholarly literature and small group discussion. Supports in-depth exploration of social issues and skill development. Credit/no credit only. Offered: AWSpS.

**WOMEN 499 Undergraduate Research (1-5, max. 10)** Independent study and research supervised by a faculty member with appropriate academic interest. Offered: AWSpS.

**WOMEN 501 History of Feminism (5)** Study of feminism from the 18th through the 20th centuries in the national, international, and intranational world system, with a focus on imperialism, colonialism, nationalism, and modernity. Surveys the literature in a global context, supplemented by critical essays and historiographic reviews.

**WOMEN 502 Cross Disciplinary Feminist Theory (5)** Raises questions about how feminism becomes theory and what the relation of feminist theory is to conventional disciplines. Readings exemplify current crises in feminism (e.g., the emergence of neo-materialism; critical race theory; citizenship; identity; transnational and migrancy and questions of post-colonialism) to consider disciplinization.

**WOMEN 503 Feminist Research and Methods of Inquiry (5)** Explores appropriate research methodologies for interdisciplinary work. Asks how scholarship is related to feminism as a social movement and to the institutions in which we work. Focuses on how similar objects of study are constituted in different disciplines for feminist scholars. Offered: Sp.

**WOMEN 504 Philosophies and Techniques of Teaching (5)** Acquaints students with professional and educational issues of college teaching. Students design a course, including a daily outline, reading materials, evaluation instruments, course activities, assessment plans. Includes weekly teaching exercises as well as videotaping an actual class. Prerequisite: experience as a TA or equivalent. Priority given to Women Studies graduate students.

**WOMEN 505 Feminist Publishing (5)** Seminar on feminist academic publishing. Students revise a scholarly paper in preparation for submission to an academic journal and provide critical commentary on other students' scholarly work. Also addresses general and specific issues related to the profession of academic publishing.

**WOMEN 512 Critical and Interdisciplinary Approaches to Women's Health (3) *Ensign, Schroeder*** Critical examination of the historical, socio-political, and scientific influences on women's health. Issues of sexism, racism, and heterosexism discussed from the perspective of different disciplines. Offered: jointly with NURS 512; W.

**WOMEN 513 Seminar in Contemporary Women's Health Issues (1-5, max. 12)** Critical analysis of contemporary and historical literature relevant to health care for women across the life span. Synthesis of a holistic view of women's health to guide research and practice. Offered: jointly with NURS 513.

**WOMEN 534 Feminism and History of Women in China (5)** Explores historical question of gendered subjects in modern China and feminist stories of emancipation of Chinese women asking how these render invisible other kinds of history. Prerequisite: background in China studies or ability to handle Chinese primary sources.

**WOMEN 539 Social Movements in Contemporary India (5) *Ramamurthy*** Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with SISSA 539/ANTH 539.

**WOMEN 546 Gender and Colonialism in Eastern Asia (5) *d*** Economic-political colonialization, post colonialism, and statist-gendered citizenship; intra-Asian subimperialism structuring domestic production, family, and gendered subjectivities; humanism and the New

Woman; modern contests over new masculinity and new femininity; and the effect of war, imperialist occupation and colonial modernity on interregional flows of ideas, labor, capital, and jurisprudence. Offered: jointly with HSTAS 546; AWSpS.

**WOMEN 547 Gender and the New International Division of Labor in Asia Pacific (5)** Shift of the dynamic relation of gender, state, and citizens from modernization (national development) to globalization (intra-regional development) strategies in Pacific Asia, 1945 to present. Consumption, service provision, migratory labor, intra-Asian investment, localization. Offered: jointly with HSTAS 547.

**WOMEN 550 White Privilege and Racism in Health and Human Services (3)** Explores relationships among the psychosocial health of people of color, American cultural patterns of intersecting forms of oppression (e.g., gender, race, and class) and the role of health professionals in defining, ameliorating, and aggravating psychosocial distress. Credit/No credit only. Offered: jointly with NURS 550; AWSpS.

**WOMEN 553 Discourses in Feminist Anthropology Seminar (5)** Exploration of feminist anthropological theories and the works of their critics. Ways of using feminist anthropology in preparation for and conducting fieldwork. Topics include foundations in feminist

anthropology, grand theories, variation in feminist theoretical foci within the "four fields," responses to critics. Prerequisite: graduate standing. Offered: jointly with ANTH 555; W.

**WOMEN 555 Feminist International Political Economy (5)** *Ramamurthy* Provides overview of feminist engagements with international political economy. Topics include: feminist critiques of classical political economists; inter-war internationalisms, anti-colonial nationalisms and feminisms; feminist development studies; post colonial; •ethird world• and transnational feminisms; feminist critiques of globalization, governmentality, and neoliberalism.

**WOMEN 566 Discourse and Sexuality (5)** Seminar-based analysis of discourse and social construction of eroticism/desire in face-to-face/mediatized talk and texts; examination of the reproduction of power, control and ideology through the linguistic and semiotic realization of sex/uality. Offered: jointly with COM 566.

**WOMEN 589 Gender, Race, and Communication (5)** Analysis of the role of media in the construction of reality, production processes, and their influence on media representation of women and people of color. Offered: jointly with COM 567.

**WOMEN 590 Special Topics (1-5, max. 15)** Offered by visitors or resident faculty as a one-time in-depth study of special interest.

**WOMEN 595 Graduate Student Colloquium (2, max. 12)** Forum for graduated students to share their research ideas and progress, general examination preparation issues, and teaching concerns. Prerequisite: Women Studies graduate students only. Offered: AWSpS.

**WOMEN 596 Preceptorial for Women Studies Graduate Students (5, max. 15)** Graduate student and faculty member work collaboratively in developing or revising course content and pedagogical approach on a specialized area.

**WOMEN 597 Fieldwork in Women Studies (2-5, max. 15)** Supervised ethnographic and other on-site research by women studies graduate students. Women Studies graduate students only.

**WOMEN 598 Directed Readings in Women Studies (\*, max. 35)** Selected topics for individualized or small group study.

**WOMEN 600 Independent Study or Research (\*)** Offered: AWSpS.

**WOMEN 700 Master's Thesis (\*)** Credit/no credit only. Offered: AWSpS.

**WOMEN 701 Master's Practicum (\*)** Offered: AWSpS.

**WOMEN 800 Doctoral Dissertation (\*)** .

### Accounting

**ACCTG 199 Accounting for Problem Solving (2, max. 4)** Supplementary lectures, discussions, and problem solving sessions in introductory accounting. Enrollment priority to EOP students and others by permission. Credit may not be applied to fulfill specific program requirements. Credit/no credit only. Corequisite: ACCTG 215.

**ACCTG 215 Introduction to Accounting and Financial Reporting (5)** Nature and social setting of accounting; uses of accounting information; introduction of basic accounting concepts and procedures; interpretation of financial statements. May not be repeated.

**ACCTG 225 Fundamentals of Managerial Accounting (5)** Analyses and evaluation of accounting information as part of the managerial process of planning, decision making, and control. Concentrates on information useful to enterprise managers. Prerequisite: ACCTG 215; ECON 200; may not be repeated.

**ACCTG 301 Intermediate Accounting I (3)** Concepts and principles of financial accounting. Analysis of controversies and problems related to the measurement of enterprise income and asset and liability valuation. Prerequisite: 2.0 in ACCTG 225; may not be repeated.

**ACCTG 302 Intermediate Accounting II (3)** Concepts and principles of financial accounting. Analysis of controversies and problems related to the measurement of enterprise income and asset and liability valuation. Prerequisite: 2.0 in ACCTG 301; may not be repeated.

**ACCTG 303 Intermediate Accounting III (3)** Concepts and principles of financial accounting.

Analysis of controversies and problems related to the measurement of enterprise income and asset and liability valuation. Prerequisite: 2.0 in ACCTG 302; may not be repeated.

**ACCTG 311 Cost Accounting (3)** Introduction to the theory of cost accounting; job order, process, and standard cost systems; overhead accounting; problems in accumulation and allocation of costs; decision making with cost data. Prerequisite: 2.0 in ACCTG 301; may not be repeated.

**ACCTG 320 Introduction to Accounting Information Systems (3)** Concepts of accounting information systems in organizations. Processes of analyzing and designing accounting information systems, with emphasis on those using computer facilities. Internal controls and auditing considerations. Prerequisite: 2.0 in ACCTG 225; I S 300 which may be taken concurrently; may not be repeated.

**ACCTG 375 Topics in Financial Reporting (4)** Critical examination of the uses and limitations of general purpose financial statements that have been prepared in accordance with generally accepted accounting principles. Not open for credit to accounting majors or to students who have completed 301. Prerequisite: 2.0 in ACCTG 225; may not be repeated.

**ACCTG 401 Federal Income Tax Factors in Business Decisions (3)** Service course in taxation recommended for the junior year for non-accounting majors. May also be taken by MBA students for graduate credit. Not open to accounting majors. Prerequisite: 2.0 in ACCTG 225; may not be repeated.

**ACCTG 411 Auditing Standards and Principles (3)** Intensive introduction to the attest function in society today. The environ-

ment, the process, and the report of the public auditor are analyzed. Potential extensions of the attest function are examined. Prerequisite: 2.0 in ACCTG 302; 2.0 in ACCTG 311; 2.0 in either ACCTG 320 or ACCTG 330; may not be repeated.

**ACCTG 420 Database Management for Accounting (3)** Continuation of ACCTG 320, covering database and processing architectures, database reliability, database recovery, database security, database administration, internets and intranets, and network security. Not available for credit to information systems majors or to students who have completed I S 410 and 445. Prerequisite: 2.0 in ACCTG 320; may not be repeated.

**ACCTG 421 Tax Effects of Business Decisions (3)** Issues in taxation, including tax considerations in business decision making, tax effects of business transactions, taxation of compensation, fringe benefits, capital gains, fixed asset transactions, disposition of business distribution from corporations. Prerequisite: 2.0 in ACCTG 302; may not be repeated.

**ACCTG 440 Accounting and Financial Management Decisions (3)** Business financial planning with an emphasis of the role of accounting information in financial decisions. Topics include the accounting and finance aspects of business valuation, short and long term financing, short and long term investments, alternative types of debt and equity financing, and related topics. Prerequisite: 2.0 in ACCTG 302; 2.0 in ACCTG 311; FIN 350; may not be repeated.

**ACCTG 450 Business Taxation (3)** Issues of taxation for entities other than individuals, including corporations, subchapter S corporations, partnerships, estates, and trusts. Includes

corporate distributions, liquidations, and reorganizations. Prerequisite: 2.0 in ACCTG 421; may not be repeated.

**ACCTG 451 Individual Income Taxation (3)** Political, economic, and social forces influencing federal income taxation, role of taxation in personal decisions. Coverage of individual income tax matters, including business and investment income, business and personal deductions, property transactions, and tax issues of employees. Prerequisite: 2.0 in ACCTG 421; may not be repeated.

**ACCTG 460 Advanced Cost Accounting (3)** Advanced analysis of cost and management accounting problems; special applications of cost accounting techniques for management planning and control; current developments in cost accounting. Prerequisite: 2.0 in ACCTG 311; may not be repeated.

**ACCTG 480 Accounting for Not-for-Profit Organizations (3)** Fund and budgetary accounting as applied to public sector organizations, such as governments, foundations, hospitals, and colleges. Prerequisite: 2.0 in ACCTG 302; may not be repeated.

**ACCTG 485 Advanced Financial Accounting (3)** Accounting for partnerships, accounting for business combinations, parent-subsidiary and branch relationships, foreign exchange. Prerequisite: 2.0 in ACCTG 302; may not be repeated.

**ACCTG 490 Special Topics in Accounting (1-6, max. 6)** Special topics of current concern to faculty and students. Offered only when faculty is available and student interest is sufficient. Class is announced in advance of scheduled offerings.

**ACCTG 495 Accounting Internship (1-4, max. 8)** One quarter's internship with a certified public accounting firm, industrial organization, or government agency. Credit/no credit only. Prerequisite: ACCTG 301.

**ACCTG 499 Undergraduate Research (1-6, max. 9)** Arranged and supervised by individual members of the faculty.

**ACCTG 500 Financial Accounting (4)** Introduction to concepts and procedures underlying determination and presentation of information for financial decisions by investors and other decision makers outside the business enterprise. Study of problems of valuation, income determination, and financial reporting.

**ACCTG 501 Managerial Accounting (3)** Study of the generation and the use of accounting information within the firm for purposes of planning and controlling operations. Topics covered include cost concepts, responsibility accounting systems, cost control, and the use of accounting information in short- and long-term management decision problems. Prerequisite: ACCTG 500.

**ACCTG 503 Introduction to Accounting for Managers (4)** *Noreen, Sundem* Provides potential managers with a basic knowledge of financial and managerial accounting. Focuses on the use, not the preparation, of accounting information. Examples presented for a variety of for-profit and nonprofit organizations.

**ACCTG 505 Intensive Analysis of Accounting Principles and Practices (18)** Covers the

subjects in the required core for undergraduate accounting majors: intermediate accounting, advanced accounting, cost accounting, auditing, and tax accounting. Credits will not count toward MBA degree. Prerequisite: ACCTG 215 and ACCTG 225 or equivalent, or permission of instructor.

**ACCTG 510 Introduction to Financial Statement Analysis (4)** Extension of the core financial accounting material, focusing on the use of financial statements to assess the financial position and prospects of companies. Examines the critical financial reporting issues that influence interpretation of financial statements. Prerequisite: either B A 502, ACCTG 500, or permission of instructor.

**ACCTG 511 Advanced Financial Statement Analysis (4)** Covers accounting issues related to firm valuation and use of financial statement information to assess the risks and rewards of various firm strategies. Prerequisite: ACCTG 510 or permission of instructor.

**ACCTG 513 Tax Effects of Business Decisions (4)** Importance of tax considerations in making business decisions. Covers regulatory and economic impacts of the U. S. tax system. Prerequisite: either B A 502, ACCTG 500, or permission of instructor.

**ACCTG 515 Problems in Managerial and Cost Accounting (4)** Extension of the core management accounting material. Uses cases and discussion to analyze costing techniques, use of accounting data in planning and evaluation managerial performance, and use of accounting data in short-run and long-run decisions. Prerequisite: either B A 502, ACCTG 501, or permission of instructor.

**ACCTG 521 Cases and Issues in Information Quality and Assurance Services (4)** Analysis of cases and discussions of current issues dealing with assurance services. Prerequisite: ACCTG 520.

**ACCTG 523 Advanced Financial Analysis (4)** Explores the use of published financial reports by decision makers external to the firm (e.g. investors and creditors). Emphasis is on traditional and statistical analyses of financial statements for the purposes of making economic decisions. Prerequisite: ACCTG 522.

**ACCTG 524 Individual Taxation (4)** Political, economic, and social forces influencing federal income taxation, role of taxation in personal decisions. Coverage of individual tax matters, including business and investment income, business and personal deductions, property transactions, and tax issues of employees.

**ACCTG 525 Business and International Taxation (4)** Issues of taxation for entities other than individuals, including corporations, subchapter S corporations, partnerships, estates, and trusts. Included corporate distributions, liquidations, and reorganizations. International dimensions of business taxation are introduced. Prerequisite: ACCTG 524.

**ACCTG 527 Communications in Professional Accounting (4)** Introduction to the communications practices of professional accountants. Development of effective written and oral skills employed in accounting presentations such as audit reports. Study of results of organizational communications research applicable to accounting firms and units within firms.

**ACCTG 530 Tax Issues in Property Ownership (4)** Analysis of gain and loss realization, recognition, and characterization of such. Detailed exploration of statutory and case law regarding acquisition, ownership, and disposition of assets. Treatment of capital and ordinary gains and losses. Timing issues regarding deferral transactions and installment reporting are analyzed. Prerequisite: undergraduate accounting concentration or equivalent.

**ACCTG 531 Timing and Periods of Taxation (3)** Analysis of the cash and accrual methods of accounting, choice of taxable period and multi-period transaction analysis. Consideration of statute of limitations and mitigation thereof. Details of passive activity losses. Prerequisite: undergraduate accounting concentration or equivalent.

**ACCTG 533 Procedural and Policy Issues (3)** Analysis of the procedures of Federal taxation: assessment, collection, and refund claims. Detailed exploration of the rules governing the statute of limitations and the mitigation thereof. An introduction to tax policy considerations is given. Tax penalties are explored. Prerequisite: undergraduate accounting concentration or equivalent.

**ACCTG 534 Fundamentals of Corporate Taxation (3)** Detailed analysis of contribution of assets to corporations. Calculation of recognized gains and basic effects of asset contributions. Treatment of income and deduction items of corporate operations. Analysis of distribution of assets to shareholders with respect to their stock. Prerequisite: undergraduate accounting concentration or equivalent.

**ACCTG 535 Advanced Issues in Corporate Taxation (3)** A continuation of 534. Fundamentals of moving assets out of and within corporate solution. Basics of corporate reorganizations: acquisitive and divisive. The details of the election to obtain (or avoid) the Section 338 election are explored in detail. Prerequisite: undergraduate accounting concentration or equivalent; ACCTG 534 or permission of instructor.

**ACCTG 536 Advanced Issues in Corporate Taxation (3)** Continuation of 534 and 535. Study of complex issues in corporate taxation planning. Substantial portion of course involves resolving case studies to improve analytic skills and to interrelate disparate corporate planning opportunities. Corporate reorganizations are analyzed in detail. Prerequisite: undergraduate accounting concentration or equivalent; ACCTG 535 or permission of instructor.

**ACCTG 537 Income Taxation of Conduits I (3)** Tax consequences to owners and entity from formation, operation, distributions from, and liquidation of partnerships and S corporations. Study of taxable and tax-free formations, nature of "bottom line" income and separately stated items, changes to owners' tax basis, basics of non-liquidating and liquidating distributions. Prerequisite: undergraduate accounting concentration or equivalent. Offered: W.

**ACCTG 538 Income Taxation of Conduits II (3)** A continuation of 537. Study of complex issues in partnership and S corporation taxation. Substantial portion involves resolving case studies to improve analytic skills and interrelate partnership and S corporation planning issues. Sections 751(b) and 736 examined in detail. Prerequisite: undergraduate accounting

concentration or equivalent; 537 or permission of instructor.

**ACCTG 539 Tax Research and Decision Making (4)** Decision-making processes in relation to problems of taxation. Tools of tax analysis and research and the communication of conclusions flowing from professional tax work. Role of the professional accountant in client business transactions and in negotiations with taxing authorities is highlighted and simulated on the basis of actual case histories. Prerequisite: undergraduate accounting concentration or equivalent.

**ACCTG 541 Communications for Taxation Professionals (4)** Introduction to the communications forms and to practices professional accountants and accounting managers. Development of effective written and oral skills employed in accounting presentations, such as audit reports and consultants' reports. Study of results of organizational communications research applicable to accounting firms and/or units within firms. Prerequisite: undergraduate accounting concentration or permission of instructor.

**ACCTG 543 Income Taxation of Trusts and Estates (3)** Development of fundamental skills regarding income taxation of trusts and estates. Calculation of distributable net income and the distribution deduction for the fiduciary entity. Basic analysis of the throwback rules. Case studies. Prerequisite: undergraduate accounting concentration or equivalent.

**ACCTG 547 Estate and Gift Taxation (3)** Development of fundamental knowledge of the unified transfer tax on the transfer of property from one person to another. Calculation of gross estate, adjusted gross estate, and taxable estate. Calculation of gift and estate taxes owing. Discussion of estate planning concepts. Prerequisite: undergraduate accounting concentration or equivalent.

**ACCTG 564 Governmental Accounting (4)** Budgetary and financial accounting/reporting as applied at the state, local, and special-purpose governments; financial accounting and reporting for not-for-profit organizations.

**ACCTG 566 Issues in International Accounting (4)** Insights into the conceptual, managerial, professional, and institutional issues of international accounting. Focus on current topics in international accounting and on the cultural, managerial, and governmental forces that shape both internal and external accounting in specific countries.

**ACCTG 575 Internship (14)** Professional internship in graduate accounting program. Prerequisite: enrollment in MPAcc program, accounting and assurances track.

**ACCTG 576- Independent Research Project Proposal (2-)** Topic identification and development for research project to be completed in ACCTG 577. Prerequisite: enrollment in MPAcc program, accounting and assurances track.

**ACCTG 577 Independent Research Project Proposal (-4)** Development and completion of independent research project. Topic identification and proposal approval completed in ACCTG 576. Prerequisite: enrollment in MPAcc program, accounting and assurances track; ACCTG 576.

**ACCTG 579 Special Topics in Accounting (2/4, max. 12)** Accounting topics of current concern to

faculty and students. Offered only when faculty are available and sufficient student interest exists. Seminar content announced in advance of scheduled offering. Prerequisite: permission of instructor.

**ACCTG 580 Introduction to Accounting Research (4)** Examination of research problems and techniques in accounting. Interdisciplinary nature of accounting research emphasized. Work in finance, economics, and psychology used to develop current trends in accounting research. Prerequisite: doctoral student status.

**ACCTG 581 Seminar in Managerial Accounting (4)** Critical examination of conceptual and practical issues of cost and managerial accounting. Specific topics may change from quarter to quarter, and they include application of behavioral, quantitative, and economic models to managerial accounting problems. Prerequisite: ACCTG 511 or permission of instructor.

**ACCTG 596 Seminar in Financial Accounting Research (4)** Review and critical analysis of research strategies and methods applied to problems in financial reporting practice and financial accounting standard setting. Prerequisite: doctoral student status and ACCTG 580 or equivalent or permission of graduate office.

**ACCTG 597 Seminar in Managerial Accounting Research (4)** Critical analysis of current managerial accounting research, both published and unpublished. Prerequisite: doctoral student status and 581 or equivalent or permission of graduate office.

**ACCTG 599 Doctoral Seminar in Accounting (1, max. 12)** Study and research in advanced topics of Accounting. The seminar is generally concerned with unpublished areas of research as well as research methodology and philosophy. It is conducted by departmental faculty and occasional distinguished visiting faculty. Prerequisite: doctoral student status.

**ACCTG 600 Independent Study or Research (\*)**

## Business Administration

### Administration

**ADMIN 510 Essentials of Business ([1-15, max. 15]-)** *Huber* Includes materials basic to study and application of business theories and practice; accounting; business economics and financial control; and business strategy; commercial law; human resources and negotiations; marketing; operations management. Faculty team-teaching approach. Not open to masters of business administration majors. Credit/no credit only.

### Business Administration

**B A 300 Foreign Study-Business Administration (3-5, max. 15)** For participants in approved foreign-study programs where equivalent UW business administration courses are not available.

**B A 390 Business Honors Seminar (2-5, max. 5)** Special topics in business. Required for honors students in Business Administration.

**B A 410 Business Advantage (10)** Four-week integrative course which focuses on business basics — finance, accounting, marketing strategy and human resources. Team-taught by faculty experts using case discussions, lectures, and student presentations. Not open for credit to students pursuing a Business degree.

**B A 470 Accounting and Finance for Non-business Majors (3) QSR** Addresses economic foundations of demand, supply, and costs as basis for accounting system. Focuses on using data for evaluating performance, budgeting and financial statement analysis. Short-term and long-term decision making compared. Not open for credit to students pursuing a Business degree. Offered: A.

**B A 471 Marketing Analysis and Strategy for Non-business Majors (3) I&S** Provides understanding of marketing principles and their usefulness in diverse business and organizational situations. Includes study of controllable and uncontrollable factors in making marketing decisions; developing working knowledge of marketing strategy and understanding of implications of product life cycle for decision-making. Not open for credit to students pursuing a Business degree. Offered: W.

**B A 472 Managing Human Assets for Non-business Majors (3) I&S** Deals with understanding management of human resources in businesses and other organizations. Includes study of relevant theories and research, analyses of cases, and experiential exercises including overview of new work place, diversity, leading, deciding, negotiations, attracting, motivating and rewarding, and team management. Not open for credit to students pursuing a Business degree. Offered: Sp.

**B A 490 Special Topics in Business (1-6, max. 8)**

**B A 500 Business Administration I (16)** Coordinated series consisting of accounting, business economics, business ethics, business policy, finance, information systems, international business, legal environment of business, management, and organizational behavior, marketing, operations management, and quantitative methods for management. Prerequisite: permission of the School of Business Administration.

**B A 501 Business Administration II (14)** Coordinated series consisting of accounting, business economics, business ethics, business policy, finance, information systems, international business, legal environment of business, management, and organizational behavior, marketing, operations management, and quantitative methods for management. Prerequisite: permission of the School of Business Administration.

**B A 502 Business Administration III (8)** Coordinated series consisting of accounting, business economics, business ethics, business policy, finance, information systems, international business, legal environment of business, management, and organizational behavior, marketing, operations management, and quantitative methods for management. Prerequisite: permission of the School of Business Administration.

**BA 505 Global Business Fundamentals (16)** An intensive overview of the fundamental core

business topics: financial accounting, managerial accounting, business economics, statistics, management, macroeconomics, finance, marketing, operations management, quantitative methods, and strategy. Prerequisite: permission. Offered: S.

**B A 541 Environmental Management I (4)**

Survey of environmental ethics, environmental laws and regulation, the economics of environmental decisions, and the relationship of business to public policy and the environment. Must be taken concurrently with B A 544. Prerequisite: permission of instructor.

**B A 542 Environmental Management II (4)**

Applications of the functional areas of business to environmental concerns. Major federal legislation affecting these concerns applied to business problems in the areas of accounting, finance, marketing, management information systems, and organizational behavior. Must be taken concurrently with 544. Prerequisite: B A 541 or permission of instructor.

**B A 543 Environmental Management III (4)**

Case studies that integrate the fundamentals of business and environmental management to address such issues as plant siting, regulatory compliance, production line changes, and innovative, proactive responses to environmental issues. Case studies include results of student consulting projects and a capstone case in environmental management. Must be taken concurrently with 544. Prerequisite: B A 542 or permission of instructor.

**B A 544 Environmental Management Seminar (1, max. 3)**

Guest lecturers from academia, business, government, and advocacy groups discuss environmental science, ethics, law, regulation, economics, finance, accounting, and policy issues. Seminar topics supplement course material in 541, 542, 543 which are to be taken concurrently.

**B A 545 The Global Business Forum: Current Issues in Global Business (1, max. 3)**

Discussion of current trends in the global business environment and of international issues facing companies. Leaders from international businesses and other organizations, as well as faculty members from various departments and specializations, invited to share their perspectives with seminar participants. Topics change each quarter.

**B A 560 Cooperative Education in Business (1)**

Business practicum: internship with approved business or governmental agency. Open only to students who meet requirements of internship program. Internship credit may not be applied to fulfill specific course requirements or to credits required for graduation. Credit/no credit only. Offered: S.

**B A 571 Research Reports (4-)**

Independent study in business administration; critical evaluation of business analysis and research methods. Effective communication of ideas emphasized. Methods and content of independent research studies subjected to critical evaluation. Open only to MBA non-thesis students. Prerequisite: instructor's approval of preliminary research topic outline.

**B A 572 Research Reports (-4)**

Independent study in business administration; critical evaluation of business analysis and research methods. Effective communication of ideas emphasized. Methods and content of indepen-

dent research studies subjected to critical evaluation. Open only to MBA non-thesis students. Prerequisite: B A 571.

**B A 578 Practicum in Business Management (2)**

Provides an opportunity for first-year MBA students to apply the skills learned in the classroom to real world problems. Students participating in the Business Consulting Network (BCN) partner with client firms on an applied learning project that offers additional training opportunities not possible in the classroom. Credit/no credit only.

**B A 580 Problems in Microeconomics (4)**

Study of microeconomic intuition, directed toward Business School Ph.D. students, showing the interconnections between formal, mathematical analysis and the unstructured economic questions posed by the world. Emphasis on setting up problems and examining the intuition behind the analysis of them. Many applications to specific business issues.

**B A 700 Master's Thesis (\*)**

**B A 800 Doctoral Dissertation (\*)**

## Business Administration Research Methods

**BA RM 580 Applied Econometrics I (4)**

Emphasizes the application of econometric methods rather than the mathematical proofs of statistical procedures. Introduction to the linear regression model, interpretation of summary statistics, bias and precision of regression estimates, analysis of the residuals, and hypothesis testing. Prerequisite: STAT 342 or STAT 395 or STAT 481, or permission of instructor.

**BA RM 581 Applied Econometrics II (4)**

Continuation of 580. Measurement errors, distributed lags, and simultaneous equation models. Prerequisite: BA RM580.

**BA RM 590 Behavioral Research Methods-**

**Theory and Design (4)** Philosophy of science, development of scientific method, and meaning of behavioral research. Historical perspective of scientific investigation and the evaluation of research. The development of theory and its relationship to research. Various strategies and designs in behavioral research. Prerequisite: STAT 361, STAT 362, or permission of instructor.

**BA RM 591 Behavioral Research Methods-**

**Approaches and Applications (4)** Considers alternative research approaches, such as laboratory and field experimentation, simulation, and surveys, with data-gathering techniques appropriate for each approach. It is primarily concerned with developing alternative approaches to research problems and with discussing specific applications. It builds upon a background of specific statistical tools and techniques and an understanding of theory development and research design. Prerequisite: STAT 361, STAT 362, or permission of instructor.

## Business Communication

**B CMU 301 Basic Written Business**

**Communications (4)** Broad analytical approach to written communications as a management tool. Analysis of the psychology, semantics, planning, and principles of effective business writing. Practical application through messages that inform and persuade, grant and refuse; plus

short business reports and applications for positions. Cannot be taken for credit if B CMU 302 already taken. Offered: AWPSp.

**B CMU 302 Basic Written Business Communications for Accounting Majors (4)**

Broad analytical approach to written communications as a management tool for accountants. Analysis of the psychology, semantics, planning, and principles of effective business writing. Practical applications through messages that inform and persuade, grant and refuse; plus short business reports and applications for positions. Cannot be taken for credit if B CMU 301 already taken. Corequisite: ACCTG 301.

**B CMU 410 Business Reports and Other Specialized Communications (4)**

Covers internal and external, written and oral business reporting. Considers communications strategies within the context of rapidly changing technologies. Students learn to apply primary and secondary research to quarter-long, individual projects resulting in a variety of reports: proposals, progress reports, feasibility studies, business plans, etc. Prerequisite: B CMU 301 or B CMU 302.

**B CMU 490 Special Topics in Business**

**Communications (1-6, max. 12)** Students and faculty focus on current topics of concern. Prerequisite: either B CMU 301 or B CMU 302.

**B CMU 499 Research in Business Communications (1-6, max. 9)**

**B CMU 509 Finding your Voice (2)** Develop a leadership communication style by discovering core values and learning how to translate those values into effective messages. Students give speeches as well as critique speeches of classmates, produce written evaluation of speeches given in class and receive instructor feedback. Prerequisite: BA 501.

**B CMU 510 Business Communications for**

**Managers (4)** Develops understanding of communication theories, describes strategies for planning managerial communications, and builds skills in oral and written reporting and persuading. Looks at how new technologies are changing the way people in business communicate, and the implications those changes have for organizations. Prerequisite: B A 501.

**B CMU 579 Special Topics in Business**

**Communication (2/4, max. 12)** Business and managerial communication topics of current interest to faculty and students.

**B CMU 600 Independent Study or Research**

**(\*)** *Goethals, Kalitzki* Offered: AWPSp.

## Business Economics

**B ECON 300 Managerial Economics (4)**

Analysis of economic factors affecting decisions made by business firms. Demand and cost analysis, and alternative policies from the firm's point of view. Prerequisite: ACCTG 225; ECON 201; either MATH 112, MATH 124, MATH 125, MATH 127, MATH 134, MATH 145, or Q SCI 291; either IND E 315, QMETH 201, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 311, or STAT 390; may not be repeated.

**B ECON 301 Intermediate Macroeconomics**

**(4)** Analysis of economy with attention to the business cycle, output of goods and services (GNP), inflation, unemployment, and government's fiscal and monetary policies. How

the economy affects individuals and firms and how to deal effectively with the economic environment. Prerequisite: ECON 201; may not be repeated.

**B ECON 420 Financial Markets (4)** Analysis of the structure and functions of the money and capital markets; the saving-investment process and financial intermediaries; supply and demand for lendable funds and the level and structure of interest rates, role of Federal Reserve and Treasury in money market developments. Prerequisite: either B ECON 301 or ECON 301; may not be repeated.

**B ECON 426 Competing in the Global Economy (4)** Examines the global environment for business and the challenges facing managers in this environment. Explores the implications of the common phrase “think global — act local.” Prerequisite: either B ECON 300 or ECON 300; either B ECON 301 or ECON 301.

**B ECON 427 International Finance (4)** Asset choice and institutional operations in international finance, foreign exchange problems, the impact of international financial problems and operations on business, short- and long-term international financing. Prerequisite: either B ECON 300 or ECON 300; either B ECON 301 or ECON 301; may not be repeated.

**B ECON 490 Special Topics in Business Economics (1-6, max. 6)** Study and research on topics of current concern to faculty and students. Only offered when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings.

**B ECON 499 Undergraduate Research (1-6, max. 9)** Research in selected areas of business economics. Recommended: either ECON 301 or B ECON 300 and B ECON 301.

**B ECON 500 Introduction to Business Economics (4)** Factors underlying the determination of cost and prices for the industry and the firm, demand and supply analysis and firm behavior. The relation of the economic environment to the microeconomic decisions of the firm.

**B ECON 501 Analysis of Global Economic Conditions (4)** Analysis of real and monetary factors affecting national and international economics, supply and demand for money, interest rates and stabilization problems and policies, in relation to government policy effects on business and individual affairs. Focuses on global macroeconomic issues. Prerequisite: B ECON 500.

**B ECON 520 Financial Markets (4)** Analysis of the structures and functions of financial markets and institutions; the behavior of interest rates through time; the cross-sectional structure of interest rates; and the roles of the Federal Reserve and Treasury in financial markets. Prerequisite: FIN 509.

**B ECON 526 Competing in the Global Economy (4)** Examines the global environment for business and the challenges facing managers in this environment. Explores the implications of the common phrase “think globally — act locally.” Offered: WSp.

**B ECON 527 International Finance (4)** Study of selected problems in financing, international trade, investment, and foreign business

operations; international aspects of money markets; problems of evaluation of foreign investments. Prerequisite: either B A 502 or both B ECON 501 and FIN 502.

**B ECON 579 Special Topics in Business Economics (2/4, max. 12)** Business economics topics of current concern to faculty and students. Offered only when faculty are available and sufficient student interest exists. Seminar content announced in advance of scheduled offering. Prerequisite: permission of instructor.

**B ECON 600 Independent Study or Research (\*)**

## Business Policy

**B POL 482 Strategies for New Ventures (4)** Focuses on market analysis and strategy formation. Includes building an entrepreneurial firm, market opportunity analysis, product testing, developing and implementing business plans, venture financing, and managing a growing company. Prerequisite: B POL 471; MKTG 335; MKTG 455; FIN 454.

**B POL 499 Undergraduate Research (1-6, max. 9)**

## Electronic Business

**EBIZ 501 E-Business Marketing (4)** *Schlosser* Uses current strategies for Internet marketing and explores new frontiers. Topics include examining the history, culture, and design of the Internet and the resulting impact on marketing; Web-based business models; consumer demographics; Web usage behavior; privacy issues; brand loyalty; virtual communities; and commercial Web site effectiveness metrics. Offered: W.

**EBIZ 502 E-Business Technology (4)** *Mookerjee* Examines the underlying information technologies that are driving the e-business revolution, including the overall technical infrastructure required to execute an e-business solution. Taught via lectures, projects, and hands-on sessions in the E-Business lab. Students implement and manage an e-business site. Offered: A.

**EBIZ 503 E-Business Economics (4)** *Rice, Schall, Tarhouni* Uses economic principles to assess the implications of evolving Internet technology for business decision-making, market prices, and market structure. Develop theoretical extensions of the models covered in B A 500 to analyze the questions that the Internet poses. Includes a group paper and a group evaluation of an Internet company. Offered: W.

**EBIZ 504 E-Business Strategy (4)** *Kotha* Integrates issues pertaining to management of technology and entrepreneurship: the emergence of the global digital economy and its impact on commerce, business models in e-commerce, “netpreneurship” and its place in existing corporations. Lectures and featured speakers from online Seattle firms, case discussions, and group projects. Offered: ASp.

**EBIZ 509 Foundations of E-Business (2)** Examines the fundamental technologies associated with business-to-consumer and business-to-business interaction and delivery of content via the Internet. Contrasts clients-

versus server-side approaches to database processing and XML, and execution of business rules and logic. Includes experience with the various technologies. Prerequisite: Permission of School of Business Administration. Offered: Sp.

**EBIZ 579 Special Topics in E-Business (2-4, max. 12)** Topics vary. Offered only when faculty members are available and there is sufficient student interest.

**EBIZ 600 Independent Study or Research (8)**

## Entrepreneurship

**ENTRE 370 Introduction to Entrepreneurship (4)** Introduction to entrepreneurial practices with an emphasis on learning how to find business ideas, how to evaluate their potential, and how to recognize the barriers to success. Exposure to the stresses of a start-up business, the uncertainties that exist, and the behavior of entrepreneurs. Prerequisite: ACCTG 225; ECON 200; ECON 201.

**ENTRE 402 Managing Rapid Growth Companies (4)** Focuses on developing and managing rapid-growth businesses. Topics include developing and executing business plans in markets poised for rapid growth, expanding beyond niche segments, seeking venture financing from private and public markets, and managing and directing growth appropriate hiring and market expansion. Prerequisite: ENTRE/ MGMT 401.

**ENTRE 440 Business Plan Competition Practicum (4)** Explores the challenges/ requirements of transforming an idea into a business. Emphasizes developing business concepts/strategy, marshalling resources, providing the business model, and creating strategic plans for growth. Students must attend the business plan competition resource nights and participate in the business plan competition held the following quarter.

**ENTRE 472 Creating a Company I (4-)** Two-course sequence with ENTRE 473. Working in teams, students develop a business plan for a new venture, present their plans to a panel of investors, obtain funding, run the business, and exit the firm at the end of the second quarter. Prerequisite: ENTRE 370. Offered: AW.

**ENTRE 473 Creating a Company II (-4)** Two-course sequence with ENTRE 472. Working in teams, students develop a business plan for a new venture, present their plans to a panel of investors, obtain funding, run the business, and exit the firm at the end of the second quarter. Prerequisite: ENTRE 472. Offered: WSp

**ENTRE 490 Special Topics in Entrepreneurship (1-6, max. 6)** Prerequisite: ENTRE 370.

**ENTRE 509 Foundations of Entrepreneurship (2)** Evaluation of new market opportunities and starting a new venture, focuses on identifying and evaluating new venture opportunities, developing and testing market strategies, evaluating test market performance, and evaluating business plans. Emphasizes the interplay between marketing, manufacturing, finance, accounting and team management. Prerequisite: Permission of School of Business Administration. Offered: Sp.

**ENTRE 510 Entrepreneurial Ventures (4)** Uses the tools of competitive strategy to analyze the

success and failure of entrepreneurial ventures, identifying general strategic principles that might increase the probability that an entrepreneurial venture will succeed. Draws heavily on the principles of microeconomics and strategy. Prerequisite: B A 500; B A 502.

#### **ENTRE 511 Entrepreneurial Marketing (2)**

Focuses on marketing issues related to the generation and development of innovative ideas, assessment of feasibility, implementation and execution, and valuation of business ventures, highlighting the real world applications by new ventures. Prerequisite: B A 501 and entrepreneurial bridge course.

#### **ETNRE 521 Corporate Entrepreneurship (4)**

Focuses on entrepreneurial activities in large, established corporation. Introduces the theory and best practices on the process of converting new ideas to commercial products and new businesses. Prerequisite: B A 500; B A 501; B A 502. .

#### **ENTRE 530 New Venture Creation and**

**Managing Growth (4) Song** Focuses on gaining experience in market analysis, new venture strategy formulation, and the management of a new venture. Topics include building an entrepreneurial firm, market opportunity analysis, product testing, developing and executing business plans, venture financing, and managing a growing company. Prerequisite: B POL 509; B A 501. Offered: W.

#### **ENTRE 531 Developing Business Models for**

**Emerging Technologies (4) Song** Focuses on the commercialization of emerging technologies. Topics include conducting feasibility assessments of intellectual property landscape, evaluating business opportunities, analyzing competition, developing business models and strategies, constructing a professional quality business plan, and presenting business plan, transforming a new technology into a market-ready technology-based business. Offered: W.

#### **ENTRE 532 Software Entrepreneurship (4) A**

case- and project-based course, focusing on starting a software or hardware company. Guest entrepreneurs, lawyers, and financiers discuss market identification and analysis, planning the business, financing, and typical operating and administrative problems.

#### **ENTRE 540 Entrepreneurship Practicum (2,**

**max. 4) Bigley, Sundem** Enables students interested in new venture creation to explore their entrepreneurial aptitude by competing in a Business Plan Competition offered by the Center for Technology Entrepreneurship. Requires enrollment in the CTE certificate program. Credit/no credit only.

#### **ENTRE 541 Technology Commercialization**

**Practicum (4) Derrickson, Kotha** Provides the experience of researching and creating a commercialization plan for a promising technology. Designed to apply the skills and perspectives of students in cross-disciplinary teams so they learn how to work effectively with peers in assessing complex and potentially ambiguous situations. Offered: W.

#### **ENTRE 542 Venture Capital Investment**

**Practicum (2) Dooley, Sigl** Provides overview and teaches the mechanics of the venture capital industry and culminates in intramural venture capital competition. Students assume the role of investors in a venture capital firm and real entrepreneurs pitch to them for

investment dollars. Teams defend their allocation decisions before a judging panel of venture capitalists. Credit/no credit only. Offered: A.

#### **ENTRE 557 Entrepreneurial Finance (4)**

Analyzes the unique financial issues facing entrepreneurial firms. Topics include assessing financial performance, financial forecasting and planning, financial management of rapidly growing businesses, start-up ventures, valuation, sources of financing, venture capital, initial public offerings, and the decision to harvest. Prerequisite: MBA core courses. Offered: jointly with FIN 557.

#### **ENTRE 579 Special Topics in Entrepreneur-**

**ship (2-4, max. 12)** Topics vary. Offered only when faculty members are available and there is sufficient student interest.

#### **ENTRE 581 Theoretical Foundations of**

**Entrepreneurship (4) Song** Focuses on theoretical overview, entrepreneurs, environment and organizational founding, entrepreneurship's links with other disciplines, venture capital and venture capitalists, new venture strategy and performance, growth processes and challenges, and entrepreneurial networks and alliances. Class sessions review and critique assigned readings associated with each topic. Offered: A.

#### **ENRE 582 Technology, Innovation, and**

**Entrepreneurship (4) Kotha** Explores issues of how a knowledge-based economy competes and performs using technological innovations and entrepreneurship. Explores research on capabilities of broader entities; processes of learning at the firm, industry, technology, economy-level; development of know-how as evolutionary process; and explorations by firms, sectors and economies exploring new technologies and techniques. Offered: W.

#### **ENTRE 590 New Venture Research Practicum**

**(4) Kotha, Song** Exposes students to new venture creation phenomena. Teaches how to think about and understand empirical research methods such as case studies, participant-observation, and other field methods while contributing to on-going cumulative data collection process.

#### **ENTRE 600 Independent Study or Research**

(\*)

## **Finance**

#### **FIN 350 Business Finance (4)**

Evaluating and funding projects within the firm. Time value of money, inflation, capital budgeting; risk and return in the financial markets, stocks, bonds, portfolios and diversifiable risk, market efficiency and the balance between debt and equity to fund the firm. Prerequisite: ACCTG 225; ECON 201; either MATH 112, MATH 124, MATH 125, MATH 134, MATH 145, or Q SCI 291; either IND E 315, MATH 390, QMETH 201, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 311, or STAT 390.

#### **FIN 423 Banking and the Financial System**

**(4)** Role of banks and nonbank financial institutions in the financial system; asset choices of banks and nonbank financial institutions; problems in the management of financial institutions with emphasis on commercial banks. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

#### **FIN 428 International Financial Management**

**(4)** Analysis of financial problems facing businesses engaged in international activities. Financing foreign investment, financial control of foreign operations, and working capital management including foreign exchange positions using cases and readings. Prerequisite: FIN 350.

#### **FIN 450 Problems in Corporate Finance (4)**

Case problems in corporate financial management. Includes cases on management of current assets, obtaining short-term loans, raising long-term capital, capital budgeting, and dividend policy. The management point of view is stressed. Prerequisite: FIN 350; either B ECON 300 or ECON 300.

#### **FIN 453 Financial Theory and Analysis (4)**

Business financial strategic planning. Topics include business valuation and financing, performance evaluation, risk analysis, capital budgeting, and inflation and taxes. Emphasizes tools with real-world applications while incorporating modern finance concepts. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

#### **FIN 454 Business Valuation, Investment, and**

**Financing (4)** Key issues in financial management using both analytical and case study illustrations. Valuation of public and private companies; cost of capital estimation; investment complications, such as taxes, inflation, risk, project interdependencies, and financing-investment interactions; leasing; mergers; spin-offs and carve-outs. Prerequisite: FIN 350; either B ECON 300 or ECON 300.

#### **FIN 457 Entrepreneurial Finance (4)**

Explores financial issues that face entrepreneurs, including the stages of financing, business cash flow models, and strategic positioning of the early-stage company. Examines the role of business angels, venture capital funds, institutional investors, strategic alliances, licensing agreements, and exit strategies. Prerequisite: FIN 350; either B ECON 300 or ECON 300. Offered: W.

#### **FIN 460 Investments (4)**

Introduction to the nature, problems, and process of evaluating particular securities and portfolio construction and administration. Special attention is directed to the risk and rate-of-return aspects of particular securities portfolios, and total wealth. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

#### **FIN 461 Financial Futures and Options**

**Markets (4)** Introduction to financial futures and options markets. Institutional aspects and social functions of these markets, pricing of options and futures, and risk shifting by hedging. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

#### **FIN 462 Management of Financial Risk (4) y**

Modern tools for managing financial risk. Fixed income securities and interest rate risk, credit risk, foreign currency risk, and insurance. Emphasis on use of futures, forwards swaps, and option contracts. Prerequisite: FIN 350; either B ECON 300 or ECON 300; FIN 461.

#### **FIN 490 Special Topics in Finance (1-6, max.**

**6)** Study and research on topics of current concern to faculty and students. Only offered when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings.

**FIN 495 Finance Internship (1-4, max. 8)**  
Internship with a private firm, nonprofit organization or government agency, where work experience involves substantial application of finance concepts learned in classroom. Credit/no credit only. Prerequisite: FIN 350. Offered: AWSpS.

**FIN 499 Undergraduate Research (1-6, max. 9)**  
Research in selected areas of business finance, money and banking, or investments, with permission of instructor. Recommend: FIN 350; either B ECON 300 or ECON 300.

**FIN 502 Business Finance (4)**  
Financial management of the firm, including capital budgets, working capital analysis, and financing policy. Prerequisite: ACCTG 500, B ECON 500, QMETH 500.

**FIN 509 Foundations of Asset Valuation (2)**  
Introduction to valuation, focusing on topics in asset-pricing, fixed income, financial options, and international markets. Emphasizes both theoretical and applied concepts. Course material prepares students for advanced topics covered in the finance electives. Prerequisite: either B A 501 or FIN 502, or permission of School of Business Administration. Offered: Sp.

**FIN 528 International Financial Management (4)**  
Analysis of financial problems facing businesses engaged in international activities: financing foreign investment, financial control of foreign operations, and working capital management including foreign exchange positions using cases and readings. Prerequisite: B A 502 or FIN 509.

**FIN 530 Financial Management of Banks (4)**  
Analysis of problems in the financial management of commercial banks and other financial institutions. Loan and investment policies, liability management, capital policies, and other selected issues are discussed. Prerequisite: B ECON 520 or permission of graduate office.

**FIN 550 Advanced Business Finance (4)**  
Systematic coverage of key theoretical issues in financial management. Application of quantitative analysis to financial problems of the firm that are important in practice, including issues related to financing and investment. Prerequisite: FIN 509.

**FIN 551 Problems in Business Finance (4)**  
Uses case studies to examine a broad range of financial management topics, including forecasting financial statements, use of bank credit, working capital management, public and private securities issues, capital budgeting, and business valuation. Prerequisite: B A 502.

**FIN 552 Problems in Corporate Planning and Financing (4)**  
Uses case studies to examine business financing. Topics include financial statement analysis, financial planning and forecasting, banking relationships, and financing sources, including the use of derivative securities, venture capital, and private equity. Cannot be taken for credit in combination with FIN 551. Prerequisite: FIN 509.

**FIN 553 Problems in Capital Investment Planning (4)**  
Case discussions used to examine corporate resource allocation decisions. Topics include capital budgeting techniques, estimation of capital costs, capital budgeting systems, strategic investment decisions, and financial restructurings. Prerequisite: FIN 509.

**FIN 555 Financing Decisions, Payout Policy, and Corporate Control (4)**  
Analysis of business financing methods, payout policy, management compensation, ownership structure, and the distribution of control rights. Covers the major issues critical to structuring contracts within the corporation. Prerequisite: FIN 509.

**FIN 556 Business Valuation and Investment Analysis (4)**  
Valuation of business enterprises, evaluation of financial performance, analysis of complex investment opportunities, business taxation, leasing, and business acquisitions. Emphasis on complications encountered in practice. Prerequisite: FIN 509.

**FIN 557 Entrepreneurial Finance (4)**  
Analyzes the unique financial issues facing entrepreneurial firms. Topics include assessing financial performance, financial forecasting and planning, financial management of rapidly growing businesses, start-up ventures, valuation, sources of financing, venture capital, initial public offerings, and the decision to harvest. Prerequisite: MBA core courses. Offered: jointly with ENTRE 557.

**FIN 558 Mergers and Acquisitions (4)**  
Advanced finance topics focusing on providing the necessary training to value, structure and close acquisitions. Additional topics include antitrust issues, the legal environment governing mergers, and antitakeover defense. Offered: WSp.

**FIN 560 Investments (4)**  
Introduction to the nature, problems, and process of evaluating particular securities and portfolio construction and administration. Special attention is directed to the risk and rate of return aspects of particular securities, securities portfolios, and total wealth. Prerequisite: FIN 509.

**FIN 561 Financial Futures and Options Markets (4)**  
Overview of futures markets and options markets. Analysis of pricing of futures contracts and options; comparison of futures, forward, and options contracts; risk management with hedging; alternative investment strategies; and review of empirical evidence. Prerequisite: FIN 509.

**FIN 562 Management of Financial Risk (4)**  
Modern tools for managing financial risk. Fixed income securities and interest rate risk, credit risk, foreign currency risk, and insurance. Emphasis on use of futures, forwards, swaps, and option contracts. Prerequisite: FIN 509.

**FIN 563 Real Options (2)**  
Short overview of option pricing theory, followed by applications of option analysis in evaluating complex investment projects by business firms. Prerequisite: B A 502.

**FIN 579 Special Topics in Finance (2/4, max. 12)**  
Finance topics of current concern to faculty and students. Offered only when faculty are available and sufficient student interest exists. Seminar content announced in advance of scheduled offerings. Prerequisite: permission of instructor.

**FIN 580 Doctoral Seminar in Financial Economics (4)**  
Study of the financing of the corporation, including recent theoretical and institutional developments. Extensive reading and discussion in designated areas covering problems relating to financial management and to the social and economic implications of the financial process. Prerequisite: ECON 500 or permission of instructor.

**FIN 590 Doctoral Seminar in Capital Market Theory (4)**  
Decision making under uncertainty, information and capital market efficiency, portfolio theory, capital asset pricing model, arbitrage pricing model, and options pricing model. Prerequisite: ECON 500 or permission of instructor.

**FIN 591 Doctoral Seminar in Corporate Finance (4)**  
Principles of intertemporal choice, alternative valuation models, theory of investment under uncertainty, impact of dividend and financing decisions on firm valuation in perfect and imperfect markets, and theory of firm organization and agency costs. Prerequisite: FIN 590 and BA RM 581 or ECON 582 or permission of instructor.

**FIN 592 Doctoral Seminar in Financial Research (4)**  
Empirical research in finance with emphasis on methodology and scientific method. Empirical research in market efficiency, capital asset pricing model, options pricing model, and impact of firm's dividend and financing decisions on firm value. Prerequisite: FIN 590 and BA RM 581 or ECON 582 or permission of instructor.

**FIN 599 Doctoral Seminar in Finance (1, max. 12)**  
Study and research in advanced topics of finance. Generally concerned with unpublished areas of research, conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

**FIN 600 Independent Study or Research (\*)**

## Human Resources Management and Organizational Behavior

**HRMOB 499 Undergraduate Research (1-6, max. 9)**

## Information Systems

**I S 300 Introduction to Information Systems (5)**  
Fundamentals of information systems, what they are, how they affect organizations. Technical and organizational foundations of information systems, building information systems, managing information system resources. Laboratory emphasizes using computer to analyze, coordinate, solve organizational decision-making problems. Prerequisite: ACCTG 225; ECON 200; either MATH 112, MATH 124, MATH 125, MATH 134, MATH 135, or MATH 145; either ECON 311, IND E 315, QMETH 201, Q SCI 291, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 311, or STAT 390; may not be repeated.

**I S 310 Fundamentals of Business Information Technologies (4)**  
Exposure to fundamental programming and scripting concepts, conceptual data modeling, database management, and XML. Applying data types and control structures. Continues the concepts of I S 300 of entity-relationship diagrams and record structure diagrams. Database management component includes relational databases, basic SQL, data architecture issues. Prerequisite: I S 300.

**I S 320 Fundamentals of Application Programming (4)**  
Fundamental programming concepts including data types, control structures, modularization, and structure programming. Developing solutions for problems in interactive business applications. Introduction to data and file structures. Extensive use of an event-driven programming language. Prerequisite:

site: I S 300; I S 310, which may be taken concurrently; may not be repeated.

**I S 423 E-Business System Development (4)** Introduces key e-business enabling information technologies. Covers object-oriented principles, representing objects in software, object analysis and design, and use of modern programming language, and advanced database technology for web-based application development. Prerequisite: I S 320; may not be repeated.

**I S 410 Business Data Communications (5)** Technology and applications of business data communications including characteristics of data, fundamentals of transmission, communications hardware and software, network configurations (LAN, MAN, WAN), management, and security. Laboratory provides hands-on experience with these applications. Prerequisite: I S 300, which may be taken concurrently; may not be repeated.

**I S 445 Database Management (4)** Examines the business need for database processing. Discusses database design, development, and administration. Students practice real-world database design and implementation using SQL. Discusses issues related to transaction management, data warehouse, etc. Prerequisite: I S 310; I S 320, which may be taken concurrently; may not be repeated.

**I S 460 Systems Analysis and Design (4)** Analysis and design of business information systems. Concentrates on the analysis phase of systems development. Covers systems development life cycle, feasibility studies, analysis of user requirements, and development of logical system models. Prerequisite: I S 410; I S 445, which may be taken concurrently; may not be repeated.

**I S 461 Systems Implementation (4)** Develops business information systems integrating knowledge gained in previous 400-level I S courses. Topics include software project management, system/database design, GUI, software testing, systems implementation/support/maintenance, user training, integrating Web, and business environments. Prerequisite: I S 445; I S 460; may not be repeated.

**I S 490 Selected Topics in Information Systems (1-6, max. 20)** Topics of current concern to faculty and students. Potential topics include networks and distributed information-processing systems, office automation, artificial intelligence and knowledge-based systems, new approaches to systems development, fourth- and fifth-generation languages, economics of information systems. Prerequisite: I S 320.

**I S 495 Practical Experience in Information Systems (1-4, max. 8)** Undergraduate substantive I S internship and mentorship. Internships can be repeated up to two quarters for maximum of 4 credits; grades based on weekly status reports, paper, demonstration of knowledge. Mentorship program (maximum 1 credit/quarter) allows student to be matched with I S executive; grade based on status reports, other participatory events.

**I S 499 Undergraduate Research (1-6, max. 12)** Selected problems in information systems and computer applications.

**I S 504 Computer-Based Information Systems for Management (3)** Introduction to information systems and computer technology. Covers

concepts of information use in decision making. Use of decision-support problem-solving tools (e.g., spread sheet, database software). Management's responsibility in defining, developing, using information systems is focal point.

**I S 530 Management of Information Systems Resources (4)** Topics include general control problem in organizations; performance evaluation of data processing managers; technology and cost trends; software cost estimation; capacity planning; short term utilization; queuing and associated externalities; issues in centralization and decentralization of the information system facilities. Prerequisite: B A 501 or I S 504 or equivalent.

**I S 545 Database Systems and Applications (4)** Logical data models, relational database systems, structured query language (SQL), conceptual modeling, database design, Web-connected databases, transaction management, distributed and heterogeneous systems, data warehousing, data mining, database administration issues. Focuses on the use/management of business data in areas such as finance. Prerequisite: B A 502 or I S 504.

**I S 560 Information Systems Development (4)** Offers comprehensive look at information systems development. Covers user requirements analysis, logical and physical system models, system implementation and maintenance, project valuation and management. Additional topics include object-oriented approach, systems development in online environments, and financial information systems. Prerequisite: B A 501 or permission of instructor.

**I S 570 Business Data Communications and Networking (4)** Networking basics, Internet/Web-based services, client-server architecture, fundamentals of transmission, networking protocols, physical layer, data-link layer, local-area networks, backbone networks, internetworking devices, metropolitan and wide-area networks, wireless networking, network security, network analysis and management. Combines technical, operational, and management issues in data communications. Prerequisite: B A 502 or I S 504.

**I S 579 Selected Topics in Information Systems (2/4, max. 12)** Topics of current concern to faculty and students. Potential topics include networks and distributed information-processing systems, office automation, artificial intelligence and knowledge-based systems, new approaches to systems development, fourth- and fifth-generation languages, economics of information systems. Prerequisite: B A 501 or I S 504 or permission of instructor.

**I S 580 Advanced Research Topics in Information Systems I (4)** Overview of research problems and techniques in Information Systems. Focuses on application of microeconomic theories, mathematical, statistical, and operations research methods. Extensive reading and discussion in current and emerging research topics. Prerequisite: doctoral student or permission of instructor.

**I S 581 Advanced Research Topics in Information Systems II (4)** Advanced topics of current interest of faculty in heterogeneous database, temporal database, data warehousing, data uncertainty, active and deductive database systems, database design, and formal database

languages. Prerequisite: doctoral student or permission of instructor.

**I S 582 Advanced Research Topics in Information Systems III (4)** Potential topics include formation systems design, software engineering, decision support and expert systems, empirical methods, optimal control theory. Prerequisite: I S 58 or doctoral student or permission of instructor.

**I S 599 Doctoral Seminar (1, max. 12)** Advanced topics of information systems. Generally concerned with unpublished areas of research and conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

**I S 600 Independent Study or Research (\*)**

## International Business

**I BUS 300 The International Environment of Business (4)** Prepares students to understand the most important aspects of the international political economy. Emphasis on the important relationships among nations and business and economic institutions that influence students' performances as managers, consumers, and citizens. Prerequisite: ECON 200.

**I BUS 330 Business Environment in Developing Nations (4)** The international environment for transnational trade, investment, and operations in the less-developed countries; survey of the economics of underdevelopment; analysis of foreign economic, cultural, and political environments and their impact on international business; foreign investment in the development process; case studies. Prerequisite: I BUS 300; may not be repeated.

**I BUS 340 Business Environment in Industrial Countries (4)** Factors and conditions affecting business operations and behavior in developed countries, international integration, business relations among nation states and integrated supranational systems, direct investment and multinational industrial activities, analysis of sources and causes of international change. Prerequisite: I BUS 300; may not be repeated.

**I BUS 440 Business in Asia (4)** Major aspects of the Asian business environment and how Asian enterprises are managed. Problems and opportunities of foreign corporations in Asia. Prerequisite: I BUS 300; may not be repeated.

**I BUS 461 Science, Technology, and Innovation Policies in East Asia (5)** Role of state and technological change in economic development. Analyzes state and corporate technology policies historically. Basic technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores whether conditions for its success will continue.

**I BUS 462 Japanese Business and Technology (5)** Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with SISEA 482.

**I BUS 470 Management of International Trade Operations (4)** Integrated study of international trade functions, practices, concepts, management, strategy, and policy. The approach utilizes lectures, case studies, research, guest speakers, and extensive practical application. Prerequisite: I BUS 300.

**I BUS 480 Multinational Operations Management (4)** Case studies in foreign operations management: planning international objectives and strategies; developing multinational company structures and executives; adapting administrative practices and operating policies to international diversities. Prerequisite: I BUS 300; may not be repeated.

**I BUS 490 Special Topics in International Business (1-6, max. 12)** Students and faculty focus on current topics of concern. Offered when faculty, student interest, and availability allow. Prerequisite: I BUS 300.

**I BUS 491 CISB Track Seminar (1, max. 9)** Students meet with business community leaders to discuss international aspects of their companies. Allows for networking and sharing experiences with other students as well as practicing foreign languages. Credit/no credit only.

**I BUS 495 International Business Internship (1-4, max. 8)** An internship with a company, not-for-profit organization, or government agency in an international business capacity. Credit/no credit only. Prerequisite: I BUS 300. Offered: AWSpS.

**I BUS 496 International Business Practicum (4)** Offers students opportunity to apply principles, concepts, and skills learned previously to actual business situation. Projects provide students an exposure to the issues and choices facing managers operating in an international business environment. Prerequisite: I BUS 300.

**I BUS 499 Undergraduate Research (1-6, max. 9)** Prerequisite: I BUS 300.

**I BUS 509 Foundations of International Business (2)** Introduction to governmental and organizational forces shaping international business. Considers the issues of trade, direct foreign investment, balance of payments, and comparative advantage. Looks at economic policies of governments and multilateral organizations such as WTO, IMF, and World Bank. Prerequisite: permission of School of Business Administration. Offered: Sp.

**I BUS 520 International Trade Policy (4)** Examines issues important to trade policy. Topics include trade policy basics, tariffs and non-tariff barriers, safeguards, voluntary restraints, dumping, subsidies and strategic trade theory, agricultural trade, developing country rules, regionalism, and services. Prerequisite: B A 500 or course in international economics, trade, or international finance, or permission of graduate office.

**I BUS 530 International Business in Less Developed Countries (4)** Understanding the economic, sociocultural, and political environment in the less developed countries. Problems of international trade and investment, north-south relations, commodities, technology transfer, foreign aid, and capital flows. Prerequisite: B A 500 or course in international economics or trade or international finance, or permission of graduate office.

**I BUS 540 International Business in Industrialized Countries (4)** Understanding the economic, sociocultural, and political environment in developed, industrialized countries. Problems of international trade and payments relations, economic integration, national policies, and supranational organizations' impact on managerial environments. Prerequisite: B A 500 or course in international economics or trade or international finance, or permission of graduate office.

**I BUS 550 International Business Consulting (4)** Research, analysis, and report on a specific international business project with an existing organization involved with international trade. Possible tasks include identifying most viable foreign target markets, developing best market entry strategies, establishing international terms and conditions of sale, and completing a preliminary marketing or business plan for clients.

**I BUS 560 Multinational Business Management (4)** Managerial responses to problems of international business organizations and operations. Strategy formulation in an international context; design and control of multinational organization; adaptation of management systems and policies to different economic, sociocultural, and political environments. Prerequisite: B A 500 or course in international economics or trade or international finance, or permission of graduate office.

**I BUS 561 Science, Technology, and Innovation Policies in East Asia (5)** Role of state and technological change in economic development. Analyzes state and corporate policies historically. Technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores conditions for its successful continuation. Offered: jointly with SISEA 581.

**I BUS 562 Japanese Business and Technology (5)** Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with SISEA 582.

**I BUS 570 International Study Tour (2)** Educational international study tour. Includes pre-tour and post-tour activities. Prerequisite: B A 502 and permission of School of Business Administration.

**I BUS 572 Cross-Cultural Conversations on Contemporary Issues (1, max. 4)** Creates opportunities for students from across the globe to share information and perspectives on contemporary issues important to international business. In weekly, facilitated, small-group conversations, students improve their ability to formulate and express ideas and opinions, and practice persuasion and facilitation skills. Credit/no credit only.

**I BUS 575 Business Studies Abroad (\*, max. 24)** Research and study of foreign business problems in the country or countries where the firms are located. Limited to students who have the approval of their major adviser and a faculty member who has agreed to direct their work in accordance with a definite program of studies. Credit/no credit only.

**I BUS 579 Seminar: Special Topics in International Business (2/4, max. 12)** Application of international business principles to the analysis of a specific issue in trade or resource transfer, or to the business conditions in a particular country. Japan and other Pacific Rim countries are frequent topics. Prerequisite: B A 500 or permission of instructor.

**I BUS 600 Independent Study or Research (\* Management)**

**MGMT 200 Introduction to Law (5) I&S** Legal institutions and processes; law as a system of social thought and behavior and a frame of order within which rival claims are resolved and compromised; legal reasoning; law as a process of protecting and facilitating voluntary arrangements in a business society. Offered: AWSp.

**MGMT 300 Managing for Organizational Effectiveness (4)** Organizational behavior and organization theory concepts show how managers can improve organizational effectiveness by attending to the human side of the enterprise. Topics such as leadership, motivation, power and politics, and organization design are examined for their effects on performance. Offered: AWSpS.

**MGMT 311 Managing Human Resources (4)** The personnel/industrial relations function from a managerial perspective. Selection, compensation, performance appraisal, and training and development. Special emphasis on union-management relations and relevant behavior science research.

**MGMT 312 Career Development Workshop (2)** Develops career goals in business administration and guides students toward the academic training that achieves their goals. Emphasizes development of the personal skills necessary to market yourself in a competitive marketplace and present yourself to potential employers.

**MGMT 320 Business, Government, and Society (4)** Political, social, and legal environment of business. Critical managerial issues from historical, theoretical, ethical perspectives; their impact on organization. Corporate political power, boards of directors, capitalism, industrial policy, business ethics and social responsibility, alternative corporate roles in society. Offered: AWSp.

**MGMT 321 Legal and Regulatory Environment of Business (4)** Managerial implications of restrictions imposed by government on corporations from legal point of view. Constitutional law impacting business managers; antitrust, administrative, and regulatory issues; environmental law, product liability law, and securities law. Not a business or commercial law course.

**MGMT 322 Inventing Modern Capitalism (4)** Business-government relationships in American history, with aim of defining and explaining patterns in attitudes and behavior rather than detailing events. Discussions organized in terms of policy areas (e.g., national banking, transportation, agriculture, energy, industry in wartime, trade, and research).

**MGMT 323 Business Ethics and Corporate Social Responsibility (4)** Philosophical and pragmatic perspectives, including values and social/ethical premises in organizational decision

making. Several issues covered in depth; investments abroad, hazardous products, bribery, industry practices, and others.

**MGMT 401 Leadership, Critical Thinking, and Decision Making (4)** The manager as leader and decision maker. Various leadership theories, styles, and behaviors. Decision-making models and techniques.

**MGMT 402 Deal-Making and Negotiations (4)** The art and science of negotiations with the goal of making students more effective negotiators in a variety of business situations, such as budget negotiations, buying and selling, contracts, and merger negotiations. Concept and skill development.

**MGMT 403 Motivating High Performance (4)** Various strategies for influencing employee motivation and performance. Reward systems, goal-setting procedures, and various techniques to enlarge and enrich ones job. Effects of these formal and informal strategies on job attitudes.

**MGMT 404 Organization Development and Change (4)** Provides a conceptual understanding of organization development theory, practice, and research. Organization development is an umbrella term for a collection of behavioral science techniques for increasing individual, group, and organizational effectiveness.

**MGMT 411 Recruiting and Hiring Talent (4)** Affirmative action, recruitment, testing, interviewing, placement, promotion, and overall human resource planning. Prerequisite: MGMT 311.

**MGMT 412 Performance Appraisal and Compensation (4)** The various kinds of systems used by organizations to evaluate and reward employee performance. Job analysis, job evaluation, setting performance standards, giving appraisal feedback, designing incentive systems, administering a salary plan. Prerequisite: MGMT 311.

**MGMT 413 Labor Law and Collective Bargaining (4)** Labor-management relations. The legal context, union organizing, grievance administration, collective bargaining. Individual and group simulations used.

**MGMT 421 Commercial Law (5)** Principles of the law of contracts, agency, property, sales, negotiable instruments, and security transactions. Prerequisite: O E 200 or MGMT 200.

**MGMT 422 Protecting Intellectual Property in a Global Economy (2)** Provides instruction to help people who are not lawyers and who are starting new companies recognize, protect, develop, and manage intellectual property in a global economy. Assists managers of more mature firms better understand the intellectual property protection process. Includes topics related to e-commerce.

**MGMT 430 Business Policy (4)** Policy making and administration from a general management point of view. Emphasis is on problem analysis, the decision-making process, administration and control, and continuous reappraisal of policies and objectives. Integrates and builds upon the work of the core curriculum. Prerequisite: FIN 350; MKTG 301; either HRMOB 300 or MGMT 300; recommended: OPMGT 301. Offered: AWSp.

**MGMT 490 Special Topics in Management (1-6, max. 6)** Topics of current interest to faculty and students. Offered when allowed by faculty availability and sufficient student interest. Content announced in advance of scheduled offerings.

**MGMT 495 Management Internship (1-4, max. 8)** Internship with a private firm, nonprofit organization or government agency, where work experience involves substantial application of management concepts learned in classroom. Credit/no credit only. Prerequisite: MGMT 300.

**MGMT 500 Management and Leadership (3)** Behavioral aspects of management with emphasis on leadership, motivation, and decision making. May include communication, conflict management, group dynamics, and organizational change.

**MGMT 502 Business Strategy (3)** Policy decisions and strategic leadership from the general management point of view. Determination of corporate product-service objectives, development of a network of internal operating policies and methods to achieve objectives at a cost satisfactory to the consumer and to society. Prerequisite: all first-year required courses in MBA curriculum.

**MGMT 504 Ethical Leadership (4)** *Reynolds* Examines the ethical aspects of conducting business. Topics include ethical decision-making, the ethical aspects of leadership and culture, stakeholder management, corporate social responsibility, sustainability and corporate governance. Prerequisite: First-year MBA required courses. Offered: W.

**MGMT 505 Business Ethics (2)** Business organization's political, social and legal environments. Critical managerial issues from historical, theoretical, and social/ethical perspectives. Corporate political power, corporate boards of directors, industrial power, social responsibility, business ethics, roles of the corporation in society, themes of change.

**MGMT 510 Developing Leadership Skills (0-2, max. 2)** Assessment, instruction, and coaching to develop leadership abilities. Emphasizes team building and collaboration, written, oral, and interpersonal communication, and applied leadership activities.

**MGMT 511 Leadership and Coaching Practicum (2, max. 4)** Gives Leadership Fellows a venue to analyze and assess their coaching activities with first-year MBA student teams, receive feedback from the instructor and their fellow coaches, discuss readings on leadership, coaching, collaboration, and communication, and hear guest speakers on related topics. Credit/no credit only.

**MGMT 520 Designing a Corporate Strategy (4)** Addresses the broad question: what business(es) should we compete in? Focuses on decisions related to an appropriate level of diversification and the means by which that diversification is implemented. Includes the following issues: mergers and acquisitions, strategic alliances, joint ventures, LBOs, and spin-offs.

**MGMT 521 Strategic Management of Technology and Innovation (4)** *Dooley, Steensma* Examines how innovative firms often experience rapid and disruptive levels of growth and change and how without effective management of new technologies, the boom can

quickly turn to bust. Investigates the micro-economic drivers of competition in technology industries, explores how technological change affects competition, and examines the implications for competitive strategy. Offered: WSp.

**MGMT 523 Business Ethics in a High Technology Environment (4)** Examines business ethics from philosophical, theoretical, and pragmatic perspectives. Explores ethical theory and values in business. Attempts to place ethical concepts into a framework useful to practicing managers. Places emphasis on the ethical implications of rapidly changing hi-tech environments such as e-commerce and biotech.

**MGMT 526 Competing in the Global Economy (4)** *Dewenter, Steensma* Examines the global environment for business and the challenges facing managers in this environment. Explores the implications of the common phrase "think globally — act locally." Offered: WSp.

**MGMT 530 Entrepreneurship (4)** Entrepreneurship, both in the form of (1) establishment of new independent businesses owned largely by those who manage them and (2) initiation of new enterprises having exceptional autonomy within larger organizations that finance and own them. Basic knowledge in accounting, marketing, and finance is assumed.

**MGMT 531 Managing Intellectual Property Rights (4)** Comprehensive analysis of the issues pertinent to the various forms of intellectual property, including how to recognize, develop, maintain, and capitalize on them.

**MGMT 540 Managing Human Capital (4)** Covers principles and techniques for recruiting, selecting, and developing employees, appraising their performance, and rewarding their contributions. Explores key topics primarily through case studies, readings, class discussion, and fieldwork. Reviews legal and regulatory issues that surround these methods. Intended for both general managers and human resource professionals.

**MGMT 544 Managing Effectively Across Cultures (4)** *Chen* Examines how, with increasing globalization of business, employees at all levels of corporations often work and interact with people from different nations, cultures, and how they need an understanding of cross-cultural management and challenges of international settings. Focuses on international organizational behavior and international human resource issues, practices. Offered: W.

**MGMT 545 Leading and Managing High-Performance Organizations (4)** Focuses on the nature and function of effective leadership in high-performance systems. Includes visionary and transformational leadership, decision-making and empowerment, power and influence in organizations desiring flexibility and innovation, and leading organizational change. Places emphasis on leadership of emerging forms of organization such as learning organizations, virtual organizations, and networks.

**MGMT 546 High Involvement Employees (4)** Focuses on two domains: (1) how managers can lead and motivate their people; and (2) how actual organizations, particularly high technology and entrepreneurial firms, employ these strategies. Specific topics include commitment, involvement, enthusiasm, effort, participation,

citizenship, and performance. Student teams investigate how local companies utilize these ideas.

**MGMT 547 Successful Negotiations (2)**

Focuses on a broad array of conflict resolution skills needed for effective management in a constantly changing business environment. Examines methods of conflict resolution — bargaining, distributive and integrative negotiation, mediation, and arbitration. Applies these tools to managerial challenges such as employment contracts, buyer-seller agreements, and mediated and arbitrated agreements.

**MGMT 548 Dealmaking in High Velocity Ventures (2)**

Focuses on negotiations in ventures that lack conventional customers, suppliers, employees, joint-venture partners, strategic allies, and money. Analyzes negotiations with early potential customers and essential suppliers, sources of funding (e.g., "angels" and venture capitalists), critical partners and/or strategic allies (including established firms), and key employees. Prerequisite: MGMT 547.

**MGMT 549 Dealmaking in the Global Arena (2)**

For students who expect to engage in significant international business negotiations. Includes deal-structuring skills needed in a range of cross-border transactions and relationships. Individual segments develop broad analytical themes, cross-cultural dimensions, and distinctive national approaches to corporate governance and their impact on negotiating strategy. Prerequisite: MGMT 547.

**MGMT 579 Special Topics in Management (2/4, max. 12)**

In-depth study and research on topics of special interest to faculty members and students in the fields of human resources management, organizational behavior, and strategic management. Offered on an ad hoc basis. Content announced before scheduled offering.

**MGMT 580 The Individual and the Organization (4)**

Focuses on attributes the individual brings to the organization. Covers important performance-related processes such as learning, motivation, and decision-making as well as an understanding of personal attitudes and personality traits.

**MGMT 581 Power, Influence, and Citizenship Behavior (4)**

Focuses on ways in which the individual and the organization get things done through working with others. Includes leadership, social influence, and the use and abuse of power, with attention given to positive organizational activities such as citizenship behavior and extra role activities.

**MGMT 582 Organization Entry, Training, and Exit (4)**

Focuses on the systems, processes, and experiences that newcomers to organizations undergo. Covers staffing, employee selection, training, socialization, and attachment.

**MGMT 583 Contemporary Research in Organizational Behavior (4)**

Focuses on importance of group processes for organizational effectiveness. Covers concepts of group dynamics including interpersonal communication, role and norm development, and group decision making as well as organizational processes such as team development and organizational culture.

**MGMT 584 Contemporary Research in Human Resource Management (4)**

Focuses on the

organization's employee performance appraisal and compensation systems. Examines effects of different practices.

**MGMT 590 Economic Foundations of Strategic Management (4)**

Reviews the economic theories that support strategies pursued by firms and explores the links between market processes, firm strategy, and firm performance. Topics include agency theory, transaction cost economics, resource dependence, population ecology, and neo-Austrian economics.

**MGMT 591 Sociological Foundations of Strategic Management (4)**

Explores the sociology of organizations from multiple perspectives while introducing fundamental sociological questions and preparing students for conducting research in organizations. Emphasis on structural contingencies, institutions, resource dependence, population ecology, negotiated order and culture, organizational learning and decision making, organizational power and politics, networks, and inter-organizational relations.

**MGMT 592 Contemporary Strategic Management Research (4)**

Facilitates understanding of empirical foundations of theory development and testing in contemporary strategic management research. Focuses on evaluation of ways in which the empirical tradition has evolved in the strategic management area. Attention to evaluating research methodologies used in the field.

**MGMT 593 Special Topics in Strategic Management I (4)**

**MGMT 594 Special Topics in Strategic Management II (4)**

Focuses on the social and political factors that help shape corporate strategy using stakeholder management as an integrating concept. Topics include corporate governance, corporate political activity, governmental regulation, comparative political economy, and normative aspects of strategic management, including ethics and corporate social responsibility.

**MGMT 599 Doctoral Seminar in Management (1, max. 12)**

Advanced topics in the fields of human resources management and organizational behavior. May be used by visiting faculty members to present topics of interest to students.

**MGMT 600 Independent Study or Research (\*)**

## Marketing

**MKTG 301 Marketing Concepts (4)** Tools, factors, and concepts used by management in planning, establishing policies, and solving marketing problems. Marketing concepts, consumer demand and behavior, location analysis, marketing, functions, institutions, channels, prices, and public policy. Prerequisite: ECON 200.

**MKTG 335 Principles of Selling (4)** Focuses on selling from salesperson's perspective, role of persuasion in professional selling and other organizational settings. In addition to coursework in such areas as consumer behavior, negotiation, and communication, students practice sales skills in role plays, presentations, and other exercises requiring practical application of selling theory. Prerequisite: MKTG 301.

**MKTG 340 Advertising (4)** Management of the advertising function and its integration with other forms of promotion. Planning the program, determining the most effective approach, evaluation of media and budget, advertising research, advertising institutions, economic and social aspects. Prerequisite: MKTG 301; may not be repeated.

**MKTG 370 Retailing (4)** Profit planning and business control; buying, stock control, pricing, promotion; store location, layout, organization, policies, systems; coordination of store activities. Prerequisite: MKTG 301; may not be repeated.

**MKTG 410 Product Management (4)** Important aspects of product planning and development, concept testing, product-life cycle, portfolio analysis, targeting and positioning, branding issues, product-line extension, pricing policies, and implementing product decisions. Computer simulation project provides practice for implementing product strategies. Prerequisite: MKTG 301; may not be repeated.

**MKTG 430 Sales Force Management (4)**

Focuses on the role of the sales manager within the organization. Includes distribution planning, sales organization, management of the sales force, methods of sales, cost and financial analysis, and performance analysis. Prerequisite: MKTG 301; may not be repeated.

**MKTG 445 Multicultural Marketing and Business Development (4)**

Integrates tools from marketing, consulting, and multi-cultural business management to provide consulting services to small business in economically-distressed communities. Working in teams with assistance from industry mentors and alumni from the course, students gain practical experience in multi-cultural marketing, consulting, and managing a business. Prerequisite: MKTG 301.

**MKTG 446 Repositioning and Instituting Change in a Multicultural Business Environment (4)**

*Montoya, Rowland, Thomas* Study of market forces, strategies for leading marketing organization change. Teams work with clients on implementing project. Emphasis on consulting sessions with client, strategic thinking exercises, class presentations, final oral and written reports. Prerequisite: MKTG 301. Offered: Sp.

**MKTG 450 Consumer Behavior (4)** Theory and practice pertinent to marketing decisions; utilization of theories from behavioral sciences in marketing research; theories of fashion, characteristics of goods, shopping behavior, product differentiation, market segmentation, and opinion leadership; application of concepts to management of advertising, personal selling, pricing, and channels of distribution. Prerequisite: MKTG 301; may not be repeated.

**MKTG 455 Entrepreneurial Marketing (4)**

Examines the skills and tools entrepreneurs need for bootstrap marketing in their start-up firms. Students learn to identify target market segments, position their products, estimate demand, set prices, gain access to channels, and manage the issues of rapid growth. Prerequisite: MKTG 301; may not be repeated.

**MKTG 460 Marketing Research (4)** Examines marketing research process; steps of research design, questionnaire construction, sampling, data analysis, evaluation/presentation of

findings, online research, and web surveys. Class project provides practical application. Prerequisite: MKTG 301; either ECON 311, QMETH 201, STAT 220, STAT 301, STAT 311, or STAT 390; may not be repeated.

**MKTG 465 Marketing Data: Measurement and Analysis (4)** Tools for aiding market segmentation, positioning, product design, and demand analysis. Examines multidimensional scaling, conjoint analysis, factor analysis, cluster analysis, discriminant analysis, multiple regression, logistic regression, and decision trees. Emphasis on applications of practical marketing problems and using statistical packages. Prerequisite: MKTG 301; may not be repeated.

**MKTG 470 International Marketing (4)** Focuses on assessing international marketing opportunities, formulating and implementing international marketing strategies. Examines how to use marketing analyses and deductive decision modeling in assessing international marketing opportunities. Uses marketing tools and concepts in the planning, preparation, and presentation and discussion of cases and class project. Prerequisite: MKTG 301; may not be repeated.

**MKTG 475 Retail Strategy: Internet and Global Dimensions (4)** Explores how owners and top managers of retail firms analyze and solve problems, design, implement, and evaluate strategies and other wise manage for competitive advantage. Utilizes cases, readings, and writing assignments as the main tools for teaching and learning. Prerequisite: MKTG 370; may not be repeated.

**MKTG 477 Merchandise Acquisition and Management (4)** Integration of summer internship experiences with discussion of merchandise acquisition. Includes retail inventory management system, processes of planning and buying merchandise, private label and imported goods, and relevant personnel management area. Centers on major project done for and with company buying staff. Prerequisite: MKTG 301; MKTG 370; MKTG 495. Offered: A.

**MKTG 478 Retail Merchandising and Design Management (4)** Second of capstone seminars includes integration of summer internship experiences with customer service, customer communications, merchandise presentation, and leadership skills. Visit local retailers to observe visual presentations, prepare design plan for store, and examine management styles to determine philosophy for employees, and provide customer service. Prerequisite: MKTG 301; MKTG 370; MKTG 495. Offered: W.

**MKTG 480 Advanced Marketing Management (4)** Capstone course connecting principles, tools, and elements of multiple marketing disciplines to a manager's perspective and responsibilities in today's company. Emphasizes strategy, analysis, and problem solving. Analyzes marketing problems using conceptual and quantitative tools utilized in marketing decision making. Prerequisite: MKTG 301; MKTG 450; MKTG 460; may not be repeated.

**MKTG 485 Strategic Market Management (4)** Utilize cases and/or projects to examine strategic market-based management. Analyze marketing situations to identify market trends and understand consumer and competitor behavior. Develop and justify appropriate course of action to address marketing problems and

opportunities in terms of product planning, distribution channels, pricing, and promotion. Prerequisite: MKTG 301.

**MKTG 490 Special Topics and Issues in Marketing (1-6, max. 12)** Contemporary topics and issues in marketing: marketing in nonprofit organizations, marketing of services, marketing in the public sector, and marketing in an economy of scarcity. Ordinarily only one topic area is addressed in any one quarter. Course content reflects contemporary developments and the current interests of instructors and students. Prerequisite: MKTG 301.

**MKTG 495 Marketing Internship (1-4, max. 8)** An internship with a company, not for profit organization, or government agency in a marketing capacity. Prerequisite: MKTG 301.

**MKTG 496 Marketing Practicum (4) Rhodes** Offers opportunities to apply principles, concepts, and skills learned previously to actual business situations. Participation in class part-time and in an internship with a business employer part-time. Prerequisite: MKTG 301.

**MKTG 499 Undergraduate Research (1-6, max. 9)** Prerequisite: MKTG 301.

**MKTG 501 Marketing Management (4)** Analysis and management of customer satisfaction in goods and services markets by profit and nonprofit organizations. Buyer behavior, market segmentation and product positioning, product policy, pricing, distribution, sales force and advertising management, and market research in the contexts of strategy development, decision making, implementation, and control.

**MKTG 509 Foundations of Marketing Analysis (2)** Examines analytical and statistical methods useful in strategic decision making in marketing. A dynamic computer simulation activity allows students to develop and receive feedback on competitive marketing strategies. Prerequisite: either B A 501 or MKTG 501. Offered: Sp.

**MKTG 510 New Product Development (4)** Integrates business, design, and engineering functions in the presentation and application of structures, tools, and methodologies important for successful new product development. New product development projects are accomplished with a cross-functional team emphasis. Prerequisite: B A 501.

**MKTG 511 Business-to-Business Marketing (4)** Integrated approach to product marketing management in the business-to-business marketplace. Analysis of core competencies, competitive environment, positioning and segmentation strategies, cost structure, and customer satisfaction. Case-based and project-oriented approach to studying marketing management in the business-to-business market. Prerequisite: B A 501 or permission of instructor.

**MKTG 512 Consumer Marketing and Brand Management (4)** Analysis of marketing strategies for consumer products and services. Focuses on consumer satisfaction and brand management including product line and brand developments, pricing strategies, channel and retail relationships, and marketing communication strategies for consumer goods and services. Prerequisite: B A 501.

**MKTG 520 Marketing Channels (4)** Channels of distribution decisions for goods and services in

profit and nonprofit organizations. Considers methods of optimizing the number, quality of institutions and activities employed in dealing with exchange, and space and time aspects of channel management. Relates management of marketing channels to marketing mix, organizational objectives. Prerequisite: B A 501.

**MKTG 530 Managing the Sales System (4)** Examines the revenue generation function of a firm from a system-wide perspective. Topics include strategic and tactical considerations related to customer acquisition and retention, end-to-end sales and support operations, strategic partnerships, and continuous performance monitoring. Emphasis on case studies and team projects. Prerequisite: B A 501.

**MKTG 540 Advertising and Promotion Management (4)** Management of advertising and promotional activities and their integration with other elements of the marketing mix. Topics include: understanding the communication process, analyzing markets, working with suppliers, establishing objectives, determining budgets, selecting media, measuring and evaluating effectiveness, using publicity and promotions. Legal, social, and economic consequences are considered. Prerequisite: B A 501.

**MKTG 550 Managing Customer Relationships Through Direct Marketing (4)** Management of customer relationships through the lens of direct marketing. Topics include direct marketing creative activity, strategy, and execution; media and segmentation; direct marketing budgeting and financials; targeting, database, and predictive modeling; catalogue marketing; relationship marketing; business-to-business complex sales; privacy. Prerequisite: B A 501.

**MKTG 555 Entrepreneurial Marketing and Management (4)** Examines the skills and tools entrepreneurs need for bootstrap marketing in their firms. Covers how to target market segments, position products, estimate demand, set prices, gain access to channels, and manage issues of rapid growth. Prerequisite: B A 501.

**MKTG 560 Research for Marketing Decisions (4)** Methods and applications of marketing research to solve marketing problems. Deals with: problem definition, research design, questionnaire construction, sampling, and data analysis using SPSS. Introduces promising new developments in online research, web surveys, and data analysis. Class research project provides practical application. Prerequisite: B A 501.

**MKTG 565 Database Marketing and Decision Models (4)** Examines methodologies that are useful for analyzing customer databases. Presents models that can be applied in the analysis of marketing problems and the support of marketing decisions. Prerequisite: B A 501.

**MKTG 570 International Marketing (4)** Analysis of the marketing strategies and tactics of multinational corporations. Choice of entry strategies for foreign markets, analyzing international competition at home and abroad, and developing global marketing strategies. Prerequisite: B A 501; recommended: one I BUS course.

**MKTG 575 Marketing High-Technology Products (4)** Management of the marketing requirements of high-technology products. Examines how markets for high-tech products involve shortened product life cycles, demand

for continual product updates, perceived risk of adoption by customers, requirements for intensive customer service and relationships, and growing reliance on business partners. Prerequisite: B A 501.

**MKTG 579 Special Topics in Marketing (2/4, max. 12)** Marketing topics of current concern to faculty and students. Offered only when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings. Prerequisite: B A 501.

**MKTG 581 Doctoral Seminar in Consumer Behavior (4)** Survey of the field of consumer behavior introduces fundamental topics in consumer behavior including cognitive processes, emotion, and consumer satisfaction. Provides exposure to a variety of research methods including experiments, surveys, and phenomenological research.

**MKTG 582 Doctoral Seminar in Multivariate Analysis for Marketing Research (4)** Survey of methods useful for empirical evaluation of multivariate marketing phenomena and relationships. Includes an overview of measurement theory and practice; multidimensional scaling; conjoint analysis; cluster, factor, and discriminant analyses; multivariate analysis of variance; structural equation modeling; and other methods commonly encountered in academic marketing research.

**MKTG 583 Doctoral Seminar in Marketing Strategy (4)** Study of factors influencing business performance and role of marketing in achieving competitive advantage. Analysis of prevailing, and emerging, theories underlying strategic thinking and competitive process. Examination of empirical research regarding measurement, level, and persistence of business success and implications of findings for theory and strategy development. Prerequisite: BA RM 580.

**MKTG 584 Doctoral Seminar in Research Issues in Marketing (4)** Examination of research problems and issues in marketing. Specific topics vary depending on the interest of faculty and students.

**MKTG 591 Doctoral Seminar in Consumer Behavior Research Topics (4)** Investigates research topics of current interest in consumer behavior. Considers the processes used by consumers to acquire and evaluate marketing information including advertising, publicity, word of mouth, packaging, product description, price, and retail outlets, and examines ways the principles in social perception influence consumers' individual responses to marketing-related activities.

**MKTG 593 Doctoral Seminar in Marketing Models (4)** Focuses on modeling research efforts in various areas of marketing. Discussion of mathematical and statistical modeling approaches which contribute to scientific development in the marketing area and ways in which modeling is used to characterize and summarize the nature of general marketing situations in complex environments.

**MKTG 599 Doctoral Seminar in Marketing (1, max. 12)** Study and research in advanced topics of marketing. The seminar is generally concerned with unpublished areas of research and conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

## MKTG 600 Independent Study or Research (\*)

## Operations Management

**OPMGT 301 Principles of Operations Management (4)** Examines problems encountered in planning, operating, and controlling production of goods and services. Topics include: waiting-line management, quality assurance, production systems, project management, and inventory management. Computer and quantitative models used in formulating managerial problems. Prerequisite: ACCTG 225; ECON 200; either MATH 112, MATH 124, MATH125, MATH 134, or MATH 145; either ECON 311, IND E 315, QMETH 201, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 301, STAT 311, or STAT 390.

**OPMGT 402 Introduction to Logistics (4)** Logistics studies of the efficient delivery of goods and services. A total-cost approach recognizes this involves not only the obvious vehicle-routing issues but also shipment size and mix, warehouse location, product design, and customer services. Includes study of real companies' logistics problems. Prerequisite: OPMGT 301.

**OPMGT 443 Inventory and Supply Chain Management (4)** Use of material and supply chain management in manufacturing and service organizations to reduce inventory levels while providing adequate service to customers. Specific topics include forecasting, Just-in-Time production, deterministic and stochastic inventory models, and material requirements planning (MRP). Prerequisite: OPMGT 301.

**OPMGT 450 Introduction to Project Management (4)** Focuses on the management of complex projects and the tools and techniques which have been developed in the past 25 years to assist managers with such projects. The course covers all elements of project planning, scheduling and control as well as implementation and organizational issues. Prerequisite: OPMGT 301.

**OPMGT 461 Business of Process Design (4)** Examines systems theory, project design, and strategic decision-making in a teaming environment. Provides a unique opportunity to get involved with real-life design problems in the chemical and aeronautical industries. Prerequisite: OPMGT 301.

**OPMGT 490 Special Topics in Operations Management (1-6, max. 20)** Operations management topics of current concern to faculty and students. Potential topics are: logistics management, project scheduling, manufacturing strategy, site and location analysis, management of service operations. Prerequisite: OPMGT 301.

**OPMGT 495 Operations Management Internship (1-4, max. 8)** Internship with a private firm, nonprofit organization, or government agency, where work experience involves substantial application of analysis techniques and management concepts learned in classroom. Credit/no credit only. Prerequisite: OPMGT 301.

**OPMGT 499 Undergraduate Research (1-6, max. 9)**

**OPMGT 502 Introduction to Operations Management (3)** Managerial decision making in

operations problems, including application of quantitative analysis and use of computers. Production of goods or services in any type of organization. Inventory management, scheduling, facility location, management of service systems, and quality assurance. Prerequisite: QMETH 500.

**OPMGT 535 Global Trade, Transportation, and Logistics Management (4)** *Goodchild, Schmitt, Shelton* Provides an overview of trade, transportation, and logistics activities. Develops an understanding of the physical and information flows in supply chains, and the economic drivers of supply chain choices. Includes methods to analyze and improve logistics and transportation systems, including applications of policy, technology, and infrastructure. Offered: jointly with CEE 587/GTTL 501; AWP.

**OPMGT 536 Seminar in Global Trade, Transportation, and Logistics (4)** Interdisciplinary seminar that brings together students with academics and practitioners at the forefront of trade, transportation, and logistics in discussions of selected topics. Additionally, students research issues of special interest. Prerequisite: OPMGT 535, GTTL 501, or permission of instructor. Offered: jointly with GTTL 502; Sp.

**OPMGT 550 Project Management (4)** Management of complex projects, and tools and techniques (e.g., CPM and PERT) developed to aid the planning, scheduling, and control of projects. Includes work breakdown structures, precedence networks, Gantt charts, resource leveling and allocation, and the use of microcomputer programs. Prerequisite: B A 502 or OPMGT 502 or equivalent.

**OPMGT 570 Operations Strategy (4)** Strategic management of operations and manufacturing in domestic and international companies. Developing and implementing a coherent strategy based on continuous improvement of quality, productivity, products, processes, and customer services. Facilities, capacity, process/work-force planning, organization, people, systems integration, coordination between operations, marketing, engineering, and R&D. Prerequisite: B A 502 or OPMGT 502 or equivalent.

**OPMGT 579 Special Topics in Operations Management (2/4, max. 12)** Major topics in operations management and systems analysis. Emphasis on research and, where appropriate, application of quantitative analysis and computers. Topics vary, including workforce planning, project management, research and development management, quality assurance, technology planning and forecasting, systems analysis of complex organizations, and urban systems analysis. Prerequisite: B A 502.

**OPMGT 584 Fundamentals of Operations Management Research (4)** *Klasterin* Surveys basic areas that form the foundations for much of the research in operations management today. Topic areas include facility location, scheduling, project management, and supply chain management. Prerequisite: QMETH 580. Offered: W.

**OPMGT 587 Advanced Topics in Inventory Management (4)** Survey of literature in inventory/production control with emphasis on current research. Topics include single-echelon deterministic and probabilistic models and multi-echelon stochastic models. Prerequisite: QMETH 592 and course in probability theory and in stochastic processes.

**OPMGT 599 Doctoral Seminar in Operations Management (1, max. 12)** Study and research in advanced topics of operations management. The seminar is generally concerned with unpublished areas of research and is conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

**OPMGT 600 Independent Study or Research (\*)**

## Organization and Environment

**O E 499 Undergraduate Research (1-6, max. 9)** Selected problem areas or issues in consultation among faculty members and students. Prerequisite: permission of the undergraduate office.

## Quantitative Methods

**QMETH 201 Introduction to Statistical Methods (4) NW,QSR** Survey of principles of data analysis and their applications for management problems. Elementary techniques of classification, summarization, and visual display of data. Applications of probability models for inference and decision making are illustrated through examples. Prerequisite: either MATH 112, MATH 124, MATH 125, MATH 134, or MATH 145.

**QMETH 450 Spreadsheet Models for Managerial Decision Making (4)** Formulation and solution of business problems using operations research techniques in a spreadsheet environment. Techniques of linear and integer programming, decision analysis, network optimization, queuing, and simulation. Applications from marketing, finance, and operations. Prerequisite: I S 300.

**QMETH 490 Special Problems in Quantitative Analysis (1-6, max. 20)** Specialized quantitative techniques useful for solving business problems. Topics from operation research, statistics, computer methods. Emphasis on application. Prerequisite: either ECON 311, QMETH 201, PSYCH 213, PSYCH 218, STAT 220, STAT 301, STAT 311, or STAT 390.

**QMETH 499 Undergraduate Research (1-6, max. 9)** Research in selected problems in business statistics, operations research, decision theory, and computer applications.

**QMETH 500 Statistical Data Analysis for Management (3)** Statistical models, techniques, and tools for aiding management decisions. Use of spreadsheets in basic business problems. Probability distributions, random sampling and standard errors, hypothesis testing, multiple regression, ANOVA, chi-square tests. Prerequisite: preparation in elementary calculus and successful completion of university-administered proficiency exam.

**QMETH 501 Decision Support Models (2)** Introduction to computer-based modeling techniques for management decision making. Linear programming, decision analysis, and simulation. Formulation and interpretation. Prerequisite: QMETH 500.

**QMETH 503 Practical Methods for Data Analysis (4)** Presentation of basic exploratory data analysis with business examples. Data summaries, multivariate data, time series, multiway tables. Techniques include graphical display, transformation, outlier identification, cluster analysis, smoothing, regression, robustness. Prerequisite: B A 500 or equivalent or permission of instructor. Offered: jointly with STAT 503.

**QMETH 520 Managerial Applications of Regression Models (4)** Data exploration and inference using regression models for business forecasting and management. Models include simple, multiple, logistic, and nonlinear regression, use of dummy variables, transformations, variable selection, and diagnostics. Prerequisite: QMETH 500 or B A 500.

**QMETH 528 Survey Sampling Applications (4)** Introduction to design and implementation of sample surveys with emphasis on business applications. Simple random, stratified, cluster, multistage sample methods. Probability sampling, optimal allocation of sampling units. Mail, telephone, interview methods. Estimation methods, Questionnaire design. Non-response. Prerequisite: QMETH 500 or B A 500 or equivalent or permission of instructor.

**QMETH 530 Forecasting Models in Business (4)** Introduction to time series analysis and forecasting. Topics include seasonal adjustment, decomposition, exponential smoothing, moving average, and autoregression as well as model identification, estimation, diagnostics, and

adaptive forecasting illustrations using real data. Prerequisite: QMETH 500 or B A 500.

**QMETH 551 Modeling with Spreadsheets (4)** Advanced formulation and modeling of business problems in a spreadsheet environment. Techniques of linear, integer, and nonlinear programming, multi-objective goal programming, and simulation. Applications from finance, marketing, and operations. Prerequisite: B A 502 or QMETH 501 or equivalent.

**QMETH 579 Special Topics in Quantitative Methods (2/4, max. 12)** Presentation of topics of current concern to students and faculty in operations research and applied business statistics. Potential topics include applications and extensions of mathematical programming, stochastic processes, discrete programming, networks models, and the application of statistical techniques.

**QMETH 580 Mathematical Programming (4)** Advanced survey of mathematical programming with applications to business problems. Includes linear, integer, stochastic, nonlinear, and dynamic programming and network optimization. Treatment includes formulation, optimality conditions, duality theory, solution algorithms. Applications to production, scheduling, marketing, finance, and equipment replacement. Prerequisite: B A 501 or equivalent and doctoral student or permission of instructor.

**QMETH 592 Stochastic Models: Queuing and Simulation (4)** Application of stochastic processes to business problems. Focuses on development and application of queuing theory and discrete event simulation. Prerequisite: stochastic processes, knowledge of high level programming language, and doctoral student or permission of instructor.

**QMETH 599 Doctoral Seminar in Operations Research (1, max. 12)** Study and research in advanced topics of operations research. The seminar is generally concerned with unpublished areas of research and is conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status. Credit/no credit only.

**QMETH 600 Independent Study or Research (\*)**

# School of Dentistry

---

## Dentistry

### Dental Public Health Sciences

**DPHS 201 Planning a Career in Dentistry for the Future (2)** Future-oriented overview of important concepts in dental science, contemporary modes of patient treatment, and dental-care delivery systems. Provides firsthand exposure to practice of dentistry and prerequisite materials in oral anatomy, epidemiology, and other basic sciences subjects. Open to all second-, and third-year undergraduate students. Offered: Sp.

**DPHS 449 P-Directed Studies in Dental Public Health Sciences (\*)** Students and

faculty with common academic interests pursue them together within the curriculum by means of independent study and a tutorial student-faculty relationship. Credit/no credit only. Offered: AWSpS.

**DPHS 510 Social and Historical Perspectives in Dentistry (2)** Examines dental care problems involving biological, behavioral, and community elements and has student develop hypotheses regarding nature and complexity of problem, set objectives, seek resources and information, and contribute to development of outcomes. Credit/no credit only. Offered: A.

**DPHS 535 P-Scientific Literature in Clinical Decision Making (1)** Introduction to critical reading of individual articles in professional journals and integrating the findings of several articles. Use of the literature to assist the

practicing dentist in making clinical decisions. Offered: Sp.

**DPHS 541 P-Ethics in Dentistry (1)** Seminar improving ethical reasoning skills and conveying ethical and legal standards of the profession. Credit/no credit only. Offered: Sp.

**DPHS 550 P-Directed Studies in Dental Public Health Sciences (\*, max. 6)** Students and faculty members who have common academic interests can pursue them together within the curriculum by means of independent study and a tutorial student-faculty relationship. Credit/no credit only. Offered: AWSpS.

**DPHS 568 Biostatistics in Dentistry (3)** Introduction to concepts and methods of descriptive and inferential statistics with applications in dentistry emphasized. Topics

include comparison of means and proportions, hypothesis testing, confidence intervals, non-parametric methods, linear regression, and correlation. Prerequisite: enrollment in School of Dentistry or permission of instructor. Offered: jointly with BIOST 510.

**DPHS 569 Clinical Epidemiology and Study Design in Dentistry (2)** An introduction to epidemiological methods as they relate to dental research. Topics covered include the estimation of dental disease occurrence at patient level and site level and the design and analysis of clinical trials with special emphasis on designs unique to dentistry, such as split-mouth designs. Offered: S.

**DPHS 575 Behavioral Dental Research (1)** Survey of behavioral science research and methodology in dentistry and related fields. Emphasis in various quarters varies: literature review, research design, instrumentation, data analysis. Designed for advanced students who plan a research career. Credit/no credit only. Prerequisite: doctoral degree or permission of instructor. Offered: AWSp.

**DPHS 640 P-Professional Issues: Clinical Management of the Fearful and Phobic (1)** Introduction to assessment process and treatment strategies for successful management of anxious, fearful, or phobic patient, combined with clinical observation of diagnostic and treatment appointments of active patients. Offered: AWSpS.

**DPHS 660 Dental Fear Clinic (2)** Clinical instruction in the care of the severely anxious or phobic adult or child. Strategies from behavioral and cognitive psychology. Credit/no credit only. Prerequisite: graduate standing in dentistry or permission of instructor. Offered: AWSpS.

## Dentistry

**DENT 520 P-Clinical Practice Management 1 (1)** Designed to provide the student with the knowledge required to manage a patient pool during the clinical program and in future dental practice including: obtaining a patient pool, authorized treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial account management, and contemporary biohazardous materials guidelines. Offered: S.

**DENT 521 P-Oral Pathology (3)** Survey of the diseases of the oral-facial regions in lecture and laboratory sessions. Among the conditions discussed are diseases of teeth and their supporting structures and diseases of the oral and paraoral soft tissues and bones. Correlations between clinical findings, etiologic factors, and histopathologic features are stressed. Attendance in the laboratory is required. Offered: A.

**DENT 522 P-Oral Pathology (3)** Survey of the diseases of the oral-facial regions in lecture and laboratory sessions. Among the conditions discussed are diseases of teeth and their supporting structures and diseases of the oral and paraoral soft tissues and bones. Correlations between clinical findings, etiologic factors, and histopathologic features are stressed. Attendance in the laboratory is required. Offered: W.

**DENT 523 Medical Emergencies in the Dental Setting (1)** Initial emergency training, focusing primary upon recertification in BLS. Emphasizes

intellectual and psychomotor skills for universal treatment of emergencies (which includes BLS). Offered: A.

**DENT 533 Medical Emergencies in the Dental Setting II (2)** Comprehensive medical emergency training, including review of BLS. Students participate in real-time simulated drills to prepare both their intellectual and psychomotor skills for emergency care situations. Credit/no credit only. Offered: A.

**DENT 534 P-Geriatric Dentistry (1, max. 2)** Two-quarter sequence on special needs of older persons seeking dental care: oral health, psychology of aging, socioeconomic problems, effective communication, dental management, and special problems in long-term care settings. Offered: WSp.

**DENT 537 P-Hospital Dentistry (1)** Introductory course presenting hospital procedures and protocol and the role of the dentist in the hospital. Offered: Sp.

**DENT 543 Medical Emergencies in the Dental Setting III (1)** Comprehensive review/refreshment of medical emergency training, including recertification in BLS. Students participate in real-time simulated drills to prepare both intellectual and psychomotor skills for emergency care situations. Offered: S.

**DENT 547 Dental Practice Administration (2)** Material essential to persons entering dentistry in a time of rapid change in health care systems, including practice management, career opportunities, and starting out in a private practice. Offered: A.

**DENT 548 Dental Practice Administration (2)** Material essential to persons entering dentistry in a time of rapid change in health care systems, including practice management, career opportunities, and starting out in a private practice. Offered: W.

**DENT 549 Dental Practice Administration (2)** Material essential to persons entering dentistry in a time of rapid change in health care systems, including practice management, career opportunities, and starting out in a private practice. Offered: Sp.

**DENT 550 P-Special Studies in Dentistry (\*, max. 12)** Series of courses offered by the various departments from which students may elect study in areas of special interest to them. These courses include subject matter applicable to all phases of dentistry. Credit/no credit only. Offered: AWSpS.

**DENT 551 P-Clinical Practice Management 2 (1)** Designed to provide the student with the experience required to manage a patient pool during the clinical program and in future dental practice including obtaining a patient pool, treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial account management, and contemporary biohazardous materials guidelines.

**DENT 552 P-Clinical Practice Management 2 (1)** Designed to provide the student with the experience required to manage a patient pool during the clinical program and in future dental practice including: obtaining a patient pool, treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial

account management, and contemporary biohazardous materials guidelines.

**DENT 553 P-Clinical Practice Management 2 (1)** Designed to provide the student with the experience required to manage a patient pool during the clinical program and in future dental practice including: obtaining a patient pool, treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial account management, and contemporary biohazardous materials guidelines.

**DENT 554 P-Clinical Practice Management 2 (1)** Designed to provide the student with the experience required to manage a patient pool during the clinical program and in future dental practice including: obtaining a patient pool, treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial account management, and contemporary biohazardous materials guidelines.

**DENT 555 P-Clinical Practice Management 2 (1)** Designed to provide the student with the experience required to manage a patient pool during the clinical program and in future dental practice including: obtaining a patient pool, treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial account management, and contemporary biohazardous materials guidelines.

**DENT 556 P-Clinical Practice Management 2 (1)** Designed to provide the student with the experience required to manage a patient pool during the clinical program and in future dental practice including: obtaining a patient pool, treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial account management, and contemporary biohazardous materials guidelines.

**DENT 557 P-Clinical Practice Management 2 (1)** Designed to provide the student with the experience required to manage a patient pool during the clinical program and in future dental practice including: obtaining a patient pool, treatment planning, patient management in accordance with professional codes, risk management strategies, patient financial account management, and contemporary biohazardous materials guidelines.

**DENT 562 Elective Offering in Advanced Cardiac Life Support (2)** Introduction to airway management (masking/intubation/oropharyngeal airways/nasopharyngeal airways/cricothyrotomy), 12-lead EKG recognition and diagnosis, cardiac physiology and pathophysiology, and pharmacologic action of several different medications. Students who pass AHA guidelines for completion of an ACLS course are awarded ACLS certification. Credit/no credit only. Offered: W.

**DENT 563 Elements of Conscious Sedation (1-2)** Details theory and techniques for rendering oral, inhalation, transmucosal, intramuscular, and intravenous forms of conscious sedation. Focuses on pharmacology and pharmacokinetics of nitrous oxide, benzodiazepines, narcotics, and barbiturates. Addresses usual applications, special considerations, legal issues, and proper record keeping. Emphasizes prevention and management of emergencies. Credit/no credit only. Offered: A.

**DENT 565 Dental Photography (1)** Provides student with sufficient knowledge and experience to select and use correct photographic equipment for photographing patients (facial and interoral), casts, instruments, x-rays, charts, and objects. Credit/no credit only. Offered: A.

**DENT 566 Physical Diagnosis (1)** Seminar on performing complete physical examination including basic assessment of overall patient, vital signs, cardiac, pulmonary, abdominal, extremities, neurologic, and head/neck. Examination techniques include observation, auscultation, percussion. Writing findings and interpreting physical examinations. Offered: S.

**DENT 568 Internal Medicine for Dentistry ([1-3]-, max. 6)** Review of major organ systems, including normal anatomy and physiology, common pathophysiologies, medical interventions. Details modifications necessary for dental treatment and medical emergency management. Credit/no credit only. Offered: AS.

**DENT 569 Contemporary Dental Practice Management (1)** *Chasteen* Didactic study designed to update dental graduate students in recent developments in the management of a modern dental practice. Focuses on the business and legal aspects of dental practice. Credit/no credit only. Offered: A.

**DENT 610 Introduction to Clinical Dentistry (2)** Introduction to clinical dental training including infection control, personal dental hygiene, oral anatomical landmarks, medical histories, fluoride application, fabrication on athletic mouth guards, and professional ethics. Students participate in classroom exercise followed by rotations in functioning dental clinics. Offered: W.

**DENT 640 P-Extramural Clinics in Geriatric Dentistry (2)** Extramural geriatric clinical experience, including three days at a nursing home or community clinic, and brief didactic component. Credit/no credit only. Offered: AWSpS.

**DENT 645 P-Hospital Rotation (2)** Clinical experience that puts into practice the material presented in 537. The student is involved in hospital procedures and protocol and in dental care of the hospital patient as well as after-hours call duty. Offered: AWSpS.

**DENT 650 P-Extramurals (\*, max. 12)** Extramural sites arranged to provide dental students, at varying levels of their education, with opportunities to treat a wide variety of patients in the delivery systems outside the school. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

**DENT 651 P-Anesthesia Rotation (6)** 1.5-month rotation in anesthesia at one of three local hospitals. Objectives: administration of anesthesia, management of emergency situations and airway problems, familiarization with pharmacology of anesthetic drugs; increased efficiency with venipuncture. Credit/no credit only. Offered: AWSpS.

**DENT 652 P-Clinical Medicine Clerkship (4)** One-month clinical rotation in clinical medicine at a local hospital. Objective is to increase the student's ability in physical evaluation of patients as well as to give in-depth knowledge of hospital procedures and commonly prescribed medications. Credit/no credit only. Offered: AWSpS.

**DENT 655 Medical Emergency Management: Basic Life Support (1)** Review of principles and practical applications for the management of medical emergencies in dental practice in conjunction with training and certification in Basic Life Support. Offered: S.

**DENT 657 Comprehensive Clinic (1-10, max. 10)** Clinical comprehensive care for patients. Offered: S.

**DENT 659 Comprehensive Clinic (1-10, max. 10)** Clinical comprehensive care for patients. Offered: S.

**DENT 660 Temporomandibular Joint Diagnosis and Treatment (2, max. 8)** Seminar and clinic sequence for comprehensive examination, diagnosis, and treatment of patients with temporomandibular joint problems. Includes management of dysfunction and morphologic alterations in associated muscles and occlusion. Prerequisite: permission of instructor. Offered: AW.

**DENT 690 P-Extended Clinical Dentistry (1)** Educational experiences in clinical dentistry. Available to students who have successfully completed the University of Washington Doctor of Dental Surgery curriculum and seek additional supervised experience in the delivery of oral health care services within three quarters of graduation and prior to licensure. Prerequisite: permission of instructor. Offered: AWSpS.

**DENT 700 Master's Thesis (\*)** Offered: AWSpS.

## Oral Surgery

**O S 520 P-Local Anesthesia (2)** Pharmacology, physiology, anatomy, and techniques of local anesthesia for dental students.

**O S 530 Oral Surgery: Didactic (1, max. 3)** Covers the scope of oral and maxillofacial surgery as practiced in the United States today. Introductory course for predoctoral dental students.

**O S 532 P-Sedation and Pain Control (2)** Techniques of sedation (oral, inhalational, intravenous) and pain control.

**O S 550 P-Directed Studies in Oral Surgery (\*, max. 16)** See DPHS 449 for course description and prerequisite.

**O S 560 Dental Sedation (2)** For graduate students in the various dental specialties on the theory, application, and techniques of dental sedation. All forms of sedation, including oral, intramuscular, intravenous, and inhalation, are covered.

**O S 630 P-Clinical Oral Surgery (2, max. 6)** Clinical experience in simple and complex dentoalveolar and pre-prosthetic surgery. A problem-based course using an auto-tutorial approach covering the extraction of teeth, impaction surgery, medications, surgical complications, treatment of infections, bone cysts, maxillary sinus complications, and salivary gland and mucosal pathology. Credit/no credit only.

**O S 651 P-Harborview Clerkship (2-10, max. 10)** Four -six-week rotation at Harborview Medical Center, including intensive instruction in oral surgery procedures and observing and assisting oral and maxillofacial surgery in the

operating room. Credit/no credit only. Prerequisite: permission of department chairperson.

## Pediatric Dentistry

**PEDO 520 P-Pediatric Dentistry (4)** Introduction to clinical pediatric dentistry, including behavior management, oral diagnosis, preventive dentistry, dental anomalies, radiography, anesthesia, restorative procedures, pulpal therapy, interceptive orthodontics, and traumatic dental injuries of the child patient. Offered: S.

**PEDO 550 P-Directed Studies in Pediatric Dentistry (\*, max. 6)** See DPHS 449 for course description and prerequisite. Offered: S.

**PEDO 560 Fundamentals of Pediatric Dentistry (1)** Preclinical laboratory, lecture course covering fundamentals of primary care in pediatric dentistry, including behavior management, dental emergencies, prevention, diagnosis and treatment planning, and infection control. Offered: S.

**PEDO 570 Pediatric Dentistry Seminar I (2)** Series of seminars covering principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: S.

**PEDO 571 Pediatric Dentistry Seminar II (2)** Series of seminars covering principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: A.

**PEDO 572 Pediatric Dentistry Seminar III (2)** Series of seminars covering principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: W.

**PEDO 573 Pediatric Dentistry Seminar IV (2)** Series of seminars covering principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: Sp.

**PEDO 574 Pediatric Dentistry Seminar V (2)** Series of seminars covering principles and theory of child development and behavior

management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: S.

**PEDO 575 Pediatric Dentistry Seminar VI (2)** Series of seminars covering principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: A.

**PEDO 576 Pediatric Dentistry Seminar VII (2)** Series of seminars covering principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: W.

**PEDO 577 Pediatric Dentistry Seminar VIII (2)** Series of seminars covering principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: Sp.

**PEDO 580 Developmental Disabilities Seminar (1)** Multidisciplinary approach to managing children with developmental disabilities. Offered: S.

**PEDO 581 Developmental Disabilities Seminar (1)** Multidisciplinary approach to managing children with developmental disabilities. Offered: A.

**PEDO 582 Developmental Disabilities Seminar (1)** Multidisciplinary approach to managing children with developmental disabilities. Offered: W.

**PEDO 583 Developmental Disabilities Seminar (1)** Multidisciplinary approach to managing children with developmental disabilities. Offered: Sp.

**PEDO 584 Pediatric Dentistry Seminar (2)** In-depth knowledge and understanding of the topics related to, and supportive of, the clinical practice of pediatric dentistry.

**PEDO 600 Independent Study or Research (\*)** Prerequisite: permission of instructor. Offered: AW.

**PEDO 610 Clinical Pediatric Dentistry (3)** Major clinical experience for graduate pediatric dental students in basic through advanced

pediatric dentistry. Offered for the length of the program at the University of Washington pediatric dental clinic.

**PEDO 630 P-Clinical Pediatric Dentistry (1-, max. 7)** Educational experiences in comprehensive clinical pediatric dentistry. Students register third and fourth years for 24 sessions in the pediatric dentistry clinic, a 3-day rotation at a community clinic, computer assisted clinical simulations, behavioral change projects, and a written analysis of videotaped patient/student clinic encounters. Offered: AWSpS.

**PEDO 650 P-Pediatric Dentistry Extramurals (1-6, max. 6)** Clinical extramurals in the field of children's dentistry. Prerequisite: permission of instructor. Offered: AWSpS.

**PEDO 660 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: S.

**PEDO 661 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: A.

**PEDO 662 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: W.

**PEDO 663 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: Sp.

**PEDO 664 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: S.

**PEDO 665 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: A.

**PEDO 666 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: W.

**PEDO 667 P-Clinical Pediatric Dentistry (1-3, max. 3)** Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: Sp.

**PEDO 668 Clinical Clerkship in Pediatric Dentistry: Yakima Valley (\*, max. 5)** Comprehensive dental care for economically-disadvantaged children in a rural community health center. Offered: AWSpS.

**PEDO 669 Supervised Clinical Teaching (1-3, max. 4)** Graduate pediatric dental students provide clinical instruction for predoctoral dental students by supervising clinical sessions. Offered: AWSpS.

**PEDO 670 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: S.

**PEDO 671 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: A.

**PEDO 672 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: W.

**PEDO 673 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: Sp.

**PEDO 674 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: S.

**PEDO 675 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: A.

**PEDO 676 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: W.

**PEDO 677 Hospital Pediatric Dentistry (1-3, max. 3)** Diagnosis, management, and treatment of patients with disabilities in Children\*fs Hospital Dental Clinic. Offered: Sp.

**PEDO 679 Care of the Disabled Pediatric Patient (1)** Clinical experiences in the management of disabled patients. Offered: S.

**PEDO 680 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: S.

**PEDO 681 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: A.

**PEDO 682 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: W.

**PEDO 683 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: Sp.

**PEDO 684 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: S.

**PEDO 685 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: A.

**PEDO 686 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: W.

**PEDO 687 Pediatric Dentistry under General Anesthesia (1-4, max. 4)** Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: Sp.

**PEDO 690 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: A.

**PEDO 691 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: W.

**PEDO 692 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: Sp.

**PEDO 693 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: S.

**PEDO 694 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: A.

**PEDO 695 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: W.

**PEDO 696 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: Sp.

**PEDO 697 Craniofacial Anomalies Clinic (1-4, max. 4)** Multidisciplinary clinic in which children with craniofacial anomalies are evaluated and complex treatment plans developed and assessed. Offered: S.

**PEDO 699 Pediatric Orthodontic Clinic (1-4, max. 4)** Clinical orthodontic care for pediatric patients. Offered: AWSpS.

---

## Endodontics

**ENDO 521 Introduction to Clinical Endodontics (4)** Lecture component covers the biology, pathology, diagnosis, treatment, and outcome of dentin-pulp complex and pulpal-related periradicular pathology. Preclinical laboratory component covers endodontic treatment techniques on extracted teeth from different tooth groups as practice for clinical cases. Offered: Sp.

**ENDO 534 P-Endodontic Clinical Procedures (1)** Lecture course dealing with clinical procedures particular to endodontics, diagnosis and treatment of endodontic emergencies, and surgical management of endodontic problems. Offered: W.

**ENDO 535 P-Clinical Management of Endodontic Treatment Problems (1)** Management of a variety of technical problems frequently encountered in the treatment of endodontic cases and the diagnosis and treatment of impact injuries to teeth. Offered: Sp.

**ENDO 545 Honors Endodontics (2, max. 4)** Seminar discussions of advanced endodontic diagnosis and treatment planning issues as well as clinical sessions on treatment of calcified negotiable canals, alternate instrumentation procedures and obturation systems. Credit/no credit only. Offered: W.

**ENDO 550 P-Directed Studies in Endodontics (\*, max. 6)** See DPHS 449 for course description and prerequisite. Credit/no credit only.

**ENDO 560 Advanced Endodontic Diagnosis and Treatment (2)** Current concepts are presented and discussed relating to the diagnosis and treatment of pulpal and periapical pathosis. Criteria for evaluation of success or failure of root canal therapy are presented. Offered: W.

**ENDO 561 Anatomical Basis for Clinical Endodontics (2)** Root canal anatomy of significance in clinical endodontics is discussed in a seminar format. Offered: A.

**ENDO 562 Anatomical Bases for Surgical Endodontics (2)** Diagnosis and treatment of acute symptoms of dental origin, surgical endodontic therapy, traumatic dental injuries, and the relationship between periodontal and pulpal pathosis, including differential diagnosis and appropriate treatment planning, are discussed. Offered: Sp.

**ENDO 563 Radiographic Interpretation (2)** Various aspects of radiographic interpretation of particular relevance to endodontics, including interpretation of normal structures, acquired and developmental abnormalities, infections, sialoliths, dysplasias, cysts, malignant lesions, benign tumors, and various diseases other than tumors.

**ENDO 566 Advanced Radiographic Interpretation (2)** Various aspects of radiographic interpretation of particular relevance to endodontics, including malignant lesions, benign tumors, various diseases other than tumors, soft-tissue calcifications, and radiographic technique Offered: W.

**ENDO 568 Endodontic Practice Management (1)** Essential elements for establishing and managing a successful specialty practice in Endodontics. Prerequisite: ENDO 562. Offered: A.

**ENDO 580 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 581 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 582 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 583 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 584 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 585 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 586 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 587 Endodontic Seminar (2)** Continuous weekly seminar devoted to review of endodontic and related literature and discussion of research methods.

**ENDO 590 Treatment Planning Seminar (2, max. 16)** Weekly seminar to discuss controversial treatment problems, difficult diagnostic cases, and presentation of endodontic treatment cases.

**ENDO 593 Clinical Practice Teaching (1, max. 3)** Closely supervised experience in teaching clinical endodontics to the undergraduate dental student.

**ENDO 594 Current Endodontic Literature (1)** A review and critical evaluation of the current literature relative to endodontics.

**ENDO 595 Endodontic Surgery (2)** Reviews biological and technical aspects of endodontic surgery with emphasis on both the classic and current scientific surgical literature. Lectures and topic seminar discussion along with surgical case presentations.

**ENDO 597 Endodontics Teaching Seminar (2)** Weekly seminars devoted to an examination of general problems of teaching and learning and specific problems of endodontics teaching. Offered: W.

**ENDO 598 Endodontics Teaching Seminar (2)** Weekly seminars devoted to an examination of general problems of teaching and learning and specific problems of endodontics teaching. Offered: Sp.

**ENDO 600 Independent Study or Research (\*)** Prerequisite: permission of graduate program adviser.

**ENDO 630 P-Clinical Endodontics (1-, max. 7)** Student is required to complete endodontic treatment of anterior, premolar, and molar teeth. In addition to nonsurgical treatment of several endodontic cases, the student assists with a periapical surgery. Student must complete seven quarters of 630 and all course requirements before a grade is awarded.

**ENDO 658 Endodontic Emergency Rotation (1)** Clinical experience in managing and treating patients in pain. Offered: AWSpS.

**ENDO 659 P-Endodontics Extended Learning (\*, max. 4)** Supplemental work in endodontics to correct an area of student deficiency. Credit/no credit only.

**ENDO 660 Clinical Endodontics (4, max. 32)** Clinical diagnosis and treatment of pulpal pathosis and related sequelae.

---

## Oral Biology

**ORALB 449 Undergraduate Research Topics in Oral Biology (\*)** Individual research on topics selected in collaboration with a faculty member. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 510 P-Development, Structure, and Function of Oral Tissues (3-)** *Popowics* Development, microscopic and submicroscopic structure, functional aspects of hard and soft oral tissues. Embryonic development of head and neck; morphodifferentiation of face and oral structures. Structure-function relationships in descriptions of development and histology-ultrastructure of oral tissues by integration of traditional oral histology and oral physiology topics. Offered: WSp.

**ORALB 520 P-Molecular Microbiology and Oral Diseases (3)** *Darveau* Applies students' background knowledge in basic sciences to an understanding of the molecular bases of the interactions between microorganisms and oral tissues that lead to plaque formation and dental diseases. Principles of clinical asepsis and diagnosis of caries and periodontal diseases also covered. Offered: Sp.

**ORALB 521 Medical Microbiology and Immunology (2)** *Darveau* Bacterial structure, physiology and genetics. Viral structure and function. Bacterial and viral diseases of the respiratory tract, skin, GI tract, UG tract. Innate and adaptive immunity. Immune responses to infection, immunodeficiencies and autoimmunity. Offered: W.

**ORALB 540 P-Clinical Oral Pathology Conference (2)** *Morton* Seminar stressing basic science aspects and clinical findings of various oral lesions through exploration of etiology, pathogenesis, histopathology, and treatment modalities for oral pathology cases drawn from files of the Division of Oral Pathology. Offered: A.

**ORALB 550 P-Directed Studies in Oral Biology (\*, max. 12)** *Morton* Selected readings and seminars on a topic chosen by individual arrangement in collaboration with a faculty member. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 561 Oral Tissue Development, Structure, and Function (3, max. 6)** *Popowics* Selected readings and discussions explore recent advances in cellular and molecular biology relevant to oral biology and medicine. Special emphasis on craniofacial and dental development, oral mucosa and periodontal tissues, salivary gland function, and olfaction and gustation. Prerequisite: permission of instructor. Offered: WSp.

**ORALB 562 Supervised Teaching in Oral Biology (1-5, max. 10)** Directed and guided experience in selected topics in teaching techniques, teaching philosophy, and course design of courses given by the Department of Oral Biology. Students are required to participate in lecture and laboratory teaching under the supervision of the course director. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 564 Clinical Oral Pathology (1-3, max. 10)** *Morton* Microscopic examination of oral lesions exhibiting basic histopathologic changes with gradual transition to the presentation of

interesting cases from the Oral and Maxillofacial Biopsy Service, correlating the clinical findings with morphologic and pathogenic mechanisms. Primarily designed for DDS, MD, or DVM students. Offered: AWSpS.

**ORALB 565 Clinical Oral Pathology (1-3, max. 10)** *Morton* Presentation of interesting oral lesions from the dental school and the University of Washington Medical Center and the correlation of the clinical findings with the underlying morphologic and biochemical changes in the tissues. The relation of these oral lesions to systemic disease is stressed. Primarily designed for students with DDS, MD, or DVM. degrees. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 566 Surgical Oral Pathology (2-4, max. 16)** *Morton* Students are trained to interpret microscopic slides of lesions from the oral cavity and related areas, and to correlate these with the clinical findings. Each student is responsible for the grossing of specimens and the preparation of histology reports. Primarily designed for students with DDS, MD, or DVM. degrees. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 569 Advanced Oral Microbiology (2)** *Darveau* Viral, bacterial classification; physiology; toxicity mechanisms reviewed. Formation and composition of plaque and calculus, and chemical methods of control discussed. Specific microbial floras of acute and chronic gingivitis, early onset forms of periodontitis, and adult periodontitis studied. Principles of antibiotic use reviewed. Offered: W.

**ORALB 570 Seminar in Oral Pathology (1-3, max. 9)** *Morton* Consists of in-depth studies of specific oral diseases through use of seminar and discussion. Students are required to present literature reviews and to act as discussion leaders. Primarily designed for students with DDS, MD, or DVM. degrees. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 572 Oral Pathology (3, max. 6)** *Oda* Survey of the diseases of the oral facial regions in lecture and laboratory sessions. Diseases of teeth and their supporting structures and diseases of the oral and paraoral soft tissues and bones. Correlations between clinical findings and histopathologic features. Attendance in the laboratory is required. Offered: AW.

**ORALB 574 Clinical Stomatology (3)** *Morton* Diseases of the oral cavity and jaw are presented as the practitioner encounters them—detailed clinical pictures, laboratory tests, radiographic findings, surgical exploration for the establishment of a therapeutic diagnosis. Offered: Sp.

**ORALB 575 Oral Biology Seminar (1-3, max. 10)** *Izutsu* Presentation and discussion of current research problems by members of the staff, investigators from other departments in the University, visiting scientists, and trainees. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 576 Molecular Aspects of Epithelial Biology (1-2, max. 2)** *Dale* In-depth discussion of cytoskeleton, cell junctions, influence of growth factors, retinoids, and other exogenous agents on differentiation and function of normal stratified epithelia. Prerequisite: BIOC 440 (or equivalent) or permission of instructor. Offered: odd years; Sp.

**ORALB 577 Applied Therapeutics in Dentistry (2)** *Watson* Practical information about drugs included in practice of dentistry. Topics include evaluation of case histories, dental considerations pertaining to medical conditions and drug therapies, types of drugs and dosages used for common medical conditions, the pharmacology of drugs prescribed by the clinician, and the mechanisms involved in drug interactions. Offered: odd years; A.

**ORALB 578 Research Techniques in Oral Biology (2-4, max. 15)** Introduction to biochemical, analytical, or morphological techniques employed in biochemical cytology or molecular pathology as well as *in vitro* techniques of tissue and organ culture. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 579 Molecular Biology (2)** *Presland* Applications of molecular biology and recombinant DNA methodologies to oral biology topics of interest in dental sciences. Prerequisite: BIOCHEM 405 or BIOCHEM 406 or equivalent, and permission of instructor. Offered: S.

**ORALB 580 Introduction to Molecular Biology Laboratory (4)** *Presland* Includes laboratory experiences involving use of restriction enzymes, cloning of DNA into plasmid vectors and plasmid DNA isolation, RNA isolation from cells and tissues, PCR, DNA sequence analysis, and web-based DNA, and protein sequence analysis. Prerequisite: either BIOC 405, BIOC 406, or permission of instructor. Offered: A; even years.

**ORALB 581 Secretory Process in Exocrine Glands (1-3, max. 3)** *Izutsu* Biostructural, physiological, and biochemical aspects of individual secretory systems as integrated units. Faculty members with appropriate expertise participate in discussions and presentations during each of the three quarters. Offered: Sp.

**ORALB 582 Secretory Process in Exocrine Glands (1-3, max. 3)** *Izutsu* Biostructural, physiological, and biochemical aspects of individual secretory systems as integrated units. Faculty members with appropriate expertise participate in discussions and presentations during each of the three quarters.

**ORALB 583 Secretory Process in Exocrine Glands (1-3, max. 3)** *Izutsu* Biostructural, physiological, and biochemical aspects of individual secretory systems as integrated units. Faculty members with appropriate expertise participate in discussions and presentations during each of the three quarters.

**ORALB 591 Advanced Topics in Oral Biology and Medicine I (1-2, max. 2)** *Herring* Review of current molecular and cellular advances in developmental biology relevant to head and neck embryology, tooth development and epithelial differentiation. Offered: jointly with ORTHO 591; W.

**ORALB 592 Advanced Topics in Oral Biology and Medicine II (1-2, max. 2)** *Herring* Review of current scientific literature relevant to cranioskeletal development and growth, bone biology and orthodontic tooth movement. Offered: jointly with ORTHO 592; Sp.

**ORALB 600 Independent Study or Research (\*)** Prerequisite: permission of instructor. Offered: AWSpS.

**ORALB 700 Master's Thesis (\*)** Offered: AWSpS.

**ORALB 800 Doctoral Dissertation (\*)** Offered: AWSpS.

---

## Oral Medicine

**ORALM 404 Considerations in Care of the Patient with a Disability (\*, max. 6)** Role of auxiliaries in dental treatment of the special patient, including psychosocial issues, communication techniques, wheelchair transfers; dental prevention, medical and dental management of specific disabilities; drug therapy, sedation, and anesthesia. Offered: AWSpS.

**ORALM 460 Clinical Management of Patients with Disabilities (\*, max. 10)** Participation in chair/bedside dental treatment of a broad range of disabled populations, including homebound and institutionalized patients. Offered: AWSpS.

**ORALM 465 Dental Care of the Disabled Literature Review (1)** Review of the current scientific literature pertaining to disability issues, research, clinical management, resources, and legislation relating to oral health of persons with disabilities. Credit/no credit only. Offered: AWSpS.

**ORALM 513 Communication Skills I - Techniques (1)** Different aspects of verbal and non-verbal communication, recognizing obstacles to effective communication, and developing strategies to overcome communication obstacles. Clinical interviewing exercises. .

**ORALM 514 Communication Skills II - Cultural Competency (1)** Continuation of basic communication skills. Credit/no credit only. Offered: A.

**ORALM 515 Communication Skills III - Interviewing and Hx-taking (1)** Provides early clinical experience, and develops skills necessary to learn from patients what the practitioner needs to know about their social, medical, and dental histories to effectively understand the "whole patient" so as to diagnose, plan, and provide appropriate treatment. Credit/no credit only. Offered: A.

**ORALM 516 Physical Exam I (1)** Addresses techniques of initial patient assessment including general survey of the patient and vital signs assessment. Includes development of skills through participation in clinical sessions. Credit/no credit only. Offered: W.

**ORALM 517 Physical Examination II (2)** Lectures, clinical rotations, and seminars addressing techniques of patient assessment including history-taking, physical examination, and interpretation of findings. Includes development of skills through participation in clinical sessions.

**ORALM 520 P-Introduction to Oral Radiology (2)** Physical, biological, technical, and diagnostic aspects of dental x-ray procedures. Offered: AWSpS.

**ORALM 525 Physical Examination III (1)** Intensive review and application of techniques of patient assessment including history-taking, physical examination, and interpretation of findings. Includes development of skills through participation in clinical sessions.

**ORALM 526 General Medicine (2)** Addresses medical, physical, and psychological conditions that impact the practice of dentistry. Provides information regarding collection of appropriate medical and physical data and integration of information into plans and practices relevant to the routine management of patients in dental practices. Instruction occurs via lectures, videos, assigned readings, and case scenarios.

**ORALM 527 Introduction to Treatment Planning (1)** Problem-oriented record system with basic concepts of treatment planning. Students prepare treatment plans in advance of seminar. Offered: Sp.

**ORALM 528 Dental Education and Care of the Disabled (1)** Addresses the special needs and dental management of patients with developmental disabilities such as Down's syndrome, cerebral palsy, mental retardation, and other conditions such as head trauma. Utilizes instructional videos.

**ORALM 529 Stomatology (4)** Focuses on ability to recognize, diagnose, and treat non-dental oral diseases and conditions that are commonly encountered in clinical practice. Rotations through the oral medicine undergraduate clinic where students take history and examine patients presenting for comprehensive care or urgent care. Interpretation and management of non-dental oral pathology and medical/psychological issues. Offered: S.

**ORALM 531 P-Acute and Chronic Orofacial Pain (1)** Essential clinical and technical information and skills for diagnosis and treatment of acute and chronic pain, including differential diagnosis, and behavioral factors. Offered: A.

**ORALM 532 P-Acute and Chronic Orofacial Pain (1)** Essential clinical and technical information and skills for diagnosis and treatment of acute and chronic pain, including differential diagnosis, and behavioral factors. Offered: W.

**ORALM 533 P-Acute and Chronic Orofacial Pain (2)** Essential clinical and technical information and skills for diagnosis and treatment of acute and chronic pain, including differential diagnosis, and behavioral factors. Offered: Sp.

**ORALM 540 P-Oral Medicine Senior Seminar (2-, max. 4)** Clinical conference devoted to case presentations of patients with dental treatment needs and complicating medical problems. Offered: AW.

**ORALM 545 P-Clinical Conference in Oral Medicine (1-, max. 2)** Clinical pathologic conference utilizing interdisciplinary approach to patient care and emphasizing basic science application. Offered: AW.

**ORALM 550 P-Directed Studies in Oral Diagnosis (\*, max. 12)** See DPHS 449 for course description and prerequisite. Offered: AWSpS.

**ORALM 560 Advanced Diagnostic Techniques (2)** Advanced diagnostic procedures used to identify oral and perioral diseases. Included are in-depth discussions of history analysis, methods for psychologic evaluation, soft and hard tissue diagnostic procedures, neurologic, salivary gland, and other tissue analyses requiring special procedures. Offered: AWSpS.

**ORALM 564 Dental Care of the Disabled I (\*, max. 10)** Advanced topics in rehabilitation dentistry including psychosocial issues; characteristics and needs of patients with specific disabilities; patient management and use of portable equipment; drug therapy, sedation and anesthesia; dental prevention, and emergency procedures. Seminars and self-directed study. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALM 565 Oral Medicine Clinical Conference (\*, max. 16)** Clinical conference in which diagnostic data concerning patients seen in the oral medicine clinic are presented for evaluation. When possible, the patient is present with laboratory findings, radiographs, and the results of special tests. Offered: AWSpS.

**ORALM 567 Behavioral Management of Acute and Chronic Orofacial Pain (2)** Overview of adult psychopathology and illness behavior as it relates to psychosomatic concepts and chronic pain. review of assessment and behavioral management strategies for the dental practitioner. Open to graduate students, postdoctoral fellows, residents in dentistry, medicine, psychology. Offered: Sp.

**ORALM 570 Oral Medicine and Therapy (2-, max. 6)** Lecture directed toward the presentation and discussion of oral diseases and oral manifestations of systemic disease. Primarily the clinical manifestations' relationship to generalized disease processes and patient management with in-depth discussions of therapy. Offered: AWSpS.

**ORALM 576 Oral Medicine Literature Review (1)** Seminar analyzes the recent literature concerning the area of oral medicine, diagnosis, and therapy for oral disease. Offered: AWSpS.

**ORALM 578 Dental Care of the Disabled Literature Review (1, max. 3)** Review of the current scientific literature pertaining to disability issues, including research, clinical management, resources, and legislation pertaining to oral health of persons with disabilities. Credit/no credit only. Offered: AWSpS.

**ORALM 580 Current Concepts in Oral Radiology (2)** Lecture/seminar covering current concepts in oral radiology including technical factors, radiation risks, observer characteristics and variation, radiographic localization, interpretation, and overview of current extraoral techniques. Offered: AWSpS.

**ORALM 581 Advanced Seminars in Oral Radiology (2, max. 8)** Explores aspects of oral and maxillofacial radiology and related fields. Offered: AWSpS.

**ORALM 584 Dental Care of the Disabled III (\*, max. 10)** Field practice in community outreach to facilities and agencies serving disabled populations. Includes observation, dental screenings, patient education and in-service training of direct care staff. Prerequisite: ORALM 404 or ORALM 664. Offered: AWSpS.

**ORALM 600 Independent Study or Research (\*)** Credit/no credit only. Offered: AWSpS.

**ORALM 601 Oral Medicine Research Seminar (1, max. 10)** Presentation and discussion of current research problems by graduate students, faculty, and investigators from other departments in the university. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALM 630 P-Clinical Diagnosis and Oral Medicine ([1/2]-, max. 5)** Develops skills in assessment of patients requiring comprehensive dental care. Includes interviewing and physical examination, radiographic interpretation, problem list formation, and chart documentation. Students participate in diagnosis and treatment of patients requiring emergency and specialized dental care. Offered: AWSpS.

**ORALM 640 Advanced Clinical Diagnosis and Oral Medicine ([1/2]-, max. 3)** Advanced instruction in diagnosis and management of patients requiring emergency and specialized care. Includes participation in clinical rotations to oral medicine specialty clinics. Offered: AWSpS.

**ORALM 650 P-Oral Medicine Clinical Elective (1-6, max. 6)** Opportunities for students to work in various clinical activities at local hospitals or other sites outside the school. Credit/no credit only. Prerequisite: permission of instructor. Offered: AWSpS.

**ORALM 660 Rotations in Medical Disciplines (1-4, max. 24)** Clinic, oriented to the hospital practice of oral medicine, deals with examination and nonsurgical therapy of hospital patients. The conditions treated include primary oral diseases, oral manifestations of systemic diseases, and oral defects resulting from medical treatment of serious systemic disease. Credit/no credit only. Offered: AWSpS.

**ORALM 663 Introduction to Educational Methods in Dentistry (2)** Principles of teaching and learning, their applications in dental education. Basic principles include learning theory and cognitive processing, identifying prerequisite knowledge of learners, determining objectives of outcomes of learning, selecting appropriate methods and materials, using evaluation procedures. Increases understanding of instruction process to provide a sound foundation for teaching. Offered: AWSpS.

**ORALM 664 Dental Care of the Disabled II (\*, max. 10)** Practicum in chair/bedside delivery of dental care to different disabled populations. Includes rotations to institutions, long-term care facilities, and homebound service, using mobile equipment. Prerequisite: ORALM 564 and permission of instructor. Offered: AWSpS.

**ORALM 665 Clinical Oral Medicine (\*, max. 33)** Clinic involving the diagnostic evaluation of patients with difficult and unusual oral diseases. The student diagnoses and treats the patient. Types of therapy include medications and chemical agents, functional physical therapy, and counseling. Offered: AWSpS.

**ORALM 670 Clinical Oral Medicine Teaching (1-4, max. 16)** Clinic designed to give the student experience and instruction in the teaching of clinical oral diagnosis. Treatment of emergency dental problems as well as routine and special diagnostic procedures is emphasized. Offered: AWSpS.

---

## Orthodontics

**ORTHO 449 Directed Studies in Orthodontics (\*)** See DPHS 449 for course description and prerequisite. Credit/no credit only. Offered: AWSpS.

**ORTHO 520 P- Growth and Development of the Face and Dentition (2)** Covers basic

concepts in orthodontic work. Exposes students to the growth and development of the dento-facial structures and how orthodontists can use predict and use growth to treat malocclusion. Reviews concepts from basic biology and covers specific topics related to orthodontic tooth movement and orthopedic treatment. Offered: A.

**ORTHO 521 Diagnosis and Treatment Planning in Orthodontics (3)** Basic principles of pre and postnatal growth and development integrated with the recognition, analysis, and treatment of planning of problems encountered in dental and skeletal malocclusions.

**ORTHO 522 P-Beginning Adjunctive Orthodontics (2)** Lecture/laboratory instruction fabrication of orthodontic study models, clinical photography, and construction and use of removable and fixed orthodontic appliances.. Prerequisite: ORTHO 520. Offered: S.

**ORTHO 550 P-Directed Studies in Orthodontics (\*, max. 6)** See DPHS 449 for course description and prerequisite. Offered: AWSpS.

**ORTHO 551 Review of Selected Literature in Orthodontics (1)** Students select a topic for review, review appropriate literature, and prepare written critique. Offered: WSp.

**ORTHO 552 Journal Club (1)** Graduate students review the current orthodontic literature. Offered: AWSp.

**ORTHO 560 Orthodontics Seminar (1-5, max. 25)** Methods of diagnosis, analysis, and treatment planning of malocclusion; analysis of methods and theoretical principles used in the treatment of malocclusion. The student presents a detailed case analysis and plan of treatment for each clinical patient supervised. Offered: AWSpS.

**ORTHO 562 Orthodontic Theory (2)** Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.

**ORTHO 563 Orthodontic Theory (2)** Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.

**ORTHO 564 Orthodontic Theory (2)** Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.

**ORTHO 565 Orthodontic Theory (2)** Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.

**ORTHO 566 Orthodontic Theory (2)** Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.

**ORTHO 570 Roentgenographic Cephalometry (2)** Basic principles, history, and techniques of roentgenographic cephalometry. Offered: w.

**ORTHO 580 Functional Cranial Anatomy (3)** *Herring* Lecture and laboratory dissection concentrating on clinical and functional anatomy of the head and neck. Offered: S.

**ORTHO 582 Adult Orthodontics Seminar (2)** Seminar for orthodontic, periodontic, and restorative dentistry graduate students in comprehensive, integrated diagnosis and treatment planning of the dental problems of the adult patient. Offered: AWSpS.

**ORTHO 585 Surgical Orthodontic Diagnosis and Treatment Planning (3)** Seminar for orthodontic graduate students and oral surgery residents in comprehensive, integrated diagnosis, and treatment planning for patients with major facial deformities. Offered: AWSpS.

**ORTHO 584 Clinical Management of Cleft Lip and Palate and Craniofacial Anomalies (2)** Management of these complex patients involves members of a dedicated, highly specialized multidisciplinary team. Insight gained into specific evaluation and treatment modalities of each discipline through lectures, seminars, assigned readings. Integrated approach to management is illustrated by attendance at craniofacial staffing and clinics. Prerequisite: graduate students in orthodontics. Offered: AW.

**ORTHO 587 Management of Debilitated Dentitions (1-, max. 2)** Integrated diagnosis and treatment planning for patients with edentulous spaces, emphasizing use of osseointegrated implants and temporary anchorate devices. Offered: SpS.

**ORTHO 589 Applied Psychology in Orthodontics and Pediatric Dentistry (1)** Application of psychological theories, research, and intervention strategies to orthodontics and pediatric dentistry. Topics include the principles of behavior change, patient compliance with therapeutic regimens, and motivations for orthodontic treatment. Prerequisite: graduate standing in dentistry or permission of instructor. Offered: A.

**ORTHO 590 Scientific Methodology in Dental Research (2)** Review of the scientific method. Evaluation of dental literature. Discussion of proposed master's degree research projects. Formulation and discussion of hypothetical research projects related to orthodontics. Offered: A.

**ORTHO 591 Advanced Topics in Oral Biology and Medicine I (1-2, max. 2)** *Herring, Izutsu* Review of current molecular and cellular advances in developmental biology relevant to head and neck embryology, tooth development and epithelial differentiation. Offered: jointly with ORALB 591; W.

**ORTHO 592 Advanced Topics in Oral Biology and Medicine II (1-2, max. 2)** *Herring* Review of current scientific literature relevant to cranioskeletal development and growth, bone biology and orthodontic tooth movement. Offered: jointly with ORALB 592; Sp.

**ORTHO 597 Preclinical Technique (1)** Techniques of construction and manipulation of the edgewise arch mechanism. Offered: S

**ORTHO 598 Archwire Formation (1)** Principles of wire bending and the use of orthodontic pliers. Offered: ASpS

**ORTHO 599 Biomechanics (1)** Principles of biologic reactions to application of orthodontic forces. Credit/no credit only. Offered: W.

**ORTHO 600 Independent Study or Research (\*)** Managing the experimental protocol. Data collection and analysis. Preparation and writing of a thesis or publishable manuscript. Prerequisite: permission of instructor. Offered: SpS.

**ORTHO 630 P-Introduction to Clinical Orthodontics (1)** Direct clinical application of principles of orthodontic diagnosis and treatment planning for simple orthodontic appliances to modify tooth position in preparation for definitive restorative and/or periodontal therapy. Prerequisite: ORTHO 522. Offered: AW.

**ORTHO 631 Minor Orthodontic Treatment (1)** Clinical treatment of minor orthodontic problems suitable for the general dentist i.e., direct clinical application of principles of orthodontic diagnosis and treatment planning for simple orthodontic appliances to modify tooth position in preparation for definitive restorative or periodontal therapy. Offered: AWSpS.

**ORTHO 660 P-Clinical Orthodontics (1-6, max. 24)** Clinical application of the techniques in the treatment of malocclusion. Offered: AWSpS.

**ORTHO 682 Adult Orthodontics Clinic (1)** Clinic for orthodontic graduate students in the treatment of the dental problems of the adult patient. Offered: AWSpS.

---

## Periodontics

**PERIO 449 Directed Studies in Periodontics (\*)** See DPHS 449 for course description and prerequisite.

**PERIO 517 Introduction to Periodontics (2)** Epidemiology, natural history, etiology, histopathology, and genetics of various periodontal diseases. Offered: Sp.

**PERIO 525 P-Prevention/Periodontics (2-)** Introduction to periodontal therapy. Offered: W.

**PERIO 526 P-Prevention/Periodontics (-2)** Overview of preventive dentistry, introduction to periodontal therapy. Offered: Sp.

**PERIO 530 P-Principles of Periodontics (2-)** Diagnosis of periodontal diseases and development of a treatment plan including maintenance program, rationale for non-surgical, surgical, and antibacterial management of periodontal diseases. Discussion of principles of various periodontal procedures. Prerequisite: PERIO 525-526 and PERIO 527. Offered: A.

**PERIO 531 P-Principles of Periodontics (-2)** Seminar emphasizing multidisciplinary approach to comprehensive treatment planning. Offered: W.

**PERIO 540 Advanced Periodontics (1)** Designed to improve the understanding of sequencing of patient care and providing periodontal therapy into the perspective of a comprehensive care system. Offered: A.

**PERIO 550 P-Directed Studies in Periodontics (\*, max. 6)** See DPHS 449 for course description and prerequisite.

**PERIO 561 Periodontal Case Management (2-, max. 8)** Didactic presentation of clinical periodontics to provide a comprehensive view of the field and a grasp of modern therapeutics. Offered: AWSp.

**PERIO 566 Practice Management (1)** Aspects of setting up and administering a private periodontal practice. Financing, insurance, office design, equipment, employees, professional forms, marketing strategies, and patient management. Prerequisite: PERIO 561. Offered: S.

**PERIO 567 Oral Medicine Case Studies (1, max. 3)** Weekly seminar discussing series of unknown oral and perioral conditions. Discussion of history taking, differential diagnoses, relevant tests, therapeutic approaches, and outcomes. Offered: AWSp.

**PERIO 574 Periodontal Microbiology (2)** Viral, bacterial classification; physiology; toxicity mechanisms reviewed. Formation and composition of plaque and calculus, and chemical methods of control discussed. Specific microbial floras of acute and chronic gingivitis, early onset forms of periodontitis, and adult periodontitis studied. Principles of antibiotic use reviewed. Offered: A.

**PERIO 575 Immunologic Aspects of Oral Diseases (2)** Lecture course designed to acquaint students with basic concepts of immunology and immunopathology. Topics include cellular immunology, antibody structure and function, complement system, immunopathologic mechanisms, tumor immunology and immunologic manifestations in mucocutaneous oral lesions as well as immunology of caries and periodontal disease. Offered: W.

**PERIO 576 The Molecular and Cellular Biology of the Periodontium (2)** Nucleic acid, protein, and carbohydrate biochemistry reviewed. Roles of collagens and proteoglycans in gingival tissues and the organization of oral epithelia discussed. Structures of human and animal periodontal lesions compared. Cellular and molecular inflammatory and immunological mechanisms in periodontal disease discussed. History, classification, and epidemiology of periodontal diseases described. Offered: Sp.

**PERIO 577 Review of Literature (2, max. 16)** Concise review of the scientific periodontal literature with specific focus on studies of periodontal diagnosis, wound healing, periodontal regeneration, microbiology, and implant procedures. Offered: AWSpS.

**PERIO 578 Implant Literature Review (1)** *Verardi Reviews* several topics related to dental implantology such as: history of dental implants, osseointegration, properties of materials, bone healing, bone augmentation procedures, success rates, pathogenesis of implant failures, and aesthetics in implantology. Discusses the relationship between surgical and restorative treatment phases. CR/NC only. Offered: AWSp.

**PERIO 580 Foundations in Implant Dentistry (1)** *London, Raigrodski* Details the core surgical and prosthetic considerations in dental implant patient care. Topics include case planning, anatomy, radiography, surgery, componentry,

occlusion, and applications for implant dentistry. Offered: S.

**PERIO 582 Periodontic Treatment Planning Seminar (1-, max. 12)** Weekly seminar involved with the presentation, discussion, and tentative solution of moderate to complex problems in diagnosis and treatment. Offered: AWSpS.

**PERIO 585 Periodontal Therapy Seminar (1-, max. 12)** Weekly seminar utilizing the case review method and dealing with the treatment of moderate to advanced periodontal disease. Offered: AWSpS.

**PERIO 586 Longitudinal Evaluation of Periodontal Therapy (1-, max. 9)** Close examination of case progress from initial therapy to most recent maintenance visits to determine efficacy of method, demands upon patient, and temporal effect of therapy and survival. Preparation and delivery of a lecture on a therapeutic modality. Offered: AWSp.

**PERIO 592 Prescription Surgery (1-)** Clinical course in periodontal surgery in which surgical procedures are performed on prescription basis for patients undergoing therapy in the undergraduate dental clinic. Exposes student to a wider spectrum of patients and to stimulate an environment in which the student can encounter the problems in communication and patient management that occur in the private sector.

**PERIO 600 Independent Study or Research (\*)** Prerequisite: permission of graduate program adviser.

**PERIO 620 P-Introduction to Clinical Periodontics (1)** Clinical periodontics, with emphasis on examination, assessment, and treatment planning. Offered: S.

**PERIO 630 P-Periodontics (1-)** Students diagnose periodontal disease and plan and perform periodontal therapies, treating patients in a stepwise manner, describing clinical conditions, and integrating periodontal therapy in a comprehensive plan of care. Prerequisite: PERIO 525-526 and PERIO 517. Offered: A.

**PERIO 631 P-Periodontics (-1-)** Students diagnose periodontal disease and plan and perform periodontal therapies, treating patients in a stepwise manner, describing clinical conditions, and integrating periodontal therapy in a comprehensive plan of care. Prerequisite: PERIO 525-526 and PERIO 517. Offered: W.

**PERIO 632 P-Periodontics (-1)** Students diagnose periodontal disease and plan and perform periodontal therapies, treating patients in a stepwise manner, describing clinical conditions, and integrating periodontal therapy in a comprehensive plan of care. Prerequisite: PERIO 525-526 and PERIO 517. Offered: Sp.

**PERIO 639 Advanced Clinical Periodontics (1-)** Maintenance and treatment of patients with more complex periodontal involvement. Development of skill in comprehensive treatment planning and execution by the individual student. Allowance made for surgical periodontics and experience in assisting in the treatment of advanced cases.

**PERIO 640 P-Advanced Clinical Periodontics (1-)** Maintenance and treatment of patients with more complex periodontal involvement. Development of skill in comprehensive treatment planning and execution by the

individual student. Allowance made for surgical periodontics and experience in assisting in the treatment of advanced cases. Offered: A.

**PERIO 641 P-Advanced Clinical Periodontics (-1)** Maintenance and treatment of patients with more complex periodontal involvement. Development of skill in comprehensive treatment planning and execution by the individual student. Allowance made for surgical periodontics and experience in assisting in the treatment of advanced cases. Offered: W.

**PERIO 642 P-Advanced Clinical Periodontics (-1)** Maintenance and treatment of patients with more complex periodontal involvement. Development of skill in comprehensive treatment planning and execution by the individual student. Allowance made for surgical periodontics and experience in assisting in the treatment of advanced cases. Offered: Sp.

**PERIO 659 P-Periodontics Extended Learning (\*, max. 4)** Supplemental work in periodontics to correct an area of student deficiency. Credit/no credit only.

**PERIO 660 Clinical Periodontics ([2-6]-, max. 60)** Clinical experience in diagnosis and treatment of periodontal disease.

**PERIO 661 Advanced Root Preparation (1)** *Daubert* Advanced skill development in the use of the periodontal probe, gracey curettes, files and instrument sharpening. Includes laboratory sessions on dentoforms leading up to treatment of initial therapy patients. Offered: S.

**PERIO 662 Stomatology Clinic (1, max. 4)** The diagnosis and treatment of oral and perioral lesions including history taking, biopsies, hematological laboratory tests and chemotherapy. Periodontal therapy in medically compromised patients in the hospital setting. Microscopic review of biopsy specimens. Offered: AWSpS.

**PERIO 663 Pre-Prosthodontics Clinical Periodontics (\*)** Clinical diagnosis and treatment of periodontal disease for nonperiodontics student. Prerequisite: permission of department chairperson.

**PERIO 665 Clinical Practice Teaching (\*)** Supervised experience in teaching clinical periodontics to undergraduate dental students.

**PERIO 685 Hospital Periodontics (1)** Preparation in periodontics to practice in hospital situations, including experience in operation of nitrous oxide analgesia, general anesthesia, intravenous premedication, treating of out- and inpatients.

---

## Prosthodontics

**PROS 520 P-Introduction to Complete Dentures-Lecture (3)** Didactic course in the treatment of completely edentulous patients. Instruction is provided in diagnostic procedures, complete denture construction, and maintenance care. Offered: A.

**PROS 521 P-Management of Immediate Denture Patients (1)** Lecture course describing and illustrating the clinical management of immediate denture patients (typical and overdenture). Offered: S.

**PROS 523 P-Removable Partial Denture Design (2)** Lectures in the basic principles of removable partial denture design. Practical drawings and more advanced designs are discussed in seminars. Certain technical aspects of design procedures are done in the classroom. Offered: W.

**PROS 525 P-Partial Denture technique and Immediate dentures (4)** Deals with those procedures the dentist must perform to fabricate a physiologically acceptable removable partial denture. The student gains experience via clinically submitted laboratory exercises prior to beginning prosthodontic treatment of a partially edentulous patient. The immediate denture component deals with the major treatment options and characteristics of immediate dentures.

**PROS 560 Complete and Immediate Dentures (2)** Lecture/seminar devoted to the diagnosis and treatment of the completely edentulous patient and the immediate denture patient, with emphasis on management of patients with difficulties in treatment. Offered: A.

**PROS 562 Removable Partial Dentures (2)** Lecture/seminar concentrating on factors peculiar to fabrication of removable partial dentures, with emphasis on management of combined fixed and removable therapy. Offered: W.

**PROS 563 Maxillofacial Prosthetics I (1)** Introductory lecture/seminar series with emphasis on diagnosis and prosthodontic rehabilitative treatment of patients who have experienced trauma or have congenital or acquired defects in the oral region. Offered: S.

**PROS 564 Maxillofacial Prosthetics II (1)** Introductory lecture series focusing on the prosthodontic rehabilitation of patients with loss and compromise of facial anatomy, i.e., ocular, orbital, nasal, auricular, combination intraoral/extraoral, and other related facial deformities.

**PROS 571 Review of Literature Seminar (1, max. 12)** Continuous weekly seminar devoted to the review of prosthodontic and related literature.

**PROS 572 Special Topics Related to Prosthodontics (1)** Lecture-seminar series focusing on relating principles of basic science to clinical application in prosthodontics. A wide and varied range of topics including surgery, psychology, speech, pharmacology, practice management, physiology, temporomandibular/myofascial joint dysfunction.

**PROS 600 Independent Study or Research (\*)** Prerequisite: permission of graduate program adviser.

**PROS 620 P-Clinical Complete Dentures (1/3, max. 3)** Basic principles of complete denture fabrication and of diagnosis and treatment of completely edentulous patient. In second quarter student completes denture patient care, provides follow-up treatment, and participates in four competency examinations. Offered: AW.

**PROS 630 P-Clinical Prosthodontics ([1-2]-, max. 5)** Clinical course involving the diagnosis and management of completely and partially edentulous patients. Removable partial dentures and immediate dentures are fabricated. Follow-up care provided for patients previously treated.

**PROS 640 P-Clinical Prosthodontic Maintenance (1-, max. 3)** Clinic involving additional patient treatment with complete, partial, or intermediate dentures, plus indirect relines, managing adjustment chair, peer review, recall clinic, and follow-up care for patients previously treated. Offered: AWSp.

**PROS 650 P-Extramurals in Prosthodontics (\*, max. 12)** Elective clinical experiences or clinical practice teaching. Credit/no credit only. Prerequisite: permission of instructor.

**PROS 660 Clinical Prosthodontics (1-2, max. 6)** Practical application of material covered in 560 and 562.

**PROS 665 Clinical Practice Teaching (1-, max. 4)** Supervised experience in teaching clinical prosthodontics to the undergraduate dental student.

---

## Restorative Dentistry

**RES D 510 P-Dental Materials Science ([1/2]-, max. 3)** Basic concepts of dental materials science including physical, mechanical, chemical, and biological properties of restorative dental materials. Clinical use of restorative dental materials also presented. Offered: WSp.

**RES D 511 P-Applied Dental Materials (3)** Lecture/laboratory emphasizing proper use of restorative dental materials through simulated clinical projects. Student self-evaluation also emphasized. Offered: Sp.

**RES D 515 P-Dental Anatomy (3)** Lecture and laboratory on the morphology and nomenclature of individual teeth of the adult human dentition. Introduction to tooth histology and function and the influence of tooth anatomy on clinical dental procedures. Offered: A.

**RES D 516 P-Introduction to Occlusion (3)** Lecture/laboratory in the functional determinants of occlusal morphology. Preparation and waxing techniques for developing opposing quadrants by the additive waxing technique. Offered: W.

**RES D 517 P-Functional Analysis of Occlusion (3)** Clinical and laboratory experiences in examination and charting of patient's occlusion, record-taking for analysis of occlusion on a dental articulator, and preclinical diagnostic correction of problems of occlusion on articulated clinical casts. Provides basic background or technique information relative to laboratory and clinical experiences. Offered: Sp.

**RES D 519 P-Operative Dentistry (1)** Lecture series introducing operative dentistry. Nomenclature, cavity classification, instrumentation, pulp protection, and principles of cavity preparation. Offered: Sp.

**RES D 520 P-Introduction to Operative Dentistry Technique (3)** Introduces processes of restoring diseased or damaged tooth structure to proper health, form, function, and esthetics. Emphasis on basic principles of cavity preparation for one-surface restorations. Other considerations include restoration design, proper selection and use of restorative materials, and clinical considerations for restorative treatment planning. Following demonstration of competence in didactic and practical aspects. Limited opportunity available for introduction to restorative care. Offered: A.

**RES D 521 P-Introduction to Operative Dentistry Technique (3)** Introduces processes of restoring diseased or damaged tooth structure to proper health, form, function, and esthetics. Emphasis on basic principles of cavity preparation for multiple-surface direct filling restorations. Other considerations include restoration design, proper selection and use of restorative materials, and clinical considerations for restorative treatment planning. Following demonstration of competence in didactic and practical aspects. Limited opportunity available for introduction to restorative care. Offered: W.

**RES D 522 P-Introduction to Operative Dentistry Technique (3)** Introduces processes of restoring diseased or damaged tooth structure to proper health, form, function, and esthetics. Emphasis on basic principles of cavity preparation for proper coverage cast gold and foundation buildup restorations. Other considerations include restoration design, proper selection and use of restorative materials, and clinical considerations for restorative treatment planning. Following demonstration of competence in didactic and practical aspects. Limited opportunity available for introduction to restorative care. Offered: Sp.

**RES D 525 P-Fixed Prosthodontics (3)** Serves as introduction to area of restorative dentistry dealing with indirect partial-coverage restorations and complete coverage restorations. Preclinical experience provided in tooth preparation, provisional restoration, and fabrication for various crown designs. Projects emphasize the various designs of single-tooth preparations and restoration. Offered: A.

**RES D 526 P-Fixed Prosthodontics (3)** Serves as introduction to area of fixed prosthodontics dealing with multiple-unit restorations. Preclinical experience provided with multiple tooth preparations and provisional restoration. Fabrication for various crown designs, singly and in conjunction with various pontic and connector types, to serve as fixed partial denture prostheses. Projects emphasize multiple-tooth preparation/restoration and implant-supported restorations. Offered: W.

**RES D 527 P-Fixed Prosthodontics (3)** Serves as introduction to area of fixed prosthodontics dealing with esthetic veneer indirect restorations. Preclinical experience provided in tooth preparation and restoration, fabrication for various esthetic veneer crown designs, singly and in conjunction with various pontic types to serve as fixed partial denture prostheses. Projects emphasize anterior single- and multiple-tooth preparation/restoration, provisional prostheses, and esthetic veneer restorations. Offered: Sp.

**RES D 530 P-Restorative Dentistry (2)** Lecture series related to 630 presenting restorative dentistry principles, including supportive material on clinical procedures. Emphasis on single-unit gold and esthetic veneer clinical procedures. Offered: A.

**RES D 531 P-Restorative Dentistry (2)** Lecture series related to 630 presenting restorative dentistry principles, including supportive material on clinical procedures. Emphasis on multiple-unit gold and esthetic veneer clinical procedures. Offered: W.

**RES D 532 P-Restorative Dentistry (2)** Lecture series related to 630 presenting restorative dentistry principles, including supportive material on clinical procedures. Offered: Sp.

**RES D 535 Implant Dentistry (3)** *Junge* Includes: history of implantology; basic science of osseointegration; surgical, prosthetic, and restorative considerations for the partially and fully edentulous patient; occlusal considerations of implant treatment; surgical placement and restorative procedures; management of patients; surgical and prosthetic complications; developing a treatment plan on assigned case; and restoring a single tooth implant. Offered: A.

**RES D 540 Esthetic Dentistry (2)** Restorative procedures to create lifelike prosthodontics that mimic the appearance of natural teeth, including the theory and applications of bleaching, composites, and ceramics. Encompasses simple orthodontic and periodontic procedures for multidisciplinary treatment to improve restorative outcomes. Introduces proper technique, materials and case selection to maximize clinical issues. Credit/no credit only. Offered: A.

**RES D 541 P-Advanced Restorative Dentistry (2)** Broadens base of restorative procedures. Introduction of new techniques and presentation of complex restorative treatment involving other specialties. Offered: W.

**RES D 542 P-New Developments in Dental Materials (1)** Dental materials recently introduced to dental profession reviewed, compared to current materials, and clinically demonstrated. Offered: Sp.

**RES D 550 P-Directed Studies in Restorative Dentistry (\*, max. 6)** See DPHS 449 for course description and prerequisite. Offered: AWSpS.

**RES D 570 Review of Literature Seminar (1, max. 6)** Continuous weekly seminar devoted to a review of restorative and related literature, and discussion of teaching methods, philosophy of teaching and treatment. Offered: AWSp.

**RES D 580 Restorative Treatment Planning Seminar (1-, max. 8)** Continuous weekly seminar to discuss controversial treatment problems and difficult diagnostic cases selected for graduate students. Offered: AWSp.

**RES D 585 Advanced Dental Materials Science (2)** Advanced concepts of dental materials science including physical, mechanical, chemical, and biological properties of restorative dental materials. Emphasis also on research design, testing methods, and proper selection of dental materials for clinical practice. Offered: W.

**RES D 588 Masticatory Functional Analysis and Occlusal Adjustment (2)** Lecture/seminar and clinical sessions in the study of the physiology of occlusion. Pertinent literature reviewed and discussed from the multidisciplinary viewpoint. The clinical sessions include training in masticatory functional analysis and treatment of occlusally related diseases. Offered: A.

**RES D 589 Review of Literature in Occlusion (2)** Seminar to review pertinent literature in occlusion. Offered: S.

**RES D 590 Fundamentals of Fixed Prosthodontics (2-, max. 4)** Lecture/laboratory/clinical sessions in the study of gnathological principles and procedures as they pertain to the treatment of comprehensive cases assigned to the students. Use and application of several articulators. Offered: A.

**RES D 600 Independent Study or Research (\*)** Prerequisite: permission of graduate program adviser. Offered: AWSpS.

**RES D 620 P-Comprehensive Treatment Planning in Restorative Dentistry (3)** Orientation to restorative clinical operations, administrative procedures associated with patient management and completion of initial treatment plans. Emphasizes problem-based learning, treatment outcomes, the sequence of clinical treatment, and the diagnosis and management of caries-susceptible patients. Offered: S.

**RES D 630 P-Clinical Restorative Dentistry ([1-3]-, max. 9)** Clinical training in fundamental restorative dentistry procedures, including diagnostic, treatment planning, and therapeutic aspects of operative dentistry, fixed prosthodontics, and occlusal treatment. Offered: AWSp.

**RES D 635 Clinical Restorative Dentistry (3)** *Verhoef* Knowledge and experience in the diagnosis and restoration of diseased, damaged, unesthetic, or missing teeth. Experience in management of complex, inter-disciplinary treatment plans. Skills in patient communication and management. Utilization of broader range of restorative materials and techniques.

**RES D 640 P-Advanced Clinical Restorative Dentistry ([1-3]-, max. 12)** Clinical training in restorative dentistry procedures, including diagnostic, treatment planning, and therapeutic aspects of operative dentistry, fixed prosthodontics, and occlusal treatment. Offered: AWSp.

**RES D 650 Restorative Dentistry Clinical Elective (1-6, max. 12)** Elective offering in clinical areas related to discipline. Offered: AWSpS.

**RES D 659 P-Restorative Dentistry Extended Learning (\*, max. 4)** Supplemental work in restorative dentistry to correct an area of student deficiency. Credit/no credit only. Offered: S.

**RES D 660 Oral Rehabilitation ([1-6]-, max. 32)** Clinical course to provide experience in diagnosis and treatment of patients requiring restorative procedures from single restorations to complex oral rehabilitative methods. Special emphasis is directed toward the integration of periodontics and occlusion as they relate to restorative dentistry. Offered: AWSpS.

**RES D 665 Clinical Practice Teaching (1, max. 4)** Supervised experience in teaching clinical fixed prosthodontics to undergraduate dental students. Offered: AWSpS.

# College of Education

## Education

**EDUC 301 Introductory Practice in Community Service Activity (1-10, max. 10)** Observation and participation in a variety of activities in a K-12 classroom. Placement made according to participant interests and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions are required. Offered: AWSp.

**EDUC 305 The Purpose of Public Schools in a Democracy (5) I&S** Explores issues and questions pertaining to public schools in a democratic society through directed readings, dialogue, individual and group projects designed to engage students with a series of crucial issues in public schools.

**EDUC 310 Current Issues in Education (5, max. 10) I&S** Covers a current issue and provides the opportunity to read and discuss educational issues with other students and faculty and to learn of opportunities in the College of Education programs.

**EDUC 401 Practicum in Community Service Activity (1-18, max. 18)** Tutoring and teaching experiences in a school or community service organization. Placement made according to participant interests and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions are required. Offered: AWSp.

**EDUC 402 Practicum in Classroom Teaching and Management: Primary (1-18, max. 18)** Tutoring and teaching experiences in a primary school setting (grades K-3). Placements made according to participants interest and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions. .

**EDUC 403 Practicum in Classroom Teaching and Management: Intermediate (1-18, max. 18)** Tutoring and teaching experiences in an intermediate school setting (grades 4-8). Placements made according to participants interest and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions. .

**EDUC 404 Practicum in Classroom Teaching and Management: Secondary (1-18, max. 18)** Tutoring and teaching experiences in an intermediate school setting (grades 6-12). Placements made according to participants interest and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions.

**EDUC 502 Advanced Practicum in Classroom Teaching and Management (1-18, max. 18)** In-depth classroom practicum experiences to certificated teachers working on additional endorsements. Arrangements must be made prior to enrolling with an adviser in the Teacher Education Office. Offered: AWSpS.

**EDUC 700 Master's Thesis (\*)** Prerequisite: permission of faculty adviser and graduate program coordinator. Offered: AWSpS.

**EDUC 800 Doctoral Dissertation (\*)** Prerequisite: permission of supervisory committee chairperson and graduate program coordinator. Offered: AWSpS.

## Early Childhood and Family Studies

**ECFS 200 Introduction to Early Childhood and Family Studies (3) I&S** *Joseph, Sandall* Explores current practices, programs, and research in the field of early childhood and family studies. Topics include: child development, early childhood education, parenting and family support, mental health, poverty, and other risk factors. Offered: AW.

**ECFS 300 Child Observation and Assessment (5) I&S** *Joseph* Focuses on observation and other methods used to study and understand young children in the context of families and society. Develops observation skills in order to understand children's behavior in learning environments. Examines various approaches to and purposes for assessment of young children and documentation of their development and learning. Explores approaches to assessing early learning environments. Offered: A.

**ECFS 301 Early Childhood Curriculum (5) I&S** *Joseph, Sandall* Focuses on the developmental foundations and theoretical and researched-based models of early childhood curriculum. Studies approaches to designing, organizing, and implementing early learning programs for young children. Studies curricular content and methods for supporting children's learning and development in the areas of physical development; social and emotional development; approaches to learning; cognition; and language and early literacy. Offered: W.

**ECFS 302 Survey of Infant and Children at Risk (3) I&S** *Sandall* Provides a survey of risk factors that can affect early childhood development, including prenatal and neonatal factors, and social/societal influences. Emphasizes understanding how risk factors can impact social-emotional, physical, and cognitive growth. Includes research-based principles and approaches to child guidance. Offered: Sp.

**ECFS 303 Service Learning and Research I(3)** *Sandall* First of a three-quarter experienced to provide students with opportunities in community-based early childhood or family support settings. Includes a field experience and a once-a-week seminar. The seminar ties together research and practice demonstrating how research informs evidence-based decision-making in programs and services for young children and families. Offered: A.

**ECFS 304 Service Learning and Research II(3)** *Joseph, Sandall* Second of a three-quarter experienced to provide students with opportunities in community-based early childhood or family support settings. Includes a field experience and a once-a-week seminar. The seminar ties together research and practice demonstrating how research informs evidence-based decision-making in programs and services for young children and families. Credit no credit only. Offered: W.

**ECFS 305 Service Learning and Research III (3)** *Jegatheesan, Sandall* Third of a three-quarter experienced to provide students with opportunities in community-based early childhood or family support settings. Includes a field experience and a once-a-week seminar. The seminar ties together research and practice

demonstrating how research informs evidence-based decision-making in programs and services for young children and families. Credit no credit only. Offered: Sp.

**ECFS 401 Understanding Early Childhood and Family Studies Research (3) I&S** *Jegatheesan* Focuses on the kinds of knowledge, ways of knowing, and modes of inquiry relevant to early childhood and family studies. Through identifying and reviewing substantive research in their areas of interest, students locate ideas for inquiry within the research literature in early childhood and family studies. Offered: A.

**ECFS 402 Social Policy and Young Children and Families (5) I&S** *Joseph, Sandall* Seeks to deepen understanding of contemporary social issues and problems that impact families and young children. Discusses legislation and other policies from a local, national, and global perspective. Explores the complex web of social, private, and governmental organization that impact families and young children. Offered: W.

**ECFS 454 Advanced Service Learning and Research I (3)** *Sandall* First of a three-quarter sequence leading to the completion and presentation of the senior project during spring quarter. Provides advanced opportunities to integrate theory and practice in community-based early childhood or family support programs and research settings. Included a weekly seminar to reflect on and expand on applied experiences. Offered: A.

**ECFS 455 Advanced Service Learning and Research II (3)** *Sandall* First of a three-quarter sequence leading to the completion and presentation of the senior project during spring quarter. Provides advanced opportunities to integrate theory and practice in community-based early childhood or family support programs and research settings. Included a weekly seminar to reflect on and expand on applied experiences. Offered: W.

**ECFS 456 Senior Project (3)** *Sandall* Third of a three-quarter sequence leading to the completion and presentation of the senior project. Community ?based learning and research experience continues during the quarter.. Offered: Sp.

## Curriculum and Instruction

**EDC&I 324 Physical Education and Health in the Schools (2)** Techniques and procedures for teaching physical education and health in elementary and secondary schools. For students in Teacher Education Program. Credit/no credit only.

**EDC&I 341 The Teaching of Art in the Secondary School (3)** For majors in secondary art education planning to teach on the junior or senior high school level.

**EDC&I 353 Teaching in the Elementary School (3)** Emphasizes selected teaching modes; lesson planning; classroom management procedures; grouping to accommodate pupils with special needs; utilization of learning resources; evaluation of teaching. Attention also given to school culture.

**EDC&I 354 Teaching in the Secondary School (3)** Development of basic skills in instructional methods, lesson planning, classroom management procedures, evaluation of teaching. Attention also given to school culture.

**EDC&I 355 Language Arts in the Elementary School (3)** Basic course in planning and teaching elementary language arts: listening and speaking, written composition, handwriting, spelling, creative and practical writing.

**EDC&I 356 The Teaching of English (3)** Combines theoretical understanding of teaching with specific techniques and materials for literature, language, composition, and mass media at the secondary level; coordinated with concurrent experience in schools.

**EDC&I 357 The Teaching of Speech (3)** Special methods course in the teaching of speech communication at the elementary and secondary levels.

**EDC&I 360 Reading in the Elementary School (3)** Basic course in methods, techniques, and materials used the teaching reading through decoding, comprehension, strategies, and literature in primary and intermediate grades.

**EDC&I 424 Multiethnic Curriculum and Instruction (3)** Primarily for preservice and in-service teachers who have little or no previous exposure to issues related to ethnicity and schooling. Designed to help teachers better understand the school's role in the ethnic education of students and acquire the insights, understandings, and skills needed to design and implement curricular and instructional strategies that reflect ethnic diversity.

**EDC&I 425 Instructional Strategies for Minority Students (3)** Designed to equip educators with appropriate skills in effective teaching of culturally and socioeconomically different students. Attention is directed to understanding how these students differ from mainstream youth and what the implications are for instructional strategies in the classroom.

**EDC&I 434 Introduction to Computers in the Classroom (3)** Overview of the uses of computers in education. Uses of computers in instruction, classroom management (gradebooks, utilities), evaluation of software, overview of programming, and word processing. Prior experience not required.

**EDC&I 436 Design and Authoring of CAI (3)** Introduction to the design of computer-assisted-instructional programs. Types of learning, characteristics of effective instruction. Students design and produce CAI programs using authoring systems for computers. Offered: jointly with T C 436.

**EDC&I 437 Uses of Computer Application Packages in Schools (3)** Introduction to the instructional and management uses of application programs. Topics may include: databases, spreadsheets, word processing, graphics packages, graphing utilities, telecommunication, desktop publishing. Emphasis is on K-12 setting. Prerequisite: EDC&I 434.

**EDC&I 440 Gender and Education (5) I&S** Gender bias, discrimination, and gender-equity efforts in education. Includes curriculum instruction, instructional materials, testing, counseling, athletics, teacher education, educational employment issues, and sexual harassment. Relevant federal and state laws,

court decisions, and strategies for promoting gender equity also addressed. Recommended: WOMEN 200 or SOC 110. Offered: jointly with WOMEN 415.

**EDC&I 443 Improvement of Teaching: Elementary School Music (3)** Advanced studies in the teaching of music in the elementary school. For experienced teachers.

**EDC&I 451 Second Language Acquisition and Language Study (3)** *Stritikus, Varghese* Identifies the major theories, concepts, processes, and factors pertinent to learning a second language, especially in relation to English. Relates second language acquisition theories, concepts, processes, and factors to pedagogical implication for classroom teaching.

**EDC&I 453 Teaching the Bilingual-Bicultural Student (3)** Educational needs of bilingual students: research findings, special programs, materials, and methodologies that bilingual-bicultural education can provide to meet those needs. Cultural combinations of bilingual populations in American culture; historical, social, and linguistic factors affecting their K-12 education.

**EDC&I 454 Cooperative Learning in the Classroom (3)** Theory and research on cooperative learning and current practices of managing such learning. Team learning activities and opportunities to plan and try out lessons and materials using several different cooperative strategies. Credit/no credit only.

**EDC&I 455 The Language Arts: Language and Learning (3)** The teaching of language arts requires research-based knowledge of language learning and its influence on listening, speaking, reading, writing, and nonverbal communication. Emphasizes techniques for building both a solid literacy curriculum and sound instructional practices.

**EDC&I 456 Workshop in Instructional Improvement: Language Arts (1-6, max. 15)** Individual or group study projects on the improvement of instruction in language arts.

**EDC&I 457 Methods in Teaching English as a Second Language (3)** Prepares preservice and in-service teachers to teach English as a second language and to meet the educational and linguistic needs of students who have little or no English language skills. Emphasis on a survey of first- and second-language acquisition research and its educational implications, as well as instructional strategies consistent with the audiolingual, cognitive, and creative construction approaches to second-language learning. Includes diagnostic-prescriptive strategies for classroom application.

**EDC&I 458 Content Area ESL Instruction (3)** *Stritikus, Varghese* Exposes students and engages them in how to support their English Language Learners in their content areas through sheltered instruction, specifically through the framework, Sheltered Instruction Observation Protocol (SIOP). Focuses specifically on the academic language needs of these students. Prerequisite: EDC&I 457.

**EDC&I 459 Workshop in Instructional Improvement: Reading (1-6, max. 15)** Projects on the improvement of instruction in reading. For experienced teachers and students in Teacher Education Program.

**EDC&I 460 Early Literacy Instruction (3)** Theory, research, and practice in early literacy acquisition including emergent literacy, phonemic awareness, word identification, comprehension, invented spelling, and writing. Emphasis on classroom instruction strategies for first and second language learners. Offered: A.

**EDC&I 461 Materials for Teaching Reading: Children's and Young Adult's Literature (3)** Designed to provide acquaintance with materials used in the teaching of reading. Trade books and materials from content areas are examined.

**EDC&I 462 Reading Comprehension Instruction in Elementary and Secondary School (3)** Research-based practices for explicit teaching of reading comprehension of both fiction and content-area texts including issues of reading strategies, text difficulty, teacher modeling, guided reading, discussion, assessment, and adaptations for struggling students. Offered: Sp.

**EDC&I 464 Educating Native-American Youth (3)** Assists students in understanding the North American Indian child from cultural, socioeconomic, and psychological points of view. Provides opportunities for the student to apply knowledge and skills gained in other courses to prepare programs and learning aids relevant to the educational situation of the Indian child.

**EDC&I 465 Social Studies Education: Elementary School Programs and Practices (3)** Stresses curriculum patterns, instructional procedures, resource materials, and the selection of content in social studies. For elementary and middle school teachers and students in Teacher Education Program.

**EDC&I 468 Workshop in Instructional Improvement: Social Studies (1-6, max. 15)** Individual or group study projects on the improvement of instruction in social studies.

**EDC&I 469 Teaching African American Students and Culture (3)** Examination of sociocultural and pedagogical factors that influence African American students' learning styles, opportunities, and outcomes; exploration of ways to reform teaching techniques to better accommodate cultural styles and experiences to improve the educational achievement of African American students.

**EDC&I 470 Science Education: Elementary School Programs and Practices (3)** Designed for classroom teachers with reference to the teaching and learning of science from kindergarten through grade 6. Emphasis is placed on objectives, methods, and materials as related to the concepts and processes of science.

**EDC&I 471 Science Education: Secondary School Programs and Practices (3)** Survey of the status and potential role of science in education; trends and their implications for the teaching of both biological and physical sciences in the junior and senior high schools; representative curricula and related teaching procedures; the psychology of concept formation and problem solving; and organization of science programs.

**EDC&I 472 Environmental Education for Teachers (3)** Status, selected problems, and role of environmental education in program of elementary, middle, and junior high schools. Opportunity to examine and receive instruction in use of existing environmental education

instructional materials. Instruction is in the spirit of inquiry/discovery.

**EDC&I 473 Workshop in Instructional Improvement: Science (1-6, max. 15)** Individual or group study projects on the improvement of instruction in science.

**EDC&I 474 Multi-Ethnic Studies: Methods, Content, and Materials (3)** Designed to help preservice and in-service teachers identify content and materials and devise methods for implementing ethnic studies programs and for incorporating ethnic content into regular K-12 social studies, language arts, and humanities curricula. Special attention is given to teaching about American Indians, Mexican Americans, African Americans, Asian Americans, Puerto Rican Americans, and White ethnic groups.

**EDC&I 475 Improvement of Teaching: Elementary School Mathematics (3)** Designed for elementary teachers. Emphasis is placed on the contributions of research to the improvement of the teaching of mathematics in the elementary school. For experienced teachers.

**EDC&I 476 Improvement of Teaching: Junior High School Mathematics (5)** Exploration of mathematical concepts for the purpose of improving the teaching of middle school mathematics.

**EDC&I 477 Improvement of Teaching: Secondary School Mathematics (5)** Exploration of mathematical concepts for the purpose of improving the teaching of secondary-school mathematics. For experienced teachers.

**EDC&I 478 Special Topics in Mathematics for Teachers (2-9, max. 9) NW** Study of selected areas of mathematics. Designed for the improvement of teachers of mathematics. Offered: jointly with MATH 497.

**EDC&I 479 Workshop in Instructional Improvement: Mathematics (1-6, max. 15)** Individual or group study projects for the improvement of instruction in mathematics.

**EDC&I 482 Educational Technology in Schooling (3)** Introduction to the application of technologies (computers, telecommunications, interactive video) in schools. Designed primarily for pre- and in-service teachers, but of interest to anyone involved in technology in education.

**EDC&I 485 Workshop in Instructional Improvement: Educational Communication and Technology (2-6, max. 6)** Individual or group study projects on the improvement of instruction through use of educational communication and technology.

**EDC&I 488 Educational Technology and Learning in Alternative Settings (3)** How educational technology can be used to encourage learning in nonschool environments, such as museums, radio and television broadcasts, parks and recreation centers, and distance education programs. Students investigate one of these areas and prepare a project.

**EDC&I 494 Workshop in Improvement of Curriculum (1-6, max. 15)** Stresses the application of procedures for curriculum development, maintenance, and evaluation. Opportunities furnished to develop and perfect strategies for program development with occasions given to utilize the strategies in master plan and materials preparation for

simulated or real school situations. Specific focus of workshop is determined by instructor or by arrangement with district.

**EDC&I 495 Workshop in Improvement of Teaching: Selected Topics, Issues, or Problems (1-6, max. 15)** Individual or group projects to help teachers adapt instruction to selected topics, issues, or problems and to identify the approaches and instructional resources that provide the soundest learning experiences.

**EDC&I 496 Workshop in Instructional Improvement (2-6, max. 6)** Individual or group study projects on the improvement of instruction with attention to designing instructional plans.

**EDC&I 499 Undergraduate Research (2-5, max. 5)** Students developing studies under this rubric should be advised that a report or a paper setting forth the results of their investigations should be regarded as a basic part of the program.

**EDC&I 500 Field Study (1-10, max. 10)** Individual study of an educational problem in the field under the direction of a faculty member. Prerequisite: approved plan of study and permission of the instructor must be filed in the Office of Curriculum and Instruction in the College of Education.

**EDC&I 505 Seminar in Curriculum and Instruction (1-5, max. 15)** Seminar on advanced topics in curriculum and instruction. Critical examination of current research and practice. Content varies, check quarterly Time Schedule for topics to be covered. Prerequisite: permission of instructor.

**EDC&I 510 History of Educational Technology (3)** Examines the role of technology in education through history. Early systems of instruction, advent of textbooks, models for school architecture, instructional devices and teaching machines, mediated and distance learning. Focuses on the interplay between designed educational approaches and contexts in which they were implemented, and consequent success for failure.

**EDC&I 511 Current Issues in Technology and Education (3)** Examines current genres of learning technology, novel approaches for integrating technology into curriculum and instruction, and recent theoretical perspectives that inform future work in educational technology. Prerequisite: EDC&I 510 or instructor permission.

**EDC&I 512 Survey of Educational Technology Research (2, max. 4)** Critically examines active research projects in educational technology. Critiques of research practice. Corequisite: EDC&I 511 and EDC&I 580.

**EDC&I 524 Seminar in Teacher Education (3, max. 6)** Focus on recent research, issues, and proposals for future development in teacher education, certification, and continuing professional growth. Alternate year offering focuses on either preservice or inservice issues. Prerequisite: permission of instructor.

**EDC&I 530 Approaches to Literacy Instruction (4)** Designed to aid experienced teachers who possess background in the teaching of literacy, this course presents a variety of approaches and actual analysis of approaches. Prerequisite: teaching experience and a basic

course in the teaching of reading.

**EDC&I 531 Seminar: Critical Review of Literacy Materials (3)** Students formulate and apply criteria for assessing materials, with emphasis on linguistic, cultural, and psychological factors; instruction effectiveness, interest level; and educational objectives. Prerequisite: teaching experience and one basic course in the teaching of reading.

**EDC&I 532 Seminar in Literacy Research (3, max. 9)** Primary focus on those aspects of the literacy process that are of concern in a developmental literacy program. Emphasis on research design, evaluation of research, and research findings, dealing with factors influencing literacy ability, problems in skill development, recreational reading, and writing. Prerequisite: permission of instructor.

**EDC&I 533 Seminar: Conducting Research in Reading (3, max. 6)** Students design and conduct original research studies in the field of reading. Emphasis on research rationale, choice of productive research types, and reporting of research results and implications. Prerequisite: EDC&I 532.

**EDC&I 534 Seminar in the Reading of Literature (3)** Reading of literature and its effect on reading skills, language development, social values, and literary judgment of children and adolescents. Emphasis on analysis of research in these areas and on the development of action research designed to study response to literature. Prerequisite: one 400- or 500-level education curriculum and instruction course in reading or language arts or one graduate course in literature for children or young adults.

**EDC&I 535 Seminar: Conducting Research in Response to Literature (3, max. 6)** Students design, conduct, and interpret original research studies in the field of reading literature within the context of the school curriculum. Emphasis on the analysis of literary content and structure and the relationship of those qualities to the literary experience. Prerequisite: EDC&I 534.

**EDC&I 536 Inquiry and Methods in Writing Instruction (3)** *Troia* Covers methods of assessment and teaching written composition, spelling, and handwriting to children and youth with, and without, disabilities. Particular attention is given to how to establish a strong writing program in elementary classrooms and how to teach writing strategies. Offered: jointly with EDSPE 528; Sp.

**EDC&I 540 Teaching the Bilingual-Bicultural Student (3)** Educational needs of bilingual students: research findings, special programs, materials, and methodologies that bilingual-bicultural education can provide to meet those needs. Cultural combinations of bilingual populations in American culture; historical, social, and linguistic factors affecting their K-12 education.

**EDC&I 541 Seminar in Bilingual Education: Organization and Structure (4)** Study of the structure and organization of bilingual programs. Includes study of the developmental and organizational factors affecting bilingual education. Assists graduate students in reviewing the historical antecedents in bilingual education and in developing a personal philosophy about bilingual education.

**EDC&I 542 Approaches to Assessing Second Language Students in K-12 Schools (3)**

*Stritikus, Varghese* Examines the multiple ways of assessing linguistically diverse students in K-12 schools, including standardized and alternative assessments of these students. Prerequisite: a course in ESL methods.

**EDC&I 543 Seminar in Bilingual Education: Instructional Strategies (4)**

Study of instructional factors affecting bilingual education. Particular emphasis is given to research related to the variables involved in teaching in a bilingual environment. Assists graduate students in exploring instructional methodologies and formats as they apply to bilingual education and in becoming familiar with the current issues in bilingual education.

**EDC&I 544 Immigration and Education: Immigrant Student Perspectives (3)**

*Stritikus, Varghese* Examines the multitude of factors which shape the immigrant student experience in U.S. schools. Takes an interdisciplinary perspective drawing on research from sociology, anthropology, and education, to understand teaching and learning from the perspective of immigrant students.

**EDC&I 545 Multilingual Socialization and Development (3)**

*Stritikus, Varghese* Explores the research base examining second language acquisition, in and out of school contexts. Focuses on the home language practices of linguistically diverse students with the purpose of understanding how these processes influence school learning.

**EDC&I 547 Sociolinguistics (3)**

*Stritikus, Varghese* The study of language in its social context and the study of social life through language. Explores issues in the field of sociolinguistics and sharpens tools to explore educational issues related to linguistic and cultural diversity. Prerequisite: EDC&I 453 or equivalent.

**EDC&I 550 Educational Technology Research (3)**

Analysis, critique, and practical experience with research studies of all types (experimental, ethnographic, evaluation) concerning questions of interest to educational technologists. Prerequisite: EDC&I 480, a research methods course, or permission of instructor.

**EDC&I 551 Introduction to Instructional Design (3)**

An experimental course in analyzing, designing, developing and formatively evaluating instructional products using the Instructional Systems Design (ISD) Mode. Also, discussion of how to successfully implement an instructional product/program within an organization using change management principles. Business and industry training focus.

**EDC&I 552 Management of Educational Technology Programs (3)**

Factors contributing to effective management of programs incorporating educational technology and microcomputers. Manager's role as agent of instructional change and processes leading to successful adoption and long-term implementation of a new instructional system. Prerequisite: EDC&I 510.

**EDC&I 553 Seminar on Instructional Systems Development (3)**

Critical analysis of processes involved in the development of instructional systems. Prerequisite: EDC&I 481 or permission of instructor.

**EDC&I 555 Educational Futures (3)** Concept of alternative futures stressing manageability of the future. Attention is given to current and future events that can or might impact education. Basic future studies methods are considered with opportunities to apply such methods within educational arena. Prerequisite: prior graduate course work or experience in education.

**EDC&I 556 Elementary School Curriculum (4)**

Study of elementary school curriculum, its design, rationale, and delivery. Current trends and issues affecting elementary school curriculum analyzed.

**EDC&I 558 Secondary School Curriculum (3)**

Systematic analysis of current curriculum practices, with particular emphasis on the social and historical forces affecting secondary-school curriculum.

**EDC&I 559 Principles and Procedures of Curriculum Development (3)**

Intensive study of basic principles and procedures utilized in development of curricula. Participants have opportunities to apply such procedures in class activities. Attention given to curriculum foundations.

**EDC&I 560 Social Studies Education Programs and Practices (3)**

Stresses curriculum patterns, instructional procedures, resource materials, and a selection of content in social studies education. For experienced teachers and students in Teacher Education Program.

**EDC&I 561 Seminar in Language Arts (3)**

Study of language with special attention to research pertaining to the social context of language in the classroom. Course work includes group and individual analysis of language arts studies with attention to research design and measurement. Prerequisite: EDC&I 455.

**EDC&I 562 Seminar in Reading and Language Arts: Secondary Emphasis (3)**

Study of recent research in listening, oral language, reading, and written language, emphasizing psychological and interrelated aspects. Prerequisite: permission of instructor.

**EDC&I 563 Current Issues in Literacy Education (1-3, max. 6)**

Discussion of problems and issues of current interest and importance in language arts education.

**EDC&I 565 Seminar in Social Studies Education: Elementary Emphasis (3)**

Intensive study of the social studies curriculum, with particular emphasis on current literature and research. Prerequisite: EDC&I 465 or equivalent.

**EDC&I 566 Seminar in Social Studies Education: Secondary Emphasis (3)**

Intensive study of the social studies curriculum, with particular emphasis on current literature and research. Prerequisite: EDC&I 466 or equivalent.

**EDC&I 567 Current Issues in Social Studies Education (1-3, max. 6)**

Discussion of problems and issues of current interest and importance in social studies education.

**EDC&I 569 Educating Ethnic Minority Youths (4)**

Intensive analysis and review of the research and curricular programs related to the social, psychological, and political factors that influence the school experiences of ethnic minority youths. Special attention given to

instructional and curricular programs for African-American, American-Indian, Mexican-American, Puerto Rican-American, and Asian-American students. Prerequisite: graduate standing or permission of instructor.

**EDC&I 570 Seminar in Science Education: Elementary Emphasis (3)**

Investigation of curriculum and instruction in science at elementary-school levels, with particular emphasis on current literature and research. Prerequisite: EDC&I 470 or equivalent.

**EDC&I 571 Seminar in Science Education: Secondary Emphasis (3)**

Investigation of curriculum and instruction in science at secondary-school levels, with particular emphasis on current literature and research. Prerequisite: EDC&I 471 or equivalent.

**EDC&I 572 Current Issues in Science Education (1-5, max. 6)**

Discussion of topics and problems of current interest and importance in science education. Prerequisite: graduate standing.

**EDC&I 573 School Reform and Multicultural Education (3)**

Similarities and differences among the visions, goals, and strategies of proposals for school reform and multicultural education are analyzed; implications for practice in curriculum and instruction are deduced from these analyses. Prerequisite: one course in multicultural education or permission of instructor.

**EDC&I 574 Race, Gender, and Knowledge Construction: Curriculum Considerations (3)**

Using historical and contemporary perspectives, considers ways in which knowledge related to race and gender has been and is constructed and the implications of ways in which knowledge is constructed for curriculum reform and teaching. Prerequisite: one course in ethnic studies, multicultural education, or women studies or permission of instructor.

**EDC&I 575 Seminar in Mathematics Education: Elementary Emphasis (3)**

Investigation of curriculum and instruction in mathematics at the elementary-school level; review of research and preparation of proposals. Prerequisite: graduate standing.

**EDC&I 576 Seminar in Mathematics Education: Secondary Emphasis (3)**

Investigation of curriculum and instruction in mathematics at the secondary-school level; review of research and preparation of proposals. Prerequisite: graduate standing.

**EDC&I 577 Current Issues in Mathematics Education (1, max. 6)**

Discussion of problems and issues of current interest and importance in mathematics education. Prerequisite: graduate standing.

**EDC&I 578 Qualitative Methods of Educational Research (5-)**

Survey of various qualitative research methods from a variety of disciplinary perspectives (anthropology, sociology, applied linguistics, cognitive psychology, policy analysis, and evaluation) with intensive experience in collection, analysis, and reporting of data. Prerequisite: second-year doctoral standing and one course in statistics. Offered: jointly with EDPSY 586.

**EDC&I 579 Qualitative Methods of Educational Research (-5)**

Survey of various qualitative research methods from a variety of disciplinary perspectives (anthropology,

sociology, applied linguistics cognitive psychology, policy analysis, and evaluation) with intensive experience in collection, analysis, and reporting of data. Prerequisite: second-year doctoral standing and one course in statistics. Offered: jointly with EDPSY 587.

**EDC&I 580 Technology in Context (3)** Focuses on development of appropriate methods and concepts for research on technology in schools, workplaces, and other naturalistic settings. Fieldwork exercises and reading exemplary studies from multiple disciplinary perspectives. Prerequisite: EDC&I 510, EDC&I 511, EDC&I 512, or permission of instructor.

**EDC&I 581 Cognitive Systems Design (3)** Covers the design of applied technology-based learning systems, informed by current views of learning, technology, and cognition. Emphasizes synthesizing students' knowledge of technology, learning and research in collaborative settings. Prerequisite: EDC&I 510, EDC&I 511, EDC&I 512, EDC&I 580, or permission of instructor.

**EDC&I 582 Design Experimentation and Implementation in Context (3)** Introduces theoretical, methodological, and practical issues involved with studying the designed use of learning technologies in real world settings. Focuses on engaging in empirical study of the designed system through partnerships involving education researchers, educators, and technologists. Prerequisite: EDC&I 510, EDC&I 511, EDC&I 512, EDC&I 580, EDC&I 581, or permission of instructor.

**EDC&I 583 Message Design (3)** Research and theory on design of instructional messages in various modalities (visual, auditory), and in various formats (pictorial, verbal, graphic). Prerequisite: EDC&I 480 or permission of instructor.

**EDC&I 584 Instructional Graphics for Microcomputers (3)** Study of current research on instructional uses of computer graphics. Development, selection, and application of design principles for graphically-based instructional and training programs. Prerequisite: EDC&I 436, EDC&I 481.

**EDC&I 585 Technology and the Culture of Education (3)** Social impact of technology on education in the United States and elsewhere: social, political, and cultural factors affecting educational communication and technology; roles and relationships among instructors and learners; appropriate technology in developing countries; technology's long-term influence on thought and values. Prerequisite: EDC&I 480 or permission of instructor.

**EDC&I 586 Current Issues for Computers in the Classroom (1, max. 6)** Addresses many of the current topics in computer-related education. Issues and research related to computer uses in curriculum, instruction, and management of instruction.

**EDC&I 587 Design and Application of Interactive and Immersive Instructional Systems (3)** Theoretical and empirical questions involved in design of interactive instructional systems using such technologies as virtual reality and CAI. Specific problems inherent in design of complex learning environments: immersion, control, structure, sequence of experiences, navigation, learner guidance. Educational uses of systems. Prerequisite: EDC&I 481 or EDC&I 583, EDC&I 436, or permission of instructor.

**EDC&I 588 Seminar: Computers in Education (3)** Provides opportunity for graduate students to analyze, discuss, and design research in areas of computers in education. Includes historical development of research in this area as well as a platform for the development of research proposals and refinement of ongoing research. Prerequisite: EDC&I 434 or EDC&I 436.

**EDC&I 589 Current Issues in Educational Communications (1, max. 9)** Discussion of problems and issues of current interest and importance in the field of educational communications. Serves also as a forum for discussion of doctoral research. Designed for master's and doctoral candidates in educational communications. Credit/no credit only. Prerequisite: graduate standing.

**EDC&I 590 Seminar in Elementary Education (3)** Exploration of the philosophy, history, purposes, curriculum, methods, and school organization of elementary education. Prerequisite: elementary-school teaching experience, EDC&I 556.

**EDC&I 591 Seminar in Curriculum Research (3)** Analysis of past and current empirical, historical, ethnographic research, and philosophical analysis of the curriculum field. Studies considered include research in curriculum development, the curriculum plan, contextual characteristics, and factors related to curriculum participants. Group and individual analyses focus on theory generation and practical applications of research. Prerequisite: EDC&I 559 or permission of instructor.

**EDC&I 592 Seminar in Secondary Education (3)** Research and study of secondary education. Primary focus on factors involving change in secondary-school curriculum and organization. Prerequisite: EDC&I 558.

**EDC&I 593 Seminar in Curriculum: Theory and Practice (3)** Investigation of curriculum theory and practice. Consideration is given to theoretical writings that address the relationships between various curricular variables. Theoretical positions are related to curricular practices and innovations. Prerequisite: EDC&I 559.

**EDC&I 594 Seminar in Curriculum: Issues, Systems, Models (3)** Emphasis on the current approaches to curriculum and curriculum innovation. Attention is given to major educational issues as they affect curricular activity. Prerequisite: EDC&I 559.

**EDC&I 595 Seminar in Analysis of Teaching (3)** Investigation of the ways in which classroom teaching has been analyzed from a variety of disciplinary perspectives. Focus on methods, findings, and implications of research on teaching. Prerequisite: teaching experience.

**EDC&I 596 Seminar in Strategies of Instruction (3)** Various instructional models applicable to all levels of schooling. Theoretical and philosophical bases for these instructional models are considered.

**EDC&I 597 Curriculum Evaluation Seminar (3, max. 6)** Focuses on the evaluators' roles, evaluation theory and models, and selected curricular evaluations. Examples are drawn from the several disciplines commonly offered in the elementary and secondary schools. Students are expected to identify an evaluation problem and to develop an evaluation design that can be implemented as a practical solution to the

problem. Prerequisite: EDC&I 559 and permission of instructor.

**EDC&I 599 Independent Studies in Education (\*)** Independent studies or readings of specialized aspects of education. Prerequisite: permission of instructor.

**EDC&I 600 Independent Study or Research (\*)** Prerequisite: permission of instructor.

**EDC&I 601 Internship (1-10, max. 10)** Credit/no credit only. Prerequisite: graduate standing and permission based on approval of proposal submitted during quarter preceding the internship.

## Educational Leadership and Policy Studies

**EDLPS 444 Constitution and American Public Education (3-6, max. 6) I&S** Emphasis on the principles, processes, and content of constitutional law in an effort to provide new insights and new tools with which school administrators and teachers may examine questions involving political and civil rights in the United States, especially as these affect the conduct of education. Specific topics on constitutional freedom include the obligation to go to school; legal controls over curriculum, teachers, and students; and racial integration and equal financing of public schools. Open to law students and to nonlaw students enrolled as graduate students or as upper-division undergraduates. Credit/no credit only. Offered: jointly with LAW 444.

**EDLPS 458 History of American Education to 1865 (3) I&S** Development of American education in cultural context; colonial period, influence of Enlightenment, and common school movement. Offered: jointly with HSTAA 458.

**EDLPS 459 History of American Education Since 1865 (3) I&S** Development of American education in cultural context: progressive education, recent criticism, continuing issues and trends. Offered: jointly with HSTAA 459.

**EDLPS 479 Crucial Issues in Education (3)** Selected educational issues, policies, and contexts. Evolution of the American education enterprise, legal issues, professionalism, finance, and other vital educational concerns.

**EDLPS 496 Workshop: Education Programs and Problems (1-6, max. 12)** Study of such topics as planning, development, supervision, organization, operation, or evaluation of current or emerging programs or problems in education.

**EDLPS 499 Undergraduate Research (\*)** Students developing studies under this rubric should be advised that a report or a paper setting forth the results of their investigations should be regarded as a basic part of the program.

**EDLPS 501 Introduction: Leadership Beyond the Classroom (3-6, max. 6)** First course in principal certification program; explores Washington state laws, legal principles, context of public schools, multicultural issues, changing population. Essential skills of leadership: communication, human relations, strategies for shared decision making, and dealing with conflict. (Open only to students admitted to the EDLPS Principal/Program Administrator Preparation Program.)

**EDLPS 502 Leadership Core ([3-6, max. 6]-)**

Topics include moral dimensions of leadership; modes of inquiry; organizational theory and change; history of educational reform; curriculum deliberation and instructional leadership and supervision; school-centered inquiry and decision-making; policy, planning, and program evaluation; issues on diversity and multicultural education; American and Washington State school law; school finance and resource allocation; school-community relations. Instruction occurs in units and seminar throughout the academic year. Prerequisite: admission to Principal/Program Administrator Preparation Program.

**EDLPS 503 Leadership Core (-[3-6, max. 6]-)**

Topics include moral dimensions of leadership; modes of inquiry; organizational theory and change; history of educational reform; curriculum deliberation and instructional leadership and supervision; school-centered inquiry and decision-making; policy, planning, and program evaluation; issues on diversity and multicultural education; American and Washington State school law; school finance and resource allocation; school-community relations. Instruction occurs in units and seminar throughout the academic year. Prerequisite: admission to Principal/Program Administrator Preparation Program.

**EDLPS 504 Leadership Core (-[3-6, max. 6])**

Topics include moral dimensions of leadership; modes of inquiry; organizational theory and change; history of educational reform; curriculum deliberation and instructional leadership and supervision; school-centered inquiry and decision-making; policy, planning, and program evaluation; issues on diversity and multicultural education; American and Washington State school law; school finance and resource allocation; school-community relations. Instruction occurs in units and seminar throughout the academic year. Prerequisite: admission to Principal/Program Administrator Preparation Program.

**EDLPS 505 Transition to Leadership (3-6, max. 6)**

Development and administration of systems for selection, evaluation and clinical supervision of certificated and classified personnel. Focuses on leadership models and transition to a leadership role, including opening a school or program and dealing with student/school crises. (Only for students admitted to the EDLPS Principal/Program Administrator Program.)

**EDLPS 507 Reflective Seminar (1-6, max. 6)**

Integration of theory and internship experience; group process laboratory and peer feedback and review of written work, oral presentations, and journals. Reading and discussion of crucial issues. (Only for students admitted to the EDLPS Principal/Program Administrator Preparation Program.) Credit/no credit only.

**EDLPS 509 Planning, Organizing, and Decision Making (3)**

Application of principles utilized in planning, organizing, and decision making in districts and schools. Formation of policy and procedures; formal and informal organization; power, authority, and responsibility; utilization of people, time, and space.

**EDLPS 510 School Finance (3)**

Financial practices and problems in districts and schools considered, including state and federal support plans, school plant planning, school business management, resource allocation, and budgeting and educational accountability.

**EDLPS 511 School-Community Relations (3)**

Examines the dynamics of the interface between the public schools and the community. Special attention is given to the findings of research in relation to school-community power, types, and organizational influences.

**EDLPS 512 Seminar in Personnel Administration and Development (3)**

Major emphasis on the analysis of factors to be considered in the selection and evaluation of teachers and administrators and considerations in staff development.

**EDLPS 513 Seminar in Instructional Development and Supervision (3)**

Theory of the process of supervising instructionally effective school personnel, including an analysis of the techniques of supervision, theory of leadership and group process, interpersonal relations, and evaluation of teacher effectiveness.

**EDLPS 514 Washington School Law (3)**

Overview of Washington State specific legal provisions affecting the operations and management of public schools, including school organization and operations, school finance, separation of church and state, school employment, student conduct, discipline and rights, equity, intergovernmental agreements, and student health and safety. .

**EDLPS 515 Management of Labor Relations in Education (3)**

Examination of procedures and techniques pertinent to the management of organizational conflict. Among the areas covered are collective bargaining, grievance procedures, mediation, fact finding, and arbitration.

**EDLPS 516 Special Education and the Law (3)**

Overview of major state and federal laws affecting the operation and management of special education programs in public schools. Emphasis upon procedural and substantive rights of children with disabling conditions. Offered: jointly with EDSPE 504; W.

**EDLPS 517 Seminar in Administration: Facilities (3)**

Contemporary issues, problems, and techniques of educational facility administration. Emphasis placed on such factors as planning, financing, development, design, construction, operation, liabilities, property management, state regulation. Credit/no credit only.

**EDLPS 518 Reflective seminar: The Superintendency (1-6, max. 6)**

Integration of theory and internship experience. Readings and discussion of crucial issues, presentations by local school superintendents: district budgeting processes, personnel, staff relations and collective bargaining, superintendent-board relations, bond issues, facilities planning, superintendent as instructional leader. Credit/no credit only.

**EDLPS 519 Special Topics in Educational Leadership (1-10, max. 15)**

Readings, lectures and discussions pertaining to significant topics of special and current interest to educators. Focus is on issues of particular concern to K-12 administrators and other educators in leadership roles in districts and schools. Topics vary; check Time Schedule for topic(s) to be covered.

**EDLPS 520 Education as a Moral Endeavor (3)**

An exploration of fundamental questions that have faced educational leaders in the past and most likely will continue to face them in the future. Foundational studies in history,

philosophy, and sociology provide the basis for discussion and writing about these fundamental questions. Credit/no credit only.

**EDLPS 521 Philosophy of Education (3)**

Philosophy of education considered as a study of the conceptual basis for educational policy and practice. Emphasis on relationships between enduring educational problems and fundamental philosophic issues; concepts that feature centrally in educational discourse; and conceptual analysis as a means for clarifying decisions regarding educational policy and practice.

**EDLPS 522 Contemporary Philosophies of Education (3)**

Intensive study of the writings of selected contemporary philosophers of education.

**EDLPS 523 Analysis of Educational Concepts (3)**

Selected concepts central to conduct and understanding of education.

**EDLPS 524 Seminar in Philosophy of Education (3, max. 6)**

Philosophical examination of ways in which education might be studied. Uses and limits of conventional scientific approaches in education inquiry. Consideration of alternatives.

**EDLPS 525 Educational Inquiry (3)**

General survey of epistemological issues underlying the several schools of thought or families of inquiry. Overview of various methods used in conduct of educational inquiry, examples of ways those methods are typically used, and exploration of strengths and weaknesses of those methods. Discussion throughout is in terms of assumptions regarding the nature of knowledge and purposes of inquiry. Must be taken in sequence. Credit/no credit only. Prerequisite: doctoral status in education.

**EDLPS 526 Educational Inquiry (3)**

General survey of epistemological issues underlying the several schools of thought or families of inquiry. Overview of various methods used in conduct of educational inquiry, examples of ways those methods are typically used, and exploration of strengths and weaknesses of those methods. Discussion throughout is in terms of assumptions regarding the nature of knowledge and purposes of inquiry. Must be taken in sequence. Credit/no credit only. Prerequisite: doctoral status in education.

**EDLPS 530 History of Education (3)**

Historical survey of education. Emphasis on relationship between idea and practice. Topics include education and colonialism, formation of state school systems, progressive education, equal educational opportunity, changes in textbooks and curricula, education and social structure, and education in the history of cultures.

**EDLPS 531 History of American Higher Education (3)**

Examination of the historical development of the American higher education enterprise, including pre-colonial origins. Includes attention to the colonial colleges, the rise of new institutions in the nineteenth century, and the further development of American colleges and universities in the twentieth century. Leaders in these developments are identified.

**EDLPS 532 Seminar: American Education in the Twentieth Century (3, max. 6)**

Selected problems in American education over the last century, with special emphasis on contemporary issues and trends.

**EDLPS 533 Seminar in Educational Classics**

**(3)** Analysis in depth and in the context of the relevant history of several major works in educational thought from Plato to Dewey.

**EDLPS 534 History of the Modern University**

**(3)** Growth of the modern university with attention to intellectual trends as well as organizational and curricular changes. Special attention is given to nine American universities in the twentieth century.

**EDLPS 535 Historical Inquiry in Education Research (3, max. 6)**

Methods and critique of historical research in education. Examination of landmark works in education history and historiography. Hands-on experience framing historical questions, finding historical sources, using historical evidence, substantiating historical claims, and addressing issues in the history of education.

**EDLPS 536 Historical Analysis of Educational Issues (3)**

Analysis and interpretation of the history of education in its broadest sense: the transfer of culture across generations. Examination of the problems of evidence and interpretation with which the authors of exemplary works in the history of education struggled.

**EDLPS 540 Sociology of Education (3)**

Examination of education and educational institutions by using the major conceptual tools of sociology. Emphasis on sociological thought and findings that have particular bearing on the understandings and judgments of educators.

**EDLPS 541 Topics in Comparative Education (3, max. 6)**

International efforts in education, including the role of the United States in overseas programs. Analysis of the relation of education and society in foreign areas, stressing social change and conflict. Regions of the world considered in the course vary from one offering to another.

**EDLPS 542 Seminar in Educational Sociology (3)**

Application of sociological principles to school problems; individual problems and investigations. For teachers, administrators, and those using educational sociology as a field for advanced degrees.

**EDLPS 543 Seminar: Research in Educational Sociology (3)**

Theory, concept, and method of sociological inquiry as applied to problems in education.

**EDLPS 544 Comparative Education: Introduction to Concepts and Methods (3)**

Introduction to research methods used in comparative education studies. Considers ways to study familiar and unfamiliar contexts, identifies the common pitfalls of international comparisons. Reviews ethnomethodological tools of interview construction, cross-cultural observation strategies, documentary analysis. Education policy and practice is primary focus; useful for comparing other public policy issues internationally.

**EDLPS 545 Knowledge and Data in Relation to Action (3)**

Introduces L4L students to systematic inquiry—to fundamental ideas about knowing and knowledge, data and evidence, and to the applications of these ideas in settings that invite leadership action to address educational issues. (Only for students admitted to the Leadership for Learning Ed. D. Program.) Credit/no credit only.

**EDLPS 546 Leadership Inquiry I: The design of research on Local Problems of Practice (3)**

Examines evaluation design, action research, critical inquiry, and mixed method research. Equips L4L students to recognize and create viable, rigorous designs for action-oriented research into local problems of practice. (Only for students admitted to the Leadership for Learning Ed. D. Program.)

**EDLPS 547 Leadership Inquiry II: Developing Useful Quantitative and Qualitative Evidence (3)**

Helps students, in the context of action-oriented research, develop data collection tools, produce high-quality quantitative and qualitative data, and construct evidence for claims the investigator wishes to make. (Only for students admitted to the Leadership for Learning Ed. D. Program.)

**EDLPS 548 Leadership Inquiry III: Refining the Design and Analysis of Research that Informs Practice (3)**

Teaches how to critically evaluate and improve research designs so that they are internally consistent, fully developed, and well-anchored to both substantive and methodological literatures. Builds largely around the students' own emerging dissertation designs. (Only for students admitted to the Leadership for Learning Ed. D. Program.)

**EDLPS 549 Special Topics in Educational Studies (1-6, max. 15)**

Readings, lectures, and discussions pertaining to significant and enduring ideas in the philosophy, history and sociology of education. Specific topics are critically examined in light of contemporary problems in education. Topics vary; check Time Schedule for topic(s) to be covered.

**EDLPS 550 The Dynamics of Educational Organizations (3)**

Exploration of the literature in organizational theory and leadership, the assumptions that underlie the development of various approaches to organizational theory and how these approaches are applied, and an acquaintance with different conceptual frames that can be used to determine how to improve and change organizations. Credit/no credit only.

**EDLPS 551 Foundational Studies in Complex Organizations (3)**

Examination of conceptual and theoretical bases for complex organizations, characterized by problematic goals, knotty decision-making processes, and fluid participation. Impact of information, power, beliefs, resources, organizational structure, and environment. Although issues discussed are generic, examples focus on educational organizations.

**EDLPS 552 Organizational Change in Education (3)**

Change and innovation in educational organizations. Theoretical approaches include sociopsychological, rational planning, political perspectives, and those associated with notion of organized anarchies. Specific topics related to change and innovation (e.g., roles of beliefs, symbols and norms, diffusion of innovations, and research issues).

**EDLPS 553 Human Resources in Educational Organizations (3)**

Analysis of factors involved in human resource problems related to operation of educational organizations. Motivation, perception, communication, role analysis, and dynamics of groups are studied through use of cases and seminal literature.

**EDLPS 554 Foundations I: Leading for Learning in Complex Educational Systems**

**(3)** Explores (1) the conceptions of educational leadership as it manifest itself and is exercised in large-scale education systems (districts, regional entities, states); and (2) the possible connections between leadership and learning. (Only for students admitted to the Leadership for Learning Ed. D. Program.) Credit/no credit only.

**EDLPS 555 Foundations II: Moral and Historical Contexts for the Leadership of Complex Educational Systems (2-4, max. 4)**

Locates system-level educational leadership in a context of values, moral principles, and historical events and trends. Connects leadership to principles of social justice and enduring dilemmas in public education within a democratic society. (Only for students admitted to the Leadership for Learning Ed. D. Program.) Credit/no credit only.

**EDLPS 556 Foundations III: The Dynamics of Organizations, Policy, and Systems Change (2-6, max. 6)**

Considers the nature and dynamics of organizations within large educational systems. Draws on theories concerning organizations, politics, administration, systems, and innovation. Explores how organizations are designed and function, how policy works, and how systems change, adapt, and learn. (Only for students admitted to the Leadership for Learning Ed. D. Program.)

**EDLPS 557 Foundations IV: Fiscal and Legal Contexts for Leadership of Complex Educational Systems (2-5, max. 5)**

Considers two major challenges facing leaders of complex educational systems: (1) securing and allocating resources (especially funds, but also time and expertise); and (2) conforming to the framework of legal principles and precedents that govern public education. (Only for students admitted to the Leadership for Learning Ed. D. Program.)

**EDLPS 560 Perspectives on Policy and Policy Making in Education (3)**

This course introduces a variety of theoretical perspectives that can be used to analyze policy content, processes and outcomes. Includes a consideration of the power and limits of policy and a discussion of the many ways people in different positions in organizations can influence policy. Credit/no credit only.

**EDLPS 561 Education Policies and Leadership in Political Context (3)**

Systematic consideration of the structure and function of educational policies and problems of research in political context.

**EDLPS 562 American School Law (3)**

Examination of persistent legal issues, including an analysis of how these issues are manifest in public policy debates.

**EDLPS 563 Education, The Workforce, and Public Policy (3, max. 6)**

Examination of policy issues involving education, training, the economy, and the development of the nation's human resources. Relationship between education, training, and work, underutilized workers, race and gender discrimination issues, and the role of education and training in economic development. Offered: jointly with PB AF 571.

**EDLPS 564 Seminar in Economics of Education (3)**

Current problems in school finance, including costs, ability to support schools, and financial implications of educational principles. The economics of public education.

Problems of federal, state, and local school support. Financing capital outlay, research, and public relations.

**EDLPS 565 Power and Politics in Organizational Leadership and Decisionmaking (3)** Focuses on conceptual frameworks that can be used to analyze power-influence processes in complex organizations and research methods that are well-suited to the study of these processes. Opportunities to design studies of power relations and political processes are provided.

**EDLPS 566 Education Policy Serving Disenfranchised Groups (3)** This seminar examines programs and policies aimed at ameliorating conditions that face disenfranchised groups in contemporary K-12 schooling. Seminar members critically analyze the assumptions, design, and likely impact of these programs and policies on institutions and individuals. Designed for advanced doctoral students. Others admitted with permission of instructor.

**EDLPS 567 Education Policy and the Improvement of Teaching and Learning (3)** Examines connections between policies and classroom practice, in P-12 and higher education settings. Of particular concern is the capacity of policy to improve the quality of curriculum and instruction. Students design and critique policies, drawing on research and feedback from policymakers.

**EDLPS 568 Policy Evaluation in Education (3)** Examination of methods for evaluating educational policies across the educational continuum. Students design and conduct a policy evaluation which draws on the policy evaluation literature. Examination of the uses of policy evaluation information in shaping organization-decision making is also included.

**EDLPS 569 Issues in P-12 School Reform (3, max. 12)** *Copland, Knapp* Offers rigorous ways to explore the meaning and action implications of contemporary reform movements in the P-12 public school system. Examines a different topic each quarter concerning reform at school, district, state, or federal levels through readings, discussion, projects, and analytical writing assignments. Offered: AWWSpS.

**EDLPS 570 Critical Views on Educational Leadership (3)** Leadership theory is undergoing a wave of development influenced, in part, by critical theory and postmodern perspectives. Topics include the emerging literature on critical leadership perspectives with a particular goal of understanding how this informs leadership practice for those in educational organizations.

**EDLPS 571 Instructional Renewal and the Achievement Gap (3)** Examines the meaning of the performance gap between relatively advantaged and disadvantaged students in contemporary American schools and school districts, and the possibilities for reducing and closing it. Especially within classroom instruction. (Only for students admitted to the Leadership for Learning Ed. D. Program.)

**EDLPS 572 Teaching, Learning, and Instructional Renewal in the Context of Learner Differences (2-5, max. 5)** Examines the nature of learning and learner differences, and how educators can work productively with these differences, in relation to particular subjects (literacy, mathematics), diversity (language, culture, disability), assessment, and

instructional technology. (Only for students admitted to the Leadership for Learning Ed. D. Program.) Credit/no credit only.

**EDLPS 573 Professional Learning and Instructional Renewal (2-4, max. 4)** Investigates professional learning and how to support it, based on cognitive research, sociocultural theory, and scholarship on teacher education (preservice and inservice). Offers system-level leaders ways to address the quality of teaching and learning in classrooms. (Only for students admitted to the Leadership for Learning Ed. D. Program.)

**EDLPS 575 Education Policy Implementation (3)** *Honig* Analyzes influences on implementation outcomes. Focuses on how skilled use of theoretical frameworks can help reveal relationships between policy and practice and evidence-based decisions that may improve implementation. Offered: Sp.

**EDLPS 579 Special Topics in Organizational and Policy Analysis (1-6, max. 15)** Readings, lectures and discussions pertaining to significant topics of special and current interest to educators. Focus is on issues related to the analysis of educational organizations, policies, and policy making. Topics vary; check Time Schedule for topic(s) to be covered.

**EDLPS 580 The American College and University (3)** Introduction to contemporary United States higher education, with special emphasis on emerging trends, roles of the several kinds of institutions, the composition and character of student bodies and faculty, and the state coordination of colleges and universities.

**EDLPS 581 Principles and Practices of Adult and Continuing Education (3)** History and development of adult and continuing education in the United States: component parts of the field; issues, theory, and research; program planning for adults; professionalization of the field.

**EDLPS 582 Seminar in the History and the Organization of Higher Education (3)** Advanced seminar in the history and the organization of higher education.

**EDLPS 583 Higher Education and the Law (3)** Legal implications of university operations and an explanation of the legal and constitutional rights of students, faculty, and staff within the university. Special attention given to faculty employment and termination decisions; student protections, including due process; and university liabilities.

**EDLPS 584 Academic Governance and Collective Bargaining in Higher Education (3)** Explores the concept and operation of collective bargaining in higher education: its origin; the reasons for its growing popularity as a governance mechanism; the legal framework within which it operates; the rights, powers, and duties subsumed under its operation; and its relationship to the traditional form of faculty governance mechanisms.

**EDLPS 585 Resource Allocation in Higher Education (3)** After attention to the basic tools of economic analysis, focus is on application of those tools to specific topics in higher education (e.g., access, budgeting, finance and policies, and funding alternatives).

**EDLPS 587 Seminar in Teaching and Learning in Higher Education (3, max. 9)** Theory and practice of instruction and learning in higher education.

**EDLPS 588 Seminar in Administration of Community Colleges (3)** For students preparing for administrative positions in community colleges. Principles and practices in organization and administration of community colleges.

**EDLPS 589 The Community College (3)** Intensive study of the community college—its history and present and future status. Curriculum, instruction, financial, and governance issues are also discussed.

**EDLPS 590 Student Populations and Experiences in Higher Education (3)** Examines foundational literature dealing with students in higher education. Primary focus is on how students change during college, how they make choices and decisions, what roles institutional climate and structure play in the students' experiences, and what impact college has on students.

**EDLPS 591 Higher Education and Public Policy (3)** Covers public policy processes affecting higher education. Issues examined vary, but typically include fiscal context of higher education policy, access, equity, distance learning, and accountability policies.

**Higher Education Equity, Reform, and Policy (3)** Develops the critical and analytical lens that students apply to public policy issues as they directly relate to higher education in the United States. Offered: Sp.

**Assessment and Evaluation in Higher Education (3)** Covers the key components of evaluation design and implementation, particularly what researchers and practitioners define as good assessment and evaluation approaches. Develops competencies in planning assessment and evaluation strategies using these approaches.

**Secondary Data Analysis (3)** Introduces the conceptual and practical issues involved in conducting educational research using existing sources of data, commonly known as secondary data analysis. Covers several fundamental concepts in order to become an informed and competent researcher who uses secondary data. Prerequisite: basic understanding of educational statistics. Offered: Sp.

**EDLPS 597 Advanced Secondary Data Analysis (3)** Applied methods. Introduces the conceptual and practical issues involved in conducting educational research using existing sources of data, commonly known as secondary data analysis. Covers several fundamental concepts in order to become an informed and competent researcher who uses secondary data. Prerequisite: EDLPS 596. Offered: Sp.

**EDLPS 598 Special Topics in Higher Education (1-6, max. 15)** Readings, lectures, and discussions pertaining to significant topics of special and current interest to educators. Focus is on issues related to education in community colleges, four-year colleges and universities. Topics vary; check for topic(s) to be covered.

**EDLPS 599 Independent Studies in Education (1-10, max. 10)** Registration must be

accompanied by a study prospectus endorsed by the appropriate faculty adviser for the work proposed, and which with permission of the instructor, must be filed with the Office of Leadership and Policy Studies in the College of Education. Prerequisite: permission of instructor.

**EDLPS 600 Independent Study or Research (\*)** Registration must be accompanied by a study prospectus endorsed by the appropriate faculty adviser for the work proposed, and which with permission of the instructor, must be filed with the Office of Leadership and Policy Studies in the College of Education. Credit/no credit only. Prerequisite: permission of instructor.

**EDLPS 601 Internship (1-4, max. 12)** Name of faculty member responsible for supervising the student should be indicated on program of studies. Credit/no credit only. Prerequisite: permission of Supervisory Committee chairperson or graduate program adviser.

## Educational Psychology

**EDPSY 228 Learning and Motivation in Contexts (5) I&S** How people learn and remember, what motivates them to learn, and how learning and motivation are shaped by social contexts in homes, school, and communities. Cognitive and socio-cultural theories of learning and motivation (including distributed cognition, goal theories, self-determination theory, and interest theories), especially as related to college learners.

**EDPSY 304 Educational Psychology (5)** Human learning in the educational setting. Cognition, development, learning, motivation, affective processes, and socialization. Emphasis on skills in influencing classroom learning and discipline. Open to students in the Music Education program or by permission of instructor. Offered: A.

**EDPSY 431 Strategies for Classroom Research and Evaluation (5)** Techniques and strategies for the design and implementation of studies of classroom instruction. Directed toward classroom teachers as consumers of instructional research and as evaluators in their own classrooms. Credit/no credit only.

**EDPSY 447 Principles of Guidance (3)** Study of guidance programs in elementary and secondary schools. Attention is given to the roles of specialists with emphasis on the role of the classroom teacher in school guidance programs. This course is designed for teachers, administrators, and prospective teachers.

**EDPSY 449 Laboratory in Educational Psychology (2-6, max. 6)** Special studies for counselors, teachers, administrators, and others concerned with student personnel and psychological services in schools and colleges. The course focuses on special topics that have either local or contemporary significance.

**EDPSY 471 Educational Neuropsychology (5)** *Berninger* Covers brain imaging technologies; micro- and macro-structure and function; brain development; and functional brain systems for reading, writing, and math and their developmental and instructional links. Recommended: prior course on learning.

**EDPSY 490 Basic Educational Statistics (3)** Measures of central tendency and variability, point and interval estimation, linear correlation, hypothesis testing. Offered: AWSpS.

**EDPSY 495 Introduction to Educational Measurement (3)** Practical understanding of test reliability, validity, and derived scores as they apply to external educational assessments; concepts of criterion and norm-referenced testing; review of group administered norm-referenced and criterion-referenced tests and/or testing programs; test interpretation; issues and ethics in large scale assessment. Prerequisite: EDPSY 490. Offered: W.

**EDPSY 499 Undergraduate Research (\*)** Students developing studies under this rubric should be advised that a report or a paper setting forth the results of their investigations should be regarded as a basic part of the program. Offered: AWSpS.

**EDPSY 500 Field Study (\*)** Individual study of an educational problem in the field under the direction of a faculty member. Prerequisite: approved plan of study and permission of the instructor must be filed in the Office of Educational Psychology in the College of Education. Offered: AWSpS.

**EDPSY 501 Human Learning and Educational Practice (3)** Systematic examination of current research about human learning in educational settings, including the study of behavioral, information processing, social construction, and the developmental perspectives on learning. Prerequisite: graduate standing. Offered: AWSpS.

**EDPSY 502 Developmental Foundations of Early Learning (3)** Perceptual-motor, language, and overall cognitive development in children from birth through primary-school age. Emphasis on Piagetian and Vygotskian approaches to development with a special focus on the connections between learning and development. Field-based course projects may be required. Prerequisite: EDPSY 501 or permission. Offered: Sp.

**EDPSY 503 Theories of Intelligence (3)** Reading and discussion of theoretical and research papers from the extensive literature on Piagetian, psychometric, and information processing conceptions of intelligence. A historical approach to the topic is followed by analysis of current writings on intelligence and its measurement. Credit/no credit only. Prerequisite: EDPSY 501 and graduate status in education or psychology. Offered: alternate years; W.

**EDPSY 506 Instructional Theory (3)** Sources, current state, and utility of prescriptive instructional theories with emphasis upon theories having a potential for guiding the design of instruction. Prerequisite: EDPSY 501 or equivalent.

**EDPSY 507 Reading, Writing, and Arithmetic: Educational Assessment and Consultation (5)** Students administer and interpret tests of reading, writing, arithmetic, and related developmental skills; integrate test, observational, interview, and portfolio information in staffings and written reports; and consult with teachers regarding educational interventions. Prerequisite: graduate standing in the school psychology specialization and permission of instructor. Offered: A.

**EDPSY 508 Clinical Supervision-Practicum (2-6, max. 12)** Practicum in supervising counseling, group counseling, diagnostic activities, and remedial academic therapy.

Prerequisite: advanced graduate standing in School Psychology. Offered: AWSp.

**EDPSY 509 Educational Issues in Human Development (5)** Human development theories and models. Educational implications of theory, methodology, and application. Current research complements the historical antecedents of current practice. Age range covered varies as function of current issues in professional literature. Prerequisite: 15 credits in educational psychology or psychology. Offered: alternate years; W.

**EDPSY 510 Cognition in the Context of the School Curriculum (3)** Contemporary issues and trends in human learning, with a focus on reasoning within subject-matter areas such as mathematics, history, and science. Prerequisite: EDPSY 501 or equivalent. Offered: alternate years.

**EDPSY 511 Seminar in Applied Educational Psychology (1, max. 6)** Designed for graduate students in educational psychology. Applications of theoretical constructs to particular problems encountered in school counseling, practice.

**EDPSY 512 Classroom Assessment Strategies (3)** Development and evaluation of traditional, observational, essay, performance-based, portfolio assessments and grading models as they are used in classroom assessment; some review of current research on classroom-based assessment; classroom assessment ethics.

**EDPSY 513 Instrument Development (3)** Instrument development techniques including construct development, test and item specifications, item writing, planning for reliability and validity studies; ethics in test administration and interpretation. Intended for doctoral or masters students to develop instruments for their own research. Prerequisite: EDPSY 490 or equivalent.

**EDPSY 518 Assessment and Diagnosis of Reading Disabilities (3)** Techniques for individual assessment of students with reading difficulties (K-12) including formal assessment using standard assessment tools and informal diagnostic teaching. Appropriate for classroom teachers, reading specialists, and school psychologists. Includes conducting and analyzing case studies. Prerequisite: EDC&I 460, EDC&I 462, other reading courses, or permission of instructor. Offered: alternate years; Sp.

**EDPSY 519 Jegantheesan Vulnerable Children and Families in Comparative Perspective: Psychosocial Development Processes (3)** Research and theory examining the effects of disability, poverty, trauma and immigration and its impact on child development across cultures, effective interventions in educational and non-educational settings, and the consequences of critical issues in the context of psycho-social and development processes in different cultural and international contexts. Offered: Sp.

**EDPSY 520 Psychology of Reading (3)** Reviews current empirical research on cognitive processes in reading, including word and sub-word processes, syntax and comprehension, reading and perception, word recognition, concept development and meaning in reading, psychology of reading interests and skills. Prerequisite: EDPSY 501 or equivalent. Offered: alternative years.

**EDPSY 521 Psychology of Writing (3)**

Examines writing as a cognitive process and reviews current empirical research on writing, emphasizing primarily studies from a psychological perspective. Explores both developmental differences and individual differences in writing skills, together with instructional implications. Prerequisite: EDPSY 501 or equivalent. Offered: alternative years.

**EDPSY 522 Reading Disability Clinic (3-5)**

Supervised practicum in diagnosis and remediation of reading disabilities. Prerequisite: EDEP 532, EDEP 533 or equivalent; EDC&I 460 or permission of instructor.

**EDPSY 523 Foundations of Ethnographic Research (3)**

*Jegatheesan* Exploration of the main components of ethnographic endeavor. Students conduct ethnographic research including field entry, observing, listening, data analysis, and writing; typical issues and quandaries encountered in carrying fieldwork in a variety of settings, ethical issues, comprehension, intrusion, and access, experience and empathy, and power dynamics, and predicament. Offered: A.

**EDPSY 524 Problem Solving and Critical Thinking in Education (3)**

Study of the classic and contemporary research literature concerned with human problem solving and critical thinking with emphasis upon applications to educational practice and further research. Prerequisite: EDPSY 501 or equivalent.

**EDPSY 525 Creativity and Education (3)**

Study of the classic and contemporary research literature about creativity with emphasis upon applications to educational practice, evaluation of strategies to promote creativity in the schools, and further research. Prerequisite: EDPSY 501 or equivalent.

**EDPSY 526 Seminar on Metacognition (3)**

Students read and discuss theoretical and research papers from the extensive literature on metacognition. Focuses on defining the concept of metacognition, establishing its range of applicability to educational matters, and becoming familiar with excellent examples of metacognitive research. Prerequisite: graduate status in education or psychology and permission of instructor.

**EDPSY 527 Transfer of Teaching (3)**

Students read and discuss a representative sample of theoretical and research papers from extensive literature on teaching to promote transfer of what students learn to non-teaching environments. Historical approach to the topic is followed by analysis of current writings on transfer. Credit/no credit only. Prerequisite: EDPSY 501 and graduate status in education or psychology.

**EDPSY 528 Achievement Motivation in Education (3)**

Critical review of current research and major theories of achievement motivation in schools and other educational settings. Emphasis on the relationship of theories to the contexts and practice of education. Prerequisite: EDPSY 501 or permission of instructor. Offered: W.

**EDPSY 530 Vygotsky's Socio-Cultural Approach to Mind (5)**

*Herrenkohl* Critical reading and discussion of the work of L.S. Vygotsky as well as contemporary psychologists and educators who have investigated cognition in social context. Discusses the implications of these approaches for the design

of learning environments. Prerequisite: EDPSY 501. Offered: A.

**EDPSY 531 Socialization of School-Age Children (3)**

Study of personal social development and behavior from preschool ages through adolescence. Developmental theory and research are reviewed on the socialization influences of parents and peers and on such topics as aggression, emotional regulation, and social cognition. Prerequisite: EDPSY 501 or equivalent. Offered: W.

**EDPSY 532 Adolescence and Youth (3)**

Developmental processes and patterns examined with major theoretical and current research themes from behavioral sciences as applied to middle school and senior high students. Educational issues, social problems associated with adolescence in Western culture. Prerequisite: EDPSY 501 or equivalent.

**EDPSY 533 Current Research in Adolescence (3)**

Contemporary trends and patterns of adolescent research are examined with emphasis upon theoretical foundations, contrasting methodologies, and implications for further research. Exemplary studies and integrative reviews of research on adolescence are featured. Prerequisite: EDPSY 532 and EDPSY 591 or equivalents.

**EDPSY 534 School Problems of Adolescence (3)**

Study of the classic, contemporary, and emerging school problems of school age youth with emphasis upon problem solving strategies for educators and associated youth service personnel. Includes problems of academic achievement, interpersonal relations, and social deviancy in the schools. Prerequisite: EDPSY 532 or equivalent.

**EDPSY 535 Education and the Highly Capable Learner (3)**

Examination of major issues and problems in study and nurturance of highly capable children and youth in the educational setting. Emphasis placed on contributions of theory and research to educational problem solving for multiple aspects of advanced human capacity. Prerequisite: EDPSY 501 or equivalent.

**EDPSY 536 Immigrant and Indigenous Children: Social Context of Learning (3)**

Focuses on the broad context of family, school and society of immigrant and indigenous young children in the United States. Introduces the complex interplay of socio-cultural and psychological factors that impact these children's learning. Offered: W.

**EDPSY 540 School Psychological Assessment (5)**

Study of assessment of human intelligence with supervised training in the administration, scoring, and interpretation of individual intelligence tests with emphasis on Stanford-Binet and Wechsler scales. Prerequisite: graduate standing in the school psychology specialization and permission of instructor. Offered: A.

**EDPSY 541 Group Tests in Counseling (5)**

Emphasis on the utilization of objective measures in counseling. Prerequisite: EDPSY 490 or equivalent. Offered: Sp.

**EDPSY 542 Career Development (3)**

Emphasis on vocational development theory and research. Psychological, social, and economic determinants of vocational development and choice are examined as a basis for vocational counseling.

Prerequisite: graduate standing or permission of instructor.

**EDPSY 543 Facilitating Career Development (3)**

Theory and practice in exploring, self-identified strengths, interests, resources, and other considerations when developing career plans. Emphasizes career development in the schools. Offered: Sp.

**EDPSY 544 Counseling (5)**

Emphasis on the theory and practice of counseling. Prerequisite: standing in School Psychology or permission of instructor.

**EDPSY 545 Prepracticum (3)**

Competency-based skills training for beginning counseling and school psychology students. Attending, listening, focusing, and intervening behaviors for use with adults and children. Introduction to theories of helping. Prerequisite: graduate standing in school psychology or permission of instructor. Offered: A.

**EDPSY 546 Counseling Practicum (3-5)**

Supervised practice in counseling. Prerequisite: EDPSY 545 or permission of instructor. Offered: WSp.

**EDPSY 548 Educational Implications of Personality Theory (5)**

Study of personality development and personality theories with continuous attention to the meaning of these in educational practice, testing, and counseling. Prerequisite: 15 credits of psychology or educational psychology. Offered: A.

**EDPSY 549 Seminar in Consultation Methods (3)**

Theory and practice of process consultation in educational settings. Field practice in teams with clients. Prerequisite: graduate standing in School Psychology or permission of instructor. Offered: W.

**EDPSY 550 Family Counseling (3)**

Introduction to family counseling theory and practice, emphasizing family dynamics and communication analysis. Prerequisite: graduate standing in school psychology or permission of instructor. Offered: W.

**EDPSY 551 Group and Behavioral Intervention (3)**

Introduction to competency-based skills for beginning school psychology students. Includes basic processes of group management skills with children including group process in social skills training, problem-solving techniques, behavioral principles, and parent training. Prerequisite: EDPSY 545 or course in counseling techniques or permission of instructor. Offered: Sp.

**EDPSY 552 Multicultural Issues in School Counseling and School Psychology (3)**

Examination of multicultural issues as they relate to the delivery of services provided by school counselors and school psychologists. Theoretical and applied aspects emphasized and case study format utilized. Prerequisite: graduate standing in School Psychology or permission of instructor. Offered: Sp.

**EDPSY 555 Seminar in Counseling Specialty (1-2, max. 6)**

Oriented toward the role of a counselor as a professional worker. Credit/no credit only. Offered: ASP.

**EDPSY 560 Advanced Practicum in Personality Assessment (3)**

*Jones* Designed for doctoral level school psychologists to learn advanced personality assessment for diagnosis of

emotional and behavior disorders. Prerequisite: EDPSY 540; EDPSY 564. Open to Doctoral students only.

**EDPSY 561 Group Process Laboratory (3)**

Explores the theoretical concepts of group process with a special emphasis in how to conduct group process in school and agency settings. Offered: A.

**EDPSY 562 Group Counseling in Schools (3)**

Provides students with the opportunity to co-facilitate groups in elementary, middle, and secondary schools, supplemented by weekly didactic presentations of counseling and guidance models. Prerequisite: EDPSY 561 or permission of instructor. Offered: W.

**EDPSY 564 Practicum in School Psychology (1-6, max. 6)**

Practicum in assessment and consultation, emphasizing diagnosis of behavior and learning disabilities, and focusing on techniques acquired in 507 and 540. Prerequisite: EDPSY 540; EDPSY 545. Offered: W.

**EDPSY 565 Advanced Practicum in Assessment and Cognitive Therapy with High Risk Students with E/BD (3)**

*Mazza, Stage* Designed for doctoral level school psychologists to learn advanced assessment and cognitive therapy techniques in working with students with EBD under the supervision of a licensed psychologist during a two-quarter sequence. Prerequisite: EDPSY 544, EDPSY 546 or equivalent and advanced graduate standing in the school psychology program.

**EDPSY 566 Case Study Seminar (1-6, max. 6)**

Integrating theoretical concepts with practice/service issues. Cases selected for discussion represent a wide range of problems found in schools. Activities include group supervision and peer review. Prerequisite: graduate standing in School Psychology or graduate of School Psychology program and ESA School Psychology certification. Offered: AWSpS.

**EDPSY 568 Seminar in Professional Issues and Ethics (2)**
