Addresses the major international agreements, organizations, and infrastructures shaping cybersecurity. Covers basic technical terminology and legal frameworks related to cybersecurity.

[View course details in MyPlan: JSIS B 355](#)

JSIS B 357 The Geopolitics of Energy (5) I&S

Provides an Introduction to energy studies focusing on geopolitics. Topics explored include global energy resources, trends, and technologies; energy supply, demand, and consumption; economic issues; the changing role of OPEC; concepts of energy sustainability; energy and climate change.

[View course details in MyPlan: JSIS B 357](#)

JSIS B 360 The United States in the World (5) I&S

Examines the history of the United States' relations with the world over the twentieth century. Combines and overview of broad trends in the projection and contestation of United States power abroad with specific case studies grounded in particular geographic regions of the globe. Offered: Sp.

[View course details in MyPlan: JSIS B 360](#)

JSIS B 361 The Geopolitics of Language (5) I&S

Explores the reality and status of English as a global language, implications for international relations, relationship to globalization, and effects in areas of national identity, modernization, science and technology, and the future of human communication.

[View course details in MyPlan: JSIS B 361](#)

JSIS B 365 World Cities (5) I&S *Kasaba, Sparke*

Factors that have propelled New York, London, and Tokyo into key positions in the organization of the late twentieth century international system. Asks historical and comparative questions and discusses the reasons behind the diminished position of cities such as Venice, Vienna, and Istanbul in that system.

[View course details in MyPlan: JSIS B 365](#)

JSIS B 366 Comparative Law and Legal Cultures (5) I&S *G. BARZILAI*

Explores global issues of comparative law, societies, politics, courts, and cultures. Introduces theories and methods of comparing legal settings internationally and understating diverse responses to law. Covers what is comparative law; families of law; history of comparative law; judicial review; legal cultures; rights consciousness; and regulation. Can not be taken for credit if student has already taken LSJ/POL S 367. Offered: jointly with LSJ 366.

[View course details in MyPlan: JSIS B 366](#)

JSIS B 370 Privacy (5) I&S *S. Pekkanen*

Explores how individuals, corporations, and governments respond to privacy challenges in the digital age. Examines evolution of the idea of privacy using case studies of actual privacy policies, legal cases, and real-world situations. Covers legal, political, and social facets of this fundamental human issue. Offered: jointly with LSJ 370/POL S 370; Sp.

[View course details in MyPlan: JSIS B 370](#)

JSIS B 375 Geopolitics (5) I&S, DIV *Sparke*

An introduction to both political geography and geopolitics, addressing the fundamental links between power and space. Topics covered include: theories of power, space, and modernity; the formation of modern states; international geopolitics in the aftermath of the Cold War; the post-colonial nation-state; and the geopolitics of resistance. Offered: jointly with GEOG 375.

[View course details in MyPlan: JSIS B 375](#)

JSIS B 380 Immigration and Cultural Memory in the Pacific Northwest: The Role of Film and Cinema (5) I&S *T. LAGOS*

Explores immigration and culture through the development of the film industry in relation to the immigrant flows into Seattle at the turn of the 20th century. The rise of cinema helped immigrants to assimilate into mainstream society. In turn, immigrants turned films into a major American industry.

[View course details in MyPlan: JSIS B 380](#)

JSIS B 385 Industry and the State (5) I&S

Builds on states and markets approach of 200 and 201 through specific examination of effects of industry and industrial structure on political outcomes and roles of state. Emphasis on late-developing and newly developing economies. Prerequisite: JSIS 200; JSIS 201. Instructors: Hamilton, Whiting

[View course details in MyPlan: JSIS B 385](#)

JSIS B 386 Law and Politics of International Trade (5) I&S *S. Pekkanen*

Survey of global trade politics in the context of the World trade Organization (WTO), with attention to positive

and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

[View course details in MyPlan: JSIS B 386](#)

JSIS B 388 Political Economy of Industrialized Nations (5) I&S

Theoretical bases of various political economic systems of industrialized nations. Several major issues these political economies currently face; usefulness and limits of economic analyses within broader perspective of political economy. Prerequisite: either ECON 201, GEOG 123 or JSIS 123 any of which may be taken concurrently.

[View course details in MyPlan: JSIS B 388](#)

JSIS B 391 Climate Change - An International Perspective: Science, Art, and Activism (5) I&S/VLPA R. PAVIA

Explores climate change science in the context of geographic, social, and political constraints, considering the role of art, activism, and Arctic indigenous peoples in communicating impacts and mitigation. Students gain knowledge in key atmospheric and ocean science principles along with the role of science in society Offered: jointly with ARCTIC 391; Sp.

[View course details in MyPlan: JSIS B 391](#)

JSIS B 393 LGBTI Rights in International Affairs (5) I&S, DIV E. CARLSON-RAINER

Introduction to LGBTI and human rights issues impact in contemporary international relations.; NGOs and civil society advocacy that leads to foreign policy reform; Difference strategies uses by LGBTI activists in Europe, Scandinavia, and the U.S.; Debates in the UN on global rights; LGBTI rights diplomacy; conditioning international aid according to LGBT rights; Human rights issues in the context of broader global sociopolitical relations.

[View course details in MyPlan: JSIS B 393](#)

JSIS B 406 Political Islam and Islamic Fundamentalism (5) I&S Robinson

Study of resurgence, since mid-1970s, of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with POL S 432.

[View course details in MyPlan: JSIS B 406](#)

JSIS B 407 Political Islam and Contemporary Islamist Movements (5) I&S

Examines Islamist movements (which seek to reform Muslim society through the capture and the modern state and the establishment of Islamic law) to understand how they impact regional politic and global political Islam. Prerequisite: either HIST 161, NEAR E 211, NEAR E 212, JSIS C 211, JSIS C 212, JSIS B 406/POL S 432, JSIS A 215, or JSIS A 402, any of which may be taken concurrently. Instructors: Robinson Offered: Sp.

[View course details in MyPlan: JSIS B 407](#)

JSIS B 416 Putting the World on the Couch: Psychoanalysis and International Studies (5) I&S Porter

Explores the relation of trauma to memory and cultural production, focusing on historical, literary, and filmic treatments of hysteria and repression, shell shock, and the effects of war, terrorism, and psychic trauma. Uses psychoanalytical theory to analyze the commentary on international issues that lies in texts, films, and other cultural phenomena.

[View course details in MyPlan: JSIS B 416](#)

JSIS B 417 Enter the Dragon: Seminar on World Cultures Through the Asian Martial Arts (5) I&S

Novetzke

Examines how the martial arts have preserved religious, cultural, and philosophical aspects of the world areas of their origin, as well as the new cultures and international communities that have adopted and reinvented their practices and philosophies, including India, China, Japan, Korea, Brazil, and Euro-America. Offered: jointly

with CHID 417.

[View course details in MyPlan: JSIS B 417](#)

JSIS B 419 Comparative Media Systems (5) I&S

Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with COM 420/POL S 468.

[View course details in MyPlan: JSIS B 419](#)

JSIS B 420 Failed States (5) I&S *Radnitz*

Critically examines the causes and consequences of state failure. Analyzes theories about the rise of the modern state and the precondition for "successful" states to form and endure, then examines theories and case studies of modern failed state.

[View course details in MyPlan: JSIS B 420](#)

JSIS B 422 International Trade and Security (5) I&S

Examines international trade's potential threat to national security. Covers basic elements and limitations of export controls used to protect national security and international stability. Focuses on export controls to prevent proliferation of weapons of mass destruction, and to limit other governments' ability to develop capabilities that jeopardize regional or international stability.

[View course details in MyPlan: JSIS B 422](#)

JSIS B 423 Practicing American Foreign Policy (5) I&S

Develops familiarity with tools available to promote international objectives of the United States. International case studies selected to illustrate the diverse considerations inherent in the policy process and evaluate the strengths and weaknesses of the national institutions involved. Prerequisite: JSIS 201.

[View course details in MyPlan: JSIS B 423](#)

JSIS B 424 The Politics of International Nuclear Security: Weapons, Energy and Environment (5) I&S *C. JONES*

Nation state choices and military alliance choices in Eurasia on nuclear weapons arsenals, nuclear energy, arms control treaties plus survey of global and regional Eurasian non-proliferation regimes. Eurasian military-political conflicts; Cold War nuclear arms race; Nuclear Non-Proliferation Treaty; Nuclear Weapons Free Zones. Comparisons of fissile and fossil fuels, climate change, economic development, energy security, and terrorist threats.

[View course details in MyPlan: JSIS B 424](#)

JSIS B 425 Crafting and Influencing United States Foreign Policy (5) I&S *J. BUTTE-DAHL*

Explores the inner-workings of the United States government and the complexity inherent in United States foreign policy decision-making. Includes an overview of foreign affairs agencies and the interagency process, executive-legislative relations, foreign assistance and the budget process, and the impact of external stakeholders on the policy-making system. Offered: Sp.

[View course details in MyPlan: JSIS B 425](#)

JSIS B 426 World Politics (5) I&S

The nation-state system and its alternatives, world distributions of preferences and power, structure of international authority, historical world societies and their politics. Offered: jointly with POL S 426.

[View course details in MyPlan: JSIS B 426](#)

JSIS B 427 Weapons of Mass Destruction: Development, Deployment, and Detection (5) I&S *Fuller*

Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current arms control agreements and non-proliferation programs.

[View course details in MyPlan: JSIS B 427](#)

JSIS B 428 The Media and Peace (5) I&S

Investigates the complex relationships among the media, journalistic practice, and our understanding and pursuit of peace. Offered: jointly with COM 428.

[View course details in MyPlan: JSIS B 428](#)

JSIS B 429 Nuclear Nonproliferation and International Safeguards (5) I&S

Examines the technologies of nuclear energy, the institutions that have been deployed to address the security threats related to peaceful uses of nuclear energy, and the issues and challenges confronting those institutions today.

[View course details in MyPlan: JSIS B 429](#)

JSIS B 430 Late Industrialization and Social Change (5) I&S

Deals with distinct patterns of social change under late industrialization, such as Japan, South Korea, Germany and the Soviet Union. Analyzes the social and institutional implications of economic policies by looking at the interactions between the state, traditions, and economic actors.

[View course details in MyPlan: JSIS B 430](#)

JSIS B 431 International Negotiation Simulation (5) I&S

Research and writing in small groups to prepare policy documents on a current international issue, followed by simulated negotiations with students representing different nations, following instructions from and reporting to national leaders.

[View course details in MyPlan: JSIS B 431](#)

JSIS B 433 Environmental Degradation in the Tropics (5) I&S/NW *Christie*

Considers theories and controversies of environmental degradation in the tropics, ecological and social case studies of Central American rain forests and Southeast Asian coral reefs, and implications of environmental management techniques. Offered: jointly with ENVIR 433/SMEA 433.

[View course details in MyPlan: JSIS B 433](#)

JSIS B 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S

Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Offered: jointly with POL S 436.

[View course details in MyPlan: JSIS B 436](#)

JSIS B 437 Global Diasporas (5) I&S *Friedman*

Studies the concept, process, and lived practice of diaspora in comparative global perspective. Surveys the theoretical literature. Examines the ramifications of transnational movements for notions of diasporic identities and citizenship; implications of diaspora for economic development and political movements; and the utility of the concept of diaspora as an analytical tool

[View course details in MyPlan: JSIS B 437](#)

JSIS B 440 The Communist Experience Around the World (5) I&S *Young*

Communism from its origins in Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Offered: jointly with HSTCMP 440.

[View course details in MyPlan: JSIS B 440](#)

JSIS B 441 Forced Migrations (5) I&S, DIV *Friedman*

Provides an interdisciplinary understanding of the causes, characteristics, and consequences of forced migration experiences across the global system. Explores how international policy makers, humanitarian workers, and scholars have constructed forced migration as a problem for analysis and action, including some of the ethical dilemmas involved.

[View course details in MyPlan: JSIS B 441](#)

JSIS B 446 History, Memory, and Justice (5) I&S *Giebel*

Focuses on the complex interactions between history and historical representation, remembrance and commemoration, memory and identity, and notions of justice and reconciliation. Addresses these issues on methodological, theoretical, and practical grounds, drawing on examples from various genres, periods, and world regions.

[View course details in MyPlan: JSIS B 446](#)

JSIS B 455 International Environmental Policy (5) I&S *J. BEGUN*

Examines the economics of international environmental policy from both a theoretical and empirical perspective. Focus is on environmental policy in China, the U.S. and Europe and on the challenges combining economic growth and development with environmental stewardship and responsible resource use.

[View course details in MyPlan: JSIS B 455](#)

JSIS B 457 Food, Ethnicity, and Identity in Hispanic Culture (5) I&S/VLPA *A. RAFTERY*

Explores food, ethnicity, and identity in the Hispanic World, including Sephardic, Muslim, Native American, Basque, and Catalan groups. Taught in English. Prerequisite: Either SPAN 303 or SPAN 316; SPAN 322.

Offered: jointly with SPAN 457; Sp.

[View course details in MyPlan: JSIS B 457](#)

JSIS B 467 Nations and States in the Modern World (5) I&S

Development of national consciousness in the "old nations" of Europe before the French Revolution.

Replacement by new nationalism, spreading into East Central Europe, Russia, Ibero-America, Asia, and Africa.

Offered: jointly with HSTCMP 467.

[View course details in MyPlan: JSIS B 467](#)

JSIS B 468 Theatre as a Site of History and Memory (5) VLPA/I&S *Sears*

Explores Asian theatre traditions as sites of memory, testimony, and archive using ethnographic and historiographical approaches. Includes service-learning components and collaborative performance projects.

Offered: jointly with HSTCMP 468.

[View course details in MyPlan: JSIS B 468](#)

JSIS B 469 Law and Rights in Authoritarian Regimes (5) I&S *S. WHITING*

Explores role of law and courts and nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with LSJ 469/POL S 469.

[View course details in MyPlan: JSIS B 469](#)

JSIS B 472 Electoral Systems (5) I&S *R. Pekkanen*

Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and policy. Covers effects and mechanics of the various voting systems. Offered: jointly with POL S 472.

[View course details in MyPlan: JSIS B 472](#)

JSIS B 476 Comparative International Political Economy (5) I&S

Comparative analysis of four major approaches to international political economy: mercantilism, Marxism, liberalism, and evolutionary approach. Focus on international cooperation, social change, and economic institutions. Theoretical analysis of the four paradigms and applications to historic and current issues in international political economy: hegemonic cycle, post-communist transition, and cross-national income inequality.

[View course details in MyPlan: JSIS B 476](#)

JSIS B 520 Failed States (5) *Radnitz*

Critically examines the causes and consequences of state failure. Analyzes theories about the rise of the modern state and the precondition for "successful" states to form and endure, then examines theories and case studies of

modern failed state.

[View course details in MyPlan: JSIS B 520](#)

JSIS B 522 International Trade and Security (5)

Examines international trade's potential threat to national security. Covers basic elements and limitations of export controls used to protect national security and international stability. Focuses on export controls to prevent proliferation of weapons of mass destruction, and to limit other governments' ability to develop capabilities that jeopardize regional or international stability.

[View course details in MyPlan: JSIS B 522](#)

JSIS B 523 Seminar on Religious and Political Violence (5) *Robinson*

Employs ethnographic studies and anthropological theory to examine the relationships between culture and power in the analysis of religious and political violence. Topics include modernity; secularisms and fundamentalisms; ritual, sacrifice, and martyrdom; law, rights, and subject-making. Offered: jointly with ANTH 523.

[View course details in MyPlan: JSIS B 523](#)

JSIS B 524 International Law and Arms Control (5)

Surveys the political, legal, and technological history of twentieth century arms control agreements with emphasis on the treaties which ended the Cold War. Examines current issues of law, politics, military strategy, and technology in regard to weapons of mass destruction and related topics in international security.

[View course details in MyPlan: JSIS B 524](#)

JSIS B 525 Special Topics in Race, Ethnicity, and Nationalism (5, max. 10)

Topics vary, but focus on the politics of race, ethnicity, and nationalism viewed from a broad, comparative, interdisciplinary perspective. Emphasizes cross-cultural, and the geographical coverage may be regional or global.

[View course details in MyPlan: JSIS B 525](#)

JSIS B 526 Political Islam and Islamic Fundamentalism (3/5) *Robinson*

Examines political Islam as a modern phenomenon produced at the intersections between localized and globalized political cultures and between political, religious, and social authority. Focuses on anthropological studies to examine how Islamic publics produce moral judgments about political practices. Offered: jointly with ANTH 526.

[View course details in MyPlan: JSIS B 526](#)

JSIS B 527 Weapons of Mass Destruction: Development, Deployment, and Detection (5) *Fuller*

Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current arms control agreements and non-proliferation programs.

[View course details in MyPlan: JSIS B 527](#)

JSIS B 529 Nuclear Nonproliferation and International Safeguards (5)

Examines the technologies of nuclear energy, the institutions that have been deployed to address the security threats related to peaceful uses of nuclear energy, and the issues and challenges confronting those institutions today.

[View course details in MyPlan: JSIS B 529](#)

JSIS B 531 International Negotiation Simulation (5)

Examines international trade's potential threat to national security. Covers basic elements and limitations of export controls used to protect national security and international stability. Focuses on export controls to prevent proliferation of weapons of mass destruction, and to limit other governments' ability to develop capabilities that jeopardize regional or international stability.

[View course details in MyPlan: JSIS B 531](#)

JSIS B 534 International Affairs (3)

Provides a broad understanding of international issues and United States policy. Students explore U.S. foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, development assistance, and the environment. Offered: jointly with POL S 534/PUBPOL 530.

[View course details in MyPlan: JSIS B 534](#)

JSIS B 536 Analysis, Information, and the Politics Shaping American Foreign Policy (5) *Chirot*

Explores competing interests and sources of information in the making of American foreign policy. Examines the origins of the national security state after World War II; decision making during the Cold War and Viet Nam War; the crisis of 9/11; and current strategies for analyzing information and handling foreign policy crises.

[View course details in MyPlan: JSIS B 536](#)

JSIS B 537 Global Diasporas (5) *Friedman*

Studies the concept, process, and lived practice of diaspora in comparative global perspective. Surveys the theoretical literature. Examines the ramifications of transnational movements for notions of diasporic identities and citizenship; implications of diaspora for economic development and political movements; and the utility of the concept of diaspora as an analytical tool

[View course details in MyPlan: JSIS B 537](#)

JSIS B 541 Forced Migrations (5) *Friedman*

Provides an interdisciplinary understanding of the causes, characteristics, and consequences of forced migration experiences across the global system. Explores how international policy makers, humanitarian workers, and scholars have constructed forced migrations as a problem for analysis and actions, including some of the ethical dilemmas involved.

[View course details in MyPlan: JSIS B 541](#)

JSIS B 542 Seminar: State and Society (5) *Migdal*

Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with POL S 542.

[View course details in MyPlan: JSIS B 542](#)

JSIS B 549 International Investment Law and Practice (4/5)

Examines the rise of international investment law and practice, including topics such as Bilateral Investment Treaties (BITs), standards of treatment, investor-state arbitrations, and social and political controversies related to the governance of foreign direct investment (FDI) in developed and developing countries. Offered: jointly with LAW E 549.

[View course details in MyPlan: JSIS B 549](#)

JSIS B 553 Environment and Health in the World Trade Organization (5) *S. Pekkanen*

Conflicts between global environmental and public health on the one hand and international trade expansion on the other in the World Trade Organization (WTO). Focuses on the state of GATT/WTO jurisprudence and its interaction with sovereign laws and regulations. Cases include asbestos, reformulated gasoline, beef hormones, shrimp-turtle, and genetically modified organisms.

[View course details in MyPlan: JSIS B 553](#)

JSIS B 556 International Human Rights Clinic ([1-12]-, max. 12)

Interdisciplinary clinical training in international human rights. Includes seminar component on legal issues, practice skills, and reflections on human rights projects. Fieldwork on human rights projects tests, develops, and enhances skills training through real-world human rights practice with cross-campus, U.S., and international partnerships. Credit/no-credit only.

[View course details in MyPlan: JSIS B 556](#)

JSIS B 557 The Geopolitics of Energy (5)

Introduction to energy studies focusing on geopolitics. Topics include global energy resources, trends, and technologies; energy supply, demand, and consumption; economic issues; the changing role of OPEC; concepts of energy sustainability; energy and climate change.

[View course details in MyPlan: JSIS B 557](#)

JSIS B 569 Law and Rights in Authoritative Regimes (5)

Explores role of law and courts and the nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with POL S 569.

[View course details in MyPlan: JSIS B 569](#)

JSIS B 572 Electoral Systems (5) *R. Pekkanen*

Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and policy. Covers effects and mechanics of the various voting systems. Offered: jointly with POL S 572.

[View course details in MyPlan: JSIS B 572](#)

JSIS B 575 Advanced Political Geography (5, max. 10) *Sparke*

Provides resources for theorizing how politics shapes and is shaped by geographical relationships. Examines how politics are situated in complex material and discursive geographies that are partly reproduced through political negotiations. Examines interrelationships of contemporary capitalism with other complex systems of social and political power relations. Offered: jointly with GEOG 575.

[View course details in MyPlan: JSIS B 575](#)

JSIS B 586 Law and Politics of International Trade (5) *S. Pekkanen*

Survey of global trade politics in the context of the World Trade Organization (WTO), with attention to positive and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

JACKSON SCHOOL INTERNATIONAL STUDIES

JSIS COMP RELIGION/JEWISH STUDIES

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

JSIS C 130 Justice, Service, and Activism in the Jewish Tradition (5) I&S, DIV *Pianko*

Focuses on thinking critically about justice and social activism by integrating classroom and community learning. Uses the rich textual tradition of Judaism and the experiences of American Jewish social activists as a prism for considering the possibilities and challenges of pursuing social justice around the globe.

[View course details in MyPlan: JSIS C 130](#)

JSIS C 198 Study Abroad: Jewish Studies (1-5, max. 15) I&S

For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

[View course details in MyPlan: JSIS C 198](#)

JSIS C 258 Introduction to Rabbinic Literature (5) I&S/VLPA

Investigates the origins of Judaism through the works of the rabbis. The Judaism that prevails today arose after the Romans' destruction of the temple in Palestine in 70 CE. Discusses the rabbinic movement, its writings, and its Greco-Roman as well as Babylonian-Persian context. Offered: W.

[View course details in MyPlan: JSIS C 258](#)

JSIS C 289 Special Topics in Jewish Studies (1-5, max. 15) I&S

Topics vary.

[View course details in MyPlan: JSIS C 289](#)

JSIS C 325 Contemporary Judaism in a Global Context (5) I&S *Pianko*

Explores the dynamic interactions between contemporary social, political, and intellectual forces and today's changing religious landscape. Critical analysis of the ways in which religious ideologies and communities transform themselves in relationship to geographical contexts and historical processes. Examines Jews and Judaism as a lens for considering changes to religious life.

[View course details in MyPlan: JSIS C 325](#)

JSIS C 330 The Sages: Foundations of Classical Judaism (5) I&S *M. AHUVIA*

Investigates the origins and foundation of classical Judaism by the Jewish sages (AKA the rabbis) in the context

of the Bible's completion, the Romans' destruction of Jerusalem, and the emergence of Christianity. Discusses the rise of the rabbis, their stories and laws, and their Greco-Roman as well as babylonian-persian context. Offered: W.

[View course details in MyPlan: JSIS C 330](#)

JSIS C 379 Doing Jewish Identity Studies (5) I&S Friedman

Involves the student in researching the diverse Jewish identities of young people today. Includes background reading on Jewish identities in the United States; interviewing young Jewish adults; transcribing and interpreting interviews; and crafting a qualitative research paper. Covers research skills, as well as sensitivity to Jewish community values and concerns.

[View course details in MyPlan: JSIS C 379](#)

JSIS C 398 Study Abroad - Jewish Studies (1-5, max. 15) I&S

For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

[View course details in MyPlan: JSIS C 398](#)

JSIS C 462 Anti-Semitism As a Cultural System (5) I&S, DIV

Comparative study of various anti-Semitic cultural systems from ancient to modern times. Topics include how anti-Semitism can be defined as a cultural phenomenon; the conditions that explain the circulation of anti-Semitic traditions in a given society; the conditions under which social conflict with Jews becomes anti-Semitism.

[View course details in MyPlan: JSIS C 462](#)

JSIS C 463 Enlightenment, Emancipation, Antisemitism: History of the Jews, 1770-1914 (5) I&S, DIV

The Jewish experience in the modern world from the European Enlightenment to the First World War. Focus on the debates surrounding Jewish emancipation, the reception of Jews within European society, modern antisemitism, nationalist movements, mass migration, and war.

[View course details in MyPlan: JSIS C 463](#)

JSIS C 489 Advanced Topics in Jewish Studies (1-5, max. 15) I&S

Content varies.

[View course details in MyPlan: JSIS C 489](#)

JSIS C 495 Seminar in Jewish Studies (5) I&S

History of Jewish Studies as an organized field of academic inquiry. Explores the implications for Jewish Studies of its present setting within the context of the humanities and the social sciences.

[View course details in MyPlan: JSIS C 495](#)

JSIS C 530 The Sages: Foundations of Classical Judaism (5) M. AHUVIA

Investigates the origins and foundation of classical Judaism by the Jewish sages (AKA the rabbis) in the context of the Bible's completion, the Romans' destruction of Jerusalem, and the emergence of Christianity. Discusses the rise of the rabbis, their stories and laws, and their Greco-Roman as well as babylonian-persian context.

Offered: W.

JACKSON SCHOOL INTERNATIONAL STUDIES

JACKSON SCHOOL OF INT'L STUDIES D

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

JSIS D 140 Russia from the Tenth Century to the Present (5) I&S

Russian political, social, and economic history from the tenth century to the present. Offered: jointly with HSTEU 140.

[View course details in MyPlan: JSIS D 140](#)

JSIS D 217 Renaissance, Enlightenment, Revolution: Major Works in English (5) VLPA/I&S

Introduction to major figures of French culture from the Middle Ages to the eighteenth century, their contributions to the intellectual life of the Western world. Readings include Montaigne, Descartes, Rousseau, Voltaire, and Moliere. In English. Offered: jointly with FRENCH 211.

[View course details in MyPlan: JSIS D 217](#)

JSIS D 317 Scandinavian Crime Fiction (5) VLPA *Nestingen*

Studies Scandinavian crime-fiction literature and cinema since 1965, approaching crime fiction as a changing cultural artifact. Analyzes major issues and texts in the genre and its public status, while also training students in critical approaches to study of popular literature and culture. Offered: jointly with SCAND 315; Sp.

[View course details in MyPlan: JSIS D 317](#)

JSIS D 323 Globalization and You (5) I&S *M. SPARKE*

Offers an evidence-based analysis of globalization that addresses how individuals are affected personally as well as economically amidst the market-led processes of global integration. Offered: jointly with GEOG 323; A.

[View course details in MyPlan: JSIS D 323](#)

JSIS D 354 Modern China: From Empire to Republics (5) *Dong*

Surveys the major historical events and discourses of twentieth century China and lays a foundation for understanding contemporary China. Themes include reforms; revolutions; colonialism and imperialism; state and society; and social and cultural changes. Offered: jointly with HSTAS 354.

[View course details in MyPlan: JSIS D 354](#)

JSIS D 429 International Population (5) I&S *Lavelly*

Demographic situation of the world and of major world regions. The demographic transition. Topics include

public health, policies of fertility and mortality control, international migration, relation of population ⁶⁹⁷growth to economic development, social change, and resource constraints. Exploration and manipulation of international demographic data.

[View course details in MyPlan: JSIS D 429](#)

JSIS D 432 Technology and Culture in the Making of Contemporary Empires (5) I&S *Benitez, Rodriguez-Silva*

Explores the struggles that shaped organization of the U.S. empire at the turn of the twentieth century, focusing on how empire's material, cultural, and ideological boundaries were drawn. Topics include race, gender, and class as colonial formations; technologies of imperial governance such as public health, citizenship and territory; and popular culture. Offered: jointly with C LIT 432.

[View course details in MyPlan: JSIS D 432](#)

JSIS D 435 Population and Modernization (3) I&S *Hirschman, Lavelly*

Examines role of demographic factors in the process of social modernization and economic growth. The approach is both historical, focusing on populations of developed countries since 1700, and analytic, stressing the attempts made by different disciplines to model demographic relationships, with attention to less-developed regions. Offered: jointly with SOC 432.

[View course details in MyPlan: JSIS D 435](#)

JSIS D 443 Class and Culture in East Asia (5) I&S, DIV

Examines the nexus between culture and systems of social stratification/class in East Asia, with an emphasis on Taiwan, Korea, Japan, and China. Topics include class formation, mechanisms of social mobility and reproduction, markers of status and hierarchy, resistance, and the formation of class identity. Offered: jointly with ANTH 446.

[View course details in MyPlan: JSIS D 443](#)

JSIS D 450 Political Economy of Women and Family in the Third World (5) I&S

Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with SOC 450.

[View course details in MyPlan: JSIS D 450](#)

JSIS D 451 Cultural Geography of Latin America (5) I&S

Interdisciplinary senior seminar examining how physical and social geographies are culturally constructed and interconnected with subjectivities and power in Latin America. Topics include identity formation grounded in particular territories and the social constitution of space via an interplay of material and cultural forces. Offered: jointly with GEOG 451.

[View course details in MyPlan: JSIS D 451](#)

JSIS D 453 Art, Religion, and Politics in Byzantium, 700-1453 AD (3) VLPA/I&S *Kartsonis*

Evolution of the art of Byzantium (700-1453 AD) in the context of contemporary religious, political, and cultural developments. Offered: jointly with ART H 453.

[View course details in MyPlan: JSIS D 453](#)

JSIS D 468 Deeply Divided Societies (5) I&S *Migdal*

Ethnic conflict seen from two perspectives: 1. the study of theoretical approaches as a means of understanding deeply divided societies; 2. a focus on one or more specific conflicts.

[View course details in MyPlan: JSIS D 468](#)

JSIS D 511 Chinese History: Research Methods and Bibliographic Guides (3, max. 6)

Introductory research seminar dealing with the methodological and bibliographical problems concerning all periods and aspects of Chinese history from the earliest times to the nineteenth century. Prerequisite: two years of classical or modern Chinese. Instructors: Guy

[View course details in MyPlan: JSIS D 511](#)

JSIS D 517 Foreign Trade and Investment Law of the People's Republic of China ([1-4]-, max. 4)⁶⁹⁸

[View course details in MyPlan: JSIS D 517](#)

JSIS D 530 Religion and Literature (5)

The relation of religious thought to the study of imaginative literature. Includes both critical theory and practical criticism of exemplary texts.

[View course details in MyPlan: JSIS D 530](#)

JSIS D 533 Seminar on Contemporary Chinese Politics (5)

Research on selected problems in contemporary Chinese politics. Prerequisite: POL S 532, or permission of instructor. Offered: jointly with POL S 533.

[View course details in MyPlan: JSIS D 533](#)

JSIS D 549 Government Regulation of Business in Japan (3)

Offered: jointly with LAW B 549.

[View course details in MyPlan: JSIS D 549](#)

JSIS D 553 Chinese Legal Tradition (3)

Offered: jointly with LAW B 553.

[View course details in MyPlan: JSIS D 553](#)

JSIS D 564 Seminar: Problems of Social and Political Development in Eastern Europe (3-6, max. 6)

Research seminar dealing with selected problems of continuity and change in eastern Europe. Prerequisite: some previous course work on eastern Europe.

[View course details in MyPlan: JSIS D 564](#)

JSIS D 572 Peoples and Cultures of Central and Inner Asia (5)

Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 522/NEAR E 558.

JACKSON SCHOOL INTERNATIONAL STUDIES

JEWISH STUDIES

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

JEW ST 130 Justice, Service, and Activism in the Jewish Tradition (5) I&S, DIV *Pianko*

Focuses on thinking critically about justice and social activism by integrating classroom and community learning. Uses the rich textual tradition of Judaism and the experiences of American Jewish social activists as a prism for considering the possibilities and challenges of pursuing social justice around the globe.

[View course details in MyPlan: JEW ST 130](#)

JEW ST 175 Popular Film and the Holocaust (5) VLPA, DIV

Introduces films about the Holocaust with particular emphasis on popular films. Develops the requisite tools for analyzing films, a historical perspective of the Holocaust, and the problems involved in trying to represent a historical event whose tragic dimensions exceed the limits of the imagination. Offered: jointly with GERMAN 195.

[View course details in MyPlan: JEW ST 175](#)

JEW ST 199 Study Abroad: Jewish Studies (1-5, max. 15) I&S

For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

[View course details in MyPlan: JEW ST 199](#)

JEW ST 210 Funny Jews: Jewish Humor and American Identity (5) VLPA

Jewish humor plays an important role in American popular culture. Investigates the modern history of Jewish humor through the writers, comedians, and actors who have shaped American comedy. Discusses the purpose of humor and the role that Jewish humor plays in shaping American and American Jewish identity.

[View course details in MyPlan: JEW ST 210](#)

JEW ST 250 Introduction to Jewish Cultural History (5) I&S

Introductory orientation to the settings in which Jews have marked out for themselves distinctive identities as a people, a culture, and as a religious community. Examines Jewish cultural history as a production of Jewish identity that is always produced in conversation with others in the non-Jewish world. Offered: jointly with HSTCMP 250.

[View course details in MyPlan: JEW ST 250](#)

JEW ST 258 Introduction to Rabbinic Literature (5) I&S/VLPA

Investigates the origins of Judaism through the works of the rabbis. The Judaism that prevails today arose after the Romans' destruction of the temple in Palestine in 70 CE. Discusses the rabbinic movement, its writings, and its Greco-Roman as well as Babylonian-Persian context. Offered: W.

[View course details in MyPlan: JEW ST 258](#)

JEW ST 269 The Holocaust: History and Memory (5) I&S, DIV

Explores the Holocaust as crucial event of the twentieth century. Examines the origins of the Holocaust, perpetrators and victims, and efforts to come to terms with this genocide in Europe, Israel, and the United States. Offered: jointly with HSTCMP 269.

[View course details in MyPlan: JEW ST 269](#)

JEW ST 289 Special Topics in Jewish Studies (1-5, max. 15) I&S

Topics vary.

[View course details in MyPlan: JEW ST 289](#)

JEW ST 295 The Contributions of German Jews to German Culture (5) VLPA/I&S, DIV

Contribution, assimilation, and alienation of German-speaking Jews - such as Karl Marx, Sigmund Freud, and Franz Kafka - emphasizing the multi-cultural nature of that which is understood as "German culture." Offered: jointly with GERMAN 295.

[View course details in MyPlan: JEW ST 295](#)

JEW ST 312 Jewish Literature: Biblical to Modern (5) VLPA/I&S, DIV

A study of Jewish literature from Biblical narrative and rabbinic commentary to modern prose and poetry with intervening texts primarily organized around major themes: martyrdom and suffering, destruction and exile, messianism, Hasidism and Enlightenment, Yiddishism and Zionism. Various critical approaches; geographic and historic contexts. Offered: jointly with ENGL 312.

[View course details in MyPlan: JEW ST 312](#)

JEW ST 317 From Israelites to Jews: the First Six Centuries BCE (3) VLPA/I&S

Traces the Israelites, from the Babylonian destruction of the Jerusalemite Temple (586 BCE) to events following the destruction of the second Temple (first century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible required. Offered: jointly with NEAR E 307.

[View course details in MyPlan: JEW ST 317](#)

JEW ST 325 Contemporary Judaism in a Global Context (5) I&S *Pianko*

Explores the dynamic interactions between contemporary social, political, and intellectual forces and today's changing religious landscape. Critical analysis of the ways in which religious ideologies and communities transform themselves in relationship to geographical contexts and historical processes. Examines Jews and Judaism as a lens for considering changes to religious life.

[View course details in MyPlan: JEW ST 325](#)

JEW ST 336 American Jewish History Since 1885 (5) I&S

Political, social, economic, religious history of American Jewish community from great eastern European migration to present. Integration of immigrant community into general American community; rise of nativism; development of American socialism; World War I and II; and reactions of American Jews to these events. Offered: jointly with HSTAA 336.

[View course details in MyPlan: JEW ST 336](#)

JEW ST 337 The Holocaust and American Life (5) I&S, DIV

In most accounts, "the Holocaust" is told as a European story, but it was also transatlantic. Incorporates film, literature, journalism, social scientific writing, diaries, court cases, and other primary sources to examine how events in Europe affected and were affected by developments in United States history. Offered: jointly with

HSTAA 337.

[View course details in MyPlan: JEW ST 337](#)

JEW ST 357 Jewish American Literature and Culture (5) VLPA, DIV *Butwin*

Examines the literary and cultural production of American Jews from the colonial period to the present time. Considers ways in which American Jews assimilate and resist assimilation while Jewish writers, filmmakers, playwrights, and graphic novelists imitate and alter American life and literature. Offered: jointly with ENGL 357; AWSp.

[View course details in MyPlan: JEW ST 357](#)

JEW ST 358 Jewish Thought (5) I&S *N. PIANKO*

Explores the historical context of major shifts in modern Jewish thought. Topics include the impact of the Enlightenment, Emancipation, the Holocaust, and the founding of the State of Israel on conceptions of Jewish theology, identity, and religious practice. Offered: jointly with HSTCMP 368; Sp.

[View course details in MyPlan: JEW ST 358](#)

JEW ST 360 Jews, Greeks, and Romans in the Ancient World (5) VLPA *Stroup*

Examines the interactions between populations of Jews, Greeks, and Romans in the ancient Mediterranean from the late Bronze Age through the early Talmudic period, informed by perspectives from literature (religious and secular), art, and archaeology. Offered: jointly with CLAS 360.

[View course details in MyPlan: JEW ST 360](#)

JEW ST 367 Medieval Jewish History (5) I&S

Social and intellectual history of the Jews in western Europe to the fifteenth century. Jews under Islam and Christianity; the church and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with HSTAM 367.

[View course details in MyPlan: JEW ST 367](#)

JEW ST 368 Modern European Jewish History (5) I&S, DIV

Surveys European Jewish history from the Spanish expulsion (1492) to World War I (1914). Considers diversity of European Jewries and the factors that cohered them. Examines how European Jewries ordered their lives, shaped gender and class norms, and interacted with the societies in which they lived. Offered: jointly with HSTEU 368.

[View course details in MyPlan: JEW ST 368](#)

JEW ST 369 The Jewish Twentieth Century in Film (5) I&S/VLPA, DIV *Stein*

Surveys twentieth-century Jewish history in its European, American, and Middle Eastern contexts by examining films produced in these settings. Considers central events that shaped modern Jewish culture: the changing geography of Europe and the Middle East, mass migrations, the Holocaust, shifting meanings of race, culture, and religion. Offered: jointly with HSTCMP 369.

[View course details in MyPlan: JEW ST 369](#)

JEW ST 377 The American Jewish Community (5) I&S, DIV

Examines how American Jews adapt to a changing world. Explores impact of diverse immigration, acculturation, social mobility, social justice movements, and changing relations between Jews and non-Jews. Encompasses concerns that all communities have adapting to change, when they are also agents of change. Offered: jointly with SOC 377.

[View course details in MyPlan: JEW ST 377](#)

JEW ST 378 Contemporary Jewish American Identities (5) I&S, DIV

Introduction to the debates about post-Holocaust Jewish identities in multicultural America. Explores whether a distinctive Jewish community is headed toward assimilation, experiencing revival, or merely transforming the multiple ways Jewish experience is lived. Topics include new Jewish immigrants, the new Orthodox, Black Jews, Jewish feminism, children of Holocaust survivors. Offered: jointly with SOC 378.

[View course details in MyPlan: JEW ST 378](#)

JEW ST 379 Doing Jewish Identity Studies (5) I&S *Friedman*

Involves the student in researching the diverse Jewish identities of young people today. Includes background reading on Jewish identities in the United States; interviewing young Jewish adults; transcribing and interpreting interviews; and crafting a qualitative research paper. Covers research skills, as well as sensitivity to Jewish community values and concerns.

[View course details in MyPlan: JEW ST 379](#)

JEW ST 399 Study Abroad - Jewish Studies (1-5, max. 15) I&S

For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

[View course details in MyPlan: JEW ST 399](#)

JEW ST 418 Jewish Philosophy (5) I&S *M. ROSENTHAL*

Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period - e.g., medieval or modern; or on a topic - e.g., reactions to the Enlightenment or to the Holocaust. Offered: jointly with PHIL 418.

[View course details in MyPlan: JEW ST 418](#)

JEW ST 438 Jewish Women in Contemporary America (5) I&S, DIV *Friedman*

Examines how Jewish women's identities are socially constructed and transformed in contemporary America, using social histories, memoirs, and ethnographies to analyze scholars' approaches to Jewish women's lives. Topics include the role of social class, religion, migration, the Holocaust, and race relations in Jewish women's lives. Offered: jointly with GWSS 438.

[View course details in MyPlan: JEW ST 438](#)

JEW ST 460 Sephardic Culture before 1492 (5) I&S/VLPA *A. RAFTERY*

Explores Sephardic art. Music, food, film, literature, citizenship and nationhood, identity, and the origins of ladino, among other topics. Taught in English. Prerequisite: SPAN 303 or SPAN 316; SPAN 322. Offered: jointly with SPAN 460; W.

[View course details in MyPlan: JEW ST 460](#)

JEW ST 462 Anti-Semitism As a Cultural System (5) I&S, DIV

Comparative study of various anti-Semitic cultural systems from ancient to modern times. Topics include how anti-Semitism can be defined as a cultural phenomenon; the conditions that explain the circulation of anti-Semitic traditions in a given society; the conditions under which social conflict with Jews becomes anti-Semitism.

[View course details in MyPlan: JEW ST 462](#)

JEW ST 463 Enlightenment, Emancipation, Antisemitism: History of the Jews, 1770-1914 (5) I&S, DIV

The Jewish experience in the modern world from the European Enlightenment to the First World War. Focus on the debates surrounding Jewish emancipation, the reception of Jews within European society, modern antisemitism, nationalist movements, mass migration, and war.

[View course details in MyPlan: JEW ST 463](#)

JEW ST 465 The Jews of Eastern Europe (5) I&S

Jewish society in Poland, Russia, the Hapsburg Lands, and Romania from the late Middle Ages to the Holocaust. Offered: jointly with HSTEU 465.

[View course details in MyPlan: JEW ST 465](#)

JEW ST 466 The Sephardic Diaspora: 1492-Present (5) I&S, DIV

Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with HSTCMP 469.

[View course details in MyPlan: JEW ST 466](#)

JEW ST 468 The Jews in Spanish History (5) I&S

Sephardic Jews in Spanish politics, economy, and culture, emphasizing the medieval Golden Age and the Inquisition. Offered: jointly with HSTEU 464.

[View course details in MyPlan: JEW ST 468](#)

JEW ST 490 Advanced Topics in Jewish Studies (1-5, max. 15) I&S

Content varies.

[View course details in MyPlan: JEW ST 490](#)

JEW ST 491 Seminar: Topics and Issues in Judaism (5) I&S

Topics vary.

[View course details in MyPlan: JEW ST 491](#)

JEW ST 495 Seminar in Jewish Studies (5) I&S

History of Jewish Studies as an organized field of academic inquiry. Explores the implications for Jewish Studies of its present setting within the context of the humanities and the social sciences.

[View course details in MyPlan: JEW ST 495](#)

JEW ST 558 Jewish Thought (5) *N. PIANKO*

Explores the historical context of major shifts in modern Jewish thought. Topics include the impact of the Enlightenment, Emancipation, the Holocaust, and the founding of the State of Israel on conceptions of Jewish theology, identity, and religious practice. Offered: jointly with HSTCMP 568; Sp.

Minor

The Labor Studies minor brings together a series of courses on labor in core social-science departments. It provides students an interdisciplinary program of study focusing on the importance of labor to the economic, social, political, and cultural evolution of modern societies.

Minor Requirements: 25 credits, to include the following:

1. HIST 249/POL S 249/SOC 266 (5 credits)
2. 20 additional credits from courses related to labor studies, with no more than 10 credits from one department. See department website for current list:
depts.washington.edu/pcls/resources-courses.html.
3. Minimum 2.0 grade required for each course applied toward the minor.

Law, Societies, and Justice

[Display as tabs](#)

Program Overview

Smith M253

The program in Law, Societies, and Justice provides an interdisciplinary liberal arts education focusing on the roles of law and law-like systems in structuring social life. Courses challenge students to understand the multiple forms of law – criminal, civil, administrative, and constitutional – and the multiple roles law plays in the conduct of social action. Courses stress the importance of examining law in comparative perspective, and of recognizing the increasing significance of rights discourse in shaping how law is understood and practiced. Faculty are trained in several social science disciplines, and hence students learn to analyze law from multiple perspectives.

lsjadv@uw.edu

Law, Societies, and Justice offers the following programs of study:

- The Bachelor of Arts degree with a major in law, societies, and justice.
- A minor in law, societies, and justice

Bachelor of Arts

Suggested First- and Second-Year College Courses: Courses that emphasize development of reading, writing, and especially analytical skills. Also, classes that provide background knowledge of modern world history, politics, institutions, and political theory.

Department Admission Requirements

1. Admission is competitive, based on the following: GPA, with emphasis on grades received in courses required for admission and for completion of major requirements (applicants accepted normally present cumulative UW GPAs above 2.50); personal statement representing the student's interest in and commitment to becoming a Law, Societies, and Justice major; other evidence of a commitment to the study of society, justice, and law. Admitted applicants often show evidence of success in social

science courses. (See department website or academic adviser for recommended social science courses.)

2. Minimum 2.50 cumulative UW GPA
3. Completion of one of the following courses: LSJ 320/POL S 368, LSJ 321/ANTH 323 or LSJ 322/JSIS A 324; either LSJ 200 or LSJ 363/POL S 363; LSJ 367/POL S 367 or LSJ 366/JSIS B 366; LSJ 375 or SOC 372
4. Completion of one English composition course. (Further evidence of writing skills in the social sciences is encouraged.)
5. Students may apply autumn, winter, or spring quarters. Applications for admission are due no later than the second Friday of the quarter. Students are notified of admission decisions by the sixth week of the quarter in which they apply.
6. Interested students are encouraged to apply for the LSJ major as soon as possible after meeting the prerequisites. Satisfactory progress to degree may be considered when making admission decisions.

Major Requirements

Minimum 53-55 credits as follows:

1. Completion of the four LSJ core courses: LSJ 320/POL S 368, LSJ 321/ANTH 323, or LSJ 322/JSIS A 324; LSJ 363/POL S 363 or LSJ 200; LSJ 367/POL S 367 or LSJ 366/JSIS B 366; LSJ 375 or SOC 372. (20 credits)
2. Three courses from one of the two designated subfields of study (comparative legal institutions; and rights) and two courses from the other subfield. See program website or advisers for list of approved courses. (23-25 credits)
3. One LSJ departmental seminar. Departmental seminar cannot count simultaneously towards the LSJ subfield requirements. (5 credits)
4. Completion of LSJ 401, which includes completion of 100 hours of volunteer experience or internship in a field related to LSJ. (5 credits)

Minor

Minor Requirements (Law, Societies, and Justice): 28-30 credits, to include:

1. Two courses from the following: LSJ 320/POL S 368, or LSJ 321/ANTH 323, or LSJ 322/JSIS A 324; LSJ 363/POL S 363 or LSJ 200; LSJ 367/POL S 367 or LSJ 366/JSIS B 366; LSJ 375 or SOC 372. (10 credits)
2. Two courses from each LSJ major subfield. (Major subfields are "comparative legal institutions" and "rights." Courses fulfilling subfield requirements are outlined on the departmental website and handouts. (18-20 credits).

Minor Requirements (Disability Studies): 30 credits

1. *Core courses:* DIS ST 230/LSJ 230/CHID 230; DIS ST 433/LSJ 433/CHID 433; DIS ST 434/LSJ 434/CHID 434 (15 credits)
2. *Capstone course requirement:* DIS ST 435 (5 credits).
3. *Disability studies electives:* See LSJ adviser or [disability studies program website](#) for list of allowable classes (10 credits)

-->

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The Law, Societies, and Justice curriculum emphasizes the development of a range of analytic and communicative skills. Courses challenge students to develop the capacities to: read and interpret texts, including theoretical, empirical, and legal documents; comprehend and contrast arguments; develop and defend arguments; contrast theoretical arguments with empirical realities; assess contemporary practices of justice delivery against contemporary conceptions of justice. Students are required to express these skills in both verbal and written forms, through active class discussions and well-constructed writing assignments. Development of these skills assists students in a range of possible future endeavors, including a wide array of careers in law and justice.
- *Instructional and Research Facilities:* Students have access to the Political Science/Law, Societies, and Justice/School of International Studies writing center for most classes. Research opportunities are available on an individual and group basis with many professors.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* LSJ requires each of its majors to complete an internship for credit. Internship aims: (1) to provide students with insights into the workings of law in practice; (2) to scrutinize and 'test' some of the theories and concepts found in the literature against 'real world' practice; (3) to advance career development and goals, and (4) to provide 100 hours of local community service. Student assignments vary, and include government agencies, non-profit social service organizations, private law firms, rights-focused organizations, and other sites that focus on issues connected to LSJ coursework. It is the student's responsibility to find an internship, although the LSJ adviser can help find a suitable one. Students are required to write two papers according to specific guidelines for internship course credit.

Many LSJ faculty regularly invite majors to assist them in the development and execution of research endeavors. These provide students an unparalleled opportunity to understand the challenges and mechanics of high-level research.

- *Department Scholarships:* The Stromberg Study Abroad Fund provides financial assistance to LSJ majors who pursue Study Abroad opportunities in socio-legal studies.
- *Student Organizations/Associations:* The Law, Societies, and Justice Student Association sponsors regular events of interest to LSJ students, including career panels and service events.

Of Special Note: The required departmental seminar emphasizes close reading of texts, active class discussions, and well-reasoned analytic writing, providing an opportunity to establish a close connection to faculty and other students, and to hone analytic and communicative skills.

COLLEGE OF ARTS & SCIENCES

LAW, SOCIETIES, AND JUSTICE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

LSJ 200 Introduction to Law, Societies, and Justice (5) I&S *K. BECKETT, S. HERBERT*

Explores the central role of law in social processes; investigates the primary types of legal regimes and compares them across different national and international contexts; contrasts legal with non-legal forms of social ordering; investigates the structure and practice of human rights law.

[View course details in MyPlan: LSJ 200](#)

LSJ 230 Introduction to Disability Studies (5) I&S, DIV J. *WOIAK*

Introduces the field of disability studies. Focuses on the theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in the framing of disability. Offered: jointly with CHID 230/DIS ST 230.

[View course details in MyPlan: LSJ 230](#)

LSJ 301 Internship (1-5, max. 5)

Participation in an approved internship. Credit/no-credit only.

[View course details in MyPlan: LSJ 301](#)

LSJ 310 Research in Law, Societies, and Justice (1-5, max. 15) I&S

Supervised introductory individual and/or seminar-based research on some aspect of society and justice.

[View course details in MyPlan: LSJ 310](#)

LSJ 320 The Politics and Law of International Human Rights (5) I&S, DIV J. *MAYERFELD*

Studies the international human rights movement in its legal and political context. Focuses on institutions which influence, enable, and constrain the international promotion of human rights. Offered: jointly with POL S 368.

[View course details in MyPlan: LSJ 320](#)

LSJ 321 Human Rights Law in Culture and Practice (5) I&S, DIV A. *OSANLOO*

Introduces the complexities of issues surrounding human rights. Examines human rights concerns through critical analyses, taking into account legal, social, economic, and historical variables. Offered: jointly with ANTH 323.

[View course details in MyPlan: LSJ 321](#)

LSJ 322 Human Rights in Latin America (5) I&S, DIV A. GODOY

Overview of human rights issues and their recent evolution in Latin American history; military dictatorships; contemporary challenges in the region's democracies. Human rights concerns in relation to broader sociopolitical context. Offered: jointly with JSIS A 324.

[View course details in MyPlan: LSJ 322](#)

LSJ 327 Women's Rights as Human Rights (5) I&S, DIV R. CICHOWSKI

Women's rights in comparative perspective, focusing on varying settings that alter the meaning and practical application. Domestic level: areas including abortion politics to trafficking in women. International level: areas including equality claims before European supranational judicial bodies, rape as war crime in international law. Offered: jointly with POL S 327.

[View course details in MyPlan: LSJ 327](#)

LSJ 329 Immigration, Citizenship, and Rights (5) I&S, DIV C. PINEDO-TURNOVSKY

A sociological examination of citizenship. Focus on how immigration law and policies shape diverse meanings, practices, and statuses, of citizenship in varied context. Topics include migration theories, state control, stage of legal status, relationship to race and gender ideology, as well as labor and civil society, in shaping membership and rights.

[View course details in MyPlan: LSJ 329](#)

LSJ 331 The Politics of Race and Ethnicity in the United States (5) I&S, DIV M. FRANCIS

Introduction to the history and development of racial hierarchy, focusing on how race and ethnicity shape political institutions (e.g., the Constitution, political parties, voting systems). Examination of political relationships between Whites, African Americans, Latinos, and Asian Americans. Case studies of minority representation and the politics of welfare, crime, immigration, and terrorism. Offered: jointly with POL S 317.

[View course details in MyPlan: LSJ 331](#)

LSJ 332 Disability and Society (5) I&S

Concentrates on contemporary issues in disability studies, focusing on the thematic frameworks of rights, identities, values, and science/medicine. Offered: jointly with CHID 332/DIS ST 332.

[View course details in MyPlan: LSJ 332](#)

LSJ 346 Disability in Global and Comparative Perspective (5) I&S, DIV

Examines the meaning, politics, and experience of disability globally and locally in order to understand what is universal and what is particular to the disability experience in a diverse world. Human rights, inclusive development, and social movements approaches addressing the marginalization of disabled persons explored throughout. Offered: jointly with DIS ST 346/JSIS B 346.

[View course details in MyPlan: LSJ 346](#)

LSJ 360 Introduction to United States Constitutional Law (5) I&S G. LOVELL

Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects. Offered: jointly with POL S 360.

[View course details in MyPlan: LSJ 360](#)

LSJ 361 United States Courts and Civil Liberty (5) I&S G. LOVELL

Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. Offered: jointly with POL S 361.

[View course details in MyPlan: LSJ 361](#)

LSJ 363 Law in Society (5) I&S

Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Instructor: McCann. Offered: jointly with POL S 363.

[View course details in MyPlan: LSJ 363](#)

LSJ 366 Comparative Law and Legal Cultures (5) I&S *G. BARZILAI*

Explores global issues of comparative law, societies, politics, courts, and cultures. Introduces theories and methods of comparing legal settings internationally and understating diverse responses to law. Covers what is comparative law; families of law; history of comparative law; judicial review; legal cultures; rights consciousness; and regulation. Can not be taken for credit if student has already taken LSJ/POL S 367. Offered: jointly with JSIS B 366.

[View course details in MyPlan: LSJ 366](#)

LSJ 367 Comparative Law and Courts (5) I&S *R. CICHOWSKI*

Introduction to comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as on the functioning of supranational and international legal entities in the international system. May not be taken for credit if student has taken LSJ/JSIS B 366. Offered: jointly with POL S 367.

[View course details in MyPlan: LSJ 367](#)

LSJ 370 Privacy (5) I&S *S. Pekkanen*

Explores how individuals, corporations, and governments respond to privacy challenges in the digital age. Examines evolution of the idea of privacy using case studies of actual privacy policies, legal cases, and real-world situations. Covers legal, political, and social facets of this fundamental human issue. Offered: jointly with JSIS B 370/POL S 370; Sp.

[View course details in MyPlan: LSJ 370](#)

LSJ 375 Crime, Politics, and Justice (5) I&S

Examines role of police, courts, and corrections in criminal justice; investigates critical legal and sociological factors and perspectives that shape criminal procedure; considers the relationship between criminal procedure and wider concerns of justice and equality in society. Offered: jointly with SOC 372.

[View course details in MyPlan: LSJ 375](#)

LSJ 376 Drugs and Society (5) I&S

Explores the questions of drug use and abuse, social and political factors that shape response to their use, and the social conditions under which drug use is likely to have adverse consequences. Also covers U.S. drug control policy, the political economy of legal and illegal drugs, and political aspects of drug use. Offered: jointly with SOC 376.

[View course details in MyPlan: LSJ 376](#)

LSJ 377 Punishment: Theory and Practice (5) I&S

Examines the philosophical reasoning that underlies punishment practices such as sentencing, imprisonment, or capital punishment. Considers policy issues in these areas in light of theories about morality and human nature. Helps students learn how to analyze punishment policies from ethical and philosophical perspectives.

[View course details in MyPlan: LSJ 377](#)

LSJ 378 Policing the City (5) I&S *S. HERBERT*

Investigates how and why formal and informal order is established in urban areas, how this order produces advantages and disadvantages, and possibilities of alternative visions of order. Topics include formal means of control (zoning, laws, policing, building codes) and informal means of control (gossip, ostracism, peer pressure, local politics). Offered: jointly with GEOG 378; A.

[View course details in MyPlan: LSJ 378](#)

LSJ 380 Contemporary Issues in Comparative Legal Institutions (5, max. 10) I&S

Covers theoretical, empirical, and comparative aspects of such topics as socio-legal concepts, justice, legal policies, and the institutions of law.

[View course details in MyPlan: LSJ 380](#)

LSJ 381 Contemporary Issues in Rights (5, max. 10) I&S

Studies the theoretical, empirical, and comparative aspects of such topics as human rights, civil rights, and legal

change.

[View course details in MyPlan: LSJ 381](#)

LSJ 401 Field Experience in Law, Societies, and Justice (5) S. HERBERT

Participant observation in a public or private agency relevant to the study of law, justice, human rights, or court systems.

[View course details in MyPlan: LSJ 401](#)

LSJ 420 The Politics of Rights (5) I&S M. McCann

Examines rights in practical and social interaction, rights as social conventions, relations of rights practices to official state policies, disputing practices, interest formation, and identity construction at individual and group levels. Explores how rights practices figure into the constellation of contested power relations within modern societies.

[View course details in MyPlan: LSJ 420](#)

LSJ 421 Women's Rights and Politics in Islamic Society (5) I&S, DIV A. OSANLOO

Human rights theory with women's legal rights and practice within context of the Islamic state. Introduction to debates regarding universality of human rights through examination of women's rights in Muslim context. Considers journalistic notions of homogeneity among Muslims, political nature of the Islamic state, and its mobilization of human rights. Offered: jointly with ANTH 498.

[View course details in MyPlan: LSJ 421](#)

LSJ 422 Immigrants, Labor, and Legality (5) I&S, DIV C. PINEDO-TURNOVSKY

Provides sociological examination of working immigrants in the United States. Focuses on how immigration and labor legislation shape context of working, worker identity, and rights. Topics include federal and state legislation, employee classification, division of labor, skilled/unskilled, flexibility, legal status, organizing, and relationship to race and gender ideology in shaping contexts of working and rights.

[View course details in MyPlan: LSJ 422](#)

LSJ 425 Domesticating International Human Rights: Perspectives on U.S. Asylum and Refugee Law (5) I&S, DIV A. OSANLOO

Examines the creation, production, and proliferation of law and legal categories relating to the status of refugees and asylum-seekers in the United States. Integrates anthropological perspectives of law's ability to create meaning in the examination of deeper implications of asylum and refugee law in American society. Offered: jointly with ANTH 497.

[View course details in MyPlan: LSJ 425](#)

LSJ 426 Reconciliation: The Politics of Forgiveness in a Global Age (5) I&S, DIV A. OSANLOO

Draws on history of post-World War II conflict. Analyzes international mechanisms for reconciliation alongside philosophical and moral consideration. Combines occidental moral philosophies of secular human rights rooted with local knowledge and value systems. Surveys faith-based epistemologies underlying reconciliation processes. Prerequisite: either LSJ 320/POL S 368, LSJ 321/ANTH 323, LSJ 322/JSIS A 324, or PHIL 338.

[View course details in MyPlan: LSJ 426](#)

LSJ 428 Women's Rights in an Integrated Europe (5) I&S

Examines the transformation in women's rights policy within the European community from the late 1950s through the present. Focuses on the legal rules and bodies that govern not only these policy domains, but also their evolution and impacts. Offered: jointly with POL S 415.

[View course details in MyPlan: LSJ 428](#)

LSJ 430 Topics in Disability Studies (1-5, max. 15) I&S

Theoretical, critical, analytical, or comparative examination of an issue or issues in Disability Studies. Topics vary. Prerequisite: either DIS ST/CHID/LSJ 230, DIS ST 332, DIS ST 433, or DIS ST 434. Offered: jointly with CHID 430/DIS ST 430.

[View course details in MyPlan: LSJ 430](#)

LSJ 433 Disability Law, Policy, and the Community I&S (5) I&S, DIV

Addresses the history of legal rights of disabled people, U. S. disability policy, and the role of community activism and other forces in policy development and systems change. Introduces the existing social service system that affects disabled people. Offered: jointly with CHID 433/DIS ST 433.

[View course details in MyPlan: LSJ 433](#)

LSJ 434 Civil and Human Rights Law for Disabled People (5) I&S, DIV *Brown*

Expands knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Offered: jointly with CHID 434/DIS ST 434.

[View course details in MyPlan: LSJ 434](#)

LSJ 437 Crime, Law, and Mental Illness (5) I&S, DIV

Explores experiences of those with mental illness in the criminal justice system and involuntary civil commitment system. Emphasis on societal responses including the emergence of therapeutic courts and specialized police training. Examines how courts, legislature, and communities balance public safety and civil liberties. Offered: jointly with CHID 437/DIS ST 437.

[View course details in MyPlan: LSJ 437](#)

LSJ 438 Human Rights & Internatioanl Development (5) I&S, DIV *S. MEYERS*

Focuses on recent theoretical debates and innovations in the practice of applying human rights principles to international development. Uses case studies of groups historically marginalized in development policies, such as persons with disabilities, indigenous peoples, and older persons to understand the usefulness of course concepts.

[View course details in MyPlan: LSJ 438](#)

LSJ 444 Ethics in Law and Justice (5) I&S

Applies ethical theories, research, and practice to the law and justice system, with the goals of: (1) analyzing the moral dimensions of criminal law; (2) studying ethical issues in law enforcement, adjudications, and corrections; and (3) examining a variety of controversial ethical issues associated with the justice system.

[View course details in MyPlan: LSJ 444](#)

LSJ 456 Institutional Failure (5) I&S *R. THORPE*

Examines why political institutions fail to achieve their goals or operate in a manner they were originally intended to, and the consequences of these failures. Topics include the national security establishment, the drug war, concentrated poverty, mass incarceration, and inner-city schools. Offered: jointly with POL S 456.

[View course details in MyPlan: LSJ 456](#)

LSJ 467 Law, Justice, and the Environment (5) I&S *S. HERBERT*

Examines the role law plays in shaping environmental policy. Challenges student to understand how environmental concerns are translated into legal discourse, and covers several typical issues that emerge in environmental law. Centers on active discussions. Offered: jointly with GEOG 467.

[View course details in MyPlan: LSJ 467](#)

LSJ 469 Law and Rights in Authoritarian Regimes (5) I&S *S. WHITING*

Explores role of law and courts and nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with JSIS B 469/POL S 469.

[View course details in MyPlan: LSJ 469](#)

LSJ 474 Geography and the Law (5) I&S *S. HERBERT*

Examines the relationship between geography, law, and socio-legal analysis; reviews significant instances where law and geography intersect, such as the regulation of public space, the regulation of borders and mobility, and disputes over property and land use. Offered: jointly with GEOG 474.

[View course details in MyPlan: LSJ 474](#)

LSJ 476 Miscarriages of Justice (5) I&S

Examines legal and social factors that shape criminal case outcomes, analyzing how one type of miscarriage of justice - wrongful conviction - occurs. How can cases of wrongful conviction be explained? Why are some people, against whom there is only weak evidence, convicted-and sometimes even executed? Offered: jointly with SOC 476.

[View course details in MyPlan: LSJ 476](#)

LSJ 480 Policing Modern Society (5) I&S J. WENDER

Explores institution and practices of police in context of the rise of modern society, and considers the expanding presence of the police in everyday modern life. Topics include: history of policing, changing roles of police, police reform, and ethical dilemmas intrinsic to the police function.

[View course details in MyPlan: LSJ 480](#)

LSJ 488 Honors in Law, Societies, and Justice (5-)

First of a two-course hyphenated sequence. To be completed with LSJ 489.

[View course details in MyPlan: LSJ 488](#)

LSJ 489 Honors in Law, Societies, and Justice (-[1-5], max. 5) I&S

Thesis research honors option. Second of a two-course hyphenated sequence. To be completed with LSJ 488.

[View course details in MyPlan: LSJ 489](#)

LSJ 490 Special Topics in Comparative Legal Institutions (1-5, max. 15) I&S

Focused, comparative examination of legal institutions.

[View course details in MyPlan: LSJ 490](#)

LSJ 491 Special Topics in Rights (1-5, max. 15) I&S

Focused, comparative examination of topics in rights.

[View course details in MyPlan: LSJ 491](#)

LSJ 495 Study Abroad-Law, Societies, and Justice (3-5, max. 15) I&S

Comparative studies abroad of legal institutions, rights, and justice as related to national settings. Specific course content determined by faculty member.

[View course details in MyPlan: LSJ 495](#)

LSJ 499 Readings in Law, Societies, and Justice (1-5, max. 10)

Individual readings in law, societies, and justice.

[View course details in MyPlan: LSJ 499](#)

LSJ 501 Law, Politics, and Society (5) Beckett, Herbert, McCann

Provides a broad overview of, and introduction to, the interdisciplinary field of Law and Society Studies, including the historical development of law and society studies and an overview of its main concerns and questions.

[View course details in MyPlan: LSJ 501](#)

LSJ 510 Topics in Law and Society Studies (3-5, max. 20)

Current topics in law and society studies.

COLLEGE OF ARTS & SCIENCES

DISABILITY STUDIES

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

DIS ST 230 Introduction to Disability Studies (5) I&S, DIV J. WOIAK

Introduces the field of disability studies. Focuses on the theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in the framing of disability. Offered: jointly with CHID 230/LSJ 230.

[View course details in MyPlan: DIS ST 230](#)

DIS ST 332 Disability and Society (5) I&S

Concentrates on contemporary issues in disability studies, focusing on the thematic frameworks of rights, identities, values, and science/medicine. Offered: jointly with CHID 332/LSJ 332.

[View course details in MyPlan: DIS ST 332](#)

DIS ST 346 Disability in Global and Comparative Perspective (5) I&S, DIV

Examines the meaning, politics, and experience of disability globally and locally in order to understand what is universal and what is particular to the disability experience in a diverse world. Human rights, inclusive development, and social movements approaches addressing the marginalization of disabled persons explored throughout. Offered: jointly with JSIS B 346/LSJ 346.

[View course details in MyPlan: DIS ST 346](#)

DIS ST 419 Disability in the Arts (5) I&S/VLPA, DIV

Examines how the expressive capacities of the arts capture, complicate, and transform the experience of disability. Recommended: DIS ST 230, LSJ 230, or CHID 230. Offered: jointly with CHID 419.

[View course details in MyPlan: DIS ST 419](#)

DIS ST 421 History of Eugenics (5) I&S Woiak

Examines the history of ideas, policies, and practices associated with eugenics and human genetics from the late nineteenth century to the present in American society and other national contexts. Offered: jointly with B H 421.

[View course details in MyPlan: DIS ST 421](#)

DIS ST 430 Topics in Disability Studies (1-5, max. 15) I&S

Theoretical, critical, analytical, or comparative examination of an issue or issues in Disability Studies. Topics vary. Prerequisite: either DIS ST/CHID/LSJ 230, DIS ST 332, DIS ST 433, or DIS ST 434. Offered: jointly with

CHID 430/LSJ 430.

[View course details in MyPlan: DIS ST 430](#)

DIS ST 433 Disability Law, Policy, and the Community I&S (5) I&S, DIV

Addresses the history of legal rights of disabled people, U. S. disability policy, and the role of community activism and other forces in policy development and systems change. Introduces the existing social service system that affects disabled people. Offered: jointly with CHID 433/LSJ 433.

[View course details in MyPlan: DIS ST 433](#)

DIS ST 434 Civil and Human Rights Law for Disabled People (5) I&S, DIV *Brown*

Expands knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Offered: jointly with CHID 434/LSJ 434.

[View course details in MyPlan: DIS ST 434](#)

DIS ST 435 Advanced Seminar in Disability Studies (5, max. 10) I&S

Provides an opportunity to review foundational principles and do independent research on a topic in the field of disability studies.

[View course details in MyPlan: DIS ST 435](#)

DIS ST 437 Crime, Law, and Mental Illness (5) I&S, DIV

Explores experiences of those with mental illness in the criminal justice system and involuntary civil commitment system. Emphasis on societal responses including the emergence of therapeutic courts and specialized police training. Examines how courts, legislature, and communities balance public safety and civil liberties. Offered: jointly with CHID 437/LSJ 437.

[View course details in MyPlan: DIS ST 437](#)

DIS ST 499 Independent Study (1-5, max. 15)

Supervised independent study in disability studies. Recommended: completion of two courses related to disability studies.

[View course details in MyPlan: DIS ST 499](#)

DIS ST 535 Graduate Seminar in Disability Studies (5, max. 10)

Provides an opportunity to review foundational principles and do independent research on a topic in the field of disability studies.

Linguistics

[Display as tabs](#)

Department Overview

A210 Padelford

Linguistics is the scientific study of language, which is one of the most characteristic human attributes. In contrast to other language-related disciplines, linguistics is concerned with describing the rule-governed structures of languages, determining the extent to which these structures are universal or language-particular, positing constraints on possible linguistic structures, and explaining why there is only a fairly narrow range of possible human languages.

Undergraduate Program

Adviser

A215 Padelford, Box 354340

(206) 685-4846

lingadv@uw.edu

The Department of Linguistics offers the following programs of study:

- The Bachelor of Arts degree with options in general linguistics and Romance linguistics
- A minor in linguistics
- A minor in American sign language

Bachelor of Arts

General Linguistics

Suggested First- and Second-Year College Courses: One year of a foreign language that belongs to a different family from the student's native language.

Department Admission Requirements

1. Completion of at least the third quarter, or equivalent, of a foreign language, with a minimum 2.0 grade
2. Completion of either LING 200, LING 400, or an approved introductory linguistics course; at least one writing (W) course; and one additional quantitative and symbolic

reasoning (QSR) course. Minimum 2.0 grade in each course and a cumulative 2.50 GPA in the three courses

3. The department accepts students who meet the minimum requirements stated above, but recognizes that a 2.50 GPA or higher is indicative of the motivation and academic skills needed for a reasonable probability of success in the program.

Major Requirements

80 credits, as follows:

1. LING 400 or other introductory course in linguistics
2. LING 450, LING 451, LING 461, LING 462
3. Minimum one additional 400-level LING course, excluding LING 400, LING 419, LING 430, LING 480, LING 490, and LING 499
4. At least one year of each of two languages, one of which must belong to a language family different than the student's native language, with a minimum grade of 2.0 in the third quarter of each language
5. 20 additional credits of departmentally approved courses in linguistics.

Romance Linguistics

Suggested First- and Second-Year Courses: Two college years of study in a Romance language.

Department Admission Requirements

1. Completion of at least one year of college work in a single Romance language
2. Completion of either LING 200, LING 400, or an approved introductory linguistics course; at least one writing (W) course; and one additional quantitative and symbolic reasoning (QSR) course. Minimum 2.0 grade in each course and a cumulative 2.50 GPA in the three courses
3. The department accepts students who meet the minimum requirements stated above, but recognizes that a GPA of 2.50 or higher is indicative of the motivation and academic skills needed for a reasonable probability of success in the program.

Major Requirements

Minimum 63 credits, as follows:

1. LING 400 or another introductory course in linguistics
2. LING 450, LING 451, LING 461, and LING 462
3. 15 credits at the 300 level or higher of one Romance language
4. LING 419
5. 20 additional credits of departmentally approved courses in linguistics, with at least one course for which a research paper on a Romance language is written

Minors

Linguistics -- Minor Requirements: 32 credits to include LING 400 or another introductory course in linguistics; three courses from LING 432, LING 442, LING 450, LING 451, LING 461, LING 462, or LING 481; 12 additional credits from a list of departmentally approved courses in linguistics, 6 of which must be in upper-division courses

American Sign Language -- Minor Requirements: 33-35 credits as follows:

1. *Second-year American Sign Language (15 credits):* ASL 201; ASL 202; ASL 203
2. *Culture and History (3 credits):* ASL 305
3. *Theory and Structure (8-10 credits):* LING 400 or LING 461; either ASL 343 or LING 403
4. Approved 300- 400-level electives (minimum 7 credits). See adviser for approved list.
5. Minimum 2.00 cumulative GPA for all courses applied to the minor
6. Minimum 18 credits from outside student's major requirements

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of linguistics emphasizes formal reasoning and critical thinking skills. Linguists' skill sets include the ability to analyze sound, word, and sentence structures of individual languages; the ability to understand and account for how languages change in certain patterns; the ability to understand how social factors can affect language, how people learn their first or second languages; and the ability to find out and appreciate how apparently vastly different languages can be governed by the same set of rules. Linguistics is a valuable component of liberal education and vocationally can have applications wherever language itself becomes a matter of practical concern. Graduates have a good foundation for pursuing further training and careers in teaching languages, in areas of rehabilitative medicine such as audiology or speech therapy, in special education, in work with native peoples or with immigrant groups, in lexicographic work, in interpretation and translation, in work in computer science and artificial intelligence, or in academic disciplines such as psychology, philosophy, literature and language studies, where the contribution of linguistics is recognized. An undergraduate degree in linguistics from the UW also serves as preparation for graduate work in linguistics or language-related fields such as speech and hearing science or language teaching.
- *Instructional and Research Facilities:* The Language Learning Center located in Denny Hall provides audio and video services facilitating language learning. It also has a computer laboratory providing instructional software for linguistics and varieties of languages. Departmental facilities include a phonetics laboratory for students conducting phonetic experiments and doing digital acoustic analyses, a linguistics library that supplements the linguistics collection of the UW libraries and provides a quiet study place, and a computer laboratory for research in computational linguistics.
- *Honors Options Available:* With College Honors (Completion of both Honors Core Curriculum and Honors requirements in the major). With Honors (Completion of Departmental Honors requirements). See adviser for requirements.
- *Research, Internships, and Service Learning:* None offered
- *Department Scholarships:* None offered

- *Student Organizations/Associations:* The Linguistics Undergraduate Association (LingUA)

Graduate Program

Graduate Program Coordinator

phoneme@uw.edu

The Department of Linguistics offers a program of study for graduate students leading to the degrees of Master of Arts and Doctor of Philosophy. The program is administered by the departmental faculty. The major interest of the core faculty lies in syntax, semantics, phonetics, phonology, sociolinguistics, computational linguistics, and in theoretical aspects of second-language acquisition.

Some course work is also available in various cooperating departments. Among those fields represented outside the department are psycholinguistics, philosophy of language, speech synthesis, and the structure and history of a number of individual languages and language families.

Master of Arts

An MA is not required as a prerequisite to PhD study.

Degree Requirements

Thesis Option

1. Minimum 35 credits - LING 507, LING 508, LING 532, LING 551, LING 552, either LING 550 or LING 553, either LING 542 or LING 579
2. Language Requirement: Satisfied by one of the following:
 1. One year of study at the university or community college level. Students who are language instructors in other UW departments can use their language teaching experience to satisfy one language requirement.
 2. A major research project that involves significant primary data collection that includes substantial structural analysis and results in a major paper such as a generals paper
 3. Translation exam to demonstrate the ability to read linguistic literature in a foreign language; only one of the two language requirements for the PhD can be satisfied through the translation exam
3. A thesis, written under the supervision of a Linguistics faculty member, and accepted by a second faculty reader. Normally the work is completed in 10 credits of LING 700.

Non-thesis Option: Students who pass the General Exam will automatically receive an M.A. degree in General Linguistics; the Generals papers and Exam constitute the capstone project necessary for a master's degree (or the student may complete the thesis model below).

Master of Science in Computational Linguistics

Admission Requirements

1. The ability to program, including knowledge of data structures and algorithms (equivalent to CSE 373); broad familiarity with C++ and Java; expertise in C++ or Java; and Perl and/or Python.
2. A college-level introductory course in linguistics or equivalent
3. Introduction to statistics and probability (equivalent to STAT 391)
4. Some knowledge of languages other than English is strongly encouraged.
5. A one- or two-page statement of purpose.
6. Two or three letters of recommendation, preferably from people familiar with the applicant's academic work
7. A sample of the applicant's academic work (required for applicants who have completed their previous degree within the past two years. Other applicants who wish to send samples of academic work are encouraged to do so). Types of samples include coding projects (together with write-ups), theses and term papers.
8. One complete set of official transcripts
9. International applicants must meet UW English language proficiency requirements. For more information, please refer to Memo 8: Graduate School English Language Proficiency Requirements.

Degree Requirements

43 credits, as follows:

1. *Required Courses*: LING 450, LING 566
2. One additional 400- or 500-level course in phonetics, phonology, morphology, syntax, semantics, or pragmatics
3. *Computational Linguistics Courses*: LING 570, LING 571, LING 572, LING 573
4. One elective in computational linguistics and one elective in computational linguistics or a related area
5. At least 10 credits of LING 600 or LING 700

Doctor of Philosophy

In addition to the general Linguistics PhD program, an option is offered Computational Linguistics. Variations in requirements are shown below.

Admission Requirements

Three letters of recommendation and Graduate Record Examination scores are required for all applicants. Applicants should send the department a copy of their master's thesis or a paper of high quality, or both.

Degree Requirements

Minimum 90 credits

General Linguistics

1. Required courses (35 credits): LING 507, LING 508, LING 532, LING 551, LING 552, LING 550 or LING 553, LING 542 or LING 579
2. Additional courses for a minimum of 90 credits (27 of which are LING 800) to be determined by specialization and consultation with the Supervisory Committee
3. 3. Language knowledge requirement: Non-Computational Linguistics graduate students must satisfy two natural language requirements for the PhD through the following:
 - a. One year of study at the university or community college level. Students who are language instructors in other UW departments can use their language teaching experience to satisfy one language requirement.
 - b. A major research project that involves significant primary data collection that includes substantial structural analysis and results in a major paper such as a generals paper
 - c. Translation examination to demonstrate the ability to read linguistic literature in a foreign language; only one of the two language requirements for the PhD can be satisfied through the translation examination.
4. Colloquium conference talks: Two papers delivered at a colloquium or conference
5. Constitution of the PhD committee by the end of the second year of study
6. Generals papers: Two generals papers in different areas, at least one in grammatical theory. (Normally 10 credits of LING 600.)
 General examination: An oral examination, in which the candidate is questioned on the two papers. The oral examination may not be scheduled until the committee has read the two papers and approved them as passing.
7. Dissertation prospectus: Within six months of the oral examination, the student presents a formal dissertation proposal to the subset of the PhD Supervisory Committee members who constitute the reading committee, along with a proposed calendar for completion of the dissertation.
8. Final examination: A final examination on the dissertation attended by the candidate's Supervisory Committee and open to others interested
9. Dissertation: Suitable for publication
10. All-but-dissertation (ABD) requirement: All degree requirements except for the dissertation and the two colloquia must be completed before the general examination.

Computational Linguistics Option

Admission Requirements

Students who complete the Computational Linguistics Master of Science degree (CLMS) and who wish to be admitted to PhD study in linguistics must satisfy the following:

1. Completion of CLMS degree requirements
2. Completion of master's thesis option
3. Completion of three courses required for the Linguistics PhD (Computational Linguistics track), subject to the following restrictions: (a) Courses must be taught

by at least two non Computational Linguistics faculty; (b) Courses may not include LING 570 through LING 573

4. The required general linguistics courses for the Computational Linguistics track PhD is as shown below.

Degree Requirements

Requirements are the same as for the General Linguistics option, except for the following:

1. Required courses: two from LING 507, LING 508, LING 566; two from LING 550, LING 551, LING 552, LING 553; one from LING 542, LING 579; one from LING 532, LING 533; three from LING 567, LING 570, LING 571, LING 572, LING 573
2. Language knowledge requirement: Computational Linguistics students must fulfill only one language requirement, but may not use a translation examination to do so.
3. Generals papers: Same as for the General Linguistics program except a master's thesis completed as part of the CLMS program may count as one of the two generals papers.
4. Transition from the CLMS to PhD program is done in two steps:
 - a. Step 1: Entering the General Linguistics graduate program registered as a post-master's program student: Students may apply for admission to the Linguistics graduate program after receiving their CLMS degree; admission decision is made by the Computational Linguistics faculty; after admission, students pay regular UW tuition for courses.
 - b. Step 2: Entering the Linguistics PhD program: Students may apply for admission to the PhD program after completing all requirements listed above; admission decision is made by the full linguistics faculty. If all requirements are completed upon receipt of the CLMS degree, Steps 1 and 2 may be completed simultaneously.

COLLEGE OF ARTS & SCIENCES

LINGUISTICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

LING 100 Fundamentals of Grammar (5) VLPA *L. MCGARRITY, C. SUREK-CLARK, K. ZAGONA*

Introduction to basic grammatical concepts and terminology. Specifically intended for students planning to take a foreign language or linguistics. Does not count toward the linguistics major or minor.

[View course details in MyPlan: LING 100](#)

LING 101 Fundamentals of Pronunciation for Language Learners (5) VLPA *Kaisse*

Fundamentals of pronunciation for language learners. Introduces students to systematic characteristics of language sounds through examination of specific languages and their differences from English. Includes a laboratory component developing perceptual and productive skills of non-English sounds.

[View course details in MyPlan: LING 101](#)

LING 200 Introduction to Linguistic Thought (5) VLPA/I&S, QSR

Language as the fundamental characteristic of the human species; diversity and complexity of human languages; phonological and grammatical analysis; dimensions of language use; and language acquisition and historical language change. Not open for credit to students who have completed LING 201 or LING 400.

[View course details in MyPlan: LING 200](#)

LING 201 Introduction to Linguistic Theory and Analysis (5) VLPA/I&S, QSR

Background and scope of modern linguistics; behaviorist versus rationalist theories of language; universal and cognitive aspects of language structure; interplay of genetic and social factors in language formation; linguistic analysis. Not open for credit to students who have completed LING 200.

[View course details in MyPlan: LING 201](#)

LING 203 Introduction to Anthropological Linguistics (5) VLPA/I&S

Linguistic methods and theories used within anthropology. Basic structural features of language; human language and animal communication compared; evidence for the innate nature of language. Language and culture: linguistic relativism, ethnography of communication, sociolinguistics. Language and nationalism, language politics in the United States and elsewhere. Offered: jointly with ANTH 203.

[View course details in MyPlan: LING 203](#)

LING 220 Origins of the Germanic Languages (5) VLPA

Introduction to basic grammatical concepts, terminology, and linguistics with emphasis on German-English

relationship. Overview of phonology, morphology, syntax, and history of Germanic languages and people, both ancient and modern. Languages covered include Old, Middle, and New High German; English, Frisian, Dutch, Old Saxon, and Gothic. Taught in English. Offered: jointly with GERMAN 220.

[View course details in MyPlan: LING 220](#)

LING 233 Introduction to Language and Society (5) VLPA, DIV Evans, Wassink

Introduces the study of sociolects, the varieties of language that arise from differences in cultural and societal groups, often reflective of power inequalities. Raises awareness of the role that society and the individual play in shaping sociolects via the systematic observation and critical discussion of linguistic phenomena. Offered: jointly with ANTH 233/COM 233; A.

[View course details in MyPlan: LING 233](#)

LING 234 Language and Diversity (5) I&S, DIV Surek-Clark

Advances students' knowledge of language and diversity in a global society, focusing on language and identity, multilingualism, language contact, language spread/variation, and language loss. Offered: W.

[View course details in MyPlan: LING 234](#)

LING 242 Introduction to Meaning (5) VLPA

Non-technical introduction to meaning in language and how it functions in communication and thinking. Discussion of how and why meanings of words change through time. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Instructors: Ogihara

[View course details in MyPlan: LING 242](#)

LING 269 Swearing and Taboo Language (5) I&S L. MCGARRITY

Examines swear words and taboo language, both within and across cultures, investigating their linguistic, pragmatic, neurological, psychological, social, and legal aspects. Offered: ASp.

[View course details in MyPlan: LING 269](#)

LING 270 Introduction to Perl Programming for Linguists (5) Bender

Fundamental programming techniques, including data types, control flow, regular expressions, file handling, GUI design, and CGI interaction. Content relates to a variety of linguistic concepts including syntax, morphology, phonology, lexicon building and foreign language corpora. No previous programming necessary; however, a background in general linguistic theory is assumed. Offered: W.

[View course details in MyPlan: LING 270](#)

LING 333 Linguistics and Society (3) VLPA/I&S

Interaction of language, culture, and society, and the relationship of linguistic theory to societal problems. Ethical and political considerations involved in the application of linguistic theory.

[View course details in MyPlan: LING 333](#)

LING 372 Language and Translation (5) VLPA Tarlinskaja

Role of linguistic concepts in the process of translation from one language to another. Attention to both language universals and language particulars.

[View course details in MyPlan: LING 372](#)

LING 373 Introduction to Localization and Project Management (5)

Covers basic concepts of translation, localization, and internationalization. Explores rationales for localizing products; history and future of the industry; workflows, professional roles, and localization tools. Includes the application of central concepts of localization to real-life situations; and introduction to the basics of localization project management. Offered: jointly with FRENCH 373.

[View course details in MyPlan: LING 373](#)

LING 374 Localization: Technology and Tools (5)

Covers basic concepts of localization and internationalization. Examines how technology and tools are applied to solving translation and localization scenarios in the real world. Includes daily tasks and basic steps; machine

translation; community localization; and experience with actual localization tools. Offered: jointly with⁷²⁸ FRENCH 374.

[View course details in MyPlan: LING 374](#)

LING 390 Foreign Studies in Linguistics (1-15, max. 20) I&S

For students who take linguistics courses while participating in a University of Washington study abroad program and for which there is no direct University of Washington equivalent.

[View course details in MyPlan: LING 390](#)

LING 400 Survey of Linguistic Method and Theory (5) VLPA/I&S, QSR L. MCGARRITY

Examines major linguistic theories in phonology, syntax and semantics; linguistic analysis and argumentation. Not available for credit to students who have completed LING 200.

[View course details in MyPlan: LING 400](#)

LING 401 The Linguistic, Philosophical, and Political Thought of Noam Chomsky (3) VLPA/I&S

Relation of current work in Chomskyan linguistics to philosophical, psychological, political, and educational thought. Prerequisite: LING 200 or LING 400.

[View course details in MyPlan: LING 401](#)

LING 402 Survey of the History of Linguistics (3) VLPA/I&S

Main trends in linguistic theory and philosophy of linguistics from ancient times through advent of transformational-generative grammar. Includes nineteenth-century comparative and historical grammar, Prague school grammar, American structuralist grammar, major concerns of linguistics today. Prerequisite: LING 451. Instructors: Zagona

[View course details in MyPlan: LING 402](#)

LING 403 Structure of American Sign Language (5) VLPA

Introduction to the phonological, morphological, and syntactic structure of American Sign Language. Topics include acquisition, sociolinguistics, neurolinguistics, lexicography, history, and culture. Knowledge of American Sign Language is not required. Prerequisite: LING 200, 201, 203, or 400. Instructors: Hargus

[View course details in MyPlan: LING 403](#)

LING 404 Indo-European (3) VLPA Voyles

Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

[View course details in MyPlan: LING 404](#)

LING 405 Indo-European (3) VLPA Voyles

Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

[View course details in MyPlan: LING 405](#)

LING 406 Indo-European (3) VLPA Voyles

Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

[View course details in MyPlan: LING 406](#)

LING 407 Languages of the World (5) VLPA

A survey of the world's languages, focusing on their syntactic, phonological, and morphological properties. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

[View course details in MyPlan: LING 407](#)

LING 410 Historical Linguistics (5) VLPA

Method and theory of historical and comparative linguistics. Problems of phonological, morphological, syntactic, and semantic change and reconstruction. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Instructors: Aldridge, Handel

[View course details in MyPlan: LING 410](#)

LING 411 Native Languages and Language Families of Washington State (3) VLPA

Survey of linguistic structures of Washington native languages. Language families consist of Salish, Wakashan, Chemakuan, Athabaskan, Chinookan, Sahaptian, Cayuse. Structure and origin of Chinook jargon. Prerequisite: LING 450; either LING 461 or LING 481. Instructors: Hargus

[View course details in MyPlan: LING 411](#)

LING 412 Japanese Syntax and Semantics (5) VLPA *T. OGIHARA*

Introduces issues in Japanese syntax and semantics. Emphasizes description generalizations, rather than theoretical proposals. Prerequisite: either LING 200 or LING 400; recommended: LING 461; at least two years of coursework in Japanese. Offered: jointly with JAPAN 442.

[View course details in MyPlan: LING 412](#)

LING 415 History of the German Language (5) VLPA

Traces the history of the German language from early Germanic to the present. Offered: jointly with GERMAN 452; W.

[View course details in MyPlan: LING 415](#)

LING 419 Romance Linguistics Senior Essay (3) VLPA

Capstone course for undergraduate Romance Linguistic majors.

[View course details in MyPlan: LING 419](#)

LING 430 Pidgin and Creole Languages (5) VLPA/I&S

Explores aspects of the linguistic structure, history, and social context of pidgin and creole languages. Creolization as one possible outcome of language contact. Examines theories of creole genesis, similarities and differences between creole and non-creole languages. Prerequisite: either ANTH 203, LING 200, LING 201, LING 203, or LING 400. Instructors: Wassink Offered: jointly with ANTH 439.

[View course details in MyPlan: LING 430](#)

LING 432 Sociolinguistics I (5) VLPA/I&S, DIV

Interrelationships between social and linguistic factors influencing variation in speech production and perception, morphology, syntax, lexicon. Considers contribution of ethnic, regional and socioeconomic group memberships to dialect differentiation and progression of language change. Nonstandard language, diglossia, pidgins, creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: either LING 200 or LING 400. Instructors: Evans, Wassink Offered: jointly with ANTH 432.

[View course details in MyPlan: LING 432](#)

LING 433 Sociolinguistics II (5) VLPA/I&S

Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Instructors: Wassink Offered: jointly with ANTH 433.

[View course details in MyPlan: LING 433](#)

LING 441 Language Processing and Development 1 (5) I&S/NW *A. OMAKI*

This course explores current research on language processing and development in adult native speakers and children, with a focus on sound and world-level representations. Topics include speech perception, word recognition, acquisition of phonology and word meanings, as well as a variety of methodologies that are used to

study these mechanisms. Prerequisite: LING 200 or LING 400. Offered: A.

[View course details in MyPlan: LING 441](#)

LING 442 Language Processing and Development 2 (5) I&S

Overview of research on language processing and development in adult native speakers and children, with a focus on the sentence-level representations. Topics include processing of syntactic/semantic representations, development of morpho-syntax, semantics and pragmatics, as well as variety of methodologies for studying these mechanisms. Prerequisite: LING 441.

[View course details in MyPlan: LING 442](#)

LING 446 English Phonology (3) VLPA

Descriptively oriented approach to of English phonology and phonetics; dialect differences. Prerequisite: LING 450. Instructors: Hargus

[View course details in MyPlan: LING 446](#)

LING 449 Second-Language Learning (5) VLPA

Issues related to the linguistic aspects of second-language learning. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Instructors: Herschensohn

[View course details in MyPlan: LING 449](#)

LING 450 Introduction to Linguistic Phonetics (5) VLPA/NW *S. HARGUS, A. WASSINK, R. WRIGHT*

Introduction to the articulatory and acoustic correlates of phonological features. Issues covered include the mapping of dynamic events to static representations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Prerequisite: either LING 200 or LING 400.

[View course details in MyPlan: LING 450](#)

LING 451 Phonology I (5) VLPA/I&S

Patterning of sounds and gestures in human languages; analysis in generative phonological framework.

Prerequisite: LING 450. Instructors: Hargus, Kaisse

[View course details in MyPlan: LING 451](#)

LING 452 Phonology II (5) VLPA/I&S

Speech sounds, mechanism of their production, and structuring of sounds in languages; generative view of phonology; autosegmental and metrical phonology. Prerequisite: LING 451. Instructors: Hargus, Kaisse

[View course details in MyPlan: LING 452](#)

LING 453 Experimental Phonetics (5) VLPA/I&S/NW

Examines phonetic and phonological aspects of spoken language using experimental methods. Focuses on acoustic phonetics and speech perception. Significant time devoted to experimental design and hands-on data analysis techniques. Prerequisite: LING 450. Instructors: Wright

[View course details in MyPlan: LING 453](#)

LING 455 Areal Linguistics (3, max. 6) VLPA/I&S

Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Processes such as borrowing, vocabulary specialization, lexical change, and language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 455.

[View course details in MyPlan: LING 455](#)

LING 458 Language and Gender (5) VLPA/I&S, DIV L. *BILANIUK*

Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with ANTH

450/GWSS 450.

[View course details in MyPlan: LING 458](#)

LING 461 Syntax I (5) VLPA/I&S

Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: either LING 200 or LING 400. Instructors: Aldridge, Citko, Zagona

[View course details in MyPlan: LING 461](#)

LING 462 Syntax II (5) VLPA/I&S

Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 461. Instructors: Aldridge, Citko, Zagona

[View course details in MyPlan: LING 462](#)

LING 463 Syntax III (4) VLPA/I&S

Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 462.

[View course details in MyPlan: LING 463](#)

LING 464 Language Politics and Cultural Identity (3) VLPA/I&S *L. BILANIUK*

Theories and case studies of the power of language and how it is manipulated. Multilingualism, diglossia. Role of language and linguistics in nationalism. Standardization, educational policy, language and ethnicity. World languages, language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 464.

[View course details in MyPlan: LING 464](#)

LING 470 Discourse: Analyzing Talk and Texts (5) VLPA/I&S, DIV

A critical and practical introduction to contemporary theories/methods in discourse analysis: how verbal communication (together with visual communication) is used in conversational talk and mediatized texts to construct identities and relationships; and how power and ideology are reproduced through these everyday social interactions. Offered: jointly with COM 470.

[View course details in MyPlan: LING 470](#)

LING 471 Computational Methods for Linguists (5) QSR

Overview of methods for working with linguistic data in electronic form: electronic corpora, linguistic software tools, textual data formats, operating system fundamentals, and basic programming. Prerequisite: either LING 450 or LING 461.

[View course details in MyPlan: LING 471](#)

LING 472 Introduction to Computational Linguistics (5) VLPA/NW *E. BENDER*

Introduction to computational approaches to modeling language, for linguistic research and practical applications, including analyses at different levels of linguistic structure and symbolic as well as statistical approaches. Prerequisite: either LING 200 or LING 400; either LING 461 or CSE 311. Offered: jointly with CSE 472.

[View course details in MyPlan: LING 472](#)

LING 473 Basics for Computational Linguistics (3)

Examines computer applications involving automatic processing of natural language speech or text by machines. Intended as preparation for CLMS core courses. Includes concepts from probability and statistics; formal grammars and languages; finite-state automata and transducers; review of algorithms and data structures; and software for using parallel server cluster. Prerequisite: CSE 326; STAT 391; programming in Perl, C, C++, Java, or Python. Offered: S.

[View course details in MyPlan: LING 473](#)

LING 476 Philosophy of Language (5) VLPA/I&S

Current theories of meaning, reference, predication, and related concepts. Offered: jointly with PHIL 453.

[View course details in MyPlan: LING 476](#)

LING 478 Semantics I (5) VLPA/NW

Introduction to the study of meaning as part of linguistic theory. Relation of semantics to syntax. Emphasis on formal semantics and pragmatics. Discussion of various semantic phenomena in natural language that are theoretically relevant. Prerequisite: LING 461. Instructors: Ogihara

[View course details in MyPlan: LING 478](#)

LING 479 Semantics II (3) VLPA/I&S/NW T. OGIHARA

Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Prerequisite: LING 442. Offered: jointly with PHIL 479.

[View course details in MyPlan: LING 479](#)

LING 480 Topics in Linguistics (3, max. 12) VLPA

Introduction to an area of linguistic study not covered by the regular departmental course offerings.

[View course details in MyPlan: LING 480](#)

LING 481 Introduction to Morphology (5) VLPA S. HARGUS

Structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisite: LING 450.

[View course details in MyPlan: LING 481](#)

LING 484 Lexical Semantics and the Lexicon (3) VLPA

Role of the lexicon in syntax and semantics. Topics include the syntax-lexicon mapping; theories of argument structure; complex predicate formation and lexical subordination; the lexicon and language acquisition; the role of the lexicon in linguistic theory; and the lexicon and sentence processing. Prerequisite: LING 461.

[View course details in MyPlan: LING 484](#)

LING 490 Undergraduate Fieldwork (1-5, max. 15)

Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: LING 490](#)

LING 499 UNDERGRADUATE RESEARCH (1-5, max. 10)

[View course details in MyPlan: LING 499](#)

LING 501 Field Methods (3)

Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

[View course details in MyPlan: LING 501](#)

LING 502 Field Methods (3)

Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

[View course details in MyPlan: LING 502](#)

LING 503 Field Methods (3)

Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 453, LING 462, or permission of instructor.

[View course details in MyPlan: LING 503](#)

LING 507 Syntactic Theory I (5) E. ALDRIDGE, B. CITKO, K. ZAGONA

Introduction to the principles and parameters model of syntactic theory. The lexicon and its relation to syntactic representations. Syntactic modules and principles. Problem solving.

[View course details in MyPlan: LING 507](#)

LING 508 Syntactic Theory II (5)

Further explorations in principles and parameters syntax. Topics include logical form, island phenomena, locality restrictions, and licensing. Prerequisite: LING 507 or permission of instructor. Instructors: Zagona, Aldridge, Citko Offered: W.

[View course details in MyPlan: LING 508](#)

LING 509 Syntactic Theory III (5)

Focus on primary readings in syntactic theory, from classic papers on constraints and the architecture of grammar to recently published articles. Prerequisite: LING 508 or permission of instructor. Instructors: Zagona, Aldridge, Citko Offered: Sp.

[View course details in MyPlan: LING 509](#)

LING 510 Introduction to Historical Linguistics (5) *E. ALDRIDGE, Z. HANDEL*

Method and theory of historical linguistics. Covers phonological, syntactic, and semantic change. Also includes comparative reconstruction. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

[View course details in MyPlan: LING 510](#)

LING 514 Seminar in Comparative Linguistics (3)

Nineteenth- and twentieth-century theories of phonological change. Prerequisite: LING 404 or permission of instructor. Instructors: Kaisse

[View course details in MyPlan: LING 514](#)

LING 515 Topics in the History of Germanic Languages (5) *Barrack, Voyles*

Topics in diachronic studies of Germanic languages such as Gothic, Old High German, Old Saxon.

[View course details in MyPlan: LING 515](#)

LING 519 Mathematical Models of Grammar (3)

Study of some mathematical models of language recognition, emphasizing context-free and context-sensitive grammars. Prerequisite: graduate standing in mathematics, linguistics, or psychology, or permission of instructor. Instructors: Ogihara

[View course details in MyPlan: LING 519](#)

LING 522 Topics in the History of Linguistics (3)

Intensive investigation of the main trends in the history of linguistics, concentrating on the development of nineteenth-century historical linguistics, the various schools of structural linguistics, and transformational-generative grammar. Prerequisite: LING 451. Instructors: Zagona

[View course details in MyPlan: LING 522](#)

LING 524 Seminar in Theoretical Linguistics (4, max. 8)

Individual and joint research on selected topics in theoretical linguistics. Topics change each quarter. Typical topics are semantics, generative grammar, phonological theories. Prerequisite: LING 453, LING 463.

[View course details in MyPlan: LING 524](#)

LING 525 Seminar in Theoretical Phonology (4, max. 12)

Individual and joint research on selected topics in theoretical phonology. Topics vary. Typical offerings include phonology and the lexicon, syntax and phonology, phonological representations. Prerequisite: LING 452.

[View course details in MyPlan: LING 525](#)

LING 530 Dialectology (3)

The principles of dialect deviation as related to linguistic structure and usage. Prerequisite: LING 452, LING 462, LING 508, or permission of instructor. Offered: jointly with ANTH 530.

[View course details in MyPlan: LING 530](#)

LING 531 Problems in Romance Linguistics (2-5, max. 15)

Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite:

permission of graduate program coordinator.

[View course details in MyPlan: LING 531](#)

LING 532 Sociolinguistics I (5)

Examines social variation in the phonology, morphology, syntax, and lexicon of languages and dialects. Includes nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, and language attitudes. Prerequisite: either LING 200 or LING 400. Instructors: Evans, Wassink
Offered: jointly with ANTH 532; S.

[View course details in MyPlan: LING 532](#)

LING 533 Topics and Methods in Sociolinguistic Theory (5)

Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Instructors: Wassink

[View course details in MyPlan: LING 533](#)

LING 534 Sociolinguistic Applications of Social Network Theory (5)

Examines structure and content of social networks from a linguistic perspective. Reviews applications of graph theory and sociometry in sociolinguistics. Examines how language is embedded in personal networks and how the study of linkages between individuals can elucidate the regularity and direction of language change.

Prerequisite: LING 400 and LING 432. Instructors: Wassink

[View course details in MyPlan: LING 534](#)

LING 535 Advanced Sociolinguistics (5, max. 10)

Explores perspective on language change and its mechanisms, understood in relation to the social context of language use in the speech community. Examines language-internal and -external motivations for change; phonological mergers and splits, chain-shifts, and diffusion of change through the lexicon. Prerequisite: LING 432 and LING 533. Instructors: Wassink

[View course details in MyPlan: LING 535](#)

LING 541 Language Processing and Development 1 (5) A. OMAKI

Explores current research on language processing and development in adult native speakers and children, with a focus on sound and word-level representations. Topics include speech perception, word recognition, acquisition of phonology and word meanings, as well as a variety of methodologies that are used to study these mechanisms. Prerequisite: LING 200 or LING 400.

[View course details in MyPlan: LING 541](#)

LING 542 Language Processing and Development 2 (5)

Explores current research on language processing and development in adult native speakers and children, with a focus on the sentence-level representations. Topics include processing of syntactic/semantic representations, development of morpho-syntax, semantics and pragmatics, as well as a variety of methodologies that are used to study these mechanisms. Prerequisite: LING 541. Offered: W.

[View course details in MyPlan: LING 542](#)

LING 548 Second/Foreign Language Teaching Capstone Project (3-5)

Involves a research (original or library), materials development, or a teaching practicum. Offered: AWSpS.

[View course details in MyPlan: LING 548](#)

LING 549 Second Language Learning (5)

Issues related to the linguistic aspects of second language learning. Prerequisite: either LING 200, LING 201, LING 203, or LING 400. Instructors: Herschensohn Offered: AS.

[View course details in MyPlan: LING 549](#)

LING 550 Introduction to Linguistic Phonetics (5)

Introduction to the articulatory and acoustic correlates of phonological features. Covers mapping of dynamic events to static presentations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Prerequisite: either LING 200 or LING 400. Instructors: Wright, Wassink Offered: AWS.

[View course details in MyPlan: LING 550](#)

LING 551 Phonology I: Introduction to Phonological Analysis (5) *S. HARGUS*

Patterning of sounds and gestures in human languages; analysis in generative phonological framework.

Prerequisite: LING 550 Offered: WSpS.

[View course details in MyPlan: LING 551](#)

LING 552 Phonology II: Advanced Phonology (5)

Optimality theory; phonetics-phonology interface. Prerequisite: LING 551. Instructors: Hargus, Kaisse

[View course details in MyPlan: LING 552](#)

LING 553 Experimental Phonetics (5)

Examines phonetic and phonological aspects of spoken language using experimental methods. Focuses on acoustic phonetics and speech perception. Significant time devoted to experimental design and hands-on data analysis techniques. Prerequisite: LING 550. Instructors: Wright Offered: A.

[View course details in MyPlan: LING 553](#)

LING 554 Advanced Linguistic Phonetics (3, max. 9)

Individual and joint projects on selected topics in theoretical and experimental phonetics. Topics may include articulatory timing, the phonetics phonology interface, and constraints and constraint interaction. Prerequisite: LING 450 or LING 452. Instructors: Wright, Wassink Offered: Sp.

[View course details in MyPlan: LING 554](#)

LING 561 Advanced Syntax (2-3, max. 9)

Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

[View course details in MyPlan: LING 561](#)

LING 562 Advanced Syntax (2-3, max. 9)

Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

[View course details in MyPlan: LING 562](#)

LING 563 Advanced Syntax (2-3, max. 9)

Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

[View course details in MyPlan: LING 563](#)

LING 565 Contrastive Linguistics (3)

The attempt to look across linguistic systems for comparable and contrastive classes and subclasses. Problems of subcategorization and universal grammar. Three conceptually distinct models: structural, transfer grammar, generative. Prerequisite: LING 452, LING 463.

[View course details in MyPlan: LING 565](#)

LING 566 Introduction to Syntax for Computational Linguistics (3) *Bender*

Introduction to syntactic analysis and concepts with emphasis on the formally precise encoding in linguistic hypotheses and the design of grammars that can be scaled to practical applications. Coursework progressively builds up a consistent grammar for a fragment of English, while also considering data and phenomena from other languages. Offered: A.

[View course details in MyPlan: LING 566](#)

LING 567 Knowledge Engineering for Deep Natural Language Processing (3)

Techniques and theoretical issues relating to the development of knowledge engineering resources required for deep processing (symbolic or hybrid), focusing on grammar engineering and semantic representations.

Prerequisite: LING 566. Instructors: Bender

[View course details in MyPlan: LING 567](#)

LING 570 Shallow Processing Techniques for Natural Language Processing (4)

Techniques and algorithms for associating relatively surface-level structures and information with natural language corpora, including POS tagging, morphological analysis, preprocessing/segmentation, named-entity recognition, chunk parsing, and word-sense disambiguation. Examines linguistic resources that can be leveraged for these tasks (e.g., WordNet). Prerequisite: a minimum grade of 2.7 in each of CSE 326 or equivalent, STAT 391 or equivalent, and LING 473 or passing score on the placement exam. Instructors: Xia Offered: A.

[View course details in MyPlan: LING 570](#)

LING 571 Deep Processing Techniques for Natural Language Processing (4) G. LEVOW

Algorithms for associating deep or elaborated linguistic structures with naturally occurring linguistic data (parsing/semantics/discourse), and for producing natural language strings from input semantic representations (generation). Prerequisite: a minimum grade of 2.7 in each of CSE 326 or equivalent, STAT 391 or equivalent, and LING 473 or passing score on the placement exam. Offered: W.

[View course details in MyPlan: LING 571](#)

LING 572 Advanced Statistical Methods in Natural Language Processing (4)

Covers several important machine learning algorithms for natural language processing including decision tree, kNN, Naive Bayes, transformation-based learning, support vector machine, maximum entropy and conditional random field. Students implement many of the algorithms and apply these algorithms to some NLP tasks."

Prerequisite: LING 570. Instructors: Xia Offered: W.

[View course details in MyPlan: LING 572](#)

LING 573 Natural Language Processing Systems and Applications (4) G. LEVOW

Examines building coherent systems to handle practical applications. Particular topics vary. Possible topics include information retrieval/extraction, natural language query systems, dialogue systems, augmentative and alternative communications, computer-assisted language learning, language documentation, spell/grammar checking, and software localization. Prerequisite: LING 570, LING 571, LING 572. Offered: Sp.

[View course details in MyPlan: LING 573](#)

LING 575 Topics in Computational Linguistics (3, max. 30) E. BENDER

In-depth study of a particular area of computational linguistics, with hands-on experience. Prerequisite: LING 570 and 571, or permission of instructor. Offered: WSp.

[View course details in MyPlan: LING 575](#)

LING 578 Semantic Theory I (5)

Introduction to formal semantics and pragmatics. Basic skills for proposing compositional semantic rules for natural language data. Discussion of various semantic phenomena in natural language that are theoretically relevant. Prerequisite: graduate standing in Linguistics or permission of instructor. Instructors: Ogihara

[View course details in MyPlan: LING 578](#)

LING 579 Semantic Theory II (5)

Advanced introduction to the formal semantics of natural language. Emphasizes the interface between syntax and semantics. Prerequisite: LING 542. Instructors: Ogihara

[View course details in MyPlan: LING 579](#)

LING 580 Problems in Linguistics (2-4, max. 99.9)

Advanced study in current theories of syntax, semantics, phonology, or morphology. Can be repeated for credit.

[View course details in MyPlan: LING 580](#)

LING 581 Morphology (5)

Explores the structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisite: either LING 450, LING 550, or equivalent.

[View course details in MyPlan: LING 581](#)

LING 582 Capturing Brain Dynamics: A Combined Neuroscience and Engineering Approach (4) A. LEE

Introduces methods for capturing brain dynamics using an emerging neuroimaging technique known as magnetoencephalography (MEG). Uses techniques to examine perception and cognitive processes and their implications for future brain-computer-interface (BCI) design. Prepare students for interdisciplinary research in neuroscience and engineering. Offered: jointly with SPHSC 594; W.

[View course details in MyPlan: LING 582](#)

LING 590 Graduate Fieldwork (1-10, max. 10)

Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Offered: AWSpS.

[View course details in MyPlan: LING 590](#)

LING 599 Linguistics Colloquium (1, max. 6)

Seminar attended by faculty and graduate students to discuss research in progress and topics of general interest. Presentation of two seminars required for doctoral students. Prerequisite: permission of instructor.

[View course details in MyPlan: LING 599](#)

LING 600 Independent Study or Research (*-)

[View course details in MyPlan: LING 600](#)

LING 700 Master's Thesis (*-)

[View course details in MyPlan: LING 700](#)

LING 800 Doctoral Dissertation (*-)

COLLEGE OF ARTS & SCIENCES

LINGUISTICS

AMERICAN SIGN LANGUAGE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ASL 101 Elementary American Sign Language I (5) L. FORSHAY, K. WINTER

Introduction to American Sign Language using conversational methods. Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. First in a sequence of three. Offered: A.

[View course details in MyPlan: ASL 101](#)

ASL 102 Elementary American Sign Language II (5) L. FORSHAY, K. WINTER

Focuses on building mastery of American Sign Language grammar skills, increasing vocabulary, and gaining a deeper knowledge and appreciation of deaf culture. Second in a sequence of three. Prerequisite: ASL 101.

Offered: W.

[View course details in MyPlan: ASL 102](#)

ASL 103 Elementary American Sign Language III (5) L. FORSHAY, K. WINTER

Focuses on grammatical features such as spatialization, directionality, and non-manual components. Intensive work in vocabulary development and continued study of deaf culture. Third in a series of three. Prerequisite: ASL 102. Offered: Sp.

[View course details in MyPlan: ASL 103](#)

ASL 134 Intensive First Year ASL (15) Bateh, Forshay, Winter

Intensive introduction to American Sign Language using conversational methods and covering vocabulary, grammatical usage, and culturally appropriate behavior. Also focused on grammatical features such as spatialization, directionality, and non-manual components. Offered: S.

[View course details in MyPlan: ASL 134](#)

ASL 201 Intermediate American Sign Language I (5) VLPA L. FORSHAY

Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. First in a series of three. Prerequisite: either ASL 103 or ASL 134. Offered: A.

[View course details in MyPlan: ASL 201](#)

ASL 202 Intermediate American Sign Language II (5) VLPA L. FORSHAY

Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. Second in a series of three. Prerequisite: ASL 201. Offered: W.

[View course details in MyPlan: ASL 202](#)

ASL 203 Intermediate American Sign Language III (5) VLPA L. FORSHAY, K. WINTER

Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. Third in a series of three. Prerequisite: ASL 202. Offered: Sp.

[View course details in MyPlan: ASL 203](#)

ASL 234 Intensive Intermediate American Sign Language (15) VLPA L. FORSHAY

Intensive second year American Sign Language using conversational methods and covering vocabulary, grammatical usage, and culturally appropriate behavior. Also focuses on grammatical features such as spatialization, directionality, and non-manual components. Prerequisite: ASL 103. Offered: S.

[View course details in MyPlan: ASL 234](#)

ASL 301 Advanced American Sign Language I (5) VLPA

This course is a non-sequential course in advanced study of American Sign Language (ASL) with emphasis on basic concepts of ASL linguistics. This is an application of linguistic theories in ASL in which students will gain an advanced understanding and mastery of ASL grammar, sociolinguistics, language variation in the Deaf community according to region, age, gender, minority groups and Deaf-Blind people. Prerequisite: ASL 203; recommended: ASL 203 Offered: A.

[View course details in MyPlan: ASL 301](#)

ASL 305 Introduction to American Deaf Culture (3) I&S, DIV L. FORSHAY

Covers topics in Deaf culture, history, education, sociology, language, legal issues, art and literature, sensory variety and politics, audism, assistive technological devices, Deafhood, Deaf Blind, Deaf identity and intersections of diversity within the Deaf community, and other special topics analyzed from the Deaf culture worldview.

[View course details in MyPlan: ASL 305](#)

ASL 306 Deaf History (3) I&S

Covers all major events impacting Deaf people, in Europe and America. Topics include: development of sign language, deaf education, politics of deafness, audism, eugenics, hearing technology, leadership in deaf community, deaf revolution movements, international deaf history, and key biographies. Experience with American Sign Language not required.

[View course details in MyPlan: ASL 306](#)

ASL 495 Literature and Poetry (3) VLPA

Emphasizes the historical background, story content, analysis of grammatical features, and discourse analysis to include a variety of sign registers and styles. Challenges and redefines the concept of literature with the visual-gestural nature of sign language using films and videos including: the Veditz's 1913 motion films collections; American Sign Language poetry works by Valli and Lentz; folktales; and humor. Prerequisite: ASL 202.

[View course details in MyPlan: ASL 495](#)

ASL 499 Independent Study or Research (1-3, max. 3) L. FORSHAY, K. WINTER

Advanced study or research of a topic related to American Sign Language guided by a faculty member. Prerequisite: ASL 203; ASL 305.

[View course details in MyPlan: ASL 499](#)

Mathematics

[Display as tabs](#)

Department Overview

C138 Padelford

Mathematics is both a science and an art. Like any great art, mathematics has an intrinsic beauty and coherence that has attracted practitioners for centuries. Yet, unlike other arts, mathematics is a surprisingly effective tool for describing the natural world. Indeed, mathematics has come to serve as the foundation of modern science, through its language and results. Some mathematical results were initially developed in order to solve internally generated mathematical problems and only later found application in other disciplines; other mathematical results were inspired by the needs of these other disciplines. The two facets of mathematics -- tool of science and subject of inquiry for its own sake -- have come to be interwoven into a complex fabric.

Undergraduate Program

Adviser

C36 Padelford, Box 354350

(206) 543-6830

advising@math.washington.edu

The Department of Mathematics offers the following programs of study:

- The Bachelor of Arts degree with a major in mathematics - standard program
- The Bachelor of Arts degree with a major in mathematics - philosophy option
- The Bachelor of Arts degree with a major in mathematics, with an option designed specifically for students who plan to pursue secondary teaching careers
- The Bachelor of Science degree with a major in mathematics - standard program
- The Bachelor of Science degree with a major in mathematics - comprehensive option
- The Bachelor of Science degree with a major in applied and computational mathematical sciences (ACMS). The Department of Mathematics cooperates with the departments of Applied Mathematics, Computer Science and Engineering, and Statistics in offering this major. (See ACMS for requirements.)
- A minor in mathematics

Bachelor of Arts

Department Admission Requirements

Admission to all programs is competitive. Completion of minimum requirements described below does not guarantee admission. All applicants have the right to petition and appeal the department's admission decision. The application and additional information are available online at www.math.washington.edu/Undergrad.

Addmission Criteria

1. *Minimum Course Requirements:* MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136), with a minimum 2.0 grade in each of these calculus courses and an overall minimum 2.50 GPA in all mathematics courses.
2. *Determining Factors:* Each application is evaluated by a subcommittee of the Undergraduate Program Committee. Factors considered include performance in all mathematics courses as measured by GPA, difficulty of all mathematics courses completed, frequency of incompletes or withdrawal grades, number of repeated courses, amount and type of AP credit (i.e., AB vs. BC), relevant work and life experience, and record of honors.
3. *When to Apply:* Applications are accepted via catalyst twice each year. The deadline is the end of the day on January 15 and September 15.

Major Requirements

Standard Option (51 credits)

1. MATH 124, MATH 125, MATH 126, MATH 307, MATH 308 (or MATH 134, MATH 135, and MATH 136); MATH 300; MATH 324; and 8 courses numbered 301 or higher from an approved list of electives. See adviser for approved list.
2. A minimum 2.0 grade in all courses presented to satisfy the mathematics major requirements. A minimum 2.00 cumulative GPA or higher in all mathematics courses at the University, including course repeats
3. At least 18 credits of graded mathematics courses numbered 300 or higher must be taken in residence through the UW

Philosophy Option (58 credits)

1. MATH 124, MATH 125, MATH 126, MATH 308 (or MATH 134, MATH 135, and MATH 136); MATH 300; MATH 327; MATH 328; five additional mathematics courses at the 300 or 400 level, including at least one two-quarter sequence at the 400 level other than MATH 407, MATH 408, MATH 409, or MATH 421, MATH 422
2. PHIL 120 or an upper-level course in logic; PHIL 100, PHIL 160, or PHIL 240; one philosophy course at the 300 level; one philosophy course at the 400 level
3. A minimum 2.0 grade in all courses presented to satisfy the mathematics major requirements. A minimum 2.00 cumulative GPA or higher in all mathematics courses at the University, including course repeats.
4. At least 18 credits of graded mathematics courses numbered 300 or higher taken in residence through the UW.

Teacher Preparation Option (52-59 credits)

1. MATH 124, MATH 125, MATH 126, MATH 307, MATH 308 (or MATH 134, MATH 135, and MATH 136); MATH 300; MATH 394, MATH 411, MATH 412, MATH 444, MATH 445; either STAT 311, MATH 390/STAT 390; or Q SCI 381; 15 credits of approved electives at the 300 level in MATH, AMATH, or STAT, or PHYS 407, PHYS 408, and PHYS 409. At least 6 credits of electives must be from the Mathematics Department.
2. A minimum 2.0 grade in all courses presented to satisfy the mathematics major requirements. A minimum 2.50 cumulative GPA or higher in all mathematics courses at the University, including course repeats.
3. At least 18 credits of graded mathematics courses numbered 300 or higher taken in residence through the UW

Bachelor of Science

Department Admission Requirements

Same as for bachelor of arts programs, shown above.

Major Requirements

Standard Option (66 credits)

1. *Elementary Mathematics Core (21 credits)*: MATH 124, MATH 125, MATH 126; MATH 300; MATH 324. (MATH 134, MATH 135, MATH 136 may be substituted for MATH 124, MATH 125, MATH 126, MATH 307, and MATH 308.)
2. *Intermediate Mathematics Core (9 credits)*: MATH 308; MATH 327, MATH 328. (MATH 334, MATH 335, MATH 336 may be substituted for MATH 300, MATH 309, MATH 324, MATH 327, and MATH 328.)
3. *Advanced Mathematics Core (21 credits)*: At least seven courses from the following, from at least three different areas, and including at least two two-quarter sequences:
 - *Algebra*: MATH 402, MATH 403, MATH 404.
 - *Analysis*: MATH 424, MATH 425, MATH 426.
 - *Geometry*: MATH 441, MATH 442, MATH 443.
 - *Other Analysis*: MATH 307, MATH 309; MATH 427, MATH 428.
 - *Probability*: MATH 394, MATH 395, MATH 396; MATH 491, MATH 492.
 - *Other Mathematics*: MATH 381; MATH 407, MATH 408, MATH 409; MATH 461, MATH 462; MATH 464, MATH 465, MATH 466.
4. *Electives (15 credits)*: Five additional mathematics courses, including a two-quarter sequence at the 300- or 400-level (teacher-preparation courses not allowed). With approval, two of the five courses may be chosen from appropriate courses offered by the departments of Applied Mathematics, Statistics, and Computer Science, or from certain other departments. Courses from the additional mathematics core sequences not used to fulfill core requirements can be used to fulfill the elective requirement.
5. A minimum 2.0 grade in all courses presented to satisfy the mathematics major requirements. A minimum 2.00 cumulative GPA or higher in all mathematics courses at the University, including course repeats.
6. At least 18 credits of graded mathematics courses numbered 300 or higher taken in residence through the UW

Comprehensive Option (69 credits)

Emphasizes the fundamental subjects of algebra, analysis, and geometry and is designed to provide a deep understanding of these basic areas of modern mathematics. Lays a good foundation for more advanced study. For this option, the same substitutions are permitted from the accelerated/Honors sequences. (Items 1, 2, 3, and 6 shown for the standard option, above.)

1. *Elementary Mathematics Core (21 credits)*: MATH 124, MATH 125, MATH 126; MATH 300; MATH 324. (MATH 134, MATH 135, MATH 136 may be substituted for MATH 124, MATH 125, MATH 126, MATH 307, and MATH 308.)
2. *Intermediate Mathematics Core (9 credits)*: MATH 308; MATH 327, MATH 328. (MATH 334, MATH 335, MATH 336 may be substituted for MATH 300, MATH 309, MATH 324, MATH 327, and MATH 328.)
3. *Advanced Mathematics Core (24 credits)*: At least eight courses from the following, including at least two in each of the first three areas. If only six courses are chosen from the first three areas, then the two courses chosen from the fourth area must form a two-quarter sequence:
 - *Algebra*: MATH 402, MATH 403, MATH 404.
 - *Analysis*: MATH 424, MATH 425, MATH 426.
 - *Geometry*: MATH 441, MATH 442, MATH 443.
 - *Other Analysis*: MATH 307, MATH 309; MATH 427, MATH 428.
4. *Electives (15 credits)*: Five additional mathematics courses, including a two-quarter sequence at the 300- or 400-level (teacher-preparation courses not allowed). With approval, two of the five courses may be chosen from appropriate courses offered by the departments of Applied Mathematics, Statistics, and Computer Science, or from certain other departments. Courses from the additional mathematics core sequences not used to fulfill core requirements can be used to fulfill the elective requirement.
5. A minimum 2.0 grade in all courses presented to satisfy the mathematics major requirements. A minimum 2.50 cumulative GPA or higher in all mathematics courses at the University, including course repeats.
6. At least 18 credits of graded mathematics courses numbered 300 or higher taken in residence the the UW

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the [department website](#).

Minor

Minor requirements (minimum 30 credits)

1. *Core (24-25 credits)*: MATH 124, MATH 125, MATH 126, MATH 307, MATH 308, and MATH 309; or MATH 134, MATH 135, and MATH 136 (25 credits, including 10 advanced-placement credits)
2. *Electives (6 credits)*: mathematics courses numbered 301 or higher
3. At least 9 credits of courses numbered 301 or higher taken in residence through the UW. Minimum 2.0 grade required for each course offered as part of the minor.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of mathematics emphasizes exposure to the core foundational areas of analysis, modern algebra, and geometry. A mathematician's skill set includes the technical tools specific to each area as well as the development of critical thinking skills necessary for logical reasoning. Graduates have pursued careers in teaching, finance, science, engineering, and professional fields such as law and medicine.
- *Instructional and Research Facilities:* Mathematical Research Library and Math Sciences Computing Center
- *Honors Options Available:* With College Honors (Completion of Honors core curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* When available, internship opportunities are passed on to students.
- *Department Scholarships:* None offered.
- *Student Organizations/Associations:* MAA Student Chapter, Actuarial Club, Math Club.

Graduate Program

Graduate Program Coordinator
C36 Padelford, Box 354350
(206) 543-6830
grads@math.washington.edu

The degrees of Master of Arts, Master of Science, and Doctor of Philosophy are offered. Opportunities are available within the department for study of abstract and applied mathematics for each of these degree programs. The Master of Arts degree is appropriate for students who need a broad background in advanced mathematics and who expect to continue working with mathematics of approximately the same level in their careers. The Master of Science degree is appropriate for students who expect to be working with more specialized mathematics of increasing order of complexity in their careers. The Doctor of Philosophy degree is the highest professional degree in mathematics. It is appropriate for students who plan on a career of research and/or teaching of mathematics at the highest levels.

Of the master's degrees, the MS non-thesis program has the most demanding course requirements and most closely matches the early stages of the PhD program. Most students who enroll in the department begin their studies with the PhD or MS non-thesis program in mind. The MS programs with options in numerical analysis or optimization provide more focused training in these directions, which can be useful for students seeking employment in certain industries; however, students intending to do research in these areas would normally follow the requirements of the PhD program. Note that the department does not offer a master's degree in mathematics education.

Master of Arts

Admission Requirements

Bachelor of Arts degree with major in mathematics or equivalent background (minimum 45 quarter credits or 30 semester credits of mathematics beyond college algebra)

Degree Requirements

Master of Arts, Non-Thesis: Minimum twelve approved one-quarter courses at the 400 or 500 level, including two courses each in algebra, analysis, and one other field. The course total must include six courses chosen from the designated core graduate courses or, with prior approval of the Graduate Program Coordinator, from other 500-level sequences. The six courses at the 500 level should be distributed over no more than three sequences.

Written examination in an area agreed upon by the student and the chair of the examining committee. Oral examination may be substituted with prior approval of the Graduate Program Coordinator.

Master of Science

Admission Requirements

Bachelor of Science degree with major in mathematics, Bachelor of Arts degree with strong major in mathematics or equivalent background. In particular, at least one senior-level course in abstract algebra or real analysis is expected.

Degree Requirements

1. *Master of Science, Thesis:* A total of twelve numerically graded one-quarter courses from MATH 402, MATH 403, MATH 404; MATH 424, MATH 425, MATH 426; MATH 427, MATH 428, MATH 429; MATH 441, MATH 442, MATH 443; any 500-level mathematics course; AMATH 507; AMATH 584, AMATH 585, AMATH 586; plus 9 thesis credits (MATH 700). Other courses may be included in the total with prior approval of the Graduate Program Coordinator. Courses to include at least two quarters from each of two designated core graduate courses and one other 500-level sequence. Transfer credits are not accepted at the 400 level; other transfer credits and substitutions are at the discretion of the Graduate Program Coordinator.

The thesis, which is defended in an oral examination, should demonstrate the ability to do independent research.

2. *Master of Science, Non-Thesis:* A total of fifteen numerically graded one-quarter courses from MATH 402, MATH 403, MATH 404; MATH 424, MATH 425, MATH 426; MATH 427, MATH 428, MATH 429; MATH 441, MATH 442, MATH 443; any 500-level mathematics course; AMATH 507; AMATH 584, AMATH 585, AMATH 586. Other courses may be included in the total with prior approval of the Graduate Program Coordinator. Courses to include at least two quarters from each of two designated core graduate courses, and in addition one three-quarter sequence of 500-level mathematics courses in an area of specialization approved by the Graduate Program Coordinator and the chair of the student's examining committee.

Oral examination in the area of specialization on a topic agreed upon by the student and the chair of the examining committee, or the general examination for the PhD degree.

3. *Master of Science, Numerical Analysis and Optimization Options, Non-thesis:* A total of fifteen one-quarter courses, at least six of which are at the 500 level, chosen from MATH 424, MATH 425, MATH 426; MATH 427, MATH 428, MATH 429;

MATH 438, MATH 439; MATH 441, MATH 442, MATH 443; MATH 461, MATH 462; MATH 491, MATH 492; any 500-level mathematics course; AMATH 507; AMATH 584, AMATH 585, AMATH 586. Other courses may be included in the total with prior approval of the Graduate Program Coordinator. Courses to include four from AMATH 584, AMATH 585, AMATH 586 and MATH 594, MATH 595, and MATH 596.

Oral examination in a special topic agreed upon by the student and the chair of the student's examining committee.

Doctor of Philosophy

Admission Requirements

Mathematical training equivalent to a bachelor's degree with strong major in mathematics, including rigorous coursework in real analysis and abstract algebra.

Degree Requirements

90 credits minimum, as follows:

1. **Courses:** Must include two three-quarter sequences from the department's list of core graduate courses. The list of core courses includes MATH 504, MATH 505, MATH 506 ; MATH 524, MATH 525, MATH 526 ; MATH 534, MATH 535, MATH 536 ; MATH 544, MATH 545, MATH 546 ; A student may substitute a passing performance in a preliminary examination for satisfactory completion of the corresponding designated core course. Must include twelve quarters of 500-level numerically graded courses in mathematics, applied mathematics, or statistics. Courses from other departments may be included with approval of the Graduate Program Coordinator.
2. **Preliminary Examinations:** Pass two preliminary examinations. At least one of the preliminary examinations must be in algebra or topology and geometry of manifolds.
3. **Foreign Language/Computer Requirement:** Pass either one foreign language examination or one computer programming examination. A PhD student is expected to pass the language or computer examination by the end of summer quarter after the third year.
4. **General Examination:** An oral examination on a special area of intended research, given by a committee after the student has passed the preliminary examinations and the language examinations. This examination can be given only after two years of graduate study. Normally it should be taken by the middle of the student's fourth year. Thesis: An original contribution to knowledge. 27 credits of MATH 800 required.
5. **Final Examination:** An oral exam given by a committee headed by the thesis supervisor.

Financial Support

Most graduate students in mathematics are supported by fellowships, research assistantships, and teaching assistantships. The workload of teaching assistants allows ample time for graduate courses and thesis work.

COLLEGE OF ARTS & SCIENCES

MATHEMATICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MATH 098 Intermediate Algebra (0)

Intermediate algebra equivalent to third semester of high school algebra. Includes linear equations and models, linear systems in two variables, quadratic equations, completing the square, graphing parabolas, inequalities, working with roots and radicals, distance formula, functions and graphs, exponential and logarithmic functions. Instruction provided by community colleges on UW campus. Extra fee required. Offered: AWSp.

[View course details in MyPlan: MATH 098](#)

MATH 100 Algebra (5)

Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Offered: AWSp.

[View course details in MyPlan: MATH 100](#)

MATH 102 Algebra (5)

Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Prerequisite: MATH 100. Offered: AWSp.

[View course details in MyPlan: MATH 102](#)

MATH 103 Introduction to Elementary Functions (5)

Continues the study of algebra begun in MATH 100 and MATH 102 with emphasis on functions (polynomial, rational, logarithmic, exponential, and trigonometric). Open only to students who have completed MATH 102. Prerequisite: MATH 102. Offered: AWSp.

[View course details in MyPlan: MATH 103](#)

MATH 111 Algebra with Applications (5) NW, QSR

Use of graphs and algebraic functions as found in business and economics. Algebraic and graphical manipulations to solve problems. Exponential and logarithm functions; various applications to growth of money. Prerequisite: minimum grade of 2.0 in either MATH 098, MATH 102, or MATH 103, a score of 147-150 on the MPT-GS placement test, or a score of 144-163 on the MPT-AS placement test. Offered: AWS.

[View course details in MyPlan: MATH 111](#)

MATH 112 Application of Calculus to Business and Economics (5) NW, QSR

Rates of change, tangent, derivative, accumulation, area, integrals in specific contexts, particularly economics. Techniques of differentiation and integration. Application to problem solving. Optimization. Credit does not apply toward a mathematics major. Prerequisite: minimum grade of 2.0 in MATH 111. Offered: WSp.

[View course details in MyPlan: MATH 112](#)

MATH 120 Precalculus (5) NW

Basic properties of functions, graphs; with emphasis on linear, quadratic, trigonometric, exponential functions and their inverses. Emphasis on multi-step problem solving. Prerequisite: either a minimum grade of 2.5 in MATH 098, minimum grade of 3.0 in MATH 103, a score of 151-169 on the MPT-GS placement test, or score of 145-153 on the MPT-AS placement test. Offered: AWSpS.

[View course details in MyPlan: MATH 120](#)

MATH 124 Calculus with Analytic Geometry I (5) NW, QSR

First quarter in calculus of functions of a single variable. Emphasizes differential calculus. Emphasizes applications and problem solving using the tools of calculus. Prerequisite: either a minimum grade of 2.5 in MATH 120, a score of 154-163 on the MPT-AS placement test, or score of 2 on AP test. Offered: AWSpS.

[View course details in MyPlan: MATH 124](#)

MATH 125 Calculus with Analytic Geometry II (5) NW

Second quarter in the calculus of functions of a single variable. Emphasizes integral calculus. Emphasizes applications and problem solving using the tools of calculus. Prerequisite: either minimum grade of 2.0 in MATH 124, score of 3 on AB advanced placement test, or score of 3 on BC advanced placement test. Offered: AWSpS.

[View course details in MyPlan: MATH 125](#)

MATH 126 Calculus with Analytic Geometry III (5) NW

Third quarter in calculus sequence. Introduction to Taylor polynomials and Taylor series, vector geometry in three dimensions, introduction to multivariable differential calculus, double integrals in Cartesian and polar coordinates. Prerequisite: minimum grade of 2.0 in MATH 125, score of 5 on AB advanced placement test, or score of 4 on BC advanced placement test. Offered: AWSpS.

[View course details in MyPlan: MATH 126](#)

MATH 134 Accelerated [Honors] Calculus (5) NW, QSR

Covers the material of MATH 124, MATH 125, MATH 126; MATH 307, MATH 308. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for MATH 124 after taking MATH 134. For students with above average preparation, interest, and ability in mathematics. Offered: A.

[View course details in MyPlan: MATH 134](#)

MATH 135 Accelerated [Honors] Calculus (5) NW

Covers the material of MATH 124, MATH 125, MATH 126; MATH 307, MATH 308. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for MATH 125 after taking MATH 135. For students with above average preparation, interest, and ability in mathematics. Prerequisite: Minimum grade of 2.0 in MATH 134. Offered: W.

[View course details in MyPlan: MATH 135](#)

MATH 136 Accelerated [Honors] Calculus (5) NW

Covers the material of MATH 124, MATH 125, MATH 126; MATH 307, MATH 308. First year of a two-year accelerated sequence. May not receive credit for both MATH 126 and MATH 136. For students with above average preparation, interest, and ability in mathematics. Prerequisite: minimum grade of 2.0 in MATH 135. Offered: Sp.

[View course details in MyPlan: MATH 136](#)

MATH 197 Problem Solving in Mathematics (2, max. 4) NW

Lectures and problem sessions in mathematics with applications. Enrollment restricted to EOP students only.

Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: MATH 197](#)

MATH 198 Special Topics in Mathematics (1-5, max. 15)

Independent reading in math. Does not count as credit toward a math major. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: MATH 198](#)

MATH 300 Introduction to Mathematical Reasoning (3) NW

Mathematical arguments and the writing of proofs in an elementary setting. Elementary set theory, elementary examples of functions and operations on functions, the principle of induction, counting, elementary number theory, elementary combinatorics, recurrence relations. Prerequisite: minimum grade of 2.0 in either MATH 126 or MATH 136. Offered: AWSpS.

[View course details in MyPlan: MATH 300](#)

MATH 301 Elementary Number Theory (3) NW

Brief introduction to some of the fundamental ideas of elementary number theory. Prerequisite: minimum grade of 2.0 in MATH 126 and MATH 300, or minimum grade of 2.0 in MATH 136, or minimum grade of 2.0 in MATH 334.

[View course details in MyPlan: MATH 301](#)

MATH 307 Introduction to Differential Equations (3) NW

Introductory course in ordinary differential equations. Includes first- and second-order equations and Laplace transform. Prerequisite: minimum grade of 2.0 in MATH 125. Offered: AWSpS.

[View course details in MyPlan: MATH 307](#)

MATH 308 Matrix Algebra with Applications (3) NW

Systems of linear equations, vector spaces, matrices, subspaces, orthogonality, least squares, eigenvalues, eigenvectors, applications. For students in engineering, mathematics, and the sciences. Prerequisite: minimum grade of 2.0 in MATH 126. Offered: AWSpS.

[View course details in MyPlan: MATH 308](#)

MATH 309 Linear Analysis (3) NW

First order systems of linear differential equations, Fourier series and partial differential equations, and the phase plane. Prerequisite: either a minimum grade of 2.0 in both MATH 307 and MATH 308 or minimum grade of 2.0 in MATH 136. Offered: AWSpS.

[View course details in MyPlan: MATH 309](#)

MATH 324 Advanced Multivariable Calculus I (3) NW

Topics include double and triple integrals, the chain rule, vector fields, line and surface integrals. Culminates in the theorems of Green and Stokes, along with the Divergence Theorem. Prerequisite: minimum grade of 2.0 in either MATH 126 or MATH 136. Offered: AWSpS.

[View course details in MyPlan: MATH 324](#)

MATH 327 Introductory Real Analysis I (3) NW

Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on continuous functions, theory of the Riemann integral. Prerequisite: minimum grade of 2.0 in MATH 300, or MATH 334. Offered: AWSpS.

[View course details in MyPlan: MATH 327](#)

MATH 328 Introductory Real Analysis II (3) NW

Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on continuous functions, theory of the Riemann integral. Prerequisite: minimum grade of 2.0 in MATH 327. Offered: WSpS.

[View course details in MyPlan: MATH 328](#)

MATH 334 Accelerated [Honors] Advanced Calculus (5) NW

Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 300, MATH 309, MATH 324, MATH 327, MATH 328, and MATH 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: either minimum grade of 2.0 in MATH 136, or minimum grade of 3.0 in all MATH 126 and MATH 307 and MATH 308. Offered: A.

[View course details in MyPlan: MATH 334](#)

MATH 335 Accelerated [Honors] Advanced Calculus (5) NW

Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 300, MATH 309, MATH 324, MATH 327, MATH 328, and MATH 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: minimum grade of 2.0 in MATH 334. Offered: W.

[View course details in MyPlan: MATH 335](#)

MATH 336 Accelerated [Honors] Advanced Calculus (5) NW

Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 300, MATH 309, MATH 324, MATH 327, MATH 328, and MATH 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: minimum grade of 2.0 in MATH 335. Offered: Sp.

[View course details in MyPlan: MATH 336](#)

MATH 340 Abstract Linear Algebra (3) NW

Linear algebra from a theoretical point of view. Abstract vector spaces and linear transformations, bases and linear independence, matrix representations, Jordan canonical form, linear functionals, dual space, bilinear forms and inner product spaces. Prerequisite: minimum grade of 2.0 in MATH 334 or 2.0 in each of MATH 300 and MATH 308.

[View course details in MyPlan: MATH 340](#)

MATH 380 Intermediate Topics in Undergraduate Mathematics (3, max. 12) NW

Covers intermediate topics in undergraduate mathematics.

[View course details in MyPlan: MATH 380](#)

MATH 381 Discrete Mathematical Modeling (3) NW

Introduction to methods of discrete mathematics, including topics from graph theory, network flows, and combinatorics. Emphasis on these tools to formulate models and solve problems arising in variety of applications, such as computer science, biology, and management science. Prerequisite: minimum grade of 2.0 in either CSE 142, CSE 143, or AMATH 301; minimum grade of 2.0 in either MATH 136 or MATH 308. Offered: AWS.

[View course details in MyPlan: MATH 381](#)

MATH 390 Statistical Methods in Engineering and Science (4) NW

Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may receive credit for only one of STAT 390, STAT 481/ECON 481, and ECON 580. Prerequisite: either MATH 126 or MATH 136. Offered: jointly with STAT 390; AWSpS.

[View course details in MyPlan: MATH 390](#)

MATH 394 Probability I (3) NW

Sample spaces; basic axioms of probability; combinatorial probability; conditional probability and independence; binomial, Poisson, and normal distributions. Prerequisite: minimum grade of 2.0 in either MATH

126 or MATH 136. Offered: jointly with STAT 394; AWS.

[View course details in MyPlan: MATH 394](#)

MATH 395 Probability II (3) NW

Random variables; expectation and variance; laws of large numbers; normal approximation and other limit theorems; multidimensional distributions and transformations. Prerequisite: minimum grade of 2.0 in STAT/MATH 394. Offered: jointly with STAT 395; WSpS.

[View course details in MyPlan: MATH 395](#)

MATH 396 Probability III (3) NW

Characteristic functions and generating functions; recurrent events and renewal theory; random walk.

Prerequisite: minimum grade of 2.0 in either MATH 395 or STAT 395, or minimum grade of 2.0 in STAT 340 and in STAT 341. Offered: jointly with STAT 396; Sp.

[View course details in MyPlan: MATH 396](#)

MATH 398 Special Topics in Mathematics (1-5, max. 15)

Independent reading in math. Does not count as credit toward a math major. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: MATH 398](#)

MATH 399 Undergraduate Research (1-5, max. 15)

Research opportunity for undergraduates. Offered: AWSpS.

[View course details in MyPlan: MATH 399](#)

MATH 402 Introduction to Modern Algebra (3) NW

Elementary theory of groups: Cosets and Lagrange's theorem. Homomorphisms, normal subgroups, quotient groups, and the fundamental isomorphism theorems. Cyclic and symmetric groups. Orders and Cauchy's theorem. Direct products. Automorphisms. Prerequisite: either minimum grade of 2.0 in MATH 300 and MATH 308, or MATH 334. Offered: AS.

[View course details in MyPlan: MATH 402](#)

MATH 403 Introduction to Modern Algebra (3) NW

Elementary theory of rings and fields: polynomial rings. Ideals, homomorphisms, quotients, and fundamental isomorphism theorems. Fields and maximal ideals. Euclidean rings. Field extensions. Algebraic extensions. Vector spaces and degrees of extensions. Adjoining roots of polynomials. Finite fields. Straight edge and compass constructions. Prerequisite: minimum grade of 2.0 in MATH 402. Offered: W.

[View course details in MyPlan: MATH 403](#)

MATH 404 Introduction to Modern Algebra (3) NW

Topics in algebra chosen from Galois theory, theory of modules, geometric group actions, and the theory of rings and fields. Specific content determined by instructor. Prerequisite: minimum grade of 2.0 in MATH 403.

Offered: Sp.

[View course details in MyPlan: MATH 404](#)

MATH 407 Linear Optimization (3) NW

Maximization and minimization of linear functions subject to constraints consisting of linear equations and inequalities; linear programming and mathematical modeling. Simplex method, elementary games and duality. Prerequisite: minimum grade of 2.0 in either MATH 136, MATH 308, or AMATH 352. Offered: AWS.

[View course details in MyPlan: MATH 407](#)

MATH 408 Nonlinear Optimization (3) NW

Maximization and minimization of nonlinear functions, constrained and unconstrained; nonlinear programming problems and methods. Lagrange multipliers; Kuhn-Tucker conditions, convexity. Quadratic programming.

Prerequisite: minimum grade of 2.0 in MATH 407 or MATH 464; minimum grade of 2.0 in either MATH 327 or

MATH 334. Offered: W.

[View course details in MyPlan: MATH 408](#)

MATH 409 Discrete Optimization (3) NW

Maximization and minimization problems in graphs and networks (shortest paths, minimum spanning trees, maximum flows, minimum cost flows); transportation and trans-shipment problems, NP-completeness.

Prerequisite: minimum grade of 2.0 in MATH 407; minimum grade of 2.0 in MATH 300. Offered: Sp.

[View course details in MyPlan: MATH 409](#)

MATH 411 Introduction to Modern Algebra for Teachers (3) NW

Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Designed for teaching majors; not open for credit to students who have taken MATH 402, MATH 403. Cannot be used as elective credit for either BS program in mathematics.

Prerequisite: minimum grade of 2.0 in either MATH 136 or MATH 308. Offered: AS.

[View course details in MyPlan: MATH 411](#)

MATH 412 Introduction to Modern Algebra for Teachers (3) NW

Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Designed for teaching majors; not open for credit to students who have taken MATH 402, MATH 403. Cannot be used as elective credit for either BS program in mathematics.

Prerequisite: minimum grade of 2.0 in MATH 411. Offered: WS.

[View course details in MyPlan: MATH 412](#)

MATH 420 History of Mathematics (3) NW

Survey of the development of mathematics from its earliest beginnings through the first half of the twentieth century. Prerequisite: minimum grade of 2.0 in either MATH 126 or MATH 136. Offered: S.

[View course details in MyPlan: MATH 420](#)

MATH 424 Fundamental Concepts of Analysis (3) NW

The real number system; field, order, and LUB axioms. Metric spaces: Euclidean space. Bolzano-Weierstrass property. Sequences and limits of sequences. Cauchy sequences and completeness. The Heine-Borel Theorem. Uniform continuity. Connected sets and the intermediate value theorem. Prerequisite: minimum grade of 2.0 in MATH 324; minimum grade of 2.0 in either MATH 328 or MATH 335. Offered: A.

[View course details in MyPlan: MATH 424](#)

MATH 425 Fundamental Concepts of Analysis (3) NW

One-variable differential calculus: chain rule, inverse function theorem, Rolle's theorem, intermediate value theorem, Taylor's theorem, and intermediate value theorem for derivatives. Multivariable differential calculus: mean value theorem, inverse and implicit function theorems, and Lagrange multipliers. Prerequisite: minimum grade of 2.0 in either MATH 136 or MATH 308; minimum grade of 2.0 in MATH 424. Offered: W.

[View course details in MyPlan: MATH 425](#)

MATH 426 Fundamental Concepts of Analysis (3) NW

Lebesgue measure on the reals. Construction of the Lebesgue integral and its basic properties. Monotone Convergence Theorem, Fatou's Lemma, and Dominated Convergence Theorem. Integration of series. Continuity and differentiability theorems for functions defined by integrals. Introduction to general measures and integration. Prerequisite: minimum grade of 2.0 in MATH 425. Offered: Sp.

[View course details in MyPlan: MATH 426](#)

MATH 427 Complex Analysis (3) NW

Complex numbers; analytic functions; sequences and series; complex integration; Cauchy integral formula; Taylor and Laurent series; uniform convergence; residue theory; conformal mapping. Topics chosen from: Fourier series and integrals, Laplace transforms, infinite products, complex dynamics; additional topics chose by instructor. Prerequisite: minimum grade of 2.0 in either MATH 327 or MATH 335. Offered: AS.

[View course details in MyPlan: MATH 427](#)

MATH 428 Complex Analysis (3) NW

Continuation of MATH 427. Prerequisite: either minimum grade of 2.0 in MATH 427 or MATH 336 Offered: W.

[View course details in MyPlan: MATH 428](#)

MATH 441 Topology (3) NW

Metric and topological spaces, convergence, continuity, finite products, connectedness, and compactness.

Prerequisite: minimum grade of 2.0 in either MATH 328 or MATH 335. Offered: AS.

[View course details in MyPlan: MATH 441](#)

MATH 442 Differential Geometry (3) NW

Examines curves in the plane and 3-spaces, surfaces in 3-space, tangent planes, first and second fundamental forms, curvature, the Gauss-Bonnet Theorem, and possible other selected topics. Prerequisite: either minimum grade of 2.0 in MATH 335, or MATH 308 and MATH 324; and minimum grade of 2.0 in either MATH 441 or MATH 424. Offered: W.

[View course details in MyPlan: MATH 442](#)

MATH 443 Differential Geometry (3) NW *J. ARMS, E. DEVINATZ*

Further examines curves in the plane and 3-spaces, surfaces in 3-space, tangent planes, first and second fundamental forms, curvature, the Gauss-Bonnet Theorem, and possible other selected topics. Prerequisite: minimum grade of 2.0 in MATH 442. Offered: Sp.

[View course details in MyPlan: MATH 443](#)

MATH 444 Geometry for Teachers (3) NW

Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Designed for teaching majors. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: either minimum grade of 2.0 in MATH 334, or minimum grade of 2.0 in MATH 300 and MATH 308. Offered: WS.

[View course details in MyPlan: MATH 444](#)

MATH 445 Geometry for Teachers (3) NW

Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Designed for teaching majors. Cannot be used as elective credit for either BS program in mathematics. Prerequisite: minimum grade of 2.0 in MATH 444.

Offered: SpS.

[View course details in MyPlan: MATH 445](#)

MATH 461 Combinatorial Theory (3) NW

Selected topics from among: block designs and finite geometries, coding theory, generating functions and other enumeration methods, graph theory, matroid theory, combinatorial algorithms, applications of combinatorics.

Prerequisite: minimum grade of 2.0 in either MATH 334 or minimum grade of 2.0 in MATH 300 and minimum grade of 2.0 in either MATH 136 or MATH 308. Offered: A.

[View course details in MyPlan: MATH 461](#)

MATH 462 Combinatorial Theory (3) NW

Selected topics from among: block designs and finite geometries, coding theory, generating functions and other enumeration methods, graph theory, matroid theory, combinatorial algorithms, applications of combinatorics.

Prerequisite: minimum grade of 2.0 in MATH 461 or CSE 421. Offered: W.

[View course details in MyPlan: MATH 462](#)

MATH 464 Numerical Analysis I (3) NW

Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of

differential equations and systems of such equations. Prerequisite: minimum grade of 2.0 in either MATH 136, MATH 308, or MATH 335 Offered: A.

[View course details in MyPlan: MATH 464](#)

MATH 465 Numerical Analysis II (3) NW

Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: minimum grade of 2.0 in MATH 464. Offered: W.

[View course details in MyPlan: MATH 465](#)

MATH 466 Numerical Analysis III (3) NW

Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: minimum grade of 2.0 in either MATH 136, both MATH 307 and MATH 308, or MATH 335.

[View course details in MyPlan: MATH 466](#)

MATH 480 Advanced Topics in Undergraduate Mathematics (3, max. 12)

Covers advanced topics in undergraduate mathematics.

[View course details in MyPlan: MATH 480](#)

MATH 491 Introduction to Stochastic Processes (3) NW

Random walks, Markov chains, branching processes, Poisson process, point processes, birth and death processes, queuing theory, stationary processes. Prerequisite: minimum grade of 2.0 in MATH 396 or STAT 396. Offered: jointly with STAT 491; A.

[View course details in MyPlan: MATH 491](#)

MATH 492 Stochastic Calculus for Option Pricing (3) NW

Introductory stochastic calculus mathematical foundation for pricing options and derivatives. Basic stochastic analysis tools, including stochastic integrals, stochastic differential equations, Ito's formula, theorems of Girsanov and Feynman-Kac, Black-Scholes option pricing, American and exotic options, bond options. Prerequisite: minimum grade of 2.0 in either MATH 395 or STAT 395 OR STAT 340 and STAT 341. Offered: jointly with STAT 492; W.

[View course details in MyPlan: MATH 492](#)

MATH 496 Honors Senior Thesis (1-5) NW

Problem seminar for Honors students. Cannot be repeated for credit. Offered: AWSp.

[View course details in MyPlan: MATH 496](#)

MATH 497 Special Topics in Mathematics for Teachers (2-9, max. 9) NW

Study of selected areas of mathematics. Designed for the improvement of teachers of mathematics. Offered: jointly with EDC&I 478.

[View course details in MyPlan: MATH 497](#)

MATH 498 Special Topics in Mathematics (1-5, max. 15)

Reading and lecture course intended for special needs of advanced students. Offered: AWSpS.

[View course details in MyPlan: MATH 498](#)

MATH 499 Undergraduate Research (8) NW

Summer research opportunity for undergraduates. Credit/no-credit only. Offered: S.

[View course details in MyPlan: MATH 499](#)

MATH 504 Modern Algebra (5)

First quarter of a three-quarter sequence covering group theory; field theory and Galois theory; commutative rings and modules, linear algebra, theory of forms; representation theory, associative rings and modules; commutative algebra and elementary algebraic geometry. Prerequisite: MATH 404 or equivalent.

[View course details in MyPlan: MATH 504](#)

MATH 505 Modern Algebra (5)

Continuation of MATH 504. Prerequisite: MATH 504.

[View course details in MyPlan: MATH 505](#)

MATH 506 Modern Algebra (5)

Continuation of MATH 505. Prerequisite: MATH 505.

[View course details in MyPlan: MATH 506](#)

MATH 507 Algebraic Structures (3)

First quarter of a three-quarter sequence covering homological algebra, advanced commutative algebra, and Lie algebras and representation theory. Specific topics include chain complexes, resolutions and derived functors, dimension theory, Cohen-Macaulay modules, Gorenstein rings, local cohomology, local duality, triangulated and derived categories, group cohomology, and structure and representation.

[View course details in MyPlan: MATH 507](#)

MATH 508 Algebraic Structures (3)

Second quarter of a three-quarter sequence covering homological algebra, advanced commutative algebra, and Lie algebras and representation theory. Specific topics include chain complexes, resolutions and derived functors, dimension theory, Cohen-Macaulay modules, Gorenstein rings, local cohomology, local duality, triangulated and derived categories, group cohomology, and structure and representation. Prerequisite: MATH 507.

[View course details in MyPlan: MATH 508](#)

MATH 509 Algebraic Structures (3)

Third quarter of a three-quarter sequence covering homological algebra, advanced commutative algebra, and Lie algebras and representation theory. Specific topics include chain complexes, resolutions and derived functors, dimension theory, Cohen-Macaulay modules, Gorenstein rings, local cohomology, local duality, triangulated and derived categories, group cohomology, and structure and representation. Prerequisite: MATH 508.

[View course details in MyPlan: MATH 509](#)

MATH 510 Seminar in Algebra (2-5, max. 12)

Prerequisite: permission of Graduate Program Coordinator. Credit/no-credit only.

[View course details in MyPlan: MATH 510](#)

MATH 514 Networks and Combinatorial Optimization (3)

Mathematical foundations of combinatorial and network optimization with an emphasis on structure and algorithms with proofs. Topics include combinatorial and geometric methods for optimization of network flows, matching, traveling salesmen problem, cuts, and stable sets on graphs. Special emphasis on connections to linear and integer programming, duality theory, total unimodularity, and matroids. Prerequisite: either MATH 308 or AMATH 352 any additional 400-level mathematics course. Offered: jointly with AMATH 514.

[View course details in MyPlan: MATH 514](#)

MATH 515 Fundamentals of Optimization (5)

Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisite: linear algebra and advanced calculus. Offered: jointly with AMATH 515/IND E 515.

[View course details in MyPlan: MATH 515](#)

MATH 516 Numerical Optimization (3)

Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Offered: jointly with AMATH 516.

[View course details in MyPlan: MATH 516](#)

MATH 518 Theory of Optimal Control (3)

Trajectories from ordinary differential equations with control variables. Controllability, optimality, maximum principle. Relaxation and existence of solutions. Techniques of nonsmooth analysis. Prerequisite: real analysis on the level of MATH 426; background in optimization corresponding to MATH 515. Offered: jointly with AMATH 518.

[View course details in MyPlan: MATH 518](#)

MATH 521 Advanced Probability (3)

Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 521; A.

[View course details in MyPlan: MATH 521](#)

MATH 522 Advanced Probability (3)

Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 522; W.

[View course details in MyPlan: MATH 522](#)

MATH 523 Advanced Probability (3)

Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 523; Sp.

[View course details in MyPlan: MATH 523](#)

MATH 524 Real Analysis (5)

First quarter of a three-quarter sequence covering the theory of measure and integration, point set topology, Banach spaces, L_p spaces, applications to the theory of functions of one and several real variables. Additional topics to be chosen by instructor. Prerequisite: MATH 426 or equivalent.

[View course details in MyPlan: MATH 524](#)

MATH 525 Real Analysis (5)

Continuation of MATH 524. Prerequisite: MATH 524.

[View course details in MyPlan: MATH 525](#)

MATH 526 Real Analysis (5)

Continuation of MATH 525. Prerequisite: MATH 525.

[View course details in MyPlan: MATH 526](#)

MATH 527 Functional Analysis (3)

First of three-quarter sequence. Review of Banach, Hilbert, and L_p spaces; locally convex spaces (duality and separation theory, distributions, and function spaces); operators on locally convex spaces (adjoints, closed graph/open mapping and Banach-Steinhaus theorems); Banach algebras (spectral theory, elementary applications); spectral theorem for Hilbert space operators. Working knowledge of real variables, general topology, complex variables.

[View course details in MyPlan: MATH 527](#)

MATH 528 Functional Analysis (3)

Continuation of MATH 527. Prerequisite: MATH 527.

[View course details in MyPlan: MATH 528](#)

MATH 529 Functional Analysis (3)

Continuation of MATH 528. Prerequisite: MATH 528.

[View course details in MyPlan: MATH 529](#)

MATH 530 Seminar in Analysis (2-5, max. 12)

Prerequisite: permission of graduate program coordinator. Credit/no-credit only.

[View course details in MyPlan: MATH 530](#)

MATH 534 Complex Analysis (5)

First quarter of a three-quarter sequence covering complex numbers, analytic functions, contour integration, power series, analytic continuation, sequences of analytic functions, conformal mapping of simply connected regions, and related topics. Prerequisite: MATH 426.

[View course details in MyPlan: MATH 534](#)

MATH 535 Complex Analysis (5)

Continuation of MATH 534. Prerequisite: MATH 534.

[View course details in MyPlan: MATH 535](#)

MATH 536 Complex Analysis (5)

Continuation of MATH 535. Prerequisite: MATH 535.

[View course details in MyPlan: MATH 536](#)

MATH 544 Topology and Geometry of Manifolds (5)

First quarter of a three-quarter sequence covering general topology, the fundamental group, covering spaces, topological and differentiable manifolds, vector fields, flows, the Frobenius theorem, Lie groups, homogeneous spaces, tensor fields, differential forms, Stokes's theorem, deRham cohomology. Prerequisite: MATH 404 and MATH 426 or equivalent.

[View course details in MyPlan: MATH 544](#)

MATH 545 Topology and Geometry of Manifolds (5)

Continuation of MATH 544. Prerequisite: MATH 544.

[View course details in MyPlan: MATH 545](#)

MATH 546 Topology and Geometry of Manifolds (5)

Continuation of MATH 545. Prerequisite: MATH 545.

[View course details in MyPlan: MATH 546](#)

MATH 547 Geometric Structures (3, max. 9)

First quarter of a three-quarter sequence covering differential-geometric structures on manifolds, Riemannian metrics, geodesics, covariant differentiation, curvature, Jacobi fields, Gauss-Bonnet theorem. Additional topics to be chosen by the instructor, such as connections in vector bundles and principal bundles, symplectic geometry, Riemannian comparison theorems, symmetric spaces, complex manifolds, Hodge theory. Prerequisite: MATH 546

[View course details in MyPlan: MATH 547](#)

MATH 548 Geometric Structures (3, max. 9)

Continuation of MATH 547. Prerequisite: MATH 547.

[View course details in MyPlan: MATH 548](#)

MATH 549 Geometric Structures (3, max. 9)

Continuation of MATH 548. Prerequisite: MATH 548.

[View course details in MyPlan: MATH 549](#)

MATH 550 Seminar in Geometry (2-5, max. 12)

Prerequisite: permission of Graduate Program Coordinator. Credit/no-credit only.

[View course details in MyPlan: MATH 550](#)

MATH 554 Linear Analysis (5)

First quarter of a three-quarter sequence covering advanced linear algebra and matrix analysis, ordinary differential equations (existence and uniqueness theory, linear systems, numerical approximations), Fourier analysis, introductions to functional analysis and partial differential equations, distribution theory. Prerequisite: MATH 426 and familiarity with complex analysis at the level of MATH 427 (the latter may be obtained concurrently).

[View course details in MyPlan: MATH 554](#)

MATH 555 Linear Analysis (5)

Continuation of MATH 554. Prerequisite: MATH 554.

[View course details in MyPlan: MATH 555](#)

MATH 556 Linear Analysis (5)

Continuation of MATH 555. Prerequisite: MATH 555.

[View course details in MyPlan: MATH 556](#)

MATH 557 Introduction to Partial Differential Equations (3)

First quarter of a three-quarter sequence. Reviews the theory of distribution theory, weak derivatives, and Fourier transform; Laplace, heat, wave, Schrodinger equations; and notion of Euler-Lagrange equation and variational derivative. Prerequisite: either MATH 526 or MATH 556.

[View course details in MyPlan: MATH 557](#)

MATH 558 Introduction to Partial Differential Equations (3)

Continuation of MATH 557. Covers Sobolev spaces; boundary value problems; additional topics may include: Cauchy-Kowalevski theorem, first order equations, initial value problems, and variational methods. Prerequisite: MATH 557.

[View course details in MyPlan: MATH 558](#)

MATH 559 Introduction to Partial Differential Equations (3)

Continuation of MATH 558. Covers selected topics such as: introduction to microlocal analysis, Lax parametrix construction, Schauder estimates, Calderon-Zygmund theory, energy methods, and boundary regularity on rough domains. Prerequisite: MATH 558.

[View course details in MyPlan: MATH 559](#)

MATH 561 Foundations of Combinatorics (3)

First quarter of a three-quarter sequence on combinatorics, covering topics selected from among enumeration, generating functions, ordered structures, graph theory, algebraic combinatorics, geometric combinatorics, and extremal and probabilistic combinatorics. Prerequisite: familiarity with linear algebra, discrete probability, and MATH 504, 505, 506, which may be taken concurrently.

[View course details in MyPlan: MATH 561](#)

MATH 562 Foundations of Combinatorics (3)

Second quarter of a three-quarter sequence on combinatorics, covering topics selected from among enumeration, generating functions, ordered structures, graph theory, algebraic combinatorics, geometric combinatorics, and extremal and probabilistic combinatorics. Prerequisite: MATH 561.

[View course details in MyPlan: MATH 562](#)

MATH 563 Foundations of Combinatorics (3)

Third quarter of a three-quarter sequence on combinatorics, covering topics selected from among enumeration,

generating functions, ordered structures, graph theory, algebraic combinatorics, geometric combinatorics⁷⁶⁰, and extremal and probabilistic combinatorics. Prerequisite: MATH 562.

[View course details in MyPlan: MATH 563](#)

MATH 564 Algebraic Topology (3)

First quarter of a three-quarter sequence covering classical and modern approaches; complexes and their homology theory; applications; fixed points, products and Poincare duality; axiomatic approach. Prerequisite: MATH 506 and MATH 544, or equivalent.

[View course details in MyPlan: MATH 564](#)

MATH 565 Algebraic Topology (3)

Continuation of MATH 564. Prerequisite: MATH 564.

[View course details in MyPlan: MATH 565](#)

MATH 566 Algebraic Topology (3)

Continuation of MATH 565. Prerequisite: MATH 565.

[View course details in MyPlan: MATH 566](#)

MATH 567 Algebraic Geometry (3)

First quarter of a three-quarter sequence covering the basic theory of affine and projective varieties, rings of functions, the Hilbert Nullstellensatz, localization, and dimension; the theory of algebraic curves, divisors, cohomology, genus, and the Riemann-Roch theorem; and related topics. Prerequisite: MATH 506.

[View course details in MyPlan: MATH 567](#)

MATH 568 Algebraic Geometry (3)

Continuation of MATH 567. Prerequisite: MATH 567.

[View course details in MyPlan: MATH 568](#)

MATH 569 Algebraic Geometry (3)

Continuation of MATH 568. Prerequisite: MATH 568.

[View course details in MyPlan: MATH 569](#)

MATH 570 Seminar in Topology (2-5, max. 12)

Prerequisite: permission of graduate program coordinator. Credit/no-credit only.

[View course details in MyPlan: MATH 570](#)

MATH 574 Fundamental Concepts of Analysis (3)

Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

[View course details in MyPlan: MATH 574](#)

MATH 575 Fundamental Concepts of Analysis (3)

Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

[View course details in MyPlan: MATH 575](#)

MATH 576 Fundamental Concepts of Analysis (3)

Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

[View course details in MyPlan: MATH 576](#)

MATH 577 Lie Groups and Lie Algebras (3, max. 9)

Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

[View course details in MyPlan: MATH 577](#)

MATH 578 Lie Groups and Lie Algebras (3, max. 9)

Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

[View course details in MyPlan: MATH 578](#)

MATH 579 Lie Groups and Lie Algebras (3, max. 9)

Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

[View course details in MyPlan: MATH 579](#)

MATH 580 Current Topics in Mathematics (2, max. 12)

Discussion of current research topics in mathematics, with emphasis on current departmental research projects and interests. Offered: AWSp.

[View course details in MyPlan: MATH 580](#)

MATH 581 Special Topics in Mathematics (1-5, max. 36)

Advanced topics in various areas of mathematics. Offered: A.

[View course details in MyPlan: MATH 581](#)

MATH 582 Special Topics in Mathematics (1-5, max. 36)

Advanced topics in various areas of mathematics. Offered: W.

[View course details in MyPlan: MATH 582](#)

MATH 583 Special Topics in Mathematics (1-5, max. 36)

Advanced topics in various areas of mathematics. Offered: Sp.

[View course details in MyPlan: MATH 583](#)

MATH 584 Applied Linear Algebra and Introductory Numerical Analysis (5)

Numerical methods for solving linear systems of equations, linear least squares problems, matrix eigen value problems, nonlinear systems of equations, interpolation, quadrature, and initial value ordinary differential equations. Prerequisite: either a course in linear algebra or permission of instructor. Offered: jointly with AMATH 584; A.

[View course details in MyPlan: MATH 584](#)

MATH 585 Numerical Analysis of Boundary Value Problems (5)

Numerical methods for steady-state differential equations. Two-point boundary value problems and elliptic equations. Iterative methods for sparse symmetric and non-symmetric linear systems: conjugate-gradients, preconditioners. Prerequisite: either AMATH 581, AMATH 584/MATH 584, or permission of instructor. Offered: jointly with AMATH 585; W.

[View course details in MyPlan: MATH 585](#)

MATH 586 Numerical Analysis of Time Dependent Problems (5)

Numerical methods for time-dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence theory. Spectral and pseudospectral

methods. Prerequisite: either AMATH 581, AMATH 584/MATH 584, AMATH 585/MATH 585, or permission⁷⁸² of instructor. Offered: jointly with AMATH 586/ATM S 581; Sp.

[View course details in MyPlan: MATH 586](#)

MATH 590 Seminar in Probability (2-5, max. 12)

Prerequisite: permission of instructor. Credit/no-credit only.

[View course details in MyPlan: MATH 590](#)

MATH 597 Seminar on Teaching Math (1, max. 3)

Issues in the teaching and learning of college mathematics, such as discovering and working with student background and expectations, increasing student engagement with course material, and evaluating student achievement. For graduate students who are, or soon will be, teaching mathematics courses on their own. Credit/no-credit only.

Music

[Display as tabs](#)

School Overview

102 Music

The mission of the School of Music is creation, discovery, preservation, and transmission of a wide and diverse range of music from across time and place. Students, faculty, and staff of the School of Music work together to expand the frontiers of artistic knowledge through the creative processes of performance, composition, and scholarly research.

The school's faculty includes leading performers, composers, and scholars. Renowned guest artists and scholars regularly perform and teach. Through its instructional offerings, the School of Music provides opportunities for all UW students to explore the role of music in cultures of the world -- past, present, and future. The school teaches students to think creatively and critically. The faculty provides professional training to musical performers, composers, and academic scholars. The school's ultimate goal is to inspire students to reach the highest standards and ideals of excellence in both artistic and scholarly endeavors.

The school is a vital part of the artistic and scholarly life of the UW and plays a prominent role in Seattle and greater Pacific Northwest music and art communities. The school also offers each year over 100 public concerts of music spanning more than a millennium, with offerings that extend across many cultures.

Undergraduate Program

Adviser

116 Music, Box 353450

(206) 543-1239

musicadv@uw.edu

The School of Music offers the following programs of study:

- Bachelor of Arts degree with a major in music (plus music history option; voice option; instrumental track; early music option; music theory option)
- Bachelor of Arts degree with a major in American music studies
- Bachelor of Music degree with a major in composition, piano, string instruments, voice, organ, orchestral instruments, guitar, jazz studies, percussion (with options in orchestral percussion and in contemporary percussion and mallet keyboard), and music education; and an option in music history.

- Bachelor of Arts degree with a major in ethnomusicology.
- Minor in music

Information Applicable to All Music Majors

Department Admission Requirements

Admission is competitive to all music programs. All students must participate in an entrance audition or submit an application and satisfy the requirements of each degree program or track for admittance. Check department website for entrance audition dates. Major status in performance areas is accorded when, after admission to the College of Arts and Sciences is acknowledged and the required School of Music audition is successfully completed, the student commences applied-music study in a performance medium (e.g., voice) with an approved faculty member of the School of Music. In American music studies, music education, composition, and ethnomusicology, additional entrance requirements apply.

All music programs require instruction on an instrument. Auditions into freshman-level applied-music instruction (private lessons) are based on the assumption that a student's background includes four to eight years of private study on an instrument. Completion of a further two years of college-level private instruction does not automatically guarantee entry at the junior level of private instruction; placement is determined by an audition.

Most degree programs in the School of Music require one to two years of basic piano, to be completed during the course of study at the University.

Theory and Ear Training Preparation

In preparation for theory and ear training coursework, all students must be evaluated by placement test to determine their levels in music theory and music history. Students who have minimal background in these areas may be required to take MUSIC 113/MUSIC 119 and MUSIC 120.

Transfer students who have had at least two quarters of music theory or music history are evaluated by a faculty member the quarter they are admitted to their program.

Grade Requirements

Undergraduate music majors are required to earn a minimum 2.0 grade in each course (core and elective) counted toward music major requirements. An overall 2.50 minimum GPA in music coursework is required for graduation.

Bachelor of Arts

General Requirements

Minimum 180 credits, of which 90 must be taken in departments other than the School of Music. Piano proficiency at MUSAP 135 level. All College of Arts and Sciences graduation requirements must be met. Minimum cumulative 2.50 GPA for all music courses and a minimum 2.0 grade for each music course counted toward the major.

Major Requirements

1. *Music (63 credits)*: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/ MUSIC 304, MUSIC 302/MUSIC 305, MUSIC

303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 6 credits approved upper-level MUSIC or MUHST electives, 6 credits approved 300- or 400-level MUSAP, MUSEN, MUSIC, or MUHST courses, 10 credits MUSICP vocal or instrumental private applied instruction, 5 credits MUSEN (ensembles)

2. *Instrumental Track (69 credits)*: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 6 credits approved upper-level MUSIC or MUHST electives, 18 credits MUSICP instrumental private applied instruction, and 9 credits in ensembles
3. *Voice Option (75 credits)*: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course, plus 6 credits approved upper-level MUSIC or MUHST electives, 18 credits MUSICP vocal private applied instruction, 6 credits vocal diction, and 9 credits in ensembles. Proficiency through the third quarter college level in two languages from French, German, and Italian
4. *Early Music Option (66 credits)*: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 15 credits approved 300- and 400-level electives, selected from MUHST 400, MUHST 401, MUHST 406; MUSIC 418, MUSIC 421; MUSEN 369, MUSEN 383, and other approved 300- or 400-level courses. 10 credits MUSICP vocal or instrumental private applied instruction, 5 credits MUSEN (ensembles). Students are strongly encouraged to take 10 credits in pre-1700 literature, art history, and history courses as part to their VLPA requirement.
5. *Music History Option (69 credits)*: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 12 credits approved 400-level MUHST electives; 6 credits approved 300- or 400-level music theory or MUHST courses; 10 credits MUSICP vocal or instrumental private applied instruction; 5 credits MUSEN (ensembles). Students must earn a minimum 2.00 cumulative GPA for all required MUHST courses.
6. *Music Theory Option (63 credits)*: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; MUSIC 470, MUSIC 471, and minimum 6 credits selected from MUSIC 472, MUSIC 485, MUSIC 487, and/or MUSIC 489; 10 credits MUSICP vocal or instrumental private applied instruction; 5 credits MUSEN (ensembles)

Bachelor of Arts (with major in American music studies)

Study of the regional, racial, ethnic, sacred, secular, communal, and cultural diversities represented in the music of the Americas. Students are strongly encouraged to formulate individual programs under the guidance of faculty mentors. Interdisciplinary approaches, both within music or between music and other areas of study, serve as a primary focus of the program. In addition to major requirements, students must also complete general education requirements for the College of Arts and Sciences.

Admission Requirements

Admission is competitive. Meeting minimum grade and course requirements does not guarantee admission. Minimum 3.0 grade in two of the following courses: MUSIC 160, MUSIC 161, MUSIC 162, MUSIC 216, MUSIC 250, MUSIC 317, MUSIC 325, MUSIC 331, or MUHST 212. Minimum 2.50 cumulative GPA. Admission is based on student's transcripts, musical ability, and statement of purpose, which should explain the student's interest and intent, specifying the direction of study the students wishes to take and indicating the desired outcome(s) in terms of specialized knowledge and skills, and possible career directions(s).

74 credits

1. Core courses (30 credits): MUSIC 201, MUSIC 202, MUSIC 203, MUSIC 204, MUSIC 205, MUSIC 206, MUSIC 216, MUSIC 250, MUSIC 331, MUSIC 498, MUHST 212
2. Minimum 6 credits MUSEN ensembles
3. Minimum 23 credits approved American music studies electives with at least one course from each of the following lists: theory/music analysis; comparative perspective; and ethnomusicological/cultural. See adviser for approved lists.
4. Interdisciplinary electives (15 credits): upper-division non-music electives selected with faculty mentor, with permission of offering department
5. Minimum 2.50 cumulative GPA in music courses applied to the major
6. Minimum 2.0 grade in music courses applied to the major

Bachelor of Arts (with a major in ethnomusicology)

Study of music as culture as well as art. Students may be admitted to the degree program on the basis of a written application. Course requirements include selected courses in the School of Music's core curriculum, ethnomusicology courses encompassing diverse repertoires and topics, several interdisciplinary courses including at least one in socio-cultural anthropology, world music performance study, and a capstone senior project. In addition to the ethnomusicology major requirements, students must also complete the general education requirements for the College of Arts and Sciences.

Admission Requirements

Meeting minimum grade and course requirements does not guarantee admission. Minimum 3.0 grade in either MUSIC 316 or MUSIC 317, minimum 2.0 grade in each MUSIC course taken, and minimum 2.50 cumulative GPA to apply. Admission is competitive, based on student's transcripts, musical ability, and statement of purpose, which should explain the student's interest in ethnomusicology and potential areas of specialization.

Major Requirements

57-73 credits

1. Core courses (39-45 credits): minimum 2.00 cumulative GPA in MUSIC 201, MUSIC 202, MUSIC 203, MUSIC 204, MUSIC 205, MUSIC 206, MUSIC 316, MUSIC 317, MUSIC 499 (5 credits), and minimum six quarters of MUSAP 389 (12-18 credits)
2. Ethnomusicology electives (9-15 credits): minimum three 400-level ethnomusicology courses from approved list
3. Sociocultural anthropology elective (3 credits): minimum one sociocultural anthropology course from approved list
4. Interdisciplinary electives (6-10 credits): minimum two interdisciplinary electives from approved list
5. Minimum 2.00 cumulative GPA in courses applied to the major

Bachelor of Music***Admission Requirements***

All students must participate in an entrance audition as described above. Students admitted into the BA program have the option to jury into the B.M. program at the end of the freshman and sophomore years. The composition and music education programs have additional application requirements as described below.

General Requirements

Minimum 180 credits, of which at least 60 must be taken in departments other than the School of Music. All College of Arts and Sciences degree requirements must be met (including Language Skills and Reasoning and Writing in Context), except that students need take only 60 credits in Areas of Knowledge, to include at least 20 credits each in two of the following three areas: Visual, Literary, & Performing Arts; Individuals & Societies; and the Natural World. Piano proficiency at MUSAP 235 level, a minimum 2.0 grade in each music course counted toward the major, and a minimum 2.50 GPA in music courses.

Major Requirements (and Additional Admission Requirements, as noted)***Composition (114-120 credits)***

Additional Admission Requirements: MUSIC 302 and MUSIC 305; MUHST 212; and MUSIC 216, MUSIC 217, MUSIC 218. Prospective students must also submit a portfolio of recent compositions. See adviser for more information on the application process.

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus MUSIC 216, MUSIC 217, MUSIC 218; PHYS 207; 18 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 380, MUSIC 381, MUSIC 382; MUSIC 400 or MUSIC 401; MUSIC 471 or MUSIC 472; MUSIC 490; 18 credits of private instruction in composition (MUSIC 391/MUSIC 491); 12-18 credits of MUSICP applied instruction; 6 credits of MUSEN ensembles; and one 400-level course in ethnomusicology. See undergraduate adviser for more specific information.

Guitar (120 credits)

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; and at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 9 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 487 or MUSIC 438; 36 credits of MUSICP applied instruction; 7 credits of electives; 2 credits of recitals; MUSIC 326, MUSIC 327, MUSIC 328; MUSIC 434, MUSIC 435, MUSIC 436; MUSIC 380, MUSIC 381, MUSIC 382; and 12 credits of MUSEN ensembles. See undergraduate adviser for more specific information.

Jazz Studies (120 credits)

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 9 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 319 or MUSIC 331; MUHST 425; MUSIC 336 and MUSIC 436; MUSIC 467, MUSIC 468, MUSIC 469; MUSIC 379, MUSIC 479; 6 credits of MUSIC 464; 10 credits of music electives; 30 credits of MUSICP applied instruction; 12 credits of MUSEN ensembles. See undergraduate adviser for more specific information.

Music Education (115-119 credits)

Additional Admission Requirements: Students must complete a separate music education audition and interview. See adviser for more information on the application process.

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus MUSIC 350, MUSIC 351, MUSIC 352 (or MUSIC 380, MUSIC 381, MUSIC 382); MUSED 301; MUSED 304, MUSED 305; MUSED 340; MUSED 403; MUSED 405 (or MUSEN 303); MUSED 440; MUSED 442 (or MUSED 443); MUSED 452; MUSED 465; 18 credits of MUSICP applied instruction; 6-7 credits of MUSEN ensembles; 12-14 credits of techniques courses; 3 credits of approved jazz coursework; EDC&I 494; and 3 credits of education electives. See undergraduate adviser for more specific information.

Orchestral Instruments (116 credits)

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 12 credits of division-approved upper-level MUSIC or MUHST electives; 36 credits of MUSICP applied instruction; 18 credits of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See undergraduate adviser for more specific information.

Organ (120 credits)

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306, MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course, plus 12 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 487; 36 credits of MUSICP

applied instruction; MUSIC 454; MUSIC 473 and MUSIC 474; MUSIC 458 and MUSIC 459; MUSIC 350, MUSIC 351, MUSIC 352; 1 credit of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See undergraduate adviser for more specific information.

Piano (120 credits)

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course, plus 12 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 487; 36 credits of MUSICP applied instruction; MUSIC 434, MUSIC 435, MUSIC 436; MUSIC 326, MUSIC 327, MUSIC 328; 7 credits of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See undergraduate adviser for more specific information.

Percussion (119 credits)

MUSIC 201, MUSIC 202, MUSIC 203, MUSIC 301, MUSIC 302, MUSIC 303; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; MUSICP 337; MUSICP 340; MUSICP 341; MUSIC 379; MUSIC 479; 12 credits of MUSICP 443; 12 credits of MUSEN 304; minimum 18 credits from MUSICP 437, MUSICP 440, MUSICP 441, or MUSICP 442; minimum 6 credits from MUSEN 300, MUSEN 301, or MUSEN 302; minimum 3 credits from MUSEN 384, MUSEN 410, or MUSEN 411; 12 credits of approved upper-division MUSIC or MUHST electives; minimum 15 credits from one of the following options:

1. *Orchestral Percussion*: 3 additional credits of MUSICP 337; 6 additional credits of MUSICP 340; 6 additional credits of MUSEN 300, MUSEN 301, or MUSEN 302.
2. *Contemporary Percussion and Mallet Keyboard*: 3 credits of MUSICP 342; 6 additional credits of MUSICP 341; 6 additional credits of MUSEN 384, MUSEN 410, or MUSEN 411.

Strings (105 credits)

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 15 credits of division-approved upper-level MUSIC or MUHST electives; 36 credits of MUSICP applied instruction; MUSIC 380; 3 credits of electives; 2 credits of recitals; and 12 credits of MUSEN ensembles. See undergraduate adviser for more specific information.

Voice (119 credits)

MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 12 credits of division-approved upper-level MUSIC or MUHST electives; MUSIC 307, MUSIC 308, MUSIC 309; MUSIC 326, MUSIC 327, MUSIC 328; MUSIC 434; MUSIC 460, MUSIC 461, and MUSIC 462; MUSIC 379 and MUSIC 479; 36 credits of MUSICP applied instruction; 10 credits of MUSEN ensembles; and 3 credits of music electives. Proficiency through the

third quarter college level in two languages from French, German, and Italian. See undergraduate adviser for more specific information.

Academic Options

Music History

Admission Requirements: In addition to the admission requirements for all music majors, shown above, formal application to the music history division, to include verified completion of core courses, 3.00 GPA in core courses, 3.00 overall GPA, and a writing sample. Completion of minimum entrance requirements does not guarantee admission. The program of study and preparation of the senior thesis is developed in consultation with a music history faculty adviser. Students who intend to pursue graduate studies are strongly advised to establish proficiency in German or French and to acquire some acquaintance with one or two additional foreign languages.

Major Requirements: 135 credits as follows: MUSIC 201/MUSIC 204, MUSIC 202/MUSIC 205, MUSIC 203/MUSIC 206, MUSIC 301/MUSIC 304, MUSIC 302/MUSIC 305, MUSIC 303/MUSIC 306; MUHST 210, MUHST 211, MUHST 212; at least 3 credits from among MUSIC 250, MUSIC 316, MUSIC 317, or any 400-level ethnomusicology course; plus 6 credits of 300-level MUHST electives; 36 credits of 400-level MUSIC or MUHST electives; a 3-credit, 400-level course in ethnomusicology; 3 credits of MUSIC 498; 18 credits of MUSICP applied instruction (3 years); 9 credits of MUSEN ensembles; and 24 credits of music electives.

Minor

Minor Requirements: Minimum 25 credits of music courses (MUSIC, MUHST, MUSEN, MUSAP, or MUSED prefixes). Maximum 10 credits at the 100 level, minimum 15 credits at the 200 level or above including:

1. At least 4 credits from courses dealing with the elements of music (chosen from MUSIC 116, MUSIC 117, MUSIC 118, MUSIC 113/MUSIC 119, or MUSIC 120).
2. 5 credits from courses for non-majors that focus on a particular music area (MUSIC 121, MUSIC 122, MUSIC 160, MUSIC 162, MUSIC 316, MUSIC 317, MUSIC 318, MUSIC 319, MUSIC 331).
3. Maximum 10 transfer credits (including maximum 5 transfer credits in performance lessons and ensembles) may count toward the minor.

Student Outcomes and Opportunities

- *Instructional and Research Facilities:* None.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* None.
- *Department Scholarships:* None.
- *Student Organizations/Associations:*
 - *Music Student Association (MSA):* A group of undergraduate and graduate students from various divisions of the School of Music, working to foster a stronger sense of professional community, serve the larger cultural

community, and build practical tools for encouraging and promoting student musicians' endeavors. For more information, contact sonare@uw.edu.

- *Ethnomusicology Student Association*: A student association which deals with the concerns of the ethnomusicology division, as well as meeting socially. For further information, contact the division at 206-543-0949 or 64 Music Building.
- *Music Educators National Conference (MENC)*: A local chapter of this national scholarly organization of music educators is directly involved in annual state and regional meetings and events. Contact Professor Patricia Campbell (pcamp@uw.edu) for further details.

Of Special Note:

Continuation of Major Status

Performance studies should begin after audition and acceptance, and continue each subsequent quarter of registration until the minimum program requirements for applied-music lessons have been met. Applied-music study should continue as long as the student is registered and in residence until the final approved recital is given. In order to retain major standing, the student must make and demonstrate consistent and acceptable progress at the annual required jury. Concurrent enrollment or participation in at least one School of Music ensemble is required during each quarter in which a student receives MUSAP (applied-music) instruction, at the 300 level and above, except for MUSAP 389/589. Also, basic piano proficiency is required for all majors. Non-keyboard majors must enroll in the MUSAP 133/235 series until appropriate proficiency is attained. Any departure from the above requirements must have the recommendation of the appropriate program chair and the written consent of the Director of the School of Music.

Graduate Program

Graduate Adviser
116 Music, Box 353450
206-543-2726
musicadv@uw.edu

Graduate programs in the School of Music take into consideration the dual nature of music's subject matter. First, it is one of the creative arts, requiring constant renewal through the efforts of composers, performers, and teachers. Second, it is a branch of the humanities, subject to scholarly study and interpretation of its theoretical concepts and historical development. Each degree focuses on one of these areas.

Master of Music or Doctor of Musical Arts

- Choral conducting
- Composition
- Instrumental conducting
- Jazz studies and improvised music
- Opera production

- Performance piano, organ, harpsichord, voice, strings, brass, woodwinds, percussion, harp

Master of Arts or Doctor of Philosophy

- Ethnomusicology
- Music education
- Music history
- Music theory

Master of Arts

Admission Requirements

1. A baccalaureate degree from an accredited U.S. institution or its equivalent from a foreign institution. Performance programs expect that applicants have a bachelor's degree in music or the equivalent experience and training in the field.
2. Minimum GPA of 3.00 or B average in the most recent two years of study.
3. Scores from the Graduate Record Exam (GRE), unless the applicant holds an earned doctorate from an accredited institution
4. International Applicants
 - International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum scores is 90.

Degree Requirements

45 credits minimum, as follows:

1. 45 credits as specified for the student's particular degree program; of these, 18 credits must be numerically graded and 18 credits must be at the 500-level
2. Proficiency in a foreign language as required by the degree program
3. Thesis, as required by the degree program
4. All work for the degree completed within six years, to include applicable work transferred from other institutions (max. 6 credits transferable) and time spent on leave.

Master of Music

Admission Requirements

1. A baccalaureate degree from an accredited U.S. institution or its equivalent from a foreign institution. Performance programs expect that applicants have a bachelor's degree in music or the equivalent experience and training in the field.
2. Minimum GPA of 3.00 or B average in the most recent two years of study.
3. (Only if applying to Composition): Scores from the Graduate Record Exam (GRE), unless the applicant holds an earned doctorate from an accredited institution.
4. International Applicants

- International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum scores is 90.

Entrance Auditions: Before acceptance into a performance-based School of Music graduate program, applicants need to pass an entrance audition in their major performance area.

Degree Requirements

All students in the performance degree programs (MM, DMA) are expected to enroll in music applied lessons (MUSICP courses at the 500-level) until all recital requirements are met. The School of Music requires that all students registered for music applied lessons must also be enrolled in an ensemble (MUSEN 5XX).

Minimum 45 credits, to include:

1. Minimum 45 credits as specified for the student's particular degree program; of these credits, 18 credits must be numerically graded and 18 credits must be at the 500-level
2. Oral master's examination
3. All work for the degree completed within six years, to include applicable work transferred from other institutions (max. 6 credits transferable) and time spent on leave.

Doctor of Music Arts

Admission Requirements

1. Generally a master's degree or equivalent in the same field of music or music performance from an accredited U.S. institution or its equivalent from a foreign institution.
2. Minimum GPA of 3.00 or B average in the most recent two years of study.
3. (Only if applying to Composition): Scores from the Graduate Record Exam (GRE), unless the applicant holds an earned doctorate from an accredited institution.
4. International Applicants
 - International applicants must consult the online Preliminary Evaluation Process before proceeding with the application process. International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum score is 100.

Entrance Auditions: Before acceptance into a performance-based School of Music graduate program, applicants need to pass an entrance audition in their major performance area.

Degree Requirements

All students in the performance degree programs (MM, DMA) are expected to enroll in music applied lessons (MUSICP courses at the 500-level) until all recital requirements are met. The School of Music requires that all students registered for music applied lessons must also be enrolled in an ensemble (MUSEN 5XX).

Minimum 90 credits, to include:

1. Minimum 90 credits of resident study with at least 60 registered credits from the UW
2. Reading knowledge of one or more foreign languages as required by the particular degree program
3. Performance requirements as specified
4. General examination for admission to candidacy consisting of written and oral examinations.
5. Dissertation which is a significant contribution to knowledge in a specific field and which clearly indicates training and research
6. Final examination devoted to the dissertation in the field with which it is concerned
7. All work for the degree completed within ten years. Applicable work from the master's degree and work transferred from the other institutions must fall within the ten-year period, including time spent on leave and away from the program. Up to thirty credits from an approved master's degree may be counted toward the 90 credits required for the degree. (Master's degree credits are applied toward the general elective requirements of the degree plan.)

Doctor of Philosophy***Admission Requirements***

1. Generally a master's degree or equivalent in the same field of music or music performance from an accredited U.S. institution or its equivalent from a foreign institution.
2. Minimum GPA of 3.00 or B average in the most recent two years of study.
3. Scores from the Graduate Record Exam (GRE), (except for Ethnomusicology), unless the applicant holds an earned doctorate from an accredited institution
4. International Applicants
 - International applicants whose native language is not English are required to submit scores from the Test of English as a Foreign Language (TOEFL). Scores must be less than two years old. Minimum score is 100.

Degree Requirements***Minimum 90 credits, to include:***

1. Minimum 90 credits of resident study with at least 60 registered credits from the UW
2. Reading knowledge of one or more foreign languages as required by the particular degree program
3. Performance requirements as specified for the particular degree
4. General examination for admission to candidacy consisting of written and oral examinations. Dissertation which is a significant contribution to knowledge in a specific field and which clearly indicates training and research
5. Final examination devoted to the dissertation in the field with which it is concerned

6. All work for the degree completed within ten years. Applicable work from the master's degree and work transferred from other institutions must fall within the ten-year period, including time spent on leave and away from the program. Up to thirty credits from an approved master's degree may be counted toward the 90 credits required for the degree. (Master's degree credits are applied toward the general elective requirements of the degree plan.)

Financial Aid

A limited number of teaching and staff assistantships (including accompanying) are available. Competitive auditions for performance scholarships for new and returning students are held each year. See the school's Website (above) for more information about applications and audition dates.

Research Facilities

The Music Building contains the music library, an electronic composition laboratory, a listening center, and the ethnomusicology archives, as well as the studio, practice, and classroom facilities of a modern music department.

Ensembles available for student participation include University Symphony Orchestra, University Chorale, Opera Chorus, Contemporary Group, Wind Ensemble, University Symphonic Band, Studio Jazz Ensemble, Baroque Ensemble and Chamber Singers, as well as non-Western ensembles with visiting artists from around the globe.

COLLEGE OF ARTS & SCIENCES

MUSIC

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MUSIC 113 Pre-Core Ear Training (0-1, max. 1) VLPA *Bernard, Durand, Hodge*

Pre-core course in musicianship. Offered: ASp.

[View course details in MyPlan: MUSIC 113](#)

MUSIC 116 Elementary Music Theory (2) VLPA

For nonmusic majors. For people with no hands-on music experience. Rudiments of music; notation of time, small pitch structures (e.g., some scales, chords, rhythmic patterns), some analysis.

[View course details in MyPlan: MUSIC 116](#)

MUSIC 117 Elementary Music Theory (2) VLPA

For nonmusic majors. For students who can read music, having some performance experience. Prerequisite: MUSIC 116.

[View course details in MyPlan: MUSIC 117](#)

MUSIC 118 Elementary Music Theory (2) VLPA

For nonmusic majors. For students who read music, have some performance experience, are familiar with scales, chords, intervals. Includes analysis of composition in various styles. Prerequisite: MUSIC 117.

[View course details in MyPlan: MUSIC 118](#)

MUSIC 119 Introduction to Music Theory and Musicianship (3) VLPA *Bernard, Durand, Hodge*

Basic elements of music theory: introduction to acoustics, major and minor scales, triads and seventh chords, keys, four-part writing, functional harmony, modes, simple forms, and jazz notation. Offered: A.

[View course details in MyPlan: MUSIC 119](#)

MUSIC 120 Survey of Music (5) VLPA

Studies in listening, with emphasis on the changing components of Western art music. Illustrated lectures, laboratory section meetings, and presentations by guest artists.

[View course details in MyPlan: MUSIC 120](#)

MUSIC 121 The Orchestra (2) VLPA

Development of the orchestra and its literature.

[View course details in MyPlan: MUSIC 121](#)

MUSIC 122 The Opera (2) VLPA

An introduction to opera through selected masterworks, from Monteverdi to the present. Primarily for nonmajors.

[View course details in MyPlan: MUSIC 122](#)

MUSIC 131 History of Jazz (5) VLPA

Extensive overview of important musicians, composers, arrangers, and stylistic periods of jazz history from emergence of the first jazz bands at the turn of the twentieth century through post-modern bebop era of the 1990s.

[View course details in MyPlan: MUSIC 131](#)

MUSIC 160 American Folk Music (5) VLPA

Introduces different types of folk music practiced in the United States. Examines how pieces, genres, performers, and consumers fit into particular socio-historical contexts as well as issues including identity politics and the roles of the media.

[View course details in MyPlan: MUSIC 160](#)

MUSIC 161 American Musical Theater (5) VLPA

Historical and stylistic study of the development of the American musical theater. European roots in opera and operetta. Contributions from jazz and popular music. Selected musicals studied.

[View course details in MyPlan: MUSIC 161](#)

MUSIC 162 American Popular Song (5) VLPA

Historical, social, and stylistic study of popular idioms from the late nineteenth century to the present. Most attention to contemporary idioms (rock, country-western, soul, hip-hop). Various facets of the industry examined to learn how they influence taste and musical style.

[View course details in MyPlan: MUSIC 162](#)

MUSIC 185 The Concert Season (2) VLPA

Performances from the School of Music concert season, supplemented by lecture topics related to concert repertoire. Analysis of applicable musical topics appropriate for enhanced appreciation of historical and cultural contexts of works performed. Attendance at ten concerts required.

[View course details in MyPlan: MUSIC 185](#)

MUSIC 191 Composition (3, max. 9) VLPA

One-hour private instruction and one-hour laboratory session each week. Intended to develop skill in creative musical expression. For composition majors only.

[View course details in MyPlan: MUSIC 191](#)

MUSIC 200 Music, Child, and Family (3) VLPA *Campbell*

Study of music in childhood as part of socialization and enculturation of the child within family and community. Emphasis given to songs and music listening experiences provided by parents to nurture the child's musical, social, and intellectual development from infancy through middle childhood. For nonmajors.

[View course details in MyPlan: MUSIC 200](#)

MUSIC 201 First-Year Theory I (3) VLPA

Introduction to tonal harmony and counterpoint; triadic progressions in root position; first and second species counterpoint; analysis of simple works. Prerequisite: minimum grade of 2.0 in MUSIC 119. Instructors: Bernard, Durand, Hodge Offered: W.

[View course details in MyPlan: MUSIC 201](#)

MUSIC 202 First-Year Theory II (3) VLPA

Continued instruction in tonal harmony and counterpoint; triadic progressions with inversions; third and fourth species counterpoint; further analysis of basic forms. Prerequisite: minimum grade of 2.0 in MUSIC 201.

Instructors: Bernard, Durand, Hodge Offered: Sp.

[View course details in MyPlan: MUSIC 202](#)

MUSIC 203 First-Year Theory III (3) VLPA

Further introduction in tonal harmony and counterpoint; seventh chords; modulations to closely related keys; secondary dominants; introduction to chromaticism; emphasis on analysis and writing of four-part chorales in early eighteenth-century style. Prerequisite: minimum grade of 2.0 in MUSIC 202. Instructors: Bernard, Durand, Hodge Offered: A.

[View course details in MyPlan: MUSIC 203](#)

MUSIC 204 First-Year Ear Training I (0-1, max. 1) VLPA

Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in MUSIC 113; corequisite: MUSIC 201. Instructors: Bernard, Durand, Hodge Offered: W.

[View course details in MyPlan: MUSIC 204](#)

MUSIC 205 First-Year Ear Training II (0-1, max. 1) VLPA

Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in MUSIC 204; corequisite: MUSIC 202. Instructors: Bernard, Durand, Hodge Offered: Sp.

[View course details in MyPlan: MUSIC 205](#)

MUSIC 206 First-Year Ear Training III (0-1, max. 1) VLPA

Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in MUSIC 205; corequisite: MUSIC 203. Instructors: Bernard, Durand, Hodge Offered: AWSp.

[View course details in MyPlan: MUSIC 206](#)

MUSIC 216 Introductory Composition (2) VLPA

For students not majoring in composition. Prerequisite: Music 119, Music 120.

[View course details in MyPlan: MUSIC 216](#)

MUSIC 217 Introductory Composition (2) VLPA

For students not majoring in composition. Prerequisite: MUSIC 216.

[View course details in MyPlan: MUSIC 217](#)

MUSIC 218 Introductory Composition (2) VLPA

For students not majoring in composition. Prerequisite: MUSIC 217.

[View course details in MyPlan: MUSIC 218](#)

MUSIC 240 Reed-Making Techniques (1, max. 6) VLPA

Applies basic reed-making principles and techniques. Individualized instruction allows students of all levels to take the course simultaneously.

[View course details in MyPlan: MUSIC 240](#)

MUSIC 250 World Music (3) VLPA/I&S, DIV

Introduction to world musical traditions, including both sound and socio-cultural dimensions of music. Topics include instruments, rhythm, melody, form, composition, improvisation, music in the family and community, politics, economy, religion, and case studies of major world musical traditions. Prerequisite: MUSIC 201; MUSIC 204.

[View course details in MyPlan: MUSIC 250](#)

MUSIC 251 Music Cultures of the World: the Americas (5) VLPA/I&S

Music of the Americas.

[View course details in MyPlan: MUSIC 251](#)

MUSIC 252 Music Cultures of the World (5) VLPA/I&S

Near East, Central Asia, Far East, South and Southeast Asia, Indonesia, and the Philippines. Content varies.

[View course details in MyPlan: MUSIC 252](#)

MUSIC 260 Orchestral Music (5) VLPA

Orchestral music from its beginnings in the seventeenth century through recent developments; evolution of the symphony.

[View course details in MyPlan: MUSIC 260](#)

MUSIC 261 Mozart (5) VLPA

Introduction to Mozart's music and to musical life in Habsburg Austria during the Enlightenment. Mozart's musical personality studied through masterpieces in all genres, with principal emphasis on listening. Ability to read music not required.

[View course details in MyPlan: MUSIC 261](#)

MUSIC 262 Introduction to Twentieth-Century Music (3) VLPA *Starr*

Listener's survey of important composers and trends from Debussy through electronic music.

[View course details in MyPlan: MUSIC 262](#)

MUSIC 263 Opera (5) VLPA *Rumph*

Contributions of music, text, and staging; study of representative works concentrating on problems of combining these elements into a composite work of art.

[View course details in MyPlan: MUSIC 263](#)

MUSIC 264 Sacred Music in the European Tradition (5) VLPA

Surveys European and American sacred music from the twelfth to twentieth centuries, examining the important role of music in religious worship. Considers the means composers used to make musical works sound the way they do to convey the messages of the texts through music. Offered: jointly with RELIG 264.

[View course details in MyPlan: MUSIC 264](#)

MUSIC 270 World Popular Music (5) VLPA/I&S

A global survey of popular music, including Latin America, Africa, Eastern Europe, the Middle East, Asia, and the Pacific. Emphasis on students' ability to recognize styles and to analyze the social and historical processes that have shaped them.

[View course details in MyPlan: MUSIC 270](#)

MUSIC 291 Composition (3, max. 9) VLPA

One-hour private instruction and one-hour laboratory session per week. Prerequisite: MUSIC 191.

[View course details in MyPlan: MUSIC 291](#)

MUSIC 300 Fundamentals of Music Technology (3) VLPA

Introduction to the principles of music technology. Exploration of different categories of music software, in terms of their functionality as well as the fundamental basis of these theories. Prerequisite: MUSIC 203; MUSIC 206.

[View course details in MyPlan: MUSIC 300](#)

MUSIC 301 Second-Year Theory (3) VLPA

Further study of modulation and chromatic harmony; analysis of eighteenth- and nineteenth-century short forms; technical exercises; model composition. Prerequisite: minimum grade of 2.0 in both MUSIC 203 and MUSIC 206. Instructors: Bernard, Durand, Hodge Offered: W.

[View course details in MyPlan: MUSIC 301](#)

MUSIC 302 Second-Year Theory (3) VLPA

More advanced study in mid- to late nineteenth-century chromaticism and compositional style; analysis of representative works; technical exercises; model composition. Prerequisite: minimum grade of 2.0 in both MUSIC 301 and MUSIC 304; corequisite: MUSIC 305. Instructors: Bernard, Durand, Hodge Offered: Sp.

[View course details in MyPlan: MUSIC 302](#)

MUSIC 303 Second-Year Theory (3) VLPA

Core theory sequence for majors. Introduction to the theory and analysis of twentieth-century music.

Prerequisite: minimum grade of 2.0 in both MUSIC 302 and MUSIC 305; corequisite: MUSIC 306. Instructors: Bernard, Durand, Hodge Offered: A.

[View course details in MyPlan: MUSIC 303](#)

MUSIC 304 Second-Year Ear-Training I (0-1, max. 1) VLPA

Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in both MUSIC 203 and MUSIC 206. Instructors: Bernard, Durand, Hodge Offered: W.

[View course details in MyPlan: MUSIC 304](#)

MUSIC 305 Second-Year Ear-Training II (0-1, max. 1) VLPA

Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in both MUSIC 301 and MUSIC 304; corequisite: MUSIC 302. Instructors: Bernard, Durand, Hodge Offered: Sp.

[View course details in MyPlan: MUSIC 305](#)

MUSIC 306 Second-Year Ear-Training III (0-1, max. 1) VLPA

Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in both MUSIC 302 and MUSIC 305; corequisite: MUSIC 303. Instructors: Bernard, Durand, Hodge Offered: A.

[View course details in MyPlan: MUSIC 306](#)

MUSIC 307 Diction for Singers (2) VLPA

Application of basic rules of diction, enunciation, and articulation in Italian. Materials include texts from the basic vocal repertoire. Primarily for voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

[View course details in MyPlan: MUSIC 307](#)

MUSIC 308 Diction for Singers (2) VLPA

Application of basic rules of diction, enunciation, and articulation in French. Materials include texts from the basic vocal repertoire. Primarily for voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

[View course details in MyPlan: MUSIC 308](#)

MUSIC 309 Diction for Singers (2) VLPA

Application of basic rules of diction, enunciation, and articulation in German. Materials include texts from the basic vocal repertoire. Primarily for voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

[View course details in MyPlan: MUSIC 309](#)

MUSIC 318 Music Cultures of the World (5) VLPA/I&S

Folk and popular music in Western and Eastern Europe and the Americas. Content varies.

[View course details in MyPlan: MUSIC 318](#)

MUSIC 319 Afro-American Music (5) VLPA/I&S

Centers on Black music in the United States, but also clarifies the relationship of this music to the musics of other Afro-American cultures as well as to their African roots.

[View course details in MyPlan: MUSIC 319](#)

MUSIC 325 Music in Cinema (5) VLPA/I&S *Hodge*

Surveys representative film soundtracks from the past one hundred years. Examines the role of music and sound design within cinematic narrative form; explores theories of film music; and lays the groundwork for engaging film as a multimedia.

[View course details in MyPlan: MUSIC 325](#)

MUSIC 326 Repertoire (2) VLPA

For music majors.

[View course details in MyPlan: MUSIC 326](#)

MUSIC 327 Repertoire (2) VLPA

For music majors.

[View course details in MyPlan: MUSIC 327](#)

MUSIC 328 Repertoire (2) VLPA

For music majors.

[View course details in MyPlan: MUSIC 328](#)

MUSIC 332 Music in European Society: Antiquity to 1700 (5) VLPA/I&S

Music and its relationship to aspects of European culture and society - philosophy, politics, social conditions, and the visual arts from antiquity to 1700.

[View course details in MyPlan: MUSIC 332](#)

MUSIC 333 Music in Western Culture (5) VLPA/I&S

Music in Europe and North America, drawn from classical, popular, jazz, opera, and musical theatre traditions. Emphasis on the relationship between musical works and their social, philosophical, political, and other contexts.

[View course details in MyPlan: MUSIC 333](#)

MUSIC 334 Band Arranging (2) VLPA

Prerequisite: MUSIC 303.

[View course details in MyPlan: MUSIC 334](#)

MUSIC 336 Jazz Arranging (2) VLPA

Writing in jazz style for various instrumental combinations. Students should be able to arrange for modern jazz orchestra. Prerequisite: MUSIC 303.

[View course details in MyPlan: MUSIC 336](#)

MUSIC 344 Psychology of Music: Cognition (5) VLPA/I&S

Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music perception, music performance, musical development, musical affect, musical preference, social psychology, and neuroscience.

[View course details in MyPlan: MUSIC 344](#)

MUSIC 350 Choral Conducting (1) VLPA

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 302; corequisite: MUSEN 307, MUSEN 350 or MUSEN 351.

[View course details in MyPlan: MUSIC 350](#)

MUSIC 351 Choral Conducting (1) VLPA

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 350; corequisite: MUSEN 307, MUSEN 350 or MUSEN 351.

[View course details in MyPlan: MUSIC 351](#)

MUSIC 352 Choral Conducting (1) VLPA

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 351; corequisite: MUSEN 307, MUSEN 350 or MUSEN 351.

[View course details in MyPlan: MUSIC 352](#)

MUSIC 366 Cylinders to Platters: 100 Years of Significant Recorded Music 1880-1980 (3) VLPA⁷⁸²

Music as reflected through the influences of the recording industry and the development of related technologies. Examines social and artistic impacts that the recording age has brought to American and European musical cultures.

[View course details in MyPlan: MUSIC 366](#)

MUSIC 367 Essential Skills in Jazz Improvisation I (2) VLPA

Addresses acquisition of crucial skills in jazz improvisation. Emphasizing strengthening inner time, control of form, and fundamental harmony while addressing motivic development through rhythmic exercises. Students engage in transcription and analysis of exemplarity solos by jazz legends.

[View course details in MyPlan: MUSIC 367](#)

MUSIC 368 Essential Skills in Jazz Improvisation II (2) VLPA

Addresses skills in jazz improvisation at a more complex level. Emphasizing control of complex cross rhythms and ear training. Harmonic knowledge acquired through improvisational techniques and analysis of selections from the American Songbook. Prerequisite: MUSIC 367

[View course details in MyPlan: MUSIC 368](#)

MUSIC 369 Essential Skills in Jazz Improvisation III (2) VLPA

Addresses skills in jazz improvisation at a more complex level. Emphasizing advanced harmonic approaches that address extensions, altered extensions and resolutions, intervallic inventions, polytonality, chromatics, and triadic chromatics. Addresses improvisation in odd meter. Prerequisite: MUSIC 368.

[View course details in MyPlan: MUSIC 369](#)

MUSIC 379 Junior Recital (1) VLPA

For participants in the Bachelor of Music degree program only.

[View course details in MyPlan: MUSIC 379](#)

MUSIC 380 Instrumental Conducting (1) VLPA

Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques, and score study. Prerequisite: either MUSIC 212 or MUSIC 302. Instructors: Salzman

[View course details in MyPlan: MUSIC 380](#)

MUSIC 381 Instrumental Conducting (1) VLPA

Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques, and score study. Prerequisite: MUSIC 380. Instructors: Salzman

[View course details in MyPlan: MUSIC 381](#)

MUSIC 382 Instrumental Conducting (1) VLPA

Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques, and score study. Prerequisite: MUSIC 381. Instructors: Salzman

[View course details in MyPlan: MUSIC 382](#)

MUSIC 384 Ideas In Music (5) VLPA/I&S *Taricani*

Examines selected sources and compositions of music from the Western tradition (from the tenth through the twentieth centuries), in relation to the intellectual background of the periods and countries that produced them. Musical studies accompanied by assigned readings in philosophical, religious, literary, and artistic texts in addition to the primary readings in musical history.

[View course details in MyPlan: MUSIC 384](#)

MUSIC 388 Jazz Pedagogy (2) VLPA

Stylistic and esthetic developments in the performance of jazz. Key musical ingredients in the evolution of jazz as an art form and the skills commensurate with teaching these. Designed for music majors.

[View course details in MyPlan: MUSIC 388](#)

MUSIC 390 Special Topics in Music (3, max. 9) VLPA *Starr*

Topics vary.

[View course details in MyPlan: MUSIC 390](#)

MUSIC 391 Composition (3, max. 9) VLPA

One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 291.

[View course details in MyPlan: MUSIC 391](#)

MUSIC 400 Computer Applications to Music (3, max. 9) VLPA

Music workstation applications using microcomputers, music synthesizers, and analog-to-digital converters: music editing and score production, transcription, waveform and spectral analysis, and introduction to programming.

[View course details in MyPlan: MUSIC 400](#)

MUSIC 401 Digital Sound Synthesis (5) VLPA

Introduction to software sound synthesis techniques. Project-based course focused on creating experimental sound compositions framed by context of the Western Art Music Tradition. Includes acoustics and psychoacoustics; virtual synthesizers; wavetable synthesis; additive synthesis; ring, amplitude, and frequency modulation synthesis; granular synthesis; and noise and subtractive synthesis. Offered: jointly with DXARTS 461; A.

[View course details in MyPlan: MUSIC 401](#)

MUSIC 402 Digital Sound Processing (5) VLPA

Introduction to digital sound processing techniques. Project-based course focused on creating experimental sound compositions framed by context of the Western Art Music Tradition. Includes digital effects; delay lines; introduction to digital filtering; FIR and IIR filters; reverberation; virtual-room acoustics and sound location; time-domain transformation of sound; and granulation and time stretching. Prerequisite: DXARTS 461/MUSIC 401. Offered: jointly with DXARTS 462; W.

[View course details in MyPlan: MUSIC 402](#)

MUSIC 403 Advanced Digital Sound Synthesis and Processing (5) VLPA

Advanced sound processing and synthesis techniques. Includes sound time warping; analysis-synthesis techniques; linear predictive coding; the phase vocoder; frequency-domain sound transformations; introduction to physical modeling. Prerequisite: DXARTS 462/MUSIC 402. Offered: jointly with DXARTS 463; Sp.

[View course details in MyPlan: MUSIC 403](#)

MUSIC 405 Liturgics and Hymnology: Practical Applications I (3) VLPA

Prepares organ majors and other advanced organ students to play hymns in a manner that inspires congregational singing. Includes a study of hymnology from the early church to contemporary hymns of today. Explores several denominational hymns and many styles of improvisation, including baroque, romantic, and contemporary techniques. Prerequisite: MUSIC 302; MUSIC 305; MUHST 212. Instructors: Cleveland Offered: A.

[View course details in MyPlan: MUSIC 405](#)

MUSIC 406 Liturgics and Hymnology: Practical Applications II (3) VLPA

Surveys small and large choral works including anthems, oratorios, Requiem Masses, and Mass settings of major composers of the sixteenth century to present day. Resources drawn from the performing ensembles library, and from area church libraries, and include a detailed study of choral styles and editions. Prerequisite: either MUSIC 303, MUSIC 306, MUHST 210, or MUSIC 405. Instructors: Cleveland Offered: W.

[View course details in MyPlan: MUSIC 406](#)

MUSIC 407 Liturgics and Hymnology: Practical Applications III (3) VLPA

Includes a survey of the necessary skills to run a successful music program in a church or synagogue. Provides an overview of traditional and contemporary liturgies, handbells, orchestral instruments and their use in worship and a special emphasis on the directing of children's choirs. Prerequisite: either MUSIC 303, MUSIC 306,

MUHST 210, or MUSIC 406. Instructors: Cleveland Offered: Sp.

[View course details in MyPlan: MUSIC 407](#)

MUSIC 410 ElectroAcoustic Music: History and Analysis (3) VLPA

Examines the music of major electro-acoustic composers. Emphasis on the relationship between technological resources and compositional advances. Addresses issues raised by the diversity of approaches to musical composition; relates particular creative contributions to the historical, cultural, and technological contexts in which they originated. Prerequisite: MUSIC 303; MUSIC 306; MUHST 210. Offered: Sp.

[View course details in MyPlan: MUSIC 410](#)

MUSIC 411 Free Improvisation/Modern Jazz Composition I (2) VLPA Vu

Guides students through the process of experimentation while discovering and developing musical originality and striving for innovations in jazz. Students address conceptual approaches to non-idiomatic group improvisation and original composition that incorporates and fosters improvisation, and explore techniques in generating and developing building blocks of musical material and form. Offered: A.

[View course details in MyPlan: MUSIC 411](#)

MUSIC 412 Free Improvisation/Modern Jazz Composition II (2) VLPA

Continuation of MUSIC 411, working at a more developed and complex level to experiment and strive for originality and innovation in jazz. Students address conceptual approaches to non-idiomatic group improvisation and original composition that incorporates and fosters improvisation, and explore techniques in generating and developing building blocks of musical material and form. Prerequisite: MUSIC 411. Instructors: Vu Offered: W.

[View course details in MyPlan: MUSIC 412](#)

MUSIC 413 Free Improvisation/Modern Jazz Composition III (2) VLPA

Continuation of MUSIC 411, working at a more advanced and complex level to experiment and strive for originality and innovation in jazz. Students address conceptual approaches to non-idiomatic group improvisation and original composition that incorporates and fosters improvisation, and explore techniques in generating and developing building blocks of musical material and form. Prerequisite: MUSIC 412. Instructors: Vu Offered: Sp.

[View course details in MyPlan: MUSIC 413](#)

MUSIC 414 Finding an American Voice (3) VLPA

Investigation of why certain works have been received as characteristically and representatively "American" in nature, extending the inquiry concerning an "American voice" to arts like poetry and painting, along with music. Examples for study include music by composers such as Gershwin, and Dickenson's poetry, along with composers' settings of it. Instructor: Starr.

[View course details in MyPlan: MUSIC 414](#)

MUSIC 415 The American Musical (3) VLPA

Advanced course in the American stage and film musical, emphasizing detailed study of representative works as totalities: Show Boat, Porgy and Bess, shows by Rodgers & Hammerstein and Sondheim, film musical starring Astaire and Rogers, and others. Contributions of composers, lyricists, choreographers, directors, and performers to development of the genre. Instructor: Starr.

[View course details in MyPlan: MUSIC 415](#)

MUSIC 416 The Blues (3) VLPA

Investigation of the many forms, styles, and genres of music linked with the blues, and of the ways in which the blues has contributed to the shaping and essence of musical culture, from the early twentieth century to the present. Instructor: Starr.

[View course details in MyPlan: MUSIC 416](#)

MUSIC 417 Classical Music in America (3) VLPA

History of classical music composers, performers, audiences, and institutions in America, with a critical look at the situation of these groups and institutions today, in light of how they arrived at their current status, and a

consideration of what the future may hold for them. Instructor: Starr.

[View course details in MyPlan: MUSIC 417](#)

MUSIC 418 Baroque Ornamentation and Improvisation (3) VLPA Terry

The study of ornamentation and improvisation for keyboard, woodwinds, voice, and strings of selected German, Italian, French, and English repertoire from 1600 to 1800.

[View course details in MyPlan: MUSIC 418](#)

MUSIC 420 Organ Improvisation and Service Playing I (2) VLPA

Prepares students to improvise, especially for the church/synagogue service. Includes a brief study of hymnology, hymn elaboration, altered harmonizations, improvisation based on existing hymn tunes, interludes, chorale preludes, ornamented chorales. Prerequisite: MUSIC 303; MUSIC 306. Offered: A.

[View course details in MyPlan: MUSIC 420](#)

MUSIC 421 Organ Improvisation and Service Playing II (2) VLPA

Continuation of MUSIC 420. Includes brief review of figured bass and functional harmony, free improvisation in simple antecedent/consequent ABA forms and more complex forms (rondo, theme, and variation), improvising partitas, interludes, improvisations based on plainchant. A survey of important improvisation texts. Prerequisite: MUSIC 420. Offered: W.

[View course details in MyPlan: MUSIC 421](#)

MUSIC 422 Organ Improvisation and Service Playing III (2) VLPA

Continuation of MUSIC 421. Advanced improvisation: baroque improvisation techniques, fuguetas, baroque prelude and fantasias, canons, toccatas, duos, trios, and simple fugues. Prerequisite: MUSIC 421. Offered: Sp.

[View course details in MyPlan: MUSIC 422](#)

MUSIC 426 Advanced Jazz Arranging (2) VLPA

Advanced arranging techniques for jazz ensembles of various sizes, exploring methods employed by Duke Ellington, Gil Evans, and others. Assignments include one original arrangement each for small-combo and full-jazz ensemble. Prerequisite: MUSIC 336. Offered: W.

[View course details in MyPlan: MUSIC 426](#)

MUSIC 427 Music of Africa (3) VLPA/I&S

Music cultures of Africa. Traditional styles and more recent developments. Open to all students with an interest in the area. Prerequisite: MUSIC 317.

[View course details in MyPlan: MUSIC 427](#)

MUSIC 428 Music of North India (3) VLPA/I&S

Classical music of North India, the Hindustani tradition with emphasis on the Dhrupad and Khyal styles.

[View course details in MyPlan: MUSIC 428](#)

MUSIC 429 String Orchestral Repertoire (2, max. 18) VLPA

Intended for undergraduate BA/BM and BM music majors. Offered: AWSp.

[View course details in MyPlan: MUSIC 429](#)

MUSIC 430 Organology (3) VLPA

Systematic study of musical instruments, involving the history, acoustical phenomena, and physical topologies of instruments from around the world, with emphasis on non-Western music.

[View course details in MyPlan: MUSIC 430](#)

MUSIC 433 Music of Latin America (3) VLPA/I&S

The music of the Spanish-, French-, and Portuguese-speaking New World countries.

[View course details in MyPlan: MUSIC 433](#)

MUSIC 434 Pedagogy (2) VLPA

Principles of effective studio teaching; survey and evaluation of teaching materials.

[View course details in MyPlan: MUSIC 434](#)

MUSIC 435 Pedagogy (2) VLPA

Principles of effective studio teaching; survey and evaluation of teaching materials.

[View course details in MyPlan: MUSIC 435](#)

MUSIC 436 Pedagogy (2) VLPA

Principles of effective studio teaching; survey and evaluation of teaching materials.

[View course details in MyPlan: MUSIC 436](#)

MUSIC 437 Studio Class (2, max. 24) VLPA

Performance and pedagogical concepts. Topics vary. Offered: AWSp.

[View course details in MyPlan: MUSIC 437](#)

MUSIC 438 Problems in Contemporary Music Performance (3, max. 9) VLPA

An active course examining and solving problems relevant to the successful performance of twentieth-century music. Preparation for complex rhythms, odd groupings, new notation, and extended performing techniques.

[View course details in MyPlan: MUSIC 438](#)

MUSIC 439 Music of Indonesia (3) VLPA/I&S

Includes the traditions of Sumatra, Sunda, Java, Bali, Sunda Islands, and the Philippines. Open to students in music and to students with an interest in the area.

[View course details in MyPlan: MUSIC 439](#)

MUSIC 440 Music in Asian America (3) VLPA/I&S C. SUNARDI

Introduces students to Asian American communities through examination of music and issues related to music, including migration, memory, gender, the body, tradition, and generation. Explores how Asian Americans have expressed their experiences and asserted their senses of identity through music, thereby making sense of and claiming Americanness. Offered: AWSp.

[View course details in MyPlan: MUSIC 440](#)

MUSIC 442 Comparative Analysis and Musicianship (3) VLPA

Analysis of selected world music genres, with an emphasis on concepts and skills that are required to perform.

[View course details in MyPlan: MUSIC 442](#)

MUSIC 443 Music and Community (3) VLPA S. DUDLEY

An introduction to theories and methods of community arts facilitation and community-building, including active engagement with local artists and organizations.

[View course details in MyPlan: MUSIC 443](#)

MUSIC 444 Music of the Near East (3) VLPA/I&S

Classical and folk musical traditions of Iran, Turkey, and the Arab world. Prerequisite: MUSIC 316.

[View course details in MyPlan: MUSIC 444](#)

MUSIC 445 Selected Topics in Ethnomusicology (3/5, max. 15) VLPA/I&S

Deals with areas not covered by other courses in ethnomusicology. Content varies with different instructors.

[View course details in MyPlan: MUSIC 445](#)

MUSIC 446 Music in American Cultures (3) VLPA/I&S

Compares musical history and experience of selected American cultures that have fed into the American musical mainstream or had significant popularity on its periphery. Case studies may include African Americans, Latino/a Americans, Jewish Americans, Asian Americans, or European Americans. Considerations of social identity as

well as musical styles. Offered: jointly with AES 446.

[View course details in MyPlan: MUSIC 446](#)

MUSIC 447 Music of Southern India (3) VLPA/I&S

Classical music of South India, the Karnatic tradition, with emphasis on the concert repertoire.

[View course details in MyPlan: MUSIC 447](#)

MUSIC 448 Music of China (3) VLPA/I&S

Confucian philosophies that relate to music, theory, scale systems, cosmology. Development of instrumental styles, vocal and dramatic regional forms from early historical periods to the present.

[View course details in MyPlan: MUSIC 448](#)

MUSIC 449 Advanced Piano Repertoire (2, max. 6) VLPA/I&S

For piano majors who wish an in-depth survey of major areas of the piano repertoire. Prerequisite: MUSIC 328.

Instructors: McCabe, Sheppard Offered: AWSp.

[View course details in MyPlan: MUSIC 449](#)

MUSIC 450 Percussion Education Institute (2) VLPA

Intensive four-week institute focusing on techniques in percussion, timpani, and mallet performance. Intended for music educators with little or no percussion experience desiring additional training to enhance their careers as music teachers. Includes private instruction, master classes, and percussion ensemble participation.

Prerequisite: MUSAP 217. Instructors: Collier, Crusoe

[View course details in MyPlan: MUSIC 450](#)

MUSIC 451 Summer Jazz Institute (1) VLPA *Brockman, Collier, Seales*

Intensive one-week institute designed for the serious jazz student as well as for music educators. Six hours of daily instruction in jazz theory, ear-training, improvisation, arranging, as well as emphasis on rehearsal and performance techniques through sectional workshops and small group "jam sessions."

[View course details in MyPlan: MUSIC 451](#)

MUSIC 454 Organ Pedagogy (3) VLPA *Terry*

Pedagogical approaches to organ techniques and performance practice; provides opportunity for practical application by means of student teaching. Offered: Sp, even years.

[View course details in MyPlan: MUSIC 454](#)

MUSIC 455 Choral Arranging (3) VLPA

Primarily for choral conductors who need to modify, arrange, or compose material to suit the capabilities of specific choral groups and performance situations.

[View course details in MyPlan: MUSIC 455](#)

MUSIC 457 Jazz Laboratory: Theory and Application of Rhythm (1) VLPA

Establishes a fundamental comprehension of the complex and nuanced rhythmic structures inherent in traditional and modern jazz. Through transcription, analysis, dictation, composition and performance. Students develop a personal understanding of, and the ability to execute, the detailed rhythmic language that defines this art form. Offered: A.

[View course details in MyPlan: MUSIC 457](#)

MUSIC 458 Organ Repertoire: Middle Ages through Baroque (3) VLPA

Analysis and performance practices of organ literature, Middle Ages through baroque period. Development of the organ as musical instrument. Prerequisite: either MUHST 400, MUHST 401, MUHST 402, MUHST 403, MUHST 406, or MUHST 407. Instructors: Terry Offered: A, even years.

[View course details in MyPlan: MUSIC 458](#)

MUSIC 459 Organ Repertoire: Bach to Present (3) VLPA

Analysis and performance practices of organ literature, classical period through the twentieth century.

Development of the organ as a musical instrument. Prerequisite: either MUHST 408, MUHST 409, MUHST 410, MUHST 411, MUHST 412, MUHST 413, MUHST 414, MUHST 415, MUHST 417, MUHST 418, MUHST 419, MUHST 423, MUHST 424, or MUHST 426. Instructors: Terry Offered: W, even years.

[View course details in MyPlan: MUSIC 459](#)

MUSIC 460 Advanced Vocal Repertoire: Pre-Nineteenth-Century Art Songs (2, max. 6) VLPA

Professional preparation of pre-nineteenth-century songs with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 328.

[View course details in MyPlan: MUSIC 460](#)

MUSIC 461 Advanced Vocal Repertoire: Nineteenth-Century Art Songs (2, max. 6) VLPA

Professional preparation of works from the literature of nineteenth-century German lieder, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 460.

[View course details in MyPlan: MUSIC 461](#)

MUSIC 462 Advanced Vocal Repertoire: Twentieth-Century Art Songs (2, max. 6) VLPA

Preparation of works from the twentieth-century repertoire of French, German, Italian, Spanish, and English songs, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 461.

[View course details in MyPlan: MUSIC 462](#)

MUSIC 464 Jazz Laboratory (1, max. 9) VLPA

Forum for testing new technical skills, improvisational techniques, and jazz compositions and/or arrangements in a formal laboratory setting.

[View course details in MyPlan: MUSIC 464](#)

MUSIC 465 Acting for Singers (2, max. 6) VLPA

Workshop designed specifically for the singing actor, focusing on character analysis, movement, and audition department skills.

[View course details in MyPlan: MUSIC 465](#)

MUSIC 467 Advanced Jazz Improvisation I (1) VLPA

Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 369. Instructors: Collier, Seales

[View course details in MyPlan: MUSIC 467](#)

MUSIC 468 Advanced Jazz Improvisation II (1) VLPA

Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 467. Instructors: Collier, Seales

[View course details in MyPlan: MUSIC 468](#)

MUSIC 469 Advanced Jazz Improvisation III (1) VLPA

Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 468. Instructors: Collier, Seales

[View course details in MyPlan: MUSIC 469](#)

MUSIC 470 Analysis of Tonal Music: Introduction to Schenker (3) VLPA

Introduction to the theories of Heinrich Schenker and their subsequent development; analysis of music from the common-practice period (1700-1900), with possible excursions into the twentieth century. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Bernard

[View course details in MyPlan: MUSIC 470](#)

MUSIC 471 Introduction to Atonal Theory and Analysis (3) VLPA

Theory of atonal music, including the "classical" twelve-tone repertoire. Analysis of works by Schoenberg, Berg, Webern, and others. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Bernard

[View course details in MyPlan: MUSIC 471](#)

MUSIC 472 Analysis of Twentieth Century Music, 1900-1950 (3, max. 6) VLPA

Analytical examination of musical works of the first half of the twentieth century in Europe and the United States, with emphasis on music other than that of the second Viennese school. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Bernard, Durand, Hodge

[View course details in MyPlan: MUSIC 472](#)

MUSIC 473 Keyboard Harmony and Transposition (3) VLPA

Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Terry Offered: A, odd years.

[View course details in MyPlan: MUSIC 473](#)

MUSIC 474 Keyboard Harmony and Transposition (3) VLPA

Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: MUSIC 473. Instructors: Terry Offered: W, odd years.

[View course details in MyPlan: MUSIC 474](#)

MUSIC 475 Figured Bass Realization (3) VLPA

Various styles of continuo realization for keyboardists, emphasizing Bach cantatas, Haydn symphonies, and Mozart operas. Prerequisite: MUSIC 474. Instructors: Terry Offered: Sp, odd years.

[View course details in MyPlan: MUSIC 475](#)

MUSIC 476 Advanced Vocal Repertoire: Seventeenth and Eighteenth Centuries (2) VLPA

Opera repertoire, 1600 to the Bel Canto era (Bellini, Rossini, Donizetti); style, traditions, embellishments in Italian, French, and German arias. Prerequisite: MUSIC 328.

[View course details in MyPlan: MUSIC 476](#)

MUSIC 477 Advanced Vocal Repertoire: Nineteenth Century (2) VLPA

Opera repertoire, the post Bel Canto era through Verdi, Puccini and verismo, and significant German, French, and Slavic repertoire. Prerequisite: MUSIC 476.

[View course details in MyPlan: MUSIC 477](#)

MUSIC 478 Advanced Vocal Repertoire: Twentieth Century (2) VLPA

Opera repertoire, twentieth-century opera literature (Barber, Menotti, Bartok, Dvorak); understanding of style, character, and overall artistic and musical needs of the present. Prerequisite: MUSIC 477.

[View course details in MyPlan: MUSIC 478](#)

MUSIC 479 Senior Recital (1) VLPA

[View course details in MyPlan: MUSIC 479](#)

MUSIC 480 The Anthropology of Music (3) VLPA/I&S

Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation, e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with ANTH 430.

[View course details in MyPlan: MUSIC 480](#)

MUSIC 481 Choral Repertoire: Sixteenth and Seventeenth Centuries (3) VLPA *Boers, Wyers*

Sacred and secular choral literature from the Renaissance through the early baroque, covering Europe and

England. Various genres and styles of major composers, including performance practice, rehearsals, and⁷⁹⁰ conducting.

[View course details in MyPlan: MUSIC 481](#)

MUSIC 482 Choral Repertoire: Eighteenth Century (3) VLPA *Boers, Wyers*

Sacred and secular choral literature of the baroque, covering mainland Europe and England. Choral works of Bach, his predecessors, and contemporaries. Stylistic analysis and study of performance practice.

[View course details in MyPlan: MUSIC 482](#)

MUSIC 483 Choral Repertoire: Nineteenth Century (3) VLPA *Boers, Wyers*

Sacred and secular choral literature of the nineteenth century, covering mainland Europe and England. Analysis of accompanied and a cappella choral works by major composers with implications for conducting and programming of literature.

[View course details in MyPlan: MUSIC 483](#)

MUSIC 484 Choral Repertoire: Twentieth Century (3) VLPA *Boers, Wyers*

Choral literature of the twentieth century, covering America, England, and mainland Europe. Various genres and styles, including score study and teaching strategies.

[View course details in MyPlan: MUSIC 484](#)

MUSIC 485 Topics in the Analysis of American Music (3, max. 9) VLPA *Bernard*

Includes close analytical study of specific repertoires of American music.

[View course details in MyPlan: MUSIC 485](#)

MUSIC 487 Tonal Counterpoint (3) VLPA

Introduction to tonal counterpoint through exercises in analysis and composition, focusing on eighteenth-century styles. Study of melody principles of counterpoint in two and three voices, dance forms, inventions, fugue.

Prerequisite: either MUSIC 311 or MUSIC 202. Instructors: Bernard, Hodge

[View course details in MyPlan: MUSIC 487](#)

MUSIC 489 Special Topics in Music Theory (3/5, max. 15) VLPA

Prerequisite: either both MUSIC 303 and MUHST 210 or both MUSIC 312 and MUHST 314. Instructors: Bernard, Durand, Hodge

[View course details in MyPlan: MUSIC 489](#)

MUSIC 491 Composition (3, max. 18) VLPA

One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 391.

[View course details in MyPlan: MUSIC 491](#)

MUSIC 492 Opera Direction and Production (4) VLPA

Practical experience with problems of the theater.

[View course details in MyPlan: MUSIC 492](#)

MUSIC 493 Opera Direction and Production (4) VLPA

Practical experience with problems of the theater. Prerequisite: MUSIC 492.

[View course details in MyPlan: MUSIC 493](#)

MUSIC 495 Music of Japan (3) VLPA/I&S

Survey of major Japanese musical traditions. Open to students in music and East Asian area studies.

Prerequisite: MUSIC 316.

[View course details in MyPlan: MUSIC 495](#)

MUSIC 496 Instrumentation (3) VLPA *Durand, Hodge*

Survey of the basic characteristics and techniques of instruments of the orchestra and practical experience in scoring for various instrumental combinations. Also covers topics such as transcription of solo works for

ensemble and basic arranging in jazz and other styles. Prerequisite: MUSIC 303; MUSIC 306.

[View course details in MyPlan: MUSIC 496](#)

MUSIC 497 Orchestration (3) VLPA

Study of the instruments of orchestra and practical experience in combining them. Examines questions of timbre, acoustics, psychoacoustics, as well as orchestration analysis of a variety of works. Prerequisite: MUSIC 496.

[View course details in MyPlan: MUSIC 497](#)

MUSIC 498 Senior Thesis (3-, max. 9) VLPA

Design and completion of an individual research project and writing of a thesis under supervision of a faculty member.

[View course details in MyPlan: MUSIC 498](#)

MUSIC 499 Undergraduate Research (*, max. 6)

[View course details in MyPlan: MUSIC 499](#)

MUSIC 504 Ethnographic Research in Music (3) *Campbell, Morrison*

Seminar in ethnographic research in music, with attention to the nature of participant-observation and informal interviewing suitable to the discovery of the social and cultural life of individual musicians, and communities and institutions of music.

[View course details in MyPlan: MUSIC 504](#)

MUSIC 511 Seminar in Field and Laboratory Methods (3)

Methodology of field research in ethnomusicology along with practical experience. Prerequisite: graduate student standing in ethnomusicology or permission of instructor.

[View course details in MyPlan: MUSIC 511](#)

MUSIC 512 Seminar in Ethnomusicology (3/5, max. 30)

Deals with advanced theoretical and methodological problems in ethnomusicology, and with the relationship of ethnomusicology to allied disciplines. Prerequisite: graduate-student standing in ethnomusicology or permission of instructor.

[View course details in MyPlan: MUSIC 512](#)

MUSIC 520 Music in Higher Education (3) *Morrison*

Philosophical and practical issues surrounding music within the context of higher education. Topics include mission and structure of music programs, development of teaching expertise, teacher/student evaluation, academic freedom, and job opportunities. Appropriate for all graduate music students and does not require background in teaching or education.

[View course details in MyPlan: MUSIC 520](#)

MUSIC 523 Seminar in Music and Socialization (3, max. 9)

The socialization process and music, including the interaction whereby music culture is learned. Prerequisite: MUSIC 345 or permission of instructor.

[View course details in MyPlan: MUSIC 523](#)

MUSIC 526 History of Theory (3)

Ancient, medieval, early Renaissance.

[View course details in MyPlan: MUSIC 526](#)

MUSIC 527 History of Theory (3) *Bernard*

Renaissance, baroque, early classic.

[View course details in MyPlan: MUSIC 527](#)

MUSIC 528 History of Theory (3) *Bernard*

Classic, romantic, twentieth century.

[View course details in MyPlan: MUSIC 528](#)

MUSIC 530 Seminar in Music Cognition (3, max. 9)

Study of research literature in cognition and music cognition, particularly as it relates to nonverbal musical experience. Prerequisite: MUSIC 344, or MUSIC 544, or permission of instructor.

[View course details in MyPlan: MUSIC 530](#)

MUSIC 531 Proseminar in Ethnomusicology (3)

Theoretical and methodological issues in ethnomusicology based on historical and contemporary major writings. Critical evaluations of works with a broad view toward developing ethnomusicological research. Prerequisite: permission of instructor.

[View course details in MyPlan: MUSIC 531](#)

MUSIC 532 Opera Direction and Production (4/6, max. 12)

Practical experience with problems of the opera theatre.

[View course details in MyPlan: MUSIC 532](#)

MUSIC 533 Preceptorial Readings in Ethnomusicology (5)

Significant ethnomusicological literature on the music cultures of Asia. Meets with MUSIC 316. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

[View course details in MyPlan: MUSIC 533](#)

MUSIC 534 Preceptorial Readings in Ethnomusicology (5)

Significant ethnomusicological literature on the music cultures of Africa, the Americas, and Oceania. Meets with MUSIC 317. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

[View course details in MyPlan: MUSIC 534](#)

MUSIC 535 Preceptorial Readings in Ethnomusicology (5)

Significant ethnomusicological literature on the music cultures of Europe and North America. Meets with MUSIC 318. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

[View course details in MyPlan: MUSIC 535](#)

MUSIC 536 Transcription and Analysis (3)

Study of the methodological principles of transcription and analysis, together with practical exercises in developing transcription skills. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

[View course details in MyPlan: MUSIC 536](#)

MUSIC 540 Music in Asian America (3) *C. SUNARDI*

Introduces students to Asian American communities through examination of music and issues related to music, including migration, memory, gender, the body, tradition, and generation. Explores how Asian Americans have expressed their experiences and asserted their senses of identity through music, thereby making sense of and claiming Americanness. Offered: AWSp.

[View course details in MyPlan: MUSIC 540](#)

MUSIC 542 Comparative Analysis and Musicianship (3)

Analysis of selected world music genres, with an emphasis on concepts and skills that are required to perform.

[View course details in MyPlan: MUSIC 542](#)

MUSIC 543 Music and Community (3) *S. DUDLEY*

An introduction to theories and methods of community arts facilitation and community-building, including active engagement with local artists and organizations.

[View course details in MyPlan: MUSIC 543](#)

MUSIC 544 Psychology of Music: Music Cognition (5)

Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music performance, musical creativity, musical affect, musical preference, social psychology, and neuroscience. Discusses the role of theory, method, and typical procedures for psychological research.

[View course details in MyPlan: MUSIC 544](#)

MUSIC 551 Practicum in Music Instruction (3, max. 9)

Practical application and validation of results of investigation in curriculum, music teaching and learning, performance, and theoretical studies. Prerequisite: teaching experience, or permission of instructor.

[View course details in MyPlan: MUSIC 551](#)

MUSIC 553 Advanced Choral Techniques (2, max. 18) *Boers, Wyers*

Practical application of technique and pedagogy related to choral music. Surveys major choral repertoire. Concurrent enrollment in MUSIC 583 required.

[View course details in MyPlan: MUSIC 553](#)

MUSIC 559 Master's Recital (3, max. 6)

Public performance for students in the Master of Music degree program. Prerequisite: permission of instructor and Master of Music program standing.

[View course details in MyPlan: MUSIC 559](#)

MUSIC 570 Seminar in Schenkerian Analysis (3, max. 9)

Advanced work in Schenkerian analysis. Prerequisite: MUSIC 470. Instructors: Bernard

[View course details in MyPlan: MUSIC 570](#)

MUSIC 571 Seminar in Serialism (3, max. 9)

Advanced theoretical and analytical work in serialism and other nontonal systems. Prerequisite: MUSIC 471, or equivalent. Instructors: Bernard

[View course details in MyPlan: MUSIC 571](#)

MUSIC 572 Advanced Topics in Computer Music (3) *Karpen*

Topics vary. Offered: AWSpS.

[View course details in MyPlan: MUSIC 572](#)

MUSIC 573 Seminar in Tonal Analysis (3, max. 9)

Modern theoretical and analytical methods appropriate to study of western music of the eighteenth and nineteenth centuries, conceived independently of or in response to the work of Heinrich Schenker. Prerequisite: MUSIC 470 or permission of instructor.

[View course details in MyPlan: MUSIC 573](#)

MUSIC 574 Analysis of Twentieth-Century Music: 1950 - Present (3)

Analytical examination of major works of second half of twentieth century. Prerequisite: MUSIC 471; MUSIC 472, or permission of instructor. Instructors: Bernard, Durand, Hodge, Karpen

[View course details in MyPlan: MUSIC 574](#)

MUSIC 575 Seminar in Theory (3, max. 18) *Bernard*

Development and discussion of current student and faculty research in compositional/analytical theory and metatheory.

[View course details in MyPlan: MUSIC 575](#)

MUSIC 576 Critical Theory of Music (3, max. 18)

Philosophical foundations of the criticism of music, including relevant contemporary thought in the criticism of literature and the other arts.

[View course details in MyPlan: MUSIC 576](#)

MUSIC 577 Composers of the Twentieth Century (3, max. 9)

Analytical examination of the work of a major composer of the twentieth century. Prerequisite: MUSIC 574, or permission of instructor. Instructors: Bernard, Durand, Hodge, Karpen

[View course details in MyPlan: MUSIC 577](#)

MUSIC 580 Advanced Conducting (3, max. 9) *Salzman*

[View course details in MyPlan: MUSIC 580](#)

MUSIC 581 Advanced Conducting (3, max. 9) *Salzman*

[View course details in MyPlan: MUSIC 581](#)

MUSIC 582 Advanced Conducting (3, max. 9) *Salzman*

[View course details in MyPlan: MUSIC 582](#)

MUSIC 583 Advanced Choral Conducting (2, max. 18) *Boers, Wyers*

[View course details in MyPlan: MUSIC 583](#)

MUSIC 590 Keyboard and Doctoral Lecture Recital or Concerto Recital (6, max. 18)

Lecture recital or concerto recital for students in the Doctor of Musical Arts in piano performance, in harpsichord performance, and in organ performance degree programs.

[View course details in MyPlan: MUSIC 590](#)

MUSIC 591 Graduate Composition (*, max. 30) *Bernard, Durand, Karpen*

[View course details in MyPlan: MUSIC 591](#)

MUSIC 599 Advanced Selected Topics (1-3, max. 27)

Selected readings on current issues and problems in music. Prerequisite: permission of a supervising music faculty member.

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MUSAP 133 Basic Keyboard (2) VLPA

Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSIC 116.

[View course details in MyPlan: MUSAP 133](#)

MUSAP 134 Basic Keyboard (2) VLPA

Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 133.

[View course details in MyPlan: MUSAP 134](#)

MUSAP 135 Basic Keyboard (2) VLPA

Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 134.

[View course details in MyPlan: MUSAP 135](#)

MUSAP 136 Basic Jazz Keyboard (2, max. 6) VLPA *Seales*

Basics of jazz and pop chord voicings, reading lead sheets, basic accompanying in various jazz and pop styles. Audition required.

[View course details in MyPlan: MUSAP 136](#)

MUSAP 137 Class Instruction: Voice (1) VLPA

Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required.

[View course details in MyPlan: MUSAP 137](#)

MUSAP 138 Class Instruction: Voice (1) VLPA

Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required. Prerequisite: MUSAP 137.

[View course details in MyPlan: MUSAP 138](#)

MUSAP 139 Class Instruction: Voice (1) VLPA

Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art

songs, some English and French songs. Audition required. Prerequisite: MUSAP 138.

[View course details in MyPlan: MUSAP 139](#)

MUSAP 205 String Techniques (2, max. 12) VLPA

Designed to prepare music education students to teach beginning and intermediate strings in the public schools.

[View course details in MyPlan: MUSAP 205](#)

MUSAP 210 Wind Techniques (2, max. 12) VLPA

Designed to prepare music education students to teach beginning and intermediate woodwinds and brass in the public schools.

[View course details in MyPlan: MUSAP 210](#)

MUSAP 217 Percussion Techniques (2, max. 4) VLPA *Collier*

The study of basic percussion techniques as they apply to music in the public schools. Acquaints the prospective music education major with percussion performance and teaching techniques.

[View course details in MyPlan: MUSAP 217](#)

MUSAP 218 Guitar Techniques (2, max. 4) VLPA *Partington*

Includes exercises to develop a good basic technique emphasizing correct position and movement of both hands, basic folk song accompaniments including a variety of strums, finger picking patterns, hammering on and bass runs, reading guitar music, classical pieces, special effects, and access to other styles. Offered: W.

[View course details in MyPlan: MUSAP 218](#)

MUSAP 233 Secondary Piano (2) VLPA

Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 135.

[View course details in MyPlan: MUSAP 233](#)

MUSAP 234 Secondary Piano (2) VLPA

Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 233.

[View course details in MyPlan: MUSAP 234](#)

MUSAP 235 Secondary Piano (2) VLPA

Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 234.

[View course details in MyPlan: MUSAP 235](#)

MUSAP 237 Secondary Class Instruction: Voice (2, max. 6) VLPA

Continuation of basic fundamentals of good singing: breathing, diction, voice focus, and repertoire. Designed for students not yet prepared for private instruction. Audition required. Prerequisite: MUSAP 139.

[View course details in MyPlan: MUSAP 237](#)

MUSAP 239 Secondary Piano (2, max. 8) VLPA

Intermediate level keyboard repertory. Private instruction. Audition required. Prerequisite: MUSAP 235.

[View course details in MyPlan: MUSAP 239](#)

MUSAP 389 World Music (2, max. 24) VLPA/I&S

World music traditions taught by visiting native artists. Consult ethnomusicology staff for current offerings. Intended for undergraduate majors. Audition required. Credit/no-credit only.

[View course details in MyPlan: MUSAP 389](#)

MUSAP 442 Jazz and Non-Western Drumming Techniques (2/3, max. 18) VLPA *Collier*

Focused study of American jazz drumming and/or hand drumming techniques of various world music cultures to broaden the skills of percussion students, preparing them for new demands of contemporary musical styles. Designed primarily for music undergraduates enrolled in the percussion program. Audition required.

[View course details in MyPlan: MUSAP 442](#)

MUSAP 443 Percussion Lab (1, max. 12) *Collier, Crusoe, Poor*

Primarily for percussion majors. Includes techniques and topics not normally covered in private lessons. Non-percussion music majors with permission of instructor. Offered: AWP.

[View course details in MyPlan: MUSAP 443](#)

MUSAP 589 World Music Laboratory (2, max. 24)

World music traditions taught by visiting artists with emphasis on cultural pedagogy and traditional theory. The particular culture studied changes from year to year. Required of all graduate students in ethnomusicology. Audition required. Credit/no-credit only.

MUSIC EDUCATION

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MUSED 301 Techniques for Teaching Music to Children (2) VLPA

Exercises and applied experiences in sight-singing and error detection, keyboard skills, record and instruments of the Orff ensemble relevant to the teaching of music to children. Prerequisite: either MUSIC 212 or MUSIC 302; MUSAP 135. Instructors: Campbell

[View course details in MyPlan: MUSED 301](#)

MUSED 304 Introductory Music Methods I (2, max. 4) VLPA Morrison

Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, and problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Must be taken concurrently with MUSED 301; MUSED 340. Offered: A.

[View course details in MyPlan: MUSED 304](#)

MUSED 305 Introductory Music Methods II (2, max. 4) VLPA Morrison

Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Offered: W.

[View course details in MyPlan: MUSED 305](#)

MUSED 306 Introductory Music Methods III (2, max. 4) VLPA Morrison

Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Offered: Sp.

[View course details in MyPlan: MUSED 306](#)

MUSED 340 Music in Education (3) VLPA

An orientation to the broad scope of issues regarding music in the schools (K-12), including curriculum, the

development of instructional strategies, and evaluation techniques.

[View course details in MyPlan: MUSED 340](#)

MUSED 401 Tin Pan Alley: Concepts and Teaching Strategies for Music Educators (1) VLPA

Overview of Tin Pan Alley phenomenon that dominated the American popular music industry for nearly 70 years. For music educators. Focuses on cooperative learning strategies and performance considerations in the school environment.

[View course details in MyPlan: MUSED 401](#)

MUSED 402 Rock and Roll Roots for Music Educators (1) VLPA

Overview of the musical and cultural roots of American Rock and Roll for music educators. Explores teaching strategies and performance possibilities in the school environment.

[View course details in MyPlan: MUSED 402](#)

MUSED 403 Part-Time Student Teaching in Music (6) VLPA *Campbell, Morrison*

Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: MUSED 403](#)

MUSED 404 Full-Time Student Teaching in Music (15) VLPA

Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Prerequisite: MUSED 403. Instructors: Campbell, Morrison Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: MUSED 404](#)

MUSED 405 Marching Band Technique (2) VLPA *McDavid, Morrison, Salzman*

Basics of marching and maneuvering discussed and used to write drill. Covers selection of music, use of marching procession, and show design. Students complete a drill for their own band or for an instrumentation determined by the instructor.

[View course details in MyPlan: MUSED 405](#)

MUSED 410 Instrumental Rehearsal Techniques (3) VLPA *Salzman*

Includes score preparation, rehearsal formats, and error detection.

[View course details in MyPlan: MUSED 410](#)

MUSED 431 Curriculum in Music Education (3) VLPA *Campbell, Morrison*

Principles and practices of curriculum design applied to the development of the music curriculum. Individual or group work on elementary and secondary school music curriculum projects.

[View course details in MyPlan: MUSED 431](#)

MUSED 432 Comprehensive Music in the Secondary School (3) VLPA

The teaching of music and its literature in music classes other than traditional ensembles from grade six through adults. Prerequisite: MUSED 340.

[View course details in MyPlan: MUSED 432](#)

MUSED 440 Music for Children (3) VLPA

Identification and selection of appropriate objectives, materials, teaching strategies, and evaluation techniques used in teaching music from birth through grade five, with consideration of various approaches (e.g., Delcroze, Kodaly, Orff) for the musical development of children. Prerequisite: MUSED 302; MUSED 340 Instructors: Campbell

[View course details in MyPlan: MUSED 440](#)

MUSED 442 Instrumental Curriculum: Methods and Materials (3) VLPA

Study of the organization and administration of school instrumental music; the selection and use of materials and teaching strategies from beginning to advanced levels of instrumental instruction. Prerequisite: MUSED

340. Instructors: Morrison

[View course details in MyPlan: MUSED 442](#)

MUSED 443 Choral Curriculum: Methods and Materials (3) VLPA

Study of the organization and administration of school choral music; the selection and use of materials and teaching strategies from beginning to advanced levels of choral instruction. Prerequisite: MUSED 340.

[View course details in MyPlan: MUSED 443](#)

MUSED 452 Ethnomusicology in the Schools (3) VLPA

Issues, teaching materials, and techniques involved in incorporating music cultures of United States and related world music repertoires in K-12 classroom instruction. Prerequisite: MUSED 340. Instructors: Campbell

[View course details in MyPlan: MUSED 452](#)

MUSED 453 Approaches to Classroom Instruction: K-12 (3) VLPA

Examines such major instructional approaches as MMCP, Orff, Kodaly, and Dalcroze. Included are the philosophy of each and the methods, materials, and instructional skills needed for classroom application. Prerequisite: MUSED 403. Instructors: Campbell

[View course details in MyPlan: MUSED 453](#)

MUSED 465 Classroom Management and Evaluation in Music Education (3) VLPA

Provides future teachers with strategies and techniques for classroom management, motivation, assessment, and evaluation for applications to K-12 school music programs. Prerequisite: MUSED 340. Instructors: Morrison

[View course details in MyPlan: MUSED 465](#)

MUSED 475 Teaching the Music of Selected Cultures (1, max. 6) VLPA *Campbell*

Music and culture of a specific world region with particular attention to songs, stories, and instrumental pieces applicable to the teaching of music and the arts in elementary and secondary schools.

[View course details in MyPlan: MUSED 475](#)

MUSED 480 Music Methods for Classroom Teachers (3) VLPA *Campbell*

Addresses the basic fundamentals of music and methods for teaching K-6 school children. Topics include repertoire appropriate for different age levels, methods and materials for integrating music into the K-6 curriculum.

[View course details in MyPlan: MUSED 480](#)

MUSED 496 Special Topics in Music Education (1-3, max. 10) VLPA

Special studies designed to reflect contemporary emphases and concerns in the music education profession.

[View course details in MyPlan: MUSED 496](#)

MUSED 501 Introduction to Research in Music Education (3) *Campbell, Morrison*

Seminar in research design and method with emphasis on identification of problems in music instruction, interpretation of data, and application of findings to classroom settings.

[View course details in MyPlan: MUSED 501](#)

MUSED 502 Quantitative Research in Music Education (3)

Seminar in quantitative research utilizing experimental, quasi-experimental, and descriptive design, with emphasis on the pursuit of solutions to pedagogical problems through appropriate research procedures, analysis, and interpretation of findings. Prerequisite: MUSED 501. Instructors: Campbell, Morrison

[View course details in MyPlan: MUSED 502](#)

MUSED 522 Psychology of Music Learning and Teaching (3) *Campbell, Morrison*

Examines previous research in areas related to music cognition, including music perception, music performance, musical creativity, musical affect, musical preference, and social psychology. Explores how this research relates to curriculum and practice in music education. Role of theory, method, and procedure for psychological research

in music education.

[View course details in MyPlan: MUSED 522](#)

MUSED 523 Tests and Measurement (3) *Campbell, Morrison*

Examination of currently published aptitude and achievement tests in music and their uses in music education. Explores the basic methods for constructing classroom tests and their use in evaluation. Selected readings include researching test construction and application of tests and measurement to program evaluation.

[View course details in MyPlan: MUSED 523](#)

MUSED 524 Seminar in Music Education (3)

Special problems in the teaching and supervision of music in the elementary grades. Prerequisite: one year of teaching experience. Instructors: Campbell, Morrison

[View course details in MyPlan: MUSED 524](#)

MUSED 525 Seminar in Music Education (3)

Special problems in the teaching and administration of music in the secondary school and community college. Prerequisite: one year of teaching experience. Instructors: Campbell, Morrison

[View course details in MyPlan: MUSED 525](#)

MUSED 530 Administration and Supervision in Music Education (3) *Campbell, Morrison*

Survey of issues in policy and systems for facilities, student/personnel, technology, school/community relations, and special programs in music education. Focuses on evaluating and improving existing programs. Includes supervision of student teachers.

[View course details in MyPlan: MUSED 530](#)

MUSED 535 Seminar in Musical Development (3) *Campbell, Morrison*

Critical review of theories, methods of inquiry, designs, and conclusions of research in musical development from early childhood through adolescence. Emphasis on evaluating theories and methods of studying musical development and exploring their relationship to theories of general intellectual development; adult music cognition research; and curriculum and practice in music education.

[View course details in MyPlan: MUSED 535](#)

MUSED 540 History of American Music Education (3) *Campbell, Morrison*

A chronological examination of individual, social, and political events, and educational philosophies, that characterized the development of music instruction in American schools from colonial times to the present.

[View course details in MyPlan: MUSED 540](#)

MUSED 542 Comparative Music Education (3) *Campbell, Morrison*

A transcultural examination of philosophy and practice of music instruction.

[View course details in MyPlan: MUSED 542](#)

MUSED 550 Proseminar in Music Education (3) *Campbell, Morrison*

Examination of the major literature in the philosophy, history, psychology, and sociology of formal school music instruction.

[View course details in MyPlan: MUSED 550](#)

MUSED 552 World Music Education (3) *Campbell*

Seminar on issues of multiculturalism and the world music "movement" as they affect school music curriculum and instruction. Curricular content and cultural context examined in relation to teaching K-12 students, teachers, and undergraduate students in music education programs. Offered: AWSpS.

[View course details in MyPlan: MUSED 552](#)

MUSED 560 Contemporary Issues in Music Education (1-3, max. 6)

Seminar focusing on review of literature on psychological and sociological aspects of music education, including historical and philosophical foundations of music education in the United States. Appropriate for MA

students seeking guidance in preparation of topic for examinations. Prerequisite: MUSED 501. Instructors: Campbell, Morrison

[View course details in MyPlan: MUSED 560](#)

MUSED 561 Seminar in Theories of Music Instruction (3, max. 9)

Theories of music instruction, with special attention to curriculum, instructional procedures, and assessment of learning. Prerequisite: MUSED 501, or permission of instructor. Instructors: Campbell, Morrison

[View course details in MyPlan: MUSED 561](#)

MUSED 575 Seminar in Music Education Research (1-3, max. 6) *Campbell, Morrison*

Examines research and research-based issues relevant to music instruction and learning. Doctoral students should register each quarter until successful completion of general examination. Offered: A.

The madrigal in Italy, England, and Germany. The Chanson, Jannequin through Lassus.

[View course details in MyPlan: MUHST 402](#)

MUHST 403 Late Renaissance Sacred and Instrumental Music: 1525-1630 (3) VLPA *Taricani*

Latin church music. Willaert through G. Gabrieli; early Reformation church music, Walther through Gibbons; instrumental music, Cabezón, the English virginal school, and Sweelinck.

[View course details in MyPlan: MUHST 403](#)

MUHST 404 Baroque Keyboard Music (3) VLPA

Forms and styles: Frescobaldi through J.S. Bach and C.P.E. Bach.

[View course details in MyPlan: MUHST 404](#)

MUHST 405 Orchestral Music: 1620-1760 (3) VLPA

Corelli through the Mannheim School. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

[View course details in MyPlan: MUHST 405](#)

MUHST 406 Baroque Choral Music (3) VLPA

Monteverdi through Handel. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

[View course details in MyPlan: MUHST 406](#)

MUHST 407 Baroque Opera (3) VLPA

Monteverdi through Handel.

[View course details in MyPlan: MUHST 407](#)

MUHST 408 Keyboard Music: 1760-1830 (3) VLPA

Haydn through Schubert. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

[View course details in MyPlan: MUHST 408](#)

MUHST 409 Chamber Music: 1760-1830 (3) VLPA

Haydn through Schubert. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC

306.

[View course details in MyPlan: MUHST 409](#)

MUHST 410 Orchestral Music: 1760-1830 (3) VLPA

Haydn through early Berlioz.

[View course details in MyPlan: MUHST 410](#)

MUHST 411 Art Song, 1760-1830 (3) VLPA

The art song in European culture during the classical and early Romantic periods. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

[View course details in MyPlan: MUHST 411](#)

MUHST 412 Choral Music: 1750-1830 (3) VLPA

Large works for chorus and orchestra, Haydn through Beethoven.

[View course details in MyPlan: MUHST 412](#)

MUHST 413 Opera: 1750-1830 (3) VLPA *Rumph*

Gluck through Bellini.

[View course details in MyPlan: MUHST 413](#)

MUHST 414 Keyboard Music: 1830-1915 (3) VLPA

Schumann through Debussy. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

[View course details in MyPlan: MUHST 414](#)

MUHST 415 Chamber Music: 1830-1915 (3) VLPA

Schumann through Ravel. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

[View course details in MyPlan: MUHST 415](#)

MUHST 416 Orchestral Music: 1830-1915 (3) VLPA

Schumann and Mendelssohn through early Schoenberg and Stravinsky. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, MUSIC 306.

[View course details in MyPlan: MUHST 416](#)

MUHST 417 Art Song: 1830-1915 (3) VLPA

The Lieder of Schumann, Brahms, Wolf, Strauss, Mahler, and Schoenberg. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

[View course details in MyPlan: MUHST 417](#)

MUHST 418 Choral Music: 1830-1915 (3) VLPA *Bozarth*

Selected choral masterpieces. Mendelssohn through Schoenberg.

[View course details in MyPlan: MUHST 418](#)

MUHST 419 Opera: 1830-1915 (3) VLPA

German, French, and Italian operatic traditions. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Rumph

[View course details in MyPlan: MUHST 419](#)

MUHST 420 Authenticity and Performance (3) VLPA

The practical and philosophical issues raised by historically informed performance of early music on period instruments. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

[View course details in MyPlan: MUHST 420](#)

MUHST 421 Music Criticism (3) VLPA

Study of the various forms of music criticism, with an emphasis on the writing of valid examples and evaluation of one's own work along with that of others - classmates, journalists, and academic critics. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

[View course details in MyPlan: MUHST 421](#)

MUHST 422 Gender and Music (3) VLPA/I&S, DIV

Investigates how gender issues have shaped the creation and perception of music; introduces women composers and their music. Topics include writing women's biography; creation of the music canon; gender issues in opera; intertwining issues of race, class, and gender, blues women; and popular music. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Tsou Offered: W.

[View course details in MyPlan: MUHST 422](#)

MUHST 423 Twentieth-Century Music to 1945 (3) VLPA

Intensive study of selected composers and works exemplifying the new vocabularies, grammars, and styles of the early part of the twentieth century. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

[View course details in MyPlan: MUHST 423](#)

MUHST 424 Music Since 1945 (3) VLPA

Diversity of the contemporary musical scene. Vocabularies appropriate for the description and understanding of the new music, developed through study of representative composers and works, and appropriate readings.

Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

[View course details in MyPlan: MUHST 424](#)

MUHST 425 Jazz History and Analysis (3) VLPA

Major eras and styles of jazz with emphasis on technical aspects of jazz music: composition, arranging, improvisation practices. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Collier

[View course details in MyPlan: MUHST 425](#)

MUHST 426 American Popular Music (3) VLPA

An in-depth consideration of American popular music styles and repertory from about 1920 to the present day. Analysis of representative pieces; consideration of critical and aesthetic issues relating to popular music; relationship of popular music to "art" music and to American culture and society. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

[View course details in MyPlan: MUHST 426](#)

MUHST 429 Music, Literature, and the Arts (3) VLPA

Literary and visual art works that include musical subject matter and forms; musical genres that incorporate other arts such as opera and ballet. Related philosophical writings. Includes works of a particular time period or investigation of a specific problem in comparative arts. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

[View course details in MyPlan: MUHST 429](#)

MUHST 497 Special Topics in Music History (1-5, max. 15) VLPA

Topics vary each quarter. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth, Rumph, Taricani, Tsou

[View course details in MyPlan: MUHST 497](#)

MUHST 500 Seminar in Methods of Music Research (3) *Rumph, Taricani*

Explores various critical approaches to research in music at the graduate level, examining specialized bibliographical resources, controversial arguments about musical issues, and other matters of musical criticism required to begin advanced study of music. Prerequisite for all graduate music history courses except MUHST

515.

[View course details in MyPlan: MUHST 500](#)**MUHST 503 Readings in Medieval and Renaissance Music (5)**

Musical styles, genres, and forms of the Middle Ages and Renaissance. Focuses upon musicological problems and controversy related to music composed circa 1000 - 1600. Prerequisite: permission of instructor. Instructors: Taricani

[View course details in MyPlan: MUHST 503](#)**MUHST 504 Seminar in Medieval Music (3, max. 6)**

Prerequisite: MUHST 500. Instructors: Taricani

[View course details in MyPlan: MUHST 504](#)**MUHST 505 Seminar in Renaissance Music (3, max. 6)**

Prerequisite: MUHST 500. Instructors: Taricani

[View course details in MyPlan: MUHST 505](#)**MUHST 506 Seminar in Baroque Music (3, max. 6)**

Prerequisite: MUHST 500. Instructors: Bozarth

[View course details in MyPlan: MUHST 506](#)**MUHST 508 Seminar in the Viennese Classical Period: 1760-1830 (3, max. 6)**

Prerequisite: MUHST 500. Instructors: Bozarth

[View course details in MyPlan: MUHST 508](#)**MUHST 509 Seminar in Nineteenth-Century Music: 1830-1890 (3, max. 6)**

Prerequisite: MUHST 500. Instructors: Bozarth, Rumph

[View course details in MyPlan: MUHST 509](#)**MUHST 510 Seminar in Music Since 1890 (3, max. 6)**

Prerequisite: MUHST 500. Instructors: Starr

[View course details in MyPlan: MUHST 510](#)**MUHST 515 Seminar in Medieval and Renaissance Notation (5) *Taricani***

Gregorian chant through sixteenth-century prints.

[View course details in MyPlan: MUHST 515](#)**MUHST 519 Seminar in Modern Editorial Procedures (5) *Bozarth***

Study of modern procedures for preparing critical editions. Related areas of study may include analysis of musical style and historical and performance problems inherent in works being edited.

[View course details in MyPlan: MUHST 519](#)**MUHST 520 Seminar in American Music (3, max. 6)**

Research in the life, works, and times of composers in the United States from colonial days to the present.

Prerequisite: MUHST 500. Instructors: Starr

[View course details in MyPlan: MUHST 520](#)**MUHST 537 Seminar on Opera (3, max. 6)**

Prerequisite: MUHST 500.

Near Eastern Languages and Civilization

[Display as tabs](#)

Department Overview

229 Denny

Near Eastern languages and civilization focuses on the languages and civilizations of the Near East with an emphasis on the ancient and medieval roots of these civilizations as well as more recent cultural developments. Each language offered represents a major literary tradition. Arabic, Persian, Turkish, and Central Asian Turkic are the languages of the most significant literary manifestations of Islamic civilization. Hebrew and Aramaic are the languages of the Bible and are central to Judaism and Jewish culture. Egyptian languages (Coptic, hieroglyphic) and other Mesopotamian and Mediterranean languages (Akkadian, Ugaritic, Phoenician) are important to the ancient and Christian cultures of the Near East. These languages are taught in conjunction with courses on the social, cultural, and religious history of the Near East, providing students with a broad understanding and solid foundation for more advanced studies or professional career development.

Undergraduate Program

Adviser
219 Denny, Box 353120
(206) 685-3743
nelcua@uw.edu

The department offers the following programs of study:

- The Bachelor of Arts degree with a major in Near Eastern studies with options in Near Eastern languages and cultures, Near Eastern comparative civilizations, comparative Islamic studies, and biblical and ancient Near Eastern studies
- A minor in Near Eastern languages and civilization

Bachelor of Arts

Suggested First- and Second-Year College Courses: Courses in any discipline that deals with the Near East. Courses in writing, history, literature, comparative religion, French, and German are also recommended. Students should begin their studies of Near Eastern languages as soon as possible.

Department Admission Requirements

Students in good academic standing may declare this major at any time. Admission to the comparative Islamic studies option is suspended through spring, 2015.

Major Requirements

Near Eastern Studies -- Languages and Cultures

69 credits as follows:

1. Gateway Course (5 credits): NEAR E 101
2. One introductory (200 level) course on the Near East (5 credits)
3. Primary Language (30 credits): Two years of one Near Eastern language, or its equivalent as evidenced by examination
4. Advanced level coursework in primary language (10 credits): Advanced literature or text courses in primary language
5. Senior Seminar (2 credits): NEAR E 491
6. Near East Electives (20 credits): Supporting coursework from the following categories: advanced literature: 300- or 400-level courses from NEAR E or language prefixes; second Near Eastern language (must not exceed 15 credits); approved relevant exceptions from other departments (must not exceed 15 credits). NEAR E 498 may be used toward this requirement.
7. At least 22 of the 72 required credits must be taken in residence through the department.

Near Eastern Studies - Comparative Civilizations

72 credits as follows:

1. Gateway Course (5 credits): NEAR E 101
2. One introductory (200 level) course on the Near East (5 credits)
3. Primary Language (30 credits): Two years of one Near Eastern language, or its equivalent as evidenced by examination
4. Senior Seminar (2 credits): NEAR E 491
5. Senior essay on a topic of Near Eastern civilization (5 credits): NEAR E 498
6. Near East Electives (25 credits): Supporting coursework at the 300 level or above (maximum 15 credits of approved exceptions)
7. At least 22 of the 72 required credits must be taken in residence through the department.

Near Eastern Studies - Comparative Islamic Studies

Admission to this option is suspended through spring, 2015.

70 credits as follows:

1. Two years of one of the following languages or its equivalent as evidenced by examination: Arabic, Persian, Turkish, Uzbek, Kazakh, or other appropriate languages with approval of adviser
2. NEAR E 210

3. NEAR E 212 or NEAR E 240
4. An approved program of 10 credits in courses in Islamic religious traditions and texts, and 15 credits in history, society, and culture of Islam
5. A senior essay on a topic in comparative Islamic studies (5 credits).

Near Eastern Studies -- Biblical and Ancient Studies

72 credits as follows:

1. Gateway Course (5 credits): NEAR E 101
2. NEAR E 201 and NEAR E 202
3. Two years of Biblical Hebrew or its equivalent as evidenced by examination. Alternatively a student may satisfy this language requirement by combining a minimum four quarters of Biblical Hebrew with two quarters of other ancient Near Eastern languages, including Aramaic, Ge'ez, hieroglyphic Egyptian, Coptic, Akkadian, second-year Greek, or other appropriate languages as approved by adviser and/or faculty (30 credits)
4. Senior Seminar (2 credits): NEAR E 491
5. Near East Electives (25 credits): Supporting coursework from the following categories: advanced literature: 300- or 400-level courses from NEAR E or language prefixes; second ancient Near Eastern language (must not exceed 15 credits); approved relevant exceptions from other departments (must not exceed 15 credits). NEAR E 498 may be used toward this requirement.
6. A senior essay on a topic in Biblical and ancient Near Eastern studies (5 credits)
7. At least 22 of the 72 required credits must be taken in residence through the department.

Minor

Minor Requirements: 30 credits as follows:

1. NEAR E 101 (5 credits)
2. Two introductory courses (200-level) on the Near East (10 credits)
3. 15 additional credits from Near Eastern civilization or advanced-level language courses (may not include language courses at the beginning or intermediate level).

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The NELC undergraduate degree offers a liberal arts education with a particular focus on the study of cultures and languages of the Near East and Central Asia. Educational outcomes from this degree serve a broad spectrum of undergraduates, ranging from those intending to begin the acquisition of specific linguistic and cultural proficiencies for the purpose of pursuing some career, academic or otherwise, related to these regions, to students for whom the Near East and/or Central Asia are regions with histories and cultures that are of special intellectual or personal interest. Students often combine Near Eastern studies as a double major with some other degree program that may be in a quite different discipline. For these students the NELC undergraduate major offers the important opportunity, as a core element in a broader liberal arts education, for expanding their cultural vision and understanding in ways made possible only

through serious study of a language and literature other than one's own. Graduates from the BA degree have followed a wide range of post-baccalaureate paths, including further graduate study in the humanities or social sciences, professional degree programs in law or medicine, and employment with government or non-governmental organizations.

- *Instructional and Research Facilities:* The department draws on collections of books, serials, and other resources in the UW libraries that are unusually rich in the quantity and quality of items relating to Near Eastern and Central Asian languages and cultures. Students in the department's language classes make use of the University's well-equipped Language Learning Center.
- *Honors Options Available:* With College Honors (Completion of Honors core curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Undergraduate research is carried out under the supervision of faculty members. Students can also undertake research and internship opportunities while studying abroad.
- *Department Scholarships:* See departmental website for most current information.
- *Student Organizations/Associations:* There are no formal student organizations in the department, but the department frequently sponsors educational and cultural events organized by students and faculty involved in interest groups such as the Central Asian Circle or the Persian Circle.

Graduate Program

Graduate Program Coordinator
M25 Denny, Box 353120
(206) 543-6033
neareast@uw.edu

Master of Arts

The Department of Near Eastern Languages and Civilization offers a graduate program of studies leading to the master of arts degree. The program is designed to provide students with advanced training in at least one Near Eastern language and in a specific field of specialization. Students may concentrate in Arabic, Hebrew, Persian, Turkish, or Central Asian Turkic and may choose as their field of specialization a civilization or literature related to their language of concentration. The program is intended not only for those students who wish to continue their studies at the doctoral level but also for students who wish to pursue careers in government or business.

Admission Requirements

1. Statement of purpose
2. Sample of written academic work
3. Three letters of recommendation, of which at least two must attest to scholarly ability
4. Official transcripts from all collegiate institutions attended

5. Although knowledge of a Near Eastern language is not a prerequisite for admission, applicants are generally expected to have had the equivalent of two years' study of the language in which they plan to concentrate.
6. A bachelor's degree from an accredited institution
7. A minimum GPA of 3.00 or B for last 90 quarter (60 semester) credits
8. GRE scores
9. TOEFL scores for international students

Degree Requirements

36 credits, as follows:

1. Reading knowledge of French or German; or, with the prior approval of the student's MA committee, any other language pertinent to the research in the student's field of study. Normally, to satisfy this requirement, the student must pass a reading exam before beginning the second year of study towards the M.A.
2. A seminar paper representing the student's best work
3. Coursework determined in consultation with M.A. committee to prepare for written examinations.
4. A written examination consisting of four parts: (1) general culture of the Near East, (2) student's field of specialization, (3) student's language of concentration, (4) second Near Eastern language related to the language of concentration

Doctor of Philosophy

Some department faculty are part of an interdisciplinary faculty group which offers doctoral study in Near and Middle Eastern studies. The program is located administratively within the Graduate School. See the Interdisciplinary Graduate Degree Programs section of this catalog.

Summer Programs

The department offers summer intensive language programs in Arabic, Hebrew, and Central Asian languages (Uzbek, Kazakh, Tajik, and others).

Research Facilities

The University of Washington libraries hold an extensive collection of books and materials in the languages of the Near East, the Turkic regions of Central Asia, and in European languages on Near Eastern and Central Asian Turkic subjects. Candidates for the master's degree as well as doctoral students find in the collection adequate resources for their research. The library participated in the Library of Congress Middle East Cooperative program for the acquisition of Arabic serials, and the Library of Congress Cooperative program for Pakistan for the purchase of Persian books and serials. The library staff includes Near East and Central Asia specialists responsible for acquiring and cataloging the collection. The library maintains book exchanges with the Central Asian republics, handled through the Near East and Slavic sections of the University's Suzzallo Library, some exchanges beginning as early as 1961. Among its staff are an exchange librarian and a specialist trained in Central Asian Turkic languages. A book exchange with Xinjiang is administered through the East Asia Library.

Financial Aid

A limited number of teaching assistantships are available for graduate students in the department who are fluent in speaking and writing a Near Eastern language. A limited number of graduate fellowships are also available.

Exchange Agreements

The department participates actively in exchange programs involving institutions abroad, sending students for language and cultural study and research to a variety of locations, and training many students from institutions overseas. Students take advantage of existing formal UW exchange agreements with several universities in North Africa and the Middle East, such as American University in Cairo; Al-Akhawayn University in Ifrane, Morocco; Yarmouk University and Mu'tah University in Jordan; American University in Beirut; Hebrew University in Jerusalem; and Bogazici University in Istanbul. There have also been department-level exchange agreements with Xinjiang University in Urumchi, China (for Uighur, Kazakh, Kirghiz), or institutions in Central Asia such as Tashkent State University, the Humanities University of Bishkek, Kyrgyzstan, or Kyrgyz State National University, Bishkek. NELC students also study at other institutions in which there are not currently formal exchanges, such as the University of Damascus (for the study of Arabic and related subjects).

COLLEGE OF ARTS & SCIENCES

NEAR EASTERN LANGUAGES & CIVILIZATION

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

NEAR E 101 Gateway to the Near East (5) VLPA/I&S

Provides general introduction to the peoples, cultures, and languages of the Near East, both past and present. No previous knowledge of the Near East required. Offered: W.

[View course details in MyPlan: NEAR E 101](#)

NEAR E 196 Introductory Studies in Near Eastern Languages and Civilizations (1-5, max. 15) I&S

Offered occasionally by visitors or resident faculty. Content varies.

[View course details in MyPlan: NEAR E 196](#)

NEAR E 199 Study Abroad (1-15, max. 15)

Credit for lower division NEAR E courses in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

[View course details in MyPlan: NEAR E 199](#)

NEAR E 201 Introduction to the Ancient Near East (5) VLPA/I&S

Surveys the peoples, places, and events of the ancient Near East. Examines the cultures of Mesopotamia, Egypt, Canaan, and Israel with an eye to each culture's cultural contributions. Pays special attention to shared cultural elements as well as distinguishing characteristics of the peoples of these regions.

[View course details in MyPlan: NEAR E 201](#)

NEAR E 202 Introduction to the Hebrew Bible: Old Testament (5) VLPA/I&S

Examines the Hebrew Bible (Old Testament) in translation and its relationship with literatures of ancient Near East. Comparisons drawn between Biblical text and literary works of Canaan, Egypt, Greece, Mesopotamia. Emphasis on the sophisticated literary techniques employed by Biblical writers. Cannot be taken for credit if credit earned in NEAR E 240. Offered: jointly with RELIG 240.

[View course details in MyPlan: NEAR E 202](#)

NEAR E 203 Introduction to the Archaeology of Western Anatolia: Cross Roads of the Ancient World (5) I&S S. SELOVER

An introduction to the archaeology the western coast of Anatolia and its often-neglected place in the ancient Near Eastern and Classical worlds. The class will cover the cities of Troy and Ephesus, and the civilizations of

the Phrygians, Lydians, Carians, Lycians and the Ionians in Anatolia. Offered: AWSpS.

[View course details in MyPlan: NEAR E 203](#)

NEAR E 207 Introduction to the Archaeology of Ancient Iran (5) I&S

Introduction to the archaeology of ancient Iran (Persia) from the earliest inhabitants to the end of Sasanian period (circa 10,000 BDE-651 CE). Covers the archaeology from various time periods in chronological order, with an emphasis on the archaeology and culture of the Achaemendid (Persian) period.

[View course details in MyPlan: NEAR E 207](#)

NEAR E 208 Introduction To Ancient Near Eastern Archeology (5) I&S/VLPA

Archaeological cultures of the ancient Near East, from 10,000 BCE to 332 BCE, including the civilizations of Mesopotamia (modern day Iraq), Egypt, the Levant (modern day Israel, Jordan, Syria and Lebanon), Anatolia (modern day Turkey) and Persia (modern day Iran).

[View course details in MyPlan: NEAR E 208](#)

NEAR E 229 Introduction to Islamic Civilization (5) VLPA/I&S

Covers major developments in the formative, classical, and modern periods of Islamic civilization from seventh century Arabia to the contemporary Muslim world. Looks at the development of Islamic religious thought and legal practice as well as the Muslim polities, cultures, and intellectual traditions of Asia, Africa, Europe, and America. May not be taken for credit if credit earned in NEAR E 210. Offered: jointly with JSIS A 210.

[View course details in MyPlan: NEAR E 229](#)

NEAR E 230 Introduction to Muslim Beliefs and Practices (5) VLPA/I&S

Examines the origins and development of central beliefs in various Muslim traditions; such as monotheism, prophecy, divine judgment, and predestination. Looks at ritual and socio-cultural practices in Muslim societies in Asia, Africa, and Europe. Offered: jointly with RELIG 211.

[View course details in MyPlan: NEAR E 230](#)

NEAR E 231 Introduction to the Quran (5) VLPA/I&S

A literary, historical, and theological introduction to the Quran. Looks at the historical circumstances of the text's compilation; its collection and redaction; its narrative structure; its rhetorical strategies; its major themes; its connections to and departures from the Hebrew Bible and the New Testament; commentary and exegesis; translation; and its impact on political and religious thought. Offered: jointly with RELIG 212.

[View course details in MyPlan: NEAR E 231](#)

NEAR E 232 Introduction to the Modern Middle East (5) I&S

Major social and political trends in the Middle East during the 18th, 19th, and 20th centuries. Basic principles of Islam and its diversity, changing balance of power during the early modern period; European colonialism and withdrawal; pan-Arabism, nationalism, feminism and religious resurgence. Offered: jointly with JSIS A 215.

[View course details in MyPlan: NEAR E 232](#)

NEAR E 243 Iranian Culture and Civilization (5) VLPA/I&S

Explores the culture and civilization of this Middle Eastern society through a multi-disciplinary approach that includes such manifestations as architecture, carpet-weaving, story-telling, and the composition of poetry.

[View course details in MyPlan: NEAR E 243](#)

NEAR E 244 Voices of the Iranian Revolution (5) VLPA/I&S

Includes critical readings of the 1979 Iranian Revolution as represented in essays, fiction, poetry, memoir, speeches, film, and other arts. Examines the ways that writers, artists, politicians, and intellectuals have depicted the origins and development of the Islamic Republic and the legacy of the revolution in Iranian society and culture today.

[View course details in MyPlan: NEAR E 244](#)

NEAR E 257 Introduction to Central Asian Turkic Literature in Translation (5) VLPA

Provides an overview of the major periods of Central Asian Turkic literature including: the Pre-Islamic Period

(eighth-tenth centuries), the Islamic Period (tenth-twentieth centuries), the Modern Period (1905-1991)⁸³², and the Post-Colonial period (1991-present). Centers on the Turkic peoples who lived under Russia and Soviet colonial rule.

[View course details in MyPlan: NEAR E 257](#)

NEAR E 258 Introduction to Kyrgyz Writer Chingiz Aitmatov (5) VLPA/I&S

Introduces the form and content of the work of the Kyrgyz writer, Chingiz Aitmatov, while also examining his life and influence on the people of Central Asia.

[View course details in MyPlan: NEAR E 258](#)

NEAR E 259 Introduction to the Writers and Intellectuals of Central Asia under Soviet Colonialism (5) VLPA/I&S, DIV

Discusses the lives and works of Kazakh, Kyrgyz Turkmen, and Uzbek poets and writers and intellectuals who lived during the Soviet period from 1917-1991.

[View course details in MyPlan: NEAR E 259](#)

NEAR E 261 Turkic Peoples of Central Asia (3) I&S

History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with JSIS A 261.

[View course details in MyPlan: NEAR E 261](#)

NEAR E 262 Central Asian Country Profiles: Introduction to Kazakhstan (5) VLPA/I&S

Examines developments in Kazakhstan after the country gained independence from the Soviet Union in 1991. Part of a series on Central Asia.

[View course details in MyPlan: NEAR E 262](#)

NEAR E 264 Central Asian Country Profiles: Introduction to Uzbekistan (5) VLPA/I&S

Survey of the Uzbek people and their history. Examines developments in Uzbekistan after the country gained independence from the Soviet Union in 1991. Part of a series on Central Asia.

[View course details in MyPlan: NEAR E 264](#)

NEAR E 265 Introduction to Central Asian Turkic Literature in Translation (3) VLPA

Introduces the foundations of modern Uzbek literature; the common Turkic literature of the eighth-century and the more recent Chagatay-Uzbek literature. Focuses on post-Soviet literature since 1991. After independence Uzbek writers were able to express themselves without censorship and prosecution.

[View course details in MyPlan: NEAR E 265](#)

NEAR E 266 The Modern Middle East and Central Asia (5) I&S

Ethnographic overview of Muslim societies in the middle east and central Asia from various anthropological perspectives. Examines the unity and diversity of Muslim communities and acquaints students with the significant linguistic, cultural, and political diversity of Muslim societies. Helps students develop an understanding of Islam as a lived experience.

[View course details in MyPlan: NEAR E 266](#)

NEAR E 267 Folktales Along the Silk Road (3) VLPA/I&S

Introduces student to the Silk Road connecting China and Europe through the cities of Samarkand, Bukhara, and Constantinople, now Istanbul. Applies comparative-historical and sociological method in folktale research, i.e. compares Western European stories and motifs with tales from the Silk Road while paying attention to the environment of storytelling.

[View course details in MyPlan: NEAR E 267](#)

NEAR E 268 Introduction to the Silk Road (5) I&S

Introduces students to the Silk Road as a site of cultural exchange between peoples, and of political, economic, and intellectual exchange between regions and continents. Themes include ecology, empire, ethnicity, language,

religion, and the arts. Considers the Silk Road as a forerunner and symbol of modern globalization. Offered: jointly with JSIS A 268.

[View course details in MyPlan: NEAR E 268](#)

NEAR E 271 Cultural History of Turkey: From Empire to Nation (5) VLPA/I&S

Topics include: social, economic, and political structures of Ottoman and Turkish Anatolia; language, literature, and artistic tradition; social status of women, literacy and illiteracy, the secular enterprise of Kemal Ataturk; Islamic fundamentalism, educational institutions, Kurdish nationalism.

[View course details in MyPlan: NEAR E 271](#)

NEAR E 285 Religion, Violence, and Peace: Patterns Across Time and Tradition (5) I&S

Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with HUM 205/RELIG 205; W.

[View course details in MyPlan: NEAR E 285](#)

NEAR E 286 Themes in Near Eastern Literature (5) VLPA/I&S

Significant and interesting aspects of Near Eastern culture and society as represented by literary themes. Aspects of Near Eastern life and art such as women, minority groups, mysticism, and modern literature. Content varies. May not be taken for credit if credit earned in NEAR E 330.

[View course details in MyPlan: NEAR E 286](#)

NEAR E 287 The Near East in Song (2, max. 8) VLPA

Surveys popular song at it has shaped modern culture and identity in the near East. Topics vary. May be repeated for credit if the student has not previously studies the same topic with the same instructor. All texts in English; no previous knowledge of other languages required. Credit/no-credit only.

[View course details in MyPlan: NEAR E 287](#)

NEAR E 296 Special Studies in Near Eastern Languages and Civilization (1-5, max. 15) I&S

Offered occasionally by visitors or resident faculty.

[View course details in MyPlan: NEAR E 296](#)

NEAR E 305 The Biblical Prophets (3) VLPA/I&S

Explores the Biblical prophets (in translation) within their Near Eastern contexts. Historicity, literary and rhetorical sophistication, and ideological agendas. Seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible required. Offered: jointly with RELIG 315.

[View course details in MyPlan: NEAR E 305](#)

NEAR E 306 The History of Biblical Interpretation (3) VLPA/I&S

Traces Biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times.

Adopts a "hands-on" approach to the material and explores various hermeneutics by applying them in class.

Offered: jointly with RELIG 306.

[View course details in MyPlan: NEAR E 306](#)

NEAR E 307 From Israelites to Jews: the First Six Centuries BCE (3) VLPA/I&S

Traces the Israelites, from the Babylonian destruction of the Jerusalemite Temple (586 BCE) to events following the destruction of the second Temple (first century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible required. Offered: jointly with JEW ST 317.

[View course details in MyPlan: NEAR E 307](#)

NEAR E 308 Gender and Sexuality in the Ancient Near East (3) I&S/VLPA, DIV

Investigates and critically assesses trends and topics in recent studies of gender and sexuality in the ancient Near East, pertaining especially to texts, artifacts, art and images from ancient Mesopotamia, Egypt and the Levant. Explores ancient Near Eastern taxonomies and functions of gender and sexuality, and examines social, political and religious forces that inform and construct gendered categories of gods, humans, and their worlds.

Prerequisite: No prerequisites; recommended: NEAR E 201, Introduction to the Ancient Near East Offered: AWSp.

[View course details in MyPlan: NEAR E 308](#)

NEAR E 309 Death and Afterlife in the Ancient World (3) VLPA/I&S

Explores human yearnings, obsessions, fears, and aspirations associated with death and afterlife by examining major political, military, social, economic, religious, literary, artistic, and architectural phenomena directly connected to the way ancient cultures, such as Egypt, Mesopotamia, Israel, and the Levant, have conceptualized death.

[View course details in MyPlan: NEAR E 309](#)

NEAR E 311 The Archaeology of Biblical Israel (5) I&S

Archaeology of ancient Israel (southern Levant). Covers the known archaeological material and Biblical and other contemporaneous textual sources to explore this topic, covering the archaeological cultures from the Middle Bronze Age to the end of the Babylonian Exile (2000-300 BCE).

[View course details in MyPlan: NEAR E 311](#)

NEAR E 312 Looting and Loss: The Recent Destruction of Cultural Heritage Sites in the Middle East (5) I&S

Explores the history and context of recent politicization, looting, and destruction of archaeological and cultural sites in the Middle East, as well as the associated human toll, with primary focus on the current state of modern Syria and Iraq. Covers the politics of archaeology in the Middle East from the First Gulf War to more recent times.

[View course details in MyPlan: NEAR E 312](#)

NEAR E 313 Ancient Technologies of the Near East (5) I&S

Introduction to ancient pyrotechnic technologies. Covers the laboratory methods used by modern archaeologists to study ancient ceramics, glass and metals, the methodologies behind the creation of these materials, and the invention of these technologies in the Near East, with brief comparisons with China and the New World.

[View course details in MyPlan: NEAR E 313](#)

NEAR E 314 The Archeology of Early Islam (5) I&S

Introduction to the archaeology of early Islam, from 632 to 1000 CE with the study of the rise (and occasional fall) of Islam in Arabia, Egypt, and Spain/Portugal through a survey of the local architecture and material culture. Students study key archaeological sites and histories of these regions.

[View course details in MyPlan: NEAR E 314](#)

NEAR E 315 Israel: Dynamic Society and Global Flashpoint (5) I&S, DIV

Introduces the people, institutions, and culture of Israel in the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture. Offered: jointly with JSIS A 314/POL S 314.

[View course details in MyPlan: NEAR E 315](#)

NEAR E 316 Israeli Identities (5) VLPA, DIV

Examines fiction and film, as well as selected poetry, popular songs, and essays, to explore diverse groups within contemporary Israeli society. Topics include the sabra ideal, holocaust survivors, Sephardic/Mizrahi communities, religious and secular Jews, Israel's Arab minority, and questions of gender.

[View course details in MyPlan: NEAR E 316](#)

NEAR E 317 Jewish Life in Literature and Film (5) VLPA/I&S

Major themes of Jewish life treated in modern narrative and cinema. Topics include religious tradition and modernity. Jewish immigration to America, responses to the Holocaust and Zionism.

[View course details in MyPlan: NEAR E 317](#)

NEAR E 318 Literature and the Holocaust (5) VLPA, DIV

Examines fiction, poetry, memoir, diaries, monuments, film, and pop culture from several languages and cultural milieus, with emphases on English and Hebrew. Topics include survivor testimony, shaping of collective memory, the second generation, Holocaust education and children's literature, gender and the Holocaust, and fantasy and humor as responses to catastrophe. May not be taken for credit if credit earned in NEAR E 441.

Offered: jointly with C LIT 318.

[View course details in MyPlan: NEAR E 318](#)

NEAR E 320 Prayer and Poetry in the Jewish and Islamic Traditions (5) VLPA/I&S

Examines elements of traditional Jewish and Muslim prayers and worship with poems that draw on those classical sources. Introduces students to the language and practice of prayer for both Jews and Muslims.

Examines poets from Europe, the Americas, Israel, and the Islamic world. Taught in English.

[View course details in MyPlan: NEAR E 320](#)

NEAR E 321 Israel in Film (2) VLPA/I&S

Presents films that introduce students to important aspects of Israeli culture. Topics include: Zionism, the Holocaust, immigration, religious and secular communities, mizrachim, Russians, army service, war and trauma, LGBT themes, and Israel's Arab minority.

[View course details in MyPlan: NEAR E 321](#)

NEAR E 325 Modern Hebrew Literature in English (3) VLPA

Major developments in Hebrew literature from the Enlightenment to the current Israeli literature.

[View course details in MyPlan: NEAR E 325](#)

NEAR E 329 Classical Arabic Literature in Translation (5) VLPA

Examines development of Arabic literature from its beginnings through the fall of the Abbasid dynasty and the Mongols. Coincided with period when Arabic language and literature were dominate forces in Islamic civilization. Topics include: Pre-Islamic poetry, impact of Islam on the literature, court poetry, and the rise of Arabic prose.

[View course details in MyPlan: NEAR E 329](#)

NEAR E 330 Colonialism, Nationalism, and the Modern Arabic Novel (5) VLPA/I&S

Examines how representative novels from the modern canon in Arabic have both endorsed and critiqued aspects of nationalism and colonialist ideology.

[View course details in MyPlan: NEAR E 330](#)

NEAR E 331 Thousand and One Nights (5) VLPA

Examines the major story cycles of the Thousand-and-One-Nights collection in their social and historical contexts.

[View course details in MyPlan: NEAR E 331](#)

NEAR E 332 Arab American Writers (5) VLPA/I&S

Explores the influences of Arab American writing both in the United States and the Arab world during the nineteenth and twentieth centuries. Discusses issues of emigration to the United States from the Arab world and its impact on the formation of a distinctive Arab American identity.

[View course details in MyPlan: NEAR E 332](#)

NEAR E 333 Prophecy in Judaism, Christianity, and Islam (3) I&S

Looks at the phenomenon of prophecy in Jewish, Christian, and Muslim thought and writing from antiquity to modernity. Traces the development of prophetic expression in the Hebrew Bible, the New Testament, and the

Quran. Surveys major themes and covers various eras, including prophecy in the American context.

[View course details in MyPlan: NEAR E 333](#)

NEAR E 334 Culture of the Arab World (5) VLPA/I&S

General survey of the linguistic, geographical, historical, social, religious, and cultural aspects of the modern Arab world, including the Arabic language, family, and the Arab experience in the United States. Examines Arab American relations, the role of the past and of social change, and Arab art and music.

[View course details in MyPlan: NEAR E 334](#)

NEAR E 335 Language Conflict and Identity in the Middle East and North Africa (5) VLPA/I&S

Explores social and linguistic aspects of the languages and cultures of the Middle East and North Africa, focusing on the relationship between language and national/ethnic identity from the perspective of group conflict. Considers language policies in colonial and post-colonial states, and individual strategies of accommodation and resistance to these policies.

[View course details in MyPlan: NEAR E 335](#)

NEAR E 336 Islam in Jewish Contexts, Judaism in Muslim Contexts (5) VLPA/I&S

An introduction to the Jewish-Muslim encounter: a look at exchange, symbiosis, liminality, and confrontation between these two kindred religio-cultural systems, from the rise of Islam, to the end of its Classical Age - six centuries wherein the majority of the world's Jews lived among Muslim majorities.

[View course details in MyPlan: NEAR E 336](#)

NEAR E 343 Classical Persian Literature in Translation (5) VLPA/I&S

Introduces themes, forms, and historical development of Persian literature from the 10th to 19th centuries CE. Topics include lyric and epic forms, Sufism, premodern poetics, and reception history of English translations. Reading includes Rumi, Hafez, Khayyam, Ferdowsi, Sa'di among others. No prior knowledge of Persian language or literature required.

[View course details in MyPlan: NEAR E 343](#)

NEAR E 344 Modern Persian Literature in Translation (5) VLPA/I&S

Introduces Persian literature from early modernizing projects in the 19th century up to today. Includes poetry, fiction, essays, and film. Examines various ways that Persian writers define modernity in their own works and respond to writers in other languages and traditions. No prior knowledge of Persian language or literature required.

[View course details in MyPlan: NEAR E 344](#)

NEAR E 345 Persian Literature in Translation (5) VLPA

Designed to familiarize students with an expanding collection of works translated from Persian literature, both classical and modern, into English. Focuses on a few representative texts and offers interpretations of the culture through close readings. Prior acquaintance with Persian culture not required.

[View course details in MyPlan: NEAR E 345](#)

NEAR E 357 Peoples and Cultures of Central and Inner Asia (5) I&S

Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 357/JSIS A 357.

[View course details in MyPlan: NEAR E 357](#)

NEAR E 358 Islam and Muslims in China (5) I&S

Introduces the lived experiences of Muslims in contemporary China. Examines Muslims' understanding of their faith; the relationship of Islam to the political, economic, and social lives of Muslims; how Islam shapes people's sense of culture and identity; and unity and diversity of various Chinese Muslim communities.

[View course details in MyPlan: NEAR E 358](#)

NEAR E 359 Language and Ethnic Identity in China (5) VLPA/I&S

Analysis of the political, social, and linguistic contexts of languages of China's fifty-six nationalities and the ongoing process of Chinese nation-state building efforts from sociolinguistic and ethnographic perspectives. Examines the relationship of linguistic diversity to social and cultural identity and the role of language in the construction of ethnic identities.

[View course details in MyPlan: NEAR E 359](#)

NEAR E 360 Oral Literature of the Turkic Peoples of Central Asia I: The Heroic Epos (3) VLPA/I&S

Representative heroic poems of Central Asian Turkic peoples now living in the Central Asian Republics and China. Origin of the heroic epos, its relation to the romantic epos and other oral literary genres. Art of the singer and his role in nomadic Turkic society. Emphasis on Manas, the monumental epos of Kirghiz.

[View course details in MyPlan: NEAR E 360](#)

NEAR E 371 Love and Empire: Cultural History of the Ottoman Empire through Literature (3-5) VLPA/I&S

Approaches Ottoman literature through translations and scholarly articles in English. Evaluates this particular literary tradition as an imperial production, through an analysis and critical reading of course materials.

[View course details in MyPlan: NEAR E 371](#)

NEAR E 372 Modern Turkish Literature in Translation (3) VLPA

Covers major theoretical issues concerning Ottoman court literature and Turkish epic and troubadour poetry. Major writers and works of modern Turkish literature read and analyzed in their social, political, and theoretical contexts. Previous study of Turkish literature not required.

[View course details in MyPlan: NEAR E 372](#)

NEAR E 385 Modern Near Eastern Literature in English Translation (3) VLPA

Contemporary cultures of the Middle East studied through exposure to a representative sample of their literary work. Texts selected address major issues in Middle Eastern societies, e.g., tradition versus modernity, national identity and the challenge of the West, Arab-Israeli conflict.

[View course details in MyPlan: NEAR E 385](#)

NEAR E 386 The Middle East Through Cinema (5, max. 12) VLPA

Analyzes the function of cinema in shaping communal and individual identities in Middle Eastern cultures. Examines topics including religious transformation, violence, identity, gender, immigration, and exile through film screenings, discussions, and supplementary readings. May not be taken for credit if credit earned in NEAR E 410.

[View course details in MyPlan: NEAR E 386](#)

NEAR E 391 Writing Seminar for NELC Majors and Graduate Students (3) VLPA S. NOEGEL

Seminar offers undergraduate majors and graduate students in the department with a close, systematic, and sustained experience with expository writing. All writing and rewriting will focus on subjects that relate to the Near East. Offered: A.

[View course details in MyPlan: NEAR E 391](#)

NEAR E 396 Intermediate Studies in Near Eastern Languages and Civilization (1-5, max. 15)

Offered occasionally by visitors or resident faculty.

[View course details in MyPlan: NEAR E 396](#)

NEAR E 399 Study Abroad (1-15, max. 15)

Credit for NEAR E 200-400-level courses in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

[View course details in MyPlan: NEAR E 399](#)

NEAR E 429 Islamic Mystical Literature in English (5) VLPA

Readings from the works of principal Sufi writers and poets.

[View course details in MyPlan: NEAR E 429](#)

NEAR E 430 Muslim Scripture, Historiography, and Exegesis (3) VLPA/I&S

Examines the origins and development of early and classical Muslim thought. Provides an in-depth survey of the three key genres of early and classical Muslim writing: scripture (Quran), historiography (Maghazi, Sira, and Tabaqat), and exegesis (Tafsir and Ta'wil). Offered: jointly with RELIG 430.

[View course details in MyPlan: NEAR E 430](#)

NEAR E 431 Arabic Linguistics (5) VLPA/I&S

Studies Arabic through modern linguistic analysis. Covers Arabic's phonology, morphology, syntax, and semantics, and discusses the history of Arabic as well as the frequently debated issue of diglossia in Arabic-speaking countries. Equal attention given to the linguistic features of both FuS'Ha Arabic and modern Arabic dialects. Prerequisite: ARAB 102.

[View course details in MyPlan: NEAR E 431](#)

NEAR E 432 Arabic Sociolinguistics (5) VLPA/I&S

Focuses on how Arabic is used by native speakers in various social contexts. Examines diglossia (co-existence of Modern Standard Arabic with the Arabic vernacular), linguistic variation in the Arab world, and the effect of variables such as education, social status, politics, and gender. Prerequisite: ARAB 101.

[View course details in MyPlan: NEAR E 432](#)

NEAR E 441 Literature and the Holocaust (5) VLPA

Examines fiction, poetry, memoir, diaries, monuments, film, and pop culture from several languages and cultural milieus, with emphases on English and Hebrew. Topics include survivor testimony, shaping of collective memory, the second generation, Holocaust education and children's literature, gender and the Holocaust, and fantasy and humor as responses to catastrophe.

[View course details in MyPlan: NEAR E 441](#)

NEAR E 457 Turkic Linguistics (5) VLPA

Survey of the nature and structure of the Turkic languages, focusing on phonology, morphology, syntax, lexicon, writing systems, history and cultural context, subgrouping and diversification, and linguistic theoretical principles for their description and analysis.

[View course details in MyPlan: NEAR E 457](#)

NEAR E 485 Digital Media: The Middle East and Central Asia (5) VLPA

Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

[View course details in MyPlan: NEAR E 485](#)

NEAR E 486 Methodologies in Near Eastern Studies (5)

Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, imperial and nationalist social systems, and ideological frameworks, such as Orientalism. Offered: jointly with JSIS A 491.

[View course details in MyPlan: NEAR E 486](#)

NEAR E 490 Supervised Study (1-6, max. 18)

Special work in Near Eastern studies for graduates and undergraduates.

[View course details in MyPlan: NEAR E 490](#)

NEAR E 491 Senior Seminar in Near Eastern Languages and Civilization (2)

Covers issues of methodology as well as linguistic, philosophical, literarily critical, rhetorical critical etc. topics. Focuses on developing academic presentation and communication skills. Includes supervised readings and group

discussion. Credit/no-credit only.

[View course details in MyPlan: NEAR E 491](#)

NEAR E 496 Advanced Studies in Near Eastern Languages and Civilization (3-5, max. 15) I&S

Offered occasionally by visitors or resident faculty. Content varies.

[View course details in MyPlan: NEAR E 496](#)

NEAR E 497 Honors Thesis (5)

Participants identify a specific thesis topic and conduct individual research under the direction of a thesis adviser, culminating in an Honors thesis. Open only to juniors and seniors in the Departmental Honors Program.

[View course details in MyPlan: NEAR E 497](#)

NEAR E 498 Senior Essay (5) VLPA/I&S

Supervised individual research and writing of a major paper during the senior year. Offered: AWSp.

[View course details in MyPlan: NEAR E 498](#)

NEAR E 499 Undergraduate Research (1-6, max. 18)

[View course details in MyPlan: NEAR E 499](#)

NEAR E 505 The Biblical Prophets (3) *Noegel*

Explores the Biblical prophets (in translation) within their Near Eastern contexts. Historicity, literary and rhetorical sophistication, and ideological agendas. Seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible required.

[View course details in MyPlan: NEAR E 505](#)

NEAR E 506 The History of Biblical Interpretation (3) *Noegel*

Traces Biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a 'hands-on' approach to the material and explores various hermeneutics by applying them in class.

[View course details in MyPlan: NEAR E 506](#)

NEAR E 507 From Israelites to Jews: the First Six Centuries BCS (3) *Noegel*

Traces the Israelites, from the Babylonian destruction of the Jerusalemite Temple (586 BCE) to events following the destruction of the second Temple (first century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible required.

[View course details in MyPlan: NEAR E 507](#)

NEAR E 508 Gender and Sexuality in the Ancient Near East (3) I&S/VLPA, DIV

Investigates and critically assesses trends and topics in recent studies of gender and sexuality in the ancient Near East, pertaining especially to texts, artifacts, art and images from ancient Mesopotamia, Egypt and the Levant. Explores ancient Near Eastern taxonomies and functions of gender and sexuality, and examines social, political and religious forces that inform and construct gendered categories of gods, humans, and their worlds.

Prerequisite: No prerequisites; recommended: NEAR E 201, Introduction to the Ancient Near East Offered: AWSp.

[View course details in MyPlan: NEAR E 508](#)

NEAR E 509 Death and Afterlife in the Ancient World (3)

Explores human yearnings, obsessions, fears, and aspirations associated with death and afterlife by examining major political, military, social, economic, religious, literary, artistic, and architectural phenomena directly connected to the way ancient cultures, such as Egypt, Mesopotamia, Israel, and the Levant, have conceptualized death.

[View course details in MyPlan: NEAR E 509](#)

NEAR E 511 The Archaeology of Biblical Israel (5)

Archaeology of ancient Israel (southern Levant). Covers the known archaeological material and Biblical and

other contemporaneous textual sources to explore this topic, covering the archaeological cultures from the Middle Bronze Age to the end of the Babylonian Exile (2000-300 BCE).⁸⁴⁰

[View course details in MyPlan: NEAR E 511](#)

NEAR E 513 Ancient Technologies of the Near East (5)

Introduction to ancient pyrotechnic technologies. Covers the laboratory methods used by modern archaeologists to study ancient ceramics, glass and metals, the methodologies behind the creation of these materials, and the invention of these technologies in the Near East, with brief comparisons with China and the New World.

[View course details in MyPlan: NEAR E 513](#)

NEAR E 515 Israel: Dynamic Society and Global Flashpoint (5) *Barzilai, Burstein, Migdal, Pianko, Sokoloff*

Introduces the people, institutions, and culture of Israel in the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture.

[View course details in MyPlan: NEAR E 515](#)

NEAR E 520 Prayer and Poetry in the Jewish and Islamic Traditions (5)

Examines elements of traditional Jewish and Muslim prayers and worship with poems that draw on those classical sources. Introduces students to the language and practice of prayer for both Jews and Muslims. Examines poets from Europe, the Americas, Israel, and the Islamic world. Taught in English.

[View course details in MyPlan: NEAR E 520](#)

NEAR E 529 Classical Arabic Literature in Translation (5)

Examines development of Arabic literature from its beginnings through the fall of the Abbasid dynasty and the Mongols. Coincided with period when Arabic language and literature were dominant forces in Islamic civilization. Topics include: Pre-Islamic poetry, impact of Islam on the literature, court poetry, and the rise of Arabic prose.

[View course details in MyPlan: NEAR E 529](#)

NEAR E 530 Colonialism, Nationalism, and the Modern Arabic Novel (5) *DeYoung*

Examines how representative novels from the modern canon in Arabic have both endorsed and critiqued aspects of nationalism and colonialist ideology.

[View course details in MyPlan: NEAR E 530](#)

NEAR E 531 Thousand and One Nights (5)

Examines the major story cycles of the Thousand-and-One-Nights collection in their social and historical contexts.

[View course details in MyPlan: NEAR E 531](#)

NEAR E 532 Arab American Writers (5)

Explores the influences of Arab American writing both in the United States and the Arab world during the nineteenth and twentieth centuries. Discusses issues of emigration to the United States from the Arab world and its impact on the formation of a distinctive Arab American identity.

[View course details in MyPlan: NEAR E 532](#)

NEAR E 533 Prophecy in Judaism, Christianity, and Islam (5)

Looks at the phenomenon of prophecy in Jewish, Christian, and Muslim thought and writing from antiquity to modernity. Traces the development of prophetic expression in the Hebrew Bible, the New Testament, and the Quran. Surveys major themes and covers various eras, including prophecy in the American context.

[View course details in MyPlan: NEAR E 533](#)

NEAR E 534 Culture of the Arab World (5)

General survey of the linguistic, geographical, historical, social, religious, and cultural aspects of the modern Arab world, including the Arabic language, family, and the Arab experience in the United States. Examines

Arab American relations, the role of the past and of social change, and Arab art and music.

[View course details in MyPlan: NEAR E 534](#)

NEAR E 535 Language Conflict and Identity in the Middle East and North Africa (5) VLPA/I&S

Explores social and linguistic aspects of the languages and cultures of the Middle East and North Africa, focusing on the relationship between language and national/ethnic identity from the perspective of group conflict. Considers language policies in colonial and post-colonial states, and individual strategies of accommodation and resistance to these policies.

[View course details in MyPlan: NEAR E 535](#)

NEAR E 536 Islamic Law (2-5)

Selected topics in Islamic law that highlight major aspects of Islamic civilization. Offered: jointly with LAW B 556.

[View course details in MyPlan: NEAR E 536](#)

NEAR E 537 Muslim Scripture, Historiography, and Exegesis (5)

Examines the origins and development of early and classical Muslim thought. Provides an in-depth survey of the three key genres of early and classical Muslim writing: scripture (Quran), historiography (Maghazi, Sira, and Tabaqat), and exegesis (Tafsir and Ta'wil).

[View course details in MyPlan: NEAR E 537](#)

NEAR E 538 Arabic Linguistics (5) VLPA/I&S

Studies Arabic through modern linguistic analysis. Covers Arabic's phonology, morphology, syntax, and semantics, and discusses the history of Arabic as well as the frequently debated issue of diglossia in Arabic-speaking countries. Equal attention given to the linguistic features of both FuS'Ha Arabic and modern Arabic dialects. Prerequisite: ARAB 512.

[View course details in MyPlan: NEAR E 538](#)

NEAR E 539 Arabic Sociolinguistics (5)

Focuses on how Arabic is used by native speakers in various social contexts. Examines diglossia (co-existence of Modern Standard Arabic with the Arabic vernacular), linguistic variation in the Arab world, and the effect of variables such as education, social status, politics, and gender. Prerequisite: NEAR E 534.

NEAR E 540 Islamic Poetry and Poetics (3)

[View course details in MyPlan: NEAR E 540](#)

NEAR E 541 Islam in Jewish Contexts, Judaism in Muslim Contexts (3)

An introduction to the Jewish-Muslim encounter: a look at exchange, symbiosis, liminality, and confrontation between these two kindred religio-cultural systems, from the rise of Islam, to the end of its Classical Age - six centuries wherein the majority of the world's Jews lived among Muslim majorities.

[View course details in MyPlan: NEAR E 541](#)

NEAR E 543 Classical Persian Literature in Translations (5)

Introduces themes, forms, and historical development of Persian literature from the 10th to 19th centuries CE. Topics include lyric and epic forms, Sufism, premodern poetics, and reception history of English translations. Reading includes Rumi, Hafez, Khayyam, Ferdowsi, Sa'di among others. No prior knowledge of Persian language or literature required.

[View course details in MyPlan: NEAR E 543](#)

NEAR E 544 Modern Persian Literature in Translations (5)

Introduces Persian literature from early modernizing projects in the 19th century up to today. Includes poetry, fiction, essays, and film. Examines various ways that Persian writers define modernity in their own works and respond to writers in other languages and traditions. No prior knowledge of Persian language or literature

required.

[View course details in MyPlan: NEAR E 544](#)

NEAR E 545 Persian Literature in Translations (5)

Designed to familiarize students with an expanding collection of works translated from Persian literature, both classical and modern, into English. Focuses on a few representative texts and offers interpretations of the culture through close readings. Prior acquaintance with Persian culture not required.

[View course details in MyPlan: NEAR E 545](#)

NEAR E 557 Turkic Linguistics (5)

Survey of the nature and structure of the Turkic languages, focusing on phonology, morphology, syntax, lexicon, writing systems, history and cultural context, subgrouping and diversification, and linguistic theoretical principles for their description and analysis.

[View course details in MyPlan: NEAR E 557](#)

NEAR E 558 Peoples and Cultures of Central and Inner Asia (5)

Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 522/JSIS D 572.

[View course details in MyPlan: NEAR E 558](#)

NEAR E 559 Islam and Muslims in China (5)

Introduces the lived experiences of Muslims in contemporary China. Examines Muslims' understanding of their faith; the relationship of Islam to the political, economic, and social lives of Muslims; how Islam shapes people's sense of culture and identity; and unity and diversity of various Chinese Muslim communities.

[View course details in MyPlan: NEAR E 559](#)

NEAR E 560 Language and Ethnic Identity in China (5)

Analysis of the political, social, and linguistic contexts of languages of China's fifty-six nationalities and the ongoing process of Chinese nation-state building efforts from sociolinguistic and ethnographic perspectives. Examines the relationship of linguistic diversity to social and cultural identity and the role of language in the construction of ethnic identities.

[View course details in MyPlan: NEAR E 560](#)

NEAR E 571 Love and Empire: Cultural History of the Ottoman Empire through Literature (3)

Survey of the nature and structure of the Turkic languages, focusing on phonology, morphology, syntax, lexicon, writing systems, history and cultural context, subgrouping and diversification, and linguistic theoretical principles for their description and analysis.

[View course details in MyPlan: NEAR E 571](#)

NEAR E 572 Modern Turkish Literature in Translation (3)

Covers major theoretical issues concerning Ottoman court literature and Turkish epic and troubadour poetry. Major writers and works of modern Turkish literature read and analyzed in their social, political, and theoretical contexts. Previous study of Turkish literature not required.

[View course details in MyPlan: NEAR E 572](#)

NEAR E 585 Digital Media: The Middle East and Central Asia (5)

Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

[View course details in MyPlan: NEAR E 585](#)

NEAR E 586 Middle East Through Cinema (5, max. 12)

Analyzes the function of cinema in shaping communal and individual identities in Middle Eastern cultures.

Examines topics including religious transformation, violence, identity, gender, immigration, and exile through film screenings, discussions, and supplementary readings.

[View course details in MyPlan: NEAR E 586](#)

NEAR E 587 Teaching Arabic as a Foreign/Second Language (3)

Theory and practice of communicative language teaching; current developments in foreign-language teaching; evaluation of teaching materials; includes participation at the departmental and university-wide fall orientation; required for beginning teaching assistants of Near Eastern Languages. Credit/no-credit only.

[View course details in MyPlan: NEAR E 587](#)

NEAR E 588 Methodologies in Near Eastern Studies (5)

Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, imperial and nationalist social systems, and ideological frameworks, such as Orientalism.

[View course details in MyPlan: NEAR E 588](#)

NEAR E 589 Research Methods (3)

Introduction to research in Islamic civilization. Research methods, primary sources, evidence and documentation, reference works, transliteration systems, scholarly writing style.

[View course details in MyPlan: NEAR E 589](#)

NEAR E 590 Seminar on Near Eastern Civilization and Thought (3-5, max. 30)

Content varies.

[View course details in MyPlan: NEAR E 590](#)

[View course details in MyPlan: ARAB 201](#)

ARAB 202 Intermediate Arabic (5) VLPA

Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 205 taken for credit. Second in a sequence of three. Prerequisite: ARAB 201.

[View course details in MyPlan: ARAB 202](#)

ARAB 203 Intermediate Arabic (5) VLPA

Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 205 taken for credit. Third in a sequence of three. Prerequisite: ARAB 202.

[View course details in MyPlan: ARAB 203](#)

ARAB 205 Intensive Intermediate Arabic (15) VLPA

Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 201, ARAB 202, ARAB 203 taken for credit. Prerequisite: either ARAB 103 or ARAB 105.

[View course details in MyPlan: ARAB 205](#)

ARAB 399 Study Abroad (1-15, max. 15)

Credit for elementary or intermediate Arabic in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

[View course details in MyPlan: ARAB 399](#)

ARAB 401 Current Issues in Arab Media (5)

Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through discussions, debates, presentations, and written work. Taught in Arabic. Prerequisite: ARAB 203 or 205. Offered: S.

[View course details in MyPlan: ARAB 401](#)

ARAB 402 Current Issues in Arab Media (5)

Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through discussions, debates, presentations, and written work. Taught in Arabic. Prerequisite: ARAB 401.

[View course details in MyPlan: ARAB 402](#)

ARAB 403 Current Issues in Arab Media (5)

Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through

discussions, debates, presentations, and written work. Taught in Arabic. Prerequisite: ARAB 402.

[View course details in MyPlan: ARAB 403](#)

ARAB 404 Arabic Short Stories (5) VLPA

Introduces student to prominent twentieth-century Arab authors via selected examples of their short stories, read in Arabic. Emphasizes use of literature as a popular technique for teaching basic language skills (i.e. listening, speaking, reading, and writing) and language areas (i.e. vocabulary, grammar, and pronunciation). Prerequisite: either ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 404](#)

ARAB 405 Modern Arabic Poetry (3) VLPA

Neoclassical poetry of the nineteenth and twentieth centuries, and the development of modern verse.

Prerequisite: either ARAB 203 or ARAB 205. Instructors: DeYoung

[View course details in MyPlan: ARAB 405](#)

ARAB 406 Development of Modern Arabic Prose (5) VLPA

Modern essays, fiction, and ideological writings. Prerequisite: either ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 406](#)

ARAB 407 Grammatical and Lexical Arabic Texts (3) VLPA

Introduction to concepts and terminology of Arabic grammar and lexicography through readings from scholars such as Sibawayh, Ibn Aqil, and Ibn Manzur. Prerequisite: either ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 407](#)

ARAB 408 Historical Texts (3) VLPA/I&S

Readings in Arab historians with particular reference to scholars such as Tabari, Ibn al-Jawzi, and Ibn al-Athir.

Prerequisite: either ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 408](#)

ARAB 409 Quran and Its Interpretation (3) VLPA

Reading of selected passages from the Quran in relation to their interpretation in classical commentaries (tafsir) and in legal texts (ahkam al-Quran). Focus on the various types of classical scholarship applied to the text of the Quran (ulum al-Quran). Prerequisite: either ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 409](#)

ARAB 410 Islamic Theological and Mystical Literature (3) VLPA

Reading of selected texts representative of Islamic theological and mystical schools. Prerequisite: either ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 410](#)

ARAB 411 Arabic Through Song (5) VLPA/I&S

Emphasizes history, language, and culture explored, learned, and analyzed via songs. Considers how song reflects and portrays language and its usage; current and past events; and cultural nuances. Prerequisite: either ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 411](#)

ARAB 412 Introduction to Classical Arabic (5) VLPA

Reading the Qur'an, Hadith, and poetry in Classical Arabic (CA). Students study selected texts, listen to Qur'anic recitations, and poetry, mastering many advanced grammatical structures and acquiring a working vocabulary in CA. Prerequisite: ARAB 203 or ARAB 205.

[View course details in MyPlan: ARAB 412](#)

ARAB 490 Supervised Study (1-6, max. 18)

Special work in literary texts for graduates and undergraduates. Prerequisite: ARAB 423.

[View course details in MyPlan: ARAB 490](#)

ARAB 496 Special Studies in Arabic (3-5, max. 15) VLPA

Topics vary. Offered occasionally by visiting or resident faculty.

Continues the introduction to the biblical (classical) Hebrew with additional readings from the Hebrew Bible.

Prerequisite: BIBHEB 101.

[View course details in MyPlan: BIBHEB 102](#)

BIBHEB 103 Biblical Hebrew Prose (5) VLPA

Explores select prose sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: BIBHEB 102.

[View course details in MyPlan: BIBHEB 103](#)

BIBHEB 105 Intensive Elementary Biblical Hebrew (15) VLPA

Intensive study of grammar with oral and written drills and reading of simple texts. Cannot be taken for credit if BIBHEB 101, BIBHEB 102, BIBHEB 103 previously taken.

[View course details in MyPlan: BIBHEB 105](#)

BIBHEB 199 Study Abroad (1-15, max. 15)

Credit for elementary Hebrew in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

[View course details in MyPlan: BIBHEB 199](#)

BIBHEB 201 Biblical Hebrew Poetry (5) VLPA

Explores select poetic sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: either BIBHEB 103 or BIBHEB

105.

[View course details in MyPlan: BIBHEB 201](#)**BIBHEB 202 Inscriptions from Biblical Times (5) VLPA**

Surveys Northwest Semitic inscriptions that bear significantly on our understanding of Biblical history and ancient Hebrew including the Moabite stone, Israelite ostraca, Siloam engraving, Gezer calendar, Deir Alla (Gilead) inscriptions, the Asherah texts, Ammonite fragments, and Phoenician monuments. Prerequisite: BIBHEB 201.

[View course details in MyPlan: BIBHEB 202](#)**BIBHEB 203 Biblical Prophetic Texts (5) VLPA**

Examines the language, style, and literary sophistication of biblical prophetic texts within the context of ancient Near Eastern prophecies. Prerequisites: Prerequisite: BIBHEB 103, BIBHEB 503, or permission of instructor.

[View course details in MyPlan: BIBHEB 203](#)**BIBHEB 204 The Book of Job (5) VLPA**

Examines the language, style, and literary sophistication of the biblical Book of Job within the context of ancient near Eastern dispute poetry and correlates close readings of the book in the original Hebrew language with various interpretations it has received since antiquity. Prerequisite: BIBHEB 103.

[View course details in MyPlan: BIBHEB 204](#)**BIBHEB 205 Readings in Medieval Hebrew Poetry (3) VLPA *S. NOEGEL***

A close examination of Medieval Hebrew poetry. Among the poems we shall study will include works by Yehudah Halevi, Shlomo ibn Gabirol, Moshe ibn Ezra, and Abraham ibn Ezra. Focus will be on the literary sophistication of this poetry. Prerequisite: BIBHEB 103/513 or MODHEB 103/513. Offered: WSp.

[View course details in MyPlan: BIBHEB 205](#)**BIBHEB 399 Study Abroad (1-15, max. 15)**

Credit for intermediate Hebrew in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

[View course details in MyPlan: BIBHEB 399](#)**BIBHEB 490 Supervised Study (1-6, max. 18)**

Special work in literary texts for graduates and undergraduates. Prerequisite: BIBHEB 203.

[View course details in MyPlan: BIBHEB 490](#)**BIBHEB 496 Special Studies in Biblical Hebrew (3-5, max. 15) VLPA**

Topics vary.

[View course details in MyPlan: BIBHEB 496](#)**BIBHEB 499 Undergraduate Research (1-6, max. 18)**[View course details in MyPlan: BIBHEB 499](#)**BIBHEB 511 Elementary Biblical Hebrew (5)**

Introduction to biblical (classical) Hebrew beginning with the alphabet. Integrates core vocabulary and basic grammar with reading short selections directly from the Hebrew Bible.

[View course details in MyPlan: BIBHEB 511](#)**BIBHEB 512 Elementary Biblical Hebrew (5)**

Continues the introduction to the biblical (classical) Hebrew with additional readings from the Hebrew Bible. Prerequisite: BIBHEB 511.

[View course details in MyPlan: BIBHEB 512](#)**BIBHEB 513 Biblical Hebrew Prose (5)**

Explores select prose sections of the Hebrew Bible (Old Testament) in conjunction with English translations and

commentaries. Emphasizes close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: BIBHEB 512.

[View course details in MyPlan: BIBHEB 513](#)

BIBHEB 515 Intensive Elementary Biblical Hebrew (1)

Intensive introduction to biblical (classical) Hebrew beginning with the alphabet. Integrates core vocabulary and basic grammar with reading short selections from the Hebrew Bible. Offered: S.

[View course details in MyPlan: BIBHEB 515](#)

BIBHEB 521 Biblical Hebrew Poetry (5)

Explores select poetic sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasizes close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: either BIBHEB 513 or BIBHEB 515.

[View course details in MyPlan: BIBHEB 521](#)

BIBHEB 522 Inscriptions from Biblical Times (5)

Surveys Northwest Semitic inscriptions that bear significantly on our own understanding of Biblical history and ancient Hebrew including the Moabite stone, Israelite ostraca, Siloam engraving, Gezer calendar, Deir Alla (Gilead) inscriptions, the Asherah texts, Ammonite fragments, and Phoenician monuments. Prerequisite: BIBHEB 521.

[View course details in MyPlan: BIBHEB 522](#)

BIBHEB 523 Biblical Prophetic Texts (5)

Examines the language, style, and literary sophistication of biblical prophetic texts within the context of ancient Near Eastern prophecies. Prerequisite: BIBHEB 103, BIBHEB 503, or permission of instructor.

[View course details in MyPlan: BIBHEB 523](#)

BIBHEB 524 The Book of Job (5)

Examines the language, style, and literary sophistication of the biblical Book of Job within the context of ancient near Eastern dispute poetry and correlates close readings of the book in the original Hebrew language with various interpretations it has received since antiquity. Prerequisite: BIBHEB 103 or BIBHEB 513.

[View course details in MyPlan: BIBHEB 524](#)

BIBHEB 525 Readings in Medieval Hebrew Poetry (3) *S. NOEGEL*

A close examination of Medieval Hebrew poetry. Among the poems we shall study will include works by Yehudah Halevi, Shlomo ibn Gabirol, Moshe ibn Ezra, and Abraham ibn Ezra. Focus will be on the literary sophistication of this poetry. Prerequisite: BIBHEB 103/513 or MODHEB 103/513. Offered: WSp.

MODERN HEBREW

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MODHEB 100 Introduction to Hebrew Language and Culture (2) VLPA/I&S

Introduces modern Hebrew language and culture, focusing on fundamental structures of the language, the revival of Hebrew in modern times, and connections between contemporary usage and Jewish traditions. Topics include: the alphabet, the verb system, the Hebrew calendar, Jewish and Israeli holidays, names, songs, popular sayings, and more. Credit/no-credit only.

[View course details in MyPlan: MODHEB 100](#)

MODHEB 101 Elementary Modern Hebrew (5)

Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if MODHEB 105 taken). First in a sequence of three.

[View course details in MyPlan: MODHEB 101](#)

MODHEB 102 Elementary Modern Hebrew (5)

Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if MODHEB 105 taken). Second in a sequence of three. Prerequisite: MODHEB 101.

[View course details in MyPlan: MODHEB 102](#)

MODHEB 103 Elementary Modern Hebrew (5)

Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if MODHEB 105 taken). Third in a sequence of three. Prerequisite: MODHEB 102.

[View course details in MyPlan: MODHEB 103](#)

MODHEB 105 Intensive Elementary Modern Hebrew (15)

Intensive study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if MODHEB 101, MODHEB 102, MODHEB 103 taken.)

[View course details in MyPlan: MODHEB 105](#)

MODHEB 199 Study Abroad (1-15, max. 15)

Credit for elementary Hebrew in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

[View course details in MyPlan: MODHEB 199](#)

MODHEB 200 Hebrew Conversation (2) VLPA/I&S

Builds upon skills in Modern Hebrew and promotes cultural proficiency as an integrated and essential component of language learning. Enhances communication through the acquisition and use of vocabulary and structure of the Hebrew language in authentic cultural and social contexts. Prerequisite: either MODHEB 103 or MODHEB 105. Credit/no-credit only.

[View course details in MyPlan: MODHEB 200](#)

MODHEB 201 Intermediate Modern Hebrew (5) VLPA

Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. First in a sequence of three. Prerequisite: either MODHEB 103 or MODHEB 105.

[View course details in MyPlan: MODHEB 201](#)

MODHEB 202 Intermediate Modern Hebrew (5) VLPA

Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Second in a sequence of three. Prerequisite: MODHEB 201.

[View course details in MyPlan: MODHEB 202](#)

MODHEB 203 Intermediate Modern Hebrew (5) VLPA

Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Third in a sequence of three. Prerequisite: MODHEB 202.

[View course details in MyPlan: MODHEB 203](#)

MODHEB 399 Study Abroad (1-15, max. 15)

Credit for intermediate Hebrew in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

[View course details in MyPlan: MODHEB 399](#)

MODHEB 401 Introduction to Hebrew Literature (3) VLPA

Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts - short poetry, fiction, and essays - with some selections as well from Biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 401](#)

MODHEB 402 Introduction to Hebrew Literature (5) VLPA

Modern Hebrew literary texts and analysis, with continued emphasis on grammar and composition. Review of language skills and dictionary work to reinforce the students' knowledge of Hebrew and to foster improved competence in reading, discussion, and writing. Also covers fundamentals of narrative theory as students practice close readings of texts. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 402](#)

MODHEB 403 Introduction to Hebrew Literature (3) VLPA

Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts short poetry, fiction, and essays with some selections as well from Biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 403](#)

MODHEB 404 Hebrew Poetry (5) VLPA

Selections of poetry by prominent twentieth-century Hebrew poets whose texts comment or elaborate on biblical texts. Original source considered side-by-side with modern poetry, to examine ways recent literature models

itself on, draws upon, and revises traditional sources. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 404](#)

MODHEB 405 Hebrew Fiction (5) VLPA

Selections of fiction by prominent modern Hebrew writers, including S. Y. Agnon, Aharon Appelfeld, David Shahar, Aharon Megged, and others. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 405](#)

MODHEB 406 Hebrew Poems and Prayers (5) VLPA

Introduces students to traditional Jewish prayers and examines Modern Hebrew poems that draw on these classical sources and reframe or reimagine the language of faith. Topics to be converged include: blessings, synagogue prayer services, High holiday prayers, the Sabbath, prayers of mourning, and debate over gender and prayer. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 406](#)

MODHEB 407 Hebrew in Song (5) VLPA

Selections of Israeli folksong, pop, rock, children's songs, and musika mizrahit. While building vocabulary and improving dictionary and composition skills, students examine the role of popular song in the construction of modern Hebrew culture and Israeli identity. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 407](#)

MODHEB 408 Modern Hebrew Prose (5) VLPA *N. SOKOLOFF*

Modern Hebrew prose texts, including essays, journalism, social media, and fiction. Emphasis on vocabulary, grammar, and composition skills. Prerequisite: MODHEB 203/523 (intermediate Modern Hebrew) or permission of instructor.

[View course details in MyPlan: MODHEB 408](#)

MODHEB 490 Supervised Study (1-6, max. 18)

Special work in literary texts for graduates and undergraduates. Prerequisite: MODHEB 203.

[View course details in MyPlan: MODHEB 490](#)

MODHEB 496 Special Studies in Modern Hebrew (3-5, max. 15) VLPA

Topics vary. Prerequisite: MODHEB 203.

Neurobiology

[Display as tabs](#)

Program Overview

318 Hitchcock

Neurobiology offers students an intense introduction to the study of nervous systems. Faculty in both the College of Arts and Sciences and the School of Medicine teach courses in the major. Students study the cellular and molecular properties of single nerve cells and the connections among them and learn how these properties determine animal behavior and human disease.

The Neurobiology Program offers the following program of study:

- The Bachelor of Science degree with a major in neurobiology

Bachelor of Science

Program Admission Requirements

Applicants are considered in the following groups: Direct Freshman Admission and Regular Admission. Admission is competitive; meeting minimum standards guarantees consideration but not acceptance. Application deadline is the second Friday in October each year except for Direct Freshman Admission.

Direct Freshman Admissions

The department enrolls up to 15 percent of its incoming class directly from high school. Students accepted to the UW who indicate neurobiology as their preferred major on their freshman application are considered. Strong applicants have completed chemistry, biology, and calculus in high school and generally have received a minimum 1400 on the SAT (mathematics and verbal sections) or a minimum 30 on the ACT. Admission is for autumn quarter only.

Regular Admission

1. BIOL 180, BIOL 200, BIOL 220, with minimum 2.0 grade in each

2. Completion of most supporting coursework in physics, math, and chemistry recommended (see specific course lists, below), with minimum 2.50 GPA in any such work completed at time of application

Major Requirements

Minimum 86 credits, as follows:

1. *Supporting coursework (minimum 48 credits):*
 - a. *Chemistry:* Pathway 1 -- CHEM 120, CHEM 220, CHEM 221; Pathway 2 (recommended) -- CHEM 142, CHEM 152, CHEM 162 (or CHEM 145, CHEM 155, CHEM 165); and CHEM 223, CHEM 224 (or CHEM 237, CHEM 238, CHEM 239) (or CHEM 335, CHEM 336, CHEM 337) (labs not required) (15 - 27 credits)
 - b. *Physics:* Pathway 1 - PHYS 114, PHYS 115; Pathway 2 (recommended) - PHYS 121, PHYS 122. (8 to 10 credits)
 - c. *Mathematics:* Two quarters of calculus (MATH 124, MATH 125, or MATH 144, MATH 145, or Q SCI 291, Q SCI 292) (10 credits)
 - d. *Introductory Biology (minimum 15 credits):* BIOL 180, BIOL 200, BIOL 220 (15 credits)
2. *Introduction to Neurobiology (10 credits):* NBIO 301, NBIO 302.
3. *Advanced courses in neurobiology (12 credits):* NBIO 401, NBIO 402, NBIO 403, NBIO 404.
4. *Electives:* Minimum 16 credits from a wide variety of 400-level courses in the biological sciences. See adviser for list of courses. Courses not listed may be allowed with permission of program director. Students may apply up to 7 credits of undergraduate research toward the 16 elective credits.
5. Minimum cumulative 2.00 GPA for courses applied to the major.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Throughout the core sequence of neurobiology, students gain a deep understanding of the basic concepts of nervous system function and learn many of the basic techniques used to study nerve cells. Students also learn how to analyze neurophysiological data, and compose and present results. Graduates pursue careers in medicine, public health, education, pharmaceutical sales, computing, and graduate study.
- *Instructional and Research Facilities:* Laboratories are required with introductory courses. (NBIO 301 and NBIO 302). The program offers state-of-the-art facilities and equipment for each course.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.

- *Research, Internships, and Service Learning:* Most neurobiology students participate in undergraduate research with faculty from both the College of Arts and Sciences and the School of Medicine.
- *Program Scholarships:* None offered.
- *Student Organizations/Associations:* Beta Beta Beta, the honor society for biological study; Alpha Epsilon Delta, the national premedical honorary society.

COLLEGE OF ARTS & SCIENCES

NEUROBIOLOGY

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

NBIO 301 Introduction to Cellular and Molecular Neurobiology (5) NW

Introduces students to the physiological and molecular properties of individual nerve cells and the synaptic connections between them, and to principles of nervous system development. Includes weekly laboratory sessions. Prerequisite: BIOL 220. Instructors: Moody Offered: W.

[View course details in MyPlan: NBIO 301](#)

NBIO 302 Introduction to Systems and Behavioral Neurobiology (3/5) NW *M. BOSMA, J. SISNEROS*

Introduces neuroethology, i.e., the mechanisms by which neurons and the synaptic connections among them produce sensory perceptions and complex behavioral outputs. Available with or without weekly laboratory sessions. Prerequisite: NBIO 301. Offered: A.

[View course details in MyPlan: NBIO 302](#)

NBIO 303 Neuronal Coding and Computation (1-3)

Introduces computational neuroscience, focusing on concepts that are related to neuronal and synaptic biophysics. Works through mathematical concepts and methods to describe neuronal dynamics, and introduce methods to analyze and characterize neural coding. Uses Matlab as a programming language to implement models or neuronal dynamics to perform data analysis. Prerequisite: MATH 125. Credit/no-credit only. Offered: W.

[View course details in MyPlan: NBIO 303](#)

NBIO 401 Systems Neurobiology (3) NW

Introduces students to the anatomical and physiological organization of the major sensory, motor, and associative systems of the mammalian brain. Behavioral data used to stress functional integration of systems. Includes gross brain anatomy demonstration and computer tutorials. Prerequisite: NBIO 301. Instructors: Robinson Offered: Sp.

[View course details in MyPlan: NBIO 401](#)

NBIO 402 Diseases of the Nervous System (3) NW

Introduces the basic mechanisms of mammalian nervous system function through the study of human neurological diseases that result from specific disruption of neuronal signaling. Prerequisite: NBIO 401.

Instructors: Froener, Horwitz Offered: W.

[View course details in MyPlan: NBIO 402](#)

NBIO 403 Systems and Behavioral Neurobiology (3) NW

Topics include information processing in sensory and motor systems, sensory-motor integration, learning, and memory. Using examples from the field of neuroethology, encourages students to work independently on problems taken from the recent neurobiological research literature. Prerequisite: NBIO 401. Instructors: Kim Offered: W.

[View course details in MyPlan: NBIO 403](#)

NBIO 404 Neuropharmacology (3) NW

Actions of drugs on the brain at clinical, cellular, and molecular levels. Therapeutic use of drugs in treatment of neurological and psychiatric diseases. Abuse of drugs and the mechanisms of addiction, tolerance, and withdrawal. Prerequisite: NBIO 401. Instructors: Stella Offered: Sp.

[View course details in MyPlan: NBIO 404](#)

NBIO 405 Neural Computation and Engineering Laboratory (3) NW *L. JOHNSON DYHR*

Introduces neural recording and quantitative analysis techniques to students with a background in quantitative methods. Prerequisite: AMATH 345 or BIOL 162 or BIOL 220 and one of the following: MATH 308, AMATH 352 or AMATH 301 Offered: jointly with BIOEN 466.

[View course details in MyPlan: NBIO 405](#)

NBIO 440 Topics in Current Neurobiology Research (2, max. 6) NW

Prerequisite: NBIO 302. Credit/no-credit only.

[View course details in MyPlan: NBIO 440](#)

NBIO 450 Current Research Literature in Neurobiology (2, max. 6) NW

Weekly journal club in neurobiology. Students read and discuss original research articles in neurobiology, centered around a specific topic each quarter. Prerequisite: BIOL 220. Credit/no-credit only.

[View course details in MyPlan: NBIO 450](#)

NBIO 490 SEMINAR IN COMPUTATIONAL NEUROSCIENCE (1-3, max. 6) NW

Supervised readings and group discussions in computational neuroscience. Credit/no-credit only.

[View course details in MyPlan: NBIO 490](#)

NBIO 496 Peer Teaching Facilitator in Neurobiology (5, max. 10) *M. KENNEDY*

For undergraduates assisting in Neurobiology courses as facilitators. Peer Facilitators assist with laboratories, attend lectures, and attend weekly course meetings, gaining direct course experience. Does not include independent teaching or grading. Credit/no-credit only. Offered: AW.

[View course details in MyPlan: NBIO 496](#)

NBIO 499 Individual Research in Neurobiology (3-6, max. 18)

Students carry out projects in laboratories of program faculty. Prerequisite: NBIO 302.

Philosophy

[Display as tabs](#)

Department Overview

361 Savery

Philosophy is the study of the most fundamental issues concerning reality, knowledge, and value, and of the basic concepts, principles, and arguments of the major intellectual disciplines. Its fields include metaphysics, epistemology, logic, ethics, history of philosophy, political philosophy, aesthetics, philosophy of science, philosophy of mind, philosophy of language, philosophy of law, and philosophy of religion.

(206) 543-5855

philadv@uw.edu

The Department of Philosophy offers the following programs of study:

- The Bachelor of Arts degree with a major in philosophy
- The Bachelor of Arts degree with a major in history and philosophy of science, offered jointly with the [Department of History](#)
- A minor in philosophy

The Department of Philosophy also administers the interdisciplinary minor in [ethics](#).

Bachelor of Arts

Philosophy

Suggested First- and Second-Year College Courses: Introductory courses in symbolic logic, social philosophy, major problems of philosophy, and history of philosophy. Courses to develop writing, language, and analytic skills.

Department Admission Requirements

Minimum 2.00 cumulative GPA and completion of 10 credits of philosophy coursework

Major Requirements

50 credits, to include:

1. One course from PHIL 115, PHIL 120, or an upper-division course in logic
2. One course from PHIL 320, PHIL 330, PHIL 335, or PHIL 340 (undergraduate adviser must approve substitutions)
3. One course from PHIL 322, PHIL 332, PHIL 342, or 400-level courses in the same areas (undergraduate adviser must approve substitutions)
4. At least four UW philosophy courses at the 400 level, excluding PHIL 484
5. At least 25 credits at the UW
6. Minimum 2.00 cumulative GPA for all philosophy courses taken

History and Philosophy of Science

Suggested First- and Second-Year College Courses: PHIL 120, PHIL 160. Courses that develop writing skills. Introductory science courses and mathematics courses through calculus.

Department Admission Requirements

1. HSTCMP 311, HSTCMP 312; PHIL 160 or PHIL 460; PHIL 120, each with a minimum 2.0 grade
2. Completion of 10 credits toward the Natural World (science) requirement (see below), each course with a minimum 2.0 grade
3. Minimum UW 2.00 GPA
4. Completion of 10 credits of composition/writing courses with a minimum 2.0 grade for each course. This requirement may be met by freshman English composition courses, "W" courses, or any courses in which the student has written a graded paper (to be reviewed by HPS faculty) of at least 10 pages.

Major Requirements

85 credits as follows:

1. *Core Courses:* HSTCMP 311, HSTCMP 312, HSTCMP 390; PHIL 160 or PHIL 460; PHIL 120 (25 credits). A minimum 2.0 grade in each course and an overall minimum 2.50 GPA.
2. *Electives:* 25 credits from the following, of which at least 10 must be PHIL courses and at least 5 must be HIST courses (or others upon petition): ESS 404, HIST 211, HIST 215, HIST 310, HIST 313 (or ASTR 313), HIST 314, HIST 315, HIST 316, HIST 317 (also MHE 422), HIST 318 (also MHE 424), HIST 412; PHIL 243, PHIL 350, PHIL 360, PHIL 406, PHIL 450, PHIL 460 (if PHIL 160 has been taken), PHIL 464, PHIL 466, PHIL 473, PHIL 481, PHIL 482, PHIL 483. A minimum 2.0 grade in each class.
3. *Capstone:* Completion of HPS 400, with a minimum 2.0 grade (5 credits)
4. *Science Component:* 30 credits of Natural World (NW) courses from anthropology, astronomy, atmospheric sciences, biology, chemistry, computer science, earth and space sciences, economics, environmental studies, mathematics, physics, psychology, and sociology, with a minimum 2.50 GPA in these courses and a

minimum 2.0 grade in each course. At least 15 of the credits must be outside mathematics.

Minor

Minor Requirements: 30 credits, to include:

1. PHIL 115 or PHIL 120, or an upper-division course in logic
2. At least 15 UW philosophy credits at the 300 level or above, excluding PHIL 484.
3. 10 philosophy elective credits at any level

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Graduates of the Department of Philosophy acquire considerable skills in abstract thinking, analysis, and critical writing (constructing and critiquing arguments). Because of these skills, philosophical training is invaluable in almost any area of life. Recent graduates have been successful in software development, financial planning, journalism, teaching, and law. A few go on to graduate school and become professional philosophers.

Students' work is subjected to careful critical scrutiny. As a result, students benefit from philosophy courses with an increased competence in expository clarity, logical rigor, and analytical skill.

Philosophy is an excellent undergraduate major for pre-professional students. It is perhaps ideal for those who aspire to work in the legal profession. The history and philosophy of science major is of particular interest to those planning careers in the sciences. Courses in ethics offer students in any field the opportunity to think clearly about the normative dimensions of their career choices. Because the skills of philosophical analysis can be applied widely, philosophy is always a good complementary second degree for any major, whether it is in the physical sciences, social sciences, arts, or humanities.

- *Instructional and Research Facilities:* The Philosophy Writing Center provides a free tutoring service to any student writing a philosophical paper.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* The department offers internship credits for students participating in the philosophy of children program. Students may also arrange for internship credit with individual faculty. See adviser for details.
- *Department Scholarships:* The Kenneth Clatterbaugh scholarship acknowledges a student with financial need who has outstanding academic merit and commitment to philosophy. The Kenneth R. Parker Award for Excellence in Community Service award honors an undergraduate philosophy major or minor who has blended her or his studies in philosophy with a volunteer-based community project. The recipient receives a \$500 scholarship. A donation of \$250 is made on behalf of the recipient to a community organization of the student's choice. See adviser for details.
- *Student Organizations/Associations:* The undergraduate student club, Lyceum, is dedicated to the informal discussion of philosophical issues.

Of Special Note: The department offers a new majors seminar for those wishing to explore the major.

Graduate Program

Graduate Program Coordinator
361 Savery, Box 353350
(206) 543-5855
philinfo@uw.edu

The Department of Philosophy offers programs of study leading to the Master of Arts and Doctor of Philosophy degrees, the MA program serving as the initial stage of the PhD program. The department's program on values in society offers an interdisciplinary graduate certificate.

The master of arts program option is a two-year non-thesis program which may be extended to three years depending on the outcome of the spring research papers. The student must take twelve courses in philosophy, satisfy a logic requirement, and at the end of the second year, submit three research papers for evaluation by the graduate faculty of the department. The courses and the papers must satisfy a distribution requirement. The departmental evaluation of the student's papers and coursework determines whether an MA degree is awarded and also whether admission to the PhD program is granted. The MA portion of the program serves as the initial stage of the PhD program.

The PhD program, which normally requires at least two years of study beyond the MA, has three general requirements: (1) general examination, (2) dissertation, and (3) final examination.

Master of Arts

Admission Requirements

In evaluating applications, the Department of Philosophy takes the following factors into account: the philosophical potential displayed in a sample of the applicant's written work, letters of recommendation, undergraduate record, and GRE scores.

1. Three letters of recommendation written on the recommender's departmental letterhead and addressed to the Graduate Admissions Committee. Recommenders may send their letters directly to the department, or the applicant may include the letters in sealed envelopes with the other application materials.
2. A sample of the applicant's written philosophical work, normally an essay or paper (approximately 8-15 pages) written for a course in philosophy. Applicants are allowed one writing sample only.
3. Official GRE scores (verbal, quantitative, and analytic).
4. A 200-300 word statement of the applicant's reasons for doing graduate work in philosophy and his or her professional objectives.
5. A complete set of official college transcripts.
6. An undergraduate major in philosophy is recommended although not required.
7. International applicants should refer to UW Graduate School policies.

Degree Requirements

The Philosophy Department at the University of Washington does not offer a terminal MA degree.

This is a non-thesis program. There is no language requirement for the MA degree.

The following requirements supplement the general requirements set forth by the UW Graduate School in the General Catalog (see the [Graduate School admissions page](#) for further information). All students, whether or not they have earned an MA at another institution, must complete the MA requirements before entering the PhD program.

36 credits minimum, as follows:

- **Logic Requirement:** Either a grade of 3.0 or better in one of the graduate-level logic courses or a passing score on the departmental logic examination. The department offers the logic exam once annually upon request. Part-time students must satisfy this requirement by the time they submit master's papers.
- **Distribution Requirement:** Graduate courses are divided into three areas. Students must take at least three courses in each of the following three areas:
 1. **Area One:**
 - Greek Philosophy -- PHIL 430, PHIL 431, PHIL 433, PHIL 520
 - Medieval Philosophy -- PHIL 421
 - Modern Philosophy -- PHIL 422, PHIL 436, PHIL 437, PHIL 438, PHIL 522
 - Recent Philosophy -- PHIL 426, PHIL 469, PHIL 526
 2. **Area Two:**
 - Logic and Philosophy of Mathematics -- PHIL 470, PHIL 471, PHIL 472, PHIL 473, PHIL 474, PHIL 570
 - Philosophy of Science -- PHIL 459, PHIL 460, PHIL 466, PHIL 481, PHIL 482, PHIL 560, PHIL 566, PHIL 574
 - Philosophy of Mind -- PHIL 463, PHIL 464, PHIL 563
 - Philosophy of Language -- PHIL 453, PHIL 479, PHIL 553
 - Epistemology -- PHIL 450, PHIL 490, PHIL 550
 - Metaphysics -- PHIL 456, PHIL 556, PHIL 587
 3. **Area Three:**
 - Ethics -- PHIL 416, PHIL 417, PHIL 440, PHIL 540
 - Philosophy of Art -- PHIL 445, PHIL 446, PHIL 449, PHIL 545
 - Philosophy of History -- PHIL 465, PHIL 565
 - Social and Political Philosophy -- PHIL 406, PHIL 407, PHIL 408, PHIL 409, PHIL 410, PHIL 411, PHIL 414, PHIL 461, PHIL 510, PHIL 514
 - Philosophy of Religion-- PHIL 467, PHIL 567
- Courses numbered below 400 cannot be used to satisfy graduate degree requirements.
- **12-Course Requirement:** Students must complete twelve courses (numbered 400 or above) in philosophy, with a minimum grade of 3.0 in each course. At least four of

these twelve courses must be seminars.

- **Master's Papers:** At the end of their second year, in lieu of a master's thesis, students submit three papers, one in each distribution area. (Part-time students will submit their papers for evaluation upon completion of twelve courses in philosophy. A change of status from full-time to part-time student requires departmental approval.)
- **Evaluation:** The graduate faculty of the department evaluates students' progress on the basis of coursework in philosophy and the papers submitted. The graduate faculty then decides whether students are (a) awarded an MA and admitted to the PhD program; (b) awarded an MA and invited to submit papers a second time; (c) awarded a terminal MA; or (d) dropped from the program without a degree. Students resubmitting papers must provide completely new ones that satisfy the distribution requirements. A completely new paper has not been submitted before and is not a revised version of one previously submitted. These papers are due the following year.
- **Satisfactory Progress:** Students not yet admitted to the PhD program must take at least two courses (10 credits) per quarter with a grade of 3.0 or better to be in good standing. An excessive number of incompletes may jeopardize a student's good standing. If a student does not make satisfactory progress in a given quarter, the director of graduate studies recommends to the dean of the Graduate School that the student be placed on probation.
- **Other Courses:** Students may use three courses outside philosophy in determining whether they are making satisfactory progress. The courses must be approved by the director of graduate studies as part of a program of specialization. Courses in areas other than philosophy do not normally satisfy the twelve-course requirement.

Doctor of Philosophy

Admission Requirements

Admission to the PhD program is based on the level of performance with the MA requirements. (See above.)

Degree Requirements

Minimum 90 credits (60 credits minimum beyond the master's degree), as follows:

- **General Requirements:** There are four general requirements for the completion of the doctoral degree:
 1. General written examination
 2. General oral examination
 3. Dissertation
 4. Final examination

The master's papers constitute the written portion of the general examination. The general oral examination is normally a presentation and defense of the student's dissertation proposal.

- **Course Requirement:** The only departmental course requirement is that the student must complete a total of at least six seminars with a grade of 3.0 or better in each before being awarded the PhD (seminars taken to fulfill the MA requirements may

count toward this total). A student's Supervisory Committee may, however, require additional courses.

- **Language Requirement:** There is no departmental language requirement. However, in writing a dissertation a student must be able to deal with primary sources in the original language of the source. All language requirements are determined by the student's Supervisory Committee. A student should develop the needed language skills as early as possible in his or her career. The student should consult with the director of graduate studies during the first and second year in the MA program to insure that he or she is developing any needed language skills.
- **Satisfactory Progress:** A student's Supervisory Committee determines whether a student in the PhD program is making satisfactory progress. Satisfactory progress for the PhD program includes steady and substantial progress toward the completion of the dissertation. Sanctions for failure to make satisfactory progress are the same as described for the master's requirements.

Financial Aid

The department has some teaching assistantships available to incoming students and the Graduate School offers some non-teaching assistantships.

Graduate Certificate in Values in Society

The program on values in society aims to facilitate graduate research in ethics as it arises across the disciplines. The program is designed to provide students with the knowledge and skills necessary for integrating ethics and ethics scholarship into their chosen field.

The graduate certificate program is open only to students already enrolled in other graduate degree programs at the University of Washington. Successful completion of the certificate program is noted on official transcripts.

Certificate Requirements

1. Selection of a faculty adviser from the values in society [core faculty](#)
2. Completion of VALUES 511 and VALUES 512 (10 credits)
3. Completion of two other [graduate-level values-laden courses](#) specific to the student's field of study (6 credits). Courses from the student's home department are eligible. All courses must be approved by the student's faculty adviser and the program director.
4. Completion of VALUES 513 (2 credits)

COLLEGE OF ARTS & SCIENCES

PHILOSOPHY

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

PHIL 100 Introduction to Philosophy (5) I&S *C. MARSHALL, M. ROSENTHAL, A. WOODY*

Major philosophical questions relating to such matters as the existence of God, the foundations of knowledge, the nature of reality, and the nature of morality. Approach may be either historical or topical. Offered: AWSpS.

[View course details in MyPlan: PHIL 100](#)

PHIL 102 Contemporary Moral Problems (5) VLPA/I&S *M. BLAKE*

Philosophical consideration of some of the main moral problems of modern society and civilization, such as abortion, euthanasia, war, and capital punishment. Topics vary. Offered: AWSpS.

[View course details in MyPlan: PHIL 102](#)

PHIL 110 Introduction to Social and Political Philosophy (5) I&S

An introduction to political theories such as conservatism, liberalism, and socialism and their treatment of select social issues.

[View course details in MyPlan: PHIL 110](#)

PHIL 114 Philosophical Issues in the Law (5) I&S *R. MOORE*

Analysis and critical assessment of various philosophical issues in law and legal reasoning. Material drawn from actual law cases, as well as writings by contemporary philosophers of law and lawyers. Topics include criminal responsibility, civil disobedience, abortion, enforcement of morals. Special legal or philosophical training not required.

[View course details in MyPlan: PHIL 114](#)

PHIL 115 Practical Reasoning (5) I&S, QSR *C. LEE*

Introduction to logic emphasizing concepts and methods useful for practical analysis of arguments in everyday contexts; meaning, syllogisms, logical diagrams, inductive and statistical inference, informal fallacies, argument structure, perhaps some beginning symbolic logic. Offered: AWSpS.

[View course details in MyPlan: PHIL 115](#)

PHIL 120 Introduction to Logic (5) I&S/NW, QSR *C. MAYO-WILSON, C. WELLER*

Elementary symbolic logic. The development, application, and theoretical properties of an artificial symbolic language designed to provide a clear representation of the logical structure of deductive arguments. Offered:

AWSpS.

[View course details in MyPlan: PHIL 120](#)

PHIL 160 Why Do We Believe in Quarks, Evolution, and Other Crazy Things? Perspectives on Science, Reason, and Reality (5) I&S/NW L. HANKINSON NELSON

Study of how scientific theories are justified and why they are accepted, using selected examples from the history of science.

[View course details in MyPlan: PHIL 160](#)

PHIL 200 Topics in Philosophy (3-5, max. 10) I&S

A study of philosophical topics at the introductory level. The content of the course is entirely at the discretion of the instructor.

[View course details in MyPlan: PHIL 200](#)

PHIL 205 Philosophy for Children (5) I&S J. LONE

Introduction to the methods of "doing" philosophy with young people. Stresses the development of a community of inquiry in which budding philosophers are encouraged to ask their own relevant questions, develop views and articulate reasons for them, and to listen and learn from one another. Credit/no-credit only.

[View course details in MyPlan: PHIL 205](#)

PHIL 206 Philosophy of Feminism (5) I&S, DIV

Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with GWSS 206/POL S 212.

[View course details in MyPlan: PHIL 206](#)

PHIL 207 Issues of Global Justice (5) I&S, DIV M. BLAKE, J. MAYERFELD, W. TALBOTT

Introduces issues of global justice. Topics include: global poverty and aid, immigration, transnational governance, gender in global relations, climate change, and cultural relativism. Offered: jointly with POL S 207/VALUES 207.

[View course details in MyPlan: PHIL 207](#)

PHIL 240 Introduction to Ethics (5) VLPA/I&S S. GARDINER, J. ROBERTS, W. TALBOTT

Critical introduction to various philosophical views of the basis and presuppositions of morality and moral knowledge. Critical introduction to various types of normative ethical theory, including utilitarian, deontological, and virtue theories.

[View course details in MyPlan: PHIL 240](#)

PHIL 241 Topics in Ethics (5, max. 10) VLPA/I&S

Introduction to ethics through in-depth study of one or more selected topics (e.g., limits of moral community, animal rights, moral education, and freedom). Topics vary.

[View course details in MyPlan: PHIL 241](#)

PHIL 242 Introduction to Medical Ethics (5) VLPA/I&S S. GOERING

Introduction to ethics, primarily for first- and second-year students. Emphasizes philosophical thinking and writing through an in-depth study of philosophical issues arising in the practice of medicine. Examines the issues of medical ethics from a patient's point of view.

[View course details in MyPlan: PHIL 242](#)

PHIL 243 Environmental Ethics (5) VLPA/I&S L. NICHOLS

Focuses on some of the philosophical questions that arise in connection with environmental studies. Topics to be considered include: the ideological roots of current issues, values and the natural world, public policy and risk assessment, intergenerational justice, and social change. Offered: jointly with ENVIR 243.

[View course details in MyPlan: PHIL 243](#)

PHIL 267 Introduction to Philosophy of Religion (5) I&S

Consideration of the sources of religious ideas and practices, the main kinds of religious views and the problems they raise, and the different forms that spirituality can take. Issues concerning the relations of religion to science and morality also treated.

[View course details in MyPlan: PHIL 267](#)

PHIL 291 Ethics in Science (5) I&S

Provides an introduction to ethics and research ethics issues in the non-medical sciences. Possible topics include: publication and peer review, intellectual property, and the social responsibilities of scientists. Offered: jointly with VALUES 291.

[View course details in MyPlan: PHIL 291](#)

PHIL 301 Intermediate Topics in Philosophy (3-5, max. 10) I&S

Philosophical topics at the intermediate level. Content varies each quarter, depending on instructor.

[View course details in MyPlan: PHIL 301](#)

PHIL 307 Justice Across Disciplinary Boundaries (5) I&S *W. TALBOTT*

What is justice? One of the oldest questions in philosophy and also one of the most current. A multi-disciplinary approach to understanding justice.

[View course details in MyPlan: PHIL 307](#)

PHIL 314 Philosophy of Crime and Punishment (5) I&S *R. MOORE*

Examination of philosophical theories regarding criminal habits and punishment and the philosophical problems connected with specific topics in criminal law. Examines proper subject matter of criminal law (drug use, pornography, euthanasia); limits of criminal sanctions; crime and privilege (corporate crime, white-collar crime, blackmail); justifications for punishment; mercy; and execution.

[View course details in MyPlan: PHIL 314](#)

PHIL 320 Ancient Philosophy (5) I&S *J. ROBERTS, C. WELLER*

Survey of ancient Greek philosophy, beginning with the pre-Socratics and proceeding on through Plato to Aristotle.

[View course details in MyPlan: PHIL 320](#)

PHIL 322 Modern Philosophy (5) I&S *C. MARSHALL, M. ROSENTHAL, C. WELLER*

Examination of metaphysical and epistemological problems from the works of Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

[View course details in MyPlan: PHIL 322](#)

PHIL 325 Nineteenth-Century Philosophy (5) I&S *C. MARSHALL*

[View course details in MyPlan: PHIL 325](#)

PHIL 330 History of Ancient Political Philosophy (5) I&S *J. ROBERTS*

Political philosophy of fourth- and fifth-century Greece, especially the Sophists, Plato, and Aristotle, stressing the connection between the political philosophy and the underlying philosophical system of each philosopher.

[View course details in MyPlan: PHIL 330](#)

PHIL 332 History of Modern Political Philosophy (5) I&S *M. BLAKE, W. TALBOTT*

Examination of major political philosophies from the sixteenth century to the nineteenth century, with attention to the underlying philosophical methods and foundations.

[View course details in MyPlan: PHIL 332](#)

PHIL 335 Plato's Republic (5) VLPA/I&S

Designed especially for philosophy majors, but open to non-majors. Intensive study of Plato's masterpiece. Prerequisite: one PHIL course.

[View course details in MyPlan: PHIL 335](#)

PHIL 338 Philosophy of Human Rights (5) I&S *W. TALBOTT*

Theories of human rights and the bearing of these theories on issues of public policy such as legitimacy of war and terrorism, economic justice, and whether future generations have rights.

[View course details in MyPlan: PHIL 338](#)

PHIL 340 History of Ancient Ethics (5) VLPA/I&S *J. ROBERTS, C. WELLER*

Development of moral thought from Socrates through the Stoics. Particular emphasis on the ethical writings of Plato and Aristotle.

[View course details in MyPlan: PHIL 340](#)

PHIL 342 History of Modern Ethics (5) VLPA/I&S *M. ROSENTHAL, C. WELLER*

Development of moral thought from Hobbes through Nietzsche, with particular emphasis on the ethical writings of Hume, Kant, and John Stuart Mill.

[View course details in MyPlan: PHIL 342](#)

PHIL 343 Ethics and the Environment (5) I&S *L. NICHOLS*

Advanced introduction to environmental ethics, with an emphasis on nonanthropocentric value theory.

[View course details in MyPlan: PHIL 343](#)

PHIL 344 History of Recent Ethics (5) VLPA/I&S

Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition.

[View course details in MyPlan: PHIL 344](#)

PHIL 345 Moral Issues of Life and Death (5) VLPA/I&S *S. GOERING*

Examination of such topics as war and murder, famine relief, capital punishment, high-risk technologies, abortion, suicide, and the rights of future generations.

[View course details in MyPlan: PHIL 345](#)

PHIL 346 Personal Values and Human Good (5) I&S *S. GOERING*

Examination of the idea of a good human life. Emphases differ from year to year. Typical topics include happiness and prudence, rationality and life plans, personal values and the meaning of life, autonomy and false consciousness, self-respect and self-esteem, honesty and self-deception, faith and "vital lies."

[View course details in MyPlan: PHIL 346](#)

PHIL 347 Philosophy in Literature (5) VLPA/I&S

Study of philosophical ideas expressed in works of literature.

[View course details in MyPlan: PHIL 347](#)

PHIL 350 Introduction to Epistemology (5) I&S *C. MAYO-WILSON, W. TALBOTT*

Nature, definition, and possibility of knowledge.

[View course details in MyPlan: PHIL 350](#)

PHIL 356 Introduction to Metaphysics (5) I&S

Introductory examination of some of the main problems in metaphysics, such as the nature of truth and reality, the metaphysical status of properties, the existence of free will.

[View course details in MyPlan: PHIL 356](#)

PHIL 360 Introductory Topics in Philosophy of Science (5, max. 10) I&S/NW *L. HANKINSON NELSON, A. WOODY*

Study of one or more current topics in philosophy of science such as scientific realism, explanation, confirmation, causation. Prerequisite: one PHIL course.

[View course details in MyPlan: PHIL 360](#)

PHIL 362 Topics in the Philosophy of Science (5) I&S/NW L. HANKINSON NELSON

Critical study of nature of scientific knowledge, emphasizing the role of evidence in several different sciences. Topics include accounts of scientific methods; the relation of theory to observation; how theories change; and the nature of the confirmation and falsification of hypotheses and theories. Offered: Sp.

[View course details in MyPlan: PHIL 362](#)

PHIL 363 Introduction to the Philosophy of Mind (5) I&S C. LEE

Various theories of the nature of mind, the relationship between mind and body, the self, introspection, and knowledge of other minds.

[View course details in MyPlan: PHIL 363](#)

PHIL 373 Introduction to Philosophy of Mathematics (5) I&S

Introduction to some of the main issues in philosophy of mathematics: to what degree are mathematical theorems justified by rational insight, sensory experience, purely symbolic computations; what is the infinite, and how can one reason about infinite sets, spaces, and numbers without becoming entangled in contradictions.

[View course details in MyPlan: PHIL 373](#)

PHIL 399 Foreign Study (2-5, max. 10)

Upper-division philosophy studies with no direct UW equivalents, taken through UW foreign study programs.

[View course details in MyPlan: PHIL 399](#)

PHIL 401 Advanced Topics in Philosophy (3-5, max. 15) I&S

A study of philosophical topics at the advanced level. Topics vary.

[View course details in MyPlan: PHIL 401](#)

PHIL 406 Philosophical Topics in Feminism (5) I&S, DIV S. GOERING, L. HANKINSON NELSON, A. WOODY

Detailed examination of questions raised by recent feminist scholarship in particular areas of philosophy, such as political theory, ethics, epistemology, or philosophy of science. Emphasis varies.

[View course details in MyPlan: PHIL 406](#)

PHIL 407 International Justice (5) M. BLAKE, S. GARDINER

Examines issues through investigation of the moral foundations of international politics. Issues include: What moral duties constrain the relationships between states? Is international poverty a matter of moral concern? Are we justified in preferring the interest of our fellow nations? Prerequisite: one course in philosophy.

[View course details in MyPlan: PHIL 407](#)

PHIL 408 Philosophy of Diversity (5) I&S, DIV M. BLAKE

Must a liberal political community respect all claims made on behalf of minority cultural groups? Are there moral limits to the forms of diversity compatible with just governance? Examines modern philosophical writings on these topics. Prerequisite: One philosophy course.

[View course details in MyPlan: PHIL 408](#)

PHIL 409 Philosophy of Disability (5) I&S, DIV S. GOERING

Rethinks the non-disabled assumption at the heart of much of western moral and political philosophy. Explores concepts of autonomy, opportunity, personhood, and dependence in regard to disability. Issues may include prenatal testing and reproduction, special education, requirements of accommodation, and social and legal interpretations of disability. Prerequisite: one philosophy course or LSJ 332/CHID 332, LSJ 433/CHID 433, or LSJ 434/CHID 434.

[View course details in MyPlan: PHIL 409](#)

PHIL 410 Social Philosophy (5) I&S W. TALBOTT

An examination of topics pertaining to social structures and institutions such as liberty, distributive justice, equality and race, and human rights.

[View course details in MyPlan: PHIL 410](#)

PHIL 411 Justice in Health Care (5) VLPA/I&S N. JECKER

Examination of the ethical problem of allocating scarce medical resources. Emphasizes the fundamental principles of justice that support alternative health policies. Offered: jointly with B H 474.

[View course details in MyPlan: PHIL 411](#)

PHIL 412 Ethical Theory (5) I&S N. JECKER

Studies the major normative ethical theories, including both teleological and deontological approaches. Emphasizes moral philosophy during the eighteenth and nineteenth centuries, as well as contemporary commentary. Offered: jointly with B H 402.

[View course details in MyPlan: PHIL 412](#)

PHIL 413 Metaethical Theory (5) I&S N. JECKER

Studies the major metaethical theories, including both cognitivist and noncognitivist approaches. Emphasizes moral philosophy during the twentieth century, as well as contemporary commentary. Offered: jointly with B H 404.

[View course details in MyPlan: PHIL 413](#)

PHIL 414 Philosophy of Law (5) I&S R. MOORE

Nature and function of law. Relation of law to morality. Legal rights, judicial reasoning.

[View course details in MyPlan: PHIL 414](#)

PHIL 415 Advanced Topics in Animal Welfare (5) I&S L. NICHOLS

Critical examination of issues in the philosophy of animal welfare and animal rights. Prerequisite: one philosophy course.

[View course details in MyPlan: PHIL 415](#)

PHIL 416 Ethics and Climate Change (5) I&S S. GARDINER, L. NICHOLS

Critical examination of the ethical issues surrounding climate change. Prerequisite: either one philosophy or one environmental studies course. Offered: jointly with ENVIR 416.

[View course details in MyPlan: PHIL 416](#)

PHIL 417 Advanced Topics in Environmental Philosophy (5) I&S S. GARDINER

Critical examination of issues in environmental philosophy. Topics vary. Prerequisite: one philosophy course. Offered: jointly with ENVIR 417.

[View course details in MyPlan: PHIL 417](#)

PHIL 418 Jewish Philosophy (5) I&S M. ROSENTHAL

Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period - e.g., medieval or modern; or on a topic - e.g., reactions to the Enlightenment or to the Holocaust. Offered: jointly with JEW ST 418.

[View course details in MyPlan: PHIL 418](#)

PHIL 422 Studies in Continental Rationalism (5, max. 15) I&S C. MARSHALL, M. ROSENTHAL

Study of one or more of the major continental rationalists: Descartes, Spinoza, Leibniz.

[View course details in MyPlan: PHIL 422](#)

PHIL 426 Twentieth-Century Philosophy (5) I&S C. WELLER

A study of development of contemporary analytic philosophy, the revolt against idealism, and the linguistic turn in philosophy.

[View course details in MyPlan: PHIL 426](#)

PHIL 430 Hellenistic Philosophy (3) I&S J. ROBERTS

Survey of the Epicurean, Stoic, and Skeptic philosophy of the Hellenistic period. Emphasis may vary.

[View course details in MyPlan: PHIL 430](#)

PHIL 431 Philosophy of Plato (3, max. 6) I&S J. ROBERTS, C. WELLER

Study of selected middle and late dialogues.

[View course details in MyPlan: PHIL 431](#)

PHIL 433 Philosophy of Aristotle (3, max. 6) I&S J. ROBERTS, C. WELLER

Study of several major Aristotelian treatises.

[View course details in MyPlan: PHIL 433](#)

PHIL 436 British Empiricism (3) I&S C. WELLER

Examination of the metaphysical and epistemological views of Locke and Berkeley, with perhaps some attention also to Hume. Prerequisite: either PHIL 322 or PHIL 350.

[View course details in MyPlan: PHIL 436](#)

PHIL 437 Philosophy of Hume (3) I&S W. TALBOTT, C. WELLER

Hume's analyses of knowledge, the passions, and morals.

[View course details in MyPlan: PHIL 437](#)

PHIL 438 Philosophy of Kant (5) I&S C. MARSHALL, C. WELLER

Systematic study of The Critique of Pure Reason.

[View course details in MyPlan: PHIL 438](#)

PHIL 440 Ethics (5) I&S J. ROBERTS, W. TALBOTT

Critical examination of the concepts and judgments of value, including an analytical treatment of the notions of good and bad, right and wrong, and obligation. Emphasis varies from quarter to quarter.

[View course details in MyPlan: PHIL 440](#)

PHIL 441 Public Health Ethics (5) I&S C. FOURIE

An in-depth study of the philosophical issues arising in the practice and policy of public health. Material consists mainly of texts from philosophy and ethics, but, due to the course's interdisciplinary nature, also includes papers from epidemiology, newspaper articles, and current public health regulations and campaigns.

[View course details in MyPlan: PHIL 441](#)

PHIL 442 Neuroethics (5) I&S S. GOERING

Neurotechnological advances offer novel ways to address problems of movement, mood, and communication, but also call into question fundamental philosophical assumptions about the kinds of creatures we are. Explores questions of personal identity, moral and legal responsibility, privacy, security, normality, and justice in the context of neurotechnologies.

[View course details in MyPlan: PHIL 442](#)

PHIL 445 Philosophy of Art (5) VLPA/I&S R. MOORE

Critical examination of various accounts of the nature of art, artistic activity, the aesthetic experience. Problems in interpretation and evaluation of works of art.

[View course details in MyPlan: PHIL 445](#)

PHIL 446 Development of Aesthetic Theory (5) VLPA/I&S R. MOORE

Historical development of aesthetics, emphasizing such major figures as Plato, Aristotle, Hume, Kant, Hegel, and Goodman.

[View course details in MyPlan: PHIL 446](#)

PHIL 449 PHILOSOPHY OF FILM (5) VLPA/I&S

Examines films and film theory from a philosophical perspective. Topics may include the nature of film, whether films have "authors", how films engage our emotions, whether films are vehicles of ideology, whether video games are "interactive" cinema, and whether films and video games themselves can do philosophy.

[View course details in MyPlan: PHIL 449](#)

PHIL 450 Epistemology (5) I&S *C. MAYO-WILSON, W. TALBOTT*

Systematic study of some of the main problems of the theory of knowledge, such as: the definition of "knowledge"; a priori knowledge; perception and knowledge of the external world; and whether knowledge has or requires a foundation. Emphasis varies from quarter to quarter.

[View course details in MyPlan: PHIL 450](#)

PHIL 453 Philosophy of Language (5) VLPA/I&S

Current theories of meaning, reference, predication, and related concepts. Offered: jointly with LING 476.

[View course details in MyPlan: PHIL 453](#)

PHIL 459 Philosophy of Medicine (5) I&S *N. JECKER*

Familiarizes students with central issues in the philosophy of medicine. Focuses on the nature of medical knowledge, the connection between theory and observation, the meaning of medical concepts, and the relationship between theories and the world. Offered: jointly with B H 440.

[View course details in MyPlan: PHIL 459](#)

PHIL 460 Philosophy of Science (5) I&S/NW *L. HANKINSON NELSON, A. WOODY*

Critical study of the nature of scientific knowledge. Topics include the relation of theory to observation, the use of mathematics, how theories change, the requirements for the meaningfulness of a theory, and nature of confirmation.. Prerequisite: one PHIL course.

[View course details in MyPlan: PHIL 460](#)

PHIL 463 Philosophy of Mind (5) I&S *C. LEE*

Examination of current theories of the nature of the mind and mental processes.

[View course details in MyPlan: PHIL 463](#)

PHIL 464 Philosophical Issues in the Cognitive Sciences (5) I&S/NW *C. LEE*

Philosophical problems connected with research in psychology, artificial intelligence, and other cognitive sciences. Topics vary. Readings from both philosophical and scientific literature. Accessible to nonphilosophers with suitable interests and backgrounds.

[View course details in MyPlan: PHIL 464](#)

PHIL 465 Philosophy of History (3) I&S *M. WYLIE*

Analyses of basic concepts employed in historical interpretation, and study of some of the principal philosophers of history, such as Plato, Saint Augustine, Hegel, Marx, Spengler, Toynbee.

[View course details in MyPlan: PHIL 465](#)

PHIL 466 Philosophy of the Social Sciences (5) I&S *L. HANKINSON NELSON, W. TALBOTT, M. WYLIE*

Examination of fundamental issues in the foundations, methodology, and interpretation of the social sciences. Topics include value orientation and objectivity, methodological individualism, functionalism, reductionism, and the status of idealized models, including models involving idealized conceptions of individual rationality. Emphasis varies from quarter to quarter.

[View course details in MyPlan: PHIL 466](#)

PHIL 467 Philosophy of Religion (5) I&S *M. ROSENTHAL*

Study of selected topics and problems in the philosophy of religion, such as: arguments for the existence of God; the problem of evil; atheism; faith; religious experience and revelation; the attributes of God; miracles; immortality; and the relation between religion and morality. Readings from historical and contemporary authors.

[View course details in MyPlan: PHIL 467](#)

PHIL 470 Intermediate Logic (5) I&S/NW, QSR

An introduction to the concepts and methods of metatheory and their application to the sentential calculus.

[View course details in MyPlan: PHIL 470](#)

PHIL 471 Advanced Logic (5) I&S/NW

Study of the first-order predicate calculus with identity and function symbols. Consistency, soundness, completeness, compactness. Skolem-Lowenheim theorem. Formalized theories. Prerequisite: PHIL 470.

[View course details in MyPlan: PHIL 471](#)

PHIL 472 Axiomatic Set Theory (5) I&S/NW

Development of axiomatic set theory up to and including the consistency of the Axiom of Choice and Continuum Hypothesis with the Zermelo-Fraenkel Axioms.

[View course details in MyPlan: PHIL 472](#)

PHIL 473 Philosophy of Mathematics (5) I&S/NW

Study of the traditional accounts of the nature of mathematical entities and mathematical truth given by logicism, intuitionism, and formalism, and the impact of Godel's incompleteness theorems on these accounts.

[View course details in MyPlan: PHIL 473](#)

PHIL 474 Modal Logic (5) I&S/NW

Notions of necessity and possibility, using the classical systems T, S4, and S5, and the syntax and the semantics (Kripke models) of these systems.

[View course details in MyPlan: PHIL 474](#)

PHIL 479 Semantics II (3) VLPA/I&S/NW *T. OGIHARA*

Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Prerequisite: LING 442. Offered: jointly with LING 479.

[View course details in MyPlan: PHIL 479](#)

PHIL 481 Philosophy of Biology (5) I&S/NW *L. HANKINSON NELSON*

Study of several current topics in philosophy of biology, which may include the logical structure of evolutionary theory, fitness, taxonomy, the concept of a living thing, reductionism, the concept of a biological species, evolutionary explanations, and philosophical consequences of sociology. Prerequisite: one PHIL course.

[View course details in MyPlan: PHIL 481](#)

PHIL 482 Philosophy of Physical Science (5, max. 10) I&S/NW *A. WOODY*

Study of philosophical issues raised by theories in physics or chemistry, such as whether space (time) is a substance, how causation and locality are treated in quantum mechanics, temporal anisotropy and time travel, the nature of a field of force, the reduction of chemistry to physics. Prerequisite: one PHIL course.

[View course details in MyPlan: PHIL 482](#)

PHIL 483 Induction and Probability (5) NW/I&S

Introduction to current accounts of evidence and observation, the confirmation of scientific theories, the logic of inductive reasoning, and the metaphysics and epistemology of chance. High school-level math used. Specific topics vary from year to year. Prerequisite: PHIL 120.

[View course details in MyPlan: PHIL 483](#)

PHIL 484 Reading in Philosophy (1-5, max. 15)

Individual study of selected philosophical works.

[View course details in MyPlan: PHIL 484](#)

PHIL 490 Advanced Topics in Epistemology (5, max. 15) I&S *W. TALBOTT*

Intensive study of a particular topic or area in epistemology. Prerequisite: either PHIL 350 or PHIL 450.

[View course details in MyPlan: PHIL 490](#)

PHIL 495 Philosophical Inquiry in Schools (5) I&S *Goering, Lone, Shapiro*

Explores methods for introducing philosophy to K-12 students, focusing on ways to establish "communities of philosophical inquiry." Students learn how to inspire philosophical discussions with pre-college students, and work in pairs with the instructor to lead philosophy sessions in the seminar and in local schools. Prerequisite:

one PHIL course. Offered: A.

[View course details in MyPlan: PHIL 495](#)

PHIL 498 Undergraduate Internship (1-5, max. 10)

Independent fieldwork under the supervision of a faculty member. Individual experiences vary but could include an off-campus practicum or being trained as study group leader or tutor. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: PHIL 498](#)

PHIL 500 Proseminar in Philosophy (5)

Introduces incoming graduate students to topics representative of the field and the faculty's interest. Each class session is devoted to a separate topic taught by a different member of the faculty. In addition to reading and short written assignments, students prepare a term paper on a topic presented. Offered: A.

[View course details in MyPlan: PHIL 500](#)

PHIL 505 Seminar in Teaching Philosophy (1, max. 10)

First quarter: seminar on topics of importance to a graduate student teaching two quiz sections of a large lecture course. Second quarter: focus on helping student prepare to teach own course. Prerequisite: graduate standing in philosophy. Credit/no-credit only. Offered: AW.

[View course details in MyPlan: PHIL 505](#)

PHIL 510 Seminar in Social Philosophy (5, max. 20) *W. TALBOTT*

[View course details in MyPlan: PHIL 510](#)

PHIL 514 Seminar in Legal Philosophy (5, max. 20) *R. MOORE*

[View course details in MyPlan: PHIL 514](#)

PHIL 520 Seminar in Ancient Philosophy (5, max. 20) *J. ROBERTS, C. WELLER*

[View course details in MyPlan: PHIL 520](#)

PHIL 522 Seminar in Modern Philosophy (5, max. 20) *C. MARSHALL, M. ROSENTHAL, C. WELLER*

[View course details in MyPlan: PHIL 522](#)

PHIL 526 Seminar in Recent Philosophy (5, max. 20) *C. WELLER*

[View course details in MyPlan: PHIL 526](#)

PHIL 538 Philosophy of Human Rights (5, max. 20) *W. TALBOTT*

[View course details in MyPlan: PHIL 538](#)

PHIL 540 Seminar in Ethics (5, max. 20) *S. GOERING, J. ROBERTS, W. TALBOTT*

[View course details in MyPlan: PHIL 540](#)

PHIL 545 Seminar in the Philosophy of Art (5, max. 20) *R. MOORE*

[View course details in MyPlan: PHIL 545](#)

PHIL 550 Seminar in Epistemology (5, max. 20) *C. MAYO-WILSON, W. TALBOTT*

[View course details in MyPlan: PHIL 550](#)

PHIL 556 Seminar in Metaphysics (5, max. 20)

[View course details in MyPlan: PHIL 556](#)

PHIL 560 Seminar in the Philosophy of Science (5, max. 20) *L. HANKINSON NELSON, A. WOODY*

[View course details in MyPlan: PHIL 560](#)

PHIL 563 Seminar in the Philosophy of Mind (5, max. 20) *C. LEE*

[View course details in MyPlan: PHIL 563](#)

PHIL 564 Seminar in Philosophy of the Cognitive Sciences (5)

Examines philosophical questions raised in and by cognitive sciences, including the nature of explanation, the role of models in explanation, and debates about reductionism versus pluralism in the face of diverse research paradigms.

[View course details in MyPlan: PHIL 564](#)

PHIL 565 Seminar in the Philosophy of History (5, max. 20)

[View course details in MyPlan: PHIL 565](#)

PHIL 566 Seminar in Philosophy of the Social Sciences (5, max. 20) C. LEE, M. WYLIE

[View course details in MyPlan: PHIL 566](#)

PHIL 570 Seminar in Logic (5, max. 20)

Prerequisite: PHIL 470.

[View course details in MyPlan: PHIL 570](#)

PHIL 574 Meta-archaeology: Philosophy and Archaeology (1-5, max. 5) M. WYLIE

Examines philosophical issues raised in and by archaeology, including theories of explanation and model building, analyses of evidential reasoning and hermeneutic interpretation, debates about ideals of objectivity and about science and values. Offered: jointly with ARCHY 574.

[View course details in MyPlan: PHIL 574](#)

PHIL 584 Reading in Philosophy (1-5, max. 12)

Intensive reading in philosophical literature. Prerequisite: permission of Graduate Program Coordinator.

[View course details in MyPlan: PHIL 584](#)

PHIL 587 Contemporary Analytic Philosophy (5, max. 20)

[View course details in MyPlan: PHIL 587](#)

PHIL 595 Philosophical Inquiry in Schools (5) S. GOERING, J. LONE

Explores methods for introducing philosophy to K-12 students, focusing on ways to establish "communities of philosophical inquiry." Students learn how to inspire philosophical discussions with pre-college students, and work in pairs with the instructor to lead philosophy sessions in the seminar and in local schools. Offered: A.

[View course details in MyPlan: PHIL 595](#)

PHIL 600 Independent Study or Research (*-)

Prerequisite: permission of Graduate Program Coordinator.

[View course details in MyPlan: PHIL 600](#)

Physics

[Display as tabs](#)

Department Overview

C121 Physics-Astronomy Building

Physics is the study of the fundamental structure of matter and the interaction of its constituents, with the goal of providing a quantitative description of nature based on a limited number of physical principles.

Undergraduate Program

Adviser

C139A Physics-Astronomy, Box 351560
(206) 543-2772

The Department of Physics offers the following programs of study:

- The Bachelor of Science degree with a major in physics
- A minor in physics

Bachelor of Science

Suggested First- and Second-Year College Courses: MATH 124, MATH 125, MATH 126; PHYS 121, PHYS 122, PHYS 123, PHYS 224, PHYS 225, PHYS 227. (Note: MATH 134, MATH 135, and MATH 136 can be used in place of MATH 124, MATH 125, MATH 126, and MATH 308.)

These physics and mathematics courses are required prerequisites for junior-level work in physics, not only at the UW, but also at most colleges and universities in the United States. Students who do not complete them during the first two years in college either need to take more than four years to earn a degree or be limited to a minimal course of study for graduation in four years.

Admission Requirements

Students in good academic standing may declare the major at any time by visiting the department advising office to complete the necessary paperwork.

Major Requirements

Minimum 89-106 credits, including the following:

1. *Physics core courses (37 credits)*: PHYS 121, PHYS 122, PHYS 123, PHYS 224, PHYS 225, PHYS 227, PHYS 294, PHYS 321, PHYS 322, PHYS 334
2. *Mathematics core courses (18-19 credits from one of the following options)*:
 - a. MATH 124, MATH 125, MATH 126, and one course from MATH 307/AMATH 351, MATH 308/AMATH 352, MATH 309/AMATH 353, MATH 324, MATH 326, or AMATH 401
 - b. MATH 134, MATH 135, MATH 136 and one course from MATH 309/AMATH 353, MATH 324, MATH 326, or AMATH 401
3. One of the four options shown below (34-56 credits): any course used to satisfy departmental degree requirements can only be used once in any option listed below.
 - a. *Comprehensive Physics Option (38-43 credits)*:
 - i. 20-22 credits from PHYS 226; PHYS 228; PHYS 324; minimum three courses from PHYS 323, PHYS 325, PHYS 328, PHYS 329, ASTR 321, or ASTR 322
 - ii. One additional math course from the core list (3-4 credits): MATH 307/AMATH 351, MATH 308/AMATH 352, MATH 309/AMATH 353, MATH 324, MATH 326, or AMATH 401
 - iii. *Advanced laboratory (6-8 credits)*: Two courses from PHYS 331, PHYS 335, PHYS 431, PHYS 432, PHYS 433, PHYS 434, and either ASTR 480 or ASTR 481
 - iv. *Upper division lecture electives (6 credits)*: See adviser for approved list of electives.
 - v. *Undergraduate research*: 3 credits from any combination of PHYS 485, PHYS 486, PHYS 487, PHYS 494, PHYS 495, PHYS 496, PHYS 499, ASTR 481 or ASTR 499. (ASTR 481 may count as lab or research).
 - b. *Applied Physics Option (34-39 credits)*:
 - i. PHYS 231; one course from PHYS 226, PHYS 323, PHYS 324, PHYS 329; and AMATH 301 (10-11 credits)
 - ii. Two additional mathematical courses (6-8 credits) from PHYS 228, MATH 307/AMATH 351, MATH 308/AMATH 352, MATH 309/AMATH 353, MATH 324, MATH 326, or AMATH 401
 - iii. *Advanced laboratory (6-8 credits)*: Two courses from PHYS 331, PHYS 335, PHYS 431, PHYS 432, PHYS 433, PHYS 434, and either ASTR 480 or ASTR 481
 - iv. *Electives (9 credits)*: See adviser for approved list of electives.
 - v. *Undergraduate research*: 3 credits from any combination of PHYS 485, PHYS 486, PHYS 487, PHYS 494, PHYS 495, PHYS 496, PHYS 499, ASTR 481 or ASTR 499. (ASTR 481 may count as lab or research).
 - c. *Biophysics Option (51-56 credits)*:
 - i. PHYS 228, PHYS 324, PHYS 328, PHYS 429; one course from PHYS 226, PHYS 323, PHYS 325, PHYS 329 (17-18 credits)
 - ii. *Chemistry (15 credits)*: CHEM 142, CHEM 144, or CHEM 145; CHEM 152, CHEM 154, or CHEM 155; and CHEM 162, CHEM 164, or CHEM 165
 - iii. *Biology (10 credits)*: BIOL 180 and BIOL 200

- iv. *Additional chemistry and biology (6-10 credits)*: Two courses from CHEM 223 or CHEM 237, CHEM 224 or CHEM 238, CHEM 428, CHEM 452 or CHEM 456, CHEM 453 or CHEM 457, BIOL 220, BIOL 340, BIOL 350, BIOL 355, BIOL 401, BIOL 427, BIOL 467, BIOC 405, or BIOC 440
- v. *Undergraduate research*: 3 credits from any combination of PHYS 499, BIOC 499, BIOL 499, CHEM 499, GENOME 499, MICROM 499, N BIO 499, P BIO 499, or BIOEN 499
- d. *Teacher Preparation Option (38-42 credits)*:
 - i. 14-15 credits from PHYS 226, PHYS 228, PHYS 324; one course from PHYS 323, PHYS 328, PHYS 329
 - ii. *Physics by inquiry (15 credits)*: PHYS 407, PHYS 408, and PHYS 409
 - iii. One additional mathematics course from the core list (3-4 credits): MATH 307/AMATH 351, MATH 308/AMATH 352, MATH 309/AMATH 353, MATH 324, MATH 326, or AMATH 401
 - iv. *Advanced laboratory (3-5 credits)*: One course from PHYS 331, PHYS 335, PHYS 431, PHYS 432, PHYS 433, PHYS 434, and either ASTR 480 or ASTR 481
 - v. *Teaching practicum (3 credits)*: PHYS 499, working on a project that involves teaching

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the [department website](#).

Minor

Minor Requirements: 30-36 physics credits (in addition to 15 credits of MATH 124, MATH 125, and MATH 126) as follows:

1. *Core courses*: PHYS 121, PHYS 122, PHYS 123, PHYS 224, and PHYS 225
2. One of the following options:
 - a. *Physics Education*: PHYS 407, PHYS 408, PHYS 409 (total 36 physics credits)
 - b. *Experimental Physics*: PHYS 231, PHYS 334, and one course from PHYS 331, PHYS 335, PHYS 431, PHYS 432, PHYS 433, or PHYS 434 (total 30 physics credits)
 - c. *Mathematical Physics*: PHYS 227, PHYS 228 (MATH 308 required), and one course from PHYS 321 or PHYS 324 (MATH 324 required) (total 30 physics credits)
3. Minimum grade of 2.0 required for each physics course counted toward the minor.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes*: The program is one of the largest in the nation, with approximately 80-100 majors graduating every year. Graduates may join the work force in a variety of technical occupations where analytical,

computational, and problem-solving skills are highly valued, both in government and the private sector. They may also continue with further studies in physics or in other fields (such as astronomy, medicine, law, business, biology, or engineering).

- *Instructional and Research Facilities:* The Physics and Astronomy Departments share a modern building which contains excellent instructional and research facilities. Undergraduate students are strongly encouraged to participate in ongoing research in the department.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Most undergraduate physics majors participate in a research experience, either on campus or off. Research internships in physics and related departments are available for both pay and course credit. Many students participate in national programs, typically the summer after their junior year. The department also maintains an exchange program with Universitat Justus-Leibig in Geissen, Germany.
- *Department Scholarships:* Select scholarships available every spring upon nomination by an instructor.
- *Student Organizations/Associations:* Society of Physics Students, www.uwsps.org; Career Development Organization for Physicists and Astronomers, students.washington.edu/cdophys/CAREER/

Of Special Note:

- One year of high school physics is strongly recommended before taking PHYS 121.

Graduate Program

Graduate Program Coordinator

(206) 543-2488

The Department of Physics offers studies leading to the degrees of Master of Science and Doctor of Philosophy. The department has a permanent faculty of 46 members, about 14 research faculty, and about 56 adjunct, affiliate, and emeritus faculty. An average of twenty PhD and thirty MS degrees in physics have been awarded annually in recent years.

Research Facilities

The department is well equipped, both in staff and facilities, for instruction and research in a discipline that emphasizes fundamental problems in the understanding of the physical universe. Areas of research available to the PhD student within the department include atomic physics, astrophysics, condensed-matter physics, elementary-particle physics, nuclear physics, and physics education. In addition, students may do research in physics with adjunct faculty members whose primary appointment is in another department such as Aeronautics and Astronautics, Astronomy, Biochemistry, Bioengineering, Chemistry, Earth and Space Sciences, Materials Science and Engineering, or Physiology and Biophysics.

Experimental work in atomic physics is concentrated on the measurement of fundamental physical properties through laser, ion trap, and radiofrequency techniques. The emphasis on fundamental measurements is continued in experiments on the gravitational force, carried out by faculty and students in atomic physics, nuclear physics, and astrophysics. Condensed-matter experiment includes research on surfaces, interfaces, nanotubes, lower-dimensional and bulk matter, with materials as diverse as high-temperature superconductors and low-temperature hydrogen monolayers. Facilities used range from synchrotron radiation and neutron sources in the United States and abroad to on-campus laboratories with low-temperature, high-pressure, scanning-probe microscopy, x-ray and light scattering, and surface-physics equipment.

Members of the high-energy and particle astrophysics experimental groups are heavily engaged in experiments at the European Center for Nuclear Research in Geneva, Kamiokande, KEK in Japan, and Fermilab in Illinois. Faculty and students of the nuclear physics group are involved in a broad spectrum of research including studies of neutrino properties, relativistic heavy ions, fundamental symmetries and nuclear astrophysics. Researchers use the on-campus accelerators of the Center for Experimental Physics and Astrophysics (CENPA), as well as major facilities in the United States, Canada, and Europe.

Theorists in the department are concerned with problems in the theories of elementary particles and quantum fields, string theory, nuclear and high-energy reactions from the very lowest to the very highest energies, phase transitions and statistical mechanics, condensed-matter physics from localization in disordered systems to electron transport in mesoscopic systems, atomic physics, general relativity, and astrophysics. The Institute for Nuclear Theory, a national facility closely associated with the department, offers a unique opportunity for students to pursue research with distinguished permanent and visiting staff. Students in physics have the opportunity to obtain a physics degree in a number of interdisciplinary and applied physics areas through research with faculty members in other departments.

Department facilities are housed in the Physics-Astronomy Building and the Center for Experimental Physics and Astrophysics (CENPA).

Master of Science (Applications of Physics)

Admission Requirements

This option is designed for students who are currently employed and whose background is in physical science, engineering, mathematics, or computer science. Admission is based on course grades in physics and related fields, adequacy of preparation in physics, and interest in areas of instruction offered in the physics department. Entering students are expected to have an undergraduate background equivalent to a BS degree in physical science, engineering, mathematics, or computer science. This program is part time, with classes offered evenings.

Degree Requirements

36 credits

As part of the standard Graduate School requirements, students are expected to complete the sequence of core courses PHYS 441, PHYS 541, and PHYS 543, and to select appropriate elective courses. In addition, students must complete an independent-study project in consultation with a faculty member. This project may be carried out at the University or at the student's place of employment. A written report as well as an oral

presentation of the project are required. Students must take at least 3 credits of PHYS 600 while completing the project, and must complete a total of 36 credits of work at the 400 level or above, with at least 18 of those credits at the 500 level or above. Of the 36 credits, at least 18 credits must be from numerically graded courses. No thesis is required.

Master of Science, Doctor of Philosophy

Admission Requirements

Undergraduate preparation should include upper-division courses in mechanics; electricity and magnetism; statistical physics and thermodynamics; modern physics, including an introduction to quantum mechanics; and advanced laboratory work. Preparation in mathematics should include vector analysis, complex variables, ordinary differential equations, Fourier analysis, boundary-value problems, and special functions. Admission is determined by the applicant's undergraduate program, undergraduate grades, Graduate Record Examination aptitude and advanced physics scores, letters of recommendation, and a statement of educational and professional objectives.

Master of Science

36 credits

Degree Requirements

Students must take at least 3 credits of PHYS 600 while completing the project, and must complete a total of 36 credits of work at the 400 level or above, with at least 18 of those credits at the 500 level or above. Of the 36 credits, at least 18 credits must be from numerically graded courses. A qualifying examination is required. No thesis is required.

Doctor of Philosophy

Minimum 90 credits

Degree Requirements

The student is expected to obtain here, or elsewhere with a master's degree, a background in physics equivalent to that contained in the following basic graduate courses: PHYS 505, PHYS 506, PHYS 511, PHYS 513, PHYS 514, PHYS 515, PHYS 517, PHYS 518, PHYS 519, PHYS 520, and PHYS 524; specialized courses appropriate to each student's interests; and two advanced elective courses outside the student's area of research. The student is required to pass, successively, a written qualifying examination (typically at the beginning of the second year), an oral general examination for admission to candidacy, and an oral final examination. In order to take the general examination, the student must have been accepted by a graduate faculty member as a research student and have completed the graduate studies outlined above. This examination concentrates on the area in which the dissertation research is planned. Teaching experience is required of all candidates. Courses in teaching techniques in physics, PHYS 501 through PHYS 503, are required of students holding teaching assistantships.

Financial Aid

Most graduate students are supported by fellowships and assistantships. Applications for the PhD program are automatically considered for these fellowships and assistantships.

COLLEGE OF ARTS & SCIENCES

PHYSICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

PHYS 101 Physical Science By Inquiry I (5-) NW, QSR

[View course details in MyPlan: PHYS 101](#)

PHYS 104 Facilitated Group Inquiry I (2) NW

Laboratory-based development of concepts and reasoning skills. Develops problem-solving techniques and scientific method in a large group setting. Co-requisite: PHYS 114. Offered: A.

[View course details in MyPlan: PHYS 104](#)

PHYS 105 Facilitated Group Inquiry II (2) NW

Laboratory-based development of concepts and reasoning skills. Develops problem-solving techniques and scientific method in a large group setting. Co-requisite: PHYS 115. Offered: W.

[View course details in MyPlan: PHYS 105](#)

PHYS 106 Facilitated Group Inquiry III (2) NW

Laboratory-based development of concepts and reasoning skills. Develops problem-solving techniques and scientific method in a large group setting. Co-requisite: PHYS 116. Offered: Sp.

[View course details in MyPlan: PHYS 106](#)

PHYS 107 Physics Concepts for Non-Scientists (5) NW *Wilkes*

Overview of physical science, from subatomic particles to cosmology. Intended to help students understand the importance of scientific research in society with emphasis on basic ideas about how the universe operates. Readings from popular books by leading scientists for non-science majors. For students without high school physics or with limited mathematics background. Offered: W.

[View course details in MyPlan: PHYS 107](#)

PHYS 110 Liberal Arts Physics (5) NW, QSR

Basic concepts of physics presented with emphasis on their origin and their impact on society and the Western intellectual tradition. Primarily for students in the arts, humanities, and social sciences. Offered: WSp.

[View course details in MyPlan: PHYS 110](#)

PHYS 114 General Physics (4) NW, QSR

Basic principles of physics presented without use of calculus. Suitable for students majoring in technically

oriented fields other than engineering or the physical sciences. Mechanics. Credit is not given for both PHYS 114 and PHYS 121. Offered: AWSpS.

[View course details in MyPlan: PHYS 114](#)

PHYS 115 General Physics (4) NW

Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Heat and electromagnetism. Credit is not given for both PHYS 115 and PHYS 122. Prerequisite: PHYS 114 or PHYS 121. Offered: AWSpS.

[View course details in MyPlan: PHYS 115](#)

PHYS 116 General Physics (4) NW

Basic principles of physics presented without use of calculus. Suitable for students majoring in technically oriented fields other than engineering or the physical sciences. Sound, light, and modern physics. Credit is not given for both PHYS 116 and PHYS 123. Prerequisite: PHYS 115 or PHYS 122. Offered: AWSpS.

[View course details in MyPlan: PHYS 116](#)

PHYS 117 General Physics Laboratory (1) NW

Mechanics laboratory. Credit is not given for both PHYS 117 and the PHYS 121 laboratory. Prerequisite: PHYS 114 which may be taken concurrently. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: PHYS 117](#)

PHYS 118 General Physics Laboratory (1) NW

Heat and electromagnetism laboratory. Credit is not given for both PHYS 118 and the PHYS 122 laboratory. Prerequisite: PHYS 115 which may be taken concurrently. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: PHYS 118](#)

PHYS 119 General Physics Laboratory (1) NW

Sound, light, and modern physics laboratory. Credit is not given for both PHYS 119 and the PHYS 123 laboratory. Prerequisite: PHYS 116 which may be taken concurrently. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: PHYS 119](#)

PHYS 121 Mechanics (5) NW, QSR

Basic principles of mechanics and experiments in mechanics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 114 and PHYS 121. Prerequisite: either MATH 124 or MATH 134, which may be taken concurrently. Offered: AWSpS.

[View course details in MyPlan: PHYS 121](#)

PHYS 122 Electromagnetism (5) NW

Covers the basic principles of electromagnetism and experiments in these topics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 115 and PHYS 122. Prerequisite: either MATH 125 or MATH 134, which may be taken concurrently; PHYS 121. Offered: AWSpS.

[View course details in MyPlan: PHYS 122](#)

PHYS 123 Waves (5) NW

Explores electromagnetic waves, the mechanics of oscillatory motion, optics, waves in matter, and experiments in these topics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Credit is not given for both PHYS 116 and PHYS 123. Prerequisite: either MATH 126 or MATH 134, which may be taken concurrently; PHYS 122. Offered: AWSpS.

[View course details in MyPlan: PHYS 123](#)

PHYS 207 The Physics of Music (3) NW

The nature of sound; vibrations; traveling and standing waves; response of the ear to sound; production of

musical sounds.

[View course details in MyPlan: PHYS 207](#)

PHYS 210 Physics by Inquiry I (5) NW

Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: minimum 2.0 in either PHYS 116 or PHYS 123. Offered: A.

[View course details in MyPlan: PHYS 210](#)

PHYS 211 Physics by Inquiry I (5) NW

Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: minimum 2.0 in either PHYS 116 or PHYS 123; recommended: PHYS 210. Offered: W.

[View course details in MyPlan: PHYS 211](#)

PHYS 212 Physics by Inquiry I (5) NW

Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: minimum 2.0 in either PHYS 116 or PHYS 123; recommended: PHYS 211. Offered: Sp.

[View course details in MyPlan: PHYS 212](#)

PHYS 214 Light and Color (5) NW, QSR

Compares past explanation of certain familiar natural phenomena with present understandings. Lamps and lighting, outdoor light, optical devices, color vision, perspective, paints, and pigments. Quantitative comparison critical to the course, but college-level mathematics background not required. Intended for non-science students.

[View course details in MyPlan: PHYS 214](#)

PHYS 216 Science and Society (5) I&S/NW *Chaloupka*

Investigation of the relationship between science, technology, and society. Nuclear physics and molecular biology serve as concrete examples of fields with significant impact on society. Offered: jointly with JSIS B 216; Sp.

[View course details in MyPlan: PHYS 216](#)

PHYS 217 Energy Future: The Technical and Social Barriers to Large-Scale Sustainable Energy (5) I&S/NW *Seidler*

Surveys the scientific, technological, and social barriers to large-scale renewable energy implementation. Includes discussion of solar, wind, nuclear, and other sustainable modalities; energy efficiency; large-scale energy storage; the greenhouse effect; and numerous domestic and international case studies of sustainable energy efforts. Offered: A.

[View course details in MyPlan: PHYS 217](#)

PHYS 224 Thermal Physics (3) NW

Introduces heat, thermodynamics, elementary kinetic theory, and statistical physics. Prerequisite: either MATH 126 or MATH 136, which may be taken concurrently; PHYS 122, which may be taken concurrently. Offered: ASpS.

[View course details in MyPlan: PHYS 224](#)

PHYS 225 Introduction to Quantum Mechanics (3) NW

Emphasizes two-state systems. Introduces spin and applications in nuclear magnetic resonance. Prerequisite: minimum 2.0 grade in PHYS 227. Offered: WS.

[View course details in MyPlan: PHYS 225](#)

PHYS 226 Particles and Symmetries (3) NW

Introduction to the fundamental constituents of matter and the symmetries which characterize their interactions. Topics include special relativity; strong, weak, and electromagnetic interactions; quarks and leptons; baryons

and mesons; and neutrinos and nuclei. Prerequisite: PHYS 225. Offered: ASp.

[View course details in MyPlan: PHYS 226](#)

PHYS 227 Elementary Mathematical Physics (4) NW

Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: minimum 2.0 grade in PHYS 121, PHYS 122, and PHYS 123. Offered: ASp.

[View course details in MyPlan: PHYS 227](#)

PHYS 228 Elementary Mathematical Physics (4) NW

Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: minimum 2.0 grade in PHYS 227. Offered: WS.

[View course details in MyPlan: PHYS 228](#)

PHYS 231 Introductory Experimental Physics (3) NW

Introduction to data acquisition and analysis using experiments which measure fundamental constants or properties of nature (Planck's constant, Boltzmann's constant, speed of light, charge of electron). Prerequisite: minimum 2.0 grade in PHYS 123. Offered: A.

[View course details in MyPlan: PHYS 231](#)

PHYS 232 Introduction to Computational Physics (3) NW

Computational techniques applied to physics and data analysis in laboratory setting. Emphasis on numerical solutions of differential equations, least square data fitting, Monte Carlo methods, and Fourier Analysis. A high-level language taught and used; no previous computing experience required. Prerequisite: PHYS 227.

[View course details in MyPlan: PHYS 232](#)

PHYS 248 Introductory Selected Topics (1-5, max. 15) NW

[View course details in MyPlan: PHYS 248](#)

PHYS 294 Introduction to Research: Frontiers of Physics (1) NW

Provides a survey of contemporary research in experimental and theoretical physics, with an emphasis on subfields seeing revolutionary changes in understanding. Credit/no-credit only. Offered: W.

[View course details in MyPlan: PHYS 294](#)

PHYS 321 Electromagnetism (4) NW

First of a three-quarter sequence. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: minimum grade of 2.0 in PHYS 227; two of PHYS 228, MATH 307 or AMATH 351, MATH 308 or AMATH 352, MATH 309 or AMATH 353, MATH 324, MATH 326, or AMATH 401. Offered: ASp.

[View course details in MyPlan: PHYS 321](#)

PHYS 322 Electromagnetism (4) NW

Continuation of PHYS 321. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: minimum 2.0 in PHYS 321. Offered: WS.

[View course details in MyPlan: PHYS 322](#)

PHYS 323 Electromagnetism (4) NW

Continuation of PHYS 322. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: minimum 2.0 in PHYS 322. Offered: Sp.

[View course details in MyPlan: PHYS 323](#)

PHYS 324 Quantum Mechanics (4) NW

First part of a two-quarter sequence. Introduction to nonrelativistic quantum mechanics: need for quantum theory, Schrodinger equation, operators, angular momentum, the hydrogen atom, identical particles, and the

periodic table. Prerequisite: 2.0 in PHYS 225, PHYS 228. Offered: AS.

[View course details in MyPlan: PHYS 324](#)

PHYS 325 Quantum Mechanics (4) NW

Continuation of PHYS 324. Introduction to nonrelativistic quantum mechanics: perturbation theory, the variational principle, radiation; application of quantum mechanics to atomic physics, magnetic resonance, scattering, and various special topics. Prerequisite: either PHYS 324 or B PHYS 324. Offered: W.

[View course details in MyPlan: PHYS 325](#)

PHYS 328 Statistical Physics (3) NW

Elements of statistical mechanics and their applications. Prerequisite: minimum 2.0 grade in PHYS 224. Offered: A.

[View course details in MyPlan: PHYS 328](#)

PHYS 329 Mathematical Methods and Classical Mechanics (3) NW

Mathematical methods applied to classical mechanics, including Lagrangian mechanics. Prerequisite: minimum grade of 2.0 in PHYS 228. Offered: Sp.

[View course details in MyPlan: PHYS 329](#)

PHYS 331 Optics Laboratory (3) NW

Measurements of interference and diffraction, optical properties of matter, image processing, interferometry, holography. Prerequisite: PHYS 228. Offered: A.

[View course details in MyPlan: PHYS 331](#)

PHYS 334 Electric Circuits Laboratory (3) NW

Basic elements of DC, AC, and transient circuits; electronic devices; electrical measurements. Prerequisite: minimum 2.0 grade in PHYS 123. Offered: WS.

[View course details in MyPlan: PHYS 334](#)

PHYS 335 Electric Circuits Laboratory (3) NW

Electrical measurements, data management, digital electronics of microprocessor systems. Building a microprocessor application. Prerequisite: minimum 2.0 in PHYS 334. Offered: Sp.

[View course details in MyPlan: PHYS 335](#)

PHYS 401 Special Problems (*, max. 30)

Supervised individual study. Offered: AWSpS.

[View course details in MyPlan: PHYS 401](#)

PHYS 402 Special Problems (*, max. 30)

Supervised individual study. Offered: AWSpS.

[View course details in MyPlan: PHYS 402](#)

PHYS 403 Special Problems (*, max. 30)

Supervised individual study. Offered: AWSpS.

[View course details in MyPlan: PHYS 403](#)

PHYS 405 Physical Science by Inquiry II (5-) NW

Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops scientific literacy. Prerequisite: 2.0 in either PHYS 116 or PHYS 123. Offered: A.

[View course details in MyPlan: PHYS 405](#)

PHYS 406 Physical Science by Inquiry II (-5) NW

Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops

scientific literacy. Prerequisite: 2.0 in either PHYS 116 or PHYS 123. Offered: W.

[View course details in MyPlan: PHYS 406](#)

PHYS 407 Physics by Inquiry II (5) NW

Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: minimum grade of 2.0 in PHYS 121, PHYS 122, PHYS 123. Offered: A.

[View course details in MyPlan: PHYS 407](#)

PHYS 408 Physics by Inquiry II (5) NW

Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 407. Offered: W.

[View course details in MyPlan: PHYS 408](#)

PHYS 409 Physics by Inquiry II (5) NW

Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 408. Offered: Sp.

[View course details in MyPlan: PHYS 409](#)

PHYS 410 Physics by Inquiry for In-Service Teachers (1-2, max. 30) NW

A "hands-on" inquiry-oriented approach designed to train in-service teachers in the use of the physical science content for any of several science programs selected by a school or school district. Credit/no-credit only.

[View course details in MyPlan: PHYS 410](#)

PHYS 411 Physics by Inquiry for Lead Teachers (1-4, max. 4) NW

Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PHYS 411](#)

PHYS 412 Physics by Inquiry for Lead Teachers (1-4, max. 4) NW

Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PHYS 412](#)

PHYS 413 Physics by Inquiry for Lead Teachers (1-4, max. 4) NW

Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PHYS 413](#)

PHYS 421 Contemporary Atomic Physics (3) NW

Survey of the principal phenomena of atomic and molecular physics. Prerequisite: PHYS 322; PHYS 325. Offered: Sp.

[View course details in MyPlan: PHYS 421](#)

PHYS 422 Contemporary Nuclear and Particle Physics (3) NW

Survey of the principal phenomena of nuclear and elementary-particle physics. Prerequisite: PHYS 226; PHYS 322; PHYS 325. Offered: A.

[View course details in MyPlan: PHYS 422](#)

PHYS 423 Contemporary Condensed Matter Physics (3) NW

Survey of the principal phenomena of solid-state physics. Prerequisite: a minimum 2.0 grade in either PHYS 324 or B PHYS 324. Offered: W.

[View course details in MyPlan: PHYS 423](#)

PHYS 427 Applications of Physics (1-3, max. 12) NW

Current applications of physics to problems in the sciences and technology.

[View course details in MyPlan: PHYS 427](#)

PHYS 428 Selected Topics in Physics (1-5, max. 12) NW

[View course details in MyPlan: PHYS 428](#)

PHYS 429 Biophysics (3)

Application of the concepts and methods of physics to biological systems. Prerequisite: PHYS 224; PHYS 225. Offered: W.

[View course details in MyPlan: PHYS 429](#)

PHYS 431 Modern Physics Laboratory (3) NW

Measurement in modern atomic, molecular, and solid-state physics. Prerequisite: PHYS 225; PHYS 334. Offered: WS.

[View course details in MyPlan: PHYS 431](#)

PHYS 432 Modern Physics Laboratory (3) NW

Measurement in modern atomic, molecular, and solid-state physics. Prerequisite: PHYS 225; PHYS 334. Offered: Sp.

[View course details in MyPlan: PHYS 432](#)

PHYS 433 Modern Physics Laboratory (3) NW

Techniques in nuclear and elementary-particle research. Prerequisite: PHYS 225; PHYS 334. Offered: A.

[View course details in MyPlan: PHYS 433](#)

PHYS 434 Application of Computers to Physical Measurement (3) NW

Laboratory giving specific instruction and experience in interfacing laboratory equipment to computers. Prerequisite: PHYS 334. Offered: A.

[View course details in MyPlan: PHYS 434](#)

PHYS 436 Nonlinear Dynamics and Chaos (4) NW

Variational Principle, Lagrangian and Hamiltonian Mechanics, phase space, nonlinear dynamics, approach to chaos, Lyapunov exponents, applications to physical systems. Numerical exercises to illustrate phenomena. Prerequisite: MATH 309.

[View course details in MyPlan: PHYS 436](#)

PHYS 441 Quantum Physics (4) NW

Introduction to concepts and methods of quantum physics: wave mechanics (de Broglie wavelength, uncertainty principle, Schrodinger equation), one-dimensional examples (tunneling, harmonic oscillator), formalism of quantum physics, angular momentum and the hydrogen atom. Offered: A.

[View course details in MyPlan: PHYS 441](#)

PHYS 451 Issues for Ethnic Minorities and Women In Science and Engineering (3/5) I&S

Addresses issues faced by women and ethnic minorities in physical sciences and engineering. Focuses on participation, barriers to participation, and solutions to those issues for women and ethnic minorities in physical sciences and engineering. Offered: jointly with GWSS 485.

[View course details in MyPlan: PHYS 451](#)

PHYS 460 Water in the Environment (3) NW

Discusses the unique physical and chemical properties of the water molecule in relation to the atmospheric greenhouse effect, precipitation formation, oceanic circulations, infiltration of water through soils, geyser eruptions, and glacier and sea ice thickness. Prerequisite: either ESS 310, MATH 126, or MATH 136; PHYS 123. Offered: jointly with ATM S 460/ESS 424.

[View course details in MyPlan: PHYS 460](#)

PHYS 485 Senior Honors Seminar (1, max. 3) NW

Prerequisite: Honors standing; 12 credits of physics. Offered: A.

[View course details in MyPlan: PHYS 485](#)

PHYS 486 Senior Honors Seminar (1, max. 3) NW

Prerequisite: Honors standing; 12 credits of physics. Offered: W.

[View course details in MyPlan: PHYS 486](#)

PHYS 487 Senior Honors Seminar (1, max. 3) NW

Prerequisite: Honors standing; 12 credits of physics. Offered: Sp.

[View course details in MyPlan: PHYS 487](#)

PHYS 494 Seminar on Current Problems in Physics (1, max. 3) NW

Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentations summarizing work accomplished are required. Offered: A.

[View course details in MyPlan: PHYS 494](#)

PHYS 495 Seminar on Current Problems in Physics (1, max. 3) NW

Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentations summarizing work accomplished are required. Offered: W.

[View course details in MyPlan: PHYS 495](#)

PHYS 496 Seminar on Current Problems in Physics (1, max. 3) NW

Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentations summarizing work accomplished are required. Offered: Sp.

[View course details in MyPlan: PHYS 496](#)

PHYS 499 Undergraduate Research (1-6, max. 18)

Research in physics and study of physics literature. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: PHYS 499](#)

PHYS 501 Tutorials in Teaching Physics (1, max. 2)

Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PHYS 501](#)

PHYS 502 Tutorials in Teaching Physics (1, max. 2)

Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no-credit only. Offered: W.

[View course details in MyPlan: PHYS 502](#)

PHYS 503 Tutorials in Teaching Physics (1, max. 2)

Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no-credit only. Offered: Sp.

[View course details in MyPlan: PHYS 503](#)

PHYS 505 Mechanics (3)

Lagrangian and Hamiltonian dynamics, with applications to various topics such as coupled oscillators, parametric resonance, anharmonic oscillations, chaos. Offered: W.

[View course details in MyPlan: PHYS 505](#)

PHYS 506 Numerical Methods (3)

Integration, solution of differential equations, Monte Carlo methods, function minimization, data analysis, modern computing techniques, computation in experimental physics. Offered: WSp.

[View course details in MyPlan: PHYS 506](#)

PHYS 507 Physical Applications of Group Theory (3)

Applications of finite and continuous groups, representation theory, symmetry, and conservation laws to physical systems. Offered: Sp.

[View course details in MyPlan: PHYS 507](#)

PHYS 511 Topics in Contemporary Physics (3, max. 9)

Topics of current experimental, theoretical, or technological interest in modern physics. Offered: Sp.

[View course details in MyPlan: PHYS 511](#)

PHYS 513 Electromagnetism and Relativity (3)

First of a three-part sequence. Principles of electrostatics, complex variable techniques, boundary value problems and their associated mathematical techniques, Green's functions. Offered: A.

[View course details in MyPlan: PHYS 513](#)

PHYS 514 Electromagnetism and Relativity (4)

Continuation of PHYS 513. Electric and magnetic fields in free space and material media, wave guides and cavity resonators. Offered: W.

[View course details in MyPlan: PHYS 514](#)

PHYS 515 Electromagnetism and Relativity (4)

Continuation of PHYS 514. Special relativity, electromagnetic radiation from accelerated charges, synchrotron radiation, Cerenkov radiation, radiation reaction. Offered: Sp.

[View course details in MyPlan: PHYS 515](#)

PHYS 517 Quantum Mechanics (4)

First of a three-part sequence. Modern non-relativistic quantum mechanics developed, beginning with its basic principles. Dirac and abstract operator notation introduced, starting with simple examples. Offered: A.

[View course details in MyPlan: PHYS 517](#)

PHYS 518 Quantum Mechanics (4)

Continuation of PHYS 517. Modern non-relativistic quantum mechanics. The character of the theory illustrated both with physical examples and with conceptual problems. Topics include: atomic structure, scattering processes, density operator description of mixed states, and measurement theory. Abstract operator methods emphasized in the exposition of angular momentum, scattering, and perturbation theory. Offered: W.

[View course details in MyPlan: PHYS 518](#)

PHYS 519 Quantum Mechanics (4)

Continuation of PHYS 518. Modern non-relativistic quantum mechanics. Physical examples and conceptual problems. Topics include: atomic structure, scattering processes, density operator description of mixed states, and measurement theory. Abstract operator methods emphasized in the exposition of angular momentum, scattering, and perturbation theory. Offered: Sp.

[View course details in MyPlan: PHYS 519](#)

PHYS 520 Advanced Quantum Mechanics - Introduction to Quantum Field Theory (4)

Multi-particle systems, second quantization, diagrammatic perturbation theory, radiation, correlation functions

and multi-particle scattering, relativistic theories, renormalizability, basic quantum electrodynamics, and other applications. Offered: A.

[View course details in MyPlan: PHYS 520](#)

PHYS 521 Advanced Quantum Mechanics - Introduction to Quantum Field Theory (3)

Multi-particle systems, second quantization, diagrammatic perturbation theory, radiation, correlation functions and multi-particle scattering, relativistic theories, renormalizability, basic quantum electrodynamics, and other applications. Offered: W.

[View course details in MyPlan: PHYS 521](#)

PHYS 522 Advanced Quantum Mechanics: Introduction to Modern Quantum Field Theory (3)

Functional integrals, symmetry breaking, critical phenomena and continuum limits, and non-perturbative methods. Credit/no-credit only. Offered: Sp.

[View course details in MyPlan: PHYS 522](#)

PHYS 524 Thermodynamics and Statistical Mechanics (4)

Statistical mechanical basis of the fundamental thermodynamical laws and concepts; classical and quantum statistical distribution functions; applications to selected thermodynamic processes and examples of Bose and Fermi statistics. Offered: A.

[View course details in MyPlan: PHYS 524](#)

PHYS 525 Statistical Mechanics (3)

Introduction to equilibrium and non-equilibrium aspects of many-body systems; scale invariance and universality at phase transitions and critical phenomena; exactly soluble models; Markov processes, master equations and Langevin equation in non-equilibrium stochastic processes. Prerequisite: PHYS 524. Offered: Sp.

[View course details in MyPlan: PHYS 525](#)

PHYS 527 Current Problems in Physics (1)

Introduction to current research topics for beginning graduate students. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PHYS 527](#)

PHYS 528 Current Problems in Physics (1)

Introduction to current research topics for beginning graduate students. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PHYS 528](#)

PHYS 530 Laser Physics (4)

Physics underlying laser design and operation in the context of common laboratory systems. Topics may include continuous and pulsed lasers; solid, liquid, and gas gain media; Q-switching, mode-locking, resonator theory, nonlinear optics, and others. Prerequisite: basic quantum mechanics, electromagnetism, and optics.

[View course details in MyPlan: PHYS 530](#)

PHYS 532 Liquid Crystal Devices (4)

Physics of liquid crystals and applications to practical display devices. Phases, phase transitions, optical and dielectric properties, molecular and device "engineering," future prospects.

[View course details in MyPlan: PHYS 532](#)

PHYS 536 Introduction to Acoustics and Digital Signal Processing (4)

Introduces mathematical and physics principles of acoustics in digital signal processing applications. Complex analysis and Fourier methods, physics of vibrations and waves, solutions of the wave equation, digital convolution and correlation methods, and Maximum Length Sequence method in signal analysis and spread-spectrum applications. Prerequisite: PHYS 123; MATH 120. Instructors: Chaloupka

[View course details in MyPlan: PHYS 536](#)

PHYS 541 Applications of Quantum Physics (4)

Techniques of quantum mechanics applied to lasers, quantum electronics, solids, and surfaces. Emphasis on

approximation methods and interaction of electromagnetic radiation with matter. Prerequisite: PHYS 421 or PHYS 441 or equivalent. Offered: Sp.

[View course details in MyPlan: PHYS 541](#)

PHYS 542 Numerical Methods in Physics (4)

Numerical methods for analysis and computation in physics. Topics may include integration, differential equations, partial differential equations, optimization, data handling, and Monte Carlo techniques. Emphasis is applications in physics. Prerequisite: 30 credits in physical sciences, computer science, or engineering.

[View course details in MyPlan: PHYS 542](#)

PHYS 543 Electromagnetic Theory (4)

Principal concepts of electromagnetism. Static electric and magnetic fields. Boundary-value problems. Electric and magnetic properties of materials. Electromagnetic waves and radiation. Prerequisite: 30 credits in physical sciences, computer science, or engineering. Offered: W.

[View course details in MyPlan: PHYS 543](#)

PHYS 544 Applications of Electromagnetic Theory (4)

Emphasis may vary from year to year. Topics may include electromagnetic waves, radiation, scattering, wave guides, plasma physics, quantum electronics, and accelerator physics. Prerequisite: PHYS 543 or equivalent.

[View course details in MyPlan: PHYS 544](#)

PHYS 545 Contemporary Optics (4)

Coordinated lecture and laboratory treatment of topics in contemporary optics. Subjects include Fourier optics, lens systems, interferometry, laser optics, holography, polarization, crystal optics, birefringence, laser and conventional light sources, optical detectors. Prerequisite: PHYS 543 or equivalent.

[View course details in MyPlan: PHYS 545](#)

PHYS 546 Condensed-Matter Physics (4)

Introduction to the theory of solids: crystal structure in real space and reciprocal space, phonons, free electrons, band theory, semiconductor devices. Prerequisite: PHYS 441 or equivalent.

[View course details in MyPlan: PHYS 546](#)

PHYS 547 Electronics for Physics Research (4)

Electronic techniques as applied in physics research. Topics include noise, control-system analysis, operational amplifiers, lock-in amplifiers, precision power supplies and metering, data transmission, microprocessors. Several integrated measurement systems are examined in the context of specific research problems. Prerequisite: elementary electronics.

[View course details in MyPlan: PHYS 547](#)

PHYS 549 Low-Temperature Physics and Cryogenics (4)

Condensed-matter physics at low and ultralow temperatures. Production of low temperatures; liquefaction of gases, dilution refrigeration, magnetic and compressional cooling. Macroscopic quantum effects: superconductivity, superfluidity. Applications of superconductors. The ultralow temperature frontier.

[View course details in MyPlan: PHYS 549](#)

PHYS 550 Atomic Physics (3)

Theory of atomic structure and spectra; atomic and molecular beams; resonance techniques; atomic collisions; topics of current interest. Prerequisite: PHYS 519.

[View course details in MyPlan: PHYS 550](#)

PHYS 551 Atomic Physics (3)

Theory of atomic structure and spectra; atomic and molecular beams; resonance techniques; atomic collisions; topics of current interest. Prerequisite: PHYS 519.

[View course details in MyPlan: PHYS 551](#)

PHYS 552 Introduction to Cosmic Ray Physics (3)

The nature and cosmological significance of cosmic ray photons and particles. The motion and confinement of particles in the geophysical, interplanetary, and interstellar medium. Theories of the processes involved in the high-energy interaction of cosmic rays, including shower theory. Methods of measurement and current problems. Prerequisite: introductory quantum mechanics. Credit/no-credit only.

[View course details in MyPlan: PHYS 552](#)

PHYS 554 Nuclear Astrophysics (3)

Big bang nucleosynthesis; nuclear reactions in stars; solar neutrinos and neutrino oscillations; core-collapse supernovae; nucleosynthesis in stars, novae, and supernovae; neutron stars; composition and sources of cosmic rays; gamma ray bursts; atmospheric neutrinos. Offered: jointly with ASTR 510; A.

[View course details in MyPlan: PHYS 554](#)

PHYS 555 Cosmology and Particle Astrophysics (3)

Big bang cosmology; relativistic world models and classical tests; background radiation; cosmological implications of nucleosynthesis; baryogenesis; inflation; galaxy and large-scale structure formation; quasars; intergalactic medium; dark matter.

[View course details in MyPlan: PHYS 555](#)

PHYS 557 High Energy Physics (3)

First quarter of a three-quarter series. Emphasis on the experimental foundations of particle physics.

Prerequisite: PHYS 519. Offered: A.

[View course details in MyPlan: PHYS 557](#)

PHYS 558 High Energy Physics (3)

Second quarter of a three-quarter series. Phenomenology of the standard model of strong and electro-weak interactions, including an introduction to Feynman diagrams. Prerequisite: PHYS 519. Offered: W.

[View course details in MyPlan: PHYS 558](#)

PHYS 559 High Energy Physics (3)

Third quarter of a three-quarter series. Topics of current interest in high-energy particle physics. Prerequisite: PHYS 519. Offered: Sp.

[View course details in MyPlan: PHYS 559](#)

PHYS 560 Theoretical Nuclear Physics (3)

First of a two-part sequence. Nuclear structure, scattering, reactions, and decays in terms of elementary properties of nucleons and current theoretical models. Prerequisite: PHYS 519. Offered: A.

[View course details in MyPlan: PHYS 560](#)

PHYS 561 Theoretical Nuclear Physics (3)

Continuation of PHYS 560. Nuclear structure, scattering, reactions, and decays in terms of elementary properties of nucleons and current theoretical models. Prerequisite: PHYS 519. Offered: W.

[View course details in MyPlan: PHYS 561](#)

PHYS 564 General Relativity (3)

First of a two-part sequence. General covariance and tensor analysis, the relativistic theory of gravitation as given by Einstein's field equations, experimental tests and their significance, and applications of general relativity, particularly in the areas of astrophysics and cosmology. Prerequisite: PHYS 515.

[View course details in MyPlan: PHYS 564](#)

PHYS 565 General Relativity (3)

Continuation of PHYS 564. General covariance and tensor analysis, the relativistic theory of gravitation as given by Einstein's field equations, experimental tests and their significance, and applications of general relativity, particularly in the areas of astrophysics and cosmology. Prerequisite: PHYS 515.

[View course details in MyPlan: PHYS 565](#)

PHYS 567 Theory of Solids (3)

First quarter of a course on modern solid state and condensed matter physics, aimed at bringing student's knowledge up to the level of current literature. Topics include structural, electronic, and vibrational properties; optical response functions and dynamics; transport theory; and cooperative phenomena. Prerequisite: PHYS 519, PHYS 524. Offered: AW.

[View course details in MyPlan: PHYS 567](#)

PHYS 568 Theory of Solids (3)

Second quarter of a course on modern solid state and condensed matter physics, aimed at bringing the student's knowledge up to the level of current literature. Additional topics (see PHYS 567) include magnetism, quantum Hall effect, superconductivity. Offered: WSp.

[View course details in MyPlan: PHYS 568](#)

PHYS 570 Quantum Field Theory (3)

Emphasizes either relativistic quantum field theory or the many-body problem. Normally offered credit/no-credit only. Prerequisite: PHYS 522.

[View course details in MyPlan: PHYS 570](#)

PHYS 571 Quantum Field Theory (3)

Emphasizes either relativistic quantum field theory or the many-body problem. Normally offered credit/no-credit only. Prerequisite: PHYS 522.

[View course details in MyPlan: PHYS 571](#)

PHYS 572 Modern Quantum Field Theory (3)

Advanced topics in quantum field theory. Prerequisite: PHYS 570, PHYS 571. Credit/no-credit only.

[View course details in MyPlan: PHYS 572](#)

PHYS 575 Selected Topics in Applications of Physics (*, max. 30)

[View course details in MyPlan: PHYS 575](#)

PHYS 576 Selected Topics in Experimental Physics (*, max. 30)

Political Science

[Display as tabs](#)

Department Overview

101 Gowen

Political science, broadly conceived, is the study of governments and other political actors, including their origins and foundations, interactions with groups and individuals, and interactions with nations. Within this larger framework political scientists study power, authority, conflict, economic relationships, culture, laws, policy, values, ethics, justice, equality, rights, legitimacy, and representation, to list only a few. Using these and other concepts, they analyze the political impacts of social issues such as war, peace, poverty, crime, education, the environment, race, gender, and globalization. Modes of inquiry are highly interdisciplinary.

Undergraduate Program

Adviser

215 Smith, Box 353530

(206) 543-1824

polsadvc@uw.edu

The Department of Political Science offers the following programs of study:

- The Bachelor of Arts degree with a major in political science and options in political economy and in international security
- A minor in political science

Coursework in the discipline covers four major fields of political science: American politics, comparative politics, international relations, and political theory. In addition to major requirements, students may pursue faculty-supervised internships, research, independent study projects and an optional senior thesis.

Bachelor of Arts

Suggested First- and Second-Year College Courses: Courses that develop writing skills and breadth of knowledge. Introductory statistics.

Department Admission Requirements

1. Minimum 2.00 cumulative GPA

2. Three introductory political science courses (15 credits) with a minimum 2.0 grade in each from the following: POL S 101, POL S 201, POL S 202, POL S 203, POL S 204, POL S 205
3. Students are admitted all quarters. Applications are due the second Friday of each quarter. Applications and additional information available from advisers in 215 Smith and on the Political Science Department website.
4. Applicants who meet the stated requirements are admitted in time to register for the following quarter as majors.

Major Requirements

50 credits in political science as follows:

1. *Introductory Requirement (15 credits)*: Three courses from POL S 101, POL S 201, POL S 202, POL S 203, POL S 204, POL S 205
2. *Field Requirement (15 credits)*: One course numbered POL S 210 or above in three different fields of political science chosen from political theory, comparative politics, international relations, American politics, and research methods, with a grade of at least 2.0 in each
3. *Electives (20 credits)*: Four courses numbered POL S 210 or above with a grade of at least 2.0 in each.
4. *GPA Requirement*: Minimum cumulative GPA of 2.25 in political science courses at graduation and a minimum grade of 2.0 in each political science course taken to fulfill requirements for the major
5. Transfer and postbaccalaureate students must meet all the above requirements and complete a minimum of 10 political science credits numbered 210 or above through the UW.

Political Economy: This interdisciplinary option is a specialized program that combines study of political science and economics. Students who wish to pursue this option should consult with a political science adviser. A list of recommended coursework is available.

International Security: This option, recommended to students interested in an in-depth study of international security, concentrates on the relationship between politics and security, and specifically on the causes of war and the use and control of force, threats, promises, and the tactics, techniques, and ethics of violence. Teaches theories to address security issues and provides historical context for understanding contemporary security issues. Option coursework is completed in addition to the requirements of the major, however, up to 25 credits from the option may also be used to fulfill requirements for the political science major. A list of recommended coursework is available.

45 credits as follows:

1. POL S 203, POL S 321, POL S 407 (15 credits)
2. 30 additional credits from an approved list of courses maintained in the department. At least 15 elective credits must be at the 300 or 400 level.

Minor

Minor Requirements: 30 political science credits as follows:

1. One introductory course chosen from POL S 101, POL S 201, POL S 202, POL S 203, POL S 204, or POL S 205
2. 25 elective credits numbered POL S 210 and above. (Internship and independent study courses such as POL S 496, POL S 498, POL S 499 do not count toward the minor)
3. Minimum cumulative GPA of 2.00 for courses applied to the minor
4. Minimum 15 credits for the minor completed in residence through the UW

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of political science arms students with substantive knowledge of the discipline, including its concepts and theories. It also prepares them to be knowledgeable and active citizens. Through their study, students develop critical thinking, analytical, research, writing, interpersonal, and communication skills.

Graduates of political science pursue careers in many fields, including government (federal, state, and local), business, trade, public service (including non-governmental and international organizations), law, journalism, and teaching.

- *Instructional and Research Facilities:*
 - *Political Science Laboratory:* This facility has 25 computer stations. It functions as a computer classroom and also as a general lab.
 - *Center for Social Science Computation and Research* maintains an extensive data archive and offers many statistical and software consulting services.
 - *Political Science/Jackson School/Law, Societies, and Justice/Comparative History of Ideas Writing Center:* The Writing Center is staffed by peer tutors and provides free help to students seeking feedback about their writing. The Writing Center director works with instructors to design workshops to help students with assignments.

The Department of Political Science is affiliated with a number of research centers:

- *The Center for American Politics and Public Policy* is a focal point for the study of politics and policy processes in the United States. Research relates to public policy processes, including issues of agenda setting, decision making, implementation, quantitative and qualitative measures of policy change, and the role of ideas and dialogue in policy change. Policy arenas include education reform, health care, environmental regulation, and building code enforcement.
- *The Center for Communication and Civic Engagement* investigates how innovative communication can improve the quality of civic life. The center's primary focus is to understand how new information technologies can supplement more traditional forms of communication to facilitate civic engagement.
- *The University of Washington's Institute for the Study of Ethnicity, Race, and Sexuality* is an interdisciplinary research center dedicated to bringing the tools of contemporary social science inquiry to the careful examination of issues of social, economic, and political exclusion and disadvantage of marginalized minority populations in the United States, and their potential solutions.

- *Harry Bridges Center for Labor Studies* promotes the study of labor as a central concern in higher education and focuses on labor's contribution to society—locally, nationally, and worldwide. The center supports research, teaching, and community outreach.
- *The Comparative Law and Society Studies Center* is committed to promoting interdisciplinary research and teaching as well as community service regarding law, justice, and human rights throughout the world.
- *European Union Center* promotes the study of the European Union and trans-Atlantic relations.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* The department offers three internship programs that range from part-time to full-time programs. Students may work in local agencies (POL S 496), in the state legislature (POL S 497), and in Washington, D.C. (POL S 498).

Listings of local internships and applications are available in 215 Smith.

[The Washington State Legislative Internship Program](#) is a winter-quarter program in Olympia and is open to students from all majors. Students earn 15 credits for the internship and attend a class taught by a political science faculty member. Applications are available from departmental advisers in 215 Smith and are due by the end of October.

Students in all majors may apply for The [Washington Center](#), a comprehensive internship program that places students in Washington, D.C. Students earn 15 credits for the internship. Additional information is available from departmental advisers in 215 Smith.

- *Department Scholarships:*
 - *Hugh Bone Scholarship:* The endowed Hugh A. Bone Scholarship was established by the Department of Political Science in 1986 to recognize Professor Bone, a former department chair, and to continue his commitment to a "participative citizenry." Professor Bone founded the Washington State Legislative Internship Program and many of the students who studied with him continue active political lives due to his stewardship and interest. The scholarship was established in his name to help students with financial need to study and intern away from the UW-Seattle campus.
 - *Agnes C. Nelson Memorial Scholarship:* The departments of Political Science and Economics make annual full-tuition awards to students who demonstrate interest in the interrelationship of politics and economics and who meet financial eligibility requirements. To apply for the scholarship, students must have completed a minimum of 25 credits in political science and economics with at least 10 credits in each discipline. Deadlines are posted early in spring quarter.
- *Department Awards*
 - *The Robert A. Dahl Award:* The Department of Political Science recognizes an outstanding graduating senior with the Robert A. Dahl Award. To be eligible for consideration, a student must demonstrate scholarship excellence as well as interest in political science as a discipline.

- *Daniel C. Lev Award*: The Department of Political Science created this award to recognize the contribution of Professor Dan Lev to the department's Honors program. The award recognizes an exceptional Senior Honors Thesis.
- *Sharon S. Redeker Award for Public Service*: The Department of Political Science created this award in honor of Sharon Redeker, who served for many years as the department's Director of Academic Services. This award recognizes the exceptional public service of a political science senior while at the UW.
- *Student Organizations/Associations*: Pi Sigma Alpha (Political Science Honor Society), Phi Alpha Delta (pre-law fraternity). See adviser for details.

Graduate Program

Graduate Program Coordinator
 215 Smith, Box 353530
 (206) 543-1898
polsgrad@uw.edu

Graduate study in political science integrates traditional education in political science's primary fields with other fields in the social sciences, allowing an eclectic, interdisciplinary approach.

The department has an outstanding reputation in comparative politics, international relations, American politics, political theory, political economy, race and ethnic politics, public policy, public law, political communication, and methodology. Graduate students can incorporate study in other campus units, such as the School of Marine Affairs, the Daniel J. Evans School of Public Affairs, the Henry M. Jackson School of International Studies, and the Department of Communication.

Graduate work in political science is primarily for preparation for the Doctor of Philosophy degree. The Master of Arts requirement serves as the initial stage of the PhD program; the department does not offer a terminal Master of Arts degree and admits students for the PhD program only.

Doctor of Philosophy

Admission Requirements

1. **Statement of Purpose** detailing academic background, including any research experience and methodological skills; plans and goals for study, including intellectual interests and areas of specialization; and reasons for interest in studying at the University of Washington
2. **Writing sample**: A relatively short paper (not to exceed 20 pages) or excerpts from a larger work (e.g., honors thesis) demonstrating the ability to write critically and analytically.
3. **Resume**
4. **Letters of recommendation**
5. **Transcripts**

6. **Test scores:** GRE General Test scores sent directly by the Educational Testing Service (ETS). English Proficiency scores for international students, sent directly by the Educational Testing Service (ETS)-

Degree Requirements

Minimum 124 credits, to include:

The department recognizes four "general fields" in political science: American politics, comparative politics, international relations, and political theory. The department requires each PhD student to select one general field, in which the student must become familiar with the main body of literature, major intellectual issues, and develop competence in that field's mode of analysis. All students are required to take at least one additional core course in another general field.

A student must also prepare in a second general field or in one of the specialized fields: area study public law, political communication, political economy, political methodology, public policy processes, and minority and race politics. Specialized fields are periodically redefined, given faculty/student interests.

During their first year, students complete a series of courses designed to prepare them to achieve a minimum level of competence in political research methods. Demonstration of competence in a foreign language is not required for the PhD. Students who select a field(s) where the Supervisory Committee believes that competence in a language would be beneficial are so advised.

After completing a minimum of requirements in two fields and the methodology courses students are expected to complete the MA degree (46 credits), including an essay of distinction and a final oral examination to demonstrate substantive field knowledge and the ability to synthesize and apply that knowledge to new problems. The MA is usually completed within the first two years of study.

The doctoral student continues preparation in the first two chosen fields and in a required third field. The third field can be another general field and/or one or more of the specialized fields listed above, and/or at most one non-designated field. A non-designated field is constructed from another academic discipline such as anthropology or sociology, or individually defined by the student. International law, public administration, urban politics, political psychology, and philosophy of social science are examples of recent non-designated fields.

The doctorate usually takes at least an additional three years beyond the MA (124 credits minimum, including at least 27 credits for the dissertation). Students must pass comprehensive written and oral examinations in each of the three fields. They must also write and defend their dissertation prospectus for what is termed the general examination. Successful completion of the general examination constitutes advancement to candidacy. Approval of the prospectus leads to the research and writing of the dissertation. A final oral examination and committee approval of the doctoral dissertation complete the degree requirements.

Research Facilities

Access to computing facilities and extensive data holdings is available through the Center for Social Science Computation and Research and the Political Science Laboratory. The Department of Political Science is also affiliated with several research centers, including

the Center for American Politics and Public Policy, the Center for Communication and Civic Engagement, the Center for Statistics and Social Sciences, the Comparative Law and Society Studies Center, the Harry Bridges Labor Studies Center, the Center for Comparative and Historical Analysis of Organizations and States, and the UW's Institute for the Study of Ethnicity, Race, and Sexuality. The University is also a member of the Inter-University Consortium for Political and Social Research.

Financial Aid

Fellowships, research assistantships, and teaching assistantships are available to qualified graduate students, including those in their first year of study. Provided they make satisfactory progress, students are eligible for departmental financial assistance for five consecutive years.

COLLEGE OF ARTS & SCIENCES

POLITICAL SCIENCE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

POL S 101 Introduction to Politics (5) I&S

Political problems that affect our lives and shape the world around us.

[View course details in MyPlan: POL S 101](#)

POL S 110 Political Argumentation (3) VLPA/I&S

Skills- and practice-based approach to political argumentation. Suitable for non-majors.

[View course details in MyPlan: POL S 110](#)

POL S 120 Perspectives on Contemporary Public Policy Issues (3) I&S

Lecture series on contemporary domestic and international public policy issues. Credit/no-credit only. Offered: jointly with JSIS B 120.

[View course details in MyPlan: POL S 120](#)

POL S 195 Study Abroad: Political Science (1-10, max. 15) I&S

Lower-division political science courses taken through a UW approved study abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements.

[View course details in MyPlan: POL S 195](#)

POL S 201 Introduction to Political Theory (5) I&S

Philosophical bases of politics and political activity. Provides an introduction to the study of politics by the reading of books in political philosophy. Organized around several key political concepts, such as liberty, equality, justice, authority, rights, and citizenship. Offered: AWSpS.

[View course details in MyPlan: POL S 201](#)

POL S 202 Introduction to American Politics (5) I&S

Institutions and politics in the American political system. Ways of thinking about how significant problems, crises, and conflicts of American society are resolved politically. Offered: AWSpS.

[View course details in MyPlan: POL S 202](#)

POL S 203 Introduction to International Relations (5) I&S

The world community, its politics, and government. Offered: AWSpS.

[View course details in MyPlan: POL S 203](#)

POL S 204 Introduction to Comparative Politics (5) I&S

Political systems in a comparative framework. Traditional and contemporary approaches to the study of governments and societies in different countries. Offered: AWSpS.

[View course details in MyPlan: POL S 204](#)

POL S 205 Political Science as a Social Science (5) I&S, QSR

Methodological perspectives of social science disciplines: commonalities and differences in assumptions, values, and paradigms. Current issues from the multiple perspective of social sciences; limits of the social sciences in resolving key social issues.

[View course details in MyPlan: POL S 205](#)

POL S 207 Issues of Global Justice (5) I&S, DIV *M. BLAKE, J. MAYERFELD, W. TALBOTT*

Introduces issues of global justice. Topics include: global poverty and aid, immigration, transnational governance, gender in global relations, climate change, and cultural relativism. Offered: jointly with PHIL 207/VALUES 207.

[View course details in MyPlan: POL S 207](#)

POL S 212 Philosophy of Feminism (5) I&S, DIV

Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with GWSS 206/PHIL 206.

[View course details in MyPlan: POL S 212](#)

POL S 213 The Korean Peninsula and World Politics (5) I&S *Ha*

Introduces Korean politics, economics, society, and international relations. Overviews the development in politics, economy, and society since the late nineteenth century. Addresses the evolution of Korea in the international society by comparing Korea experience with that of China and Japan. Offered: jointly with JSIS A 213.

[View course details in MyPlan: POL S 213](#)

POL S 246 African American Politics (5) I&S, DIV *C. PARKER*

Survey of African Americans within the U.S. socio-political processes. Situates African Americans within a post-civil rights context where there is debate about race's centrality to an African American politics. Offered: jointly with AFRAM 246.

[View course details in MyPlan: POL S 246](#)

POL S 249 Introduction to Labor Studies (5) I&S

Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with HSTCMP 249/SOC 266.

[View course details in MyPlan: POL S 249](#)

POL S 270 Introduction to Political Economy (5) I&S *A. GILL*

Political economy as a tool for understanding and evaluating the political world. Combines theory, methods, and insights derived from economics and political science and applies them to a range of substantive issues.

[View course details in MyPlan: POL S 270](#)

POL S 273 The Concept of Political Power (5) I&S

How to understand and explain relationships of power. Readings from Marxism, Weberian sociology, anarchism, classical political philosophy, and contemporary political science. May also include works of fiction.

[View course details in MyPlan: POL S 273](#)

POL S 281 Literature and American Political Culture (5) VLPA/I&S

Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media.

Offered: jointly with ENGL 251.

[View course details in MyPlan: POL S 281](#)

POL S 295 Study Abroad: Political Science (1-10, max. 15) I&S

Political science courses taken through a UW approved study abroad program. Specific content varies and must be individually evaluated.

[View course details in MyPlan: POL S 295](#)

POL S 299 Special Topics in Political Science (2-5, max. 10) I&S

Examines a different subject or problem of current interest within the discipline.

[View course details in MyPlan: POL S 299](#)

POL S 301 Topics in Political Theory (5, max. 10) I&S

Study of topics in political theory.

[View course details in MyPlan: POL S 301](#)

POL S 302 Free Will, Nature, and Nurture in Politics and Society (5) I&S *M. SMITH*

Examines beliefs and actions in politics and other domains from the standpoint of free will, nature, and nurture. Compares political science to other disciplines in explaining why people think and act as they do.

[View course details in MyPlan: POL S 302](#)

POL S 303 Public Policy Formation in the United States (5) I&S

Policy decision making with emphasis on: how issues arise, the way they become part of the policy agenda of the executive and the legislature, how these institutions organize to handle policy issues, and the roles of the legislature, the executive, and the bureaucracy. Public policy literature and familiarization with key aspects of policy decision making at the national, state, and local levels.

[View course details in MyPlan: POL S 303](#)

POL S 304 The Press and Politics in the United States (5) I&S

Journalists' role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Extensive off-campus experience included. Offered: jointly with COM 304.

[View course details in MyPlan: POL S 304](#)

POL S 305 The Politics of Mass Communication in America (5) I&S

Role of mass audiences in politics from the standpoint of the communication strategies used to shape their political involvement. Topics include: social structure and political participation, political propaganda and persuasion, the political uses of public opinion, and the mass media and politics. Offered: jointly with COM 305.

[View course details in MyPlan: POL S 305](#)

POL S 306 Media, Society, and Political Identity I&S (5) I&S *W. BENNETT*

Explores how society and culture are both represented in and shaped by communication technologies and media content. Media include film, advertising, news, entertainment television, talk shows, and the Internet. Explores how media represent and affect individual identity, values, and political engagement. Offered: jointly with COM 306.

[View course details in MyPlan: POL S 306](#)

POL S 307 Religion and World Politics (5) I&S *A. GILL*

Explores the intersection of religion and politics in various regions of the world, including the United States, Europe, Middle East, Latin America, and other regions. Presents an historical perspective on religion alongside contemporary issues in religion, politics, and church-state relations. Offered: jointly with RELIG 307.

[View course details in MyPlan: POL S 307](#)

POL S 308 The Western Tradition of Political Thought, Ancient and Medieval (5) I&S

Origin and evolution of major political concepts from ancient Greece to the medieval period.

[View course details in MyPlan: POL S 308](#)

POL S 309 The Western Tradition of Political Thought, Pre-Modern (5) I&S

Continuation of POL S 308, treating materials from the fifteenth through eighteenth centuries.

[View course details in MyPlan: POL S 309](#)

POL S 310 The Western Tradition of Political Thought, Modern (5) I&S

Continuation of POL S 308 and POL S 309, focusing on material from the eighteenth through twentieth centuries.

[View course details in MyPlan: POL S 310](#)

POL S 311 Individual and the State (5) I&S

Individualism and communitarian critics. Political and ethical implications of both. Nature of the state, liberty, responsibility, cooperation. Important individualist and collectivist literature, dealing with market institutions and citizen politics, critically assessed.

[View course details in MyPlan: POL S 311](#)

POL S 312 Survey of American Political Thought (5) I&S

Survey of American political thought from colonial times to the 1980s. Topics include the idea of the self-made man; the intellectual contexts of the Declaration of Independence and the Constitution; slavery, abolition, and the Civil War; progressivism; Cold War liberalism; the Civil Rights Movement and its critics; and modern conservatism. Prerequisite: cannot be taken for credit if POL S 318 or POL S 319 already taken.

[View course details in MyPlan: POL S 312](#)

POL S 313 Women in Politics (5) I&S, DIV

Theoretical, historical, and empirical studies of women's participation in political and social movements. Women's diverse efforts to improve their political, social, and economic status. Policy issues of particular concern to women. Women's political experiences in household, local, regional, national, and international arenas. Offered: jointly with GWSS 313.

[View course details in MyPlan: POL S 313](#)

POL S 314 Israel: Dynamic Society and Global Flashpoint (5) I&S, DIV

Introduces the people, institutions, and culture of Israel in the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture. Offered: jointly with JSIS A 314/NEAR E 315.

[View course details in MyPlan: POL S 314](#)

POL S 315 Black Identities and Political Power (5) I&S

Relates the deployment of political power within institutions to shifting racial identities. Shows how racial identities both reflect and inflect relations of domination and resistance within and between cultures in the black diaspora. Prerequisite: either AES 150, AFRAM 150, AFRAM 201, or POL S 201. Instructors: Rivers Offered: jointly with AFRAM 315.

[View course details in MyPlan: POL S 315](#)

POL S 316 African-American Political and Social Thought (5) I&S, DIV C. PARKER

Race relations in U.S. politics as defined by the struggle of African Americans for economic, political, and social equality. Studies of African-American political and social thought; expands and clarifies our understanding of the strengths and weaknesses of American democratic ideals.

[View course details in MyPlan: POL S 316](#)

POL S 317 The Politics of Race and Ethnicity in the United States (5) I&S, DIV M. FRANCIS

Introduction to the history and development of racial hierarchy, focusing on how race and ethnicity shape political institutions (e.g., the Constitution, political parties, voting systems). Examination of political relationships between Whites, African Americans, Latinos, and Asian Americans. Case studies of minority

representation and the politics of welfare, crime, immigration, and terrorism. Offered: jointly with LSJ⁹⁵¹ 331.

[View course details in MyPlan: POL S 317](#)

POL S 318 American Political Thought I (5) I&S *J. TURNER III*

Major thinkers and themes in American political and cultural development from Puritan origins to the Civil War. Prerequisite: cannot be taken for credit if POL S 312 already taken.

[View course details in MyPlan: POL S 318](#)

POL S 319 American Political Thought II (5) I&S *J. TURNER III*

Major thinkers and themes in American political and cultural development from the Civil War to the present. Prerequisite: cannot be taken for credit if POL S 312 already taken.

[View course details in MyPlan: POL S 319](#)

POL S 320 State-Society Relations in Third World Countries (5) I&S, DIV *Bachman, Callahan*

Relationships among political, social, and economic changes in Asia, Africa, and Latin America. Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with JSIS B 310.

[View course details in MyPlan: POL S 320](#)

POL S 321 American Foreign Policy (5) I&S

Constitutional framework; major factors in formulation and execution of policy; policies as modified by recent developments; the principal policymakers - president, Congress, political parties, pressure groups, and public opinion.

[View course details in MyPlan: POL S 321](#)

POL S 322 International Political Economy of Latin America (5) I&S *V. MENALDO*

Exploration of politics underlying Latin America's economic development. Topics covered include import-substituting industrialization, mercantilism, the debt crisis, neoliberalism, market integration, and poverty. Review of major theoretical perspectives such as modernization theory, dependency, and the new political economy. Offered: jointly with JSIS A 322.

[View course details in MyPlan: POL S 322](#)

POL S 324 Europe in World Politics (5) I&S

Independent and coordinated efforts of Britain, France, and West Germany to adapt to the post-World War II global system. Creation and development of the Atlantic Alliance. Relations with postcommunist states. Decolonization and the evolution of relations with the Third World. The movement for European integration.

[View course details in MyPlan: POL S 324](#)

POL S 325 The Arab-Israeli Conflict (5) I&S

The politics of conflicting ideologies: Zionism and Arab nationalism; formation of the state of Israel; development of Palestinian nationalism; Arab-Israeli wars. Re-emergence of Palestinian activism; domestic sources of foreign policy.

[View course details in MyPlan: POL S 325](#)

POL S 326 Scandinavia in World Affairs (5) I&S *C. INGEBRITSEN*

Introduction to the foreign relations of Scandinavia with a focus on Nordic security, international economic pressures, and global conflict resolution. Includes a survey of the national settings for international involvements and highlights the dilemmas for industrial societies exposed to the pressures of interdependence. Offered: jointly with SCAND 326.

[View course details in MyPlan: POL S 326](#)

POL S 327 Women's Rights as Human Rights (5) I&S, DIV *R. CICHOWSKI*

Women's rights in comparative perspective, focusing on varying settings that alter the meaning and practical application. Domestic level: areas including abortion politics to trafficking in women. International level: areas including equality claims before European supranational judicial bodies, rape as war crime in international law.

Offered: jointly with LSJ 327.

[View course details in MyPlan: POL S 327](#)

POL S 328 International Organizations (5) I&S

Explores historical, theoretical, and empirical aspects of the United Nations, its specialized agencies, and other international organizations, both governmental and nongovernmental.

[View course details in MyPlan: POL S 328](#)

POL S 329 Global Communication (5) I&S

Introduction to the history, purpose, channels, content, technologies, policy, and regulation of international communications systems. Issues covered include disparities in media development between post-industrial and developing nations, imbalances in international news and information flow, and the emergence of global communications. Offered: jointly with COM 322.

[View course details in MyPlan: POL S 329](#)

POL S 330 Communications in International Relations (5) I&S

Looks at communications in relations between international groups and states. Examines the range of functions and roles communication media play in international affairs, global issues, and intergroup relations. Also examines the strategic use of communications by various groups. Offered: jointly with COM 321.

[View course details in MyPlan: POL S 330](#)

POL S 331 Government and Politics in the Middle East and North Africa (5) I&S

Breakdown of traditional society and the problems of building modern political systems.

[View course details in MyPlan: POL S 331](#)

POL S 332 Topics in Comparative Politics (5, max. 10)

[View course details in MyPlan: POL S 332](#)

POL S 333 Topics in International Relations (5, max. 10)

[View course details in MyPlan: POL S 333](#)

POL S 334 Topics in American Politics (5, max. 10)

[View course details in MyPlan: POL S 334](#)

POL S 335 Topics in Political Economy (5, max. 10)

[View course details in MyPlan: POL S 335](#)

POL S 337 Collective Violence and the State (5) I&S, DIV

Comparative study of how and why genocides have occurred in modern times. Examines how ethnic, religious, and nationalist conflicts have sometimes led to violent conflict, and how political leaders and governments have mitigated or exacerbated them, sometimes engaging in state sponsored mass killing. Offered: jointly with JSIS B 337.

[View course details in MyPlan: POL S 337](#)

POL S 338 Topics in Public Policy (5, max. 10)

[View course details in MyPlan: POL S 338](#)

POL S 340 Politics of India, Pakistan, and South Asia (5) I&S

Course promotes a deeper understanding of politics in South Asia. Topics include political regimes, civil conflict, religion and politics, and economic development. Students also sharpen skills in reading social science articles, including picking out arguments, evidence, and logics of presentation. Offered: jointly with JSIS A 340.

[View course details in MyPlan: POL S 340](#)

POL S 341 Government and Politics of Canada (5) I&S

Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered:

jointly with JSIS A 321.

[View course details in MyPlan: POL S 341](#)

POL S 342 Government and Politics of Latin America (5) I&S

Analysis of the political dynamics of change in Latin America comparing various national approaches to the political problems of modernization, economic development, and social change. Offered: jointly with JSIS A 342.

[View course details in MyPlan: POL S 342](#)

POL S 343 Politics and Change in Southeast Asia (5) I&S

Government and politics in the countries of Southeast Asia, with attention given to the nature of the social and economic environments that condition them. Offered: jointly with JSIS A 343.

[View course details in MyPlan: POL S 343](#)

POL S 346 Governments of Western Europe (5) I&S

Modern government and politics of Great Britain, France, Germany, and Italy.

[View course details in MyPlan: POL S 346](#)

POL S 348 European Union as Global Actor (5) I&S

Surveys the European Union's evolution as a global actor and emergence as a potential superpower with increasingly unified foreign and defense policies. Covers institutions and interests that have driven this process; specific examples of European Union global engagement; and the potential implications for U.S. foreign policy. Offered: jointly with JSIS A 348.

[View course details in MyPlan: POL S 348](#)

POL S 350 Government and Interest Groups in the United States (5) I&S

Agrarian, labor, professional, business, and ethnic interest in politics; impact on representative institutions and governmental processes.

[View course details in MyPlan: POL S 350](#)

POL S 351 The American Democracy (5) I&S

Democratic theory; constitutional theory; the presidency; Congress; the Supreme Court; civil rights and civil liberties. Designed for nonmajors.

[View course details in MyPlan: POL S 351](#)

POL S 352 American Political Parties (5) I&S

Theories of American parties, campaigns, and voting behavior; party leadership; political socialization and participation.

[View course details in MyPlan: POL S 352](#)

POL S 353 United States Congress (5) I&S *J. WILKERSON*

Organization and procedure of Congress, state legislative politics, lobbying, legislative roles, theory and practice of representative government.

[View course details in MyPlan: POL S 353](#)

POL S 354 Elections and Voting in the United States (5) I&S

Electoral institutions and processes of the United States: the idea and practice of elections, the electoral system, individual voting behavior, collective voting behavior, and the impact of elections on policy.

[View course details in MyPlan: POL S 354](#)

POL S 355 The American Presidency (5) I&S *R. THORPE*

The American presidency; its evolution, its occupants, and its place within the American system. Topics include presidential character, war, elections, impeachment, the economy, and the Constitution.

[View course details in MyPlan: POL S 355](#)

POL S 356 Society and Politics (5) I&S

Causes of political change in democratic countries, including public opinion, social movements, interest group activity, and party organization. Offered: jointly with SOC 356.

[View course details in MyPlan: POL S 356](#)

POL S 357 Minority Representation and the Voting Rights Act (5) I&S, DIV

Explores whether and how African-Americans and Latinos are able to organize effectively and press their demands on the political system. Focuses on minority political behavior, the effect of these groups at the polls, the responsiveness of elected officials, and legal or constitutional obstacles affecting these phenomena.

[View course details in MyPlan: POL S 357](#)

POL S 358 American Political Culture (5)

Examines the origins and content of Americans' political values and beliefs. Topics include American exceptionalism, the culture war, freedom, civic engagement, the American dream, individualism, and political ideology.

[View course details in MyPlan: POL S 358](#)

POL S 359 U.S. Latino Politics (5) I&S, DIV *M. BARRETO*

Examines historical and current political incorporation of Latinos in the United States. Topics include Latino voting and voter mobilization, office seeking and representation, Latino public opinion, and public policy formation on "Latino issues." Offered: jointly with CHSTU 359.

[View course details in MyPlan: POL S 359](#)

POL S 360 Introduction to United States Constitutional Law (5) I&S *G. LOVELL*

Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects. Offered: jointly with LSJ 360.

[View course details in MyPlan: POL S 360](#)

POL S 361 United States Courts and Civil Liberty (5) I&S *G. LOVELL*

Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. Offered: jointly with LSJ 361.

[View course details in MyPlan: POL S 361](#)

POL S 363 Law in Society (5) I&S

Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Instructor: McCann. Offered: jointly with LSJ 363.

[View course details in MyPlan: POL S 363](#)

POL S 365 Lawyers in American Politics (5) I&S

Influence of lawyers on American politics. Official and unofficial political roles, lawyers as lobbyists, as legislators, in the bureaucracy, politics of the American Bar Association. Includes study of legal education, professional values, and avenues of political access.

[View course details in MyPlan: POL S 365](#)

POL S 367 Comparative Law and Courts (5) I&S *R. CICHOWSKI*

Introduction to comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as on the functioning of supranational and international legal entities in the international system. May not be taken for credit if student has taken LSJ/JSIS B 366. Offered: jointly with LSJ 367.

[View course details in MyPlan: POL S 367](#)

POL S 368 The Politics and Law of International Human Rights (5) I&S, DIV *J. MAYERFELD*

Studies the international human rights movement in its legal and political context. Focuses on institutions which

influence, enable, and constrain the international promotion of human rights. Offered: jointly with LSJ⁹⁵⁵20.

[View course details in MyPlan: POL S 368](#)

POL S 370 Privacy (5) I&S *S. Pekkanen*

Explores how individuals, corporations, and governments respond to privacy challenges in the digital age. Examines evolution of the idea of privacy using case studies of actual privacy policies, legal cases, and real-world situations. Covers legal, political, and social facets of this fundamental human issue. Offered: jointly with JSIS B 370/LSJ 370; Sp.

[View course details in MyPlan: POL S 370](#)

POL S 381 Urban Politics and Policy in the United States (5) I&S *Fraga*

Introduces actors, institutions, processes, and policies of substate governments in the United States. Provides and intensive comparative examination of historical and contemporary politics and policy-making. Promotes understanding of city government and its role within the larger context of state and national governments.

[View course details in MyPlan: POL S 381](#)

POL S 382 State Government (5) I&S *J. WILKERSON*

Focus on the structures, processes, and policy outputs of state governments in the United States.

[View course details in MyPlan: POL S 382](#)

POL S 383 Environmental Politics and Policy in the United States (5) I&S

Interrelation between technological and environmental change and policy formation. Consideration of political behavior related to these phenomena and the capacity of urban public organizations to predict change and to formulate policies that can take future states into account.

[View course details in MyPlan: POL S 383](#)

POL S 384 Global Environmental Politics (5) I&S *K. LITFIN*

Examines the globalization of environmental problems, including climate change, ozone depletion, and loss of biodiversity, as well as the globalization of political responses to these problems within the framework of globalization as set of interlinked economic, technological, cultural, and political processes. Offered: jointly with ENVIR 384.

[View course details in MyPlan: POL S 384](#)

POL S 385 Political Ecology of the World Food System (5) I&S/NW *K. LITFIN*

Investigates the intersection of globalization and food politics, the pivotal role of petroleum in the world food system, and the commodity chains for some foods. Includes an optional service learning component. Offered: jointly with ENVIR 385.

[View course details in MyPlan: POL S 385](#)

POL S 395 Study Abroad: Political Science (1-10, max. 15) I&S

Political science courses taken through a UW approved study abroad program. Specific content varies and must be individually evaluated.

[View course details in MyPlan: POL S 395](#)

POL S 398 Honors Seminar (5, max. 15) I&S

Intensive and advanced studies in various aspects of political science. Open only to participants in the departmental Honors program. Offered: AWSp.

[View course details in MyPlan: POL S 398](#)

POL S 401 Advanced Seminar in Political Theory (5, max. 10) I&S

Topics can include, but are not limited to, analytical theory pertaining to justice, exploitation, and freedom; revolution and social changes; collective choice and action; sexuality and politics; critical theory; Marxist theory; post-structuralism. Content varies.

[View course details in MyPlan: POL S 401](#)

POL S 402 Advanced Seminar in Human Rights (5, max. 10) I&S J. MAYERFELD

Examines selected human rights topics including questions relating to the meaning, justification, promotion, implementation, suppression, or denial of human rights.

[View course details in MyPlan: POL S 402](#)

POL S 403 Advanced Seminar in International Relations (5, max. 10) I&S

Examination of contemporary developments in the field of international relations. Content varies according to the nature of developments and research interests of the instructor.

[View course details in MyPlan: POL S 403](#)

POL S 404 Topics in Public Policy (3-5, max. 6) I&S

Examines selected issues of importance in all areas of public policy. Focus on in-depth analysis of vital public policy issues and the integration of economic, political, and administrative perspectives on them. Offered: jointly with PUBPOL 499.

[View course details in MyPlan: POL S 404](#)

POL S 405 Advanced Seminar in American Politics (5, max. 10) I&S

Intensive reading and research in selected problems or fields of political analysis.

[View course details in MyPlan: POL S 405](#)

POL S 406 Marxian Political Economy (5) I&S

Explores the relationship between social classes, the state, and political power in advanced capitalist societies. Investigates this relationship primarily by means of the tools of Marxian political economy and, in the process, evaluates these tools. Emphasis on theoretical perspectives, although the reading list has a few empirical applications as well.

[View course details in MyPlan: POL S 406](#)

POL S 407 International Conflict (5) I&S E. KIER, J. MERCER

Examines different theoretical explanations for the causes of war, including the role of international, state, organizational, and individual factors; additional topics vary with instructor. May include the development of warfare, deterring weapons of mass destruction, terrorism, intelligence, and the ethics of warfare.

[View course details in MyPlan: POL S 407](#)

POL S 409 Undergraduate Seminar in Political Economy (5, max. 10) I&S

Seminar in political economy with focus on Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Offered: jointly with ECON 409.

[View course details in MyPlan: POL S 409](#)

POL S 410 Technology, Politics, and the State (5) I&S

Relationships between politics and technological change. Considers whether the relations between political and economic systems of industrial societies have been fundamentally altered by the increased importance and interdependence of government, experts, and new technological possibilities for intervention in social life.

[View course details in MyPlan: POL S 410](#)

POL S 411 Theories of the State (5) I&S

Topics may include origins and development of the state; arguments about the necessity, desirability, and proper role of the state; the nature and operation of modern states and the international state system; the legitimacy of modern state power.

[View course details in MyPlan: POL S 411](#)

POL S 412 Democratic Theory (5) I&S

Explores the concept of democracy and theoretical models purporting to describe its central features: majority rule, participation, and deliberation. Themes also include: representative vs. direct democracy; the rights of minorities; the relationship between democracy and other political theories such as liberalism, socialism, and

conservatism.

[View course details in MyPlan: POL S 412](#)

POL S 413 Contemporary Political Theory (5, max. 10) I&S

Analysis of political theorists, exploring contemporary theories of humanity and society that form the basis for differing political ideas.

[View course details in MyPlan: POL S 413](#)

POL S 414 Politics and Culture (5) I&S

How people interpret and shape the political world around them through the use of such cultural resources as language, symbolism, myth, and ritual. The various uses of these cultural elements establish the place of the individual in society, influence the perception of political events, and create opportunities for individual and mass political responses.

[View course details in MyPlan: POL S 414](#)

POL S 415 Women's Rights in an Integrated Europe (5) I&S

Examines the transformation in women's rights policy within the European community from the late 1950s through the present. Focuses on the legal rules and bodies that govern not only these policy domains, but also their evolution and impacts. Offered: jointly with LSJ 428.

[View course details in MyPlan: POL S 415](#)

POL S 416 Economic Theory as Applied to the Political System (5) I&S

Explanation and evaluation of the political system, using elementary economics theory. Topics include alternative voting rules, the political effectiveness of various types of groups, causes and consequences of logrolling, and bureaucratic organizations. Prerequisite: ECON 300. Offered: jointly with ECON 452.

[View course details in MyPlan: POL S 416](#)

POL S 417 Political Economy of India (5) I&S

Analysis of relationships among processes of economic change, political institutions, and structures of political power in contemporary India. Includes contrasting approaches to Indian economic development, land reform, radical and agrarian political movements, and role of foreign aid. Offered: jointly with JSIS A 417.

[View course details in MyPlan: POL S 417](#)

POL S 418 Japanese Trade Politics (5) I&S *R. Pekkanen*

Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Offered: jointly with JSIS A 487.

[View course details in MyPlan: POL S 418](#)

POL S 419 United States-China Relations (5) I&S *Bachman*

Surveys the history of United States-China relations and examines the evolution of bilateral relations, particularly since 1949. Focus on the period since 1972 and the major issues as they have evolved since that time, including trade, human rights, security, and Taiwan. Offered: jointly with JSIS A 459.

[View course details in MyPlan: POL S 419](#)

POL S 420 Soviet and Russian Foreign Policy (5) I&S

Ideological, historical, and strategic components of Soviet foreign policy; Gorbachev's "new thinking" and the collapse of the USSR; redefining post-Soviet "Russia"; Russian military and security policy; Russia and the West; Russian relations with the newly independent states.

[View course details in MyPlan: POL S 420](#)

POL S 421 Relations Among Communist and Post-Communist States (5) I&S

Major disputes and types of relationships among different communist states; international effects of the communist collapse; comparative dynamics of state-building, market reform, and democratic transition;

international integration and domestic politics in the former Soviet bloc; ethnic conflict and the problem⁸⁵⁸ of state boundaries; redefining security in the post-communist milieu.

[View course details in MyPlan: POL S 421](#)

POL S 422 International Environmental Politics Seminar (5) I&S

Study of the practical and theoretical challenges associated with global ecological interdependence. Examination of international treaties and institutions, state, and nonstate actors with an emphasis on the emerging concept of sustainability.

[View course details in MyPlan: POL S 422](#)

POL S 424 International Relations of Japan (5) I&S *S. Pekkanen*

Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Offered: jointly with JSIS A 437.

[View course details in MyPlan: POL S 424](#)

POL S 425 Political Psychology and War (5) I&S *J. MERCER*

Explores how political scientists use psychology to address questions of war and peace.

[View course details in MyPlan: POL S 425](#)

POL S 426 World Politics (5) I&S

The nation-state system and its alternatives, world distributions of preferences and power, structure of international authority, historical world societies and their politics. Offered: jointly with JSIS B 426.

[View course details in MyPlan: POL S 426](#)

POL S 427 International Political Economy (5) I&S

Examines major theoretical problems, substantive issues, and schools of thought in international political economy (IPE), including issues of trade, production, and finance. Preparation for critical analysis of dilemmas entailed in establishing and maintaining an instrumentally effective and ethically acceptable IPE system.

[View course details in MyPlan: POL S 427](#)

POL S 428 Military Intervention (5) I&S

Historical and theoretical analysis of military intervention in the post-World War II era. Considers how and why interventions occur and evaluates intervention as a foreign-policy response.

[View course details in MyPlan: POL S 428](#)

POL S 429 Political Parties in Japan and East Asia (5) I&S *R. Pekkanen*

Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Offered: jointly with JSIS A 436.

[View course details in MyPlan: POL S 429](#)

POL S 430 Civil-Military Relations in Democracies (5) I&S *E. KIER*

Explores issues of civil-military relations in the United States including debates about the garrison state hypothesis; military advice on the use of force; the civil-military "gap"; and issues of race, gender, and sexual orientation in the military.

[View course details in MyPlan: POL S 430](#)

POL S 431 International Relations in the Middle East (5) I&S

Study of domestic sources of foreign policy in the Middle East; politics of oil; the East-West rivalry in the arena; and conflict and collaboration among the local powers.

[View course details in MyPlan: POL S 431](#)

POL S 432 Political Islam and Islamic Fundamentalism (5) I&S *Robinson*

Study of resurgence, since mid-1970s, of political Islam and what has come to be called Islamic

fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with JSIS B 406.

[View course details in MyPlan: POL S 432](#)

POL S 433 International Relations in Southeast Asia (5) I&S

Analysis of the problems affecting relations among the countries of Southeast Asia.

[View course details in MyPlan: POL S 433](#)

POL S 434 International Relations of South Asia (5) I&S

Interrelationships of domestic, interstate, and extraregional forces and their effects upon the resolution or expansion of interstate conflicts in South Asia. Offered: jointly with JSIS A 434.

[View course details in MyPlan: POL S 434](#)

POL S 435 Japanese Government and Politics (5) I&S

Government and politics of Japan with emphasis on the period since 1945. Offered: jointly with JSIS A 435.

[View course details in MyPlan: POL S 435](#)

POL S 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S

Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Offered: jointly with JSIS B 436.

[View course details in MyPlan: POL S 436](#)

POL S 437 Politics in Scandinavia (5) I&S C. INGEBRITSEN

Twentieth-century politics in Scandinavia. How Scandinavian countries have been governed. Costs and consequences of their governmental style and its uncertain future. Optimal size of polities, problems of mature welfare states, process of leadership and representation in multiparty systems, decline of political parties. Offered: jointly with SCAND 437.

[View course details in MyPlan: POL S 437](#)

POL S 438 Politics in France (5) I&S

Study of contemporary France. Structures of government in the Fifth Republic; nature of French voting behavior and evolution of the bipolarized political party system; behavior of political interest groups; training of France's administrative elite and functioning of the state bureaucracy; dynamics of policy-making.

[View course details in MyPlan: POL S 438](#)

POL S 439 Politics of Divided Korea (5) I&S

Governments, politics, and economy of South and North Korea, the inter-Korea relations, and the two Koreas' relationship with the major powers - especially the United States - with emphasis on the post-cold war period. Offered: jointly with JSIS A 439.

[View course details in MyPlan: POL S 439](#)

POL S 440 European Fascism (5) I&S

Analysis of fascism as revolutionary movement and type of political system in post-World War I Europe: Hitler's Third Reich, Mussolini's Italy, and Vichy France. Consideration of dynamics of resistance, policies that produced Holocaust, and questions raised at trials of fascist leaders in Nuremberg and elsewhere.

[View course details in MyPlan: POL S 440](#)

POL S 441 Government and Politics of Russia (5) I&S

Ideological and historical bases of Soviet politics; Leninism; Stalinism; Gorbachev's perestroika and the collapse of the USSR; the role of Yeltsin; problems of Russian state-building, market reform, and democratic transition; political parties and civil society; the relationship between the center and the regions; the problem of Russian

national identity.

[View course details in MyPlan: POL S 441](#)

POL S 442 Government and Politics of China (5) I&S *S. WHITING*

Post-1949 government and politics, with emphasis on problems of political change in modern China. Offered: jointly with JSIS A 408.

[View course details in MyPlan: POL S 442](#)

POL S 443 Comparative Political Societies (5) I&S

Analyses of modern and premodern types of stable political society; special attention to contemporary representative democracy.

[View course details in MyPlan: POL S 443](#)

POL S 444 Revolutionary Regimes (5) I&S

Analysis of the several types of political regimes concerned with effecting fundamental social change; emphasis on the twentieth century.

[View course details in MyPlan: POL S 444](#)

POL S 445 Politics and Society in Eastern Europe (5) I&S

Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all communist states of Eastern Europe and their successors. Offered: jointly with JSIS A 490.

[View course details in MyPlan: POL S 445](#)

POL S 447 Advanced Seminar in Comparative Politics (5, max. 10) I&S

Selected comparative political problems, political institutions, processes, and issues in comparative perspective. Strongly

[View course details in MyPlan: POL S 447](#)

POL S 448 Politics of the European Union (5) I&S

Examines the origins, structures, and political dynamics of the European Union. Attention given to theories of integration, to relations between the European Union and member states, and to the role of the European Union in world politics.

[View course details in MyPlan: POL S 448](#)

POL S 449 Politics of Developing Areas (5) I&S

Comparative study of problems of national integration and political development in the new states of Asia and Africa.

[View course details in MyPlan: POL S 449](#)

POL S 451 Communication Technology and Politics (5) I&S

Employs some core concepts of political communication and theories of democracy to examine the emerging role of information and communication technologies in candidate and issue campaigning; online voting; protest and advocacy movements; law-making and electronic governance in the United States and internationally. Offered: jointly with COM 407.

[View course details in MyPlan: POL S 451](#)

POL S 452 Mass Media and Public Opinion (5) I&S

Examines the foundations of the idea of public opinion in a democratic environment and the role of mass communication in the organization, implementation, and control of that opinion. Considers these relationships from the perspectives of societal elites, media, and citizens. Offered: jointly with COM 414.

[View course details in MyPlan: POL S 452](#)

POL S 453 The State Legislature (5) I&S

Study of American state legislatures, with special reference to Washington State legislature. Student must spend

several Fridays in Olympia when the legislature is in session. Those desiring a more extensive involvement with the legislature should enroll in the political internship.

[View course details in MyPlan: POL S 453](#)

POL S 454 Political Communication Seminar (5, max. 10) I&S

Contemporary topics studying how communication affects citizen engagement with public life. Offered: jointly with COM 411.

[View course details in MyPlan: POL S 454](#)

POL S 455 Political Deliberation (5) I&S

Exploration of philosophical and empirical writings on political deliberation in small groups, campaigns, and other public settings. Contemporary deliberative theory. Participation in face-to-face discussions on current issues. Offered: jointly with COM 417.

[View course details in MyPlan: POL S 455](#)

POL S 456 Institutional Failure (5) I&S *R. THORPE*

Examines why political institutions fail to achieve their goals or operate in a manner they were originally intended to, and the consequences of these failures. Topics include the national security establishment, the drug war, concentrated poverty, mass incarceration, and inner-city schools. Offered: jointly with LSJ 456.

[View course details in MyPlan: POL S 456](#)

POL S 457 Topics in Labor Research (5, max. 10) I&S

Analysis of the post-World War II decline of national labor movements and strategies employed to reverse this trend. Requires a major research project on organizing, bargaining, or another question in labor studies.

Prerequisite: either POL S 249, HIST 249, or SOC 266. Offered: jointly with HSTCMP 457.

[View course details in MyPlan: POL S 457](#)

POL S 460 Political Economy of the European Union (5) I&S *J. CAPORASO*

Historical foundation of the European Economic Community; major phases of its development; theoretical explanations for European integration.

[View course details in MyPlan: POL S 460](#)

POL S 461 Mass Media Law (5) I&S

Survey of laws and regulations that affect the print and broadcast media. Includes material on First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation, and matters relating to press coverage of the judicial system. Offered: jointly with COM 440.

[View course details in MyPlan: POL S 461](#)

POL S 462 The Supreme Court in American Politics (5) I&S

Explores the US Supreme Court as a political institution. Topics include processes that bring issues before the court, influences on judicial decision making, the impact of the court on democratic processes, the role of the court in constitutional development, and the court's interactions with other branches. Prerequisite: either POL S 360 or POL S 361.

[View course details in MyPlan: POL S 462](#)

POL S 464 The Politics of American Criminal Justice (5) I&S

Political forces and value choices associated with the enforcement of criminal law. Distribution of resources among participants in the criminal justice system (e.g., police, attorneys, defendants, and judges). Understanding and evaluation of the interaction of criminal justice processes with the political system.

[View course details in MyPlan: POL S 464](#)

POL S 465 Law and Public Policy in the United States (5) I&S

Relationship between law and public policy, with particular attention to problems of social, economic, and political change. Considers legal and constitutional processes as they relate to such problems of public policy as

race relations, the environment, and the economy.

[View course details in MyPlan: POL S 465](#)

POL S 467 Comparative Law in Society (5) I&S

Legal systems around the world as they actually work in their respective political, social, and economic contexts. Emergence and development of European legal systems, legal customs at variance with those of Europe, problems of legal processes in the modern state.

[View course details in MyPlan: POL S 467](#)

POL S 468 Comparative Media Systems (5) I&S

Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with COM 420/JSIS B 419.

[View course details in MyPlan: POL S 468](#)

POL S 469 Law and Rights in Authoritarian Regimes (5) I&S *S. WHITING*

Explores role of law and courts and nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with JSIS B 469/LSJ 469.

[View course details in MyPlan: POL S 469](#)

POL S 470 Public Bureaucracies in the American Political Order (5) I&S

Growth, power, and roles of governmental bureaucracies in America: conflict and conformity with American political thought, other political institutions, and the public.

[View course details in MyPlan: POL S 470](#)

POL S 471 Politics of Risk (5) I&S *May*

Examines risks that occur infrequently but have catastrophic impacts, including health and environmental harms, terrorism, and natural disasters. Considers social science theorizing about risks, how risks enter the policy agenda, and political and policy responses to different risks within the United States.

[View course details in MyPlan: POL S 471](#)

POL S 472 Electoral Systems (5) I&S *R. Pekkanen*

Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and policy. Covers effects and mechanics of the various voting systems. Offered: jointly with JSIS B 472.

[View course details in MyPlan: POL S 472](#)

POL S 473 Decision-Making in Politics (5) I&S

Process of decision-making in politics at elite and mass levels, comparison of approaches based on the comprehensive rationality of decision makers with approaches based on limitations on the cognitive capacities of decision makers. Applications to real decision-making situations.

[View course details in MyPlan: POL S 473](#)

POL S 474 Government and the Economy (5) I&S

Interaction between politics and the economy. Impact of policy makers on economic performance. Models of partisan and political business cycles. Concepts of economic voting. Marxist theories of modern capitalist economics.

[View course details in MyPlan: POL S 474](#)

POL S 475 Public Choice (5) I&S *A. GILL*

Problems and prospects for collective action in a political democracy. Designing rules and institutions for effective central authority and effective constraints on governmental power. Social choice theory and game theory.

[View course details in MyPlan: POL S 475](#)

POL S 476 Strategy in Politics (5) I&S

Explores the problem of finding fair methods for making social decisions, and examines alternative methods of social choice. Emphasis on the importance of agenda control for outcomes, and the implications of theories of social choice for common interpretations of concepts such as democracy and the general will.

[View course details in MyPlan: POL S 476](#)

POL S 477 African Political Development (5) I&S

Topics in contemporary African politics related to development of the African state in comparative perspective, including state formation; nationalism and the struggle for independence; civil wars, genocide, and underdevelopment; democratic transition, elections, and voting; economic growth; film and literature; gender and ethnicity; and corruption and terrorism. Prerequisite: POL S 204.

[View course details in MyPlan: POL S 477](#)

POL S 479 Contemporary Central Asian Politics (5) I&S Radnitz

Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with JSIS A 479.

[View course details in MyPlan: POL S 479](#)

POL S 480 Comparative Politics and Korea Studies (5) I&S Ha

Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with JSIS A 466.

[View course details in MyPlan: POL S 480](#)

POL S 481 Big City Politics (5) I&S

Contemporary big city politics, focusing on Seattle and the largest 25 cities. Social, economic, and political trends that have shaped characteristics of large American cities. Distribution and use of economic and political power among parties and groups. Future of large cities and politics of change.

[View course details in MyPlan: POL S 481](#)

POL S 488 Honors Senior Thesis (5-) I&S

Political Science Honors students individually arrange for independent study of selected topics under the direction of a faculty member. Research paper is student's honors thesis.

[View course details in MyPlan: POL S 488](#)

POL S 489 Honors Senior Thesis (-[2-5]) I&S

Political Science Honors students individually arrange for independent study of selected topics under the direction of a faculty member. Research paper is student's honors thesis.

[View course details in MyPlan: POL S 489](#)

POL S 495 Study Abroad: Political Science (1-10, max. 20) I&S

Political science courses taken through a UW approved study abroad program for which there are no direct UW equivalents. Specific content varies and must be individually evaluated.

[View course details in MyPlan: POL S 495](#)

POL S 496 Undergraduate Internship (2-5, max. 15)

Students serving in approved internships. Credit/no-credit only.

[View course details in MyPlan: POL S 496](#)

POL S 497 Political Internship in State Government (5, max. 20)

Students serving in approved internship program with state government agencies.

[View course details in MyPlan: POL S 497](#)

POL S 498 The Washington Center Internship (15)

Full-time academic internship with the Washington Center in Washington, DC. Includes internship activities, academic seminar, assemblies, and related activities. Credit/no-credit only.

[View course details in MyPlan: POL S 498](#)

POL S 499 Undergraduate Readings and Research (1-5, max. 20)

Intensive study with faculty supervision.

[View course details in MyPlan: POL S 499](#)

POL S 500 Political Research Design and Analysis (5)

Major quantitative methods of empirical research in political science. Primary emphasis on research design, data collection, data analysis, and use of computers.

[View course details in MyPlan: POL S 500](#)

POL S 501 Advanced Political Research Design and Analysis (5)

Testing theories with empirical evidence. Examines current topics in research methods and statistical analysis in political science. Content varies according to recent developments in the field and with interests of instructor.

Offered: jointly with CS&SS 501.

[View course details in MyPlan: POL S 501](#)

POL S 502 Qualitative Research Methods (5)

Introduction to qualitative methods in political science, emphasizing practical experience with techniques.

Readings and exercises cover research design, multiple methods, varieties of qualitative data, measurement and validation, participant observation, interviewing, and content analysis. Research decision-making issues include analytical strategies, presentation of data, ethics, epistemology, and theory-building.

[View course details in MyPlan: POL S 502](#)

POL S 503 Advanced Quantitative Political Methodology (5)

Theory and practice of likelihood inference. Includes probability modeling, maximum likelihood estimation, models for binary responses, count models, sample selection, and basis time series analysis. Offered: jointly with CS&SS 503.

[View course details in MyPlan: POL S 503](#)

POL S 504 Multi-Method Field Research (5) *J. LONG IV*

Provides training in how to design and implement multi-method field research in American, comparative, and international politics, covering qualitative/ethnographic approaches; survey design, implementation, and analysis; and the design and implementation of field experiments and randomized impact evaluation.

[View course details in MyPlan: POL S 504](#)

POL S 505 Comparative Politics Core (5)

Modern theories, approaches, and methods in the study of comparative politics.

[View course details in MyPlan: POL S 505](#)

POL S 509 Political Theory Core (5, max. 10)

Central themes in political theory and the works of major political theorists, past and present.

[View course details in MyPlan: POL S 509](#)

POL S 510 Maximum Likelihood Methods for the Social Sciences (5) *C. ADOLPH*

Introduces maximum likelihood, a more general method for modeling social phenomena than linear regression.

Topics include discrete, time series, and spatial data, model interpretation, and fitting. Prerequisite: POL S 501/CS&SS 501; POL S 503/CS&SS 503. Offered: jointly with CS&SS 510.

[View course details in MyPlan: POL S 510](#)

POL S 511 Seminar in Ethical and Political Theory (5)

Ethical writings of major political philosophers. Coherent themes arising from these works and assessment of

their impact on concepts of politics.

[View course details in MyPlan: POL S 511](#)

POL S 513 Issues in Feminist Theory (5, max. 10)

Contemporary issues in feminist theory as they affect studies of women, politics, and society. Content varies according to recent developments in the field and the research interests of the instructor.

[View course details in MyPlan: POL S 513](#)

POL S 514 Selected Topics in Political Theory (5, max. 15)

Selected topics, historical and conceptual, national, regional, and universal. Prerequisite: permission of instructor.

[View course details in MyPlan: POL S 514](#)

POL S 515 Political Theory Research Seminar (5)

Survey of paradigmatic research approaches in political theory through the exploration of a theme (canonical text, theoretical concept, and specific topic). Methods covered may include rational choice, psychoanalytic, Straussian, Marxian, and feminist approaches. Students carry out substantive theoretical research.

[View course details in MyPlan: POL S 515](#)

POL S 516 Special Topics in American Political Thought (3/5)

Special topics or themes in the development of American political culture.

[View course details in MyPlan: POL S 516](#)

POL S 517 Marxism and Critical Theory (5)

Works of Marx and Engels as well as selected works of twentieth-century Marxist and critical theorists. Themes such as Marx's method, twentieth-century interpretations of Marx, and relationship of twentieth-century theorists to their eighteenth- and nineteenth-century forebears.

[View course details in MyPlan: POL S 517](#)

POL S 519 Modern Scandinavian Politics (5)

Analyzes the political, economic, and historical development of Sweden, Norway, Denmark, Iceland, and Finland from World War II to the present. Readings focus on domestic and foreign policies that distinguish these countries from other advanced industrial societies. Offered: jointly with SCAND 519.

[View course details in MyPlan: POL S 519](#)

POL S 520 Seminar on Russian Foreign Policy (3)

Selected topics in the development and objectives of the foreign policy of the Russian Federation.

[View course details in MyPlan: POL S 520](#)

POL S 521 International Relations Core (5)

Key theories, concepts, and debates in the study of world politics and international relations. Provides an overview of the field and prepares students for the IR comprehensive exam.

[View course details in MyPlan: POL S 521](#)

POL S 522 International Political Economy (5)

Theories of international political economy. Focuses on the emergence and development of the modern world system, the transition from feudalism to capitalism, and the institution of the nation-state system. Examines the political economy of trade, investment, and the international division of labor from a variety of theoretical perspectives. Prerequisite: POL S 521.

[View course details in MyPlan: POL S 522](#)

POL S 524 International Security (5) E. KIER

Introduces some of the major debates concerning the use of force in international politics. Covers traditional issues in international security such as alliances and the causes of war, as well as some of the new and important

questions, such as explaining war outcomes and war termination.

[View course details in MyPlan: POL S 524](#)

POL S 525 International Law and Institutions (5) *K. LITFIN*

Inputs of international law into the decisional process in foreign policy. Effect of policy on law. Relevant roles of individuals and institutions in routine and crisis situations.

[View course details in MyPlan: POL S 525](#)

POL S 526 The Security of China (5) *Bachman*

Examines how the Chinese state conceptualizes its national security interests and how it pursues strategies designed to achieve those interests. Topics include use of force, military modernization, civil-military relations, and defense industrialization. Offered: jointly with JSIS A 526.

[View course details in MyPlan: POL S 526](#)

POL S 527 Special Topics in International Relations Research (5, max. 15)

Examination of current topics in the theory and practice of world politics. Content varies according to recent developments in the field and research interests of the instructor.

[View course details in MyPlan: POL S 527](#)

POL S 530 Transatlantic Relations: The United States and Europe in World Politics (3)

Fulfills required component of "American Module" of Transatlantic Studies program. Addresses political dynamics of relations between United States and Europe from American republic's founding to post-Cold War era. Limited to students in Transatlantic Studies program.

[View course details in MyPlan: POL S 530](#)

POL S 532 The Chinese Political System (5) *S. WHITING*

Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Offered: jointly with JSIS A 532.

[View course details in MyPlan: POL S 532](#)

POL S 533 Seminar on Contemporary Chinese Politics (5)

Research on selected problems in contemporary Chinese politics. Prerequisite: POL S 532, or permission of instructor. Offered: jointly with JSIS D 533.

[View course details in MyPlan: POL S 533](#)

POL S 534 International Affairs (3)

Provides a broad understanding of international issues and United States policy. Students explore U.S. foreign policy and theories of major international actors in international trade, security, and strategic concerns, refugee policy, conflict resolution, development assistance, and the environment. Offered: jointly with JSIS B 534/PUBPOL 530.

[View course details in MyPlan: POL S 534](#)

POL S 535 International Relations of Modern China (5)

Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a course on contemporary Chinese politics or history, or permission of instructor. Offered: jointly with JSIS A 535.

[View course details in MyPlan: POL S 535](#)

POL S 537 Approaches to East European Politics (3-5)

Selected concepts and methodologies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered: jointly with JSIS A 563.

[View course details in MyPlan: POL S 537](#)

POL S 538 Government and Politics in the Middle East and North Africa (5)

Political change in the area within the context of comparative politics; breakdown of traditional political systems; new range of choice expressed in competing ideologies; governmental and nongovernmental instrumentation of change; and problems of international relations and regional conflict and integration.

[View course details in MyPlan: POL S 538](#)

POL S 539 International Relations of Northeast Asia (5)

Comprehensive survey of contemporary international relations of Northeast Asia with emphasis on Russia, Japan, China, and the United States. Multidisciplinary approach placing contemporary problems in historical context, drawing on modern social science theories. Connections between defense and economics are examined. Prerequisite: permission of instructor. Instructors: Hellmann Offered: jointly with JSIS A 551.

[View course details in MyPlan: POL S 539](#)

POL S 540 Problems in South Asian Politics (3)

Research problems in contemporary Indian politics.

[View course details in MyPlan: POL S 540](#)

POL S 541 Institutions and Institutional Change in the Soviet Union, Russia, and the Newly Independent States (5)

Critical appraisal of the principal theories and research methods dealing with the development of the Soviet state from 1917-1991 and the formation of the newly independent states after the Soviet collapse.

[View course details in MyPlan: POL S 541](#)

POL S 542 Seminar: State and Society (5) *Migdal*

Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with JSIS B 542.

[View course details in MyPlan: POL S 542](#)

POL S 543 Latin American Politics (5)

Theories of authoritarianism, corporatism, democratization, and revolution in Latin America. Explores role of international and domestic economic factors shaping politics and the effect of politics on economic development. Examines elite behavior and grassroots social movements.

[View course details in MyPlan: POL S 543](#)

POL S 544 Problems in Comparative Government (5, max. 15)

Selected problems in the comparative analysis of political institutions, organizations, and systems.

[View course details in MyPlan: POL S 544](#)

POL S 547 Politics of Reform (5)

Examines cases of reform in democratic political systems, e.g., Roosevelt's New Deal, Allende's Chilean "revolution," Mitterand's socialist experiment in France, and the Thatcher government in Britain.

[View course details in MyPlan: POL S 547](#)

POL S 548 Comparative Political Parties (5)

Role of political parties in the modern state. Similarities and differences in origins and development of political parties and functions they perform, both in established democracies and in developing countries.

[View course details in MyPlan: POL S 548](#)

POL S 549 Problems of Political Development (5)

Concepts of development and modernization, with particular attention to their political dimensions and their application to various historical and contemporary cases.

[View course details in MyPlan: POL S 549](#)

POL S 550 American Politics Core (5)

Systematic survey of the American government and politics literature; focuses on national politics.

[View course details in MyPlan: POL S 550](#)

POL S 551 Political Communication (5)

Surveys classic works and new directions in political communication, including functionalist, structuralist, constructivist, network, and comparative approaches, reflecting a range of methods. Examines political organizing, electoral and legislative processes, civic (dis)engagement, media and politics, public deliberation and opinion formation, political identity and discourse. Offered: jointly with COM 551.

[View course details in MyPlan: POL S 551](#)

POL S 552 Special Topics in Political Communication (5, max. 10)

Examination of current topics in the theory and practice of political communication.

[View course details in MyPlan: POL S 552](#)

POL S 553 Public Opinion (5) C. PARKER

Selected problems in opinion formation, characteristics, and role of public opinion in policy-making process.

[View course details in MyPlan: POL S 553](#)

POL S 554 Legislative Politics (5)

Selected problems in legislative processes and leadership, state and national.

[View course details in MyPlan: POL S 554](#)

POL S 555 American Politics Topics (5, max. 10)

Examination of current topics in the theory and practice of American politics. Content varies according to recent developments in the field and research interests of the instructor.

[View course details in MyPlan: POL S 555](#)

POL S 556 American Political Development (5)

Examination of leading works in, and theories of, American political development. Topics include the development approach itself; critical junctures in U.S. political history; key changes in institutions, the American state, the representation of interests and party politics; and the relevance of development studies to current politics.

[View course details in MyPlan: POL S 556](#)

POL S 557 United States Party System (5)

Examines the institutional and behavioral foundations of party politics in the United States, emphasizing key historical patterns of party system development and the major scholarly approaches to the study of the American parties and party politics.

[View course details in MyPlan: POL S 557](#)

POL S 558 Political Deliberation (5) Gastil

Exploration of deliberative theories of democracy and research on political discussion in campaigns, face-to-face meetings, on-line forums, and informal conversations. Presents different uses and understandings of deliberation and its role in democratic governance. Offered: jointly with COM 555.

[View course details in MyPlan: POL S 558](#)

POL S 559 Special Topics in Political Methodology (5, max. 10)

Examination of current topics on the theory and practice of political methodology. Course content varies according to recent developments in the field and the research interests of the instructor.

[View course details in MyPlan: POL S 559](#)

POL S 560 Industrialization and International Relations (5) Ha

Examines internal-external linkage with a focus on industrialization and international relations. Comparative perspective on the question of how industrialization shapes distinctive international perspectives in terms of

perception, strategies, and foreign policy behaviors. Countries covered: South Korea, Japan, Prussia, the Soviet Union, and China. Offered: jointly with JSIS A 552.

[View course details in MyPlan: POL S 560](#)

POL S 561 Law and Politics (5) *McCann, Lovell.*

Points and levels at which law and politics intersect. What is distinctive about legal forms; how these legal forms influence, and are influenced by, politics. Conceptions of law, courts and public policy, law and bureaucracy, civil and criminal justice, and the legal profession.

[View course details in MyPlan: POL S 561](#)

POL S 562 Law, Politics, and Social Control (5)

Explores works of social scientists and lawyers regarding these competing conceptions of social control: as the seamy side of law - reinforcing equitable patterns of domination and disciplining deviants; as law embodying society's basic values, articulating minimum rules for harmonious social interaction.

[View course details in MyPlan: POL S 562](#)

POL S 563 Supreme Court in American Politics (5)

Explores the tendency in the United States to turn to the Supreme Court to provide constitutional solutions for some of our biggest social, economic, and political problems. Focuses on the controversies concerning the legitimacy and capacity of the Supreme Court to intervene in American politics and public policy.

[View course details in MyPlan: POL S 563](#)

POL S 564 Law and the Politics of Social Change (5)

Explores the many ways that law figures into the politics of social struggle and reform activity. Analyzes law in terms of particular state institutions (courts, agencies), professional elites (lawyers, judges), and especially cultural norms ("rights" discourses) that are routinely mobilized by reform-movement activists.

[View course details in MyPlan: POL S 564](#)

POL S 565 Special Topics in Public Law (5, max. 10)

Examination of current topics on the theory and practice of public law. Content varies according to recent developments in the field and the research interests of the instructor.

[View course details in MyPlan: POL S 565](#)

POL S 566 Comparative Law and Politics (5) *R. CICHOWSKI*

Study of the interaction between law and politics, at both the macro and micro levels of politics, and discussion of research drawing from a wide array of geographical settings. Examination in comparative context of whether macro-structures are autonomous from underlying social structures of power and interest in the micro-level.

[View course details in MyPlan: POL S 566](#)

POL S 567 Discourse and the Politics of Resistance (5)

Examines how disciplines theorize and empirically study discourse in the politics of resistance. Examines the discursive turn in U.S. and European "new" social movement theory. Ranges across disciplines, such as political sociology, cultural anthropology and human geography, to discover ways in which discourse is conceptualized and studied for its role in seeding social change. Offered: jointly with COM 554.

[View course details in MyPlan: POL S 567](#)

POL S 569 Law and Rights in Authoritative Regimes (5)

Explores role of law and courts and the nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with JSIS B 569.

[View course details in MyPlan: POL S 569](#)

POL S 570 The American Racial State (5)

Explores the mutually constitutive relationship between race and American political institutions, beginning with theories of race and racial constructions, race-making and nation-making, racial triangulation, and

intersectionality. Examines various institutions and public policies as manifestations of the American racial state, focusing on the epistemological challenges of identifying race, racism, and racialization.

[View course details in MyPlan: POL S 570](#)

POL S 571 American National Institutions (5)

Answers the question, "Do institutions matter?" Surveys American national institutions from theoretical perspectives, focusing on how they affect the manner in which decisions are made. Employs cross-institutional perspective of American institutions.

[View course details in MyPlan: POL S 571](#)

POL S 572 Electoral Systems (5) *R. Pekkanen*

Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and policy. Covers effects and mechanics of the various voting systems. Offered: jointly with JSIS B 572.

[View course details in MyPlan: POL S 572](#)

POL S 573 Topics in Public Policy (5, max. 10)

Specialized research topics with a policy process or related theoretical content.

[View course details in MyPlan: POL S 573](#)

POL S 574 Environmental Regulation Policy (5)

Scholarly and practical aspects of environmental regulation. Examines literature concerning regulatory policy design, policy instruments, federalism, compliance, and enforcement. Studies selected federal, state, and other nations' environmental policies. Participants are expected to have a good understanding of American policy processes.

[View course details in MyPlan: POL S 574](#)

POL S 575 Public Policy Processes (5)

Covers political science research about policy processes. Research seminar addressing frameworks and perspectives on policy processes as they concern issue emergence, agenda dynamics, policy subsystems, policy learning, and implementation.

[View course details in MyPlan: POL S 575](#)

POL S 576 Political Culture (5)

Values, beliefs, and rituals that guide political action in society. Some approaches emphasize symbolic sphere of value and belief over material conditions of power and economic production. Other approaches emphasize material relations. Reconciliation of symbolic and materialist approaches that explain intervention of the modern state in cultural processes.

[View course details in MyPlan: POL S 576](#)

POL S 577 The Politics of Social Movements (5)

Theoretical inquiry directed to questions of collective action and political tactics by social movement groups. Case studies include labor, civil rights, women's, environmental, and other movements in twentieth-century United States.

[View course details in MyPlan: POL S 577](#)

POL S 578 Health Politics and Policy (5)

Introduces central themes of health-policy research: health is not healthcare and politics has much to do with why our healthcare system works as it does. Investigates how social science helps us understand health issues.

[View course details in MyPlan: POL S 578](#)

POL S 579 Contemporary Central Asian Politics (5) *Radnitz*

Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with

JSIS A 579.

[View course details in MyPlan: POL S 579](#)

POL S 580 Comparative Politics and Korea Studies (5) *Ha*

Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with JSIS A 566.

[View course details in MyPlan: POL S 580](#)

POL S 582 Institutional Analysis (3/5)

Social change and property rights theory. Exploration of long-term secular change through works whose approaches derive from neoclassical economics and analytical Marxism. Evolution and transformation of property rights over land, labor, and capital and the consequences of the property rights structure for political and economic institutions.

[View course details in MyPlan: POL S 582](#)

POL S 583 Economic Theories of Politics (5)

Problems of public goods provision and collective action. Collective action theories and applications as well as critical review of the concept of rationality.

[View course details in MyPlan: POL S 583](#)

POL S 584 Comparative Political Economy (5)

Overview of current developments in comparative political economy. Topics may include globalization, the welfare state, partisan models of economic policymaking, economic development, and trade.

[View course details in MyPlan: POL S 584](#)

POL S 586 Topics in International Political Economy (5, max. 10)

Examination of current topics in the theory and practice of international political economy. Content varies according to recent developments in the field and research interests of the instructor.

[View course details in MyPlan: POL S 586](#)

POL S 587 Politics of Urban Reform (5)

Interpretations of urban reformers at turn of this century and during 1960s and 1970s. Historical and political science literature on the subject. Prerequisite: permission of instructor.

[View course details in MyPlan: POL S 587](#)

POL S 588 Special Topics in Comparative Political Economy (5, max. 10)

Examination of current topics in the theory and practice of comparative political economy. Content varies according to recent developments in the field and research interests of the instructor.

[View course details in MyPlan: POL S 588](#)

POL S 589 Special Topics in Political Economy (3-5, max. 10)

Evaluating research in political economy as well as developing research problems. Topics vary with instructor and with current problems in the literature.

[View course details in MyPlan: POL S 589](#)

POL S 590 Seminar in Political Behavior (5, max. 10)

Analysis of behavioral research in selected fields of political science.

[View course details in MyPlan: POL S 590](#)

POL S 593 Theories of Decision Making (5)

Explanation of political decisions using models of such theoretical processes as preference formation, learning, heuristics, noncooperative games, collective action, agenda manipulation, and coalition formation. Examination of competing notions of political rationality and irrationality and criteria for their evaluation. Strategies for

design of decision research.

[View course details in MyPlan: POL S 593](#)

POL S 594 Political Communication Research Practicum: Community, Communication, and Civic Engagement (5)

Overview of the research process, including literature review, hypothesis generation, data gathering, empirical analysis, and writing for publication. Topics vary with instructor, but generally address questions of how communication affects democracy and citizen engagement in national or international contexts. Offered: jointly with COM 556.

[View course details in MyPlan: POL S 594](#)

POL S 595 College Teaching of Political Science (1)

[View course details in MyPlan: POL S 595](#)

POL S 597 Directed Readings (1-10, max. 10)

Intensive reading in the literatures of political science, directed by the chair of the doctoral Supervisory Committee. Credit/no-credit only.

[View course details in MyPlan: POL S 597](#)

POL S 598 Independent Writing I (1-5, max. 5)

Supervised research and writing for graduate students completing the MA essay of distinction.

[View course details in MyPlan: POL S 598](#)

POL S 600 Independent Study or Research (*-)

[View course details in MyPlan: POL S 600](#)

Psychology

[Display as tabs](#)

Department Overview

119 Guthrie

Psychology involves the scientific study of behavior and its causes and the understanding of human and animal behavior in a variety of settings. Psychology is studied both as a natural science, which stresses physical and biological causes of behavior, and as a social science, which stresses the effects of the social setting on human and animal behavior. Major areas of emphasis are human cognition and perception, animal behavior, behavioral neuroscience, developmental, social and personality, and clinical psychology.

Undergraduate Program

Adviser

119 Guthrie, Box 351525

(206) 543-2698

psyadvis@uw.edu

The Department of Psychology offers the following programs of study:

- The Bachelor of Science degree with a major in psychology
- The Bachelor of Arts degree with a major in psychology

The Bachelor of Science program prepares students for doctoral programs in psychology, leading to careers in teaching, research, or clinical psychology. The program emphasizes laboratory/research experience and statistics.

The Bachelor of Arts program provides a general background in psychology for students preparing for master's-level graduate programs or professional schools, seeking employment at the baccalaureate level, or wanting to apply the principles of psychology in other disciplines.

The department does not have formal programs in educational, school, or counseling psychology; engineering psychology; or industrial psychology.

Bachelor of Science

Suggested First-Year College Courses: MATH 120 and MATH 124. PSYCH 101. Any sociology or anthropology course. Students are encouraged to begin completion of general education requirements.

Suggested Second-Year College Courses: PSYCH 202 and PSYCH 209 should be completed as soon as possible during this year; BIOL 118, BIOL 161-BIOL 162, BIOL 180, BIOL 200, or BIOL 220. Students intending to take animal behavior courses in the Psychology Department should plan to fulfill the biology requirement with either BIOL 161-BIOL 162, BIOL 180, or BIOL 200. Continue working toward completion of general education requirements, including foreign language. The foreign language requirement should, ideally, be completed within the first two years of college.

Department Admission Requirements

Students apply to the Department of Psychology under the same admission requirements, regardless of the degree they wish to pursue.

1. Minimum 2.00 cumulative UW GPA
2. Completion of one of the following math courses with a minimum 2.0 grade: MATH 111, MATH 112, MATH 120, or MATH 124. (Students may fulfill this requirement with test scores that place them in MATH 112 or MATH 124 or higher.)
3. Completion of the following psychology courses with a minimum 2.0 grade in each course and a cumulative 2.50 GPA in the three courses: PSYCH 101, PSYCH 202, and PSYCH 209.
4. Admission is competitive based on the following criteria:
 - a. Preparation for a major in psychology as indicated by the grades earned in courses required for admission
 - b. GPA, with an emphasis on grades earned in psychology courses
 - c. Other evidence of a commitment to becoming a psychology major
 - d. Personal statement reflecting an interest in and commitment to becoming a psychology major
 - e. Copies of unofficial transcripts from all schools attended (UW and transfer).

Meeting the above criteria does not guarantee admission to the department.

5. The application deadline is the first Friday of autumn, winter, and spring quarters; no applications are accepted summer quarter. Applications and additional information are available in 119A Guthrie.

Major Requirements

84-86 credits as follows:

1. PSYCH 101, PSYCH 202, PSYCH 209 (with a grade of 2.5 or higher), PSYCH 317 and PSYCH 318
2. One lab course from PSYCH 330, PSYCH 331, PSYCH 332, PSYCH 361, PSYCH 417, PSYCH 418, or PSYCH 419
3. One course from PSYCH 300, PSYCH 333, or PSYCH 355
4. One course from PSYCH 303, PSYCH 305, PSYCH 306, or PSYCH 345
5. One additional course from PSYCH 300, PSYCH 303, PSYCH 305, PSYCH 306, PSYCH 333, PSYCH 345, or PSYCH 355
6. Three additional graded upper-division classes with at least one at the 400 level (cannot include PSYCH 491 through PSYCH 499)
7. PSYCH 499 (3 credits)

8. PSYCH 496, PSYCH 497, or PSYCH 498 (3 credits) or 3 additional credits of PSYCH 499
9. Up to 6 credits in 200- to 400-level electives to make a minimum total of 66 psychology credits
10. (Students may not use PSYCH 200 as an elective if PSYCH 300 is used to fulfill major requirements; or use PSYCH 203 as an elective if PSYCH 303 is used to fulfill major requirements; or use PSYCH 206 as an elective if PSYCH 306 is used to fulfill major requirements; or use PSYCH 245 as an elective if PSYCH 345 is used to fulfill major requirements.)
11. *Courses in related fields:*
 - a. MATH 120 and MATH 124. Students may satisfy this requirement by testing out of MATH 124 or MATH 144
 - b. One biological science course from BIOL 118, BIOL 161-BIOL 162, BIOL 180, BIOL 200, or BIOL 220
 - c. One of the following philosophy courses: PHIL 120, PHIL 160
 - d. One social science course (3 to 5 credits) from anthropology or sociology
12. Cumulative minimum 2.50 GPA in all PSYCH courses applied toward the degree (UW and transfer), with a minimum 2.0 grade in each course presented for the major. Note that a grade of 2.5 or higher is required in PSYCH 209 in order for students to progress to the PSYCH 317/PSYCH 318 statistics series.
13. Transfer students must meet all of the above requirements and are required to complete at least 15 graded credits in psychology at the 300 and 400 level through the UW.

Bachelor of Arts

Suggested First-Year College Courses: MATH 111, MATH 112, MATH 120, or MATH 124. PSYCH 101. Any sociology or anthropology course. Students are encouraged to begin completion of general education requirements.

Suggested Second-Year College Courses: PSYCH 202 and 209 should be completed as soon as possible during this year. BIOL 118, BIOL 161-BIOL 162, BIOL 180, BIOL 200, or BIOL 220. Students intending to take animal behavior courses in the Psychology Department should plan to fulfill the biology requirement with either BIOL 161-BIOL 162, BIOL 180, or BIOL 200 Continue working toward completion of general education requirements, including foreign language. The foreign language requirement should, ideally, be completed within the first two years of college.

Major Requirements

66 to 68 credits as follows:

1. PSYCH 101, PSYCH 202, PSYCH 209, PSYCH 315 (or PSYCH 317 and PSYCH 318)
2. One lab course from PSYCH 330, PSYCH 331, PSYCH 332, PSYCH 361, PSYCH 417, PSYCH 418, or PSYCH 419
3. One course from PSYCH 300, PSYCH 333, or PSYCH 355
4. One course from PSYCH 303, PSYCH 305, PSYCH 306, or PSYCH 345
5. One additional course from PSYCH 300, PSYCH 303, PSYCH 305, PSYCH 306, PSYCH 333, PSYCH 345, or PSYCH 355

6. Two additional graded upper division classes with at least one at the 400 level (cannot include PSYCH 491 through PSYCH 499)
7. 3 credits from the following list: PSYCH 494, PSYCH 496, PSYCH 497, PSYCH 498, PSYCH 499; or credit from an approved Study Abroad program
8. Up to 4 credits of PSYCH 200- to 400-level electives to make a minimum total of 53 psychology credits
9. (Students may not use PSYCH 200 as an elective if PSYCH 300 is used to fulfill major requirements; or use PSYCH 203 as an elective if PSYCH 303 is used to fulfill major requirements; or use PSYCH 206 as an elective if PSYCH 306 is used to fulfill major requirements; or use PSYCH 245 as an elective if PSYCH 345 is used to fulfill major requirements.)
10. *Courses in related fields:*
 - a. One MATH course from MATH 111, MATH 112, MATH 120, MATH 124, or MATH 144. Students may satisfy this requirement by testing out of any of the specified classes.
 - b. One biological science course from BIOL 118, BIOL 161-BIOL 162, BIOL 180, BIOL 200, or BIOL 220
 - c. One social science course (3 to 5 credits) from anthropology or sociology
11. Minimum 2.50 cumulative GPA in all psychology courses applied toward the degree (UW and transfer), with a minimum 2.0 grade in each course presented for the major
12. Transfer students must meet all the above requirements and must to complete at least 15 graded credits in psychology at the 300 and 400 level through the UW.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Students understand and apply scientific methods and principles, receive an excellent preparation in the theoretical explanations of human and animal behavior, and understand the introductory concepts underlying the biological basis of behavior.
- *Instructional and Research Facilities:* The psychology faculty have extensive research facilities and research laboratories on the UW campus and nearby buildings.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* The Department of Psychology offers academic credit for approved fieldwork experience. The advising office maintains internship listings which are updated regularly.
- *Department Scholarships:* None offered.
- *Student Organizations/Associations:* Psi Chi (national honors society for undergraduate psychology students).

Of Special Note: A student may earn either a Bachelor of Science or a Bachelor of Arts degree in psychology, but not both.

Graduate Program

Graduate Program Coordinator
306 Guthrie, Box 351525
(206) 543-2563
psygrad@uw.edu

Graduate work in psychology is organized primarily as preparation for the Doctor of Philosophy degree. The optional Master of Science degree is taken by some doctoral students in the course of their work toward the doctorate.

For graduate instruction, the department is organized into six major areas of study: animal behavior, adult and child clinical, cognition and perception, developmental, physiological, and social psychology and personality. Specialization groups also exist in the sub-areas of diversity and self-regulation, and in community, sport, and quantitative psychology.

The program in clinical psychology is accredited by the American Psychological Association and provides scientific and professional training.

Master of Science (Optional)

A master's-degree-only program is not available. Doctoral students have the option of obtaining a master's degree while working toward the PhD.

Graduation Requirements: Completion of first-year graduate program (see Doctor of Philosophy degree requirements below) and an appropriate research program, including a research thesis.

Doctor of Philosophy

Admission Requirements

An undergraduate degree in psychology is desirable, but not required. Some preparation in biological, social, or quantitative sciences is strongly advised. Applicants are judged on a number of criteria, including academic and research backgrounds, Graduate Record Examination scores, and written evaluations submitted by former professors or supervisors. Admission of new students occurs in autumn quarter. The deadline for receipt of admission material is December 15.

Degree Requirements

Minimum 90 credits, as follows:

- **Coursework:**
 - *Orientation Week:* PSYCH 500 (1)
 - *Psychology Colloquium:* PSYCH 500 (1)
 - *Statistics and General Methodology:* During the first year, students must complete each of the following with a minimum 2.7 grade: PSYCH 522, PSYCH 523, PSYCH 524, PSYCH 525.
 - *Area Course Requirements:* All students are required to take a set of six or more courses as required by the individual areas (see below)
 - *Seminars and Advanced Seminars:* All students are strongly encouraged to attend a seminar as specified by their area (see below), and to attend the departmental colloquium (PSYCH 550).

- *Substitutions*: Potential substitutions should be discussed with the student's adviser and Area Head or Area Representative.

- **Area Requirements:**

- **Animal behavior:**

- Core courses: PSYCH 502, PSYCH 503, PSYCH 562
 - Three additional courses chosen in consultation with adviser. The following courses may be particularly appropriate for animal behavior students: PSYCH 504, PSYCH 505, PSYCH 513
 - All animal behavior students are strongly encouraged to participate in additional seminars and advanced seminars, both within and outside their area, throughout their graduate careers.

- **Adult Clinical Area:**

- Core courses: PSYCH 517, PSYCH 518, PSYCH 519, PSYCH 511 [PSYCH 594 may be substituted], PSYCH 515 [PSYCH 571 or PSYCH 572 may be substituted]
 - Six additional out-of-area courses. These six courses must meet the APA curriculum guidelines for "breadth of scientific psychology," covering biological, affective-cognitive, and social aspects of behavior as determined by mutual agreement between the student and adviser. Courses should be selected toward developing cohesive themes of subspecialty expertise pertinent to the student's future research and clinical endeavors. Core concepts courses that can be used to meet the APA breadth requirements are as follows: Affective-Cognitive Breadth: PSYCH 507 ; Social Breadth: PSYCH 510 (4); Biological Breadth: PSYCH 502 , PSYCH 503 (4), PSYCH 504 , PSYCH 506 . Note: PSYCH 594, PSYCH 571, and PSYCH 572 cannot be used as out-of-area courses.
 - One course in community psychology of minority mental health: PSYCH 574, PSYCH 580, or other approved courses.
 - Three courses in clinical issues and methods: PSYCH 591, PSYCH 587, PSYCH 588
 - Two courses in assessment: PSYCH 586; one of the following three courses: PSYCH 576 with PSYCH 590 practicum), PSYCH 578 with PSYCH 590, PSYCH 579
 - Clinical practica on a continuing basis: PSYCH 589, PSYCH 593, PSYCH 597
 - Seminars and advanced seminars: PSYCH 550
 - All clinical students are strongly encouraged to participate in additional seminars and advanced seminars, both within and outside their area, throughout their graduate careers.
 - Other requirements for clinical students: A one-year predoctoral internship
 - **Behavioral Neuroscience:**
 - Core courses: PSYCH 421, PSYCH 504, NEUBEH 502; two of the following three courses: NEUBEH 501, NEUBEH 503, CONJ 531/CONJ 532
 - Three additional psychology courses: PSYCH 565; not more than one of the following: PSYCH 423, PSYCH 424, PSYCH 426, PSYCH 427,

PSYCH 430; one or more of the following: PSYCH 502, PSYCH 503, PSYCH 506, PSYCH 513

- Seminars and advanced seminars: All BNS students are required to take at least three quarters of PSYCH 522. In addition, all BNS students are required to take at least one advanced seminar (usually PSYCH 542), chosen in consultation with the student's adviser.
- All behavioral neuroscience students are strongly encouraged to participate in additional seminars and advanced seminars, both within and outside their area, throughout their graduate careers.
- **Child Clinical Area:**
 - Research methods: PSYCH 529, PSYCH 531
 - Four courses in child clinical psychology: PSYCH 571, PSYCH 572, PSYCH 576 with PSYCH 590 practicum, PSYCH 573
 - Four core concepts courses: PSYCH 513, PSYCH 514, PSYCH 515, PSYCH 517
 - One course in minority mental health: PSYCH 580
 - Three courses in clinical issues and methods: PSYCH 591, PSYCH 587, PSYCH 588
 - Clinical practica on a continuing basis: PSYCH 589, PSYCH 593, PSYCH 597
 - One treatment seminar: PSYCH 543, PSYCH 553, PSYCH 550
 - All child clinical students are strongly encouraged to participate in additional seminars and advanced seminars, both within and outside their area, throughout their graduate careers.
 - Other requirements for child clinical students: A one-year predoctoral internship
- **Cognition and Perception:**
 - Core courses: PSYCH 506, PSYCH 507, PSYCH 508
 - Three additional courses, selected to broaden and deepen the student's understanding of his/her research specialty. These courses should be chosen in consultation with the adviser. They can be additional core concepts courses in any area, or other courses chosen from anywhere on campus, within or outside the Psychology Department.

The following out-of-area core concepts courses may be particularly appropriate for cognition: PSYCH 504 , PSYCH 510 (4), PSYCH 514 (4), PSYCH 515 (4)

 - Seminars and advanced seminars: PSYCH 555
 - All Cognition/Perception students are strongly encouraged to participate in additional seminars and advanced seminars, both within and outside their Area, throughout their graduate careers.
- **Developmental Psychology:**
 - Research Methods: PSYCH 529
 - Area course requirements. PSYCH 513, PSYCH 514, PSYCH 515
 - Three additional courses, selected to broaden and deepen the student's understanding of his/her research specialty. These courses should be

chosen in consultation with the adviser. They can be additional core concepts courses in any area, or other courses chosen from anywhere on campus, within or outside the Psychology Department.

The following out-of-area core concepts courses may be particularly appropriate for Developmental students, depending on the student's research specialty: PSYCH 503, PSYCH 504, PSYCH 507, PSYCH 510, PSYCH 511

- In lieu of a core concepts course in child clinical psychology, PSYCH 553 is also recommended for Developmental graduate students.
- Seminars and advanced seminars: PSYCH 556
- All developmental students are strongly encouraged to participate in additional seminars and advanced seminars, both within and outside their area, throughout their graduate careers.
- **Social Psychology and Personality:**
 - In addition to the four statistical courses required by the department, social/personality students are required to take one additional quantitative course, within or outside the department.
 - Core courses: PSYCH 510, PSYCH 511
 - Four additional courses, selected to broaden and deepen the student's understanding of his/her research specialty. These courses should be chosen in consultation with the adviser. They can be additional core concepts courses in any area, or other courses chosen from anywhere on campus, within or outside the Psychology Department.
 - Seminars and advanced seminars: PSYCH 557, one additional departmental seminar (PSYCH 550 through PSYCH 558) every quarter throughout the student's graduate career
 - All social/personality students are strongly encouraged to participate in additional seminars and advanced seminars, both within and outside their area, throughout their graduate careers.

Assistantships, Fellowships, or Traineeship Opportunities

Research and teaching assistantships are generally available. Traineeships and fellowships are also available.

COLLEGE OF ARTS & SCIENCES

PSYCHOLOGY

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

PSYCH 101 Introduction to Psychology (5) I&S

Surveys major areas of psychological science. Core topics include human social behavior, personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology. Offered: AWSpS.

[View course details in MyPlan: PSYCH 101](#)

PSYCH 200 Comparative Animal Behavior (3-5) NW Barash, Beecher

Research methods and findings of comparative animal behavior, their importance to an understanding of human behavior; rationale for study of behavioral differences/similarities between animal species, behavior viewed as part of adaptation of each species to its natural habitat. Not open for credit to students who have taken PSYCH 300.

[View course details in MyPlan: PSYCH 200](#)

PSYCH 201 Psychology of Performance Enhancement (4) I&S

Applications of psychological theories, research, and intervention strategies to performance enhancement in variety of life settings. Self-regulation models and techniques; stress and emotional control; attention control and concentration; mental rehearsal; time management; goal-setting; memory enhancement; communication and interpersonal conflict resolution. Participation in various psychological training procedures. Prerequisite: PSYCH 101. Instructors: Smith, Smoll

[View course details in MyPlan: PSYCH 201](#)

PSYCH 202 Biopsychology (5) NW

Examines the biological basis of behavior, the nervous system, how it works to control behavior and sense the world, and what happens when it malfunctions. Topics include learning and memory, development, sex, drugs, sleep, the senses, emotions, and mental disorders. Prerequisite: PSYCH 101. Instructors: Kim, Olavarria
Offered: AWSpS.

[View course details in MyPlan: PSYCH 202](#)

PSYCH 203 Introduction to Personality and Individual Differences (4) I&S

Overview of the major theories, research findings, and applications in the scientific study of personality. Covers

research methods and approaches to measuring personality variables. Not open for credit to students who have taken PSYCH 303. Prerequisite: PSYCH 101. Instructors: Smith

[View course details in MyPlan: PSYCH 203](#)

PSYCH 205 Behavior Disorders (5) I&S

Examines the bio-psycho-social origins of behavioral disorders. Topics include theories of etiology, developmental perspectives of behavior disorders, and assessment and diagnosis of the most common behavioral disorders. Note: not open for credit for students who have taken PSYCH 305. Prerequisite: minimum 2.0 grade in PSYCH 101.

[View course details in MyPlan: PSYCH 205](#)

PSYCH 206 Human Development (5) I&S

Theoretical perspectives and research methods in child development with an overview of historical and current works. Includes prenatal and biological development, the development of cognitive, linguistic, and social and emotional abilities. Not open for credit to students who have taken PSYCH 306. Prerequisite: PSYCH 101.

[View course details in MyPlan: PSYCH 206](#)

PSYCH 209 Fundamentals of Psychological Research (5)

Psychological research methodology and techniques. Topics include the logic of hypothesis testing, experimental design, research strategies and techniques, fundamentals of scientific writing, search and evaluation of research literature in psychology, and ethical issues in psychological research. Required for all psychology majors. Prerequisite: minimum 2.0 grade in PSYCH 101. Instructors: Little, Passer Offered: AWWSpS.

[View course details in MyPlan: PSYCH 209](#)

PSYCH 210 The Diversity of Human Sexuality (5) I&S, DIV

Considers biological, psychological, and socio-cultural determinants of human sexuality and sexual behavior, and how their interaction leads to diverse expressions of sexuality, sexual bonding, gender orientation, reproductive strategies, and physical and psychological sexual development. Topics include cultural appraisal of sexuality, sexual health and reproduction (pregnancy, contraception, abortion), and sexual abuse and assault.

[View course details in MyPlan: PSYCH 210](#)

PSYCH 245 Introduction to Social Psychology (5) I&S

Overview of major findings of social psychology, emphasizing the relevance for understanding the social behaviors of individuals and groups of individuals and their relationship to social context. Not open for credit to students who have taken PSYCH 345. Prerequisite: PSYCH 101. Instructors: Brown

[View course details in MyPlan: PSYCH 245](#)

PSYCH 250 Racism and Minority Groups (5) I&S, DIV

Overview of the causes, contexts, and consequences of racism and its effects upon minority groups and society. Emphasis on cultural history, political and socioeconomic structures that contribute to racism. Examination of current issues in race relations and cultural pluralism in the United States and selected international topics.

[View course details in MyPlan: PSYCH 250](#)

PSYCH 257 Psychology of Gender (5) I&S, DIV *Kenney*

Major psychological theories of gender-role development; biological and environmental influences that determine and maintain gender differences in behavior; roles in children and adults; topics include aggression, cognitive abilities, achievement motivation, affiliation. Offered: jointly with GWSS 257.

[View course details in MyPlan: PSYCH 257](#)

PSYCH 260 Psychosocial Aspects of Nuclear War (3) I&S *Barash*

Introduction to basic issues of nuclear war, including its effects, weaponry, and history of the arms race. Primary focus on the psychologic underpinnings of deterrence, relations between nations, and the personal and social forces operative in the arms race and peace movements.

[View course details in MyPlan: PSYCH 260](#)

PSYCH 291 Principles of Applied Animal Behavior (3-5) NW

Further explores the basic principles of animal behavior, and related disciplines, with particular emphasis on application to human-animal interaction and issues. Introduces the primary literature in applied animal behavior.

[View course details in MyPlan: PSYCH 291](#)

PSYCH 292 Applied Animal Behavior in Practice (3-5) NW

Integrates animal behavior theory with real-world practice to resolve practical problem in human-animal interactions, including companion animals, captive animals, and livestock. Introduces the primary clinical literature in applied animal behavior.

[View course details in MyPlan: PSYCH 292](#)

PSYCH 298 Graduate School Exploration for Psychology Majors (2)

Provides an overview of graduate school options available in psychology, counseling, and research. Topics include researching programs, writing statements of purpose and resumes, standardized testing, letters of recommendation, and interviewing techniques. Credit/no-credit only.

[View course details in MyPlan: PSYCH 298](#)

PSYCH 299 Psychology Transfer Academic Community (2)

Provides opportunity for transfer students new to or contemplating the psychology major to experience an in-depth orientation to the department, curriculum, and resources available to undergraduates. Students meet weekly to explore ways to effectively engage in the major and expand their understanding of the academic discipline. Credit/no-credit only.

[View course details in MyPlan: PSYCH 299](#)

PSYCH 300 Animal Behavior (5) NW

Introduces important concepts and empirical findings in animal behavior. Emphasizes evolutionary and mechanistic approaches to understanding diversity and complexity of behavior. Topics include communication, mating, migration, and sociality. Prerequisite: either BIOL 118, BIOL 161, or BIOL 180. Instructors: Beecher, Sisneros

[View course details in MyPlan: PSYCH 300](#)

PSYCH 303 Personality (5) I&S

Overview of major perspectives, scientific issues, applications, and research findings in the area of personality. Direct exposure to scientific literature, writing assignments, and research-based class experiences prepare students for advanced work in personality, social, abnormal, and developmental psychology. Prerequisite: minimum 2.0 grade in each of PSYCH 101; PSYCH 202; and PSYCH 209. Instructors: Brown

[View course details in MyPlan: PSYCH 303](#)

PSYCH 305 Abnormal Psychology (5) I&S

An overview of major categories of psychopathology, including description and classification, theoretical models, and recent research on etiology and treatment. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209.

[View course details in MyPlan: PSYCH 305](#)

PSYCH 306 Developmental Psychology (5) I&S

Overview of past and present theoretical and research-based approaches to biological, cognitive, and social development from the prenatal period to early adolescence. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209. Instructors: Repacholi, Sommerville

[View course details in MyPlan: PSYCH 306](#)

PSYCH 315 Understanding Statistics in Psychology (5) QSR

Statistics for psychological research. Elementary probability theory, hypothesis testing, and estimation. Satisfies the statistics requirement for majors registered in the psychology Bachelor of Arts degree program. Prerequisite: minimum 2.0 grade in PSYCH 209; 2.0 in either MATH 111, MATH 112, MATH 120, MATH 124, or MATH

144. Instructors: Boynton, Flaherty, Little Offered: AWSpS.

[View course details in MyPlan: PSYCH 315](#)

PSYCH 317 Introduction to Probability and Statistics for Psychology (5) QSR

Probability theory as a model for scientific inference. Probabilistic variables and experimental outcomes, conditional probability, binomial and related distributions, experiments as samples, statistics and sampling distributions, the normal distribution, confidence intervals, problems of estimation from experiments.

Prerequisite: minimum 2.5 grade in PSYCH 209; 2.0 in either MATH 124, MATH 134, or MATH 144.

Instructors: Little, Loftus Offered: AW.

[View course details in MyPlan: PSYCH 317](#)

PSYCH 318 Statistical Inference in Psychological Research (5) QSR

Hypothesis testing: probabilistic and statistical basis. Development and application of statistical inference techniques employed in psychological research: confidence intervals, t-test, ANOVA, and correlation and regression. Nature and control of experimental and inferential error in research. Required for majors for psychology BS degree. Prerequisite: minimum 2.0 grade in PSYCH 317. Instructors: Little, Loftus Offered: WSp.

[View course details in MyPlan: PSYCH 318](#)

PSYCH 322 Introduction to Drugs and Behavior (3) NW

Basic concepts of drug action emphasizing the behavioral consequences of the intake of a variety of drugs.

Prerequisite: PSYCH 202. Instructors: Diaz

[View course details in MyPlan: PSYCH 322](#)

PSYCH 330 Laboratory in Animal Behavior (5) NW

Experience with a variety of animal species and experimental procedures and instrumentation. Prerequisite: either minimum 2.0 grade in PSYCH 315, or 2.0 in PSYCH 317; 2.0 in PSYCH 209. Instructors: Brenowitz

[View course details in MyPlan: PSYCH 330](#)

PSYCH 331 Laboratory in Human Cognition (5) I&S

Selected aspects of human cognition, perception, and performance. Prerequisite: minimum 2.0 grade in PSYCH 209; either 2.0 in PSYCH 315, or 2.0 in PSYCH 317. Instructors: Joslyn

[View course details in MyPlan: PSYCH 331](#)

PSYCH 332 Neurobehavioral Lab (5) NW

Explores the neural mechanisms of behavior via neuropharmacological and neuroanatomical approaches.

Includes the ethics and regulation of animal experimentation. Prerequisite: either minimum 2.0 grade in PSYCH 315, or 2.0 in PSYCH 317. Instructors: Diaz

[View course details in MyPlan: PSYCH 332](#)

PSYCH 333 Sensory and Perceptual Processes (5) NW

An overview of each of the major senses with emphasis on the structure and function of sensory systems and the relation of the underlying biology to perceptual processes and behavior. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209. Instructors: Boynton, Buck, Covey, Fine

[View course details in MyPlan: PSYCH 333](#)

PSYCH 334 Laboratory in Social Psychology (5) I&S

Methodology of laboratory and field research on social behavior; data analysis and report writing; research projects. Prerequisite: minimum 2.0 grade in PSYCH 209; minimum 2.0 grade in either PSYCH 315 or PSYCH 317; minimum 2.0 grade in either PSYCH 245 or PSYCH 345. Instructors: Cheryan

[View course details in MyPlan: PSYCH 334](#)

PSYCH 345 Social Psychology (5) I&S

The scientific study of how people's thoughts, feelings, and actions influence, and are influenced by, other

people. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209. Instructors: Brown, Kaiser⁸⁸⁵
[View course details in MyPlan: PSYCH 345](#)

PSYCH 350 Honors Research Seminar in Psychology (2-, max. 4) Bassok

Presentations by professors and advanced students concerning the rationale, methodology, and progress of their research projects; assistance with research projects; preparation of junior paper. Four credits of PSYCH 350 required for all junior Honors candidates in conjunction with PSYCH 498 and PSYCH 499. Offered: AWSp.
[View course details in MyPlan: PSYCH 350](#)

PSYCH 355 Cognitive Psychology (5) I&S

Current theory and research in perception, attention, memory and learning, attitudes, thinking and decision making, and language. For the student who wishes a survey or who intends additional work in any of the above content areas. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209. Instructors: Joslyn, Miyamoto
[View course details in MyPlan: PSYCH 355](#)

PSYCH 357 Psychobiology of Women (5) NW, DIV Kenney

Physiological and psychological aspects of women's lives; determinants of biological sex; physiological and psychological events of puberty; menopause; sexuality; contraception, pregnancy, childbirth, and lactation; role of culture in determining psychological response to physiological events. Offered: jointly with GWSS 357.
[View course details in MyPlan: PSYCH 357](#)

PSYCH 380 Cross-Cultural Competence (4) I&S

Facilitates development of multicultural competence; focuses on mental health/social service needs of ethnic and linguistic minorities, and developing personal/interpersonal skills to reduce barriers, enhance effective service provision to cross cultural groups, sexual minorities, and disabled people. Prerequisite: PSYCH 250; either PSYCH 305 or PSYCH 306.
[View course details in MyPlan: PSYCH 380](#)

PSYCH 399 Foreign Study (3-5, max. 10)

Upper division psychology courses for which there are no direct University of Washington equivalents taken through the UW Study Abroad program.
[View course details in MyPlan: PSYCH 399](#)

PSYCH 400 Learning (5) I&S/NW

Experimental research and basic theories primarily in animal learning. Prerequisite: minimum 2.0 grade in PSYCH 202.
[View course details in MyPlan: PSYCH 400](#)

PSYCH 402 Infant Behavior and Development (3/5) I&S

Psychological development in the first two years of life. Basic and advanced techniques for assessing psychological development in infancy. Classic theories of human infancy and examination of a wide range of new experiments about infant behavior and development. Prerequisite: minimum 2.0 grade in either PSYCH 206, PSYCH 306 or PSYCH 414. Instructors: Meltzoff
[View course details in MyPlan: PSYCH 402](#)

PSYCH 403 Motivation (5) I&S/NW

Theory and research on reinforcement, punishment, frustration, preference, instinctual mechanisms, and other factors controlling animal behavior. Prerequisite: minimum 2.0 grade in PSYCH 202.
[View course details in MyPlan: PSYCH 403](#)

PSYCH 405 Advanced Personality: Theory and Research (5) I&S

Intensive survey of theoretical concepts and detailed review of experimental methods and experiments in the field of personality. Prerequisite: PSYCH 303.
[View course details in MyPlan: PSYCH 405](#)

PSYCH 407 History of Psychology (5) I&S

Historical and theoretical background of the basic assumptions of modern psychology, including such doctrines as behaviorism, determinism, and associationism and the scientists who developed them. Prerequisite: minimum 2.0 grade in PSYCH 209.

[View course details in MyPlan: PSYCH 407](#)

PSYCH 408 Mechanisms of Animal Behavior (4) NW *Beecher, Brenowitz, Sisneros*

Comparative exploration of physiological and perceptual mechanisms that control behaviors necessary for survival and reproduction in animals. Model systems discussed include animal communication, mate choice, escape behavior, learning and memory, orientation, biological rhythms, foraging behavior. Prerequisite: either PSYCH 333 OR BIOL 220. Offered: jointly with BIOL 408.

[View course details in MyPlan: PSYCH 408](#)

PSYCH 410 Child and Adolescent Behavior Disorders (5) I&S

Introduction to psychopathology in children and adolescents, and an overview of principal modes of intervention. Particularly for students interested in advanced work in clinical psychology, social work, or special education. Prerequisite: minimum 2.0 grade in PSYCH 305; either 2.0 in PSYCH 306 or 2.0 in PSYCH 202, 2.0 in PSYCH 206, and 2.0 in PSYCH 209.

[View course details in MyPlan: PSYCH 410](#)

PSYCH 411 Perceptual Development (5) I&S/NW

Origins and development of perception in human infancy. Object, face, and speech perception; cross-modal relations between touch, vision, audition. Prerequisite: minimum 2.0 grade in either PSYCH 206, PSYCH 306, or PSYCH 414. Instructors: Meltzoff Offered: jointly with SPHSC 411.

[View course details in MyPlan: PSYCH 411](#)

PSYCH 413 Adolescent Development (5) I&S

Provides an overview of physical, cognitive, psychosocial, and emotional development of adolescents with an emphasis on understanding the context in which young people grow up. Explores cultural, environmental, and social influences on development. Prerequisite: minimum 2.0 grade in PSYCH 209; 2.0 in either PSYCH 206 or PSYCH 306.

[View course details in MyPlan: PSYCH 413](#)

PSYCH 414 Cognitive Development (5) I&S

Key theoretical and research approaches to cognitive development from infancy through adolescence. Sensorimotor development, language development, imitation, number concepts, logical reasoning, memory, cognition in adolescents, intelligence, and the role of biology, environment, and experience. Prerequisite: either minimum 2.0 grade in PSYCH 306, or 2.0 in both PSYCH 206 and PSYCH 209. Instructors: Sommerville

[View course details in MyPlan: PSYCH 414](#)

PSYCH 415 Personality Development of the Child (5) I&S

Socialization theory and research, infant attachment and social relationships, development of aggressive and altruistic behaviors, sex-role development, moral development, parent and adult influences. Applied issues in social development and policy. Prerequisite: minimum 2.0 grade in either PSYCH 206 or PSYCH 306.

Instructors: Repacholi

[View course details in MyPlan: PSYCH 415](#)

PSYCH 416 Animal Communication (4) NW

Evolution and mechanisms of animal communication and related processes of perception, thinking, and social behavior. Prerequisite: either minimum 2.0 grade in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300.

Instructors: Beecher, Brenowitz, Sisneros

[View course details in MyPlan: PSYCH 416](#)

PSYCH 417 Human Behavior as a Natural Science (5) I&S/NW

Evolution of human social behavior and the adaptive significance of communication systems from a

sociobiological and anthropological perspective. Prerequisite: either PSYCH 200, PSYCH 300, BIO A 201, or BIOL 180.

[View course details in MyPlan: PSYCH 417](#)

PSYCH 418 Primate Social Behavior (5) NW

Social behavior, ecology, and group structure of monkeys and apes from an evolutionary, sociobiological, and anthropological perspective. Prerequisite: either minimum 3.5 grade in PSYCH 200, 2.0 in PSYCH 300, 2.0 in BIO A 201, or 2.0 in BIOL 180.

[View course details in MyPlan: PSYCH 418](#)

PSYCH 419 Behavioral Studies of Zoo Animals (5, max. 10) NW

Observational studies of behavior of zoo animals to expand basic knowledge of animal behavior, conservation of endangered species, and research methodology with discussions and tours focusing on zoo philosophy and operations. Offered in cooperation with Woodland Park Zoo. Prerequisite: either minimum 2.0 grade in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300.

[View course details in MyPlan: PSYCH 419](#)

PSYCH 420 Drugs and Behavior (3) NW

Animal and clinical research on the behavioral consequences of drug intake. Prerequisite: PSYCH 322.

Instructors: Diaz

[View course details in MyPlan: PSYCH 420](#)

PSYCH 421 Neural Basis of Behavior (5) NW

Anatomical and physiological principles and resultant behavior involved in the integrative action of the nervous system. Prerequisite: minimum 2.0 grade in PSYCH 202. Instructors: Diaz

[View course details in MyPlan: PSYCH 421](#)

PSYCH 423 Sensory Basis of Behavior (5) NW

Study of sensory mechanisms as a way to understand behavior. Basic properties of neurons, anatomy, and physiology of sensory systems, with some emphasis on the visual system. Prerequisite: minimum 2.0 grade in either PSYCH 202 or PSYCH 333. Instructors: Olavarria

[View course details in MyPlan: PSYCH 423](#)

PSYCH 425 Surgical and Histological Techniques (5) NW

Practicum in basic and advanced surgical and histological techniques used in psychophysiological experimentation. Prerequisite: PSYCH 421.

[View course details in MyPlan: PSYCH 425](#)

PSYCH 426 Neurobiology of Learning and Memory (4) NW

Theory and research on how animals learn and remember, including basic concepts of brain plasticity, how brain areas and neurons adapt to changes in experiences throughout the lifespan, and cellular and structural substrates of a "memory." Prerequisite: minimum 2.0 grade in either PSYCH 202, PSYCH 322, PSYCH 333, PSYCH 421, PSYCH 422, or PSYCH 423. Instructors: Mizumori

[View course details in MyPlan: PSYCH 426](#)

PSYCH 427 Behavioral Endocrinology (5) NW

The endocrine system and how its secretions influence and are influenced by behavior; relationships between the nervous and endocrine systems. Prerequisite: PSYCH 421.

[View course details in MyPlan: PSYCH 427](#)

PSYCH 428 Human Motor Control and Learning (5) I&S/NW

Current theory and research in human motor performance and skill acquisition. Prerequisite: minimum 2.0 grade in PSYCH 209; 2.0 in PSYCH 202.

[View course details in MyPlan: PSYCH 428](#)

PSYCH 429 Brain Anatomy for the Behavioral Scientist (1) NW

Detailed review of the neuroanatomical features of the sheep brain with laboratory demonstrations. Prerequisite: PSYCH 421 which may be taken concurrently. Instructors: Diaz

[View course details in MyPlan: PSYCH 429](#)

PSYCH 430 Development of Brain Connections (4) NW

Analysis of innate and environmental factors that play a role in the development of brain connections. Critical review of current literature on the various strategies used by neurons to find their appropriate targets.

Prerequisite: minimum 2.0 grade in either PSYCH 202, PSYCH 333, PSYCH 421, PSYCH 422, or PSYCH 423.

Instructors: Olavarria

[View course details in MyPlan: PSYCH 430](#)

PSYCH 431 Ecopsychology (5) I&S P. KAHN

Explores psychology of the human relationship with nature. Critically examines how ecopsychology can impact urban sustainability, human health, environmental education, and the design of new technologies. Specific topics include evolutionary psychology; human-animal interaction; biophilia; children and nature; indigenous cultures; and ecotherapy. Offered: jointly with ENVIR 431/ESRM 431; W.

[View course details in MyPlan: PSYCH 431](#)

PSYCH 432 Visual Neuroscience (4) I&S/NW

Surveys current facts/theories about how our brains interpret the images formed by our eyes to create a presentation of the visual environment. Topics include retinal processing, 3-D vision; color, form, motion, and object perception; and visual illusions. Prerequisite: minimum 2.0 grade in either PSYCH 333 or PSYCH 355.

[View course details in MyPlan: PSYCH 432](#)

PSYCH 433 Regulatory Behavior (4) NW

Neural and endocrine mechanisms in the control of food and water intake and the regulation of body weight and fluid balance. Prerequisite: either PSYCH 421 or PSYCH 427. Instructors: Kenney

[View course details in MyPlan: PSYCH 433](#)

PSYCH 435 Human Color Vision (5) I&S/NW

Discusses how color does not exist in the physical environment but is instead a creation of our brains. Explores perceptual, physiological, developmental, evolutionary, genetic, and cultural aspects of human color vision, including its role in language, culture, and art. Prerequisite: PSYCH 202; PSYCH 209. Instructors: Buck

[View course details in MyPlan: PSYCH 435](#)

PSYCH 436 Developmental Aspects of Sport Competition (4) I&S

Biophysical and psychosocial influences of sport participation on growth and development of children and youth. Competition readiness, injuries, stress, aggression, roles and responsibilities of parents and coaches.

Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Smoll

[View course details in MyPlan: PSYCH 436](#)

PSYCH 437 Motor Development (4) NW

Analysis of motor development from prenatal origins through adolescence with emphasis on relations between biophysical and psychosocial development of children and youth. Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Smoll

[View course details in MyPlan: PSYCH 437](#)

PSYCH 438 Social Psychology of Sport (4) I&S

Reciprocal effects of interpersonal and group influence processes, e.g., social facilitation, behavior modification, observational learning, individual versus group performance, group cohesion, leadership, aggression.

Prerequisite: minimum 2.0 grade in PSYCH 101; 2.0 in PSYCH 202; 2.0 in PSYCH 209. Instructors: Smith, Smoll

[View course details in MyPlan: PSYCH 438](#)

PSYCH 441 Perceptual Processes (5) I&S/NW

Theory and findings in perception with a focus on visual perception in humans. Discrimination and constancy for simple judgments, segregation and identification of visual objects, and specific areas of investigation such as reading and computer vision. Prerequisite: minimum 2.0 grade in PSYCH 333.

[View course details in MyPlan: PSYCH 441](#)

PSYCH 443 Motivational Theories in Social Psychology (5) I&S

Theories of motivation in social psychology. Emphasis on how motivation and cognition mutually influence each other to produce behavior. Explores such topics as persuasion, goal pursuit, self-regulation, achievement, and social comparison. Prerequisite: minimum 2.0 grade in PSYCH 345.

[View course details in MyPlan: PSYCH 443](#)

PSYCH 445 Theories of Social Psychology (5) I&S

Evaluation of the major theories of human social behavior supported by the empirical literature; theories of social cognition and thought; major theories of social interaction, group processes, and social learning.

Prerequisite: PSYCH 345. Instructors: Brown

[View course details in MyPlan: PSYCH 445](#)

PSYCH 446 Personality Assessment (3) I&S

Measurement of personality variables in personality research, social psychology, and clinical psychology. Theoretical conceptions underlying various clinical and experimental scales and an assessment of their construct validity and behavioral correlates. Prerequisite: minimum 2.0 grade in PSYCH 303; 2.0 in PSYCH 315; 2.0 in PSYCH 317. Instructors: Smith

[View course details in MyPlan: PSYCH 446](#)

PSYCH 447 Psychology of Language (4) VLPA/I&S

Introduction to the study of language, including language structure, speech perception, language acquisition, psychological processes underlying comprehension and production of language, the relation between brain and language, and the question of the species-specificity of human language. Prerequisite: either minimum 2.0 grade in PSYCH 209, minimum 2.0 grade in LING 200, or LING 201.

[View course details in MyPlan: PSYCH 447](#)

PSYCH 448 Seminar in Psychology (1-15, max. 15)

Selected research topics of contemporary interest. Quarterly listings of specific offerings are available at departmental advising office.

[View course details in MyPlan: PSYCH 448](#)

PSYCH 449 ORGANIZATIONAL AND INDUSTRIAL PSYCHOLOGY (3) I&S

Examines research on human behavior in industrial and organizational environments. Topics include research methods, job analysis, the prediction of workplace performance, personnel selection and training, performance appraisal, group influences, job satisfaction, job motivation, leadership, and human factors. Prerequisite: PSYCH 101 and PSYCH 209.

[View course details in MyPlan: PSYCH 449](#)

PSYCH 450 Honors Research Seminar in Psychology (2-, max. 4) *Bassok*

Senior thesis research; preparation of senior thesis; oral presentation of research. Four credits of PSYCH 450 required for all senior Honors candidates in conjunction with PSYCH 498 and PSYCH 499. Offered: AWSp.

[View course details in MyPlan: PSYCH 450](#)

PSYCH 451 Health Psychology (5) I&S/NW

Overview of the psychological and behavioral factors in health and disease. Includes research on both psychological causes and treatments. Topics include stress, risky behaviors, patient-provider interactions, pain, behavioral/medical treatments, and lifestyle interventions. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209; 2.0 in either PSYCH 303, or PSYCH 345.

[View course details in MyPlan: PSYCH 451](#)

PSYCH 452 Psychology of the Self-Concept (4) I&S

Examines psychological theory and research on the role of the self-concept in regulating behavior. Topics include the development of the self-concept; self-awareness; and self-esteem maintenance. Prerequisite: minimum 2.0 grade in either PSYCH 245 or PSYCH 345. Instructors: Brown

[View course details in MyPlan: PSYCH 452](#)

PSYCH 454 Personality and Social Influence (4) I&S

Survey of various theories and research for analyzing person-situation interactions - how the qualities of persons and situations combine to generate thoughts, feelings, and behaviors of a person in a given social situation.

Prerequisite: PSYCH 209; either PSYCH 203, PSYCH 245, PSYCH 303, or PSYCH 345. Instructors: Shoda

[View course details in MyPlan: PSYCH 454](#)

PSYCH 456 Social and Moral Development (5) I&S

Theoretical approaches toward explaining children's social and moral development, including those that are nativistic, sociobiological, behavioristic, psychoanalytic, and constructivist. Use of theory to investigate applied problems related to parenting, education, peer relationships, authority, sexuality, culture, ecology, and technology. Prerequisite: either PSYCH 206 or PSYCH 306. Instructors: Kahn

[View course details in MyPlan: PSYCH 456](#)

PSYCH 457 Language Development (5) VLPA/I&S

First-language acquisition and use by children. Emphasis on theoretical issues and research techniques.

Prerequisite: minimum 2.0 grade in either PSYCH 206, PSYCH 306, LING 200, or LING 400.

[View course details in MyPlan: PSYCH 457](#)

PSYCH 458 Behavioral Genetics (4) NW

Role of genetics in determining variation in human and animal behavior and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects, and gene expression.

Prerequisite: either minimum 3.5 grade in PSYCH 200, 2.0 in PSYCH 300, or 2.0 in BIOL 180. Offered: jointly with BIOL 458.

[View course details in MyPlan: PSYCH 458](#)

PSYCH 459 Evolutionary Psychology (4) I&S/NW

Explores human behavior from the perspective of biological evolution. Covers core issues such as cooperation, communication, aggression, mating, reproduction, and parental and family interactions, as well as specialized applications within psychology such as psychopathology. Encourages a critical, skeptical examination of this new field. Prerequisite: either minimum 3.5 grade in PSYCH 200 or minimum 2.0 grade in PSYCH 300.

Instructors: Barash, Beecher

[View course details in MyPlan: PSYCH 459](#)

PSYCH 460 Cognitive Neuroscience (4) NW

Discussion of neural systems underlying cognitive behavior with particular focus on breakdown of cognition following brain damage. Topics include object and space perception, language, voluntary movement, attention, and memory. Examination of contributions from related areas of neuroimaging, visual perception, linguistics, physiology, and neuroscience. Prerequisite: minimum 2.0 grade in either PSYCH 333, PSYCH 355, or PSYCH 421. Instructors: Murray, Osterhout

[View course details in MyPlan: PSYCH 460](#)

PSYCH 461 Asian American Psychology (5) I&S

Psychological research on Asian American individuals and the community, with emphasis on social psychological research. Topics include the model minority myth, stereotypes of unassimilation, gender and sexuality, and relationships with other groups. Prerequisite: minimum 2.0 grade in either PSYCH 303, PSYCH 305, PSYCH 306, PSYCH 345, or PSYCH 355. Instructors: Cheryan

[View course details in MyPlan: PSYCH 461](#)

PSYCH 462 Human Memory (5) I&S

Research and theory in key areas of memory. Issues covered include information processing theory, the link between memory processes and their biological underpinnings, autobiographical memory, implicit memory, and the effect of emotion on memory. Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Joslyn

[View course details in MyPlan: PSYCH 462](#)

PSYCH 463 Implicit and Unconscious Cognition (3) I&S/NW

Overview of method, theory, and findings concerning cognitive processes operating outside attentional focus or without introspective awareness. Considers relevance to basic phenomena of social, cognitive, and clinical psychology. Prerequisite: minimum 2.0 grade in either PSYCH 315 or PSYCH 317; minimum 2.0 grade in either PSYCH 303, PSYCH 305, PSYCH 333, PSYCH 345, or PSYCH 355. Instructors: Greenwald

[View course details in MyPlan: PSYCH 463](#)

PSYCH 465 Intelligence (5) I&S

Analysis of individual differences in cognition. Includes description/use of psychometric ("intelligence test") models, test scores' relationship to academic and non-academic performance, information processing and biological models of intelligence (including genetic models). Discussion of male-female and demographic group differences in cognition. Prerequisite: either PSYCH 315 or PSYCH 317; PSYCH 355.

[View course details in MyPlan: PSYCH 465](#)

PSYCH 466 Psychology of Judgment and Decision Making (5) I&S

Human information processing in judgment and decision making, especially the interface between cognitive theories and normative and prescriptive theories of decision making. Prerequisite: minimum 2.0 grade in either PSYCH 315 or PSYCH 317; either PSYCH 331, PSYCH 355, or PSYCH 361. Instructors: Miyamoto

[View course details in MyPlan: PSYCH 466](#)

PSYCH 469 Psychology of Reasoning (4) I&S

Cognitive processes in human learning, problem solving, deductive and inductive reasoning.

[View course details in MyPlan: PSYCH 469](#)

PSYCH 470 Psychology and Music (5) VLPA/I&S

Introduction to the scientific study of musical behavior. An overview of current topics in the psychology of music from the areas of musical perception and cognition, musical development, music therapy, musical performance, and composition. Includes psychoacoustical and neuropsychological foundations, research methods, and some basic material in music theory. Prerequisite: minimum 2.0 grade in either PSYCH 202 or NBIO 302. Instructors: Covey

[View course details in MyPlan: PSYCH 470](#)

PSYCH 471 Cognition In the Real World (4-5, max. 10) I&S

Examines cognitive issues in applied settings, such as the workplace and education. Topics include such issues as attention, expertise, problem solving, decision-making, human error, automation, navigation, and individual differences. Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Joslyn

[View course details in MyPlan: PSYCH 471](#)

PSYCH 472 Human Factors Psychology (4) I&S

Considers human performance factors in the design of tools/equipment, tasks/jobs, and work and living environments. Emphasizes the importance of human perception, memory, attention, motor control, and social context for understanding ways to optimize the relationship between people and technology. Prerequisite: minimum 2.0 grade in PSYCH 202; minimum 2.0 grade in PSYCH 209.

[View course details in MyPlan: PSYCH 472](#)

PSYCH 477 Psychology of Peace (5) I&S *Barash*

Examination of the psychological aspects of peace in the modern world. Topics include theories of individual aggressiveness and violence, leadership personalities, crisis decision making, nuclear psychology, images of the

enemy, and psychological opportunities and obstacles to the establishment of a peaceful society.

[View course details in MyPlan: PSYCH 477](#)

PSYCH 478 Cultural Psychology (4) I&S

Surveys cultural influences on cognitive, emotion, morality, self-concept, and mental health, from a multicultural perspective. Prerequisite: minimum 2.0 grade in PSYCH 202; minimum 2.0 grade in PSYCH 209. Offered: A.

[View course details in MyPlan: PSYCH 478](#)

PSYCH 479 Advanced Human Sexuality (5) I&S

Intensive reading on current issues relevant to the physiological, psychological, cultural aspects of human sexuality. Prerequisite: minimum 2.0 grade in PSYCH 210. Instructors: McDermott

[View course details in MyPlan: PSYCH 479](#)

PSYCH 480 Ideas of Human Nature (5) I&S

Reviews various approaches to the nature of human nature, including ideas from ancient philosophy, theories of the soul, empiricism, idealism, conditioning, social constructions, concepts of Freud, Marx, the existentialists, and neo-Darwinism. Prerequisite: PSYCH 101. Instructors: Barash

[View course details in MyPlan: PSYCH 480](#)

PSYCH 481 Seminar in Advanced Quantitative Methods (3)

Examines the role of statistical methods in psychological research. Issues and controversies surrounding null hypothesis significance testing. Review of selected alternative statistical methods in psychology. Prerequisite: minimum 2.0 grade in either PSYCH 315 or PSYCH 318. Instructors: Little

[View course details in MyPlan: PSYCH 481](#)

PSYCH 482 Advanced Research Methods for Behavioral Psychology (4) QSR

Develops skills of collecting and analyzing behavioral research data, communicating the results orally and in writing, and expressing perspectives on issues of scientific method and practice. Prerequisite: either PSYCH 315 or PSYCH 317; either PSYCH 330, PSYCH 331, PSYCH 332, or PSYCH 350. Instructors: Greenwald, Shoda
Offered: Sp.

[View course details in MyPlan: PSYCH 482](#)

PSYCH 483 Writing in Psychology (5)

Helps students refine scientific writing skills. Students practice conducting focused literature searches and writing literature reviews, preparing empirical data for presentations, organizing and writing research reports, and writing about psychology for a lay audience. Prerequisite: minimum 2.0 grade in PSYCH 202; minimum 2.0 grade in PSYCH 209; minimum 2.0 grade in either PSYCH 300, PSYCH 303, PSYCH 305, PSYCH 306, PSYCH 333, PSYCH 345, or PSYCH 355. Instructors: Covey, Joslyn

[View course details in MyPlan: PSYCH 483](#)

PSYCH 485 Primate Conservation Biology and Behavior (5) NW

Examines the principles and concepts of conservation biology as they apply to the nonhuman primates with special attention to theoretical advances, conservation strategies, and management practices central to primate conservation. Prerequisite: either minimum 3.5 grade in PSYCH 200 or 2.0 in PSYCH 300 or 2.0 in BIO A 201. Instructors: Kyes

[View course details in MyPlan: PSYCH 485](#)

PSYCH 486 Animal Mind (4) NW

Explores the cognitive capacities of animals. Focuses on the classical question, first clearly posed by Darwin, of how similar are the cognitive processes underlying behavior in humans and animals. Encourages a critical, skeptical examination of this new field. Prerequisite: minimum 3.5 grade in PSYCH 200 or 2.0 in PSYCH 300. Instructors: Beecher

[View course details in MyPlan: PSYCH 486](#)

PSYCH 487 Advanced Psychobiology of Women (5) I&S/NW

Intensive reading on current issues relevant to women's psychology and physiology. Prerequisite: minimum 2.0 grade in PSYCH 357/ GWSS 357. Instructors: Kenney Offered: jointly with GWSS 487; W.

[View course details in MyPlan: PSYCH 487](#)

PSYCH 488 Stress and Coping (4) I&S/NW

Reviews theories and research concerning stress and its roles in behavior, personality, development, health, and interpersonal relationships. Coping analyzed as a factor in the way people respond to stressful circumstances. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209.

[View course details in MyPlan: PSYCH 488](#)

PSYCH 489 Clinical Psychology (3) I&S

Basic issues, methods, and research: professional issues, psychological assessment, and approaches to psychotherapy and behavioral change. Prerequisite: minimum 2.0 grade in PSYCH 305.

[View course details in MyPlan: PSYCH 489](#)

PSYCH 490 Stress Management (3) I&S/NW

Nature of stress. Physiological responses to stress and relaxation. Techniques of stress management with training in relaxation, biofeedback, meditation, cognitive restructuring, exercise, nutrition, interpersonal communication skills, and time management. Prerequisite: PSYCH 101.

[View course details in MyPlan: PSYCH 490](#)

PSYCH 491 Special Topics in Child Development, Learning, and Mental Health (1-5, max. 30) I&S

Selected topics of contemporary interest in child development, learning, and mental health.

[View course details in MyPlan: PSYCH 491](#)

PSYCH 494 Field Study in Animal Behavior (2-3, max. 9) Kyes

Field experience in areas relating to animal behavior through participation in seminar discussion and field exercises and training at foreign and domestic field study sites.

[View course details in MyPlan: PSYCH 494](#)

PSYCH 496 Undergraduate Teaching Experience in Psychology (2-3, max. 6)

Students are trained as assistants in quiz sections or as supplemental tutors for undergraduate psychology courses. Designed especially for students planning graduate work or education certification. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree. Credit/no-credit only.

[View course details in MyPlan: PSYCH 496](#)

PSYCH 497 Undergraduate Fieldwork (2-5, max. 10)

Individual consultation with faculty member and supervised practicum experience in a broad range of community settings and agencies dealing with psychological problems. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree.

[View course details in MyPlan: PSYCH 497](#)

PSYCH 498 Directed Reading in Psychology (1-3, max. 18)

Readings in special interest areas under supervision of departmental faculty. Discussion of reading in conference with the instructor. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree.

[View course details in MyPlan: PSYCH 498](#)

PSYCH 499 Undergraduate Research (1-3, max. 18)

Design and completion of individual research projects. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree.

[View course details in MyPlan: PSYCH 499](#)

PSYCH 500 Proseminar in Psychology (1, max. 10)

Presentations on professionally and practically useful topics by guest faculty presenters designed for first-year and second-year graduate students. Prerequisite: graduate standing in psychology, or permission of instructor.

Instructors: Greenwald Credit/no-credit only.

[View course details in MyPlan: PSYCH 500](#)

PSYCH 502 Core Concepts in Animal Behavior (3)

Reading, reports, and discussion on animal behavior, with a focus on topics that lie at the interface of animal behavior, evolutionary science, neurobiology, and psychology. Includes social organization, mating systems, foraging, learning, communication, and agonistic behavior. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Barash, Beecher, Sisneros

[View course details in MyPlan: PSYCH 502](#)

PSYCH 503 Core Concepts in Behavior Genetics (4)

Overview of current approaches to genetic analysis in psychology. Role of genetics in behavioral variation, and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects of genes, and patterns of gene expression. Genetic effects on major behavioral differences. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Shoda

[View course details in MyPlan: PSYCH 503](#)

PSYCH 504 Core Concepts in Behavioral Neuroscience (3)

Historical and contemporary perspectives in behavioral neuroscience. Current methodologies and research strategies. May include sensory processing, genetics, behavioral neuroendocrinology, developmental neural plasticity, neurobiology of learning and memory, lifespan perspectives on behavioral neurobiology, and psychopharmacology. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Buck, Covey, Diaz, Kim, Mizumori, Olavarria

[View course details in MyPlan: PSYCH 504](#)

PSYCH 505 Core Concepts in Neuroethology (3) *Sisneros*

Reviews the current topics and approaches to the study of the neurobiological basis of natural behaviors or "neuroethology." Explores core concepts in the field of neuroethology and examines the role of the nervous system and the underlying neural circuits adapted for species-typical behaviors. Offered: AWSp.

[View course details in MyPlan: PSYCH 505](#)

PSYCH 506 Core Concepts in Cognitive Neuroscience (3)

Combines psychological models of information processing with research techniques in the biomedical sciences. Topics in vision, attention, memory, motor behavior, and language illustrate this integrative approach. Research methods include behavioral, single unit, lesion, and neuro-imaging techniques. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Murray, Osterhout

[View course details in MyPlan: PSYCH 506](#)

PSYCH 507 Core Concepts in Cognitive Psychology (3)

Survey of the major topics in human cognition. Discussion of memory, concepts and categories, language, decision-making, and problem solving. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Bassok, Miyamoto

[View course details in MyPlan: PSYCH 507](#)

PSYCH 508 Core Concepts in Perception (3)

Current topics in perception, psychophysics, sensory memory, pattern recognition, letter and word perception, and visual masking. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Loftus Offered: Sp.

[View course details in MyPlan: PSYCH 508](#)

PSYCH 509 Core Concepts in Computational Cognitive and Neural Modeling (5)

Introduction to the basics of computational modeling techniques for psychologists and neuroscientists. Covers

two common modeling approaches (production system models and neural network models) and describes the principles of their application to semantic memory, working memory, perception, reinforcement learning, skill acquisition, and transfer.

[View course details in MyPlan: PSYCH 509](#)

PSYCH 510 Core Concepts in Social Psychology (4)

An overview of contemporary theories and research in social psychology, focusing on introducing graduate students to the field as practitioners of social psychological research. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Cheryan, Kaiser, Shoda

[View course details in MyPlan: PSYCH 510](#)

PSYCH 511 Core Concepts in Personality (3)

Review of personality research. Roles of cognitive, affective, motivational, and psychodynamic processes. Critical evaluation of current personality, its antecedents, and its influences over behavior. Attention to role of personality variables in social relationships. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Shoda, Smith

[View course details in MyPlan: PSYCH 511](#)

PSYCH 512 Development of Prejudice (3) *S. CHERYAN, K. OLSON*

Explores how prejudice emerges and develops across the lifespan. Each week focuses a big question (e.g., "What are the earliest signs of prejudice? Can the disadvantaged be prejudiced?") with supporting readings from the developmental, social, cultural, and evolutionary psychology literatures.

[View course details in MyPlan: PSYCH 512](#)

PSYCH 513 Core Concepts in Biological Basis of Development (4)

Embryological, genetic, physiological, and evolutionary perspectives of human development; biological development in infancy; sensory development and its influence on the development of perception; primate models for human development. Prerequisite: graduate standing in psychology, or permission of instructor.

[View course details in MyPlan: PSYCH 513](#)

PSYCH 514 Core Concepts in Early Cognitive and Linguistic Development (4)

Origins and early development of thought and language. Piagetian theory and modern-day revisions. In-depth examination of historical and philosophical bases for current empirical research. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Meltzoff, Sommerville

[View course details in MyPlan: PSYCH 514](#)

PSYCH 515 Core Concepts in Personality and Social Development (4)

Theories and empirical literature in personality and social development throughout infancy, childhood.

Prerequisite: graduate standing in psychology, or permission of instructor.

[View course details in MyPlan: PSYCH 515](#)

PSYCH 516 Core Concepts: Early Social Cognition in Typical Development and Autism (3)

Describes current theoretical and empirical approaches to understand social cognitive processes underlying infants' ability and motivation to attend to, interpret, and act on social information. Research findings from typical infants and those at elevated risk for autism identify the implications of divergent developmental trajectories.

[View course details in MyPlan: PSYCH 516](#)

PSYCH 517 Core Concepts in Systems of Psychotherapy (3)

Theory and research of major systems of psychotherapy, including the psychodynamic, behavioral, cognitive, and family systems approaches as an introduction to subsequent practice in clinical psychology. Required for all graduate students majoring in clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: George Offered: A.

[View course details in MyPlan: PSYCH 517](#)

PSYCH 518 Core Concepts in Behavior Disorders (5)

Major types of behavior disorders, with emphasis on clinical manifestations, relevant research, and theoretical perspectives. Required for all graduate students majoring in clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Zoellner Offered: W.

[View course details in MyPlan: PSYCH 518](#)

PSYCH 519 Core Concepts in Behavior Change (5)

Behavioral theory and behavioral approaches to treatment. Prerequisite: PSYCH 518 and permission of instructor. Instructors: Kohlenberg Offered: Sp.

[View course details in MyPlan: PSYCH 519](#)

PSYCH 520 Core Concepts in Affective Science (3)

Provides an overview of the major theories, research findings, and applications in the scientific study of emotion. Topics include the function of emotion; physiological and behavioral expression of emotion; emotion regulation; emotions and health; and how emotions influence intimate relationships.

[View course details in MyPlan: PSYCH 520](#)

PSYCH 522 Laboratory in Statistical Computation I (2)

Techniques of computation using statistical software on personal computers. Organization of data files, transformations of variables, graphical representations of data, descriptive statistics, elementary inferential statistical analyses. Prerequisite: concurrent enrollment in PSYCH 524, or permission of instructor. Offered: A.

[View course details in MyPlan: PSYCH 522](#)

PSYCH 523 Laboratory in Statistical Computation II (2)

Techniques of statistical computation using statistical software on personal computers and mainframe computers. Multiple regression, analysis of variance and covariance. Planned and post hoc comparisons and confidence intervals. Data analytic diagnostics for violations of regression assumptions. Prerequisite: PSYCH 522 and PSYCH 524, concurrent enrollment in PSYCH 525, or permission of instructor. Offered: W.

[View course details in MyPlan: PSYCH 523](#)

PSYCH 524 Introduction to Statistics and Data Analysis (4)

Basic concepts of statistical theory and methods of data analysis. Emphasis on the integration of statistical theory, statistical computation, and psychological research methods. Required of all first-year graduate students in psychology. Prerequisite: concurrent enrollment in PSYCH 522, or permission of instructor. Offered: A.

[View course details in MyPlan: PSYCH 524](#)

PSYCH 525 Linear Models and Data Analysis (4)

Analysis of data in the behavioral sciences. Required of all first-year graduate majors. Prerequisite: PSYCH 522, PSYCH 524; concurrent registration in PSYCH 523, or permission of instructor. Offered: W.

[View course details in MyPlan: PSYCH 525](#)

PSYCH 526 Multivariate Statistics (4)

An introduction to statistical modeling; interactive data analyses; use of regression, ANOVA, logistic regression, and log-linear models in explanatory studies. Prerequisite: PSYCH 525.

[View course details in MyPlan: PSYCH 526](#)

PSYCH 528 Practical Methods for Behavioral Research (4, max. 8) *Greenwald, Shoda*

Examination of methodological, practical, and communication problems associated with research on human behavior. Topics include: selecting research problems, use of theory, types of validity, common sense about statistics, when to replicate, dealing with unpredicted results, strategies for presentation and publication.

Offered: Sp.

[View course details in MyPlan: PSYCH 528](#)

PSYCH 529 Advanced Research Methods (5)

Surveys advanced clinical research methods not covered in the required statistics sequence. Examples include

structural equation modeling, hierarchical linear modeling, growth curve modeling, and taxometric analyses.⁹⁹⁷
Hands-on experience gained through weekly assignments using each method. Prerequisite: PSYCH 525.
[View course details in MyPlan: PSYCH 529](#)

PSYCH 530 Introduction to Latent Variables (4)

Analyses techniques to assess effects of latent variables in presence of error in observed data. Provides experience with statistical tools for confirmatory structural equation modeling and testing of hypotheses concerning causal and other relations among latent variable. Prerequisite: PSYCH 525, or permission of instructor. Instructors: Greenwald

[View course details in MyPlan: PSYCH 530](#)

PSYCH 531 Research Methods in Clinical and Community Psychology (4) *Lengua*

Addresses issues concerning the design and implementation of research in clinical and community psychology. Topics include validity; reliability; experimental, quasi-, and non-experimental designs; causal inference; interpretation of data; and research ethics. Provides students with tools to evaluate research, develop hypotheses, and design rigorous empirical studies. Offered: A.

[View course details in MyPlan: PSYCH 531](#)

PSYCH 532 Single Subject Design and Research (3)

Single subject designs (reversal, multiple baseline, changing criterion) and their application to clinical cases. Prerequisite: graduate major standing in clinical psychology, or permission of instructor. Instructors: Kohlenberg
Offered: W.

[View course details in MyPlan: PSYCH 532](#)

PSYCH 535 Scientific Writing in Psychology (5, max. 10)

Addresses issues in scientific writing and publishing; laboratories assist with writing, and provide feedback on drafts of articles throughout the writing process. Students write a journal article to submit for publication. Other writing projects are also possible with instructor's permission. Credit/no-credit only.

[View course details in MyPlan: PSYCH 535](#)

PSYCH 536 Grant Preparation in Psychology (3, max. 6)

Prepare and submit an application for a major national fellowship. Joint registration in PSYCH 598 with faculty adviser is required. Prerequisite: graduate standing in psychology and permission of instructor. Instructors: Mizumori
Credit/no-credit only.

[View course details in MyPlan: PSYCH 536](#)

PSYCH 537 Teaching of Psychology (3)

Examines issues concerning the teaching of psychology, including educational goals, course development, instructional methods, TA-student and TA-faculty relations, grading, student diversity, and problem situations. Assignments designed to enhance students' organizational, presentational, and problem-solving skills. Prerequisite: graduate standing in the Department of Psychology. Instructors: Passer
Credit/no-credit only.

[View course details in MyPlan: PSYCH 537](#)

PSYCH 538 Interactive Software for Psychological Research (4)

Introduction to a variety of computing and programming skills with the goal of teaching how to design, program, and analyze experiments. Topics include principles of programming, the programming environment, presentation software, and data collection, management, and analysis. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Boynton, Fine, Loftus

[View course details in MyPlan: PSYCH 538](#)

PSYCH 540 Advances in Psychology (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in psychology. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor.

[View course details in MyPlan: PSYCH 540](#)

PSYCH 541 Advances in Animal Behavior (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in animal behavior. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Barash, Beecher, Brenowitz, Kyes, Sisnersos

[View course details in MyPlan: PSYCH 541](#)

PSYCH 542 Advances in Behavioral Neuroscience (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in behavioral neuroscience. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Buck, Covey, Diaz, Kim, Mizumori, Olavarria

[View course details in MyPlan: PSYCH 542](#)

PSYCH 543 Advances in Child Clinical Psychology (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in child clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: King, Lengua

[View course details in MyPlan: PSYCH 543](#)

PSYCH 544 Advances in Clinical Psychology (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in clinical psychology. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: George, Kohlenberg, Linehan, Smith, Zoellner

[View course details in MyPlan: PSYCH 544](#)

PSYCH 545 Advances in Cognition/Perception (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in cognition/perception. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Loftus

[View course details in MyPlan: PSYCH 545](#)

PSYCH 546 Advances in Developmental Psychology (1-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in developmental psychology. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Kahn, Meltzoff, Repacholi, Smoll, Sommerville

[View course details in MyPlan: PSYCH 546](#)

PSYCH 547 Advances in Social/Personality (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in social psychology/personality. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Cheryan, Greenwald, Kaiser, Shoda

[View course details in MyPlan: PSYCH 547](#)

PSYCH 548 Advances in Quantitative Psychology (3-5, max. 30)

Intensive readings from the current literature on an emerging topic or theoretical perspective in quantitative psychology. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Flaherty

[View course details in MyPlan: PSYCH 548](#)

PSYCH 549 Seminar in Physiological Psychology (2)

Prerequisite: permission of instructor. Instructors: Diaz

[View course details in MyPlan: PSYCH 549](#)

PSYCH 550 Seminar in Psychology (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor.

[View course details in MyPlan: PSYCH 550](#)

PSYCH 551 Seminar in Animal Behavior (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Barash, Beecher, Brenowitz, Sisneros

[View course details in MyPlan: PSYCH 551](#)

PSYCH 552 Seminar in Behavioral Neuroscience (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Buck, Covey, Diaz, Kenney, Mizumori, Olavarria

[View course details in MyPlan: PSYCH 552](#)

PSYCH 553 Seminar in Child Clinical Psychology (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: King, Lengua

[View course details in MyPlan: PSYCH 553](#)

PSYCH 554 Seminar in Clinical Psychology (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: George, Kohlenberg, Linehan, Simoni, Smith, Zoellner

[View course details in MyPlan: PSYCH 554](#)

PSYCH 555 Seminar in Cognition/Perception (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Bassok, Boynton, Buck, Fine, Kerr, Loftus, Murray

[View course details in MyPlan: PSYCH 555](#)

PSYCH 556 Seminar in Developmental Psychology (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Meltzoff, Repacholi, Smoll

[View course details in MyPlan: PSYCH 556](#)

PSYCH 557 Seminar in Social/Personality (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Brown, Cheryan, Greenwald, Kaiser, Leu, Shoda

[View course details in MyPlan: PSYCH 557](#)

PSYCH 558 Seminar in Quantitative Psychology (1-2, max. 30)

Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Flaherty, Little, Miyamoto

[View course details in MyPlan: PSYCH 558](#)

PSYCH 560 Research Strategies (1-2, max. 30)

Group discussions of problems and continuing strategies for ongoing and future research projects. Prerequisite: graduate standing in psychology; others by permission of department.

[View course details in MyPlan: PSYCH 560](#)

PSYCH 561 Current Trends in Psychology (*, max. 30)

Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: PSYCH 561](#)

PSYCH 562 Evolutionary Psychology of Gender, Mating, and Reproduction (3) *Barash, Beecher, Sisneros*

Reviews evidence for biological factors influencing human mating and reproductive behavior, through application of concepts and theory from animal behavior, behavioral genetics, and evolutionary biology.

Offered: W.

[View course details in MyPlan: PSYCH 562](#)

PSYCH 563 Developmental Psychology and the Human Relationship with Nature (4) Kahn

Theories of development used to investigate the ontogenesis of the human relationship with nature. An emphasis on social cognition, children's environmental moral reasoning, the effects of technology in children's lives, and evolutionary theory. Offered: W.

[View course details in MyPlan: PSYCH 563](#)

PSYCH 564 Advanced Attitude Theory (5)

Theoretical, methodological, and empirical work on the concept of attitude and its practical applications. Topics include: definition of attitude, measurement of attitudes, information-processing theories, functional theories, cognitive structure theories, the self as attitude object, unconscious attitudinal processes. Prerequisite: PSYCH 445; PSYCH 525 or equivalent; or permission of instructor. Instructors: Greenwald

[View course details in MyPlan: PSYCH 564](#)

PSYCH 565 Quantifying Brain Analysis (3)

Covers concepts and applications of statistically unbiased methods for quantifying brain structure. Hands-on learning and application of concepts, sampling strategies and calculations for unbiased stereological measure of the size and number of various brain components.

[View course details in MyPlan: PSYCH 565](#)

PSYCH 566 Neural Correlates of Perceptual Cognition (3) Olavarria

Contribution of sensory systems to perceptual capabilities. Critical review of literature on the neural correlates of abilities such as sensory discrimination, subjective perception, attention, imagery, object and face recognition, and spatial behavior. Some sensory disabilities reviewed. Offered: W.

[View course details in MyPlan: PSYCH 566](#)

PSYCH 567 Higher Order Cognition (3) Bassok

Survey of research on higher-order cognition with an emphasis on theoretical accounts of knowledge representation. Topics include problem solving, inductive and deductive reasoning, hypothesis testing, causal inferences, similarity judgments, and categorization.

[View course details in MyPlan: PSYCH 567](#)

PSYCH 568 Cognitive Approaches to Human Memory (3)

Examination of current topics in human memory from the perspective of cognitive psychology. Offered: Sp.

[View course details in MyPlan: PSYCH 568](#)

PSYCH 570 Child Clinical Psychology (4)

Issues and content of child clinical psychology, promotion of student's beginning work in research. Prerequisite: graduate major or minor standing in child-clinical psychology.

[View course details in MyPlan: PSYCH 570](#)

PSYCH 571 Developmental Psychopathology (5)

Broad survey of major categories of child and adolescent disorders. Emphasis on scientific, empirical approach to description, classification, and research literature on these disorders. Required for all graduate students majoring in child clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor.

[View course details in MyPlan: PSYCH 571](#)

PSYCH 572 Approaches to Child Treatment (4)

Major approaches to child psychotherapy, including specific applications, issues in treatment, and research. Prerequisite: graduate major standing in child-clinical psychology, or permission of instructor. Offered: Sp.

[View course details in MyPlan: PSYCH 572](#)

PSYCH 573 Psychological Assessment of Children (5)

Assessment techniques appropriate to children, including those for infants, special problems of preschool and school-age children; projective tests, family interviews, and target observational assessment; training in

administration of selected techniques. Prerequisite: PSYCH 576 and permission of instructor.

[View course details in MyPlan: PSYCH 573](#)

PSYCH 574 Community Psychology (4)

Overview of key issues and concepts in the field of community psychology. History of field and overview of different models used to conceptualize system-level mental health issues and delivery systems. Emphasizes theory and research rather than intervention. Prerequisite: psychology graduate student, or permission of instructor.

[View course details in MyPlan: PSYCH 574](#)

PSYCH 575 Anxiety Disorders (3) *Zoellner*

General topics related to primary anxiety disorders (panic, OCD, GAD, posttraumatic stress disorder, and specific phobias), including diagnosis, theory, and treatment.

[View course details in MyPlan: PSYCH 575](#)

PSYCH 576 Assessment of Intelligence (5)

Current theory and research on intelligence and intelligence testing; training in administration, scoring, and interpretation of major intelligence tests; ethical issues in assessment. Prerequisite: graduate major standing in child-clinical or clinical psychology, or graduate minor standing in child-clinical psychology. Instructors: King, Lengua Offered: Sp.

[View course details in MyPlan: PSYCH 576](#)

PSYCH 577 Psychological Assessment (3)

Provides a foundation in the theory underlying adult assessment as well as training in specific adult assessment techniques. Focuses on behavioral and cognitive assessment. Prerequisite: permission of instructor.

[View course details in MyPlan: PSYCH 577](#)

PSYCH 578 Approaches to Psychological Assessment (4)

Problem-solving approach to psychological assessment; review of psychological tests and procedures and presentation of approaches to their clinical interpretation and use. Required for all graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical psychology. Offered: Sp.

[View course details in MyPlan: PSYCH 578](#)

PSYCH 579 Dialectical Behavior Therapy Skills Group Training (3) *Linehan*

In-depth learning of skills training component of dialectical behavior therapy, an empirically supported treatment approach for high risk clinical populations. Topics include skills in mindfulness, emotion regulation, interpersonal effectiveness and distress tolerance. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PSYCH 579](#)

PSYCH 580 Minority Mental Health (3)

Surveys topics on mental health and treatment of racial and ethnic minorities. Theory emphases include: models addressing ethnic identity, cross-cultural differences, models of culturally sensitive intervention. Practice emphases include unique psychotherapy strategies for: African-, Asian-, and Latino-Americans, and American Indians. Prerequisite: graduate clinical major standing in psychology, or permission of instructor. Instructors: Barrett, George, Simoni

[View course details in MyPlan: PSYCH 580](#)

PSYCH 581 Cross-Cultural Competency I (2)

Focuses on development of multicultural competence in the provision of psychological services to meet APA guidelines for ethnic, linguistic, and culturally diverse populations. Students address personal development, increase their knowledge of diverse groups, and study effective models of intervention in working with clients of diverse backgrounds. Prerequisite: PSYCH 580. Instructors: George

[View course details in MyPlan: PSYCH 581](#)

PSYCH 582 Cross-Cultural Competency II (2)

Third in the graduate multicultural-competence sequence. Focuses on American ethnic minorities, multiracial children and families, social action, and organizational development. Prerequisite: PSYCH 581. Instructors: George

[View course details in MyPlan: PSYCH 582](#)

PSYCH 583 Introduction to Dialectical Behavioral Therapy (3) *Linehan*

Introduces dialectical behavioral therapy, an empirically supported treatment approach for high risk clinical populations. Topics include mindfulness, dialectics, validation, behavioral therapy, and case conceptualization. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PSYCH 583](#)

PSYCH 584 Behavioral Methods: Clinical Interventions (3) *M. LINEHAN*

Provides students with basic skills required for competent practice of cognitive and behavioral therapies. Topics include behavioral skills training, cognitive restructuring, contingency management, and exposure-based procedures. Prerequisite: minimum second year graduate clinical psychology student.

[View course details in MyPlan: PSYCH 584](#)

PSYCH 585 Methods in Suicide and Crisis Intervention (3) *Linehan*

Provides a foundation for risk assessment and crisis intervention with suicidal individuals. Addresses risk factors for suicide across the age range, and methods for both behavioral interventions and crisis management with suicidal individuals. Also covers ethical issues. Offered: Sp.

[View course details in MyPlan: PSYCH 585](#)

PSYCH 586 Clinical Personality Assessment (3)

Use of objective personality inventories in the description of normal and abnormal personality and use of such information in case conceptualization and treatment planning. Minnesota Multiphasic Personality Inventory, Millon Clinical Multiaxial Inventory. Prerequisite: clinical psychology graduate standing. Instructors: Smith
Credit/no-credit only.

[View course details in MyPlan: PSYCH 586](#)

PSYCH 587 Clinical Methods: Interviewing (2) *Fagan*

Provides the foundation for developing good clinical skills. Enables students to conduct an initial clinical interview and generate a diagnostic formulation, problem list, and treatment plan after taking a complete history. Limited to and required of all second-year clinical psychology graduate students. Credit/no-credit only. Offered: A.

[View course details in MyPlan: PSYCH 587](#)

PSYCH 588 Clinical Methods: Ethics (3) *Fagan*

Enables students to acquire a thorough working knowledge of the American Psychological Association's Ethical Standards for Psychologists; an awareness of Washington state law as it affects psychologists and a knowledge of how to identify and solve ethical dilemmas. Limited to and required of all second-year clinical psychology graduate students. Credit/no-credit only. Offered: W.

[View course details in MyPlan: PSYCH 588](#)

PSYCH 589 Clinical Supervision (4, max. 100)

Supervised psychotherapy involving several individual clients. Separate consultations with instructor for intensive supervision of each case. Occasional meetings in small groups of instructors and students to discuss case material. Assigned readings appropriate to each case with opportunities to discuss these with instructor. Prerequisite: clinical psychology graduate standing and permission of instructor. Instructors: George, King, Kohlenberg, Lengua, Linehan, Simoni, Smith, Zoellner Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: PSYCH 589](#)

PSYCH 590 Practicum in Psychological Assessment (2)

Demonstration and practice of selected psychological test procedures and interviewing skills. Concurrent

registration in PSYCH 576 or PSYCH 578 required. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical or child-clinical psychology and permission of instructor.

[View course details in MyPlan: PSYCH 590](#)

PSYCH 591 Issues in Clinical Psychology (1, max. 3)

Personal and professional issues in clinical psychology. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical psychology. Instructors: Smith Credit/no-credit only. Offered: AW.

[View course details in MyPlan: PSYCH 591](#)

PSYCH 593 Clinical Practica and Colloquium (1-3) C. FAGAN

Required of all clinical psychology graduate students seeing clients in the clinic. Clinical colloquium required of all second-year students, optional for others. Credit/no-credit only. Offered: AWS.

[View course details in MyPlan: PSYCH 593](#)

PSYCH 594 Advanced Clinical Practicum (1-6, max. 55)

Advanced supervised training in specific empirically supported treatment approaches. Each practicum provides intensive training in a specific treatment, such as dialectical behavior therapy, functional analytic psychotherapy, acceptance and commitment therapy, mindfulness-based relapse prevention, and exposure treatment for anxiety disorders. Prerequisite: graduate standing in clinical psychology; PSYCH 593; permission of instructor.

Instructors: Kohlenberg, Linehan, Smith, Zoellner Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: PSYCH 594](#)

PSYCH 596 Advanced Teaching Practicum (2, max. 6)

Supervised participation in graduate teaching. Prerequisite: graduate student in psychology and permission of instructor. Offered: AWSpS.

[View course details in MyPlan: PSYCH 596](#)

PSYCH 597 Fieldwork in Clinical Psychology (1-5, max. 36)

Prerequisite: second-year graduate major standing and permission of departmental faculty. Instructors: George, King, Kohlenberg, Lengua, Linehan, Simoni, Smith, Zoellner

[View course details in MyPlan: PSYCH 597](#)

PSYCH 598 Directed Reading in Psychology (*, max. 30)

Selected topics. Prerequisite: permission of a supervising psychology faculty member.

[View course details in MyPlan: PSYCH 598](#)

PSYCH 599 Directed Research in Psychology (1-3, max. 24)

Supervised participation in research. Prerequisite: permission of a supervising psychology faculty member.

[View course details in MyPlan: PSYCH 599](#)

PSYCH 600 Independent Study or Research (*-)

Offered: AWSpS.

[View course details in MyPlan: PSYCH 600](#)

PSYCH 700 Master's Thesis (*-)

Offered: AWSpS.

[View course details in MyPlan: PSYCH 700](#)

PSYCH 800 Doctoral Dissertation (*-)

Offered: AWSpS.

Scandinavian Studies

[Display as tabs](#)

Department Overview

318 Raitt

Scandinavian studies is concerned with the study of languages, literature, history, politics, and cultures of Denmark, Finland, Iceland, Norway, Sweden, and the Baltic States of Estonia, Latvia, and Lithuania. Emphasis is placed both on contemporary literature and culture and on historical development. Although most courses designed for majors are taught in the original languages, a broad spectrum of courses designed primarily for nonmajors is offered in English.

Undergraduate Program

Adviser
305X Raitt, Box 353420
(206) 543-6099

The Department of Scandinavian Studies offers the following programs of study:

- The Bachelor of Arts degree with a major in Danish, Finnish, Norwegian, Swedish, or Scandinavian area studies.
- Minors in Danish, Finnish, Norwegian, Swedish, Baltic studies, and Scandinavian area studies.

Bachelor of Arts

Suggested First- and Second-Year College Courses: First- and second-year Danish, Estonian, Finnish, Latvian, Lithuanian, Norwegian, or Swedish.

Department Admission Requirements

Students in good academic standing may declare this major at any time.

Major Requirements

Danish, Finnish, Norwegian, or Swedish: 65 credits, of which 35 are in upper-division courses. The 65 credits include 30 credits in first- and second-year language training, 15 credits in literature courses in the chosen language, one course in Scandinavian area studies, a course in the history of Scandinavian languages, a course in Scandinavian literature in translation, and a senior essay (SCAND 498).

[Course Descriptions](#)

Scandinavian Area Studies: 65 credits, of which 30 are in upper-division courses. The 65 credits include 30 credits in the chosen Scandinavian or Baltic language (normally first and second year), a minimum of one course from each of four area-studies fields (Scandinavian folklore and film; literature in translation; history and mythology; society and politics), and a senior essay (SCAND 498).

Minor

Minor Requirements:

Baltic Studies: 35 credits as follows:

1. 15 credits of first year Estonian, Latvian, or Lithuanian
2. 20 credits of upper-division Scandinavian coursework, including at least one Baltic studies course from the following: SCAND 344, SCAND 345, SCAND 454, SCAND 455
3. Students entering the UW with language proficiency in Estonian, Latvian, or Lithuanian beyond the first year of language training must take an additional 10 credits of upper-division language courses and must earn a minimum total of 25 credits in relevant coursework

Danish, Finnish, Norwegian, or Swedish: 35 credits as follows:

1. 15 credits of first year Danish, Finnish, Norwegian, or Swedish
2. 15 credits of second year Danish, Finnish, Norwegian, or Swedish
3. 5 credits of upper-division Scandinavian coursework or 5 credits of an upper-division language course
4. Students entering the UW with language proficiency in Danish, Finnish, Norwegian, or Swedish beyond the first year of language training must take an additional 10 credits of upper-division language courses and must earn a minimum total of 25 credits in relevant coursework.

Estonian, Latvian, Lithuanian: 35 credits as follows:

1. 15 credits of first year Estonian, Latvian, or Lithuanian
2. 15 credits of second year Estonian, Latvian, or Lithuanian
3. 5 credits of Baltic studies coursework (SCAND 344, SCAND 345, SCAND 454, or SCAND 455), or 5 credits of an upper-division language course.
4. Students entering the UW with language proficiency in Estonian, Latvian, or Lithuanian beyond the first year of language training must take an additional 10 credits of upper-division language courses and must earn a minimum total of 25 credits in relevant coursework.

Scandinavian Area Studies: 35 credits as follows:

1. 15 credits of first year Danish, Finnish, Norwegian, or Swedish
2. 20 credits of upper-division Scandinavian coursework
3. Students entering the UW with language proficiency in Danish, Finnish, Norwegian, or Swedish beyond the first year of language training must take an additional 10

credits of upper-division language courses and must earn a minimum total of 25 credits in relevant coursework.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Graduates of the Department of Scandinavian Studies have an advanced level of proficiency in a Scandinavian, Fenno-Ugric, or Baltic language. They can talk about a wide range of concrete topics in a sustained conversation and have the ability to interpret and write about literary texts, non-fiction, and other media. Graduates also have knowledge of major figures, ideas, and institutions in Baltic or Nordic culture, history, literature, and politics that enriches a global perspective. They have the ability to research and synthesize source material in the target language and can produce a scholarly essay in English on a topic within their area of concentration.

Graduates of the Scandinavian studies program have the qualifications to embark on careers that require skills in the interpretation of information in various media, critical analysis, and effective communication and to continue in graduate programs and professional schools that value an international perspective.

- *Instructional and Research Facilities:* None
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Internships at museums or with Scandinavian businesses are possible. Exchange program opportunities with Aarhus, Copenhagen, Linköping, Stockholm, Uppsala, Bergen, Oslo, Åbo/Turkku, and Helsinki also exist.
- *Department Scholarships:* The department offers several scholarships for students of Danish, Finnish, Norwegian, and Swedish.
- *Student Organizations/Associations:* the Danish Club, the Norwegian Club, the Swedish Club, and the Finnish Club.

Graduate Program

Graduate Program Coordinator
318 Raitt, Box 353420
(206) 543-0645
uwscand@uw.edu

The Department of Scandinavian Studies offers graduate programs of study leading to the Master of Arts and Doctor of Philosophy degrees. For the M.A. degree, the emphasis may be placed on Old Icelandic (Old Norse), Danish, Finnish, Norwegian, Swedish, or Scandinavian area studies. Ph.D. degree aspirants must complete one quarter's study of Old Icelandic and concentrate their studies primarily within one of five areas: Danish language and literature, Finnish language and literature, Norwegian language and literature, Swedish language and literature, or Scandinavian area studies.

For the graduate student, programs in Scandinavian studies open several areas of inquiry: medieval, particularly Old Icelandic; modern, including the eighteenth century;

Romanticism; the Modern Breakthrough; and the twentieth century. Attention is paid to the history of Scandinavian languages, prose, drama, and poetry. Opportunities for supervised study and specialization also exist in such areas as Scandinavian history, politics, mythology, folklore, and Baltic studies, as well as in comparative-literature study.

Master of Arts

Two options are available, each allowing the student to emphasize a target language while pursuing courses in Scandinavian languages, literature, or area studies.

1. An emphasis on Scandinavian languages and literature includes acquisition of a working knowledge of literary history, critical theory and text analysis, plus study of one secondary area.
2. An emphasis on Scandinavian area studies includes the study of Scandinavian folklore, mythology, history, politics, society, and Baltic studies, with an emphasis in one of these areas.

Admission Requirements

Bachelor of Arts degree with major in Danish, Finnish, Norwegian, Swedish, or Scandinavian area studies, or equivalent background, including advanced language proficiency in one Nordic language.

Degree Requirements

Minimum 40 credits in courses or seminars in Scandinavian and related subjects approved by the department, of which at least 20 credits must be in courses numbered 500 and above; reading knowledge of French or German (another non-Scandinavian language may be substituted with faculty approval); written and oral examination; option between thesis and non-thesis program. Candidates in Scandinavian languages and literature must satisfy the departmental requirement in Old Icelandic.

Doctor of Philosophy

Concentration primarily on one of two areas: Scandinavian languages and literature, or Scandinavian area studies, with an emphasis on the student's target language. Major attention given to the history of the Scandinavian languages, literary history and theory, and genre study. Opportunities for graduate work in such areas as Scandinavian history, politics, mythology, folklore, and Baltic studies exist.

Admission Requirements

Master of Arts degree with major in Scandinavian languages and literature or equivalent background.

Degree Requirements

Minimum 90 credits, to include:

40 credits beyond the master's degree in courses or seminars in Scandinavian languages and literature and related subjects approved by the department, one quarter's study of Old Icelandic, a reading knowledge of French and German (other non-Scandinavian languages may be substituted with faculty approval), general examination for admission to candidacy,

27 credits of SCAND 800 (dissertation) taken over at least three quarters, and a final examination on the dissertation.

Financial Aid

Teaching assistantships in Danish, Finnish, Norwegian, Swedish, and Scandinavian area studies are usually available, as well as occasional research assistantships. If funding allows, a Baltic-language teaching assistantship may be available.

Surveys Estonian literary and cultural history from the prehistoric period to the present. Authors, musicians, artists, and filmmakers include Kaplinski, Koidula, Kreutzwald, Vilde, Part, Tormis, Meri, Parn, Pollu, and

others. Offered: jointly with JSIS A 154; AWSpS.

[View course details in MyPlan: SCAND 154](#)

SCAND 155 Danish Literary and Cultural History (5) VLPA Hansen

Introduces the literary and cultural history of Denmark. Focuses on several major literary works and cultural moments from the Viking Age, the Enlightenment, nineteenth-century Romanticism, twentieth-century Modernism, and current Danish literature, journalism, and film.

[View course details in MyPlan: SCAND 155](#)

SCAND 156 Introduction to Swedish Literary and Cultural History (5) VLPA I. DUBOIS, A. GAVEL ADAMS

Introduction to modern Swedish literature, culture, and contemporary discourses on race, multiculturalism, gender equality, and LGBTI. Offered: WSp.

[View course details in MyPlan: SCAND 156](#)

SCAND 200 Scandinavia Today (5) VLPA/I&S C. INGEBRITSEN

Examines the distinctive policies, institutions, and social norms, and cultures of contemporary Scandinavian societies. Topics include: the development of a "middle way" between capitalism and socialism, the welfare state, social policy, Scandinavia in the international system, and contemporary debates about market deregulation and immigration. Course uses examples from policy debate and culture as objects of study.

[View course details in MyPlan: SCAND 200](#)

SCAND 230 Introduction to Folklore Studies (5) VLPA/I&S

Comprehensive overview of the field of folkloristics, focusing on verbal genres, customs, belief, and material culture. Particular attention to the issues of community, identity, and ethnicity. Offered: jointly with C LIT 230.

[View course details in MyPlan: SCAND 230](#)

SCAND 232 Hans Christian Andersen and the Fairy Tale Tradition (5) VLPA

Influence of Hans Christian Andersen and the fairy tale on modern Scandinavian tales and stories. Investigates the significance of the fairy tale in the modern world, with attention to writers such as Isak Dinesen, Knut Hamsun, Villy Sorensen, William Heinesen.

[View course details in MyPlan: SCAND 232](#)

SCAND 251 Holberg and His Comedies in English (2) VLPA

Holberg and his major dramas, with attention to the comic tradition in the Scandinavian theatre.

[View course details in MyPlan: SCAND 251](#)

SCAND 270 Sagas of the Vikings (5) VLPA

Icelandic sagas and poetry about Vikings in the context of thirteenth-century society.

[View course details in MyPlan: SCAND 270](#)

SCAND 275 Crime Scenes: Investigating the Cinema and Its Cultures (5) VLPA

Teaches how to analyze film by closely studying crime scenes from historical and contemporary German and Scandinavian cinema. Directors studied include Fritz Lang, Carl Th. Dreyer, Billy Wilder, and Lars von Trier. Offered: jointly with GERMAN 275.

[View course details in MyPlan: SCAND 275](#)

SCAND 280 Ibsen and His Major Plays in English (5) VLPA

Reading and discussion of Ibsen's major plays.

[View course details in MyPlan: SCAND 280](#)

SCAND 312 Masterpieces of Scandinavian Literature (5) VLPA

Major works of Scandinavian literature by selected authors.

[View course details in MyPlan: SCAND 312](#)

SCAND 315 Scandinavian Crime Fiction (5) VLPA *Nestingen*

Studies Scandinavian crime-fiction literature and cinema since 1965, approaching crime fiction as a changing cultural artifact. Analyzes major issues and texts in the genre and its public status, while also training students in critical approaches to study of popular literature and culture. Offered: jointly with JSIS D 317; Sp.

[View course details in MyPlan: SCAND 315](#)

SCAND 316 Child and School in Scandinavia (5) VLPA/I&S *A. NESTINGEN*

The child and school in Scandinavia as constructed and represented in film and literature. Approaches child and school through key cultural examples and scholarly studies of these topics. Focal areas include changing historical notions of childhood and youth, schooling, the welfare state, and Finnish schools. Offered: Sp.

[View course details in MyPlan: SCAND 316](#)

SCAND 326 Scandinavia in World Affairs (5) I&S *C. INGEBRITSEN*

Introduction to the foreign relations of Scandinavia with a focus on Nordic security, international economic pressures, and global conflict resolution. Includes a survey of the national settings for international involvements and highlights the dilemmas for industrial societies exposed to the pressures of interdependence. Offered: jointly with POL S 326.

[View course details in MyPlan: SCAND 326](#)

SCAND 327 Women in Scandinavian Society (5) VLPA/I&S

Examines the changing position of women in Norway, Denmark, Finland, and Sweden from the 1880s to the contemporary period. Readings in literature and political science.

[View course details in MyPlan: SCAND 327](#)

SCAND 330 Scandinavian Mythology (5) VLPA

Integrative study of religious life in the pre-Christian North. Emphasis on source materials, including the Prose Edda and Poetic Edda. Discussion of historical, archeological, and folkloric evidence.

[View course details in MyPlan: SCAND 330](#)

SCAND 331 Folk Narrative (5) VLPA

Survey of various genres of folk narratives studied in performance contexts to reveal their socio-cultural functions in a variety of milieux. Theory and history of folk narrative study, taxonomy, genre classification, and interpretative approaches. Offered: jointly with C LIT 331.

[View course details in MyPlan: SCAND 331](#)

SCAND 334 Immigrant and Ethnic Folklore (5) VLPA/I&S

Survey of verbal, customary, and material folk traditions in ethnic context. Theories of ethnic folklore research applied to the traditions of American communities of Scandinavian, Baltic, or other European ancestry. Offered: jointly with C LIT 334.

[View course details in MyPlan: SCAND 334](#)

SCAND 335 Scandinavian Children's Literature (5) VLPA

The history, forms, and themes of Scandinavian children's literature from H. C. Andersen to the present. Exploration of the dominant concerns of authors, adult and non-adult audiences, and the uses to which juvenile and adolescent literature are put. Film adaptations and Scandinavian-American materials included.

[View course details in MyPlan: SCAND 335](#)

SCAND 340 Kalevala and the Epic Tradition (5) VLPA

An interdisciplinary approach to the Finnish national epic Kalevala, Estonian Kalevipoeg, and Saami Peivebarnen suongah jehtanasan maajisn. Discussion of traditional worldview, cultural revitalization, and emergent nationalism in nineteenth- and twentieth-century Finland, Estonia, and Saamiland.

[View course details in MyPlan: SCAND 340](#)

SCAND 341 Sami Culture and History (5) VLPA/I&S

An interdisciplinary look at the culture of Sami (Lapp) people in Scandinavia from the earliest archeological and

textual evidence to the present day. Focus on indigenous modes of expression and worldview, as well as¹⁰¹⁴ contemporary cultural and political activism.

[View course details in MyPlan: SCAND 341](#)

SCAND 344 The Baltic States and Scandinavia (5) I&S

Survey of the cultures and history of Estonia, Latvia, and Lithuania from the Viking Age to the present, with particular attention to Baltic-Scandinavian contacts. Offered: jointly with JSIS A 344.

[View course details in MyPlan: SCAND 344](#)

SCAND 345 Baltic Cultures (5) VLPA/I&S

Cultures and peoples of Estonia, Latvia, and Lithuania. Baltic literature, music, art, and film in social and historical context. Traditional contacts with Scandinavia and Central and East Europe. Offered: jointly with JSIS A 345.

[View course details in MyPlan: SCAND 345](#)

SCAND 350 Environmental Norms in International Politics (5) I&S *Ingebritsen*

Surveys development of international environmental consciousness from 1960s to present. Models of "green development"; ways in which norms for resource use have entered global politics. Patterns of state compliance with international environmental agreements, and why states fall short of meeting their international obligations. Offered: jointly with ENVIR 360/JSIS B 350.

[View course details in MyPlan: SCAND 350](#)

SCAND 351 Scandinavia, the European Union, and Global Climate Change (5) I&S

Reviews the history of climate change, the role of Swedish scientist Svante Arrhenius in defining greenhouse effects, Scandinavian policy response, and the role of the European Union in global climate change. Offered: jointly with JSIS A 351; WSp.

[View course details in MyPlan: SCAND 351](#)

SCAND 360 Scandinavian Cinema (3/5) VLPA

Major Scandinavian films and film directors from the 1920s to the present.

[View course details in MyPlan: SCAND 360](#)

SCAND 367 Sexuality in Scandinavia: Myth and Reality (5) VLPA/I&S

Examines selected Scandinavian literary and socio-political texts, films, and art to manifest the reality behind the myths of sexual freedom in Scandinavia.

[View course details in MyPlan: SCAND 367](#)

SCAND 370 The Vikings (5) VLPA/I&S

Vikings at home in Scandinavia and abroad, with particular emphasis on their activities as revealed in archaeological finds and in historical and literary sources. Offered: jointly with HSTAM 370.

[View course details in MyPlan: SCAND 370](#)

SCAND 380 History of Scandinavia to 1720 (5) I&S

Scandinavian history from the Viking Age to 1720, with an emphasis on the political, social, and economic development of Denmark, Norway, Sweden, Finland, and Iceland from the Middle Ages to the Enlightenment. Offered: jointly with HSTEU 380.

[View course details in MyPlan: SCAND 380](#)

SCAND 381 History of Scandinavia Since 1720 (5) I&S

Scandinavian history from the Enlightenment to the Welfare State with emphasis on the political, social, and economic development of the modern Scandinavian nations of Denmark, Norway, Sweden, Finland, and Iceland. Offered: jointly with HSTEU 381.

[View course details in MyPlan: SCAND 381](#)

SCAND 399 Foreign Study in Scandinavia (1-5, max. 20)

Pan-Scandinavian coursework in Scandinavia, including courses in English.

[View course details in MyPlan: SCAND 399](#)

SCAND 402 International Political Economy and Scandinavia (5) I&S

Overview of the most prominent theoretical approaches to the study of international political economy.

Evaluates competing theories and applies these to explain contemporary problems in international political economy. Readings include examples from Scandinavia's experience.

[View course details in MyPlan: SCAND 402](#)

SCAND 427 Scandinavian Women Writers in English Translation (5) VLPA, DIV

Selected works by major Scandinavian women writers from mid-nineteenth-century bourgeois realism to the present with focus on feminist issues in literary criticism. Offered: jointly with GWSS 429.

[View course details in MyPlan: SCAND 427](#)

SCAND 430 Readings in Folklore (5) VLPA

Exploration of theoretical and methodological issues in folklore studies through independent reading of journal articles published during the last five years. Offered: jointly with C LIT 430.

[View course details in MyPlan: SCAND 430](#)

SCAND 431 The Northern European Ballad (5) VLPA

Integrative study of the Northern European Ballad, with an emphasis on texts, performance, context, history, theory, genre classification, and interpretive approaches. Offered: jointly with C LIT 431.

[View course details in MyPlan: SCAND 431](#)

SCAND 437 Politics in Scandinavia (5) I&S C. INGEBRITSEN

Twentieth-century politics in Scandinavia. How Scandinavian countries have been governed. Costs and consequences of their governmental style and its uncertain future. Optimal size of polities, problems of mature welfare states, process of leadership and representation in multiparty systems, decline of political parties. Offered: jointly with POL S 437.

[View course details in MyPlan: SCAND 437](#)

SCAND 445 War and Occupation in Northern Europe: History, Fiction, and Memoir (5) VLPA/I&S, DIV

The study of literary representations (fiction, memoirs, and personal narratives) dealing with World War II and the occupation of the Nordic and Baltic countries. Offered: jointly with JSIS A 442.

[View course details in MyPlan: SCAND 445](#)

SCAND 450 Scandinavian Literary History (3) VLPA

Survey of Scandinavian literary history.

[View course details in MyPlan: SCAND 450](#)

SCAND 454 Baltic History (5) I&S

Overview of the history of the area occupied by the Baltic countries of Latvia, Lithuania, and Estonia.

Emphasizes their emergence as modern European nation-states. Era from World War I to present treated in depth, including the historical role and present situation of non-Baltic peoples, particularly Russians. Offered: jointly with HSTEU 454.

[View course details in MyPlan: SCAND 454](#)

SCAND 455 Baltic States Since 1991 (5) I&S

Intensive interdisciplinary survey of social, political, and economic developments in Estonia, Latvia, and Lithuania since 1991. Offered: jointly with JSIS A 455.

[View course details in MyPlan: SCAND 455](#)

SCAND 460 History of the Scandinavian Languages (5) VLPA

Development of languages from common Scandinavian to contemporary Danish, Norwegian, Swedish, Faroese,

and Icelandic.

[View course details in MyPlan: SCAND 460](#)

SCAND 462 Isak Dinesen and Karen Blixen (5) VLPA

The fiction of Isak Dinesen (pseudonym for Karen Blixen) reevaluated in light of current issues in literary criticism, particularly feminist criticism. Close readings of selected tales, essays, and criticism. Offered: jointly with GWSS 462.

[View course details in MyPlan: SCAND 462](#)

SCAND 465 Translation Workshop in Nordic and Baltic Languages (5) VLPA

Examines translation theories and good practices within the field of translation. Introduces the most common translation tasks within pragmatic text translation and literary translation. Provides students opportunities to strengthen their professional skill set and get feedback from professional translators. Language of instruction and target language for translations is English.

[View course details in MyPlan: SCAND 465](#)

SCAND 470 Scandinavian Auteurs (5, max. 10) VLPA *Nestingen*

Studies the body of work of Scandinavia's auteur filmmakers. Introduces the theory and history of auteur cinema, with special attention to Scandinavian filmmakers' contribution. Offered: jointly with C LIT 474; AWSp.

[View course details in MyPlan: SCAND 470](#)

SCAND 479 Eco-Capitalism (5) I&S *Ingebritsen*

Explores the idea of environmentalism and sustainability across societies. Compares and contrasts how prominent authors in the field assess the risks and opportunities of human effects on climate and ecology. Questions explored include: will ecological solutions be critical to the revival of the global economy? Why do place such as Europe adapt more readily to environmental challenges? Offered: jointly with JSIS A 429.

[View course details in MyPlan: SCAND 479](#)

SCAND 480 Kierkegaard and Decadence in European Literature (5) VLPA

Reading and discussion of core texts by Soren Kierkegaard, as well as a consideration of the relationship between Kierkegaardian thought and the literary practice of various writers of Scandinavian and European decadence. Offered: jointly with JSIS A 480.

[View course details in MyPlan: SCAND 480](#)

SCAND 481 August Strindberg and European Cultural History (5) VLPA/I&S

Examines the work of Swedish dramatist, novelist, and painter August Strindberg, in the context of European literary movements and history of ideas from 1880 to 1912, and Strindberg's influence on twentieth-century drama and film. Offered: jointly with JSIS A 481.

[View course details in MyPlan: SCAND 481](#)

SCAND 482 Knut Hamsun and Early European Modernism (5) VLPA

Reading and discussion of significant novels by Knut Hamsun, whose oeuvre is considered in the context of works by other European modernist writers. Offered: jointly with JSIS A 482.

[View course details in MyPlan: SCAND 482](#)

SCAND 490 Special Topics (1-5, max. 15)

Special topics in Scandinavian art, literature, culture, and history. Course offerings based on instructor's specialty and student demand.

[View course details in MyPlan: SCAND 490](#)

SCAND 495 Foreign Study: Research Project (1-5, max. 10)

Research on approved topic.

[View course details in MyPlan: SCAND 495](#)

SCAND 498 Senior Essay (5) VLPA

Undergraduate research and the writing of a senior essay in Scandinavian area studies.

[View course details in MyPlan: SCAND 498](#)

SCAND 499 Independent Study or Research (1-5, max. 10)

Independent study or research in Scandinavian area studies. May be done in a Scandinavian language or in English.

[View course details in MyPlan: SCAND 499](#)

SCAND 500 Introductory Readings in Old Icelandic (5)

Systematic study of the grammatical structure of Old Icelandic and the reading of several short prose works.

[View course details in MyPlan: SCAND 500](#)

SCAND 501 Old Icelandic Language and Literature (5)

Reading of a major work in Old Icelandic literature as a vehicle for discussions about literary history and genre, narrative, and rhetorical strategies.

[View course details in MyPlan: SCAND 501](#)

SCAND 503 Methods of Scandinavian Studies (5)

Introduction to Scandinavian studies on the graduate level with emphasis on Scandinavian literature, folklore, history, and politics.

[View course details in MyPlan: SCAND 503](#)

SCAND 504 Contemporary Literary Theory (5)

Contemporary literary theory and its application to Scandinavian texts. Prerequisite: graduate student standing or permission of instructor.

[View course details in MyPlan: SCAND 504](#)

SCAND 505 Topics in Scandinavian Drama and Film (5, max. 15)

Seminar on a selected topic in Scandinavian drama or film, such as an author (Holberg, Ibsen, Strindberg, Bergman), a period, a genre, or a movement.

[View course details in MyPlan: SCAND 505](#)

SCAND 508 Topics in Scandinavian Prose (5, max. 15)

Seminar on various topics in Scandinavian prose, including shorter prose texts, as well as a selection of the significant novels of the nineteenth and twentieth centuries.

[View course details in MyPlan: SCAND 508](#)

SCAND 515 Pre-Nineteenth-Century Scandinavian Literature (5)

Seminar on Scandinavian literature of the sixteenth, seventeenth, and eighteenth centuries.

[View course details in MyPlan: SCAND 515](#)

SCAND 518 Foreign Language Teaching Methodology (2) *Brandl*

Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with GERMAN 518/SLAVIC 518; A.

[View course details in MyPlan: SCAND 518](#)

SCAND 519 Modern Scandinavian Politics (5)

Analyzes the political, economic, and historical development of Sweden, Norway, Denmark, Iceland, and Finland from World War II to the present. Readings focus on domestic and foreign policies that distinguish these countries from other advanced industrial societies. Offered: jointly with POL S 519.

[View course details in MyPlan: SCAND 519](#)

SCAND 520 Topics in Scandinavian Poetry (5, max. 15)

Seminar on selected periods of Scandinavian poetry: romanticism, symbolism, modernism, and contemporary poetry. Poetry examined in relation to the literary canon of each country and to Scandinavian literature as a whole. International influences also discussed.

[View course details in MyPlan: SCAND 520](#)

SCAND 525 Topics in Scandinavian History (5, max. 15)

Seminar on selected topics in Scandinavian history.

[View course details in MyPlan: SCAND 525](#)

SCAND 530 Old Norse Literature (3)

Studies in the poetry and prose tradition of medieval Iceland and Norway.

[View course details in MyPlan: SCAND 530](#)

SCAND 533 Interdisciplinary Approaches to Community in Scandinavia (5)

Humanistic examination of community creation, maintenance, and change in the Nordic region. Examples drawn from folklore, literature, activism, popular culture, history. Focus on issues of gender, belief, and art in relation to community. Coursework includes both individual and collaborative assignments.

[View course details in MyPlan: SCAND 533](#)

SCAND 565 Translation Workshop in Nordic and Baltic Languages (5)

Examines translation theories and good practices within the field of translation. Introduces the most common translation tasks within pragmatic text translation and literary translation. Provides students opportunities to strengthen their professional skill set and get feedback from professional translators. Language of instruction and target language for translations is English.

[View course details in MyPlan: SCAND 565](#)

SCAND 570 Scandinavian Auteurs (5, max. 10) VLPA *Nestingen*

Seminar on auteur filmmakers in Scandinavian cinema, studying specific auteurs' bodies of work, theories of auteur cinema, and the history of auteurism in Scandinavian cinema. Offered: jointly with C LIT 574; AWSp.

[View course details in MyPlan: SCAND 570](#)

SCAND 579 Eco-Capitalism (5) *Ingebritsen*

Explores the idea of environmentalism and sustainability across societies. Compares and contrasts how prominent authors in the field assess the risks and opportunities of human effects on climate and ecology. Questions explored include: will ecological solutions be critical to the revival of the global economy? Why do place such as Europe adapt more readily to environmental challenges? Offered: jointly with JSIS A 529.

[View course details in MyPlan: SCAND 579](#)

SCAND 580 Kierkegaard and Decadence in European Literature (5) *Sjavik*

Examines Kierkegaardian thought and the literary practice of various writers of Scandinavian and European decadence. Offered: Sp.

[View course details in MyPlan: SCAND 580](#)

Undergraduate Program

Adviser

M253A Smith, Box 353580

(206) 543-6848

slavicll@uw.edu

The Department of Slavic Languages and Literatures offers the following programs of study

- The Bachelor of Arts degree with a major in Slavic languages and literatures with options in Russian language, literature, and culture; and Eastern European languages, literatures, and culture
- Minors in Russian language, Russian literature/Slavic literatures, and Slavic languages

Bachelor of Arts

Suggested First- and Second-Year College Courses: First- and second-year Russian. Courses that develop writing skills.

Department Admission Requirements

Students in good academic standing may declare this major at any time.

Major Requirements

Russian Language, Literature, and Culture Option (Minimum 50 credits):

1. RUSS 322, RUSS 323
2. RUSS 403

3. RUSS 451

4. Courses from an approved list of electives to reach 50 credits. See adviser for approved list. No more than 15 credits from the following may apply: RUSS 303, RUSS 350 (only 5 credits of RUSS 350 may apply), RUSS 401, RUSS 402. Maximum 5 credits at the 100 level.
5. Minimum 50% of credits applied to the major taken at the 300 or 400 level
6. Minimum 2.0 grade for each course and minimum 2.50 GPA for all UW and transfer courses presented for this option
7. Minimum 15 graded credits presented for this option must be completed through the UW

Eastern European Languages, Literature, and Culture Option (Minimum 50 credits):

1. Principal Eastern European language to include one of the following: BCS 406, BCS 410, BULGR 406, CZECH 406, POLSH 406, ROMN 406, SLVN 406, UKR 406
2. SLAVIC 351 (5 credits)
3. Courses selected from preceding principal Eastern European language courses or from an approved list of electives to reach 50 credits. See adviser for approved list. Maximum 5 credits at the 100 level.
4. Minimum 50% of credits applied to the major taken at the 300 or 400 level
5. Minimum 2.0 grade in each course and minimum 2.50 cumulative GPA for all UW and transfer courses presented for this option.
6. Minimum 15 graded credits presented for this option must be completed through the UW.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

Minor

Minor Requirements:

Russian Language:

1. Minimum 25 credits to include one of the following: RUSS 303, RUSS 350, RUSS 401, RUSS 402, RUSS 403, RUSS 450.
2. Courses selected from preceding Russian language courses or from an approved list of electives to reach 25 credits. See adviser for approved list. Maximum 5 credits allowed at the 100-level.
3. Minimum 2.0 grade in each course presented for the minor.
4. Minimum 15 graded credits presented for the minor must be completed through the UW.

Russian Literature/Slavic Literatures:

1. Minimum 25 credits to include RUSS 322, RUSS 323, and 15 credits from an approved list of electives. See adviser for approved list. Maximum 5 credits allowed at the 100-level.
2. Minimum 2.0 grade in each course presented for the minor.
3. Minimum 15 graded credits presented for the minor must be completed through the UW.

Slavic Languages:

1. Minimum 25 credits to include one of the following as a principal Eastern European language: BCS 406, BCS 410 (10 credits), BULGR 406, CZECH 406, POLSH 406, ROMN 406, SLVN 406, UKR 406.
2. SLAVIC 351.
3. Courses selected from the preceding principal Eastern European language courses or from an approved list of electives to reach 25 credits. See adviser for approved list. Maximum 5 credits allowed at the 100-level.
4. Minimum 2.0 grade in each course presented for the minor.
5. Minimum 15 graded credits presented for the minor must be completed through the UW.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Graduating majors in Slavic languages and literatures have a solid command of the Slavic language of focus, with speaking, listening, reading, writing, and translation skills at the intermediate high or advanced level. They have a broad knowledge of the history of the relevant country, and of its modern culture. Students have a general knowledge of major periods and literature and detailed knowledge of two or three particular authors or genres. Students have a good understanding of Slavic languages in general and the language of their specialization in particular, as well as knowledge of major issues in contemporary phonology, morphology, and syntax. All students develop good general analytical skills and the ability to explore and understand another culture through mastery of its language.
- *Instructional and Research Facilities:* UW Language Learning Center
- *Honors Options Available:* Dobro Slovo membership is available to qualifying students (see adviser for requirements). With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Undergraduates may present their current research at the annual Slavic Student Symposium each spring. Suzzallo Library holdings include some 400,000 titles in Slavic languages and in other languages on Slavic subjects. The library subscribes to all important periodicals and newspapers in Russian and other languages and has exceptionally strong holdings in rare and antiquarian Slavic titles on microfilm and microfiche.
- *Department Scholarships:* Vadim Pahn Scholarship for continued study of Russian in an intensive summer language program; Asante Outstanding Paper Prize for the best undergraduate paper written in a Slavic Department course;

Polish Studies Scholarship awarded for study in Poland of the Polish language and culture.

- *Student Organizations/Associations*: Rodnoi Ugolok, the Russian student society; Ukrainian Students United, the Ukrainian student society.

Graduate Program

Graduate Program Coordinator
M268 Smith, Box 353580
(206) 543-6848

The Department of Slavic Languages and Literatures offers a complete program of courses and seminars leading to the Master of Arts and Doctor of Philosophy degrees in Russian and East European languages, literatures, and cultures. Languages taught in the department include Czech, Old Church Slavonic, Polish, Russian, and Bosnian/Croatian/Serbian.

The graduate program is organized to permit completion of the master's degree in four to six quarters and the doctoral degree in three additional years. The duration of each program, however, depends on the extent of the student's preparation upon entrance into the program.

Master of Arts

Admission Requirements

A student seeking admission to the MA program should have a bachelor's degree in Russian or Slavic Studies which includes four years of Slavic language study. Applicants with equivalent experience and basic coursework in Slavic literatures, cultures, and history are considered. A student not meeting these requirements may be given conditional admission but is expected to make up any deficiencies. Consideration is given to those with three years of language who enroll in fourth-year summer intensive Russian the quarter before entry.

All students entering the program take a diagnostic language test to establish their level of proficiency and determine what further instruction may be necessary.

Examinations

- *Russian Language*
- *Other Slavic Languages*
- *MA Comprehensive Examinations*

Degree Requirements

45 credits minimum, as follows:

1. Slavic core courses: 10 credits from the following: RUSS 501, RUSS 502, SLAVIC 501, SLAVIC 519
2. Slavic linguistics courses: 10 credits from the following: SLAVIC 550, SLAVIC 551, SLAVIC 570

3. Slavic literature courses (10 credits): RUSS 542, RUSS 543
4. Second Slavic language, (5 credits): one of the following: BCS 403, BULGR 403, CZECH 403 or POLSH 403 (implies completion of 401 and 402 in the relevant language)
5. Elective courses, 10 credits from above or from the following: BCS 406, BCS 420, CZECH 406, CZECH 420, POLSH 406, POLSH 420, RUSS 420, RUSS 421, RUSS 422, RUSS 423, RUSS 425, RUSS 426, RUSS 430, RUSS 512, RUSS 520, RUSS 521, RUSS 522, RUSS 523, RUSS 526, RUSS 570, RUSS 577, SLAVIC 420, SLAVIC 423, SLAVIC 425, SLAVIC 426, SLAVIC 470, SLAVIC 490, SLAVIC 520, SLAVIC 561, SLAVIC 562, SLAVIC 563, SLAVIC 565, SLAVIC 566, UKR 420

Doctor of Philosophy

Admission Requirements

Applicants to the doctoral program in Slavic Languages and Literatures, who are expected to possess an MA or equivalent degree, are admitted by vote of the graduate faculty on the basis of their language skills (Slavic and English), general background in Slavic cultures, and a comprehensive statement of purpose.

Degree Requirements

Minimum 90 credits, to include:

- *Coursework:* At least 90 credits, including graduate credits taken toward the MA degree, and at least one full year of residence at the UW
- *Readings:* Many post-MA credits are satisfied with individually arranged readings courses. Courses are mutually agreed upon by the student and the Supervisory Committee chair and are organized with an eye to the comprehensive examinations. Students whose emphasis is Slavic linguistics may include a third Slavic language as a field. PhD students with a literature focus should take one year of a second Slavic language (401-403 sequence) or test out of 403. PhD students with a linguistics focus should take two years of one language (401-406 sequence) or at least one year of two different second Slavic languages. The student may also satisfy this requirement by demonstrating appropriate proficiency in the language(s). Students majoring in language pedagogy follow the linguistics guidelines.
- *Comprehensive Examinations:* As a prerequisite for scheduling the general examination, the candidate must demonstrate reading ability in a language appropriate for research purposes. The two-hour examination consists of a journal article (5-7 pages), which the student summarizes and a portion of which she/he translates. The particular language may be negotiated by the student with his or her adviser on the basis of the research interests of the student.

The student takes four written field examinations, followed two weeks later by the general (oral comprehensive) examination.

The general (oral comprehensive) examination must be set up with the Graduate School at least three weeks before the examination is scheduled. The procedure is described in the Graduate Student Services' how-to instructions on the web.

Part of the oral comprehensive examination is usually a presentation of the dissertation proposal.

- *Dissertation and Defense:*

Research Facilities

The Suzzallo Library holdings include some 400,000 titles in Slavic languages and in other languages on Slavic subjects. It subscribes to all important periodicals and newspapers in Russian and other languages and has exceptionally strong holdings in rare and antiquarian Slavic titles on microfilm and microfiche.

Assistantship Opportunities

The department regularly offers a number of teaching assistantships. In conjunction with the Henry M. Jackson School of International Studies, students in the department are eligible for several other types of fellowships.

COLLEGE OF ARTS & SCIENCES

SLAVIC LANGUAGES & LITERATURES

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

SLAVIC 101 Slavic Lands and Peoples (5) I&S

Introduces students to basic concepts regarding the whole body of present-day Slavs as well as the area inhabited by or under the influence of present-day Slavs. Uses latest achievements in technology and in social media advancements to retrieve relevant information from present-day Slavs themselves. Taught in English.

[View course details in MyPlan: SLAVIC 101](#)

SLAVIC 110 The Slavic Languages (5) VLPA

Introduces the basic concepts of Slavic linguistics. Addresses the origin of the Slavs and major stages of their linguistic history. Considers Slavic languages and their peculiarities in detail. Taught in English.

[View course details in MyPlan: SLAVIC 110](#)

SLAVIC 130 Introduction to Slavic Culture and Civilization (5) VLPA

Examines the culture of the Slavs, an ethno-linguistic group of peoples living primarily in Central/Eastern Europe. Among nations investigated: the Czech Republic, Russia, Poland, and Ukraine. Students gain a fundamental grasp of major issues and historical events of this region, expressed through culture. Offered: jointly with JSIS A 130.

[View course details in MyPlan: SLAVIC 130](#)

SLAVIC 175 The Slavic Text and Its Context (2) VLPA

A contextual study of a significant work or intellectual movement from a Slavic culture. Study includes literature, film, music, or art. Credit/no-credit only.

[View course details in MyPlan: SLAVIC 175](#)

SLAVIC 200 Introduction to Slavic Literature (5) VLPA G. CRNKOVIC

Introduces major Slavic literary works of different types (stories, novels, poetry), mostly from the 20th and 21st century, focusing on the intense "close reading" of these texts that identifies their main literary features.

Excellent beginning training for the informed reading of any kind of literature. Taught in English.

[View course details in MyPlan: SLAVIC 200](#)

SLAVIC 210 Introduction to Bilingualism (5) VLPA/I&S K. DZIWIWIREK

A multidisciplinary examination of bilingualism as a societal and individual phenomenon. Considers language versus dialect, diglossia, state language policies, language rights, indigenous languages, and linguistic

minorities. Explores bilingualism and biculturalism as human experience and as indexes of identity and diversity. Includes a fieldwork project focused on linguistic diversity in the Pacific Northwest. Offered: W.¹⁹⁴¹
[View course details in MyPlan: SLAVIC 210](#)

SLAVIC 223 East European Cinema (5, max. 20) VLPA

Emphasizes international cultural, artistic, and historical diversity by introducing select contemporary Eastern European film directors. Focuses on a single filmmaker and studies his/her opus in depth, both in his/her Eastern European country of origin and abroad. Special attention paid to Eastern European filmmakers in Hollywood.
[View course details in MyPlan: SLAVIC 223](#)

SLAVIC 320 The Other Europe: Post-World War II East European Fiction (5) VLPA Crnkovic

Introduces post-WWII Eastern European fiction created during and after the communist era, both in Eastern European countries and in exile. Includes works by Polish, Czech, Yugoslav, post-Yugoslav, Hungarian, and Baltic writers. Taught in English.
[View course details in MyPlan: SLAVIC 320](#)

SLAVIC 323 Masterpieces of East European Cinema (5) VLPA Crnkovic

Studies aesthetically most interesting films from Eastern Europe from the 1950s to present. Includes select films by Polish film icon Andrzej Wajda, the Czech 1960s New Wave, the Zagreb School of Animated Film, works by Eastern European women directors, as well as more recent internationally awarded and acclaimed films.
[View course details in MyPlan: SLAVIC 323](#)

SLAVIC 351 History of the Slavic Languages (5) VLPA

History of Slavic languages from Indo-European to present time, including development of writing systems and national languages. Principles of historical linguistics: sound change, analogy, semantic change, as well as relevance of historical linguistics to our knowledge of human development, ancestral culture, etc. Prerequisite: either SLAVIC 110, LING 200, or LING 400. Offered: Sp.
[View course details in MyPlan: SLAVIC 351](#)

SLAVIC 370 What is in a Language Name? The Case of Bosnian, Croatian, Montenegrin, and Serbian (5) VLPA

Examines diverse phenomena related to the language known as Serbo-Croatian, and to the Bosnian, Croatian, Montenegrin, and Serbian languages. Explores concepts such as language death, birth, politics, standardization, and codification. The relation between dialect and language is observed in an ecology exhibiting ethnic and religious diversity.
[View course details in MyPlan: SLAVIC 370](#)

SLAVIC 401 Research Methods and Writing (2)

Introduces writing and research in Slavic studies. Students review secondary literature in their chosen fields, rewrite and revise their own work to bring it up to discipline standard, and work collaboratively to evaluate their own work and that of their peers.
[View course details in MyPlan: SLAVIC 401](#)

SLAVIC 423 East European Film (5, max. 15) VLPA Crnkovic

Studies major East European film makers who left their countries at some point in their careers. Compares East European and Western production of those directors who worked partially in the West. Offered: jointly with CMS 423.
[View course details in MyPlan: SLAVIC 423](#)

SLAVIC 425 Ways of Meaning: Universal and Culture Specific Aspects of Language (5) VLPA/I&S K. DZIWIWIREK

Focuses on the diversity of human experience and the social and cultural conditioning of language use. Language as a mirror of culture and national character. Universal and culture/language specific components in linguistic expression of emotions, courtesy/politeness and rudeness, prejudice and (in)sensitivities, linguistic

expression of gender differences in different cultures. Offered: Sp.

[View course details in MyPlan: SLAVIC 425](#)

SLAVIC 426 Ways of Feeling: Expressions of Emotions Across Languages and Cultures (5) I&S/VLPA K. DZIWIWIREK

Investigate the diversity of human experience by focusing on culture specific aspects of linguistic expression of emotion. Examination of the meaning and form of emotion words in different languages, facial expressions, cultural attitudes to emotion and emotional behavior, and gender-specific emotional expressions.

[View course details in MyPlan: SLAVIC 426](#)

SLAVIC 470 Special Topics in Slavic Linguistics (3-5, max. 15) VLPA Augerot, Belic, Dziwirek

Special topics in Slavic linguistics. Course offerings based on instructor's specialty and student demand.

Offered: AWSp.

[View course details in MyPlan: SLAVIC 470](#)

SLAVIC 481 East European Language in Eastern Europe (1-5, max. 45) VLPA

Daily work in phonetic, grammar, conversation, translation, analytical reading, stylistics, newspaper analysis, and advanced syntax. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

[View course details in MyPlan: SLAVIC 481](#)

SLAVIC 482 Research Project in Eastern Europe (3, max. 15) VLPA

Supervised research in student's selected area of concentration, combined with language instruction tailored to the student's field. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

[View course details in MyPlan: SLAVIC 482](#)

SLAVIC 483 East European Literature in Eastern Europe (3, max. 15) VLPA

Selection of courses on specialized topics in East European literature; specific authors or periods. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

[View course details in MyPlan: SLAVIC 483](#)

SLAVIC 486 East European Culture in Eastern Europe (3, max. 15) VLPA

Lectures on various aspects of Eastern European culture, complemented by visits to places of cultural historical interest. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

[View course details in MyPlan: SLAVIC 486](#)

SLAVIC 490 Studies in Slavic Literatures (3-5, max. 15) VLPA

Topics vary.

[View course details in MyPlan: SLAVIC 490](#)

SLAVIC 498 Senior Honors Thesis ([3-9]-, max. 9) VLPA

Directed research on a topic approved by department for a thesis presented in partial fulfillment of requirement for degrees "With College Honors" or "With Distinction." Offered: AWSpS.

[View course details in MyPlan: SLAVIC 498](#)

SLAVIC 499 Directed Study or Research (1-5, max. 15)

Individual study of topics to meet specific needs. By arrangement with the instructor and the Department of Slavic Languages and Literatures office. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSpS.

[View course details in MyPlan: SLAVIC 499](#)

SLAVIC 501 Using Slavic Resources (2)

Introduction to graduate studies in Slavic languages, literatures, and cultures. Discusses field of study and research materials and techniques employed.

[View course details in MyPlan: SLAVIC 501](#)

SLAVIC 518 Foreign Language Teaching Methodology (2) *Brandl*

Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with GERMAN 518/SCAND 518; A.

[View course details in MyPlan: SLAVIC 518](#)

SLAVIC 519 Slavic Language Pedagogy (3, max. 6) *Augerot, Belic*

Introduction to current issues of foreign language pedagogy. Concentrates on the practical classroom application of methodological theory through lectures and micro-teaching presentation. Topics discussed and practiced include testing, proficiency teaching, teaching listening and reading skills, writing, teaching grammar, and computers. Offered: A.

[View course details in MyPlan: SLAVIC 519](#)

SLAVIC 520 New Trends in Literary Theory (5) *Crnkovic*

Explores recent theoretical trends which no longer search for a unified theoretical meta-narrative (i.e., post-structuralism or new historicism), but instead explore various literary genres (such as diary or fictional book reviews) and texts as the primary terrain of theory. Bakhtin, Lem, Bruns, Corradi-Fiumara, Crnkovic, and others.

[View course details in MyPlan: SLAVIC 520](#)

SLAVIC 550 Synchronic Slavic Linguistics (5)

Linguistic analysis of the phonology, morphology, and syntax of Russian and other Slavic languages. Investigation of current theoretical work in these areas.

[View course details in MyPlan: SLAVIC 550](#)

SLAVIC 551 The Introduction to the Study of Slavic Languages (5)

History of Slavic languages from Indo-European to present time, including development of writing systems and national languages. Principles of historical linguistics: sound change, analogy, semantic change, as well as relevance of historical linguistics to our knowledge of human development, ancestral culture, etc. Prerequisite: either SLAVIC 110, LING 200, or LING 400. Offered: Sp.

[View course details in MyPlan: SLAVIC 551](#)

SLAVIC 561 History of the East Slavic Languages (5)

Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of the Ukrainian and Byelorussian literary languages.

[View course details in MyPlan: SLAVIC 561](#)

SLAVIC 562 History of the West Slavic Languages (5)

Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of literary Polish, Czech, Slovak, and Upper and Lower Sorbian languages.

[View course details in MyPlan: SLAVIC 562](#)

SLAVIC 563 History of the South Slavic Languages (5)

Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of the South Slavic languages.

[View course details in MyPlan: SLAVIC 563](#)

SLAVIC 565 Old Church Slavic (5)

Rise and development of earliest Slavic literary language and a descriptive study of its orthography, phonology, morphology, and syntax. Readings from normalized texts.

[View course details in MyPlan: SLAVIC 565](#)

SLAVIC 566 Readings in Old Church Slavic (4)

Reading and grammatical interpretation of a selected group of canonical texts, as well as some examples of the

various later recensions of Old Church Slavonic. Prerequisite: SLAVIC 565.

[View course details in MyPlan: SLAVIC 566](#)

SLAVIC 570 Special Topics in Slavic Linguistics (3-5, max. 15)

Investigation and discussion of special topics in Slavic linguistics.

Sociology

[Display as tabs](#)

Department Overview

211 Savery

The Department of Sociology has a strong commitment to research, publication, and training and is dedicated to providing a rich undergraduate program, both for students majoring in sociology and for others who wish to learn about human society and social relations.

Undergraduate Program

Adviser
203 Savery, Box 353340
(206) 543-5396
asksoc@uw.edu

The Department of Sociology offers the following program of study

- The Bachelor of Arts degree with a major in sociology

Bachelor of Arts

Suggested First- and Second-Year College Courses: SOC 110, SOC 212, SOC 240, SOC 270, or any 200-level sociology courses. General coursework developing critical thinking or analytical skills.

Department Admission Requirements

1. Introductory courses (10 credits): Minimum grade of 2.0 in SOC 300 and any additional 5 credit sociology course, one of which may be in progress.
2. Minimum 2.0 grade for each course required for admission. Minimum cumulative UW GPA of 2.0.
3. Application: See department website for information required as part of application packet. Exceptions based on special circumstances are reviewed on a case-by-case basis. Application deadlines are the first Friday of each quarter. All applicants who meet the qualifications stated above are admitted in time to register as sociology majors for the following quarter.

[Course Descriptions](#)

50 credits as follows:

1. Introductory courses (10 credits): SOC 300 and any additional 5 credit sociology course
2. Statistics and theory (10 credits): 5 credits from STAT 220, STAT 311, SOC 221/STAT 221/CS&SS 221, or SOC 321/STAT 321/CS&SS 321; and 5 credits for SOC 316
3. Upper-division sociology electives (20 credits); Any 300-level or 400-level sociology courses, excluding SOC 316, SOC 395, SOC 399, SOC 499, and including a maximum of 5 credits of SOC 494
4. Sociology electives (10 credits): Any additional sociology courses, with a maximum 5 credits of either SOC 399 or SOC 499, and a maximum 5 credits of SOC 494
5. Academic standards: Minimum 2.0 grade in any course applied to major requirements. Minimum cumulative 2.50 GPA for courses applied to major requirements. 25 of 50 required sociology credits completed in residence through the UW.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The Department of Sociology's undergraduate degree is designed to teach majors to think systematically about the relationships among individuals, groups, organizations, and societies. Sociology majors engage current research in political sociology, social stratification, race and ethnicity, deviance and social control, demography and other areas, and develop quantitative and analytical skills in research methods and social theory courses.
- *Instructional and Research Facilities:* The Center for Social Science Computing and Research (CSSCR) maintains an extensive data archive, and offers consulting support and computer lab access to students in sociology courses. The Center for Studies in Demography and Ecology (CSDE) and the Center for Statistics and the Social Sciences (CSSS) provide interdisciplinary courses, seminars, and research opportunities for sociology students.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Sociology majors participate in a variety of internships each quarter. Students can receive academic credit under the supervision of a Sociology faculty member. See adviser for details.
- *Department Scholarships:* None offered.
- *Student Organizations/Associations:* A chapter of the Alpha Kappa Delta International Sociology Honor Society organizes events involving undergraduates with faculty and graduate students.

Sociology seeks to explain social structure, social institutions, and social interaction. There are three emphases in the graduate training program at the University of Washington: understanding and critically evaluating social theory and empirical research; doing theoretically guided research that explores, assesses, and further develops explanatory theories; and developing communication skills (with emphasis on teaching and scholarly writing) that are useful in transmitting sociological knowledge. The department has particular strengths in social and formal demography, deviance and social control, stratification and inequality, health, comparative and historical sociology, family and gender studies, and quantitative methods.

Emphasis is on empirical research aimed at developing explanatory theories. Students are trained in problem formulation, research design, data gathering and analysis, and bringing data to bear on significant questions. Instruction is offered on various methods: statistical, survey, demographic and ecological, field research, and historical. Students learn social research by participating in faculty projects or developing their own studies.

Master of Arts

Admission Requirements

1. Applicants are evaluated on undergraduate performance, Graduate Record Examination scores, statement of educational plans, recommendations, and samples of written work.
2. *Application Deadline:* December 15. Admission offers are made for autumn quarter only. The UW Graduate Admissions Office strongly recommends that international applicants submit required application materials by November 1
3. *Application Materials:* All information about the University of Washington Department of Sociology graduate program and the application materials are online. The Department of Sociology no longer sends out printed information or application materials. All applicants use the web-based application. Applying to the sociology graduate program involves application to both the University of Washington Graduate School and the Department of Sociology. See departmental website (<http://www.soc.washington.edu>) for more information.

Degree Requirements

The master's program, designed primarily as preparation for PhD work, is not a terminal degree, although it may serve as good training for non-academic research. The MA program consists of three elements:

- *Substantive training:* coursework in substantive areas and social theory
- *Methodological training:* work in social statistics, general social science methodologies, and a data analysis practicum
- *The master's thesis:* independent empirical research conducted under the supervision of the MA committee.

Students working toward an MA degree must complete 45 graduate credits or more with a minimum cumulative 3.30 GPA:

1. Sociological Theory - SOC 510

2. Statistics - SOC 504, SOC 505, SOC 506
3. Logic of Social Inquiry - SOC 508
4. Proseminar - SOC 501
5. MA Thesis - SOC 700
6. Electives - 18 credits.

A minimum of 12 graded elective credits must be in courses offered by the Sociology Department. All courses should be at the 500 level or above, although a student may petition for inclusion of a 400-level course. No more than 3 elective credits may be assigned a letter grade (e.g., S or CR) in place of a numerical grade. Minimum GPA of 3.30.

Doctor of Philosophy

Admission Requirements

Completion of an MA degree in sociology in the UW Sociology Department or elsewhere. Occasionally MA degrees in other fields are accepted. The department encourages applications from minority students.

See above under Master of Arts section for admission requirements.

Degree Requirements

Minimum 90 credits, to include:

45 credits beyond the Master of Arts requirements (above) as follows:

1. 8 graded Sociology courses beyond the required first year required courses.
Electives taken while completing the MA can be counted towards these 8 courses.
This is a minimum of 24 credits overall
2. Complete a PhD Training Plan which is a set of 4 methods/skills/knowledge courses focusing on particular advanced methodological skills (broadly defined) or knowledge necessary to undertake the planned dissertation research. Up to 2 of these courses may also count as part of the required 8 graded Sociology courses.
3. 27 dissertation credits

Additionally, students must maintain a GPA of 3.30, pass a comprehensive examination, pass the general examination (prospectus defense), pass the final examination, and submit an approved dissertation to the Graduate School.

Financial Aid

Fellowships, research assistantships, and teaching assistantships are available to qualified graduate students including those in their first year of training.

COLLEGE OF ARTS & SCIENCES

SOCIOLOGY

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

SOC 110 Survey of Sociology (5) I&S

Human interaction, social institutions, social stratification, socialization, deviance, social control, social and cultural change. Course content may vary, depending upon instructor.

[View course details in MyPlan: SOC 110](#)

SOC 111 American Society (5) I&S

Explores the power of social structures using examples drawn primarily from the American culture. The impact of social institutions, the emergence of concrete patterns of social relations which organize and regulate social life and the inequality inherent in most social structures.

[View course details in MyPlan: SOC 111](#)

SOC 195 Study Abroad: Sociology (2-5, max. 10) I&S

Lower-division sociology courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

[View course details in MyPlan: SOC 195](#)

SOC 201 Introductory Topics in Sociology (3-5, max. 10) I&S

Selected introductory topics of contemporary interest.

[View course details in MyPlan: SOC 201](#)

SOC 211 Stability and Change in American Society (5) I&S

Examines two views of American life that dominate public discourse: one, that the United States is the best country in the world, the other that it is in decline. Addresses questions like: what is the United States really like; what values do Americans share; how do their values affect success and hope for a better society?

[View course details in MyPlan: SOC 211](#)

SOC 212 Evolution and Revolution: An Introduction to the Study of Comparative Social Change (5) I&S, DIV

Examines the major aspects of human societies, including political and economic systems, family structure, social stratification, and demographic patterns as influenced by environmental conditions, technology, cultural traditions, and legacies of prior history and relationships to other societies.

[View course details in MyPlan: SOC 212](#)

SOC 215 Introduction to Urban Sociology (5) I&S

Introduces the field of urban sociology. Focuses primarily on urban dynamics in the United States with attention to the global context in which they operate.

[View course details in MyPlan: SOC 215](#)

SOC 220 Introduction to Sociological Methods (5) I&S, QSR

Familiarizes students with the logic of analysis in social sciences. Students learn to recognize good research design, understand and interpret main arguments employing different methods, and evaluate whether research findings support stated conclusions.

[View course details in MyPlan: SOC 220](#)

SOC 221 Statistical Concepts and Methods for the Social Sciences (5) NW, QSR

Develops statistical literacy. Examines objectives and pitfalls of statistical studies; study designs, data analysis, inference; graphical and numerical summaries of numerical and categorical data; correlation and regression; and estimation, confidence intervals, and significance tests. Emphasizes social science examples and cases.

(Students may receive credit for only one of STAT 220, STAT 221, STAT 311, STAT 221/CS&SS 221/SOC 221, ECON 311.) Offered: jointly with CS&SS 221/STAT 221; AWSp.

[View course details in MyPlan: SOC 221](#)

SOC 222 Sociology of Sport (5) I&S *Weis*

Introduction to the sociological analysis of sport. Issues discussed include the history, definition, and functions of sport; role of sport in the socialization of children; the relationship between sport and values; athletics within the social organization of education; deviance, crime, and violence in sport; the business and economics of sport.

[View course details in MyPlan: SOC 222](#)

SOC 223 Sociology of Rock and Roll (5) I&S

Sociological analysis of a very influential and popular musical art form, from its origins in the first half of the twentieth century to more contemporary social contexts. Examines the roles of race relations, social class, gender, inequalities, region, genre, commercial exploitation, and technology in the evolution of rock and roll.

[View course details in MyPlan: SOC 223](#)

SOC 230 Introduction to Racial and Ethnic Health Disparities in the United States (5) I&S, DIV

Examines health status and healthcare disparities among racial/ethnic minority groups in the United States. Utilize sociological, demographic, (social) epidemiological, and (social) psychological concepts to introduce students to racial/ethnic health disparities research.

[View course details in MyPlan: SOC 230](#)

SOC 240 Introduction to Social Psychology (5) I&S

Introduction to social psychology with an emphasis on sociological perspectives and problems.

[View course details in MyPlan: SOC 240](#)

SOC 247 Contemporary Social Movements (5) I&S

Introduction to theory and research on national-level collective mobilizations organized for political change. Emphasis on how political, organizational, and cultural factors shape social movement emergence and development, and individual participation.

[View course details in MyPlan: SOC 247](#)

SOC 260 African American Family (5) I&S, DIV

Explores the structures and functioning of various types of black families. Single-parent families, two-parent families, extended families, and consensual families are explored. Their consequences for male/female relationships are linked and critiqued. Offered: jointly with AFRAM 260.

[View course details in MyPlan: SOC 260](#)

SOC 261 The African American Experience Through Literature (5) VLPA/I&S

Instructs students in hermeneutical and sociological methods of analyses. Analyzes selected novels, essays,

poems, short stories, and plays with the purpose of understanding the structures and functions of both society and personality. Offered: jointly with AFRAM 261.

[View course details in MyPlan: SOC 261](#)

SOC 266 Introduction to Labor Studies (5) I&S

Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world.

Offered: jointly with HSTCMP 249/POL S 249.

[View course details in MyPlan: SOC 266](#)

SOC 270 Social Problems (5) I&S, DIV

Processes of social and personal disorganization and reorganization in relation to poverty, crime, suicide, family disorganization, mental disorders, and similar social problems.

[View course details in MyPlan: SOC 270](#)

SOC 271 Introduction to the Sociology of Deviance and Social Control (5) I&S

Examination of deviance, deviant behavior, and social control. Deviance as a social process; types of deviant behavior (e.g., suicide, mental illness, drug use, crime, "sexual deviance," delinquency); theories of deviance and deviant behavior; nature and social organization of societal reactions; and social and legal policy issues.

[View course details in MyPlan: SOC 271](#)

SOC 275 Murder (5) I&S

Introduces topics related to the crime of murder, including: laws of homicide; research on the characteristics of victims, killers, and murders; theories of murder and related violence; investigation strategies; and crime and control policies.

[View course details in MyPlan: SOC 275](#)

SOC 287 Introduction of the Sociology of Sexuality (5) I&S, DIV

Investigates sexuality on the basis of social construction of norms and values, within the context of gender, race, class, and sub-cultures and in the social control of sexuality and why it is so highly regulated. Looks for social rather than biological or personal explanations for why human sexuality is conceptualized or practiced in a certain way.

[View course details in MyPlan: SOC 287](#)

SOC 292 Who Gets Ahead? Public Schooling in America (5) I&S, DIV

Addresses fundamental questions about the relationship between education and society. Examines why some students learn more and advance further than others; what factors shape how schools are run/organized and which materials are taught; how race/class/gender affect students within schools; how schools maintain our economic system and can become more effective.

[View course details in MyPlan: SOC 292](#)

SOC 299 Sociology Interest Group (2) I&S

Provides opportunity for students new to the major, or contemplating the major, to meet twice weekly in a small group to discuss issues relating to two designated five-credit sociology courses. Concurrent enrollment in the two five-credit designated courses required. See department adviser.

[View course details in MyPlan: SOC 299](#)

SOC 300 Foundations of Social Inquiry (5) I&S

Covers what makes social science a science, the components of good research design, and what counts as valid evidence for sociological claims. Pays special attention to links between theory, research questions, and data.

Offered: AWSpS.

[View course details in MyPlan: SOC 300](#)

SOC 301 War (5) I&S

Origins and conduct of war; readings from anthropology, political science, economics, and history, as well as

novels and some recent works on the arms-control controversy. Modern forms of warfare, including guerrilla war, world war, and nuclear war. Offered: jointly with JSIS B 301.

[View course details in MyPlan: SOC 301](#)

SOC 316 Introduction to Sociological Theory (5) I&S

Introduction to sociological theory. Includes classical theorists Adam Smith, Karl Marx, Emile Durkheim, and Max Weber and their influence on contemporary theoretical debate.

[View course details in MyPlan: SOC 316](#)

SOC 320 Evaluating Social Science Evidence (5) I&S, QSR

A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with CS&SS 320/STAT 320.

[View course details in MyPlan: SOC 320](#)

SOC 321 Case-Based Social Statistics I (5) I&S, QSR

Introduction to statistical reasoning for social scientists. Built around cases representing in-depth investigations into the nature and content of statistical and social-science principles and practice. Hands-on approach: weekly data-analysis laboratory. Fundamental statistical topics: measurement, exploratory data analysis, probabilistic concepts, distributions, assessment of statistical evidence. Offered: jointly with CS&SS 321/STAT 321.

[View course details in MyPlan: SOC 321](#)

SOC 322 Case-Based Social Statistics II (5) I&S, QSR

Continuation of CS&SS 321/SOC 321/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods. Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory.

Prerequisite: CS&SS 321/SOC 321/STAT 321, or permission of instructor. Offered: jointly with CS&SS 322/STAT 322.

[View course details in MyPlan: SOC 322](#)

SOC 328 Methodology of Sociological Research (5-) I&S, QSR

Logic of formulating, testing, and modifying hypotheses. Methods of producing social data (survey research, evaluation research, field observation) and utilizing stored data (census tapes, historical materials). Methods of quantitative data analysis techniques commonly used in contemporary sociological analysis. Not open for credit to students who have taken SOC 320.

[View course details in MyPlan: SOC 328](#)

SOC 329 Methodology of Sociological Research (-5) I&S, QSR

Logic of formulating, testing, and modifying hypotheses. Methods of producing social data (survey research, evaluation research, field observation) and utilizing stored data (census tapes, historical materials). Methods of quantitative data analysis techniques commonly used in contemporary sociological analysis. Not open for credit to students who have taken SOC 320 or SOC 323.

[View course details in MyPlan: SOC 329](#)

SOC 330 Human Ecology (5) I&S

Factors and forces that determine the distribution of people and institutions.

[View course details in MyPlan: SOC 330](#)

SOC 331 Population and Society (5) I&S

Population growth and distribution, population composition, population theory, urbanization. Determinants and consequences of fertility and mortality trends and migration in economically developed and underdeveloped areas.

[View course details in MyPlan: SOC 331](#)

SOC 340 Symbolic Interaction (5) I&S

Examines the role of language, culture, and the symbolic environment in shaping interpersonal processes.

[View course details in MyPlan: SOC 340](#)

SOC 341 Tutoring Sociology (2-4, max. 4)

Trains students to serve as tutors in designated courses. Teaches how to assist with writing assignments, explain course material, and lead group discussions. Credit/no-credit only.

[View course details in MyPlan: SOC 341](#)

SOC 344 Cognitive Social Psychology (5) I&S

Cognitive structures and processes and their antecedents and consequences, both societal and individual. Reciprocal influences of social roles, social institutions, and social cognition.

[View course details in MyPlan: SOC 344](#)

SOC 345 Sects and Violence: Cults, Religious Innovation, and Social Conflict (5) I&S

Examines controversial religious groups often called cults. Uses sociological lenses to examine cults' occasionally catastrophic conflicts with government authorities, established religious organizations, and anti-cult movements.

[View course details in MyPlan: SOC 345](#)

SOC 346 Group Processes (5) I&S

Systematic analysis of social processes in small groups, including conformity, deviance, cooperation, competition, coalition formation, status and role differentiation, inequity, communication, and authority and power. A variety of methods of research are considered: field studies, field experiments, laboratory studies, and the simulation of social processes.

[View course details in MyPlan: SOC 346](#)

SOC 347 National Social Movements: Current Trends and Explanations (5) I&S

Introduction to theory and research on a specific form of social movement: national-level collective mobilizations organized for political change. Emphasizes how political, organizational, and cultural factors shape social movement emergence and development. Focuses on American activism, New Left, women's movements, the abortion conflict, gay/lesbian activism, and Central American Peace movement.

[View course details in MyPlan: SOC 347](#)

SOC 351 Intimate Relationships (5) I&S

Explores the nature of love, desire, and commitment between heterosexual and homosexual couples, as well as parenting as a dyadic act. Evaluates political and social pressures and preferences on these topics within our society in a comparative context.

[View course details in MyPlan: SOC 351](#)

SOC 352 The Family (5) I&S

The family as a social institution. Historical changes and societal variation in family patterns. Changes over the life cycle. Alternative family forms.

[View course details in MyPlan: SOC 352](#)

SOC 353 The Family in Cross-Cultural Perspective (5) I&S

Form, content, and functions of families through case studies of different countries. Family organization, including family structure, inheritance, sexual division of labor, and socialization with attention given to life-cycle stages.

[View course details in MyPlan: SOC 353](#)

SOC 355 Social Change in Latin America (5) I&S

Explores cultures, identities, political economy, and popular mobilization in Latin America. Examines relations of power and production between social classes and ethnic groups, as well as ideologies and intellectual

movements. Offered: jointly with JSIS A 355.

[View course details in MyPlan: SOC 355](#)

SOC 356 Society and Politics (5) I&S

Causes of political change in democratic countries, including public opinion, social movements, interest group activity, and party organization. Offered: jointly with POL S 356.

[View course details in MyPlan: SOC 356](#)

SOC 357 Sociology of Religion (5) I&S

The relations between religion, polity, economy, and social structure; in particular, the political, economic, and social impact of religious beliefs and organizations, as well as the social determination of these beliefs and organizations; the rise of secularism, the rationalization of modern life, and the emergence of political quasi-religions.

[View course details in MyPlan: SOC 357](#)

SOC 360 Introduction to Social Stratification (5) I&S, DIV

Social class and social inequality in American society. Status, power, authority, and unequal opportunity are examined in depth, using material from other societies to provide a comparative and historical perspective. Sociological origins of recurrent conflicts involving race, sex, poverty, and political ideology.

[View course details in MyPlan: SOC 360](#)

SOC 362 Race Relations (5) I&S, DIV

Reviews social science perspectives on race and ethnicity. Explores sociological definitions and understandings associated with race and ethnicity and the construction of identities. Examines different issues that impact individuals' and groups' life chances.

[View course details in MyPlan: SOC 362](#)

SOC 363 Ethnicity, Business, Unions, and Society (5) I&S

Interrelationships of ethnicity, business, unions, and the larger society. Examines financial and sociological structure of business and manufacturing sector, how this sector performs, and consequences of performance for selected ethnic groups in United States. Offered: jointly with AES 361.

[View course details in MyPlan: SOC 363](#)

SOC 364 Women in the Social Structure (5) I&S

Gender and social institutions; the family, politics, education, medicine, law, the labor force. Intersection of gender with other minority statuses such as race, age, socioeconomic status, and sexual orientation. Structural, ideological, and historical determinants of gender relations.

[View course details in MyPlan: SOC 364](#)

SOC 365 Urban Community (5) I&S

Comparative and analytic study of organization and activities of urban groups.

[View course details in MyPlan: SOC 365](#)

SOC 366 Sociology of Organizations (5) I&S

Introduction to the sociological study of organizations including what organizations are, where they come from, and how they relate to individuals, other organizations, and other institutions of society.

[View course details in MyPlan: SOC 366](#)

SOC 368 Sociology of Black Americans (5) I&S

Socio-cultural context of the Black person's environment and consequences of interaction with that environment.

[View course details in MyPlan: SOC 368](#)

SOC 371 Criminology (5) I&S

Survey of legal definitions, types of criminal behavior, trends and patterns, recidivism, characteristics of offenders, environmental influences, diagnostic methods, prediction, theories of crime and delinquency

prevention, social policy.

[View course details in MyPlan: SOC 371](#)

SOC 372 Crime, Politics, and Justice (5) I&S

Examines role of police, courts, and corrections in criminal justice; investigates critical legal and sociological factors and perspectives that shape criminal procedure; considers the relationship between criminal procedure and wider concerns of justice and equality in society. Offered: jointly with LSJ 375.

[View course details in MyPlan: SOC 372](#)

SOC 374 Law and Society (5) I&S

Introduces major issues of the sociological foundations and implications of legal institutions; examines social life within legal institutions, the individual and collective justice, the malleability of precedent, and truth and the effects of inequality on legal outcomes. Encompasses legal practice and social science.

[View course details in MyPlan: SOC 374](#)

SOC 375 Sociology of Juvenile Justice (5) I&S *Harris*

Overviews the United States juvenile justice system and related societal issues, including racial and ethnic disproportionality, the criminalization of delinquent offenders, and the future of the juvenile justice system.

[View course details in MyPlan: SOC 375](#)

SOC 376 Drugs and Society (5) I&S

Explores the questions of drug use and abuse, social and political factors that shape response to their use, and the social conditions under which drug use is likely to have adverse consequences. Also covers U.S. drug control policy, the political economy of legal and illegal drugs, and political aspects of drug use. Offered: jointly with LSJ 376.

[View course details in MyPlan: SOC 376](#)

SOC 377 The American Jewish Community (5) I&S, DIV

Examines how American Jews adapt to a changing world. Explores impact of diverse immigration, acculturation, social mobility, social justice movements, and changing relations between Jews and non-Jews. Encompasses concerns that all communities have adapting to change, when they are also agents of change. Offered: jointly with JEW ST 377.

[View course details in MyPlan: SOC 377](#)

SOC 378 Contemporary Jewish American Identities (5) I&S, DIV

Introduction to the debates about post-Holocaust Jewish identities in multicultural America. Explores whether a distinctive Jewish community is headed toward assimilation, experiencing revival, or merely transforming the multiple ways Jewish experience is lived. Topics include new Jewish immigrants, the new Orthodox, Black Jews, Jewish feminism, children of Holocaust survivors. Offered: jointly with JEW ST 378.

[View course details in MyPlan: SOC 378](#)

SOC 379 Environmental Sociology (5) I&S/NW *S. ASAH*

Social processes by which environmental conditions are transformed into environmental problems; scientific claims, popularization of science, issue-framing, problem-amplification, economic opportunism, and institutional sponsorship. Examination of social constructs such as ecosystem, community, and free-market economy. Use of human ecology to assess whether the current framing of environmental problems promotes ecological adaptability. Offered: jointly with ENVIR 379/ESRM 371; A.

[View course details in MyPlan: SOC 379](#)

SOC 395 Study Abroad: Sociology (2-5, max. 15) I&S

Upper-division sociology courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

[View course details in MyPlan: SOC 395](#)

SOC 399 Undergraduate Internship (2-5, max. 10)

Students serve in approved internships. Credit/no-credit only.

[View course details in MyPlan: SOC 399](#)

SOC 401 Special Topics in Sociology (5, max. 15) I&S

Selected topics of contemporary interest taught by a sociologist active in the field. Topics vary and may be substantive, theoretical, or methodological.

[View course details in MyPlan: SOC 401](#)

SOC 402 Sociology in Practice: Education Service Program (5) I&S

Combines an experience in tutoring with critical reflection on practical and theoretical issues in education. Gives practical classroom experience as well as insight into the complexity of public schools and issues in education policy. Students may receive a maximum of 10 credits from SOC 402, SOC 403, SOC 404, and SOC 494.

[View course details in MyPlan: SOC 402](#)

SOC 403 Sociology in Practice: Applied Community Research Program (5) I&S

Participation in a project-based research group for a real-world client, addressing complex and enduring problems of urban life. Students may receive a maximum of 10 credits from SOC 402, SOC 403, SOC 404, and SOC 494.

[View course details in MyPlan: SOC 403](#)

SOC 404 Sociology in Practice: Community/Civic Internship Program (5) I&S

Combines real-world benefits of internships with critical reflections provided in a seminar. Students intern as local agencies and organizations, and may either come with their own internship or apply for specialized internships through the Sociology Department. Students may receive a maximum of 10 credits from SOC 402, SOC 403, SOC 404, and SOC 494.

[View course details in MyPlan: SOC 404](#)

SOC 410 History of Sociological Thought (5) I&S

Contributions of individual theorists (from Comte to the present); emphasis on cumulative development of concepts and principles, emergence of sociology as a science, probable future developments.

[View course details in MyPlan: SOC 410](#)

SOC 415 The City and Neighborhood Dynamics (5) I&S

Focuses on a diverse set of topics including the changing social meaning of community, the effects of the urban setting on social interactions and attitudes, urban poverty, residential segregation, and the neighborhood dynamics of crime. Students have the opportunity to contribute directly to research- and policy-related projects.

[View course details in MyPlan: SOC 415](#)

SOC 416 Sociological Theory (5) I&S

Theories of individual action, social order, and institutional change. Cumulative development of solutions rather than on works of given theorists. Theories of social order. How sociological treatments of these issues compare with those offered by economists and other social scientists.

[View course details in MyPlan: SOC 416](#)

SOC 420 Sociology of Food (5) I&S

Provides a historical and comparative overview of what people eat and how this relates to other types of social differentiation.

[View course details in MyPlan: SOC 420](#)

SOC 430 Social Determinates of Health and Health Disparities (5) I&S, DIV

Examine the social conditions related to the health of populations. How patterns of health vary by social class, race/ethnicity, and gender and some mechanisms that produce and maintain these differences.

[View course details in MyPlan: SOC 430](#)

SOC 432 Population and Modernization (3) I&S *Hirschman, Lavelly*

Examines role of demographic factors in the process of social modernization and economic growth. The approach is both historical, focusing on populations of developed countries since 1700, and analytic, stressing the attempts made by different disciplines to model demographic relationships, with attention to less-developed regions. Offered: jointly with JSIS D 435.

[View course details in MyPlan: SOC 432](#)

SOC 434 Demographic Issues in Asia (3-5) I&S *Hirschman, Lavelly*

Contemporary Asian countries face a number of issues with demographic components, including environmental and resource issues, ethnic rivalries, international migration, and public health. Addresses a set of these issues by focusing on the demography of one or more countries in Asia. Offered: jointly with JSIS A 431.

[View course details in MyPlan: SOC 434](#)

SOC 440 Comparative Social Problems (5) I&S

Examines a variety of social problems from a comparative perspective. Issues such as epidemics, slavery, and genocide within and beyond U.S. borders analyzed with historical and contemporary examples.

[View course details in MyPlan: SOC 440](#)

SOC 445 Religious Movements: The Sociology of Cults and Sects (5) I&S

Investigates the organizational dynamics of new religious movements. Seeks to understand why 'cults' emerge and how they proliferate or decay. Examines conflicts within established churches, counter-movements, and the state.

[View course details in MyPlan: SOC 445](#)

SOC 447 Social Movements (5) I&S

Social movements as collective attempts to change society: why people join; characteristics of successful and unsuccessful movements; consequences of social movement activities.

[View course details in MyPlan: SOC 447](#)

SOC 450 Political Economy of Women and Family in the Third World (5) I&S

Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with JSIS D 450.

[View course details in MyPlan: SOC 450](#)

SOC 451 Theory and Process of Social Change (5) I&S

Basic trends in economic and social development; comparative and historical analysis of social and economic changes; the rise of capitalist societies.

[View course details in MyPlan: SOC 451](#)

SOC 456 Political Sociology (5) I&S

Relationships between social change and political change. Focus on selected issues, including social bases of democracy, political organization, elections, and consequences of public policy.

[View course details in MyPlan: SOC 456](#)

SOC 460 Social Differentiation (5) I&S

Analysis of societal organization based on sex, age, residence, occupation, community, class, caste, and race.

[View course details in MyPlan: SOC 460](#)

SOC 461 Comparative Ethnic Race Relations in the Americas (5) I&S

Sketches the ethnoracial systems operating in American society. Studies these systems as systems and examines their institutional and interpersonal dynamics. Compares ethnoracial systems in order to arrive at empirical generalizations about race/ethnorelations in the Americas. Offered: jointly with AES 461.

[View course details in MyPlan: SOC 461](#)

SOC 462 Comparative Race and Ethnic Relations (5) I&S, DIV

Race and ethnicity as factors of social differentiation in a number of Western and non-Western societies in Europe, Africa, Asia, and the Americas. Offered: jointly with AES 462.

[View course details in MyPlan: SOC 462](#)

SOC 463 African-American Political Thought (5) I&S

Examines the historical and sociological experiences of African-Americans from slavery, emancipation, mobilization, and organization, to present socioeconomic situation. Reviews the political philosophy of black leaders from the early black conventions to today, the black experience in the American education system, and origins and evolution of the black middle class.

[View course details in MyPlan: SOC 463](#)

SOC 464 Contemporary Society in the People's Republic of China (5) I&S *Lavelly*

Separate development of rural and urban social institutions in the People's Republic of China since 1949 from a sociological perspective. Family and marriage, social control, educational institutions. Dilemmas of contemporary China and reasons for institutional change. Offered: jointly with JSIS A 464.

[View course details in MyPlan: SOC 464](#)

SOC 465 Complex Organizations (5) I&S

Examination of the structure of complex organizations. Attention to developing generalizations applicable to industrial organizations, businesses, hospitals, prisons, labor unions, governments, universities, armies, and similar formally instituted organizations. The major focus is on empirical research, with some attention to methodological problems in studying such organizations.

[View course details in MyPlan: SOC 465](#)

SOC 466 Economic Sociology (5) I&S

Changing focus of field; cultural variation, work, and the worker; technology, society, and the evolution of industrial forms; types and forms of industrial organizations; industrial organizations as social and technical systems; issues of control, process, and change; the individual in social and technical systems.

[View course details in MyPlan: SOC 466](#)

SOC 467 Immigration and Ethnicity (5) I&S, DIV

Focus on contemporary American diversity - the multiethnic, multicultural society created by recent immigrants from Latin America, Asia, and by people of European, African, and American Indian origins; its issues and debates, including ethnic conflict, integration, multiculturalism, and assimilation, as viewed through comparisons with the past and with other societies.

[View course details in MyPlan: SOC 467](#)

SOC 468 Sociology of Occupations and Professions (5) I&S

Frameworks for study of occupations and professions; occupational structure and mobility in American society in relation to adult socialization and career development; occupational and professional associations and society.

[View course details in MyPlan: SOC 468](#)

SOC 469 Balkan Societies (5) I&S

Examination of the roots of Balkan social problems (economic backwardness, minority-group conflicts, peasant problem), the failure of pre-1945 attempts to solve these problems, the post-1945 communist failures, the causes of the upheavals of 1989, and the prospects for success in the 1990s.

[View course details in MyPlan: SOC 469](#)

SOC 470 Contemporary Southeast Asia (5) I&S

Sociological survey of Southeast Asia, including development, demographic changes, family structure, and ethnic relations.

[View course details in MyPlan: SOC 470](#)

SOC 472 Juvenile Delinquency (5) I&S

Factors in delinquency, juvenile courts. Programs of treatment and prevention.

[View course details in MyPlan: SOC 472](#)

SOC 476 Miscarriages of Justice (5) I&S

Examines legal and social factors that shape criminal case outcomes, analyzing how one type of miscarriage of justice - wrongful conviction - occurs. How can cases of wrongful conviction be explained? Why are some people, against whom there is only weak evidence, convicted-and sometimes even executed? Offered: jointly with LSJ 476.

[View course details in MyPlan: SOC 476](#)

SOC 481 Issues in Analytic Sociology (5, max. 15) I&S

Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

[View course details in MyPlan: SOC 481](#)

SOC 482 Issues in Analytic Sociology (3, max. 9) I&S

Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

[View course details in MyPlan: SOC 482](#)

SOC 483 Issues in Analytic Sociology (1-3, max. 9) I&S

Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

[View course details in MyPlan: SOC 483](#)

SOC 487 Sociology of Gender and Sexuality (5) I&S

Addresses the intersection of gender and sexuality in U.S. society, social institutions and movements, families, and the individual. Topics include the history of sexuality as practiced and politicized since colonial times, major theoretical approaches to sexuality, and how gender and other social status characteristics influence the meanings of sexuality.

[View course details in MyPlan: SOC 487](#)

SOC 490 The Urban Underclass (5) I&S

Examines underlying issues which have led to the emergence and perpetuation of an underclass within an affluent society. Explores some of the consequences for these people and for this society. Considers policies that might be used to address problems of the urban underclass.

[View course details in MyPlan: SOC 490](#)

SOC 492 Sociology of Education (5) I&S

Emphasizes the ways in which schools and colleges reproduce, reinforce, and challenge prevailing social, economic, and political relationships. Examines the structures, practices, content, and outcomes of schooling and its relationship to the wider society as well as the rise and dynamics of the modern education system.

[View course details in MyPlan: SOC 492](#)

SOC 494 Practicum (5, max. 10) I&S

Exploration of selected sociological concepts or problems through advanced practical experience in research, internships, or other applications. Topics vary.

[View course details in MyPlan: SOC 494](#)

SOC 495 Honors Senior Thesis (1-5, max. 5) I&S

Preparation of senior Honors thesis. Sociology majors only.

[View course details in MyPlan: SOC 495](#)

SOC 496 Honors Senior Seminar ([3/5]-) I&S

Exploration of selected sociological problems with emphasis on research experience and the interpretation of data. For sociology majors only, primarily for Honors students. Offered: A.

[View course details in MyPlan: SOC 496](#)

SOC 497 Honors Senior Seminar (-[3/5]-) I&S

Exploration of selected sociological problems with emphasis on research experience and the interpretation of data. For sociology majors only, primarily for Honors students. Offered: W.

[View course details in MyPlan: SOC 497](#)

SOC 499 Undergraduate Independent Study or Research (2-5, max. 10)

Credit/no-credit only.

[View course details in MyPlan: SOC 499](#)

SOC 500 Teaching Sociology as a Teaching Assistant (1)

Techniques of quiz section administration, advising of students, and student evaluation important to successful teaching as a Teaching Assistant. Students develop presentations and classroom materials and develop and grade student examinations. Prerequisite: admission to graduate program in sociology. Credit/no-credit only.

[View course details in MyPlan: SOC 500](#)

SOC 501 Proseminar (1-3, max. 3)

Introduction for first-year graduate students to substantive areas of sociology, research and information resources, and issues in graduate education and professional socialization. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: SOC 501](#)

SOC 502 Seminar on Teaching Sociology (3)

Techniques of lecturing, leading discussion, evaluating student performance, and other pedagogical skills ancillary to successful teaching. Students develop a course and obtain videotaped feedback of presentations. Prerequisite: completion of MA.

[View course details in MyPlan: SOC 502](#)

SOC 503 Seminar on Writing Social Science (3)

Techniques, skills, and strategies helpful for publishing in the social sciences. Includes writing and revision of own work and evaluation of the writing of other students. Also includes social scientific analysis of writing and other forms of academic communication. Prerequisite: completion of MA.

[View course details in MyPlan: SOC 503](#)

SOC 504 Applied Social Statistics (3-)

Applications of statistics in sociology and related social sciences. Emphasis on problems of analysis with imperfect data. Probability in statistical inference. Analysis of variance; contingency table analysis, nonparametric procedures; regression analysis in social research.

[View course details in MyPlan: SOC 504](#)

SOC 505 Applied Social Statistics (-3)

Applications of statistics in sociology and related social sciences. Emphasis on problems of analysis with imperfect data. Probability in statistical inference. Analysis of variance; contingency table analysis, nonparametric procedures; regression analysis in social research.

[View course details in MyPlan: SOC 505](#)

SOC 506 Methodology: Quantitative Techniques in Sociology (3)

Applied regression analysis with emphasis on interactive computer graphics techniques and interpretation. Application to typical sociological problems. Offered: jointly with CS&SS 507.

[View course details in MyPlan: SOC 506](#)

SOC 507 Statistical Classification and Measurement (3)

Application of statistical principles and methods to problems of classification and measurement in social research.

[View course details in MyPlan: SOC 507](#)

SOC 508 Logic of Social Inquiry (3)

Study design from problem formulation to the analysis and interpretation of data.

[View course details in MyPlan: SOC 508](#)

SOC 509 Practicum in Data Analysis (3)

Introduction to selected programs for data analysis and practice in their application. Practice in coordination of research problem, data, and mode of analysis into a coherent, interrelated set. Interpretation of results. Offered: A.

[View course details in MyPlan: SOC 509](#)

SOC 510 Seminar in Sociological Theory (3)

Macrosociological theories; functionalism and neoevolutionism; conflict and consensus approach; comparative strategies; models and long-range theories; ideology and sociology. From Marx and de Tocqueville to contemporary literature.

[View course details in MyPlan: SOC 510](#)

SOC 511 Classical Social Theory (3)

Study of classical masters of social theory: Marx, Durkheim, and Weber, their precursors, and their immediate successors.

[View course details in MyPlan: SOC 511](#)

SOC 512 Review of Mathematics for Social Scientists (1)

Reviews basic mathematical skills needed for a meaningful understanding of elementary statistics, data analysis, and social science methodology. Overview of core knowledge required for graduate courses in quantitative methods in social sciences. Topics include discrete mathematics, differential and integral calculus, review of matrix algebra, and basic probabilistic and statistical concepts. Credit/no-credit only. Offered: jointly with CS&SS 505.

[View course details in MyPlan: SOC 512](#)

SOC 513 Demography and Ecology (3) *Hirschman*

Theories and research on human fertility, mortality, mobility, migration, and urbanization in social/economic context. Comparative and historical materials on Europe, the United States, and the Third World. Offered: jointly with CSDE 513.

[View course details in MyPlan: SOC 513](#)

SOC 514 Current Theories in Social Psychology (3)

Broad graduate-level introduction to the theories in the field of social psychology.

[View course details in MyPlan: SOC 514](#)

SOC 515 Current Research in Social Psychology (3) *Howard*

Broad graduate-level introduction to the research in the field of social psychology.

[View course details in MyPlan: SOC 515](#)

SOC 516 Organizations (3)

Broad graduate-level introduction to the theory and research on complex organizations.

[View course details in MyPlan: SOC 516](#)

SOC 517 Deviance and Social Control (3)

Survey of current research on deviant behavior and mechanisms of social control; definitions and forms of

deviant behavior, causal analysis, and legal or other methods of social control.

[View course details in MyPlan: SOC 517](#)

SOC 518 Social Stratification (3)

Intensive preparation in theoretical, methodological, and substantive topics in social stratification.

[View course details in MyPlan: SOC 518](#)

SOC 519 Fieldwork: Observation and Interviewing (3-)

Perspective, logic, and techniques of qualitative social research and analysis. Nature and uses of intensive interviewing, participant observation, and analytic ethnography. Application of field research principles. Research project required in addition to reading and analysis of classic studies.

[View course details in MyPlan: SOC 519](#)

SOC 520 Fieldwork: Observation and Interviewing (-3)

Logic and techniques of qualitative social research and analysis. Intensive interviewing, participant observation, qualitative data analysis (including applications of data base technology, problem reformulation, and techniques of visual documentation). Results of student work reported and discussed in class.

[View course details in MyPlan: SOC 520](#)

SOC 524 Master's Thesis Research Seminar (1, max. 3)

Facilitates the development of a thesis and its execution. Forum for refining research questions, presenting work in progress, and receiving feedback from instructor and other students on ideas and written work. Credit/no-credit only.

[View course details in MyPlan: SOC 524](#)

SOC 526 Causal Approach to Theory Building and Data Analysis (3)

Theory construction and testing from a causal models perspective. Path analysis, standardized versus unstandardized measures, feedback models, identification problems, estimation in overidentified models, difference equations, differential equations, stability conditions. Multiplicative models as alternatives to additive ones. Causal approach to measurement error.

[View course details in MyPlan: SOC 526](#)

SOC 527 Measurement of Basic Sociological Concepts (3)

Conceptualization and measurement problems in sociology, using major concepts as illustrations of basic issues. Causal approach to measurement to deal with problems of indirect measurement, cross-level measurement problems, aggregation and disaggregation. Consequences of crude measurement for data analyses. Prerequisite: SOC 504.

[View course details in MyPlan: SOC 527](#)

SOC 528 Seminar on Selected Statistical Problems in Social Research (3)

Prerequisite: SOC 506. Instructors: Raftery

[View course details in MyPlan: SOC 528](#)

SOC 529 Structural Equation Models for the Social Sciences (3)

Structural equation models for the social sciences, including specification, estimation, and testing. Topics include path analysis, confirmatory factor analysis, linear models with latent variables, MIMIC models, non-recursive models, models for nested data. Emphasizes applications to substantive problems in the social sciences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with CS&SS 526.

[View course details in MyPlan: SOC 529](#)

SOC 530 Urbanism and Urbanization (3) I&S

Human population distribution and migration patterns. Causes and consequences of world urbanization. Spatial and social patterns in the metropolis. Aggregate population movements and selectivity of migrants.

[View course details in MyPlan: SOC 530](#)

SOC 531 Fertility and Mortality (3) I&S

Theories of fertility and mortality, demographic transitions, individual variations. Specific analytic approaches. Familiarity with basic fertility and mortality measures, and with the life table, is assumed.

[View course details in MyPlan: SOC 531](#)

SOC 533 Research Methods in Demography (3) I&S

Basic measures and models used in demographic research. Sources and quality of demographic data. Rate construction, standardization, the life table, stable population models, migration models, population estimation and projection, measures of concentration and dispersion, measures of family formation and dissolution.

[View course details in MyPlan: SOC 533](#)

SOC 534 Statistical Methods for Spatial Data (3)

Motivates the need for, and describes methods for, the analysis of spatial data. Topics: Clustering, cluster detection, spatial regression, modeling neighborhood effects, geographical information systems. Point and aggregated data considered and data from complex surveys. Offered: jointly with CS&SS 554/STAT 554; W.

[View course details in MyPlan: SOC 534](#)

SOC 535 Foundations of Population Health and Health Disparities (3)

Provides an overview of the nature and social determinants of the health of human populations, investigates disparities in health within and between populations, and examines the ways in which population health may be improved by the translation of scientific knowledge into interventions and public policy.

[View course details in MyPlan: SOC 535](#)

SOC 536 Analysis of Categorical and Count Data (3)

Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with CS&SS 536/STAT 536.

[View course details in MyPlan: SOC 536](#)

SOC 537 Modeling Emergence: Social Simulation (3)

Seminar and practicum in computational modeling of social processes with emphasis on using agent-based simulation models to investigate and refine theory.

[View course details in MyPlan: SOC 537](#)

SOC 538 Data Science and Population Processes (3)

Today's large and complex data sets ("big data") allow social scientists to address core social questions in new ways. Examines how traditional social science and demographic methods can be used to make sense of new data sources, and how these new data sources may require new approaches and research design.

[View course details in MyPlan: SOC 538](#)

SOC 539 Selected Topics in Demography and Ecology (3, max. 9)

Specialized problems in demography or ecology are covered; for example, migration, fertility, mortality, language, race and ethnic relations, metropolitan community. See quarterly announcement for specific problem to be covered.

[View course details in MyPlan: SOC 539](#)

SOC 542 Selected Topics in Group Processes (3)

Theories, methodology, and studies in the area of small-group research. Prerequisite: permission of instructor for nonmajors.

[View course details in MyPlan: SOC 542](#)

SOC 543 Seminar on Group Solidarity (3)

Interdisciplinary perspectives on solidarity, focusing on member commitment, group structure, and contributions to collective goals.

[View course details in MyPlan: SOC 543](#)

SOC 547 Social Cognition and Attribution (3)

Theories and research on social cognition and attribution. Theoretical and methodological debates on cognition. Sociological aspects of attribution. Prerequisite: SOC 514 or equivalent.

[View course details in MyPlan: SOC 547](#)

SOC 551 Family and Gender Relations (3)

Overview of major research findings on marriage, the family, and gender, including demographic trends, the place of children in society, courtship, the internal management of intimate relationships, divorce, and social policy.

[View course details in MyPlan: SOC 551](#)

SOC 553 Seminar on Gender and Sexuality (3)

Research seminar considering theoretical and empirical approaches to sexuality, with particular attention to the importance of gender. Examines the social control of sexuality by the state and by families, as well as social meanings of sexuality within social movements related to various aspects of sexuality.

[View course details in MyPlan: SOC 553](#)

SOC 554 Seminar in the Sociology of Religion (3)

Survey of significant and active areas of theory and research in contemporary social scientific studies of religion.

[View course details in MyPlan: SOC 554](#)

SOC 555 Methods in Macro, Comparative, and Historical Sociology (3)

Systems of conducting research with qualitative methods brought to bear on broad questions.

[View course details in MyPlan: SOC 555](#)

SOC 559 Seminar on Gender Roles (3)

Broad graduate-level introduction to theoretical issues concerning gender and society. Current state of empirical knowledge on the sociology of gender and strategies for research. Cross-cultural variations in conception of gender roles and how gender intersects with social institutions and social interactions.

[View course details in MyPlan: SOC 559](#)

SOC 560 Hierarchical Modeling for the Social Sciences (4)

Explores ways in which data are hierarchically organized, such as voters nested within electoral districts that are in turn nested within states. Provides a basic theoretical understanding and practical knowledge of models for clustered data and a set of tools to help make accurate inferences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with CS&SS 560/STAT 560.

[View course details in MyPlan: SOC 560](#)

SOC 562 Seminar in Comparative Race Relations (3)

Cross-cultural approach to race and ethnic relations, including case studies from Africa and Latin America.

Prerequisite: graduate standing in social sciences.

[View course details in MyPlan: SOC 562](#)

SOC 565 Inequality: Current Trends and Explanations (3)

Discussion of recent growth in economic inequality in the United States and competing explanations for these new trends through examination of labor market demographics, industrial composition and restructuring, and the broader political context that impacts policies like minimum wage, strength of unions, and foreign trade.

Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with CS&SS 565.

[View course details in MyPlan: SOC 565](#)

SOC 566 Seminar in Complex Organizations (3)

Special topic seminars in the field of complex organizations or industrial sociology.

[View course details in MyPlan: SOC 566](#)

SOC 567 Seminar in Complex Organizations (3)

Special topic seminars in the field of complex organizations or industrial sociology.

[View course details in MyPlan: SOC 567](#)

SOC 568 Social Mobility (3)

Description and measurement of social mobility. Determinants of mobility and cross-national comparisons. Consequences of mobility for social behaviors. Emphasizes movement from the socioeconomic position of family of origin to adult position. Prerequisite: SOC 518.

[View course details in MyPlan: SOC 568](#)

SOC 569 Demographic Studies of Stratification (3)

Overview of development of models of socioeconomic achievement ("status attainment" paradigm) in the field of stratification. Begins with work of Blau and Duncan. Covers elaboration of basic models to include race and ethnicity, social psychological variables, class, school and labor market effects, and other structural variables.

Prerequisite: SOC 513, SOC 518.

[View course details in MyPlan: SOC 569](#)

SOC 570 Seminar in Environmental Sociology (3)

Offered: jointly with SEFS 570.

[View course details in MyPlan: SOC 570](#)

SOC 574 Seminar in Methods of Criminological Research (3)

Provides training in the technical analysis of published research in criminology; designs and processes studies in parole prediction, prediction of prison adjustment, and prediction of treatment effect.

[View course details in MyPlan: SOC 574](#)

SOC 575 Social Movements: Politics and Organization (3)

Theoretical perspectives and research on the dynamics of national social movements from a macrosociological perspective. Introduces dominant models that stress organizational and political processes, with some examination of approaches that consider the intersection of politics, organization, and culture. Emphasis on the United States.

[View course details in MyPlan: SOC 575](#)

SOC 581 Special Topics in Theory and the History of Sociological Thought (3, max. 9)

Examination of current topics in theory and the history of sociological thought. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 581](#)

SOC 582 Special Topics in Research Methods and Statistical Analysis in Sociology (3, max. 9)

Examination of current topics in research methods and statistical analysis in sociology. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 582](#)

SOC 583 Special Topics in Demography and Ecology (3, max. 9)

Examination of current topics in demography and ecology. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 583](#)

SOC 584 Special Topics in Social Psychology (3, max. 9)

Examination of current substantive topics in social psychology. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 584](#)

SOC 585 Special Topics in Marriage and Family (3, max. 9)

Examination of current substantive topics in marriage and the family. Content varies according to recent

developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 585](#)

SOC 586 Special Topics in Organization and Industrial Sociology (3, max. 9)

Examination of current substantive topics in organizational and industrial sociology. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 586](#)

SOC 587 Special Topics in Deviance and Social Control (1-3, max. 9)

Examination of current substantive topics in deviance and social control. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 587](#)

SOC 588 Special Topics in Stratification and Race Relations (3, max. 9)

Examination of current substantive topics in stratification and race relations. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 588](#)

SOC 589 Special Topics in Macrosociology (3, max. 9)

Examination of current substantive topics in macrosociology. Content varies according to recent developments in the field and the interests of the instructor.

[View course details in MyPlan: SOC 589](#)

SOC 590 Special Topics in Sociology (1-3, max. 21)

Examination of current substantive topics in sociology. Content varies according to recent developments in the field and the interests of the instructor. Topics covered in courses with this number lie outside those covered by other special topics courses numbered SOC 581 through SOC 589.

[View course details in MyPlan: SOC 590](#)

SOC 591 Political Sociology (3)

Introduction to political sociology, considering the rise of the modern state, power, political organization, social movements, and other related topics.

[View course details in MyPlan: SOC 591](#)

SOC 597 Field Seminar in States, Markets, and Societies (5)

Exposes students to theoretical and empirical debates about engagement of states with their societies and with transnational actors in their historical, political, and social settings. Topics include state formation, social change, development, state-market relations, globalization, identities, ethnicities, gender, revolutions, democratization, corruption, clientalism, civil societies, NGOs, and social movements. Offered: jointly with JSIS 597.

Spanish and Portuguese Studies

[Display as tabs](#)

Department Overview

C104 Padelford

Undergraduate Program

C104 Padelford

The educational philosophy of Spanish and Portuguese studies is that knowledge and understanding of other cultures is fundamental in an increasingly global world, and that competence in the languages of those cultures is an indispensable gateway to them. Spanish studies provides students with the four basic language skills (listening, speaking, reading, and writing) in increasing levels of sophistication so that they may read and analyze works of literature written in Spanish as well as understand complex cultural structures and artifacts from Spain, Latin America, and the Latino populations of the United States. The UW offers beginning and intermediate Portuguese and all levels of Spanish.

Adviser
C104F Padelford, Box 354360
(206) 543-2075
spsadv@uw.edu

The Department of Spanish and Portuguese Studies offers the following programs of study:

- The Bachelor of Arts degree with a major in Spanish
- A minor in Spanish

Bachelor of Arts

Suggested First- and Second-Year College Courses: SPAN 101, SPAN 102, SPAN 103, or SPAN 121, SPAN 122, SPAN 123, or SPAN 134; SPAN 201, SPAN 202 (or SPAN 210), SPAN 203. Spanish, Latin American, and Chicano literature. Courses related to history and culture. Courses in English literature and comparative literature

Department Admission Requirements

1. Completion of SPAN 203, with a minimum cumulative 2.70 GPA for all Spanish coursework completed and a minimum 2.5 grade in each Spanish course

Helpful links

[Department Overview](#)

[Undergraduate Program](#)

[Graduate Program](#)

[Time Schedule](#)

[Academic Planning Worksheet](#)

[Course Descriptions](#)

[Department Web Page](#)

[Department Faculty](#)

2. Completion of at least 5 credits of English composition with a minimum 2.5 grade
3. Change-of-major forms, available online and outside C-104F Padelford Hall, are processed autumn, winter, and spring quarters only. Forms and unofficial transcripts must be turned in by the end of the third week of the quarter to assure registration priority for the following quarter. Paperwork turned in after the third week of the quarter is processed during the following admission cycle.

Major Requirements

58 credits beyond SPAN 203 as follows:

1. SPAN 301, SPAN 302, SPAN 303 (or equivalents, SPAN 314, SPAN 315, SPAN 316; SPAN 310; SPAN 330)
2. SPAN 321, SPAN 322, SPAN 323
3. One 300-level literature elective: See department website for list of eligible courses.
4. Five 400-level courses
5. Participation in an approved Study Abroad program (one quarter minimum, any level) or one or more experiential learning projects (minimum 2 credits of SPAN 392) which involve significant engagement with the Spanish-speaking community. Students are strongly encouraged to do both.
6. Other than SPAN 400 through SPAN 406, only one course whose instructional materials are primarily in English may apply to the major.

Minor

Minor Requirements: Minimum 27 credits above SPAN 203 level to include the following:

1. One of the following sequences: SPAN 301, SPAN 302, and either SPAN 303 or SPAN 330; SPAN 314, SPAN 315, and either SPAN 316 or SPAN 330; SPAN 310 and either SPAN 303, SPAN 316, or SPAN 330
2. Four 300- or 400-level electives
3. Only one course in which instructional materials are primarily in English may apply to the minor. SPAN 327 may not apply to the minor and is not open to heritage/native speakers.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of Spanish and Portuguese is both skills- and content-based, i.e., it has practical and cognitive elements. Students learn to communicate in Spanish or Portuguese, refining their language skills as they acquire a body of knowledge about the literary and cultural history of Spain, Latin America, and the Spanish-speaking populations of the United States. Graduates have found these skills extremely useful as they pursue careers in teaching, business, NGOs and human rights organizations, law, and politics.
- *Instructional and Research Facilities:* Departmental facilities include a Writing Center for students registered in third-year Spanish. The Center for Spanish Studies, housed in the department, is a joint initiative of the University of Washington, the Education Office of the Embassy of Spain, and the Office of Superintendent of Public Instruction. This center provides services that include workshops for K-12 teachers of Spanish, sponsorship of cultural events, and a lending library of books as

well as audio and visual materials. A branch of the Spanish government sponsored Cervantes Institute, also housed in the department, offers linguistic and cultural resources to the university and the general community as well.

The department directs three study abroad programs, in León (Spain), Oaxaca (Mexico) and Cádiz (Spain). These programs are "living laboratories." Approximately 100 students participate each year.

- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors). With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Experiential Learning:* Internship opportunities are posted on the department website as they become available. Also, students may participate in experiential learning (which may include service learning), in which they combine study with service to the community. Students must volunteer two-to-five hours per week (a minimum of 30 hours per quarter) in organizations that provide services primarily, although not exclusively, to Spanish speakers. Alternatively, they may volunteer in public schools as tutors of different academic themes. Some of the organizations and schools involved include CASA Latina, The Mexican Consulate, El Centro de la Raza, Our Lady of Mt. Carmel, Northwest Immigrant Rights Project, Cascade People's Center, Center for Spanish Studies, John Stanford International School, Bryant Elementary School, John Hay Elementary School, Hamilton Middle School, Nathan Hale High School, the Pipeline Project, and the East Side Literacy program. Students apply and increase their knowledge of the Spanish language in a real context. They are exposed to Hispanic multiculturalism and become active agents of social change in the community.
- *Department Scholarships:* An annual scholarship, the Susan B. Johnson Memorial Endowment Fund, is awarded to a student of Spanish for foreign study in Spain.
- *Student Organizations/Associations:* None.

Of Special Note: 100- and 200-level Spanish courses do not count toward major/minor requirements.

Graduate Program

Graduate Program Adviser

spsadv@uw.edu

The Department of Spanish and Portuguese Studies offers a program of graduate study leading to the Master of Arts degree.

The Master of Arts degree program in Hispanic Literary and Cultural Studies was reformed and updated in 2001 to foster study of Hispanic culture, literature, and language together. The program calls attention to the rich diversity of Hispanic cultural texts and to their interdisciplinary study while also promoting broad understanding of Spanish and Latin American literature. The program gives careful attention to acquainting students with the traditions of scholarship in the field as well as a range of current textual theory, criticism, and research methods.

Study of Portuguese and other Romance literatures and cultures, comparative literature, Romance and Spanish linguistics, and other related disciplines may be included in the master's degree program. The degree is earned normally in six academic quarters.

Students who wish to pursue advanced study in Spanish and Portuguese in a post-master's degree program may do so by entering the doctoral studies programs in Hispanic Studies of Comparative Literature or other departments of the University.

Master of Arts

Admission Requirements

1. Application for admission to the Graduate School
2. Three letters of recommendation
3. Unofficial transcripts. International applicants must also submit official transcripts to the Graduate School.
4. Academic autobiographical statement composed by the applicant in Spanish
5. A sample of the applicant's written work in Spanish in some area of Hispanic literature and culture. This may be a copy of a paper written for a course in the area of the applicant's major. An analytical or critical writing sample is preferred.
6. Graduate Record Examination (GRE) scores are required from applicants whose first language is English, and from applicants whose first language is not English who hold a bachelor's, master's, or doctoral degree from a regionally accredited university in one of the countries noted in Memo 8 from the Graduate School Memoranda. The GRE requirement is waived for applicants whose first language is not English, if they do not hold a bachelor's, master's, or doctoral degree from a regionally accredited university in one of the countries noted in Memo 8 from the Graduate School Memoranda.
7. Foreign students: Applicants whose native language is not English should note that the Graduate School requires proof of proficiency in the English language in one of the ways described in detail in Memo 8 of the Graduate School Memoranda. TOEFL (Test of English as a Foreign Language) or its computerized version (TOEFLC) or the Michigan Test and also the TSE (Test of Spoken English). A TOEFL score of 500 (or a TOEFLC score of 173) is required for admission, and a score of 580 (or 237 on the computerized form) is required for teaching assistant eligibility. Alternatively a Michigan Test score of 80 is required for admission and 90 for teaching assistantship eligibility. A minimum score of 55 is required on the TSE.8. Complete and upload Assistantship and Fellowship Application regardless of whether or not applicant is applying for a TA position.
8. Complete and upload Assistantship and Fellowship Application regardless of whether or not applicant is applying for a TA position. If applying for a Teaching Assistant position, the following is also required.
 - A digital voice recording (mp3 file format preferred) in which the applicant summarizes his/her reasons for applying to the graduate program and explains his/her interest in the TA position. Only spontaneous speech is considered. The recording must be in English for native Spanish speakers, and in Spanish for all other applicants.
 - Resume or Curriculum Vitae

Degree Requirements

1. A total of 60 applicable credits (500 level and above). To remain in good standing the student must maintain a 3.00 cumulative GPA. The minimum acceptable grade for any given course is 2.7.
2. Either SPAN 577, or an alternate graduate-level literary theory course which must be pre-approved by the Graduate Program Coordinator
3. SPAN 510 is required of all teaching assistants and is taken during or before a student's first quarter of teaching.
4. *Distribution requirement*: Minimum 5 credits (normally one course) must be earned in five of the six: Medieval Spain, "Golden Age" Spain; Spain of the eighteenth and nineteenth centuries; twentieth-century Spain; colonial and nineteenth-century Latin America; and twentieth-century Latin America.
5. MA candidates must pass an MA examination: During the first quarter of graduate study, students must select one area in which to be examined from the six areas of study specified above. They then have a year to prepare that field. Students may not write their MA thesis in the field they have chosen for their examination. The MA examination is written at the beginning of the fourth quarter of study (ordinarily fall quarter). The examination consists of one question, and the student has five hours to answer his/her question, with only a dictionary available for consultation. The examination in the chosen area is based on the MA reading list, available on this website: depts.washington.edu/spanport/programs/grad_readingList.html.
6. MA candidates must complete an MA Thesis: Students must take ten credits of MA thesis (SPAN 700) in their second year of study (5 credits in the fall quarter and 5 credits in the winter quarter). The MA thesis (minimum 45 pages of text, plus bibliography) is directed by a graduate faculty member and submitted to the Graduate Studies Committee for its approval by the end of the fifth quarter of study.
7. Admission to the Graduate School allows students to continue graduate study and research at University of Washington only as long as they maintain satisfactory performance and progress toward completion of their degree program. Details can be found here: depts.washington.edu/spanport/programs/grad_academicRequirement.html.

Financial Aid

The department awards annually a number of teaching assistantships. The assistant normally participates in teaching three classes during the academic year. Each class is limited to approximately 25 students and meets five hours a week for the ten weeks of the quarter.

Applicants whose native language is not English must demonstrate English proficiency in one of the ways described in the Graduate School's Memorandum 15 to be considered for a TA position. For more information see:

www.grad.washington.edu/policies/memoranda/memo08.shtml;
www.grad.washington.edu/policies/memoranda/memo15.shtml.

PORTUGUESE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

PORT 103 Elementary Portuguese (5)

Methods and objectives are primarily oral-aural. Covers all major elements of Portuguese grammar. Third in a sequence of three. Prerequisite: PORT 102.

[View course details in MyPlan: PORT 103](#)

PORT 105 Intensive Portuguese for Spanish Speakers (6) VLPA

Covers the verbal system and major grammatical points. Does not satisfy foreign language requirement.

Prerequisite: either SPAN 203 or SPAN 216, or either SPAN 301, SPAN 302, SPAN 303, SPAN 314, SPAN 315, or SPAN 316 any of which may be taken concurrently.

[View course details in MyPlan: PORT 105](#)

PORT 110 Accelerated Elementary Portuguese (5)

Covers the equivalent of PORT 101 and PORT 102 to prepare for PORT 103. May not be taken in addition to PORT 101 or PORT 102.

[View course details in MyPlan: PORT 110](#)

PORT 199 Foreign Study: Elementary (2-16, max. 16)

Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through PORT 103.

[View course details in MyPlan: PORT 199](#)

PORT 201 Intermediate Portuguese (5) VLPA

Modern texts, compositions, conversation, and a systematic review of grammar. First in a sequence of three.

Prerequisite: either PORT 103 or PORT 105.

[View course details in MyPlan: PORT 201](#)

PORT 202 Intermediate Portuguese (5) VLPA

Modern texts, compositions, conversation, and a systematic review of grammar. Second in a sequence of three.

Prerequisite: PORT 201.

[View course details in MyPlan: PORT 202](#)

PORT 203 Intermediate Portuguese (5) VLPA

Modern texts, compositions, conversation, and a systematic review of grammar. Third in a sequence of three.

Prerequisite: PORT 202.

[View course details in MyPlan: PORT 203](#)

PORT 299 Foreign Study: Intermediate (2-16, max. 16) VLPA

Intermediate instruction in approved foreign study program. Further study at 200-level subject to department evaluation.

[View course details in MyPlan: PORT 299](#)

PORT 301 Advanced Portuguese (5) VLPA

Emphasizes oral skills while continuing to refine reading comprehension and written expression. Aims to develop abilities to successfully deal with comprehension and production of oral texts of an academic and professional nature. Not a conversation course. Prerequisite: PORT 203.

[View course details in MyPlan: PORT 301](#)

PORT 310 Introduction to Lusophone Literature (3) VLPA

Introduction to the studies of Lusophone literature and culture.

[View course details in MyPlan: PORT 310](#)

PORT 335 Twentieth Century Brazilian Fiction in English (5, max. 10) VLPA

Reading texts in connection with cultural and theoretical issues.

[View course details in MyPlan: PORT 335](#)

PORT 365 Mapping Luso-Brazilian Cultures (5) I&S/VLPA

Explores cultures of Brazil, Portuguese-speaking Africa, Asia, and Europe within the framework of cultural studies theory. Follows an interdisciplinary approach, drawing from readings, audio files (radio), films and documentaries in history, literature, arts and performances, anthropology, among others. Focuses on selected cultural aspects and countries. Taught in ENGLISH. Offered: jointly with JSIS A 365; Sp.

[View course details in MyPlan: PORT 365](#)

PORT 366 Port-Language Track for Mapping Luso-Brazilian Cultures (2)

Language track option in Portuguese for intermediate or higher level students, in conjunction with PORT 365/JSIS A 365. Must be registered in PORT 365/JSIS A 365, to take this class. Explores readings and films/documentaries in the cultures of Brazil and the Portuguese-speaking world. Prerequisite: PORT 201 or permission of instructor. Offered: Sp.

SPANISH AND PORTUGUESE STUDIES

SPANISH

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

SPAN 101 Elementary Spanish (5)

Methods and objectives are primarily oral-aural. Language laboratory is required. First in a sequence of three. Prerequisite: score of 0-15 on SP100A placement test if Spanish is language of admission. No credit if Spanish is the language of admission. Cannot be taken for credit if SPAN 121 already taken.

[View course details in MyPlan: SPAN 101](#)

SPAN 102 Elementary Spanish (5)

Methods and objectives are primarily oral-aural. Second in a sequence of three. Prerequisite: either SPAN 101, or score of 16-44 on SP100A placement test. Cannot be taken for credit if SPAN 122 already taken.

[View course details in MyPlan: SPAN 102](#)

SPAN 103 Elementary Spanish (5)

Methods and objectives are primarily oral-aural. Third in a sequence of three. Prerequisite: either SPAN 102, SPAN 110 or score of 45-69 on SP100A placement test. Cannot be taken for credit if SPAN 123 already taken.

[View course details in MyPlan: SPAN 103](#)

SPAN 110 Basic Spanish Review (5)

Covers the equivalent of SPAN 101 and SPAN 102 to prepare for SPAN 103. May not be taken in addition to SPAN 101 or SPAN 102. Prerequisite: score of 10-44 on SP100A placement test. Offered: AWSp.

[View course details in MyPlan: SPAN 110](#)

SPAN 121 Spanish Immersion (5)

Covers the equivalent of elementary Spanish (SPAN 101). Uses an alternative "planned immersion" method with video as the central medium of presentation. First in a sequence of three. Prerequisite: no previous Spanish study, or score of 0-15 on SP100A placement test if Spanish is language of admission. Cannot be taken for credit if SPAN 101 already taken.

[View course details in MyPlan: SPAN 121](#)

SPAN 122 Spanish Immersion (5)

Covers the equivalent of elementary Spanish (SPAN 102). Uses an alternative "planned immersion" method with

video as the central medium of presentation. Second in a sequence of three. Prerequisite: SPAN 121. ¹⁰⁹⁴Cannot be taken for credit if SPAN 102 already taken.

[View course details in MyPlan: SPAN 122](#)

SPAN 123 Spanish Immersion (5)

Covers the equivalent of elementary Spanish (SPAN 103). Uses an alternative "planned immersion" method with video as the central medium of presentation. Third in a sequence of three. Prerequisite: SPAN 122. Cannot be taken for credit if SPAN 103 already taken.

[View course details in MyPlan: SPAN 123](#)

SPAN 134 Intensive First-Year Spanish (15)

Intensive course. Covers the equivalent of SPAN 101, SPAN 102 and SPAN 103, the three courses of the first-year Spanish Language Program. Total credit will be reduced for students who have taken SPAN 101, SPAN 102, SPAN 103, SPAN 110, SPAN 121, SPAN 122, or SPAN 123. No prerequisites. Offered: S.

[View course details in MyPlan: SPAN 134](#)

SPAN 199 Foreign Study - Elementary (1-16, max. 16)

Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through SPAN 103.

[View course details in MyPlan: SPAN 199](#)

SPAN 201 Intermediate Spanish (5) VLPA

Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. First in a sequence of three. Prerequisite: either SPAN 103, SPAN 123, SPAN 134, score of 70-80 on SP100A placement test, or score of 0-75 on SP200A placement test.

[View course details in MyPlan: SPAN 201](#)

SPAN 202 Intermediate Spanish (5) VLPA

Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. Second in a sequence of three. Prerequisite: either SPAN 201 or score of 76-145 on SP200A placement test.

[View course details in MyPlan: SPAN 202](#)

SPAN 203 Intermediate Spanish (5) VLPA

Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. Third in a sequence of three. Prerequisite: either SPAN 202, SPAN 210, or score of 146-165 on SP200A placement test.

[View course details in MyPlan: SPAN 203](#)

SPAN 207 Culture and Civilization in Spain (5) I&S/VLPA M. RANEDA CUARTERO

Multi-disciplinary course that explores and examines particular aspects of the history, literature, art, society, and geography of Spain through a series of original readings and content-based activities that are specifically designed to encourage critical thinking and enhance linguistic proficiency in Spanish. Prerequisite: SPAN 203, may be taken simultaneously. Offered: W.

[View course details in MyPlan: SPAN 207](#)

SPAN 216 Spanish for Heritage Learners (5) VLPA

First of a four-course sequence designed for Heritage Spanish Speakers. Develops competence in students' reading and writing skills. Helps heritage speakers master grammar points, improve presentational skills, and take into account the experience and influences of bilingual and bicultural upbringing.

[View course details in MyPlan: SPAN 216](#)

SPAN 224 Spanish for Health Professionals I (3)

Exposes students to a variety of medical terminology, providing opportunities for practicing medical-focused

communication, and reading and analyzing written texts, as they would in a clinical setting. Not equivalent to any other Spanish language course. Prerequisite: either SPAN 201, or score of 76-145 on SP200A test.¹⁰⁹⁵

[View course details in MyPlan: SPAN 224](#)

SPAN 225 Spanish for Health Professionals II (3)

Understand and use more complex structures of Spanish; with precision and fluency in the healthcare field. Starts with review of conducting a simple physical exam and follow-up on tests. Includes concepts such as learning to create a medical history, and discussing hospitalization/discharge of patients. Prerequisite: SPAN 224.

[View course details in MyPlan: SPAN 225](#)

SPAN 226 Spanish for Health Professionals III (3)

Helps students understand and use more complex structures of Spanish, with precision and fluency in the healthcare field. Includes independent research into topics of professional relevance and personal interest to students and topics of importance to Spanish-speaking populations in the United States and the Puget Sound region. Prerequisite: SPAN 225.

[View course details in MyPlan: SPAN 226](#)

SPAN 227 Intermediate Conversation (2, max. 6) VLPA

Focuses on developing intermediate conversation skills - listening and speaking - and increasing vocabulary in varying situations. Discussions are based on contemporary Spanish films, current articles, fiction, and essays. Not open to students whose native language is Spanish. Prerequisite: either SPAN 103, SPAN 123, or SPAN 134.

[View course details in MyPlan: SPAN 227](#)

SPAN 237 Foreign Study - Intermediate Conversation (2-6, max. 6) VLPA

For participants in approved foreign study programs. Prerequisite: either SPAN 103, SPAN 123, or SPAN 134.

[View course details in MyPlan: SPAN 237](#)

SPAN 292 Experiential Learning in Spanish - Intermediate (1-3, max. 3) I&S

An experiential learning project in an NGO or non-profit organization in the Spanish-speaking community that engages students in ways that supplement their formal in-class trainings. Prerequisite: SPAN 103.

[View course details in MyPlan: SPAN 292](#)

SPAN 294 Special Topics in Spanish Literary/Cultural Studies (5, max. 10) VLPA

Focuses on a special topic related to Spanish literary or cultural studies. Taught in English.

[View course details in MyPlan: SPAN 294](#)

SPAN 299 Foreign Study - Intermediate (1-16, max. 16) VLPA

Intermediate instruction in approved foreign study program. Further study at 200 level subject to placement test score.

[View course details in MyPlan: SPAN 299](#)

SPAN 301 Advanced Spanish (5) VLPA

Emphasizes oral skills while continuing to refine reading comprehension and written expression. It aims to develop the abilities to successfully deal with comprehension and production of oral texts of an academic and professional nature. Not a conversation course. Prerequisite: either SPAN 203 or score of 166-175 on SP200A placement test.

[View course details in MyPlan: SPAN 301](#)

SPAN 302 Advanced Spanish (5) VLPA

Develops writing techniques and strategies for the production of Spanish texts of an academic and professional nature. Prerequisite: SPAN 301 or SPAN 310, either of which may be taken concurrently.

[View course details in MyPlan: SPAN 302](#)

SPAN 303 Advanced Spanish (5) VLPA

Develops writing techniques and strategies for the creation of essays on literary criticism and cultural analysis. Prepares students to deal successfully with academic writing in Hispanic literature and culture courses.

Prerequisite: either SPAN 302 or SPAN 310.

[View course details in MyPlan: SPAN 303](#)

SPAN 304 Survey of Spanish Literature: 1140-1498 (3) VLPA

Masterpieces of Spanish literature from origins to 1498. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

[View course details in MyPlan: SPAN 304](#)

SPAN 305 Survey of Spanish Literature: 1498-1681 (3/5) VLPA

Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

Instructors: Gilbert

[View course details in MyPlan: SPAN 305](#)

SPAN 306 Survey of Spanish Literature: 1681 to the Present (3/5) VLPA

Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

Instructors: Mercer

[View course details in MyPlan: SPAN 306](#)

SPAN 307 Introduction to Latin American Literature: Colonial Era through Early Independence (3/5) VLPA *J. ROBLES RIVERA*

Study of selected works from the sixteenth through the nineteenth century, with special emphasis on their historical and cultural relevance. Development of reading and writing skills. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

[View course details in MyPlan: SPAN 307](#)

SPAN 308 Introduction to Latin American Literature: Independence to the Present (3/5) VLPA

Study of selected works of twentieth-century Latin American literature and their sociohistorical context.

Development of reading and writing skills. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

[View course details in MyPlan: SPAN 308](#)

SPAN 309 Salamanders and Graffiti: Julio Cortazar's Fantastic Nightmares (3/5) VLPA *S. JAFFEE*

Explores short fiction and theoretical readings by Argentine writer Julio Cortazar (1914-1984), studied in the context of the Latin American new-narrative "boom" and fantastical literature. Key concepts include: urbanization, visibility, otherness, international modernity, and Argentine history. Additional topics of study include: classical mythology, Renaissance art, American jazz, and French "new wave" cinema. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

[View course details in MyPlan: SPAN 309](#)

SPAN 313 Business Communication in Spanish (5) VLPA *M. MEDIAVILLA*

This intermediate level course offers students the opportunity to develop their Spanish language skills (reading, writing, speaking, and listening) within the context of the Spanish-speaking business world. Business-specific culture emphasized. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently.

[View course details in MyPlan: SPAN 313](#)

SPAN 314 Spanish for Bilingual/Heritage Students (5) VLPA *Gillman*

Provides bilingual students whose formal education has primarily been in English with the skills necessary to succeed in upper-division Spanish classes. Intensive review of grammar, readings of literary and journalistic texts, Web-based exercises, writing review, and a play to enhance their verbal skills. Offered: AW.

[View course details in MyPlan: SPAN 314](#)

SPAN 315 Spanish for Bilingual/Heritage Students (5) VLPA

Emphasizes reading, with attention to problems particular to Spanish-heritage students. Emphasis on critical reading, vocabulary expansion, and grammar review. Prerequisite: SPAN 314. Instructors: Gillman Offered: WSp.

[View course details in MyPlan: SPAN 315](#)

SPAN 316 Stylistics and Composition for Heritage Students (5) VLPA *M. GILLMAN, A. WITTE*

Emphasis on the process of writing essays to help students develop a notion of style in Spanish, with attention to problems particular to Spanish heritage students. Prerequisite: SPAN 315. Offered: ASp.

[View course details in MyPlan: SPAN 316](#)

SPAN 317 Spanish and Latin American Literature in English Translation (5, max. 10) VLPA

Spanish and Latin American literature in English translation, with consideration of their background and influence. Does not fulfill any major or minor requirement.

[View course details in MyPlan: SPAN 317](#)

SPAN 318 Cervantes' Don Quixote in English (5) VLPA *Gilbert*

Cervantes' Don Quixote de la Mancha: close study of this comic masterpiece, and the life, times, and works of its author. Consideration of the work's enduring influence and vitality. Does not fulfill any major or minor requirement.

[View course details in MyPlan: SPAN 318](#)

SPAN 319 Mexican Literature (3) VLPA, DIV

Analysis of selected works of Mexican literature from the second half of the twentieth century: short stories, poetry, essay, and theatre. Focus on issues such as nationalism and national identity, gender, ethnicity, dependent development, and globalization. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Witte

[View course details in MyPlan: SPAN 319](#)

SPAN 321 Introduction to Hispanic Literary Studies (5) VLPA *A. WITTE*

Acquaints the third-year student with elementary techniques of literary analysis, as applied to examples of narrative, poetry, and theater, within the context of the Spanish and Latin American literary traditions.

Prerequisite: either SPAN 301 or SPAN 314, or SPAN 302, SPAN 303, SPAN 310, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently. Offered: W.

[View course details in MyPlan: SPAN 321](#)

SPAN 322 Introduction to Hispanic Cultural Studies (5) VLPA/I&S

Introduces students to elite, mass, and folk cultures of Latin America, Spain, and Latinos in the United States.

Sample topics include transculturation, globalization, border culture, and relations between culture, democratization, and human rights. Prerequisite: either SPAN 301 or SPAN 314, or SPAN 302, SPAN 303, SPAN 310, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently. Instructors: Gomez-Bravo. Offered: Sp.

[View course details in MyPlan: SPAN 322](#)

SPAN 323 Introduction to Spanish Linguistics (5) VLPA *V. FERNANDEZ*

Synchronic and diachronic linguistic analysis of Spanish, including Spanish phonetics and phonology, morphology, syntax, and evolution of the language. Prerequisite: either SPAN 301 or SPAN 314, or SPAN 302, SPAN 303, SPAN 310, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently. Offered: Sp.

[View course details in MyPlan: SPAN 323](#)

SPAN 327 Advanced Conversation (2-6, max. 6) VLPA

Focuses on developing advanced conversational skills - listening and speaking - to fluency and increasing vocabulary in varying situations. Discussions are based on contemporary Spanish films, current articles, fiction, and essays. Does not fulfill any major or minor requirement. Not open to students whose native language is

Spanish. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently.

[View course details in MyPlan: SPAN 327](#)

SPAN 328 Spanish Cultural Studies (5, max. 10) VLPA/I&S

Focusing on historical, social, and ideological aspects of modern Spanish culture. Lectures, readings, discussions, and written work in Spanish. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314.

[View course details in MyPlan: SPAN 328](#)

SPAN 329 Latin American Cultural Studies (5, max. 10) VLPA/I&S

Focuses on historical, social, and ideological aspects of modern Latin American culture. Lectures, readings, discussions, and written work in Spanish. Prerequisite: either SPAN 301, SPAN 310, or SPAN 314.

[View course details in MyPlan: SPAN 329](#)

SPAN 331 Themes in Mexican-American Studies (5) VLPA/I&S

Examination of significant historical and cultural themes of the Mexican-American experience. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently.

[View course details in MyPlan: SPAN 331](#)

SPAN 332 Chicano Film and Narrative (5) VLPA/I&S

Provides an historical overview of the evolution of Chicano culture through film. Critically examines the portrayal and self-portrayal of Chicanos in film and selected works of narrative. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently. Instructors: Flores

[View course details in MyPlan: SPAN 332](#)

SPAN 333 Hispanic Film Studies (5) VLPA/I&S

Introduction to major issues in the study of Hispanic cinema from various national contexts. The relationship of film to other types of narrative, and of film to society, specifically relations between class, gender, ethnicity, and artistic production, as well as between cinema and social change. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently. Instructors: Mercer

[View course details in MyPlan: SPAN 333](#)

SPAN 334 Latin American Film (5) VLPA/I&S

Overview of the history of Latin American cinema, including the new Latin American cinema of the 1960s; the development of strong film industries in Mexico, Cuba, and Brazil; and recent developments in the context of globalization and democratization. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently.

[View course details in MyPlan: SPAN 334](#)

SPAN 335 Spanish and Latin American Film (5) VLPA/I&S

Introduction to major issues in the study Hispanic Cinema from various national contexts as well as to film theory and the basics of cinematic techniques. Relationship between film and class, gender and ethnicity. Taught in English. Prerequisite: SPAN 301 or SPAN 314.

[View course details in MyPlan: SPAN 335](#)

Introduction to the theory and practice of storytelling in Spanish. Helps prepare the Spanish language teacher for the classroom. Focuses on the improvement of presentation skills, creativity, and the integration of story in the (second) language classroom.

[View course details in MyPlan: SPAN 336](#)

SPAN 337 Foreign Study Advanced Conversation (2-6, max. 6) VLPA

For participants in foreign study program. Does not fulfill any major requirement. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently.

[View course details in MyPlan: SPAN 337](#)

SPAN 339 Women Writers (3) VLPA

Critical analysis of Chicana/Latina writers in the United States; or by Spanish-American, Luso-Brazilian, and Spanish women writers in their specific socio-historical context. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Diaz

[View course details in MyPlan: SPAN 339](#)

SPAN 340 Introduction to Latin American Poetry (3) VLPA

Traces the oral, musical, and written traditions of Latin American poetry. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

[View course details in MyPlan: SPAN 340](#)

SPAN 350 Drama (3) VLPA

Generic study of Spanish drama. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Gilbert

[View course details in MyPlan: SPAN 350](#)

SPAN 351 Poetry (3) VLPA

Generic study of Spanish poetry. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: O' Hara

[View course details in MyPlan: SPAN 351](#)

SPAN 352 Fiction (3) VLPA

Generic study of Spanish fiction. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Petersen

[View course details in MyPlan: SPAN 352](#)

SPAN 360 Contemporary Spain (5) VLPA/I&S

Social, political, and cultural developments in Spain since the end of the Franco dictatorship in 1975. Extensive use of Spanish Web sites. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Raneda Offered: jointly with JSIS A 360.

[View course details in MyPlan: SPAN 360](#)

SPAN 390 Supervised Study (2-6, max. 20)

[View course details in MyPlan: SPAN 390](#)

SPAN 392 Experiential Learning in Spanish (1-3, max. 3)

Experiential learning project in the local Spanish-speaking community. Engages students in ways that supplement/enhance formal in-class language training. Prerequisite: SPAN 203. Credit/no-credit only.

[View course details in MyPlan: SPAN 392](#)

SPAN 393 Foreign Study (1-10, max. 20) VLPA

Study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330, any of which may be taken concurrently.

[View course details in MyPlan: SPAN 393](#)

SPAN 394 Special Topics in Spanish Literature (3/5, max. 10) VLPA

Focuses on an individual Spanish author or a special topic in Spanish literature. May be repeated once.

Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN

330. Instructors: Gomez-Bravo

[View course details in MyPlan: SPAN 394](#)

SPAN 395 Special Topics in Latin American Literature (3/5, max. 10) VLPA J. ROBLES RIVERA

Focuses on an individual Latin American author or a special topic in Latin American literature. May be repeated once. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

[View course details in MyPlan: SPAN 395](#)

SPAN 396 Special Topics in Spanish Cultural Studies (3/5, max. 10) VLPA/I&S

Focuses on a special topic related to Spanish cultural studies. Taught in English. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

[View course details in MyPlan: SPAN 396](#)

SPAN 398 Special Topics in Spanish Linguistics (3-5, max. 10) VLPA V. FERNANDEZ

Focuses on a special topics related to Spanish linguistic studies. May be repeated once. Prerequisite: either SPAN 301 or SPAN 314.

[View course details in MyPlan: SPAN 398](#)

SPAN 400 The Syntactic Structure of Spanish (5) VLPA

Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPLING 400.

[View course details in MyPlan: SPAN 400](#)

SPAN 401 The Morphological Structure of Spanish (5) VLPA

Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPLING 401.

[View course details in MyPlan: SPAN 401](#)

SPAN 402 The Phonological Structure of Spanish (5) VLPA

Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPLING 402.

[View course details in MyPlan: SPAN 402](#)

SPAN 403 The Evolution of the Spanish Language (5) VLPA V. FERNANDEZ

Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPLING 403.

[View course details in MyPlan: SPAN 403](#)

SPAN 404 Dialects of World Spanish (5) VLPA V. FERNANDEZ, A. FERNANDEZ DOBAO

Introduction to dialectal variants of Spanish. Considers standardization and the real academia; variation and change; pragmatics and politeness; Spanish in contact; sound, word formation, and grammar variation. Taught in Spanish. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPLING 404.

[View course details in MyPlan: SPAN 404](#)

SPAN 405 Hispanic Sociolinguistics (5) I&S/VLPA, DIV V. FERNANDEZ

Theoretical and methodological foundations of Hispanic Sociolinguistics, and main advances in recent years. Examines the correlations between language and social factors such as gender, age, and socioeconomic status. Addresses issues like attitudes toward language, bilingualism in the United States, Spanish as a heritage language, and Spanish in contact with other languages. Focuses on an individual Latin American author or a special problem in Latin American literature. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321.

[View course details in MyPlan: SPAN 492](#)

SPAN 493 Foreign Study (2-10, max. 20) VLPA

Advanced study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, SPAN 394, or SPAN 395.

[View course details in MyPlan: SPAN 493](#)

SPAN 495 Study in Spain (2-10, max. 20) VLPA

Advanced study in Spain in approved foreign study programs. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, SPAN 394, or SPAN 395.

[View course details in MyPlan: SPAN 495](#)

SPAN 498 Special Topics in Spanish Linguistics (5, max. 10) VLPA

Focuses on a special topic related to Spanish linguistic studies. May be repeated once. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400.

[View course details in MyPlan: SPAN 498](#)

SPAN 499 Special Topics (1-5, max. 10)

Topics to meet special needs.

[View course details in MyPlan: SPAN 499](#)

SPAN 510 Methodology of Spanish Language Teaching (5) *Fernandez Dobao*

Theoretical and practical foundations of current trends in second/foreign language teaching. Emphasis on communicative and task-based approaches to Spanish language teaching. Required for beginning Spanish teaching assistants. Credit/no-credit only.

[View course details in MyPlan: SPAN 510](#)

SPAN 521 The Renaissance in Spain (5, max. 20) *Gilbert*

Literary creation and the cultural, social, historical context of Spanish literature from La Celestina through the sixteenth century. Extensive study of secondary materials, intensive analysis of representative literary texts.

[View course details in MyPlan: SPAN 521](#)

SPAN 522 The Renaissance in Spain (5, max. 20) *Gilbert*

Literary creation and the cultural, social, historical context of Spanish literature from La Celestina through the sixteenth century. Extensive study of secondary materials, intensive analysis of representative literary texts.

[View course details in MyPlan: SPAN 522](#)

SPAN 541 Topics in Spanish Applied Linguistics (5) *A. FERNANDEZ DOBAO*

Selected topics in Applied Linguistics. Discusses current theoretical approaches to the study of Applied Linguistics problems, with a special focus on Spanish. Examines empirical research from these different approaches and their main contributions to the field. Introduces Applied Linguistics research methods.

[View course details in MyPlan: SPAN 541](#)

SPAN 542 Topics in Spanish Second Language Acquisition (5) *A. FERNANDEZ DOBAO*

Selected topics in Second language Acquisition. Discusses current theoretical approaches to the study of Second Language Acquisition problems, with special emphasis on Spanish Second Language Acquisition. Examines empirical research from these different approaches and their main contributions to the field. Introduces Second Language Acquisition research methods.

[View course details in MyPlan: SPAN 542](#)

SPAN 561 Spanish-American Novel From 1940 to the Present (5, max. 20)

[View course details in MyPlan: SPAN 561](#)

SPAN 571 The Modern Essay in Spanish America (5, max. 20)

[View course details in MyPlan: SPAN 571](#)

SPAN 572 Twentieth-Century Spanish Poetry (5, max. 20)

[View course details in MyPlan: SPAN 572](#)

SPAN 573 Twentieth-Century Spanish-American Poetry (5, max. 20)

[View course details in MyPlan: SPAN 573](#)

SPAN 575 Literary Criticism (5)

[View course details in MyPlan: SPAN 575](#)

SPAN 577 Contemporary Literary Theory (5) *D. GILBERT*

Introduction to various structuralist and poststructuralist theories of literary analysis, including those developed by Hispanic theorists, and their application to the study of texts from the Spanish and Latin American traditions.

[View course details in MyPlan: SPAN 577](#)

SPAN 590 Special Seminar and Conference (1-10, max. 30)

Group seminars, or individual conferences, are scheduled under this number to meet special needs. Prerequisite:

permission of the Graduate Program Coordinator.

[View course details in MyPlan: SPAN 590](#)

SPAN 591 Literary Problems: Middle Ages (5, max. 20) *Gomez-Bravo, Petersen*

[View course details in MyPlan: SPAN 591](#)

SPAN 592 Literary Problems: Renaissance (5, max. 20) *Gomez-Bravo*

[View course details in MyPlan: SPAN 592](#)

SPAN 593 Literary Problems: Golden Age (5, max. 20) *D. GILBERT*

[View course details in MyPlan: SPAN 593](#)

SPAN 594 Literary Problems: Eighteenth Century (5, max. 20)

[View course details in MyPlan: SPAN 594](#)

SPAN 595 Literary Problems: Nineteenth Century (5, max. 20)

[View course details in MyPlan: SPAN 595](#)

SPAN 596 Literary Problems: Twentieth Century (5, max. 20)

[View course details in MyPlan: SPAN 596](#)

SPAN 597 Literary Problems: Spanish-American Colonial Literature (5, max. 20) *J. ROBLES RIVERA*

[View course details in MyPlan: SPAN 597](#)

SPAN 598 Literary Problems: Latin America (5, max. 20) *E. O'HARA*

[View course details in MyPlan: SPAN 598](#)

SPAN 600 Independent Study or Research (*-)

[View course details in MyPlan: SPAN 600](#)

SPAN 610 Reading Credit for Graduate Exams (5)

Reading preparation for MA and PhD exams.

[View course details in MyPlan: SPAN 610](#)

SPAN 700 Master's Thesis (*-)

Credit/no-credit only.

[View course details in MyPlan: SPAN 700](#)

SPAN 800 Doctoral Dissertation (*-)

Credit/no-credit only.

COLLEGE OF ARTS & SCIENCES

SPANISH AND PORTUGUESE STUDIES

SPANISH LINGUISTICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

SPLING 400 The Syntactic Structure of Spanish (5) VLPA

Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 400.

[View course details in MyPlan: SPLING 400](#)

SPLING 401 The Morphological Structure of Spanish (5) VLPA

Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 401.

[View course details in MyPlan: SPLING 401](#)

SPLING 402 The Phonological Structure of Spanish (5) VLPA

Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 402.

[View course details in MyPlan: SPLING 402](#)

SPLING 403 The Evolution of the Spanish Language (5) VLPA V. FERNANDEZ

Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 403.

[View course details in MyPlan: SPLING 403](#)

SPLING 404 Dialects of World Spanish (5) VLPA V. FERNANDEZ, A. FERNANDEZ DOBAO

Introduction to dialectal variants of Spanish. Considers standardization and the real academia; variation and change; pragmatics and politeness; Spanish in contact; sound, word formation, and grammar variation. Taught in Spanish. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 404.

[View course details in MyPlan: SPLING 404](#)

SPLING 405 Hispanic Sociolinguistics (5) I&S/VLPA, DIV V. FERNANDEZ

Theoretical and methodological foundations of Hispanic Sociolinguistics, and main advances in recent years. Examines the correlations between language and social factors such as gender, age, and socioeconomic status. Addresses issues like attitudes toward language, bilingualism in the United States, Spanish as a heritage language, and Spanish in contact with other languages. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 405.

[View course details in MyPlan: SPLING 405](#)

SPLING 406 Advanced Spanish Grammar (5) VLPA

Problems of Spanish grammar. Differences from English grammar. Techniques for the effective teaching of Spanish. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Instructors: Fernandez-Mallat Offered: jointly with SPAN 406; A.

[View course details in MyPlan: SPLING 406](#)

SPLING 407 Bilinguismo: Made in USA (5) VLPA/I&S

Introduces students to the study of bilingualism, focusing on Spanish/English bilingualism in the United States. Explores bilingualism as both an individual and social phenomenon, and aims to raise students' awareness about its benefits as well as complexities. Taught in Spanish. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Instructors: Fernandez Dobao Offered: jointly with SPAN 407.

Speech and Hearing Sciences

[Display as tabs](#)

Department Overview

210 Eagleson Hall

Speech and hearing sciences concern the processes and disorders of human communication and swallowing across the life span. This includes the study of typical hearing, speech, and language, cognitive-communication, and swallowing development; anatomy and physiology of speech, hearing, and swallowing; speech acoustics and perception; the nature of language, speech, cognitive-communication, swallowing, and hearing disorders in children and adults; social and cultural aspects of communication disorders; and the clinical processes involved in identification, prevention, and remediation of those disorders.

Undergraduate Program

Adviser

210 Eagleson, Box 354875

(206) 685-7403

shugadv@uw.edu

The Department of Speech and Hearing Sciences offers the following programs of study:

- The Bachelor of Science degree with a major in speech and hearing sciences
- An accelerated, fee-based, Bachelor of Science degree with a major in speech and hearing sciences for candidates with an existing bachelor's degree.

Bachelor of Science

Suggested First and Second-Year College Courses: Introductory course in anthropology, public health, psychology, or sociology; introductory biological science course – BIOL 118 recommended; introductory course in physics or chemistry – PHYS 107, PHYS 110, or CHEM 110 recommended; statistics course – STAT 220 or EDPSY 490 recommended.

Department Admission Requirements

Admission is competitive. The admissions committee reviews all applicants based on the following criteria: GPA (minimum 2.50 overall GPA guarantees consideration but not admission); personal statement reflecting an interest in and commitment to speech and hearing sciences; other evidence of a commitment to becoming a speech and hearing sciences major. Students may apply any time after they have earned 75 credits. The

application deadline for current UW students is Monday of the third week of the quarter for admission the next quarter; transfer students may apply to the department (if they are at or near junior standing) and to the University concurrently. Admission is for autumn, winter, or spring quarter. Only students admitted to the UW are eligible for admission to the major. Applicants are notified of the department's decision within four weeks. Applications and additional information are available outside 210 Eagleson and on the department's website.

Students who meet admission requirements are eligible for one of two options:

- Option 1, General Academic, is intended to provide broad perspectives of the discipline, but not to prepare students specifically for careers in clinical speech-language pathology and audiology. It is appropriate for students with interests in education, healthcare, and communication.
- Option 2, Speech and Hearing Sciences and Disorders, is intended for students interested in graduate study in speech and hearing sciences and clinical speech-language pathology and audiology. (Note that graduate study is required for the professional practice as a speech-language pathologist and audiologist.)

Major Requirements

62-75 credits as follows:

1. *Core Requirements (28 credits)*: SPHSC 261, SPHSC 302, SPHSC 303, SPHSC 304, SPHSC 320, SPHSC 371, SPHSC 461
2. Approved 3-5 credit college-level human- or animal-based biological science, anatomy and physiology, neuroanatomy and neurophysiology, human genetics, or veterinary science course. Laboratory component not required. See adviser for approved list.
3. Approved 3-5 credit college-level psychology, sociology, anthropology, or public health course. See adviser for approved list.
4. Approved 3-5 credit college-level chemistry or physics course. Laboratory component not required. See adviser for approved list.
5. Approved 3-5 credit college-level statistics course. See adviser for approved list.
6. 22-27 credits from an approved option:
 - a. Option 1, General Academic: 22 credits as follows:
 - i. Minimum 2.00 cumulative GPA in core requirements
 - ii. 22 credits from the following: SPHSC 305, SPHSC 308, SPHSC 405, SPHYSC 406, SPHSC 425, SPHSC 462, SPHSC 471, SPHSC 481, SPHSC 499 (6 credits maximum)
 - b. Option 2, Speech and Hearing Sciences and Disorders: 27 credits as follows:
 - i. Minimum 3.00 cumulative GPA in core requirements
 - ii. SPHSC 305, SPHSC 308, SPHSC 405, SPHSC 406, SPHSC 425, SPHSC 471, SPHSC 481
7. Minimum 2.00 cumulative GPA for all courses applied to the major

Post-baccalaureate Program

The fee-based postbaccalaureate program is designed for individuals who already have a bachelor's degree or an advanced degree in a discipline other than speech and hearing

sciences and wish to obtain the necessary academic background to apply directly to a graduate program. This is an intensive program designed to take five quarters with a mandatory summer start. Postbaccalaureate students have matriculated status as they are working toward a second bachelor's degree in preparation for graduate school.

Admissions Requirements

Postbaccalaureate program admission is based on multiple factors: the overall academic record from the first bachelor's or advanced degree, the personal statement, the letters of recommendation and the perceived commitment to speech, language, and hearing sciences.

Applying is a two-part process. The applicant is responsible for ensuring both the UW Office of Admissions and the Speech and Hearing Sciences Department receive the application materials by the February 15 deadline. Incomplete applications are not processed. Admission to SPHSC is contingent upon admission to UW. See the [program website](#) for details on the two-part admission process.

1. Bachelor's degree or advanced degree outside the area of speech and hearing sciences
2. Statement of purpose
3. All college-level transcripts
4. Three letters of recommendation sent to the department. The SPHSC recommendation form is available on the department website, depts.washington.edu/sphsc/. However, a letter is acceptable in lieu of the recommendation form. Students should read and fill out the top section of the recommendation form before giving it to the evaluator.

Degree Requirements

Minimum 64 credits as follows:

SPHSC 250, SPHSC 261, SPHSC 302, SPHSC 303, SPHSC 304, SPHSC 305, SPHSC 308, SPHSC 320, SPHSC 371, SPHSC 405, SPHSC 406, SPHSC 425, SPHSC 449, SPHSC 461, SPHSC 471, SPHSC 481

In addition, the American Speech-Language-Hearing Association (ASHA) requires the following four course requirements for anyone seeking certification in speech-language pathology and audiology. Courses are taken outside the Speech and Hearing Sciences Department, can be any number of credits, and can be taken for a grade or satisfactory/not-satisfactory. If students need to complete these courses prior to graduate school, they can be added to the postbaccalaureate program.

- Statistics course
- Biological science course (biology, anatomy & physiology, neuroanatomy & neurophysiology, human genetics, or veterinary science)
- Physical science course (physics or chemistry)
- Social or behavioral science course (psychology, sociology, anthropology, or public health)

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the department adviser or refer to the department website.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The graduate (1) has knowledge of the following: mechanisms involved in speech, language, and hearing; societal implications of language differences and of disorders of speech, language, and hearing; opportunities in, and requirements for, careers available to those in the speech and hearing sciences; (2) understands the following: normal acquisition of speech and language; the etiology and nature of communication disorders across the lifespan; principles and procedures for diagnosis and treatment of speech, language, and hearing disorders; the manner in which context (specifically, situation, social/interpersonal, and culture context) influences communication and disorders; social-cultural aspects of communication development and disorders; (3) has the following abilities: to analyze language in terms of its auditory, phonetic, phonological, morphological, and syntactic properties; to utilize strategies for solving scientific problems; to read and understand relevant literature; (4) has experience with a research project
- *Instructional and Research Facilities:* classrooms, research laboratories, computer laboratory, and clinic located in the department and in nearby campus buildings
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Faculty welcome undergraduate students into their research labs, offering independent study research opportunities (SPHSC 499), in addition to mentored, year-long honors research projects (SPHSC 498). No formal internship programs offered. See adviser for community-based service learning and internship opportunities.
- *Department Scholarships:* None offered
- *Student Organizations/Associations:* The National Student Speech Language Hearing Association (NSSLHA) UW chapter, 153 Eagleson Hall.

Graduate Program

Graduate Student Services
Eagleson Hall, Box 354875
(206) 685-7402
shgrad@uw.edu

The Department of Speech and Hearing Sciences offers four graduate degree programs that equip students to do research, teach at the college and university level, and provide clinical services to the communicatively impaired.

- The Master of Science in Speech-Language Pathology (MS SLP)
- The Master of Science in Medical Speech-Language Pathology (MS MedSLP)
- The Doctor of Audiology (AuD)

- The Doctor of Philosophy (PhD)

At the Master of Science and Doctor of Audiology level, specific focus is on the evidence-based clinical procedures involved in the identification, prevention, and remediation of communication disorders. Students granted these degrees meet all the requirements of the Certificate of Clinical Competence (CCC) granted by the American Speech-Language-Hearing Association (ASHA), the professional, scientific and credentialing organization for speech-language pathology and audiology professionals.

At the Doctor of Philosophy level, the program consists of a wide range of coursework and seminars providing opportunities for the development of scholarly and professional competence in various areas of specialization: speech and language acquisition, phonetics, speech production, hearing, hearing development, psychoacoustics, physiological acoustics, speech perception, and assessment and treatment of human communication disorders related to language, speech, and hearing.

To complement departmental curricula in various specialization areas, close interdisciplinary relationships are maintained with other University departments and off-campus centers.

Master of Science in Speech-Language Pathology (MS SLP)

Entrance to the program is for autumn quarter only. The department does not accept transfer students, Graduate Non-Matriculated (GNM) applicants, or applicants interested in a non-clinical master's degree.

Admission Requirements

1. Complete UW Graduate School application between September 15 and February 1. Submit the following to the Speech and Hearing Sciences Department by February 1st:
 - a. Department's supplemental application
 - b. Unofficial transcripts for all schools attended
 - c. GRE scores earned within the last five years
 - d. Three letters of recommendation
 - e. Personal statement
2. Minimum 3.00 GPA for the last 90 quarter credit hours of study (60 semester)
3. English language proficiency as outlined by the UW Graduate School
4. Bachelor's degree from a regionally accredited institution with a major in speech and hearing sciences (communication disorders, communication sciences and disorders, or a similarly named major) or in another major with sufficient undergraduate coursework in speech and hearing sciences (communication disorders, communication sciences and disorders, or a similarly named program)
5. Prerequisite undergraduate coursework as dictated by the American Speech-Language-Hearing Association's (ASHA) accreditation standards and guidelines.
 - a. Speech and hearing sciences coursework across these areas of knowledge:
 1. Linguistics
 2. Phonetics/language science
 3. Anatomy and physiology of the speech mechanism

4. Speech and language acquisition/development
 5. Speech and language disorders
 6. Hearing science/nature of sound
 7. The hearing mechanism
 8. Hearing disorders
 9. Audiometry
 10. Aural rehabilitation/management of hearing loss
 11. Social cultural aspects of communication
 12. Principles of assessment
 13. Principles of treatment
- b. Basic science and statistics coursework: one course in each of the following areas:
- Statistics course
 - Biological science course (biology, anatomy & physiology, neuroanatomy & neurophysiology, human genetics, or veterinary science)
 - Physical science course (physics or chemistry)
 - Social or behavioral science course (psychology, sociology, anthropology, or public health)
- c. Minimum 25 documented, clinical observation hours within the scope of practice of speech-language pathology. Observations must be under the direction of an ASHA-certified speech-language pathologist.

Degree Requirements

102-107 credits. Includes 57 didactic; 41 clinical; and either 4 credits adult- emphasis path or 9 credits pediatric-emphasis path.

1. Didactic (57 credits)

- a. SPHSC 500, SPHSC 501, SPHSC 506, SPHSC 529, SPHSC 531, SPHSC 532, SPHSC 533, SPHSC 534, SPHSC 535, SPHSC 536, SPHSC 537, SPHSC 538, SPHSC 539, SPHSC 540, SPHSC 565
- b. Completion of either adult-emphasis or pediatric-emphasis path
 - Pediatric-emphasis path – minimum four didactic courses (9 credits): SPHSC 526, SPHSC 543, SPHSC 550, and one out-of-department elective course of choice
 - Adult emphasis path – minimum three didactic courses (4 credits): Choice of SPHSC 545, SPHSC 546, SPHSC 541 or SPHSC 548, and two out-of-department elective courses

2. Clinical (41 credit)

- a. Minimum 41 credits of clinical practicum coursework from the following: SPHSC 591, SPHSC 551, SPHSC 552, SPHSC 555, either SPHSC 601 or SPHSC 602.
- b. Minimum 375 clock hours of supervised clinical experience in the practice of speech-language pathology.

- The clinical practicum coursework requirements include completion of a pre-internship and a culminating full-time internship in a community-based clinical facility.
3. Thesis Coursework (optional) – Minimum 9 credits of SPHSC 700 required for anyone choosing to pursue a master's thesis. Students must also successfully complete a written document and oral defense of their thesis.
 4. Additional Degree Requirements: 36 credits of non-clinical practicum graduate work at the 400 level or above. Minimum 18 of the 36 quarter credits in courses numbered 500 and above. No more than 9 credits of courses 500 level and above can be thesis credits. Students also satisfactorily complete the requirements for the Certificate of Clinical Competence (CCC) of the American Speech-Language-Hearing Association by registering for the required coursework and practica, pre-internship and internship credits.

Master of Science in Medical Speech-Language Pathology (MS MedSLP)

Entrance to the program is for autumn quarter only. The department does not accept transfer students, Graduate non-matriculated (GNM) applicants, or applicants interested in a non-clinical MS degree.

Admission Requirements

1. Complete UW Graduate School Application between September 15th and February 1. Applicants must submit by February 1st:
 - a. Department's supplemental application
 - b. Unofficial transcripts for all schools attended
 - c. GRE scores earned within the last five years
 - d. Three letters of recommendation
 - e. Personal statement
2. Minimum 3.00 GPA for the last 90 quarter credit hours of study (60 semester)
3. Demonstrated English language proficiency as outlined by the UW Graduate School
4. Bachelor's degree from a regionally accredited institution with a major in speech and hearing sciences (communication disorders, communication sciences and disorders, or a similarly named major) or in another major with sufficient undergraduate coursework in speech and hearing sciences (communication disorders, communication sciences and disorders, or a similarly named program)
5. Completed prerequisite undergraduate coursework as dictated by the American Speech-Language-Hearing Association's (ASHA) accreditation standards and guidelines.
 - a. Speech and hearing sciences coursework across these areas of knowledge:
 1. Linguistics
 2. Phonetics/language science
 3. Anatomy and physiology of the speech mechanism
 4. Speech and language acquisition/development
 5. Speech and language disorders

6. Hearing science/nature of sound
 7. The hearing mechanism
 8. Hearing disorders
 9. Audiometry
 10. Aural rehabilitation/management of hearing loss
 11. Social cultural aspects of communication
 12. Principles of assessment
 13. Principles of treatment
- b. Basic science and mathematics coursework. Applicants must have completed a minimum of one course in each of the following areas:
- Statistics course
 - Biological science course (biology, anatomy & physiology, neuroanatomy & neurophysiology, human genetics, or veterinary science)
 - Physical science course (physics or chemistry)
 - Social or behavioral science course (psychology, sociology, anthropology, or public health)
- c. Minimum 25 documented, clinical observation hours within the scope of practice of speech-language pathology. Observations must be under the direction of an ASHA certified speech-language pathologist.

Degree Requirements

Minimum 114 credits; 72 didactic and 42 clinical

Didactic, 72 credits as follows:

1. SPHSC 500, SPHSC 501, SPHSC 506, SPHSC 507, SPHSC 529, SPHSC 531, SPHSC 532, SPHSC 533, SPHSC 534, SPHSC 535, SPHSC 536, SPHSC 537, SPHSC 538, SPHSC 539, SPHSC 540, SPSHC 541, SPSHC 543, SPSHC 545, SPHSC 546, SPHSC 548, SPHSC 549, SPHSC 565.

Course material covers:

- i. Basic human communication and swallowing processes
- ii. Nature of speech, language, hearing, and communication disorders and differences, and swallowing disorders
- iii. Principles and methods of prevention, assessment, and intervention for people with communication and swallowing disorders
- iv. Standards of ethical conduct
- v. Processes of research and the integration of research principles into evidence-based clinical practices
- vi. Knowledge of disorders, treatment, and assessment specific to practice in medical settings
- vii. Contemporary professional issues

- viii. Knowledge about certification, specialty recognition, licensure, and other relevant professional credentials
- ix. Specialized oral, written, and other forms of communication for use in professional practice.

2. Clinical, 42 credits as follows:

- i. 42 credits of SPHSC 553 and SPHSC 554
- ii. Minimum of 375 clock hours of supervised clinical experience in the practice of speech-language pathology.

The clinical practicum coursework requirements include completion of a pre-internship and a culminating full-time internship in a community-based clinical facility.

Thesis Coursework (optional): Minimum 9 credits of SPHSC 700 required for anyone choosing to pursue a master's thesis. Students must also successfully complete a written document and oral defense of their thesis.

Additional Degree Requirements: 36 credits of non-clinical graduate work at the 400 level or above. Minimum 18 of the 36 quarter credits in courses numbered 500 and above. No more than 9 credits of courses 500 level and above can be thesis credits. Satisfactory completion of all didactic and practicum requirements detailed above. Students also satisfactorily complete the requirements for the Certificate of Clinical Competence (CCC) of the American Speech-Language-Hearing Association by registering for the required coursework and practica credits.

Doctor of Audiology

Entrance to the program is for autumn quarter only. The department does not accept transfer students, Graduate non-matriculated (GNM) applicants, or applicants interested in a non-clinical AuD degree.

Admission Requirements

1. Complete UW Graduate School Application between September 15th and February 1st. Applicants must submit by February 1st:
 - a. Departmental's supplemental application
 - b. Unofficial Transcripts for all schools attended
 - c. GRE scores earned within the last five years
 - d. Three letters of recommendation
 - e. Personal statement
2. Minimum 3.00 GPA for the last 90 quarter credit hours of study (60 semester)
3. Demonstrated English language proficiency as outlined by the UW Graduate School
4. Bachelor's degree from a regionally accredited institution

Undergraduate Coursework: Foundational coursework in speech and hearing sciences, as well as the principles of biological science, physical science, social/behavioral science, and basic math or statistics. All foundational coursework is required for the graduate degree and clinical certification in audiology as dictated by the American Speech-Language-Hearing Association's (ASHA) accreditation standards and guidelines. The department

encourages, but does not require, students to complete this foundation coursework prior to starting graduate study.

1. Basic science and math coursework. Graduates of any Doctor of Audiology program must complete a minimum of one undergraduate course in each of the following areas in order to be eligible for ASHA certification. See advisor for list of acceptable courses.
 - Statistics course
 - Biological science course (biology, anatomy & physiology, neuroanatomy & neurophysiology, human genetics, or veterinary science)
 - Physical science course (physics or chemistry)
 - Social or behavioral science course (psychology, sociology, anthropology, or public health)
2. Speech and Hearing Sciences coursework. Graduates of the Doctor of Audiology program must also complete undergraduate coursework that covers the following foundational areas in order to be eligible for ASHA certification:
 - Normal development of speech and language
 - Language and speech disorders across the life span
3. If not completed prior to graduate study, students take one or more of the following speech and language courses during their graduate program: SPHSC 250, SPHSC 304, SPHSC 305, SPHSC 425

Degree Requirements

Minimum 193 credits: 81 didactic, 8 elective, 92 clinical, and 12 capstone as follows:

Didactic, minimum 81 credits as follows:

1. SPHSC 462, SPHSC 503, SPHSC 504, SPHSC 509, SPHSC 521, SPHSC 522, SPHSC 523, SPHSC 542, SPHSC 570, SPHSC 571, SPHSC 572, SPHSC 574, SPHSC 575, SPHSC 576, SPHSC 577, SPHSC 579, SPHSC 580, SPHSC 581, SPHSC 582, SPHSC 583, SPHSC 584, SPHSC 585, SPHSC 586, SPHSC 588, SPHSC 592, SPHSC 593.
2. *Elective* minimum 8 credits as follows: Students are required to take elective coursework that meet the following requirements: (a) 300/400 levels courses are preferred and should taken for a grade (or Satisfactory/Nonsatisfactory), (b) 100/200 level courses approved based on content but must be taken for a grade, (c) elective courses must be a minimum of 2 credits with the exception of SPHSC 563 or permission must be granted from the AuD Graduate Program Advisor, and (d) total elective credits must equal 8 credits by graduation.

Clinical, minimum 92 credits as follows:

1. 2 credits of SPHSC 552
2. 50 credits of SPHSC 591
3. 40 credits of SPHSC 601
4. *Year 4 (30 credits)*: SPHSC 601 (10 credits) for three quarters

Practice Doctorate/Capstone Research Coursework:

1. Minimum 12 credits of SPHSC 801.
2. A course in statistics at the 400 level or above (e.g., EDPSY 490).
3. Complete a written document and oral defense of their research.

Comprehensive Examinations: Three comprehensive examinations including two clinical comprehensive examinations (examination one is autumn quarter of year one and examination two is winter quarter of year two). A written comprehensive examination in Winter quarter of year three. Students may retake each comprehensive examination only once.

Additional Degree Requirements: 36 credits of non-clinical graduate work at the 400 level or above. Minimum 18 of the 36 quarter credits in courses numbered 500 and above. No more than 12 credits of courses 500 level and above can be capstone research credits. Satisfactory completion of all didactic and practicum requirements detailed above. Students also satisfactorily complete the requirements for the Certificate of Clinical Competence (CCC) of the American Speech-Language-Hearing Association by registering for the required coursework and practica credits.

Doctor of Philosophy

Entrance to the program is for summer or autumn quarters only. The department does not accept Graduate Non-matriculated (GNM) applicants.

Admission Requirements

1. Identify and contact a faculty mentor from within the Department of Speech and Hearing Sciences who agrees to support the student's application to the PhD program.
2. Complete UW Graduate School Application between September 15th and February 15. Applicants must submit by February 15th:
 - a. Unofficial transcripts for all schools attended
 - b. GRE scores earned within the last 5 years
 - c. Three letters of recommendation
 - d. Statement of Purpose
 - e. Writing sample or paper
 - f. Department's supplemental application
3. Minimum 3.00 GPA for the last 90 quarter credit hours of study (60 semester)
4. Demonstrated English language proficiency as outlined by the UW Graduate School
5. Bachelor's or master's degree from a regionally accredited institution, depending upon area of interest

Degree Requirements

Minimum 90 credits including: 36 credits of graduate work at the 400 level or above and a minimum 18 of the 36 quarter credits in courses numbered 500 and above.

Academic Coursework: The curriculum for a student in the PhD program is planned on an individual basis in consultation with the student's faculty mentor and committee. Students may concentrate in basic and applied research. Courses, seminars, laboratory experiences,

and assistantships are selected to provide preparation for careers in research and university or college teaching.

Although each student's academic plan is customized, every student is required to complete the following courses:

- Three-quarter introductory level doctoral course sequence in speech, hearing, and language science and disorders (SPHSC 560, SPHSC 561, and SPHSC 562)
- Research Methods course (SPHSC 504, SPHSC 506, or approved alternative)
- Minimum four statistics courses (chosen in consultation with advisory committee)
- Grant-writing course (SPHSC 568)
- Research seminar (SPHSC 567; registration required autumn, winter and spring quarters, throughout the degree program)

Students entering the program with a degree in a field other than speech and hearing sciences are also expected to complete undergraduate courses in speech science, language science, and hearing science, and one course in the area of communication disorders, to obtain a basic understanding of the discipline. Courses that may be used to meet this requirement are: SPHSC 303, SPHSC 305, SPHSC 320, SPHSC 371, SPHSC 425, and SPHSC 461.

Research Coursework: All students are expected to conduct supervised research by the end of their first year. Students must register for SPHSC 600 to document their research activity. In addition, students complete:

- A pre-dissertation research project (PDP)
- Written and oral general examination
- Written dissertation based on independent research (minimum 27 credits of SPHSC 800, over 3 quarters) with an oral defense

Teaching Experience: Students pursuing an academic career complete a customized teaching experience plan with their advisory committee. Students also enroll in:

- Instructional Development Forum (SPHSC 563)
- Teaching Practicum (SPHSC 564)

Financial Aid

PhD students in the Department of Speech and Hearing Sciences are guaranteed financial support as teaching or research assistants: —“graduate service appointees” — during the academic year, as long as they make adequate progress in the program with an established mentor. In addition, the department has traineeships/fellowships supported by the National Institutes of Health on a competitive basis. Students are strongly encouraged to apply to the National Institutes of Health or other funding agencies for individual fellowships to support dissertation work. Summer support can also generally be arranged, although it is not guaranteed.

Research Facilities

The department's research laboratories, as well as those of the Virginia Merrill Bloedel Hearing Research Center, the Institute for Learning and Brain Sciences, contain sophisticated equipment for the collection and analysis of data related to the study of

human communication and its disorders. The University Speech and Hearing Clinic and the Center on Human Development and Disability also provide laboratories to support basic and applied research in speech, language and hearing development and disorders, across the life span.

COLLEGE OF ARTS & SCIENCES

SPEECH & HEARING SCIENCES

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

SPHSC 100 Voice and Articulation Improvement (3) VLPA

For native speakers of English only. Voice production and the sound system of standard American speech. Speech standards, regional and social dialects, voice quality and basic language-oriented characteristics. Practice for improving speech style. May not be repeated. Offered: AWSpS.

[View course details in MyPlan: SPHSC 100](#)

SPHSC 111 The American English Sound System (2, max. 4)

For non-native speakers of English only. Speech sounds of American English. Practice in listening and using American speech sounds and intonation patterns. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 111](#)

SPHSC 250 Human Communication and Its Disorders (5) I&S/NW

Overview of normal and impaired human communication, including speech, language, and hearing disorders. Required for majors; open to nonmajors. Offered: S.

[View course details in MyPlan: SPHSC 250](#)

SPHSC 261 The Nature of Sound (4) NW

Fundamental principles of sound and vibration with emphasis on examples relevant to the speech and hearing systems. Required for majors; open to nonmajors. Offered: WS.

[View course details in MyPlan: SPHSC 261](#)

SPHSC 302 Phonetics (3) VLPA

Introduction to the description and classification of speech sounds with a focus on American English. Phonetic analysis of segmental and suprasegmental properties of speech. Practice using the International Phonetic Alphabet to transcribe normal and disordered speech patterns. Required for majors; open to nonmajors. Prerequisite: either SPHSC 303, LING 200, or LING 400. Offered: W.

[View course details in MyPlan: SPHSC 302](#)

SPHSC 303 Language Science (3) VLPA J. THORNE

Introduction to techniques of linguistic analysis used in the study of phonology, morphology, syntax, semantics, and pragmatics. Required for majors; open to nonmajors. Offered: A.

[View course details in MyPlan: SPHSC 303](#)

SPHSC 304 Developmental Aspects of Communication (5) I&S T. COGGINS

Patterns of communicative development in English speaking children and adolescents. Introduction to the study of language and communication from a developmental perspective. Application to children with various types of communication impairments. Required for majors; open to nonmajors. Prerequisite: either SPHSC 303, ANTH 203, LING 200, or LING 400. Offered: Sp.

[View course details in MyPlan: SPHSC 304](#)

SPHSC 305 Speech and Language Disorders (5) NW

Etiology and nature of developmental and acquired communication disorders across the lifespan. Behavioral characteristics of language delay and disorders, developmental apraxia of speech, phonological disorders, stuttering, acquired aphasia, apraxia of speech and dysarthria, craniofacial anomalies, and voice disorders. Required for majors; open to nonmajors. Prerequisite: SPHSC 302; SPHSC 304; SPHSC 320. Offered: A.

[View course details in MyPlan: SPHSC 305](#)

SPHSC 308 Social-Cultural Aspects of Communication (3) I&S P. DOWDEN

Introduction to human communication in context. Exploration of ways communication is influenced by context, including situational, social/interpersonal, and cultural variables. Studies systems and cultural practices as they influence communication. Required for majors; open to nonmajors. Offered: WS.

[View course details in MyPlan: SPHSC 308](#)

SPHSC 320 Anatomy and Physiology of Speech (5) NW M. BURNS

Anatomy and physiology of the speech and swallowing mechanism, including the respiratory, phonatory, and resonatory systems and the neural control. Examples and laboratory work are directed toward clinical issues in speech-language pathology. Required for majors; open to nonmajors. Offered: Sp.

[View course details in MyPlan: SPHSC 320](#)

SPHSC 371 Hearing Disorders (3) I&S/NW K. TREMBLAY

Introduction to abnormal hearing. Pathologies of the ear and their treatments. Audiometric correlates, communicative and social consequences of hearing loss. Overview of management of children and adults. Required for majors; open to nonmajors. Offered: AS.

[View course details in MyPlan: SPHSC 371](#)

SPHSC 405 Diagnosis of Speech and Language Disorders (3) NW J. THORNE

Principles and procedures for the diagnosis of speech and language disorders. Required for majors. Prerequisite: SPHSC 305. Offered: W.

[View course details in MyPlan: SPHSC 405](#)

SPHSC 406 Treatment of Speech and Language Disorders (4) NW C. BAYLOR

Principles and procedures for planning, implementing, and evaluating treatment for speech and language disorders. Required for majors. Prerequisite: SPHSC 405. Offered: SpS.

[View course details in MyPlan: SPHSC 406](#)

SPHSC 411 Perceptual Development (5) I&S/NW

Origins and development of perception in human infancy. Object, face, and speech perception; cross-modal relations between touch, vision, audition. Prerequisite: minimum 2.0 grade in either PSYCH 206, PSYCH 306, or PSYCH 414. Instructors: Meltzoff Offered: jointly with PSYCH 411.

[View course details in MyPlan: SPHSC 411](#)

SPHSC 425 Speech, Language, Hearing, and the Brain (4) I&S/NW

Addresses the neural bases of topics in speech, language, and hearing with an emphasis on the normal aspects of central nervous system anatomy, physiology, and function. Gives attention to issues relevant to understanding disordered systems and to points of contemporary debate among neuroscientists. May not be repeated. Offered: W.

[View course details in MyPlan: SPHSC 425](#)

SPHSC 445 Models of Speech Processing (3) NW

Examines models and basic issues concerning how spoken language is processed. Presents current issues, theories, and research relative to the levels of processing entailed in producing and comprehending speech. Required for majors; open to nonmajors.

[View course details in MyPlan: SPHSC 445](#)

SPHSC 449 Special Studies in Speech Pathology and Audiology (*, max. 30) M. BURNS

Selected special problems in speech pathology and audiology. Offered: S.

[View course details in MyPlan: SPHSC 449](#)

SPHSC 461 Introduction to Hearing Science (5) NW L. WERNER

Basic aspects of hearing and the ear and auditory nervous system. How the auditory system constructs an image of the acoustic environment. How attention and memory influence hearing. Effects of damage to the auditory system. Prerequisite: either SPHSC 261 or PSYCH 333. Offered: Sp.

[View course details in MyPlan: SPHSC 461](#)

SPHSC 462 Hearing Development (3) NW L. WERNER

Description of the changes that occur in human hearing during development. Consideration of the possible explanations for early immaturity. Prerequisite: SPHSC 461; may not be repeated. Offered: A, odd years.

[View course details in MyPlan: SPHSC 462](#)

SPHSC 471 Basic Audiometry (4) NW R. FOLSOM

Theory and practice of the assessment of hearing function, including standard pure-tone audiometry, speech audiometry, and basic impedance audiometry. Required for majors. Prerequisite: SPHSC 371; SPHSC 461; may not be repeated. Offered: A.

[View course details in MyPlan: SPHSC 471](#)

SPHSC 481 Management of Hearing Loss (4) NW J. SULLIVAN

Introduction to methods of communicative rehabilitation of person with hearing loss. Remediation principles of auditory and visual perception, amplification, communication strategies, and information counseling. Required for majors. Prerequisite: SPHSC 471; may not be repeated. Offered: W.

[View course details in MyPlan: SPHSC 481](#)

SPHSC 491 Audiology Practicum in Schools (2) R. FOLSOM

Special projects in clinical audiology practicum, offered only in the school setting. Provides an opportunity for students to extend audiology practicum experiences into the school environment. Prerequisite: SPHSC 371. Credit/no-credit only. Offered: AS.

[View course details in MyPlan: SPHSC 491](#)

SPHSC 498 Undergraduate Honors Research ([1-5]-, max. 15)

Faculty supervised, undergraduate Honors research project. Includes design and implementation, culminating in written thesis and oral presentation. SPHSC Honors Program students only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 498](#)

SPHSC 499 Undergraduate Research ([1-5]-, max. 15)

Offered: AWSpS.

[View course details in MyPlan: SPHSC 499](#)

SPHSC 500 Clinical Methodology for Documenting Change (4) P. DOWDEN

Introduction to clinical methodology for conducting efficacious assessment and treatment of individuals with communication problems. Students consider nature of intervention designed to alter communication disorders and types of accountability questions that need to be raised. They learn methodology for collecting and analyzing data for making informed clinical decisions. Offered: A.

[View course details in MyPlan: SPHSC 500](#)

SPHSC 501 Neural Bases of Speech, Language, and Hearing (4) *Burns, Miller*

Neuroanatomical and neurophysiological bases of language, hearing, sensory, and motor function. Special emphasis given to brain behavior correlates and behavioral consequences to speech, language, and hearing as a result of neurologic injury or disease. Offered: A.

[View course details in MyPlan: SPHSC 501](#)

SPHSC 503 Current Issues in Speech and Hearing Sciences (3)

Application of experimental methods to research in speech and hearing sciences. Offered: S.

[View course details in MyPlan: SPHSC 503](#)

SPHSC 504 Research Methods in Speech and Hearing Sciences (3) *S. KOVER*

Introduction to empirical methods in the speech and hearing sciences. Offered: W.

[View course details in MyPlan: SPHSC 504](#)

SPHSC 506 Research Methods in Speech-Language Pathology (3) *S. KOVER*

Examines empirical methods in speech-language pathology research. Includes evaluation and design of different types of research such as descriptive (e.g., case study, developmental, qualitative, surveys), exploratory (e.g., correlational, differential), and experimental (e.g., single-subject designs, randomized control trials, treatment efficacy studies). Offered: W.

[View course details in MyPlan: SPHSC 506](#)

SPHSC 507 Evidence Based Practice (3) *P. DOWDEN*

Prepares students to conduct evaluation and treatment in speech-language pathology according to Evidence-Based Practice (EBP) principles. Examines integration of "internal" and "external" evidence in the context of clinical practice. Prerequisite: graduate status in SPHSC or permission of instructor. Offered: Sp.

[View course details in MyPlan: SPHSC 507](#)

SPHSC 509 Advanced Hearing Science (3)

Consideration of physiological acoustics and psychoacoustics, the pertinent literature, and the experimental techniques related to study in these areas. Offered: A.

[View course details in MyPlan: SPHSC 509](#)

SPHSC 510 Physiological Acoustics (3)

Study of pertinent literature and experimental techniques incident to the physiology of the normal and abnormal auditory system. Prerequisite: SPHSC 461 or permission of instructor.

[View course details in MyPlan: SPHSC 510](#)

SPHSC 511 Psychoacoustics (3)

Review of significant literature and theory pertinent to normal auditory sensitivity, pitch, loudness, and other attributes of auditory sensation. Prerequisite: SPHSC 461; permission of instructor.

[View course details in MyPlan: SPHSC 511](#)

SPHSC 514 Speech Physiology (3)

Study of the physiological parameters of acoustic speech production. Prerequisite: SPHSC 560.

[View course details in MyPlan: SPHSC 514](#)

SPHSC 518 Seminar in Speech and Hearing Sciences (1, max. 50) *L. MAX*

Reviews selected research area and methods in the speech and hearing sciences. Discusses topics related to developing a career in research or academics. Credit/no-credit only. Offered: A/WSp.

[View course details in MyPlan: SPHSC 518](#)

SPHSC 519 Seminar in Speech Science (2, max. 50)

[View course details in MyPlan: SPHSC 519](#)

SPHSC 520 Advanced Instrumentation for Speech and Hearing Sciences (3)

Design and use of electronic and electroacoustic devices in the speech and hearing sciences. Four hours of laboratory required each week.

[View course details in MyPlan: SPHSC 520](#)

SPHSC 521 Instrumentation for Audiology (4)

Introduction to basic instrumentation used in audiology and hearing science; detailed instruction in audiometer calibration including a review of current national and international standards pertinent to audiology; emphasis on use rather than theory. Prerequisite: permission of instructor. Offered: A.

[View course details in MyPlan: SPHSC 521](#)

SPHSC 522 Hearing Instrument Modification/Repair (1) *M. HARNEY*

Minor repair and modification of hearing aids, earmolds and associated accessories. Includes operation of hand tools and small power tools used in repair and earmold modification. Familiarity with different materials used to make or repair hearing aids/accessories. Troubleshooting damaged, malfunctioning, or inoperative instruments. Interpreting acoustic and electroacoustic test results to aid in troubleshooting or repair. Credit/no-credit only. Offered: W.

[View course details in MyPlan: SPHSC 522](#)

SPHSC 523 Special Topics in Audiology (3, max. 12) *K. TREMBLAY*

Applied and theoretical issues related to audiology. Weekly seminar includes guest speakers discussing current and future trends in science that relate to hearing and the practice of audiology. Offered: W, even years.

[View course details in MyPlan: SPHSC 523](#)

SPHSC 525 Speech Signal Processing (3)

Theory, evaluation, and use of speech signal processing algorithms such as sampling, filtering, spectral analysis, autocorrelation, and speech synthesis. Laboratory assignments develop skills in using signal analysis and synthesis software applied to normal and pathological speech.

[View course details in MyPlan: SPHSC 525](#)

SPHSC 526 Assessment and Treatment of Literacy Disorders (3) *L. SNOW*

Examines the principles and procedures used in the assessment and treatment of literacy disorders with an emphasis on childhood literacy disorders as well as the relationship between verbal language impairment and literacy skills. Prerequisite: SPHSC 536. Offered: S.

[View course details in MyPlan: SPHSC 526](#)

SPHSC 529 Assessment and Treatment of Birth-to-4 Communication Disorders (4) *T. COGGINS*

Examination of measurement concepts, standardized reference measures, and non-standardized assessment tools for communication and related skills in young children. Presents theoretical and empirical bases of prelinguistics and early language interventions. Offered: W.

[View course details in MyPlan: SPHSC 529](#)

SPHSC 531 Neurogenic Motor Speech Disorders (4) *K. SPENCER*

Examines the nature, assessment, and management of the dysarthrias, acquired apraxia or speech, and childhood apraxia of speech. Prerequisite: SPHSC 501 or permission of instructor. Offered: Sp.

[View course details in MyPlan: SPHSC 531](#)

SPHSC 532 Assessment and Treatment of Neurogenic Language Disorders (3) *D. KENDALL*

Provides an overview of the nature, evaluation, and management of acquired disorders of language in adults. Specifically, students learn about language assessment principles and procedures; the nature and treatment of aphasia, alexia, and agraphia; and the systems that support language (e.g. attention, verbal working memory). Prerequisite: SPHSC 501 or permission of instructor. Offered: W.

[View course details in MyPlan: SPHSC 532](#)

SPHSC 533 Medical Speech Pathology (3)

Nature of speech pathology practiced in medical settings. Prerequisite: SPHSC 501, SPHSC 531, and SPHSC 532, or permission of instructor. Offered: S.

[View course details in MyPlan: SPHSC 533](#)

SPHSC 534 Assessment and Treatment of Dysphagia (4)

Anatophysiologic bases of function and dysfunction associated with speech-language disorders. Mastication and swallowing problems, their causes, assessments, and management. Prerequisite: SPHSC 501 or permission of instructor. Offered: Sp.

[View course details in MyPlan: SPHSC 534](#)

SPHSC 535 Assessment and Treatment of Voice Disorders (4) *T. EADIE*

Physiology, acoustics, and perception of voice quality and speech resonance. Etiology, evaluation, and treatment of voice and resonance disorders. Offered: W.

[View course details in MyPlan: SPHSC 535](#)

SPHSC 536 Assessment and Treatment of School-Age Communication Disorders (4) *S. KOVER*

Examines the principles and procedures used in the assessment and treatment of school-aged speech-and-language disorders. Offered: Sp.

[View course details in MyPlan: SPHSC 536](#)

SPHSC 537 Fluency Disorders (4) *L. MAX*

Characteristics of fluent speech and the nature and treatment of stuttering in children and adults are studied in relation to normal speech production processes, human learning, principal explanations of stuttering, and treatment systems. Offered: A.

[View course details in MyPlan: SPHSC 537](#)

SPHSC 538 Assessment and Treatment of Cognitive-Communication Disorders (3) *K. SPENCER*

Studies right brain injury, dementia, and traumatic brain injury for understanding of the underlying neuropathologies, techniques for assessment, and evidence-based interventions. Offered: A.

[View course details in MyPlan: SPHSC 538](#)

SPHSC 539 Childhood Speech and Phonological Disorders (4)

Examines patterns of normal speech and phonological development and the nature, assessment, and treatment of speech and phonological disorders of childhood. Offered: A.

[View course details in MyPlan: SPHSC 539](#)

SPHSC 540 Augmentative and Alternative Communication Foundations (4) *P. DOWDEN*

Overview of evaluation and intervention for children and adults with severe congenital speech and language impairments, with primary emphasis on individuals with congenital impairments. Overview of the features of multi-modal strategies, including output, selection set, access, and rate enhancement. Prerequisite: graduate SPHSC, REHAB, or EDSPE students, or permission of instructor. Offered: S.

[View course details in MyPlan: SPHSC 540](#)

SPHSC 541 Augmentative and Alternative Communication in the Medical Setting (2) *P. DOWDEN*

Evaluation and intervention for severe acquired speech/language impairments. Covers decision-making and treatment for individuals who sustained a CVI, traumatic brain injury, or have degenerative diseases. Solutions include multi-modal strategies, from books to voice output systems. Prerequisite: SPHSC 540 or permission of instructor. Offered: Sp.

[View course details in MyPlan: SPHSC 541](#)

SPHSC 542 Counseling and Interactive Skills for Speech-Language Pathologists and Audiologists (3) *L. ILLICH*

Introduction to counseling theory and practice in speech-language pathology, audiology, and related fields. Provides opportunities for learning and practicing counseling skills. Addresses key counseling issues, including

professional boundaries, intense emotions, and counselor's feelings and reactions. Prerequisite: graduate¹³⁰ standing in SPHSC or permission of instructor. Offered: S.

[View course details in MyPlan: SPHSC 542](#)

SPHSC 543 Assessment and Treatment of Pediatric Dysphagia (2) *J. DUNLAP*

Examines principles and procedure used in the assessment and treatment of pediatric swallowing and feeding disorders. Covers clinical and instrumental assessment techniques and evidenced-based intervention strategies applicable to the infant/child across different pediatric practice settings. Prerequisite: SPHSC 501; SPHSC 534; or permission of instructor. Offered: W.

[View course details in MyPlan: SPHSC 543](#)

SPHSC 545 Assessment and Treatment of Voice Disorders in Medical Settings (2) *T. EADIE, M. NEVDAHL*

Examines the principles and procedures used in assessment and treatment of voice disorders typically seen in medical settings, with a focus on instrumentation such as use of interpretation of laryngeal imaging, acoustics, and perceptual measures. Prerequisite: SPHSC 535. Offered: A.

[View course details in MyPlan: SPHSC 545](#)

SPHSC 546 Advanced Neurological Language Disorders (2) *D. KENDALL*

Advanced study in the nature, assessment, and treatment of acquired language and cognitive-communication disorders. Prerequisite: SPHSC 501; SPHSC 532; or permission of instructor. Offered: W.

[View course details in MyPlan: SPHSC 546](#)

SPHSC 548 Traumatic Brain Injury Seminar (2) *K. SPENCER*

Advanced study in the nature, assessment, and management of individuals with traumatic brain injury across the lifespan. Prerequisite: SPHSC 501; SPHSC 538, or permission of instructor. Offered: Sp.

[View course details in MyPlan: SPHSC 548](#)

SPHSC 549 Clinical Forum in Speech-Language Pathology (2, max. 50)

Study and application of pertinent clinical issues and trends related to the practice of speech-language pathology. Prerequisite: successful completion of all required didactic and clinical practica coursework in the first two years of the medical speech-language pathology graduate program. Credit/no-credit only. Offered: Sp.

[View course details in MyPlan: SPHSC 549](#)

SPHSC 550 Public School Speech-Language Pathology and Audiology (3) *K. KRINGS*

Explores administrative, legal, ethical, and clinical issues encountered in implementing programs to remediate communication disorders in the school-aged population in the public school setting. Open to non-matriculated students with permission of instructor. Prerequisite: graduate student status in speech and hearing sciences or permission of instructor. Offered: W.

[View course details in MyPlan: SPHSC 550](#)

SPHSC 551 Advanced Practicum in Speech Pathology Evaluation (1-10, max. 50)

Laboratory experience in the evaluation of speech and language disorders. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 551](#)

SPHSC 552 Advanced Practicum in Speech Pathology Management (1-10, max. 50)

Laboratory experience in the management of speech and language disorders. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 552](#)

SPHSC 553 Advanced Practicum in Speech-Language Pathology (2-4, max. 50)

Clinical practicum experience, completed under the supervision of UW Speech and Hearing Clinic professionals, focused on the evaluation and treatment of speech, language, cognitive-communication, and swallowing disorders. Offered: AWSpS.

[View course details in MyPlan: SPHSC 553](#)

SPHSC 554 Advanced Offsite Practicum in Speech-Language Pathology (2-12, max. 50)

Offsite clinical practicum experience, completed under the supervision of community-based clinical professionals, focused on the evaluation and treatment of speech, language, cognitive-communication, and swallowing disorders. Prerequisite: SPHSC 553. Offered: AWSpS.

[View course details in MyPlan: SPHSC 554](#)

SPHSC 555 Pre-Internship in Speech and Hearing Sciences (1-10, max. 50)

Practicum in speech pathology or audiology designed to teach the clinical regimen of a participating professional center prior to assuming a full internship assignment. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 555](#)

SPHSC 556 Advanced Aural Rehabilitation (4, max. 8) *K. TREMBLAY*

Advanced study of auditory rehabilitation and training, including psychosocial issues of individuals with hearing loss. Merges research theories with clinical practice and provides experience with applied auditory training in a community setting. Credit/no-credit only. Offered: A.

[View course details in MyPlan: SPHSC 556](#)

SPHSC 559 Special Topics in Speech, Language, and Hearing (1-5, max. 30)

Guided opportunity for study and advanced discussions in specific areas of speech, language, and hearing science research, theory, and clinical practice. Offered: AWSpS.

[View course details in MyPlan: SPHSC 559](#)

SPHSC 560 Speech Science (3)

Examines contemporary models and research paradigms in speech science and disorders. Topics include respiratory physiology, laryngeal physiology, aerodynamics of speech production, articulatory dynamics, speech acoustics, and speech perception. Offered: W, odd years.

[View course details in MyPlan: SPHSC 560](#)

SPHSC 561 Studies in Hearing Sciences and Disorders (3)

Examines contemporary models and research paradigms in the area of hearing science and disorders. Topics include psychoacoustics; amplification; electrophysiological evaluation; physiological acoustics; and perceptual consequences of hearing loss. Offered: A, even years.

[View course details in MyPlan: SPHSC 561](#)

SPHSC 562 Studies in Language Science and Disorders (3)

Examines research in the area of language science and disorders including word recognition and production; storage of retrieval of word form and meaning; comprehension and production of sentences and discourse; and language in social context. Topics examined relative to development, language impairments, and normal language processing. Offered: Sp, odd years.

[View course details in MyPlan: SPHSC 562](#)

SPHSC 563 Instructional Development Forum (1, max. 50)

Emphasizes instructional techniques and issues as they relate to teaching in the discipline of communication sciences and its disorders. Topics include course development, grading, student-faculty relations, teaching methods, and diversity. Prerequisite: graduate standing in Speech and Hearing Sciences. Credit/no-credit only. Offered: AW.

[View course details in MyPlan: SPHSC 563](#)

SPHSC 564 Teaching Practicum (1-5, max. 50)

Provides experience in preparing and giving lectures, leading discussions, preparing and grading assignments and tests, and working directly with undergraduate and graduate students. Prerequisite: doctoral student standing in SPHSC and permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 564](#)

SPHSC 565 Speech and Language Pathology Proseminar (1-3, max. 50)

Consideration of professional issues and student and faculty research. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 565](#)

SPHSC 567 Research Seminar in Speech and Hearing Sciences (1, max. 50)

A platform for the presentation and exchange of scientific information (research data, new hardware and hardware development, scientific papers) resulting from ongoing research projects by graduate students and faculty within the Speech and Hearing Sciences Department. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 567](#)

SPHSC 568 Grant Writing in Hearing, Language, and Speech Science (3) *L. WERNER*

Design and writing of grant proposals in speech, language, and hearing sciences and disorders. Explanation of the funding process at various agencies, particularly the National Institutes of Health. Students prepare a proposal and review the proposals of their peers. Prerequisite: Enrollment in PhD degree program and permission of instructor. Credit/no-credit only. Offered: W.

[View course details in MyPlan: SPHSC 568](#)

SPHSC 570 Assessment of Auditory Dysfunction I (4-)

Strategies and procedures in the auditory evaluation of hearing-impaired adults. Use of diagnostic tests in the evaluation of auditory pathologies. Laboratory required. Prerequisite: SPHSC 471 or equivalent. Offered: A.

[View course details in MyPlan: SPHSC 570](#)

SPHSC 571 Assessment of Auditory Dysfunction II (-4)

Strategies and procedures in the auditory evaluation of hearing-impaired adults. Use of diagnostic tests in the evaluation of auditory pathologies. Laboratory required. Prerequisite: SPHSC 570. Offered: W.

[View course details in MyPlan: SPHSC 571](#)

SPHSC 572 Pediatric Audiology (4) *L. MANCL*

Assessment of auditory disorders in infants and young children. Emphasis on behavioral and electrophysiologic techniques and on the role of the audiologist in the clinical management of the young hearing-impaired child. Prerequisite: SPHSC 570 or equivalent. Offered: W.

[View course details in MyPlan: SPHSC 572](#)

SPHSC 574 Assessment of Balance Function (4)

Examines normal anatomy and physiology of the peripheral and central vestibular system. Reviews peripheral and central vestibular disorders and treatment protocols. Major focus of assessment on electronystagmography with associated lab. Provides overview of rotational and posturography measures of balance function.

Prerequisite: SPHSC 571 or permission of instructor. Offered: S.

[View course details in MyPlan: SPHSC 574](#)

SPHSC 575 Medical Backgrounds in Audiology (3)

Diseases and injuries of the ear resulting in reduced audition. Prerequisite: SPHSC 571 or permission of instructor. Offered: S.

[View course details in MyPlan: SPHSC 575](#)

SPHSC 576 Otoacoustic Emissions (2) *R. FOLSOM*

Consideration of otoacoustic emissions and the physiologic techniques used to record them. Includes interpretation of responses in both the normal and disordered auditory system as well as clinical application of emissions in both adult and infant populations. Laboratory required. Prerequisite: SPHSC 571, SPHSC 572, and SPHSC 592, or permission of instructor. Offered: A.

[View course details in MyPlan: SPHSC 576](#)

SPHSC 577 Industrial and Community Hearing Conservation (2)

Psychophysiological effects of environmental noise on man. Techniques of noise measurement and attenuation, including the planning of hearing conservation programs in industry and in the community. Prerequisite: SPHSC

571 or permission of instructor. Offered: S, odd years.

[View course details in MyPlan: SPHSC 577](#)

SPHSC 578 Hearing Screening (2)

Consideration of hearing screening programs and the statistical techniques used to evaluate them. Includes history, rationale, and technical aspects of hearing screening as well as current models for developing neonatal, school-age, and adult hearing screening programs. Prerequisite: SPHSC 572, SPHSC 576, and SPHSC 592, or permission of instructor. Offered: S, even years.

[View course details in MyPlan: SPHSC 578](#)

SPHSC 579 Geriatric Audiology (2) S. ANDERSON

Examines the biological, psychological, and social aspects of the aging process. Emphasizes the identification and diagnosis of hearing problems associated with the aging process and its rehabilitation. Prerequisite: SPHSC 571. Offered: Sp.

[View course details in MyPlan: SPHSC 579](#)

SPHSC 580 Rehabilitative Audiology (3) L. ILLICH

Explores technology to enhance communication effectiveness of hearing impaired persons. Selection and training in the use of assistive systems and cochlear implants. Advanced perception assessment and training methodology. Discussion and application of aural rehabilitation in different settings. Explores the Americans with Disabilities Act and assistive listening devices. Prerequisite: SPHSC 571 and SPHSC 583. Offered: W.

[View course details in MyPlan: SPHSC 580](#)

SPHSC 581 Management of Hearing-Impaired Children (3) J. SULLIVAN

Studies pediatric habilitation available for children with hearing impairment and the impact of new technologies on therapy, education, and audiological treatment. Offered: Sp.

[View course details in MyPlan: SPHSC 581](#)

SPHSC 582 Hearing Aid Amplification (4) C. MILLER

Acoustic amplification and methods of determining electroacoustic characteristics. Includes earmold technology. Prerequisite: SPHSC 471 and SPHSC 570 or permission of instructor. Offered: W.

[View course details in MyPlan: SPHSC 582](#)

SPHSC 583 Hearing Aid Selection (4) C. MILLER

Consideration of strategies utilized in selecting and fitting acoustic amplification for the hearing impaired, including review of pertinent research literature. Prerequisite: SPHSC 582 or permission of instructor. Offered: Sp.

[View course details in MyPlan: SPHSC 583](#)

SPHSC 584 Advanced Amplification (3) C. MILLER

Current topics in hearing aids and amplification technology; review of pertinent research articles. Prerequisite: SPHSC 582; SPHSC 583. Offered: A, even years.

[View course details in MyPlan: SPHSC 584](#)

SPHSC 585 Pediatric Amplification (2) L. MANCL

Selection, verification and validation of amplification for infants and children. Consideration of hearing aids and hearing assistance technology including review of pertinent research literature. Prerequisite: SPHSC 582 or permission of instructor. Offered: A.

[View course details in MyPlan: SPHSC 585](#)

SPHSC 586 Cochlear Implants (5) J. BIERER

Covers the history, function, and application of cochlear implants as a clinical tool to enhance or restore human hearing, including fitting procedures, outcomes, and rehabilitation for children and adults. Prerequisite: permission of instructor. Offered: Sp.

[View course details in MyPlan: SPHSC 586](#)

SPHSC 587 Ethics (3)

Analysis and discussion of ethical considerations in the clinic, and in research, for speech and hearing professionals. Covers codes of professional organizations.

[View course details in MyPlan: SPHSC 587](#)

SPHSC 588 Audiology Proseminar (1-3, max. 9) *M. HARNEY*

Consideration of professional issues, practice management, and externship preparation. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: SPHSC 588](#)

SPHSC 591 Advanced Practicum in Audiology (1-10, max. 75)

Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 591](#)

SPHSC 592 Electrophysiologic Assessment I (4) *R. FOLSOM, K. TREMBLAY*

Consideration of physiologic techniques that may be used to evaluate the normal and disordered auditory system. Outside laboratory required. Prerequisite: SPHSC 461 or equivalent, SPHSC 571. Offered: Sp.

[View course details in MyPlan: SPHSC 592](#)

SPHSC 593 Electrophysiologic Assessment II (3) *R. FOLSOM, K. TREMBLAY*

Examines event-related potentials including recording techniques, neurophysiological mechanisms, and applications to clinical populations. Prerequisite: SPHSC 592. Offered: W, odd years.

[View course details in MyPlan: SPHSC 593](#)

SPHSC 594 Capturing Brain Dynamics: A Combined Neuroscience and Engineering Approach (4) *A. LEE*

Introduces methods for capturing brain dynamics using an emerging neuroimaging technique known as magnetoencephalography (MEG). Uses techniques to examine perception and cognitive processes and their implications for future brain-computer-interface (BCI) design. Prepare students for interdisciplinary research in neuroscience and engineering. Offered: jointly with LING 582; W.

[View course details in MyPlan: SPHSC 594](#)

SPHSC 596 Clinical Education in Audiology (1-10, max. 50) *M. HARNEY*

Laboratory experience in audiology. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 596](#)

SPHSC 599 Research Practicum (*, max. 50)

Supervised laboratory experience in experimental approach to problems in speech and hearing sciences.

Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: SPHSC 599](#)

SPHSC 600 Independent Study or Research (*-)

Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: SPHSC 600](#)

SPHSC 601 Internship ([1-10]-, max. 50)

Supervised field experiences in settings other than public schools. Prerequisite: permission of instructor.

Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 601](#)

SPHSC 602 Internship in the Schools ([3-10]-, max. 50)

Supervised field experience in a public school setting. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: SPHSC 602](#)

SPHSC 700 Master's Thesis (*-)

Offered: AWSpS.

[View course details in MyPlan: SPHSC 700](#)

SPHSC 800 Doctoral Dissertation (*-)

Offered: AWSpS.

[View course details in MyPlan: SPHSC 800](#)

SPHSC 801 Practice Doctorate Project/Capstone ([1-12]-, max. 50)

Supervised research experience in the field of audiology that culminates in a final research paper and oral defense. Offered: AWSpS.

Statistics

[Display as tabs](#)

Department Overview

B309 Padelford

Probability provides the conceptual foundation and mathematical language for the logic of uncertainty and induction. Statistics is concerned with procedures for the acquisition, management, exploration, and use of information in order to learn from experience in situations of uncertainty and to make decisions under risk. Statistical practice includes design of experiments and of sampling surveys; exploration, summarization, and display of observational data; drawing inferences, and assessing their uncertainty; and building mathematical models for systems with stochastic components.

Instruction is enriched through academic contacts with the Foster School of Business; the College of Engineering; the departments of Applied Mathematics, Atmospheric Sciences, Biology, Cardiology, Computer Science, Earth and Space Sciences, Economics, Genetics, Mathematics, Psychology, Radiology, and Sociology; the Quantitative Ecology and Resource Management program; the Center for Statistics and the Social Sciences; the Applied Physics Laboratory; the Applied Statistics Division of the Boeing Company; Microsoft Research; and Insightful Corporation. The department has an especially close relationship with the Department of Biostatistics; for example, the two departments are jointly developing new curricula in statistical genetics.

Undergraduate Program

Adviser

B309 Padelford, Box 354322
(206) 543-8296

The Department of Statistics offers the following programs of study:

- The Bachelor of Science degree with a major in statistics
- In conjunction with the departments of Applied Mathematics, Computer Science and Engineering, and Mathematics, the Bachelor of Science degree with a major in applied and computational mathematical sciences (ACMS).
- A minor in statistics

Bachelor of Science

Suggested First-and Second-Year College Courses: CSE 142; MATH 307, MATH 308, STAT 302 (recommended) or CSE 143, STAT 311. Additional courses in the sciences and quantitative methods add strength to this major.

Department Admission Requirements

Application to the BS degree program in statistics is competitive. Completion of minimum requirements described below does not guarantee admission. All applicants have the right to petition and appeal the department's admission decision. Applications are considered once each academic year and are due on the first Friday of September.

Minimum course requirements for admission applications as follows:

1. MATH 124, MATH 125, MATH 126 (or MATH 134, MATH 135, MATH 136)
2. One of STAT 311 (highly recommended), STAT 390, or an approved substitute. See website for approved list.
3. At least two additional courses from CSE 142, either STAT 302 (recommended) or CSE 143, MATH 307, MATH 308
4. Factors in the admission decision include but are not limited to academic performance as measured by GPA in courses listed above and any additional advanced quantitative courses presented for application consideration.
5. Admission is competitive. Successful applicants typically have a cumulative GPA higher than 3.00 in courses listed above under course requirements, with no individual course grade lower than 2.5.

Major Requirements

Minimum 70 credits, as follows:

1. *Mathematics (30 credits):* either MATH 124, MATH 125, MATH 126, MATH 300, MATH 307, MATH 308, MATH 327, and MATH 328; or the Honors sequence MATH 134, MATH 135, MATH 136, MATH 334, MATH 335, and MATH 336.
2. *Computing (7-9 credits):* CSE 142; either STAT 302 (recommended), CSE 143, or an approved substitute
3. *Statistics (24-27 credits):* STAT 311 (highly recommended), or STAT 390, or an approved substitute (STAT 220, STAT 221, or STAT 301 which is seldom allowed); either STAT 340 (highly recommended) or both STAT 394/MATH 394 and STAT 395/MATH 395. (Note that both STAT 394/MATH 394 and STAT 395/MATH 395 are required to replace STAT 340 as a prerequisite for STAT 341.) STAT 341, STAT 342, STAT 421, STAT 423. (Note that STAT 342 is required for enrollment in STAT 421 or STAT 423 by a statistics major; STAT 390 is not sufficient for a statistics major.)
4. *Electives:* At least three courses for a total of at least 9 credits. All elective choices require prior approval by the Statistics undergraduate adviser.
5. Minimum 2.0 grade in all courses used to satisfy major requirements.
6. Minimum 2.50 cumulative GPA for all courses used to satisfy major requirements.

A "Majors Factsheet" is available from the Statistics department.

Minor

Minor Requirements: 26 credits, as follows:

1. MATH 126 or MATH 136 (5 credits)
2. STAT 302, STAT 390/MATH 390, STAT 394/MATH 394, STAT 395/MATH 395 (13 credits)
3. either STAT 425/BIOST 425 or STAT 396/MATH 396 (3 credits)
4. Minimum 5 credits of approved electives. See adviser for approved list.
5. Minimum grade of 2.0 in each course used to satisfy minor requirements
6. At most 5 credits used to satisfy the statistics minor may be applied to a student's major.
7. At least 20 credits used to satisfy the statistics minor must be taken through the UW.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* Statistics emphasizes decision making in the face of uncertainty. Tools developed by the major include probability theory, mathematical statistics, experience with data analysis, and use of statistical tools via the computer. Graduates have pursued careers in actuarial science, financial planning, drug development, statistical consulting, teaching, public health, military science, aerospace, computer technology, and forest resources.
- *Instructional and Research Facilities:* Computer workstations are available on a drop-in basis through the College of Arts & Sciences Instructional Computing Laboratory. Tutoring in a set of introductory statistics courses is currently available at the Statistics Tutor and Study Center.
- *Honors Options Available:* For Interdisciplinary Honors, see University Honors Program.
- *Research, Internships, and Service Learning:* A special seminar series for undergraduates is offered in conjunction with the ACMS program.
- *Department Scholarships:* None offered.
- *Student Organizations/Associations:* The Actuary Club at the University of Washington

Graduate Programs

Graduate Program Coordinator
B309 Padelford, Box 354322
(206) 685-7306

The graduate programs emphasize both the theory and application of statistics, including probability theory, mathematical statistics, data analysis, statistical computing, and scientific applications. Computing facilities in the Department of Statistics rank among the best of any statistics programs in the country and reflect the department's expertise in the field of statistical computing. An ongoing statistical consulting program provides the students with practical experience in using statistics and in communicating with clients. Under faculty supervision, participants in the program assist members of the University community in applying statistical methodology. The department offers Master of Science and Doctor of Philosophy degrees.

Admission Requirements

Background in mathematics, statistics, or a quantitative field, with 30 or more quarter credits in mathematics and statistics, to include a year of advanced (second-year) calculus, one course in linear algebra, and one course in probability theory; Graduate Record Examination scores (the Advanced Mathematics subject test is encouraged but not required); and three letters of recommendation from appropriate former or current faculty.

Master of Science

Degree Requirements (36-51 credits)

Part-time/Concurrent Track (minimum 36 credits):

In addition to Graduate School requirements, at least twelve approved courses numbered 400 or above with a value of 36 credits or more; of these, at least six courses must be numbered in the 500 series (exclusive of STAT 512, STAT 513) with a value of 18 credits or more, and with a coherent theme. Approved proficiency in statistical computing. Satisfactory participation in statistical consulting and the departmental seminar. Passage of an appropriate final master's examination or successful completion of a master's thesis which can count as up to three courses worth 9 credits but cannot replace any of the six courses in the 500 series mentioned above. All programs must be approved in advance by the departmental Graduate Program Coordinator.

Advanced Methods and Data Analysis Track (minimum 51 credits):

1. Core Courses: STAT 502, STAT 504, STAT 512, STAT 513, STAT 534, STAT 536, STAT 570, STAT 571
2. Statistics capstone data analysis: STAT 528
3. Satisfactory participation in at least one quarter of the departmental seminar
4. Passage of the first year MS theory examination

Doctor of Philosophy

Degree Requirements

Minimum 90 credits, to include:

1. In addition to Graduate School requirements, appropriate training in statistics and related sciences.
2. Appropriate general examinations of basic graduate-level knowledge in statistics and probability (including two preliminary examinations).
3. Satisfactory performance in MATH 574, MATH 575, MATH 576.
4. Satisfactory performance in three approved core-course sequences chosen from STAT 570, STAT 571, STAT 572; STAT 581, STAT 582, STAT 583; STAT 521, STAT 522, STAT 523; STAT 534, STAT 535, STAT 538; and STAT 516, STAT 517, STAT 518. (In some circumstances, other graduate-level mathematical science courses may be used as a substitute.)
5. Approved performance in statistical consulting (typically STAT 598 and STAT 599).
6. Demonstration of proficiency in computing.

7. 1 credit of STAT 590 per quarter.

8. Final examination.

The graduation requirements for the PhD tracks in statistical genetics and statistics in the social sciences may replace or be in addition to some of the requirements listed above.

Financial Aid

The department annually awards a limited number of teaching and research assistantships and fellowships for the support of new and continuing graduate students on the basis of academic promise.

COLLEGE OF ARTS & SCIENCES

STATISTICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

STAT 100 Numbers and Reason (5) QSR *Bookstein*

Surveys the standard ways in which "arithmetic turns into understanding" across examples from the natural and the social sciences. Main concepts include abduction (inference to the best explanation), consilience (numerical agreement across multiple measurement levels), bell curves, linear models, and the likelihood of hypothesis.

Offered: A.

[View course details in MyPlan: STAT 100](#)

STAT 111 Lectures in Applied Statistics (1) NW

Weekly lectures illustrating the importance of statisticians in a variety of fields, including medicine and the biological, physical, and social sciences. Credit/no-credit only. Offered: jointly with BIOST 111; Sp.

[View course details in MyPlan: STAT 111](#)

STAT 220 Principles of Statistical Reasoning (5) NW, QSR

Introduces statistical reasoning. Focuses primarily on the what and why rather than the how. Helps students gain an understanding of the rationale behind many statistical methods, as well as an appreciation of the use and misuse of statistics. Encourages and requires critical thinking. (Students may receive credit for only one of STAT 220, STAT 221/CS&SS 221/SOC 221, STAT 311, and ECON 311.) Offered: AWSpS.

[View course details in MyPlan: STAT 220](#)

STAT 221 Statistical Concepts and Methods for the Social Sciences (5) NW, QSR

Develops statistical literacy. Examines objectives and pitfalls of statistical studies; study designs, data analysis, inference; graphical and numerical summaries of numerical and categorical data; correlation and regression; and estimation, confidence intervals, and significance tests. Emphasizes social science examples and cases.

(Students may receive credit for only one of STAT 220, STAT 221, STAT 311, STAT 221/CS&SS 221/SOC 221, ECON 311.) Offered: jointly with CS&SS 221/SOC 221; AWSp.

[View course details in MyPlan: STAT 221](#)

STAT 302 Statistical Software and Its Applications (3)

Introduction to data structures and basics of implementing procedures in statistical computing packages, selected from but not limited to R, SAS, STATA, MATLAB, SPSS, and Minitab. Provides a foundation in computation components of data analysis. Prerequisite: either STAT 311/ECON 311 or STAT 390/MATH 390. Offered: W.

[View course details in MyPlan: STAT 302](#)

STAT 311 Elements of Statistical Methods (5) NW, QSR

Elementary concepts of probability and sampling; binomial and normal distributions. Basic concepts of hypothesis testing, estimation, and confidence intervals; t-tests and chi-square tests. Linear regression theory and the analysis of variance. (Students may receive credit for only one of STAT 220, STAT 221, STAT 311, and ECON 311.) Prerequisite: either MATH 111, MATH 120, MATH 124, MATH 127, or MATH 144. Offered: AWSpS.

[View course details in MyPlan: STAT 311](#)

STAT 316 Design of Experiments and Regression Analysis (4) NW L. BOYLE

Introduction to the analysis of data from planned experiments. Analysis of variance for multiple factors and applications of orthogonal arrays and linear graphs for fractional factorial designs to product and process design optimization. Regression analysis with applications in engineering. Prerequisite: IND E 315. Offered: jointly with IND E 316; W.

[View course details in MyPlan: STAT 316](#)

STAT 320 Evaluating Social Science Evidence (5) I&S, QSR

A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with CS&SS 320/SOC 320.

[View course details in MyPlan: STAT 320](#)

STAT 321 Case-Based Social Statistics I (5) I&S, QSR

Introduction to statistical reasoning for social scientists. Built around cases representing in-depth investigations into the nature and content of statistical and social-science principles and practice. Hands-on approach: weekly data-analysis laboratory. Fundamental statistical topics: measurement, exploratory data analysis, probabilistic concepts, distributions, assessment of statistical evidence. Offered: jointly with CS&SS 321/SOC 321.

[View course details in MyPlan: STAT 321](#)

STAT 322 Case-Based Social Statistics II (5) I&S, QSR

Continuation of CS&SS 321/SOC 321/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods. Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory.

Prerequisite: CS&SS 321/SOC 321/STAT 321, or permission of instructor. Offered: jointly with CS&SS 322/SOC 322.

[View course details in MyPlan: STAT 322](#)

STAT 340 Introduction to Probability and Mathematical Statistics I (4) QSR

Covers the fundamentals of probability and mathematical statistics; axioms of probability, conditional and joint probability, random variables, univariate and multivariate distributions and densities, and moments; binomial, negative binomial, geometric, Poisson, normal, exponential distributions, and central limit theorem; and basic estimation and hypothesis testing theory. Prerequisite: either STAT 311/ECON 311 or STAT 390/MATH 390; either a minimum grade of 2.5 in MATH 327 or MATH 136. Offered: A.

[View course details in MyPlan: STAT 340](#)

STAT 341 Introduction to Probability and Mathematical Statistics II (4) NW

Brief review of: sample spaces, random variables, probability. Distribution: binomial, normal, Poisson, geometric. Followed by: expectation, variance, central limit theorem. Basic concepts of estimation, testing, and confidence intervals. Maximum likelihood estimators and likelihood ratio tests, efficiency. Introduction to regression. Prerequisite: either STAT 340 or STAT/MATH 394 and STAT/MATH 395; either STAT/ECON 311 or STAT/MATH 390; either a minimum grade of 2.5 in MATH 136 or MATH 327. Offered: W.

[View course details in MyPlan: STAT 341](#)

STAT 342 Introduction to Probability and Mathematical Statistics III (4) NW

Brief review of: sample spaces, random variables, probability. Distribution: binomial, normal, Poisson, geometric. Followed by: expectation, variance, central limit theorem. Basic concepts of estimation, testing, and

confidence intervals. Maximum likelihood estimators and likelihood ratio tests, efficiency. Introduction to regression. Prerequisite: STAT 341. Offered: Sp.

[View course details in MyPlan: STAT 342](#)

STAT 390 Statistical Methods in Engineering and Science (4) NW

Concepts of probability and statistics. Conditional probability, independence, random variables, distribution functions. Descriptive statistics, transformations, sampling errors, confidence intervals, least squares and maximum likelihood. Exploratory data analysis and interactive computing. Students may receive credit for only one of STAT 390, STAT 481/ECON 481, and ECON 580. Prerequisite: either MATH 126 or MATH 136.

Offered: jointly with MATH 390; AWSpS.

[View course details in MyPlan: STAT 390](#)

STAT 391 Quantitative Introductory Statistics for Data Science (4)

The basic concepts of statistics, machine learning and data science, as well as their computational aspects. Statistical models, likelihood, maximum likelihood and Bayesian estimation, regression, classification, clustering, principal component analysis, model validation, statistical testing. Practical implementation and visualization in data analysis. Assumes knowledge of basic probability, mathematical maturity, and ability to program. Prerequisite: either CSE 312, or STAT 394/MATH 394 and STAT 395/MATH 395. Offered: Sp.

[View course details in MyPlan: STAT 391](#)

STAT 394 Probability I (3) NW

Sample spaces; basic axioms of probability; combinatorial probability; conditional probability and independence; binomial, Poisson, and normal distributions. Prerequisite: minimum grade of 2.0 in either MATH 126 or MATH 136. Offered: jointly with MATH 394; AWS.

[View course details in MyPlan: STAT 394](#)

STAT 395 Probability II (3) NW

Random variables; expectation and variance; laws of large numbers; normal approximation and other limit theorems; multidimensional distributions and transformations. Prerequisite: minimum grade of 2.0 in STAT/MATH 394. Offered: jointly with MATH 395; WSpS.

[View course details in MyPlan: STAT 395](#)

STAT 396 Probability III (3) NW

Characteristic functions and generating functions; recurrent events and renewal theory; random walk.

Prerequisite: minimum grade of 2.0 in either MATH 395 or STAT 395, or minimum grade of 2.0 in STAT 340 and in STAT 341. Offered: jointly with MATH 396; Sp.

[View course details in MyPlan: STAT 396](#)

STAT 403 Introduction to Resampling Inference (4) NW *V. MININ*

Introduction to computer-intensive data analysis for experimental and observational studies in empirical sciences. Students design, program, carry out, and report applications of bootstrap resampling, rerandomization, and subsampling of cases. Experience programming in R is beneficial. Credit allowed for STAT 403 or STAT 503 but not both. Prerequisite: either STAT 311/ECON 311, STAT 341, STAT 390/MATH 390, STAT 481/ECON 481, or Q SCI 381 and Q SCI 482. Offered: jointly with Q SCI 403; Sp.

[View course details in MyPlan: STAT 403](#)

STAT 406 Research Design and Statistics for HIHIM (3)

Explores healthcare and research statistics. Addresses hospital statistics, used to calculate usage levels of healthcare resources and outcomes of clinical operations, and research statistics, used to summarize and describe significant characteristics of a data set, and to make inferences about a population based on data collected from a sample. In addition, principles of research are described, including the Institutional Review Board process.

Offered: jointly with BIOS 406/HIHIM 425.

[View course details in MyPlan: STAT 406](#)

STAT 416 Introduction to Machine Learning (4) NW

Provides practical introduction to machines learning. Modules include regression, classification, clustering, retrieval, recommender systems, and deep learning, with a focus on an intuitive understanding grounded in real-world applications. Intelligent applications are designed and used to make predictions on large, complex datasets. Prerequisite: CSE 143 or CSE 160; and STAT 311 or STAT 390 Offered: jointly with CSE 416.

[View course details in MyPlan: STAT 416](#)

STAT 421 Applied Statistics and Experimental Design (4) NW

Experimental designs, including completely randomized, blocked, Latin Square, factorial, 2 to the k, fractional, nested, and split-plot; fixed effects and random effects models; confounding and aliasing. Analyses of real data, to illustrate concepts. Prerequisite: either STAT 342 or STAT 481/ECON 481. Offered: A.

[View course details in MyPlan: STAT 421](#)

STAT 423 Applied Regression and Analysis of Variance (4) NW

Regression analysis. Problems in interpreting regression coefficients. Estimation, including two-stage least squares. Guided regression: building linear models, selecting carriers. Regression residuals. Analysis of variance. Nonparametric regression. Factorial designs, response surface methods. Prerequisite: either STAT 342, STAT 421, or STAT 481/ECON 481. Offered: W.

[View course details in MyPlan: STAT 423](#)

STAT 425 Introduction to Nonparametric Statistics (3) NW

Overview of nonparametric methods, such as rank tests, goodness of fit tests, 2 x 2 tables, nonparametric estimation. Useful for students with only a statistical methods course background. Prerequisite: STAT 390/MATH 390. Offered: jointly with BIOS 425.

[View course details in MyPlan: STAT 425](#)

STAT 427 Introduction to Analysis of Categorical Data (4) NW

Techniques for analysis of count data. Log-linear models, logistic regression, and analysis of ordered response categories. Illustrations from the behavioral and biological sciences. Computational procedures. Prerequisite: either STAT 342, STAT 362, or STAT 421.

[View course details in MyPlan: STAT 427](#)

STAT 428 Multivariate Analysis for the Social Sciences (4) NW

Multivariate techniques commonly used in the social and behavioral sciences. Linear models for dependence analysis (multivariate regression, MANOVA, and discriminant analysis) and for interdependence analysis (principal components and factor analysis). Techniques applied to social science data using computer statistical packages. Prerequisite: either STAT 342, STAT 362, or STAT 421.

[View course details in MyPlan: STAT 428](#)

STAT 435 Introduction to Statistical Machine Learning (4) D. WITTEN

Introduces the theory and application of statistical machine learning. Topics may include supervised versus unsupervised learning; cross-validation; the bias-variance trade-off; regression and classification; regularization and shrinkage approaches; non-linear approaches; tree-based methods; and support vector machines. Includes applications in R. Prerequisite: either STAT 341, STAT 390/MATH 390, or STAT 391; recommended: MATH 308. Offered: Sp.

[View course details in MyPlan: STAT 435](#)

STAT 441 Multivariate Statistical Methods (4) QSR P. HOFF

Introduces statistical methods for analysis of multidimensional data. Methods include tools for exploratory analysis of high-dimensional data, statistical modeling approaches to parameter estimation and hypothesis testing, and nonparametric methods for classification and clustering. Includes applications in R. Prerequisite: MATH 308 and one of STAT 341, STAT/MATH 390, or STAT 391. Offered: W.

[View course details in MyPlan: STAT 441](#)

STAT 480 Sampling Theory for Biologists (3) NW J. SKALSKI

Theory and applications of sampling finite populations including: simple random sampling, stratified random sampling, ratio estimates, regression estimates, systematic sampling, cluster sampling, sample size determinations, applications in fisheries and forestry. Other topics include sampling plant and animal populations, sampling distributions, estimation of parameters and statistical treatment of data. Prerequisite: Q SCI 482. Offered: jointly with Q SCI 480; W, odd years.

[View course details in MyPlan: STAT 480](#)

STAT 486 Experimental Design (4) NW

Emphasizes data modeling using structured means resulting from choice of experimental and treatment design. Examines experimental designs, including crossed, nested designs; block; split-plot designs; and covariance analysis. Also covers multiple comparisons, efficiency, power, sample size, and pseudo-replication. Prerequisite: Q SCI 482. Offered: jointly with Q SCI 486; W, even years.

[View course details in MyPlan: STAT 486](#)

STAT 491 Introduction to Stochastic Processes (3) NW

Random walks, Markov chains, branching processes, Poisson process, point processes, birth and death processes, queuing theory, stationary processes. Prerequisite: minimum grade of 2.0 in MATH 396 or STAT 396. Offered: jointly with MATH 491; A.

[View course details in MyPlan: STAT 491](#)

STAT 492 Stochastic Calculus for Option Pricing (3) NW

Introductory stochastic calculus mathematical foundation for pricing options and derivatives. Basic stochastic analysis tools, including stochastic integrals, stochastic differential equations, Ito's formula, theorems of Girsanov and Feynman-Kac, Black-Scholes option pricing, American and exotic options, bond options.

Prerequisite: minimum grade of 2.0 in either MATH 395 or STAT 395 OR STAT 340 and STAT 341. Offered: jointly with MATH 492; W.

[View course details in MyPlan: STAT 492](#)

STAT 495 Service Learning: K-12 Tutoring Experience (1-5, max. 5) Morita

Tutoring mathematics in local K-12 schools. Offered: AWSp.

[View course details in MyPlan: STAT 495](#)

STAT 498 Special Topics (1-5, max. 15) NW

Reading and lecture course intended for special needs of students.

[View course details in MyPlan: STAT 498](#)

STAT 499 Undergraduate Research (1-5, max. 15)

Offered: AWSpS.

[View course details in MyPlan: STAT 499](#)

STAT 502 Design and Analysis of Experiments (4)

Design of experiments covering concepts such as randomization, blocking, and confounding. Analysis of experiments using randomization tests, analysis of variance, and analysis of covariance. Prerequisite: either STAT 342, MATH 390/STAT 390, ECON 481/STAT 481, STAT 509/CS&SS 509/ECON 580 or equivalent; MATH 308 or equivalent. Offered: A.

[View course details in MyPlan: STAT 502](#)

STAT 503 Practical Methods for Data Analysis (4)

Basic exploratory data analysis with business examples. Data summaries, multivariate data, time series, multiway tables. Techniques include graphical display, transformation, outlier identification, cluster analysis, smoothing, regression, robustness. Departmental credit allowed for only one of 403 and 503. Prerequisite: B A 500 or QMETH 500 or equivalent or permission of instructor. Offered: jointly with QMETH 503.

[View course details in MyPlan: STAT 503](#)

STAT 504 Applied Regression (4)

Least squares estimation. Hypothesis testing. Interpretation of regression coefficients. Categorical independent variables. Interactions. Assumption violations: outliers, residuals, robust regression; nonlinearity, transformations, ACE, CART; nonconstant variance. Variable selection and model averaging. Prerequisite: either STAT 342, STAT 390/MATH 390, STAT 421, STAT 481/ECON 481, STAT 509/CS&SS 509/ECON 580, or SOC 425. Offered: jointly with CS&SS 504.

[View course details in MyPlan: STAT 504](#)

STAT 506 Applied Probability and Statistics (4)

Discrete and continuous random variables, independence and conditional probability, central limit theorem, elementary statistical estimation and inference, linear regression. Emphasis on physical applications.

Prerequisite: some advanced calculus and linear algebra. Offered: jointly with AMATH 506.

[View course details in MyPlan: STAT 506](#)

STAT 509 Econometrics I: Introduction to Mathematical Statistics (4)

Examines methods, tools, and theory of mathematical statistics. Covers, probability densities, transformations, moment generating functions, conditional expectation. Bayesian analysis with conjugate priors, hypothesis tests, the Neyman-Pearson Lemma. Likelihood ratio tests, confidence intervals, maximum likelihood estimation, Central limit theorem, Slutsky Theorems, and the delta-method. Prerequisite: STAT 311/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. (Credit allowed for only one of STAT 390, STAT 481, and ECON 580.) Offered: jointly with CS&SS 509/ECON 580.

[View course details in MyPlan: STAT 509](#)

STAT 512 Statistical Inference (4)

Review of random variables; transformations, conditional expectation, moment generating functions, convergence, limit theorems, estimation; Cramer-Rao lower bound, maximum likelihood estimation, sufficiency, ancillarity, completeness. Rao-Blackwell theorem. Hypothesis testing: Neyman-Pearson lemma, monotone likelihood ratio, likelihood-ratio tests, large-sample theory. Contingency tables, confidence intervals, invariance. Decision theory. Prerequisite: STAT 395 and STAT 421, STAT 423, STAT 504, or BIOST 512 (concurrent registration permitted for these three). Offered: A.

[View course details in MyPlan: STAT 512](#)

STAT 513 Statistical Inference (4)

Review of random variables; transformations, conditional expectation, moment generating functions, convergence, limit theorems, estimation; Cramer-Rao lower bound, maximum likelihood estimation, sufficiency, ancillarity, completeness. Rao-Blackwell theorem. Hypothesis testing: Neyman-Pearson lemma, monotone likelihood ratio, likelihood-ratio tests, large-sample theory. Contingency tables, confidence intervals, invariance. Decision theory. Prerequisite: STAT 512. Offered: W.

[View course details in MyPlan: STAT 513](#)

STAT 516 Stochastic Modeling of Scientific Data (3-)

Covers discrete-time Markov chain theory; inference for discrete-time Markov chains; Monte Carlo methods; missing data; hidden Markov models; and Gaussian Markov random fields. Prerequisite: either STAT 342 or STAT 396. Offered: A.

[View course details in MyPlan: STAT 516](#)

STAT 517 Stochastic Modeling of Scientific Data (-3)

Covers Markov random fields; continuous-time Markov chains; birth-death and branching processes; and point processes and cluster models. Procedures for inference for these stochastic processes, including Likelihood methods and estimating equations. Prerequisite: STAT 516. Offered: W.

[View course details in MyPlan: STAT 517](#)

STAT 518 Stochastic Modeling Project (3)

Student in-depth analyses, oral presentations, and discussion of selected research articles focusing on stochastic

modeling of, and inference for, scientific data. Prerequisite: STAT 517 and permission of instructor. Offered: Sp. ¹⁴⁴⁷
[View course details in MyPlan: STAT 518](#)

STAT 519 Time Series Analysis (3)

Descriptive techniques. Stationary and nonstationary processes, including ARIMA processes. Estimation of process mean and autocovariance function. Fitting ARIMA models to data. Statistical tests for white noise. Forecasting. State space models and the Kalman filter. Robust time series analysis. Regression analysis with correlated errors. Statistical properties of long memory processes. Prerequisite: STAT 513.

[View course details in MyPlan: STAT 519](#)

STAT 520 Spectral Analysis of Time Series (4)

Estimation of spectral densities for single and multiple time series. Nonparametric estimation of spectral density, cross-spectral density, and coherency for stationary time series, real and complex spectrum techniques. Bispectrum. Digital filtering techniques. Aliasing, prewhitening. Choice of lag windows and data windows. Use of the fast Fourier transform. Prerequisite: one of STAT 342, STAT 390, STAT 481, STAT 509/CS&SS 509/ECON 580, or IND E 315. Offered: jointly with E E 520.

[View course details in MyPlan: STAT 520](#)

STAT 521 Advanced Probability (3)

Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with MATH 521; A.

[View course details in MyPlan: STAT 521](#)

STAT 522 Advanced Probability (3)

Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with MATH 522; W.

[View course details in MyPlan: STAT 522](#)

STAT 523 Advanced Probability (3)

Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with MATH 523; Sp.

[View course details in MyPlan: STAT 523](#)

STAT 524 Design of Medical Studies (3)

Design of medical studies, with emphasis on randomized controlled clinical trials. Bias elimination, controls, treatment assignment and randomization, precision, replication, power and sample size calculations, stratification, and ethics. Suitable for graduate students in biostatistics and for research-oriented graduate students in other scientific fields. Prerequisite: BIOST 511 or equivalent, and one of BIOST 513, BIOST 518, STAT 421, STAT 423, STAT 512, or EPI 512; or permission of instructor. Offered: jointly with BIOST 524; Sp.

[View course details in MyPlan: STAT 524](#)

STAT 527 Nonparametric Regression and Classification (3)

Covers techniques for smoothing and classification including spline models, kernel methods, generalized additive models, and the averaging of multiple models. Describes measures of predictive performance, along with methods for balancing bias and variance. Prerequisite: either STAT 502 and STAT 504 or BIOST 514 and BIOST 515. Instructors: Minin, Raftery, Richardson, Wakefield Offered: jointly with BIOST 527; Sp.

[View course details in MyPlan: STAT 527](#)

STAT 528 Applied Statistics Capstone (3)

Covers technical and non-technical aspects of applied statistics work, building on methods taught in prerequisite courses. Key elements include: study design, determining the aim of the analysis, choosing an appropriate method, and report writing. Prerequisite: STAT 502; STAT 504; STAT 536; STAT 570. Instructors: McCormick,

Sampson, Wakefield Offered: W.

[View course details in MyPlan: STAT 528](#)

STAT 529 Sample Survey Techniques (3)

Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BOST 511, or BOST 517, or equivalent; or permission of instructor. Offered: jointly with BOST 529/CS&SS 529.

[View course details in MyPlan: STAT 529](#)

STAT 530 Wavelets: Data Analysis, Algorithms, and Theory (3)

Review of spectral analysis. Theory of continuous and discrete wavelets. Multiresolution analysis. Computation of discrete wavelet transform. Time-scale analysis. Wavelet packets. Statistical properties of wavelet signal extraction and smoothers. Estimation of wavelet variance. Prerequisite: some Fourier theory and linear algebra; MATH 390/STAT 390, ECON 481 or STAT 481, STAT 509/CS&SS 509/ECON 580, STAT 513, or IND E 315. Offered: jointly with E E 530; Sp.

[View course details in MyPlan: STAT 530](#)

STAT 533 Theory of Linear Models (3)

Examines model structure; least squares estimation; Gauss-Markov theorem; central limit theorems for linear regression; weighted and generalized least squares; fixed and random effects; analysis of variance; blocking and stratification; and applications in experimental design. Prerequisite: STAT 421 or STAT 423 or BOST 515; and STAT 513; and a course in matrix algebra. Offered: jointly with BOST 533; Sp.

[View course details in MyPlan: STAT 533](#)

STAT 534 Statistical Computing (3)

Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with BOST 534; Sp.

[View course details in MyPlan: STAT 534](#)

STAT 535 Statistical Learning: Modeling, Prediction, and Computing (3)

Covers statistical learning over discrete multivariate domains, exemplified by graphical probability models. Emphasizes the algorithmic and computational aspects of these models. Includes additional topics in probability and statistics of discrete structures, general purpose discrete optimization algorithms like dynamic programming and minimum spanning tree, and applications to data analysis. Prerequisite: experience with programming in a high level language. Offered: A.

[View course details in MyPlan: STAT 535](#)

STAT 536 Analysis of Categorical and Count Data (3)

Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with CS&SS 536/SOC 536.

[View course details in MyPlan: STAT 536](#)

STAT 538 Statistical Learning: Modeling, Prediction, and Computing (3)

Reviews optimization and convex optimization in its relation to statistics. Covers the basics of unconstrained and constrained convex optimization, basics of clustering and classification, entropy, KL divergence and exponential family models, duality, modern learning algorithms like boosting, support vector machines, and variational approximations in inference. Prerequisite: experience with programming in a high level language. Offered: W.

[View course details in MyPlan: STAT 538](#)

STAT 539 Statistical Learning: Modeling, Prediction and Computing (3)

Supervised, applied project in statistical modeling, prediction, and computing. Prerequisite: STAT 535; STAT 538; computer programming at intermediate level. Instructors: Meila Offered: Sp.

[View course details in MyPlan: STAT 539](#)

STAT 542 Multivariate Analysis (3)

Multivariate normal distribution; partial and multiple correlation; Hotelling's T²; Bartlett's decomposition; various likelihood ratio tests; discriminant analysis; principal components; graphical Markov models.

Prerequisite: STAT 582 or permission of instructor.

[View course details in MyPlan: STAT 542](#)

STAT 544 Bayesian Statistical Methods (3)

Statistical methods based on the idea of a probability distribution over the parameter space. Coherence and utility. Subjective probability. Likelihood principle. Conjugate families. Structure of Bayesian inference. Limit theory for posterior distributions. Sequential experiments. Exchangeability. Bayesian nonparametrics. Empirical Bayes methods. Prerequisite: STAT 513 or permission of instructor.

[View course details in MyPlan: STAT 544](#)

STAT 547 Options and Derivatives (4)

Covers theory, computation, and statistics of options and derivatives pricing, including options on stocks, stock indices, futures, currencies, and interest rate derivatives. Prerequisite: STAT 506 or permission of instructor.

[View course details in MyPlan: STAT 547](#)

STAT 548 Machine Learning for Big Data (4)

Covers machine learning and statistical techniques for analyzing datasets of massive size and dimensionality. Representations include regularized linear models, graphical models, matrix factorization, sparsity, clustering, and latent factor models. Algorithms include sketching, random projections, hashing, fast nearest-neighbors, large-scale online learning, and parallel learning (Map-Reduce, GraphLab). Prerequisite: either STAT 535 or CSE 546. Instructors: Fox, Guestrin Offered: jointly with CSE 547; W.

[View course details in MyPlan: STAT 548](#)

STAT 549 Statistical Methods for Portfolios (4)

Covers the fundamentals of modern statistical portfolio construction and risk measurement, including theoretical foundations, statistical methodology, and computational methods using modern object-oriented software for data analysis, statistical modeling, and numerical portfolio optimization. Prerequisite: ECON 424 or equivalent, or permission of instructor.

[View course details in MyPlan: STAT 549](#)

STAT 550 Statistical Genetics I: Mendelian Traits (3)

Mendelian genetic traits. Population genetics; Hardy-Weinberg, allelic variation, subdivision. Likelihood inference, information and power; latent variables and EM algorithm. Pedigree relationships and gene identity. Meiosis and recombination. Linkage detection. Multipoint linkage analysis. Prerequisite: STAT 390 and STAT 394, or permission of instructor. Offered: jointly with BIOS T 550; Sp.

[View course details in MyPlan: STAT 550](#)

STAT 551 Statistical Genetics II: Quantitative Traits (3)

Statistical basis for describing variation in quantitative traits. Decomposition of trait variation into components representing genes, environment and gene-environment interaction. Methods of mapping and characterizing quantitative trait loci. Prerequisite: STAT/BIOS T 550; STAT 423 or BIOS T 515; or permission of instructor. Offered: jointly with BIOS T 551; A.

[View course details in MyPlan: STAT 551](#)

STAT 552 Statistical Genetics III: Design and Analysis (3)

Overview of probability models, inheritance models, penetrance. Association and linkage. The lod score method. Affected sib method. Fitting complex inheritance models. Design mapping studies; multipoint,

disequilibrium, and fine-scale mapping. Ascertainment. Prerequisite: STAT/BIOST 551; GENOME 371⁶⁰, or permission of instructor. Offered: jointly with BIOST 552; W.

[View course details in MyPlan: STAT 552](#)

STAT 554 Statistical Methods for Spatial Data (3)

Motivates the need for, and describes methods for, the analysis of spatial data. Topics: Clustering, cluster detection, spatial regression, modeling neighborhood effects, geographical information systems. Point and aggregated data considered and data from complex surveys. Offered: jointly with CS&SS 554/SOC 534; W.

[View course details in MyPlan: STAT 554](#)

STAT 556 Introduction to Statistics and Probability (5)

Overview of probability; conditional probability and independence; Bayes Theorem; discrete and continuous random variables including jointly distributed; key distributions including the normal and its spin offs; properties of expectation and variance; conditional expectation; covariance and correlation; Central Limit Theorem; law of large numbers; Parameter Estimation. Offered: jointly with BIOST 556/DATA 556; A.

[View course details in MyPlan: STAT 556](#)

STAT 557 Applied Statistics and Experimental Design (5)

Inferential statistical methods for discrete and continuous random variables including tests for difference in means and proportions; linear and logistic regression; causation versus correlation; confounding; resampling methods; study design. Prerequisite: STAT/BIOST/DATA 556 or instructor's permission. Offered: jointly with BIOST 557/DATA 557; W.

[View course details in MyPlan: STAT 557](#)

STAT 558 Statistical Machine Learning for Data Scientists (5)

Bias-variance trade-off; training versus test error; overfitting; cross-validation; subset selection methods; regularized approaches for linear/logistic regression: ridge and lasso; non-parametric regression: trees, bagging, random forests; local regression and splines; generalized additive models; support vector machines; k-means and hierarchical clustering; principal components analysis. Prerequisite: STAT/BIOST/DATA 557, or permission of instructor. Offered: jointly with BIOST 558/DATA 558; Sp.

[View course details in MyPlan: STAT 558](#)

STAT 559 Measure Theory (3) *M. DRTON*

Measures: Caratheodory Extension Theorem. Measurable functions: Riesz Theorem, Slutsky Theorem. Integration: Fatou's lemma, MCT, DCT; Helly-Bray, Mann-Wald and Skorokhod theorems. Derivatives via signed measures. Measures and processes on products. Distribution and quantile functions. Independence and conditional distributions. Prerequisite: either MATH 424 and MATH 425, or MATH 574 and MATH 575. Offered: Sp.

[View course details in MyPlan: STAT 559](#)

STAT 560 Hierarchical Modeling for the Social Sciences (4)

Explores ways in which data are hierarchically organized, such as voters nested within electoral districts that are in turn nested within states. Provides a basic theoretical understanding and practical knowledge of models for clustered data and a set of tools to help make accurate inferences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with CS&SS 560/SOC 560.

[View course details in MyPlan: STAT 560](#)

STAT 561 Special Topics in Applied Statistics (1-5, max. 15)

Data analysis, spectral analysis or robust estimation. Prerequisite: permission of instructor.

[View course details in MyPlan: STAT 561](#)

STAT 562 Special Topics in Applied Statistics (1-5, max. 15)

Data analysis, spectral analysis or robust estimation. Prerequisite: permission of instructor.

[View course details in MyPlan: STAT 562](#)

STAT 564 Bayesian Statistics for the Social Sciences (4)

Statistical methods based on the idea of probability as a measure of uncertainty. Topics covered include subjective notion of probability, Bayes' Theorem, prior and posterior distributions, and data analysis techniques for statistical models. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with CS&SS 564.

[View course details in MyPlan: STAT 564](#)

STAT 566 Causal Modeling (4)

Construction of causal hypotheses. Theories of causation, counterfactuals, intervention vs. passive observation. Contexts for causal inference: randomized experiments; sequential randomization; partial compliance; natural experiments, passive observation. Path diagrams, conditional independence, and d-separation. Model equivalence and causal under-determination. Prerequisite: course in statistics, SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with CS&SS 566.

[View course details in MyPlan: STAT 566](#)

STAT 567 Statistical Analysis of Social Networks (4)

Statistical and mathematical descriptions of social networks. Topics include graphical and matrix representations of social networks, sampling methods, statistical analysis of network data, and applications. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with CS&SS 567.

[View course details in MyPlan: STAT 567](#)

STAT 570 Advanced Regression Methods for Independent Data (3)

Covers linear models, generalized linear and non-linear regression, and models. Includes interpretation of parameters, including collapsibility and non-collapsibility, estimating equations; likelihood; sandwich estimations; the bootstrap; Bayesian inference: prior specification, hypothesis testing, and computation; comparison of approaches; and diagnostics. Prerequisite: STAT 512 and STAT 513; BOST/STAT 533 or STAT 421/STAT 502 and STAT 423/STAT 504; a course in matrix algebra. Offered: jointly with BOST 570; A.

[View course details in MyPlan: STAT 570](#)

STAT 571 Advanced Regression Methods for Dependent Data (3)

Covers longitudinal data models, generalized linear and non-linear mixed models; marginal versus conditional models; generalized estimating equations, likelihood-based inference, REML, BLUP, and computation of integrals; Bayesian inference: Markov chain Monte Carlo; covariance models, including models for split plot designs; comparison of approaches; and diagnostics. Prerequisite: BOST570/STAT 570. Offered: jointly with BOST 571; W.

[View course details in MyPlan: STAT 571](#)

STAT 572 Advanced Regression Methods: Project (3)

Student presentations and discussion on selected methodological research articles focusing on regression modeling. Prerequisite: STAT 571. Offered: jointly with BOST 572; Sp.

[View course details in MyPlan: STAT 572](#)

STAT 576 Statistical Methods for Survival Data (3)

Statistical methods for censored survival data arising from follow-up studies on human or animal populations. Parametric and nonparametric methods, Kaplan-Meier survival curve estimator, comparison of survival curves, log-rank test, regression models including the Cox proportional hazards model, competing risks. Prerequisite: STAT 581 and either BOST 515, STAT 473, or equivalent. Offered: jointly with BOST 576.

[View course details in MyPlan: STAT 576](#)

STAT 578 Special Topics in Advanced Biostatistics (*, max. 30)

Advanced-level topics in biostatistics offered by regular and visiting faculty. Prerequisite: permission of instructor. Offered: jointly with BOST 578; AWSpS.

[View course details in MyPlan: STAT 578](#)

STAT 579 Data Analysis and Reporting (2, max. 8)

Analysis of real data to answer scientific questions. Common data-analytic problems. Sensible approaches to complex data. Graphical and tabular presentation of results. Writing reports for scientific journals, research collaborators, consulting clients. Graduate standing in statistics or biostatistics or permission of instructor.

Offered: jointly with BIOST 579; AWSp.

[View course details in MyPlan: STAT 579](#)

STAT 581 Advanced Theory of Statistical Inference (3)

Limit theorems, asymptotic methods, asymptotic efficiency and efficiency bounds for estimation, maximum likelihood estimation, Bayes methods, asymptotics via derivatives of functionals, sample-based estimates of variability: (bootstrap and jackknife); robustness; estimation for dependent data, nonparametric estimation and testing. Prerequisite: STAT 513; either MATH 426 or MATH 576. Offered: A.

[View course details in MyPlan: STAT 581](#)

STAT 582 Advanced Theory of Statistical Inference (3)

Limit theorems, asymptotic methods, asymptotic efficiency and efficiency bounds for estimation, maximum likelihood estimation, Bayes methods, asymptotics via derivatives of functionals, sample-based estimates of variability: (bootstrap and jackknife); robustness; estimation for dependent data, nonparametric estimation and testing. Prerequisite: STAT 581. Offered: W.

[View course details in MyPlan: STAT 582](#)

STAT 583 Advanced Theory of Statistical Inference (3)

Limit theorems, asymptotic methods, asymptotic efficiency and efficiency bounds for estimation, maximum likelihood estimation, Bayes methods, asymptotics via derivatives of functionals, sample-based estimates of variability: (bootstrap and jackknife); robustness; estimation for dependent data, nonparametric estimation and testing. Prerequisite: STAT 582. Offered: Sp.

[View course details in MyPlan: STAT 583](#)

STAT 590 Statistics Seminar (*, max. 15)

Prerequisite: permission of graduate program coordinator. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: STAT 590](#)

STAT 591 Special Topics in Statistics (1-5, max. 15)

Distribution-free inference, game and decision theory, advanced theory of estimation (including sequential estimation), robustness, advanced probability theory, stochastic processes or empirical processes. Prerequisite: permission of instructor. Offered: A.

[View course details in MyPlan: STAT 591](#)

STAT 592 Special Topics in Statistics (1-5, max. 15)

Distribution-free inference, game and decision theory, advanced theory of estimation (including sequential estimation), robustness, advanced probability theory, stochastic processes or empirical processes. Prerequisite: permission of instructor. Offered: W.

[View course details in MyPlan: STAT 592](#)

STAT 593 Special Topics in Statistics (1-5, max. 15)

Distribution-free inference, game and decision theory, advanced theory of estimation (including sequential estimation), robustness, advanced probability theory, stochastic processes or empirical processes. Prerequisite: permission of instructor. Offered: Sp.

[View course details in MyPlan: STAT 593](#)

STAT 598 Techniques of Statistical Consulting (1)

Seminar series covering technical and non-technical aspects of statistical consulting, including skills for effective communication with clients, report writing, statistical tips and rules of thumb, issues in survey sampling, and issues in working as a statistical consultant in academic, industrial, and private-practice settings.

Prerequisite: entry code. Offered: jointly with BIOS 598; ASp.

[View course details in MyPlan: STAT 598](#)

STAT 599 Statistical Consulting (*, max. 12)

Consulting experience in data analysis, applied statistics. Student required to provide consulting services to students and faculty three hours per week. Prerequisite: permission of Graduate Program Coordinator. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: STAT 599](#)

STAT 600 Independent Study or Research (*-)

Prerequisite: permission of Graduate Program Coordinator. Offered: AWSpS.

[View course details in MyPlan: STAT 600](#)

College of Built Environments

[Display as tabs](#)

College Overview

224 Gould

Dean

John Schaufelberger

Associate Dean

Jeffrey Ochsner

www.be.washington.edu

The College of Built Environments (CBE) devotes its resources to the tangible improvement of built and natural environments. Four departments comprise the college: architecture, construction management, landscape architecture, and urban design and planning. Each prepares students for professional careers involving the design, planning, production, and sustainability of physical and natural environments, as well as addressing policies and programs that engage problems of urban growth and livable communities.

The College offers a variety of programs and degrees focusing on the environmental design and construction disciplines within a liberal arts education. The undergraduate programs of the Departments of Construction Management and Landscape Architecture lead to professional degrees that serve as the educational credentials for careers in their respective fields. Undergraduate programs in the Departments of Architecture and Urban Design and Planning offer students pre-professional undergraduate majors-in Architectural Studies and in Community, Environment, and Planning respectively-that prepares students for professional programs in the design and planning disciplines, as well as related leadership roles in society.

The College offers a variety of professional and post-professional Master's degrees: Master of Architecture; Master of Science in Architecture; Master of Science in Construction Management (evening degree); Master of Urban Planning; Master of Landscape Architecture; and Master of Science in Real Estate. Master's students may elect also to work toward the interdisciplinary Certificates in Urban Design and in Historic Preservation. The College offers two interdisciplinary doctoral degrees: the Ph.D. in the Built Environment and the Ph.D. in Urban Design and Planning. All program curricula encompass an appropriate level of design and technical understanding, and include broader social, economic, and cultural issues fundamental to understanding, preserving, and enriching our built and natural environments.

As a part of a major university and metropolis in the Pacific Northwest, the College directly engages this extraordinary setting as a laboratory for study. Faculty members in CBE departments and programs work closely with various professional communities to

build curricula and offer experience attuned to the understanding and creation of appropriate built environments.

Facilities

Computing Facilities

Mark Baratta, Director

The College provides an extensive computing infrastructure to support student work. Students have easy access to high-speed wired and wireless networking in the College's buildings, computers in labs and studios, a comprehensive collection of software used in our disciplines, specialized hardware (large-format scanning and plotting, laser cutters, 3D printer), an equipment loaner program (laptops, digital cameras (fixed-lens and SLR), camcorders, digital audio recorders, projectors), and consulting. Most classrooms and seminar rooms are equipped with projectors; several have interactive whiteboard displays.

Built Environments Library

Alan Michelson, Librarian

The Built Environments Library, 334 Gould, is the primary location for materials on architecture, landscape architecture, construction management, and urban design and planning. The collection contains 46,745 volumes, 7,500 microforms, and 163 currently-received serial subscriptions and 243 serial titles in total. Access to its collection is provided through the UW Libraries Information Gateway, a single World Wide Web location which encompasses all the library's print and electronic resources as well as tools, services, and the ability to search the library's catalog and a wide range of Internet resources. The Gateway is available in all UW libraries and on the Web at www.lib.washington.edu.

Photography Lab

John Stamets, Lecturer

A large photography laboratory is provided with studio and film darkroom facilities for use by photography classes, design-studio classes, special instruction, and independent activity.

Shop

Penny Maulden, Director

Fully staffed and well-equipped workshops provide students opportunities to design and make projects using wood, metals, concrete, plaster, plastics and other materials. A wide and deep selection of hand-tools, machine-tools and digital fabrication tools support the instructional use of the workshops and adjacent classroom. Coursework and research supported by the workshops include building design, design/build, furniture studios, structures, materials, and digital fabrication courses. Individual projects including thesis and research can also be accommodated.

Visual Resources Collection

Joshua Polansky, Director

The Visual Resources Collection consists of over 80,000 digital images covering architectural, landscape, design and planning, and construction subject matter, supporting the curricular and research needs of the College. They are accessible to students and faculty through an online image database. New materials for lectures and projects are continually added.

Undergraduate Degree Programs

The College of Built Environments offers the following professional and pre-professional undergraduate degree options and opportunities:

College Bachelor Degree Programs

- [Bachelor of Arts in Architectural Studies](#)
- [Bachelor of Arts in Community, Environment, and Planning](#)
- [Bachelor of Landscape Architecture](#)
- [Bachelor of Science in Construction Management](#)

Minors and Dual Degree Options

- [Minor in Architecture](#)
- [Minor in Landscape Architecture](#)
- [Minor in Urban Design and Planning](#)
- Dual Degree option combining the Bachelor of Arts in Architectural Studies with the Bachelor of Science in Construction Management

Graduate Program

The College of Built Environments offers the following professional, post-professional graduate degrees, and doctoral options and opportunities:

College Graduate Degree Programs

- [Master of Architecture](#)
- [Master of Science in Construction Management](#)
- [Master of Landscape Architecture](#)
- [Master of Science in Real Estate](#)
- [Master of Urban Planning](#)

- [Ph.D in Urban Design and Planning](#)

College-wide Certificate Programs

Historic Preservation Certificate Program

The College of Built Environments offers education in historic preservation. This approach reflects a conscious choice to emphasize preservation within the context of the individual design professions. Thus, the curriculum offers an awareness and familiarity with issues involved in the identification, designation, interpretation, and preservation of historic places, as well as the restoration, adaptive reuse, and design of sympathetic new construction in historic contexts.

Program Coordinator

Box 355740

206-543-5996

histpres@uw.edu

www.be.washington.edu/certificates/hp.html

Admission Requirements

Open to students accepted into a professional or graduate program in the College of Built Environments, including the M.Arch., M.S. (Arch. History/Theory), B.L.A., M.L.A., M.U.P., and Ph.D. programs. Application is made first for admission to a degree program within the college. Once accepted, a separate "Statement of Interest" form is required. Application is made within the first two weeks of classes for two-year degree programs, and by the end of the first year for three-year programs.

Certificate Requirements

The certificate consists of courses required for the student's degree and an additional, complementary 12-15 credits of preservation study which may not overlap with courses required for students' degrees but which may fall into elective requirements and be part of the total credits required for the degree. We recommend students meet with the program coordinator and Preservation faculty to choose the courses that will best complement their degree program and academic interests in preservation.

1. Track I: Requirements for Students in the M.Arch. Degree Program

- Courses Required from the M.Arch. curriculum:* ARCH 500 (6), ARCH 590 (3), an advanced studio on preservation design or design in an historic context
- Core Certificate Courses:* ARCH 582 (3) if available; Case Studies, either ARCH 498 (3) or URBDP 587 (3); Preservation Planning, either URBDP 585 (3) or URBDP 586 (4)
- Elective Course(s):* Additional electives in areas related to preservation in architecture, landscape architecture, planning, or related design.
- Thesis:* Thesis topic with content in the area of preservation design or related issues in historic preservation. Thesis committee chaired by a member of the

Historic Preservation faculty.

2. Track II: Requirements for Students in the B.L.A., M.L.A., M.S. (Arch), M.U.P., and Ph.D. Degree Programs

- a. *Courses Required from Degree Curriculum:* Any required or "selective" courses with preservation/historical content, and if the degree requires studio work (B.L.A., M.L.A., M.U.P.), choose a studio with preservation content.
- b. *Core Certificate Courses:* URBDP 585 (3), URBDP 586 (4), one graduate seminar in preservation planning (3).
- c. *Elective Course(s):* Additional electives in areas related to preservation in architecture, landscape architecture, planning, or related design.
- d. *Thesis:* Thesis, professional paper, or dissertation topic with content in the area of preservation planning and design or related issues in historic preservation. Thesis must be chaired by a member of the Historic Preservation faculty.

Urban Design Certificate Program

The College of Built Environments offers an interdisciplinary program which leads to the Certificate of Achievement in Urban Design for students in the B.L.A., M.L.A., M.Arch., and M.U.P. professional degrees and to students in the Interdisciplinary Ph.D. in Urban Design and Planning or the Ph.D. in the Built Environment. It is designed to give students in these programs a broad and strong understanding of urban design that they may incorporate into their later professional and scholarly careers.

Program Coordinator

Box 355740

206-543-5996

ud@uw.edu

www.be.washington.edu/certificates/ud.html

Admission Requirements

Any student accepted into the degree programs listed above is eligible and may begin participate in the program by returning a Statement of Interest (this form may be obtained from the program office or the program website). We recommend that students in two-year programs apply at the beginning of their programs and that those in longer programs apply at the beginning of their second year. However, students must possess the necessary design abilities prior to enrollment in advanced studios. Such enrollment is determined by the studio in question (for example, advanced studios may require a prerequisite studio preparatory class and/or previous studios and/or the equivalent as evaluated by the studio instructor).

Certificate Requirements

The certificate consists of courses required for the student's degree and an additional, complementary 12-15 credits of urban design courses, which may not overlap with courses required for students' degrees but which may fall into elective requirements and be part of the total credits required for the degree.

These requirements vary with the students' degree requirements (for example, if a course listed below is required for the students' degree requirements, the student must meet the

12-15 credit requirement by choosing an additional course). We recommend students meet with the program coordinator and Urban Design Program faculty to choose the courses that will best complement their degree program and academic interests in urban design.

1. *Core Curriculum:*

- a. *Introductory Course:* ARCH 590 (M.Arch. and M.L.A. students); L ARCH 362 (B.L.A. students); URBDP 470 (any program); URBDP 500 (M.U.P. students)
- b. URBDP 479
- c. URBDP 580
- d. Thesis prep as appropriate for students' degree programs

2. *Urban Design Studios:* Three required from ARCH 500-505, L ARCH 402-403, L ARCH 503-505, or URBDP 507-508 as designated by the program each quarter; students must take at least one studio either outside their home department or with a clear interdisciplinary focus)

3. *Mandatory Course Areas*

- a. Urban Form and History: one course from L ARCH 450, L ARCH 451, L ARCH 498 (when history of urban design), URBDP 564, URBDP 565, or others as appropriate
- b. Urban Design Methods: two courses from L ARCH 341, L ARCH 571, URBDP 474, URBDP 576, URBDP 598, or others as appropriate
- c. Urban Studies: one course from PB AF 527, URBDP 422, URBDP 466, URBDP 500, URBDP 510, URBDP 520, URBDP 530, URBDP 560, URBDP 562, or others as appropriate
- d. Urban Development: one course from URBDP 561, URBDP 552, URBDP 553, URBDP 554, URBDP 555, or others as appropriate

4. *Thesis:* Students' theses, professional projects, or dissertations must have an urban design component and a member of the Urban Design Program faculty member as their committee chair.

COLLEGE OF BUILT ENVIRONMENTS

URBAN DESIGN AND PLANNING

COMMUNITY, ENVIRONMENT, AND PLANNING

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

CEP 200 Introduction to Community and Environmental Planning (5) I&S Campbell

Introduction to central themes of major. Opportunities to engage in community action and planning process, while developing ecological literacy. Lectures, discussions, and critical writing exercises combine to increase knowledge and interest in these fields. Emphasis on developing community of learners in and out of classroom setting. Offered: AW.

[View course details in MyPlan: CEP 200](#)

CEP 300 CEP Retreat (1, max. 4)

Focuses on planning analysis assessment and development of the major. Opportunities for community building and all-major policy deliberation and decisions. Workshops for skill building in consensus, facilitation, and for major-specific activities such as developing individual study plans and study abroad experiences. Prerequisite: Majors only. Credit/no-credit only. Offered: ASp.

[View course details in MyPlan: CEP 300](#)

CEP 301 The Idea of Community (5) I&S Campbell

Theories of community and communal rights and responsibilities. Experience building a learning community within major. Explores struggles for community in every sector of life. Offered: A.

[View course details in MyPlan: CEP 301](#)

CEP 302 Environmental Response (5) I&S/NW Miller

Explores issues of environmental crisis and societal responses. Readings and reflective analysis from broad selection of authoritative sources to develop grounded perspective in ecological literacy and consciousness. Concurrently, experiential education in challenges and practical responses to building sustainable society through participation in community-based environmental effort. Offered: W.

[View course details in MyPlan: CEP 302](#)

CEP 303 Social Structures and Processes (5) I&S Abramson, Born, Curry

Investigates use of formal and informal social structures and processes within context of community and environment. Looks at patterns and institutions of social organization and relationships among different sectors.

Issues of interrelatedness, citizenship, knowledge, and communication. Offered: Sp.

[View course details in MyPlan: CEP 303](#)

CEP 400 Governance Practicum (1, max. 6) *Campbell*

Emphasizes personal and collective leadership, democratic decision making, and learning through direct action and reflection. Explores and develops students' personal skills as doers and leaders, while also learning how to form and function as effective groups. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: CEP 400](#)

CEP 446 Internship (5, max. 10) *Ryan*

Connects core and individual courses with field work. Group and individual readings develop understanding of how students' internships and field placements constitute particular element of community and environmental planning. Explores how what we do for a living is part of our lives as citizens and public service. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: CEP 446](#)

CEP 460 Planning in Context (5) I&S *D. ABRAMSON, B. BORN, M. CURRY, J. STERRETT*

Examines theory against backdrop of practice for broad historical understanding of social, political, environmental planning. Critique from viewpoints, e.g., planning history, ethics, ecofeminism, environmental justice, class and capitalism, planning and global economy. Develop personalized history reflecting individual experience, professional experience, and philosophical heritage of planning profession. Offered: A.

[View course details in MyPlan: CEP 460](#)

CEP 461 Ethics and Identity (5) VLPA/I&S *Purcell*

Examination of personal, societal, vocational, environmental, planning ethics. Readings and discourse on ethical foundations for public life. Individual and group readings on values, human potential. Develops understanding of ecological context, moral responsibility, self-awareness. Constructs positive, diverse view of humanity, environment regardless of race, gender, ethnicity, beliefs. Offered: W.

[View course details in MyPlan: CEP 461](#)

CEP 462 Community and Environment (5) I&S *Campbell, Ryan*

Capstone quarter merges core seminars, disciplinary courses in major, community field experiences for mastery of personal knowledge and skills. Reflection and synthesis of themes in major; engagement with contemporary issues. Compares theoretical definitions of community and environment with individual philosophies and knowledge within thoughtful, applied context. Offered: Sp.

[View course details in MyPlan: CEP 462](#)

CEP 470 Tools for Sustainable Cities (4)

Examines specific tools used for planning sustainable cities, including hands-on learning, speakers, case studies, and site tours to enrich students' knowledge and experience. Prerequisite: CEP 200 or URBDP 300. Instructors: Sterrett Offered: SpS.

[View course details in MyPlan: CEP 470](#)

CEP 473 Digital Design Practicum (5) I&S/VLPA

Uses digital technologies for mapping, drafting, modeling, and communication. Includes real-world case study projects that focus on urban design and planning issues.

[View course details in MyPlan: CEP 473](#)

CEP 490 Senior Project Prep Seminar I: Research and Project Scoping (1-3)

Supports the conceptualization and planning of senior project/capstone work. Focuses on selecting a project, beginning a literature review, finding a mentor, and developing a plan. Credit/no-credit only.

[View course details in MyPlan: CEP 490](#)

CEP 491 Senior Project Prep Seminar II: Methods and Actualization (1-3)

Focuses on implementing the senior project/capstone, including revisions and updates as seen fit. Credit/no-

credit only.

[View course details in MyPlan: CEP 491](#)

CEP 498 Special Topics (1-9, max. 15) I&S

Systematic study of specialized subject matter.

[View course details in MyPlan: CEP 498](#)

CEP 499 Undergraduate Independent Study or Research (1-5, max. 10)

Individual reading, research, fieldwork, other special project approved and supervised by faculty adviser most appropriate for the project proposed. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: CEP 499](#)

University of Washington Course Descriptions

gencat@u.washington.edu

Architecture

[Display as tabs](#)

Department Overview

208 Gould

Architecture includes the study of building design, representation, computing, structures, construction materials, environmental control systems, history, theory, and professional practice. In its teaching, research, practice, and community engagement, the department addresses the traditions of architecture within the context of social and technological change, a legacy of craft in the making of architecture, an activist and community-based design process, and the principles of ethical action to address human and environmental concerns.

Undergraduate Program

Adviser

208 Gould Hall, Box 355720

(206) 543-3043

bainfo@uw.edu

Advising for the first two years of the program is done through the Undergraduate Gateway Center, 141 Mary Gates Hall.

The Department of Architecture offers the following programs of study:

- Bachelor of Arts degree with a major in architecture
- Bachelor of Arts degree with a major in architectural design
- A dual-degree program leading to the Bachelor of Arts degree with a major in architectural design and the Bachelor of Science degree in construction management
- A minor in architecture

The Bachelor of Arts (with a major in architecture) is a four-year, undergraduate degree program in architecture in which students explore the factors that shape our built environment. The program provides a liberal arts foundation in the discipline of architecture, which covers spatial reasoning, aesthetics, political and economic structures, socio-cultural influences, urbanism, landscape, and ecology, and gives students the opportunity to concentrate their studies through a sequence of courses investigating history and theory, materials and making, or sustainable technologies. Students in the Bachelor of Arts (with a major in architecture) program can prepare for graduate study in architecture

[Course Descriptions](#)

and related fields such as construction management, landscape architecture, real estate, and urban planning, as well as careers in other fields.

The Bachelor of Arts (with a major in architecture) consists of two, two-year sequences. Years one and two include 14 credits of preparatory architectural coursework in addition to at least 76 credits devoted to satisfying the UW's general education requirements. These include coursework in the Visual, Literary, and Performing Arts (VLPA), Individuals and Societies (I&S), mathematics, science, and other areas of knowledge. The intent of these first two years is to help students build their skills in communication and critical thinking; gain broad exposure to other disciplines in order to make more informed academic and career decisions; and provide the broad academic foundation essential to successful study in architecture. All interested UW students are welcome to participate in this first two-year sequence.

The second two-year sequence begins in the junior year. Upper-division admission to the program requires the completion of architecture prerequisites and a minimum of 90 credits, and occurs through a selection process at the beginning of spring quarter of the sophomore year. Years three and four include 29 credits of required courses, including the capstone, 38 credits of discipline-specific selectives and electives, and 23 credits of upper-division electives. Students can focus their studies by choosing a concentration of history and theory, materials and making, or sustainable technologies, or a combination of these.

The Bachelor of Arts (with a major in architectural design) is a pre-professional degree that prepares candidates for admission with advanced standing to professional architectural programs. It is also good preparation for other roles in society that benefit from an understanding of and exposure to architectural design and problem solving such as government, development, management, planning, art, graphic design, and digital arts. Students develop visual literacy and complex problem solving through the design process, including researching historical precedents, analyzing theoretical texts, and on-site understanding of the physical built and natural environment. International study programs (Rome, Scandinavia, India, Mexico, Japan) provide further opportunities for students to engage built environments within global/local and contemporary/historical cultural contexts. A focus on sustainable technologies and the craft and making of architecture play an important role throughout the program.

The Bachelor of Arts (with a major in architectural design) is for students who are interested in the architecture profession and who may continue their studies by earning a graduate professional degree in architecture. The master's degree in architecture is a professional degree and generally takes two or more years to complete if the student enters with the pre-professional Bachelor of Arts (with a major in architectural design).

The college also offers a design and construction concurrent degree (Bachelor of Arts with a major in architectural design, BS in construction management), awarded after completion of 225 credits. Students interested in this double degree must complete the prerequisites for the architectural design major, be admitted to architectural design, and then apply to construction management while completing the architectural design major. This is a five-year program. In addition, the College of Built Environments offers three other bachelor degrees: the BLA in landscape architecture, a five-year professional degree; the BS in construction management, a four-year professional degree; and the BA in community, environment, and planning, a four-year interdisciplinary degree.

Bachelor of Arts (with a major in architecture)

Suggested First- and Second-Year College Courses: See Department Admission Requirements below.

Department Admission Requirements

Applicants are considered for autumn admission only. Admission is competitive. Admission groups are freshmen/sophomore admission (F/S A) and upper-division admission (UA). Consult department website for more information and application form.

Freshman Admission

The department enrolls freshman-year students directly out of high school, prior to their completion of any university-level prerequisites. All freshmen indicating architecture on their UW application are considered for freshman admission to the BA (with a major in architecture) program; no additional application materials are required. Students admitted as freshmen must complete all preparatory and general education requirements listed under upper-division admission as well as all major requirements in order to earn a degree.

Sophomore Admission

Application deadline is the first Monday of spring quarter. Admission decisions are based on an applicant's academic performance and potential, extent and quality of relevant experience, and personal motivation. Completion of prerequisite requirements does not guarantee admission. Students admitted as sophomores must complete all preparatory and general education requirements listed under upper-division admission as well as all major requirements in order to earn a degree.

Transfer Admission

Transfer students may apply for admission at the beginning of the sophomore year or the beginning of the junior year. Application deadlines are the same as for sophomore or upper-division admission. Admission decisions are based on an applicant's academic performance and potential, extent and quality of relevant experience, and personal motivation. Transfer students must also submit a separate application to the UW.

1. Sophomore-year transfer students must complete all preparatory architectural coursework and general education requirements listed under upper-division admission requirements, as well as all major requirements, in order to earn a degree.
2. Junior-year transfer students must complete all general education requirements and are strongly encouraged to complete all preparatory architectural coursework before entry into the program. These courses can be taken through UW Educational Outreach, on a non-matriculated basis, prior to admission to the UW. These, as well as all major requirements, must be completed in order for a student to earn a degree.

Upper-Division Admission Requirements (UA)

1. Junior Standing (90 or more credits completed by the quarter of admission), to include the following:
 - a. Preparatory Architectural Coursework (19 credits): ARCH 200, ARCH 231, ARCH 350, ARCH 351, ARCH 352
 - b. General Education Requirements: minimum of 71 credits selected from Visual, Literary, and Performing Arts (VLPA) (20 credits); Individuals and Societies (I&S) (20 credits); Natural World (NW) (20 credits), including 5 credits of mathematics (MATH 112 or MATH 124); additional Areas of

Knowledge (6 credits); electives (3 credits). Composition/writing (10 credits total) may be met by freshman English composition courses and/or other general education courses designated “W,” with a minimum 2.0 grade for each course; diversity (3 credits) may be satisfied by general education courses designated DIV.

2. Minimum 2.80 college/university GPA
3. Department Application (See department website)
4. Transcripts of all college-level work. Unofficial transcripts are accepted.
5. Application Deadline: First Monday of spring quarter. For enrolled UW students, all prerequisite requirements must be completed or under way by the application deadline, and all prerequisite requirements must be completed by the time the student enters the program in autumn quarter. Admission decisions are based on an applicant’s academic performance and potential, extent and quality of relevant experience, and personal motivation. Completion of prerequisite requirements does not guarantee admission.

Major Requirements

1. Coursework (91 or more credits completed during years three and four): ARCH 331, ARCH 332, ARCH 361, ARCH 362, ARCH 468, ARCH 469. One history and theory selective course (3 credits), one craft and fabrication selective (3 credits), and one sustainable technologies selective (3 credits). Three Department of Architecture areas of concentration courses (at least 9 credits), two approved electives offered with College of Built Environment programs (at least 6 credits), five approved Department of Architecture electives (at least 15 credits), and at least 23 credits of approved upper-division electives. Selective and concentration courses are chosen from approved lists maintained by the department.
2. Capstone (ARCH 469) completed in residence through the UW
3. Minimum 2.00 cumulative GPA for all courses presented for the major

Bachelor of Arts (with a major in architectural design)

Department Admission Requirements

1. 90 credits to include the following:
 - a. *Preparatory Architectural Coursework (19 credits)*: ARCH 350, ARCH 351, ARCH 352 (9 credits); ARCH 200, ARCH 201 (10 credits). *Note*: These courses can be taken through UW Extension on a nonmatriculated basis, prior to admission to the UW, or they can be taken in the sophomore year on campus.
 - b. *General Education Requirements (70 credits)*: English composition (5 credits); Visual, Literary, and Performing Arts (VLPA) (20 credits); Individuals and Societies (I&S) (20 credits); Natural World (NW) (20 credits, including MATH 112, MATH 124, or MATH 145); additional Areas of Knowledge (5 credits).
 - c. *Electives (1 credits)*
2. While the cumulative GPA is an important factor in the admission evaluation, the committee places emphasis on the evaluation of performance in the preparatory architectural coursework the student has completed. It is to the student's advantage to take as many of these courses as possible before applying.

3. *Application deadline:* May 15 for autumn quarter only. Prerequisite courses must be completed by the time the student enters the program in autumn quarter.

Major Requirements

90 credits as follows:

1. *Preprofessional Coursework (69 credits):* ARCH 300, ARCH 301, ARCH 302, ARCH 315, ARCH 320, ARCH 321, ARCH 322, ARCH 362, ARCH 380, ARCH 400, ARCH 401, ARCH 402, ARCH 431, CM 313. One selective course in each of the following areas: (1) graphics/media; (2) history/theory; (3) building science/materials. Selective courses to be chosen from approved lists maintained by the department.
2. 21 credits of approved upper-division electives.
3. The final 45 credits must be completed as a matriculated student in residence through the UW.
4. Minimum 2.50 cumulative GPA for all work done in residence.

Dual-Degree Program

Admission Requirements

Dual-degree majors first apply to the architectural design program and must meet architectural design admission requirements. Admitted architectural design students apply to the construction management program during spring quarter of their junior year (first year in the architecture program). For architectural design students, construction management prerequisites are waived, but such students must take CM 313 and CM 323 prior to the construction management application deadline, April 1.

Dual Degree Program Requirements

142 credits, as follows:

1. *Architecture Foundation Courses (60 credits):* ARCH 300, ARCH 301, ARCH 302, ARCH 315, ARCH 320, ARCH 321, ARCH 322, ARCH 362, ARCH 380, ARCH 400, ARCH 401, ARCH 402, ARCH 431
2. *Architecture Selectives (6 credits):* 3 credits of graphic/media selective chosen from among the following BIM-recommended courses: ARCH 316, ARCH 410, ARCH 412, ARCH 413, ARCH 415, ARCH 418, ARCH 478, ARCH 481, ARCH 482, ARCH 484, ARCH 485, ARCH 486, ARCH 498. 3 credits of history/theory selective from among the following courses: ARCH 441, ARCH 442, ARCH 450, ARCH 452, ARCH 455, ARCH 457
3. *Construction Management Courses (76 credits):* CM 301; CM 310, CM 311, CM 312, CM 313, CM 321, CM 322, CM 323, CM 331, CM 332, CM 333, CM 334, CM 335, CM 410, CM 411, CM 412, CM 414, CM 421, CM 422, CM 423, CM 426, CM 431 (capstone experience), CM 432, and CM 434
4. *Additional Major Requirement:* Minimum 2.50 cumulative GPA in upper-division college courses completed in the College of Built Environments. Minimum 2.0 in CM 431

Note: A minimum of 225 credits is required to complete a dual degree.

Minor

Minor Requirements: 25 credits to include a minimum of 20 credits in ARCH courses (at least 9 credits at the upper-division level) and 5 additional upper-division credits from courses in the College of Built Environments.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:*
 - The architecture program emphasizes a broad liberal arts foundation followed by a focus on architectural history and theory, materials and making, and sustainable technologies. Specific goals for student learning include an understanding of the sequences and history of human building activities; social, political, legal, and economic influences on design and construction; various architectural theories and current thought about the aesthetics of design; construction materials and their properties; relationships of buildings to their sites and ecological contexts; sustainable technologies used in building construction.
 - The architectural design program emphasizes a broad liberal arts foundation followed by a focus on entry-level courses in architectural design, theory, the technology of building, and materials. Specific goals for student learning include an understanding of the organization of three-dimensional space in response to specific human needs; the sequences and history of human building activities; various architectural theories and current thought about the aesthetics of design; construction materials and their properties; building systems and their integration for human comfort; structural principles, relationships of buildings to their sites; social, political, legal, and economic influences of design and construction. Specific goals in the area of personal development include an ability to visualize three dimensions and think spatially; graphic, verbal, and written communication skills for design development and presentation; an ability to think critically and exercise self-criticism.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Research, Internships, and Service Learning:* Internships are available and vary according to individual interests within the program. See adviser for details.
- *Department Scholarships:* A limited number of department scholarships are available to eligible students entering their final year of the major.
- *Student Organizations/Associations:* AIAS (American Institute of Architectural Students)

Of Special Note:

Most states require that an individual intending to become an architect hold an architecture degree accredited by the National Architectural Accrediting Board (NAAB). The NAAB accredits three types of degrees: (1) the Bachelor of Architecture (BArch), which requires a minimum of five years of architectural study (this degree is not offered at the University of Washington), (2) the Master of Architecture (MArch), which requires a minimum of three years of study following an unrelated bachelor's degree or two years following a related pre-professional bachelor's degree, and (3) the Doctor of Architecture (this degree

is not offered at the University of Washington). These professional degrees are structured to educate those who aspire to registration and licensure to practice as architects.

The UW's four-year, Bachelor of Arts degree in architectural design is a pre-professional degree and is not accredited by NAAB. The pre-professional degree is useful to those desiring a foundation in the field of architecture as preparation for either continued education in a professional degree program or for employment options in fields related to architecture.

Architectural education at the University of Washington requires a minimum of six or seven years of higher education to attain the first professional degree, the Master of Architecture. The curriculum is divided into three two-year segments of coursework with a pre-professional Bachelor of Arts degree (with a major in architectural design) awarded at the completion of the second two-year segment. The professional degree, Master of Architecture, is awarded only upon completion of the third segment. (Students with the Bachelor of Arts in Architecture or bachelor's degrees in unrelated fields take an additional year of coursework).

Graduate Program

Graduate Program Coordinator
208 Gould, Box 355720
(206) 543-4180
archinfo@uw.edu

The Department of Architecture offers two graduate level degrees: the Master of Architecture (MArch) and the Master of Science in architecture (MS Arch).

The MArch is a National Architectural Accrediting Board (NAAB)-accredited professional degree program that educates students already grounded in the sciences or liberal arts to become registered, licensed architects. Applicants interested in entering the profession of architecture should apply to the MArch program, which has three tracks:

- 2+year accredited MArch for candidates holding a BA or BS in architectural design
- 3+year accredited MArch for candidates holding a bachelor's degree in a discipline other than architecture
- accredited dual degree, MArch/MLA, for candidates with or without prior architecture or landscape architecture degrees
- MArch in high performance building, a 1-year non-accredited post-professional program for candidates holding an accredited BArch or MArch

The MS Arch is a non-accredited advanced research-oriented degree for candidates who hold a bachelor's degree from a wide range of disciplinary backgrounds. The MS in architecture has two distinct degree streams:

- MS Arch in design computing
- MS Arch in architectural history and theory

Master of Architecture

The MArch degree, accredited by the National Architectural Accrediting Board (NAAB), is the only professional degree offered by the University of Washington. Completion of the department's 2+year or 3+year MArch degree program satisfies the educational requirement for licensing (and registration) as an architect.

Candidates for the 2+year MArch degree usually complete seven full-time quarters of study including the master's thesis. This program requires 95 credits of coursework, including: 30 credits of design studio, 31 credits of core courses, 21 credits of electives, 4 credits of thesis preparation, and 9 credits of thesis. MArch students may choose to pursue one of three transcribed degree options: history, theory, and criticism; materials and fabrication; and sustainable systems and design. These options are integral to the 95 credits required for the MArch degree and involve 6 credits of studio, 6 credits of core courses, 9 credits of dedicated electives, and an option-related focus in the 4-credit thesis preparation course. Students may also choose to pursue certificate programs in the Department of Architecture and the College of Built Environments.

Candidates for the 3+year MArch degree begin the program with three quarters (51 credits) of preparatory coursework and an optional paid summer internship administered by the department. They then join the 2+year MArch group to complete the remaining 95 course credits for the degree, as described above.

Students in 2+ and 3+year MArch degree can also pursue a formal concurrent Master of Landscape Architecture (MLA); and can devise other informal concurrent degrees with departments in the College of Built Environments.

Candidates for the post-professional MArch degree in high-performance building usually complete three full-time quarters of study, including the master's thesis. This program requires 46 credits of coursework including: 6 credits of studio, 15 credits of core courses, 12 credits of electives, 4 credits of thesis preparation, and 9 credits of thesis.

Admission Requirements

1. Completed MArch application form
2. Transcripts from baccalaureate (or higher) degree(s). The admissions committee places primary emphasis on more recent and architecturally related coursework and expects a minimum 3.00 (B) (or higher) GPA in the last 90 graded quarter hours or last 60 semester hours.
3. GRE test scores from within the last five years
4. Portfolio of work in visual arts and/or design. The portfolio is of primary significance for all candidates.
5. Statement of purpose describing the candidate's professional aspirations and the extent to which the program can be expected to prepare him or her for those objectives
6. Written recommendations from three persons who can evaluate the applicant's past record and future promise of success in the program

Degree Requirements

95-146 credits, as follows:

1. *Preparatory-year requirements (for students in the 3+year MArch program only):*
ARCH 303, ARCH 304, ARCH 305, ARCH 310, ARCH 311, ARCH 312, ARCH

323, ARCH 324, ARCH 331, ARCH 332, ARCH 350, ARCH 351, ARCH 352, ARCH 360

2. *First-year requirements* ARCH 500, ARCH 501, ARCH 502, ARCH 521, ARCH 531, ARCH 533, ARCH 570, ARCH 590, ARCH 591, one architectural history and theory selective, elective.
3. *Second-year requirements:* ARCH 503, ARCH 504, ARCH 571, ARCH 595 or ARCH 599, one professional practice selective, electives.
4. *Final year requirement:* ARCH 700, and one elective

1-Year MArch in High Performance Building Degree Requirements

46 credits, as follows:

1. *Core Curriculum:* ARCH 503, ARCH 526, ARCH 530, ARCH 533
2. *Selectives:* 6 credits of building technology courses
3. *Electives:* 12 credits of electives
4. *Thesis:* 4 credits of ARCH 599; 9 credits of ARCH 700

Master of Science

The Master of Science (MS) in architecture program offers advanced, specialized study in two areas of specialization: design computing and architectural history and theory.

Candidates in the design computing stream pursue research in areas that include design methods, augmented and virtual environments, building simulation and analysis, digital fabrication, human computer interfaces for design, collaboration and community in design, and other related topics. Students work in the Design Machine Group (DMG), a collaborative research studio that fosters innovation and actively seeks ideas that shape the future of design and information technology. The 45 credits of coursework includes: 11 core credits, 21 credits of design computing electives, 4 credits of thesis preparation, and 9 credits of thesis.

Candidates in the history and theory stream pursue advanced research on the history and theory of architecture applying a variety of historical and critical lenses. The program is broadly conceived to encompass the architectural, cultural, and political forces that have shaped modernity in architecture, including all of its contemporary manifestations. The 45 credits of coursework include: 11 core credits, 21 credits of history and theory electives, 4 credits of thesis preparation, and 9 credits of thesis.

Admission Requirements

1. Completed MS in Architecture application form
2. Transcripts from baccalaureate (or higher) degree(s) with a minimum 3.00 (B) (or higher) GPA in the last 90 graded quarter hours or last 60 semester hours of coursework
3. GRE test scores taken within the last five years
4. Portfolio of work showing evidence of the applicant's preparation for study in design computing, or a writing sample that shows evidence of applicant's preparation for study in the history and theory of architecture.

5. Statement of purpose that clearly articulates the applicant's goals and the extent to which the program can be expected to prepare him or her for those objectives. The statement should also describe the applicant's background and experience appropriate to the program and must also include a proposed research focus.
6. Written recommendations from three persons who can evaluate the applicant's past record and future promise of success in the MS in Architecture program

Design Computing Stream Degree Requirements

45 credits, as follows:

1. *Core Curriculum*: ARCH 587, ARCH 588, ARCH 597
2. *Electives*: 21 credits to be chosen from design computing courses, or other approved courses.
3. *Thesis*: 4 credits of ARCH 599; 9 credits of ARCH 700

History and Theory Stream Degree Requirements

45 credits, as follows:

1. *Core Curriculum*: ARCH 560, ARCH 597, B E 552
2. *Electives*: 21 credits of architectural history and theory courses, or other approved courses.
3. *Thesis*: 4 credits of ARCH 599; 9 credits of ARCH 700

Certificate Programs

Two interdisciplinary certificate programs offered by the College of Built Environments are available to MArch students in the areas of historic preservation and urban design.

The department also offers certificates in design computing and lighting design.

International Studies

The department offers architecture in Rome, Italy, at the University of Washington Rome Center; architecture in Mexico City, Mexico; and architecture in Chandigarh, India. Other programs include travel to Scandinavia, Germany, Japan, and Australia.

Financial Aid

Each spring quarter the department awards scholarships and assistantships for the following academic year. These are more typically available to students already enrolled in the architecture program at the time of awarding, although some financial aid is offered to newly entering students. Other financial aid and assistantship possibilities may be found through the Graduate School's Fellowships, Assistantships, and Awards and the Office of Student Financial Aid.

COLLEGE OF BUILT ENVIRONMENTS ARCHITECTURE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ARCH 100 Introduction to Architecture Study (8) VLPA

Introduces design studio instruction to students contemplating architecture as a field of study or career. Studio projects, informed by workshops, lectures, readings, field trips, and in-studio critiques introduce the history, theory, and practice of architecture. Includes instruction in basic design drawing and model making. Offered: S.

[View course details in MyPlan: ARCH 100](#)

ARCH 101 Introduction to Architectural Studies (1)

Provides an exposure to topics and methods of architectural education; explores educational and career opportunities; and outlines available student support resources. Credit/no-credit only.

[View course details in MyPlan: ARCH 101](#)

ARCH 150 Appreciation of Architecture I (2/3) VLPA

Historical survey of the architecture of Western civilization. For nonmajors.

[View course details in MyPlan: ARCH 150](#)

ARCH 151 Appreciation of Architecture II (2/3) VLPA

Historical survey of the architecture of Western civilization. For nonmajors.

[View course details in MyPlan: ARCH 151](#)

ARCH 200 Architectural Design and Representation I (5) VLPA

Introduces architectural representation as fundamental medium for investigation, analysis, and documentation of objects, processes, and architectural space. Consists of a series of investigative projects that introduce orthographic projection, axonometric, and perspective drawing, through which students develop comprehensive skills in hand-drawing and digital media. Offered: A.

[View course details in MyPlan: ARCH 200](#)

ARCH 201 Architectural Design and Representation II (5) VLPA

Introduces the fundamentals of architectural design. Consists of a series of investigative projects that introduce principles of architectural design as well as concepts and skills in architectural and digital representation.

Prerequisite: ARCH 200. Offered: W.

[View course details in MyPlan: ARCH 201](#)

ARCH 231 Making and Craft (5) VLPA

Introduces the cultures and practical realities of "making" through study of the nature of tools, techniques, and the development of built culture over time. Examines the relationships of "making" to available materials, sources of energy and the development of infrastructure. Also covers qualities and characteristics of materials.

[View course details in MyPlan: ARCH 231](#)

ARCH 251 World Architecture Non-Western Cultures (5) VLPA/I&S Prakash

Introduction to historical and contemporary built environments of non-Judeo-Christian civilizations, primarily Hindu, Buddhist, Islamic, and Meso-American, as manifestations of cultural history and as responses to environmental determinants.

[View course details in MyPlan: ARCH 251](#)

ARCH 300 Introduction to Architectural Design I (6)

Studio problems to develop awareness, knowledge, and basic skills needed in the synthesis of building form.

Prerequisite: ARCH 201. Offered: A.

[View course details in MyPlan: ARCH 300](#)

ARCH 301 Introduction to Architectural Design II (6)

Studio problems to develop awareness, knowledge, and basic skills needed in the synthesis of building form.

Prerequisite: ARCH 300. Offered: W.

[View course details in MyPlan: ARCH 301](#)

ARCH 302 Introduction to Architectural Design III (6)

Studio problems to develop awareness, knowledge, and basic skills needed in the synthesis of building form.

Prerequisite: ARCH 301. Offered: Sp.

[View course details in MyPlan: ARCH 302](#)

ARCH 303 Introduction to Design Studio I (6)

Studio problems to develop initial awareness, knowledge, and basic skills needed in synthesis of building form and integrative aspects of architectural design with emphasis on the dwelling place. Limited to students entering the graduate program in architecture with baccalaureate degrees in other fields. Offered: A.

[View course details in MyPlan: ARCH 303](#)

ARCH 304 Introduction to Design Studio II (6)

Studio problems to develop initial awareness, knowledge, and basic skills needed in synthesis of building form and integrative aspects of architectural design with emphasis on the dwelling place. Limited to students entering the graduate program in architecture with baccalaureate degrees in other fields. Prerequisite: ARCH 303.

Offered: W.

[View course details in MyPlan: ARCH 304](#)

ARCH 305 Introduction to Design Studio III (6)

Studio problems to develop initial awareness, knowledge, and basic skills needed in synthesis of building form and integrative aspects of architectural design with emphasis on the dwelling place. Limited to students entering the graduate program in architecture with baccalaureate degrees in other fields. Prerequisite: ARCH 304.

Offered: Sp.

[View course details in MyPlan: ARCH 305](#)

ARCH 310 Architectural Design Drawing I (3)

Lectures, demonstrations, and exercises to develop skill in graphic visualization and representation as used in architecture. Concepts, conventions, and techniques of both freehand and technical drawing are used as a vital means to imagine, develop, and represent design ideas. Course material coordinated with ARCH 303 studio to integrate drawing in all phases of the design process. Offered: A.

[View course details in MyPlan: ARCH 310](#)

ARCH 311 Architectural Design Drawing II (3)

Lectures, demonstrations, and exercises to develop skill in graphic visualization and representation as used in architecture. Concepts, conventions, and techniques of both freehand and technical drawing are used as a vital means to imagine, develop, and represent design ideas. Course material coordinated with ARCH 304 studio to integrate drawing in all phases of the design process. Offered: W.

[View course details in MyPlan: ARCH 311](#)

ARCH 312 Architectural Design Drawing III (3)

Lectures, demonstrations, and exercises to develop skill in graphic visualization and representation as used in architecture. Concepts, conventions, and techniques of both freehand and technical drawing are used as a vital means to imagine, develop, and represent design ideas. Course material coordinated with ARCH 305 studio to integrate drawing in all phases of the design process. Offered: Sp.

[View course details in MyPlan: ARCH 312](#)

ARCH 315 Design Drawing (2)

Projects, lectures, demonstrations, and exercises coordinated with studio projects to integrate drawing in all phases of the design process. Lessons in diagramming of design concepts and planning and presenting design solutions. Prerequisite: ARCH 200; corequisite: ARCH 300.

[View course details in MyPlan: ARCH 315](#)

ARCH 320 Introduction to Structures I (3)

Static - Force analysis; the study of external forces and force systems and their analytical solutions as applied to bodies at rest (equilibrium). Topic areas include beams, trusses, determinate frames, and load tracing. Offered: A.

[View course details in MyPlan: ARCH 320](#)

ARCH 321 Introduction to Structures II (3)

Strength of materials; the study of the properties of materials and cross-sectional shapes of structural elements with respect to their effectiveness in resisting stresses. Topic areas include stress and strain, section properties, analysis and design of beams and columns. Prerequisite: ARCH 320. Offered: W.

[View course details in MyPlan: ARCH 321](#)

ARCH 322 Introduction to Structures III (3)

Elementary structural design; synthesis of the previous structures coursework with applications to design of determinate timber and steel structures. Examination of forces on buildings: snow, live loads, wind, and earthquake. An introduction to concept of continuity. Prerequisite: ARCH 321. Offered: Sp.

[View course details in MyPlan: ARCH 322](#)

ARCH 323 Structures I (3) *K. SIMONEN*

Covers the design of building structures utilizing the fundamental principles of statics and mechanics of materials. Includes the behavior of beams, trusses, arches, and frames; the structural performance of wood, steel, and concrete; and designing for gravity and lateral loads. First of a two-course sequence. Offered: W.

[View course details in MyPlan: ARCH 323](#)

ARCH 324 Structures II (3) *K. SIMONEN*

Covers the design of building structures utilizing the fundamental principles of statics and mechanics of materials. Includes the behavior of beams, trusses, arches, and frames; the structural performance of wood, steel, and concrete; and designing for gravity and lateral loads. Second of a two-course sequence. Prerequisite: ARCH 323. Offered: Sp.

[View course details in MyPlan: ARCH 324](#)

ARCH 331 Energy and Building (3-5) NW

Describes principles and applications of climate, energy use, and comfort as determinants of architectural form; architectural methods for climate adaptation using non-mechanical means of ventilating, cooling, heating, and lighting; and design and performance predictions for passive approaches to solar heating, heat transfer

mechanisms, and strategies for climate- responsive design. Offered: Sp.

[View course details in MyPlan: ARCH 331](#)

ARCH 332 Making and Materials (3-5) VLPA

Introduces the cultures and realities of making and materials through the study of how tools, materials, and cultures interact to produce our built environment at all scales. Includes substantial hands-on physical interactions with real tools and materials.

[View course details in MyPlan: ARCH 332](#)

ARCH 350 Architecture of the Ancient World (3/5) VLPA

Architectural history in the Western world from beginnings to AD 550. Offered: A.

[View course details in MyPlan: ARCH 350](#)

ARCH 351 Romanesque, Gothic, and Renaissance Architecture (3/5) VLPA

Architectural history in the Western world from AD 550 to 1750. Offered: W.

[View course details in MyPlan: ARCH 351](#)

ARCH 352 History of Modern Architecture (3/5) VLPA Ochsner

Architectural history in the Western world from 1750 to the present. Offered: Sp.

[View course details in MyPlan: ARCH 352](#)

ARCH 360 Introduction to Architectural Theory (3)

Function of architectural theory in comprehending and ordering various human purposes in architecture, types of architectural purpose, and types of theories. Current concerns. Offered: W.

[View course details in MyPlan: ARCH 360](#)

ARCH 361 Architecture Colloquium (5)

Introduces a wide range of perspectives on architecture, with an emphasis on history and theory, making and materials, and sustainable technologies. Emphasizes the skills of reading, analysis, communication, and writing in the discipline of architecture. Offered: A.

[View course details in MyPlan: ARCH 361](#)

ARCH 362 Architecture and Theory (3-5)

Introduces a wide range of modern and contemporary theoretical movements in architecture. Emphasizes the basic skills of reading, critical inquiry, and communication. Offered: W.

[View course details in MyPlan: ARCH 362](#)

ARCH 380 Computers in Architecture (3)

Laboratories, lecture, and demonstrations to introduce computing in environmental design and planning. Offered: ASp.

[View course details in MyPlan: ARCH 380](#)

ARCH 400 Architectural Design IV (6)

Offers studio problems in non-residential building design to advance the student's understanding of the ideas and technologies of architecture. Prerequisite: ARCH 302. Offered: A.

[View course details in MyPlan: ARCH 400](#)

ARCH 401 Architectural Design V (6)

Offers studio problems in non-residential building design to advance the student's understanding of the ideas and technologies of architecture. Prerequisite: ARCH 400. Offered: W.

[View course details in MyPlan: ARCH 401](#)

ARCH 402 Architectural Design VI (6)

Offers studio problems in non-residential building design to advance the student's understanding of the ideas and

technologies of architecture. Prerequisite: ARCH 401. Offered: Sp.

[View course details in MyPlan: ARCH 402](#)

ARCH 403 Architectural Problems (6)

Offered: S.

[View course details in MyPlan: ARCH 403](#)

ARCH 404 Integrated Design/Build Studio (6) C. DOSSICK

Study of the design/build process with emphasis on the synthesis of design and construction considerations. Focuses on developing design and construction concepts to meet program requirements specified in case studies. Offered: jointly with CM 404; W.

[View course details in MyPlan: ARCH 404](#)

ARCH 410 Introduction to Architectural Photography (3/5) VLPA

Basic elements and processes of architectural photography to include camera controls, exposure technique, photo processing, and fundamental principles of photographing architecture. Student must provide own 35 mm (or larger) camera with manual operating controls.

[View course details in MyPlan: ARCH 410](#)

ARCH 413 Architectural Photography Projects (3)

Students develop in-depth photo essays relating to architecture, the urban movement, or landscape design. Lectures, seminar, and discussion. Prerequisite: ARCH 410.

[View course details in MyPlan: ARCH 413](#)

ARCH 415 Architectural Sketching (3)

Exercises in freehand representational drawing using charcoal, graphite, and conte crayon with emphasis on line, proportion, values, and composition. Studies progress from geometric to nongeometric forms.

[View course details in MyPlan: ARCH 415](#)

ARCH 418 Watercolor Drawing (3)

Introduction to the principles and practice of using transparent watercolor for the naturalistic representation of objects, people, and interior and exterior space.

[View course details in MyPlan: ARCH 418](#)

ARCH 425 Life Cycle Assessment and Architecture (3)

Explores use of life cycle assessment data and methods within design and construction practices to understand and reduce the environmental impact of buildings.

[View course details in MyPlan: ARCH 425](#)

ARCH 426 Structural Unit Masonry (3)

Structural behavior and design of reinforced brick, tile, and unit concrete masonry structures. Prerequisite: CEE 377. Instructors: Tawresey Offered: jointly with CEE 455.

[View course details in MyPlan: ARCH 426](#)

ARCH 430 Materials and Processes (3)

Lectures, field trips, and laboratory sessions directed toward the nature, potentials, and limitations of a variety of materials (wood, metal, plastics, inorganic cementing materials, minerals, rocks, and clay) and the processes involved with their production, fabrication, and system compatibility.

[View course details in MyPlan: ARCH 430](#)

ARCH 431 Environmental Control Principles (3)

Daylighting of buildings, reducing noise and enhancing sound for communication, and regulating heat transfer for occupant thermal comfort; description of passive means for environmental control, including presentation of scientific explanations and design guidelines for utilizing these means; design guidelines are intended for use in

the preliminary schematic design phase. Offered: AW.

[View course details in MyPlan: ARCH 431](#)

ARCH 434 Color and Light (3)

Lectures, demonstrations, exercises, and projects focusing on the use of color applied to the three-dimensional architectural context. Explores color theory with the multiple effects of changing light.

[View course details in MyPlan: ARCH 434](#)

ARCH 435 Principles and Practices of Environmental Lighting (3)

Perception-based approach to principles of natural and artificial lighting. Practical considerations of lighting involving environmental evaluations, calculations, and the use of lamps and fixtures. Sketch and model studies for applications. Impact of lighting design on energy conservation. Relation of lighting design process to architectural design concepts. Prerequisite: either ARCH 331 or ARCH 431.

[View course details in MyPlan: ARCH 435](#)

ARCH 436 Building Acoustics (3) NW

Description of principles and practices for manipulating and enhancing sound in buildings. Information about sound behavior and the organization of architectural elements (deployment of design features, including various geometries and materials) for the control of sound in enclosed spaces and between adjacent spaces.

[View course details in MyPlan: ARCH 436](#)

ARCH 439 Architectural Lighting Design (3)

Concentrates on the use of electric lighting and its effective integration in architecture and the built environment. Includes site visits, demonstrations, lectures, and projects. Prerequisite: ARCH 435.

[View course details in MyPlan: ARCH 439](#)

ARCH 441 Visions of the Japanese House (3) *Oshima*

Explores the origins, derivations, and permutations of the "Japanese house." Outlines underlying principles and paradigms of Japanese domesticity through history and traces its evolution through aspects ranging from the house's expression in media to its constructional materiality. Offered: A.

[View course details in MyPlan: ARCH 441](#)

ARCH 442 Africa and Middle East Seminar (3) VLPA *McLaren*

Advanced introduction to colonial and postcolonial architecture in Africa and the Middle East, beginning with the initial European colonization in the mid-nineteenth century. Provides a historical understanding of the formation of distinctive regional and/or national identities in the architecture of these regions. Offered: Sp.

[View course details in MyPlan: ARCH 442](#)

ARCH 445 South Asian Architecture I (3) VLPA *Prakash*

Advanced introduction to precolonial architecture and urbanism of South Asia. Using methodologies of culture studies, examines select Hindu, Buddhist, and Islamic case studies on a comparative genealogy.

[View course details in MyPlan: ARCH 445](#)

ARCH 446 South Asian Architecture II (3) VLPA *Prakash*

Advanced introduction to colonial and postcolonial architecture and urbanism of South Asia. Using methodologies of culture studies, covers 1800 to present, emphasizing the years since India's independence in 1947.

[View course details in MyPlan: ARCH 446](#)

ARCH 452 History of Architecture in Seattle and Environs (3) I&S *Ochsner*

Historical development of architecture in Seattle and surrounding areas from the nineteenth century to the present, also touching on issues of urban design and historic preservation.

[View course details in MyPlan: ARCH 452](#)

ARCH 453 Japanese Architecture (3) VLPA

Survey of Japanese architecture from its origins to modern times. Although Shinto architecture, tea houses, gardens, and modern developments are discussed, the primary focus is on the development of Japanese Buddhist architecture. Offered: jointly with ART H 419.

[View course details in MyPlan: ARCH 453](#)

ARCH 455 American Architecture (3)

American architecture from indigenous Native American traditions to the present. Offered: jointly with ART H 488.

[View course details in MyPlan: ARCH 455](#)

ARCH 457 Twentieth-Century Architecture (3) VLPA

Architecture in the twentieth century, mainly in Europe and the United States. Traces roots of Modernism in Europe in the 1920s, its demise (largely in the United States) in the 1960s, and recent trends such as Post-Modernism and Deconstructivism. Offered: jointly with ART H 491.

[View course details in MyPlan: ARCH 457](#)

ARCH 458 Paris: Architecture and Urbanism (3/5) VLPA/I&S

Spans the architectural history of Paris, from its Gallic, pre-Roman origins in the second century BCE through the work of twenty-first century architects. Focuses on changing patterns of the physical fabric of the city and its buildings, as seen within the context of the broader political, social, economic, and cultural history. Offered: jointly with ART H 494/JSIS A 433.

[View course details in MyPlan: ARCH 458](#)

ARCH 459 Architecture Since 1945 (3) VLPA

Theories and forms in architecture from the end of World War II to present. Includes new wave Japanese architects, recent Native American developments, and non-Western as well as Western trends. Offered: jointly with ART H 493.

[View course details in MyPlan: ARCH 459](#)

ARCH 460 Design Theory and Analysis (3) VLPA/I&S

Problematic nature of philosophies of architecture; interaction of philosophical concepts and architectural form and expression. Fundamentals of architectural criticism.

[View course details in MyPlan: ARCH 460](#)

ARCH 462 Spatial Composition in Architecture (3)

Advanced introduction to compositional strategies in architecture. Drawing on a historical survey of the development of Western architecture, the seminar investigates different compositional strategies and their relationship to cultural values and systems of meaning. Intended as complement to the design studio.

[View course details in MyPlan: ARCH 462](#)

ARCH 466 Gender and Architecture (3) VLPA/I&S

Examines gender in the experience, practice, and theory of architecture and urban space with a focus on modern typologies: skyscraper, home, convent, bachelor pad, street, and closet. Draws from architectural and art history, social studies, design practice and theory, comparative literature, film studies, and queer theory. Offered: jointly with GWSS 466.

[View course details in MyPlan: ARCH 466](#)

ARCH 468 Architecture Capstone Preparation (3)

Preparation for the Architecture major capstone project. Offered: W.

[View course details in MyPlan: ARCH 468](#)

ARCH 469 Architecture Capstone (6)

Development of the capstone project for the Architecture major. Offered: Sp.

[View course details in MyPlan: ARCH 469](#)

ARCH 475 Residential Architectural Practice (3)

Lectures and exercises focused on the operation of a professional architectural practice specializing in residential and smaller-scale projects. Topics include: clients and program development, design strategies and space planning, site considerations, regulatory constraints, consultants, contractors, specialized construction methodology, and issues, ethics, and liability specific to residential project delivery.

[View course details in MyPlan: ARCH 475](#)

ARCH 478 CAD and Working Drawings (4)

Intensive introduction to computer-aided design systems for developing construction documentation (working drawings). Lectures and exercises focus on learning the methodology for using CAD to efficiently prepare working drawings, as well as discussions regarding industry-recognized standards and current technology used in the preparation of documentation. Prerequisite: ARCH 380; CM 313. Offered: ASpS.

[View course details in MyPlan: ARCH 478](#)

ARCH 481 3D Modeling and Rendering (3)

Lectures and weekly exercises focus on understanding and applying the underlying principles of 3D computer graphics and rendering software. Topics include user-interface, data creation and modeling, lighting models, smoothing, texture mapping, ray tracing, radiosity, animation, and solid modeling. Prerequisite: ARCH 380.

[View course details in MyPlan: ARCH 481](#)

ARCH 482 Web Weaving (3) VLPA B. Johnson

Examines the function, limitations, and uses of primary web technologies and fundamental website design and implementation. Participants develop hands-on design/build expertise for website design, implementation, and maintenance, using readily available tools and techniques. Looks beyond today and explores emerging Internet technologies. Offered: A.

[View course details in MyPlan: ARCH 482](#)

ARCH 483 Design of Virtual Environments (3)

Explores through a blend of technical exercises constructing computational artifacts, readings, and discussions of relevant literature, the possibilities of online virtual environments. Incorporates a term project or paper based on exercises and readings. Offered: W.

[View course details in MyPlan: ARCH 483](#)

ARCH 484 Design Computing Seminar (3)

Weekly colloquium and discussion forum. Discusses design computing research and report on ongoing project progress, with demonstrations and guest speakers. Explores design computing, design thinking and design process, and inventing new computer-aided tools for design. Offered: W.

[View course details in MyPlan: ARCH 484](#)

ARCH 486 Algorithmic Geometry in Architectural Design (3)

Introduction to design and implementation of parametric modeling of algorithmically generated geometries using computational elements and real-time computation. Introduces concepts related to computer programming, computational geometry, and 3D modeling with weekly exercises using 2D and 3D computer modeling frameworks, plus a term project. Requires significant amount of hands-on work.

[View course details in MyPlan: ARCH 486](#)

ARCH 487 Fundamentals of Building Information Modeling (3)

Introduces students to building information modeling and associated software tools. Students learn the fundamentals of working with BIM software by developing a project using both 3D parametric modeling and the 2D documentation skills essential to communicating ideas effectively in professional practice.

[View course details in MyPlan: ARCH 487](#)

ARCH 489 Simulation Based Design (3)

Focuses on computational simulation tools and techniques to evaluate the performance of a design or design alternatives, starting at earliest conceptual design phases to help architects make informed design decisions.

Topics include solar, lighting, thermal, and acoustical analysis techniques and their applications.

[View course details in MyPlan: ARCH 489](#)

ARCH 490 Architectural Studies Abroad - Special Topics (*, max. 24)

Department-approved, systematic study offered as part of architectural study abroad programs.

[View course details in MyPlan: ARCH 490](#)

ARCH 491 Architectural Studies Abroad - Representation (1-6, max. 12) VLPA

Architectural sketching, drawing, modeling, and other presentation techniques in contexts outside the United States.

[View course details in MyPlan: ARCH 491](#)

ARCH 494 Architectural Studies Abroad - Culture (1-6, max. 12) VLPA

Studies of language, art, food, music, and other activities that influence architectural and urban form in contexts outside the United States.

[View course details in MyPlan: ARCH 494](#)

ARCH 495 Architectural Studies Abroad - History and Theory (1-6, max. 12) VLPA/I&S

Examines history and theory of architecture in study abroad programs.

[View course details in MyPlan: ARCH 495](#)

ARCH 496 Architectural Studies Abroad - Urban Fieldwork (1-6, max. 12)

Analysis and interpretation of urban form and architectural contexts through direct observation in locations outside the United States.

[View course details in MyPlan: ARCH 496](#)

ARCH 497 Architectural Studies Abroad - International Practice (1-6, max. 12)

Observation and evaluation of architectural practices in contexts outside the United States through firm visits and guest presentations.

[View course details in MyPlan: ARCH 497](#)

ARCH 498 Special Projects (1-12, max. 12)

Instructor-initiated and department-approved systematic study and offering of specialized subject matter. Topics vary and are announced in preceding quarter.

[View course details in MyPlan: ARCH 498](#)

ARCH 499 Undergraduate Research (1-6, max. 6)

[View course details in MyPlan: ARCH 499](#)

ARCH 500 Architectural Design Studio I (6)

Architectural design, with emphasis on development of professional skills in design synthesis; specifically the design of institutional buildings in response to a context significant for historical and urban characteristics. Analysis includes programming, typology, site and place, and influence of regulatory measures on building form. Concurrent with ARCH 590. Offered: A.

[View course details in MyPlan: ARCH 500](#)

ARCH 501 Architectural Design Studio II (6)

Architectural design, with emphasis on development of professional skills in design synthesis, specifically the unique qualities of materials, construction technology, and assembly details in the expression of architectural ideas. Analysis includes the influence of regulatory measures on building form. Concurrent with ARCH 570. Offered: W.

[View course details in MyPlan: ARCH 501](#)

ARCH 502 Architectural Design Studio III (6)

Architectural design, with emphasis on development of professional skills in design synthesis, specifically the

comprehensive integration of building systems within an ordered design concept. Analysis includes the planning and integration of structural systems, building service systems, and building envelope design as an appropriate architectural expression. Concurrent with ARCH 591. Offered: Sp.

[View course details in MyPlan: ARCH 502](#)

ARCH 503 Architectural Design Studio Options (6)

Advanced architectural studios in general architectural design, in special projects examining particular architectural determinants, and in architectural research. Focus and format vary with instructor. Prerequisite: ARCH 502. Offered: AW.

[View course details in MyPlan: ARCH 503](#)

ARCH 504 Architectural Design Studio Options (6)

Advanced architectural studios in general architectural design, in special projects examining particular architectural determinants, and in architectural research. Focus and format vary with instructor. Prerequisite: ARCH 502. Offered: AWSp.

[View course details in MyPlan: ARCH 504](#)

ARCH 506 Advanced Architectural Studies (6)

Advanced experimental studies dealing with significant architectural relationships that involve scholarly investigation, development, and presentation of results. Offered: S.

[View course details in MyPlan: ARCH 506](#)

ARCH 521 Structural System Design (3) *Simonen*

Studies structural configuration and system selection for building design. Focuses on developing an understanding of structural material, element and system performance, and an ability to integrate structure and architecture to create efficient and elegant design solutions. Offered: A.

[View course details in MyPlan: ARCH 521](#)

ARCH 525 Life Cycle Assessment and Architecture (3)

Explores use of life cycle assessment data and methods within design and construction practices to understand and reduce the environmental impact of buildings.

[View course details in MyPlan: ARCH 525](#)

ARCH 526 Topics in High Performance Buildings (3)

Addresses key dimensions to the design of high performance buildings including: energy efficiency; health and comfort; structures and materials; economic performance; and renewable energy systems. Includes faculty-led discussions and presentations by experts in the field. Students explore and refine research topics in high performance buildings.

[View course details in MyPlan: ARCH 526](#)

ARCH 527 Introduction to Digital Design and Fabrication (3)

Offers an introduction to digital design and manufacturing technologies, with an emphasis on developing appropriate strategies for their use in design and architecture. Students learn to use digital design software and digitally enhanced fabrication tools to support their design strategies. Offered: AW.

[View course details in MyPlan: ARCH 527](#)

ARCH 528 Digital Design for Fabrication and Construction (3)

Explores the rapid integration of fabrication, construction, and performance criteria early in the architectural design process, through the use of powerful digital tools. Students test advanced digital tools in architectural production and develop awareness and skills in integrated digital design, analysis, and prototyping. Offered: W.

[View course details in MyPlan: ARCH 528](#)

ARCH 529 Advanced Digital Projects (3)

Advanced topics for students who have completed one or more design computing courses and wish to develop a

project further. Prerequisite: either ARCH 527 or ARCH 528.

[View course details in MyPlan: ARCH 529](#)

ARCH 530 Integrated Building Systems (3) *Miller*

Discusses strategies for ordering separate and discreet building systems into integrated architectural schemes. Focuses on systems that affect architectural expression and resolution in buildings including: structural, environmental control, materials, and assembly with an emphasis on sustainable building design. Concurrent with ARCH 502. Offered: Sp.

[View course details in MyPlan: ARCH 530](#)

ARCH 531 Active Control Systems for Building Operation (3) *NW*

Electrical, mechanical (HVAC), plumbing, and fire safety systems for buildings. Descriptions of what these systems do, where they are used, how they are integrated into the overall building design; rules of thumb, design strategies, and short cuts for anticipating system design and use. Prerequisite: either ARCH 331 or ARCH 431.

Instructors: Heerwagen Offered: WSp.

[View course details in MyPlan: ARCH 531](#)

ARCH 532 Construction Materials and Assemblies II (3)

Lectures and readings pertaining to a survey of materials, assemblies, and techniques of assembly of concrete and steel frame, commercial exterior envelope, and interior partitioning building construction systems.

Prerequisite: either ARCH 332 or CM 313. Offered: A.

[View course details in MyPlan: ARCH 532](#)

ARCH 533 Advanced Environmental Systems (3)

Focuses on computational simulation tools and techniques to evaluate the performance of a design or design alternatives, starting at earliest conceptual design phases to help architects make informed design decisions.

Topics include solar, lighting, thermal, and acoustical analysis techniques and their applications. Offered: WSp.

[View course details in MyPlan: ARCH 533](#)

ARCH 534 Green Technology (3) *Heerwagen*

Examination and application of various resource-conserving building technologies, particularly within the context of the LEED Rating System. Principles and practices associated with the inclusion of these technologies in buildings.

[View course details in MyPlan: ARCH 534](#)

ARCH 535 Daylighting Design Seminar (3)

Focuses on theoretical and applied daylighting principles in conjunction with physical and digital analytical tools. Includes field assessment of constructed buildings and individual projects involving research and design for lighting and daylighting.

[View course details in MyPlan: ARCH 535](#)

ARCH 536 Designing with Living Systems (3)

Investigates an integrated approach to urban agriculture and building systems; looks at cyclical ecosystems intrinsically interconnected with buildings, urban infrastructure, and the constructed environment; establishes a thorough understanding of these productive, living systems, which are indispensable for architects and landscape architects in their pursuit of more sustainable design practices.

[View course details in MyPlan: ARCH 536](#)

ARCH 537 Traditional Building Methods: New Adaptations (3)

Explores recent developments in traditional building techniques, a resurgence of interest in handmade buildings, and the use of local materials in building construction. Also examines why these materials and methods are becoming critical to communities around the world, and how they can be optimized to meet twenty-first century requirements.

[View course details in MyPlan: ARCH 537](#)

ARCH 538 Building Reuse Seminar: Investigating the Value of Existing Buildings (3)

Investigates the repurposing of buildings as a resource and energy conservation strategy and as an alternative to demolition of existing buildings; discusses case study strategies for sustainable retrofits. Students critically observe, record, and analyze structures and discuss building reuse design in the context of sustainable environments.

[View course details in MyPlan: ARCH 538](#)

ARCH 541 Visions of the Japanese House (3)

Explores the origins, derivations, and permutations of the "Japanese House." Outlines underlying principles and paradigms of Japanese domesticity through history and traces its evolution through aspects ranging from the house's expression in media to its constructional materiality.

[View course details in MyPlan: ARCH 541](#)

ARCH 556 The Arts and Crafts Movement and Its Legacies (3) *Ochsner*

Historical development of the arts and crafts movement focusing primarily on its influence on American architecture from 1870 to the present.

[View course details in MyPlan: ARCH 556](#)

ARCH 558 Seminar in Twentieth-Century Architecture (3/5)

Specific focus changes from quarter to quarter. Prerequisite: graduate standing with background in art history, architecture, architectural history, or permission of instructor. Offered: jointly with ART H 591.

[View course details in MyPlan: ARCH 558](#)

ARCH 559 American Utilitarian Architecture (3)

Significant American environmental design efforts arising from utilitarian needs, e.g., factories, bridges, skyscrapers, and associated technical building innovations.

[View course details in MyPlan: ARCH 559](#)

ARCH 560 Seminar on Architectural Theories (3)

Recent developments in architectural theory, urban design theory, criticism, and the methodology of criticism.

[View course details in MyPlan: ARCH 560](#)

ARCH 561 Urban Design Theory (3)

Study of development of nineteenth- and twentieth-century urban design theories and parallel developments in architecture and urban planning. Theoretical premises are related to current practices of urban design in various sociopolitical contexts, European as well as American. Evolutionary nature of theory emphasized. Prerequisite: URBDP 479 or permission of instructor.

[View course details in MyPlan: ARCH 561](#)

ARCH 563 Seminar in Architecture and Cultural Theory (3)

Study of contemporary cultural studies and postcolonial writings in terms of their impact on architectural theory and practice. Topical seminar based on reading and individual research.

[View course details in MyPlan: ARCH 563](#)

ARCH 564 Environmental Design and Well-Being (3)

Analyzes how environmental design can promote well-being in natural systems and human life worlds. Explores current knowledge about climate change and organism-environment dynamics, theories of health and complexity, ideological barriers and the power of images, new materials, and "high-tech"/"low-tech" alternatives for ecological design and planning.

[View course details in MyPlan: ARCH 564](#)

ARCH 567 Qualitative Research Methods (3)

Qualitative research methods covering both the theoretical foundations and practical methodologies of traditional and innovative approaches, including cognitive mapping, open-ended interviews, ethnographic observation, hermeneutics, phenomenology, critical theory, communicative action, grass-roots empowerment,

post-structuralism, and self organization. Offered: jointly with URBDP 519.

[View course details in MyPlan: ARCH 567](#)

ARCH 570 Design Development (3) *Miller*

Lectures and case studies emphasizing the design development phase of architectural practice. Concurrent with ARCH 501.

[View course details in MyPlan: ARCH 570](#)

ARCH 571 Professional Practice (3-4)

Introduces the business and ethics of architectural design and building construction, while helping students explore their professional identities and make intentional choices about their career paths. Compares fundamentals of architectural practice against historical evolution of the field and speculation about its future.

[View course details in MyPlan: ARCH 571](#)

ARCH 574 Design and Construction Law (3)

Legal issues arising from design and construction services, focusing on risk management and liability awareness. Topical areas include basic legal doctrines, the design professional/client relationship, contractor selection, the construction process, and professional practice problems. Emphasis on Washington State law. Offered: jointly with CM 500; A.

[View course details in MyPlan: ARCH 574](#)

ARCH 578 Case Studies in Contemporary Architectural Practice (3)

Presentations and discussions by local architectural firms examining the issues that influence building design and project delivery in contemporary architectural practice. Focuses on understanding the issues as opportunities rather than impediments to good design. Class visits a different architectural firm each week for an in-depth review of current projects.

[View course details in MyPlan: ARCH 578](#)

ARCH 579 Technical Issues in Preservation Design (3)

Issues, practices, and procedures involved in preservation and reuse of old and historic buildings. Technical and esthetic means by which practicing professionals approach the analysis, interpretation, and resolution of problems such work raises. Emphasis on recent and local projects and related experiences.

[View course details in MyPlan: ARCH 579](#)

ARCH 581 Advanced Rendering (3)

Provides an in-depth discussion and hands-on experience with technical and qualitative features of computer rendering. Students learn to generate digital images that can mimic the physical world and predict the final appearance of a design.

[View course details in MyPlan: ARCH 581](#)

ARCH 582 Computational Lighting Design (3)

Addresses the recent developments in lighting simulation, visualization, and per-pixel measurement techniques. Provides an understanding of the theoretical aspects of computer applications in lighting design; and the practical knowledge of tools that enhance the integration of the lighting analysis into architectural design processes.

[View course details in MyPlan: ARCH 582](#)

ARCH 587 Theory of Design Computing (3)

Examines the relationship between theory of design and computational tools for practice. Explores how the emergence of computers as a mainstream tool in design has already changed architectural practice. Discusses how, as with other technologies that revolutionized the practice of architecture, information technologies carry hidden implications about design process and products. Offered: A.

[View course details in MyPlan: ARCH 587](#)

ARCH 588 Research Practice (3)

Provides the opportunity for a guided preliminary exploration and refinement of a research topic, prior to thesis proposal. Weekly seminar meetings focus on student work with regular presentations and discussions. Offered: W.

[View course details in MyPlan: ARCH 588](#)

ARCH 590 Urban and Preservation Issues in Design (3)

Introduction to recent theory and practice in the fields of urban design and historic preservation primarily in North American urban contexts, including examples of recent projects presented by practicing professionals. Concurrent with ARCH 500.

[View course details in MyPlan: ARCH 590](#)

ARCH 591 Architecture and Landscape (3)

Advanced introduction to the relationships between buildings and places in the landscape with an emphasis on Western concepts of nature. A taxonomy of place as nature is developed. Explores ways in which the architect can design places that landscape taxonomy. Concurrent with ARCH 502.

[View course details in MyPlan: ARCH 591](#)

ARCH 595 Thesis Research and Preparation (4)

Develops skills for conducting master's thesis research, including writing a major portion of the thesis document. Engages students as a community of peers sharing ideas and resources for completing thesis work. Required for admission to the master's thesis design studio. Credit/no-credit only. Offered: Sp.

[View course details in MyPlan: ARCH 595](#)

ARCH 596 Fieldwork in Professional Practice (*, max. 9)

On-location study under the supervision of a practicing professional involved in an aspect of environmental design.

[View course details in MyPlan: ARCH 596](#)

ARCH 597 Research Practicum (5) *Johnson, McLaren*

Provides a mentored research opportunity where students apply their research and writing skills and knowledge of methods and theory to an advanced research topic. Offered: Sp.

[View course details in MyPlan: ARCH 597](#)

ARCH 598 Special Topics for Graduate Students (1-6, max. 6)

Systematic study and offering of specialized subject matter. Topics vary and are announced in the preceding quarter.

[View course details in MyPlan: ARCH 598](#)

ARCH 599 Independent Thesis Research and Preparation (4)

Participants identify a master's thesis research area, articulate a specific question within the research area, find relevant literature and prepare an annotated bibliography, establish a research method and timetable, pursue preparatory research and analysis for the thesis project, and write, present, and defend a thesis proposal. Credit/no-credit only.

Built Environment

[Display as tabs](#)

Program Overview

410 Gould Hall

The PhD in Built Environment is a College-wide, interdisciplinary degree program housed within the College of Built Environments. The PhD program provides students a common core of substantial, integrated knowledge concerning the multi-faceted built environment and then offers areas of specialization in three discrete fields of knowledge and practice:

- Sustainable Systems and Prototypes (across a range of scales, from building elements and assemblages, to buildings, site, and neighborhood context, city, and region)
- Computational Design and Research (covering the spectrum of design, planning, and construction processes, practices, and pedagogy)
- History, Theory, and Representation studies (focusing on issues of regional-global modernity)

Doctor of Philosophy

Admission Requirements

- Three letters of recommendation (Use the [downloadable form](#).)
- Curriculum vitae
- An exhibit of work which best illustrates the applicant's interests and abilities in areas related to the built environment. This may be an essay, a paper, a publication, a report, or a project for which the applicant has had major responsibility. The exhibit is not returned and should fit in letter-size files.
- Statement of purpose
- Graduate Record Exam (GRE) scores
- Prospective international, immigrant, and permanent resident students whose native language is other than English and who have not received a bachelor's or master's

degree from an accredited institution where the native language is English must submit a satisfactory TOEFL (Test of English as a Foreign Language) score. The minimum allowable TOEFL score is 500. Students admitted with scores below 580 are tested for English proficiency upon arrival and are required to complete any assigned ESL courses along with their regular academic program.

Program Requirements

90 credits minimum, to include:

1. *Core courses (21 credits):*
 - a. B E 551, B E 552, B E 553
 - b. B E 550 (6 quarters at 1 credit each)
 - c. Research methods and design: choice of 6 credits from list, including both qualitative and quantitative coursework
2. *Specialization (minimum 30 credits):* One of three fundamental areas (sustainable systems and prototypes; computational design and research; history, theory, and representation). Each student selects one of these areas, within which she or he takes advanced and specialized coursework and, eventually, conducts the dissertation research project. Each student must take 30 credits in the chosen area of specialization during the first several years in the program, before undertaking qualifying examinations. A broad selection of courses, both within the College of Architecture and Urban Planning and in other UW units, is available.
3. *Examinations:* The qualifying examination consists of written responses to three questions, followed by an oral examination on the material. The written and oral examinations are composed, conducted, and evaluated by the student's formally appointed dissertation committee.
4. *Dissertation (30 credits):* Involves 30 credits and concludes with a final oral defense.

COLLEGE OF BUILT ENVIRONMENTS

BUILT ENVIRONMENTS

BUILT ENVIRONMENT

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

B E 200 Introduction to Built Environments (3) VLPA/I&S

Introduction to critical issues related to the planning, design, construction, and use of our built environments and the roles of the various disciplines contained within the College of Built Environments. Offered: A.

[View course details in MyPlan: B E 200](#)

B E 220 Cities, Health, and Well-being (3) I&S

This course analyzes the ways urban built environments bear on physical and mental health and well-being (material-economic resources, security, social relations, open choices). It focuses on how the practices and knowledge of built environment professions and disciplines interact with public health, engineering, and the sciences to understand and change cities. Offered: W.

[View course details in MyPlan: B E 220](#)

B E 405 Built Environments Studio (6)

An intense learning experience in which students are assigned to interdisciplinary, collaborative teams to develop specific approaches to addressing complex issues related to built environments. Focus and format vary with the interdisciplinary team of instructors.

[View course details in MyPlan: B E 405](#)

B E 498 Special Projects (1-12, max. 12)

[View course details in MyPlan: B E 498](#)

B E 505 Built Environments Studio (6)

Provides an intense learning experience in which students are assigned to interdisciplinary, collaborative teams to develop specific approaches to addressing complex issues related to built environments. Focus and format vary with the interdisciplinary team of instructors.

[View course details in MyPlan: B E 505](#)

B E 550 Colloquium-Practicum on Research-Practice and Teaching-Learning (1, max. 6)

A synthetic and interdisciplinary forum for the presentation and peer critique of faculty and student research and

practice projects, and a venue for pedagogical issues and skills for effective teaching and learning.

[View course details in MyPlan: B E 550](#)

B E 551 The Contemporary Built Environment (3)

Covers major or landmark cases of complex built environment projects, emphasizing the multiple dimensions involved and their interconnections.

[View course details in MyPlan: B E 551](#)

B E 552 Theories of Knowledge and the Built Environment (3)

Systematic examination of alternative epistemological frameworks applicable to studying the built environment; examinations of their differences and similarities and of the possibility of a comprehensive, pluralistic approach.

[View course details in MyPlan: B E 552](#)

B E 553 Ethics in Practice, Research, and Teaching (3)

Preparation for ethical challenges facing professional practice, research, and teaching in the built environment. Coverage of general and professional ethics, and examination of principles and rules and application through case studies.

[View course details in MyPlan: B E 553](#)

B E 597 Directed Readings (*, max. 30)

Intensive reading in the literature of the built environment, directed by members of doctoral Supervisory Committee. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: B E 597](#)

B E 598 Special Topics (1-6, max. 15)

Systematic study of specialized subject matter. Topics vary depending on current interest and needs, and are announced in the preceding quarter.

Construction Management

[Display as tabs](#)

Department Overview

120 Architecture

Construction management is a diverse discipline focused on the delivery of projects that compose the world's built environment. Included are the determination of project requirements, management of design, procurement of materials, and management of the construction of the project within cost, time, and design parameters. In terms of dollar value output, the construction industry is the largest single production activity in the U. S. economy - accounting for almost 10 percent of the gross national product. The construction industry is heterogeneous and enormously complex. The major classifications of construction differ markedly from one another: residential, commercial, industrial, and infrastructure, as well as specialties such as electrical, mechanical, framing, excavation, and roofing. Construction management is the study of how projects are conceived, designed, and built; the types of materials and methods used; techniques for estimating the cost of construction; design and contract law; construction accounting; oral and written communications; safety requirements; project planning and project management.

Undergraduate Program

Adviser

120 Architecture, Box 351610

(206) 543-6377

uwcm@uw.edu

The Department of Construction Management offers the following program of study:

- The Bachelor of Science in Construction Management degree

Students take the first two years of study as an undeclared major in the College of Arts and Sciences or a community college, completing program prerequisite requirements. Upon admission to the major, students take the prescribed curriculum shown below.

Bachelor of Science

Suggested First- and Second-Year Courses: M E 123; PHYS 114, PHYS 115, PHYS 117, and PHYS 118; 5 credits of economics; ENGL 131, ENGL 281; ESS 101; MATH 112 or MATH 124; ACCTG 215 and ACCTG 225, CM 250, COM 220, MGMT 200, QMETH 201; chemistry or environmental-science courses.

Department Admission Requirements

Applicants are considered for autumn admission only. Admission is competitive. There are three admission groups: Freshmen Direct (FA), Early Admission (EA), and Upper-Division Admission (UA). Consult department website for more information.

- *Freshman Direct Admission (FA)*

The department enrolls a small number of students each year directly out of high school, prior to their completion of any university-level prerequisites. Freshman applicants to the University listing construction management as their intended major are automatically considered. Admission is offered to students with exceptionally competitive academic records, including but not limited to high school GPA and SAT or ACT scores. Freshman Direct students work with the construction management adviser to plan their first two years of coursework before beginning the standard curriculum. Such students are eligible to join the construction management student organizations, apply for scholarships, and participate in student competitions.

Students admitted under the Freshman Direct Admission program must complete all prerequisite course requirements listed under Upper-Division Admission as well as all major requirements to earn their degrees.

- *Early Admission (EA)*

Students may also apply to the department in spring of their freshman year to enter as part of the Early Admission (EA) group in their sophomore year. This admission path is open to students who began their studies through UW as freshmen, have been enrolled no more than three quarters, and have completed at least 27 credits through UW (25 of the 27 UW credits must be numerically graded). Courses completed prior to applying must include: MATH 112 (or MATH 124 or Q SCI 291), PHYS 114 and PHYS 117 (or PHYS 121), and ECON 200. Other courses from the list of upper-division prerequisites may be taken to complete the minimum 27 credits.

Application deadline for Early Admission is April 1. Admission decisions are based on an applicant's academic performance and potential, extent and quality of relevant experience, apparent attitude, and personal motivation. Completion of prerequisite requirements does not guarantee admission and all prerequisite requirements must be completed by the April 1 deadline.

Students admitted under the Early Admission program must complete all prerequisite course requirements listed under Upper-Division Admission as well as all major requirements in order to earn their degrees.

- *Upper-Division Admission (UA)*

1. *Prerequisite Courses:* Minimum 88 credits in the following categories (courses must be completed by the beginning of autumn quarter for admission that quarter):

- a. *Construction:* M E 123 or CEE 291

- b. *Business and Management:* ACCTG 215 and ACCTG 225; MGMT 200

- c. *Individuals & Societies (I & S):* 5 credits of economics; 7 additional I & S credits from UW Areas of Knowledge list if M E 123 is taken, 9 additional I&S credits if CEE 291 is taken (CM 250 recommended)

- d. *Natural World (NW)*: PHYS 114 and PHYS 117 (or PHYS 121), and PHYS 115 and PHYS 118 (or PHYS 122); MATH 112 (or MATH 124 or Q SCI 291); ESS 101; QMETH 201 (or STAT 220 or STAT 311); 10 additional NW credits from UW Areas of Knowledge list (chemistry or environmental studies recommended)
 - e. *Language Skills*: 5 credits from English composition list; 5 credits from "W" courses or English composition list (ENGL 131 and ENGL 281 recommended)
 - f. *Visual, Literary & Performing Arts (VLPA)*: COM 220; 5 additional VLPA credits (from UW Areas of Knowledge list)
 - g. *Diversity (DIV)*: 3 credits that meet the UW's diversity requirement.
2. Admission to the major is competitive. Admission decisions are based on an applicant's academic performance and potential, extent and quality of relevant experience, apparent attitude, and personal motivation. Completion of prerequisite requirements does not guarantee admission. Completion of prerequisite requirements is not required in order to apply, but is required prior to being admitted in autumn quarter.
 3. Departmental application deadline: April 1, for the following autumn quarter. Selection for acceptance into the program is made by early May, and all applicants are notified shortly thereafter. Because each application is valid only once, a student whose application for admission is denied must reapply if consideration is desired in any subsequent year.

Major Requirements

92 credits as follows:

1. *Foundation Courses (78 credits)*: ARCH 320, ARCH 321; MGMT 300; CM 310, CM 311, CM 312, CM 313, CM 321, CM 322, CM 323, CM 331, CM 332, CM 333, CM 334, CM 335, CM 410, CM 411, CM 412, CM 414, CM 420, CM 421, CM 422, CM 423, CM 432, and CM 434
2. *Construction Electives (minimum 6 credits)*: Two of the following: CM 415, CM 416, CM 425, CM 428, CM 430 or CM 433
3. *Capstone Experience (5 credits)*: Minimum 2.0 in CM 431
4. *Additional Writing Requirement (3 credits)*: CM 301
5. *Additional Major Requirement*: Minimum 2.50 cumulative GPA in upper-division college courses completed in the College of Built Environments

Dual-Degree Program

For requirements of the dual-degree program in architectural design and construction management, see the Architecture section.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The study of construction management involves an interdisciplinary curriculum that contains a mix of technical, managerial, and business courses to provide graduates the essential skills needed to be successful in the construction industry. Oral and written communication skills are strengthened through written requirements and oral presentations. Construction management skill sets include the ability to read and interpret construction contract documents; the ability to determine appropriate methods for project construction and the proper sequence for each associated construction task; the ability to estimate project costs and time requirements; the ability to evaluate project site safety hazards and take action to minimize the potential for accidents occurring; an understanding of the legal framework associated with contract construction; and the ability to manage the myriad activities associated with constructing a project. Graduates pursue careers with construction companies, design firms, public agencies, homebuilders, consulting firms, real estate developers, and construction material suppliers.
- *Instructional and Research Facilities:* The Built Environments Library (located on the third floor of Gould Hall) houses construction management books and periodicals. Additional materials are located in the Engineering Library and the Foster Library (Business School). College resources include a 30-work-station computer laboratory in the basement of Gould Hall.
- *Honors Options Available:* None
- *Research, Internships, and Service Learning:* An internship is required for completion of the degree program. Every student is encouraged to seek summer employment in the construction industry, to provide a taste of real-world experience and an opportunity to work for a construction firm. While the department seeks to identify opportunities for internship positions, the responsibility for securing a position rests with each student.
- *Department Scholarships:* A limited number of scholarships are available to eligible students.
- *Student Organizations/Associations:*
 - *Sigma Lambda Chi* is a national student honor society for recognition of outstanding students majoring in construction management. Membership is offered only to those students in the top twentieth percentile of their class. Each year the student chapter conducts community service activities.
 - *Associated Students in Construction (ASIC)* is an umbrella organization for several student chapters of national organizations: Associated General Contractors of America, National Association of Home Builders, Mechanical Contractors Association of America, and the National Electrical Contractors Association. Activities include professional guest lectures, field trips, attendance at professional meetings and seminars, and community service.

Graduate Program

Graduate Program Coordinator
120 Architecture Hall, Box 351610
(206) 616-1917

Master of Science in Construction Management

Admission Requirements

1. Baccalaureate degree (BS or BA) in civil engineering, construction management, building technology, architecture, or similar field from an accredited college or university in the United States, or its equivalent from a foreign institution. Students with undergraduate degrees in an area other than construction management or building technology must demonstrate an understanding of estimating, project planning and control, and project management either by transcript, validation examination, or successful completion of the following courses: CM 410; CM 411; CM 421.
2. Minimum 3.00 GPA, based on last 60 graded semester hours or last 90 graded quarter hours of undergraduate and graduate study
3. Graduate Record Examination (GRE) scores
4. Statement of goals and objectives
5. Letters of recommendation
6. International applicants whose first language is not English must submit a valid Test of English as a Foreign Language (TOEFL) or Michigan Language Test (MLT) score. A minimum score of 580 (TOEFL) or 237 (TOEFLC) or 90 (MLT) is required for admission.

Degree Requirements

45 credits, as follows:

1. *Core Courses (9 credits):* CM 500, CM 535, CM 575
2. *Construction Management Elective Courses (15-21 credits):* 15 to 21 credits of the following: CM 505, CM 510, CM 515, CM 520, CM 525, CM 530, CM 540, CM 545, CM 550, CM 555, CM 565, CM 570, CM 580, CM 582, CM 584, CM 586, CM 588, CM 590, CM 598, B E 551, B E 552, B E 553. Students choosing the thesis option complete 15 credits of CM electives; students choosing the non-thesis option complete 21 credits of CM electives.
3. *General Elective Courses (12 credits):* Other graduate-level courses approved by adviser.
4. *Thesis or Research Paper (3 or 9 credits):* Research paper - CM 600 (3); thesis - CM 700 (9)

Graduate Program in Construction Engineering

Students who complete this program earn a Master of Science in Construction Management.

Admission Requirements

1. Baccalaureate degree (BS or BA) in civil engineering, construction management, building technology, architecture, or similar field from an accredited college or university in the United States, or its equivalent from a foreign institution. Students with undergraduate degrees in an area other than construction management or building technology must demonstrate an understanding of estimating, project planning and control, and project management either by transcript, validation

examination, or successful completion of the following courses: CM 410; CM 411; CM 421.

2. 3.00 GPA, based on last 60 graded semester or 90 graded quarter credits of undergraduate and graduate study
3. GRE scores
4. Statement of goals and objectives
5. Letters of recommendation
6. International applicants must demonstrate English language proficiency

Degree Requirements

45 credits, as follows:

1. *Heavy Construction Project Management (12 credits)*: CM 520, CM 580, CM 582, CM 588
2. *Infrastructure Construction (12 credits)*: CM 584, CM 586, CEE 595, CM 596
3. *Other Required Courses (17 credits)*: CM 500, CM 525, CM 590, CEE 552, CEE 592, CEE 594
4. *Graduate Research Report (4 credits)*

COLLEGE OF BUILT ENVIRONMENTS CONSTRUCTION MANAGEMENT

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

CM 250 Construction and Culture (5) I&S A. HOLM

Evolution of modern building construction with emphasis on the relationship between the projects built over time and the people who built them. Focuses on the development of building technology, equipment, and materials used by Western civilizations. Offered: W.

[View course details in MyPlan: CM 250](#)

CM 301 Construction Communications (3)

Applies business writing to the construction industry. Focuses on planning, writing, and editing documents most critical to a construction manager's professional success. Offered: AW.

[View course details in MyPlan: CM 301](#)

CM 310 Introduction to the Construction Industry (3) G. MIGLIACCIO

Introduction to the construction process, including general overview of organization, relationships, practices, terminology, project types, procurement methods, industry standards, contract documents, and career opportunities. Offered: A.

[View course details in MyPlan: CM 310](#)

CM 311 Construction Documents (2)

Introduction to construction plans and specifications with emphasis on reading and interpreting them. Focuses on architectural/engineering drawings and associated specifications used in building construction. Offered: A.

[View course details in MyPlan: CM 311](#)

CM 312 Construction Accounting (3)

Introduction to accounting for the contractor, placing emphasis on the analysis and use of financial statements and a job cost accounting system. Offered: A.

[View course details in MyPlan: CM 312](#)

CM 313 Construction Methods and Materials I (4)

Introduction to basic building materials, with emphasis on techniques for assembly and utilization in residential and light construction, including materials such as concrete, brick, and wood. Offered: AS.

[View course details in MyPlan: CM 313](#)

CM 320 Construction Contract Documents (3)

Introduction to working drawings, specifications, and other documents designed to enable the student to read and interpret complete set of contract documents for residential and light commercial projects. Emphasis on the organization and uses of architectural/engineering drawings and specifications in the construction process.

Offered: S.

[View course details in MyPlan: CM 320](#)

CM 321 Mechanical Systems in Buildings (3)

Introduction to building heating, cooling, plumbing, and fire protection systems including aspects of design, construction, estimating, and problem solving. Offered: W.

[View course details in MyPlan: CM 321](#)

CM 322 Electrical Systems in Buildings (3)

Introduction to electrical construction including electrical distribution from generation to consumption, terminology, equipment and applications, electrical contract documents and estimating, and electrical project management theory and practice. Offered: W.

[View course details in MyPlan: CM 322](#)

CM 323 Construction Methods and Materials II (5)

Analysis of building methods for structural, non-structural, and design and use of temporary structures including method selection, sequencing, and coordination of specialty trades in commercial and industrial construction.

Offered: W.

[View course details in MyPlan: CM 323](#)

CM 331 Construction Estimating I (4)

Introduction to the principles and techniques of estimating construction costs, with emphasis on quantity take-off and pricing elements of work. Prerequisite: CM 323. Offered: Sp.

[View course details in MyPlan: CM 331](#)

CM 332 Construction Equipment Management (3) *G. MIGLIACCIO*

Study of the basic principles, practices, and techniques used in the construction industry for selecting and managing construction equipment. Focuses on understanding the time value of money, estimating equipment ownership and operating costs, selecting the proper equipment for specific construction tasks, and estimating equipment production. Offered: Sp.

[View course details in MyPlan: CM 332](#)

CM 333 Construction Safety (3) *K. LIN*

Explanation of requirements of the Occupational Safety and Health Act and other related federal and state legislation as applied to the building construction industry. Standards for accident prevention, hazard identification, and responsibility for compliance emphasized. Offered: A.

[View course details in MyPlan: CM 333](#)

CM 334 Construction Surveying (2) *D. JACOBSON*

Introduction to construction surveying including layout of construction features, distance and elevation measurement, and use and care of surveying equipment. Offered: Sp.

[View course details in MyPlan: CM 334](#)

CM 335 Sustainable Construction (3) *K. NEMATI*

Studies issues associated with planning and constructing sustainable projects including development of LEED documentation and evaluation of financial, social, and environmental impacts of construction operations.

Offered: Sp.

[View course details in MyPlan: CM 335](#)

CM 340 Sustainable Building Design and Construction Practices (3)

Examines sustainable standards for design and construction of commercial and institutional buildings focusing

on environmental, economic, and social benefits of sustainable buildings. Offered: W.

[View course details in MyPlan: CM 340](#)

CM 404 Integrated Design/Build Studio (6) *C. DOSSICK*

Study of the design/build process with emphasis on the synthesis of design and construction considerations. Focuses on developing design and construction concepts to meet program requirements specified in case studies. Offered: jointly with ARCH 404; W.

[View course details in MyPlan: CM 404](#)

CM 410 Construction Estimating II (5)

Principles and techniques for estimating commercial construction projects including a mock bid day exercise on a commercial construction project. Prerequisite: CM 331; CM 332. Offered: A.

[View course details in MyPlan: CM 410](#)

CM 411 Project Planning and Control (3) *A. ABDEL AZIZ*

Introduction to the basic principles, techniques, and practices used as tools by contractors to plan, schedule, and control costs on building construction projects. Prerequisite: CM 331. Offered: A.

[View course details in MyPlan: CM 411](#)

CM 412 Construction Practice (2) *J. SHAIMAN*

Introduction to challenges of managing a construction organization. Focuses on ethical behavior, organizational behavior, human resources management, marketing, financial management, and risk management. Prerequisite: CM 417 or CM 421. Offered: Sp.

[View course details in MyPlan: CM 412](#)

CM 413 Competitive Business Presentations (1) *C. DOSSICK*

Study and development of skills needed to develop and deliver professional construction management presentations. Includes a series of workshops and practical exercises in construction presentation skills, teamwork, and leadership. Offered: A.

[View course details in MyPlan: CM 413](#)

CM 414 Virtual Construction (3) *C. DOSSICK*

Examines the use of building information models for managing the construction process and facilitating collaboration among project participants. Offered: A.

[View course details in MyPlan: CM 414](#)

CM 415 Heavy Construction Practices (3) *J. SCHAUFELBERGER*

Introduction to heavy construction with emphasis on highway and bridge construction. Topics include: contract analysis, work breakdown, equipment selection, unit-price cost estimating, site logistics planning, and project scheduling. Prerequisite: CM 332. Offered: A.

[View course details in MyPlan: CM 415](#)

CM 416 Residential Project Development (3)

Studies the financial, technical, and managerial activities as well as the environmental impact regulations and studies associated with the development of residential projects, including the business and construction practices and marketing strategies needed for a successful project. Offered: A.

[View course details in MyPlan: CM 416](#)

CM 417 Residential Project Management (3) *J. SHAIMAN*

Introduction to the organization, management, control and administrative functions on residential construction projects. A residential case study will be utilized to provide hands on learning opportunities. Introduction to Cost control, Value Engineering, and Site Logistics. Prerequisite: CM 410; CM 411. Offered: W.

[View course details in MyPlan: CM 417](#)

CM 420 Temporary Structures (3) *S. DANIALI*

Study of temporary structures used to support construction operations such as concrete formwork, scaffolding systems, shoring systems, cofferdams, underpinning, slurry walls, and construction dewatering systems.

Prerequisite: ARCH 321. Offered: Sp.

[View course details in MyPlan: CM 420](#)

CM 421 Project Management I (3)

Introduction to the organization, management, and administrative functions on construction projects including a hands-on and extensive case study of a commercial construction project, cost control, and introduction to the concepts of Value Engineering, partnering, and Total Quality Management. Prerequisite: CM 410; CM 411.

Offered: W.

[View course details in MyPlan: CM 421](#)

CM 422 Computer Applications in Construction (2) *A. ABDEL AZIZ*

Introduction to the use of automated programs for planning, scheduling, and controlling construction projects.

Focuses on the use of Primavera Project Planner software. Prerequisite: CM 411. Offered: W.

[View course details in MyPlan: CM 422](#)

CM 423 Construction Law (3) *A. TRAMOUNTANAS*

Legal issues arising from design and construction services, focusing on risk management and liability awareness. Topical areas include basic legal doctrines, the design professional/client relationship, contractor selection, the construction process, and professional practice problems. Emphasizes Washington state law.

Prerequisite: CM 417 or CM 421. Offered: Sp.

[View course details in MyPlan: CM 423](#)

CM 425 Concrete Technology (3) *K. NEMATI*

Introduction to the properties and behavior of concrete. Focuses on uses of concrete as a building material and new techniques for concrete construction. Offered: W.

[View course details in MyPlan: CM 425](#)

CM 426 Preconstruction Techniques (3) *C. Dossick*

Studies the preconstruction phase of a building construction project by focusing on conceptual cost estimating, schedule analysis, and constructability reviews during the development of the design for the project. Offered: W.

[View course details in MyPlan: CM 426](#)

CM 428 Heavy Construction Techniques (3) *K. NEMATI*

Studies the materials, methods, and techniques used in site work, highway, utility, and other heavy construction projects. Addresses concrete as a construction material, foundations, rigid and flexible pavements, bridges, dams, and tunnels. Offered: A.

[View course details in MyPlan: CM 428](#)

CM 430 Building Code and Environmental Regulations (3)

Introduction to the permit process, life-safety requirements, and environmental regulations for designs and construction of buildings as established by the national and local jurisdictions. Prerequisite: ARCH 322.

Offered: Sp.

[View course details in MyPlan: CM 430](#)

CM 431 Project Management II (5)

Capstone project using case studies to apply skills, knowledge, techniques, and concepts developed in prior courses. Emphasis on the concept of integrated project management, including cost estimating and bidding, scheduling, cost control, safety, project organization, and documentation. Prerequisite: CM 417 or CM 421.

Offered: Sp.

[View course details in MyPlan: CM 431](#)

CM 432 Soils and Foundations (3) *S. DANIALI*

Origin, classification, and physical properties of soil as used in engineering and construction applications, together with loads and stresses of soil on, and from, the more common types of engineering structures.

Prerequisite: CM 323. Offered: W.

[View course details in MyPlan: CM 432](#)

CM 433 Construction Labor Relations (2) *E. KOMMERS*

Introduction to construction labor topics, including labor-management organization, legislation, and regulation, collective bargaining, and job site administration. Offered: W.

[View course details in MyPlan: CM 433](#)

CM 434 Lean Project Planning (3) *Y. KIM*

Studies lean construction principles and examines how those principles can be applied in a construction context to improve project quality and shorten duration while reducing cost. Offered: Sp.

[View course details in MyPlan: CM 434](#)

CM 450 Construction Project Management (5) *A. ABDEL AZIZ*

Examines management of construction projects focusing on construction contracting, cost estimating, project scheduling, and resource management. Offered: S.

[View course details in MyPlan: CM 450](#)

CM 481 Facility Life Cycle 1: Planning (3)

Introduction to facility management. First in sequence of three built around the principle of the facility life cycle. Defines key terms. Examines topics such as ethics, business context, budgets, cost analysis, and strategic planning. Students work in online teams to develop a course-final project.

[View course details in MyPlan: CM 481](#)

CM 482 Facility Life Cycle 2: Design and Construction (5)

Second in sequence of three built around the principle of the facility life cycle. Covers design basics, cost estimates, building materials, project management, and construction administration. Students establish a mentor relationship with a professional facility manager and interview three guest speakers, experts in their fields.

Offered: A.

[View course details in MyPlan: CM 482](#)

CM 483 Facility Life Cycle 3: Relocation and Operational Issues (4)

Final in sequence of three built around the principle of the facility life cycle. Provides an overview of issues related to facility operations and maintenance, including occupancy and start up, inventory and staff management, relocation, disaster planning, emergency preparedness, and security. Offered: W.

[View course details in MyPlan: CM 483](#)

CM 498 Special Topics (1-10, max. 20)

[View course details in MyPlan: CM 498](#)

CM 499 Undergraduate Research (*, max. 12)

Individual or small-group studies. Students may select topics with approval of faculty sponsor and department.

[View course details in MyPlan: CM 499](#)

CM 500 Design and Construction Law (3)

Legal issues arising from design and construction services, focusing on risk management and liability awareness. Topical areas include basic legal doctrines, the design professional/client relationship, contractor selection, the construction process, and professional practice problems. Emphasis on Washington State law.

Offered: jointly with ARCH 574; A.

[View course details in MyPlan: CM 500](#)

CM 510 Advanced Construction Techniques (3) *K. NEMATI*

Study of techniques and practices used in complex construction projects, including industrial and high-rise structures, building renovation, and tenant improvements. Offered: A.

[View course details in MyPlan: CM 510](#)

CM 512 Preconstruction Facilitation (3) *C. Dossick*

Studies the preconstruction phase of a building construction project by facilitating the work of a multi-disciplinary team focusing on developing the conceptual design for a construction project. Offered: W.

[View course details in MyPlan: CM 512](#)

CM 515 Innovative Project Management Concepts (3) *C. DOSSICK*

Examination of innovative techniques for planning and managing construction projects including use of time-phased, three-dimensional Building Information Models; sustainable construction techniques; and web-based project management tools. Offered: W.

[View course details in MyPlan: CM 515](#)

CM 518 Lean Construction (3) *Y. KIM*

Examines the application of lean production management concepts to the management of construction projects. Offered: Sp.

[View course details in MyPlan: CM 518](#)

CM 520 Construction Procurement Systems (3)

Study of the different methods used in the procurement and delivery of projects in the construction industry including lump sum, unit price, cost-plus, design-build, and construction management contracts. Offered: A.

[View course details in MyPlan: CM 520](#)

CM 525 Cost Analysis and Management (3) *Y. KIM*

Study of cost management procedures applicable to the building process from the conceptual phase through owner operations, including conceptual estimating, project cost analysis and control, and value engineering and life-cycle costing. Offered: W.

[View course details in MyPlan: CM 525](#)

CM 527 Management of Scope and Risks for Construction Projects (3) *G. MIGLIACCIO*

This course introduces students to the process of evaluating scope definition and risks in a project's life cycle. Using industry literature and reviewing case studies, students will learn project scoping and risk management best practices and apply them to a team project. Offered: W.

[View course details in MyPlan: CM 527](#)

CM 528 Advanced Cost Management in Construction (3) *Y. KIM*

Studies the three primary aspects of project cost control: overhead cost control, direct construction cost control, and life-cycle cost analysis. Addresses techniques in activity-based costing, earned value analysis, and life-cycle cost analysis. Offered: S.

[View course details in MyPlan: CM 528](#)

CM 530 Project Economics and Risk Analysis (3) *A. ABDEL AZIZ*

Studies the process for delivery of public-private infrastructure projects and risk analysis techniques used in economic/financial project studies. Focuses on understanding public-private project delivery systems, feasibility studies, project financial and economic modeling, and quantitative risk analysis techniques. Offered: Sp.

[View course details in MyPlan: CM 530](#)

CM 535 Research Methods in Construction (3) *K. LIN*

Examination of research methods used in construction studies. Includes an overview of the research process, planning of a successful research endeavor, literature review, qualitative and quantitative research, ethics in research and publishing, and various research methodologies. Offered: W.

[View course details in MyPlan: CM 535](#)

CM 540 Sustainable Construction (3) *W. BENDER*

Study of sustainable construction techniques and best practices. Focuses on use of U.S. Green Building Council's Leadership in Energy and Environmental Design standards to evaluate alternatives and select techniques for constructing sustainable projects. Offered: W.

[View course details in MyPlan: CM 540](#)

CM 545 Real Estate Development (3) *A. HOLM*

A study of the technical issues involved in developing real-estate projects. Tracks project development from initial conception through closing of the sale. Emphasizes the steps and processes involved in pursuing, analyzing, and closing a real-estate purchase. Offered: S.

[View course details in MyPlan: CM 545](#)

CM 550 Residential Project Development (3)

Study of the financial, technical, and management activities and environmental impact regulations and studies associated with the development of residential projects, including business and construction practices and marketing strategies for continued profitable operation of a residential construction firm. Offered: S.

[View course details in MyPlan: CM 550](#)

CM 555 Construction Firm Management (3)

Management of construction company including organization, corporate structure, operation procedures, marketing, and human resources management. Emphasis on safety and loss prevention management, insurance and risk management, financing, accounting, marketing construction services, and bonding requirements for construction company. Other topics include individual and corporate planning and process of strategic planning. Offered: W.

[View course details in MyPlan: CM 555](#)

CM 560 Design-Build Project Management (3)

Examines the design-build process used for the delivery of construction projects. Involves analysis of project owner requirements and development of a written proposal for design and construction. Offered: Sp.

[View course details in MyPlan: CM 560](#)

CM 565 Managing International Projects (3) *K. LIN*

Study of processes involved in the selection, acquisition, and management of international construction projects. Emphasis is placed on examining common problems associated with managing construction projects outside the United States, identifying risks involved, and discussing possible solutions. Offered: S.

[View course details in MyPlan: CM 565](#)

CM 570 Facilities Management (3)

Major issues involved in facilities management: facilities planning, financial planning, real estate management, interior space planning and management, facilities operation and maintenance, and emergency preparedness. Offered: Sp.

[View course details in MyPlan: CM 570](#)

CM 575 Leadership in Construction (3) *A. HOLM*

Studies leadership principles applicable to the construction industry. Addresses both organizational leadership and leadership of construction processes. Offered: A.

[View course details in MyPlan: CM 575](#)

CM 580 Temporary Structures (3) *K. NEMATI*

Study of materials, methods, and techniques associated with temporary structures used in various construction operations, such as concrete formwork, scaffolding, underpinning, cofferdams, slurry trenches, earth-retaining structures, and dewatering systems. Offered: Sp.

[View course details in MyPlan: CM 580](#)

CM 582 Heavy Construction Estimating (3) A. ABDEL AZIZ

Study of the principles used in developing cost estimates for heavy construction projects. Includes interpretation of contract documents, quantity take-off, pricing, and preparation of unit-price bid documents. Emphasizes developing cost estimates for highway projects. Offered: S.

[View course details in MyPlan: CM 582](#)

CM 584 Marine Construction (3) S. DANIALI

Study of the materials, methods and techniques associated with construction of projects in marine environments, including the impact of site conditions on the selection of appropriate construction techniques. Emphasizes equipment and crew selection, productivity and cost estimation, and construction sequencing. Offered: A.

[View course details in MyPlan: CM 584](#)

CM 586 Utility Systems Construction (3) W. BENDER

Study of the materials, methods, and techniques associated with construction of major utility systems, such as water, sewer, communications, electrical or natural gas. Includes construction of central utility plants as well as major distribution and collection systems. Offered: Sp.

[View course details in MyPlan: CM 586](#)

CM 588 Construction Operations and Productivity (3)

Study of heavy construction operations with emphasis on productivity enhancement focusing on an integrated approach to planning, modeling, analysis, and design of construction operations, and the use of simulation models and other analytical tools. Offered: W.

[View course details in MyPlan: CM 588](#)

CM 590 Research Methods in Construction Engineering (2) J. SCHAUFELBERGER

Study of the academic research process. Includes development of a research proposal, review of relevant literature, selection of research methodology, collection of data, data analysis, and preparation of research report. Offered: W.

[View course details in MyPlan: CM 590](#)

CM 598 Special Topics (1-6, max. 6)

Systematic study and offering of specialized subject matter. Offered: AWSpS.

[View course details in MyPlan: CM 598](#)

CM 600 Independent Study or Research (*-)

An in-depth independent investigation of some facet of construction management. Offered: AWSpS.

[View course details in MyPlan: CM 600](#)

CM 700 Master's Thesis (*-)

Offered: AWSpS.

Landscape Architecture

[Display as tabs](#)

Department Overview

348 Gould

Landscape architecture is a professional design discipline that addresses both the built and natural environments. It focuses on the design, analysis, and planning of outdoor spaces across a wide range of scales, with the intent of creating places that are both meaningful and functional. Landscape architects design everything from infrastructure elements, such as roadways, drainage systems, and parks, to prominent cultural monuments and gardens for public and private housing units. The education of a landscape architect includes aesthetic design skills, the development of social and environmental ethics, technical design skills, knowledge of a wide range of natural processes, an awareness of design history, and skills for working with other people. At the University of Washington, the focus is on urban ecological design education, which allows students to make a difference in the future of cities and urban regions all over the world.

The Department of Landscape Architecture offers the following programs of study:

- The Bachelor of Landscape Architecture (BLA) degree
- A minor in urban ecological design
- Certificates in Urban Design and Historic Preservation (see College of Built Environments)

Bachelor of Landscape Architecture

Department Admission Requirements

Core courses within the department form a seven-quarter curriculum designed to start autumn quarter of the junior year. Students take a sequence of seven studios, other sequential skills-based courses, theory courses, and directed electives. Admission is competitive. Completion of the requirements listed below does not guarantee admission. Admission is based on academic record, a portfolio of creative work, three letters of recommendation, and other application materials. Refer to the department's website,

<http://larchwp.be.washington.edu/> to select “undergraduate program” link from the “admissions” bar for application materials and detailed information on admission, prerequisites, and required coursework.

1. Minimum 70 credits to include:

- *Departmental Pre-professional Requirements (16 credits):* L ARCH 300* (usually offered autumn and summer quarters); L ARCH 352 (autumn quarter); and L ARCH 353 (winter quarter)

*Transfer students: These three courses are available and may be taken through the University's Professional and Continuing Education unit prior to admission to the UW.

- *General Education Coursework:* minimum 60 credits to include 5 credits of English composition; 4-5 credits of Quantitative and Symbolic Reasoning; and 50-51 credits selected within the following Areas of Knowledge: Visual, Literary, & Performing Arts (20 credits); Individuals & Societies (20 credits); Natural World (20 credits), of which one course must fulfill prerequisite requirement for ESS 315/ENVIR 313 or ESS 301; plant biology class recommended.

*L ARCH 300 can be counted toward general education requirements. Other L ARCH courses which are not required within the BLA program, or as admission requirements, may be counted for general education requirements. Students planning to complete the degree in seven quarters should complete all departmental general education requirements prior to starting the degree.

2. *Application Deadline:* Complete applications are due by 5 p.m. on the first day of spring quarter for the following autumn quarter. Students are not admitted at other times. Applications must include the BLA application materials. Students should apply during their second year to make satisfactory progress toward the degree.

Program Requirements

Minimum 182-183 credits, to include:

General Education Requirements (69-70 credits): L ARCH 300 and other L ARCH courses which are not requirements, either within the BLA program or as prerequisites, may count toward I&S/NW/VLPA requirements.

1. *Written and Oral Communication (5 credits):* one 5-credit English composition course from the University list. 10 additional writing credits are required, but can be met by major core courses.
2. *Visual, Literary, & Performing Arts (VLPA) (20 credits):* L ARCH 300; 14 additional VLPA credits; drawing class recommended
3. *Individuals & Societies (I&S) (20 credits)*
4. *Natural World (20 credits):* One course listed as prerequisite requirement for either ESS 315/ENVIR 313 or ESS 301; additional NW credits to total 20 credits; plant biology class recommended
5. Quantitative and Symbolic Reasoning (4-5 credits)

Major Requirements (minimum 113 credits)

1. *Studio Classes*: L ARCH 301, L ARCH 302, L ARCH 303, L ARCH 402, L ARCH 403, L ARCH 474, L ARCH 475
2. *Planting Design*: L ARCH 424
3. *History*: L ARCH 352 and L ARCH 353
4. *Theory*: L ARCH 341, L ARCH 361, L ARCH 363
5. *Graphics*: L ARCH 411, L ARCH 440, L ARCH 441
6. *Professional Practice*: L ARCH 473
7. *Construction*: L ARCH 331, L ARCH 332, L ARCH 433
8. *Soils*: L ARCH 432 or other course chosen from approved list maintained by department
9. *Plant Identification*: either BIOL 331/ESRM 331, BIOL 317, or equivalent course approved by department
10. *Managing Plants*: either ESRM 473, ESRM 474, ESRM 479, or ESRM 480
11. *Geology*: Either ESS 301 or ESS 315/ENVIR 313
12. *Directed Electives* to bring major total to 113 credits, chosen from approved lists maintained by the department in the following areas: 3-5 credit course in environmental history; two 3-5 credit courses in ecology and forestry; 3-5 credit course in legislation; 3-5 credit course in soils; 3-5 credit course in urban design and planning

Minor

Minor Requirements: Minimum 25 credits, consisting of 20 credits of L ARCH courses open to non-majors; 5 credits of courses 200 level and above from within the College of Built Environments or from ESRM or GEOG courses; 2.0 minimum grade in all courses counted toward the minor

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes*: The BLA program provides a professional, accredited degree which enables graduates to practice successfully in design firms, nonprofit organizations, and public agencies. Building from a liberal arts foundation, the program focuses on developing design knowledge, skills, and abilities through a sequence of nine environmental- and community-based design studios.

The goals of the program are to provide students with a broad academic and professional exposure to landscape architecture and design so their creative potential and professional growth are realized, and so they may become leaders in the field. The education includes learning to conceptualize and design through practice on studio projects; fostering creativity; developing graphic, written, and verbal communication skills; facilitating cognitive abilities; and developing applicable computer skills in the design process. Studios use individual, team-oriented, and interdisciplinary projects to develop strong interactive and evaluative skills. Studio education applies knowledge gained in lecture courses which include historic and contemporary concepts in landscape architecture, design theory, site planning, construction, and communications, as well as elective courses in allied disciplines. The studio sequence addresses projects from detailed to neighborhood scales, varied contexts, and with diverse cultures. Overall, the program focuses on the application

of ecological design strategies to urban and urbanizing areas, which characterizes the department's focus on urban ecological design.

- *Instructional and Research Facilities:* The Bachelor of Landscape Architecture degree is structured around studio classes augmented by lecture and skills-oriented courses. The program affords some opportunities for independent studies and work in professional settings, beyond the minimum requirements for the major. Departmental courses are complemented by elective courses from other areas, including urban horticulture, soils, geology, urban design and planning, botany, and ecology.

Landscape architecture studio classes are led by departmental faculty or members of the professional community. Studio classes may be taught jointly with faculty from other disciplines. Studio classes address specific areas of inquiry including basic design principles and processes, planting design, materials and craftsmanship, landscape planning for parks or natural areas, neighborhood and civic-space design, urban landscape design, ecological restoration, and culturally-based design. A capstone studio requires students to integrate their knowledge of design theory, practice, and construction in a design-build project for a local community. The department regularly offers study abroad programs as well as opportunities to work with local communities and public agencies.

- *Honors Options Available:* Students may apply for admission to the Bachelor of Landscape Architecture Honors option. See departmental program coordinator.
- *Research, Internships, and Service Learning:* Departmental lecture courses address the functioning of natural systems, site planning issues, computer applications, and cultural and sociological forces that influence the profession's work. Advanced studio courses, including the capstone studio, typically provide service learning experiences in a particular community context. In addition to required coursework, the program encourages students to pursue personal interests through directed and independent study within and beyond the department. Students are encouraged to gain real-world experience through a practicum with professional firms, organizations, or agencies.
- *Department Scholarships:* Limited availability.
- *Student Organizations/Associations:* Student chapter, Washington Chapter of the American Society of Landscape Architects

cauplarc@uw.edu

Master of Landscape Architecture

The MLA program, accredited by the Landscape Architecture Accreditation Board, offers training in design and inquiry. Design studios form the core, supported by rigorous independent investigation in seminars and a thesis project. Students develop a specialty

within the discipline, under professional guidance of the faculty. The curriculum emphasizes the following:

Urban Ecological Design. The Pacific Northwest environment offers an excellent opportunity for courses and thesis projects to explore connections between culture and nature and test ideas on how social and spatial conflicts between development and conservation might be addressed. Faculty are particularly interested in the changing roles of familiar urban and suburban landscapes, as these areas are increasingly expected to function as part of an ecological infrastructure. At the same time, diverse human cultural communities have developed with differing perceptions of and values for these changing landscapes. The department offers students the opportunity to study the rich cultural resources of these human communities as they develop new relationships to their environments, and to participate in this overlap between natural and cultural processes. The department currently offers study abroad programs in Canada, Mexico, Guatemala, Europe, and East Asia as well as opportunities to work with local communities and public agencies.

Design Leadership. The faculty trains students to be leaders in design practice and education to help both children and adults understand the consequences of human transactions with the natural environment. Courses are offered and research is conducted on designing outdoor educational environments. Graduate students are encouraged to develop independent leadership skills which provide them with self-confidence and adaptability in a rapidly changing professional world. The primary areas in which students are encouraged to develop leadership abilities are definition and practice of design as a basis for interdisciplinary work; environmental education and application of ecological concepts to urban design; use of communication technology to develop creative solutions to cultural and environmental conflicts; and international design-build projects in which students confront the global nature of contemporary development issues.

The program considers applicants with and without previous design education, and encourages applications from persons with diverse academic and professional backgrounds. The faculty admits those with a range of ages, backgrounds, and interests. Students benefit from the location of the department within a broad research university by adding elective courses in other disciplines to their core curriculum. In addition, graduate students may elect to participate in College-wide certificate programs in Urban Design, and Preservation Planning and Design. See program descriptions in the College of Built Environments section.

Admission Requirements

1. Candidates applying to the Master of Landscape Architecture program must apply both to the Graduate Admissions Office and to the Department of Landscape Architecture by January 15 to be considered for admission the following autumn quarter.
2. Admission to the Graduate School requires (1) a baccalaureate degree from an accredited U.S. college or university, or the equivalent from a foreign institution, (2) a 3.00 GPA or higher in the last 90 graded quarter hours or the last 60 graded semester hours, and (3) a Graduate Record Examination (GRE) score taken within the past three years. International students with degrees from non-English speaking universities must submit TOEFL scores.
3. Admission is competitive and priority is given to applicants whose abilities, as determined by the department's admissions committee, enable them to complete the

program expeditiously and with a high level of achievement. Contact the department for additional information.

Degree Requirements

Minimum 72 credits

Requirements are arranged to fit each student's background. Seminar and field courses help students achieve their educational goals and develop a credible specialty area (12 credits), depending on their individual interests. Students with a previous degree in landscape architecture begin coursework with the required graduate curriculum studios, while students from other educational backgrounds begin with the basic core design studios.

A thesis or capstone project is required, that allows the student to develop greater intellectual maturity and satisfaction by pursuing a topic she or he has selected out of personal interest. The thesis or capstone project also allows students to demonstrate a professional level of mastery of a specialized subject area. Students complete either a written and graphic product or a purely written product for the thesis. Four models are available: the professional project thesis, the design critique thesis, the research thesis, and the design thesis. Students choosing a capstone project can either work on a Group Project Option or a two-quarter Studio Option. Students make choices about the type and methods of thesis or capstone project in conjunction with their thesis committee members and/or faculty adviser.

COLLEGE OF BUILT ENVIRONMENTS

LANDSCAPE ARCHITECTURE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

L ARCH 200 Landscape Architecture Field Trips (2) VLPA/I&S

Five field trips introduce typical landscape architecture projects and demonstrate scope of the landscape architecture field. Visits to major projects in the Puget Sound region include city and county parks, river parks, harbors, downtown redevelopments, streetscapes, campus headquarters, and others. Open to nonmajors.

[View course details in MyPlan: L ARCH 200](#)

L ARCH 212 Designing the Future (5) VLPA I. ROBERTSON

Ecological/environmental instability and resulting social/cultural disruptions make the world in which spatial designers work increasingly uncertain. Lectures and guest speakers explore diverse ways in which design may create more sustainable futures. Course activities, including in-class design exercises, internet research, group discussions, take home projects, etc. encourage synthetic/integrative thinking. Offered: A.

[View course details in MyPlan: L ARCH 212](#)

L ARCH 300 Introductory Landscape Architecture Design Studio (6) VLPA

Introduction to history and environmental influences in field while developing design and graphic skills. Site analyses and drawing to convey design concepts. Relationship of visual perception to drawing, role of values in design, verbal communication, and behavioral analysis of design process. Required for admission to Bachelor of Landscape Architecture program.

[View course details in MyPlan: L ARCH 300](#)

L ARCH 301 Design Foundations Studio (6)

Introduces site planning and design process, principles, and skills through experiential learning. Examines and applies landscape elements used to design, including plants. Activities foster skill in design process, shaping landscape form and space, creativity, communication, group dynamics, and organization. Includes required fieldtrips. Majors only.

[View course details in MyPlan: L ARCH 301](#)

L ARCH 302 Urban Sites Studio (6)

Explores application of design ideas and principles to urban sites. Applies theory and research informing the design of human environments and lessons from urban and ecological design precedents to the design of urban places. Includes design across scales to detailed site design studies, including planting design. Majors only.

Offered: W.

[View course details in MyPlan: L ARCH 302](#)

L ARCH 303 Ecological Systems Studio (6)

Project design studies related to ecological systems. Emphasizes the innovative use of ecological processes and patterns in design development to improve designed landscape's performance. Both biophysical and social criteria are used to define performance. Introduces computer-mapping applications. Majors only.

[View course details in MyPlan: L ARCH 303](#)

L ARCH 310 Landscape Architecture Field Sketching (2)

Introductory level sketching of landscape subjects: natural and urban sites, plants, animals, architectural elements. Emphasis on perspective. Various media, including pencil, charcoal, markers, ink wash, water color.

[View course details in MyPlan: L ARCH 310](#)

L ARCH 311 Introduction to Design Graphics (2)

Introduction to communication techniques for various phases of the design process. Many techniques are introduced and their suitability and appropriateness for different purposes explored.

[View course details in MyPlan: L ARCH 311](#)

L ARCH 322 Introduction to Planting Design (3) VLPA

Traditional ways plants are used in landscape design. Composition and design characteristics of plant materials. Technical considerations for selection, climate, cultural suitability, availability, costs, and maintenance. Open to nonmajors.

[View course details in MyPlan: L ARCH 322](#)

L ARCH 323 Topics in Planting Design I (1)

Explores planting design topics that relate specifically to site, program, and design issues addressed in concurrent studio projects. Identifies and describes native and ornamental trees and shrubs on the UW campus and vicinity. Utilizes tree canopy layers, shrub masses, and ground plane layers as space forms in studio project designs. Concurrent with L ARCH 301.

[View course details in MyPlan: L ARCH 323](#)

L ARCH 324 Topics in Planting Design II (1)

Explores planting design topics that relate specifically to site, program, and design issues addressed in concurrent studio projects. Utilizes trees, shrubs, and herbaceous plants as space forms in urban contexts. Utilizes plant characteristics of color, texture, and form in studio project design. Considers design principles of unity/diversity, complexity/simplicity, and pattern in studio project design. Concurrent with L ARCH 302.

[View course details in MyPlan: L ARCH 324](#)

L ARCH 325 Topics in Planting Design III (1)

Explores planting design topics that relate specifically to site, program, and design issues addressed in concurrent studio projects. Considers trees, shrubs, and herbaceous plants of natural and ecosystems human-made plant communities. Considers plant community dynamics and changes over time. Concurrent with L ARCH 303.

[View course details in MyPlan: L ARCH 325](#)

L ARCH 331 Landform Grading and Drainage (3)

Introduces the concepts and methods behind grading and drainage and how they are used as design and problem-solving tools. Covers the relationship between grading and drainage plan graphics and their actual three-dimensional applications. Presents basic design principles. Considers the ecological and artistic approaches to grading and drainage. Majors only. Offered: Sp.

[View course details in MyPlan: L ARCH 331](#)

L ARCH 332 Materials, Craft, and Construction (3)

Materials and structures in landscape construction. Design criteria and construction techniques for detail

elements of landscape architecture. Working drawings, specifications, cost estimates, and procedures.¹²¹³

[View course details in MyPlan: L ARCH 332](#)

L ARCH 341 Site Design and Planning (3)

Introduces urban ecological design issues for good site-planning processes, principles, and methods. Linked with L ARCH 301. Addresses planning for people, natural systems in place-making, design for movement with carried land uses. Includes readings, discussions, presentations, campus walks, case studies, graphic and written assignments.

[View course details in MyPlan: L ARCH 341](#)

L ARCH 352 History of Landscape Architecture (5) VLPA/I&S

Survey of the development of landscape architecture as an art form from Mesopotamia to the present.

Relationships to physical landscape, climate, culture, religion, and other arts. Open to non-majors. Offered: A.

[View course details in MyPlan: L ARCH 352](#)

L ARCH 353 History of Modern Landscape Architecture (5) VLPA/I&S

Development of profession and art of landscape architecture in the United States, Europe, South America, and Japan in relation to prevailing social, economic, political, and cultural factors. Relationships with other professions, especially architecture and urban planning, and other arts, such as painting and sculpture. Open to non-majors. Offered: W.

[View course details in MyPlan: L ARCH 353](#)

L ARCH 361 The Human Experience of Place (3) I&S/VLPA

Interdisciplinary approaches to exploring the reciprocal relationship between people and the landscapes of everyday life. Through readings, discussion, in-class activities and mini-projects, students study place attachment, relationships to nature, environmental attitudes and perception, personal space, territoriality, urban public space, diversity, participation, and the politics of space. Open to nonmajors.

[View course details in MyPlan: L ARCH 361](#)

L ARCH 362 Design of Cities (3) VLPA

Introduction to the discourses and debates in the contemporary design of cities. Provides an overview of design theories and examples of historic and contemporary work. Includes discussion of the contesting urban processes: visions and paradigms of city; discourses of nature and the city; contemporary urban changes; public and community process; and everyday place making.

[View course details in MyPlan: L ARCH 362](#)

L ARCH 363 Ecological Design and Planning (3) NW

Introduction to landscape ecological theory applied to urban environments. Comparison of different vocabularies used to describe landscape structure and function, from the fields of landscape design, urban design, and biology. Discussion of design theories that have sought to re-center landscape planning and design around the goal of achieving ecological sustainability.

[View course details in MyPlan: L ARCH 363](#)

L ARCH 401 Urban Recreation Design (1-6, max. 6) VLPA/I&S

Special studies in metropolitan, urban, and neighborhood recreation areas; the design, policies, and behavioral studies of existing parks, playgrounds, public places, and commercial areas. Design projects dealing with the play environment for all ages. Open to nonmajors.

[View course details in MyPlan: L ARCH 401](#)

L ARCH 402 Neighborhood Design Studio (1-6, max. 6)

Studio at neighborhood and site scales, mixed use. Incorporates urban design theory, precedents, neighborhood/project issues, and community clients. Skills in neighborhood and site analysis, programming. Designs are developed in groups and individually. Methods include readings, research, critiques, field studies, and graphic, written, and verbal presentations.

[View course details in MyPlan: L ARCH 402](#)

L ARCH 403 Cultural Landscape Studio (1-6, max. 6)

Studies of the landscape at various scales and in diversified contexts. Offers better understanding of visual components of landscapes, designer's capacity to evaluate and change these components, and resultant interaction with, and effect on, landscape user.

[View course details in MyPlan: L ARCH 403](#)

L ARCH 406 Individual Design Studio (6)

Senior projects in landscape architecture; projects vary according to the student's particular emphasis and needs.

[View course details in MyPlan: L ARCH 406](#)

L ARCH 411 Landscape Representation I (3)

Introduces fundamental graphic and representation conventions, hand-drawing techniques, and media used in landscape architecture and environmental design. Emphasizes drawing and media skills that support design ability development. Includes lectures, demonstrations, display of examples, drawing from slides, and in-class workshops. Credit/no-credit only.

[View course details in MyPlan: L ARCH 411](#)

L ARCH 412 Landscape Representation II (2)

Development of advanced skills of visual representation to communicate students' visions for urban ecological design including techniques used during the design process and for presentation.

[View course details in MyPlan: L ARCH 412](#)

L ARCH 423 Planting Design Studio (3)

Utilization of plants as design elements to manipulate space and modify the landscape for various activities and resolutions of site problems. Factors that determine the appropriate use and arrangement of plant materials in an urban context. Composition, plant selection, planting techniques, and maintenance requirements are major components of this class.

[View course details in MyPlan: L ARCH 423](#)

L ARCH 424 Advanced Planting Design Seminar (3)

Introduces and investigates the ecological and social functions behind planting design. Introduces conceptual methods to planting design using various 'lenses'. Discusses the relationship between planting plan graphics and their actual three-dimensional applications. Focuses on combining plants into a cohesive, artistic, and ecologically responsible design that responds appropriately to site conditions.

[View course details in MyPlan: L ARCH 424](#)

L ARCH 425 Advanced Planting Design Studio (1-6, max. 6)

Advanced seminar/studio in planting design. Provides opportunity to explore ecological, technical, and esthetic principles for selecting plants to meet specific site conditions. Project types include historical sites, multifamily housing projects, plazas, landfills, and reclamation sites.

[View course details in MyPlan: L ARCH 425](#)

L ARCH 432 Urban Soils and Hydrology (3)

Develops basic understanding and skills related to soil properties and their specification for use in horticulture and hydrological performance, and knowledge and skills needed by landscape architects to implement design solutions that manipulate urban hydrological conditions. Majors only. Prerequisite: L ARCH 331. Offered: W.

[View course details in MyPlan: L ARCH 432](#)

L ARCH 433 Design Implementation (3)

Provides an understanding of essential considerations of design implementation and construction documentation in landscape architecture. Emphasizes the landscape architect's skill in preparing drawings and specifications and their role during bidding and construction. Includes production of a construction drawing set.

[View course details in MyPlan: L ARCH 433](#)

L ARCH 440 Digital Media I in Landscape (1-3, max. 3) *Spencer*

Introduces digital applications and methodologies useful in landscape architectures' interpretive, iterative design, production, and presentation processes. Focuses on skills in 2D CAD, 3D visualization, graphic representation, and the integration of manual and digital techniques. Credit/no-credit only.

[View course details in MyPlan: L ARCH 440](#)

L ARCH 441 Digital Media II in Landscape (3)

Explores Computer Aided Design as a powerful tool in landscape design, analysis, and visualization. Consists of four core units: 2D CAD drafting; digital terrain modeling; 3D solids and surface modeling; and visualization.

[View course details in MyPlan: L ARCH 441](#)

L ARCH 450 History of Environmental Design in the Pacific Northwest (3) VLPA

Development of landscape architecture, architecture, and urban planning in the Pacific Northwest from nineteenth century to the present, with major emphasis on twentieth century. Open to nonmajors.

[View course details in MyPlan: L ARCH 450](#)

L ARCH 451 History of Environmental Design on the West Coast (3) VLPA

Development of the environmental arts of landscape architecture, architecture, and urban planning from the eighteenth century to the present, with major emphasis on the twentieth century. Open to nonmajors.

[View course details in MyPlan: L ARCH 451](#)

L ARCH 454 History of Urban Landscapes and Environments (5)

Explores the history and historiography of urban landscapes and the design of cities with an emphasis on North America in the context of the broader study of cities in China, Japan, and in the Western world from the pre-classical through twentieth centuries in Europe. Offered: S.

[View course details in MyPlan: L ARCH 454](#)

L ARCH 463 Urban Recreational Design (3) VLPA/I&S

Special recreational studies in metropolitan, urban, and neighborhood areas; the design, policies, and behavioral studies of existing parks, playgrounds, public places, and commercial areas. Design projects dealing with the play environment for all ages. Open to nonmajors.

[View course details in MyPlan: L ARCH 463](#)

L ARCH 470 Landscape Architecture Tutorial (2, max. 6)

Various aspects of project organization, programming, scheduling of workloads, graphic and verbal communication problems, data collection methods and interpretation, methodologies for landscape planting and design.

[View course details in MyPlan: L ARCH 470](#)

L ARCH 473 Professional Practice (3)

Professional practice in private office, academic institutions, and public agencies. Evolution of landscape architecture as a profession, possible scenarios for future, variety of practice types and their relationships, ethical and legal/contractual responsibilities of a professional.

[View course details in MyPlan: L ARCH 473](#)

L ARCH 474 Advanced Design Studio (1-6, max. 6)

Detailed design studies of small-to-medium-scale projects. General focus on public landscape areas and social/psychological uses of site. Specific focus on design development and professional office presentation. Offered: W.

[View course details in MyPlan: L ARCH 474](#)

L ARCH 475 Community Design/Build Studio (1-6, max. 6) *Winterbottom*

Students design and construct a community based project, synthesizing prior course instruction by going through the design process from concept to schematic design, creating construction documents, and implementing what

they have designed. Offered: Sp.

[View course details in MyPlan: L ARCH 475](#)

L ARCH 476 Professional Operations (3-6, max. 6)

Practicum course for landscape architecture majors for internship and exposure to the profession with working experiences at various levels of professional endeavor. Student apprenticeship in selected private offices and public agencies. Credit/no-credit only.

[View course details in MyPlan: L ARCH 476](#)

L ARCH 477 Landscape Architecture Consultancy Studio (3-6, max. 6)

Simulation of the professional relationship of the landscape architect as a consultant to University students in other design planning and management disciplines. Focus on site analysis, master planning, schematic designs and detailed design, working drawings, and planting plans associated with student projects.

[View course details in MyPlan: L ARCH 477](#)

L ARCH 481 Planning Urban Green Infrastructure Networks for Healthy Cities (5)

Explores the planning of green infrastructures to maximize ecosystems services and support more compact and livable communities. Credit/no-credit only.

[View course details in MyPlan: L ARCH 481](#)

L ARCH 482 Designing High Performance Landscapes (5)

Looks at ways to design 'high performance landscapes' that integrate ecological realities and urban infrastructural needs while expressing an aesthetic of performance. From site analysis to final design, provides hands-on experience in creating green infrastructure assets in the urban environment. Credit/no-credit only.

[View course details in MyPlan: L ARCH 482](#)

L ARCH 495 Landscape Architectural Studies Abroad (1-10, max. 30)

Studies conducted under faculty supervision in various locations outside the United States.

[View course details in MyPlan: L ARCH 495](#)

L ARCH 498 Special Projects (1-10, max. 30)

Special projects as arranged. Open to nonmajors.

[View course details in MyPlan: L ARCH 498](#)

L ARCH 499 Undergraduate Research (1-9, max. 9)

Individual or small-group studies pertaining to special problems, theories, or issues of landscape architecture and environmental issues.

[View course details in MyPlan: L ARCH 499](#)

L ARCH 501 Ecological Urbanism Studio I (1-6, max. 6) *Rottle*

Applies landscape ecological and urban design theory to multi-scalar urban environments. Focuses on the strategic design of urban green infrastructure, including pedestrian and active transport environments, green space and habitat, and integration with natural drainage systems. Credit/no-credit only.

[View course details in MyPlan: L ARCH 501](#)

L ARCH 503 Community Design Studio (1-6, max. 6)

Methods and techniques for developing physical design solutions and implementation strategies in neighborhoods and small communities. Social, economic, political, and individual forces affecting community development and growth. Comparison of several communities, identifying pertinent landscape issues, potential design solutions, and methods for achieving design goals through the political process.

[View course details in MyPlan: L ARCH 503](#)

L ARCH 504 Regional Landscape Planning (1-6, max. 6)

Application of landscape ecological theory to the design of urban environments. Focuses on the strategic design of urban infrastructure, including underground drainage systems, roads, parks, transit systems, and on

understanding the cumulative performance of urban sites.

[View course details in MyPlan: L ARCH 504](#)

L ARCH 505 Landscape Planning Studio (1-6, max. 6) *Yocom*

Examines the theory and techniques of landscape planning across a wide range of spatial scales and contexts in the design process. Explores the application of planning techniques and technologies by a specific design or planning project. Offered: A.

[View course details in MyPlan: L ARCH 505](#)

L ARCH 506 Landscape Visual Resources (1-6, max. 6)

Survey of existing theory/techniques and the generation of new methods to analyze, evaluate, plan, design, and manage the visual resources of the landscape.

[View course details in MyPlan: L ARCH 506](#)

L ARCH 507 Art and Landscape Studio (1-6, max. 6)

Public art placed in, or developed for, specific landscape settings. Various aspects and benefits of public art, including materials, technologies, philosophies of landscape imagery and meaning. General planning criteria for location for maximum public benefit and identification of objectives for a specific site and artwork.

[View course details in MyPlan: L ARCH 507](#)

L ARCH 511 Visual Learning (3)

Seminar/laboratory to develop visual learning processes and skills for applying these processes to landscape architecture. Related visualization concepts.

[View course details in MyPlan: L ARCH 511](#)

L ARCH 523 Landscape Technology (1-6, max. 6)

Studio on rehabilitation of stressed urban landscapes. Focus varies but often deals with an analysis of the potentials in urban watershed and the study of alternative site designs for enhancing a range of landscape functions related to water quality. Taught by an interdisciplinary team.

[View course details in MyPlan: L ARCH 523](#)

L ARCH 552 History of Landscape Architecture (5)

Surveys the development of landscape architecture as an art form and a practice across diverse cultures and places in the context of developing historiographical approaches and frameworks.

[View course details in MyPlan: L ARCH 552](#)

L ARCH 553 History of Modern Landscape Architecture (5)

Focuses on building an historic and critical overview of modernism and modernist designs in the practice and discipline of landscape architecture. Focuses on critical readings of historical narratives to explore the emergence of theory in practice.

[View course details in MyPlan: L ARCH 553](#)

L ARCH 561 The Human Experience of Place (3) *Manzo*

Uses interdisciplinary approaches to explore the reciprocal relationship between people and the landscapes of everyday life. Studies place attachment, relationships to nature, environmental attitudes and perception, personal space, territoriality, urban public space, diversity, participation, and the politics of space. Offered: A.

[View course details in MyPlan: L ARCH 561](#)

L ARCH 562 Landscape Art (2)

Process of developing and placing artwork in specific landscape settings. Types of artwork and landscape settings; ways for artist and site designer to interpret, alter, and incorporate factors of landscape; viewer's perception and experience; examples of public and private support.

[View course details in MyPlan: L ARCH 562](#)

L ARCH 563 Ecological Design and Planning (3) *Yocom*

Explores the contemporary theory supporting the practice of ecological design and planning. Examines the potential relationships between ecological theory and design applications, particularly in urban environments. Topics are supported by a diverse collection of examples and case studies. Offered: Sp.

[View course details in MyPlan: L ARCH 563](#)

L ARCH 564 Sustainable Urban Landscapes (2) *Rottle*

Introduces contemporary literature on urban sustainability and provides a forum for discussion about theories, applications, and practices towards the planning and design of sustainable and ecological urban environments. Offered: A.

[View course details in MyPlan: L ARCH 564](#)

L ARCH 570 Landscape Architecture Theory and Scholarship (3)

Covers the nature of scholarship and theory building in landscape architecture. Investigates scholarship related to the design process, design critique, research, and practice. Includes consideration of capstone project topics. Offered: W.

[View course details in MyPlan: L ARCH 570](#)

L ARCH 571 Landscape Architecture Research Methods (3)

Introduction to and exploration of selected research methods employed in landscape architecture research. Emphasizes how to apply research methods to a research question or problem. Includes exploration of data analysis and interpretation of research results.

[View course details in MyPlan: L ARCH 571](#)

L ARCH 590 Seminar in Landscape Architecture (1-3, max. 12)

Advanced topics in landscape architecture with focus on unpublished areas of research.

[View course details in MyPlan: L ARCH 590](#)

L ARCH 598 Special Topics (1-6, max. 9)

Systematic study of specialized regional landscape subject matter, including history, technology, implementation, and other topics depending on current interest/needs. Topics vary and are announced in the preceding quarter.

[View course details in MyPlan: L ARCH 598](#)

L ARCH 600 Independent Study or Research (*-)

[View course details in MyPlan: L ARCH 600](#)

L ARCH 601 Internship (1-6, max. 9)

[View course details in MyPlan: L ARCH 601](#)

L ARCH 700 Master's Thesis (*-)

[View course details in MyPlan: L ARCH 700](#)

L ARCH 701 Thesis Studio (1-6, max. 6)

Studio designed to support students' independent thesis research and design process by providing a structured framework for regular meetings, studio reviews, peer/committee/guest critiques, and process reflections.

[View course details in MyPlan: L ARCH 701](#)

L ARCH 702 Capstone Project Studio (1-6, max. 6) *Way*

Capstone group project studio. Offered: W.

[View course details in MyPlan: L ARCH 702](#)

Urban Design and Planning

[Display as tabs](#)

Department Overview

410 Gould

Urban design and planning deals with critical issues of human settlement and urban development. It provides communities an informed basis for coordinated public- and private-sector action. Urban design and planning constitutes a professional field of growing complexity, responding to the urban complexities of this century. The Department of Urban Design and Planning fosters an integrative approach to education and research in planning the physical environment. The academic program includes the social, behavioral, and cultural relationships between people and the form and quality of their built and natural environment; the financial, administrative, political, and participatory dimensions of planning, design, and development; and the informational base for making deliberate decisions to shape urban areas and regions, bringing analysis together with vision.

Departmental faculty are active participants in interdisciplinary research units, including the Institute for Hazard Mitigation Planning and Research, the Urban Form Laboratory, the Urban Ecology Research Laboratory, the Runstad Center for Real Estate Studies, and the Northwest Center for Livable Communities.

The department is committed to public service and has strong connections to the region and beyond. The approach to urban development is driven by the values of sustainability, livability, economic vitality, and social justice. The department is committed to developing a leading edge urban planning practice with a strong participatory ethos.

Undergraduate Program

Urban Design and Planning offers the following programs of study:

- The Bachelor of Arts degree with a major in community, environment, and planning
- A minor in urban design and planning

Community, Environment, and Planning

208Q Gould

Community, Environment, and Planning (CEP) is an interdisciplinary bachelor of arts degree program offered through the College of Built Environments as one of the University's interdisciplinary undergraduate programs. CEP has gained distinction as a

model for a highly personalized, collaborative, and active educational experience within a large research institution. CEP students draw liberally from the entire range of courses, faculty, and programs at the UW.

Bachelor of Arts

Suggested First- and Second-Year College Courses: CEP 200.

Department Admission Requirements

1. Minimum 90 credits completed when student begins the program and at least 80 percent of general education requirements fulfilled
2. Minimum 2.50 GPA with additional emphasis on a written essay, demonstration of relevant extracurricular activities, and a final interview
3. Admission is once a year, for autumn quarter. Early admission deadline is February 15. Additional application dates vary each year. See CEP's website for specific dates.

Graduation Requirements

General Education Requirements

1. *Written Communication (15 credits)*: 5 credits English composition; 10 credits additional composition or W courses. W courses, if applicable, may also be counted toward Areas of Knowledge or major requirements.
2. *Quantitative or Symbolic Reasoning (4-5 credits)*: The QSR course, if applicable, may also be counted toward an Area of Knowledge or major requirement.
3. *Areas of Knowledge (60 credits)*: 20 credits Visual, Literary, & Performing Arts (VLPA); 20 credits Individuals & Societies (I & S); 20 credits Natural World (NW). Required CEP courses and other non-CEP courses used to satisfy major requirements may also be counted toward Areas of Knowledge requirements, if applicable.

Major Requirements

77 credits as follows:

1. Core Seminars (30 credits): CEP 301, CEP 302, CEP 303, CEP 460, CEP 461, CEP 462.
2. Methods Courses (25 credits): Upper-division courses within the University, with no more than 15 credits from one department; chosen with guidance and approved by CEP staff and faculty.
3. Diversity Course (5 credits): One course that critically analyzes and addresses social constructs and/or issues from a different perspective than that of our dominant culture. Must be approved by the program adviser
4. Leadership Retreats (4 credits): CEP 300, autumn and spring
5. Governance Practicum (6 credits): CEP 400, quarterly
6. Internship (5 credits): CEP 446, 120- to 150-hour internship
7. Senior Project Capstone (2-6 credits): CEP 490 and CEP 491, autumn and winter

Electives to complete minimum 180 credits for degree; varies, depending on how many general education courses apply to more than one requirement.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the department website.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* A CEP education is founded on the following: students start where they are; articulate and embrace a vision of how they intend to make a difference in the world; construct a plan (with guidance from faculty and peers) of CEP seminars, cross-disciplinary courses, and field experiences; move deliberately with this plan in the final two years of undergraduate education; through first-hand experience and in the context of the CEP community of learners, become acquainted with effective ways for working constructively together to anticipate and address critical issues facing the complex communities and world we inhabit.

A CEP education is fully lived, not passively taken. CEP students actively make their education in community with others. CEP class cohorts range from 25-30 students. This group comprises a community of mutual learning that requires commitment, personal investment, and strong teamwork strategies for two years. Through six interconnected, quarterly seminars students engage the core content of the major: community, environment, and planning. These contemporary academic fields and areas of research include the study of community as subject and practice, exploration of the ecological context of all societal life, and an investigation of the potentials of planning for developing strategies for positive change.

CEP students have gone on to careers in a variety of interdisciplinary fields such as community planning and organization, urban development, communications, work in for-profit and nonprofit sectors, public administration, education, community and environmental activism, ecology, and government/community relations.

- *Instructional and Research Facilities:* See College of Built Environments section.
- *Honors Options Available:* For Interdisciplinary Honors, see University Honors Program.
- *Research, Internships, and Service Learning:* See College of Built Environments section.
- *Department Scholarships:* Department and program offer specific scholarships. Contact program adviser for details.
- *Student Organizations/Associations:* See College of Built Environments section.

Minor

Minor Requirements: 30 credits to include URBDP 300 (5 credits); minimum 13 additional credits in URBDP-prefix courses; and 12 additional credits in planning-related courses with Urban Design and Planning adviser approval. A 2.0 minimum grade is required for each course counted toward the minor. See departmental adviser for recommended courses.

Graduate Program

Graduate Program Coordinator
410 Gould, Box 355740
(206) 543-4190
udp@uw.edu

The department offers the Master of Urban Planning (MUP) and the Master of Science in Real Estate (MSRE) degrees and its faculty participate in the interdisciplinary Doctor of Philosophy (PhD) in Urban Design and Planning. The MUP is the professional degree for urban planners, and the MSRE is a two-year professional degree that provides students the core and advanced training necessary for successful careers and leadership positions in the real estate industry. The PhD is for persons who desire careers in urban design and planning, primarily in academic research and teaching or advanced professional work.

Master of Urban Planning

The primary objective is to educate professional planners with a broad range of competence in planning and design; a second objective is to provide opportunities for individual studies in selected professional areas.

The Master of Urban Planning program focuses on planning the physical environment and its socioeconomic and political determinants. Advanced students are encouraged to conduct research and studies in one of the following specializations:

- urban design dealing with physical form, character, and quality issues
- real estate, designed to provide students a deep foundation and specialized skills to help launch or enhance professional careers in real estate
- historic preservation, focusing on the specialized skills needed actively to protect historic districts, buildings, and landscapes
- land-use and infrastructure planning, including its environmental, socioeconomic, legal, information systems, and administrative aspects
- environmental planning, addressing the interactions between urban systems and natural processes

The Master of Urban Planning degree is the usual educational qualification for professional practice of city and regional planning, including generalist planning, research, urban design, and administrative positions in a wide variety of public agencies and private consulting firms. It is a two-year, or six-quarter, program.

Admission Requirements

Requirements for graduate-level study include a satisfactory academic record and a bachelor's degree from an accredited college or university in one of a variety of disciplines, including urban planning and environmental design or in other appropriate fields, such as geography, economics, or other social sciences; English and other humanities; civil engineering and environmental studies; or architecture and landscape architecture. Students planning to enter the program should have completed at least one college-level course in each of the following areas: micro-economics, mathematics, statistics, and

cultural diversity. Students without sufficient background must take these prerequisite courses concurrently with their graduate studies.

Students are admitted to the MUP program primarily in autumn quarter and all application material should be received by the department no later than the preceding January 15 (November 15 for international applicants). Along with the Application for Admission form, the Graduate Record Examination general test scores, three letters of recommendation, official transcripts for all previous collegiate courses or programs attended, resume, supplemental information form, and a statement of purpose are required. An optional work sample may also be submitted. TOEFL is required for most applicants whose native language is not English. (See the Graduate School's application information page for more details).

Degree Requirements

Minimum 72 credits

1. Core course requirements include 33 credits covering the history and theory of planning and urban design, urban form, communication methods, quantitative methods, processes and methods of land use planning, comprehensive planning, planning law, research methods, and a planning studio.
2. 14 credits of restricted electives, including courses in advanced methods and advanced studio (both may be in an area of specialization); and courses in urban development economics, and in history/theory of planning.
3. 9-credit thesis or professional project required upon completion of all other degree coursework
4. 16 credits in open electives

The core provides a foundation in urban design and planning for all students. An internship is encouraged for those without previous professional experience. A specialization in one area of planning is required. Five major specialized areas offered in the department include land-use and infrastructure planning, real estate, urban design, historic preservation, and environmental planning.

See program website at urbdp.be.washington.edu/mup.html.

Master in Infrastructure Planning and Management (MIPM)

The Master of Infrastructure Planning and Management (MIPM) program is a two-year, eight-quarter, fully accredited online program degree. The infrastructure systems that underpin our society and ensure our quality of life are constantly at risk. Further, these systems are expanding with growth and technology advances, requiring a new level of professional management. The MIPM program teaches professionals to master the methods and core knowledge required to sustain and ensure resiliency of major infrastructures against both man-made and natural disasters. For further information, see program website at <http://www.infrastructure-management.uw.edu/mipm/>.

Admission Requirements

Satisfactory academic record and bachelor's degree from an accredited college or university in one of a variety of disciplines, including urban planning and environmental design, or in other appropriate fields such as geography, economics, or other social sciences; English and other humanities; civil engineering and environmental studies; or

law or criminal justice. Applicants should have completed at least one college-level course in mathematics. A GIS introductory course is recommended for students without experience in that discipline.

Admission is for autumn quarter and all application materials should be received by the department no later than the preceding July 15. Beginning mid-March, applications are reviewed and given an email response within a few weeks. TOEFL is required for most applicants whose native language is not English. (See Graduate School application information page for more details)

Degree Requirements

45 credits. Students take two courses per quarter. The curriculum is broken down into 16 courses. Of these, students take 15, as follows:

1. Four required core courses introduce key concepts about infrastructure, systems thinking, financial planning, and the fundamental aspects of policy making. In addition, students explore the impacts of climate change on infrastructures.
 2. Four required methods courses focus on processes related to planning and monitoring infrastructures, general management, and leadership. These processes include advanced geospatial analysis, epidemiology, emergency management, and business continuity planning.
 3. Six systems courses focus on components and characteristics that make up infrastructure systems for food, energy, communications, transportation, and more. Students gain a working knowledge of these systems, the hazards confronting them, and preventive measures. Students select five of these six courses.
- Two required capstone courses help students synthesize knowledge learned across the program and then apply it to a real-world project, conduct research, and develop a case study.
- 4.

Master of Science in Real Estate

The Master of Science in Real Estate provides students basic knowledge, core skills, and advanced understanding necessary for graduates to assume leadership positions in the real estate industry. The objective is to develop skills in students necessary to create sustainable, market-based real estate solutions that optimize the utilization of scarce resources for balanced public benefit and private gain. An overarching emphasis on interdisciplinary study provides the basis for graduates to engage in collaborative efforts among many fields and to address the complex problem of achieving sustainable cities that balance the immediate needs of current users with those of future generations.

Admission Requirements

Competitive candidates for the MSRE program possess undergraduate or previous graduate degrees in a range of appropriate disciplines, including architecture, business, construction, engineering, geography, public policy, law, or urban planning. Experience working directly in real estate or some closely related field is highly valued. The Runstad Center seeks to admit students whose objectives align with those of the program, which are to

1. Apply broad business leadership skills to solve real world problems

2. Understand how spatial and capital markets affect creation of value
3. Examine the effects of place-bound, three dimensional built forms on cities
4. Explore how behavior of decision makers impacts sustainable real estate

Students are admitted to the MSRE program for autumn quarter. Deadline for application is February 1; international applicants are strongly encouraged to submit all application materials by November 1 to allow sufficient time for review. Applicants must submit an application form, resume, statement of purpose, personal history statement, official transcripts from each college or university attended, three letters of reference, official GRE or GMAT scores, and TOEFL scores for international students.

Degree Requirements

Minimum 72 credits

The Master of Science in Real Estate degree, a demanding, interdisciplinary program, combines business management skills with an understanding of how real estate markets work and how the three-dimensional, place-bound attributes of real estate products affect their performance. Overarching these three interdisciplinary areas of study is a focus on how behaviors of those involved in making decisions about real estate investment and development affect desired outcomes.

The curriculum provides basic knowledge, core skills, and advanced understanding necessary for graduates to assume positions of leadership in the real estate industry of tomorrow. Learning leadership skills is integral to everything a student does throughout the two years in the program. Interdisciplinary study provides understanding of techniques and tools used in a broad range of fields essential to real estate, enabling graduates to lead collaborative efforts to solve complex problems of creating sustainable urban environments. The limits imposed by the physical characteristics of real estate have put a premium on understanding behaviors of people involved in creating and managing real estate projects. People make the decisions that drive values of property types. Students explore ethical behaviors leading toward emphasis on using technology to support classroom and case learning and in applying the knowledge and leadership skills learned throughout the program. For curriculum details, see the program website at <http://runstad.be.washington.edu>.

Doctor of Philosophy

Many departmental faculty are part of an interdisciplinary faculty group which offers doctoral study in urban design and planning. The program is located administratively within the Graduate School. For a description of the program, see the Interdisciplinary Graduate Degree Programs section of the catalog.

Certificate Programs

Graduate students may elect to participate in the College-wide certificate programs in urban design and historic preservation. (See program descriptions in the College of Architecture and Urban Planning section).

COLLEGE OF BUILT ENVIRONMENTS

URBAN DESIGN AND PLANNING

URBAN PLANNING

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

URBDP 200 Introduction to Urbanization: Planning and Designing Alternative Urban Futures (5) I&S

Introduces how cities work and explores alternative ways of planning and designing urban futures. Explores the economic, cultural, political, and social aspects of cities and how we might change them for the better. Also examines numerous case studies from the Global North and South.

[View course details in MyPlan: URBDP 200](#)

URBDP 300 Introduction to Urban Planning (5) I&S

Principles and theories of urban structure and institutions. Concepts and logic of planning as a community process and a professional activity. Evolution of planning ideas in response to changing social, economic, and environmental conditions within the American political framework. Complementary nature of public and private responsibilities. Major procedures used by planners.

[View course details in MyPlan: URBDP 300](#)

URBDP 301 Database Management Fundamentals (3)

Introduces the tasks and roles that contribute to the management of the design and security of database systems in an organizational context. Students gain a basic understanding of database management systems and administrative practices, as well as hands-on database experience. Credit/no-credit only.

[View course details in MyPlan: URBDP 301](#)

URBDP 370 Reading the City (5) VLPA/I&S

Comprehending cities as reflection of individual reader and social/cultural context. Skills for analyzing everyday, visible evidence of the city. Topics include self-identity with place, city, image and perception, visual design analysis; and place as representation of culture. Extensive writing, multiple texts, collaborative work in groups and fieldwork.

[View course details in MyPlan: URBDP 370](#)

URBDP 404 Introduction to Geographic Information Systems (3)

Provides students with introductory practical knowledge of Geographical Information Systems and Science for current and future coursework in urban planning.

[View course details in MyPlan: URBDP 404](#)

URBDP 405 The Urban Form (3) VLPA

Elements, patterns, and evolution of urban form. The forces that shaped cities in history. Contemporary trends. Methods of urban morphological analysis as related to urban design and planning practices. Required for MUP graduate students.

[View course details in MyPlan: URBDP 405](#)

URBDP 422 Urban and Regional Geospatial Analysis (5)

Principles of GIS applied to problems in urban design and planning, landscape architecture, and environmental and resource studies. Practical problem-solving approaches using contemporary desktop mapping packages and vector and raster GIS systems. Siting, environmental evaluation and inventories, and modeling. Prerequisite: either GEOG 317, GEOG 360, GEOG 461, GEOG 462, GEOG 465, FISH 452, or OCEAN 452. Offered: W.

[View course details in MyPlan: URBDP 422](#)

URBDP 423 Introduction to Urban Design (3) VLPA/I&S

Definitions and examples of urban design; heritage of urban design; theories of city building; the role of urban design in the fields of architecture, landscape architecture, and urban planning. Offered: Sp.

[View course details in MyPlan: URBDP 423](#)

URBDP 424 Site Planning: Issues and Techniques (3)

Introduction to site planning; how it is regulated; why it is important to know; and how to carry out its key tasks, including residential subdivision and mixed-use development layout; basic topographical and hydrological analysis and manipulation; roadways, parking and hierarchies of circulation, and site design detail. Offered: Sp.

[View course details in MyPlan: URBDP 424](#)

URBDP 429 Computer-Aided Planning of Urban Systems (3)

Survey of online planning applications; use of various on-line systems to solve urban systems design problems; investigations of hardware/software tradeoffs; human factors in man-computer systems design theory as it relates to problem-solving activity. Offered: jointly with CEE 418.

[View course details in MyPlan: URBDP 429](#)

URBDP 446 Practical Experience (4, max. 8)

Off-campus internship under academic supervision in situations useful to the education of planners, such as public/private planning and design offices, projects related to the environment, cross-cultural matters, and decision making. Assistance in identifying appropriate projects.

[View course details in MyPlan: URBDP 446](#)

URBDP 450 Introduction to Land Use, Growth Management, and Environmental Planning (3)

Provides an understanding of contemporary land use issues (including sprawl, smart growth, new urbanism, transit-oriented development, and Washington's Growth Management Act) and examines their environmental impact and social welfare implications. Analyzes best-practice techniques of growth management.

[View course details in MyPlan: URBDP 450](#)

URBDP 451 Housing (3) I&S

Survey of housing and redevelopment problems, theories, standards, and practice. Development of public policies, finance, technological considerations, social factors, and priorities. Prerequisite: 3.0 in URBDP 300.

[View course details in MyPlan: URBDP 451](#)

URBDP 457 Housing in Developing Countries (3)

Emphasis on role of the design and planning professional in housing delivery in developing countries. Exploration of issues of culture, political environment, social context, economic circumstances, and other factors which define and limit the manner in which the professional planner and designer can and should function.

[View course details in MyPlan: URBDP 457](#)

URBDP 466 Infrastructure and Community Facilities (4)

Issues and methods associated with planning for parks, schools, drainage, sewerage, utilities, libraries, solid

waste, and transportation. Covers their relationship to comprehensive plans, project permitting, and impact assessment. Financing, regulating, and relationships to social, environmental, and economic goals are discussed. ¹²²⁸
[View course details in MyPlan: URBDP 466](#)

URBDP 467 Urban Planning Uses of Remote Sensing (3)

Using aerial photographs and satellite image data in urban planning. Urban change analysis, land-use and land cover classification, and environmental planning applications. Scale and resolution considerations. Development of proficiency through laboratory exercises and use of image-processing software.

[View course details in MyPlan: URBDP 467](#)

URBDP 480 Planning as a Profession (1)

Provides students interested in the planning profession an opportunity to understand the different pathways and career choices within the profession. Introduces students to guest professionals in various planning careers and highlight key issues, skills used, and tips to entering the field. Focuses on professional practice rather than analytical methods or theory. Credit/no-credit only.

[View course details in MyPlan: URBDP 480](#)

URBDP 481 Metropolitan Planning and Development in Developing Countries (3) I&S

Examination of the nature and causes of urban planning and management problems in developing countries and exploration of alternative approaches to solve some of these problems.

[View course details in MyPlan: URBDP 481](#)

URBDP 498 Special Topics (1-9, max. 15)

Systematic study of specialized subject matter. Topics for each quarter vary, depending upon current interest and needs, and are announced in the preceding quarter.

[View course details in MyPlan: URBDP 498](#)

URBDP 499 Special Projects (1-12, max. 12)

Independent/tutorial study for undergraduates. Individual reading, research, fieldwork, or other special project, outlined in advance, approved by, and under the direction of, the faculty adviser most appropriate for the project proposed.

[View course details in MyPlan: URBDP 499](#)

URBDP 500 Survey of Urban Planning (4)

Concepts and logic of planning as a professional activity. Evolution of guiding ideas in relation to changing social, economic, and environmental conditions within the American political framework. Major procedures used by planners. Critical appraisal. Open to graduate students in urban design and planning and to graduate students in architecture seeking the urban design certificate.

[View course details in MyPlan: URBDP 500](#)

URBDP 501 Comprehensive Planning and Implementation (3) *Whittington*

Reviews the comprehensive planning process as a part of managing metropolitan growth. Examines federal/state statutes affecting local government comprehensive plans. Includes local government land use regulations and reviews development process. Concentrates on tools to shape land use and development patterns and their effectiveness in creating outcomes specified in comprehensive plans. Offered: W.

[View course details in MyPlan: URBDP 501](#)

URBDP 502 Tools for Sustainable Cities (4)

Examines specific tools used for planning sustainable cities, including hands-on learning, speakers, case studies, and site tours to enrich students' knowledge and experience. Prerequisite: CEP 200 or URBDP 300. Instructors: Sterrett Offered: SpS.

[View course details in MyPlan: URBDP 502](#)

URBDP 503 Communication and Analysis (3)

Development of communication skills understanding within the planning and design process. Presentation of

communications as a design process with mental, visual, oral, written, and kinesthetic cognitive actions¹²²⁹ combined to form communications thinking. Offered: W.

[View course details in MyPlan: URBDP 503](#)

URBDP 504 Introduction to Geographic Information Systems (3)

Provides students with introductory practical knowledge of Geographical Information Systems and Science for current and future coursework in urban planning.

[View course details in MyPlan: URBDP 504](#)

URBDP 505 The Urban Form (3)

Elements, patterns, and evolution of urban form. The forces that shaped cities in history. Contemporary trends. Methods of urban morphological analysis as related to urban design and planning practices. Required for MUP graduate students.

[View course details in MyPlan: URBDP 505](#)

URBDP 506 Planning Studio Prep (3)

Introduces plan-making process, provides time for background research, issue identification, public involvement, and preliminary analysis.

[View course details in MyPlan: URBDP 506](#)

URBDP 507 General Urban Planning Laboratory (5)

Studio/field project in applied professional planning of a comprehensive nature, utilizing a local study area to examine the realities of problem solving in situations of functional and normative conflict. Integration of analysis, programming, implementation, and presentation phases of the planning process.

[View course details in MyPlan: URBDP 507](#)

URBDP 508 Specialized Planning Laboratory (5, max. 10)

Studio/field project on a specialized planning problem. Several options are offered each year, such as regional-environmental planning, housing, metropolitan planning, and urban design. Prerequisite: ARCH 500 and ARCH 507. Additional prerequisite for some sections: urban planning seminar or lecture courses.

[View course details in MyPlan: URBDP 508](#)

URBDP 509 Resources for Urban Planning (1)

Provides an opportunity for students to explore and discuss issues of professional practice with practicing planners in an informal context. Questions posed by the participants usually emphasize practical aspects of working as planners. Credit/no-credit only.

[View course details in MyPlan: URBDP 509](#)

URBDP 510 Theories and Methodologies of Planning I (4)

Survey of the philosophy, methods, and analytical techniques used in planning public actions and policies, with emphasis on the logic and assumptions upon which these are based. Various planning surveys and methods. Open to graduate students in urban design and planning and to graduate students seeking the urban design certificate. Prerequisite: URBDP 500.

[View course details in MyPlan: URBDP 510](#)

URBDP 512 Research Seminar (3)

Planning, designing, and undertaking applied research in an urban setting. Framing, critically assessing, managing, and presenting research used in urban planning and design. Conceptual modeling of causal relationships, choice among experimental and quasi-experimental designs, and ethical and political implications of research undertakings. Exercises leading to a complete research design.

[View course details in MyPlan: URBDP 512](#)

URBDP 513 Real Estate Development Studio (5)

Offered: jointly with R E 551.

[View course details in MyPlan: URBDP 513](#)

URBDP 516 Introduction to Real Estate Economics/Market Analysis (4)

Introduces students to the urban land market in which sites and properties are embedded. Covers five areas: basic economic concepts critical in the understanding of real estate markets; urban economy; land rent theory; locational analysis and decision making; and market analysis. Offered: jointly with R E 516; Sp.

[View course details in MyPlan: URBDP 516](#)

URBDP 519 Qualitative Research Methods (3)

Qualitative research methods covering both the theoretical foundations and practical methodologies of traditional and innovative approaches, including cognitive mapping, open-ended interviews, ethnographic observation, hermeneutics, phenomenology, critical theory, communicative action, grass-roots empowerment, post-structuralism, and self organization. Offered: jointly with ARCH 567.

[View course details in MyPlan: URBDP 519](#)

URBDP 520 Quantitative Methods in Urban Design and Planning (4)

Methods of statistical and mathematical analysis in design and planning. Emphasizes the use of computer packages for analyzing urban data. Regression, matrix methods, cohort-survival populations models with examples solved on microcomputers. Prerequisite: college mathematics and basic course in probability and statistics. Instructors: Born

[View course details in MyPlan: URBDP 520](#)

URBDP 522 Urban and Regional Geospatial Analysis (5)

Provides theoretical and practical skills for analyzing spatial patterns and phenomena in metropolitan areas. Students explore the functionality of GIS as an effective tool for analyzing and modeling complex spatial relationships within urban environments. Emphasis is given to data integration and modeling through both raster and vector systems.

[View course details in MyPlan: URBDP 522](#)

URBDP 523 Introduction to Urban Design (3) I&S/VLPA

Definitions and examples of urban design; heritage of urban design; theories of city building; the role of urban design in the fields of architecture, landscape architecture, and urban planning.

[View course details in MyPlan: URBDP 523](#)

URBDP 524 Site Planning: Issues and Techniques (3)

Introduction to site planning; how it is regulated; why it is important to know; and how to carry out its key tasks, including residential subdivision and mixed-use development layout; basic topographical and hydrological analysis and manipulation; roadways, parking and hierarchies of circulation, and site design detail. Offered: W.

[View course details in MyPlan: URBDP 524](#)

URBDP 525 Evaluation in Urban Planning (3)

Methods and techniques for a priori assessment of physical improvement plans, program designs, public policies. Includes cost effectiveness and matrix or goal achievement, as well as more conventional cost-benefit and cost-revenue forms of analysis. Emphasis on understanding the reasoning and issues in evaluation, and gaining a working competence in at least one of the methods treated.

[View course details in MyPlan: URBDP 525](#)

URBDP 526 Floodplain Management and Planning for Coastal and River Communities (3) R. FREITAG

Focuses on ways to live with and cope with flooding. Examines coastal and riverine floodplain services, values and assets within the context of ecosystem services; determine risks and opportunities associated with flooding and floodplains; advance identified strategies and explore benefits and adverse impacts resulting from these strategies; and gain a better appreciation for coastal and riverine floodplains. Offered: A.

[View course details in MyPlan: URBDP 526](#)

URBDP 536 Health Impact Assessment (2)

Examines the use of Health Impact Assessment as a public health tool for informing decision-makers about the potential health impacts of proposed projects and policies. Students learn the steps for conducting HIAs, review

case studies, and conduct an HIA of a current local proposed project. Offered: jointly with ENV H 536.¹²³¹

[View course details in MyPlan: URBDP 536](#)

URBDP 538 Public Health and the Built Environment (2)

Examines how the design of communities and land use and transportation decision have positive and adverse effects on health. Considers built environment impacts on physical activity, obesity, air quality, injuries, mental health, social capital, and environmental justice; and explores interventions to promote healthy community design. Offered: jointly with ENV H 538.

[View course details in MyPlan: URBDP 538](#)

URBDP 549 Hazard Mitigation Planning (3)

A survey of the field of planning for managing risks of natural hazards-earthquakes, floods, coastal/meteorological hazards, and human-caused technological hazards/terrorism. Covers pre-event mitigation through building and land-use controls; disaster preparedness; post-event response, recovery, and mitigation of future hazards. Emphasizes hazard mitigation as a long-term strategy for achieving sustainability of communities.

[View course details in MyPlan: URBDP 549](#)

URBDP 550 Land Use, Growth Management & Environmental Planning (3)

Provides an understanding of contemporary land use issues (including sprawl, smart growth, new urbanism, transit-oriented development, and Washington's Growth Management Act) and examines their environmental and social welfare implications. Analyzes best practice techniques of growth management. Offered: A.

[View course details in MyPlan: URBDP 550](#)

URBDP 551 Real Estate Asset Management (3) *P. STONE*

Focuses on the fundamentals and structure of asset management from a value improvement perspective. Students are educated on the proactive manner asset managers need to respond to changing tenant needs and competitive market condition, while focusing on the asset appreciation throughout the ownership cycle (acquisition, leasing and disposition). Offered: jointly with R E 517; Sp.

[View course details in MyPlan: URBDP 551](#)

URBDP 552 Introduction to Real Estate (3) *S. DERMISI*

Provides a basic overview of the participants, processes, workings of different components of the real estate industry (including a variety of uses spanning from residential, office, retail and industrial to specialized) as well as the quantitative components of the real estate decision-making. Additionally, students are introduced to an overview of construction management, sustainability, corporate services, property law and ethics. Offered: jointly with R E 510; A.

[View course details in MyPlan: URBDP 552](#)

URBDP 553 Urban Land Economics (4) *C. BITTER*

Introduces urban economics, land markets, and locational decision making; and examines urban spatial structure and the economic, political, social, technological, and historical forces that shape land values and uses. Uses applied spatial analytical tools including geographic information systems and geodemographic software. Offered: jointly with R E 553; A.

[View course details in MyPlan: URBDP 553](#)

URBDP 554 Real Estate Finance and Investment (4) *S. DERMISI*

Introduces students to basic real estate finance and institutional analysis allowing them to quantify the financial implications of real estate decisions. Topics include: basic time value of money, financial leverage, discounted cash flow analysis (properties and institutional portfolios), assessment of various real estate investment classes and distribution of proceeds to investors. Prerequisite: R E 552/URBDP 552. Offered: jointly with R E 513; W.

[View course details in MyPlan: URBDP 554](#)

URBDP 555 Real Estate Appraisal (3) *C. BITTER*

Discusses valuation theory and the mechanics underlying real estate appraisal practices. Explores the unique

market within which property interests are created, allocated or transferred, the dynamic nature of real estate values, and the valuation impacts of various external factors. Offered: jointly with R E 511; A.

[View course details in MyPlan: URBBDP 555](#)

URBDP 556 Real Estate Investment (4)

Focuses on direct real estate investment based on the productive capacity of the total property, debt, and equity components and their impact on the cash returns in the form of positive returns to the property, tax savings potential, alternative leverage effects, and the gains at sale. Offered: jointly with R E 556; W.

[View course details in MyPlan: URBBDP 556](#)

URBDP 557 Real Estate Law (3) *J. FANDEL, S. OSBORNE*

Focuses on the legal principles and issues essential to understanding the workings of the real estate industry, including the fundamentals of real estate transactions and development projects. Offered: jointly with R E 515; A.

[View course details in MyPlan: URBBDP 557](#)

URBDP 558 Real Estate Market Analysis (4) *C. BITTER*

Prepares students to conduct and interpret market studies to cover a range of real estate decisions. Exposes students to the market analysis process and various tools and techniques that can be used to analyze and forecast supply, demand, and rental rates. Offered: jointly with R E 558; W.

[View course details in MyPlan: URBBDP 558](#)

URBDP 559 Real Estate Portfolio Management (5)

Students develop formal portfolio management strategies that draw on their in-depth understanding of real estate fundamentals, strategic planning and portfolio theory. Working in teams, students prepare cutting-edge portfolio strategies including the policies and procedures for implementation and portfolio management. Offered: jointly with R E 569; Sp.

[View course details in MyPlan: URBBDP 559](#)

URBDP 560 Inequality, Governance, and Policy in the Metropolitan Region (3/4)

Explores national/local urban policy concerning the major problems confronting cities and metropolitan regions today. Economic globalization, income inequality, and metropolitan decentralization shape the urban agenda, the context for urban policy, and the analytic focus of the course. A project allows the exploration of strategies for intervention. Offered: jointly with PUBPOL 560.

[View course details in MyPlan: URBBDP 560](#)

URBDP 561 Urban Economics and Public Policy (3/4, max. 12)

Examines the rationale for and consequences of public intervention in urban land, housing, and transportation markets through land use regulations such as zoning and urban growth boundaries, infrastructure investments, and fiscal policies to manage urban development and traffic. Prerequisite: PUBPOL 516 or equivalent. Offered: jointly with PUBPOL 561.

[View course details in MyPlan: URBBDP 561](#)

URBDP 562 Introduction to Neighborhood Planning and Community Development (3)

Provides introduction to basic practices in neighborhood planning and community development, including theoretical/historical bases; developing neighborhood plans/projects; indicators and evaluation of neighborhood quality; community participation; institutional framework, ethical dilemmas, and professional roles. Addresses current issues, including Seattle's experience, NIMBYism, security, neighborhood character, housing segregation, etc.

[View course details in MyPlan: URBBDP 562](#)

URBDP 564 Planning History, Theory, and Ethics (3)

Examines major historical landmarks since the Civil War (urban, suburban, and rural, physical and social-economic); theoretical alternatives (rationalism, pluralism-advocacy, critical theory, bio-regionalism, dissipative

models); and ethical issues (such as distributive justice and principles of professional conduct).

[View course details in MyPlan: URBDP 564](#)

URBDP 565 American Urban History (3)

Intensive lecture/seminar designed to provide students the opportunity for immersion in historical scholarship that addresses social, economic, political, technological, and cultural forces that have shaped the development of American cities.

[View course details in MyPlan: URBDP 565](#)

URBDP 566 Infrastructure and Community Facilities (4)

Issues and methods associated with planning for parks, schools, drainage, sewerage, utilities, libraries, solid waste, and transportation. Covers their relationship to comprehensive plans, project permitting, and impact assessment. Financing, regulating, and relationships to social, environmental, and economic goals are discussed.

[View course details in MyPlan: URBDP 566](#)

URBDP 567 Democracy, Citizenship, and Participation in the City (3)

Graduate seminar on democracy in cities. Focuses on contemporary ideas, debates, and initiatives.

[View course details in MyPlan: URBDP 567](#)

URBDP 568 Real Estate Feasibility (4)

Applies critical thinking needed to understand the drivers of value of the major property types which covers the "user in search of a site" and "investor in search of involvement" feasibility questions. Applies a combination of qualitative and quantitative analysis to target markets. Offered: jointly with R E 560; Sp.

[View course details in MyPlan: URBDP 568](#)

URBDP 573 Digital Design (4)

Uses digital technologies for mapping, drafting, modeling, and communication. Includes real-world case study projects that focus on urban design and planning issues.

[View course details in MyPlan: URBDP 573](#)

URBDP 576 Pedestrian Travel, Land Use, and Urban Form (3)

Seminar concentrating on walking as a mode of transportation in cities and city-regions, including social, cognitive, and perceptual dimensions of pedestrian movement and behavior theory. Offered: jointly with CEE 586.

[View course details in MyPlan: URBDP 576](#)

URBDP 577 Real Estate Project Finance (3) Rolfe

Introduces financing real property projects developed by public, community, and private entities with a primary emphasis on interim (acquisition/development/construction) and take-out lending for new real estate projects.

Offered: jointly with R E 570; Sp.

[View course details in MyPlan: URBDP 577](#)

URBDP 578 Real Estate Development (4) G. ROLFE

Introduction and survey of processes and people involved in developing real estate, including issues of site control, public/private approvals, feasibility analysis, project financing, design/construction, marketing, and asset management. Prerequisite: R E 552/URBDP 552. Offered: jointly with R E 550.

[View course details in MyPlan: URBDP 578](#)

URBDP 579 Real Estate Capital Markets (3) M. MAKAR

Analyses capital flows (global and national) and emerging capital market trends that affect the industry. Pays special attention to securitized real estate, including Real Estate Investment Trusts, and Commercial Mortgage-Backed Securities. Offered: jointly with R E 541; A.

[View course details in MyPlan: URBDP 579](#)

URBDP 580 Legal and Administrative Framework for Planning (3)

Political, legal, and administrative institutions closely related to the planning process. Issues of devolution of authority and public representation and participation. Legal basis for planning and associated regulation.

[View course details in MyPlan: URBDP 580](#)

URBDP 585 Introduction to Historic Preservation Planning (3)

Theories, methods, and practices associated with historic preservation planning. Overview of preservation planning programs at federal, state, and local levels. Introduction to tools and methods needed to identify, document, evaluate, and plan for protection of historic properties. Provides opportunity to learn fundamentals of preservation planning through practical experience.

[View course details in MyPlan: URBDP 585](#)

URBDP 586 Implementation in Preservation Planning (4)

Practical experience in identifying, documenting, evaluating and developing strategies for protection of historic resources, building on introductory theories, methods, and practices. Develops skills critical to preservation planning via research, fieldwork, and writing. Prerequisite: introductory course in preservation.

[View course details in MyPlan: URBDP 586](#)

URBDP 587 Preservation and the Vernacular Environment (3)

Exploration of theoretical, methodological, and practical issues related to the preservation of vernacular architecture and cultural landscapes in the United States.

[View course details in MyPlan: URBDP 587](#)

URBDP 590 Real Estate Forum I (1)

Provides an opportunity for students to learn about the interdisciplinary nature of real estate from industry leaders. Discusses current issues and opportunities in the industry as well as what it takes to develop a sustainable career path. Offered: jointly with R E 590; A.

[View course details in MyPlan: URBDP 590](#)

URBDP 591 Doctoral Seminar I (4-)

Researchable issues and research methodology. Discussion and critique of selected pieces of recent research work. Presentation and critique of research proposed by members of the seminar. Prerequisite: master's degree or equivalent in a planning discipline.

[View course details in MyPlan: URBDP 591](#)

URBDP 592 Doctoral Seminar II (-4-)

Researchable issues and research methodology. Discussion and critique of selected pieces of recent research work. Presentation and critique of research proposed by members of the seminar. Prerequisite: master's degree or equivalent in a planning discipline.

[View course details in MyPlan: URBDP 592](#)

URBDP 593 Doctoral Seminar III (-4)

Researchable issues and research methodology. Discussion and critique of selected pieces of recent research work. Presentation and critique of research proposed by members of the seminar. Prerequisite: master's degree or equivalent in a planning discipline.

[View course details in MyPlan: URBDP 593](#)

URBDP 598 Special Topics (1-6, max. 15)

Systematic study of specialized subject matter. Topics vary for each quarter, depending upon current interest and needs, and are announced in the preceding quarter. Prerequisite: permission of instructor.

[View course details in MyPlan: URBDP 598](#)

URBDP 600 Independent Study or Research (*-)

[View course details in MyPlan: URBDP 600](#)

URBDP 700 Master's Thesis (*-)

[View course details in MyPlan: URBDP 700](#)

URBDP 800 Doctoral Dissertation (*-)

COLLEGE OF BUILT ENVIRONMENTS

URBAN DESIGN AND PLANNING

INFRASTRUCTURE PLANNING AND MANAGEMENT

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

IPM 500 Strategic Planning and Policy Analysis (3)

Provides a suite of analytic and group process tools for harnessing the energy and potential of an organization to implement selected policies. Provides a framework for examining vexing societal issues, developing alternative policies to address them, and analyzing their effects and costs.

[View course details in MyPlan: IPM 500](#)

IPM 501 Comprehensive Emergency Management (3) *Freitag*

Covers the principles and practices of risk reduction, presenting disasters as realized risk and benefits as realized opportunities. Provides the ability to use emergency management approaches and tools, along with insights into intergovernmental programs and relationship and their broader social context. Offered: S.

[View course details in MyPlan: IPM 501](#)

IPM 502 Introduction to Infrastructure Systems (3)

Introduces infrastructures; systems thinking; the history, basic concepts, legal frameworks, politics, processes, and techniques used in infrastructure systems courses; and climate change as emerging yet lasting phenomenon. Includes overview of IPM online learning environment.

[View course details in MyPlan: IPM 502](#)

IPM 503 Infrastructure Finance (3)

Covers how to pay for infrastructure, including planning, budgeting, and public/private partnerships. Examines the relationships between infrastructure finance, urban form, and sustainability; local government finance, budget accountability, and equity issues; and infrastructure investments in changing economic climates, forms of finance available for infrastructure, collective decision-making, and alternative forms of project delivery. Offered: S.

[View course details in MyPlan: IPM 503](#)

IPM 504 Applied Geo Spatial Analysis (3)

Provides the theoretical and practical skills needed to use a Geographic Information System (GIS) for analyzing

spatial phenomena on the urban and regional scale. Focuses on principles and methods of spatial analysis¹²³⁷ and their application to strategic planning, risk management, and hazard mitigation.

[View course details in MyPlan: IPM 504](#)

IPM 505 Climate Change and Infrastructure (3) *Sterrett*

Takes an in-depth look at climate change and examines each of the six major infrastructure systems in relationship to climate change phenomena. Includes climate change causes and effects; global, national, state, and local mitigation and adaptation strategies; and mitigation and adaptation strategies for infrastructure systems. Offered: Sp.

[View course details in MyPlan: IPM 505](#)

IPM 506 Energy Systems (3) *Markos, Swayne*

Explores energy systems as infrastructure critical to the national and global economies; provides an overview of energy resources, production, and delivery. Examines elements of energy infrastructure, how energy systems function, global energy consumption and environmental considerations, and the history and influence of energy sector regulation and adaptation to changing markets. Offered: A.

[View course details in MyPlan: IPM 506](#)

IPM 507 Epidemiology for Health Hazards (3) *Baseman*

Introduces epidemiology including instruction in surveillance for the detection of outbreaks, and outbreak investigation, and control of health conditions potentially affected by climate change. Offered: Sp.

[View course details in MyPlan: IPM 507](#)

IPM 508 Risk Assessment and Business Continuity (3)

Provides an introduction into how organizations ensure they will survive disasters. Covers the concepts and tools organizations use to survive, and applies them to government and private systems, including energy, water, food, transportation, public health, and communications.

[View course details in MyPlan: IPM 508](#)

IPM 510 Water Systems (3) *Roderick*

Water and water supply as a system element. Water and especially freshwater, as an essential and limited resource. Looks at aging water infrastructure; user conflicts; changes in water distribution tied to climate changes; intergovernmental policy, programs, and relationship; management strategies and tools; and their effect on water and water supply. Offered: W.

[View course details in MyPlan: IPM 510](#)

IPM 511 Food Systems (3) *Born*

Food systems as a part of infrastructure. Why they matter for planners and policy makers; current production models; global trade and localization responses, policy approaches to hunger alleviation and food access; emerging concerns around food and climate change; land use issues, food justice, and governmental responses to food system concerns. Offered: W.

[View course details in MyPlan: IPM 511](#)

IPM 512 Public Health Systems (3)

Survey of issues surrounding private and public health-care systems in relation to emergency health-care services. Includes health-care cultures, critical communication, government funding, emergency preparedness, and psychological recovery from major traumatic events.

[View course details in MyPlan: IPM 512](#)

IPM 513 Capstone A: Research Design (3) *Whittington*

First of two culminating courses to support students in the development of a capstone project that demonstrates the combination of skills and knowledge accrued in the MIPM program. Students select a topic, develop a research design, and begin conducting the research for their project. Offered: Sp.

[View course details in MyPlan: IPM 513](#)

IPM 514 Transportation Systems (3)

Explores transportation systems that move both people and freight on land, water, and in the air and that are critical to keeping the economy of the United States functioning as infrastructure that will be notably impacted by global climate change. Discusses the relationship between the public and private sectors.

[View course details in MyPlan: IPM 514](#)

IPM 515 Capstone B: Implementation (3)

Second of two culminating courses to support students in the development of a capstone project that demonstrates the combination of skills and knowledge accrued in the MIPM program. Students complete their research and the project, and present to faculty and peers. Prerequisite: IPM 513. Instructors: Whittington
Offered: S.

[View course details in MyPlan: IPM 515](#)

IPM 517 Specialized Planning Laboratory (6)

Studio and field projects related to a specialized planning problem associated with floodplain management.
Offered: S.

[View course details in MyPlan: IPM 517](#)

IPM 518 Legal and Administrative Framework for Planning (3)

Reviews political, legal, and administrative institutions closely related to the floodplain planning process. Examines issues related to devolution of authority and public representation and participation. Covers the legal basis for planning and associated regulation relevant to floodplain management. Offered: S.

[View course details in MyPlan: IPM 518](#)

IPM 520 Floodplain Management Seminar I (2)

Focuses on floodplain management issues, providing context for those new to the field and offering experienced practitioners an opportunity to engage professional experts on emerging concerns. Addresses opportunities to use social media in managing floodplains as well as fundamental science/tools relevant to the field. Offered: S.

[View course details in MyPlan: IPM 520](#)

IPM 521 Floodplain Management Seminar II (2)

Focuses on current floodplain management issues and examines the application of new approaches to the field. Offers experienced practitioners an opportunity to engage professional experts while also relating leadership and conflict resolution skills to the application of floodplain management approaches. Prerequisite: IPM 520.
Offered: S.

[View course details in MyPlan: IPM 521](#)

IPM 522 Geomorphology in Floodplain Management and Landscape Design (3)

Covers geologic and geomorphological processes of rivers, floodplains, and coastal areas in context of landscape planning. Lectures, laboratory exercises, and field trips emphasize understanding fundamental physical landscape process and its application to landscape planning with an emphasis on management of flood-prone areas. Offered: S.

[View course details in MyPlan: IPM 522](#)

IPM 523 Ecological Processes in Coastal and Floodplain Management (2)

Examines hydrologic, biologic, and ecological concepts of rivers, floodplains, and coastal areas in the context of floodplain management and landscape planning. Lectures, laboratory exercises, and field trips emphasize understanding fundamental processes and methods and their application to planning and management. Offered: S.

[View course details in MyPlan: IPM 523](#)

IPM 528 Floodplain Management and Planning for River Population (3)

Focuses on the systematic study of floodplain management processes and strategies for near river communities.
Offered: S.

[View course details in MyPlan: IPM 528](#)

IPM 598 Special Topics (1-6, max. 12)

Systematic study of specialized subject matter. Topics vary for each quarter, depending upon current interest and needs. Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: IPM 598](#)

IPM 600 Independent Study or Research (*)

Directed Study. Topics determined according to program needs. Offered: AWSpS.

[View course details in MyPlan: IPM 600](#)

COLLEGE OF BUILT ENVIRONMENTS

BUILT ENVIRONMENTS

REAL ESTATE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

R E 350 Introduction to Real Estate (3)

Introduction to the real estate profession focusing on the participants and processes as well as real estate decision making by buyers and sellers. Offered: W.

[View course details in MyPlan: R E 350](#)

R E 360 Real Estate Market Analysis (3)

The course is designed to introduce students to basic elements of real estate markets studies for different uses. It begins with an overview of the basic steps regardless of real estate use followed by the analysis of data sources, public policy issues affecting cities and their economy and software available to analyze different market patterns. Prerequisite: RE350 Offered: Sp.

[View course details in MyPlan: R E 360](#)

R E 400 Accounting for Real Estate (3)

The course is tailored towards non-business majors and covers basic accounting concepts while emphasizing tax and accounting methodologies in relation to the development and management of real estate assets. Students will understand and practice the accounting fundamentals and their application to real estate. Offered: Sp.

[View course details in MyPlan: R E 400](#)

R E 507 Accounting for Real Estate (3)

Provides an overview of basic accounting concepts and emphasizes tax and accounting methodologies in relation to the development and management of real estate assets. Topics include: understanding balance sheets; income statements; annual reports; GAAP accounting and standards; and federal and real estate property taxation. Offered: A.

[View course details in MyPlan: R E 507](#)

R E 508 Financial Modeling for Real Estate I - Excel (2) G. ROLFE

Introduces students to commercial real estate modeling, use of Excel and handheld financial calculators. Allows students to gain mastery and confidence in setting up and using preforms and models to analyze real estate investment, asset management, and development. Offered: A.

[View course details in MyPlan: R E 508](#)

R E 509 Financial Modeling for Real Estate II (2)

Introduces students to commercial real estate modeling, using advanced and sophisticated software utilized by real estate professionals. The students gain mystery and confidence in setting up and using pro-formas and models to analyze real estate investment, asset management, and development. Offered: W.

[View course details in MyPlan: R E 509](#)

R E 510 Introduction to Real Estate (3) S. DERMISI

Provides a basic overview of the participants, processes, workings of different components of the real estate industry (including a variety of uses spanning from residential, office, retail and industrial to specialized) as well as the quantitative components of the real estate decision-making. Additionally, students are introduced to an overview of construction management, sustainability, corporate services, property law and ethics. Offered: jointly with URBDP 552; A.

[View course details in MyPlan: R E 510](#)

R E 511 Real Estate Appraisal (3) C. BITTER

Discusses valuation theory and the mechanics underlying real estate appraisal practices. Explores the unique market within which property interests are created, allocated or transferred, the dynamic nature of real estate values, and the valuation impacts of various external factors. Offered: jointly with URBDP 555; A.

[View course details in MyPlan: R E 511](#)

R E 512 Leadership in the Built Environment (3)

Focuses on leadership principles applicable to the real estate and the built environment and helps students conduct self-assessments to understand their strengths and ways they can apply them. Addresses both organizational leadership and leadership of construction processes. Offered: A.

[View course details in MyPlan: R E 512](#)

R E 513 Real Estate Finance and Investment (4) S. DERMISI

Introduces students to basic real estate finance and institutional analysis allowing them to quantify the financial implications of real estate decisions. Topics include: basic time value of money, financial leverage, discounted cash flow analysis (properties and institutional portfolios), assessment of various real estate investment classes and distribution of proceeds to investors. Prerequisite: R E 552/URBDP 552. Offered: jointly with URBDP 554; W.

[View course details in MyPlan: R E 513](#)

R E 514 Negotiations and Conflict Resolution in the Built Environment (3)

Overview of negotiation theories, approaches and tactics. Application of deal making procedures for various aspects of real estate decision making processes and audiences (e.g. government, community groups, real estate organizations and partners). Analysis of conflict resolution techniques, mediation, arbitration, etc. Offered: W.

[View course details in MyPlan: R E 514](#)

R E 515 Real Estate Law (3) J. FANDEL, S. OSBORNE

Focuses on the legal principles and issues essential to understanding the workings of the real estate industry, including the fundamentals of real estate transactions and development projects. Offered: jointly with URBDP 557; A.

[View course details in MyPlan: R E 515](#)

R E 516 Introduction to Real Estate Economics/Market Analysis (4)

Introduces students to the urban land market in which sites and properties are embedded Covers five areas: basic economic concepts critical in the understanding of real estate markets; urban economy; land rent theory; locational analysis and decision making; and market analysis. Offered: jointly with URBDP 516; Sp.

[View course details in MyPlan: R E 516](#)

R E 517 Real Estate Asset Management (3) P. STONE

Focuses on the fundamentals and structure of asset management from a value improvement perspective. Students are educated on the proactive manner asset managers need to respond to changing tenant needs and

competitive market condition, while focusing on the asset appreciation throughout the ownership cycle¹²⁴² (acquisition, leasing and disposition). Offered: jointly with URBDP 551; Sp.

[View course details in MyPlan: R E 517](#)

R E 518 Best Practices in Sustainable Real Estate (3) *S. DERMISI*

Analyzes, at a macro level, the importance of sustainability in urban areas introducing best practices for various environmentally friendly and financially feasible interventions in the US and abroad. At a micro level focuses on adoption of environmentally friendly improvements at building level with various pay-back periods but long-lasting economic benefits. Offered: W.

[View course details in MyPlan: R E 518](#)

R E 530 Corporate Real Estate (3)

Emphasizes the understanding of ways real estate footprint can be a factor in attaining the vision/mission of a corporation. Analyzes principles of corporate real estate, key activities and internal relationships, customer motivation, drivers, client based strategic approaches as well as the industry evaluation process including reporting and client deliverables.

[View course details in MyPlan: R E 530](#)

R E 531 Risk and Portfolio Management (3)

Focuses on the development and implementation of active and passive portfolio management strategies for institutional quality real estate investment portfolios. Modern portfolio theory and other tools are used to establish real estate allocation in a mixed-asset context; and to manage real estate portfolios among investment and financial structures spanning private/public, equity/debt, property type and geographic/economic regions. Offered: A.

[View course details in MyPlan: R E 531](#)

R E 532 Real Estate Project Management (3) *S. DERMISI*

Focuses on the on real estate and construction project management. Topics include: types of project managers, sources of conflicts, organizational structures, delivery methods, construction scheduling, SWOT analysis, ways to mitigate threats to their project. Includes hands on exercises and an introduction of MS Project software. Offered: A.

[View course details in MyPlan: R E 532](#)

R E 540 Advanced Real Estate Finance and Investments (3)

Covers both private and public forms of investment, along with debt and equity positions. Introduces students to real estate investments and the risk/reward trade-offs associated with various deal structures and relationships with financial institutions. Also covers real estate indices and tools to assess transaction risks. Offered: Sp.

[View course details in MyPlan: R E 540](#)

R E 541 Real Estate Capital Markets (3) *M. MAKAR*

Analyses capital flows (global and national) and emerging capital market trends that affect the industry. Pays special attention to securitized real estate, including Real Estate Investment Trusts, and Commercial Mortgage-Backed Securities. Offered: jointly with URBDP 579; A.

[View course details in MyPlan: R E 541](#)

R E 542 Private - Public Project Finance (3)

Explores creative ways of project financing through public and private partnerships in the form of incentives (e.g. TIF, LIHTC, Brownfield development incentives, etc.) currently offered by different government levels throughout the USA. Prepares to identify the incentives for a project and structure a deal package based on a project's parameters. Offered: A.

[View course details in MyPlan: R E 542](#)

R E 550 Real Estate Development (4) *G. ROLFE*

Introduction and survey of processes and people involved in developing real estate, including issues of site control, public/private approvals, feasibility analysis, project financing, design/construction, marketing, and

asset management. Prerequisite: R E 552/URBDP 552. Offered: jointly with URBDP 578.

[View course details in MyPlan: R E 550](#)

R E 551 Real Estate Development Studio (5)

Offered: jointly with URBDP 513.

[View course details in MyPlan: R E 551](#)

R E 553 Urban Land Economics (4) C. BITTER

Introduces urban economics, land markets, and locational decision making; and examines urban spatial structure and the economic, political, social, technological, and historical forces that shape land values and uses. Uses applied spatial analytical tools including geographic information systems and geodemographic software.

Offered: jointly with URBDP 553; A.

[View course details in MyPlan: R E 553](#)

R E 556 Real Estate Investment (4)

Focuses on direct real estate investment based on the productive capacity of the total property, debt, and equity components and their impact on the cash returns in the form of positive returns to the property, tax savings potential, alternative leverage effects, and the gains at sale. Offered: jointly with URBDP 556; W.

[View course details in MyPlan: R E 556](#)

R E 558 Real Estate Market Analysis (4) C. BITTER

Prepares students to conduct and interpret market studies to cover a range of real estate decisions. Exposes students to the market analysis process and various tools and techniques that can be used to analyze and forecast supply, demand, and rental rates. Offered: jointly with URBDP 558; W.

[View course details in MyPlan: R E 558](#)

R E 559 Risk and Reward in Sustainable Development (3) N. DENAMUR

Focuses on the intersection of green, high performing buildings and the law. Students learn to identify and understand the risks and challenges presented by high-performing buildings, and analyze frameworks and strategies to manage and overcome these challenges. Offered: jointly with LAW E 534; Sp.

[View course details in MyPlan: R E 559](#)

R E 560 Real Estate Feasibility (4)

Applies critical thinking needed to understand the drivers of value of the major property types which covers the "user in search of a site" and "investor in search of involvement" feasibility questions. Applies a combination of qualitative and quantitative analysis to target markets. Offered: jointly with URBDP 568; Sp.

[View course details in MyPlan: R E 560](#)

R E 569 Real Estate Portfolio Management (5)

Students develop formal portfolio management strategies that draw on their in-depth understanding of real estate fundamentals, strategic planning and portfolio theory. Working in teams, students prepare cutting-edge portfolio strategies including the policies and procedures for implementation and portfolio management. Offered: jointly with URBDP 559; Sp.

[View course details in MyPlan: R E 569](#)

R E 570 Real Estate Project Finance (3) Rolfe

Introduces financing real property projects developed by public, community, and private entities with a primary emphasis on interim (acquisition/development/construction) and take-out lending for new real estate projects.

Offered: jointly with URBDP 577; Sp.

[View course details in MyPlan: R E 570](#)

R E 590 Real Estate Forum I (1)

Provides an opportunity for students to learn about the interdisciplinary nature of real estate from industry leaders. Discusses current issues and opportunities in the industry as well as what it takes to develop a

sustainable career path. Offered: jointly with URBDP 590; A.

[View course details in MyPlan: R E 590](#)

R E 597 Advanced Real Estate Economics/Market Analysis (3) C. BITTER

Focuses on techniques used to analyze real estate market fundamentals. Topics include productivity analysis; local economic analysis; market delineation; and supply, demand, and rent forecasting. Introduces statistical models used in real estate analysis including time-series analysis and hedonic models. Offered: WS.

[View course details in MyPlan: R E 597](#)

R E 598 Real Estate Special Topics (1-4, max. 12)

Systematic study of specialized subject matter. Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: R E 598](#)

R E 600 Independent Study or Research (1-3, max. 3)

Arranged between the student and a real estate faculty member of their choosing with a mutually agreed real estate topic. Offered: AWSp.

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

SPCI 505 Epidemiology of Biological and Chemical Hazards Mitigation I: Principles (3)

Introduction to epidemiology: surveillance for detection of outbreaks, outbreak investigation, and control for infectious agents, toxins, and chemicals. Case studies are drawn from actual outbreaks illustrating these essential epidemiological methods. Examines problem-solving techniques. Credit/no-credit only.

[View course details in MyPlan: SPCI 505](#)

SPCI 506 Strategic Planning Practicum I (3)

Uses case-based and problem-based approaches to teach the techniques of planning, decision-making, and analysis common to critical infrastructures.

[View course details in MyPlan: SPCI 506](#)

SPCI 510 Strategic Planning Practicum II (3)

Second in a three-course sequence that uses case-based and problem-based approaches to teach the techniques of planning, decision-making, and analysis common to critical infrastructures. Credit/no-credit only.

[View course details in MyPlan: SPCI 510](#)

SPCI 511 Business Continuity Planning (3)

Introduces safeguards that organizations can employ to ensure they survive a disaster, using examples from government services, banking and finance. Presents specifics of disaster/crisis management, business impact analysis, contingency planning, continuity of operations, and risk reduction tools. Examines lessons learned from 9/11.

[View course details in MyPlan: SPCI 511](#)

SPCI 513 Strategic Planning Practicum III (3) *Whittington*

Uses case-based and problem-based approaches to teach the techniques of planning, decision-making, and analysis common to critical infrastructures. Third in a three-course sequence. Offered: WS.

[View course details in MyPlan: SPCI 513](#)

SPCI 515 Capstone (4) *Whittington*

Culminating course where students select one of several problem-solving methods (problem-based case, tabletop exercise, research paper) and complete a final project focusing on a real-world problem. Requires mastery of the methodological skills and infrastructure knowledge taught in the program.

[View course details in MyPlan: SPCI 515](#)

SPCI 598 Special Topics (1-4, max. 12)

Systematic study of specialized subject matter. Topics vary for each quarter, depending upon current interest and needs, and are announced in the preceding quarter.

School Overview

Dean

Jim Jiambalvo
303a Dempsey

Associate Dean for Academic Affairs

Thomas Lee

303d Dempsey

busadmin@uw.edu

Men and women embarking on business careers have the opportunity to influence many of the social, political, and economic forces in today's world. The Foster School prepares students for professional careers in management and related disciplines in both the private and public sectors.

The Foster School offers an undergraduate program leading to the degree of Bachelor of Arts in Business Administration (BABA) and graduate programs leading to the degrees of Master of Business Administration (MBA), Executive Master of Business Administration (EMBA), Technology Management Master of Business Administration (TMMBA), Master of Professional Accounting (MPAcc), and Doctor of Philosophy (PhD). An evening MBA program is also offered. Additionally, the Foster School offers a Master of Science degree in Information Systems (MSIS) and a Global Executive Master of Business Administration (GEMBA).

Business Administration became an independent unit within the University system in 1917. It has been accredited by the American Assembly of Collegiate Schools of Business (now known as the International Association for Management Education) since 1921.

Facilities and Services

Most Foster School classes and activities are in four buildings. Dempsey Hall, named for Neal and Jan Dempsey, contains the dean's office, MBA and undergraduate offices, the Arthur W. Buerk Center for Entrepreneurship, MBA and undergraduate career centers as well as classrooms and an executive forum. PACCAR Hall offers a combination of U-shaped tiered classrooms, meeting spaces, a 250-seat auditorium, student breakout rooms, faculty offices, and a soaring atrium with a café and a boardroom. It is equipped with a wide range of technology enhancements including web-linked digital monitors and distance conferencing capabilities. Mackenzie Hall, named in memory of Professor Donald Mackenzie, Chair of the Department of Accounting from 1949 to 1955, contains the offices of the Foster School's Consulting and Business Development Center, the Global

Business Center, the Center for Leadership and Strategic Thinking, and the Foster School Advancement and Alumni teams. A fourth building, on the northwest side of Dempsey, has three distinct components: the Bank of America Executive Education Center (which includes the James B. Douglas Executive Forum), the Boeing Auditorium, and the Albert O. and Evelyn Foster Business Library.

To serve the continuing education needs of middle- and senior-level managers, the Foster School offers a number of certificate programs, either University-initiated or co-sponsored with various community and industry organizations. The Executive Development Program, a nine-month, one night per week program, strengthens understanding and skills in all areas of management and provides an opportunity for successful managers to learn from a distinguished faculty and each other. Short courses and seminars are offered throughout the year, focusing on topics such as leadership, finance and accounting for non-financial executives, and negotiation skills. In addition, the School develops and runs custom programs under contract with individual companies and organizations. Information on continuing education programs may be obtained from the Office of Executive Education, (206) 543-8560, fax (206) 685-9236, execed@uw.edu.

International Business Programs

International business programs are coordinated and developed by the Foster School's Global Business Center. These activities include special graduate and undergraduate certificate programs, the Global Business Program, seminars, internships, business foreign-language programs, special guest-speaker programs, and study tours. Although the Marketing and International Business Department offers a general curriculum in international business, each of the five academic departments within the Foster School maintains faculty with special international teaching and research expertise. Internationally oriented courses are offered by each department.

At the undergraduate level, the Foster School offers the Certificate of International Studies in Business (CISB) program. Students in the program complete the same demanding business curriculum as other students and enhance this training with foreign language study, area studies, and an international experience. The program requires that students have a solid foundation in one of five language tracks: Chinese, French, German, Japanese, and Spanish; a sixth custom track for other languages is also an option.

At the MBA level, the Foster School offers opportunities for MBA students to build on the international business foundation that every MBA develops through the first year of the program. In addition to international business electives, the program offers overseas travel through study tours, quarter-long exchange programs, and international internships. MBA students may also participate in the weekly Global Business Forum, which brings top international business leaders to campus to discuss important issues facing their companies and industries.

Questions regarding these programs may be directed to (206) 685-3432 or goabroad@uw.edu.

Entrepreneurship Programs

The focus of the Foster School's entrepreneurship programs is on nurturing skills that generate creative ideas, innovative processes, and new business growth. These skills are developed through special academic certificate programs, internships, a business plan competition, club activities, and consulting opportunities with area businesses.

The Center for Innovation and Entrepreneurship (CIE) is open to both undergraduate and graduate students from the Foster School as well as other University schools and colleges. Through its workshops, events (Entrepreneur Week), and annual competitions (Business Plan Competition, Environmental Innovation Challenge, and Venture Capital Investment Competition), CIE encourages a cross-discipline and collaborative approach to business creation, and nurtures overall entrepreneurial thinking in students. The CIE's Lavin Program is a curriculum for entrepreneurially minded undergraduates that provides the core foundational experience, skills, and know how for developing future business ventures. Graduate students may take the Entrepreneurship Certificate program, which offers real-world experience, technology internships with the UW Center for Commercialization, and mentoring from the Seattle entrepreneurial community. For more information visit www.startup.washington.edu, or contact CIE at (206) 685-9868, or uwcie@uw.edu.

The Business and Economic Development Center (BEDC) matches undergraduate and graduate student consulting teams with small-business owners in Seattle's inner city to implement business development projects. Through courses, independent study options, summer internships, and hands-on projects with inner-city entrepreneurs, students explore the challenges faced by central city businesses, while also providing valuable assistance. Questions about the Business and Economic Development Center can be directed to the program office at (206) 543-9327.

Consulting Programs

The Business and Economic Development Center (BEDC) matches undergraduate and graduate student consulting teams with small-business owners in Seattle's inner city to implement business development projects. Through courses, independent study options, summer internships, and hands-on projects with inner-city entrepreneurs, students explore the challenges faced by central city businesses, while also providing valuable assistance. Questions about the Business and Economic Development Center can be directed to the program office at (206) 616-1216 or wtutol@uw.edu.

Business Career Center

The Business Connections Center coordinates all MBA and MPAcc career services. These include career counseling and career management workshops, the administration of special career events such as career fairs, company presentations, on-campus MBA and MPAcc recruitment, and a job-listing service. The Business Connections Center also administers alumni and executive mentoring programs. Questions regarding these programs and services may be directed to the center's office, 202 Lewis, (206) 685-2410.

Undergraduate business-career counseling and on-campus recruitment is provided by the UW Center for Career Services, 134 Mary Gates Hall, (206) 543-0535.

Instructional Resources Office

The Instructional Resources Office promotes excellence in teaching by providing resources in current practice and research in teaching and learning. The office serves faculty and teaching assistants with individual consultations, coordinates a teaching preparation program for doctoral students, and offers assistance with instructional innovations. Questions can be directed to the Instructional Resources Office, 317 Lewis, (206) 685-9608.

The Business Writing Center

The mission of the Business Writing Center is to help undergraduates develop the writing skills essential to professional success. The center offers one-on-one tutoring, workshops and peer feedback for special class projects, and opportunities for advanced students to be peer tutors. Questions can be directed to the center's office, 337 Lewis, bwrite@uw.edu.

Honor Societies

Beta Gamma Sigma is the national scholastic honor society in the field of business. Election to membership is available to both undergraduate and graduate students in business. Selection is based on outstanding scholastic achievement.

Beta Alpha Psi is the accounting honor society. Membership is based primarily on scholastic achievement, but some community service is also required. Beta Alpha Psi provides a mechanism for students, professionals, and educators to meet on both formal and informal bases.

The goals and interests of graduate students are served by the MBA Association, Business Consulting Network, Challenge for Charity, Entrepreneurship and Innovation Club, Graduate Consulting Club, MBA Finance Club, Global Business Association, Graduate and Professional Student Senate, MBA Marketing Club, Net Impact, High-Tech Club, MBA Speakeasy, Women in Business, and the Doctoral Association.

The Foster School offers the following programs of study:

- The Bachelor of Arts in Business Administration degree with options in accounting, entrepreneurship, finance, human resources management, information systems, and marketing.
- A minor in entrepreneurship

Bachelor of Arts in Business Administration

Suggested First- and Second-Year College Courses: English composition, calculus, ECON 200, ECON 201. In addition, classes to fulfill general education requirements which

develop strong writing and analytic skills. ACCTG 215, ACCTG 225, MGMT 200, and Q METH 201 are suggested second-year college work.

Department Admission Requirements

The Foster School offers admission to upper division applicants for autumn and winter quarters. Those UW students who are prepared, as freshmen, to apply for early admission, may do so only for autumn quarter. Students admitted for autumn may elect to take classes during the prior summer quarter.

Applicants are considered in two admission groups: the Freshman Direct Admission Program and the Upper-Division Admission Group (UAG), described below. The following requirements apply to the Upper-Division Admission Group:

1. A minimum cumulative 2.50 GPA for all college coursework
2. A minimum cumulative 2.50 GPA for all required business courses
3. A student who has previously attended the UW also must have GPAs of at least 2.50, both UW cumulative and in UW business courses.
4. Since eligible applicants exceed the space available, acceptance is competitive. Admission is based on evaluation of four factors:
 - a. overall scholastic record
 - b. grades in pre-application courses, described below
 - c. written communication skills
 - d. evidence of leadership skills, community activities, and the promise of achievement in a business or professional career.

Consideration is also given to such factors as economic and educational disadvantage, significantly higher recent grades, and exceptional extracurricular activities or work experience.

Admission for UAG is offered twice a year, for autumn and winter quarters. A Foster School application, together with all supporting materials, must be on file by April 5 for autumn quarter admission or October 5 for winter quarter admission. Records of all coursework completed by the deadline must be submitted at the time of application. Admission for Freshman Direct is offered once a year, for autumn quarter only.

Freshman Direct Admission Program

The Foster School enrolls a small number of students each year directly out of high school, prior to completion of any university-level prerequisites. Freshmen applicants to the University listing Business Administration as their intended major are automatically considered. Admission is offered to students with exceptionally competitive academic records, including but not limited to high school GPA and SAT or ACT scores.

Upper-Division Admission Group (UAG)

Students must present a minimum of 60 academic credits at the time of application including the following graded credits: ACCTG 215; ECON 200 or ECON 201; MATH 112, MATH 124, or MATH 134; an approved English composition course, chosen from C LIT 240, ENGL 104-ENGL 105, ENGL 111, ENGL 121, ENGL 131, ENGL 197, ENGL 198, ENGL 199, or ENGL 281, ENGL 297, ENGL 298, or ENGL 299. In addition, the following courses must be completed prior to admission in autumn quarter: ACCTG 225;

ECON 200 and ECON 201; MGMT 200; QMETH 201. Applicants should take general education or elective courses to complete the minimum 60 graded credits.

Students admitted to the UW as freshmen are expected to take ACCTG 215, ACCTG 225; MGMT 200; and QMETH 201 in residence.

Qualified applicants with at least 45 credits and a minimum 2.85 GPA who meet University admission requirements, but not Foster School requirements, are eligible to be placed in the College of Arts and Sciences as pre-business majors.

The University of Washington provides equal opportunity in education without regard to race, color, creed, religion, national origin, sex, sexual orientation, age, marital status, disability, or status as a disabled veteran or Vietnam veteran in accordance with UW policy and applicable federal and state statutes and regulations.

Graduation Requirements

180 credits as follows:

General Education Requirements: The following must be selected from the University Areas of Knowledge courses: 20 credits in Visual, Literary, & Performing Arts; 20 credits in Individuals & Societies, including 10 credits in microeconomics and macroeconomics (ECON 200 and ECON 201); 20 credits in the Natural World, including 5 credits in calculus (MATH 112, MATH 124, or MATH 134); most students need precalculus before taking college calculus (some precalculus courses qualify for the Natural World requirement); 5 credits in English composition.

Students from community colleges in Washington should check the Transfer Guide or consult with their community college adviser for equivalent courses. Students from other four-year schools should see an adviser at their school. Students entering the Foster School under the terms of the Associate Degree Agreement may apply courses selected from the community college's breadth list toward the general education requirements.

Foster School Requirements: ACCTG 215, ACCTG 225; QMETH 201; MGMT 200; B ECON 300; MKTG 301; I S 300; I BUS 300; OPMGT 301; FIN 350; MGMT 300; MGMT 320; MGMT 430; and 300- or 400-level business electives (or area of concentration) to bring the total number of business credits to 72; two writing-intensive courses, one from B CMU 301, B CMU 410, ENGL 281, ENGL 381; one from English composition, or from the remaining three courses listed immediately above, or from any W course. No more than 6 lower-division business elective credits; a minimum of 90 non-business credits, which may include up to 14 credits of economics and up to 9 credits of statistics but not GEN ST 350; a minimum 2.50 cumulative GPA in all business credits earned at the UW; and a cumulative 2.50 GPA for all UW credits. No more than 8 credits of business independent research coursework may be applied to the degree and no more than 4 credits of business independent research coursework may be applied to upper-division business electives. No more than 8 credits of internship coursework is applicable to the degree. Business internship credit may not apply to the upper-division business elective requirement. Students must complete six of the nine upper-division core courses, including MGMT 430, and 40 of the 53 required upper-division business credits through the UW. Students who have taken more than three of the nine upper-division core business courses at another school should consult an academic adviser in the Foster School Undergraduate Program Office prior to applying.

Accounting Option: The notation "Accounting" is indicated on the permanent record, or transcript, of a student who graduates with a degree of Bachelor of Arts in Business

Administration and who completes the following courses with a minimum cumulative GPA of 2.50: ACCTG 301, ACCTG 302, ACCTG 303, ACCTG 311, ACCTG 320, ACCTG 411, ACCTG 421, ACCTG 440, and at least one 400-level accounting elective, excluding ACCTG 401, ACCTG 490, ACCTG 495, and ACCTG 499. Students who have completed ACCTG 505 may not apply to the accounting option. The accounting option requires 186 credits for graduation.

Entrepreneurship Option: The notation "Entrepreneurship" is indicated on the transcript of a student who graduates with a degree of Bachelor of Arts in Business Administration and who completes the following courses with a minimum 2.50 cumulative GPA: ENTRE 370, FIN 457, MKTG 455; 8 credits of the following courses: ENTRE 422, ENTRE 432, ENTRE 440, ENTRE 443, ENTRE 459, or ENTRE 472 and ENTRE 473.

Finance Option: The notation "Finance" is indicated on the transcript of a student who graduates with a degree of Bachelor of Arts in Business Administration and who completes the following courses with a minimum cumulative GPA of 2.50: one course from FIN 450, FIN 453, FIN 454, or FIN 457; either FIN 460 or FIN 461; four additional courses chosen from the 400-level FIN courses, B ECON 301 or ECON 301, or the 400-level B ECON courses, excluding FIN 490, FIN 495, FIN 499, B ECON 490, and B ECON 499.

Human Resources Management Option: The notation "Human Resources Management" is indicated on the transcript of a student who graduates with a degree of Bachelor of Arts in Business Administration and who completes the following courses with a minimum cumulative 2.50 GPA: MGMT 311, MGMT 411, MGMT 412, and two of the following courses: MGMT 323, MGMT 401, MGMT 402, MGMT 403, MGMT 404, or MGMT 413.

Information Systems Option: The notation "Information Systems" is indicated on the transcript of a student who graduates with a degree of Bachelor of Arts in Business Administration and who completes the following courses with a minimum 2.50 cumulative GPA: I S 320, I S 410, I S 445, I S 451, and I S 460.

Marketing Option: The notation "Marketing" is indicated on the transcript of a student who graduates with a degree of Bachelor of Arts in Business Administration and who completes the following courses with a minimum 2.50 cumulative GPA: MKTG 450, MKTG 460, and three additional MKTG electives, excluding MKTG 490, MKTG 495, and MKTG 499. It is recommended that students take MKTG 450 and MKTG 460 before they take the other electives.

Operations and Supply Chain Management Option: The notation "Operations and Supply Chain Management" is indicated on the transcript of a student who graduates with a degree of Bachelor of Arts in Business Administration and who completes the following courses with a minimum 2.50 cumulative GPA: QMETH 450, OPMGT 443, OPMGT 450, I S 451.

Admission to the options: Students can apply to one option at the same time they apply to the Foster School. Continuing Foster School students can apply during publicized application periods. If demand for the option exceeds the number of spaces available, students are considered based on the factors identified for admission to the Foster School and on their GPA in all previous option-specific courses.

Continuation Policy

All students must make satisfactory academic progress in the major. Failure to do so results in probation, which can lead to dismissal from the major. For the complete continuation policy, contact the departmental adviser or refer to the [School website](http://www.washington.edu/students/genclat/academic/school_business.html).

Minor

Entrepreneurship

Admission is competitive, based on evaluation of three factors: (1) overall scholastic record; (2) grades in lower division prerequisite coursework; (3) evidence of entrepreneurial activities or the promise of achievement in an entrepreneurial business career. Application deadlines and requirements are available in the Foster School Undergraduate Programs Office or at foster.washington.edu/undergrad.

Minor requirements – 31 or more credits as follows: (1) ACCTG 215 and ACCTG 225, or equivalent; (2) ECON 200, or equivalent; (3) ENTRE 370; (4) ENTRE 472 and ENTRE 473; (5) one additional ENTRE elective at 300 level or above, selected from a list maintained in the Foster Undergraduate Programs Office; (6) Minimum 2.00 cumulative GPA in courses applied to the minor.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* A business education develops important communication and interpersonal skills. The ability to express an idea, negotiate a settlement, motivate others, manage time, and build collaborative networks distinguishes the most successful business people. UW Foster School students learn to recognize and define problems, examine data, and persuasively communicate their ideas to achieve results in organizations and people's lives. Regardless of post-graduation path -- be it climbing up the corporate ladder, starting a company, joining the Peace Corps, entering law school, or becoming a doctor -- a business education helps immeasurably.
- *Instructional and Research Facilities:* Paccar and Dempsey Halls boast a wide range of technology enhancements including web-linked digital monitors and distance conference capabilities as well as 25 team rooms for student use, and direct access to the library. The Foster Business Library houses an extensive collection of books, reference tools, and journals necessary to the study of business. The Buerk Center Innovation Lab represents a new paradigm for integrating entrepreneurial education with technology development and hands-on experience.
- *Honors Options Available:* Honors students benefit from a sense of community generated by Honors seminars, as well as from the academic challenge associated with more rigorous study. The program requirements are flexible, challenging students to explore business topics in greater depth. Students entering the Honors program become candidates for the degree "With College Honors" or "With Honors."
- *Research, Internships, and Service Learning:* The Foster School encourages student participation in internships to supplement in-class learning experiences. For more information about internship guidelines and a list of undergraduate internship opportunities, visit www.foster.washington.edu/academic/undergrad/Pages/Internships.aspx.
- *Department Scholarships:* The Foster School awards approximately 90 undergraduate scholarships. Some are general scholarships while others are specific to options or areas of concentration. Only students admitted to both the UW and the Foster School are eligible to receive awards. Applicants are considered for all scholarships for which they meet the minimum qualifications and specific criteria. Although financial need is not a requirement for all business scholarships, most are awarded on the basis of need. (The FAFSA must be filed with the Office of Student Financial Aid.) The Foster School scholarship application is due April 5.

- *Student Organizations/Associations:* Chapters of Alpha Kappa Psi, Association of Black Business Students, Beta Alpha Psi, Business Ethics Association, Delta Sigma Pi, International Association of Students in Economics and Business (AIESEC), American Marketing Association, Business Information Technology Society, Hispanic Business Association, Husky Sales Club, Husky Traders, Latino Professional in Finance and Accounting, National Association of Black Accountants, Society for Human Resources Management, Startup UW, Undergraduate Management Consulting Association, University Sales Club, and Undergraduate Women in Business provide opportunities for undergraduate students to meet informally and to participate in a variety of projects and events.

Double Baccalaureate and Second Baccalaureate

Students who wish to earn more than one baccalaureate degree should consult an academic adviser in the Foster School Undergraduate Program Office, either during or before their junior year. Persons seeking a second baccalaureate should apply at the University's Office of Undergraduate Admissions. To be considered, applicants must complete by quarter of entry the same prerequisites for admission as applicants for the first baccalaureate degree. Since the number of eligible applicants exceeds available space, acceptance is competitive, based on the criteria listed above for selection of first baccalaureate degree applicants. The Foster School uses the GPA for the last 90 credits earned.

Undergraduate Diversity Services

Recruitment, admission counseling, advising, and support services are available for minority students underrepresented at the University, and students from educationally and economically disadvantaged backgrounds. Special scholarships are also available for underrepresented minority students. Academic advisers have information on this program.

Graduate Programs

Associate Dean for Master's Degree Programs

David Burgstahler

Admission

Qualified students who are graduates of the University of Washington or other accredited colleges or universities may be admitted to graduate degree programs. GPA, Graduate Management Admission Test score, work experience, educational and professional objectives, and other factors are considered in the admission process. Inquiries concerning the details of admission should be made to the specific degree program of interest, University of Washington, Foster School of Business, Mackenzie Hall, Box 353200, Seattle, WA 98195.

Application Procedure

Applications to the MBA, EMBA, and PhD programs are considered for entry in autumn quarter only. Applications to the Technology Management MBA and Master of Science in Information Systems program are considered for entry in winter quarter only. The formal deadlines for application are February 1 for the PhD program; December 1, January 1, February 1, and March 1 for domestic applicants for the MBA; February 1 for international

applicants for the MBA; April 1 for Evening MBA; and April 15 for the Executive MBA and MPAcc programs. Students are encouraged to apply as early as possible for the programs.

The Foster School of Business offers programs of study leading to the advanced degrees of Master of Business Administration, Master of Professional Accounting, Master of Science in Information Systems, and Doctor of Philosophy. Four programs can lead to an MBA degree: the full-time program, the evening program, the Technology Management (TMMBA) program, and the Executive MBA program.

Master of Business Administration

Executive Director

Dan Poston

110 Mackenzie Hall, Box 353200

(206) 543-4661

mba@uw.edu

Degree Requirements

96 credits (80 credits for evening MBA)

The full-time Master of Business Administration degree program has been designed for students preparing for a professional career in management. A period of two academic years, or 96 academic credits, is required for most students to complete the MBA program. The first year of the program consists of 48 credits of required courses: B A 500, B A 501, B A 502; three of the following bridge elective options: EBIZ 509 (required for EBIZ certificate), ENTRE 509 (required for CIE certificate), FIN 509 (prerequisite for most finance electives), I BUS 509, MGMT 579 (2-4, max. 12), or MKTG 509. The second year of the program is 48 credits of elective courses. The student may take no more than 24 credits in any one elective area.

The evening MBA program is targeted toward fully employed college graduates who seek a management degree that can be earned outside their regular working hours. Instruction takes place two evenings per week and students typically take two courses per quarter. The program consists of 80 academic credits, with normal completion of degree requirements in ten quarters. The course requirements are as follows: ACCTG 500, ACCTG 501, B ECON 500, B ECON 501, FIN 502, I S 504, MGMT 500, MGMT 502, MGMT 505, MKTG 501, OPMGT 502, QMETH 500, QMETH 501, 34 credits of electives

Special Programs

Within the MBA program, there are options for special study: global business program; e-business program, and the program in entrepreneurship and Innovation. The following concurrent degree programs are also available: MBA/JD with the School of Law, MBA/MAIS with the Henry M. Jackson School of International Studies, MBA/MSE with the College of Engineering's Program in Engineering and Manufacturing Management, and MBA/MHA with the School of Public Health.

Executive Master of Business Administration

Director

Louise Kapustka

(206) 685-1333
emba@uw.edu

Since the autumn of 1983, the Executive MBA Program has provided an additional pathway to the Master of Business Administration degree. The EMBA program provides an intensive executive-development experience to a select group of midcareer managers who continue to work full-time while pursuing the MBA degree. Candidates for this two-year program should have seven or more years of increasingly successful work experience including three to four years in management, and currently hold mid- or top-level management positions. They are typically sponsored by their organizations and have been identified as employees with high potential to advance as general managers. Students are selected to ensure diversity of industry, functional areas, and organizational size.

The Executive MBA degree program is offered in two scheduling options. Both run for two academic years, September through June. (1) The Regional Program meets on campus for a full day once a week, on alternating Fridays and Saturdays. In addition, students attend spring and fall residence sessions each year. (2) The North America Program meets on campus once a month, generally for three consecutive days, Thursday through Saturday. Between monthly sessions, students continue to interact with faculty and classmates online via the Internet and interactive groupware. This format is designed for individuals from the greater Northwest as well as those from the Puget Sound area whose schedules preclude weekly attendance.

While the scope of the curriculum is comparable to that of the regular MBA program, the pace is more intense and the perspective is that of a general manager. There are 21 required courses and no electives.

Admission Requirements

1. *Letter of Endorsement:* Candidates must be sponsored by their employing organizations and endorsed by senior management as potential general managers. In sponsoring EMBA candidates, organizations agree to release them on class days and, in some cases, to cover the program fee. Individuals not sponsored by a company need to submit an additional letter of recommendation in place of the letter of endorsement.
2. Three letters of recommendation
3. Graduate Management Admission Test (GMAT) scores
4. Two sealed copies of official transcripts from all degree-granting institutions attended

Applications are accepted throughout the year, with an application deadline of April 15 for the class beginning each autumn. Late applications are handled on a space-available basis.

Degree Requirements

68 credits

The 21-month, 68-credit curriculum builds a solid foundation of business fundamentals. Case studies and group projects link theory with current business practice. Themes based on current trends in business, including the impact of technology and globalization, are threaded through the entire curriculum.

Students frequently use their own organizations as laboratories, applying lessons learned in the classroom and then bringing the results back to the class for further discussion.

The following are the required courses: EMBA 502, EMBA 503, EMBA 504, EMBA 505, EMBA 506, EMBA 510, EMBA 511, EMBA 512, EMBA 520, EMBA 521, EMBA 529, EMBA 530, EMBA 531, EMBA 532, EMBA 533, EMBA 534, EMBA 540, EMBA 551, EMBA 552, EMBA 558.

Technology Management Master of Business Administration

Director

(206) 221-6995

tmmba@uw.edu

The Technology Management MBA program is designed for professionals who are employed in technology companies or who work in technology jobs in more traditional businesses. The curriculum combines the essential components of management education with a specialized focus on high-tech industries. It is structured for individuals who want to play a broader role in management and are seeking the necessary management skills and business knowledge. The program is focused on real-world projects and analyses, collaborative learning in study groups, and extensive participant interaction in the classroom. Candidates for this 18-month program have technology experience and upward career progression.

The Technology Management MBA program provides an intensive educational experience to professionals who continue to work full-time while pursuing their MBA degree. The TMMBA program runs six consecutive quarters of instruction—beginning every January and ending the next year in June. Three-hour sessions are held once a week on a mid-week evening and six-hour sessions are scheduled two Saturdays per month. There are 68 required credits of which 6 are electives. Additionally, two residential sessions are offered one at the beginning of the program and one at the end. Candidates may be sponsored by their organizations or apply on their own.

Admission Requirements

1. Applicants should hold a professional position and have a minimum five years of work experience. Applicants must demonstrate a career trend of increased responsibilities or promotions. Supervisory or management experience is not required, but applicants should demonstrate leadership potential. Candidates' work accomplishments and letters of recommendation should provide evidence of their potential for senior management.
2. Applicants must hold a baccalaureate degree from an accredited college or university.
3. Personal statement
4. Three letters of recommendation and evaluations
5. Resume
6. Interview
7. GMAT scores
8. Two sealed copies of official transcripts
9. *Additional requirement for permanent residents:* proof of English language proficiency (if applicable)

10. *Additional requirements for international applicants:* International Graduate Admissions Application, Proof of Financial Ability form, photocopy of current visa (if applicable), notice of action (if applicable), proof of English language proficiency (if applicable)

Each year approximately 50 students are accepted into the TMMBA Program. Applications are accepted throughout the year. Contact the TMMBA office to determine application deadlines for the upcoming class.

Degree Requirements

68 credits, as follows:

TMMBA 500, TMMBA 501, TMMBA 502, TMMBA 503, TMMBA 505, TMMBA 507, TMMBA 510, TMMBA 512, TMMBA 515, TMMBA 516, TMMBA 517, TMMBA 520, TMMBA 521, TMMBA 522, TMMBA 528, TMMBA 530, TMMBA 551, 6 credits of electives

Master of Professional Accounting

Managing Director

Francine Shafer
231 Mackenzie
(206) 616-4964

The Master of Professional Accounting (MPAcc) prepares students for high-level careers with major accounting and consulting firms, governmental agencies, and industry. Students with undergraduate degrees in accounting may complete the program in three quarters. Students with no prior business background must take an expanded version of the program. Enrollment is limited to 25 to 30 students in each of two tracks - Accounting and Assurance (A&A) and Taxation. MBA students with a strong interest in accounting and taxation may earn a joint MBA/MPAcc degree.

Admission Requirements

1. Satisfactory completion of prerequisite courses (see website for list of prerequisite courses)
2. Scores from the GMAT exam
3. International TOEFL scores
4. Well written essays
5. Work experience
6. Volunteer and student activities

Degree Requirements, Auditing and Assurance Pathway

48 credits, as follows:

1. ACCTG 521, ACCTG 523, ACCTG 527, ACCTG 576, ACCTG 566, ACCTG 577, ACCTG 579
2. *Internship:* ACCTG 575. If no internship, complete four approved elective classes: ACCTG 420, ACCTG 524, ACCTG 525, ACCTG 562 ACCTG 564

Degree Requirements, Taxation Pathway

48 credits, as follows:

ACCTG 530, ACCTG 531, ACCTG 533, ACCTG 534, ACCTG 535, ACCTG 536, ACCTG 537, ACCTG 538, ACCTG 539, ACCTG 541, ACCTG 541, ACCTG 543, ACCTG 547

Master of Science in Information Systems

Program Director

Sarah Garner
568 PACCAR
(206) 543-4587
msis@uw.edu

The Master of Science in Information Systems (MSIS) program provides professionals with the tools needed to bridge the gap between business and technology. The four-quarter standardized program trains IS students to understand the role of information technology and identify the appropriate technology solution to either solve an existing business problem or create a new business opportunity. Building on the Foster School's strong emphasis on strategic thinking and leadership, this program teaches students how to critically analyze business situations and use innovative approaches that suit those situations in a manner consistent with the overall organizational strategy.

This full-time, 12-month program holds classes on two weeknights and on some Saturdays; allowing professionals to earn their MSIS degree while working. The program starts in summer quarter (June) every year. Candidates should have an information systems background to be considered for admission.

Admissions Requirements

Our objective is to select students who demonstrate a strong aptitude for business, demonstrated leadership capacity, and a strong commitment to completing program requirements. Applicants are selected not only for their potential to benefit from the program, but also for the experience and knowledge they can contribute to the class. Applicants are evaluated using the following criteria:

1. Past academic experience
2. General intellectual ability
3. Managerial potential
4. Ability to communicate clearly, succinctly, and persuasively

For a detailed list of admissions requirements, visit the MSIS website.

Degree Requirements

44 credits, as follows:

1. MSIS 501, MSIS 502, MSIS 503, MSIS 504, MSIS 510, MSIS 511, MSIS 512, MSIS 521, MSIS 522, MSIS 523, MSIS 524, MSIS 526, MSIS 547, MSIS 550
2. 4 credits of electives from: MSIS 541, MSIS 542, MSIS 543, MSIS 544, MSIS 545, MSIS 546

Doctor of Philosophy

Program Coordinator

Jaime Banaag
102 Mackenzie
(206) 543-4111
baphd@uw.edu

The PhD program in business administration is research-based and designed to train scholars interested in academic careers, although this training is also useful for individuals seeking research positions in business and government, as well as in consulting firms.

With the guidance of faculty members who have similar interests, PhD students complete a program of formal coursework (minimum of 18 courses) and participate in doctoral seminars, independent study, and research. A Faculty Supervisory Committee is appointed early in the program to assist each student in constructing a course of study that fits that individual's background and interests. Students select one major area of specialization and complete requirements in two or three additional minor areas that support their major area of specialization (including areas outside the Foster School, such as economics, psychology, and mathematics). Throughout the program, doctoral students receive support and training that hone their skills as teachers and course developers.

Major areas of concentration include accounting, finance, human resource management and organizational behavior, marketing, information systems, operations management, operations research, and strategic management. All doctoral students are required to have research methods as one of their minor areas.

Doctoral study is full-time and year-round, and students are admitted autumn quarter only (application deadline is January 15). Most candidates require four to five years to complete the program. The school's goal is to make financial aid available, in the form of research and teaching assistantships, to all of its doctoral students. In addition to service appointments, fellowships are available on a competitive basis to support students engaged in their dissertation research during the final part of their programs.

Special Requirements

Applicants to graduate business programs are required to submit scores on the Graduate Management Admission Test. Those admitted to the MBA program must demonstrate understanding of the fundamental concepts of calculus.

Departments

- [Accounting](#)
- [Finance and Business Economics](#)
- [Management and Organization](#)
- [Information Systems and Operations Management](#)
- [Marketing and International Business](#)

Accounting

Accounting involves development and communication of financial and operational information for business and nonprofit economic entities. The curriculum includes understanding accounting information systems, using accounting information in managerial decision making, preparing and auditing financial statements under generally accepted accounting and auditing standards, and understanding the fundamental aspects of personal and corporate taxation. Elective courses provide in-depth instruction in managerial and financial accounting, not-for-profit accounting, and taxation. Courses provide a foundation for careers in accounting (public, industrial, private, or governmental), for a general business career, or for other professions such as law.

For more information, see the [Department of Accounting](#) website.

Finance and Business Economics

Finance and Business Economics address the financial and economic aspects of business decision making. The finance curriculum focuses on financial management and the financial markets within which firms and individual investors operate. Business economics courses concern the economic behavior of firms, including factors that determine costs and prices, and real and monetary forces (such as government policies) that affect the national and international economic environment.

For more information, see the [Department of Finance and Business Economics](#) website.

Management and Organization

Management and Organization provides an understanding of the processes and structures of organizations through three distinct programs. The Human Resource Management and Organizational Behavior (HRMOB) courses address personnel and industrial-relations topics such as selection, performance appraisal, compensation, and negotiations, as well as behavioral topics such as leadership, motivation, and group dynamics. They prepare students for managing an organization's human resources effectively. The Organization and Environment (O E) courses examine organization theory, organization design, and management of technology and innovation, as well as the social, political, legal, and ethical environments in which organizations operate. They give students the knowledge, perspective, and analytical tools to deal effectively with organization-environment interactions. The Business Policy (B POL) courses focus on organizational effectiveness from the viewpoint of top management. Emphasis is placed on an integrated view through strategic management and control, planning, decision making, and entrepreneurship.

For more information, see the [Department of Management and Organization](#) website.

Information Systems and Operations Management

The Department of Information Systems and Operations Management consists of three sub-areas: Information Systems (I S), Operations Management (OPMGT), and Quantitative Methods (QMETH). The information systems area focuses on the management of computer-based information systems. The I S curriculum is designed to give students a basic understanding of I S technology and its impact on all phases of an organization. Specific areas of study include telecommunications and network design, systems analysis and design, database management, expert systems, and applications programming. The operations management area of study refers to the functional area of management which produces goods or services in an organization. Specifically, the OPMGT curriculum focuses on the many changes which have occurred in the past ten years in the way that managers think, plan, and operate manufacturing and service

facilities. The area includes courses in logistics, quality, inventory and supply-chain management, project management, and waiting lines, among others. The quantitative methods area focuses on the theory and application of mathematical and statistical tools in the modeling and analysis of business problems. The QMETH curriculum includes courses in statistics and data analysis as well as courses in operations research (e.g., linear programming, forecasting, and using spread-sheets to construct decision support models).

For more information, see the [Information Systems and Operations Management](#) website.

Marketing and International Business

Marketing (MKTG) provides knowledge of concepts and relationships in the areas of consumer behavior, channels of distribution, measurement and analysis of markets, pricing, physical movement of goods, product development, promotion, and sales administration. Marketing careers may involve specialization in Internet marketing, product or brand management, advertising, selling, sales management, marketing research, retailing, wholesaling, and international marketing for a wide spectrum of firms and industries. International Business (I BUS) includes trade, payments, and multinational corporate systems and activities. The area prepares students for international responsibilities in domestic business firms, governmental agencies, and overseas business. Courses in Business Communications (B CMU) stress writing in organizations to accomplish goals, oral reporting, business plan presentation, and the use of computer graphics in communication.

For more information, see the [Department of Marketing and International Business](#) website.

FOSTER SCHOOL OF BUSINESS ACCOUNTING

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ACCTG 199 Accounting for Problem Solving (2, max. 4)

Supplementary lectures, discussions, and problem- solving sessions in introductory accounting. Enrollment priority to EOP students and others by permission. Credit may not be applied to fulfill specific program requirements. Corequisite: ACCTG 215. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: ACCTG 199](#)

ACCTG 215 Introduction to Accounting and Financial Reporting (5)

Nature and social setting of accounting; uses of accounting information; introduction of basic accounting concepts and procedures; interpretation of financial statements. May not be repeated. Offered: AWSpS.

[View course details in MyPlan: ACCTG 215](#)

ACCTG 219 Essentials of Accounting (4)

Provides an introduction to basic accounting principles and procedures; use of accounting information to make decisions from the perspective of both external investors and internal managers. Cannot be taken for credit if ACCTG 225 has been completed for credit.

[View course details in MyPlan: ACCTG 219](#)

ACCTG 225 Fundamentals of Managerial Accounting (5)

Analyses and evaluation of accounting information as part of the managerial process of planning, decision making, and control. Concentrates on information useful to enterprise managers. Prerequisite: ACCTG 215; ECON 200; may not be repeated. Offered: AWSpS.

[View course details in MyPlan: ACCTG 225](#)

ACCTG 275 Accounting and Finance Essentials (3) QSR Paperman

Explores the economic foundations of accounting systems. Discusses the short-term and long-term implications of using accounting information to evaluate performance, create budgets, and analyze financial statements. Not open for credit to students pursuing a business degree. Offered: Sp.

[View course details in MyPlan: ACCTG 275](#)

ACCTG 301 Intermediate Accounting I (4)

Concepts and principles of financial accounting. Analysis of controversies and problems related to the measurement of enterprise income and asset and liability valuation. Prerequisite: minimum grade of 2.0 in

ACCTG 225; may not be repeated. Offered: AWSpS.

[View course details in MyPlan: ACCTG 301](#)

ACCTG 302 Intermediate Accounting II (4)

Concepts and principles of financial accounting. Analysis of controversies and problems related to the measurement of enterprise income and asset and liability valuation. Prerequisite: minimum grade of 2.0 in ACCTG 301; minimum grade of 2.0 in B CMU 301; may not be repeated. Offered: AWSp.

[View course details in MyPlan: ACCTG 302](#)

ACCTG 303 Intermediate Accounting III (4)

Concepts and principles of financial accounting. Analysis of controversies and problems related to the measurement of enterprise income and asset and liability valuation. Prerequisite: minimum grade of 2.0 in ACCTG 302; may not be repeated. Offered: AWSp.

[View course details in MyPlan: ACCTG 303](#)

ACCTG 311 Cost Accounting (4)

Introduction to the theory of cost accounting; job order, process, and standard cost systems; overhead accounting; problems in accumulation and allocation of costs; decision making with cost data. Prerequisite: minimum grade of 2.0 in ACCTG 225; may not be repeated. Offered: AWSpS.

[View course details in MyPlan: ACCTG 311](#)

ACCTG 320 Introduction to Accounting Information Systems (4)

Concepts of accounting information systems in organizations. Processes of analyzing and designing accounting information systems, with emphasis on those using computer facilities. Internal controls and auditing considerations. Prerequisite: minimum grade of 2.0 in ACCTG 225; I S 300 which may be taken concurrently; may not be repeated. Offered: AWSpS.

[View course details in MyPlan: ACCTG 320](#)

ACCTG 321 Tax Effects of Business Decisions (4)

Issues in taxation, including tax considerations in business decision making, tax effects of business transactions, taxation of compensation, fringe benefits, capital gains, fixed asset transactions, disposition of business distribution from corporations. Prerequisite: minimum grade of 2.0 in ACCTG 301; may not be repeated. Offered: AWSpS.

[View course details in MyPlan: ACCTG 321](#)

ACCTG 375 Topics in Financial Reporting (4)

Critical examination of the uses and limitations of general purpose financial statements that have been prepared in accordance with generally accepted accounting principles. Not open for credit to accounting majors or to students who have completed ACCTG 301. Prerequisite: minimum grade of 2.0 in ACCTG 225; may not be repeated.

[View course details in MyPlan: ACCTG 375](#)

ACCTG 411 Auditing Standards and Principles (4)

Intensive introduction to the attest function in society today. The environment, the process, and the report of the public auditor are analyzed. Potential extensions of the attest function are examined. Prerequisite: minimum grade of 2.0 in ACCTG 303; 2.0 in ACCTG 320; may not be repeated. Offered: AWSpS.

[View course details in MyPlan: ACCTG 411](#)

ACCTG 420 Database Management for Accounting (4)

Continuation of ACCTG 320, covering database and processing architectures, database reliability, database recovery, database security, database administration, internets and intranets, and network security. Not available for credit to information systems majors or to students who have completed I S 410 and I S 445. Prerequisite: minimum grade of 2.0 in ACCTG 320; may not be repeated.

[View course details in MyPlan: ACCTG 420](#)

ACCTG 440 Accounting and Financial Management Decisions (4)

Business financial planning with an emphasis of the role of accounting information in financial decisions. Topics include the accounting and finance aspects of business valuation, short and long term financing, short and long term investments, alternative types of debt and equity financing, and related topics. Prerequisite: minimum grade of 2.0 in ACCTG 303; 2.0 in ACCTG 311; 2.0 in ACCTG 321; FIN 350; may not be repeated. Offered: AWSp.

[View course details in MyPlan: ACCTG 440](#)

ACCTG 450 Business Taxation (4)

Issues of taxation for entities other than individuals, including corporations, subchapter S corporations, partnerships, estates, and trusts. Includes corporate distributions, liquidations, and reorganizations. Prerequisite: minimum grade of 2.0 in ACCTG 321; may not be repeated. Offered: WSp.

[View course details in MyPlan: ACCTG 450](#)

ACCTG 451 Individual Income Taxation (4)

Political, economic, and social forces influencing federal income taxation, role of taxation in personal decisions. Coverage of individual income tax matters, including business and investment income, business and personal deductions, property transactions, and tax issues of employees. Prerequisite: minimum grade of 2.0 in ACCTG 321; may not be repeated. Offered: Sp.

[View course details in MyPlan: ACCTG 451](#)

ACCTG 460 Advanced Cost Accounting (4)

Advanced analysis of cost and management accounting problems; special applications of cost accounting techniques for management planning and control; current developments in cost accounting. Prerequisite: minimum grade of 2.0 in ACCTG 311; may not be repeated. Offered: Sp.

[View course details in MyPlan: ACCTG 460](#)

ACCTG 471 Fraud Examination (4)

Provides a comprehensive introduction to the concepts and techniques of the fraud examination process. Prerequisite: ACCTG 225; MGMT 200; either QMETH 201, IND E 315, MATH 390/STAT 390, Q SCI 381, PSYCH 315, PSYCH 318, SOC/STAT/CS&SS 221, STAT 220, or STAT 311.

[View course details in MyPlan: ACCTG 471](#)

ACCTG 480 Accounting for Not-for-Profit Organizations (4)

Fund and budgetary accounting as applied to public sector organizations, such as governments, foundations, hospitals, and colleges. Prerequisite: minimum grade of 2.0 in ACCTG 302; may not be repeated. Offered: WSp.

[View course details in MyPlan: ACCTG 480](#)

ACCTG 485 Advanced Financial Accounting (4)

Accounting for partnerships, accounting for business combinations, parent-subsidiary and branch relationships, foreign exchange. Prerequisite: minimum grade of 2.0 in ACCTG 303; may not be repeated. Offered: A.

[View course details in MyPlan: ACCTG 485](#)

ACCTG 490 Special Topics in Accounting (1-6, max. 12)

Special topics of current concern to faculty and students. Offered only when faculty is available and student interest is sufficient. Class is announced in advance of scheduled offerings.

[View course details in MyPlan: ACCTG 490](#)

ACCTG 495 Accounting Internship (1-4, max. 8)

One quarter's internship with a certified public accounting firm, industrial organization, or government agency. Prerequisite: ACCTG 301. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ACCTG 495](#)

ACCTG 499 Undergraduate Research (1-6, max. 9)

Arranged and supervised by individual members of the faculty.

[View course details in MyPlan: ACCTG 499](#)

ACCTG 500 Financial Accounting (4)

Introduction to concepts and procedures underlying determination and presentation of information for financial decisions by investors and other decision makers outside the business enterprise. Study of problems of valuation, income determination, and financial reporting.

[View course details in MyPlan: ACCTG 500](#)

ACCTG 501 Managerial Accounting (4)

Study of the generation and the use of accounting information within the firm for purposes of planning and controlling operations. Topics covered include cost concepts, responsibility accounting systems, cost control, and the use of accounting information in short- and long-term management decision problems. Prerequisite: ACCTG 500.

[View course details in MyPlan: ACCTG 501](#)

ACCTG 503 Introduction to Accounting for Managers (4)

Provides potential managers with a basic knowledge of financial and managerial accounting. Focuses on the use, not the preparation, of accounting information. Examples presented for a variety of for-profit and nonprofit organizations.

[View course details in MyPlan: ACCTG 503](#)

ACCTG 505 Intensive Analysis of Accounting Principles and Practices (26)

Covers the subjects in the required core for undergraduate accounting majors: intermediate accounting, advanced accounting, cost accounting, auditing, and tax accounting. Credits do not count toward MBA degree. Prerequisite: ACCTG 215 and ACCTG 225 or equivalent, or permission of instructor.

[View course details in MyPlan: ACCTG 505](#)

ACCTG 506 Intensive Analysis of Accounting Principles and Practices I (6)

First of an intensive three-course program. Emphasizes the practical application of accounting concepts in a business setting. Credits do not count toward MBA degree. Prerequisite: ACCTG 215; ACCTG 225 or equivalent, or permission of instructor. Offered: A.

[View course details in MyPlan: ACCTG 506](#)

ACCTG 507 Intensive Analysis of Accounting Principles and Practices II (6)

Second of an intensive three-course program. Covers the third part of financial accounting, accrual-based financial statements, and cost accounting for decision-making. Credits do not count toward MBA degree. Prerequisite: ACCTG 506. Offered: W.

[View course details in MyPlan: ACCTG 507](#)

ACCTG 508 Intensive Analysis of Accounting Principles and Practices III (6)

[View course details in MyPlan: ACCTG 508](#)

ACCTG 510 Introduction to Financial Statement Analysis (4)

Extension of the core financial accounting material, focusing on the use of financial statements to assess the financial position and prospects of companies. Examines the critical financial reporting issues that influence interpretation of financial statements. Prerequisite: either B A 500, ACCTG 500, or permission of instructor.

[View course details in MyPlan: ACCTG 510](#)

ACCTG 511 Advanced Financial Statement Analysis (4)

Covers accounting issues related to firm valuation and use of financial statement information to assess the risks and rewards of various firm strategies. Prerequisite: ACCTG 510 or permission of instructor.

[View course details in MyPlan: ACCTG 511](#)

ACCTG 513 Tax Effects of Business Decisions (4)

Importance of tax considerations in making business decisions. Covers regulatory and economic impacts of the

U. S. tax system. Prerequisite: either B A 500, ACCTG 500, or permission of instructor.

[View course details in MyPlan: ACCTG 513](#)

ACCTG 515 Problems in Managerial and Cost Accounting (4)

Extension of the core management accounting material. Uses cases and discussion to analyze costing techniques, use of accounting data in planning and evaluation of managerial performance, and use of accounting data in short-run and long-run decisions. Prerequisite: either B A 502, ACCTG 501, or permission of instructor.

[View course details in MyPlan: ACCTG 515](#)

ACCTG 521 Cases and Issues in Information Quality and Assurance Services (4)

Analysis of cases and discussions of current issues dealing with assurance services.

[View course details in MyPlan: ACCTG 521](#)

ACCTG 523 Advanced Financial Analysis (4)

Explores the use of published financial reports by decision makers external to the firm (e.g. investors and creditors). Emphasis is on traditional and statistical analyses of financial statements for the purposes of making economic decisions.

[View course details in MyPlan: ACCTG 523](#)

ACCTG 524 Individual Taxation (4)

Political, economic, and social forces influencing federal income taxation, role of taxation in personal decisions. Coverage of individual tax matters, including business and investment income, business and personal deductions, property transactions, and tax issues of employees.

[View course details in MyPlan: ACCTG 524](#)

ACCTG 525 Business and International Taxation (4)

Issues of taxation for entities other than individuals, including corporations, subchapter S corporations, partnerships, estates, and trusts. Includes corporate distributions, liquidations, and reorganizations. International dimensions of business taxation introduced. Prerequisite: ACCTG 524.

[View course details in MyPlan: ACCTG 525](#)

ACCTG 526 Principles of Taxation for Auditors (4)

Raises level of understanding of the tax law and enables intelligent conversation about business income tax topics. Covers flow-through entities (partnerships, S. Corps & LLCs), corporate taxation, non-taxable exchanges, and planning techniques.

[View course details in MyPlan: ACCTG 526](#)

ACCTG 527 Communications in Professional Accounting (4)

Introduction to the communications practices of professional accountants. Development of effective written and oral skills employed in accounting presentations such as audit reports. Study of results of organizational communications research applicable to accounting firms and units within firms.

[View course details in MyPlan: ACCTG 527](#)

ACCTG 528 Communications, Marketing, and Interpersonal Skills for Auditors (4)

Emphasizes improving interpersonal skills and students' abilities to market their firm.

[View course details in MyPlan: ACCTG 528](#)

ACCTG 529 Business Ethics and Law for Accountants (4)

Explores basic legal and ethical principles underlying the practice of accounting. Special attention devoted to spotting legal and ethical issues as they arise in a commercial and professional context.

[View course details in MyPlan: ACCTG 529](#)

ACCTG 530 Tax Issues in Property Ownership (4)

Analysis of gain and loss realization, recognition, and characterization of such. Detailed exploration of statutory and case law regarding acquisition, ownership, and disposition of assets. Treatment of capital and ordinary gains

and losses. Timing issues regarding deferral transactions and installment reporting are analyzed. Prerequisite: undergraduate accounting concentration or equivalent.

[View course details in MyPlan: ACCTG 530](#)

ACCTG 531 Timing and Periods of Taxation (3)

Analysis of the cash and accrual methods of accounting, choice of taxable period and multi-period transaction analysis. Consideration of statute of limitations and mitigation thereof. Details of passive activity losses.

Prerequisite: undergraduate accounting concentration or equivalent.

[View course details in MyPlan: ACCTG 531](#)

ACCTG 533 Procedural and Policy Issues (3)

Analysis of the procedures of federal taxation: assessment, collection, and refund claims. Detailed exploration of the rules governing the statute of limitations and the mitigation thereof. An introduction to tax policy considerations is given. Tax penalties are explored. Prerequisite: undergraduate accounting concentration or equivalent.

[View course details in MyPlan: ACCTG 533](#)

ACCTG 534 Fundamentals of Corporate Taxation (3)

Detailed analysis of contribution of assets to corporations. Calculation of recognized gains and basic effects of asset contributions. Treatment of income and deduction items of corporate operations. Analysis of distribution of assets to shareholders with respect to their stock. Prerequisite: undergraduate accounting concentration or equivalent.

[View course details in MyPlan: ACCTG 534](#)

ACCTG 535 Advanced Issues in Corporate Taxation (3)

A continuation of ACCTG 534. Fundamentals of moving assets out of and within corporate solution. Basics of corporate reorganizations: acquisitive and divisive. The details of the election to obtain (or avoid) the Section 338 election are explored in detail. Prerequisite: undergraduate accounting concentration or equivalent; ACCTG 534 or permission of instructor.

[View course details in MyPlan: ACCTG 535](#)

ACCTG 536 Tax Provisions (3)

Examines the components of corporate income tax provisions. Topics include the current and deferred provision, balance sheet and income statement impacts, rate reconciliations, and audit documentation and standards.

Prerequisite: undergraduate accounting concentration or equivalent; ACCTG 535 or permission of instructor.

[View course details in MyPlan: ACCTG 536](#)

ACCTG 537 Income Taxation of Conduits I (3)

Tax consequences to owners and entity from formation, operation, distributions from, and liquidation of partnerships and S corporations. Study of taxable and tax-free formations, nature of "bottom line" income and separately stated items, changes to owners' tax basis, basics of non-liquidating and liquidating distributions.

Prerequisite: undergraduate accounting concentration or equivalent. Offered: W.

[View course details in MyPlan: ACCTG 537](#)

ACCTG 538 Income Taxation of Conduits II (3)

A continuation of ACCTG 537. Study of complex issues in partnership and S corporation taxation. Substantial portion involves resolving case studies to improve analytic skills and interrelate partnership and S corporation planning issues. Sections 751(b) and 736 examined in detail. Prerequisite: undergraduate accounting concentration or equivalent; ACCTG 537 or permission of instructor.

[View course details in MyPlan: ACCTG 538](#)

ACCTG 539 Tax Research and Decision Making (4)

Decision-making processes in relation to problems of taxation. Tools of tax analysis and research and the communication of conclusions flowing from professional tax work. Role of the professional accountant in client business transactions and in negotiations with taxing authorities is highlighted and simulated on the basis of

actual case histories. Prerequisite: undergraduate accounting concentration or equivalent.

[View course details in MyPlan: ACCTG 539](#)

ACCTG 540 Communications for Taxation Professionals I (4)

Focuses on internal communications in an accounting firm setting. Evaluation of difficult tax question and practice communicating advice and explanations to colleagues and managers.

[View course details in MyPlan: ACCTG 540](#)

ACCTG 541 Communications for Taxation Professionals II (4)

Introduction to the communications forms and to practices of professional accountants and accounting managers. Development of effective written and oral skills employed in accounting presentations, such as audit reports and consultants' reports. Study of results of organizational communications research applicable to accounting firms and/or units within firms. Prerequisite: undergraduate accounting concentration or permission of instructor.

[View course details in MyPlan: ACCTG 541](#)

ACCTG 542 Communications for Taxation Professionals III (4)

Development of oral and written skills associated with the tax accountant's role as a client advocate. Develop communication production related to the various stages of a tax case. Prerequisite: ACCTG 541.

[View course details in MyPlan: ACCTG 542](#)

ACCTG 543 Income Taxation of Trusts and Estates (3)

Development of fundamental skills regarding income taxation of trusts and estates. Calculation of distributable net income and the distribution deduction for the fiduciary entity. Basic analysis of the throwback rules. Case studies. Prerequisite: undergraduate accounting concentration or equivalent.

[View course details in MyPlan: ACCTG 543](#)

ACCTG 547 Estate and Gift Taxation (3)

Development of fundamental knowledge of the unified transfer tax on the transfer of property from one person to another. Calculation of gross estate, adjusted gross estate, and taxable estate. Calculation of gift and estate taxes owing. Discussion of estate planning concepts. Prerequisite: undergraduate accounting concentration or equivalent.

[View course details in MyPlan: ACCTG 547](#)

ACCTG 548 Speaker Forum-Tax (3)

Covers topics such as state and local taxation, international taxation, interperiod tax allocation, qualified and nonqualified stock options, the R&D credit, and IRS audit issues presented by practicing professionals in the industry.

[View course details in MyPlan: ACCTG 548](#)

ACCTG 549 International and State Tax Issues (4)

Covers international tax concepts including the foreign tax credit, international tax ownership structures, permanent establishments, income sourcing rules, and international tax treaties. Studies state and local tax issues such as multistate tax treaties, sales taxes, nexus, taxes on gross receipts, and appointment.

[View course details in MyPlan: ACCTG 549](#)

ACCTG 564 Governmental Accounting (4)

Budgetary and financial accounting/reporting as applied at the state, local, and special-purpose governments; financial accounting and reporting for not-for-profit organizations.

[View course details in MyPlan: ACCTG 564](#)

ACCTG 566 Issues in International Accounting (4)

Insights into the conceptual, managerial, professional, and institutional issues of international accounting. Focus on current topics in international accounting and on the cultural, managerial, and governmental forces that shape

both internal and external accounting in specific countries.

[View course details in MyPlan: ACCTG 566](#)

ACCTG 575 Internship (14)

Professional internship in graduate accounting program. Prerequisite: enrollment in MPAcc program, accounting and assurances track.

[View course details in MyPlan: ACCTG 575](#)

ACCTG 576 Independent Research Project Proposal (2-)

Topic identification and development for research project to be completed in ACCTG 577. Prerequisite: enrollment in MPAcc program, accounting and assurances track.

[View course details in MyPlan: ACCTG 576](#)

ACCTG 577 Independent Research Project Proposal (-4)

Development and completion of independent research project. Topic identification and proposal approval completed in ACCTG 576. Prerequisite: enrollment in MPAcc program, accounting and assurances track; ACCTG 576.

[View course details in MyPlan: ACCTG 577](#)

ACCTG 579 Special Topics in Accounting (2/4, max. 12)

Accounting topics of current concern to faculty and students. Offered only when faculty are available and sufficient student interest exists. Seminar content announced in advance of scheduled offering. Prerequisite: permission of instructor.

[View course details in MyPlan: ACCTG 579](#)

ACCTG 580 Doctoral Seminar: Introduction to Accounting Research (4)

Examination of research problems and techniques in accounting. Interdisciplinary nature of accounting research emphasized. Work in finance, economics, and psychology used to develop current trends in accounting research. Prerequisite: doctoral student status.

[View course details in MyPlan: ACCTG 580](#)

ACCTG 581 Doctoral Seminar in Managerial Accounting (4)

Critical examination of conceptual and practical issues of cost and managerial accounting. Specific topics may change from quarter to quarter, and they include application of behavioral, quantitative, and economic models to managerial accounting problems. Prerequisite: ACCTG 511 or permission of instructor.

[View course details in MyPlan: ACCTG 581](#)

ACCTG 582 PhD Research Seminar: Introduction to Selected Research Topics (4)

Introduces first-year and second-year accounting PhD students to the research areas and methodologies of the current account faculty. Research areas include financial, managerial, audit, and tax. Research methodologies include analytical, archival, experiments, and surveys.

[View course details in MyPlan: ACCTG 582](#)

ACCTG 596 Doctoral Seminar in Financial Accounting Research (4)

Review and critical analysis of research strategies and methods applied to problems in financial reporting practice and financial accounting standard setting. Prerequisite: doctoral student status and ACCTG 580 or equivalent or permission of graduate office.

[View course details in MyPlan: ACCTG 596](#)

ACCTG 597 Doctoral Seminar in Managerial Accounting Research (4)

Critical analysis of current managerial accounting research, both published and unpublished. Prerequisite: doctoral student status and ACCTG 581 or equivalent or permission of graduate office.

[View course details in MyPlan: ACCTG 597](#)

ACCTG 599 Doctoral Seminar in Accounting (1, max. 12)

Study and research in advanced topics of accounting. Generally concerned with unpublished areas of research as well as research methodology and philosophy. Conducted by departmental faculty and occasional distinguished visiting faculty. Prerequisite: doctoral student status.

[View course details in MyPlan: ACCTG 599](#)

ACCTG 600 Independent Study or Research (*-)

BUSINESS ADMINISTRATION

ADMINISTRATION

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ADMIN 510 Fundamentals of Business Administration ([1-15]-, max. 15)

Includes materials basic to study and application of business theories and practice; accounting; business economies and financial control; and business strategy; commercial law; human resources and negotiations; marketing; operations management. Faculty team-teaching approach. Not open to master of business administration majors. Credit/no-credit only.

[View course details in MyPlan: ADMIN 510](#)

ADMIN 511 Fundamentals of Business Administration (4)

Develops student's ability to think as practicing executive; providing practice in analyzing, evaluating, and modifying organizations' strategies in light of changing conditions for profit and non-profits. Develops marketing skills in understanding targeted customer's needs and the specific marketing steps to create demand. Not open to MBA students. Credit/no-credit only. Offered: A.

[View course details in MyPlan: ADMIN 511](#)

ADMIN 512 Fundamentals of Business Administration - People Management, Leadership, and Teams (4)

Introduces theories and practices relating to the management of people and teams, organizational behavior, human resources and leadership. Helps distinguish management factors that create a sustaining culture that attracts, motivates and retains the right people for the right jobs. Not open to MBA students. Credit/no-credit only. Offered: W.

[View course details in MyPlan: ADMIN 512](#)

ADMIN 513 Fundamentals of Business Administration: Accounting and Finance (4)

Introduces financial and managerial accounting and finance. Topics include financial statements, capital structure decisions, cost of debt and equity, ratio analysis, classifying costs, breakeven analysis, budgeting, and capital budgeting. The goal is to understand external reports and to use financial information internally for decision-making. Not open to MBA students. Credit/no-credit only. Offered: Sp.

[View course details in MyPlan: ADMIN 513](#)

ADMIN 514 Fundamentals of Business Administration: Business Plan Practicum I (2)

Students develop a business plan on a team based on their interests. Applies the information from the ADMIN

511 and ADMIN 512 to the development of the plan. Prerequisite: ADMIN 511; ADMIN 512, which may be¹²⁷⁴ taken concurrently. Credit/no-credit only. Offered: W.

[View course details in MyPlan: ADMIN 514](#)

ADMIN 515 Fundamentals of Business Administration: Business Plan Practicum II (1)

Students complete the business plan on a team that was developed in ADMIN 514. Applies the information from ADMIN 511, ADMIN 512, and ADMIN 513 to the development of the plan. Prerequisite: ADMIN 514.

Credit/no-credit only. Offered: Sp.

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

B A 300 Foreign Study-Business Administration (1-5, max. 15)

For participants in approved foreign-study programs where equivalent UW business administration courses are not available.

[View course details in MyPlan: B A 300](#)

B A 390 Business Honors Seminar (2-5, max. 5)

Special topics in business. Required for Honors students in Business Administration.

[View course details in MyPlan: B A 390](#)

B A 391 Learning Leadership in Theory and Practice (2)

Explores leadership techniques and principle using readings, case, lectures, and large group discussions designed to increase knowledge of leadership theory and practice as well as develop leadership potential. Uses small group sessions incorporating experiential exercises, self-reflection, and leadership conversations.

[View course details in MyPlan: B A 391](#)

B A 490 Special Topics in Business (1-6, max. 12)

[View course details in MyPlan: B A 490](#)

B A 495 Business Internship (1-4, max. 8)

Internship with a private firm, nonprofit organization, or government agency, where work experience involves substantial application of business concepts learned in the classroom. Prerequisite: ACCTG 225. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: B A 495](#)

B A 500 Business Administration I (16)

Coordinated series consisting of accounting, business economics, business ethics, business policy, finance, information systems, international business, legal environment of business, management, and organizational behavior, marketing, operations management, and quantitative methods for management. Prerequisite: permission of the Foster School of Business.

[View course details in MyPlan: B A 500](#)

B A 501 Business Administration II (14)

Coordinated series consisting of accounting, business economics, business ethics, business policy, finance, information systems, international business, legal environment of business, management, and organizational behavior, marketing, operations management, and quantitative methods for management. Prerequisite: permission of the Foster School of Business.

[View course details in MyPlan: B A 501](#)

B A 502 Business Administration III (8)

Coordinated series consisting of accounting, business economics, business ethics, business policy, finance, information systems, international business, legal environment of business, management, and organizational behavior, marketing, operations management, and quantitative methods for management. Prerequisite: permission of the Foster School of Business.

[View course details in MyPlan: B A 502](#)

B A 505 Global Business Fundamentals (16)

An intensive overview of the fundamental core business topics: financial accounting, managerial accounting, business economics, statistics, management, macroeconomics, finance, marketing, operations management, quantitative methods, and strategy. Prerequisite: permission. Offered: S.

[View course details in MyPlan: B A 505](#)

B A 541 Environmental Management I (4)

Survey of environmental ethics, environmental laws and regulation, the economics of environmental decisions, and the relationship of business to public policy and the environment. Must be taken concurrently with B A 544. Prerequisite: permission of instructor.

[View course details in MyPlan: B A 541](#)

B A 542 Environmental Management II (4)

Applications of the functional areas of business to environmental concerns. Major federal legislation affecting these concerns applied to business problems in the areas of accounting, finance, marketing, management information systems, and organizational behavior. Must be taken concurrently with B A 544. Prerequisite: B A 541 or permission of instructor.

[View course details in MyPlan: B A 542](#)

B A 543 Environmental Management III (4)

Case studies that integrate the fundamentals of business and environmental management to address such issues as plant siting, regulatory compliance, production line changes, and innovative, proactive responses to environmental issues. Case studies include results of student consulting projects and a capstone case in environmental management. Must be taken concurrently with B A 544. Prerequisite: B A 542 or permission of instructor.

[View course details in MyPlan: B A 543](#)

B A 544 Environmental Management Seminar (1, max. 3)

Guest lecturers from academia, business, government, and advocacy groups discuss environmental science, ethics, law, regulation, economics, finance, accounting, and policy issues. Seminar topics supplement course material in B A 541, B A 542, B A 543, which are to be taken concurrently.

[View course details in MyPlan: B A 544](#)

B A 545 The Global Business Forum: Current Issues in Global Business (1, max. 3)

Discussion of current trends in the global business environment and of international issues facing companies. Leaders from international businesses and other organizations, as well as faculty members from various departments and specializations, invited to share their perspectives with seminar participants. Topics change each quarter.

[View course details in MyPlan: B A 545](#)

B A 560 Cooperative Education in Business (1)

Business practicum: internship with approved business or governmental agency. Open only to students who meet requirements of internship program. Internship credit may not be applied to fulfill specific course requirements or to credits required for graduation. Credit/no-credit only. Offered: S.

[View course details in MyPlan: B A 560](#)

B A 571 Research Reports (4-)

Independent study in business administration; critical evaluation of business analysis and research methods. Effective communication of ideas emphasized. Methods and content of independent research studies subjected to critical evaluation. Open only to MBA non-thesis students. Prerequisite: instructor's approval of preliminary research topic outline.

[View course details in MyPlan: B A 571](#)

B A 572 Research Reports (-4)

Independent study in business administration; critical evaluation of business analysis and research methods. Effective communication of ideas emphasized. Methods and content of independent research studies subjected to critical evaluation. Open only to MBA non-thesis students. Prerequisite: B A 571.

[View course details in MyPlan: B A 572](#)

B A 578 Strategic Management Practicum (2/4, max. 8)

Students apply skills learned in the MBA classroom to real world challenges and opportunities facing contemporary enterprises. Under faculty oversight, students partner with host firms on applied learning, consulting-style projects that offer additional development opportunities not available in traditional classrooms. Credit/no-credit only.

[View course details in MyPlan: B A 578](#)

B A 580 Problems in Microeconomics (4)

Study of microeconomic intuition, directed toward Business School Ph.D. students, showing the interconnections between formal, mathematical analysis and the unstructured economic questions posed by the world. Emphasis on setting up problems and examining the intuition behind the analysis of them. Many applications to specific business issues.

[View course details in MyPlan: B A 580](#)

B A 599 Teaching Effectiveness Seminar (2, max. 4)

Prepares doctoral students to serve as a teaching assistant and course instructor. Discusses how to design a syllabus, present material, grade, handle difficult classroom situations, and other activities associated with undergraduate and graduate education. Builds long-term skills for a lifetime of teaching as part of an academic career. Credit/no-credit only.

BUS ADMIN RESEARCH METHODS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

BA RM 580 Applied Econometrics I (4)

Emphasizes the application of econometric methods rather than the mathematical proofs of statistical procedures. Introduction to the linear regression model, interpretation of summary statistics, bias and precision of regression estimates, analysis of the residuals, and hypothesis testing. Prerequisite: STAT 342 or STAT 395 or STAT 481, or permission of instructor.

[View course details in MyPlan: BA RM 580](#)

BA RM 581 Applied Econometrics II (4)

Continuation of BA RM 580. Measurement errors, distributed lags, and simultaneous equation models. Prerequisite: BA RM 580.

[View course details in MyPlan: BA RM 581](#)

BA RM 590 Behavioral Research Methods - Theory and Design (4)

Philosophy of science, development of scientific method, and meaning of behavioral research. Historical perspective of scientific investigation and the evaluation of research. The development of theory and its relationship to research. Various strategies and designs in behavioral research. Prerequisite: STAT 361, STAT 362, or permission of instructor.

[View course details in MyPlan: BA RM 590](#)

BA RM 591 Behavioral Research Methods - Approaches and Applications (4)

Considers alternative research approaches, such as laboratory and field experimentation, simulation, and surveys, with data-gathering techniques appropriate for each approach. Primarily concerned with developing alternative approaches to research problems and with discussing specific applications. Builds upon a background of specific statistical tools and techniques and an understanding of theory development and research design. Prerequisite: STAT 361, STAT 362, or permission of instructor.

BUSINESS COMMUNICATION

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

B CMU 301 Strategic Business Communication (4)

Strategic approach to communications as a management tool. Analysis of the psychology, semantics, planning, and principles of effective business writing, presenting, and interpersonal and team communication. Practical applications include written and oral messages, inform and persuade, individual and team presentations, and tools and processes to increase collaboration among members of a team. Prerequisite: Cannot be taken for credit if credit earned in B CMU 302.

[View course details in MyPlan: B CMU 301](#)

B CMU 410 Business Reports and Other Specialized Communications (4)

Covers internal and external, written and oral business reporting. Considers communications strategies within the context of rapidly changing technologies. Students learn to apply primary and secondary research to quarter-long, individual projects resulting in a variety of reports: proposals, progress reports, feasibility studies, business plans, etc. Prerequisite: B CMU 301 or B CMU 302.

[View course details in MyPlan: B CMU 410](#)

B CMU 490 Special Topics in Business Communications (1-6, max. 12)

Students and faculty focus on current topics of concern. Prerequisite: either B CMU 301 or B CMU 302.

[View course details in MyPlan: B CMU 490](#)

B CMU 499 Research in Business Communications (1-6, max. 9)

[View course details in MyPlan: B CMU 499](#)

B CMU 509 Finding your Voice (2)

Develop a leadership communication style by discovering core values and learning how to translate those values into effective messages. Students give speeches as well as critique speeches of classmates, produce written evaluation of speeches given in class and receive instructor feedback. Prerequisite: B A 501.

[View course details in MyPlan: B CMU 509](#)

B CMU 510 Business Communications for Managers (4)

Develops understanding of communication theories, describes strategies for planning managerial

communications, and builds skills in oral and written reporting and persuading. Looks at how new technologies¹²⁸⁰ are changing the way people in business communicate, and the implications those changes have for organizations. Prerequisite: B A 501.

[View course details in MyPlan: B CMU 510](#)

B CMU 579 Special Topics in Business Communication (2/4, max. 12)

Business and managerial communication topics of current interest to faculty and students.

[View course details in MyPlan: B CMU 579](#)

B CMU 600 Independent Study or Research (*)

Offered: AWSp.

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

B ECON 300 Managerial Economics (4)

Analysis of economic factors affecting decisions made by business firms. Demand and cost analysis, and alternative policies from the firm's point of view. Prerequisite: ACCTG 225; ECON 201; either MATH 112, MATH 124, MATH 125, MATH 127, MATH 134, or Q SCI 291; either IND E 315, QMETH 201, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 221/SOC 221/CS&SS 221, STAT 311, or STAT 390; may not be repeated.

[View course details in MyPlan: B ECON 300](#)

B ECON 301 Intermediate Macroeconomics (4)

Analysis of economy with attention to the business cycle, output of goods and services (GNP), inflation, unemployment, and government's fiscal and monetary policies. How the economy affects individuals and firms and how to deal effectively with the economic environment. Prerequisite: ECON 201; may not be repeated.

[View course details in MyPlan: B ECON 301](#)

B ECON 420 Financial Markets (4)

Analysis of the structure and functions of the money and capital markets; the saving-investment process and financial intermediaries; supply and demand for lendable funds and the level and structure of interest rates, role of Federal Reserve and Treasury in money market developments. Prerequisite: either B ECON 300 or ECON 300; may not be repeated.

[View course details in MyPlan: B ECON 420](#)

B ECON 426 Competing in the Global Economy (4)

Examines the global environment for business and the challenges facing managers in this environment. Explores the implications of the common phrase "think global - act local." Prerequisite: either B ECON 300 or ECON 300.

[View course details in MyPlan: B ECON 426](#)

B ECON 427 International Finance (4)

Asset choice and institutional operations in international finance, foreign exchange problems, the impact of international financial problems and operations on business, short- and long-term international financing.

Prerequisite: either B ECON 300 or ECON 300; either B ECON 301 or ECON 301; may not be repeated.¹²⁸²

[View course details in MyPlan: B ECON 427](#)

B ECON 490 Special Topics in Business Economics (1-6, max. 12)

Study and research on topics of current concern to faculty and students. Only offered when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings.

[View course details in MyPlan: B ECON 490](#)

B ECON 499 Undergraduate Research (1-6, max. 9)

Research in selected areas of business economics.

[View course details in MyPlan: B ECON 499](#)

B ECON 500 Introduction to Business Economics (4)

Factors underlying the determination of cost and prices for the industry and the firm, demand and supply analysis and firm behavior. The relation of the economic environment to the microeconomic decisions of the firm.

[View course details in MyPlan: B ECON 500](#)

B ECON 501 Analysis of Global Economic Conditions (4)

Analysis of real and monetary factors affecting national and international economics, supply and demand for money, interest rates and stabilization problems and policies, in relation to government policy effects on business and individual affairs. Focuses on global macroeconomic issues. Prerequisite: MBA core microeconomics.

[View course details in MyPlan: B ECON 501](#)

B ECON 520 Financial Markets (4)

Analysis of the structures and functions of financial markets and institutions; the behavior of interest rates through time; the cross-sectional structure of interest rates; and the roles of the Federal Reserve and Treasury in financial markets. Prerequisite: MBA Core Finance.

[View course details in MyPlan: B ECON 520](#)

B ECON 526 Competing in the Global Economy (4)

Examines the global environment for business and the challenges facing managers in this environment. Explores the implications of the common phrase "think globally - act locally." Offered: WSp.

[View course details in MyPlan: B ECON 526](#)

B ECON 527 International Finance (4)

Study of selected problems in financing, international trade, investment, and foreign business operations; international aspects of money markets; problems of evaluation of foreign investments. Prerequisite: MBA core finance.

[View course details in MyPlan: B ECON 527](#)

B ECON 579 Special Topics in Business Economics (2/4, max. 12)

Business economics topics of current concern to faculty and students. Offered only when faculty are available and sufficient student interest exists. Seminar content announced in advance of scheduled offering. Prerequisite: permission of instructor.

[View course details in MyPlan: B ECON 579](#)

B ECON 600 Independent Study or Research (*-)

FOSTER SCHOOL OF BUSINESS BUSINESS ADMINISTRATION ENTREPRENEURSHIP AND INNOVATION

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ENTRE 370 Introduction to Entrepreneurship (4)

Introduction to entrepreneurial practices with an emphasis on learning how to find business ideas, how to evaluate their potential, and how to recognize the barriers to success. Exposure to the stresses of a start-up business, the uncertainties that exist, and the behavior of entrepreneurs. Prerequisite: either ACCTG 219 or ACCTG 225; ECON 200.

[View course details in MyPlan: ENTRE 370](#)

ENTRE 372 Grand Challenges for Entrepreneurship (4)

Explores big problems and opportunities facing society ranging from healthcare, education, big data, and poverty. Examines how solutions to these challenges can be researched, validated, and implemented using entrepreneurial skills such as creativity, business models, pivoting, and execution.

[View course details in MyPlan: ENTRE 372](#)

ENTRE 422 Innovation Strategy (4)

Focuses on starting a hardware or software company. Includes guest entrepreneurs, lawyers, and financiers discussing market identification and analysis; planning the business; financing; and typical operating and administrative problems.

[View course details in MyPlan: ENTRE 422](#)

ENTRE 432 Software Entrepreneurship (4)

Explores the opportunities and challenges of launching a software company. Issues include an overview of the industry, trends and emerging opportunities, funding, technology transfer, industry challenges, and cutting-edge software practices.

[View course details in MyPlan: ENTRE 432](#)

ENTRE 440 Business Plan Practicum (2)

Enables students interested in new venture creation to explore their entrepreneurial aptitude, formulate their ideas, validate the opportunity, develop a business plan, and demonstrate the depth of their knowledge by preparing an executive summary and competing in the UW Business Plan Competition. Credit/no-credit only.

[View course details in MyPlan: ENTRE 440](#)

ENTRE 443 Environmental Innovation Practicum (2)

Focuses on developing innovative solutions to real-world environmental problems and creating new business opportunities. Speakers include experts from the clean-tech community, environmental start-ups, the public sector, as well as corporate environmental strategists. Themes include water, energy, green building, and transportation. Includes the opportunity to participate in the UW Environmental Innovation Challenge.

[View course details in MyPlan: ENTRE 443](#)

ENTRE 455 Entrepreneurial Marketing (4)

Examines the skills and tools entrepreneurs need for bootstrap marketing in their start-up firms. Students learn to identify target market segments, position their products, estimate demand, set prices, gain access to channels, and manage the issues of rapid growth. Prerequisite: MKTG 301; may not be repeated. Offered: jointly with MKTG 455.

[View course details in MyPlan: ENTRE 455](#)

ENTRE 457 Entrepreneurial Finance (4)

Explores financial issues that face entrepreneurs, including the stages of financing, business cash flow models, and strategic positioning of the early-stage company. Examines the role of business angels, venture capital funds, institutional investors, strategic alliances, licensing agreements, and exit strategies. Prerequisite: FIN 350; either B ECON 300 or ECON 300. Offered: jointly with FIN 457.

[View course details in MyPlan: ENTRE 457](#)

ENTRE 459 Venture Investing (4)

Analyzes and makes recommendations on investment opportunities through learning the fundamentals of venture investing and performing due diligence on real companies. Explores the venture investing process from the entrepreneur's and the investor's point of view. Students present their recommendations to the Investment Committee of the W Fund. Offered: jointly with FIN 459.

[View course details in MyPlan: ENTRE 459](#)

ENTRE 472 Creating a Company I (4-)

Two-course sequence with ENTRE 473. Working in teams, students develop a business plan for a new venture, present their plans to a panel of investors, obtain funding, run the business, and exit the firm at the end of the second quarter. Prerequisite: ENTRE 370.

[View course details in MyPlan: ENTRE 472](#)

ENTRE 473 Creating a Company II (-4)

Two-course sequence with ENTRE 472. Working in teams, students develop a business plan for a new venture, present their plans to a panel of investors, obtain funding, run the business, and exit the firm at the end of the second quarter. Prerequisite: ENTRE 472.

[View course details in MyPlan: ENTRE 473](#)

ENTRE 490 Special Topics in Entrepreneurship (1-6, max. 12)

[View course details in MyPlan: ENTRE 490](#)

ENTRE 499 Undergraduate Research (1-6, max. 9)

Independent research in selected areas of entrepreneurship; new venture strategy and investment; market analysis and financial forecasts; and corporate issues under faculty supervision. Prerequisite: ENTRE 370.

[View course details in MyPlan: ENTRE 499](#)

ENTRE 509 Foundations of Entrepreneurship (2)

Evaluation of new market opportunities and starting a new venture; focuses on identifying and evaluating new venture opportunities, developing and testing market strategies, evaluating test market performance, and evaluating business plans. Emphasizes the interplay between marketing, manufacturing, finance, accounting, and team management. Prerequisite: Permission of Foster School of Business. Offered: Sp.

[View course details in MyPlan: ENTRE 509](#)

ENTRE 510 Entrepreneurial Strategy (4)

Uses the tools of competitive strategy to analyze the success and failure of entrepreneurial ventures, identifying general strategic principles that might increase the probability that an entrepreneurial venture will succeed. Draws heavily on the principles of microeconomics and strategy. Prerequisite: B A 500; B A 502.

[View course details in MyPlan: ENTRE 510](#)

ENTRE 521 Corporate Entrepreneurship (4)

Focuses on entrepreneurial activities in large, established corporation. Introduces the theory and best practices on the process of converting new ideas to commercial products and new businesses. Prerequisite: B A 500; B A 501; B A 502.

[View course details in MyPlan: ENTRE 521](#)

ENTRE 522 Innovation Strategy (4)

Explores how firms tap into external sources of innovation, focusing on user communities, universities, and entrepreneurial ventures. Demonstrates how open, collaborative, community-based models of innovation create successful business options. Offered: jointly with MGMT 522.

[View course details in MyPlan: ENTRE 522](#)

ENTRE 530 Entrepreneurial Decision Making (4)

Provides an overview of the major decisions entrepreneurs face when creating a business. Covers the startup lifecycle from idea generation and opportunity recognition to entry strategy, growth, and exit. Prerequisite: B POL 509; B A 501. Instructors: Song Offered: W.

[View course details in MyPlan: ENTRE 530](#)

ENTRE 531 Developing Business Models for Emerging Technologies (4)

Focuses on the commercialization of emerging technologies. Topics include conducting feasibility assessments of intellectual property landscape, evaluating business opportunities, analyzing competition, developing business models and strategies, constructing a professional quality business plan, and presenting business plan, transforming a new technology into a market-ready technology-based business. Offered: W.

[View course details in MyPlan: ENTRE 531](#)

ENTRE 532 Software Entrepreneurship (4)

A case- and project-based course, focusing on starting a software or hardware company. Guest entrepreneurs, lawyers, and financiers discuss market identification and analysis, planning the business, financing, and typical operating and administrative problems.

[View course details in MyPlan: ENTRE 532](#)

ENTRE 535 Business Models in Global Health (4)

Explores many of the models used to tackle these issues in global health, using public-private partnership, corporate, and entrepreneurial cases. Examines and debates the efficacy of efforts in combating the biggest killers: non-communicable diseases (NCDs) such as AIDS, malaria, and Tuberculosis. Includes the economics of eradication efforts, funding architecture, issues around neglected diseases, and pricing models for the developing world.

[View course details in MyPlan: ENTRE 535](#)

ENTRE 540 Business Plan Practicum (2, max. 4)

Gives student entrepreneurs the opportunity to network with the founders/CEOs of companies, explore their entrepreneurial aptitude, and work through the details of their own start-ups. Provides structure, tools, and resources to start of company, and compete in the UW Business Plan Competition. Credit/no-credit only.

[View course details in MyPlan: ENTRE 540](#)

ENTRE 541 Technology Commercialization Practicum (4)

Provides the experience of researching and creating a commercialization plan for a promising technology. Designed to apply the skills and perspectives of students in cross-disciplinary teams so they learn how to work

effectively with peers in assessing complex and potentially ambiguous situations. Offered: S.

[View course details in MyPlan: ENTRE 541](#)

ENTRE 542 Venture Capital Investment Practicum (2)

Provides overview and teaches the mechanics of the venture capital industry and culminates in intramural venture capital competition. Students assume the role of investors in a venture capital firm and real entrepreneurs pitch to them for investment dollars. Teams defend their allocation decisions before a judging panel of venture capitalists. Credit/no-credit only. Offered: A.

[View course details in MyPlan: ENTRE 542](#)

ENTRE 543 Environmental Innovation Practicum (2)

Focuses on developing innovation solutions to real-world environmental problems and creating new business opportunities. Speakers include experts from the clean-tech community, environmental start-ups, the public sector, as well as corporate environmental strategists. Themes include water, energy, green building, and transportation. Students have the opportunity to participate in the UW Environmental Innovation Challenge. Offered: A.

[View course details in MyPlan: ENTRE 543](#)

ENTRE 555 Entrepreneurial Marketing (4)

Examines the skills and tools entrepreneurs need for bootstrap or guerilla early-stage companies. Covers how to target market segments, position products, estimate demand, set prices, gain access to channels, and manage issues of rapid growth. Prerequisite: B A 501, MKGT 501 or equivalent. Offered: jointly with MKTG 555.

[View course details in MyPlan: ENTRE 555](#)

ENTRE 557 Entrepreneurial Finance (4)

Analyzes the unique financial issues facing entrepreneurial firms. Topics include assessing financial performance, financial forecasting and planning, financial management of rapidly growing businesses, start-up ventures, valuation, sources of financing, venture capital, initial public offerings, and the decision to harvest. Prerequisite: MBA core courses. Offered: jointly with FIN 557.

[View course details in MyPlan: ENTRE 557](#)

ENTRE 560 Accounting Fundamentals for Entrepreneurs (2)

Familiarizes prospective entrepreneurs with the fundamentals of financial and managerial accounting. Covers the principles of accounting decision-making from the perspective of both external investors and internal managers.

[View course details in MyPlan: ENTRE 560](#)

ENTRE 561 Essentials of Finance for Entrepreneurs (2)

Studies the essentials of finance, how individuals make consumption and savings decisions, and how firms make investment and financing decisions, necessary for entrepreneurs to develop a competitive advantage over their peers.

[View course details in MyPlan: ENTRE 561](#)

ENTRE 562 Legal Essentials for Entrepreneurs (1)

Provides an overview of critical and fundamental aspects of United States contract law, types of business structures, and intellectual property law that are essential for entrepreneurs to make informed business decisions.

[View course details in MyPlan: ENTRE 562](#)

ENTRE 563 Opportunity Recognition and Validation (2-4)

Covers the range, scope, and complexity of issues involved in entrepreneurial startups. Explores how entrepreneurs conceive, adapt, and execute strategies to create new enterprises.

[View course details in MyPlan: ENTRE 563](#)

ENTRE 564 Competitive Strategy (2-4)

Introduces different aspects of the strategic decision-making process. Pays particular attention to the context

within which the decision maker operates; the pressures of performance; and both the personal and professional limitations of the individual executive as they try to manage effectively. Also highlights the interplay between competitive strategy and entrepreneurship related topics.

[View course details in MyPlan: ENTRE 564](#)

ENTRE 565 Entrepreneurial Marketing I (2)

Focuses on marketing strategy. Assesses market opportunities by analyzing customers, competitors, collaborators, context, and the strengths and weaknesses of a company. Examines how to design focus marketing strategies to maximize a company's chance of winning in these markets, and better evaluate different potential growth trajectories. First in a two-course entrepreneurial marketing sequence.

[View course details in MyPlan: ENTRE 565](#)

ENTRE 566 Entrepreneurial Marketing II (2)

Focuses on the decisions that entrepreneurs make and the tools that they use to implement an effective marketing strategy. Covers how to communicate and defend marketing recommendations as well as critically examine and build upon the recommendations of others. Second in a two-course entrepreneurial marketing sequence.

[View course details in MyPlan: ENTRE 566](#)

ENTRE 567 Entrepreneurial Strategy and Decision Making (4)

Uses the tools of competitive strategy to analyze the success and failure of entrepreneurial ventures, identifying general strategic principles that might increase the probability that an entrepreneurial venture will succeed.

Provides an overview of the major decisions entrepreneurs face when creating a business. Covers the startup lifecycle from idea generation and opportunity recognition to entry strategy, growth, and exit.

[View course details in MyPlan: ENTRE 567](#)

ENTRE 568 Social Media Marketing (1)

Examines the principles and tools related to internet marketing, mobile marketing, and social media. Compares marketing communications in the new media landscape compared to traditional marketing communications. Analyzes business models in new media landscape such as the value proposition and the revenue model of a firm. Covers new media marketing tactics.

[View course details in MyPlan: ENTRE 568](#)

ENTRE 569 Strategies for Funding Ventures (4)

Provides an in-depth view of the fundraising process including the elements of deal making and working with investors, and sensitizes prospective entrepreneurs to the strategic and people issues around venture finance.

[View course details in MyPlan: ENTRE 569](#)

ENTRE 570 Persuasion: Pitching, Public Relations, and Public Speaking (2)

Examines the role verbal communication, influence, and persuasion play in shaping an entrepreneur's success in starting, growing, managing, leading, and exiting a venture. Follows the progression of different forms of pitching that an entrepreneur needs to be able to deliver.

[View course details in MyPlan: ENTRE 570](#)

ENTRE 575 Entrepreneurial Leadership Seminar (1, max. 4)

Covers common issues associated with leading and coordinating people in entrepreneurial ventures. Topics vary by quarter and include individual level of leadership, managing projects, managing teams, and scaling ventures. Credit/no-credit only.

[View course details in MyPlan: ENTRE 575](#)

ENTRE 579 Special Topics in Entrepreneurship (2-4, max. 12)

Topics vary. Offered only when faculty members are available and there is sufficient student interest.

[View course details in MyPlan: ENTRE 579](#)

ENTRE 581 Theoretical Foundations of Entrepreneurship (4)

Focuses on theoretical overview, entrepreneurs, environment and organizational founding, entrepreneurship's links with other disciplines, venture capital and venture capitalists, new venture strategy and performance, growth processes and challenges, and entrepreneurial networks and alliances. Offered: A.

[View course details in MyPlan: ENTRE 581](#)

ENTRE 582 Technology, Innovation, and Entrepreneurship (4)

Explores issues of how a knowledge-based economy competes and performs using technological innovations and entrepreneurship. Explores research on capabilities of broader entities; processes of learning at the firm, industry, technology, economy-level; development of know-how as evolutionary process; and explorations by firms, sectors and economies exploring new technologies and techniques. Offered: W.

[View course details in MyPlan: ENTRE 582](#)

ENTRE 590 New Venture Research Practicum (4)

Exposes students to new venture creation phenomena. Teaches how to think about and understand empirical research methods such as case studies, participant-observation, and other field methods while contributing to ongoing cumulative data collection process.

[View course details in MyPlan: ENTRE 590](#)

ENTRE 595 Venture Planning and Execution Independent Study (1-3, max. 10)

Independent study focused on venture planning and execution of an entrepreneurial venture of the students' design. Credit/no-credit only.

[View course details in MyPlan: ENTRE 595](#)

ENTRE 600 Independent Study or Research (*-)

FOSTER SCHOOL OF BUSINESS

BUSINESS ADMINISTRATION

FINANCE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

FIN 350 Business Finance (4)

Evaluating and funding projects within the firm. Time value of money, inflation, capital budgeting; risk and return in the financial markets, stocks, bonds, portfolios and diversifiable risk, market efficiency and the balance between debt and equity to fund the firm. Prerequisite: ACCTG 225; ECON 201; either MATH 112, MATH 124, MATH 125, MATH 134, or Q SCI 291; either IND E 315, MATH 390, QMETH 201, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 221/SOC 221/CS&SS 221, STAT 311, or STAT 390.

[View course details in MyPlan: FIN 350](#)

FIN 423 Banking and the Financial System (4)

Role of banks and nonbank financial institutions in the financial system; asset choices of banks and nonbank financial institutions; problems in the management of financial institutions with emphasis on commercial banks. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

[View course details in MyPlan: FIN 423](#)

FIN 425 Introduction to Real Estate Finance and Investment (4) T. SESLEN

Introduction to valuing, financing, and investing in real estate with emphasis on those topics that distinguish real estate from other investments, including valuation techniques, lease structures, loan options, equity partnerships, risk management, and taxation. Prerequisite: FIN 350.

[View course details in MyPlan: FIN 425](#)

FIN 428 International Financial Management (4)

Analysis of financial problems facing businesses engaged in international activities. Financing foreign investment, financial control of foreign operations, and working capital management including foreign exchange positions using cases and readings. Prerequisite: FIN 350; either one 400-level FIN course, B ECON 301 or ECON 301.

[View course details in MyPlan: FIN 428](#)

FIN 435 Introduction to Real Estate Capital Markets (4) T. SESLEN

Examines who the real estate capital providers are, how that capital is priced, and why the markets operate as they do. Provides a toolbox for sound decision-making, either as an investor seeking funding or as a note-holder

in the secondary market. Prerequisite: FIN 350.

[View course details in MyPlan: FIN 435](#)

FIN 450 Problems in Corporate Finance (4)

Case problems in corporate financial management. Includes cases on management of current assets, obtaining short-term loans, raising long-term capital, capital budgeting, and dividend policy. The management point of view is stressed. Prerequisite: FIN 350; either B ECON 300 or ECON 300.

[View course details in MyPlan: FIN 450](#)

FIN 453 Financial Theory and Analysis (4)

Business financial strategic planning. Topics include business valuation and financing, performance evaluation, risk analysis, capital budgeting, and inflation and taxes. Emphasizes tools with real-world applications while incorporating modern finance concepts. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

[View course details in MyPlan: FIN 453](#)

FIN 454 Business Valuation, Investment, and Financing (4)

Key issues in financial management using both analytical and case study illustrations. Valuation of public and private companies; cost of capital estimation; investment complications, such as taxes, inflation, risk, project interdependencies, and financing-investment interactions; leasing; mergers; spin-offs and carve-outs.

Prerequisite: FIN 350; either B. ECON 300 or ECON 300.

[View course details in MyPlan: FIN 454](#)

FIN 457 Entrepreneurial Finance (4)

Explores financial issues that face entrepreneurs, including the stages of financing, business cash flow models, and strategic positioning of the early-stage company. Examines the role of business angels, venture capital funds, institutional investors, strategic alliances, licensing agreements, and exit strategies. Prerequisite: FIN 350; either B ECON 300 or ECON 300. Offered: jointly with ENTRE 457.

[View course details in MyPlan: FIN 457](#)

FIN 459 Venture Investing (4)

Analyzes and makes recommendations on investment opportunities through learning the fundamentals of venture investing and performing due diligence on real companies. Explores the venture investing process from the entrepreneur's and the investor's point of view. Students present their recommendations to the Investment Committee of the W Fund. Offered: jointly with ENTRE 459.

[View course details in MyPlan: FIN 459](#)

FIN 460 Investments (4)

Introduction to the nature, problems, and process of evaluating particular securities and portfolio construction and administration. Special attention is directed to the risk and rate-of-return aspects of particular securities portfolios, and total wealth. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

[View course details in MyPlan: FIN 460](#)

FIN 461 Financial Futures and Options Markets (4)

Introduction to financial futures and options markets. Institutional aspects and social functions of these markets, pricing of options and futures, and risk shifting by hedging. Prerequisite: FIN 350; either B ECON 300 or ECON 300; may not be repeated.

[View course details in MyPlan: FIN 461](#)

FIN 462 Management of Financial Risk (4)

Modern tools for managing financial risk. Fixed income securities and interest rate risk, credit risk, foreign currency risk, and insurance. Emphasis on use of futures, forwards swaps, and option contracts. Prerequisite: FIN 350; either B ECON 300 or ECON 300.

[View course details in MyPlan: FIN 462](#)

FIN 466 Alternative Investments: Hedge Funds and Private Equity (4)

Examination of the market for alternative investments including the investment strategies employed by hedge funds and private equity firms, the risk-return tradeoffs of those strategies, and the legal and economic environments in which alternative investment firms operate. Prerequisite: FIN 350; either B ECON 300 or ECON 300. Instructors: Brogaard

[View course details in MyPlan: FIN 466](#)

FIN 490 Special Topics in Finance (1-6, max. 12)

Study and research on topics of current concern to faculty and students. Only offered when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings.

[View course details in MyPlan: FIN 490](#)

FIN 495 Finance Internship (1-4, max. 8)

Internship with a private firm, nonprofit organization or government agency, where work experience involves substantial application of finance concepts learned in classroom. Prerequisite: FIN 350. Credit/no-credit only.

[View course details in MyPlan: FIN 495](#)

FIN 499 Undergraduate Research (1-6, max. 9)

Research in selected areas of business finance, money and banking, or investments, with permission of instructor.

[View course details in MyPlan: FIN 499](#)

FIN 502 Business Finance (4)

Financial management of the firm, including capital budgets, working capital analysis, and financing policy. Prerequisite: ACCTG 500, B ECON 500, QMETH 500.

[View course details in MyPlan: FIN 502](#)

FIN 528 International Financial Management (4)

Analysis of financial problems facing businesses engaged in international activities: financing foreign investment, financial control of foreign operations, and working capital management including foreign exchange positions using cases and readings. Prerequisite: B A 502 or FIN 509.

[View course details in MyPlan: FIN 528](#)

FIN 530 Financial Management of Banks (4)

Analysis of problems in the financial management of commercial banks and other financial institutions. Loan and investment policies, liability management, capital policies, and other selected issues are discussed.

Prerequisite: B ECON 520 or permission of graduate office.

[View course details in MyPlan: FIN 530](#)

FIN 550 Advanced Business Finance (4)

Systematic coverage of key theoretical issues in financial management. Application of quantitative analysis to financial problems of the firm that are important in practice, including issues related to financing and investment. Prerequisite: MBA Core Finance.

[View course details in MyPlan: FIN 550](#)

FIN 551 Problems in Business Finance (4)

Uses case studies to examine a broad range of financial management topics, including forecasting financial statements, use of bank credit, working capital management, public and private securities issues, capital budgeting, and business valuation. Credit allowed for only one of FIN 551 and FIN 552. Prerequisite: B A 502.

[View course details in MyPlan: FIN 551](#)

FIN 552 Problems in Corporate Planning and Financing (4)

Uses case studies to examine business financing. Topics include financial statement analysis, financial planning and forecasting, banking relationships, and financing sources, including the use of derivative securities, venture capital, and private equity. Credit allowed for only one of FIN 551 and FIN 552. Prerequisite: either B A 501 or

FIN 502.

[View course details in MyPlan: FIN 552](#)

FIN 553 Problems in Capital Investment Planning (4)

Case discussions used to examine corporate resource allocation decisions. Topics include capital budgeting techniques, estimation of capital costs, capital budgeting systems, strategic investment decisions, and financial restructurings. Prerequisite: either B A 501 or FIN 502.

[View course details in MyPlan: FIN 553](#)

FIN 555 Financing Decisions, Payout Policy, and Corporate Control (4)

Analysis of business financing methods, payout policy, management compensation, ownership structure, and the distribution of control rights. Covers the major issues critical to structuring contracts within the corporation.

Prerequisite: MBA Core Finance.

[View course details in MyPlan: FIN 555](#)

FIN 556 Business Valuation and Investment Analysis (4)

Valuation of business enterprises, evaluation of financial performance, analysis of complex investment opportunities, business taxation, leasing, and business acquisitions. Emphasis on complications encountered in practice. Prerequisite: MBA Core Finance.

[View course details in MyPlan: FIN 556](#)

FIN 557 Entrepreneurial Finance (4)

Analyzes the unique financial issues facing entrepreneurial firms. Topics include assessing financial performance, financial forecasting and planning, financial management of rapidly growing businesses, start-up ventures, valuation, sources of financing, venture capital, initial public offerings, and the decision to harvest.

Prerequisite: MBA core courses. Offered: jointly with ENTRE 557.

[View course details in MyPlan: FIN 557](#)

FIN 558 Mergers and Acquisitions (4)

Advanced finance topics focusing on providing the necessary training to value, structure, and close acquisitions. Additional topics include antitrust issues, the legal environment governing mergers, and antitakeover defense.

[View course details in MyPlan: FIN 558](#)

FIN 560 Investments (4)

Introduction to the nature, problems, and process of evaluating particular securities and portfolio construction and administration. Special attention is directed to the risk and rate of return aspects of particular securities, securities portfolios, and total wealth. Prerequisite: MBA Core Finance.

[View course details in MyPlan: FIN 560](#)

FIN 561 Financial Futures and Options Markets (4)

Overview of futures markets and options markets. Analysis of pricing of futures contracts and options; comparison of futures, forward, and options contracts; risk management with hedging; alternative investment strategies; and review of empirical evidence. Prerequisite: MBA Core Finance.

[View course details in MyPlan: FIN 561](#)

FIN 562 Management of Financial Risk (4)

Modern tools for managing financial risk. Fixed income securities and interest rate risk, credit risk, foreign currency risk, and insurance. Emphasis on use of futures, forwards, swaps, and option contracts. Prerequisite: MBA Core Finance.

[View course details in MyPlan: FIN 562](#)

FIN 563 Real Options (2)

Short overview of option pricing theory, followed by applications of option analysis in evaluating complex investment projects by business firms. Prerequisite: B A 502.

[View course details in MyPlan: FIN 563](#)

FIN 566 Alternative Investments: Hedge Funds and Private Equity (4) Brogaard

Examination of the market for alternative investments including the investment strategies employed by hedge funds and private equity firms, the risk-return tradeoffs of those strategies, and the legal and economic environments in which alternative investment firms operate.

[View course details in MyPlan: FIN 566](#)

FIN 579 Special Topics in Finance (2/4, max. 12)

Finance topics of current concern to faculty and students. Offered only when faculty are available and sufficient student interest exists. Seminar content announced in advance of scheduled offerings. Prerequisite: permission of instructor.

[View course details in MyPlan: FIN 579](#)

FIN 580 Doctoral Seminar in Financial Economics (4)

Study of the financing of the corporation, including recent theoretical and institutional developments. Extensive reading and discussion in designated areas covering problems relating to financial management and to the social and economic implications of the financial process. Prerequisite: ECON 500 or permission of instructor.

[View course details in MyPlan: FIN 580](#)

FIN 590 Doctoral Seminar in Capital Market Theory (4)

Decision making under uncertainty, information and capital market efficiency, portfolio theory, capital asset pricing model, arbitrage pricing model, and options pricing model. Prerequisite: ECON 500 or permission of instructor.

[View course details in MyPlan: FIN 590](#)

FIN 591 Doctoral Seminar in Corporate Finance (4)

Principles of intertemporal choice, alternative valuation models, theory of investment under uncertainty, impact of dividend and financing decisions on firm valuation in perfect and imperfect markets, and theory of firm organization and agency costs. Prerequisite: FIN 590 and BA RM 581 or ECON 582 or permission of instructor.

[View course details in MyPlan: FIN 591](#)

FIN 592 Doctoral Seminar in Financial Research (4)

Empirical research in finance with emphasis on methodology and scientific method. Empirical research in market efficiency, capital asset pricing model, options pricing model, and impact of firm's dividend and financing decisions on firm value. Prerequisite: FIN 590 and BA RM 581 or ECON 582 or permission of instructor.

[View course details in MyPlan: FIN 592](#)

FIN 599 Doctoral Seminar in Finance (1, max. 12)

Study and research in advanced topics of finance. Generally concerned with unpublished areas of research, conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

[View course details in MyPlan: FIN 599](#)

FIN 600 Independent Study or Research (*-)

FOSTER SCHOOL OF BUSINESS

BUSINESS ADMINISTRATION

INFORMATION SYSTEMS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

I S 300 Introduction to Information Systems (5)

Fundamentals of information systems, what they are, how they affect organizations. Technical and organizational foundations of information systems, building information systems, managing information system resources. Laboratory emphasizes using computer to analyze, coordinate, solve organizational decision-making problems. Prerequisite: ACCTG 225; ECON 200; either MATH 112, MATH 124, MATH 125, MATH 134, MATH 135, or Q SCI 291; either ECON 311, IND E 315, QMETH 201, Q SCI 291, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 221/SOC 221/CS&SS 221, STAT 311, or STAT 390; may not be repeated.

Offered: AWSpS.

[View course details in MyPlan: I S 300](#)

I S 310 Fundamentals of Business Information Technologies (4)

Exposure to fundamental programming and scripting concepts, conceptual data modeling, database management, and XML Applying data types and control structures. Continues the concepts of I S 300 of entity-relationship diagrams and record structure diagrams. Database management component includes relational databases, basic SQL, data architecture issues. Prerequisite: I S 300. Offered: AWSp.

[View course details in MyPlan: I S 310](#)

I S 320 Fundamentals of Application Programming (4)

Fundamental programming concepts including data types, control structures, modularization, and structure programming. Developing solutions for problems in interactive business applications. Introduction to data and file structures. Extensive use of an event-driven programming language. Prerequisite: I S 300, which may be taken concurrently; may not be repeated. Offered: AWSp.

[View course details in MyPlan: I S 320](#)

I S 410 Business Data Communications (5)

Technology and applications of business data communications including characteristics of data, fundamentals of transmission, communications hardware and software, network configurations (LAN, MAN, WAN), management, and security. Laboratory provides hands-on experience with these applications. Prerequisite: I S 300, which may be taken concurrently; may not be repeated. Offered: AWSp.

[View course details in MyPlan: I S 410](#)

I S 445 Database Management (4)

Examines the business need for database processing. Discusses database design, development, and administration. Students practice real-world database design and implementation using SQL. Discusses issues related to transaction management, data warehouse, etc. Prerequisite: I S 320, which may be taken concurrently; may not be repeated. Offered: AWSp.

[View course details in MyPlan: I S 445](#)

I S 451 Business Data Analytics (4) Y. TAN

Introduction to business data analytics concepts and techniques, including association rules, classification, cluster analysis, decision trees, logistic regression, text mining, and web analytics. Real-world applications in information systems, supply chain management, and others. Prerequisite: I S 300, OPMGT301 Offered: AWSp.

[View course details in MyPlan: I S 451](#)

I S 460 Systems Analysis and Design (4)

Analysis and design of business information systems. Concentrates on the analysis phase of systems development. Covers systems development life cycle, feasibility studies, analysis of user requirements, and development of logical system models. Prerequisite: I S 410; I S 445; both of which may be taken concurrently; may not be repeated. Offered: WSp.

[View course details in MyPlan: I S 460](#)

I S 461 Systems Implementation (4)

Develops business information systems integrating knowledge gained in previous 400-level I S courses. Topics include software project management, system/database design, GUI, software testing, systems implementation/support/maintenance, user training, integrating web, and business environments. Prerequisite: I S 445; I S 460; may not be repeated.

[View course details in MyPlan: I S 461](#)

I S 490 Selected Topics in Information Systems (1-6, max. 12)

Topics of current concern to faculty and students. Potential topics include networks and distributed information-processing systems, office automation, artificial intelligence and knowledge-based systems, new approaches to systems development, fourth- and fifth-generation languages, economics of information systems. Prerequisite: I S 320.

[View course details in MyPlan: I S 490](#)

I S 495 Practical Experience in Information Systems (1-4, max. 8)

Undergraduate substantive I S internship and mentorship. Internships can be repeated up to two quarters for maximum of 4 credits; grades based on weekly status reports, paper, demonstration of knowledge. Mentorship program (maximum 1 credit/quarter) allows student to be matched with I S executive; grade based on status reports, other participatory events. Offered: AWSpS.

[View course details in MyPlan: I S 495](#)

I S 499 Undergraduate Research (1-6, max. 12)

Selected problems in information systems and computer applications.

[View course details in MyPlan: I S 499](#)

I S 504 Computer-Based Information Systems for Management (3)

Introduction to information systems and computer technology. Covers concepts of information use in decision making. Use of decision-support problem-solving tools (e.g., spreadsheet, database software). Management's responsibility in defining, developing, using information systems is focal point.

[View course details in MyPlan: I S 504](#)

I S 530 Management of Information Systems Resources (4)

Topics include general control problem in organizations; performance evaluation of data processing managers; technology and cost trends; software cost estimation; capacity planning; short term utilization; queuing and associated externalities; issues in centralization and decentralization of the information system facilities.

Prerequisite: B A 501 or I S 504 or equivalent.

[View course details in MyPlan: I S 530](#)

I S 545 Database Systems and Applications (4)

Logical data models, relational database systems, structured query language (SQL), conceptual modeling, database design, Web-connected databases, transaction management, distributed and heterogeneous systems, data warehousing, data mining, database administration issues. Focuses on the use/management of business data in areas such as finance. Prerequisite: B A 502 or I S 504.

[View course details in MyPlan: I S 545](#)

I S 560 Information Systems Development (4)

Offers comprehensive look at information systems development. Covers user requirements analysis, logical and physical system models, system implementation and maintenance, project valuation and management.

Additional topics include object-oriented approach, systems development in online environments, and financial information systems. Prerequisite: B A 501 or permission of instructor.

[View course details in MyPlan: I S 560](#)

I S 570 Business Data Communications and Networking (4)

Networking basics, Internet/web-based services, client-server architecture, fundamentals of transmission, networking protocols, physical layer, data-link layer, local-area networks, backbone networks, internetworking devices, metropolitan and wide-area networks, wireless networking, network security, network analysis and management. Combines technical, operational, and management issues in data communications. Prerequisite: B A 502 or I S 504.

[View course details in MyPlan: I S 570](#)

I S 579 Selected Topics in Information Systems (2/4, max. 12)

Topics of current concern to faculty and students. Potential topics include networks and distributed information-processing systems, office automation, artificial intelligence and knowledge-based systems, new approaches to systems development, fourth- and fifth-generation languages, economics of information systems. Prerequisite: B A 501 or I S 504 or permission of instructor.

[View course details in MyPlan: I S 579](#)

I S 580 Advanced Research Topics in Information Systems I (4, max. 12)

Overview of research problems and techniques in information systems. Focuses on application of microeconomic theories, mathematical, statistical, and operations research methods. Extensive reading and discussion in current and emerging research topics. Prerequisite: doctoral student or permission of instructor.

[View course details in MyPlan: I S 580](#)

I S 581 Advanced Research Topics in Information Systems II (4, max. 12)

Advanced topics of current interest of faculty in heterogeneous database, temporal database, data warehousing, data uncertainty, active and deductive database systems, database design, and formal database languages.

Prerequisite: doctoral student or permission of instructor.

[View course details in MyPlan: I S 581](#)

I S 582 Advanced Research Topics in Information Systems III (4, max. 12)

Potential topics include information systems design, software engineering, decision support and expert systems, empirical methods, optimal control theory. Prerequisite: I S 580 or doctoral student or permission of instructor.

[View course details in MyPlan: I S 582](#)

I S 599 Doctoral Seminar (1, max. 12)

Advanced topics of information systems. Generally concerned with unpublished areas of research and conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

[View course details in MyPlan: I S 599](#)

I S 600 Independent Study or Research (*-)

FOSTER SCHOOL OF BUSINESS

BUSINESS ADMINISTRATION

M.S. INFORMATION SYSTEMS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MSIS 501 Information Technology and Organizational Strategy (3)

Discusses the role of information technology (IT) in the development and execution of business strategy that takes into account competitors, customers, and firm competencies (including IT capabilities). Examines the impact of IT on two sets of strategic issues for a company - where to compete and how to compete. Helps students develop tools to use IT in aiding strategy. Offered: SpS.

[View course details in MyPlan: MSIS 501](#)

MSIS 502 Business Data Analysis (2)

Covers statistical techniques for managerial decision making. Includes hypotheses testing, regression, and analysis of variance. Offered: SpS.

[View course details in MyPlan: MSIS 502](#)

MSIS 503 Operations and Business Process Management (3)

Presents a framework to understand organizational processes, offers tools to improve these processes. Covers process improvement methodologies such as reengineering, TQM, six-sigma, simulation, and collaboration. Focuses on discussing application and implementations of improvement programs in a wide variety of settings, including operations processes related to inventory and scheduling, service, and quality assurance. Offered: SpS.

[View course details in MyPlan: MSIS 503](#)

MSIS 504 Business Decision Models (2)

Covers formulating and modeling business decision problems. Includes risk analysis, simulation, linear programming, and extensions. Offered: SpS.

[View course details in MyPlan: MSIS 504](#)

MSIS 510 Introduction to Data Mining and Analytics (3)

Covers managerial decision-making and business intelligence. Topics include naive Bayesian classifier, decision trees, rule covering, and other classification techniques, as well as issue related to data cleaning, design, testing, and validation. Special attention given to embedded intelligence in modern business processes and applications. Offered: AS.

[View course details in MyPlan: MSIS 510](#)

MSIS 511 Digital Transformation of Organizations (3)

Studies the impact of digital technologies within an organization, an industry, and an economy. Discusses system architecture that enables business process and provides foundation for management and use of information systems within organizations. Covers issues related to workflow process changes, efficiency and effectiveness, innovation, convergence, competitive advantage, and sustainability. Offered: A.

[View course details in MyPlan: MSIS 511](#)

MSIS 512 Information Security and Assurance in a Networked World (3)

Explores technical and managerial aspects of information security and assurance within a networked environment. Includes inspection and protection of information assets, detection of and reaction to internal and external threats, determining the levels of protection needed, and design of a consistent and reasonable information security architecture along with an implementable process. Offered: AS.

[View course details in MyPlan: MSIS 512](#)

MSIS 521 Information Technology and Marketing in the New Economy (3)

Explores issues related to marketing models based on social networking/computing, such as concepts and applications of search engine optimization (SEO), viral marketing, web analytics, user generated content, the wisdom of crowds, and prediction markets. Students work in teams on real-world projects to develop marketing strategies for maximizing online traffic to business sites. Offered: AS.

[View course details in MyPlan: MSIS 521](#)

MSIS 522 Advanced Business Data Mining (2)

Covers managerial decision-making and business intelligence. Topics include association rule mining and regression. Special attention given to embedded intelligence in modern business processes and applications. Offered: AW.

[View course details in MyPlan: MSIS 522](#)

MSIS 523 Compliance and Legal Issues in Information Technology (3)

Covers the overall framework of information technology (IT) compliance, both generic and industry-specific. Includes intellectual property rights, privacy, copyright protection, trade secrets, and other legal issues relevant to IT. Offered: AW.

[View course details in MyPlan: MSIS 523](#)

MSIS 524 Managing Information Technology Projects (3)

Explores issues related to analyzing and managing complex information technology (IT) projects in a globalized and networked world. Topics include life-cycle models, use case point estimation, function point analysis, COCOMO, scheduling and budgeting, project risk analysis, monitoring and control, contract design, outsourcing, and capability maturity model (CMM). Students manage real-world information technology project in a simulated environment. Offered: AW.

[View course details in MyPlan: MSIS 524](#)

MSIS 526 Enterprise Systems and Integration (3)

Provides an overall understanding of the complex role of information systems in transforming organizational processes and integrating them as part of an enterprise system. Topics include the concept of process-enabling information technologies and enterprise resource planning systems that support organizational manufacturing, customer service, and human resource management. Offered: SpS.

[View course details in MyPlan: MSIS 526](#)

MSIS 541 Advanced and Unstructured Data Mining (2)

Advanced topics in data mining, focusing on unstructured data, web mining, and text mining. Students learn and apply unstructured data mining tools on real-world unstructured data. Offered: WSp.

[View course details in MyPlan: MSIS 541](#)

MSIS 542 Advanced Development Frameworks (2)

Introduces object-oriented principles and key web-based system development tools. Topics include object-

oriented modeling, object-oriented programming languages, and advanced user interface design. Students use object analysis and design, modern programming languages, and advanced database technology to develop business applications. Offered: WSp.

[View course details in MyPlan: MSIS 542](#)

MSIS 543 Advanced Database Systems and Data Warehouses (2)

Extends and enhances understanding of enterprise databases to design, implement, and support business intelligence (BI) solutions. Topics include DBMS extensions for data warehousing, data warehouse and data mart design, loading and extracting data, performance tuning, and cloud-based BI application design. Emphasizes agile techniques to efficiently produce optimal solutions that meet business requirements and increase competitive advantage. Offered: WSp.

[View course details in MyPlan: MSIS 543](#)

MSIS 544 Managing Information Technology Resources (2)

Covers issues related to managing operations of the information (IT) department in an organization. Topics include IT budgeting, systems implementation/support/maintenance, user training, hardware replacement strategies, performance evaluation, technology cost estimation and trend forecasting, capacity planning, website utilization and traffic load balancing, and coordination with other functional departments. Offered: WSp.

[View course details in MyPlan: MSIS 544](#)

MSIS 545 Technology Entrepreneurship (2)

Examines the issues involved in creating an organizational environment that recognizes, nurtures, and grows technology-related entrepreneurial activities, the practice of selecting and monitoring ventures, and the capital process within a firm. Offered: WSp.

[View course details in MyPlan: MSIS 545](#)

MSIS 546 Information Systems Economics (2)

Examines basic concepts of economics as it pertains to information technology and systems. Includes the value of information, cost-benefit analysis, economies of scale, network effects, pricing of digital goods, information uncertainty in electronic markets, risk-return trade-offs, and other related topics. Offered: WSp.

[View course details in MyPlan: MSIS 546](#)

MSIS 547 Managing in the Era of Cloud Computing (2) W. DEY

Covers cloud computing; risks and benefits of information technology (IT) infrastructure; service and deployment models; virtualization and organizational impact; and cloud security. Offered: W.

[View course details in MyPlan: MSIS 547](#)

MSIS 550 MSIS Leadership Series (1-, max. 5)

Provides the capstone learning experience. Includes seminars by information technology leaders. Seminar topics and speakers chosen based on the progression of other courses in the program. Credit/no-credit only. Offered: A WS pS.

[View course details in MyPlan: MSIS 550](#)

MSIS 579 Contemporary Topics in Information Systems (2)

Contemporary topics in Information Systems. Offered: WSp.

[View course details in MyPlan: MSIS 579](#)

MSIS 600 Independent Study or Research (*, max. 5)

Study or research under the supervision of individual faculty members. Prerequisite: permission of instructor.

[View course details in MyPlan: MSIS 600](#)

MSIS 601 Internship (*, max. 5)

Graduate internship under the supervision of individual faculty members. Prerequisite: permission of instructor.

[View course details in MyPlan: MSIS 601](#)

FOSTER SCHOOL OF BUSINESS

BUSINESS ADMINISTRATION

INTERNATIONAL BUSINESS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

I BUS 300 Global Business Perspectives (4)

Prepares students to understand the most important aspects of the international political economy. Emphasis on the important relationships among nations and business and economic institutions that influence students' performances as managers, consumers, and citizens. Prerequisite: ECON 200.

[View course details in MyPlan: I BUS 300](#)

I BUS 330 Business Environment in Developing Nations (4)

The international environment for transnational trade, investment, and operations in the less-developed countries; survey of the economics of underdevelopment; analysis of foreign economic, cultural, and political environments and their impact on international business; foreign investment in the development process; case studies. Prerequisite: I BUS 300; may not be repeated.

[View course details in MyPlan: I BUS 330](#)

I BUS 340 Business Environment in Industrial Countries (4)

Factors and conditions affecting business operations and behavior in developed countries, international integration, business relations among nation states and integrated supranational systems, direct investment and multinational industrial activities, analysis of sources and causes of international change. Prerequisite: I BUS 300; may not be repeated.

[View course details in MyPlan: I BUS 340](#)

I BUS 440 Business in Asia (4)

Major aspects of the Asian business environment and how Asian enterprises are managed. Problems and opportunities of foreign corporations in Asia. Prerequisite: I BUS 300; may not be repeated.

[View course details in MyPlan: I BUS 440](#)

I BUS 461 Science, Technology, and Innovation Policies in East Asia (5) I&S Anchorodogy

Role of state and technological change in economic development. Analyzes state and corporate technology policies historically. Basic technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores whether conditions for its success

will continue. Offered: jointly with JSIS A 472.

[View course details in MyPlan: I BUS 461](#)

I BUS 462 Japanese Business and Technology (5) I&S *Anchordoguy*

Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with JSIS A 478.

[View course details in MyPlan: I BUS 462](#)

I BUS 470 Management of International Trade Operations (4)

Integrated study of international trade functions, practices, concepts, management, strategy, and policy. The approach utilizes lectures, case studies, research, guest speakers, and extensive practical application.

Prerequisite: I BUS 300.

[View course details in MyPlan: I BUS 470](#)

I BUS 480 Multinational Operations Management (4)

Case studies in foreign operations management: planning international objectives and strategies; developing multinational company structures and executives; adapting administrative practices and operating policies to international diversities. Prerequisite: I BUS 300; may not be repeated.

[View course details in MyPlan: I BUS 480](#)

I BUS 490 Special Topics in International Business (1-6, max. 12)

Students and faculty focus on current topics of concern. Offered when faculty, student interest, and availability allow. Prerequisite: I BUS 300.

[View course details in MyPlan: I BUS 490](#)

I BUS 491 CISB Track Seminar (1, max. 9)

Students meet with business community leaders to discuss international aspects of their companies. Allows for networking and sharing experiences with other students as well as practicing foreign languages. Credit/no-credit only.

[View course details in MyPlan: I BUS 491](#)

I BUS 495 International Business Internship (1-4, max. 8)

An internship with a company, not-for-profit organization, or government agency in an international business capacity. Prerequisite: I BUS 300. Credit/no-credit only.

[View course details in MyPlan: I BUS 495](#)

I BUS 496 International Business Practicum (4)

Offers students opportunity to apply principles, concepts, and skills learned previously to actual business situation. Projects provide students an exposure to the issues and choices facing managers operating in an international business environment. Prerequisite: I BUS 300.

[View course details in MyPlan: I BUS 496](#)

I BUS 499 Undergraduate Research (1-6, max. 9)

Prerequisite: I BUS 300.

[View course details in MyPlan: I BUS 499](#)

I BUS 520 International Trade Policy (4)

Examines issues important to trade policy. Topics include trade policy basics, tariffs and non-tariff barriers, safeguards, voluntary restraints, dumping, subsidies and strategic trade theory, agricultural trade, developing country rules, regionalism, and services. Prerequisite: B A 500 or course in international economics, trade, or international finance, or permission of graduate office.

[View course details in MyPlan: I BUS 520](#)

I BUS 530 International Business in Less Developed Countries (4)

Understanding the economic, sociocultural, and political environment in the less developed countries. Problems of international trade and investment, north-south relations, commodities, technology transfer, foreign aid, and capital flows. Prerequisite: B A 500 or course in international economics or trade or international finance, or permission of graduate office.

[View course details in MyPlan: I BUS 530](#)

I BUS 540 International Business in Industrialized Countries (4)

Understanding the economic, sociocultural, and political environment in developed, industrialized countries. Problems of international trade and payments relations, economic integration, national policies, and supranational organizations' impact on managerial environments. Prerequisite: B A 500 or course in international economics or trade or international finance, or permission of graduate office.

[View course details in MyPlan: I BUS 540](#)

I BUS 545 Cases in Sustainability (4) *Stearns*

Examines components of corporate sustainability- financial, social, and environmental - in cases and articles format. Tackles rigorous global cases using triple bottom line framework. All topics are augmented by executive experts. Students research and critique strategic and executional and intent actions of companies as they face twenty-first century challenges and shareholder demands.

[View course details in MyPlan: I BUS 545](#)

I BUS 550 International Business Consulting (4)

Research, analysis, and report on a specific international business project with an existing organization involved with international trade. Possible tasks include identifying most viable foreign target markets, developing best market entry strategies, establishing international terms and conditions of sale, and completing a preliminary marketing or business plan for clients.

[View course details in MyPlan: I BUS 550](#)

I BUS 560 Multinational Business Management (4)

Managerial responses to problems of international business organizations and operations. Strategy formulation in an international context; design and control of multinational organization; adaptation of management systems and policies to different economic, sociocultural, and political environments. Prerequisite: B A 500 or course in international economics or trade or international finance, or permission of graduate office.

[View course details in MyPlan: I BUS 560](#)

I BUS 561 Science, Technology, and Innovation Policies in East Asia (5) *Anchordoguy*

Role of state and technological change in economic development. Analyzes state and corporate policies historically. Technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores conditions for its successful continuation. Offered: jointly with JSIS A 581.

[View course details in MyPlan: I BUS 561](#)

I BUS 562 Japanese Business and Technology (5) *Anchordoguy*

Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with JSIS A 578.

[View course details in MyPlan: I BUS 562](#)

I BUS 570 International Study Tour (2)

Educational international study tour. Includes pre-tour and post-tour activities. Prerequisite: B A 502 and permission of Foster School of Business.

[View course details in MyPlan: I BUS 570](#)

I BUS 572 Cross-Cultural Conversations on Contemporary Issues (1, max. 4)

Creates opportunities for students from across the globe to share information and perspectives on contemporary

issues important to international business. In weekly, facilitated, small-group conversations, students improve¹³⁰⁵ their ability to formulate and express ideas and opinions, and practice persuasion and facilitation skills.

Credit/no-credit only.

[View course details in MyPlan: I BUS 572](#)

I BUS 575 Business Studies Abroad (*, max. 24)

Research and study of foreign business problems in the country or countries where the firms are located.

Limited to students who have the approval of their major adviser and a faculty member who has agreed to direct their work in accordance with a definite program of studies. Credit/no-credit only.

[View course details in MyPlan: I BUS 575](#)

I BUS 579 Seminar: Special Topics in International Business (2/4, max. 12)

Application of international business principles to the analysis of a specific issue in trade or resource transfer, or to the business conditions in a particular country. Japan and other Pacific Rim countries are frequent topics.

Prerequisite: B A 500 or permission of instructor.

[View course details in MyPlan: I BUS 579](#)

I BUS 600 Independent Study or Research (*-)

MANAGEMENT

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MGMT 200 Introduction to Law (5) I&S

Legal institutions and processes; law as a system of social thought and behavior and a frame of order within which rival claims are resolved and compromised; legal reasoning; law as a process of protecting and facilitating voluntary arrangements in a business society.

[View course details in MyPlan: MGMT 200](#)

MGMT 275 Management Essentials (3) I&S McPherson

Explores management and leadership through understanding individuals, teams, and organizations. Discusses relevant concepts and applications of strategic planning, problem solving, conflict management, negotiation, change management, and control systems. Also covers current issues regarding ethical behavior, social responsibility, and diversity. Not open for credit to students pursuing a business degree.

[View course details in MyPlan: MGMT 275](#)

MGMT 300 Leadership and Organizational Behavior (4)

Focuses on how managers become effective leaders. Examines basic principles of managing people, making use of theories that transcend the workplace, including the psychology of individual and group behavior.

Emphasizes leadership, strategic thinking, team building, and performance.

[View course details in MyPlan: MGMT 300](#)

MGMT 311 Managing Human Resources (4)

The personnel/industrial relations function from a managerial perspective. Selection, compensation, performance appraisal, and training and development. Special emphasis on union-management relations and relevant behavior science research.

[View course details in MyPlan: MGMT 311](#)

MGMT 312 Career Development Workshop (2)

Develops career goals in business administration and guides students toward the academic training that achieves their goals. Emphasizes development of the personal skills necessary to market oneself in a competitive marketplace and present oneself to potential employers.

[View course details in MyPlan: MGMT 312](#)

MGMT 320 Business, Government, and Society (4)

Political, social, and legal environment of business. Critical managerial issues from historical, theoretical, ethical perspectives; their impact on organization. Corporate political power, boards of directors, capitalism, industrial policy, business ethics and social responsibility, alternative corporate roles in society.

[View course details in MyPlan: MGMT 320](#)

MGMT 401 Leadership, Critical Thinking, and Decision Making (4)

The manager as leader and decision maker. Various leadership theories, styles, and behaviors. Decision-making models and techniques.

[View course details in MyPlan: MGMT 401](#)

MGMT 402 Deal-Making and Negotiations (4)

The art and science of negotiations with the goal of making students more effective negotiators in a variety of business situations, such as budget negotiations, buying and selling, contracts, and merger negotiations. Concept and skill development.

[View course details in MyPlan: MGMT 402](#)

MGMT 403 Motivating High Performance (4)

Various strategies for influencing employee motivation and performance. Reward systems, goal-setting procedures, and various techniques to enlarge and enrich one's job. Effects of these formal and informal strategies on job attitudes.

[View course details in MyPlan: MGMT 403](#)

MGMT 411 Recruiting and Hiring Talent (4)

Affirmative action, recruitment, testing, interviewing, placement, promotion, and overall human resource planning. Prerequisite: MGMT 311.

[View course details in MyPlan: MGMT 411](#)

MGMT 412 Performance Appraisal and Compensation (4)

The various kinds of systems used by organizations to evaluate and reward employee performance. Job analysis, job evaluation, setting performance standards, giving appraisal feedback, designing incentive systems, administering a salary plan. Prerequisite: MGMT 311.

[View course details in MyPlan: MGMT 412](#)

MGMT 430 Strategic Management (4)

Develops strategic thinking skills for balancing opportunities and risks of business competition to generate superior value for stakeholders. Performs in-depth analyses of industries and competitors, predicts competitive behavior, and explores how firms develop and sustain competitive advantage over time. Prerequisite: FIN 350; MKTG 301; either HRMOB 300 or MGMT 300.

[View course details in MyPlan: MGMT 430](#)

MGMT 440 Business Consulting (4)

Integrates knowledge and tools from the undergraduate business core curriculum with a focus on consulting. Students learn theoretical frameworks and develop proficiencies in a wide range of skills. Students gain practical experiences working in teams and assisting local organizations to solving immediate business issues.

[View course details in MyPlan: MGMT 440](#)

MGMT 445 Multicultural Marketing and Business Development (4) DIV

Integrates tools from marketing, consulting, and multi-cultural business management to provide consulting services to small business in economically-distressed communities. Working in teams with assistance from industry mentors and alumni from the course, students gain practical experience in multi-cultural marketing, consulting, and managing a business. Prerequisite: MKTG 301. Offered: jointly with MKTG 445.

[View course details in MyPlan: MGMT 445](#)

MGMT 490 Special Topics in Management (1-6, max. 12)

Topics of current interest to faculty and students. Offered when allowed by faculty availability and sufficient student interest. Content announced in advance of scheduled offerings.

[View course details in MyPlan: MGMT 490](#)

MGMT 495 Management Internship (1-4, max. 8)

Internship with a private firm, nonprofit organization, or government agency, where work experience involves substantial application of management concepts learned in classroom. Prerequisite: MGMT 300. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: MGMT 495](#)

MGMT 499 Undergraduate Research (1-6, max. 9)

Independent research in selected areas of human resource management, organizational behavior, and business strategy under faculty supervision. Prerequisite: MGMT 300; MGMT 320.

[View course details in MyPlan: MGMT 499](#)

MGMT 500 Management and Leadership (4)

Behavioral aspects of management with emphasis on leadership, motivation, and decision making. May include communication, conflict management, group dynamics, and organizational change.

[View course details in MyPlan: MGMT 500](#)

MGMT 502 Business Strategy (4)

Policy decisions and strategic leadership from the general management point of view. Determination of corporate product-service objectives, development of a network of internal operating policies and methods to achieve objectives at a cost satisfactory to the consumer and to society. Prerequisite: all first-year required courses in MBA curriculum.

[View course details in MyPlan: MGMT 502](#)

MGMT 504 Ethical Leadership (4)

Examines the ethical aspects of conducting business. Topics include ethical decision-making, the ethical aspects of leadership and culture, stakeholder management, corporate social responsibility, sustainability, and corporate governance. Prerequisite: first-year MBA required courses. Offered: W.

[View course details in MyPlan: MGMT 504](#)

MGMT 509 Global Strategy (2)

Develops a broad overview of many of the issues that global managers face including government-MNE relations, global strategy, entry modes, country analysis, national culture, and the social responsibility of a global enterprise. Prerequisite: permission of School of Business Administration.

[View course details in MyPlan: MGMT 509](#)

MGMT 510 Developing Leadership Skills ([0-2]-, max. 2)

Assessment, instruction, and coaching to develop leadership abilities. Emphasizes team building and collaboration, written, oral, and interpersonal communication, and applied leadership activities.

[View course details in MyPlan: MGMT 510](#)

MGMT 511 Leadership and Coaching Practicum (2, max. 4)

Gives Leadership Fellows a venue to analyze and assess their coaching activities with first-year MBA student teams, receive feedback from the instructor and their fellow coaches, discuss readings on leadership, coaching, collaboration, and communication, and hear guest speakers on related topics. Credit/no-credit only.

[View course details in MyPlan: MGMT 511](#)

MGMT 520 Designing a Corporate Strategy (4)

Addresses the broad question: what business(es) should we compete in? Focuses on decisions related to an appropriate level of diversification and the means by which that diversification is implemented. Includes the

following issues: mergers and acquisitions, strategic alliances, joint ventures, LBOs, and spin-offs.

[View course details in MyPlan: MGMT 520](#)

MGMT 521 Strategic Management of Technology and Innovation (4)

Examines how innovative firms often experience rapid and disruptive levels of growth and change and how without effective management of new technologies, the boom can quickly turn to bust. Investigates the micro-economic drivers of competition in technology industries, explores how technological change affects competition, and examines the implications for competitive strategy.

[View course details in MyPlan: MGMT 521](#)

MGMT 522 Innovation Strategy (4)

Explores how firms tap into external sources of innovation, focusing on user communities, universities, and entrepreneurial ventures. Demonstrates how open, collaborative, community-based models of innovation create successful business options. Offered: jointly with ENTRE 522.

[View course details in MyPlan: MGMT 522](#)

MGMT 545 Leading and Managing High-Performance Organizations (4)

Focuses on the nature and function of effective leadership in high-performance systems. Includes visionary and transformational leadership, decision-making and empowerment, power and influence in organizations desiring flexibility and innovation, and leading organizational change. Places emphasis on leadership of emerging forms of organization such as learning organizations, virtual organizations, and networks.

[View course details in MyPlan: MGMT 545](#)

MGMT 546 High Involvement Employees (4)

Focuses on two domains: (1) how managers can lead and motivate their people; and (2) how actual organizations, particularly high technology and entrepreneurial firms, employ these strategies. Specific topics include commitment, involvement, enthusiasm, effort, participation, citizenship, and performance. Student teams investigate how local companies utilize these ideas.

[View course details in MyPlan: MGMT 546](#)

MGMT 547 Successful Negotiations (2)

Focuses on a broad array of conflict resolution skills needed for effective management in a constantly changing business environment. Examines methods of conflict resolution - bargaining, distributive and integrative negotiation, mediation, and arbitration. Applies these tools to managerial challenges such as employment contracts, buyer-seller agreements, and mediated and arbitrated agreements.

[View course details in MyPlan: MGMT 547](#)

MGMT 548 Dealmaking in High Velocity Ventures (2)

Focuses on negotiations in ventures that lack conventional customers, suppliers, employees, joint-venture partners, strategic allies, and money. Analyzes negotiations with early potential customers and essential suppliers, sources of funding (e.g., "angels" and venture capitalists), critical partners and/or strategic allies (including established firms), and key employees.

[View course details in MyPlan: MGMT 548](#)

MGMT 549 Dealmaking in the Global Arena (2)

For students who expect to engage in significant international business negotiations. Includes deal-structuring skills needed in a range of cross-border transactions and relationships. Individual segments develop broad analytical themes, cross-cultural dimensions, and distinctive national approaches to corporate governance and their impact on negotiating strategy. Prerequisite: MGMT 547.

[View course details in MyPlan: MGMT 549](#)

MGMT 550 CEO and Board Governance (4)

Prepares students both to be effective board members and to work productively with board members as executives. Focuses on board effectiveness in creating value in oversight and strategic leadership within

organizations regardless of size and form of business.

[View course details in MyPlan: MGMT 550](#)

MGMT 555 Nonprofit Board Fellows Leadership Seminar ([1-2]-, max. 4)

Assists students participating in the Board Fellows Program to maximize their service to their assigned organizations by examining the fundamental responsibilities of board members and the challenges faced by board members; ways boards shape the organization's strategic direction; ways board members can strengthen their organizations' financial management and stability; and the strengths and limitations of various board governance structures.

[View course details in MyPlan: MGMT 555](#)

MGMT 579 Special Topics in Management (2/4, max. 12)

In-depth study and research on topics of special interest to faculty members and students in the fields of human resources management, organizational behavior, and strategic management. Offered on an ad hoc basis. Content announced before scheduled offering.

[View course details in MyPlan: MGMT 579](#)

MGMT 580 Psychological Foundations of Organizational Behavior (4)

Focuses on attributes the individual brings to the organization. Covers important performance-related processes such as learning, motivation, and decision-making as well as an understanding of personal attitudes and personality traits.

[View course details in MyPlan: MGMT 580](#)

MGMT 581 Social Processes in Organizations (4)

Focuses on ways in which the individual and the organization get things done through working with others. Includes leadership, social influence, and the use and abuse of power, with attention given to positive organizational activities such as citizenship behavior and extra role activities.

[View course details in MyPlan: MGMT 581](#)

MGMT 582 Contemporary Organizational Behavior Research (4)

Facilitates understanding of empirical foundations of theory development and testing in contemporary organizational behavior research. Focuses on assessing ways in which the empirical tradition has evolved in organizational behavior with special attention paid to emerging research areas and research methodologies.

[View course details in MyPlan: MGMT 582](#)

MGMT 583 Special Topics in Organizational Behavior Research I (4)

Focuses on the psychological, social psychological, and sociological factors that shape organizations and their members. Covers concepts such as cognition, emotions, identity, communication, group dynamics, team development, organizational culture, global culture, behavioral ethics, etc.

[View course details in MyPlan: MGMT 583](#)

MGMT 584 Special Topics in Organizational Behavior Research II (4)

Focuses on the psychological, social psychological, and sociological factors that shape organizations and their members. Covers concepts such as cognition, emotions, identity, communication, group dynamics, team development, organizational culture, global culture, behavioral ethics, etc. in more depth.

[View course details in MyPlan: MGMT 584](#)

MGMT 590 Economic Foundations of Strategic Management (4)

Reviews the economic theories that support strategies pursued by firms and explores the links between market processes, firm strategy, and firm performance. Topics include agency theory, transaction cost economics, resource dependence, population ecology, and neo-Austrian economics.

[View course details in MyPlan: MGMT 590](#)

MGMT 591 Sociological Foundations of Strategic Management (4)

Explores the sociology of organizations from multiple perspectives while introducing fundamental sociological

questions and preparing students for conducting research in organizations. Emphasis on structural contingencies,¹³¹¹ institutions, resource dependence, population ecology, negotiated order and culture, organizational learning and decision making, organizational power and politics, networks, and inter-organizational relations.

[View course details in MyPlan: MGMT 591](#)

MGMT 592 Contemporary Strategic Management Research (4)

Facilitates understanding of empirical foundations of theory development and testing in contemporary strategic management research. Focuses on evaluation of ways in which the empirical tradition has evolved in the strategic management area. Attention to evaluating research methodologies used in the field.

[View course details in MyPlan: MGMT 592](#)

MGMT 593 Special Topics in Strategic Management I (4)

[View course details in MyPlan: MGMT 593](#)

MGMT 594 Special Topics in Strategic Management II (4)

Focuses on the social and political factors that help shape corporate strategy using stakeholder management as an integrating concept. Topics include corporate governance, corporate political activity, governmental regulation, comparative political economy, and normative aspects of strategic management, including ethics and corporate social responsibility.

[View course details in MyPlan: MGMT 594](#)

MGMT 599 Doctoral Seminar in Management (1, max. 12)

Advanced topics in the fields of human resources management and organizational behavior. May be used by visiting faculty members to present topics of interest to students.

[View course details in MyPlan: MGMT 599](#)

FOSTER SCHOOL OF BUSINESS

BUSINESS ADMINISTRATION

MARKETING

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

MKTG 275 Marketing Essentials (3) I&S Beard

Explores marketing principles and their usefulness in diverse business and organizational settings. Discusses controllable and uncontrollable factors in making marketing decisions, and the implications of product life cycle for decision-making. Develops working knowledge of marketing strategy. Not open for credit to students pursuing a Business degree.

[View course details in MyPlan: MKTG 275](#)

MKTG 301 Marketing Concepts (4)

Tools, factors, and concepts used by management in planning, establishing policies, and solving marketing problems. Marketing concepts, consumer demand and behavior, location analysis, marketing, functions, institutions, channels, prices, and public policy. Prerequisite: ECON 200.

[View course details in MyPlan: MKTG 301](#)

MKTG 335 Principles of Selling (4)

Focuses on selling from salesperson's perspective, role of persuasion in professional selling and other organizational settings. In addition to coursework in such areas as consumer behavior, negotiation, and communication, students practice sales skills in role plays, presentations, and other exercises requiring practical application of selling theory. Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 335](#)

MKTG 370 Retailing (4)

Profit planning and business control; buying, stock control, pricing, promotion; store location, layout, organization, policies, systems; coordination of store activities. Prerequisite: MKTG 301; may not be repeated.

[View course details in MyPlan: MKTG 370](#)

MKTG 411 Business to Business Marketing (4)

Covers the integrated marketing approach that enables a supplier firm to understand, create, and deliver value to other businesses, governments, and institutional customers. Case-based and project-oriented approach to studying marketing management in the business-to-business market that brings the fundamental concepts to life

with practical example. Prerequisite: MKTG 301. Instructors: Caldieraro

[View course details in MyPlan: MKTG 411](#)

MKTG 415 Pricing Strategy and Value Management (4)

Examines theoretical and applied perspectives in pricing strategy and tactics. Explores how firms optimally create, communicate, and capture value to achieve organizational objectives. Provides students with a rigorous foundation for pricing decisions and profitable customer solutions. Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 415](#)

MKTG 430 Sales Force Management (4)

Focuses on the role of the sales manager within the organization. Includes distribution planning, sales organization, management of the sales force, methods of sales, cost and financial analysis, and performance analysis. Prerequisite: MKTG 301; may not be repeated.

[View course details in MyPlan: MKTG 430](#)

MKTG 445 Multicultural Marketing and Business Development (4) DIV

Integrates tools from marketing, consulting, and multi-cultural business management to provide consulting services to small business in economically-distressed communities. Working in teams with assistance from industry mentors and alumni from the course, students gain practical experience in multi-cultural marketing, consulting, and managing a business. Prerequisite: MKTG 301. Offered: jointly with MGMT 445.

[View course details in MyPlan: MKTG 445](#)

MKTG 450 Consumer Behavior (4)

Theory and practice pertinent to marketing decisions; utilization of theories from behavioral sciences in marketing research; theories of fashion, characteristics of goods, shopping behavior, product differentiation, market segmentation, and opinion leadership; application of concepts to management of advertising, personal selling, pricing, and channels of distribution. Prerequisite: MKTG 301; may not be repeated.

[View course details in MyPlan: MKTG 450](#)

MKTG 452 Consumer Marketing and Brand Strategy (4)

Presents a consumer psychology inspired framework for cultivating and maximizing brand equity. Specific emphasis on brand positioning, visual identity design, brand association creation, and brand portfolio management. Greater attention to consumer-facing brands, but B2B brands will also be discussed. Prerequisite: MKTG 301. Instructors: Forehand

[View course details in MyPlan: MKTG 452](#)

MKTG 454 Strategic Product Management (4)

Focuses on best practices in new product development including customer-centric innovation, market identification, prototype development, value proposition communication, testing tactics and launch strategy. Prerequisite: MKTG 301; may not be repeated.

[View course details in MyPlan: MKTG 454](#)

MKTG 455 Entrepreneurial Marketing (4)

Examines the skills and tools entrepreneurs need for bootstrap marketing in their start-up firms. Students learn to identify target market segments, position their products, estimate demand, set prices, gain access to channels, and manage the issues of rapid growth. Prerequisite: MKTG 301; may not be repeated. Offered: jointly with ENTRE 455.

[View course details in MyPlan: MKTG 455](#)

MKTG 456 Advertising (4)

Management of the advertising function and its integration with other forms of promotion. Planning the program, determining the most effective approach, evaluation of media and budget, advertising research, advertising institutions, economic and social aspects. Prerequisite: MKTG 301; may not be repeated.

[View course details in MyPlan: MKTG 456](#)

MKTG 460 Marketing Research (4)

Examines marketing research process; steps of research design, questionnaire construction, sampling, data analysis, evaluation/presentation of findings, online research, and web surveys. Class project provides practical application. Prerequisite: MKTG 301; either ECON 311, QMETH 201, STAT 220, CS&SS 221/SOC 221/STAT 221, STAT 301, STAT 311, or MATH 390/STAT 390; may not be repeated.

[View course details in MyPlan: MKTG 460](#)

MKTG 462 Customer Analytics (4)

Focuses on how to use existing customer data to develop marketing strategies that improve customer response. The featured analytics translate customer data into inferred customer needs that can guide marketing decisions on pricing, advertising, and product recommendations. Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 462](#)

MKTG 464 Analytics for Marketing Decisions (4) H. YOGANARASIMHAN

Focuses on how firms can use real large scale databases and analytics to improve and automate firm-level marketing decisions. Consists of five modules - product design analytics, analytics for large-scale field experiments, advertising analytics, digital analytics, and mobile analytics. Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 464](#)

MKTG 466 Digital Marketing (4) S. SAYEDI ROSH KHAR

Provides a quantitative analysis of the digital marketing landscape on topics such as online advertising, social media, growth strategies and search engine optimization. Explores data-driven methods to evaluate digital opportunities, marketing strategies, and online business models. Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 466](#)

MKTG 470 International Marketing (4)

Focuses on assessing international marketing opportunities, formulating and implementing international marketing strategies. Examines how to use marketing analyses and deductive decision modeling in assessing international marketing opportunities. Uses marketing tools and concepts in the planning, preparation, and presentation and discussion of cases and class project. Prerequisite: MKTG 301; may not be repeated.

[View course details in MyPlan: MKTG 470](#)

MKTG 485 Strategic Market Management (4)

Strategically analyzes important marketing issues by combining basic models of marketing with powerful spreadsheet analysis. Case discussions and projects provide valuable application exercises. Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 485](#)

MKTG 490 Special Topics and Issues in Marketing (1-6, max. 12)

Contemporary topics and issues in marketing: marketing in nonprofit organizations, marketing of services, marketing in the public sector, and marketing in an economy of scarcity. Ordinarily only one topic area is addressed in any one quarter. Course content reflects contemporary developments and the current interests of instructors and students. Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 490](#)

MKTG 495 Marketing Internship (1-4, max. 8)

An internship with a company, not for profit organization, or government agency in a marketing capacity. Prerequisite: MKTG 301. Credit/no-credit only.

[View course details in MyPlan: MKTG 495](#)

MKTG 496 Marketing Practicum (4)

Offers opportunities to apply principles, concepts, and skills learned previously to actual business situations. Participation in class part-time and in an internship with a business employer part-time. Prerequisite: MKTG 301. Instructors: Rhodes

[View course details in MyPlan: MKTG 496](#)

MKTG 499 Undergraduate Research (1-6, max. 9)

Prerequisite: MKTG 301.

[View course details in MyPlan: MKTG 499](#)

MKTG 501 Marketing Management (4)

Analysis and management of customer satisfaction in goods and services markets by profit and nonprofit organizations. Buyer behavior, market segmentation and product positioning, product policy, pricing, distribution, sales force and advertising management, and market research in the contexts of strategy development, decision making, implementation, and control.

[View course details in MyPlan: MKTG 501](#)

MKTG 505 Marketing Strategy (4)

Focuses on the role of analytical marketing tools and competitive dynamics in strategy formation. Accentuates the integrative nature of marketing strategy through development of a strategic marketing plan and use of simulation software. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 505](#)

MKTG 510 New Product Development (4)

Integrates business, design, and engineering functions in the presentation and application of structures, tools, and methodologies important for successful new product development. New product development projects are accomplished with a cross-functional team emphasis. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 510](#)

MKTG 511 Business-to-Business Marketing (4)

Integrated approach to product marketing management in the business-to-business marketplace. Analysis of core competencies, competitive environment, positioning and segmentation strategies, cost structure, and customer satisfaction. Case-based and project-oriented approach to studying marketing management in the business-to-business market. Prerequisite: MBA core marketing or permission of instructor.

[View course details in MyPlan: MKTG 511](#)

MKTG 512 Consumer Marketing and Brand Management (4)

Analysis of marketing strategies for consumer products and services. Focuses on consumer satisfaction and brand management including product line and brand developments, pricing strategies, channel and retail relationships, and marketing communication strategies for consumer goods and services. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 512](#)

MKTG 515 Strategic Pricing and Value Management (4) J. SHULMAN

Examines theoretical and applied perspectives in pricing strategy and tactics. Explores how firms optimally create, communicate, and capture value to achieve organizational objectives. Provides students with a rigorous foundation for pricing decisions and profitable customer solutions. Prerequisite: B A 500 or MKTG 501.

[View course details in MyPlan: MKTG 515](#)

MKTG 520 Marketing Channels (4)

Channels of distribution decisions for goods and services in profit and nonprofit organizations. Considers methods of optimizing the number, quality of institutions and activities employed in dealing with exchange, and space and time aspects of channel management. Relates management of marketing channels to marketing mix, organizational objectives. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 520](#)

MKTG 530 Managing the Sales System (4)

Examines the revenue generation function of a firm from a system-wide perspective. Topics include strategic and tactical considerations related to customer acquisition and retention, end-to-end sales and support operations, strategic partnerships, and continuous performance monitoring. Emphasis on case studies and team

projects. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 530](#)

MKTG 540 Advertising and Promotion Management (4)

Management of advertising and promotional activities and their integration with other elements of the marketing mix. Topics include: understanding the communication process, analyzing markets, working with suppliers, establishing objectives, determining budgets, selecting media, measuring and evaluating effectiveness, using publicity and promotions. Legal, social, and economic consequences are considered. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 540](#)

MKTG 550 Managing Customer Relationships Through Direct Marketing (4)

Management of customer relationships through the lens of direct marketing. Topics include direct marketing creative activity, strategy, and execution; media and segmentation; direct marketing budgeting and financials; targeting, database, and predictive modeling; catalogue marketing; relationship marketing; business-to-business complex sales; privacy. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 550](#)

MKTG 552 Consumer Marketing and Brand Strategy (4) *M. FOREHAND*

Presents a consumer psychology inspired framework for cultivating and maximizing brand equity. Specific emphasis on brand positioning, visual identity design, brand association creation, and brand portfolio management. Greater attention to consumer-facing brands, but B2B brands will also be discussed. Prerequisite: B A 500 or MKTG 501.

[View course details in MyPlan: MKTG 552](#)

MKTG 554 Strategic Product Management (4) *A. BORAH*

Focuses on best practices in new product development including customer-centric innovation, market identification, prototype development, value proposition communication, testing tactics and launch strategy. Prerequisite: B A 500 or MKTG 501.

[View course details in MyPlan: MKTG 554](#)

MKTG 555 Entrepreneurial Marketing (4)

Examines the skills and tools entrepreneurs need for bootstrap or guerilla early-stage companies. Covers how to target market segments, position products, estimate demand, set prices, gain access to channels, and manage issues of rapid growth. Prerequisite: B A 501, MKGT 501 or equivalent. Offered: jointly with ENTRE 555.

[View course details in MyPlan: MKTG 555](#)

MKTG 556 Advertising and Promotion Management (4)

Management of advertising and promotional activities and their integration with other elements of the marketing mix. Topics include: understanding the communication process, analyzing markets, working with suppliers, establishing objectives, determining budgets, selecting media, measuring and evaluating effectiveness, using publicity and promotions. Legal, social, and economic consequences are considered. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 556](#)

MKTG 560 Research for Marketing Decisions (4)

Methods and applications of marketing research to solve marketing problems. Deals with: problem definition, research design, questionnaire construction, sampling, and data analysis using SPSS. Introduces promising new developments in online research, web surveys, and data analysis. Class research project provides practical application. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 560](#)

MKTG 562 Customer Analytics (4) *O. RUTZ*

Focuses on how to use existing customer data to develop marketing strategies that improve customer response. The featured analytics translate customer data into inferred customer needs that can guide marketing decisions

on pricing, advertising, and product recommendations. Prerequisite: B A 500 or MKTG 501.

[View course details in MyPlan: MKTG 562](#)

MKTG 565 Data Driven Marketing (4)

Provides tools and methods targeting data available to marketers deciding on issues such as pricing, online advertising, or other data-driven marketing strategies. Explores how to leverage data correctly to achieve goals of firms. Focuses on secondary data originating from consumer behavior. Prerequisite: B A 500 or MKTG 501.

[View course details in MyPlan: MKTG 565](#)

MKTG 566 Digital Marketing (4) *S. FASSER, S. SAYEDI ROSH KHAR*

Provides a quantitative analytics of the digital marketing landscape on topics such as online advertising, social media, growth strategies and search engine optimization. Explores data-driven methods to evaluate digital opportunities, marketing strategies, and online business models. Prerequisite: B A 500 or MKTG 501.

[View course details in MyPlan: MKTG 566](#)

MKTG 570 International Marketing (4)

Analysis of the marketing strategies and tactics of multinational corporations. Choice of entry strategies for foreign markets, analyzing international competition at home and abroad, and developing global marketing strategies. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 570](#)

MKTG 575 Marketing High-Technology Products (4)

Management of the marketing requirements of high-technology products. Examines how markets for high-tech products involve shortened product life cycles, demand for continual product updates, perceived risk of adoption by customers, requirements for intensive customer service and relationships, and growing reliance on business partners. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 575](#)

MKTG 579 Special Topics in Marketing (2/4, max. 12)

Marketing topics of current concern to faculty and students. Offered only when allowed by faculty availability and sufficient student interest. Seminar content to be announced in advance of scheduled offerings. Prerequisite: MBA core marketing.

[View course details in MyPlan: MKTG 579](#)

MKTG 581 Doctoral Seminar in Consumer Behavior (4)

Survey of the field of consumer behavior introduces fundamental topics in consumer behavior including cognitive processes, emotion, and consumer satisfaction. Provides exposure to a variety of research methods including experiments, surveys, and phenomenological research.

[View course details in MyPlan: MKTG 581](#)

MKTG 582 Doctoral Seminar in Multivariate Analysis for Marketing Research (4)

Survey of methods useful for empirical evaluation of multivariate marketing phenomena and relationships. Includes an overview of measurement theory and practice; multidimensional scaling; conjoint analysis; cluster, factor, and discriminant analyses; multivariate analysis of variance; structural equation modeling; and other methods commonly encountered in academic marketing research.

[View course details in MyPlan: MKTG 582](#)

MKTG 583 Doctoral Seminar in Marketing Strategy (4)

Study of factors influencing business performance and role of marketing in achieving competitive advantage. Analysis of prevailing, and emerging, theories underlying strategic thinking and competitive process. Examination of empirical research regarding measurement, level, and persistence of business success and implications of findings for theory and strategy development. Prerequisite: BA RM 580.

[View course details in MyPlan: MKTG 583](#)

MKTG 584 Doctoral Seminar in Research Issues in Marketing (2/4, max. 12)

Examination of research problems and issues in marketing. Specific topics vary depending on the interest of faculty and students.

[View course details in MyPlan: MKTG 584](#)

MKTG 591 Doctoral Seminar in Consumer Behavior Research Topics (4)

Investigates research topics of current interest in consumer behavior. Considers the processes used by consumers to acquire and evaluate marketing information including advertising, publicity, word of mouth, packaging, product description, price, and retail outlets, and examines ways the principles in social perception influence consumers' individual responses to marketing-related activities.

[View course details in MyPlan: MKTG 591](#)

MKTG 593 Doctoral Seminar in Marketing Models (4)

Focuses on modeling research efforts in various areas of marketing. Discussion of mathematical and statistical modeling approaches which contribute to scientific development in the marketing area and ways in which modeling is used to characterize and summarize the nature of general marketing situations in complex environments.

[View course details in MyPlan: MKTG 593](#)

MKTG 599 Doctoral Seminar in Marketing (1, max. 12)

Study and research in advanced topics of marketing. The seminar is generally concerned with unpublished areas of research and conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

FOSTER SCHOOL OF BUSINESS

BUSINESS ADMINISTRATION

OPERATIONS MANAGEMENT

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

OPMGT 301 Principles of Operations Management (4)

Examines problems encountered in planning, operating, and controlling production of goods and services. Topics include: waiting-line management, quality assurance, production systems, project management, and inventory management. Computer and quantitative models used in formulating managerial problems. Prerequisite: ACCTG 225; ECON 200; either MATH 112, MATH 124, MATH125, MATH 134, or Q SCI 291; either ECON 311, IND E 315, QMETH 201, Q SCI 381, PSYCH 315, PSYCH 318, STAT 220, STAT 301, STAT 221/SOC 221/CS&SS 221, STAT 311, or STAT 390.

[View course details in MyPlan: OPMGT 301](#)

OPMGT 402 Introduction to Logistics (4)

Logistics studies of the efficient delivery of goods and services. A total-cost approach recognizes this involves not only the obvious vehicle-routing issues but also shipment size and mix, warehouse location, product design, and customer services. Includes study of real companies' logistics problems. Prerequisite: OPMGT 301.

[View course details in MyPlan: OPMGT 402](#)

OPMGT 443 Inventory and Supply Chain Management (4)

Examines modeling and analysis of global supply chains in order to improve service and decrease cost. Covers tools and methods for managing inventory of items with different demand and supply characteristics. Topics include forecasting, Just-in-Time production, deterministic and stochastic inventory models, Materials Requirements Planning; and supplier management. Prerequisite: OPMGT 301.

[View course details in MyPlan: OPMGT 443](#)

OPMGT 450 Introduction to Project Management (4)

Focuses on management principles, methods, and tools to effectively plan and implement complex projects. Includes project selection, preparation, planning, and monitoring. Covers classical techniques and new methodologies; spreadsheet-based tools; and probabilistic project simulation from strategic, tactical, and operational perspectives. Prerequisite: OPMGT 301.

[View course details in MyPlan: OPMGT 450](#)

OPMGT 490 Special Topics in Operations Management (1-6, max. 12)

Operations management topics of current concern to faculty and students. Potential topics: logistics management, project scheduling, manufacturing strategy, site and location analysis, management of service operations. Prerequisite: OPMGT 301.

[View course details in MyPlan: OPMGT 490](#)

OPMGT 495 Operations Management Internship (1-4, max. 8)

Internship with a private firm, nonprofit organization, or government agency, where work experience involves substantial application of analysis techniques and management concepts learned in classroom. Prerequisite: OPMGT 301. Credit/no-credit only.

[View course details in MyPlan: OPMGT 495](#)

OPMGT 499 Undergraduate Research (1-6, max. 9)

[View course details in MyPlan: OPMGT 499](#)

OPMGT 502 Introduction to Operations Management (3)

Managerial decision making in operations problems, including application of quantitative analysis and use of computers. Production of goods or services in any type of organization. Inventory management, scheduling, facility location, management of service systems, and quality assurance. Prerequisite: QMETH 500.

[View course details in MyPlan: OPMGT 502](#)

OPMGT 550 Project Management (4)

Management of complex projects, and tools and techniques (e.g., CPM and PERT) developed to aid the planning, scheduling, and control of projects. Includes work breakdown structures, precedence networks, Gantt charts, resource leveling and allocation, and the use of microcomputer programs. Prerequisite: B A 502 or OPMGT 502 or equivalent.

[View course details in MyPlan: OPMGT 550](#)

OPMGT 560 Supply Chain Management (4)

This course focuses on efficient integration of suppliers, factories, warehouses and stores so that merchandise is produced and distributed in the right quantities, to the right locations and at the right time. The course objectives are to develop modeling skills and provide concepts applicable to the design, planning of supply chains.

Offered: W.

[View course details in MyPlan: OPMGT 560](#)

OPMGT 570 Operations Strategy (4)

Strategic management of operations and manufacturing in domestic and international companies. Developing and implementing a coherent strategy based on continuous improvement of quality, productivity, products, processes, and customer services. Facilities, capacity, process/work-force planning, organization, people, systems integration, coordination between operations, marketing, engineering, and R&D. Prerequisite: B A 502 or OPMGT 502 or equivalent.

[View course details in MyPlan: OPMGT 570](#)

OPMGT 579 Special Topics in Operations Management (2/4, max. 12)

Major topics in operations management and systems analysis. Emphasis on research and, where appropriate, application of quantitative analysis and computers. Topics vary, including workforce planning, project management, research and development management, quality assurance, technology planning and forecasting, systems analysis of complex organizations, and urban systems analysis. Prerequisite: B A 502, OPMGT 502, or equivalent.

[View course details in MyPlan: OPMGT 579](#)

OPMGT 581 Advanced Research Topics in Operations Management I (4)

Overview of research problems and techniques in operations management. Focuses on emerging and ongoing research relating to current issues in the field, including readings and discussions of literature dealing with subjects of special interest to participants. Prerequisite: doctoral student or permission of instructor. Instructors:

Wagner Offered: A.

[View course details in MyPlan: OPMGT 581](#)

OPMGT 582 Advanced Research Topics in Operations Management II (4)

Overview of research problems and techniques in operations management. Focuses on emerging and ongoing research (beyond those discussed in OPMGT 581) relating to current issues in the field, including readings and discussions of literature dealing with subjects of special interest to participants. Prerequisite: doctoral student or permission of instructor. Instructors: Moinszadeh Offered: W.

[View course details in MyPlan: OPMGT 582](#)

OPMGT 583 Advanced Research Topics in Operations Management III (4)

Examine interdisciplinary research in operations and supply chain management. Focuses on one specific application area of interest each quarter including: healthcare, sustainability, marketing, game theory, economics, etc. Prerequisite: doctoral student or permission of instructor. Instructors: Mamani Offered: Sp.

[View course details in MyPlan: OPMGT 583](#)

OPMGT 584 Fundamentals of Operations Management Research (4)

Survey basic areas that form the foundations for much of the research in operations management today. Topics include facility location, scheduling, project management, and supply chain management. Prerequisite: QMETH 580. Instructors: Klastorin Offered: W.

[View course details in MyPlan: OPMGT 584](#)

OPMGT 587 Advanced Topics in Inventory Management (4)

Survey of literature in inventory/production control with emphasis on current research. Topics include single-echelon deterministic and probabilistic models and multi-echelon stochastic models. Prerequisite: QMETH 592 and course in probability theory and in stochastic processes.

[View course details in MyPlan: OPMGT 587](#)

OPMGT 590 Stochastic Models for Research in Business Management (4) F. IRAVANI

Covers the foundation and applications of stochastic models used in business and management research. Prerequisite: doctoral student or permission of instructor. Offered: A.

[View course details in MyPlan: OPMGT 590](#)

OPMGT 599 Doctoral Seminar in Operations Management (1, max. 12)

Study and research in advanced topics of operations management. Concerned with unpublished areas of research and conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status.

[View course details in MyPlan: OPMGT 599](#)

BUSINESS ADMINISTRATION

QUANTITATIVE METHODS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

QMETH 201 Introduction to Statistical Methods (4) NW, QSR

Survey of principles of data analysis and their applications for management problems. Elementary techniques of classification, summarization, and visual display of data. Applications of probability models for inference and decision making are illustrated through examples. Prerequisite: either MATH 112, MATH 124, MATH 125, MATH 134, or MATH 145.

[View course details in MyPlan: QMETH 201](#)

QMETH 450 Spreadsheet Models for Managerial Decision Making (4)

Formulation and solution of business problems using operations research techniques in a spreadsheet environment. Techniques of linear and integer programming, decision analysis, network optimization, queuing, and simulation. Applications from marketing, finance, and operations. Prerequisite: I S 300.

[View course details in MyPlan: QMETH 450](#)

QMETH 490 Special Problems in Quantitative Analysis (1-6, max. 12)

Specialized quantitative techniques useful for solving business problems. Topics from operation research, statistics, computer methods. Emphasis on application. Prerequisite: either ECON 311, QMETH 201, PSYCH 213, PSYCH 218, STAT 220, STAT 301, STAT 311, or STAT 390.

[View course details in MyPlan: QMETH 490](#)

QMETH 499 Undergraduate Research (1-6, max. 9)

Research in selected problems in business statistics, operations research, decision theory, and computer applications.

[View course details in MyPlan: QMETH 499](#)

QMETH 500 Statistical Data Analysis for Management (4)

Statistical models, techniques, and tools for aiding management decisions. Use of spreadsheets in basic business problems. Probability distributions, random sampling and standard errors, hypothesis testing, multiple regression, ANOVA, chi-square tests. Prerequisite: preparation in elementary calculus and successful completion of University-administered proficiency exam.

[View course details in MyPlan: QMETH 500](#)

QMETH 501 Decision Support Models (2)

Introduction to computer-based modeling techniques for management decision making. Linear programming, decision analysis, and simulation. Formulation and interpretation. Prerequisite: QMETH 500, B A 500, or equivalent.

[View course details in MyPlan: QMETH 501](#)

QMETH 503 Practical Methods for Data Analysis (4)

Basic exploratory data analysis with business examples. Data summaries, multivariate data, time series, multiway tables. Techniques include graphical display, transformation, outlier identification, cluster analysis, smoothing, regression, robustness. Departmental credit allowed for only one of 403 and 503. Prerequisite: B A 500 or QMETH 500 or equivalent or permission of instructor. Offered: jointly with STAT 503.

[View course details in MyPlan: QMETH 503](#)

QMETH 520 Managerial Applications of Regression Models (4)

Data exploration and inference using regression models for business forecasting and management. Models include simple, multiple, logistic, and nonlinear regression, use of dummy variables, transformations, variable selection, and diagnostics. Prerequisite: QMETH 500 or B A 500.

[View course details in MyPlan: QMETH 520](#)

QMETH 528 Survey Sampling Applications (4)

Introduction to design and implementation of sample surveys with emphasis on business applications. Simple random, stratified, cluster, multistage sample methods. Probability sampling, optimal allocation of sampling units. Mail, telephone, interview methods. Estimation methods, Questionnaire design. Non-response.

Prerequisite: QMETH 500 or B A 500 or equivalent or permission of instructor.

[View course details in MyPlan: QMETH 528](#)

QMETH 530 Forecasting Models in Business (4)

Introduction to time series analysis and forecasting. Topics include seasonal adjustment, decomposition, exponential smoothing, moving average, and autoregression as well as model identification, estimation, diagnostics, and adaptive forecasting illustrations using real data. Prerequisite: QMETH 500 or B A 500.

[View course details in MyPlan: QMETH 530](#)

QMETH 551 Modeling with Spreadsheets (4)

Advanced formulation and modeling of business problems in a spreadsheet environment. Techniques of linear, integer, and nonlinear programming, multi-objective goal programming, and simulation. Applications from finance, marketing, and operations. Prerequisite: B A 502 or QMETH 501 or equivalent.

[View course details in MyPlan: QMETH 551](#)

QMETH 579 Special Topics in Quantitative Methods (2-4, max. 12)

Presentation of topics of current concern to students and faculty in operations research and applied business statistics. Potential topics include applications and extensions of mathematical programming, stochastic processes, discrete programming, networks models, and the application of statistical techniques.

[View course details in MyPlan: QMETH 579](#)

QMETH 580 Mathematical Programming (4)

Advanced survey of mathematical programming with applications to business problems. Includes linear, integer, stochastic, nonlinear, and dynamic programming and network optimization. Treatment includes formulation, optimality conditions, duality theory, solution algorithms. Applications to production, scheduling, marketing, finance, and equipment replacement. Prerequisite: B A 501 or equivalent and doctoral student or permission of instructor.

[View course details in MyPlan: QMETH 580](#)

QMETH 592 Stochastic Models: Queuing and Simulation (4)

Application of stochastic processes to business problems. Focuses on development and application of queuing theory and discrete event simulation. Prerequisite: stochastic processes, knowledge of high level programming

language, and doctoral student or permission of instructor.

[View course details in MyPlan: QMETH 592](#)

QMETH 599 Doctoral Seminar in Operations Research (1, max. 12)

Study and research in advanced topics of operations research. Concerned with unpublished areas of research and conducted by visiting professors and departmental faculty. Prerequisite: doctoral student status. Credit/no-credit only.

[View course details in MyPlan: QMETH 599](#)

School of Dentistry

[Display as tabs](#)

School Overview

Dean

Joel Berg
D322 Health Sciences

Established in 1945, the University of Washington School of Dentistry offers courses leading to a Doctor of Dental Surgery (DDS) degree, and advanced education leading to a Master of Science in Dentistry degree and/or a certificate of proficiency in endodontics, oral medicine, orthodontics, pediatric dentistry, periodontics, and prosthodontics. Residency training is available in oral and maxillofacial surgery and general practice. The Department of Oral Biology offers a Master of Science (MS), an MS non-thesis degree for dental hygiene educators, and a doctoral degree (PhD). Postdoctoral study is available in various disciplines.

Opportunities to earn other degrees concurrently (MS or PhD in the School of Dentistry's Department of Oral Biology and other schools) may be arranged on an individual basis.

These educational programs are enriched by the School's strong commitment to Research and the presence of a Regional Clinical Dental Research Center, the Northwest Center to Reduce Oral Health Disparities, Northwest PRECEDENT, an affiliation with the Institute of Translational Health Sciences (ITHS,) and a fellowship Research training program for predoctoral and postdoctoral students. The mission of the Regional Clinical Dental Research Center is to foster clinically relevant Research that advances dentistry's knowledge base, improves patient care, and promotes oral health. The Disparities Center performs Research aimed at reducing oral health disparities in the Pacific Northwest. Northwest PRECEDENT is the Practice-based Research Collaborative in Evidence-based DENTistry. Founded in 2005, this network of dental practices has established the infrastructure to perform a wide variety of oral health Research studies across a five-state region covering Idaho, Montana, Oregon, Utah, and Washington. The mission of the ITHS is to create, enable, and sustain innovative translational Research and Research collaborations across disciplines and professions which accelerates the development of concepts and tangible products that improve human health. State-of-the-art clinical Research facilities are available for faculty and student use.

School of Dentistry Mission Statement: "The School of Dentistry shares the University's overall mission to generate, disseminate, and preserve knowledge and serve the community. The School is an integral part of the Warren G. Magnuson Health Sciences Center and is an oral health-care center of excellence serving the people of the state of Washington and the Pacific Northwest. The primary mission, through educational, Research, and service programs, is to prepare students to be competent oral health-care professionals. The School's Research programs contribute to the fundamental

understanding of biologic processes and to the behavioral, biomedical, and clinical aspects of oral health. The service mission is to improve the health and well-being of the people of the community and the region through outreach programs that are especially attentive to minority and underserved populations. The School values diversity in its students, staff, faculty, and patient populations. It seeks to foster an environment of mutual respect where objectivity, imaginative inquiry, and the free exchange of ideas can flourish to facilitate personal development, professionalism, and a strong sense of self-worth." (August 2002)

The following departments participate in the curriculum for the School's programs:

- Dental Public Health Sciences is concerned with the social, legal, political, economic, and psychological aspects of dental healthcare delivery as well as the epidemiology of oral diseases and the application of biostatistical methods in studying them.
- Endodontics offers training in the diagnosis and treatment of diseases and injuries of the tooth pulp and periradicular tissues.
- Oral and Maxillofacial Surgery trains students in the procedures used for all types of operations in the oral cavity and all phases of dental pain control.
- Oral Biology encompasses the study of basic biological mechanisms in normal and diseased oral tissues and structures.
- Oral Medicine provides training in diagnostic techniques and nonsurgical treatments of oral disease.
- Orthodontics provides training in the prevention and correction of malocclusion of the teeth.
- Pediatric Dentistry provides students with a broad understanding of prevention, diagnosis, and treatment of most dental needs from infancy through adolescence with emphasis on the psychological and educational requirements of the patient and parent.
- Periodontics offers training relative to the periodontium and dental implants, with emphasis placed on diagnosis, prevention, treatment, and maintenance.
- Restorative Dentistry offers training in the restoration or replacement of tooth structure and study of the form and function of the masticatory structures, and fabrication and maintenance of removable, complete, immediate, and partial dentures and dental implants.

Undergraduate Program

Dental hygiene seeks to understand why some people get preventable oral diseases and why others do not. Risk factors, such as poverty, ethnicity, and education, as well as environment, contribute to perpetuation of these diseases. The dental hygienist observes and defines dental diseases, assesses potential outcomes of interventions, and manages conditions that compromise oral health. As an applied discipline, dental hygiene links its theoretical foundation to behavioral and natural sciences. Using evidence-based science, the discipline seeks to facilitate holistic assessments of individuals and communities and to find solutions to oral health problems. Students in the discipline learn to transfer learning from clinical to community contexts as a means of improving the oral health status among people.

Adviser
D583 Health Sciences, Box 357475
(206) 543-5820
dhyg@uw.edu

The Dental hygiene degree completion program offers the following program of study:

- Bachelor of Science degree with a major in dental hygiene.

The UW has no pre-licensure program in dental hygiene.

Bachelor of Science

Suggested First- and Second-Year Courses: Students desiring entry into the dental hygiene profession may take their first-year general education courses in chemistry, psychology, sociology, public speaking, English composition, mathematics, nutrition, microbiology, and liberal studies at the UW, or another community, technical, or four-year institution. Having successfully completed a pre-licensure dental hygiene program and obtained a license to practice dental hygiene, students are eligible to return to the UW to complete the Bachelor of Science degree with a major in dental hygiene.

Department Admission Requirements

The dental hygiene program is not accepting new applicants. Please contact the program for further information.

Major Requirements

Following completion of a pre-licensure dental hygiene program and being licensed to practice dental hygiene, students must complete UW general education requirements as well as dental hygiene major requirements to obtain the BS degree. UW requirements include a 45-credit senior residency; English, writing, and quantitative reasoning proficiencies; and Areas of Knowledge courses. The dental hygiene major requirements include a sequence of three dental-hygiene core courses and a minimum of one path.

Completion of the required major and UW requirements takes one to two years. Students planning to graduate in one year must have a faculty-approved plan of study within the first quarter of enrollment. Students planning a two-year program must have a faculty-approved plan of study within the first two quarters of enrollment. All students must meet with a program adviser yearly and are encouraged to meet with one quarterly.

Core Requirement

Students complete a year-long core requirement founded on significant oral health problems and probable solutions within the context of specific communities. Behavioral change, community development, health education models, and scientific literature provide a theoretical foundation for study in the core courses. The core curriculum focuses on real problems in real places. Using a people-places-problems approach, students use Internet and library resources to Research, analyze, discuss, and make evidence-based decisions relevant to oral health promotion and dental disease prevention. Further, they explore core values, ethics, laws, and issues related to care access, health promotion/disease prevention approaches, and healthcare delivery models. Included are field activities linked to education, government, business, and health resources. Additionally, dental hygiene majors complete requirements in at least one path and may take electives of their choice to

complete the senior residency requirement. All students must complete the three core courses, D HYG 465, D HYG 492, and D HYG 493 (3 credits each, total 9) in the prescribed order.

Path Requirement

Students must select at least one of two pathways to fulfill the path requirement. The options are as follows:

Dental Hygiene Care. This path is for dental hygienists who desire to work as clinicians in hospitals, clinics, long-term care facilities, or other healthcare services that require advanced clinical and management skills. Students take courses in interdisciplinary health sciences, along with courses that focus on dental hygiene care and management of persons with physical, mental, developmental, and complex medical disabilities. Required courses in oral medicine augment this path. Major requirements include a minimum of 11 or 12 credits beyond the core: 10 credits in ORALM 460, or approved alternatives that focus on care of special clients; 3 credits of approved interdisciplinary health science courses; and 2 credits of approved Research.

Oral Health Promotion. This path is for dental hygienists who desire to work in multicultural and multidisciplinary settings at the local, state, national, or international levels and who require skills beyond clinical expertise. Students learn about the framework within which societies organize and manage their healthcare services and learn to link health with the environment, people's beliefs, ways of life, and kinship. They learn about differences between Western, Eastern and Shamanistic philosophies of health as prerequisites to developing educational strategies for oral health promotion and dental disease prevention. As students build skills essential for working with health agencies, they participate in community health projects as educators, advocates, or Researchers. Activities focus on the health of children and families in rural and remote areas of Washington state. Major requirements for this path include a minimum of 15 credits beyond the core, to include 3 credits in approved interdisciplinary health sciences courses, 3 credits in healthcare delivery systems, D HYG 402 or substitute; 3 credits in health promotion strategies (D HYG 403) or approved substitute; and a minimum of 4 credits in at least two sections of D HYG 404 or approved substitutes.

Academic Standards

Minimum 2.5 grade in each dental hygiene course counted toward satisfaction of graduation requirements. Minimum 2.00 cumulative GPA for all work done in residence at the University. A student whose cumulative GPA falls below 2.00 in any quarter is placed on academic probation.

Student Outcomes and Opportunities

- *Learning Objectives and Expected Outcomes:* The UW dental hygiene completion program emphasizes the health of populations rather than of individuals. Dental hygienists conduct community assessments; develop networks that engage community partners; set priorities; obtain baseline measures; set targets; and measure progress toward solutions to community oral health problems. Dental hygiene core skills include the ability to search and retrieve information from the Internet; use census, geographic, and demographic data; critically assess scientific literature; analyze and interpret data; and apply new scientific knowledge to solutions of health problems. In addition to the core knowledge set, dental hygienists select from two paths of study: care of special populations and oral health

promotion. Depending upon area of interest, graduates pursue careers as business managers, marketing specialists, clinic administrators, hospital and nursing home dental hygienists, public health planners, program managers, Research assistants, and teachers of dental hygiene.

- *Honors Options Available:* For Interdisciplinary Honors, see University Honors Program.
- *Research, Internships, and Service Learning:*

Students in the undergraduate program take off-campus service-learning courses related to their path of study. Generally, sites are located in rural and underserved health provider shortage areas of Washington state, but may include regional, national, or international locations.

Students are eligible for international programs and exchanges following completion of their core course requirements. An applicant who is a dental hygienist from an affiliated international institution may be eligible for a tuition waiver during one or more quarters of the regular academic year (autumn, winter, spring). Students interested in these opportunities must contact the program's academic adviser at least six months in advance.

Majors may be eligible, following the completion of prerequisite courses, to participate in study-abroad programs that focus on health care delivery, oral health promotion, or dental disease prevention. The University and its affiliated sites provide the settings for fieldwork, service, and Research activities, and interdisciplinary learning experiences.

- *Department Scholarships:* Students may apply for scholarships offered by the Dental Hygiene Education fund.
- *Student Organizations/Associations:* The Washington Rural Health Organization, Washington State Public Health Association, Washington State Dental Hygienists' Association, American Dental Education Association, and International Association of Dental Research are among many from which to select.

Of Special Note: The 90-credit community college transfer limit does not apply to students admitted to this program. The last 45 credits for the degree, however, must be earned in residence through the UW.

Graduate Programs

Through their respective departments, the graduate faculty members of the School offer programs leading to the degrees of Master of Science in Dentistry, Master of Science, and Doctor of Philosophy, as well as postgraduate certificate programs.

Master of Science in Dentistry/Postgraduate Certificates

Fields of study for the MSD programs include endodontics, oral pathology, oral medicine and orofacial pain, orthodontics, pediatric dentistry, periodontics, and prosthodontics. Although students may enroll in a graduate certificate program only, they may elect to pursue an MSD. Programs are planned to prepare students to think independently, to evaluate their own services and the literature of the programs, and to develop clinical skills

to a level to permit successful clinical practice, teaching, or Research in their chosen specialty. Emphasis is placed on the basic principles of diagnosis and treatment. The purpose of the programs is not only to train students in their respective specialties but also to encourage preparation for academic careers or for Research. Research may be undertaken in basic or applied science. Opportunities for collaborative Research are available with the cooperation of other colleges, schools, or departments of the University.

Postgraduate certificate programs are not administered by the Graduate School, and no thesis is required. The course content may vary somewhat from the MSD program, although the same academic standards are applied in both programs. Tuition and fees are assessed at the graduate level for both programs.

Master of Science in Dentistry

Admission Requirements

1. Either a baccalaureate or a professional degree from a dental or medical school.
2. Completed application and application fee of \$65
3. Three letters of recommendation
4. 200-300 word statement of educational and professional objectives which includes a general area of Research interest and academic goals. Optional: a personal statement that addresses the relationship between personal background and aspirations
5. A brief biographical sketch in a resume/CV format
6. Official transcripts, sent directly to the department
7. GRE General Test scores
8. TOEFL -- required for international students. The minimum TOEFL score required is 237 computer, 580 paper, iBT 70 (based only on listening, reading, and writing sections).

Degree Requirements

50 credits, to include:

1. *Required courses (Approximately 35 credits from this list):* ORALB 564, ORALB 565, ORALB 566, ORALB 569, PERIO 575, ORALB 570, ORALB 575, ORALB 579; either ORALB 591, ORALB 592, or DPHS 568; for foreign-trained dentists and non-dentists: ORALB 572, PATH 544
2. *Recommended electives (Approximately 15 credits from this list):* DPHS 569, MEBI 520, ORALB 562, ORALB 574, PATH 501, PATH 552
3. *Research:* Fulfilled by either a report on experimentation carried out by the student in one of the laboratories, or a case report with review of the literature. Students interested in a more Research-intensive experience should consider enrolling in the MS in Oral Biology (thesis) program.
4. *Teaching:* Students are encouraged to take elective courses offered through the Department of Medical Education and Graduate School.
5. *Note:* At present, this program is not certified by the American Board of Oral Pathology.

Master of Science in Dentistry, Endodontics

Admission Requirements

1. Professional degree from a dental school
2. Completed application and application fee of \$65
3. Three letters of recommendation
4. A personal statement that addresses the relationship between the student's personal background and aspirations
5. Brief biographical sketch in a resume/CV format
6. Official transcripts, sent directly to the Department of Endodontics (international applicants must also send official transcripts to the Graduate School)
7. GRE General Test - required only from applicants who graduated from a non-ADA-accredited dental school
8. TOEFL - required for international students. The minimum TOEFL score required is 237 computer, 580 paper, iBT 70 (based only on listening, reading, and writing sections).

Degree Requirements

Minimum 148 credits, to include:

1. Students who have adequate backgrounds in required courses may, on presentation of appropriate documentation, be excused from required courses at the discretion of the program director.
2. *Required core courses:* ENDO 561, ENDO 580 through ENDO 587, ENDO 590, ENDO 593, ENDO 594, ENDO 600, ENDO 658, ENDO 660, DENT 565, DENT 568, DPHS 568, DPHS 569, ORALB 569, ORALB 574, ORALB 579, ORALB 591, ORALB 592, ORALM 580, ORTHO 580, PERIO 567, PERIO 582, PERIO 585, PERIO 586
3. *Non-thesis Research:* A non-thesis Research study is required. During the first year, each student is encouraged to gain familiarity with Research in progress and to help identify an area of special interest. Then, a preceptor and Research advisory committee is appointed and the student begins Research work. The master's defense is concerned with the Research subject matter and is conducted as an open seminar followed by examination by the advisory committee.
4. *Teaching:* Students audit predoctoral lecture courses in endodontics, assist with teaching in the predoctoral endodontics laboratory course, and supervise predoctoral dental students working in the endodontic clinic.

Master of Science, Oral Biology

Admission Requirements

1. Either a baccalaureate or a professional degree from a dental or medical school
2. Completed application and application fee of \$65
3. Three letters of recommendation
4. 200-300 word statement of educational and professional objectives which includes a general area of Research interest and academic goals. Optional: a personal statement that addresses the relationship between the student's personal background and aspirations

5. Brief biographical sketch in a resume/CV format
6. Official transcripts, sent directly to the Department of Oral Biology
7. GRE General Test
8. TOEFL - required for international students. The minimum TOEFL score required is 237 computer, 580 paper, iBT 70 (based only on listening, reading, and writing sections)

Degree Requirements

Minimum 70 credits, to include:

1. Minimum 70 credit hours (including at least nine credits of thesis), of which at least 7 credits must be from science courses outside the Department of Oral Biology. Students who have adequate backgrounds in required courses may, on presentation of appropriate documentation, be excused from required courses; up to six hours of transfer credit may be granted at the discretion of the Graduate School.
2. *Required core courses:* ORALB 569, ORALB 575, ORALB 578, ORALB 579, ORALB 581, ORALB 591, ORALB 592, ORALB 600, ORALB 700, DPHS 568
3. *Electives:* 7 credits from science courses outside oral biology
4. *Recommended:* One class on educational methods
5. *Thesis Research:* A Research thesis is required. During the first year, each student is encouraged to spend time in several laboratories to gain familiarity with Research in progress and to help identify an area of special interest. Then, a preceptor and thesis advisory committee is appointed and the student begins thesis work. The final examination is concerned with the subject matter of the thesis and is conducted as an open seminar followed by examination by the advisory committee.
6. *Teaching:* Students are encouraged to take elective courses offered through the Department of Medical Education and Graduate School.

Master of Science in Dentistry, Prosthodontics

Admission Requirements

1. Professional degree from a dental school
2. Complete electronic application to the Graduate School, including \$65 application fee
3. Complete the Questionnaire to Applicants for Postdoctoral Training (available for download at the School's website, www.dental.washington.edu)
4. Class Standing form (available for download at the School's website, www.dental.washington.edu)
5. Waiver form
6. Three letters of recommendation or Evaluation of Applicant forms (available for download at the School's Website, www.dental.washington.edu)
7. A personal statement explaining why the student wishes to pursue an education in prosthodontics
8. A CV or Resume

9. Official transcripts, sent directly to the Department of Prosthodontics (all applicants must also send official transcripts to the Graduate School)
10. GRE General Test (required only for applicants who graduated from a non-ADA-accredited dental school outside the US or Canada)
11. TOEFL required for international students; the minimum TOEFL score required is 237 computer, 580 paper, iBT 70, (based only on listening, reading, and writing sections).

Degree Requirements

Minimum 108 credits, to include:

1. *Required Core Courses:* PROS 560, PROS 562, PROS 563, PROS 564, PROS 572, PROS 660 (minimum 16), PROS 665, RES D 570, RES D 580, RES D 585, RES D 588, RES D 589, RES D 590, RES D 600 (minimum 14), RES D 660 (minimum 24), DENT 565, DPHS 568, DPHS 569, ORALM 570, ORALM 580, ORALB 574, ORTHO 580, ORTHO 582, PERIO 561, PERIO 580, PERIO 582, PERIO 585, PERIO 586
2. *Non-thesis Research:* A non-thesis Research study is required for the MSD. During the first year, each student is encouraged to gain familiarity with Research in progress and to help identify an area of special interest. After the student identifies an area of interest, a Research committee is established. The master's defense is concerned with the Research subject matter and is conducted as an open seminar followed by examination by the committee.
3. *Teaching:* Second- and third-year students supervise predoctoral dental students working in the prosthodontics and restorative clinics.

Master of Science, Dental Hygiene

Admission Requirements

1. Either a baccalaureate or a professional degree from a dental or medical school
2. Completed application and application fee of \$65
3. Three letters of recommendation
4. 200-300 word statement of educational and professional objectives which includes a general area of Research interest and academic goals. Optional - a personal statement that addresses the relationship between the student's personal background and aspirations
5. Brief biographical sketch in a resume/CV format
6. Official transcripts, sent directly to the Department of Oral Biology
7. GRE General Test
8. TOEFL - required for international students. The minimum TOEFL score required is 237 computer, 580 paper, iBT 70 (based only on listening, reading, and writing sections).

Degree Requirements

70 credits, to include:

1. *Coursework*: 48 credits, as follows: CONJ 401, CONJ 402, CONJ 403, PATH 544, PERIO 575, ORALB 520, ORALB 561, ORALB 572, ORALB 575; at least one of the following: PERIO 517, DPHS 568, DPHS 569, or O S 532; at least two of the following: MEBI 520, MEBI 521, GRDSCH 630, ORALB 562, D HYG 595.
2. *Electives*: 22 credits of electives. Recommended electives: ORALB 569, ORALB 574, ORALB 578, ORALB 579, ORALB 600, DENT 534, DPHS 550, DPHS 569, ORTHO 580, O S 520, PHCOL 434, PHCOL 435, ORALM 520
3. Clinical opportunities may be available in the DECOD (Dental Education in Care of Persons with Disabilities) and the Dental Fears Clinics.

Doctor of Philosophy

Admission Requirements

1. Either a baccalaureate or a professional degree from a dental or medical school
2. Completed application and application fee of \$65
3. Three letters of recommendation
4. 200-300 word statement of educational and professional objectives which includes a general area of research interest and academic goals. Optional: a personal statement that addresses the relationship between the student's personal background and aspirations
5. Brief biographical sketch in a resume/CV format
6. Official transcripts, sent directly to the Department of Oral Biology
7. GRE General Test
8. TOEFL - required for international students. The minimum TOEFL score required is 237 computer, 580 paper, iBT 70 (based only on listening, reading, and writing sections).

Degree Requirements

Minimum 90 credits, to include:

Through coursework, students are expected to gain proficiency in one or more basic biologic sciences and to master modern biological approaches in addition to gaining expertise in the subject area of oral and craniofacial sciences. At least 15 credit hours must come from science courses in departments other than oral biology. These include courses offered through the School of Medicine and courses selected to match the basic science interests of the student. Cross-disciplinary training in bioengineering is also available. All graduate students attend and participate in departmental seminars (ORALB 575).

1. *Required core courses*: ORALB 569, ORALB 575, ORALB 578, ORALB 579, ORALB 581, ORALB 591, ORALB 592, ORALB 600, ORALB 800, DPHS 568
2. At least 6 credits from the following School of Medicine courses: CONJ 524 through CONJ 558 and PABIO 537
3. Strongly recommended: at least one class on educational methods

Residency Training

Residency training programs are available in oral and maxillofacial surgery and the general practice of dentistry. Both programs provide for rotation through several of the University-

affiliated hospitals. Each is a fully accredited program that grants a certificate upon successful completion of the training. Stipends are provided.

The oral and maxillofacial surgery program is four years in duration and provides broad exposure to all aspects of the practice of oral and maxillofacial surgery. Application, selection, and administration of this training program is provided through the Department of Oral and Maxillofacial Surgery. Applicants to the program must be graduates of an accredited U.S. or Canadian Dental School, demonstrate proficiency in the English language, submit National Dental Board Examination scores for Part 1, and register and participate in the Postdoctoral Dental Matching Program. Further information can be obtained by contacting the Residency Program Coordinator, Department of Oral and Maxillofacial Surgery, Box 357134, University of Washington, Seattle, WA 98195-7134, (206) 543-7722.

The General Practice Residency (GPR) is a one-year training program with a second optional year that emphasizes the general dentist's role in a hospital setting and the management of medically, physically, and mentally compromised patients. It also provides multiple resources for enhancement of dental clinical skills in the dental setting, applying management techniques through minimal, moderate sedation and general anesthesia in the operating room. Applicants to the program must be graduates of an ADA-accredited dental school, submit National Dental Board Examination scores for Part 1, and register and participate in the Postdoctoral Application Support Service (PASS) and Postdoctoral Dental Matching Program (MATCH). Further information can be obtained by visiting the website at dental.washington.edu/departments/gpr/general-practice-residency.html.

Postdoctoral Fellowships

Postdoctoral training fellowships are available in behavioral or public-health Research in dentistry in addition to those in oral biology. Programs vary in duration and many accommodate degree-seeking or Research fellows pursuing an academic career. NIH-sponsored partial tuition and a stipend for up to three years are provided for U.S. citizens, noncitizen nationals, and those foreign nationals with permanent-residency status in the United States. Members of ethnic minorities and women are especially invited to apply. Application, selection, and administration of the program are provided through the Departments of Dental Public Health Sciences and Oral Biology.

Graduate Training in Dental Public Health

Opportunities exist for pursuing graduate degrees in public health which emphasize applications to Research in dentistry. Master of Public Health (MPH) programs in the Departments of Epidemiology and Health Services of the School of Public Health can be pursued in conjunction with postdoctoral training in the School of Dentistry's Department of Dental Public Health Sciences. Didactic coursework is taken in the School of Public Health and Community Medicine, augmented with independent study and thesis Research on selected topics in the School of Dentistry. Similar opportunities exist for pursuing the PhD in epidemiology or biostatistics with an emphasis on Research in dentistry. Further information may be obtained from the Office of Academic Affairs, Box 357480, School of Dentistry, University of Washington, Seattle, WA 98195-7480, (206) 221-6887.

The Office of Continuing Dental Education, School of Dentistry, offers programs and courses throughout the year to provide dentists, auxiliary personnel, and others involved in healthcare with current scientific knowledge and methodology of patient treatment. Utilizing local, national, and international experts, these programs provide a broad spectrum of information relevant to the needs of dental-health professionals. The

instructional program consists of lectures, clinical courses, study clubs, extended clinical training, correspondence, and participation courses, some of which are offered in the simulated-patient laboratory. Various programs are presented throughout the year in the Pacific Northwest, Alaska, and Hawaii.

A list of courses offered may be obtained from the Office of Continuing Dental Education, Box 357137, University of Washington, School of Dentistry, Seattle, WA 98195-7137, (206) 543-5444, dental.washington.edu/cde/current-course-listings.html.

Professional Program

Doctor of Dental Surgery

The Doctor of Dental Surgery (DDS) curriculum provides students opportunities to learn the fundamental principles significant to the entire body of oral health. Students (approximately 63 per class) learn the basic health sciences, attain proficiency in clinical skills, develop an understanding of professional and ethical principles, and develop reasoning and critical decision-making skills that enable implementation of the dental knowledge base. The first year is divided among lecture, laboratory, and preclinical activities in basic sciences, dental anatomy, occlusion, and dental materials. There are also early clinical experiences in preventive dentistry and periodontics. In the second year, students develop additional preclinical skills, learn how basic science principles are applied to the clinical setting, and begin clinical patient treatment. In the third and fourth years, students primarily concentrate on providing clinical treatment and attend lectures that refine diagnostic and technical skills. Additionally, students are required to participate in elective clinical and didactic courses. Students choose elective courses offered by all departments, including opportunities in independent study, Research, seminars on various topics, and specialty clinical topics.

The DDS curriculum extends for 42 months or 14 quarters, including two summer quarters. Twelve of the academic year quarters are ten weeks of instruction and one week of examination, while the two required summer quarters following years two and three are each nine weeks long. If needed, students may be allowed additional time to complete required coursework beyond 42 months.

Admission

Requirements include all undergraduate courses listed below; Dental Admission Test; personal interview. The Admissions Committee encourages diversity in majors. Courses in the social sciences and the humanities are included in the committee evaluation. Dental experience, community service, and non-cognitive factors are given consideration as part of the whole file review.

The School of Dentistry is a state-supported institution and participates in the student exchange program provided by the Western Interstate Commission for Higher Education (WICHE) which supports students from western states without dental schools. Although all applications are carefully reviewed, preference in admission is given to residents of Washington and WICHE states, followed by residents of other states.

Required courses: general chemistry - two quarters or one semester; organic chemistry - two quarters or one semester; general biochemistry - two quarters or one semester; general

physics - three quarters or two semesters; general biology or zoology - three quarters or two semesters; general microbiology - two quarters or one semester. Recommended: medical microbiology.

Transfer Applicants: The school rarely, and only under exceptional circumstances, admits transfer students from other dental schools.

Foreign Applicants: The school does not provide a special program for foreign-trained dentists.

Health Sciences Minority Student Programs: To increase diversity of students, the school participates in the Health Sciences Minority Student Program. In addition to advising and career counseling, this office works with Health Sciences schools to provide student development and support programs, networking opportunities, and summer Research programs. The HSMSP office activities include participation on several health sciences and campus-wide committees for purposes of collaborating and exchanging strategies on effective methods for recruiting and retaining a diverse student body, as well as promoting and celebrating diversity.

Regional Initiatives in Dental Education (RIDE) is a strategic expansion of the University of Washington School of Dentistry in conjunction with Eastern Washington University, designed to help meet the oral health needs of rural and underserved communities in the Northwest. RIDE creates regional training sites in areas lacking dental schools by partnering with regional universities, dentists and dental associations, community health centers, and others. Student admission to the RIDE program in Spokane is limited to residents of Washington State.

The School belongs to the American Association of Dental Schools Application Service (AADSAS). November 1 of the year prior to matriculation is the AADSAS priority filing deadline. Only applications received in the AADSAS Washington, D.C. office by the priority filing date are forwarded to the UW for consideration by the Admissions Committee. There are no exceptions. AADSAS applications are available online at www.adea.org. The UW Dental School's DAT deadline is October 31 of the year prior to matriculation. Information regarding the Dental Admission Test may be found at www.ada.org.

For information on admission to the UW School of Dentistry, contact the Office of Student Life and Admissions, School of Dentistry, University of Washington, Box 356365, Seattle, WA 98195-6365, (206) 543-5840, askuwsod@uw.edu, or www.dental.washington.edu (click on the "prospective student" link). University of Washington undergraduates may contact the Predental Advising Office, University of Washington, 141 Mary Gates Hall, Box 353760, Seattle, WA 98195-3760.

Once the AADSAS application has been received, a preliminary screening determines if an applicant meets the Admissions Committee's criteria to receive a supplemental application and request for the following materials:

1. A supplementary application which includes a short personal statement
2. A non-refundable application fee of \$35
3. Three letters of recommendation are required: one from a science instructor who can evaluate the applicant's academic and intellectual qualifications, a second from a dentist who is familiar with the applicant's knowledge of and motivation toward the dental profession, and a character reference from someone who can indicate the applicant's contribution to the community, etc.

4. If a predental committee exists on the applicant's campus, a combined recommendation from that committee may be used to replace all three recommendations. The School of Dentistry accepts letters of recommendation processed by AADSAS, or directly from recommenders.
5. Dental Admission Test scores. **Test must be taken by October 31 of the year prior to entry.**
6. Transcripts from all higher education institutions attended
7. A list of current and future courses
8. Acknowledgment of having read, understood, and being able to meet, with or without reasonable accommodation, the Essential Requirements of Dental Education at the University of Washington School of Dentistry (to be sent with the supplemental application form)
9. Conviction/criminal history information. Washington state law requires that all faculty, students, and staff disclose background information concerning crimes and offenses against vulnerable populations. A complete copy of the law is available from the School's Office of Student Life and Admissions and is forwarded upon request. Applications are not considered until completed disclosure forms have been returned to student admissions.

The application is considered complete once all materials noted above (1-9) are returned. Upon receipt of the completed application, invitations for an interview are sent to applicants based on an additional screening of the whole file. The interview is an opportunity for an open, friendly discussion of the applicant's interests, background, and reasons for selecting dentistry as a profession. During the interview day, applicants have numerous opportunities to learn about UW programs, faculty, and student life. In addition to the interview, the School provides the applicant with financial aid and cost information. During the lunch hour, applicants meet with enrolled students and tour the School. Applicants also meet with the deans to learn about programs, Research, and cultural opportunities.

The admissions committee, composed of faculty and community dentists, determines admission status after considering the following:

1. *Grades.* Overall GPA and GPA in required predental science courses. Committee members look for a strong, consistent GPA without withdrawals, incompletes, repeated courses, or non-graded options. Grade trends are reviewed.
2. *DAT (Dental Admission Test).* The test, sponsored by the American Dental Association, covers several areas: reading comprehension, quantitative reasoning, survey of natural sciences (including biology, general, and organic chemistry), and perceptual ability (including form development, apertures, angles, cubes, and orthographic projections). At the UW, scores are reviewed to identify an applicant's areas of strength. The test must be taken no later than October 31, one year prior to admission.
3. *Level of Pre-professional Education.* The majority of applicants have completed a baccalaureate degree by the time of entry. Consideration is given to applicants who have not or do not expect to complete a baccalaureate degree, but who have completed all predental requirements, have a highly competitive academic record, and a minimum of three years' full-time coursework.
4. *Dental Knowledge.* Includes knowledge of the field of dentistry through volunteer experience in a dental setting (dentist's office, clinic, etc.), introductory dental coursework, and exploration of the dental literature. A qualified applicant has a clear

understanding of the profession, a demonstrated interest in the field, and a minimum of 100 volunteer hours in a dental setting.

5. *Contribution to Diversity.*

6. *Unique Life Experiences.* Among other things, Research and teaching efforts, travel, and work experience are some of the life experiences considered.

7. *Personal Attributes.* In addition to motivation, the applicant's poise and communication skills are examined. Personal attributes such as integrity, responsibility, leadership, initiative, community service, perseverance, and diversity of interests are important.

8. *Demonstrated Community Service.*

Interviews begin in October and typically end in February. The American Dental Association Traffic Rules allow dental schools to begin making offers of acceptance on December 1. The School uses a "rolling admission" format, so interviews and committee decisions continue to be made between December and March.

The Admissions Committee makes one of three decisions:

1. *Offer of Acceptance.* Admission application has been accepted. The applicant has a specified time to reply to reserve enrollment in the entering first-year class. In addition, enrollment is contingent on timely submission of the following: registration deposit, transcripts showing completion of all required predental courses, registration for autumn quarter of the upcoming academic year, and completion of required immunizations.
2. *Alternate Status.* Applicant is offered a position on the alternate list. The applicant has a specified time to reserve a position on this list, maintained until the beginning of the school year.
3. *Denial of Admission.* The Committee has considered the application but cannot offer a position or alternate status.

Accepted applicants receive follow-up information about registration procedures, financial aid, and the orientation program throughout the spring and summer. Attendance at orientation is mandatory and provides an opportunity for newly enrolled students to learn about the upcoming curriculum, student rights and responsibilities, financial aid information, student organizations, challenge examinations, and the start of academic coursework. Orientation begins in late August. New students attend an off-campus student retreat to interact with peer advisers and meet classmates in an informal setting.

Western Interstate Commission for Higher Education (WICHE): The school participates in a program administered by WICHE for students who reside in western states not served by a dental school (Alaska, Arizona, Hawaii, Montana, New Mexico, North Dakota, and Wyoming). Such students should seek requests for certification and information about benefits of the program from the WICHE commission office in their state of residence.

Projected costs can be found at dental.washington.edu/prospective-students/projected-costs.html.

Information on loans and scholarships may be obtained from the Director of Financial Aid, D323 Health Sciences, Box 356365. Information relating to student life, including the Academic Regulations Manual and Professional Ethics Code may be obtained from the Associate Dean for Student Life and Admissions, D323 Health Sciences, Box 356365.

Degree Requirements

285-333 credits minimum, as follows:

1. *Year 1 (71 credits, plus electives)*: B STR 431, B STR 530, B STR 541; DENT 610; DPHS 510; ORALB 510 (3, 3), ORALB 520; ORALB 521; ORALM 513, ORALM 514, ORALM 515; ORALM 516, ORALM 517; P BIO 505; P BIO 506 (4, 4); PATH 544 (3, 2); PERIO 517; RES D 510 (1, 2), RES D 511, RES D 515, RES D 516, RES D 517, RES D 519
2. *Year 2 (86 credits, plus electives)*: DENT 520; DENT 521, DENT 522; DENT 523; ENDO 521; O S 520; ORALM 520 (2, 2, 2), ORALM 525, ORALM 526, ORALM 527, ORALM 528, ORALM 529; ORTHO 520, ORTHO 521, ORTHO 522; PEDO 520, PEDO 525; PERIO 525, PERIO 526 (2, 2); PERIO 620; PHCOL 434, PHCOL 435; PROS 520, PROS 523, PROS 525; RES D 520, RES D 521, RES D 522 (3, 3, 3); RES D 525, RES D 526, RES D 527 (3, 3, 3); RES D 620
3. *Year 3 (74 credits, plus electives)*: DENT 533, DENT 534 (1, 1), DENT 537, DENT 543; DENT 551, DENT 552, DENT 553, DENT 554; DPHS 535, ENDO 534, ENDO 535, ENDO 630 (1, 1, 1, 1); O S 530 (1, 1, 1), O S 532, O S 630 (2, 2); ORALM 531, ORALM 532, ORALM 533; ORALM 630 (1, 1, 1, 2); ORTHO 630; ORTHO 631; PEDO 630 (1, 1, 1, 1); PERIO 530, PERIO 531; PERIO 630, PERIO 631, PERIO 632; PERIO 639; PROS 630 (1, 1, 1, 2); RES D 530, RES D 531, RES D 532; RES D 535, RES D 630 (2, 3, 3), RES D 635
4. *Year 4 (55 credits, plus electives)*: DENT 547, DENT 548, DENT 549 (2, 2, 2); DENT 555, DENT 556, DENT 557 (1, 1, 1); DENT 640, DENT 645; DPHS 541, DPHS 640; ENDO 630 (1, 1, 1); O S 630; ORALB 540; ORALM 540 (2, 2), ORALM 545 (1, 1), ORALM 640 (1, 1, 1); PEDO 630 (1, 1, 1); PERIO 540; PERIO 640, PERIO 641, PERIO 642 (1, 1, 1); PROS 640 (1, 1, 1); RES D 540, RES D 541, RES D 542, RES D 640 (3, 3, 3)
5. *Electives*: A minimum of two elective courses must be taken during the course of the program. Elective credits may not exceed a total of 50 credits.

Facilities

School clinics, teaching laboratories, and lecture halls are up-to-date, well maintained, and periodically renovated. Clinical modules are assigned to students for use in patient treatment. The D-1 Simulation Clinic is a state-of-the-art teaching facility used for preclinical and laboratory courses.

School Accreditation and Licensure

The school is fully accredited by the Commission on Dental Accreditation, the recognized accrediting body for dentistry and the related dental fields. For information, write to the Commission on Dental Accreditation, 211 East Chicago Ave., Chicago, IL 60611-2678. Admission to the practice of dentistry in any state is conditional upon meeting the requirements of the individual state dental licensure requirement. In order to practice in the State of Washington, the candidate for licensure must have a dental degree from a U.S. or Canadian dental school, and have successfully completed the American Dental Association National Board Examinations and the Western Regional Examining Board Examination. Additional information about licensure requirements should be requested from the Washington State Department of Health, Dental Quality Assurance Commission, PO Box 1099, Olympia WA 98504-1099, (360) 586-6898.

Health Care and Immunization Policy

Enrolled students at the UW School of Dentistry are eligible for healthcare services provided by the Hall Health Primary Care Center. In addition, the University has arranged for an Accident and Sickness Insurance Plan specifically designed for students, their dependents, and their domestic partners for which the Hall Health Primary Care Center is the preferred provider. The UW Health Sciences Center requires that its students, staff, and faculty show documentation of protection against a number of vaccine-preventable diseases. Additional information is available via the Hall Health Primary Care Center website at depts.washington.edu/hhpccweb/

DENTCL 603 Patient Advocacy - Third Year (1-, max. 3)

Teaches third year dental students the practice of comprehensive patient care. Students required to monitor the care of 30 to 50 patients and make recommendations with regard to treatment sequence and recall strategies.

Offered: AWSpS.

[View course details in MyPlan: DENTCL 603](#)

DENTCL 605 Foundations of Interprofessional Education ([0/1]-)

IPE prepares students to collaborate with other health professions in interprofessional patient care practice (IPP), to improve patient care and health outcomes. Students will experience co-learning, working in teams with faculty and students from other health professions, to understand the roles of members of the healthcare team, and have clinical experiences that involve working with other healthcare professional students and practitioners.

Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: DENTCL 605](#)

DENTCL 631 Prosthodontics Clerkship (9)

Teaches students to understand prosthodontics needs of patients and to design and deliver treatment. The clinical experience is supported with the didactic training during the clerkship. At the end of the clerkship, student dentists are prepared to practice in the Comprehensive Care 4th year. Offered: AWSpS.

[View course details in MyPlan: DENTCL 631](#)

DENTCL 632 Periodontics Clerkship (9)

Covers general principles in clinical periodontics both in class and in the clinical clerkship setting. Students develop an overall understanding of the scope of periodontal treatment and clinical decision-making by active participation, integrating periodontal therapy in a comprehensive plan of care. Offered: AWSpS.

[View course details in MyPlan: DENTCL 632](#)

DENTCL 633 Endodontics Clerkship (9)

Prepares dental students to provide endodontic therapy within the scope of general dentistry. In the seminar component, students expand their didactic knowledge in preparation for clinical experiences. In the clinical component, student treat patients, including diagnosis, treatment planning, and endodontic therapy of minimal-

moderate difficulty level. Offered: AWSpS.
[View course details in MyPlan: DENTCL 633](#)

DENTCL 634 Operative Dentistry Clerkship (9)

Operative dentistry plays a key role in disease control and the integration of comprehensive care of our patients. Emphasizes preventive therapies for caries. Students diagnose and treat conditions of the human dentition that fall within the scope of operative dentistry and utilizes the patient assessment and treatment planning process in order to deliver appropriate preventive and restorative procedures. Offered: AWSpS.

[View course details in MyPlan: DENTCL 634](#)

DENTCL 635 Diagnosis and Treatment Planning Clerkship (9)

Familiarizes students with the procedure of a comprehensive, thorough, oral and head and neck examination, taking medical and dental history and ethically justified decision making in patient individual treatment planning. Offered: AWSpS.

[View course details in MyPlan: DENTCL 635](#)

DENTCL 636 Oral Medicine Clerkship (9)

Provides clinical experience and develops competency in the diagnosis and management of acute and chronic orofacial pain, diseases of the oral mucosa, salivary dysfunction, oral manifestations of systemic diseases, dental management of patients with developmental or other disabilities, and taking interpretation of radiographs. Offered: AWSpS.

[View course details in MyPlan: DENTCL 636](#)

DENTCL 637 Oral and Maxillofacial Surgery Clerkship (9)

Introduces students to the specialty of oral and maxillofacial surgery. An equally important goal is to supply students with the knowledge base and clinical skills necessary to practice general dentistry in our communities. Offered: AWSpS.

[View course details in MyPlan: DENTCL 637](#)

DENTCL 638 Pediatric Dentistry and Orthodontic Clerkship (9)

Didactic and clinical educational experiences in comprehensive care of pediatric dental patients in the areas of prevention, diagnosis, treatment planning, and restorative dentistry. In addition, recognition, analysis and treatment planning of malocclusions as well as introduction to limited tooth movement. Offered: AWSpS.

DENTAL ELECTIVE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

DENTEL 510 Careers in Dentistry (1)

Provides students with knowledge in a wide array of topics relating to a successful career in dentistry. Seminars featuring experienced dentists and experts from different fields will inform students regarding the business side of dentistry and will serve as resources as students face challenges in the dental field. Credit/no-credit only.

Offered: AWSp.

[View course details in MyPlan: DENTEL 510](#)

DENTEL 512 Ethics Journal Club (1)

This course will expose students to the impact of recent developments in biomedical research, which they discuss in an interactive journal club atmosphere. It is open to 1st, 2nd, 3rd, 4th year Predoctoral students and Graduate students in the UW School of Dentistry. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: DENTEL 512](#)

DENTEL 513 Ethics Publication Review (1)

Students will develop, write, and submit a peer reviewed journal submission. Prerequisite: DENTEL 512 Ethics Journal Club or Advance Permission of the Course Director Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: DENTEL 513](#)

DENTEL 530 Research Methods Seminar (1)

Provides terminology and concepts related to different aspects of dental research. Credit/no-credit only. Offered: Sp.

[View course details in MyPlan: DENTEL 530](#)

DENTEL 602 Advanced Dentistry in Interprofessional Practice (1)

Dental students deepen their understanding of the roles of members of the healthcare team, by communicating and collaborating with other healthcare professional students and practitioners in the provision of patient care and education. Credit/no-credit only. Offered: WSp.

DENTISTRY

DENTAL FOUNDATIONS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

DENTFN 500 Early Clinical Immersion (6)

Provides introduction to clinical dentistry and each of the pre-doctoral curriculum threads. Students participate in classroom lectures with multidisciplinary faculty and apply this information with head and neck anatomy laboratory to clinical exercises. Also includes small group activities, large group activities and offsite experiences. Offered: S.

[View course details in MyPlan: DENTFN 500](#)

DENTFN 510 Molecular and Cellular Basis of Disease - Foundations 1 (6)

Teaches the principles of cell and molecular biology, physiology, biochemistry and genetics. Aspects include the organization of the genome, properties of macromolecules, and cytoarchitecture. Students gain an understanding of intracellular communication, cell-cell interactions, properties of differentiated cells, and the diversity of their physiological properties and functions. Offered: A.

[View course details in MyPlan: DENTFN 510](#)

DENTFN 511 Invaders and Defenders - Foundations 2 (5)

Covers and integrates the immune system, microbial biology, infectious diseases (including treatment), inflammation and repair, and skin and connective tissue. Topics include the pathogenesis and immunity of infectious disease, immunodeficiencies, hypersensitivity, autoimmunity, the basis of immunologic diagnostics. Offered: A.

[View course details in MyPlan: DENTFN 511](#)

DENTFN 512 Foundations of Dental Medicine (2)

Familiarizes students with the elements of patient interviewing, including developing a problem-focused, medical, social, and dental history. Covers how to physically assess the dental patient. Teaches how to apply principles of cultural competence and ethics throughout this process. Offered: A.

[View course details in MyPlan: DENTFN 512](#)

DENTFN 513 Oral Microbiology (2)

Applies basic sciences to an understanding of the molecular bases of the interactions between microorganisms and oral tissues that lead to plaque formation and dental diseases. Covers principles of clinical asepsis and

diagnosis of caries and periodontal diseases. Offered: A.

[View course details in MyPlan: DENTFN 513](#)

DENTFN 520 Cardiac, Pulmonary, and Renal Diseases - Foundations (8)

Covers the structure, function, and diseases of the cardiac, pulmonary, and renal systems, with special emphasis on the management of these diseases in the practice of dental medicine and surgery. Offered: W.

[View course details in MyPlan: DENTFN 520](#)

DENTFN 521 Introduction to Dental Public Health (2)

Students analyze a real-world public health case, and develop feasible solutions. Each small group present their solutions at the end of the course. Offered: W.

[View course details in MyPlan: DENTFN 521](#)

DENTFN 522 Foundations of Dental Medicine (2)

Students increase expertise with patient interviewing and developing a problem-focused medical, social, and dental history. Improves student skills in physical assessment, including diagnostic tests. Covers how to develop a differential diagnosis. Students learn and apply principles of cultural competence and ethics throughout this process. Offered: W.

[View course details in MyPlan: DENTFN 522](#)

DENTFN 523 Oral Histology and Embryology I (3)

Development of orofacial and neck structures; tooth/pulp histology, development, eruption and exfoliation; innervation of teeth and oral structures; craniofacial and dental anomalies; cranioskeletal development; temporomandibular joint; masticatory muscle structure and function; oral mucosa and epithelial differentiation; periodontium and epithelial attachment; specialized mucosa; gustation; and salivary gland structure and physiology. Offered: W.

[View course details in MyPlan: DENTFN 523](#)

DENTFN 530 Blood and Cancer - Foundations 4 (8)

Provides an overview of hematology and oncology. Students learn the biology of bone marrow and blood, with an introduction to the field of cancer medicine. Specific cancer subtypes are discussed, providing illustrative examples of the impact of molecular biology and environmental risk factors in the development/treatment of malignancy. Offered: Sp.

[View course details in MyPlan: DENTFN 530](#)

DENTFN 531 Energetics and Homeostasis - Foundations 5 (8)

Covers energy metabolism, nutrition, obesity, diabetes, gastrointestinal/liver physiology, and endocrinology. Topics include physiology and pathology of digestion and hepatic function; principles and practice of clinical nutrition; endocrine integration of metabolism; and endocrine pathophysiology. Also covers relevant anatomy, histology, and pharmacology of the endocrine and GI systems. Offered: Sp.

[View course details in MyPlan: DENTFN 531](#)

DENTFN 533 Oral Histology and Embryology 2 (3)

Examines the development of orofacial and neck structures; tooth/pulp histology, development, eruption and exfoliation; innervation of teeth and oral structures; craniofacial and dental anomalies; cranioskeletal development; temporomandibular joint; masticatory muscle structure/function; oral mucosa and epithelial differentiation; periodontium and epithelial attachment; specialized mucosa; gustation; and salivary gland structure and physiology. Offered: Sp.

[View course details in MyPlan: DENTFN 533](#)

DENTFN 560 Mind, Brain, and Behavior - Foundations 6 (8)

Covers the macro- and microscopic structure and function of the human nervous and musculoskeletal systems in terms of students' contribution to observable behavior, ranging from reflexes through cognitive and social behavior. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTFN 560](#)

DENTFN 561 Lifecycle and Reproduction - Foundations 7 (8)

Covers the physiology, anatomy/imaging, and pathology of the human lifecycle from conception to death and gives the dental student the necessary medical background to facilitate dental treatment of patients experiencing these diseases and disorders. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTFN 561](#)

DENTFN 562 Foundations of Dental Medicine 3 (2)

Reviews the medical, legal, social, and historical contexts affecting the oral and overall health of people with disabilities, patients in all stages of life, and patients from diverse backgrounds. Discusses communication techniques, delivery of care, and health promotion for diverse populations. Offered: A.

DENTISTRY

DENTAL GENERAL PRACTICE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

DENTGP 650 Advanced Topics in General Dentistry (3)

Faculty members from multiple departments participate with senior dental students in this course, which includes clinical practice management; ethics and jurisprudence; and coordinated multidisciplinary care; incorporating diagnosis and treatment planning; medical and surgical management; restorative dentistry; prosthodontics; implant dentistry; periodontics; endodontics; and orthodontics. Offered: S.

[View course details in MyPlan: DENTGP 650](#)

DENTGP 652 Comprehensive General Dentistry 1 (7)

Immersion in group practice atmosphere that simulates general dental practice. Students will provide comprehensive dental care to patients of all ages and stages of life in UWSOD general practice clinic and the Center for Pediatric Dentistry. Offered: S.

[View course details in MyPlan: DENTGP 652](#)

DENTGP 653 Treatments of Patients with Special Needs 1 (2)

Exposes students to the assessment process and treatment strategies for successful management of patients with developmental and acquired disabilities, medically complex patients, geriatric patients, and anxious, fearful, or phobic patients in a variety of treatment settings, including clinical, hospital, and extramural (nursing home or senior center). Credit/no-credit only. Offered: S.

[View course details in MyPlan: DENTGP 653](#)

DENTGP 654 Dental Urgent and Emergent Care 1 (2)

Advanced instruction and clinical practice in the diagnosis and management of patients requiring urgent and emergent dental care as well as patients needing assessment and care in the discipline of oral medicine. Includes clinical rotations in oral maxillofacial radiology and oral medicine specialty clinics. Offered: S.

[View course details in MyPlan: DENTGP 654](#)

DENTGP 655 Service Learning Rotation (6) P. HOWELL

Students practice clinical dentistry for 4 weeks at a designate rural and/or underserved community health center. The student further develops an understanding of cultural competence by analyzing and reflecting on the social

and cultural factors that contribute to the oral health needs of these diverse populations. Offered: AW¹³⁵⁰SpS.
[View course details in MyPlan: DENTGP 655](#)

DENTGP 660 Advanced Topics in General Dentistry 2 (3)

Includes clinical practice management; ethics and jurisprudence; and coordinated multidisciplinary care. Incorporates diagnosis and treatment planning; medical and surgical management; restorative dentistry; prosthodontics; implant dentistry; periodontics; endodontics; and orthodontics. Offered: A.

[View course details in MyPlan: DENTGP 660](#)

DENTGP 662 Comprehensive General Dentistry 2 (7)

Immersion in group practice atmosphere that simulates general dental practice. Students will provide comprehensive dental care to patients of all ages and stages of life in the UWSOD general practice clinic and the Center for Pediatric Dentistry. Offered: A.

[View course details in MyPlan: DENTGP 662](#)

DENTGP 663 Treatments of Patients with Special Needs 2 (2) K. ESPINOZA

Exposes students to the assessment process and treatment strategies for successful management of patients with developmental and acquired disabilities, medically complex patients, geriatric patients, and anxious, fearful, or phobic patients in a variety of treatment settings, including clinical, hospital, and extramural (nursing home or senior center). Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTGP 663](#)

DENTGP 664 Dental Urgent and Emergent Care 2 (2)

Advanced instruction and clinical practice in the diagnosis and management of patients requiring urgent and emergent dental care as well as patients needing assessment and care in the discipline of oral medicine. Includes clinical rotations in oral maxillofacial radiology and oral medicine specialty clinics. Offered: A.

[View course details in MyPlan: DENTGP 664](#)

DENTGP 665 4th Year Clinical Competencies Part I (1)

Includes critical thinking; ethics, and professionalism; practice management; dental emergencies; pediatric and geriatric dentistry, orthodontics; and dental/medical emergencies. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTGP 665](#)

DENTGP 670 Advanced Topics in General Dentistry 3 (3)

Faculty members from multiple departments will participate with senior dental students in this active learning course, which will include clinical practice management, ethics and jurisprudence, and coordinated multidisciplinary care, incorporating diagnosis and treatment planning, medical and surgical management, restorative dentistry, prosthodontics, implant dentistry, periodontics, endodontics, and orthodontics. Online content emphasized. Offered: W.

[View course details in MyPlan: DENTGP 670](#)

DENTGP 672 Comprehensive General Dentistry 3 (7)

Immersion in group practice atmosphere that simulates general dental practice. Students will provide comprehensive dental care to patients of all ages and stages of life in the UWSOD general practice clinic and the Center for Pediatric Dentistry. Offered: W.

[View course details in MyPlan: DENTGP 672](#)

DENTGP 673 Treatments of Patients with Special Needs 3 (2)

Exposes students to the assessment process and treatment strategies for successful management of patients with developmental and acquired disabilities, medically complex patients, geriatric patients, and anxious, fearful, or phobic patients in a variety of treatment settings, including clinical, hospital, and extramural (nursing home or senior center). Credit/no-credit only. Offered: W.

[View course details in MyPlan: DENTGP 673](#)

DENTGP 674 Dental Urgent and Emergent Care 3 (2)

Advanced instruction and clinical practice in the diagnosis and management of patients requiring urgent and emergent dental care as well as patients needing assessment and care in the discipline of oral medicine. Includes clinical rotations in oral maxillofacial radiology and oral medicine specialty clinics. Offered: W.

[View course details in MyPlan: DENTGP 674](#)

DENTGP 680 Advanced Topics in General Dentistry 4 (3)

Faculty members from multiple departments will participate with senior dental students in this active learning course, which will include clinical practice management, ethics and jurisprudence, and coordinated multidisciplinary care, incorporating diagnosis and treatment planning, medical and surgical management, restorative dentistry, prosthodontics, implant dentistry, periodontics, endodontics, and orthodontics. Online content emphasized. Offered: Sp.

[View course details in MyPlan: DENTGP 680](#)

DENTGP 682 Comprehensive General Dentistry 4 (7)

Immersion in group practice atmosphere that simulates general dental practice. Students will provide comprehensive dental care to patients of all ages and stages of life in the UWSOD general practice clinic and the Center for Pediatric Dentistry. Offered: Sp.

[View course details in MyPlan: DENTGP 682](#)

DENTGP 683 Treatments of Patients with Special Needs 4 (2)

Exposes students to the assessment process and treatment strategies for successful management of patients with developmental and acquired disabilities, medically complex patients, geriatric patients, and anxious, fearful, or phobic patients in a variety of treatment settings, including clinical, hospital, and extramural (nursing home or senior center). Credit/no-credit only. Offered: Sp.

[View course details in MyPlan: DENTGP 683](#)

DENTGP 684 Dental Urgent and Emergent Care 4 (2)

Advanced instruction and clinical practice in the diagnosis and management of patients requiring urgent and emergent dental care as well as patients needing assessment and care in the discipline of oral medicine. Includes clinical rotations in oral maxillofacial radiology and oral medicine specialty clinics. Offered: Sp.

[View course details in MyPlan: DENTGP 684](#)

DENTGP 685 4th Year Clinical Competencies Part 2 (1)

In part 2 of this course, students will demonstrate competency as defined by UWSOD and CODA (Standards 2.9, 2.14, 2.16, 2.17, 2.18, 2.19, 2.20, 2.21, 2.22, 2.23 A through O, and 2.24). Students will also demonstrate global competency to practice dentistry. Offered: Sp.

DENTISTRY

DENTAL PRE-CLINICAL

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

DENTPC 510 Dental Anatomy (3)

Includes lecture and laboratory content on the morphology and nomenclature of individual teeth of the adult dentition; introduction to tooth histology and function; and the influence of tooth anatomy on clinical dental procedures. Offered: A.

[View course details in MyPlan: DENTPC 510](#)

DENTPC 511 Introduction to Periodontics (2)

Explores the clinical, histopathologic, and radiographic features of periodontal diseases, principles of preventive periodontics and initial examination of the periodontium. Topics include normal structure, classification and epidemiology of periodontal diseases, etiologic factors, host response, and pathogenic lesions and periodontal disease. Offered: A.

[View course details in MyPlan: DENTPC 511](#)

DENTPC 520 Dental Occlusion (3)

Topics include: fabrication of master case models; articulator use and function; contacts in MIP and CO, temporomandibular joint function; mandibular excursive movements; mandibular envelopes of movement; and how anatomical determinants influence occlusal function in all anatomical planes. Offered: W.

[View course details in MyPlan: DENTPC 520](#)

DENTPC 523 Dental Materials Science 1 (1)

Explores basic concepts of dental materials science, specifically the physical, mechanical, chemical and biological properties, as well as clinical applications of the dental materials commonly used in the fabrication and placement of direct and indirect restorations. Offered: W.

[View course details in MyPlan: DENTPC 523](#)

DENTPC 530 Introduction to Operative Dentistry (2)

Students become familiar with and obtain expertise in applied dental materials, elementary concepts of tooth restoration, understanding of etiology and preventive aspects of caries, understanding of caries management by risk assessment. Student learn and develop the surgical skills for the restoration of one surface pathologic

lesions. Offered: Sp.

[View course details in MyPlan: DENTPC 530](#)

DENTPC 531 Introduction to Evidence-Based Dentistry (1)

Evidence-based dental decision-making considers patient needs and desires, clinician strengths and weaknesses, and up-to-date research evidence. Students learn about why evidence-based patient care is safer and more effective. They learn how to evaluate scientific evidence on oral health, and apply it in clinical decision making. Offered: Sp.

[View course details in MyPlan: DENTPC 531](#)

DENTPC 532 Oral and Maxillofacial Radiology Theory 1 (2)

This course prepares students for all courses where radiographs are needed for diagnosis, treatment planning or follow-up. Recognizing normal and aberrant anatomy on intraoral and extraoral radiographs will be covered as well as radiation protection. This will prepare the student for part 2 of the Radiology series (DENTPC 552) on radiographic pathology. Offered: Sp.

[View course details in MyPlan: DENTPC 532](#)

DENTPC 533 Dental Materials Science 2 (1)

Explores basic concepts of dental materials science, specifically the physical, mechanical, chemical and biological properties, as well as clinical applications of the dental materials commonly used in the fabrication and placement of direct and indirect restorations. Offered: Sp.

[View course details in MyPlan: DENTPC 533](#)

DENTPC 534 Introduction to Oral Pathology (3)

This is the first course in a three-part series designed to introduce students to oral diseases bridging the field of dentistry to medicine. This course covers oral soft tissue diseases, etiology, pathogenesis, clinical signs and symptoms, histology, laboratory findings (when applicable), and prognosis. Offered: Sp.

[View course details in MyPlan: DENTPC 534](#)

DENTPC 535 Removable Partial Denture Design (2)

Develops proficiency in basic principles of the designs of removable partial dentures. Offered: Sp.

[View course details in MyPlan: DENTPC 535](#)

DENTPC 550 Operative Dentistry 2 (5)

Students obtain proficiency in applied dental materials, advanced concepts of tooth restoration, understanding of etiology and preventive aspect of caries, understanding of caries management by risk assessment. Students learn and develop the surgical skills for the restoration of multi-surface pathologic lesions. Emphasizes ergonomics and ethics. Offered: S.

[View course details in MyPlan: DENTPC 550](#)

DENTPC 551 Immediate Dentures (3)

Covers the basic principles of immediate denture and the procedures for the fabrication of an immediate denture. Topics include treatment planning; record maintenance; and laboratory steps for the fabrication of the ICD; surgical procedures; and post insertion care and complications. Offered: S.

[View course details in MyPlan: DENTPC 551](#)

DENTPC 552 Oral & Maxillofacial Radiology Theory 2 (1)

This course covers dental anomalies and pathology of bone and how they present on radiographs of the head and neck region. The students will be taught how to interpret radiographs and how to formulate a differential diagnosis based on the characteristics of the radiographic appearance. Offered: S.

[View course details in MyPlan: DENTPC 552](#)

DENTPC 553 Local Anesthesia (3)

Covers the pharmacology, anatomy, techniques and clinical practice of local anesthesia. The safe and effective

administration of local anesthesia is integral to general dentistry and most specialties. Offered: S.

[View course details in MyPlan: DENTPC 553](#)

DENTPC 554 Oral Pathology 1 (2)

This course covers common diseases of jaw bones. Each disease will be discussed to include: etiology and pathogenesis, clinical signs and symptoms, histological features, laboratory findings (when applicable), pitfalls in diagnosis and prognosis. Offered: S.

[View course details in MyPlan: DENTPC 554](#)

DENTPC 560 Operative Dentistry 3 (3)

Students become familiar with very small amalgam and composite class 2 slot restorations and learn the replacement of large cusp fractures, utilizing pins, slots, grooves, potholes, and endo posts for retention. Also teaches Class 2 intracoronal cast restorations and the restoration of teeth with Class 4 lesions. Offered: A.

[View course details in MyPlan: DENTPC 560](#)

DENTPC 561 Fixed Prosthodontics I (2)

Students gain knowledge in the principles of fixed prosthodontics for the restoration of damaged tooth surfaces with metal and/or esthetic veneer single tooth restorations as well as become familiar with the material science and use of the various dental materials used in this discipline. Offered: A.

[View course details in MyPlan: DENTPC 561](#)

DENTPC 562 Complete Dentures I (3)

Deals with the basic principles of conventional complete denture fabrication, as well as the diagnosis and treatment of a completely edentulous patient. Offered: A.

[View course details in MyPlan: DENTPC 562](#)

DENTPC 565 Conversations on Dental Practice (1)

Provides the specific core content within each of the approximately 30 filaments within the practice management thread. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: DENTPC 565](#)

DENTPC 566 National Board Review (1)

Provides a focused review of key topics in dental anatomy and occlusion, anatomic sciences, physiology and biochemistry, and microbiology and pathology, to ensure that students are thoroughly prepared to successfully challenge Part 1 of the United States national dental board examinations. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTPC 566](#)

DENTPC 570 Operative Dentistry 4 (2)

Explores applied dental materials, advanced concepts of tooth restoration, understanding of etiology and preventive aspects of caries, understanding of caries management by risk assessment. Students learn and develop the surgical skills for the restoration of multi-surface pathologic lesions. Offered: W.

[View course details in MyPlan: DENTPC 570](#)

DENTPC 571 Fixed Prosthodontics 2 (4)

Explores the planning, restoration and replacement of missing teeth with fixed prostheses, planning and designing for the restoration of endodontically treated teeth as well as become familiar with the material science and use of the various dental materials used in this discipline. Offered: W.

[View course details in MyPlan: DENTPC 571](#)

DENTPC 572 Complete Dentures 2 (2)

Second of two courses dealing with the basic principles of conventional complete denture fabrication, as well as the diagnosis and treatment of a completely edentulous patient. The instructional material will be presented prior to each laboratory session. Affiliate instructors will supervise the laboratory application of the lecture instruction. Offered: W.

[View course details in MyPlan: DENTPC 572](#)

DENTPC 573 Orthodontics 1: Growth and Development of the Face and Dentition (2)

Explores principles of facial growth, occlusal development, and diagnosis of the different types of malocclusion. The overall goal is for the student to gain knowledge and skills necessary for the analysis and treatment of malocclusion. Offered: W.

[View course details in MyPlan: DENTPC 573](#)

DENTPC 574 Oral Pathology 2 (3)

Second part of a survey of diseases of the oral and maxillofacial region. Correlations between clinical findings, etiologic factors, and histopathologic features are stressed. Offered: W.

[View course details in MyPlan: DENTPC 574](#)

DENTPC 575 Removable Partial Denture Technique (2)

Prepares the pre-doctoral dental students to evaluate, design, prepare, fabricate and provide maintenance for a removable partial denture, when treating partially edentulous patients during their clinical training. Offered: W.

[View course details in MyPlan: DENTPC 575](#)

DENTPC 576 Clinical Oral Radiology (3)

Students will train with a virtual reality radiology program, and will be taking X-rays on a dry skull and a DXTTR phantom, which are then evaluated and discussed. Students will learn how to position patients for panoramic radiography and cone beam CT. Students will shadow in the oral radiology clinic. Offered: W.

[View course details in MyPlan: DENTPC 576](#)

DENTPC 577 Periodontics 2: Prevention/Periodontics (2)

Introduction to prevention in dentistry. Topics covered include examination of the dentition and periodontium, dental disease indices, scaling and root planning instruments and instrumentation, sharpening, and oral hygiene chemotherapeutics. Students prepare for providing patient care in the next course, DENTPC 587-Periodontics 3. Offered: W.

[View course details in MyPlan: DENTPC 577](#)

DENTPC 580 Operative Dentistry 5 (3)

Explores applied dental materials, advanced concepts of tooth restoration, understanding of etiology and preventive aspects of caries, understanding of caries management by risk assessment. Students learn and develop the surgical skills for the restoration of multi-surface pathologic lesions. Offered: Sp.

[View course details in MyPlan: DENTPC 580](#)

DENTPC 581 Fixed Prosthodontics 3 (2)

Explores indications, materials selection, fabrication of esthetic veneer restorations for fixed prostheses and the science of color application to esthetic restorations. The rationale is learned for resin-bonded ultraconservative fixed prostheses and resin or ceramic veneered prostheses. The student will plan and wax an anterior esthetics case. Offered: Sp.

[View course details in MyPlan: DENTPC 581](#)

DENTPC 582 Implant Dentistry (2)

Explores the basic science of osseointegration, and be able to manage the restorative phase of the partially and completely edentulous patient. Students will learn to use implant components, computer software for the planning and placement of the implants and to restore a single tooth implant in the laboratory. Offered: Sp.

[View course details in MyPlan: DENTPC 582](#)

DENTPC 583 Orthodontics 2 (2)

Explores the development of the occlusion, diagnosis of different types of malocclusion, and basic principles of biomechanics during orthodontic treatment. The goal is for the student to be able to analyze malocclusions and make appropriate treatment decisions. Offered: Sp.

[View course details in MyPlan: DENTPC 583](#)

DENTPC 584 Introduction to Endodontics (4)

This introductory course in Endodontics includes both didactic and laboratory components. The didactic component covers the biology, pathology, diagnosis, and treatment of pulpal and periapical pathosis. The preclinical laboratory component covers endodontic treatment techniques using extracted and artificial teeth. The course prepares students for the third-year Endodontic Clerkship. Offered: Sp.

[View course details in MyPlan: DENTPC 584](#)

DENTPC 585 Removable Partial Denture Technique 2 (2)

Prepares the pre-doctoral dental students to evaluate, design, prepare, fabricate and provide maintenance for a removable partial denture, when treating partially edentulous patients during their clinical training. Whether or not the objective has been met will be determined with written and practical examinations. Offered: Sp.

[View course details in MyPlan: DENTPC 585](#)

DENTPC 586 Introduction to Pediatric Dentistry (3)

Introduction to clinical pediatric dentistry, including behavior management, oral diagnosis, preventive dentistry, dental anomalies, radiography, anesthesia, restorative procedures, pulpal therapy, space maintenance and traumatic dental injuries in the primary and permanent dentitions. Offered: Sp.

[View course details in MyPlan: DENTPC 586](#)

DENTPC 587 Periodontics 3: Prevention/Periodontics II (2)

This course is the clinical application of topics covered the prior quarter. Students will see patients for preventive maintenance appointments and will apply knowledge in caries detection and treatment planning, identification of periodontal predisposing factors, dentinal hypersensitivity, and advanced instrumentation. Students will provide patient care in the weekly clinical sessions. Offered: Sp.

[View course details in MyPlan: DENTPC 587](#)

DENTPC 588 Patient Advocacy (1)

Introduces clinical patient management and patient-doctor communications. Students gain experience managing a pool of patients, contacting them periodically and monitoring their care throughout their treatment. Students learn how to effectively review the patient EHR, while identifying and facilitating resolution of issues that may present during treatment. Offered: AWSpS.

- [Autumn Quarter 2017](#)

DPHS 201 Planning a Career in Dentistry for the Future (2) *Weinstein*

Future-oriented overview of important concepts in dental science, contemporary modes of patient treatment, and dental-care delivery systems. Provides firsthand exposure to practice of dentistry and prerequisite materials in oral anatomy, epidemiology, and other basic sciences subjects. Open to all second-, third, and fourth-year undergraduate students. Offered: Sp.

[View course details in MyPlan: DPHS 201](#)

DPHS 449 P-Directed Studies in Dental Public Health Sciences (*)

Students and faculty with common academic interests pursue them together within the curriculum by means of independent study and a tutorial student-faculty relationship. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: DPHS 449](#)

DPHS 550 P-Directed Studies in Dental Public Health Sciences (*, max. 17)

Students and faculty members who have common academic interests can pursue them together within the curriculum by means of independent study and a tutorial student-faculty relationship. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: DPHS 550](#)

DPHS 568 Biostatistics in Dentistry (3)

Introduction to concepts and methods of descriptive and inferential statistics with applications in dentistry emphasized. Topics include comparison of means and proportions, hypothesis testing, confidence intervals, non-parametric methods, linear regression, and correlation. Prerequisite: enrollment in School of Dentistry or permission of instructor. Instructors: Spiekerman Offered: jointly with BIOS 510; S.

[View course details in MyPlan: DPHS 568](#)

DPHS 569 Clinical Epidemiology and Study Design in Dentistry (2) *Hujoel*

An introduction to epidemiological methods as they relate to dental research. Topics covered include the estimation of dental disease occurrence at patient level and site level and the design and analysis of clinical trials with special emphasis on designs unique to dentistry, such as split-mouth designs. Offered: S.

[View course details in MyPlan: DPHS 569](#)

DPHS 650 P-Community Dentistry Clinical Electives (*, max. 12)

Credit/no-credit only.

DENTAL SELECTIVE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

DENTSL 550 Rural/Underserved Opportunities Program Community Rotations (6)

Students gain an early clinical patient care experience with oversight from School of Dentistry affiliate faculty at calibrated community health clinics in Washington and Montana. They work with dentists and dental hygienists, along with dental assistants and staff who perform the support functions necessary to operating a dental clinic.

Offered: S.

[View course details in MyPlan: DENTSL 550](#)

DENTSL 552 Patient Care Experience Selective (6)

Exposes students to an early clinical patient care experience working side-by-side with advanced dental students, and along with staff who perform the support functions necessary to operating a dental practice.

Credit/no-credit only. Offered: S.

[View course details in MyPlan: DENTSL 552](#)

DENTSL 651 Directed Studies in General Dentistry 1 (1)

Additional summer quarter study and/or clinic time, instruction, and/or mentoring in the practice and/or theory of general dental practice for the student who wishes or requires an individualized augmentation to the 4th year curriculum. Offered: S.

[View course details in MyPlan: DENTSL 651](#)

DENTSL 661 Directed Studies in General Dentistry 2 (1)

Provides additional autumn quarter study and/or clinic time, instruction, and/or mentoring in the practice and/or theory of general dental practice to the student who wishes or requires an individualized augmentation to the 4th year curriculum. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTSL 661](#)

DENTSL 662 Advanced Implant Dentistry 2 (1)

Offers opportunities for predoctoral students to gain additional knowledge to manage more advanced and complex implant cases. Includes treatment planning and managing the surgical and restorative part of the treatment under supervision of faculty from the three departments. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTSL 662](#)

DENTSL 665 Dental Photography - Selective (1)

Provides students with sufficient knowledge and experience to select and use correct photographic equipment for photographing patients (facial and intraoral views), casts, instruments, x-rays, charts, and objects. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENTSL 665](#)

DENTSL 671 Directed Studies in General Dentistry 3 (1)

Provides additional winter quarter study and/or clinic time, instruction, and/or mentoring in the practice and/or theory of general dental practice to the student who wishes or requires an individualized augmentation to the 4th year curriculum. Credit/no-credit only. Offered: W.

[View course details in MyPlan: DENTSL 671](#)

DENTSL 672 Advanced Implant Dentistry 3 (1)

Offers opportunities for predoctoral students to gain additional knowledge to manage more advanced and complex implant cases. Includes treatment planning and managing the surgical and restorative part of the treatment under supervision of faculty from the three departments. Credit/no-credit only. Offered: W.

[View course details in MyPlan: DENTSL 672](#)

DENTSL 681 Directed Studies in General Dentistry 4 (1)

Provides additional spring quarter study and/or clinic time, instruction, and/or mentoring in the practice and/or theory of general dental practice for the student who wishes or requires an individualized augmentation to the 4th year curriculum. Offered: Sp.

[View course details in MyPlan: DENTSL 681](#)

DENTSL 682 Advanced Implant Dentistry 4 (1)

Offers opportunities for predoctoral students to gain additional knowledge to manage more advanced and complex implant cases. Includes treatment planning and managing the surgical and restorative part of the treatment under supervision of faculty from the three departments. Credit/no-credit only. Offered: Sp.

DENT 550 P-Special Studies in Dentistry (*, max. 12)

Offered by the various departments from which students may elect study in areas of special interest to them. Includes subject matter applicable to all phases of dentistry. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: DENT 550](#)

DENT 563 Elements of Conscious Sedation (1-2)

Details theory and techniques for rendering oral, inhalation, transmucosal, intramuscular, and intravenous forms of conscious sedation. Focuses on pharmacology and pharmacokinetics of nitrous oxide, benzodiazepines, narcotics, and barbiturates. Addresses usual applications, special considerations, legal issues, and proper record keeping. Emphasizes prevention and management of emergencies. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENT 563](#)

DENT 565 Dental Photography (1)

Provides student with sufficient knowledge and experience to select and use correct photographic equipment for photographing patients (facial and interoral), casts, instruments, x-rays, charts, and objects. Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENT 565](#)

DENT 568 Internal Medicine for Dentistry ([1-3]-, max. 6)

Review of major organ systems, including normal anatomy and physiology, common pathophysiologies, medical interventions. Details modifications necessary for dental treatment and medical emergency management. Credit/no-credit only. Offered: S.

[View course details in MyPlan: DENT 568](#)

DENT 663 Treatments of Patients with Special Needs 2 (2) K. ESPINOZA

Exposes students to the assessment process and treatment strategies for successful management of patients with developmental and acquired disabilities, medically complex patients, geriatric patients, and anxious, fearful, or phobic patients in a variety of treatment settings, including clinical, hospital, and extramural (nursing home or senior center). Credit/no-credit only. Offered: A.

[View course details in MyPlan: DENT 663](#)

DENT 690 P-Extended Clinical Dentistry (1)

Educational experiences in clinical dentistry. Available to students who have successfully completed the University of Washington Doctor of Dental Surgery curriculum and seek additional supervised experience in the delivery of oral health care services within three quarters of graduation and prior to licensure. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: DENT 690](#)

DENT 700 Master's Thesis (*-)

Offered: AWSpS.

ENDODONTICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ENDO 550 P-Directed Studies in Endodontics (*, max. 6)

See DPHS 449 for course description. Credit/no-credit only.

[View course details in MyPlan: ENDO 550](#)

ENDO 560 Advanced Endodontic Diagnosis and Treatment (2)

Current concepts are presented and discussed relating to the diagnosis and treatment of pulpal and periapical pathosis. Criteria for evaluation of success or failure of root canal therapy are presented.

[View course details in MyPlan: ENDO 560](#)

ENDO 561 Anatomical Basis for Clinical Endodontics (2)

Root canal anatomy of significance in clinical endodontics is discussed in a seminar format. Offered: S.

[View course details in MyPlan: ENDO 561](#)

ENDO 562 Anatomical Bases for Surgical Endodontics (2)

Diagnosis and treatment of acute symptoms of dental origin, surgical endodontic therapy, traumatic dental injuries, and the relationship between periodontal and pulpal pathosis, including differential diagnosis and appropriate treatment planning.

[View course details in MyPlan: ENDO 562](#)

ENDO 563 Radiographic Interpretation (2)

Various aspects of radiographic interpretation of particular relevance to endodontics, including interpretation of normal structures, acquired and developmental abnormalities, infections, sialoliths, dysplasias, cysts, malignant lesions, benign tumors, and various diseases other than tumors.

[View course details in MyPlan: ENDO 563](#)

ENDO 566 Advanced Radiographic Interpretation (2)

Various aspects of radiographic interpretation of particular relevance to endodontics, including malignant lesions, benign tumors, various diseases other than tumors, soft-tissue calcifications, and radiographic technique.

[View course details in MyPlan: ENDO 566](#)

ENDO 568 Endodontic Practice Management (1)

Essential elements for establishing and managing a successful specialty practice in Endodontics. Prerequisite:

ENDO 562.

[View course details in MyPlan: ENDO 568](#)

ENDO 580 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: S.

[View course details in MyPlan: ENDO 580](#)

ENDO 581 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: A.

[View course details in MyPlan: ENDO 581](#)

ENDO 582 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: W.

[View course details in MyPlan: ENDO 582](#)

ENDO 583 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: Sp.

[View course details in MyPlan: ENDO 583](#)

ENDO 584 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: S.

[View course details in MyPlan: ENDO 584](#)

ENDO 585 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: A.

[View course details in MyPlan: ENDO 585](#)

ENDO 586 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: W.

[View course details in MyPlan: ENDO 586](#)

ENDO 587 Endodontic Seminar (2)

Ongoing weekly seminar devoted to review of endodontic and related literature and discussion of research methods. Offered: Sp.

[View course details in MyPlan: ENDO 587](#)

ENDO 590 Treatment Planning Seminar (2, max. 16)

Weekly seminar to discuss controversial treatment problems, difficult diagnostic cases, and presentation of endodontic treatment cases. Offered: AWSpS.

[View course details in MyPlan: ENDO 590](#)

ENDO 593 Clinical Practice Teaching (1, max. 3)

Closely supervised experience in teaching clinical endodontics to the undergraduate dental student. Offered: SpS.

[View course details in MyPlan: ENDO 593](#)

ENDO 594 Current Endodontic Literature (1)

A review and critical evaluation of the current literature relative to endodontics. Credit/no-credit only. Offered:

AWSpS.

[View course details in MyPlan: ENDO 594](#)

ENDO 595 Endodontic Surgery (2)

Reviews biological and technical aspects of endodontic surgery with emphasis on both the classic and current scientific surgical literature. Lectures and topic seminar discussion along with surgical case presentations.

[View course details in MyPlan: ENDO 595](#)

ENDO 597 Endodontics Teaching Seminar (2)

Weekly seminars devoted to an examination of general problems of teaching and learning and specific problems of endodontics teaching.

[View course details in MyPlan: ENDO 597](#)

ENDO 598 Endodontics Teaching Seminar (2)

Weekly seminars devoted to an examination of general problems of teaching and learning and specific problems of endodontics teaching.

[View course details in MyPlan: ENDO 598](#)

ENDO 600 Independent Study or Research (*-)

Prerequisite: permission of Graduate Program Adviser. Offered: AWSpS.

[View course details in MyPlan: ENDO 600](#)

ENDO 651 Honors Endodontics - Classical Literature Seminar - Selective (3)

This course is one quarter within a series of seminars (ENDO 580, 581, 582, 583, 584, 585, 586, and 587). The literature covered in these seminars review endodontic topics at the graduate level for students in the Advanced Program in Endodontics. In Honors Endodontics, fourth year predoctoral students are given the opportunity to join graduate students and participate in these seminars. Offered: AWSpS.

[View course details in MyPlan: ENDO 651](#)

ENDO 658 Endodontic Emergency Rotation (1)

Clinical experience in managing and treating patients in pain. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ENDO 658](#)

ENDO 659 P-Endodontics Extended Learning (*, max. 4)

Supplemental work in endodontics to correct an area of student deficiency. Credit/no-credit only.

[View course details in MyPlan: ENDO 659](#)

ENDO 660 Clinical Endodontics (4, max. 32)

Clinical diagnosis and treatment of pulpal pathosis and related sequelae. Offered: AWSpS.

[View course details in MyPlan: ENDO 660](#)

ORAL HEALTH SCIENCES

ORAL BIOLOGY

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ORALB 449 Undergraduate Research Topics in Oral Biology (*, max. 30)

Individual research on topics selected in collaboration with a faculty member. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALB 449](#)

ORALB 550 P-Directed Studies in Oral Biology (*, max. 12)

Selected readings and seminars on a topic chosen by individual arrangement in collaboration with a faculty member. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALB 550](#)

ORALB 561 Oral Tissue Development, Structure, and Function (3, max. 6)

Selected readings and discussions explore recent advances in cellular and molecular biology relevant to oral biology and medicine. Special emphasis on craniofacial and dental development, oral mucosa and periodontal tissues, salivary gland function, and olfaction and gustation. Prerequisite: permission of instructor. Instructors: Popowics Offered: WSp.

[View course details in MyPlan: ORALB 561](#)

ORALB 562 Supervised Teaching in Oral Biology (1-5, max. 10)

Directed and guided experience in selected topics in teaching techniques, teaching philosophy, and design of courses given by the Department of Oral Biology. Students are required to participate in lecture and laboratory teaching under the supervision of the course director. Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: ORALB 562](#)

ORALB 569 Advanced Oral Microbiology (2) *Darveau*

Viral, bacterial classification; physiology; toxicity mechanisms reviewed. Formation and composition of plaque and calculus, and chemical methods of control discussed. Specific microbial floras of acute and chronic gingivitis, early onset forms of periodontitis, and adult periodontitis studied. Principles of antibiotic use reviewed. Offered: W, even years.

[View course details in MyPlan: ORALB 569](#)

ORALB 574 Clinical Stomatology (3) *Y. RAWAL*

Diseases of the oral cavity and jaw are presented as the practitioner encounters them - detailed clinical pictures, laboratory tests, radiographic findings, surgical exploration for the establishment of a therapeutic diagnosis.

Offered: jointly with O S 574; Sp.

[View course details in MyPlan: ORALB 574](#)

ORALB 575 Oral Biology Seminar (1-3, max. 30)

Presentation and discussion of current research problems by members of the staff, investigators from other departments in the University, visiting scientists, and trainees. Prerequisite: permission of instructor. Instructors: Presland Offered: AWSpS.

[View course details in MyPlan: ORALB 575](#)

ORALB 578 Research Techniques in Oral Biology (2-4, max. 15)

Introduction to biochemical, analytical, or morphological techniques employed in biochemical cytology or molecular pathology as well as in vitro techniques of tissue and organ culture. Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: ORALB 578](#)

ORALB 579 Molecular Biology (2)

Applications of molecular biology and recombinant DNA methodologies to oral biology topics of interest in dental sciences. Prerequisite: BIOC 405 or BIOC 406 or equivalent, and permission of instructor. Instructors: Presland Offered: S.

[View course details in MyPlan: ORALB 579](#)

ORALB 580 Introduction to Molecular Biology Laboratory (4)

Includes laboratory experiences involving use of restriction enzymes, cloning of DNA into plasmid vectors and plasmid DNA isolation, RNA isolation from cells and tissues, PCR, DNA sequence analysis, and web-based DNA, and protein sequence analysis. Prerequisite: either BIOC 405, BIOC 406, or permission of instructor. Instructors: Presland Offered: A, even years.

[View course details in MyPlan: ORALB 580](#)

ORALB 581 Secretory Process in Exocrine Glands (1-3, max. 3) *Jeffrey*

Biostructural, physiological, and biochemical aspects of individual secretory systems as integrated units. Faculty members with appropriate expertise participate in discussions and presentations during each of the three quarters. Offered: Sp.

[View course details in MyPlan: ORALB 581](#)

ORALB 584 Craniofacial Research Seminar (1) *C. MCKINNEY*

This survey course presents a framework for basic and clinical craniofacial research and an overview of the translation spectrum of craniofacial research from basic science and clinical research to product development. Recommended: A background in the conduct of biomedical research would be helpful. Credit/no-credit only. Offered: S.

[View course details in MyPlan: ORALB 584](#)

ORALB 591 Advanced Topics in Oral Biology I - Teeth and Bones (1-2, max. 2) *Herring*

Covers aspects of biology basic to the dental sciences. Focuses on developmental biology of the craniofacial region, structure and function of teeth, bone, and the periodontium, and dental/oral sensation and pain. Offered: jointly with ORTHO 591; W.

[View course details in MyPlan: ORALB 591](#)

ORALB 600 Independent Study or Research (*-)

Prerequisite: permission of instructor. Offered: AWSpS.

[View course details in MyPlan: ORALB 600](#)

ORALB 700 Master's Thesis (*-)

Offered: AWPpS.

[View course details in MyPlan: ORALB 700](#)

ORALB 800 Doctoral Dissertation (*-)

Offered: AWPpS.

SCHOOL OF DENTISTRY

ORAL MEDICINE

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ORALM 404 Considerations in Care of the Patient with a Disability (*, max. 6)

Role of auxiliaries in dental treatment of the special patient, including psychosocial issues, communication techniques, wheelchair transfers; dental prevention, medical and dental management of specific disabilities; drug therapy, sedation, and anesthesia. Offered: AWSpS.

[View course details in MyPlan: ORALM 404](#)

ORALM 460 Clinical Management of Patients with Disabilities (*, max. 10)

Participation in chair/bedside dental treatment of a broad range of disabled populations, including homebound and institutionalized patients. Offered: AWSpS.

[View course details in MyPlan: ORALM 460](#)

ORALM 550 P-Directed Studies in Oral Diagnosis (*, max. 12)

See DPHS 449 for course description. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALM 550](#)

ORALM 565 Oral Medicine Clinical Conference (*, max. 16)

Clinical conference in which diagnostic data concerning patients seen in the oral medicine clinic are presented for evaluation. When possible, the patient is present with laboratory findings, radiographs, and the results of special tests. Offered: AWSpS.

[View course details in MyPlan: ORALM 565](#)

ORALM 570 Oral Medicine and Therapy (2-, max. 6)

Lecture directed toward the presentation and discussion of oral diseases and oral manifestations of systemic disease. Primarily the clinical manifestations' relationship to generalized disease processes and patient management with in-depth discussions of therapy. Offered: AWSpS.

[View course details in MyPlan: ORALM 570](#)

ORALM 576 Oral Medicine Literature Review (1)

Seminar analyzes the recent literature concerning the area of oral medicine, diagnosis, and therapy for oral disease. Offered: AWSpS.

[View course details in MyPlan: ORALM 576](#)

ORALM 580 Current Concepts in Oral Radiology (2)

Lecture/seminar covering current concepts in oral radiology including technical factors, radiation risks, observer characteristics and variation, radiographic localization, interpretation, and overview of current extraoral techniques. Offered: AWSpS.

[View course details in MyPlan: ORALM 580](#)

ORALM 581 Advanced Seminars in Oral Radiology (2, max. 8)

Explores aspects of oral and maxillofacial radiology and related fields. Offered: AWSpS.

[View course details in MyPlan: ORALM 581](#)

ORALM 600 Independent Study or Research (*-)

Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALM 600](#)

ORALM 601 Oral Medicine Research Seminar (1, max. 10)

Presentation and discussion of current research problems by graduate students, faculty, and investigators from other departments in the university. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALM 601](#)

ORALM 650 P-Oral Medicine Clinical Elective (1-6, max. 6)

Opportunities for students to work in various clinical activities at local hospitals or other sites outside the school. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALM 650](#)

ORALM 651 Oral and Systemic Health Issues in the Homeless in Seattle (1-, max. 12)

Addresses oral and systemic health issues in the homeless in Seattle. Service based learning and includes presentations, readings, reflections, health education, and dental care delivery with the goal of preparing dental students to work in an interprofessional environment with other healthcare providers. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: ORALM 651](#)

ORALM 652 Health Issues in the Homeless and Underserved-Selective (1)

Students learn about the causes and challenges of homelessness and lack of access to care and how it affects systemic and oral health. The course includes a minimum of 12 clinical service learning hours in the community (clinical opportunities are provided) as well as online learning. Offered: Sp.

[View course details in MyPlan: ORALM 652](#)

ORALM 653 Advanced Cone Beam CT Imaging and Interpretation - Selective (1)

Explores CBCT: plan/follow-up implant placement (with or without surgical guide), assess pathology, assess dento-alveol trauma and explore anatomical variations, in combination with: radiation protection, choice of field of view, resolution, exposure parameters, patient positioning, and interpretation of the acquired images. Offered: AWSpS.

[View course details in MyPlan: ORALM 653](#)

ORALM 654 DECOD Advanced Clinical - Selective (1)

Students will engage in clinical activities in special care dentistry, treating patients with developmental and/or acquired disabilities in the DECOD Clinic. Offered: AWSpS.

[View course details in MyPlan: ORALM 654](#)

ORALM 655 Peer Mentor - DECOD Advanced Clinical - Selective (1)

This course allows 4th year dental students to mentor 3rd year dental students during their clinical experiences in Dental Education in the Care of Persons with Disabilities (DECOD). Offered: AWSpS.

[View course details in MyPlan: ORALM 655](#)

ORALM 656 Clinical Oral Medicine Rotation at SCCA - Selective (1)

Through clinical experiences, this course provides an overview of medical oncology. Students learn the basic of medical oncology, especially hematopoietic stem cell transplantation. Students will be given the opportunity to participate in the examination and the direction of care in the Oral Medicine Service at the Seattle Cancer Care Alliance. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALM 656](#)

ORALM 660 Rotations in Medical Disciplines (1-4, max. 24)

Clinic, oriented to the hospital practice of oral medicine, deals with examination and nonsurgical therapy of hospital patients. The conditions treated include primary oral diseases, oral manifestations of systemic diseases, and oral defects resulting from medical treatment of serious systemic disease. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORALM 660](#)

ORALM 664 Dental Care of the Disabled II (*, max. 10)

Practicum in chair/bedside delivery of dental care to different disabled populations. Includes rotations to institutions, long-term care facilities, and homebound service, using mobile equipment. Prerequisite: ORALM 564 and permission of instructor. Offered: AWSpS.

[View course details in MyPlan: ORALM 664](#)

ORALM 665 Clinical Oral Medicine (*, max. 33)

Clinic involving the diagnostic evaluation of patients with difficult and unusual oral diseases. The student diagnoses and treats the patient. Types of therapy include medications and chemical agents, functional physical therapy, and counseling. Offered: AWSpS.

[View course details in MyPlan: ORALM 665](#)

ORALM 670 Clinical Oral Medicine Teaching (1-4, max. 16)

Clinic designed to give the student experience and instruction in the teaching of clinical oral diagnosis. Treatment of emergency dental problems as well as routine and special diagnostic procedures is emphasized. Offered: AWSpS.

SCHOOL OF DENTISTRY

ORAL AND MAXILLOFACIAL SURGERY

ORAL SURGERY

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

O S 550 P-Directed Studies in Oral Surgery (*, max. 16)

See DPHS 449 for course description. Credit/no-credit only.

[View course details in MyPlan: O S 550](#)

O S 574 Clinical Stomatology (3) *Y. RAWAL*

Diseases of the oral cavity and jaw are presented as the practitioner encounters them - detailed clinical pictures, laboratory tests, radiographic findings, surgical exploration for the establishment of a therapeutic diagnosis.

Offered: jointly with ORALB 574; Sp.

[View course details in MyPlan: O S 574](#)

O S 654 Clinical Oral Surgery - Selective (1)

This course provides students with 40 extra hours of surgical experience above and beyond that which is required for entry into General Practice Dental Clinic. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: O S 654](#)

O S 656 Internal Medicine for Dentistry - Selective (2)

Intensive review of major human medical diseases including common pathophysiology of diseases, medical interventions including detailed reviews of pharmacologic agents and current therapeutic procedures.

Modifications necessary for dental treatment and medical emergency management are also detailed. Diseases of the respiratory, cardiovascular, and endocrine will be emphasized. Credit/no-credit only. Offered: AS.

[View course details in MyPlan: O S 656](#)

O S 661 Elements of Moderate Sedation - Selective (1)

Theory, techniques for rendering moderate and IV moderate sedation. Airway management, pharmacology, physiology, pharmacokinetics of common sedative agents, their usual applications, special considerations, emergency prevention, recognition and management. Emphasis on monitoring, proper record keeping, legal issues. Credit/no-credit only. Offered: A.

[View course details in MyPlan: O S 661](#)

O S 662 Fifty Oral Lesions - Selective (1)

This course covers the most important fifty oral diseases focusing on the detection of oral diseases in their early stages. It will cover common diseases, uncommon but important diseases, and, most importantly, problem cases that can be avoided by careful examination and interpretation of the clinical data. Credit/no-credit only. Offered: AS.

[View course details in MyPlan: O S 662](#)

O S 672 Intravenous Sedation - Selective (1-2, max. 4)

Students will attend clinic and under the supervision of Oral and Maxillofacial Surgery faculty or residents complete preoperative/sedation checklists, start and stabilize intravenous catheters, administer sedative medications, monitor patients during and following sedation, complete recovery evaluation of patients, and discharge patients to the care of their escorts. Prerequisite: Successful completion of O S 656 and O S 661. Offered: WSp.

SCHOOL OF DENTISTRY ORTHODONTICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ORTHO 449 Directed Studies in Orthodontics (*)

Students and faculty with common academic interests pursue them together within the curriculum by means of independent study and a tutorial student-faculty relationship. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORTHO 449](#)

ORTHO 550 P-Directed Studies in Orthodontics (*, max. 6)

See DPHS 449 for course description. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ORTHO 550](#)

ORTHO 551 Review of Selected Literature in Orthodontics (1)

Students select a topic for review, review appropriate literature, and prepare written critique. Credit/no-credit only. Offered: WSp.

[View course details in MyPlan: ORTHO 551](#)

ORTHO 552 Journal Club (1, max. 6)

Graduate students review the current orthodontic literature. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: ORTHO 552](#)

ORTHO 560 Orthodontics Seminar (1-5, max. 25)

Methods of diagnosis, analysis, and treatment planning of malocclusion; analysis of methods and theoretical principles used in the treatment of malocclusion. The student presents a detailed case analysis and plan of treatment for each clinical patient supervised. Offered: AWSpS.

[View course details in MyPlan: ORTHO 560](#)

ORTHO 562 Orthodontic Theory (1)

Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.

[View course details in MyPlan: ORTHO 562](#)

ORTHO 563 Orthodontic Theory (2)

Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts.

Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.
[View course details in MyPlan: ORTHO 563](#)

ORTHO 564 Orthodontic Theory (2)

Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.
[View course details in MyPlan: ORTHO 564](#)

ORTHO 565 Orthodontic Theory (2)

Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.
[View course details in MyPlan: ORTHO 565](#)

ORTHO 566 Orthodontic Theory (2)

Lecture-seminar sequence dealing with interpretation and application of orthodontic principles and concepts. Pertinent literature, research findings, and current orthodontic theory are analyzed in depth. Offered: AWSpS.
[View course details in MyPlan: ORTHO 566](#)

ORTHO 568 Practice Management (1, max. 3) S. LAKE, D. TURPIN

Provides intensive instruction in everything necessary to establish and manage successful practice in critical first year post-graduation and beyond. Spring and fall quarters encompass seminars and guest lectures and winter quarter encompasses office visits to practices. Offered: AWSpS.

[View course details in MyPlan: ORTHO 568](#)

ORTHO 570 Roentgenographic Cephalometry (2)

Basic principles, history, and techniques of roentgenographic cephalometry. Offered: AS.

[View course details in MyPlan: ORTHO 570](#)

ORTHO 575 Interceptive and Preventive Orthodontics (1, max. 10)

Seminar for clinicians in limited-goal treatment of children. Emphasizes public health implications of interceptive orthodontics in reducing disparities and improving compromising malocclusions. Teaches rationale and mechanics of orthodontics in the mixed dentition; and insight to treatment of child. Topics include professional responsibility, cultural competence, nutrition, government aid, and child development. Offered: AWSpS.

[View course details in MyPlan: ORTHO 575](#)

ORTHO 580 Functional Cranial Anatomy (2) Herring

Lecture and laboratory dissection concentrating on clinical and functional anatomy of the head and neck. Offered: S.

[View course details in MyPlan: ORTHO 580](#)

ORTHO 582 Interdisciplinary Seminar (1)

Orthodontic Diagnosis and Treatment Planning for Interdisciplinary Patients: Four quarters seminar and six clinic courses prepare graduate students in orthodontics, periodontics, and restorative dentistry to care for patients with complex orthodontic needs involving periodontal and/or restorative interaction. Clinical supervision under direction of three instructors who approve treatment plans and direct treatment. Offered: AWSpS.

[View course details in MyPlan: ORTHO 582](#)

ORTHO 584 Clinical Management of Cleft Lip and Palate and Craniofacial Anomalies (1)

Management of these complex patients involves members of a dedicated, highly specialized multidisciplinary team. Insight gained into specific evaluation and treatment modalities of each discipline through lectures, seminars, assigned readings. Integrated approach to management is illustrated by attendance at craniofacial staffing and clinics. Prerequisite: enrollment in graduate orthodontics program. Credit/no-credit only. Offered:

AW.

[View course details in MyPlan: ORTHO 584](#)

ORTHO 585 Surgical Orthodontic Diagnosis and Treatment Planning (1)

Seminar for orthodontic graduate students and oral surgery residents in comprehensive, integrated diagnosis, and treatment planning for patients with major facial deformities. Offered: AWSpS.

[View course details in MyPlan: ORTHO 585](#)

ORTHO 587 Management of Debilitated Dentitions (1-, max. 2)

Integrated diagnosis and treatment planning for patients with edentulous spaces, emphasizing use of osseointegrated implants and temporary anchorate devices. Offered: SpS.

[View course details in MyPlan: ORTHO 587](#)

ORTHO 589 Applied Psychology in Orthodontics and Pediatric Dentistry (1)

Application of psychological theories, research, and intervention strategies to orthodontics and pediatric dentistry. Topics include the principles of behavior change, patient compliance with therapeutic regimens, and motivations for orthodontic treatment. Prerequisite: graduate standing in dentistry or permission of instructor. Offered: A.

[View course details in MyPlan: ORTHO 589](#)

ORTHO 590 Scientific Methodology in Dental Research (2)

Formulates and discusses hypothetical research projects related to orthodontics. Includes review of the scientific method, evaluation of the dental literature, and discussion of proposed master's degree research projects.

[View course details in MyPlan: ORTHO 590](#)

ORTHO 591 Advanced Topics in Oral Biology I - Teeth and Bones (1-2, max. 2) *Herring*

Covers aspects of biology basic to the dental sciences. Focuses on developmental biology of the craniofacial region, structure and function of teeth, bone, and the periodontium, and dental/oral sensation and pain. Offered: jointly with ORALB 591; W.

[View course details in MyPlan: ORTHO 591](#)

ORTHO 597 Preclinical Technique (2)

Techniques of construction and manipulation of appliances used in orthodontic therapy for graduate students. Offered: S.

[View course details in MyPlan: ORTHO 597](#)

ORTHO 598 Archwire Formation (1)

Principles of wire bending and the use of orthodontic pliers. Offered: ASpS.

[View course details in MyPlan: ORTHO 598](#)

ORTHO 599 Biomechanics (1)

Principles of biologic reactions to application of orthodontic forces. Credit/no-credit only. Offered: W.

[View course details in MyPlan: ORTHO 599](#)

ORTHO 600 Independent Study or Research (*-)

Managing the experimental protocol; data collection and analysis; and preparation and writing of a thesis or publishable manuscript. Prerequisite: permission of instructor. Offered: SpS.

[View course details in MyPlan: ORTHO 600](#)

ORTHO 631 Minor Orthodontic Treatment (1)

Clinical treatment of minor orthodontic problems suitable for the general dentist, i.e., direct clinical application of principles of orthodontic diagnosis and treatment planning for simple orthodontic appliances to modify tooth position in preparation for definitive restorative or periodontal therapy. Offered: AWSpS.

[View course details in MyPlan: ORTHO 631](#)

ORTHO 660 P-Clinical Orthodontics (1-6, max. 24)

Clinical application of the techniques in the treatment of malocclusion. Prerequisite: students enrolled in the graduate orthodontics program. Offered: AWSpS.

[View course details in MyPlan: ORTHO 660](#)

ORTHO 682 Interdisciplinary Clinic (1)

Orthodontic Diagnosis and Treatment Planning for Interdisciplinary Patients: Four quarters seminar and six clinic courses prepare graduate students in orthodontics, periodontics, and restorative dentistry to care for patients with complex orthodontic needs involving periodontal and/or restorative interaction. Clinical supervision under direction of three instructors who approve treatment plans and direct treatment. Offered: AWSpS.

PEDIATRIC DENTISTRY

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

PEDO 550 P-Directed Studies in Pediatric Dentistry (*, max. 6)

See DPHS 449 for course description. Credit/no-credit only. Offered: S.

[View course details in MyPlan: PEDO 550](#)

PEDO 560 Fundamentals of Pediatric Dentistry (1)

Preclinical laboratory, lecture course covering fundamentals of primary care in pediatric dentistry, including behavior management, dental emergencies, prevention, diagnosis and treatment planning, and infection control. Offered: S.

[View course details in MyPlan: PEDO 560](#)

PEDO 570 Pediatric Dentistry Seminar I (2)

Principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: S.

[View course details in MyPlan: PEDO 570](#)

PEDO 571 Pediatric Dentistry Seminar II (2)

Principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: A.

[View course details in MyPlan: PEDO 571](#)

PEDO 572 Pediatric Dentistry Seminar III (2)

Principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental

anomalies. Offered: W.

[View course details in MyPlan: PEDO 572](#)

PEDO 573 Pediatric Dentistry Seminar IV (2)

Principles and theory of child development and behavior management for pediatric patient, including sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and scientific basis for the prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: Sp.

[View course details in MyPlan: PEDO 573](#)

PEDO 574 Pediatric Dentistry Seminar V (2)

Principles and theory of child development and behavior management for pediatric patient. Sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: S.

[View course details in MyPlan: PEDO 574](#)

PEDO 575 Pediatric Dentistry Seminar VI (2)

Principles and theory of child development and behavior management for pediatric patient. Sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: A.

[View course details in MyPlan: PEDO 575](#)

PEDO 576 Pediatric Dentistry Seminar VII (2)

Principles and theory of child development and behavior management for pediatric patient. Sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: W.

[View course details in MyPlan: PEDO 576](#)

PEDO 577 Pediatric Dentistry Seminar VIII (2)

Principles and theory of child development and behavior management for pediatric patient. Sedation, general anesthesia, and principles of informed consent, pathology of oral manifestations of diseases of children and adolescents, pediatric radiology, and use of computers in didactic, clinical, and research endeavors, and the scientific basis for prevention and treatment of dental caries, periodontal disease, and developmental anomalies. Offered: Sp.

[View course details in MyPlan: PEDO 577](#)

PEDO 580 Developmental Disabilities Seminar (1)

Multidisciplinary approach to managing children with developmental disabilities. Offered: S.

[View course details in MyPlan: PEDO 580](#)

PEDO 581 Developmental Disabilities Seminar (1)

Multidisciplinary approach to managing children with developmental disabilities. Offered: A.

[View course details in MyPlan: PEDO 581](#)

PEDO 582 Developmental Disabilities Seminar (1)

Multidisciplinary approach to managing children with developmental disabilities. Offered: W.

PEDO 664 P-Clinical Pediatric Dentistry (1-3, max. 3)

Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: S.

[View course details in MyPlan: PEDO 664](#)

PEDO 665 P-Clinical Pediatric Dentistry (1-3, max. 3)

Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: A.

[View course details in MyPlan: PEDO 665](#)

PEDO 666 P-Clinical Pediatric Dentistry (1-3, max. 3)

Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered: W.

[View course details in MyPlan: PEDO 666](#)

PEDO 667 P-Clinical Pediatric Dentistry (1-3, max. 3)

Clinical experience for graduate pediatric dental students in basic through advanced pediatric dentistry. Offered:

Sp.

[View course details in MyPlan: PEDO 667](#)

PEDO 668 Clinical Clerkship in Pediatric Dentistry: Yakima Valley (*, max. 5)

Comprehensive dental care for economically-disadvantaged children in a rural community health center.

Offered: AWSpS.

[View course details in MyPlan: PEDO 668](#)

PEDO 669 Supervised Clinical Teaching (1-3, max. 4)

Graduate pediatric dental students provide clinical instruction for predoctoral dental students by supervising clinical sessions. Offered: AWSpS.

[View course details in MyPlan: PEDO 669](#)

PEDO 670 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: S.

[View course details in MyPlan: PEDO 670](#)

PEDO 671 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: A.

[View course details in MyPlan: PEDO 671](#)

PEDO 672 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: W.

[View course details in MyPlan: PEDO 672](#)

PEDO 673 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: Sp.

[View course details in MyPlan: PEDO 673](#)

PEDO 674 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: S.

[View course details in MyPlan: PEDO 674](#)

PEDO 675 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: A.

[View course details in MyPlan: PEDO 675](#)

PEDO 676 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: W.

[View course details in MyPlan: PEDO 676](#)

PEDO 677 Hospital Pediatric Dentistry (1-3, max. 3)

Diagnosis, management, and treatment of patients with disabilities in Seattle Children's Hospital Dental Clinic.

Offered: Sp.

[View course details in MyPlan: PEDO 677](#)

PEDO 679 Care of the Disabled Pediatric Patient (1)

Clinical experiences in the management of disabled patients. Offered: S.

[View course details in MyPlan: PEDO 679](#)

PEDO 680 Pediatric Dentistry under General Anesthesia (1-4, max. 4)

Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: S.

[View course details in MyPlan: PEDO 680](#)

PEDO 681 Pediatric Dentistry under General Anesthesia (1-4, max. 4)

Clinical course involving preoperative assessment of comprehensive dental treatment under general anesthesia and follow-up care. Offered: A.

[View course details in MyPlan: PEDO 681](#)

PEDO 682 Pediatric Dentistry under General Anesthesia (1-4, max. 4)

SCHOOL OF DENTISTRY

PERIODONTICS

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

PERIO 449 Directed Studies in Periodontics (*)

See DPHS 449 for course description. Credit/no-credit only.

[View course details in MyPlan: PERIO 449](#)

PERIO 550 P-Directed Studies in Periodontics (*, max. 6)

See DPHS 449 for course description. Credit/no-credit only.

[View course details in MyPlan: PERIO 550](#)

PERIO 561 Periodontal Case Management (2-, max. 8)

Didactic presentation of clinical periodontics to provide a comprehensive view of the field and a grasp of modern therapeutics. Offered: AWSp.

[View course details in MyPlan: PERIO 561](#)

PERIO 566 Practice Management (1)

Aspects of setting up and administering a private periodontal practice. Financing, insurance, office design, equipment, employees, professional forms, marketing strategies, and patient management. Prerequisite: PERIO 561. Credit/no-credit only. Offered: S.

[View course details in MyPlan: PERIO 566](#)

PERIO 574 Periodontal Microbiology (2)

Viral, bacterial classification; physiology; toxicity mechanisms reviewed. Formation and composition of plaque and calculus, and chemical methods of control discussed. Specific microbial floras of acute and chronic gingivitis, early onset forms of periodontitis, and adult periodontitis studied. Principles of antibiotic use reviewed. Offered: A.

[View course details in MyPlan: PERIO 574](#)

PERIO 575 Immunologic Aspects of Oral Diseases (2)

Acquaints students with basic concepts of immunology and immunopathology. Topics include elements of innate and acquired immunity, genetic bases of antibody structure and function, immunopathologic mechanisms, transplantation immunology, immunologic manifestations in mucocutaneous oral lesions, caries and periodontal disease, principles of vaccination, and critical evaluation of the dental stem cells potential for oral tissue

engineering. Offered: A.

[View course details in MyPlan: PERIO 575](#)

PERIO 576 The Molecular and Cellular Biology of the Periodontium (2)

Nucleic acid, protein, and carbohydrate biochemistry reviewed. Roles of collagens and proteoglycans in gingival tissues and the organization of oral epithelia discussed. Structures of human and animal periodontal lesions compared. Cellular and molecular inflammatory and immunological mechanisms in periodontal disease discussed. History, classification, and epidemiology of periodontal diseases described. Offered: Sp.

[View course details in MyPlan: PERIO 576](#)

PERIO 577 Review of Literature (2, max. 16)

Concise review of the scientific periodontal literature with specific focus on studies of periodontal diagnosis, wound healing, periodontal regeneration, microbiology, and implant procedures. Offered: AWSpS.

[View course details in MyPlan: PERIO 577](#)

PERIO 578 Implant Literature Review (1) *Verardi*

Reviews several topics related to dental implantology such as: history of dental implants, osseointegration, properties of materials, bone healing, bone augmentation procedures, success rates, pathogenesis of implant failures, and aesthetics in implantology. Discusses the relationship between surgical and restorative treatment phases. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: PERIO 578](#)

PERIO 580 Foundations in Implant Dentistry (1) *London, Raigrodski*

Details the core surgical and prosthetic considerations in dental implant patient care. Topics include case planning, anatomy, radiography, surgery, componentry, occlusion, and applications for implant dentistry. Offered: S.

[View course details in MyPlan: PERIO 580](#)

PERIO 582 Periodontic Treatment Planning Seminar (1-, max. 12)

Weekly seminar involved with the presentation, discussion, and tentative solution of moderate to complex problems in diagnosis and treatment. Offered: AWSpS.

[View course details in MyPlan: PERIO 582](#)

PERIO 585 Periodontal Therapy Seminar (1-, max. 12)

Weekly seminar utilizing the case review method and dealing with the treatment of moderate to advanced periodontal disease. Offered: AWSpS.

[View course details in MyPlan: PERIO 585](#)

PERIO 586 Longitudinal Evaluation of Periodontal Therapy (1-, max. 9)

Helps to develop in-depth knowledge and analytical skills in estimating prognosis, assessing comprehensive treatment plans, evaluating long-term treatment outcomes, and evidence-based clinical decision making.

Offered: AWSp.

[View course details in MyPlan: PERIO 586](#)

PERIO 592 Prescription Surgery (1-, max. 3)

Clinical course in periodontal surgery in which surgical procedures are performed on prescription basis for patients undergoing therapy in the undergraduate dental clinic. Exposes student to a wider spectrum of patients and simulates an environment in which the student can encounter the problems in communication and patient management that occur in the private sector.

[View course details in MyPlan: PERIO 592](#)

PERIO 600 Independent Study or Research (*-)

Prerequisite: permission of Graduate Program Adviser.

[View course details in MyPlan: PERIO 600](#)

PERIO 651 Surgical Periodontics - Selective (2)

This course gives students a greater exposure to comprehensive periodontal diagnosis and treatment planning with an evidence-based rationale, increased exposure to periodontal surgical procedures, and an overview of the specialty as a whole. Pre-approval from the Periodontics Department is required for this course. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: PERIO 651](#)

PERIO 659 P-Periodontics Extended Learning (*, max. 4)

Supplemental work in periodontics to correct an area of student deficiency. Credit/no-credit only.

[View course details in MyPlan: PERIO 659](#)

PERIO 660 Clinical Periodontics ([2-6]-, max. 60)

Clinical experience in diagnosis and treatment of periodontal disease.

[View course details in MyPlan: PERIO 660](#)

PERIO 661 Advanced Root Preparation (1) *Daubert*

Advanced skill development in the use of the periodontal probe, gracey curettes, files and instrument sharpening. Includes laboratory sessions on dentoforms leading up to treatment of initial therapy patients. Offered: S.

[View course details in MyPlan: PERIO 661](#)

PERIO 662 Stomatology Clinic (1, max. 4)

The diagnosis and treatment of oral and perioral lesions including history taking, biopsies, hematological laboratory tests and chemotherapy. Periodontal therapy in medically compromised patients in the hospital setting. Microscopic review of biopsy specimens. Offered: AWSpS.

[View course details in MyPlan: PERIO 662](#)

PERIO 663 Pre-Prosthodontics Clinical Periodontics (*)

Clinical diagnosis and treatment of periodontal disease for nonperiodontics student. Prerequisite: permission of department chairperson. Credit/no-credit only.

[View course details in MyPlan: PERIO 663](#)

PERIO 665 Clinical Practice Teaching (*, max. 9)

Supervised experience in teaching clinical periodontics to undergraduate dental students.

[View course details in MyPlan: PERIO 665](#)

PERIO 685 Hospital Periodontics (1)

Preparation in periodontics to practice in hospital situations, including experience in operation of nitrous oxide analgesia, general anesthesia, intravenous premedication, treating of out- and inpatients.

RES D 620 P-Comprehensive Treatment Planning in Restorative Dentistry (3)

Orientation to restorative clinical operations, administrative procedures associated with patient management, and formulation of treatment plans. Emphasizes problem-based learning, treatment outcomes, the sequence of clinical treatment, and the diagnosis and management of dental disease. Offered: S.

[View course details in MyPlan: RES D 620](#)

RES D 650 Restorative Dentistry Clinical Elective (1-6, max. 12)

Elective offering in clinical areas related to discipline. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: RES D 650](#)

RES D 652 Advanced Implant Dentistry - Selective (1, max. 4)

Predoctoral students gain additional knowledge to manage more advanced and complex implant cases. Includes treatment planning and managing the surgical and restorative part of the treatment, under supervision of faculty from the three departments. Students must enroll for at least 2 quarters in order to complete a case, since implant cases require additional time for osseointegration. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: RES D 652](#)

RES D 653 Clinical Magnification - Selective (1)

Faculty and affiliate members from the Department of Restorative Dentistry and Endodontics will participate with senior dental students in this active learning course, which will include didactic and clinical experiences in the provision of oral health care using high level magnification. Offered: AWSpS.

[View course details in MyPlan: RES D 653](#)

RES D 654 Advanced Esthetics - Selective (2)

Active learning course for senior dental students led by faculty from the Department of Restorative Dentistry. Covers advanced treatment planning incorporating esthetic facial and smile analysis, materials sciences, ceramic, porcelain, and composite restorations, implant dentistry in the esthetic zone, and communication with dental laboratories. Offered: AWSpS.

[View course details in MyPlan: RES D 654](#)

RES D 655 Peer Mentor Restorative Dentistry - Selective (1, max. 12)

Senior dental students participate as Peer Mentors for 1st and 2nd year dental students in various per-clinical Restorative Dentistry courses. This experience builds upon, enhances and refines the students in Peer Mentoring. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: RES D 655](#)

RES D 660 Oral Rehabilitation ([1-6]-, max. 32)

Clinical course to provide experience in diagnosis and treatment of patients requiring restorative procedures from single restorations to complex oral rehabilitative methods. Special emphasis is directed toward the integration of periodontics and occlusion as they relate to restorative dentistry. Offered: AWSpS.

[View course details in MyPlan: RES D 660](#)

RES D 663 Advanced Operative Dentistry through Conservative Cast Gold - Selective (1)

This course builds upon, enhances and refines the students Operative Dentistry skill sets via the design, preparation and seating of indirect, conservative cast gold restorations. Credit/no-credit only. Offered: AW.

[View course details in MyPlan: RES D 663](#)

RES D 672 Direct Gold Restorations - Selective (2)

Lectures cover historical information and the technical requirements for commonly used direct gold restorations. Emphasis on the special requirements in cavity detail and insertion methods for successful accomplishment of direct gold restorations. Students will gain experience in the Class 1, Class 5, and Class 6 restorations. Additionally, didactic information will be presented in the Class 6, Class 2, and Class 3 restorations. Credit/no-credit only. Offered: W.

College Overview

Dean

Mia Tuan
222 Miller

Associate Deans

Carol David
Elham Kazemi
Deborah E. McCutchen
Joy Williamson-Lott

The College of Education is primarily a graduate and professional school dedicated to equity and excellence in education through the preparation and on-going renewal of education professionals, the promotion of social justice, the advancement of knowledge through research, and the connection of research to inform policy and improve practice. In its graduate programs the College has four broad curricular areas: Curriculum and Instruction, Educational Leadership and Policy Studies, Educational Psychology, and Special Education. Graduate degrees conferred include the MIT, MEd, EdS, EdD, and PhD. Certification can be earned in teaching (elementary, secondary, and special education), school administration (principals, program administrators, and superintendents), and school psychology.

In addition, the College offers a BA with a major in early childhood and family studies, in both the traditional classroom format and through an online degree completion program. In collaboration with the College of Arts and Sciences, the College also offers an undergraduate minor in education, learning, and society.

The College of Education at the University of Washington believes that an effective public education system for a diverse citizenry is the cornerstone of a democratic society. To that end, the College dedicates its resources to helping make an excellent education an everyday reality for every student in every community across the state and country. As part of a major university located in a metropolitan area, the College is able to work in collaboration with a number of school districts in the area to provide teaching, research, and field experiences for its students.

Special Offices and Services

The College of Education maintains a number of specialized offices to assist in the fulfillment of its goals. Among these are the Office of Teacher Education, the Office of Student Services, the Office of Minority Recruitment and Retention, and a Writing Support Center. In addition, the College of Education maintains formal relationships with a number of school districts in the area to provide research and field experience opportunities for

Undergraduate Program

Adviser

206 Miller Hall
(206) 221-3527
ecfsinfo@uw.edu

The College of Education offers the following programs of study:

- Bachelor of Arts degree with a major in early childhood and family studies
- A minor in education, learning, and society (with the College of Arts & Sciences)

Bachelor of Arts

The Bachelor of Arts in early childhood and family studies is a challenging, inspiring academic path. ECFS majors study early childhood development, early learning, and family studies from a variety of perspectives across a range of disciplines. Students participate in fieldwork and/or research throughout their junior and senior years. Alumni pursue careers in social services/mental health, education, childcare, or research. They may also pursue graduate studies in education, speech and hearing sciences, physical therapy, occupational therapy, nursing, psychology, nutrition, and social work.

Department Admission Requirements

1. Satisfactory progress toward completion of general education requirements
2. Admission is competitive, based on the following criteria. Completion of requirements does not guarantee admission.
 - a. Two-to-three page personal statement reflecting an interest in the early childhood and family studies major and a commitment to learning about the field
 - b. Overall academic performance reflected in copies of unofficial transcripts
 - c. Other evidence of interest in and commitment to the field (e.g., work experience, volunteer experience, or internships)
 - d. Grades in any completed recommended courses and courses applied to major requirements
3. Applications are due October 15 for winter quarter start and April 15 for autumn quarter start. For current UW students, notification is sent two weeks later; for transfer students, notification is sent after applicants are admitted to the UW. Applications may be considered after the dates above on a case-by-case basis, depending on program capacity.

Students accepted into the major typically have a minimum cumulative 2.50 GPA and a minimum grade of 2.0 for any prior college coursework that can be applied toward the major.

Information Sessions: Prospective students are encouraged to attend an ECFS information session to learn more about the major and how to apply. For a schedule of information sessions, visit the early childhood and family studies website at education.washington.edu/degrees/undergrad/ecfs/FAQ.html.

For further information on requirements/procedures, see education.washington.edu/degrees/undergrad/ecfs/, or inquire at 210 Miller.

General Education Requirements

See College of Arts and Sciences requirements. A maximum 15 credits in ECFS-prefix courses from the University Areas of Knowledge list may be counted toward the UW Areas of Knowledge requirements.

Major Requirements

80-87 credits, to include the following:

1. *Early Childhood and Family Studies Core Courses (50 credits):* ECFS 200, ECFS 302, ECFS 303, ECFS 311, ECFS 401, ECFS 402, ECFS 419, ECFS 456, EDPSY 302, EDPSY 406, EDSPE 404, and either EDUC 305 or EDUC 310
2. *Area of Study (30-47 credits):* one of the areas of study below
 - a. Minimum 30 credits to include courses from teaching & learning, young exceptional children, cross cultural/multicultural education, human development & learning sciences, family & community engagement/policy, and child & family health. See website for approved list of electives.
 - b. Option in teaching and learning
 - i. ECFS 301, ECFS 312, ECFS 321, ECFS 400, ECFS 410, ECFS 411, ECFS 454, ECFS 455 (32 credits)
 - ii. At least one from the following: ECFS 412, ECFS 480, or EDUC 170 (3-5 credits)
3. Minimum 2.00 cumulative GPA in courses used to satisfy program requirements
4. Minimum 40 credits of coursework applied to the major taken through the UW

Bachelor of Arts (Online Option)

Department Admission Requirements

1. Satisfactory progress toward completion of general education requirements
2. Admission is competitive, based on the following criteria. Completion of requirements does not guarantee admission.
 - a. Two-to-three page personal statement reflecting an interest in the early childhood and family studies major and a commitment to learning about the field
 - b. Overall academic performance reflected in copies of unofficial transcripts
 - c. Other evidence of interest in and commitment to the field (e.g., work experience, volunteer experience, or internships)
 - d. Grades in any completed recommended courses and courses applied to major requirements
 - e. Completion of at least 70 transferable credits

3. Application deadlines are posted on the website. Applications may be considered after the deadline on a case-by-case basis, depending on program capacity.
4. This is a limited admission program. Students admitted to the ECFS online program are not allowed to transfer to another onsite or online major/degree program or complete a minor without reapplying to the UW through the normal admission review process.

Students accepted into the major typically have a minimum cumulative 2.50 GPA and a minimum grade of 2.0 for any prior college coursework that can be applied toward the major.

Information Sessions: Prospective students are encouraged to attend an ECFS information session to learn more about the major and how to apply. For a schedule of information sessions, visit the Early Childhood and Family Studies website at <http://www.onlinedegreecompletion.uw.edu/events/>.

For further information on requirements/procedures, see <http://education.uw.edu/programs/undergraduate/online-degree-completion-program/ecfs>, or inquire at 206 Miller.

General Education Requirements

See College of Arts and Sciences requirements. A maximum of 15 credits in ECFS-prefix courses from the University Areas of Knowledge list may be counted toward the UW Areas of Knowledge requirements.

Major Requirements

80-87 credits, to include the following:

1. *Early Childhood and Family Studies Core Courses (50 credits):* ECFS 200, ECFS 302, ECFS 303, ECFS 311, ECFS 401, ECFS 402, ECFS 456, EDPSY 302, EDPSY 406, EDSPE 404, EDSPE 419, and either EDUC 305 or EDUC 310
2. *Area of Study (30-47 credits):* one of the areas of study below
 - a. Minimum 30 credits to include courses from teaching & learning, young exceptional children, cross cultural/multicultural education, human development & learning sciences, family & community engagement/policy, and child & family health. See website for approved list of electives.
 - b. Option in teaching and learning
 - i. ECFS 301, ECFS 312, ECFS 321, ECFS 400, ECFS 410, ECFS 411, ECFS 454, ECFS 455 (32 credits)
 - ii. At least one from the following: ECFS 412, ECFS 480, or EDUC 170 (3-5 credits)
3. Minimum 2.00 cumulative GPA in courses used to satisfy program requirements
4. Minimum 64 credits of coursework applied to the major taken through the UW Seattle campus

Student Outcomes and Opportunities

- *Learning Objectives:* The early childhood and family studies major immerses students in the study of child and family development and education. Students learn

about child development, early learning, and family studies from a variety of perspectives. They receive a strong grounding in reading and understanding the theory and evidence that provide the foundation for the field and drive current research and policy efforts.

- *Expected Outcomes:* Students apply their knowledge and skill as they work alongside community-based teachers, community leaders, and care providers. The degree provides excellent preparation for a wide variety of careers in early learning, childcare, parent and family support and education, child and community advocacy and organization, and social/mental health services. It also serves as a pathway for graduate studies in education, child and family studies, educational policy, special education, and other areas. This interdisciplinary major is offered at the sophomore, junior, and senior level.
- *Service Learning and Research:* Two sequences of field-based experiences provide students with real life-learning opportunities in community-based early childhood or family support/education settings. Students participate in both an introductory seminar experience as well as a sequenced field experience during their first year in service learning. During the second phase, students participate in a three-quarter senior service learning, research, and senior project that provides advanced opportunities to integrate theory and practice in community-based early childhood or family support programs, and/or research settings. The seminar ties together research and practice, demonstrating how research informs evidence-based decision-making in programs and services. Students also receive guidance in career options and current events in the field, tying in major experiences with their own developmental and career goals. Learning objectives are outlined in class.
- *Honors Options Available:* With College Honors (Completion of Honors Core Curriculum and Departmental Honors); With Honors (Completion of Departmental Honors requirements in the major). See adviser for requirements.
- *Department Scholarships:* See [departmental website](#) for undergraduate scholarship information.
- *Student Organizations/Associations:* Associated Students of the College of Education (ASCE) and International Educators of the College of Education (IECE).

Graduate Degree Programs

Graduate Program Coordinator
206 Miller, Box 353600
(206) 543-7834
edinfo@uw.edu

The College of Education currently offers five advanced degrees: Master in Teaching (MIT), Master of Education (MEd), Educational Specialist (EdS), Doctor of Education (EdD), and Doctor of Philosophy (PhD). The MIT degree is awarded to elementary and secondary certification students at the completion of their program. The EdS degree is awarded to school psychology certification students at the completion of their program. Graduate students working toward other degrees may specialize their degree studies in curriculum and instruction, educational psychology, educational leadership and policy studies, or special education.. Questions regarding graduate study in education should be directed via email to edinfo@uw.edu, or to the [College's website](#)

Master in Teaching

The Master in Teaching (MIT) degree program results in a Washington residency teaching certificate for elementary or secondary (specific subjects) school teaching. The program is an integrated sequence of full-time, daytime coursework and field experiences spanning four quarters. Field experiences are in partner schools in the Seattle/Puget Sound area chosen to provide experience working with children from racially and culturally diverse communities.

Admission Requirements

1. A bachelor's degree from an accredited institution with a minimum 3.00 GPA for the last 90 quarter (60 semester) credits
2. Goal statement
3. 40 or more hours in a classroom that most closely matches the subject and grade level the applicant wishes to teach
4. Two letters of recommendation from faculty or professional references
5. Passing scores from all three subtests of the WEST-B examination. Passing scores on the ACT and/or the SAT may be submitted in lieu of the WEST-B.
6. Official transcripts from all community colleges and universities attended
7. Secondary applicants: complete required content courses in the endorsement subject they wish to teach.
8. Elementary applicants: complete prerequisite courses in child development and math for elementary teachers.
9. Secondary & Elementary applicants: complete one prerequisite course in education of an ethnic group.

Degree Requirements

60-101 credits, to include:

1. Elementary Education Focus

- a. Courses: EDC&I 324; EDC&I 494; EDC&I 586; EDLPS 496; EDSPE 526; EDTEP 501, EDTEP 502, EDTEP 503; EDTEP 505; EDTEP 511; EDTEP 521, EDTEP 522; EDTEP 523; EDTEP 531, EDTEP 532, EDTEP 533; EDTEP 541; EDTEP 542; EDTEP 543; EDTEP 551; EDTEP 552; EDTEP 601; UCONJ 510.
- b. Note: The current Washington state endorsement for elementary teachers is "elementary education." Graduates of this program may be hired to teach specific or multiple subjects in middle or junior high school through grade 8. Those interested in teaching in the middle schools are encouraged to discuss this option with advisers in the Office of Student Services.

2. **Elementary Special Education Focus:** EDC&I 324; EDC&I 494; EDC&I 586; EDLPS 496; EDSPE 404; EDSPE 414; EDSPE 496; EDSPE 496; EDSPE 500; EDSPE 513; EDSPE 514; EDSPE 526; EDSPE 545; EDSPE 601; EDTEP 501, EDTEP 502, EDTEP 503; EDTEP 505; EDTEP 511; EDTEP 521, EDTEP 522; EDTEP 523; EDTEP 531, EDTEP 532, EDTEP 533; EDTEP 541; EDTEP 542; EDTEP 543; EDTEP 551; EDTEP 552; EDTEP 601; UCONJ 510.

3. **Secondary Education Focus:** EDC&I 494; EDC&I 586; EDTEP 551; EDTEP 561; EDTEP 562, EDTEP 563; EDTEP 564; EDTEP 565; EDTEP 571; EDTEP 573; either EDTEP 580, EDTEP 582, EDTEP 584, EDTEP 586, or EDTEP 588; either EDTEP 581, EDTEP 583, EDTEP 585, EDTEP 587, EDTEP 589; EDTEP 591; EDTEP 592; EDTEP 593; EDTEP 595; EDTEP 601; elective outside education

Master of Education

The Master of Education (MEd) degree requires a minimum of 45 credits, including at least 15 credits in a specialized area of study in education; 9 credits related to, but outside the area of specialization, some coursework outside education; 9 thesis credits or, for the non-thesis option, 9 credits in a field study or other approved project; and a final examination.

Admission Requirements

1. A baccalaureate degree from an accredited institution
2. Minimum 3.00 GPA for the last 90 graded quarter credits (or 60 semester credits)
3. Transcripts from each college or university attended
4. Graduate Record Exam (GRE) scores
5. Personal goal statement
6. At least two letters of recommendation
7. Prerequisites stipulated by the area of specialization within the College

Degree Requirements, Curriculum and Instruction Programs

45 credits, to include:

1. Common Area Requirements

- a. *Foundations of education (9 credits):* Students gain an understanding of the complex issues that influence teaching and learning. Students work with advisers to select from courses such as: history of education, education as a moral endeavor, human learning, curriculum design, special topics in curriculum and instruction.
- b. *Thesis, non-thesis, or project option (9 credits):* The non-thesis option may be satisfied by a 9-credit culminating project or 9 credits at the 500 level or above related to the student's teaching and research interests.
- c. *Colloquium presentation:* At the end of the program, students present their work at the curriculum and instruction colloquium. Students prepare a visual representation of their work (usually a poster). During the colloquium, students talk to faculty and students about and answer questions about their thesis, project, or other work conducted during the program. In addition, students attend one other colloquium prior to presenting.

2. Language, Literacy, and Culture Study Option

- a. *Core studies (9 credits):* Selected from the following: EDC&I 453, EDC&I 455, EDC&I 460, EDC&I 462
- b. *Assessment and inquiry (3 credits):* In consultation with adviser, select one course that focuses on issues of assessment and inquiry

- c. *Concentrations (15 credits)*: Literacy specialists, in consultation with advisers, select a minimum of three courses in the literacy strand and a minimum of one course in each of the other strands. ESL specialists, in consultation with advisers, select a minimum of three courses in ESL and a minimum of one course in each of the other strands.

3. Mathematics Education Study Option

- a. At least 27 credits in mathematics and mathematics education. Courses, selected in consultation with the student's adviser, must be appropriate for future career goals. Of the 27 credits, 9 credits chosen from mathematics education courses (below).
- b. *Mathematics education courses*: EDC&I 478, EDC&I 479; EDC&I 575, EDC&I 576, EDC&I 577

4. Multicultural Education Study Option

- a. *Ethnic diversity outside the College of Education (15 credits)*: Selected in ethnic diversity subject matter fields outside of the College of Education. Courses can be taken from those offered by various departments in the College of Arts and Sciences. All course choices are negotiated with advisers.
- b. *Multicultural education (15 credits)*: EDC&I 424, EDC&I 569; remainder to be chosen from the following: EDC&I 464; EDC&I 469; EDC&I 474; EDPSY 536; EDLPS 566; EDC&I 573; EDC&I 574

5. **Science Education Study Option**: At least 21 credits, approved by the faculty supervisor, in fields such as, biology, chemistry, physics, earth science, oceanography, or other science-related courses

6. **Social Studies Education Study Option**: 12-15 credits of core social studies courses, negotiated with adviser. 15-21 credits of history/social science courses related to teaching interests, or additional educational courses

7. **Teaching and Curriculum Study Option**: 27 credits, including 9-18 credits of required study in teaching and curriculum, to be chosen in consultation with adviser

Degree Requirements, Educational Psychology Programs

Minimum 45 credits, to include:

1. General Requirements

- a. Minimum 45 quarter credits, exclusive of prerequisites and specific requirements listed for each study option
- b. Written or oral examination upon completion of coursework
- c. *Research*: two options available, thesis, or non-thesis. Thesis option requires design and accomplishment of an empirical study. Non-thesis option requires preparation of a scholarly paper of publishable quality (9 credits minimum).

2. **Foundations of education courses (12 credits)**: either EDLPS 521, EDLPS 540, or EDPSY 580; either EDPSY 501 or EDPSY 510; EDPSY 490; EDPSY 591

3. **Measurement, Statistics, and Research Design Study Option (50 minimum total credits)**

- a. *Required courses*: One or more from each of the following content fields with options to consist of courses listed below or alternative courses (including courses outside education) approved by the faculty adviser

- i. *Measurement and evaluation*: EDPSY 495, EDPSY 512, EDPSY 584, EDPSY 592, EDPSY 595, EDPSY 596, EDPSY 597
- ii. *Human development*: EDPSY 502, EDPSY 531, EDPSY 532, EDPSY 582
- iii. *Cognition and learning*: EDPSY 510, EDPSY 524, EDPSY 525, EDPSY 583, PSYCH 414
- iv. *Language processes*: EDPSY 520, EDPSY 521
- b. *Research (9 credits)*:
 - i. **Thesis option**: Report of a research investigation that requires the student to design and execute an empirical study.
 - ii. **Non-thesis option**: Preparation of a scholarly review of the research literature; should be of publishable quality.

4. Learning Sciences and Human Development Option (45 minimum total credits)

- a. *Required courses (17 credit hours)*: One or more from each of the following areas to consist of the courses listed below:
 - i. *Required Foundations (11 credit hours)*: EDPSY 501; EDPSY 581; EDPSY 502 or EDPSY 503; EDLPS 540, EDLPS 530, or EDLPS 521
 - ii. *Required Research Methods (6 credit hours)*: EDPSY 490; EDPSY 591; other recommended courses include EDPSY 491, EDPSY 495, EDLPS 588, and EDC&I 581.
- b. *Strands or Specializations (17 credit hours)*: minimum one course in at least two different strands. Courses determined in conjunction with faculty adviser. Sample courses from each strand are available on College website.
 - i. *Learning Within and Across Disciplines - Literacy*
 - ii. *Learning Within and Across Disciplines - STEM*
 - iii. *Human Development, Families, and Communities*
 - iv. *Contexts, Culture, and Equity*
- c. *Research (9 credits)*:
 - i. **Thesis option**: Report of a research investigation that requires student to design and execute an empirical study.
 - ii. **Non-thesis option**: Preparation of a scholarly paper of publishable quality.

Degree Requirements, Education Leadership and Policy Studies Programs

48 credits, as follows:

- 1. **Common Area and Distribution Requirements (18 credits minimum)**: Minimum 18 credits of coursework in EDLPS. Of these, 12 credits are distributed as follows:
 - a. Social and cultural foundations, 6 credits minimum
 - b. Organizations and policy, 6 credits
- 2. **Specialization Requirement (9 credits minimum)**: In conjunction with the adviser, students develop an area of specialization.

3. Breadth Requirement (6 credits minimum):

- a. At least 3 credits in one or more other areas in the College of Education (EDC&I, EDPSY and/or EDSPE)
- b. At least 3 credits outside the College of Education

4. Research/Inquiry Requirement (6 credits minimum):

- a. At least 3 credits in basic statistics (EDPSY 490 or the equivalent)
- b. At least 3 credits in research/inquiry methods (e.g., EDPSY 588, EDPSY 591, EDLPS 524, EDLPS 535, EDLPS 543, EDLPS 568, or the equivalent)

5. Completion of Thesis or Non-Thesis Option (9 credits minimum)**6. Specific courses determined in consultation with adviser*****Degree Requirements, Special Education***

48 credits, as follows:

- 1. Foundations of Education (6 credits):** Minimum 6 credits of courses in or out of the College of Education, or equivalent as determined in consultation with the adviser
- 2. Special Education Major Field (21 credits):** Specific sequence of courses determined by adviser, depending on student's background, educational goals, and type of disabled individual the student wishes to teach
- 3. Assessment and Research Methodology (9 credits):** Courses selected in consultation with adviser, to develop competency in assessment of learners with disabilities and familiarity with research tools
- 4. Special Assignments in Special Education (12 credits minimum):** Divided among at least two of the following options: EDSPE 500 (1-6, max. 6), EDSPE 600, EDSPE 601 (3-9, max. 9), EDSPE 700 (max. 9). Students entering an EdD or PhD program should select a thesis option.

Education Specialist

The Educational Specialist (EdS) degree is an intermediate degree that is more advanced than a master's degree but yet does not constitute doctoral-level study. It is generally taken up by those who intend to pursue advanced practice in a specialized field of education, such as school administration or curriculum design. In the UW College of Education, only students studying school psychology can pursue the Educational Specialist degree. The school psychology program prepares students to work with the social emotional needs of children and adolescents. School psychologists frequently work in school settings providing assessment, intervention, and consultation services to students, teachers, or parents. The three-year full-time program is comprised of two years of coursework and practicum and a third year 1200-hour internship. The program is approved by National Association of School Psychologists (NASP) and also meets the requirements for initial certification (Educational Staff Associate) as a school psychologist in the state of Washington.

Admission Requirements

- 1. Personal goal statement;

2. Three recent letters of recommendation from professors or first-line supervisors
3. Bachelor's degree from an accredited institution
4. Transcripts from each college or university attended.
5. Graduate Record Examination (GRE) scores
6. Minimum 3.50 GPA for the most recent 90 graded quarter credits (or 60 semester credits)
7. Employment or volunteer experience in pre-K - 12 schools
8. Interview

Degree Requirements

1. Statistics and Research (6 credits): EDPSY 490, EDPSY 591
2. Cognition and Learning (3 credits minimum): EDPSY 501; EDPSY 502
3. Social and Developmental Bases of Behavior (6 credits minimum): EDPSY 531, EDPSY 581
4. Exceptionality (6 credits minimum): EDSPE 525; one additional EDSPE course in exceptionality, e.g. EDSPE 504 or EDSPE 526
5. Biologic Bases of Behavior (5 credits): EDPSY 577
6. Specialization Seminars (2 credits minimum): EDPSY 570
7. Individual Differences (8 credits minimum): EDPSY 548, EDPSY 552, EDPSY 553
8. Ethics and School Law (3 credits): EDPSY 568
9. Assessment (23 credits minimum): EDPSY 507, EDPSY 564, EDPSY 540, EDPSY 572, EDPSY 573
10. Intervention (13 credits minimum): EDPSY 544, EDPSY 546, PSYCH 543
11. Courses with Practicum Requirements (2 credits minimum): EDPSY 500
12. Consultation (5 credits minimum): EDPSY 551
13. Internship (30 credits minimum): EDPSY 601
14. Case Study Seminar (6 credits minimum): EDUC 750

The school psychology EdS degree is awarded upon successful completion of the above course requirements, a 1200-hour internship, and a portfolio examination of applied and clinical work.

Certification: The Washington State approved internship program at the University of Washington is open only to third-year students in the EdS program. Washington State Certification is awarded by successfully passing the Praxis Examination and by successfully completing a 9-month internship of 1200 hours or more (half of which must be in a school setting) and 6 credit hours of university case study supervision and 30 hours of internship credit. Students who successfully complete the internship may also apply for National Certification as a school psychologist.

Doctor of Education

Designed to prepare professionals whose primary interest is to deal directly with problems of educational practice. The program of study leading to the EdD, as a professional degree, focuses on the utilization of research and practitioners' knowledge, rather than on the production of research knowledge.

This professional degree requires a program of specialized study with credit in education and related fields, sufficient preparation in research methodology to interpret research findings for use in practice, an internship and leadership training, a general examination, a dissertation on a problem of educational practice, and a final examination.

Admission Requirements

1. Graduate Record Exam (GRE) scores
2. Master's degree or equivalent from an accredited institution
3. Minimum 3.00 GPA for the most recent 90 (60 semester) credits
4. Transcripts (sealed) from each college or university attended.
5. Goal statement
6. Three letters of recommendation
7. Resume/curriculum vita
8. Writing sample(s)
9. Interviews
10. Specific programs may have additional admission requirements. Visit the website or contact the program for further information.

Degree Requirements

102 credits, as follows:

1. **Educational Specialization (24 credits):**
 - a. Courses in one specialty within the area of specialization designed to provide student with knowledge of the field: 9 credits
 - b. Courses in the general area or in the student's special interests within the area of specialization other than those selected to fulfill the 9 credits above: 15 credits
2. **Related Field(s) (24 credits):** Courses selected from within education (minimum of 12 credits) or outside of education which complement the student's educational specialization and include multidisciplinary learning experiences
3. **Research/Evaluation Preparation (9 credits):** Courses selected to enhance a student's ability to conduct field-based research/evaluation studies
4. **Leadership Training (9 credits):** EDLPS 520, EDLPS 550, EDLPS 560
5. **Supervised Internships and Field Experiences (9 credits):** Internships and field experiences are designed to work in education and the related field(s), and to conduct field-based research and evaluation studies.
6. **Dissertation (27 credits)**

NOTE: The Doctor of Education degree offered through the leadership for learning program is considered a practice doctorate. A dissertation is not required for this program; 12 credit hours of capstone experience are required instead. A corresponding increase in other areas (educational specialization, research preparation, etc.) is required in order to meet the 102-credit-hour requirement for the Doctor of Education.

Doctor of Philosophy

A degree offering preparation for a research career on issues fundamental to education - issues that range from fairly narrow questions about human learning to macro-questions regarding the form of societies' educational institutions. The scope is broad. The degree may be organized around traditional study areas such as educational psychology, curriculum and instruction, special education, or educational leadership and policy. A student may develop a course of study that integrates various elements of more than one study area (e.g., multiethnic education and literacy). One study option is school psychology, which prepares students for the professional practice of psychology with school-age children, as well as for research.

Admission Requirements

1. Graduate Record Exam (GRE) scores
2. Master's degree or equivalent from an accredited institution
3. Minimum GPA of 3.00 for the most recent 90 (60 semester) credits
4. Transcripts (sealed) from each college or university attended.
5. Goal statement
6. Three letters of recommendation
7. Resume/curriculum vita
8. Writing sample(s)
9. Interviews

Degree Requirements

Minimum 90 credits, to include:

Six academic areas and the dissertation. The PhD is specialized and highly individualized. Although the department prescribes a limited number of required courses, it does require that students demonstrate in-depth knowledge of education and selected related fields. For most students, this means study in a broad area, a specialization within that area, two cognates, and a specialization outside the department.

Degree requirements include a program of specialized study with credits both in education and in other academic units, preparation in research methodology adequate to design and assess research in the field of specialization, sufficient study in cognate fields inside and outside education to ensure that the candidate can place the specialized research in a broader context, a general examination, a research dissertation, and a final examination.

Accreditation

Within the College of Education, a number of degree programs have formal accreditation. The school psychology EdS program is accredited by the American Psychological Association (APA) and approved by the National Association of School Psychologists (NASP). The school psychology MEd program is also accredited by NASP and the Washington State Board of Education for initial residency and continuing/professional teaching certificates and initial/residency certification. Graduates qualify for certification in all states party to the Interstate Certification Compact.

Financial Aid

The College of Education offers a limited number of awards with varying stipends for graduate students in education. Primary consideration is given to doctoral students with a background of successful teaching or administrative experience. Specific information on the various types of remunerative appointments for graduate students in education, amounts of stipends, and application procedures may be obtained via the College's website at education.uw.edu/admissions/funding-and-financial-aid.

Professional Programs

Professional Certification

The College of Education is authorized by the State Board of Education to offer professional certificate programs in education for administrators, educational staff associates, and teachers. Program-design specialists are available to help with pre-program counseling, long-range planning, applications, registration, referrals to other campus resources, general program advising, and continuing/professional certificate requirements.

Administrator Certificates

Administrator certificate preparation programs for superintendents, principals, and program administrators are offered through the College of Education. The following websites contain specific information about admissions, curriculum, faculty, and general advising:

For principals and program administrators, the Danforth Educational Leadership program, education.uw.edu/programs/leadership/danforth.

For superintendents, the Leadership for Learning program, education.uw.edu/14/.

Educational Staff Associate Certificates

Educational staff associate certificate preparation programs are offered for the school psychologist. Information concerning requirements and admission may be obtained from the Office of Student Services, 206 Miller Hall, edinfo@uw.edu.

The College of Education is authorized by the State Board of Education to prepare and recommend individuals for Residency Teaching Certificates. Title II of the Higher Education Act requires institutions of higher education and states that approve such programs to develop and publish an annual report on their teacher preparation programs.

The College of Education publishes an annual Higher Education Opportunity Act report based on Title II data. That report may be viewed on the College's website: education.uw.edu/my-coe/oir/heoa. The full Title II report may be requested via email from coeir@uw.edu.

Residency Teaching Certification Program

The College of Education offers residency teaching certification for individuals desiring careers as elementary or middle/secondary school teachers, or as special education teachers working with students with moderate and severe disabilities or emotional and behavioral disorders, and with infants, toddlers, and preschool children with disabilities. All programs are offered at the master's level. For additional information, e-mail edinfo@uw.edu, or visit the College's website at education.uw.edu/programs/teacher.

An undergraduate or postbaccalaureate program leading to certification in music education, grades K-12, is offered through the School of Music. For additional information contact the School of Music Advising Office, 116 Music, Box 353450, University of Washington, Seattle, WA 98195-3450.

Professional Teaching Certificates

For information on the Professional Certificate Assessment (ProTeach), visit the Office of the Superintendent of Public Instruction (OSPI): www.k12.wa.us/certification/Teacher/Residency3.aspx#Professional.

Endorsements on Teaching Certificates

Teachers holding an initial/residency or continuing/professional teaching certificate may add endorsements to their certificates which qualify them to teach additional subjects. Information on endorsement requirements is available on the web at education.uw.edu/programs/teacher/endorsements, or contact the Office of Student Services, 206 Miller Hall, or via e-mail at edinfo@uw.edu.

Special Research and Service Facilities

Within the College of Education, opportunities exist for students to gain research and service experience through one of the many research centers affiliated with the College. Below is a partial list of those centers; students should visit education.uw.edu/faculty-and-research/centers for a current and complete list.

The Center for Multicultural Education focuses on research projects and activities designed to improve practices related to equity issues, intergroup relations, and the achievement of students of color. Visit the center's website at education.uw.edu/cme/.

The Clinical Training Laboratory, operating under the aegis of Educational Psychology, offers observation rooms equipped with video recorders where counseling and psychology trainees and clients can be observed and taped through one-way mirrors.

The renowned **Experimental Education Unit (EEU)** offers an interdisciplinary approach to research, training, and service, providing integrated classes for 150-200 young children, toddlers, and infants with disabilities and their typically developing peers, and services for

their families. Learn more about the EEU by visiting education.uw.edu/faculty-and-research/centers/haring.

The National Center for the Study of Teaching and Policy, a consortium of five universities headed by the University of Washington, conducts a wide range of studies aimed at local, state, and national policy strategies to promote teacher excellence. For more information, visit the center's website at depts.washington.edu/ctpmail, or e-mail ctpmail@uw.edu.

The Learning Informal and Formal Environments (LIFE) Center is a collaborative effort among three primary partners — the University of Washington, Stanford University, and Stanford Research Institute — as well as other institutions across the country. The overall purpose of the LIFE Center is to understand and advance human learning through a simultaneous focus on implicit, informal, and formal learning, thus cultivating generalizable interdisciplinary theories that guide the design of effective new technologies and learning environments. For more information visit education.uw.edu/research/center/life.

COLLEGE OF EDUCATION

COLLEGE OF EDUCATION

EDUCATION

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

EDUC 170 Mathematics for Elementary School Teachers (5) NW

Covers basic concepts of numbers and operations. Emphasizes problem solving, communication of mathematical ideas, and analysis of sources of difficulty in learning/teaching these concepts. Offered: WSp.

[View course details in MyPlan: EDUC 170](#)

EDUC 171 Math for Upper Elementary and Middle Grades Teachers (5)

Covers concepts of numbers and operations, measurement, geometry, and statistics and probability typically taught in the upper elementary and middle grades. Emphasizes problem solving, modeling, communication of mathematical ideas, and analysis of sources of difficulty in learning these concepts.

[View course details in MyPlan: EDUC 171](#)

EDUC 200 Special Topics in Education, Learning, and Society (3-5, max. 15) I&S C. DAVIS, J. WILLIAMSON-LOTT

Critical examination of current research and practice in education, learning, and society. Offered: AWSpS.

[View course details in MyPlan: EDUC 200](#)

EDUC 205 Selected Readings - An Introduction to Education in the United States (3-5, max. 15) I&S C. DAVIS, J. WILLIAMSON-LOTT

Introduction to the United States education system, including the theoretical concepts of learning and historical framework that guide practice, policy, and teacher preparation. Explores issues and questions pertaining to United States schools through directed readings, dialogue, individual projects, and group projects. Offered: AWSpS.

[View course details in MyPlan: EDUC 205](#)

EDUC 210 Current Issues in Education (5, max. 15) I&S

Covers a current issue and provides the opportunity to read and discuss educational issues with other students and faculty and to learn of opportunities in the College of Education programs. Issues vary by term and faculty. Offered: AWSpS.

[View course details in MyPlan: EDUC 210](#)

EDUC 221 Education and the Playfield (3) I&S

Examines the intersection of education and sport from early childhood to college experiences. Explores educational themes related to physical development, sport's influence on individual and community development, access to physical activities, equity and inclusion within the sports environment, and the role of sports in social change.

[View course details in MyPlan: EDUC 221](#)

EDUC 231 Developing Youth through Sport and Physical Activity (5)

Exploration of the influence of sport and physical activity to positively impact the lives of young people. The concept of 'Sports-Based Youth Development' will be introduced and how educators and leaders can proactively utilize athletics and activities to effectively build social-emotional and bio-physical skills in participants.

[View course details in MyPlan: EDUC 231](#)

EDUC 251 Seeking Educational Equity and Diversity (5) I&S, DIV J. CHEN

Introduces the need for and challenges in establishing educational equity and diversity. Discussions explore theories, historical trends, and ongoing debates. Readings draw from academic and popular sources, and class sessions include use of multimedia resources and experiential activities. Offered: S.

[View course details in MyPlan: EDUC 251](#)

EDUC 260 The Dream Project: Introduction to Mentoring Strategies (1, max. 8) I&S Taylor, Twitchell

Introduces mentoring strategies and topics related to social mobility and educational access. Supports students' mentorship of high school students on college readiness and access to higher education. Corequisite: EDUC 369. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: EDUC 260](#)

EDUC 280 Introduction to Education, Communities, and Organizations: Re-envisioning Education (2)

Introduction to the disciplinary fields that constitute the Education, Communities, and Organizations (ECO) major: Human development, learning theory, equity studies, organizational studies, and community engagement. Provides an overview of the ECO major, including core courses, learning objectives, faculty, and community partners. Offered: AWSpS.

[View course details in MyPlan: EDUC 280](#)

EDUC 299 Education, Learning, and Society Colloquium (1)

Provides a common learning experience where students learn from researchers and practicing educators about current pedagogical projects and theories. Fosters self-reflexive projects to build understanding of learning pathways. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: EDUC 299](#)

EDUC 300 Special Topics in Education, Learning, and Society (1-5, max. 20)

Critical examination of current research and practice in education, learning, and society.

[View course details in MyPlan: EDUC 300](#)

EDUC 301 Introductory Practice in Community Service Activity (1-10, max. 10)

Observation and participation in a variety of activities in a K-12 classroom. Placement made according to participant interests and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions are required. Offered: AWSp.

[View course details in MyPlan: EDUC 301](#)

EDUC 305 The Purpose of Public Schools in a Democracy (5) I&S

Explores issues and questions pertaining to public schools in a democratic society through directed readings, dialogue, individual and group projects designed to engage students with a series of crucial issues in public schools. Offered: AWSp.

[View course details in MyPlan: EDUC 305](#)

EDUC 310 Current Issues in Education (5, max. 20) I&S

Covers a current issue and provides the opportunity to read and discuss educational issues with other students and faculty and to learn of opportunities in the College of Education programs. Offered: AWSp.

[View course details in MyPlan: EDUC 310](#)

EDUC 315 Issues and Trends of Educational Theory, Research, and Practice (3-5, max. 15) I&S C. DAVIS, J. WILLIAMSON-LOTT

Examines issues and trends in the past and present that have influenced or may have the potential to influence the field of education. Research, discussion, and reading assignments enable students to analyze and understand topics such as charter schools, accountability, privatization, national standards, and other topics. Offered: AWSpS.

[View course details in MyPlan: EDUC 315](#)

EDUC 351 Wellness and Education Achievement in Men of Color (5) I&S, DIV J. LOTT

Provides an overview of various factors that shape the lives of men of color along the educational pipeline. Includes discussions on the tensions, contradictions, and possibilities. Offered: AWSp.

[View course details in MyPlan: EDUC 351](#)

EDUC 360 The Dream Project: Mentoring and Education Policy (1, max. 8) I&S

Discusses policy approaches to social mobility and educational access and supports development of communication and mentoring skills gained in EDUC 260. Supports students' mentorship of high school students on college readiness and access to higher education. Corequisite: EDUC 369. Credit/no-credit only. Offered: AWSp.

[View course details in MyPlan: EDUC 360](#)

EDUC 361 The Dream Project: Special Topics (1, max. 8) I&S Taylor, Twitchell

Provides discussion and exploration of a single topic related to social mobility and access to higher education. Designed for students who have already completed EDUC or EDUC 360 who wish to examine a topic more closely. Corequisite: EDUC 369. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: EDUC 361](#)

EDUC 369 The Dream Project: High School Visits - Field Experience (1, max. 8) Taylor, Twitchell

Involves weekly travel to local high schools, mentoring low-income or first-generation juniors and seniors through the college readiness and admissions process. Corequisite: either EDUC 260, EDUC 360, or EDUC 361. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: EDUC 369](#)

EDUC 370 Learning Within and Across Settings (5)

Examines learning of disciplinary knowledge and practices, with attention to relations between the kinds of learning that happen within and across settings (outside of schools).

[View course details in MyPlan: EDUC 370](#)

EDUC 401 Practicum in Community Service Activity (1-18, max. 20) I&S

Tutoring and teaching experiences in a school or community service organization. Placement made according to participant interests and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions are required. Maximum of 20 credits from EDUC 401, EDUC 411, and EDUC 421 may apply towards graduation. Offered: AWSp.

[View course details in MyPlan: EDUC 401](#)

EDUC 402 Practicum in Classroom Teaching and Management: Primary (1-18, max. 20)

Tutoring and teaching experiences in a primary school setting (grades K-3). Placements made according to participant's interest and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions.

[View course details in MyPlan: EDUC 402](#)

EDUC 403 Practicum in Classroom Teaching and Management: Intermediate (1-18, max. 20) ¹⁴¹¹

Tutoring and teaching experiences in an intermediate school setting (grades 4-8). Placements made according to participant's interest and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions.

[View course details in MyPlan: EDUC 403](#)

EDUC 404 Practicum in Classroom Teaching and Management: Secondary (1-18, max. 20)

Tutoring and teaching experiences in an intermediate school setting (grades 6-12). Placements made according to participant's interest and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions.

[View course details in MyPlan: EDUC 404](#)

EDUC 411 Practicum in Community Service Activity (1-18, max. 20) VLPA

Tutoring and teaching experiences in a school or community service organization. Placement made according to participant interests and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions are required. Maximum of 20 credits from EDUC 401, EDUC 411, and EDUC 421 may apply towards graduation.

[View course details in MyPlan: EDUC 411](#)

EDUC 421 Practicum in Community Service Activity (1-18, max. 20) VLPA/I&S

Tutoring and teaching experiences in a school or community service organization. Placement made according to participant interests and needs. Participation on a predetermined schedule plus scheduled orientation and debriefing sessions are required.

[View course details in MyPlan: EDUC 421](#)

EDUC 472 Individuals, Groups, Organizations, and Institutions (5) I&S

Examination of current research and practice in the field of individual, group, and organizational theory, with special focus on application to educational and community-based organizations.

[View course details in MyPlan: EDUC 472](#)

EDUC 473 Community Based Research and Practice (5)

Focuses on understanding the principles and practices required for effective and equitable community-based research and practices in education. Prerequisite: EDUC 251; EDUC 472.

[View course details in MyPlan: EDUC 473](#)

EDUC 481 Community-Based Capstone I (5)

Prepares students for intensive community-based internship in EDUC 482 through creation of literature review and capstone project proposal. Prerequisite: EDUC 473.

[View course details in MyPlan: EDUC 481](#)

EDUC 482 Community-Based Capstone II (5-12)

Intensive community-based internship experience, including the completion of a substantial product that contribute to the organization's mission and current initiatives. Prerequisite: EDUC 481. Credit/no-credit only.

[View course details in MyPlan: EDUC 482](#)

EDUC 483 Community-Based Capstone III (5)

Culminating seminar to present community-based project, situate community work within course of study and prepare for graduate study and/or job market. Prerequisite: EDUC 482.

[View course details in MyPlan: EDUC 483](#)

EDUC 502 Advanced Practicum in Classroom Teaching and Management (1-18, max. 20)

In-depth classroom practicum experiences to certificated teachers working on additional endorsements. Arrangements must be made prior to enrolling with an adviser in the Teacher Education Office. Offered: AWSpS.

[View course details in MyPlan: EDUC 502](#)

EDUC 700 Master's Thesis (*-)

Prerequisite: permission of faculty adviser and Graduate Program Coordinator. Offered: AWSpS.

[View course details in MyPlan: EDUC 700](#)

EDUC 750 Capstone Experience (2-10, max. 30)

Provides advanced opportunities to integrate theory and practice through a capstone learning and research experience. Prerequisite: permission of faculty adviser and Graduate Program Coordinator. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: EDUC 750](#)

EDUC 800 Doctoral Dissertation (*-)

Prerequisite: permission of Supervisory Committee Chairperson and Graduate Program Coordinator. Offered: AWSpS.

[View course details in MyPlan: EDUC 800](#)

EDUC 801 Practice Doctorate Project/Capstone (*-)

Prerequisite: permission of Supervisory Committee Chairperson and Graduate Program Coordinator. Offered: AWSpS.

CURRICULUM & INSTRUCTION

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

EDC&I 324 Physical Education and Health in the Schools (2)

Techniques and procedures for teaching physical education and health in elementary and secondary schools. For students in Teacher Education Program. Credit/no-credit only.

[View course details in MyPlan: EDC&I 324](#)

EDC&I 351 Teaching as a Profession (5) I&S, DIV Zeichner

Helps students assess the profession of teaching. Explores what becoming a teacher means, assesses the organizational structure of teaching as a career and profession, examines social attitudes about education and the work of teachers, and thinks about teaching as social justice work.

[View course details in MyPlan: EDC&I 351](#)

EDC&I 352 Teaching to Change the World (5) I&S Barajas-Lopez

Examines how value structures and political decisions affect systems of education. Considers particular inequalities based on race, class, and gender. Encourages students to see the course as both an academic exercise, and a vantage point for considering their own past and possible future experiences in education.

[View course details in MyPlan: EDC&I 352](#)

EDC&I 353 Teaching in the Elementary School (3)

Emphasizes selected teaching modes; lesson planning; classroom management procedures; grouping to accommodate pupils with special needs; utilization of learning resources; evaluation of teaching. Attention also given to school culture.

[View course details in MyPlan: EDC&I 353](#)

EDC&I 359 Second-Language Learning in Schools and Communities (5) DIV M. VARGHESE

What are the major theories of how languages are learned? How do people, especially children and adolescents, learn a second or third language? What are the major factors (individual, social, racial, cultural, political) affecting this process? Course explores how answers to these assist teachers and community educators. Offered: W.

[View course details in MyPlan: EDC&I 359](#)

EDC&I 424 Multiethnic Curriculum and Instruction (3) I&S, DIV

Primarily for preservice and in-service teachers who have little or no previous exposure to issues related to ethnicity and schooling. Designed to help teachers better understand the school's role in the ethnic education of students and acquire the insights, understandings, and skills needed to design and implement curricular and instructional strategies that reflect ethnic diversity.

[View course details in MyPlan: EDC&I 424](#)

EDC&I 438 Improvement of Teaching: Latin (5) VLPA

Offered: jointly with LATIN 475.

[View course details in MyPlan: EDC&I 438](#)

EDC&I 453 Teaching the Bilingual-Bicultural Student (3) I&S, DIV

Educational needs of bilingual students: research findings, special programs, materials, and methodologies that bilingual-bicultural education can provide to meet those needs. Cultural combinations of bilingual populations in American culture; historical, social, and linguistic factors affecting their K-12 education.

[View course details in MyPlan: EDC&I 453](#)

EDC&I 458 Content Area ESL Instruction (3)

Exposes students and engages them in how to support their English Language Learners in their content areas through sheltered instruction, specifically through the framework, Sheltered Instruction Observation Protocol (SIOP). Focuses specifically on the academic language needs of these students.

[View course details in MyPlan: EDC&I 458](#)

EDC&I 459 Workshop in Instructional Improvement: Literacy (1-6, max. 18)

Study of special topics in literacy with a focus on practical, classroom topics, and application.

[View course details in MyPlan: EDC&I 459](#)

EDC&I 460 Early Literacy Instruction (3)

Theory, research, and practice in early literacy acquisition including emergent literacy, phonemic awareness, word identification, comprehension, invented spelling, and writing. Emphasis on classroom instruction strategies for first and second language learners. Offered: A.

[View course details in MyPlan: EDC&I 460](#)

EDC&I 461 Materials for Teaching Reading: Children's and Young Adults' Literature (3)

Designed to provide acquaintance with materials used in the teaching of reading. Trade books and materials from content areas are examined.

[View course details in MyPlan: EDC&I 461](#)

EDC&I 462 Reading Comprehension Instruction in Elementary and Secondary School (3) I&S

Research-based practices for explicit teaching of reading comprehension of both fiction and content-area texts including issues of reading strategies, text difficulty, teacher modeling, guided reading, discussion, assessment, and adaptations for struggling students. Offered: W.

[View course details in MyPlan: EDC&I 462](#)

EDC&I 464 Educating Native-American Youth (3)

Assists students in understanding the North American Indian child from cultural, socioeconomic, and psychological points of view. Provides opportunities for the student to apply knowledge and skills gained in other courses to prepare programs and learning aids relevant to the educational situation of the Indian child.

[View course details in MyPlan: EDC&I 464](#)

EDC&I 465 Social Studies Education: Elementary School Programs and Practices (3)

Stresses curriculum patterns, instructional procedures, resource materials, and the selection of content in social studies. For elementary and middle school teachers and students in Teacher Education Program.

[View course details in MyPlan: EDC&I 465](#)

EDC&I 468 Workshop in Instructional Improvement: Social Studies (1-6, max. 15)

Individual or group study projects on the improvement of instruction in social studies.

[View course details in MyPlan: EDC&I 468](#)

EDC&I 469 Teaching African American Students and Culture (3) I&S

Examination of sociocultural and pedagogical factors that influence African American students' learning styles, opportunities, and outcomes; exploration of ways to reform teaching techniques to better accommodate cultural styles and experiences to improve the educational achievement of African American students. Offered: A.

[View course details in MyPlan: EDC&I 469](#)

EDC&I 471 Science Education: Secondary School Programs and Practices (3)

Survey of the status and potential role of science in education; trends and their implications for the teaching of both biological and physical sciences in the junior and senior high schools; representative curricula and related teaching procedures; the psychology of concept formation and problem solving; and organization of science programs.

[View course details in MyPlan: EDC&I 471](#)

EDC&I 472 Environmental Education for Teachers (3)

Status, selected problems, and role of environmental education in program of elementary, middle, and junior high schools. Opportunity to examine and receive instruction in use of existing environmental education instructional materials. Instruction is in the spirit of inquiry/discovery.

[View course details in MyPlan: EDC&I 472](#)

EDC&I 473 Workshop in Instructional Improvement: Science (1-6, max. 20)

Individual or group study projects on the improvement of instruction in science.

[View course details in MyPlan: EDC&I 473](#)

EDC&I 474 Multi-Ethnic Studies: Methods, Content, and Materials (3) I&S, DIV

Designed to help preservice and in-service teachers identify content and materials and devise methods for implementing ethnic studies programs and for incorporating ethnic content into regular K-12 social studies, language arts, and humanities curricula. Special attention is given to teaching about American Indians, Mexican Americans, African Americans, Asian Americans, Puerto Rican Americans, and white ethnic groups.

[View course details in MyPlan: EDC&I 474](#)

EDC&I 478 Special Topics in Mathematics for Teachers (2-9, max. 9) NW

Study of selected areas of mathematics. Designed for the improvement of teachers of mathematics. Offered: jointly with MATH 497.

[View course details in MyPlan: EDC&I 478](#)

EDC&I 479 Workshop in Instructional Improvement: Mathematics (1-6, max. 20)

Individual or group study projects for the improvement of instruction in mathematics.

[View course details in MyPlan: EDC&I 479](#)

EDC&I 482 Educational Technology in Schooling (3)

Introduction to the application of technologies (computers, telecommunications, interactive video) in schools. Designed primarily for pre- and in-service teachers, but of interest to anyone involved in technology in education.

[View course details in MyPlan: EDC&I 482](#)

EDC&I 485 Workshop in Instructional Improvement: Educational Communication and Technology (2-6, max. 20)

Individual or group study projects on the improvement of instruction through use of educational communication and technology.

[View course details in MyPlan: EDC&I 485](#)

EDC&I 488 Educational Technology and Learning in Alternative Settings (3)

How educational technology can be used to encourage learning in nonschool environments, such as museums, radio and television broadcasts, parks and recreation centers, and distance education programs. Students investigate one of these areas and prepare a project.

[View course details in MyPlan: EDC&I 488](#)

EDC&I 494 Workshop in Improvement of Curriculum (1-6, max. 20)

Stresses the application of procedures for curriculum development, maintenance, and evaluation. Opportunities furnished to develop and perfect strategies for program development with occasions given to utilize the strategies in master plan and materials preparation for simulated or real school situations. Specific focus of workshop is determined by instructor or by arrangement with district.

[View course details in MyPlan: EDC&I 494](#)

EDC&I 495 Workshop in Improvement of Teaching: Selected Topics, Issues, or Problems (1-6, max. 20)

Individual or group projects to help teachers adapt instruction to selected topics, issues, or problems and to identify the approaches and instructional resources that provide the soundest learning experiences.

[View course details in MyPlan: EDC&I 495](#)

EDC&I 496 Workshop in Instructional Improvement (2-6, max. 20)

Individual or group study projects on the improvement of instruction with attention to designing instructional plans.

[View course details in MyPlan: EDC&I 496](#)

EDC&I 499 Undergraduate Research (*)

Students developing studies under this rubric should be advised that a report or a paper setting forth the results of their investigations should be regarded as a basic part of the program.

[View course details in MyPlan: EDC&I 499](#)

EDC&I 500 Field Study (1-10, max. 20)

Individual study of an educational problem in the field under the direction of a faculty member. Prerequisite: approved plan of study and permission of the instructor must be filed in the Office of Curriculum and Instruction in the College of Education.

[View course details in MyPlan: EDC&I 500](#)

EDC&I 503 Foundations of Curriculum and Instruction (4)

Explores three critical elements of curriculum and instruction: the role of schooling in shaping students' opportunities to learn; content selection and structuring; and instruction.

[View course details in MyPlan: EDC&I 503](#)

EDC&I 505 Seminar in Curriculum and Instruction (1-5, max. 20)

Seminar on advanced topics in curriculum and instruction. Critical examination of current research and practice. Content varies.

[View course details in MyPlan: EDC&I 505](#)

EDC&I 506 Special Topics in Research Methods (1-6, max. 20)

Features a special topic in research design and execution such as a particular method of data collection, data analysis, data interpretation, honing a conceptual framework, or reviewing a literature. Prerequisite: EDLPS 525; EDLPS 526; EDPSY 490.

[View course details in MyPlan: EDC&I 506](#)

EDC&I 507 Methods for Teaching Culturally and Linguistically Diverse Exceptional Learners (3)

Focuses on understanding and enacting instructional methods for teaching culturally and linguistically diverse exceptional learners. Prepares educators to teach students who are commonly known as English learners (ELs) with exceptional learning/behavior needs and how to integrate intervention, instruction, and service within

general and special education classrooms. Offered: A.

[View course details in MyPlan: EDC&I 507](#)

EDC&I 518 Critical Theories and Approaches in Educational Research (3)

Explore range of ideas and tensions in critical theories in educational research and how they have been applied. Examine the work of theorists such as Bourdieu, Hall and theories such as Critical Race Theory and their applications in current educational studies.

[View course details in MyPlan: EDC&I 518](#)

EDC&I 519 Second Language Teacher Education and Identity (3)

Focus on understanding the landscape of second language teacher education and identity. Chart the research and practice around the professional lives of their teachers and connect it to the academic and social experiences of bilingual/multilingual children and adults in the United States and globally.

[View course details in MyPlan: EDC&I 519](#)

EDC&I 520 Current Models in Early Childhood Education (3)

[View course details in MyPlan: EDC&I 520](#)

EDC&I 521 Problems and Issues in Early Childhood Education (3)

[View course details in MyPlan: EDC&I 521](#)

EDC&I 522 Practicum in the Training of Early Childhood Instruction Personel (3)

[View course details in MyPlan: EDC&I 522](#)

EDC&I 523 Conceptions of Race, Equity, and Social Justice in Mathematics Education (4)

Explores the most current theories shaping the teaching, learning, and schooling of mathematics education. Issues examined include race, equity, social justice, language, class, gender, culture, and power and their intersections with mathematics education.

[View course details in MyPlan: EDC&I 523](#)

EDC&I 524 Seminar in Teacher Education (3, max. 6)

Focus on recent research, issues, and proposals for future development in teacher education, certification, and continuing professional growth. Alternate year offering focuses on either preservice or in-service issues.

[View course details in MyPlan: EDC&I 524](#)

EDC&I 525 Teacher Learning and School Change (3-4)

Synthetic study of how researchers understand what enables teachers and schools to transform themselves. Examines how the fields of teacher learning and school change can inform each other in order to enrich research and development in professional and school learning.

[View course details in MyPlan: EDC&I 525](#)

EDC&I 526 Inside Teacher Communities (3-4)

Examines different perspectives on professional communities, the roles of communities in teachers' learning, the challenges these communities face, and the possible ramifications of professional communities for students. Participants explore practical tools for studying, engaging in, and building professional learning communities in schools.

[View course details in MyPlan: EDC&I 526](#)

EDC&I 527 Pedagogies of Professional Education (3)

Investigates the theories of learning, models of teaching, and contextual features that impact the design and enactment of a variety of pedagogies used in various professional education programs. Considers what particular pedagogies demand on the part of the professional educator.

[View course details in MyPlan: EDC&I 527](#)

EDC&I 528 Foundations of Language, Literacy, and Culture (4)

Explores the nature of literacy by examining language acquisition and its impact on literacy; historical theories and research on reading and writing processes; and how recognition and appreciation of cultural variation has changed literacy instruction and curricula over the past decades. Draws on seminal historical and current research. Offered: A.

[View course details in MyPlan: EDC&I 528](#)

EDC&I 529 Reading and Writing Connections: Theories and Practices for Instruction (3)

Explores the reciprocity of the reading and writing relationship. considers the connections to language development for young children and English language Learners (ELLs), as well as how reading and writing develop for older students.

[View course details in MyPlan: EDC&I 529](#)

EDC&I 530 Approaches to Literacy Instruction (4)

Designed to aid experienced teachers who possess background in the teaching of literacy, and presents a variety of approaches and actual analysis of approaches. Prerequisite: teaching experience and a basic course in the teaching of reading.

[View course details in MyPlan: EDC&I 530](#)

EDC&I 531 Seminar: Critical Review of Literacy Materials (4)

Students formulate and apply criteria for assessing materials, with emphasis on linguistic, cultural, and psychological factors; instruction effectiveness, interest level; and educational objectives. Prerequisite: teaching experience and one basic course in the teaching of reading.

[View course details in MyPlan: EDC&I 531](#)

EDC&I 532 Seminar in Literacy Research (4, max. 12)

Focuses on understanding scholarly research including various research methodologies (e.g. descriptive, correlational, experimental, quasi-experimental, qualitative) and the research questions they are designed to address. Prerequisite: permission of instructor.

[View course details in MyPlan: EDC&I 532](#)

EDC&I 533 Seminar: Conducting Research in Reading (3, max. 6)

Students design and conduct original research studies in the field of reading. Emphasis on research rationale, choice of productive research types, and reporting of research results and implications. Prerequisite: EDC&I 532.

[View course details in MyPlan: EDC&I 533](#)

EDC&I 534 Reading Comprehension Instruction K-12 (4)

Focuses on research-based comprehension strategy instruction and text-based discussion of different types in K-12 classrooms. Examines various comprehension models, strategies for instruction, and assessments of comprehension. Prerequisite: one 400- or 500-level education curriculum and instruction course in reading or language arts or one graduate course in literature for children or young adults.

[View course details in MyPlan: EDC&I 534](#)

EDC&I 535 Doctoral Seminar in Literacy Research (1-2, max. 18) *H. HEBARD, R. HUDSON, D. MCCUTCHEN, S. VALENCIA*

Discusses a literary topic of interest. Instruction and discussion focus on close reading of research from a variety of theoretical and research traditions. Prerequisite: EDC&I 534. Offered: AWSp.

[View course details in MyPlan: EDC&I 535](#)

EDC&I 536 Writing Instruction: Research, Theory, and Practice (4) *H. HEBARD*

Provides a foundation in writing instruction theory, research, and practice that is relevant for teachers, specialists, curriculum developers, and researchers in literacy. Offered: WSpS.

[View course details in MyPlan: EDC&I 536](#)

EDC&I 537 Classroom Discourse (4) *H. HEBARD*

Introduction to theoretical and empirical works on the study of classroom discourse. Exploration of the ways in which classroom discourse can support or constrain opportunities to learn. Offered: A.

[View course details in MyPlan: EDC&I 537](#)

EDC&I 538 Discourse in the Mathematics Classroom (4)

Examines ways of looking at discourse in mathematics classrooms as it relates to teaching practice and student learning. Includes reading both seminal and cutting-edge works in the study of discourse in the mathematics classroom, looking at multiple school contexts and across grade levels.

[View course details in MyPlan: EDC&I 538](#)

EDC&I 539 Students' Mathematical Thinking, Curriculum, and Pedagogy (4)

Examines ways of understanding the development of students' mathematical thinking. Intensive study of classroom videos, mathematical curricula, and fieldwork enable students to study the relationship among students' mathematical thinking, curriculum, and pedagogy.

[View course details in MyPlan: EDC&I 539](#)

EDC&I 540 Immigrant Schooling (3)

Educational needs of bilingual students: research findings, special programs, materials, and methodologies that bilingual-bicultural education can provide to meet those needs. Cultural combinations of bilingual populations in American culture; historical, social, and linguistic factors affecting their K-12 education.

[View course details in MyPlan: EDC&I 540](#)

EDC&I 542 Approaches to Assessing Second Language Students in K-12 Schools (3)

Examines the multiple ways of assessing linguistically diverse students in K-12 schools, including standardized and alternative assessments of these students. Prerequisite: a course in ESL methods.

[View course details in MyPlan: EDC&I 542](#)

EDC&I 544 Immigration and Education: Immigrant Student Perspectives (3)

Examines the multitude of factors that shape the immigrant student experience in U.S. schools. Takes an interdisciplinary perspective drawing on research from sociology, anthropology, and education, to understand teaching and learning from the perspective of immigrant students. Prerequisite: EDC&I 540 or equivalent.

[View course details in MyPlan: EDC&I 544](#)

EDC&I 545 Multilingual Socialization and Development (3)

Explores the research base examining second language acquisition, in and out of school contexts. Focuses on the home language practices of linguistically diverse students with the purpose of understanding how these processes influence school learning.

[View course details in MyPlan: EDC&I 545](#)

EDC&I 547 Sociolinguistics (3)

The study of language in its social context and the study of social life through language. Explores issues in the field of sociolinguistics and sharpens tools to explore educational issues related to linguistic and cultural diversity. Prerequisite: EDC&I 540 or equivalent.

[View course details in MyPlan: EDC&I 547](#)

EDC&I 548 Methods in Teaching English as a Second Language (4)

Prepares teachers to teach English as a second language to students who are acquiring English in K-12 settings. Emphasizes the scaffolding of the development of the four language domains; listening, speaking, reading, and writing. Prerequisite: EDC&I 540 and EDC&I 545 or permission of instructor.

[View course details in MyPlan: EDC&I 548](#)

EDC&I 549 Practicum in Teaching English Learners in Context (3)

Provides experiences in the field observing and working with an experienced ELL-endorsed teacher. Consists of observation; planning, teaching, and reflecting on at least two weeks worth of ELL-focused instruction lessons;

and continued development of the methodological competencies needed to teach ELL students through seminar sessions at the practicum site.

[View course details in MyPlan: EDC&I 549](#)

EDC&I 550 Educational Technology Research (3)

Analysis, critique, and practical experience with research studies of all types (experimental, ethnographic, evaluation) concerning questions of interest to educational technologists. Prerequisite: EDC&I 480, a research methods course, or permission of instructor.

[View course details in MyPlan: EDC&I 550](#)

EDC&I 551 Introduction to Instructional Design (3)

An experimental course in analyzing, designing, developing, and formatively evaluating instructional products using the Instructional Systems Design (ISD) Mode. Also, discussion of how to successfully implement an instructional product/program within an organization using change management principles. Business and industry training focus.

[View course details in MyPlan: EDC&I 551](#)

EDC&I 552 Coaching and Mentoring Adult Learners (3) *S. BAGLEY*

Provides a foundation in coaching, mentoring, and other forms of peer-driven professional development in educational settings, grounded within research on adult professional learning and socio-cultural theories.

[View course details in MyPlan: EDC&I 552](#)

EDC&I 556 Elementary School Curriculum (4)

Study of elementary school curriculum, its design, rationale, and delivery. Current trends and issues affecting elementary school curriculum analyzed.

[View course details in MyPlan: EDC&I 556](#)

EDC&I 558 Secondary School Curriculum (4)

Systematic analysis of current curriculum practices, with particular emphasis on the social and historical forces affecting secondary-school curriculum.

[View course details in MyPlan: EDC&I 558](#)

EDC&I 559 Principles and Procedures of Curriculum Development (3)

Intensive study of basic principles and procedures utilized in development of curricula. Participants have opportunities to apply such procedures in class activities. Attention given to curriculum foundations.

[View course details in MyPlan: EDC&I 559](#)

EDC&I 560 Social Studies Education Programs and Practices (3)

Stresses powerful instructional strategies, materials, and a selection of content in social studies education. For experienced teachers and non-social studies students in the Teacher Education Program.

[View course details in MyPlan: EDC&I 560](#)

EDC&I 561 Instruction for Under-Achieving Readers (2-10, max. 20)

Covers instructional techniques addressing the comprehension, decoding, vocabulary, and fluency needs for under-achieving readers as well as strategies for assessing students' reading abilities and planning for instruction.

[View course details in MyPlan: EDC&I 561](#)

EDC&I 562 Literacy in the Content Areas (4) *H. HEBARD*

Study of reading, writing, listening, and speaking in content area instruction. Offered: WS.

[View course details in MyPlan: EDC&I 562](#)

EDC&I 563 Topics in Adolescent Literacies (4, max. 8) *H. HEBARD*

Provides an introduction to several important topics in adolescent literacies. Topics covered may change from year to year.

[View course details in MyPlan: EDC&I 563](#)

EDC&I 565 Seminar in Social Studies Education: Elementary Emphasis (3)

Intensive study of the social studies curriculum, with particular emphasis on current literature and research.

Prerequisite: EDC&I 465 or equivalent.

[View course details in MyPlan: EDC&I 565](#)

EDC&I 566 Seminar in Social Studies Education: Secondary Emphasis (3)

Intensive study of the social studies curriculum, with particular emphasis on current literature and research.

[View course details in MyPlan: EDC&I 566](#)

EDC&I 567 Current Issues in Social Studies Education (1-3, max. 20)

Discussion of problems and issues of current interest and importance in social studies education.

[View course details in MyPlan: EDC&I 567](#)

EDC&I 568 Youth Multiliteracies: Multimodality, Culture, and Identity (4) *H. HEBARD*

Focuses on the role of multimodal literacies in the lives of diverse youth. Considers the implications of a rapidly changing communication landscape for teaching and learning literacies in schools.

[View course details in MyPlan: EDC&I 568](#)

EDC&I 569 Educating Ethnic Minority Youths (4)

Intensive analysis and review of the research and curricular programs related to the social, psychological, and political factors that influence the school experiences of ethnic minority youths. Special attention given to instructional and curricular programs for African American, American Indian, Mexican American, Puerto Rican American, and Asian American students. Prerequisite: graduate standing or permission of instructor.

[View course details in MyPlan: EDC&I 569](#)

EDC&I 570 Seminar in Science Education: Elementary Emphasis (3)

Investigation of curriculum and instruction in science at elementary-school levels, with particular emphasis on current literature and research. Prerequisite: EDC&I 470 or equivalent.

[View course details in MyPlan: EDC&I 570](#)

EDC&I 571 Ambitious Learning by Design in Science Classrooms (4)

Explores the frontiers of research in science learning environments that are both rigorous and equitable. Allows individuals to wrestle with the current problems of teaching and learning, including how to design opportunities for all students to participate in the discourses and practice of science. Prerequisite: EDC&I 471 or equivalent.

[View course details in MyPlan: EDC&I 571](#)

EDC&I 572 Current Issues in Science Education (1-5, max. 6)

Discussion of topics and problems of current interest and importance in science education.

[View course details in MyPlan: EDC&I 572](#)

EDC&I 573 School Reform and Multicultural Education (3)

Similarities and differences among the visions, goals, and strategies of proposals for school reform and multicultural education are analyzed; implications for practice in curriculum and instruction are deduced from these analyses. Prerequisite: one course in multicultural education or permission of instructor.

[View course details in MyPlan: EDC&I 573](#)

EDC&I 574 Race, Gender, and Knowledge Construction: Curriculum Considerations (3)

Using historical and contemporary perspectives, considers ways in which knowledge related to race and gender has been and is constructed and the implications of ways in which knowledge is constructed for curriculum reform and teaching. Prerequisite: one course in ethnic studies, multicultural education, or women studies or permission of instructor.

[View course details in MyPlan: EDC&I 574](#)

EDC&I 575 Seminar in Mathematics Education: Elementary Emphasis (3)

Investigation of curriculum and instruction in mathematics at the elementary-school level; review of research

and preparation of proposals.

[View course details in MyPlan: EDC&I 575](#)

EDC&I 576 Seminar in Mathematics Education: Secondary Emphasis (3)

Investigation of curriculum and instruction in mathematics at the secondary-school level; review of research and preparation of proposals.

[View course details in MyPlan: EDC&I 576](#)

EDC&I 577 Current Issues in Mathematics Education (1, max. 20)

Discussion of problems and issues of current interest and importance in mathematics education.

[View course details in MyPlan: EDC&I 577](#)

EDC&I 578 Multicultural Education Across Nations: Policy and Curriculum Issues (3) *J. BANKS*

Acquaints students with concepts, theories, research, and practices in multicultural education, diversity, and citizenship education in nations around the world. Emphasis on how nations educate students for citizenship and balance unity and diversity. Completion of a major paper that examines diversity and citizenship within a nation outside of the United States. Offered: W.

[View course details in MyPlan: EDC&I 578](#)

EDC&I 580 Technology in Context (3)

Focuses on development of appropriate methods and concepts for research on technology in schools, workplaces, and other naturalistic settings. Fieldwork exercises and reading exemplary studies from multiple disciplinary perspectives. Prerequisite: EDC&I 510, EDC&I 511.

[View course details in MyPlan: EDC&I 580](#)

EDC&I 581 Cognitive Systems Design (3)

Covers the design of applied technology-based learning systems, informed by current views of learning, technology, and cognition. Emphasizes synthesizing students' knowledge of technology, learning and research in collaborative settings. Prerequisite: EDC&I 510, EDC&I 511, EDC&I 512, EDC&I 580, or permission of instructor.

[View course details in MyPlan: EDC&I 581](#)

EDC&I 582 Design Experimentation and Implementation in Context (3)

Introduces theoretical, methodological, and practical issues involved with studying the designed use of learning technologies in real world settings. Focuses on engaging in empirical study of the designed system through partnerships involving education researchers, educators, and technologists. Prerequisite: EDC&I 510, EDC&I 511, EDC&I 512, EDC&I 580, EDC&I 581, or permission of instructor.

[View course details in MyPlan: EDC&I 582](#)

EDC&I 585 Technology and the Culture of Education (3)

Social impact of technology on education in the United States and elsewhere: social, political, and cultural factors affecting educational communication and technology; roles and relationships among instructors and learners; appropriate technology in developing countries; technology's long-term influence on thought and values.

[View course details in MyPlan: EDC&I 585](#)

EDC&I 587 Design and Application of Interactive and Immersive Instructional Systems (3)

Theoretical and empirical questions involved in design of interactive instructional systems using such technologies as virtual reality and CAI. Specific problems inherent in design of complex learning environments: immersion, control, structure, sequence of experiences, navigation, learner guidance. Educational uses of systems. Prerequisite: either EDC&I 583 or permission of instructor.

[View course details in MyPlan: EDC&I 587](#)

EDC&I 590 Seminar in Elementary Education (3)

Exploration of the philosophy, history, purposes, curriculum, methods, and school organization of elementary

education. Prerequisite: elementary-school teaching experience, EDC&I 556.

[View course details in MyPlan: EDC&I 590](#)

EDC&I 591 Seminar in Curriculum Research (3)

Analysis of past and current empirical, historical, ethnographic research, and philosophical analysis of the curriculum field. Studies considered include research in curriculum development, the curriculum plan, contextual characteristics, and factors related to curriculum participants. Group and individual analyses focus on theory generation and practical applications of research. Prerequisite: EDC&I 559 or permission of instructor.

[View course details in MyPlan: EDC&I 591](#)

EDC&I 592 Seminar in Secondary Education (3)

Research and study of secondary education. Primary focus on factors involving change in secondary-school curriculum and organization. Prerequisite: EDC&I 558.

[View course details in MyPlan: EDC&I 592](#)

EDC&I 593 Seminar in Curriculum: Theory and Practice (3)

Investigation of curriculum theory and practice. Consideration is given to theoretical writings that address the relationships between various curricular variables. Theoretical positions are related to curricular practices and innovations. Prerequisite: EDC&I 559.

[View course details in MyPlan: EDC&I 593](#)

EDC&I 594 Seminar in Curriculum: Issues, Systems, Models (3)

Emphasis on the current approaches to curriculum and curriculum innovation. Attention is given to major educational issues as they affect curricular activity. Prerequisite: EDC&I 559.

[View course details in MyPlan: EDC&I 594](#)

EDC&I 595 Seminar in Analysis of Teaching (3)

Investigation of the ways in which classroom teaching has been analyzed from a variety of disciplinary perspectives. Focus on methods, findings, and implications of research on teaching. Prerequisite: teaching experience.

[View course details in MyPlan: EDC&I 595](#)

EDC&I 596 Seminar in Strategies of Instruction (3)

Various instructional models applicable to all levels of schooling. Theoretical and philosophical bases for these instructional models are considered.

[View course details in MyPlan: EDC&I 596](#)

EDC&I 597 Curriculum Evaluation Seminar (3, max. 6)

Focuses on the evaluators' roles, evaluation theory and models, and selected curricular evaluations. Examples are drawn from the several disciplines commonly offered in the elementary and secondary schools. Students are expected to identify an evaluation problem and to develop an evaluation design that can be implemented as a practical solution to the problem. Prerequisite: EDC&I 559 and permission of instructor.

[View course details in MyPlan: EDC&I 597](#)

EDC&I 599 Independent Studies in Education (*)

Independent studies or readings of specialized aspects of education. Prerequisite: permission of instructor.

[View course details in MyPlan: EDC&I 599](#)

EDC&I 600 Independent Study or Research (*-)

Prerequisite: permission of instructor.

[View course details in MyPlan: EDC&I 600](#)

EDC&I 601 Internship ([1-10]-, max. 20)

Prerequisite: permission based on approval of proposal submitted during quarter preceding the internship.

Credit/no-credit only.

COLLEGE OF EDUCATION COLLEGE OF EDUCATION EARLY CHILDHOOD AND FAMILY STUDIES

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

ECFS 200 Introduction to Early Childhood and Family Studies (3) I&S

Explores current practices, programs, and research in the field of early childhood and family studies. Topics include: child development, early childhood education, parenting and family support, mental health, poverty, and other risk factors. Offered: AW.

[View course details in MyPlan: ECFS 200](#)

ECFS 201 Introduction to Online Learning (2)

Introduction to the use of a variety of technologies necessary for completion of the ECFS online undergraduate degree, including video technologies, peer collaboration, and portfolio development. Prerequisite: ECFS 200.

[View course details in MyPlan: ECFS 201](#)

ECFS 301 Early Childhood Curriculum (5) I&S

Focuses on developmental foundations and theoretical and researched-based models of early childhood curriculum. Studies approaches to designing, organizing, and implementing early learning programs. Studies curricular content for supporting children's learning and development in physical development; social and emotional development; approaches to learning; cognition; and language and early literacy. Offered: W.

[View course details in MyPlan: ECFS 301](#)

ECFS 303 Service Learning and Research I (1-6, max. 6)

Provides students with opportunities in community-based early childhood or family support settings. Includes a field experience and a once-a-week seminar. The seminar ties together research and practice demonstrating how research informs evidence-based decision-making in programs and services for young children and families.

Prerequisite: ECFS 200 Offered: AWSp.

[View course details in MyPlan: ECFS 303](#)

ECFS 304 Service Learning and Research II (1-6, max. 6)

Provides students with opportunities in community-based early childhood or family support settings. Includes a field experience and a once-a-week seminar. Ties together research and practice demonstrating how research informs evidence-based decision-making in programs and services for young children and families. Credit/no-

credit only. Offered: WSp.

[View course details in MyPlan: ECFS 304](#)

ECFS 305 Service Learning and Research III (1-6, max. 6)

Provides students with opportunities in community-based early childhood or family support settings. Includes a field experience and a once-a-week seminar. The seminar ties together research and practice demonstrating how research informs evidence-based decision-making in programs and services for young children and families.

Credit/no-credit only.

[View course details in MyPlan: ECFS 305](#)

ECFS 310 Early Childhood Education Lecture Series: Influential Scholars in the Field (2-5)

Lecture series featuring scholars in early childhood education presenting a variety of approaches to bridging research and practice as they underscore the importance of early learning across curriculum domains and in various contexts. Helps students interpret the conclusions and recommendations of scholarly contexts.

[View course details in MyPlan: ECFS 310](#)

ECFS 311 Teaching from the Inside Out: Being a Resilient Educator (3) I&S

Equips students with skills and strategies to optimize their effectiveness as early childhood educators. Students learn how to be as healthy as possible; possess the confidence to manage stressful situations; connect effectively with others; and focus on the positive aspects of life.

[View course details in MyPlan: ECFS 311](#)

ECFS 312 Positive Behavioral Support in Early Childhood (3-5) *Joseph*

Addresses the significance of social and emotional development in the early years. Discusses the adoption of models and evidence-based practice strategies that focus on promoting social-emotional development, providing support for children's appropriate behavior and preventing challenging behavior. Examines how adult resiliency and wellness relates to improved early care and teaching. Offered: AWSp.

[View course details in MyPlan: ECFS 312](#)

ECFS 315 Parenting and Child Development: Influences of Poverty, Immigration, and Culture in the Earliest Years of Life (5) DIV

Examines how complex social systems, including income inequalities, race/ethnicity, and immigration status contribute to parenting practices and family investment in child development, with a focus on young children from birth through age 8. Offered: W.

[View course details in MyPlan: ECFS 315](#)

ECFS 321 ENGAGING INTERACTIONS AND ENVIRONMENTS (3) I&S *Joseph*

Increases participants' knowledge about the importance of high quality early childhood education, and the specific types of environments and interactions that support the development of children's social-emotional, cognitive, and early academic skills. Offered: AWSpS.

[View course details in MyPlan: ECFS 321](#)

ECFS 399 Current Issues and Trends in Early Childhood and Family Studies (3-5, max. 10) I&S

Explores current theory, research, policy, and practice in early childhood and family studies. Offered: AWSpS.

[View course details in MyPlan: ECFS 399](#)

ECFS 400 Child Observation and Assessment (5) I&S

Focuses on observation and methods used to study and understand young children in the context of families and society. Develops skills to understand children's behavior in learning environments. Examines approaches to and purposes for assessment and documentation of children's development and learning. Explores approaches to assessing early learning environments. Offered: A.

[View course details in MyPlan: ECFS 400](#)

ECFS 401 Understanding Early Childhood and Family Studies Research (5) I&S, QSR

Focuses on the kinds of knowledge, ways of knowing, and modes of inquiry relevant to early childhood and

family studies. Through identifying and reviewing substantive research in their areas of interest, students¹⁴²⁷ locate ideas for inquiry within the research literature in early childhood and family studies. Prerequisite: EDPSY 302 and ECFS 303. Offered: A.

[View course details in MyPlan: ECFS 401](#)

ECFS 402 Social Policy and Young Children and Families (5) I&S

Seeks to deepen understanding of contemporary social issues and problems that impact families and young children. Discusses legislation and other policies from a local, national, and global perspective. Explores the complex web of social, private, and governmental organization that impact families and young children.

Prerequisite: ECFS 401. Offered: W.

[View course details in MyPlan: ECFS 402](#)

ECFS 403 Senior Capstone (3-5)

Students in the Core pathway complete and present a senior project during the final quarter in the major. Provides advanced opportunity to synthesize research and policy perspectives about a topic of relevance to the field of early childhood education and present findings to a panel of peers and colleagues. Prerequisite: ECFS 401. Offered: WSp.

[View course details in MyPlan: ECFS 403](#)

ECFS 410 Laying the Foundation for Reading: Supporting Language and Literacy Development in Preschool (5) VLPA

Increases knowledge about language and literacy developments between ages 3 to 5 and the ways in which these developments are critical precursors to the emergence of and success with formal reading skills, and to build participants' use of evidence-based language and literacy practices within the preschool classroom.

[View course details in MyPlan: ECFS 410](#)

ECFS 411 Fostering the Development of Young Children's Mathematics and Science Knowledge and Skills (5) I&S

Increases knowledge about cognitive developments between ages 3 to 5 and ways in which these developments are critical precursors to emergence and success with later content and skills in mathematics and science. Learn to design and implement effective instructional practices and interactions with children that support their learning and development.

[View course details in MyPlan: ECFS 411](#)

ECFS 412 Learning with Digital Media in Early Childhood (3)

Addresses how young children learn basic literacy and mathematics skills, and develop an interest in science from engaging with digital media. Examines how teachers of young children need to be prepared in instructional practices that can enhance learning from media in a developmentally appropriate way.

[View course details in MyPlan: ECFS 412](#)

ECFS 419 Family and Community Influences on the Young Child (5) I&S, DIV

Develops an understanding of families of young children from different socio-cultural backgrounds, child socialization and development in family and community contexts (immigrant, refugee, indigenous, special-needs and vulnerable children), parenting across cultures, family processes, family systems theories, socio-cultural theories, and family-child collaborative partnerships using family and community strengths and resources.

Prerequisite: EDSPE 404. Offered: ASp.

[View course details in MyPlan: ECFS 419](#)

ECFS 454 Senior Project I (3)

First of a three-quarter sequence leading to the completion and presentation of the senior project during spring quarter. Provides advanced opportunities to integrate theory and practice in community-based early childhood or family support programs and research settings. Includes a weekly seminar to reflect on and expand on applied experiences. Offered: A.

[View course details in MyPlan: ECFS 454](#)

ECFS 455 Senior Project II (3)

Second of a three-quarter sequence leading to the completion and presentation of the senior project during spring quarter. Provides advanced opportunities to integrate theory and practice in community-based early childhood or family support programs and research settings. Includes a weekly seminar to reflect on and expand on applied experiences. Prerequisite: ECFS 454. Offered: W.

[View course details in MyPlan: ECFS 455](#)

ECFS 456 Senior Project III (3-5)

Third of a three-quarter sequence leading to the completion and presentation of the senior project during the final quarter in the major. Provides advanced opportunities to integrate theory and practice in community-based learning and research experience continues during the quarter. Prerequisite: ECFS 454 Offered: WSp.

[View course details in MyPlan: ECFS 456](#)

ECFS 480 Individualizing Teaching and Learning (5) I&S

Introduction to effective practices that support the development of young children. Focuses on evidence-based, individualized instructional methods and strategies used in teaching and facilitation the development of young children in response to both their strengths and needs. Offered: AWSp.

[View course details in MyPlan: ECFS 480](#)

ECFS 495 Advanced Seminar in Early Childhood and Family Studies (3, max. 9)

Addresses current topics and critical issues in the field of early childhood and family studies in an advanced seminar format. Offered: AWSp.

[View course details in MyPlan: ECFS 495](#)

ECFS 499 Undergraduate Research (*)

Students conducting this research produce a report or a paper setting forth the results of their investigation which should be regarded as a basic part of the independent study plan. Credit/no-credit only. Offered: AWSpS.

[View course details in MyPlan: ECFS 499](#)

COLLEGE OF EDUCATION COLLEGE OF EDUCATION EDUCATION (TEACHER EDUCATION PROGRAM)

Detailed course offerings (Time Schedule) are available for

- [Spring Quarter 2017](#)
- [Summer Quarter 2017](#)
- [Autumn Quarter 2017](#)

EDTEP 501 Community-Based Field Experience (1-10, max. 15)

Field experience and group discussions accompanying the first quarter of study in an Elementary Teacher Education Program. Field experience in community based organizations or school settings. Prerequisite: elementary TEP student. Credit/no-credit only.

[View course details in MyPlan: EDTEP 501](#)

EDTEP 502 Second Quarter Field Experience - Elementary (2-10, max. 15)

Field experience accompanying the second quarter of study in an Elementary Teacher Education Program. Observe school-year opening full-time in late August through September; field experiences during the quarter in supervised school placements. Prerequisite: elementary TEP student. Credit/no-credit only.

[View course details in MyPlan: EDTEP 502](#)

EDTEP 503 Third Quarter Field Experience - Elementary (4)

Field experience and use of reflective process in small group discussions accompanying third quarter of study in an Elementary Teacher Education Program. Field experiences during the quarter in supervised school placements. Prerequisite: elementary TEP student. Credit/no-credit only.

[View course details in MyPlan: EDTEP 503](#)

EDTEP 505 Capstone Project: Tools for Reflection - Elementary ([1-3]-, max. 3)

Group discussions fostering integration of coursework, field experience, and teaching experiences through documentation and reflection on first year teaching experiences. Using certification standards for teachers, students illustrate their learning through multiple forms of evidence. Final capstone project is presented to an audience. Prerequisite: elementary TEP student. Credit/no-credit only.

[View course details in MyPlan: EDTEP 505](#)

EDTEP 511 School and Society (3)

Exploration of issues regarding schooling and society, such as matters of value and value tension in American schools. Consideration of social values such as equality, opportunity, pluralism, and community; historical and

contemporary evidence of values in schooling; and how values can conflict in policy and practice. Prerequisite: elementary TEP student. ¹⁴³⁰

[View course details in MyPlan: EDTEP 511](#)

EDTEP 515 Instructional Practice and Performance I (4)

Focuses on supporting teacher candidates to plan for, enact, and reflect on productive learning experiences for K-12 students where discussion is a central component and learning experience. First in a three-course series.

[View course details in MyPlan: EDTEP 515](#)

EDTEP 516 Instructional Practice and Performance II (4)

Supports candidates to plan for, enact, and reflect on a variety of assessment opportunities presented to K-12 students. Candidates analyze K-12 students' learning through investigation of a variety of assessment data points as evidence. Second in a three-course series.

[View course details in MyPlan: EDTEP 516](#)

EDTEP 517 Instructional Practice and Performance III (4)

Supports teacher candidates to plan for, enact, and reflect on productive learning experiences for K-12 students where engaging in rigorous content instruction is a central component and learning experience. Third in a three-course series.

[View course details in MyPlan: EDTEP 517](#)

EDTEP 521 Teaching and Learning in Numeracy I (4)

Focus on mathematics from the perspective of the learner and on the meaning of understanding a mathematics concept. Examination of cultural aspects of the development of these concepts. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 521](#)

EDTEP 522 Teaching and Learning in Numeracy II (3)

Focus on pedagogy of mathematics. In conjunction with field experience, students extend understanding of mathematics and successfully integrate mathematics as a tool for learning science and art. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 522](#)

EDTEP 523 Teaching and Learning in Science (3)

Science teaching in a manner consistent with how young children learn science concepts and skills.

Opportunities are provided for work on science activities similar to those used with elementary school children and to experience many of the problems and successes of preadolescents. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 523](#)

EDTEP 531 Teaching and Learning in Literacy I (3)

Investigation of the multiple natures of literacy development. Students study the impact of culture and family on literacy development by reading and discussing a variety of texts while also experiencing the development of their own learning through literature study, the writing process, and oral presentations. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 531](#)

EDTEP 532 Teaching and Learning in Literacy II (4)

Introduces participants to the content and process of literacy learning in elementary school. Study of abilities needed for effective literacy use, instructional strategies to help children acquire these abilities, and assessment strategies to evaluate student progress. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 532](#)

EDTEP 533 Teaching and Learning in Literacy III (3)

Introduces participants to the content and process of literacy learning in elementary school. Study of abilities needed for effective literacy use, instructional strategies to help children acquire these abilities, and assessment

strategies to evaluate student progress. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 533](#)

EDTEP 541 Dilemmas of Teaching and Learning in Elementary School ([2-4]-, max. 4)

Covers human learning in the elementary school setting with emphasis on discipline-specific cognition and cognitive development. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 541](#)

EDTEP 543 Teaching and Learning in Social Studies. (4)

Strategies for teaching social studies and the arts through integrated thematic units of curriculum and instruction.

Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 543](#)

EDTEP 544 Differentiated Instruction (1-4, max. 20)

Introduction to the concepts and practice of differentiated instruction for children with diverse developmental, linguistic, and cultural characteristics. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 544](#)

EDTEP 551 Multicultural Teaching (3)

Concepts, theories, and strategies that constitute major dimensions of multicultural education. Focus on racial and ethnic groups, social class, and gender. Dimensions of multicultural education examined include content integration, knowledge construction process, prejudice reduction, equity pedagogy, and empowering school culture and social structure. Prerequisite: TEP student.

[View course details in MyPlan: EDTEP 551](#)

EDTEP 552 Assessment in Elementary Education ([1-2]-, max. 3)

Emphasis on methods of assessment that reinforce understanding of the various disciplines. Includes performance assessments, assessments of student projects and papers, traditional exams, and observational exams. Prerequisite: elementary TEP student.

[View course details in MyPlan: EDTEP 552](#)

EDTEP 560 Teaching for Learning in Secondary School (3)

Studies human learning in an educational setting, with an emphasis on learning of school subjects. Topics include nature of learning, knowledge and teaching, motivation, culture, and cognition. First in a two-course sequence. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 560](#)

EDTEP 561 Teaching and Learning for Secondary Schools II (2)

Study of human learning in an educational setting, with an emphasis on learning of school subjects. Topics include nature of learning, knowledge and teaching, motivation, culture, and cognition. Second of a two-course sequence. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 561](#)

EDTEP 562 Adolescent Development and Education I (2-)

Overview of trends and issues of adolescent development and behavior in relation to contemporary secondary schooling. Examines psychological perspectives on adolescent identity, interpersonal relationships, academic engagement, and social deviancy in schools. First in a two-course sequence. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 562](#)

EDTEP 563 Adolescent Development and Education II (-2)

Overview of trends and issues of adolescent development and behavior in relation to contemporary secondary schooling. Examines psychological perspectives on adolescent identity, interpersonal relationships, academic engagement, and social deviancy in schools. Second in a two-course sequence. Prerequisite: secondary TEP

student.

[View course details in MyPlan: EDTEP 563](#)

EDTEP 564 Working in Schools (1-2, max. 20)

Explores the organizational, personal, and interpersonal aspects of working as a teacher in schools. Preparation for membership and leadership in a professional learning community and for continuing professional growth.

Prerequisite: TEP student Credit/no-credit only.

[View course details in MyPlan: EDTEP 564](#)

EDTEP 566 Creating Classrooms for All Students (2-4, max. 4)

Provides middle and high school teachers with an understanding of how to organize their classrooms so as to encourage and teach civility and be familiar with the needs of special education students.

[View course details in MyPlan: EDTEP 566](#)

EDTEP 571 Topics and Tensions in School and Society (4)

Exploration of issues of value and value tension in American schools. Consideration of social values of equality, opportunity, pluralism, and community, historical and contemporary evidence of values in schooling, and how values can conflict in policy and practice. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 571](#)

EDTEP 573 Assessment in Secondary Education (4)

Strong emphasis on methods of assessment that reinforce understanding of the various disciplines, including performance assessments, assessments of student projects and papers, traditional exams, and observational exams. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 573](#)

EDTEP 575 Working with English Language Learners and Literacy Across the Curriculum (4)

Prepares pre-service secondary teachers to meet the needs of culturally and linguistically diverse students in the mainstream secondary classroom. Emphasis on second language acquisition, critical literacy issues, and integration of language and literacy into academic content areas for adolescent learners.

[View course details in MyPlan: EDTEP 575](#)

EDTEP 580 Teaching English and Language Arts in Secondary School I (5-)

Teaching of English and language arts in middle, junior, or senior high school. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 580](#)

EDTEP 581 Teaching English and Language Arts in Secondary School II (-3)

Teaching of English and language arts in middle, junior, or senior high school. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 581](#)

EDTEP 582 Teaching Mathematics in the Secondary School I (5-)

Teaching of mathematics in middle, junior, or senior high school. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 582](#)

EDTEP 583 Teaching Mathematics in the Secondary School II (-3)

Teaching of mathematics in middle, junior, or senior high school. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 583](#)

EDTEP 584 Teaching Social Studies in the Secondary School I (5-)

Developing, teaching, and evaluating social studies courses on the middle, junior, and senior high school levels. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 584](#)

EDTEP 585 Teaching Social Studies in the Secondary School II (-3)

Developing, teaching, and evaluating social studies courses on the middle, junior, and senior high school levels.

Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 585](#)

EDTEP 586 Teaching Science in the Secondary School I (5-)

Teaching of science in middle, junior, or senior high school. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 586](#)

EDTEP 587 Teaching Science in the Secondary School II (-3)

Teaching of science in middle, junior, or senior high school. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 587](#)

EDTEP 588 Teaching World Languages I (5-)

Introduction to currently used foreign language teaching methods and approaches, including learning and teaching strategies and techniques for the four skills - reading, writing, speaking, listening - and culture. Current and future trends in pedagogy and technology. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 588](#)

EDTEP 589 Teaching World Languages II (-3)

Introduction to currently used foreign language teaching methods and approaches, including learning and teaching strategies and techniques for the four skills - reading, writing, speaking, listening - and culture. Current and future trends in pedagogy and technology. Prerequisite: secondary TEP student.

[View course details in MyPlan: EDTEP 589](#)

EDTEP 591 First Quarter Field Experience - Secondary (2-5, max. 10)

Field experience accompanying the first quarter of study in the Secondary Teacher Education Program. Observe and assist weekly during the quarter in supervised school placements. Prerequisite: secondary TEP student.

Credit/no-credit only.

[View course details in MyPlan: EDTEP 591](#)

EDTEP 592 Second Quarter Field Experience - Secondary (2-5, max. 10)

Field experience accompanying the second quarter of study in the Secondary Teacher Education Program.

Supervised placements in summer school program. Prerequisite: secondary TEP student. Credit/no-credit only.

[View course details in MyPlan: EDTEP 592](#)

EDTEP 593 Third Quarter Field Experience - Secondary (2-5, max. 10)
